Design and analysis of FET and BJT amplifiers; low, midrange, high-frequency analysis; difference amplifiers; feedback amplifiers; SPICE simulation; power amplifiers; digital logic families. Prerequisites: 055:018 (ECE:2410) and 055:040 (ECE:2400).

**055:043 (ECE:3400) Linear Systems II** 3 s.h.  
Continuation of 055:040 (ECE:2400), emphasis on Laplace and Z-transform analysis; unilateral and bilateral Laplace transforms; region of convergence; stability; block diagram algebra; first- and second-order continuous and discrete time systems; Bode plots. Prerequisites: 055:040 (ECE:2400).

**055:141 (ECE:5410) Advanced Circuit Techniques** 3 s.h.  
Advanced circuit principles; component, signal and noise models; sub-circuit design including oscillators, amplifiers, multipliers, noise generators, frequency converters, phase-locked loops, filters, transmission gates and level-shifters; measurement techniques including bridge, signal averaging and lock-in techniques, case studies of A/D and D/A converters, single-supply op amps, low-noise, large-signal and high frequency circuits; lab. Prerequisites: 055:041 (ECE:3410).

**055:142 (ECE:5420) Power Electronics** 3 s.h.  
Fundamental concepts and design techniques of power electronics circuits; switching power pole and various switch-mode DC to DC power conversion topologies; feedback control of switch-mode DC to DC power supplies; diode rectification of AC utility power and Power Factor Control (PFC) circuits; electromagnetic concepts and design of high-frequency inductors and transformers; electrically isolated switch-mode DC power supply topologies and soft-switching DC-DC converters and inverters; techniques for synthesis of DC and low-frequency AC sinusoidal voltages. Prerequisites: 029:081 (PHYS:1611) and 059:008 (ENGR:2120). Requirements: junior standing.

**055:143 (ECE:5620) Electric Power Systems** 3 s.h.  
Overview of electric power systems; single phase and three-phase representations of electric power signals and electromagnetic concepts; AC transmission lines and underground cables, power flow in a power system network, AC power transformers, High Voltage DC (HVDC) power transmission, electric power distribution, synchronous generators, voltage regulation and stability, power system transients and dynamic stability, control of interconnected power systems, transmission line faults, transient over-voltages and surge protection. Prerequisites: 029:081 (PHYS:1611) and 059:008 (ENGR:2120). Requirements: junior standing.

**055:145 (ECE:5450) Pattern Recognition** 3 s.h.  
Mathematical foundations and practical techniques of pattern recognition; adaptation, learning, description; statistical pattern recognition; syntactic pattern recognition, neural networks for recognition; fuzzy logic for recognition; nonstandard and combined pattern recognition approaches. Prerequisites: 055:040 (ECE:2400).

**055:146 (ECE:5460) Digital Signal Processing** 3 s.h.  
Theory, techniques used in representing discrete-time signals; system concepts in frequency and sampling domains; FIR and IIR digital filter theory, design and realization techniques; theory, application of discrete Fourier transforms/FFT. Prerequisites: 055:043 (ECE:3400).

**055:148 (ECE:5480) Digital Image Processing** 3 s.h.  
Mathematical foundations and practical techniques for digital manipulation of images; image sampling, compression, enhancement, linear and nonlinear filtering and restoration; Fourier domain analysis; image pre-processing, edge detection, filtering; image segmentation. Prerequisites: 051:080 (BME:2210) or 055:040 (ECE:2400). Same as 051:148 (BME:5220).

**055:245 (ECE:7450) Magnetic Resonance Imaging Systems** 3 s.h.  
Mathematical foundations and practical implementation for magnetic resonance imaging (MRI); principles of image formation using Fourier and projection techniques, non-Cartesian sampling, tomographic image reconstruction, sources of artifacts and their correction. Prerequisites: 055:146 (ECE:5460) and 055:148 (ECE:5480).

**055:247 (ECE:7470) Image Analysis and Understanding** 3 s.h.  
Mathematical foundations and practical techniques of digital image analysis and understanding; image segmentation (from edges and regions), object description (from boundaries, regions, scale, scale insensitive descriptions, 3-D shape, texture) pattern recognition (statistical and syntactic methods, cluster analysis), image understanding (knowledge representation, control strategies, matching, context, semantics), image analysis and understanding systems; lab arranged. Prerequisites: 055:148 (ECE:5480).

**055:248 (ECE:7480) Advanced Digital Image Processing** 3 s.h.  
Advanced local operators (scale-space imaging, advanced edge detection, line and corner detection), image morphology (binary/grayscale operators, morphological segmentation and watershed), digital topology and geometry (binary/fuzzy digital topology, distance functions, skeletonization), color spaces, wavelets and multi-resolution processing (Haar transform, multi-resolution expansions, wavelet transforms in one or two dimensions, fast wavelet transform, wavelet packets), image registration (intensity correlation, mutual information, and landmark-based deformable registration methods). Prerequisites: 055:146 (ECE:5460) and 055:148 (ECE:5480).

**055:292 (ECE:7920) ECE Graduate Seminar on Image Processing, Computer Vision and Medical Imaging** 0 s.h.  
Recent advances and research in image processing, computer vision, and medical imaging; presentation by guest lecturers, faculty, students. Requirements: graduate standing.
Communication and Information

055:050 (ECE:3500) Communication Systems 3 s.h.
Introduction to analog and digital communications, with an emphasis on modulation and noise analysis; Fourier analysis, probability theory, random variable and processes, AM, FM, pulse-coded modulation, binary digital modulation, SNR analysis of AM and FM, BER analysis of digital modulation schemes. Prerequisites: 22S:039 (STAT:2020) and 055:043 (ECE:3400).

055:054 (ECE:3540) Communication Networks 3 s.h.
Communication networks, layered network architectures, applications, network programming interfaces (e.g., sockets), transport, congestion, routing, data link protocols, local area networks, emerging high-speed networks, multimedia networks, network security, Internet protocol; technology examples. Prerequisites: 057:017 (ENGR:2730). Corequisites: 22S:039 (STAT:2020).

055:150 (ECE:5500) Communication Theory 3 s.h.
Random processes, source coding, digital transmission at baseband, optimum receiver design for Gaussian noise, error probability and power spectrum analysis, signal design for bandlimited channels, digital carrier modulation, bandwidth/energy/error probability tradeoffs, coding for error detection and correction. Prerequisites: 055:050 (ECE:3500).

055:152 (ECE:5520) Introduction to Information and Coding Theories 3 s.h.
Quantitative measure of information; source encoding; error detecting codes; block and convolutional codes, design of hardware and software implementations; Viterbi decoding. Prerequisites: 055:050 (ECE:3500).

Wireless sensor networks overview; antennas, radio propagation models; WSN power and energy considerations, engineering issues, batteries, networks layers, stacks; medium access control (MAC); spread spectrum, FHSS, CDMA; infrastructure establishment; WSN routing; localization; synchronization; sensors; RFID; WSN case studies; lab. Prerequisites: 055:050 (ECE:3500). Requirements: senior standing.

055:162 (ECE:5430) Electric Drive Systems 3 s.h.
Basic characteristics of DC and AC electric motors and their associated power electronics interfaces; applications of electric machines and drives that are essential for wind turbines, electric and hybrid-electric: emphasis on vehicles; electric machines in context of overall drives and associated applications; space-vector theory used to analyze electric machines and drives; DC motor/generator characteristics and control; AC single phase and three-phase motor characteristics and feedback control, including AC synchronous and induction motors. Prerequisites: 029:081 (PHYS:1611) and 059:008 (ENGR:2120). Requirements: junior standing.

055:163 (ECE:5630) Sustainable Energy Conversion 3 s.h.
Overview of sustainable energy conversion technologies; thermal energy conversion; Carnot and Rankine cycles; solar resource and raw energy availability, PV solar cell characteristics, solar panel construction, Maximum Power Point (MPP) tracking and utility grid interface; wind energy conversion resource and available energy, wind turbine configurations, electrical power interface electronics; ocean energy conversion tidal and wave resources and conversion technologies; tidal basin containment conversion and tidal current turbine systems. Prerequisites: 029:081 (PHYS:1611) and 059:008 (ENGR:2120). Requirements: junior standing.

055:164 (ECE:5640) Computer-Based Control Systems 3 s.h.
Discrete and digital control systems; application of computers in control; sampling theorem; discrete time system models; analysis and design of discrete time systems; control design by state variable and input/output methods; advanced topics in digital controls; lab. Prerequisites: 055:060 (ECE:3600). Same as 058:134 (ME:5362).

Waves and Materials

055:070 (ECE:3700) Electromagnetic Theory 3 s.h.
Electric and magnetic forces, Maxwell’s equations, wave propagation; applications, including radiation, transmission lines, circuit theory. Prerequisites: 22M:037 (MATH:3550) and 029:082 (PHYS:1612).

055:072 (ECE:3720) Electrical Engineering Materials and Devices 3 s.h.
Fundamentals of semiconductor physics and devices; principles of the p-n junction diode, bipolar transistor, field effect transistor. Prerequisites: 029:082 (PHYS:1612) and 055:041 (ECE:3410).

055:170 (ECE:5700) Advanced Electromagnetic Theory 3 s.h.
Time varying fields; plane wave propagation, reflection, refraction; waves in anisotropic media transmission lines, impedance matching, Smith chart; metallic and dielectric wave guides; resonators; antennas, antenna arrays. Prerequisites: 055:070 (ECE:3700).

055:172 (ECE:5720) Solid State Physical Electronics 3 s.h.
Advanced topics in semiconductor physics and devices; elementary concepts in quantum and statistical mechanics, diodes, bipolar transistor, field-effect transistor. Prerequisites: 055:072 (ECE:3720).

055:173 (ECE:4728) Introductory Solid State Physics 3 s.h.
Phenomena associated with solid state; classification of solids and crystal structures, electronic and vibrational properties in solids; thermal, optical, magnetic, dielectric properties of solids. Prerequisites: 029:140 (PHYS:3741) and 22M:028 (MATH:2850). Same as 029:193 (PHYS:4720).

055:177 (ECE:4720) Introductory Optics 3 s.h.
Geometrical and physical optics; interference; diffraction; polarization; microscopic origins of macroscopic optical properties of matter; optical activity; electro-optical, magneto-optical, acousto-optical phenomena; spontaneous Brillouin, Raman, Rayleigh scattering. Prerequisites: 029:130 (PHYS:3812). Same as 029:180 (PHYS:4720).

055:178 (ECE:5780) Optical Signal Processing 3 s.h.
Linear systems description of optical propagation; diffraction and angular plane wave spectrum; lenses as Fourier transformers, lens configurations as generalized optical processors; lasers, coherence, spatial frequency analysis; holography; convolvers, correlators, matched filters; synthetic aperture radar; optical computing. Requirements: for 055:178 (ECE:5780) — 055:070 (ECE:3700); for 029:184 (PHYS:4820) — 029:130 (PHYS:3812). Same as 029:184 (PHYS:4820).

055:179 (ECE:5790) Electro-Optics 3 s.h.
Wave equation solutions; optical birefringence; finite beam propagation in free space, dielectric waveguides and fibers; optical resonators: nonlinear phenomena, electro-optic, acousto-optic modulation; optical detection, noise; application to communication systems. Requirements: for 055:179 (ECE:5790) — 055:070 (ECE:3700); for 029:182 (PHYS:4726) — 029:130 (PHYS:3812). Same as 029:182 (PHYS:4726).

055:273 (ECE:7720) Semiconductor Physics 3 s.h.

055:274 (ECE:6726) Laser Principles 3 s.h.

055:276 (ECE:6720) Nonlinear Optics 3 s.h.

Graduate Seminars, Advanced Topics, Research

055:191 (ECE:5000) Graduate Seminar: Electrical and Computer Engineering 0 s.h.
Presentation and discussion of recent advances and research in electrical and computer engineering by guest lecturers, faculty, students. Requirements: graduate standing.
Mechanical and Industrial Engineering

Chair
• Andrew Kusiak

Professors

Associate professors
• Pablo Carrica, Yong Chen, Pavlo Krokhmal, Albert Ratner, Thomas Schnell, Hiroyuki Sugiyama, Geb W. Thomas, Shaoping Xiao, Olesya Zhupanska

Assistant professors
• James Buchholz, Hongtao Ding, Ibrahim Ozbolat

Professors emeriti

Undergraduate majors: industrial engineering (B.S.E.); mechanical engineering (B.S.E.)

Graduate degrees: M.S. in industrial engineering (optional concentration in wind power management); Ph.D. in industrial engineering; M.S. in mechanical engineering; Ph.D. in mechanical engineering

Website: http://www.mie.engineering.uiowa.edu/

The Department of Mechanical and Industrial Engineering offers distinct undergraduate and graduate degrees and research programs in industrial engineering and in mechanical engineering. It also is the administrative home of the undergraduate Certificate in Wind Energy (p. 887).

INDUSTRIAL ENGINEERING

Industrial engineering is concerned with analysis, design, and implementation of systems through optimal use of resources—human, material, energy, information, and financial. Systems may range from small units to extremely large operations. In order to accomplish these activities, the industrial engineer must be skilled in mathematics, physical sciences, management, and human relations as well as manufacturing, computer systems, economics, optimization, human behavior, and systems analysis and design.

Industrial engineers have many opportunities for employment and service in industrial, government, research, and public service organizations. Employment opportunities are among the most varied in the engineering field. Industrial engineers hold positions as advisors to management or may participate directly in management decisions. Representative job titles include industrial engineer, manufacturing engineer, systems analyst, quality specialist, operations research analyst, internal consultant, human factors specialist, supervisor, and manager. Industrial engineers are employed by manufacturing and energy firms, wind turbine manufacturers, government agencies, and service organizations such as airlines, banks, hospitals, health care groups, and consulting companies.

MECHANICAL ENGINEERING

Mechanical engineering is broadly concerned with energy, manufacturing, and design of machines. Mechanical engineers conceive, plan, design, and direct the manufacture, distribution, and operation of a wide variety of devices, machines, and systems—including complex human-machine systems—for energy conversion, biofuel production, environmental control, materials processing, transportation, materials handling, and other purposes. Major subspecialties of mechanical engineering include thermal-fluids engineering and mechanical systems engineering.

Thermal-fluid phenomena occur in many engineering systems and devices, such as aircraft; automobiles; off-road vehicles; ships; gas turbines; heat exchangers; material processes; heating, ventilating, air-conditioning, and refrigerating systems; hydraulic and wind turbines; airbag inflators; fuel cells; biofuel processes; environmental control devices; and biomedical systems.

Machines and mechanical systems and machines are the foundations of human technology. Mechanical systems are found in mechanical engineering systems and devices such as manufacturing equipment, medical equipment, ground vehicles, heavy equipment, farm equipment, aircraft, ships, home appliances, packaging machinery, wind turbine blades and gearboxes, robots, and biomedical systems.

Mechanical engineers find a wide variety of career opportunities in industry, government, and education. Mechanical engineers form an integral part of most industries, including aerospace firms, energy companies, automobile manufacturers, health care providers, food- and metal-processing industries, petroleum refineries, electronic and computer manufacturers, heavy construction and agricultural vehicle manufacturers, wind turbine manufacturers, thermal comfort equipment firms, farm equipment firms, and consulting companies.

Undergraduate Programs of Study
• Major in industrial engineering (Bachelor of Science in Engineering)
• Major in mechanical engineering (Bachelor of Science in Engineering)

INDUSTRIAL ENGINEERING

The objective of the B.S.E. program in industrial engineering is to produce graduates who:
• have a strong foundation of mathematical, scientific, and technical knowledge and are equipped with skills in problem solving, teamwork, and communication that will serve them throughout their careers;
• are able to pursue successful careers as practicing industrial engineers in manufacturing industries, medical institutions, and engineering consulting firms;
• are able to successfully pursue advanced studies in industrial engineering; in other engineering disciplines;
MECHANICAL ENGINEERING

The objective of the B.S.E. program in mechanical engineering is to produce graduates who:

- have a strong foundation of knowledge in mathematics, science, and mechanical engineering and are equipped with skills in problem solving, design, teamwork, and communication that will serve them throughout their careers;
- are able to pursue successful careers as practicing mechanical engineers in manufacturing industries, energy and utility companies, and engineering consulting firms;
- are able to successfully pursue advanced studies in mechanical engineering; in related technical areas such as physics, applied mathematics, and other engineering disciplines; and in other professional fields; and
- are able to assume professional leadership roles.

B.S.E.: Industrial Engineering

The Bachelor of Science in Engineering requires a minimum of 128 s.h. The major in industrial engineering requires a strong foundation of courses in engineering science, mathematics, design, manufacturing, social science, and humanities.

Advanced work includes specialty courses in human factors and ergonomics, management, information systems, manufacturing, quality control, and operations research. Design is an integral part of the undergraduate program; all students complete a comprehensive design experience.

All engineering students complete the B.S.E. core requirements, which include 010:003 (RHET:1030) Rhetoric, 059:005 (ENGR:1100) Engineering Problem Solving I, and 059:006 (ENGR:1300) Engineering Problem Solving II; and courses in chemistry, engineering mathematics and fundamentals, and physics. They must earn a grade of C-minus or higher in the core requirements 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus.

They also complete the curriculum designed for their major program, which covers four major stems: mathematics and basic sciences, engineering topics, an elective focus area, and the general education component (15 s.h. of humanities and social science courses). For information about the curriculum stems, see Bachelor of Science in Engineering (p. 814) in the Catalog.

Students must select elective area courses according to guidelines established by the Department of Mechanical and Industrial Engineering. See “Elective Focus Area” after the following curriculum list.

The following study plan includes the B.S.E. core requirements and the curriculum for the industrial engineering major. Some courses in the curriculum are prerequisites for others. Students must complete a course's prerequisites before they may register for the course. Those who take courses in the order below satisfy the prerequisite requirements automatically.

FOURTH YEAR

First Semester
- 056:091 (IE:3000) Professional Seminar: Industrial Engineering
- 056:134 (IE:3350) Process Engineering
- 056:162 (IE:3600) Quality Control
- Elective focus area courses
- General education component course

Second Semester
- 056:160 (IE:4600) Operational Systems Design
- Elective focus area courses (including math/science elective)
- Systems elective course

Elective Focus Area
The industrial engineering program offers a variety of elective focus area options, including standard focus areas developed and maintained by the program and flexible focus areas tailored to individual student interests. For more detailed information about elective focus areas, see Bachelor of Science in Engineering (p. 814) in the Catalog. For a list of standard industrial engineering elective focus area options and guidelines for tailored elective focus areas, see the Department of Mechanical and Industrial Engineering web site.

Joint B.S.E./M.S.: Industrial Engineering
The College of Engineering offers a joint (fast-track) Bachelor of Science in Engineering/Master of Science for industrial engineering undergraduate students who intend to earn an M.S. in industrial engineering. B.S.E./M.S. students may take up to 12 s.h. of graduate-level course work, attend the program's graduate seminar, and work with a faculty member on a master's thesis project while they are still undergraduates. They may count 6 s.h. of graduate course work toward both degrees. Once students complete the requirements for the bachelor's degree, they are granted the B.S.E., and they normally complete the M.S. one year later.

To be admitted to the joint degree program, students must have completed at least 80 s.h., must have a cumulative g.p.a. of at least 3.25, and must submit a letter of application to the chair of the Department of Mechanical and Industrial Engineering.

Some students in undergraduate majors other than industrial engineering may be admitted to the combined program; they must meet the same admission requirements as industrial engineering majors. In some cases, they may be required to take additional course work to meet the prerequisite requirements for upper-level courses.

B.S.E.: Mechanical Engineering
The Bachelor of Science in Engineering requires a minimum of 128 s.h. The major in mechanical engineering lays a foundation in the basic disciplines of mathematics, physics, and chemistry and in the engineering sciences of statics, dynamics, thermodynamics, mechanics of deformable bodies, mechanics of fluids and transfer processes, materials science, and electrical sciences. An understanding of these sciences enables mechanical engineers to design parts of systems and understand whole systems, plan the production and use of energy, plan and operate industrial manufacturing facilities, and design automatic control systems for machines and other mechanical systems.

Mechanical engineering students develop an awareness of social and humanistic issues relating to business, environment, government, history, language, religion, and international relations. They also acquire an appreciation of professional and ethical responsibilities.

All engineering students complete the B.S.E. core requirements, which include 010:003 (RHET:1030) Rhetoric, 059:005 (ENGR:1100) Engineering Problem Solving I, and 059:006 (ENGR:1300) Engineering Problem Solving II; and courses in chemistry, engineering mathematics and fundamentals, and physics. They must earn a grade of C-minus or higher in the core requirements 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus.

They also complete the curriculum designed for their major program, which covers four major stems: mathematics and basic sciences, engineering topics, an elective focus area, and the general education component (15 s.h. of humanities and social science courses). For information about the curriculum stems, see Bachelor of Science in Engineering (p. 814) in the Catalog.

Upper-level students work on team projects in a senior capstone design course, 058:086 (ME:4086) Mechanical Engineering Design Project. Some students may arrange to participate in established research projects.

Students must select elective focus area courses according to guidelines established by the Department of Mechanical and Industrial Engineering. See "Elective Focus Area" after the following curriculum list.

The following study plan includes the B.S.E. core requirements and the curriculum for the mechanical engineering major. Some courses in the curriculum are prerequisites to others. Students must complete a course’s prerequisites before they may register for the course. Those who take courses in the order below satisfy the prerequisite requirements automatically.

FIRST YEAR

First Semester
- 004:011 (CHEM:1110) Principles of Chemistry I 4 s.h.
- 010:003 (RHET:1030) Rhetoric 4 s.h.
- 059:005 (ENGR:1100) Engineering Problem Solving I 3 s.h.
- 059:090 (ENGR:1000) Engineering Success for First-Year Students (credit does not count toward B.S.E. degree) 1 s.h.

Second Semester
- 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus 4 s.h.
- 029:081 (PHYS:1611) Introductory Physics I 4 s.h.
- 059:006 (ENGR:1300) Engineering Problem Solving II 3 s.h.
- General education component course 3 s.h.
SECONDE YEAR
First Semester
22M:034 (MATH:2560) Engineering Mathematics IV: 3 s.h.
Differential Equations
029:082 (PHYS:1612) Introductory Physics II 3 s.h.
058:020 (ME:2020) Mechanical Engineering Sophomore Seminar 0 s.h.
059:007 (ENGR:2110) Engineering Fundamentals I: Statics 2 s.h.
059:008 (ENGR:2120) Engineering Fundamentals II: Electrical Circuits 3 s.h.
059:009 (ENGR:2130) Engineering Fundamentals III: Thermodynamics 3 s.h.
Elective focus area course 3 s.h.

Second Semester
057:010 (ENGR:2710) Dynamics 3 s.h.
057:015 (ENGR:2720) Materials Science 3 s.h.
057:019 (ENGR:2750) Mechanics of Deformable Bodies 3 s.h.
057:021 (ENGR:2760) Design for Manufacturing 3 s.h.
Elective focus area course 3 s.h.

THIRD YEAR
First Semester
22M:037 (MATH:3550) Engineering Mathematics V: Vector Calculus 3 s.h.
22S:039 (STAT:2020) Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
057:017 (ENGR:2730) Computers in Engineering 2-3 s.h.
057:020 (ENGR:2510) Fluid Mechanics 4 s.h.
058:051 (ME:3351) Engineering Instrumentation 2 s.h.
058:091 (ME:3091) Professional Seminar: Mechanical Engineering 0 s.h.
Elective focus area course 3 s.h.

Second Semester
058:040 (ME:3040) Thermodynamics II 3 s.h.
058:045 (ME:3045) Heat Transfer 3 s.h.
058:052 (ME:3052) Mechanical Systems 3 s.h.
Elective focus area course 3 s.h.
General education component course 3 s.h.

FOURTH YEAR
First Semester
058:048 (ME:4048) Energy Systems Design 4 s.h.
058:055 (ME:4055) Mechanical Systems Design 4 s.h.
058:091 (ME:3091) Professional Seminar: Mechanical Engineering 0 s.h.
Elective focus area courses 6 s.h.
General education component course 3 s.h.

Second Semester
058:080 (ME:4080) Experimental Engineering 4 s.h.
058:086 (ME:4086) Mechanical Engineering Design Project 3 s.h.
Elective focus area courses 6 s.h.
General education component course 3 s.h.

Elective Focus Area
The mechanical engineering program offers a variety of elective focus area options, including standard focus areas developed and maintained by the program and flexible focus areas tailored to individual student interests. For more detailed information about elective focus areas, see Bachelor of Science in Engineering (p. 814) in the Catalog. For a list of standard mechanical engineering elective focus area options and guidelines for tailored elective focus areas, see the Department of Mechanical and Industrial Engineering web site.

Joint B.S.E./M.S.: Mechanical Engineering
The College of Engineering offers a joint (fast-track) Bachelor of Science in Engineering/Master of Science for mechanical engineering undergraduate students who intend to earn an M.S. in mechanical engineering. B.S.E./M.S. students may take up to 12 s.h. of graduate-level course work, attend the program’s graduate seminar, and participate in master’s research while they are still undergraduates. They may count 6 s.h. of graduate course work toward both degrees. Once students complete the requirements for the bachelor’s degree, they are granted the B.S.E., and they normally complete the M.S. one year later.

To be admitted to the joint degree program, students must have completed at least 80 s.h., must have a cumulative g.p.a. of at least 3.25, and must submit a letter of application to the chair of the Department of Mechanical and Industrial Engineering.

Certificate in Wind Energy
The Department of Mechanical and Industrial Engineering (College of Engineering) and the Department of Geographical and Sustainability Sciences (College of Liberal Arts and Sciences) administer the undergraduate certificate program in wind energy; see Wind Energy (p. 887) in the Catalog.

Graduate Programs of Study
- Master of Science in industrial engineering (with or without thesis; optional concentration in windpower management)
- Doctor of Philosophy in industrial engineering
- Master of Science in mechanical engineering (with or without thesis)
- Doctor of Philosophy in mechanical engineering

Research and Study in Industrial Engineering
Graduate study in industrial engineering is tailored individually. Each student’s study program is based on his or her background and career objectives and is designed according to sound academic practice. The curriculum is highly flexible; the goal is academic excellence.

The program offers six principal academic focus areas: design and manufacturing, human factors engineering and ergonomics, engineering management, reliability and production systems, operations research and applied statistics, and information systems. Graduate students participate in research in their academic concentration areas.

ENGINEERING MANAGEMENT
Current research in engineering management consists of entrepreneurship, parametric cash flow analysis, strategic management, and economic risk analysis. Engineering
management studies concentrate on engineering administration, engineering economics, and information systems. This area is covered by courses in the 50 series.

**HUMAN FACTORS AND ERGONOMICS**

Current research in human factors and ergonomics includes investigation of the effects of visual and auditory displays on human information processing and development of computer systems that ease the challenges of controlling complex medical and robotic systems. This work examines how engineers should shape information technology to enhance productivity, safety, and customer satisfaction. Industrial engineering faculty members and students work to improve the effectiveness of robot systems for exploration of Mars and the Moon, to improve driving safety, and to design new cockpit interfaces. The department has several medical, flight, and driving simulators. It also conducts research in other facilities, including National Advanced Driving Simulator, the most advanced simulation facility in the world.

Human factors and ergonomics studies concentrate on designing systems compatible with human capabilities and limitations. Human factors engineering integrates components from the fields of psychology, cognitive sciences, physiology, statistics, and technical sciences to address issues of human-interface design and human-systems design. Specific considerations include human cognitive abilities and limitations, visual performance, error reduction, workload assessment and mitigation, design of jobs in the industrial environment, information acquisition and processing, choice of action, operator performance measurement, and economic concerns. This area is covered by courses in the 40 series.

**INFORMATION SYSTEMS**

Studies in information systems concentrate on system design. Design problems involve devising information systems that meet a diverse set of requirements. Contemporary topics include network-based systems, client/server systems, internet systems, and medical informatics.

**MANUFACTURING**

Ongoing manufacturing research consists of flexible manufacturing systems, optimum control of processes, and reliability assessment. Manufacturing courses, denoted by the 30 series, delve into selecting appropriate manufacturing methods, planning processing operations, devising control strategies, and designing products and manufacturing systems. Contemporary topics include computer-aided process planning, computer-aided design, computer-controlled manufacturing, concurrent engineering, and applications of artificial intelligence in manufacturing.

**OPERATIONS RESEARCH AND APPLIED STATISTICS**

Ongoing research in operations research and applied statistics deals with the application of optimization techniques for informed decision making in the public and private sectors. The primary focus of this work is modeling, simulating, and optimizing the design and operation of systems such as logistics, communications, health care, and manufacturing. Studies in operations research and applied statistics concentrate on mathematical programming, statistical, and computer sciences for modeling, analyzing, and optimizing systems. Various methodologies in this area include mathematical programming, heuristic optimization, statistical analysis, and digital systems simulation. This area is covered by courses in the 70 series.

**QUALITY CONTROL AND PRODUCTION SYSTEMS**

Current research in quality control and production systems focuses on measures for corporate quality and reliability, computer-aided layout and scheduling, just-in-time production, inspection, and online expert systems in process control. Studies of quality control and production systems focus on reliability engineering, quality control, and production systems. This area is covered by courses in the 60 series.

**Research and Study in Mechanical Engineering**

The graduate programs in mechanical engineering educate students in more depth and breadth than is possible at the baccalaureate level. This prepares the graduate to use contemporary methods at advanced levels in professional careers in engineering design, development, teaching, and research. Each student’s plan of study is based on his or her background and career objectives, and is designed according to sound academic practice. Faculty members in the program have teaching and research expertise in energy and power conversion, fluid and thermal sciences, solid mechanics, mechanical systems, and related areas.

Students may develop programs emphasizing fluid mechanics, thermodynamics, heat transfer, fatigue and fracture mechanics, and mechanical systems. Some may pursue more general programs that combine emphases. Others may specialize in interdisciplinary areas (e.g., energy engineering, materials engineering, automatic control, chemical processes), which involve a combination of mechanical and industrial engineering departmental courses and appropriate electives from other departments in the College of Engineering and across the University. Ph.D. programs may center on any one of these areas through choice of appropriate course work and research topic.

For more information, see the Mechanical Engineering Graduate Student Handbook, available from the department.

The mechanical engineering program offers the following research and study areas.

**FLUID MECHANICS**

The graduate program in fluid mechanics provides a rigorous and broad foundation in theoretical, numerical, and experimental aspects of the subject. It is especially suitable for those seeking careers in teaching and/or research in academic and industrial organizations. The program focuses on fundamental principles and techniques of solving problems in the varied fields of fluids engineering. It emphasizes computer use, both in mathematical modeling of flow phenomena and in acquisition and processing of experimental data.

Although most of the relevant courses are offered by the Department of Mechanical and Industrial Engineering, students are strongly encouraged to take applied mathematics and classical mechanics courses offered by the Departments of Mathematics (p. 436) and Physics and Astronomy (p. 490) in the College of Liberal Arts.
and Sciences and by other College of Engineering departments.

Current research projects include computational modeling of viscous and turbulent flows; vortex dynamics; unsteady flows; pulmonary flow; flow separation and control; atmospheric flows; environmental flows; ship hydrodynamics; viscous flow around ships; propulsor flow and propulsor-body interactions; free-surface effects; nonlinear wave theory; biomimetic fluid mechanics; hydraulic turbines; quantitative flow visualization and image processing; computational fluid dynamics; LDV and thermal anemometry for flow analysis; and uncertainty analysis.

MECHANICAL SYSTEMS
The graduate program in mechanical systems is designed to provide students with a broad, strong background in theoretical, computational, experimental, and applied aspects of the subject. It prepares future graduates for careers in industry, teaching, and government. The program emphasizes fundamental principles, computational techniques, multiscale modeling and simulation, and experimentation used to analyze and design mechanical systems. Areas of concentration include reliability-based design and optimization, nanotechnology, tissue mechanics, machine and vehicle dynamics, optimal design, structural sensitivity analysis and optimization, computational solid mechanics, probabilistic mechanics, mechanics of composite materials, reliability, and fatigue and fracture mechanics.

Although most courses relevant to the specialization areas are offered by the Department of Mechanical and Industrial Engineering, students are encouraged to consider appropriate course work from other areas, including courses offered by other College of Engineering departments and in disciplines such as mathematics (p. 872), statistics (p. 594), and physics (p. 490).

Current research projects include computational mechanics, tissue mechanics, multiphysics, and multiphase problems; mechanics of multifunctional composites and nanocomposites, electromagnetic and thermal effects in composites, micromechanical modeling of multiphase composites and nanocomposites, impact and failure of composites, contact mechanics problems with friction and adhesion; stochastic meshfree and finite element methods; design sensitivity analysis of nonlinear structural systems; reliability-based design optimization; surrogate modeling for reliability-based design optimization; shape optimal design of elastoplastic materials; optimal design of metal stamping process; probabilistic and elastic-plastic fracture mechanics; damage tolerant design; fatigue behavior and life prediction under constant and variable amplitude loading, multibody dynamics; design sensitivity analysis of rigid and flexible mechanical systems; computer-aided design; mechanism and manipulator workspace analysis; real-time dynamic simulation; and vehicle system dynamics.

THERMAL SCIENCES
The graduate program in thermal sciences and systems is designed to provide students with a rigorous and broad foundation in theoretical and experimental aspects of the subject. It prepares future graduates for careers in industry, teaching, and government. The program emphasizes fundamentals of thermodynamics and heat transfer, and associated analytical, numerical, and experimental methods used in energy systems. Areas of concentration include fluid mechanics, thermodynamics, heat transfer, phase-change, combustion, and fuel cells.

Most courses relevant to the specialization areas are offered by the Department of Mechanical and Industrial Engineering. Students are encouraged to balance their programs by supplementing these with appropriate course work from other areas, including courses offered by other College of Engineering departments and in disciplines such as mathematics (p. 436) and physics (p. 490).

Current research projects include biomass gasification; turbulent flames; combustion of biomass; alternative and renewable fuels; combustion instability; spray atomization and combustion; transport modeling of fuel cells; transport phenomena in materials processing, melting, and solidification; and optical-based diagnostics of complex thermal processes.

M.S.: Industrial Engineering
The Master of Science program in industrial engineering requires a minimum of 30 s.h. of graduate credit with thesis, and a minimum of 36 s.h. of graduate credit without thesis. Students who intend to pursue a Ph.D. should select the thesis option; those who hold research or teaching assistantships may be required to select the thesis option. The M.S. concentration in wind power management is open to students in either option.

All M.S. students must earn 21 s.h. in graduate-level industrial engineering courses. They earn a minimum of 9 s.h. in 200-level industrial engineering courses and complete at least one 200- or 200-level course from each of three focus areas: human factors, operations research, and reliability and systems design. Thesis students who plan to pursue a Ph.D. may choose to take two 200-level courses in each of the three focus areas in order to complete their Ph.D. breadth requirement before entering the doctoral program. Students select other courses in consultation with their advisors; choices are documented in the student's plan of study.

Thesis students may count a maximum of 6 s.h. of research credit toward the degree and may include that credit in the required 21 s.h. of graduate-level industrial engineering courses. The thesis option does not include research credit.

All graduate students must register for 056:191 (IE:5000) Graduate Seminar: Industrial Engineering (1 s.h.) each semester of enrollment. They may not substitute seminar credit for regular course work or research credit.

M.S. students must maintain a g.p.a. of at least 3.00 on all graduate work at The University of Iowa and must pass a final comprehensive examination as specified by their examining committees.

Entering students must have strong verbal and written skills in English and a background in computer programming (e.g., C++, C, VB), probability, statistics, and mathematics equivalent to that required by accredited undergraduate engineering programs. Students with insufficient academic background must remedy deficiencies by taking appropriate courses beyond those normally required for the study plan.

Entering students are advised by the department chair or by a designated faculty advisor. The department chair or the graduate program coordinator assigns an advisor
to each student during his or her first regular semester in residence.

During that semester, the student and the advisor prepare a study plan, which they submit to the department chair for approval. Once the plan is approved, it is filed with the student's record. It is the student's responsibility to assure that the study plan is submitted to the department chair.

M.S. students must pass a final comprehensive examination, as specified by their examination committees. Examination committees consist of at least three Graduate College faculty members and must be approved by the department chair.

The comprehensive examination may consist of both oral and written parts. Its purpose is to assess the adequacy of the student's defense of thesis and/or course preparation. The final study plan, approved by the Graduate College dean, is prerequisite to the exam. The student should consult with his or her advisor on the composition of the advisory/examination committee and the time and place for the exam.

It is the student's responsibility to submit a degree application to the Graduate College by the college's deadline.

For more detailed information about M.S. program requirements, including a list of focus area courses, see the Industrial Engineering Graduate Handbook or link to industrial engineering graduate programs on the Department of Mechanical and Industrial Engineering web site.

**M.S. Concentration in Wind Power Management**

M.S. students in industrial engineering may elect to concentrate in wind power management. They must meet all regular requirements for the M.S. in industrial engineering. In addition, thesis option students must take three courses (9 s.h.) from the list of recommended courses. Nonthesis option students must take four courses (12 s.h.) from the list of recommended courses and one course (3 s.h.) from the list of electives. Students' course selections must be approved by their advisors.

**WIND POWER MANAGEMENT: RECOMMENDED COURSES**

- 053:107 (CEE:4107) Sustainable Systems 3 s.h.
- 053:117 (CEE:4317) Remote Sensing 3 s.h.
- 053:251 (CEE:6151) Environmental Systems Modeling 3 s.h.
- 056:134 (IE:3350) Process Engineering 4 s.h.
- 056:162 (IE:3600) Quality Control 3 s.h.
- 056:166 (IE:3610) Stochastic Modeling 3 s.h.
- 056:171 (IE:3700) Operations Research 3 s.h.
- 056:178 (IE:3750) Digital Systems Simulation 3 s.h.
- 058:143 (ME:5143) Computational Fluid and Thermal Engineering 3 s.h.
- 058:195 (ME:5195) Contemp Topics in Mechanical Engineering 3 s.h.
- 058:255 (ME:6255) Multiscale Modeling 3 s.h.
- 058:268 (ME:7268) Turbulent Flows 3 s.h.

**WIND POWER MANAGEMENT: ELECTIVES**

- 06K:226 (MSCI:9200) Business Programming 3 s.h.
- 06K:228 (MSCI:9260) Web and Multimedia 3 s.h.
- 06K:234 (MSCI:6190) Knowledge Management 3 s.h.

056:176 (IE:3760) Applied Linear Regression 3 s.h.
012:114 (GEOS:3140) Energy and the Environment 3 s.h.
22C:144 (CS:4400) Database Systems 3 s.h.
044:127 (GEOG:3750) Environmental Quality: Science, Technology, and Policy 3 s.h.
044:135 (GEOG:4930) Urban Geography 3 s.h.
056:176 (IE:3760) Applied Linear Regression 3 s.h.
175:192 (OEH:5410) Occupational Safety 3 s.h.

**Ph.D.: Industrial Engineering**

The Doctor of Philosophy program in industrial engineering requires a minimum of 72 s.h. It is granted upon demonstration of comprehensive knowledge and scholarly work at the highest level.

A maximum of 36 s.h. earned toward the M.S. may be counted toward the 72 s.h. required for the Ph.D. Students must spend at least two semesters in residence at The University of Iowa. They also must maintain a g.p.a. of at least 3.25 on all graduate work done at the University.

The degree requires broad academic background with considerable depth in at least one area of specialization that clearly demonstrates the student's capability to do high-level research. Ph.D. students must complete a series of written and oral examinations and a written dissertation based upon the results of an original investigation.

Students without a Master of Science in industrial engineering or a closely allied area must satisfy all requirements for the M.S. in industrial engineering before they may be admitted to the Ph.D. program.

Entering students are advised by the department chair or by a designated faculty advisor. During the student's first regular semester in residence, an advisor is assigned by the department chair or the graduate program coordinator. Students are expected to identify an industrial engineering faculty member willing to serve as their advisor by the end of their first regular semester in the program.

Once the student is assigned an advisor, he or she works with the advisor to prepare a study plan, which is submitted to the department chair for approval. Once the plan is approved by the department chair, it is filed with the student's record. At the beginning of each academic year, the industrial engineering faculty reviews the study plan and gives the student feedback regarding progress toward his or her degree objective. It is the student's responsibility to assure that the study plan is submitted to the program chair.

Admission to degree candidacy requires a g.p.a. of at least 3.25 on all graduate work taken at The University of Iowa, demonstration of capacity for individual research achievement (typically a dissertation research proposal), and successful completion of the comprehensive examination given by the examining committee.

The comprehensive examination is scheduled with approval of the student's advisor and the industrial engineering program coordinator once the student's study plan is essentially completed. The examining committee determines the composition of the exam, including written and oral parts, and determines whether the student is ready to begin dissertation research.

For more detailed information about Ph.D. program requirements, see the Industrial Engineering Graduate Handbook or link to industrial engineering graduate program requirements.
programs on the Department of Mechanical and Industrial Engineering web site. All Ph.D. students must satisfy the following requirements. Graduate students must register for 056:191 (IE:5000) Graduate Seminar: Industrial Engineering (1 s.h.) each semester of enrollment. They may not substitute seminar credit for regular course work or research credit.

**INDUSTRIAL ENGINEERING BREADTH REQUIREMENT**

Each Ph.D. student must pass at least two 200-level industrial engineering courses in each of three focus areas: human factors, operations research, and reliability and systems design. Students who have earned an M.S. in the program may already have satisfied this requirement.

**QUALIFYING EXAM**

Each student must satisfy the qualifying exam requirement in two of the three focus areas. The requirement for a focus area can be satisfied by passing a written qualifying exam in the focus area or by earning a grade of A-minus or higher in each of two 200-level industrial engineering courses in the focus area.

**FOCUS AREA**

Students select one of the three focus areas and take additional course work in that area. They fulfill the minimum requirement of the focus area, completing at least two additional 200-level industrial engineering courses in the area.

**COMPREHENSIVE EXAMINATION**

Each student must demonstrate his or her ability to carry out creative individual research by completing and defending his or her dissertation research proposal in a comprehensive examination. The exam includes written and oral parts and is conducted by an examining committee of at least five industrial engineering and Graduate College faculty members. It is scheduled after the qualifying examination requirement has been satisfied. The examining committee determines whether the student is ready to begin dissertation research. Once the student has completed the comprehensive examination satisfactorily, he or she is accepted as a candidate for the Ph.D.

**FINAL EXAMINATION (THESIS DEFENSE)**

Each student must defend his or her completed dissertation in the final examination, which is conducted by the examining committee.

**Ph.D. Concentration in Wind Power Management**

Ph.D. students who concentrate in wind power management must meet all regular requirements for the doctoral degree. In addition, they must gain sufficient breadth and depth of domain knowledge in their study area by taking energy-related courses.

**Related Certificate: Informatics**

The Graduate College offers the Certificate in Informatics with a health informatics subtrack, which requires 18 s.h. of credit. The subtrack emphasizes the organization, management, and use of health care information; health care research, education, and practice; and information technology developments in the socioeconomic context of health care. Industrial engineering students working toward the certificate complete 056:186 (IE:5860) Health Informatics I, 056:287 (IE:5870) Health Informatics II, and approved electives. Completion of the certificate is noted on the student's transcript. To learn more, see "Certificate" in the Informatics (p. 929) (Graduate College) section of the Catalog.

**M.S.: Mechanical Engineering**

The Master of Science program in mechanical engineering requires a minimum of 30 s.h., with or without thesis. Thesis students may count 6-9 s.h. earned for thesis research and writing toward the degree. Each student determines a study plan in consultation with an advisor and submits the plan to the department chair for approval. All M.S. students must register for 058:191 (ME:6191) Graduate Seminar: Mechanical Engineering each semester.

To earn the M.S., the student must maintain a g.p.a. of at least 3.00 on graduate work used to satisfy the degree requirements and must be successful in the final examination. This examination is administered by the student’s committee, which consists of at least three faculty members, including at least one with primary appointment in the Department of Mechanical and Industrial Engineering. The requirements for the M.S. may be completed within one calendar year. However, students with assistantship duties or other constraints may take up to two calendar years to complete the degree.

**Ph.D.: Mechanical Engineering**

The Doctor of Philosophy program in mechanical engineering requires 72 s.h. of graduate credit, including at least 54 s.h. in course work (excluding thesis research) and at least 12 s.h. earned for Ph.D. thesis research. Students must pass the qualifying examination administered by the program to be formally admitted to the doctoral program.

Each student takes the comprehensive examination after passing the qualifying examination and when the course work specified in the study plan is nearly completed; in any case, the comprehensive examination should be taken no later than 28 months after the first registration in the Ph.D. program. To be admitted to the comprehensive examination, a student must be in good academic standing and must be recommended by his or her advisor. The exam is administered by the student's committee. Admission to Ph.D. candidacy is recognized upon successful completion of the comprehensive examination.

Having satisfactorily completed the exam, the student usually has only to complete and defend the dissertation at the final examination. Requirements for the Ph.D. usually can be completed in three to four years beyond the M.S.

**Admission**

Applicants must meet the admission requirements of the Graduate College; for detailed information about Graduate College policies, see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.
INDUSTRIAL ENGINEERING
Reference letters, student research interests, grade-point average for previous graduate study, and factors such as faculty availability are considered in admission decisions.

M.S. applicants may be admitted from an ABET Inc.-accredited baccalaureate curriculum in any engineering discipline, or in the mathematical sciences, the physical sciences, or the computer sciences with a g.p.a. of at least 3.00 and an acceptable score on the Graduate Record Examination (GRE) General Test. Applicants from institutions outside the United States must meet equivalent conditions for regular admission. Students with lesser qualifications may be considered for conditional admission.

Students from business or social science programs who have mathematical preparation similar to that of engineering students are considered for regular or conditional admission. Students on conditional status must achieve regular status within two sessions of their first registration by attaining an acceptable grade-point average and gaining regular acceptance by the industrial engineering program faculty; otherwise, they are dismissed. Admissions may be limited by available resources.

Ph.D. applicants may be admitted from an ABET Inc.-accredited baccalaureate curriculum or a postbaccalaureate curriculum in any engineering discipline or in the mathematical sciences, computer science, or physical sciences with a g.p.a. of at least 3.25 and an acceptable GRE General Test score. Applicants from outside the United States must meet equivalent standards for regular admission as determined by The University of Iowa. Students also may be admitted from business or social science programs as determined individually.

Applicants who intend to pursue a Ph.D. and who have a B.S. or an M.S. without thesis usually are admitted first to the M.S. program. All admissions to the Ph.D. program are reviewed by the graduate studies committee.

MECHANICAL ENGINEERING
Applicants who have earned a baccalaureate or master’s degree in engineering curriculum or in the mathematical or physical sciences are eligible to be considered for admission to graduate study in mechanical engineering. In order to be considered for regular admission, applicants must have a g.p.a. of at least 3.00 on a 4.00 scale on all previous college-level work and Graduate Record Examination (GRE) General Test scores of at least 500 verbal, 750 quantitative, and 4.5 analytical writing. Students whose first language is not English must score at least 550 (paper-based), 213 (computer-based), or 81 (Internet-based) on the Test of English as a Foreign language (TOEFL).

Applicants with a lower grade-point average and/or GRE or TOEFL test scores may be considered for conditional admission, under exceptional circumstances. Applicants admitted conditionally must achieve regular standing within one semester (excluding summer sessions) after admission by attaining a g.p.a. of at least 3.00 on their first 9 s.h. at The University of Iowa. The Graduate College cancels registration for the subsequent semester for students who have not submitted their GRE and/or TOEFL scores by the end of the first semester after admission.

Financial Support

INDUSTRIAL ENGINEERING
A number of one-quarter-time and one-half-time teaching and research assistantships are available for graduate students. Awards are based on students’ academic records and assessment of their potential contribution to the research and teaching goals of the program. Advanced graduate students also may qualify for appointments as graduate teaching fellows. Contact the chair of the Department of Mechanical and Industrial Engineering for details.

MECHANICAL ENGINEERING
Financial support is available to M.S. and Ph.D. students, primarily through graduate assistantships in teaching or research from the Department of Mechanical and Industrial Engineering, the Center for Computer-Aided Design, IIHR—Hydroscience and Engineering, and the National Advanced Driving Simulator. These awards may be made on a semester, academic year, or calendar year basis. Awards and reappointments are competitive and are based on the student’s potential contribution to the teaching and research goals of the department. Students who fulfill their assistantship responsibilities and continue to make satisfactory progress toward their degree objective receive preference in new assistantship awards. All applications for financial support should be submitted directly to the department chair.

M.S. students with assistantship appointments of one-quarter-time or more are required to register for a minimum of 9 s.h. during fall and spring semesters until they have completed 30 s.h. of course and research work beyond the baccalaureate degree. Ph.D. students with assistantship appointments of one-quarter-time or more must register for a minimum of 9 s.h. during fall and spring semesters until they have completed 72 s.h. of course and research work beyond the baccalaureate degree. Once they meet these minimums, graduate students must register for a graduate seminar each semester until they have successfully completed their final examination or thesis defense. All registrations should accurately reflect the amount and type of work undertaken, the use of University facilities, and the amount of consultation with the faculty.

Facilities and Laboratories

DESIGN FOR MANUFACTURING LABORATORY
The Design for Manufacturing Laboratory is used by students in industrial engineering and in mechanical engineering. The laboratory provides students with experience in CAD/CAM systems. It is equipped with 4-axis CNC mills (Haas and Tormach), CNC router (Techno-CNC), CNC metal lathe (Haas and Techno-CNC), drill press, plastic injection molder, thermoforming machine, band saw, disc sander, bench grinder, polishing wheel, hand drill, sandblasting cabinet, press, foot shear, and welding station. The lab has the latest software technology, such as Pro/ENGINEER and Rhinoceros.

Industrial Engineering
The following facilities and laboratories are used by undergraduate and graduate students. For information about laboratories affiliated with core courses coordinated
by other College of Engineering departments, see those departments’ Catalog sections.

**ACTIVE LEARNING FACILITY**

The Active Learning Facility (ALF) is designed to encourage group interaction in a small classroom setting. The reconfigurable classroom is equipped with nine tables and 20 HP workstations. It is used for industrial engineering courses and for small groups working together on computer assignments.

**BIOMANUFACTURING LABORATORY**

The Biomanufacturing Laboratory teaches students about emerging processes and techniques in cell-biomaterial interactions and gives them hands-on laboratory experience. Work in the laboratory is interdisciplinary, spanning engineering, medicine, biology, and biotechnology. The laboratory provides facilities for engineered living tissue systems. Next generation manufacturing tools are used to build biologically inspired structures intended to replace diseased or damaged organs and tissues. Laboratory research projects and activities focus primarily on design, modeling, and fabrication of tissue replacement parts; tissue scaffolds and medical devices; and cell and organ printing. Diverse software and hardware are available to support bioadditive manufacturing platforms.

**COGNITIVE SYSTEMS LABORATORY**

The Cognitive Systems Laboratory is devoted to examining the safety, performance, and user acceptance implications of technology insertion into complex systems. The laboratory has networked computers, a video editing workstation, a process control simulation, and a low-cost driving simulator. The simulator is equipped with five cameras, instrumentation to record all driver activity, and an eye tracking system. The Cognitive Systems Laboratory shares the driving simulator and an instrumented vehicle with the Operator Performance Laboratory. The equipment supports class projects, system development, and undergraduate and graduate research.

**DESIGN PROJECT LABORATORY**

The Design Project Laboratory is equipped with standard computers and videoconferencing facilities. It supports senior design project courses.

**GROK LAB**

The GROK Lab develops technologies to help scientists and doctors improve their understanding and control of complex systems such as robots, distributed sensor networks, and augmented-reality systems. The lab designs and builds software, electronic circuits, and mechanical devices that create or modify complex systems and that extend scientists’ understanding of how to make these systems perform their intended tasks better.

The laboratory has a variety of software development platforms and manufacturing tools, including CNC machines and supplies for casting and molding, as well as a suite of equipment for circuit design, testing, and assembly. The GROK lab has developed technologies used by NASA to control robots exploring South America and Mars. Its most recent projects have focused on using distributed sensor networks to track the activities of health care workers and on developing training simulators for orthopedic surgeons.

**INTELLIGENT SYSTEMS LABORATORY**

The Intelligent Systems Laboratory provides facilities for research in computational intelligence leading to applications in industry, service organizations, and health care. Research in the laboratory is funded by government agencies and industrial corporations. Solutions to practical problems and enhancement of engineering education are emphasized. Most of the laboratory’s recent projects concentrate on development of software tools for product development, manufacturing, and health care applications.

The Intelligent Systems Laboratory is furnished with the latest computer technology to support research on numerous computing platforms. Diverse software is available for modeling, design, and construction of intelligent systems—for example, data mining software, neural networks, expert systems, and simulation software.

**OPERATOR PERFORMANCE LABORATORY**

Research in the Operator Performance Laboratory (OPL) focuses on determining human performance in a variety of situations, with particular emphasis on driving and flight deck environments. Much of the research is performed in the field using a state-of-the-art instrumented vehicle that is equipped with five cameras, eye movement equipment, two computers, video equipment, and a suite of sensors. The OPL also features a scale Boeing 737-400 fixed-base flight simulator with six channels of visuals. The flight simulator is equipped with a remote eye-tracking device that allows the activation of selected virtual controls in the flight deck. A specially designed stimulus presentation booth is used for color research and for photometry applications. Computer models of operator performance are designed based on the data obtained in the laboratory and field research.

**Mechanical Engineering**

**Mechanical Engineering Undergraduate Instruction**

**ENGINEERING CORE**

The laboratories for fluid flows and transport processes contain a wind tunnel; a water flume; a water table; four water channels with porous media; three air-jet tables; various air, water, and oil flow devices; and facilities for numerous small-scale experiments to demonstrate the principles of mass, momentum, and energy transfer.

For information about laboratories affiliated with core courses coordinated by other College of Engineering departments, see the departments’ Catalog sections.

**COMPUTATIONAL FLUIDS LABORATORY**

The Computational Fluids Laboratory is equipped with 20 computers running ANSYS Fluent software used in fluid mechanics courses.

**DESIGN PROJECT LABORATORY**

The Design Project Laboratory supports all senior design project courses. It is equipped with eight mid-level workstations as well as a high-end workstation, which enables students to manipulate full design models and interactive WebEx sessions with companies using the analysis software during the session. Research versions of ANSYS Fluent and ProE, standard computers, and videoconferencing facilities also are available.
EXPERIMENTAL FLUID MECHANICS LABORATORY
The Experimental Fluid Mechanics Laboratory acquaints students with ongoing research in fluid mechanics and hydraulics. The laboratory focuses on literature, experiments, numerical simulations, audio-video aids, and links to educational and scientific internet sites. Students using the laboratory develop an understanding of basic flow mechanisms and become familiar with the latest developments in experimental techniques and instrumentation.

RALPH AND BARBARA STEPHENS EXPERIMENTAL ENGINEERING LABORATORY
The Ralph and Barbara Stephens Experimental Engineering Laboratory supports the required undergraduate courses 058:051 (ME:3351) Engineering Instrumentation and 058:080 (ME:4080) Experimental Engineering. The laboratory is equipped with varied instruments and test rigs that help students learn basic measurement principles and laboratory procedures. It also offers sensors for measurement of displacement, mass, temperature, pressure, velocity and flow rate, heat flux, force, torque, and so forth.

THERMAL AND HEAT TRANSFER LABORATORY
The Thermal and Heat Transfer Laboratory is equipped with data acquisition systems to process data online. It also provides facilities for experiments in heat transfer measurements.

Mechanical Engineering Graduate Facilities
FLUID MECHANICS
The program in fluid mechanics is conducted in close collaboration with IIHR—Hydroscience & Engineering. The equipment available to graduate students includes several wind tunnels and hydraulic flumes, an environmental flow facility, a towing tank, two special low-temperature flow facilities for investigation of ice phenomena, hot-wire and laser anemometer systems, particle-image velocimetry systems, and computer-based data acquisition systems.

Facilities available in the department include a flow visualization and imaging system with CCD (charge-coupled devices) camera, and a low-speed wind tunnel. IIHR and College of Engineering shops provide the necessary support. In addition to using in-house workstations and computers, the department’s faculty members and students make extensive use of supercomputers at national centers.

MECHANICAL SYSTEMS
Computer-based simulation research activities in the mechanical systems area are carried out mainly in the Center for Computer-Aided Design (CCAD). CCAD maintains a variety of high-performance computer systems in support of its technology research and development efforts. General computing services are supported by a number of LINUX and Windows applications servers connected to centralized file servers. CAD/CAE, software development, virtual prototyping, and virtual environment development applications are hosted on numerous high-performance workstations. Standard desktop, multimedia, and office productivity applications are hosted on a network of more than 40 workstations.

THERMAL SCIENCES
Facilities for research in the thermal sciences and systems consist of a low-pressure combustion chamber, a high-pressure continuous flow combustion chamber, a high-pressure chamber for atomization study, a test rig for heat transfer to near supercritical fluids, a diffusion flame test rig, an enclosed laminar flame test rig, an air atomization spray apparatus, test stands for melting and solidification studies, various optical measurement systems, and two fuel cell test rigs. Laser-based diagnostics (e.g., laser-induced fluorescence, imaging, and laser Doppler anemometry) are available for solidification, turbulent flow, heat transfer, and combustion studies. Flow visualization and imaging by CCD camera are available for the study of complex fluid motion and heat convection, and combustion flows.

Courses
Industrial Engineering
Special Topics
056:000 (IE:0000) Cooperative Education Training Assignment: Industrial Engineering 0 s.h.
Industrial engineering students participating in the Cooperative Education Program register in this course during work assignment periods; registration provides a record of participation in the program on the student’s permanent record. Requirements: admission to Cooperative Education Program.

056:002 (IE:0002) Half-time Cooperative Education Training Assignment: Industrial Engineering 0 s.h.
Registration for work assignment periods; for students participating in the Cooperative Education Program.

056:010 (IE:1000) Industrial Engineering First-Year Seminar 0 s.h.
Introduction to curriculum and profession; ethics and professionalism in classroom and workplace. Requirements: first-year or transfer standing in engineering.

056:020 (IE:2000) Industrial Engineering Sophomore Seminar 0 s.h.
Curriculum and profession; ethics and professionalism in classroom and workplace. Requirements: sophomore or transfer standing in engineering.

056:091 (IE:3000) Professional Seminar: Industrial Engineering 0 s.h.
Professional aspects of industrial engineering presented through lectures and discussions by guest speakers, field trips, films, panel discussions. Requirements: junior standing.

Independent projects in industrial engineering for undergraduate students, including laboratory study, an engineering design project, analysis and simulation of an engineering system, computer software development, CAD/CAM applications, or research.
Manufacturing

056:116 (IE:4116) Manufacturing Processes and Automation 3 s.h.
Material processing, metal cutting theories, forming, micro/nano fabrication, programmable logic controller, computer numerical controllers, discrete control system, DC and AC servo motors, Command generation. Same as 058:116 (ME:4116).

056:129 (IE:5129) Information Systems for Resource Management 3 s.h.
Understanding and managing natural and engineered resources requiring data-reach foundation; management of data; complex data-driven technologies integrated into data and information systems (DIS); hands-on opportunity to develop or use capabilities of DIS for study or research area of interest (science, engineering, industrial operation); wind power generation, an emerging field in Iowa, used as a case study for illustrating key DIS components, links, and functionalities. Same as 058:129 (ME:5129), 053:129 (CEE:5129), 055:129 (ECE:5129), 044:140 (GEOG:5129).

056:131 (IE:3300) Manufacturing Systems 3 s.h.

056:134 (IE:3350) Process Engineering 4 s.h.
Methodologies, algorithms, and tools for processing modeling, analysis, and reengineering; modeling issues in product and component design, product and process modularity, quality, reliability, agility. Offered spring semesters. Prerequisites: 056:171 (IE:3700).

056:138 (IE:3138) Biomanufacturing 3 s.h.
Design and manufacturing technologies in development of biomedical related products (customized implants, medical devices, tissue scaffolds, engineered tissues, organs, biological systems); tissue engineering, BioCAD, biomedical imaging and processing for customized implant development, reverse engineering, biomaterials, regenerative medicine and drug delivery, traditional manufacturing processes for tissue engineering, rapid prototyping and layered manufacturing, rapid tooling, bioadditive fabrication, bionanofabrication and new frontiers in biomanufacturing (organ printing); hands-on laboratory projects and assignments. Prerequisites: 057:021 (ENGR:2760).

056:155 (IE:4550) Wind Power Management 3 s.h.
Principles of wind power production, wind turbine design, wind park location and design, turbine and wind park control, predictive modeling, integration of wind power with a grid.

In-depth study of CAD and manufacturing (CAD/CAM); review of CAD/CAM, computer graphics, NURBS modeling (curves/surfaces, solid modeling, design data exchange); computational geometry for product development, heterogeneous object modeling, rapid prototyping (RP) and layered manufacturing, computer-aided path planning, CAD applications (computer-aided tissue engineering, biomedical imaging and processing, bionanofabrication); related lab projects and assignments. Requirements: knowledge of one programming language (C, C++, C#, VB, or Java).

056:235 (IE:6350) Computational Intelligence 3 s.h.

Human Factors and Ergonomics

056:144 (IE:3400) Human Factors 3 s.h.
Design of human-machine systems; development of optimum work environments by applying principles of behavioral science and basic knowledge of human capacities and limits. Offered fall semesters. Prerequisites: 031:001 (PSY:1001).

056:147 (IE:3450) Ergonomics 3 s.h.
Ergonomic design of jobs and products in an industrial and consumer market setting; principles of good design, examples of poor design; consequences of poor job and product design; principles of work sampling, usability studies, performance rating, sizing and planning of workstations, hand tool design, ergonomic design in transportation; related group project.

056:211 (IE:6211) Human Factors in Healthcare Systems 3 s.h.
Solving human factors problems in health care work systems; cognitive systems engineering, interface design, health care productivity, patient safety; specific research including decision making, information transfer, and communication; discrete event and dynamic systems simulation modeling; human computer interaction; health information technology/systems; usability; business models of organizational, technical, and social elements of health care systems.

056:241 (IE:6410) Research Methods in Human Factors Engineering 3 s.h.
Logic and methods for research and for analysis and evaluation of complex human-machine systems; advanced techniques for enhancement of human interaction with advanced information technology; emphasis on cognitive task analysis techniques for innovative design, understanding of how technology affects safety, performance, user acceptance. Requirements: graduate standing.

056:242 (IE:6420) Human/Computer Interaction 3 s.h.
Development of projects using human factors principles in the design of computer interfaces.

056:244 (IE:6440) Airborne Design of Experiments 3 s.h.
Issues in design of airborne human factors research, and techniques applicable to ground transportation research; statistical, human factors, flight mechanics, and organizational principles in flight test engineering; basic understanding of systematic approach to human factors flight testing, development of test points and test apparatus, flight envelope, proper briefing techniques, mission execution, and after-action review; securing, synchronizing, and analyzing data.

056:245 (IE:6450) Human Factors in Aviation 3 s.h.
Measuring, modeling, and optimizing human visual performance; display design for optimal legibility, research in visibility, legibility, conspicuity, and camouflage; visibility model development. Requirements: graduate standing.

056:246 (IE:6460) The Design of Virtual Environments 3 s.h.
Development of techniques for designing and creating three-dimensional representations of information for simulation, scientific visualization, and engineering; emphasis on human factors issues, software. Requirements: graduate standing.

**Engineering Management**

**056:054 (IE:2500) Engineering Economy** 3 s.h.

**056:150 (IE:3500) Information Systems Design** 3 s.h.
Structure and design of computer-based information systems; concepts of information systems, decision making; computer hardware, software, data structures; methods for determining system requirements; designing, implementing, evaluating, managing information systems; applied projects. Prerequisites: 059:006 (ENGR:1300).

**Quality Control and Production Systems**

**056:160 (IE:4600) Operational Systems Design** 1-4 s.h.
Projects involving product and related operational system design in an industrial or service organization; associated entrepreneurial or intrapreneurial planning. Offered spring semesters. Prerequisites: 056:054 (IE:2500) and 056:134 (IE:3350).

**056:161 (IE:4610) Enhanced Design Experience** 2-3 s.h.
Real-world, in-depth design experience in student teams, working with engineers at major companies in the region; application of industrial engineering knowledge and skills to design products and related operational systems.

**056:162 (IE:3600) Quality Control** 3 s.h.
Basic techniques of statistical quality control; application of control charts for process control variables; design of inspection plans and industrial experimentation; modern management aspects of quality assurance systems. Offered fall semesters. Prerequisites: 22S:030 (STAT:2010) and 22S:039 (STAT:2020). Same as 22S:133 (STAT:3620), 053:142 (CEE:3142).

**056:164 (IE:3640) Six Sigma Operations and Quality Control** 3 s.h.
Six Sigma techniques for the DMAIC cycle (Define, Measure, Analyze, Improve, Control); what is needed for data collection (process inputs and outputs, measurement tools), conduct analysis (hypothesis testing, process capability studies), and conduct process improvement studies (design of experiments, response surface methodology); overview of Six Sigma, process and project management skills.

**056:268 (IE:5610) Reliability Theory and Applications** 3 s.h.
Fundamental topics in reliability engineering, including system reliability modeling, statistical inference of lifetime data, basic preventive maintenance models; statistics and random process models, and online monitoring and change detection techniques. Prerequisites: 22M:033 (MATH:2550) and 22S:039 (STAT:2020).

**Operations Research and Applied Statistics**

**056:166 (IE:3610) Stochastic Modeling** 3 s.h.

**056:171 (IE:3700) Operations Research** 3 s.h.

**056:176 (IE:3760) Applied Linear Regression** 3 s.h.
Regression analysis with focus on applications; model formulation, checking, selection; interpretation and presentation of analysis results; simple and multiple linear regression; logistic regression; ANOVA; hands-on data analysis with computer software. Prerequisites: 22S:030 (STAT:2010) or 22S:039 (STAT:2020). Same as 22S:152 (STAT:3200).

**056:178 (IE:3750) Digital Systems Simulation** 3 s.h.
Simulation modeling and analysis; emphasis on construction of models, interpretation of modeling results; input and output analysis—hands-on usage of ARENA simulation software, manufacturing, health care, and service. Offered spring semesters. Prerequisites: 22S:039 (STAT:2020) and 056:166 (IE:3610).

**056:186 (IE:5860) Health Informatics I** 3 s.h.

**056:230 (IE:6300) Innovation Science and Studies** 3 s.h.
Innovative typology and sources, classical innovation models, measuring innovation, innovation discovery from data, evolutionary computation in innovation, innovation life cycle.

**056:270 (IE:6600) Linear Programming** 3 s.h.
Mathematical programming models; linear and integer programming, transportation models, large-scale linear programming, network flow models, convex separable programming. Requirements: calculus and linear algebra. Same as 06K:286 (MSCI:6600).

**056:271 (IE:6720) Nonlinear Optimization** 3 s.h.
Mathematical models, theory, algorithms for constrained and unconstrained optimization; nonlinear, geometric, quadratic, dynamic programming; optimality conditions; aspects of duality theory.
### Mechanical Engineering

#### Special Topics

**058:000 (ME:0000) Cooperative Education Training Assignment: Mechanical Engineering**  
0 s.h.  
Mechanical engineering students participating in the Cooperative Education Program register in this course during work assignment periods; registration provides a record of participation in the program on the student’s permanent record. Requirements: admission to the Cooperative Education Program.

**058:002 (ME:0002) Half-time Cooperative Education Training Assignment: Mechanical Engineering**  
0 s.h.  
Registration for work assignment periods; for students participating in the Cooperative Education Program.

**058:098 (ME:4098) Individual Investigations: Mechanical Engineering**  
ar.  
Individual projects for mechanical engineering undergraduate students; laboratory study; engineering design project; analysis, synthesis, simulation of an engineering system; computer software development; research.

#### General Topics

**058:020 (ME:2020) Mechanical Engineering Sophomore Seminar**  
0 s.h.  
Introduction to the mechanical engineering profession and curriculum; ethics and professionalism in classroom and workplace; mentorship program and professional societies; visits to laboratories and local companies. Requirements: sophomore or transfer standing.

**058:051 (ME:3351) Engineering Instrumentation**  
2 s.h.  
Basic elements of measuring circuits (bridges, voltage dividers, shunts, transformers); laboratory instrumentation (oscilloscopes, multimeters, power supplies, signal generators); amplifiers; frequency response principles; sensors; data acquisition, signal processing, filtering using Labview. Prerequisites: 029:082 (PHYS:1612) and 059:008 (ENGR:2120).
058:080 (ME:4080) Experimental Engineering 4 s.h.

058:086 (ME:4086) Mechanical Engineering Design 2-3 s.h.
Application of mechanical, thermal, fluid systems design; student or team design projects initiated at various levels in the design process and carried through to higher levels; emphasis on synthesis, written and oral communication. Corequisites: 058:048 (ME:4048) or 058:055 (ME:4055).

058:091 (ME:3091) Professional Seminar: Mechanical Engineering 0 s.h.
Professional aspects of mechanical engineering: presentations, student/faculty interaction, professional society involvement, panel discussions, plant trip. Requirements: junior standing.

058:110 (ME:4110) Computer-Aided Engineering 3 s.h.
Computational engineering modeling and simulation, geometric modeling, grid generation, finite-element and finite-volume methods, uncertainty analysis, optimization, engineering applications. Prerequisites: 057:019 (ENGR:2750) and 058:052 (ME:3052). Same as 053:115 (CEE:4515).

058:111 (ME:4111) Numerical Calculations 3 s.h.
Development of algorithms for functional approximations, numerical differentiation and integration; solution of algebraic and differential equations, with emphasis on digital computations; initial and boundary value problems. Prerequisites: 22M:034 (MATH:2560). Same as 053:111 (CEE:4511).

058:112 (ME:4112) Engineering Design Optimization 3 s.h.
Engineering design projects involving modeling, formulation, and analysis using optimization concepts and principles; linear and nonlinear models, optimality conditions, numerical methods. Prerequisites: 22M:033 (MATH:2550) and 059:007 (ENGR:2110). Requirements: junior standing. Same as 053:112 (CEE:4512).

058:113 (ME:5113) Mathematical Methods in Engineering 3 s.h.

058:114 (ME:4114) Predictive Human Modeling 3 s.h.
Introduction to basic concepts of predictive human modeling, fundamental programming, Denavit-Hartenberg notation (robotics), optimization, posture prediction, interface development, validation, and applied problems for digital human models (DHM). Prerequisites: 22M:033 (MATH:2550) and 059:006 (ENGR:1300).

058:115 (ME:4115) Finite Element I 3 s.h.
One- and two-dimensional boundary value problems; heat flow, fluid flow, torsion of bars; trusses and frames; isoparametric mappings; higher order elements; elasticity problems; use of commercial software. Prerequisites: 057:019 (ENGR:2750). Same as 053:113 (CEE:4533).

058:129 (ME:5129) Information Systems for Resource Management 3 s.h.
Understanding and managing natural and engineered resources requiring data-reach foundation; management of data, complex data-driven technologies integrated into data and information systems (DIS); hands-on opportunity to develop or use capabilities of DIS for study or research area of interest (science, engineering, industrial operation); wind power generation, an emerging field in Iowa, used as a case study for illustrating key DIS components; links, and functionalities. Same as 056:129 (IE:5129), 053:129 (CEE:5129), 055:129 (ECE:5129), 044:140 (GEOG:5129).

058:131 (ME:4131) Manufacturing Systems 3 s.h.

058:186 (ME:4186) Enhanced Design Experience 2-3 s.h.
Experience working in teams on industry-sponsored design and product development projects scheduled for production; emphasis on practical experience with the complete design process, from conceptualization through prototyping, evaluation, testing, and production; written and oral communication. Prerequisites: 058:086 (ME:4086).

Thermal Engineering and Fluids

058:040 (ME:3040) Thermodynamics II 3 s.h.
Power and refrigeration cycles; mixtures of gases, psychometric mixtures; availability; thermodynamics of combustion and chemical equilibrium. Prerequisites: 059:009 (ENGR:2130).

058:045 (ME:3045) Heat Transfer 3 s.h.

058:048 (ME:4048) Energy Systems Design 4 s.h.
Principles and design of energy conversion systems, including solar, wind, and geothermal power systems; design of thermal-fluid system components, modeling and simulation of systems, optimization techniques; design projects. Prerequisites: 058:040 (ME:3040) and 058:045 (ME:3045).

058:125 (ME:4125) Biomimetic Fluid Dynamics 3 s.h.
Study and development of engineered systems that mimic the structure and function of biological systems; overview of the fluid dynamic principles that govern locomotion by swimming or flapping flight; equations of motion, fundamentals of aerodynamics; analytical models of force generation for swimming and flight; parameters governing effective locomotion; experimental and numerical studies to understand the present state of the art, challenges, and important questions. Prerequisites: 057:020 (ENGR:2510).
058:140 (ME:5210) Intermediate Thermodynamics  3 s.h.
Fundamental principles of thermodynamics as applied to phase equilibrium; properties of fluids, first and second law, variable composition systems, behavior of real fluids, mathematical techniques for solution thermodynamics. Requirements: 052:103 (CBE:3105) or 058:040 (ME:3040) or graduate standing. Same as 053:276 (CEE:6376).

058:142 (ME:4142) Wind Turbine Aerodynamics  3 s.h.
Fluid mechanics of wind turbines and wind farms; engineering methodologies to design wind turbine blades; evaluation of rotor wakes; interaction between machines; effects of topography on wind turbine and wind farm performance. Prerequisites: 057:020 (ENGR:2510).

058:143 (ME:5143) Computational Fluid and Thermal Engineering  3 s.h.
Governing equations of fluid flow and heat transfer; basic numerical techniques for solution of the governing equations; estimation of accuracy and stability of the approximations; boundary conditions; grid generation; applications to flows and heat transfer in engineering systems; familiarity with software for analysis and design of thermo-fluids systems. Prerequisites: 058:045 (ME:3045).

058:144 (ME:5144) Modeling of Materials Processing  3 s.h.
Manufacturing processes for metals, polymers, semiconductors; processing by casting, solidification, crystal growth, polymer molding and extrusion, welding, heat treating, application of optical (laser) and electromagnetic energy; processes that use momentum, heat, mass transfer principles; measurement and instrumentation for materials processing; current topics in materials processing. Prerequisites: 058:045 (ME:3045).

058:149 (ME:5149) Propulsion Engineering  3 s.h.
Opportunity to develop basic understanding and knowledge of rocket and airbreathing propulsion systems, relevant terminology and analysis techniques, parametric cycle analysis for ideal engines, off-design analysis methods, problem-solving methodology. Requirements: 058:040 (ME:3040) or graduate standing.

058:160 (ME:5160) Intermediate Mechanics of Fluids  3 s.h.
Basic concepts and definitions; pressure distribution in a fluid; governing equations and boundary conditions; integral and differential analysis; dimensional analysis and similarity; experimental analysis; laminar and turbulent internal and external flows; potential flows; engineering applications. Prerequisites: 057:020 (ENGR:2510) and 058:040 (ME:3040). Same as 053:169 (CEE:5110).

Hands-on experience in methodology of conducting experiments in fluid mechanics and heat transfer from design to data acquisition and processing; essential theoretical elements, experimental methodologies, data acquisition systems, uncertainty analysis; wide variety of instruments for fundamental and applied experimentation; work in small groups; design, implement, test, and report an experiment in area of interest. Same as 053:172 (CEE:5372).

058:163 (ME:5163) Environmental Fluid Dynamics  3 s.h.
Same as 053:175 (CEE:5375).

Application of fundamental principles of thermodynamics, fluid mechanics, and mechanical systems to wind turbine engineering; fundamentals of horizontal-axis wind turbines, wind energy conversion to useful work; wind turbine aerodynamics, performance, design of components; overview of wind resource and historical development of wind turbines; introduction to wind turbine installation and wind farm operation.

058:180 (ME:5180) Measurements in Fluid Mechanics: Fundamental and Advanced Topics  3 s.h.
General concepts in fluid mechanics measurement; classical methods for flow rate, pressure, velocity, temperature, concentration, and wall shear stress; state-of-the-art methods for flow visualization and full-field quantitative measurement; introduction to advanced optical measurement method, i.e., particle image velocimetry (PIV), and related image processing techniques; hands-on training with a class project assignment on writing a computer program to evaluate experimental image recordings. Prerequisites: 057:020 (ENGR:2510). Requirements: primary knowledge of fluid mechanics, thermodynamics, and heat transfer; basic skill in computer language.

058:245 (ME:6245) Diffusive Transport  3 s.h.
Diffusive transport of heat, mass, and momentum; phenomenological laws and analogies; analytical and numerical solution techniques; inverse heat conduction; multiphase and multicomponent systems. Prerequisites: 058:145 (ME:5145). Same as 052:272 (CBE:6145).

058:248 (ME:7248) Combustion Theory  3 s.h.
Laminar flame theory; turbulent combustion; spray combustion; thermal ignition; pollutant formation, oxidation; combustion diagnostics. Prerequisites: 058:145 (ME:5145) and 058:160 (ME:5160). Requirements: graduate standing.

058:260 (ME:6260) Viscous Flow  3 s.h.

058:262 (ME:6262) Inviscid Flow  3 s.h.
Derivation of governing equations for fluid flow; general theorems for motion of inviscid, incompressible flows; solution techniques for two- and three-dimensional irrotational flows; forces and moments acting on immersed bodies; vortex kinematics and dynamics; steady and unsteady aerodynamic theory. Prerequisites: 058:160 (ME:5160).
Compressible flow behavior; 1-D unsteady flow and appropriate use of x-t diagrams; 2-D flows and use of the method of characteristics; Burgers’ Equation and its properties.

058:266 (ME:7266) Interfacial Flows and Transport Processes 3 s.h.
Physics of fluid interfaces and numerical techniques to simulate interface dynamics; interfacial flow coupled with thermal-fluid transport, from molecular interactions to continuum approximations; development of computer code segments to track and represent interface-flow interactions. Prerequisites: 058:145 (ME:5145) and 058:160 (ME:5160).

058:267 (ME:7267) Multiphase Flow and Transport 3 s.h.
Thermodynamic and mechanical aspects of interfacial phenomena and phase transitions; nucleation, phase-change, species transport, particulate flows, liquid-vapor systems, solidification, porous media. Prerequisites: 058:145 (ME:5145) and 058:160 (ME:5160).

058:268 (ME:7268) Turbulent Flows 3 s.h.
Origin; need for modeling, averages, Reynolds equations, statistical description; experimental methods and analysis; turbulence modeling; free shear layers and boundary layers; complex shearflows; development of computational strategies; recent literature on theory and applications, chaos phenomena. Prerequisites: 058:160 (ME:5160).

058:269 (ME:7269) Computational Fluid Dynamics and Heat Transfer 3 s.h.
Development of numerical and algebraic approximations for elliptic, parabolic, hyperbolic partial differential equations; finite-volume, spectral, pseudo-spectral, Galerkin techniques; stability of numerical methods; CFL condition; stiff problems; adaptive grid generation and boundary-fitted coordinates; numerical solutions for one- and two-dimensional compressible and incompressible fluid flow and heat transfer problems. Prerequisites: 058:111 (ME:4111) and 058:160 (ME:5160).

Requirements: graduate standing.

058:275 (ME:6275) Advanced Heat Transfer 3 s.h.
Conservation laws, forced and natural convection; surface and gaseous radiation; analytical and numerical methods; applications. Prerequisites: 058:145 (ME:5145).

Thermodynamics, fluid mechanics, heat and mass transfer, related experimental and analytical techniques; selection of subject and content determined by instructor/student interest. Requirements: graduate standing.

058:052 (ME:3052) Mechanical Systems 3 s.h.

058:055 (ME:4055) Mechanical Systems Design 4 s.h.
Design considerations for mechanical engineering systems; strength, deformation, durability of mechanical elements; safe-life, fail-safe, damage-tolerant design; standards, products liability, ethics in design. Prerequisites: 058:052 (ME:3052).

058:116 (ME:4116) Manufacturing Processes and Automation 3 s.h.
Material processing, metal cutting theories, forming, micro/nano fabrication, programmable logic controller, computer numerical controllers, discrete control system, DC and AC servo motors, Command generation. Same as 056:116 (IE:4116).

058:133 (ME:5360) Control Theory 3 s.h.
State space approach; controllability, observability, canonical forms, Luenberger observers, feedback control via pole placement, stability, minimal realization and optimal control. Prerequisites: 055:060 (ECE:3600). Same as 055:160 (ECE:5600).

058:134 (ME:5362) Computer-Based Control Systems 3 s.h.
Discrete and digital control systems; application of computers in control; sampling theorem; discrete time system models; analysis and design of discrete time systems; control design by state variable and input/output methods; advanced topics in digital controls; lab. Prerequisites: 055:060 (ECE:3600). Same as 055:164 (ECE:5640).

058:136 (ME:5130) Digital Human Modeling and Simulation 3 s.h.
Fundamentals of using computational methods in modeling, simulating, and animating articulated kinematic chains such as robots and humans; underlying mathematics, introductory concepts in kinematics and dynamics, serial chain kinematics and multibody dynamics; methods from kinematics and dynamics, coupled with biomechanical concepts, provide an integrated approach to predicting and analyzing serial link motion (e.g., human and robotic manipulator motion). Prerequisites: 057:010 (ENGR:2710). Same as 051:162 (BME:5710).

058:150 (ME:5150) Intermediate Mechanics of Deformable Bodies 3 s.h.
Application of equilibrium analyses, strain-displacement relations, and constitutive relationships to practical structural systems and elementary plane elasticity problems. Prerequisites: 057:019 (ENGR:2750). Same as 053:140 (CEE:5540), 051:151 (BME:5660).

058:153 (ME:4153) Fundamentals of Vibrations 3 s.h.
Vibration of linear discrete and continuous mechanical and structural systems; harmonic, periodic, and arbitrary excitation; modal analysis; applications. Prerequisites: 057:019 (ENGR:2750). Same as 053:132 (CEE:4532).

058:154 (ME:5154) Intermediate Kinematics and Dynamics 3 s.h.
058:159 (ME:5159) Fracture Mechanics 3 s.h.
3-D stress states, definition and criteria for failure, nominal and local yield phenomena, linear elastic and elastic plastic fracture mechanics, plane stress and plane strain fracture toughness, J-Integral, crack opening displacement, environmental assisted cracking, fatigue crack growth, fail safe, and damage tolerant design. Prerequisites: 051:085 (BME:4910) or 058:055 (ME:4055) or 058:150 (ME:5150). Same as 053:149 (CEE:5549).

058:167 (ME:5167) Composite Materials 3 s.h.
Mechanical behavior of composite materials and their engineering applications; composite constituents (fibers, particles, matrices) and their properties and behavior; macromechanical behavior of composite laminate; micromechanical predictions of composite overall properties; classical lamination theory; composite beams and plates. Prerequisites: 057:019 (ENGR:2750). Same as 053:136 (CEE:5137).

Mechanics of continuous media; kinematics of deformation, concepts of stress and strain; conservation laws of mass, momentum and energy; constitutive theory; boundary and initial value problems. Prerequisites: 057:019 (ENGR:2750) or 057:020 (ENGR:2850). Same as 053:179 (CEE:3179).

058:214 (ME:6214) Analytical Methods in Mechanical Systems 3 s.h.
Vector and function spaces; functionals and operators in Hilbert spaces; calculus of variations and functional analysis with application to mechanics; Ritz and Galerkin methods. Prerequisites: 058:113 (ME:5113). Same as 053:214 (CEE:6310).

058:215 (ME:6215) Finite Element II 3 s.h.
Computer implementation; plate and shell elements; mixed and hybrid formulations; nonlinear analysis; recent development; introduction to boundary element method. Prerequisites: 053:133 (CEE:4533). Same as 053:233 (CEE:6532).

058:246 (ME:6246) Advanced Numerical Methods for Mechanical Systems 3 s.h.
Introduction to meshfree particle methods, extended finite element method, material stability analysis, thermal-mechanical coupling, and coupling of finite element/meshfree methods. Requirements: 058:115 (ME:4115) or 058:143 (ME:5143) or background in computational mechanics, computational chemistry, or computational physics.

058:247 (ME:6247) Contact Mechanics 3 s.h.
Varied aspects of contact mechanics and engineering applications, including stationary contacts, sliding, rolling, impact, and fretting fatigue; emphasis on theoretical basis of solutions of contact mechanics problems; mathematical methods of solving contact problems using Green’s function method; complex potentials and integral transform methods. Prerequisites: 058:113 (ME:5113) and 058:150 (ME:5150).

058:250 (ME:7250) Advanced Fracture Mechanics 3 s.h.
Fracture of modern engineering materials; linear-elastic fracture; computational methods; functionally graded materials; elastic-plastic fracture; multiscale fracture and fatigue crack initiation. Prerequisites: 058:113 (ME:5113), and 058:115 (ME:4115) or 058:159 (ME:5159). Same as 053:250 (CEE:7250).

058:252 (ME:6252) Advanced Continuum Mechanics 3 s.h.

058:255 (ME:6255) Multiscale Modeling 3 s.h.
Computational modeling of engineering materials ranging from molecular to continuum scales, molecular dynamics and Monte Carlo methods, nanoscale continuum modeling, scale-coupling methods. Prerequisites: 058:115 (ME:4115) or 058:143 (ME:5143). Same as 053:249 (CEE:7549).

058:256 (ME:7256) Computational Solid Mechanics 3 s.h.
Advanced computational methods for nonlinear and dynamic analysis of solids, structures; new space- and time-discretization methods for problems, including highly nonlinearities, large deformation, contact/impact conditions. Prerequisites: 058:113 (ME:5113) and 058:115 (ME:4115).

058:257 (ME:7257) Probabilistic Mechanics and Reliability 3 s.h.
Stochastic and reliability analysis of mechanical systems; computational methods for structural reliability; random eigenvalue problem; random field and stochastic finite element methods. Prerequisites: 058:113 (ME:5113) and 058:115 (ME:4115).

058:258 (ME:6258) Computational Ship Hydromechanics 3 s.h.
Introduction to computation of problems in three main areas of ship hydromechanics: resistance and propulsion, seakeeping, and maneuvering; focus on issues of simulating operating ships, modeling methods, and numerical techniques used to approach ship hydromechanics. Prerequisites: 058:160 (ME:5160). Corequisites: 058:143 (ME:5143).

058:259 (ME:7259) Mechanical Design in Structures 3 s.h.
Discrete and continuum variational equilibrium equations, discrete design sensitivity analysis for static responses and eigenvalues, interactive design workstation, continuum sizing design sensitivity analysis for static responses and eigenvalues, design sensitivity analysis of structural dynamics, differentiability theory, shape optimal design, shape design sensitivity analysis, design sensitivity of nonlinear structural systems. Prerequisites: 058:113 (ME:5113), 058:115 (ME:4115), and 058:150 (ME:5150).

058:265 (ME:7265) Multiphysics Modeling of Solids 3 s.h.
Coupling of mechanical, electrical, electromagnetic, and thermal fields in solids; how to formulate and solve applied multiphysics problems where mechanical, electromagnetic, and thermal loads must be taken into account. Prerequisites: 058:150 (ME:5150).

058:278 (ME:6278) Nonlinear Elasticity 3 s.h.
Nonlinear elasticity theory; modern applications in biomechanics; vectors and tensors, constitutive theory of elastic material, some exact solutions of boundary value problems, inverse deformation relations, stability of elastic material, theories of tissue adaptive response. Prerequisites: 058:150 (ME:5150). Requirements: elementary linear elasticity.

058:295 (ME:7295) Advanced Topics in Mechanical Systems 3 s.h.
Advanced contemporary topics in mechanical systems engineering not covered in other courses and determined by student/faculty interest.

**Graduate Seminars, Advanced Topics, Research**

058:191 (ME:6191) **Graduate Seminar: Mechanical Engineering**

Presentation and discussion of recent advances and research in mechanical engineering by guest lecturers, faculty, students. Requirements: graduate standing.

058:195 (ME:5195) **Contemporary Topics in Mechanical Engineering**

New topics in fluid and thermal sciences and mechanical systems not covered in other courses; topic and coverage determined by student/faculty interest. Requirements: junior standing.

058:198 (ME:6198) **Individual Investigations: Mechanical Engineering**

Individual project in mechanical engineering, for department graduate students; laboratory study, engineering design project, analysis and simulation of an engineering system, computer software development, research. Requirements: graduate standing.

058:199 (ME:6199) **Research: Mechanical Engineering M.S. Thesis**

Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for M.S. with thesis in mechanical engineering. Requirements: graduate standing.

058:299 (ME:7299) **Research: Mechanical Engineering Ph.D. Dissertation**

Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for Ph.D. in mechanical engineering.
Technological Entrepreneurship

Undergraduate certificate: technological entrepreneurship
Web site: http://www.engineering.uiowa.edu/about/college-services/earn-technological-entrepreneurship-certificate

The College of Engineering partners with the Tippie College of Business to offer the Certificate in Technological Entrepreneurship. The program is administered by the John Pappajohn Entrepreneurial Center in the business college.

Undergraduate Program of Study

• Certificate in Technological Entrepreneurship

Certificate

The Certificate in Technological Entrepreneurship requires a minimum of 18 s.h. of credit. Certificate students study how the entrepreneurial process relates to technology-based businesses. The program is intended for students who plan to start and operate their own businesses as well as for those who would like to develop an understanding of how to manage innovation in business environments.

Students who complete the certificate program are able to:

• understand sound business thinking;
• use team-building skills in small and large companies;
• understand the entrepreneurial approach to acquiring and managing resources;
• create a business plan;
• bridge engineering and business principles; and
• network with businesses and industries.

The certificate program is open to Bachelor of Science in Engineering students who have earned at least 45 s.h. of credit toward the B.S.E. and have a University of Iowa g.p.a. of at least 2.75. Students must declare their intention to pursue the certificate with the certificate program coordinator and must apply for admission using the application form available online.

Students must complete at least 12 s.h. of the 18 s.h. required for the certificate at The University of Iowa or in approved study abroad courses. They must maintain a g.p.a. of at least 2.00 in work toward the certificate. Students must be granted the B.S.E. and complete all certificate requirements in order to receive the certificate. Completion of the certificate is noted on the student’s transcript.

The Certificate in Technological Entrepreneurship requires the following course work.

FOUNDATION COURSE

One of these:
06T:050 (ENTR:1000) Foundations in Entrepreneurship 2 s.h.
056:054 (IE:2500) Engineering Economy 3 s.h.

ENTREPRENEURSHIP CORE

Both of these:
06T:120 (ENTR:2000) Entrepreneurship and Innovation 3 s.h.
06T:133 (ENTR:3100) Entrepreneurial Finance 3 s.h.

ENTREPRENEURSHIP COURSE IN THE MAJOR

One of these, depending on the student’s engineering major:
051:085 (BME:4910) Biomedical Engineering Senior Design I (biomedical engineering majors) 4 s.h.
052:184 (CBE:4109) Chemical Engineering Process Design I (chemical engineering majors) 2 s.h.
053:084 (CEE:3084) Project Design and Management in Civil Engineering (civil engineering majors) 3 s.h.
055:089 (ECE:4890) Senior Electrical Engineering Design (electrical engineering majors) 3 s.h.
056:160 (IE:4600) Operational Systems Design (industrial engineering majors) 4 s.h.
058:086 (ME:4086) Mechanical Engineering Design Project (mechanical engineering majors) 3 s.h.

ENTREPRENEURSHIP ELECTIVES

Students customize their programs with their choice of electives. They earn sufficient elective credit to reach the total of 18 s.h. required for the certificate.
06T:134 (ENTR:3200) Entrepreneurial Marketing 3 s.h.
06T:144 (ENTR:3595) Nonprofit Organizational Effectiveness I 3 s.h.
06T:145 (ENTR:3300) Legal Aspects of Entrepreneurship 3 s.h.
06T:146 (ENTR:3400) Strategic Management of Technology and Innovation 3 s.h.
06T:147 (ENTR:3500) Social Entrepreneurship 3 s.h.
06T:148 (ENTR:3600) E-Commerce Strategies for Entrepreneurs 3 s.h.
06T:150 (ENTR:4400) Managing the Growth Business 3 s.h.
06T:151 (ENTR:4450) Professional Sports Management 3 s.h.
06T:152 (ENTR:4460) Entrepreneurship and Global Trade 3 s.h.
06T:155 (ENTR:4510) Arts Leadership Seminar 3 s.h.
06T:190 (ENTR:4000) Seminar in Entrepreneurship 3 s.h.
06T:192 (ENTR:4200) Entrepreneurship: Business Consulting 3 s.h.
06T:193 (ENTR:4600) Advanced Venture Finance 3 s.h.
06T:194 (ENTR:4300) Entrepreneurship: Advanced Business Planning 3 s.h.
06T:199 (ENTR:4900) Academic Internship 1-9 s.h.
06T:210 (ENTR:9000) Developing Professional Service Business 3 s.h.
051:086 (BME:4920) Biomedical Engineering Senior Design II 4 s.h.

Any entrepreneurship course [prefix 06T (ENTR)], with certificate advisor’s approval
Wind Energy

Director
- Andrew Kusiak

Affiliated faculty
- David Bennett (Geographical and Sustainability Sciences), Pablo Carrica (Mechanical and Industrial Engineering), Andrew Kusiak (Mechanical and Industrial Engineering), Marc Linderman (Geographical and Sustainability Sciences), Marian Muste (Mechanical and Industrial Engineering)

Undergraduate certificate: wind energy
Web site: http://www.engineering.uiowa.edu/mie/undergraduate-program/certificate-wind-energy

Wind energy has become a major source of clean energy and is expected to grow over the coming decades. With that growth will come new jobs and a need for professionals who have diverse backgrounds and knowledge of wind energy fundamentals. The Certificate in Wind Energy introduces undergraduate students to wind energy. The program is interdisciplinary, integrating course work and faculty expertise from the Departments of Mechanical and Industrial Engineering, Civil and Environmental Engineering, and Electrical and Computer Engineering (College of Engineering) and the Department of Geographical and Sustainability Sciences (College of Liberal Arts and Sciences).

Undergraduate Program of Study
- Certificate in Wind Energy

Certificate
The Certificate in Wind Energy requires 18 s.h. of credit. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor’s degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Completion of the certificate is noted on the student’s transcript.

College of Engineering students earning the certificate are advised by the Department of Mechanical and Industrial Engineering; College of Liberal Arts and Sciences students are advised by the Department of Geographical and Sustainability Sciences.

Work for the certificate focuses on energy, environment, and information science and includes core courses and electives. Mechanical engineering students may use the certificate as a tailored engineering focus area by adding an approved math/science elective.

Several certificate courses have prerequisites; students must complete all of a course’s prerequisites before they may register for the course. Prerequisites do not count toward the 18 s.h. required for the certificate. Prerequisites for certificate courses are listed on the Certificate in Wind Energy web site.

The Certificate in Wind Energy requires the following course work.

CORE COURSES
All students complete both of these:
- 044:130 (GEOG:3560) Spatial Analyses of Wind Energy 3 s.h.
- 056:155 (IE:4550) Wind Power Management 3 s.h.

ELECTIVES
Students complete 12 s.h. in courses chosen from these:
- 044:105 (GEOG:3500) Introduction to Environmental Remote Sensing 3 s.h.
- 044:109 (GEOG:3540) Introduction to Geographic Visualization 3 s.h.
- 044:110 (GEOG:3520) GIS for Environmental Studies 3 s.h.
- 044:120 (GEOG:3780) U.S. Energy Policy in Global Context 3 s.h.
- 044:125 (GEOG:4750) Environmental Impact Analysis 4 s.h.
- 044:128 (GEOG:4520) GIS for Environmental Studies: Applications 3 s.h.
- 044:141 (GEOG:4580) Introduction to Geographic Databases 3 s.h.
- 044:145 (GEOG:4500) Applications in Environmental Remote Sensing 4 s.h.
- 044:150 (GEOG:4030) Senior Project Seminar (registration required for wind energy project credit) 3 s.h.
- 044:180 (GEOG:4010) Field Methods in Physical Geography 2-4 s.h.
- 052:030 (CBE:2030) Energy and Society 3 s.h.
- 052:107 (CBE:4410) Sustainable Systems 3 s.h.
- 052:133 (CBE:3160) Engineering Analysis of Alternative Energy Systems 3 s.h.
- 055:143 (ECE:5620) Electric Power Systems 3 s.h.
- 055:163 (ECE:5630) Sustainable Energy Conversion 3 s.h.
- 058:142 (ME:4142) Wind Turbine Aerodynamics 3 s.h.
Graduate College

Dean
  • John C. Keller
Senior associate dean
  • Dale Eric Wurster
Associate deans
  • Daniel Berkowitz, Minnetta Gardinier
Assistant dean

Web site: http://www.grad.uiowa.edu/

The University of Iowa has been a leading center of advanced study for more than a century. Presently, the Graduate College accounts for nearly one-fifth of the University's total enrollment. This high ratio reflects the breadth of the University’s graduate programs and resources, the strength of a graduate faculty with a long tradition of personal and professional concern for students, and the opportunities afforded graduate students for involvement, recognition, and support.

The Graduate College is responsible for the review and approval of proposals for new graduate programs and for the periodic survey and evaluation of existing programs. Through its administration of scholarship, fellowship, and research assistantship funds, the college encourages research and strengthening of departments. In cooperation with the Office of the Vice President for Research, it offers assistance to individual faculty members in finding the resources necessary for research projects, and it works with the other colleges and departments of the University to formulate policies concerning selection, supervision, and support of graduate students.

The faculty of the Graduate College is made up of all University tenure-track faculty members at the ranks of assistant professor, associate professor, and professor. A 17-member Graduate Council, elected from and by the graduate faculty and the Graduate Student Senate, is the executive committee of the graduate faculty and is advisory to the dean of the Graduate College.

Degrees Offered

The Graduate College confers the Master of Arts (M.A.), Master of Science (M.S.), Master of Accountancy (M.Ac.), Master of Arts in Teaching (M.A.T.), Master of Computer Science (M.C.S.), Master of Fine Arts (M.F.A.), Master of Health Administration (M.H.A.), Master of Physical Therapy (M.P.T.), Master of Public Health (M.P.H.), Educational Specialist (Ed.S.), Master of Science in Nursing (M.S.N.), Master of Social Work (M.S.W.), Doctor of Philosophy (Ph.D.), Doctor of Musical Arts (D.M.A.), Doctor of Nursing Practice (D.N.P.), Doctor of Physical Therapy (D.P.T.), and Doctor of Audiology (Au.D.) degrees.

The college currently confers degrees in the following major fields.

Accounting: M.Ac.**
African American World Studies: M.A.*
American Studies: M.A.*, Ph.D.
Anatomy and Cell Biology: M.S., Ph.D.
Anthropology: M.A.*, Ph.D.
Applied Mathematical and Computational Sciences: Ph.D.

Art: M.A.*, M.F.A.
Art History: M.A.*, Ph.D.
Asian Civilizations: M.A.*
Astronomy: M.S.*
Biochemistry: M.S., Ph.D.
Biology: M.S.**, Ph.D.*** (see Integrated Biology)
Biomedical Engineering: M.S.*, Ph.D.
Biostatistics: M.S.*, Ph.D.
Book Arts: M.F.A.
Business Administration: M.A.*, Ph.D.
Chemical and Biochemical Engineering: M.S.*, Ph.D.
Chemistry: M.S.*, Ph.D.
Civil and Environmental Engineering: M.S.*, Ph.D.
Classics: M.A.*, Ph.D.
Clinical Investigation: M.S.*
Communication Studies: M.A.*, Ph.D.
Community and Behavioral Health: M.S., Ph.D.
Comparative Literature: Ph.D.
Comparative Literature–Translation: M.F.A.
Computer Science: M.S.*, M.C.S.**, Ph.D.
Dance: M.F.A.
Dental Public Health: M.S.
Economics: M.A.*, Ph.D.
Educational Policy and Leadership Studies: M.A.*, Ed.S.**, Ph.D.
Electrical and Computer Engineering: M.S.*, Ph.D.
English: M.A.*, M.F.A., Ph.D.
Epidemiology: M.S.*, Ph.D.
Exercise Science: M.S.***
Film and Video Production: M.A.*, M.F.A.
Film Studies: M.A.*, Ph.D.
Free Radical and Radiation Biology: M.S.*, Ph.D.
French and Francophone World Studies: M.A.*, Ph.D.
Genetics: Ph.D.
Geography: M.A.*, Ph.D.
Geoscience: M.S.*, Ph.D.
German: M.A.*, Ph.D.***
Greek: M.A.*
Health and Human Physiology: M.S.*, Ph.D.
Health and Sport Studies: M.A.*, Ph.D.***
Health Management and Policy: M.H.A.**, Ph.D.
Health Services and Policy: Ph.D.
History: M.A.*, Ph.D.
Human Toxicology: M.S., Ph.D.
Immunology: Ph.D.
Industrial Engineering: M.S.*, Ph.D.
Informatics: M.S.*, Ph.D.
Integrated Biology: M.S.*, Ph.D.
Integrative Physiology: Ph.D.
International Studies: M.A.***
Journalism: M.A.*
Latin: M.A.*
Leisure Studies: M.A.*
Library and Information Science: M.A.*
Linguistics: M.A.*, Ph.D.
Mass Communications: Ph.D.
Mathematics: M.S.*, Ph.D.
Mechanical Engineering: M.S.*, Ph.D.
Microbiology: M.S., Ph.D.
Molecular and Cellular Biology: Ph.D.
Molecular Biology: Ph.D.
Molecular Physiology and Biophysics: M.S.*, Ph.D.
Music: M.A.*, M.F.A., D.M.A., Ph.D.
Neuroscience: Ph.D.
Nursing: M.S.N.*, D.N.P., Ph.D.
Occupational and Environmental Health: M.S.*, Ph.D.
Operative Dentistry: M.S.
Joint Programs

Interdisciplinary Degree Programs

The Graduate College participates in a number of University of Iowa interdisciplinary degree programs. Detailed information about the following master’s and doctoral degree programs is provided later in these Graduate College sections of the Catalog: Applied Mathematical and Computational Sciences (p. 908), Genetics (p. 922), Human Toxicology (p. 925), Immunology (p. 927), Informatics (p. 929), International Studies (p. 932), Molecular and Cellular Biology (p. 942), Neuroscience (p. 945), and Translational Biomedicine (p. 951).

In addition to the degree programs listed above, the graduate faculty has authorized the awarding of interdisciplinary master's and doctoral degrees. Students seeking approval for interdisciplinary master's and doctoral programs must previously have been admitted to and enrolled in a departmental program in the Graduate College. See sections X.A. and XII.D. in the Manual of Rules and Regulations of the Graduate College on the college’s web site or in this section of the Catalog.

Joint Programs Offered Through the Graduate College

Various joint programs have been developed whereby students work simultaneously toward two degrees. Consult the appropriate Catalog sections for more information. Established joint programs include business administration/library and information science; health management and policy/business administration; health management and policy/urban and regional planning; occupational and environmental health/urban and regional planning; public health/law; public health/medicine; public health/pharmacy; public health/veterinary medicine; and social work/urban and regional planning.

Joint B.S./Ph.D.: Biochemistry

The joint B.S./Ph.D. program in biochemistry enables Bachelor of Science students majoring in biochemistry to begin work toward the Ph.D. while completing the bachelor’s degree. Students admitted to the program may count 12 s.h. of credit toward both the B.S. and Ph.D. degree requirements. Offered by the Graduate College, the College of Liberal Arts and Sciences, and the Carver College of Medicine; see Biochemistry (p. 1009) in the Catalog.

Joint B.A.: Biology/M.P.H. with Epidemiology Subtrack or M.S.: Epidemiology

The joint B.A. in biology/M.P.H. with epidemiology subtrack and the joint B.A. in biology/M.S. in epidemiology enable Bachelor of Arts students majoring in biology to begin work toward the M.P.H. or M.S. while completing the bachelor’s degree. Students admitted to either program may count 12 s.h. of credit toward both the B.A. and the M.P.H. or M.S. degree requirements; they also may maximize their selection of upper-level classes for advanced training in epidemiology. Offered by the Graduate College, the College of Liberal Arts and Sciences, and the College of Public Health; see Biology (p. 118), Master of Public Health Program (p. 1171), and Epidemiology (p. 1154) in the Catalog.

Joint B.S.E./M.S.: Biomedical Engineering

The joint B.S.E./M.S. program in biomedical engineering enables undergraduate students majoring in biomedical engineering to begin work toward the M.S. while completing the bachelor’s degree. Students admitted to the program may count a limited amount of credit toward both the B.S.E. and M.S. degree requirements. They also may attend and participate in the departmental graduate seminar and work on a master's thesis or research project before they have been awarded the B.S.E. degree. Offered by the Graduate College and the College of Engineering; see Biomedical Engineering (p. 824) in the Catalog.

Joint B.S.E.: Biomedical Engineering/ M.S.: Occupational and Environmental Health

The joint B.S.E. in biomedical engineering/M.S. in occupational and environmental health enables undergraduate students majoring in biomedical
engineering to begin work toward the M.S. in occupational and environmental health while completing the bachelor’s degree. Students admitted to the program may count a limited amount of credit toward both the B.S.E. and M.S. degree requirements. Offered by the Graduate College, the College of Engineering, and the College of Public Health; see Biomedical Engineering (p. 824) and Occupational and Environmental Health in the Catalog.

Joint B.S.E./M.S.: Chemical and Biochemical Engineering

The joint B.S.E./M.S. program in chemical and biochemical engineering enables undergraduate students majoring in chemical engineering to begin work toward the M.S. while completing the bachelor’s degree. Students admitted to the program may count 12 s.h. of course work, typically advanced chemistry sequences and electives, toward both the B.S.E. and M.S. degree requirements. Offered by the Graduate College and the College of Engineering; see Chemical and Biochemical Engineering (p. 834) in the Catalog.

Joint B.S.E.: Chemical Engineering/M.S.: Civil and Environmental Engineering

The joint B.S.E. in chemical engineering/M.S. in civil and environmental engineering enables undergraduate students majoring in chemical engineering to begin work toward the M.S. in civil and environmental engineering while completing the bachelor’s degree. Students admitted to the program may count 12 s.h. of course work toward both the B.S.E. and M.S. degree requirements. Offered by the Graduate College and the College of Engineering; see Chemical and Biochemical Engineering (p. 834) and Civil and Environmental Engineering (p. 844) in the Catalog.

Joint B.S.E./M.S.: Civil and Environmental Engineering

The joint B.S.E./M.S. program in civil and environmental engineering enables undergraduate students majoring in civil engineering to begin work toward the M.S. while completing the bachelor’s degree. Students admitted to the program may count a limited amount of credit toward both the B.S.E. and M.S. degree requirements. They also may attend and participate in the departmental graduate seminar and work on a master’s thesis or research project before they have been awarded the B.S.E. degree. Offered by the Graduate College and the College of Engineering; see Civil and Environmental Engineering (p. 844) in the Catalog.

Joint B.A. or B.S.: Computer Science/M.C.S.

The joint B.A. or B.S. in computer science/M.C.S. program enables undergraduate students majoring in computer science to begin work toward the M.C.S. while completing the bachelor’s degree. Students admitted to the program may count 12 s.h. of course work, typically advanced technical courses and electives, toward both the bachelor’s and the M.C.S. degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Computer Science (p. 192) (College of Liberal Arts and Sciences) in the Catalog.

Joint B.S.E./M.S.: Electrical and Computer Engineering

The joint B.S.E./M.S. program in electrical and computer engineering enables undergraduate students majoring in electrical engineering to begin work toward the M.S. while completing the bachelor’s degree. Students admitted to the program may count 9 s.h. toward both the B.S.E. and M.S. degree requirements. They also may count an additional 3 s.h. toward the M.S. degree requirements and engage in thesis-level research before they have been awarded the B.S.E. degree. Offered by the Graduate College and the College of Engineering; see Electrical and Computer Engineering (p. 857) in the Catalog.

Joint B.A./M.A.: German

The joint B.A./M.A. program in German enables undergraduate students majoring in German to begin work toward the M.S. while completing the bachelor’s degree. Students admitted to the program may count 12 s.h. of credit toward both the B.A. and M.A. degree requirements. They also have the opportunity for early entrance into advanced courses in German. Offered by the Graduate College and the College of Liberal Arts and Sciences; see German (p. 330) (College of Liberal Arts and Sciences) in the Catalog.

Joint B.S.E./M.S.: Industrial Engineering

The joint B.S.E./M.S. program in industrial engineering enables undergraduate students majoring in industrial engineering to begin work toward the M.S. while completing the bachelor’s degree. Students admitted to the program may count 6 s.h. toward both the B.S.E. and M.S. degree requirements. They also may count an additional 6 s.h. toward the M.S. degree requirements, attend one of the department’s graduate seminars, and work on master’s thesis research before they have been awarded the B.S.E. degree. Offered by the Graduate College and the College of Engineering; see Mechanical and Industrial Engineering (p. 867) in the Catalog.

Joint Law and Graduate Degrees

The College of Law and several Graduate College programs and schools have developed joint programs in which students pursue the Juris Doctor (J.D.) degree and a graduate degree concurrently. Offered by the Graduate College and the College of Law; see College of Law (p. 962) in the Catalog.

Joint M.A.: Library and Information Science/Certificate in Book Studies

The joint M.A. in library and information science and Certificate in Book Studies/Book Arts and Technologies prepares students for careers in special collections librarianship. Students admitted to the program receive training in the management of varied types of special collections, such as rare books, manuscripts, archives, graphics, music, and ephemera. Offered by the Graduate College; see Library and Information Science (p. 935) and Center for the Book (p. 915) (both Graduate College) in the Catalog.
Joint B.A./M.A.: Linguistics with TESL Focus
The joint B.A./M.A. program in linguistics with TESL (Teaching English as a Second Language) focus enables students majoring in linguistics to begin work toward the M.A. while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of advanced course work toward both the B.A. and M.A. degree requirements and may take selected graduate-level courses before they have been awarded the B.A. degree. They also may gain experience teaching ESL at the college level early in their graduate careers. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Linguistics (p. 430) (College of Liberal Arts and Sciences) in the Catalog.

Joint B.S.E./M.S.: Mechanical Engineering
The joint B.S.E./M.S. program in mechanical engineering enables undergraduates majoring in mechanical engineering to begin work toward the M.S. while completing the bachelor's degree. Students admitted to the program may count 6 s.h. toward both the B.S.E. and M.S. degree requirements. They also may count an additional 6 s.h. toward the M.S. degree requirements, attend a graduate seminar, and participate in master's thesis research before they have been awarded the B.S.E. degree. Offered by the Graduate College and the College of Engineering; see Mechanical and Industrial Engineering (p. 867) in the Catalog.

Joint B.S.E.: Mechanical Engineering/ M.S.: Civil and Environmental Engineering
The joint B.S.E. in mechanical engineering/M.S. in civil and environmental engineering enables undergraduate students majoring in mechanical engineering to begin work toward the M.S. in civil and environmental engineering while completing the bachelor's degree. Students admitted to the program may count 9 s.h. of course work toward both the B.S.E. and M.S. degree requirements. They also may count an additional 3 s.h. toward the M.S. degree requirements before they have been awarded the B.S.E. degree. Offered by the Graduate College and the College of Engineering; see Mechanical and Industrial Engineering (p. 867) and Civil and Environmental Engineering (p. 844) in the Catalog.

Joint M.D./Ph.D. (Medical Scientist Training Program)
The joint Doctor of Medicine/Doctor of Philosophy program prepares students for careers in academic medicine, with emphasis on basic and clinical research. Offered by the Graduate College and the Carver College of Medicine; see Medical Scientist Training (p. 1038) Program (Carver College of Medicine) in the Catalog.

Joint B.S./Ph.D.: Microbiology
The joint B.S./Ph.D. program in microbiology enables undergraduate students majoring in microbiology to begin work toward the Ph.D. while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of credit toward both the B.S. and Ph.D. degree requirements. Offered by the Graduate College, the College of Liberal Arts and Sciences, and the Carver College of Medicine; see Microbiology (p. 1040) in the Catalog.

Joint B.A.: Psychology/M.P.H. with Community and Behavioral Health Subtrack
The joint B.A. in psychology/M.P.H. program with community and behavioral health subtrack enables Bachelor of Arts students majoring in psychology to begin work toward the M.P.H. while completing the bachelor's degree. Students admitted to the joint program may count 12 s.h. of credit toward both the B.A. and M.P.H. degree requirements. Offered by the Graduate College, the College of Liberal Arts and Sciences, and the College of Public Health; see Psychology (p. 518) and Master of Public Health Program (p. 1171) in the Catalog.

Joint B.A./M.A.T. with Science Education Subtrack
The joint B.A./M.A.T. program with science education subtrack enables Bachelor of Arts students majoring in biology, chemistry, environmental sciences, or physics to begin work toward the M.A.T. while completing the bachelor’s degree. Students admitted to the program may count 18 s.h. of credit toward both the B.A. and M.A.T. degree requirements. Offered by the Graduate College, the College of Liberal Arts and Sciences, and the College of Education; see Biology (p. 118), Chemistry (p. 132), Environmental Sciences (p. 275), or Physics and Astronomy (p. 490) (College of Liberal Arts and Sciences) and Teaching and Learning (p. 774) (College of Education) in the Catalog.

Joint Au.D./Ph.D.: Speech and Hearing Science
The joint Au.D./Ph.D. program in speech and hearing science is designed for students who would like to practice audiology and hold a faculty position at a university. Students admitted to the program work concurrently toward the Doctor of Audiology and the Doctor of Philosophy; they may count 30 s.h. toward the requirements of both degrees. Offered by the Graduate College and the College of Liberal Arts and Sciences; see Communication Sciences and Disorders (p. 163) (College of Liberal Arts and Sciences) in the Catalog.

Certificate Programs
Several Graduate College programs offer certificates. For detailed information about each one, see Center for the Book (p. 915), Cognitive Science of Language (p. 920), Informatics (p. 929), Rhetorics of Inquiry (p. 948), and Transportation Studies (p. 953).

The Graduate College also participates with other University of Iowa colleges in offering the following graduate certificates.

Advanced Practice Nursing
The Certificate in Advanced Practice Nursing is a program for Doctor of Nursing Practice (D.N.P.) students that offers advanced clinical training in five specialty areas: adult/gerontology nurse practitioner, family nurse practitioner, neonatal nurse practitioner, pediatric nurse practitioner,
and psychiatric/mental health nursing. Students who complete the D.N.P. program and the certificate requirements are qualified to sit for a professional certification exam. Completion of the certificate program is noted on the student’s transcript. See College of Nursing (p. 1105) in the Catalog.

**Aging Studies**
The Aging Studies Program is a multidisciplinary certificate program administered by the College of Liberal Arts and Sciences in cooperation with other University of Iowa colleges. The program is designed to complement graduate degree programs or to serve as a stand-alone nondegree program for students with academic, professional, research, or service career interests in aging. Completion of the certificate program is noted on the student’s transcript. See Aging Studies (p. 31) (College of Liberal Arts and Sciences) in the Catalog.

**Agricultural Safety and Health**
The Certificate in Agricultural Safety and Health is a postbaccalaureate program for practicing health care professionals serving rural areas and for health professionals students who intend to practice in rural areas. The program is designed to help rural health professionals address safety and health issues in farm settings. Completion of the certificate program is noted on the student’s transcript. See Agricultural Safety and Health (p. 1140) (College of Public Health) in the Catalog.

**American Indian and Native Studies**
The American Indian and Native Studies Program (AINSP) offers an interdisciplinary certificate program focusing on the histories, cultures, languages, arts, religious traditions, political and social organizations, economies, geographies, literatures, and contemporary legal and political concerns of Native Americans of the United States as well as other indigenous peoples of the Western Hemisphere. Completion of the certificate program is noted on the student’s transcript. See American Indian and Native Studies (p. 34) (College of Liberal Arts and Sciences) in the Catalog.

**Biostatistics**
The Certificate in Biostatistics is open to students in University of Iowa graduate degree programs outside biostatistics and to individuals admitted to the Graduate College as nondegree students. The certificate program enables students to add a formal biostatistics emphasis to their degree programs. Students who complete the certificate in conjunction with a graduate degree may count a maximum of 6 s.h. of certificate credit toward their graduate degree. See Biostatistics (p. 1141) (College of Public Health) in the Catalog.

**College Teaching**
The Certificate in College Teaching complements discipline-oriented graduate programs and prepares students for careers in postsecondary education. The program is open to graduate students working toward a Ph.D. or other terminal graduate degree. Completion of the certificate program is noted on the student’s transcript. See College of Education (p. 715) in the Catalog.

**Emerging Infectious Disease Epidemiology**
The Certificate in Emerging Infectious Disease Epidemiology is a postbaccalaureate program designed to meet the training needs in emerging infectious disease of international public health professionals as well as University of Iowa graduate students. Applicants to the program must hold a bachelor’s degree. Completion of the certificate program is noted on the student’s transcript. See Emerging Infectious Disease Epidemiology (p. 1153) (College of Public Health) in the Catalog.

**Gender, Women’s, and Sexuality Studies**
The Certificate in Gender, Women’s, and Sexuality Studies is open to students enrolled in graduate degree programs. Completion of the certificate program is noted on the student’s transcript. See Gender, Women’s, and Sexuality Studies (p. 297) (College of Liberal Arts and Sciences) in the Catalog.

**Global Health Studies**
The Global Health Studies Program emphasizes international health problems and solutions in the developing and developed worlds, including the United States. The interdisciplinary certificate program is open to both graduate and undergraduate students. Admission is competitive but does not require previous academic study in the health sciences. Completion of the certificate program is noted on the student’s transcript. See Global Health Studies (p. 337) (College of Liberal Arts and Sciences) in the Catalog.

**Multicultural Education and Culturally Competent Practice**
The Certificate in Multicultural Education and Culturally Competent Practice is open to graduate students enrolled in graduate degree programs and to postbaccalaureate nondegree graduate students. The curriculum, which consists of five courses (15 s.h.), begins with an introductory course and ends with a capstone course. Contact the Office of Graduate Inclusion to learn more about the certificate program.

**Sacred Music**
The Certificate in Sacred Music is an interdisciplinary program with courses in sacred music, choral conducting and literature, keyboard, voice, religion, and art and art history. The program is open to students enrolled in a graduate degree program and to nondegree students who have been admitted to the Graduate College and who have consent of the certificate’s faculty advisor. Completion of the certificate program is noted on the student’s transcript. See Music (p. 460) (College of Liberal Arts and Sciences) in the Catalog.

**Translational and Clinical Investigation**
The Certificate in Translational and Clinical Investigation is designed for clinicians who seek advanced training in clinical methodology and applied patient-oriented research skills. Students in the certificate program must be practicing academic clinicians who have completed doctoral training. Completion of the program is noted on the student’s transcript. See Epidemiology (p. 1154) (College of Public Health) in the Catalog.
Affiliated Program

The Office of Graduate Inclusion (OGI) is dedicated to providing academic assistance to graduate students from underrepresented populations across graduate programs; to helping build a sustainable practice of inclusion that nourishes and attracts underrepresented graduate students campuswide; and to helping build community through individual and group activities focused on successful academic progress.

OGI's specific goals are to increase numbers of underrepresented minorities in graduate programs; increase the number of doctoral students among U.S. minorities in graduate programs at Iowa; create a department-centered effort of graduate inclusion; offer support to University of Iowa departments and programs that are interested in building, extending, or sustaining their practices of inclusion; support faculty-based efforts for recruiting top graduate scholars who are members of underrepresented minorities; provide mentoring and support for students throughout their degree programs; and provide information on grant opportunities for departments and programs that are pursuing graduate inclusion.

Research Resources

Many of the University’s diverse research activities are centrally administered by the Office of the Vice President for Research, which has a cooperative relationship with the Graduate College.

Financial Support

Approximately half of the University’s graduate students receive some form of University-administered financial assistance. For eligibility requirements and application procedures, see “Section VII. Graduate Appointments” in the Manual of Rules and Regulations of the Graduate College The following are the primary sources of assistance.

Teaching and Research Assistantships

Teaching and research assistantships are available in most departments. Assistantship stipends typically range between $17,330 for a half-time academic-year appointment and $21,180 for a half-time fiscal-year appointment; assistants also are eligible for tuition scholarships. Assistants (one-quarter-time or more) are classified as residents for fee purposes.

Iowa Arts Fellowships

Iowa Arts Fellowships are for University of Iowa graduate students entering M.F.A. programs. Typical stipends are $18,500 for the academic year, with all tuition (excluding mandatory fees) paid, plus a health insurance allowance, for a maximum of two years (the second year being contingent on demonstrated exceptional progress toward completion of the M.F.A.). There are no departmental service obligations.

Iowa Performance Fellowships

Iowa Performance Fellowships are for first-year D.M.A. candidates in a performance area of music. Recipients are nominated by the School of Music. Awards include academic-year fellowships ($17,500 for year one, $8,665 for years two and three), summer fellowships ($2,000 for years one and two), and tuition (excluding mandatory fees). The School of Music provides a one-quarter-time research assistantship in years two and three.

Dean’s Graduate Research Fellowships

Dean’s Graduate Research Fellowships are awarded to first-year graduate students who are members of minority groups underrepresented in the nominating department’s discipline area. Doctoral students receive an annual stipend of $22,000 ($18,000 for the academic year and $4,000 for summer session) plus tuition (excluding mandatory fees) for the first year and final dissertation year. They also receive a half-time research or teaching assistantship stipend, tuition (excluding mandatory fees), and a summer stipend ($4,000 if they register) during years two and three. Students earning a terminal master’s degree (e.g., M.F.A.) receive fellowship support equivalent to one academic year ($17,000) and are eligible to receive two summer session stipends ($3,000 each if they register) and tuition (excluding mandatory fees) for two years. The master’s fellowship support may be distributed over two academic years ($8,500 per year), if requested. Both doctoral and master’s degree fellows are expected to conduct mentored research and/or scholarly activities while on fellowship support during the academic year and summer sessions.

Presidential Graduate Fellowships

Presidential Graduate Fellowships provide five-year awards for doctoral students on a year-round basis. Fellows receive an annual stipend of $24,000 ($18,500 for the academic year and a $5,500 summer stipend), plus full tuition (excluding mandatory fees) for years one and four; a research assistant or teaching assistant stipend during the academic year and a $5,500 summer stipend and full tuition (excluding mandatory fees) for years two and three. Recipients have no duties during their fellowship years and are eligible for up to four summers of support. In their final year, awardees are eligible to apply for a Ballard and Seashore Dissertation-Year Fellowship; those who do not receive the fellowship are awarded a research assistantship, a teaching assistantship, or a fellowship from their department.

Graduate College Summer Fellowships

Graduate College Summer Fellowships are for advanced doctoral students who have completed their comprehensive exams, are working to complete their dissertations, and so do not otherwise have funding for the summer session. Awards provide a summer stipend of $3,000 plus tuition for 1-2 s.h. at the College of Liberal Arts and Sciences tuition rate. Awardees must enroll for the six-week or eight-week summer session; students enrolled in the three-week summer session are not eligible to receive the fellowship.

T. Anne Cleary International Research Fellowships

The T. Anne Cleary International Research Fellowships are for doctoral students who have completed all pre-dissertation requirements, including the comprehensive examination, and who will use the fellowship for dissertation research outside North America. The awards may vary from $1,500 to $5,000 and are meant to
supplement other research funds. Doctoral students in any discipline may apply. Past recipients of the Cleary fellowship and Doctor of Musical Arts students who choose the D.M.A. essay option are not eligible.

**Ballard and Seashore Dissertation-Year Fellowships**

Ballard and Seashore Dissertation-Year Fellowships are annual fellowships for doctoral students in the humanities and social sciences who have completed all doctoral degree requirements except their dissertation. Recipients are nominated by their departments. Fellowships provide $18,000 for the academic year plus tuition (excluding mandatory fees) for up to 2 s.h. and a health insurance allowance.

**Scholarships**

Scholarships provide up to full tuition.

**GRADUATE STUDENT TRAVEL AWARDS**

Graduate student travel awards provide reimbursement for travel by students who present research and scholarship results to professional conferences. Awards are competitive across disciplines and vary from $200 to $400. Funds are administered by the Graduate Student Senate and the Graduate College.

**Other Sources**

For other sources of financial support, contact the Office of Student Financial Aid.

Many departments offer additional support through traineeships, part-time employment in research, or part-time teaching appointments. The Office of the Vice President for Research maintains a library of information on public and private agencies that provide funds for research and graduate study. Much material has been collected concerning awards for overseas study.

**Graduate Student Senate**

The Graduate Student Senate is the University graduate student body representative organization. Representatives are elected annually from each University department that has a graduate degree program. The senate's primary purpose is to serve the interests of the graduate student body in matters affecting its welfare. The senate advises the dean of the Graduate College on matters pertaining to the college.

**Manual of Rules and Regulations of the Graduate College**

The following text is from the Manual of Rules and Regulations of the Graduate College. The most up-to-date version of this manual is available online; see "For Students" on the Graduate College web site.

**The Academic Program**

**Section I. Admission to the Graduate College**

**A. APPLICATION PROCEDURE**

All students seeking to register for the first time in the Graduate College of The University of Iowa must secure formal admission from the director of Admissions. Applicants may obtain the proper forms from the Office of Admissions. Prospective students may also download the application or apply online from the admissions web site.

In addition to these forms, official transcripts, test scores, and other supporting material must be submitted by the designated deadline prior to the session in which admission is expected. Specific deadline dates will be established by the dean of the Graduate College and the director of Admissions and printed in the Catalog and elsewhere.

**B. ADVANCED MEASUREMENT TESTS**

Each graduate program will determine which, if any, advanced measurement test(s) will be required of the applicants to the program. Examples of such examinations include the General (Aptitude) Test of the Graduate Record Examination (GRE), the GRE Subject (Advanced) Tests, and the Graduate Management Admission Test (GMAT). For those departments or programs that choose to require an examination, the examination must be required for all students; there cannot be exempt categories. Additionally, a final admission decision will not be made by the Office of Graduate Admissions until the student’s scores have been received. The judgment of acceptable levels of performance on these tests, and the weight of such scores in the overall decision-making process, is left to the department or program.

**C. ENGLISH FOR INTERNATIONAL STUDENTS**

Prior to consideration for admission, international student applicants whose native language is other than English must take and pass either the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), unless they have received a degree from an accredited college or university in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand. These examinations are given at various times of the year and in many centers throughout the world.

International students transferring from unfinished degree programs of other universities in the United States who have not taken either of these examinations, or who have received a score lower than the minimum established by the Graduate College dean, must take the TOEFL or IELTS examination and receive a passing score prior to consideration for admission.

Students who barely pass the established minimum on the TOEFL, as well as all IELTS submitters, will be required to sit for an English evaluation upon arrival in Iowa City. The Graduate College will require these students to take and pass recommended course work in English usage at The University of Iowa designed especially for international students.

**D. EARLY ADMISSION**

A student who is within 6 s.h. of having satisfied all the requirements for the bachelor’s degree at The University
of Iowa or any other accredited college may be given provisional admission.

E. CANDIDACY

Admission to the Graduate College is not the equivalent of acceptance as a candidate for an advanced degree, which must be earned through work successfully completed at The University of Iowa. (See "Section X. Master's Degrees" and "Section XII. Doctor's Degrees." )

F. DECLARATION OF MAJOR AND DEGREE

Every applicant for admission must indicate on the application form the department or program of major interest and the degree, certificate, or professional objective he or she intends to pursue. The only exceptions to this regulation are the limited number of applicants registered as nondegree ("special") students. (See definition of nondegree status in next section.) Changes in the major or degree status may be made in the course of a student's graduate study with the approval of the department to which the transfer is proposed. To initiate such action, the student must file a change of major or degree status in the Office of Admissions.

G. ADMISSION REQUIREMENTS AND STATUS

Graduates of any college or university accredited by regional accrediting associations may be admitted to the Graduate College if their academic records meet the required standards. Upon admission, all students fall into one of the following three categories:

1. Regular--For students who have met the minimum requirements for admission and who have been accepted by a department, or interdepartmental degree program, for work leading to a graduate degree or certificate or for professional improvement. The minimum g.p.a. for admission as a regular student to all graduate programs is 3.00.

Departments or programs may petition the Graduate College dean for admission of a student whose g.p.a. is lower than 3.00, if there is sufficient evidence of the student's academic and/or professional achievement indicating his/her potential for success in a graduate program.

Departments, or committees in charge of interdepartmental degree programs, may, and often do, set higher minimum admission requirements than those set forth above for the Graduate College as a whole. Information concerning departmental or program requirements may be obtained directly from the executive of the department concerned.

2. Conditional--Students who are interested in working toward a graduate degree or certificate but who are required by a department to demonstrate their ability to do satisfactory graduate work before being admitted to regular status. To be admitted on a conditional basis, the student must be recommended by a department, which will assume responsibility for advising him or her. The student on conditional status must achieve regular status within two sessions of registration in the Graduate College by attaining a g.p.a. of at least 3.00 and acceptance by the major department, or be dismissed.

3. Nondegree (Special)--Students with a valid bachelor's degree and at least a 2.50 g.p.a. are eligible to register for a total of no more than two courses per semester. In addition, a nondegree student may not accumulate more than two courses within a given department/program under this classification. These students must be approved for admission by the Graduate College and the Office of Admissions. Nondegree graduate students are not eligible for a graduate degree.

H. ADMISSION OF FACULTY MEMBERS TO GRADUATE STUDY

Persons who hold faculty rank of assistant professor (including clinical assistant professor) or above at The University of Iowa may be admitted as nondegree students. (See "Section G" above.) A person holding faculty rank as specified above may petition the Graduate College dean for permission to enter a departmental program for work leading to an advanced degree, certificate, or professional improvement except in the department of his or her appointment or a closely related department. Such petitions must have prior approval of the department of appointment, dean of the college of appointment, the department in which study is to be pursued, and the Graduate College.

I. READMISSION

If a student’s enrollment is interrupted for any reason so that she or he is not enrolled for three consecutive academic sessions (including the spring, summer, and fall sessions but excluding the winter session), the student must apply for readmission. The readmission application form must be used. The Graduate College will not require new letters of recommendation, a new Personal Statement section, a written explanation of the reasons for the absence, or a plan for degree completion. However, departments and programs may choose to require any or all of the foregoing.

Section II. Registration

A. STANDARD SCHEDULE

Students registered in the Graduate College may register for no more than 15 semester hours in all courses eligible for graduate credit 100 (3000)-level or above. A maximum, graduate semester-hour registration will include all courses numbered 100 (legacy numbering) or 3000 (new renumbering) and above, whether they are offered as on-campus, extension, or workshop classes. In a schedule of mixed graduate and undergraduate courses, 2 hours of undergraduate credit may be substituted for 1 hour of graduate credit, with registration limited to a total of 18 semester hours. This equivalency applies to the calculation of academic load only. Graduate credit is not given for courses numbered under 100 (3000). In 2014 the summer session will expand to 12 weeks. The maximum registration for the twelve-week summer session is 12 semester hours. Corresponding maximums for the eight-week, six-week and four-week summer sessions and the three-week winter session are 8, 6, 4, and 3 semester hours, respectively. The maximum semester-hour registration for work scheduled outside of a regular summer session will be arranged on a basis proportionate to that stated above with the approval of the Graduate College dean.

Nine semester hours in the regular semester constitute full-time registration. (Fellows are required to carry at least 9 semester hours during a semester as a condition of their appointments.) One-quarter-time and one-third-time appointees are permitted to register for the maximum
15 semester hours per semester and 12 semester hours during the twelve-week summer session.

B. COURSES NOT INCLUDED IN FULL REGISTRATION
In addition to a full schedule, a graduate student may register for offered courses carrying 0 s.h. of credit.

C. CHANGES IN ANNOUNCED CREDIT
Graduate students may not register for more credit than that offered for any course, but may register for less credit, or no credit, by permission of the instructor. The number of courses a graduate student may take for limited or no credit is subject to the consent of the advisor and the approval of the dean of the Graduate College.

D. REDUCED SCHEDULES FOR TEACHING AND RESEARCH ASSISTANTS AND OTHER APPOINTEES*
1. One-half-time appointees may register for not more than 12 s.h. during a semester or 6 s.h. during the eight-week summer session.
2. Five-eighths-time appointees may register for not more than 10 s.h. during a semester or 5 s.h. during the eight-week summer session.
3. Two-thirds- and three-quarter-time appointees may register for not more than 9 s.h. during a semester or 5 s.h. during the eight-week summer session.

*See Section VII.F for information regarding graduate assistant overload appointments (those more than one-half-time/20 hours per week).

E. RETROACTIVE REGISTRATION
No form of retroactive registration is permitted.

F. REGISTRATION FOR PART OF A SESSION
A graduate student may register at any time during the semester or the eight-week summer session for not more than 1 s.h. of credit for each of the remaining weeks of classes (not including the examination period) in the term. The total registration may not exceed the 15 s.h. permitted for a semester and the 8 s.h. permitted for the eight-week summer session. Registration after the last day of the second week of a semester or the third day of the second week of a summer session is permitted only in courses involving special projects, readings, individual study, thesis, or research, with the signed approval of the instructor concerned and the Graduate College dean. Proportional credit limitations and deadlines for the three- and six-week summer sessions will be established on a prorated basis.

G. EXTRAMURAL REGISTRATION
After admission to a departmental program in the Graduate College, registration for work done off campus may be accepted for residence credit under the following circumstances:
1. Traveling Scholar Program of the Committee on Institutional Cooperation (see "Section III").
2. Research at approved locations under the direction of members of the graduate faculty of The University of Iowa.
3. Fieldwork as part of a regularly scheduled course or research program.

4. Courses taught off campus by members of the graduate faculty (see "Section X.D" and "Section XII.C" for minimum semester hours required on campus for the master's and doctor's degrees).
5. Residence graduate credit from another Iowa Regents' university (see "Section V.B").
6. As many as 9 s.h. of graduate work taken at the Quad Cities Graduate Center from faculty other than faculty of the Iowa Regents' universities, provided the work is acceptable to the student's major department for the specified degree.

Extramural registration does not count toward residence credit in the following circumstance:
Course work transferred from another institution.

H. SYSTEM OF COURSE NUMBERS
Courses primarily for graduate students are numbered 200 or above in each department. Courses open to and carrying credit for both graduate and undergraduate students are numbered from 100 to 199. A student must be enrolled in the Graduate College in order to earn graduate credit for course work numbered 100 or above. Courses below 100 are not accepted for graduate credit irrespective of a student's classification. Graduate credit may not be earned for taking courses numbered below 100 by registering in such courses as readings, special projects, or independent study having course numbers of 100 or above.

I. AUDITING OF COURSES
Upon approval of the instructor and the advisor, graduate students may audit courses for zero credit. Fee assessment for auditing courses is based on the number of hours for which the course is offered, with a minimum of 1 s.h. Auditing is permitted only for a student who is currently registered. See “Section VI.C” for the marking system.

J. DROPPING OF COURSES
All graduate students who drop courses after the deadline date established by the dean of the Graduate College for each session and published by the registrar shall receive the grade of F unless the entire registration is withdrawn. This regulation may be waived by the Graduate College dean only on the recommendation of the Student Health director or the Counseling Service. If a student withdraws registration after the deadline date, the student must obtain permission from the dean of the Graduate College before being permitted to reregister.

Section III. Traveling Scholar Program
A. PURPOSE
The program, under the auspices of the Committee on Institutional Cooperation representing 13 universities in the Midwest, enables a doctoral student to take advantage of special resources available on another campus but not available on his or her own campus: special course offerings, research opportunities, unique laboratories, and library collections.

B. PROCEDURE
1. A CIC Traveling Scholar first must be recommended by his or her own graduate advisor, who will approach an appropriate faculty member at the possible host institution in regard to a visiting arrangement.
2. After agreement by the student's advisor and the faculty member at the host institution, graduate deans at both institutions will be fully informed by the advisor and have the power to approve or disapprove.

3. A CIC Traveling Scholar will be registered at the home university, and fees will be collected and kept by that institution.

4. Credit for the work taken will be recorded at the home university.

5. Those desiring additional information should inquire at the office of the Graduate College.

C. CONDITIONS
CIC Traveling Scholars will normally be limited to two semesters or three quarters on another campus. Each university retains its full right to accept or reject any student who wishes to study under its auspices.

Section IV. Academic Standing, Probation, and Dismissal
A. NONDOCTORAL STUDENTS
A nondoctoral departmental (master's, professional improvement, certificate) student, except one on conditional status, shall be placed on probation if, after completing 8 s.h. of graduate work, the student's cumulative grade-point average on graduate work done at The University of Iowa falls below 2.75. If, after completing 8 more s.h. of graduate work at this University, the student's cumulative grade-point average remains below 2.75, the student shall be denied permission to reregister within any departmental program; otherwise the student shall be restored to good standing.*

Nondoctoral, nondoctoral (nondegree, extension, workshop) students shall be evaluated for probation and dismissal purposes based on the same semester-hour sequence as stated above, at a minimum cumulative grade-point average of 2.50.

*This requirement shall apply to students entering nondoctoral departmental programs beginning with the fall 2001 semester. A minimum cumulative grade-point average of 2.50 is required of nondoctoral departmental students admitted prior to that session.

B. DOCTORAL STUDENTS
A doctoral student on regular status shall be placed on probation if, after completing 8 s.h. of graduate work, the student's cumulative grade-point average on graduate work done at The University of Iowa falls below 3.00. If, after completing 8 more s.h. of graduate work at this University, the student's cumulative grade-point average remains below the required level, the student shall be dropped from the program and denied permission to reregister unless the student applies and is accepted for a nondoctoral degree or certificate program. If, after completing the second 8 s.h., the cumulative grade-point average is at least 3.00, the student is returned to good standing.*

*This requirement shall apply to students entering doctoral programs beginning with the fall 1979 semester. A minimum cumulative grade-point average of 2.70 is required of students admitted to doctoral programs prior to that session.

C. RESTRICTION ON STUDENTS ON PROBATION
A student on probation shall not be permitted to take comprehensive or final examinations leading to any degree or certificate, nor may the student receive any graduate degree or certificate.

D. DEPARTMENTAL REGULATIONS AND DISSEMINATION OF INFORMATION
In addition to the above University-wide requirements, departments may establish further requirements which then determine the individual student's standing with regard to probation and dismissal. To this end, each department or program shall compile a written list of standards and procedures for work in that area. These documents shall be on file in each departmental office and the office of the Graduate College dean. Copies are to be available for students in the departmental office, and departments shall make all reasonable efforts to inform students. Subsequent changes in standards or procedures shall be communicated by the department to each student and the Graduate College dean. Whenever departments revise standards for a given program, the new regulations will not apply retroactively to the disadvantage of those already in the program. In addition to notifying students that they are subject to the rules of the Graduate College as set forth in the Manual of Rules and Regulations, any standards established by the department more stringent than the general Graduate College requirements shall be stated. Information shall be provided outlining required courses applicable to the various departmental programs of study, examination procedures and other formal evaluations, departmental policies with regard to awarding and renewing assistantships, time limits on programs of study, departmental registration policies, departmental grade-point requirements, requirements for changing from one degree program to another within the department--especially from the master's to the doctor's--departmental probation and dismissal policies and procedures (see "E" following), and other matters as are appropriate. The nature of the departmental advisory system shall be explained to incoming students.

E. ACADEMIC PROGRESS, DEPARTMENTAL PROBATION, AND DISMISSAL PROCEDURES
If a student is failing to meet departmental standards, the department shall warn the student of this fact in writing. The notification shall specify in what way(s) the student is failing to meet the standards, the student shall be provided a reasonable amount of time to meet the standards prior to departmental dismissal. If conditions such as conditional admission or probation are imposed, the department shall give, at the time of its imposition, written explanation of this status and its time limits.

A student who will not be permitted to reregister for failure to meet standards shall be notified of this fact in writing with reasons for the action provided. Such dismissal may follow failure to meet conditions of admission, conditions of probation, pre-announced departmental grade-point requirements or other standards, or failure of a regularly scheduled examination or formal evaluation. If a student judges the dismissal decision improper, the student has a right to review. Each department shall establish procedures for handling such reviews. The procedures are to be approved by the Graduate College dean and shall afford a fair and expeditious review. A description of
these procedures shall be included in the departmental regulations described above. (See "Section IV.D."

F. PLAGIARISM BY GRADUATE STUDENTS

The Online Oxford English Dictionary (http://oed.com/view/Entry/144941?redirectedFrom=plagiarize#eid) defines "plagiarize" as follows, "to take and use as one's own (the thoughts, writings, or inventions of another person); to copy (literary work or ideas) improperly or without acknowledgement; (occas.) to pass off as one's own the thoughts or work of (another)." In practice, the exact definition of "plagiarize" or "plagiarism" is dependent upon the unique attributes of the creative work of a particular discipline. Thus, it is understood that different academic disciplines and cultures may have different interpretations as to the actual actions which constitute plagiarism. With this in mind, the Graduate College will operate in the following manner when a program or department discovers an act or acts of plagiarism on the part of a graduate student.

1) If the faculty members of a program or department determine that the transgression is not major, or else feel that there is a misunderstanding of the acts which constitute plagiarism, the program or department may wish to work with the student so as to prevent future occurrences of plagiarism on the part of that student. Written notification of the offense and the remediation for the offense must be sent to the Graduate College for inclusion in the student’s file.

2) If the faculty members of a program or department discover an act (or acts) of plagiarism that is (are) sufficiently egregious that expulsion from the program is warranted, the student will be terminated from his or her graduate program for reasons of plagiarism. In this case, the student will be simultaneously terminated from the Graduate College of The University of Iowa. The program or department must notify the student of his or her termination in writing. All relevant facts, as well as the process for appealing the decision, must be contained in the termination letter. The Graduate College must receive a copy of the termination letter. If the graduate student resigns from the program to avoid being terminated for reasons of plagiarism, the student will be considered to have simultaneously resigned from the Graduate College.

The appeal process for students accused of academic misconduct is specified in The University of Iowa document, "Policies and Regulations Affecting Students, Academic Misconduct," which states: "Questions of academic dishonesty arising within the colleges of Medicine, Law, Pharmacy, and Dentistry, and the Graduate College are treated on an individual basis."

In the Graduate College, the questions of academic dishonesty are handled at the departmental level. If the departmental decision is appealed, the dean may appoint an appeals committee of faculty and students from a slate of nominees prepared by the Graduate Council and the Graduate Student Senate to recommend an appropriate course of action.

The appeal process must be initiated by the student. If the student wishes to appeal the department’s or program’s action, that appeal must be lodged with the Senior Associate Dean for Academic Affairs of the Graduate College within 30 days of program or departmental dismissal.

G. GRADUATE COLLEGE REVIEW OF DEPARTMENTAL DISMISSAL

Questions involving judgment of performance will not be reviewed beyond the department level. If, however, the student feels there has been unfairness or some procedural irregularity concerning dismissal, the student may pursue a grievance according to the Academic Grievance Procedure (AGP) established by the Graduate College. The AGP is available in the Graduate College. The student should consult with the Graduate College prior to initiating an academic grievance.

Section V. Credits

A. TRANSFER OF GRADUATE CREDIT

Graduate work at other institutions will be entered on the student’s permanent record by the Office of Admissions and a report of this action will be sent to the student and to his or her major department. Credit for these courses toward an advanced degree at Iowa must have the approval of the major department and the dean of the Graduate College. (See "Section X.E." and "Section XII.E.", Reduction of Old Credits.)

B. RESIDENCE TRANSFER CREDIT

After admission to a departmental program in the Graduate College, residence graduate credit from another Iowa Regents' university may be counted as residence credit at this institution, provided such work is acceptable to the student’s major department on the basis of the department’s determination of its applicability toward the degree. (See "Sections X.D." and " XII.C." for minimum semester hours required on campus for the master's and doctor’s degrees, and "Sections X.E. and XII.E.", Reduction of Old Credits.)

C. GRADUATE CREDIT FOR VETERANS

Credit may be granted for studies pursued in war and military situations under such regulations as may be formulated by the national educational agencies and under such adaptation of standing rules as the Graduate Council may authorize from time to time to meet group or individual situations. The value of such credit in satisfying requirements for a degree will be determined by the major department with the approval of the dean.

D. WITHDRAWAL OF REGISTRATION AND PROPORTIONAL CREDIT FOR STUDENTS ENTERING MILITARY SERVICE

1. Students who leave within the first six weeks of the semester receive no credit.

2. Students who leave within the period of seven to nine weeks receive one-half credit.

3. Students who leave within the period of ten to twelve weeks receive two-thirds credit.

4. Grade reports for the one-half and two-thirds credit periods: (a) Instructors report grades only as satisfactory or unsatisfactory. (b) Credit is to be assigned on the basis of total registration minus thesis and seminar. (c) Courses are to be counted toward specific degree requirements only after the student returns and then only with the department’s approval.

5. Students who complete the twelfth week receive full credit.
6. Grade reports for the full-credit period: (a) Grades are to be reported only at the end of the semester. (b) Credit is to be reported in specific courses.

7. In each instance, the instructor reports the student’s credit, grade, and date of withdrawal. No credit is granted unless the student’s work is satisfactory at the time of leaving.

8. The amount of credit in thesis and research registration is to be reported to the registrar by individual instructors on the above basis except that less or zero credit may be assigned.

Section VI. Marking System

A. MARKS CARRYING GRADUATE CREDIT

B. MARKS CARRYING NO GRADUATE CREDIT

These are D+, D, D-, F, I--incomplete, W--withdrawn without discredit, R--registered, U--unsatisfactory, AUS--audit successful, and AUU--audit unsuccessful.

C. AUDIT

AUS is assigned when a student registered for zero credit attends as an auditor throughout the course; if the student fails to meet the instructor’s auditing requirements, AUU is assigned.

D. INCOMPLETE

The grade of I is to be used only when a student’s work during a session cannot be completed because of illness, accident, or other circumstances beyond the student’s control. In registrations for thesis, research, or independent study, the satisfactory/unsatisfactory grades may be applied. (See next paragraph, “E”.) An incomplete will automatically be converted to an F at the end of the next full semester (summer and winter sessions excluded), even if the student does not enroll after the session the I was posted.

Courses may not be repeated to remove incompletes; removal of an I is accomplished only through completion of the specific work for which the mark is given.

E. THESIS, RESEARCH, READINGS, INDEPENDENT STUDY, AND SPECIAL PROJECTS

Grades of S and U may be used for registrations in thesis, research, readings, independent study, and special projects. S--satisfactory means that the student receives credit for the work; U--unsatisfactory means that he or she receives no credit. Neither S nor U is used in computing grade-point averages. At a later date, the instructor may change the S to a letter grade. In addition, departments may ask the Graduate College dean for permission to use grades of S and U as described above for courses which, because of their special or experimental nature, are judged to be more appropriate for such grading. The type of grading system to be used in the above cases should always be mutually understood by the instructor and student.

F. GRADES OF S AND U

S and U may be used for courses taken by a graduate student outside the major department or interdepartmental degree program provided that the instructor of the course and the student’s departmental advisor approve the registration. Arrangements for satisfactory/unsatisfactory grading in these courses are accomplished by filing a card with appropriate signatures in the Registrar’s Office at the time of registration, or no later than the last day of the second week of a semester or the third day of the second week of a summer session. No changes from letter grades to satisfactory/unsatisfactory grades or vice versa will be allowed after these dates.

It is not the policy of the Graduate College to abandon the traditional letter grades described in this section; however, in certain exceptional instances, departments having several areas of concentration involving widely differing types of effort may request the permission of the Graduate Council to allow students majoring in one area to register in courses in another area within the same department or program on a satisfactory/unsatisfactory basis. In these instances, satisfactory/unsatisfactory cards will be used as described in the preceding paragraph.

G. COMPUTED GRADE-POINT AVERAGE

This is based only upon graduate work graded A+=4.33, A=4.00, A-=3.67, B+=3.33, B=3.00, B-=2.67, C+=2.33, C=2.00, C-=1.67, D+=1.33, D=1.00, D-=0.67, and F=0. Although a grade of A+ has a value of 4.33 in computing a student’s g.p.a., the cumulative average is truncated so as not to exceed 4.00.

Section VII. Graduate Appointments

A. SCHOLARSHIPS

Scholarships are competitive and are awarded on merit.

1. Eligibility for graduate scholarships and fellowships will include but will not be exclusive to: (a) registration in the Graduate College; (b) cumulative g.p.a. of at least 3.00; (c) a satisfactory rate of progress in completing the program for the degree.

2. Preference will be given to candidates for the doctoral degree.

3. Recommendations for graduate scholarships may be made to the Graduate College by the appropriate department executive, director, or dean. A graduate scholarship may be awarded whether or not a student holds an assistantship. The amount of scholarship for the academic year may vary, but in no case exceed the comprehensive fee assessed. Scholarships will be credited to the student’s University account.

B. GRADUATE COLLEGE FELLOWSHIPS

Fellowships are awarded by the Graduate College upon recommendation by departments to students with outstanding academic records. Fellows must be registered as full-time students. The primary purpose of the awards is to permit an advanced student to complete his or her dissertation or creative project and take the degree. Other terms of the award will be established by the Graduate College dean in consultation with the Graduate Council.

C. FACULTY RESEARCH ASSISTANTSHIPS

Faculty research assistantships are awarded to qualified graduate students and serve two purposes: to provide research service to professorial members of the academic staff and to provide apprenticeship experience for graduate students who are in training in research. Not more than 20 hours of service per week are required of a half-time assistant. Other part-time service is scaled in proportion, and a limited academic schedule is permitted (see "Section II.D"). Appointments ordinarily are made for
the nine-month academic year, but appointments may be made for other periods of time by special arrangement. Stipends vary with the qualifications of the appointee and the amount of service rendered.

D. GRADUATE TEACHING ASSISTANTSHIPS

These assistantships serve two purposes: assistance in the instructional program of the University and the preparation of future college teachers. In order to achieve both aims, scholastically superior graduate students who show exceptional promise as teachers are selected for graduate teaching assistantships. All appointments are made by the dean of the appropriate college on recommendation of the department.

E. ELIGIBILITY FOR SCHOLARSHIPS, FELLOWSHIPS, AND RESEARCH ASSISTANTSHIPS

Scholars, fellows, and faculty research assistants on the Graduate College budget must be registered as regular students in good standing in order to hold such appointments. Appointments will be terminated when registration and/or student status is terminated. In no instance may a student be promised or tendered an appointment until after approval for admission to the Graduate College by the director of Admissions.

F. GRADUATE ASSISTANT OVERLOAD APPOINTMENTS

Overload graduate assistantship appointments (those more than 20 hours/week) will be granted only when there is a clear case to be made beyond the student’s monetary gain or the benefit to the department.

Before making a graduate assistantship appointment that brings a student’s total appointment beyond 50%, the DEO or DGS of the program in which the student is enrolled (in consultation with the student’s advisor) must receive permission from the Associate Dean for Student and Administrative Affairs. All overload requests must address: (1) the potential academic benefit to the student from the additional appointment; (2) the student’s current progress towards degree completion; and (3) the effect of the additional appointment on the student’s future progress.

A total appointment of more than 62.5% should be seen as an exceptional situation and will be granted only to a maximum of 75% only for one semester during the entire time of a student’s graduate studies.

Before submitting an overload appointment request, the DEO or DGS must confirm that course registration for the semester does not exceed limits specified in "Section II.D." of this manual for the specific level of appointment.

Upon approval, international students must contact OISS and gain permission for Curricular Practical Training (CPT).

This policy applies only to teaching assistantships and research assistantships during the regular academic year. The DEO or DGS should make their graduate students aware of this policy during the department/program’s fall orientation.

G. LOANS

Graduate students requiring financial assistance may apply for loans at the Office of Student Financial Aid.

H. OTHER FORMS OF SUPPORT

Many departments offer financial assistance in the form of traineeships, part-time employment on research programs, or part-time teaching. Inquiries should be addressed directly to the major department.

Section VIII. Advanced Programs Offered in the Graduate College

The major areas in which the Graduate College offers degree programs are listed under "Degree Programs" at the beginning of this section of the Catalog.

Section IX. General Requirements for Advanced Degrees

A. APPLICATION FOR DEGREE

The student must file an application for an anticipated degree with the registrar by the deadline date printed in the Graduate College academic calendar for the session in which the degree will be conferred. The student must have the application signed by his or her advisor. Failure to file the application by the deadline date established by the Graduate College dean will result in postponement of graduation to a subsequent session.

B. ENROLLMENT IN FINAL SESSION

The student must be enrolled during the session in which the degree is to be conferred. Students who are away from the University campus during that session may meet this requirement by registering for independent study, research, or thesis hours according to the practice in the various departments. Doctoral candidates who have completed all work except the final examination may register for Doctoral Final Registration described in "Section XII.L." if such registration is appropriate. Master’s candidates who have completed all work except the final examination may register for Master’s Final Registration if such registration is appropriate. Both the Doctoral Final Registration and Master’s Final Registration require a 2 s.h. tuition/fee payment, and may be repeated if the degree requirements are not completed in this session. Registration in a course for which tuition/fees are not assessed (Cooperative Education Internship, for example) will not satisfy this requirement.

Section X. Master’s Degrees

A. KINDS OF DEGREES

The University of Iowa offers programs leading to the Master of Arts (M.A.) degree, Master of Science (M.S.) degree, and several professional master’s degrees.

M.A. and M.S. degrees require mastery of methodologies and practices of research and scholarship of the discipline. A thesis describing original scholarship or research may be required. M.A./M.S. degrees may be designed either as preparation for entry into doctoral degree programs or to provide advanced study and accomplishment that serves a variety of career and other purposes. Degrees are awarded in many fields of study, or majors, consistent with conventions of the discipline (e.g., M.A. in Art, English, Psychology; M.S. in Chemistry, Mathematics, Microbiology). (For complete list, see Section VIII.) M.A. and M.S. degrees require a minimum of 30 s.h., a final examination and, in some fields, a thesis.

Professional master’s degrees provide knowledge, perspectives, and skills required for professional
practice. Some programs may include introduction to research or scholarship sufficient to allow application of current literature to practice. Professional master's degrees generally are indicated by a three- or four-letter designation; examples include the Master of Fine Arts (M.F.A.), Master of Social Work (M.S.W.), Master of Public Health (M.P.H.), Master of Science in Nursing (M.S.N.), Master of Accountancy (M.Ac.). (For complete list, see Section VIII.) Professional master's degrees require a minimum of 30 s.h. Some may require a final examination as well as a thesis, papers, projects, colloquia, internships, or other experiential-based activity typical of preparation for practice in the field.

A student may prepare a proposal for an interdisciplinary course of study, including the plan of study defining course work, examination requirements, a research plan, and a committee of at least three faculty members, with either the department most directly concerned or the Graduate College designated as the sponsor. Final approval of such individual programs is granted by the Graduate College dean, who may add members to the student's supervising committee from other closely related departmental faculties or from the Graduate Council. The degree will be awarded in interdisciplinary studies (master's) stipulated in the approved graduate program and, parenthetically, the name of the sponsoring department.

**B. PLAN OF STUDY**

The applicant for a master's degree must file a plan of study approved by the advisor and the departmental executive with the Graduate College within the session in which the degree is to be granted and by the deadline date printed in the Graduate College academic calendar. If the session in which a student takes his or her final exam is earlier than the session in which the degree is to be granted, the Plan of Study must be filed prior to the administration of the student's final examination. The plan shall meet the requirements for the degree approved by the graduate faculty. (See also "Section IV.D. Departmental Regulations and Dissemination of Information.")

**C. MAJOR AND RELATED FIELDS**

The plan of study should provide for reasonable concentration in the major field of interest and, subject to the approval of the major department, may include related subjects from other departments.

**D. ACADEMIC RESIDENCE REQUIREMENT**

Of the minimum of 30 s.h. required for the degree, at least 24 s.h. must be completed under the auspices of The University of Iowa after admission to a graduate department/program. Various forms of extramural registration may qualify toward fulfillment of the aforementioned 24-hour residence requirement (see "Section II.G. Extramural Registration") in addition to regular on-campus registration. Students who have elected or who are required to write a thesis for conferment of their master's degrees, must complete at least 8 semester hours of the 24-hour, academic residence requirement on campus. At the discretion of the department, the 8-semester hour, on-campus requirement may be waived for nonthesis master's programs. Election of the waiver option is to be applied programatically, and not on a student-by-student basis, and must be formally conveyed to the Graduate College.

**E. REDUCTION OF OLD CREDITS**

Courses taken ten or more years prior to the session in which the master's degree is to be conferred must be evaluated by the major department in order to determine the possible use of these credit hours within a student's plan of study. The department, in turn, must send a letter of petition to the Graduate College, requesting the use of any or all of these credits toward the fulfillment of degree requirements.

**F. LIMIT ON PROFESSIONAL COURSES**

Work taken by a student in the Colleges of Dentistry, Law, or Medicine while enrolled for a professional degree may be credited to a graduate program leading to a master's degree if it is taken after the student has earned a bachelor's degree or has completed work equivalent to that required for a bachelor's degree at The University of Iowa. The work accepted from the professional college must be directly related to the student's major field of study in the Graduate College and be approved as a part of the plan of study by the student's advisor and the major department. Work completed while registered for a professional degree in law, medicine, or dentistry will be counted as part of the residence requirement for nondoctoral degrees in the Graduate College only when the student is registered in an appropriate joint degree program.

**G. TWO MASTER'S DEGREES**

The granting by this university of two master's degrees simultaneously or in succession requires that all of the requirements for each degree be satisfied separately. That is, the student must pass two final examinations, write two theses (if each program requires a thesis), and satisfy the Graduate College residency requirement for each degree separately. A minimum combined total of 60 s.h. of graduate credit must be achieved at the time that the second degree is conferred.

Some credit can be shared when one master's degree requires, or both master's degrees require, more than 30 s.h. of graduate credit. No more than one-fourth of the credit necessary for one degree may be composed of course work taken for the other degree, and there must still be a minimum combined total of 60 s.h. of graduate credit.

The directors of graduate study for the two programs, or the department heads of the departments housing the programs, must exchange letters in which they convey each program's approval of the student pursuing the two degrees. Copies of these letters must be sent to the Graduate College.

**H. MASTER'S DEGREE WITH THESIS**

Not more than 9 s.h. of credit for thesis research and writing shall be counted in satisfying the 30 s.h. minimum requirement. The thesis may be a scholarly study or an artistic production.

Beginning with the Fall 2009 Semester all master's theses, excluding MFA theses, must be submitted to the Graduate College in electronic format. MFA students will have the option of submitting hard-copy or electronic theses.

The first deposit of a thesis (an ETD or one hard copy of the MFA thesis), complete and in final typed form, must be presented to the Graduate College for a check of formal characteristics by the first-deposit deadline date.
in the session in which the degree is to be conferred. After approval by the Graduate College and by the thesis committee, the final deposit of the thesis (an ETD or two, identical hard copies of the MFA thesis) must be deposited with the Graduate College by the final deposit deadline date in the student’s graduation session. Failure to submit the first and final deposits of the thesis by the deadline dates established by the Graduate College will result in the postponement of graduation to a future session. [For detailed submission and formatting requirements, see Theses & Dissertations under Policies & Deadlines on the Graduate College web site.]

Nonrefundable fees are charged each thesis candidate to cover processing and publication costs of the thesis.

The thesis committee shall consist of at least three members of the graduate faculty and may or may not be identical to the final examination committee. (The final examination committee for the master’s degree shall consist of at least three members of the graduate faculty, at least two of whom are from the major department or program, and are members of The University of Iowa tenure-track faculty. See "X.K. Examining Committee.")

I. MASTER’S DEGREE WITHOUT THESIS
A master’s degree without thesis, consisting of at least 30 s.h. of graduate work, may be awarded upon the completion of a curriculum prescribed by a department and approved by the Graduate Council.

J. FINAL EXAMINATION
The requirements for master’s degrees may include a final examination which, at the discretion of the major department, may be written or oral or both. Such an examination will not duplicate course examinations. It will be evaluated by the examining committee as satisfactory or unsatisfactory, with two unsatisfactory votes making the committee report unsatisfactory. The report of the final examination is due in the Graduate College not later than 48 hours after the examination, and by the deadline date established by the Graduate College.

If the department so recommends, a candidate who fails the examination may present himself or herself for reexamination, but not sooner than the next regularly scheduled examination period in the following session.

The examination may be repeated only once.

A student must graduate within one calendar year after passing the final examination for a master’s degree; failure to meet this deadline will require reexamination of the student.

Upon recommendation of a department, the comprehensive examination for a doctoral degree may be substituted for the master’s examination.

Some master’s programs do not require a final exam. Students are responsible for checking the specific requirements of their individual degree programs.

K. EXAMINING COMMITTEE
The examining committee for the master’s degree consists of at least three members of the Graduate Faculty appointed by the dean upon recommendation of the major department or program. These committees are composed as follows:

At least two of the faculty members must be members of The University of Iowa tenure-track faculty.

A department or program may impose additional structure on the composition of its examining committees.

Departments and programs may request the dean’s permission to replace one of the three members of the Graduate Faculty by a recognized scholar of professorial rank from another academic institution. Also, a voting member may be added at the discretion of the Graduate College Dean.

Section XI. Graduate Certificate Programs
Graduate certificate programs reflect specialization, either within a field or in an area of study, research, or training. Some graduate certificate programs may be open only to students seeking degrees in related fields; others may be offered as independent programs. Graduate certificate programs are designed to enhance skills, to provide professional development and career advancement opportunities, to broaden career options, and for other purposes, both for traditional, full-time students and for those with full-time employment.

Graduate certificate programs usually require a minimum of 15 s.h. of specified course work and may, in addition, require papers, projects, or experiential learning components designed for specific cohorts. Certificate programs generally require two to three semesters to complete.

Examples include the graduate certificates in aging studies, American Indian and native studies, informatics, and advanced nurse practitioner. Requirements for each graduate certificate are included in The University of Iowa General Catalog.

Section XII. Doctor’s Degrees
A. CHARACTER OF DEGREE
The Graduate College offers doctoral programs leading to the Doctor of Philosophy (Ph.D.), the highest degree awarded by the university; the Doctor of Musical Arts (D.M.A.); the professional Doctor of Physical Therapy (D.P.T.); the professional Doctor of Audiology (Au.D.); and the professional Doctor of Nursing Practice (D.N.P.). The Doctor of Philosophy degree indicates marked excellence in original research or other creative work, and superior comprehension in the discipline. The Doctor of Musical Arts degree indicates marked excellence in performance and pedagogy. The Doctor of Physical Therapy degree indicates marked excellence in physical therapy differential diagnosis and clinical integration. The Doctor of Audiology degree indicates marked excellence in theoretical and advanced clinical skills. The Doctor of Nursing Practice degree indicates marked excellence in clinical practice and the application of clinical theory in the classroom and administrative venues.
B. PREREQUISITES
The candidate must present evidence of having completed a satisfactory amount of undergraduate work in the subject proposed for investigation or, in the case of deficiency, must register for prerequisite courses.

C. RESIDENCE REQUIREMENT
The Ph.D. is granted primarily on the basis of achievement rather than on the accumulation of semester hours of credit; however, the candidate is expected to have completed at least three years of residence in a graduate college. At least part of this residence must be spent in full-time involvement in one’s discipline, at this university, beyond the first 24 s.h. of graduate work; this requirement can be met either by: (1) enrollment as a full-time student (9 s.h. minimum) in each of two semesters; or (2) enrollment for a minimum of 6 s.h. in each of three semesters during which the student holds at least a one-quarter-time assistantship certified by the department as contributing to the student’s doctoral program. (For purposes of record and assessment of fees, student registration should reflect accurately the amount and kind of work undertaken in the Graduate College. All doctoral programs, including acceptable transfer credit, will contain a minimum of 72 s.h. of graduate work.)

D. INTERDISCIPLINARY STUDIES PROGRAMS
A student may prepare a proposal for an interdisciplinary course of study, including the plan of study defining course work, examination requirements, research plan, and a committee of at least five faculty members with either the department most directly concerned or the Graduate College, designated as the sponsor. Final approval of such individual programs is granted by the Graduate College dean, who may add members to the student’s supervising committee from other closely related departmental faculties or from the Graduate Council. The degree will be awarded in interdisciplinary studies (doctorate) stipulated in the approved graduate program and, parenthetically, the name of the sponsoring department.

E. REDUCTION OF OLD CREDITS
Courses taken 10 or more years prior to the doctoral comprehensive examination must be evaluated by the major department in order to determine the possible use of these credit hours within a student’s plan of study. The department, in turn, must send a letter of petition to the Graduate College, requesting the use of any or all of these credits toward the fulfillment of degree requirements.

F. LIMIT ON PROFESSIONAL COURSES
Work taken by a student in the Colleges of Dentistry, Law, or Medicine while enrolled for a professional degree may be credited to a graduate program leading to a doctoral degree if it is taken after the student has earned a bachelor’s degree or has completed work equivalent to that required for a bachelor’s degree at The University of Iowa. The work accepted from the professional colleges must be directly related to the student’s major field of study in the Graduate College, and the plan of study must be approved by the student’s advisor and the major department. Work completed while registered for a professional degree in law, medicine, or dentistry will be counted as part of the one academic year which must be spent in residence as a doctoral student only when the student is registered in a formally established joint degree program.

G. JOINT PROGRAM FOR MASTER’S AND DOCTORAL DEGREES
Those students who expect to continue their training through the doctoral degree may pursue a joint program for the master’s and doctor’s degrees. The master’s examination may be combined with the comprehensive examination for the doctorate for these candidates. The examining committee will file separate reports of its actions on the final examination for the master’s degree and for the comprehensive examination. Upon recommendation of the department and approval of the Graduate College dean, students who are well qualified by previous training may submit a plan of study that leads directly to the doctoral degree without earning the master’s degree as an intervening part.

H. REQUIREMENT IN FOREIGN LANGUAGES
There is no general Graduate College requirement in foreign languages. Those departments that do require competence in one or more foreign languages establish standards as to the extent and level of competence, as well as methods of testing. Specific requirements will be found in the departmental statements of standards and procedures (see “Section IV.D.”).

Specifications of departmental requirements in foreign languages are filed in the Graduate College office and may be changed upon the initiative of the departments.

Students enrolled in professional D.P.T., D.N.P., and Au.D. programs do not take comprehensive and final examinations and do not deposit a thesis with the Graduate College. The departments will be required to submit a doctoral plan of study to the Graduate College during the session of degree conferral. The plan will provide a listing of all graduate courses taken that apply toward the degree and a listing of courses in progress. The plan is to be filed no later than the deadline date printed in the Graduate College academic calendar.

J. PLAN OF STUDY
The development of a plan of study at the doctoral level is the responsibility of the student working together with his or her advisor. A formal plan of study must accompany the departmental request to the Graduate College for permission to conduct the comprehensive examination. The plan will provide a listing of all graduate courses taken that apply toward the degree and a listing of courses in progress or to be completed after the comprehensive examination.

K. COMPREHENSIVE EXAMINATION
The candidate must satisfactorily complete a comprehensive examination, consisting of written or oral parts or both at the discretion of the major department. Admission to the comprehensive examination is granted upon the recommendation of the major department, the filing of the plan of study, and the approval of the dean of the Graduate College. A student must be registered in the Graduate College at the time of the comprehensive examination, which must be satisfactorily completed not later than the session prior to the session of graduation. This examination, administered only on campus, is
intended to be an inclusive evaluation of the candidate’s mastery of the major and related fields of study, including the tools of research in which competence has been certified.

The comprehensive examination is not a deferred qualifying examination. It is intended to evaluate the candidate’s mastery of the subject at or near the end of his or her formal preparation and prior to the completion of the dissertation. The comprehensive examination and the final examination, which is concerned chiefly with defense of the thesis and related subjects, are the two principal examinations for the Ph.D. and D.M.A. doctoral degrees.

The comprehensive examination will be evaluated by a convened meeting of the committee. Each committee member will sign the examination report as satisfactory, reservations, or unsatisfactory. The completed exam warrant will be submitted to the Graduate College office within 14 days after the completion of the examination. Two “unsatisfactory” votes will make the committee report unsatisfactory.

A vote of “reservations” should only be used when a faculty member feels that the deficiencies displayed by the student were modest, and can be readily rectified. In the event of a report with two or more votes of “reservations,” the actions required of the student, by the committee, that are necessary to correct the deficiencies must be recorded and submitted to the Graduate College with the examination report form. Copies of the written statement of necessary actions should be kept by: the appropriate departmental executive, the chair of the examination committee, and the student. The statement must specify the time allowed for completion of the aforementioned actions. The language describing the actions must be specific. For instance, if additional course work is required, a list of suitable courses must be presented. If the candidate needs to rewrite his or her research prospectus, the deficient areas must be identified, etc. If the candidate satisfies the required actions in the specified period of time, the appropriate departmental executive will send a written report to the Graduate College indicating the date for which the examining committee considers the actions to have been satisfied. Upon approval of the dean of the Graduate College, the comprehensive exam will be recorded as “satisfactory” as of that date. If the actions are not satisfied on time, or if the actions are not of sufficient quality, the appropriate departmental executive will send a written report to the Graduate College indicating that fact. Upon approval of the dean of the Graduate College, the comprehensive exam will be recorded as “unsatisfactory” as of that date. The candidate will not be admitted to the final oral examination of the dissertation until a grade of “satisfactory” has been recorded for the comprehensive exam.

In case of a report of unsatisfactory on a comprehensive examination, the committee may grant the candidate permission to present himself or herself for reexamination not sooner than four months after the first examination. The examination may be repeated only once, at the option of the department.

L. CONTINUOUS REGISTRATION AFTER COMPLETION OF THE COMPREHENSIVE EXAMINATION

The student is required to register each fall and spring semester after satisfactorily completing the comprehensive examination until the degree is awarded. If a student fails to register, the student may not be readmitted to candidacy until the student has submitted an application that has been approved by the student’s advisor, the departmental executive, and the Graduate College dean.

In order to maintain continuous registration, doctoral students may register (1) for required and/or elective courses, research, and thesis hours to complete the plan of study, or (2) for Doctoral Continuous Registration (DCR). DCR requires a 2 s.h. tuition/fee payment. If a temporary lapse in a student’s academic program is required due to military service, medical leave, maternity leave, or personal/family leave, a student may petition the Graduate College to be allowed to register for Ph.D. Postcomprehensive Registration (PCR), which allows for the assessment of a special minimum fee. If a petition is granted, it is to be understood that a student will not make significant use of university resources, or engage in significant consultation with the faculty. In the final semester, doctoral students may register for Doctoral Final Registration (DFR), which requires a 2 s.h. tuition/fee payment, or appropriate course work. The DFR may be repeated if the degree requirements are not completed in this session.

Under no circumstances may courses for which tuition/fees are not assessed (Cooperative Education Internship, for example), be used to satisfy the continuous registration or final registration requirement of the Graduate College.

No registration for the summer or winter sessions is required. The exceptions are when the student is taking a degree at the end of the summer session, or when enrollment is required by the student’s department.

M. DISSERTATION FOR THE DOCTORAL DEGREE

Beginning with the Fall 2009 Semester all doctoral theses must be submitted to the Graduate College in electronic format.

The student’s dissertation, complete and in final form, must be presented in ETD (electronic thesis/dissertation) format at the office of the Graduate College by the first-deposit deadline date in the session in which the degree is to be conferred. The final deposit of the approved ETD must be deposited at the office by the appropriate deadline date in the student’s graduation semester. The final deposit can be no later than the end of the semester (summers excluded) following the session in which the final examination is passed; failure to meet this deadline will require reexamination of the student. Failure to submit the first and final deposits of the dissertation by the deadline dates established by the Graduate College will result in the postponement of graduation to a future session. [For detailed submission and formatting requirements, see Theses & Dissertations under Policies & Deadlines on the Graduate College web site.]

Regulations regarding preparation of the dissertation shall be promulgated by the dean of the Graduate College. An external abstract of the dissertation, not to exceed two, double-spaced pages (text and approval lines), is to be deposited with the dissertation. The abstract must be approved and signed by the dissertation advisor. Approved ETDs will be forwarded to ProQuest for microfilming and digital archiving; the doctoral abstracts will be published in Dissertation Abstracts International. The PDF format of all electronic submissions will be forwarded by ProQuest.
to The University of Iowa Libraries, where they will be catalogued and made available for public use.

Dissertations shall be made available to all members of the examining committee not later than two weeks before the date of the examination.

N. DISSERTATION FEES
Nonrefundable fees are charged each doctoral candidate to cover processing and publication costs of the dissertation and abstract.

O. FINAL EXAMINATION
The work for the degree culminates in a final oral examination administered on campus. This examination should include: a critical inquiry into the purposes, methods, and results of the investigation—not a mere recapitulation of the procedures followed—and intensive questioning on areas of knowledge constituting the immediate context of the investigation.

The final examination may not be held until the next session after the student satisfactorily completes the comprehensive examination; however, a student must pass the final examination no later than five years after satisfactorily completing the comprehensive examination. Failure to meet this deadline will result in a reexamination of the student to determine his or her qualifications for taking the final examination. The procedures to be followed are the same as those for the comprehensive examination. (See "XII.K. Comprehensive Examination."

Final examinations for the doctorate are open to the public. Members of the faculty of the Graduate College are especially invited to attend and, subject to the approval of the chair, to participate in the examination.

The report of the final examination is due in the Graduate College office not later than 48 hours after the examination. The final examination will be evaluated as satisfactory or unsatisfactory. Two unsatisfactory votes will make the committee report unsatisfactory. In case of a report of unsatisfactory in the final examination, the candidate may not present himself or herself for reexamination until the next session. The examination may be repeated only once, at the option of the major department.

P. EXAMINING COMMITTEES
The Graduate College encourages departments and programs to construct Ph.D. examining committees which are comprised of faculty members with varying, but related, areas of expertise.

The comprehensive and final examinations are conducted by committees of no fewer than five members of the Graduate Faculty appointed by the dean upon recommendation of the major department or program. These committees are composed as follows:

At least four of the faculty members must be members of The University of Iowa tenure-track faculty.

At least two of the faculty members are from the major department or program (defined as faculty members who hold any appointment in the major department or program), and are members of The University of Iowa tenure-track faculty.

A department or program may impose additional structure on the composition of its examining committees.

Departments and programs may request the dean’s permission to replace one of the five members of the Graduate Faculty by a recognized scholar of professorial rank from another academic institution. Also, a voting member may be added at the discretion of the Graduate College Dean.

Section XIII. Exceptions
Petitions to waive these regulations may be made for appropriate and justifiable reasons on behalf of any graduate student through the departmental executive to the dean and the Graduate Council.

Nondepartmental Courses
Most Graduate College courses are offered by the college’s programs and schools. They are listed and described in the corresponding General Catalog sections; see the links under “Index: Academic Programs” toward the top of this page.

The college also offers the following nondepartmental courses.

</table>
650:030 (GRAD:3030) SROP/McNair Scholars Academic Development for Juniors
Training and mentorship opportunities to enhance academic and professional success; academic preparation (including the GRE) and exploration of doctoral graduate training programs; seminars, interactive workshops, readings, written assignments. Requirements: UI SROP/McNair Scholar and junior standing.

650:040 (GRAD:3040) SROP/McNair Scholars Academic Development for Seniors
Training and mentorship opportunities to enhance academic and professional success; academic preparation and professional development to navigate the graduate admissions process (including preparation of personal statements, selection of referees, mock interviews); seminars, interactive workshops, readings, written assignments. Requirements: UI SROP/McNair Scholar and senior standing.

650:217 (GRAD:6217) Seminar in College Teaching
Preparation for college teaching; for graduate students planning to teach. Same as 07P:217 (PSQF:6217).

650:270 (GRAD:7270) Principles of Scholarly Integrity
Training in the responsible conduct of research and scholarly activities; discussion of case studies—student/mentor responsibilities in the pursuit of scholarly work (ownership, authorship, plagiarism/falsification/fabrication of data); student/mentor relationships and intellectual dialogues (communication, collaboration, grievance management); student responsibilities to the institution/scholarly community/society (intellectual property, conflict of interest, fiscal responsibilities, human/animal subjects). Requirements: enrollment in Graduate College degree-seeking program. Recommendations: first-year graduate standing (Ph.D., M.S./M.A.) and involvement in conducting NSF/NIH-funded research.

650:275 (GRAD:7275) OGEI Topical Seminar: Professional Sustainability in Graduate School
Skill development and sustainability plan; professional literature, guest speakers.

650:280 (GRAD:7280) Obermann Center for Advanced Studies Special Topics Seminars
Active participation and engagement in a major program, such as the annual Humanities Symposium; readings on interdisciplinary histories, contexts, and theoretical perspectives that frame featured events; work of artists, scholars, and researchers participating in the program. Requirements: admission to Graduate College.

650:285 (GRAD:7285) Obermann Center Professional Development Seminar
Active participation and engagement in a series of classes dedicated to connecting public engagement, research, and teaching; readings and media viewings that frame course topics; production of a short film, marketing materials, grant, and syllabi relevant to public engagement project. Requirements: admission to Graduate College and completion of Obermann Graduate Institute on Engagement and the Academy.

650:300 (GRAD:6300) Writing for Learned Journals
Help for graduate students in bringing written work to publishable form; analysis of target journals' audiences and interests; submission, response to criticism. Same as 160:300 (PORO:6300).

650:313 (GRAD:6313) Digital Rhetorics
Current discourse (utopic, dystopic, other strands) about the Internet as it shapes and is shaped by competing forces. Same as 160:313 (PORO:6313).

650:380 (GRAD:7400) Practicum in College Teaching
Supervised college teaching experience; teaching in collaboration with faculty, observation and critiques of teaching, participation in course planning and evaluation procedures; ethical and multicultural considerations. Requirements: admission to the graduate certificate in college teaching program.

650:385 (GRAD:7385) Teaching and Learning in Higher Education
Current theoretical and empirical literature on teaching and learning in higher education; focus on development of effective teaching practice. Same as 07P:385 (PSQF:7385), 07B:385 (EPLS:7385), 07S:384 (EDTL:7385), 07C:385 (RCE:7385).

650:601 (GRAD:7601) Postdoctoral Research Scholar
Requirements: postdoctoral standing.

650:602 (GRAD:7602) Postdoctoral Research Fellow
Requirements: postdoctoral standing.

650:604 (GRAD:7604) Principles of Scholarly Integrity
Training in the responsible conduct of research and scholarly activities; discussion of case studies—student/mentor responsibilities for the pursuit of scholarly work (ownership, authorship, plagiarism/falsification/fabrication of data); student/mentor relationships and intellectual dialogues (communication, collaboration, grievance management); student responsibilities to the institution/scholarly community/society (intellectual property, conflict of interest, fiscal responsibilities, human/animal subjects). Requirements: postdoctoral standing. Recommendations: first-year postdoctoral scholar/fellow (FP01/FP02) conducting NSF/NIH-funded research.

650:605 (GRAD:7605) Writing for Learned Journals
Help for graduate students in bringing written work to publishable form; analysis of target journals’ rhetoric; submission, response to criticism. Requirements: postdoctoral standing.

650:614 (GRAD:7614) Principles of Scholarly Integrity
Training in the responsible conduct of research (RCR) and scholarly activities; discussion of case studies—student/mentor responsibilities in the pursuit of scholarly work (ownership; authorship; plagiarism/falsification/fabrication of data); student/mentor relationships and intellectual dialogues (communication, collaboration, grievance management); student responsibilities to the institution/scholarly community/society (intellectual property, conflict of interest, fiscal responsibilities, human/animal subjects); may meet the RCR training obligation of the K award. Requirements: junior faculty member holding a federally-funded NIH individual K award.

Ohlmann (Management Sciences), Suely Oliveira (Computer Science/Mathematics), Wayne Polyzou (Physics and Astronomy), Sharif Rahman (Mechanical and Industrial Engineering), R. Rajagopal (International Programs/Civil and Environmental Engineering/ Geographical and Sustainability Sciences), Teodor Rus (Computer Science), Gerard Rushton (Geographical and Sustainability Sciences), Alberto M. Segre (Nursing/ Computer Science), Elias Shiu (Statistics and Actuarial Science), Jonathan Simon (Mathematics), Milan Sonka (Ophthalmology and Visual Science/Electrical and Computer Engineering/Radiation Oncology), John P. Spencer (Psychology), David Stewart (Mathematics), Osnat Stramer (Statistics and Actuarial Science), Gerhard O. Strohmer (Mathematics), Kai Tan (Internal Medicine/Biomedical Engineering), Qihe Tang (Statistics and Actuarial Science), Tuong Ton-That (Mathematics), Lihe Wang (Mathematics), George G. Woodworth (Statistics and Actuarial Science), Chun-Fang Wu (Biology), Nicholas Yannelis (Economics), Yangbo Ye (Mathematics), Hantao Zhang (Computer Science), Ying Zhang (Biostatistics), Olesya Zhupanska (Mechanical and Industrial Engineering)

Graduate degree: Ph.D. in applied mathematical and computational sciences

Web site: http://www.amcs.uiowa.edu/

Applied mathematical scientists formulate scientific concepts and problems in mathematical terms; solve the resulting mathematical problems using analytical and computational methods; and discuss, interpret, and evaluate the solutions. They explore areas of mathematical application and develop mathematical theories in new areas.

Career opportunities for applied mathematicians include positions in colleges, universities, governmental laboratories, business, industry, and consulting firms.

Graduate Program of Study
- Doctor of Philosophy in applied mathematical and computational sciences

Doctor of Philosophy

The Doctor of Philosophy program in applied mathematical and computational sciences requires a minimum of 72 s.h. of graduate credit. The Ph.D. program is autonomous, broadly based, and interdisciplinary. It is designed to help students achieve a command of theoretical and applied mathematics and obtain basic knowledge in another area (engineering, medicine, or one of the behavioral, biological, physical, or social sciences).

The program is flexible; students can concentrate on applied mathematics, such as differential equations and numerical analysis, or on other applicable techniques in mathematics. Scientific computing is an important part of applied mathematics, so it is often a part of student training and dissertation research.

Prospective students should have a desire to apply a mathematical science (mathematics or statistics) to relevant problems in another area.

COURSE OF STUDY

Faculty members help each student plan a course of study that is consistent with the student’s background, interests, and goals.

These individual programs are designed to help students develop expertise in methods of applied mathematics and build a good foundation in related topics of theoretical mathematics. The individual programs also provide sufficient knowledge in an outside area to enable students to use mathematical techniques in that area.

Students can arrange their study plans to earn a master’s degree from another department after they complete part of their plan. Students find suitable thesis problems and supervisors with the help of the faculty.

QUALIFYING AND COMPREHENSIVE EXAMINATIONS

Students take a qualifying examination over three of the four core course sequences required for the Ph.D. (analysis, differential equations, numerical analysis, and topology). They also take a comprehensive examination over the chosen outside area.

One program objective is to have each student’s dissertation research include many of the activities of an applied mathematical scientist. For example, a student
might formulate a model, do a quantitative analysis of the model, and interpret the results.

Admission
Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog. To be prepared for graduate-level course work in mathematics and an additional area, applicants should have a bachelor’s or master’s degree with a strong mathematics component and some background in the additional area.

Applications for fall admission are due on January 15. For application forms and more information about the academic program, contact the chair of the Applied Mathematical and Computational Sciences Program.

Financial Support
Fellowships and research and teaching assistantships are available to qualified applicants. Fellowship support is available during summers. Applications for financial support should be submitted at the same time as applications for admission.

Graduate Program of Study

Participation in the Biosciences Program leads to a Ph.D. degree in a biosciences discipline. The program provides graduate students the freedom to explore research in any of 17 University of Iowa biosciences research departments and programs: the Departments of Anatomy and Cell Biology (p. 1002), Biochemistry (p. 1009), Biology (p. 118), Biomedical Engineering (p. 824), Chemistry (p. 132), Communication Sciences and Disorders (p. 163), Microbiology (p. 1040), Molecular Physiology and Biophysics (p. 1046), Pharmacology (p. 1070), Physical Therapy and Rehabilitation Science (p. 1073), Physics and Astronomy; and the Free Radical and Radiation Biology (p. 1029), Genetics (p. 922), Human Toxicology (p. 925), Immunology (p. 927), Molecular and Cellular Biology (p. 942), and Neuroscience (p. 945) Programs.

Biosciences students enjoy the flexibility of investigating several disciplines through research rotations in the laboratories of Biosciences Program faculty members. Following completion of their first year in the program, students select a research laboratory and program affiliation and decide on a thesis project that will lead to a Ph.D.

Semester hour requirements for the doctorate vary by program, but all Ph.D. degrees at Iowa require at least 72 s.h. of graduate credit. For detailed information on Graduate College policies, see the Manual of Rules and Regulations of the Graduate College.

Curriculum

Students spend their first two semesters in the Biosciences Program. The curriculum provides them with an integrated core foundation on modern molecular and cellular biology while giving them flexibility to accommodate their individual interests.

Instead of offering one semester-long core course, the program offers at least six content modules. In consultation with their advisors, students choose modules at five-week intervals, tailoring their individual study plans to meet their interests. Some modules are intended to be taken as a series; they cover fundamentals of cell structure, intracellular trafficking, signal transduction, and protein structure. Other modules are stand-alone units on more specialized topics, such as biostatistics.

Early in the second semester, Biosciences Program students talk with prospective mentors about thesis projects and laboratory openings for the following summer. In March they submit their choice of the graduate program they wish to join and the faculty member they wish to have as a mentor.

The Biosciences web site contains typical study plans for students interested in specific graduate programs. The student’s choice of program determines his or her curriculum for subsequent years.

Students in the Biosciences Program are not required to teach, but most of the graduate programs they enter will require that they take on teaching responsibilities.

During their Biosciences Program year, students are advised on course selection, research rotations, and registration by a faculty member closely related to the student’s research and academic interests. As research rotations are assigned, the faculty advisor works in
consultation with the student’s rotation advisors until the end of the first year.

Students provide a short oral presentation following each research rotation to an audience of their primary advisor, research advisor(s), and other biosciences students. Rotation advisors provide rotation reports, and rotations are evaluated by the student’s primary advisor. The student’s primary advisor also confers with the student on course grades, subsequent rotations, and the student’s selection of a department or program and lab for thesis research.

All biosciences students take 156:265 (BISC:5265) Biosciences Critical Thinking and Communication, which dovetails with research rotations and seminar series offered by the University’s biosciences research departments and programs. The course involves weekly discussions of selected papers and oral and written presentations tied to the student’s research rotations.

Each student’s overall progress is monitored by his or her primary advisor, rotation advisor(s), and program director, who meet at the end of each semester to review the student’s work. At the end of the second semester, the primary advisor, in cooperation with the rotation advisor(s), makes a recommendation to the Biosciences Program director as to whether or not the student should continue in the Ph.D. program. University guidelines, such as maintaining a cumulative g.p.a. of 3.00 or higher, are considered, along with performance in rotations.

The Biosciences Program’s office coordinates students’ transfers to their chosen graduate programs. Matriculation is conditional upon satisfactory progress and successful completion of the second semester. Once a student enters his or her chosen graduate program, it is that program’s responsibility to advise the student, evaluate his or her academic performance, and assign the student a thesis mentor and laboratory.

Most participating departments and programs require that students take a comprehensive exam at the end of the second year and no later than the third year. Following successful completion of the exam, students advance to Ph.D. candidacy.

REQUIRED COURSES

All Biosciences Program students must complete the following course work. Students earn at least 12 s.h. each semester.

**Admission**

The program accepts students with a variety of backgrounds in the biological and physical sciences. Entering students must hold a baccalaureate degree from an accredited college or university and should have completed courses in biology, chemistry, physics, and calculus consistent with requirements for a baccalaureate degree in the sciences. An undergraduate g.p.a. of at least 3.00 is required.

Applicants must submit their scores on the Graduate Record Examination. Applicants whose first language is not English must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

Other indicators of academic accomplishments, such as research experience and letters of recommendation, are considered.

Information about graduate training and application materials are available from the Biosciences Program office.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate College section of the Catalog.

**Financial Support**

Graduate students receive stipend and tuition support from The University of Iowa and other sources. Students promoted to the second year in the program receive support from their graduate departments and programs. The Biosciences Program also helps some students apply for competitive national awards for outstanding academic and research achievement.

**Facilities**

The Carver College of Medicine provides state-of-the-art facilities for students, researchers, and instructors. The Medical Education and Research Facility, completed in 2002, provides 220,000 square feet of modern laboratories, lecture halls, clinical examination rooms, and study and meeting space for students. The Carver Biomedical Research building opened in 2005. The 135,000 square-foot building is devoted to research, with five floors of specialized laboratories and new technology. In addition to its new buildings, the college offers recently renovated laboratories and classrooms.

The health sciences campus provides parking, food service, and enjoyable outdoor common areas and pedestrian routes. Most of the University’s health sciences colleges and clinical facilities are located there.

The basic science and clinical departments of the Carver College of Medicine are housed primarily in the Bowen Science Building, Carver Biomedical Research Building, Eckstein Medical Research Building, Medical Education and Research Facility, Medical Laboratories, and University of Iowa Hospitals and Clinics. Nearby are the Hardin Library for the Health Sciences and the Iowa City Veterans Affairs Medical Center.

The Departments of Anatomy and Cell Biology, Biochemistry, Microbiology, Molecular Physiology and Biophysics, and Pharmacology are housed in the Bowen Science Building. Laboratories of clinical departments
are located primarily in the Medical Laboratories and the Medical Research Center.

The Eckstein Medical Research Building houses major core facilities for microscopy, image analysis, flow cytometry, protein structure, and monoclonal antibody production, as well as research laboratories for basic investigators with interdisciplinary approaches to cancer, molecular biology, genetics, and immunology. The geographic proximity of these facilities promotes interchange among clinical and basic science faculty members and students and maximizes use of the University’s extensive core facilities for biomedical research.

Integral to the University’s research environment are the Carver Nonprofit Genetic Testing Laboratory, Center for Auditory Regeneration and Deafness, Center for Bioinformatics and Computational Biology, Center for Emerging Infectious Diseases, Center for Functional Genomics of Hypertension, Center for Gene Therapy, Center for Research in the Implementation of Innovative Strategies in Practice, Center on Aging, Craniofacial Center Collaboratory, Cystic Fibrosis Research Center, Holden Comprehensive Cancer Center, Huntington's Disease Society of America Center of Excellence, Institute for Clinical and Translational Science, Iowa Cardiovascular Center, Iowa Comprehensive Lung Imaging Center, Helen C. Levitt Center for Viral Pathogenesis, George M. O'Brien Kidney Research Center, Specialized Center for Research in Osteoarthritis, and the Senator Paul D. Wellstone Muscular Dystrophy Cooperative Research Center.

In addition to the University’s extensive facilities for research support, the Carver College of Medicine and the College of Liberal Arts and Sciences operate a variety of research support facilities. Tissue culture, autoclaving, purified water, darkrooms, counters, and a variety of general-use equipment and services are available on a shared basis.

Courses

156:201 (BISC:5201) Fundamentals of Gene Expression 1 s.h.
DNA and RNA structure, nuclear organization, DNA replication, RNA production and processing, small RNAs, RNAi, and genetic and epigenetic regulation; didactic and small group sessions, discussion of primary research publications.

Overview of actin, microtubules, motors, intermediate filaments, cell-cell junctions, G-coupled signaling, wnt-jak/stat signaling, ion channels, cell cycle, stem cells.

156:204 (BISC:5204) Biostatistics for Biomedical Research 1 s.h.
Application of statistical techniques to biological data analysis; normal distribution, sampling distribution of the mean, variance, nonparametric methods, linear regression, power, and sample size. Same as 171:151 (BIOS:5050).

156:205 (BISC:5205) Practical Bioinformatics 1 s.h.
Formal instruction on the use and application of bioinformatics for bench scientists; bioinformatics, resources, genome annotations, sequence analysis, comparative genomics, expression analysis, and systems biology. Requirements: biostatistics.

156:206 (BISC:5206) Protein Structure, Function, and Regulation: Biophysical Chemistry Module 1 1 s.h.
Overview of principles of protein structure, stability, folding, and dynamics; brief treatment of structural biology approaches to help students become critical users of models derived from X-ray crystallography and NMR; taken alone or as part of 099:241 (BIOC:5241). Requirements: introductory course in biochemistry. Same as 099:243 (BIOC:5243).

156:265 (BISC:5265) Biosciences Critical Thinking and Communication 2 s.h.
Selected papers and oral and written presentations tied to students’ research rotations; introductory seminar. Same as 072:342 (MPB:5342), 002:270 (BIOL:5270).

Research experience in the lab of a biosciences program faculty member.
Center for the Book

**Director**
- Timothy Barrett (Interdisciplinary Programs/Library and Information Science)

**Affiliated faculty**
- Timothy Barrett (Interdisciplinary Programs), Matthew P. Brown (English), Ed Folsom (English/Interdisciplinary Programs), Gary Frost (Interdisciplinary Programs), Robert Glasgow (Art and Art History/Interdisciplinary Programs), Loren Glass (English), Cheryl Jacobsen (Interdisciplinary Programs), Kathleen Kamerick (History), Craig Kelchen (Interdisciplinary Programs), Nancy E. Kraft (Interdisciplinary Programs/Library and Information Science), Sara Langworthy (Interdisciplinary Programs), Julia Leonard (Interdisciplinary Programs), Emily Martin (Interdisciplinary Programs), Judith Pascoe (English), Jennifer Burek Pierce (Library and Information Science), Greg Prickman (Interdisciplinary Programs/Library and Information Science), Sara Sauers (Interdisciplinary Programs), Julie Smith (Interdisciplinary Programs), James Snitzer (Art and Art History/Interdisciplinary Programs), Katherine Tachau (History), Bruce Whiteman (Interdisciplinary Programs), Jonathan Wilcox (English), Larry Yerkes (Interdisciplinary Programs)

**Graduate programs**

**Graduate degree:** M.F.A. in book arts  
**Graduate certificate:** book studies/book arts and technologies  
**Web site:** http://book.grad.uiowa.edu

The University of Iowa Center for the Book represents a community of faculty, staff, students, and local book specialists with interests in all facets of book production, distribution, and use. Some members of the center actively research the history and circulation of the book, examining the role of books in cultural and historical processes. They also look at how changes in book production affect the way books are viewed as artifacts. Specialists in book arts and technologies study the history and technique of book crafts, including letterpress printing, typography, calligraphy, papermaking, and bookbinding. Others engage in the conservation or production of books, including artists' books and literary fine press publications.

The center offers classes; sponsors lectures, seminars, and workshops; and encourages the exchange of ideas among individuals with interests in the book. A wide range of perspectives on the book as an aesthetic, cultural, and historical artifact is provided by associated faculty, staff, and graduate students in the Schools of Art and Art History and Library and Information Science; the Departments of History, English, and Cinema and Comparative Literature; University of Iowa Libraries; the Creative Writing Program (Iowa Writers’ Workshop); and other areas. This interdisciplinary membership and the center’s facilities combine to provide an exceptional environment for studying the history of the book, its evolution, and its future.

Graduate students may earn a master’s degree or a graduate certificate through the center. Undergraduate students may add dimension to their majors in English, art, journalism, history, and other disciplines by taking Center for the Book courses in book crafts and book studies. They also may include an emphasis on book arts or on cultural and historical aspects of the book in the interdepartmental studies major.

**Graduate Programs of Study**

- **Master of Fine Arts in book arts**  
- **Certificate in Book Studies/Book Arts and Technologies**

Graduate study of the book is interdisciplinary. It focuses on book arts as hands-on practice as well as historical and cultural phenomenon. Its principal objectives are to provide scholarly and aesthetic contexts for the study of book history, arts, and technologies; and to offer a structured program in book-related disciplines for graduate students with a serious interest in book studies.

**Master of Fine Arts**

The Master of Fine Arts program in book arts requires a minimum of 60 s.h. of graduate credit, including a thesis. Students select one of several emphasis areas: artist book work, bookbinding, calligraphy, digital book work, papermaking, or printing. After completing core courses, they work with a faculty advisor to design an individualized curriculum in their specialty area. The degree culminates with the successful completion of a thesis.

The program requires the following course work.

| Core courses, historical context courses, other topics, and workshops | 33 s.h. |
| Electives in the student’s emphasis area | 18 s.h. |
| Additional electives | 6 s.h. |
| Thesis (maximum of 6 s.h.) | 3 s.h. |

**Certificate**

The Certificate in Book Studies/Book Arts and Technologies requires 18 s.h. of graduate credit and is designed to be completed in one year. The program is open to students who are enrolled in a graduate degree program at The University of Iowa as well as to students enrolled in the Graduate College with nondegree status.

Students choose courses in emphasis areas including artist book work, bookbinding, calligraphy, digital book work, papermaking, and printing. The program requires the following course work.

| Emphasis area course(s) | 3 s.h. |
| A studio course | 3 s.h. |
| A historical/cultural course | 3 s.h. |
| Electives | 9 s.h. |

**Admission**

Applicants must meet the admission requirements of the Graduate College; see Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog. Visit Admissions on the Center for the Book web site for more information.
Courses

108:029 (UICB:1111) First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, fieldtrips). Requirements: first- or second-semester standing.

108:100 (UICB:3900) Special Project for Undergraduates arr.
Independent study.

108:101 (UICB:3310) Typography 4 s.h.
Introduction to letterform and typographic fundamentals; designing with type—attention to composition, hierarchy, historical practice. Corequisites: 01D:090 (DSGN:2110), if not taken as a prerequisite. Same as 01D:100 (DSGN:3120).

108:102 (UICB:2100) Creative Writing for Book Arts 3 s.h.
Creative writing in context of book arts; text and image, typography, visual sequence, graphic narrative; zines, chapbooks, broadsides, and artist's books.

108:104 (UICB:3280) Elements of Book Art 3 s.h.
Overview of book art process and techniques for nonmajors; introduction to traditional bookbinding skills, nontraditional book structures, and content development for artist books. Same as 01X:104 (BKAT:3280).

108:105 (UICB:3380) Elements of Letterpress 3 s.h.
Introduction to letterpress printing for non-book art majors; metal type, relief printing, page layout, and basic typography; basic use of Vandercook Proof Press; experimentation with diverse letterpress techniques.

108:110 (UICB:3100) Papermaking 3 s.h.
History, fundamental techniques of Western and Eastern hand papermaking; projects in traditional sheet forming, basic paper chemistry, paper coloring. Offered spring semesters. Same as 01X:110 (BKAT:3100).

Topics in the history and technique of papermaking.

108:130 (UICB:4100) Paperworks 3 s.h.
Conceptual and methodological approaches to 2-D and 3-D paper works; students create a body of works that couple the unique properties of paper-pulp medium with personal visual ideas and clarity of intent; contemporary issues in paper pulp and the medium’s relationship to larger art and craft contexts. Same as 01X:130 (BKAT:4100).

Advanced independent projects undertaken in a classroom setting; collaborative group discussions to plan, implement, troubleshoot, and evaluate student projects. Prerequisites: 108:132 (UICB:5110) or 108:133 (UICB:5130) or 01X:120 (BKAT:5110) or 01X:123 (BKAT:5120). Same as 01X:131 (BKAT:5180).

108:132 (UICB:5110) Islamic/Asian Papermaking History and Technique 3 s.h.
History, technique, and aesthetics of traditional Islamic and Asian hand papermaking. Same as 01X:120 (BKAT:5110).

108:133 (UICB:5130) Western Papermaking History and Technique 3 s.h.
History and technique of traditional European hand papermaking and related aesthetics; students gain confidence in pursuing independent production of handmade papers or undertaking related research in their own particular areas of interest; fiber preparation, sheet forming, and drying/finishing methods; concurrent readings and discussions of related history and aesthetics; special projects selected by student with instructor approval. Same as 01Z:133 (BKAT:5120).

108:136 (UICB:5170) Advanced Papermaking Production 3 s.h.
Independent Western- or Japanese-style projects undertaken at UICB Research and Production Paper Facility at Oakdale Campus under faculty guidance; plan, implement, and evaluate professional scale production runs using full-scale equipment. Prerequisites: 108:132 (UICB:5110) or 108:133 (UICB:5130) or 01X:120 (BKAT:5110) or 01Z:133 (BKAT:5120). Same as 01X:136 (BKAT:5170).

108:142 (UICB:4400) History of Western Letterforms 3 s.h.
History of Western letterforms, with focus on tools, materials, techniques; the major hands, their place in history, their influence on modern times; creation of letterforms using appropriate tools; hands-on approach with emphasis on understanding rather than mastery. Same as 01Z:142 (BKAT:4400).

108:143 (UICB:3400) Calligraphy: Foundational Hands 3 s.h.
Fundamental calligraphic skills using Roman majuscule, Humanistic minuscule, Italic; basic layout and color theory incorporated into letter practice. Same as 01Z:143 (BKAT:3400).

108:145 (UICB:4420) Calligraphy: Blackletter Hands 3 s.h.
Development of proficiency in various hands, from vertical Textura to floridly gothic cursive; blackletter’s historical connections with other disciplines.

108:146 (UICB:4490) Studies in Letter Arts 3 s.h.

Hands-on instruction in italic and pressure pen scripts; historical relationships, effects on modern letterforms.

108:150 (UICB:4205) Bookbinding I: Materials and Techniques 3 s.h.
Hands-on introduction to materials and techniques commonly used in bookbinding. Same as 01Y:150 (BKAT:4205).
108:151 (UICB:4270) Bookbinding II 3 s.h.
Build on skills acquired in 108:150 (UICB:4205); projects to complete six bindings based on historical and contemporary models; sewing styles, board attachments, endband types: nonadhesive and case-bound structures, varied materials and binding styles, their effects on structure, aesthetic considerations, further development of solid binding skills; historical development of particular binding practices. Prerequisites: 108:150 (UICB:4205). Same as 01Y:151 (BKAT:4270).

108:152 (UICB:5210) Bookbinding III 3 s.h.
Bookbinding structures based on historical and contemporary models; differences in various binding practices, how these differences affect function, why the styles developed; experience choosing appropriate structures for particular uses; emphasis on fine tuning skills and techniques required for advanced binding practices; sewn endbands, rounding and backing, sewing on varied supports, board attachments, and covering methods. Requirements: for 108:152 (UICB:5210) — 108:150 (UICB:4205) and 108:151 (UICB:4270); for 01Y:152 (BKAT:5210) — 01Y:150 (BKAT:4205) or 01Y:151 (BKAT:4270) or 108:150 (UICB:4205) or 108:151 (UICB:4270). Same as 01Y:152 (BKAT:5210).

108:153 (UICB:5260) Studies in Bookbinding 3 s.h.
Topics related to hand bookbinding. Same as 01Y:153 (BKAT:5260).

108:154 (UICB:4280) Artists’ Books 3 s.h.
Exploration of the book as a form for artistic expression; emphasis on conceptual development; relationship between content, form, and structure; how a book’s structure and design can enhance and integrate part of the work’s meaning. Prerequisites: 01Y:150 (BKAT:4205) or 108:150 (UICB:4205). Same as 01Y:154 (BKAT:4280).

108:155 (UICB:4290) Historical Book Structures 3 s.h.
Historical development of book structures examined through surviving examples, construction of historical models. Prerequisites: 01Y:150 (BKAT:4205) or 108:150 (UICB:4205).

108:156 (UICB:4210) Boxes and Enclosures 3 s.h.
Hands-on techniques for a variety of book enclosures; appropriateness, aesthetic issues concerning box design; Japanese wraparound case, drop-spine box, hinged and lidded boxes, slipcase; technical skill development. Prerequisites: 108:150 (UICB:4205). Same as 01Y:156 (BKAT:4210).

Varied formats for moveable and/or sculptural books; history; readings, hands-on model making. Same as 01Y:157 (BKAT:4220).

108:158 (UICB:4230) Pop-Up Book Structures 3 s.h.

108:160 (UICB:4300) Letterpress I 3 s.h.
Mechanics of letterpress printing, typography, and design as applied to hand set metal type and edition printing; printing on a Vandercook proof press; introduction to photopolymer plates and methods of illustration related to edition printing, historical aspects of printing technology, typecasting, type classification; role of letterpress in modern private press and contemporary artist books. Same as 01P:160 (ARTS:4300).

108:162 (UICB:4390) Book and Publication Design 3 s.h.
Students plan, design, and produce a book using Adobe Creative Suite; page layout software, typography, page layout and design, book formatting, handling of image files, preparation of materials for print and other contemporary book media; history of book design, book design in contemporary publishing; visit to University of Iowa Libraries Special Collections. Prerequisites: 01D:100 (DSGN:3120) or 108:160 (UICB:4300). Same as 01P:162 (ARTS:4390).

Digital typesetting and book design; chapbook production using photopolymer plates and Vandercook presses; text and content, book typography, practical and aesthetic considerations. Same as 01P:163 (ARTS:4330).

Introduction to concepts, techniques, and technologies used to design and produce artists’ books with personal computers and graphic design software. Same as 01P:164 (ARTS:4340).

108:165 (UICB:4310) Innovative Letterpress 3 s.h.
Creation of the visual book using letterpress printing; narrative, serialization, type as graphic, physical structure of the book; traditional letterpress printing, monoprinting, nontraditional letterpress techniques using technology ranging from metal to digital. Same as 01P:165 (ARTS:4310).

108:166 (UICB:5370) Studies in Printing 1-3 s.h.
Development of individual book projects and production of one substantial project or several smaller ones; focus on acquiring or creating a text and/or other content; project development; range of print techniques available in letterpress printing; issues involved in producing editioned artist books or fine press work; opportunity to expand on existing printing; classroom setting used to augment work sessions with in-progress critiques, readings, and visits to special collections.

Introduction to Adobe Creative Suite graphic design software (InDesign, Illustrator, Photoshop); emphasis on using software for book arts applications: typesetting and pagination of multipage documents; methods for combining text and image; tools and techniques for digital illustration; creation and manipulation of digital images; preparations of digital files for desktop or letterpress printing and services bureau output.

108:169 (UICB:4380) Letterpress II 3 s.h.
Builds on skills acquired in 108:160 (UICB:4300); issues of book design and production related to letterpress printing; exploration of hand-set metal, digital typesetting, printing from photopolymer plates, and imagemaking; press mechanics and operation; students produce a letterpress printed chapbook or artist book; publication philosophies, manuscript acquisition, and topics specific to literary fine press and artist books; historical and contemporary context for literary fine press publications and artist book work. Prerequisites: 108:160 (UICB:4300).

Topics such as book design, printing, paper arts, letterforms, typography.

108:171 (UICB:5280) Bookbinding IV 3 s.h.
Advanced studies in bookbinding; fine binding styles, leather paring and tooling, advanced finishing techniques, refining skills; continued look at differences in regional binding practices, how these differences affect function, and why particular styles developed. Prerequisites: 108:152 (UICB:5210).

108:181 (UICB:3140) Literature and the Book 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Early Literatures through 17th Century, 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as 008:130 (ENGL:3140).

108:182 (UICB:4910) The Book in the Middle Ages 3 s.h.
Relation of text, decoration, function, creators, and audience in different genres of medieval manuscript books 400-1500 A.D. Same as 16E:120 (HIST:4910).

108:183 (UICB:4920) The Transition from Manuscript to Print 3 s.h.
Western manuscripts and books 1200-1600; changes in production and distribution methods and in how texts were used, in cultural context. Same as 021:258 (SLIS:4920), 16E:118 (HIST:4920).

108:185 (UICB:4150) Introduction to Book Studies 3 s.h.
Theory and practice of book studies; meanings of word and image in the book format; comparative study of other media, applied study of the codex as physical artifact. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Early Literatures Through 17th Century, or 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as 008:134 (ENGL:4150).

108:186 (UICB:3142) Topics in Book History 3 s.h.
Authorship, publishing, and so forth within specific historical and cultural contexts. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Early Literatures Through 17th Century, 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as 008:190 (ENGL:3142).

108:200 (UICB:5550) Special Project for Graduate Students arr.
Independent study.

108:201 (UICB:5510) Book Studies Workshop 1 s.h.
Discussion of issues central to book studies; workshop approach to current projects.

108:202 (UICB:5520) Topics in Book History 3 s.h.
Topics related to production, distribution, and consumption of books through history and into the future.

108:204 (UICB:5530) Topics in Preservation/Conservation 3 s.h.
Care, conservation, and preservation of cultural heritage artifacts; readings, discussion, hands-on sessions.

Project for graduate certificate.

Traditional papermaking or creation of works of art using paper pulp as the medium; independent projects.

Bookbinding and artists’ book works; independent projects.

108:220 (UICB:5600) History of Readers and Reading 3 s.h.
Cultural nature of reading practices in historic and contemporary contexts of reading; reading communities; dimensions of gender, age, class, religion, race, ethnicity; examples of recent scholarship; use of primary resources; seminar. Same as 021:256 (SLIS:5600).

108:222 (UICB:6120) Topics: Policy/Planning 1-3 s.h.
Current topics in national and international policies, their impact on planning. Same as 021:279 (SLIS:6500).
Modes and methods for building electronic journals, books, thematic collections; new genres for publishing, including blogs, wikis, comics, short stories on the web; social, political, and economic forces that shape electronic publishing; XML-based project. Prerequisites: 021:120 (SLIS:5020). Same as 021:224 (SLIS:6270).

108:230 (UICB:6370) Topics in Book Studies 3 s.h.
Topics relevant to book studies and special collections. Same as 021:249 (SLIS:6370).

Development of individual book projects and production of one substantial project or several smaller ones; focus on acquiring or creating a text and/or other content; project development; range of print techniques available in letterpress printing; issues involved in producing editioned artist books or fine press work; opportunity to expand existing printing; classroom setting augments work sessions with in-progress critiques, readings, and visits to special collections. Prerequisites: 108:161 (UICB:5340) or 108:167 (UICB:5330).

108:279 (UICB:6510) Book Art: History, Practice, and Criticism 3 s.h.
Introduction to history and artistic practices of book arts; influences and origins from 20th century and earlier; contemporary theory and practice; history, critical considerations, and attempts to define and locate the field through fine art, craft, and book history lenses; weekly readings or analyses of book art pieces, hands-on exercises, research in University of Iowa Library Special Collections with primary sources, and final project, presentation, or research paper.

108:280 (UICB:6520) Graduate Book Arts Workshop 3 s.h.
Development of art work and studio practice; readings and research in contemporary theory and practice; analysis of visual language; integration of creative activities and critical thinking in student’s own art practice and analysis of contemporary work in book arts; group and individual critiques, studio assignments, presentations, discussions.

108:299 (UICB:6100) Book Studies Proseminar 1-3 s.h.
Cognitive Science of Language

Coordinator
- Robert M. McMurray (Psychology)

Graduate certificate: cognitive science of language
The scientific study of language is larger than any one field, due in part to the broad diversity in forms and uses of language. Iowa's Cognitive Science of Language Program uses an interdisciplinary approach to the study of language, helping to prepare language scientists who are conversant in multiple domains.

Graduate Program of Study
- Certificate in Cognitive Science of Language
The Department of Psychology (College of Liberal Arts and Sciences) is the administrative home of the Cognitive Science of Language Program; the certificate is conferred by the Graduate College.

Certificate
The Certificate in Cognitive Science of Language requires a minimum of 12-15 s.h. of graduate credit. Designed to complement doctoral study, the certificate program is open to University of Iowa Ph.D. students in linguistics, neuroscience, psychology, and speech and hearing science. Ph.D. students in other disciplines may petition to be permitted to earn the certificate. Students must complete a formal application to enter the certificate program; they should contact the program’s coordinator before they apply. Completion of the certificate is noted on the student’s transcript.

The certificate program ensures that students have training in interdisciplinary approaches to the study of language along with a strong theoretical grounding in their Ph.D. discipline. Each certificate student works with his or her Ph.D. advisor and the certificate program’s coordinator to develop an individual plan of study that complements the student’s degree program and career interests. In order to be granted the Certificate in Cognitive Science of Language, students must complete all of the requirements of their Ph.D. program as well as all of the certificate requirements.

All certificate students must participate in the cognitive science of language proseminar, a two-semester (6 s.h.) survey course on the five major disciplines within the language sciences—psychology, formal linguistics, neuroscience, communication disorders, and computational approaches. They also must complete three approved courses chosen from the lists below, and they must include a faculty member in the cognitive sciences of language on their Ph.D. comprehensive and dissertation exam committees. Students may enroll in the proseminar and three additional courses before or concurrently with other courses in their programs.

The Certificate in Cognitive Science of Language requires the following course work.

PROSEMINAR
All certificate students complete the following two-semester survey course.

Cognitive science of language proseminar (taken twice) 6 s.h.

DISCIPLINARY COURSES
Students take a total of three courses chosen from the following lists.

Communication Sciences and Disorders

003:116 (CSD:3116) Basic Neuroscience for Speech and Hearing 3 s.h.
003:118 (CSD:3118) Language Acquisition 1-3 s.h.
003:122 (CSD:3122) Speech Production: Anatomy and Physiology 4 s.h.
003:145 (CSD:4145) Developmental Speech and Language Disorders 3 s.h.
003:146 (CSD:4146) Neurogenic Disorders of Language 3 s.h.
003:206 (CSD:5206) Language Disorders in Children 0-18 Years 3 s.h.
003:218 (CSD:6218) Psycholinguistics 3 s.h.
003:222 (CSD:5222) Speech and Hearing Anatomy 2 s.h.
003:224 (CSD:5224) System and Signal Theory for Speech and Hearing Science 3 s.h.
003:233 (CSD:5233) Aphasia 2 s.h.
003:256 (CSD:5256) Anatomy and Physiology of Hearing 3-4 s.h.
003:282 (CSD:5282) Phonological Development and Disorders 2 s.h.
003:520 (CSD:6520) Seminar: M.A. Language Disorders 2 s.h.
003:522 (CSD:6522) Clinical Speech Physiology 2 s.h.
003:538 (CSD:6538) Seminar: Hearing Science 2 s.h.

Computer Science

22C:146 (CS:4460) Introduction to Computational Linguistics 3 s.h.

Linguistics

103:156 (LING:3030) Child Language-Linguistic Perspectives 3 s.h.
103:161 (LING:4090) Practical Phonetics 3 s.h.
103:201 (LING:5010) Introduction to Syntax 3 s.h.
103:203 (LING:5020) Introduction to Phonology 3 s.h.
103:211 (LING:6080) Generative Second Language Acquisition 3 s.h.
103:216 (LING:7080) Topics in Second Language Acquisition 3 s.h.
103:217 (LING:6050) Language Universals Linguistic Typology 3 s.h.
103:312 (LING:7090) Seminar: Problems in Linguistics 2-3 s.h.

The course 103:201 (LING:5010) has a corequisite, 108:200 (UIUC:5550) Special Project for Graduate Students, which does not count toward the certificate.

Neuroscience

132:240 (NSCI:6240) Topics in Cognitive Neuroscience 3 s.h.

Psychology

031:122 (PSY:3085) Language Development 3 s.h.
031:137 (PSY:3670) Language Processes 3 s.h.
031:214 (PSY:6450) Processes of Language Acquisition 3 s.h.
031:216 (PSY:6490) Dynamic Systems and Development 3 s.h.
031:318 (PSY:7430) Seminar: Cognitive Development 0-3 s.h.
031:335 (PSY:7020) Seminar: Cognitive Neuroscience 0-2 s.h.

Graduate degree: Ph.D. in genetics
Web site: http://genetics.grad.uiowa.edu

Graduate Program of Study
• Doctor of Philosophy in genetics

Doctor of Philosophy

The Doctor of Philosophy program in genetics requires a minimum of 72 s.h. of graduate credit. The Ph.D. program is designed to promote collaborative investigation and intellectual interaction among students and faculty participants affiliated with several different departments.

Students who enroll in the program are encouraged to obtain a broad background in genetics, including molecular, population, and human genetics. Within this context, course requirements are flexible enough to permit students to tailor their formal course work to their individual needs.

Students have the option to declare a Ph.D. emphasis in computational genetics.

All students enrolled in the program are required to take the following courses.

All of these:

Elective course work in molecular and microbial genetics, cell and development genetics, human genetics, or computational genetics 8 s.h.

Seminar courses approved by the program 5 s.h.

Even more important than formal course work is the opportunity to do significant research in genetics. Research interests of the participating faculty include virtually all areas of genetics, ranging from bacteriophage genetics to human medical genetics. In each area of genetics, there is a group of faculty members who have closely related interests.

The University is also strong in several related disciplines, including microbial physiology, enzymology, virology, protein biochemistry, computational genetics, and developmental and cell biology, all of which contribute significantly to the overall training program.
In addition to completing research and course work, students must pass a comprehensive examination, usually at the end of their second year in the program.

**Joint M.D./Ph.D.**

Students may work toward the Doctor of Medicine degree and a Ph.D. in genetics in a joint degree program offered by the Carver College of Medicine and the Graduate College. See Medical Scientist Training (p. 1038) Program (Carver College of Medicine) in the Catalog.

**Ph.D. and Dental Scientist Training Program**

Ph.D. students in genetics who have earned a D.D.S. degree may be candidates for advanced training programs in dentistry. For information, contact the College of Dentistry.

**Admission**

Prospective doctoral students in genetics should have a strong undergraduate background in science, including courses in general genetics, organic chemistry, biochemistry, introductory physics, and mathematics, as well as a strong commitment to genetic research and teaching. Students can make up deficiencies in a particular area during their first year of graduate study.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Admission to the program is based on assessment of applicants’ undergraduate academic records, performance on the Graduate Record Examination (GRE) General Test, and letters of recommendation. Admission requirements are not rigid. Most students working toward a Ph.D. in genetics at the University have an undergraduate g.p.a. above 3.50, and a combined verbal and quantitative score above 1250 on the GRE General Test. Students with lower grade-point averages or GRE scores may be admitted, depending on prior research experience and other indications of academic potential.

Students generally begin graduate work in the fall semester.

**Financial Support**

All genetics graduate students receive a financial stipend of $25,500 plus tuition for academic year 2012-13.

Financial support comes from training grants, research assistantships, teaching assistantships, scholarships, individual research grants, or other departmental or college funds. All students are required to do some teaching as part of their development as future scientists and faculty members.

**Associated Courses**

Credit earned in the following courses may be counted toward the Ph.D. in genetics. Not all courses are offered every year.

William Field (Epidemiology/Occupational and Environmental Health), Laurence Fuortes (International Programs/Epidemiology/Occupational and Environmental Health), Frederic Gerr (Epidemiology/Internal Medicine/Occupational and Environmental Health), Prabhat Goswami (Radiation Oncology), Vicki Grassian (Chemistry/Chemical and Biochemical Engineering/Occupational and Environmental Health/Education), Keri Hombuckle (Civil and Environmental Engineering/Occupational and Environmental Health), Bahri Karacay (Pediatrics), Joel Kline (Internal Medicine/Occupational and Environmental Health), Hans-Joachim Lehmler (Occupational and Environmental Health), Gabriele Ludewig (Occupational and Environmental Health), Paul McCray (Microbiology/Internal Medicine/Pediatrics), David Murhammer (Chemical and Biochemical Engineering), Daryl Murry (Pharmacy), Thomas Peters (Occupational and Environmental Health), Paul Romitti, (Epidemiology), Aliasger Salem (Chemical and Biochemical Engineering/Pharmacy/Biomedical Engineering), Jerald Schnoor (Civil and Environmental Engineering/Occupational and Environmental Health), Andreak Simons-Burnett (Pathology), Douglas Spitz (Radiation Oncology), Jerrold Weiss (Microbiology/Internal Medicine), Dale Wurster (Pharmacy)

Graduate degrees: M.S. in human toxicology; Ph.D. in human toxicology

Web site: http://toxicology.grad.uiowa.edu/

Toxicology is the study of how biological, chemical, physical, and radiological agents affect living organisms and the ecosystem, and how to prevent or lessen the adverse effects of those agents. The Human Toxicology Program prepares toxicologists to identify and assess environmental exposures, identify mechanisms by which toxicants affect homeostasis or induce disease, identify interventions to prevent adverse effects, and estimate acceptable levels of exposure to protect public health.

The program is interdisciplinary, involving the Graduate College, the Carver College of Medicine, and the Colleges of Engineering, Liberal Arts and Sciences, Pharmacy, and Public Health.

The Human Toxicology Program is supported by the Iowa Superfund Research Program. Human toxicology faculty members are supported by the Environmental Health Sciences Research Center, a National Institute of Environmental Health Center of Excellence.

Graduate Programs of Study
• Master of Science in human toxicology
• Doctor of Philosophy in human toxicology

Master of Science

The Master of Science program in human toxicology requires a minimum of 39 s.h. of graduate credit; a thesis is required. The program is designed for students who wish to pursue a master’s degree as a second degree or through part-time study, particularly those who perform toxicologists’ functions in their jobs and who need additional training.

Students should have backgrounds in the biological, engineering, and physical sciences and should have completed courses in introductory chemistry and biology, and organic chemistry.

After entering the program, each student works with his or her assigned mentor to choose an advisory committee, which meets at least once a semester to help the student explore his or her research interests. The committee also provides consultation on course work and research activities and serves as the committee for the final examination (thesis defense).

The Human Toxicology Program is flexible. Students work with their advisory committees to plan a course of study tailored to their individual interests and goals within the field of toxicology.

All M.S. students must successfully complete the following course work as part of their course of study.

A first course in toxicology—one of these:

046:214 (PHAR:5544) Pharmaceutical and Chemical Toxicology 3 s.h.
175:260 (OEH:5810) Environmental Toxicology 3 s.h.

Advanced toxicology:

175:265 (OEH:6720) Advanced Toxicology 4 s.h.

Scholarly integrity:

650:270 (GRAD:7270) Principles of Scholarly Integrity 0-1 s.h.

Research seminar—students must take the course each semester they are enrolled in the human toxicology graduate program:

198:180 (TOX:7180) Toxicology Research Seminar 0-1 s.h.

On successful completion of all requirements, including the thesis and its oral defense, students are awarded a Master of Science.

Doctor of Philosophy

The Doctor of Philosophy program in human toxicology requires a minimum of 72 s.h. of graduate credit. The program is designed for students with backgrounds in the biological, engineering, and physical sciences. Entering students should have solid training in science, including courses in introductory chemistry and biology, and organic chemistry; knowledge of biochemistry and molecular biology is also useful. Students may remedy deficiencies
by taking appropriate courses during their first year of graduate study.

Students begin the program with three two-month rotations in the laboratories of participating faculty members, in order to identify a mentor. After the first year, the mentor assumes financial responsibility for the student. With advice from his or her mentor, each student chooses an advisory committee, which meets at least once a semester to help the student explore his or her research interests. The committee also provides consultation on course work and research activities and serves as the committee for the comprehensive examination and the final examination (dissertation defense).

The Human Toxicology Program is flexible. Students work with their advisory committees to plan a course of study tailored to their individual interests and goals within the field of toxicology.

All Ph.D. students must successfully complete the following course work as part of their course of study.

A first course in toxicology—one of these:

- 046:214 (PHAR:5544) Pharmaceutical and Chemical Toxicology 3 s.h.
- 175:260 (OEH:5810) Environmental Toxicology 3 s.h.

Advanced toxicology:

- 175:265 (OEH:6720) Advanced Toxicology 4 s.h.

Scholarly integrity—students must complete the course within their first two years of graduate study:

- 650:270 (GRAD:7270) Principles of Scholarly Integrity 0-1 s.h.

Research seminar—students must take the course each semester they are enrolled in the human toxicology graduate program:

- 198:180 (TOX:7180) Toxicology Research Seminar 0-1 s.h.

After successfully completing the comprehensive examination, usually at the end of the second year of graduate study, the student advances to Ph.D. candidacy. The student devotes all of his or her time to dissertation research and writing. Upon successful completion of all requirements, including the dissertation and its oral defense, the student is awarded a Doctor of Philosophy.

**Admission**

Prospective students may apply to the program via a centralized application system; see Admission on the Human Toxicology Program web site.

Completed applications should be submitted by January 15; applications submitted after that date are reviewed as they are received and are considered for any remaining openings.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

**Financial Support**

Doctoral students in human toxicology receive stipends and tuition support from University of Iowa sources, such as training grants from the National Institutes of Health.

**Facilities**

Training is conducted primarily in laboratories and teaching facilities of the departments and colleges of Human Toxicology Program faculty members. These are among the best-equipped laboratories on campus. Together with the University’s central research facilities, they provide access to the most up-to-date research equipment and expertise.

**Associated Courses**

For course descriptions and prerequisite information, see the course listings in the College of Pharmacy (p. 1123) and Department of Occupational and Environmental Health (p. 1178) sections of the Catalog.

**Director**

- Steven Varga (Microbiology/Pathology)

**Affiliated faculty**

- Michael Apicella (Microbiology/Internal Medicine), Vladimir Badovinac (Pathology), Zuhair Ballas (Internal Medicine), Gail Bishop (Microbiology), John Butler (Microbiology), John Colgan (Internal Medicine/Anatomy and Cell Biology), Elizabeth Field (Internal Medicine), George Giudice (Biochemistry/Dermatology), John Harty (Microbiology/Pathology), Jonathan Heusel (Pathology), Raphael Hirsch (Pediatrics), Jon Houtman (Microbiology/Internal Medicine), Siegfried Janz (Pathology), Kevin Legge (Microbiology/Pathology), David Lubaroof (Microbiology/Urology), Martha Manick (Internal Medicine), Craig Morita (Internal Medicine), William Nauseef (Microbiology/Internal Medicine), Lyse Norian (Urology), Stanley Perlman (Microbiology/ Pediatrics), Frederick Quelle (Pharmacology/Internal Medicine), Patrick Schlevert (Microbiology/Internal Medicine), Annette Schlueter (Pathology), Richard Smith (Internal Medicine/Otolaryngology-Head and Neck Surgery/Pediatrics/Molecular Physiology and Biophysics), Fayyaz Sutterwala (Internal Medicine), Steven Varga (Microbiology/Pathology), Thomas Waldschmidt (Pathology), George Weiner (Internal Medicine), Jerrold Weiss (Microbiology/Internal Medicine), Mary Wilson (International Programs/Microbiology/Internal Medicine/Epidemiology), Hai-Hui Xue (Microbiology), Nicholas Zavazava (Internal Medicine/Biomedical Engineering)

**Graduate degree:** Ph.D. in immunology

**Web site:** http://immuno.grad.uiowa.edu

The Immunology Program provides interdisciplinary training in the concepts and methodologies of basic and applied immunology. Faculty members are involved in a variety of research projects dealing with the immune system at all levels—structural, functional, cellular, biochemical, and molecular. Students take course work in immunology and related disciplines and are involved directly in laboratory research throughout their study.

**Graduate Program of Study**

- Doctor of Philosophy in immunology

**Doctor of Philosophy**

The Doctor of Philosophy program in immunology requires a minimum of 72 s.h. of graduate credit. The program is flexible, accommodating students with a wide range of backgrounds in course work as well as practical experience in the biological and physical sciences. Entering students generally are expected to have strong backgrounds in biology, chemistry, biochemistry, microbiology, genetics, and mathematics. An introductory course in immunology is desirable. Deficiencies in specific areas often can be remedied through appropriate course work taken during the first year of graduate study.

The curriculum consists of a sequence of required and elective courses that provide training in the conceptual and methodological aspects of immunology. The program offers ample opportunity for study in a variety of fields that interface with immunology.

The Ph.D. in immunology requires the following course work.

- 148:201 (IMMU:6201) Graduate Immunology 3 s.h.
- 148:211 (IMMU:6211) Immunology Seminar (taken fall and spring of first year, spring of second year) 1 s.h.
- 148:221 (IMMU:7221) Advanced Topics in Immunology 3 s.h.
- 156:204 (BISC:5204) Biostatistics for Biomedical Research 1 s.h.
- 650:270 (GRAD:7270) Principles of Scholarly Integrity 1 s.h.
- Elective courses (optional)

Students complete 5 s.h. of the following.

**Fundamentals:**

- 099:243 (BIOC:5243) Protein Structure, Function, and Regulation: Biophysical Chemistry Module 1 1 s.h.
- 156:201 (BISC:5201) Fundamentals of Gene Expression (recommended) 1 s.h.

**Molecular biology:**

- 142:215 (MCB:6215) Transcription and Multi-Functional Regulation by RNA 1 s.h.
- 142:217 (MCB:5217) Epigenetics, Cancer, and Mouse Models of Disease 1 s.h.
- 142:240 (MCB:6240) Inflammatory Cell Signaling and Targeted Cancer Therapy 1 s.h.

**Cell biology:**

- 142:225 (MCB:6225) Growth Factor Receptor Signaling 1 s.h.
- 142:226 (MCB:6226) Cell Cycle Control 1 s.h.
- 142:227 (MCB:6227) Cell Fate Decisions 1 s.h.

After successfully completing the comprehensive examination, usually by the end of the second year of graduate study, students advance to candidacy for the Ph.D. They devote their time to research and writing their dissertation. Upon successful completion of all requirements, including the dissertation and its oral defense, students are awarded a Ph.D. in immunology.

**Admission**

For information regarding admission and application procedures, contact the Immunology Program or visit its web site. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate College section of the Catalog.

**Financial Support**

All students in the Immunology Program receive stipends and tuition support, which comes from a variety of sources, including training grants from the National Institutes of Health, University of Iowa fellowships and graduate research assistantships, and individual faculty research grants.

**Facilities**

Training is conducted in laboratories and teaching facilities of the Carver College of Medicine Departments of Dermatology, Internal Medicine, Pathology, Microbiology,
Pharmacology, and Urology. Faculty laboratories and central research core facilities provide students with access to state-of-the-art research equipment.

Courses

148:040 (IMMU:2040) Summer Undergraduate IDGP Research 0 s.h.

148:201 (IMMU:6201) Graduate Immunology 3 s.h.
Ontogeny, activation, and function of T lymphocytes and B lymphocytes; innate immune effector mechanisms; major histocompatibility complex: antigen presentation; thymocyte positive and negative selection; signaling of T lymphocytes, B lymphocytes; emphasis on experimental methods for analysis of these processes. Requirements: for 148:201 (IMMU:6201) — college biology, general chemistry, and introductory immunology courses; for 061:201 (MICR:6201) — courses in college biology, genetics, general chemistry, and introductory immunology. Recommendations: for 148:201 (IMMU:6201) — courses in biochemistry and genetics; for 061:201 (MICR:6201) — biochemistry course. Same as 061:201 (MICR:6201).

148:211 (IMMU:6211) Immunology Seminar 1 s.h.
Requirements: immunology graduate standing.

148:217 (IMMU:7217) Integrated Topics in Infectious Diseases 1 s.h.
Clinical cases used to raise questions in host-parasite interactions; case/scientific exposés followed by related journal club discussions at next class session. Same as 061:217 (MICR:7217).

148:221 (IMMU:7221) Advanced Topics in Immunology 3 s.h.
In-depth analysis of selected areas. Prerequisites: for 148:221 (IMMU:7221) — 148:201 (IMMU:6201); for 061:207 (MICR:7207) — 061:201 (MICR:6201) or 148:201 (IMMU:6201). Same as 061:207 (MICR:7207).

148:231 (IMMU:6231) Research in Immunology arr.
Laboratory research. Requirements: immunology graduate standing.

148:241 (IMMU:6241) Writing a Scientific Proposal 1 s.h.
How to write a scientific proposal. Prerequisites: 148:201 (IMMU:6201). Requirements: enrollment in immunology graduate program.

148:247 (IMMU:6247) Graduate Survey of Immunology 3 s.h.
Important principles and key concepts in immunology; overview of innate and adaptive immune systems and their functions at cellular and molecular levels. Same as 061:247 (MICR:6247).

148:251 (IMMU:8113) Principles of Medical Immunology 2 s.h.
Basic molecules, cells; organs of immune system; mechanics and regulations of immune response; clinical principles of normal and abnormal immunity. Requirements: M.D. enrollment.

148:301 (IMMU:6301) Directed Study in Immunology arr.
Informatics

Director
- John C. Keller (Graduate College)

Affiliated faculty
- Michael Apicella (Microbiology/Internal Medicine), Marc Armstrong (Geographical and Sustainability Sciences), Jose Assouline (Biomedical Engineering), Gary Baumbach (Pathology), David Bennett (Geographical and Sustainability Sciences), Alison Bianchi (Sociology), Frederick Boehmke (Political Science/Public Policy Center), Bob Boynton (Political Science), Terry Braun (Ophthalmology and Visual Sciences/Electrical and Computer Engineering/Biomedical Engineering), Andre Brock (Library and Information Science/Interdisciplinary Programs), Jane Brokel (Nursing), John Brooks (Epidemiology/Pharmacy/Health Management and Policy), Pat Brophy (Pediatrics/Surgery), Lee Carmen (Health Management and Policy), Thomas Casavant (Ophthalmology and Visual Sciences/Electrical and Computer Engineering/Biomedical Engineering), Octav Chipara (Computer Science), Josep Comeron (Biology), Thomas Cook (International Programs/Physical Therapy and Rehabilitation Science/Occupational and Environmental Health), Mary Kathryn Cowles (Statistics and Actuarial Science/Biostatistics), James Cremer (Computer Science), Donna D’Alessandro (Pediatrics), Michael D’Alessandro (Radiology), Peter Damiano (Public Policy Center/Preventive and Community Dentistry), Benjamin Darbo (Pediatrics), Beverly Davidson (Internal Medicine/Neurology/Molecular Biology and Biophysics), Deborah Dawson (Pediatric Dentistry/Biostatistics), Franklin Dexter (Anesthesia/Health Management and Policy), John Donelson (Biochemistry), David Eichmann (Library and Information Science), John Engelhardt (Internal Medicine/Anatomy and Cell Biology), Jan Fassler (Biography), Elizabeth Field (Internal Medicine), R. William Field (Epidemiology/Occupational and Environmental Health), Michael Finkelstein (Ocular Pathology, Radiology and Medicine/Anatomy and Cell Biology), Charles T. Foster Jr. (Earth and Environmental Sciences), Richard Funderburg (Urban and Regional Planning), Laurence Fuortes (International Programs/Epidemiology/Occupational and Environmental Health), Paul Hanley (Urban and Regional Planning/Civil and Environmental Engineering/Public Policy Center), Eric Hoffman (Radiology/Internal Medicine/Biomedical Engineering), Juan Pablo Hourcade (Computer Science), Haowei Hsieh (Library and Information Science), Deborah Kacmarynski (Otolaryngology/Head and Neck Surgery/Pediatrics), Patricia Katopol (Library and Information Science), David Katz (Internal Medicine/Epidemiology), Joseph Kearney (Computer Science), John Kemp (Pathology), Al Klingelhutz (Microbiology/Radiation Oncology), Matt Krasowski (Pediatrics), Naresh Kumar (Geographical and Sustainability Sciences), Andrew Kusiak (Nursing/Industrial Engineering), Yi Li (Mathematics), Jim Jung-Ching Lin (Biology), Marc Linderman (Geographical and Sustainability Sciences), John Logsdon (Biology), Der-Fa Lu (Nursing), Freda Lynn (Sociology), Michael Mackey (Radiology/Biomedical Engineering), George Malanson (Geographical and Sustainability Sciences), John Manak (Pediatrics/Biology), Miwa Matsuo (Urban and Regional Planning), Bryant McAllister (Biology), Ann Marie McCarthy (Community and Behavioral Health/Pediatrics/Nursing), Paul McCray (Microbiology/Internal Medicine/Pediatrics), Prakash Nadkami (Internal Medicine), Jun Ni (Radiology/Biomedical Engineering/Mechanical and Industrial Engineering), Andrew Norris (Pediatrics/Biochemistry), Gautam Pant (Management Sciences), Thomas Peters (Occupational and Environmental Health), Kirk Phillips (Epidemiology), Phil Polgreen (Epidemiology/Internal Medicine), Joseph Reinhart (Biomedical Engineering), Jennifer Robinson (Internal Medicine/Epidemiology), John Robinson (Electrical and Computer Engineering), Gerard Rushton (Geographical and Sustainability Sciences/Health Management and Policy), Yutaka Sato (Radiology), Todd Scheetz (Ophthalmology and Visual Sciences/Biomedical Engineering), Jerald L. Schnoor (Civil and Environmental Engineering/Occupational and Environmental Health), Alberto Segre (Nursing/Computer Science), Val Sheffield (Pediatrics), Curt Sigmund (Pharmacology/Internal Medicine/Molecular Physiology and Biophysics), Lisa Shump (International Programs/Nursing), Richard Smith (Internal Medicine/Otolaryngology-Head and Neck Surgery/Pediatrics/Molecular Physiology and Biophysics), David Soll (Biology), Bernard Sorofman (Pharmacy), Christopher Squier (International Programs), Padmini Srinivasan (Nursing/Computer Science), Kathleen Stewart (Geographical and Sustainability Sciences), Edwin Stone (Ophthalmology and Visual Sciences), Nick Street (Nursing/Management Sciences/Computer Science), Kai Tan (Internal Medicine), James Torner (Epidemiology/Neurosurgery/Surgery/Education), Daniel Tranel (Psychology/Neurology), Kai Wang (Biostatistics), Marcia Ward (Health Management and Policy), George Weiner (Internal Medicine), Michael Welsh (Internal Medicine/Neurosurgery/Molecular Physiology and Biophysics), Ann Williamson (Nursing), Xiaodong Wu (Electrical and Computer Engineering/Radiation Oncology), Yi Xing (Internal Medicine/Biostatistics), Jinhu Xiong (Radiology/Biomedical Engineering), Ying Zhang (Biostatistics), You-Kuan Zhang (Earth and Environmental Sciences/Civil and Environmental Engineering), Kang Zhao (Management Sciences), Dale Zimmerman (Statistics and Actuarial Science/Biostatistics)

Graduate degrees: M.S. in informatics; Ph.D. in informatics
Graduate certificate: informatics
Web site: http://informatics.grad.uiowa.edu

The field of informatics springs from the intersection of computational disciplines related to the humanities, the arts, and the biological, health, natural, and social sciences. As the rapid development of information technology transforms the world, informatics offers ways to solve new problems and to examine existing problems from new perspectives.

The Informatics Program provides graduate students the opportunity to study informatics in the broadest sense. The program is interdisciplinary, involving the Graduate College, the Carver College of Medicine, the Tippie College of Business, and the Colleges of Dentistry, Engineering, Liberal Arts and Sciences, Nursing, Pharmacy, and Public Health.
Graduate Programs of Study

- Master of Science in informatics
- Doctor of Philosophy in informatics
- Certificate in Informatics

The Master of Science and Doctor of Philosophy degrees in informatics are offered with two subtracks: health informatics and information science. The Certificate in Informatics is offered with four subtracks: bioinformatics and computational biology, geoinformatics, health informatics, and information science.

Master of Science

The Master of Science program in informatics requires a minimum of 32 s.h. of graduate credit. It is offered with subtracks in health informatics and information science. Students working toward a Doctor of Philosophy in informatics may be granted a Master of Science upon completion of the M.S. requirements.

The 32 s.h. required for the M.S. includes 9 s.h. in foundations of informatics and at least 9 s.h. in disciplinary applications of informatics.

Students select an advisor from their subtrack’s affiliated faculty members. In consultation with their advisors, students prepare a study plan, which is reviewed at least once a year. A final master’s degree examination, either oral or written, is required.

For more information about the Master of Science requirements, visit the Informatics Program website.

Doctor of Philosophy

The Doctor of Philosophy program in informatics requires a minimum of 72 s.h. of graduate credit. It is offered with subtracks in health informatics and information science.

The 72 s.h. required for the Ph.D. includes 9 s.h. in foundations of informatics and at least 9 s.h. in disciplinary applications of informatics.

Students select an advisor from their subtrack’s affiliated faculty members. In consultation with their advisors, students prepare a study plan, which is reviewed at least once a year. Ph.D. students must pass a comprehensive examination at or near completion of their course work requirements. The exam may be written, oral, or both, depending on the structure of the student’s subtrack or the decision of the student’s committee.

A student who does not already hold an M.S. in informatics from The University of Iowa and who has passed the Ph.D. comprehensive examination may be granted an M.S. degree in informatics without taking the final master’s degree exam, upon recommendation by the informatics program.

Upon successful completion of all requirements, including the dissertation and its oral defense, students are awarded a Doctor of Philosophy.

For more information about the Doctor of Philosophy requirements, visit the Informatics Program website.

Certificate

The Certificate in Informatics requires a minimum of 18-21 s.h. of graduate credit, depending on choice of subtrack: the subtracks in bioinformatics and computational biology, health informatics, and information science require a minimum of 18 s.h.; the geoinformatics subtrack requires a minimum of 21 s.h. The program is designed for students enrolled in University of Iowa graduate degree programs who wish to study informatics as a complement to their degree programs.

All subtracks require 9 s.h. in the foundations of informatics. In addition, the subtracks in bioinformatics and computational biology, health informatics, and information science require at least 9 s.h. in disciplinary applications of informatics; and the geoinformatics subtrack requires at least 12 s.h. in disciplinary applications of informatics. Work toward the certificate may not be substituted completely for courses or examinations required by the student’s graduate degree program.

For more information about certificate requirements, visit the Informatics Program website.

Admission

Applicants to the M.S., Ph.D., or certificate program should apply to the degree subtrack of their choice. The subtrack programs make independent admission decisions. Certificate program applicants must be enrolled in a University of Iowa graduate degree program and must be in good academic standing in their degree programs.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog. They also must meet the admission requirements of the informatics subtrack they want to enter; see Prospective Students/Admission Requirements and How To Apply on the program’s website.

Courses

200:110 (IGPI:5200) Health Informatics I 3 s.h.

200:120 (IGPI:5210) Health Informatics II 3 s.h.
Selected health informatics initiatives, including computer-based patient records, physiologic monitoring, networking, imaging, virtual reality; participation in an interdisciplinary project team focused on an informatics innovation; application and research seminars. Same as 051:189 (BME:5252), 074:192 (RSMN:5301), 096:289 (NURS:5301), 056:287 (IE:5870), 021:280 (SLIS:5910).

Requirements: admission to M.S. program.

200:205 (IGPI:5015) Independent Study arr.
200:220 (IGPI:6220) Social Informatics 3 s.h.
Study of information and communication tools (ICTs) in cultural or institutional contexts; how ICTs are conceptualized, disseminated, and used in everyday and specialized environments such as libraries, education settings, corporations, local communities, cultural groups, political campaigns, and Web 2.0. Prerequisites: 021:101 (SLIS:5010). Same as 021:210 (SLIS:6130).

200:296 (IGPI:6500) Topics in Informatics arr.
Current topics in informatics.

200:297 (IGPI:6510) Readings in Informatics arr.
Topics not covered in other courses; individual study.

Requirements: Ph.D. candidacy.
International Programs

Dean, International Programs
• Downing Thomas

Director, graduate program
• Soon "Sonia" Ryang

Graduate degree: M.A. in international studies
Web site: http://international.uiowa.edu/

The graduate program in international studies is administered by International Programs; the Graduate College confers the degree.

Graduate Program of Study
• Master of Arts in international studies

Master of Arts
The Master of Arts program in international studies is closing; admission to the program is suspended. See the 2012-13 General Catalog for degree requirements.

Courses

Primarily for Undergraduates
Students may not earn graduate credit for the following courses.

287:029 (IP:1029) First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; international topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

287:098 (IP:2098) Issues in International Studies 1 s.h.
Modules focusing on varied topics, taught by international studies faculty members.

Modules focusing on varied topics, taught by international studies faculty members.

Primarily for Graduate Students

287:150 (IP:3550) Special Topics in International Studies arr.
Topics related to international studies.

287:205 (IP:7000) International Graduate Research 1-6 s.h.
Independent study directed by a faculty member.

287:210 (IP:6100) International Programs Summer Institute for Teachers 1-3 s.h.
Professional development workshop for teachers. Same as 075:210 (EDTL:6100).

Thesis for interdisciplinary M.A. with international studies emphasis.
International Writing Program

Director
• Christopher Merrill

Instructors
• Natasa Durovicova, Hugh Ferrer

Web site: http://iwp.uiowa.edu/

The International Writing Program (IWP) conducts a unique fall residency program for established writers from outside the United States and a summer writing program for American and international high school students. During spring semester, IWP offers courses related to the program’s general mission, including collaborative distance learning courses for writing students overseas.

Residency Program

Each fall the International Writing Program assembles a community of poets, fiction writers, essayists, playwrights, and journalists for a one-semester residency on campus. Participants range from emerging talents to writers who are among their countries’ leading literary figures and writers of world stature. For most of them, their time in the program is their first, or their first extended, stay in the United States.

At the University they live and interact with each other while working on writing and translation projects and participating in public events. Throughout their residency, they present their work in 181:191 (IWP:3191) International Literature Today and 181:205 (IWP:5205) International Translation Workshop and participate as guests in many other courses on campus, including a First-Year Seminar for new University of Iowa undergraduates. They also interact with the public through readings, panel discussions, a film series, and other presentations.

Since 1967 more than 1,400 writers from 130 countries have participated in the program.

International Writing Program participants are supported by the U.S. Department of State, through bilateral agreements with many countries, by grants from cultural institutions and governments abroad, and by private funds. The program does not provide grants for writers.

For more information, contact the International Writing Program or visit its web site.

Summer Program

Between the Lines is an IWP summer program that brings American high school students together with students from Russia and the Arabic-speaking world to explore creative writing and world literature in a multilingual, multicultural environment. Students attend a language-specific writing workshop, in which they create and share stories and poetry with their peers. They also participate in a literature seminar conducted in English, where they discuss works written by American and international authors.

Between the Lines is offered in two sessions, each lasting two weeks: the first half of July, for students from Russia and America; and the second half of July, for students from Arabic-speaking countries and America.

International students are nominated by embassies in their home countries. American students who have completed grade 10, 11, or 12 may apply to the program; they must complete an online application and submit samples of their creative work, a statement of purpose, a letter of recommendation from a teacher familiar with their writing, and a current high school transcript. Application deadline for both sessions is mid-February. Contact Between the Lines for more information.

Between the Lines is funded by a grant from the U.S. Department of State’s Bureau of Educational and Cultural Affairs.

Courses

181:001 (IWP:1181) Readings for Writers
1 s.h.
Introduction to the Iowa City writing community; attendance at readings by professional, faculty, and student writers; students keep journals about readings.

181:040 (IWP:1040) Writing Across the Atlantic: Guided Creative Writing and Reading
arr.
Reading contemporary British prose and poetry and students’ own creative writing; instruction by a visiting writer from Great Britain who is participating in the International Writing Program.

181:101 (IWP:3101) Independent Studies
arr.
Directed readings in contemporary world literature.

181:102 (IWP:1102) On Campus Independent Study
arr.
Independent study arranged in collaboration with instructor.

181:109 (IWP:1009) Undergraduate Internship
arr.
Professional experience for students interested in arts management and international literature. Requirements: undergraduate standing, minimum of 36 s.h. of course work, and consultation with IWP director.

181:110 (IWP:3210) Comparative Arts
3 s.h.
Cultural and aesthetic issues arising from side-by-side investigation of several art forms, including literature, cinema, painting, music, opera, architecture; periods, schools, styles, and their theories. Same as 048:110 (CCL:3210).

181:120 (IWP:1120) International Issues in Creative Nonfiction Writing
arr.
Where does the subjective terminate, the objective commence? What are the boundaries between domestic and global, personal and political, fiction and nonfiction? Addressing these questions through academic and creative means; examination of pressing social, environmental, and creative issues; for students unafraid of technology, interested in Skyping, working on message boards, and exchanging multimedia responses with students worldwide; online course linking to institutions of higher learning abroad.

181:152 (IWP:3152) America in Other Words
1-3 s.h.
Current idea of America in its imaginary form: post-1989 world fiction, poetry, and film in original language, in translation, and via online translation resources. Same as 048:152 (CCL:3152).
181:191 (IWP:3191) **International Literature Today**  1-3 s.h.
English majors may apply this course to the following area
and/or period requirement. AREA: Transnational Literature
and Culture. PERIOD: 20th/21st-Century Literature. Same as

181:201 (IWP:3201) **Writing and Publishing for the
Literary Web**  arr.
Technical aspects of web publishing, including step-by-step
instruction on using content management systems (Drupal and
Wordpress); specific stylistic and editorial protocols associated
with contributing to literary web sites; utilize and navigate a
content management system; create a contributor portfolio of
online work, including media items, reviews, interviews, and blog
posts.

181:205 (IWP:5205) **International Translation
Workshop**  1-3 s.h.
International writers pair with University of Iowa translators to
write new works of poetry and fiction in English; second-language
fluency not required for international writers. Same as
218:205 (TRNS:5205).

181:230 (IWP:5230) **Writing Across Genres: A
Workshop**  arr.
Writing across genres; exploration of modes and voices
different from chosen genres (i.e., poets may test the waters
of playwriting, nonfiction writers of translation, translators of
fiction); rotations by guest faculty; workshop includes students
from Writing University M.F.A. programs and International Writing
Program residents.

181:247 (IWP:6635) **Crossing Borders Seminar**  2-3 s.h.
Same as 016:247 (HIST:6635), 008:231 (ENGL:6635),
113:247 (ANTH:6635), 129:231 (AFAM:6635),
013:262 (GRMN:6635), 035:273 (SPAN:6904),
160:247 (PORO:6635), 009:262 (FREN:6142),

181:260 (IWP:7460) **Translation Workshop**  4 s.h.
Requirements: at least one foreign language. Same as
218:260 (TRNS:7460).
Library and Information Science

Director
• David Eichmann

Associate professors
• Timothy Barrett, David Eichmann, James Elmborg, Julie Leonard, Jennifer Burek Pierce

Assistant professors
• Haowei Hsieh, Patricia Katopol, Joan Bessman Taylor

Professor emeritus
• Velva Jeanne Osborn

Associate professor emeritus
• Carl Orgren

Graduate degree: M.A. in library and information science
Web site: http://slis.grad.uiowa.edu/

Today's age is defined by the intersection of information, technology, and human creativity. In this context, library and information science is dedicated to understanding the nature of information, the interaction between information and communication technologies, the relationship between information and knowledge, the cognitive and affective aspects of knowledge acquisition, and the interface between people and information. It offers new knowledge, technological benefits, and professional expertise for every dimension of human affairs.

Library and information professionals take on many challenges in serving the needs of their constituencies—children and teachers, members of academic communities, employees of profit and nonprofit organizations, and the public at large—constituencies that range from information poor to information rich. They work in the contexts of issues such as information and communication technology, public and private information policy, managerial policy, and regional, national, and international economics.

The School of Library and Information Science prepares professionals to meet these diverse challenges. It offers a graduate-level program of preparation for careers in all types of libraries and information centers, providing students with a strong, well-rounded education in an environment that supports individuals from all segments of a multicultural, multiethnic, and multilingual society. Its curriculum reflects the profession's immediate and long-range needs and prepares students to be leaders in a changing field.

By promoting excellence in research, the school contributes to the base of theoretical and practical knowledge in library and information science and helps develop an understanding of how to meet the varied and changing information needs of individuals and society. It also provides public service through continuing education programs, selective consulting services for library and information centers, and participation in professional organizations.

The school strongly encourages its students, faculty members, and alumni to shape the future of the profession by filling key roles in organizations involved in all aspects of the information cycle.

Graduate Programs of Study

• Master of Arts in library and information science
Graduate students working toward a degree in library and information science may elect to pursue one of the joint degree programs offered by the school in collaboration with the Tippie College of Business and the College of Law. The school also offers a joint master's degree/certificate program with the Center for the Book. See "Joint Degrees" and "Joint M.A./Certificate" below.

Students interested in school librarianship may earn a teaching license through a joint program with the College of Education; see "Specializations"/"School Teacher Librarian" below. Library and information science students also may earn the Certificate in Informatics, described below.

The Master of Arts in library and information science has held continuous accreditation from the American Library Association since 1971.

Library science graduates have many options for employment. Alumni hold positions in public, school, special, and academic libraries as well as other information settings. They serve in varied roles, such as information consultant, database manager, library administrator, webmaster, network coordinator, cataloger, children's librarian, school library media specialist, and archivist.

Master of Arts

The Master of Arts in library and information science requires 36 s.h. of graduate credit. A thesis option is available for students who seek additional research experience.

Students pursuing the master's degree gain an understanding of the foundations of the library and information profession, including the history of the field, ethical and philosophical concerns, the information cycle, principles and procedures for dealing with a variety of information carriers, and the theory and practice of strategic management. They examine future trends, with emphasis on cutting-edge technological concerns. They study the discipline’s research base, gaining heightened awareness of the synergy between library and information science and other disciplines, as well as the close relationship between research and practice. Finally, students become knowledgeable about the factors that underlie users’ information needs and appropriate strategies to satisfy those needs.

The master's degree program is designed to be completed in two years. The maximum allowable load for graduate students is 12 s.h. during regular semesters and 8 s.h. during summer sessions. Students also may choose to complete the program through part-time study.

Students may apply a maximum of 12 s.h. of graduate transfer credit in library and information science or related areas toward the degree, subject to the approval of the transfer credit committee. Approval is given course-by-course and is determined by the course’s content, currency, and applicability to the student’s program.

The curriculum includes a proseminar and three tiers. Tier I consists of three required courses that provide a solid grounding for all successive course...
work. Tier II consists of four courses; students who intend to become school librarians should choose 021:262 (SLIS:6180) School Library Media Administration instead of 021:260 (SLIS:6170). In Tier III, students may earn up to 15 s.h. in electives chosen with guidance from their advisors. This three-tier arrangement allows each student to concentrate in an area that most closely matches his or her professional goals.

**PROSEMINAR**

Students must enroll in the proseminar during their first semester, along with two tier I courses.

021:100 (SLIS:5000) Proseminar in Library and Information Science

**TIER I**

All of these:

021:101 (SLIS:5010) Cultural Foundations (taken in student’s first semester) 3 s.h.

021:120 (SLIS:5020) Computing Foundations (taken in student’s first semester) 3 s.h.

021:122 (SLIS:5030) Conceptual Foundations 3 s.h.

**TIER II**

This course:

021:242 (SLIS:6160) Search and Discovery 3 s.h.

One of these:

021:260 (SLIS:6170) Organizational Management 3 s.h.

021:262 (SLIS:6180) School Library Media Administration (for school teacher librarian specialization) 3 s.h.

Two of these:

021:124 (SLIS:6100) Database Systems 3 s.h.

021:202 (SLIS:6110) Research Methods 3 s.h.

021:205 (SLIS:6020) Literacy and Learning 3 s.h.

021:210 (SLIS:6130) Social Informatics 3 s.h.

021:226 (SLIS:6140) Digital Environments 3 s.h.

021:236 (SLIS:6150) Use and Users 3 s.h.

021:278 (SLIS:6490) Information Policy 3 s.h.

**TIER III**

With their advisor’s guidance, students choose 15 s.h. in electives from the following courses.

021:123 (SLIS:5200) User Education: Multimedia 3 s.h.

021:141 (SLIS:5210) Reference and Information Services 3 s.h.

021:143 (SLIS:5220) Resources for Children 3 s.h.

021:144 (SLIS:5230) Resources for Young Adults 3 s.h.

021:145 (SLIS:5240) Resources for Adults 3 s.h.

021:150 (SLIS:4900) Preservation and Conservation of Collection Materials 3 s.h.

021:222 (SLIS:6250) Beginning Cataloging and Classification 3 s.h.

021:224 (SLIS:6270) Electronic Publishing 3 s.h.

021:228 (SLIS:6280) Hypertext Systems 3 s.h.

021:232 (SLIS:6300) Race, Gender, and Technology 3 s.h.

021:234 (SLIS:6190) Knowledge Management 3 s.h.

021:239 (SLIS:6320) Topics: Conceptual Structures/Systems 1-3 s.h.

021:240 (SLIS:6330) Collection Management 3 s.h.

021:249 (SLIS:6370) Topics in Book Studies 3 s.h.

021:252 (SLIS:6375) Human Computer Interaction 3 s.h.

021:254 (SLIS:6380) Analysis of Scholarly Domains 3 s.h.

021:256 (SLIS:5600) History of Readers and Reading 3 s.h.

021:258 (SLIS:4920) The Transition from Manuscript to Print 3 s.h.

021:259 (SLIS:6410) Topics: Resources/Services 1-3 s.h.

021:263 (SLIS:6430) Nonprofit Organizational Effectiveness I 3 s.h.

021:265 (SLIS:6435) Nonprofit Organizational Effectiveness II 3 s.h.

021:270 (SLIS:6460) Public Libraries 3 s.h.

021:271 (SLIS:6470) College and University Libraries 3 s.h.

021:272 (SLIS:6480) Special Libraries 3 s.h.

021:275 (SLIS:5900) Health Informatics I 3 s.h.

021:279 (SLIS:6500) Topics: Policy/Planning 1-3 s.h.

021:280 (SLIS:5910) Health Informatics II 3 s.h.

021:282 (SLIS:6520) Practicum in Libraries and Information Centers 2-3 s.h.

021:284 (SLIS:6530) School Library Media Practicum 3 s.h.

021:289 (SLIS:6550) Seminar in Library and Information Science 3 s.h.

021:292 (SLIS:6570) Independent Study 1-3 s.h.

021:299 (SLIS:6580) Thesis 0-3 s.h.

**Specializations**

Students’ programs often are designed around particular career goals. Following are examples of possible specializations.

**PUBLIC LIBRARIES**

Public libraries provide informational, educational, and recreational materials and a wide range of services for a diverse clientele. Although public libraries receive the bulk of their funding from local taxes, they also may be organized on a regional or statewide cooperative basis. The variety of uses, services, materials, and organizational structures of public libraries makes this a challenging area of librarianship. Public librarians need to develop skills in analyzing the communities they serve, designing comprehensive marketing plans to meet their needs, implementing the plans in a cost-effective way, and evaluating the success of their efforts.

**ACADEMIC LIBRARIES**

The academic library, whether in a community college, a four-year college, or a university, provides information services in support of the parent institution’s teaching, research, and public service missions. These services include instruction in the use of the library and its resources. Management skills and subject or language competence often are required. Since librarians in this setting usually are considered academic faculty members, a second master’s or other advanced degree is desirable.

**SPECIAL LIBRARIES AND INFORMATION CENTERS**

Special libraries serve corporations, private companies, government agencies, technical and academic institutions, museums, medical facilities, and information management consulting firms. They are organized to anticipate and quickly respond to the specific information needs of their users. Special librarians are information resource experts who collect, analyze, evaluate, package, and disseminate information to facilitate accurate decision making. Knowledge of information technology and the ability to design services suitable to the parent organization are professional necessities. In addition, substantial subject expertise may be required.
SCHOOL TEACHER LIBRARIAN

School teacher librarians provide instruction to students in accessing, evaluating, and using information; collaborate with teachers on the use of resources in instruction; provide leadership in the use of instructional and information technologies; offer reading guidance; provide reference service; and manage the library media center.

The University of Iowa offers a state-approved program leading to endorsement as school teacher librarian K-12. In order to fulfill state requirements for this endorsement, students must hold or be eligible for a teaching license and must complete a designated sequence of courses that leads both to certification and to the M.A. degree.

Licensed teachers employed in Iowa schools may enroll in a distance education program that leads to an M.A. in library and information science and endorsement for school librarianship. Contact the School of Library and Information Science for details.

Students who are interested in school libraries but lack a valid Iowa teaching license may earn licensure as a school teacher librarian by completing 30 s.h. in the College of Education. The Master of Arts in library and information science with teacher licensure requires 66 s.h. of credit. Students must apply and be admitted to both programs.

INFORMATION SCIENCE

The multidisciplinary field of information science is influenced by the rapid growth in digital information collections and technologies. This specialization offers expertise in retrieval, dissemination, and use of information. In addition to libraries and information centers, many for-profit organizations are finding that information is a valuable commodity in today’s competitive world and are employing information management personnel. The curriculum offers opportunities to study information science aspects, such as digital libraries, electronic publishing, and automated systems design.

Joint Degrees

The School of Library and Information Science offers a joint Master of Arts/Master of Business Administration with the Tippie College of Business and a joint Juris Doctor/Master of Arts with the College of Law. The primary goal of the joint programs is integration of the two areas of study.

Students in the joint programs may apply a limited amount of credit toward both degrees. Up to 9 s.h. in business or law may be applied toward the M.A. in library and information science; up to 9 s.h. in library and information science may be applied toward the M.B.A., and 12 s.h. may be applied to the J.D.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program. For more information, see Library and Information Science (p. 677) in the Catalog.

Joint M.A./Certificate

Students interested in special collections, book arts, or museum librarianship may pursue an M.A. in library and information science in conjunction with a graduate Certificate in Book Studies/Book Arts and Technologies. The joint program also may be appropriate for students interested in book studies scholarship and those seeking careers in publishing, graphic arts, or book-related industries that require a similar blend of subject and technical knowledge.

The joint program requires a total of 51 s.h. At least 27 s.h. must be earned in the M.A. program, at least 15 s.h. must be earned in the certificate program, and the remaining 9 s.h. may be earned in either program.

Separate application to each program is required. Applicants must be admitted to both programs before they may be admitted to the joint program. For more information, see Center for the Book (p. 915) in the Catalog.

Related Certificate: Informatics

The Graduate College offers the Certificate in Informatics with a health informatics subtrack, which requires 18 s.h. of credit. The subtrack emphasizes the organization, management, and use of health care information; health care research, education, and practice; and information technology developments in the socioeconomic context of health care. Library and information science students working toward the certificate complete 021:275 (SLIS:5900) Health Informatics I, 021:280 (SLIS:5910) Health Informatics II, and approved electives. To learn more, see “Certificate” in the Informatics (p. 929) section of the Catalog.

Honor Society

The Beta Beta Theta Chapter of Beta Phi Mu, the international honor society for library and information science, is located at The University of Iowa. Each year new members are chosen from the top 25 percent of the preceding year’s graduating classes. To be eligible for membership, graduates must achieve a g.p.a. of at least 3.75, demonstrate professional promise, and be recommended by the faculty.

Student Organizations and Activities

All M.A. students in the school are automatically members of LiSSO, the Library and Information Science Student Organization, which also serves as the student chapter of the American Library Association. LiSSO sponsors various activities, such as speaker series, workshops, brown bag lunches, and social events. Participation in LiSSO events provides students with significant opportunities for professional and extracurricular growth. Students also are encouraged to join other state and national professional organizations.

The electronic journal BSides was created and is edited entirely by library and information science students. The journal publishes work by current students and recent alumni in a wide variety of formats, such as research papers, PowerPoint presentations, and web sites.

Admission

Applicants for admission to the M.A. program are required to have a g.p.a. of at least 3.00 on a 4.00 scale. They must have a combined verbal and quantitative score of at least 1000 on the old Graduate Record Examination
(GRE) General Test or a combined score of 300 on the revised GRE. The admissions committee also considers each applicant’s letters of recommendation, statement of purpose, and other appropriate criteria. Admission is competitive.

Applicants whose first language is not English must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). In place of TOEFL, the school also accepts International English Testing System (IELTS) scores of 7.0 or higher, with no subscore below 6.0. Applicants who submit IELTS scores are required to take an on-campus English proficiency evaluation.

Applicants begin the admission process by contacting the School of Library and Information Science. The process requires a completed application form, transcripts of all academic work, a written statement of purpose and goals, and three letters of recommendation.

Completed applications should be received by the school by February 1 for consideration for fall admission. Decisions of the admissions committee are announced approximately six weeks after the application deadline. Late applications are considered if places are still available. Financial aid is often not available for late applicants. Admitted students are assigned a faculty advisor for program planning at the end of their first semester.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Financial Support
The School of Library and Information Science offers partial-tuition scholarships and one-quarter-time graduate assistantships. To be considered for scholarships or assistantships, applicants must meet the M.A. program’s grade-point-average and Graduate Record Exam score requirements for admission (see "Admission" above). Prospective students must submit letters of application for scholarships before February 1. Graduate assistantships are advertised as they become available; students should apply for specific assistantships.

For information on departmental scholarships, contact the School of Library and Information Science or visit its web site. Part-time employment usually is available in the University Libraries and other campus units.

Applications for student loans, work-study eligibility, or other financial assistance should be submitted directly to the University’s Office of Student Financial Aid.

Job Placement
The school shares announcements of national and international job opportunities through an electronic mailing list. In addition, LISSO sponsors talks by speakers versed in areas of librarianship as well as workshops on résumé writing and interviewing. Internships and the school’s practicum courses provide students with hands-on experience that may enhance their job prospects.

Facilities, Resources
The School of Library and Information Science is housed in the south wing of the University’s Main Library, in a setting that promotes community among students, faculty, and staff and provides easy access to resources of the University of Iowa Libraries. Facilities are provided for the varied instructional and research activities of the school.

Gunther Commons
Gunther Commons, a state-of-the-art collaboratory, is the school’s combined student center and technology lab. Individuals and teams of students gather in the collaboratory to work on course assignments and to gain experience with specialized software that supports the latest teaching technologies. Students have access to both Windows and Macintosh computers in the collaboratory, with gigabit access to the campus network and wireless service throughout the Main Library.

University of Iowa Libraries
All of the resources of the University of Iowa Libraries are available to the school’s students and faculty. The system contains more than 4 million volumes in the Main Library and six departmental libraries.

The web-based catalog provides access to books and periodicals, electronic indexes, and full-text databases held by University Libraries. In addition, the InfoHawk Catalog to online resources provides access to selected Internet and CD-ROM resources arranged by subject and academic discipline. Wireless Internet access is available in many areas of the Main Library.

The third floor of the Main Library houses the map collection and Special Collections & University Archives, including the Iowa Women’s Archives.

Other Libraries
Students have access to a variety of libraries through field trips, practicum experience, and personal use: the State Historical Society of Iowa library in Iowa City; the Iowa City, Coralville, and Cedar Rapids public and school libraries; the Augustana, Coe, Cornell, Mount Mercy, and Grinnell College libraries; and the Herbert Hoover Presidential Library and Museum in West Branch.

Other Resources
Lindquist Center houses the instructional services and campus services departments of the University’s Information Technology Services. It provides instructional and research computing facilities and services for the University community. All University students, staff, and faculty may use the center’s computers for University-related research, thesis preparation, and class work. Instructional Technology Centers provide campuswide access to the University’s academic computing resources and the Internet.

Courses
021:090 (SLIS:1090) Information Handling 3 s.h.
Gathering, evaluating, and employing information from library and nonlibrary sources, including multimedia and electronic systems. Requirements: undergraduate standing.

021:100 (SLIS:5000) Proseminar in Library and Information Science 0 s.h.
Overview of responsible stewardship of library and archival collections; principles and practice of book conservation with focus on prototypes for conservation rebinding; appropriate care of books, papers, photographs (traditional and digital), film, and other non-print items; fundamental instruction in methods of page repair, investigation of eight historical prototypes, construction of related conservation binding models; lecture, discussion, student presentation, and hands-on activities. Prerequisites: 021:101 (SLIS:5010). Same as 024:155 (MUSM:4900).

021:202 (SLIS:6110) Research Methods 3 s.h.
Concepts and methods for research in library and information science; emphasis on design of qualitative and quantitative research; data collection techniques appropriate to information professions; examination and evaluation of research in the professional literature.

021:205 (SLIS:6020) Literacy and Learning 3 s.h.
Learning and literacy theory relevant to work in information services; how librarians can help people process information and use it to form understanding and create new knowledge. Prerequisites: 021:101 (SLIS:5010).

021:210 (SLIS:6130) Social Informatics 3 s.h.
Study of information and communication tools (ICTs) in cultural or institutional contexts; how ICTs are conceptualized, disseminated, and used in everyday and specialized environments such as libraries, education settings, corporations, local communities, cultural groups, political campaigns, and Web 2.0. Prerequisites: 021:101 (SLIS:5010). Same as 200:220 (IGPI:6220).

021:222 (SLIS:6250) Beginning Cataloging and Classification 3 s.h.
Systems for describing materials and information in catalogs and organizing them for effective retrieval in libraries, museums, and other information centers; AACR2 descriptive principles, Dewey and Library of Congress classifications, Sears and LC subject headings, cataloging networks and services. Prerequisites: 021:122 (SLIS:5030).

021:224 (SLIS:6270) Electronic Publishing 3 s.h.
Modes and methods for building electronic journals, books, thematic collections; new genres for publishing, including blogs, wikis, comics, short stories on the web; social, political, and economic forces that shape electronic publishing; XML-based project. Prerequisites: 021:120 (SLIS:5020). Same as 108:224 (UCSB:6270).

021:226 (SLIS:6140) Digital Environments 3 s.h.
Methods and models for building digital libraries; organization with metadata; standards such as those for object identifiers, open access, building cross-links between collections; automatic harvesting of content. Prerequisites: 021:120 (SLIS:5020).

021:228 (SLIS:6280) Hypertext Systems 3 s.h.
Theory, design, and implementation of hypertext-based information systems; access mechanisms, including navigation, browsing, search; issues in representation of information, user interfaces; case studies of representative systems, including the World Wide Web. Prerequisites: 021:120 (SLIS:5020).
021:232 (SLIS:6300) Race, Gender, and Technology 3 s.h.
Brief, critical look at the ways race and gender shape the uses and design of information and communication technologies (ICTs); ICTs as a part of our social infrastructure; how the integration of ICTs into Western culture has affected, transformed, or been transformed by interactions with racial groups, men, and women; interrogate assumptions behind technology’s promises of efficiency and progress—what are the norms and values embodied within the artifacts we use every day? Same as 16O:232 (PORO:6232).

021:234 (SLIS:6190) Knowledge Management 3 s.h.
How organizations acquire, manage, and use information; knowledge management and competitive intelligence, information from inside and outside the organization; organization types, including library, corporate, and nonprofit. Same as 06K:234 (MSCI:6190).

021:236 (SLIS:6150) Use and Users 3 s.h.
Information needs and uses; theories and models of information seeking and use, formal and informal information channels, barriers to information.

021:239 (SLIS:6320) Topics: Conceptual Structures/Systems 1-3 s.h.
Special topics relevant to conceptual structures (e.g., knowledge, representation, manipulation schemes) and systems (e.g., intelligent OPACS, user interface technologies).

021:240 (SLIS:6330) Collection Management 3 s.h.
Collection management of print and electronic resources; selection and management principles, policies, procedures in various settings; production and distribution of resources; intellectual freedom. Prerequisites: 021:101 (SLIS:5010) and 021:122 (SLIS:5030).

021:242 (SLIS:6160) Search and Discovery 3 s.h.
Search system architecture; information needs and queries; search models; concepts in relevance and repositories, archives, web-based systems; information quality measures.

021:249 (SLIS:6370) Topics in Book Studies 3 s.h.
Topics relevant to book studies and special collections. Same as 108:230 (UICB:6230).

021:252 (SLIS:6375) Human Computer Interaction 3 s.h.
Design user interfaces for interacting with information, emphasis on system design and evaluation (as opposed to system implementation); construct interface prototypes, conduct evaluations of design. Prerequisites: 021:120 (SLIS:5020).

021:254 (SLIS:6380) Analysis of Scholarly Domains 3 s.h.
Information transfer in academic disciplines; scientific method, other means of knowledge construction, resulting literatures; reference tools used to control literature for a variety of audiences; emphasis on humanities, social sciences, or sciences. Same as 16O:230 (PORO:6290).

021:256 (SLIS:5600) History of Readers and Reading 3 s.h.
Cultural nature of reading practices in historic and contemporary contexts of reading; reading communities; dimensions of gender, age, class, religion, race, ethnicity; examples of recent scholarship; use of primary resources; seminar. Same as 108:220 (UICB:6500).

021:258 (SLIS:6420) The Transition from Manuscript to Print 3 s.h.
Western manuscripts and books 1200-1600; changes in production and distribution methods and in how texts were used, in cultural context. Same as 108:183 (UICB:4920), 16E:118 (HIST:4920).

021:259 (SLIS:6410) Topics: Resources/Services 1-3 s.h.
Current topics in types of information resources and services.

021:260 (SLIS:6170) Organizational Management 3 s.h.
Survey of management issues common to all information environments—understanding organizations, decision making, hiring and personnel, grant writing, and marketing.

021:262 (SLIS:6180) School Library Media Administration 3 s.h.
Design of library media programs for the major functions of teaching and learning, information access, and program administration; focus on curricular and teaching responsibilities of school librarians and media specialists, development of philosophy, examination of roles and responsibilities, and program evaluation. Prerequisites: 021:101 (SLIS:5010).

021:263 (SLIS:6430) Nonprofit Organizational Effectiveness I 3 s.h.

021:265 (SLIS:6435) Nonprofit Organizational Effectiveness II 3 s.h.

021:270 (SLIS:6460) Public Libraries 3 s.h.
Historical development of public libraries; current issues in public library management and policy making, including intellectual freedom; readers advisory service and genres of popular materials for adults.

021:271 (SLIS:6470) College and University Libraries 3 s.h.
Objectives, organization, unique functions and services of academic libraries; educational environment in which academic libraries function; examination of issues and problems affecting academic libraries. Prerequisites: 021:101 (SLIS:5010).

**021:272 (SLIS:6480) Special Libraries** 3 s.h.
Management, organizational structures, collections, client services in special libraries; site visits to a variety of special libraries, information centers; projects that apply theoretical principles.

**021:275 (SLIS:5900) Health Informatics I** 3 s.h.

**021:278 (SLIS:6490) Information Policy** 3 s.h.
Development of policy based on ethical and legal issues in library and information professions; intellectual freedom, intellectual property, equity.

**021:279 (SLIS:6500) Topics: Policy/Planning** 1-3 s.h.
Current topics in national and international policies, their impact on planning. Same as 108:222 (UICB:6120).

**021:280 (SLIS:5910) Health Informatics II** 3 s.h.
Selected health informatics initiatives, including computer-based patient records, physiologic monitoring, networking, imaging, virtual reality; participation in an interdisciplinary project team focused on an informatics innovation; application and research seminars. Same as 051:189 (BME:5252), 074:192 (RSNM:5301), 096:289 (NURS:5301), 056:287 (IE:5870), 200:120 (IGPI:5210).

**021:282 (SLIS:6520) Practicum in Libraries and Information Centers** 2-3 s.h.
Supervised field experience in selected libraries and information centers; emphasis on application of theory to practice; at least 80 hours of fieldwork.

**021:284 (SLIS:6530) School Library Media Practicum** 3 s.h.
Supervised field experience in library media centers at elementary and secondary school levels; emphasis on application of theory to practice; at least 80 hours of fieldwork. Prerequisites: 021:262 (SLIS:6180).

**021:289 (SLIS:6550) Seminar in Library and Information Science** 3 s.h.
Contemporary issues in library and information science; student presentations, guest speakers.

**021:292 (SLIS:6570) Independent Study** 1-3 s.h.
Formal contract between student and faculty member. Requirements: formal proposal.

**021:299 (SLIS:6580) Thesis** 0-6 s.h.
Molecular and Cellular Biology

Director

- Frederick Domann (Pathology/Radiation Oncology/Surgery)

Affiliated faculty

- Christopher Adams (Internal Medicine/Molecular Physiology and Biophysics), Lee-Ann Allen (Microbiology/Internal Medicine), Nikolai Artemyev (Ophthalmology and Visual Sciences/Molecular Physiology and Biophysics), Sheila Baker (Ophthalmology and Visual Sciences/Biochemistry), Alexander Bassuk (Pediatrics/Neurology), Gail Bishop (Microbiology), Daniel Bonthius (Pediatrics/Neurology), Charles Brenner (Biochemistry), Anil Chauhan (Internal Medicine), Amit Choudhury (Orthopaedics and Rehabilitation/Anatomy and Cell Biology), John Colgan (Internal Medicine/Anatomy and Cell Biology), Robert Cornell (Anatomy and Cell Biology), Beverly Davidson (Internal Medicine/Neurology/Molecular Physiology and Biophysics), Brandon Davies (Biochemistry), Kris DeMali (Biochemistry/Dermatology), Mishtu Dey (Chemistry), Frederick Domann (Pathology/Radiation Oncology/Surgery), Adam Dupuy (Pathology/Anatomy and Cell Biology), John Engelhardt (Internal Medicine/Anatomy and Cell Biology), Fisher Price (Pharmacology/Internal Medicine), C. Andrew Frank (Anatomy and Cell Biology), Ernesto Fuentes (Biochemistry), Minnetta Gardiner (Pharmacology), Pamela Geyer (Biochemistry/Obstetrics and Gynecology), Paloma Giangrande (Internal Medicine/Radiation Oncology), Apollina Goel (Pathology/Radiation Oncology), Pedro Gonzalez-Alegre (Neurology), Prabhate Goswami (Radiation Oncology), Steven Green (Otolaryngology/Head and Neck Surgery/Biology), Justin Grube (Pharmacology), Isabella Grumbach (Internal Medicine), Hasem Habelhah (Pathology), Raymond Hohl (Pharmacology/Internal Medicine), Douglas Houston (Biology), Jon Houtman (Microbiology/Internal Medicine), Aloysius Klingelhutz (Microbiology/Radiation Oncology), J. Stacey Klutts (Pathology), Amnon Kohen (Chemistry), John Koland (Pharmacology/Internal Medicine), Gloria Lee (Internal Medicine), Steven Lentz (Internal Medicine), Kimberly Leslie (Obstetrics and Gynecology), Dana Levasseur (Internal Medicine), Fang Lin (Anatomy and Cell Biology), Jim Jung-Ching Lin (Biology), John Manak (Pediatrics/Biology), Wendy Maury (Microbiology), Paul McCray (Microbiology/Internal Medicine/Pediatrics), Stephen McGowan (International Programs/Internal Medicine), James McNamara (Internal Medicine), Jeffery Meier (Internal Medicine), Jessica Moreland (Pediatrics), David Motto (Internal Medicine/Pediatrics), Scott Moey-Rowley (Internal Medicine/Molecular Physiology and Biophysics), Jeffrey Murray (Pediatric Dentistry/International Programs/Epidemiology/Pediatrics/Nursing/Public Policy Center/Biology/Anatomy and Cell Biology), Chioma Okeoma (Microbiology), Bryan Phillips (Biology), Matthew Potthoff (Pharmacology), David Price (Biochemistry), Miles Pufall (Biochemistry), Hank Qi (Anatomy and Cell Biology), Dawn Quelle (Pharmacology/Pathology), Kamal Rahmouni (Pharmacology/Internal Medicine), George Richerson (Neurology/Molecular Physiology and Biophysics), Peter Rubenstein (Internal Medicine/Pediatrics/Biochemistry), Andrew Russo (Molecular Physiology and Biophysics), Thomas Rutkowski (Internal Medicine/Anatomy and Cell Biology), Curt Sigmund (Pharmacology/Internal Medicine/Molecular Physiology and Biophysics), Kathleen Sluka (Nursing/Physical Therapy and Rehabilitation Science), Sarit Smolikove (Biology), Peter Snyder (Internal Medicine/Molecular Physiology and Biophysics), Mark Stamnes (Internal Medicine/Molecular Physiology and Biophysics), Jack Stapleton (Microbiology/Internal Medicine), Steven Strack (Pharmacology/Pathology), Fayyaz Sutterwala (Internal Medicine), Eric Taylor (Biochemistry), Christie Thomas (Internal Medicine/Obstetrics and Gynecology), Tina Toole (Anatomy and Cell Biology), Budd Tucker (Ophthalmology and Visual Sciences), Lori Wallrath (Biochemistry), Todd Washington (Radiation Oncology/Biochemistry), Daniel Weeks (Pediatrics/Biochemistry), Michael Welsh (Internal Medicine/Neurosurgery/Molecular Physiology and Biophysics), Mary Wilson (International Programs/Microbiology/Internal Medicine/Epidemiology), Marc Wold (Radiation Oncology/Biochemistry), Charles Yeaman (Internal Medicine/Anatomy and Cell Biology), Joseph Zabner (Internal Medicine), Fenghuang Zhan (Internal Medicine), Weizhou Zhang (Pathology)

Graduate degree: Ph.D. in molecular and cellular biology
Web site: http://molcellbio.grad.uiowa.edu

The Molecular and Cellular Biology Program provides interdisciplinary training in the concepts and methodologies fundamental to the investigation of biological mechanisms at the molecular level. Faculty members are involved in a variety of research projects related to gene expression and regulation.

Graduate Program of Study

- Doctor of Philosophy in molecular and cellular biology

Doctor of Philosophy

The Doctor of Philosophy program in molecular and cellular biology requires a minimum of 72 s.h. of graduate credit. The program is sufficiently flexible to accommodate students with a wide range of backgrounds in the biological and physical sciences. Entering students are expected to have a solid background in science, including introductory biology and chemistry, organic chemistry, physical chemistry, calculus, genetics, and biochemistry. Students can remedy deficiencies in particular areas by taking appropriate courses during the first year of graduate study.

The curriculum consists of a sequence of required, core, and elective courses that provide didactic training in molecular and cellular biology and that ensure comprehensive exposure to concepts and experimental methodologies in the field. Students engage in laboratory research immediately upon enrollment and progress rapidly to original thesis projects that lead to a Ph.D.

Because of the diversity of biological research problems that can be pursued by employing molecular and cellular approaches, the program provides options for specialization in particular areas of interest.

The Ph.D. in molecular and cellular biology requires the following course work.
**DIDACTIC COURSE WORK**

All of these:

142:215 (MCB:6215) Transcription and Multi-Functional Regulation by RNA 1 s.h.
142:217 (MCB:6217) Epigenetics, Cancer, and Mouse Models of Disease 1 s.h.
142:220 (MCB:6220) Mechanisms of Cellular Organization 3 s.h.
156:204 (BISC:5204) Biostatistics for Biomedical Research 1 s.h.

These, if recommended by the advisor:

099:243 (BIOC:5243) Protein Structure, Function, and Regulation: Biophysical Chemistry Module 1 1 s.h.
156:201 (BISC:5201) Fundamentals of Gene Expression 1 s.h.

Students take electives in addition to the courses listed above to total 18 s.h. of credit in didactic course work.

**SEMINARS AND PROFESSIONAL DEVELOPMENT**

All students take both of these:

142:290 (MCB:7290) Seminars in Molecular and Cellular Biology 1 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity 1 s.h.

Precomprehensive students take this each semester:

142:280 (MCB:6280) Topics in Molecular and Cellular Biology 1 s.h.

Postcomprehensive students take this each semester:

Journal club of the student’s choice 1 s.h.

**THESIS RESEARCH AND DISSERTATION**

After successfully completing the comprehensive examination, usually at the end of the second year of graduate study, students advance to candidacy for the Ph.D. degree. They devote their time to completing thesis research and writing their Ph.D. dissertation. Upon successful completion of all requirements, including the dissertation and its oral defense, students are awarded a Ph.D. in molecular and cellular biology.

**Admission**

For application materials and information about graduate training in molecular and cellular biology, contact the Molecular and Cellular Biology Program or visit its web site.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

**Financial Support**

Graduate students in the Molecular and Cellular Biology Program receive stipends and tuition support from institutional and extramural sources, including University of Iowa fellowships and graduate research assistantships, and training grants from the National Institutes of Health.

**Facilities**

Training is conducted primarily in laboratories and teaching facilities of the Carver College of Medicine Departments of Anatomy and Cell Biology, Biochemistry, Internal Medicine, Microbiology, Molecular Physiology and Biophysics, Neurology, Obstetrics and Gynecology, Pathology, Pediatrics, Pharmacology, and Radiation Oncology; and in the College of Liberal Arts and Sciences Departments of Biology and Chemistry. Faculty laboratories and central research facilities available to students provide access to the most up-to-date research equipment.

**Courses**

142:215 (MCB:6215) Transcription and Multi-Functional Regulation by RNA 1 s.h.

Principles and techniques for investigating mechanisms of controlling eukaryotic gene expression; basic genome organization, chromatin structure, transcription, RNA processing, translation; cloning methods, use of electronic sequence databases, footprinting, chromatin immunoprecipitation, in vivo and in vitro transcription assays, DNA microarray analysis, information retrieval. Prerequisites: 156:201 (BISC:5201).

142:217 (MCB:6217) Epigenetics, Cancer, and Mouse Models of Disease 1 s.h.

Epigenetic mechanisms of transcriptional control; regulation of chromatin structure and its relation to disease; fundamental concepts in cancer; mouse models for understanding the molecular basis for human disease; based on research publications. Prerequisites: 156:201 (BISC:5201).

142:220 (MCB:6220) Mechanisms of Cellular Organization 3 s.h.

Current understanding of basic cell biological processes; key experiments that led to guiding insights; mechanisms that cells use for compartmentalization and how those mechanisms are regulated; biogenesis of major organelles (e.g., mitochondria, peroxisomes, nucleus, secretory/endocytic membrane system); functions of cytoskeleton in cell motility, organelle motility, and cell division. Prerequisites: 099:130 (BIOC:3130). Same as 072:220 (MPB:6220), 060:216 (ACB:6220).

142:225 (MCB:6225) Growth Factor Receptor Signaling 1 s.h.

142:226 (MCB:6226) Cell Cycle Control 1 s.h.

142:227 (MCB:6227) Cell Fate Decisions 1 s.h.

142:240 (MCB:6240) Inflammatory Cell Signaling and Targeted Cancer Therapy
Introduction to topics in important cancer signaling pathways; promises and challenges of targeted cancer therapy; emphasis on current fundamental topics in cancer cell signalings; how altered protein ubiquitination/deubiquitination, constitutive activation of proteins kinases, and transcription factors underpin uncontrollable proliferation and survival of cancer cells in tumor microenvironment; translation of knowledge to targeted cancer therapy; promotion of critical thinking. Recommendations: 099:243 (BIOC:5243), 142:225 (MCB:6225), and 142:227 (MCB:6227).

142:280 (MCB:6280) Topics in Molecular and Cellular Biology
Opportunity to work closely with participating faculty to gain skill in critical reading of research literature and facility in presenting material to an audience. Requirements: advanced graduate standing.

142:290 (MCB:7290) Seminars in Molecular and Cellular Biology
Research findings in molecular biology. Requirements: molecular and cellular biology graduate standing.

142:299 (MCB:6250) Mechanisms of Parasitism Journal Club
Reviews of recent publications in molecular parasitology research and thesis research by training grant or journal club students. Same as 061:299 (MICR:6250).

142:301 (MCB:7300) Directed Study in Molecular and Cellular Biology
arr.

142:305 (MCB:7305) Molecular and Cellular Biology Research
Requirements: molecular and cellular biology graduate standing.

Graduate degree: Ph.D. in neuroscience
Web site: http://neuroscience.grad.uiowa.edu

The Neuroscience Program provides an interdisciplinary and interdepartmental approach to graduate education and research training in the structure, function, and development of the nervous system and its role in cognition and behavior. Students obtain training at all levels of the nervous system, from cellular/molecular to behavioral/cognitive.

Graduate Program of Study
• Doctor of Philosophy in neuroscience

Doctor of Philosophy

The Doctor of Philosophy program in neuroscience requires a minimum of 72 s.h. of graduate credit. The program’s curriculum is designed around three tracks: molecular/cellular, developmental/systems, and cognitive/behavioral. Following broad-based instruction in a core curriculum, students specialize in one of the tracks.

Within a framework of core, track-specific, and elective courses, each student pursues a program of study individually designed according to his or her undergraduate training and graduate research goals. After enrolling in the Neuroscience Program, entering students consult with the advisory committee regarding their level of preparation for the program’s required courses.

The Student Advisory Committee meets with all first- and second-year graduate students once each semester, helping each student explore his or her research interests and select faculty mentors for the required laboratory rotations. Each student is expected to complete three rotations in faculty laboratories before selecting a thesis advisor. Rotations ordinarily last 12 weeks but may last from 8 to 16 weeks. Under special circumstances, two rotations may be in the same laboratory, an arrangement that permits the student to learn a variety of techniques and approaches before settling down to work on the dissertation project. Students usually choose a dissertation lab at the end of their first year.
BACKGROUND REQUIREMENTS
Students are expected to demonstrate competency, through prerequisites or course work, in each of four fields: biochemistry, general physiology, cell biology, and statistics. These requirements ordinarily should be fulfilled by the end of the first year of graduate study. Waivers of background course requirements may be requested by students who have taken equivalent courses before entering the Neuroscience Program.

NEUROSCIENCE CORE
The following courses form the core of the neuroscience graduate curriculum.

<table>
<thead>

ELECTIVES
Elective requirements may be met with three or more courses from a list of courses offered by the Departments of Anatomy and Cell Biology, Biology, Molecular Physiology and Biophysics, Pharmacology, Psychology, and other departments as appropriate. Students must take electives in at least two of the program’s three tracks, ensuring that they receive advanced training both in their area of specialization and in related areas of neuroscience. With permission of the Student Advisory Committee, students may satisfy the elective requirement wholly or in part by registration in 132:301 (NSCI:7301) Directed Study in Neuroscience.

Admission
Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

For information about predoctoral training opportunities in neuroscience, contact the Neuroscience Program or visit its web site.

Financial Support
Full-time Neuroscience Program students receive stipends and full tuition scholarships through fellowships and research assistantships. Awards are renewed annually, based on continued satisfactory progress and availability of funds. The standard graduate student stipend for 2012-13 is $25,500.

The Neuroscience Program is committed to supporting its graduate students for their entire training period. Students normally are supported in the first year by the program. After that, support is expected to come from the student’s primary research mentor. Occasionally, advanced students are supported through teaching assistantships. Tuition is paid for all students.

NIH TRAINING GRANT
The Neuroscience Program is supported by a training grant from the National Institutes of Health. The grant provides stipend and tuition support for a select group of first- and second-year graduate students.

Facilities
Training is conducted primarily in the laboratories and teaching facilities of the Carver College of Medicine graduate Departments of Anatomy and Cell Biology, Biochemistry, Molecular Physiology and Biophysics, and Pharmacology; clinical Departments of Internal Medicine, Neurology, and Psychiatry; and the College of Liberal Arts and Sciences graduate Departments of Biology, Communication Sciences and Disorders, Health and Human Physiology, and Psychology. Students use faculty laboratories and central research facilities for ultrastructural analysis; histochemistry and immunocytochemistry; electrophysiology; fluorescence-activated cell sorting; cellular and subcellular biochemistry; cell, tissue, and organ culture; operant and classical conditioning; molecular biology; behavioral genetics; neural substrates of complex behavior; brain-behavior relationships in humans; neuropsychology; and functional neuroimaging (PET, fMRI).

Courses

132:161 (NSCI:5161) Undergraduate Research in Neuroscience
Experimental research under faculty supervision.

132:180 (NSCI:7180) Fundamental Neurobiology
4 s.h.
Cellular neurobiology (cytoskeleton and transport, membrane physiology, synaptic transmission and plasticity, sensory transduction); systems neurobiology (peripheral and central sensory processing, autonomic and somatic motor systems); cognitive neurobiology (emotion, biological rhythms and sleep, memory, attention, language); developmental neurobiology. Prerequisites: 002:145 (BIOL:2753). Recommendations: 002:114 (BIOL:2723) and 099:110 (BIOC:3110). Same as 002:180 (BIOL:3253).

132:181 (NSCI:4353) Neurophysiology
3-4 s.h.
Physiological properties of nerve cells, nervous systems; axonal conduction, synaptic transmission, sensory transduction, integrative processes, higher functions. Prerequisites: 002:145 (BIOL:2753) or 002:180 (BIOL:3253); 22M:016 (MATH:1460) or 22M:025 (MATH:1850), and 029:012 (PHYS:1512) or 029:082 (PHYS:1612). Same as 002:181 (BIOL:4353).

Rhetorics of Inquiry (POROI)

**Director**
- David Depew

**Professor**
- Leslie Margolin (Rehabilitation and Counselor Education/Interdisciplinary Programs/Rhetorics of Inquiry)

**Assistant professor**
- Andre Brock (Library and Information Science/Interdisciplinary Programs/Rhetorics of Inquiry)

Graduate certificate: rhetoric of inquiry
Web site: [http://poroi.grad.uiowa.edu](http://poroi.grad.uiowa.edu)

The Project on Rhetorics of Inquiry (POROI) is an interdisciplinary program whose aim is to improve academic inquiry and scholarly writing in the arts, humanities, sciences, and professions, especially at the intersections between disciplines. POROI explores how scholarship and professional discourse are conducted through argument, how paradigms of knowledge are sensitive to social-political contexts, and how the presentation of scholarly and professional findings is an audience-sensitive process. The program offers classes, seminars, workshops, conferences, and a peer-reviewed online journal, *Poroi: An Interdisciplinary Journal of Rhetorical Analysis and Invention*.

POROI also collaborates with the Graduate College to offer a certificate for graduate students.

### Graduate Program of Study

**Certificate**

The Certificate in Rhetorics of Inquiry requires completion of four POROI courses (normally a minimum of 12 s.h.). Students may pursue the certificate in conjunction with a graduate degree in any field. The interdisciplinary program helps students hone their skills for arguing in oral, written, and multimedia forms within their own disciplines and broaden their understanding of the similarities and differences among various fields.

The certificate program’s objectives are to:

- help students cultivate habits of interdisciplinary study and research through reading, writing, and conversation;
- encourage students to cross conceptual and institutional boundaries that often appear to separate the arts, humanities, and professions from each other and from the social, natural, and formal sciences;
- improve students’ awareness of the rhetorical dimensions of argumentation and inquiry; and
- certify that students who have completed the program are prepared to do rhetorical and cross-disciplinary work after they graduate.

All certificate students must complete the following course work.

160:200 (PORO:6200) Introduction to Rhetorics of Inquiry 2-4 s.h.

Three POROI courses of the student’s choice (see “Courses” below)

### Admission

Master’s and doctoral candidates in good standing are eligible to enter the certificate program. To enroll, contact the Project on Rhetorics of Inquiry.

### Courses

POROI courses are open to certificate and noncertificate students.

Independent study on the rhetoric of inquiry; connections between discourses that at first may not seem connected. Requirements: undergraduate standing.

160:161 (PORO:3610) Rhetorical Issues in Health Care 3 s.h.

160:170 (PORO:4230) Philosophy of the Body 3 s.h.

Philosophical treatment of the body; perspectives from classical, modern, and contemporary texts from Western philosophy, and texts from feminist theory, critical race theory, cultural studies, and disability studies. Prerequisites: 131:010 (GWSS:1001). Same as 131:170 (GWSS:4230).

160:180 (PORO:3480) Literature and Translation 3 s.h.

Translation in the broadest sense; originality, authority, authorship, accuracy, ownership, audience; issues problematizing differences between medium and message. Same as 041:180 (SLAV:3480), 218:180 (TRNS:3480).

160:183 (PORO:5160) Invention 3 s.h.

How to get writing going, keep it going, and write in an authentic meaningful way.

160:200 (PORO:6200) Introduction to Rhetorics of Inquiry 2-4 s.h.

How connections between discourses that don’t seem connected suggest innovative arguments and ways of crossing boundaries between disciplines. Same as 036:210 (COMM:6200).

160:201 (PORO:6240) Foundations for Feminist Inquiry I 3 s.h.

Theory, critique, methodology, practice. Same as 131:200 (GWSS:5000).

160:216 (PORO:6216) Conflict, Negotiation, and Planning 3 s.h.
Conflict within communities, and planners’ responses; networking, negotiating, mediating, coalition building, consensus building; case studies, role playing. Same as 102:216 (URP:6216).

160:223 (PORO:6223) Deliberation, Advocacy, and Civic Engagement
Practices of public deliberation in governance and civil society; counterpublic sphere discourses. Same as 036:223 (COMM:5223).

160:230 (PORO:6290) Analysis of Scholarly Domains
Information transfer in academic disciplines; scientific method, other means of knowledge construction, resulting literatures; reference tools used to control literature for a variety of audiences; emphasis on humanities, social sciences, or sciences. Same as 021:254 (SLIS:6300).

160:232 (PORO:6232) Race, Gender, and Technology
Brief, critical look at the ways race and gender shape the uses and design of information and communication technologies (ICTs); ICTs as a part of our social infrastructure; how the integration of ICTs into Western culture has affected, transformed, or been transformed by interactions with racial groups, men, and women; interrogate assumptions behind technology’s promises of efficiency and progress—what are the norms and values embodied within the artifacts we use every day? Same as 021:232 (SLIS:6300).

160:233 (PORO:6220) Critical Cultural Theories in Media and Communication
Continuation of 019:231 (JMC:6210); introduction to critical cultural theories; use of theories to explain media and communication phenomena. Same as 019:232 (JMC:6220).

160:239 (PORO:6239) Topics
Topics vary.

160:243 (PORO:6243) Feminist Cultural Studies

160:247 (PORO:6635) Crossing Borders Seminar

160:250 (PORO:6250) Introduction to Rhetoric of Science
How science is related to social and political practices, examined by placing philosophical and pedagogical controversies about scientific method into their historical and rhetorical contexts. Same as 036:250 (COMM:6250).

160:258 (PORO:6225) Feminist Critical Theory
Questions of difference, the body, agency, identity politics, gender performativity, power as both productive and oppressive; perspectives from texts in poststructuralist and feminist philosophy. Same as 131:258 (GWSS:6225).

160:262 (PORO:6650) Readings in Nonfiction
Same as 08N:262 (CNW:6650).

160:271 (PORO:6071) Studies in Sentimentalism
Readings in sentimentalism as literary genre, rhetorical practice, cultural mode, and psycho-social phenomenon; focus on attendant theories of affect; integration of literature and culture with work on the politics of affect in postcolonial and transnational studies, critical race and ethnic studies, American studies, and gender and sexuality studies. Same as 010:271 (RHET:6071), 008:271 (ENGL:6075).

160:300 (PORO:6300) Writing for Learned Journals
Help for graduate students in bringing written work to publishable form; analysis of target journals’ audiences and interests; submission, response to criticism. Same as 650:300 (GRAD:6300).

160:302 (PORO:6425) Writing Political Science
Practice in planning and completing political inquiries; emphasis on writing for scholarly publication. Requirements: political science Ph.D. enrollment.

160:313 (PORO:6313) Digital Rhetorics
Current discourse (utopic, dystopic, other strands) about the Internet as it shapes and is shaped by competing forces. Same as 650:313 (GRAD:6313).

160:325 (PORO:6325) Rhetorics of the Body
The body as a shifting signifier: gendered, raced, classed, sexualized, discursively constructed, materially impacted; multiple and constantly shifting dimensions and interpretations; exploration of ways the body is inscribed in culture via various theories of the body—biological, postmodern, virtual.

160:332 (PORO:6660) Critical Ethnography
How power relations constitute the work of ethnographic research; ethnography as a rhetorical form—how ethnographic inscription renders self, other, culture, and the world intelligible in ways that reinscribe and/or challenge dominant social relations; axes of power such as race, class, gender, sexuality, and nation within postcolonial, feminist, and antiracist approaches to ethnographic/autoethnographic theory and praxis; negotiating researcher privilege and epistemic violence; crisis of representation. Same as 036:378 (COMM:6660), 131:332 (GWSS:6660).

160:335 (PORO:6335) Proseminar: Contemporary Rhetorical Studies
Problems in contemporary rhetorical studies; may include works of Kenneth Burke, Wayne Booth, deconstructionists, feminist theorists and critics, critics of communication technologies. Same as 036:335 (COMM:6335).

160:336 (PORO:6336) Seminar in Rhetorical Theory
Topics in history and development of rhetorical theory; theory construction and application to critical practice. Same as 036:336 (COMM:6336).

160:338 (PORO:5200) Colloquium in Political Theory
1-4 s.h.
160:340 (PORO:6450) Current Issues in Rhetoric 3 s.h.
Ethical, social, or cultural issues; rhetoric’s role in their contemporary significance; traditional aspects of rhetoric, their pertinence to present concerns. Same as 010:340 (RHET:6400), 036:317 (COMM:6400).

160:360 (PORO:6500) Issues in Rhetoric and Culture 3 s.h.
Rhetorical theory and criticism as culturally embedded practices; rhetorical production of selves and social difference; relationships between rhetoric and literature, philosophy, popular texts. Same as 010:360 (RHET:6500).

160:400 (PORO:6400) Writing Dissertations 3-4 s.h.
Peer criticism of draft dissertation chapters and prospectuses; associated activities, such as construction of the curriculum vitae, letters of application, interview strategies, presentations at campus visits.
Translational Biomedicine

Chair
- Gary Rosenthal (Epidemiology/Internal Medicine/Health Management and Policy)

Education directors
- Pamela Geyer (Biochemistry/Obstetrics and Gynecology), Jeffrey Murray (Pediatric Dentistry/International Programs/Epidemiology/Pediatrics/Nursing/Public Policy Center/Biology/Anatomy and Cell Biology), James Torner (Epidemiology/Neurosurgery/Surgery/Education), Mary Vaughan Sarrazin (Internal Medicine), Robert Wallace (Epidemiology/Internal Medicine)

Affiliated faculty
- Ryan Carnahan (Epidemiology), Elizabeth Chrischilles (Epidemiology/Pharmacy), David Katz (Internal Medicine/Epidemiology), Charles F. Lynch (Epidemiology/Pathology), Audrey Saftlas (Epidemiology), Christian Simon (Anthropology/Internal Medicine), James Torner (Epidemiology/Neurosurgery/Surgery/Education), Mary Vaughan Sarrazin (Internal Medicine), Robert Wallace (Epidemiology/Internal Medicine)

Graduate degrees: M.S. in translational biomedicine; Ph.D. in translational biomedicine

Web site: http://icts.uiowa.edu/

The Translational Biomedicine Program prepares skilled clinicians to pursue new knowledge about health and disease through patient-based research. The program’s goal is to support the medical research enterprise in its efforts to advance the prevention, treatment, and cure of disease.

Students in the program are trained to conduct rigorous, original clinical investigations using basic biological and physiological principles. They receive didactic training and engage in substantial mentored research opportunities in the areas of disease mechanisms, or etiology; new clinical insights into diagnosis or natural history of disease; objective assessment and outcome of therapeutic intervention; medical informatics; and development of new approaches to therapeutics.

Graduate Programs of Study
- Master of Science in translational biomedicine
- Doctor of Philosophy in translational biomedicine

Master of Science

The Master of Science program in translational biomedicine requires a minimum of 54 s.h. of graduate credit. Each student’s plan of study for the three-year program is based on his or her chosen discipline.

All students take background courses in epidemiology, study design, and statistics as well as advanced courses in basic sciences relevant to their individual research areas. Students may choose to pursue research areas in any of the health sciences disciplines, and they enjoy considerable flexibility in scheduling course work and beginning research.

Work for the M.S. requires authorship of an original manuscript of publishable quality for a peer-reviewed journal or authorship of a grant proposal for an NIH career award (e.g., K23, K08, K01, R01, R03, R21) or a Veterans Administration Career Award; R03 proposals completed for 173:211 (EPID:6110) Grant Writing for Clinical Investigators do not count toward this requirement. Original research manuscripts must be a minimum of 2,500 words. They must include a structured abstract; an introduction that frames the research question; description of methodology for study design, sampling, data collection strategies and sources, and description of data elements and data analysis; description of study results; and a discussion section that describes the relationship of current findings to prior relevant research, the clinical and policy implications of the findings, and methodological limitations.

The M.S. program in translational biomedicine requires the following course work. Students must register for 173:163 (EPID:5630) Seminar in Clinical and Translational Research each semester they are enrolled in the program.

163:225 (TBM:5000) Translational Biomedical Research arr.
171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.
173:140 (EPID:4400) Epidemiology I: Principles 3 s.h.
173:150 (EPID:5500) Introduction to Clinical Epidemiology 2-3 s.h.
173:152 (EPID:5520) Clinical Research Career Development 1 s.h.
173:161 (EPID:5610) Patient-Oriented Research Data Analysis 3 s.h.
173:163 (EPID:5630) Seminar in Clinical and Translational Research 1 s.h.
173:211 (EPID:6110) Grant Writing for Clinical Investigators arr.
173:240 (EPID:6400) Epidemiology II: Advanced Methods 4 s.h.
173:290 (EPID:6900) Design of Intervention and Clinical Trials 3 s.h.
173:295 (EPID:6950) Clinical Research Ethics 2-3 s.h.

SAMPLE SCHEDULE FOR THE M.S.

First year summer session:
173:140 (EPID:4400) Epidemiology I: Principles 3 s.h.
173:152 (EPID:5520) Clinical Research Career Development 1 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.

First year fall semester:
173:150 (EPID:5500) Introduction to Clinical Epidemiology 2-3 s.h.
173:290 (EPID:6900) Design of Intervention and Clinical Trials 3 s.h.
173:163 (EPID:5630) Seminar in Clinical and Translational Research 1 s.h.

First year spring semester:
173:161 (EPID:5610) Patient-Oriented Research Data Analysis 3 s.h.
173:240 (EPID:6400) Epidemiology II: Advanced Methods 4 s.h.
173:295 (EPID:6950) Clinical Research Ethics 2-3 s.h.
173:163 (EPID:5630) Seminar in Clinical and Translational Research 1 s.h.

Second year summer session:
163:225 (TBM:5000) Translational Biomedical Research arr.
Elective 3 s.h.

Second year fall semester:
173:211 (EPID:6110) Grant Writing for Clinical Investigators arr.
or
173:215 (EPID:6150) Writing for Medical Journals  1 s.h.
163:225 (TBM:5000) Translational Biomedical Research  arr.
173:163 (EPID:5630) Seminar in Clinical and Translational Research  1 s.h.
Elective  3 s.h.
Elective  3 s.h.

Second year spring semester:
163:225 (TBM:5000) Translational Biomedical Research  arr.
173:163 (EPID:5630) Seminar in Clinical and Translational Research  1 s.h.

Third year summer session:
163:225 (TBM:5000) Translational Biomedical Research  arr.

Third year fall semester:
163:225 (TBM:5000) Translational Biomedical Research  arr.
173:163 (EPID:5630) Seminar in Clinical and Translational Research  1 s.h.

Third year spring semester:
163:225 (TBM:5000) Translational Biomedical Research  arr.
173:163 (EPID:5630) Seminar in Clinical and Translational Research  1 s.h.
Elective  3 s.h.

The program helps applicants find suitable mentors. All prospective students, and their mentors, must guarantee that once they are accepted as students in the program, they will be able to devote essentially all of their time over a three-year period to training. For instance, a fellow in the Carver College of Medicine could spend no more than two months each year working on clinical assignments (e.g., two months of inpatient assignments or one month of inpatient assignments and one-half day per week in a clinic).

### Financial Support

Funding of tuition and salaries or stipends is available from a number of sources. Contact the Translational Biomedicine Program for information.

### Facilities

Training is conducted mainly in the laboratories and teaching facilities of the Carver College of Medicine and the College of Public Health. The University of Iowa Institute for Clinical and Translational Science is available for research training. The program also is linked with the Carver College of Medicine’s graduate training program in clinical research.

### Courses

- **163:001 (TBM:3001) Introduction to Translational Research**  2 s.h.
  Array of scientific studies translated into clinical solutions; creative ideas balanced with practical strategies for implementation at bedside; expansive number of career opportunities becoming available in translational sciences. Prerequisites: 002:010 and 22M:016 (MATH:1460). Requirements: admission to Clinical and Translational Science certificate program.

- **163:002 (TBM:3002) Practicum in Clinical and Translational Science**  2 s.h.
  Practicum in Clinical and Translational Science provides students the opportunity to address how their research experience translates into clinical practice. Students learn to assess the translational impact of their independent research. In addition, they will develop a summary of research accomplishments and an outline of a translational paper that is mutually acceptable to the student, the preceptor and the practicum course faculty. At the end of the course, students submit a paper and complete a poster presentation that describes the research project and the translational application of the research. Prerequisites: 002:010 and 22M:016 (MATH:1460). Requirements: admission to Clinical and Translational Science certificate program.

- **163:225 (TBM:5000) Translational Biomedical Research**  arr.
  Student research guided by mentor.

  Structured experience in conducting translational and clinical research, data analysis, and producing a publication-quality report.

The Doctor of Philosophy program in translational biomedicine requires a minimum of 72 s.h. of graduate credit. Ph.D. students build on their M.S. study plan with more advanced work. For information about the Ph.D., contact the Translational Biomedicine Program.

### Related Certificate: Translational and Clinical Investigation

The Department of Epidemiology and the Institute for Clinical and Translational Science offer the Certificate in Translational and Clinical Investigation for clinicians who seek advanced training in clinical methodology and applied patient-oriented research skills. Completion of the certificate is noted on the student’s transcript. See Epidemiology (p. 1154) (College of Public Health) in the Catalog for detailed information about the certificate.

### Admission

The Translational Biomedicine Program welcomes students with diverse educational and scientific backgrounds and varied research interests. Applicants to the program should have a strong interest and background in a health science profession and knowledge of basic sciences and medicine. They should hold an advanced degree in one of the health sciences (e.g., M.D., D.O., D.D.S., D.V.M., M.S.N., Pharm.D., Ph.D.).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Admission is based on applicants’ undergraduate and graduate academic achievement, performance on the Graduate Record Examination (GRE) General Test, and letters of recommendation. Applicants whose first language is not English must take the Test of English as a Foreign Language (TOEFL).
Transportation Studies

**Director**

- Paul F. Hanley

**Affiliated faculty**

- Marc P. Armstrong (Geographical and Sustainability Sciences), M. Asghar Bhatti (Civil and Environmental Engineering), John W. Fuller (Urban and Regional Planning/Economics/Public Policy Center), Paul F. Hanley (Urban and Regional Planning/Civil and Environmental Engineering/Public Policy Center), Jon G. Kuhl (Electrical and Computer Engineering/Public Policy Center), Hosin David Lee (Civil and Environmental Engineering/Public Policy Center), Miwa Matsuo (Urban and Regional Planning), Wilfrid A. Nixon (Civil and Environmental Engineering), Gerard Rushton (Geographical and Urban Planning/Transportation Studies Program), and Occupational and Environmental Health

**Graduate certificate:** transportation studies

**Web site:** http://ppc.uiowa.edu/

Transportation is vital to modern society. The United States, like other nations, faces many critical transportation problems and issues. The highway system is reaching an advanced stage of its life cycle, public transit operating deficits are growing, the quality of transportation available to many citizens is unacceptably low, serious inequities exist between transportation modes, and extensive changes are called for in traditional transportation institutions. New approaches to financing the nation’s road system are badly needed.

Transportation engineers and planners draw on a number of skills to respond to the challenges they face. They must analyze and forecast the movement of people and goods within and between cities; identify effective and efficient means for providing desired transportation services; price these services properly; and evaluate the impact that transportation changes have on land use, environmental quality, the local or regional economy, and various subgroups within society.

No single academic discipline can supply all of the theories, principles, or methods needed to address the varied and complex problems in transportation. Recognizing this, the Department of Civil and Environmental Engineering (p. 844) and the School of Urban and Regional Planning (p. 955) participate in the interdisciplinary Transportation Studies Program, through which students in the participating units can earn the Certificate in Transportation Studies by participating in faculty-led transportation research, to participate in faculty-led transportation research, which may explore topics such as system planning, traffic operations and engineering, spatial data systems and analysis, simulation applications, and policy issues.

The Certificate in Transportation Studies is coordinated by the Public Policy Center in conjunction with the Graduate College.

**Certificate with M.S. or Ph.D. in Civil and Environmental Engineering**

Students working toward a Master of Science or a Doctor of Philosophy in civil and environmental engineering may earn the Certificate in Transportation Studies by completing the courses listed below (18 s.h.). Not all courses are offered every semester; consult ISIS to determine when specific courses are offered.

**Fall Semester**

- 053:163 (CEE:4763) Traffic Engineering 3 s.h.
- 053:164 (CEE:4764) Winter Highway Maintenance 3 s.h.
- 102:266 (URP:6266) Transportation and Land Use Planning 3 s.h.

**Spring Semester**

- 053:162 (CEE:4762) Design of Transportation Systems 3 s.h.
- 053:163 (CEE:4763) Traffic Engineering 3 s.h.
- 053:167 (CEE:4167) Public Transit Operations and Planning 3 s.h.

Engineering students may apply to the certificate program through the Graduate College and the Department of Civil and Environmental Engineering. See Civil and Environmental Engineering (p. 844) (College of Engineering) for information about graduate study and degree requirements in that department.

**Certificate with M.A. or M.S. in Urban and Regional Planning**

Students working toward a Master of Arts or Master of Science in urban and regional planning may earn the Certificate in Transportation Studies by completing a total of 18 s.h. from the courses listed below. Not all courses are offered every semester; consult ISIS to determine when specific courses are offered.

Urban and regional planning students may apply to the certificate program through the Graduate College and the School of Urban and Regional Planning. See Urban and Regional Planning (p. 955) (Graduate College) for information about graduate study and degree requirements in the school.
Urban and Regional Planning

Director
• Charles E. Connerly

Professors
• Charles E. Connerly, John W. Fuller

Associate professors
• Jerry A. Anthony, Paul F. Hanley, Lucie Laurian

Assistant professors
• Richard Funderburg, Miwa Matsuo, Phuong Nguyen, Scott Spak, Aaron Strong

Adjunct lecturers
• Leslie Beck, Josh Busard, Bart Cramer, Robert Gassman, Rick Havel, Ron Mirr, Christine Ralston, Jeffrey Schott, Jim Schwab, Dan Swartzendruber, David Swenson

Professors emeriti
• Peter S. Fisher, James A. Throgmorton

Graduate degrees: M.A.in urban and regional planning; M.S. in urban and regional planning

Web site: http://www.urban.uiowa.edu/

Urban and regional planning encompasses the development and implementation of public policies that improve the quality of life in cities and regions. Today’s planners find themselves in demand for such diverse jobs as transport planner, zoning administrator, environmental analyst with a natural resources agency, economic development planner, regional solid waste management coordinator, state public health planner, neighborhood planner, state legislative analyst, and transportation consultant.

Graduate Programs of Study
• Master of Arts in urban and regional planning
• Master of Science in urban and regional planning

The Master of Arts and Master of Science are two-year degree programs fully accredited by the Planning Accreditation Board. Each is built on the premise that planners must be educated in methods of policy analysis and that there is a common body of knowledge, represented in the core curriculum, that provides a solid foundation for all specializations in the field.

A wide range of educational backgrounds provide good preparation for graduate study in urban and regional planning. Students with undergraduate majors such as geography, economics, English, political science, engineering, architecture, sociology, urban studies, and history currently study in the school. More than 60 full-time students and a few part-time students are enrolled. About half of them are women, and about 10 percent are international students.

The common core of courses and the design of the facilities allow students to get to know each other quickly. Students interact closely with faculty members in the classroom, in informal conversation, and while working on research projects.

Recent graduates of the school have taken positions with city, metropolitan, and regional planning agencies, state and federal government, nonprofit organizations, and private consulting firms. They work in all geographic regions of the United States and in several countries around the world.

Graduate students working toward a master’s degree in urban and regional planning may elect to pursue one of the joint degree programs offered by the school in collaboration with the College of Engineering, the College of Law, the College of Public Health, and the School of Social Work. The school also participates in the Transportation Studies Program, which offers a graduate certificate. See "Joint Degrees" and "Related Certificate: Transportation Studies" below.

Master of Arts, Master of Science

The Master of Arts and Master of Science programs in urban and regional planning require 50 s.h. of graduate credit. The graduate curriculum is based on the philosophy that planners must develop the theoretical and analytic skills that will permit them to analyze social problems and evaluate public policies. Planners also must cultivate professional skills such as report writing, oral presentation, computer use, and team management in order to work effectively in various organizational and political environments.

Work for the master’s degree includes core courses, an area of concentration, electives, and capstone courses. A final examination is required for both degrees. A thesis is not required, although students may petition to write one. Students are encouraged to complete an approved internship or practicum.

All students, including those in joint degree programs, must complete a minimum of 35 s.h. of planning courses [prefix 102 (URP)]. Students must earn a grade of B-minus or higher in all core and concentration area courses and must maintain an overall graduate g.p.a. of at least 3.00.

The M.A. and M.S. in urban and regional planning require the following work.

CORE CURRICULUM

The core curriculum helps students develop an understanding of the institutions—social, economic, political, administrative, and legal systems—that provide the context for policy analysis and that constrain public choices. It also promotes development of the ability to identify social goals and normative criteria for evaluating public policies, as well as the analytic skills to perform such investigations.

The core requires a total of 23 s.h., including at least 3 s.h. in an advanced economic methods course. Early core courses are drawn primarily from traditional disciplines, particularly economics and statistics, and include an introduction to land use planning and to theories and practice of planning. As students proceed through the curriculum, increasing emphasis is placed on the development of critical judgment and insight, achieved through the application of theory and methods to realistic planning problems and case studies. The advanced economics methods course usually is taken during the first three semesters.

The core curriculum includes the following courses; students may request a waiver of selected core courses on the basis of previous course work.
write one. Students may register for up to 6 s.h. of thesis. A thesis is not required, although students may petition to substitutes for the internship and the capstone courses.

THESIS
Students may combine two concentration areas. Examples of combined areas are environmental and economic development planning, and transportation and community development planning. Students also may design other concentration areas, subject to faculty approval. For example, they may specialize in health services planning with appropriate course work in the Department of Health Management and Policy or Occupational and Environmental Health, or in human services planning with courses in the School of Social Work.

CONCENTRATION AREA
Beginning in the second semester, students choose a concentration area and develop it by applying the concepts and skills developed in the core. Currently, the school's faculty and course offerings support five concentration areas: transportation planning, housing and community development, economic development, land use and environmental planning, and geographic information systems.

Students complete at least 9 s.h. of courses in their concentration area. Courses offered by other University departments and programs may supplement those offered by the School of Urban and Regional Planning.

Students may combine two concentration areas. Examples of combined areas are environmental and economic development planning, and transportation and community development planning. Students also may design other concentration areas, subject to faculty approval. For example, they may specialize in health services planning with appropriate course work in the Department of Health Management and Policy or Occupational and Environmental Health, or in human services planning with courses in the School of Social Work.

CAPSTONE COURSES
Students complete the following two capstone courses, usually during the third and fourth semesters. Students who complete a practicum are exempt from this requirement.

102:209 (URP:6209) Field Problems in Planning I 3 s.h.
102:210 (URP:6210) Field Problems in Planning II 3 s.h.

INTERNSHIP
Students are encouraged to complete an internship in a planning agency or related organization. To earn 2 s.h. of credit for the internship, students must submit a brief paper summarizing and evaluating their experience. Internships usually are paid staff positions and are completed during the summer between the first and second years or during the academic year.

PRACTICUM
An extended internship, consisting of at least five months of full-time employment in a planning-related organization, may qualify as a practicum. A practicum generally takes place during summer after the first year and into the fall semester of the second year. It carries 5 s.h. of credit and substitutes for the internship and the capstone courses.

THESIS
A thesis is not required, although students may petition to write one. Students may register for up to 6 s.h. of thesis credit. In addition, they may take up to 8 s.h. of readings to develop a thesis topic and prepare a literature review.

FINAL EXAM
A final examination is required for all M.A. and M.S. students. An oral exam constitutes the final exam for students who do not write a thesis.

TYPICAL MASTER'S DEGREE SCHEDULE
First semester:

102:200 (URP:6200) Analytic Methods in Planning I 3 s.h.
102:202 (URP:6202) Land Use Planning: Law and Practice 4 s.h.
102:203 (URP:6203) History and Theories of Planning 3 s.h.
102:205 (URP:6205) Economics for Urban Planners 3 s.h.
102:208 (URP:6208) Program Seminar in Planning Practice 1 s.h.
102:248 (URP:6258) Modeling Dynamic Systems 3 s.h.

Second semester:

102:201 (URP:6201) Analytic Methods in Planning II 3 s.h.
Economic methods core course 3 s.h.
Electives and area of concentration courses 6-9 s.h.

Third semester:

102:209 (URP:6209) Field Problems in Planning I 3 s.h.
102:248 (URP:6258) Modeling Dynamic Systems 3 s.h.
Economic methods core course (if not already taken) 3 s.h.
Electives and area of concentration courses 3-6 s.h.

Fourth semester:

102:210 (URP:6210) Field Problems in Planning II 3 s.h.
Electives and area of concentration courses 9 s.h.

Joint Degrees
The School of Urban and Regional Planning participates in several joint degree programs, in which students work toward an M.A. or M.S. in urban and regional planning at the same time they work toward another degree. Joint degree programs enable students to earn both degrees in less time than it would take to earn the two degrees separately. The following joint degree programs are available.

Joint B.S.E. in civil engineering/M.A. or M.S. in urban and regional planning; see Bachelor of Science in Engineering (p. 814) and Civil and Environmental Engineering (p. 844) (College of Engineering) for information about the Bachelor of Science in Engineering.

Joint J.D./M.A. or M.S. in urban and regional planning; see College of Law (p. 962) for information about the Juris Doctor.

Joint M.H.A./M.A. or M.S. in urban and regional planning; see Health Management and Policy (p. 1164) (College of Public Health) for information about the Master of Health Administration.

Joint M.S. in occupational and environmental health/M.A. or M.S. in urban and regional planning; see Occupational and Environmental Health (p. 1178) (College of Public Health) for information about the Master of Science in occupational and environmental health.

Joint M.S.W./M.A. or M.S. in urban and regional planning; see Social Work (p. 555) (College of Liberal Arts and Sciences) for information about the Master of Social Work.

Requirements for each joint degree program vary, but urban and regional planning requirements in each
program include completion of at least 35 s.h. in School of Urban and Regional Planning courses [prefix 102 (URP)], completion of the concentration area requirement, and the master’s degree final examination.

Students who wish to enter a joint degree program must apply to each of the two degree programs separately; they must be admitted to both programs before they may be admitted to the joint program. Contact the admissions coordinator at the School of Urban and Regional Planning for more information about joint degree programs.

Related Certificate: Transportation Studies

The Transportation Studies Program offers the Certificate in Transportation Studies, which requires 18 s.h. of graduate credit. The program focuses on the varied and complex problems of transportation and on interdisciplinary approaches to addressing them. The Departments of Civil and Environmental Engineering, Mechanical and Industrial Engineering, and Geography and the School of Urban and Regional Planning participate in the program, which is administered by the Graduate College and the University’s Public Policy Center. See Transportation Studies (p. 953) (Graduate College) in the Catalog for more information about the certificate.

Admission

Admission to the School of Urban and Regional Planning is open to students from any undergraduate major or concentration area.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Admission is based on Graduate Record Examination (GRE) General Test scores (verbal, quantitative, and analytical writing), letters of recommendation, previous academic performance, and a written statement of purpose. International applicants whose first language is not English are required to submit official TOEFL scores.

Applicants should submit an application form, GRE General Test scores, TOEFL score (for students whose first language is not English), recommendation letters, statement of purpose, and transcripts. For fall admission, applications should be submitted to arrive early in the year (preferably by January 15), although applications are accepted until July 15 (April 15 for international students). Applications for spring admission should be received by October 1 and no later than December 1. Fall admission is strongly preferred. Students applying for financial aid should submit their materials by January 15.

Financial Support

Students in the School of Urban and Regional Planning receive financial support from the program primarily from teaching or research assistantships and from contract or grant-funded assistantships. Assistantships typically require 10 hours of work per week under the direction of a faculty member. A few full or partial tuition scholarships also are available.

Students initiate applications for financial support, and awards are made on the basis of merit, experience, and interests. Assistantships may be renewed for a total of up to four semesters.

Students applying for financial support are encouraged to submit application materials and requests for support by January 15. Students who apply after that date are considered only as remaining funds permit. Financial support usually is not available for students beginning the program in the spring semester.

Courses

102:101 (URP:3001) Planning Livable Cities 3 s.h.
Development of livable cities in the United States; economic, physical, environmental, and political forces that shape their growth; impact of planning, how it shapes the future of cities. Same as 044:136 (GEOG:3920).

102:125 (URP:4750) Environmental Impact Analysis 4 s.h.
Environmental impact assessment methodologies; emphasis on cost-benefit-risk, cost-effectiveness and incremental analysis, and overlay and graphic techniques; optimal resource use, system simulation; field trips to local environmental control facilities. Prerequisites: 044:019 (GEOG:1070). Same as 044:125 (GEOG:4750).

102:126 (URP:3126) International Perspectives: Xicotepec 3 s.h.
Introduction to providing service to communities in underdeveloped countries through discipline-specific projects to improve community life in Xicotepec, Mexico; cultural and professional preparation for team work in an international environment; service-learning course in collaboration with Rotary International. Spring break in Xicotepec, Mexico.

102:133 (URP:3350) Transportation Economics 3 s.h.
Overview of transportation markets—intercity, rural, urban; transportation modes—rail, highway, air, water, pipeline, transit; issues in finance, policy, planning, management, physical distribution, and environmental, economic, and safety regulation. Recommendations: 06E:101 (ECON:1100) and 06E:102 (ECON:1200). Same as 044:133 (GEOG:3940), 06E:145 (ECON:3750).

102:134 (URP:3134) Regional and Urban Economics 3 s.h.
Theory of location and regional development; central place theory; why cities exist and trade with one another; models of land use patterns, rents; empirical tests of models; policy applications. Prerequisites: 06E:101 (ECON:1100) and 06E:102 (ECON:1200). Same as 06E:135 (ECON:3340).

102:135 (URP:3135) Environmental and Natural Resource Economics 3 s.h.
Environmental and resource use problems; efficient mechanisms and other policies for environmental protection, management of common property resources. Prerequisites: 06E:101 (ECON:1100) and 06E:102 (ECON:1200). Same as 06E:133 (ECON:3330).
102:140 (URP:3140) Planning for Sustainability 2-3 s.h.
How planners are pursuing sustainable futures for cities and regions; green building, alternative forms of transportation, sustainable management of natural resources, renewable energy opportunities, urban form, natural hazard mitigation, waste management, smart growth; U.S. and international practice.

Common world water scarcity and water quality issues; economics that provide valuable insights and tools and help contribute solutions to problems; surface water allocation, ground water allocation, surface water quality issues derived from point and nonpoint source pollutants, and water demand; linear and nonlinear programming, cost-benefit analysis, regression analysis (emphasis on maximum likelihood estimation), and cost avoidance techniques.

102:162 (URP:4262) Transportation Demand Analysis 3 s.h.
City planning procedures and traffic engineering techniques applied to transportation problems; trip generation, distribution, assignment, mode choice models; travel surveys, data collection techniques; arterial flow, intersection performance, parking; transit system analysis. Same as 053:176 (CEE:4176).

102:170 (URP:4170) Megacities Seminar 1-3 s.h.
Global historical, political, economic, urban, and cultural aspects of megacity development; planning methods to address contemporary and emerging issues; critical analysis of peer-reviewed literature and computational simulations; topics include urban sprawl, poverty and inequality, economies, food scarcity, population growth, governance models, environmental and health concerns, sustainability.

102:195 (URP:4195) Public Transit Operations and Planning 3 s.h.
Bus, light and heavy rail, and paratransit modes; transit operations, planning, modeling and optimization, transit agency economics, transit finance, and evolving transportation policy; skills essential to planners and engineers who intend to work for a either planning agency, transportation provider, or a transportation or planning consulting firm; individual and group projects involving transit operations. Requirements: undergraduate or graduate standing in urban and regional planning graduate standing. Same as 053:167 (CEE:4167).

102:200 (URP:6200) Analytic Methods in Planning I 1-3 s.h.
Methods used in planning and policy analysis; emphasis on application of statistical techniques and quantitative reasoning to planning problems; use of computers and data systems in planning analysis.

102:201 (URP:6201) Analytic Methods in Planning II 2-3 s.h.
Integration of methods with the planning process; application of multiple regression, population estimation and projection, survey methods, time series analysis, industrial growth and change; presentation of results to decision makers and the public. Prerequisites: 102:200 (URP:6200).

102:202 (URP:6202) Land Use Planning: Law and Practice 4 s.h.
Legal, social foundations of land use planning; comprehensive planning, zoning and subdivision review; legal aspects of land use, environmental planning; ordinance drafting; staff report writing; citizen participation.

102:203 (URP:6203) History and Theories of Planning 3 s.h.
History of urban planning in America as a reflection of social and economic forces; alternative planning philosophies, roles, and ethical choices open to planners.

102:205 (URP:6205) Economics for Urban Planners 3 s.h.
Principles of economics for planners; concepts and techniques of microeconomic analysis; income inequality; the role of government in the economy; tax and pricing policy; project evaluation; externalities.

102:208 (URP:6208) Program Seminar in Planning Practice 1 s.h.
Planning process, roles of planners, professional ethics and standards.

102:209 (URP:6209) Field Problems in Planning I 3 s.h.
Experience working on a two-semester project involving a current planning issue, usually for a client. Requirements: urban and regional planning graduate standing.

102:210 (URP:6210) Field Problems in Planning II 3 s.h.

102:211 (URP:6211) Community Outreach Practicum 1-3 s.h.
Application of planning skills to community work by non-profit organizations in local area; urban planners contributing to their communities; community outreach.

102:215 (URP:6225) Applied GIS for Planners 3 s.h.
Analysis of Census of Population data using GIS software; data and analytical needs of urban planners; coverage of GIS topics to plan functions of GIS and spatial analysis, varied GIS software in a planning organization; structure of the Census.

102:216 (URP:6216) Conflict, Negotiation, and Planning 3 s.h.
Conflict within communities, and planners’ responses; networking, negotiating, mediating, coalition building, consensus building; case studies, role playing. Same as 160:216 (PORO:6216).

102:217 (URP:6227) Spatial Analysis in Planning 3 s.h.
Data bases, GIS, planning support systems; spatial model building and use of spatial statistics; applications to substantive problems in transportation, environment, housing, economic development. Prerequisites: 102:215 (URP:6225).
102:218 (URP:6228) GIS for Local Government  
1 s.h.  
Development, maintenance, and operation of an enterprise-wide Geographic Information System (GIS); implementation of a parcel-based data system model common to government entities; practical experience using data for land-use planning analysis.

102:219 (URP:6229) Practicum  
5 s.h.  
Full-time internship of at least five months with a planning-related organization. Requirements: urban and regional planning graduate standing.

102:220 (URP:6230) Virtual Reality and Urban Development  
3 s.h.  
Creation of terrain models from DEMs and CAD-based site plans, panoramas, incorporation of existing and proposed buildings into virtual reality models; use of VRML and presentation strategies, including digital movies.

102:222 (URP:6222) Urban Design for Non-Designers  
3 s.h.  
Principles of urban design and the importance of good, well thought out urban design; background in urban design for policy planners and non-designers; past, present, and future of urban design.

102:223 (URP:6233) Financing Local Government  
3 s.h.  
Financing of local government infrastructure through property taxes, bonding, impact fees, pricing, tax increment financing; institutional alternatives—downtown improvement districts, special districts, homeowners’ associations; fiscal disparities and regional finance; case studies. Prerequisites: 102:205 (URP:6205).

102:225 (URP:6235) Geodatabases and GIS  
1 s.h.  
Geodatabase implementation in the management of large GIS data sets. Prerequisites: 102:215 (URP:6225).

102:232 (URP:6242) Planning and City Administration  
1 s.h.  
Relationship of planners and other local government personnel; how planning fits into city management; city management view of local political process, provision of city services, finance and budgeting, human resources, intergovernmental relations, how meetings are run, dealing with the public.

102:233 (URP:6243) The Land Development Process  
3 s.h.  
How land is developed; analysis of site suitability, preparation of subdivision plan, site plan review, development approval process, infrastructure and site preparation, negotiating local development politics; field trips. Prerequisites: 102:202 (URP:6202).

102:235 (URP:6245) Growth Management  
3 s.h.  
Causes and consequences of urban sprawl, shortfalls in conventional land use planning; local and state growth management policies, techniques of policy implementation, positive and negative impacts of such policies; Smart Growth; emerging challenges. Prerequisites: 102:202 (URP:6202).

102:237 (URP:6337) Poverty, Planning, and Public Policy  
3 s.h.  
Interconnectedness of causes of poverty; operation and outcomes of federal and state antipoverty programs; impact of local planning policies and programs on low income population; ways in which planners in public agencies or advocacy organizations can work to alleviate poverty.

102:242 (URP:6252) Planning for Sustainable City--Regions  
3 s.h.  
Understanding and improving the practice of urban environmental planning; techniques and politics of planning drinking water supply, sewage treatment, natural areas conservation.

102:243 (URP:6253) Healthy Cities and the Environment  
3 s.h.  
Foundations of environmental planning for healthy cities and communities; how urban form, air and water quality, and natural hazards affect environmental planning and health.

102:246 (URP:6256) Environmental Policy  
3 s.h.  
Environmental policy formation and politics; comparative international perspective on the United States’ experience.

102:247 (URP:6257) Environmental Management  
3 s.h.  
Environmental best management practices for sustainable management of natural resources; open space and habitat protection, prairie and wetland restoration, water supplies management, natural hazard mitigation, farmland protection.

102:248 (URP:6258) Modeling Dynamic Systems  
3 s.h.  
Nonlinear dynamics in human-environment relationships; quantitative modeling of global environment processes; environment modeling for policy and land use planning; introduction to fundamentals of linked global-scale environment processes from a systems perspective, focus on historical and contemporary role of human activities in altering flows of energy and mass within the Earth system; hands-on simulation and group games to understand feedback loops in complex systems, with applications to land use, water, climate, ecosystems, and nutrient cycles across time and spatial scales; emphasis on quantifying effects of policies and planning on environmental change.

102:249 (URP:6249) Sustainability Seminar  
1 s.h.  
Focus of increasing interest for planning students and practicing planners; involves environmental effects, economy, social justice; discussion and investigation of sustainability practice applied to local and regional efforts of public and private entities; greater awareness and understanding of the effectiveness and resource requirements of local activities addressing sustainability; presentations by the instructor, local tours, guest lectures.

102:260 (URP:6260) Transportation Policy and Planning  
3 s.h.  
Institutional setting for transportation planning, evolution of domestic transportation policy, international influences, transportation modes and markets, current sources of transportation planning information, emerging policy issues.

102:263 (URP:6063) Application Simulation to Transportation  
3 s.h.
Transportation system management and traffic engineering; application of real-time simulation and visualization. Prerequisites: 053:063 (CEE:3763) or 053:163 (CEE:4763). Same as 053:263 (CEE:6763).

102:264 (URP:6264) Transportation Planning Process 2-3 s.h.
Technical issues, political interface, citizen involvement, intermodal questions, public versus private roles; review and critique of transportation plans.

102:265 (URP:6265) Planning Sustainable Transportation 3 s.h.
Theories and methods of exerting public control over passenger and freight transportation; social and environmental regulation; effects of changing finance, regulation, and pricing policies, including privatization, tolls, impact fees. Same as 044:265 (GEOG:6264).

102:266 (URP:6266) Transportation and Land Use Planning 3 s.h.
Policies and interactions between transportation and land use; location theories and practices; transportation infrastructure, land use, travel behavior modeling; current policies that influence travel behavior and urban form.

102:268 (URP:6268) Freight Transportation Planning 3-4 s.h.
Freight transportation planning in the United States; surface modes, primarily trucking and rail, as well as trade-offs in bulk movements by inland waterways and pipelines; comparison with recent developments in policy, planning, and practice for surface transportation in other developed economies (e.g., Europe).

102:269 (URP:6269) Transportation Program Seminar 1 s.h.
Transportation finance, safety and economic regulation, planning processes, management, government policy issues at federal, state, and local levels.

102:271 (URP:6271) Housing Policy 3 s.h.
Recent housing policy initiatives at federal, state, and local levels.

102:273 (URP:6273) Community Development 3 s.h.
Community Development Corporation involvement in housing and neighborhood revitalization; infill housing development and preservation; comprehensive community development initiatives.

102:277 (URP:6277) Affordable Housing Finance 3 s.h.
Financing development or rehabilitation of affordable housing; low-income housing tax credits, the housing finance system and current regulatory issues, mortgage discrimination, improving financing for rental housing.

102:278 (URP:6278) Nonprofit Organizational Effectiveness I 3 s.h.

102:279 (URP:6279) Nonprofit Organizational Effectiveness II 3 s.h.

102:280 (URP:6280) Planning for Disaster Mitigation and Recovery 2-3 s.h.
Types of disasters that communities face; what role planners play, what role should they play; importance of hazard mitigation and planning for post-disaster recovery; where planners’ unique skills play the most significant roles in aiding a community to redesign a safer future.

102:282 (URP:6282) Grant Writing 1-2 s.h.
Same as 042:282 (SSW:6282).

102:284 (URP:6284) Green Building and LEED 1-2 s.h.
Preparation to earn LEED Green Associate professional credential; introduction to green building concepts and strategies as they relate to the United States Green Building Council’s (USGBC) Leadership in Energy and Environmental Design (LEED) rating system.

102:290 (URP:6290) Economic Impact Assessment 3 s.h.
Economic impact and growth analysis, including economic base, income expenditure, input-output analysis; use of economic impact analysis in a cost-benefit context; industrial location and mobility theory with statistics applications. Prerequisites: 102:205 (URP:6205).

102:295 (URP:6295) Economic Development Policy 3 s.h.
Analysis of policies and programs at national, regional, state, and local levels that address problems of economic growth, development, decline.

102:297 (URP:6297) Community Development Finance 3 s.h.
Financial statements and small business finance; local revolving loan funds for small businesses; evaluation of loan proposals; community development agency financing of commercial redevelopment; case studies of community development lending. Prerequisites: 102:205 (URP:6205).

102:300 (URP:6300) Special Topics in Planning 1-3 s.h.

102:305 (URP:6305) Readings arr.

102:315 (URP:6315) Independent Study in Planning 1-6 s.h.
Research and analysis of a special planning problem; opportunity for student to apply knowledge in area of specialization.

102:320 (URP:6320) Introduction to Graphic Communications 2 s.h.
Visual communication techniques through use of print and digital media; how to graphically convey concepts and information to a variety of audiences; basic design principles to build a foundation in graphic communication; relationships between various software packages; advantages and shortcomings of various digital tools; development of professional graphic media that is beautiful and effective.

102:335 (URP:6335) Internship 2 s.h.
Work in a planning or related agency or nonprofit organization.

102:400 (URP:6400) Eco-Sensitive, Low-Cost Housing: The Kerala Experience 3 s.h.
Though quality housing is a basic human need, families worldwide don’t have it; significant socioeconomic, physical, and financial problems; scale of housing shortage greater in developing countries where governments and nonprofits are forced to devise ingenious, eco-sensitive, lower-cost development techniques; opportunity to visit India and learn about many such innovations; challenges of economic development, environmental protection, culture, politics, and uneven geography of opportunity in a developing country.
College of Law

Dean
- Gail B. Agrawal

Associate deans
- Eric G. Andersen, Arthur E. Bonfield, Carin N. Crain, Marcella David, Linda A. McGuire, Todd E. Pettys

Assistant deans
- Collins B. Byrd, Gordon S. Tribbey

Executive librarian
- Katherine Hall

Professors
- Patricia Acton, Gail B. Agrawal (F. Wendell Miller Professor), John S. Allen (Bouma Clinical Fellow), Eric G. Andersen, Patrick B. Bauer, Randall P. Bezanson (David H. Vernon Professor), Christina Bohannan (Lauridsen Family Fellow), Arthur E. Bonfield (Allan D. Vestal Chair), Willard L. Boyd (Rawlings-Miller Professor), Steven J. Burton (John F. Murray Professor), Jonathan C. Carlson (Victor and Carol Alvarez Fellow), Enrique R. Carrasco (Ferguson-Carlson Fellow), Lois K. Cox, Marcella David, Ann Laquer Estin (Aliber Family Chair), Thomas Gallanis (N. William Hines Chair), Josephine Gittler (Wiley B. Rutledge Professor), N. William Hines (Joseph F. Rosenfield Professor), Herbert J. Hovenkamp (Ben and Dorothy Willie Chair), Emily Hughes (Bouma Fellow), Carolyn C. Jones (F. Wendell Miller Professor), Sheldon F. Kurtz (Percy Bordwell Professor), Marc Linder, Robert Miller, Angela Onwuachi-Willig (Charles M. and Marion J. Kierscht Professor), Mark J. Osiel (Aliber Family Chair), Todd E. Pettys (H. Blair and Joan V. White Chair in Civil Litigation), John C. Reitz (Edward L. Carmody Professor), L. Song Richardson, Leonard Sandler, Barbara A. Schwartz, Alexander Somek (Charles E. Floete Chair), John-Mark Stensvaag (Charlotte and Frederick Hubbell Professor), James T. Tomkovicz (Edward F. Howrey Professor), Lea S. VanderVeide (Josephine R. Witte Chair), Gerald B. Wetlaufer, John Whiston (Herschel G. Langdon Clinical Professor), Adrien Wing (Bessie Dutton Murray Professor)

Associate professors
- Stella Elias, Paul Gowder, Amandeep S. Grewal, Barry D. Matsumoto, Jason Rantanen, Maya Steinitz, Joseph W. Yockey

Lecturers

Professors emeriti
- William G. Buss (Otis K. Patton Professor), Patricia Cain (Aliber Family Professor), Jean Love (Martha Ellen Tye Professor), Paul Neuhauser, Reta Noblett-Feld, Mark E. Schantz, Larry Ward (Orville L. and Ermina D. Dykstra Chair), Burns H. Weston (Bessie Dutton Murray Professor)

Professional degrees: J.D.; LL.M.
Web site: http://www.law.uiowa.edu/

The University of Iowa College of Law is the oldest law school west of the Mississippi River. Founded in 1865 as the Iowa Law School, the college is a charter member of the American Association of Law Schools and an American Bar Association-approved law school.

One of 12 colleges at The University of Iowa, the College of Law is part of Iowa City’s unique cultural community. Students, faculty, and staff work together in a friendly, relaxed, and productive environment that puts students’ needs first.

Longstanding commitment to inclusion and diversity is a source of pride for the College of Law, which was one of the first schools in the nation to grant a law degree to a woman (1873) and to an African-American (1879). Diversity is central to the college’s educational philosophy and to its core mission of preparing culturally proficient graduates who are capable of intellectual inquiry, critical and reflective thinking, and engagement.

Learn more about the College of Law’s history and its commitment to diversity and inclusion by visiting About Us, Milestones, and Diversity at Iowa Law on the college’s web site.

The college is at home in the Boyd Law Building, whose facilities were designed specifically for the school’s essential activities and services: classes and meetings, study and research, student-faculty interactions, clinical law and cocurricular programs, student organizations, writing resources, career consultation, and more. The Iowa Law Library has one of the largest collections of legal materials in the country, with an exceptional research collection of print and electronic resources relating to U.S. domestic law as well as international, foreign, and comparative law. Ample study space and wireless Internet access are available throughout the library. See "Boyd Law Building" and "Law Library" under "Facilities and Resources" later in this Catalog section.

Iowa’s challenging law school curriculum carefully balances substantive courses, perspective offerings, examination of ethical values and professionalism, and skills-training programs, including a highly active in-house legal clinic. The college’s 11-to-1 student-faculty ratio and the faculty’s open-door policy ensure that students have opportunities for interaction and collaboration with their law professors.

The college’s writing program—one of the strongest among law schools nationwide—is integral to all students’ academic experience. During both semesters of their first year, students take a small-section course in legal analysis, writing, and research. During the second and third years, they complete four additional writing units. Among opportunities for completing the writing requirement is work on one of the law school’s four student-run scholarly journals: Iowa Law Review, Journal

The Writing Resource Center supports and builds upon classroom writing instruction and assists students with a broad range of writing tasks. The center and the writing program as a whole exemplify the law school’s personalized attention and dedication to individual learning.

The College of Law offers a strong program of study in the rapidly expanding fields of international and comparative law and ensures that all of its students are exposed to international perspectives. In addition to promoting broad social awareness and technical professional competence, the study of international and comparative law provides a theoretical foundation essential for all lawyers by affording unique insight into the nature of law and legal process. It is crucial preparation for lawyers who engage in formulating public policy at all levels of society. It also provides a solid understanding of international law and foreign legal systems, which is fundamental for effective lawyers in an era of global interdependence.

Highlights of the college’s international and comparative law program are the Master of Laws (LL.M.) degree program (see “Master of Laws” later in this Catalog section), work on the journal Transnational Law & Contemporary Problems, and participation in the Philip C. Jessup International Moot Court Competition. Students also have opportunities for work related to international and comparative law at two faculty-run centers, the University of Iowa Center for Human Rights and the University of Iowa Center for International Finance and Development, and in student groups such as the International Law Society, the Society for International Human Rights Law at Iowa, and the Iowa Campaign for Human Rights.

Over the years, the college has enjoyed great success in preparing women and men to be professional and civic leaders. In the 20th century, Iowa graduates served as U.S. senators and representatives; state governors; federal and state judges; and presidents of the American Bar Association and the Association of American Law Schools. For this reason, students are expected to pursue their law training on a full-time basis. This policy is consistent with the accreditation standards of the American Bar Association and the Association of American Law Schools. In extraordinary circumstances, it may be possible for students to enroll for fewer than 10 s.h. per semester. Students who believe they may be unable to attend full time should contact the dean of students before registering for classes.

Professional Programs of Study
(J.D., LL.M.)

- Juris Doctor
- Master of Laws

The College of Law collaborates with a variety of University of Iowa graduate programs to offer joint J.D./graduate degree programs. See “Joint J.D./Graduate Degrees” later in this section.

Juris Doctor

The Juris Doctor requires 84 s.h. of credit. Entering first-year students must take all first-year courses and may not register for different courses or fewer semester hours without the dean of students’ permission. No student may enroll during any fall or spring semester for more than 15 s.h., or during any two adjacent summer sessions for more than 12 s.h., of credit that will be applied to the J.D. degree.

To be eligible for a J.D. degree, a student must:

- receive course credit for 84 s.h., including no more than 6 s.h. earned in cocurricular or non-law courses or activities;
- take and complete all required courses;
- satisfy the writing requirement;
- complete the course of study required for the degree in no fewer than 27 months and no more than 84 months after beginning law study at the College of Law or at a law school from which transfer credit has been accepted;
- achieve a cumulative g.p.a. of at least 2.10; and
- satisfy the requirement of receiving “substantial instruction in other professional skills generally regarded as necessary for effective and responsible participation in the legal profession,” as set forth in the American Bar Association’s Accreditation Standard 302(a)(4) and Standard Interpretations 302-2 and 302-3.

Receiving credit in a course is dependent upon successful completion of a final examination, or all assigned work, or both. Students must satisfy all requirements established by the instructor for class attendance, written work, special readings, oral reports, and so forth in order to take the final exam.

Full-time policy: The faculty believes that students receive a better legal education when they devote substantially all of their time to educational pursuits. For this reason, students are expected to pursue their law training on a full-time basis. This policy is consistent with the accreditation standards of the American Bar Association and the Association of American Law Schools. In extraordinary circumstances, it may be possible for students to enroll for fewer than 10 s.h. per semester. Students who believe they may be unable to attend full time should contact the dean of students before registering for classes.

Entrance date: Students enroll in late August, at the beginning of the fall semester. All students attend courses full time during fall and spring semesters and may attend the summer term at any point during their academic careers. Entrants may expect to graduate no earlier than 27 months after beginning law study.

Admission to the Iowa Bar: A rule adopted by the Iowa Supreme Court requires all law students who intend to apply for admission to the Iowa Bar to register that intention with the court; the deadline for timely registration is November 1 of the year the student begins law school. Details are available from the College of Law registrar or the clerk of the Iowa Supreme Court.

FIRST-YEAR CURRICULUM

The first-year curriculum emphasizes development of analytical skills, a sense of the role of legal institutions in society, and essential writing skills. Each course in the first-year curriculum shares these emphases and conveys substantive knowledge about a particular area of the law. Four courses during the first year are small-section courses. Two of the four (one each semester)
cover traditional first-year subjects—civil procedure, constitutional law, contracts, criminal law, property, torts—and have an enrollment of 40 students each. The other two are 091:130 (LAW:8032) Legal Analysis Writing and Research I (first semester) and 091:131 (LAW:8033) Legal Analysis Writing and Research II (second semester), which have an enrollment of approximately 20 students each.

First-year students take the following courses.

**Fall semester:**
- 091:102 (LAW:8026) Introduction to Law and Legal Reasoning 1 s.h.
- 091:120 (LAW:8017) Contracts 4 s.h.
- 091:130 (LAW:8032) Legal Analysis Writing and Research I 2 s.h.
- 091:132 (LAW:8037) Property 4 s.h.
- 091:364 (LAW:8046) Torts 4 s.h.

**Spring semester:**
- 091:104 (LAW:8006) Civil Procedure 4 s.h.
- 091:116 (LAW:8010) Constitutional Law I 3 s.h.
- 091:124 (LAW:8022) Criminal Law 3 s.h.
- 091:131 (LAW:8033) Legal Analysis Writing and Research II 2 s.h.
- Elective 3 s.h.

The two-semester sequence 091:130 (LAW:8032) and 091:131 (LAW:8033), called LAWR, is designed to equip students with effective skills in legal analysis, writing and oral communication (oral advocacy), and research.

LAWR develops students’ legal analysis skills throughout the year in connection with every assignment. Analytical skills include the ability to spot legal issues in a fact pattern; to identify legally relevant facts; to synthesize legal rules, principles, policies, and purposes found in the legal materials (e.g., precedents and statutes); and to understand and formulate legal arguments of different kinds.

LAWR develops students’ legal writing and oral advocacy skills. Legal writing centers on effectively communicating the legal analysis of a practical problem, whether the purpose is to predict what a court or other decision maker will do, to persuade someone to agree with the writer’s conclusions, or to decide a case and explain the decision. Oral advocacy skills center on using legal analysis to persuade someone, such as a judge, to reach a particular conclusion.

LAWR develops legal research skills. Legal research supports legal analysis primarily by identifying the legal materials, especially legal authorities, that form the basis of effective legal arguments and legal conclusions.

Students are expected to achieve the following objectives during the two-semester LAWR sequence:

- acquire the fundamentals of legal reasoning and analysis, including case analysis, fact analysis, application of law to facts, case synthesis, and analogizing and distinguishing cases;
- learn how to identify a legal problem and resolve it, as well as how to determine which facts in a fact pattern are legally significant;
- learn how to generate arguments and counterarguments;
- develop and employ basic research skills within a limited universe of research tools in order to locate cases and statutes from citations, to find cases on a given subject, to determine the present status of a case, and to exercise judgment in selecting the most appropriate cases from a larger pool of cases (first semester);
- develop and employ a full range of research skills through assignments that place no limitations on the type of research necessary for their completion (second semester);
- develop the ability to write legal documents, including objective memorandums and persuasive briefs, that are clear, concise, analytically sound, and well organized;
- become familiar with how to cite legal authorities properly and learn the appropriate style, tone, and diction for legal writing, depending on the audience;
- write an appellate brief;
- learn argumentative and persuasive legal writing; and
- craft and present a persuasive oral argument.

**SECOND- AND THIRD-YEAR CURRICULUM**

All students complete three specific required courses plus required writing units during the second and third years. Beyond that, they plan their own course of study for the two years, drawing from a rich menu of mainstream, specialized, clinical, and perspective courses. Second- and third-year courses cover the range of specialties within the legal profession, allowing students to explore and follow their professional interests in a particular career specialization, to write for one of the school’s four student-run scholarly journals, to pursue joint degrees in law-related graduate programs, or to simply obtain the widest possible exposure to the legal landscape.

All second- and third-year students must complete the following work.

- 091:232 (LAW:8280) Constitutional Law II 3 s.h.
- One course on legal ethics
- One course on professional skills
- Four writing units beyond the writing requirements of the first year

Writing units may be completed through a combination of courses and cocurricular programs that include a writing unit, such as seminar papers, independent research papers, clinical law programs, work on any of the college’s four journals, Moot Court Board, and advanced appellate advocacy activities. Two of the four writing units must be completed in courses (including seminars and clinical programs) or through independent research in which there is direct, ongoing faculty supervision.

**Course of Study Options for J.D. Students**

The College of Law offers numerous programs and opportunities that students may draw upon when planning their course of study.

**INTERNATIONAL AND COMPARATIVE LAW**

The college’s international and comparative law program is supported by more than 20 faculty members who maintain significant teaching and research interests in the field. The program features an extensive selection of courses and related academic activities; opportunities for study abroad; an innovative student/faculty journal; and several centers where research in international and comparative law is...
conducted. The Master of Laws (LL.M.) program draws scholars and visiting professors from around the world.

Additional resources include the Law Library, which maintains holdings of more than 165,000 volumes of international, comparative, and foreign law and a complete United Nations document collection on microfiche; and programming offered across the University by the UI International Programs office.

To learn more, see "Master of Laws" below and visit International and Comparative Law Program on the college’s web site.

**INNOVATION, BUSINESS, AND LAW**

The innovation, business, and law program integrates intellectual property, antitrust, and corporate law to provide a range of academic opportunities for students interested in those disciplines. Visit Innovation, Business, and Law Center to learn more. Not all courses listed on the site are offered every year.

**CONCENTRATED AREAS OF STUDY**

Students may pursue their interest in a particular subject area by selecting appropriate course work and independent research projects. For example, students interested in intellectual property and competition law may choose from the following courses.

<table>

**COLLEGE OF LAW SEMINARS**

Seminars are available for up to 4 s.h., unless noted otherwise. Seminar credit includes two writing units, but students may complete three writing units with the instructor’s approval. Seminar formats vary widely; students should check the course descriptions and consult with the instructor before registering.

Many seminars last two semesters. The first semester (usually fall) is the class portion of the seminar; students earn 2 s.h. for a workload equivalent to that of a 2 s.h. course. During the second semester of the seminar (usually spring), students write their papers, earning the remaining credit for the seminar.

Some instructors offer seminars that do not follow the fall-class/spring-writing format. Students may be convened for the seminar as if they were a legislative drafting committee, or they may be required to complete substantial research, drafting, and writing work over the entire year. The amount of credit for the seminar may be flexible or determined by the class as a whole. Seminars using this format may have required attendance and no-drop policies; students are strongly encouraged to learn what will be expected of them before registering for these seminars.

Papers produced for seminars or independent research may be eligible for entry in competitions, sometimes with cash prizes. Competition announcements are posted at the Writing Resource Center.

**CLINICAL LAW PROGRAMS**

Students who have completed the equivalent of three semesters toward the J.D. (at least 39 s.h.) are eligible to apply their theoretical knowledge to real cases and projects under the supervision of faculty members and other attorneys through participation in the College of Law’s Clinical Law Programs.

Clinical law programs reflect the richness and diversity of modern law practice and the College of Law’s commitment to clinical education. The clinical programs operate as areas of a law firm within the Boyd Law Building, giving students the opportunity to put their legal skills to use in a variety of practice areas and venues. Clinical law programs include the in-house clinic (internships), externships, and judicial externships.

**In-House Clinic**

Student interns work on cases supervised by full-time faculty members in the in-house clinic. The interns have primary responsibility for representing their clients at all stages of the legal process, including interviewing and counseling, negotiation, fact investigation, depositions, drafting and briefing, and courtroom appearances. Each semester, most interns have an opportunity to argue cases before various state and federal trial or appellate courts or before administrative agencies. Students also provide basic estate planning, document drafting, and other transactional services to clients. In some projects, interns partner with grassroots organizations, nonprofits, businesses, and public officials to solve recurring and systemic problems that cannot be addressed adequately through litigation or traditional legal methods.

Practice areas include consumer rights, criminal defense, disability rights and policy, domestic violence, immigration, international human rights, juvenile court matters, and workers’ rights; see Practice Areas on the Clinical Law Programs web site.

**Externships**

The College of Law policy on externships and summer legal placements is being revised. Contact the college for updated information.

The college offers an externship program that places students in a variety of legal settings. Externships arranged by the college’s law clinic are conducted under the direct supervision of staff attorneys; they also are supervised by College of Law faculty members. Other externships are supervised by College of Law faculty members and by on-site personnel.

Students have served clinical externships with judges in U.S. District Court, U.S. Magistrate Court, and U.S. Bankruptcy Court. They have worked in the offices of the U.S. Attorney for the Southern District of Iowa (Des Moines and Davenport), the Iowa Attorney General, the Youth Law Center (Des Moines), University of Iowa Student Legal Services (Iowa City), City Attorney of Iowa City, Federal Public Defender of Cedar Rapids, Iowa Legal Aid (Cedar Rapids and Iowa City), and HELP Legal Services.
(Davenport). Other externships have placed students in varied nonprofit, government, and judicial offices around the country.

Externship credit counts toward the maximum of 20 s.h. permitted for clinical externships, nonclinical externships, and non-law classes.

No student may count toward the J.D. degree more than 30 s.h. of credit earned in any combination of the following types of course work: non-law courses; clinical and nonclinical externships; independent research, supplementary writing, directed research and writing, and writing tutorial; and cocurricular programs. This rule applies to all J.D. students, including joint J.D./graduate degree students.

The College of Law also is involved in programs that do not offer academic credit. Each summer it participates in the County Attorney Internship Program, through which students work as paid employees for county attorneys throughout the state. The college also helps place students in a variety of unpaid clerkships and internships nationwide that provide insight into the workings of the legal system.

STUDY ABROAD

The College of Law administers a consortium of American law schools that offers a study abroad program at Florida State University’s London study center. Students spend spring semester at the center studying American and English law with faculty members from Iowa’s College of Law and the University of London. They may earn up to 15 s.h.; options include courses and an externship placement opportunity. Learn more about the program and how to apply at London Law Consortium.

Students may earn up to 8 s.h. of College of Law credit for intensive course work in Arcachon, France, for around four weeks in May and June. Courses are taught in English by College of Law professors and French instructors. Visit Summer Program in Arcachon, France to learn more about the program and how to apply.

The college participates in three exchange programs that permit students to earn 12-15 s.h. of credit through courses taught in English. Two students may attend the Universidade Católica Portuguesa School of Law (Lisbon campus) each fall semester; three students may attend Radboud University in Nijmegen, the Netherlands, during fall and spring semesters; and two students may attend the Peking University School of Transnational Law in Shenzhen, China. Learn more at the Católica University, Radboud University, and Peking University School of Transnational Law pages on the College’s Study Abroad web site.

LEARNING BEYOND THE CLASSROOM

In addition to the course of study options listed above, J.D. students have numerous opportunities to enhance and supplement their legal, learning, and professional skills outside the classroom setting. They may participate in the college’s cocurricular activities, which include four student-produced journals, Moot Court, and the Trial Advocacy Program. They also have access to opportunities and resources provided through the Academic Achievement Program, the Citizen Lawyer Program, and the Writing Resource Center. See “Academic Achievement Program,” “Citizen Lawyer Program,” and “Cocurricular Programs” below; see "Writing Resource Center" under "Facilities and Resources" toward the end of this Catalog section.

ACADEMIC ACHIEVEMENT PROGRAM

The College of Law Academic Achievement Program (AAP) helps students maximize their potential by developing the academic skills necessary for success in law school. AAP serves all J.D. students, with a special emphasis on helping first-year students as they make the transition from successful undergraduate careers to the unique challenges of studying law.

AAP coordinates a variety of presentations, many of which are part of a core program for first-year law students during the fall semester. Examples of content areas include time management for law study, outlining and organizing class notes and course materials, taking law school exams, and reviewing and learning from past exams. Several weeks before exams, a voluntary practice exam is administered. AAP staff members also provide students with individualized guidance in these areas. When personal issues affect a student’s academic success, the program provides direct help and refers students to University and community support resources.

CITIZEN LAWYER PROGRAM

The Citizen Lawyer Program (CLP) advances the College of Law’s teaching and service missions. CLP is a teaching platform that enables students to advance their development of knowledge, values, and skills central to law as a professional calling. By offering a wide variety of opportunities each year for pro bono work, community service, and programs focusing on the issues, skills, and values that are critical to personal and professional success, CLP extends legal education beyond classrooms and clinical programs while engaging students directly in serving the college’s mission of public service.

Cocurricular Programs

Students enrich their course of study by participating in the college’s cocurricular programs, which include Moot Court, the Trial Advocacy Program, and four student-produced journals. Students may apply a maximum of 6 s.h. earned in cocurricular programs and/or non-law classes toward the J.D. degree.

MOOT COURT

The Moot Court appellate advocacy programs familiarize students with writing appellate briefs, acquaints them with citation form, develops research skills, and strengthens persuasive ability in oral argument at the appellate court level.

Each academic year, the Moot Court office administers 091:210 (LAW:9010) Appellate Advocacy I in the fall semester and two Moot Court competitions in the spring semester. Students who rank in the top scoring positions of 091:210 (LAW:9010) are eligible for the advanced competitions in the spring semester. Advanced competitions include 091:404 (LAW:9021) Van Oosterhout Baskerville Moot Court Competition and 091:430 (LAW:9038) Jessup International Moot Court Competition.

The appellate advocacy program is administered by the Moot Court Board, which consists of student judges and an executive board.
TRIAL ADVOCACY
The Trial Advocacy Program is a student-run, faculty-supervised program in which students develop and refine skills used to prepare and try civil and criminal cases. The heart of the program is 091:370 (LAW:9060) Trial Advocacy, a 2 s.h. course taught by law school faculty, federal and state judges, and experienced trial attorneys. Students are on their feet during most class sessions, practicing the arts of jury selection, opening statement, direct and cross examination, introduction of exhibits, use of expert testimony, and closing argument. The course culminates with a full-scale trial—from the filing of pretrial motions to the rendering of a jury verdict—conducted by student cocounsel before a visiting judge and a jury of laypersons.

The Stephenson Competition is named after Judge Roy L. Stephenson, a U.S. District Court and Eighth Circuit Court of Appeals judge and a 1940 graduate of the College of Law. Students who demonstrate superior ability in advocacy skills during the trial advocacy courses participate in a series of mock trials judged by local members of the bench and bar. Individuals selected from the competition represent The University of Iowa in the national trial competition.

IOWA LAW REVIEW
Since its inception in 1915, the Iowa Law Review has served as a scholarly legal journal, noting and analyzing developments in the law and suggesting future paths for the law to follow. Students have managed the review since 1935, editing and publishing articles by professors and students. The Iowa Law Review is published five times annually and is staffed by second-year student writers and third-year editors. Its subscribers include legal practitioners and law libraries throughout the world. The review also publishes the Iowa Law Review Bulletin, an online companion that features responses to the pieces published in the review. To learn more, visit the Iowa Law Review web site.

JOURNAL OF CORPORATION LAW
The Journal of Corporation Law is the nation’s oldest and most cited student-published legal periodical specializing in corporate law. The journal’s scope includes antitrust, intellectual property, labor law, securities, taxation, employment discrimination, insurance, products liability, and regulated industries, as well as traditional corporate topics. Selected articles submitted by practitioners and academics are published in each of four annual issues. Several student articles also are selected for publication. The journal enjoys a worldwide audience.

All students who have completed two semesters of class work are eligible to write for the journal. Students who have achieved third-year standing at the College of Law are eligible for selection to the journal’s editorial board and may receive additional academic credit. They also may be eligible for a monetary stipend. See the Journal of Corporation Law web site.

JOURNAL OF GENDER, RACE & JUSTICE
The Journal of Gender, Race & Justice pushes the boundaries of legal scholarship and theory in its focus on social justice issues. The journal hosts a symposium at the College of Law every other year, bringing together nationally renowned legal scholars and practitioners to discuss the relationships among the law and race, gender, sex, sexual identity, economic class, ability, and other identity characteristics. The journal publishes an annual volume of legal works that includes symposium papers, papers from conferences outside the college, and articles written by Iowa law students. It also maintains a blog to promote discussion of issues related to its mission.

All students who have completed two semesters of law school, including transfer students, are eligible to write for the journal. Students who have completed the journal’s student writer program or who have third-year standing at the College of Law are eligible to apply for a position on the journal’s editorial board, which may provide a monetary stipend and academic credit. To learn more, visit the Journal of Gender, Race & Justice web site.

TRANSNATIONAL LAW & CONTEMPORARY PROBLEMS
Transnational Law & Contemporary Problems (TLCP) is published three times a year and is edited by Iowa law students. TLCP addresses issues and problems that transcend traditional political boundaries, that are of interest to the international and comparative law community, and that are not commonly found in other journals and reviews. Two issues each year take the form of a symposium addressing specific topics; these issues have a guest editor who is a legal scholar noted for his or her work on the symposium topic. The third issue is submission based. Every other year the journal organizes and sponsors a symposium on a contemporary international issue; past topics include climate change, the European Union’s sovereign debt crisis, and war crimes.

Law students who have completed at least two semesters of law school may earn up to 2 s.h. of credit by writing for TLCP. Highly qualified students who complete the writing and secondary hour requirements may be chosen to fill an editorial position, for which they earn additional credit. They also may be eligible for a monetary stipend. For more information, visit the Transnational Law & Contemporary Problems web site.

Joint J.D./Graduate Degrees
The College of Law and the Graduate College offer several joint degree programs in which students work toward the J.D. degree and a graduate degree concurrently. The College of Law may allow students to count up to 12 s.h. of applicable credit earned in the graduate degree program toward both the graduate degree and the J.D. degree, providing that students earn the graduate credit after they enroll in the College of Law. The individual graduate programs determine how much credit earned for the J.D. degree may be applied to the graduate degree. Contact the College of Law’s associate dean or registrar to learn more.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program. Applicants to graduate programs must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

The following academic units and programs collaborate with the College of Law to offer joint J.D./graduate degree programs: the Tippie College of Business (p. 621) and its Departments of Accounting (p. 626), Economics (p. 641),
Master of Laws

The Master of Laws (LL.M.) program in international and comparative law is an important component of the College of Law’s international approach to legal education. The program is designed for graduates of J.D. programs in the United States who wish to deepen their understanding of international and comparative law, including the law pertaining to international business transactions, and for foreign-trained jurists who wish to receive advanced training in these areas or a comparative orientation to and specific training in U.S. law and legal institutions.

The LL.M. program admits 10-15 students per year, allowing each student to receive substantial attention from the faculty. Admission is competitive.

The LL.M. requires a minimum of 24 s.h. earned in College of Law courses that include a strong focus on international and comparative law. With their advisor’s approval, LL.M. students may count up to 6 s.h. of law study abroad, or non-law graduate-level courses or externships, toward the degree.

LL.M. students take courses together with J.D. students, from the law school’s rich offerings on U.S., international, and comparative law. This method of instruction ensures that the foreign-trained students have an effective comparative experience through broad contact with U.S. law students and professors, and the U.S. students benefit similarly from close contact with the foreign-trained lawyers.

LL.M. applicants who are graduates of U.S. law schools must have been granted a J.D. from a school that is a member of the Association of American Law Schools or is approved by the American Bar Association. Graduates of foreign law schools must have completed the basic course of university studies that qualifies them to sit for the bar examination (e.g., the French maîtrise, the German first state bar examination). If the home country bar exam does not require a specific degree, applicants should be experienced members of the bar or have completed the equivalent of the first university degree in law. Applicants without a degree from a four-year English-language university must score at least 580 (paper-based) or 92 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score lower than 600 (paper-based) or 100 (Internet-based) may be required to take English language course work upon entering the University.

All applicants must present evidence of high academic potential, such as high class rank in their previous law studies; strong recommendations, especially from law professors who supervised their work in classes or seminars; and challenging professional work experience. The College of Law relies heavily on academic references to assess applicants’ credentials. Because U.S. applicants and all others with first-language fluency in English are required to produce a substantial publishable paper in the program, these applicants must show evidence of ability to carry out complex research and writing projects.

Academic Recognition

Order of the Coif

The Order of the Coif, a national legal honor society, has a chapter at The University of Iowa. The order is dedicated to scholarship and advancement of high ethical standards in the legal profession. Membership is drawn from the top 10 percent of the graduating class. Initiates are selected by the faculty after graduation.

Prizes and Awards

Hancher-Finkbine Medallions are awarded each year by the University to outstanding graduates; honorees are chosen from nominations made by University departments and colleges based on learning, leadership, and loyalty.

The Philip G. Hubbard Human Rights Award is presented each year by the University to recognize outstanding contributions to human rights and equal opportunity, as described in the University’s Human Rights Policy.

The Willard L. "Sandy" Boyd Prize is presented to a student who has demonstrated outstanding ability and creativity in the development of written legal scholarship.

The Alan I. Widiss Faculty Scholar Award is presented to a student who has made an especially outstanding and distinctive contribution to the development of written legal scholarship.

The Randy J. Holland Award for Corporate Scholarships is presented to a student who has written an outstanding scholarly paper in the area of corporate law.

The Robert S. Hunt Legal History Award is presented to a student who has written an outstanding scholarly paper in the field of legal history.

The Outstanding Scholastic Achievement Award recognizes four graduates for outstanding performance in the college’s academic and cocurricular programs.

The Judge William C. Stuart Award is presented to a third-year student who ranks in the top 10 percent of his
or her class and is recommended based on integrity and constitutional principles.

The Innovation, Business, and Law Excellence Award is given to two graduating students who have shown interest and excellence across disciplines of intellectual property, business law, antitrust and competition law, and health law and technology; or have done outstanding work in one innovation, business, and law subject matter area.

The Donald P. Lay Faculty Recognition Award is presented to a student who has made distinctive contributions to the College of Law’s cocurricular, community, or education programs.

The Iowa State Bar Association Prize is presented to a student who possesses the attitude, ability, and other qualities that indicate success as a future leader of the bar association.

The Antonia "D.J." Miller Award for Advancement of Human Rights recognizes outstanding contributions by a student to the advancement of human rights in the law school community.

The Dean’s Achievement Award is presented each year to a student, who, through his or her achievements, has exemplified, promoted, or contributed to cultural, racial, or ethnic diversity in the law school.

The National Association of Women Lawyers Award is presented to a student who contributes to the advancement of women in society and women in the legal profession and who also has attained high academic achievement.

The Erich D. Mathias Award for International Social Justice is presented to a student who has made an outstanding contribution or demonstrated commitment to attaining international social justice.

The John F. Murray Award recognizes the student with the highest academic standing in the graduating class.

The ALI-ABA Scholarship and Leadership Award is presented to a student who represents an outstanding combination of scholarship and leadership, the qualities embodied by the American Law Institute and the American Bar Association.

The Russell Goldman Award recognizes the student who has demonstrated the most improved academic performance after the first year.

The Iowa College of Law Appellate Advocacy Award is presented to a student for outstanding achievement in and service to the appellate advocacy program.

The Iowa Academy of Trial Lawyers Award is presented to a student for outstanding achievement in the Roy L. Stephenson Trial Advocacy Competition.

The International Academy of Trial Lawyers Award is presented to a student who has demonstrated distinction in trial advocacy skills.

The Michelle R. Bennett Client Representation Award recognizes outstanding service in the college’s clinical law programs.

The ABA/BNA Award for Excellence in the Study of Intellectual Property is presented to a student who has demonstrated excellence in the study of intellectual property law.

The American Bankruptcy Institute Medal for Excellence in Bankruptcy Studies is presented to a student who has demonstrated excellence in the field of bankruptcy.

**Student Organizations**

Link to the student organizations’ web sites on the college’s Journals & Student Groups web page.

The Alternative Dispute Resolution Society promotes awareness of varied alternative dispute resolution processes, including arbitration, mediation, and other forms of negotiation; explores legal and other careers in alternative dispute resolution; and equips students with the knowledge and practical skills necessary for effective participation in alternative dispute resolution.

The American Constitution Society (ACS) is a new nonpartisan organization whose goal is to foster discussion of important issues of law and policy.

The Asian Pacific American Law Students Association (APALSA) seeks to promote the field of law among Asians and encourage Asians to enter the field; to improve legal services to Asians; to assist Asians in legal matters; and to educate Asians in the social and ethical obligations of the law.

The Iowa chapter of the Black Law Students Association (BLSA) focuses on the relationship of black attorneys to the American legal structure and works to foster an attitude of professional competence. BLSA strives to promote the needs and goals of black law students, instill a greater awareness among law students of the needs of the black community, and encourage a greater commitment toward meeting those needs. The chapter seeks involvement in the local community and in recruitment programs. Membership is open to all students who support the association’s goals.

The Christian Legal Society maintains a Christian law fellowship at the College of Law whose mission is to enable its members to love their Lord and to love their neighbors as themselves.

The Environmental Law Society provides an educational forum for environmental law topics. During spring semester, the organization sponsors a lecture series featuring professors and experts in environmental law. The group also provides limited legal research and counseling services for attorneys, organizations, and citizens who have questions concerning environmental law. Membership is open to all College of Law students.

The Equal Justice Foundation (EJF) supports public interest law concerns, with emphasis on promoting equal access and adequate representation in the courts and other forums for citizens and citizens’ groups. The University of Iowa chapter’s professional activities are aligned with those of the national organization. They include work in varied legal activities statewide; College of Law activities, including coordination with other student organizations to provide the college with a better public interest support base; promotion of public interest career opportunities; and provision of information about public interest activities and concerns. Membership is open to all College of Law students.

The Federalist Society fosters critical thought and debate about the application of conservative and
libertarian principles to the law. Its mission is to promote, advocate, and defend its founding principles and further their application through its activities, which are aimed at reordering the legal system’s priorities to place a premium on individual liberty and the rule of law, and restoring recognition of those principles among law students, faculty members, lawyers, and judges.

The Intellectual Property Law Society (IPLS) promotes exploration of traditional areas of intellectual property law (patent, trademark, copyright) and related areas such as antitrust and entertainment law. The society provides a forum for faculty and student discussion of contemporary issues relating to intellectual property law and its practice; fosters interaction between law students and intellectual property law practitioners through a mentor program that pairs members with intellectual property law practitioners; and offers symposia. All members of the University community are welcome to attend a Society meeting or symposium.

The International Law Society aims to increase student and faculty awareness of international law and related issues. The society’s brown bag lunch lecture series and annual spring conference expose students and faculty to a wide variety of contemporary legal issues surrounding the study and practice of international law. Members also work to support the activities of the University of Iowa Center for Human Rights; promote the Iowa-Arcachon, France, summer program in comparative and international law; participate in the annual Philip C. Jessup International Moot Court Competition; and bring together faculty members and students who share an interest in international affairs.

The Iowa Campaign for Human Rights (ICHR) promotes human rights awareness and education at the College of Law, among University of Iowa students, and across the Iowa City community.

The Iowa Student Bar Association (ISBA) acts as the College of Law’s student government. Governed by an executive council, the association provides a collective voice for the student body and a source of organization and funding for a variety of college activities and programs. Law students may get involved with the association by serving as class representatives or on faculty-student committees, which deal with admissions, curriculum, financial aid, placement, and so forth. The association presents speakers, sponsors events with other organizations, publishes a newsletter, and sponsors social events. Its legal guardian program assigns entering law students to upperclass students, who provide encouragement and information.

The J. Reuben Clark Law Society emphasizes three basic values and attitudes toward the practice of law and the place of law in modern society: public service, loyalty to the rule of the law and the Constitution of the United States, and appreciation for the religious dimension in American society and in lawyers’ personal lives.

The Jewish Law School Association (JLSA) strives to provide social, educational, religious, political, cultural, and professional resources and opportunities for all Jewish law students at Iowa. The society educates and involves its members in the social, moral, and ethical obligations of the profession; plans and implements programming to facilitate a sense of community among Jewish law students; and raises awareness of Jewish cultural and educational issues at the college.

The Latino/a Law Student Association (LLSA) promotes viable changes within existing legal institutions in order to develop constructive legal and community programs, produce competent and effective Latino and Latina attorneys, and utilize available resources—activities necessary to safeguard and advance the rights and opportunities of oppressed peoples. To achieve these goals, LLSA recruits for the law school. LLSA’s philosophy is that national unity is fundamental for the collective awareness needed to bring about progressive policies in legal education. The association welcomes all students.

Law Students for Reproductive Justice (LSRJ) is committed to increasing education and professional training in reproductive rights law. The society supports Iowa law student activism, advocacy, and networking in order to ensure that new lawyers can successfully defend and expand family planning rights and reproductive freedoms.

The Middle Eastern Legal Student Association (MELSA) aims to increase student and faculty awareness of issues pertaining to the Middle East and how they affect the legal profession.

The Military and National Security Law Society educates and informs Iowa law students about the practice of military and national security law.

The Native American Law Students Association (NALSA) promotes awareness of legal, political, cultural, and social issues that affect Native Americans, Alaskan Natives, Native Hawaiians, and other indigenous peoples. NALSA also seeks to promote the study of federal Indian law and provides a forum for the exploration of issues in tribal sovereignty, natural resources, family law, trust obligations, and cultural identity.

The Organization for Women Law Students and Staff (OWLSS) aims to address the changing needs and problems of women in the legal profession and to develop, recommend, and implement new programs, especially those that meet the needs of women at the College of Law. It also sponsors programs of interest to the general law school community. OWLSS has sponsored fall recruitment of prospective women law students, a safety-in-numbers program, brown bag lunches with guest speakers, sponsorship of members to the annual National Women and the Law Conference, a support network, a regular newsletter, and joint programs with women student groups in medicine and dentistry. Membership is open to all College of Law students, faculty members, and staff members.

The Outlaws provides a common forum for gay, lesbian, bisexual, and transgendered persons interested in the law, and promotes a climate of mutual support, protection, and professional advancement. Membership is open to all College of Law students and faculty members.

Founded in 1902, Phi Alpha Delta (PADS) is the nation’s oldest and largest law fraternity. It was the first law fraternity to remove membership restrictions based on race, color, creed, national origin, and grade-point average. Iowa’s Hammond Chapter was established in 1908 and became the first PADS chapter to accept students of all races and religions. It participates in fundraisers and other service projects to benefit local and national service organizations. Membership is open to all College of Law students.
Phi Delta Phi (PHIDS) promotes the highest standards of ethics and professionalism in law schools and the legal profession. Since its establishment in 1869, the fraternity has initiated more than 200,000 members. It has more judges, American presidents, governors, senators, representatives, and cabinet members among its membership than does any other legal fraternity.

The Pro Bono Society exists to reinforce the value of public service and volunteerism in the legal profession. Membership in the Pro Bono Society is earned through objectively measured activities during the academic year. Iowa law students who complete and report 15 hours of voluntary public service in each of two consecutive semesters are considered for membership. Time donated to a charitable or public service cause, which may be law-related or not, is considered voluntary public service; the requirement is interpreted broadly, so that students may volunteer in an area of interest to them. Members receive a certificate of membership and are invited to attend the annual recognition dinner. The society is a project of the Iowa Student Bar Association.

The Sports Law Society connects College of Law students interested in sports law with professionals in the sports industry. Membership is open to all College of Law students.

Admission

Undergraduate Education and Law School

Applicants for admission to the University of Iowa College of Law must complete all requirements for the baccalaureate degree before beginning law school. In addition, the baccalaureate degree must be earned from an undergraduate institution that is accredited by an accrediting agency recognized by the U.S. Department of Education. This is in line with standards set by the American Bar Association, the college's primary accrediting agency.

Fulfillment of the basic requirements does not guarantee admission. The College of Law Admissions Committee selects applicants it deems best able to help the college fulfill its primary mission of providing a high quality legal education in a diverse and stimulating environment and preparing students to serve as leaders in their professional and civic communities. Some additional consideration is given to applicants who are residents of Iowa.

The services that College of Law graduates are called upon to perform are so varied, and the possible fields of endeavor so broad and diverse, that the college prescribes no uniform undergraduate program for those planning to enter law school. With the assistance of faculty advisors, each student should develop an undergraduate program that explores and develops that student’s particular intellectual interests. Reading, writing, research, public speaking, critical thinking, and a healthy respect for the historical perspective are important academic skills for students considering law school.

Iowa strongly endorses the three basic objectives recommended by a committee of the Association of American Law Schools: education for comprehension and expression in words; education for a critical understanding of the human institutions and values with which the law deals; and education for greater power in thinking. Anyone thinking of attending law school should keep these objectives in mind while planning an undergraduate course of study.

The association's recommendations emphasize that undergraduate education of students for a full life through liberal education is far more important than education directed too pointedly toward later professional training and practice. Students are urged not to sacrifice broad perspective for detailed specialization.

Undergraduate 3+3 Admission

Ordinarily, applicants for admission to the University of Iowa College of Law must complete all requirements for the baccalaureate degree before beginning law school. The baccalaureate degree must be earned from an undergraduate institution that is accredited by an accrediting agency recognized by the U.S. Department of Education. This is in line with standards set by the American Bar Association, the college's primary accrediting agency.

The college has approved a "3+3" admissions program in which undergraduate students enrolled at participating institutions and departments may enter law school after their junior year of undergraduate study, with the first year of law school completing the requirements of the baccalaureate degree. Contact the College of Law registrar or dean of students for more information.

Selection of Applicants

The college uses multiple criteria in evaluating applicants for admission. Part of the entering class is admitted under a "presumptive admit" process, in which the faculty admissions committee admits students primarily, but not solely, on the strength of their numbers, namely the cumulative undergraduate grade-point average and LSAT score (see "Law School Admission Test" below). Before admission offers are made, each applicant's complete file is reviewed to ensure that the overall record suggests the applicant's suitability for admission, in keeping with the primary mission of the law school.

Although undergraduate academic record and performance on the LSAT are both important admission criteria, the college recognizes that in some circumstances they do not accurately reflect an applicant's potential to succeed in the study of law, develop skills as a leader, enrich the learning environment of his or her fellow students, and serve the public interest as a lawyer.

To evaluate applicants' total suitability for admission, the college has developed a "numbers-plus" admissions policy, under which each entering class is admitted. Under the "numbers-plus" policy, undergraduate record and LSAT scores are supplemented by nonquantifiable factors that may provide insight to an applicant's overall potential for success in the study and practice of law.

For example, an applicant who can substantiate that his or her standardized test scores are not predictive of academic performance in law school may receive proportionately greater consideration from the committee for his or her grade-point average. Other factors the committee may consider include special academic or professional abilities not reflected in the grade-point average, disability or serious health factors that affected prior academic performance, extracurricular activities, exceptional school-year work commitments due to family financial circumstances, postbaccalaureate
academic success (including graduate study), law-related employment experience, public service commitment, leadership in groups historically underrepresented in the legal profession, educational or socioeconomic disadvantage, native language other than English, unusual motivation or perseverance in overcoming obstacles to law study, and any other information the committee considers relevant to the applicant’s potential for law study.

Candidates who wish to bring such factors to the committee’s attention may do so by including addenda and other documentation with their applications.

Entrance Date
Admission is for August. Applications are accepted beginning September 1 of the year before admission, with an application deadline of March 1 in the year of admission. Because the college has a rolling admissions process, applicants are encouraged to submit their applications as early as possible.

Each application must include an application fee, which is nonrefundable. Students from disadvantaged backgrounds who cannot afford the fee should apply for a waiver. Students who seek a waiver must submit a written request and a recent FAFSA or income tax statement along with their application.

For additional information, visit the College of Law Office of Admissions web site, which provides the office’s e-mail address and other contact information, and see the Iowa Graduate Admissions web site.

Application Process
CAS REPORT AND TRANSCRIPTS
The University of Iowa College of Law participates in the Credential Assembly Service (CAS). Applicants must register for this service through the Law School Admission Council (LSAC); foreign-educated applicants are exempt from this requirement. Prospective law applicants can find the information they need to complete their application for admission to the law school in the council’s free annual publication, Law School Admission Information Book, and on LSAC’s web site. It takes approximately one week from the time the College of Law requests the CAS report until it arrives.

Applicants whose fall course work does not appear on the Credential Assembly Service report should send an official transcript of that course work to CAS.

Applicants are responsible for submitting an official transcript from each college or university they have attended to Law School Admission Council, Box 2000, Newtown, PA 18940-0998.

Each applicant’s undergraduate institution must forward the applicant’s class rank or the grade distribution for the applicant’s class to the College of Law, if such information is available. Information about class rank is helpful in the applicant’s class to the College of Law, if such information is available. Information about class rank is helpful in the application process, but not required. Currently enrolled or former University of Iowa students need not provide this information.

Before classes begin, every applicant who accepts admission to the College of Law must file official transcripts showing conferral of degree with the University’s Office of Admissions.

LETTERS OF RECOMMENDATION
The college requires applicants to submit at least two, but not more than three, letters of recommendation. Recommendations from professors or others who can comment on the candidate’s critical thinking, writing skills, and potential for success in law school are particularly welcome.

The college participates in the Letter of Recommendation Service offered by the Law School Admission Council. A letter of recommendation form can be downloaded on the council’s web site. Individuals writing letters of recommendation should send their letters, with the required forms, to Law School Admission Council, P.O. Box 8508, Newtown, PA 18940-8508.

LAW SCHOOL ADMISSION TEST
Applicants for admission must take the Law School Admission Test (LSAT). The test is given several times each year and may be taken at numerous locations in the United States and abroad. Test application forms may be obtained from the Law School Admission Council.

Applicants are urged to take the test no later than the fall preceding the fall semester for which they are applying. Applicants’ LSAT scores may not be available until approximately four weeks after their test date.

The February test date is the last one that the admissions committee can consider for applicants requesting admission the following fall. Scores more than five years old are not accepted.

Applicants whose first language is not English must take the Test of English as a Foreign Language (TOEFL) or the International English Testing System (IELTS) exam.

DEFERRALS
Admission is for the year of application; deferrals are granted only in extraordinary circumstances.

DEPOSIT UPON ACCEPTANCE
All applicants must make a nonrefundable deposit of $250 (U.S.). Fall entrants accepted before March 15 must submit the deposit by April 1; those accepted after March 15 have two weeks to submit the deposit.

Fall entrants must pay a second nonrefundable deposit of $150 (U.S.) by June 1.

For those who enroll, the deposit is credited toward tuition and fees. All accepted applicants, including recipients of scholarships, fellowships, and loans, are required to pay the deposit. Applicants who fail to make the deposit by the specified time forfeit their place in the entering class.

Financial Support
The College of Law administers its substantial scholarships and fellowships to advance the goals of its selective admission policy and to provide access to legal education for the talented and diverse students admitted to the college. Inquiries regarding financial aid should be directed either to the University’s Office of Student Financial Aid or to the College of Law Office of Financial Aid. All financial aid information is subject to change without notice.

Application for Financial Aid
Eligibility for federal loans is based on need established by completion of the Free Application for Federal Student Aid Information Book and a recent FAFSA or income tax statement along with their application.

For additional information, visit the College of Law Office of Admissions web site, which provides the office’s e-mail address and other contact information, and see the Iowa Graduate Admissions web site.
Scholarships, Fellowships

**MERIT-BASED SUPPORT**
All students admitted to the College of Law are considered for merit-based scholarships and fellowships based on their academic achievement. A separate application is not required. Recipients are notified by letter. Awards may range from $500 to full tuition with a research assistantship component in upper-level years.

**NEED-BASED SCHOLARSHIPS**
All admitted students who file a Free Application for Federal Student Aid (FAFSA) and required supporting documents are considered automatically for need-based scholarships. Recipients are notified by award letter. Awards may range from $500 to full tuition.

**IOWA LAW SCHOOL FOUNDATION SCHOLARSHIPS**
The University of Iowa Law School Foundation Scholarships include scholarships based on need, merit, or a combination of need and merit. These scholarships are available to a limited number of students who meet the criteria established by the scholarship donors. All admitted students are considered for the merit-based scholarships, and all admitted students who file the FAFSA and required supporting documents are considered automatically for the need-based scholarships. A separate application is not required. Recipients are notified by award letter. Awards may range from $500 to full tuition.

**LAW OPPORTUNITY FELLOWSHIP**
The College of Law is committed to affording opportunity for a legal career to persons historically underrepresented in the legal profession. The Law Opportunity Fellowship Program was established by the University to provide access to law school for students from groups and backgrounds historically underrepresented within the legal community. Among criteria considered in awarding the fellowships are educationally and/or socioeconomically disadvantaged backgrounds, leadership potential, academic merit, and importance of the fellowship award to the student’s financial ability to attend law school.

The Law Opportunity Fellowship may provide up to full tuition for three years and the opportunity to hold a research assistant position for the second and third years. All admitted students who file the FAFSA and required supporting documents are considered for the Law Opportunity Fellowship. A separate application is not required. Recipients are notified by award letter.

**Employment**
The College of Law does not employ students during their first year of law school, due to the intensive course schedule. In no event may a full-time student work more than 20 hours per week.

**RESEARCH ASSISTANT POSITIONS**
Research assistant positions are available with many faculty members for second- and third-year students. Students classified as nonresidents who hold one-quarter-time research assistantships (10 hours per week) automatically qualify for resident tuition status during the semester(s) in which they serve as research assistants; see Research Assistantships on the college’s web site.

**UI PART-TIME EMPLOYMENT**
The University offers a variety of part-time employment positions for students. Students do not need to apply for financial aid in order to work in these positions. Information about part-time employment is available from the University’s Office of Student Financial Aid.

**FEDERAL WORK-STUDY PROGRAM**
The Federal Work-Study Program provides a need-based employment opportunity for a limited number of students in their second and/or third year at the law college. College Work-Study may reduce the student’s William D. Ford Federal Direct Loan eligibility. Students must demonstrate financial eligibility for work-study through the FAFSA and its required documents.

**Loans**
All admitted students who file the FAFSA and required supporting documents are considered for the Federal Perkins Loan and the William D. Ford Federal Direct Loans.

**FEDERAL PERKINS LOAN**
The Federal Perkins Loan is a low-interest loan based on exceptional financial need. Interest does not accrue and payments are not required until the student is no longer enrolled at least half-time in school.

**FEDERAL DIRECT FORD/STAFFORD LOANS, FEDERAL GRADUATE/PROFESSIONAL PLUS LOANS**
The Federal Direct Ford/Stafford Loans (unsubsidized) and the Federal Graduate/Professional PLUS Loans are funded by the federal government. The two loan programs have different interest rates and interest subsidies based on annual maximum loan amounts. Interest on the Unsubsidized Direct Stafford Loan and the Graduate/Professional PLUS Loan accrues while a student is in school, but principal and interest payments may be deferred while a student is in school. Eligibility for the Graduate/Professional PLUS Loan also includes a determination that the applicant does not have an adverse credit history.
Academic Rules and Procedures

Academic Advising

The senior associate dean works with the dean on academic programs and issues of the law school.

The associate dean for student affairs provides academic advice and counseling to students; advocates for student concerns; offers information and makes referrals for students with professional, personal, or family problems; facilitates operation of the student discipline system; and arranges reasonable accommodations for disabled students. The associate dean for student affairs also advises law students pursuing combined degrees in University of Iowa graduate programs and serves as the liaison with those programs.

Each year one or two tenured faculty members are selected by the Iowa Student Bar Association to serve as College of Law ombudspersons. Students who have a problem or grievance should seek an ombudsperson’s help. All complaints are handled in strict confidence.

The College of Law registrar is in charge of student record keeping and should be students’ first recourse for information about course enrollment, scheduling, joint degree program status, registration, grades, student certification for state bar applications, and progress toward graduation.

The Student Affairs Committee reviews and makes proposals for policies affecting students. It considers the college’s efforts to recruit and provide services for students, including nontraditional students and those from disadvantaged backgrounds. It provides policy guidance and general oversight for the college’s career services and its Academic Achievement Program, and it coordinates and reviews the college’s methods for providing academic and curricular counseling to students. The committee also advises the dean on curricular counseling for students.

Transfer Credit

No more than 28 s.h. may be transferred to Iowa from another law school. To qualify for transfer credit, courses must have been completed at a law school accredited by the American Bar Association. Grades received at another law school are not counted in calculating the cumulative grade-point average.

Courses Taken Before Admission to the College of Law

Students may not count toward the J.D. any credit they earned in courses they took before matriculating at the College of Law, with the exception of transfer students from other law schools.

Courses Taken Outside the College of Law

Students who take courses outside the College of Law must first obtain permission from the dean of students. If “special permission of the instructor required” is indicated on ISIS (Iowa Student Information Services web site), the student also must obtain the instructor’s permission.

Students not enrolled in a joint degree program may apply toward the J.D. a maximum of 6 s.h. earned in courses outside the College of Law and/or through cocurricular work. Such courses are approved only if they contribute directly to the professional competence of an attorney or broaden the student’s understanding of law, the legal process, or any particular legal subject. More information about limitations on accreditation of non-College of Law courses is available from the dean of students.

Transfer of Credit after Admission

With the permission of the associate dean, enrolled students may receive credit for courses taken and passed at other law schools accredited by the American Bar Association, up to a maximum of 34 s.h. Courses are shown on the student’s transcript as credit for the designated semester hours. Grades received at another law school are not counted in the student’s weighted cumulative grade-point average.

Grading Policy

The College of Law has adopted a numbering system for grading, effective for students who entered the college in May 2004 and later.

A numerical grade is assigned to each student in each course, except as otherwise provided (e.g., for courses graded pass/fail, for courses that continue the following term, for grades of incomplete). Grades are recorded in the University’s permanent record.

The highest grade awarded at the College of Law is 4.3, the lowest 1.5. No academic credit is given for grades below 1.8 or for grades of “fail.”

Numerical grades may be translated into a letter grade as follows.

<table>
<thead>
<tr>
<th>Numerical Grade</th>
<th>Corresponding Letter Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.3-4.2</td>
<td>A+</td>
</tr>
<tr>
<td>4.1-3.9</td>
<td>A</td>
</tr>
<tr>
<td>3.8-3.6</td>
<td>A-</td>
</tr>
<tr>
<td>3.5-3.3</td>
<td>B+</td>
</tr>
<tr>
<td>3.2-3.0</td>
<td>B</td>
</tr>
<tr>
<td>2.9-2.7</td>
<td>B-</td>
</tr>
<tr>
<td>2.6-2.4</td>
<td>C</td>
</tr>
<tr>
<td>2.3-2.1</td>
<td>C-</td>
</tr>
<tr>
<td>2.0-1.8</td>
<td>D</td>
</tr>
<tr>
<td>1.7-1.5</td>
<td>F</td>
</tr>
</tbody>
</table>

Professors may disenroll students for cause or reduce grades for inappropriate academic conduct, for example, plagiarism. Such measures are subject to appropriate due process.

A student who fails a required course must repeat the course, with a different professor if possible. Both enrollments and both final grades earned in the course appear on the student’s transcript and are included in the calculation of the student’s grade-point average. A student who earns a grade lower than 2.1 in the retaken course is referred to the Retention Committee.

A student who fails a nonrequired course may repeat the course with the permission of the associate dean for academic affairs. The grade on the retaken course is recorded as pass (P) or fail (F) and is not used in computing the student’s cumulative grade-point average. To receive a P in a course that is retaken, the student must earn a grade of 2.1 or higher.
Pass/Fail Grades
Credit for certain courses is offered only on a pass/fail (P/F) basis. In the case of a failing academic performance in a pass/fail course, the faculty supervisor or instructor may assign a failing numerical grade, i.e., between 1.7 and 1.5. Individual faculty members may allow students to withdraw from a course rather than receive a failing grade.

Miscellaneous Grading Marks
Marks other than pass, fail, and numerical grades are as follows.
Registered (R) indicates that a student has completed the first half of a year-long program, such as a seminar or journal, for which a grade cannot be assigned until the second half of the program has been completed.
Withdrawn (W) carries no course credit and is not used in computing the cumulative grade-point average.
Incomplete (I) carries no course credit toward a degree until it is changed, nor is it used in computing the cumulative grade-point average. A mark of I may be reported only in exceptional cases and only if the unfinished part of the work is small and is unfinished for reasons acceptable to the instructor, and if the student's standing in the course is satisfactory. Students remove an incomplete by completing the unfinished work during their next period of residence.

Class Ranking
Students in the top 10 percent in each class may be informed of their exact rank; grade-point averages at the 12.5 percentile and 37.5 percentile are posted. Students interested in more detailed information may contact the Career Services Office or the College of Law registrar.
Students are ranked following the fall semester and spring semester each year. Final class standing is determined each August and is available in September. It includes students who completed all graduation requirements in August, May, and the previous December. For purposes of ranking underclass students, the same system is used, based on the expected graduation date.

Release of Transcripts
A student's grades are not given to persons outside the College of Law, including prospective employers, without written permission of the student.

Class Attendance and Preparation
Students must attend classes regularly and punctually. They must be prepared to participate in class discussions. A student may be dropped from a course or failed, at the discretion of the instructor, for excessive absence or for repeated lack of adequate preparation. In addition, students are expected to attend special class meetings and be punctual in submitting course assignments, in accordance with ABA Standard 304(d).

Examination Policy
One examination is given in each course, with few exceptions. Before taking exams, each student is assigned an identification to ensure anonymity in grading. Students must write their examination number on scratch paper and any other materials that are distributed at the start of the examination and collected at its conclusion. The instructor submits a grade for each identification number. The grade is kept on file for two years at the College of Law.

To preserve anonymous grading, students must not identify themselves and must not place their name on the examination answer or other materials that the instructor might see. They also may not discuss the examination with their instructors until the exam has been graded and the grades released. Students who have questions should pose them to a proctor during the examination or to the College of Law dean of students or registrar after the exam.

Students may be offered the option of taking some exams on their personal laptops. Each course's instructor determines whether this option is available for his or her specific course.

Students who have more than one examination scheduled for the same day, two consecutive exams (i.e. Wednesday afternoon, Thursday morning), or exams four days in a row may schedule a make-up time for one of the exams. Students who have exams three days in a row may reschedule one only with permission of the instructor.

Students are expected to take the exam on the next scheduled makeup date immediately following the regularly scheduled exam. Whenever possible, the dean sets aside one to three days as an upperclass study period between the end of regular classes and the first regularly scheduled upperclass exam. See the College of Law Student Handbook for all policies related to examinations.

Exam Accommodations for English Language, Physical, or Medical Reasons
A student who is at a substantial disadvantage in taking an exam within the specified time limit because he or she does not have English as a primary language or because he or she has a physical or recognized medical disability may be granted additional time to complete the exam commensurate with the extent of the disadvantage. A student seeking such additional time must make a request to the dean of students by the deadline announced each semester, unless the disability comes into existence after that deadline has passed, stating the nature of the disability and the examination(s) for which the student seeks additional time.

An undergraduate degree from an English-language college or University is considered prima facie evidence that the student is not qualified to be granted extra exam time due to not having English as a primary language. When additional time is granted, it generally is reduced each semester as the student becomes more proficient in English.

Program Accommodations for Students with Disabilities
The College of Law is committed to making all of its programs, activities, and services accessible to students with disabilities. In compliance with the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973, it strives to provide equal access to all academically qualified students and does not discriminate against students on the basis of disability. The college provides reasonable accommodations to students with disabilities, commensurate with the nature and extent of the disability and consistent with federal law, state law, and policies of The University of Iowa and the College
of Law. Students may request accommodations for any University of Iowa sponsored curricular, cocurricular, or extracurricular program, including those in the College of Law.

The College of Law’s cocurricular and extracurricular programs include, but are not limited to, Appellate Advocacy I, Trial Advocacy Board, the Iowa Law Review and its editorial board, Moot Court Board, Advanced Moot Court Competition, Van Oosterhout-Baskerville Moot Court Competition, National Moot Court Competition, The Journal of Corporation Law and its editorial board, Transnational Law & Contemporary Problems and its editorial board, The Journal of Gender Race & Justice and its editorial board, Jessup International Moot Court Competition, and Jessup International Law Moot Court team.

Withdrawal and Leave of Absence
First-year students who withdraw during the academic year or who fail to reenroll for the second semester must apply for reentry to the College of Law. They must compete with other applicants for a place in the first-year class for the year in which they wish to return. For each readmission application, the reason for the withdrawal and the quality of work done before withdrawal or failure to reenroll is considered. For admission purposes, individuals who have earned fewer than 27 s.h. of credit at the time of withdrawal or failure to reenroll are considered first-year students.

Second- and third-year students who fail to enroll for any semester during the academic year and who have not been granted a leave of absence by the dean of students must obtain permission from the Admissions Committee if they wish to reenroll. Requests for permission to reenroll must be submitted no later than 90 days before the beginning of classes for the semester or summer session in which the student seeks to reenroll.

The dean of students may grant a second- or third-year student a leave of absence for up to one year, if the student shows good cause. First-year students may be granted leaves of absence only under extraordinary circumstances, such as a medical or family emergency, or as a reasonable accommodation for a disability.

Students who withdraw from the College of Law after they have paid tuition are entitled to a pro rata refund of that tuition depending on the effective date of their withdrawal. Consult with the college’s Office of Financial Aid for details.

Student Conduct
Students are expected to act in a manner appropriate at a professional school. An act or omission that is dishonest or designed to take unfair advantage may subject a student to sanctions as serious as expulsion from school. Misconduct policies and procedures are published annually in the College of Law Student Handbook.

Research Centers and Programs
Participation in research centers and outreach programs is an important part of the College of Law’s service to professional and civic communities. The college was home to the nation’s first agricultural law center. Since that center’s closing, several new centers and institutes have been founded in diverse fields such as child and maternal health care, disability law and policy, human rights law, not-for-profit entities, public affairs, and public international finance. These programs enjoy increasing national and international recognition for their specialized research projects and service activities. Several have enjoyed success in attracting competitive grants from state, federal, and private sources.

Innovation, Business, and Law Center
The Innovation, Business, and Law Center is an interdisciplinary teaching and research venture that brings together faculty members who teach and study problems of business, technology, innovation, regulation, and legal policy from diverse perspectives. The center’s purpose is twofold: first, it offers an innovative curriculum and outstanding legal training in areas pertaining to government regulation of entrepreneurship, innovation, and management of resources; second, it encourages creative individual and collaborative interdisciplinary research in these areas.

Program in Law and History
The Program in Law and History, founded in 2009, builds on the Iowa tradition of scholarship and teaching in the field of legal history by bringing together faculty and students to foster research and teaching at the intersection of law and history.

University of Iowa Center for Human Rights
The University of Iowa Center for Human Rights was founded in 1999 as an outgrowth of the University’s year-long commemoration celebrating the 50th anniversary of the Universal Declaration of Human Rights. The center engages in a variety of educational programming, service learning projects, and competitive contests that encourage students to further their exposure to, understanding of, and involvement in human rights.

University of Iowa Center for International Finance and Development
The University of Iowa Center for International Finance and Development helps laypersons understand the often impenetrable world of international finance and development. The center is staffed by law students and directed by a faculty member.

Institute of Public Affairs
The Institute of Public Affairs provides services and information to help maintain and strengthen the effectiveness of Iowa’s local governments. The institute facilitates local government planning, educational programs and information, professional development, and public management assistance, and offers information and publications, outreach, and linkage with other University programs and activities. The Institute provides training for newly elected mayors and council members through a municipal leadership academy and publishes the Iowa Municipal Policy Leader’s Handbook for city officials. It also holds the annual Iowa Municipal Management Institute, a professional development conference for city and county managers and administrators in Iowa.
Larned A. Waterman Iowa Nonprofit Resource Center

The Larned A. Waterman Iowa Nonprofit Resource Center offers information and assistance from across The University of Iowa to help Iowa’s charitable nonprofit organizations become more effective in building their communities.

Law, Health Policy & Disability Center

The Law, Health Policy & Disability Center is a leader in law, technology, education, and research focused on improving the quality of life for persons living with disabilities. Based at the University of Iowa College of Law with offices in Washington, D.C., and at other locations, the center concentrates on public policy and its impact on persons with disabilities, emphasizing employment, self-determination, and self-sufficiency.

The center partners with the College of Education and the College of Public Health to promote multidisciplinary approaches to research, education, and outreach. It uses seminar and team approaches with real-world projects to educate the next generation of legal, rehabilitation, and public health professionals, who will influence public policy through their work.

National Health Law and Policy Resource Center

The National Health Law and Policy Resource Center, founded in 1981, promotes laws and public policies that foster and facilitate accessible, affordable, and quality health services and related services for all Americans, particularly members of vulnerable and disadvantaged populations. The center provides a nonpartisan forum for informed dialogue between academics, practitioners, and public policy makers based on the best available data and information about important health law and policy issues.

Facilities and Resources

Boyd Law Building

The Willard L. Boyd Law Building, completed in 1968, exemplifies Iowa’s continuing commitment to legal education and the legal profession. The building’s large, circular structure reflects the special character of the Iowa law school and allows the college to operate in a physical environment in which every square foot of space is designed to promote the college’s academic and professional programs.

Among the building’s facilities are classrooms, the Levitt Auditorium, the Law Library, faculty and administrative offices, offices for the college’s cocurricular programs, meeting rooms, a bookstore, and a cafeteria. The newly renovated suite for the college’s clinical law programs functions as a teaching law firm, offering ease of access, usability, and visibility. Student and faculty lounges and faculty offices are located on the same floor, encouraging student-faculty interaction.

Iowa Law Library

The University of Iowa Law Library was founded in 1868 with a collection of 612 books. Today it has grown to over 1.3 million volumes and volume equivalents and is one of the largest and finest collections of print, microform, and electronic legal materials in the United States.

According to American Bar Association statistics, the Law Library has the second largest collection of volumes and microform volume equivalents and the second largest number of unique individually cataloged titles in all formats, including electronic formats, among all U.S. law school libraries. The library’s collection covers all aspects of Anglo-American law and has a very strong component of foreign, international, and comparative law materials. Currently, the Law Library’s collection contains 1,336,769 million volumes and microform volume equivalents and 1,060,087 unique individually cataloged titles in all formats. The library also is fully computerized, with hardwired and wireless access to an extensive range of computer research sources and library information.

The Law Library serves students and faculty, members of the bar, and the general public. A dedicated and trained staff is available to provide research support to all individuals who use the library.

Iowa Legal Studies Workshop

The Iowa Legal Studies Workshop gives authors at the College of Law an opportunity to receive constructive, critical analyses of their written work. The workshop draws inspiration for its format from the Iowa Writers’ Workshop. It welcomes law faculty at all ranks and from all areas of expertise as well as faculty from other colleges across the University.

Writing Resource Center

The Writing Resource Center serves as an extension of the classroom and of the required first-year LAWR sequence, 091:130 (LAW:8032) Legal Analysis Writing and Research I and 091:131 (LAW:8033) Legal Analysis Writing and Research II. The center’s director holds a Ph.D. focused on teaching writing. Staff members are lawyers who are pursuing or have completed the University’s M.F.A. program in creative writing (Iowa Writers’ Workshop) and by upper-level law students.

The center provides one-on-one tutorial assistance for writers working on course assignments, journal articles, writing samples, and so forth. Students come to the center through the recommendation of faculty members or through self-referral. They find help with rhetorical, stylistic, and grammatical concerns that arise in their writing. Center staff members also work with students on general writing improvement and on strategies for dealing with everything from overcoming writer’s block to adapting material for varied audiences. More than two-thirds of all first-year law students and more than one-third of all law students make use of the Writing Resource Center in a typical year.

Career Services Office

The College of Law’s Career Services Office provides personalized career and life planning, strategic networking, experiential learning programs, and job search assistance to law students and alumni. It assists approximately 100-150 firms, corporations, government agencies, and courts that visit the College of Law during a typical year to interview and hire Iowa law students. Visit the Career Services Office web site to learn about the office’s wide range of services in detail.
Bookstore
The College of Law Bookstore carries all required legal texts and supplements. The bookstore stocks photocopied handouts and teaching materials assigned by course instructors. It also carries a variety of professionally prepared outlines, horn books, and other study aids as well as a limited selection of school supplies and merchandise, including pens, notebook paper, binders, computer disks, exam software, stamps, T-shirts, and sweatshirts. In addition, the bookstore can make change.

Students may charge costs for books, class materials, supplies, and merchandise directly to their University accounts. The bookstore does not accept credit cards.

Information Technology
Since electronic information technologies are vital in legal and business work, the College of Law encourages all law students to become proficient with computers. Access to word processing software also helps law students draft the many papers, articles, and other manuscripts that are a regular part of the law curriculum. The college has installed 41 personal computers attached to a local area network for use by its students. Students also are encouraged to purchase personal computers and Microsoft Windows software, if possible, and to use them in connection with their law school work.

The law college provides network and Internet access from all student library carrels. To participate, law students supply their own laptop computers, which must meet required specifications. Specifications are available from the Law Library computer support office. Wireless Internet access is available throughout the Boyd Law Building.

The college’s computers are loaded with WordPerfect and Microsoft Office software, and the college provides training for and access to the two major online computer research databases, West Publishing Company’s WESTLAW and Mead Data’s LEXIS. Once students complete the training, they have unlimited free access to these services at home via their own PCs and on the student and public workstations in the Law Library.

The Law Library also provides CD-ROM workstations that allow access to databases in CD-ROM formats. Some of the titles available are United Nations documents, complete from 1945; Index to Legal Periodicals; TIARA, a database containing treaties; and numerous U.S. government documents published on CD-ROM.

The University provides free e-mail accounts to its students, faculty, and staff through its Information Technology Services office (ITS). Students can sign up for e-mail accounts online or at the ITS offices in University Capitol Centre. ITS advises University of Iowa students, faculty, and staff on computer hardware and software needs and can provide information about educational discounts on some purchases. ITS also offers a wide variety of free computer short courses throughout the year. For information on computing resources at the University, consult the Information Technology Services web site.

Legal Aid for Students
Students in need of legal assistance may consider turning to the University’s Student Legal Services. The Legal Services Corporation of Iowa also provides civil representation to indigent clients.

College of Law Events
The College of Law holds a number of events for its students each week; check the College of Law Event Calendar for current listings. Parents and Partners Day and Iowa Supreme Court Day are two time-honors events held each fall at the college.

Parents and Partners Day
Parents and Partners Day, held during fall semester, provides law students with the opportunity to give the people close to them a glimpse into law school life. The day’s activities include a mock class, building tours, a cookout, and the annual Law School Auction, which helps provide support for law students who work in low-paying or unpaid summer positions in the public sector.

Iowa Supreme Court Day
The College of Law hosts the Iowa Supreme Court on the University of Iowa Campus each fall. Supreme Court Day honors the state’s top court and recognizes the college’s origins in the court’s chambers. During the day, four student advocates selected from the previous spring’s Moot Court competition argue a case before the justices; the public is invited to attend the arguments. In the evening, faculty members host dinners in their homes for the justices and students.

Iowa Law School Foundation
The Iowa Law School Foundation (ILSF) is a nonprofit corporation established to solicit, manage, and grant gifts of money and/or property to the College of Law to support the college’s research and educational activities. The ILSF Board of Directors includes alumni, faculty, and students.

Courses
The following courses are those offered by the College of Law during the past four academic years and those scheduled to be offered during the coming academic year. See College of Law Guide to Courses for a list of College of Law courses defined by Interpretation 509-1 of the American Bar Association Standards for the Approval of Law Schools.

First Year
091:102 (LAW:8026) Introduction to Law and Legal Reasoning 1 s.h.
Basic concepts and intellectual skills necessary for understanding the first-year curriculum.

091:103 (LAW:9445) LL.M. Orientation: Introduction to U.S. Law and Legal System 2 s.h.
Orientation for international-trained LL.M. student to U.S. legal system; introduction to U.S. patterns of legal argumentation, main institutional structures of U.S. legal system, and other distinctive aspects and/or fundamental principles of U.S. law; material drawn from basic areas of law (e.g., constitutional law, civil and criminal procedure, contracts, torts, property).
091:104 (LAW:8006) Civil Procedure 4 s.h.
Procedure before trial; commencement of a suit; subject matter jurisdiction; jurisdiction over the person and venue; pleadings, motion practice, including summary judgment, simple joinder of parties and claims in determining scope and size of the lawsuit; pretrial discovery procedures, the trial, claim and issue preclusion.

091:116 (LAW:8010) Constitutional Law I 3 s.h.
Constitutional allocation of governmental powers; doctrine of judicial review and nature of judicial function in constitutional cases; relationships among several branches of national government; the federal system, including powers delegated to national government, powers reserved to states, and intergovernmental immunities; role of judicial process in structuring limits within which society operates; institutional development of legal system, relationship among institutions within the system.

091:120 (LAW:8017) Contracts 4 s.h.
Law that governs the otherwise unregulated sector of the economy; making and enforcement of promises, usually as part of a bargain; formation of agreements, consideration, invalidating causes, parole evidence and interpretation, conditions, and remedies; roles of promises and promissory exchanges in a modern economy; the law's limitations on freedom of contract; brief introduction to Uniform Commercial Code, Article 2.

091:124 (LAW:8022) Criminal Law 3 s.h.
Basic understanding of substantive criminal law; underlying premises of and justifications for criminal law; emphasis on general doctrines that dictate the minimum elements necessary to impose criminal liability, essential requirements of culpable conduct (an actus reus, or guilty act), blameworthy mental state (a mens rea or guilty mind); rape, homicide, causation, attempt, conspiracy, accomplice liability; various defenses to criminality, such as self-defense, duress, intoxication, insanity, diminished capacity.

091:129 (LAW:9442) Legal Analysis Writing and Research--LL.M. 1-2 s.h.
Legal analysis, writing, and research; for international LL.M. students.

091:130 (LAW:8032) Legal Analysis Writing and Research I 2 s.h.
Structured development of effective skills in legal analysis, writing, and research; first of a two-semester sequence.

091:131 (LAW:8033) Legal Analysis Writing and Research II 2 s.h.
Structured development of effective skills in legal analysis, writing, and research; second of a two-semester sequence. Prerequisites: 091:130 (LAW:8032).

091:132 (LAW:8037) Property 4 s.h.
Concept of private property as one of the legal system's basic foundations; historical development of Anglo-American property law examined in conjunction with changing currents of economic, social, and political thought; emphasis on understanding decision making by courts in the common-law tradition, and its interplay with legislative enactments intended to change the common law; fundamental notions relating to the origins of property rights; relationship of possession and ownership, with emphasis on capacity of property law to recognize a wide range of interest configurations; impetus for promoting ease and reliability in conveyance of property interests, commercially and gratuitously; function of public recording in providing stability to transfers of interest in land; role of adverse possession and prescriptive use in recognizing expectations based on long-standing property relationships; responsiveness of property law to social change as illustrated by modern reforms in landlord-tenant act.

091:364 (LAW:8046) Torts 4 s.h.
Development of tort principles; civil responsibility for harms to tangible personal and property interests; roles of legislatures, judges, juries; intentional harms, negligence, and strict liability considered from perspectives of jurisprudence, economics, and moral philosophy.

Second and Third Years

091:125 (LAW:8350) Criminal Procedure: Investigation 3-4 s.h.
Guarantees and rights of the Fourth, Fifth, and Sixth Amendments to the U.S. Constitution against police and prosecutorial practices designed to investigate and prove criminal cases; protection against unreasonable searches and seizures, guarantee against extraction of involuntary confessions, privilege against self-incrimination constraints upon securing confessions (i.e., Miranda doctrine), due process protection against unreliable suggestive identification procedures, right to counsel, protection against inculpatory admissions and identification practices; exclusionary rules and remedies that enforce constitutional guarantees.

091:136 (LAW:8796) Property II 3 s.h.
Continuation of 091:132 (LAW:8037); limitations imposed on landowner's use of their property by private agreements, judicial actions, and public regulations; problem areas including servitudes, nuisance, eminent domain ("takings"), constitutional limitations on governmental activities adversely affecting private property, community planning, zoning and other forms of local land use control; discrimination as it relates to land development and housing; relative effectiveness of private ordering, judicial decisions, legislative enactments and administrative processes for resolving conflicts over use of land resources; relationships between law and other disciplines, particularly economics, in forging solutions to land use issues; law's utility as an instrument for achieving societal objectives regarding land use.

091:192 (LAW:8163) Art, Law, and Ethics 3 s.h.
How law and ethics apply to individuals and institutions concerned with the visual arts. Same as 01H:182 (ARTH:4040).

091:193 (LAW:8570) Human Rights in the World Community 1-3 s.h.
Introduction to established and developing legal rules, procedures, and enforcement mechanisms that govern protection of international human rights; liberal western and developing world notions of human rights, recent examples of human rights controversies worldwide; international human rights of women.

</tbody>
</table>
091:214 (LAW:8186) Bankruptcy 3-4 s.h.
Rights of individuals and entities under the federal bankruptcy laws, from perspectives of debtors and creditors; foundational topics from liquidation bankruptcy (chapter 7) to reorganization bankruptcy (chapters 11 and 13); consumer and business bankruptcies; advanced bankruptcy topics such as small business reorganizations, farm bankruptcies, ethical issues in bankruptcy law, international insolvencies. Prerequisites: 091:215 (LAW:8374).

091:215 (LAW:8374) Debt Transactions 4 s.h.
Laws and practices of modern lending; procedures for collection of unsecured debts, including enforcement of judgments, exemptions, prejudgment remedies, fraudulent conveyances, statutory liens; secured transactions that involve real property (mortgages) and personal property (security interests governed by Uniform Commercial Code, Article 9); consumer and commercial transactions, counseling hypothetical creditor or debtor clients, understanding realities that shape enforcement of credit agreements.

091:217 (LAW:8307) Corporate Finance 1-3 s.h.
Introduction to fundamental principles of corporate finance, including financial statement analysis, valuation of corporate securities and of businesses, capital structure decisions, portfolio theory, and efficient capital markets hypothesis; focus on financial and accounting aspects of corporate decisions than with any particular body of law. Prerequisites: 091:241 (LAW:8331).

091:218 (LAW:8504) Federal White Collar Criminal Law 1-3 s.h.
How corporations and their officers, directors, employees, and agents can violate criminal law; liability imposed under state and federal laws in the United States, criminal liability under laws of other countries; fundamentals of U.S. law; case studies of recent prosecutions involving American corporations.

The law of pleadings and other pretrial matters presented in 091:104 (LAW:8006); hypothetical case developed from interview to pleading to early pretrial stages; experience drafting relevant pleadings and motions. Prerequisites: 091:104 (LAW:8006).

091:221 (LAW:8246) Comparative Employment Law 3 s.h.
Regulation of individual employee rights in the workplace, as distinguished from regulation of collective bargaining between management and unions.

091:223 (LAW:8250) Comparative Islamic Law 3 s.h.
Sources of Islamic law; origins and functions of varied schools of jurisprudence; Islamic legal philosophy and Islamic legal rulings in contexts of five major schools of law; major legal topics covered by the Ottoman Legal Code. Same as 032:159 (RELS:4859).

091:224 (LAW:8263) Comparative Law 2-3 s.h.
Comparative study of origins, development, and principal features of the world’s main legal systems; common and civil law traditions; historical development of the main legal systems, their sources, ideologies, techniques; subjects important to international legal practice (e.g., international judicial assistance, application of foreign law in American courts; in-depth study of modern legal systems of the United States, Britain, France, Germany, Japan, Russia; introduction to other legal traditions, including preliterate tribal law, traditional Chinese and Islamic law.

091:228 (LAW:8272) Conflict of Laws 2-3 s.h.
Problems created when a transaction or relationship has associations with more than one jurisdiction; emphasis on selection of appropriate jurisdiction-selecting rules, recognition of other states’ judgments; current evolution in theoretical approaches to these problems; limitations imposed on American state courts by the federal constitution.

091:231 (LAW:8322) Corporate Taxation 3 s.h.
Influence of tax considerations on the structure of corporate transaction, from a merger to a restructuring to a securities offering; examination of primary Internal Revenue Code provisions that affect corporations and their shareholders; corporate formations, dividends, redemptions, liquidations, taxable asset and stock acquisitions, tax-free reorganizations; analysis of statutory and regulatory materials; tax reform proposals. Prerequisites: 091:272 (LAW:8194). Corequisites: 091:241 (LAW:8331).

091:232 (LAW:8280) Constitutional Law II 3 s.h.
Limits on governmental power imposed by the national constitution for protection of individuals; protection of life, liberty, and property by due process and equal protection; freedom of expression and association; religious freedom and the guarantee against establishment of religion; 1st and 14th Amendments.

091:239 (LAW:8318) Corporate Governance and Control 1-3 s.h.
Principal issues in creation of appropriate governance and control systems for large publicly-held corporations; questions of corporate structure, shareholder voting rights, duties of directors, derivative suits, indemnification and transfers of control viewed from perspective of Delaware’s statutory and common law. Recommendations: 091:241 (LAW:8331).

Skill development to effectively participate in arbitration and related court proceedings; advise clients on various aspects of arbitration; opportunity to draft an arbitration agreement, a petition to compel arbitration, a prehearing arbitration booklet with legal authorities and supporting exhibits, and pleadings necessary for judicial review; examination of all aspects of the arbitration process; procedures for post-award remedies and judicial review; hybrid methods of arbitration, applicable rules, and ethics concepts.

091:241 (LAW:8331) Business Associations 3-4 s.h.
Structure, characteristics of both large publicly and closely held corporations; distribution of powers among management, directors, shareholders; fiduciary duties that limit those powers; enforcement of such duties by shareholder suits; may include basic principles of agency, partnership, and limited partnership law.
091:243 (LAW:8927) Taxation of Business Enterprise
Introduction to tax treatment of corporations, partnerships, and limited liability companies, with focus on closely held firms and their owners; choice of entity, the life cycle of the entity (organization, operation, sale or liquidation), corporate mergers and acquisitions. Prerequisites: 091:272 (LAW:8194). Corequisites: 091:241 (LAW:8331).

091:247 (LAW:8259) Comparative Labor Law
Legal regulation of union-employer-employee relationships.

091:248 (LAW:9070) Deposition Practice and Civil Pretrial Advocacy
Preparation to use all avenues of civil pretrial practice to develop essential facts, protect client interests, and obtain client goals; facts established in a mock complaint used to navigate primary aspects of civil pretrial process—document requests, interrogatories, requests for admissions, offers of judgment, and depositions; focus on use of written discovery and depositions to lead to a formidable settlement posture and either a successful dispositive motion or advantageous position for trial.

091:249 (LAW:8378) Development of the Western Legal Tradition
Major developments in the history of Western European law; laws of ancient Greece and Rome through 19th-century codifications in France and Germany; fusion of law and equity in England; evolution of and interaction among the four main components of Western legal tradition—Roman and civil law, customary and feudal law, canon law, and English common law; primary and secondary sources translated into English.

091:250 (LAW:8421) Employment Law
Rights of employers, employees in unorganized workplaces; legal issues that arise between employers and employees in nonunionized settings; hiring, discipline, termination, minimum wage, covenants not to compete, employment-related intellectual property issues, occupational safety and health, unemployment.

091:251 (LAW:8407) Topics in Employee Benefits Law
Survey of major topics in employee benefits law: overview of the plans that are subject to the Internal Revenue Code, Erisa, or both; tax-qualification rules for retirement plans focusing on 401(k) plans; disclosure owed and relief available to plan participants under ERISA; fiduciary responsibility for investment decisions under 401(k) plans; and whether ERISA preempts state and local initiatives to expand health care coverage.

091:252 (LAW:8551) Family, Gender, and Constitutional History
Same as 16A:175 (HIST:4285).

091:253 (LAW:8415) Employment Discrimination
Legal prohibitions against discrimination in employment on the basis of race, sex, national origin, age; focus on Title VII of the Civil Rights Act of 1964; procedural and remedial problems, elementary issues of proof.

091:255 (LAW:8433) Environmental Law
Role of the legal system in addressing problems of environmental disruption, with special emphasis on air, water, hazardous waste pollution.

091:256 (LAW:8497) Federal Criminal Practice
Introduction to each step in the criminal process together with instruction in advocacy skills required for the effective practice of law; complete chronology of a typical federal criminal case, from grand jury investigation through post-trial motions; importance of strategic thinking. Prerequisites: 091:125 (LAW:8350).

091:259 (LAW:8487) Federal Government Contracting
Specialized litigation forums created by the federal government to remedy contract disputes over federal contracts for goods, services, and construction; similarities and differences between the federal litigation system and the common law of contracts and UCC Article 2 law; assessment of whether the federal litigation forums and policy goals work; related issues most attorneys encounter during their practices.

091:260 (LAW:8527) Foreign Relations Law
Impact of the constitutional distribution of powers on the conduct of U.S. foreign relations; influence of separation of powers doctrines on conduct of foreign relations, status of international law in the U.S. legal system, role of courts in adjudicating issues affecting foreign relations, controversy over distribution of war powers between the president and Congress.

091:261 (LAW:8562) Health Law
Major areas of concern in health law; tension between quality, access, costs; may include malpractice, quality control, health care financing, access (insurance, Medicare, and Medicaid), licensing, bioethics (end-of-life decisions, informed consent, surrogacy, organ transplantation).

091:265 (LAW:8460) Evidence
Rules of evidence developed in common-law courts and under statutes; judicial notice; examination of witnesses; privilege and competency; remote and prejudicial evidence; hearsay; burden of proof and presumptions; roles of judge and jury.

091:266 (LAW:8452) European Union Law
Law of the European Union; EU legal and institutional structure; role of the European Court of Justice in elaborating constitutional and administrative law for the EU on the basis of treaties and legislation; principle of free movement; progress of European integration.

091:267 (LAW:9331) Field Placement: General
Experience in nonprofit organizations, government agencies; unpaid; usually summer.

091:268 (LAW:8467) Family Law
Creation, dissolution of marriage and parent-child relationships; lawyer’s practical approach to family law problems combined with a broader view of how the law might treat those problems in light of findings from social and behavioral sciences.

091:272 (LAW:8194) Basic Federal Income Taxation
Operation, policies, principles of federal income tax, including gross income, deductions, property dispositions, tax accounting, assignment of income among family members, time value of money, leveraging.
091:274 (LAW:8481) Federal Courts 3 s.h.
Role of the federal courts in our federal system of government; the federal courts’ original and appellate jurisdiction; Supreme Court review of state courts’ judgments; Congress’ power to strip the federal courts of jurisdiction; development of federal common law; federal writ of habeas corpus; abstention doctrines; state sovereign immunity; federal remedies against state and local action; and Congress’ power to create non-Article III adjudicative tribunals. Prerequisites: 091:104 (LAW:8006) and 091:116 (LAW:8010).

091:276 (LAW:8787) International Finance 3 s.h.
International banking and securities transactions; major national markets of the United States, Europe, and Japan, and offshore markets; major areas of international regulation and policy, such as capital adequacy, clearance, and settlement.

091:277 (LAW:8629) Taxation of International Business Transactions 3 s.h.
Introduction to U.S. aspects of international taxation and international tax policy issues; how the United States taxes foreign persons on income they derive from U.S. sources; taxation of U.S. persons on their worldwide income; United States bilateral tax treaty network, under which many of the statutory rules regarding the taxation of foreigners are modified or supplanted; solving problems that illustrate the operation of the Code and regulations. Prerequisites: 091:272 (LAW:8194). Corequisites: 091:241 (LAW:8331).

091:278 (LAW:9838) Selected Topics in International and Comparative Law 1-3 s.h.
Opportunity for students to learn from distinguished faculty from U.S. and international institutions.

091:280 (LAW:8577) Immigration Law and Policy 1-3 s.h.
Legal, historical, social, philosophical, and policy foundations of immigration control; modern debate over immigration; criteria and procedures that govern admission of non-U.S. citizens to the United States for permanent residence and temporary visits; deportation criteria and processes; national security and civil liberties implications of immigration policy; refugees and political asylum; undocumented migrants; acquisition, loss, and significance of U.S. citizenship; focus on U.S. law with introduction to perspectives from comparative and international law; experience analyzing varied fact problems that require strategic decision making and interpretation of complex statutory provisions.

091:282 (LAW:8600) International Business Transactions 1-3 s.h.
Legal and practical issues in international trade and investment; typical private transactions, such as the sale of goods (documentary sales transaction, INCOTERMS, letters of credit, agency, distribution), transfer of technology (franchising, licensing), and direct investment across national borders; how private international sales, investment, and licensing transactions are structured to permit private businesses to minimize and plan for the risks associated with conducting business on a global scale.

091:283 (LAW:8301) Copyrights 3-4 s.h.
Federal law of copyrights, primarily the Copyright Act of 1976; emphasis on copyright protections affecting new technologies, such as videotape, computer hardware and software, electronic data transfer, cable television rebroadcast; ability of legal concepts to keep pace with technological developments. Recommendations: 091:286 (LAW:8643).

091:284 (LAW:8584) Insurance 1-3 s.h.
Legal principles of insurance; applicability of general principles of contract formation; principles involved in determining which persons and interests are protected, which risks are transferred, and when rights are at variance with insurance policy provisions; claims process, disposition of disputed claims; adoption of tort principles and statutes to alter common law approach to insurance contracts.

091:285 (LAW:8513) Foreign Comparative and International Legal Research 1-2 s.h.
Treaty research, locating and identifying documents from international organizations and tribunals, legal research in selected jurisdictions outside the United States; print and electronic sources and research methods in foreign and international law; project to complete a pathfinder on a foreign or international law topic.

091:286 (LAW:8643) Introduction to Intellectual Property 3-4 s.h.
Introduction to some of the most important intellectual property rules; goals and theories underlying these rules; common ways in which ideas may be protected—from basic form of protection (secrecy and trace secrecy) to exclusive rights granted over inventions (patents) and creative works (copyright), and concluding with rights related to market-based identities (trade and service marks); brief exploration of ways in which debates over intellectual property rights have permeated modern culture.

Basic norms and legal framework of international trade as expressed in the GATT/WTO regime and U.S. trade laws; issues raised by regional trade blocs such as NAFTA; controversies such as the economic and philosophical justifications for, and objections to, free trade from a variety of perspectives.

091:288 (LAW:8658) Jurisprudence 2-3 s.h.
Exploration of questions central to jurisprudence by looking at positions that have been adopted by legal positivist, natural law theory, and sociological models of jurisprudence (i.e., is there more to legal argument than the strategic battle for a favorable judicial ruling? How would one have to conceive of legal reasoning if one were a judge? Are there right answers to legal questions? Do they presuppose a necessary connection between law and morality? Is any exchange of pros and cons merely a spectacle created in order to hide from the dumbfounded public that legal reasoning does not really matter?); comparative dimension provided in readings with background in civil law.

091:289 (LAW:8647) Competition Policy and Innovation 3 s.h.
Important issues at intersection of federal competition policy and intellectual property law; competition policy referenced as antitrust laws; competition policies that emanate from intellectual property laws or other regulatory provisions; exclusionary practices, collusion and joint ventures, vertical integration, and procedural issues.
091:291 (LAW:8622) International Environmental Law
Laws and institutions developed by the international community to deal with international environmental problems, including those of the atmosphere (acid rain, ozone depletion, radioactive fallout, climate change), hydrosphere (land-based sea pollution, sea-based vessel pollution, transboundary groundwater diversion), lithosphere (hazardous waste disposal, toxic pollutants, decertification), biosphere (deforestation, endangered species, loss of tropical rainforests).

091:292 (LAW:8670) Labor Law
How national labor law regulates labor relations in the private sector; law relating to unionized employees and firms; right of employees to organize into unions; limits of concerted activities by employees; scope and provisions of collective bargaining; enforcement of the collective bargaining agreement; rights of individual employees in collective units and in labor organizations; lawyer’s role in dealing with judicial, administrative, and arbitral tribunals involved in enforcing labor law; lawyer’s role in complex interrelationships between policy, statute, judicial, and administrative decisions.

091:293 (LAW:8570) or 091:195 (LAW:8649) International Transacting Skills
Key negotiation concepts and skills necessary to successfully negotiate international deals through a series of role simulations involving cross-border joint ventures, international project finance deals, and deal-making in developing countries; students engage in one or more simulated negotiations each session, followed by debrief—discussion of how negotiation concepts and features of international transactions, introduced in readings, played out in negotiation dynamics.

091:294 (LAW:8428) English Legal System

091:295 (LAW:8615) International Commercial Arbitration
Formation and enforcement of agreements to enter arbitration in order to settle international business disputes; recognition and enforcement of arbitral awards, process of arbitrating an international business dispute; role-playing exercises to hone advocacy and decision-making skills.

091:296 (LAW:8618) International and Comparative Family Law

091:297 (LAW:8444) Estate Planning
Introduction to will drafting, use of powers of attorney, and advance directives (topics frequently taught in courses on trusts and estates); taxes that can be imposed upon the transfer of money or other property by gift (the gift tax), at death (the estate tax), and by certain generation skipping transfers (the generation-skipping tax); interrelationship of these taxes with each other and with the income tax. Prerequisites: 091:272 (LAW:8194). Recommendations: 091:378 (LAW:8981).

091:300 (LAW:8593) Federal Indian Law
Specialized body of law that allocates power and authority in Indian country and has grown up around Native American peoples and their reservations; sovereignty arrangements, jurisdiction, federal Indian policy, tribal self-government. Same as 149:178 (AINS:8593).

091:300 (LAW:8703) Cyber and Electronic Law
Legal and public policy issues created by electronic technologies—computers, the Internet and Web, other electronic communications and new media, including privacy and surveillance; cyber-torts (defamation) and cyber-crime; cyber-terrorism and cyber-warfare; social networking in politics and revolution; cyber-property, real (copyright, Fair Use, trademark) and virtual; First Amendment and restrictions on speech; geography and sovereignty (jurisdiction); regulation by means of technology as well as law; electronic commerce; broadband and other transmission technologies policies (net neutrality); and intermediaries’ liability for content.

091:301 (LAW:8622) International Environmental Law
Laws and institutions developed by the international community to deal with international environmental problems, including those of the atmosphere (acid rain, ozone depletion, radioactive fallout, climate change), hydrosphere (land-based sea pollution, sea-based vessel pollution, transboundary groundwater diversion), lithosphere (hazardous waste disposal, toxic pollutants, decertification), biosphere (deforestation, endangered species, loss of tropical rainforests).

091:302 (LAW:8844) Estate Planning
Introduction to will drafting, use of powers of attorney, and advance directives (topics frequently taught in courses on trusts and estates); taxes that can be imposed upon the transfer of money or other property by gift (the gift tax), at death (the estate tax), and by certain generation skipping transfers (the generation-skipping tax); interrelationship of these taxes with each other and with the income tax. Prerequisites: 091:272 (LAW:8194). Recommendations: 091:378 (LAW:8981).

091:303 (LAW:8593) Federal Indian Law
Specialized body of law that allocates power and authority in Indian country and has grown up around Native American peoples and their reservations; sovereignty arrangements, jurisdiction, federal Indian policy, tribal self-government. Same as 149:178 (AINS:8593).

091:306 (LAW:8703) Cyber and Electronic Law
Legal and public policy issues created by electronic technologies—computers, the Internet and Web, other electronic communications and new media, including privacy and surveillance; cyber-torts (defamation) and cyber-crime; cyber-terrorism and cyber-warfare; social networking in politics and revolution; cyber-property, real (copyright, Fair Use, trademark) and virtual; First Amendment and restrictions on speech; geography and sovereignty (jurisdiction); regulation by means of technology as well as law; electronic commerce; broadband and other transmission technologies policies (net neutrality); and intermediaries’ liability for content.

091:307 (LAW:8698) Law in the Muslim World
International and comparative law issues relevant to countries in the Muslim world; legal cultures, institutions, rules, actors, processes of several jurisdictions including Afghanistan, Saudi Arabia, Iran, Iraq, Algeria, Nigeria, Palestine, Pakistan; Islamic sharia law as practiced in Sunni and Shiite countries; the role of church versus state, fundamentalism versus secularism, as manifested in the legal system; tension between communitarianism and individualism in modern constitutionalism; intertwining of customary and religious legal practices; first, second, and third generations of human rights; international law on issues such as terrorism, self-determination; women’s rights, including polygamy, divorce, child custody, inheritance. Requirements: junior or senior standing.

091:308 (LAW:8791) Professional Responsibility
Public and private professional responsibility of lawyers; organization of the profession; its economics, ethics, and sociology.

091:309 (LAW:8680) Law and Economics
Introduction to economics analysis of law; how economic reasoning is used to explain and predict the effects of legal rules; fundamental areas of American law (e.g., property, contracts, torts, criminal law); use of economic efficiency as a normative criterion for evaluating legal rules; efficiency compared to various moral concepts to evaluate such rules.
091:310 (LAW:8682) Law and Human Behavior  3 s.h.
Implications of recent social science research on human behavior for law and legal decision making.

091:311 (LAW:8709) Introduction to French Law  2-3 s.h.
Introduction to laws of France, characteristic features, and role of main institutions; civil law, contacts, tort, family law, commercial law, criminal law, labor law; visits to a French law school, Paris Court, and Ecole of Magistrature National (ENM), the National Judge School in Bordeaux. Summer abroad program.

091:312 (LAW:8619) International and Comparative Intellectual Property Law  3 s.h.
Issues related to international protection of intellectual property.

091:314 (LAW:8712) Legislation  2-3 s.h.
Issues related to legislation and legislative process at state and federal level; introduction to legislation, legislative process, legislative advocacy, statutory drafting, statutory interpretation, and constitutional issues; role of lawyers in legislative process and formation of public policy.

091:315 (LAW:8720) Mediation: Theory and Practice  3-4 s.h.
Essential characteristics; comparison of mediation with litigation and other alternative dispute resolution processes; stages of mediation; confidentiality; enforceability of agreement; ethical problems, particularly lawyer-mediator; student role playing; short writing assignments.

091:317 (LAW:8733) Narrative Strategies for Lawyers  1-3 s.h.
Fiction writing; narrative nonfiction writing techniques; use of narrative in the legal context; workshop format to read and critique stories, published works, and works students have written.

091:318 (LAW:8726) Mergers and Acquisitions  3 s.h.
Significant legal and financial aspects of business combination transactions; transaction documents (e.g., stock purchase agreements, asset purchase agreements, merger agreements); valuation of companies and pricing of deals; legal and financial considerations affecting the structuring of deals; tender offers and their regulation under the Williams Act, tender offer rules; fiduciary duties of target board, including Revlon duties and the Unocal standard; anti-takeover devices (e.g., poison pills and staggered boards, deal protection devices, freezeout transactions); state anti-takeover statutes. Prerequisites: 091:241 (LAW:8331).

091:319 (LAW:8509) Food and Drug Law  3 s.h.
Food and Drug Administration (FDA) as gatekeeper for permission to market prescription drugs and devices; key role in creation and analysis of information on these products; focus on prescription drugs and devices; five theoretical issues—autonomy, trust/agency costs, information, insurance, and markets in health care; substantive legal doctrines including IP, tort, administrative law, health law, and commercial speech; applied administrative law course.

091:320 (LAW:8751) Nonprofit Organizational Effectiveness I  3 s.h.

091:322 (LAW:8752) Nonprofit Organizational Effectiveness II  3 s.h.

091:324 (LAW:8763) Patent Law  2-4 s.h.
All aspects of U.S. patent law; patent claims, adequacy of disclosure, statutory subject matter, validity, inequitable conduct, infringement, remedies, varied specialized doctrines; focus on recent pronouncements from the Court of Appeals for the Federal Circuit. Recommendations: 091:295 (LAW:8615).

Law that governs methods by which businesses and consumers typically pay for goods and services in modern economy; legal rules applicable to traditional paper-based payment system, including negotiable instruments (checks and notes) and bank collection of checks; modern payment methods (credit cards, debit cards, wire transfers); focus on Articles 3, 4, and 4A of the Uniform Commercial Code and related federal law and regulations.

Introductory survey of four types of legal regulation of the workplace: labor law, employment discrimination, law of private employment, and law of public employment.

091:331 (LAW:8329) Comparative Criminal Procedure  2 s.h.
Study abroad program.

091:337 (LAW:8237) Comparative Corporate Law  2 s.h.
Today’s global economy results in a proliferation of multi-national corporations, where frequently the parent corporation is governed by the law of one country, and one or more subsidiaries governed by laws of other countries; comparative assessment of advantages and disadvantages to incorporating in a particular country; focus on corporations considering mergers, acquisitions, or joint ventures with corporations outside of their own jurisdiction; reasons why a corporation may decide to form a subsidiary under the law of another jurisdiction; the law of Delaware used as the United States model for comparative purposes.

091:339 (LAW:8121) Advanced Legal Research Methods in Specialized Subjects  1 s.h.
Legal research methods in specific legal practice and research areas; specific topic rotates each year (litigation and ADR legal research, business and tax legal research, federal legislation, history legal research, legal history research); students work with real-world examples to improve research skills related to a particular legal subject.

091:340 (LAW:8819) Remedies 3 s.h.
Legal and equitable remedies by which the law corrects injustice and redresses legal wrongs; remedies for tortious wrongs, including damages and injunctive relief; remedies for breaches of contract, including damages, specific performance, rescission, reformation; law of restitution, with emphasis on restitutonary remedies (quasi-contract, constructive trust, equitable lien).

091:341 (LAW:8714) Managing National Security 1-3 s.h.
Substance, process, and practice of national security law.

091:342 (LAW:8742) Negotiations 2-4 s.h.
Nature and theory of negotiations, diverse rhetorics (including the rhetoric of legal argument) relevant to conduct of negotiations, conflict between ethics and effectiveness; readings from game theory, social psychology, anthropology, rhetoric and ethics.

091:346 (LAW:8879) Sports Law 3 s.h.
Exploration and understanding of the many ways in which law and lawyers intersect and impact the multi-billion-dollar industry that is high school, collegiate, and professional sports; basic legal foundation for those who are merely curious as well as those considering legal representation for players, coaches, teams, leagues, schools, media, or other sports related institutions and individuals; common contractual processes and provisions, judicial oversight of institutional self-government and commissioner enforcement, antitrust implications of leagues, labor law, gender issues, intellectual property, criminal and torts law.

091:349 (LAW:8877) Sex-Based Discrimination 2-3 s.h.
Survey of sex-based discrimination and legal responses in the United States and worldwide; American context—constitutional guarantees and various statutory guarantees, including Title VII of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972; global context—examination of various regions of the world, emphasis on France, South Africa, and countries with majority Muslim populations; issues involving customary law, affirmative action/quotas, and constitutional reform.

091:352 (LAW:8939) Title Examination and Selected Real Estate Transactions 2 s.h.
Examination of abstracts of title to real property and preparation of resulting title opinion; drafting and interpretation of legal description to real property; subdivision of real property; negotiating and drafting basic contractual and transfer documents involved in typical real estate transactions.

091:354 (LAW:8887) State and Local Government 1-3 s.h.
Allocation of decision-making authority in society; allocation between public and private decision makers; allocation among governmental units, and among public institutions; principles and policies that underlie legal doctrines and the relationship of those principles and policies.

091:355 (LAW:8856) Securities Regulation 3 s.h.
Regulation and sale of securities to the public under the Securities Act of 1933 and state blue-sky laws; remedies provided through the Securities Act; regulation and litigation under the Securities Exchange Act of 1934, which focuses on companies with publicly-traded securities. Prerequisites: 091:241 (LAW:8331).

091:358 (LAW:8533) Forms of Argument/Systems of Belief 2-3 s.h.
Major theories of law relevant to study and practice of law in contemporary America; six distinct operating systems, including legal formalism, legal realism, the legal process school, law and economics, the legal positivist/analytic tradition, and critical legal theory (including legal studies, feminist legal theory, critical race theory); diverse forms of legal argument, including those associated with particular theories of law.

091:359 (LAW:8891) State and Local Taxation 3 s.h.
Limitations on state taxing powers under the United States Constitution, including Commerce, Due Process, and Privileges and Immunities Clauses; subnational jurisdictions, particularly states with an emphasis on sales tax and corporate income taxes, gross receipts taxes, and excise taxes; issues relating to commerce.

091:361 (LAW:8929) Taxation of Partnerships 2-3 s.h.
Introduction to federal tax treatment of partnerships and limited liability companies, the most common business entities in use in the United States today; classification of entities as partnerships for federal tax purposes; formation of partnership and subsequent contributions to partnership capital; flow-through tax treatment of partnership operations; tax-sensitive allocations of items of partnership income, deduction, credit and loss; partnership distributions and related tax-sheltering strategies, liquidation or sale of partnership interests; death or retirement of partners, tax treatment of partnerships compared with S corporations. Prerequisites: 091:272 (LAW:8194).

091:362 (LAW:8933) Tax Practice and Procedure 3 s.h.
Issues relating to proper tax liability of a taxpayer, not necessarily how IRS collects taxes and administers tax laws; judicial deference to agency guidance; procedural issues related to examination and filing of returns and payment of taxes; attorney-client and other privilege matters; ethical issues related to tax practice; IRS investigatory powers; IRS assessment and collection procedures; assigned problems and discussion of current issues in tax policy. Corequisites: 091:272 (LAW:8194).

091:366 (LAW:8961) Select Issues in Transnational Litigation 3 s.h.
Transnational litigation as any litigation involving a foreign element (usually an American party in a foreign court or a foreign party in an American court); litigation that seems completely domestic and turns into a transnational one (when discovery, interim measures, or enforcement are sought overseas); encountering elements of transnational litigation in today's global economy; in-depth study of a few representative topics; emphasis on all relevant aspects of transnational litigation (practice, doctrine, policy, theory).

091:369 (LAW:8954) Trademarks and Unfair Competition Law 2-4 s.h.

Law of unfair competition with primary emphasis on trademarks; policies underlying unfair competition law; creation and establishment of trademark and trademark-like rights; enforcement of those rights, non-trademark concepts of false advertising, rights in one’s persona; traditional doctrinal components and skill-based exercises; for students interested in trademark and unfair competition law, specifically and as part of a broader business law practice. Recommendations: 091:296 (LAW:8643).

091:370 (LAW:9060) Trial Advocacy 2 s.h.
Training in basic skills of trial advocacy, aspects of trial technique; student participation in a full trial. Prerequisites: 091:265 (LAW:8460).

091:371 (LAW:9062) Trial Advocacy Board 1-2 s.h.
Administration of Trial Advocacy Program and Stephenson Competition; research and writing in connection with trial problems and readings used in program; critique of performances of trial problems. Prerequisites: 091:265 (LAW:8460) and 091:370 (LAW:9060).

091:373 (LAW:9066) Stephenson Trial Advocacy Team arr.
Student participation as College of Law representatives in Stephenson Trial Advocacy Competition. Prerequisites: 091:374 (LAW:9061).

091:374 (LAW:9061) Advanced Trial Advocacy - Stephenson Competition 1-2 s.h.
Review and expansion of topics presented in the initial trial advocacy course; preparation and application of these principles in the Stephenson trials; introduction to additional advanced problems such as the evidentiary issues raised in the trial problem. Corequisites: 091:370 (LAW:9060).

091:375 (LAW:8977) Advanced Trusts and Estates Practice 2 s.h.
Wide range of current issues in modern family estate planning; difficult non-tax issues in family estate planning, difficult tax-sensitive planning issues affecting clients of modest means, difficult complex tax planning issues affecting wealthy clients. Prerequisites: 091:378 (LAW:8981).

091:376 (LAW:8711) The Legal Profession 1-3 s.h.
Exploration of various aspects of history, structure, organization and function of legal profession; effective practice strategies; ethical and practical challenges of legal practice in different settings (i.e., working for judges, small and big firms, solo practice, corporations, non-profit organizations, public sector, internationally); readings, interviews, and discussion sessions with practicing attorneys; development of professional portfolios; practice of professional skills including effective communication, professional legal writing, and interviewing.

Legal schemes for securing and using water rights in surface water and groundwater for private and public uses in the United States; riparian and prior appropriation doctrines of water allocation, groundwater management regimes, federal water management and regulation, and interstate and transboundary allocation devices; evolving role of science, economics, and policy in water allocation law; does not address issues of water quality, which are covered in environmental law.

091:378 (LAW:8981) Trusts and Estates I 1-4 s.h.
Transmittal of wealth within the family; policy of donative freedom, with focus on property law, including intestate succession, wills, lifetime transfers in trust or otherwise, powers of appointment, future interests; experience drafting a will, trust, or other estate planning document; for 4 s.h., additional classes on federal estate, gift, generation shipping transfer taxes, their effect on wealth transfer.

091:379 (LAW:8979) Trusts and Estates II arr.
Substantive provisions of wills and trust instruments; recurring construction problems and pitfalls in drafting; powers of appointment; future interests and how they operate in complex trusts; impact of rules of policy restricting the disposition of property, including the rule against perpetuities. Corequisites: 091:378 (LAW:8981).

091:382 (LAW:8167) The American Legal Experience 3-4 s.h.
Historical role of law in American society and its engagement with politics, social and biological science, economics. Same as 16A:179 (HIST:4287).

091:385 (LAW:8399) Election Law 3 s.h.
The Supreme Court has long declared that the right to vote is fundamental, because it is preservative of all other rights; the right to vote in theory and practice, with focus on its relationship to racial and economic justice; what has been done and what should be done to move us closer to the ideal of political equality; proper role of unelected judges in our democracy; history of the right to vote, “one person, one vote” principle, Voting Rights Act, partisan gerrymandering, voter identification, voter registration, political parties, and campaign finance.

091:390 (LAW:9346) British Legal Methods Clinical Program 3 s.h.
British Law externship; placement in London law office under guidance of barrister or solicitor; seminar and enrollment in course on English legal system taught by faculty of King’s College, University of London.

091:395 (LAW:9335) Summer Legal Placement 1-3 s.h.
Externship opportunities for direct involvement in activities characteristically performed by attorneys (e.g., research and writing, document drafting, client interviewing and counseling, fact investigation, negotiations, court appearances); in-depth exposure to as many facets of the actual practice of law as practicable in each externship.

One-semester student assignments to the chambers of selected judges, at both trial and appellate levels; experience participating in work of the chambers, including researching and writing memoranda to the court, drafting opinions, other court business.

091:400 (LAW:9115) Law Review 1-2 s.h.
Work on Iowa Law Review.

Experience on the Iowa Law Review editorial staff: managing production, overseeing business operations, administering student writing program, selecting and editing articles for publication, supervising student research and writing. Eligibility based on previous writing for the journal. Prerequisites: 091:400 (LAW:9115).

091:402 (LAW:9046) Moot Court Board 1-3 s.h.
Experience as member of the Moot Court Board administering the Appellate Advocacy Program, researching appellate cases used in the program, judging appellate arguments. Requirements: membership based on performance in 091:210 (LAW:9010).

091:403 (LAW:9037) Advanced Moot Court Competition Team 1 s.h.
Advanced Moot court team; members are top advocates from previous year’s Van Oosterhout/Baskerville competition. Fall of third year.

091:404 (LAW:9021) Van Oosterhout Baskerville Moot Court Competition 1 s.h.
Single-elimination tournament culminating in the final four advocates arguing before a panel of judges; advocates write a portion of the brief, argue for and against the issue they briefed. Prerequisites: 091:210 (LAW:9010).

091:406 (LAW:9302) Clinical Law Program--Internship 1 s.h.
Experience working directly with faculty members on cases and in-house program; full participation in interviewing, fact investigation, negotiation, courtroom proceedings.

091:407 (LAW:9307) Clinical Law Program--Externship 1 s.h.
Experience representing clients through legal assistance offices in eastern Iowa, under supervision of faculty members and staff attorneys.

091:408 (LAW:9033) National Moot Court Competition 1 s.h.
Participation by third-year students as law school's representatives in the regional Moot Court competition (fall semester), and in judging intramural Moot Court competitions (spring semester). Requirements: placement as one of four finalists in 091:404 (LAW:9021).

091:414 (LAW:9051) National Arbitration Competition Team 1 s.h.
Eight finalists from spring intramural arbitration competition represent the College of Law at the National Arbitration Competition in fall of second or third year.

091:415 (LAW:9124) Journal of Corporation Law 1-2 s.h.
Experience editing articles and writing commentaries for The Journal of Corporation Law, a student-operated scholarly publication that examines subjects of current importance to businesses and the bar.

Experience on The Journal of Corporation Law editorial staff: managing production, overseeing business operations, administering student writing program, selecting and editing articles for publication, supervising student research and writing. Eligibility based on previous writing for the journal. Prerequisites: 091:415 (LAW:9124).

091:420 (LAW:9142) Transnational Law and Contemporary Problems Journal 1-2 s.h.
Experience researching and writing on issues in international and comparative law for the journal Transnational Law & Contemporary Problems. Requirements: second- or third-year law standing.

091:421 (LAW:9145) Student Journal Editor--TLCP Journal arr.
Experience researching, writing, and editing on issues in international and comparative law for the journal Transnational Law & Contemporary Problems. Requirements: second- or third-year law standing.

091:425 (LAW:9163) Journal of Gender, Race and Justice 1-2 s.h.
Academic year experience on The Journal of Gender, Race & Justice: writing two journal pieces, including a recent development and a note or a comment, and performing office duties. Requirements: second- or third-year law standing.

091:426 (LAW:9166) Student Journal Editor--Gender, Race and Justice arr.
Experience on The Journal of Gender, Race & Justice editorial staff: managing student writing program, overseeing business operations and production, selecting symposium topic and participants, selecting and editing all publications pieces; eligibility based on writing and editing experience.

091:430 (LAW:9038) Jessup International Moot Court Competition 1 s.h.
Participation by second-year students in intramural regional- and national-level moot court competition in international law; intensive criticism in appellate brief writing and oral argument. Prerequisites: 091:210 (LAW:9010).

091:431 (LAW:9028) Jessup Moot Court Competition Team 1-2 s.h.
Participation as team member in Jessup International Moot Court Competition; preparation of memorials in fall, travel to February regional rounds; travel to international competition in Washington, D.C., for top two teams. Prerequisites: 091:210 (LAW:9010).

091:445 (LAW:9380) Courts Colloquium 1 s.h.
Opportunity to learn about inner workings of American judicial system through the lens of many judges; each semester centered on a theme (i.e., Iowa Courts, State Supreme Courts); sessions led by judges who, based on their positions, fit within selected theme.

One-semester externship with Justice Holland of the Delaware Supreme Court or with Vice Chancellor Parsons of the Court of Chancery of the State of Delaware.

091:455 (LAW:9413) Health and Elder Law Practicum 1-3 s.h.
Opportunity to participate in research involving current health law and policy issues, in collaboration with organizations such as public health agencies, health professional organizations.

091:500 (LAW:9490) Independent Research Project
Work under faculty supervision; research.

091:501 (LAW:9486) Directed Research and Writing
Research and writing project unrelated to any substantive course, supervised by a faculty member.

091:502 (LAW:9481) Supplementary Writing
Supplemental writing project that is related to a student's course, but goes beyond the requirements for the course, and is supervised by the faculty member who teaches the course.

091:503 (LAW:9473) Writing Tutorial
Writing project on a subject or topical area specified by the supervising faculty member; group meetings; writing tutorial.

091:504 (LAW:9424) Tutorial
Work under faculty supervision: may involve substantive area of the law of jurisprudential ideas as they appear in various intellectual spheres; tutorials.

091:505 (LAW:9491) Independent Research
Work under faculty supervision; research.

091:506 (LAW:9444) LL.M. Tutorial
1 s.h.
Requirements: LL.M. candidate.

091:507 (LAW:9427) First Amendment Tutorial: Religion Guarantees
Focus on varied issues decided in the course of the Supreme Court’s still-unfolding jurisprudence under the First Amendment Religion Guarantees.

091:508 (LAW:9429) Intellectual Property Advocacy
1-3 s.h.
Integrates teaching of substantive intellectual property law with development of oral and written advocacy skills in intellectual property field; builds on earlier learning in preparation for practice of law.

091:512 (LAW:9433) Service Tutorial
Designed to enhance learning through the completion of a group service project. Corequisites: 091:265 (LAW:8460).

091:513 (LAW:9423) Tutorial
1 s.h.
Different types of pedagogical techniques.

091:514 (LAW:9435) Sexual Orientation and the Law Tutorial
Exploration of the intersection of law and sexual orientation.

091:520 (LAW:9450) Patent Law Tutorial
Examination of recent patent-related en banc Federal Circuit and Supreme Court decisions. Prerequisites: 091:286 (LAW:8643) or 091:324 (LAW:8763).

091:600 (LAW:9502) Abused, Neglected, and Dependent Children
Laws relating to abused, neglected, and dependent children—those not receiving proper parental care and protection as defined by statutes and case law; history of child abuse, neglect, and dependency laws; jurisdiction of juvenile and family courts; abuse, neglect, dependency proceedings; termination of parental rights in abuse, neglect, and dependency cases.

091:601 (LAW:9518) Advanced Topics in Corporate Law
Wide range of topics: theory of the firm, fiduciary duties, corporate counseling issues, history of corporate law, and so forth. Requirements: one law or business course in corporate law.

091:603 (LAW:9549) Capital Punishment
Overview of the death penalty as presently applied in America; moral issues; long-term trends limiting the use of the death penalty in the United States and abroad; legal issues and Eighth Amendment jurisprudence that has developed since the 1960s regarding limits on the exercise of juror discretion, jury selection, proportionality, the execution of minors, racial discrimination, mens rea requirements, capital appeals and collateral attacks, and death penalty lawyering; critique of death penalty bills proposed in recent years for Iowa.

091:604 (LAW:9863) Patent Prosecution Seminar
3-4 s.h.
Drafting seminar on patent application preparation and prosecution; student drafting exercises and presentations on advanced patent law topics; administrative rules and procedures governing practice before the U.S. Patent and Trademark Office; for students who plan to practice patent law. Prerequisites: 091:324 (LAW:8763).

091:610 (LAW:9504) Advanced Problems in Contract Law
Study of contract law beyond what was covered in the first-year course; in-depth review of selected topics, recent developments.

091:613 (LAW:9557) Constitutional Interpretation Seminar
How the United States Supreme Court interprets the Constitution; particular emphasis on substantive due process and equal protection doctrine. Corequisites: 091:252 (LAW:8280).

091:615 (LAW:9563) Topics in Criminal Procedure
In-depth look at criminal procedure topics not addressed or discussed briefly in basic criminal procedure courses, including jury selection, trial strategies, bond hearings, litigating suppression motions, sentencing advocacy, inner workings of courtrooms, and mass incarceration.
Concept of cultural property, measures for its protection, impact of these measures on the transfer of cultural items; traditional art and architecture, biological and fossil material, human remains; contexts in which issues have arisen, such as stolen cultural property, property acquired during armed conflict and in colonial settings, and property collected in the field or excavated; international, national, and state law, including UNESCO convention on illicit transfer of cultural property, U.S. Archaeological Resources Protection Act, Native American Graves Protection and Repatriation Act; how developing professional ethics codes affect the concept of cultural property.

Production of a model statute addressing the range of issues in the selected subject area with suggested solutions; definition of statute’s scope, research projects to identify existing law and develop competing ideas and approaches; further definition and a vote on the statute’s scope and policies; further research memoranda as the statute takes shape; drafting of the statute with seminar review sessions; students work as a draft committee modeled after the Commission on Uniform State Laws.

Range of corruption issues in key countries; legislative, regulatory, and other methods used to combat it; roles of lawyers in advising and litigating on business and other corruption cases; developing anti-corruption programs; a growing legal specialty, omnipresent in international legal practice, as lawyers advise on the Foreign Corrupt Practices Act in the U.S., national anti-corruption and anti-fraud regulation in countries around the world, and international agreements in the area; law and development specialists’ work with national governments, the United Nations, regional bodies, and nongovernment organizations to craft solutions to this set of problems.

Qualification for Medicaid, elder abuse and neglect, discrimination in employment and elsewhere, retirement pension planning and taxation, elderly patients’ rights in nursing homes; conservatorships and guardianships.

Race relations and racial discrimination in America from perspectives of the Critical Race Theory movement (CRT); affirmative action, hate speech, queer theory, voting rights, postmodernism, liberalismo, Asian-critical theory, Latin-critical theory, federal Indian law, critical white studies; critical race feminism—essentialism, motherhood, lawbreaking, employment law, sexual harassment, global issues.

The wide range of legal and public policy issues created by the newly-emerging electronic technologies; focus on student research, writing, presentations, discussion.

Exploration of selected focus topics, may include developments in the law of the home and the law of the workplace (free labor, worker immigration, apprenticeship, indentured labor, slavery); women’s legal history; land issues and various Homestead Acts; Blackstone in America; Reconstruction of the Constitution after the Civil War; The National Archives—which houses American legal historical documents—displays the phrase, “What is past is prologue,” legal history that explains how we got to the legal present and to understand what is the law, you have to know how something got to be the law.

Regulation of smoking and tobacco use; history, beginning with 19th and early-20th centuries; state statutes and case law; OSHA, EPA, and FDA regulations; class action litigation, involvement of law firms in formulating tobacco company strategies, use of medical studies, economic history of the tobacco industry.

Practice of law in and for a complex institution; problems confronting attorneys in higher education, doctrinal issues prevalent in a university setting; focus on real or hypothetical problems considered in light of background reading rather than doctrinal analysis.

How a single crime may occur in or harm more than one nation; questions addressed: which courts have jurisdiction, whose law governs; when countries may apply their criminal law extraterritorially; collaborative enforcement; the International Criminal Court.

Study of problems and issues in the complex world of international finance and development; focus on the International Monetary Fund and the World Bank; research and writing a new issue for the UIICFID web site.

Islamic legal and political legacy from formative period until modern time; critical analysis of logic and context of development; development of jurisprudential, legal, and political literature; overview of theories and practices of governance in Islam beginning with Caliphate system and ending with modern nation-state models. Same as 032:225 (RELS:6723).

Varied topics: antitrust, intellectual property, corporate, securities law, or the interfaces between those areas; taught by one or more College of Law faculty with some sessions taught by expert visitors from other institutions, including government officials and representatives of private enterprise; interdisciplinary course offered under the aegis of the Iowa College of Law Center on Innovation, Business, and Law.
Opportunity to explore certain questions of jurisprudence at greater depth; topics may vary, ranging from foundational questions to issues with strong practical implications for public policy, remarkable career of conventionalism in contemporary American legal theory, debate over whether there is one and only one right answer to legal questions, foundation of legal system concerns, or questions of great practical import (e.g., nature and limits of public shaming or issues of criminal punishment). Recommendations: 091:280 (LAW:8577).

091:646 (LAW:9849) Nonprofit and Philanthropic Organizations
Issues in law and policy relating to philanthropic and nonprofit institutions; creation, role, nature, and history of nonprofit entities; tax exemption, tax treatment (including property and donor tax issues); political and legislative activities; roles of members, directors, officers; problems of external regulation, accreditation, ethics; special issues for religious organizations, community foundations, private foundations, universities; development of philanthropic and nonprofit activity in foreign jurisdictions.

How law really functioned at the edges of the nation’s jurisdictional limits; earlier patterns of power, adjustments for environmental circumstances; difference between concepts of law and justice.

091:649 (LAW:9803) Law and Social Science
Fundamental legal concepts and theories built on empirically testable assumptions about human behavior and decision making; testing common sense assumptions against relevant psychological and social neuroscience research; focus on domains of criminal law and criminal procedure.

091:655 (LAW:9811) Law of War, Peace, and Military Affairs
Three aspects of law’s efforts to govern military affairs: international law of war, U.S. law regulating foreign commitment of the nation’s military forces, rights of individual soldiers (particularly women, homosexuals, religious observers).

091:656 (LAW:9801) Law and Religion
Role of law in ongoing conflicts over the relationship between religion, morality, and society in the United States.

091:657 (LAW:9826) LL.M. Seminar
Basic research and analytical methodologies for the international and comparative law fields; workshop approach to project proposals; drafts.

091:658 (LAW:9616) Seminar on the First Amendment
Issues decided in the Supreme Court’s unfolding jurisprudence under the First Amendment; varied topics from year to year.

091:659 (LAW:9758) Law and Lawyers in Literature
Fundamental societal issues and ethical questions examined through discussion of literary works, including novels and plays by writers such as Camus, Coetzee, Dostoevsky, Durrenmatt, Faulkner, Ibsen, Kafka, Melville, Schaffer, Thucydides.

091:660 (LAW:9455) Medical Tutorial for Law Students
Participation on medical and/or surgical rounds under supervision of attending physician; didactic sessions on legal, medical, and ethical issues arising from the clinical experience, and issues such as peer review, credentialing, quality assurance, cost containment, AIDS, reproductive technology; recent developments in medical technologies. Cosponsored by Carver College of Medicine. Prerequisites: 091:261 (LAW:8562).

091:661 (LAW:9818) Legal Issues: Intercollegiate Athletics
Legal issues affecting college and university athletics and athletes; includes drug testing, recruitment, gender equity (Title IX), NCAA regulations, endorsement contracts, coaching contracts, trademark licensing, and broadcasting rights.

091:663 (LAW:9528) Advanced Topics in International Law
Contemporary problems of public international law and policy; issues arising from armed conflict, use of force, pacific settlement of disputes; human rights law and policy (individual civil, political, economic, social, and cultural rights; group rights such as self-determination, development, environment, peace); trade and development; environmental law and policy (e.g., climate change, species extinction, pollution).

091:666 (LAW:9841) Notable American Trials: Trial Skills
Trial skills and strategy; real trial transcripts, contemporary accounts of the selected trials, secondary literature evaluating what actually happened in the courtroom and relevant history; skills of opening and closing argument, voir dire, direct and cross examination, witness selection, use of exhibits.

091:667 (LAW:9717) Iowa Medical Innovation Group Seminar
Team of law, medicine, engineering, and business students observe medical procedures, interview surgical and other medical personnel, and originate an idea for a medical device; design and produce figures or prototype, reports on patentability, and draft patent application; design business model for marketing with required legal documents, which may include entity documents and licensing documents; law students procure necessary intellectual property rights, business association documents, contracts, and licensing agreements.

091:671 (LAW:9933) Selected Topics in Health Care Law
Examination and analysis of issues relating to the delivery of health care; topics may include doctor/patient relationship, financing of health care, public health issues, bioethics issues; preparation and presentation of papers in seminar.

091:672 (LAW:9912) Selected Issues in Family Law
In-depth look at an issue or set of issues in family law; relevant cases, statutes, scholarship; class visits or on-the-job observations with community members who play roles in the family law process being examined.

091:673 (LAW:9920) Federal Criminal Sentencing
Sentencing as a key stage of the criminal justice system; purposes of sentences, guilty pleas, and plea bargaining; procedural rights during the sentencing process; types of sentencing statutes, federal guidelines, and the federal death penalty; supervised release, probation, and revocation of supervised release and collateral; consequences and sanctions.
Power of state courts to independently interpret state constitutional provisions that are identical or similar to the federal counterparts; various approaches taken by state courts with respect to this issue; in-depth analysis of cases where a state court has departed from the federal interpretation. Prerequisites: 091:232 (LAW:8280).

091:680 (LAW:9959) Supreme Court Seminar arr.
Supreme Court practice, procedure, jurisdiction; the art of opinion writing; in-depth analysis cases on the court’s pending docket; writing briefs, conducting research, conferencing cases sitting as a mock Supreme Court, assigning and preparing opinions, soliciting votes of colleagues; preparation of two opinions.

Addresses slowly developing sense of crisis in public law worldwide, arising from attempt to use a model of law as an autonomous force in society that arose in the development of Western legal traditions as a way of resolving private disputes and only later applied to resolution of disputes between private citizens and the state; how this model is called upon to resolve disputes of great political salience involving various state or supra-national actors increasingly in the modern world; can public law provide what is expected of it, and is public law an experiment that has run its course?

Examination of issues arising out of contemporary problems of immigration law and policy; topics vary, may include critical analysis of initiatives for national, state, and local immigration reform; traditional class-based component, experiential component, advanced legal research component, and rigorous writing requirement. Requirements: 091:280 (LAW:8577) or legal clinic experience.

091:689 (LAW:9537) Appellate Adjudication Seminar 3-4 s.h.
Introduction to skill and art of writing appellate judicial opinions; brief, preliminary study of appellate jurisdiction and procedure; group responsibility for deciding a number of cases pending before regional appellate courts (e.g., the Iowa Supreme Court, the United States Court of Appeals for the Eighth Circuit); students study briefs and conduct additional research as appropriate, conferencing cases sitting as a mock appellate court, assign and prepare opinions, solicit votes, and write one or two opinions.

Law Study Abroad

660:460 (LWAB:9220) Law Study Abroad at Bucerius
Exchange student study at Bucerius Law School, Hamburg, Germany. Fall semester.

660:463 (LWAB:9223) Law Study Abroad at Catolica University
Exchange student study at the University of Católica in Lisbon, Portugal.

660:464 (LWAB:9226) Law Study Abroad at Radboud University Nijmegen
Exchange student study at Radbound University in Nijmegen, Netherlands.
Carver College of Medicine

Dean
• Debra A. Schwinn

Executive associate dean
• Donna Hammond

Senior associate dean, scientific affairs
Associate dean, clinical and translational science
• Patricia L. Winokur

Associate dean, student affairs and curriculum
• Christopher Cooper

Associate dean, faculty affairs and development
• Lois J. Geist

Associate dean, cultural affairs and diversity
• Sherree A. Wilson

Associate dean, information technology
• Boyd Knosp

Associate dean, graduate medical education
• Mark C. Wilson

Associate dean, clinical affairs, and executive director, University of Iowa Physicians
• Craig Syrop

Assistant deans
• Denise Adams, David Asprey, Steven Craig, Daniel Fick, James D. Henderson, Nancy Rosenthal, Roger Tracy

Undergraduate majors: medical laboratory science (B.S.); nuclear medical technology (B.S.); radiation sciences (B.S.)

Professional degree: M.D.

Graduate degrees: M.A.; M.M.E.; M.P.A.S.; M.P.T.; M.S.; D.P.T.; Ph.D.

Web site: http://www.medicine.uiowa.edu

The Roy J. and Lucille A. Carver College of Medicine is an integral part of The University of Iowa. It contributes to the education of several thousand University students, is home to ground-breaking research in a wide array of disciplines, and provides a statewide health care resource.

The Carver College of Medicine is the only college in Iowa that offers a curriculum leading to the Doctor of Medicine. It also offers a Bachelor of Science in medical laboratory science, nuclear medicine technology, and radiation sciences (see "Undergraduate Programs" later in this Catalog section) as well as Master of Science and Doctor of Philosophy degrees in several disciplines, the Master in Medical Education, the Master of Physician Assistant Studies, and the Doctor of Physical Therapy (see "Graduate Programs" later in this section).

Doctor of Medicine and other health sciences students have a number of opportunities to gain experience in private medical offices, community hospitals, and a major academic medical center. M.D. graduates may pursue further training in the specialties of family medicine, internal medicine, surgery, and pediatrics at one of 13 University of Iowa-affiliated residency programs in six Iowa cities.

The college also participates in the education of students in the Colleges of Dentistry, Nursing, Pharmacy, and Public Health and in the life-sciences and health-related programs of the College of Liberal Arts and Sciences, the College of Engineering, and the Graduate College.

Health professionals from throughout the Midwest take part in the college’s year-round continuing medical education programming, updating their knowledge and skills through refresher courses, clinics, and conferences. The college also offers a variety of services that support Iowa physicians and community hospitals.

In addition to providing education and resources for physicians and other health care organizations, the college addresses broad public issues of distribution and organization of health care services. Its faculty members advise and serve on national, state, and regional health planning councils, health boards, and various health agencies.

Accredited by the Liaison Committee on Medical Education of the American Medical Association and the Association of American Medical Colleges, the Carver College of Medicine meets the requirements of all state licensing boards. Its M.D. diploma admits the holder to all privileges granted to graduates of all medical colleges before such boards. All other professional programs administered by the college are accredited by their respective accrediting bodies.

Professional Program of Study (M.D.)

The Doctor of Medicine is a four-year program that prepares students to practice primary care medicine and to pursue further education and training in specialized areas of medicine. For a description of the M.D. curriculum and information about admission to the program, financial support, and academic rules and procedures, see Doctor of Medicine (p. 1019) in the Catalog.

Undergraduate Programs of Study

The Carver College of Medicine offers a Bachelor of Science with majors in medical laboratory science, nuclear medicine technology, and radiation sciences. The clinical laboratory sciences major is offered through a partnership with the University of Nebraska Medical Center. See Medical Laboratory Science (p. 1037), Nuclear Medicine Technology (p. 1052), and Radiation Sciences (p. 1090) in the Catalog.

Undergraduate study in the Carver College of Medicine is guided by the following academic rules and procedures.
Health Insurance, Immunizations
All health professions students are required to provide proof of health insurance coverage annually. Contact the University Benefits Office or visit its web site.
All health sciences students must show proof of health examinations and screenings annually. For more information, contact Student Health & Wellness and see Requirements and Forms on its web site.

Application for Degree
Students who want to be considered for graduation must file an Application for Degree with the Office of the Registrar before the deadline for the session in which the degree is to be conferred. Students who want to have a minor listed on their transcript must indicate this on the degree application form so that completion of the requirements for the minor can be verified.

Academic Recognition
The University of Iowa and the Carver College of Medicine recognize academic achievement every fall and spring semester.

GRADUATION WITH DISTINCTION
Graduating students may be recognized for their scholastic achievement upon recommendation by their academic program and with the dean's approval. Graduation with distinction, high distinction, or highest distinction is determined by cumulative and University of Iowa grade-point average. Highest distinction requires a g.p.a. of 3.85 or higher; high distinction requires a g.p.a. of 3.75 to 3.84; and distinction requires a g.p.a. of 3.65 to 3.74. Radiologic technology certificate course grades are not included in grade-point-average.
To graduate with distinction, students must have completed a minimum of 60 s.h. in residence at The University of Iowa and must have completed 45 of the final 60 s.h. before their final semester of registration.
Students graduating with distinction are recognized at graduation and a notation is added to their transcript and diploma.

DEAN’S LIST
Undergraduate students who achieve a g.p.a. of 3.50 or higher on 12 s.h. or more of University of Iowa graded course work during a given semester or summer session and who have no semester hours of I (incomplete) or O (no grade reported) during the same semester are recognized by inclusion on the Dean’s List for that semester. Students may qualify for the Dean’s List with fewer than 12 s.h. of graded credit if deemed appropriate by the college.

PRESIDENT’S LIST
University of Iowa undergraduate students who achieve a g.p.a. of 4.00 on 12 s.h. or more of University of Iowa graded course work and who have no semester hours of I (incomplete) or O (no grade reported) for two consecutive semesters (excluding summer sessions) are recognized by inclusion on the President’s List.

Financial Support
Students are eligible to apply for undergraduate financial aid. Scholarships, grants, loans, and part-time job placement are administered by the University’s Office of Student Financial Aid. Part-time work in related areas is sometimes available.

Registration, Credit, Grading

REGISTRATION
Information about tuition and fees, registration, and deadlines is available from the Office of the Registrar. Students who add or drop a course after registration or who register late are assessed a fee. Each course dropped after the deadline results in a W (withdrawal) on the transcript (see Changes in Registration below). Students are not allowed to register for full-semester courses after the second week of the semester or the first week of the summer session. Students must register for off-cycle courses before the first day of the course. The maximum permitted registration is 20 s.h. in a regular semester and 10 s.h. in the summer session. Students must obtain permission from the head of the division to register for more than the maximum semester hours allowed.

CHANGES IN REGISTRATION
Courses may be added with the signatures of the advisor and the course instructor at any time during the first one-fifth of the course. They may be dropped at any time during the first two-thirds of the course. Approval is required from the dean of the Carver College of Medicine for all other changes in registration and is granted only in extraordinary circumstances. Students are assigned a mark of W (withdrawn) for any course dropped after the first one-fifth of the course. Students whose drop of one or more courses results in a registration of 0 s.h. for the semester must follow the procedure for withdrawal from the University instead of the add/drop procedure.

Students who have registered for courses offered for variable or arranged credit may change the number of semester hours with the signatures of the instructor, the advisor, and the head of the division at any time before the end of the first two-thirds of the course.

Other changes in registration (such as to audit for zero credit) may be made only during the first one-fifth of the course.

It is the student’s responsibility to see that the change of registration form is approved by the necessary individuals and is delivered to the Registration Center. Changes in registration become effective on the date the completed form is submitted to the Registrar’s Service Center.

WITHDRAWAL OF REGISTRATION
Students may withdraw registration without academic penalty at any time before the end of the first four-fifths of the course, but no credit is given for the course. Later withdrawal results in automatic assignment of an F. Students who withdraw are not reinstated after the deadline for that session.

AUDITING COURSES
Students may register to audit a course with approval of the appropriate program director and course instructor. In addition to obtaining these signatures, students must register for zero credit in the course to be audited. The mark of AUS (audit successful) is assigned if the student’s attendance and performance are satisfactory; if they are unsatisfactory, the mark of AUU (audit unsuccessful) is assigned. Courses completed with a mark of AUS do not meet any college requirement and carry no credit toward
graduation. Auditing may not be used as a second-grade-only option.

**COURSES OfferED BY OTHER UNIVERSITY OF IOWA COlLEGES**

Students who enroll in courses offered by other University of Iowa colleges are governed by those colleges’ rules in matters regarding the courses. See Policy Governing Students Enrolled in Courses Outside Their Own College or Degree Program.

**IN-RESIDENCE REQUIREMENT**

The in-residence requirement may be met by earning the final consecutive 30 s.h. in residence at The University of Iowa, or 45 of the last 60 s.h. in residence, or an overall total of 90 s.h. in residence.

Nonresident instruction includes course work and correspondence study at other colleges, universities, and institutions. Undergraduate course work in other University of Iowa colleges counts toward in-residence requirements.

**DUPLICATION AND REGRESSION**

Duplication occurs when students take the same course more than once or when they take a course that duplicates the content of a course they already have completed satisfactorily. Regression occurs when students take a course that is less advanced or at a lower level than one in the same subject that they already have completed satisfactorily. Duplication and regression are assessed by the registrar at the time of graduation analysis. Semester hours earned by duplication or regression do not count toward graduation.

**MINIMUM GRADE REQUIREMENT**

Students must earn a g.p.a. of at least 2.00 each semester in all college work attempted, all work undertaken at The University of Iowa, and all graded work attempted after admission to the Carver College of Medicine. Students enrolled in a program that uses the pass/fail/honors grading system must pass all courses required to complete the program.

Students must earn a C or higher in professional specialty (modality) courses.

**GRADING PROCEDURES**

Grading procedures vary from program to program. Students should consult individual program policy statements for information.

**PASS/NONPASS**

Students may take a maximum of 15 s.h. of course work pass/nonpass (P/N). Students must be in good academic standing (not on academic probation) to be eligible for the pass/nonpass option. They may take a maximum of two P/N courses in one semester. Courses taken P/N may not be used to satisfy General Education requirements or requirements for a major or a minor. Students may use P/N for elective courses that are not part of their major.

P/N registration must be completed during the first 10 days of a fall or spring semester, the first one and a half weeks of a summer session, or the first one-fifth of an off-cycle course. Students must have the approval of the advisor and the instructor and must submit a P/N form with the advisor’s and instructor’s signatures to the Registration Center by the appropriate deadline.

Earned grades of C-minus and higher are recorded as P; earned grades of D-plus and lower are recorded as N. Credit from P/N courses is not included in grade-point-average calculations, but courses graded P count toward graduation.

**SECOND-GRADE-ONLY OPTION**

Repeating courses for the second-grade-only option is allowed in extraordinary circumstances. To repeat a course for the second-grade-only option, students must obtain the signatures of the course instructor, the program director, and the dean on a form available from the dean’s office; the signed form must be returned to the Registrar’s Service Center before the end of the first one-fifth of the course. Both grades remain on the permanent record, but only the second one is used to calculate grade-point average and credit earned. Students using the second-grade-only option for courses that are not part of their major must follow the procedure for the college that offers the course.

**INCOMPLETE**

A grade of I (incomplete) may be reported if the reasons for inability to finish the course satisfactorily are acceptable to the program director and the course instructor. There also must be evidence that the course work will be finished within a reasonable length of time, usually by the end of the next academic session. Incompletes not removed by the deadline for submission of final grades for the next session result in the assignment of a grade of F. Changing the grade when an incomplete has been converted to an F requires the signature of the dean on a change-of-grade form.

**REPORTS TO STUDENTS**

Instructors notify any student whose work falls below the minimum acceptable level once the problem is recognized. Grades are reported on the student’s transcript, following University protocol. No formal midterm reports are given.

**Degrees and Minors**

**TWO BACHELOR’S DEGREES**

Students who want to earn two bachelor’s degrees, each from a different college, must graduate from one major, must apply to the college of the second major, and must complete the degree requirements for the second major, including the residency requirement.

**SECOND BACHELOR’S DEGREE**

Students who already hold a bachelor’s degree and wish to earn an additional bachelor’s degree must complete at least 30 s.h. consecutively in the Carver College of Medicine and must meet college and program degree requirements. Individuals interested in earning a second bachelor’s degree must apply for admission to the degree program at the University’s Office of Admissions.

**MINORS**

Students graduating from the Carver College of Medicine may earn a minor or minors in any degree-granting department or program in the college outside of their major department or in another college of the University by meeting that department’s requirements for the minor.
Academic Progress, Probation, Dismissal

Students are expected to maintain satisfactory academic and professional standards and to demonstrate reasonable progress toward the Bachelor of Science and certificate of completion. Students who fail to maintain satisfactory academic progress or professional standards of behavior as determined by their program may be placed on probation or dismissed from the program. Probation serves as a warning that the student will not graduate unless his or her academic performance and/or professional behavior improves.

Students on probation are restored to good standing by the program director upon evidence that the problem has been corrected. Such action is usually taken at the end of a semester or session. Entering students may be admitted on probation if they fail to meet the minimum stated standards for admission.

Continued unsatisfactory scholarship or unprofessional behavior may result in dismissal from a program. Students dismissed from a program must reapply for admission through the regular, established program admissions process, following review by a faculty committee, at least four months before the requested date of readmission.

Students placed on probation or dismissed from a program are notified in writing by the dean; copies are placed in their files. An academic probation notation is placed on the transcript.

In order to be restored to good standing, students placed on academic probation during a semester or summer session must have a University of Iowa g.p.a. and a cumulative g.p.a. of at least 2.00 by the end of the next semester (for full-time students) or by the time they have earned the next 8 s.h. (for part-time students). Students on academic probation who fail to meet the grade-point average requirement in the designated time frame for restoration to good standing are subject to dismissal at the end of the semester.

Students are expected to attend classes regularly. Students who miss classes or examinations because of illness are expected to present evidence that they have been ill. Any other absences must be approved in advance by the course instructor.

Any offense against good order committed by a student in a classroom, clinical setting, or laboratory may be dealt with by the instructor or referred to the program director. The instructor reports in writing any disciplinary action taken against a student to the program director. Repeated or exceptional instances are reported to the dean.

Academic Misconduct

PLAGIARISM AND CHEATING

All cases of plagiarism and cheating in the Carver College of Medicine are reported to the dean with a statement of relevant facts. The program director and the instructor may submit recommendations for appropriate disciplinary action.

The individual instructor may reduce the student's grade, including assignment of the grade of F in the course. A report of this action is sent to the student, the program director, and the dean.

The dean, or a faculty committee appointed by the dean, may impose the following or other penalties, as the offense warrants: disciplinary probation, requirement of additional hours for the degree, suspension from the program for a period of time, or recommendation of expulsion from the program.

APPEALS PROCEDURE

Students who want to appeal a decision should appeal in writing to the dean within two weeks after the date of receipt of the decision in writing.

Graduate Programs of Study

The Carver College of Medicine offers graduate programs leading to the M.S. in pathology (p. 1063); the M.S. and Ph.D. in biochemistry (p. 1009), free radical and radiation biology (p. 1029), microbiology (p. 1040), molecular physiology and biophysics (p. 1046), and pharmacology (p. 1070); the Ph.D. in anatomy and cell biology (p. 1002) and physical rehabilitation science (p. 1073); the Master in Medical Education (p. 1035) (M.M.E.); the Master of Physician Assistant Studies (p. 1081) (M.P.A.S.); and the Doctor of Physical Therapy (p. 1073) (D.P.T.).

It also offers a joint M.D./Ph.D. degree through the Medical Scientist Training (p. 1038) Program; see “Joint M.D./Graduate Degrees” in the Doctor of Medicine (p. 1019) section of the Catalog.

Many of the college’s faculty members participate in the Graduate College’s interdisciplinary programs in genetics, immunology, molecular and cellular biology, and neuroscience, and in its Biosciences Program.

The Biosciences Program gives graduate students the opportunity to become acquainted with basic molecular research in the Departments of Anatomy and Cell Biology, Biochemistry, Biology, Biomedical Engineering, Chemistry, Communication Sciences and Disorders, Microbiology, Molecular Physiology and Biophysics, Pharmacology, and the Programs in Free Radical and Radiation Biology, Genetics, Human Toxicology, Immunology, Molecular and Cellular Biology, Neuroscience, and Physical Therapy and Rehabilitation Science. The Biosciences Program offers graduate students flexibility during their first year of study, after which they select the department or program in which they will earn their Ph.D. degree. See Biosciences (Graduate College) for details.

Interdisciplinary Programs and Centers

The college’s interdisciplinary programs and centers draw strength from college faculty members and the facilities available to them, without regard to departmental units or to the distinction between graduate and postgraduate training. For more information, contact the senior associate dean for scientific affairs.

The following centers are subdivisions of the Carver College of Medicine.

Alzheimer’s Disease Research Center

The Alzheimer’s Disease Research Center studies Alzheimer’s disease and related neurological conditions from the viewpoint of neuroanatomy, neuroimaging,
neuropsychology, and neurochemistry. The center's purposes are to improve the diagnosis and treatment of these conditions, to disseminate information on new research to the public, and to contribute to a better understanding of the neural basis of cognition.

**Carver Genetic Testing Laboratory**
The John and Marcia Carver Nonprofit Genetic Testing Laboratory provides genetic testing for rare eye diseases, especially diseases so rare that commercial tests are unavailable for them. The laboratory's test results provide information to patients and their families while keeping the tests affordable.

**Holden Comprehensive Cancer Center**
The Holden Comprehensive Cancer Center (HCCC) coordinates the efforts of University of Iowa faculty and staff in research, education, and clinical programs related to all aspects of cancer. The HCCC is recognized by the National Cancer Institute as an NCI-designated cancer center and has "comprehensive" status, a designation that recognizes the depth and breadth of interdisciplinary cancer research activity taking place at the University of Iowa.

**Iowa Mental Health Clinical Research Center**
The major emphasis of the Iowa Mental Health Clinical Research Center is the study of schizophrenia. The center provides the facilities for research linking the clinical picture of the illness with its underlying neurobiology. The center’s seven research units conduct the necessary integrative and interdisciplinary research to advance knowledge about the disease.

**UI Heart and Vascular Center**
The UI Heart and Vascular Center coordinates research and training programs related to cardiovascular diseases. It encompasses several programs: Program Project Grant on Integrative Neurobiology of Cardiovascular Function, Program Project Grant on Cerebral Blood Vessels, Program Project Grant on Oxidative Mechanisms in Vascular Disease, Program Project Grant on Genetic and Signaling Mechanisms in the Central Regulation of Blood Pressure, Program Project Grant on Airway Physiology and Pathophysiology in a Porcine CF Model, Program Project Grant on Gene Therapy for Cystic Fibrosis Lung Disease, a Leducq Foundation Consortium grant, and a Cystic Fibrosis Foundation research and development program. It also coordinates several training programs and a program of other interdisciplinary research supported by a number of individual project grants. The center occupies two floors of cardiovascular research laboratories and administrative offices in the Medical Research Center.

**Facilities**

**Education and Patient Care Facilities**
Carver College of Medicine classes are taught in the Medical Education and Research Facility, Bowen Science Building, Medical Education Building, Medical Laboratories, and in University of Iowa Hospitals and Clinics classrooms and conference rooms.

The Medical Education and Research Facility contains the college’s four learning communities. The communities group students who are at different stages in their medical education, encouraging peer-to-peer learning and emphasizing leadership and community service. Each learning community features small-group rooms, study and social spaces, computer workstations, a kitchen area, and staff offices. The Medical Education and Research Facility also houses the Performance-Based Assessment Program, which evaluates students’ clinical and communications skills by reviewing simulated physician-patient encounters recorded in mock patient examination suites.

The Hardin Library for the Health Sciences is centrally located on the health sciences campus.

Students acquire clinical-skills experience at the 711-bed University of Iowa Hospitals and Clinics, the Iowa City Veterans Affairs Medical Center, and in affiliated hospitals and ambulatory care centers throughout Iowa.

University of Iowa Hospitals and Clinics serves as a tertiary care center for Iowa and portions of adjoining states. Many patients are referred to UI Hospitals and Clinics for care and treatment not available in their home communities.

**Research Facilities**
The Eckstein Medical Research Building provides space, mechanical systems, and support services that offer flexibility and adaptability for current and future research. The facility enables interdisciplinary groups of faculty scientists, each of whom is researching a human biology problem at the advancing edge of science, to conduct research in close proximity to other select researchers. It also is home to the Biomedical Research Store, which provides University of Iowa investigators with common molecular and cell biology enzymes, reagents, and kits.

The Medical Education and Research Facility houses research laboratories in addition to space for medical education. Connected to it is the Carver Biomedical Research Building. With a state-of-the-art nuclear magnetic resonance facility on its lower level and five floors of laboratories above, the Carver Biomedical Research Building greatly expands the college’s research capabilities.

Other buildings that house research labs include Medical Laboratories, Bowen Science Building, Medical Education Building, Medical Research Facility, Medical Research Center, and buildings at the University of Iowa Research Park.

The Office of Consultation and Research in Medical Education is staffed by education specialists from a range of disciplines who serve the faculty, staff, and administrators of all Carver College of Medicine programs. The office provides educational consultation, initiates and cooperates in educational research endeavors, and conducts faculty development activities.

Core Research Facilities are centralized laboratories dedicated to developing and providing resources that facilitate biomedical research. They are available on a fee-for-service basis to University of Iowa investigators as well as to entities outside the University.

Currently under construction is the Pappajohn Biomedical Discovery Building. The 225,000-square-foot, six-story facility, located adjacent to the Medical Education and Research Facility and the Carver Biomedical Research Building, is scheduled for completion in 2014. It will contain laboratories and office space and will house the Fraternal Order of Eagles Diabetes Research Center.
and the Pappajohn Biomedical Institute, which will bring together scientists from across campus to collaborate on high-risk, high-yield life sciences research.

Nondepartmental Courses

Most Carver College of Medicine courses are offered by the college's departments and programs. They are listed and described in the corresponding General Catalog sections; see the links under "Index: Academic Programs" toward the top of this page. The college also offers the following nondepartmental courses.

050:001 (MED:8001) Medical Elective  
Components of complete physical exam and educational techniques for teaching such skills: teaching of physical exam components to first-year students. Requirements: fourth-year M.D. enrollment.

050:003 (MED:8003) Clinical Clerkships  
050:005 (MED:8005) Medical Student Research Fellowships  
050:006 (MED:8006) Doris Duke Clinical Research Fellowship  
Clinical research projects under University of Iowa faculty mentorship. Requirements: leave of absence from Carver College of Medicine.

050:120 (MED:8102) Medical Cell Biology  
050:147 (MED:3740) End-of-Life Care for Adults and Families  

050:162 (MED:8105) Foundations of Clinical Practice I  
050:163 (MED:8115) Foundations of Clinical Practice II  
050:164 (MED:8205) Foundations of Clinical Practice III  
Experience practicing and expanding clinical skills and self-directed learning skills in clinical medicine; understanding medical practice in a social context. Prerequisites: 050:162 (MED:8105) and 050:163 (MED:8115). Requirements: second-year M.D. enrollment.

050:165 (MED:8215) Foundations of Clinical Practice IV ICD  
Basic diagnostic considerations in each of medicine's clinical disciplines, as required of primary care providers. Prerequisites: 050:162 (MED:8105), 050:163 (MED:8115), and 050:164 (MED:8205). Requirements: second-year M.D. enrollment.

050:168 (MED:8040) Teaching of Physical Exam Skills  
050:170 (MED:8300) Clinical Beginnings  
Orientation to third-year clerkships; technical skills, simulated patient activities, competence with the physical exam.

050:174 (MED:7205) Foundations of Clinical Practice for Physician Assistants  
Practice and expansion of clinical skills; development of broad understanding of the practice of medicine in social context; strengthening of self-directed learning skills in clinical medicine. Prerequisites: 117:101 (PA:8209). Requirements: Physician Assistant Studies and Services enrollment.

050:175 (MED:7215) Foundations of Clinical Practice IV for Physician Assistants  
Basic diagnostic considerations in each of medicine's clinical disciplines, as required of primary care providers.

050:176 (MED:8076) Bioethics and Humanities Seminar  
Broad range of topics in bioethics and medical humanities, including philosophical principles, clinical ethics, research ethics, medical professionalism, narrative ethics, and historical and cultural aspects of medicine. Requirements: Carver College of Medicine student in humanities distinction track.

050:178 (MED:8041) Facilitation of Patient-Centered Learning  
Experience in facilitating patient-centered learning groups; case discussion, critique of student presentations and assignments, clinical insight, evaluation of student performances.

050:180 (MED:8301) Community-Based Primary Care  
Introduction; clinical activities, work with community agencies and resources, didactic and conferences. Requirements: M.D. enrollment.

050:183 (MED:8213) Healthcare Ethics, Law, and Policy  
Ethical and legal aspects of health care delivery.

050:185 (MED:8070) The Examined Life: Writing and Medicine  
Literature, essays, poetry; discussion of participants' writing; students prepare portfolios of their own writing.

050:188 (MED:8071) Career Life Planning  
Students' individual interests, values, and decision-making processes important in selecting a specialty, engaging in the match process, and integrating oneself into the medical profession; personal career development, culture and climate in which physicians work and learn.

050:189 (MED:8072) Evidence-Based Medicine for Clinical Medicine  
1 s.h.
Evaluation of literature and development of critical thinking skills necessary for evidence-based medical practice.

**050:190 (MED:8010) Introduction to Medical Education at Iowa**

Introduction to first-year fall courses; advanced concepts in anatomy, biochemistry, cell biology, and clinical reasoning skills; for M.D. students.

**050:191 (MED:8073) Biomedical Innovation**

Introduction to all phases of medical device/technology development; development of knowledge of entire medical innovation process through didactic sessions, faculty, interactions, and interdisciplinary collaboration; interdisciplinary approach; research and development of a novel medical device, therapy, or model of care. Requirements: M.D. enrollment.

**050:195 (MED:8021) Community Health Outreach I**

Presentations and practical experience working with agencies that provide health care and wellness promotion to communities; substance abuse; child, adolescent, and adult health; aging; interpersonal violence; homelessness.

**050:196 (MED:8022) Community Health Outreach II**

Presentations, patient-based learning groups, readings, and practical experience working with agencies that provide health care and wellness promotion to communities; substance abuse; child, adolescent, and adult health; aging; interpersonal violence; homelessness.

**050:197 (MED:8023) Community Health Outreach III**

Presentations, patient-based learning groups, readings, and practical experience working with agencies that provide health care and wellness promotion to communities; substance abuse; child, adolescent, and adult health; aging; interpersonal violence; homelessness.

**050:203 (DIET:9203) Clinical Dietetics**

Nutritional aspects of health and disease, with emphasis on medical nutrition therapy; human nutrition in the clinical state as it relates to physiology and biochemistry.

**050:211 (MSTP:8511) MSTP Research**

Research experience. Requirements: Medical Scientist Training Program enrollment.

**050:212 (MSTP:8512) MSTP Clinical Connections**

Experience with physician-scientist preceptor in medical interviewing, physical examination, patient presentation through direct patient interaction. Requirements: Medical Scientist Training Program graduate phase enrollment.

**050:213 (MSTP:8513) Analyzing and Presenting Medical Research**

How to read, interpret, and present medical and scientific literature; students read and present representative papers from scientific and medical literature.

**050:240 (MED:8112) Human Organ Systems**

Microscopic structure and function of major and specialized human organ systems; approach integrating normal microscopic anatomy and human physiology. Requirements: M.D. enrollment.

**050:280 (MED:8401) Medicine, Literature, and Writing**

Insights, freedom, joy, responsibilities, and challenges of a life in medicine; reading, discussion, individual creative writing.

**050:281 (MED:8081) Global Health Issues I**

Core issues in the current field of global health, including history of global health, health and development, social determinants of health, measuring health and disease, disparities in the American health care system, poverty and health, gender issues and reproductive health, child health, immigrant and migrant health issues, and introduction of major players in global health. Requirements: M.D. enrollment.

**050:282 (MED:8480) Global Cross-Cultural Clerkship**

Cross-cultural medical program at an international site; focus on health care problems of a specific community; individual educational objectives set in advance.

**050:283 (MED:5300) Health Informatics I**

**050:284 (MED:8083) Global Cross-Cultural Elective**

Cross-cultural medical program with focus on health care problems of a domestic or international community; individually arranged.

**050:285 (MED:8082) Global Health Issues II**

Core issues in the current field of global health, including health care as a human right, why the Third World is the Third World, communicable disease issues, outbreaks and pandemics, noncommunicable issues, malnutrition and obesity, cultural context of health care, violence as a health issue, and emergency response and transition to development. Prerequisites: 050:281 (MED:8081). Requirements: M.D. enrollment.

**050:286 (MED:8028) Introduction to U.S. Health Care System**

Structure, function, and finance of U.S. health care system; access, cost, quality, finance mechanisms, reform process.

**050:287 (MED:8084) Global Health Seminar**

Presentations by faculty members, University special guests, and alumni on their current work in global medicine/global health; implementation of global health concepts. Requirements: M.D. enrollment.

**050:300 (MED:8403) Teaching Skills for Medical Students**

Practical teaching techniques; opportunity for students to develop teaching skills before they become medical residents.
050:301 (MED:8404) Advanced Teaching Skills for Medical Students  2 s.h.
Opportunity to expand knowledge and experience in medical education; investigation of medical education in students’ specialty of interest through literature research and interaction with faculty; primary focus is to design and successfully complete a faculty approved project. Prerequisites: 050:300 (MED:8403). Requirements: fourth-year M.D. enrollment.

050:310 (MED:8410) Patient Safety for Health Professional Students  2 s.h.
Interprofessional experience using multiple pedagogic methods, including team-based simulation to teach about patient safety and teamwork; collaboratively taught by representatives from anesthesia, pediatrics, internal medicine, Office of Consultation and Research in Medical Education, College of Nursing, College of Public Health, and office of UIHC chief quality officer. Same as 096:128 (NURS:3728).

050:351 (MED:8121) Clinical and Professional Skills I  3 s.h.
Interpersonal skills, lifelong learning, interviewing skills, physical examination skills, ethical issues in patient care, and basic approach to patients in terms of prevention, treatment, and follow-up care. First in a sequence offered during preclinical semesters of medical school and continuing as an integrated strand throughout curriculum. Requirements: M.D. enrollment.

050:352 (MED:8122) Medicine and Society I  3 s.h.
Knowledge and skills related to health promotion; disease prevention from a medicine and society perspective including impact of behavior, environment, culture, and socioeconomics; identification of major public health problems associated with mechanisms of health and disease. First in a sequence offered during preclinical semesters of medical school and continuing as an integrated strand throughout curriculum. Requirements: M.D. enrollment.

050:353 (MED:8131) Clinical and Professional Skills II  4 s.h.
Interpersonal skills, lifelong learning, interviewing skills, physical examination skills, ethical issues in patient care, and basic approach to patients in terms of prevention, treatment, and follow-up care. Second in a sequence during preclinical semesters of medical school and continuing as an integrated strand throughout curriculum. Requirements: M.D. enrollment.

050:354 (MED:8132) Medicine and Society II  4 s.h.
Knowledge and skills related to health promotion and disease prevention from a medicine and society perspective, including impact of behavior, environment, culture, and socioeconomics; identification of major public health problems associated with mechanisms of health and disease. Second in a sequence during preclinical semesters of medical school and continuing as an integrated strand throughout curriculum. Requirements: M.D. enrollment.

050:701 (MED:9701) Instructional Design and Technology  3 s.h.
Skills and techniques necessary for analysis, design, development, implementation, and evaluation of effective instruction.

050:702 (MED:9702) Clinical Teaching in Medical Education  3 s.h.
Principles and methods for teaching individuals and small groups in outpatient and inpatient settings. Prerequisites: 050:701 (MED:9701) or 07P:205 (PSQF:6205). Recommendations: educational psychology course.

050:703 (MED:9703) Educational Research and Evaluation  3 s.h.
Research design and program evaluation; approaches relevant to medical education.

050:711 (MED:9711) Teaching Methods in Medical Education  3 s.h.
Principles and methods for teaching in large and small classrooms. Recommendations: educational psychology course.

050:712 (MED:9712) Introduction to Educational Measurement in Medical Education  3 s.h.
Classical test theory; overview of medical education assessment methods; practical information for designing and critiquing assessments.

050:713 (MED:9713) Assessment in Medical Education  3 s.h.
Medical education assessment methods; research methods and literature that support current practices; research project. Prerequisites: 050:712 (MED:9712).

050:714 (MED:9714) Current Issues in Medical Education  3 s.h.
Selected issues, policies, and research.

050:720 (MED:9720) Portfolio Project  3 s.h.
Production of individual student portfolios used to integrate knowledge across courses; capstone activity.

050:721 (MED:9721) Study in Faculty Development  3 s.h.
Academic credit for approved project or other assigned activities for students in the Teaching Scholars program.

050:724 (MED:9724) Leadership in Medicine  3 s.h.
Introduction to basic leadership and management theories pertaining to a health care setting; focus on the history of leadership development, various components of leadership, and how these components can be used to be a successful leader/administrator. Requirements: Master in Medical Education degree program enrollment.

050:725 (MED:9725) Simulation in Medical Education  3 s.h.
Appropriate use of various types of simulation in medical education; how to design, deliver, and debrief a simulation activity; literature supporting use of simulation in medical education. Requirements: Master in Medical Education degree program enrollment.

050:999 (MED:8499) Individually Arranged Medicine Elective  arr.
Individually arranged elective through the Office of Student Affairs and Curriculum.

Hospital Certificate Programs of Study

The following courses are conducted by University of Iowa Hospitals and Clinics staff.

671:902 (OTP:4902) Orthoptics Program 0 s.h.
Clinical science of binocular vision, ocular motility, and related eye disorders; practical, theoretical training in the Department of Ophthalmology and Visual Sciences two-year program; written, oral and practical national board examinations required at completion. Requirements: bachelor's degree with specific class recommendations.

677:101 (EMTP:0101) Emergency Medical Technician--Paramedic I 0 s.h.
Preparation for role of entry-level paramedic: comprehension, application, and evaluation of the clinical role; demonstration of technical proficiency in all required skills; demonstration of personal behaviors consistent with professional and employer expectations. Requirements: certification as an emergency medical technician—basic.

677:102 (EMTP:0102) Emergency Medical Technician--Paramedic II 0 s.h.
Preparation for role of entry-level paramedic: comprehension, application, and evaluation of the clinical role; demonstration of technical proficiency in all required skills; demonstration of personal behaviors consistent with professional and employer expectations. Prerequisites: 677:101 (EMTP:0101).

677:103 (EMTP:0103) Emergency Medical Technician--Paramedic III 0 s.h.
Preparation for role of entry-level paramedic: comprehension, application, and evaluation of the clinical role; demonstration of technical proficiency in all required skills; demonstration of personal behaviors consistent with professional and employer expectations. Prerequisites: 677:102 (EMTP:0102).

Professional Degree

Doctor of Medicine (p. 1019)

Departments and Programs

Anatomy and Cell Biology (p. 1002)
Anesthesia (p. 1006)
Biochemistry (p. 1009)
Cardiothoracic Surgery (p. 1015)
Dermatology (p. 1017)
Dietetic Internship (p. 1018)
Emergency Medicine (p. 1024)
Family Medicine (p. 1026)
Free Radical and Radiation Biology (p. 1029)
Internal Medicine (p. 1031)
Medical Education Program (p. 1035)
Anatomy and Cell Biology

Chair
- John F. Engelhardt

Professors
- Adel K. Afifi, Brad A. Amendt, Martin D. Cassell, Masatake Kawai, Nicholas J. Pantazis

Associate professors
- Botond B. Banfi, Robert A. Cornell, Adam J. Dupuy, Charles A. Yeaman

Assistant professors
- Amit Choudhury, C. Andrew Frank, Fang Lin, Hank Qi, D. Thomas Rutkowski, Tina Tootle

Lecturers
- Kathleen Andersen, Darren S. Hoffmann, Marc Pizzimenti, Justin Sipla, Nathan Swailes

Professors emeriti
- Ronald Bergman, Ramesh C. Bhalla, Jackie Bickenbach, Paul M. Heidger Jr., Jean Y. Jew, Frank J. Longo, Alexander Sandra, Jeanne M. Snyder, Robert J. Tomanek

Graduate degree: Ph.D. in anatomy and cell biology
Web site: http://www.medicine.uiowa.edu/acb/

The Department of Anatomy and Cell Biology performs three major functions. It teaches human anatomy to students preparing for careers in the health care professions; provides advanced courses, teaching experience, and research training to graduate students preparing for careers in academic research and related scientific fields; and conducts original research on the biological basis of cellular functions and human disease processes.

Preclinical Study

The department contributes to the preclinical education of health care professionals by providing major courses in gross anatomy, cell biology, histology, and neuroscience. The department participates in the Carver College of Medicine’s Medical Scientist Training (p. 1038) Program and the Graduate College’s Biosciences (p. 910), Molecular and Cellular Biology (p. 942), Immunology (p. 927), Genetics (p. 922), and Neuroscience (p. 945) Programs.

Graduate Program of Study

- Doctor of Philosophy in anatomy and cell biology

Doctor of Philosophy

The Doctor of Philosophy program in anatomy and cell biology requires a minimum of 72 s.h. of graduate credit. Students in the Ph.D. program work toward the doctorate without an intermediate master’s degree program. They complete courses focused in one of three major areas—molecular medicine and gene therapy, developmental and stem cell biology, or cancer biology—in addition to related background and elective courses. Students also teach in lecture and laboratory courses under faculty supervision. The program may be completed in four or five years of intensive, full-time residence.

Students interested in pursuing graduate study in anatomy and cell biology spend their first year in the University of Iowa Biosciences Program, where they investigate different disciplines by performing research rotations in three of the program’s affiliated laboratories. They also take courses that introduce them to basic principles in the biosciences; participate in the biosciences seminar, where they learn how to evaluate scientific literature critically; and attend departmental seminars.

Students are assigned an advisor, who helps them select courses and research rotations during the Biosciences Program year. The curriculum is tailored to fit each student’s individual interests. For more detailed information about the program, see Biosciences (p. 910) (Graduate College) in the Catalog.

Students enter the Biosciences Program in fall semester. The following May, after completing three research rotations, each student is expected to select a research laboratory and program affiliation and to begin his or her thesis research project. Students who choose to pursue a Ph.D. in anatomy and cell biology may apply all credit earned in the Biosciences Program toward requirements for the degree.

By the end of their second year of graduate study, anatomy and cell biology students take the comprehensive examination, which assesses their ability to analyze, organize, and apply the information, concepts, and skills acquired during the first two years of study. They define a research problem with their major advisor and formulate a research prospectus.

Subsequent years are devoted primarily to research.

The final Ph.D. examination consists of a public oral defense of the dissertation. The dissertation is based on original research conducted with the guidance of the major advisor and at least four other faculty members on the thesis committee.

Admission

Individuals interested in pursuing a Ph.D. in anatomy and cell biology must apply to and be accepted by the University’s Biosciences Program, where they will spend their first year of graduate study. The program accepts applicants with a variety of backgrounds in the biological and physical sciences.

The Biosciences Program has specific admission requirements, including a bachelor’s degree and certain undergraduate course work; specific scores on the Graduate Record Examination (GRE) General Test; and for applicants whose first language is not English, specific scores on the Test of English as a Foreign Language (TOEFL). For detailed admission requirements and application information, see Biosciences (p. 910) (Graduate College) in the Catalog.

Admission to the Department of Anatomy and Cell Biology, after completion of the biosciences year, is based on evaluation of each applicant’s credentials by the department’s faculty. In addition to having met all admission requirements of the Biosciences Program, applicants to the Ph.D. program in anatomy and cell biology must have completed a bachelor’s degree with the following undergraduate course work: chemistry through organic chemistry, one semester of biochemistry or the equivalent, one semester of another advanced biology course, mathematics through calculus, one year of
physics, and one semester of statistics or the equivalent. Desirable qualifications include an undergraduate major in the biological sciences or chemistry; a master’s degree in the biological sciences, chemistry, or a related area; and scores from a GRE Advanced Test in the applicant’s major area.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Financial Support

All students in the Department of Anatomy and Cell Biology receive stipends and tuition support. Sources include training grants from the National Institutes of Health, University of Iowa and departmental fellowships and graduate research assistantships, and individual faculty research grants.

Facilities

The department occupies more than 35,000 square feet in the Bowen Science Building on the University of Iowa health sciences campus. The building houses modern teaching facilities and well-equipped research laboratories. The most modern instrumentation is available, including facilities and equipment for digital microscopic imaging, confocal microscopy, molecular biological techniques, tissue culture, and protein chemistry. Other specialized equipment (e.g., electron microscopes, mass spectrophotometers) is available in other facilities. Through collaborative programs with the Holden Comprehensive Cancer Center and Iowa Cardiovascular Center, faculty and students also have access to outstanding research facilities throughout the University’s health sciences campus.

Courses

**060:099 (ACB:1199) Human Anatomy and Basic Physiology for Radiation Science**

Integrative systemic study of the structure and function of the human body; body systems defined and described by their constituent organs; body’s most basic cellular level, tissue level, and study of organs which comprise various systems; online course with lectures, assignments, and virtual laboratory study. Requirements: high school biology course.

**060:101 (ACB:8120) Human Gross Anatomy for Dental Students**

Exploration of gross anatomy of human body including thorax, abdomen, upper limb; extensive focus on head, neck, and neuroanatomy; regional and systemic approaches; course sequence and assessment blended with general histology for dental students; cadaveric dissections closely follow lecture sequence; emphasis on correlations to dental practice. Offered spring semesters. Requirements: D.D.S. enrollment.

**060:103 (ACB:8101) Medical Gross Human Anatomy**

Complete dissection of the body with regional emphasis stressing relationships to the living system; clinically relevant areas of radiologic imaging, surface anatomy, embryology, and clinical correlations; anatomical knowledge through lectures, small group work, independent activities. Offered fall semesters. Requirements: M.D. enrollment.

**060:108 (ACB:5108) Human Anatomy**

Regional dissection, lectures, demonstrations; areas important to physical therapists, particularly the upper and lower extremities. Offered fall semesters. Requirements: Physical Therapy Program enrollment.

**060:109 (ACB:3109) Human Anatomy Lab for Health Professions**

Regional and systemic approaches to the study of human anatomy, using histological (microscopic) as well as gross (macroscopic) studies. Prerequisites: 002:002 (BIOL:1141). Requirements: 060:110 (ACB:3110) for pre-nursing students.

**060:110 (ACB:3110) Principles of Human Anatomy**

Gross and microscopic human anatomy; systemic approach to regional anatomy, with emphasis on clinical relevance; optional tutorial sessions. Offered fall and spring semesters. Prerequisites: 002:002 (BIOL:1141) or 002:031 (BIOL:1411). Requirements: pharmacy, pre-nursing, or associated medical sciences major.

**060:111 (ACB:8201) Gross Human Anatomy for Physician Assistant Students**

Focused regional dissection with clinical integration through lectures, demonstrations, and tutorials; neuroanatomy, radiology. Offered summer sessions. Requirements: Physician Assistant Studies and Services or M.D. enrollment.

**060:112 (ACB:8121) General Histology for Dental Students**

Microscopic study of cells, fundamental tissues, organ systems; emphasis on tooth-related structures. Offered spring semesters. Requirements: D.D.S. enrollment or anatomy and cell biology graduate standing.

**060:113 (ACB:3113) Human Anatomy Online**

Integrative systemic and regional study of the human body’s structure. Prerequisites: 002:002 (BIOL:1141).

**060:122 (ACB:3122) Independent Study in Anatomy and Cell Biology**

Projects arranged with department faculty members.

**060:156 (ACB:4156) Scanning Electron Microscopy and X-Ray Microanalysis**

Microscopy methods for research; all aspects of research, from sample preparation to imaging to data analysis; when to use a particular microscopy procedure; theory, operation, and application of scanning electron microscopy, scanning probe microscopy, laser scanning microscopy, X-ray microanalysis. Requirements: a physical science course. Same as 012:156 (GEOS:4156), 052:156 (CBE:4156).

**060:200 (ACB:6200) Special Topics in Genetics**

Current research in a selected field of genetics; different topic each year. Companion to a genetics seminar series. Same as 127:200 (GENE:6200).
060:203 (ACB:5203) Gross Human Anatomy for Graduate Students
Regional dissection, lectures, demonstrations, tutorials, discussions, seminars; clinically relevant areas of anatomical radiology, surface anatomy with clinical correlations. Requirements: anatomy and cell biology graduate standing.

060:205 (ACB:5205) General Histology for Graduate Students
Structure and function of cells, tissues, and organs studied at light and electron microscopic levels. Offered spring semesters. Corequisites: 050:240 (MED:8112). Requirements: anatomy and cell biology graduate standing.

060:206 (ACB:5206) Graduate Research in Anatomy and Cell Biology
Individual laboratory research training in anatomical sciences.

060:207 (ACB:5207) Human Organ Systems for Graduate Students
Integration of basic concepts of the physiology and microscopic anatomy of tissues and organ systems, utilizing didactic lectures, small group discussion, and laboratory exercises; emphasis on the relevance of altered morphology and physiology to pathologic processes, at both the light and electron microscopic level. Requirements: graduate standing in anatomy and cell biology.

060:210 (ACB:6210) Clarity and Style in Scientific Writing
Forms of scientific writing; writing with clarity and style about scientific problems, principles, and discoveries; writing strategies and how to write for specific audiences; exercises to improve clarity and style in writing; writing a professional scientific paper (review or research), and writing a science article for nonscientists. Requirements: biomedical sciences trainee.

060:216 (ACB:6220) Mechanisms of Cellular Organization
Current understanding of basic cell biological processes; key experiments that led to guiding insights; mechanisms that cells use for compartmentalization and how those mechanisms are regulated; biogenesis of major organelles (e.g., mitochondria, peroxisomes, nucleus, secretory/endocytic membrane system); functions of cytoskeleton in cell motility, organelle motility, and cell division. Prerequisites: 099:130 (BIOC:3130). Same as 142:220 (MCB:6220), 072:220 (MPB:6220).

060:218 (ACB:5218) Microscopy for Biomedical Research
Basic microscopy methods for research including optics, preparation, and analysis of biomedical specimens; light, fluorescence, confocal, transmitting electron, scanning electron, atomic force microscopes, elemental analysis; immunohistochemistry and stereology techniques; individualized laboratory instruction. Prerequisites: 002:114 (BIOL:2723). Same as 061:218 (MICR:5218), 002:218 (BIOL:5218).

060:220 (ACB:5220) Advanced Microscopy for Biomedical Research
Technically advanced microscopy and instrumentation for research; individualized laboratory experience with opportunity to explore applications of microscopy methods. Requirements: for 060:220 (ACB:5220) — an introductory microscopy course; for 002:220 (BIOL:5220) —060:218 (ACB:5218) or 061:218 (MICR:5218), or 012:156 (GEOS:4156) or 052:156 (CBE:4156) or 060:156 (ACB:4156); for 061:220 (MICR:5220) — an introductory EM course. Same as 002:220 (BIOL:5220), 060:218 (MICR:5218).

060:223 (ACB:6227) Cell Fate Decisions

060:224 (ACB:5224) Graduate Student Seminar
Current research, literature. Requirements: anatomy and cell biology graduate standing.

060:225 (ACB:6225) Growth Factor Receptor Signaling

060:226 (ACB:6226) Cell Cycle Control

060:227 (ACB:7227) Anatomic Study for Teaching
Experience completing a detailed dissection of a region of the human body; opportunity to create models depicting anatomical concepts. Requirements: enrollment in teaching certificate program.

060:232 (ACB:8401) Advanced Human Anatomy
Regional dissection of the body with emphasis on systems relevant to student’s specialty interests; discussion, reading, clinically relevant imaging, embryology. Offered spring semesters. Requirements: fourth-year M.D. enrollment or graduate standing.

060:234 (ACB:8114) Medical Neuroscience
Basic principles of neurophysiology, neuroanatomy; emphasis on human central nervous system; laboratory emphasis on anatomical study of spinal cord, brain. Offered spring semesters. Requirements: M.D. or Physical Therapy and Rehabilitation Science Program enrollment or graduate standing.

060:237 (ACB:6237) Critical Thinking in Biochemistry and Molecular Biology
1 s.h.
How nucleic acids, proteins, lipids, and carbohydrates interact to influence the function of cells and tissues; how molecules drive signaling pathways and cellular processes essential for biological functions; based on research publications.

060:238 (ACB:6238) Critical Thinking in Genetics 1 s.h.
Current topics in molecular and classical genetics; emphasis on genetic underpinnings of disease; based on primary research publications.

060:239 (ACB:6239) Critical Thinking in Cell Biology 1 s.h.
Understanding subcellular organization and intercellular communication; emphasis on critical thinking and primary research publications.

060:247 (ACB:6247) Critical Thinking in Molecular Biology 1 s.h.
How molecules drive signaling pathways and cellular processes essential for biological functions; based on research publications.

060:248 (ACB:6248) Critical Thinking in Development 1 s.h.
Current topics in molecular basis of vertebrate development; based on primary research publications.

060:249 (ACB:6249) Critical Thinking in Cellular Physiology 1 s.h.
Control of physiological systems at the cellular level; emphasis on regulation by molecular signaling pathways; literature-based.

060:250 (ACB:8250) Integrated Gross Human Anatomy, General and Oral Histology for Dental Students (GRISTO) 10 s.h.
Integrated study of morphology of human body at microscopic and macroscopic levels; covers breadth and depth of traditional professional-level anatomy and histology courses; focus on structures of head and neck, oral cavity, and in-depth study of nervous system; combination of traditional lectures, cadaver laboratory dissection, virtual histology laboratories, and supported self-regulated learning strategies. Requirements: D.D.S. program enrollment.

060:265 (ACB:6265) Neuroscience Seminar 0-1 s.h.

060:270 (ACB:6000) Human Anatomy for Advanced Practice 3 s.h.
Interrelationships between anatomic structure and physiological function in health and disease; clinical assessment of functional integrity of organ systems; implications of pathophysiology for anesthesia. Requirements: admission to anesthesia nursing program. Same as 006:270 (NURS:6000).

060:403 (ACB:8402) Teaching Elective in Regional Anatomy 2,4 s.h.
Expand knowledge and experience in medical education; investigate educational pedagogy in a laboratory setting coupled with self-directed learning of anatomical content relevant to professional development; prepare, design, and implement four teaching interactions with M1/D1/PA1 students; design a classroom exercise (e.g., interactive lecture, learning activity, computer-based study module) that helps bridge the basic science content with clinical procedure. Requirements: M.D. standing and enrollment in teaching track distinction.
Anesthesia

Chair
• Michael M. Todd

Professors
• Timothy J. Brennan (Samir Gergis Professor of Anesthesia), Javier H. Campos, Won W. Choi, Franklin Dexter, Robert B. Forbes, Donna L. Hammond, Bradley J. Hindman, John R. Moyers, Robert Raw, Debra A. Schwinn, Michael M. Todd

Associate professors

Assistant professors
• Ron Abrons, Emine Bayman, Anke Bellinger, Esther Benedetti, Yasser M.S. El-Hattab, Christopher Faust, Peter Foldes, Brent Hadder, Satoshi Hanada, Denisa Haret, Jeanette A. Harrington, Merete Ibsen, Sundar Krishnan, Ronald Lind, Magboul M.A. Magboul, Nicholas Mohr, Martin Mueller, Srinivasan Rajagopal, Sundara Reddy, Melinda Seering, Rapipen Siriwetchadarak, Christina Spofford, David E. Swanson, Kokila Thenuwara, Sarah Titler, Danai Udomtecha, Ann Willemsen-Dunlap

Associates
• Foad Elahi, Unyime Ituk, Sinyoung Kang, Sudhakar Subramani

Adjunct assistant professor
• Lee Kral

Professors emeriti
• Mohamed Ghoneim, Peter J.R. Jebson, Franklin L. Scamman, Martin Sokoll

Web site: http://www.anesth.uiowa.edu/

M.D. Student Training

The Department of Anesthesia introduces second-year medical students to anesthesia as a specialty; helps third-year students develop concepts and technical skills related to resuscitation, airway management, and care of the unconscious patient; and offers fourth-year students intensive study in the specialty. It offers the following courses for medical students. For course descriptions and prerequisite information, see "Courses" below.

116:006 (ANES:8301) Clinical Anesthesia 2 s.h.
116:010 (ANES:8401) Clinical Anesthesia Senior arr.
116:998 (ANES:8498) Anesthesia on Campus arr.

Postgraduate and Residency Program

The department’s postgraduate and residency program involves diverse clinical experiences, seminars and teaching conferences, and ongoing research activities that help postgraduate students and residents develop the knowledge and skills required of an anesthesia specialist.

Anesthesia Nursing Program

The department coordinates the Anesthesia Nursing Program, a collaboration between the Carver College of Medicine and the College of Nursing. The program, which is open to nurses who hold a bachelor’s degree, prepares nurse anesthetists to serve rural hospitals in Iowa and nationwide. The curriculum provides intensive training in didactic and clinical anesthesia and includes diverse clinical experience as well as classroom instruction, seminars, and clinical case conferences. It includes the following courses. For course descriptions and prerequisite information, see "Courses" below.

116:271 (ANES:6005) Chemical and Physical Principles of Anesthesia Practice 3 s.h.
116:273 (ANES:6006) Pharmacology of Anesthesia Practice II 3 s.h.
116:274 (ANES:6007) Basic Principles of Anesthesia Practice II 5 s.h.
116:275 (ANES:6010) Advanced Principles of Anesthesia Practice I 4 s.h.
116:277 (ANES:6012) Advanced Principles of Anesthesia Practice II 1 s.h.
116:279 (ANES:6016) Equipment and Technological Principles of Anesthesia Practice 3 s.h.
116:290 (ANES:6050) Introductory Clinical Anesthesia 1 s.h.
116:291 (ANES:6051) Clinical Anesthesia I 1 s.h.
116:292 (ANES:6052) Clinical Anesthesia II 1 s.h.
116:293 (ANES:6053) Advanced Clinical Anesthesia 1 s.h.
116:294 (ANES:6054) Obstetrical Anesthesia 1 s.h.
116:295 (ANES:6055) Rural Anesthesia 1 s.h.

Courses

For M.D. Students

116:006 (ANES:8301) Clinical Anesthesia 2 s.h.
Clinical instruction in perioperative care of the surgical patient; preoperative evaluation, consideration of coexisting medical problems, intraoperative care, postoperative management; basic airway management; introduction to clinical management of acute and chronic pain; case conferences, simulator training.

116:010 (ANES:8401) Clinical Anesthesia Senior arr.
Advanced clinical experience in anesthesia management of surgical patients with coexisting medical problems; clinical experience in various forms of anesthesia; general, regional (spinal, epidural, peripheral nerve block) anesthesia; practical experience in airway management; mask ventilation, endotracheal intubation, LMA placement, other alternative airway techniques; medical management of surgical patient under anesthesia; pharmacology, cardiovascular and pulmonary physiology; case conferences.

116:998 (ANES:8498) Anesthesia on Campus arr.
For Anesthesia Nursing Students

116:011 (ANES:8402) Intensive Care
Arr.
Evaluation, treatment of seriously ill patients in intensive care; ventilator management, evaluation of pulmonary function, monitoring of cardiovascular status; fluid balance and acid base problems, advance monitoring techniques.

116:333 (ANES:8495) Intensive Care off Campus
Arr.
Evaluation and treatment of seriously ill patients in an intensive care unit (other than University of Iowa Hospitals and Clinics); artificial ventilation, evaluation of pulmonary function, monitoring of cardiovascular status; fluid balance and acid base problems, advance monitoring techniques. Requirements: 4 s.h. of 116:010 (ANES:8401).

116:998 (ANES:8498) Anesthesia on Campus
Arr.
Well defined research project relating to anesthesia; arranged by student with departmental approval.

116:999 (ANES:8499) Anesthesia off Campus
Arr.
Knowledge development in anesthesia work and monitor use; ability to identify respiratory, cardiovascular, and neurologic effects of anesthetic agents; skill in airway management; basic skills in general, spinal, epidural, and peripheral nerve block anesthesia.

116:271 (ANES:6005) Chemical and Physical Principles of Anesthesia Practice
3 s.h.
Chemistry and physics, as applied to anesthesia. Requirements: admission to anesthesia nursing program. Same as 096:271 (NURS:6005).

116:273 (ANES:6006) Pharmacology of Anesthesia Practice II
3 s.h.
Continuation of 071:115 (PCOL:6204); vascular, hepatic, renal, GI, endocrine aspects; cellular mechanisms, electrolytes alterations, anesthesia specific implications. Prerequisites: 071:115 (PCOL:6204). Requirements: grade of 2.75 or higher in 071:115 (PCOL:6204) and enrollment in anesthesia nursing program. Same as 096:273 (NURS:6006).

116:274 (ANES:6007) Basic Principles of Anesthesia Practice
5 s.h.
Overview of anesthesia as a nursing specialty; patient assessment, anesthetic planning and management, pertinent regulations; principles of general and regional anesthesia for surgical specialties. Requirements: for 096:274 (NURS:6007) — grades of 3.00 or higher in 071:115 (PCOL:6204) and 096:271 (NURS:6005); for 116:274 (ANES:6007) — grades of 3.00 or higher in 071:115 (PCOL:6204) and 116:271 (ANES:6005). Same as 096:274 (NURS:6007).

116:275 (ANES:6010) Advanced Principles of Anesthesia Practice I
4 s.h.
Special needs and intraoperative management of obstetric, pediatric, and neurological patients; emphasis on pathophysiology, monitoring, ancillary requirements. Prerequisites: 096:274 (NURS:6007) or 116:274 (ANES:6007). Requirements: grade of 3.00 or higher in 096:273 (NURS:6006) or 116:273 (ANES:6006). Same as 096:275 (NURS:6010).

116:277 (ANES:6012) Advanced Principles of Anesthesia Practice II
1 s.h.
Acute and chronic pain management; anesthetic problems with concurrent multisystem disease, advanced age, altered physical and/or mental status. Prerequisites: 096:274 (NURS:6007) or 116:274 (ANES:6007). Requirements: grade of 3.00 or higher in 096:273 (NURS:6006) or 116:273 (ANES:6006). Same as 096:277 (NURS:6012).

116:279 (ANES:6016) Equipment and Technological Principles of Anesthesia Practice
3 s.h.

116:290 (ANES:6050) Introductory Clinical Anesthesia
1 s.h.

116:291 (ANES:6051) Clinical Anesthesia I
1 s.h.

116:292 (ANES:6052) Clinical Anesthesia II
1 s.h.

116:293 (ANES:6053) Advanced Clinical Anesthesia
1 s.h.
Clinical anesthesia experiences in neurologic surgery, cardiovascular/thoracic surgery; experience providing anesthesia for patients with complex pathophysiology in varied surgical settings. Requirements: for 096:293 (NURS:6053) — anesthesia nursing program senior standing, anesthesia nursing concentration courses, and grade of 3.00 or higher in 096:292 (NURS:6052); for 116:293 (ANES:6053) — anesthesia nursing program enrollment, anesthesia nursing concentration courses, and grade of 3.00 or higher in 116:292 (ANES:6052). Same as 096:293 (NURS:6053).
116:294 (ANES:6054) Obstetrical Anesthesia 1 s.h.

116:295 (ANES:6055) Rural Anesthesia 1 s.h.
Biochemistry

Chair
• Charles M. Brenner

Professors

Associate professors
• Heather L. Bartlett, Kris A. DeMali, Andrew W. Norris, Maria Spies, M. Todd Washington

Assistant professors
• Sheila A. Baker, Brandon S.J. Davies, Ernesto J. Fuentes, Catherine A. Musselman, Miles A. Pufall, Michael J. Schnieders, M. Ashley Spies

Lecturer
• Elisabeth Swain

Adjunct professors
• Theresa Gioannini, S. Ramaswamy, Nancy C. Stellwagen, Joseph Walder, Liping Yu

Adjunct assistant professors
• Lokesh Gahkar, Meng Wu

Professors emeriti
• Arthur Arnone, Thomas W. Conway, John Donelson, Alice B. Fulton, Rex Montgomery, Bryce Plapp, Arthur A. Spector, Earle Stellwagen, Charles A. Swenson

Undergraduate major: biochemistry (B.A., B.S.)

Graduate degrees: M.S. in biochemistry; Ph.D. in biochemistry

Web site: http://www.biochem.uiowa.edu/

Biochemistry is the study of basic chemical processes that occur in and govern all living systems. Nearly all areas of the life sciences engage in biochemical research.

Biochemistry graduates with bachelor's degrees often work as research assistants in industry, government, education, or health services; teach in secondary schools; or go on to advanced study in medicine, dentistry, or other areas. Those with advanced degrees pursue careers as teachers, researchers, or administrators in universities and medical schools, government, research agencies, and varied industries.

The Department of Biochemistry offers an undergraduate major and graduate degree programs and determines the curricula for those programs. Undergraduates majoring in biochemistry receive their degrees (Bachelor of Arts or Bachelor of Science) from the College of Liberal Arts and Sciences, and their studies are governed by that college's undergraduate academic policies. Graduate degrees in biochemistry are conferred by the Graduate College.

Undergraduate Programs of Study
• Major in biochemistry (Bachelor of Arts, Bachelor of Science)

Requirements for the major in biochemistry have changed. Students who enter the major on or after the first day of fall semester 2013 must fulfill the requirements stated below. Students who entered the major before fall semester 2013 must fulfill the requirements stated in the Biochemistry section of the 2012-13 General Catalog.

Bachelor of Arts, Bachelor of Science

The Bachelor of Arts with a major in biochemistry requires a minimum of 120 s.h., including 59-60 s.h. of work for the major. The Bachelor of Science with a major in biochemistry requires a minimum of 120 s.h., including 71-72 s.h. of work for the major. All students must complete the General Education Program (p. 306).

The biochemistry major for the Bachelor of Arts degree provides a rigorous education in biochemical concepts and practice in the laboratory while giving students flexibility to specialize in additional disciplines or to obtain clinical volunteer experience. The B.A. program is intended for most students majoring in biochemistry, including those with pre-medicine, pre-pharmacy, pre-dental, and other pre-health professions interests. It also is appropriate for students earning more than one major.

The biochemistry major for the Bachelor of Science degree is intended primarily for students planning careers in research. The B.S. program prepares students to pursue graduate degrees, such as an M.S., Ph.D., or joint M.D./Ph.D., or to work as research technicians. The B.S. program requires 12 s.h. more credit in science and laboratory electives than the B.A. program does.

The first two years of the curriculum are the same for all students majoring in biochemistry. Students decide to earn a B.A. or a B.S. during the second semester of their sophomore year, in consultation with their biochemistry advisor. Transfer students select the B.A. or B.S. after completing one semester at The University of Iowa and meeting with their biochemistry advisor.

Qualified students in either degree program may graduate with honors in the biochemistry major; see "Honors in the Major" below.

The major in biochemistry (B.A. and B.S.) requires the following work.

Common Requirements (B.A. and B.S.)

All biochemistry majors complete the following course work during their first two years.

All of these:

<table>
<thead>
<tr>
<th>Course Codes</th>
<th>Course Titles</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>002:031</td>
<td>(BIOL:1411)-002:032 (BIOL:1412) Foundations of Biology - Diversity of Form and Function</td>
<td>8 s.h.</td>
</tr>
</tbody>
</table>

One of these:

<tr>
<td>004:124</td>
<td>(CHEM:2240) Organic Chemistry II for Majors</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

One of these:
All of these:
099:120 (BIOC:3120)-099:130 (BIOC:3130) Biochemistry and Molecular Biology I-II
099:140 (BIOC:3140) Experimental Biochemistry

Additional Requirements for the B.A.
In addition to the common requirements listed above, biochemistry majors who elect to earn a Bachelor of Arts must complete the following work.

One of these:
004:131 (CHEM:4431) Physical Chemistry I
004:132 (CHEM:4432) Physical Chemistry II
099:241 (BIOC:5241) Biophysical Chemistry I
099:242 (BIOC:5242) Biophysical Chemistry II

And:
Advanced science electives 6 s.h.

Bachelor of Arts students intending to earn advanced degrees in the biological or health sciences are advised to earn at least 4 s.h. in 099:115 (BIOC:3115) Undergraduate Independent Study or 099:155 (BIOC:4155) Research, Independent Study. There are no prerequisites for 099:115 (BIOC:3115). The course involves experience in an active biochemistry research lab, which must be arranged ahead of time with a supervising faculty member. Students may make arrangements directly with the faculty member, or they may request assistance from an undergraduate advisor. Credit earned in 099:115 (BIOC:3115) does not count toward the major, but it does count toward the minimum of 120 s.h. required to graduate.

In order to register for 099:155 (BIOC:4155) Research, Independent Study, students must have completed 099:120 (BIOC:3120) Biochemistry and Molecular Biology I, 099:130 (BIOC:3130) Biochemistry and Molecular Biology II, and 099:140 (BIOC:3140) Experimental Biochemistry. They must have a grade average of B or higher in the three courses and a grade of B-minus or higher in each course. They also should have prior research experience [e.g., 099:115 (BIOC:3115) Undergraduate Independent Study or 143:100 (HONR:3200) Honors Research Practicum] or consent of the instructor.

B.A. or B.S. with Teacher Licensure
Biochemistry majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Bachelor of Arts
Before the third semester begins:

004:124 (CHEM:2240) Organic Chemistry II for Majors; and 004:141 (CHEM:2410) Organic Chemistry Laboratory or 004:142 (CHEM:2420) Organic Chemistry Laboratory for Majors

**Before the seventh semester begins:** the courses listed above, plus 029:081 (PHYS:1611) Introductory Physics I or 029:011 (PHYS:1511) College Physics I; and 029:082 (PHYS:1612) Introductory Physics II or 029:012 (PHYS:1512) College Physics II; 099:120 (BIOC:3120) Biochemistry and Molecular Biology I; 099:130 (BIOC:3130) Biochemistry and Molecular Biology II; and 099:140 (BIOC:3140) Experimental Biochemistry; two science electives, and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** the courses listed above, plus either 004:131 (CHEM:4431) Physical Chemistry I or 004:132 (CHEM:4432) Physical Chemistry II or 099:241 (BIOC:5241) Biophysical Chemistry I or 099:242 (BIOC:5242) Biophysical Chemistry II, and a science elective

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Bachelor of Science**

**Before the seventh semester begins:** the courses listed above, plus 029:081 (PHYS:1611) Introductory Physics I or 029:011 (PHYS:1511) College Physics I; and 029:082 (PHYS:1612) Introductory Physics II or 029:012 (PHYS:1512) College Physics II; 099:120 (BIOC:3120) Biochemistry and Molecular Biology I; 099:130 (BIOC:3130) Biochemistry and Molecular Biology II; and 099:140 (BIOC:3140) Experimental Biochemistry; two science electives, and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** the courses listed above, plus 004:131 (CHEM:4431) Physical Chemistry I or 004:132 (CHEM:4432) Physical Chemistry II or 099:241 (BIOC:5241) Biophysical Chemistry I or 099:242 (BIOC:5242) Biophysical Chemistry II, a science elective, and at least 3 s.h. of 099:155 (BIOC:4155) Research, Independent Study

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

---

**Honors in the Major**

The department offers qualified students the opportunity to graduate with honors in the biochemistry major. Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33. To graduate with honors in the biochemistry major, students must earn 6 s.h. in 099:155 (BIOC:4155) Research, Independent Study. They must present their research results in a report written in the form of a journal article and in an oral report given at a special open departmental seminar.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

**Joint B.S./Ph.D.**

The joint Bachelor of Science/Doctor of Philosophy program in biochemistry permits students to transition into the Ph.D. program during their senior year and to count 12 s.h. of credit toward both the B.S. and Ph.D. requirements. The joint program provides a research-intensive experience and shortens the training time for students interested in pursuing independent biochemistry research careers. Students in the program receive financial support during the second half of their senior year and throughout their Ph.D. study.

Students must apply to enter the joint B.S./Ph.D. program. They must be pursuing a Bachelor of Science with a major in biochemistry, and by the beginning of their senior year they must:

- have 108 s.h. of undergraduate credit;
- have a minimum grade-point average of 3.50;
- have completed four semesters of research experience (summer research counts as one semester); and

Students interested in the joint program should speak with their academic advisor and the biochemistry honors advisor during their first year or at the beginning of their sophomore year. They should apply to the program in spring of their junior year; applications are due April 1. Application materials must include a letter of application and statement of purpose; official scores on the Graduate Record Exam (GRE) General Test; and three letters of recommendation, including at least one from a research advisor.

**Graduate Programs of Study**

- Master of Science in biochemistry
- Doctor of Philosophy in biochemistry

Students admitted to graduate study in biochemistry usually pursue the Doctor of Philosophy. Qualified students interested in earning the Doctor of Medicine along with the Ph.D. may apply to the Medical Scientist Training (p. 1038) Program, which offers a joint M.D./Ph.D. program.

**Master of Science**

The Master of Science program in biochemistry requires a minimum of 32 s.h. of graduate credit, thesis research, and...
a thesis. See "Doctor of Philosophy" for information about the graduate curriculum.

**Doctor of Philosophy**

The Doctor of Philosophy program in biochemistry requires a minimum of 72 s.h. of graduate credit. The focus of the graduate program is on the individual student. The 72 s.h. required for the degree includes 34 s.h. of course work and 38 s.h. of research credit. Students may take courses that enhance their educational goals. All Ph.D. students take the following 19 s.h. of course work; they choose an additional 13 s.h. from courses offered by the Department of Biochemistry and other University of Iowa departments.

099:261 (BIOC:5261) Research Techniques (first-year laboratory rotation) 1-5 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity 0-1 s.h.
Biophysical chemistry (students typically earn 6 s.h.) 3 s.h.
Molecular or cellular biology (students typically earn 6-8 s.h.) 4 s.h.
Graduate seminar 3 s.h.

The following is a typical first-year curriculum.

First semester—all of these:

099:243 (BIOC:5243) Protein Structure, Function, and Regulation: Biophysical Chemistry Module 1 1 s.h.
099:245 (BIOC:5245) Protein Structure, Stability, and Folding: Biophysical Chemistry Module 2 (topics may change) 1 s.h.
099:247 (BIOC:5247) Biophysics of Macromolecular Interactions: Biophysical Chemistry Module 3 (topics may change) 1 s.h.
099:261 (BIOC:5261) Research Techniques 1-5 s.h.
156:201 (BISC:5201) Fundamentals of Gene Expression 1 s.h.
156:204 (BISC:5204) Biostatistics for Biomedical Research 1 s.h.
156:265 (BISC:5265) Biosciences Critical Thinking and Communication 2 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity 0-1 s.h.

Second semester—all of these:

099:244 (BIOC:5244) Ligand Binding and X-Ray Crystallography: Biophysical Chemistry Module 4 1 s.h.
099:246 (BIOC:5246) Enzyme Kinetics and Enzyme Mechanisms: Biophysical Chemistry Module 5 1 s.h.
099:248 (BIOC:5248) Nuclear Magnetic Resonance Spectroscopy: Biophysical Chemistry Module 6 1 s.h.
099:261 (BIOC:5261) Research Techniques 1-5 s.h.
142:215 (MCB:6215) Transcription and Multi-Functional Regulation by RNA 1 s.h.
142:217 (MCB:6217) Epigenetics, Cancer, and Mouse Models of Disease 1 s.h.
142:227 (MCB:6227) Cell Fate Decisions 1 s.h.
156:205 (BISC:5205) Practical Bioinformatics 1 s.h.
156:265 (BISC:5265) Biosciences Critical Thinking and Communication 2 s.h.

And one of these:

099:282 (BIOC:5282) Seminar 0-1 s.h.
156:265 (BISC:5265) Biosciences Critical Thinking and Communication 2 s.h.

Once students are promoted to the second year of study, they choose research laboratories for Ph.D. thesis research and begin their thesis projects. They take courses that supplement their interests and preparation, including the following.

099:282 (BIOC:5282) Seminar 1 s.h.
Graduate-level science electives 6 s.h.

Students take the comprehensive examination before the end of June in their second year; after which they are admitted formally to degree candidacy and begin to concentrate on thesis research. The program culminates in successful defense of completed thesis work before an examining committee.

In addition to meeting these requirements and those of the Graduate College, students are expected, as part of their training, to assist in teaching biochemistry for one semester.

Throughout the program, students are associated with faculty-directed research groups. They receive close personal attention from the biochemistry faculty members who serve as research advisors.

**Admission**

Most graduate students in biochemistry work toward a Doctor of Philosophy. Applicants who wish to earn a master’s degree must contact the Department of Biochemistry before they apply.

The graduate program in biochemistry is flexible enough to accommodate students with bachelor’s degrees in any of the biological, biochemical, or physical sciences. Appropriate preparation includes one-year, college-level courses in organic and physical chemistry, biology, physics, and mathematics through calculus. Students are expected to have had one or more introductory courses in biochemistry.

Applicants must have an undergraduate g.p.a. of at least 3.00 and must submit acceptable verbal, quantitative, and analytical scores on the Graduate Record Examination (GRE) General Test. Applicants are encouraged to submit their scores on the GRE Subject Test in Chemistry; Biology; Biochemistry, Cell, and Molecular Biology.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

**Financial Support**

Students admitted to the Ph.D. program in biochemistry routinely receive a stipend and tuition support.

**Faculty and Research**

The department’s faculty members supervise research in biochemistry; molecular, cellular, developmental, computational, and structural biology; and model system genetics. Their work is supported by grants from the National Institutes of Health, the National Science Foundation, the American Heart Association, the American Cancer Society, the Muscular Dystrophy Association, and other sources. To learn more about the department’s faculty members and areas of research, visit the Department of Biochemistry web site.
Facilities

The Department of Biochemistry occupies 36,700 square feet on the fourth floor of the Bowen Science Building and 7,500 square feet on the third floor of the Medical Education Research Facility on the University’s health sciences campus. It has a number of well-equipped research laboratories; other departmental facilities include the Biochemistry Stores, the Mattill Biochemistry Reading Room, and the Heath Conference Room.

The department makes available a number of shared instruments; among them are an Applied PhotoPhysics stopped flow spectrometer SX20 (2009); a Jasco spectropolarimeter, model J815 (2010); a Horiba fluorlog-3 spectrofluorometer (2010); and a Beckman Coulter ultra XLI analytical centrifuge (1996).

Faculty, staff, and students in the department have access to a variety of shared Carver College of Medicine resources, including X-ray crystallography, the DNA Facility, the Medical NMR Facility, the Proteomics Facility, the Flow Cytometry Facility, the Gene Transfer Vector Core Facility, the Small Animal Imaging Core, and the Transgenic and Genome Manipulation Facility. The University also supports resources such as the Central Microscopy Research Facilities and the High Throughput Screening Facility.

Courses

**099:101 (BIOC:3101) Technical Communication in Biochemistry**
Practical aspects of writing formal scientific papers and giving oral presentations on technical topics. Prerequisites: 099:120 (BIOC:3120) or 099:130 (BIOC:3130) or 099:140 (BIOC:3140). Requirements: junior or senior biochemistry major pursuing a B.S. degree.

**099:110 (BIOC:3110) Biochemistry**
Basic concepts in modern biochemistry and molecular biology; understanding of life processes in molecular terms. Requirements: one year each of college-level biology and chemistry. Recommendations: one semester of organic chemistry.

**099:115 (BIOC:3115) Undergraduate Independent Study**
Experience in an active biochemistry research lab, learning and performing experiments relevant to the current projects in that lab; exploration of scientific literature on topic of interest; arranged in advance by student and faculty member. Requirements: first-year, sophomore, or junior standing.

**099:120 (BIOC:3120) Biochemistry and Molecular Biology I**
Physical and chemical foundations of biochemistry, structure of biological molecules, catalysis, transport, and oxidative reactions in biology; first course of two-semester sequence that concludes with 099:130 (BIOC:3130). Requirements: two semesters of general chemistry and one of organic chemistry. Recommendations: 002:031 (BIOI:1411), 002:032 (BIOI:1412), and an additional organic chemistry course.

**099:130 (BIOC:3130) Biochemistry and Molecular Biology II**
Carbohydrate biosynthesis, lipid metabolism, hormone regulation and integration of metabolism, signal transduction, genes and chromosomes. DNA replication and repair, transcription, RNA processing, protein translation and regulation of gene expression. Prerequisites: 099:120 (BIOC:3120).

**099:140 (BIOC:3140) Experimental Biochemistry**
Use of modern instruments and techniques to fractionate, identify, and characterize constituents of biochemical systems. Prerequisites: 099:120 (BIOC:3120). Requirements: grade of C or higher in 099:120 (BIOC:3120), two semesters of general chemistry, and one semester of organic chemistry.

**099:155 (BIOC:4155) Research, Independent Study**
Independent study and research in areas of interest to the student; arranged in advance by student and biochemistry honors advisor. Requirements: grades of B- or higher in 099:120 (BIOC:3120), 099:130 (BIOC:3130), and 099:140 (BIOC:3140); average grade of B or higher in all three courses; and 099:115 (BIOC:3115) or 143:100 (HONR:3200) or prior research experience or lab practicum.

**099:161 (BIOC:8101) Biochemistry for Dental Students**

**099:162 (BIOC:8102) Biochemistry for Pharmacy Students**

**099:163 (BIOC:8103) Medical Biochemistry**
Biochemical concepts and application to clinical problems. Requirements: M.D. enrollment.

**099:164 (BIOC:8204) Biochemistry for Physician Assistant Students**
Aspects of general biochemistry necessary for understanding the biochemical basis of human disease; analysis of appropriate clinical cases. Requirements: enrollment in Physician Assistant Studies and Services.

**099:215 (BIOC:5215) Directed Readings for Graduate Students**
Directed readings with course content arranged with professor.

**099:226 (BIOC:5226) Enzyme Kinetics and Bioorganic Mechanisms**
Principles and applications of steady-state and transient enzyme kinetics; mechanisms of catalysis of biochemical reactions. Prerequisites: 099:120 (BIOC:3120).

**099:241 (BIOC:5241) Biophysical Chemistry I**
Principles and experimental approaches used to study structure and function of biological macromolecules; protein structure, stability, and dynamics; macromolecular interactions; common biophysical methods. Requirements: one year of biochemistry. Recommendations: physical chemistry course and one semester of calculus.
109:242 (BIOC:5242) Biophysical Chemistry II
Principles and experimental approaches used to study structure and function of biological macromolecules; ligand binding and enzyme catalysis; X-ray crystallography; NMR spectroscopy. Requirements: one year of biochemistry. Recommendations: physical chemistry course and one semester of calculus.

1 s.h.

109:243 (BIOC:5243) Protein Structure, Function, and Regulation: Biophysical Chemistry Module 1
Overview of principles of protein structure, stability, folding, and dynamics; brief treatment of structural biology approaches to help students become critical users of models derived from X-ray crystallography and NMR; taken alone or as part of 109:241 (BIOC:5241). Requirements: introductory course in biochemistry. Same as 156:206 (BISC:5206).

1 s.h.

109:244 (BIOC:5244) Ligand Binding and X-Ray Crystallography: Biophysical Chemistry Module 4
In-depth examination of principles of ligand binding; experimental approaches to study interactions with small molecules, proteins, and nucleic acids; X-ray crystallography in determining structures of biological macromolecules; taken alone or as part of 109:242 (BIOC:5242). Requirements: introductory course in biochemistry.

1 s.h.

In-depth examination of statistical thermodynamics and molecular forces in biological systems as related to protein structure, stability, and folding; nucleic acid structure and stability; taken alone or as part of 109:241 (BIOC:5241). Requirements: introductory course in biochemistry.

1 s.h.

Enzymes as unparalleled catalysts and representing a unique class of drug targets; organic chemistry of enzyme catalyzed reactions with emphasis on physical organic logic of sources of enzyme-catalytic power; enzyme inhibition by small molecules from a medicinal chemistry perspective; taken alone or as part of 109:242 (BIOC:5242). Requirements: introductory course in biochemistry. Same as 046:266 (PHAR:5566).

1 s.h.

109:247 (BIOC:5247) Biophysics of Macromolecular Interactions: Biophysical Chemistry Module 3
In-depth examination of protein-protein interactions and protein-nucleic acid interactions; implications in biological motility, transcription, and replication; taken alone or as part of 109:241 (BIOC:5241). Requirements: introductory course in biochemistry.

1 s.h.

Basic principles of nuclear magnetic resonance (NMR) and applications important for understanding structure and function of biological macromolecules; emphasis on methodology and experimental design, interpretation of data, and critical reading of literature; intended for graduate students with an interest in applications of NMR to problems of structural biology; taken alone or as part of 109:242 (BIOC:5242). Requirements: one year of biochemistry. Recommendations: basic knowledge of spectroscopy and some previous exposure to NMR from basic chemistry courses.

1 s.h.

109:253 (BIOC:7253) Metabolism I
Basics of carbohydrate metabolism (glycolysis, gluconeogenesis, the pentose phosphate pathway), hormonal regulation of carbohydrate metabolism, the citric acid cycle, amino acid catabolism, oxidative phosphorylation; assignment of an advanced topic related to material, typically a recent research paper, extending inquiry beyond that presented in class and presented orally at end of five-week module. Prerequisites: undergraduate biochemistry course or background in enzyme function.

1 s.h.

109:254 (BIOC:7254) Metabolism II
Central carbon metabolism, carbohydrate biosynthesis in plants and bacteria, lipid structure/function, fatty acid catabolism, lipid biosynthesis, and biological membranes/transport; assignment of an advanced topic related to material, typically a recent research paper, extending inquiry beyond that presented in class and presented orally at end of five-week module. Prerequisites: 109:253 (BIOC:7253).

1 s.h.

109:256 (BIOC:7256) Molecular Biology
DNA, RNA, and protein metabolism, regulation of gene expression, and DNA-based information technologies.

1 s.h.

109:261 (BIOC:5261) Research Techniques
Laboratory rotation for first-year graduate students in biochemistry.

1-6 s.h.

109:275 (BIOC:5875) Perspectives in Biocatalysis

1-3 s.h.

109:282 (BIOC:5282) Seminar
How to evaluate reports of scientific investigations critically; techniques for presenting scientific information.

0-1 s.h.

109:292 (BIOC:7292) Research Biochemistry
Thesis research.

Cardiothoracic Surgery

Interim chair
• Ronald J. Weigel

Professor
• Mark Iannettoni

Associate professors
• James Davis, Kalpaj Parekh

Assistant professors
• Mohammad Bashir, Michael Bates, John Keech, Sotiris Stamou, Joseph Turek

Professors emeriti
• Douglas Behrendt, Wayne Richenbacher, Nicholas Rossi

Web site: http://www.medicine.uiowa.edu/ctsurgery/

The University of Iowa cardiothoracic surgery program is the third oldest program of its kind in the United States. Since its establishment in 1948 as the Division of Cardiothoracic Surgery, the program has advanced from providing operative interventions for patients with diseases of the chest to performing a broad range of the most current and innovative surgical procedures.

The Department of Cardiothoracic Surgery's facilities are located at University of Iowa Hospitals and Clinics. Each year cardiothoracic surgeons at the hospitals perform more than 500 adult and pediatric heart surgeries, including coronary bypasses, transplants, and placement of mechanical cardiac assist devices; minimally invasive procedures such as mitral valve replacement and epicardial lead placement; and more than 600 general thoracic surgeries with emphasis on esophageal and lung diseases. Preparations are under way for providing coronary artery bypass grafting using robotics.

M.D. Student Training

Residency Program

Iowa's cardiothoracic surgery residency program was established in 1948 and is fully accredited by the Accreditation Council for Graduate Medical Education. It is the only cardiothoracic surgery training program in Iowa. Two residents are accepted into the two-year program each year.

Postbaccalaureate Training

The department plays a primary instructional role in University of Iowa Hospitals and Clinics' 20-month postbaccalaureate Perfusion Technology Program; see the department's perfusion technology courses listed under "Courses" later in this section. For more information about the Perfusion Technology Program, contact the Department of Cardiothoracic Surgery or visit the Perfusion Technology Program web site.

Research

University of Iowa cardiothoracic surgeons are leaders in clinical research, particularly in oncologic surgery, diseases of the esophagus, artificial organs, pediatric cardiac surgery, and transplantation. Research also is under way in the sequence of mutations and in localization of genes predisposed to cancer.

Facilities

The Department of Cardiothoracic Surgery has specialty laboratories in gastric motility, analytical chemistry, transplantation, tissue culture, surgical bacteriology, shock, and cardiac bypass. These facilities permit study of experimental procedures such as heart valve replacement in large animals and heterotopic heart transplantation in mice and rats.

The laboratories also are used for supervised teaching exercises in surgical technique for medical students and junior residents, and for refinement of technique for senior residents and faculty members.

Courses

Cardiothoracic Surgery

193:232 (CTS:8401) Subinternship in Cardiothoracic Surgery
Participation in diagnosis, preoperative, operative, and postoperative care of thoracic and cardiac patients.

193:233 (CTS:8497) Research in Cardiothoracic Surgery
Participation in diagnosis, preoperative, operative, and postoperative care of thoracic and cardiac patients.

Perfusion Technology

193:161 (PERF:4161) Instrumentation in Perfusion Technology
Electrical circuitry, filters, pressure transducers, thermistors, cardiac output computers, fluid dynamics, intra-aortic balloon pumps, blood gas analyzers. Requirements: Perfusion Technology Program enrollment.

193:162 (PERF:4162) Pathophysiology of Perfusion Technology
Hemostasis, acid base physiology, gas transfer, heart anatomy, heart embryology, congenital cardiac defects. Requirements: Perfusion Technology Program enrollment.

193:163 (PERF:4163) Clinical Experience I
Perfusion in operating room: patient workup, observation, and reporting on extracorporeal setup, surgical procedure. Requirements: Perfusion Technology Program enrollment.

193:164 (PERF:4164) Clinical Experience II
193:165 (PERF:4165) Clinical Experience III
Continuation of 193:164 (PERF:4164); management of cardiopulmonary bypass system. Prerequisites: 071:130 (PCOL:4130), 193:164 (PERF:4164), 193:170 (PERF:4170), and 193:171 (PERF:4171).

12 s.h.

193:166 (PERF:4166) Clinical Experience IV
Continuation of 193:165 (PERF:4165); emphasis on supply maintenance, perfusion department management. Prerequisites: 193:165 (PERF:4165).

12 s.h.

193:167 (PERF:4167) Perfusion Seminar
Ethics in perfusion. Requirements: Perfusion Technology Program enrollment.

1 s.h.

193:168 (PERF:4168) Research in Perfusion
From topic selection to manuscript. Requirements: Perfusion Technology Program enrollment.

1 s.h.

193:169 (PERF:4169) Clinical Experience V

12 s.h.

193:170 (PERF:4170) Principle and Practice of Perfusion Technology

6 s.h.

193:171 (PERF:4171) Devices in Perfusion Technology

3 s.h.
Dermatology

Chair
• Janet A. Fairley

Professors
• George J. Giudice, Kathi C. Madison, Mary S. Stone

Associate professors
• Vincent Liu, Brian L. Swick, Marta J. Van Beek

Assistant professors
• Heather M. Ciliberto, Paula Giudici, Allison A. Legler, Kelly A.N. Messingham, Karolyn A. Wanat

Adjunct professors
• Marc E. Boddicker, Roger I. Ceilley

Adjunct associate professors
• Dan A. Bovenmyer, Robert F. Godwin, Susan Wall

Adjunct assistant professors
• Timothy G. Abrahamson, Mark G. Cleveland, David A. Davis, Laura M. Myers, Gary Quinby

Professors emeriti
• Richard M. Caplan, John S. Strauss

Web site: http://www.medicine.uiowa.edu/dermatology/

The Department of Dermatology instructs M.D. students and trains dermatology residents in the care of patients with skin diseases. It also provides researchers with an opportunity to develop their skills in dermatology.

M.D. Student Training

The Department of Dermatology rotation is one of seven selective courses offered to third- and fourth-year medical students. Students spend two weeks in the clinic and attend around 10 one-hour lectures. They see a good cross-section of patients, including those receiving primary or tertiary care at University of Iowa Hospitals and Clinics and a large number of patients referred from Student Health & Wellness. Additional patients are seen at the nearby Iowa City Veterans Affairs Medical Center.

Varied electives are open to fourth-year M.D. students, including further clinical experience, dermatologic research, and special studies.

Courses

062:001 (DERM:8301) Clinical Dermatology
2 s.h.
Basic dermatology; lectures, independent study, clinical experience. Requirements: third-year M.D. enrollment.

062:002 (DERM:8401) Dermatology Elective
arr.
Advanced clinical experience, dermatologic surgery, special assignments. Requirements: fourth-year M.D. enrollment.

062:004 (DERM:8497) Research in Dermatology
arr.
General principles of medical research; clinical or laboratory projects; individual study.
Dietetic Internship

**Director**

- Laurie Kroymann

University of Iowa Hospitals and Clinics offers a Dietetic Internship Program that is fully accredited by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics. It qualifies graduates to take the exam for qualification as a Registered Dietitian (RD). Clinical dietitians and food service operation managers of the Department of Food and Nutrition Services at University of Iowa Hospitals and Clinics provide the teaching for the program. Graduate courses in the program are administered by the Carver College of Medicine and the College of Public Health. See "Associated Courses" below.

Students generally complete the program with 9 s.h. of graduate credit, which may be applied toward an advanced degree. Approximately half of the program's graduates go on to complete advanced degree programs, typically a master's degree in health promotion, public health, or business.

University of Iowa Hospitals and Clinics awards a certificate to the program's graduates.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog. They also must complete a didactic program in dietetics that has approval of the ADA Commission on Accreditation for Dietetics Education.

Students enter the program in the fall semester. The postmark deadline for applications is February 15.

**Associated Courses**

For course descriptions, see "Nondepartmental Courses" in the Carver College of Medicine (p. 993) section of the Catalog and "Courses" in the Epidemiology (p. 1154) section (College of Public Health).

Doctor of Medicine

Professional degree: M.D.
Web site: http://www.medicine.uiowa.edu/md/

Professional Program of Study

- Doctor of Medicine

The Doctor of Medicine is a professional degree awarded by the Carver College of Medicine. The college is accredited by the Liaison Committee on Medical Education of the American Medical Association and the Association of American Medical Colleges and meets the requirements of all state licensing boards. Its M.D. diploma admits the holder to all privileges granted to graduates of all medical colleges before such boards.

This catalog section provides information about the Doctor of Medicine curriculum, admission to the program, financial support, and academic rules and procedures.

Doctor of Medicine

The Doctor of Medicine is a four-year program that prepares students to practice primary care medicine and to pursue further education and training in specialized areas of medicine. The program admits 152 new students each year.

The M.D. curriculum begins with study of basic medical sciences and foundations of clinical practice and progresses through in-depth clinical course work and clinical clerkships served primarily at University of Iowa Hospitals and Clinics, the Iowa City Veterans Affairs Medical Center, and the Des Moines Area Medical Education Consortium. Students also may have opportunities to gain experience in private medical offices and community hospitals.

Graduates may pursue further training in the specialties of family medicine, internal medicine, surgery, and pediatrics at one of 10 University of Iowa-affiliated residency programs in six Iowa cities. They also have access to two transitional-year programs. For more information, contact the Office of Student Affairs and Curriculum and visit Information for Current Students on the Carver College of Medicine web site.

First and Second Years: Basic Medical Sciences and Clinical Foundations

The first four semesters present a core of sciences basic to the study of medicine and introduce students to the foundations of clinical practice.

Some elective courses are available to students during the first and second years. These normally carry 1 or 2 s.h. of credit. Topics include areas not specifically covered in the regular curriculum and areas related to medical practice and the role of the physician. Courses vary from year to year, but typical subject areas are global health issues, U.S. health care systems, and community health outreach.

FIRST SEMESTER

099:163 (BIOC:8103) Medical Biochemistry presents concepts concerning structures of biological macromolecules, cellular metabolism, elements of human nutrition, molecular biology and genetics, and extra- and intracellular signaling mechanisms. It uses clinical examples to illustrate how alterations in these molecules and pathways can lead to pathological conditions.

060:103 (ACB:8101) Medical Gross Human Anatomy includes complete dissection of the human body with a regional focus that emphasizes relationships to the living system. Clinically relevant areas of radiologic imaging, surface anatomy, embryology, and clinical correlations complement the dissection experience. Students acquire anatomical knowledge through lectures, small group work, and independent activities.

050:120 (MED:8102) Medical Cell Biology presents concepts concerning the structure and function of the cell and its organelles at the molecular level. The course consists of basic science lectures and clinical correlations and relates basic cell biological concepts to the understanding and treatment of human disease.

070:110 (PEDS:8104) Medical Genetics is integrated with ongoing classes in anatomy, biochemistry, and cell biology. It provides an overview of clinical and medical genetics, with particular emphasis on recent changes that affect clinical practice with respect to common diseases that have a genetic component.

050:351 (MED:8121) Clinical and Professional Skills I is the first in a sequence of integrated courses that students take during the preclinical semesters of the M.D. program. The Clinical and Professional Skills (CAPS) courses address interpersonal skills, lifelong learning, interviewing skills, physical examination skills, ethical issues in patient care, and the basic approach to patients in terms of prevention, treatment, and follow-up care.

050:352 (MED:8122) Medicine and Society I is the first in a sequence of integrated courses that students take during the preclinical semesters of the M.D. program. The Medicine and Society (MAS) courses cover knowledge and skill related to health promotion and disease prevention from a medicine-and-society perspective. They examine the impact of behavior, environment, culture, and socioeconomics; they also identify major public health problems associated with the mechanisms of health and disease.

SECOND SEMESTER

060:234 (ACB:8114) Medical Neuroscience is a course for medical students, physical therapy students, and graduate students in the basic medical or related sciences. Through lectures, clinical correlate presentations, laboratories, and small group discussion sessions, the course emphasizes the interdisciplinary and integrated study of the human central nervous system. Its faculty is drawn from basic science and clinical departments.

148:251 (IMMU:8113) Principles of Medical Immunology is offered by the interdisciplinary Immunology Program. Its goals are to teach basic components and mechanisms of the immune response as well as medical principles of normal and abnormal immunity. The course consists of lectures by Immunology Program faculty and small group case analysis sessions.

050:240 (MED:8112) Human Organ Systems is an interdepartmental course that presents the normal structure (histology) and function (physiology) of human organ systems in a coordinated and integrated organ systems approach. The course is designed to emphasize structure/function relationships by integrating the microscopic anatomic and physiologic function of normal
human organ systems. The course’s faculty includes members of basic science departments and clinical departments.

050:353 (MED:8131) Clinical and Professional Skills II is the second in a sequence of integrated courses that students take during the preclinical semesters of the M.D. program. The Clinical and Professional Skills (CAPS) courses address interpersonal skills, lifelong learning, interviewing skills, physical examination skills, ethical issues in patient care, and the basic approach to patients in terms of prevention, treatment, and follow-up care.

050:354 (MED:8132) Medicine and Society II is the second in a sequence of integrated courses that students take during the preclinical semesters of the M.D. program. The Medicine and Society (MAS) courses cover knowledge and skill related to health promotion and disease prevention from a medicine-and-society perspective. They examine the impact of behavior, environment, culture, and socioeconomic conditions on health and disease, as well as human sexuality. Small-group learning and clinical skills activities take place throughout the semester.

THIRD SEMESTER

071:105 (PCOL:8203) Pharmacology for Health Sciences: Medical introduces basic principles of drug action and drug disposition through discussion of mechanisms of action, therapeutic uses, and side effects for a wide variety of commonly used medications. Lectures integrate knowledge from related scientific disciplines, including biochemistry, microbiology, pathology, and physiology. Students acquire knowledge of rationale and basis for appropriate selection of medications in clinical situations and an understanding of the basis for common drug-drug interactions and adverse drug reactions.

061:103 (MICR:8202) Principles of Infectious Diseases presents a comprehensive approach to the microbiology of infectious diseases, covering infectious agents at both the organismic and molecular levels. The molecular aspects of pathogenesis are presented as the basis for present and future preventive and therapeutic measures. The laboratory includes hands-on experiments ranging from principles of aseptic technique to the most modern molecular aspects of diagnostic microbiology.

069:205 (PATH:8204) Medical Pathology I starts with general principles of disease: cell injury, inflammation, immune mechanisms, neoplasia, and hemodynamic disorders, followed by etiology, pathogenesis, epidemiology, and major clinical and morphologic manifestations of disease by organ systems. The course combines lecture information, small group analytic skills, and observation of current laboratory procedures.

050:164 (MED:8205) Foundations of Clinical Practice III is the third semester of a sequential, four-semester course that introduces clinical skills students need in order to become practicing primary care physicians (see 050:162 (MED:8105) Foundations of Clinical Practice I under “First Semester” above for overall course goals). Foundations of Clinical Practice III introduces students to the abnormal structure and function of the human body and to a broader understanding of the practice of medicine in a social context. Students integrate and apply principles of clinical history taking, physical exam skills, and lecture material by working with simulated and real patients. Practicing clinicians deliver lectures on topics including common complaints of childhood through old age as well as human sexuality. Small-group learning and clinical skills activities take place throughout the semester.

FOURTH SEMESTER

069:206 (PATH:8214) Medical Pathology II is a continuation of 069:205 (PATH:8204) Medical Pathology I.

050:183 (MED:8213) Healthcare Ethics, Law, and Policy introduces M.D. and physician assistant students to health care ethics, law, and policy. Students learn to appreciate the inseparable relationship between medicine and ethics, recognize key ethical obligations and challenges common in medical practice, identify sources of ethical value commonly used in ethical reasoning, and apply a systematic approach to clinical ethical reasoning. They learn fundamental legal doctrines and theories that relate to business and professional aspects of the law pertaining to health care delivery. They also develop an understanding of the relationship and contrasts between ethics and law in medical practice, and they gain familiarity with the ways in which health policy influences medical practice. Through small group discussions about ethical challenges in patient care, they learn to interact respectfully with peers and faculty when discussing controversial issues.

050:165 (MED:8215) Foundations of Clinical Practice IV ICD is the final course in the foundation series. The fourth semester is devoted primarily to this major interdisciplinary course, which includes participation by a large proportion of the faculty and is vital in providing students with the tools for a lifetime of patient care.

Mornings are devoted to intensive review of the diagnostic and therapeutic aspects of organ-system-based clinical medicine. The reviews are presented by teams of specialty and subspecialty clinicians. Students spend afternoons acquiring and practicing the clinician’s skills in history taking and physical examination and in learning specialized exams. Small group learning and clinical case conferences take place throughout.

Each student is evaluated individually during the semester. Evaluations include the student’s approach to the patient, accuracy of history and physical examination, precision in communicating gathered data, ability to synthesize available data into a realistic differential diagnosis, and ability to apply the process of problem-based learning to the understanding of patient-based problems. Cognitive knowledge of topics covered in the morning lecture and small group sessions is assessed through computer-based multiple-choice examinations. Students who need further work receive guidance and assistance.

All M.D. students are required to pass Step 1 of the United States Medical Licensing Examination before they may be promoted to the third year of the curriculum.

Third and Fourth Years: Clinical Training

The M.D. curriculum’s third and fourth years consist of clinical training. Students must complete 81 weeks of courses during the two clinical years, including 65 weeks of required courses and 16 weeks of elective courses. They complete 49 weeks of courses during the third year and 32 weeks of courses during the fourth year.

Students begin the third year with the skills training course 050:170 (MED:8300) Clinical Beginnings (one week) and continue the year with the generalist core (total of 36
weeks of required clerkships) plus 12 weeks of courses
chosen from selectives and other required clerkships.

During the fourth year, students complete required
clerkships not completed during the third year, a
subinternship (four weeks), and 16 weeks of advanced
electives.

Primary venues for clinical training of medical students
include University of Iowa Hospitals and Clinics, the
Iowa City Veterans Affairs Medical Center, and the Des
Moines Area Medical Education Consortium. Students also
participate in the family practice preceptorship and the
community-based primary care clerkship, which are off-
campus rotations. Other courses may be assigned to off-
campus sites, as well.

The third and fourth years of the M.D. curriculum consist of
the following work.

**PRECLERKSHIP SKILLS TRAINING**

050:170 (MED:8300) Clinical Beginnings (one
week) helps students make the transition from the first
two years of the M.D. curriculum to the clinical work
in years three and four. It emphasizes the "four Cs":
clinical reasoning and reflection; the core competencies
(patient care, medical knowledge, practice-based learning
and improvement, interpersonal and communication
skills, professionalism, and systems-based practice);
collaboration and teamwork; and clinical appraisal of the
literature and lifelong learning.

**GENERALIST CORE**

M.D. students complete the generalist core during the third
year. It consists of the following 36 weeks of clerkships.

078:204 (IM:8458) Community-Based General Internal
Medicine (4 weeks) 4 s.h.

078:102 (IM:8302) Outpatient Internal Medicine (4
weeks) 4 s.h.

115:300 (FAM:8301) Preceptorship in Family Medicine (4
weeks) 4 s.h.

078:101 (IM:8301) Inpatient Internal Medicine (6
weeks) 6 s.h.

066:004 (OBG:8301) Clinical Obstetrics and Gynecology
(6 weeks) 6 s.h.

070:002 (PEDS:8301) Clinical Pediatrics (6 weeks) 6 s.h.

075:005 (SURG:8301) Clinical Surgery (6 weeks) 6 s.h.

**SELECTIVES**

During the third and fourth years, M.D. students complete
eight weeks of selectives chosen from these.

062:001 (DERM:8301) Clinical Dermatology (2 weeks) 2 s.h.

067:111 (OPHT:8301) Clinical Ophthalmology (4 weeks) 4 s.h.

074:006 (RAD:8301) Clinical Radiology (2 weeks) 2 s.h.

079:104 (URO:8301) Clinical Urology (2 weeks) 2 s.h.

069:240 (PATH:8301) Laboratory Medicine in Clinical
Practice (1 week) 1 s.h.

078:304 (IM:8303) Electrocardiography (1 week) 1 s.h.

116:006 (ANES:8301) Clinical Anesthesia (2 weeks) 2 s.h.

**OTHER REQUIRED CLERKSHIPS**

M.D. students complete the following 36 weeks of
additional required clerkships and other work during the
third and fourth years.

073:005 (PSYC:8301) Clinical Psychiatry (4 weeks) 4 s.h.

064:011 (NEUR:8301) Clinical Neurology (2 weeks) 2 s.h.

076:002 (ORTH:8301) Clinical Orthopaedics (2 weeks) 2 s.h.

068:003 (OTO:8301) Clinical Otolaryngology (2 weeks) 2 s.h.

Emergency medicine or critical care medicine (4 weeks)

One subinternship (4 weeks during the fourth year)

Advanced electives (total of 18 weeks during the fourth
year)

**Joint M.D./Graduate Degrees**

The Carver College of Medicine offers a joint M.D./Ph.D.
program for students who are interested in a career that
combines clinical and academic medicine with basic and
clinical research; see Medical Scientist Training Program (p.
1038) in the Catalog.

The college also collaborates with other University of Iowa
colleges to offer the joint M.D./M.B.A. program with the
Tippie College of Business (p. 621); the joint M.D./J.D.
program with the College of Law (p. 962); and the joint
M.D./M.P.H. program with the College of Public Health (p.
1138).

Students must be admitted to both of the individual
degree programs before they may be admitted to the joint
degree program. Those interested in joint M.D./graduate
degree programs must make arrangements with the
appropriate graduate department and with the Carver
College of Medicine associate dean for student affairs and
curriculum.

**Admission**

The Carver College of Medicine participates in the
American Medical College Application Service (AMCAS),
a nonprofit centralized application processing service for
applicants to U.S. medical schools. AMCAS applications
are available for completion in May of the year preceding
the beginning of the class for which application is being
made. Prospective students are urged to apply as early as
possible. The deadline for AMCAS submission is November
1.

Secondary applications are forwarded to applicants
whose AMCAS applications pass a review conducted by
the college. A $60 fee must accompany the secondary
application from all applicants.

Admitted applicants must have an official transcript from
each college they have attended sent to the University’s
Office of Admissions.

**Technical Standards for Admission and
Retention**

The Carver College of Medicine seeks students who will
serve the needs of society best, and it strives to graduate
skilled and effective physicians. To achieve these goals, it
applies the following principles and technical standards to
candidates for admission and to continuing students.

**PRINCIPLES**

Technical standards refer to criteria that go beyond
academic requirements for admission and are essential to
meeting the academic requirements of the M.D. program.

Applicants to the Carver College of Medicine and students
continuing in the college, with or without disabilities, are
expected to meet the same requirements.

Matriculation and continuation in the college assume
a certain level of cognitive and technical skill. Medical
students with disabilities are held to the same
fundamental standards as their nondisabled peers.
Although not all students should be expected to gain the
same level of proficiency with all technical skills, some skills are so essential that mastery must be achieved, with the assistance of reasonable accommodations where necessary.

Reasonable accommodations are provided to assist in learning, performing, and satisfying the technical standards.

Every reasonable attempt is made to facilitate the progress of students, providing that such efforts do not compromise collegiate standards or interfere with the rights of other students and patients.

**TECHNICAL STANDARDS**

Applicants for admission to the Carver College of Medicine and continuing students must possess the capability to complete the entire medical curriculum and be granted the degree. To this end, they must complete all courses in the curriculum successfully. In order to acquire the knowledge and skills to function in a broad variety of clinical situations and to provide a wide spectrum of patient care, M.D. students must have abilities and skills in six areas, including observation; communication; motor skills; intellectual, conceptual, integrative, and quantitative abilities; behavioral and social attributes; and cultural competence.

Technological compensation can be made for some disabilities in certain areas, but each student must meet the essential technical standards in such a way that he or she is able to perform in a reasonably independent manner. The use of a trained intermediary is not acceptable in many clinical situations, because it implies that the student’s judgment must be mediated by someone else’s power of selection and observation.

**Observation:** Students must have the functional ability to observe demonstrations and experiments in the basic sciences and must have sufficient use of the senses necessary to perform a physical examination.

**Communication:** Students must be able to relate reasonably to patients and establish sensitive, professional relationships with patients, colleagues, and staff. They are expected to use language that reflects sensitivity to clinical situations and to communicate the results of the history and physical examination to the patient and to their colleagues with accuracy, clarity, and efficiency.

**Motor:** Students are expected to participate in basic diagnostic and therapeutic maneuvers and procedures. Those who cannot perform these activities independently should be able to understand and direct the methodology involved in such activities.

**Intellectual, conceptual, integrative, and quantitative abilities:** Students must be able to analyze, synthesize, solve problems, and reach reasonable diagnostic and therapeutic judgments. Students are expected to be able to display good judgment in the assessment and treatment of patients. They must be able to learn to respond with prompt and appropriate action in emergency situations.

**Behavioral and social attributes:** Students are expected to be able to accept criticism and respond with appropriate modification of their behavior. Students also are expected to possess the perseverance, diligence, and consistency necessary to complete the M.D. curriculum and enter the independent practice of medicine in a reasonable period of time. They must demonstrate professional and ethical demeanor and behavior in all dealings with peers, faculty, staff, and patients.

**Cultural Competence:** Medical students must be able to communicate with and care for persons whose culture, sexual orientation, or religious beliefs are different from their own. They must be able to perform a complete history and physical exam on any patient regardless of the student’s or the patient’s race, religion, ethnicity, socioeconomic status, gender, age, or sexual preference. Similarly, students must be able to interact professionally with colleagues and other health care professionals without regard to race, religion, ethnicity, socioeconomic status, gender, age, or sexual preference.

Applicants who may not meet these standards are encouraged to contact the college’s admissions office.

**Admission Requirements**

Applicants for admission to the Carver College of Medicine must have a bachelor’s degree; or they must be enrolled in a bachelor’s degree program, have earned at least 94 s.h. of credit or the equivalent, and expect to receive their degree before enrolling in the Carver College of Medicine. They must have earned college credit in the following courses.

**Physics:** a complete introductory course (one year), including lab instruction.

**Mathematics:** an advanced college mathematics course or a statistics course.

**Chemistry:** a minimum of two years of chemistry, which must include general/inorganic chemistry, organic chemistry, and biochemistry.

**Biology:** a complete introductory course in the principles of biology (one year), with the appropriate laboratories; and an advanced biology course (one semester or quarter); recommended advanced biology courses include molecular and cell biology, human physiology, genetics, and microbiology.

**English:** two courses, including composition and literature; the requirement may be waived if the applicant’s school has an integrated writing requirement in courses across its curriculum.

**Social and behavioral sciences, and humanities:** four courses; because writing skills are important in the study and practice of medicine, prospective applicants are encouraged to fulfill this requirement with courses that include a writing component; recommended courses include behavioral psychology, foreign language, and other courses that encourage appreciation for diversity and cultural competency.

Applicants should have taken the required science courses for a grade rather than electing pass/fail grading.

Fulfillment of these requirements does not guarantee admission to the Carver College of Medicine. The college’s admissions committee selects applicants who appear to be best qualified to study and practice medicine. Preference is given to Iowa residents with high scholastic standing. Consideration also is given to outstanding nonresidents.

Applicants are required to take the Medical College Admission Test (MCAT) no earlier than five years before and no later than September of the year of application. To register for the test, see "Reserving a Seat" on the Medical College Admission Test web site.
Personal interviews are part of the admission process. Candidates invited for an interview are contacted by the admissions committee. An external criminal background check is performed for all admitted students at the time of admission.

All students who enter the Carver College of Medicine are required to comply with the pre-entrance and annual health screening program developed by the University’s Student Health Service in cooperation with University of Iowa Hospitals and Clinics; see Requirements and Forms on the Student Health Service web site.

All registered Carver College of Medicine students are required to maintain health insurance (or an equivalent care plan) that satisfies minimum standards of coverage. Insurance coverage must be maintained continuously throughout each year of attendance at the University.

Financial Support
The Carver College of Medicine’s philosophy is that no student should be denied a medical education due to a lack of financial resources. The college’s financial aid staff actively seeks sources of aid so that every student interested in a medical education will be able to finance that education.

Financial assistance is provided by the Carver College of Medicine primarily on the basis of demonstrated financial need. Although a limited number of collegiate or institutional grants are available for the most economically disadvantaged students, most aid is in the form of loans. Examples of federal loan programs are the Federal Direct Unsubsidized Stafford/Ford Student Loan, the Federal Perkins Loan, and the Primary Care Loan (PCL). Students also may qualify for Federal Direct Grad PLUS Loans or private loans to supplement their financial aid package.

In addition, the college supports scholarship and loan programs through permanent endowments and/or contributions from alumni and friends of the Carver College of Medicine. These funds are administered by the college’s financial aid office and are awarded as a part of a student’s total financial aid package. Funds to support short-term emergency loans are available for students with immediate financial need.

A small number of Dean’s Scholarships are awarded by the college’s admissions office to highly qualified candidates on the basis of their academic excellence, leadership abilities, and their potential to enrich the college. Dean’s Scholarships are included in the recipient’s overall financial aid package.

To learn more about financial aid, contact the Carver College of Medicine Financial Services office.

Academic Rules and Procedures

Student Promotion
The Carver College of Medicine has established promotion policies and procedures to ensure that each of its graduates has adequate skills, knowledge, judgment, ethical standards and personal integrity to assume the responsibilities of a medical doctor. The student promotions committee, made up of seven faculty members and two students, performs these duties with the cooperation, advice, and judgment of course directors, faculty members, students, and administrators.

The committee recommends specific actions to be taken when a student’s skills, knowledge, judgment, or ethical behavior is in any way considered consistently marginal or unsatisfactory. Possible recommendations include dismissal of the student from the college; suspension for a specified period of time; requiring the student to repeat all or any part of the curriculum on academic probation; and allowing the student to continue on academic probation with a full or partial course load. The committee’s recommendations are forwarded for action to the executive dean of the Carver College of Medicine.

Medical students have the right to appeal a promotion decision. They must submit the appeal in writing to the Carver College of Medicine’s executive dean within five days of notification of the decision. Appeals are considered by the Appeals Committee, made up of faculty representatives of the Medical Council and the Executive Committee, a medical student, a lay member, and the associate dean for student affairs (ex officio). Students may request an opportunity to appear before the Appeals Committee to make a statement and answer questions. The committee then makes its recommendation to the college’s dean, who is the final authority.

Specific information about student promotion policies and procedures is available from the Office of Student Affairs and Curriculum and is online in the Student Handbook.

Leaves of Absence, Withdrawal, Reinstatement
The Carver College of Medicine has established policies regarding leaves of absence, dropping courses, withdrawal from the college, and reinstatement to the college. Information about each of these policies is available at the college’s Office of Student Affairs and Curriculum and is published annually in the Student Handbook.

Disputes and Complaints
Student complaints concerning actions of faculty members or departments are pursued first through mechanisms established in the Carver College of Medicine. These procedures allow the greatest flexibility for all concerned in resolving a conflict. They are intended for situations such as grading disputes, alleged academic dishonesty, alleged dishonesty during a clinical rotation, alleged unethical or unprofessional conduct, and perceived discrimination or harassment.

Complaints regarding sexual harassment are handled confidentially in accordance with University policy and procedures; see the University’s Policy on Sexual Harassment.

For information about the established informal mechanisms, contact the Office of Student Affairs and Curriculum or see the Student Handbook.

Assistant professor emeritus
- Harlo Hove

Web site: http://www.medicine.uiowa.edu/emergencymedicine/

The Department of Emergency Medicine prepares new physicians to recognize and treat a variety of urgent and emergent conditions. The program fosters basic science and clinical research relevant to emergency medicine and is dedicated to the education and training of Emergency Medical Services (EMS) personnel through the Emergency Medical Services Learning Resources Center (EMSLRC).

M.D. Student Training

Elective rotations for Doctor of Medicine students are available at University of Iowa Hospitals and Clinics and at several other sites throughout Iowa, including St. Luke's Hospital, Cedar Rapids; Great River Medical Center, Burlington; Covenant Medical Center, Waterloo; Broadlawns Medical Center, Des Moines; and Mercy Medical Center, Sioux City. Students also may arrange an off-service elective independently with established residency programs throughout the United States.

The program offers an annual introductory month to emergency medicine; advanced life support; and Wilderness Medicine, a rotation that includes a trip to wilderness areas such as the Colorado Rockies, Iowa's Lake Macbride, and the Ozarks.

Residency Program

The emergency medicine faculty directs the Iowa Emergency Medicine Residency, Iowa's only emergency medicine residency. The residency is a three-year program that prepares residents for careers in diverse areas of emergency medicine, from rural practice to academics. The program emphasizes critical care training and rotations in a wide variety of specialties. Part of the clinical component is spent at St. Luke's Hospital, Cedar Rapids.

Resources

The Emergency Department, located on the first floor of Roy Carver Pavilion, is a Level I Adult and Pediatric Trauma Center. It serves as a referral center for communities across Iowa.

Courses

Preceptorship with full-time emergency department physicians; clinical shifts, case conferences, simulations, exams. Requirements: completion of M.D. third year.

184:221 (EM:8402) Emergency Medicine UIHC
Preceptorship with residents and faculty; emphasis on principles of acute medicine; clinical shifts, case conferences, simulations, exams. Requirements: completion of surgery, pediatrics, and internal medicine or advanced practice management.

184:222 (EM:8499) Emergency Medicine off Campus
Preceptorship with residents and faculty; emphasis on principles of acute medicine; Liaison Committee on Medical Education (LCME) accredited off-campus site. Requirements: Completion of M.D. third year and approval from UIHC Emergency Medicine clerkship director.

184:223 (EM:8405) Rural Emergency Medicine at Burlington, Iowa
In-depth clinical experience in a busy rural hospital emergency department under supervision of residency-trained emergency physicians; lectures, skill labs, projects. Requirements: completion of M.D. third year.

184:224 (EM:8401) Introduction to Advanced Life Support Skills
Experience managing acute threats to life, including trauma, respiratory failure, poisoning, sepsis, stupor/coma, and acute MI, using ACLS and PALS courses and clinical manikin work with EMS staff. Requirements: completion of M.D. third year.

184:225 (EM:8403) Wilderness Medicine
Didactic and scenario training in physiology, diagnosis, and emergency treatment of heat- and cold-related illnesses, high altitude disorders, wilderness trauma, envenomations, and immersion injuries. Taught in wilderness areas. Requirements: completion of M.D. third year.

184:226 (EM:8409) Transition to Residency
Intensive program providing basic training in life support skills, experience in procedures common to inpatient hospital environment, and practice with simulated critical care scenarios; lectures, small group discussions, procedure labs, high-fidelity simulations, and self-directed online learning; students become certified in Advanced Cardiac Life Support (ACLS). Requirements: completion of surgery, pediatrics, and IM or APM.

184:402 (EM:8406) Emergency Medicine Des Moines
Participation in acute emergency care, management of acute illnesses, follow-up care when possible; Broadlawns Hospital, Des Moines. Requirements: completion of surgery, pediatrics, and internal medicine or advanced practice management.

184:425 (EM:8407) Emergency Medicine Waterloo
Participation in acute emergency care, management of acute illnesses, follow-up care when possible; Covenant Medical Center, Waterloo. Requirements: completion of M.D. third year.
184:430 (EM:8408) Emergency Medicine Sioux City  4 s.h.
Experience with a routine cross section of emergency problems in a regional trauma center and with functions of area resource hospitals (St. Luke's Medical Center, Mercy Medical Center); option to accompany ambulance crews. Requirements: completion of surgery, pediatrics, and internal medicine or advanced practice management; and basic life support certification.

Clinical research experience with a mentor in the Emergency Treatment Center and the Department of Emergency Medicine; principles of design, methodology, basic statistics.

- Arthur Hartz, Reuben B. Widmer, Glenys O. Williams

Web site: http://www.medicine.uiowa.edu/familymedicine/

M.D. Student Training

The Department of Family Medicine trains primary care physicians. The department offers course work that is included throughout the four-year M.D. program. Twenty-one elective senior rotations give students opportunities for exposure to various Iowa communities through work in affiliated hospitals or connected facilities, in the department’s model office on the University of Iowa campus, and in preceptorships with selected family physicians throughout the state. Students also have the opportunity for independent study during the fourth year.

Residency Program

Family Practice Residency

The Department of Family Medicine directs a three-year residency program whose graduates are eligible for certification by the American Board of Family Medicine. The residency program trains physicians to provide continuous and comprehensive medical care to patients and their families. Residents are educated in all areas of family medicine—adult medicine, maternal and child health, behavioral science, surgical specialties, and community medicine. Training emphasizes the value of wellness and preventive medicine as well as curative medicine.

The program is organized as a progressive educational experience. It consists of formal teaching and clinical experiences on assigned rotations, structured conferences, and patient care in the Family Care Center. As residents develop clinical skills, medical judgment, and competence, their patient responsibilities increase. Some patients at the Family Care Center are assigned to residents, who provide medical care under faculty supervision. Each resident is responsible for his or her patients for the duration of the residency program.

Residents also learn the principles of practice management, including organizational and administrative decision making, patient record and bookkeeping procedures, and chart auditing methodologies.

Residents are expected to take responsibility for their learning environment, to avail themselves of the department’s diverse resources, and to collaborate with the faculty in order to have the best possible learning experience.
Family Medicine–Psychiatry Residency

The Department of Family Medicine and the Department of Psychiatry cosponsor the combined Family Medicine–Psychiatry Residency program. The program’s residents acquire broad-based training in both disciplines, including focused training in geriatrics and geriatric psychiatry, substance and alcohol abuse, diagnosis and treatment of depression, delirium, eating disorders, panic disorders, and neurotic and somatizing behavior. Graduates are eligible for certification by the American Board of Family Medicine and the American Board of Psychiatry and Neurology.

Facilities

The Department of Family Medicine is located on the University of Iowa health sciences campus. Faculty offices are close to the Family Care Center, where patients are seen by appointment. The department also has community-based clinics in southeast Iowa City and North Liberty, Iowa, and a rural satellite office located in Lone Tree, Iowa.

Courses

115:203 (FAM:8005) Medical Education Community Orientation 0 s.h.
Experience in a local health care delivery system away from the University setting, between first and second year of M.D. program.

115:300 (FAM:8301) Preceptorship in Family Medicine arr.
One-on-one experience with a practicing physician in his or her office; exposure to illnesses, conditions often seen in primary care; realistic background for evaluation of family medicine as a career alternative.

115:401 (FAM:8408) Family Medicine Clerkship, Broadlawns Hospital, Des Moines Family Health Center 4 s.h.
Clinical experience in inpatient and outpatient care.

115:403 (FAM:8419) Lone Tree Family Medicine Clerkship 4 s.h.
Experience providing patient care in a rural setting; continuity of care for patients of all ages. Requirements: fourth-year M.D. enrollment.

115:404 (FAM:8403) Advanced Preceptorship in Family Medicine 4 s.h.
Experience in community practice of family medicine.

115:405 (FAM:8401) Subinternship in Family Medicine, University of Iowa arr.
Inpatient aspects of family medicine’s key components; experience on the family medicine inpatient service.

115:406 (FAM:8409) Subinternship in Family Medicine, Iowa Lutheran 4 s.h.

115:407 (FAM:8410) Family Medicine, Iowa Lutheran arr.
Requirements: fourth-year M.D. enrollment.

115:408 (FAM:8402) University of Iowa Family Medicine Clerkship 2,4 s.h.
Work with family practice residents and staff in day-to-day delivery of primary medical care at Family Practice Center; experience in the Family Stress Clinic observing family-centered counseling; nursing home visits, work with departmental social worker and sports medicine specialist.

115:409 (FAM:8420) Family Medicine, Mason City 4 s.h.
Work with family physicians on staff at Mercy or other affiliated community hospitals; management of all patients admitted by the family physicians, participation in care rendered by consultants; primary care experience in family practice office.

Work with departmental researcher on investigation in family medicine, community medicine, health care delivery, health maintenance, and other areas.

115:411 (FAM:8404) Rural Preceptorship in Family Medicine 2,4 s.h.

115:415 (FAM:8406) Subinternship in Family Medicine--Cedar Rapids 4 s.h.
Experience as a junior resident in all areas of inpatient family medicine, including maternity care, child and adolescent health, adult medicine.

115:416 (FAM:8407) Clerkship in Family Medicine--Cedar Rapids 4 s.h.
Experience as a junior resident in all areas of family medicine, including maternity care, child and adolescent health, adult medicine.

115:417 (FAM:8450) Continuity of Care--Family Medicine 4 s.h.
Longitudinal continuity of care experience for fourth-year M.D. students in an outpatient family medicine setting.

115:419 (FAM:8411) Family Medicine Clerkship, Davenport 4 s.h.
Assignment to problems commonly seen in family practice office; supervision by residents and faculty for history and physical evaluation and diagnostic workups and treatment of each specific problem; exposure to acutely ill patients in services of medicine, surgery, obstetrics, pediatrics.

115:420 (FAM:8416) Family Medicine Clerkship, Sioux City 4 s.h.
Methods common in family practice medicine; participation in care of patients seen by family practice physicians and residents.

115:423 (FAM:8417) Subinternship in Family Medicine, Waterloo 4 s.h.
Experience working as a member of family practice inpatient team at Allen Memorial Hospital and Covenant Medical Center, following patients from admission through discharge.
115:424 (FAM:8418) Family Medicine Clerkship, Waterloo
Rotation at the Northeast Iowa Family Practice Center; work with patients from outpatient care through hospitalization; basic concepts of family practice, team concept in medical care.

115:426 (FAM:8405) Geriatrics Elective
(arr.)
Experience in monitoring and evaluating health and functional status of patients age 65 and older in the UI Geriatric Assessment Clinic and community settings. Same as 078:800 (IM:8405).

115:427 (FAM:8413) Family Medicine Geriatrics, Davenport
4 s.h.
Geriatric, palliative, and end-of-life care issues; assessment of competency in evaluation and management of patients; interdisciplinary nature of geriatric and palliative care.

115:429 (FAM:8415) Subinternship in Family Practice, Sioux City
4 s.h.
Experience as a junior resident in all areas of family medicine. Requirements: fourth-year M.D. enrollment.

115:430 (FAM:8412) Sub-Internship in Family Medicine, Davenport
4 s.h.
Experience in inpatient family medicine; assessing and managing hospitalized patients, evaluating and treating patients in the emergency room, participating in call coverage with family medicine residents.

115:431 (FAM:8421) Primary Care Sports Medicine
4 s.h.
Comprehensive, diverse, and educational experience in the field of sports medicine; clinical competence to diagnose and manage medical illnesses and injuries related to sports and exercise in varied patients, recreational and organized athletes, and teams. Requirements: M.D. enrollment.

115:432 (FAM:8422) Family Medicine/Psychiatry Elective
2.4 s.h.
Integration of mental and physical health care across outpatient family medicine and outpatient psychiatry arenas. Requirements: M.D. enrollment.

115:999 (FAM:8499) Family Medicine off Campus
(arr.)
Clerkships; may include community hospitals.
Free Radical and Radiation Biology

Spitz (Radiation Oncology), John J. Sunderland (Radiation Oncology), Mindi J. Tennapel (Radiation Oncology), Timothy J. Tewson (Radiation Oncology), Aliye Uc (Radiation Oncology/Pediatrics), Douglas J. Van Dael (Radiation Oncology), Timothy J. Waldron (Radiation Oncology), M. Todd Washington (Radiation Oncology), Gordan L. Watkins (Radiation Oncology), Marc S. Wold (Radiation Oncology), Xiaodong Wu (Radiation Oncology)

Graduate degrees: M.S. in free radical and radiation biology, Ph.D. in free radical and radiation biology

Web site: http://www.uiowa.edu/~frrbp/

The Free Radical and Radiation Biology Program provides in-depth training and research experience in the physical, chemical, and biological effects of radiation. It also focuses on the metabolic production of free radicals for biology and medicine.

Free radicals are of interest to researchers and clinicians due to their role in a variety of diseases and pathological states, including degenerative diseases of aging and cancer. Manipulation of free radical reactions and redox biology hold great promise for the future development of new therapies for a variety of human diseases. The Free Radical and Radiation Biology Program stresses the importance of these areas of research to basic science, clinical medicine, and public health.

Undergraduate Education

Four courses offered by the Free Radical and Radiation Biology Program are open to University of Iowa undergraduate students: 077:103 (FRRB:5000) Radiation Biology, 077:107 (FRRB:4000) Special Topics: Advanced Undergraduates, 077:108 (FRRB:4001) Special Topics: Advanced Undergraduates, and 077:120 (FRRB:3130) Radiation Safety and Radiobiology. Students looking for an overview of the biological effects of radiation, including the role of free radicals, will find 077:103 (FRRB:5000) Radiation Biology especially appropriate. All three courses are appropriate for students who plan to enter medicine, nuclear medicine technology, environmental health, or related programs.

Graduate Programs of Study

- Master of Science in free radical and radiation biology
- Doctor of Philosophy in free radical and radiation biology

The Carver College of Medicine administers graduate programs in free radical and radiation biology; graduate degrees are granted through the Graduate College. See Carver College of Medicine (p. 993) and Graduate (p. 888) College in the Catalog for general information about study in medicine and graduate study at the University.

Master of Science, Doctor of Philosophy

The Master of Science in free radical and radiation biology requires a minimum of 30 s.h. of graduate credit; the Doctor of Philosophy requires a minimum of 72 s.h. of graduate credit.

The M.S. and Ph.D. programs are open to graduate students with a background in physics, chemistry, mathematics, biology, health sciences, veterinary medicine, or engineering.

After completing the introductory course 077:103 (FRRB:5000) Radiation Biology, students typically concentrate on a particular aspect of the field. Some students elect to focus on radiation and cancer biology, while others choose to emphasize free radical biology. In addition to formal lectures and some structured laboratory exercises, plans of study for free radical and radiation biology students involve small-group conferences, discussions, and seminars. Ph.D. students are encouraged to spend at least one semester as teaching assistants, for which no registration is required and no academic credit is given.

Many of the department’s graduate students elect to take 077:120 (FRRB:3130) Radiation Safety and Radiobiology, a course that covers safe operation of radiation-producing equipment and handling of radioactive materials, regulations and regulatory agencies, formulas and techniques in radiation protection programs, radiation protection, and other topics.

Postgraduate Training

Postdoctoral training is available by arrangement with the program’s director and individual faculty members. Contact the Free Radical and Radiation Biology Program.
Financial Support

Graduate students are supported as graduate assistants from funds available through research grants and contracts or from departmental funds. Individual postdoctoral awards also may be available; the candidate and his or her faculty sponsor apply for them jointly.

Facilities

The Free Radical and Radiation Biology Program is the home of the Radiation and Free Radical Research Core Lab (RFRRC). The lab operates a 300 kVp orthovoltage X-ray generator and other radiation sources, including a 8,000-Curie Cs-137 irradiator. Students and staff have access to additional core lab support through RFRRC, with services and expertise related to analytical chemistry (EPR services) and redoxbiology, biochemistry (AES services), and linear accelerators in the Department of Radiation Oncology.

The program has a number of radiation detectors and counters, including liquid scintillation counters. It also has ultraviolet/visible spectrophotometers; various types of equipment for densitometry, chromatography, and electrophoresis; molecular biology equipment, including thermal cyclers; an automatic cell counter and particle sizer; tissue culture facilities; Typhoon Phosphoimager; HPLC; Electron Spin Resonance Spectrometers; and nitric oxide analyzers. Visit Radiation and Free Radical Research Core on the program's web site to learn more.

Courses

**077:103 (FRRB:5000) Radiation Biology**  4 s.h.
Characteristics and biological effects of ionizing radiations. Offered fall semesters of odd years. Prerequisites: 004:121 (CHEM:2210), 029:240, and 099:120 (BIOC:3120).

**077:107 (FRRB:4000) Special Topics: Advanced Undergraduates**
Readings and/or laboratory experience. Offered fall semesters.

**077:108 (FRRB:4001) Special Topics: Advanced Undergraduates**
Readings and/or laboratory experience. Offered spring semesters.

**077:120 (FRRB:3130) Radiation Safety and Radiobiology**  2 s.h.
Instruction on safe operation of radiation producing equipment and handling of radioactive materials; origin and/or derivation of certain formulae and techniques useful in radiation protection programs; regulatory agencies, regulations, and regulatory guides pertinent to student’s field; emphasis on applied aspects of radiation protection; characteristics and biological effects of ionizing radiations, properties and uses of radioisotopes, medical applications, and biological basis for protection procedures. Requirements: enrollment in radiation sciences program. Same as 680:130 (RSP:3130).

**077:222 (FRRB:7000) Redox Biology and Medicine**  4 s.h.
Chemistry and biology of free radicals and related oxidants; antioxidants; antioxidant enzymes—their structure, function, regulation; targets of free radicals (lipids, proteins, DNA); free radicals in health and disease. Offered fall semesters of even years. Prerequisites: 004:121 (CHEM:2210) or 099:120 (BIOC:3120).

**077:288 (FRRB:7001) Molecular and Cellular Biology of Cancer**  3 s.h.
Fundamental aspects of oncology at the cellular and molecular levels; mechanisms of cancer initiation and progression, oncogene action, DNA damage and repair, carcinogenesis by radiation, chemicals, viruses; tumor immunology, anticancer therapies. Offered spring semesters of odd years. Requirements: strong basic science background. Same as 069:288 (PATH:7001).

**077:305 (FRRB:6004) Research: Free Radical and Radiation Biology**
arr.

**077:307 (FRRB:5001) Research: Special Topics**
arr.

**077:308 (FRRB:5002) Research: Special Topics**
arr.

**077:545 (FRRB:6006) Topics in Free Radical Biology and Medicine**  1 s.h.
New literature in area of free radicals.

**077:547 (FRRB:6008) Topics in Radiation and Cancer Biology**  1 s.h.
Emerging concepts in the biological effects of radiation and cancer biology; current topics in journal club format.

Professors

Associate professors

Assistant professors

Associates

Adjunct professors
• Edgar Carvalho, Steven R. Craig, Howard Dittrich, Michael T. Flood, Patrick H. Henry, Selma Jeronimo, Nathan Josephson, Udaya M. Kabadi, Louis Katz, Thomas J. McIntosh, Barbara A. Muller, William J. Yost

Adjunct associate professors

Adjunct assistant professors
endocrinology and metabolism, gastroenterology and immunology, cardiology, clinical pharmacology, primary care as well as the specialized areas of allergy discipline, including general internal medicine and research activities cover all facets of the prevention, and treatment of diseases of adults. The Internal medicine is concerned with the diagnosis, clinical and research fellowships, in which fellows develop special knowledge and skills relevant to their specialties. Fellows who hold doctoral degrees may be accepted to postgraduate work.

M.D. Student Training

In the third year, the department’s faculty members teach students for six focus weeks in 078:101 (IM:8301) Inpatient Internal Medicine and for four weeks in 078:102 (IM:8302) Outpatient Internal Medicine at University of Iowa Hospitals and Clinics, the Iowa City Veterans Affairs Medical Center, or hospitals of the Des Moines Area Medical Education Consortium. M.D. students actively participate as members of an inpatient ward team in 078:101 (IM:8301) and in the evaluation and management of patients at outpatient internal medicine clinics in 078:102 (IM:8302).

In the fourth year, M.D. students may select a clinical experience to fit their own career goals from courses offered in general medicine, subspecialties, intensive care, and a subinternship program.

Residency Program, Postgraduate Work
The department offers a three-year residency training program in internal medicine. In addition, most of the department’s specialty divisions offer two- and three-year clinical and research fellowships, in which fellows develop special knowledge and skills relevant to their specialties. Fellows who hold doctoral degrees may be accepted to programs whose major focus is laboratory research.

Facilities
Teaching in the Department of Internal Medicine takes place in the medical services and laboratories of University of Iowa Hospitals and Clinics and the Iowa City Veterans Affairs Medical Center, and in Des Moines at the Veterans Affairs Central Iowa Health Care System and Iowa Methodist Medical Center.

Adjunct instructors

Professors emeriti

Associate professors emeriti
- Henri A. Cuddihy, James R. Flanagan, William J. Lawton, Jeanne M. Smith

Web site: http://www.int-med.uiowa.edu/

Internal medicine is concerned with the diagnosis, prevention, and treatment of diseases of adults. The Department of Internal Medicine’s educational, patient care, and research activities cover all facets of the discipline, including general internal medicine and primary care as well as the specialized areas of allergy and immunology, cardiology, clinical pharmacology, endocrinology and metabolism, gastroenterology and hepatology, hematology, oncology, blood and marrow transplant, infectious diseases, nephrology, pulmonary, critical care, occupational medicine, and rheumatology. The department is committed to the complete spectrum of medical education, from didactic and clinical education of M.D. students to resident and fellowship training.
Courses

078:101 (IM:8301) Inpatient Internal Medicine
Development of knowledge, diagnostic and management skills vital to care of hospitalized patients; clinical responsibilities, educational conferences, independent study.

078:102 (IM:8302) Outpatient Internal Medicine
3-4 s.h.
Development of knowledge, diagnostic and management skills in the outpatient clinical setting; clinical activities, discussion of problems, independent study.

078:202 (IM:8401) Subinternship in Internal Medicine
4 s.h.
Student responsibility for evaluating, treating, and following patients admitted to inpatient general medicine services. Requirements: fourth-year M.D. enrollment.

078:204 (IM:8458) Community-Based General Internal Medicine
4 s.h.
Primary care internal medicine in a community setting. Requirements: fourth-year M.D. enrollment.

078:205 (IM:8450) Continuity of Care in Outpatient Internal Medicine
4 s.h.
Experience with longitudinal continuity of care for patients in the outpatient setting; clinical and didactic exposure to broad spectrum of general internal medicine problems. Requirements: fourth-year M.D. enrollment.

078:217 (IM:8445) Integrated Topics in Infectious Diseases
4 s.h.
Questions in host-parasite interactions; monthly case study followed by journals club discussions.

078:218 (IM:8453) Critical Care Rotation, IMMC, ICU, DM
4 s.h.
Subinternship on medical critical care team, with daily rounds, teaching. Requirements: fourth-year M.D. enrollment.

078:219 (IM:8452) Subinternship in Internal Medicine at VAMC, Des Moines
arr.
Rotation at the Veterans Affairs Central Iowa Health Care System; subinternship on general internal medicine ward. Requirements: fourth-year M.D. enrollment.

078:220 (IM:8451) Subinternship in General Internal Medicine and ICU, Des Moines
arr.
Four-week rotation at Des Moines Medical Education Consortium; experience as a subintern in general internal medicine and the ICU. Requirements: fourth-year M.D. enrollment.

078:221 (IM:8455) Public Health Medicine
arr.
Participation in ongoing projects related to public health issues of acute disease; training and career opportunities in public health practice.

078:225 (IM:8454) General Medicine Consult Service, IMMC
arr.
Principles of consultative medicine provided by general internists to non-internal medicine patients; how to assess perioperative risk for patients evaluated before surgery.

078:250 (IM:8410) Clinical Allergy Immunology
arr.
Pathogenesis, diagnosis, and management of asthma and allergic and immunologic diseases; conducting and interpreting relevant specialized clinical and laboratory tests; emphasis on outpatients; formal and informal teaching sessions.

078:300 (IM:8412) Clinical Cardiology
arr.
Development of breadth and depth in diagnostic and therapeutic problems encountered in clinical cardiology; participation in evaluation and decisions regarding patients seen sometimes in the cardiovascular clinic, inpatient cardiology wards, and electrophysiology service.

078:304 (IM:8303) Electrocardiography
arr.
Scalar electrocardiography with option of viewing exercise studies including treadmill testing; initial interpretation of current tracings and daily staff conferences.

078:325 (IM:8456) Clinical Cardiology Coronary Care Experience, Iowa Methodist, Des Moines
arr.

078:333 (IM:8495) Internal Medicine ICU off Campus
arr.
Experience as subintern in the ICU/MICU; daily rounds and teaching with medical critical care staff.

078:400 (IM:8414) Clinical Endocrinology
arr.
New patient evaluation, inpatient referral; returning patients in diabetes, endocrine clinics; complete patient evaluations, charts; participation in clinical conferences.

078:450 (IM:8416) Clinical Gastroenterology
arr.
Work in consultation service at University Hospitals and Clinics or Veterans Affairs Iowa City Health Care System; assistance in diagnostic procedures for patients examined as part of consultation service; participation in patient follow-up through weekly return clinic.

078:501 (IM:8418) Hematology Oncology
arr.
Diagnostic skills in hematology and oncology.

078:503 (IM:8435) Palliative Care
2,4 s.h.
Requirements: M.D. enrollment.

078:504 (IM:8437) Multidisciplinary Cancer Care
2 s.h.
Basic concepts of cancer care; role of multidisciplinary team in care of cancer patients; development of attitudes, knowledge, and skills useful for entering a specialty that encounters patients with cancer. Requirements: M.D. enrollment.

078:550 (IM:8422) Clinical Infectious Disease
arr.
Diagnosis, treatment, follow-up, study of patients with infectious diseases, under staff guidance; techniques of diagnostic microbiology; participation in conferences, teaching activities.
078:600 (IM:8426) Pulmonary Disease
Breadth, depth in diagnostic, therapeutic problems encountered in clinical pulmonary disease; evaluation of outpatients and inpatients under staff supervision; interpretation of special studies carried out in pulmonary function laboratory, fiberoptic bronchoscopy and brush biopsy of lung; exposure to diagnosis and management of acute respiratory failure in intensive care units at University of Iowa Hospitals and Clinics, Veterans Affairs Iowa City Health Care System.

078:602 (IM:8424) Medical Intensive Care Unit
arr.

078:650 (IM:8428) Nephrology
Evaluation of patients from University of Iowa Hospitals and Clinics inpatient service, Veterans Affairs Iowa City Health Care System, clinics; emphasis on early kidney disease, all varieties of hypertension.

078:652 (IM:8457) Clinical Nephrology, Iowa Methodist, Des Moines
2,4 s.h.
Exposure to common nephrology problems, including acute renal failure, chronic renal failure, acid-base disorders, common electrolyte disorders.

078:653 (IM:8430) Adult and Pediatric Nephrology and Hypertension

078:662 (IM:8432) Medical and Pediatric Endocrinology

078:700 (IM:8434) Clinical Rheumatology
Clinical features of rheumatic diseases, their differential diagnosis, principles of management; patients from arthritis clinic, inpatient consultation service of University of Iowa Hospitals and Clinics, Veterans Affairs Iowa City Health Care System.

078:800 (IM:8405) Geriatrics Elective
Experience in monitoring and evaluating health and functional status of patients age 65 and older in the UI Geriatric Assessment Clinic and community settings. Same as 115:426 (FAM:8405).

078:998 (IM:8498) Internal Medicine on Campus
arr.

078:999 (IM:8499) Internal Medicine off Campus

Medical Education Program

**Director**
- Kristi J. Ferguson

**Affiliated faculty**
- Rick Axelson (Family Medicine), Kristi J. Ferguson (Community and Behavioral Health/Internal Medicine), Clarence Kreiter (Family Medicine), Jeff Pettit, Marcy Rosenbaum (Family Medicine)

**Graduate degree:** M.M.E.
**Graduate certificate:** Medical education
**Web site:** [http://www.healthcare.uiowa.edu/ocrne/masters/programoverview.htm](http://www.healthcare.uiowa.edu/ocrne/masters/programoverview.htm)

The Medical Education Program is dedicated to providing medical faculty members with formal training in medical education. The program is coordinated through the Office of Consultation and Research in Medical Education.

**Graduate Programs of Study**
- Master in Medical Education
- Certificate in Medical Education

Application requirements are the same for both programs; see "Admission" below.

**Master in Medical Education**

The Master in Medical Education requires a minimum of 30 s.h. of graduate credit. The program is designed to prepare medical faculty members to educate health professionals. It is intended for Carver College of Medicine faculty members and professional staff as well as for University of Iowa resident physicians and fellows.

The program gives participants the opportunity to specialize in theory and practice of curriculum design, effective teaching, assessment, and other aspects of medical education. Graduates of the program should be able to:
- Design evidence-based education programs and materials with appropriate scope, sequence, and focus for intended learners;
- Deliver effective instruction to individuals and small or large groups in classroom, laboratory, or clinical settings;
- Evaluate the effectiveness of educational instruction, using formative and summative methods;
- Understand basic principles of educational measurement and be able to apply them to medical education;
- Use assessments to promote learning and to assess learning progress and status; and
- Understand basic principles of, and be able to interpret and use, educational research.

The M.M.E. may be completed in as few as two years or as many as five. Students may begin the program in fall semester, spring semester, or summer session. Some of the required courses are offered online, and required on-campus courses have evening meeting times.

The curriculum includes 24 s.h. of required courses and 6-9 s.h. of electives. Students must register for at least one course each academic year in order to maintain satisfactory progress toward the degree. The program's faculty provides substantial student advising and consultation.

During their first semester, students file a plan of study. Each student's plan must include a description of the student's goals, intended graduation date, and a list of courses the student plans to take each semester he or she is working toward the degree. The study plan must incorporate all of the courses required for the degree and must include any requests for transfer credit. The plan must be approved by the director of the M.M.E. program and by the student's advisor. Subsequent revisions of the plan must have the advisor's approval.

The Master in Medical Education requires the following course work.

<table>
<thead>

</tbody>
</table>

Students who do not do clinical teaching may substitute another course for 050:702 (MED:9702) Clinical Teaching in Medical Education.

Students must have completed at least 18 s.h. before enrolling in 050:720 (MED:9720) Portfolio Project. In the portfolio, students integrate the materials they have developed over the course of the program into a document. Three faculty members review the project and evaluate the student’s participation in the program.

Electives require approval of the student’s advisor. They may include courses in the M.M.E. program as well as those offered by relevant departments and programs (e.g., College of Education, Tippie College of Business). Students should check with their advisors to determine which courses are graduate level.

**Certificate**

The Certificate in Medical Education requires a minimum of 12 s.h. of graduate credit. The certificate program is designed to help participants find new ways to enhance their scholarship and skills in teaching, curriculum design, and education assessment. It is intended for Carver College of Medicine faculty and professional staff as well as for University of Iowa resident physicians and fellows.

Required course work for the certificate is taken from the Master of Medical Education program. Individuals who complete the certificate and then decide they would like to earn the master's degree may count their certificate course work toward the M.M.E.

The Certificate in Medical Education requires the following course work.

Admission

Application requirements are the same for the M.M.E. degree and the certificate program. Applicants should hold an M.D. degree and must have performed satisfactorily on the Medical College Admission Test (MCAT). Basic sciences applicants without an M.D. must hold an equivalent degree and must have performed satisfactorily on an admission test equivalent to the MCAT.

Applicants whose first language is not English and who do not hold a baccalaureate or advanced degree from an accredited university in the United States, English-speaking Africa, Australia, Canada (except Quebec), New Zealand, or the United Kingdom must submit scores on the Test of English as a Foreign Language (TOEFL).

Application materials must include an official transcript showing medical course work and medical degree, or equivalent for basic sciences applicants (current and former University of Iowa students do not need to request a UI transcript or transcripts previously submitted to the University); a letter of reference from the applicant’s department head and one additional letter of reference; and a 300-500 word essay describing the applicant’s interest in medical education and in the Master in Medical Education program or the Certificate in Medical Education program.

To apply to the M.M.E. program, see Master’s in Medical Education/Admissions and Application on the program’s web site; to apply to the certificate program, see Applying as a Nondegree Graduate Student on the University of Iowa Office of Admissions web site. Application materials should be submitted to the Office of Admissions.

Application deadlines are July 15 for fall semester entry, November 15 for spring semester entry, and April 15 for summer session entry.
Medical Laboratory Science

Site coordinator
• Judith Kittleson (Pathology)

Undergraduate major: medical laboratory science (B.S.)
Web site: http://www.medicine.uiowa.edu/pathology/education/clsp/clsp

Medical laboratory scientists and medical technologists perform the laboratory tests that provide physicians with information vital for accurate diagnosis and proper treatment of disease. They are in demand in hospital, private, and government laboratories; clinics; physicians’ offices; and industrial, pharmaceutical, biological, and environmental research laboratories. Medical laboratory scientists and medical technologists are highly skilled health team members who use a battery of sophisticated procedures and instruments in their work and who possess specialized knowledge and skills acquired through completion of a formal program of academic and clinical study.

Undergraduate Program of Study
• Major in medical laboratory science (Bachelor of Science)

The Carver College of Medicine partners with Allen College in Waterloo, Iowa, to offer the major in medical laboratory science. The program is fully accredited by the National Accrediting Agency for Clinical Laboratory Sciences. All graduates are eligible for national certification examinations in medical laboratory science.

Undergraduate study in medical laboratory science is guided by the academic rules and procedures outlined under “Undergraduate Programs” in the Carver College of Medicine (p. 993) section of the Catalog.

Bachelor of Science

The Bachelor of Science with a major in medical laboratory science requires a minimum of 124 s.h., including 84 s.h. of preparatory study and the 40 s.h. professional (clinical) program, which consists of 11 months of didactic and practical instruction and clinical rotations.

Bachelor of Science students who have completed all preparatory study (years one through three) begin the fourth-year professional program in late August with online didactic lectures. They attend three separate days of laboratory skills instruction on the Allen College campus, and in mid-November they begin clinical rotations in the laboratories of University of Iowa Hospitals and Clinics and the Iowa City Veterans Affairs Medical Center. Students who successfully complete the 11-month professional program graduate with a Bachelor of Science from The University of Iowa and a Bachelor of Health Science from Allen College. The Medical Laboratory Science Program does not offer a certificate option.

To learn more about the fourth-year professional program, visit Medical Laboratory Science (MLS) on the Allen College web site.

Admission

Admission to the medical laboratory science professional program (fourth year) is competitive; enrollment may be limited. Applications are reviewed yearly. Students must apply to Allen College. Most students apply during fall of their third year and begin the professional program the following August. Applications are accepted until the class is filled.

Before beginning the professional program, students must complete all prerequisites, including the College of Liberal Arts and Sciences General Education Program (p. 306) requirements, and must earn at least 84 s.h. of college credit. They satisfy the English and public speaking prerequisite requirements by fulfilling the General Education Program’s Rhetoric requirements. Applicants must have a cumulative grade-point average of at least 2.70 both overall and in science course work. They must satisfy any English as a Second Language requirements specified by The University of Iowa before beginning the professional program.

Students should consult with a Medical Laboratory Science Program advisor as early as possible to plan preclinical studies that meet all requirements.

Expenses

Students are responsible for buying textbooks and paying tuition and student fees. The Medical Laboratory Science Program provides laboratory coats for professional program students.
Medical Scientist Training Program

Directors
• Pamela Geyer (Biochemistry/Obstetrics and Gynecology), Steven R. Lentz (Internal Medicine)

Website: http://www.healthcare.uiowa.edu/mstp/

Professional/Graduate Program of Study
• Joint Doctor of Medicine/Doctor of Philosophy
The Iowa Medical Scientist Training Program (MSTP) prepares trainees for careers in academic medicine, with emphasis on basic and clinical research.

Joint M.D./Ph.D.
The joint Doctor of Medicine/Doctor of Philosophy normally requires seven to eight years of continuous study. It provides an effective and efficient means to integrate graduate and clinical training, combining the scientific approach with clinical medicine.

In the first two years of the program, trainees enroll in the basic science and introductory clinical portions of the Carver College of Medicine’s Doctor of Medicine (p. 1019) curriculum. This provides a broad exposure to the language and organizing concepts that form the foundation for a career as a physician scientist. Trainees begin the research component of the graduate phase of the program during the first two years as well, through summer laboratory rotations, enrollment in 050:213 (MSTP:8513) Analyzing and Presenting Medical Research, research presentations by MSTP faculty and students, and a student-sponsored seminar series. They also participate in Conversations in Research, in which MSTP faculty members discuss their research and career interests, and they attend MSTP Grand Rounds, a forum for patient-based discussions that emphasizes how science and medicine intersect.

The first year of the M.D. curriculum addresses normal structure and function of human organ systems and emphasizes relationships among different disciplines. During the first semester, trainees take courses in biochemistry, gross anatomy, cell biology, and medical genetics. The second semester presents an integrated systemic core, which incorporates physiology, histology, and embryology and focuses on the development, structure, and function of human organ systems. Discipline-specific basic science instruction continues through the second semester, with medical neuroscience and immunology courses.

The second-year curriculum emphasizes abnormal structure and function of human organ systems. Trainees take courses in pathology, microbiology, and pharmacology.

Throughout the first two years of study, students receive instruction in the foundations of clinical practice, including patient experience in medical history taking and physical examination. At the end of the second year, all trainees take Step 1 of the U.S. Medical Licensing Exam and then complete the basic core clinical clerkship in internal medicine. They gain broad exposure to the spectrum of human disease and experience with direct patient care before they enter the graduate phase of training.

At the beginning of the third year, trainees return to the Carver College of Medicine’s M.D. curriculum to complete the clinical clerkship requirements for the joint M.D./Ph.D. program. During this phase, trainees bring a sophistication in the scientific approach to problem solving that they apply to human disease. They renew and develop clinical skills acquired in their early training and reinforce their understanding of the scientific basis of disease through continued participation in MSTP grand rounds. Upon completion of the clinical curriculum, trainees are awarded the M.D. and Ph.D.

Most graduates of the program elect to enter residency programs in clinical medicine and embark on careers as medical school faculty members in clinical disciplines with opportunities for basic and applied research. Other graduates accept academic appointments in basic science departments and spend a major part of their professional activity in biomedical research and teaching.

Admission
Applicants must meet requirements for admission to the M.D. program in the Carver College of Medicine; see “Admission to the M.D. Program” under Doctor of Medicine (p. 1019) in the Catalog. They also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Applicants should have completed requirements for a bachelor’s degree at an accredited academic institution. In addition to outstanding academic credentials, including strength in biological, physical, and mathematical sciences, they must demonstrate aptitude for and commitment to scientific research through productive research experience during their undergraduate years or after. Admission normally is made for entry to the first year of the program, but applicants already enrolled in the Carver College of Medicine may request admission with advanced standing.

Application
The Carver College of Medicine participates in the American Medical College Application Service (AMCAS). Program applicants should select M.D./Ph.D. Program-Type on their AMCAS application and instruct AMCAS to forward their credentials to the Carver College of Medicine (IA131). Applications should be submitted as early as possible to allow careful review by the admissions committees of the Medical Scientist Training Program and the Carver College of Medicine.
All candidates must take the Medical College Admission Test (MCAT), according to Carver College of Medicine requirements. The Graduate Record Exam (GRE) is not required for admission.

Application to the Graduate College is not required before acceptance to the MSTP. Trainees admitted to the program receive assistance with Graduate College enrollment.

**Financial Support**

Trainees receive stipend and full tuition support from a National Institutes of Health MSTP training grant to The University of Iowa, supplemented by other institutional and individual awards. Students in the graduate phase of training receive support from their graduate departments or interdisciplinary programs and their research advisors. The program office also helps selected trainees apply for competitive national awards for outstanding academic and research achievement.

**Courses**

**050:211 (MSTP:8511) MSTP Research**
Research experience. Requirements: Medical Scientist Training Program enrollment.

**050:212 (MSTP:8512) MSTP Clinical Connections**
Experience with physician-scientist preceptor in medical interviewing, physical examination, patient presentation through direct patient interaction. Requirements: Medical Scientist Training Program graduate phase enrollment.

**050:213 (MSTP:8513) Analyzing and Presenting Medical Research**
1 s.h.
How to read, interpret, and present medical and scientific literature; students read and present representative papers from scientific and medical literature.
Microbiology

Chair
• Patrick M. Schlievert

Professors
• Lee-Ann H. Allen (Internal Medicine/Microbiology), Gail A. Bishop (Microbiology/Internal Medicine), Steven Clegg, John T. Harty (Microbiology/Pathology), Bradley D. Jones, David M. Lubaroff (Urology/Microbiology), Wendy J. Maury, Linda L. McCarter, Paul B. McCray Jr. (Pediatrics/Microbiology/Internal Medicine), William M. Nauseef (Internal Medicine/Microbiology), Stanley Perlman (Microbiology/Pediatrics), Richard J. Roller, Patrick M. Schlievert (Microbiology/Internal Medicine), Jack T. Stapleton (Internal Medicine/Microbiology), George V. Stauffer, Jerrold P. Weiss (Internal Medicine/Microbiology), Mary E. Wilson (Microbiology/Internal Medicine/International Programs/Epidemiology), Timothy L. Yahr

Associate professors
• Alexander R. Horswill, Jon C.D. Houtman (Microbiology/Internal Medicine), John R. Kirby, Aloysius J. Klingelhutz (Microbiology/Radiation Oncology), Kevin L. Legge (Pathology/Microbiology), Steven M. Varga (Microbiology/Pathology), David S. Weiss, Hai-Hui Xue

Assistant professors
• Craig D. Ellermeier, Hillel Haim, Keith W. Jarosinski, Chioma M. Okeoma

Lecturers
• Jennifer D. Boddicker, Marcia L. Cordts, Linda M. Knudtson

Professors emeriti
• Michael A. Apicella, Robert F. Ashman, John E. Butler, Charles D. Cox, Michael G. Feiss, David T. Gibson, Louis G. Hoffmann, William Johnson, Erich W. Six, Donald P. Stahly, Mark F. Stinski, C. Martin Stoltzfus

Associate professor emeritus
• Jose E. Rodriguez

Undergraduate major: microbiology (B.S.)
Undergraduate minor: microbiology
Graduate degrees: M.S. in microbiology; Ph.D. in microbiology
Web site: http://www.medicine.uiowa.edu/microbiology/

Study in the Department of Microbiology is dedicated to the branch of biological sciences that deals with the smallest living things: bacteria, archaea, fungi, algae, protozoa, and viruses. It is coupled with immunology, the study of the response of higher organisms to foreign substances.

Microbiology and immunology are at the forefront of the modern biological revolution. Microbes are often the experimental subjects of choice for examining basic genetic and biological phenomena because of their small size, rapid growth rate, and relative simplicity. A significant portion of contemporary biochemical research employs microbiological and immunological methods.

Current research is making theoretical and practical advances concerning microbial species and viruses that infect animals, including man, plants, and other microbes; the use of comparative genomics, gene expression profiling, and recombinant DNA methods to analyze basic biological processes and generate valuable products; the nature and occurrence of microbial life in extreme or unusual environments; microbial synthesis and modification of antibiotics and other natural products; the role of microbes in stabilization of the biosphere by recycling and detoxifying waste products; the genetics and regulation of metabolic processes; and the genetics and regulation of the immune response, including characterization of mechanisms used by bacteria to signal one another and characterization of interactions between different types of immune cells and their targets.

The Department of Microbiology offers an undergraduate major, an undergraduate minor, and graduate degree programs and determines the curricula for those programs. Undergraduates majoring in microbiology receive their degrees (Bachelor of Science) from the College of Liberal Arts and Sciences and are governed by that college’s undergraduate academic policies. Graduate degrees in microbiology are conferred by the Graduate College.

Undergraduate Programs of Study
• Major in microbiology (Bachelor of Science)
• Minor in microbiology

Microbiology is an excellent major for undergraduate students who want a good general education with emphasis on an important and interesting branch of biological sciences. Graduates find employment opportunities in government, hospitals, public health laboratories, research laboratories, and industrial laboratories (food, dairy, chemical, pharmaceutical, and genetic engineering companies). Those who pursue advanced degrees have more advanced career opportunities in these same areas as well as in college and university teaching.

Bachelor of Science

The Bachelor of Science with a major in microbiology requires a minimum of 120 s.h., including 63-65 s.h. of work for the major (21 s.h. in microbiology and 42-44 s.h. in supporting course work). Students must complete at least 12 s.h. of the required 21 s.h. in microbiology courses at The University of Iowa. Students also must complete the College of Liberal Arts and Sciences General Education Program (p. 306).

The major requires the following course work.

MICROBIOLOGY COURSES

Students earn 21 s.h. in microbiology courses, as follows.

061:157 (MICR:2157) General Microbiology (with a grade of C or higher) 5 s.h.
061:163 (MICR:4163) Seminar: Microbiology (taken during the last two semesters before graduation) 2 s.h.
Additional microbiology courses, with at least 14 s.h. in courses numbered 061:147 (MICR:3147) or above, excluding 061:164 (MICR:3164) and 061:220 (MICR:5220) 14 s.h.

Students must earn a grade of C or higher in 061:157 (MICR:2157) in order to take more advanced microbiology courses.
Students must take 061:163 (MICR:4163) once for credit during their last two semesters before graduation. They may apply a maximum of 2 s.h. earned in the course toward the major, but they are encouraged to take it for 0 s.h. during other semesters after they have completed 061:157 (MICR:2157).

A maximum of 4 s.h. earned in 061:161 (MICR:4161) Undergraduate Research in Microbiology may be counted toward the major. However, honors students must complete 23 s.h. of microbiology courses for the major and may count 6 s.h. earned in 061:171 (MICR:4171) Honors Undergraduate Research in Microbiology; see “Honors in the Major” below.

**SUPPORTING COURSE WORK**

In addition to the required 21 s.h. of microbiology, the major requires supporting course work. These courses may not be taken pass/nonpass.

All of these:

- 002:031 (BIOL:1411)-002:032 (BIOL:1412) Foundations of Biology - Diversity of Form and Function 8 s.h.
- 004:141 (CHEM:2410) Organic Chemistry Laboratory 3 s.h.
- 099:120 (BIOL:3120) Biochemistry and Molecular Biology II 3 s.h.
- 099:130 (BIOL:3130) Biochemistry and Molecular Biology II 3 s.h.

One of these sequences:

- 029:081 (PHYS:1611)-029:082 (PHYS:1612) Introductory Physics I-II 8 s.h.

One of these:

- 22M:016 (MATH:1460) Calculus for the Biological Sciences 5 s.h.
- 22M:025 (MATH:1850) Calculus I 5 s.h.
- 22S:031 (STAT:2510) Biostatistics 3 s.h.
- 171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.

In addition, the following course may be recommended for some students.

- 08N:080 (CNW:2680) Nonfiction Writing 3 s.h.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

**Before the third semester begins:**

- 002:031 (BIOL:1411) Foundations of Biology;
- 004:011 (CHEM:1110) Principles of Chemistry I and
- 004:012 (CHEM:1120) Principles of Chemistry II; an approved calculus or biostatistics class

**Before the fifth semester begins:**

**Before the seventh semester begins:** five more courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** another 10-12 s.h. of course work

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining required General Education courses, and a sufficient number of semester hours to graduate

**Honors in the Major**

The department offers students the opportunity to graduate with honors in the microbiology major. Departmental honors students must maintain a g.p.a. of at least 3.33 in microbiology courses. They also must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University’s honors program.

To graduate with honors in the microbiology major, students must complete 23 s.h. of course work in microbiology, including 6 s.h. in 061:171 (MICR:4171) Honors Undergraduate Research in Microbiology, which introduces them to experimental research. At the end of the research, they must successfully present written and oral reports.

**Joint B.S./Ph.D.**

Students majoring in microbiology who are interested in earning a doctoral degree may apply to the joint Bachelor of Science/Doctor of Philosophy program in microbiology. The joint program permits students to count 12 s.h. of credit toward both the B.S. and Ph.D. degree requirements before they have been granted the B.S. degree. Contact the Department of Microbiology for more information.

**Minor**

The minor in microbiology requires a minimum of 15 s.h. in microbiology courses, including 12 s.h. in advanced courses taken at The University of Iowa. Courses numbered 061:147 (MICR:3147) Survey of Immunology and above are considered advanced for the minor, except 061:164 (MICR:3164) Nursing Microbiology. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass.

Students may count a maximum of 2 s.h. earned in 061:161 (MICR:4161) Undergraduate Research in Microbiology or 061:171 (MICR:4171) Honors Undergraduate Research in Microbiology, and 2 s.h. earned in 061:163 (MICR:4163) Seminar: Microbiology, toward the minor. They may count 061:218 (MICR:5218) Microscopy for Biomedical Research toward the minor, but not 061:220 (MICR:5220) Advanced Microscopy for Biomedical Research.

**Graduate Programs of Study**

- Master of Science in microbiology
- Doctor of Philosophy in microbiology
Graduate study in microbiology is designed to help students become highly qualified in microbiology research and teaching. Admitted graduate students usually pursue the Ph.D.

Graduate study is offered in six subdisciplines: pathogenic bacteriology, microbial genetics, immunology, microbial physiology, animal virology, and bioinformatics. Several areas involve interdisciplinary training both within and outside the department, so students gain broad experience during their course of study. Students also may pursue interdisciplinary Ph.D. programs in genetics (p. 822), immunology (p. 927), and molecular and cellular biology (p. 942).

During their first year, students rotate in three laboratories of their choice and are advised by the Graduate Student Advisory Committee. At the end of March of the first year, they choose a research supervisor who chairs their advisory committee. The committee provides intellectual and research guidance for the student’s training.

The Department of Microbiology cooperates with other University of Iowa departments to give students ample access to diverse course offerings, seminars, and research programs. For example, microbiology students may participate in courses and seminars in immunology, genetics, molecular and cellular biology, biocatalysis/biotechnology, and electron microscopy.

All students admitted to advanced degree programs are expected to assist in departmental teaching.

**Master of Science**

The Master of Science program in microbiology requires a minimum of 30 s.h. of graduate credit. M.S. students are required to earn a minimum of 12 s.h. in microbiology courses chosen from three of the department’s six subdisciplines. They may substitute a course they have already taken (at The University of Iowa or elsewhere) for a course requirement, with the M.S. advisory committee’s approval. Additional course requirements depend on students’ interests and the advice of the examining committee.

Students must write a thesis based on their own research and defend it satisfactorily in an oral examination. No more than 9 s.h. of credit for thesis research may be counted toward the 30 s.h. required for the Master of Science.

**Doctor of Philosophy**

The Doctor of Philosophy program in microbiology requires a minimum of 72 s.h. of graduate credit. Ph.D. students are required to earn approximately 10 s.h. of credit in graduate-level microbiology courses. They may substitute a course they have already taken (at The University of Iowa or elsewhere) for a course requirement, with the Ph.D. advisory committee’s approval.

Students must pass a comprehensive examination before the end of their fourth semester in the program and write a thesis based on their own research. The thesis must be defended satisfactorily in an oral examination.

**Admission**

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog. They should have a cumulative g.p.a. of at least 3.00 and must have completed courses in biology, chemistry (inorganic and organic), mathematics including calculus, and physics. Those admitted with deficiencies must complete the relevant course work during their first year of graduate study. Admission is determined through a review and formal vote by the faculty. Preference is given to students applying for the Ph.D. program.

**Facilities**

The Department of Microbiology is situated on the University of Iowa health sciences campus, where it shares the Bowen Science Building with the Departments of Anatomy and Cell Biology, Biochemistry, Molecular Physiology and Biophysics, and Pharmacology. Laboratory space and modern equipment are available for teaching and research.

**Courses**

**061:103 (MICR:8202) Principles of Infectious Diseases** 5 s.h.

Principles and methods essential to study of microorganisms, their isolation and identification; microorganisms in infectious diseases; current immunology concepts. Requirements: M.D. enrollment.

**061:112 (MICR:3112) Pharmacy Microbiology** 4 s.h.

Medical microbiology: bacteriology, immunology, pathogenic bacteriology, virology, mycology, parasitology. Requirements: pre-pharmacy standing.

**061:113 (MICR:8230) Dental Microbiology** 3 s.h.

**061:147 (MICR:3147) Survey of Immunology** 3 s.h.

Important principles and key concepts in immunology; overview of innate and adaptive immune systems and their functions at cellular and molecular levels. Prerequisites: 061:157 (MICR:2157).

**061:157 (MICR:2157) General Microbiology** 5 s.h.

Principles of microbial diversity, microbial genetics, physiology, and metabolism, pathogenic microbiology, virology, immunology, industrial and environmental microbiology; laboratory emphasis on basic techniques. Prerequisites: 002:031 (BIOL:1411).

**061:159 (MICR:3159) Pathogenic Bacteriology** 5 s.h.

Pathogenic bacteria, with emphasis on mechanisms of pathogenicity, laboratory methods for isolation, identification; laboratory emphasis on advanced methods for study of pathogenic bacteria. Requirements: grade of C or higher in 061:157 (MICR:2157).

**061:160 (MICR:3160) Microbial Physiology** 3 s.h.

Bacterial genomes, cell structure, growth, energy metabolism, biosynthesis, mechanisms of signal transduction and regulation. Requirements: biochemistry course and grade of C or higher in 061:157 (MICR:2157).
061:161 (MICR:4161) Undergraduate Research in Microbiology
Experimental research under faculty supervision. Prerequisites: 002:031 (BIOL:1411).

061:163 (MICR:4163) Seminar: Microbiology
2 s.h.

061:164 (MICR:3164) Nursing Microbiology
4 s.h.
Overview of bacteria, viruses, and eukaryotic microorganisms that cause human disease; microbial structure, growth control and reproduction; immunology in the context of host defense mechanisms. Corequisites: 002:002 (BIOL:1141) or 002:021 (BIOL:1140) or 002:031 (BIOL:1411), if not taken as a prerequisite. Requirements: pre-nursing standing.

061:168 (MICR:3168) Introduction to Animal Viruses
3 s.h.
Basic physical, chemical, and biological properties of animal viruses; association with human disease. Requirements: grade of C or higher in 061:157 (MICR:2157).

061:169 (MICR:4169) Molecular Biology and Pathogenesis of HIV
1 s.h.
Overview of the biology of HIV; includes life cycle, immune response, antiviral treatments, potential for vaccine, animal models; lectures introducing subject matter; discussion of literature relevant to each week’s topic. Prerequisites: 061:168 (MICR:3168).

061:170 (MICR:3170) Microbial Genetics
3 s.h.
Genetics of bacteria, bacteriophages. Requirements: grade of C or higher in 002:128 (BIOL:2512) or 061:157 (MICR:2157).

061:171 (MICR:4171) Honors Undergraduate Research in Microbiology
arr.
Experimental research under faculty supervision. Prerequisites: 002:031 (BIOL:1411). Requirements: microbiology major, junior or senior standing, 3.33 overall g.p.a., and 3.33 g.p.a. in microbiology courses.

061:175 (MICR:3175) Microbial Genetics Laboratory
3 s.h.
Basic principles of genetic analysis of bacteria and bacteriophage. Prerequisites: 061:170 (MICR:3170)

061:177 (MICR:3177) Animal Viruses Laboratory
2 s.h.
Basic techniques and approaches in animal virology, including virus detection, virus growth measurement, and virus genetics. Corequisites: 061:168 (MICR:3168). Requirements: grade of C or higher in 061:157 (MICR:2157).

061:179 (MICR:3179) Bacterial Diversity
3 s.h.

061:189 (MICR:3189) Bacterial Diversity Laboratory
2 s.h.
Culture, identification, and examination of complex and dynamic microorganisms found in soil; focus on Bacillus and Myxobacteria species; hunt for members of the 99% (those microorganisms that are so far uncultured in the laboratory); classic and cutting-edge microbiological and molecular assays to identify and characterize microorganisms; genetic techniques to investigate underlying basis of physiological mechanisms (e.g., biofilm formation and motility). Prerequisites: 061:157 (MICR:2157).

061:190 (MICR:3190) Web-Based Nursing Microbiology
4 s.h.
Nursing microbiology, principles of immunology; web-based instruction. Corequisites: 002:002 (BIOL:1141) or 002:021 (BIOL:1140) or 002:031 (BIOL:1411), if not taken as a prerequisite. Requirements: pre-nursing standing.

061:201 (MICR:6201) Graduate Immunology
3 s.h.
Ontogeny, activation, and function of T lymphocytes and B lymphocytes; innate immune effector mechanisms; major histocompatibility complex; antigen presentation; thymocyte positive and negative selection; signaling of T lymphocytes, B lymphocytes; emphasis on experimental methods for analysis of these processes. Requirements: for 148:201 (IMMU:6201) — college biology, general chemistry, and introductory immunology courses; for 061:201 (MICR:6201) — courses in college biology, genetics, general chemistry, and introductory immunology. Recommendations: for 148:201 (IMMU:6201) — courses in biochemistry and genetics; for 061:201 (MICR:6201) — biochemistry course. Same as 148:201 (IMMU:6201).

061:207 (MICR:7207) Advanced Topics in Immunology
3 s.h.

061:217 (MICR:7217) Integrated Topics in Infectious Diseases
1 s.h.
Clinical cases used to raise questions in host-parasite interactions; case/scientific exposés followed by related journal club discussions at next class session. Same as 148:217 (IMMU:7217).

061:218 (MICR:5218) Microscopy for Biomedical Research
arr.
Basic microscopy methods for research including optics, preparation, and analysis of biomedical specimens; light, fluorescence, confocal, transmitting electron, scanning electron, atomic force microscopes, elemental analysis; immunochemistry and stereology techniques; individualized laboratory instruction. Prerequisites: 002:114 (BIOL:2723). Same as 061:218 (ACB:5218), 002:218 (BIOL:5218).

061:220 (MICR:5220) Advanced Microscopy for Biomedical Research
arr.

Technically advanced microscopy and instrumentation for research; individualized laboratory experience with opportunity to explore applications of microscopy methods. Requirements: for 060:220 (ACB:5220) — an introductory microscopy course; for 002:220 (BIOL:5220) —060:218 (ACB:5218) or 061:218 (MICR:5218), or 012:156 (GEOS:4156) or 052:156 (CBE:4156) or 060:156 (ACB:4156); for 061:220 (MICR:5220) — an introductory EM course. Same as 060:220 (BIOL:5220), 060:220 (ACB:5220).

061:221 (MICR:7221) Advanced Topics in Prokaryotic Biology Module 1
Cell division and sporulation; development of critical thinking, experimental approach and design, writing, and oral presentation skills through primary literature and course specific assignments (proposal writing, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.

061:222 (MICR:7222) Advanced Topics in Prokaryotic Biology Module 2
Subversion of innate immune response by Gram-positive and Gram-negative bacteria; development of critical thinking, experimental approach and design, writing, and oral presentation skills through exposure to primary literature and assignments (proposal writing, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.

061:223 (MICR:7223) Advanced Topics in Prokaryotic Biology Module 3
Development of critical thinking, experimental approach and design, writing, and oral presentation skills through exposure to selected topics in microbiology and assignments (proposal writing, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.

061:224 (MICR:7224) Advanced Topics in Prokaryotic Biology Module 4
Development of critical thinking, experimental approach and design, writing, and oral presentation skills through exposure to selected topics in microbiology and assignments (proposal writing, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.

061:225 (MICR:7225) Advanced Topics in Prokaryotic Biology Module 5
Development of critical thinking, experimental approach and design, writing, and oral presentation skills through exposure to selected topics in microbiology and assignments (proposal writing, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.

061:226 (MICR:7226) Advanced Topics in Prokaryotic Biology Module 6
Development of critical thinking, experimental approach and design, writing, and oral presentation skills through exposure to selected topics in microbiology and assignments (proposal writing, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.

061:227 (MICR:7227) Advanced Topics in Microbiology
Presentations by graduate students on selected research topics in microbiology; different topics each semester. Offered fall and spring semesters. Requirements: graduate standing in microbiology.

061:247 (MICR:6247) Graduate Survey of Immunology
Important principles and key concepts in immunology; overview of innate and adaptive immune systems and their functions at cellular and molecular levels. Same as 148:247 (IMMU:6247).

061:259 (MICR:6259) Graduate Pathogenic Bacteriology
Pathogenic bacteria, with emphasis on mechanisms of pathogenicity, laboratory methods for isolation, identification.

061:260 (MICR:6260) Graduate Microbial Physiology
Bacterial genomes, cell structure, growth, energy metabolism, biosynthesis, mechanisms of signal transduction and regulation.

061:261 (MICR:7261) Graduate Research in Microbiology
Requirements: microbiology graduate standing.

061:263 (MICR:7263) Graduate Student Research Seminar
Presentation of thesis work in progress. Requirements: microbiology graduate standing.

061:264 (MICR:5264) Directed Study in Microbiology
arr.

061:265 (MICR:7265) Topics in Virology Literature
Papers of current interest in primary virology literature.

061:267 (MICR:6267) Graduate Introduction to Animal Viruses
Basic physical, chemical, biological properties of animal viruses, their association with human diseases; discussion topics in the primary literature.

061:268 (MICR:6268) Biology and Pathogenesis of Viruses
Molecular biology of animal DNA and RNA viruses, interaction of these viruses with eucaryotic cells; mechanisms of viral latency, persistence, cellular transformation, oncogenesis; virology literature. Prerequisites: 061:168 (MICR:3168) or 061:267 (MICR:6267).

061:269 (MICR:7269) Molecular Biology and Pathogenesis of HIV
Overview of biology of HIV; life cycle, immune response, antiviral treatments, potential for vaccine, animal models; lectures introducing subject matter, discussion of literature relevant to each week’s topic. Prerequisites: 061:267 (MICR:6267).

061:270 (MICR:6270) Graduate Microbial Genetics
Genetics of bacteria, bacteriophages.
061:271 (MICR:6271) Graduate Microbial Genetics Laboratory
Basic principles of genetic analysis in bacteria.

061:275 (MICR:5875) Perspectives in Biocatalysis 1-3 s.h.

061:279 (MICR:6279) Graduate Bacterial Diversity 3 s.h.
Analysis of bacteria from varied habitats; emphasis on the physiological basis and molecular characteristics of diversity.

061:299 (MICR:6250) Mechanisms of Parasitism Journal Club
Reviews of recent publications in molecular parasitology research and thesis research by training grant or journal club students. Same as 142:299 (MCB:6250).
Molecular Physiology and Biophysics

Chair
• Kevin P. Campbell

Executive associate chair
• W. Scott Moye-Rowley

Professors
• François M. Abboud (Internal Medicine/Molecular Physiology and Biophysics), Mark Anderson (Radiation Oncology/Internal Medicine/Molecular Physiology and Biophysics), Nikolai Artemyev, Kevin P. Campbell, Mark Chapleau (Internal Medicine/Molecular Physiology and Biophysics), Beverly Davidson (Molecular Physiology and Biophysics/Internal Medicine/Neurology), Wayne Johnson, W. Scott Moye-Rowley, George Richerson (Molecular Physiology and Biophysics/Neurology), Robert Piper, Andrew Russo, Thomas J. Schmidt, Deborah Segaloff, Curt Sigmund (Pharmacology/Internal Medicine/Molecular Physiology and Biophysics), Richard Smith (Internal Medicine/Molecular Physiology and Biophysics/Otolaryngology–Head and Neck Surgery), Peter Snyder (Internal Medicine/Molecular Physiology and Biophysics), Michael J. Welsh (Internal Medicine/Molecular Physiology and Biophysics/Neurosurgery), John Wemmie (Molecular Physiology and Biophysics/Psychiatry/Neurosurgery)

Associate professors
• Christopher Adams (Internal Medicine/Molecular Physiology and Biophysics), Christopher Ahern, Michael Anderson, Michael Henry, Anne Kwitek (Pharmacology/Internal Medicine/Molecular Physiology and Biophysics), Amy Lee, Robert Mullins (Ophthalmology and Visual Sciences/Molecular Physiology and Biophysics), Erwin F. Shibata, Mark Stamnes, Christopher Stipp (Biology/Molecular Physiology and Biophysics)

Assistant professors
• N. Charles Harata, Michael Wright

Professors emeriti
• Gerald DiBona, Robert E. Fellows, G. Edgar Folk Jr., Daryl Granner, Charles C. Wunder

Graduate degrees:
• Master of Science in molecular physiology and biophysics (with or without thesis)
• Doctor of Philosophy in molecular physiology and biophysics

Graduate Programs of Study
• Master of Science in molecular physiology and biophysics
• Doctor of Philosophy in molecular physiology and biophysics

Graduate study in molecular physiology and biophysics provides students with fundamental knowledge of life processes at molecular, cellular, and integrative levels of biological function. It also imparts knowledge of modern research skills applicable to contemporary problems.

Students may enter the graduate program through the Biosciences (p. 910) Program (Graduate College) or directly through the Department of Molecular Physiology and Biophysics. Those who enter directly are advised by the department’s director of graduate studies, who guides them in planning required course work and introduces them to research activities of the department’s faculty members.

All degree candidates have experience as classroom instructors, under faculty supervision, as part of their training.

Master of Science
The Master of Science program in molecular physiology and biophysics requires a minimum of 30 s.h. beyond the bachelor’s degree and is offered with and without thesis. Thesis students complete laboratory research and write a thesis that fulfills the requirements of the Graduate College (see the Manual of Rules and Regulations of the Graduate College or the Graduate [p. 888] College section of the Catalog). Nonthesis students complete a library research report and take a written examination on the research report area and the graduate program in physiology.

University of Iowa research assistants may pursue an M.S. in molecular physiology and biophysics while continuing to work in their research laboratories. Research assistants interested in the M.S. program must submit a letter of support from their supervisor.

Doctor of Philosophy
The Doctor of Philosophy program in molecular physiology and biophysics requires a minimum of 72 s.h. beyond the bachelor’s degree. The core curriculum includes graduate-level courses in cell biology, molecular biology, human physiology, and neurophysiology. Advanced electives, offered by the Department of Molecular Physiology and Biophysics and other departments, cover a wide range of topics, including receptors and signal transduction, and developmental neurophysiology.

After successful completion of required course work and the comprehensive examination, students devote full time to thesis research, which culminates in preparation of a doctoral dissertation and its defense in a final oral exam.
Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog. They must have a bachelor’s degree from an accredited institution, with an undergraduate major in one of the biological, chemical, physical, mathematical, or engineering sciences and one or more years of course work in biology, physics, biochemistry, and calculus. They also must have a cumulative science g.p.a. of at least 3.00 and a combined verbal and quantitative score above 1200 on the Graduate Record Examination (GRE) General Test.

Financial Support

All full-time students receive financial aid in the form of tuition and stipend support from the Department of Molecular Physiology and Biophysics. Support is renewed annually based on satisfactory progress in meeting degree requirements.

Research

Faculty research interests in the Department of Molecular Physiology and Biophysics encompass molecular and cellular endocrinology, cellular and developmental neurophysiology, and membrane structure and function. Within these, there are multiple areas of interest, including hormone receptors, reproductive endocrinology, signal transduction, regulation of gene expression, synaptic transmission, neuronal differentiation, membrane ion channels, regulation of excitability, and cardiovascular electrophysiology and regulation. Experimental models currently being investigated include rodents, yeast, Drosophila, and cultured cell lines from a variety of species.

Facilities

Two floors of the Bowen Science Building are devoted to research and teaching in the Department of Molecular Physiology and Biophysics. Department faculty members also occupy laboratory facilities in the Eckstein Medical Research Building and the Carver Biomedical Research Building. In addition to specialized equipment in faculty research laboratories, the department provides equipment for fluorescence microscopy, isotope analysis, cell culture, and molecular biology. It also has access to the University network and the multimedia education facilities. Additional resources are available at the Hardin Library for the Health Sciences.

Courses

072:152 (MPB:8115) Human Physiology for Dental Students
Principles of human physiology, organ systems, cell function. Offered fall semesters. Requirements: grades of C- or higher in 002:031 (BIOL:1411), 004:121 (CHEM:2210), and 004:122 (CHEM:2220); and D.D.S. enrollment.

072:153 (MPB:5153) Graduate Physiology
Principles of human physiology, organ systems, cell function. Offered fall semesters. Requirements: grades of C- or higher in 002:031 (BIOL:1411), 004:121 (CHEM:2210), and 004:122 (CHEM:2220); and graduate standing.

072:180 (MPB:5180) How the Brain Works
1 s.h.
Brief, integrated look at how the brain works, based on recent neuroscience research; how the brain's biochemistry, anatomy, and physiology change constantly due to interaction with physical, emotional, and social environments; does the world we see around us exist outside the brain; does the mind exist; is emotion necessary for learning and memory; are we born with pre-existing circuits and codes in the brain for language, recognition of faces, and other complex behaviors; can aging of the brain be delayed; approach relevant for sciences, humanities.

072:184 (MPB:5184) Developmental Neurobiology
3 s.h.
Neural induction and nervous system patterning; neurogenesis, axon and dendrite outgrowth and targeting; synapse formation, specificity, refinement; mechanisms of neuronal cell death; myelination; neural stem cells; introduction to cellular, molecular, and genetic techniques in studies of neural development. Prerequisites: 002:145 (BIOL:2753). Corequisites: 002:180 (BIOL:3253). Requirements: grade of B- or higher in 002:145 (BIOL:2753) or graduate standing. Same as 002:184 (BIOL:4753), 132:184 (NSCI:6184).

072:199 (MPB:4199) Research, Independent Study
arr.
Recommendations: closed to molecular physiology and biophysics graduate students.

072:200 (MPB:5200) Medical Physiology Online
4 s.h.
Fundamental principles of cellular membranes, muscle, sensory organs, motor neurological systems, autonomic nervous systems, cardiovascular, pulmonary, renal, gastrointestinal, endocrine, and reproductive systems; interdependence of organ systems to maintain a normal physiological state using clinical correlates as applied to humans; basic physiological principles that establish a solid foundation for future pathophysiological and pharmacological concepts. Recommendations: medical, dental, physician assistant, nurse anesthesia, physical therapy, or graduate standing.

072:209 (MPB:6209) Steroid Receptor Signaling
1 s.h.
Structure-function relationship and genomic and nongenomic actions of the steroid hormone receptor family; basis for actions of novel new ligands on these receptors. Offered spring semesters. Same as 071:209 (PCOL:6209), 132:209 (NSCI:6209).

072:211 (MPB:5211) Biophysics of Excitable Membranes
3 s.h.
Selected electrophysiological and biophysical topics from published research. Prerequisites: 027:130 (HPF:3500).

072:220 (MPB:6220) Mechanisms of Cellular Organization
3 s.h.
Current understanding of basic cell biological processes; key experiments that led to guiding insights; mechanisms that cells use for compartmentalization and how those mechanisms are regulated; biogenesis of major organelles (e.g., mitochondria, peroxisomes, nucleus, secretory/endoctic membrane system); functions of cytoskeleton in cell motility, organelle motility, and cell division. Prerequisites: 099:130 (BIOL:3130). Same as 142:220 (MCB:6220), 060:216 (ACB:6220).
072:225 (MPB:6225) Growth Factor Receptor Signaling

072:226 (MPB:6226) Cell Cycle Control

072:227 (MPB:6227) Cell Fate Decisions

072:240 (MPB:5240) Physiology Workshop
Presentations by faculty, postdoctoral fellows, graduate students, and scientists. Requirements: graduate standing.

072:265 (MPB:6265) Neuroscience Seminar

072:302 (MPB:6302) Research Physiology and Biophysics
Requirements: molecular physiology and biophysics graduate standing.

072:342 (MPB:5342) Biosciences Critical Thinking and Communication
Selected papers and oral and written presentations tied to students' research rotations; introductory seminar. Same as 156:265 (BISC:5265), 002:270 (BIOL:5270).

072:402 (MPB:7402) Thesis
Requirements: molecular physiology and biophysics Ph.D. candidacy.
Neurology

Chair
- George Richerson

Professors
- Harold P. Adams Jr., Daniel J. Bonthius (Pediatrics/Neurology), Kevin P. Campbell (Internal Medicine/Molecular Physiology and Biophysics/Neurology), Beverly L. Davidson (Molecular Physiology and Biophysics/Internal Medicine/Neurology), Mark E. Dyken, Mark A. Granner, Matthew A. Howard (Otolaryngology--Head and Neck Surgery/Neurosurgery/Neurology), Wayne A. Web site: http://www.medicine.uiowa.edu/neurology/

Neurology is the branch of medical science concerned with diagnosis and management of disorders of the brain, spinal cord, peripheral nervous system, and muscle. The Department of Neurology’s hallmark is its history of carefully integrating patient care, scientific investigation, and the education of medical, postdoctoral, and graduate students.

M.D. Student Training, Graduate Education

The department provides clinical and clinical research training to third- and fourth-year M.D. students. It also offers research opportunities in various fields of neuroscience, including neuropsychology, neuroimaging, and neuroanatomy, to Ph.D. students in neuroscience and psychology.

Residency Program

The Department of Neurology offers an active, four-year approved residency program that qualifies physician trainees for board certification in neurology. Experience in clinical electrophysiology, pediatric neurology, psychiatry, and neuropathology is part of this training.

Research

The faculty’s investigative interests center on cognitive neuroscience, degenerative diseases, cerebrovascular disease, neuromodulatory diseases, electrophysiological correlates of central and peripheral nervous system disease, growth factors in the nervous system, control and regulation of autonomic functions, neuro-ophthalmology, movement disorders, epilepsy, and pain management. For more information see the Department of Neurology web site.

Courses

064:011 (NEUR:8301) Clinical Neurology 2,4 s.h.
Experience in clinical neurology through ward work and case-based conferences linked to required reading; focus on neurologic examination, diagnosis of neurologic problems.

064:238 (NEUR:7238) Introduction to Neuropsychological Assessment arr.
Standard neuropsychological and behavioral assessment procedures; selection, administration, and scoring of neuropsychological tests under staff supervision; involvement in case presentation.

064:239 (NEUR:7239) Advanced Neuropsychological Assessment arr.
Continuation of 064:238 (NEUR:7238); preparation of integrated reports on collected data; case presentations.

064:240 (NEUR:6240) Topics in Cognitive Neuroscience 3 s.h.
Key topics in the neural basis of human cognition; research literature. Recommendations: graduate courses in basic neuroscience, cognitive psychology. Same as 132:240 (NSCI:6240).

Assistant professors
• Chandan Reddy, Saul Wilson

Web site: http://www.medicine.uiowa.edu/neurosurgery/

The Department of Neurosurgery provides an experience oriented toward patient care and basic research concerning diseases and physiology of the nervous system. Students develop awareness of neurosurgery’s role in treating head and spine trauma, vascular disorders, brain and spinal cord tumors, pain and peripheral nerve abnormalities, degenerative spine pathology, and surgical treatment of epilepsy and movement disorders.

Clinical courses are designed around patient-centered discussions interwoven with operating room experiences. Lectures and conferences are scheduled on specific topics.

M.D. Student Training

The department provides fourth-year M.D. students with access to special expertise in selected topics of investigation regarding the central nervous system and to a clinical course through special arrangements with the faculty.

Faculty

Neurosurgery faculty strengths are centered in physiology of spinal cord trauma, epilepsy, auditory brain function and pain, primary brain tumor genetics, central nervous system tissue culture, spinal column biomechanics, and movement disorders. The department has expertise in clinical management across the spectrum of central nervous system diseases.

Facilities

Multiple, fully equipped laboratory space is available to support scientific research of the central nervous system. Faculty and technical assistance is available in all laboratories.

Courses

Neurosurgery courses are open only to M.D. and qualified associated health sciences students.

183:227 (NSG:8401) Subinternship in Neurosurgery
4 s.h.
Advanced clinical clerkship in neurological surgery; emphasis on diagnosis and operative management of surgical neurological disease.

183:228 (NSG:8497) Research in Neurological Surgery
arr.
Laboratory investigation of spinal cord injury, spinal column biomechanics and instrumentation, electrophysiology of pain, epilepsy and hearing, molecular genetics and physiology of brain tumors.

183:999 (NSG:8499) Neurosurgery off Campus
arr.
Arranged by student with department approval.
Nuclear Medicine Technology

**Director**
- Anthony W. Knight

**Medical director**
- Michael M. Graham

**Technical director**
- John A. Bricker

**Affiliated faculty**
- David L. Bushnell (Radiology), Michael M. Graham (Radiology/Radiation Oncology), Daniel Kahn (Radiology), Anthony W. Knight (Radiology), Mark T. Madsen (Radiology/Physics and Astronomy), Yusef Menda (Radiology/Radiation Oncology), James A. Ponto (Pharmacy)

**Undergraduate major:** nuclear medicine technology (B.S.)
**Web site:** http://www.medicine.uiowa.edu/NMT/

Nuclear medicine technologists are professionals in a medical specialty that uses radioactive tracers for diagnostic, therapeutic, and research purposes. Technologists generally are employed in hospitals and clinics. They work hand-in-hand with nuclear medicine physicians, health physicists, radiopharmacists, and radiochemists as an integral part of a highly trained specialty team.

In addition to using sophisticated detectors and computers to trace the movement and localization of radioactive tracers in the human body, nuclear medicine technologists have responsibilities that include radiation safety; quality control testing; radiopharmaceutical preparation and administration; and general patient care.

The Nuclear Medicine Technology Program is fully accredited by the Joint Review Committee on Educational Programs in Nuclear Medical Technology (JRCNMT). Nuclear medicine technology is one of two undergraduate majors in the field of medical imaging offered by the Carver College of Medicine. Students interested in radiologic imaging, cardiovascular interventional, diagnostic medical technology, computed tomography, magnetic resonance imaging, or radiation therapy may complete the major in radiation sciences; see Radiation Sciences (p. 1090) in the Catalog.

The Carver College of Medicine is located on the University of Iowa health sciences campus, which includes University of Iowa Hospitals and Clinics, one of the nation’s largest university-owned teaching hospitals. For information about the college’s academic programs and resources, see Carver College of Medicine (p. 993) in the Catalog.

**Undergraduate Program of Study**
- Major in nuclear medicine technology (Bachelor of Science)

Undergraduate study in nuclear medicine technology is guided by the academic rules and procedures outlined under “Undergraduate Programs” in the Carver College of Medicine (p. 993) section of the Catalog.

**Bachelor of Science**

The Bachelor of Science with a major in nuclear medicine technology requires a minimum of 120 s.h. of credit. Work for the degree includes a set of courses that are prerequisite to entering the major. 60 s.h. of course work in the major, and elective course work sufficient to complete the minimum of 120 s.h. required for graduation.

Students who plan to complete all requirements for the degree at The University of Iowa enter the University as students in the College of Liberal Arts and Sciences (CLAS) with a nuclear medicine technology interest. As CLAS students, they complete the course work that is prerequisite to entering the major.

Admission to the major is competitive; the program accepts a maximum of 8 students per year. Students must apply to the major by January 15 of the year in which they wish to enter it. Personal interviews with qualified applicants are scheduled in February, and the class is selected by March 15. The program begins the following fall semester and lasts two years.

Students who are admitted to the major become Carver College of Medicine students. Upon completing the program successfully, they are granted a Bachelor of Science degree and a certificate of training. Graduates are eligible for national certification as nuclear medicine technologists.

The program strongly advises students entering the University to pursue a course of study that is applicable to another major, most commonly biology, chemistry, biochemistry, or microbiology, so that if they are not admitted to the Nuclear Medicine Technology Program, they still may complete a major and receive a bachelor’s degree.

The Bachelor of Science with a major in nuclear medicine technology requires the following work.

**PREREQUISITES TO THE NUCLEAR MEDICINE TECHNOLOGY MAJOR**

Students must complete the following prerequisite courses and must have earned 60 s.h. of college credit with a cumulative g.p.a. of at least 2.50 before they may enter the nuclear medicine technology major. In addition to providing a foundation for the major, the prerequisite courses are good preparation for other majors.

**Rhetoric:**
010:003 (RHET:1030) Rhetoric 4 s.h.

**Culture, society, and the arts—3 s.h. in each of two of these (total of 6 s.h.):**
- Historical Perspectives approved course work 3 s.h.
- International and Global Issues approved course work 3 s.h.
- Literary, Visual, and Performing Arts approved course work 3 s.h.
- Values, Society, and Diversity approved course work 3 s.h.

See General Education Program (p. 306) (College of Liberal Arts and Sciences) in the Catalog for approved courses in the culture, society, and the arts areas.

**Mathematics—one of these:**
22M:009 (MATH:1020) Elementary Functions 4 s.h.
22M:015 (MATH:1440) Mathematics for the Biological Sciences 5 s.h.
A more advanced mathematics course

Introductory chemistry with laboratory:
004:011 (CHEM:1110) Principles of Chemistry I 4 s.h.

Introductory physics—one of these:
029:008 (PHYS:1400) Basic Physics 3 s.h.
029:011 (PHYS:1511) College Physics I 4 s.h.

Psychology:
031:001 (PSY:1001) Elementary Psychology 3 s.h.

Medical terminology:
20E:103 (CLSA:3750) Medical and Technical Terminology 2 s.h.

Anatomy and physiology—students must complete one of the three options below.
Option 1 (one course, 4 s.h.):
060:099 (ACB:1199) Human Anatomy and Basic Physiology for Radiation Science 4 s.h.

Option 2 (two courses, 6-7 s.h.)—one of these:
060:110 (ACB:3110) Principles of Human Anatomy 3 s.h.
060:113 (ACB:3113) Human Anatomy Online 4 s.h.

And one of these:
027:050 (HHP:1300) Fundamentals of Human Physiology 3 s.h.
027:130 (HHP:3500) Human Physiology 3 s.h.

Option 3 (three courses, 7 s.h.)—both of these:
027:053 (HHP:1100) Human Anatomy 3 s.h.
027:054 (HHP:1110) Human Anatomy Laboratory 1 s.h.

And one of these:
027:050 (HHP:1300) Fundamentals of Human Physiology 3 s.h.
027:130 (HHP:3500) Human Physiology 3 s.h.

**RECOMMENDED PRE-MAJOR COURSES**
The Nuclear Medicine Technology Program strongly recommends that students who intend to apply to the major take the following course work in addition to the required prerequisite courses listed above.

Both of these:
004:012 (CHEM:1120) Principles of Chemistry II 4 s.h.
680:010 (RSP:1100) Introduction to the Radiation Sciences 1 s.h.

One of these:
002:021 (BIOL:1140) Human Biology 4 s.h.
002:031 (BIOL:1411) Foundations of Biology 4 s.h.

One of these:
22S:025 (STAT:1020) Elementary Statistics and Inference 3 s.h.
22S:101 (STAT:3510) Biostatistics 3 s.h.
22S:102 (STAT:5543) Introduction to Statistical Methods 3 s.h.

One of these:
22C:001 (CS:1020) Principles of Computing 3 s.h.
22C:005 (CS:1110) Introduction to Computer Science 3 s.h.

Prospective students are encouraged to consult the Nuclear Medicine Technology Program office to plan an appropriate pre-major program of study.

**COURSE WORK IN THE MAJOR**
Students admitted to the nuclear medicine technology major spend two years in a clinical curriculum that is organized in accordance with the JRCNMT Essentials of an Accredited Educational Program in Nuclear Medicine Technology. They complete course work in the following areas: radiopharmacy, radiation safety and radiobiology, patient care, nuclear medicine and positron emission tomography (PET) procedures, radiation physics and instrumentation, administration and management, medical and professional ethics, and principles of computed tomography (CT). Practical clinical rotations focus on nuclear medicine, PET and CT imaging, nuclear medicine therapy, clinical radiopharmacy, nuclear medicine computer applications, and quantification of radioactivity in vivo and in vitro.

**Courses**

**107:101 (RSNM:4110) Principles of Nuclear Medicine I** 0,6 s.h.
Didactic and laboratory work in radiopharmacy, patient care, radiation protection, math and statistics, radiation physics, anatomy and physiology, radiochemistry and tracer techniques, medical terminology, computer applications. Requirements: Nuclear Medicine Technology Program enrollment.

**107:102 (RSNM:4111) Introductory Clinical Nuclear Medicine** 0,6 s.h.
Experience in preparing radiopharmaceuticals, performing routine nuclear imaging and in vitro procedures; work with clinical instructors. Requirements: Nuclear Medicine Technology Program enrollment.

**107:103 (RSNM:4210) Principles of Nuclear Medicine II** 0,3 s.h.
Didactic and laboratory work in nuclear medicine instrumentation, radiobiology, professional ethics, administration and management, computer applications. Requirements: Nuclear Medicine Technology Program enrollment.

**107:104 (RSNM:4211) Intermediate Clinical Nuclear Medicine** 0,9 s.h.
Progressive responsibility in radiopharmacy, nuclear and PET imaging, cardiac stress testing. Requirements: Nuclear Medicine Technology Program enrollment.

**107:105 (RSNM:4310) Advanced Clinical Nuclear Medicine** 0,6 s.h.
Proficiency in performance, quality assurance of all radiopharmacy and nuclear medicine procedures; opportunities for independent study, research. Requirements: Nuclear Medicine Technology Program enrollment.

**107:111 (RSNM:3120) Fundamentals of Nuclear Medicine and PET** 4 s.h.
Introduction to medical specialty of nuclear medicine and molecular imaging; basic theories of radiation protection, radiation physics and nuclear medicine instrumentation, radiopharmacy, nuclear medicine and positron emission tomography (PET) clinical procedures, professional standards of nuclear medicine technologist. Requirements: Nuclear Medicine Technology Program enrollment.

107:112 (RSNM:3220) Nuclear Medicine and PET Clinical Procedures
Proper execution of nuclear medicine and PET procedures from a technical point of view; published protocols and procedures specific to the University of Iowa Hospitals and Clinics; routine setup, common errors, artifact identification, computer processing protocols, and patient care concerns identified for each procedure; review of human anatomy, physiology, and pathology germane to understanding and proper execution of nuclear medicine procedures. Requirements: Nuclear Medicine Technology Program enrollment.

107:115 (RSNM:3230) Radiopharmaceuticals
Introduction to radiopharmaceuticals; emphasis on physical, chemical, and biologic properties and their clinical use; fundamental aspects of radiopharmaceuticals including characteristics, preparation, quality control, and clinical use. Requirements: Nuclear Medicine Technology Program enrollment.

107:121 (RSNM:3121) Nuclear Medicine Technology Clinical Internship I
Hands-on clinical experience working with patients and performing routine nuclear medicine diagnostic imaging procedures under direct supervision of qualified clinical instructors. Requirements: Nuclear Medicine Technology Program enrollment.

107:122 (RSNM:3221) Nuclear Medicine Technology Clinical Internship II
Progressive responsibility working with patients and performing nuclear medicine and PET clinical procedures under direct supervision of qualified clinical instructors. Requirements: Nuclear Medicine Technology Program enrollment.

107:123 (RSNM:3321) Nuclear Medicine Technology Clinical Internship III
Progressive responsibility working with patients and performing nuclear medicine and PET clinical procedures under direct supervision of qualified clinical instructors. Requirements: Nuclear Medicine Technology Program enrollment.

107:124 (RSNM:4121) Nuclear Medicine Technology Clinical Internship IV
Progressive responsibility working with patients and performing nuclear medicine and PET clinical procedures under direct supervision of qualified clinical instructors. Requirements: Nuclear Medicine Technology Program enrollment.

107:125 (RSNM:4221) Nuclear Medicine Technology Clinical Internship V
Progressive responsibility working with patients and performing nuclear medicine and PET clinical procedures under direct supervision of qualified clinical instructors. Requirements: Nuclear Medicine Technology Program enrollment.

107:150 (RSNM:4222) NMT Capstone and Certification Exam Preparation
Students in final semester of program work together to organize and deliver capstone and certification exam preparation course; review of specific topics and oral presentations by each student; preparation and distribution of detailed written outlines of exam content; series of content-specific quizzes, midterm, and final "Mock Board" exam to evaluate student learning and preparedness for taking the NMTCB and ARRT national certification exams; preparation and submission of capstone portfolios that provide evidence of scholarly and professional progress. Requirements: Nuclear Medicine Technology Program enrollment.

M.D. Student Training

Courses in the Department of Obstetrics and Gynecology are designed to give M.D. students a comprehensive survey of reproductive medicine. This is done through a series of didactic lectures, inpatient and outpatient assignments, ward rounds, teaching seminars, and special elective courses.

The third-year clerkship 066:004 (OBG:8301) Clinical Obstetrics and Gynecology gives students the core knowledge, skills, and attitudes needed to provide primary health care to female patients.

The department offers fourth-year medical students a variety of electives that provide advanced training in the special areas of obstetrics and gynecology. In addition to clerkships at University of Iowa Hospitals and Clinics, these electives include a rotation at the Washington County Hospital and Clinics and other arranged off-campus courses.

Residency Program

The department offers a four-year residency. Upon completion, graduates are eligible for the written and oral examinations leading to certification by the American Board of Obstetrics and Gynecology.

Residents are assigned to the divisions and clinical services of the department; they care for both hospital inpatients and outpatients. Training is provided in normal and abnormal obstetrics, gynecologic surgery, office gynecology, ultrasound, reproductive endocrinology, gynecologic oncology, urogynecology, family planning, and endoscopic procedures.

Courses

066:004 (OBG:8301) Clinical Obstetrics and Gynecology
Proficiency in evaluation and management of core women’s health care relating to the reproductive tract; special history taking, physical examination, laboratory and imaging assessment of obstetric and/or gynecological patients; application of current concepts to well women’s health care and to management of diseases and pathologies; outpatient and inpatient obstetrics and gynecology; family planning, screening and early detection of cancer and other diseases.

066:006 (OBG:8401) High Risk Antepartum Obstetrics Subinternship
Experience in evaluating new patients in a high-risk obstetric clinic; continuing antepartum care; doing work-up, ordering diagnostic studies, and following course of complicated patients admitted to obstetric ward; assisting in diagnostic, therapeutic procedures such as fetal heart rate testing, amniocentesis, ultrasonography, intrauterine fetal transfusion.

066:010 (OBG:8402) Gynecologic Oncology Subinternship
Experience on a gynecologic oncology service, including operating room, inpatient and outpatient care; team management approach to gynecologic cancer patients, treatment and follow-up of invasive gynecologic malignancies, etiology and risk factors for gynecologic neoplasias, pre- and postoperative evaluation and treatment of surgical management of gynecologic neoplasia; research project encouraged.

066:013 (OBG:8403) Reproductive Endocrinology Senior Elective
Experience evaluating new and returning patients in the Reproductive Endocrinology and Infertility Clinic; participation in preoperative, operative, and inpatient postoperative care; advanced gynecologic ultrasonography, in vitro fertilization services.

066:017 (OBG:8450) Continuity of Care in Outpatient Gynecology
M4 students work with experienced gynecologist in longitudinal clinical experience for the academic year; students paired with faculty member to see patients in weekly clinic and provide clinical care to defined patient population.

066:018 (OBG:8406) Community-Based Ob/Gyn, Washington
Varied out-patient and in-patient obstetric and gynecologic patients in the Washington County Hospital and Clinic; perform and master OB/GYN histories and examinations; frequent supervised active participation of procedures where appropriate.

066:019 (OBG:8407) Family Planning
Participation as active member of the Family Planning Services team; clinical activities, including clinic and outpatient procedures. Requirements: M.D. enrollment.
066:020 (OBD:8408) Non-Interventional Birth Elective
Experience with normal physiologic birth; participation in intrapartum and postpartum care of low-risk women. Requirements: M.D. enrollment.

066:998 (OBD:8498) Ob/Gyn on Campus  arr.

066:999 (OBD:8499) Ob/Gyn off Campus  arr.
Ophthalmology and Visual Sciences

Chair
• Keith D. Carter

Professors

Associate professors
• Richard C. Allen, Michael G. Anderson (Ophthalmology and Visual Sciences/Molecular Physiology and Biophysics), Terry A. Braun (Ophthalmology and Visual Sciences/Electrical and Computer Engineering/Biomedical Engineering), Arlene V. Drack, John H. Fingert, Karen M. Gehrs, Markus H. Kuehn, Scott A. Larson, Robert F. Mullins, Richard J. Olson, Todd E. Scheetz, Christine W. Sindt, Nasreen A. Syed

Assistant professors
• Sheila A. Baker, Mark A. Greiner, Brian R. Kirschling, Anna S. Kitzmann, Reid A. Longmuir, Susannah Q. Longmuir, Vinit B. Mahajan, Beth R. Kutzbach Repp, Seongjin Seo, Khadija S. Shahid, Erin M. Shriver, Elliott H. Sohn, Steven F. Stashieff (Ophthalmology and Visual Sciences/Electrical and Computer Engineering/Pediatrics/Biomedical Engineering), Stewart Thompson, Matthew J. Thurtell, Budd A. Tucker

Professors emeriti
• Sohan S. Hayreh, G. Frank Judisch, Karl C. Ossoinig, Edward S. Perkins, William E. Scott, H. Stanley Thompson, Thomas A. Weingeist

Professional certificate: orthoptics
Web site: http://www.medicine.uiowa.edu/eye/

Ophthalmology is a medical and surgical specialty concerned with the diagnosis and treatment of diseases of the eye and its adnexa. The Department of Ophthalmology and Visual Sciences combines postgraduate training with research and patient care in all aspects of the visual sciences. Subspecialties represented in the department include cataract surgery, comprehensive ophthalmology, cornea and external diseases, contact lens and refraction services, genetics and molecular biology, glaucoma, laser refractive surgery, neuro-ophthalmology, oculoplastic surgery, ocular echography, ocular pathology, ocular vascular diseases, optometric services, pediatric ophthalmology and adult strabismus, vitreoretinal disorders, and vision rehabilitation.

M.D. Student Training, Graduate Education

The department offers clinical and research training to M.D. students and limited graduate studies for Ph.D. students in Anatomy and Cell Biology (p. 1002), Molecular and Cellular Biology (p. 942), and Genetics (p. 922). A three-year residency program with clinical experience in the ophthalmic subspecialties is offered to physician trainees. Graduates qualify for the written and oral examinations leading to certification by the American Board of Ophthalmology. Postgraduate fellowships of one to two years are available for qualified ophthalmologists in most subspecialty areas.

Professional Program of Study
• Certificate in Orthoptics
Contact the Department of Ophthalmology and Visual Sciences for information about the professional Certificate in Orthoptics.

Continuing Education

The department sponsors clinical conferences open to community ophthalmologists in Iowa and surrounding states where physicians can earn continuing medical education credits. The department also sponsors an annual alumni meeting with participation by nationally and internationally recognized ophthalmologists and vision scientists.

Facilities

The department maintains research laboratories for cell biology, biochemistry, morphology, tumor diagnosis, pathology, electrophysiology, pupillometry, molecular biology, and vascular disease. Clinical facilities in ophthalmology are available at University of Iowa Hospitals and Clinics in the Pomerantz Family Pavilion and at the Iowa City Veterans Affairs Medical Center and the Veterans Affairs Central Iowa Health Care System in Des Moines. The department also manages an eye clinic at the Broadlawns Medical Center in Des Moines as well as outreach programs in other communities. The John and Marcia Carver Nonprofit Genetic Testing Laboratory, dedicated to providing affordable testing for rare eye diseases, is associated with the department.

Courses

067:100 (OPHT:8404) Elective in Ocular Pathology 4 s.h.
Pathophysiology of eye disease; emphasis on use of Socratic method, self-study.

067:101 (OPHT:8401) Elective in External Eye Disease 4 s.h.
Common diseases of eyelid, conjunctiva, cornea.

Visual, ocular motor dysfunction due to neurologic disease; patient work-up, readings, neuro-ophthalmology rounds.

067:109 (OPHT:8403) Molecular Ophthalmology  
Use of recombinant DNA, tissue culture, protein electrophoresis in study of inherited eye diseases.

067:111 (OPHT:8301) Clinical Ophthalmology  
2,4 s.h.  
All aspects of clinical ophthalmology; patient rounds, lectures, case presentations; clinical duties with staff, residents, faculty in UIHC and VAMC ophthalmology clinics. Requirements: M.D. enrollment.

067:998 (OPHT:8498) Ophthalmology on Campus

Orthopaedics and Rehabilitation

Chair
• Joseph A. Buckwalter

Professors

Associate professors
• Donald Anderson, Joseph J. Chen, Barry DeYoung, John E. Femino, Ernest M. Found, Nicole Grosland, Sergio A. Mendoza, Douglas Pedersen, Phinit Phitiskul, Neil Segal, Joseph D. Smucker, Yuki Tochigi, Brian Wolf

Assistant professors
• Eric Aschenbrenner, Heather Bingham, Matthew Bollier, Jessica Goetz, Mederic Hall, Carolyn Hettrich, Ryan Ilgenfritz, Matt Karam, Ericka A. Lawler, James A. Martin, Benjamin Miller, Nicolas Noisieux, Apurva Shah, Melissa Willenborg, Glenn Williams

Adjunct associate professors
• Devon D. Goetz, David S. Tease

Adjunct assistant professor
• Mark C. Mysnyk

Professor emeritus
• Reginald R. Cooper

Web site: http://uiortho.com/

The Department of Orthopaedics and Rehabilitation offers training for residents and provides education for undergraduate students.

Undergraduate Education

The Department of Orthopaedics and Rehabilitation participates in the Bachelor of Science with a major in athletic training, which is offered by the Department of Health and Human Physiology (p. 342) (College of Liberal Arts and Sciences). Members of the orthopaedics and rehabilitation sports medicine faculty teach 076:187 (ORTH:4187) Practicum in Athletic Training IV, a two-semester advanced clinical sequence (8 s.h.). Students who complete the program are eligible to apply for national certification in athletic training and to pursue employment opportunities as health care professionals in sports medicine clinics, hospitals, and academic settings.

Residency Programs

The department offers two programs for postgraduate trainees. The first is a five-year integrated clinical program, in which interns and residents participate simultaneously in inpatient and outpatient care, surgery, and sciences related to the neuromusculoskeletal system. The second provides the same training as the first but includes an additional one to two years of research.

Clinical Residency

Trainees enter this program directly from medical school through the National Internship Matching Plan. During the first year, trainees gain experience not only in clinical orthopaedics but also in medicine, pediatrics, surgical specialties, intensive care, anesthesiology, and other services.

During years two through five, residents gain experience in trauma, musculoskeletal oncology, children’s orthopaedics, adult orthopaedics, neuromuscular disorders, rehabilitation, prosthetics and orthotics, rheumatology, and basic science related to orthopaedics. They take specialized courses in anatomy, bone histology, biochemistry, physiology, and pathology.

Weekly seminars cover biomechanics, kinesiology, and selected clinical subjects.

Residency with Research

In addition to the training described for the clinical program, this program includes an additional one to two years of research in a field that interests the resident and is related to the musculoskeletal system. The research may be done in one of the orthopaedic laboratories.

Laboratories

The orthopaedics laboratories deal with problems in these major subject areas.

Biochemistry: the biochemistry of proteoglycans, collagens, and matrix proteins, both normal and altered in musculoskeletal disorders

Biomechanics: problems of the upper extremity; biomechanics of the spine, hip, and gait; total joint replacements (in conjunction with the College of Engineering (p. 806))

Cell and molecular biology: studies of normal bone, cartilage, tendon, muscle, and tissues altered by experiment and disease

Bone healing: research toward better ways to heal bones

Facilities

The Department of Orthopaedics and Rehabilitation is housed in the John Pappajohn Pavilion of University of Iowa Hospitals and Clinics and has an active service in the Iowa City Veterans Affairs Medical Center. The department’s facilities include 48 orthopaedic beds, five outpatient clinics, inpatient and outpatient operating rooms, a specialty library, a specialty radiology unit, and physical therapy and rehabilitation facilities. Its specialty clinics deal with disorders such as scoliosis, club feet, congenital dislocated hip, neuromuscular disease, metabolic disease, amputation, neoplasm, trauma, and neck, back, hip, foot, knee, and hand problems. Physicians in the outpatient clinic see approximately 175 patients per day. Approximately 5,000 major operations are performed each year under the auspices of the department.

The department’s Institute for Orthopaedics, Sports Medicine, and Rehabilitation is located on the University of Iowa’s Hawkeye Campus. The institute provides MRI, X-ray, and physical therapy services.

The department also provides consulting service to the University’s Center for Disabilities and Development and
its Child Health Specialty Clinics and to two State of Iowa
programs that serve people who are mentally challenged.

Courses

**076:002 (ORTH:8301) Clinical Orthopaedics**
arr.

**076:187 (ORTH:4187) Practicum in Athletic Training IV**
4 s.h.
Clinical experience arranged through the athletic training program and the Department of Orthopaedic Surgery for athletic training majors; development of global proficiency in clinical skills. Requirements: athletic training major, and grades of C or higher in 027:183 (ATEP:3040) and 027:186 (ATEP:3030).

**076:201 (ORTH:8401) Advanced Clinical Orthopaedics**
2.4 s.h.
Requirements: fourth-year M.D. enrollment.

**076:202 (ORTH:8402) Musculoskeletal Trauma**
arr.
Requirements: fourth-year M.D. enrollment.

**076:203 (ORTH:8403) Subinternship in Orthopaedics**
4 s.h.
Opportunity to enhance clinical skills by taking intern-level responsibility for management of a limited number of orthopaedic patients; proficiency in perioperative patient assessment and management, including assisting in procedures and using laboratory diagnosis and radiologic studies pertinent to one faculty member’s clinical practice.

**076:204 (ORTH:8404) Introduction to Physical Medicine and Rehabilitation**
2 s.h.
Management of a wide range of common acute and chronic neuro-musculoskeletal pain conditions (shoulder, back, knee pain) to more devastating neuromuscular injuries (spinal cord injuries, brain injury, strokes, amputations). Requirements: M.D. enrollment.

**076:205 (ORTH:8405) Advanced Physical Medicine and Rehabilitation**
4 s.h.
Management of a wide range of common acute and chronic neuro-musculoskeletal pain conditions (shoulder, back, or knee pain) to more devastating neuromuscular injuries (spinal cord injuries, brain injury, strokes, amputations); students work-up individual patients in outpatient clinics and perform inpatient consultations at subintern level. Requirements: M.D. enrollment.

**076:998 (ORTH:8498) Orthopaedics on Campus**
arr.
Requirements: fourth-year M.D. enrollment.

**076:999 (ORTH:8499) Orthopaedics off Campus**
arr.
Requirements: fourth-year M.D. enrollment.
Otolaryngology—Head and Neck Surgery

Head
- Bruce J. Gantz

Professors

Associate professors
- Carolyn J. Brown, Kristi E. Chang, Eileen M. Finnegan, Jeremy D. Greenlee (Otolaryngology—Head and Neck Surgery/Neurosurgery), José M. Manaligod, Douglas Van Daele

Assistant professors
- Rodrigo Bayon, Eugene Chang, Doug Henstrom, Deb Kacmarynski, Nilin A. Pagedar

Adjunct associate professor
- Steven R. Herwig

Adjunct assistant professors
- Matthew R. Brown, Robert T. Brown, Timothy Dettmer, Brenton Koch, Phillip C. Lee, Donald A. Maschka, Richard J. Rinehart

Web site: http://www.medicine.uiowa.edu/oto/

The Department of Otolaryngology—Head and Neck Surgery is one of the most comprehensive otolaryngology departments in the world. Founded in 1922, it is among the oldest in the United States. U.S. News & World Report has consistently ranked the department’s program among the top 10 in the nation.

The department’s chief focus areas are education and training, patient care, and research. M.D. students in the Carver College of Medicine, residents, and fellows benefit from a faculty dedicated to providing thorough training in all aspects of otolaryngology and patient care. Patients in the otolaryngology clinic enjoy access to comprehensive care in any of five subspecialties: pediatric otolaryngology, otology/neurotology, general otolaryngology and rhinology, head and neck oncology, and facial plastic and reconstructive surgery. University of Iowa faculty members from ophthalmology and radiation oncology hold joint appointments in otolaryngology, adding depth to the department’s resources.

The department is home to prominent research programs in cleft palate and other craniofacial defects, head and neck oncology, cochlear implants, and molecular genetics. It also offers fellowships in otology/neurotology, pediatric otolaryngology, and head and neck oncology.

The department is located at University of Iowa Hospitals and Clinics.

Residency Program

The Department of Otolaryngology—Head and Neck Surgery offers a residency program accredited by the Accreditation Council for Graduate Medical Education.

The program has two tracks: a five-year clinical track and a seven-year research track. Five applicants are accepted each year, three to the clinical track and two to the research track.

The clinical track provides five years of concentrated clinical study and application in all aspects of otolaryngology. Residents begin their training with a five-week intensive basic science course divided into an anatomy component and a 100-hour lecture series. The anatomy component includes a supervised cadaver dissection, and the lecture series details the study of otolaryngology and related disciplines. Each resident also completes two research rotations in order to explore research areas that interest him or her.

The research track is a combined clinical-research program designed for residents interested in an otolaryngology research career. After an internship year, residents complete two years of research followed by four years of clinical training. The interaction of clinicians and basic scientists from several departments affords residents the opportunity for involvement in a wide spectrum of current research in areas such as electrophysiology of the auditory system, the genetics of head and neck cancer, and gene therapy.

Fellowships

The Department of Otolaryngology—Head and Neck Surgery offers two-year fellowships in otology/neurotology and in pediatric otolaryngology, which are accredited by the Accreditation Council for Graduate Medical Education, and a one- or two-year fellowship in head and neck oncology accredited by the Advanced Training Council of the American Head and Neck Society.

One applicant is admitted to the otology/neurotology fellowship program every two years. Otology fellows spend a minimum of 20 months on the clinical service. They attend all otology/neurotology clinics and neurotology cases in the operating room and are responsible for inpatient service. They also have one day of dedicated research time each week.

The pediatric otolaryngology fellowship program admits one applicant each year. Fellows spend a year on the clinical service, where they have the opportunity to train with all pediatric otolaryngology faculty members.

One applicant is accepted as a head and neck oncology fellow each year. Training is largely clinical, allowing fellows the opportunity to participate in a variety of procedures, ranging from skull base resection to laryngeal rehabilitation. Fellows routinely perform 35 to 45 free-tissue transfers during one year of training. They also complete a clinical and/or basic science research project relating to head and neck oncology.

Courses

068:003 (OTO:8301) Clinical Otolaryngology — 2 s.h.

068:100 (OTO:8401) Sub-Internship in Otolaryngology — arr.
Supervised cadaver head and neck dissection, with 14 areas in detail. Two weeks.

068:998 (OTO:8498) Otolaryngology on Campus  arr.

068:999 (OTO:8499) Otolaryngology off Campus  arr.
Arranged by student with department approval.
Pathology

Chair
- Nitin J. Karandikar

Professors
- Gary L. Baumbach, Leslie A. Bruch, Barry De Young, Daniel Diekema, Frederick Domann, John Harty, Siegfried Janz, Chris Jensen, John D. Kemp, Patricia Kirby, Charles F. Lynch, Steven Moore, Marcus Nashelsky, Tom Raife, Robert A. Robinson, Nancy Rosenthal, Stefan Strack, Mary Stone, Lubomir P. Turek, Steven Vincent, Thomas Waldschmidt

Associate professors
- Aaron Bossler, Laila Dahmoush, Adam Dupay, Hasem Habelhah, Thomas H. Haugen, Michael Henry, Jonathan Heusel, Carol Holman, Michael Icardi, Marina Ivanovic, Michael Knudson, Matthew Krasowski, Kevin Legge, Vincent Liu, David Meyerholz, Ramesh Nair, Dawn Quelle, Annette Schlueter, Brian Swick, Nasreen Syed, Sergei Syrbus, Robert D. Tucker, Steve Varga

Assistant professors
- Ryan Askeland, Vladimir Badovinac, Amani Bashir, Andrew Bellizzi, Dennis Firchau, Bradley Ford, Katherine Gibson-Corley, Apollina Goel, Leana Guerin, Fiorenza Ianzini, Stacey Klutts, Deqin Ma, Alicia Oliver, Megan Samuelson, Andreen Simons-Burnett, Weizhou Zhang

Instructor
- Judith Kittleson

Adjunct associate professors
- Linda Fell, Julia C. Goodin

Adjunct assistant professors
- Michelle Catellier, Timothy Drevankyo, Yasuko Erickson, Dennis Klein, Jeffrey Rissman, Jonathan Thompson, Jeremy Weydert

Professors emeriti
- Jo Ann Benda, Robert T. Cook, Fred Dee, Gary Doern, James A. Goeken, George F. Johnson, Thomas Kent, Frank Mitros, Michael Pfaller, Charles E. Platz, Marian Schwabauer, Ronald G. Strauss

Associate professors emeriti
- Morris O. Dailey, Ronald Feld

Graduate degree: M.S. in pathology
Web site: http://www.medicine.uiowa.edu/pathology/

The Department of Pathology offers education and training for a broad range of students, from undergraduates through postgraduate fellows and researchers. It provides basic pathology courses to health sciences students; a clinical training program for clinical laboratory scientists; a Master of Science program in pathology; residency training programs leading to American Board of Pathology certification in anatomic pathology, clinical pathology, and neuropathology; fellowship training in pathology subspecialties; and postdoctoral research training in cellular and molecular pathology.

Undergraduate Education
Pathology courses are a major component of the University's Medical Laboratory Science Program, a Bachelor of Science program that trains medical laboratory scientists; see Medical Laboratory Science (p. 1037) in the Catalog.

M.D. Student Training
The department provides seven 12-month fellowships for M.D. students: the Emory Warner Fellowship, a full-time research position in a facet of experimental pathology; and six pathology externships, for students interested in careers as pathologists. It also offers clerkships for M.D. students in all areas of anatomical and clinical pathology.

Residency Program
The department offers 20 residency positions in pathology, which provide up to four years of training. Patients at University of Iowa Hospitals and Clinics and the Iowa City Veterans Affairs Medical Center are integral to the residency programs.

Residents gain experience in systematic rotation through the varied laboratory services, including surgical pathology, autopsy pathology, neuropathology, cytology, clinical chemistry, clinical microbiology, hematology, immunopathology, molecular pathology, and transfusion medicine. They also have the opportunity to pursue one or two years of additional fellowship training in most pathology subspecialties. To learn more, see Education on the Department of Pathology web site.

Graduate Program of Study
- Master of Science in pathology

Master of Science
The Master of Science program in pathology requires a minimum of 30 s.h. of graduate credit, including 21 s.h. of classroom work and 9 s.h. earned for research. The program trains graduate students in cell and molecular biology. Graduates work as research scientists in a range of academic and commercial laboratories, including those in the rapidly expanding biotechnology sector. Others advance to doctoral-level study.

M.S. students take a core curriculum in cell and molecular biology as well as electives suited to their individual interests. They acquire contemporary research skills by pursuing a laboratory thesis project under the guidance of a faculty member. Currently, there are active research programs in immunology, microbiology, neuroscience, signaling and apoptosis, inflammation and vascular biology, tumor biology and cancer, and virology.

Most M.S. students complete their course of study in three years.

The department encourages applicants who have earned a Bachelor of Science with a major in biology, chemistry, biochemistry, clinical laboratory science, microbiology, or zoology. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog. They should have an undergraduate g.p.a. of at least 3.00 and a combined
verbal and quantitative score of at least 1100 on the Graduate Record Exam (GRE) General test.

For more information about graduate study, see Education on the Department of Pathology web site.

**Postgraduate Training**

The Department of Pathology offers postgraduate clinical fellowship programs in hematopathology, transfusion medicine, clinical microbiology, cytopathology, molecular genetics pathology, and surgical pathology for physicians who have completed residency training in pathology. These fellowships consist of one to two years of diagnostic work and up to two years of laboratory research.

The department provides postdoctoral research training in immunology, neuropathology, apoptosis, cancer biology, and clinical microbiology as well as in other areas of cellular and molecular pathology. These positions are open to individuals who have earned a Ph.D. or an M.D.

**Facilities**

The Department of Pathology is well-equipped to carry out the sophisticated technology of modern cellular and molecular pathology. It administers more than 90,000 square feet of clinical laboratories at University of Iowa Hospitals and Clinics and has individual research and core facility laboratories, including histopathology and laser capture microscopy for cellular and molecular pathology research, in the Medical Research Center, Medical Laboratories, and at the Iowa City Veterans Affairs Medical Center. Also available are Carver College of Medicine research facilities for nucleic acid chemistry, hybridoma production, flow cytometry, ultrastructural studies, protein structure, image analysis, electron spin resonance, mass spectroscopy, nuclear magnetic resonance, and laboratory animal care.

**Courses**

069:150 (PATH:4150) **Clinical Laboratory Skills** 0.6 s.h.

Summer clinical laboratory science instruction in Iowa City. Requirements: acceptance to Clinical Laboratory Science Program.

069:152 (PATH:4152) **CLS Theory, Application, and Correlation** 0.5 s.h.

Theory, application, and correlation of clinical laboratory science. Prerequisites: 069:150 (PATH:4150).

069:153 (PATH:5133) **Introduction to Human Pathology for Graduate Students** 4 s.h.

Human disease; basic disease processes, organ-related and multisystem diseases; case analysis. Offered fall semesters. Same as 069:133 (PATH:8133).

069:154 (PATH:4154) **Clinical Chemistry I** 0.4 s.h.

Theory, practical application, technical performance, and evaluation of clinical chemistry laboratory procedures; correlation of laboratory data with diagnosis of disease. Prerequisites: 069:150 (PATH:4150).

069:155 (PATH:4155) **Clinical Chemistry II** 0.3 s.h.

Advanced theory, practical application, technical performance, and evaluation of clinical chemistry laboratory procedures; correlation of laboratory data with diagnosis of disease. Prerequisites: 069:154 (PATH:4154).

069:156 (PATH:4156) **Clinical Hematology I** 0.4 s.h.

Introduction to theory, practical application, technical performance, and evaluation of hematological and hemostasis procedures; correlation of laboratory data with diagnosis of disease. Prerequisites: 069:150 (PATH:4150).

069:157 (PATH:4157) **Clinical Hematology II** 0.3 s.h.

Advanced theory, practical application, technical performance, and evaluation of hematological and hemostasis procedures; correlation of laboratory data with disease diagnosis. Prerequisites: 069:156 (PATH:4156).

069:158 (PATH:4158) **Clinical Microbiology I** 0.4 s.h.

Introduction to theory, practical application, technical performance, and evaluation of procedures for isolation, identification, and susceptibility testing of infectious disease organisms in humans. Prerequisites: 069:150 (PATH:4150).

069:159 (PATH:4159) **Clinical Microbiology II** 0.4 s.h.

Advanced theory, practical application, technical performance, and evaluation of procedures for isolation, identification, and susceptibility testing of infectious disease organisms in humans. Prerequisites: 069:158 (PATH:4158).

069:160 (PATH:4160) **Clinical Immunology and Molecular Diagnostics** 0 - 1 s.h.

Theory, application, and evaluation of immunological components, principles, and methodologies used to assess immune dysfunction; theory and application of molecular diagnostic tools. Prerequisites: 069:150 (PATH:4150).

069:162 (PATH:4162) **Clinical Immunohematology I** 0.3 s.h.

Introduction to theory, practical application, technical performance, and evaluation of blood bank procedures required for storage and transfusion of blood and blood components. Prerequisites: 069:150 (PATH:4150).

069:163 (PATH:4163) **Clinical Immunohematology II** 0.3 s.h.

Clinical immunohematology for laboratory science. Prerequisites: 069:162 (PATH:4162).

069:164 (PATH:4164) **Phlebotomy for Clinical Laboratory Science** 0.1 s.h.
Theory, practical application, technical performance, and evaluation of procedures used in collecting, handling, and processing blood specimens. Prerequisites: 069:150 (PATH:4150).

069:166 (PATH:4166) Urine and Body Fluid Analysis
Theory, practical application, technical performance, and evaluation of procedures used in analyzing urine and other body fluids, including cerebrospinal, synovial, serous, and amniotic fluids. Prerequisites: 069:150 (PATH:4150).

069:170 (PATH:4170) Clinical Laboratory Management I
Theory, practical application, technical performance, and evaluation of laboratory management principles and associated models; critical thinking, problem solving, leadership skills. Prerequisites: 069:150 (PATH:4150).

069:171 (PATH:4171) Clinical Laboratory Management II
Advanced theory, application, technical performance, and evaluation of laboratory management principles and associated models; critical thinking, problem solving, leadership skills. Prerequisites: 069:170 (PATH:4170).

069:172 (PATH:4172) Clinical Endocrinology and Toxicology I
Introduction to theory, practical application, and evaluation of clinical chemistry laboratory procedures; emphasis on correlation of clinical laboratory data with diagnosis and treatment of endocrine disorders, toxicology disturbances, and therapeutic drug monitoring.

069:205 (PATH:8204) Medical Pathology I
Mechanisms of disease, etiology, pathogenesis, epidemiology, major clinical manifestations of disease in organ systems. Requirements: M.D. enrollment or graduate standing.

069:206 (PATH:8214) Medical Pathology II
Mechanisms of disease, etiology, pathogenesis, epidemiology, major clinical manifestations of disease in organ systems. Requirements: 069:205 (PATH:8204) and M.D. enrollment, or graduate standing.

069:211 (PATH:7211) Research in Pathology
Basic aspects of pathology or clinical patient material; emphasis on experimental design, methods, literature review, obtaining formal answers to specific questions. Requirements: M.D. enrollment or graduate standing.

069:220 (PATH:6220) Seminar in Pathology
Current research and literature. Requirements: pathology graduate standing.

069:240 (PATH:8301) Laboratory Medicine in Clinical Practice
Issues in appropriate use of clinical laboratory and pathology resources in the primary care setting; case-based approach. Requirements: third- or fourth-year M.D. enrollment.

069:241 (PATH:8401) Autopsy Pathology Clerkship

069:245 (PATH:8402) Hematopathology Clerkship

069:246 (PATH:8403) Surgical Pathology Clerkship

069:247 (PATH:8404) Blood Bank Clerkship

069:260 (PATH:5260) Translational Histopathology
Didactic sessions on human comparative histology, molecular and cellular pathology, and animal model applications; laboratory sessions on microscopy, histology, histotechnology, and immunohistochemistry, with group discussions of model papers; experience in scientific writing and oral presentation skills; for students who plan to investigate experimental models of human disease. Prerequisites: 156:201 (BISC:5201) and 156:203 (BISC:5203).

069:270 (PATH:5270) Pathogenesis of Major Human Diseases
Critical analysis of pathogenesis models in a series of major human diseases; clinical presentation, analysis of cellular and molecular events leading to the disease, discussion of key papers. Prerequisites: 156:201 (BISC:5201) and 156:203 (BISC:5203).

069:272 (PATH:6720) Translational Research in Cancer
Basic tumor biology and lab-based methods applied to development of translational approaches to prevention, early diagnosis, and treatment of human cancers. Offered fall semesters of even years. Same as 173:272 (EPID:6720).

069:288 (PATH:7001) Molecular and Cellular Biology of Cancer
Fundamental aspects of oncology at the cellular and molecular levels; mechanisms of cancer initiation and progression, oncogene action, DNA damage and repair, carcinogenesis by radiation, chemicals, viruses; tumor immunology, anticancer therapies. Offered spring semesters of odd years. Requirements: strong basic science background. Same as 077:288 (FRRB:7001).

069:290 (PATH:8007) Medical Student Fellowships in Pathology (Externships)
First-hand experience in autopsy, surgical and clinical pathology, teaching, and research to further understanding of disease mechanisms, normal and pathologic anatomy, laboratory use.

069:291 (PATH:8008) Warner Fellowship in Experimental Pathology
One-year, full-time membership in established research laboratory in the Department of Pathology or collaborating laboratory. Requirements: M.D. enrollment.

069:998 (PATH:8498) Pathology on Campus

069:999 (PATH:8499) Pathology off Campus

Adjunct professors
• Ken Cheyne, Stephen Stephenson

Adjunct associate professors
• Vidya Chande, Jorge Di Paola, Stephen C. Elliott, Keevin Franzen, Gregory Garvin, Bahri Karacay, Adel F. Makar, Brian Schutte, Rizwan Shah, Peter D. Wallace, Mir Waziri, Veljko Zivkovich

Adjunct assistant professors

Adjunct instructor
• Robin Paetzold-Durumeric

Professors emeriti

Web site: http://www.medicine.uiowa.edu/pediatrics/

The Department of Pediatrics provides a solid foundation for M.D. students and postgraduate trainees. It offers extensive opportunities for general pediatrics and subspecialties. Affiliated programs add depth to the educational program in community pediatrics and primary care. The department is affiliated with the child and material health programs of the Bureau of Family Health, Iowa Department of Public Health; the University of Iowa regional Child Health Specialty Clinics and the Center for Disabilities and
Department; Blank Children’s Hospital in Des Moines; and community sites.

M.D. Student Training

Didactic lectures and physical examination of newborns, toddlers, and older children provide M.D. students with their initial pediatric patient contact. This experience includes taking a history, performing a physical examination, appraisal of growth and development, nutrition, and symptomatology of newborns, toddlers, and adolescents.

For junior and senior medical students, the inpatient service provides training in the complex problems of disease and critical illness. Students participate in daily rounds involving general pediatrics and all subspecialties. Challenging and interesting cases are presented for discussion of diagnosis and treatment.

Outpatient experience, available in the junior clerkship and fourth-year electives, stresses principles and practices required for the maintenance of children’s health, treatment of common general pediatric disorders, and the diagnosis and treatment of subspecialty ambulatory patients.

Residency Program, Fellowships

The department offers an accredited three-year residency program designed to prepare trainees for professional careers in general pediatrics or for further fellowship training. The program meets the eligibility requirements of the American Board of Pediatrics and is approved for 13 residents per year by the Accreditation Council for Graduate Medical Education.

Fellowships are available in multiple pediatrics subspecialties. Fellowship programs encourage development of knowledge and skill through research and clinical orientations in the chosen discipline. Upon satisfactory completion of the program, fellows meet the ABP eligibility requirements in their subspecialty.

Facilities

The Department of Pediatrics has inpatient and outpatient facilities in the University of Iowa Children’s Hospital at University of Iowa Hospitals and Clinics. Additional outpatient facilities are located at Iowa River Landing in Coralville.

The pediatric inpatient service has approximately 120 beds, and more than 50,000 patients are seen each year in the general, speciality, continuity care, and field clinics and in the University’s Emergency Department. The Center for Disabilities and Development provides resources for children with developmental disabilities, cerebral palsy, or mental retardation.

The department maintains a number of laboratories that perform both clinical and research studies.

Courses

070:002 (PEDS:8301) Clinical Pediatrics 6 s.h.
Principles, practices of health maintenance and treatment of acute and chronic illnesses in children; emphasis on diagnosis and evaluation, nutrition, behavior problems, disorders affecting children; patient care, daily rounds, ward work. Requirements: third-year M.D. enrollment.

070:013 (PEDS:8402) Subinternship in Pediatrics: Blank Children’s Hospital, Des Moines arr.
Experience in the care of general pediatric inpatients; daily rounds and teaching by senior residents and faculty members; daily didactic conferences. Requirements: fourth-year M.D. enrollment.

070:014 (PEDS:8405) Emergency Room Blank Children’s Hospital, Des Moines arr.
Pediatric emergencies and urgent care, proficiency in pediatric medicine procedures; expansion of basic knowledge. Requirements: fourth-year M.D. enrollment.

070:015 (PEDS:8416) Neonatal Intensive Care Unit, Blank Children’s Hospital 4 s.h.
Experience equivalent to intern on neonatal intensive care unit teaching service at Blank Children’s Hospital, Des Moines; four-week rotation.

070:016 (PEDS:8409) Pediatric Hematology/Oncology arr.
Basic concepts of clinical approach to hematologic and oncologic problems in children and adolescents; primarily outpatient experience. Requirements: fourth-year M.D. enrollment.

070:017 (PEDS:8410) Pediatric Neurology arr.
Participation in outpatient and inpatient activities, teaching, morning ward rounds. Requirements: fourth-year M.D. enrollment.

070:019 (PEDS:8407) Pediatric Cardiology arr.
Participation in clinical activities; observation of cardiac catheterization; experience in cardiac auscultation, ECG, radiography; emphasis on physical diagnosis, approach to heart disease and murmurs in children. Requirements: fourth-year M.D. enrollment.

070:023 (PEDS:8412) Developmental and Behavioral Pediatrics 2.4 s.h.
Normal developmental sequence of gestation and early childhood, impact of environmental influences; antecedents of developmental disabilities; methods to detect cognitive and motor delays in preschool children; long-term consequences of developmental disabilities for children, their families; advantages of interdisciplinary teamwork. Requirements: fourth-year M.D. enrollment.

070:025 (PEDS:8411) Child Abuse and Neglect 2.4 s.h.
Hospital- and community-based multidisciplinary responses to child abuse and neglect; experience developing diagnostic skills to recognize, assess, and report cases of child abuse and neglect. Requirements: fourth-year M.D. enrollment.
070:027 (PEDS:8403) Neonatology (NICU)  
Experience caring for ill neonates, proficiency in using diagnostic tests and procedures; responsibility for care of several infants; reference and literature review, conferences, teaching, clinical rounds. Requirements: fourth-year M.D. enrollment.

070:028 (PEDS:8401) Pediatric Inpatient Care Subinternship  
Experience on pediatric inpatient team caring for patients ranging from infants through adolescents; evaluation, formulation of differential diagnoses, diagnostic workups, appropriate therapy programs. Requirements: fourth-year M.D. enrollment.

070:029 (PEDS:8404) Critical Care (PICU)  
Direct care of critically ill children in a multidisciplinary medical/surgical/cardiac intensive care unit; under supervision of pediatric residents and staff; participation in educational activities and formal clinical rounds. Requirements: fourth-year M.D. enrollment.

070:030 (PEDS:8415) Medical Genetics for the Senior Student  
Participation in diagnostic, therapeutic problems; techniques for evaluation, appropriate counseling in genetic cases; conferences. Requirements: fourth-year M.D. enrollment.

070:031 (PEDS:8431) Pediatric Nephrology  
Introduction to general pediatric nephrology cases and management. Requirements: M.D. enrollment.

070:033 (PEDS:8408) Pediatric Gastroenterology  
Diagnosis, management, treatment of diseases of gastrointestinal tract, liver, pancreas in children; ward rounds, consultations, clinics, diagnostic procedures, conferences. Requirements: fourth-year M.D. enrollment.

070:043 (PEDS:8406) Pediatric Allergy  
Experience in evaluating and treating respiratory and allergic diseases in infants, children, and adolescents. Requirements: fourth-year M.D. enrollment.

070:055 (PEDS:8413) General Pediatric Outpatient Clinic  
Work in general pediatric outpatient clinics with acutely or chronically ill patients and with well children. Requirements: fourth-year M.D. enrollment.

070:060 (PEDS:8450) Continuity of Care in Outpatient General Pediatrics  
Work with experienced general pediatrician in a longitudinal clinical experience for the academic year; paired with faculty pediatrician to see patients in a weekly clinic; provide clinical care to a defined patient population; growth and development, health supervision, and management of common acute and chronic clinical problems. Requirements: fourth-year M.D. enrollment.

070:110 (PEDS:8104) Medical Genetics  
Gene structure and function, basic genetics concepts, application to problems in human disease. Offered fall semesters. Requirements: M.D. enrollment or graduate standing in related health field.

070:201 (PEDS:6101) Primary Care: Infants, Children, and Adolescents II  

070:245 (PEDS:7245) Evaluation of Children with ADHD and LD  
Clinical experience in conducting pediatric neuropsychology examinations in the Pediatric Attention/Learning Disorders Clinic. Requirements: course on psychological testing (including IQ) and graduate psychology standing (school, counseling, rehabilitation, clinical). Same as 07P:207 (PSQF:7245).

070:251 (PEDS:7251) Clinical Pediatric Neuropsychology  
Learning and behavior disorders resulting from central nervous system dysfunction; clinical experience in assessment of cognitive, behavioral patterns.

070:252 (PEDS:7252) Assessment of Attention Deficit Disorder  

070:253 (PEDS:7253) Assessment of Behavior Disorders  
Experience in diagnostic and behavioral assessments of children with conduct disorders.

070:255 (PEDS:7255) Autism Spectrum Disorders  
Overview of autism spectrum disorders (ASDs), including autistic disorder, Asperger’s disorder, other pervasive developmental disorders; ASD diagnoses and their etiology; tools used in assessing individuals with ASDs; common interventions for ASDs; resources for work with individuals who have ASDs.

070:256 (PEDS:7256) Pediatric Psychology Inpatient Practicum  
Knowledge and practical skills in implementing psychological practice with hospitalized pediatric patients; referrals include challenging behaviors (e.g., treatment adherence, disruptive behaviors), neuropsychological assessment (e.g., child with seizure disorder, child with TBI), and social-emotional evaluation; how to consult with medical teams and work with families with children who have acute and chronic health conditions, including asthma, diabetes, cancer, brain tumors, burns, head injury. Requirements: enrollment in an applied doctoral program in a psychological field. Recommendations: completion of a practicum in an outpatient Pediatric Psychology Clinic.

070:258 (PEDS:7258) Seminar in Pediatric Psychology  
Basic introduction to the field of pediatric psychology; professional issues in pediatric psychology; consultation and professional relations with physicians; psychological services in pediatric psychology; specialized populations, such as childhood chronic illness, children’s hospitalization and surgery. Requirements: enrollment in an applied doctoral program in a psychological field.
070:260 (PEDS:7260) Neurobehavioral Assessment and Intervention
Experience evaluating the interaction between a child’s neurocognitive profile and their behavior at school and home; interviews with parents/children, assessments to assist in identifying cognitive and learning disorders, behavior analyses to identify interventions; follow-up with families and school teams.

070:261 (PEDS:7261) Autism Assessment and Behavioral Intervention
Foundation in evidence-supported psychological assessment, behavioral assessment, and/or intervention for children with autism spectrum disorders (ASDs); emphasis on evaluating and providing treatment services to young children with ASDs and their families.

070:262 (PEDS:7262) Biobehavioral Assessment and Intervention
Experience conducting brief functional assessments and behavioral treatments for children and adults with developmental disabilities; interviews with caregivers, behavioral assessments, matched treatments (e.g., functional communication training); follow-up with caregivers.

070:263 (PEDS:7263) Evaluation and Treatment of Pediatric Feeding Disorders
Experience evaluating children with varied feeding disorders, such as food overselectivity by texture or type, dependence on gastrostomy or nasogastrostomy tubes, failure to grow adequately due to inadequate caloric intake; methods to evaluate feeding behaviors, evaluate design interventions, and measure outcomes; caregiver training and follow-up.

070:264 (PEDS:7264) Clinical Applications of Applied Behavior Analysis
Experience behavioral observations, consultation, and/or conducting behavioral assessments (including preference assessments and functional analyses), matched treatments; interviews with care providers, collect behavioral data, conduct behavioral assessments, matched treatments; follow-up with care providers.

070:265 (PEDS:7265) Research in Applied Behavior Analysis
Experience developing and conducting research in applied behavior analysis; conduct behavioral observations, behavioral assessments, matched treatments; weekly readings and lab meetings; participate in research sessions as data collector or therapist.

070:300 (PEDS:7300) Pediatric Independent Study

070:333 (PEDS:8495) Pediatric Intensive Care off Campus
Arranged by student and department. Requirements: fourth-year M.D. enrollment.

070:653 (PEDS:8430) Adult and Pediatric Nephrology and Hypertension

070:662 (PEDS:8432) Medical and Pediatric Endocrinology
Pharmacology

Graduate degrees: M.S.in pharmacology; Ph.D. in pharmacology
Web site: http://www.medicine.uiowa.edu/pharmacology/

The Department of Pharmacology provides professional training for health science students and participates with other departments in educational and research activities such as the Medical Scientist Training (p. 1038) Program, the Physician Scientist Training Pathway, the Molecular and Cellular Biology (p. 942) Program, the Neuroscience (p. 945) Program, the Holden Comprehensive Cancer Center, the Iowa Cardiovascular Center, and the UI Fraternal Order of Eagles Diabetes Research Center.

The department was a pioneer in offering pharmacology to undergraduate students with little or no science background. Lectures in 071:120 (PCOL:2120) Drugs: Their Nature, Action, and Use emphasize the mechanisms of drug action and give students a background for rational decisions concerning use of drugs.

Pre- and postdoctoral students pursue research training in all areas of pharmacology in the department in preparation for career opportunities in academia, government, and industry.

Graduate Programs of Study
• Master of Science in pharmacology
• Doctor of Philosophy in pharmacology

Department of Pharmacology graduate study includes both didactic and research experience. Qualified students may pursue the joint M.D./Ph.D. in the University’s Medical Scientist Training Program.

Master of Science

The Master of Science program in pharmacology requires a minimum of 30 s.h. of graduate credit. The program requires the following core courses.

- 071:135 (PCOL:5135) Principles of Pharmacology 1 s.h.
- 071:136 (PCOL:5136) Pharmacogenetics and Pharmacogenomics 1 s.h.
- 071:137 (PCOL:5137) Neurotransmitters 1 s.h.
- 071:203 (PCOL:6090) Graduate Research in Pharmacology 6 s.h.
- 071:204 (PCOL:6080) Pharmacology Seminar 1 s.h.
- 071:302 (PCOL:6203) Pharmacology for Graduate Students 4 s.h.
- 156:201 (BISC:5201) Fundamentals of Gene Expression 1 s.h.
- 156:204 (BISC:5204) Biostatistics for Biomedical Research 1 s.h.

Students are expected to gain maximum experience in laboratory research while completing their course work. Satisfactory preparation and oral defense of a thesis based on the student’s own research are required for completion of the program.

Doctor of Philosophy

The Doctor of Philosophy program in pharmacology requires a minimum of 72 s.h. of graduate credit. The program requires the following core courses.

- 071:135 (PCOL:5135) Principles of Pharmacology 1 s.h.
- 071:136 (PCOL:5136) Pharmacogenetics and Pharmacogenomics 1 s.h.
- 071:137 (PCOL:5137) Neurotransmitters 1 s.h.
- 071:138 (PCOL:5138) Ion Channels 1 s.h.
- 071:203 (PCOL:6090) Graduate Research in Pharmacology arr.
- 071:204 (PCOL:6080) Pharmacology Seminar 1 s.h.
- 071:208 (PCOL:6208) G Proteins and G Protein-Coupled Receptors 1 s.h.
- 071:209 (PCOL:6209) Steroid Receptor Signaling 1 s.h.
- 071:250 (PCOL:6250) Advanced Problem Solving in Pharmacological Sciences 1 s.h.
- 071:302 (PCOL:6203) Pharmacology for Graduate Students 6 s.h.
- 071:253 (MBP:5153) Graduate Physiology 4 s.h.
- 099:243 (BIOC:5243) Protein Structure, Function, and Regulation: Biophysical Chemistry Module 1 1 s.h.
- 156:201 (BISC:5201) Fundamentals of Gene Expression 1 s.h.
- 156:204 (BISC:5204) Biostatistics for Biomedical Research 1 s.h.

Individual faculty research advisors may require additional courses.

During the first semester in the program, students are required to work in two different faculty laboratories before selecting a laboratory in which to pursue thesis research. Students then are expected to gain maximum laboratory research experience while completing course work. The Ph.D. comprehensive examination (written and oral) is given at the end of the fourth semester. Satisfactory preparation and oral defense of the thesis complete the program.

There is no departmental foreign language requirement.
Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog. They should have a g.p.a. of at least 3.00 and a combined verbal and quantitative score of at least 312 on the Graduate Record Examination (GRE) General Test. They should have completed undergraduate courses in chemistry, biology, biochemistry, and mathematics. Admission to the graduate programs is determined by the faculty after receipt of a completed formal application and interview (if appropriate) by faculty members or other designated individuals. Each application is reviewed individually. Some standard admission criteria may be waived for applicants who possess outstanding credentials in other areas.

Financial Support

The department provides all Ph.D. students and some M.S. students with financial support in the form of stipends and tuition support. Support is renewed annually based on satisfactory progress toward meeting degree requirements.

Courses

071:105 (PCOL:8203) Pharmacology for Health Sciences: Medical 5 s.h.
Principles of pharmacology, pharmacologic actions of drugs, correlation with therapeutic uses. Offered fall semesters. Prerequisites: 050:240 (MED:8112) and 099:163 (BIOC:8103). Requirements: M.D. enrollment.

071:111 (PCOL:8240) Basic Pharmacology for Dental Students 3 s.h.
Principles of pharmacology, pharmacologic actions of drugs, correlation with therapeutic uses. Offered spring semesters. Prerequisites: 072:152 (MPB:8115) and 099:161 (BIOC:8101). Requirements: D.D.S. enrollment.

071:115 (PCOL:6204) Pharmacology for Health Sciences: Nurse Anesthetist 5 s.h.
Principles of pharmacology; pharmacologic actions of drugs, correlation with therapeutic uses. Offered fall semesters. Prerequisites: 060:270 (ACB:6000) or 096:270 (NURS:6000). Requirements: enrollment in Anesthesia Nursing Program.

071:120 (PCOL:2120) Drugs: Their Nature, Action, and Use 2 s.h.
Principles of drug action, toxicity; sedatives, stimulants, hallucinogens, narcotics, over-the-counter agents, antibiotics, oral contraceptives. Offered spring semesters. Recommendations: closed to Pharm.D. students.

071:125 (PCOL:8225) Pharmacology for Health Sciences: Physician Assistant Students 6 s.h.
Principles of pharmacology, pharmacologic actions of drugs, correlation with therapeutic uses. Offered fall semesters. Prerequisites: 099:164 (BIOC:8204). Requirements: Physician Assistant Studies and Services enrollment.

071:130 (PCOL:4130) Drug Mechanisms and Actions 3 s.h.
Introduction to principles of pharmacology, pharmacologic actions of drugs. Offered spring semesters. Requirements: undergraduate biochemistry and physiology courses.

071:135 (PCOL:5135) Principles of Pharmacology 1 s.h.
Basic pharmacological principles underlying drug absorption, distribution throughout the body, drug metabolism, and drug elimination; how these processes determine drug dosing and the means by which dosing parameters are characterized; drug receptor interactions and their quantitation. Offered spring semesters.

071:136 (PCOL:5136) Pharmacogenetics and Pharmacogenomics 1 s.h.
Impact of genetic variation on the actions and metabolism of drugs; database search techniques to identify variants. Offered spring semesters. Prerequisites: 071:135 (PCOL:5135). Recommendations: undergraduate or graduate biochemistry.

071:137 (PCOL:5137) Neurotransmitters 1 s.h.
Mechanisms of neurotransmission focusing on mechanisms of synthesis, regulation of release, mechanisms of action, means of degradation, and CNS pathways for major neurotransmitters; disease states involving various neurotransmitter systems. Offered spring semesters.

071:138 (PCOL:5138) Ion Channels 1 s.h.
A heuristic, semiquantitative approach to concepts in ion channel physiology and pharmacology; discussions on up-to-date physical principles, classification, and structure/function relationships for major voltage-gated ion channels that facilitate the application of abstract concepts to physiological, pharmacological, and general biological problems. Offered spring semesters.

071:180 (PCOL:8180) Pharmacology for Pharmacy Students I 3 s.h.
Principles of pharmacology, toxicology; drug and toxic mechanisms; systemic and organ-specific pharmacologic and toxic responses. Offered spring semesters. Requirements: first-year Pharm.D. enrollment or graduate standing.

071:181 (PCOL:8181) Pharmacology for Pharmacy Students II 3 s.h.
Continuation of 071:180 (PCOL:8180). Offered fall semesters. Requirements: second-year Pharm.D. enrollment or graduate standing.

071:199 (PCOL:4199) Undergraduate Research in Pharmacology 1 s.h.
Experimental research under faculty supervision in department laboratories.

071:203 (PCOL:6090) Graduate Research in Pharmacology 1 s.h.

071:204 (PCOL:6080) Pharmacology Seminar 1 s.h.

071:208 (PCOL:6208) G Proteins and G Protein-Coupled Receptors 1 s.h.

071:209 (PCOL:6209) Steroid Receptor Signaling 1 s.h.
Structure-function relationship and genomic and nongenomic actions of the steroid hormone receptor family; basis for actions of novel new ligands on these receptors. Offered spring semesters. Same as 072:209 (MPB:6209), 132:209 (NSCI:6209).

071:210 (PCOL:6099) Special Topics in Pharmacology arr.

071:215 (PCOL:6015) Topics in Neuropharmacology 1 s.h.
Recent advances in neuropharmacology, developmental neurobiology, neuroendocrinology, and related neurosciences. Offered fall semesters.

071:220 (PCOL:6020) Topics in Pharmacogenomics 1 s.h.
Recent advances in pharmacogenomics, pharmacogenetics, and related genetic fields. Offered fall semesters.

071:225 (PCOL:6025) Topics in Molecular Pharmacology 1 s.h.
Recent advances in molecular pharmacology; receptor, postreceptor events in stimulus coupling.

071:231 (PCOL:6030) Topics in Cardiovascular Pharmacology 1 s.h.
Recent advances in cardiovascular pharmacology, metabolic pharmacology, and related sciences. Offered spring semesters.

071:235 (PCOL:6035) Topics in Pain Analgesia 1 s.h.
Recent advances in pain research, therapy.

071:250 (PCOL:6250) Advanced Problem Solving in Pharmacological Sciences 1 s.h.
Discussion of methodologies, strategies, and approaches commonly used to solve pharmacological sciences problems; use of interpersonal problem-solving skills to develop experimental study plans for solving contemporary scientific problems in pharmacology.

071:302 (PCOL:6203) Pharmacology for Graduate Students 6 s.h.
Principles of pharmacology, pharmacologic actions of drugs, correlation with therapeutic uses. Offered fall semesters. Prerequisites: 072:153 (MPB:5153), 099:243 (BIOC:5243), 156:201 (BISC:5201), and 156:203 (BISC:5203).
Physical Therapy and Rehabilitation Science

Director
• Richard K. Shields

Professors
• Annunziato Amendola (Physical Therapy and Rehabilitation Science/Health and Human Physiology/Orthopaedics and Rehabilitation), David Asprey (Physical Therapy and Rehabilitation Science/Pediatrics/Physician Assistant Studies and Services), Thomas Cook (Occupational and Environmental Health/International Programs/Physical Therapy and Rehabilitation Science), Warren Darling (Health and Human Physiology/Physical Therapy and Rehabilitation Science), Richard K. Shields, Kathleen A. Sluka

Associate professors
• Joseph Chen (Physical Therapy and Rehabilitation Science/Orthopaedics and Rehabilitation), Kelly Cole (Health and Human Physiology/Physical Therapy and Rehabilitation Science), Laura A. Frey Law, Barbara Rakel (Physical Therapy and Rehabilitation Science/Nursing), Glenn N. Williams, Brian R. Wolf (Physical Therapy and Rehabilitation Science/Orthopaedics and Rehabilitation), H. John Yack

Assistant professors
• Darren P. Casey, Susanne M. Morton

Lecturer
• Byron Bork

Associates
• Kelly Sass, Carol Vance, David Williams

Adjunct associate professor
• Bryon Ballantyne

Adjunct assistant professors
• Pamela A. Duffy, Kim Eppen, Masaki Iguchi

Adjunct associates

Professors emeriti
• David H. Nielsen, Gary L. Smidt, Gary L. Soderberg

Graduate degrees: D.P.T.; M.A. in physical therapy; Ph.D. in physical rehabilitation science

Web site: http://www.medicine.uiowa.edu/pt/

Physical therapists provide services to patients and clients who have impairments, functional limitations, disabilities, pain, or changes in physical function resulting from injury, disease, or other causes. Physical therapists practice and collaborate with a variety of health professionals. In the area of health promotion and wellness, they provide screening examinations, prescribe fitness programs, and educate the public regarding healthy lifestyles. Research, teaching, consultation, and administration also are parts of a physical therapist’s professional role.

A wide variety of opportunities exist for professional practice in inpatient, outpatient, and community-based settings. Examples include practice in general or specialized hospitals, programs for children with disabilities, private physical therapy clinics, extended care facilities, nursing homes, community and governmental agencies, rehabilitation centers, the armed forces, foreign service, home health agencies, school systems, fitness centers, and athletic facilities. Research and teaching careers in academic institutions are available for those who earn a Ph.D. in rehabilitation science.

The Department of Physical Therapy and Rehabilitation Science is located in the Carver College of Medicine on the University of Iowa health sciences campus, which includes University of Iowa Hospitals and Clinics, one of the nation’s largest university-owned teaching hospitals. The department has eight state-of-the-art independent research laboratories and is well equipped for classroom and laboratory instruction and innovative research. Students have access to faculty members in the basic sciences and medicine, basic sciences courses, clinical specialty expertise, and innovative learning experiences associated with a medical college environment.

Graduate Programs of Study
• Doctor of Physical Therapy
• Master of Arts in physical therapy
• Doctor of Philosophy in physical rehabilitation science

The Doctor of Physical Therapy (D.P.T.) is the entry-level professional degree for physical therapists. The Master of Arts in physical therapy is granted to students working toward the Doctor of Philosophy in physical rehabilitation science. Each year 36 students are admitted to the D.P.T. program and around 20 students are enrolled in the Ph.D. program.

Doctor of Physical Therapy

The Doctor of Physical Therapy requires a minimum of 101 s.h. and is completed in two and one-half years. The program is fully accredited by the Commission on Accreditation in Physical Therapy Education. Satisfactory completion of the professional program qualifies candidates to take the National Physical Therapy Examination for licensure to practice. The minimum passing score on the exam is the same in all jurisdictions.

Technical Standards for Graduation

Doctor of Physical Therapy graduates must possess and demonstrate the physical and cognitive skills and character attributes required to provide physical therapy services in a broad variety of clinical situations and
environments. All D.P.T. candidates must perform, with or without reasonable accommodation, the following skills safely, effectively, efficiently, and in compliance with the legal and ethical standards set by the American Physical Therapy Association Code of Ethics and Standards of Practice:

- communicate effectively through appropriate verbal, nonverbal, and written communication with patients, families, and others;
- demonstrate ability to apply universal precautions;
- utilize appropriate tests and measures in order to perform a physical therapy examination; examples include, but are not limited to, examination and evaluation of cognitive/mental status, vital signs, skin and vascular integrity, wound status, endurance, segmental length, girth, volume, sensation, strength, tone, reflexes, movement patterns, coordination, balance, developmental stage, soft tissue, joint motion/ play, cranial and peripheral nerve function, posture, gait, functional abilities, assistive devices fit/use, psychosocial needs, and the pulmonary system;
- demonstrate the ability to reach diagnostic and therapeutic judgments through analysis and synthesis of data gathered during patient/client examination in order to develop an appropriate plan of care;
- perform fully, or in a reasonably independent manner, physical therapy interventions appropriate to the patient’s status and desired goals;
- apply teaching/learning theories and methods in health care and community environments;
- accept criticism and respond by appropriate behavior modification;
- possess the perseverance, diligence, and consistency to complete the physical therapy curriculum and enter the practice of physical therapy.

Applicants with health conditions or disabilities who need accommodation to meet the technical standards for graduation should contact the University’s Student Disability Services office.

**Curriculum**

The Doctor of Physical Therapy degree requires the following course work (total of 101 s.h.). Students have the option to earn a total of 3 s.h. in electives.

**First Summer Session**

**Admission**

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog. They must have completed a baccalaureate degree from an accredited institution in the United States, or anticipate completing
the degree before enrolling in the D.P.T. program. They must have a cumulative g.p.a. of at least 3.00 and must have completed the following prerequisite course work, preferably with a g.p.a. of at least 3.00. All science courses must include the appropriate laboratory instruction. The prerequisite courses must have been taken for a letter grade. Credit awarded through advanced placement testing may be applied only to the mathematics requirement.

**Biological sciences**: a complete introductory course in principles of general biology or zoology and advanced course work in biology or zoology (for which an introductory course is prerequisite) equivalent to 12 s.h.

**Physics**: a complete introductory course equivalent to 8 s.h.

**Chemistry**: a complete introductory course equivalent to 8 s.h.

**Physiology**: a systemic human physiology course equivalent to 3 s.h.

**Psychology**: courses equivalent to 6 s.h.

**Mathematics**: a college-level mathematics course, at the level of trigonometry or higher, equivalent to 3 s.h.

**Statistics**: a statistical methods course equivalent to 3 s.h.

All applicants must take the Graduate Record Examination (GRE) General Test. They must take the test early enough for their scores to be received by the University in time for the November 1 application deadline.

Applications are submitted online through the Physical Therapist Centralized Application Service (PTCAS). PTCAS allows applicants to use a single application and one set of materials to apply to multiple physical therapy programs. Once the application portfolio is complete, PTCAS forwards it to The University of Iowa.

Personal interviews are required of applicants selected for consideration by the admissions committee. Interviews are conducted at The University of Iowa. The physical therapy admissions committee selects applicants who appear to be best qualified for the study and practice of the profession. Some preference is given to Iowa residents.

Applications are accepted from July 1 to November 1 for entry the following summer. Prospective students should apply as early as possible.

**EARLY ADMISSION**

The Doctor of Physical Therapy early admission plan is available to outstanding applicants. Early admission applicants must have outstanding grade-point averages, generally 3.75 or higher. They also must have Graduate Record Examination (GRE) General Test scores at or above the 50th percentile for both the verbal and the quantitative sections. Application materials are the same as those for regular admission. Application deadline for the early admission plan is September 15; applicants are notified of admission by December 1. Those who are interviewed but are not selected for early admission are automatically placed in the final general applicant pool. Contact the Department of Physical Therapy and Rehabilitation Science for more information.

**Background Checks**

Enrollment in the Doctor of Physical Therapy program is contingent on a successful criminal background check. Drug screening may be required for some clinical rotations.

**Expenses**

Applicants admitted to the D.P.T. program must make an advance tuition payment of $300, which is forfeited if the applicant does not enroll. In addition to paying University tuition and fees, students are assessed laboratory fees for the human anatomy and medical neuroscience courses and are responsible for purchasing supplies, such as lab coats, patient evaluation kits, and course syllabi.

All students are required to comply with the pre-entry and periodic health screening program developed by Student Health & Wellness in cooperation with University of Iowa Hospitals and Clinics. Students must pay for the health screenings. Students also are required to have health insurance.

**Ph.D. in Physical Rehabilitation Science**

The Doctor of Philosophy in physical rehabilitation science requires a minimum of 72 s.h. of graduate credit. The program is designed to advance the student’s ability to independently develop and carry out research that establishes the scientific basis for prevention, evaluation, and treatment of impairments, functional limitations, and disability. The curriculum is flexible enough to accommodate research focusing on basic, applied, or clinical studies in the rehabilitation sciences. Students have access to the program’s research laboratories (see "Research Facilities" later in this section).

Graduates who complete the program are prepared for academic appointments that emphasize research, scholarship, and teaching. They possess:

- theoretical and scientific knowledge to perform basic, applied, or clinical-level original research that leads to scientific presentations, publication in peer-reviewed journals, and competition for extramural funding through scientific grant writing;
- breadth of knowledge in exercise physiology, biomechanic, neuroscience, or motor control specialty areas as they relate to impairment, functional limitation, and disability; and
- theoretical and practical skills required for college or university teaching at the professional entry and advanced graduate levels.

**Curriculum**

Ph.D. students complete a minimum of 72 s.h. beyond the baccalaureate. Each student and his or her faculty advisor develop an individualized study plan. A preliminary study plan is developed within the first 9 s.h. of graduate study; a final plan is submitted to the Graduate College when the Ph.D. comprehensive examination is scheduled.

To ensure breadth of knowledge, all students complete specific core, research, and scientific specialty area content courses. Elective courses are selected to provide in-depth study of the specialty; they are complemented by an advanced seminar course specific to the student’s specialty and taken in preparation for the comprehensive examination.
Students must satisfactorily complete the comprehensive examination, which is taken after all required course work is completed. Doctoral study culminates with 12 s.h. of thesis research and an oral examination.

**GENERAL CORE REQUIREMENT**
Ph.D. students must complete the following core requirements. Exception: the capstone course 101:300 (PTRS:7900) Rehabilitation Research Capstone Project is recommended but not required for students who enter the program with a master’s or doctoral-level degree; however, it is required for all students who enter the program with a bachelor’s degree.

**Admission**
Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog. They should have a cumulative g.p.a. of at least 3.00 and a combined verbal and quantitative score of at least 1100 on the Graduate Record Exam (GRE) General Test. A minimum of two years of clinical experience is desirable.

Applicants whose first language is not English must not be English score at least 600 (paper-based), 250 (computer-based), or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

Application materials must include a complete Graduate College application form, test scores, transcripts, three letters of recommendation, and a statement of purpose. Completed applications should be sent to the Department of Physical Therapy and Rehabilitation Science.

Personal interviews are required of all applicants selected for consideration by the admissions committee. On-campus interviews are preferred, but telephone interviews may be substituted when necessary.

Application deadlines are October 15 for spring semester entry (notification by December 15); March 15 for summer entry (notification by May 15); and May 15 for fall semester entry (notification by July 15).
Financial Support

A number of research assistantships are available for Ph.D. students. Faculty advisors provide guidance for students seeking external scholarship support through foundations and federal programs that support Ph.D. training.

Research Facilities

The department’s state-of-the-art research facilities include the Orthopedic Gait Analysis Laboratory and a spinal cord research laboratory at University Hospitals and Clinics; the Human Movement Control/Performance Laboratory; the Musculoskeletal Biomechanics and Sports Medicine Research Laboratory; the Neurobiology of Pain Laboratory; the Neural Control of Movement Laboratory; and the Neuromuscular Biomechanics Laboratory. Use of other laboratories may be arranged.

Courses

The changing U.S. health care system; access to physical therapy services, reimbursement to health care providers, mechanisms for controlling costs while providing quality care; clinical vignettes, small group problem solving. 2 s.h.

101:120 (PTRS:5100) Professional Issues and Ethics
Evolution of physical therapy and rehabilitation science as a profession; contemporary issues in education and practice; ethical theory and approaches to analyzing and acting on ethical problems; professional and peer relationships. 1 s.h.

101:121 (PTRS:6121) Physical Therapy Management and Administration II
Principles of management in physical therapy practice; historical perspective, current health care environment; business principles; marketing, managing risk, medical/legal concerns, preparing for the future. Requirements: Physical Therapy and Rehabilitation Science Program enrollment. 1 s.h.

101:122 (PTRS:6122) Psychosocial Aspects of Patient Care
Emotional reactions to disability, psychosocial aspects of disability as they relate to patient-physical therapist interaction; specific problems of the angry, non-compliant, or chronic-pain patient; complementary roles of other health professionals; cultural competence in professional behavior and patient treatment; importance of holistic health care. 1 s.h.

101:131 (PTRS:5131) Therapeutic Physical Agents
Theoretical and practical applications for safe, effective use of physical agents (superficial and deep heat, cold, hydrotherapy), electrotherapeutic modalities (biofeedback, NMES, TENS, iontophoresis); massage and soft tissue mobilization; emphasis on problem solving, clinical decision making. 2 s.h.

101:133 (PTRS:6133) Pain Mechanisms and Treatment
Introduction to basic science mechanisms, assessment, and management of pain; basic science mechanism involved in transmission and perception of painful stimuli after tissue injury, assessment and physical therapy management of pain; emphasis on scientific principles and published literature to support treatment techniques. Requirements: Physical Therapy and Rehabilitation Science Program enrollment. 1-2 s.h.

Overview of physical therapy examination and management of the integumentary system; wound pathology, diagnosis associated with the integumentary system, inflammation and repair, examination and reexamination techniques, documentation, clinical decision making, lecture and laboratory formats; interventions, including patient/client information, physical agents, electrotherapy, wound dressing. 2 s.h.

101:140 (PTRS:5101) Introduction to Physical Therapy Practice
Lectures, case presentations, and group activities using the Guide to Physical Therapist Practice; elements of the patient/client management model, concepts of the disablement model, preferred practice patterns as applied in clinical problems; professionalism, professional socialization; introduction to evidence-based practice; competence in medical terminology. 2 s.h.

101:141 (PTRS:5102) Principles of Physical Therapy I
Patient management skills: interviewing, medical history taking, vital signs, positioning, draping, transfers, body mechanics, assisted gait, wheelchairs, and negotiation of architectural barriers. 2 s.h.

101:142 (PTRS:5103) Principles of Physical Therapy II
Continuation of 101:141 (PTRS:5102); expansion of existing skills and provides new learning experiences in documentation, assessment of joint range of motion/goniometry, manual muscle testing, preambulatory intervention strategies, gait analysis, musculoskeletal, neuromuscular, and integumentary systems review. Prerequisites: 101:141 (PTRS:5102). 2 s.h.

101:143 (PTRS:6143) Selected Topics in Physical Therapy Practice
Specialty topics in physical therapy; geriatrics, wheelchair seating/positioning, women’s health, home health, industrial physical therapy; alternative or new treatments; guest lectures, lab component. 2 s.h.

101:151 (PTRS:6204) Progressive Functional Exercise
Therapeutic exercise options (e.g., isometrics, isotonics, isokinetics, plyometrics, endurance exercises, stretching exercises) and training principles; application to functional activities, including those of daily living, work, recreation, and sport; laboratory component. Requirements: Physical Therapy and Rehabilitation Science Program enrollment. 2 s.h.

101:170 (PTRS:6170) Prosthetics and Orthotics
Physical therapy management and assessment of patients in need of prosthetic and orthotic devices; principles and components of prosthetic and orthotic design and use. 2 s.h.
101:172 (PTRS:6172) Radiology/Imaging for Physical Therapists
Basic principles and procedures for acquisition and interpretation of radiology and imaging in clinical practice and research; plain film radiographs, CT, MRI, other common imaging modalities; case-based, multidisciplinary approach. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:173 (PTRS:6173) Differential Diagnosis in Physical Therapy
Use of physical therapy examination and evaluation skills to diagnose physical therapy problems; focus on use of good clinical decision-making skills when analyzing a patient's history and administering physical therapy tests and measures to confirm or rule out differential diagnoses; components of the medical examination; importance of collaboration between therapists and other health professionals; interactive case studies presented by clinical experts. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:176 (PTRS:6176) Pharmacology for Physical Therapists
Contemporary pharmacology; overview of basic pharmokinetic and pharmacodynamic principles; relation of drug therapy to therapeutic interventions provided by physical therapists; small group clinical case presentations.

101:185 (PTRS:5201) Musculoskeletal Therapeutics I
Musculoskeletal techniques and biomechanical principles applied to assessment and evaluation of common orthopedic conditions of the spine; problem solving, case-study approach to clinical methods, skill acquisition.

101:189 (PTRS:5790) Clinical Education I
Integrated clinical experiences in area physical therapy clinics; overview of the diverse nature of practice through half- or full-day experience; basic skills in examination, intervention, documentation.

101:190 (PTRS:5791) Clinical Education II
Continuation of 101:189 (PTRS:5790); integrated half-day clinical experiences. Prerequisites: 101:189 (PTRS:5790). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:191 (PTRS:6792) Clinical Education III
Two-week, full-time clinical experience in physical therapy clinics in Iowa, under the guidance of physical therapists; theory and practice of physical therapy procedures, competence building in basic skills. Prerequisites: 101:190 (PTRS:5791). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:194 (PTRS:6794) Clinical Internship
Full-time clinical education divided among varied settings; development of competence in independent examination, evaluation, and treatment of patients under supervision of clinical faculty. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:199 (PTRS:6199) Pediatric Physical Therapy: Special Topics
Introduction to practice of physical therapy in specialized settings (NICU, school system), specific pediatric patient populations (persons with muscular dystrophy, cardiac and pulmonary disease, spina bifida), and specific treatment and adjunct treatment approaches (sensory integration, hippotherapy, aquatic therapy); emphasis on delivery of services in a family-centered and interdisciplinary manner; lectures and community-based experiences provided by pediatric clinicians. Corequisites: 101:200 (PTRS:6200).

101:200 (PTRS:6200) Pediatric Physical Therapy
Preparation for physical therapy practice in pediatric settings using interdisciplinary family-centered practice; normal and abnormal development, standardized assessment, service-delivery settings, interventions, management strategies specific to pediatrics.

101:201 (PTRS:5215) Applied Clinical Medicine
Pathological disorders frequently encountered by physical therapists in clinical practice, addressed by physicians and health professionals who are not physical therapists; physical therapy management. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:202 (PTRS:6202) Musculoskeletal Therapeutics II
Pathology, assessment, management of orthopedic disorders of the upper quarter; problem-solving approach to evaluation and management of patients with musculoskeletal conditions. Prerequisites: 101:185 (PTRS:5201).

101:203 (PTRS:6203) Musculoskeletal Therapeutics III

101:205 (PTRS:5205) Health Promotion and Wellness
Overview of health promotion, fitness, and wellness strategies, including information on levels of health promotion, risk assessment, applied physiology (skeletal muscle, energy metabolism, and physiological responses to exercise), exercise testing and training guidelines, body composition assessment, and development of individual weight management and exercise training programs; classroom and laboratory experiences.

101:206 (PTRS:5206) Cardiopulmonary Therapeutics
Cardiorespiratory anatomy, physiology, and application of basic concepts, techniques in management of patients with acute and chronic cardiac, pulmonary disorders; laboratories.

101:209 (PTRS:5209) Surface Anatomy
Laboratory teaching activities that parallel the human anatomy course; observation, palpation, and problem solving skills; upper- and lower-limb, head and neck, thorax, and abdomen.

101:210 (PTRS:5210) Kinesiology and Pathomechanics
Normal and pathological movement based on understanding of muscle mechanics, segment and joint mechanics, muscle function; instructor- and student-centered learning experiences; EMG laboratories.

101:212 (PTRS:7812) Biomedical Instrumentation and Measurement 3 s.h.
Introduction to biomedical instrumentation and measurement; understanding sources of error and noise in biomedical research applications; basic circuit analysis, calibration of measurement tools, A/D conversion, digital filtering; lab components. Offered fall semesters of even years.

101:214 (PTRS:7895) Advanced Seminar in Rehabilitation Science 4 s.h.
Current status of research for biological, mechanical, psychological components pertinent to cardiopulmonary, musculoskeletal, neuromuscular areas of rehabilitation science; preparation for comprehensive exam.

101:220 (PTRS:7820) Seminar in Rehabilitation Science 1 s.h.
Exploration of research related to rehabilitation science: lectures by faculty, graduate students, and guest scholars with expertise in areas relevant to rehabilitation science (e.g., neuroscience, physiology, medicine, engineering, pharmacology, integrated physiology).

101:224 (PTRS:6224) Movement Control Systems in Health and Disease 4 s.h.
Examination of neural, muscular, and skeletal plasticity to increased and decreased use in normal and pathological states (chronic inactivity, obesity, metabolic syndromes, orthopedic and neurological injuries); principles of genetic regulation with physical activity including underlying mechanisms contributing to acute and chronic adaptations of muscle, spinal circuitry, and supra-spinal centers; integration of movement control concepts through contemporary papers evaluating short and long latency reflexes, posture and balance control, spasticity, and motor learning in individuals with acute and chronic perturbations to the nervous system.

101:225 (PTRS:6225) Neuromuscular Therapeutics 3 s.h.

101:236 (PTRS:5236) Case-Based Learning II 1 s.h.

101:237 (PTRS:6237) Service Learning I 1 s.h.
Service-learning work experience with community partners; students develop individual learning goals for these experiences; classroom reflection on service activities, experiences with elderly and/or disabled, and social responsibility, advocacy, and professionalism in physical therapy: written reflection assignments. First in a two-course sequence.

101:238 (PTRS:6238) Service Learning II 1 s.h.
Service-learning work experience with community partners; students develop individual learning goals for these experiences; classroom reflection on service activities, experiences with elderly and/or disabled, and social responsibility, advocacy, and professionalism in physical therapy: written reflection assignments. Second in a two-course sequence. Prerequisites: 101:237 (PTRS:6237). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:244 (PTRS:5144) Quality Healthcare and Interprofessional Collaboration 4 s.h.
Development and interaction within small group of interprofessional students from physical therapy, medicine, pharmacy, dentistry, nursing, and public health; deans and faculty from each college facilitate; three-hour initial session for all disciplines followed by informal monthly electronic scenarios, second formal meeting followed by informal monthly electronic discussions.

Active involvement in integrating anatomy, kinesiology, and movement control principles as applied to a select group of pathologies with the goal of being able to teach content area; preassigned student group leaders; emphasis on student as active learner; opportunity to teach academic areas previously studied in first and second years of curriculum; may include teaching several of these musculoskeletal principles in a first-year medical student anatomy course.

101:248 (PTRS:6250) Research in Physical Therapy 2 s.h.
Topics relevant to evidence-based practice and research design; identification of appropriate questions for research and clinical applications, location and evaluation of available evidence, identification of issues that affect validity of research designs, interpretation of basic statistical analyses.

Experience conducting group research projects under faculty supervision; data collection and analysis, manuscript preparation, oral defense of research findings during a formal poster presentation. Prerequisites: 101:248 (PTRS:6250). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:252 (PTRS:6252) Critical Inquiry in Physical Therapy II 1 s.h.
Principles and procedures learned in 101:248 (PTRS:6250) and 101:251 (PTRS:6251) applied to a clinical setting; students write and present a case report with an evidence-based practice focus, using a clinical case from their final internships. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:275 (PTRS:7875) Analysis of Movement Control Systems in Health and Disease 3 s.h.
Examination of neural, muscular, and skeletal plasticity to increased/decreased use in normal and pathological states (chronic inactivity, obesity, metabolic syndromes, orthopedic and neurological injuries); genetic regulation with physical activity and underlying mechanisms contributing to acute and chronic adaptations of muscle, spinal circuitry, and supra-spinal centers; integration of movement control concepts through contemporary papers evaluating short and long latency reflexes, posture and balance control, spasticity, and motor learning in individuals with acute and chronic perturbations to the nervous system; individual research projects.

Individual instruction, observation, experimentation in teaching, guidance, analysis of evaluation processes in Physical Therapy and Rehabilitation Science Program.

Laboratory experiences connected with investigative process; individual instruction, observation, activities in methodological development, data acquisition, data analysis aspects of research.

101:285 (PTRS:7885) Biomechanical Analysis in Rehabilitation 3 s.h.
Assessment of pathological movement through human movement analysis techniques, including link segment modeling and analysis, mechanical energy and power analysis, electromyography and muscle modeling.

101:300 (PTRS:7900) Rehabilitation Research Capstone Project arr.
Specific phases of the research process; development of a research question and associated hypotheses, collection and analysis of data, interpretation and discussion of the information's meaning; presentation to sponsoring mentor's laboratory/program, and written document.

101:325 (PTRS:7925) Independent Study arr.
Problem-solving experience in physical therapy; commensurate with student's interest, ability.

101:326 (PTRS:7826) Scientific Writing in Rehabilitation Science 3 s.h.
Knowledge of and experience related to scientific writing, critical review of scientific literature, publication in the biomedical sciences, thesis/dissertation writing, grant writing, scientific presentation, writing used in academic and scientific careers.

101:327 (PTRS:7927) Research in Rehabilitation Science arr.

Placement of physical therapy on sound scientific base; therapy, initiation, refinement, establishment of methods in physical therapy evaluation, treatment; direct clinical and laboratory approach, philosophical treatise, or research proposal.

101:899 (PTRS:7899) Introduction to Pain: Overview of Theories, Concepts, and Mechanisms 1 s.h.
Overview of pain concepts and mechanisms; general overview of pain, models of pain, peripheral and central mechanisms, and pain inhibition. Requirements: prior neuroscience course.

101:901 (PTRS:7901) Clinical Correlates of Pain: Syndromes and Management 1 s.h.
Common pain conditions and management of pain using an interdisciplinary focus; lectures by University of Iowa Hospitals and Clinics clinicians on a variety of acute and chronic pain conditions and management approaches. Requirements: prior neuroscience course.

101:902 (PTRS:7902) Molecular, Cellular, and Neural Mechanisms of Pain 1 s.h.
Basic science mechanisms of pain and pain modulation; understanding molecular basis for pain in nociceptive afferents (peripheral sensitization), underlying molecular and neuronal mechanisms of central processing of pain (central sensitization), cortical pain processing, animal and human experimental pain models; readings from past and current literature. Prerequisites: 101:901 (PTRS:7901). Requirements: prior neuroscience course.
Physician Assistant Studies and Services

The physician assistant profession is one of the newest and most exciting in health care. Physician assistants (PAs) are licensed to practice medicine with physician supervision. They are responsible for making medical decisions and providing a broad range of diagnostic and therapeutic services.

Physician assistants work in a variety of settings, including medical offices, hospital emergency rooms, nursing homes, rural satellite clinics, health maintenance organizations, and patients’ homes.

In the traditional office setting, PAs see patients, obtain histories, perform physical examinations, and order necessary laboratory and/or radiological studies. Based on this information, the PA establishes a diagnosis, develops an appropriate management plan, and initiates treatment that may include prescribing medications. The physician is consulted as needed and remains ultimately responsible for the care provided by the physician/PA team. PAs also are involved in both patient and community health education.

The Department of Physician Assistant Studies and Services is part of the Carver College of Medicine. It is located on the University of Iowa health sciences campus, which includes University of Iowa Hospitals and Clinics, one of the nation’s largest university-owned teaching hospitals.

Graduate Program of Study
• Master of Physician Assistant Studies

The Master of Physician Assistant Studies (M.P.A.S.) program emphasizes primary care medicine, particularly family medicine. It also offers elective clinical rotations in selected medical subspecialties. Students who complete the program are eligible to take the National Certifying Examination for Primary Care Physician Assistants, which they must complete successfully in order to register as physician assistants in the United States.

The Department of Physician Assistant Studies and Services is accredited by the Accreditation Review Commission on Education for the Physician Assistant and is a member of the Physician Assistant Education Association.

Master of Physician Assistant Studies

The Master of Physician Assistant Studies requires a minimum of 104 s.h. The curriculum spans 25 months and is divided into two phases, didactic and clinical. Both phases emphasize primary health care delivery and the physician assistant’s role as a member of the health care team. The program is integrated with teaching at the Carver College of Medicine, permitting interdisciplinary activities between Doctor of Medicine and health care professions students. Physician assistant students complete approximately 60 percent of the curriculum’s didactic phase with second-year M.D. students; see Doctor of Medicine (p. 1019) in the Catalog.

The first phase is conducted on the University’s health sciences campus. It begins in mid-May with seven months of course work in a number of basic science areas, including anatomy, biochemistry, infectious disease, pathology, pharmacology, and physiology. Whenever appropriate, related subjects are integrated to provide sequential lecture and laboratory experience. The first phase also includes 050:174 (MED:7205) Foundations of Clinical Practice for Physician Assistants as well as courses in clinical decision making and an introductory course on taking a medical history and performing a physical examination.

The program’s patient assessment curriculum couples a sequence of didactic instruction with practical experiences involving simulated and real patients. The level and intensity of patient interactions increase throughout the curriculum as the student gains confidence and clinical competence.

The spring semester of the first phase consists of 050:175 (MED:7215) Foundations of Clinical Practice IV for Physician Assistants, an 18-week course. Three interrelated courses focus on the application of basic science knowledge to understanding clinical-pathologic correlations of common and/or catastrophic disorders encountered in clinical medicine’s major disciplines. The courses continue with instruction in obtaining a problem-oriented medical history and performing a physical examination. The semester also includes continuation of the clinical decision-making course and a short course in clinical pathology.

Before clinical rotations begin, students complete 117:110 (PA:8302) Introduction to Clinical Skills, which includes instruction in several skill areas (e.g., suturing, injections, prescription writing, medical orders, Advanced Cardiac Life Support).
The program’s second phase concentrates on clinical education. In 117:201 (PA:8303) Clinical Decision Making III, students select a pertinent health question and apply an evidence-based medicine review of the data. They give a PowerPoint presentation of their findings to their colleagues, write a paper for submission to a journal, or prepare a poster presentation for a conference. They also complete 117:107 (PA:8301) Seminar for Physician Assistant Students, in which they research and discuss professional issues that will affect their practice as physician assistants.

Students complete a 40-week core of required primary care clinical rotations, including six weeks each of general internal medicine and surgery and four weeks each of family medicine I, family medicine II, pediatrics, emergency medicine, gynecology, and psychiatry. Students also select 12 weeks of electives, which may include rotations such as geriatrics, cardiology, dermatology, and orthopaedics.

The primary care clinical rotations are designed to provide instruction and experience in caring for patients in a way that enables students to integrate the knowledge, skills, behaviors, and attitudes they learned in the program’s didactic phase. Clinical training is provided at University of Iowa Hospitals and Clinics, the Iowa City Veterans Affairs Medical Center, the Veterans Affairs Central Iowa Health Care System and Broadlawns Medical Center in Des Moines, and other affiliated hospitals throughout Iowa. In elective rotations, students gain additional clinical experience through placement with selected preceptors involved in office-based practices, typically in medically underserved rural areas.

The Master of Physician Assistant curriculum is as follows.

**FIRST YEAR (PHASE I)**

**Summer and Fall**

- 050:174 (MED:7205) Foundations of Clinical Practice for Physician Assistants 5 s.h.
- 060:111 (ACB:8201) Gross Human Anatomy for Physician Assistant Students 6 s.h.
- 061:103 (MICR:8202) Principles of Infectious Diseases 5 s.h.
- 069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students 4 s.h.
- 071:125 (PCOL:8225) Pharmacology for Health Sciences: Physician Assistant Students 6 s.h.
- 099:164 (BIOC:8204) Biochemistry for Physician Assistant Students 3 s.h.
- 117:101 (PA:8209) Introduction to Medical History and Physical Examination for Physician Assistant Students 3 s.h.
- 117:103 (PA:8210) Clinical Decision Making I 1 s.h.

**Spring**

- 050:175 (MED:7215) Foundations of Clinical Practice IV for Physician Assistants 13 s.h.
- 050:183 (MED:8213) Healthcare Ethics, Law, and Policy 2 s.h.
- 069:130 (PATH:7207) Clinical Laboratory Medicine for Physician Assistants 1 s.h.
- 117:104 (PA:8211) Clinical Decision Making II 1 s.h.

**SECOND YEAR (PHASE II)**

- 117:107 (PA:8301) Seminar for Physician Assistant Students 1 s.h.
- 117:110 (PA:8302) Introduction to Clinical Skills 1 s.h.
- 117:201 (PA:8303) Clinical Decision Making III 1 s.h.

The following clinical rotations are required.

- 117:300 (PA:8304) Emergency Medicine for Physician Assistant Students 4 s.h.
- 117:301 (PA:8305) Gynecology for Physician Assistant Students 4 s.h.
- 117:302 (PA:8306) Family Practice I for Physician Assistant Students 4 s.h.
- 117:303 (PA:8307) Family Practice II for Physician Assistant Students 4 s.h.
- 117:304 (PA:8308) General Surgery for Physician Assistant Students 6 s.h.
- 117:305 (PA:8309) Internal Medicine for Physician Assistant Students 6 s.h.
- 117:306 (PA:8310) Pediatrics for Physician Assistant Students 4 s.h.
- 117:307 (PA:8311) Psychiatry for Physician Assistant Students 4 s.h.

Elective clinical rotations are selected from the following.

- 117:325 (PA:8324) Otolaryngology Elective for Physician Assistant Students arr.
- 117:328 (PA:8327) Pediatric Elective (Bone Marrow Transplant) for Physician Assistant Students arr.
- 117:331 (PA:8330) Surgery Elective for Physician Assistant Students arr.
- 117:332 (PA:8331) Surgery Elective (Transplant/Organ Retrieval) for Physician Assistant Students arr.
- 117:333 (PA:8332) Surgery Elective (Burn Unit) for Physician Assistant Students arr.
- 117:334 (PA:8333) Surgery Elective (Cardiac Surgery) for Physician Assistant Students arr.
- 117:335 (PA:8334) Orthopedics Elective for Physician Assistant Students arr.
- 117:336 (PA:8335) Internal Medicine Elective for Physician Assistant Students arr.
- 117:337 (PA:8336) Internal Medicine (Cardiology) Elective for Physician Assistant Students arr.
- 117:338 (PA:8337) Internal Medicine (EKG) Elective for Physician Assistant Students arr.
- 117:339 (PA:8338) Internal Medicine (Gastroenterology) Elective for Physician Assistant Students arr.
- 117:340 (PA:8339) Internal Medicine (Oncology) Elective for Physician Assistant Students arr.
- 117:341 (PA:8340) Internal Medicine (Geriatrics) Elective for Physician Assistant Students arr.
- 117:342 (PA:8341) Internal Medicine (Pulmonary) Elective for Physician Assistant Students arr.
- 117:343 (PA:8342) Internal Medicine (Hospice) Elective for Physician Assistant Students arr.
- 117:344 (PA:8343) Internal Medicine (Infectious Disease) Elective for Physician Assistant Students arr.
both cumulative and in science; up to 141 s.h. of college successful applicants have had a g.p.a. of at least 3.70, applicants' performance in science courses. Some

The admissions committee gives special attention to patient health care experience.

 Applicants must have at least 1,000 clock hours of direct biochemistry courses do not satisfy this requirement). an introductory biochemistry course (combined organic/neurobiology, histology, and/or related disciplines; and

histology, immunology, microbiology, molecular biology, neurobiology, histology, and/or related disciplines; and

an introductory biochemistry course (combined organic/biochemistry courses do not satisfy this requirement).

Applicants must have completed an upper-level course in human zoology, and general statistics or biostatistics. They also completed preparatory science courses in organic and inorganic chemistry, introductory animal biology or zoology, and general statistics or biostatistics. They also must have completed an upper-level course in human or animal physiology (lower-level combined anatomy/physiology courses do not satisfy this requirement); a minimum of three upper-level natural science courses such as cell biology, cell physiology, endocrinology, genetics, histology, immunology, microbiology, molecular biology, neurobiology, histology, and/or related disciplines; and

an introductory biochemistry course (combined organic/biochemistry courses do not satisfy this requirement).

Applicants must have at least 1,000 clock hours of direct patient health care experience.

The admissions committee gives special attention to applicants' performance in science courses. Some successful applicants have had a g.p.a. of at least 3.70, both cumulative and in science; up to 141 s.h. of college

credit, including at least 81 s.h. in the sciences; and more than 3,000 hours of clinical and/or research experience.

Satisfaction of the basic admission requirements does not ensure acceptance to the program. The admissions committee selects the applicants it considers best qualified. Previous health care experience involving direct patient contact is preferred. The committee requests interviews with the most qualified applicants.

Applications are accepted from April 15 to November 1 for entry the following May. Each applicant must complete the Physician Assistant Education Association centralized application, which includes three letters of recommendation, GRE or MCAT scores, and transcripts. The majority of prerequisite course requirements must be completed by the November 1 application deadline.

**Expenses**

In addition to University of Iowa tuition and fees, students in the Department of Physician Assistant Studies and Services must purchase their medical uniforms and diagnostic equipment, an expense of approximately $1,700. Microscopes are not required.

**Courses**

117:001 (PA:8300) Physician Assistant Clinical Second Year

117:101 (PA:8210) Introduction to Medical History and Physical Examination for Physician Assistant Students

Development of skills vital to taking a comprehensive medical history, psychomotor skills, and physical examination techniques necessary for conducting a comprehensive physical exam.

117:103 (PA:8210) Clinical Decision Making I

Review of basic concepts of research design and statistics as they apply to medical research literature; formation of a basis for sound, evidence-based, clinical decision making.

117:104 (PA:8211) Clinical Decision Making II

Core concepts of evidence-based medicine; development of the knowledge and practical skills to search the medical literature for answers to clinical questions and critically appraise the evidence found.

117:107 (PA:8301) Seminar for Physician Assistant Students

Professional issues that affect the physician assistant's practice of medicine.

117:110 (PA:8302) Introduction to Clinical Skills

Suturing, injections, prescription and order writing, medical records, patient confidentiality, Iowa Law governing physician assistant practice, completion of the American Heart Association's Advanced Cardiac Life Support Program. Requirements: completion of physician assistant curriculum phase I.
117:201 (PA:8303) Clinical Decision Making III  1 s.h.
Physician Assistant Students
Asking appropriate clinical questions in the course of patient care; gathering information from multiple sources to answer questions.

117:300 (PA:8304) Emergency Medicine for Physician Assistant Students
1 s.h.
Obtaining and recording pertinent historical data, obtaining indicated laboratory studies, assessing the results, arriving at a diagnosis, formulating a treatment plan, implementing appropriate therapy.

117:301 (PA:8305) Gynecology for Physician Assistant Students
4 s.h.
Opportunity to develop proficiency in history and physical exams of gynecological patients; outpatient, family planning, gynecological cancer, concepts of diagnostic techniques and therapy.

117:302 (PA:8306) Family Practice I for Physician Assistant Students
4 s.h.
Obtaining and recording complete history and physical exams; formulation of differential diagnosis and problem list; ordering, obtaining, and interpreting lab and diagnostic studies; implementation of therapeutic procedures and treatment plans.

117:303 (PA:8307) Family Practice II for Physician Assistant Students
4 s.h.
Opportunity to participate in delivery of ambulatory primary care; at a different site from 117:302 (PA:8306).

117:304 (PA:8308) General Surgery for Physician Assistant Students
6 s.h.
Preparation for work as an assistant to the generalist; outpatient and inpatient surgical services, including surgical procedures and management of postoperative course.

117:305 (PA:8309) Internal Medicine for Physician Assistant Students
6 s.h.
Eliciting a medical history, doing a pertinent physical exam, obtaining indicated lab studies, assessment of results, formulation of management plan and implementation of appropriate therapy for common internal medicine problems.

117:306 (PA:8310) Pediatrics for Physician Assistant Students
arr.
Knowledge and skills required for providing appropriate medical care to infants, children, and adolescents; initiation and promotion of interpersonal relationships.

117:307 (PA:8311) Psychiatry for Physician Assistant Students
4 s.h.
Training in history and physical exams of psychiatry patients, including individual and family therapy, vocational testing and guidance, development of interviewing skills.

117:308 (PA:8312) Long-Term Care for Physician Assistant Students
arr.
Development of clinical knowledge and skill in diagnosing, treating, and performing procedures for patients of long-term care settings; knowledge of relevant conditions.

117:320 (PA:8320) Dermatology Elective for Physician Assistant Students
arr.
Recognizing dermatologic diseases and disorders, instituting appropriate management of patients with dermatologic problems.

117:322 (PA:8321) Neurology Elective for Physician Assistant Students
arr.
Performing general and neurological exams, establishing diagnosis, recommending lab studies, instituting appropriate management of common neurological diseases and disorders, recognizing the need for urgent treatment.

117:323 (PA:8322) Obstetrics for Physician Assistant Students
arr.
Proficiency in physical exam of OB patients; applying concepts of diagnostic techniques and therapy; following patients' course, including labor, delivery, and postpartum care.

117:324 (PA:8323) Ophthalmology Elective for Physician Assistant Students
arr.
Proficiency in recognizing ophthalmology problems; how to institute appropriate management of these conditions.

117:325 (PA:8324) Otolaryngology Elective for Physician Assistant Students
arr.
Proficiency in recognizing otolaryngology problems; how to institute appropriate management of these conditions; opportunity for involvement in varied surgical procedures.

117:326 (PA:8325) Pediatric Elective for Physician Assistant Students
arr.
Experience working with children and adolescents.

117:327 (PA:8326) Radiology Elective for Physician Assistant Students
arr.
Proficiency in systematic evaluation of normal and abnormal routine radiologic examinations; listing indications for special exam procedures, including details of prepping the patient.

117:328 (PA:8327) Pediatric Elective (Bone Marrow Transplant) for Physician Assistant Students
arr.
Basic clinical knowledge and skills for diagnosis, treatment, and management of pre- and post-bone-marrow transplant patients.

117:329 (PA:8328) Pediatric (Cardiology) Elective for Physician Assistant Students
arr.
Cardiovascular assessment and problem management of pediatric patients; experience with a range of acute, chronic, common, and rare cardiology diseases.

117:330 (PA:8329) Psychiatry Elective for Physician Assistant Students
arr.
Training in evaluation and treatment of psychiatry patients.

117:331 (PA:8330) Surgery Elective for Physician Assistant Students
arr.
Experience in a wide range of surgical problems, procedures, and treatments, including diagnosis, care and treatment, and postoperative courses of surgical patients.

117:332 (PA:8331) Surgery Elective (Transplant/Organ Retrieval) for Physician Assistant Students
arr.
Extensive experience in care of patients with end-stage organ failure; evaluation of potential transplant candidates, participation in surgical procedures on transplant service.

117:333 (PA:8332) Surgery Elective (Burn Unit) for Physician Assistant Students
Involvement in care on burn unit and in operating room; skills in burn debridement, grafting techniques, skin storage techniques, dressing changes, tub baths, and physical therapy procedures.

117:334 (PA:8333) Surgery Elective (Cardiac Surgery) for Physician Assistant Students
Development of technical skills in operating room; essentials of preoperative evaluation and postoperative management of cardiac surgical patient.

117:335 (PA:8334) Orthopedics Elective for Physician Assistant Students
Recognition of varied orthopedic problems and treatments; musculoskeletal diseases and disorders, both emergencies and common conditions, and how to establish appropriate management.

117:336 (PA:8335) Internal Medicine Elective for Physician Assistant Students
Training in varied internal medicine problems; recognition, appropriate treatment.

117:337 (PA:8336) Internal Medicine (Cardiology) Elective for Physician Assistant Students
Cardiovascular assessment and problem management; experience with wide range of acute, chronic, common, and rare diseases.

117:338 (PA:8337) Internal Medicine (EKG) Elective for Physician Assistant Students
Experience reading electrocardiograms, interpreting cardiac arrhythmias, performing and evaluating EKG stress tests.

117:339 (PA:8338) Internal Medicine (Gastroenterology) Elective for Physician Assistant Students
Experience with a wide range of gastrointestinal pathology; history and physical exams of gastrointestinal diagnostic procedures, follow-up care of patients through outpatient clinics.

117:340 (PA:8339) Internal Medicine (Oncology) Elective for Physician Assistant Students
Experience to develop diagnostic skills in clinical oncology and gain familiarity with methods of staging common cancers; assistance in therapy and outpatient management of cancer patients.

117:341 (PA:8340) Internal Medicine (Geriatrics) Elective for Physician Assistant Students
Familiarity with broad spectrum of medical conditions among the elderly; experience in history and physical exams, diagnosis of geriatric patients along with follow-up visits.

117:342 (PA:8341) Internal Medicine (Pulmonary) Elective for Physician Assistant Students
Development of basic clinical knowledge and skills for diagnosis, treatment, and management of pulmonary diseases.

117:343 (PA:8342) Internal Medicine (Hospice) Elective for Physician Assistant Students
Work on a hospice care team performing evaluation, treatment, and education of patients with terminal illnesses; dealing with the prospect of death.

117:344 (PA:8343) Internal Medicine (Infectious Disease) Elective for Physician Assistant Students
Development of basic clinical knowledge and skills for diagnoses, treatment, and management of infectious diseases.

117:347 (PA:8345) Urology Elective for Physician Assistant Students
Proficiency in managing patients with urologic conditions; skill in taking a urologic history, performing physical exams, interpreting laboratory studies and data.

117:348 (PA:8346) Family Practice Elective for Physician Assistant Students
Proficiency in delivering ambulatory primary care.

117:349 (PA:8347) Gynecology Elective (Women's Health) for Physician Assistant Students
Experience in annual gynecologic exams, PAP screening, gynecology problems, contraception issues, STD screening and counseling, common gynecologic procedures.

117:350 (PA:8348) Migrant Health Elective for Physician Assistant Students
Basic clinical knowledge and skills for diagnosis, treatment, and prevention of diseases, injuries, and conditions related to environmental exposure in migrant worker populations.

117:351 (PA:8349) Occupational Medicine Elective for Physician Assistant Students
Basic clinical knowledge and skills for diagnosis, treatment, and prevention of work-related diseases, injuries, and conditions related to environmental exposure.

117:352 (PA:8350) Pediatrics (Neonatology) Elective for Physician Assistant Students
Basic clinical knowledge and skill for diagnosis, treatment, and management of critically ill infants.

117:353 (PA:8351) Internal Medicine (Rheumatology) for Physician Assistant Students
Basic clinical knowledge and skills for diagnosis, treatment, and management of rheumatologic diseases.

117:354 (PA:8352) Medical Intensive Care for Physician Assistant Students
Basic clinical knowledge and skills for diagnosis, treatment, and management of critically ill patients.

117:355 (PA:8353) International Medicine for Physician Assistant Students
Basic clinical knowledge and skills for diagnosis, treatment, and prevention of diseases, injuries, and conditions relevant to international medicine.

117:356 (PA:8354) Interventional Radiology for Physician Assistant Students
Basic clinical knowledge and skills for diagnosis and treatment of conditions requiring interventional therapy.

117:357 (PA:8355) Gynecologic Oncology Elective for Physician Assistant Students
Experience developing diagnostic skills in clinical gynecologic oncology, learning methods of staging specific cancers; and assisting in therapy and outpatient management of patients with varied cancers.

117:358 (PA:8356) Wilderness Medicine for Physician Assistant Students
Four-week emergency medicine elective taken in conjunction with Carver College of Medicine; mix of didactic and experiential learning; ten-day trip to Colorado to learn about hypothermia, altitude medicine, search and rescue, field evaluation, treatment and evacuation of common back country injuries; lectures and simulations.

Professors emeriti
- Bruce Alexander, Arnold Andersen, Arthur Canter, Raymond Crowe, Michael Garvey, Russell Noyes, Paul Perry, Robert Smith

Web site: http://www.medicine.uiowa.edu/psychiatry/

The Department of Psychiatry teaches M.D. students, principally during their third year, and trains resident physicians for academic and clinical careers in psychiatry.

Residency Programs

The department offers a four-year training program approved by the Residency Review Committee of the American Medical Association. Training experiences are available at University of Iowa Hospitals and Clinics and at the Iowa City Veterans Affairs Medical Center. Additional experiences are available at affiliated institutions: Broadlawns Medical Center in Des Moines, the Iowa Medical and Classification Center at Oakdale, the Community Mental Health Center for Mid-Eastern Iowa in Iowa City, and the Independence Mental Health Institute (Iowa Department of Human Services).

The department also offers an approved two-year residency in child psychiatry. Fellowships in geriatrics and psychosomatic medicine are available after residency training.

Research

Department of Psychiatry staff members are involved in genetic and family studies of psychiatric disorders and research in genetic and biological psychiatry, neurochemistry, neuroimaging, neurophysiology, neuropsychiatry, and psychosocial aspects of behavior.

The department’s students and residents have many research opportunities in psychiatry and in the basic science areas of neurochemistry, neurophysiology, and electrophysiology. The clinical areas of psychology, child psychiatry, and psychotherapy also offer opportunities for research and further study to a limited number of students.

Experience evaluating and treating women with mental illness, with some emphasis on practitioner’s autonomy; four-week rotation. Requirements: psychiatry clerkship.

073:049 (PSYC:8409) Eating Disorders 4 s.h.
Inpatient rotation; emphasis on co-occurring psychiatric and comorbid medical conditions associated with eating disorders; patient assessment and management at an advanced level; direct patient care and engagement in clinical decision making for complex patients with substantial comorbidity; call is required; student experience maximizes autonomy and responsibility; didactic curriculum; focus on critical appraisal of relevant medical literature. Prerequisites: 073:005 (PSYC:8301). Requirements: fourth-year M.D. enrollment.

073:050 (PSYC:8410) Intellectual Disability 2,4 s.h.
In-depth two week clinical experience in the interdisciplinary approach to assessment and management of individuals with intellectual disability. Requirements: M.D. enrollment.

073:051 (PSYC:8411) Substance Abuse 2,4 s.h.
In-depth clinical experience in assessment and management of individuals with alcohol and drug abuse. Requirements: M.D. enrollment.

073:052 (PSYC:8412) Emergency Psychiatry 2,4 s.h.
In-depth clinical experience in assessment and management of acute psychiatric illness under supervision of faculty with expertise in care within this setting; clinical experiences centered in emergency department at University of Iowa Hospitals and Clinics. Prerequisites: 073:005 (PSYC:8301). Requirements: third- or fourth-year M.D. enrollment.

073:053 (PSYC:8407) Advanced Clinical Psychiatry, Des Moines 4 s.h.
Work in adult psychiatry setting and/or child-adolescent psychiatry setting for a four-week rotation; optional participation in psychiatric emergency/crisis care team, substance abuse clinics, and/or ECT treatment sessions.

073:055 (PSYC:8408) Subinternship in Mood/Psychotic Disorders 4 s.h.
Hands-on experience in evaluation and treatment of patients with combined medical and psychiatric disease; decisions regarding appropriate consultations, diagnostic tests, treatment; etiology and pathophysiology. Requirements: M.D. enrollment.

Experience, training in practical application of scientific methodology; work with research project at Psychiatric Service or affiliated cooperating research centers. Requirements: fourth-year M.D. enrollment.

073:998 (PSYC:8498) Psychiatry on Campus arr.
Arranged by student with departmental approval. Requirements: M.D. enrollment.

073:999 (PSYC:8499) Psychiatry off Campus arr.
Requirements: M.D. enrollment.

Web site: http://www.medicine.uiowa.edu/radiationoncology/

Radiation oncology specializes in the delivery of radiation treatments for cancer patients. It includes treatments with linear accelerators as well as isotopes and temporary and permanent surgically implanted sources. Radiation oncologists also use these methods to treat some benign diseases, such as Graves’ ophthalmopathy and trigeminal neuralgia.

The department’s professional staff provides training in radiation therapy technology for undergraduate students in the Radiation Sciences (p. 1090) Program by teaching courses 672:803 (RSTH:4100) Radiation Therapy I and 672:804 (RSTH:4200) Radiation Therapy II.

The department provides a four-year physician residency training program in radiation oncology that includes clinical care and education. It also has a residency program in medical physics. M.D. students can elect a two- or four-week radiation oncology rotation and/or a two-week multidisciplinary cancer care elective. Nursing students, dental residents, and fellows in gynecologic oncology and in adult and pediatric hematology and oncology do rotations in the department.

The department also offers specialized research projects and sponsors postdoctoral students in biology, physics, and clinical disciplines by arrangement with the instructor or mentor.

Courses

186:202 (RADO:8401) Radiation Oncology 2,4 s.h.
Integration of clinical oncology, physics, and cancer biology; clinical work with faculty mentors; experience in clinical evaluation, technical physics, biological application.

186:998 (RADO:8498) Radiation Oncology on Campus arr.
Development of new markers for normal tissue toxicity following radiation treatment.

186:999 (RADO:8499) Radiation Oncology off Campus arr.
Arranged by the student with department approval.

Undergraduate major: radiation sciences (B.S.)
Web site: http://www.medicine.uiowa.edu/radsci/

Radiation sciences professionals work with physicians to gather accurate patient information for diagnosis, treatment, and/or research of disease and injury. They provide direct patient care, produce quality images, and deliver treatment using a variety of radiation sources. The radiation sciences professional must apply knowledge, skill, and mature judgment while operating complex equipment safely and efficiently.

The University of Iowa’s radiation sciences educational programs are designed to provide students with opportunities for intellectual, professional, and social growth. Students learn with faculty members and instructors who are committed to radiation sciences education.

Radiation sciences is one of two undergraduate majors in the field of medical imaging offered by the Carver College of Medicine. It encompasses radiologic technology, computed tomography, magnetic resonance imaging, cardiovascular interventional, diagnostic medical sonography, and radiation therapy programs. The other undergraduate major in medical imaging is nuclear medicine technology; see Nuclear Medicine Technology (p. 1052) in the Catalog.

The Carver College of Medicine is located on the University of Iowa health sciences campus, which includes University of Iowa Hospitals and Clinics, one of the nation’s largest university-owned teaching hospitals. For information about the college’s academic programs and resources, see Carver College of Medicine (p. 993) in the Catalog.

Undergraduate Program of Study

- Major in radiation sciences (Bachelor of Science)
Undergraduate study in radiation sciences is guided by the academic rules and procedures outlined under "Undergraduate Programs" in the Carver College of Medicine (p. 993) section of the Catalog.

Requirements for the major in radiation sciences have changed. Students who enter the University in or after fall 2012 and those who have not completed a radiation sciences professional program must fulfill the requirements stated below. Students who have completed or who will complete a radiologic technology program before fall 2014 fulfill the requirements stated in the Radiation Sciences section of the 2011-12 General Catalog.

University of Iowa Hospitals and Clinics no longer offers the two-year certificate program in radiologic technology.

Bachelor of Science

The Bachelor of Science with a major in radiation sciences requires a minimum of 120 s.h. Work for the degree includes a set of courses that are prerequisite to entering the radiation sciences major, completion of one of several radiation sciences professional programs, and elective course work sufficient to complete the minimum of 120 s.h. required for graduation. Students must complete the radiation sciences professional program at The University of Iowa.

Admission to the radiation sciences major is competitive. Students who wish to enter the major must first be admitted to The University of Iowa as College of Liberal Arts and Science (CLAS) students with a radiation sciences interest. As CLAS students, they must apply to the radiation sciences professional program of their choice by January 15 of the year in which they wish to enter it (see “Radiation Sciences Professional Programs” below). Students who are accepted enter the professional program, the radiation sciences major, and the Carver College of Medicine the following fall semester.

Applicants for admission to The University of Iowa whose first language is not English must submit a score of at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Those who do not meet this requirement must take the on-campus English Proficiency Evaluation and must complete English as a Second Language (ESL) courses required as a result of the evaluation. They must be able to satisfy the University’s English language proficiency requirement before they may be admitted to a radiation sciences professional program.

For additional information on UI admission requirements, contact the University’s Office of Admissions.

First-year and transfer applicants who are admitted to CLAS as radiation sciences interest students must complete all courses that are prerequisite to the radiation sciences major (including approved transfer equivalents) before they may begin one of the radiation sciences professional programs and enter the major. Prerequisite courses vary slightly depending on which professional program the student wishes to enter.

Students who have declared a radiation sciences interest but have not yet applied and been accepted to a professional program are advised at the University’s Academic Advising Center. After they have been accepted to a professional program, they are advised by the Radiation Sciences Program.

When students complete the professional multimodality program, they are eligible to take national certification exams for their program’s specialty areas. Once they have completed the professional program and all other requirements for graduation, they are granted a Bachelor of Science degree.

The Bachelor of Science with a major in radiation sciences requires the following work.
PREREQUISITES TO THE RADIATION SCIENCES MAJOR

All students must complete the following prerequisite courses before they may enter a radiation sciences professional program and the major. Students who wish to enter the radiation therapy professional program must complete a total of 60 s.h. of college course work, including the following prerequisites, before they may enter the program and the major.

Rhetoric:
010:003 (RHET:1030) Rhetoric 4 s.h.

Anatomy—one of these:
027:053 (HHP:1100) Human Anatomy 3 s.h.
060:099 (ACB:1199) Human Anatomy and Basic Physiology for Radiation Science 4 s.h.
060:110 (ACB:3110) Principles of Human Anatomy 3 s.h.
060:113 (ACB:3113) Human Anatomy Online 4 s.h.

Natural sciences—one of these [students who wish to enter a diagnostic medical sonography program or the radiation therapy program must choose 029:008 (PHYS:1400) or 029:011 (PHYS:1511)]:
002:021 (BIOL:1140) Human Biology 4 s.h.
004:007 (CHEM:1070) General Chemistry I 3 s.h.
004:011 (CHEM:1110) Principles of Chemistry I 4 s.h.
027:050 (HHP:1300) Fundamentals of Human Physiology 3 s.h.
027:130 (HHP:1350) Human Physiology 3 s.h.
029:008 (PHYS:1400) Basic Physics 3-4 s.h.
029:011 (PHYS:1511) College Physics I 4 s.h.

Quantitative or formal reasoning—one of these:
22M:009 (MATH:1020) Elementary Functions 4 s.h.
22M:015 (MATH:1440) Mathematics for the Biological Sciences 5 s.h.

Social science:
031:001 (PSY:1001) Elementary Psychology 3 s.h.

Medical terminology:
20E:103 (CLSA:3750) Medical and Technical Terminology 2 s.h.

Culture, society, and the arts—3 s.h. in each of two of these (total of 6 s.h.):
Historical Perspectives approved course work 3 s.h.
International and Global Issues approved course work 3 s.h.
Literary, Visual, and Performing Arts approved course work 3 s.h.
Values, Society, and Diversity approved course work 3 s.h.

See General Education Program (p. 306) (College of Liberal Arts and Sciences) in the Catalog for approved courses in the culture, society, and arts areas.

RECOMMENDED PRE-MAJOR WORK

The Radiation Sciences Program recommends that before students enter a radiation sciences professional program and the major, they job-shadow a professional who works in their area of interest, gain hands-on experience with patient care, and complete the following additional preparatory courses.

680:010 (RSP:1100) Introduction to the Radiation Sciences 1 s.h.

One of these:

22C:001 (CS:1020) Principles of Computing 3 s.h.
22C:005 (CS:1110) Introduction to Computer Science 3 s.h.

One of these:
22S:025 (STAT:1020) Elementary Statistics and Inference 3 s.h.
22S:101 (STAT:3510) Biostatistics 3 s.h.
22S:102 (STAT:5543) Introduction to Statistical Methods 3 s.h.

For students interested in entering the radiation therapy professional program, one of these sequences:
004:007 (CHEM:1070)-004:008 (CHEM:1080) General Chemistry I-II 6 s.h.

ELECTIVES

In order to earn the minimum of 120 s.h. required for graduation, students may need to complete elective course work in addition to the prerequisite course work listed above and one of the professional programs in medical imaging described below. They should plan their elective courses in consultation with their advisor.

RADIATION SCIENCES PROFESSIONAL PROGRAMS

Students must complete one of the following radiation sciences professional programs at University of Iowa Hospitals and Clinics. Each program offers modality-specific didactic and supervised clinical education courses. Graduates of the professional programs and associated internships are eligible to take one or more certification exams.

The radiologic technology programs and diagnostic medical sonography programs last three years, and the radiation therapy program lasts two years. Each program begins in fall.

Students must apply to the program of their choice by January 15 of the year in which they intend to enter the program.

Admission to all radiation sciences professional programs is competitive; each program accepts a limited number of students. To apply, students must have a cumulative g.p.a. of at least 2.50 in college course work.

Radiologic Technology and Computed Tomography

The radiologic technology component of this program provides education in pathology, radiation biology, radiation protection, patient care, and ethics. Students learn about radiographic procedures, imaging, and evaluation. They become acquainted with imaging equipment, study quality assurance, and participate in supervised clinical education in radiography and computed tomography (CT). The computed tomography component concentrates on sectional anatomy, single and multislice CT, electron beam CT, physiologic and 3-D imaging, CT simulation, physics and imaging, and procedures and pathology.

Upon completing the program, graduates are eligible to take the national certification exams in radiography and computed tomography.

Students typically apply to this three-year program during their first year and begin it in fall of their sophomore year. Application deadline is January 15.
Radiologic Technology and Magnetic Resonance Imaging

The radiologic technology component of this program provides education in pathology, radiation biology, radiation protection, patient care, and ethics. Students learn about radiographic procedures, imaging, and evaluation. They become acquainted with imaging equipment, study quality assurance, and participate in supervised clinical education in radiography and magnetic resonance imaging (MRI). The magnetic resonance imaging component offers intensive study and practice in MRI, including patient care procedures, pathophysiology, physics, sectional anatomy, and instrumentation.

Upon completing the program, graduates are eligible to take the national certification exams in radiography and magnetic resonance imaging.

Students typically apply to this three-year program during their first year and begin it in fall of their sophomore year. Application deadline is January 15.

Radiologic Technology and Cardiovascular Interventional

The radiologic technology component of this program provides education in pathology, radiation biology, radiation protection, patient care, and ethics. Students learn about radiographic procedures, imaging, and evaluation. They become acquainted with imaging equipment, study quality assurance, and participate in supervised clinical education in radiography, cardiac interventional, and peripheral/neurological interventional. The cardiovascular interventional component concentrates on imaging equipment; pharmacology; sterile techniques; cardiac monitoring; vascular anatomy and physiology; cardiovascular, peripheral, and neurological procedures and pathology; therapeutic intervention techniques; and digital angiography.

Upon completing the program, graduates are eligible to take the national certification exams in radiography, vascular interventional technology, and cardiac interventional technology.

Students typically apply to this three-year program during their first year and begin it in fall of their sophomore year. Application deadline is January 15.

Diagnostic Medical Sonography in General and Vascular Sonography

The diagnostic medical sonography program in general and vascular sonography provides a multispecialty education in obstetric, abdominal, and vascular sonography (ultrasound imaging). Students learn about sonographic imaging and evaluation, hemodynamics and Doppler evaluation, sonography equipment, sectional anatomy, pathology, patient care, medical ethics, and quality assurance methods. They become proficient in using sonographic imaging equipment and in performing cardiac and vascular sonographic procedures, including invasive procedures, emergency exams, and 3-D imaging. They also participate in supervised clinical education. Elective courses are available in neurosonography and breast sonography.

Upon completing the program, graduates are eligible to take the national certification exams in diagnostic medical sonography and in the specialty areas of cardiac (echocardiography) and vascular technology.

Students typically apply to this three-year program during their first year and begin it in fall of their sophomore year. Application deadline is January 15.

Radiation Therapy and Computed Tomography

The radiation therapy professional program teaches theory and techniques of radiation therapy technology, with emphasis on competence in areas of oncology treatment planning, treatment delivery, dosimetry, and use of megavoltage radiation-producing equipment to administer treatment. Students participate in clinical education in radiation therapy. The computed tomography (CT) portion of this program concentrates on sectional anatomy, single and multislice CT, electron beam CT, physiologic and 3-D imaging, CT simulation, physics and imaging, and procedures and pathology.

Upon completing the program, graduates are eligible to take the national certification exam in radiation therapy. Students will have completed the course work but not the clinical component to take the national certification exam in computed tomography.

Students typically apply to this two-year program during their sophomore year and begin it in fall of their junior year. Application deadline is January 15.

Courses

670:110 (RSRT:2110) Radiographic Procedures and Analysis I

Introduction to radiographic positioning principles; technical, positioning, and analysis information needed to perform and evaluate images of chest and abdomen on adult and pediatric patients; emphasis on quality patient care and adaptation to a variety of client conditions; labs. Prerequisites: 027:053 (HHP:1100), 060:099 (ACB:1199), 060:113 (ACB:3113) or 060:110 (ACB:3110), and 20E:103 (CLSA:3750). Requirements: acceptance to RSRT/CT, CVI, or MRI degree track.

670:112 (RSRT:2215) Radiographic Procedures and Analysis II

4 s.h.
Technical, positioning, and analysis information needed to perform and evaluate images of upper and lower extremity, shoulder, and gastrointestinal and biliary radiographic procedures; emphasis on quality patient care and adaptation to a variety of client conditions; labs. Prerequisites: 670:110 (RSRT:2110).

670:115 (RSRT:3115) Radiographic Procedures and Analysis III
Technical, positioning, and analysis information needed to perform and evaluate images of hip, pelvis, spine, thorax, skull, and GU system radiographic procedures; emphasis on quality patient care and adaptation to a variety of client conditions; labs. Prerequisites: 670:112 (RSRT:2215).

670:118 (RSRT:3215) Radiographic Procedures IV
Technical, positioning, and analysis information needed to perform and evaluate images performed in advanced radiographic procedures; emphasis on quality patient care and adaptation to a variety of client conditions. Prerequisites: 670:115 (RSRT:3115).

670:120 (RSRT:2120) Radiologic Technology Clinical Internship I
Student rotations through different radiography-related areas of University of Iowa Hospitals and Clinics; assist, practice, and test radiographic examinations learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Requirements: acceptance to RSRT/CT, CVI, or MRI degree track.

670:130 (RSRT:2225) Radiologic Technology Clinical Internship II
Student rotation through different radiography-related areas of University of Iowa Hospitals and Clinics; assist, practice, and test radiographic examinations learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 670:120 (RSRT:2120).

670:135 (RSRT:2325) Radiologic Technology Clinical Internship III
Student rotation through different radiography-related areas of University of Iowa Hospitals and Clinics; assist, practice, and test radiographic examinations learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 670:130 (RSRT:2225).

670:140 (RSRT:3140) Radiographic and Digital Imaging
Factors that govern and influence production of radiographic image; X-ray and scatter production; patient interactions; function of kVp, mAs, and distance as applied to contrast and spatial resolution; practical issues concerning automatic exposure control and grid usage; labs to practice and apply theoretical principles associated with production of quality images. Prerequisites: 22M:009 (MATH:1020) or 22M:015 (MATH:1440). Requirements: acceptance to RSRT/CT, CVI or MRI degree track.

670:145 (RSRT:3125) Radiologic Technology Clinical Internship IV
Student rotation through different radiography-related areas of University of Iowa Hospitals and Clinics; assist, practice, and test radiographic examinations learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 670:135 (RSRT:2325).

670:155 (RSRT:3225) Radiologic Technology Clinical Internship V
Student rotation through different radiography-related areas of University of Iowa Hospitals and Clinics; assist, practice, and test radiographic examinations learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 670:145 (RSRT:3125).

670:165 (RSRT:3325) Radiologic Technology Clinical Internship VI
Student rotation through different radiography-related areas of University of Iowa Hospitals and Clinics; assist, practice, and test radiographic examinations learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 670:155 (RSRT:3225).

670:175 (RSRT:4125) Radiologic Technology Clinical Internship VII
Student rotation through different radiography-related areas of University of Iowa Hospitals and Clinics; assist, practice, and test radiographic examinations learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 670:165 (RSRT:3325).

670:185 (RSRT:4225) Radiologic Technology Clinical Internship VIII
Student rotation through different radiography-related areas of University of Iowa Hospitals and Clinics; assist, practice, and test radiographic examinations learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 670:175 (RSRT:4125).

670:210 (RSRT:3210) Radiographic and Digital Quality Control Lab
Exploration and performing radiographic and digital quality control tests.

670:230 (RSRT:3230) Radiographic Physics and Imaging Equipment
4 s.h.
Characteristics of atomic structure, electricity, and X-ray machines; properties of X-rays and their interaction with matter; measurement of radiation exposure; construction principles and theories of operation of specialized imaging equipment, including fundamentals of acquisition for imaging intensification, geometric tomography, mobile/ portable radiography, and magnification principles. Prerequisites: 22M:009 (MATH:1020) or 22M:015 (MATH:1440).

670:901 (RSRT:2100) Radiologic Technology I 0 s.h.
Patient care and ethics, radiographic positioning, radiographic critique, medical terminology, radiologic physics, anatomy and physiology, radiographic technique, computer technology, radiation biology, radiographic processing, imaging equipment, quality assurance; supervised clinical education; two-year program; national board examination required at completion.

670:902 (RSRT:3100) Radiologic Technology II 0 s.h.
Prerequisites: 670:901 (RSRT:2100).

672:100 (RSRT:3100) Introduction to Radiation Therapy 2 s.h.
Introduction to cancer as a disease; defining methods to treat cancer with emphasis on radiation therapy; simulation, planning, and treatment delivery of radiation therapy. Prerequisites: 060:099 (ACB:1199) and 20E:103 (CLSA:3750). Requirements: acceptance to radiation sciences therapy program.

672:101 (RSRT:3205) Principles of Radiation Therapy I 2 s.h.
Didactic and laboratory work in principles of radiation therapy; historic and current aspects of cancer treatment; role of radiation therapist; patient care, treatment delivery accessories, tumor localization treatment delivery protocols. Prerequisites: 672:100 (RSRT:3100). Requirements: enrollment in radiation sciences therapy program.

672:102 (RSRT:4105) Principles of Radiation Therapy II 2 s.h.
Evaluation and management of neoplastic disease using knowledge in arts and sciences; critical thinking and basis of ethical clinical decision making; epidemiology, etiology, detection, diagnosis, patient condition, treatment and prognosis of neoplastic disease. Prerequisites: 672:100 (RSRT:3100) and 672:101 (RSRT:3205). Requirements: enrollment in radiation sciences therapy program.

672:110 (RSRT:3110) Medical Physics I 2 s.h.
Introduction to radiation used in clinical setting; fundamental physical units, measurements, principles, atomic structure and types of radiation; X-ray generating equipment, X-ray production, and its interaction with matter. Requirements: acceptance to radiation sciences therapy program, and maxillofacial or radiation oncology resident. Same as 077:110 (FRRR:3110).

672:115 (RSRT:3215) Medical Physics II 2 s.h.
Treatment units used in external radiation therapy; beam calculations, isodose distributions, brachytherapy, quality assurance and quality management, protection and safety. Prerequisites: 672:110 (RSRT:3110). Requirements: acceptance to radiation sciences therapy program. Same as 077:121 (FRRR:3215).

672:120 (RSRT:3120) Radiation Therapy Clinical Internship I 3 s.h.
Student rotations through different radiation therapy related areas; assist, practice, and test radiation therapy principles learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Requirements: acceptance to radiation sciences therapy program.

672:130 (RSRT:3225) Radiation Therapy Clinical Internship II 3 s.h.
Student rotations through different radiation therapy related areas; assist, practice, and test radiation therapy principles learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Requirements: acceptance to radiation sciences therapy program.

672:140 (RSRT:3325) Radiation Therapy Clinical Internship III 6 s.h.
Student rotations through different radiation therapy related areas; assist, practice, and test radiation therapy principles learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Requirements: acceptance to radiation sciences therapy program.

672:150 (RSRT:4125) Radiation Therapy Clinical Internship IV 4 s.h.
Student rotations through different radiation therapy related areas; assist, practice, and test radiation therapy principles learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Requirements: acceptance to radiation sciences therapy program.

672:160 (RSRT:4225) Radiation Therapy Clinical Internship V 4 s.h.
Student rotations through different radiation therapy related areas; assist, practice, and test radiation therapy principles learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Requirements: acceptance to radiation sciences therapy program.

672:170 (RSRT:4230) Radiation Therapy Capstone 3 s.h.
Professional development; review of concepts. Requirements: acceptance to radiation sciences therapy program.

672:803 (RSRT:4100) Radiation Therapy I 0,12 s.h.
Theory and techniques of radiation therapy technology; emphasis on areas of oncology treatment planning, treatment set-up, dosimetry, use of megavoltage radiation-producing equipment to administer treatments. Requirements: completion of radiologic technology program and eligibility for registration with a national certification program.
672:804 (RSTH:4200) Radiation Therapy II 3 s.h.
Theory and techniques of radiation therapy technology; emphasis on areas of oncology treatment planning, treatment set-up, dosimetry, use of megavoltage radiation-producing equipment to administer treatment; one-year program ending in eligibility for national certification examination in radiation therapy. Prerequisites: 672:803 (RSTH:4100). Requirements: graduation from an accredited radiography program and eligibility for registration with a national certification program.

672:805 (RSTH:4300) Radiation Therapy III 0.6 s.h.
Prerequisites: 672:804 (RSTH:4200).

673:101 (RSMS:3115) Diagnostic Medical Sonography Clinical Internship I 2 s.h.
Development of basic understanding of sonography clinical environment and professional practice standards; experience in health care setting. Requirements: acceptance to RSMS degree track.

673:102 (RSMS:3215) Diagnostic Medical Sonography Clinical Internship II 3 s.h.
Development of basic skills for sonographic imaging and physiologic vascular testing in health care setting. Prerequisites: 673:101 (RSMS:3115). Requirements: acceptance to RSMS degree track.

673:103 (RSMS:3315) Diagnostic Medical Sonography Clinical Internship III 4 s.h.
Development of skills for sonographic imaging and physiologic vascular testing in health care setting. Prerequisites: 673:102 (RSMS:3215). Requirements: acceptance to RSMS degree track.

673:104 (RSMS:4115) Diagnostic Medical Sonography Clinical Internship IV 5 s.h.
Development of high-level skills for sonographic imaging and physiologic vascular testing in health care setting. Prerequisites: 673:103 (RSMS:3315). Requirements: acceptance to RSMS degree track.

673:105 (RSMS:4215) Diagnostic Medical Sonography Clinical Internship V 5 s.h.
Development of advanced skills for sonographic imaging and physiologic vascular testing in health care setting. Prerequisites: 673:104 (RSMS:4115). Requirements: acceptance to RSMS degree track.

673:110 (RSMS:3110) Foundations of Sonography 3 s.h.
Sonography history, ergonomics, terminology, image orientation; basic theories of sound waves, echo production, transducers, equipment operation, body imaging, Doppler, hemodynamics. Requirements: 029.008 (PHYS:1400) or radiologic technology program physics course or diagnostic medical sonography physics course.

673:111 (RSMS:3111) Foundations of Sonography Lab 1 s.h.
Sonography history, ergonomics, terminology, image orientation, basic theories of sound waves, echo production, transducers, equipment operation, body imaging, Doppler, and hemodynamics. Corequisites: RSMS:3110 (673:110 (RSMS:3110)).

673:112 (RSMS:4110) Advanced Sonography 3 s.h.
Exploration of advanced sonographic imaging techniques and new technologies. Prerequisites: 673:145 (RSMS:3240) and 673:150 (RSMS:3250).

673:113 (RSMS:4111) Advanced Sonography Lab 1 s.h.
Simulated application of advanced sonographic imaging techniques and new technologies. Prerequisites: 673:112 (RSMS:4110). Requirements: acceptance to RSMS degree track.

673:115 (RSMS:3120) Abdominal Sonography I 3 s.h.
Embryology, anatomy, and physiology of various abdominal structures imaged sonographically; abdominal vasculature, hepatobiliary system, pancreas, urinary system, adrenals, spleen, male anatomy; proper sonographic imaging techniques, including appearance of normal anatomy, imaging protocol, proper instrument settings. Prerequisites: 676:100 (RSCT:4100). Corequisites: 673:110 (RSMS:3110), if not taken as a prerequisite. Requirements: successful completion of a two-year radiologic technology or diagnostic medical sonography program.

673:116 (RSMS:3121) Abdominal Sonography I Lab 1 s.h.

673:120 (RSMS:3130) Obstetrical and Gynecological Sonography I 3 s.h.
Embryology, anatomy, and physiology of the female reproductive system and developing fetus; proper sonographic imaging techniques, including appearance of normal anatomy, imaging protocol, proper instrument settings. Prerequisites: 676:100 (RSCT:4100). Corequisites: 673:110 (RSMS:3110), if not taken as a prerequisite. Requirements: successful completion of a two-year radiologic technology or diagnostic medical sonography program.

673:122 (RSMS:4120) Advanced Cardiac Sonography 3 s.h.
Advanced cardiac sonographic imaging techniques, quantifications, and new technologies. Prerequisites: 673:145 (RSMS:3240) and 673:150 (RSMS:3250).

673:123 (RSMS:4121) Advanced Cardiac Sonography Lab 1 s.h.

673:125 (RSMS:3140) Vascular Sonography I 3 s.h.
Embryology, anatomy, and physiology of peripheral and cerebral vascular system; normal and abnormal hemodynamics, Doppler waveforms, pressure measurements, plethysmography, sonographic appearance, scanning techniques; common types of pathology of the lower extremity arterial and venous system, cerebrovascular system. Prerequisites: 675:110 (RSCI:4110). Corequisites: 673:110 (RSMS:3110), if not taken as a prerequisite. Requirements: successful completion of a two-year radiologic technology or diagnostic medical sonography program.
673:126 (RSMS:3141) Vascular Sonography I Lab 1 s.h.
Simulated application of basic sonographic vascular imaging, vascular physiologic testing, and clinical history analysis. Corequisites: 673:125 (RSMS:3140). Requirements: acceptance to RSMS degree track.

673:131 (RSMS:3131) Obstetrical and Gynecological Sonography I Lab 1 s.h.
Simulated application of basic sonographic obstetrical and gynecological imaging; clinical history analysis. Corequisites: 673:120 (RSMS:3130). Requirements: acceptance to RSMS degree track.

673:140 (RSMS:3230) Sonography Principles, Physics, and Instrumentation 3 s.h.
Physical principles of sound waves, their applications to imaging of the human body, operation and physical characteristics of various ultrasound transducers, method by which the sound wave is converted into a visual image, instrumentation components and their functions, Doppler principles, image artifacts, advanced hemodynamics, and spectral Doppler waveform analysis. Prerequisites: 673:110 (RSMS:3110).

673:141 (RSMS:3231) Sonography Principles, Physics, and Instrumentation Lab 1 s.h.
Simulated application of sonographic imaging; emphasis on physics principles; instrumentation and quality assurance testing. Corequisites: 673:140 (RSMS:3230). Requirements: acceptance to RSMS degree track.

673:145 (RSMS:3240) Abdominal Sonography II 3 s.h.
Pathophysiology of abdominal structures imaged sonographically, including the GI system, abdominal wall, peritoneal, retroperitoneal, and superficial structures from 673:115 (RSMS:3120); intervention sonographic procedures (aspirations, biopsies, intraoperative procedures, sterile technique, needle-guide use); post-procedure protocol; clinical findings, laboratory studies, prognosis correlated with sonographic findings; appropriate image analysis and documentation of pathology. Prerequisites: 673:115 (RSMS:3120).

673:146 (RSMS:3325) Abdominal Sonography II Lab 1 s.h.
Simulated application of advanced sonographic abdominal imaging and clinical history analysis. Corequisites: 673:145 (RSMS:3240), if not taken as prerequisite. Requirements: acceptance to RSMS degree track.

673:150 (RSMS:3250) Obstetrical and Gynecological Sonography II 3 s.h.
Sonographically-related pathological and abnormal congenital conditions of gynecology and obstetrics, infertility, assisted reproductive therapy, invasive procedures in obstetrics and gynecology, postpartum complications and maternal-fetal bonding; clinical findings, laboratory studies, and prognosis correlated with sonographic findings; appropriate image analysis and documentation of pathology. Prerequisites: 673:120 (RSMS:3130).

673:152 (RSMS:3260) Breast Sonography 2 s.h.
Embryology, anatomy, physiology, and pathophysiology of the breast as it relates to sonographic imaging; proper sonographic imaging techniques, including appearance of normal anatomy, imaging protocol, proper instrument settings; sonographic findings of diseases involving the breast. Prerequisites: 673:110 (RSMS:3110). Requirements: successful completion of a two-year radiologic technology or diagnostic medical sonography program.

673:155 (RSMS:3270) Vascular Sonography II 3 s.h.
Pathophysiology of peripheral, cerebral, and abdominal vascular systems as evaluated sonographically; normal and abnormal hemodynamics, Doppler waveforms, pressure measurements, plethysmography, sonographic appearance, scanning techniques; sonographic findings of diseases involving the lower extremity arterial and venous system, upper extremity arterial and venous system, cerebrovascular system, and abdominal vascular system. Prerequisites: 673:125 (RSMS:3140).

673:156 (RSMS:3376) Vascular Sonography II Lab 1 s.h.
Simulated application of advanced sonographic vascular imaging; non-imaging vascular physiologic testing; clinical history analysis. Corequisites: 673:155 (RSMS:3270), if not taken as prerequisite. Requirements: acceptance to RSMS degree track.

673:160 (RSMS:3100) Cardiac Sonography I 3 s.h.
Normal sonographic anatomy, exam protocols, imaging techniques, and basic pathology of human heart. Prerequisites: 676:100 (RSCI:4100). Corequisites: 673:110 (RSMS:3110), if not taken as prerequisite. Requirements: acceptance to RSMS degree track or successful completion of two-year radiologic technology or diagnostic medical sonography program.

673:161 (RSMS:3101) Cardiac Sonography I Lab 1 s.h.
Simulated application of basic sonographic cardiac imaging; clinical history analysis. Corequisites: 673:160 (RSMS:3100). Requirements: acceptance to RSMS degree track.

673:163 (RSMS:3150) Cardiac Physiology and Hemodynamics 3 s.h.
Analysis of cardiac physiology, hemodynamics, diagnostic testing, and evaluation techniques specifically related to sonographic imaging. Prerequisites: 676:130 (RSCI:4130). Corequisites: 673:110 (RSMS:3110), if not taken as prerequisite. Requirements: acceptance to RSMS degree track or successful completion of two-year radiologic technology or diagnostic medical sonography program.

673:165 (RSMS:3205) Cardiac Sonography II 3 s.h.
Sonographic evaluation of advanced pathophysiology of human heart; sonographic appearance, imaging techniques, and exam modification. Prerequisites: 673:160 (RSMS:3100).

673:166 (RSMS:3206) Cardiac Sonography II Lab 1 s.h.
673:170 (RSMS:3300) Neurosonography 2 s.h.
Normal sonographic anatomy, exam protocols, imaging techniques, and pathology of neonatal brain and pediatric spinal cord. Prerequisites: 673:110 (RSMS:3110). Requirements: acceptance to a Radiation Sciences degree track or successful completion of two-year radiologic technology or diagnostic medical sonography program.

673:190 (RSMS:4220) Multidisciplinary Capstone Seminar 3 s.h.
Completion of student preparation for professional work environment; case-based learning. Prerequisites: 673:112 (RSMS:4110) or 673:122 (RSMS:4120).

673:803 (RSMS:4100) Diagnostic Medical Sonography I 0,9 s.h.
Principles and methods in using ultrasound as an imaging modality; abdomen, obstetrics and gynecology, neurosonography, and vascular technology specialties; 18-month program; national certification required at completion. Prerequisites: 673:803 (RSMS:4100). Requirements: completion of an allied health program or bachelor’s degree with course work in physics, anatomy, patient care, and algebra.

673:804 (RSMS:4200) Diagnostic Medical Sonography II 0,9 s.h.
Principles and methods in using ultrasound as an imaging modality; abdomen, obstetrics and gynecology, neurosonography, and vascular technology specialties; 18-month program; national certification required at completion. Prerequisites: 673:803 (RSMS:4100). Requirements: completion of an allied health program or bachelor’s degree with course work in physics, anatomy, patient care, medical technology, and algebra.

673:805 (RSMS:4300) Diagnostic Medical Sonography III 0,3 s.h.
Prerequisites: 673:804 (RSMS:4200). Requirements: completion of an allied health program or bachelor’s degree with course work in physics, anatomy, patient care, medical technology, and algebra.

673:806 (RSMS:4400) Diagnostic Medical Sonography IV 0,9 s.h.
Principles and methods in using ultrasound as an imaging modality; specialties including abdomen, pediatrics, obstetrics, gynecology, interventional procedures, vascular imaging, neurosonography; 18-month program; national certification examination required at completion. Prerequisites: 673:805 (RSMS:4300). Requirements: completion of an allied health program or bachelor’s degree with course work in physics, anatomy, patient care, medical technology, and algebra.

673:807 (RSMS:4500) Diagnostic Medical Sonography V 0,6 s.h.
Prerequisites: 673:806 (RSMS:4400). Requirements: completion of an allied health program or bachelor’s degree with course work in physics, anatomy, patient care, medical technology, and algebra.

673:911 (RSMS:4150) Diagnostic Cardiac Sonography 0 s.h.
Principles, methods in using ultrasound; specialties including adult and stress echocardiography; six-month program; national certification examination required at completion of program. Requirements: completion of an accredited medical sonography or vascular technology program.

673:912 (RSMS:4250) Cardiac Sonography Clinical Course 0 s.h.
Using ultrasound as an imaging modality; specialties, including adult echocardiography, stress echocardiography; six-month program; national certification examination required at completion. Requirements: completion of an accredited medical sonography or vascular technology program.

674:110 (RSMR:4110) Fundamentals for the MRI Technologist 3 s.h.
Care-giving skills specific to patients undergoing MRI examinations; techniques in effectively communicating for safety and comfort; maintaining patient and personnel safety; patient preparation, monitoring, and venipuncture; technologist’s role in a wide variety of MRI examinations and patient conditions. Requirements: ARRT primary certification in radiologic technology, nuclear medicine, sonography, or radiation therapy.

674:120 (RSMR:4120) MRI Procedures I 4 s.h.
Imaging techniques related to central nervous and musculoskeletal systems; specific clinical applications; available coils and their use; considerations in imaging parameters; specific choices in protocols and positioning criteria; anatomical structures and the plane that best demonstrates anatomy; signal characteristics of normal and abnormal structures. Prerequisites: 676:100 (RSCT:4100). Requirements: concurrent registration in 674:110 (RSMR:4110), if not taken as a prerequisite; or three months MRI experience.

674:130 (RSMR:4130) MRI Procedures II 3 s.h.
MRI techniques related to neck, thorax, breast, abdomen, and pelvis; specific clinical applications; available coils and their use; considerations in imaging parameters; specific choices in protocols and positioning criteria. Prerequisites: 674:120 (RSMR:4120).

674:140 (RSMR:4140) MRI Acquisition and Principles I 3 s.h.
Physics and hardware used in obtaining a magnetic resonance signal, including magnetism, NMR signal production, tissue characteristics, spatial localization, pulse sequencing, imaging parameters and options, and special applications; exploration of skills useful in maximizing MR image quality. Requirements: concurrent registration in 674:110 (RSMR:4110), if not taken as a prerequisite; or three months MRI experience.

674:150 (RSMR:4150) MRI Acquisition and Principles II 3 s.h.
Advanced MRI techniques; MR angiography and further investigation of fast image acquisition sequences; overview of MR magnets, installation, operation, and facility design; computers and digital image acquisition as they apply to MR; outline of quality assurance procedures. Prerequisites: 674:140 (RSMR:4140).

674:160 (RSMR:4160) MRI Clinical Internship I 3,6 s.h.
Work in UI Healthcare’s MRI department, completing clinical documentation needed to take the ARRT certification examination in MRI; 36 hours per week. Prerequisites: 674:110 (RSMR:4110). Corequisites: 674:120 (RSMR:4120) and 674:140 (RSMR:4140), if not taken as prerequisites. Requirements: pre-acceptance to MRI clinical internship.
674:170 (RSMR:4170) MRI Clinical Internship II 3.6 s.h.
Work in UI Healthcare’s MRI department, completing clinical documentation needed to take the ARRT certification examination in MRI; 36 hours per week. Prerequisites: 674:160 (RSMR:4160). Corequisites: 674:140 (RSMR:4140), if not taken as a prerequisite.

674:175 (RSMR:4175) MRI Clinical Internship III 4 s.h.
Rotation through MRI department scanning rooms at University of Iowa Hospitals and Clinics; competency and objective-based education with required clinical performance evaluations; clinical preceptor facilitates schedules, rotations, learning objectives, evaluations, and competencies; experience facilitated by MRI technologists, radiologists, residents, and preceptor; participation in routine and advanced MRI scans; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 674:170 (RSMR:4170).

675:110 (RSCI:4110) Vascular Anatomy 3 s.h.
Normal arterial and venous anatomy of the circulatory system, illustrated through angiographic, magnetic resonance imaging (MRI), and computed tomography (CT) images; common variants. Prerequisites: 027:053 (HHP:1100) or 060:110 (ACB:3110) or 060:113 (ACB:3113).

675:120 (RSCI:4120) CVI Principles 4 s.h.
Imaging and accessory equipment for vascular interventional and cardiac interventional procedures; imaging equipment quality control; fundamental principles of vascular and cardiac procedures, including patient preparation and care, radiation safety, contrast medium, pharmacology, and sedation. Corequisites: 675:110 (RSCI:4110). Requirements: ARRT primary certification in radiologic technology.

675:130 (RSCI:4130) Electrocardiogram and Hemodynamics 3 s.h.
ECG analysis, hemodynamic principles and waveform analysis, cardiac output, vascular resistance, calculations of stenotic valves. Prerequisites: 027:053 (HHP:1100), 060:110 (ACB:3110), or 060:113 (ACB:3113).

675:140 (RSCI:4140) CVI Peripheral Procedures and Pathology 3 s.h.
Angiographic and interventional procedures of the abdomen, thorax, and upper and lower extremities; associated pathologies. Corequisites: 675:120 (RSCI:4120), if not taken as a prerequisite. Requirements: 675:110 (RSCI:4110) or three months CVI experience.

675:150 (RSCI:4150) CVI Neurology and Nonvascular Procedures and Pathology 3 s.h.
Angiographic and interventional procedures of the head and neck; associated pathologies. Corequisites: 675:120 (RSCI:4120), if not taken as a prerequisite. Requirements: 675:110 (RSCI:4110) or three months CVI experience.

675:160 (RSCI:4160) CVI Cardiac Procedures and Pathology 4 s.h.
Cardiac diagnostic and interventional procedures; associated pathologies. Corequisites: 675:120 (RSCI:4120) and 675:130 (RSCI:4130), if not taken as prerequisites. Requirements: 675:110 (RSCI:4110) or three months CVI experience.

675:170 (RSCI:4170) Cardiac Intervventional Clinical Internship 6 s.h.
Thirty-six hours per week in the CI clinical setting; practical experience on CI exams. Corequisites: 675:130 (RSCI:4130) and 675:160 (RSCI:4160), if not taken as prerequisites. Requirements: ARRT primary certification in radiologic technology and acceptance to UI Hospitals and Clinics CVI internships.

675:180 (RSCI:4180) Vascular Interventional Clinical Internship 6 s.h.
Thirty-six hours per week in the vascular interventional (VI) clinical setting; practical experience on VI exams. Corequisites: 675:140 (RSCI:4140) and 675:150 (RSCI:4150), if not taken as prerequisites. Requirements: ARRT primary certification in radiologic technology and acceptance to UI Hospitals and Clinics CVI internships.

675:190 (RSCI:4190) CVI Clinical Internship 2 s.h.
Introduction to VI and CI labs, including basic set up, equipment, and procedures; preparation to spend more concentrated time in each area for future internships; provides 192 hours of clinical experience over a 12-week period. Requirements: acceptance to RSRT/CVI degree track or CVI clinical internship.

676:100 (RSCT:4100) Sectional Anatomy for Imaging Sciences 3 s.h.
Sectional anatomy identifiable on computed tomography and magnetic resonance imaging, including transverse, coronal, and sagittal planes. Prerequisites: 027:053 (HHP:1100) or 060:110 (ACB:3110) or 060:113 (ACB:3113).

676:105 (RSCT:4105) Computed Tomography Clinical Internship I 1 s.h.
CT scanners, 3-D lab, and radiation therapy department rotation at UI Healthcare; competency and objective-based education with required clinical performance evaluations; clinical coordinator facilitates schedule, rotations, learning objectives, evaluations, and competencies; experience facilitated by CT technologists, radiologists, residents, and coordinator; participation becomes progressively higher as students gain experience and skills.

676:110 (RSCT:4110) CT/MRI Pathology 3 s.h.
Common pathological conditions found in CT and MRI images; protocol appearance variations; units of CNS, musculoskeletal, head/neck/thorax, and abdominopelvic pathology; textbook readings, in-class discussions, special projects including case studies and presentations. Requirements: concurrent enrollment in 676:100 (RSCT:4100), if not taken as a prerequisite, or at least 3 months fulltime CT/MRI clinical experience.

676:115 (RSCT:4115) Computed Tomography Clinical Internship II 3 s.h.
CT scanners, 3-D lab, and radiation therapy department rotation at University of Iowa Hospitals and Clinics; competency and objective-based education with required clinical performance evaluations; clinical coordinator facilitates schedule, rotations, learning objectives, evaluations, and competencies; experience facilitated by CT technologists, radiologists, residents, and coordinator; participation in routine and advanced CT scans; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 676:140 (RSCT:4140).

676:120 (RSCT:4120) Computed Tomography Procedures I 3 s.h.
Computed tomography procedures of the head, neck, thorax, mediastinum, abdomen, and pelvis; positioning techniques, patient preparation, monitoring and care, indications and contraindications for procedures, contrast media usage; basic protocol information and adjustments to tailor procedures for patients' indications; patient care topics relevant to CT patients and procedures; CT parameters and equipment. Corequisites: 676:100 (RSCT:4100). Requirements: ARRT primary certification in radiologic technology, nuclear medicine, or radiation therapy.

676:125 (RSCT:4125) Computed Tomography Procedures II
3 s.h.
Imaging information in musculoskeletal exams, 3-D reconstruction, CTAs; cardiac, including gating, biopsies, drains, post-myelography, radiation therapy planning, and 4-D imaging; CT arthrography, PET/CT, SPECT/CT, virtual colonoscopy; procedure indications and contraindications, patient and room preparation, positioning techniques, contrast media usage, and scan parameters; basic protocol information and how to tailor procedures to a patient's indications. Prerequisites: 676:120 (RSCT:4120). Corequisites: 675:110 (RSCI:4110), if not taken as a prerequisite.

676:130 (RSCT:4130) Computed Tomography Physical Principles and QC
4 s.h.
Historical development and evolution of computed tomography; characteristics of x-ray, beam attenuation, linear attenuation coefficients, tissue characteristics, Hounsfield numbers; application, data acquisition, image reconstruction, image manipulation techniques, tube configuration, collimator design and function, detector type; characteristics, image quality factors, and functions of CT computer and array processor; CT image processing and display examined from data acquisition through post-processing and archiving; radiation protection practices and QC. Requirements: ARRT primary certification in radiologic technology, nuclear medicine, or radiation therapy.

676:140 (RSCT:4140) Computed Tomography Clinical Internship
6 s.h.
Completion of clinical documentation needed to take the ARRT certification examination in computed tomography; 32 hours per week in UI Healthcare's computed tomography department. Corequisites: 676:120 (RSCT:4120) and 676:130 (RSCT:4130), if not taken as prerequisites. Requirements: ARRT primary certification in radiologic technology, nuclear medicine, or radiation therapy; and acceptance into the CT internship.

676:215 (RSCT:4215) Computed Tomography Clinical Internship III
3 s.h.
CT scanners, 3-D lab, and radiation therapy department rotation at University of Iowa Hospitals and Clinics; competency and objective-based education with required clinical performance evaluations; clinical coordinator facilitates schedule, rotations, learning objectives, evaluations, and competencies; experience facilitated by CT technologists, radiologists, residents, and coordinator; participation in routine and advanced CT scans; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 676:115 (RSCT:4115).

680:010 (RSP:1100) Introduction to the Radiation Sciences
1 s.h.
Exploration of radiation sciences field (radiologic technology, nuclear medicine and PET, diagnostic medical sonography, radiation therapy, computed tomography, magnetic resonance imaging, cardiovascular interventional); introduction to basic principles and modalities associated with the field in preparation for application to radiation sciences or nuclear medicine technology major.

680:110 (RSP:2110) Pathology for Radiation Sciences
2 s.h.
General pathologic processes; introduction to imaging modalities; pathological terms that describe the body's response to stress and disease; how the body responds to and forms pathological diseases (e.g., infectious and parasitic diseases, inflammation and repair, immunopathology, neoplasia, genetic disorders, dietary deficiencies and excesses, hemodynamic disorders, trauma and emergencies). Requirements: acceptance to radiation science degree track.

680:111 (RSP:4110) Research Methodology for Radiation Sciences
3 s.h.
Introduction to research concepts and methods for the radiation science professional. Requirements: radiation sciences or nuclear medicine technology major.

680:120 (RSP:2120) Patient Care for the Radiation Sciences
3 s.h.
Foundation for providing care to clients during radiographic examinations; taking medical histories, basic life support, medical emergencies, vital sign assessment, body mechanics, radiation protection; characteristics and biological effects of ionizing radiations, properties and uses of radioisotopes, medical applications, and biological basis for protection procedures. Requirements: enrollment in radiation sciences program. Same as 077:120 (FRRB:3130).

680:130 (RSP:3130) Radiation Safety and Radiobiology
2 s.h.
Instruction on safe operation of radiation producing equipment and handling of radioactive materials; origin and/or derivation of certain formulae and techniques useful in radiation protection programs; regulatory agencies, regulations, and regulatory guides pertinent to student's field; emphasis on applied aspects of radiation protection; characteristics and biological effects of ionizing radiations, properties and uses of radioisotopes, medical applications, and biological basis for protection procedures. Requirements: acceptance to radiation science degree track.

680:150 (RSP:4101) Medical Imaging and Radiology Informatics
3 s.h.
Issues in informatics used in medical imaging and radiology; basic concepts, principles, terminology, and technology in medical imaging informatics; PACS operation, design, implementation; digitalization and acquisition of medical images; storage retrieval; image data formation and conversion, image data communication, workflow, visualization and display; medical imaging informatics; web application/services-based telemedicine and teleradiology.
680:210 (RSP:3210) Medical Ethics and Law    2 s.h.
Introduction to ethical reasoning and problem solving; integration of knowledge about patient care and ethical/legal issues which occur in process of providing care; ethical principles of autonomy, beneficence, justice, nonmaleficence, paternalism, Patient’s Bill of Rights, resolving moral dilemmas; legal principles of malpractice, intentional torts, negligence. Requirements: radiation science or nuclear medicine technology major.

680:220 (RSP:3220) Radiation Sciences Quality Management and Health Care Administration    2 s.h.
Introduction to health care administration; quality management, safety, and patient satisfaction concepts for the radiation sciences professional. Requirements: radiation sciences or nuclear medicine technology major.
Radiology

Interim head
• Joan E. Maley

Professors

Associate professors
• Thomas Barloon, Thomas Grabowski, Jerry Kovoor, David Kuehn, Vincent Magnotta, Yusuf Menda, Louis Messerle, Jun Ni, Bruno Policeni, Laura Ponte, Alan Stolpen, John Sunderland, Brad H. Thompson, G. Leonard Watkins, Jinhu Xiong, Fadi Youness

Assistant professors
• Andres Capizzano, Eve Clark, David W. Dick, Minako Hayakawa, Jack Kademan, Jinseh Kim, Archana Laroia, Sandeep Laroia, Joshua McDonald, Howard O’Rourke, Stanley Parker, Maheen Rajput, Jessica Sieren, Limin Yang

Professors emeriti
• James Ehrhardt, Edmund A. Franken Jr., Peter Kirchner, Charles C. Lu, Wendy Smoker, William Stanford, Timothy Tewson

Associate professors emeriti
• Bruce P. Brown, William E. Erkonen

Web site: http://www.healthcare.uiowa.edu/radiology/

The Department of Radiology has a three-fold mission of education, research, and patient care. It trains Doctor of Medicine students, residents, and fellows and offers programs for medical professionals. It is a leader in innovative research relating to diagnosis and treatment across the clinical subspecialties, including MRI, PET, breast imaging, cardiac and pulmonary imaging, and imaging informatics. Residents, fellows, medical students, and graduate students have opportunities to participate in research projects in the department. The radiology library provides varied resources and services for department faculty and staff.

The department also provides diagnostic and therapeutic radiology services for patients and families in Iowa and surrounding states through its clinical services at University of Iowa Hospitals and Clinics and the Iowa City Veterans Affairs Medical Center. Visit the Department of Radiology web site to learn more about the department’s activities and resources.

Undergraduate Education

The Department of Radiology offers clinical education to students in the Nuclear Medicine Technology (p. 1052) and Radiation Sciences (p. 1090) Programs.

M.D. Student Training

The Department of Radiology offers a clerkship for Doctor of Medicine students as well as providing additional courses, research experiences, and externships for students interested in learning more about radiology. Several of the department’s programs are open to medical students from other institutions.

Residency Programs, Fellowships

The department offers two residency programs: one in diagnostic radiology and one in nuclear medicine. Fellowships are available in the following specialties: body imaging, breast imaging, musculoskeletal radiology, neuroradiology, and pediatric radiology. Practicing radiologists have access to several departmental traineeships that provide category 1 continuing medical education credit through the Carver College of Medicine.

Courses

074:006 (RAD:8301) Clinical Radiology
Two-week clerkship. Requirements: M.D. enrollment.

074:191 (RSNM:3195) Health Informatics I

074:192 (RSNM:5301) Health Informatics II
Selected health informatics initiatives, including computer-based patient records, physiologic monitoring, networking, imaging, virtual reality; participation in an interdisciplinary project team focused on an informatics innovation; application and research seminars. Same as 051:189 (BME:5252), 096:289 (NURS:5301), 056:287 (IE:5870), 021:280 (SLIS:5910), 200:120 (IGPI:5210).

074:201 (RAD:8401) Advanced Clinical Radiology
Requirements: M.D. enrollment.

074:203 (RAD:8402) Vascular and Interventional Radiology
Requirements: M.D. enrollment.

074:998 (RAD:8498) Radiology on Campus
Requirements: M.D. enrollment.

074:999 (RAD:8499) Radiology off Campus
Requirements: M.D. enrollment.
Surgery

Chair
• Ronald J. Weigel

Professors
• Kent C. Choi, Joseph J. Cullen, Thomas Granchi, James R. Howe, G. Patrick Kealey, Timothy F. Kresowik, Thomas Lawrence, Alan I. Reed, Carol E.H. Scott-Conner, W. John Sharp, Joel Shilyansky, Timothy A. Thomsen, Ronald J. Weigel

Associate professors
• John Cromwell, Hisakazu Hoshi, Daniel A. Katz, Geeta Lal, Graeme Pitcher, Donald D. Potter, Isaac Samuel, Dionne A. Skeete, Sonia Sugg, Lucy Wibbenmeyer

Assistant professors

Professors emeriti
• Albert E. Cram, Nelson J. Gurll, Peter R. Jochimsen, Ken Kimura, James W. Maher, Edward E. Mason, Amanda M. Metcalf, Siroos S. Shirazi, Luis F. Urdaneta

Associate professors emeriti
• Cornelius Doherty, Samuel Porter, Wilbur L. Zike

Web site: http://www.medicine.uiowa.edu/surgery/

The Department of Surgery offers didactic instruction as well as clinical and other practical experiences for medical students. It also hosts a wide spectrum of clinical and scientific research.

M.D. Student Training

Department of Surgery courses provide a unique combination of experience oriented toward patient care and understanding of surgery’s place among the physician’s skills. Surgery courses are open only to M.D. students and qualified students in associated health sciences.

Students develop an awareness of surgery’s role in the treatment of disease. Emphasis is placed on general surgery, basic emergency surgery, trauma, oncology, burns, gastrointestinal and biliary tract disease, endocrine disease, pediatric surgery, transplantation, plastic and reconstructive surgery, and peripheral vascular surgery.

The majority of surgery courses involve patient-centered discussions and practical exercises interwoven with operating room experience. Lectures and conferences are scheduled regularly on specific topics.

The department offers independent study courses in selected surgery topics and clinical experiences; some are available to fourth-year M.D. students by arrangement with the faculty.

Faculty

The faculty’s strengths center in pathophysiology and problems of severe burns, trauma, organ transplantation, surgical control of morbid obesity, surgical oncology, bowel disease, biliary tract disease, pediatric surgery, endocrine disease, plastic surgery, and vascular surgery.

Facilities

Abundant patient contact provides education in a wide variety of surgical diseases. The Department of Surgery provides training in the only burn unit in Iowa approved by the American College of Surgeons and in the Level I Trauma Center at University of Iowa Hospitals and Clinics.

Laboratories provide equipment, space, and technical expertise to support teaching and a wide spectrum of clinical and scientific research. Projects are available in gastrointestinal surgery, surgical microbiology, peripheral vascular surgery, transplantation, wound healing, organ preservation, vascular surgery, pediatric surgery, and surgical oncology.

Courses

075:005 (SURG:8301) Clinical Surgery
6 s.h.
Experience as active member of surgical team; work on inpatient units, in clinics and operating room; assist in elective and emergency patient care.

075:216 (SURG:8402) Subinternship in General Surgery
4 s.h.
Responsibility for management of selected surgical inpatients, on a surgical service. Prerequisites: 075:005 (SURG:8301).

075:217 (SURG:8401) Advanced General Surgery
4 s.h.
Opportunity to strengthen clinical skills through experiences in the operating rooms, clinics, wards, and intensive care units of University of Iowa Hospitals and Clinics.

075:235 (SURG:8406) General Surgery, Des Moines, IA
4 s.h.
Care of general surgery patients in private hospital setting. Prerequisites: 075:005 (SURG:8301).

075:236 (SURG:8407) Intensive Care Unit–Trauma, Iowa Methodist
4 s.h.
Subinternship on trauma service team; evaluation and management of critically ill patients in the emergency room, operating room, intensive care unit. Prerequisites: 075:005 (SURG:8301). Requirements: fourth-year M.D. enrollment.

075:237 (SURG:8409) General Surgery, Davenport, IA
4 s.h.
Participation in diagnosis and management of general surgical patients under supervision of attending surgeons from Davenport Surgical Group, Genesis Medical Center. Prerequisites: 075:005 (SURG:8301). Requirements: fourth-year M.D. enrollment.
075:998 (SURG:8498) Surgery on Campus
Surgery on campus; individually arranged. Prerequisites: 075:005 (SURG:8301).

075:999 (SURG:8499) Surgery off Campus
Prerequisites: 075:005 (SURG:8301).
Urology

Chair
• Karl J. Kreder

Professors
• James A. Brown, Christopher S. Cooper, Karl J. Kreder, David M. Lubaroff, Michael A. O’Donnell, Victoria Sharp

Associate professors
• Elizabeth B. Takacs, Moshe Wald

Assistant professors
• Sundeeep Deorah, Brad Erickson, Amit Gupta, Kathleen Kieran, Danny Lee, Ken Nepple, Lyse Norian, Doug Storm, Chad Tracy

Professors emeriti
• Bernard Fallon, Charles E. Hawtrey

Web site: http://www.medicine.uiowa.edu/urology/

Urology encompasses the subspecialty areas of urologic nephrology, oncology, and endocrinology; male reproductive physiology; erectile dysfunction; neurourology; pediatric urology; urinary tract stone and infection, including endourology; laparoscopic and robotic urology; trauma and reconstructive urology; urodynamics and female urology; diagnostic urology; and urinary tract obstruction.

The Department of Urology offers instruction in all of these areas to M.D. and graduate students and provides continuing education for the delivery of urologic care.

M.D. Student Training

The Department of Urology cooperates with several University of Iowa basic science departments to educate first-year M.D. students in the relationship between urology and the basic sciences. It collaborates with the Department of Microbiology (p. 1040) in teaching and research concerning immunology of genitourinary cancers and renal transplantation.

In the second-year M.D. course, 050:165 (MED:8215) Foundations of Clinical Practice IV ICD, the department presents illustrative lectures and demonstrations related to diagnosis and treatment of genitourinary tract diseases.

Third- and fourth-year M.D. students take Department of Urology courses that provide experience in all areas of urology. The department’s selective two-week clerkship covers the fundamentals of these areas through experience in outpatient clinics and inpatient units at University of Iowa Hospitals and Clinics and the Iowa City Veterans Affairs Medical Center as well as in daily interactive teaching seminars. Fourth-year M.D. students can take advanced elective courses of intensive study in any of the urologic subspecialties.

Continuing Education

The department offers continuing education activities throughout the year for urologic and family practitioners. These activities are conducted by the senior staff, whose interests include pediatric urology, reproductive physiology, urologic oncology, urinary tract stone (including endourology/laparoscopy), and prostatic diseases.

Research

The department has earned international recognition for its studies of prostatic diseases. The urological laboratories conduct research and offer instruction in experimental oncology, cellular immunology, and infertility.

Courses

079:104 (URO:8301) Clinical Urology 2 s.h.
Work in urology unit, clinic; responsibility for patient care, working with residents.

079:108 (URO:8401) Advanced Clerkship in Urology 4 s.h.
Experience as integral member of urological staff, junior resident level.

079:109 (URO:8402) Advanced Clerkship Pediatric Urology 2,4 s.h.
In-depth study of pediatric urology topics. Prerequisites: 079:104 (URO:8301). Requirements: M.D. enrollment.

079:110 (URO:8496) Individual Study and Research arr.
Preclinical or clinical projects; may include research presentation, collaboration on a publication.

079:115 (URO:8403) Urology Oncology 2,4 s.h.
Multispecialty exposure to diagnosis and treatment of patients with current and newly-diagnosed urologic malignancies. Requirements: M.D. enrollment.

079:117 (URO:8404) Female Pelvic Floor Dysfunction 2,4 s.h.
Requirements: M.D. enrollment.

079:999 (URO:8499) Urology off Campus arr.
Individually arranged by students with department approval.
College of Nursing

Dean
- Rita A. Frantz

Associate dean for academic affairs

Assistant professors emeriti
- Toni Clow, Janice Ann Denehy, Mildred Freil, Rose Marie Friedrich, Orpha Glick, Laura Hart, Charmaine Kleiber, Jean Lakin, Leslie Marshall, Eleanor McClelland, Paula Mobily, Jean Reese, Deborah Schoenfelder, Kay Weiler

Assistant professors emeriti
- Pam Ballard, Carolyn Crowell, Louise Kruse, Sonja Lively, Sherry McKay, Frances Milde, Beverly Saboe, Mary Stewart-Dedmon, Pamela Willard

Undergraduate major: B.S.N.
Graduate degrees: M.S.N.; D.N.P.; Ph.D. in nursing
Graduate certificate: advanced practice nursing
Web site: http://www.nursing.uiowa.edu/

The College of Nursing is an integral part of the University of Iowa health science campus, sharing in and contributing to teaching, research, and patient care resources that have earned international recognition. The University provides an unusually fine setting for nursing preparation because the educational and clinical resources vital to educating nurses are available on or near the campus. Faculty and students participate fully in University life and contribute their time, interests, and abilities to the many general and special activities of a major research university.

The college’s Bachelor of Science in Nursing (B.S.N.), Master of Science in Nursing (M.S.N.), clinical nurse leader (in the M.S.N.), and Doctor of Nursing Practice (D.N.P.) programs are accredited by the Commission on Collegiate Nursing Education (CCNE), an autonomous accrediting arm of the American Association of Colleges of Nursing (AACN). They also are approved by the Iowa Board of Nursing. The anesthesia nursing program (in the Doctor of Nursing Practice) is accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs.

Graduates of the prelicensure B.S.N. qualify to take the licensure examination required for practice as registered nurses (RN). Graduates of advanced practice majors in the graduate program are eligible to take certification examinations and apply for Advanced Registered Nurse Practitioner (ARNP) licensure.

Undergraduate Programs of Study

- Bachelor of Science in Nursing

The College of Nursing offers two programs of study leading to the Bachelor of Science in Nursing (B.S.N.): a prelicensure program for students who do not hold a nursing license (see "Bachelor of Science in Nursing" below) and a program for registered nurses (see "RN-B.S.N. for Registered Nurses" below).

The B.S.N. programs prepare students for careers caring for patients in hospitals and in community agencies such as public health services, schools, homes, and industries. They also provide a base for graduate study in nursing.

In addition to combining general education with specialized career preparation, the University of Iowa programs in nursing offer the advantages of full participation in the social, cultural, and recreational activities of a highly diverse campus community. A university education enables students to prepare for a career as well as a life of thought and action informed by knowledge, introspection, and contemplation.

The B.S.N. programs provide a basis for nurses’ roles in wellness and health promotion, in acute care, and in
long-term care for chronic illness. The professional nurse may provide care to individuals, families, groups, and communities along a continuum of health, illness, and disability in any sector of the health care system.

In addition to providing care, the nurse serves as a coordinator of health care by organizing and facilitating the delivery of comprehensive, efficient, and appropriate service to individuals, families, groups, and communities. The nurse demonstrates the ability to conceptualize the total continuing health needs of the patient, including legal and ethical aspects of care. The University of Iowa programs' goal is to produce graduates who are competent, committed, creative, and compassionate.

**Bachelor of Science in Nursing**

The Bachelor of Science in Nursing prelicensure program of study requires 128 s.h., including 64 s.h. in the nursing major and 64 s.h. in supporting course work that is prerequisite to the nursing major. The program is intended for students beginning their education in nursing. A B.S.N. program for registered nurses is described under "RN-B.S.N. for Registered Nurses" below.

B.S.N. students may complete their entire program at Iowa, enrolling in the College of Liberal Arts and Sciences to complete courses that are prerequisite to the nursing major, or they may transfer from an institution that offers comparable prerequisite courses that are approved by The University of Iowa and the College of Nursing. They must earn competitive admission to the College of Nursing once they have completed the prerequisite course work. Highly qualified applicants may be admitted to the College of Nursing directly from high school under the B.S.N. early decision program; see "Admission" later in this Catalog section.

Students who are part of the B.S.N. early decision program spend their first four semesters (two years) on prerequisite course work and complete the requirements for the nursing major during the next four semesters (their third and fourth years), earning the B.S.N. in a total of four academic years. Students who earn competitive admission to the College of Nursing spend their first five semesters on prerequisite course work. They begin work for the nursing major in spring of their third year and complete the major in four semesters, earning the B.S.N. in a total of four-and-a-half-years.

University of Iowa students who have declared an interest in the prelicensure nursing program are advised at the University’s Academic Advising Center until they are admitted to the College of Nursing. After admission to the college, each student is assigned a College of Nursing faculty advisor and a professional advisor in the college’s Office of Student Services.

Nursing courses are based on concepts of health, deviations from health, and nursing intervention. Course work progresses in complexity across the curriculum. The curriculum reflects the current trend in health care delivery toward emphasis on nursing as a service provided both inside and outside hospitals. Students have access to clinical experiences selected from a multitude of agencies in Iowa and around the country.

The B.S.N. prelicensure program requires the following course work. Students must complete the prerequisite course work before beginning work required for the major in nursing.

**B.S.N.: PREREQUISITE COURSES**

Early decision students complete all of the following prerequisites during their first and second years of enrollment at The University of Iowa. Competitive admission students must complete all of the following prerequisites, with the exception of one natural science course and one social science course, before they may apply for admission to the College of Nursing.

General education prerequisites:

- 010:003 (RHET:1030) Rhetoric 4 s.h.
- 027:040 (HHP:2310) Nutrition and Health 3 s.h.
- 031:001 (PSY:1001) Elementary Psychology 3 s.h.
- 061:164 (MICR:3164) Nursing Microbiology 4 s.h.
- 060:110 (ACB:3110) Principles of Human Anatomy 3 s.h.
- 004:008 (CHEM:1080) General Chemistry II 3 s.h.
- 002:002 (Biol:1141) Introductory Animal Biology 4 s.h.
- 060:110 (ACB:3110) Principles of Human Anatomy 3 s.h.
- 010:003 (RHET:1030) Rhetoric 4 s.h.
- 004:008 (CHEM:1080) General Chemistry II 3 s.h.
- 002:002 (Biol:1141) Introductory Animal Biology 4 s.h.
- 004:007 (CHEM:1070) General Chemistry I 3 s.h.
- 002:002 (Biol:1141) Introductory Animal Biology 4 s.h.

Social science prerequisites—both of these:

- 031:001 (SOC:1010) Introduction to Sociology Principles 3 s.h.
- 034:001 (SOC:1010) Introduction to Sociology Principles 3 s.h.
- 034:002 (SOC:1020) Social Problems 3 s.h.
- 034:002 (SOC:1020) Social Problems 3 s.h.
- 034:001 (SOC:1010) Introduction to Sociology Principles 3 s.h.

Other prerequisites:

- 22M:015 (MATH:1440) Mathematics for the Biological Sciences 5 s.h.
- 061:164 (MICR:3164) Nursing Microbiology 4 s.h.
- 096:110 (NURS:3110) Healthcare Finance 3 s.h.
- 096:110 (NURS:3110) Healthcare Finance 3 s.h.
- 061:164 (MICR:3164) Nursing Microbiology 4 s.h.
- 061:164 (MICR:3164) Nursing Microbiology 4 s.h.
- 061:164 (MICR:3164) Nursing Microbiology 4 s.h.
- 034:001 (SOC:1010) Introduction to Sociology Principles 3 s.h.
- 034:002 (SOC:1020) Social Problems 3 s.h.
- 034:002 (SOC:1020) Social Problems 3 s.h.
- 034:001 (SOC:1010) Introduction to Sociology Principles 3 s.h.

**B.S.N.: COURSES REQUIRED FOR THE MAJOR**

Early decision students and competitive admission students complete the following courses for the major in nursing.

First semester in the major:

- 096:117 (NURS:3518) Pathology 3 s.h.
- 096:120 (NURS:3128) Health Assessment and Communication Across the Lifespan 3 s.h.
- 096:121 (NURS:3138) Nursing and Pharmacological Interventions I 5 s.h.
- 096:122 (NURS:3150) Clinical Simulation Laboratory I 3 s.h.
- 096:123 (NURS:3160) Professional Role I: Professionalism and Patient Safety 3 s.h.
- 096:131 (NURS:3438) Nursing and Pharmacological Interventions II 5 s.h.
- 096:132 (NURS:3450) Clinical Simulation Laboratory II 2 s.h.
- 096:133 (NURS:3460) Professional Role II: Research 2 s.h.
- 096:134 (NURS:3460) Professional Role II: Research 2 s.h.
- 096:147 (NURS:3623) Adult/Gerontological Nursing Practicum 3 s.h.
- 096:148 (NURS:3620) Gerontological Nursing 3 s.h.
- 096:149 (NURS:3625) Adult/Gerontological Nursing Practicum 5 s.h.

Second semester in the major:

- 096:117 (NURS:3518) Pathology 3 s.h.
- 096:120 (NURS:3128) Health Assessment and Communication Across the Lifespan 3 s.h.
- 096:121 (NURS:3138) Nursing and Pharmacological Interventions I 5 s.h.
- 096:122 (NURS:3150) Clinical Simulation Laboratory I 3 s.h.
- 096:123 (NURS:3160) Professional Role I: Professionalism and Patient Safety 3 s.h.
- 096:131 (NURS:3438) Nursing and Pharmacological Interventions II 5 s.h.
- 096:132 (NURS:3450) Clinical Simulation Laboratory II 2 s.h.
- 096:133 (NURS:3460) Professional Role II: Research 2 s.h.
- 096:134 (NURS:3460) Professional Role II: Research 2 s.h.
- 096:147 (NURS:3623) Adult/Gerontological Nursing Practicum 3 s.h.
- 096:148 (NURS:3620) Gerontological Nursing 3 s.h.
- 096:149 (NURS:3625) Adult/Gerontological Nursing Practicum 5 s.h.

Third semester in the major:
The RN-B.S.N. program requires the following College of Nursing electives and world language requirement (see "Admission to the RN-B.S.N. Program" below). Once a student is admitted to the RN-B.S.N. program, he or she has the option of completing the required 32 s.h. in three semesters (full-time study) or in five semesters (part-time study).

Most of the RN-B.S.N. program is delivered online, with limited face-to-face meetings that are associated with practicum experiences. Students must complete a practicum experience in Iowa and may be required to drive up to 100 miles to a regional practicum setting.

The College of Nursing participates as a receiving institution in the Iowa Statewide Articulation Plan for Nursing Education: RN to Baccalaureate. The program offers a certificate (21 s.h.) and a minor (15 s.h.). Students plan their course of study with their academic advisor in close cooperation with the Aging Studies Program coordinator. See Aging Studies (p. 31) in the Catalog for details. The Aging Studies Program is administered by the School of Social Work (College of Liberal Arts and Sciences).

**Expenses and Insurance**

Students pay University of Iowa student fees throughout the B.S.N. program. They must purchase uniforms, shoes, a stethoscope, and a watch with a full-sweep second hand, and they must pay the cost of computer testing, supplies, and materials for required nursing courses. All nursing students arrange and pay for their own health screening requirements, health insurance, and transportation once they are enrolled in clinical nursing courses. They also pay medical costs that cover the cost of criminal background checks, laboratory equipment, and professional liability insurance.

**MANDATORY HEALTH INSURANCE**

Upon admission to the College of Nursing and each August afterward, all students must provide verification that they have obtained and currently hold health insurance that satisfies the following minimal standards of coverage (or an equivalent alternative health care plan):
$250,000 lifetime benefit;
coverage for hospitalization, including coverage for room and board, physician visits, surgeon services, X-ray, and lab services;
inpatient deductible under an individual policy not exceeding $500 per admission and a 20 percent copayment/coinsurance requirement;
coverage for medically necessary care, including physician services, X-ray, and lab services for treatment of emergencies, illness, accident, and injury.

PROFESSIONAL LIABILITY INSURANCE
All students in the College of Nursing are required to carry professional liability insurance throughout the duration of their program. Agencies that provide clinical practicums for College of Nursing programs require that students have insurance coverage. The College of Nursing provides students with information about the liability insurance requirement during orientation.

B.S.N. prelicensure students are covered by a group policy supported by student fees.

RN-B.S.N. students must provide verification that they are covered by professional liability insurance for registered nurses with a minimum coverage of $1 million per single occurrence and $3 million aggregate coverage.

Admission
Students entering the University who are not licensed registered nurses (RN) apply to the B.S.N. prelicensure program. Registered nurses apply to the RN-B.S.N. program.

All entering first-year and undergraduate transfer students who have earned fewer than 24 s.h. when they apply for admission to The University of Iowa must complete the American College Test (ACT) or the Scholastic Aptitude Test (SAT). For information about the American College Test, visit the ACT web site; for information about the Scholastic Aptitude Test, visit the College Board web site.

Applicants to the B.S.N. and RN-B.S.N. programs whose first language is not English must score at least 550 (paper-based) or 81 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Registered nurses educated outside the United States are required to present verification of having passed the Commission on Graduates of Foreign Nursing Schools (CGFNS) examination and specified Excelsior baccalaureate nursing examinations.

Applicants admitted to the College of Nursing are expected to be able to meet the curriculum’s performance standards; see “Core Performance Standards” below.

A criminal background check is conducted for all prelicensure and undergraduate students before they begin the nursing major. Admission to all programs is conditional pending successful review of criminal background and abuse registry.

ADMISSION TO THE B.S.N. PRELICENSURE PROGRAM
All applicants to the B.S.N. prelicensure program (early decision applicants and competitive admission applicants) must have satisfied the following minimum high school course requirements.

English: four years
Mathematics: three years, including algebra I, algebra II, and geometry
Science: one year of biology, one year of chemistry, and one year of physics
Social science: three years
World languages: four years (fourth-level proficiency) of the same world language or two years (second-level proficiency) in each of two world languages

B.S.N. Early Decision Admission
A select group of highly qualified students are admitted to the College of Nursing directly from high school through the B.S.N. early decision program (EDP). To be considered for the EDP, students must:

- have an ACT composite score of at least 28;
- have an ACT science reasoning score of at least 25;
- have a g.p.a. of at least 3.80; and
- have completed the minimum high school course requirements listed under "Admission to the B.S.N. Prelicensure Program" above.

Students admitted through the Early Decision Program must maintain a cumulative g.p.a. of at least 3.00 and clean criminal and student life records during their first four semesters in the program. Students who fail to meet these requirements may be subject to probation or dismissal from the EDP.

B.S.N. Competitive Admission
In order to apply for competitive admission to the College of Nursing, students must:

- have a cumulative g.p.a. of at least 3.00;
- have a minimum of 48 s.h. of college credit;
- have completed the minimum high school course requirements listed under "Admission to the B.S.N. Prelicensure Program" above, with any deficiencies satisfied through college course work;
- have completed all B.S.N. prerequisite course work listed under "Bachelor of Science in Nursing" above (a maximum of one natural science prerequisite and one social science prerequisite may be in progress or planned at the time of application); and
- must have a grade of C (2.00) or higher on all prerequisite course work.

In order to enter the College of Nursing, successful competitive admission applicants must:

- maintain a cumulative g.p.a. of at least 3.00;
- have a minimum of 64 s.h. of college credit; and
- have completed any remaining prerequisite course work listed under "Bachelor of Science in Nursing" above, including any remaining natural science and/or social science prerequisites.

Successful competitive admission students must complete any remaining natural science prerequisite no more than
10 years before they enter the College of Nursing and enroll in course work for the nursing major.

**ADMISSION TO THE RN-B.S.N. PROGRAM**

Applicants to the RN-B.S.N. program must hold an RN license and an Associate Degree in Nursing or Diploma in Nursing. They must have a cumulative g.p.a. of at least 3.00. Admission is highly competitive, with emphasis on the natural sciences (anatomy, biology, chemistry, microbiology, physiology), writing (composition I and II), and mathematics (statistics).

Applicants must complete prerequisite course work before applying to the RN-B.S.N. program and additional elective course work before entering the program. They may complete these requirements at a community college.

They also must complete course work in one or more world languages; the requirement varies according to the applicant’s year of high school graduation:

- before 1991: applicant is exempt from the world language requirement;
- 1991-2010: applicant must demonstrate second-level proficiency in a single world language;
- 2011 and after: applicant must demonstrate fourth-level proficiency in a single world language or second-level proficiency in each of two world languages.

**CORE PERFORMANCE STANDARDS**

Applicants to the College of Nursing are expected to be capable of completing the entire nursing curriculum and of earning a B.S.N. degree. Nursing is a practice discipline with cognitive, sensory, affective, and psychomotor performance requirements. The college’s core performance standards provide an objective measure on which to base informed decisions about whether individual students will be able to participate in the nursing program. The core performance standards also help students determine whether they will need accommodations or modifications in order to participate.

The core performance standards are provided to all students before admission and are available online in the B.S.N. Student Handbook; see Section II: Admission/ Matriculation Requirements. A student with disabilities who believes that he or she may need assistance in meeting the core performance standards should contact Student Disability Services.

**SELECTION**

The college’s admission committee recommends to the dean the applicants who appear to be best qualified. Fulfillment of minimum admission requirements does not guarantee admission to the College of Nursing. The committee may require personal interviews. A physical examination report and specific health screening requirements must be on file at University of Iowa Student Health & Wellness 10 days before the class opens for the first clinical nursing course.

**APPLICATION DEADLINES**

B.S.N. prelicensure early decision admission: January 1 for fall entry

B.S.N. prelicensure competitive admission: September 1, 2013, for spring 2014 entry; April 1, 2014, for spring 2015 entry

RN-B.S.N. program: January 30 for fall entry

**Financial Support**

In addition to general assistance available to University students, there are assistance programs specifically for nursing students. Information about financial aid is available from the University’s Office of Student Financial Aid.

**Graduate Programs of Study**

- Master of Science in Nursing
- Doctor of Nursing Practice
- Doctor of Philosophy in nursing
- Certificate in Advanced Practice Nursing

Graduate students in the College of Nursing must adhere to all Graduate College policies regarding academic standing, probation, and dismissal; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

**Master of Science in Nursing**

The Master of Science in Nursing requires a minimum of 39 s.h. of graduate credit. The program has a clinical nurse leader focus. It is designed to build on general and professional baccalaureate study.

The M.S.N. curriculum consists of a core component of 28 s.h., which students take with College of Nursing doctoral students, and a specialization component of 11 s.h. that centers on the clinical nurse leader role.

Students must maintain a g.p.a. of at least 2.75 and must successfully complete a thesis, project, or portfolio.

Graduate students in the College of Nursing must adhere to all Graduate College policies regarding academic standing, probation, and dismissal. Transfer credit applicable to the M.S.N. is limited and must be approved by the College of Nursing associate dean for academic affairs. Course work taken 10 years or more before the M.S.N. final examination must be updated according to University policy.

The M.S.N. requires the following course work.

See the M.S.N. course plan on the College of Nursing web site for a semester-by-semester course schedule.

**Doctor of Nursing Practice**

The Doctor of Nursing Practice requires a minimum of 72 s.h. of graduate credit. Students may complete the program in four years of full-time study; part-time study also is available. Individuals who have been granted an M.S.N. may complete the D.N.P. with a minimum of 31 s.h. of graduate credit.

The D.N.P. program prepares nurses for leadership and advanced practice roles. Students choose from a number of specialties, including adult/gerontology nurse practitioner, anesthesia nursing, family nurse practitioner, health systems, neonatal nurse practitioner, pediatric nurse practitioner, and psychiatric/mental health nursing.

All D.N.P. students complete basic graduate core courses, specialty courses, advanced core courses, and practicums. In didactic courses, they explore clinical leadership, public policy and advocacy, specialty systems, change theory, finance and business, and entrepreneurial tools. Visit D.N.P. Plans of Study on the College of Nursing web site to see required course work for each D.N.P. specialty.

D.N.P. students must complete a minimum of 1,000 practice experience hours. Individuals who enter the program having completed an M.S.N. may transfer approved clinical hours from their M.S.N. program to the D.N.P. program. The clinical hours requirement is evaluated for each student who has completed an M.S.N. with a specialty program. Students who completed more than 1,000 practice experience hours in an M.S.N. advanced practice program still must complete the number of D.N.P. practicum and capstone project hours determined in consultation with their advisor and the D.N.P. program’s director.

Transfer credit applicable to the D.N.P. is limited and must be approved by the College of Nursing associate dean for academic affairs. Transcripts for individuals who have completed an M.S.N. are evaluated individually.

Graduate students in the College of Nursing must adhere to all Graduate College policies regarding academic standing, probation, and dismissal. Course work taken 10 or more years before a student plans to graduate from the D.N.P. program must be updated according to University policy.

The Ph.D. in nursing requires the following work.

**REQUIRED COURSES**

Basic core (required for students who enter with a B.S.N.):

- 096:201 (NURS:5007) Applied Epidemiology 3 s.h.
- 096:202 (NURS:5008) Foundations of Nursing Science I 3 s.h.
- 096:330 (NURS:6802) Health Policy, Law, and Advocacy 3 s.h.
- 096:338 (NURS:7002) Designing Research 3 s.h.
- 096:339 (NURS:6811) Social Determinants of Health and Health System Inequities 3 s.h.
- 096:497 (NURS:7801) Seminar: Research Scholarship 3 s.h.
- 096:498 (NURS:7802) Role Development 3 s.h.
- Intermediate statistics 3 s.h.
- Clinical specialization courses 6 s.h.
- Elective course 3 s.h.

Advanced research methods:

- 096:334 (NURS:7003) Quantitative Research 4 s.h.
- 096:330 (NURS:7002) Designing Research 4 s.h.
- 096:490 (NURS:7803) Research Practicum I 1 s.h.
- 096:491 (NURS:7804) Research Practicum II 1 s.h.
- 650:270 (GRAD:7270) Principles of Scholarly Integrity 0-1 s.h.
- Advanced statistics 6 s.h.

Content focus:

- Advanced Seminar in Health Research 3-6 s.h.
- Cognate courses 6-9 s.h.

Dissertation (students must earn a minimum of 11 s.h.).

**COMPREHENSIVE EXAM AND DISSERTATION**

All Ph.D. students must complete a written and oral comprehensive examination before they begin work on the dissertation. They must write the dissertation and defend it orally.

**Certificate**

The Certificate in Advanced Practice Nursing program enables D.N.P. students who are certified in a specialty area to pursue clinical training in a second specialty area. Students choose from one of five areas: adult/gerontology nurse practitioner, family nurse practitioner, neonatal nurse practitioner, pediatric nurse practitioner, or psychiatric/mental health nursing. Certificate requirements include advanced clinical core courses and a sequence of specialty courses determined by the coordinator of the specialty area. Students who complete the D.N.P. program and the certificate requirements are qualified to sit for a professional certification examination. Completion of the certificate and specialty area is noted on the student’s transcript.
Related Certificate: Informatics

The Graduate College offers the Certificate in Informatics with a health informatics subtrack, which requires 18 s.h. of credit. The subtrack emphasizes the organization, management, and use of health care information; health care research, education, and practice; and information technology developments in the socioeconomic context of health care.

College of Nursing students working toward the certificate complete 096:283 (NURS:5300), which explores decision-making processes and technological tools to support health care administration, management, and practice; and 096:289 (NURS:5301), which focuses on field projects related to health informatics topics and includes a seminar. Students earn an additional 12 s.h. of credit in courses outside their major program of study, chosen in consultation with their major program advisor and their certificate advisor. Students who earn credit for a thesis, project, or independent study in their major program of study may apply the credit to the Certificate in Informatics if the certificate advisor determines that the subject matter is pertinent.

Completion of the certificate is noted on the student’s transcript. To learn more, see “Certificate” in the Informatics (p. 929) (Graduate College) section of the Catalog.

Admission

Applicants to College of Nursing graduate programs must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog. Applicants must have a g.p.a. of at least 3.00.

The College of Nursing has additional application requirements, as follows.

Applicants whose first language is not English must score at least 550 (paper-based) or 81 (Internet-based) on the Test of English as a Foreign Language (TOEFL); or they must score at least 7.0 on the International English Language Testing System (IELTS).

A criminal background check is required for all graduate students upon admission.

ADMISSION TO THE M.S.N. AND D.N.P. PROGRAMS

Application requirements specific to the M.S.N. and D.N.P. programs are:

- a bachelor’s degree with a major in nursing from an accredited program;
- satisfaction of the legal requirements for the practice of nursing in Iowa;
- current written recommendations from three persons knowledgeable about the applicant’s competence in the practice of nursing and potential for leadership and scholarship (forms required);
- a current résumé, goal statement, and supplemental/information form;
- transcripts from all undergraduate and graduate course work;
- completion of an upper-division nursing research course in the undergraduate program; and
- completion of an upper-level statistics course within five years of the application deadline; acceptable University of Iowa courses include 07P:143 (PSQF:5143), 22S:101 (STAT:3510), 22S:102 (STAT:5543), and 171:161 (BIOS:5110); see How Do My Courses Transfer? on ISIS for information about using equivalent courses from other institutions.

Application deadline for the M.S.N. program is October 1.

Application deadline for the D.N.P. program is October 1 for all specialties except anesthesia nursing, which has a June 1 application deadline.

Applications to both programs are reviewed once a year. In order to be reviewed, the application must be complete, with all materials submitted.

Applicant interviews are required for the D.N.P. and M.S.N. programs; in some cases, telephone interviews may be arranged. D.N.P. applicants with master’s degrees in nursing from other schools must provide verification of completed clinical hours from their school’s graduate director or must submit appropriate course syllabi.

ADMISSION TO THE PH.D. PROGRAM

The Ph.D. program accepts applications from individuals who have earned a B.S.N. or a master’s degree.

Applicants to the Ph.D. program must have taken the Graduate Record Examination (GRE) General Test, preferably within the preceding five years. They must have completed an accredited basic nursing program and must hold a current license to practice nursing (special license for international students). They also must have a g.p.a. of at least 3.00. Applicants must submit:

- a two-to-three-page statement describing their educational objectives, career goals, and an area of research for their doctoral study;
- three recommendations from nursing professionals that speak to the applicant’s potential as a scholar;
- a current résumé or curriculum vitae; and
- a complete transcript of all college programs and courses.

Applicants who hold a master’s degree must have successfully completed at least one graduate-level course in research and inferential statistics (3 s.h.).

B.S.N. graduates who apply directly to the Ph.D. program must have successfully completed an upper-division course in statistics. They also must submit a strong statement of their educational goals, career goals, and potential area of research.

Application deadline for the Ph.D. program is November 15. Applications are reviewed once a year. In order to be reviewed, the applicant’s file must be complete, with all materials submitted.

Professional Improvement

Registered nurses who wish to take University of Iowa course work to fulfill professional or personal improvement objectives may request admission in the professional improvement (PI) category. This admission status allows
students to take some graduate courses at the University without committing to a degree objective.

Admission as a nursing professional improvement student requires a formal application, including submission of three current written recommendations and all academic transcripts. GRE General Test scores, required by the University, must be submitted before the end of first semester registration.

Application deadlines are July 15 for fall semester admission, December 1 for spring semester admission, and May 1 for summer session admission.

Since acceptance as a PI student does not influence acceptance to the college’s graduate degree programs, PI students interested in earning a graduate degree in nursing must apply for admission to the degree program (see “Admission” under “Graduate Programs” above). Students may count a maximum of 6 s.h. or two required nursing core courses that they complete as PI students toward M.S.N. requirements. Professional improvement students may not enroll in Ph.D. courses.

Continuing Education

The college offers nonacademic, short-term continuing education programs for registered nurses. Continuing Education Units (CEUs) are awarded for these programs. The College of Nursing is an Iowa Board of Nursing approved provider of continuing education, Provider Number 1.

Student Organizations

All College of Nursing undergraduate students are members of the National Student Nurses Association and its local chapter, the Iowa Association of Nursing Students. The University of Iowa Association of Nursing Students (UIANS) provides opportunities for professional growth and development in nursing. UIANS representatives are members of the University of Iowa Student Government (UISG).

The University of Iowa Minority Student Nurse Association (UIMNSA) provides opportunities for professional growth and development for students from underrepresented in nursing. UIMNSA board members are members of the University of Iowa Student Government.

University of Iowa Men in Nursing (UIMIN) provides opportunities for nurses to meet, to recruit, to talk, and to influence the environment for men in nursing. It is open to all nursing students.

The college’s Association of Graduate Nursing Students (AGNS) provides opportunities for professional growth, sharing of research, and representation on varied college and University committees.

Facilities

The College of Nursing Building is centrally located on the University’s main campus, in close proximity to the Carver College of Medicine, the College of Dentistry, the College of Pharmacy, the College of Public Health, University of Iowa Hospitals and Clinics, Bowen Science Building, and the Hardin Library for the Health Sciences.

The college’s building was completed in 1971. Administrative offices are located on the first floor, a research suite is on the second floor, and faculty offices are on the third and fourth floors. The lower level houses the Office of Student Services; a student lounge; a computer lab; and the Ph.D. student office, with desk space, access to computers, a printer, a copier, and a meeting space. Classrooms are located throughout the building.

The Nursing Clinical Education Center provides clinical experiences for nursing students and serves as a resource for the University’s professional nursing staff. Opened in 2006 at University of Iowa Hospitals and Clinics, the center offers the latest technology in an 11-room clinical simulation lab. It also has an 86-seat classroom, a resource library, and gathering spaces for private study. The center is operated collaboratively by the College of Nursing and UI Hospitals and Clinics Department of Nursing Services and Patient Care.

Courses

Primarily for Undergraduates

096:029 (NURS:1020) First-Year Seminar 1 s.h.
Introduces first-year undergraduate students to the intellectual life of the University of Iowa; provides an opportunity to work closely with a faculty member or senior administrator; seminars help students make the transition to college-level learning through active participation in their own learning.

096:030 (NURS:1030) Human Development and Behavior 3 s.h.
Normal developmental transitions experienced by individuals and family systems throughout the lifespan, including physical, cognitive, and social-emotional development. Prerequisites: 031:001 (PSY:1001). Requirements: nursing or nursing-interest major.

096:107 (NURS:3198) Distance Education: Independent Study 1-3 s.h.
Supervised study designed for individual undergraduate students.

096:108 (NURS:3008) Basic Aspects of Aging 3 s.h.

096:109 (NURS:3099) Leadership U 1-3 s.h.
Development of leadership in nursing; application of leadership theory in practice by participating in activities such as attending professional organization meetings, acting as a delegate, writing legislation, holding a board position, or being part of a multidisciplinary or international team to organize events for community involvement. Requirements: nursing major.

096:110 (NURS:3110) Healthcare Finance 3 s.h.
Basic structure of U.S. health care system and how it is funded; tools for making decisions about available financial resources.

096:112 (NURS:3712) Human Sexuality, Diversity, and Society 1-3 s.h.
Physiological, psychological aspects; parameters defined by students, instructor. Same as 042:112 (SW:3712).

096:113 (NURS:4096) Distance Education: Honors Independent Study
Supervised study designed for individual honors undergraduate students.

096:116 (NURS:3734) Introduction to Human Genetics
Introduction to organization of the human genome and basic principles of inheritance in humans; cells and development, chromosome structure and function, gene structure and function, genes in pedigrees and populations, implications of genetic variation on health.

096:117 (NURS:3518) Pathology
Introduction to abnormal functioning of cells, tissues, organs, and systems over the human lifespan; focus on hematological, immune, neurological, muscularkeletal, cardiovascular, respiratory, renal, gastrointestinal, endocrine, and reproductive system; alterations in metabolic processes and alterations in homeostatic mechanisms impacting the internal milieu; emphasis on critical thinking. Prerequisites: 002:002 (BIOL:1141), 004:007 (CHEM:1070), 004:008 (CHEM:1080), 027:130 (HPH:3500), 060:110 (ACB:3110), and 061:164 (MICR:3164).

096:120 (NURS:3128) Health Assessment and Communication Across the Lifespan
Assessment and communication skills; development and application of cognitive skills to perform systematic, holistic, and culturally competent health assessments; emphasis on application of clinical reasoning involving assessment, nursing diagnoses, interventions, and outcomes. Corequisites: 096:117 (NURS:3518), 096:121 (NURS:3138), 096:122 (NURS:3150), and 096:123 (NURS:3160). Requirements: admission to the College of Nursing.

096:121 (NURS:3138) Nursing and Pharmacological Interventions I
First of a two-part series focusing on basic biophysical concepts that inform nursing and pharmacological interventions, including sleep, immobility, skin care, wound healing, infection, and human response to illness; selected disorders and/or diseases, including GI disease, disorders of bowel and urine elimination, diabetes, and cancer; introduction to health literacy and principles of health education. Prerequisites: 002:002 (BIOL:1141), 004:007 (CHEM:1070), 004:008 (CHEM:1080), 22M:015 (MATH:1440), 027:130 (HPH:3500), 060:110 (ACB:3110), and 061:164 (MICR:3164). Corequisites: 096:117 (NURS:3518), 096:120 (NURS:3128), 096:122 (NURS:3150), and 096:123 (NURS:3160). Requirements: 64 s.h. of undergraduate course work, including successful completion of required science courses and general education liberal arts and sciences requirements and electives.

096:122 (NURS:3150) Clinical Simulation Laboratory I
First of a two-part series focusing on laboratory-based learning and simulation experience involving basic biophysical and psychosocial assessment skills needed to provide safe and effective nursing care across diverse settings and populations; emphasis on development of nurse-patient and inter- and inter-professional communication skills. Requirements: admission to the College of Nursing.

096:123 (NURS:3160) Professional Role I: Professionalism and Patient Safety
Introduction to inherent nursing values, history, theories, and scope of professional nursing; concepts of safety, risk identification, and clinical decision making; information technologies that promote quality and safety. Requirements: admission to the College of Nursing.

096:125 (NURS:3715) Health Disparities and Cultural Competence
Characteristics, causes, and effects of health disparities in the U.S. health care system; foundation for development of knowledge, attitudes, and skills required of culturally competent health care providers; definitions and models of cultural competence, characteristics of culturally effective practitioners and workplaces; health disparities among specific populations, evidence for cultural competence as a remedy; taking a culturally appropriate history; working with interpreters; legal and professional imperatives for cultural competence. Same as 046:377 (PHAR:8715), 172:135 (CBH:5225).

096:128 (NURS:3728) Patient Safety for Health Professional Students
Interprofessional experience using multiple pedagogic methods, including team-based simulation to teach about patient safety and teamwork; collaboratively taught by representatives from anesthesia, pediatrics, internal medicine, Office of Consultation and Research in Medical Education, College of Nursing, College of Public Health, and office of UIHC chief quality officer. Same as 050:310 (MED:8410).

096:130 (NURS:3730) Teaching and Learning Online
Synthesis and critical evaluation of current knowledge regarding use of online learning as a tool; empirical research, best practices, and available resources to support effective implementation and management of online learning; skill development and practice; web-based course.

096:131 (NURS:3438) Nursing and Pharmacological Interventions II
Second of a two-part series focusing on complex biophysical concepts that inform nursing and pharmacological interventions, including fluids and electrolytes, shock, and perioperative care; focus on selected disorders and/or diseases, including neurological, immune, muscularkeletal, cardiovascular, respiratory, renal, and endocrine disorders. Prerequisites: 096:121 (NURS:3138) and 096:122 (NURS:3150). Corequisites: 096:132 (NURS:3450), 096:133 (NURS:3460), 096:148 (NURS:3620), and 096:149 (NURS:3625).

096:132 (NURS:3450) Clinical Simulation Laboratory II
Second of a two-part series focusing on laboratory-based learning and simulation experience involving complex biophysical and psychosocial assessment skills, critical thinking, and decision making needed to provide safe and effective nursing care across diverse settings and populations; emphasis on development of clinical reasoning skills across the lifespan, including end-of-life care. Prerequisites: 096:117 (NURS:3518), 096:120 (NURS:3128), 096:121 (NURS:3138), 096:122 (NURS:3150), and 096:123 (NURS:3160). Corequisites: 096:131 (NURS:3438).

096:133 (NURS:3460) Professional Role II: Professionalism and Patient Safety
Second of a two-part series focusing on laboratory-based learning and simulation experience involving complex biophysical and psychosocial assessment skills, critical thinking, and decision making needed to provide safe and effective nursing care across diverse settings and populations; emphasis on development of clinical reasoning skills across the lifespan, including end-of-life care. Prerequisites: 096:117 (NURS:3518), 096:120 (NURS:3128), 096:121 (NURS:3138), 096:122 (NURS:3150), and 096:123 (NURS:3160). Corequisites: 096:131 (NURS:3438).
Introduction to concepts and process of research in nursing: primary focus on understanding research and its foundation for nursing practice. Requirements: basic statistics. Recommendations: upper-level statistics.

096:137 (NURS:3737) Nursing Care of the Patient in Pain

096:139 (NURS:3520) Parent-Child Nursing
Health promotion, maintenance, and restoration for parents, infants, children, and adolescents in childbearing and child-rearing families.

096:140 (NURS:3521) Parent-Child Nursing Practicum

096:142 (NURS:3531) Gerontological Nursing Practicum
Nursing process applied to promote, maintain, and restore health of older adults; opportunities to provide nursing care to well elderly and to acutely and/or chronically ill elderly in a variety of settings.

096:143 (NURS:3685) Research for Nursing Practice
Introduction to the concepts and process of nursing research; focus on critique of published research and application to nursing practice. Requirements: nursing major and an approved statistics course.

096:144 (NURS:3630) Parent-Child Nursing

096:146 (NURS:3246) Health Promotion for Older Adults
Problems, strategic efforts toward long-term goal of health promotion; disease prevention; slowing the decline caused by chronic conditions to extend independent, rewarding lives. Same as 153:146 (ASP:3246), 169:146 (LEIS:3246).

096:147 (NURS:3740) End-of-Life Care for Adults and Families

096:148 (NURS:3620) Gerontological Nursing

096:149 (NURS:3625) Adult/Gerontological Nursing Practicum
In-depth clinical experience designed to apply basic and complex concepts of nursing care for adults of all ages in a variety of settings; focus on older adults; development and application of critical thinking skills necessary to understand disease process and the associated signs and symptoms, interventions, and outcomes. Prerequisites: 096:117 (NURS:3518), 096:120 (NURS:3128), 096:121 (NURS:3138), 096:122 (NURS:3150), and 096:123 (NURS:3160). Corequisites: 096:131 (NURS:3438), 096:132 (NURS:3450), 096:133 (NURS:3460), and 096:148 (NURS:3620).

096:150 (NURS:3199) Independent Study
Supervised study designed for individual undergraduate students.

096:151 (NURS:4099) Honors Independent Study
Supervised study designed for individual honors students.

096:152 (NURS:4098) Honors Seminar
Supervised study designed for individual honors students.

096:153 (NURS:3540) Community and Public Health Nursing Theory: Generalist
Nursing's role in the relationship between community conditions and public health; principles of public health with nursing knowledge and skills to address health needs of individuals, families, communities, populations.

096:154 (NURS:3541) Community and Public Health Nursing Practicum: Generalist
Application of public health principles with nursing knowledge and skills to address the health needs of communities and populations. Corequisites: 096:153 (NURS:3540), if not taken as a prerequisite.

096:155 (NURS:3550) Psychiatric/Mental Health Nursing
General principles and practices of psychiatric/mental health nursing; psychiatric disorders, populations at risk, continuity of care, problems in daily living.

096:156 (NURS:3551) Psychiatric/Mental Health Nursing Practicum
Nursing process used to deliver nursing care to individuals and families with mental illness in a variety of clinical settings; focus on promotion, maintenance, restoration of the mental health of individuals and families. Corequisites: 096:155 (NURS:3550), if not taken as a prerequisite.

096:157 (NURS:4040) Nursing Leadership and Care Management

3 s.h.
Analysis of nursing leadership, care management, and models of care in the context of society and the interdisciplinary health care system. Requirements: senior standing in the College of Nursing.

096:158 (NURS:4050) Clinical Nursing Internship 5 s.h.
Independent internship in one of a variety of health care settings to promote role transition, lifelong learning; emphasis on integration and application of knowledge and skills to design, provide, manage, and coordinate care. Requirements: senior standing in the College of Nursing.

096:159 (NURS:4030) Contemporary Nursing Practice Issues 3 s.h.
Identification, exploration, analyses of selected issues in nursing and health care; impact of significant historical, social, political, genetic, legal, and ethical factors on development of the nursing discipline. Requirements: senior standing in the College of Nursing.

096:160 (NURS:3640) Psychiatric/Mental Health Nursing 3 s.h.

096:161 (NURS:3645) Mental Health and Parent-Child Nursing Practicum 4 s.h.
Application of nursing knowledge to promote, maintain, and restore health; vulnerable populations of interest include persons with mental health disorders, infants, children, adolescents, and families; processes of childbearing and childrearing within the context of families. Prerequisites: 096:149 (NURS:3625). Corequisites: 096:144 (NURS:3630), 096:160 (NURS:3640), and 096:162 (NURS:3660). Requirements: successful completion of two semesters in BSN curriculum.

096:162 (NURS:3660) Professional Role III: Improving Health Systems 2 s.h.
Legal and regulatory processes that impact health care, how disparities influence health care, and evidence-based approaches for improving quality of care; strategies for working effectively in intra and interdisciplinary teams; integration of a culture of safety. Prerequisites: 096:123 (NURS:3160) and 096:133 (NURS:3460).

096:163 (NURS:3560) Information Management and Patient Care Technology in Practice 3 s.h.
Information management, patient care technology; information systems for quality improvement data, regulatory reporting; range of technologies and infrastructure of evidence-based information for clinical care, including patient monitoring systems, medication administration systems, longitudinal electronic records, clinical decision support tools, and other data gathering devices to support patient care; open to continual learning. Requirements: admission to the prelicensure B.S.N. program.

096:164 (NURS:3650) Community and Public Health Nursing 3 s.h.
Role of nursing in the relationship between community conditions and public health; emphasis on principles of public health combined with nursing knowledge and skills to address health needs of individuals, families, communities, and populations. Prerequisites: 096:110 (NURS:3110), 096:117 (NURS:3518), 096:123 (NURS:3160), 096:133 (NURS:3460), and 096:162 (NURS:3660). Corequisites: 096:165 (NURS:3655). Requirements: (for pre-licensure BSN student) successful completion of 096:144 (NURS:3630), 096:148 (NURS:3620), 096:149 (NURS:3625), 096:160 (NURS:3640), and 096:161 (NURS:3645), and concurrent enrollment in 096:166 (NURS:4155) and 096:167 (NURS:4160); (for post-licensure RN-BSN student) successful completion of 096:167 (NURS:4160) and 096:170 (NURS:4165), 6 s.h. of required nursing elective courses, and completion of general education electives.

096:165 (NURS:3655) Community and Public Health Nursing Practicum 2 s.h.
Learning opportunities to apply principles of public health with nursing knowledge and skills to address health promotion, disease and injury prevention, and nursing management of infectious disease and chronic health conditions; nursing activities focus on improvement of health outcomes at individual, family, community, and global levels within the context of population-focused practice. Corequisites: 096:164 (NURS:3650). Requirements: (for pre-licensure BSN student) successful completion of 096:149 (NURS:3625) and 096:161 (NURS:3645), and concurrent enrollment in 096:166 (NURS:4155) and 096:167 (NURS:4160); (for post-licensure RN-BSN student) successful completion of 096:110 (NURS:3110), 096:116 (NURS:3734), 096:117 (NURS:3518), 096:123 (NURS:3160), 096:133 (NURS:3460), 096:162 (NURS:3660), 096:167 (NURS:4165), and 096:170 (NURS:4165); 6 s.h. of required nursing electives; completion of general education electives; RN licensure in state of practice; and concurrent enrollment in 096:116 (NURS:3734), if not taken as a prerequisite.

096:166 (NURS:4155) Senior Nursing Internship 5 s.h.

096:167 (NURS:4160) Professional Role IV: Leadership and Professional Engagement 3 s.h.
Concepts of leadership, fellowship, management, informatics, and professional engagement; quality improvement strategies and skills; professional development, career trajectory, and role transitions. Prerequisites: 096:123 (NURS:3160), 096:133 (NURS:3460), and 096:162 (NURS:3660). Corequisites: 096:162 (NURS:3660), if not taken as a prerequisite.

096:168 (NURS:3595) Nonprofit Organizational Effectiveness I 3 s.h.

096:169 (NURS:3600) Nonprofit Organizational Effectiveness I 3 s.h.
Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Same as 024:148 (MUSM:3600), 06J:148 (MGMT:3600), 042:158 (SSW:3600), 032:128 (RELS:3701).

096:170 (NURS:4165) Professional Role IV: Leadership and Professional Engagement Practicum 2 s.h.

096:179 (NURS:3742) Selected Topics in Nursing 1-2 s.h.
In-depth study of topics in professional nursing practice and health care; workshop format.

096:181 (NURS:3781) Clinical Instruction in Nursing Education 3 s.h.
Role and functions of the nurse educator in the clinical setting; development of teaching strategies and learning activities that support effective clinical and laboratory instruction; evidence-based teaching and evaluation practices; how to incorporate the core concepts of critical thinking for clinical decision-making, effective communication, and cultural competence into clinical experiences; learners with diverse learning styles and backgrounds; ethical and legal implications in clinical teaching and evaluation of learning; technology and emerging trends that impact teaching in the clinical setting. Requirements: RN-BSN or graduate standing.

096:187 (NURS:3736) Legal Issues for Health Care Providers 3 s.h.
Legal issues faced by health care providers, counselors, and social services providers; administrative and regulatory requirements, civil lawsuits, issues that affect students as providers, advocates, and individuals.

Primarily for Graduate Students
Courses are offered only if minimum enrollments are maintained.

096:201 (NURS:5007) Applied Epidemiology 3 s.h.
Basic principles and methods of epidemiology; application to field of nursing and nursing research; historical perspective of epidemiology, epidemiological models of health and disease, measures of disease occurrence and association, disease screening, causal inference, study design and application of epidemiological approaches to clinical practice, program planning and evaluation.

096:202 (NURS:5008) Foundations of Nursing Science I 3 s.h.
Integration of interdisciplinary theories and philosophies of science relevant to nursing; emphasis on application of theory and philosophy in advanced nursing practice and research. Requirements: doctoral standing.

096:203 (NURS:5016) Healthcare Infrastructure and Policy 3 s.h.
Health care infrastructure; health care reform and its implementation; political theories, policy definition, role of health professionals in policy-making process, information technology and its role in patient care, cultural factors affecting access and quality of care.

096:204 (NURS:5017) Quality and Safety 3 s.h.
Foundation for understanding concepts of safety and quality across health care settings; providing a safe environment; elevating staff performance and clinical outcomes related to safety and quality; methods for continuous improvement.

096:207 (NURS:5018) Clinical Education in the Care Environment 3 s.h.
Preparation to assume role of educator with individuals, groups, and communities, including staff and students; teaching/learning process for providing client education; knowledge and skills needed to effectively fill role of preceptor/mentor.

096:208 (NURS:5002) Leadership and Management Essentials 3 s.h.
Roles and strategies for leading and managing others in health care environments to influence health care delivery and provide a healthy, innovative working environment; focus on selected leadership and organizational concepts essential to leaders in health care. Requirements: graduate standing.

096:211 (NURS:5009) Evaluating Evidence for Practice 3 s.h.
Opportunity for clinicians to develop proficiency in use of research- and evidence-based practice; essentials of the research process, qualitative and quantitative research, components of evidence-based practice; acquisition of knowledge and skills necessary for research (knowledge) utilization initiatives and application of evidence-based practice principles in clinical settings; identification of appropriate research questions, synthesis of knowledge base for evidence-based practice, revision of clinical practice guidelines, and evaluation of research utilization and evidence-based practice initiatives.

096:213 (NURS:5025) Physiology and Pathophysiology for Advanced Clinical Practice 3-4 s.h.
Regulation of cellular, organ, and system function; regulation of internal milieu; functional interrelationships among body systems; cellular and body-wide mechanisms of self-defense; illustrative examples of pathological phenomena.

Global, economic, organizational, legal, political, and technological contexts in advanced nursing practice; knowledge and skills necessary for understanding the evolution of health services organizations, financing of health care, and relationships among socioeconomic systems influencing health care and nursing practice; impact of macrosystems on distribution, acquisition, and use of financial and economic principles in delivery of health care services. Prerequisites: 096:208 (NURS:5002).
096:216 (NURS:4216) Group Facilitation in Human Sexuality
0-3 s.h.
Principles of group dynamics, group process; leadership skills for small, task-oriented discussion groups on human sexuality. Prerequisites: 042:112 (SSW:3712). Same as 042:216 (SSW:4216).

096:217 (NURS:5031) Health Promotion and Assessment for Advanced Clinical Practice
3-5 s.h.
Didactic and clinical laboratory instruction; emphasis on knowledge and skills necessary for advanced health assessment and health promotion interventions for individuals and families across the lifespan.

096:218 (NURS:5032) Mental Disorders in Advanced Practice
3 s.h.
Foundation for advanced practice nurse to provide care for common mental health disorders; presentation of neurophysiological, genOMIC, environmental/social, and developmental theories to understand etiology and presentation of common mental health conditions; psychopharmacological and nonpharmacological principles and modalities for treatment of common mental health problems. Requirements: admission to direct care DNP program.

096:219 (NURS:6100) Primary Care: Infants, Children, and Adolescents I
3 s.h.
Enhancement of clinical knowledge and skills for infant, child, adolescent care. Prerequisites: 096:213 (NURS:5025) and 096:224 (NURS:5029).

096:220 (NURS:6101) Primary Care: Infants, Children, and Adolescents II
3 s.h.

096:224 (NURS:5029) Pharmacotherapeutics for Advanced Clinical Practice
4 s.h.
Pharmacologic, pharmacokinetic, and pharmacodynamic principles essential for advanced clinical practice; classes of drugs frequently used in management of common clinical conditions; legal considerations in prescriptive authority. Prerequisites: 096:213 (NURS:5025).

096:226 (NURS:5636) Clinical Nurse Leader Seminar
2 s.h.
Evolution of clinical nurse leader (CNL) role, eight core role functions, and the process of integration of CNL role into health care system. Requirements: admission to MSN-CNL program.

096:227 (NURS:5666) Leadership in the Microsystem
3 s.h.
Assessment of the microsystem of practice, clinical nurse leader role as leader embedded in a microsystem, and identification of opportunities to enhance care delivery in the microsystem. Requirements: admission to MSN-CNL program.

096:228 (NURS:5500) Advanced Practice Genetic Nursing I
1-3 s.h.
Advanced practice genetic nursing for those at risk for genetic conditions or a condition with a genetic component; application of genetic/genomic science to nursing practice including chromosomal variations; Mendelian and nontraditional inheritance; preconception and prenatal health care in genetics; dysmorphology examinations; developmental delay associated with genetic conditions; application of molecular methodology to clinical and research practice; beliefs about race and ethnicity in the genomic era; ethical, legal, and social implications of genetic nursing. Corequisites: 096:116 (NURS:3734). Requirements: enrollment in APN-Genetics MSN program.

096:230 (NURS:5501) Advanced Practice Genetic Nursing II
1-3 s.h.
Advanced practice genetic nursing for individuals, families, and populations who are at risk for genetic conditions or who have a condition with a genetic component; application of genetic science to nursing assessments, interventions, and outcomes; genomics and the delivery of health care in primary and public health; pharmacogenetics; genomic therapeutics; childhood onset genetic disorders; adult onset genetic disorders; part two of the Advanced Practice Nursing Genetics course series. Prerequisites: 096:116 (NURS:3734) and 096:228 (NURS:5500). Requirements: enrollment in APN-Genetics MSN program.

096:239 (NURS:5696) CNL Capstone Clinical Immersion
6 s.h.
Intensive immersion in role and practice expectations of the CNL; experienced leaders within the microsystem, who are experts in the provision of clinical services at the point of care/services, serve as mentors. Requirements: concurrent enrollment in master's portfolio.

096:241 (NURS:5401) The Care of the Frail Elderly
3 s.h.

096:245 (NURS:5803) Distance Education: Master's Independent Study
arr.
Supervised study and/or clinical practice adjusted to needs of master's degree students. Requirements: M.S.N. enrollment.

096:248 (NURS:5804) Distance Education: Master's Portfolio
0 s.h.
Clear and cohesive synthesis of clinical or professional experiences and competencies, including those gained in graduate study; students' clinical or professional strengths and career goals. Requirements: M.S.N. enrollment.

096:249 (NURS:5802) Master's Portfolio
0 s.h.
Opportunity for clear and cohesive synthesis of clinical or professional experiences and competencies, including those gained in graduate study, that portray students' clinical or professional strengths and career goals.

096:250 (NURS:6500) Psychiatric/Mental Health Nursing Theory I
4 s.h.
Introduction to psychological principles and theories as related to mental health across the life span, intersections between physical and mental health, and role of advanced practice nurse in psychiatric/mental health care; examination of psychological theory in a life span developmental framework from infancy to older adult; role of cultural diversity in mental health; emphasis on assessment, diagnosis, and management of mental disorders common in adults. Prerequisites: 096:218 (NURS:5032) and 096:224 (NURS:5029). Corequisites: 096:315 (NURS:6701).

096:262 (NURS:6550) Executive Leadership and Management 3-4 s.h.
Leadership and management concepts and theories; application to roles unique to executive nurse leader in health care organizations in institutional and community settings; emphasis on executive leadership roles for facilitating, integrating, and coordinating complex structures, processes, and outcomes in health care systems.

096:264 (NURS:6551) Financial Management 3-4 s.h.
Preparation for nurse leaders and practitioners to use techniques for financial analysis and decision making for patient care programs across the health care continuum; focus on efficient and effective management of resources for delivery of quality health care services.

096:265 (NURS:6552) Managing Care in an Organizational Environment 3-4 s.h.
Manage operations of patient care services across health care continuum within the framework of an established health care organization; focus on efficient and effective management of the structure, governance, patient care delivery system of care, and outcomes of care.

096:267 (NURS:6553) Seminar on Innovations 4 s.h.
Strategizing about taking meaningful action, disrupting stable processes, diffusing innovation, and sustaining change; emerging innovations in nursing and health care systems that impact the functions and responsibilities of nurse leaders.

096:268 (NURS:6554) Seminar on Healthy Work Environments 3 s.h.
Application of leadership and management knowledge specific to creating and sustaining healthy work environments in health care; current and emerging issues focused on health care work environments.

096:269 (NURS:6001) Human Physiology and Pathophysiology for Advanced Practice 3 s.h.
Detailed study of normal and abnormal human physiology, including mechanisms that govern and support cell, organ, and system function; builds on basic sciences required for undergraduate nursing curriculum and on clinical skills from experience in intensive care setting. Requirements: admission to anesthesia nursing program.

096:270 (NURS:6000) Human Anatomy for Advanced Practice 3 s.h.
Interrelationships between anatomic structure and physiological function in health and disease; clinical assessment of functional integrity of organ systems; implications of pathophysiology for anesthesia. Requirements: admission to anesthesia nursing program. Same as 060:270 (ACB:6000).

096:271 (NURS:6005) Chemical and Physical Principles of Anesthesia Practice 3 s.h.
Chemistry and physics, as applied to anesthesia. Requirements: admission to anesthesia nursing program. Same as 116:271 (ANES:6005).

096:273 (NURS:6006) Pharmacology of Anesthesia Practice II 3 s.h.
Continuation of 071:115 (PCOL:6204); vascular, hepatic, renal, GI, endocrine aspects; cellular mechanisms, electrolytes alterations, anesthesia specific implications. Prerequisites: 071:115 (PCOL:6204). Requirements: grade of 2.75 or higher in 071:115 (PCOL:6204) and enrollment in anesthesia nursing program. Same as 116:273 (ANES:6006).

096:274 (NURS:6007) Basic Principles of Anesthesia Practice 5 s.h.
Overview of anesthesia as a nursing specialty; patient assessment, anesthetic planning and management, pertinent regulations; principles of general and regional anesthesia for surgical specialties. Requirements: for 096:274 (NURS:6007) — grades of 3.00 or higher in 071:115 (PCOL:6204) and 096:271 (NURS:6005); for 116:274 (ANES:6007) — grades of 3.00 or higher in 071:115 (PCOL:6204) and 116:271 (ANES:6005). Same as 116:274 (ANES:6007).

096:275 (NURS:6010) Advanced Principles of Anesthesia Practice I 4 s.h.
Special needs and intraoperative management of obstetric, pediatric, and neurological patients; emphasis on pathophysiology, monitoring, ancillary requirements. Prerequisites: 096:274 (NURS:6007) or 116:274 (ANES:6007). Requirements: grade of 3.00 or higher in 096:273 (NURS:6006) or 116:273 (ANES:6006). Same as 116:275 (ANES:6010).

096:277 (NURS:6012) Advanced Principles of Anesthesia Practice II 1 s.h.

096:279 (NURS:6016) Equipment and Technological Principles of Anesthesia Practice 3 s.h.

096:280 (NURS:6200) Primary Care: Adults and Older Individuals I 3 s.h.
Pathophysiologic alterations and clinical management of associated health care problems in adults, the elderly. Prerequisites: 096:213 (NURS:5025) and 096:224 (NURS:5029).

096:283 (NURS:5300) Health Informatics I 3 s.h.

096:284 (NURS:6201) Primary Care: Adults and Older Individuals II 3 s.h.

096:289 (NURS:5301) Health Informatics II 3 s.h.
Selected health informatics initiatives, including computer-based patient records, physiologic monitoring, networking, imaging, virtual reality; participation in an interdisciplinary project team focused on an informatics innovation; application and research seminars. Same as 051:189 (BME:5252), 074:192 (RSNM:5301), 056:287 (IE:5870), 021:280 (SLIS:5910), 200:120 (IGPI:5210).

096:290 (NURS:6050) Introductory Clinical Anesthesia 1 s.h.

096:291 (NURS:6051) Clinical Anesthesia I 1 s.h.

096:292 (NURS:6052) Clinical Anesthesia II 1 s.h.

096:293 (NURS:6053) Advanced Clinical Anesthesia 1 s.h.
Clinical anesthesia experiences in neurologic surgery, cardiovascular/thoracic surgery; experience providing anesthesia for patients with complex pathophysiology in varied surgical settings. Requirements: for 096:293 (NURS:6053) — anesthesia nursing program senior standing, anesthesia nursing concentration courses, and grade of 3.00 or higher in 096:292 (NURS:6052); for 116:293 (ANES:6053) — anesthesia nursing program enrollment, anesthesia nursing concentration courses, and grade of 3.00 or higher in 116:292 (ANES:6052). Same as 116:293 (ANES:6053).

096:294 (NURS:6054) Obstetrical Anesthesia 1 s.h.

096:295 (NURS:6055) Rural Anesthesia 1 s.h.

096:296 (NURS:5800) Independent Study arr.
Supervised study and/or clinical practice adjusted to needs of master's degree students. Requirements: M.S.N. enrollment.

096:298 (NURS:5801) Master's Project 2-3 s.h.
Opportunity for in-depth analysis and synthesis of a chosen topic that contributes to some aspect of nursing practice.

096:299 (NURS:5805) Thesis 2-3 s.h.
Opportunity for systematic investigation of a nursing problem of student's choice under guidance of faculty.

For Doctoral Students
Open to doctoral students or to others with consent of instructor.

096:301 (NURS:5806) Distance Education: Master's Project 2-3 s.h.
In-depth analysis and synthesis of a chosen topic that contributes to some aspect of nursing practice. Requirements: M.S.N. enrollment.

096:302 (NURS:6800) Emerging Science 3 s.h.
Emerging science to prepare leaders, advanced practice practitioners, and researchers to meet challenges of today's workforce and health care environment; opportunities to apply emerging health care science that influence health care policy, education, research, and practice.

096:303 (NURS:6803) DNP: Advanced Role Development I 3 s.h.
Organizational and leadership skills that enhance practice and emphasize clinical care, ongoing improvement of health outcomes, and patient safety; case management, business practices, multidisciplinary role setting, leadership and ethics, conflict resolution, community or aggregate populations, vulnerable populations. Corequisites: 096:304 (NURS:6804). Requirements: admission to Doctor of Nursing Practice program.

096:304 (NURS:6804) DNP: Advanced Role Development Practicum I 3 s.h.
Opportunities to apply advanced leadership and clinical knowledge in health care systems; application of content from 096:303 (NURS:6803); identification of needs and/or interests to define student’s clinical practice; experience in selected clinical or agency sites to increase competencies in areas such as clinical acumen, case management, leadership, business practices. Requirements: admission to Doctor of Nursing Practice program.

096:306 (NURS:6805) DNP: Advanced Role Development II 3 s.h.
Builds on 096:304 (NURS:6804); continued development of in-depth clinical knowledge and skills in student’s interest area; advanced levels of interprofessional collaborative skills and team building. Prerequisites: 096:303 (NURS:6803). Corequisites: 096:307 (NURS:6806).

096:307 (NURS:6806) DNP: Advanced Role Development Practicum II 3 s.h.
Builds on 096:304 (NURS:6804); advanced leadership skills and clinical knowledge applied at practicum site; enhancement of competencies in areas such as clinical acumen, case management, leadership, business practices. Prerequisites: 096:303 (NURS:6803) and 096:304 (NURS:6804). Corequisites: 096:306 (NURS:6805).

096:308 (NURS:6825) Clinical Leadership Project 1-5 s.h.
Opportunity for in-depth analysis and synthesis of a topic that contributes to an aspect of advanced nursing practice; students relate projects to evidence-based practice/translational science courses and/or 096:332 (NURS:6809) and 096:333 (NURS:6810).

096:313 (NURS:6900) Computational Intelligence 3 s.h.

096:315 (NURS:6701) Advanced Practice Clinical Practicum I 3-4 s.h.
Application of advanced physical assessment, pathophysiology, and diagnostic reasoning in a clinical setting appropriate to a specific population.

096:316 (NURS:6702) Advanced Practice Clinical Practicum II 3-4 s.h.
Continuation of 096:315 (NURS:6701); emphasis on diagnostic reasoning and formulation of treatment plans.

096:317 (NURS:6703) Advanced Practice Clinical Practicum III 3-4 s.h.
Synthesis of role expectations for advanced practice with focus on clinical competencies appropriate to the specialization.

096:318 (NURS:6704) Practicum in Executive Leadership and Management 4 s.h.
Immersion experience in application of principles and methods of leadership, management, and evaluation to facilitate health care operations in various settings; student collaboration with a preceptor for mentored in-depth immersion in systems practice.

096:319 (NURS:5807) Distance Education: Master’s Thesis arr.
Systematic investigation of a nursing problem of student’s choice under guidance of faculty. Requirements: M.S.N. enrollment.

096:330 (NURS:6802) Health Policy, Law, and Advocacy 3 s.h.
Issues that shape health care economics and policy development; framework for understanding work of legislators and other policy makers; emphasis on state and national level; health issues in developing countries; health care system, its economics, financing, role of government, not-for-profit entities, and nongovernmental organizations. Requirements: doctoral standing.

096:331 (NURS:6808) Clinical Decision Making for Advanced Practice 3 s.h.
Coordination and integration of care delivery for population health and clinical effectiveness across the continuum of care; management of optimized outcomes; emphasis on informatics infrastructure and translation of evidence-based practice to managing care provision and achieving desired outcomes as a result of care provision.

096:332 (NURS:6809) DNP Role Integration I 4 s.h.
Application of leadership skills to enhance practice and incorporate evidence-based clinical care, improve health outcomes, and ensure safety in a patient-centered and cost-effective environment. Requirements: doctoral standing.

096:333 (NURS:6810) DNP Role Integration II 4 s.h.
Application of in-depth knowledge of complexity science and leadership skills to prepare students for transforming patient care delivery models of care. Prerequisites: 096:332 (NURS:6809). Requirements: doctoral standing.

096:338 (NURS:7002) Designing Research 3 s.h.
Introduction to designing research studies; issues related to research design as a set of choices influenced by aims, research questions, styles/traditions of research; conceptual frameworks/theories. Requirements: Ph.D. standing.

096:339 (NURS:6811) Social Determinants of Health and Health System Inequities 3 s.h.
Social determinants of health outcomes and inequities; social and economic forces that shape them using various perspectives and lenses; conceptualization and measurement of variables representing risk and inequities that serve as the organizing framework for course discussions, including individual and social factors; critical analysis of research studies for social bias. Requirements: doctoral standing.

096:340 (NURS:7000) Foundations of Nursing Science II 4 s.h.
...
Introduction to philosophical, historical, and conceptual underpinnings of contemporary nursing scholarship; students read primary sources on development of nursing knowledge and classic and contemporary works in philosophy of science; how these ideas influence development of nursing thought; two critical concepts of research (cause and validity); laboratory tools for synthesis of existing literature (integrative review, systematic review, concept analysis); synthesis of literature in student’s interest area to identify and apply selected approach. Prerequisites: 096:202 (NURS:5008). Requirements: Ph.D. standing.

096:342 (NURS:7001) Qualitative Research 4 s.h.
Qualitative research; ethnography, grounded theory, narrative, phenomenology, philosophical underpinnings, and research designs across traditions; current and emerging issues (i.e., mixed methods, meta-synthesis, working with vulnerable populations); guided exercises, peer sharing, collaborative group projects; qualitative interviewing and transcription, field work, participant observation; use of software for managing qualitative data; data coding, analysis and interpretation; critique of qualitative research proposals and manuscripts. Prerequisites: 096:338 (NURS:7002) and 096:340 (NURS:7000).

096:344 (NURS:7003) Quantitative Research 4 s.h.
Refinement of students’ understanding of the application of scientific logic; criteria for causality, its application in health-related research; various quantitative methods; sampling theory and approaches to sample selection, recruitment, and methods; issues related to instrument selection, reliability and validity considerations; management of large data sets and maintenance of data integrity; guided exercises, peer sharing, and collaborative groups provide experiences integrated with content in didactic section. Prerequisites: 096:338 (NURS:7002) and 096:340 (NURS:7000).

096:410 (NURS:7400) State of the Science in Biobehavioral Research on Aging 3 s.h.
Analysis and evaluation of science in biobehavioral aging research; overview of aging research and interdisciplinary contributions; biobehavioral phenomena pertinent to aging populations; relevant epidemiologic research, population/community-based research, primary prevention research, qualitative and quantitative analyses, instrumentation, intervention research, and measurement studies; ethical and methodological issues; context of care; identification of literature gaps and future research agendas that promote successful aging. Requirements: for 096:410 (NURS:7400) — doctoral standing; for 153:410 (ASP:7400) — Ph.D. enrollment. Recommendations: knowledge of pathophysiology, research design, and statistics. Same as 153:410 (ASP:7400).

096:412 (NURS:7310) Methods and Measurement in Clinical Pain Research 2 s.h.
Basic theoretical models for understanding pain; insight into the state of science of clinical pain research; issues and challenges related to conduction of clinical pain research; designs, vulnerable populations, methodology, and measurement strategies relevant to clinical trials; comparative effectiveness and translational research studies; interdisciplinary presentations of research experiences, issues, and solutions to provide a foundation for discussion and analysis of best practices for clinical pain research. Corequisites: 101:133 (PTRS:6133). Requirements: Ph.D. standing. Recommendations: graduate-level research methods/design course and pathophysiology.

096:415 (NURS:7202) Genetic Nursing Research 3 s.h.
Concepts in human genetics integrated with nursing research; methodological issues in study of populations with specific genetic problems; generation of testable hypotheses.

096:420 (NURS:7401) State of the Science in Geriatric Mental Health Research 3 s.h.
Analysis and evaluation of science in geriatric mental health research in nursing and other disciplines; cognitive and affective function, substance abuse, and caregiver health/support; relevant epidemiologic research, population/community-based research, primary prevention research, qualitative and quantitative analyses, instrumentation, intervention research, and measurement studies; review and analysis of program evaluation and services research, emphasis on ethical and methodological issues; identification of literature gaps and future research agendas that promote successful aging. Requirements: for 096:420 (NURS:7401) — doctoral standing; for 153:420 (ASP:7401) — Ph.D. enrollment. Recommendations: knowledge of psychopathology, research design, and statistics. Same as 153:420 (ASP:7401).

096:423 (NURS:7403) Advanced Seminar in Health Research 3 s.h.
Health research across the lifespan and health care continuum; specific topics based on the state of the science and emerging science initiatives put forth by NIH and other funding agencies. Requirements: doctoral standing.

096:485 (NURS:7509) Research Residency 3 s.h.
Participation in a research project based on an individualized plan of study, under guidance of a preceptor.

096:490 (NURS:7803) Research Practicum I 1 s.h.
First of two practicums that serve as a system of apprenticeship by which students are mentored through all aspects of scientific processes, methodologies, and analysis; principal investigator is an experienced researcher with a current large project requiring a team of investigators; project relevant to student’s area of study. Requirements: Ph.D. standing.

096:491 (NURS:7804) Research Practicum II 1 s.h.
Second of two practicums that serve as a system of apprenticeship by which students are mentored through all aspects of scientific processes, methodologies, and analysis; principal investigator is an experienced researcher with a current large project requiring a team of investigators; project relevant to student’s area of study. Prerequisites: 096:490 (NURS:7803).

096:496 (NURS:7800) Independent Study arr.
Supervised study adjusted to needs of doctoral degree students. Requirements: Ph.D. enrollment.

096:497 (NURS:7801) Seminar: Research Scholarship Role Development 3 s.h.
Preparation for successful completion of doctoral course work, comprehensive examination, and dissertation; faculty-guided structure provides opportunities for students to assimilate knowledge and behavior of a scholar and activities that facilitate and optimize socialization and success as nurse scientists and academic faculty. Requirements: Ph.D. standing.

College of Pharmacy

Dean
• Donald E. Letendre

Executive associate dean
• Bernard A. Sorofman

Associate dean, assessment, curriculum, and compliance
• Hazel H. Seaba

Associate dean, professional education
• Michael W. Kelly

Associate dean, research and graduate affairs
• Michael W. Duffel

Associate dean, undergraduate education
• Maureen D. Donovan

Associate dean, University of Iowa Hospitals and Clinics health science affairs
• Michael J. Brownlee

Assistant dean, Veterans Affairs Medical Center
• Traviss A. Tubbs

Interim chair, pharmaceutical sciences and experimental therapeutics
• Lawrence L. Fleckenstein

Chair, pharmacy practice and science
• Jay D. Currie

Head, applied clinical sciences
• Gary Milavetz

Head, health services research
• William R. Doucette

Head, medicinal and natural products chemistry
• Robert J. Kerns

Head, pharmaceutics and translational therapeutics
• Aliasger K. Salem

Director, Division of Drug Information Service
• Kevin G. Moores

Director, University of Iowa Pharmaceuticals
• Mickey L. Wells

• Ting Fong Chin, Vijay Kumar

Assistant professors emeriti
• Harold J. Black, Ruth A. Kellemes

Professional degree: Pharm.D.
Graduate degrees: M.S. in pharmacy; Ph.D in pharmacy
Web site: http://pharmacy.uiowa.edu/
The pharmacy profession is concerned with a wide variety of activities, from developing new drug products to caring for patients. An important concept in the delivery of pharmacy services is medication therapy management—the responsible provision of drug therapy to achieve defined outcomes that improve patients' quality of life. These outcomes include preventing, arresting, or curing a disease, and/or eliminating or reducing its symptoms.

In order to carry out these activities, pharmacists specialize in the science of drugs and drug information. The dispensing of medications and information at the corner pharmacy is just one aspect of the profession. Pharmacists work in many health care settings, engaging in research, clinical practice, teaching, and counseling. Along with their training in science and drug preparation, they learn the business and communication skills necessary for their multifaceted careers.

Demand for qualified pharmacists is high. Iowa's pharmacy students study with professors who, in many cases, are pioneering the development of new drugs and are defining the appropriate use of others to solve chronic health problems. They also enjoy advanced research facilities, including those of Iowa’s drug research and manufacturing area, where experimental drugs are produced for testing and licensing by manufacturers before being introduced worldwide.

The University of Iowa College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education.

College Organization

The College of Pharmacy's faculty and programs are organized in two academic departments, each with two divisions. These units provide course work for the Doctor of Pharmacy curriculum and for the college's graduate programs.

PHARMACY PRACTICE AND SCIENCE DEPARTMENT

Faculty in the Pharmacy Practice and Science Department provide expertise and education in the professional practice of pharmacy. They specialize in a wide variety of clinical pharmacy practices; conduct research on patient and population outcomes related to medication therapy; and provide instruction in the pharmacist's professional role and the safe, effective use of medications.

The department offers Master of Science and Doctor of Philosophy curricula in pharmaceutical economics, which encompasses the behavioral, economic, social, and administrative sciences; elements of pharmacy practice; and health services research. It offers course work through its Applied Clinical Sciences Division and its Health Services Research Division.

**Applied Clinical Sciences Division:** Teaching and research in this division focus on the delivery of care and related services to patients and the education of student and resident pharmacists in practice settings. Courses are offered in pharmacotherapy, communication and practice skill development, clinical problem solving, and patient care. Professional practice mentoring and education are provided in introductory and advanced pharmacy practice experiences.

**Health Services Research Division:** Teaching and research in this division involve economic, social, behavioral, and administrative components of pharmacy practice and medication use. Courses are offered on the health care system, practice management, the professional and business aspects of pharmacy practice, and on learning and applying economic and social psychological theories to the study of health services and medication use.

To learn more about the department and its two divisions, visit the Pharmacy Practice and Science web site.

PHARMACEUTICAL SCIENCES AND EXPERIMENTAL THERAPEUTICS DEPARTMENT

Faculty in the Pharmaceutical Sciences and Experimental Therapeutics Department provide expertise and education in clinical pharmaceutical sciences, medicinal and natural products chemistry, and pharmaceutics. Their interests include dosage form development and performance, industrial and manufacturing pharmacy, pharmacokinetics and pharmacodynamics, and the chemistry of drugs and their action on human systems. The department offers courses through its Medicinal and Natural Products Chemistry Division and its Pharmaceutics and Translational Therapeutics Division.

**Medicinal and Natural Products Chemistry Division:** Course work in this division relates to understanding the chemistry of drugs and their action on human systems, principles of drug discovery and drug design, natural product chemistry, and biotechnology and genomic strategies for producing new drug molecules. The division’s curricula for the M.S. and Ph.D. programs provide abundant opportunities for interface with researchers in other areas, including medicine, pharmacology, biochemistry, chemistry, and pharmaceutics.

**Pharmaceutics and Translational Therapeutics Division:** This division prepares students to become leaders in developing and evaluating drugs, drug products, and drug delivery systems. It offers two M.S. and Ph.D. subtracks: the pharmaceutics subtrack, which focuses on characterization of pharmaceuticals and their component materials, development of delivery systems for optimal human or veterinary use, and the pharmacokinetic and pharmacodynamic evaluation of drug actions and interactions; and the clinical pharmaceutical sciences subtrack, which focuses on investigating drug therapy outcomes in patients and identifying factors responsible for specific drug actions in individual patients, related patient groups, and large patient populations. The division also offers multidisciplinary opportunities with programs in chemistry, engineering, biomedical science, dentistry, and veterinary medicine. Its national and international collaborations enhance the breadth of research activities available to students.

To learn more about the divisions, visit the Medicinal and Natural Products Chemistry and Pharmaceutics and Translational Therapeutics web sites.

Professional Program of Study (Pharm.D.)

- **Doctor of Pharmacy**

  The College of Pharmacy collaborates with the College of Public Health to offer the joint Master of Public Health/Doctor of Pharmacy (M.P.H./Pharm.D.) program.
Doctor of Pharmacy

The Doctor of Pharmacy program requires 151 s.h. of professional program credit. The program prepares students for careers in pharmacy. It provides professional education in a number of areas, including pharmaceutical technology, biopharmaceutics, medicinal chemistry and natural products, pharmaceutical socioeconomics, pharmacotherapy, patient care, clinical and hospital pharmacy, and aspects of biotechnology. Graduates of the program are qualified to take the Iowa Board of Pharmacy examination that is required for licensure as a pharmacist.

The program requires four years of full-time pharmacy study preceded by at least two years of pre-pharmacy study in the College of Liberal Arts and Sciences at The University of Iowa or at an accredited community or liberal arts college in the United States or Canada.

During pre-pharmacy study, students complete the prerequisites to admission to the Pharm.D. program (see "Admission" below for a list of prerequisite course work). Pharm.D. students complete a total of 20 s.h. of general education course work. They complete 12 s.h. of general education courses as part of their pre-pharmacy study, but if possible, they should complete all 20 s.h. of their general education work before they enter the Pharm.D. program. Courses in moral reasoning or ethics, communication, computer science, and business are recommended for general education; courses in behavioral and social sciences and the humanities are accepted. Courses in physical education skills, applied music, and studio art do not count toward the general education requirement.

Pharm.D. students must maintain a cumulative g.p.a. of at least 2.00 and a pharmacy g.p.a. of at least 2.00. The pharmacy grade-point average is computed from grades earned in all required courses that students have completed while enrolled in the College of Pharmacy, excluding general education courses and professional electives.

Students must earn a grade of C-minus or higher in transfer courses applied to the Pharm.D.

Rules and regulations concerning academic probation, pass/nonpass, credit by examination, maximum schedule, second-grade-only option, waiver or substitution of courses, cancellation of registration, drop date, and Guided Independent Study are provided in the College of Pharmacy section of the ISIS Student Handbook and in the College of Pharmacy Student Handbook.

The Tippie College of Business (p. 621), the Carver College of Medicine (p. 993), the College of Dentistry (p. 684), and the College of Liberal Arts and Sciences (p. 22) contribute to the education of pharmacy students by providing instruction in the physical sciences, basic medical sciences, business, the humanities, and the social sciences.

The College of Pharmacy provides students with the highest possible quality in the professional experiential program. Faculty and adjunct faculty serve as preceptors, providing introductory and advanced practice experience at institutions and pharmacies in Iowa, nationwide, and around the world.

Professional Curriculum

The Pharm.D. degree requires the course work listed below, including at least 12 s.h. of professional electives.

In addition, students must complete all prerequisites to admission to the Pharm.D. program, including 12 s.h. of general education courses chosen from behavioral, social, humanistic, and business disciplines (see "Admission" below). They also must complete an additional 8 s.h. of general education work either before or after admission to the Pharm.D. program.

FIRST YEAR

Students must complete one semester of 046:001 (PHAR:8100) Introduction to Pharmacy Practice during the first professional year. They also complete 046:004 (PHAR:8205) Student Pharmacist Professionalism throughout the first, second, and third professional years.

Four of these (24 s.h.):

046:117 (PHAR:8204) Pharmacy Practice Lab IV 2 s.h.
046:132 (PHAR:8123) Medicinal and Natural Products 3 s.h.
046:155 (PHAR:8242) Respiratory and Dermatologic 2 s.h.
046:156 (PHAR:8243) Cardiovascular Therapeutics 2 s.h.
046:170 (PHAR:8230) Clinical Pharmacokinetics 3 s.h.
Professional electives 3 s.h.

All of these (24 s.h.):

046:184 (PHAR:9417) Elective Psychiatry Rotation 6 s.h.
046:185 (PHAR:9414) Elective Neurology Rotation 6 s.h.
046:186 (PHAR:9419) Elective: Surgery Rotation 6 s.h.
046:187 (PHAR:9403) Elective Nuclear Pharmacy 6 s.h.
046:188 (PHAR:9420) Elective Pharmacy Practice 6 s.h.
046:189 (PHAR:9416) Elective: Pharmacy Rotation 6 s.h.
046:192 (PHAR:9411) Elective Long Term Care Rotation 6 s.h.
046:193 (PHAR:9409) Elective Home Health Care 6 s.h.
046:194 (PHAR:9412) Elective Managed Care Rotation 6 s.h.
046:197 (PHAR:9408) Elective Hematology/Oncology 6 s.h.
046:199 (PHAR:9418) Elective Research Rotation 6 s.h.
046:300 (PHAR:9424) Elective Emergency Medicine 6 s.h.
046:301 (PHAR:9425) Elective Hospital Management 6 s.h.
046:302 (PHAR:9426) Elective Infectious Disease 6 s.h.
046:303 (PHAR:9427) Elective Medication Use Evaluation 6 s.h.
046:304 (PHAR:9428) Elective Pharmacy Industry 6 s.h.
046:305 (PHAR:9429) Elective: Pharmacy Regulatory 6 s.h.
046:306 (PHAR:9430) Elective: Professional Association 6 s.h.
046:307 (PHAR:9431) Elective: Veterinary Pharmacy 6 s.h.
046:308 (PHAR:9432) Elective: Advanced Community 6 s.h.
046:309 (PHAR:9433) Elective Pharmacy Rotation

THIRD YEAR
Students must complete one semester of
046:003 (PHAR:8300) Introduction to Clinical Pharmacy Practice during the third professional year.

First Semester
046:003 (PHAR:8300) Introduction to Clinical Pharmacy Practice (may be taken either fall or spring semester) 1 s.h.
046:107 (PHAR:8302) Clinical Practice Skills II: Critical Patient Analysis 2 s.h.
046:115 (PHAR:8313) Drug Literature Evaluation 2 s.h.
046:118 (PHAR:8305) Pharmacy Practice Lab V 2 s.h.
046:129 (PHAR:8308) Pharmaceutical Economics and Insurance 3 s.h.
046:158 (PHAR:8340) FEN, GI, and Renal Therapeutics 2 s.h.
046:159 (PHAR:8341) Rheumatology, Immunology, Hematology, Oncology, and Transplantation Therapeutics 2 s.h.
Professional electives 4 s.h.

Second Semester
046:004 (PHAR:8205) Student Pharmacist Professionalism 1 s.h.
046:104 (PHAR:8104) Pharmacy Law and Ethics 2 s.h.
046:119 (PHAR:8306) Pharmacy Practice Lab VI 2 s.h.
046:139 (PHAR:8309) Pharmacy Management and Marketing 2 s.h.
046:164 (PHAR:8342) Neurology/Psychiatry Therapeutics 2 s.h.
046:165 (PHAR:8343) Infectious Disease Therapeutics 2 s.h.
Professional electives 5 s.h.

FOURTH YEAR: ADVANCED PHARMACY PRACTICE ROTATIONS
During the fourth year, students are required to complete eight advanced pharmacy practice rotations. All students must complete the first four rotations listed below (24 s.h.); they also must complete an additional four rotations of their choice (24 s.h.).

All of these (24 s.h.):

046:178 (PHAR:9410) Hospital Pharmacy Rotation 6 s.h.
046:179 (PHAR:9404) Community Pharmaceutical Care Rotation 6 s.h.
046:180 (PHAR:9413) Acute Care Medicine Rotation 6 s.h.
046:196 (PHAR:9401) Ambulatory Care Rotation 6 s.h.

Four of these (24 s.h.):

046:136 (PHAR:9433) Elective Academic Rotation 6 s.h.
046:140 (PHAR:9402) Elective Ambulatory Care Rotation 6 s.h.
046:142 (PHAR:9422) Elective: Compounding/Complimentary Alternative Medicine Rotation 6 s.h.
046:143 (PHAR:9423) Elective: Critical Care Medicine Rotation 6 s.h.
046:161 (PHAR:9406) Elective: Drug Information Rotation 6 s.h.
046:181 (PHAR:9407) Elective Family Medicine Rotation 6 s.h.
046:182 (PHAR:9415) Elective: Pediatrics Rotation 6 s.h.
046:183 (PHAR:9416) Elective Pharmacy Rotation 6 s.h.
046:190 (PHAR:8719) Overview of Pediatric Pharmacotherapy 2 s.h.
046:191 (PHAR:8720) Health Coaching and Wellness 2 s.h.
046:192 (PHAR:8721) Contemporary Issues and Leadership 2 s.h.
046:357 (PHAR:8790) Topics in Community Pharmacy Management 2 s.h.

PROFESSIONAL ELECTIVES
Pharm.D. students must complete 12 s.h. of professional electives, which they may choose from the following list.

046:006 (PHAR:8702) Dean's Pharmacy Forum II 2 s.h.
046:007 (PHAR:8307) Career Pathways in Pharmacy 1 s.h.
046:011 (PHAR:8703) Web 2.0 and Pharmacy Drug 2 s.h.
046:012 (PHAR:8791) Survey of Basic Pharmaceutical Sciences 1 s.h.
046:013 (PHAR:8717) Ambulatory Care Pharmacy 2 s.h.
046:014 (PHAR:8718) Special Topics in Acute Care 2 s.h.
046:101 (PHAR:8706) Pharmacy Projects 1-3 s.h.
046:110 (PHAR:3745) Drug Delivery I arr.
046:121 (PHAR:8708) Substance Abuse 2 s.h.
046:126 (PHAR:8788) International Perspectives: Xicotepec 2 s.h.
046:135 (PHAR:5515) Perspectives in MNPC Research 1 s.h.
046:146 (PHAR:3740) End-of-Life Care for Adults and Families 2-4 s.h.
046:151 (PHAR:8722) Current Topics in Health Policy 2 s.h.
046:169 (PHAR:8710) Introduction to Pharmacogenomics 2 s.h.
046:171 (PHAR:8712) Nonprescription Pharmacotherapy 2 s.h.
046:190 (PHAR:8719) Overview of Pediatric Pharmacotherapy 2 s.h.
046:357 (PHAR:8790) Topics in Community Pharmacy Management 2 s.h.
Joint M.P.H./Pharm.D.

The College of Pharmacy and the College of Public Health offer the joint Master of Public Health/Doctor of Pharmacy program. The joint M.P.H./Pharm.D. requires 42 s.h. of graduate credit in addition to the requirements of the Pharm.D. degree. Students who complete the program are granted both degrees.

The M.P.H./Pharm.D. program helps students develop expertise in public health related to pharmacotherapy, health promotion, disease prevention, and medication safety. Its graduates may work in areas of interest common to pharmacy and public health, such as spread and treatment of disease, community health, and immunology; bioterrorism, terrorism, and preparedness; genetics; insurance; managed care; family and juvenile health; and protection of special populations. Employment opportunities are available in hospitals and clinics and with health care providers; private practice; insurance and managed care organizations; local, county, state, and federal government; public health governmental agencies; and colleges and universities.

Separate admission to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program.

See "Joint M.P.H./Pharm.D." in the Master of Public Health Program (p. 1171) section of the Catalog to learn about curriculum and admission requirements for the joint program.

Admission

Individuals apply to the Pharm.D. program using PharmCAS, the American Association of College of Pharmacy application service. Applicants also must submit a supplemental application, including a $100 application fee, to the University of Iowa College of Pharmacy; see Iowa Graduate Admissions—College of Pharmacy for more information.

All application materials must be received by December 1 of the year before the applicant intends to enter the College of Pharmacy. Entry is for fall semester.

All Pharm.D. applicants must take the Pharmacy College Admission Test (PCAT); they must take PCAT before December 31 of the year before they wish to enter the College of Pharmacy in order to be considered by the admissions committee.

Applicants must complete the college-level work listed under "Prerequisites to Admission to the Pharm.D. Program" below. They also must have an overall cumulative g.p.a. of at least 2.50 and must submit two letters of recommendation. Applicants considered for admission must have a personal interview; the college contacts applicants to arrange interview appointments.

Fulfillment of the admission requirements listed above does not ensure admission to the College of Pharmacy. The admissions committee considers applicants who meet these requirements and selects individuals who, in their judgment, appear to be best qualified for the study and practice of pharmacy.

Applicants who are accepted for admission are required to submit to a criminal background check and pay a $250 acceptance fee. The fee is applied to tuition for the student’s first semester of enrollment in the college. The deposit is not refunded to applicants who do not enroll in the College of Pharmacy.

Entering health sciences students are required to have an annual tuberculin skin test (TST) and proof of immunization against mumps, measles and rubella (2 MMRs), tetanus, diphtheria and varicella before classes begin. The usual regimen of three doses of Hepatitis B vaccine and a Hepatitis B titre must be completed by the second semester of the first year. All students are required to have hospitalization and health insurance.

PREREQUISITES FOR ADMISSION TO THE PHARM.D. PROGRAM

Applicants to the Pharm.D. program must have completed the following college-level work.

Rhetoric: 4 s.h. [010:003 (RHET:1030) Rhetoric] or 6 s.h. of transfer credit in English composition and rhetoric and 3 s.h. in speech

Human anatomy: 3 s.h. [060:110 (ACB:3110) Principles of Human Anatomy]

General biology: 8 s.h. [002:031 (BIOL:1411) Foundations of Biology and 002:032 (BIOL:1412) Diversity of Form and Function]

Mathematics: 3-4 s.h. of a satisfactory differential and integral calculus course [22M:016 (MATH:1460) Calculus for the Biological Sciences]

Microbiology: 4 s.h. [061:112 (MICR:3112) Pharmacy Microbiology]

Microeconomics: 3-4 s.h. [06E:001 (ECON:1100) Principles of Microeconomics]

Physics: one year of high school physics or one semester of college-level physics with a lab [029:008 (PHYS:1400) Basic Physics]

Human physiology: 3 s.h. [027:130 (HHP:3500) Human Physiology]

Statistics: 3 s.h.

General education electives: at least 12 s.h.

Courses in moral reasoning or ethics, communications, computer science, and business are recommended for general education; courses in the behavioral and social sciences and the humanities are accepted. Courses in physical education skills, applied music, and studio art do not count toward the general education requirement.

Financial Support

All second-, third-, and fourth-year pharmacy students are encouraged to apply for College of Pharmacy scholarships. Applications are available each April from the College of Pharmacy Office of Academic Affairs. Students complete a single application form in order to be considered for...
all scholarships. Award amounts vary. The Awards and Recognition Committee selects the best-qualified applicant for each scholarship.

**Seymour M. Blaug Memorial Award:** for a pharmacy student with above-average academic achievement.

**Ilse O. Buckner Scholarship:** for a pharmacy student who maintains satisfactory academic progress; nonrenewable, financial need is considered.

**Burroughs-Wellcome Scholarship Fund:** for a student of the committee’s choice.

**David and James Carlson Scholarship:** for two pharmacy students interested in clinical or hospital practice; preference given to students from north of U.S. Interstate 80 and west of U.S. Interstate 35 who show financial need.

**Jordan and Jana Cohen Doctor of Pharmacy Scholarship:** for a pharmacy student in good academic standing; based on merit and need; renewable.

**Vernon Conzemius Scholarship:** for a pharmacy student who demonstrates financial need; preference is given to students in the upper half of their class.

**Ben M. Cooper Memorial Award:** for an academically outstanding pharmacy student; preference is given to students from Scott County, Iowa; financial need is considered.

**CVS Scholarships:** for five pharmacy students in good academic standing who are interested in community pharmacy.

**John and Margo Daniel Scholarship:** preference is given to a student from Webster County, Iowa.

**Max Eggleston Scholarship:** for a student who has completed one year; preference is given to students from Iowa; based on financial need.

**Alice Gates Coxon Memorial Scholarship:** for a student in good academic standing; essay required.

**Lori A. Grimes Memorial Scholarship:** based on financial need; renewable.

**Gary Hadley Scholarship:** for a student of the committee’s choice.

**Dick and Brenda Hartig Scholarship:** for a student who demonstrates financial need; preference is given to students from Dubuque, Waukon, Dyersville, and Iowa City, Iowa; and Galena and Stockton, Illinois.

**Thomas D. Hill Scholarship:** for a pharmacy student in good academic standing.

**Janet Hinderliter Scholarship:** for a P3 or P4 student with a g.p.a. of at least 3.00 and demonstrated involvement in campus and community affairs.

**Frances T. and Charles Holub Memorial Award:** for a third-year pharmacy student; financial need is considered; renewable once.

**Iowa Pharmacy Foundation Scholarships:** for selected pharmacy students who are residents of Iowa and who demonstrate outstanding academic ability; financial need is considered.

**R.A. Kuever Scholarship Fund:** for a pharmacy student from Iowa who is in good academic standing.

**Ernest Kyle Memorial Scholarship:** for a student of the committee’s choice.

**Ronald Madden Scholarship:** for an Iowa high school graduate in good academic standing.

**Charles J. Malecek Pharmacy Scholarship:** for a student of the committee’s choice.

**Virgil R. McCutchan Memorial Scholarship:** for a deserving pharmacy student.

**Carleton Mikkelsen Scholarship:** for the top P4 student based on final P3 grade-point average; in case of a tie, the committee chooses the recipient.

**Miller-Ruegnitz Scholarships:** based on financial need, non-renewable.

**NACDS Scholarship:** for a student interested in community pharmacy.

**Petersen Linder Scholarship:** for a pharmacy student in excellent academic standing who has outstanding leadership skills; based on financial need.

**Pharmacists Mutual Scholarship:** for a student of the committee’s choice.

**Pharmacy Student Aid Scholarship:** for a student of the committee’s choice.

**Quad Cities Area Pharmacists Association Scholarships:** for students who demonstrate financial need; preferably one student from Iowa and one from Illinois.

**Sattler Family Scholarship:** for a student of the committee’s choice, alternates with the Carver College of Medicine.

**Scherling Scholarship:** for a student who demonstrates superior academic achievement in organic chemistry.

**Chuck and Jacqueline Schwenke Scholarship:** for a student of the committee’s choice.

**Gordon H. Sheffield Scholarship:** for a P3 or P4 student from Iowa; preference given to a student who demonstrates leadership and financial need.

**ShopKo Scholarship:** preference given to students who reside or have resided in a state where Shop-Ko is located.

**Shutt Pharmacy Scholarship:** preference given to students interested in compounding or industrial pharmacy.
**Graduate Programs of Study**

- Master of Science in pharmacy
- Doctor of Philosophy in pharmacy

The College of Pharmacy offers graduate programs in four areas: clinical pharmaceutical science, medicinal and natural products chemistry, pharmaceutical economics, and pharmacoeconomics.

Advanced study in the pharmaceutical sciences prepares students for research, teaching, and administrative positions in the pharmaceutical industry, in colleges and universities, in government agencies, and in health-related institutions and organizations.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate College section of the Catalog. Academic requirements for maintaining graduate registration are determined by the Graduate College and by the individual divisions of the College of Pharmacy.

For more information about graduate study, visit the College of Pharmacy web site.

**Facilities and Resources**

**Pharmacy Building**

The Pharmacy Building is located on the University’s health sciences campus, in close proximity to the Carver College of Medicine, College of Dentistry, College of Nursing, and College of Public Health. Also nearby are University of Iowa Hospitals and Clinics, the Bowen Science Building, and the Hardin Library for the Health Sciences.

The Pharmacy Building is a five-story structure designed to provide modern facilities for a comprehensive program of pharmacy education. In addition to classrooms and auditoriums, there are well-equipped separate laboratories for instruction at the professional and graduate levels.

The college operates small and large classrooms with state-of-the-art technology. The student practice lab is a technologically advanced licensed pharmacy that provides real and simulated practice experiences. The Banker Student Activity Center provides quiet individual and small-group study environments and houses offices for College of Pharmacy Student Organizations.

The building also houses a fully supported Instructional Technology Center (Pharmacy ITC) in the Learning Resource Center. The ITC provides state-of-the-art desktop workstations and laptop computers are available for student checkout. Both desktop and laptop computers have secure connections to the University network for online drug information searching and printing.

**University of Iowa Pharmaceuticals**

University of Iowa Pharmaceuticals is a pharmaceutical manufacturing facility registered with the U.S. Food and Drug Administration that develops pharmaceutical dosage forms and has manufactured clinical supplies in compliance with Good Manufacturing Practices since 1974. University of Iowa Pharmaceuticals has clients worldwide, including pharmaceutical companies, biotechnology firms, medical departments, and government agencies. Its staff works closely with clients and pharmaceutics faculty members to produce virtually every type of pharmaceutical dosage form, supplying new pharmaceutical agents for use in clinical trials and other research. The facility combines the former Center for Advanced Drug Development and Division of Pharmaceutical Service. For more information, visit the University of Iowa Pharmaceuticals web site.

**Division of Drug Information Service**

The Division of Drug Information Service publishes the IDIS (Iowa Drug Information Service), a bibliographical database that provides full-text access to specialized information related to drugs and drug therapy. IDIS reaches subscribers throughout the world. The division is also home to the Iowa Drug Information Network, which serves a network of community pharmacies and family practice sites with drug information resources, educational programs, and direct-response consultations that support the pharmaceutical care initiatives at the network’s sites. In addition, the Division of Drug Information Service plays an important educational role for pharmacy students by providing both didactic and experiential teaching in drug information. The division is located on the University of Iowa Research Park campus.

**Courses**

Students must be enrolled in the College of Pharmacy to take the college’s courses. Undergraduate and graduate students in other colleges must have the instructor’s consent to take College of Pharmacy courses.

**For Undergraduates**

- **046:020 (PHAR:8000) Introduction to Pharmaceutics Projects**
  - Introduction to pharmaceutics.
  - 3 s.h.

- **046:029 (PHAR:5000) First-Year Seminar**
  - 1 s.h.

**For Pharm.D. Students**

**Pharmacy Practice and Science**

- **046:001 (PHAR:8100) Introduction to Pharmacy Practice**
  - 1 s.h.

  Exposure to the pharmacy profession through varied shadowing experiences in practice settings. Requirements: P1 standing.
046:002 (PHAR:8200) Introduction to Community Pharmacy Practice
Exposure to community pharmacy through activities focusing on drug distribution, legal requirements, communication, patient interaction; during breaks in P2 year. Requirements: P2 standing.

046:003 (PHAR:8300) Introduction to Clinical Pharmacy Practice
Clinical practice experience observing and participating in clinical activities with P4 students, faculty, and other health care providers. Requirements: P3 standing.

046:004 (PHAR:8205) Student Pharmacist Professionalism
Participation in activities promoting leadership and professional learning, and service learning; required participation P1 through P3 years.

046:006 (PHAR:8702) Dean's Pharmacy Forum II
Contemporary issues in pharmacy practice, pharmacy education, and health care.

046:007 (PHAR:8307) Career Pathways in Pharmacy
Career preparation through writing, speaking, reading, and listening; writing résumés, curricula vitae, cover letters; interviewing techniques; electronic portfolios; web-based career information; guest speakers from pharmacy associations, major chains; workshop approach. Requirements: P3 standing.

046:008 (PHAR:8206) Introduction to Hospital Pharmacy Practice
Exposure to hospital pharmacy through activities focusing on drug distribution, legal requirements, communication, patient interaction; during breaks in P2 year. Requirements: P2 standing.

046:011 (PHAR:8703) Web 2.0 and Pharmacy Drug Information
Introduction to challenges and opportunities of social Internet applications, electronic drug information sources, and mobile technologies available to healthcare providers and patients; creation, use, and critical evaluation of web-based products; lectures, class discussions, required readings, reflection blogs, and group projects. Requirements: P1, P2, or P3 standing.

046:013 (PHAR:8717) Ambulatory Care Pharmacy
Additional experience in the practice of clinical pharmacy; focus on key therapeutic areas where ambulatory care clinical pharmacists currently have a significant impact improving patient care, including anticoagulation management, hyperlipidemia management, and diabetes management; opportunity to develop expertise in clinical decision making, improve problem solving abilities, and continued development in writing and oral presentation skills. Prerequisites: 046:154 (PHAR:8241) and 046:156 (PHAR:8243). Requirements: P3 standing.

046:014 (PHAR:8718) Special Topics in Acute Care Pharmacy
Pharmacology for common but varied acute care medicine topics; review of disorder, therapeutic goals, treatment plans, patient counseling, monitoring patient outcomes; lecture or case-based classes; acute and chronic renal failure; peritoneal and hemodialysis; diabetic ketoacidosis; rhabies; shock, vasopressors, fluids; ACLS; deep venous thrombosis, stress ulcer prophylaxis; burns; sedation, neuromuscular blockage; opioids; multiple sclerosis. Prerequisites: 046:149 (PHAR:8240), 046:154 (PHAR:8241), 046:155 (PHAR:8242), 046:156 (PHAR:8243), 046:158 (PHAR:8340), and 046:159 (PHAR:8341). Corequisites: 046:164 (PHAR:8342) and 046:165 (PHAR:8343). Requirements: BLS certification.

046:050 (PHAR:8101) Pharmacy Practice Lab I
Practical application of scientific and clinical knowledge used in the provision of pharmaceutical care; activities include communication with patient and members of the healthcare team, sterile product and prescription compounding, pharmacy calculations, and use of drug information resources. Requirements: P1 standing.

046:051 (PHAR:8102) Pharmacy Practice Lab II
Practical application of scientific and clinical knowledge used in the provision of pharmaceutical care; activities include prescription compounding, pharmacy calculations, communication skills, prescription counseling, and applications of drug information skills through secondary searching of the primary literature. Prerequisites: 046:050 (PHAR:8101). Requirements: P1 standing.

046:101 (PHAR:8706) Pharmacy Projects
Basic and applied research problems of pharmaceutical interest.

046:103 (PHAR:8103) Fundamentals of Evaluating Clinical Research
Basic concepts for evaluation of clinical trials published in primary biomedical and pharmacy literature; design, methods, outcomes, statistical analysis, and generalizability of results. Requirements: P1 standing.

046:104 (PHAR:8104) Pharmacy Law and Ethics
Legal and moral aspects involved in the practice of pharmacy. Requirements: P3 standing.

046:106 (PHAR:8201) Clinical Practice Skills I: Theory and Application

046:107 (PHAR:8302) Clinical Practice Skills II: Critical Patient Analysis
Continuation of 046:106 (PHAR:8201); development of professional skills required for delivery of patient care; patient assessment, clinical decision making, communication (written and oral) skills. Corequisites: 046:158 (PHAR:8340). Requirements: P3 standing.

Continuation of 046:107 (PHAR:8302); development of professional skills required for delivery of patient care; patient assessment, clinical decision making, communication (written and oral), teamwork. Corequisites: 046:164 (PHAR:8342). Requirements: P3 standing.

046:115 (PHAR:8313) Drug Literature Evaluation 2 s.h.
Study design methods, drug information techniques and skills; skill development in critical analysis and evaluation of published reports of drug use and drug trials, assessment of validity of reports, trials and studies, assessment of generalizability of results to individual patients and patient groups; laboratory experience in biomedical literature analysis, evaluation.

046:116 (PHAR:8203) Pharmacy Practice Lab III 2 s.h.
Practical application of scientific and clinical knowledge in the provision of patient-centered care; activities include prescription interpretation and counseling, compounding, applications of drug information, use of patient screening tools, physical assessment, and pharmacy law. Corequisites: 046:149 (PHAR:8240) and 046:154 (PHAR:8241), if not taken as prerequisites.

046:117 (PHAR:8204) Pharmacy Practice Lab IV 2 s.h.
Practical application of scientific and clinical knowledge in the provision of patient-centered care; activities include providing medication therapy management for patients, prescription and self-care counseling, and application of drug information skills. Corequisites: 046:155 (PHAR:8242) and 046:156 (PHAR:8243), if not taken as prerequisites. Requirements: P2 standing.

046:118 (PHAR:8305) Pharmacy Practice Lab V 2 s.h.
Practical application of scientific and clinical knowledge in the provision of patient-centered care; activities include medication therapy management for patients, prescription and self-care counseling, and application of drug information skills. Corequisites: 046:158 (PHAR:8340) and 046:159 (PHAR:8341), if not taken as prerequisites.

046:119 (PHAR:8306) Pharmacy Practice Lab VI 2 s.h.
Practical application of scientific and clinical knowledge in the provision of patient-centered care; activities include medication therapy management for patients, prescription and self-care counseling, and application of drug information skills. Corequisites: 046:164 (PHAR:8342) and 046:165 (PHAR:8343), if not taken as prerequisites. Requirements: P3 standing.

046:121 (PHAR:8708) Substance Abuse 2 s.h.
Themes and concepts in substance abuse and treatment; stimulants, depressants, alcohol, opiates, hallucinogens, steroids; drug abuse prevention and treatment, including dual diagnosis, from cradle to the grave.

046:122 (PHAR:8105) Social Aspects of Pharmacy Care 2 s.h.
Conceptual issues related to social and behavioral components of pharmacy care; social construction of health and illness, medication use process, health communications, cultural competence, health disparities, public health. Requirements: P1 standing.

Introduction to providing service to a community in a less developed country; student projects intended to improve community life in Xicotepec. Requirements: P3 standing. Same as 053:126 (CEE:4788), 152:126 (GHS:4126).

046:129 (PHAR:8308) Pharmaceutical Economics and Insurance 3 s.h.
Financing of health care in the U.S.; insurance and reimbursement in pharmacy and pharmacoconomics. Requirements: P3 standing.

046:136 (PHAR:9433) Elective Academic Rotation 6 s.h.
Practice experience delivering pharmacy education with a College of Pharmacy faculty member. Requirements: P4 standing.

046:139 (PHAR:8309) Pharmacy Management and Marketing 2 s.h.
Application of management principles to pharmacy practice; marketing techniques for pharmacy practice; operations, human resources, finance, quality improvement and service marketing management.

046:140 (PHAR:9402) Elective Ambulatory Care Rotation 6 s.h.
Clinical experience providing pharmaceutical care in specialty outpatient settings. Requirements: P4 standing.

046:141 (PHAR:9421) Elective Community Management Rotation 6 s.h.
Practice exposure to community pharmacy operations and management at the store, district, or corporate level. Requirements: P4 standing.

046:142 (PHAR:9422) Elective: Compounding/Complimentary Alternative Medicine Rotation 6 s.h.
Clinical work in a community setting with focus on team approach; experience developing extemporaneous compounds to optimize patient care and/or integrating traditional and nontraditional medicine. Requirements: P4 standing.

046:143 (PHAR:9423) Elective: Critical Care Medicine Rotation 6 s.h.
Practice experience providing pharmaceutical services to intensive care unit patients. Requirements: P4 standing.

046:146 (PHAR:3740) End-of-Life Care for Adults and Families 2-4 s.h.

046:149 (PHAR:8240) Introduction to Therapeutics/Special Populations 2 s.h.
Treatment modalities that promote health and treat common diseases; common laboratory and diagnostic procedures used to diagnose and monitor diseases; basic types of adverse drug reactions. Requirements: P2 standing.

046:151 (PHAR:8722) Current Topics in Health Policy 2 s.h.
Legislative process and broad range of current issues in health policy; general- and pharmacy-specific health policy topics at state and federal levels. Requirements: P1, P2, P3, or graduate standing.

046:154 (PHAR:8241) Endocrinology, Ophthalmology, Women's and Men’s Health Therapeutics
Pharmacotherapy for endocrine and ophthalmologic disorders; review of disorders, treatment goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P2 standing.

046:155 (PHAR:8242) Respiratory and Dermatologic Therapeutics
Pharmacotherapy for respiratory and dermatology disorders; review of disorders, treatment goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P2 standing.

046:156 (PHAR:8243) Cardiovascular Therapeutics

046:158 (PHAR:8340) FEN, GI, and Renal Therapeutics
Pharmacotherapy for fluid/electrolyte/nutrition disorders; gastrointestinal and renal diseases; review of disorders, treatment goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P3 standing.

046:159 (PHAR:8341) Rheumatology, Immunology, Hematology, Oncology, and Transplantation Therapeutics
Pharmacotherapy for rheumatology, immunology, hematology, oncology, and transplantation; review of disorders, treatment goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P3 standing.

046:161 (PHAR:9406) Elective: Drug Information Rotation
Practice experience applying drug information knowledge to service and research projects. Requirements: P4 standing.

046:164 (PHAR:8342) Neurology/Psychiatry Therapeutics
Pharmacotherapy for psychiatric and neurologic disorders; review of disorders, therapeutic goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P3 standing.

046:165 (PHAR:8343) Infectious Disease Therapeutics
Pharmacotherapy for infectious diseases; review of disease, therapeutic goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P3 standing.

046:171 (PHAR:8712) Nonprescription Pharmacotherapy
Introduction to nonprescription medications; development of patient assessment and consultation skills; understanding of pharmacist’s role in patient self-care. Requirements: P3 standing.

046:177 (PHAR:8723) Infectious Disease for Acute Care Practice
Contemporary issues related to infectious diseases; unusual pathogens such as Ebola, tropical medicine, bioterrorism, resistance, travel medicine, epidemiology.

046:178 (PHAR:9410) Hospital Pharmacy Rotation
Instruction and practical experience in various components of hospital pharmacy; emphasis on hospital organization, inpatient and outpatient services, IV admixtures, unit dose, and clinical services. Requirements: P4 standing.

046:179 (PHAR:9404) Community Pharmaceutical Care Rotation
Clinical experience in the community setting; emphasis on delivery of pharmaceutical care. Requirements: P4 standing.

046:180 (PHAR:9413) Acute Care Medicine Rotation
Clinical experience applying therapeutic skills for the pharmacotherapeutic management of patients on general medicine or specialty inpatient areas. Requirements: P4 standing.

046:181 (PHAR:9407) Elective Family Medicine Rotation
Clinical practice experience applying primary care therapeutics in family medicine practice settings. Requirements: P4 standing.

046:182 (PHAR:9415) Elective: Pediatrics Rotation
Clinical experience in drug therapy management of general and specialty pediatric patients. Requirements: P4 standing.

046:184 (PHAR:9417) Elective Psychiatry Rotation
Clinical experience in the rational use of drugs in psychiatric disorders. Requirements: P4 standing.

046:185 (PHAR:9414) Elective Neurology Rotation
Clinical experience in the pharmacotherapeutic and pathophysiologic considerations of neurological disorders. Requirements: P4 standing.

046:186 (PHAR:9415) Elective: Surgery Rotation
Clinical experience in drug therapy management on a surgery unit. Requirements: P4 standing.

046:187 (PHAR:9403) Elective Nuclear Pharmacy Rotation
Practical experience in the handling and clinical use of radiopharmaceuticals. Requirements: P4 standing.

046:188 (PHAR:9420) Elective Pharmacy Practice Underserved Population Rotation
Opportunity to learn the best practices for pharmaceutical management; approaches to enhance access to and appropriate use of medicines in underserved and resource-limited environments. Requirements: P4 standing.

046:189 (PHAR:9416) Elective: Pharmacy Rotation
Selected practice experiences in various pharmacy practice settings. Requirements: P4 standing.
046:190 (PHAR:8719) Overview of Pediatric Pharmacotherapy
Discussion of issues and problems in pediatric pharmacotherapy; clinical practicum. Prerequisites: 046:149 (PHAR:8240) and 046:170 (PHAR:8230). Requirements: P3 standing.

046:191 (PHAR:8720) Health Coaching and Wellness
Develop expertise in health coaching and wellness to care for patients with chronic diseases; in-depth look at lifestyle changes recommended for patients with chronic diseases; discuss and investigate nutrition and exercise guidelines for patients with chronic diseases; motivational interviewing technique and incorporation of chronic care model for patients. Requirements: P2 or P3 standing.

046:192 (PHAR:9411) Elective Long Term Care Rotation
Practice in consulting and providing services to varied long-term patient care environments. Requirements: P4 standing.

046:193 (PHAR:9409) Elective Home Health Care Rotation
Clinical experience in the team approach to health care delivery, including total parenteral nutrition, chemotherapy, intravenous antibiotics, lab analysis, hospice care, and pain management. Requirements: P4 standing.

046:194 (PHAR:9412) Elective Managed Care Rotation
Practice experience in providing pharmaceutical care or pharmacy-related services in a managed care organization. Requirements: P4 standing.

046:195 (PHAR:8721) Contemporary Issues and Leadership
Introduction to leadership applications inside and outside of pharmacy; speaker series presents live interviews of prominent leaders; course work focuses on application of leadership principles and theories to contemporary pharmacy issues. Requirements: P1, P2, or P3 standing.

046:196 (PHAR:9401) Ambulatory Care Rotation
Clinical experience in providing pharmaceutical care in outpatient clinic settings. Requirements: P4 standing.

046:197 (PHAR:9408) Elective Hematology/Oncology Rotation
Drug therapy management of oncology patients and patients with hematologic malignancies, aplastic anemia, sickle cell disease, hemophilia. Requirements: P4 standing.

046:199 (PHAR:9418) Elective Research Rotation
Practice experience in basic pharmaceutical or clinical research; proposal, study design, data collection and analysis, presentation of results. Requirements: P4 standing.

046:300 (PHAR:9424) Elective Emergency Medicine Rotation
Clinical experience providing pharmaceutical care for patients treated in the emergency department. Requirements: P4 standing.

046:301 (PHAR:9425) Elective Hospital Management Rotation
Practice experience in hospital pharmacy operations and management. Requirements: P4 standing.

046:302 (PHAR:9426) Elective Infectious Disease Rotation
Clinical experience providing pharmacotherapeutic management of patients receiving antimicrobial medications. Requirements: P4 standing.

046:303 (PHAR:9427) Elective Medication Use Evaluation Rotation
Practical experience in drug use evaluation to improve patient outcomes. Requirements: P4 standing.

046:304 (PHAR:9428) Elective Pharmacy Industry Rotation
Practice experience in an area of the pharmaceutical industry. Requirements: P4 standing.

046:305 (PHAR:9429) Elective: Pharmacy Regulatory Rotation
Practice experience with a pharmacy regulatory body. Requirements: P4 standing.

046:306 (PHAR:9430) Elective: Professional Association Rotation
Practice experience in professional association management environment at the state or national level. Requirements: P4 standing.

046:307 (PHAR:9431) Elective: Veterinary Pharmacy Rotation
Practice experience in managing drug therapy for animals. Requirements: P4 standing.

046:308 (PHAR:9432) Elective: Advanced Community Pharmacy Rotation
Community pharmacy experience emphasizing patient-centered care. Requirements: P4 standing.

046:357 (PHAR:8790) Topics in Community Pharmacy Management
Focus on building practical knowledge and understanding of business principles.

046:377 (PHAR:8715) Health Disparities and Cultural Competence
Characteristics, causes, and effects of health disparities in the U.S. health care system; foundation for development of knowledge, attitudes, and skills required of culturally competent health care providers; definitions and models of cultural competence, characteristics of culturally effective practitioners and workplaces; health disparities among specific populations, evidence for cultural competence as a remedy; taking a culturally appropriate history; working with interpreters; legal and professional imperatives for cultural competence. Same as 096:125 (NURS:3715), 172:135 (CBH:5225).

046:398 (PHAR:8385) Hospital Pharmacy Practice Management Elective

Organizational structure of pharmacy departments in hospitals and health care systems; models for delivery of pharmaceutical care; pharmacy's role in drug-policy decision making; provision of drug information; clinical and distributive pharmacy services; control of pharmacy and pharmacy costs; use of information technology and automation for service delivery; supervisory management; quality improvement. Requirements: P3 standing.

**Pharmaceutical Sciences and Experimental Therapeutics**

**046:012 (PHAR:8791) Survey of Basic Pharmaceutical Sciences**
1 s.h.
Aspects of drug discovery and development; seminar with guest speakers from industry. Requirements: admission to Pharm.D. program.

**046:110 (PHAR:3745) Drug Delivery I**
arr.
Advanced design and development of drug delivery systems; emphasis on selection of materials and designs suitable for specific applications; comparison and evaluation of available and emerging technologies. Requirements: introductory-level courses in biochemistry and anatomy/physiology.

**046:111 (PHAR:3746) Drug Delivery II**
arr.
Continuation of 046:110 (PHAR:3745). Prerequisites: 046:110 (PHAR:3745).

**046:123 (PHAR:8111) Pharmaceutics I: Solutions**
4 s.h.
Application of physical and chemical principles to formulation, preparation of liquid dosage forms, including solution, colloids, ointments, emulsions. Requirements: P1 standing.

**046:124 (PHAR:8112) Pharmaceutics II: Solids and Semi-solids**
4 s.h.
Properties of solids; formulation, preparation, evaluation of solid dosage forms. Requirements: P1 standing.

**046:128 (PHAR:8121) Medicinal and Natural Products Chemistry I: Biotechnology and Chemotherapy**
3 s.h.
Organic and inorganic medicinal and therapeutic agents of natural and synthetic origin; physical, chemical, biological, and biochemical properties as they relate to medicinal and therapeutic effects; comparative biological activity and toxicity; detoxication mechanisms; functional group chemistry; nomenclature; chemistry of radiodiagnostic and therapeutic agents; introduction to biopharmaceutical analysis. First in a three-course sequence. Prerequisites: 004:122 (CHEM:2220), 061:112 (MICR:3112), and 099:162 (BIOC:8102). Requirements: P1 standing.

**046:131 (PHAR:8122) Medicinal and Natural Products Chemistry II: Pharmacodynamic Agents**
3 s.h.
Medicinal chemistry of pharmacodynamic agents; introduction to peptides and proteins, thyroid hormone, diabetes, vaccines, gene therapeutics, NSAIDs, cardiovascular drugs, antihistamines, antiancer drugs. Second in a three-course sequence. Prerequisites: 046:128 (PHAR:8121). Requirements: P2 standing.

**046:132 (PHAR:8123) Medicinal and Natural Products Chemistry III: Medicinal Neurochemistry**
3 s.h.
Receptor site theory; steroids, lipids, and prostaglandins; sedatives and hypnotics; drugs of abuse; cholinergics; excitatory amino acids and anticonvulsants; major analgesics; adrenergics; psychotherapeutics. Third in a three-course sequence. Prerequisites: 046:128 (PHAR:8121) and 046:131 (PHAR:8122). Requirements: P2 standing.

**046:138 (PHAR:8213) Pharmacokinetics and Biopharmaceutics**
3 s.h.
Qualitative and quantitative description of kinetics of drug absorption, distribution, and elimination, including physiological factors that influence each process; adjustment of dosing regimens for optimizing therapeutic drug levels in the body; dosing considerations in special populations. Prerequisites: 046:123 (PHAR:8111) and 046:124 (PHAR:8112).

**046:153 (PHAR:4740) Materials in Drug and Gene Delivery**
3 s.h.
Different types of materials used in drug and gene delivery including synthetic and natural polymers (poly lactic-co-glycolic acid and chitosan respectively); different forms of delivery systems including (but not limited to) liposomes, micelles, biodegradable nanoparticles, nondegradable nanoparticles, and solid porous scaffolds; applications of these material-based delivery systems from targeted chemotherapy to bone regeneration to vaccination applications.

**046:169 (PHAR:8710) Introduction to Pharmacogenomics**
2 s.h.
Introduction to pharmacogenetics in pharmacy; laboratory techniques, application of pharmacogenetics to clinical pharmacy.

**046:170 (PHAR:8230) Clinical Pharmacokinetics**
3 s.h.
Application of pharmacokinetics to the clinical setting. Requirements: P2 standing.

**For Graduate Students**

**Pharmacy Practice and Science**

**046:147 (PHAR:5350) Introduction to Research Methods**
3 s.h.
Scientific inquiry, experimental design, data collection, statistical methods used in the study of health services and clinical investigations; focus on understanding the research process and evaluating published studies. Recommendations: introductory statistics.

**046:213 (PHAR:5310) Pharmaceutical Socioeconomics Seminar**
1-2 s.h.
Recent research in pharmacy administration.

**046:251 (PHAR:6320) Pharmaceutical Socioeconomics Research**
arr.

**046:255 (PHAR:5335) Social Aspects of Pharmacy Care**
2 s.h.
Conceptual issues related to social and behavioral components of pharmacy care; social construction of health and illness, medication use process, health communications, cultural competence, public health.

**046:257 (PHAR:6305) Foundation Literature in Pharmaceutical Socioeconomics**
arr.
Issues related to pharmacy administration, social and behavioral pharmacy, pharmacy education.

Selected topics, including nonlinear curve fittings. Prerequisites: 046:148 (PHAR:6700).

046:231 (PHAR:6710) Pharmaceutics Graduate Seminar 1-2 s.h.

046:235 (PHAR:6706) Equilibria Processes 3 s.h.
Equilibria pertaining to ionic systems, complexion, partitioning, solubility. Prerequisites: 004:131 (CHEM:4431).

046:236 (PHAR:7701) Surface Phenomena arr.
Behavior of matter in phase boundaries, especially adsorptive processes at liquid-solid and vapor-solid interfaces. Prerequisites: 004:131 (CHEM:4431).

046:237 (PHAR:7702) Transport Phenomena 3 s.h.
Diffusion and mass transport phenomena related to pharmaceutical systems. Prerequisites: 004:131 (CHEM:4431).

Advanced design and development of drug delivery systems with emphasis on selection of materials and designs suitable for specific applications; comparison and evaluation of available and emerging technologies.

Continuation of 046:238 (PHAR:5745). Prerequisites: 046:238 (PHAR:5745).

046:245 (PHAR:6130) Analytical Techniques in Therapeutics 2 s.h.
Basic concepts of cell culture, animal models, and biochemical techniques for mechanistic evaluation of drug actions.

046:266 (PHAR:5566) Enzyme Kinetics and Enzyme Mechanisms: Biophysical Chemistry Module 5 1 s.h.
Enzymes as unparalleled catalysts and representing a unique class of drug targets; organic chemistry of enzyme catalyzed reactions with emphasis on physical organic logic of sources of enzyme-catalytic power; enzyme inhibition by small molecules from a medicinal chemistry perspective; taken alone or as part of 099:242 (BIOC:5242). Requirements: Introductory course in biochemistry. Same as 099:246 (BIOC:5246).

046:275 (PHAR:5875) Perspectives in Biocatalysis 1-3 s.h.

046:280 (PHAR:5110) Clinical Pharmaceutical Sciences Seminar 1-2 s.h.
Research by faculty, graduate students.

046:284 (PHAR:5930) Introduction to Pharmaceutical Sciences Research 2 s.h.
Key principles and methods in pharmaceutical sciences research.

046:285 (PHAR:7100) Translational Research and Clinical Drug Development 3 s.h.
Clinical drug development; preclinical studies and clinical trials; phase I, II, and III clinical trials, including regulatory considerations.

046:287 (PHAR:7101) Principles of Experimental Therapeutics 3 s.h.
Introduction to key principles and concepts for research in experimental therapeutics; basic principles related to drug disposition, toxicity, and efficacy.

046:288 (PHAR:7102) Applied Clinical and Translational Science 3 s.h.
Application of clinical and translational science in a multidisciplinary collaborative environment to develop, conduct, and report research.

046:245 (PHAR:6130) Analytical Techniques in Therapeutics 2 s.h.
Basic concepts of cell culture, animal models, and biochemical techniques for mechanistic evaluation of drug actions.

Undergraduate certificate: public health
Graduate degrees: M.H.A.; M.P.H.; M.S.; Ph.D.
Graduate certificates: agricultural safety and health; biostatistics; emerging infectious disease epidemiology; public health; translational and clinical investigation
Web site: http://www.public-health.uiowa.edu/

The College of Public Health, established in 1999, is a partner with the Carver College of Medicine and the Colleges of Dentistry, Nursing, and Pharmacy in striving to improve human health and well-being. Consistent with the interdisciplinary traditions of public health, the college also collaborates with non-health science colleges across the University and with other Board of Regents, State of Iowa institutions, state and local agencies, and the private sector.

A population-based approach to health is a distinguishing feature of public health and of the college. For public health practitioners—a wide range of professionals including physicians, nurses, dentists, pharmacists, social workers, nutritionists, environmental scientists, health educators, and health service administrators—the primary focus is on the health of entire communities rather than individual patients. Tools that public health professionals use to improve and enhance quality of life include analytical methods to identify, describe, and monitor the health of communities and populations at risk; education and prevention programs, methods of assuring access to appropriate and cost-effective care; and formulation of sound public policies.

The public health approach has led to many important health improvements over the past century. Vaccination campaigns, improved sanitation, fluoridation of drinking water, and efforts to reduce tobacco use are among the most recognizable public health initiatives. Public health programs also have led to safer workplaces, reduction of deaths from coronary heart disease and stroke, improved motor vehicle safety, and creation of effective health systems to provide care to those who need it. Today, public health professionals play an important role worldwide in seeking better approaches to complex issues such as quality of life for the elderly, drug and alcohol abuse, teen pregnancy, new and reemerging infectious diseases, bioterrorism, health literacy, nutrition, and food safety.

The College of Public Health provides educational opportunities to students campuswide. In addition to training and educating public health students, the college welcomes students from the Tippie College of Business, the Carver College of Medicine, the Graduate College, and the Colleges of Dentistry, Education, Engineering, Law, Nursing, and Pharmacy who enroll in public health courses. Undergraduate students in the College of Liberal Arts and Sciences and graduate students from programs such as anthropology, microbiology, and statistics also register for public health courses. The college’s faculty members, staff members, and graduate and postdoctoral students contribute to teaching and research activities throughout the health sciences campus and provide services to Iowa and the nation. Partnerships for teaching and research extend across the campus. This background provides a rich array of educational opportunities.

The college includes the Departments of Biostatistics (p. 1141), Community and Behavioral Health (p. 1147), Epidemiology (p. 1154), Health Management and Policy (p. 1164), and Occupational and Environmental Health (p. 1178). It offers programs leading to four graduate degrees: Master of Health Administration (M.H.A.), Master of Public Health (M.P.H.), Master of Science (M.S.), and Doctor of Philosophy (Ph.D.). It also offers the Certificate in Agricultural Safety and Health (p. 1140), the Certificate in Biostatistics (p. 1141), the Certificate in Emerging Infectious Disease Epidemiology (p. 1153), the Certificate in Public Health (p. 1146), and the Certificate in Translational and Clinical Investigation (p. 1154).

The college is accredited by the Council on Education for Public Health (CEPH), the accrediting body for the nation’s schools and colleges of public health. Three programs in the college currently are accredited: the industrial hygiene M.S. training program is accredited by the Applied Science Accreditation Commission of ABET, the Master of Health Administration is accredited by the Commission on Accreditation of Healthcare Management Education (CAHME), and the Occupational Medicine Residency is accredited by the Accreditation Council for Graduate Medical Education (ACGME).

Admission

Each department in the College of Public Health has an admission committee. Admission criteria usually include a satisfactory cumulative grade-point average; Graduate Record Examination (GRE) General Test scores; references; résumés; and for applicants whose first language is not English, scores on the Test of English as a Foreign Language (TOEFL). Other evaluation criteria may include oral and on-campus interviews, written statements, special emphasis on science and math courses, and a match of available faculty mentors with student interests. Application deadlines vary by program.

Applicants to College of Public Health programs must meet the admission requirements of the Graduate College. For detailed information about Graduate College policies, including application requirements and procedures, see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.
Faculty
The college’s faculty includes members with single appointments in the College of Public Health as well as those with joint appointments in other University of Iowa colleges, including the Carver College of Medicine and the Colleges of Dentistry, Engineering, Law, Liberal Arts and Sciences, Nursing, and Pharmacy. In addition, the college’s faculty includes adjunct members from Drake University, Iowa State University, the University of Northern Iowa, the Iowa State Department of Public Health, the State Hygienic Laboratory at The University of Iowa, the Iowa Heart Center (in Des Moines), University of Iowa Hospitals and Clinics, and the National Institutes of Health.

Research Centers and Institutes
The College of Public Health is home to 27 centers and institutes that conduct research and provide public service. These multidisciplinary centers and institutes—most of which are supported by federal grants—focus their investigative efforts on important public health topics. They conduct an array of outreach, service, and policy activities through which the College of Public Health engages with agencies, communities, and organizations throughout Iowa, the Midwest, the nation, and the world. Students are encouraged to explore opportunities for involvement with any of the college’s centers and institutes.

For more information, see College of Public Health-Based Centers and Institutes on the college’s web site.

Facilities
The College of Public Health Building, a state-of-the-art facility that opened in early 2012 on the University’s health sciences campus, houses the college’s administrative, departmental, and faculty offices. The college’s research centers, institutes, and specialized laboratories are located in Westlawn, on the health sciences campus; in University Capitol Centre, on the main campus east; and at the University of Iowa Research Park.

Eight student computer laboratories are housed at the college. More than 55 software packages are available for student use, most without charge. Software includes Microsoft Office products, SAS, and S+. Some specialty labs are equipped with RedHat Linux and are loaded with R, Macanova, Xlispstat, Mathematica, and other software.

Students, faculty, and staff draw on extensive library resources available across campus. Hardin Library for the Health Sciences serves as a central resource for all of the health sciences colleges. Hardin Library’s Information Commons, a state-of-the-art health sciences educational technology facility, provides central support and delivery for courseware development, classroom instruction, health-related research, and independent learning. It offers high-end multimedia development workstations, networked electronic classrooms, a case-based learning and conference room, and information research workstations for searching health-related databases and the Internet.

Director

• Kelly Donham

Graduate certificate: agricultural safety and health
Web site: http://www.public-health.uiowa.edu/oeh/programs/certificate/

The College of Public Health offers the Certificate in Agricultural Safety and Health by distance education.

Graduate Program of Study

• Certificate in Agricultural Safety and Health

The certificate program trains students to detect safety and illness hazards and to treat and prevent farm-related illnesses, injuries, and deaths. It is intended for health and safety professionals nationwide as well as for students at The University of Iowa and at other postsecondary institutions who are enrolled in health or safety programs and would like to add an agricultural health component to their training. The certificate may enhance employment opportunities in health care delivery, government, and the private sector.

The program is accredited by the Council on Education for Public Health.

Certificate

The Certificate in Agricultural Safety and Health requires 12 s.h. of graduate credit. Completion of the certificate is noted on the student’s transcript.

The certificate is offered by distance education, but students are encouraged to take 175:209 (OEH:6110) Rural Health and Agricultural Medicine on campus; the course is offered twice yearly, once during spring semester and again as an intensive five-day workshop in June. Students may be able to complete 175:203 (OEH:7140) Preceptorship in Occupational and Environmental Health in their own communities.

The Certificate in Agricultural Safety and Health requires the following course work.

All of these:

175:209 (OEH:6110) Rural Health and Agricultural Medicine 3 s.h.
175:196 (OEH:4110) Agricultural Safety: Theories and Practice 2 s.h.
175:203 (OEH:7140) Preceptorship in Occupational and Environmental Health 2 s.h.
175:172 (OEH:7120) Independent Study in Occupational and Environmental Health 1 s.h.

One of these:

175:210 (OEH:6120) Current Topics in Agricultural Health 1 s.h.
175:180 (OEH:5010) Occupational and Environmental Health Seminar 1 s.h.

One of these:

175:192 (OEH:5410) Occupational Safety 3 s.h.
175:230 (OEH:5620) Occupational Health 3 s.h.

Applicants to the certificate program should hold a bachelor’s degree from an accredited university with a g.p.a. of at least 2.50; or they should have equivalent experience and education. Application materials must include the program’s application form, a résumé, and a letter of interest explaining the applicant’s current position and education objectives.

For more information about the program’s curriculum or faculty, visit the Certificate in Agricultural Safety and Health web site.
Biostatistics

Head
• Kathryn Chaloner

Deputy head
• William R. Clarke

Professors
• Stephan Arndt (Iowa Consortium for Substance Abuse/Psychiatry/Biostatistics), Joseph E. Cavanaugh (Biostatistics/Statistics and Actuarial Science), Kathryn Chaloner (Biostatistics/Statistics and Actuarial Science), William R. Clarke, Christopher S. Coffey, Jeffrey J. Dawson, Stephen Hillis (Radiology/Biostatistics), Jian Huang (Biostatistics/Statistics and Actuarial Science), Michael P. Jones (Biostatistics/Public Policy Center/Statistics and Actuarial Science), Philip C. Kutzko (Mathematics/Biostatistics), Joseph B. Lang (Biostatistics/Statistics and Actuarial Science), Jane F. Pendergast, Bruce Pfohl (Psychiatry/Biostatistics), Kai Wang, Ying Zhang, Dale Zimmerman (Biostatistics/Statistics and Actuarial Science), M. Bridget Zimmerman

Associate professors
• M. Kathryn Cowles (Biostatistics/Statistics and Actuarial Science), Jacob J. Oleson, Brian J. Smith, Gideon K.D. Zamba

Assistant professors
• Emine O. Bayman (Anesthesia/Biostatistics), Patrick J. Breheny, Eric D. Foster

Adjunct professor
• Daniel J. Sargent

Adjunct assistant professors

Professors emeriti
• Leon F. Burmeister, George Woodworth

Graduate degrees: M.S. in biostatistics; Ph.D. in biostatistics

Graduate certificate: biostatistics

Web site: http://www.public-health.uiowa.edu/biostat/

The Department of Biostatistics prepares students for professional and academic careers in biostatistics. Graduates find positions in pharmaceutical, health care, and research companies and institutions; in universities and government agencies; and as consultants. The department also provides training for non-biostatistics students.

Current research interests in the Department of Biostatistics include computer intensive statistics, Bayesian methods, design and analysis of clinical trials, longitudinal data analysis, survival analysis, spatial modeling, analysis of data subject to missingness, time series, model selection, quality control, survey sampling, statistical genetics, and public health statistics. Biostatistics faculty members work closely with both clinical and basic science investigators on the University of Iowa health sciences campus in the design and analysis of research projects.

Graduate Programs of Study

• Master of Science in biostatistics
• Doctor of Philosophy in biostatistics
• Certificate in Biostatistics

In addition to offering graduate degree programs in biostatistics, the department offers the quantitative methods subtrack for the Master of Public Health; see "M.P.H. Subtrack" below.

Master of Science

The Master of Science program in biostatistics requires a minimum of 38 s.h. of graduate credit. The program provides training in the design of experiments and in analysis of data related to biomedical or public health problems. It emphasizes mathematical, statistical, and computer methods for dealing with quantitative information and provides opportunities for students to gain statistical consulting experience with a variety of problems.

Graduates find career opportunities in many areas, including pharmaceutics, health care, research companies and institutions, consulting firms, universities, and government agencies.

All M.S. students are required to complete an in-depth preceptorship under the direction of a departmental faculty member and a final comprehensive-style examination.

Graduate students in biostatistics must maintain a g.p.a. of at least 3.00. Those who receive a grade of C on 7 s.h. of course work may be dismissed from the program.

The Master of Science in biostatistics requires the following course work.

**CORE COURSES**

All of these:

171:178 (BIOS:5510) Biostatistical Computing 3 s.h.
171:201 (BIOS:5710)-171:202 (BIOS:5720) Biostatistical Methods I-II 8 s.h.
171:203 (BIOS:5730) Biostatistical Methods in Categorical Data 3 s.h.
171:266 (BIOS:6610) Statistical Methods in Clinical Trials 3 s.h.
171:280 (BIOS:7500) Preceptorship in Biostatistics 3 s.h.
173:140 (EPID:4400) Epidemiology I: Principles 3 s.h.

One of these sequences:

22S:193 (STAT:5100)-22S:194 (STAT:5101) Statistical Inference I-II (preferred for students who intend to earn a Ph.D.) 6 s.h.

Public health requirement:

170:200 (MPH:6100) Essentials of Public Health 1 s.h.

**ELECTIVES**

One of these:

002:170 (BIOL:4213) Bioinformatics 4 s.h.
055:122 (ECE:5220) Computational Genomics 3 s.h.
069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students 4 s.h.
127:191 (GENE:7191) Human Molecular Genetics 3 s.h.
Students who earned a Master of Science in biostatistics at The University of Iowa automatically receive credit for these courses.

One of these sequences:

All of these:

- 171:280 (BIOS:7500) Preceptorship in Biostatistics
- 173:140 (EPID:4400) Epidemiology I: Principles
- 170:200 (MPH:6100) Essentials of Public Health

One approved biology/public health course

**M.P.H. Subtrack**

The Department of Biostatistics offers the quantitative methods subtrack for the Master of Public Health. The subtrack is designed to train public health professionals for leadership in the analysis of public health data and the design of studies for public health investigations. See Master of Public Health Program (p. 1171) in the Catalog.

**Doctor of Philosophy**

The Doctor of Philosophy program in biostatistics requires a minimum of 79 s.h. of graduate credit, including credit from a master's degree. The program prepares students for professional and academic careers in biostatistics, especially for positions that emphasize developing and applying statistical methodology to solve important biological and public health problems.

All Ph.D. students must successfully complete a qualifying examination, a comprehensive examination, and a dissertation—a substantial scholarly treatise. The research topic and content, which vary depending on the program of study, must be approved by the student’s dissertation committee. Other degree requirements include approved electives chosen from Department of Biostatistics and other University of Iowa courses.

Graduate students in biostatistics must maintain a g.p.a. of at least 3.00. Those who receive a grade of C on 7 s.h. of course work may be dismissed from the program.

The Doctor of Philosophy in biostatistics requires the following work.

**MASTER OF SCIENCE BACKGROUND**

Ph.D. students must take the following courses (26 s.h.) required for the Master of Science in biostatistics. Students who have completed equivalent course work at other institutions may request waivers and/or transfers of credit. Students who earned a Master of Science in biostatistics

**ELECTIVES**

With approval of their advisors, students choose 15-22 s.h. of graduate-level courses in biostatistics, statistics, genetics, microbiology, and so forth. They may count a maximum of 5 s.h. earned in nonquantitative courses (e.g., community and behavioral health, epidemiology, microbiology) toward the requirement. They also may count courses required for the Master of Science that are not listed under "Master of Science Background," above, toward the requirement.

Ph.D. students may take the following courses.

**DISSERTATION**

171:300 (BIOS:7900) Thesis/Dissertation (at least two semesters in residence) 10-17 s.h.

**Certificate**

The Certificate in Biostatistics requires a minimum of 15 s.h. of graduate credit. It is designed for students who would like to add a formal biostatistics emphasis to their graduate programs. Completion of the certificate is noted on the student’s transcript.

The certificate program is open to students enrolled in a University of Iowa graduate degree program outside biostatistics. It is also open to individuals who hold
graduate degrees in science disciplines or professional degrees in the health sciences and are admitted to the Graduate College as nondegree students (contact the Department of Biostatistics for more information).

Enrollment is limited; applicants who have completed at least one of the certificate’s required courses and whose research will be advanced by biostatistics training are given priority for admission. Visit the Certificate in Biostatistics web site for an application form.

The certificate requires two core courses (6 s.h.) and three electives (9 s.h.). Students should work with an advisor to plan their course work carefully, since some certificate courses have prerequisites, require permission for enrollment, or are not offered every year. Students must earn a grade of at least B-minus in each certificate course and must maintain a cumulative g.p.a. of at least 3.00 in order to earn the certificate. They must complete at least 6 s.h. of the required course work after being admitted to the certificate program, and they may count a maximum of 6 s.h. of certificate credit toward a degree or another certificate earned at the University.

The Certificate in Biostatistics requires the following course work.

**CORE COURSES**

Both of these:

- 171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.
- 171:162 (BIOS:5120) Design and Analysis of Biomedical Studies 3 s.h.

**ELECTIVES**

Three of these (total of 9 s.h.):

- 171:164 (BIOS:5310) Research Data Management 3 s.h.
- 171:174 (BIOS:6310) Introductory Longitudinal Data Analysis 3 s.h.
- 171:241 (BIOS:6110) Applied Categorical Data Analysis 3 s.h.
- 171:243 (BIOS:6220) Cohort Data Analysis 1 s.h.
- 171:266 (BIOS:6610) Statistical Methods in Clinical Trials 3 s.h.
- 171:290 (BIOS:7600) Advanced Biostatistics Seminar 0-3 s.h.

Other courses may be approved as electives by the Department of Biostatistics director of graduate studies.

**Admission**

Applicants to the M.S. and Ph.D. programs in biostatistics must apply through the Schools of Public Health Application Service (SOPHAS); they also must apply for admission to the Graduate College through the University of Iowa Office of Admissions. For detailed application information, visit Prospective Students/Application Process on the Department of Biostatistics web site.

The biostatistics faculty considers several factors when evaluating applications for admission, including Graduate Record Examination (GRE) General Test scores, grade-point averages, letters of recommendation, intent and motivation for graduate study, and research interests.

All M.S. and Ph.D. program applicants must hold a bachelor’s degree, have a cumulative g.p.a. of at least 3.00, and have taken the Graduate Record Examination (GRE) General Test. Applicants whose first language is not English and who do not hold a bachelor’s degree from an accredited institution in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants with lower scores are not considered for admission. In place of TOEFL scores, the department accepts International English Testing System (IELTS) scores of 7.0 or higher, with no subscore below 6.0.

All biostatistics applicants are required to have strong written and oral communication skills.

All M.S. applicants must be competent in at least one computer programming language. They also must have mathematical sciences training in methods and techniques of single variable and multivariable differential and integral calculus, and in linear algebra.

Completion of an M.S. program in statistics or biostatistics generally is required for admission to the Ph.D. program.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Students may enter the M.S. and Ph.D. programs in fall; the priority application deadline for both programs is December 1.

**Financial Support**

A limited number of teaching and research assistantships are available. Assistantships offer financial support and resident tuition with a tuition scholarship. They also provide valuable on-the-job training experience.

For information on financing education through jobs, grants, and loans, contact the University’s Office of Student Financial Aid.

**Resources**

Department of Biostatistics resources and activities include three centers. The Biostatistics Consulting Center provides opportunities for students to gain valuable experience working with faculty and staff in the health sciences at The University of Iowa. The Clinical Trials Statistical and Data Management Center serves the statistical design, data management, and analysis needs of a variety of multicenter clinical trials, including studies of new treatments for acute ischemic stroke and studies of islet transportation. The Center for Public Health Statistics facilitates the collection, statistical analyses, and dissemination of health data in support of the University’s research, teaching, and service missions and in partnership with the Iowa Department of Public Health.

**Courses**

171:121 (BIOS:4110) General Biostatistics 4 s.h. Biostatistics and biostatistical computation; biostatistical aspects of health-related areas—clinical trials, disease modeling, disease mapping, genetics, and epidemiology; brief introduction to survival and longitudinal analyses.

171:151 (BIOS:5050) Biostatistics for Biomedical Research 1 s.h.
Application of statistical techniques to biological data analysis; normal distribution, sampling distribution of the mean, variance, nonparametric methods, linear regression, power, and sample size. Same as 156:204 (BISC:5204).

171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.
Application of statistical techniques to biological data, including descriptive statistics; probability; normal, binomial, and Poisson distributions; sampling distributions; tests of significance; confidence intervals; analysis of frequency data; simple linear regression. Requirements: college algebra.

171:162 (BIOS:5120) Design and Analysis of Biomedical Studies 3 s.h.
Simple and multiple linear regression and correlation; one- and two-way layout considerations in planning experiments; factorial experiments; multiple comparison techniques; orthogonal contrasts. Offered spring semesters. Prerequisites: 171:161 (BIOS:5110). Same as 22S:140 (STAT:5610).

171:164 (BIOS:5310) Research Data Management 3 s.h.
Overview of problems encountered in gathering and processing data from biomedical investigations; introduction to data management techniques useful in biomedical studies; introduction to Microsoft Access. Offered fall semesters. Requirements: Python or Java or C programming capability. Same as 225:201 (STAT:5810).

171:174 (BIOS:6310) Introductory Longitudinal Data Analysis 3 s.h.
Statistical models and estimation methods used to analyze correlated data (e.g., same subject measured repeatedly); emphasis on use of statistical software. Offered fall semesters of odd years. Prerequisites: 225:152 (STAT:3200) or 225:162 (STAT:6510) or 171:203 (BIOS:5730) or 171:241 (BIOS:6110). Same as 22S:160 (STAT:6550).

171:178 (BIOS:5510) Biostatistical Computing 3 s.h.
Groundwork in SAS and R programming; emphasis on data management, Monte Carlo simulations, and expectation maximization techniques. Offered fall semesters. Corequisites: 171:201 (BIOS:5710). Recommendations: C and C++ skills.

171:199 (BIOS:4710) Biostatistical Methods Laboratory 1 s.h.
Computational aspects of one-sample and two-sample problems; analysis of frequency data, linear regression, and correlation analysis; examples using these computational methods in public health. Offered fall semesters. Prerequisites: 225:030 (STAT:2010) and 22S:152 (STAT:3200).

171:201 (BIOS:5710) Biostatistical Methods I 4 s.h.
Problem-oriented probability distributions, moments, estimation, parametric and nonparametric methods, linear inference, one-sample and two-sample problems, analysis of frequency data, linear regression, and correlation analysis, with emphasis on use of computers. Offered fall semesters. Requirements: two semesters of calculus.

171:202 (BIOS:5720) Biostatistical Methods II 4 s.h.
Continuation of 171:201 (BIOS:5710), which is prerequisite; linear regression and correlation, multiple linear regression, multiple factor experiments, multiple comparisons, orthogonal contrasts, block and split-plot designs, confounding interactions, and mixed models. Offered spring semesters. Prerequisites: 171:201 (BIOS:5710).

171:203 (BIOS:5730) Biostatistical Methods in Categorical Data 3 s.h.
Introduction to methods for allied categorical data analysis; estimation of proportions, rates, and risks; measures of relative risk and odds ratios, stratified analysis, case control studies, logistic regression. Offered spring semesters. Prerequisites: 171:178 (BIOS:5510) and 171:201 (BIOS:5710). Corequisites: 225:154 (STAT:4101) or 22S:194 (STAT:5101), and 171:202 (BIOS:5720).

171:230 (BIOS:6710) Statistical Data Mining in Public Health 3 s.h.
Introduction to a set of supervised statistical methods (e.g., regression, decision tree, neural network) and some unsupervised methods (e.g., association rules, and clustering) for data analysis in health-related applications. Offered spring semesters of even years. Prerequisites: 171:202 (BIOS:5720), and 22S:153 (STAT:4100) or 22S:193 (STAT:5100).

171:241 (BIOS:6110) Applied Categorical Data Analysis 3 s.h.
Overview of methods to analyze categorical data from health science investigations; estimation of rates and risks, measures of relative risk, stratified analysis, logistic regression analysis. Offered fall semesters. Prerequisites: 171:162 (BIOS:5120).

171:242 (BIOS:6210) Applied Survival Analysis 3 s.h.
Nonparametric, parametric, and semi-parametric methods for time to event data; censoring of event times into analysis; types of censoring; Kaplan-Meier estimation; Weibull model estimation; Cox proportional hazards models, including methods for assessing adequacy of proportional hazards assumption; time varying covariates; sample size calculations for comparison of two or more groups; focus on analysis of real data sets and examples using statistical software. Prerequisites: 171:203 (BIOS:5730) or 171:241 (BIOS:6110).

171:243 (BIOS:6220) Cohort Data Analysis 1 s.h.
Methods of comparing direct standardized rates and standardized mortality ratios; Poisson regression for cohort data. Offered spring semesters of odd years. Prerequisites: 171:241 (BIOS:6110).

171:251 (BIOS:7110) Theory of Biostatistics I 4 s.h.
Intermediate study of sufficiency, exponential families, methods of estimation, uniform minimum variance unbiasedness, information, likelihood theory, confidence intervals, the Neyman-Pearson lemma, asymptotic theory and its applications. Offered fall semesters of even years. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 171:202 (BIOS:5720).
171:252 (BIOS:7120) Theory of Biostatistics II 4 s.h. 

171:261 (BIOS:7210) Survival Data Analysis 3 s.h. 
Types of censoring and truncation; survival function estimation; life tables; parametric inference using exponential, Weibull, and accelerated failure time models; nonparametric tests; sample size calculation; Cox regression with stratification and time-dependent covariates; regression diagnostics; competing risks; analysis of correlated survival data. Offered fall semesters. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 171:202 (BIOS:5720). Same as 22S:225 (STAT:7570).

171:262 (BIOS:7410) Analysis of Categorical Data 3 s.h. 
Models for discrete data, distribution theory, maximum likelihood and weighted least squares estimation for categorical data, tests of fit, models selection. Offered spring semesters. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 22S:164 (STAT:5200) or 171:202 (BIOS:5720). Same as 22S:220 (STAT:7510).

171:264 (BIOS:7310) Longitudinal Data Analysis 3 s.h. 
Introduction to statistical methodology for analyzing data from observational and experimental studies in which the response variable from each subject is measured repeatedly; emphasis on use of statistical software packages and specialized programs. Offered spring semesters of odd years. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 171:202 (BIOS:5720).

171:266 (BIOS:6610) Statistical Methods in Clinical Trials 3 s.h. 
Survey of statistical methods commonly used in clinical trials; methodologic perspective on the design, conduct, and analysis of trials; emphasis on Phase III randomized controlled clinical trials. Offered spring semesters. Prerequisites: 22S:131 (STAT:3101), 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 171:202 (BIOS:5720).

171:268 (BIOS:6810) Bayesian Methods and Design 3 s.h. 
Theory and application of Bayesian methods in biomedical research; foundations of Bayesian statistics, including axiomatic development of subjective probability and decision theory, study design, model development, inference, and implementation of computational algorithms. Prerequisites: 171:178 (BIOS:5510), 171:202 (BIOS:5720), 171:203 (BIOS:5730), 22S:153 (STAT:4100), and 171:254 (STAT:4101).

171:271 (BIOS:7220) Advanced Survival Analysis 3 s.h. 
Counting process/martingale theory leading to asymptotic results of survival methods; semiparametric regression of accelerated failure time and additive hazard models; multivariate survival models for clustered, multiple event, and recurrent event data; special topics. Prerequisites: 171:261 (BIOS:7210).

171:280 (BIOS:7500) Preceptorship in Biostatistics arr. 
Work experience using knowledge and skill acquired in classroom; arranged in conjunction with ongoing departmental or collegiate activities or with governmental agencies or private industry; preparation of prospectus and presentation of research results in a department seminar.

In-depth pursuit of an area of special interest in biostatistics requiring substantial creativity and independence.

Didactic material in biostatistics; may include tutorials, seminars, faculty-directed independent work (e.g. literature search, project, short research project).

171:285 (BIOS:7270) Scholarly Integrity in Biostatistics 1 s.h. 
Responsible conduct of research training; emphasis on issues of particular relevance to biostatisticians including authorship, communication, student/mentor relationships, plagiarism, fabrication and falsification of data, bias, Type I/II errors, reproducible research, data confidentiality and security, conflicts of interest, and human/animal subjects. Requirements: graduate standing in biostatistics.

171:290 (BIOS:7600) Advanced Biostatistics Seminar 0-3 s.h. 
Current topics; supervised experience in reading and interpreting biostatistical literature. Offered spring semesters.

Research that may lead to a dissertation.

Certificate in Public Health

Coordinator
• Katie Yamaki

Undergraduate certificate: public health
Graduate certificate: public health

The College of Public Health offers the Certificate in Public Health by distance education.

Undergraduate and Graduate Program of Study
• Certificate in Public Health

The certificate program is designed to improve public health practice and public health workforce capacity in Iowa and the upper Midwest. It is intended primarily for individuals in public health practice, those in the workforce, and those interested in acquiring a basic knowledge of public health practice. The program is open to undergraduate and graduate students.

Certificate

The Certificate in Public Health requires 12 s.h. of credit and is offered by distance education. Completion of the certificate is noted on the student’s transcript.

All certificate courses are offered on the Internet at least once a year. Some also are offered on the University of Iowa campus. Certificate students must have access to a computer and the Internet. Students who are enrolled only in the Certificate in Public Health program may not register for courses other than those required for the certificate.

Students must complete the certificate's required course work within five years of entering the program and must maintain a g.p.a. of at least 2.75 in work for the certificate. Students who have graduate standing while they work toward the certificate and are admitted to the M.P.H. program after they complete the certificate may apply a maximum of 9 s.h. of certificate credit toward the M.P.H. degree.

The Certificate in Public Health requires the following course work.

Both of these:
170:101 (MPH:5100) Introduction to Public Health 3 s.h.
173:099 (EPID:2999) Evidence-Based Public Health Methods 3 s.h.

Two of these:
172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention 3 s.h.
174:102 (HMP:4000) Introduction to the U.S. Health Care System 3 s.h.
175:197 (OEH:4240) Global Environmental Health 3 s.h.

Applicants to the certificate program must have completed at least 60 s.h. of postsecondary education course work and must have a cumulative g.p.a. of at least 2.75. They must submit official transcript(s), a statement of purpose, two reference letters, a résumé, and an application form.

For more information about the program and how to apply, visit the Certificate in Public Health web site.
Community and Behavioral Health

Head
- Edith A. Parker

Professors
- Elizabeth Altmaier (Community and Behavioral Health/Psychological and Quantitative Foundations), Julie Andsager (Journalism and Mass Communication/Community and Behavioral Health), Leslie Baxter (Community and Behavioral Health/Communication Studies), Joe D. Coulter (Anatomy and Cell Biology/Community and Behavioral Health), Kristi Ferguson (Community and Behavioral Health/Internal Medicine), Paul Greenough (International Programs/Community and Behavioral Health/History), Ann Marie McCarthy (Community and Behavioral Health/Pediatrics/Nursing), Edith A. Parker, Michael Teague (Community and Behavioral Health/Health and Human Physiology)

Associate professors
- Mary Aquilino, Shelly Campo, Faryle Nothwehr, Erica Prussing (Anthropology/Community and Behavioral Health), Anne Helene Skinstad, Nancy Thompson, Deb Waldron (Community and Behavioral Health/Pediatrics)

Assistant professors
- Sato Ashida, Barbara Baquero, Sandra Ramey (Community and Behavioral Health/Nursing), Vanessa Simonds, Briana Woods-Jaeger

Adjunct professors
- Frank Boster, Gene Lutz

Adjunct associate professors
- Kevin Kelly, Connie Kohler, Mary Losch, Jingzhen Yang

Adjunct lecturer
- Laurie Walkner

Professors emeriti
- Melanie Dreher, Peter Nathan, Jerry Suls

Graduate degrees: M.S. in community and behavioral health; Ph.D. in community and behavioral health

Website: http://www.public-health.uiowa.edu/cbh/

The Department of Community and Behavioral Health examines the relationship between human behavior and community health and focuses on creating effective strategies for change. Its faculty members come from a variety of disciplines within the social and health sciences, drawn together by an interest in health behavior and promoting healthy communities.

Community and behavioral health students learn how to design, implement, and evaluate interventions directed toward identified public health problems in communities. They learn how public and institutional policy, the media, and community organizations can promote healthy behavior and effect positive change.

Graduate Programs of Study
- Master of Science in community and behavioral health
- Doctor of Philosophy in community and behavioral health

Graduate students in community and behavioral health may earn degrees with or without subtracks. The Master of Science program offers an optional subtrack in health communication. The Doctor of Philosophy program offers two optional subtracks: addiction studies and health communication.

The department also offers two subtracks for the Master of Public Health: the community and behavioral health subtrack and the health communication subtrack. See "M.P.H. Subtracks" below.

Master of Science

The Master of Science program in community and behavioral health requires 35 s.h. of graduate credit, including a thesis. The program prepares students for research and professional positions in community and behavioral health or for Ph.D. study in community and behavioral health. The degree is offered with an optional subtrack in health communication; see "M.S. Subtrack in Health Communication" below.

During the first semester, M.S. students work with their academic advisor to develop a plan of study that satisfies their interests and professional goals as well as the program's requirements. Students are required to attend departmental seminars and to complete all courses required for the degree.

The Master of Science in community and behavioral health requires the following course work.

**COLLEGE OF PUBLIC HEALTH CORE**
All of these (9-10 s.h.):
- 170:200 (MPH:6100) Essentials of Public Health (for students without an M.P.H.) 1 s.h.
- 171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.
- 172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention 3 s.h.
- 173:140 (EPID:4400) Epidemiology I: Principles 3 s.h.

**BEHAVIORAL AND SOCIAL SCIENCES CORE**
Three of these (9 s.h.):
- 172:106 (CBH:6205) Designing and Implementing Interventions 3 s.h.
- 172:110 (CBH:5210) Community Development in Public Health 3 s.h.
- 172:130 (CBH:5205) Social Determinants of Health 3 s.h.
- 172:135 (CBH:5225) Health Disparities and Cultural Competence 2-4 s.h.
- 172:150 (CBH:5220) Health Behavior and Health Education 3 s.h.
- 172:185 (CBH:5420) Communicating with the Community 3 s.h.
- 172:240 (CBH:6210) Health Communication 3 s.h.
- 172:242 (CBH:6215) Persuasion and Health 3 s.h.
- 172:246 (CBH:6220) Health Communication Campaigns 3 s.h.

**RESEARCH METHODS CORE**
Two of these (6 s.h.):
prepares public health practitioners for a variety of employment opportunities in health communication strategies, health communication in groups and organizations, and mass media/web-based campaigns in health promotion. For detailed information about the M.P.H. degree, see Master of Public Health Program (p. 1171) in the Catalog.

Doctor of Philosophy

The Doctor of Philosophy program in community and behavioral health requires at least 75 s.h. of graduate credit, including credit from a master's degree. The program prepares individuals for academic, research, and policy-making work in the social and behavioral health sciences. This fast-growing academic specialty offers many career opportunities in academic and research institutions. The Ph.D. is offered with optional subtracks in addiction studies and in health communication; see "Ph.D. Subtrack in Addiction Studies" and "Ph.D. Subtrack in Health Communication" below.

Ph.D. students must successfully complete a qualifying exam, a comprehensive exam, and a dissertation—a substantial scholarly treatise. The research topic must be approved by the student’s dissertation committee.

During the first semester, students work with their academic advisors to develop a plan of study that satisfies their interests and professional goals as well as the program’s requirements. Students are required to attend departmental seminars and to complete all courses required for the degree.

The Doctor of Philosophy in community and behavioral health requires the following work.

COLLEGE OF PUBLIC HEALTH CORE

All of these (9-10 s.h.):

170:200 (MPH:6100) Essentials of Public Health (for students without an M.P.H.) 1 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.
172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention 3 s.h.
173:140 (EPID:4400) Epidemiology I: Principles 3 s.h.

BEHAVIORAL AND SOCIAL SCIENCES CORE

Seven of these (21 s.h.):

172:106 (CBH:6205) Designing and Implementing Interventions 3 s.h.
172:110 (CBH:5210) Community Development in Public Health 3 s.h.
172:130 (CBH:5205) Social Determinants of Health 3 s.h.
172:131 (CBH:5415)/113:184 (ANTH:5415) Anthropology and International Health 3 s.h.
172:135 (CBH:5225) Health Disparities and Cultural Competence 2.4 s.h.
172:150 (CBH:5220) Health Behavior and Health Education 3 s.h.
172:173 (CBH:5125)/113:185 (ANTH:3102) Medical Anthropology 3 s.h.
172:185 (CBH:5420) Communicating with the Community 3 s.h.
172:240 (CBH:6210) Health Communication 3 s.h.
Ph.D. Subtrack in Addiction Studies

The Ph.D. subtrack in addiction studies is designed for students who wish to gain skill in developing and evaluating addiction prevention and intervention programs. This area of study and practice examines addiction prevention and treatment from both a public health and a biopsychosocial perspective. The addiction studies subtrack combines core course work from the Ph.D. curriculum with additional specialized training. Students fulfill the regular Ph.D. requirements, using the addiction studies core to satisfy the content area electives requirement.

ADDITION STUDIES CORE

Students work with their advisor to select 18 s.h. of addiction studies course work offered by the department. Courses focusing on treatment of substance abuse and comorbid psychopathology, prevention of substance abuse and comorbid psychopathology, and assessment and diagnosis of addiction and comorbid psychopathology are under development.

RESEARCH METHODS CORE

Five of these (15 s.h.):

- 07P:243 (PSQF:6243) Intermediate Statistical Methods 4 s.h.
- 07P:249 (PSQF:6249) Factor Analysis and Structural Equation Models 3 s.h.
- 07P:252 (PSQF:6252) Introduction to Multivariate Statistical Methods 3 s.h.
- 034:214 (SOC:6170) Introduction to Sociological Data Analysis 3 s.h.
- 034:215 (SOC:5160) Sampling, Measurement, and Observation Techniques 3 s.h.
- 034:216 (SOC:6180) Linear Models in Sociological Research 3 s.h.
- 034:218 (SOC:7170) Advanced Statistical Modeling of Data 3 s.h.
- 034:219 (SOC:7180) Structural Equation Modeling 3 s.h.
- 044:106 (GEOG:3505) Foundations of GIS 3 s.h.
- 171:162 (BIOS:5120) Design and Analysis of Biomedical Studies 3 s.h.
- 171:241 (BIOS:6110) Applied Categorical Data Analysis 3 s.h.
- 172:183 (CBH:5310) Qualitative Research for Public Health 3 s.h.
- 172:202 (CBH:6115)/113:202 (ANTH:6115) Ethnographic Field Methods 3 s.h.
- 172:282 (CBH:6305) Evaluation II: Design and Methods 3 s.h.
- 172:285 (CBH:6335) Research Methods in Community and Behavioral Health 3 s.h.

CONTENT AREA ELECTIVES

Students work with their advisors to select at least 18 s.h. of course work appropriate to their educational goals and emphasis areas. They may choose from any Department of Community and Behavioral Health courses they have not already taken, other College of Public Health courses, or other University of Iowa graduate-level courses.

DISSERTATION

The dissertation requirement is 12 s.h.
their master’s thesis, or if no thesis is available, a sample of their scholarly writing.

Applicants whose first language is not English and who do not hold a bachelor’s degree from an accredited institution in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score 550-599 (paper-based) or 81-99 (Internet-based) are required to take English fluency courses. Applicants who score below those ranges are not considered for admission.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Students enter the program in fall. The application deadline is January 15.

Financial Support

Several forms of financial support are available, including scholarships and awards, student loans, and graduate assistantships.

Graduate assistantships provide a stipend and entitle students to resident tuition and reduced health insurance costs. Research assistantships are competitive and are awarded according to department need and student merit.

Scholarships and fellowships are available through federal agencies, such as the Centers for Disease Control and the National Institutes of Health, and from private foundations.

Resources

The department houses three centers. The Center for Health Communication and Social Marketing promotes communication research to address today’s public health challenges. The Prevention Research Center for Rural Health focuses on improving the health of rural Iowans. The National American Indian and Alaska Native Addiction Technology Transfer Center disseminates culturally legitimate evidence-based practice in substance abuse and behavioral health, and provides technical assistance, skill development in evaluating reports of existing interventions.

The National Institutes of Health, and from private foundations.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Courses

172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention 3 s.h.
Basic concepts, strategies, and methods of health promotion and disease prevention; health promotion in the context of public health, theories and principles that underpin health promotion; overview of policy formation and health promotion planning, implementation, evaluation. Offered spring semesters. Requirements: graduate standing.

172:106 (CBH:6205) Designing and Implementing Interventions 3 s.h.
Background and skills necessary to plan a public health intervention program; program planning models. Offered fall semesters. Prerequisites: 172:150 (CBH:5220). Requirements: admission to College of Public Health.

172:110 (CBH:5210) Community Development in Public Health 3 s.h.
Concepts, strategies, and methods of community development as major approaches to creating healthy communities and promoting social change; role of public health practitioners as agents of change in organizations, communities. Offered fall semesters. Requirements: graduate standing.

172:115 (CBH:5215) Community Preventive Programs and Services 3 s.h.
Current public health problems and associated community, preventive, and evidence-based interventions; background information for these terms (community, preventive, evidence-based, interventions); skill development in evaluating reports of existing interventions.

172:122 (CBH:6405) Maternal, Child, and Family Health 3 s.h.
Major issues, policies, and programs for health of women, children, and families in the United States; social, political, and economic determinants. Offered spring semesters. Prerequisites: 173:140 (EPID:4400).

172:130 (CBH:5205) Social Determinants of Health 3 s.h.
Relationship between social factors and health, with focus on family, neighborhood, community, and social group levels. Offered spring semesters. Requirements: graduate standing.

172:131 (CBH:5415) Anthropology and International Health 3 s.h.
Anthropological contributions to and critiques of the international health enterprise; case studies illustrating anthropology and international health’s intersection, and their differences. Offered spring semesters. Same as 113:184 (ANTH:5415), 152:184 (GHS:5415).

172:133 (CBH:5140) The Anthropology of Women’s Health 3 s.h.
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: 113:003 (ANTH:1101). Same as 113:133 (ANTH:4140), 131:133 (GWSS:4140).

172:135 (CBH:5225) Health Disparities and Cultural Competence 2-4 s.h.
Characteristics, causes, and effects of health disparities in the U.S. health care system; foundation for development of knowledge, attitudes, and skills required of culturally competent health care providers; definitions and models of cultural competence, characteristics of culturally effective practitioners and workplaces; health disparities among specific populations, evidence for cultural competence as a remedy; taking a culturally appropriate history; working with interpreters; legal and professional imperatives for cultural competence. Same as 046:377 (PHAR:8715), 096:125 (NURS:3715).
172:140 (CBH:4825) Media and Health 3 s.h.
Potential and limits of mass media's ability to educate the public about health, research and theory on the influence of information and entertainment media; theories, models, assumptions of mass communication in relation to public health issues. Same as 019:160 (JMC:4825), 152:159 (GHS:4240).

172:150 (CBH:5220) Health Behavior and Health Education 3 s.h.
Common theories of health behavior and health education and their application to varied public health problems and settings. Offered spring semesters. Requirements: graduate standing.

172:155 (CBH:5230) Public Health Issues in Overweight Management 3 s.h.
Overview of overweight and obesity from a public health perspective, including epidemiology, measurement issues, and intervention approaches at individual, community, and policy levels. Prerequisites: 170:101 (MPH:5100) or 172:101 (CBH:5105).

172:161 (CBH:5435) Substance Abuse Prevention and Early Intervention 3 s.h.
Prevalence and characteristics of several substance use disorders and the impact of such disorders on the individual, the community, and public health workers; how prevalence of substance use disorders varies among different ethnic and cultural groups, between men and women, across the life span, and through different socio-economic levels; how outcomes of substance abuse disorders vary at both the individual and community level as a function of these factors. Requirements: graduate standing and substance abuse course.

172:162 (CBH:5440) Prevention and Early Intervention of Mental Health Disorders 3 s.h.
Prevalence and characteristics of mental health disorders; differences between ethnicity and culture, gender, age, and socioeconomic background; primary and secondary prevention; assessment and tertiary treatment approaches to mental health disorders.

172:170 (CBH:6410) Special Topics arr.
Didactic material in community and behavioral health that may include tutorial, seminar, or faculty-directed independent work (e.g., literature search, project, short research project).

172:173 (CBH:5125) Medical Anthropology 3 s.h.
Major theoretical, methodological approaches; international health and development; biomedicine as a cultural system; ethnomedicine; anthropology and AIDS, human reproduction, epidemiology, ethnopsychiatry. Prerequisites: 113:003 (ANTH:1101) or 113:010 (ANTH:2100). Same as 113:185 (ANTH:3102), 152:185 (GHS:3102).

Program evaluation methods for use in public health and related educational and social service programs; methods, approaches, and planning strategies for conducting program evaluations; role and function of evaluation within program life cycle; basics of formative, process, outcome, and cost evaluation; development of evaluation questions with appropriate data sources, data collection methods, and analytic techniques; creation of a logic model to guide an evaluation plan and explain role of logic model in the process of evaluation. Prerequisites: 171:161 (BIOS:5110), 172:150 (CBH:5220), and 173:140 (EPID:4400). Requirements: enrollment in College of Public Health.

172:183 (CBH:5310) Qualitative Research for Public Health 3 s.h.
Introduction to methods and theories of qualitative research that facilitate description and explanation of social phenomena related to health behavior, illness, prevention, and treatment in the public health domain. Offered fall semesters. Requirements: graduate standing.

172:185 (CBH:5420) Communicating with the Community 3 s.h.
Communication skills for research and practice settings, taught from a cultural perspective with reference to gender, age, ethnicity; individual and constructive interviewing, public speaking, conducting focus groups. Offered fall semesters. Requirements: graduate standing.

172:202 (CBH:6115) Ethnographic Field Methods 3 s.h.
Basic data-gathering techniques for field research in sociocultural anthropology. Same as 113:202 (ANTH:6115).

172:240 (CBH:6210) Health Communication 3 s.h.
Theories, concepts, research associated with health communication; interpersonal and mass communication approaches. Offered summer sessions. Same as 036:270 (COMM:6210).

172:242 (CBH:6215) Persuasion and Health 3 s.h.
Theories of persuasion and social influence; attitude formation, relationship between attitudes and behavior, persuasion theories and their applications across health topics. Offered spring semesters.

172:246 (CBH:6220) Health Communication Campaigns 3 s.h.
Design and analysis of health campaigns; theory, practice, methods; mass media, community, organization, and interpersonal approaches. Offered spring semesters. Same as 036:379 (COMM:6220).

172:248 (CBH:6225) Health Information and Health Literacy 3 s.h.
How health information is accessed, sought, used, and delivered in various health information contexts; current issues about health information and literacy, including concepts, measures, factors, consequences, interventions.

172:260 (CBH:5235) Community-Based Participatory Research 3 s.h.
Structured overview of Community-Based Participatory Research (CBPR) in public health; major issues and methods involved in conducting research with a CBPR approach.
172:270 (CBH:6415) Independent Study in Community and Behavioral Health
Pursuit of an interest in community and behavioral health requiring substantial creativity and independence.

172:282 (CBH:6305) Evaluation II: Design and Methods
3 s.h.
Research design and methodology for evaluation of public health and related programs; causality, evaluation theory, threats to validity, selection and comparison of research designs, sample selection and size, survey and scale construction, quantitative and qualitative data collection and analysis, data management, reporting; based on case study of an infant mortality prevention program. Offered spring semesters. Prerequisites: 172:181 (CBH:5305). Requirements: biostatistics or statistics course.

172:285 (CBH:6335) Research Methods in Community and Behavioral Health
3 s.h.
Overview of quantitative research methods for community and behavioral health; major elements of behavioral and social science research, critical evaluation of research related to community and behavioral health, application of research methods in public health practice; opportunities for students to build skills for evaluation of research and application of quantitative research methods. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:4400).

172:300 (CBH:7505) CBH Thesis/Dissertation
arr.
Emerging Infectious Disease Epidemiology

Coordinator
• Katie Yamaki

Graduate certificate: emerging infectious disease epidemiology
Web site: http://www.public-health.uiowa.edu/academics/certificate_eide.html

Emerging infectious diseases increasingly are recognized as global and regional issues. Some infectious diseases are controlled effectively with the help of modern technology. But new diseases—such as SARS, West Nile, and avian influenza virus infections—appear frequently, and older ones, including malaria, tuberculosis, and bacterial pneumonia, are now appearing in forms that are resistant to drug treatments. All of them have the potential to seriously affect human and animal health as well as economies locally and worldwide. They pose novel and unceasing challenges for professionals in health care, government, and private agencies.

The College of Public Health offers the Certificate in Emerging Infectious Disease Epidemiology. It has a required on-campus component (summer), but the remaining work may be done either on campus or by distance education.

Graduate Program of Study
• Certificate in Infectious Disease Epidemiology

The certificate program provides basic information and training related to infectious diseases. It is designed for a broad range of individuals, including graduate students, international public health professionals, laboratory professionals, physicians, nurses, veterinarians, and medical technologists.

Certificate

The Certificate in Emerging Infectious Disease Epidemiology requires 12 s.h. of graduate credit. Completion of the certificate is noted on the student’s transcript.

Three of the certificate’s required courses must be completed on campus during summer:
173:157 (EPID:5570) Zoonotic Diseases 2-3 s.h.
173:158 (EPID:5580) Public Health Laboratory Techniques 1 s.h.
173:159 (EPID:5590) Applied Infectious Disease Epidemiology 2 s.h.

Two of these (6 s.h.):
171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.
173:140 (EPID:4400) Epidemiology I: Principles 3 s.h.
173:155 (EPID:5550) Diagnostic Microbiology for Epidemiology 3 s.h.
175:197 (OEH:4240) Global Environmental Health 3 s.h.

Applicants to the certificate program must hold a baccalaureate degree from an accredited college or university and must have a g.p.a. of at least 2.75 (or foreign equivalent). For more information about the program and how to apply, visit the Certificate in Emerging Infectious Disease Epidemiology web site.
Epidemiology

Head
• James C. Torner

Professors
• John Brooks (Health Management and Policy/Epidemiology/Pharmacy), Trudy Burns (Epidemiology/Pediatrics/Nursing), Elizabeth Chrischilles (Epidemiology/Pharmacy), William Field (Occupational and Environmental Health/Epidemiology), Laurence Fuortes (Occupational and Environmental Health/Epidemiology/Internal Medicine), Loreen Herwaldt (Epidemiology/Internal Medicine), Kathleen Janz (Epidemiology/Health and Human Physiology), Susan Johnson (Epidemiology/Obstetrics and Gynecology), Louis Kirchhoff (Epidemiology/Internal Medicine), Barcey Levy (Family Medicine/Epidemiology), Steven Levy (Epidemiology/Preventive and Community Dentistry), Charles Lynch (Epidemiology/Pathology), Jody Murphy (Law/Epidemiology/Pediatrics), Jeffrey Murray (Pediatric Dentistry/Anatomy and Cell Biology/International Programs/Epidemiology/Biology/Pediatrics/Nursing/Public Policy Center), Corinne Peek-Asa (Occupational and Environmental Health/Epidemiology/Pediatrics/Public Policy Center), Eli Perencevich (Epidemiology/Internal Medicine), Jennifer Robinson (Internal Medicine/Epidemiology), Paul Romitti, Gary Rosenthal (Health Management and Policy/Epidemiology/Internal Medicine), Audrey Saftlas, Elaine Smith (Preventive and Community Dentistry/Epidemiology/Obstetrics and Gynecology), Linda Snetselaar (Internal Medicine/Epidemiology), James Torner (Education/Epidemiology/Surgery/Neurosurgery), Robert Wallace (Epidemiology/Internal Medicine), Mary Wilson (International Programs/Epidemiology/Microbiology/Internal Medicine)

Associate professors
• Catherine Bradley (Epidemiology/Obstetrics and Gynecology), Ryan Carnahan, Jess Fiedorowicz (Epidemiology/Internal Medicine/Psychiatry), Peter Kaboli (Epidemiology/Internal Medicine), David Katz (Epidemiology/Internal Medicine), Christine Petersen, Neil Segal (Radiology/Epidemiology/Orthopaedics and Rehabilitation), Carolyn Turvey (Epidemiology/Psychiatry)

Assistant professors
• Mary Charlton (Epidemiology/Health Management and Policy), Maureen McCue (International Programs/Epidemiology), Philip Polgreen (Internal Medicine/Epidemiology), Kelli Ryckman, Marin Schweizer

Associate
• Margaret Chorazy

Adjunct professors
• James Cerhan, James Dickson, Gregory Gray, Annette O’Connor, Paul Pomrehn, M. Patricia Quinlisk, James Roth, Wayne Sanderson, Jeffrey Wolf

Adjunct associate professors
• Leslie Dennis, Jesse Hostetter, Scott Hurd, Neal Kohatsu, Michael Pentella, Jose Sanchez, Mario Schootman, Tara Smith

Adjunct assistant professors
• Lucy DesJardin, Ann Garvey, Daniel Gregory, Amit Gupta, Valerie Hoffman (Internal Medicine/Epidemiology), Brian Lund (Epidemiology/Pharmacy), Shannon Putnam, Sheila Rigg, Kathleen Schneider, Anne Tabor, Kathleen Tharp

Adjunct instructor
• Kirk Phillips

Adjunct lecturer
• Glenda Dvorak

Professors emeriti
• Gary Doern, Claibourne Dungy, James Hanson, Herman Hein, Larry Mahoney, Michael Pfaller, Helmut Schrott, Don VanDyke, Robert Woolson

Graduate programs of study
• Master of Science in clinical investigation
• Master of Science in epidemiology (with or without thesis)
• Doctor of Philosophy in epidemiology
• Certificate in Translational and Clinical Investigation

Graduate degrees:
• M.S. in clinical investigation
• M.S. in epidemiology
• Ph.D. in epidemiology

Graduate certificate:
• translational and clinical investigation

Web site: http://www.public-health.uiowa.edu/epi/

The Department of Epidemiology focuses on surveillance for disease, risk factors for disease in the general population, behavioral factors in disease, use and outcome of health interventions and care, and the establishment and evaluation of disease control measures in the community. Students are guided by faculty members whose research interests include epidemiology of communication disorders, pharmacoepidemiology, cancer epidemiology, infectious disease epidemiology, adverse reproductive outcome epidemiology, anatomic pathology, genetics, cardiovascular disease, nutrition, smoking cessation, epidemiology of reproduction, dental epidemiology, clinical epidemiology, neuroepidemiology, meta-analysis, intervention trials, international health, and effects of aging.
Master of Science: Clinical Investigation

The Master of Science program in clinical investigation requires 30 s.h. of graduate credit. It is offered in collaboration with the University’s Institute for Clinical and Translational Science.

The program is designed for clinicians interested in pursuing careers in clinical research. It includes in-depth training in biostatistics, epidemiology, research ethics, and academic survival skills as well as didactic training applicable to clinical research careers.

Graduates of the program are able to critically evaluate clinical literature, write competitive grant proposals, design and conduct clinical research projects, work effectively with other researchers and support staff, and disseminate research results through manuscripts and presentations.

Applicants to the program must have completed at least 6 s.h. of pathology, physiology, and/or pharmacology. Students must remedy deficiencies by taking courses that fill this requirement during their enrollment in the program.

Graduate students in the Department of Epidemiology must maintain a g.p.a. of at least 3.00. Those who receive a grade of C on 7 s.h. of course work may be dismissed from the program.

The Master of Science in clinical investigation requires the following course work.

**CORE COURSES**

Students earn a minimum of 15 s.h. as follows.

All of these:

- 173:150 (EPID:5500) Introduction to Clinical Epidemiology 2 s.h.
- 173:152 (EPID:5520) Clinical Research Career Development 1 s.h.
- 173:163 (EPID:5630) Seminar in Clinical and Translational Research (four semesters, 1 s.h. each) 4 s.h.

One of these:

- 173:211 (EPID:6110) Grant Writing for Clinical Investigators 1-3 s.h.
- 173:215 (EPID:6150) Writing for Medical Journals 1 s.h.

One of these:

- 173:160 (EPID:5600) Introduction to Epidemiology Data Analysis With Computers 2 s.h.
- 173:161 (EPID:5610) Patient-Oriented Research Data Analysis 3 s.h.

One of these:

- 173:195 (EPID:5950) Preceptorship in Epidemiology 3-6 s.h.
- 173:300 (EPID:7000) Thesis/Dissertation 3-6 s.h.

**EPIDEMIOLOGY CORE**

Students earn a minimum of 12 s.h. as follows.

Both of these:

- 171:241 (BIOS:6110) Applied Categorical Data Analysis (or approved substitute) 3 s.h.
- 173:140 (EPID:4400) Epidemiology I: Principles 3 s.h.

One of these:

- 171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.
- 171:201 (BIOS:5710) Biostatistical Methods I 4 s.h.

One of these:

- 171:162 (BIOS:5120) Design and Analysis of Biomedical Studies 3 s.h.
- 171:202 (BIOS:5720) Biostatistical Methods II 4 s.h.

**FOCUS AREA ELECTIVES**

Students earn a minimum of 3 s.h. from one focus area.

**General (Applicable to More Than One Focus Area)**

University of Iowa 2013-14 General Catalog 1155
One of these:

Students earn 28-29 s.h. in the required core, as follows.

**CORE COURSES**

Students earn 28-29 s.h. in the required core, as follows.

All of these:

- 170:200 (MPH:6100) Essentials of Public Health 1 s.h.
- 171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.
- 171:162 (BIOS:5120) Design and Analysis of Biomedical Studies 3 s.h.
- 173:241 (EPID:5241) Statistical Methods in Epidemiology 3 s.h.
- 173:140 (EPID:4400) Epidemiology I: Principles (web-based course cannot be used) 3 s.h.
- 173:160 (EPID:5600) Introduction to Epidemiology Data Analysis With Computers 2 s.h.
- 173:240 (EPID:6400) Epidemiology II: Advanced Methods 4 s.h.

One of these:

- 069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students 4 s.h.
- 069:270 (PATH:5270) Pathogenesis of Major Human Diseases 3 s.h.

One of these:

- 173:255 (EPID:6550) Epidemiology of Infectious Diseases 3 s.h.
- 173:260 (EPID:6600) Epidemiology of Chronic Diseases 3 s.h.

One of these:

- 173:195 (EPID:5950) Preceptorship in Epidemiology (for nonthesis students) 3 s.h.
- 173:300 (EPID:7000) Thesis/Dissertation (for thesis students, may be taken twice) 3 s.h.

**ELECTIVES**

Students must earn a total of 7-8 s.h. in elective course work, including at least 5 s.h. in Department of Epidemiology courses (prefix 173) and 2 s.h. in additional graduate-level course work pertinent to the student’s educational goals and background (the additional 2 s.h. may be earned in an epidemiology course or in another graduate course, with the advisor’s approval). The following courses are recommended.

- 171:174 (BIOS:6310) Introductory Longitudinal Data Analysis 3 s.h.
- 172:150 (CBH:5220) Health Behavior and Health Education 3 s.h.
- 174:200 (HMP:5005) Introduction to Health Care Organization and Policy 3 s.h.
- 175:197 (OEH:4240) Global Environmental Health 3 s.h.

One of these:

- 171:164 (BIOS:5310) Research Data Management 3 s.h.
- 173:161 (EPID:5610) Patient-Oriented Research Data Analysis 3 s.h.

Students may need to do additional elective course work in order to complete the minimum 38 s.h. required for the degree.

**Joint B.A. in Biology/M.S. in Epidemiology**

Bachelor of Arts students majoring in biology who are interested in earning a Master of Science in epidemiology may apply to the joint B.A./M.S. program offered by the College of Liberal Arts and Sciences and the College of Public Health. The joint program permits students to count 12 s.h. of credit toward the requirements of both degrees, enabling them to begin the study of public health before they complete the bachelor’s degree. For information about the B.A. program, see Biology (p. 118) (College of Liberal Arts and Sciences) in the Catalog.

**M.P.H. Subtrack**

The Department of Epidemiology offers the epidemiology subtrack for the Master of Public Health. The subtrack focuses on fundamental concepts and methods and provides training in the use of data and methods for disease assessment and for evaluation of programs and interventions. Graduates of the program work in public health departments and other health care settings. See Master of Public Health Program (p. 1171) in the Catalog.

**Doctor of Philosophy: Epidemiology**

The Doctor of Philosophy program in epidemiology requires a minimum of 75 s.h. of graduate credit. The program prepares graduate students for careers as scientists, teachers, and practitioners of epidemiologic
methods. Employment opportunities exist in academic institutions; local, state, and federal health agencies; and in commercial enterprises.

Graduate students in epidemiology must maintain a g.p.a. of at least 3.00. Those who receive a grade of C on 7 s.h. of course work may be dismissed from the program.

All doctoral students must successfully complete a qualifying examination, a comprehensive examination, and a dissertation--a substantial scholarly treatise. The research topic and content, which vary depending on the program of study, must be approved by the student’s dissertation committee. Other degree requirements include approved electives chosen from Department of Epidemiology courses and other University of Iowa courses.

Students are required to attend 80 percent, for five semesters, of all Department of Epidemiology seminar meetings and journal club meetings; attendance during the student’s enrollment in the M.S. program does not count toward this requirement. Students also must present a departmental seminar on their dissertation research and a presentation or scientific poster presentation at the international, national, regional, state, or University level before they may graduate.

The Doctor of Philosophy in epidemiology requires the following course work.

**CORE COURSES**

Students earn 40-42 s.h. in the required core, as follows.

All of these:

170:200 (MPH:6100) Essentials of Public Health 1 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies 3 s.h.
173:140 (EPID:4400) Epidemiology I: Principles (web-based course cannot be used) 3 s.h.
173:160 (EPID:5600) Introduction to Epidemiology Data Analysis With Computers 2 s.h.
173:205 (EPID:6050) Research in Epidemiology 3 s.h.
173:210 (EPID:6100) Writing a Research Protocol 3 s.h.
173:240 (EPID:6400) Epidemiology II: Advanced Methods 4 s.h.
173:241 (EPID:5241) Statistical Methods in Epidemiology 3 s.h.
173:340 (EPID:7400) Epidemiology III: Theories 3 s.h.

One of these:

171:164 (BIOS:5310) Research Data Management 3 s.h.
173:161 (EPID:5610) Patient-Oriented Research Data Analysis 3 s.h.

One of these:

171:174 (BIOS:6310) Introductory Longitudinal Data Analysis 3 s.h.
171:242 (BIOS:6210) Applied Survival Analysis 3 s.h.

One of these:

069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students 4 s.h.
069:270 (PATH:5270) Pathogenesis of Major Human Diseases 3 s.h.

One of these:

027:130 (HHP:3500) Human Physiology 3 s.h.
072:153 (MPB:5153) Graduate Physiology 4 s.h.

Ph.D. students also must earn 3 s.h. in epidemiology courses outside their emphasis area.

**FOCUS AREA**

Each Ph.D. student must declare a focus area. Working with the focus area coordinator, the student develops a study plan that will enable him or her to develop substantive knowledge in a specific area that will lead to important original research. Focus areas for Ph.D. students include cancer control, cancer etiology, infectious disease, occupational and environmental epidemiology, and pharmacoepidemiology. For lists of required course work in each focus area, see Ph.D. in Epidemiology on the department’s web site.

**ELECTIVES**

Students must complete a total of 23-25 s.h. of elective course work. They must earn 3 s.h. in a Department of Epidemiology course (prefix 173) outside their focus area and at least 20 s.h. in courses in their focus area. Course selection must be approved by the student’s advisor and Ph.D. plan of study committee.

**DISSERTATION**

All doctoral students must successfully complete a Ph.D. thesis.

**Certificate**

The Department of Epidemiology and the Institute for Clinical and Translational Science (ICTS) offer the Certificate in Translational Investigation for clinicians who seek advanced training in clinical methodology and applied patient-oriented research skills. The certificate requires 19 s.h. of graduate credit and may be completed in one year. Completion of the certificate is noted on the student’s transcript.

Certificate students complete didactic course work and clinical preceptorships and participate in clinical research seminars. They become proficient in the conduct of independent clinical research, including hypothesis development, study design, knowledge of research ethics, survey development, data collection, basic and advanced statistical analyses, and interpretation of results. They also develop core competencies in their area of interest.

The Certificate in Translational and Clinical Investigation requires the following work.

171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.
173:140 (EPID:4400) Epidemiology I: Principles 3 s.h.
173:150 (EPID:5500) Introduction to Clinical Epidemiology 2-3 s.h.
173:152 (EPID:5520) Clinical Research Career Development 1 s.h.
173:163 (EPID:5630) Seminar in Clinical and Translational Research (completed twice) 2 s.h.
173:295 (EPID:6950) Clinical Research Ethics 2-3 s.h.
ICTS Bench to Bedside seminar arr.
Electives 6 s.h.

The certificate program is open to individuals who hold a doctoral-level degree in a clinical discipline (e.g., M.D., D.O., D.D.S., Ph.D., Pharm.D., D.V.M.) and graduate admission to the College of Public Health or enrollment in a basic or health science doctoral program at The University
of Iowa. Other admission requirements are similar to those for the M.S. program in epidemiology (see "Admission" below) or the M.S. program in translational biomedicine (p. 951) (Graduate College).

**Related Certificate: Emerging Infectious Disease Epidemiology**

The College of Public Health and the Graduate College offer the Certificate in Emerging Infectious Disease Epidemiology. The certificate program provides basic information and training related to infectious diseases. It is designed for a broad range of individuals, including graduate students, international public health professionals, laboratory professionals, physicians, nurses, veterinarians, and medical technologists. Completion of certificate is noted on the student’s transcript. To learn more, see Emerging Infectious Disease Epidemiology (p. 1153) in the Catalog.

**Admission**

Applicants to the M.S. and Ph.D. programs in the Department of Epidemiology must apply through the Schools of Public Health Application Service (SOPHAS); they also must apply for admission to the Graduate College through the University of Iowa Office of Admissions. For detailed application information, visit Prospective Students/How to Apply on the Department of Epidemiology web site.

**M.S.: Clinical Investigation**

Applicants to the M.S. program in clinical investigation must hold a doctoral-level degree in a clinical discipline (e.g., M.D., D.O., D.D.S., Ph.D., Pharm.D., D.V.M) or be enrolled in the Medical Scientist Training Program (p. 1038) (Carver College of Medicine). They must hold a baccalaureate degree with a cumulative g.p.a. of at least 3.00; foreign-trained applicants must have an outstanding doctoral training record.

All applicants must have taken the Graduate Record Examination (GRE) General Test, Medical College Admission Test (MCAT), or Dental Admission Test (DAT). Applicants whose first language is not English and who do not hold a baccalaureate degree from an accredited institution in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score 550-599 (paper-based) or 81-99 (Internet-based) are required to take English fluency courses. Applicants who score below those ranges are not considered for admission. In place of TOEFL scores, the department accepts International English Testing System (IELTS) scores of 7.0 or higher, with no subscore below 6.0.

All M.S. and Ph.D. applicants and students are required to have strong written and oral communication skills.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Application deadlines for fall entrance to the M.S. in epidemiology are June 1 for U.S. citizens, April 15 for international applicants. Application deadlines for spring entrance are April 15 for U.S. citizens, March 1 for international applicants.

Application deadline for fall entrance to the Ph.D. in epidemiology is April 1. Application deadline for spring entrance (not encouraged) is October 1.

**Financial Support**

A limited number of graduate research assistantships are available for advanced M.S. and Ph.D. students; for information, consult the department. For information on financing education through jobs, grants, and loans, contact the University’s Office of Student Financial Aid.

Opportunities for funded predoctoral fellowships are available. Funded positions sponsored by federal agencies are available only to U.S. citizens.

**Resources**

The State Health Registries of Iowa, which encompasses the Iowa Cancer Registry and the Iowa Registry for Congenital and Inherited Disorders, works in cooperation with the Iowa Department of Public Health to collect medical data on Iowans. The Iowa Cancer Registry is one
of 18 registries nationwide that report data to the National Cancer Institute.

The Preventive Intervention Center conducts population-based intervention trials to prevent occurrence and recurrence of disease and to promote wellness, with a focus on the elderly. It also specializes in research promoting prevention of cardiovascular disease and provides an interdisciplinary approach to risk factor interventions. The Healthcare Effectiveness Research Center is a collaborative research enterprise with the College of Pharmacy that studies whether particular health care treatments or services are over- or underutilized. The Center for Emerging Infectious Diseases employs epidemiological methods, laboratory technologies, and clinical evaluations to achieve a better understanding of emerging infectious diseases. The Nutrition Center provides expertise in nutrition and dietary assessment, epidemiological methods, laboratory technologies, and clinical evaluations to achieve a better understanding of emerging infectious diseases. The Nutrition Center provides expertise in nutrition and dietary assessment, dietary interventions, and nutrition lifestyle change strategies.

Courses

173:099 (EPID:2999) Evidence-Based Public Health Methods 3 s.h.
How to choose, conduct, and evaluate evidence-based programs and policies in public health; finding and using scientific evidence, implementing and evaluating interventions that produce new evidence. Offered summer sessions. Requirements: Certificate in Public Health enrollment.

173:110 (EPID:4110) Quality Dietary Studies for Individuals and Environment 3 s.h.
Overview of current methods to evaluate the quality of nutrition in individuals, communities, and environment; methods include dietary records, dietary recalls, food frequency questionnaires and screeners, and nutrition environmental assessments. Recommendations: a basic nutrition course.

173:111 (EPID:4210) International Health 3 s.h.
Urgent health problems in the developing world and among disadvantaged populations in developed countries; biological, social, cultural, political aspects of international health problems; applications of research methods from epidemiology, environmental health, social sciences. Same as 152:111 (GHS:4210), 175:111 (OEH:4210).

173:120 (EPID:5200) Principles of Public Health Informatics 3 s.h.
Systematic applications of information science, computer science, and technology to public health practice, research, and learning; methods of disease surveillance, data collection, analysis, and reporting with health informatics.

173:130 (EPID:5300) Food Safety 3 s.h.
Current issues and concepts of food safety in the United States, from plant to table; foodborne illness from microbial agents, food toxins, adulterants; disease investigation, risk analysis, risk mitigation, prevention.

173:132 (EPID:5320) Exotic and Emerging Diseases of Animals 1 s.h.
Major exotic and emerging animal diseases; veterinarian’s role in recognizing and diagnosing such diseases; how outbreaks affect economies and veterinary medicine; public health concerns; responding agencies and their roles in control and eradication.

173:134 (EPID:4120) Public Health Nutrition 3 s.h.
Case studies of state and federal public health nutrition programs and role of public health practitioners; identifying community need for action around public health nutrition policy and environmental change; topic-specific public health nutrition programs in children; prevention of obesity, cardiovascular disease, and cancer.

173:140 (EPID:4400) Epidemiology I: Principles 3 s.h.
Epidemiological concepts and methods; design of descriptive and analytic studies, such as aggregate, case series, cross-sectional, case-control, cohort studies, clinical trials; application of epidemiology to public health practice; communication and dissemination of epidemiological findings.

173:142 (EPID:5314) Field Experiences in Public Health 3 s.h.
Epidemiology application in public health practice; environmental, infectious diseases, chronic diseases, occupational and injury, behavioral health, emergency response, and death investigations. Prerequisites: 173:140 (EPID:4400).

173:145 (EPID:4450) Public Health Data 2 s.h.
Concepts and methods of obtaining and using public health data in community settings; how public health data are used for epidemiologic investigations and prevention programs. Offered spring semesters. Corequisites: 171:161 (BIOS:5110) and 173:140 (EPID:4400).

173:147 (EPID:5470) Applied Veterinary Epidemiology/Biostatistics 3 s.h.
Epidemiology and biostatistics applied to veterinary public health; outbreak investigations, surveillance, analyzing and evaluating diagnostic tests, translation methodology, risk assessment, data analysis software programs. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:4400).

173:150 (EPID:5500) Introduction to Clinical Epidemiology 2-3 s.h.
Epidemiologic applications and methods used in clinical settings to evaluate clinical medicine and other health profession disciplines, including health measurement, health outcome determination, diagnostic process, risk assessment and communication, prognosis, study design, patient surveys, clinical trials, decision analysis and meta-analysis, health services research. Offered fall semesters. Corequisites: 171:161 (BIOS:5110) and 173:140 (EPID:4400), if not taken as prerequisites.

173:152 (EPID:5520) Clinical Research Career Development 1 s.h.
Introduction to translational research; grant development and management, data management, communication of research findings, and academic career development. Offered summer sessions.

Experience in the Iowa Registry for Congenital and Inherited Disorders; active, population-based surveillance for selected congenital and inherited disorders. Offered fall semesters of even years. Prerequisites: 173:140 (EPID:4400), 173:160 (EPID:5600), and 173:240 (EPID:6400).

173:154 (EPID:5540) Cancer Registration Internship
2 s.h.
Sources of data necessary for operation of a population-based cancer registry; potential uses of the data; methods and personnel required for collecting, editing, storing, reporting, and assuring quality of data. Offered fall semesters of odd years. Prerequisites: 173:140 (EPID:4400).

173:155 (EPID:5550) Diagnostic Microbiology for Epidemiology 3 s.h.
Introduction to microbiological culture, antigen detection, immunological and molecular amplification laboratory techniques for bacteria, viruses, parasites, fungi. Offered spring semesters. Prerequisites: 061:103 (MICR:8202) or 061:112 (MICR:3112) or 061:157 (MICR:2157) or 061:164 (MICR:3164)

173:156 (EPID:5560) Introduction to Molecular Epidemiology 3 s.h.
Introduction to basic techniques of molecular biology (DNA, RNA, protein techniques) and their use in epidemiological research (e.g., diagnosis of disease, biomarker discovery and validation). Corequisites: 173:140 (EPID:4400), if not taken as a prerequisite.

173:157 (EPID:5570) Zoonotic Diseases 2-3 s.h.
Introduction to the epidemiology and control of zoonotic diseases; zoonoses endemic to the midwestern United States. Offered summer sessions. Prerequisites: 061:103 (MICR:8202) or 061:112 (MICR:3112) or 061:157 (MICR:2157) or 061:164 (MICR:3164) or 173:155 (EPID:5550) or 173:255 (EPID:6550).

173:158 (EPID:5580) Public Health Laboratory Techniques 1 s.h.
Common laboratory techniques in emerging infectious respiratory disease research and epidemiologic surveillance laboratories; emphasis on techniques for culturing, characterization, and serological surveillance of exposure to influenza viruses. Requirements: completion of online Basic Biological Safety and Blood-Borne Pathogens courses; completed certificates must be brought to class.

173:159 (EPID:5590) Applied Infectious Disease Epidemiology 2 s.h.
Introduction to infectious disease surveillance, outbreak investigations, interventions, biodefense, emerging infectious diseases, subject recruitment, mathematical modeling, and analytic approaches pertaining to infectious disease prevention and control; emphasis on practical knowledge and how to apply basic infectious disease epidemiology to real-life scenarios and research projects.

173:160 (EPID:5600) Introduction to Epidemiology Data Analysis With Computers 2 s.h.
Organization, collection, management, and analysis of epidemiological data using computer programs. Offered fall semesters. Corequisites: 171:161 (BIOS:5110) and 173:140 (EPID:4400), if not taken as prerequisites.

173:161 (EPID:5610) Patient-Oriented Research Data Analysis 3 s.h.
Basic principles of data analysis and collaborative research; SAS fundamentals; data manipulation and interpretation techniques. Offered spring semesters.

173:163 (EPID:5630) Seminar in Clinical and Translational Research 1 s.h.
Presentation of ongoing clinical research projects, grant applications, and methodological articles, with emphasis on works in progress.

173:170 (EPID:4510) Injury and Violence Prevention 3 s.h.
Theory, research, and practice of injury control; unintentional and intentional injuries; local, national, international injury issues. Same as 175:170 (OEH:4510).

173:175 (EPID:4520) Research Methods in Disaster Studies 3 s.h.
Epidemiologic study of disasters and their health consequences; research to identify and reduce health effects, research in context of response and preparedness. Same as 175:175 (OEH:4520), 152:195 (GHS:4275).

173:190 (EPID:5900) Problems and Special Topics in Epidemiology arr.
Didactic material in epidemiology; may include tutorial, seminar, faculty-directed independent work (e.g. literature search, project, short research project).

173:195 (EPID:5950) Preceptorship in Epidemiology arr.
Quantitative research-oriented project performed with a preceptor; preparation of prospectus, presentation of research results in a publication-quality report and a scientific poster session.

173:199 (EPID:4990) Practicing Evidence-Based Public Health 3 s.h.
How epidemiologic and other scientific studies underlie public health practice; relationship between evidence and action; controversies at interface of science and policy. Offered spring semesters.

173:200 (EPID:6000) Independent Study in Epidemiology arr.
In-depth pursuit of an area of special interest in epidemiology requiring substantial creativity and independence.

Research that may lead to a dissertation.

173:207 (EPID:6070) Social Epidemiology 3 s.h.
Introduction with global focus and emphasis on methodological issues, including definition/measurement of social constructs, appropriate research designs, analytic approaches. Prerequisites: 173:140 (EPID:4400) and 171:161 (BIOS:5110).
173:210 (EPID:6100) Writing a Research Protocol 3 s.h.
Small group projects to develop research protocols using epidemiological study designs; presentation and defense of proposals before faculty site visitors. Offered fall semesters. Prerequisites: 171:161 (BIOS:5110), 171:162 (BIOS:5120), 173:140 (EPID:4400), and 173:240 (EPID:6400). Requirements: pass epidemiology Ph.D. qualifying exam, approval of research topic by dissertation advisor, and completion and approval of literature review by dissertation advisor prior to first day of class.

173:211 (EPID:6110) Grant Writing for Clinical Investigators arr.
Development of skills for writing effective, scientifically sound applications for external research grants; for students who have completed the literature review section for their topic. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:4400).

173:214 (EPID:5214) Meta‑Analysis of Epidemiologic Studies 3 s.h.
Methods for quantitative pooling of analytic study associations (cohort and case‑control) between exposure and a dichotomous outcome; literature searches, data abstraction, test of homogeneity, publication bias and consideration of adjusted risk ratios (effects of confounding). Prerequisites: 171:162 (BIOS:5120) and 173:140 (EPID:4400).

173:215 (EPID:6150) Writing for Medical Journals 1 s.h.
Skill development in writing medical journal articles for publication.

173:220 (EPID:6200) Environmental and Occupational Epidemiology 3 s.h.
Overview of methods to interpret and perform environmental and occupational epidemiologic studies with focus on exposure assessment; valuable insights into identifying regional, national, global environmental, and occupational health-related issues. Prerequisites: 173:140 (EPID:4400). Same as 175:220 (OEH:6510).

173:225 (EPID:6250) Genetics and Epidemiology 4 s.h.
Basic human genetic and population genetics principles; methods of integrating genetic principles into epidemiological studies; analytical methods for case control and family data. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:4400).

173:233 (EPID:6330) Global Nutrition Policy 1.3 s.h.
Concepts and methods used in setting public health nutrition policy; evidence‑based aspects of nutrition policy formation in public health settings; evaluation of nutritional public health policy implementation and ways of changing policy in China, Korea, Micronesia, Hawaii, Italy, and the United States. Offered spring semesters.

173:235 (EPID:6250) Nutritional Epidemiology 2 s.h.
Application of epidemiology study designs to nutrition variables and chronic disease; analysis of nutrition epidemiology studies; research protocol design. Offered spring semesters. Recommendations: a basic nutrition course.

173:236 (EPID:6360) Nutrition Intervention in Clinical Trials Research 2 s.h.
Nutrition interventions in clinical trials; disease related to nutrition variables; research that links effects of diet on chronic diseases. Offered fall semesters. Recommendations: a basic nutrition course.

173:237 (EPID:6370) Nutrition Intervention in Research Lab 3 s.h.
Development, demonstration of group counseling skills in ongoing nutrition research projects at The University of Iowa. Offered fall semesters. Corequisites: 173:236 (EPID:6360), if not taken as a prerequisite.

173:240 (EPID:6400) Epidemiology II: Advanced Methods 4 s.h.
Epidemiologic study design and analysis; bias, confounding, effect modification; case‑control studies; cohort studies; field methods; measurement principles; exposure and disease classification; acute and chronic disease examples. Offered spring semesters. Prerequisites: 171:161 (BIOS:5110), 173:140 (EPID:4400), and 173:160 (EPID:5600).

173:241 (EPID:5241) Statistical Methods in Epidemiology 3 s.h.
Overview of methods to analyze data from epidemiologic investigations; estimation of relative measures of risk, attributable risk, stratified analysis, model-fitting approaches using logistic and Poisson regression analysis; confounding and effect modification; analysis of epidemiologic data sets. Prerequisites: 171:161 (BIOS:5110) and 171:162 (BIOS:5120).

173:245 (EPID:6245) Epidemiology of Physical Activity 3 s.h.
Physical activity/disease relationships examined through application of epidemiologic methods, including research design, interpretation of studies, selection of measures to fit research questions. Same as 027:249 (HHP:6210).

173:251 (EPID:6510) Injury Epidemiology 3 s.h.
How epidemiology can be applied to injury prevention and control: epidemiology literature, specific methodological problems involved in the epidemiology of injuries, critical evaluation of research articles. Offered spring semesters of odd years. Prerequisites: 173:140 (EPID:4400). Same as 175:251 (OEH:6520).

173:253 (EPID:6530) Epidemiology of Occupational Injuries 3-4 s.h.
Epidemiological literature on occupational injuries and their prevention; focus on research methods. Offered spring semesters of even years. Prerequisites: 173:140 (EPID:4400). Same as 175:253 (OEH:6530).

173:255 (EPID:6550) Epidemiology of Infectious Diseases 3 s.h.
Underlying epidemiological concepts of infection disease, including causation and surveillance; prevention and control; case studies. Offered fall semesters. Prerequisites: 173:140 (EPID:4400). Same as 152:257 (GHS:6550).
173:256 (EPID:6560) Hospital Epidemiology 2 s.h.
Health care-associated infections; surveillance, investigative methods, resistant organisms, molecular epidemiology; methods for preventing spread of pathogens, including isolation precautions; environmental issues, construction, sterilization; interactive exercises. Prerequisites: 173:140 (EPID:4400).

173:257 (EPID:6570) Infectious Causes of Chronic Disease 3 s.h.
Evidence linking various infectious agents with the development of different types of chronic disease. Offered every even year. Corequisites: 173:140 (EPID:4400), if not taken as a prerequisite.

173:260 (EPID:6600) Epidemiology of Chronic Diseases 3 s.h.
Chronic disease epidemiology: survey of leading chronic diseases, including measurement of disease, lifestyle, nutrition, occupation, family history. Offered spring semesters. Prerequisites: 173:140 (EPID:4400).

173:261 (EPID:6610) Epidemiology of Aging 1-2 s.h.
Epidemiologic methods for studying health and social problems of older persons; applications including research and public health practice and policy. Offered spring semesters. Prerequisites: 173:140 (EPID:4400). Same as 153:261 (ASP:6610).

173:262 (EPID:6620) Neuroepidemiology 2 s.h.
Basic epidemiologic concepts of neurologic disease; concepts, methods, examples of neuroepidemiology; varied diseases, methods. Prerequisites: 173:140 (EPID:4400), and 173:160 (EPID:5600).

173:263 (EPID:6630) Epidemiology of Reproductive Diseases 2 s.h.
Evaluation of methodological issues and current findings for reproductive diseases and conditions, etiological mechanisms, including behavioral and genetic. Offered fall semesters of odd years.

173:264 (EPID:6640) Epidemiology of Maternal and Infant Health 2 s.h.
Overview of maternal and infant epidemiologic and methodologic issues; prevalence and trends; risk factors; data sources, including limitations and availability; relevant measurement issues; directions for future research. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:4400).

173:265 (EPID:6650) Cardiovascular Disease Epidemiology 3 s.h.
Natural history of atherosclerotic disease in humans and risk factors affecting its development; atherosclerotic disease by age, sex, and in varied populations worldwide; recent guidelines and clinical trials to delay onset, reduce incidence, improve outcome of cardiovascular disease. Offered fall semesters of odd years. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:4400).

173:267 (EPID:6670) Psychiatric Epidemiology 3 s.h.
Population-based studies of psychiatric disorders and associated etiologic tools; diagnostic criteria used in psychiatric research, common structured interviews and rating scales; recent research relevant to common psychiatric disorders; experience writing a research idea using NIH PHS grant form. Offered spring semesters. Prerequisites: 173:140 (EPID:4400). Recommendations: 173:240 (EPID:6400) or two years of resident training in psychiatry. Same as 073:255 (PSYC:8267).

173:270 (EPID:6700) Cancer Epidemiology and Control 3 s.h.
Incidence, mortality, survival; risk factors for major cancer sites; comprehensive cancer control; introduction to SEER*Stat and its application. Offered spring semesters of even years. Prerequisites: 171:161 (BIOS:5110), 173:140 (EPID:4400), and 069:133 (PATH:8133).

173:272 (EPID:6720) Translational Research in Cancer 2 s.h.
Basic tumor biology and lab-based methods applied to development of translational approaches to prevention, early diagnosis, and treatment of human cancers. Offered fall semesters of even years. Same as 069:272 (PATH:6720).

173:276 (EPID:6760) Health Care Utilization Outcomes 3 s.h.
Research tools to assess changes in health care use and cost as outcomes of treatment; theories of health outcomes; analysis of hospital discharge data sets. Requirements: knowledge of SAS or SPSS. Same as 174:268 (HMP:7150).

173:290 (EPID:6900) Design of Intervention and Clinical Trials 3 s.h.
Methodologic introduction to rationale and design of clinical trials; basics of clinical trial design, variety of designs, and examples from clinical trials. Offered fall semesters. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:4400).

173:291 (EPID:6910) Pharmacoepidemiology 3 s.h.
Drug approval process, methods for identification and attribution of adverse drug events, current understanding of the epidemiology of adverse drug events; study designs, data sources for pharmacoepidemiology, pharmacoconomics. Offered fall semesters of even years. Prerequisites: 173:140 (EPID:4400).

173:295 (EPID:6950) Clinical Research Ethics 2-3 s.h.
Ethical and regulatory aspects of clinical research; historical background, current regulations, Institutional Review Board requirements related to human subjects protection issues. Requirements: K30 training grant or enrollment in degree program with clinical research project.

173:320 (EPID:7200) Teaching in Epidemiology 3 s.h.
173:340 (EPID:7400) Epidemiology III: Theories  
3 s.h.
How epidemiology fits into the wider context of scientific inquiry. Offered fall semesters of odd years. Prerequisites: 171:241 (BIOS:6110), 173:140 (EPID:4400), and 173:240 (EPID:6400).
Health Management and Policy

Head
• Keith J. Mueller

Professors
• Christopher Atchison (Health Management and Policy/Nursing/Public Policy Center), John Brooks (Health Management and Policy/Epidemiology/Pharmacy), Susan J. Curry, Franklin Dexter (Health Management and Policy/Anesthesia), Josephine Gittler (Law/Health Management and Policy/Pediatrics/Nursing), Diane Huber (Health Management and Policy/Iowa Consortium for Substance Abuse/Nursing), Michael Kienzle (Health Management and Policy/Internal Medicine/Nursing), Samuel Levey (Distinguished Professor in Health Management and Policy), Keith J. Mueller (Gerhard Hartman Professor; Health Management and Policy/Public Policy Center), Gary E. Rosenthal (Health Management and Policy/Epidemiology/Internal Medicine), Gerard Rushton (Geographical and Sustainability Sciences/Health Management and Policy), Marcia M. Ward, Fredric D. Wolinsky (John W. Colloton Chair; Health Management and Policy/Internal Medicine/Nursing)

Associate professors
• Brian Kaskie, Tanya Uden-Holman (Health Management and Policy/Nursing), Thomas E. Vaughn (Health Management and Policy/Nursing), George Webby

Assistant professors
• Padmaja Ayyagari, Mary Charlton (Epidemiology/Health Management and Policy), A. Clinton MacKinney, Dan Shane, Brad Wright, Xi Zhu

Adjunct professors
• William W. Hesson, Kenneth Kates, John H. Staley

Adjunct associate professors
• Douglas Beardsley, Thomas Evans, Kenneth Fisher, Ian Montgomery, William D. Petasnick, Peter Wallace

Adjunct assistant professors
• Lee Carmen, Shane Cerone, Jason Hockenberry, Sara Imhof, Thomas Klobucar, Mark Moser, Brian White

Adjunct instructor
• Thomas Persoon (Industrial Engineering/Health Management and Policy/Management Sciences)

Adjunct lecturers
• Timothy Ahlers, Richard C. Breon, Charles E. Brown, Eric T. Crowell, Stacey T. Cyphert, Mary L. Hensley, Thomas W. Keel, Christopher Kiltgaard, Todd C. Linden, Duncan Moore, Thomas Mulrooney, David Olson, Ronald R. Reed, Sarabdeep Singh, James H. Skogsergh, Thomas F. Tibbitts, James A. Tinker, Stephen L. Ummel, Kristy Platz Walker, John C. Wocher

Professors emeriti
• Rachel Anderson, Kathleen Buckwalter, Barry Greene, Charles Helms, Larry D. Prybil

Graduate degrees: M.H.A.; Ph.D. in health services and policy

Web site: http://www.public-health.uiowa.edu/hmp/
The Department of Health Management and Policy educates health care professionals for leadership roles in an increasingly complex and dynamic health care system. Graduates hold key executive, academic, research, government, and consulting positions in all areas of health management and policy, both in the United States and abroad.

Graduate Programs of Study
• Master of Health Administration
• Doctor of Philosophy in health services and policy

The department offers joint M.H.A. degree programs with the Tippie College of Business, the College of Law, and the Graduate College’s School of Urban and Regional Planning; see "Joint M.H.A. Degrees" below. It also offers the policy subtrack for the Master of Public Health; see "M.P.H. Subtrack" below.

The department’s degree programs rank among the foremost in the field. The M.H.A. is accredited by the Commission on Accreditation of Healthcare Management Education. The Ph.D. program, established in 1950, was the nation’s first doctoral program in health care management.

Master of Health Administration
The Master of Health Administration requires 60 s.h. of graduate credit earned in two academic years of full-time study. The program prepares students for a wide variety of positions in health care management. It is designed to provide a comprehensive understanding of issues encountered by health care delivery organizations, and strong business skills. Graduates are well prepared to advance to senior executive roles in a variety of health care organizations.

Students work with their advisors to create a plan of study that incorporates required and elective course work that supports their career goals in areas such as operations management, managed care, or financial management. Required courses in management, economics, law, managerial finance, and financial accounting focus on health care applications. Students also may take course work in other University of Iowa departments and programs, such as business, urban and regional planning, and aging studies.

During the first year, students are introduced to the social, political, economic, and financial environments of health care organizations. The concepts, tools, and techniques necessary for effective management also are presented. During the second year, courses focus on in-depth health care applications of management concepts that integrate prior course work and develop skills in areas relating to students’ special interests and career objectives.

Transfer credit and course waivers may be accepted, but all students are expected to complete a minimum of 54 s.h. at The University of Iowa during their course of study.

The Master of Health Administration requires the following course work.

CORE COURSES

Joint M.H.A./M.B.A.

The joint Master of Health Administration/Master of Business Administration Program (p. 677) (Tippie College of Business) in the Catalog.

Joint M.H.A./J.D.

The joint Master of Health Administration/Juris Doctor requires 123 s.h. of postbaccalaureate credit. The program is highly individualized, allowing students to gain training in both health care management and law. Students usually complete the program in four years; they enroll only in law courses during the first year. Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program. For information about the J.D., see College of Law (p. 962) in the Catalog.

Joint M.H.A./M.A. or M.S. in Urban and Regional Planning

The joint Master of Health Administration/Master of Arts or Master of Science in urban and regional planning requires a minimum of 76 s.h. of graduate credit. The program gives students the opportunity to acquire expertise in community and health planning and prepares them to develop public policy alternatives that help improve the quality of life in cities and throughout regions. Students usually complete the program in three years. Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program. For information about the graduate programs in planning, see Urban and Regional Planning (p. 955) (Graduate College) in the Catalog.

M.P.H. Subtrack

The Department of Health Management and Policy offers the policy subtrack for the Master of Public Health. The subtrack prepares individuals for careers in health policy analysis, system and organizational planning, and program evaluation. Graduates find positions in federal, state, and local government as well as in professional associations and private agencies. See Master of Public Health Program (p. 1171) in the Catalog.

Doctor of Philosophy

The Doctor of Philosophy program in health services and policy requires a minimum of 77 s.h. of graduate credit, which may include up to 30 s.h. of credit from a master’s degree. The program prepares students for careers in health services research, education, and policy leadership in universities, government agencies, and health organizations.

The Ph.D. program is oriented toward applied, interdisciplinary research and scholarly inquiry. Students develop mastery of theories and research methodologies necessary to study the complex American health system. They work closely with faculty mentors on research projects and develop research design and methodology skills through course work and an apprenticeship model of training.

Individual plans of study allow students to prepare for specific careers, and small class size encourages frequent student-faculty interaction, including participation in research projects as well as scholarly publications.

Prospective Ph.D. students apply to one of three focus areas: health economics, health organization and management, or health policy. Admitted students may...
not change focus areas unless they are formally reviewed and accepted to the new area. Students work with a faculty advisor and a mentorship team of faculty members from their focus area; the advisor and mentorship team participate in initial planning with the student during orientation and in annual professional development reviews. Students conduct required independent study and thesis research in their focus area, the their comprehensive exam and dissertation committees include faculty members from their focus area.

**FOCUS AREAS**

The **health economics focus area** provides students with in-depth training in economic theory and its applications to health and health care. Students in this area acquire advanced theoretical knowledge and state-of-the-art analytical and econometric skills that will enable them to build careers as health economists in academic departments, research organizations, and health care industries. The health economics focus area provides comprehensive course work covering all main areas in health and health care economics, including demand for health and health care, economic determinants and consequences of health behaviors, health insurance, economic organization of health care markets, impact of government policy and regulation, econometric methods, and economic evaluation methods.

The **health organization and management focus area** prepares students to conduct research on organizational, strategic, and operational issues that confront health institutions and systems. Emphasis is placed on health care applications of theories, concepts, and models from the fields of organizational theory (macro), organizational behavior (micro), strategic management, and operations management. Students in this area may conduct research on topics such as effectiveness of health care organizations; improving the organization and management of health delivery processes; measuring performance and productivity of health care organizations; examining the relative influence of mission, culture, and financial incentives in hospitals and health organizations; and management of professional groups. Graduates of the health organization and management focus area should find employment in academic and research organizations, integrated delivery systems, and governmental units that are interested in the impact of organizational structures and managerial practices on performance.

The **health policy focus area** prepares students to undertake health services and policy research aimed at improving care and management of illness and disability and enhancing individual and community health outcomes. Students in this area develop the skills necessary to conduct health services and policy research. They take courses in the basic disciplines that contribute to the fields of public and social policy (e.g., law, political science, public affairs) as well as courses that focus on the structure and organization of health policy making in the United States. They study the formation and implementation of health policies; the effect of health policies on the organization, financing, and delivery of health services; the effect of health policies on access to, use of, and costs of health services; and approaches to improve access and effectiveness of care for vulnerable populations. Students who complete the health policy focus area are prepared for employment in academic research institutions, policy organizations, and governmental agencies and departments.

**COURSE WORK**

Ph.D. students take course work in core content areas covering health care systems, health economics, health management and organizations, and health policy as well as courses in research design and statistical analysis. Credit may be awarded for guided and independent research project work. Students may waive specific courses, depending on their background. For more detailed information about Ph.D. and focus area curricula, visit Degree Programs/Ph.D. on the Department of Health Management and Policy web site.

**EXAMINATIONS**

All Ph.D. students must pass a preliminary examination that tests the student’s mastery of core material covered during the first year in the department, including American health systems and health services research methods.

Students take the comprehensive examination at or near the end of their formal course work. The comprehensive exam focuses on the student’s specific area of research and theoretical interest.

**DISSERTATION**

Doctoral candidates prepare dissertations based on original research that tests, extends, or applies concepts or principles to a health care problem related to their chosen focus area. Students may complete a traditional dissertation or a dissertation based on three publishable papers.

**Admission**

Applicants to the M.H.A. program must apply through the Schools of Public Health Application Service (SOPHAS) or the Healthcare Administration, Management & Policy Centralized Application Service (HAMPCAS). Applicants to the Ph.D. program must apply through SOPHAS. All applicants also must apply for admission to the Graduate College through the University of Iowa Office of Admissions. For detailed application information, visit Prospective Students/Admissions on the Department of Health Management and Policy web site.

Ph.D. applicants must apply to one of the program’s three focus areas: health economics, health organization and management, or health policy. Applicants are reviewed by the admissions committee; if they meet department expectations, they are reviewed by focus area faculty; if they are accepted by the focus area, they are interviewed by the admissions committee and the focus area faculty. Admission decisions are made after the interview.

Applicants to the M.H.A. program must hold a bachelor’s degree from an accredited institution. No specific undergraduate major is required, but prospective applicants are strongly advised to complete introductory courses in accounting, economics, and statistics and to gain facility in using spreadsheet and presentation software. Applicants must have a cumulative g.p.a. of at least 3.00. Preference is given to applicants with a verbal score of at least 151 and a quantitative score of at least 151 on the revised Graduate Record Examination (GRE) General Test (or a verbal score of at least 470 and a quantitative score of at least 640 on the old GRE). Applicants who have taken the GMAT (preferred score of at least 600), the MCAT, or the LSAT may submit their scores.
on those tests instead of GRE scores. Relevant work and volunteer experience are considered.

Applicants to the Ph.D. program must have a bachelor’s or master’s degree. Health care and research experience is desirable. A master’s degree in health administration, public health, policy analysis, social science, management, economics, or law is considered excellent preparation for the program. Applicants should have a cumulative g.p.a. of at least 3.25 and should score above the 50th percentile on the Graduate Record Examination (GRE) General Test.

Applicants whose first language is not English and who do not hold a bachelor’s or more advanced degree from an accredited institution in the United States, Canada (except Quebec), Australia, New Zealand, or the United Kingdom or who are not permanent residents of the United States must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score 550-599 (paper-based) or 81-99 (Internet-based) are required to take English fluency courses. Applicants who score below those ranges are not considered for admission.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Students begin the program in fall semester. Campus visits are encouraged, and personal interviews are required before admission. The admissions committee conducts telephone interviews with applicants unable to interview on campus.

**Financial Support**

A variety of financial assistance is available, including scholarships and awards, student loans, and research assistantships. Every effort is made to provide financial support to students who demonstrate need and maintain satisfactory academic standards. Some awards are offered in recognition of outstanding academic performance and experience, regardless of need.

Research assistantships generally are awarded on the basis of student merit and the department’s need. Assistantships afford valuable experience in health services research and management projects. Research assistants work 10-20 hours per week and must apply for reappointment each year. Research assistantships provide a stipend and some tuition assistance and entitle students to resident tuition.

Opportunities also exist for part-time employment both on and off campus. For information and financial aid application forms, contact the University’s Office of Student Financial Aid.

**Courses**

174:100 (HMP:5000) Professional Development Seminar 0-1 s.h.

Development of critical foundational management skills: business writing, personal presentation, teamwork, providing feedback, self-assessment, engaging other professionals, and organizational ethics.

174:102 (HMP:4000) Introduction to the U.S. Health Care System 3 s.h.

The U.S. health care system; socioeconomic, political, and environmental forces that influence the organization, financing, and delivery of personal and public health services; health services, policy, concepts, terminology.

174:144 (HMP:5750) Medicare and Medicaid Policy 3 s.h.

Health policies most pertinent to Americans over age of 65. Same as 153:144 (ASP:5750).

174:200 (HMP:5005) Introduction to Health Care Organization and Policy 3 s.h.

Primary project funding for the center comes from the National Institute of Health, the State of Iowa, the Agency for Healthcare Research and Quality, and the Patient Centered Outcomes Research Initiative, as well as from foundations and private organizations.

The center also sponsors educational activities and promotes collaboration among health organizations through frequent exchanges with professional and provider associations, policy and planning groups, insurance organizations, health delivery institutions, and other members of the health services research community.

**Alumni Relations**

An active alumni association with more than 1,000 members supports the program in a number of ways, including scholarships, consultation on curriculum, continuing education, research, and fund development. Alumni serve as visiting faculty, consultants, mentors, and preceptors for summer internships, residencies, and fellowships. The alumni association also provides a network for graduates entering the profession.

Graduates maintain their Iowa connection and learn about news of their classmates, the department, and faculty members and students through the web site, blogs, Linked In, and Alumni Newsletter.

The Department of Health Management and Policy and its alumni association jointly sponsor the Annual Iowa Healthcare Executive Symposium each fall. Renowned speakers from across the country present a variety of symposium topics. Health care leaders, alumni, educators, students, and friends of the department attend the symposium, which offers students a high quality educational experience in addition to the opportunity to network with faculty and alumni.

**Resources**

The Center for Health Policy and Research, the research arm of the Department of Health Management and Policy, is a University-wide interdisciplinary research facility. Faculty members from the Carver College of Medicine, the Tippie College of Business, and the Colleges of Dentistry, Liberal Arts and Sciences, Nursing, Pharmacy, and Public Health serve as investigators in a variety of studies at the center. Graduate students assist with ongoing research projects.
Organization of U.S. health care system, health policies that shape its development; historical, socioeconomic, political, environmental forces that influence the organization, financing, and delivery of personal and public health services; health services, policy concepts, and terminology, including health determinants, access to care, system integration, policy development, federalism.

174:201 (HMP:5200) Health Care Management 3 s.h.
Application of basic management principles such as leadership, goal setting, decision making, human resource management, to health care organizations.

174:202 (HMP:5350) Hospital Organization and Management 2-3 s.h.
Role of hospitals, governance, organizational structure, medical staff organization, departmental operations. Prerequisites: 174:200 (HMP:5005) and 174:201 (HMP:5200).

174:203 (HMP:6110) Strategic Planning and Marketing 3-4 s.h.
Strategy in health care including role of mission, vision, values, environmental analysis, strategic alternatives, organizational design, and evaluation of strategic decisions. Prerequisites: 174:201 (HMP:5200).

174:204 (HMP:5310) Quantitative Management in Health Care 2-3 s.h.
Quantitative analysis techniques used by managers in health care settings to assist with planning, decision making, resource allocation.

174:205 (HMP:6150) Issues in Health Management and Policy 3 s.h.

174:206 (HMP:6355) Leadership in Healthcare Organizations 2-3 s.h.
Management and leadership concepts and their application in health care organizations. Prerequisites: 174:201 (HMP:5200).

174:207 (HMP:6350) Medical Practice Administration 3 s.h.
Survey of medical practice culture, operations, governance, financials, role(s) in health care system, and future. Prerequisites: 174:200 (HMP:5005), 174:201 (HMP:5200), and 174:202 (HMP:5350).

174:208 (HMP:5315) Health Services Information Systems 2-3 s.h.
Conceptual, practical aspects of analysis, development, and use of computer-based information systems; emphasis on application to the health sciences environment.

174:210 (HMP:5342) Operations Research for Health Services Managers 3 s.h.
Functions and issues associated with health care management decision making using quantitative analysis and methodology; emphasis on operations research techniques (i.e., linear programming); resource management and optimization issues.

174:212 (HMP:5410) Health Economics I 3 s.h.
Microeconomic principles applied to health care, health insurance, information and uncertainty, models of physician and hospital behavior, theory of the firm, market structure, regulation, competitive reform, managed care.

174:213 (HMP:6555) Health Economics II 3 s.h.
Economic theory and its application to health behavior, markets for health care and health insurance, public policy related to health. Prerequisites: 174:212 (HMP:5410).

174:216 (HMP:6410) Financial Management of Health Institutions 3 s.h.
Issues in working capital management, capital financing, cost analysis and rate setting, budgeting, reimbursement, managed care contracting and health reform initiatives; emphasis on use of information from accounting, financial management systems.

174:217 (HMP:5450) Health Insurance and Managed Care 3 s.h.

174:218 (HMP:6055) Topics in Health Administration 1-3 s.h.
Topics related to contemporary problems that concern health care students, administrators.

174:221 (HMP:6120) Evaluation and Outcomes in Health Care 2 s.h.
Qualitative and quantitative methods for evaluating health care quality, effectiveness; program evaluation, health outcomes, clinical and cost effectiveness, evaluation across health care delivery systems. Prerequisites: 174:102 (HMP:4000) or 174:200 (HMP:5005).

174:223 (HMP:6315) Seminar in Health Care Ethics 1-2 s.h.
Biomedical and organization ethics in the contemporary health care environment; ethical concepts and principles, ethical issues that confront executive, clinical, and governance leaders in context of complex health organizations.

174:224 (HMP:6310) Human Resources for Health Organizations 2-3 s.h.
Overview of human resource management theories and practices for health care organizations; strategic human resource management, equal employment, staffing, training and development, appraisal, compensation. Prerequisites: 174:201 (HMP:5200).

174:226 (HMP:5370) Health Informatics I 3 s.h.

174:228 (HMP:7550) Cost Effectiveness and Decision Analysis 3 s.h.
Methods of cost-effectiveness analysis and decision analysis; applications to resource allocation decisions in public health and medicine.

174:234 (HMP:5810) Administrative Internship  
Experience with operational and planning matters in a health care setting. Requirements: second-year standing and g.p.a. of at least 3.00 for two consecutive semesters.

174:235 (HMP:6860) Administrative Residency/Fellowship

174:236 (HMP:6855) Administrative Practicum  
Experience with operational and planning matters in a health care setting. Requirements: second-year standing and g.p.a. of at least 3.00 for two consecutive semesters.

174:237 (HMP:6610) Legal Aspects of Health and Medical Care  
Statutory, common law frameworks applicable to health care system; court decisions that illustrate applications of general legal doctrines in hospital, health settings.

174:242 (HMP:6710) Federalism and Health Policy  
How American government's organization shapes development and implementation of health policy, programs, services.

174:243 (HMP:5610) Health Policy  
Policy process, policies and programs that shape provision of health care in the United States; health policies such as Medicare, Medicaid, Older Americans Act.

174:244 (HMP:5650) Health Policy Analysis  
Introduction to analysis of contemporary health policy issues; frameworks for conducting analysis of health policy process and content; qualitative and quantitative methods for policy analysis; how to present policy-relevant information effectively. Prerequisites: 174:200 (HMP:5005) and 174:243 (HMP:5610).

174:245 (HMP:6750) Seminar in Health Policy  
Contemporary health policy issues; theoretical and applied perspectives; social justice and health care for vulnerable populations (e.g., mental health, nursing homes); readings, discussion. Requirements: 174:243 (HMP:5610).

174:247 (HMP:6360) Nonprofit Organizational Effectiveness I  

174:248 (HMP:6365) Nonprofit Organizational Effectiveness II  

174:249 (HMP:5611) Contemporary Issues in Health Policy  
Current content, ethical perspectives, empirical research, and professional development in health policy; evaluation of health policy issues from a variety of theoretical perspectives; students assist with identification and recruitment of individual experts. Prerequisites: 174:243 (HMP:5610).

174:252 (HMP:7250) Organizational Behavior and Theory in Health Care  
Key concepts of organizational behavior and organizational theory and their application to health care organizations and health services; perspectives from theoretical writings and empirical studies. Requirements: Ph.D. standing and knowledge of human services organizations.

174:253 (HMP:6255) History and Health Policy in the U.S.  
Books, articles, other readings on history of the medical and nursing professions, evolution of the hospital and other key sectors of the health economy; health policy issues and their implications.

174:255 (HMP:7910) Seminar in Contemporary Health Issues  
Review of relevant literature on methodological substantive issues in health care, presentations by researchers on health services and policy research.

174:257 (HMP:7920) Ph.D. Guided Research  
Experience with empirical research, guided by a faculty mentor; structured and supervised research activities.

174:259 (HMP:7950) Design Issues in Health Service Research  
Design and causal inference reliability and validity in measurement; rules of evidence; research design for randomized-control trials, observational studies, meta-analysis.

174:260 (HMP:7930) Ph.D. Independent Research  
Experience in empirical research through one or more substantive research experiences, with faculty mentor; authorship on one manuscript suitable for publication in peer review journal. Requirements: Ph.D. in health services and policy and satisfactory completion of Ph.D. preliminary exams.

174:261 (HMP:7960) Analytic Issues in Health Services Research I  
Analytic tools used in health services research; focus on applications in nonexperimental research settings, such as analyses using administrative claims data or preexisting public use data sets. Prerequisites: 171:162 (BIOS:5120). Same as 046:261 (PHAR:7330).
174:262 (HMP:7965) Analytic Issues in Health Services Research II 3 s.h.
Continuation of 174:261 (HMP:7960); advanced applications, including panel data and qualitative response models. Prerequisites: 174:261 (HMP:7960). Same as 046:262 (PHAR:7331).

174:268 (HMP:7150) Health Care Utilization Outcomes 3 s.h.
Research tools to assess changes in health care use and cost as outcomes of treatment; theories of health outcomes; analysis of hospital discharge data sets. Requirements: knowledge of SAS or SPSS. Same as 173:276 (EPID:6760).

174:270 (HMP:7970) Seminar in Health Research and Instruction 1-3 s.h.
Opportunity for Ph.D. students to develop research and teaching skills through presentations, readings, workshops. Requirements: satisfactory completion of Ph.D. preliminary exams.

Supervised tutorial.

Research for preparation of dissertation; seminar presentation.
Master of Public Health Program

Director
• Mary L. Aquilino

Graduate degree: M.P.H.
Web site: http://www.public-health.uiowa.edu/mph/

The Master of Public Health is recognized as the primary professional degree in public health. The objective of Iowa's M.P.H. program is to provide education and practical training in public health to students who will be leaders in their respective communities. The program is appropriate for individuals who already have professional experience and/or training in public health as well as for those whose expertise lies outside of public health.

The Master of Public Health program is offered by the College of Public Health; the degree is awarded by the Graduate College.

Graduate Program of Study
• Master of Public Health

Students may earn the M.P.H. as a single degree, or they may pursue one of several joint degree programs. The College of Public Health offers joint M.P.H./professional degree programs with the Carver College of Medicine and the Colleges of Law and Pharmacy. It also offers two programs in collaboration with the College of Veterinary Science at Iowa State University. See "M.P.H. for Practicing Veterinarians" and descriptions of the joint degree programs later in this section.

In addition, the college collaborates with the College of Liberal Arts and Sciences to offer joint B.A. or B.S./M.P.H. programs for undergraduate students majoring in biology, psychology, or statistics; see "Joint B.A. or B.S./M.P.H. Degrees" below.

Master of Public Health

The Master of Public Health requires 42-59 s.h. of graduate credit, depending on the student’s choice of specialization. Students must choose one of seven subtracks: community and behavioral health, epidemiology, ergonomics, health communication, occupational and environmental health, policy, or quantitative methods.

Degree requirements include a core course in public health practice and in each of the five core disciplines of public health (epidemiology, biostatistics, environmental health, health policy and management, and social and behavioral sciences); a practicum; a set of content-specific required courses; and a set of content-specific electives. Students in the epidemiology subtrack and the occupational and environmental health subtrack also must complete a bioscience course. A final written report with oral presentation or a poster presentation related to the practicum constitutes the final examination.

All M.P.H. students complete the course work listed under "Common Requirements." In addition, each student completes the course work listed for his or her chosen subtrack.

Common Requirements

The following course work is required for all M.P.H. students. Students must earn a B-minus or higher in each core course. Students may repeat courses to achieve this standard.

CORE COURSES

All of these (15 s.h.):
170:101 (MPH:5100) Introduction to Public Health 3 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.
172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention 3 s.h.
173:140 (EPID:4400) Epidemiology I: Principles 3 s.h.
175:197 (OEH:4240) Global Environmental Health 3 s.h.

One of these (3 s.h.):
174:102 (HMP:4000) Introduction to the U.S. Health Care System 3 s.h.
174:200 (HMP:5005) Introduction to Health Care Organization and Policy (policy students only) 3 s.h.

PRACTICUM

The practicum is a fieldwork experience in which students show proficiency in applying academic principles in community settings. There are many practicum opportunities for M.P.H. students in Iowa and surrounding states; the college’s Institute for Public Health Practice coordinates placements. The practicum is the culmination of the M.P.H. program.

Before they register for and begin the practicum, students must choose an approved topic and must complete most of the M.P.H. course work, including all of the six M.P.H. core courses. A final written report with an oral presentation or a poster presentation is required. The practicum constitutes the final examination for the M.P.H.

170:299 (MPH:7000) M.P.H. Practicum Experience 3 s.h.

Community and Behavioral Health Subtrack

The Master of Public Health with community and behavioral health subtrack requires 42 s.h. of graduate credit. The subtrack is offered by the Department of Community and Behavioral Health (p. 1147) (College of Public Health).

The subtrack prepares public health practitioners for a variety of positions related to community development, health program implementation, and health education. Students learn how to design, implement, and evaluate evidence-based interventions directed toward identified public health problems in populations.

A bachelor's degree in the social and behavioral sciences is good preparation for this program, but students come from a variety of educational backgrounds. Preference is given to applicants who have professional experience.

In addition to the M.P.H. course work listed under "Common Requirements" above, the community and behavioral health subtrack requires the following courses.

SUBTRACK CORE

At least 12 s.h. chosen from these:
Epidemiology Subtrack

The Master of Public Health with epidemiology subtrack requires 42 s.h. of graduate credit. The subtrack is offered by the Department of Epidemiology (p. 1154) (College of Public Health).

The subtrack focuses on fundamental epidemiological concepts and methods and provides training in the use of public health data and methods for disease assessment and in methods for evaluating the need and outcome of programs and interventions. Graduates of the program work in public health departments and other health care settings.

Epidemiology subtrack students are required to attend departmental seminars and journal club. They also must present one scientific poster at an international, national, regional, state, university, or departmental poster session.

In addition to the M.P.H. course work listed under "Common Requirements" above, the epidemiology subtrack requires the following courses.

**SUBTRACK CORE**

All of these (10 s.h.):

- 173:162 (BIOS:5120) Design and Analysis of Biomedical Studies 3 s.h.
- 173:158 (EPID:5580) Public Health Laboratory Techniques 1 s.h.
- 173:160 (EPID:5600) Introduction to Epidemiology Data Analysis With Computers 2 s.h.
- 173:240 (EPID:6400) Epidemiology II: Advanced Methods 4 s.h.

One of these (2-3 s.h.):

- 173:145 (EPID:4450) Public Health Data 2 s.h.
- 173:199 (EPID:4990) Practicing Evidence-Based Public Health 3 s.h.

One of these (2 s.h.):

- 173:154 (EPID:5540) Cancer Registration Internship 2 s.h.

**ELECTIVES**

Students who already have completed a course equivalent to one of these bioscience courses may substitute an additional elective.

**Ergonomics Subtrack**

The Master of Public Health with ergonomics subtrack requires 42 s.h. of graduate credit. The subtrack is offered by the Department of Occupational and Environmental Health (p. 1178) (College of Public Health).

The subtrack takes advantage of interdisciplinary faculty strengths in the Colleges of Public Health and Engineering and the Carver College of Medicine. Ergonomics students gain a thorough understanding of workplace physical environments that contribute to musculoskeletal injuries and illness. They also acquire knowledge of engineering and administrative methods to control workplace risk factors. The program prepares students for work in industry and government agencies, as well as for further academic training.

In addition to the M.P.H. course work listed under "Common Requirements" above, the ergonomics subtrack requires the following courses.

**SUBTRACK CORE**

All of these (16 s.h.):

- 056:144 (IE:3400) Human Factors 3 s.h.
- 056:147 (IE:3450) Ergonomics 3 s.h.
- 175:180 (OEH:5010) Occupational and Environmental Health Seminar 1 s.h.

**ELECTIVES**

Students earn at least 2 s.h. in elective courses (or 5 s.h. if they substitute an elective for the bioscience requirement). At least 3 s.h. of elective credit must be earned in courses offered by the Department of Epidemiology (prefix 173) or in one of the following biostatistics courses.

- 171:241 (BIOS:6110) Applied Categorical Data Analysis 3 s.h.
The Master of Public Health with health communication subtrack requires 42 s.h. of graduate credit. The subtrack is offered by the Department of Community and Behavioral Health (p. 1147) (College of Public Health).

The subtrack provides opportunities for students to develop knowledge and skill in designing, evaluating, and implementing effective communication strategies and messages that speak to the health needs of diverse audiences. The program addresses clinician-patient interaction, family communication, group and organizational communication, and mass media and web-based campaigns. The M.P.H. may be of interest to clinicians, such as physicians, nurses, pharmacists, and dentists, as well as other professionals who do not wish to earn a Ph.D.

In addition to the M.P.H. course work listed under "Common Requirements" above, the health communications subtrack requires the following courses.

**SUBTRACK CORE: HEALTH COMMUNICATION**

Four of these (12 s.h.):

- 036:371 (COMM:6371) Communication Theory 3 s.h.
- 172:140 (CBH:4825)/019:160 (JMC:4825) Media and Health 3 s.h.
- 172:242 (CBH:6215) Persuasion and Health 3 s.h.

**SUBTRACK CORE: COMMUNITY AND BEHAVIORAL HEALTH**

Three of these (9 s.h.):

- 044:106 (GEOG:3505) Foundations of GIS 3 s.h.
- 172:106 (CBH:6205) Designing and Implementing Interventions 3 s.h.
- 172:130 (CBH:5205) Social Determinants of Health 3 s.h.
- 172:135 (CBH:5225) Health Disparities and Cultural Competence 3 s.h.
- 172:150 (CBH:5220) Health Behavior and Health Education 3 s.h.
- 172:183 (CBH:5310) Qualitative Research for Public Health 3 s.h.
- 172:202 (CBH:6115)/113:202 (ANTH:6115) Ethnographic Field Methods 3 s.h.

**Ergonomics subtrack** students earn 5 s.h. in elective courses. Electives may be chosen from the following list or may include a related course approved by the student’s advisor.

- 175:192 (OEH:5410) Occupational Safety 3 s.h.
- 175:231 (OEH:6420) Industrial Hygiene Fundamentals 3 s.h.
- 175:251 (OEH:6520) Injury Epidemiology 3 s.h.
- 175:253 (OEH:6530) Epidemiology of Occupational Injuries 3 s.h.

**Health Communication Subtrack**

The Master of Public Health with health communication subtrack requires 42 s.h. of graduate credit. The subtrack is offered by the Department of Community and Behavioral Health (p. 1147) (College of Public Health).

The subtrack provides opportunities for students to develop knowledge and skill in designing, evaluating, and implementing effective communication strategies and messages that speak to the health needs of diverse audiences. The program addresses clinician-patient interaction, family communication, group and organizational communication, and mass media and web-based campaigns. The M.P.H. may be of interest to clinicians, such as physicians, nurses, pharmacists, and dentists, as well as other professionals who do not wish to earn a Ph.D.

In addition to the M.P.H. course work listed under "Common Requirements" above, the health communications subtrack requires the following courses.

**SUBTRACK CORE**

All of these (18-22 s.h.):

- 175:180 (OEH:5010) Occupational and Environmental Health Seminar 1 s.h.
- Occupational and environmental health courses not already listed, or other approved courses 17-21 s.h.
- Bioscience—one of these (3-4 s.h.):
  - 069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students 4 s.h.
  - 069:270 (PATH:5270) Pathogenesis of Major Human Diseases 3 s.h.

Students who already have completed a course equivalent to one of these bioscience courses may substitute an additional elective.

**Policy Subtrack**

The Master of Public Health with policy subtrack requires 59 s.h. of graduate credit. The subtrack is offered by the Department of Health Management and Policy (p. 1164) (College of Public Health).

The subtrack offers course work and applied learning experiences that prepare students for careers in health policy analysis, system and organizational planning, and program evaluation. Graduates of the program find positions in federal, state, and local government; professional associations; and private agencies. Varied academic backgrounds are appropriate preparation for this program, including business, liberal arts and sciences, and the health professions.

In addition to the M.P.H. course work listed under "Common Requirements" above, the policy and administration subtrack requires the following courses.

**SUBTRACK CORE**

All of these:

- 174:144 (HMP:5750) Medicare and Medicaid Policy 3 s.h.
- 174:212 (HMP:5410) Health Economics I 3 s.h.
- 174:217 (HMP:5450) Health Insurance and Managed Care 3 s.h.
- 174:221 (HMP:6120) Evaluation and Outcomes in Health Care 2 s.h.
- 174:223 (HMP:6315) Seminar in Health Care Ethics 2 s.h.
174:237 (HMP:6610) Legal Aspects of Health and Medical Care 3 s.h.
174:242 (HMP:6710) Federalism and Health Policy 3 s.h.
174:243 (HMP:5610) Health Policy 3 s.h.
174:245 (HMP:6750) Seminar in Health Policy 3 s.h.

ELECTIVES
At least 6 s.h. chosen from these:
030:113 (POLI:3100) American State Politics 3 s.h.
030:120 (POLI:3117) Public Administration and Bureaucratic Politics 3 s.h.
030:125 (POLI:3118) Interest Groups 3 s.h.
030:126 (POLI:3111) American Public Policy 3 s.h.
030:150 (POLI:3404) Public Policy Around the World 3 s.h.
030:151 (POLI:3417) Political Leadership 3 s.h.
030:152 (POLI:3102) The U.S. Congress 3 s.h.
030:153 (POLI:3121) The Judicial Process 3 s.h.
030:200 (POLI:5000) Introduction to Political Analysis 4 s.h.
030:310 (POLI:7100) Modeling American Politics 4 s.h.
030:315 (POLI:7102) The Presidency 4 s.h.
030:319 (POLI:7150) Problems in American Politics 4 s.h.
030:339 (POLI:7350) Problems in Political Theory 4 s.h.
030:352 (POLI:7200) Legislative Behavior 4 s.h.
091:261 (LAW:8562) Health Law 3 s.h.

Policy courses not already listed in the required section, or other approved courses

Quantitative Methods Subtrack
The Master of Public Health with quantitative methods subtrack requires 42 s.h. of graduate credit. The subtrack is offered by the Department of Biostatistics (p. 1141) (College of Public Health).

The subtrack is designed to train public health professionals who can provide leadership in the analysis of public health data and the design of studies for public health investigations. It is intended for individuals who are interested in public health and who have quantitative ability but not advanced mathematics training.

Applicants to the subtrack must meet all M.P.H. admission requirements; see "Admission" toward the end of this Catalog section. They also should have a cumulative g.p.a. of at least 3.00 and should have completed the following math and computer science course work: single variable calculus and matrix algebra, satisfied by one semester of calculus equivalent to AP Calculus AB and a high school algebra course involving matrices; and elementary computer programming instruction in any commonly used modern programming language (e.g. Python, Java, C+ +). Individuals who are admitted to the subtrack without having met all of these requirements must satisfy unmet requirements during their first semester of enrollment in the program.

In addition to the M.P.H. course work listed under "Common Requirements" above, the biostatistics subtrack requires the following courses.

SUBTRACK CORE
All of these (12 s.h.):
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies 3 s.h.
171:164 (BIOS:5310) Research Data Management 3 s.h.
171:178 (BIOS:5510) Biostatistical Computing 3 s.h.
171:241 (BIOS:6110) Applied Categorical Data Analysis 3 s.h.

ELECTIVES
At least 9 s.h. chosen from these:
002:170 (BIOL:4213) Bioinformatics 4 s.h.
22S:105 (STAT:4200) Statistical Methods and Computing 3 s.h.
22S:130 (STAT:3100) Introduction to Mathematical Statistics I 3 s.h.
22S:131 (STAT:3101) Introduction to Mathematical Statistics II 3 s.h.
22S:138 (STAT:4520) Bayesian Statistics 3 s.h.
22S:153 (STAT:4100) Mathematical Statistics I 3 s.h.
22S:154 (STAT:4101) Mathematical Statistics II 3 s.h.
22S:156 (STAT:6560) Applied Time Series Analysis 3 s.h.
22S:158 (STAT:3210) Experimental Design and Analysis 3 s.h.
22S:161 (STAT:6540) Applied Multivariate Analysis 3 s.h.
22S:193 (STAT:5100) Statistical Inference I 3 s.h.
22S:194 (STAT:5101) Statistical Inference II 3 s.h.
061:147 (MICR:3147) Survey of Immunology 3 s.h.
061:157 (MICR:2157) General Microbiology 5 s.h.
171:174 (BIOS:6310) Introductory Longitudinal Data Analysis 3 s.h.
171:242 (BIOS:6210) Applied Survival Analysis 3 s.h.
171:266 (BIOS:6610) Statistical Methods in Clinical Trials 3 s.h.
171:290 (BIOS:7600) Advanced Biostatistics Seminar 0-3 s.h.

Joint B.A. or B.S./M.P.H. Degrees
The College of Public Health collaborates with the College of Liberal Arts and Sciences to offer joint bachelor’s degree/Master of Public Health programs for undergraduate students majoring in biology, psychology, or statistics who would like to earn an M.P.H. degree. The joint programs permit students to count a limited amount of credit toward the requirements of both degrees, enabling them to begin the study of public health before they complete the bachelor’s degree. Each joint program pairs an undergraduate major with a specific M.P.H. subtrack, as follows.

Joint B.A. in biology/M.P.H. with epidemiology subtrack; see Biology (p. 118) (College of Liberal Arts and Sciences) in the Catalog for information about the biology major.

Joint B.A. in psychology/M.P.H. with community and behavioral health subtrack; see Psychology (p. 518) (College of Liberal Arts and Sciences) in the Catalog for information about the psychology major.

Joint B.S. in statistics/M.P.H. with quantitative methods subtrack; see Statistics and Actuarial Science (p. 594) (College of Liberal Arts and Sciences) in the Catalog for information about the statistics major.

Undergraduate students must apply to the joint programs. They should consult their undergraduate advisors. Visit Areas of Study/Undergrad to Grad on the Master of Public Health web site to learn more.

M.P.H. for Practicing Veterinarians
The Master of Public Health for practicing veterinarians requires a minimum of 42 s.h. of graduate credit. The program is presented through a collaboration between the University of Iowa College of Public Health and the College of Veterinary Medicine at Iowa State University and is offered primarily by distance learning. It enables students to prepare for new career opportunities and
equips them to respond to public health challenges such as zoonotic diseases, food security and foodborne illnesses, bioterrorism, and environmental health.

Students participate in two summer institutes, one on each campus during consecutive summers (two weeks in May and June); the rest of the program is Internet-based, so students may complete requirements at times that fit their schedules. Specific courses are required each semester of the program.

The M.P.H. for practicing veterinarians requires the following course work.

**M.P.H. COMMON REQUIREMENTS**

Students must complete courses listed under "Common Requirements" (core courses and practicum) for the Master of Public Health; see the beginning of this Catalog section.

**ADDITIONAL REQUIRED COURSES**

All of these (21 s.h.):

- 173:120 (EPID:5200) Principles of Public Health 3 s.h.
- 173:130 (EPID:5300) Food Safety 3 s.h.
- 173:132 (EPID:5320) Exotic and Emerging Diseases of Animals 1 s.h.
- 173:147 (EPID:5470) Applied Veterinary Epidemiology/ Biostatistics 3 s.h.
- 173:155 (EPID:5550) Diagnostic Microbiology for Epidemiology 3 s.h.
- 173:159 (EPID:5590) Applied Infectious Disease Epidemiology 2 s.h.
- 175:209 (OEH:6110) Rural Health and Agricultural Medicine 3 s.h.
- 175:211 (OEH:5120) Veterinary Public Health: The Profession 1 s.h.

**Joint M.P.H./D.V.M.**

The joint Master of Public Health/Doctor of Veterinary Medicine is offered by the University of Iowa College of Public Health and the College of Veterinary Medicine at Iowa State University (ISU). It requires a minimum of 42 s.h. in addition to the requirements of the D.V.M. degree (see College of Veterinary Medicine in the Iowa State University catalog). The program prepares students for work as state veterinarians, as college and university faculty members, in local and state departments of public health, in the Public Health Commissions Corp., in state agricultural departments, and for public health positions in the military.

Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program. For M.P.H. admission requirements, see "Admission" later in this section.

The joint M.P.H./D.V.M. requires the following course work.

**M.P.H. COMMON REQUIREMENTS**

Students must complete courses listed under "Common Requirements" (core courses and practicum) for the Master of Public Health; see the beginning of this Catalog section.

**M.P.H. ELECTIVES**

Students must earn at least 9 s.h. from the following courses.

- 173:130 (EPID:5300) Food Safety 3 s.h.
- 173:147 (EPID:5470) Applied Veterinary Epidemiology/ Biostatistics 3 s.h.
- 173:155 (EPID:5550) Diagnostic Microbiology for Epidemiology (offered by distance education) 3 s.h.
- 173:159 (EPID:5590) Applied Infectious Disease Epidemiology 2 s.h.
- 173:255 (EPID:6550) Epidemiology of Infectious Diseases (offered by distance education) 3 s.h.
- 175:170 (OEH:4510) Injury and Violence Prevention (offered by distance education) 3 s.h.
- 175:209 (OEH:6110) Rural Health and Agricultural Medicine (offered by distance education) 3 s.h.
- 175:210 (OEH:6120) Current Topics in Agricultural Health 0-1 s.h. (offered by distance education)
- 175:211 (OEH:5120) Veterinary Public Health: The Profession 1 s.h.

**REQUIRED D.V.M. COURSES**

All of these (ISU courses):

- Public Health and the Role of the Veterinary Profession (VMPM 388) 3 s.h.
- Small Animal Internal Medicine (VCS 436) 2 s.h.
- Infectious Diseases and Preventive Medicine (VMPM 437) 3 s.h.
- Pharmacology and Therapeutics (BMS 443) 3 s.h.
- Laboratories in Public Health (VMPM 486) 1 s.h.

**Joint M.P.H./J.D.**

The joint Master of Public Health/Juris Doctor requires a minimum of 42 s.h. of graduate credit in addition to the requirements of the J.D. degree. The program helps students develop special expertise in public health legal issues. It is designed to train qualified students for leadership roles in both the public and private sectors. Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program.

The joint M.P.H./J.D. requires the following course work.

**M.P.H. COMMON REQUIREMENTS**

Students must complete courses listed under "Common Requirements" (core courses and practicum) for the Master of Public Health; see the beginning of this Catalog section.

**M.P.H. ELECTIVES**

Students earn 9 s.h. in elective courses chosen from one of the following public health areas: aging studies; biostatistics; community and behavioral health; epidemiology; global health; health policy; maternal, child, and family health; nutrition and exercise; or occupational and environmental health. Students choose electives in consultation with their advisors in the College of Law and the College of Public Health.

**J.D. REQUIREMENTS**

Students in the joint M.P.H./J.D. program must complete the curriculum of the J.D. program; see College of Law (p. 962) in the Catalog. Students must be enrolled in the College of Law to take College of Law courses.
COURSES THAT COUNT TOWARD BOTH DEGREES

Students may count up to 12 s.h. earned in the following College of Law courses toward the M.P.H. degree.

Joint M.P.H./M.D.

The joint Master of Public Health/Doctor of Medicine requires a minimum of 42 s.h. of graduate credit in addition to the requirements of the M.D. degree. Students who complete the program enjoy expanded career opportunities and are well prepared to apply the principles of medicine and public health in their work. Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint program.

The joint M.P.H./M.D. requires the following course work.

M.P.H. COMMON REQUIREMENTS

Students must complete courses listed under "Common Requirements" (core courses and practicum) for the Master of Public Health; see the beginning of this Catalog section.

M.P.H. ELECTIVES

Students earn 9 s.h. in elective courses chosen from one of the following public health areas: biostatistics, community and behavioral health, epidemiology, health communication, health policy, occupational and environmental health. Students select electives in consultation with their advisors in the Carver College of Medicine and the College of Public Health.

M.D. REQUIREMENTS

Students in the joint M.P.H./M.D. program must complete the curriculum of the M.D. program; see Doctor of Medicine (p. 1019) (Carver College of Medicine) in the Catalog.

COURSES THAT COUNT TOWARD BOTH DEGREES

Students may count up to 12 s.h. earned in the following M.D. courses toward the M.P.H. degree.

Joint M.P.H./Pharm.D.

The joint Master of Public Health/Doctor of Pharmacy requires 42 s.h. of graduate credit in addition to the requirements of the Pharm.D. degree. The program helps students develop expertise in public health related to pharmacotherapy, health promotion, disease prevention, and medication safety.

Graduates of the program may work in areas of interest common to pharmacy and public health, such as spread and treatment of disease, community health, and immunology; bioterrorism, terrorism, and preparedness; genetics; insurance; managed care; family and juvenile health; and protection of special populations. Employment opportunities are available in hospitals and clinics and with health care providers; private practice; insurance and managed care organizations; local, county, state, and federal government; public health governmental agencies; and colleges and universities.

Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program.

The joint M.P.H./Pharm.D. requires the following course work.

M.P.H. COMMON REQUIREMENTS

Students must complete courses listed under "Common Requirements" (core courses and practicum) for the Master of Public Health; see the beginning of this Catalog section.

M.P.H. ELECTIVES

Students select electives totaling 9 s.h. from one of the following public health areas: biostatistics, community and behavioral health, epidemiology, health communication, health policy, or occupational and environmental health. Electives are chosen in consultation with the student’s advisors in the Colleges of Pharmacy and Public Health.

PHARM.D. REQUIREMENTS

Students in the joint M.P.H./Pharm.D. program must complete the curriculum of the Pharm.D. program; see the College of Pharmacy (p. 1123) section of the Catalog. Students must be enrolled in the College of Pharmacy in order to take College of Pharmacy courses.

COURSES THAT COUNT TOWARD BOTH DEGREES

Students may count up to 12 s.h. earned in the following Pharm.D. courses toward the M.P.H. degree.

Admission

Applicants to the M.P.H. program must apply through the Schools of Public Health Application Service (SOPHAS); they also must apply for admission to the Graduate College through the University of Iowa Office of Admissions. Applicants must submit scores on the
Graduate Record Exam (GRE) General Test, LSAT, DAT, VCAT, GMAT, or another professional placement exam; scores must be at or above the median scores for test takers applying to similar programs. For detailed application information, visit Admissions/Application Process on the Master of Public Health web site.

Applicants to the M.P.H. program must have successfully completed one semester each of college algebra and biology.

Applicants whose first language is not English and who do not hold a bachelor’s degree from an accredited institution in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score 550-599 (paper-based) or 81-99 (Internet-based) are required to take English fluency courses. Applicants who score below those ranges are not considered for admission.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Students may enter the M.P.H. program in fall and summer. Application deadlines for fall entrance to the M.P.H. program are May 1 for U.S. citizens and permanent residents, April 1 for international applicants. Application deadlines for summer entrance are April 1 for U.S. citizens and permanent residents, March 15 for international applicants.

Application deadline for the M.P.H. for practicing veterinarians is March 1.

Students may enter the M.P.H. joint programs in fall, spring, and summer. Contact the individual joint programs for deadline information.

Financial Support
A limited number of modest tuition awards are available each year for M.P.H. students. For information on financing education through jobs, grants, and loans, contact the University's Office of Student Financial Aid.

Courses

170:099 (MPH:3000) Fundamentals of Public Health
Introduction to public health; emphasis on issues, challenges, achievements, careers; historical events that serve as a foundation for public health practice.

170:101 (MPH:5100) Introduction to Public Health
Concepts, structures, and activities in public health practice. Offered fall semesters and summer sessions.

170:172 (MPH:6500) Independent Study in Public Health
In-depth pursuit of an area of special interest in public health.

170:173 (MPH:6600) Service-Learning in Public Health
Occupational and Environmental Health

Head
• Peter Thorne

Professors
• Thomas Cook (Occupational and Environmental Health/International Programs/Physical Therapy and Rehabilitation Science), Kenneth Culp (Occupational and Environmental Health/Nursing), Kelley Donham (Occupational and Environmental Health/Nursing), William Field (Occupational and Environmental Health/Epidemiology), Laurence Fuortes (Occupational and Environmental Health/International Programs/Epidemiology), Fredric Gerr (Occupational and Environmental Health/Epidemiology/Internal Medicine), Vicki Grasian (Occupational and Environmental Health/Education/Chemistry/Chemical and Biochemical Engineering), Patrick Hartley (Occupational and Environmental Health/Internal Medicine), Keri Hornbuckle (Civil and Environmental Engineering/Occupational and Environmental Health), Paul James (Family Medicine/Occupational and Environmental Health), Joel Kline (Occupational and Environmental Health/Internal Medicine), Gabriele Ludewig, James Merchant (Occupational and Environmental Health/Internal Medicine/Nursing), Patrick O'Shaughnessy (Civil and Environmental Engineering/Occupational and Environmental Health), David Osterberg (Geographical and Sustainability Sciences/Occupational and Environmental Health), Gene Parkin (Civil and Environmental Engineering/Occupational and Environmental Health), Corinne Peek-Asa (Occupational and Environmental Health/Epidemiology/Nursing/Public Policy Center), George Phillips (Occupational and Environmental Health/Pediatrics), Larry Robertson (Radiation Oncology/Occupational and Environmental Health), Jerald Schnoor (Civil and Environmental Engineering/Occupational and Environmental Health), Peter Thorne (Civil and Environmental Engineering/Occupational and Environmental Health), David Wilder (Occupational and Environmental Health/Biomedical Engineering)

Associate professors
• Hans-Joachim Lehmler, Thomas Peters, Marizen Ramirez, Diane Rohman, Thomas Schnell (Industrial Engineering/Occupational and Environmental Health/Electrical and Computer Engineering/Neurology)

Assistant professors
• Renee Anthony, Brenda Buikema, Nathan Fethke (Occupational and Environmental Health/Biomedical Engineering), Matthew Nonnenmann

Adjunct professors
• Michael Rosmann, Wayne Sanderson (Occupational and Environmental Health/Epidemiology)

Adjunct associate professors
• Craig Bainbridge (Occupational and Environmental Health/Internal Medicine), Kevin Kelly (Occupational and Environmental Health/Anthropology/Community and Behavioral Health), Kenneth McMains, Peter Weyer

Adjunct assistant professors
• Chandran Achutan, Danielle Bickett-Weddle, Edward Bottei (Occupational and Environmental Health/Internal Medicine/Pediatrics/Pharmacy), Razvan Chereches, Gregory Couser, Christine Deignan, Gregory Flamme, Dian Gottlob, Rex Kuye, Murray Madsen, John Rosecrance, Donald Simmons, Laurie Taylor, Londa Vanderwal, John Vargo, Michael Wichman, Catherine Zeman

Adjunct associate
• Daniel McGhee

Professors emeriti
• William Hausler, L.W. Knapp Jr., Keith Long, Donald Morgan, Nancy Sprince, Craig Zwerling

Assistant professor emeritus
• Pamela Willard

Graduate degrees: M.S. in occupational and environmental health; Ph.D. in occupational and environmental health

Web site: http://www.public-health.uiowa.edu/oeh/

The Department of Occupational and Environmental Health focuses on assessment of risk factors in the physical environment and their relationship to disease—particularly health problems of agricultural and industrial workers. Students are guided by faculty members whose research interests include rural health care delivery, agricultural health, environmental health, occupational medicine, occupational lung disease, mammalian toxicology, inhalation toxicology, ergonomics, indoor air quality, occupational injury, injury epidemiology, injury prevention programs, aerosol physics, air and water quality, environmental chemistry, analytical toxicology, and environmental health in developing countries.

Graduate Programs of Study
• Master of Science in occupational and environmental health
• Doctor of Philosophy in occupational and environmental health

Both of the department’s graduate degree programs offer optional subtracks in agricultural safety and health and industrial hygiene.

In addition to its degree programs, the department offers two subtracks for the Master of Public Health: the ergonomics subtrack and the occupational and environmental health subtrack; see “M.P.H. Subtracks” below. It also participates in the College of Public Health’s graduate Certificate in Agricultural Safety and Health; see Agricultural Safety and Health (p. 1140) in the Catalog.

The department collaborates with the Department of Biomedical Engineering (College of Engineering) and the School of Urban and Regional Planning (Graduate College) to offer joint degree programs; see “Joint B.S.E. in Biomedical Engineering/M.S.” and “Joint M.S./M.A. or M.S. in Urban and Regional Planning” below.

Individuals who are not enrolled in one of the department’s degree programs but wish to take courses offered by the department may apply for professional improvement status. The department also offers an occupational medicine residency training program.
Master of Science

The Master of Science program in occupational and environmental health requires a minimum of 38 s.h. of graduate credit. It is offered with two optional subtracks: agricultural safety and health and industrial hygiene. The M.S. with agricultural safety and health subtrack requires a minimum of 40 s.h. of graduate credit; the M.S. with industrial hygiene subtrack requires a minimum of 43 s.h. of graduate credit. All M.S. students are required to complete a thesis.

The M.S. in occupational and environmental health without a subtrack requires the following work.

**CORE COURSES**
Students must complete all of the following courses.

<table>

**ELECTIVES**
Credit earned in elective courses and the thesis completes the 40 s.h. required for the degree. Agricultural safety and health subtrack students must complete elective course work from one of five focus areas. The amount of credit required varies by focus area, as follows.

Industrial hygiene: 9 s.h.
Ergonomics: 9 s.h.
Occupational and environmental health: 9 s.h.
Occupational epidemiology: 9 s.h.
Occupational injury prevention: 8 s.h.

**THESIS**
A thesis is required. Students earn a minimum of 3 s.h. for the thesis.

**M.S. with Subtrack in Agricultural Safety and Health**

The M.S. with subtrack in agricultural safety and health requires a minimum of 40 s.h. of graduate credit. The program prepares students for careers in education, health care, insurance, and agribusiness as specialists in agricultural safety and health.

The M.S. in occupational and environmental health with the agricultural safety and health subtrack requires the following work.

**SUBTRACK CORE**
Students must complete all of the following courses.

**M.S. with Subtrack in Industrial Hygiene**

The M.S. with subtrack in industrial hygiene requires a minimum of 43 s.h. of graduate credit. The program prepares students for careers in industrial hygiene as well as the broad field of occupational and environmental health. Career opportunities are available in health and safety departments of industries; in consulting firms; in academic institutions; and in local, state, and federal public health agencies.

The M.S. in occupational and environmental health with the industrial hygiene subtrack requires the following work.

**SUBTRACK CORE**
Students must complete all of the following courses.

</table>
The program prepares students for professional and environmental health requires 72 s.h. of graduate credit. The Doctor of Philosophy program in occupational and environmental health offers two subtracks: the ergonomics subtrack and the occupational and environmental health subtrack.

**M.P.H. Subtracks**

The Department of Occupational and Environmental Health offers two subtracks for the Master of Public Health: the ergonomics subtrack and the occupational and environmental health subtrack.

The ergonomics subtrack focuses on understanding how workplace environments contribute to musculoskeletal injuries and illness and on control of workplace risk factors. Graduates are prepared to work in industry and government agencies or pursue further academic training.

The occupational and environmental health subtrack provides a broad perspective on public health and career preparation for a variety of professional positions in occupational and environmental health.

For detailed information about the M.P.H. degree, see Master of Public Health Program (p. 1171) in the Catalog.

**Doctor of Philosophy**

The Doctor of Philosophy program in occupational and environmental health requires 72 s.h. of graduate credit. The program prepares students for professional and academic careers in environmental and occupational health. It is offered with two optional subtracks: agricultural safety and health, and industrial hygiene.

All doctoral students must complete a dissertation—a substantial scholarly treatise.

The Ph.D. in occupational and environmental health without a subtrack requires the following work.

**Core Courses**

Students must complete all of the following courses.

<table>

**Admission**

Applicants to the M.S. and Ph.D. programs in occupational and environmental health must apply through the Schools of Public Health Application Service (SOPHAS); they also must apply for admission to the Graduate College through the University of Iowa Office of Admissions. For detailed application information, visit Prospective Students/How to Apply on the Department of Occupational and Environmental Health web site.

The occupational and environmental health faculty takes several factors into consideration when evaluating applications for admission, including Graduate Record Exam (GRE) General Test scores, grade-point averages, letters of recommendation, intent and motivation for graduate study, and research interests. A student with deficiencies in one area may be admitted if all other components of his or her application are very strong.

All M.S. and Ph.D. program applicants must hold a bachelor's degree and have a cumulative g.p.a. of at least 3.00 (M.S. applicants) or at least 3.25 (Ph.D. applicants). All applicants must have taken the Graduate Record Exam (GRE) General Test. A GRE combined verbal and quantitative score of 299 or higher is recommended for applicants to the M.S. program; a combined verbal and quantitative score of 302 or higher is recommended for applicants to the Ph.D. program. For applicants who have not taken the GRE, the department considers scores from other standardized tests, such as the Medical College Admission Test (MCAT).

Applicants whose first language is not English and who do not hold a bachelor's degree from an accredited institution in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score 550-599 (paper-based) or 81-99 (Internet-based) are required to take English fluency courses. Applicants
who score below those ranges are not considered for admission.

Undergraduate preparation for M.S. applicants must include course work in mathematics, biology, chemistry, and either physical sciences or engineering, depending on the applicant’s chosen specialty area.

M.S. applicants who intend to pursue the industrial hygiene subtrack also must have taken physics and mathematics through calculus; course work in biology, microbiology, and computer programming is highly recommended.

Completion of the M.S. program before beginning Ph.D. study is recommended. Undergraduate preparation for doctoral applicants must include at least two semesters of chemistry, one semester of physics, and one semester of calculus. Course work in biology, microbiology, and computer programming is highly recommended, particularly for students interested in some specialized areas.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 888) College section of the Catalog.

Students may enter the department’s graduate programs in the fall. February 1 is the priority application deadline for consideration for financial support; May 1 is the final application deadline.

Financial Support

Several graduate student awards, including tuition and stipend support, are available for individuals interested in industrial hygiene, agricultural safety and health, ergonomics, occupational epidemiology, or occupational injury prevention. Both stipend and tuition support are available for all occupational medicine residents. Full-time graduate students in good academic standing (those not admitted on conditional status) are eligible for a stipend and tuition support. All other students are eligible for tuition support only; requests are considered case-by-case. All recipients must be U.S. citizens or permanent residents.

POSTDOCTORAL POSITIONS

The College of Public Health’s Environmental Health Sciences Training Program offers postdoctoral positions in environmental health/toxicology. Appointments are made for two years with the possibility of an additional year. Applicants must be U.S. citizens or permanent residents.

Residency Program

In cooperation with University of Iowa Hospitals and Clinics, the department offers residency training in occupational medicine for physicians seeking specialty training in occupational medicine. For information contact the director of the Occupational Medicine Residency Program.

Facilities and Resources

The Department of Occupational and Environmental Health is housed in the College of Public Health Building, on the University’s health sciences campus, and at the Institute for Rural and Environmental Health, at the University of Iowa Research Park. College of Public Health-based laboratory facilities give researchers and students access to cutting-edge technologies for the study of occupational and environmental health.

The Inhalation Toxicology Facility provides a full array of inhalation toxicology, aerosol science, and bioaerosol assay services. A primary focus of the facility is the study of toxicants found in the agricultural environment and related exposure situations. The facility is particularly well-equipped for studying organic dusts and bioaerosols.

The Occupational Hygiene Laboratory provides expertise and equipment for exposure assessment in occupational settings. The laboratory offers a range of sample collection capabilities and an extensive inventory of sampling equipment. Field and laboratory services available through the laboratory support exposure-response studies and control technology development studies in a variety of occupational arenas, including agriculture, construction, and indoor environments (home and office).

A computer laboratory is available for student use, and a library collection is located at the Institute for Rural and Environmental Health.

Heartland Center for Occupational Health and Safety

The Heartland Center for Occupational Health and Safety, one of 17 education and research centers funded by the National Institute of Occupational Safety and Health, provides training, education, and outreach. Its program areas are industrial hygiene, occupational medicine, ergonomics, agricultural safety and health, occupational injury prevention research, occupational epidemiology, and continuing education and outreach.

Courses

Current topics in occupational and environmental health; how the United States protects workers, protects people from environmental agents, and reduces environmental harm. Same as 044:174 (GEOG:4130).

175:111 (OEH:4210) International Health 3 s.h.
Urgent health problems in the developing world and among disadvantaged populations in developed countries; biological, social, cultural, political aspects of international health problems; applications of research methods from epidemiology, environmental health, social sciences. Same as 152:111 (GHS:4210), 173:111 (EPID:4210).

175:170 (OEH:4510) Injury and Violence Prevention 3 s.h.
Theory, research, and practice of injury control; unintentional and intentional injuries; local, national, international injury issues. Same as 173:170 (EPID:4510).

175:171 (OEH:7110) Problems in Occupational and Environmental Health arr.
Didactic material in occupational and environmental health; may include tutorial, seminar, faculty-directed independent work (e.g., literature search, project, short research project).

175:172 (OEH:7120) Independent Study in Occupational and Environmental Health arr.
In-depth pursuit of an area in occupational and environmental health requiring substantial creativity and independence.

175:175 (OEH:4520) Research Methods in Disaster Studies 3 s.h.
Epidemiologic study of disasters and their health consequences; research to identify and reduce health effects, research in context of response and preparedness. Same as 173:175 (EPID:4520), 152:195 (GHS:4275).

175:180 (OEH:5010) Occupational and Environmental Health Seminar 0-1 s.h.
Contemporary topics in occupational health, agricultural and comparative medicine, environmental health.

175:182 (OEH:4540) Statistics for Experimenters 3 s.h.
Application of statistical techniques to evaluate data derived from experimental samples designs; use of spreadsheets, statistical software; design and analysis of experiments; regression analysis; model building; practical applications. Same as 053:187 (CEE:4187).

175:185 (OEH:5020) Interpreting Occupational and Environmental Health Research 2 s.h.
Tools necessary for making critical assessment of published scientific research reports from a methodological perspective; examples from recently published research studies in occupational and environmental health. Corequisites: 171:161 (BIOS:5110) and 173:140 (EPID:4400).

175:190 (OEH:4310) Occupational Ergonomics I 2-3 s.h.
Principles of ergonomics, with focus on physical capabilities of workers and their interactions with their work environment; physiological basis of work, patterns of work, occupational risk factors for musculoskeletal and neurovascular disorders, workplace and equipment design, integration of ergonomics in manufacturing processes.

175:192 (OEH:5410) Occupational Safety 3 s.h.
Principles and practices of occupational safety; applications in industrial and other occupational settings; interactions with other disciplines.

175:196 (OEH:4110) Agricultural Safety: Theories and Practice 2 s.h.
General theories and practice of injury prevention from varied fields, including industrial safety, engineering, regulation, education, epidemiology, social psychology; strategic application in agriculture.

175:197 (OEH:4240) Global Environmental Health 3 s.h.
Environmental health comprised of aspects of human health determined by interactions with physical, chemical, biological, and social factors in global environment; worldview and survey; focus on issues most relevant today; sustainability; air, water, and soil pollution and remediation; occupational health; injury prevention; food safety and security; risk assessment; environmental health policy.

175:198 (OEH:4920) Solid and Hazardous Wastes 3 s.h.

175:201 (OEH:7130) Research in Occupational and Environmental Health arr.
Research that may lead to a dissertation.

175:203 (OEH:7140) Preceptorship in Occupational and Environmental Health arr.
Work experience using knowledge and skills acquired in the classroom; arranged in conjunction with departmental or collegiate activities or with governmental agencies or private industry.

175:209 (OEH:6110) Rural Health and Agricultural Medicine 3 s.h.
Clinical orientation of specific health problems of rural residents, agricultural workers; rural health care delivery, socioeconomic issues in agriculture and their effects on health and safety of the agricultural population; occupational health problems, environmental health hazards in rural areas. Requirements: enrollment in College of Public Health or health sciences.

175:210 (OEH:6120) Current Topics in Agricultural Health 0-1 s.h.
Issues that affect the health of agricultural populations, such as agro-terrorism, antibiotic resistance, genetically modified organisms; current scientific literature.

175:211 (OEH:5120) Veterinary Public Health: The Profession 1 s.h.
History and overview of veterinary public health and the American College of Veterinary Preventive Medicine (ACVPM); preparation for ACVPM board of certification.

175:220 (OEH:6510) Environmental and Occupational Epidemiology 3 s.h.
Overview of methods to interpret and perform environmental and occupational epidemiologic studies with focus on exposure assessment; valuable insights into identifying regional, national, global environmental, and occupational health-related issues. Prerequisites: 173:140 (EPID:4400). Same as 173:220 (EPID:6200).

175:221 (OEH:6450) Aerosol Technology 3 s.h.
Particle statistics and physics of aerosols, including inertia, diffusion, nucleation, evaporation, condensation, optics, electrical properties; relationship to fields such as agriculture, nanotechnology, environmental and occupational health, atmospheric chemistry, drug delivery.

175:230 (OEH:5620) Occupational Health 3 s.h.
Principles, practice of occupational medicine, fundamentals of industrial hygiene and safety, occupational health management, ergonomics, occupational health nursing. Offered fall semesters.

175:231 (OEH:6420) Industrial Hygiene Fundamentals 3 s.h.
Principles, with emphasis on recognition of chemical health hazards, physical health hazards at work. Corequisites: 175:230 (OEH:5620), if not taken as a prerequisite.

175:232 (OEH:6430) Assessing Physical Agent Hazards 3 s.h.
Basic principles of recognizing and evaluating hazards presented by physical agents in occupational environments. Prerequisites: 175:231 (OEH:6420).

175:233 (OEH:6440) Control of Occupational Hazards 3 s.h.
Physical science concepts applied to control of occupational hazards ranging from dusts to mists to vapors; strategies, management issues, personal protective equipment; implementation skills; in-depth instruction on local exhaust ventilation system design. Prerequisites: 175:231 (OEH:6420).

175:234 (OEH:6460) Quantitative Exposure Assessment: Study Design and Evaluation 3 s.h.

175:251 (OEH:6520) Injury Epidemiology 3 s.h.
How epidemiology can be applied to injury prevention and control: epidemiology literature, specific methodological problems involved in the epidemiology of injuries; critical evaluation of research articles. Offered spring semesters of odd years. Prerequisites: 173:140 (EPID:4400). Same as 173:251 (EPID:6510).

175:252 (OEH:4220) U.S. and Global Environmental Health Policy 3 s.h.

175:253 (OEH:6530) Epidemiology of Occupational Injuries 3-4 s.h.
Epidemiological literature on occupational injuries and their prevention; focus on research methods. Offered spring semesters of even years. Prerequisites: 173:140 (EPID:4400). Same as 173:253 (EPID:6530).

175:260 (OEH:5810) Environmental Toxicology 3 s.h.
Sources, routes of absorption, effects of environmental toxicants affecting man; pathophysiology of toxicant actions, including those of air and water pollutants, metals, pesticides, solvents, food toxicants, chemicals. Requirements: college chemistry or physiology or biochemistry.

175:265 (OEH:6720) Advanced Toxicology 4 s.h.
Hepatic metabolism and toxification mechanisms, pulmonary and immunotoxicology, nervous system poisons and their mechanisms of action, general and molecular concepts of chemical carcinogenesis. Prerequisites: 175:260 (OEH:5810).

175:285 (OEH:6610) Advanced Topics in Occupational Medicine 2 s.h.
Skills and knowledge for evaluating and treating patients with work-related illness.

175:294 (OEH:6320) Occupational Ergonomics II 3 s.h.
Application of ergonomic principles in varied work settings, through case study approach; participatory ergonomics, economics of ergonomics, workforce issues, psychosocial factors, shift work, integration of ergonomics into business models, current legislative issues, legal aspects of ergonomics, international perspectives; biomedical instrumentation used for risk factor exposure measurements.

175:295 (OEH:6310) Clinical Ergonomics 3 s.h.
Clinical orientation to specific ergonomic problems and issues; preparation for conducting independent on-site ergonomic evaluations in occupational settings; experience developing and evaluating ergonomic inventions in an occupational setting; rotation through an occupational medicine clinic. Prerequisites: 175:190 (OEH:4310).

175:996 (OEH:8610) Occupational Medicine arr.
In-depth study of an area in occupational and environmental medicine, with clinical experience in an outpatient community setting. Four-week course. Requirements: M.D. enrollment.

Web site: http://uc.uiowa.edu/

University College is home to a wide range of programs for University of Iowa students and precollege students. It includes major college-level programs such as the University of Iowa Honors Program, Study Abroad, Career Center Programs, and study at Iowa Lakeside Laboratory.

University College offers programs leading to the Bachelor of Applied Studies (B.A.S.) degree and the Bachelor of Liberal Studies (B.L.S.) degree. Both programs enable students to complete a bachelor’s degree by distance education. The B.A.S., which is designed for graduates of community college technical programs, provides alternatives to traditional academic majors, permitting students to plan their own emphasis areas in consultation with their advisors. The B.L.S. is a general undergraduate degree without a traditional academic major; students work with their advisors to plan study programs that meet their individual objectives.

The college also offers undergraduate certificate programs in human rights, leadership studies, nonprofit management, and sustainability.

Some University College programs are designed to smooth entering students’ transition to college life, such as College Success Initiatives and First-Year Programs, or to provide opportunities for populations underrepresented in the sciences and engineering, such as Iowa Biosciences Advantage.

Lifetime Leisure Skills courses in a broad range of sport and fitness activities are offered through University College, as are special courses for student orientation advisors, residence hall assistants, fraternity and sorority community leaders, and students who design web sites for University departments and offices.

The University’s Reserve Officer Training Corps programs, Aerospace Studies (Air Force ROTC) and Military Science (Army ROTC), reside in University College.

In addition, University College offers courses in several precollege programs: the Belin-Blank Center for Gifted Education, the Center for Diversity & Enrichment, the Iowa Young Writers’ Studio, the Secondary Student Training Program, and University of Iowa Upward Bound.

Courses offered through University College programs are taught by University of Iowa faculty and staff members.

College-Level Programs

Aerospace Studies (Air Force ROTC) (p. 1186)
Bachelor of Applied Studies (p. 1188)
Bachelor of Liberal Studies (p. 1191)
Career Center Programs (p. 1195)
College Success Initiatives (p. 1200)
First-Year Programs (p. 1201)
Human Rights (p. 1202)
Intercollegiate Athletic Participation (p. 1205)
Iowa Biosciences Advantage (p. 1206)
Iowa Lakeside Laboratory (p. 1207)
Leadership Studies (p. 1211)
Lifetime Leisure Skills (p. 1216)
Military Science (Army ROTC) (p. 1219)
Nonprofit Management (p. 1222)
Orientation Training (p. 1223)
Patient Care Practicum (p. 1224)
Student Information Technology Skills (p. 1226)
Student Services (p. 1227)
Study Abroad (p. 1228)
Sustainability (p. 1242)
Undergraduate Research Experiences (p. 1245)
University Libraries (p. 1246)
University of Iowa Honors Program (p. 1247)

Precollege Programs

Belin-Blank Center for Gifted Education (p. 1193)
Center for Diversity & Enrichment (p. 1199)
Iowa Young Writers’ Studio (p. 1210)
Secondary Student Training Program (p. 1225)
University of Iowa Upward Bound (p. 1252)
Aerospace Studies (Air Force ROTC)

**Director**
- Lt. Col. Rick A. Spyker

**Assistant professor**
- Capt. Anthony Clark

**Web site:** http://www.uiowa.edu/~afrotc/

The Aerospace Studies Program administers the Air Force Reserve Officer Training Corps (AFROTC) at The University of Iowa. AFROTC prepares highly qualified students who are working toward a degree for commissions as officers in the United States Air Force.

AFROTC is voluntary, with courses open to all undergraduate and graduate students. The amount of AFROTC academic credit that may be applied toward a degree varies from college to college at the University. The College of Liberal Arts and Sciences, for example, accepts a maximum of 20 s.h.

In order to receive a commission, AFROTC cadets must complete all University of Iowa degree requirements as well as courses specified by the U.S. Air Force.

**Programs**

AFROTC offers programs lasting three or four years. Joining early gives students the opportunity to try AFROTC without obligation. It also can give them an advantage in the scholarship selection process.

The AFROTC program’s three main components are the general military course (GMC), the professional officer course (POC), and field training (FT).

**General Military Course**

The general military course (GMC) consists of one AFROTC course (1 s.h.) and a leadership laboratory taken each semester for two years. Any student who meets AFROTC qualifications and is in good academic standing is eligible to participate in the GMC. Students normally apply for the GMC up to the time they earn 60 s.h. Students who have earned more than 60 s.h. may enroll in the GMC if they are willing to extend their academic plan by a semester or more.

**Professional Officer Course**

The professional officer course (POC) consists of one AFROTC course (3 s.h.) and a leadership laboratory taken each semester for two years. Students accepted into the POC make a commitment to serve a minimum of four years as U.S. Air Force officers. To enter the POC, students must be selected to attend and must successfully complete field training. Students generally take the POC during their last 60 s.h.

**Field Training**

All POC applicants must successfully complete field training at a U.S. Air Force base. Field training is an intensive, four-week program completed the summer after the sophomore year. It provides a first-hand look at the active duty Air Force and develops military leadership and discipline. Students participate in aircraft and aircrew orientation, junior officer education, marksmanship, survival training, and physical fitness training. When they complete the program, they are ready to return to school and assume a leadership position in the AFROTC program.

Students receive authorized pay and allowances when they attend field training.

**Activities**

Students have the option to compete for acceptance to a variety of optional AFROTC summer training programs. They may shadow a junior officer in a career field of interest, or they may compete to attend the Air Force Academy’s free-fall parachute, glider, or combat survival schools. Students may return to field training as cadet training assistants, go to the Pentagon to see how the Air Force operates, or travel to a foreign country for a cultural immersion program. The Air Force provides transportation, meals, lodging, and a daily expense allowance for all summer programs.

Throughout the year, students may learn more about the Air Force by choosing to participate in base visits, aircraft orientation rides, a Dining Out (a formal ball in Air Force tradition), and other activities.

The AFROTC Cadet Corps also sponsors community service projects, intramural athletics, and social events, including formal and informal dinners.

**Education Delay**

Cadets may request an education delay to postpone entry to active duty until after completion of an advanced degree or professional training program.

**Financial Aid**

Merit scholarships are available for two and three years of study. They provide varying awards for tuition and fees, a $900 stipend for books, and a monthly tax-free subsistence allowance. Applicants are selected based on objective and subjective factors. Students should apply directly to the head of aerospace studies.

Nonscholarship cadets in the last two years of AFROTC are eligible for some financial assistance. They receive a tax-free subsistence allowance per month. Uniforms are furnished as well as all books for AFROTC classes.

**Courses**

23A:010 (AERO:1100) Foundations of the U.S. Air Force I 1 s.h.

Introduction to U.S. Air Force: military customs and courtesies, basic oral and written communication techniques, careers available to Air Force officers. Requirements: first-year or sophomore standing.

23A:011 (AERO:1150) AFROTC Leadership Laboratory (LLAB) AS 100-FA 1 s.h.
A progression of experiences designed to develop leadership ability; military customs and courtesies, drill and ceremonies, military professional development, the life and work of a junior officer; leadership skills in a practical, supervised military lab setting. Offered fall semesters. Corequisites: 23A:010 (AERO:1100). Requirements: first-year or sophomore standing.

23A:012 (AERO:1200) Foundations of the U.S. Air Force II
1 s.h.
Continuation of 23A:010 (AERO:1100); leadership theory and practice, team building, diversity in the work force. Requirements: first-year or sophomore standing.

23A:013 (AERO:1250) AFROTC Leadership Laboratory (LLAB) AS 100-SP
1 s.h.
A progression of experiences designed to develop leadership ability; military customs and courtesies, drill and ceremonies, military professional development, the life and work of a junior officer; leadership skills in a practical, supervised military lab setting. Offered spring semesters. Corequisites: 23A:012 (AERO:1200). Requirements: first-year or sophomore standing.

23A:020 (AERO:2100) Evolution of USAF Air and Space Power I
1 s.h.
Air power from Civil War hot air balloons through World War II; emphasis on developments in U.S. Air Force.

23A:021 (AERO:2150) AFROTC Leadership Laboratory (LLAB) AS 200-FA
1 s.h.

23A:022 (AERO:2200) Evolution of USAF Air and Space Power II
1 s.h.
Continuation of 23A:020 (AERO:2100); air power from post-World War II to present; emphasis on developments in U.S. Air Force.

23A:023 (AERO:2250) AFROTC Leadership Laboratory (LLAB) AS 200-SP
1 s.h.

23A:130 (AERO:3100) Air Force Leadership Studies I
3 s.h.
Emphasis on management, leadership, communication skills required of an Air Force officer. Requirements: junior or higher standing.

23A:131 (AERO:3150) AFROTC Leadership Laboratory (LLAB) AS 300-FA
1 s.h.

23A:132 (AERO:3200) Air Force Leadership Studies II
3 s.h.
Continuation of 23A:130 (AERO:3100); leadership topics in counseling, accountability, ethics. Requirements: junior or higher standing.

23A:133 (AERO:3250) AFROTC Leadership Laboratory (LLAB) AS 300-SP
1 s.h.
Bachelor of Applied Studies

Coordinators
• Nancy Romine, Jared S. Trullinger, Destiny L. Wallace

Undergraduate major: Bachelor of Applied Studies (B.A.S.)

Undergraduate Program of Study
• Bachelor of Applied Studies
The Bachelor of Applied Studies (B.A.S.) is designed for graduates of community colleges who wish to complete a bachelor’s degree by distance education. The B.A.S. is a general undergraduate degree without a traditional academic major, but students have the option to include a certificate or an emphasis area in their program or to design an individual program. B.A.S. students may not earn minors.

Working with their academic advisors, B.A.S. students may plan programs designed to advance their careers, begin new careers, or prepare for graduate or professional study. Students who have specific career goals or advanced degree programs in mind should learn what educational background they will need in order to achieve their goals, and they should include appropriate course work in their B.A.S. programs.

Students may earn credit toward the degree through several types of courses, including Division of Continuing Education on-campus courses, web-based independent study courses, semester-based web courses, extension courses at sites throughout Iowa, and regular session courses.

Individuals interested in applying to the B.A.S. program should hold an A.A.S., an A.A., or an A.S. degree; see “Admission” below for more detailed admission requirements.

The B.A.S. is awarded by University College and is administered by the Division of Continuing Education.

Bachelor of Applied Studies
The Bachelor of Applied Studies requires a minimum of 120 s.h. and is intended to be completed entirely by distance education. Students must earn at least 30 s.h. of credit toward the degree in University of Iowa courses after admission to the B.A.S. program. They must earn at least 60 s.h. of the minimum 120 s.h. at four-year colleges, including 45 s.h. in course work defined as upper level.

The University is in the process of revising its course numbering system. Under the current system, University of Iowa courses are considered upper level if they are numbered 100 and above. Some courses numbered below 100 may be considered upper level for the B.A.S.; for a list of these courses, contact the Division of Continuing Education. Under the new system, University of Iowa courses numbered 3000-4999 will be considered upper level for the B.A.S.

The program of study requires that students complete 12 s.h. in three of the following five distribution areas (total of 36 s.h.). In each distribution area, 6 of the required 12 s.h. must be earned in upper-level courses.

Humanities (e.g., literature, history, philosophy, religion)
Communication and arts (e.g., journalism, speech, drama, art, music)
Natural sciences and mathematics (e.g., geology, biology, statistics, computer science)
Social sciences (e.g., geography, psychology, economics, political science, anthropology)
Professional fields (e.g., business, education, nursing, social work, library science)

Students must maintain a cumulative g.p.a. of 2.00 or higher in all course work attempted, work undertaken at The University of Iowa, and all upper-level course work.

All University College policies regarding pass/nonpass and satisfactory/fail grading, academic standards, and so forth apply to B.A.S. students.

Optional Certificate or Emphasis Area
Students may include a certificate or an emphasis area in their B.A.S. programs, or they may design an interdisciplinary focus area. Certificates and emphasis areas are noted on students’ transcripts.

CERTIFICATE IN ENTREPRENEURIAL MANAGEMENT
The Certificate in Entrepreneurial Management is offered by the Tippie College of Business. It requires 18-20 s.h. Courses are offered online. See Entrepreneurial Management (p. 650) (Tippie College of Business) in the Catalog or contact the Tippie College of Business for details.

CERTIFICATE IN NONPROFIT MANAGEMENT
The Certificate in Nonprofit Management is offered by University College in collaboration with Distance Education and the Larned A. Waterman Iowa Nonprofit Resource Center. The certificate requires 18 s.h. Courses are offered primarily online. See Nonprofit Management (p. 1222) (University College) in the Catalog or contact the Division of Continuing Education for details.

CERTIFICATE IN PUBLIC HEALTH
The Certificate in Public Health (p. 1146) is offered by the College of Public Health and is designed primarily for individuals working in public health practice and for those considering public health careers. The certificate requires 12 s.h. Courses are offered online. Applicants must have substantial relevant work experience. Contact the College of Public Health for details.

CREATIVE WRITING EMPHASIS AREA
The creative writing emphasis area requires 18 s.h. It provides students with an understanding of the multiple facets of written communication. The emphasis area requires the following course work.

All of these:
08A:080 (ENNM:2100) Nonfiction Writing for Non-English Majors
08C:023 (CW:1810) Creative Writing

Three of these:
JUSTICE STUDIES EMPHASIS AREA

The justice studies emphasis area requires 18 s.h. It focuses on human development, personality theory, interpersonal and group communication, multiculturalism, professional ethics, and the development of helping skills. The emphasis area requires the following course work.

At least three of these:

- 07C:194 (RCE:4194) Interpersonal Effectiveness 3 s.h.
- 07C:197 (RCE:4197) Citizenship in a Multicultural Society 3 s.h.
- 07C:199 (RCE:4199) Counseling for Related Professions 3 s.h.

At least four of these:

- 07C:185 (RCE:4185) Introduction to Substance Abuse 3 s.h.
- 07C:194 (RCE:4194) Interpersonal Effectiveness 3 s.h.
- 030:108 (POLI:3104) Immigration Politics 3 s.h.
- 034:184 (SOC:4450) Juvenile Justice: A Socio-legal Perspective 3 s.h.
- 034:186 (SOC:3450) Criminal Legal System 3 s.h.

For additional details about the emphasis area and related careers, see the justice studies emphasis page on the Bachelor of Applied Studies web site.

HUMAN RELATIONS EMPHASIS AREA

The human relations emphasis area requires 18 s.h. It focuses on human development, personality theory, interpersonal and group communication, multiculturalism, professional ethics, and the development of helping skills. The emphasis area requires the following course work.

All of these:

- 07C:194 (RCE:4194) Interpersonal Effectiveness 3 s.h.
- 07C:197 (RCE:4197) Citizenship in a Multicultural Society 3 s.h.
- 07C:199 (RCE:4199) Counseling for Related Professions 3 s.h.

At least three of these:

- 07C:162 (RCE:4162) Introduction to Couple and Family Therapy 3 s.h.
- 07C:174 (RCE:4174) Positive Psychology 3 s.h.
- 07C:176 (RCE:4176) Child Abuse: Assessment, Intervention, and Advocacy 3 s.h.
- 07C:178 (RCE:4178) Microcounseling 1-3 s.h.
- 07C:179 (RCE:4179) Sexuality Within the Helping Profession 3 s.h.
- 07C:180 (RCE:4180) Topical Seminar for Helping Professionals arr.
- 07C:185 (RCE:4185) Introduction to Substance Abuse 3 s.h.
- 07E:114 (EDTL:3114) Parent-Child Relationships 3 s.h.
- 042:112 (SSW:3712) Human Sexuality, Diversity, and Society 3 s.h.

For additional details about the emphasis area and related careers, see the human relations emphasis page on the Bachelor of Applied Studies web site.

POLITICAL SCIENCE EMPHASIS AREA

The political science emphasis area requires 18 s.h. It focuses on the United States’ political role in shaping social and public policy worldwide and on the interplay between foreign and domestic politics. The emphasis area requires the following course work.

Two of these:

- 030:001 (POLI:1100) Introduction to American Politics 3 s.h.
- 030:043 (POLI:1403) Introduction to Politics in the Muslim World 3 s.h.
- 030:045 (POLI:1405) Introduction to Comparative Politics 3 s.h.
- 030:050 (POLI:1200) Introduction to Political Behavior 3 s.h.
- 030:060 (POLI:1500) Introduction to International Relations 3 s.h.
- 030:061 (POLI:1501) Introduction to American Foreign Policy 3 s.h.

At least four of these:

- 030:108 (POLI:3104) Immigration Politics 3 s.h.
- 030:110 (POLI:3123) State Politics in Iowa 3 s.h.
- 030:111 (POLI:3110) Local Politics 3 s.h.
- 030:113 (POLI:3100) American State Politics 3 s.h.
- 030:115 (POLI:3116) The Presidency 3 s.h.
- 030:119 (POLI:3150) Problems in American Politics 1-3 s.h.
- 030:125 (POLI:3118) Interest Groups 3 s.h.
- 030:126 (POLI:3111) American Public Policy 3 s.h.
- 030:152 (POLI:3102) The U.S. Congress 3 s.h.
- 030:177 (POLI:3504) Globalization 3 s.h.

For additional details about the emphasis area and related careers, see the political science emphasis page on the Bachelor of Applied Studies web site.

Admission

Individuals who wish to earn a B.A.S. must apply formally for admission to the program. Prospective students should contact the Division of Continuing Education before they apply.

The B.A.S. is designed for students who need to earn a bachelor’s degree by distance education. Individuals who have access to the full range of the University’s on-campus daytime classes should seek admission to the College of Liberal Arts and Sciences in order to earn a degree with a major. The interdepartmental studies major allows students to tailor a degree program to their individual interests (see Interdepartmental Studies (p. 377) in the Catalog).

Applicants to the B.A.S. program must have earned an Associate of Applied Science (A.A.S.) degree, an Associate of Arts (A.A.), or an Associate of Science (A.S.) from a community college that participates in the Iowa Community College/Regents Articulation Agreement or from a regionally accredited community college. They must have a minimum of 60 s.h. of approved transfer
credit. Applicants who graduated from an Iowa community college must have a cumulative g.p.a. of at least 2.00; those who graduated from a community college outside Iowa must have a cumulative g.p.a. of at least 2.50.

The program recommends that B.A.S. applicants complete the following B.A.S. minimum core requirements before entering the program.

Rhetoric (course work equivalent to composition I, composition II, and speech)
Quantitative or formal reasoning (3 s.h.)
Social sciences (3 s.h.)
Values, society, and diversity (3 s.h.)
Business/management (6 s.h.)

See a B.A.S. advisor for a list of other acceptable courses.

Contact the Division of Continuing Education for more information about the B.A.S. program.
Bachelor of Liberal Studies

Coordinators
- Nancy Romine, Jared S. Trulinger, Destiny Wallace

Undergraduate major: Bachelor of Liberal Studies (B.L.S.)

Undergraduate Program of Study
- Bachelor of Liberal Studies
The Bachelor of Liberal Studies (B.L.S.) is designed for students who wish to complete a bachelor’s degree by
distance education. The B.L.S. is a general undergraduate
degree without a traditional academic major. Students
work with their academic advisors to structure programs
that meet their individual objectives.

B.L.S. students may plan programs designed to advance
their careers, begin new careers, or prepare for graduate
or professional study. Students who have specific career
goals or advanced degree programs in mind should learn
what educational background they will need in order to
achieve their goals, and they should include appropriate
course work in their B.L.S. programs.

Students may earn credit toward the degree through
several types of courses, including Division of Continuing
Education on-campus courses, web-based Guided
Independent Study courses, semester-based web courses,
extension courses at sites throughout Iowa, and regular
session courses. Courses from any of the three Board
of Regents, State of Iowa, universities may be applied
toward the degree, as may appropriate courses from other
accredited institutions.

B.L.S. students may not earn minors, but they may include
certificates in their degree programs.

For application information, see "Admission" below.

The B.L.S. is awarded by University College and is
administered by the Division of Continuing Education.

Bachelor of Liberal Studies
The Bachelor of Liberal Studies requires a minimum of 120
s.h. and is intended to be completed entirely by distance
education. Students must earn at least 30 s.h. of credit
toward the degree in University of Iowa courses after
admission to the B.L.S. program. They must earn at least
60 s.h. of the minimum 120 s.h. at four-year colleges,
including 45 s.h. in course work defined as upper level.

The University is in the process of revising its course
numbering system. Under the current system, University
of Iowa courses are considered upper level if they are
numbered 100 and above. Some courses numbered below
100 may be considered upper level for the B.L.S.; for a
list of these courses, contact the Division of Continuing
Education. Under the new system, University of Iowa
courses numbered 3000-4999 will be considered upper-
level for the B.L.S.

B.L.S. students are required to complete the College of
Liberal Arts and Sciences General Education Program (p.
306).

Students complete at least 12 s.h. of credit in three of the
following five distribution areas (total of at least 36 s.h.).
In each distribution area, 6 of the required 12 s.h. must be
earned in upper-level courses.

- Humanities (e.g., literature, history, philosophy, religion)
- Communication and arts (e.g., journalism, speech, drama,
  art, music, writing)
- Natural sciences and mathematics (e.g., geology, biology,
  statistics, computer science)
- Social sciences (e.g., geography, psychology, economics,
  political science, anthropology)
- Professional fields (e.g., business, education, nursing,
  social work, library science)

Students must maintain a cumulative g.p.a. of 2.00 or
higher in all course work applied toward the degree, all
course work completed after admission to the program,
and all upper-level course work.

All College of Liberal Arts and Sciences policies regarding
pass/nonpass and satisfactory/fail grading, academic
standards, and so forth apply to B.L.S. students. See the

Admission
Individuals who wish to earn a B.L.S. must apply formally
for admission to the program. Prospective students should
contact the Division of Continuing Education before they
apply.

The B.L.S. is designed for students who need to earn a
bachelor’s degree by distance education. Individuals who
have access to the full range of the University’s on-campus
daytime classes should seek admission to the College
of Liberal Arts and Sciences in order to earn a degree with a
major.

B.L.S. application requirements vary depending on
educational background.

New applicants to The University of Iowa must have 60 s.h.
of approved transfer credit and a cumulative g.p.a. of at
least 2.50. They also must have satisfied the following high
school course requirements: four years of English/language
arts, two years of a single foreign language, three years of
science, three years of social studies, two years of algebra,
and one year of geometry.

Former University of Iowa students applying for reentry
must have a total of 60 s.h. of University of Iowa and
approved transfer credit and a g.p.a. of at least 2.00 on all
University of Iowa course work or all college course work
completed.

Applicants who hold an Associate of Arts (A.A.) degree
from an Iowa community college or from Waldorf College
must have a g.p.a. of at least 2.25 and are considered to
have satisfied all General Education Program requirements
except foreign language.

Applicants who hold an A.A. from Black Hawk College
(Illinois) must have a g.p.a. of at least 2.25 and are
considered to have satisfied all General Education Program
requirements except foreign language.

Applicants who hold an A.A. from another institution must
have 60 s.h. of approved transfer credit and a cumulative
g.p.a. of at least 2.50. They also must have satisfied the
following high school course requirements: four years
of English/language arts, two years of a single foreign language, three years of science, three years of social studies, two years of algebra, and one year of geometry. Transfer credit is evaluated course by course.

Contact the Division of Continuing Education for more information about the Bachelor of Liberal Studies.
Belin-Blank Center for Gifted Education

**Director**
- Susan Assouline

**Web site:** http://www.education.uiowa.edu/belinblank/

The Connie Belin & Jacqueline N. Blank International Center for Gifted Education and Talent Development is dedicated to serving the needs of the gifted community at local, national, and international levels. It offers programs for preservice and inservice educators, including the State of Iowa Talented and Gifted Endorsement. Its online and on-campus courses and workshops on gifted education support the professional development of educators worldwide.

The center is home to the Assessment and Counseling Clinic, the Institute for Research and Policy on Acceleration, and the National Institute for Twice Exceptionality. The center also administers the College of Education’s Honors Opportunity Program, through which qualified undergraduate students in education work toward graduation with collegiate honors.

For more information about the center and its programs, contact the Belin-Blank Center or visit its web site.

**Precollege Programs**

The Belin-Blank Center offers a wide variety of programs for precollege students. The Exceptional Student Talent Search (grades 2-9) helps determine talented students’ academic abilities and needs. Outreach programs include Invent Iowa (grades K-12), which encourages students to think about and solve problems through invention, and Scholastic Arts and Writing Awards (grades 7-12), which recognize achievement in the literary, visual, and performing arts.

The Junior Science and Humanities Symposium (grades 9-12) engages students in original research and experimentation in the STEM fields (science, technology, engineering, and math). Students present the results of their research to a panel of judges and an audience of their peers at the Iowa Regional Junior Science and Humanities Symposium. The top two presenters are invited to present at the national symposium.

The National Academy of Arts, Sciences, and Engineering (grade 12) gives high-achieving students the opportunity to enroll at The University of Iowa before they finish high school. To enter the program, students must have completed grade 11 or the equivalent. The program is open to high-ability students worldwide.

The center’s academic year nonresidential programs include Challenge Saturdays (grades 3-8), which offers half-day Saturday classes in Iowa City and in Des Moines, Iowa, for high-ability students and for Belin-Blank Exceptional Student Talent Search members; and the Weekend Institute for Gifted Students (grades 3-8), which offers three-hour Saturday classes in Iowa City and in Council Bluffs, Iowa, for high-ability students. Challenges for Elementary School Students (grades 2-6) is a nonresidential summer program for Belin-Blank Exceptional Student Talent Search members that offers two weeks of half-day classes in Iowa City and Des Moines.

The Belin-Blank Center also offers the following residential programs, which are held on the University of Iowa campus during summer. Students in each program participate in cultural and recreational activities and have access to the University’s libraries, computer facilities, and study areas. Housing and meals are provided at the University’s residence halls.

**Blank Summer Institute**

The Blank Summer Institute for the Arts & Sciences (BSI) is a one-week program that provides an intensive, advanced educational experience designed to enhance exceptionally talented students’ intellectual and social growth. The BSI study plan complements the regular school curriculum. Students choose one of eight courses that explore advanced science, math problem solving, social sciences, creative writing, invention and innovation, visual arts, performing arts, and global and cultural studies.

To be eligible for BSI, students must be Iowa residents, must be completing grade 7 or 8, and must be nominated by their schools. Students selected for BSI receive a Myron and Jacqueline Blank Summer Scholarship to cover part of the institute’s cost.

**China and Hong Kong Scholars**

The China and Hong Kong Scholars Program is a Belin-Blank Center partnership that brings high-ability students from China and Hong Kong to The University of Iowa to sample life as university students during the summer before their senior year of high school. The scholars take classes and engage in recreational and social activities on campus. Some of the students may be admitted to the University once they have completed high school in their home countries.

**Iowa Talent Project**

The Belin-Blank Center collaborates with the Des Moines and Cedar Rapids, Iowa, school districts through the Iowa Talent Project (ITP) to identify talented and gifted students from underrepresented populations who are taking Advanced Placement (AP) courses as they progress through secondary school. ITP participants attend a residential summer program at The University of Iowa that focuses on college preparation. They also complete AP courses and take at least three AP exams. Upon finishing high school, successful ITP students are admitted to The University of Iowa. Many earn an Iowa Talent Project scholarship.

**Junior Scholars Institute**

The Junior Scholars Institute (JSI) is a one-week program in which students take a single advanced course for the entire week. Students choose from courses on subjects ranging from creative writing to engineering to the arts.

JSI is open to students from around the world. To be eligible, students must be completing grade 6, 7, or 8. They may nominate themselves and must submit a nomination packet. Students selected for JSI receive a scholarship to cover part of the institute’s cost.

**National Scholars Institute**

The National Scholars Institute (NSI) is a one-week program that provides an advanced educational
experience designed to enhance the development of
talent. Students enroll in one advanced-level course,
choosing from math, science, visual arts, creative writing,
leadership, and other subjects.

NSI is open to students from around the world. To be
eligible for the institute, students must be completing
grade 9, 10, or 11 and must submit a nomination packet.
Students selected for the institute receive a scholarship to
cover part of the institute’s cost.

Secondary Student Training Program

Students in grades 10-11 may nominate themselves for
the Secondary Student Training Program (SSTP), a six-week
residential summer research program at the University
of Iowa. SSTP students conduct scientific research in
University laboratories under the guidance of a faculty
mentor. See Secondary Student Training Program (p. 1225)
in the Catalog to learn more.
Career Center Programs

**Director**
- David Baumgartner

**Web site:** [http://www.careers.uiowa.edu/](http://www.careers.uiowa.edu/)

The University of Iowa Marvin A. and Rose Lee Pomerantz Career Center administers the University’s Career Center Programs. The center helps students explore and plan careers, search for employment and internship opportunities, and prepare for interviews. Students may use the Pomerantz Career Center’s services at any time during their academic careers, but the center encourages entering first-year and transfer students to visit after they arrive on campus and to make use of all of the center’s services throughout their study at Iowa.

The center offers online workshops throughout the year on a variety of topics, including résumé writing, job and internship search techniques, employer research, interviewing skills, and more. It hosts several career fairs each fall and spring, offering students the opportunity to talk with and learn about prospective employers.

The Pearson Library contains career-related books, periodicals, and online resources—some broad in scope, others targeted to specific careers or jobs. Employer recruiting brochures join information on salaries, geographical cost of living, resources for jobs and internships, graduate schools, and other topics.

The Pomerantz Career Center facilitates job and internship interviewing with a wide range of employers: regional, national, and international; profit and nonprofit; state and federal government. Employers conduct on-campus interviews at specific times during the year, and many post immediate openings year-round for internships and for full-time positions. On-campus recruiting and job postings are available on the center’s web site. The center also offers career-related courses.

The center helps students find internships in Iowa, the Midwest, nationwide, and sometimes in other countries. For a list of discipline-related internships (all require course registration), see "Internships" under “Courses” below.

For more information about the center’s services and facilities, contact the Pomerantz Career Center.

## Courses

### Career Exploration

**409:051 [CCP:1301] Communication for the Workplace**
- 1 s.h.

How effective verbal and written communication is utilized in the workplace; how email and social media communication is used at work; appropriate ways to utilize assertiveness skills; development of refined presentation skills necessary for the workplace; hands-on, skills-based learning environment.

Requirements: sophomore or higher standing.

### 409:052 [CCP:1302] Office Etiquette for the Workplace**
- 1 s.h.

How professionalism and work ethic is demonstrated in the workplace; time management and organization skills relevant to full-time employment; succeeding in multigenerational workplaces; hands-on, skills-based learning environment.

Requirements: sophomore or higher standing.

**409:053 [CCP:1303] Successful Teamwork for the Workplace**
- 1 s.h.

Demonstration of problem solving and self-awareness skills relevant to the workplace; application of listening and critical thinking skills; how to perform with a global mindset in the workplace; hands-on, skills-based learning environment.

Requirements: sophomore or higher standing.

**409:054 [CCP:1304] “Suit Camp” for the Job Search**
- 1 s.h.

Basic needs for finding full-time employment; creating and polishing a résumé, techniques for interviewing and networking, developing a personal job search plan; “boot camp” style, skills-based experience; for students thinking about graduation and wanting to get serious about a job search.

Requirements: sophomore or higher standing.

**409:055 [CCP:1305] Social Media for Your Job Search**
- 1 s.h.

Effective use of social media for networking as part of preparing for a job search; efficient identification and utilization of online tools (e.g., LinkedIn, Twitter); building a professional online presence; creating a plan for utilizing social networks for an entry-level job search.

**409:057 [CCP:2001] Graduate Admissions 101**
- 1 s.h.

Preparation for graduate school application and admissions process; graduate entrance examinations, how to select a graduate program, graduate school applications and personal statements, securing a graduate assistantship, and graduate school interviews.

- 1 s.h.

Beginner’s guide to international employment: how to conduct an international job search, applying and interviewing for work abroad, using the Internet to your advantage, networking domestically, using United States resources in seeking foreign employment, what to expect in the foreign workplace.

- 2-3 s.h.

How to conduct successful job search; résumé development, interviewing, networking, branding, job search strategies; develop career management plan.

**409:110 [CCP:1300] Career Exploration**
- 2 s.h.

Helps students identify their interests, skills, and values relative to majors and careers; self-assessment, information interviews, research on majors and careers, site visits.

## Internships

Students must register before beginning an internship in order for the internship to be noted on the transcript.

**409:001 [CCP:1001] Internship in Art**
- 0 s.h.
409:002 (CCP:1002) Internship in Biological Science 0 s.h.

409:003 (CCP:1003) Internship in Communication Sciences and Disorders 0 s.h.

409:004 (CCP:1004) Internship in Chemistry 0 s.h.
Prerequisites: 004:122 (CHEM:2220). Requirements: junior standing, completion of 12 s.h. of UI course work, and minimum 2.75 cumulative g.p.a.

409:006 (CCP:1006) Internship in Business 0 s.h.

409:007 (CCP:1007) Internship in Education 0 s.h.
Requirements: admission to Teacher Education Program.

409:008 (CCP:1008) Internship in English 0 s.h.

409:009 (CCP:1009) Internship in French 0 s.h.

409:012 (CCP:1012) Internship in Geoscience 0 s.h.
Requirements: cumulative g.p.a. of at least 2.50, g.p.a. in geology courses of at least 3.00, and grade of C or higher in 012:150 (GEOS:3500).

409:013 (CCP:1013) Internship in German 0 s.h.

409:015 (CCP:1015) Internship 0 s.h.

409:016 (CCP:1016) Internship in History 0 s.h.

409:019 (CCP:1019) Internship in Journalism 0 s.h.

409:020 (CCP:1020) Internship in Classics 0 s.h.

409:021 (CCP:3021) Internship in Library Science 0 s.h.

409:022 (CCP:1022) Internship in Computer Science 0 s.h.
Prerequisites: 22C:021 (CS:2230), and 22M:025 (MATH:1850) or 22M:031 (MATH:1550). Requirements: 24 s.h. of undergraduate course work.

409:024 (CCP:1024) Internship in Museum Studies 0 s.h.

409:025 (CCP:1025) Internship in Music 0 s.h.

409:027 (CCP:1027) Internship in Health and Human Physiology 0 s.h.
Requirements: admission to health and human physiology.

409:029 (CCP:1029) Internship in Physics and Astronomy 0 s.h.

409:030 (CCP:1030) Internship in Political Science 0 s.h.

409:031 (CCP:1031) Internship in Psychology 0 s.h.
Requirements: completion of 12 s.h. of departmental course work.

409:032 (CCP:1032) Internship in Religious Studies 0 s.h.

409:033 (CCP:1033) Internship in Literature, Science, and the Arts 0 s.h.

409:034 (CCP:1034) Internship in Sociology 0 s.h.

409:035 (CCP:1035) Internship in Spanish 0 s.h.

409:036 (CCP:1036) Internship in Communication Studies 0 s.h.
Requirements: declared communication studies major, completion of 12 s.h. of departmental course work, and minimum 2.50 cumulative g.p.a.

409:039 (CCP:1039) Internship in Asian Languages and Literature 0 s.h.

409:041 (CCP:1041) Internship in Russian 0 s.h.

409:042 (CCP:1042) Internship in Social Work 0 s.h.

409:044 (CCP:1044) Internship in Geography 0 s.h.
Requirements: sophomore standing, completion of 12 s.h. of departmental course work, and minimum 2.25 cumulative g.p.a.

409:045 (CCP:1045) Internship in American Studies 0 s.h.

409:048 (CCP:1048) Internship in Cinema and Comparative Literature 0 s.h.

409:049 (CCP:1049) Internship in Theatre Arts 0 s.h.

409:062 (CCP:1062) Internship in Informatics 0 s.h.
Prerequisites: 22C:080 (CS:2110), and 06K:182 (MSCI:3200) or 22C:084 (CS:2420). Requirements: 24 s.h. of undergraduate course work.
409:070 (CCP:1070) Global Internship Preparation 1 s.h.
Classroom preparation for international summer internship program in Paris, London, or Madrid; internship goal setting, predeparture orientation activities, reflective learning, professional development concepts.

409:071 (CCP:1071) ROTC International Cultural Internship 0 s.h.
Internship opportunity to develop leaders capable of positive interactions with other cultures and their governments, and who possess the language skills to effectively communicate cultural sensitivities when interacting with American and international media; recent locations include China, Indonesia, Japan, Morocco, Russia, Senegal, Slovakia, Tajikistan, Tanzania, Ghana, Thailand, Botswana, Costa Rica, Czech Republic, and Vietnam. Requirements: ROTC member and Military Science program chair approval.

409:072 (CCP:1072) Internship in Human Rights 0 s.h.
Recognition of approved work in human rights arena.

409:073 (CCP:2202) ISSS Academic Internship 9 s.h.
Academic credit for full-time internship employment out of area; for international students in the Tippie College of Business. Requirements: F-1 or J-1 visa international student, Tippie College of Business undergraduate standing, minimum 3.50 g.p.a., full-time internship offer letter in hand (at least 40 hours/week and one semester in length), internship approved by International Student and Scholar Services for F-1 Curricular Practical Training (CPT) or J-1 Academic Training (AT), concurrent registration in approved 3 s.h. distance education course, internship work location at least 100 miles from Iowa City, and preapproval of internship by Pomerantz Career Center.

409:074 (CCP:1074) Office of the Provost Internship 0 s.h.
Internship in the Office of the Provost.

409:091 (CCP:1091) Internship in Law 0 s.h.

409:099 (CCP:1099) Internship in Biochemistry 0 s.h.

409:103 (CCP:1103) Internship in Linguistics 0 s.h.

409:113 (CCP:1113) Internship in Anthropology 0 s.h.

409:114 (CCP:1114) International Internship: Madrid 2 s.h.
Ten-week program, includes orientation, Spanish language school, and eight-week unpaid internship. Requirements: acceptance to undergraduate internship program in Madrid.

Ten-week program, includes orientation, French language school, and eight-week unpaid internship. Requirements: acceptance to undergraduate internship program in Paris.

409:122 (CCP:1122) Internship in Mathematics 0 s.h.
Prerequisites: 22M:025 (MATH:1850) or 22M:031 (MATH:1550). Requirements: junior standing, completion of 12 s.h. of UI course work, and cumulative g.p.a. of at least 2.75.

409:131 (CCP:1131) Internship in Gender, Women’s, and Sexuality Studies 0 s.h.

409:137 (CCP:1137) Internship in Dance 0 s.h.

409:145 (CCP:1145) Internship in Interdepartmental Studies 0 s.h.

409:153 (CCP:1153) Internship in Aging Studies 0 s.h.

409:159 (CCP:1159) Internship in Environmental Sciences 0 s.h.
Requirements: cumulative g.p.a. of at least 2.50.

409:169 (CCP:1169) Internship in Leisure Studies 0 s.h.

409:170 (CCP:3170) Internship in Public Health 0 s.h.
Requirements: admission to the College of Public Health.

409:171 (CCP:3171) Internship in Biostatistics 0 s.h.
Requirements: admission to the College of Public Health.

409:172 (CCP:3172) Internship in Community and Behavioral Health 0 s.h.
Requirements: admission to the College of Public Health.

409:173 (CCP:3173) Internship in Epidemiology 0 s.h.
Requirements: admission to the College of Public Health.

409:174 (CCP:3174) Internship in Health Management and Policy 0 s.h.
Requirements: admission to the College of Public Health.

409:175 (CCP:3175) Internship in Occupational and Environmental Health 0 s.h.
Requirements: admission to the College of Public Health.

409:187 (CCP:1187) Internship in International Studies 0 s.h.

409:188 (CCP:1188) Internship in Performing Arts 0 s.h.

Internship placements for students in all University of Iowa majors (typical placements include Congress, the White House, the Center for Strategic and International Studies, the U.S. Department of Commerce, the U.S. Department of Defense, the Environmental Protection Agency, CNN, C-SPAN, BET, MCI Center, the Smithsonian Institution, the National Institutes of Health, Amnesty International, the Children's Defense Fund, Mexican Cultural Institute Embassies, the U.S. Marshall's Office, federal courts, law offices, and the U.S. Secret Service); participation in Presidential Lecture Series and Congressional Breakfast Series. Full semester or summer session.

Combined classroom instruction, faculty-led discussions, and experiential work opportunities; usually offered in Washington, D.C., occasionally at other locations tied to an event (e.g., political convention); one or two weeks.

409:192 (CCP:1192) Internship in Statistics and Actuarial Science 0 s.h.
Requirements: junior standing.

409:193 (CCP:1193) Internship in Accounting 0 s.h.
Requirements: admission to Tippie College of Business and accounting major.

409:194 (CCP:1194) Internship in Finance 0 s.h.
Requirements: admission to Tippie College of Business and finance major.

409:195 (CCP:1195) Internship in Marketing 0 s.h.
Requirements: at least 3.00 g.p.a. in 06M:100 (MKTG:3000) and 06M:134 (MKTG:3100), admission to Tippie College of Business, and marketing major.

409:196 (CCP:1196) Internship in Economics 0 s.h.
Requirements: economics major.

409:197 (CCP:1197) Internship in Management and Organizations 0 s.h.
Requirements: admission to Tippie College of Business and management and organizations major.

409:198 (CCP:1198) Internship in Management Information Systems 0 s.h.
Requirements: admission to the Tippie College of Business and management sciences major.

409:201 (CCP:1201) Academic Internship 1-3 s.h.
Opportunity for students to expand on internship experiences by developing learning objectives and reflecting on experience; how internship experience relates to academic course work and future career goals. Requirements: secured internship, cumulative g.p.a. of at least 2.00, and completion of 24 s.h. of UI course work (12 s.h. for transfer students).

409:217 (CCP:1217) Internship in Fundraising and Philanthropy Communication 0 s.h.
Supervised experience working with fundraising and development professionals in nonprofit organization. Requirements: sophomore standing and completion of 12 s.h. of UI course work.
Center for Diversity & Enrichment

**Director**
- Nancy J. Humbles

**Web site:** http://diversity.uiowa.edu/cde/

The Center for Diversity & Enrichment offers the Iowa First Nations summer program for high school students and the Iowa Edge program for students entering The University of Iowa.

**Precollege Program of Study**

**Iowa First Nations**

The Iowa First Nations program enables students entering grades 11 and 12 to explore the educational opportunities offered on the University of Iowa campus and by higher education in general. Iowa First Nations students live on campus for a week (Monday through Friday), spending five nights in one of the University’s residence halls. They go on structured field trips to campus departments, participate in hands-on classroom experiences, and take part in activities on campus and in the community.

**Undergraduate Program**

**The Iowa Edge**

The Iowa Edge program supports incoming students as they make their transition to The University of Iowa. The program takes place the week before fall semester classes begin. Iowa Edge students move into the residence halls early, learn about campus resources, become familiar with the campus setting, and build community with other students. Current UI students serve as Iowa Edge peer leaders, facilitating the program.

College Success Initiatives

Coordinator

• Lisa Ingram

The College Success Initiatives program is designed to enrich students' experiences at The University of Iowa. College Success Initiatives offers the following courses focused on helping first-year and entering students make a successful transition to the University:

- **407:001 (CSI:1100) The College Transition**, a traditional first-year experience course;
- **407:004 (CSI:1150) The College Transition Lab**, a practical application of study skill strategies;
- **407:011 (CSI:2100) The Transfer Transition**, a transition course for transfer students;
- **407:007 (CSI:1700) Online at Iowa**, a web-based course introducing first-year and transfer students to electronic tools and resources at The University of Iowa;
- **407:008 (CSI:1800) Managing Your Money: Personal Finance for College Students**, a web-based course introducing students to the basics of money management; and
- **407:002 (CSI:1500) College Success Seminar**, a course for first-year students who have been placed on academic probation.

College Success Initiatives is administered by the associate provost for undergraduate education. For more information about College Success Initiatives courses, contact the Academic Advising Center.

Courses

**407:001 (CSI:1100) The College Transition**

College culture, University of Iowa resources, refinement of study skills, test taking, identification of personal values, self-motivation, goal setting; taught in small sections with emphasis on classroom discussion. Requirements: entering first-year student.

**407:002 (CSI:1500) College Success Seminar**

Skills, habits, and attitudes essential for college success; self-assessment, goal setting, problem solving, motivation, time management, study skills, preparing for and taking tests; campus resources, including the Pomerantz Career Center, University Counseling Service; emphasis on class participation and completion of assignments related to course topics. Requirements: selected students with first-year standing in the College of Liberal Arts and Sciences.

**407:004 (CSI:1150) The College Transition Lab**

Preparation for affiliated lecture course; practical context to apply, evaluate, and refine study skills strategies explored in 407:001 (CSI:1100); expand study strategies, enhance grasp of affiliated course material, and apply study skills to future course work. Corequisites: 407:001 (CSI:1100). Requirements: Concurrent enrollment in a CIC affiliated lecture course.

**407:007 (CSI:1700) Online at Iowa**

Web-based introduction to electronic tools and resources at The University of Iowa; web sites, e-mail, databases; how to research courses, register for classes, and review grades; computer security; virtual campus tour.

**407:008 (CSI:1800) Managing Your Money: Personal Finance for College Students**

Introduction to basic concepts and practices for management of resources and prevention of financial problems commonly associated with college, including credit and student loans.

**407:009 (CSI:1900) International at Iowa**

Introduction to immigration and other laws; academic expectations on the University of Iowa campus; cultural adjustment; how to succeed academically; caring for one's mental health; web-based course for new international undergraduate students.

**407:011 (CSI:2100) The Transfer Transition**

University of Iowa resources, career and major selection, identification of personal values, self-motivation, goal setting, study and test-taking skills; small sections with classroom discussion. Requirements: entering transfer student standing.

**407:025 (CSI:1000) Mindfulness: Being Here With It All**

Training in Mindfulness-Based Stress Reduction; application to dealing with life changes (i.e., transition to University life); navigating daily life (academics, roommates, schedules); improving academic skills; self-regulation of emotions; questions of meaning and purpose. Same as 07P:026 (PSQF:1026).

**407:030 (CSI:1250) Introduction to Law Study and Legal Careers**

Introduction to legal education and careers; exploration of role of law in society, nature of legal education, careers in law, and current legal issues; opportunity for students to begin reflecting on their own interest in this field.
First-Year Programs

**Director**
- Beth F. Ingram

**Assistant director**
- Andrew Beckett

First-Year Programs offers courses designed for first-year students and provides special opportunities for students to interact with faculty and senior administrators.

**Courses**

**420:029 (FYP:1000) First-Year Seminar**
- 1 s.h.
  - Introduction to the intellectual life of the University; opportunity to work closely with a faculty member or senior administrator; active participation that eases the transition to college-level learning.

**420:050 (FYP:1100) College Expectations: Safe and Smart**
- 0 s.h.
  - Alcohol and sexual violence awareness training.

**420:060 (FYP:2100) College Expectations for Transfer Students**
- 0 s.h.
  - Alcohol and sexual violence awareness training.

**420:090 (FYP:1400) The Passport Project: Exploring Knowledge and Culture Beyond the Classroom**
- 1 s.h.
  - Attendance at 12 events selected from the University and Iowa City’s rich intellectual and cultural offerings, including art workshops and openings, literary readings, lectures in the sciences and humanities, hands-on engineering demonstrations, dance recitals, political forums, plays and music performances; small-group discussion; written and multimedia reviews and reflections; special events with some of the area’s outstanding leaders in research, teaching, and scholarship.
Human Rights

Affiliated faculty
• Loyce Arthur (Theatre Arts), Jeremy Brigham (International Programs), Diana Cates (Religious Studies), Mary Cohen (Education/Music), Carolyn Colvin (Education), Jovana Davidovic (Philosophy), Brian Farrell (Law/International Programs), Elizabeth Heineman (History/Gender, Women's, and Sexuality Studies), Maureen McCue (Public Health/International Programs), Nathan Miller-Lor's (Philosophy), David Osterberg (Occupational and Environmental Health), Sally Scott (Policy Center), Shelton Stromquist (History), Burns H. Weston (Law), Andrew Willard (International Programs/University of Iowa Honors Program), Adrien Wing (Law)

Undergraduate certificate: human rights
Human rights concern the inherent dignity of all human beings and the promotion and protection of that dignity regardless of race, color, gender, sexual orientation, religion, culture, nationality, birth, or other status. The Certificate in Human Rights program broadens students' understanding of human rights issues and helps them learn how to use an interdisciplinary approach to identify solutions.

Course work for the certificate is drawn from units across The University of Iowa. It prepares students to examine societal problems critically and to design specific solutions to human rights dilemmas in a wide range of areas, such as civil governance, the situations of women and racial and sexual minorities, child welfare, socioeconomic development and well-being, hunger and poverty, education, health, immigration, ecological sustainability, and mass violence.

Undergraduate Program of Study
• Certificate in Human Rights

Certificate
The Certificate in Human Rights requires 18 s.h. of credit. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor's degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Completion of the certificate is noted on the student’s transcript.

Individuals must declare their intent to earn the certificate and must submit a plan of study; see the Certificate in Human Rights web site for details.

Work for the certificate consists of two core courses (6 s.h.) and several approved electives (12 s.h.) chosen from the lists under “Elective Courses” below.

Students may use certificate courses to fulfill requirements of the College of Liberal Arts and Sciences General Education Program (p. 306) and requirements of majors and minors. They may count a maximum of 6 s.h. of transfer credit toward the certificate with approval from the certificate program’s faculty advisory group. A maximum of 3 s.h. of credit graded satisfactory/unsatisfactory may be counted toward the certificate.

The Certificate in Human Rights requires the following course work.

**CORE COURSES**
Philosophical foundations and contemporary issues in human rights—one of these (students who take additional courses from this list may count them as certificate electives):

- 091:193 (LAW:8570) Human Rights in the World Community 3 s.h.
- 026:130 (PHIL:3430) Philosophy of Human Rights 3 s.h.
- 216:080 (HRTS:2115)/187:080 (IS:2115) Introduction to Human Rights 3 s.h.

Human rights in practice—all students must take this course:

**ELECTIVE COURSES**
Certificate students must earn 12 s.h. of credit in elective course work chosen from the following lists. They may count a maximum of 6 s.h. of credit from any one department or program toward the certificate elective requirement.

The courses below are grouped by theme to help students choose electives that meet their interests and objectives, but some courses could fit into more than one of these groupings. Each course’s content is described on ISIS.

Students who would like to take a course not included in the following lists may submit a petition to the certificate’s faculty advisory group. The petition should state the course’s number and name and tell why the student wishes to include the course in his or her certificate electives. The petition should be submitted before the preregistration period for the session in which the course will be offered. Students must receive approval from the advisory group in order to count the course toward the certificate. Many courses have prerequisites, and some require enrollment in certain programs or colleges; students should consult the certificate program advisor to be sure they meet the registration requirements for the course they are petitioning to count toward the certificate.

**Culture**
- 01H:167 (ARTH:3970) African American Art and Architecture 3 s.h.
- 16A:104 (HIST:4201) History of the American Deaf Community 3-4 s.h.
- 026:001 (PHIL:2401) Matters of Life and Death 3 s.h.
- 030:156 (POLI:3406) Ethnic and Religious Conflict in the Muslim World 3 s.h.
- 032:003 (RELS:1903) Quest for Human Destiny 3 s.h.
- 032:016 (RELS:1810) Religion and Liberation 3 s.h.
- 036:051 (COMM:2051) Politics of Popular Culture 3 s.h.
- 045:025 (AMST:2025) Diversity and American Identities 3 s.h.
Global Interactions

16E:130 (HIST:4438) Modern European Imperialism 3 s.h.
16W:126 (HIST:4730) Slavery, Jihads, and Saints in Islamic Africa 3 s.h.
030:160 (POLI:3507) Women and Politics in Global Perspective 3 s.h.

131:149 (GWSS:2150)/113:115 (ANTH:2150) Transnational Feminism 3 s.h.
152:120 (GHSS:4600) Global Health and Human Rights 2-3 s.h.
152:158 (GHSS:3850) Promoting Health Globally 3 s.h.
421:071 (LS:3010) Global Leadership Initiative 1 s.h.

Health

16A:106 (HIST:4203) Disability in American History 3 s.h.
152:120 (GHSS:4600) Global Health and Human Rights 2-3 s.h.
152:158 (GHSS:3850) Promoting Health Globally 3 s.h.
152:182 (GHSS:4230) Health Experience of Immigrants, Migrants, and Refugees 3 s.h.
153:135 (ASP:3135)/042:135 (SSW:3135) Global Aging 3 s.h.

Labor

16A:141 (HIST:4250) Work and Society in Industrializing America 3 s.h.
16A:142 (HIST:4252) American Labor in the Twentieth Century 3-4 s.h.
16A:147 (HIST:4275)/129:137 (AFAM:4275) History of Slavery in the U.S.A. 3-4 s.h.
16W:123 (HIST:4723) Slavery, Gender, and Identity in East Africa 3 s.h.

Mass Violence

16E:132 (HIST:4435) War and Society in Modern Europe 3 s.h.
16E:158 (HIST:4978) Holocaust in History and Memory 3 s.h.
16W:183 (HIST:4176) Vietnam War on Film 3-4 s.h.

Migration/Immigration

16A:146 (HIST:4254) Immigrant America 1845-1925 3 s.h.
045:145 (AMST:3045) Immigration and American Culture 3 s.h.
152:182 (GHSS:4230) Health Experience of Immigrants, Migrants, and Refugees 3 s.h.

Political and Legal Systems and Thought

026:034 (PHIL:1034) Philosophy and the Just Society 3 s.h.
026:102 (PHIL:2402) Introduction to Ethics 3 s.h.
026:132 (PHIL:3432) Introduction to Political Philosophy 3 s.h.
030:107 (POLI:3114) Women and Politics in the United States 3 s.h.
030:108 (POLI:3104) Immigration Politics 3 s.h.
030:112 (POLI:3105) Minority Representation in American Politics 3 s.h.

Intercollegiate Athletic Participation

Students who are members of University of Iowa intercollegiate athletics teams and are certified to participate in their sport may register for 408:021 (IAP:1021) Intercollegiate Athletic Participation. Each section of the course represents a specific sports team; students register for the appropriate section. Registration requires approval from the director of athletic student services. Qualified students may repeat the course. Members of University of Iowa sport clubs are not eligible to enroll in 408:021 (IAP:1021).

Iowa Biosciences Advantage

Codirectors
• Vincent G.J. Rodgers (Physics and Astronomy), Lori Adams (Biology)

Lecturer
• Meaghan Rowe-Johnson

Web site: http://iba.biology.uiowa.edu/

Undergraduate Program
Iowa Biosciences Advantage (IBA) is a highly competitive undergraduate research and academic enrichment program funded by the National Institutes of Health. The program identifies academically talented undergraduate, underrepresented students who aspire to research careers and gives them first-rate training that facilitates entry into doctoral programs in biomedical, behavioral, and biophysical sciences.

Iowa Biosciences Advantage students have opportunities to work in research laboratories with faculty mentors during the course of their undergraduate careers. The program’s faculty represents a broad range of disciplines in the basic and biomedical sciences. IBA students also benefit from specialized course work, career counseling, and academic advising for biomedical and bioscience careers.

Students selected for IBA must maintain good standing in academics and research. Good academic standing requires a g.p.a. of at least 3.00 and is evaluated at the end of each semester. Good research standing is determined by each student’s research mentor. Students work with their mentors throughout the academic year and summer.

STUDENTS ACCEPTED FROM HIGH SCHOOL
Students admitted to IBA from high school spend their first year at The University of Iowa establishing good academic standing and conducting laboratory rotations.

During fall semester, IBA students enroll in 168:041 (IBA:1041) IBA Student Development Seminar (1 s.h.), where they explore topics such as college culture, University resources, study skills, test taking, and goal setting.

During spring semester, IBA students again enroll in 168:041 (IBA:1041); this semester of the course is designed to help them navigate their laboratory rotations. They also enroll in 168:047 (IBA:1047) IBA Research in Biomedical Science (0 s.h.) and complete two research rotations. The rotations, which are set up by IBA staff, introduce students to laboratory research at the University.

Students may choose to remain on campus for the eight-week summer session. At the end of his or her first summer of research, each student is evaluated for admission to the IBA Scholar Program. Students who win admission may continue in IBA throughout the year. They earn pay for laboratory work with their research mentors and may participate in IBA events.

STUDENTS ACCEPTED FROM COLLEGE
Applications also are accepted from current University of Iowa undergraduates majoring in the sciences as well as students transferring to Iowa. Students accepted to IBA during their first, second, or third year of college join the appropriate class of IBA scholars. During their first semester of participation, new undergraduates complete lab rotations and establish good academic standing. They also enroll in 168:041 (IBA:1041) IBA Student Development Seminar (1 s.h.). Once students are matched with a research mentor, they earn pay for their laboratory work during summer and the academic year. They also enroll in 168:047 (IBA:1047) IBA Research in Biomedical Science (0 s.h.).

Admission
Students apply to Iowa Biosciences Advantage during their senior year of high school or once they are undergraduate students.

Applicants must:
• have a strong interest in pursuing a research career;
• have a qualifying academic major;
• be in good academic standing;
• submit an IBA application, including short essays; and
• submit one letter of recommendation from a science or math instructor.

Admission requires an interview. Admission decisions are made in March, July, and October.

Faculty
Faculty members from the University’s broad range of basic and biomedical science disciplines serve as teachers and mentors to IBA students. They represent many departments, including anatomy and cell biology, biochemistry, biology, biomedical engineering, chemistry, health and human physiology, microbiology, molecular physiology and biophysics, neuroscience, and psychology.

Courses
168:041 (IBA:1041) IBA Student Development Seminar 1 s.h.
Academic and professional development; presentations by faculty researchers, admissions representatives, or students in graduate bioscience programs; discussions about succeeding at the University; talks by professional educators on topics such as effective study skills.

168:047 (IBA:1047) IBA Research in Biomedical Science 0 s.h.
Registration in a section taught by student’s research mentor. Requirements: enrollment in IBA.
Iowa Lakeside Laboratory

**Director**
- Peter J. van der Linden

**University of Iowa coordinator**
- Stephen Hendrix (Biology)

**Iowa State University participating faculty**
- Bonnie S. Bowen (Ecology, Evolution, and Organismal Biology), Lee Burras (Agronomy)

**University of Iowa participating faculty**
- John F. Doershuk (Anthropology)

**University of Northern Iowa participating faculty**
- Daryl D. Smith (Biology)

**Web site:** [http://www.continuetolearn.uiowa.edu/lakesidelab/](http://www.continuetolearn.uiowa.edu/lakesidelab/)

Iowa Lakeside Laboratory is a field station run cooperatively by The University of Iowa, Iowa State University, and the University of Northern Iowa. Students at all three institutions may take Iowa Lakeside Laboratory courses for credit. They should check with their advisors to determine whether specific courses count toward requirements of their academic majors or minors or toward other requirements.

Iowa Lakeside Laboratory was established in 1909 for the conservation and study of the rich flora and fauna of northwest Iowa, especially the numerous lakes, wetlands, and prairies of the Iowa Great Lakes region. The campus is located on approximately 140 acres of restored prairie, wetland, and gallery forest along the west shore of West Okoboji Lake. Lakeside’s mission is to provide undergraduate and graduate students an opportunity for hands-on experience in a variety of natural and human environments through its field-oriented summer courses, and to provide research facilities and support for graduate students and faculty members working on research projects in northwestern Iowa.

Each summer Iowa Lakeside Laboratory offers students a unique educational experience—small, full-immersion, field-oriented courses in the natural sciences (archaeology, botany, ecology, hydrology, soils, zoology). Courses are taught at the sophomore/junior level and the senior/graduate level. Enrollment usually is limited to 10 or fewer students per course. Most courses meet all day Monday through Friday, last four weeks, and offer 1 s.h. of credit for each week (40 clock hours) in class. One- and two-week courses also are available, including courses designed especially for teachers.

Weather permitting, students normally spend at least part of each day doing fieldwork, either as part of their class work or for individual or group projects.

Not all courses are offered every year; visit List of Courses on the Iowa Lakeside Laboratory web site or consult the University of Iowa summer course offerings on ISIS (Iowa Student Information Services) to learn which courses will be offered during a particular summer session.

Research projects by undergraduates, graduate students, and faculty members can be completed either on the Iowa Lakeside Laboratory campus or at many nearby natural areas. Undergraduate and graduate students are strongly encouraged to do independent projects at the laboratory, and graduate students are welcome to use Lakeside as a base for their thesis and dissertation research. Laboratory space and other facilities are available for long-term or short-term research projects.

Teaching and research facilities include eight laboratory buildings, a library, and a lecture hall. Living accommodations include cottages, motel-style units, and a large mess hall. All students are encouraged to stay at Lakeside while they are taking courses to derive full advantage of its educational, professional, and social life.

**Registration**

Students may enroll in Iowa Lakeside Laboratory courses only by submitting an Iowa Lakeside Laboratory Registration and Housing Form to the Iowa Lakeside Laboratory Administrative Office. Information about current courses and housing is available on the Iowa Lakeside Laboratory web site.

Registration usually opens in early January. Enrollment is limited, so students should register early. When they register, they must apply for housing or indicate that they plan to live off campus.

**Financial Support**

Financial support is available for undergraduate and graduate students. The Friends of Lakeside Lab organization provides a merit scholarship that is equivalent to the cost of room and board. Additional financial support may be available from Iowa Lakeside Laboratory and from other sources. Consult the Office of Student Financial Aid for information about support, including work-study and loan programs.

**Courses**

00L:010 (IALL:1010) Earth, Air, and Sky 3 s.h.
Essentials of earth science, including astronomy, meteorology, geology, and paleontology; includes laboratory and fieldwork.

00L:019 (IALL:1019) Soils and Environmental Quality 3-4 s.h.
The role of soils in environmental quality and natural resources management; soil erosion and conservation, water quality, environmental planning; weekend field trip.

00L:030 (IALL:1030) Natural History Workshop 1-2 s.h.
A specific aspect of the upper Midwest’s natural history, or techniques for studying natural history; amphibians and reptiles, birds and birding, nature photography, mushrooms and other fungi, Iowa’s trees and forests, fish biology, prairies, common algae, common insects, aquatic plants, life in rivers, life in lakes, mosses and liverworts, natural history of Iowa Great Lakes region, field archaeology, scuba diving, astronomy, nature sketching: five-day, nontechinical introductions.

00L:034 (IALL:1034) Topics in Ecology and Sustainability 1-4 s.h.
Scientific introduction to ecology and evolution of important groups of organisms: algae to vertebrates, different ecological phenomena (e.g., fire and climate change), varying landforms, different ecosystems (e.g., prairies and aquatic systems); emphasis on sustainability with introduction to concepts, issues, and practices; ability to communicate environmental information through a variety of means. Requirements: one general biology course.

00L:040 (IALL:1040) Archaeology
Nature of cultural and environmental evidence in archaeology, how such evidence is used to model past human behavior and land use; emphasis on Iowa prehistory; basic reconnaissance surveying, excavation techniques.

4 s.h.

00L:043 (IALL:1043) Illustrating Nature--Sketching
Sketching plants, animals, terrain; visual communication, development of a personal style, integration of typographic and visual elements on a page.

2 s.h.

00L:044 (IALL:1044) Illustrating Nature--Photography
Beginning/intermediate technique and composition in color photography of natural areas, their plants and animals.

2 s.h.

00L:050 (IALL:1050) Undergraduate Internship
Placement with county conservation boards, camps, parks, and other agencies for experience as interpreters, rangers, technicians. Requirements: sophomore standing.

1-4 s.h.

00L:100 (IALL:3100) Techniques for Biology Teaching
Development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses; exercises built around common organisms and ecosystems in Iowa; animal biology, plant biology, fungi and lichens, aquatic ecology, prairie ecology, wetland ecology, limnology, animal behavior, insect ecology, biology of invertebrates, noninvasive use of living organisms, Project WET; field trips.

1-2 s.h.

00L:102 (IALL:3102) Plant-Animal Interactions
Introduction to ecology and co-evolution of plants and animals; emphasis on dispersal, pollination, plant-herbivore interactions; field and laboratory work, reading, discussion. Requirements: one biological science course.

4 s.h.

00L:103 (IALL:3103) Aquatic Ecology
Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals. Requirements: ecology, chemistry, and physics courses.

4 s.h.

00L:105 (IALL:3105) Plant Taxonomy
Principles of classification and evolution of vascular plants; taxonomic tools and collection techniques; use of keys; field and laboratory studies emphasizing identification of local flowering plants, recognition of major plant families.

4 s.h.

00L:109 (IALL:3109) Freshwater Algae
Structure and taxonomy of freshwater algae based on field material collected; emphasis on genus-level identifications; habitat visits to lakes, fens, streams, rivers; algal ecology.

3 s.h.

00L:111 (IALL:3111) Summer Writing Festival at Iowa Lakeside Laboratory
Application of imagination to life experiences to become more effective writers; writing exercises invite imaginative leaps, thoughtful reflections, humor, and seriousness; participants work in various forms of expression, including personal essay, poetry, and short fiction; designed for young adult to adult writers of all levels. One week.

1 s.h.

00L:113 (IALL:3113) Undergraduate Independent Study
Requirements: junior or senior standing.

1-4 s.h.

00L:115 (IALL:3115) Field Mycology
Identification and classification of the common fungi; techniques for identification, preservation, and culture practiced with members of the various fungi groups.

4 s.h.

00L:117 (IALL:3117) Ecology and Systematics of Diatoms
Field and laboratory study of freshwater diatoms; techniques in collection, preparation, and identification of diatom samples; study of environmental factors affecting growth, distribution, taxonomic characters; project design and execution, including construction of reference and voucher collections; data organization and analysis.

4 s.h.

00L:121 (IALL:3121) Plant Ecology
Principles of plant population, community, and ecosystem ecology illustrated through studies of native vegetation in local prairies, wetlands, forests; group or individual projects.

4 s.h.

00L:122 (IALL:3122) Prairie Ecology
Basic patterns, underlying physical and biotic causes of regional and local distributions of North American prairie plants and animals; field and laboratory analysis and projects. Requirements: familiarity with basic principles of biology and ecology.

4 s.h.

00L:124 (IALL:3124) Wetland Ecology
Ecology, classification, creation, restoration, and management of wetlands; field studies on composition, structure, and function of local natural wetlands, restored prairie pothole wetlands; individual or group projects. Prerequisites: 00L:131 (IALL:3131).

4 s.h.

00L:126 (IALL:3126) Ornithology
Biological, ecological, and behavior of birds; emphasis on field studies of local avifauna; group projects with focus on techniques of population analysis and methodology for population studies.

4 s.h.

00L:127 (IALL:3127) Introduction to Insect Ecology
Insects; their diversity and life history; emphasis on ecology and behavior; field, laboratory study.

4 s.h.

00L:128 (IALL:3128) Fish Ecology
Basic principles of fish interaction with biotic and abiotic environments; field methods, taxonomy, and biology of fish with emphasis on the fish fauna of northwestern Iowa.

4 s.h.
00L:131 (IALL:3131) Ecology 4 s.h.
Introduction to the principles of ecology at the population, community, ecosystem levels; field studies of local lakes, wetlands, and prairies used to examine factors that control distributions, interactions, and roles of plants and animals in native ecosystems. Requirements: two semesters of introductory biology.

00L:133 (IALL:3133) Animals and Their Ecosystems 4 s.h.
Vertebrate and invertebrate animals of the Midwest; observation of animals in nature, either through passive observational techniques or active trapping exercises; once identified, placement of animals in proper taxonomic position (i.e., "Tree of Life"); ecological perspective, including habitat preferences (i.e., wetland, lake, prairie, forest, river, edge), trophic position, and activity patterns; discussion and emphasis on conservation status. Requirements: introductory biology course.

00L:135 (IALL:3135) Aquatic Toxicology and Wetland Dynamics in Freshwater Systems 2-4 s.h.
Fundamental knowledge and understanding of scientific concepts related to the physio-chemical and biological environment; problems and issues (global, national, regional, and local) of freshwater systems; how wetland restoration is used to ameliorate problems; basic tools used to assess aquatic toxicological problems. Requirements: one year of biology and one year of chemistry.

00L:140 (IALL:3140) Water Policy and Politics 1 s.h.
Historical, legal, economic, cultural, and political dimensions of water resources; public perception and enjoyment of this abundant and important natural resource; how public policy developed; private rights; differences between the previous appropriation system in the western U.S. and eastern riparian rights law; public rights regarding water for navigation, recreation, and environmental protection; water-related institutions such as suppliers of municipal water and irrigation water; interbasin transport of water.

00L:142 (IALL:3142) Watershed Hydrology and Surficial Processes 4 s.h.
Effects of geomorphology, soils, and land use on transport of water and materials (nutrients, contaminants) in watersheds; fieldwork emphasizing investigations of the Iowa Great Lakes watershed. Requirements: four courses in physical or biological sciences or engineering.

00L:151 (IALL:3151) Analysis of Environmental Data 2 s.h.
Theory and application of statistical techniques for analysis of ecological and paleoecological data.

00L:160 (IALL:3160) Restoration Ecology 4 s.h.
Ecological principles for restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations; emphasis on prairie restoration, wetland vegetation. Requirements: an ecology course.

00L:163 (IALL:3163) Conservation Biology 4 s.h.
Population- and community-level examination of factors influencing viability of plant and animal populations from demographic and genetic perspectives; assessment of biodiversity; design, management of preserves. Offered summer sessions of odd years. Prerequisites: 00L:131 (IALL:3131).

00L:165 (IALL:3165) Behavioral Ecology 4 s.h.
Ecological and evolutionary theories of animal behavior examined through field studies of animal coloniality, courtship, territoriality, predator defense, habitat selection, foraging, mating systems, parental care. Requirements: two biology courses.

00L:175 (IALL:3175) Soil Formation and Landscape Relationships 4 s.h.
Relationships between soil formation, geomorphology, environment; soil description, classification, geography, mapping, interpretation for land use. Prerequisites: 00L:142 (IALL:3142).

00L:199 (IALL:3199) Undergraduate Research 1-4 s.h.
Requirements: junior or senior standing.

00L:210 (IALL:5210) Global Climate Change: Causes, Connections, and Cures 2 s.h.
Underlying causes of global climate change, both natural and human; web of interrelated links affecting the physical and living world, including human society; cause-and-effect relationships and interventions that may reduce negative consequences; for teachers of grades 7-12 and students enrolled in teacher education programs for those grades. Requirements: bachelor’s degree.

00L:213 (IALL:5213) Graduate Independent Study 1-4 s.h.

00L:217 (IALL:5217) Ecology and Systematics of Diatoms 4 s.h.

00L:225 (IALL:5225) Physical Limnology 2-4 s.h.
Mechanisms of physical transport of heat and contaminants in lakes; temperature cycle and stratification; disturbances to seasonal temperature structure, including the diurnal mixed layer, waves, upwelling, differential heating; turbulence, mixing, transport; field measurements of physical processes, computer models of transport.

00L:240 (IALL:5240) Natural History Workshop 1-3 s.h.
An aspect of the upper Midwest’s natural history, or techniques for studying natural history.

00L:250 (IALL:5250) Graduate Internship 1-5 s.h.
Experience as interpreters, rangers, technicians, and teachers through placement with county conservation boards, camps, parks, schools, other agencies.

00L:299 (IALL:5299) Research 1-4 s.h.
Iowa Young Writers' Studio

**Director**
- Stephen Lovely

### Precollege Program of Study

The Iowa Young Writers’ Studio is a summer creative writing program for high school students at The University of Iowa. Students in the program build a community of peers while working with experienced writing teachers, primarily students and graduates of the University’s M.F.A. program in creative writing.

The program is residential; students live on campus in one of the University’s residence halls.

The studio offers three courses of study: poetry, fiction, and creative writing (a mix of poetry, fiction, and creative nonfiction). Each course consists of a seminar and a workshop. In seminars, students read literature by established writers. In workshops they share their own writing, get feedback from their classmates and teacher, and discuss issues of narrative and form.

The studio offers two two-week sessions: one in June and one in July.

Young writers who have completed grade 10, 11, or 12 are eligible to attend the studio. Application materials include an application form, a creative writing sample, a statement of purpose, a high school transcript, and a letter of recommendation from an English teacher or another instructor familiar with the applicant’s writing. For complete application information, contact the Iowa Young Writers’ Studio or visit its web site.

Application deadline is early February for the following summer.

Leadership Studies

Co-directors

• Kelley Ashby, William Nelson

Undergraduate certificate: leadership studies
Web site: http://www.careers.uiowa.edu/leadershipstudies/

Leadership studies is a multidisciplinary academic field that draws upon theories and applications from a wide variety of related disciplines, such as the social sciences (e.g., psychology, sociology, political science, and anthropology) and the humanities (e.g., philosophy and history), as well as professional fields, including management and education. The University of Iowa's Leadership Studies Program examines ethical issues, principles, theories, and styles of leadership; the dynamics of interactions between leaders, followers, and group members; leaders' impact on organizations and communities; and leadership skills such as goal setting, communicating effectively, creating a vision, and empowering others.

The Leadership Studies Program offers the undergraduate Certificate in Leadership Studies as well as the Career Leadership Academy, a four-course sequence designed to help undergraduate students develop leadership and employment skills, and the online course Global Leadership Initiative. See "Undergraduate Program of Study" and "Other Undergraduate Programs" below.

Undergraduate Program of Study

• Certificate in Leadership Studies

The Certificate in Leadership Studies is an interdisciplinary program coordinated by the Pomerantz Career Center and supported by the Tippie College of Business, the College of Education, the College of Liberal Arts and Sciences, and the Center for Student Involvement and Leadership.

Certificate

The Certificate in Leadership Studies requires 21 s.h. of credit. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor’s degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Completion of the certificate is noted on the student's transcript.

Students must declare their intent to earn the certificate to a leadership studies advisor in the Pomerantz Career Center; see Certificate in Leadership Studies on the center's web site for information on how to enter the certificate program.

The certificate program provides a structure for involvement and commitment to leadership. It introduces students to leadership concepts and offers them hands-on leadership experiences they will need in order to begin the life-long development of these skills. Certificate students complete an interdisciplinary core course (3 s.h.), area electives (15 s.h.), an experiential learning course (3 s.h.), and a final personal and program evaluation.

The Certificate in Leadership Studies requires the following course work.

INTERDISCIPLINARY CORE COURSE

All certificate students are required to complete the interdisciplinary core course (3 s.h.). In order to enroll in the course, they must have earned a minimum of 30 s.h. of credit and must be in good academic standing as defined by the College of Liberal Arts and Sciences (cumulative g.p.a. of at least 2.00).

The core course provides students with a broad foundation of leadership knowledge. It introduces diverse approaches to studying and practicing leadership and gives students a structure for organizing knowledge and skills from other leadership courses and experiences. The course features presentations by guest instructors from across the University, offering students an interdisciplinary perspective on leadership.

Certificate students must complete 421:072 (LS:2010) before they may enroll in the required experiential learning or service learning course.

AREA ELECTIVES

Area electives are drawn from five developmental areas central to effective leadership: self-leadership, group leadership, communication, cultural competence, and ethics and integrity. Students must complete 3 s.h. from each of these areas (total of 15 s.h.).

Self-Leadership

At least 3 s.h. from these:

023:101 (MILS:1010) Leadership and Personal Development MSL101 1 s.h.
023:102 (MILS:1020) Introduction to Tactical Leadership MSL102 1 s.h.
06J:162 (MGMT:4300) Leadership and Personal Development 3 s.h.
410:045 (LLS:1045) Leadership in the Outdoors 3 s.h.
413:050 (STS:1050) Introduction to Leadership 3 s.h.
413:100 (STS:1100) President's Leadership Class (PLC) 3 s.h.
421:071 (LS:3010) Global Leadership Initiative 1 s.h.
421:076 (LS:2002) Career Leadership Academy Phase 1 and 2 3 s.h.
421:077 (LS:1007) The 7 Habits of Highly Successful College Students 1 s.h.
421:106 (LS:2000) Career Leadership Academy--Phase 1 2 s.h.
421:109 (LS:4001) Career Leadership Academy--Phase 4 1 s.h.

Group Leadership

At least 3 s.h. from these:

023:103 (MILS:2010) Innovative Team Leadership MSL201 2 s.h.
23A:130 (AERO:3100) Air Force Leadership Studies I 3 s.h.
23A:132 (AERO:3200) Air Force Leadership Studies II 3 s.h.
031:015 (PSY:2501) Introduction to Social Psychology 3 s.h.
034:020 (SOC:3210) Principles of Social Psychology 3 s.h.
034:164 (SOC:3610) Organizations and Modern Society 3 s.h.
036:019 (COMM:1819) Organizational Leadership 3 s.h.
042:157 (SSW:3500) Nonprofit Organizational Effectiveness I 3 s.h.
At least 3 s.h. from these:

**Ethics and Integrity**

06:048 (MGMT:2100) Introduction to Management 3 s.h.
06:130 (MGMT:3200) Individuals, Teams, and Organizations 3 s.h.
169:061 (LEIS:1061) Recreation Leadership and Programming 3 s.h.
410:067 (LSS:1067) Team Building Challenge Course 1 s.h.
421:107 (LS:2001) Career Leadership Academy—Phase 2 2 s.h.
421:108 (LS:3001) Career Leadership Academy—Phase 3 2 s.h.
421:110 (LS:3002) Career Leadership Academy Phase 3 and 4 3 s.h.

Communication

At least 3 s.h. from these:

01:115 (INTM:3755) What is Storytelling For? 4 s.h.
036:012 (COMM:1112) Interpersonal Communication 3 s.h.
036:017 (COMM:1117) Theory and Practice of Argument 4 s.h.
036:018 (COMM:1818) Leadership and Organizational Procedures 2 s.h.
036:030 (COMM:1130) The Art of Persuading Others 3 s.h.
036:070 (COMM:1170) Communication Theory in Everyday Life 3 s.h.
036:091 (COMM:2091) Organizational Communication 3 s.h.
068:100 (BUS:3000) Business Communication and Protocol 3 s.h.
068:140 (BUS:3800) Business Writing 3 s.h.
06j:156 (MGMT:4100) Dynamics of Negotiations 3 s.h.

Cultural Competence

At least 3 s.h. from these:

016:040 (HIST:1040) Perspectives: Diversity in American History 3 s.h.
025:103 (MUS:3310) World Music 3 s.h.
078:150 (EPLS:4150)-078:151 (EPLS:4151) Leadership and Public Service I-II (both courses are required) 5 s.h.
129:116 (AFAM:3459) African American Literature Before 1900 3 s.h.
131:055 (GWSS:1002) Gender, Race, and Class in the U.S. 3 s.h.
16A:154 (HIST:3154)/131:158 (GWSS:3154) Sexuality in the United States 3 s.h.
165:126 (ABRD:3352) & 421:071 (LS:3010) International Perspectives: Xicotepec - Global Leadership Initiative (both courses are required) arr.
208:120 (CCCC:2220) Foundations of Critical Cultural Competence 3 s.h.
One elective approved for the Certificate in Critical Cultural Competence 3 s.h.

Students who use an elective approved for the Certificate in Critical Cultural Competence to satisfy this requirement must choose it from the list Elective Courses for Selected Categories: Certificate in Critical Cultural Competence.

Ethics and Integrity

At least 3 s.h. from these:

01H:182 (ARTH:4040)/091:192 (LAW:8163) Art, Law, and Ethics 3 s.h.
019:140 (JMC:3300) Media Law and Communication 3 s.h.
019:168 (JMC:4805) Journalism Ethics 3 s.h.
026:001 (PHIL:2401) Matters of Life and Death 3 s.h.
026:034 (PHIL:1034) Philosophy and the Just Society 3 s.h.

026:036 (PHIL:1636) Principles of Reasoning: Argument and Debate 3 s.h.
026:102 (PHIL:2402) Introduction to Ethics 3 s.h.
026:132 (PHIL:3432) Introduction to Political Philosophy 3 s.h.
026:135 (PHIL:3435) Philosophy of Law 3 s.h.
06j:132 (MGMT:3400) Law and Ethics in Management 3 s.h.
07C:195 (RCE:4195) Ethics in Human Relations and Counseling 3 s.h.
101:120 (PTRS:5100) Professional Issues and Ethics 1 s.h.
174:223 (HMP:6315) Seminar in Health Care Ethics 1-2 s.h.
216:080 (HRTS:2115) Introduction to Human Rights 3 s.h.

EXPERIENTIAL LEARNING

Certificate students must earn 3 s.h. in a course focused on experiential, or hands-on, learning. An experiential learning course may take different forms, such as a service learning experience, an internship, or an on-campus leadership practicum.

Before they may enroll in the hands-on course, students must have completed at least 9 s.h. of work toward the certificate, including the core course 421:072 (LS:2010) Perspectives on Leadership: Principles and Practices, so that they have a solid foundation of knowledge to apply to the experience.

Service Learning Courses

Service learning courses incorporate community engagement with academic course work. They allow students to gain hands-on experience along with a deeper understanding of course content while responding to real community needs. Students may satisfy the certificate's experiential learning requirement by earning 3 s.h. in service learning courses approved by the University of Iowa Center for Teaching or by completing 421:078 (LS:1008) Service Learning Fellow Course.

Students who satisfy the requirement with 421:078 (LS:1008) register for the course in order to receive credit for their service learning experience. Students must complete all course assignments and must earn 3 s.h. in order to fulfill the experiential learning requirement. The service learning experience must take place during the semester in which 421:078 (LS:1008) is offered. Service learning experiences completed during fall and spring semesters must last at least 15 weeks and must require eight hours of service per week; those completed during a summer session must last at least 10 weeks and must require 12 hours of service per week.

Students enrolled in 421:078 (LS:1008) meet weekly to discuss topics related to theory and practices of academic service learning, including how service learning relates to democracy, citizenship, and civic responsibility. Service that fulfills the certificate’s experiential learning requirement must be approved in advance by the instructor of 421:078 (LS:1008); contact the Pomerantz Career Center.

Internship

Internships consist of preapproved, supervised on-the-job learning; they may be paid or unpaid.

Students register for 421:073 (LS:3011) Leadership Certificate Internship in order to receive certificate credit for the internship; they must complete all course assignments and must earn 3 s.h. in order to fulfill the experiential learning requirement.
To meet the certificate's experiential learning requirement, an internship must consist of professional experience that relates to the student's major field of study or career interest area and allows the student to build on the academic course work he or she has completed in the certificate program. At least 80 percent of the student's internship duties must be professional-level work, and the student must receive continuous supervision by a professional (not a student) in the internship field. The internship must last a minimum of 6 weeks and must require 225 hours of work.

Internships that fulfill the certificate's experiential learning requirement must be approved in advance by one of the certificate program's internship advisors, and the internship site supervisor must agree to the terms of the internship and must complete the required form before the internship may be approved. Students may work with staff at the Pomerantz Career Center to find an approved internship opportunity, or they may develop their own internship.

For more information about internships, see Internships/Students on the Pomerantz Career Center web site.

**On-Campus Leadership Practicum**

Students who wish to fulfill the experiential learning requirement with an on-campus leadership practicum must engage in a formal, approved experience that is meaningful, educational, and cocurricular. It must require the student to take initiative and pursue active leadership roles and responsibilities. Examples include positions as student organization leaders, student government leaders, University Housing resident assistants, student orientation advisors, peer educators, and fraternity and sorority leaders. Practicums may be paid or unpaid.

Students register for 413:125 (STS:1125) Leadership Certificate Practicum Class in order to receive certificate credit for the practicum; they must earn 3 s.h. in order to fulfill the experiential learning requirement. Students meet weekly in the practicum course to discuss topics related to the academic course work as applied in practice, and they must successfully complete a goal-setting assignment and a reflection assignment.

To meet the certificate's experiential learning requirement, a practicum must last at least 15 weeks during the semester in which 413:125 (STS:1125) is offered and must require 10-15 hours of work per week [413:125 (STS:1125) is not offered every semester].

Practicums that fulfill the certificate's experiential learning requirement must be approved in advance by the leadership practicum instructor in the University's Center for Student Involvement and Leadership. Students must submit a list of goals and assignments and/or duties they will complete during the practicum, to demonstrate that the practicum will provide substantive work assignments and opportunities to build on the academic course work they have completed in the certificate program.

Each student also must identify a practicum mentor and demonstrate that the mentor will be willing to guide and evaluate the student's work and development of leadership skills, and will participate in reviewing the student’s goal-setting assignment and in the final review of the student’s performance.

**PERSONAL AND PROGRAM EVALUATION**

In order to be awarded the Certificate in Leadership Studies, students must complete a final report detailing how they completed the certificate requirements. The report should include a list of all courses taken for the certificate, indicating the requirement each course met, when each course was taken, and what grade the student earned for each course.

**Other Undergraduate Programs**

**Career Leadership Academy**

The Career Leadership Academy is a four-semester sequence of courses designed to help undergraduate students develop vital skills for leadership and employment: communication, interpersonal, and presentation skills and the ability to work well with others. The program consists of weekly seminars, activities, and events. Participants also have access to exclusive programs such as career exploration opportunities, networking events, and leadership development experiences.

421:076 (LS:2002) Career Leadership Academy Phase 1 3 s.h.
421:106 (LS:2000) Career Leadership Academy--Phase 1 2 s.h.
421:107 (LS:2001) Career Leadership Academy--Phase 2 2 s.h.
421:108 (LS:3001) Career Leadership Academy--Phase 3 2 s.h.
421:109 (LS:4001) Career Leadership Academy--Phase 4 1 s.h.
421:110 (LS:3002) Career Leadership Academy Phase 3 3 s.h.
and 4

For more information, see Career Leadership Academy on the Pomerantz Career Center web site.

**Global Leadership Initiative**

The Leadership Studies Program offers 421:071 (LS:3010) Global Leadership Initiative (1 s.h.), an online course designed to help those engaged in international experiences develop their leadership knowledge, awareness, and skills. Individuals involved in study abroad, international internships, international exchange programs, or employment opportunities that involve international cooperation may enroll in the course concurrently with their international experiences. The course includes online discussion with other students, guided reflection, opportunities to engage with successful leaders in cross-cultural roles, pre- and postexperience assessment, and direction for continued development of global leadership competence after the course concludes.

**Courses**

421:010 (LS:2012) Communication Skills for Leaders 1 s.h.

Shortcomings that exist in today’s world, where messages are typically conveyed in 140 characters or less, and when people need to communicate effectively as leaders; how to develop and improve essential communication skills in order to be effective leaders in professional and personal relationships; road trip with visits to different organizations to learn how communication is used effectively in the workplace in a variety of settings; opportunity to network and develop communication skills in interactions with employers.
421:011 (LS:2013) Strengths-Based Leadership 1 s.h.
Examination and evaluation of personal unique talents, be more engaged, and gain better understanding of leadership from a "Strengths" perspective; how to maximize strengths to stand out from the crowd; how society encourages people to be well-rounded (according to Gallup Organization's Strengths research) and how this pursuit of many goals can actually result in mediocrity.

421:012 (LS:2014) PCC Leadership Internship 0 s.h.
Opportunity to develop and improve leadership and professional skills in a structured environment; skills employers seek in new graduates; evaluation of internship experience; for students who have secured an internship focused on leadership and professional skills development in the Pomerantz Career Center and related programs. Requirements: sophomore or higher standing, completion of at least 12 s.h. of UI course work, secured internship approved in advance by instructor, and compliance with Pomerantz Career Center internship requirements.

421:014 (LS:2016) UI STEP--Student to Employed Professional 1 s.h.
Current employment trends, changes in employer recruitment, and career preparation procedures as undergraduate students; analysis of current employment and University experiences through self-assessment activities; development of a personal action plan to minimize experience gaps; expectations of entry-level employees in résumé, interview, and on-the-job performance; small-group discussion, online discussion boards, assigned readings, education workshops, and action activities. Requirements: student hourly or work-study employment. Recommendations: sophomore or junior standing.

421:018 (LS:1018) Issues in College Residence Halls I 1 s.h.
Development of knowledge and skills required for work as a resident assistant: creating community, handling crises and emergencies; leadership.

421:019 (LS:1019) Issues in College Residence Halls II 1 s.h.
Continuation of 421:018 (LS:1018).

Introduction to theoretical approaches to service learning; shared experiential learning event off campus (i.e., alternative break) coordinated by professional or graduate staff member; variety of concepts including intersectionality of varied social and community issues, reflection and reciprocity, active citizenship and community building, practical implementation of skills from student's academic disciplines, leadership development, and other related areas; five expectations of the IOWA Challenge, with emphasis on STRETCH and SERVE, through education, direct service, and reflection. Requirements: application and acceptance to program.

421:071 (LS:3010) Global Leadership Initiative 1 s.h.
Development of knowledge, attitudes, and skills to be effective global leaders regardless of the industry or field; working effectively in a global environment with empathy; ability to deal with ambiguity and unfamiliarity; critical thinking and comparative skills, including the ability to think creatively and integrate knowledge; pre- and post-travel assessment, guided reflection, guest speakers, online discussion; intercultural communication; online course for students engaged in a study abroad experience or international internship. Requirements: concurrent enrollment in a study abroad or international internship experience, or completing an international component of current employment.

Broad foundation of leadership knowledge representing diverse approaches to studying and practicing leadership; core course for students pursuing the leadership certificate. Requirements: sophomore standing.

421:073 (LS:3011) Leadership Certificate Internship 0,3 s.h.
Registration of practical work experience (internship) with leadership components, for students pursuing the leadership certificate. Prerequisites: 421:072 (LS:2010). Requirements: an additional 6 s.h. of approved leadership course work.

421:075 (LS:1005) Leadership Community Seminar 0-1 s.h.
Opportunity to expand on content and deepen discussion from Career Leadership Academy; leadership skill development through workshops and programs; meaningful involvement and engagement on campus and in community through service learning opportunities; team building through a variety of initiatives and student-led programming; mentors participate while sharing their knowledge, skills, and experiences. Requirements: Leadership Learning Community member or Career Leadership Academy peer mentor.

421:076 (LS:2002) Career Leadership Academy Phase 1 and 2 3 s.h.

421:077 (LS:1007) The 7 Habits of Highly Successful College Students 1 s.h.
Workshop to help students change their approach to responsibilities, relationships, problems, and opportunities; balancing aspects of college life through time management skills; uncovering and exploring a personal mission and setting goals; increase trust levels and proactive behaviors; developing strong relationships with other students and professors; understand and effectively meet needs and expectations of professors, family, and others most important to student; setting priorities to achieve what matters most.
421:078 (LS:1008) Service Learning Fellow Course  3 s.h.
Basic theory and practices of academic service-learning, including how it connects to higher education priorities of democracy, citizenship, and civic responsibility; practical skills and deep learning related to student’s major and/or career goals by incorporating community engagement with academic course work; key theoretical elements of establishing and maintaining successful community partnerships; awareness of potential benefits to students and communities derived from development of civic capacity and community leadership skills. Prerequisites: 421:072 (LS:2010). Requirements: an additional 6 s.h. of approved leadership course work.

National Coalition Building Institute (NCBI) and Cultural Intelligence Quotient (CQ) skill-based training to become more culturally intelligent leaders; in-class participation by employers, networking, learning how these principles take shape in the real world at their respective organizations; book of student’s résumés provided to employers at completion of course. Requirements: sophomore or higher standing.

421:080 (LS:1009) Mock Trial  2 s.h.
Legal analysis and argumentation, public performance, participation in the University of Iowa Mock Trial Club; mock trial role preparation, tournament competition, stage annual club tournament.

421:106 (LS:2000) Career Leadership Academy--Phase 1  2 s.h.
Leadership history and concepts, goal setting, the Relational Leadership Model, personal values and ethics, meaningful involvement and engagement, time and stress management, career development information, and varied self-awareness assessments and interest inventories. First in a four-semester sequence. Requirements: completion of 15 s.h.

421:107 (LS:2001) Career Leadership Academy--Phase 2  2 s.h.
Group dynamics and teambuilding, understanding others, effective communication and listening, delivering presentations, problem solving, and dealing with difficult people; participation in a team-building workshop. Second in a four-semester sequence. Prerequisites: 421:106 (LS:2000).

421:108 (LS:3001) Career Leadership Academy--Phase 3  2 s.h.

421:109 (LS:4001) Career Leadership Academy--Phase 4  1 s.h.
Professionalism and office communication, marketing one’s skills, transitioning from college to the workforce, negotiating salaries, understanding benefits, realistic expectations of an entry-level position, and building a career. Last in a four-semester sequence. Prerequisites: 421:076 (LS:2002), or 421:106 (LS:2000) and 421:107 (LS:2001); and 421:108 (LS:3001).

421:110 (LS:3002) Career Leadership Academy Phase 3 and 4  3 s.h.

421:126 (LS:3009) Global Leadership Initiative in Xicotepec  1-3 s.h.
Culture, history, and values of Mexico; leadership skills and work on civil and humanitarian projects; reflection of learning and experiences; spring break week in Xicotepec, Mexico. Requirements: participation in Career Leadership Academy.
Lifetime Leisure Skills

Director
• Robert DuBay

Web site: http://www.recserv.uiowa.edu/

Lifetime Leisure Skills courses are open to University of Iowa undergraduate and graduate students. Undergraduates in the College of Liberal Arts and Sciences may count credit earned in Lifetime Leisure Skills courses toward the minimum of 120 s.h. required for a bachelor’s degree. Students should consult with their academic advisors.

Courses

410:001 (LLS:4000) Independent Study
arr.
Individual study in an area of interest to students; course work determined by faculty supervisor.

410:002 (LLS:1002) Water Safety Instructor
1 s.h.
Training for instructor candidates to teach courses in the American Red Cross Swimming and Water Safety Program; how to use course materials, conduct training sessions, and evaluate participants’ progress.

410:003 (LLS:1003) Wilderness First Responder
2 s.h.
Tools to make critical medical and evacuation decisions in remote locations; practical skills, case studies, and scenarios designed to challenge decision making abilities; Wilderness Medicine Institute (WMI) adult and child CPR.

410:004 (LLS:1004) Waltz
1 s.h.
Beginning through intermediate-level waltz figures; performing a beautiful waltz routine; skills and knowledge to dance with confidence at any formal dance occasion.

410:005 (LLS:1005) Intermediate Ballroom Dancing: Rhumba, Cha Cha, Merengue
1 s.h.

1 s.h.

410:007 (LLS:1007) Introduction to Rowing
1 s.h.
Introduction to technique, vocabulary, and procedures needed to safely participate in the sport of rowing; use of rowing machines, rowing tank, and rowing shells.

410:008 (LLS:1008) Intermediate Kickboxing
1 s.h.
Aggressive workout utilizing heavy bags, coach’s mitts, and other equipment; conducted at moderate to intense pace using competitive kickboxing techniques, training methods, and equipment: kickboxing as a conditioning tool with self-defense as a byproduct; not designed to prepare for competition. Prerequisites: 410:047 (LLS:1047).

410:009 (LLS:1009) Introduction to the Outdoors
1 s.h.
Mastering fundamental skills needed to safely enjoy an extended experience in an outdoor environment; development of technical skills in “Leave No Trace” principles, outdoor cooking, useful knots, campsite selection, setup; participation in overnight experiential learning camping class; team work to demonstrate skills in completing camp chores.

410:010 (LLS:1010) Whitewater Kayak Playboating
1 s.h.
Basic paddle strokes and techniques of whitewater kayak playboating; taught in Field House pool and rivers in Iowa with whitewater kayaking parks. Recommendations: basic understanding of kayak paddling techniques, and previous whitewater kayaking experience or 410:049 (LLS:1049).

410:041 (LLS:1041) Scuba
1 s.h.
Basics of scuba diving. Taught in CRWC wet classroom and natatorium. Seven weeks.

410:042 (LLS:1042) Introduction to Rock Climbing
1 s.h.
Basics of rock climbing. Taught at Pictured Rocks County Park. Two days.

410:043 (LLS:1043) Bicycle Touring
1 s.h.
Basics of bicycle touring. Taught on Johnson County area roads.

410:044 (LLS:1044) Mountain Bicycling
1 s.h.
Basics of mountain bicycling. Taught on Sugar Bottom recreation trail system.

410:045 (LLS:1045) Leadership in the Outdoors
3 s.h.
Leadership theories, group dynamics, permits, outdoor leadership skills; experience as leader for a day during a weeklong wilderness field trip.

410:046 (LLS:1046) Tae Kwon Do
1 s.h.
Basics of Tae Kwon Do. Eight weeks.

410:047 (LLS:1047) Kickboxing
1 s.h.
Basics of kickboxing. Eight weeks.

410:048 (LLS:1048) Canoeing
1 s.h.
Basics of canoeing. Taught at Macbride Nature Recreation Area. Two days.

410:049 (LLS:1049) White-Water Kayaking
1 s.h.
Basics of white-water kayaking. Taught in Field House pool, rivers in Wisconsin, Missouri.

</table>
410:080 (LLS:1080) **Challenge Course Facilitation** 1 s.h.
How to lead groups through a low- and high-elements challenge course; sequencing of events, processing and debriefing techniques, front-loading games and initiatives, introducing games and initiatives; risk management issues in conducting challenge course activities; history of challenge courses.

410:081 (LLS:1081) **Hut-to-Hut Skiing** 1 s.h.
Cross-country skiing in Colorado’s 10th Mountain Hut System.

410:082 (LLS:1082) **Introduction to Bouldering** 1 s.h.
Basic skills and technique for bouldering with a partner. Taught at Horse Pens 40 in Alabama, and Rocktown in Georgia.

410:083 (LLS:1083) **Tandem Biking** 1 s.h.
How to ride a tandem bicycle with a partner; traffic principles for bike operation, safety for road operations, safe and comfortable tandem bike operations; equipment and accessories for tandem bikes.

410:084 (LLS:1084) **Late Night Outdoor Recreation** 1 s.h.
Nighttime outdoor activities such as moonlight kayaking and canoeing, night hiking, orienteering, bouldering.

410:085 (LLS:1085) **Bicycle Racing Techniques** 1 s.h.
Basic skills and techniques of bicycle racing.

410:086 (LLS:1086) **Stretch Strength Relaxation (RelaXercise)** 1 s.h.
Thorough exercise; strength, flexibility, full-body breathing techniques, relaxation methods for stress reduction and body-mind integration.

410:087 (LLS:1087) **Modern Dance for Fitness** 1 s.h.
Basic working knowledge of modern dance; introduction to modern dance styles, skills, physical art, and discipline; focus on movement, dance techniques and skill, performance, creative experience.

410:088 (LLS:1088) **Salsa Dancing** 1 s.h.
Fundamentals of Latin/Salsa dancing; musical rhythms, cultural history, postures, technique, basic movements; techniques for developing strength, stamina, balance, poise, and partner dancing skills; gender interaction and traditional social behaviors in salsa’s cultural context.

410:089 (LLS:1089) **Service Learning** 1 s.h.
Service learning project in an urban or wilderness setting; learn about local community, environment; projects depend on location, season.

410:090 (LLS:1090) **Rock Climbing Anchor Systems** 2 s.h.
Development of basic skills for climbing anchors; understanding setting top-rope anchors; use of bolts, trees, and passive and mechanical chocks for anchor setting; equalization of anchors; basic knots for rope, webbing, and cordelettes; basic understanding of the structural integrity and frictional forces important to anchor setting.

410:091 (LLS:1091) **Lifeguarding** 1 s.h.
American Red Cross lifeguard training through classroom learning, hands-on practice; surveillance skills for preventing and recognizing injuries; land and water rescue skills; first-aid training, professional rescuer CPR; professional lifeguard responsibilities (e.g., interacting with the public, addressing uncooperative persons); certification in lifeguarding, first aid, professional rescuer CPR, AED.

410:092 (LLS:1092) **Bicycling Southern States** 1 s.h.
Ride routes and trails between Memphis, TN and Vicksburg, MS; see everything from Graceland to cotton fields by bicycle; vehicle supported adventure, camp while exploring the Southern states.

410:093 (LLS:1093) **Intermediate Sea Kayaking** 1 s.h.
Experience paddling in the beautiful blue waters of Lake Powell, exploring remote hidden side canyons, enjoying the stunning landscape, camping on secluded beaches under the star filled sky; learn skills needed to be a safe and efficient sea kayak adventurer, including transportation of boats, entering and exiting the kayak in different conditions, paddle strokes, and rescue techniques; learn what equipment to bring on a sea kayak adventure and how to effectively pack boats while traveling and camping around Lake Powell.

410:094 (LLS:1094) **Land Navigation** 1 s.h.
Travel to the Southwest and learn navigation skills with map and compass; topics include declination, bearings, map reading and recognizing land features on topographical map; camping and backpacking to multiple campsites.

410:095 (LLS:1095) **Movement Analysis and Relaxation Techniques for Fitness** 1 s.h.
Intensive workshop about connections: body to mind, breathing to efficient strengthening and stretching, stability to mobility, exertion to recuperation, function to expression; objectively observe, record, analyze, and understand student’s own movement and that of classmates to bring positive change to movement habits and behavior which block energy and create unneeded stress, inhibit full movement ability and not allow for optimal, desired performance; mindful, efficient, articulate movement.

410:096 (LLS:1096) **Brazilian Jiu-Jitsu** 1 s.h.
Introduction to the sport of Brazilian jiu jitsu; basic self-defense, positional grappling, submissions, submission defense.

410:097 (LLS:1097) **Introduction to Lead Climbing** 1 s.h.
Lead climb using the 52.5 foot tall climbing wall at CRWC; lead fall, lead belay, and clip bolts while climbing; eligible to lead climb at UI Climbing Wall after completion of course. Prerequisites: 410:042 (LLS:1042).

410:098 (LLS:1098) **Yoga** 1 s.h.
Emphasis on mindfulness, breath awareness, and attention to alignment.

410:099 (LLS:1099) **Golf** 1 s.h.
Basic principles and fundamentals of the golf swing (i.e., full swing, pitching, chipping, putting); opportunity to practice skills at various facilities; history, basic rules, proper golf etiquette, and the evolution of golf related to technology.
Military Science (Army ROTC)

Head
• MAJ Joseph Albrecht

Professor
• MAJ Joseph Albrecht

Assistant professor
• MAJ Mike Belin, Ryan Miller, Tony Wolf

The Military Science Program administers Iowa Army ROTC. It gives students who wish to serve on active or reserve status in the U.S. Army the opportunity to earn commissions as army officers. It also administers merit scholarships from the United States government to qualified students.

Although the Military Science Program does not offer degrees, its courses provide education in the military’s role and instruction in leadership and management. The program’s courses are an essential part of the Iowa ROTC program, which competes annually in national leadership assessments.

Military Science Program courses are open to all students. Course credit that counts toward graduation varies by college. Students in the College of Liberal Arts and Sciences may count up to 20 s.h. earned in military sciences courses toward graduation.

Programs

Basic Course

The ROTC basic course is designed primarily for first- and second-year students. It provides the fundamentals of leadership and management and introduces the roles of the military as influenced by national and foreign policy. Students incur no obligation to the military for participation in the basic course.

023:101 (MILS:1010) Leadership and Personal Development MSL101 1 s.h.
023:102 (MILS:1020) Introduction to Tactical Leadership MSL102 1 s.h.
023:103 (MILS:2010) Innovative Team Leadership MSL201 2 s.h.

The basic course requirements may be taken over a one- or two-year period or during a four-week paid summer camp, the Leader’s Training Course (LTC), at Fort Knox, Kentucky. Students with prior military training normally are exempt from the basic course requirements.

Advanced Course

The ROTC advanced course is open to any student who meets the prerequisites, but it is designed primarily for cadets who wish to pursue a commission as a lieutenant in the U.S. Army upon graduation. It is open to both undergraduate and graduate students. Most cadets in the advanced course incur an obligation to the military that can be satisfied in the Active Army, Army Reserve, or Army National Guard.

To enter the advanced course, students must satisfy the basic course requirements, earn at least 54 s.h., and have a cumulative g.p.a. of at least 2.00. In order to become U.S. Army officers, cadets must complete the Leadership Development and Assessment course (LDAC), a five-week session held at Fort Lewis, Washington. Cadets normally attend LDAC during the summer between their third and fourth years. With the military science professor’s permission, cadets may delay LDAC until the summer after their final ROTC class.

A tax-free monthly stipend is provided to cadets who enter a contractual agreement with ROTC to serve in the armed forces. Additional financial assistance may be provided through scholarships.

The following courses are the academic requirements for completion of the advanced course. Some of these courses have prerequisites and corequisites, so students must be careful to take courses in the correct order. Prerequisites and corequisites for each course are listed with course descriptions; see “Courses” at the end of this section.

023:090 (MILS:1090) Leadership Laboratory 0 s.h.
023:095 (MILS:1095) Advanced Military Fitness Training 1 s.h.
023:105 (MILS:3010) Adaptive Tactical Leadership MSL301 3 s.h.
023:106 (MILS:3020) Leadership in Changing Environments MSL302 3 s.h.
023:107 (MILS:4010) Developing Adaptive Leaders MSL401 3 s.h.
023:108 (MILS:4020) Leadership in a Complex World MSL402 3 s.h.

Additional Course Work

Cadets whose aim is a commission must satisfy a Professional Military Education (PME) requirement. They must complete at least one course in military history from the following list. This course may be the same as one used to complete the College of Liberal Arts and Sciences General Education Program (p. 306). Cadets may use other courses to meet the requirement, with the military science professor’s approval.

016:011 (HIST:1016) Issues in Human History: Europe’s Expansion Overseas 3 s.h.
016:012 (HIST:1012) Issues in Human History: Europe’s Expansion Overseas 3 s.h.
16A:153 (HIST:4264) U.S.A. in a World at War 1931-1945 3 s.h.
16A:162 (HIST:4271) American Revolutionary Period 1740-1789 3 s.h.
16A:166 (HIST:4256) The Progressive Era in America 3 s.h.
Courses

023:090 (MILS:1090) Leadership Laboratory 0 s.h.
Hands-on training in basic soldier skills, such as customs and courtesies, drill and ceremony, first aid, weapons employment, troop movement techniques; leadership training for U.S. army officership. Offered fall and spring semesters.

023:095 (MILS:1095) Advanced Military Fitness Training 1 s.h.
Aerobics and running, muscular strength and endurance, flexibility, and nutrition through exercise and classroom instruction; how to evaluate and measure fitness improvement; developed around Army physical fitness training program. Offered fall and spring semesters.

023:101 (MILS:1010) Leadership and Personal Development MSL101 1 s.h.
Introduction to the personal challenges and competencies critical for effective leadership; how skills such as critical thinking, goal setting, time management, physical fitness, and stress management relate to leadership, officership, and the army as a profession; dimensions of army leadership; understanding of the ROTC program, its purpose in the army, its advantages for students. Offered fall semesters.

023:102 (MILS:1020) Introduction to Tactical Leadership MSL102 1 s.h.
Leadership fundamentals such as setting direction, problem solving, listening, presenting briefs, providing feedback, using effective writing skills; leadership values, attributes, skills, and actions explored through hands-on, interactive exercises; cadre role models, development of strong relationships among students through common experience, practical interaction. Offered spring semesters.

023:103 (MILS:1030) Innovative Team Leadership MSL201 2 s.h.
Dimensions of creative, innovative tactical leadership strategies and styles explored through team dynamics and historical leadership theories (trait and behavior) central to the Army leadership framework; personal motivation and team building through planning, executing, and assessing team exercises and participating in leadership labs; continued development of leadership values and attributes through understanding army rank, structure, duties, basic aspects of land navigation and squad tactics; case studies on soldier’s creed and warrior ethos in the contemporary operating environment. Offered fall semesters. Prerequisites: 023:101 (MILS:1010) and 023:102 (MILS:1020).

023:104 (MILS:1040) Foundations of Tactical Leadership MSL202 2 s.h.
Challenges of leading tactical teams in the complex contemporary operating environment; dimensions of terrain analysis, patrolling, operation orders; theoretical basis of the army leadership framework, dynamics of adaptive leadership in the context of military operations; self-assessment of cadet leadership styles, practice in communication and team building skills; case studies on importance and practice of teamwork and tactics in real-world scenarios. Offered spring semesters. Prerequisites: 023:101 (MILS:1010), 023:102 (MILS:1020), and 023:103 (MILS:2010).

023:105 (MILS:3010) Adaptive Tactical Leadership MSL301 3 s.h.
Study, practice, and evaluation of adaptive leadership skills in challenging scenarios related to squad tactical operations; feedback on cadets’ leadership attributes and actions, continued development of leadership and critical thinking abilities; development of tactical leadership abilities in preparation for Leadership Development and Assessment Course (LDAC). Offered fall semesters. Corequisites: 023:090 (MILS:1090) and 023:095 (MILS:1095). Requirements: 023:101 (MILS:1010), 023:102 (MILS:1020), 023:103 (MILS:2010), and 023:104 (MILS:2020); or completion of army basic training or Leader’s Training Course.

023:106 (MILS:3020) Leadership in Changing Environments MSL302 3 s.h.
Development of cadet awareness and tactical leadership to platoon level, through increasingly intense situational leadership challenges; experience reviewing combat, stability, and support operations, conducting military briefings, developing proficiency in garrison operation orders; focus on exploring, evaluating, and developing skills in decision making, persuasion, and motivation of team members in a contemporary operating environment; preparation for summer Leader Development Assessment Course. Offered spring semesters. Prerequisites: 023:105 (MILS:3010). Corequisites: 023:090 (MILS:1090) and 023:095 (MILS:1095). Requirements: 023:101 (MILS:1010), 023:102 (MILS:1020), 023:103 (MILS:2010), and 023:104 (MILS:2020); or completion of army basic training or Leader’s Training Course.

023:107 (MILS:4010) Developing Adaptive Leaders MSL401 3 s.h.
Development of proficiency in planning, executing, and assessing complex operations, functioning as member of a staff, providing performance feedback to subordinates; experience assessing risk, making ethical decisions, leading fellow cadets; military justice and personnel processes in preparation for officership; identification of key staff responsibilities, coordination of staff roles, use of situational opportunities to teach, train, and develop subordinates. Offered fall semesters. Prerequisites: 023:105 (MILS:3010) and 023:106 (MILS:3020). Corequisites: 023:090 (MILS:1090) and 023:095 (MILS:1095).

023:108 (MILS:4020) Leadership in a Complex World MSL402 3 s.h.
Leader dynamics in complex military operations of the contemporary operating environment; differences in customs and courtesies, military law, principles of war, rules of engagement in the face of international terrorism; interaction with nongovernmental organizations, civilians on the battlefield, host nation support; ethical and practical demands on army commissioned officers; preparation for first unit assignment through case studies, scenarios, exercises. Offered spring semesters. Prerequisites: 023:105 (MILS:3010), 023:106 (MILS:3020), and 023:107 (MILS:4010). Corequisites: 023:090 (MILS:1090) and 023:095 (MILS:1095).

Financial Aid

Military Science offers two-, three-, and four-year ROTC scholarships for students who enter the ROTC program. These scholarships pay tuition at The University of Iowa, an allotment for books and supplies each semester, most mandatory educational fees, and a tax-free monthly stipend during the academic year. Scholarships also are available for nursing students who wish to become Army nurses.
023:121 (MILS:3121) Readings in Contemporary Military Issues

1-3 s.h.

Preparation of book reviews from a reading list provided by the instructor, with topics ranging from historical battles and campaigns to global impact of U.S. political policies; or writing of an operations order relating to an ROTC event or similar project of historical significance (work in conjunction with instructor).

Requirements: 023:101 (MILS:1010), 023:102 (MILS:1020), 023:103 (MILS:2010), and 023:104 (MILS:2020); or completion of army basic training or Leader’s Training Course.
Nonprofit Management

Coordinator
• Jared S. Trullinger

Undergraduate certificate: nonprofit management
Web site: http://www.continuetolearn.uiowa.edu/programs/certificates/nonprofmanagement.html

Nonprofit organizations play vital roles in our communities and contribute to our quality of life. Nonprofit organizations have unique management, funding, and finance issues that require specialized training. The Certificate in Nonprofit Management is designed to help staff members, board members, and volunteers develop the business and leadership skills necessary for building a successful nonprofit organization. The program provides a balance of academic principles and real-world experience as well as a fundamental understanding of how nonprofit organizations participate in building communities.

Certificate courses cover a wide range of topics and issues, such as community and government partnerships, organizational leadership, planning, human resources, financial accountability, grant writing, and web site creation and maintenance.

Courses are offered primarily online.

The Certificate in Nonprofit Management is administered by the Division of Continuing Education and the Larned A. Waterman Iowa Nonprofit Resource Center, in collaboration with University College.

Undergraduate Program of Study

• Certificate in Nonprofit Management

Certificate

The Certificate in Nonprofit Management requires a minimum of 18 s.h. of credit. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor’s degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Completion of the certificate is noted on the student’s transcript.

See the Certificate in Nonprofit Management web site for details about how to enter the program.

Bachelor of Applied Studies (p. 1188) and Bachelor of Liberal Studies (p. 1191) students may be able to incorporate certificate courses into their degree programs; students should consult their advisors.

The Certificate in Nonprofit Management requires the following course work.

FOUNDATION COURSES

Students should complete these two courses before they enroll in the remaining certificate course work.

Students complete one of the following three courses. Two of them, 06T:120 (ENTR:2000) and 06T:125 (ENTR:3520), have corequisites; see the course descriptions on ISIS for choice of corequisites [06T:050 (ENTR:1000) Foundations in Entrepreneurship is the only corequisite that may be taken online].

06J:125 (MGMT:3100) Entrepreneurial Strategy 3 s.h.
06T:120 (ENTR:2000) Entrepreneurship and Innovation 3 s.h.

ELECTIVES

Students earn a minimum of 9 s.h. in courses chosen from this list.

01P:185 (ARTS:3400) Grant Writing in the Arts 3 s.h.
06T:147 (ENTR:3500) Social Entrepreneurship 3 s.h.
07E:181 (EDTL:4081)/07P:181 (PSQF:4081)/07X:181 (EALL:4081)/07B:181 (EPLS:4081) ePortfolio Production 1-2 s.h.
07U:136 (EDTL:4936)/07P:136 (PSQF:4136) Home/School/Community Partnerships 3 s.h.
030:110 (POLI:3123) State Politics in Iowa 3 s.h.
030:111 (POLI:3110) Local Politics 3 s.h.
036:019 (COMM:1819) Organizational Leadership 2-3 s.h.
042:204 (SSW:3904) Human Services Administration 2 s.h.
187:180 (IS:3910)/216:180 (HRTS:3910) Human Rights Advocacy 3 s.h.
Orientation Training

**Director**
- Jon Sexton

**Web site:** http://fye.uiowa.edu/orientation-welcome-iowa

The University of Iowa holds orientation programs presented by Orientation Services staff members for all incoming undergraduates. Parents and guardians are invited to attend separate but concurrent orientation programs.

The Orientation Training Program offers the following courses for student employees who assist the Orientation Services professional staff in presenting orientation programs. Hawkeye Guides are required to take 412:077 (ORT:1077) Orientation Leader Training.

**Courses**

*412:077 (ORT:1077) Orientation Leader Training* 2 s.h.
Preparation for role of Hawkeye Guide in the Office of Orientation Services; knowledge of academic requirements, policies, and procedures at The University of Iowa; development of leadership, group facilitation, presentation, and peer mentoring skills.
Patient Care Practicum

**Director**

• Beth F. Ingram

The Patient Care Practicum prepares students for work and/or internships at University of Iowa Hospitals and Clinics (UIHC). Students complete required online training modules through the University’s course management system. Once the training modules are completed, students are certified to work at UIHC.

**Courses**

414:198 (PCP:3198) UIHC Compliance Training 0 s.h.
Secondary Student Training Program

**Director**
- Janice M. Warren

**Web site:** [http://www2.education.uiowa.edu/belinblank/Students/summer/programs/9-11/ssstp/](http://www2.education.uiowa.edu/belinblank/Students/summer/programs/9-11/ssstp/)

**Precollege Program**

Students who are currently in grades 10-11 may nominate themselves for the Secondary Student Training Program (SSTP), a six-week residential summer research program at The University of Iowa. SSTP students conduct scientific research in University laboratories under the guidance of a faculty mentor. They also produce a research project paper as a part of the program.

Students who participate in the program pay an SSTP fee that covers room, board, all materials, and admission to all regularly scheduled activities. They also pay University of Iowa tuition for a required 3 s.h. of credit. Students and their families are responsible for their transportation to and from SSTP and for incidental expenses, such as souvenirs and snacks. Students are considered for financial aid after they are selected for the program.

The Secondary Student Training Program is administered by the Belin-Blank International Center for Gifted Education and Talent Development. For more information, contact the Belin-Blank Center.

**Courses**

**418:001 (SSTP:1001) Secondary Student Training Program**

3 s.h.

Experience conducting research under the guidance of a faculty mentor; presentation of research findings at concluding seminar. Six weeks.
Student Information Technology Skills

**Director**
- Mary Grabe (Information Technology Services)

**Web site:** http://helpdesk.its.uiowa.edu/training/

Student Information Technology Skills offers courses for students who are interested in on-campus employment providing IT support or creating and maintaining web sites. Students are graded on participation in online and class discussions and projects. They must obtain the instructor’s consent before registering for these courses.

**Courses**

416:102 (*SITS*:3102) **Core IT Support Skills**

Knowledge and hands-on skills necessary for supporting computers in an institutional setting; basic hardware, operating systems, application, and networking support topics.
Student Services

Director

Web site: http://imu.uiowa.edu/center-for-student-involvement-and-leadership/

Student Services focuses on leadership development opportunities for University of Iowa students, offering four courses through the Center for Student Involvement and Leadership. Three focus on leadership: 413:050 (STS:1050) Introduction to Leadership, 413:100 (STS:1100) President’s Leadership Class (PLC), and 413:125 (STS:1125) Leadership Certificate Practicum Class. The fourth, 413:075 (STS:1075) Current Issues and Leadership in Fraternity and Sorority Life, examines the experience of belonging to these organizations and looks at how their cocurricular activities and programs enhance students’ college experiences.

Courses

413:050 (STS:1050) Introduction to Leadership 3 s.h.
Overview of leadership theory and skills for effective leadership; historical perspective, development of a personal philosophy of leadership, self-assessments, leadership models; study of groups, culture, and communities, and apply what learned in experiential learning settings; geared toward emerging student leaders.

413:075 (STS:1075) Current Issues and Leadership in Fraternity and Sorority Life 3 s.h.
Current issues facing leaders (alcohol and hazing education, conflict management, lasting impact of organizations on members); lifetime membership and values-based decision making; for leaders of fraternity and sorority community.

413:100 (STS:1100) President’s Leadership Class (PLC) 3 s.h.
Meetings on current UI issues and the UI Presidents’ philosophy on leadership; leaders from inside and outside the University, including Board of Regents, political leaders, influential alumni, student leaders, professors, coaches, other administrators; activities linked to the development of personal leadership style. Requirements: first-year standing and application.

413:125 (STS:1125) Leadership Certificate Practicum Class 3 s.h.
Meaningful and educational cocurricular experiences in on-campus leadership positions (i.e., student organization leader, student government leader, residence assistant, student orientation advisor, peer educator, fraternity/sorority leader); active leadership roles and responsibilities (i.e., executive leadership position, initiating and organizing a major event); application of leadership models and theories to practical experiences; for students completing the leadership certificate. Requirements: leadership certificate program enrollment, completion of introductory course requirements (general leadership pillar), completion of 9 s.h. in certificate program, and meet with instructor prior to enrollment.
Study Abroad

Web site: http://international.uiowa.edu/study-abroad/

The University of Iowa sponsors or cosponsors a wide variety of study abroad programs in approximately 50 countries. Students may choose from summer, fall or spring semester, academic year, and winter session programs that complement and extend the University’s academic programs across the curriculum.

Students also may participate in study abroad programs sponsored by other accredited U.S. and foreign institutions. They should obtain advance approval of all transfer credit by completing a Study Abroad Credit Approval Form.

Information on University of Iowa and other study abroad programs is available from International Programs Study Abroad.

Courses

165:105 (ABRD:4510) International Student Exchange Program
Study on reciprocal exchange at foreign universities worldwide; some instruction in English. Year-long, one semester, and summer options. Requirements: 40 s.h. of credit, g.p.a. of at least 3.00, and in some cases, command of a foreign language. Arranged through Tippie College of Business.

165:117 (ABRD:4040) Frankfurt Exchange Program
Regular degree course work in business and economics at Johann Wolfgang Goethe Universität; courses taught in German. Semester or academic year. Arranged through Tippie College of Business. Requirements: two years of college German or equivalent, and relevant academic background.

165:119 (ABRD:4055) Vienna Exchange Program
Regular degree course work in business administration and economics at Wirtschaftsuniversität in Vienna, Austria; taught in English and German. Semester or academic year. Arranged through Tippie College of Business. Requirements: one year of college German, g.p.a. of at least 2.75, and relevant academic background.

165:126 (ABRD:3352) International Perspectives: Xicotepec
Introduction to providing service to communities in underdeveloped countries through discipline-specific projects to improve community life in Xicotepec, Mexico; cultural and professional preparation for team work in an international environment; service-learning course in collaboration with Rotary International. Spring break in Xicotepec, Mexico.

165:197 (ABRD:3445) International Development: India
Exploration of student interests in social entrepreneurship, global health, microfinance, cultural production, environmental sustainability, or other development issues in India; varied disciplinary perspectives (i.e., public health, business, social work, geography, art); student work with Indian NGOs employing a diverse variety of techniques to address social problems such as child labor, health care for the poor, illiteracy, and disability services; led by UI faculty. Winter session.

165:200 (ABRD:3200) CIEE Alcala Liberal Arts Program
Solidify informal and academic language skills of advanced students of Spanish; development of appreciation and understanding of issues relevant to contemporary Spain and its people. Semester or academic year program. Requirements: 2.75 g.p.a. and at least four to five semesters of college-level Spanish.

165:201 (ABRD:3201) CIEE Alcala Language and Culture Program
Established in 1999, the CIEE Study Center at the Universidad de Alcala (Alcala de Henares, Spain) provides an academic program for students with a high-intermediate to advanced-level of Spanish; the summer program (established in 2008) consists of language and culture courses offered through the Institute; all courses offered in Spanish; many approved for Spanish majors, minors, and general education requirements, and may be approved for other degree requirements; 6 s.h. taken in each four-and-one-half-week session. Requirements: 2.75 cumulative g.p.a., 3.00 g.p.a. in most recent Spanish course, four semesters of college-level Spanish, and valid passport at time of application.

165:205 (ABRD:3205) CIEE Alicante Language and Culture Program
Rapid progress in language skills while taking area studies courses related to Europe and Spain; linguistic development and cultural immersion promoted through housing in Spanish-speaking homes and supplementary visits and excursions; administered by the Council on International Education Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 2.75 minimum g.p.a., three to four semesters of college-level Spanish, and valid passport at time of application.

165:206 (ABRD:3206) CIEE Alicante Language and Culture Summer Program
Development of Spanish language skills and knowledge of Spanish art, cinema, and culture in Alicante, Spain; linguistic development and cultural immersion through housing in Spanish-speaking homes, supplementary visits and excursions, content courses in Spanish, and direct enrollment at the University of Alicante; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member; for students with varying levels of Spanish. Summer. Requirements: 2.75 cumulative g.p.a., four semesters of college-level Spanish, and valid passport at time of application.

165:207 (ABRD:3207) CIEE Alicante Language in Context Program
Solid foundation provided in Spanish language; improvement of language skills while pursuing studies focusing on Spain and Europe; topics in history, art history, political science, and international business; intensive language course work; area studies courses in English, conversation exchange program, excursions, and homestays; administered by the Council on International Educational Exchange (CIEE). Requirements: 2.75 minimum g.p.a., two semesters or less of college-level Spanish, and valid passport at time of application.

165:208 (ABRD:3208) CIEE Alicante Liberal Arts Program
Development of spoken and written Spanish language skills; linguistic development and cultural immersion promoted through housing in Spanish-speaking homes, supplementary visits and excursions, content courses in Spanish, and direct enrollment at the University of Alicante; administered by the Council on International Education Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 2.75 minimum g.p.a., at least five semesters of college-level Spanish, and valid passport at time of application.

165:215 (ABRD:3215) CIEE Barcelona Advanced Liberal Arts Program
Development of fluency through direct enrollment in a wide range of regular university classes; classes taken alongside Spanish classmates who become friends and guides to the culture; dramatic improvement of Spanish language skills while living the language every day in the city and the university; for students with advanced Spanish language skills. Semester or academic year. Requirements: 3.00 minimum g.p.a., at least six semesters of college-level Spanish, and valid passport at time of application.

165:216 (ABRD:3216) CIEE Barcelona Architecture and Design Program
Exploration of the intersection of two fields in a city famous for its vibrant architecture and innovative design; courses offered by ELISAVA and CIEE allow a unique opportunity to collaborate in a joint core class alongside courses in student’s track and Spanish language; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 3.00 cumulative g.p.a. and valid passport at time of application; for design track students — design or related major or minor and four semesters of college-level Spanish.

165:217 (ABRD:3217) CIEE Barcelona Business and Culture Program
Development of competency in Spanish language while studying issues related to business in Spain and the European Union, Spanish language and culture; company visits, excursions, and homestays or student residence option in the vibrant city of Barcelona contribute to students’ cultural immersion and development of language skills; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member; for highly motivated students with a strong Spanish background, from any academic discipline. Requirements: g.p.a. of at least 3.00, six semesters of college-level Spanish, junior standing or above, and valid passport at time of application. Recommendations: good background in math/statistics in order to grasp the more theoretical focus of European business instruction.

165:218 (ABRD:3218) CIEE Barcelona Economics and Culture Program
Classes at a Spanish university for students with varying levels of Spanish and a strong background in economics; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 3.25 cumulative g.p.a., three semesters of microeconomics or macroeconomics, one semester of calculus, and valid passport at time of application.

165:219 (ABRD:3219) CIEE Barcelona Language and Culture Program
Development of skills and competency in Spanish language while studying Spanish history, arts, politics, and culture; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 3.00 cumulative g.p.a., junior standing, one to three semesters of college-level Spanish, and valid passport at time of application.

165:220 (ABRD:3220) CIEE Barcelona Language and Culture Summer Program
Rapid progress in language skills while taking language, culture, or business courses in Barcelona; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member; for students with varying levels of Spanish. Summer. Requirements: 2.75 cumulative g.p.a. and four semesters of college-level Spanish.

165:221 (ABRD:3221) CIEE Barcelona Liberal Arts Program
Development of skills and competency in Spanish language while studying Spanish history, politics, and culture at Universitat Pompeu Fabra; cultural immersion and development of language skills through excursions and homestays or student residence option in the vibrant city of Barcelona; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 3.00 cumulative g.p.a., junior standing, four semesters of college-level Spanish, and valid passport at time of application.

165:230 (ABRD:3230) CIEE Madrid Legal Studies Program
Opportunity to further develop Spanish language skills while pursuing cocurricular program focused on law and public policy in Spain; goals achieved through a specially-designed language course, course on legal issues in Spain, an optional internship, and law and political science elective course at the Universidad Carlos III de Madrid; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member; for highly motivated students with a strong Spanish background, from any academic discipline. Requirements: g.p.a. of at least 3.00, six semesters of college-level Spanish, junior standing or above, and valid passport at time of application. Recommendations: good background in math/statistics in order to grasp the more theoretical focus of European business instruction.

165:231 (ABRD:3231) CIEE Madrid Liberal Arts Program
Opportunity to matriculate in a combination of content courses in Hispanic studies, regular university courses, and short seminars while continuing to improve language skills and take advantage of the vibrant and rich cultural milieu of Madrid; linguistic development and cultural immersion promoted through housing in Spanish-speaking homes, and supplementary visits and excursions; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member; for independent, advanced-level students. Semester or academic year. Requirements: 3.00 minimum g.p.a., five or six semesters of college-level Spanish, and valid passport at time of application.

165:240 (ABRD:3240) CIEE Palma de Mallorca Liberal Arts Program
Established in 2006, the CIEE study center at Universitat de les Illes Balears provides an academic program for students with an advanced level of Spanish who are interested in tourism studies, business, humanities, Spanish literature and language, and social sciences; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a., five semesters of college-level Spanish, and valid passport at time of application.

165:241 (ABRD:3241) CIEE Palma de Mallorca Business and Tourism Program
Study business, tourism, and hospitality alongside Spanish students in a direct enrollment environment with a global perspective in Palma de Mallorca; development of management skills for future leadership in the tourism and hospitality industry; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and valid passport at time of application. Recommendations: two semesters of college-level Spanish.

165:242 (ABRD:3242) CIEE Palma de Mallorca Language and Culture Summer Program
Established in 2006, the CIEE Study Center at Universitat de les Illes Balears provides a academic summer program for students interested in tourism; development or improvement of Spanish language skills while learning about Spain and Europe; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a., four semesters of college-level Spanish, and valid passport at time of application.

165:243 (ABRD:3243) CIEE Palma de Mallorca Summer Internship Program
Enhancement of academic and language skills in a professional context while being immersed in Spanish professional work environment; intensive Spanish language course related to business and tourism taken during first three weeks with substantial interactive and practical component; five-week internship in hotel, company, or nonprofit organization with completion of 130 hours of work and meeting three hours each week with a university professor; designed for business and tourism students. Requirements: 2.75 cumulative g.p.a., four semesters of college-level Spanish, and valid passport at time of application.

165:250 (ABRD:3250) CIEE Seville Advanced Liberal Arts Program
Achievement of fluency in spoken and written Spanish; wide variety of academic fields to gain deeper understanding from a Spanish perspective; direct matriculation in university courses, homestays, local and overnight excursions, conversational exchange program, volunteer opportunities, and independent study options in Seville, Spain. Requirements: 3.00 cumulative g.p.a., 3.00 minimum g.p.a. in Spanish courses, six semesters of college-level Spanish, and valid passport at time of application.

165:251 (ABRD:3251) CIEE Seville Business and Society Program
Opportunity to study business in an international context through a combination of course work in Spanish business, society, and language; related field visits to Spanish companies; designed for highly motivated students of business with advanced-level Spanish skills at the University of Seville’s Business School; unpaid internships may be available to students with advanced language ability; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Semester or academic year. Requirements: at least 2.75 g.p.a.; five semesters of college-level Spanish; 6 s.h. of microeconomics, macroeconomics, accounting, finance, management, or statistics; and valid passport at time of application. Recommendations: good background in math/ statistics to grasp the more theoretical focus of European business instruction.

165:252 (ABRD:3252) CIEE Seville Business Internship Program
Exposure to a professional workplace atmosphere in Seville, Spain for business students; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Eight weeks. Requirements: 2.75 cumulative g.p.a., five semesters of college-level Spanish, and valid passport at time of application.

165:253 (ABRD:3253) CIEE Seville Communications, New Media, and Journalism Program
Valuable hands-on experience in a multifaceted academic and professional environment; courses through CIEE and with Spanish students at the Universidad de Sevilla; may include CIEE classes offered through the Liberal Arts program; social and cultural immersion of participants in the host society through specialized projects and extracurricular activities; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member; for students considering a career in any communication environment. Requirements: 2.75 cumulative g.p.a., five semesters of college-level Spanish, and valid passport at time of application.

165:254 (ABRD:3254) CIEE Seville International Business and Culture Program
Spanish language improvement in Seville, Spain; courses in English, primarily in the field of international business; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for beginning to intermediate students. Semester or academic year. Requirements: 2.75 g.p.a., four semesters or less of college-level Spanish, and valid passport at time of application.

165:255 (ABRD:3255) CIEE Seville Language and Culture Summer Program
Development of Spanish language skills and exposure to Spanish culture through an intense immersion experience; courses in Spanish language and culture, conversational exchange program, homestay program, and local visits and excursions; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Three, six, or nine weeks. Requirements: 2.75 cumulative g.p.a., four semesters of college-level Spanish, and valid passport at time of application.

165:257 (ABRD:3257) CIEE Seville Language and Society Program
Rapid improvement of Spanish language skills; Spanish culture and its artistic, literary, historical, or political traditions; linguistic and cross-cultural development enhanced by participation in community life, volunteer work, field trips, and housing with Spanish-speakers in homestays; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for intermediate or low-advanced level students. Fail or spring semester. Requirements: 2.75 cumulative g.p.a., five semesters of college-level Spanish, and valid passport at time of application.

165:258 (ABRD:3258) CIEE Seville Liberal Arts Program 12 s.h.
Achieve fluency in written and spoken Spanish; language acquisition and cultural immersion through housing in Spanish-speaking homes, involvement in volunteer opportunities, and conversation exchanges; courses at the CIEE Study Center, the University of Seville, and Pablo de Olavide University (UPO); administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 2.75 cumulative g.p.a., five semesters of college-level Spanish, and valid passport at time of application.

165:259 (ABRD:3259) CIEE Seville Teaching Development Program 12 s.h.
Achieve greater competency in written and spoken Spanish while developing specific expertise in international education and second language acquisition; academic program, teaching development course, homestay, excursions and cultural activities, conversation exchanges, and volunteer opportunities; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 2.75 cumulative g.p.a., five semesters of college-level Spanish, and valid passport at time of application.

165:260 (ABRD:3260) CIEE Madrid Business, Economics, and Culture 12 s.h.
Development of skills and competency in Spanish language while studying business, economics, and culture at CIEE Madrid study center and/or Universidad Carlos III; cultural immersion and development of language skills through excursions and homestays or student residence option in energetic city of Madrid; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 3.00 cumulative gpa, two semesters of college-level Spanish, and three semesters of college-level microeconomics, macroeconomics, accounting, finance, management, marketing, or statistics; for students taking economics courses—two additional college-level microeconomics or macroeconomics courses and one semester of calculus.

165:270 (ABRD:3270) USAC Alicante Program 4,6,8,12 s.h.
Intensive language study in Alicante, Spain; up to two years of university language requirements may be met in one semester; additional courses taught in English or Spanish; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Summer, semester or academic year. Requirements: 2.50 g.p.a. and good academic standing.

165:272 (ABRD:3272) USAC Bilbao Program 3,6,12 s.h.
Intensive language study; up to two years of university language requirements may be met in one semester; additional courses taught in English or Spanish; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member; for intermediate or low-advanced level students. Fail or spring semester. Requirements: 2.75 minimum g.p.a., completion of three and no more than four semesters of college-level Spanish, and valid passport at time of application.

165:274 (ABRD:3274) USAC Madrid Program 4,8,12 s.h.
Intensive language study; up to two years of university language requirements may be met in one semester; additional courses taught in English or Spanish; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Summer, semester, or academic year. Requirements: 2.50 g.p.a. and good academic standing.

165:276 (ABRD:3276) USAC San Sebastian Program 4,6,8,12 s.h.
Intensive language study; up to two years of university language requirements may be met in one semester; additional courses taught in English or Spanish; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Summer, semester, or academic year. Requirements: 2.50 g.p.a. and good academic standing.

165:300 (ABRD:4063) University of Iceland Exchange 12 s.h.
Reciprocal exchange program between The University of Iowa and the University of Iceland; a year of study in Reykjavik alongside local students in regular classes; option of selecting classes from those taught in English in different departments, or an academic year of intensive Icelandic language study; science majors interested in geophysics are encouraged to explore English-taught classes in geography, geology, and geophysics. Requirements: 2.80 cumulative g.p.a., completion of at least one semester in residence at The University of Iowa, and junior or senior standing during session abroad.

165:301 (ABRD:4066) University of Nijmegen Exchange 12 s.h.
Reciprocal exchange agreement between The University of Iowa and Radboud University Nijmegen; students study in the Netherlands alongside local students in regular classes; language of instruction is Dutch and a number of classes throughout the curriculum are taught in English; particularly suitable for students interested in American studies, European studies, and pre-Law, as well as majors in German, linguistics, and political science; Dutch language not required for participation. Semester or academic year. Requirements: 2.80 cumulative g.p.a., completion of at least one semester in residence at The University of Iowa, and junior or senior standing during session abroad.

165:302 (ABRD:4060) Giessens-Friedburg Engineering Exchange 12 s.h.
Reciprocal exchange for engineering students to study at the Giessen-Friedberg University of Applied Sciences; education/research collective with emphasis on practice-oriented research and development projects; main focus on engineering sciences; courses are application-oriented in subject and methodology; course work similar to that offered at The University of Iowa; academic credit may be earned in biomedical, chemical, civil, and environmental engineering. Semester or academic year. Requirements: two years of college-level German, 3.00 g.p.a., and relevant academic background.

165:303 (ABRD:4059) Dortmund University Exchange 6,12 s.h.
Direct exchange program between the Technical University of Dortmund and The University of Iowa; students remain registered at their own institution and receive student status at the guest university; unique blend of courses that combine language and culture courses with academic work in student’s major and minor subjects; university studies and life outside the classroom are synthesized in a holistic learning process. Requirements: German language proficiency and 2.80 g.p.a.

165:306 (ABRD:4057) Aalborg University Exchange 12 s.h.
Reciprocal exchange agreement between The University of Iowa and Aalborg University; students study in Denmark alongside local students in regular classes and standard student housing; language of instruction is Danish and there is a commitment to use of other languages of instruction where relevant, including a number of offerings taught in English (Spanish, German, and French) in various subjects and disciplines; particularly suitable for students interested in globalization, communication studies, political science, and psychology, who have a firm commitment to their major. Semester or academic year. Requirements: 2.80 cumulative g.p.a., completion of at least one semester in residence at The University of Iowa, and junior or senior standing during session abroad.

165:308 (ABRD:4902) Universidad de Colima Journalism Exchange 12 s.h.
Project VITAL students from Canada, the United States, and Mexico work to develop a better understanding and journalistic reporting of environmental, social, economic, and political issues surrounding management of continental water supplies in a variety of contexts, including impacts of global warming; exchange students and several hundred non-exchange peers are connected to one another, faculty, and subject experts through individual journalistic projects, a series of special forums, and development of a project web site. Requirements: nomination by School of Journalism and Mass Communication.

165:309 (ABRD:4065) Tilburg University Exchange 3,12 s.h.
Tilburg University in the Netherlands offers English-language courses in business administration (accounting, applied microeconomics, finance, production management, international marketing, and electronic commerce) and other subjects; suitable for upper-level business majors and students pursuing an international business certificate. Requirements: 3.00 g.p.a. and junior or higher standing.

165:311 (ABRD:4901) Universidad Autónoma de Baja Journalism Exchange 12 s.h.
Project VITAL students from Canada, the United States, and Mexico work to develop a better understanding and journalistic reporting of environmental, social, economic, and political issues surrounding management of continental water supplies in a variety of contexts, including impacts of global warming; exchange students and several hundred non-exchange peers are connected to one another, faculty, and subject experts through individual journalistic projects, a series of special forums, and development of a project web site. Requirements: nomination by School of Journalism and Mass Communication.

165:313 (ABRD:4904) Mount Royal College Journalism Exchange 12 s.h.
Project VITAL students from Canada, the United States, and Mexico work to develop a better understanding and journalistic reporting of environmental, social, economic, and political issues surrounding management of continental water supplies in a variety of contexts, including impacts of global warming; exchange students and several hundred non-exchange peers are connected to one another, faculty, and subject experts through individual journalistic projects, a series of special forums, and development of a project web site. Requirements: nomination by School of Journalism and Mass Communication.

165:314 (ABRD:6064) Erasmus/Rotterdam School of Management Exchange 9 s.h.
Reciprocal exchange program between The University of Iowa and Erasmus University Rotterdam; full-time students in M.B.A. and M.Ac. programs study for a semester in Rotterdam, The Netherlands; students from Tippie School of Management take courses in Rotterdam School of Management during fall semester, students from M.Ac. program take courses offered through Rotterdam School of Management’s Master Programme in Accounting and Control during spring semester. Requirements: completion of at least one year of graduate study prior to participation in exchange and good academic standing; at least three years of work experience and non-Dutch citizen for M.B.A. student.

165:315 (ABRD:4056) Charles University Exchange 12 s.h.
The Czech Studies Program offered by the Charles University Faculty of Arts and Philosophy and the Institute of Czech Studies is a comprehensive program covering Czech language, literature, history, and culture; for students furthering their studies in Czech language and culture at intermediate level; especially well-suited for students interested in Slavonic studies or related disciplines. Requirements: one or two years of prior Czech language study and good academic standing.

165:317 (ABRD:4441) City University of Hong Kong Exchange 12 s.h.
The University of Iowa and the City University of Hong Kong (CityU) have initiated an agreement allowing the schools to exchange students on a one-to-one ratio; one of the leading universities in Asia, CityU has a wide range of English-taught classes; originally targeted toward science and engineering majors, this agreement is open to students in all majors; wide range of courses that meet academic needs of students in liberal arts and science, business, and engineering. Requirements: good academic and disciplinary standing.

165:318 (ABRD:4439) Chinese University of Hong Kong Exchange 12 s.h.
The Chinese University of Hong Kong (CUHK) Accounting Exchange Program provides University of Iowa accounting students the ability to integrate a unique international experience with their academic program. Semester. Requirements: 3.00 UI and cumulative g.p.a., completion of one semester toward UI accounting major, and good academic standing.

165:319 (ABRD:4431) Ajou University Exchange 12 s.h.
The Ajou University Exchange program is designed for students interested in South Korea; emphasis on global education. Ajou University offers a variety of courses taught in English; excellent opportunity for international and Korean students to take classes in their chosen fields while immersed in an international atmosphere; beneficial for international students anticipating careers in Asia or with multinational corporations, as well as to those seeking advanced degrees in international or area studies. Semester or academic year. Requirements: good academic and disciplinary standing.

165:320 (ABRD:4432) Ewha Womans University Exchange 9,12 s.h.
The Ewha Womans University Exchange program offers a coeducational international program and welcomes all students, male and female, to study for one or two semesters as a nondegree seeking exchange or visiting student; variety of high-quality courses in various fields, including studies on Asia and Korea. Requirements: 2.50 g.p.a.

165:322 (ABRD:4433) KAIST Exchange 12 s.h.
Bilateral exchange agreement between The University of Iowa and the Korea Advanced Institute of Science and Technology (KAIST); study abroad in Korea at KAIST; wide range of classes offered on campus; for mature and independent students looking for more direct interaction with local students and culture. Requirements: good academic and disciplinary standing.

165:323 (ABRD:4436) Sungkyunkwan University Exchange 12 s.h.
Sungkyunkwan University Exchange program designed for students to enroll at a Korean university; challenging academic experience and unique cultural opportunity; plethora of courses in foreign languages provided to meet academic needs of international students; intriguing cultural activities where students can experience Korean culture and history. Requirements: 2.70 g.p.a. and sophomore or higher standing.

165:326 (ABRD:4437) University of Seoul Exchange 4,12 s.h.
The University of Iowa and the University of Seoul (UOS) maintain a bilateral exchange agreement that allows UI students to study abroad in Korea at UOS; wide range of English-taught classes in a number of different colleges, including liberal arts, humanities, social science, business, and engineering. Requirements: good standing at The University of Iowa.

165:327 (ABRD:4067) Bogazici University Exchange 12 s.h.
Exchange program with Bogazici University in Istanbul, Turkey allows students to study in Turkey while fully integrating with Turkish students in student housing and regular classes; courses taught in English. Semester or academic year. Requirements: 3.00 minimum g.p.a. and junior or senior standing.

165:328 (ABRD:4004) University of Birmingham Exchange 12 s.h.
Reciprocal exchange program between The University of Iowa and the University of Birmingham in Birmingham, England; full integration with British students in student housing and regular classes. Semester or academic year. Requirements: 3.00 cumulative g.p.a., junior or senior standing, declared major, and good understanding of requirements for major.

165:329 (ABRD:4003) University of Hull Exchange 12 s.h.
Reciprocal exchange programs between The University of Iowa and University of Hull in Kingston-upon-Hull, England; full integration with British students in student housing and regular classes. Semester or academic year. Requirements: 3.00 cumulative g.p.a., junior or senior standing, declared major, and good understanding of requirements for major.

165:330 (ABRD:4001) Lancaster University Exchange 12 s.h.
Reciprocal exchange programs between The University of Iowa and Lancaster University in Lancaster, England; full integration with British students in student housing and regular classes. Semester or academic year. Requirements: 3.00 cumulative g.p.a., junior or senior standing, declared major, and good understanding of requirements for major.

165:331 (ABRD:4002) University of Strathclyde Exchange 12 s.h.
Reciprocal exchange program between The University of Iowa and the University of Strathclyde in Glasgow, Scotland; full integration with British students in student housing and regular classes. Semester or academic year. Requirements: 3.00 cumulative g.p.a., junior or senior standing, declared major, and good understanding of requirements for major.

165:332 (ABRD:4426) University of Nanzan Exchange 12 s.h.
Reciprocal exchange program between The University of Iowa and Nanzan University in Nagoya; study at Nanzan’s Center for Japanese Studies; living options include a home stay program that places students in a Japanese home as a family member or residence hall accommodations; for students interested in developing fluency in Japanese language. Semester or year. Requirements: 3.00 minimum g.p.a. and completion of at least one semester in residence at The University of Iowa. Recommendations: strong record in Japanese.

165:333 (ABRD:4422) Kanda University of International Studies Exchange 12 s.h.
Reciprocal exchange program between The University of Iowa and Kanda University of International Studies at Kanda; small, ultramodern university; facilities designed to promote cross-cultural experience; Multilingual Communication Center has resources and equipment pertaining to Japanese, Korean, Spanish, Portuguese, Indonesian, Vietnamese, and Thai. Requirements: 3.00 minimum g.p.a. and completion of at least one semester in residence at The University of Iowa. Recommendations: strong record in Japanese.
165:334 (ABRD:4424) University of Meiji Exchange 12 s.h.
Reciprocal exchange program between The University of Iowa and Meiji University; study in Tokyo as visiting foreign student in a department of one of Meiji’s various academic divisions; for undergraduates and graduate students with an appropriate research interest; the Japanese academic calendar runs late March through late January the following year, which involves spring through fall semesters at The University of Iowa. Requirements: 3.00 minimum g.p.a., sophomore standing or higher at time of enrollment in Meiji, and enrollment in fourth-year Japanese at time of application; graduate students intending to do research must have an appropriate project and proficiency at third-year level Japanese; graduate students participating in English-taught curriculum of the Special Graduate Student Exchange Program, Department of Political Science and Economics, must have sufficient Japanese to function in everyday living.

165:357 (ABRD:3062) CIEE Paris Critical Studies Program 12 s.h.
Analysis of literature, film, and other forms of visual expression through use of contemporary critical theory; interaction among fields of literature, aesthetics, and psychoanalysis; examination of problems involved in such analysis; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for intermediate or advanced French language students. Requirements: 3.00 cumulative g.p.a., five semesters of college-level French, and previous course work in relevant fields.

165:358 (ABRD:3063) CIEE Paris Contemporary French Studies Program 12 s.h.
Combines an interdisciplinary academic program on contemporary French society and culture (taught in French or English) with opportunity to develop strong language skills; contemporary social issues in politics, Francophone cultures, and Muslim communities in Europe; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for intermediate-level French students. Requirements: 3.00 cumulative g.p.a. and at least two to five semesters of college-level French.

165:359 (ABRD:3064) CIEE Rennes Liberal Arts Program 12 s.h.
Increase language ability and knowledge of France and French culture; opportunity to take regular university classes alongside French students; intensive language and humanities course work; cultural activities; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for intermediate or advanced intermediate students. Requirements: 2.75 cumulative g.p.a., 3.00 g.p.a. in French language, and four semesters of college-level French.

165:360 (ABRD:3066) CIEE Paris Language and Culture Program 3.6 s.h.
Introduction to French society through an interdisciplinary course on culture or study of French language in the world metropolis of Paris; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Two three-week sessions. Requirements: 2.75 g.p.a. and four semesters of college-level French.

165:361 (ABRD:3401) CIEE Beijing Advanced Chinese Studies 12 s.h.
Important topics in Chinese from a Chinese perspective; development of professional writing and research skills in Chinese; designed for students interested in using their superior level of Chinese to study international affairs, business, history, or Chinese literature.

165:362 (ABRD:3402) CIEE Beijing Intensive Chinese Language 10,12 s.h.
CIEE’s Intensive Chinese Language study abroad program at Peking University in Beijing, China, is one of the oldest and most recognized intensive Chinese language programs; the Peking University Center for Teaching Chinese houses over eight different language levels and many other elective courses; intensive language courses coupled with individual language tutorials, diversified field trips, modern housing facilities, and experienced onsite staff make the CIEE Study Center in Beijing an incredible place to study and learn under the auspices of the most famous university in China. Requirements: 2.75 g.p.a. and two to six semesters of college-level Chinese. Recommendations: completion of at least one Chinese area studies course before departure.

165:363 (ABRD:3403) CIEE Beijing Ethnic Identity and Cultural Studies 12 s.h.
Language study in Beijing, China; exploration of China; for students with background in Chinese, Tibetan, or Uyghur language. Requirements: 2.75 g.p.a. Recommendations: one semester of college-level Chinese and previous course work in anthropology, sociology, development, religious studies, or global studies.

165:364 (ABRD:3415) CIEE Nanjing Intensive Chinese Language and Culture 12 s.h.
CIEE’s intensive Chinese language and culture program in Nanjing, China; Chinese studies and immersion in a more traditional and accessible locale against the backdrop of a large developing Chinese city; for students with background in Mandarin Chinese. Requirements: 2.75 g.p.a. and two to six semesters of college-level Chinese. Recommendations: completion of one Chinese area studies course.

165:365 (ABRD:3425) CIEE Shanghai Accelerated Chinese Language 10,12 s.h.
Accelerated language program in Shanghai, China; one year of Chinese language training accomplished during summer; for intermediate and advanced Chinese language students. Requirements: 3.00 g.p.a.

165:366 (ABRD:3426) CIEE Shanghai Advanced Chinese Studies 12 s.h.
CIEE study abroad program in Shanghai, China; development of advanced communicative skills in Mandarin Chinese through small classes, tutors, and language clinics; contemporary economic and political issues affecting China and effects of China as a rising power in the world today; application of skills learned in classroom to environment outside through independent field work and volunteer opportunities; for students with background in Mandarin Chinese. Requirements: 3.00 g.p.a., four to six semesters of college-level Chinese, and completion of one Chinese area studies course.

165:367 (ABRD:3427) CIEE Shanghai Business, Language, and Culture 9,12 s.h.
CIEE study abroad program in Shanghai, China; Chinese language training at standard and intensive levels; courses (taught in English) in business, marketing, economics, international relations, and area studies; contemporary business issues affecting China; effects of China as a rising power in the business world today; for students majoring in business with no Chinese language background and those who have studied Chinese for several semesters. Requirements: 2.75 g.p.a., seven semesters or less of college-level Chinese, and three or more semesters of microeconomics, macroeconomics, accounting, finance, management, or marketing.

165:368 (ABRD:3428) CIEE Shanghai China in a Global Context 12 s.h.

CIEE study abroad program in Shanghai, China; focus on China in a global context; Chinese language training at standard and intensive levels; courses (taught in English) in global studies, economics, international relations, and area studies; for students with no Chinese language background and those who have studied Chinese for several semesters. Requirements: 2.75 g.p.a. and seven semesters or less of college-level Chinese. Recommendations: completion of one Chinese area studies course.

165:369 (ABRD:3443) CIEE Taipei Intensive Chinese Language and Culture 12 s.h.

CIEE intensive Chinese language and culture program in Taipei, Taiwan; for beginning through advanced language students who have an interest in improving their Chinese; opportunity to take non-language courses taught in English to aid understanding of Taiwanese culture and society; flexible and supportive environment to experience life at one of Taiwan’s most prestigious national universities. Requirements: 2.75 g.p.a. and two to eight semesters of college-level Chinese. Recommendations: completion of one Chinese area studies course.

165:370 (ABRD:3810) ACTR Contemporary Russian Business, Communications, and Political Economy 12 s.h.

Curriculum focusing on language of Russian business combined with an internship at a multinational company, business, or NGO agency in Russia; highly-individualized curriculum; offered at one of two locations (St. Petersburg or Moscow) with final placement determined by ACTR; full-time U.S. resident director provides ongoing logistical support and emergency assistance to participants; for intermediate- to near-native speakers of Russian. Requirements: prior Russian language study and a strong command of Russian grammar.

165:374 (ABRD:3442) CIEE Taipei Communications, Business, and Political Economy 12 s.h.

Intensive Mandarin Chinese language courses; courses in business, communications, political sciences, and other academic areas taught in English; internships in various fields; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 2.75 g.p.a. Recommendations: one Chinese area studies course.

165:375 (ABRD:3601) Iowa Regents Semester in Australia: University of Newcastle 12 s.h.

Opportunity to study at the University of Newcastle in Australia; full academic and social integration with Australian peers. Requirements: 2.50 minimum g.p.a. and sophomore standing.

165:376 (ABRD:3602) Iowa Regents Semester in Australia: University of Tasmania 12 s.h.

Study at the University of Tasmania; full academic and social integration with Australian peers. Semester. Requirements: 2.50 minimum g.p.a. and sophomore standing at time of application.

165:398 (ABRD:3083) USAC Turin Program 4,6,8,12 s.h.

Academic course work, practical learning, tours, site visits, and integrated cultural experience; content in diverse academic areas of business, architecture, and Italian studies; Italian language courses; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Semester, summer, or academic year. Requirements: 2.50 g.p.a. and appointment with Italy study abroad advisor prior to application.

165:399 (ABRD:3084) USAC Viterbo Program 4,6,8,12 s.h.

Academic course work at Viterbo’s historical Tuscia University of Viterbo; practical learning, tours, site visits, and integrated cultural experience; high-quality educational experience in art history and Italian studies; Italian language course; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Semester, academic year, or five-week summer session. Requirements: 2.50 g.p.a., good academic standing, and appointment with Italy study abroad advisor prior to application.

165:400 (ABRD:3335) USAC Heredia Program 4,6,8,12 s.h.

Culture and physical beauty of Costa Rica experienced through specially designed courses combined with family home stay and some program travel; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Requirements: 2.50 g.p.a.

165:401 (ABRD:3336) USAC Puntarenas Program 3,4,6,8,12 s.h.
Expansion of Spanish language skills through personal interaction with host culture in homestay setting, field trips and optional tours, and accelerated classroom study according to tracks; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Requirements: 2.50 g.p.a. and good academic standing.

165:402 (ABRD:3337) USAC San Ramon Program 4,6,8,12 s.h.
Life and health sciences, Spanish language and culture studies program; tropical ecology, tropical marine biology, conversation biology, and environmental policy courses taught in English; science curriculum combined with Spanish language or literature classes designed by tracks according to level; administered by the University Studies Abroad Consortium (USAC) of which the University of Iowa is a member; for science majors interested in learning more about ecology and conservation biology in Costa Rica. Requirements: 2.50 g.p.a. and one year of college-level general biology with lab.

165:408 (ABRD:3328) CIEE Guanajuato Liberal Arts 12 s.h.
Program
Personal reflection of identity, culture, and contemporary society encouraged through active reading and writing; development of Spanish language proficiency in course work and homestay living; Mexican literature, history, and art studied alongside Mexican peers at the University of Guanajuato; courses in migration, revolution, and community-based Spanish specially designed for CIEE. Requirements: 2.75 g.p.a. and four semesters of college-level Spanish.

165:409 (ABRD:3317) CIEE Santiago (Chile) Liberal Business and Culture Program
Development of competency in Spanish language while studying issues related to local and regional business environment, management practices, and entrepreneurship in Chile and the southern cone; homestay living provides opportunities for cultural and linguistic immersion; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for students with varying levels of Spanish. Requirements: 2.75 cumulative g.p.a. Recommendations: completion of Spanish language course within past year.

165:410 (ABRD:3318) CIEE Santiago (Chile) Liberal Arts Program
Special CIEE courses and direct enrollment with Chilean students in regular courses at the Pontificia Universidad Catolica de Chile and the Universidad de Chile; first-hand knowledge of contemporary issues and cultural patterns in Chile; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 2.75 cumulative g.p.a. and six semesters of college-level Spanish.

165:411 (ABRD:3323) CIEE Valparaiso Liberal Arts Program
Special CIEE courses and direct enrollment with Chilean students in regular courses at the Universidad Catolica de Valparaiso; first-hand knowledge of contemporary issues to better understand Chilean society and an appreciation for Chilean history and identity; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and six semesters of college-level Spanish.

165:412 (ABRD:3329) CIEE Managua Social Justice and Development Program
Contemporary Nicaraguan society and work of cooperatives, nongovernmental organizations, and social movements striving to achieve social justice in the country; impact of revolutionary and neoliberal policies in advancement of human development goals in Nicaragua; intensive course work, language study, rural immersion, and volunteer opportunities; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and five semesters of college-level Spanish.

165:413 (ABRD:3312) CIEE Buenos Aires Liberal Arts Program
Critical appreciation of Argentina and its importance in Latin America from perspective of social sciences and humanities; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for advanced Spanish students with strong language preparation. Requirements: 2.75 cumulative g.p.a. and six semesters of college-level Spanish. Recommendations: completion of Spanish language course in session prior to study abroad and college-level course work in Latin American Studies.

165:414 (ABRD:3326) CIEE Santiago (DR) Liberal Arts Program
Enrollment in one of three distinct academic tracks based on language proficiency level; tracks offer a variety of courses on society, culture, economics, and politics of Hispaniola and the Greater Hispanic Caribbean; regional literature, history, and widely variant sociocultural issues facing the region; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a., 3.00 g.p.a. in Spanish language, and four semesters of college-level Spanish.

165:415 (ABRD:3327) CIEE Santo Domingo Liberal Arts Program
Direct enrollment at three local universities in a wide range of courses in humanities and social sciences, in addition to a number of CIEE advanced language and area studies courses; optional track of study focused solely on the region with courses in social and ethno-cultural identity, authors of Hispanic Caribbean, and Dominican-Haitian relations; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and five semesters of college-level Spanish. Recommendations: Spanish language course within past year.

165:417 (ABRD:3332) CIEE Lima Liberal Arts Program
CIEE-taught course, homestay, and city-based cultural activities with direct enrollment alongside Peruvian students at the Pontificia Universidad Catolica del Peru; immersion to refine language skills and develop understanding of contemporary Peruvian society; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and five semesters of college-level Spanish. Recommendations: completion of Spanish language course within past year.

165:419 (ABRD:3313) CIEE Bahia Liberal Arts Program
CIEE-taught course, homestay, and city-based cultural activities with direct enrollment alongside Peruvian students at the Pontificia Universidad Catolica del Peru; immersion to refine language skills and develop understanding of contemporary Peruvian society; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and five semesters of college-level Spanish. Recommendations: completion of Spanish language course within past year.
Special CIEE courses and direct enrollment in regular classes at two local universities; improvement of Portuguese language skills; the northeast region of Brazil and its Afro-Brazilian culture; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a., and four semesters of college-level Spanish or two semesters of college-level Portuguese.

165:420 (ABRD:3314) CIEE Sao Paulo Liberal Arts Program
5,12 s.h.
Language-learning course in Brazil; direct enrollment in a host of English-taught courses at Pontificia Universidade Catolica de Sao Paulo; subjects range from anthropology, history, and international relations to business administration, journalism, and performing arts; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for students with multiple levels of Portuguese fluency. Requirements: 2.75 g.p.a., and four semesters of college-level Spanish or two semesters of college-level Portuguese. Recommendations: Portuguese or Spanish course taken within past year.

165:421 (ABRD:3315) CIEE Sao Paulo Business and Culture Program
12 s.h.
Opportunity to begin or continue study of Portuguese while studying issues related to economy and business in Brazil and Latin America alongside Brazilian and other international students at the International Program in Management at the prestigious Getulio Vargas Foundation; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for students with varying levels of Portuguese language skills. Requirements: 3.00 cumulative g.p.a. and three semesters of microeconomics, macroeconomics, accounting, finance, management, marketing, or statistics.

165:422 (ABRD:3316) CIEE Bahia Intensive Language and Culture
6 s.h.
Intensive summer program to develop Portuguese language proficiency and a critical appreciation of Brazilian life and society; cultural immersion through classroom, homestay living, program excursions and activities; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Five weeks. Requirements: 2.75 cumulative g.p.a., and four semesters of college-level Spanish or two semesters of college-level Portuguese.

165:423 (ABRD:3324) CIEE Monteverde Tropical Ecology and Conservation
10,12 s.h.
Rich understanding of tropical ecology through hands-on exposure, direct experimentation, study of theory, taxonomy of major groups, and observation of empirical patterns; science courses taught in English; Spanish-language course for various levels; travel to diverse ecosystems; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and two semesters of college-level biology. Recommendations: college-level ecology or environmental science course, and college-level Spanish.

165:424 (ABRD:3325) CIEE Monteverde Sustainability and the Environment
12 s.h.
Insight into complexity of pressures that confront global biodiversity (e.g., population growth, consumption, urbanization, globalization); homestay with local families provides exposure to Spanish language and Costa Rican culture; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for students with an interest in environmental studies. Requirements: 2.75 g.p.a. and three semesters of college-level environmental studies. Recommendations: college-level Spanish.

165:438 (ABRD:4300) Curitiba Exchange Program
12 s.h.
Reciprocal exchange to study at FAE Centro Universitario (Curitiba, Brazil); courses from regular curriculum for local students, in any one of their undergraduate programs in economics, business, mechanical/environmental engineering, or letters; students must have sufficient Portuguese language ability to follow courses taught in Portuguese. Semester or calendar year. Requirements: 2.80 g.p.a. and advanced-level Portuguese.

165:439 (ABRD:3372) USAC Florianopolis Program
3,5,6,8,12 s.h.
Brazilian culture studies, global economy, and natural resource management; opportunity to develop language skills while taking courses taught in English by local faculty from the Universidade Federal de Santa Catarina; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Summer, semester, or academic year. Requirements: 2.50 g.p.a.

165:440 (ABRD:4068) WHU-Otto Beisheim School of Management Exchange
3,4,12 s.h.
WHU-Otto Beisheim School of Management is a privately financed business school founded in 1984 near Koblenz, Germany; cities of Cologne, Mainz, and Frankfurt can be reached in under an hour; WHU maintains a network of more than 150 partner universities worldwide and has consistently high national and international rankings; areas of study include economics, finance, accounting, management, marketing, and entrepreneurship; courses taught in English; a variety of courses are offered for students who wish to continue study of German. Requirements: completion of at least one year of university study, good academic standing, and sufficient command of English to follow selected course of study; and minimum 2.75 g.p.a. for undergraduates.

165:441 (ABRD:3072) Montpellier Summer Language Program
4,6,8 s.h.
Advanced French language and course on contemporary France that explores current perspectives on immigration; visits to local organizations dedicated to naturalization services; public housing; immigrants’ rights, nonviolence, antiracism, and antidiscrimination; excursions around Montpellier and other social activities; option to take accelerated language track in either four- or eight-week program; development of language skills in various contexts depending on level (beginning through advanced) and prescribed curriculum at each level. Six weeks. Requirements: 2.50 g.p.a. and average grade of B in French course work.

165:442 (ABRD:3333) CIEE Guanajuato Summer Language and Culture Program
3,6 s.h.
Opportunity to further develop Spanish language skills while expanding knowledge and understanding of Mexico; key elements include homestay, day-to-day engagement with local community, and intensive Spanish-taught courses in Mexican studies. Requirements: 2.75 cumulative g.p.a. and five semesters of college-level Spanish.
165:500 (ABRD:3500) Study Abroad 0 s.h.
Students participating in study abroad programs at other U.S. or foreign universities maintain their status at The University of Iowa by registering for this course.

165:501 (ABRD:3501) Study Abroad arr.

165:600 (ABRD:3502) Study Abroad Independent Enrollment arr.

165:805 (ABRD:3010) Iowa Regents Semester in Wales arr.
University of Swansea, Wales; three-week interdisciplinary course on British life and culture, followed by regular degree course work in the humanities, social sciences, physical sciences, business, engineering. Fall and spring semesters. Requirements: g.p.a. of at least 2.80.

165:806 (ABRD:3012) Iowa Regents Semester in Scotland arr.
Advanced undergraduate study at the University of Edinburgh; humanities, social sciences, science, engineering. Fall and/or spring. Requirements: g.p.a. of at least 3.00.

165:814 (ABRD:3411) Iowa in Tianjin arr.
Chinese language, area studies, and folk art; based at Tianjin University of Technology. Summer or semester. Requirements: one to three years of college-level Chinese.

165:816 (ABRD:3310) Dominican Republic: Health, Nutrition, and Environmental Issues 8,12 s.h.

Introduction to South African culture from varied academic perspectives, summer session. Enrollment in regular University courses; fall and spring semesters.

Impact of socio/political economy on family and community systems in the country visited; seminars, guest speakers, field visits. Summer. Prerequisites: 042:143 (SSW:4843).

165:851 (ABRD:3321) USAC Studies in Chile arr.
Intensive beginning-level Spanish language; advanced language, literature, civilization at third-year level; area studies. Some courses taught in English. Requirements: g.p.a. of at least 2.50.

Study of the international business environment in one of the world's financial capitals; may count toward undergraduate business major or Certificate in International Business. Winter. Prerequisites vary depending on classes being offered. Requirements: junior standing.

165:855 (ABRD:3515) Business Internships Abroad
Orientation, academic course work, internship: London, Madrid and Paris. Requirements: g.p.a. of at least 2.75, 45 s.h. earned, at least one semester at The University of Iowa; and Spanish proficiency for Madrid program or French proficiency for Paris program.

165:856 (ABRD:3120) Regents Hispanic Institute
Study of Spanish language and culture in Valladolid, Spain. Six weeks in summer. Requirements: four semesters of college-level Spanish.

165:865 (ABRD:3060) Iowa Regents Summer Program in France
Study of French language and culture in Lyon, France. Six weeks in summer. Requirements: four semesters of college-level French and g.p.a. of at least 2.75.

165:866 (ABRD:3030) Iowa Regents Semester in Ireland
Regular course work in all disciplines at University College Cork in Ireland. Fall and spring semesters. Requirements: sophomore standing and g.p.a. of at least 3.00.

165:867 (ABRD:3140) American College of Thessaloniki Semester
Undergraduate studies in varied academic disciplines (business, history, international relations, psychology, fine arts, literature, philosophy, modern Greek language) at the American College of Thessaloniki. Taught in English.

165:869 (ABRD:3070) USAC Studies in France
Beginning through advanced French language study at the University of Pau; additional courses in French culture, literature, politics, history, and other disciplines. Taught in English and French. No previous study of French required. Requirements: g.p.a. of at least 2.50.

165:871 (ABRD:3071) Study Abroad in Montpellier
Special courses for foreign students or regular courses with French students at University of Montpellier; taught in French. Semester or academic year. Requirements: four semesters of French.

165:873 (ABRD:3580) USAC Direct Programs
Direct enrollment in foreign universities in 15 countries. Semester or academic year.

165:875 (ABRD:7670) Overseas Writers Workshop
Opportunity for students to meet with and have their creative nonfiction read and critiqued by prominent host country writers; location, dates, and duration vary.

165:876 (ABRD:4425) Nagoya University of Foreign Studies Exchange
Language instruction at all levels and Japanese studies taught in English at Nagoya University of Foreign Studies. Semester or year.

165:877 (ABRD:3322) USAC Studies in Mexico
Universidad Iberoamericana in Puebla: intensive beginning and intermediate Spanish language; advanced language and literature; Mexican studies and Spanish for health care professionals. Summer or semester. Requirements: g.p.a. of at least 2.50.

165:879 (ABRD:3029) Health Promotion in Great Britain
Health care as offered by Great Britain's National Health Service and private providers, compared to health care delivery systems in the United States. Offered every other year during spring break.

165:880 (ABRD:3370) Spanish Language and Service Learning in Peru
Spanish language and Peruvian civilization course work (6 s.h.) and 100 hours of community service learning in Cusco, Peru. Two months in summer. Requirements: two years of college-level Spanish.

165:883 (ABRD:3805) Russian Politics and Foreign Affairs
Courses in Moscow (Russian politics and institutions, Russian foreign policy) taught in English by Russian professors; additional basic Russian language course (1 s.h.). Summer.

165:885 (ABRD:3830) USAC Studies in the Czech Republic
Introductory Czech language and culture courses taught in English at Charles University. Summer, semester, or academic year.

165:893 (ABRD:3088) CIMBA Italy Program
Course work in business and related disciplines in the Veneto region of Italy, taught in English. Four weeks in summer or 13-week semesters.

165:894 (ABRD:3342) Brazilian Carnival: Music and Dance
3 s.h.

165:895 (ABRD:3750) Arabic Language and Culture in Morocco
Moroccan colloquial Arabic, modern standard Arabic, and Moroccan culture; development of communication skills and cultural awareness through language study, homestays, cultural immersion; based in Fez, Morocco. Seven weeks in summer. Requirements: completion of General Education Program foreign language requirement and 3.00 minimum g.p.a.

165:896 (ABRD:3023) Literature & Culture of the Middle Ages: Study Abroad in England
3 s.h.

165:897 (ABRD:3441) Global Health in Rural and Resource-Limited India
Experience in a comprehensive care system where institutional and community health care complement each other in underserved and resource-limited environments abroad. Recommendations: successful completion of all requirements listed as prerequisites for rotations in the advanced practice experience syllabus.

165:902 (ABRD:3421) Pearl Harbor to Hiroshima arr.
Competing narratives of the Pacific War theater during World War II, starting at Pearl Harbor in Honolulu and stretching across the Pacific Ocean to Japan; students visit peace and war memorials and museums in Tokyo, Kyoto, Ise, Hiroshima, and Nagasaki; with the passage of time and the healing of the cultural and physical scars of war, how conflicts are remembered and written into a nation’s history through collective memory becomes the most important legacy of war; the contrasting conceptions of World War II seen from U.S. and Japanese perspectives.

165:904 (ABRD:3360) Projects in Global Health 1 s.h.
Observation and participation in disaster relief efforts in Jacmel, Haiti. Prerequisites: 152:125 (GH5:4100).

165:905 (ABRD:3081) John Cabot University in Rome, Italy arr.
Business, social science, humanities, art, and language courses at John Cabot University; located in the heart of Rome and surrounded by the extraordinarily rich offerings of a city of culture, history, art, creativity, business, and international affairs.

165:906 (ABRD:3082) Studio Art Centers International in Florence, Italy arr.
Studio art, design, art conservation, art history, Italian language, and creative writing instruction at Studio Art Centers International (SACI) in Florence, Italy; focus on art courses; engagement in leading areas of research and exploration; opportunities to interact with the Florentine community through a variety of social and humanitarian programs. Summer, semester, or academic year.

165:909 (ABRD:3135) CIEE Portugal Program arr.
Intensive Portuguese language study (beginning to advanced levels) and area studies courses taught in English at Lisbon’s Universidade Nova; regular university courses are available to semester students with sufficient language proficiency. Summer, semester, or academic year. Requirements: g.p.a. of at least 2.75.

165:910 (ABRD:3190) European Art History Study Abroad Tour arr.
Travel to Rome, Florence, and Paris; may include Amsterdam and other significant sites of art production and display; historic monuments and museums in capitals of European culture.

165:912 (ABRD:4430) Teaching and Learning in Korea Program arr.
Teach and Learn in Korea (TaLK) sends native English speakers to teach English to elementary school children in South Korea; prior to leaving for South Korea, participants receive training to teach English as a second language from UI College of Education faculty and have access to crash courses in Korean language and culture; on-site orientation, training, and excursions familiarize participants with Korean classrooms and culture; free housing, airfare reimbursement, and monthly stipend; no prior knowledge of Korean language/culture required. Requirements: junior standing.

165:914 (ABRD:3566) Overseas Writing Workshop 3 s.h.
Nonfiction writing workshop to hone writing and observation skills while exploring influences of the world at large; traditional writing workshop with immersion into contemporary and historical writing associated with chosen locale; destination varies from year to year; activities include workshops, lectures, field trips, and writing exercises. Taught in English. Recommendations: declared major or minor in English.

165:915 (ABRD:3545) Spring Break Experiential Learning Programs Abroad 1 s.h.
Combination of academic content with an intensive, week-long international experience; activities may include workshops, lectures, field trips, service learning, and research that provide students with unique opportunities to engage with communities, individuals, and specific topical areas of interest, destinations and topics vary each year.

165:916 (ABRD:3712) Child Life Experiential Learning Program 3 s.h.
Preparation to work with children and their families in a variety of health care settings through a practical experience in Cape Town, South Africa; impact of illness, injury, trauma, and health care environments on patients and families; hands-on opportunity to explore how the Red Cross and hospitals operate on a daily basis. Requirements: good academic standing.

165:917 (ABRD:4442) Seoul National University Exchange 12 s.h.
The University of Iowa and Seoul National University (SNU) maintain a bilateral exchange agreement that allows students to study abroad in Korea at SNU; wide range of English-taught classes offered in a number of different colleges including engineering, business, liberal arts, humanities, social science, and education. Requirements: sophomore or higher standing and minimum 3.00 g.p.a.

165:918 (ABRD:4443) Peking University Engineering Exchange 3 s.h.
College of Engineering partnership with Peking University; wide range of engineering classes offered; intensive summer session. Requirements: engineering major and good academic standing.

165:919 (ABRD:3338) USAC Havana Program 3.6 s.h.
Appreciation of Cuban society through area studies course work in history, culture, and politics of the region; courses taught in English and Spanish; administered by the University Studies Abroad Consortium of which The University of Iowa is a member. Requirements: 2.50 g.p.a. and good academic standing.

165:920 (ABRD:3334) CIEE Valparaiso Language in Context 12 s.h.
Development of Spanish language skills; Chile and its role in Latin America; intensive language study and choice of courses in history, literature, economics, and international relations taught in English; excursions, homestay, and opportunities for community service; administered by the Council on International Educational Exchange (CIEE). Requirements: 2.75 g.p.a.

165:921 (ABRD:3751) Archaeology in Israel
Arr.
Opportunity to participate in an active archaeological dig alongside local professionals and faculty in Israel; part of an international consortium participating the Lautenschlage Tel Azekah archaeological excavation; morning excavation time complemented by daily afternoon lectures from leading local archaeologists and University of Iowa faculty. Requirements: good academic and disciplinary standing.

165:922 (ABRD:4440) Hong Kong University of Science and Technology Exchange
12 s.h.
The University of Iowa and Hong Kong University of Science (HKUST) maintain a bilateral exchange agreement that allows engineering undergraduate students to study abroad in Hong Kong at HKUST; courses taught in English alongside with local students and other exchange students. Requirements: engineering major and 2.70 g.p.a.

165:923 (ABRD:4438) Business and Culture in China
3 s.h.
Exploration of business and cultural environment through a University of Iowa faculty-led study program in China; lectures, readings, case studies, company visits, and immersion in cultural experiences; development of greater awareness of Chinese history, politics, business, economics, and culture; topics may include Chinese business culture and relationships, local companies going global; business strategies of multinational companies in Chinese market; United States-China trade relations; entrepreneurship, Chinese consumer, sustainability, and social responsibility. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200). Requirements: 2.75 cumulative and UI g.p.a., and minimum of 30 s.h. completed prior to program.

165:925 (ABRD:1525) Iowa International Summer Institute
Arr.
Several three-week courses, all satisfying various General Education Program requirements, offered in succession each summer; taught by UI professors; course offerings and locations vary; students may take one, two, or three courses. Requirements: 2.50 g.p.a. and completion of at least 24 s.h. college-level credit before departure.
Sustainability

Coordinator

• Franklin L. Yoder

Undergraduate certificate: sustainability
Web site: http://sustainability.uiowa.edu/certificate

For decades, world leaders have defined sustainability as the implementation of policies, processes, and practices that meet the needs of the present without compromising the ability of future generations to meet their own needs. Achievement of sustainability requires an understanding of human and environmental systems and the complex interactions between them.

The Certificate in Sustainability provides students with the knowledge and skills they will need in order to contribute to sustainable systems and their interactions, especially those related to energy, society, culture, economics, the built environment, health, and public policy. The program helps students become effective leaders and agents of change for sustainability in a wide range of vocations, such as academic researcher, teacher, corporate officer, technology specialist, farmer, grassroots advocate, or government official.

The Certificate in Sustainability is administered by University College.

Undergraduate Program of Study

• Certificate in Sustainability

Certificate

The Certificate in Sustainability requires 24 s.h. of credit. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor’s degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Completion of the certificate is noted on the student’s transcript.

Individuals must declare their intent to earn the certificate; see the Certificate in Sustainability web site for details.

Sustainability embraces many disciplines, methodologies, and institutional practices. Certificate students must have knowledge of the multidisciplinary breadth of the field, which is represented by the program’s four areas of breadth electives: changing environments and human health; energy, climate, and built environments; ethics, economics, and public policy; and the power of culture and society. They also must have experience with analyzing real-life problems in and outside of the classroom and with working collaboratively to solve such problems.

Work for the certificate includes three introductory core courses; four breadth electives—one from each of the program’s four elective areas; and one project course. Students may be able to count some certificate courses toward requirements for their majors or minors. They may count a maximum of three courses in a single department or program toward the certificate. A maximum of 6 s.h. of approved transfer credit may be counted toward the certificate. Certificate courses may not be taken pass/nonpass. A single course may be used to satisfy only one certificate requirement.

The Certificate in Sustainability requires the following course work.

INTRODUCTORY CORE

Students complete the following three introductory core courses.

<table>

Undergraduate Research Experiences

Director:
• Beth F. Ingram

Undergraduate Program of Study

EPSCoR Research Internship

Web site: http://iowaepscor.org

Iowa NSF EPSCoR (Experimental Program to Stimulate Competitive Research) supports summer research internships funded by the National Science Foundation for University of Iowa undergraduates. The EPSCoR program involves partnerships between The University of Iowa, Iowa State University, and the University of Northern Iowa for research on renewable energy (wind energy and biofuels), energy efficiency, and energy policy. The program’s goals are to increase the number of students who choose careers in the STEM fields—science, technology, engineering, and mathematics—and to help the State of Iowa advance its capacity and competitiveness in research and technology.

Each intern is a member of a research group working on a specific project. Interns are mentored by the research group’s faculty leader and graduate students and are expected to do research and to participate in weekly lab meetings and other scheduled activities of the group. At the end of the program, they have the opportunity to present their research findings in a poster session. Interns also interact with other student interns and participate in seminars, research lab tours, field trips, and social events.

Internships generally last eight to ten weeks, starting in late May or early June and ending in August. Most interns receive a stipend; in addition, room and board may be provided for students who live on campus during their internships. Application deadline is March 30 for the following summer.

Contact the Department of Chemical and Biochemical Engineering for more information.

Additional Undergraduate Programs

Research Experience for Undergraduates in Microbiology

Web site: http://www.medicine.uiowa.edu/microbiology/summer/

The Department of Microbiology offers 422:130 (URES:4130) Research Experience for Undergraduates in Microbiology, a 10-week summer program for qualified undergraduate students who are studying microbiology or other biological sciences and are interested in pursuing careers in science. Participants conduct research on a project they select, under the direct supervision of a faculty member.

Each participant receives a stipend and an allowance for food. The program reimburses participants for travel expenses and provides housing.

Applicants must be U.S. citizens or permanent residents who have completed their sophomore or junior year in a bachelor’s degree program in the biological sciences. Application materials should include a completed online application, transcript, and two letters of recommendation. Deadline to apply is mid-February for the following summer.

Visit the program’s web site or contact the Department of Microbiology, Carver College of Medicine, for more information.

Summer Undergraduate MSTP Research Program

Web site: http://www.healthcare.uiowa.edu/mstp/

The Summer Undergraduate MSTP Research Program is an intensive 10-week experience for undergraduates interested in becoming physician scientists. Participants gain experience in research laboratories and exposure to clinical medicine and medically relevant research in preparation for careers as physician scientists.

Students conduct research in the laboratories of biomedical sciences faculty members, shadow physician scientists in clinical settings, participate in career development seminars, and attend a weekly seminar series focusing on the intersection of science and medicine.

Participants receive a stipend for the program and live on campus in University housing.

Applicants must be U.S. citizens or permanent residents who have completed their junior year in a bachelor’s degree program in the biological or physical sciences. Applicants should submit an application form (available on the program’s web site); an official college transcript; and two letters of recommendation. Application deadline is early February for the following summer.

Contact the Medical Scientist Training Program, Carver College of Medicine, for more information.

Courses

422:041 (URES:2100) Undergraduate MSTP Research 0 s.h.

422:050 (URES:2500) EPSCoR Undergraduate Research 0 s.h.

Participation in Experimental Program to Stimulate Competitive Research (EPSCoR) undergraduate research internship.

422:130 (URES:4130) Research Experience for Undergraduates in Microbiology 0 s.h.
University Libraries

Director
  • John P. Culshaw

Web site: http://www.lib.uiowa.edu/instruction/

Library Research in Context is an activity-based course that helps students integrate information skills and concepts into their academic tool kit, enabling them to develop habits of critical inquiry and to accomplish course goals. Designed primarily for sophomores and juniors, the course introduces students to the basic research process and helps them formulate research questions and evaluate information. It also touches on the social and ethical contexts of information. Subject-specialist librarians present the course, using in-class activities and assignments and class discussion. The course is offered online as well as on campus.

Academic Research for International Studies Majors provides a step-by-step orientation to the academic research process, in preparation for the major’s senior project [187:095 (IS:3010) Creating a Proposal for International Research]. The course helps students learn to think critically, understand and apply the components of the research process, and explore the nature of scholarly information—skills that will be valuable throughout students’ academic careers and beyond.

Being Responsible Online introduces students to ethical issues that surround online information, especially in the context of social media. Discussion topics include issues of privacy, reliability, and intellectual property; skills to navigate online information responsibly and knowledgeably.

Courses

417:001 (ULIB:1001) Library Research in Context 1 s.h.
Academic research, effective use of the library and its resources, basic research methods, process of scholarly communication; content may be keyed to a discipline-specific course; students apply concepts and processes to their research projects; transferable skills.

417:096 (ULIB:3011) Library Strategies for International Research 1 s.h.
Skill development in international research; academic projects; work with research librarian; activity-based introduction to article, statistical, and governmental databases; research and popular materials; information discovery process (tools and search strategies); enhancement of critical thinking skills. Same as 187:096 (IS:3011).

417:101 (ULIB:2001) Being Responsible Online: From Facebook to Academic Research 1 s.h.
University of Iowa Honors Program

Director
• Art L. Spisak

Web site: http://honors.uiowa.edu/

The University of Iowa Honors Program enriches the intellectual and personal lives of outstanding undergraduates across the University. It provides academic opportunities, cocurricular programs, special recognitions, and social events, many held in the award-winning Blank Honors Center. It also sponsors three residential communities for honors students, all located close to the Blank Honors Center.

Honors at Iowa challenges students and helps them make connections. For example, honors students learn from some of the top professors on campus when they select from the University’s many honors courses.

Honors students engage in a wide variety of academic and cocurricular activities, with support from numerous programs. They enjoy extended library privileges, including longer loan periods. Honors Writing Fellows refine their own writing skills when they mentor other student writers. Some students investigate topics for Iowa communities and the Iowa Legislature through the Iowa Policy Research Organization. Those who need to find mentors and funding for research get help from the Iowa Center for Research by Undergraduates.

All honors students may take part in programs that offer opportunities in the arts, sciences, politics, international relations, cultural explorations, and a variety of field trips.

The honors staff helps students tailor their honors curricula to enrich their majors. The staff also helps arrange internships, service learning, study away, teaching, and other experiences for students exploring their interests in and beyond the classroom.

Undergraduate Program of Study

• University of Iowa Honors Program

Honors at Iowa helps students tailor opportunities to different educational needs and goals. Honors students may take honors courses every semester they are enrolled at the University. Honors courses generally are small and interactive. They connect students with distinguished professors and offer new topics each semester. Honors courses also are part of the regular curriculum, not additional requirements for graduation.

Honors encourages students to begin honors work early. In 143:020 (HONR:1100) Honors Primetime, entering students earn 1 s.h. of honors credit by taking a short course a few days before fall classes begin. Students who enter the honors program directly from high school take 143:030 (HONR:1300) Honors First-Year Seminar, earning 1 s.h. for fall semester work with selected professors on current topics. Honors students may fulfill General Education Program (p. 306) requirements by completing honors sections of 010:003 (RHET:1030) Rhetoric and 004:011 (CHEM:1110) Principles of Chemistry I.

Upper-level students may take honors courses in their majors or pursue individual instruction with faculty members through honors courses such as 143:100 (HONR:3200) Honors Research Practicum. Students also may earn honors credit for a non-honors course by developing an honors contract with the course instructor; the student and instructor negotiate a unique project for the course and develop the honors contract around the project.

Additional academic opportunities include honors advanced seminars, honors major seminars, graduate courses, honors studies, and honors practicums in teaching and service.

Students learn about honors opportunities in weekly e-mails from the honors program. Honors professional staff members and peer advisors offer guidance in personal meetings and group presentations. In addition, the honors staff helps students design individualized curricula for their special interests. To learn more, visit Academics on the honors program web site.

Requirements for graduating with University honors have changed. Students who entered the University of Iowa Honors Program in summer 2013 or later must complete the requirements stated under “Graduation with University Honors” below.

JOINING THE HONORS PROGRAM

Honors at Iowa offers membership to many students entering the University directly from high school, based on the students’ grades and test scores. Entering students who are not offered membership may request an admission invitation by submitting a high school transcript, a teacher’s recommendation, and a personal letter saying how the student expects to gain from participation in the University of Iowa Honors Program.

New transfer students who have a cumulative g.p.a. of at least 3.50 and have earned at least 24 s.h. of college credit are offered membership in the honors program. Transfer students with less than 24 s.h. of college credit are considered for honors on the same basis as are students who enter the University directly from high school.

Continuing University of Iowa students who maintain a UI cumulative g.p.a. of at least 3.33 are eligible to join the honors program.

To remain in the honors program and to graduate with University honors, students must maintain a University of Iowa cumulative g.p.a. of at least 3.33 and complete specific honors program requirements. For more information about joining the University of Iowa Honors Program, see Joining Honors on the program’s web site.

COLLEGIATE HONORS AND HONORS IN THE MAJOR

In addition to graduating with University honors through the University of Iowa Honors Program, students may graduate with collegiate honors or honors in their majors. Each college and/or major sets its own requirements for graduation with honors. Students in the Colleges of Education, Engineering, and Nursing and the Tippie College of Business meet the requirements of their college’s honors program, graduating with collegiate honors. Students in the College of Liberal Arts and Sciences meet the honors requirements of their major, graduating with honors in the major.
Graduation with collegiate honors or honors in the major is recognized at commencement and is noted on the student’s transcript. Visit the individual Catalog sections to learn about requirements for collegiate honors or honors in the major.

**Graduation with University Honors**

Students must accept a formal invitation from the University of Iowa Honors Program in order to become members; see "Joining the Honors Program" above.

All students who enter the honors program must attend an honors orientation.

Graduation with University honors through the University of Iowa Honors Program is recognized at commencement and is noted on the student’s diploma and transcript.

Honors program students completing degree programs in the Colleges of Education, Engineering, Liberal Arts and Sciences, and Nursing and the Tippie College of Business may graduate with University honors. Honors requirements for engineering students are different from those for students in the other colleges.

Graduation with University honors requires the following work.

**Business, Education, Liberal Arts and Sciences, and Nursing Students**

Students earning bachelor’s degrees in the Colleges of Education, Liberal Arts and Sciences, and Nursing and in the Tippie College of Business complete a two-level program of approved course work (level one) and experiential learning (level two) in order to graduate with University honors. Students are not required to complete all level-one requirements before they begin work on level two.

**LEVEL ONE: BUILDING KNOWLEDGE**

Level one requires students to earn 12 s.h. of credit in honors course work during their first four semesters in the honors program. Students may count a maximum of one honors contract course toward the level-one requirement; under certain circumstances, they may count up to 6 s.h. of honors contract course credit. Level one requires the following course work.

- Complete an honors First-Year Seminar during the first semester at The University of Iowa (for students who enter the honors program directly from high school).
- Complete an honors course or an honors contract course during the first semester in the honors program.
- Complete additional honors course work to total 12 s.h. (the level-one requirement).

**LEVEL TWO: LEARNING BY DOING**

Level two requires students to complete 12 s.h. in approved experiential learning activities. Students may satisfy the requirement with one of the options below, or they may combine two or more of these options in order to earn the 12 s.h. of credit required for level two.

Earn honors in the major; this option fulfills the entire level-two requirement.

Earn up to 12 s.h. in mentored research; earning the maximum 12 s.h. fulfills the entire level-two requirement; students who earn less credit for mentored research may combine it with another option to fulfill the level-two requirement.

Study abroad for a minimum of two semesters (fall and/or spring) or the equivalent; carry out a preapproved independent project while abroad and present a poster on the project or write a report about it; this option fulfills the entire level-two requirement.

Earn up to 6 s.h. for a single semester of study abroad, including a summer or between-semester experience.

Complete an internship and carry out a preapproved independent project during the internship; present a poster on the project or write a report about it; internships normally count for up to 6 s.h. of the level-two requirement, but in some cases they count for the entire 12 s.h. required for level two.

Earn up to 6 s.h. in honors course work approved for the level-two requirement.

**Engineering Students**

Students earning a Bachelor of Science in Engineering complete 24 s.h. in a program of approved course work and experiential learning in order to graduate with University honors. They must complete one honors course during their first semester in the honors program, earn 6 s.h. of the required 24 s.h. in honors course work, and complete 12 s.h. of the required 24 s.h. during their first six semesters in the honors program. Requirements may be different for honors students who complete the Grand Challenges for Engineering program.

Students may complete one of the options below, or they may combine two or more of the options in order to earn the required 24 s.h. of honors credit.

- Complete the Grand Challenges for Engineering program; this option fulfills the entire 24 s.h. honors requirement.
- Earn up to 12 s.h. in honors course work, which may include graduate courses.
- Earn up to 12 s.h. in mentored research (earn 3 s.h. by completing 10 hours of mentored research work per week for a fall or spring semester; earn 6 s.h. by completing 20 hours of mentored research work per week for a summer session).
- Earn up to 12 s.h. in study abroad (earn 6 s.h. for one fall or spring semester or an equivalent amount of time during summer and between semesters); carry out a preapproved independent project while abroad and present a poster on the project or write a report about it.
- Earn up to 12 s.h. by completing one or more internship or co-op experience (earn 6 s.h. for a 15-week experience requiring 40 hours of work per week; earn 3 s.h. for a 15-week experience requiring 20 hours of work per week; earn 4 s.h. for a 10-week experience requiring 40 hours of work per week; earn 2 s.h. for a 10-week experience requiring 20 hours of work per week); students must register their internships and co-op experiences with the College.
of Engineering and meet the college's reporting and evaluation requirements.

Earn up to 6 s.h. by completing a preapproved engineering community engagement experience (earn 3 s.h. for completing 10 hours of work per week for one semester in one of the following activities: fill a leadership position in an approved engineering student organization or serve as an engineering tutor, engineering teaching assistant, engineering student ambassador, or engineering peer advisor; submit a paper that details personal reflections on the experience, signed by the supervisor or faculty advisor.

Earn honors in the student’s engineering major; this option counts for 12 s.h. of University honors credit.

**Academic Activities**

**Honors Peer Advisors** earn academic credit for acquiring and then sharing knowledge of honors opportunities by organizing events around the campus and meeting with prospective students and their parents.

**Honors Writing Fellows** are trained and paid to assist in undergraduate courses by mentoring a dozen students each semester on two major writing assignments.

The **ICRU Research Ambassadors** earn academic credit for showing how and why research with faculty mentors is an important aspect of education at The University of Iowa.

The **Iowa Policy Research Organization** selects a dozen honors students each year to earn academic credit by learning to do policy analysis and then writing policy papers for Iowa communities and the Iowa Legislature.

**Study away**, in foreign countries or culturally contrasting parts of the United States, enables students to earn academic credit for course work, research, or service. Learn more about honors activities and Experience-Based Learning on the honors program web site.

**Cocurricular Programs**

Honors at Iowa offers students a rich variety of activities outside the classroom. Many honors students find cocurricular programming a good way to meet people, get involved, and learn more about the world around them. Some of the programs are volunteer, some offer pay, and some award honors credit. These opportunities provide peak educational experiences, especially extensive and intensive interactions with faculty mentors and other talented students.

The **Honors Student Advisory Committee** enables volunteers to work with the honors director on awards, initiatives, and priorities for honors education at The University of Iowa.

**Honors House mentors** are upper-level student volunteers selected to live in Honors House, where they help with honors educational and social programs and guide first-year students.

**Honors interns** receive academic credit for service learning that is mentored by faculty members and provided in professional or other practical settings.

**Honors newsletters** inform readers on and beyond the campus about honors at Iowa.

The **honors student staff** earn pay to make the Blank Honors Center useful to students. They also produce most honors cocurricular programs.

**Honors summer ambassadors** earn pay to orient entering students to the honors program by informing them of academic opportunities and activities.

**ICRU fellows** receive scholarships from the Iowa Center for Research by Undergraduates to do research with faculty mentors in professional fields of study.

**Honors Arts** sends groups of honors students to music, dance, and theater events at the University and in the community. Students have opportunities to interact with artists, faculty members, and other honors students through related discussions, lectures, and visits.

**Honors Engaging Cultures** offers a wide range of events to expand cultural horizons and enlarge personal perspectives. These include feasts, films, dances, documentaries, and more.

**Honors Gallery** takes advantage of the Blank Honors Center’s design to display art. It exhibits student works throughout the year and complements the exhibits with receptions and other events.

The **Iowa City Foreign Relations Council** hosts luncheon dialogues on relevant international issues. Past speakers include award-winning journalists, Nobel Peace Prize laureates, seasoned diplomats, prominent politicians, and policy analysts. Honors students become better informed about world affairs by listening to and talking with these expert speakers.

The **Presidential Scholars Community** involves recipients of Iowa's top merit scholarships in shared classes, opportunities for funded research in the first year, and service. Scholars participate in legacy projects, dinners with faculty and key administrators, scholarship and fellowship mentoring programs, and volunteer projects.

The University of Iowa Honors Program advises four major national and international honor societies: Phi Eta Sigma, National Society of Collegiate Scholars, Mortar Board, and Omicron Delta Kappa. It also works closely with Phi Beta Kappa in the College of Liberal Arts and Sciences. These societies provide select students with opportunities to lead, serve their communities, and cultivate academic excellence.

To learn more, visit Student Activities on the honors program web site.

**Financial Support**

Honors at Iowa helps students apply for scholarships, fellowships, awards, and prizes. The program offers its own scholarships to continuing honors students selected from academic programs throughout the University. Honors scholarships are not available to incoming first-year or transfer students.

Iowa students win major national and international scholarships each year. Honors provides advising and nominations for Rhodes, Marshall, Gates Cambridge, Churchill, Truman, Udall, Goldwater, Fulbright, Humanity in Action, National Science Foundation, and other prominent scholarships and fellowships. The Iowa Center for Research by Undergraduates provides research scholarships for students and travel grants for those who pursue
research at distant sites or present work at conferences. Announcements about scholarships and other awards appear in honors program e-mails and on the program’s web site. Learn more at UIHP Scholarships & Fellowships on the honors program web site.

Facilities

Blank Honors Center
Honors at Iowa makes its home in the Blank Honors Center, a modern facility that fosters community among honors students. The Blank Honors Center is located at the center of the University’s main campus, next to residence halls and classroom buildings. It offers social areas, a kitchenette, quiet study areas, wireless Internet access, a computer lab, and classrooms for students. The center also houses the honors staff and has rooms for meetings, events, presentations, and conversation.

Honors Residential Communities
The honors program sponsors three living-learning communities, all located in University of Iowa residence halls within a block of the Blank Honors Center. Each community hosts its own social events, and all community members have access to the full range of honors academic and cocurricular opportunities.

Honors House is primarily for first-year honors students. It is located in Daum Hall and is connected to the Blank Honors Center by a skywalk. Honors House provides a convenient place for residents to socialize and study together. It also sponsors academic and social events for honors students living in Daum Hall.

Honors: Research Opportunities in Biology and Chemistry is a living-learning community open to first-year honors students. The community connects its members with faculty and research opportunities in the biological and chemical sciences.

Honors Centerstone is open to continuing and transfer honors students. It is located in a block of the Blank Honors Center. Honors Centerstone focuses on opportunities in communication and literacy.

Honors at the University of Iowa residential communities connect honors students, honors teachers, and staff members.

Courses
Honors courses are specifically for honors students.

143:030 (HONR:1300) Honors First-Year Seminar 1-2 s.h.
Small discussion classes taught by faculty members on special topics; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

143:039 (HONR:1850) Honors Seminar in Communication and Literacy 3 s.h.
Small-class learning with a faculty member; focus on writing, speaking, and critical reading skills or analysis of fiction, poetry, drama, essays.

143:040 (HONR:3050) Honors Studies arr.
Independent studies arranged with faculty members who certify satisfactory completion of study plans and performance for topics not covered by other UI courses.

143:041 (HONR:3160) Honors Internship 0-3 s.h.
Independent service internship arranged with faculty members, who certify satisfactory performance and completion of project.

143:042 (HONR:3150) Honors Service Learning arr.
Service learning projects arranged with faculty members who certify satisfactory completion of study plans and service.

143:044 (HONR:3400) Honors Writing Workshop 1-3 s.h.
Learn writing through the Iowa workshop tradition of sharing new work with colleagues who provide detailed, constructive suggestions in response; emphasis on invention, structure, style; each edition targets a distinct kind of writing; an experienced writer leads the workshop with meeting formats; credit suited to exercises for the type of featured writing. Requirements: completion of Rhetoric requirement.

143:051 (HONR:2110) Honors Seminar in Historical Perspectives 3 s.h.
Small-class learning with a faculty member to explore and explain historical developments. GE: Historical Perspectives.

143:052 (HONR:2120) Honors Seminar in International and Global Issues 3 s.h.
Small-class learning with a faculty member to introduce perspectives of other nations and cultures through international or global issues. GE: International and Global Issues.

143:053 (HONR:2130) Honors Seminar in Literary, Visual, and Performing Arts 3 s.h.
Small-class learning with a faculty member to appreciate, analyze, create, or perform art. GE: Literary, Visual, and Performing Arts.

143:054 (HONR:2170) Honors Seminar in Values, Society, and Diversity 3 s.h.
Small-class learning with a faculty member to explore fundamental questions on human experience from cultural, social, performative, philosophical, or spiritual perspectives. GE: Values, Society, and Diversity.

143:060 (HONR:1600) Honors Seminar in Social Sciences 3 s.h.
Small-class learning with a faculty member on social science topics. GE: Social Sciences.

143:070 (HONR:1700) Honors Seminar in Natural Sciences
3 s.h.
Small-class learning with a faculty member on natural science topics. GE: Natural Sciences without Lab.

143:080 (HONR:1800) Honors Seminar in Quantitative and Formal Reasoning
3 s.h.
Patterns of reasoning useful for understanding and evaluating scientific evidence, theory, controversy; historical and contemporary examples from the physical, biological, behavioral, biomedical sciences. GE: Quantitative or Formal Reasoning.

143:083 (HONR:1883) War
3 s.h.
Emotions soldiers have as they fight, what makes them continue voluntarily to face death, and how modern society memorializes these experiences; how literature and art transform the experience of war; human responses to war in Homer’s Iliad and select Greek tragedies. GE: Values, Society, and Diversity. Same as 20E:083 (CLSA:1883).

143:085 (HONR:1885) Reading the Ancient City
3 s.h.
How ancient Mediterranean and Near Eastern peoples from third millennium B.C.E. to fourth century C.E. described, celebrated, and deplored life in their great cities (Babylon, Jerusalem, Athens, Alexandria, Rome); readings selected from ancient literary prose, poetry, drama, and religious writings; study of popular writing (e.g., ancient inscriptions, graffiti, letters, prayers, account books, and magic spells). Same as 20E:085 (CLSA:1085).

143:100 (HONR:3200) Honors Research Practicum
1-3 s.h.
Individual research performed in conjunction with a faculty member’s research.

143:101 (HONR:3100) Honors Teaching Practicum
1-3 s.h.
Teaching internship in first- and second-year courses; may include providing tutorial assistance, conducting review sessions, aiding course organization.

143:102 (HONR:3220) Honors Writing Fellows: Writing Theory and Practice
3 s.h.
Preparation of honors students selected as writing fellows to serve as peer tutors in writing-intensive courses; theories of writing, evaluation of drafts, peer tutoring with students. Requirements: sophomore or junior honors standing, admission to Writing Fellows Program, and availability to work as a writing fellow in subsequent semesters.

143:140 (HONR:3211) Honors Policy Research Practicum
1 s.h.
Theory and practice of public policy research; development of policy-research skills; production of policy-research papers. Requirements: sophomore or junior standing.

143:185 (HONR:3180) ICRU Research Ambassadors
1-2 s.h.
ICRU Research Ambassadors share knowledge and experiences in research; weekly meeting and interaction with students through presentations, online chat, or other venues to answer questions, provide information, and inform students about undergraduate research opportunities; student perspective on how to navigate research opportunities at The University of Iowa.

143:190 (HONR:3170) Honors Peer Advising
1-2 s.h.
Experience sharing knowledge and experiences of the Honors Program with other students in meetings during office hours, online chats, other venues; peer advisors answer questions, provide information, help students find honors opportunities in and out of class.

143:199 (HONR:4990) Honors Thesis or Project
1-3 s.h.
Culminating project of research or artistic creation; preparation and completion of the final product associated with graduation with honors in the student’s major. Requirements: member of the University of Iowa Honors Program and junior or senior standing.
University of Iowa Upward Bound

Interim director
• Nancy J. Humbles

Web site: http://diversity.uiowa.edu/cde/trio-upward-bound

Precollege Program of Study

University of Iowa Upward Bound is an academic program for eligible high school students from four southeastern Iowa communities. Students participate during the academic year at their local high school and attend a six-week residential program on the University of Iowa campus from mid-June through July. Participants take mathematics, science, language arts, computer technology, and foreign language courses to prepare them for classes they will take at their local high school in the fall. They also participate in extracurricular activities, field trips, and college visits.

Bridge students (those who will enter college in the fall) enroll in a University of Iowa course during the six-week summer session. Bridge students participate in an on-campus job shadow and take a college transition seminar. Participants receive all services at no cost.

To be admitted to University of Iowa Upward Bound, students must:

- reside in the target area and attend a target school;
- be in grade 9, 10, or 11;
- have a family income that meets U.S. Department of Education low-income guidelines;
- be a potential first-generation college student; and
- show need for Upward Bound services.

Upward Bound provides services to students until they graduate from high school and enroll in postsecondary education.

University of Iowa Upward Bound serves students who attend the following Iowa high schools: Columbus Community High School, Muscatine High School, and West Liberty High School. Other postsecondary institutions in Iowa and across the nation sponsor Upward Bound programs. High school students who do not attend schools served by the University of Iowa program should ask their counselors whether an Upward Bound program serves their area.

For more information, contact University of Iowa Upward Bound.

Courses

401:018 (UIUB:0018) Upward Bound Project 0 s.h.
Division of Continuing Education

Dean
- Chet Rzonca

Web site: http://www.continuetolearn.uiowa.edu

The Division of Continuing Education increases access to the services and resources of The University of Iowa. In partnership with the University’s colleges and departments, the division provides high-quality credit and noncredit courses, workshops, and programs to traditional and nontraditional learners. Using a variety of locations, schedules, and technologies, the division helps provide a University of Iowa learning environment beyond the physical borders of campus.

The division administers the following programs.

On-Campus Courses

Director: Marlys Boote
Web site: http://www.continuetolearn.uiowa.edu/coursetypes/on-campus/index.html

The Division of Continuing Education offers On-Campus Courses (formerly Saturday & Evening Classes) and sponsors University courses on campus during late afternoon and evening hours that are convenient for part-time and nontraditional students. Undergraduate and graduate course work is available in a wide range of academic disciplines.

Summer and Winter Sessions

Director: Marlys Boote
Web site, summer session: http://www.continuetolearn.uiowa.edu/summer/index.html
Web site, winter session: http://www.continuetolearn.uiowa.edu/dceunits/wintersession

The University of Iowa conducts summer sessions of four, six, eight, and 12 weeks. Classes also are offered outside these normal summer session terms. In addition, a short winter session is offered during the break between the fall and spring semesters.

Students may take undergraduate and graduate course work during the summer and winter sessions. Classes during these sessions are taught mainly by University of Iowa faculty members, so students receive the same first-rate instruction provided during the spring and fall semesters. Courses are offered in a variety of formats both on and off campus. They are open to University of Iowa students and to persons not formally admitted to a degree program.

Distance Programs and Courses

Associate dean: Anne Zalenski
Web site: http://www.continuetolearn.uiowa.edu/

The University of Iowa offers a number of degree and certificate programs available entirely by distance education. These programs of study are supported by hundreds of courses that are offered in a variety of ways, including online, independent study, virtual classroom technologies, and a combination of formats. The division also offers on-site programming in the Quad Cities, Sioux City, Des Moines, and at Iowa Lakeside Laboratory.

The University has established partnerships with all of Iowa’s community colleges so that Iowans who earn an associate’s degree at their community college can continue to live and work in their communities while earning a degree from The University of Iowa.

For information about programs, procedures, and enrollment, contact the Division of Continuing Education.

Bachelor of Applied Studies

The Bachelor of Applied Studies (B.A.S.) is a bachelor’s degree that may be completed entirely by distance education. The degree requires a minimum of 120 s.h. and is offered without an academic major, but students may include certificate programs in their degree or develop an area of emphasis by selecting from seven B.A.S. tracks. Students may earn credit toward the degree by taking courses offered in varied distance education formats; they also may use courses offered in on-campus formats. Applicants must hold an Associate of Applied Science (A.A.S.), an Associate of Arts (A.A.), or an Associate of Science (A.S.) degree. The B.A.S. is awarded by University College and is administered by the Division of Continuing Education. For a detailed program description, see Bachelor of Applied Studies (p. 1188) (University College) in the Catalog.

Bachelor of Business Administration

Web site: http://www.continuetolearn.uiowa.edu/programs/undergraduate/bba/index.html

The Bachelor of Business Administration (M.B.A.) with a major in management, entrepreneurial management track, may be completed entirely by distance education or through a combination of distance formats and on-campus classes. The degree requires a minimum of 120 s.h. of credit. To be admitted to the program, individuals must have earned a minimum of 60 s.h. of college-level credit with a g.p.a. of at least 2.75; they also must have completed four prerequisite courses (business calculus, statistics, microeconomics, and financial accounting) with a g.p.a. of at least 2.75. The distance B.B.A. degree is awarded by the Tippie College of Business and is administered by the Division of Continuing Education. For a detailed program description, see Management and Organizations (p. 664) in the Catalog.

Bachelor of Liberal Studies

Web site: http://www.continuetolearn.uiowa.edu/programs/undergraduate/bls/index.html

The Bachelor of Liberal Studies (B.L.S.) is a bachelor’s degree that may be completed entirely by distance education. The degree requires a minimum of 120 s.h. and is offered without an academic major, but students may include certificate programs or emphasis areas within the degree. Students may earn credit toward the degree by taking courses offered in varied distance education formats; they also may use courses offered in on-campus formats. Applicants must have either an Associate of Arts
(A.A.) degree or have earned at least 60 s.h. of credit. The B.L.S. is awarded by University College and is administered by the Division of Continuing Education. For a detailed program description, see Bachelor of Liberal Studies (p. 1191) (University College) in the Catalog.

Center for Conferences

**Director:** Jo Dickens  
**Web site:** http://www.continuetolearn.uiowa.edu/conferences

The University of Iowa Center for Conferences (UICC) is the University’s principal agency for initiating, coordinating, conducting, and supporting noncredit continuing education programs. It also serves as the University of Iowa’s Continuing Education Unit (CEU) database.

UICC coordinates national and international conferences for University faculty, departments, colleges, administrative units, student groups and related academic societies, professional associations, and other groups sponsored by the University. Its services include initial planning, site location, budget development, income and expense management, payment processing, and online conference registration.

The Center for Conferences uses facilities on the University of Iowa campus as well as those located in Iowa City and Coralville, throughout Iowa, and nationwide. For more information, visit the Center for Conferences web site.

Iowa Lakeside Laboratory

**Executive director:** Peter J. van der Linden  
**Web site:** http://www.continuetolearn.uiowa.edu/lakesidelab/

Iowa Lakeside Laboratory is a field station run cooperatively by The University of Iowa, Iowa State University, and the University of Northern Iowa and administered by The University of Iowa. The laboratory offers summer courses and research opportunities for undergraduate and graduate students. Courses focus on the ecology, taxonomy, and conservation of northern plains animals, plants, microorganisms, and ecosystems. Students take one course at a time, 40 hours per week, for one to four weeks. Class sizes are small, and most students spend at least part of every day outdoors.

The Board of Regents, State of Iowa, has designated Lakeside Laboratory a Regents Resource Center, dedicated to providing lifelong learning opportunities for Iowans.

For information about academic programs and courses at the laboratory, see Iowa Lakeside Laboratory (p. 1207) (University College) in the Catalog or visit the Iowa Lakeside Laboratory web site.

Iowa Summer Writing Festival

**Director:** Amy Margolis  
**Web site:** http://www.continuetolearn.uiowa.edu/ISWFest/

The Iowa Summer Writing Festival is a noncredit creative writing program for adults. It brings some 1,300 writers to the University of Iowa campus each summer to participate in weeklong and weekend workshops across the genres. Writers at all levels are welcome.

Participants choose from more than 135 workshops, including novels, short fiction, poetry, memoirs, essays, screenwriting, playwriting, travel, humor, science fiction, writing for children, and more. Festival classes are conducted as workshops, where the primary texts are participants’ own creative work.

Weeklong sessions feature group meetings three hours each day, Monday through Friday, plus individual student/instructor conferences. The daily meetings include a lecture series on craft. Participants also attend evening readings and other events. Weekend sessions meet for eight hours over two days. Visit the Iowa Summer Writing Festival web site for information about workshops, schedules, and registration. Program information for the coming summer is posted in mid- to late February.

Iowa Young Writers’ Studio

**Director:** Stephen Lovely  
**Web site:** http://iowayoungwritersstudio.org

The Iowa Young Writers’ Studio is a two-week summer residential program for high school students who love to write. Students build a community of peers while working with experienced writing teachers, primarily students and graduates of the University’s M.F.A. program in creative writing.

The studio offers three courses of study: poetry, fiction, and creative writing (a mix of poetry, fiction, and creative nonfiction). Each course consists of a seminar and a workshop. In seminars, students read literature by established writers. In workshops they share their own writing, get feedback from their classmates and teacher, and discuss issues of narrative and form.

The studio offers two two-week sessions: one in June and one in July. Young writers who have completed grade 10, 11, or 12 are eligible to attend the studio. Application materials include an application form, a creative writing sample, a statement of purpose, a high school transcript, and a letter of recommendation from an English teacher or another instructor familiar with the applicant’s writing. For complete application information, contact the Iowa Young Writers’ Studio or visit its web site.

John and Mary Pappajohn Education Center

**Director:** Chet Rzonca  
**Manager:** Richard Gardner  
**Web site:** http://www.continuetolearn.uiowa.edu/jmpec

The John and Mary Pappajohn Education Center (JMPEC) serves a wide range of adult learning needs. It also provides central Iowa students with access to a variety of University of Iowa undergraduate and graduate degree programs and courses. The center is located in downtown Des Moines, Iowa, close to many corporate businesses and government offices. With classrooms that can accommodate groups of up to 80 people, JMPEC is ideal for small conferences, educational workshops, and meetings. It is equipped to handle on-site instructional technology and to deliver distance education to students anywhere. JMPEC also makes noncredit learning opportunities for professional and workforce development available to corporations and individuals. Learn more at the John and Mary Pappajohn Education Center web site.
Labor Center

**Director:** Jennifer Sherer  
**Web site:** http://www.continuetolearn.uiowa.edu/laborctr

The University of Iowa Labor Center provides educational programs to Iowa’s working people and their organizations. The center offers a wide range of noncredit courses designed for labor union members and leaders; typical course offerings include steward education and contract administration, collective bargaining, labor and employment law, public policy issues, leadership development, organizing and mobilizing, economics, labor history, workplace health and safety, and other topics relevant to union members. Courses are offered both on and off campus at times and locations convenient to working adults. The Labor Center also conducts applied research, publishes educational materials on workplace issues, and conducts public programming on labor issues on the University of Iowa campus and in Iowa communities.
Administrative Officers

Board of Regents, State of Iowa

The Board of Regents, State of Iowa, governs The University of Iowa, Iowa State University of Science and Technology, the University of Northern Iowa, the Iowa Braille and Sight-Saving School, and the Iowa School for the Deaf. The board has nine members and an executive director.

President: Bruce L. Rastetter, Alden
President pro tem: Katie S. Mulholland, Marion
Nicole C. Carroll, Carroll
Milt J. Dakovich, Waterloo
Robert N. Downer, Iowa City
Ruth R. Harkin, Cumming
Larry E. McKibben, Marshalltown
Subhash C. Sahai, Webster City
Hannah M. Walsh, Iowa City
Executive director: Robert Donley, Urbandale

Central Administration

President: Sally Mason
Executive vice president and provost: P. Barry Butler
Senior vice president and university treasurer: Douglas K. True
Vice president for medical affairs: Jean E. Robillard
Vice president for research and economic development: Daniel Reed
Vice president for student life: Thomas R. Rocklin
Vice president for human resources: Susan C. Buckley
Vice president for legal affairs and general counsel: Carroll J. Reasoner
Vice president for strategic communication: Joseph Brennan
Vice president for external relations: Mark J. Braun
Chief diversity officer and associate vice president: Georginia Dodge

Director, Office of Equal Opportunity and Diversity: Jennifer Modestou
University ombudspersons: Susan Johnson, Cynthia Joyce

Office of the Provost

Provost and executive vice president: P. Barry Butler
Associate vice president and director of administration and planning: Don J. Szaszonyki
Associate provost for undergraduate education and dean of University College: M. Beth Ingram
Associate provost for faculty: Tom W. Rice
Associate provost for graduate education and dean of the Graduate College: John C. Keller
Associate provost and dean of international programs: Downing Thomas
Associate provost and dean of continuing education: Chet S. Rzonca

Interim associate provost for outreach and education: Linda Snetselaar
Assistant provost for enrollment management and director of admissions: Michael Barron
Assistant provost for enrollment management and director of academic advising: Lisa Ingram
Assistant provost for enrollment management and university registrar: Lawrence J. Lockwood
Assistant provost for enrollment management and director of student financial aid: Mark S. Warner

Henry B. Tippie College of Business
Dean: Sarah Fisher Gardial

College of Dentistry
Dean: David C. Johnsen

College of Education
Interim dean: Nicholas Colangelo

College of Engineering
Dean: Alec B. Scranton

Graduate College
Dean: John C. Keller

College of Law
Dean: Gail B. Agrawal

College of Liberal Arts and Sciences
Dean: Chaden Djalali

Roy J. and Lucille A. Carver College of Medicine
Dean: Debra A. Schwinn

College of Nursing
Dean: Rita A. Frantz

College of Pharmacy
Dean: Donald E. Letendre

College of Public Health
Dean: Susan J. Curry

University College
Dean: M. Beth Ingram

Division of Continuing Education
Dean: Chet S. Rzonca

Academic Advising Center
Director: Lisa Ingram

Admissions
Director: Michael Barron

Center for Teaching
Director: Jean C. Florman

Information Technology Services
Chief information officer and director: Steven R. Fleagle

International Programs
Associate provost and dean: Downing Thomas

International Writing Program
Director: Christopher Merrill

Libraries
University librarian: John P. Culshaw

Museum of Art
Executive director: Sean O’Harrow

Office of the Registrar
University registrar: Lawrence J. Lockwood
Student Financial Aid
Director: Mark S. Warner

University Evaluation and Examination Service
Director: Joyce E. Moore

University of Iowa Press
Director: Jim McCoy

Women in Science and Engineering
Director: Christine P. Brus

Research
Vice president for research and economic development: Daniel Reed
Senior associate vice president, research development and centers and institutes: Richard Hichwa
Associate vice president, compliance and regulatory affairs: James C. Walker
Interim associate vice president for economic development: David Hensley
Assistant vice president, interdisciplinary research and outreach: Ann Ricketts
Assistant vice president, operations, human resources, and budget: Cheryl Reardon
Human Subjects Office
Director: John A. Bertolatus
Obermann Center for Advanced Studies
Director: Teresa Mangum
Office of the State Archaeologist
Director: John Doershuk
Pentacrest Museums (Museum of Natural History, Old Capitol Museum)
Interim director: John Logsdon
Public Policy Center
Executive director: Peter C. Damiano
Sponsored Programs
Director: Jennifer Lassner
State Hygienic Laboratory at The University of Iowa
Director: Christopher G. Atchison
University of Iowa Research Foundation
Executive director: Zev Sunleaf
University of Iowa Research Park
Director: Stephanie Dengler

Student Life
Vice president for student life: Thomas R. Rocklin
Associate vice president for student life and dean of students: David L. Grady
Assistant vice president for assessment and strategic initiatives: Sarah Hansen
Assistant vice president for student life and director of University housing and dining: Von Stange
Assistant vice president: Belinda Lantz Marner
Associate dean of students: Thomas R. Baker
Recreational Services
Director: J.T. Timmons
Student Disability Services

Director: Mark M. Harris
Student Health & Wellness
Director: James P. Kellogg Jr.

University Counseling Service
Director: Sam V. Cochran

Anderson, Dawn Renee Barker, Lecturer, Law-Faculty, 2001 (2001); BA 1992 N - Iowa; JD 1995 Iowa

Anderson, Donald Dean, Associate Professor, Biomedical Engineering/Orthopaedics and Rehabilitation, 2004 (2009); BSE 1985 IOWA; MS 1986 IOWA; PHD 1989 IOWA

Anderson, Erling A., Emeritus Associate Professor, Psychology, 1989 (1993); BA 1972 Wisconsin; MA 1981 Iowa; PHD 1984 Iowa

Anderson, Kenneth W., Clinical Adjunct Assistant Professor, Pediatrics, 1975 (1975); MD 1972 Northwestern

Anderson, Mark Edward, Professor, Radiation Oncology/Physiology/Internal Medicine, 2005 (2005); BA 1981 Macalester; PhD 1987 Minnesota; MD 1989 Minnesota

Anderson, Michael Gary, Associate Professor, Ophthalmology Visual Science/Physiology, 2004 (2010); PHD 1997 Iowa

Anderson, Paul G., Emeritus Professor, Music, 1949 (1968); BM 1948 Iowa; MA 1949 Iowa

Anderson, Rachel L., Emeritus Associate Professor, Health Management Policy, 1999 (2005); BA 1987 Beloit; PHD 1997 Northwestern

Anderson, Raymond Ronald, Adjunct Assistant Professor, Geoscience, 1993 (1993); PHD 1992 Iowa

Anderson, Richard, Lecturer, English as Second Language, 2010 (2010); MA 2010 Northern Iowa

Anderson, Robert F., Clinical Adjunct Associate Professor, Pediatrics, 2002 (2009); BA 1971 SAINT MARY’S; MD 1975 IOWA

Anderson, Rockford Charles, Adjunct Assistant Professor, Pharmacy, 2010 (2010); PHARMD 2006 Drake

Anderson, Scott Mitchell, Adjunct Assistant Professor, Family Dentistry, 2012 (2012); BBA 2001 University of Iowa

Anderson, Steven Wayne, Associate Professor, Neurology, 1994 (2003); BA 1982 South Florida; MA 1985 Iowa; PHD 1987 Iowa

Anderson, Steven Paul, Adjunct Assistant Professor, Family Dentistry, 2005 (2005); DDS 1980 Iowa

Anderson-Suddarth, Julie Linn, Clinical Adjunct Assistant Professor, Pediatrics, 2006 (2006); BS 1995 Northeast Missouri State; MD 1999 Iowa

Andreassen, Nancy Coover, Professor, Education/Psychiatry, 1973 (1981); BA 1958 Nebraska; MA 1959 Radcliffe; PHD 1963 Nebraska; MD 1970 Iowa

Andreassen, Andrew August, Clinical Adjunct Assistant Professor, Family Medicine, 1995 (2002); MD 1989 Iowa

Andrews, Emily Marie, Adjunct Instructor, Communication Sciences and Disorders, 2005 (2005); MA 1999 Iowa

Andrews, James G., Emeritus Professor, Mechanical Engineering, 1964 (1983); BSME 1957 Iowa; MS 1959 Iowa

Andsager, Julie, Professor, Journalism Mass Communication/University College/Community Behavioral Health, 2003 (2008); BS 1986 Kansas State; MS 1990 Kansas State; PHD 1993 Tennessee

Ang, Leybie, Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);

Anguelov, Zlatko, Adjunct Lecturer, Interdisciplinary Programs, 2008 (2008); MD 1972 Varna, Bulgaria; MA 1995 McGill

Angwin, Kari Ann, Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013);

Ankenmann, Robert D., Associate Professor, Psych Quant Foundations, 1994 (2000); BED 1984 Western Ontario; SCB 1984 University of Waterloo; MED 1990 New Brunswick; PHD 1994 Pittsburgh

Ankeny, John W., Clinical Adjunct Assistant Professor, Family Medicine, 1982 (2002); BA 1974 Simpson; DO 1977 Coll of Osteopathic Med

Ansley, Timothy N., Associate Professor, Psych Quant Foundations, 1983 (1989); BA 1974 Eastern Illinois; MS 1977 Northern Illinois; PHD 1984 Iowa

Anstey, B. Eleanor, Emeritus Assistant Professor, Social Work, 1974 (1978); BA 1953 Marycrest; MA 1959 Creighton; MA 1968 Manhattanville; PHD 1983 Iowa

Antes, Lisa Maria, Clinical Professor, Internal Medicine, 2000 (2013); BS 1986 Montclair State; BA 1986 Montclair State; MD 1990 Robert Wood Johnson Medical

Antezano, Eduardo Sebastian, Clinical Adjunct Assistant Professor, Internal Medicine, 2005 (2005); MD 1996 Peruvian, Cayetano

Anthony, Jerry, Associate Professor, Urban Regional Planning/Public Policy Center, 2000 (2006); BA 1989 Kerala-India; MS 1991 Delhi-India; PHD 2000 Florida State

Anthony, Jessica Ann, Adjunct Assistant Professor, Dance, 2013 (2013); BA 2003 U of Wisconsin

Anthony, Rebecca J., Adjunct Instructor, Teaching and Learning, 2005 (2005); BA 1972 Luther College; MA 1975 Iowa

Anthony, Theresa Renee, Assistant Professor, Occupational Environmental Health, 2009 (2009); MSE 1992 North Carolina - Chapel; PHD 2005 North Carolina - Chapel

Anzelc, Benjamin Paul, Adjunct Assistant Professor, Art Art History, 2006 (2006); BS 1997 Northern Illinois; MA 2000 Northern Illinois

Apicella, Michael A., Emeritus Professor, Microbiology/Internal Medicine, 1993 (1993); AB 1959 College of the Holy Cross; MD 1963 SUNY-Downstate Brooklyn

Aquilino, Mary Lober, Clinical Associate Professor, Community Behavioral Health, 1982 (2004); BSN 1977 NY
Aquilino, Steven A., Professor, Prosthodontics, 1982 (1993); BS 1975 State Univ of NY-Binghamton; DDS 1979 North Carolina; MS 1982 North Carolina
Arafat, Zaina F., Adjunct Assistant Professor, Division of Interdisciplinary Program, 2013 (2013);
Aravamudhan, Raman, Adjunct Instructor, Computer Science, 2003 (2004); ME 1986 Bharathiar Univ, India
Archer, Brad James, Clinical Adjunct Associate Professor, Internal Medicine, 2005 (2008); BA 1989 Northern Iowa; MD 1999 South Dakota
Are, Chaitanya, Clinical Assistant Professor, Internal Medicine, 2011 (2013); MBBS 2003 Osmania Gen Hospital, India; MBCHB 2003 Osmania, India
Arens, Lynnette Rae, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARMD 2003 Iowa
Argo, Tami Renee, Clinical Adjunct Assistant Professor, Psychiatry, 2009 (2009); PHAR 2002 Iowa; MS 2005 Iowa
Arikat, Sunny Ouseph, Clinical Assistant Professor, Pediatrics, 2008 (2008); MD 1987 St. Johns Medical College
Armstrong, Steven Ray, Professor, Operative Dentistry, 1999 (2012); BS 1983 Iowa; DDS 1987 Iowa; PHD 1998 Iowa
Armstrong, Virginia, Adjunct Assistant Professor, Music, 2008 (2008); DMA 2007 Iowa
Arndt, Matthew, Assistant Professor, Music, 2009 (2009); MM 2001 Colorado-Boulder; PHD 2008 Wisconsin-Madison
Arndt, Stephan, Professor, IA Consortium Substance Abuse/Psychiatry/Biostatistics, 1991 (1998); BS 1974 Loyola; MA 1976 Claremont; PHD 1980 Claremont
Arneson, Scott Kabrick, Adjunct Lecturer, Management Organizations/Marketing/Family Dentistry/Office of Management Business Development, 2000 (2000); BBA 1984 Iowa; MBA 1999 Iowa
Arnold, Mark A., Professor, Chemistry, 1982 (1994); BS 1978 Indiana-Purdue; PHD 1982 Delaware
Arnold, Matthew Ember, Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012);
Arnone, Anthony, Associate Professor, Music, 2001 (2008); BM 1989 New England Conservatory; MM 1994 Wichita State; MM 1995 Wichita State
Aron, Arianna Simone, Adjunct Professor, World Languages, Literatures, and Cultures, 2013 (2013);
Aroha, Jasbir S., Professor, Civil-Environmental Engineering/Mechanical Engineering, 1972 (1981); BS 1964 Punjab-India; MS 1967 Kansas State; PHD 1971 Iowa
Arshava, Evgeny, Clinical Assistant Professor, Surgery, 2008 (2009); MD 2000 Peoples Friendship Univ
Artemyev, Nikolai O., Professor, Ophthalmology Visual Science/Physiology, 1995 (2004); BS 1984 St. Petersburg Inst of Technol; PHD 1988 St. Petersburg Inst of Technol
Artherholt, William G., Clinical Adjunct Assistant Professor, Family Medicine, 1976 (2002); DO 1972 Coll of Osteopathic Med
Artz, Joe A., Adjunct Instructor, Anthropology, 2011 (2011); BA 1976 Kansas; MA 1983 Kansas
Asay, Scott, Assistant Professor, Accounting, 2013 (2013);
Aschenbrenner, Eric Wade, Clinical Assistant Professor, Orthopaedics and Rehabilitation, 2012 (2012);
Ascoli, Mario, Professor, Pharmacology/Obstetrics Gynecology, 1990 (1990); BS 1971 San Carlos; PHD 1975 Vanderbilt
Ashby, Kelley C., Adjunct Instructor, University College, 2004 (2013); BS 1990 SIOUX CITY, IA; MS 2000 Western Illinois
Ashida, Sato, Assistant Professor, Community Behavioral Health, 2012 (2012);
Ashton, Ned C., Adjunct Instructor, Health and Human Physiology/University College, 1994 (1994); BS 1985 Iowa
Ashworth, Shalla Wilson, Adjunct Instructor, Anthropology, 2008 (2010); BA 1995 Iowa; MA 2010 Oklahoma
Askeland, Ryan, Clinical Assistant Professor, Pathology, 2009 (2009); BA 1999 Northern Iowa; MD 2004 Iowa
Aspengren, Kathryn Diane, Adjunct Assistant Professor, Theatre Arts, 1995 (1995); BA 1974 Iowa; MFA 1994 Iowa
Asprey, David Perry, Professor, Physical Therapy/Physician Assistant/Pediatrics, 1994 (2008); PHD 1999 Iowa
Asselin, Marie-Eve, Adjunct Assistant Professor, Pediatric Dentistry, 2007 (2007); DMD 2002 De Montreal; MS 2005 De Montreal; FRCDC 2005 Royal Col of Dent of Canada
Assem, Mahfoud, Assistant Professor, Pharmacy, 2007 (2007); PHARMD 1995 Dijon, France; PHD 2000 Dijon, France
Assouline, Jose Guy, Adjunct Associate Professor, Biomedical Engineering, 2000 (2002); PHD 1988 Iowa
Assouline, Susan Lynn Goodsell, Professor, Psych Quant Foundations, 1990 (2009); BS 1975 Iowa; EDS 1984 Iowa; PHD 1988 Iowa
Atchison, Christopher George, Clinical Professor, Health Management Policy/Public Policy Center/Nursing, 1998 (2004); AB 1971 Loyola; MPA 1990 Illinois-Springfield
Atienza, Salvador Dimapasok, Adjunct Assistant Professor, Family Dentistry, 1999 (2000); BS 1990 Iowa; DDS 1994 Iowa

Atkins, Dianne Lee, Professor, Pediatrics, 1983 (2002); BA 1974 Johns Hopkins; MD 1977 Johns Hopkins

Atkinson, Alice M., Emeritus Associate Professor, Teaching and Learning, 1973 (1995); BS 1961 Iowa State; MS 1963 Wisconsin; PhD 1982 Iowa

Atkinson, Kendall E., Emeritus Professor, Mathematics/Computer Science, 1972 (1975); BS 1961 Iowa State; MS 1963 Wisconsin; PhD 1966 Wisconsin

Aubrey, Elizabeth, Emeritus Professor, Music, 1982 (1998); BA 1973 Grinnell; MM 1975 Maryland; PhD 1982 Maryland

Aubrey, Paul Woodrow, Clinical Assistant Professor, Prosthodontics, 2009 (2009); BA 1982 Iowa; DDS 1987 Iowa

Augustine, Emily L., Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Aul, Edward, Clinical Assistant Professor, Neurology, 1998 (2000); BS 1988 Pittsburgh; MD 1992 Pittsburgh

Aunan, Carol Diane, Adjunct Assistant Professor, Nursing, 1997 (2004); BSN 1993 Iowa; MSN 2001 Iowa

Aurand, Gary A., Adjunct Associate Professor, Chemical Bioengineering, 1997 (2004); BS 1986 Nebraska @ Lincoln; PHD 1996 North Carolina State

Auron, Ari, Clinical Adjunct Assistant Professor, Pediatrics, 2008 (2008); MD 2001 Mexico City

Avelino, Rosario Ruth, Adjunct Associate Professor, Pharmacy, 2008 (2008); PHARM 1993 Chicago

Averkamp, Shawn M., Adjunct Instructor, Library Information Science, 2013 (2013); HS 1994 Wabash College; BA 1998 Luther College; AMLS 2008 University of Iowa

Avila Ortiz, Gustavo, Assistant Professor, Periodontics, 2011 (2011); DDS 2003 Granada, Spain; DPHIL 2006 Granada, Spain; MS 2009 Michigan

Axelson, Rick Don, Assistant Professor, Family Medicine, 2007 (2007); PHD 2003 Arizona

Ayati, Bruce, Associate Professor, Mathematics/Orthopaedics and Rehabilitation, 2007 (2011); BA 1993 California, San Diego; MS 1994 Chicago; PHD 1998 Chicago

Aykin-Burns, Nukhet, Adjunct Assistant Professor, Radiation Oncology, 2008 (2008); BS 1995 Middle East Technical Univ; PhD 2002 Missouri-Rolla, Ayres, Lioness, Associate Professor, Nursing, 2005 (2011); MSN 1992 Illinois @ Chicago; PhD 1998 Illinois @ Chicago

Ayyagari, Padmaja, Assistant Professor, Health Management Policy, 2011 (2011); BS 2000 Calcutta; MS 2002 Indian Statistical; PhD 2008 Duke

Azar, Antoine E., Clinical Associate Professor, Internal Medicine, 2007 (2012); BS 1995 American Univ/Beirut, Lebanon; MD 1999 American Univ/Beirut, Lebanon

Azuero, Rodrigo, Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);

Baalrud, Scott David, Assistant Professor, Physics Astronomy, 2012 (2012);

Babcock, Bruce A., Adjunct Instructor, Pharmacy, 1997 (1997); BS 1987 Drake

Bacon, Robert A., Adjunct Lecturer, Teaching and Learning/Public Policy Center, 1997 (1997); BA 1969 Stanford University; MA 1978 Iowa

Badovinac, Vladimir, Assistant Professor, Pathology, 2007 (2007); BS 1994 Belgrade; MS 1997 Belgrade; PHD 1999 Belgrade

Baenziger, Norman C., Emeritus Professor, Chemistry, 1949 (1957); BS 1943 Hamline; PHD 1948 Iowa State

Baer, William Thomas, Adjunct Assistant Professor, Pharmacy, 2005 (2005); BS 1976 Iowa

Bagford, Jack, Emeritus Professor, Teaching and Learning, 1962 (1970); MED 1956 Miami-Ohio; EDD 1960 Indiana

Bairds, Fredrick Howard, Clinical Adjunct Assistant Professor, Neurology, 2007 (2007); BA 1973 Iowa; MD 1980 Iowa; PHD 1980 Iowa

Bahrick, Audrey S., Adjunct Assistant Professor, Psych Quant Foundations, 1995 (1995); BA 1980 Ohio Wesleyan; MA 1981 Ohio State; MA 1986 Ohio State; PHD 1989 Ohio State

Bai, Er-Wei, Professor, Radiology/Electrical-Computer Engineering, 1987 (2000); BS 1977 Fudan-China; ME 1982 Shanghai Jiaotong; PHD 1987 Calif-Berkeley

Bailey, Jonathon, Adjunct Lecturer, Civil-Environmental Engineering, 2006 (2007); BA 1985 Iowa State; BS 1985 Iowa State

Bailey, Olivia Erin, Clinical Assistant Professor, Emergency Medicine, 2007 (2007); BA 2000 Iowa; BS 2000 Iowa; MD 2004 Chicago

Bailey, William J., Clinical Adjunct Assistant Professor, Family Medicine, 2000 (2000); MD 1975 Creighton

Baillie, Kyrke Brandon, Adjunct Assistant Professor, Periodontics, 2009 (2007); DDS 2001 CO U School of Dentistry

Bainbridge, Craig Wayne, Clinical Adjunct Associate Professor, Internal Medicine/Occupational Environmental Health, 1977 (2002); MD 1974 Iowa

Bair, Heather Lucy, Clinical Assistant Professor, Nursing, 2000 (2012); BS 1997 Iowa; MSN 2005 Iowa

Baird, Adam, Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013);

Baird, Robert D., Emeritus Professor, Religion, 1966 (1974); BA 1954 Houghton; BD 1957 Fuller Theological Seminary; MA 1958 SMU; PHD 1964 Iowa

Baker, Barbara Lynn Knutson, Adjunct Lecturer, Management Organizations, 2013 (2013);

Baker, Karen Ann Kenaley, Associate Professor, Oral Pathology/Medicine, 1981 (1991); BS 1979 Pharmacy - Iowa; MS 1981 Iowa
Baker, Laurence J., Clinical Adjunct Assistant Professor, Family Medicine, 1982 (2002); BS 1974 Iowa; DO 1977 Coll of Osteopathic Med

Baker, Max T., Associate Professor, Anesthesia, 1989 (1994); BS 1975 Georgia; MS 1978 Georgia; PHD 1980 Georgia

Baker, Richard Lance, Associate Professor, Mathematics, 1989 (1995); BA 1972 Drake; MS 1979 Iowa; PHD 1987 California-Berkeley

Baker, Sheila, Assistant Professor, Ophthalmology Visual Science/Biochemistry, 2010 (2010); PHD 2003 Medical College of Wisconsin

Baker-El Abiad, Kimberly Michelle, Clinical Assistant Professor, Internal Medicine, 2008 (2008); BA 1996 Iowa; MD 2000 Iowa

Balakrishnan, Ramji, Professor, Accounting, 1986 (2000); BS 1977 Madras-India; MBA 1979 Indian Institute of Management; PHD 1986 Columbia

Ballantyne, Bryon Todd, Adjunct Associate Professor, Physical Therapy, 2007 (2007); MA 1991 Iowa; PHD 2005 Iowa

Ballard, Pamela S., Emeritus Assistant Professor, Nursing, 1993 (2002); BA 1958 Iowa; BSN 1978 Iowa; MSN 1985 Iowa

Barlow, Eric, Adjunct Assistant Professor, Radiology, 1981 (1992); BS 1971 Loras; MS 1975 Wisconsin

Barlow, Thomas J., Associate Professor, Radiology, 1981 (1992); BS 1971 Loras; MS 1975 Wisconsin

Barlow, Eric, Clinical Adjunct Assistant Professor, Psychiatry, 2007 (2007); BA 1991 Augusta; BA 1995 Augusta College, SD; MD 1999 South Dakota

Barnes, Ed C., Adjunct Instructor, Social Work, 2000 (2000); MSW 1999 Iowa

Barnes, Erin Frances, Adjunct Assistant Professor, Rehabilitation and Counselor Education, 2007 (2011); BA 2001 Iowa; MA 2004 Iowa

Barnes, Geoffrey J., Adjunct Lecturer, Management Sciences, 2000 (2000); MBA 2000 Iowa

Barnes, Kyle Matthew, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013); BA 2007 University of Iowa

Barnes, Patrick L., Adjunct Instructor, Pharmacy, 1997 (1997); BS 1982 Drake
Barnhardt, Cassie L., Assistant Professor, Educ Policy Leadership Studies, 2012 (2012); 
Baron, Jeffrey, Emeritus Professor, Pharmacology, 1972 (1980); BS 1965 Connecticut; PHD 1969 Michigan 
Baron, Robert S., Emeritus Professor, Psychology, 1970 (1982); BS 1965 Cornell; PHD 1970 Minnesota 
Baron, Robert Jacob, Emeritus Professor, Computer Science, 1970 (1993); AB 1963 San Diego State; MS 1965 Cornell; PHD 1968 Cornell

Beck, Leslie, Adjunct Lecturer, Urban Regional Planning, 2008 (2008); BS 1978 Iowa State; MUP 1998 Iowa State
Beck, Margaret, Associate Professor, Anthropology, 2007 (2013); BA 1992 Kansas; MA 1995 Kansas; PhD 2003 Arizona
Beck, Mary Gwen, Clinical Professor, Internal Medicine, 1997 (2010); MD 1994 Iowa
Beck, Robert A., Clinical Adjunct Assistant Professor, Family Medicine, 2011 (2011); BA 1983 Johns Hopkins; MD 1988 UMDNJ
Becker, Shea Lee, Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012); BA 1998 The University of Iowa; MA 2000 The University of Iowa; DAUD 2005 The University of Florida
Becker, Thomas Edward, Clinical Adjunct Assistant Professor, Pediatrics, 1999 (1999); MD 1987 Iowa
Beckermann, Christoph, Professor, Mechanical Engineering, 1987 (1996); MS 1984 Purdue; PhD 1987 Purdue
Beckett, Andrew, Adjunct Lecturer, Educ Policy Leadership Studies, 2011 (2011); BS 1994 Truman State; MA 1996 Arizona; PhD 2006 Missouri-Columbia
Beckman, Jill N., Associate Professor, Linguistics, 1996 (2004); BA 1989 Michigan State; MA 1991 Ohio State; PhD 1998 Massachusetts
Beckman, Paula Sue, Clinical Adjunct Assistant Professor, Surgery, 1993 (2003); MD 1984 Iowa
Beddow, John K., Emeritus Professor, Chemical Biochemical Engineering, 1968 (1979); BSc 1954 A.M.C.T.Manchester,England; PhD 1959 Cambridge-England
Bedell, David A., Clinical Associate Professor, Family Medicine, 1995 (2004); BA 1975 Colorado College; MD 1982 Washington
Beecher, Stephanie Lynn, Adjunct Instructor, Health and Human Physiology/University College, 2010 (2010); BLS 2008 Coe; MA 2010 Iowa
Beeghly, James H., Clinical Associate Professor, Psychiatry, 1985 (2000); BS 1972 West Virginia; MD 1978 West Virginia
Begley, Wayne E., Emeritus Professor, Art Art History, 1966 (1980);
Beglinger, Leigh J., Associate Professor, Psychiatry, 2003 (2009); BS 1992 Idaho; MS 1995 Idaho; PhD 2000 Washington State
Beharka, Alison A., Lecturer, Teaching and Learning, 2010 (2010); MS 1988 Kansas State; PhD 1992 Kansas State
Behrendt, Douglas M., Emeritus Professor, Cardiothoracic Surgery, 1986 (1990); AB 1959 Amherst; MD 1963 Harvard
Behrens, Robert J., Clinical Adjunct Assistant Professor, Internal Medicine, 2005 (2005); BS 1992 Iowa State; MD 1997 Iowa
Beichel, Reinhard R., Associate Professor, Electrical-Computer Engineering/Internal Medicine, 2007 (2013); MS 1999 Graz Univ. of Technology; PhD 2005 Graz Univ.of Technology
Belfiglio, E. James, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); DMD 1973 Pittsburgh; MBA 1996 Dallas Baptist
Belin, Michael William, Instructor, Military Science, 2008 (2008); BS 1991 Fitchburg State
Bell, Colin E., Emeritus Professor, Management Sciences, 1980 (1980); BA 1964 California-Berkeley; MA 1966 California-Berkeley; PhD 1969 Yale
Bell, Edward F., Professor, Pediatrics, 1979 (1988); BA 1969 Washington and Jefferson; MD 1973 Columbia
Bell, Gregory Russell, Clinical Associate Professor, Emergency Medicine, 2007 (2013); MD 1988 Ohio State
Bell, Marvin H., Emeritus Professor, Creative Writing, 1965 (1975); BA 1958 Alfred; MA 1961 Chicago; MFA 1963 University of Iowa
Bell, William E., Emeritus Professor, Neurology/Pediatrics, 1962 (1972); MS 1951 West Virginia; BA 1951 West Virginia; MS 1953 West Virginia; MD 1955 Virginia
Belli, Meriam, Assistant Professor, History, 2008 (2008); BA 1994 Inalco, Paris, France; MA 1995 Inalco, Paris, France; PHD 2005 Georgetown

Bellinger, Anke, Clinical Assistant Professor, Anesthesia, 2006 (2007); BS 1990 Essen, Germany; MD 1997 Witten-Herdecke Germany

Bellizzi, Andrew M., Clinical Assistant Professor, Pathology, 2011 (2011); MD 2004 Northwestern

Bellman, Suzanne B., Adjunct Lecturer, Marketing, 2010 (2010); MA 2004 Iowa

Bello, Germaine D., Adjunct Instructor, Preventive Community Dentistry, 2007 (2007); DDS 2005 Iowa

Bellus, Paul, Adjunct Instructor, Communication Studies, 2001 (2001); BS 1993 Nebraska; MA 1995 Nebraska

Beltran-Garcia, Luis, Clinical Adjunct Assistant Professor, Internal Medicine, 2011 (2011); MD 2000 Pontificia

Beltz, Mark, Clinical Adjunct Associate Professor, Internal Medicine, 2003 (2006); BS 1991 Pittsburgh; BSEE 1991 Pittsburgh; MD 1995 Wash St. Louis

Benda, Jo Ann, Emeritus Professor, Pathology, 1979 (1996); BS 1971 Iowa State; MD 1975 Iowa

Bender, David Paul, Clinical Associate Professor, Obstetrics Gynecology, 2004 (2011); BA 1991 Maine; MD 1995 Illinois

Benedetti De Marrero, Esther Marianne, Clinical Assistant Professor, Anesthesia, 2007 (2007); MD 1993 Universidad Central de Venezuela

Benjamin, Daniel Kelly, Adjunct Professor, Economics, 2009 (2009); MA 1971 UCLA; PHD 1975 UCLA

Bennett, Andrea Patricia, Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013);

Bennett, Darus Lee, Clinical Professor, Radiology, 2001 (2013); BS 1984 Arkansas; MA 1986 Washington; MD 1990 Arkansas

Bennett, David, Professor, Geography, 2000 (2010); BA 1980 Northern Iowa; MA 1982 Michigan; PHD 1994 Iowa

Bennett, Jeffrey A., Associate Professor, Communication Studies, 2009 (2012); BS 1996 Wayne State; MA 1998 Northern Illinois; PHD 2004 Indiana

Bennett, John P., Clinical Adjunct Assistant Professor, Internal Medicine, 1991 (1991); MD 1985 George Washington

Bennett, Lisa, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); BA 2003 St Olaf; DDS 2007 Illinois

Bennett, Mary Josephine, Adjunct Lecturer, History, 2010 (2010); BA 1976 Iowa; MA 1985 Iowa

Bennett, Tracey L., Adjunct Instructor, Pharmacy, 2007 (2007); BSPH 1992 Drake

Benoit, Gena Lou Rose, Clinical Adjunct Assistant Professor, Family Medicine, 2009 (2009); BS 1995 St. Ambrose; MD 1999 Iowa

Benson, Christopher J., Associate Professor, Pharmacology/Internal Medicine, 1999 (2006); BS 1986 St. John's; MD 1991 Minnesota

Bentler, Ruth Ann Winnike, Professor, Communication Sciences and Disorders, 1977 (2002); BS 1971 Iowa; MA 1973 Iowa; PHD 1987 Iowa

Bentz, Dale M., Emeritus Professor, Library Information Science, 1953 (1964);

Benzon, Amanda Renee, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARMD 2001 Iowa

Beran, Maureen Ruth, Adjunct Lecturer, Management Organizations, 2009 (2009); BA 2004 Iowa

Beranek, Randi Lea, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2012); PHARMD 2010 Drake

Berbaum, Kevin S., Professor, Radiology, 1977 (1993); BA 1971 Millikin; PHD 1978 State University of New York

Berg, Daniel J., Associate Professor, Internal Medicine, 1995 (2003); BS 1981 Illinois; MD 1986 Illinois

Berg, Joyce E., Professor, Accounting, 1992 (2010); BS 1979 Minnesota; MBA 1985 Minnesota; PHD 1988 Minnesota

Berg, Mark Thomas, Assistant Professor, Sociology, 2013 (2013);

Berg, Mary Susan, Clinical Associate Professor, Nursing, 1992 (2011); BSN 1988 Iowa; MSN 1997 Iowa; DNP 2009 Iowa

Berger, Herbert, Clinical Professor, Internal Medicine, 1992 (2005); BS 1981 Loyola; MD 1985 Loyola Stritch Schol of Medicin

Berger, Karmen R., Adjunct Lecturer, Division of Interdisciplinary Program, 2009 (2009); MA 1987 California; PHD 1996 California

Bergman, Elizabeth June, Adjunct Assistant Professor, Dance, 2011 (2011); BA 2005 Desales Univ; MFA 2009 Iowa

Bergman, Marvin L., Adjunct Assistant Professor, History, 2010 (2010); MA 1979 Chicago, Divinity; PHD 1990 Chicago, Divinity

Bergus, George Ravdin, Professor, Family Medicine/Physician Assistant/Psychiatry, 1990 (2005); BA 1976 Pennsylvania; MD 1982 Pennsylvania; MA 2002 Iowa

Bergus, Nicholas Baldwin, Adjunct Instructor, Journalism Mass Communication, 2008 (2008); BA 2002 Iowa; MA 2008 Iowa

Berman, David H., Adjunct Associate Professor, Physics Astronomy, 1996 (2008); BA 1967 Carleton College; PHD 1976 Wisconsin

Bern-Klug, Mercedes Eva, Associate Professor, Social Work/International Programs, 2004 (2010); BA 1982 Iowa; MSW 1984 MA; 1991 Georgetown; DR 2003 Kansas

Bernhardt, Melissa, Adjunct Instructor, Preventive Community Dentistry, 1999 (1999); MS 1998 Iowa

Bernstein, Mitchel, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012);

Bernstein, Neil P., Adjunct Professor, University College, 2010 (2010); BS 1975 Colorado State; MS 1977 John Carroll; PHD 1982 Minnesota

Berrey, Marquis Shane, Assistant Professor, Classics, 2011 (2011); BA 2003 St Olaf; MA 2006 Texas @ Austin; PhD 2011 Texas @ Austin

Berry, Erin M., Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Berry, Stephen Joseph, Associate Professor, Journalism Mass Communication, 2003 (2006); BS 1970 Montevallo; MA 1984 North Carolina-Greensboro

Berry, Venise Torriana, Associate Professor, African-American Studies/Journalism Mass Communication, 1991 (1998); BA 1977 Iowa; MA 1979 Iowa; PHD 1989 Texas-Austin

Bertocci, Angelo P., Emeritus Professor, English, 1966 (1966);

Bertolatus, John Andrew, Associate Professor, Internal Medicine, 1982 (1992); BA 1972 Johns Hopkins; MD 1976 Johns Hopkins

Bessman-Quintero, Margaret Ann, Adjunct Instructor, Social Work, 2005 (2005); MSW 2005 Iowa

Best, Leyla, Clinical Adjunct Assistant Professor, Internal Medicine, 2012 (2012);

Bettendorf, Anthony John, Adjunct Instructor, University College, 2013 (2013); HS 1996 Foley High School; BA 2000 University of Minnesota; MS 2002 Western Illinois University

Bettis, Elmer Arthur III, Associate Professor, Geoscience, 1995 (1995); BS 1975 Iowa State; MS 1979 Iowa State; PHD 1995 iowa

Betts, Carl E., Emeritus Associate Professor, Communication Sciences and Disorders/Pediatrics, 1970 (1979); BA 1951 Iowa; MA 1957 Iowa; PHD 1963 Iowa

Beverly, Jasmine Onea, Clinical Adjunct Lecturer, Nursing, 2010 (2010); MHP 2006 Iowa; MSN 2010 University of Iowa

Beyer, Nancy Ellen, Clinical Assistant Professor, Psychiatry/Pediatrics, 2008 (2008); BA 1982 Iowa; MA 1985 Iowa; MD 2003 Iowa

Bezanson, Randall P., Professor, Law-Faculty, 1973 (1979); BS 1968 Northwestern; JD 1971 Iowa

Bhalla, Ramesh C., Emeritus Professor, Anatomy Cell Biology, 1973 (1982); BVSC 1957 Panjab-India; FRVCS 1962 Stockholm; PHD 1970 Wisconsin

Bhandary, Asha Leena, Assistant Professor, Philosophy, 2012 (2012);

Bhargava, Anuj. Clinical Adjunct Associate Professor, Internal Medicine, 2005 (2010); MBBS 1996 Manlana Azad Medical

Bhatnagar, Ranbir K., Emeritus Professor, Pharmacology, 1971 (1981); BS 1954 Lucknow-India; DVM 1958 Agra-India; MS 1963 Michigan State; PHD 1971 Michigan State; MFA 1999 Iowa

Bhatt, Rajankumar, Adjunct Associate Professor, Mechanical Engineering/Biomedical Engineering, 2007 (2012); BE 2001 MS University; ME 2004 SUNY at Buffalo; DPHIL 2007 SUNY at Buffalo

Bhatti, M. Asghar, Professor, Civil-Environmental Engineering, 1980 (2006); BE 1972 Karachi-Pakistan; MS 1975 Calif-Berkeley; PHD 1980 Calif-Berkeley

Bhave, Prashant, Clinical Assistant Professor, Internal Medicine, 2013 (2013);

Bianchi, Alison J., Associate Professor, Sociology, 2007 (2010); MA 1998 Stanford; MA 2000 San Jose State; PHD 2001 Stanford

Brasher-Krug, Thomas M., Clinical Associate Professor, Psychiatry, 2008 (2008); PHD 1995 Massachusetts; MD 1996 Rush Medical

Brau, James C., Adjunct Professor, Finance, 2011 (2011); PHD 1999 Florida State

Braun, Alan L., Emeritus Associate Professor, Portuguese, 2001 (2008); MA 1996 Wisconsin

Brennan, Theresa, Clinical Associate Professor, Internal Medicine, 2001 (2005); BS 1988 Iowa; MD 1992 Northwestern

Brennan, Timothy J., Professor, Pharmacology/Anesthesia, 1993 (2006); BS 1973 St. Johns; PHD 1984 Texas; MD 1989 Oklahoma

Brenneman, Anthony E., Clinical Associate Professor, Physician Assistant, 2004 (2007); BA 1984 Linfield, OR; MSW 1987 Portland State; MPAS 1996 Iowa

Brenner, Charles Michael, Professor, Biochemistry, 2009 (2009); PHD 1993 Stanford

Brenner, Robert L., Emeritus Associate Professor, Geosciences, 1977 (1982); BS 1963 City College of New York; MS 1964 Montana; PHD 1973 Missouri

Breon, Richard C., Adjunct Lecturer, Health Management Policy, 1990 (1990); MA 1980 Iowa

Brettell, Leslie Marie, Clinical Adjunct Assistant Professor, Internal Medicine, 2003 (2003); BS 1978 Stanford; MS 1980 Colorado State; MD 1986 Texas, Southwestern

Breuer, Maureen Kay, Adjunct Instructor, Pharmacy, 2009 (2009); BSPH 1979 Iowa

Brian, Amber Elise, Assistant Professor, Spanish Portuguese, 2001 (2008); MA 1996 Wisconsin

Bricker, Dennis L., Emeritus Associate Professor, Industrial Engineering, 1974 (1980); BS 1965 Illinois; MS 1966 Illinois; MS 1972 Northwestern; PHD 1975 Northwestern

Bridges, Julie Anne, Adjunct Instructor, Communication Sciences and Disorders, 2003 (2003); BS 1994 Iowa; MA 1996 Iowa

Brigham, Jeremy John, Adjunct Assistant Professor, University College, 2000 (2000); BA 1966 Antioch; MA 1997 Iowa; PHD 1998 Iowa

Bright, David, Adjunct Lecturer, Law-Faculty, 2013 (2013);

Brighton, Veronica A., Clinical Assistant Professor, Nursing, 1975 (2002); BSN 1975 Iowa; MA 1977 Iowa

Brinkman, Mary Kay, Adjunct Instructor, Preventive Community Dentistry, 2009 (2009);

Bristol, Timothy John, Adjunct Assistant Professor, Nursing, 2006 (2006); BSN 1998 Wisconsin-Madison; MSN 2000 Clarkson; PHD 2005 Capella

Brochu, Christopher Andrew, Associate Professor, Geosciences/University College, 2001 (2006); BS 1989 Iowa; MA 1992 Texas-Austin; PHD 1997 Texas-Austin

Broderick, Ann, Clinical Professor, Internal Medicine, 2001 (2013); AB 1978 Princeton; MD 1986 Iowa; MS 1991 Iowa

Brogdon, Kim Alan, Professor, Dows Institute-Research, 2004 (2004); BS 1975 Iowa State; MS 1977 Iowa State; PHD 1981 Iowa State
Brokel, Jane, Adjunct Assistant Professor, Nursing, 2004 (2004); BSN 1988 Iowa; MA 1992 Iowa; PhD 2003 Iowa

Brongel, Julie Lynn, Adjunct Assistant Professor, Pharmacy, 2008 (2008); BSPh 1995 Iowa; PHARMD 1997 Iowa

Brook, Stacey Lee, Lecturer, Economics, 2008 (2008); BBA 1989 Eastern New Mexico; MA 1991 Nebraska-Lincoln; PhD 1995 Colorado State

Brooks, Michael S., Clinical Adjunct Assistant Professor, Internal Medicine, 1986 (1986); MD 1980 Loyola

Brooks, Philip Dean, Adjunct Lecturer, Finance, 2005 (2005); BBA 1972 Iowa; MBA 1974 Iowa; JD 1977 Creighton

Brophy, Patrick David, Associate Professor, Surgery/Pediatrics, 2007 (2007); MD 1994 Saskatchewan

Brosius, Gregory Alan, Adjunct Assistant Professor, Pharmacy, 2002 (2002); PHARMD 2000 Iowa

Brown, Allison, Clinical Adjunct Assistant Professor, Pediatrics, 2005 (2005); BA 1997 William Jewell; MD 2001 Iowa

Brown, Bruce Philson, Emeritus Associate Professor, Radiology, 1977 (1995); BS 1966 Michigan; MD 1971 Medical College of VA

Brown, Carolyn Jane, Professor, Communication Sciences and Disorders/Otolaryngology-Head Neck Surgery, 1992 (2006); BS 1980 Iowa; MSPA 1982 Washington; PhD 1989 Iowa

Brown, Carolyn J., Adjunct Associate Professor, Communication Sciences and Disorders, 1983 (1992); PHD 1981 Iowa

Brown, Charles Edward, Adjunct Lecturer, Health Management Policy, 2000 (2000); MHA 1984 Washington

Brown, Donald D., Professor, Internal Medicine, 1973 (1994); BA 1962 Iowa; MS 1965 Iowa; MD 1966 Iowa

Brown, Elizabeth Ann, Clinical Adjunct Assistant Professor, Ophthalmology Visual Science, 2005 (2005); BS 1988 Iowa; MD 1992 Iowa; MA 1994 Iowa

Brown, Hugh Michael, Adjunct Instructor, Computer Science, 2011 (2011); BS 1998 Brigham Young; MS 2000 Brigham Young

Brown, James Andrew, Professor, Biomedical Engineering/Urology, 2009 (2011); BA 1986 Colorado State; BS 1986 Colorado State University, CO; MD 1991 Baylor

Brown, Jennifer Erin, Lecturer, English as Second Language, 2004 (2010); MA 2004 Iowa

Brown, Kyle E., Associate Professor, Radiation Oncology/Internal Medicine, 2001 (2007); BA 1981 Case Western Reserve; MSC 1982 London-Economics; MD 1986 Case Western Reserve

Brown, Matthew Robert, Clinical Adjunct Assistant Professor, Otolaryngology-Head Neck Surgery, 2006 (2006); MD 1996 Iowa

Brown, Matthew P., Associate Professor, English, 2001 (2007); BA 1986 Oberlin; PhD 1996 Virginia

Brown, Nicholas Anthony, Adjunct Assistant Professor, American Studies, 2013 (2013);

Brown, Patricia Kay, Adjunct Instructor, Journalism Mass Communication, 2011 (2011); BA 1994 Iowa

Brown, Robert Terrance, Clinical Adjunct Assistant Professor, Otolaryngology-Head Neck Surgery, 1997 (1997); MD 1966 Iowa

Brown, Thea Abigail, Adjunct Assistant Professor, Creative Writing, 2011 (2011); MFA 2011 Iowa

Brown, Thomas D., Professor, Mechanical Engineering/Biomedical Engineering/Orthopaedics and Rehabilitation, 1983 (1987); BS 1972 Maryland; PhD 1976 Carnegie-Mellon

Brown, Thomas M. Jr., Clinical Adjunct Assistant Professor, Internal Medicine, 1980 (1980); MD 1969 Vanderbilt

Brown, Timothy Leo, Adjunct Assistant Professor, Industrial Engineering, 2003 (2003); BE 1994 Iowa; MS 1996 Iowa; PhD 2000 Iowa

Brown, William Clayton, Adjunct Lecturer, Law-Faculty, 2013 (2013);

Brown-Brady, Alicia Anne, Emeritus Associate Professor, Dance, 1976 (1982); BA 1972 George Washington; MA 1976 Iowa

Brownell, Travis Richard Bradley, Clinical Adjunct Assistant Professor, Emergency Medicine, 2009 (2009); MD 2004 Iowa

Brownlee, Michael Joseph, Clinical Associate Professor, Pharmacy Practice and Science, 2012 (2012);

Bruch, Leslie Anne, Clinical Professor, Pathology/Neurosurgery, 2006 (2011); BS 1986 Iowa; MD 1992 Iowa

Bruch, Sarah K., Assistant Professor, Sociology, 2012 (2013);

Bruellement, Steven C., Emeritus Professor, Computer Science, 1985 (1996); BA 1973 Texas-Austin; MS 1975 Purdue; PhD 1978 Purdue

Bruhn, Allison Leigh, Assistant Professor, Teaching and Learning, 2011 (2011); PHD 2011 Vanderbilt

Bruning-Anderson, Mary Christine, Adjunct Instructor, Preventive Community Dentistry, 2003 (2003); AS 1971 Minnesota; CER 2006 Aging Studies; U of Iowa; BS 2006 University of Iowa

Brunner, Emily S., Adjunct Lecturer, University College Courses, 2012 (2012); MA 1999 Univ of Chicago

Brus, Christine Peterson, Adjunct Instructor, Division of Interdisciplinary Program, 2000 (2000); BLS 1985 Iowa; MS 1994 Iowa

Bryant, Karen Nancy, Clinical Associate Professor, Communication Sciences and Disorders, 2003 (2010); BA 1984 Augustana; SCM 1989 Wisconsin
Bryce, Helen Margaret, Adjunct Assistant Professor, Physics Astronomy, 2002 (2002); BSc 1998 Glasgow; PHD 2001 Glasgow

Buatti, John Michael, Professor, Radiation Oncology/Otolaryngology-Head Neck Surgery/Neurosurgery, 1999 (2001); BS 1982 Georgetown; MD 1986 Georgetown

Buchanan, Edward B. Jr., Emeritus Professor, Chemistry, 1960 (1982);

Buchholz, James Harry John, Assistant Professor, Mechanical Engineering, 2008 (2008); BSc 1995 University of Alberta (Canada); BS 1995 Alberta; MS 1997 Alberta; PhD 2006 Princeton

Buchkina, Julia Renee, Clinical Assistant Professor, Family Medicine, 2012 (2012);

Buchman, Thomas A., Adjunct Associate Professor, Accounting, 2010 (2010); BS 1965 Illinois; MS 1970 Illinois; PhD 1976 Illinois

Buck, Bridget L., Clinical Adjunct Assistant Professor, Psychiatry, 1999 (1999); MD 1985 Nebraska

Buckingham, Edward T., Clinical Assistant Professor, Psychiatry, 2012 (2012);

Buckley, Jennifer Ann, Assistant Professor, Rhetoric, 2011 (2013); BA 1998 Michigan; MA 2005 Columbia; MPHIL 2007 Columbia

Buckwalter, Joseph Addison, Professor, Health and Human Physiology/Ostheopaedics and Rehabilitation/Pediatrics, 1979 (1985); BA 1969 Iowa; MS 1972 Iowa; MD 1974 Iowa

Buckwalter, Kathleen Coen, Emeritus Professor, Nursing, 1974 (1989); BSN 1971 Iowa; MA 1976 Iowa; PhD 1980 Illinois

Budd, Ann F., Professor, Geoscience, 1978 (1995); BA 1973 Lawrence; MS 1975 Johns Hopkins; PhD 1978 Johns Hopkins

Buettner, Leon F., Adjunct Assistant Professor, Radiation Oncology, 1993 (1999); BA 1967 Northern Iowa; MS 1969 Iowa; PhD 1976 Iowa

Buikema, Brenda Sue, Clinical Assistant Professor, Occupational Environmental Health/Internal Medicine, 2008 (2008); MD 2004 Iowa

Bulechek, Gloria Marie, Emeritus Professor, Nursing, 1963 (1996); BSN 1963 Iowa; MA 1967 Iowa; MD 1981 Iowa

Bullock, Tammy Sue Clapham, Adjunct Assistant Professor, Pharmacy, 2003 (2003); PHARMD 1998 Iowa

Bunch, Jacinda, Lecturer, Nursing, 2009 (2009); BSN 2006 Missouri - Columbia; MSN 2008 Missouri - Columbia

Bunnell, Charlene Elisabeth, Adjunct Professor, Journalism Mass Communication, 2008 (2012); MA 1979 Western Illinois; PhD 1995 Delaware

Bunting, Dean A., Clinical Adjunct Assistant Professor, Family Medicine, 1990 (2002); BS 1980 Dubuque; MD 1984 Iowa

Burden, Paige C., Adjunct Instructor, Communication Sciences and Disorders, 2005 (2005); BS 1990 Arizona; MA 2002 Iowa

Burden, Sara Lynn, Adjunct Lecturer, University College, 2006 (2007); AA 1999 Indian Hills CC; BA 2001 Iowa; MA 2003 Iowa

Burdt, Mark, Clinical Adjunct Assistant Professor, Internal Medicine, 2005 (2005); BA 1989 Northern Iowa; DO 1993 U of Osteopathic Med

Burek Pierce, Jennifer, Associate Professor, Library Information Science, 2005 (2011); MA 1990 Gonzaga; PHD 1999 Indiana; AMLS 1999 Indiana

Burer, Samuel, Professor, Management Sciences, 2001 (2012); BS 1997 Georgia; PHD 2001 Georgia Inst of Technology

Buresh, Christopher Thomas, Clinical Associate Professor, Emergency Medicine, 2007 (2011); BA 1997 St. Olaf College; MD 2001 Iowa

Burgess, David Mitchell, Adjunct Lecturer, International Programs, 2003 (2003); BM 1993 Miami, OH; BA 1993 Miami, OH; MPHIL 1997 Vilnius University (Lithuania); MFA 2003 Iowa

Burke, Maureen Elizabeth, Adjunct Instructor, Linguistics, 1981 (1997); BA 1968 Emmanuel College; MA 1984 Iowa

Burke, N. Peggy, Emeritus Associate Professor, Health, Sport Studies, 1964 (1978); BA 1956 Moorhead State; MA 1957 Moorhead State; PhD 1965 Iowa

Burke Jr., Richard Martin, Clinical Associate Professor, Pediatric Dentistry, 1999 (2008); BA 1982 South Florida; DMD 1986 Pittsburgh; CER 1999 The University of Iowa

Burkhalter, Brooke Nicole, Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARMD 2005 Iowa

Burks, Douglas Alan, Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARMD 1979 Iowa; MBA 1998 St Ambrose

Burmeister, Leon F., Emeritus Professor, Public Health Administration, 1969 (1982); BS 1964 Iowa State; MS 1966 Iowa State; PhD 1972 Iowa State

Burnett, Andrea, Assistant Professor, Pathology, 2010 (2010); BS 2000 Iowa State; PhD 2005 Iowa State

Burns, C. Patrick, Emeritus Professor, Internal Medicine, 1971 (1980); BA 1959 Kansas; MD 1963 Kansas

Burns, Trudy L., Professor, Epidemiology/Pediatrics/Nursing, 1982 (1993); BA 1973 Oakland; MPH 1976 Michigan; PhD 1982 Michigan

Burras, Charles Lee, Adjunct Professor, University College, 2011 (2011); PHD 1992 Ohio State

Burstain, Todd L., Clinical Associate Professor, Internal Medicine, 2000 (2003); BA 1986 Rice; MD 1990 Texas Southwestern

Burton, Donald J., Emeritus Professor, Chemistry, 1962 (1970); BS 1956 Loyola-Maryland; PHD 1961 Cornell

Burton, Richard G., Clinical Professor, Oral Maxillofacial Surgery, 1997 (2002); BA 1973 Hanover College; DDS 1977 Ohio State; MS 1985 Iowa
Burton, Steven J., Professor, Law-Faculty, 1977 (1981); BA 1970 California; JD 1973 Southern California

Busard, Joshua F., Adjunct Lecturer, Urban Regional Planning, 2012 (2012); BS 1999 Iowa; MS 2006 IL @ Champagne

Bushnell, David, Professor, Radiology, 1992 (2004); BS 1975 Illinois; MD 1979 Illinois

Butcher, Howard K., Associate Professor, Nursing, 1998 (2005); BS 1977 Lebanon Valley; BSN 1979 Thomas Jefferson; MSN 1986 Toronto; PhD 1994 South Carolina

Butchvarov, Panayot, Emeritus Professor, Philosophy, 1967 (1967); BA 1952 Robert-Turkey; MA 1954 Virginia; PhD 1955 Virginia

Butler, Audrey A., Lecturer, Chemical Biochemical Engineering, 1989 (1998); PhD 1989 Iowa

Butler, John E., Emeritus Professor, Microbiology, 1971 (1980); BS 1961 Univ of Wisconsin-River Falls; PHD 1965 Kansas

Butler, Nicholas Ryan, Clinical Assistant Professor, Family Medicine, 2013 (2013);

Buxton, Grant Stevens, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHD 2010 Iowa; PHARM D 2010 Iowa

Buys, Lucinda M., Clinical Associate Professor, Family Medicine/Pharmacy, 1994 (2005); BS 1985 Briarcliff; BS 1987 Creighton; PHARM D 1989 Creighton

Bybee, Jerald W., Clinical Adjunct Assistant Professor, Family Medicine, 2001 (2001); MD 1978 Iowa

Byrn, John C., Clinical Assistant Professor, Surgery, 2009 (2009); BA 1998 Hope, Holland MI; MD 2002 Illinois College

Byrne, John Paul, Adjunct Professor, Marketing, 1999 (2006); BBA 1987 Notre Dame; MBA 1990 Loyola; PHD 1996 Iowa

Bzdegaa, Holley A., Clinical Adjunct Assistant Professor, Pediatrics, 1987 (1987); MD 1978 Manitoba-Canada

Cadaret, Linda Marie, Clinical Associate Professor, Internal Medicine, 1999 (2012);

Cagley, Amy Joleen, Adjunct Assistant Professor, Pharmacy, 2007 (2007); DDS 1999 Iowa; PHARM D 1999 Iowa

Cai, Huan, Adjunct Assistant Professor, Finance, 2013 (2013);

Cai, Jianfeng, Assistant Professor, Mathematics, 2011 (2011); BSC 2000 Fudan; MS 2004 Fudan; PHD 2007 Univ of Hong Kong

Cai, George D., Emeritus Professor, Biology, 1970 (1984); BS 1962 Sterline; MS 1964 Purdue; PHD 1968 Purdue

Cai, Patricia A., Emeritus Professor, Law-Faculty, 1991 (1991); BA 1968 Vassar; JD 1973 Georgia

Calarge, Chadi Albert, Associate Professor, Psychiatry, 2005 (2011); MD 1998 Dekwaneh,Lebanon

Callaghan, John J., Professor, Biomedical Engineering/Orthopaedics and Rehabilitation, 1990 (1993); BS 1975 Notre Dame; MD 1978 Loyola

Cameron, Christopher Daryl, Assistant Professor, Psychology, 2013 (2013);

Cameron, John, Professor, Theatre Arts, 1997 (2012); BS 1977 Brigham Young; MA 1982 Kent State; PHD 1986 Kent State

Cameron, Lauren Nicole, Lecturer, Rhetoric, 2013 (2013);

Camillo Jr., Victor P., Professor, Mathematics, 1970 (1979); BA 1966 Bridgeport; PHD 1969 Rutgers

Campbell, Ann Melissa, Associate Professor, Management Sciences, 2000 (2006); BA 1993 Rice; PHD 2000 Georgia Tech

Campbell, Cam F., Clinical Adjunct Instructor, Internal Medicine, 1992 (1992); MD 1982 Southern California

Campbell, David L., Adjunct Professor, Geosciences, 2004 (2004); BA 1963 Iowa; MA 1966 California-Berkeley; PHD 1969 California-Berkeley

Campbell, Dwayne N., Clinical Assistant Professor, Internal Medicine, 2010 (2012); BS 1998 Georgia State; MD 2002 Georgia

Campbell, Kevin P., Professor, Neurology/Internal Medicine/Physiology, 1981 (1988); BS 1973 Manhattan; MS 1976 Rochester; PHD 1979 Rochester

Campbell, Mary E., Adjunct Associate Professor, Sociology, 2004 (2010); BA 1997 George Washington; MA 1999 Wisconsin; PHD 2004 Wisconsin

Campe, Lee, Adjunct Lecturer, Management Sciences, 2009 (2009); MBA 1998 Clemson

Campo, Michelle, Associate Professor, Communication Studies/Community Behavioral Health, 2002 (2008); BS 1990 Cornell; MA 1994 Ohio State; PHD 1999 Michigan State

Campos, Javier H., Clinical Professor, Anesthesia, 1987 (2001); BS 1971 Federal Prep School; MD 1975 Autonomous

Canahuate, Guadalupe Mercedes, Assistant Professor, Electrical-Computer Engineering, 2009 (2009); BS 2000 Pontificia; MS 2003 Ohio State; PHD 2009 Ohio State

Canin, Ethan A., Professor, English/Creative Writing, 1991 (1998); BA 1982 Stanford; MFA 1984 Iowa; MD 1991 Harvard

Cannon, Michele Christine, Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012); BS 2005 U of IL @ Urbana

Canter, Arthur, Emeritus Professor, Psychiatry, 1960 (1965); BA 1946 Iowa; MA 1948 Iowa; PHD 1950 Iowa
Cantor, Joan H., Emeritus Professor, Psychology, 1960 (1979); BA 1951 Syracuse; MA 1953 Iowa; PHD 1954 Iowa

Cantrell, Matthew A., Clinical Associate Professor, Pharmacy, 2005 (2013); BS 2000 Mount Mercy; PHARMD 2005 Iowa

Capiziano, Aristides Andres, Assistant Professor, Radiology, 2009 (2010); MD 1992 Buenos Aires

Caplan, Daniel Jonathan, Professor, Preventive Community Dentistry, 2007 (2007); DDS 1988 Iowa; PHD 1995 North Carolina

Caplan, Richard M., Emeritus Professor, Dermatology, 1961 (1969); BS 1949 Iowa State; MA 1951 Iowa; MD 1955 Iowa

Caplan, Robert H., Clinical Adjunct Associate Professor, Internal Medicine, 1982 (1990); MD 1961 Chicago

Carew, David R., Emeritus Professor, Pharmacy, 1957 (1965); BS 1952 Massachusetts; MS 1954 Massachusetts; PHD 1958 Connecticut

Cargill, Robert Raymond, Assistant Professor, Religion/Classics, 2011 (2011); MDIV 2000 Pepperdine; MA 2006 UCLA; PHD 2008 UCLA

Carlile, Mark Elton, Adjunct Assistant Professor, History, 1993 (1996); BA 1989 Marquette; MA 1984 Marquette; PHD 1995 Iowa

Carlisle, Thomas L., Emeritus Associate Professor, Internal Medicine, 1992 (2002); BS 1972 Maryland-Baltimore; PHD 1978 Wisconsin-Madison; MD 1986 Missouri-Columbia

Carlson, Elizabeth D., Adjunct Assistant Professor, Nursing, 2008 (2008); BSN 1994 Texas Health Science; MPH 1997 Texas Health Science; PHD 2003 Texas Health Science

Carlson, Jonathan C., Professor, Law-Faculty/International Programs/Public Policy Center, 1983 (1987); BA 1976 McGill; JD 1979 Chicago

Carlson, Wayne R., Emeritus Professor, Biology, 1968 (1993); BA 1962 Rockford; MA 1966 Indiana; PHD 1968 Indiana

Carlstein, Andres Augustine, Adjunct Assistant Professor, Division of Interdisciplinary Program, 2012 (2012);

Carmen, Lee T., Adjunct Assistant Professor, Health Management Policy, 2002 (2002); BS 1983 Oklahoma; BS 1990 Iowa

Carmichael, Gregory R., Professor, Civil-Environmental Engineering/Chemical Biochemical Engineering, 1978 (1985); BS 1974 Iowa State; MS 1975 Kentucky; PHD 1979 Kentucky

Carmichael, Robert S., Emeritus Professor, Geoscience, 1977 (1983); BA 1963 Toronto; MS 1964 Pittsburgh; PHD 1967 Pittsburgh

Carmody, Brenda Renee, Adjunct Assistant Professor, Pharmacy, 1998 (2007); BPSM 1991 Iowa

Carnahan, Ryan Michael, Clinical Associate Professor, Epidemiology, 2003 (2013); PHAR 2001 Iowa; MS 2004 Iowa

Caropreso, Philip R., Clinical Adjunct Professor, Surgery, 1987 (2004); MD 1972 Upstate Medical School

Carpenter, Martin, Clinical Adjunct Assistant Professor, Psychiatry, 2007 (2007); MD 2002 Missouri

Carr, Lucas, Assistant Professor, Health and Human Physiology, 2012 (2012);

Carrasco, Enrique R., Professor, Law-Faculty, 1990 (1994); BA 1980 Indiana; JD 1986 Georgetown

Carrel, Margaret, Assistant Professor, Geography, 2011 (2011); BA 2002 American University; MA 2007 Chapel Hill; PhD 2011 Chapel Hill

Carrica, Pablo, Associate Professor, Mechanical Engineering, 2002 (2002); PHD 1993 Nacional De Cuyo

Carrier, Heidi Johnson, Adjunct Assistant Professor, English, 2001 (2001); PHD 2001 Iowa

Carrillo, Pedro M., Adjunct Assistant Professor, Pharmacy, 1990 (1990); BIPH 1981 Iowa; PHARMD 1987 Iowa

Carroll, John Raymond, Clinical Adjunct Assistant Professor, Family Medicine, 1994 (2002); MD 1979 Iowa

Carroll, Thomas J., Lecturer, Accounting, 1989 (1999); BBA 1979 Notre Dame; PHD 1988 Michigan-Ann Arbor

Carrollhach, Haley Aundrea, Adjunct Assistant Professor, Division of Interdisciplinary Program, 2011 (2011); MFA 2011 Iowa

Carstens, Coby, Adjunct Assistant Professor, Pharmacy, 2008 (2008); BA 2002 Iowa; PHARMD 2006 Iowa

Carter, A. Brent, Professor, Radiation Oncology/Internal Medicine, 1998 (2013); AB 1988 William Jewell; MD 1992 Missouri

Carter, Anthony David, Clinical Adjunct Assistant Professor, Emergency Medicine, 2004 (2004); BA 1989 Cornell-Iowa; DO 1995 Univ of Osteopathic Medicine

Carter, Barrie James, Adjunct Professor, Anatomy Cell Biology, 2009 (2009); BS 1966 Otago, New Zealand; BSC 1967 U Otago, New Zealand; PHD 1969 Otago, New Zealand

Carter, Barry L., Professor, Pharmacy, 2000 (2000); BS 1978 Iowa; PHARMD 1980 Virginia

Carter, David Alan, Adjunct Associate Professor, Finance, 2009 (2009); BS 1985 Brigham Young; MBA 1990 Utah; PHD 1996 Georgia

Carter, Deanna Lynn, Assistant Professor, Dance, 2004 (2004);

Carter, James G., Emeritus Associate Professor, Anesthesia, 1977 (1981); BA 1948 Iowa; MD 1952 Iowa

Carter, Thomas H., Clinical Associate Professor, Internal Medicine, 2001 (2001); AB 1977 Dartmouth; PHD 1982 Case Western Reserve; MD 1983 Case Western Reserve

Carvalho, Edgar, Adjunct Professor, Internal Medicine, 2007 (2007); MD 1973 Fed Uni of Bahia; PHD 1986 Fed. Univ of Bahia

Casavant, Thomas L., Professor, Ophthalmology Visual Science/Electrical-Computer Engineering/Biomedical Engineering, 1986 (1999); BS 1982 Iowa; MS 1983 Iowa; PHD 1986 Iowa

Casella, Paul, Adjunct Assistant Professor, Internal Medicine, 2009 (2009); MFA 1990 Iowa

Casey, Darren Patrick, Associate Professor, Physical Therapy, 2012 (2012);

Cashman, Sharon K., Adjunct Instructor, Pharmacy Practice and Science, 2010 (2010); BPH 1987 Iowa

Casillas, Alex, Adjunct Assistant Professor, Psychology, 2008 (2008); BA 1997 Grinnell; MA 2000 Iowa; PHD 2005 University of Iowa

Casko, John S., Emeritus Professor, Orthodontics, 1976 (1976); BS 1960 Holy Cross; DDS 1964 Georgetown; MS 1968 Georgetown; PHD 1970 Pittsburgh

Cassaday, Michael, Adjunct Assistant Professor, Internal Medicine, 2009 (2009); DO 1976 Des Moines

Cassel, Suzanne, Assistant Professor, Internal Medicine, 2007 (2010); BA 1992 Reed, Portland OR; MD 2000 Temple

Cassell, Martin D., Professor, Anatomy Cell Biology, 1982 (2004); BS 1976 Bristol-England; PHD 1980 Bristol-England

Castagna, Thomas Antonio, Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);

Casteel, Carri, Associate Professor, Occupational Environmental Health, 2013 (2013);

Casteel, Eric G., Adjunct Assistant Professor, History, 2013 (2013);

Castelein, Paul T., Adjunct Assistant Professor, Orthodontics, 2012 (2012);

Castellanos, Horacio, Assistant Professor, Spanish Portuguese, 2011 (2011);

Castro Ruiz, Leyre, Adjunct Assistant Professor, Psychology, 2006 (2006); PHD 2003 Deusto, Bilbao, Spain

Caszatt-Allen, Wendy Lee, Lecturer, Teaching and Learning, 2013 (2013);

Catellier, Michelle J., Clinical Adjunct Assistant Professor, Pathology, 2007 (2007); MD 1987 Indiana

Cater, E. David, Emeritus Professor, Chemistry, 1961 (1979); BS 1954 Trinity; PHD 1960 Kansas

Cates, Diana F., Professor, Religion, 1990 (2010); BA 1983 St. Olaf; PHD 1990 Brown

Catney, Christine M., Clinical Assistant Professor, Pharmacy, 1996 (1996); BS 1975 St. Louis Coll of Pharmacy; MA 1986 Iowa; PHARMD 1996 Iowa

Caughlan, Charles R., Clinical Adjunct Assistant Professor, Internal Medicine, 1992 (1997); MD 1973 Iowa

Cavanaugh, Joseph E., Professor, Statistics Actuarial Science/Biostatistics, 2003 (2008); BS 1986 Montana Tech; MS 1988 Montana State; PHD 1993 California

Cawiezel, Jill Renee, Professor, International Programs/Nursing, 2008 (2008); MSN 1994 Missouri-Columbia; PHD 1998 Missouri-Columbia

Cearlock, Kenneth, Clinical Adjunct Assistant Professor, Family Medicine, 2000 (2002); MD 1979 Missouri

Ceilley, Roger Ivan, Clinical Adjunct Professor, Dermatology, 1976 (2000); MD 1971 Iowa

Cerhan, James, Adjunct Professor, Epidemiology, 2000 (2005); BA 1986 Iowa; PHD 1991 Iowa; MD 1993 Iowa

Cerone, Shane Michael, Adjunct Assistant Professor, Health Management Policy, 1998 (2004); MA 1995 Iowa

Cerreta, Florindo V., Emeritus Professor, French Italian, 1957 (1964); BA 1943 Fordham; PHD 1954 Columbia

Cesca, Daniel James, Adjunct Assistant Professor, Creative Writing, 2013 (2013);

Chadima, Helen Louise Gower, Emeritus Associate Professor, Dance, 1983 (1990); BA 1949 Iowa; MA 1981 Iowa

Chaffee, James William, Adjunct Lecturer, Management Sciences, 2007 (2007); BS 1990 California PA; MA 2001 Illinois

Chahla, Mayy, Clinical Assistant Professor, Internal Medicine, (2011); MD 2005 John’s Hopkins

Chalkley, Yvonne M., Emeritus Associate Professor, Operative Dentistry, 1977 (1984); BS 1973 Iowa; DDS 1977 Iowa; MS 1979 Iowa

Chalstrom, Carl Victor, Adjunct Instructor, Pharmacy, 1997 (1997); BPH 1987 Iowa

Chaly, Yury, Assistant Professor, Pediatrics, 2012 (2012);

Chamberlain, Tiffany Lynn, Adjunct Assistant Professor, Pharmacy, 2006 (2006); BS 1997 Wisconsin; PHARMD 2004 Iowa

Chambers, Susan Elizabeth, Adjunct Assistant Professor, Theatre Arts/Division of Performing Arts, 1999 (1999); BA 1976 Shimer; MFA 1981 Pennsylvania State

Chametzky, Robert, Adjunct Associate Professor, Linguistics, 2003 (2008); BA 1979 Columbia; PHD 1987 Chicago

Champion, Christopher Scott, Clinical Adjunct Assistant Professor, Family Medicine, 2005 (2005); BA 1993 Missouri @ Kansas City; DO 2000 Kansas City

Champion, Craig M., Clinical Adjunct Associate Professor, Internal Medicine, 1973 (1983); MD 1962 Iowa

Chan, Bing C., Emeritus Associate Professor, Asian Slavic Languages Literature, 1979 (1987);

Chande, Vidya Balkrishna, Clinical Adjunct Professor, Pediatrics, 2001 (2012); MD 1986 Iowa

Chandramouli, B., Clinical Adjunct Assistant Professor, Pediatrics, 1971 (1985); MBBS 1960 Mysore India

Chandrak, Krishnan B., Professor, Mechanical Engineering/Biomedical Engineering, 1978 (1984); BS 1963 American-India; BTECH 1966 Indian Institute of
Chandran, Prem K., Clinical Adjunct Associate Professor, Internal Medicine, 1987 (1999); MBBS 1973 Kerala-India

Chang, Eugene, Assistant Professor, Otolaryngology-Head Neck Surgery, 2010 (2010); BA 1999 Brown Univ; MD 2004 Brown Medical School

Chang, Kristi Erin, Clinical Associate Professor, Radiation Oncology/Otolaryngology-Head Neck Surgery, 2009 (2009); BS 1991 Palo Alto, CA; MD 1997 Southern California

Chang, Lan Samantha, Professor, Creative Writing/English, 1998 (2006); BA 1987 Yale; MPA 1991 Harvard; MFA 1993 Iowa

Chang, Yu-Hui Huang, Adjunct Assistant Professor, Biostatistics, 2010 (2010); MA 2001 Boston; MS 2006 Iowa; PHD 2010 Iowa

Chanthanakone, Peter, Assistant Professor, Art History, 2012 (2012);

Chapleau, Mark W., Professor, Internal Medicine/Physiology, 1989 (2004); BS 1977 Wisconsin-Whitewater; PHD 1985 Louisiana State

Chapler, Frederick K., Emeritus Professor, Obstetrics Gynecology, 1970 (1976); BA 1957 UC Berkeley; MD 1960 UC-San Francisco

Charles, Anna Elise, Lecturer, Teaching and Learning, 2013 (2013);

Charlton, Mary Elizabeth, Clinical Assistant Professor, Epidemiology, 2009 (2009); BN 1998 Iowa; MS 2002 Iowa; PHD 2008 Iowa

Charsha-Harney, Angela Leigh, Adjunct Instructor, Health and Human Physiology, 2009 (2009); BA 1998 Monmouth College; MA 2001 Michigan State; MS 2002 Michigan State

Charukamnoetkanok, Puwat, Adjunct Assistant Professor, Ophthalmology Visual Science, 2010 (2010); BS 1992 State University of New York; MD 1998 Rochester

Chase, John, Clinical Assistant Professor, Internal Medicine, 1999 (2000); BA 1989 North Carolina; MD 1993 North Carolina

Chatterjee, Kanu, Clinical Professor, Internal Medicine, 2009 (2009); MBBS 1956 R.G. Kar Medical

Chaudhry, Qasim L., Clinical Adjunct Assistant Professor, Surgery, 2011 (2011); MBCHB 2001 Cambridge; MBBCCH 2001 University of Cambridge

Chauhan, Anil, Assistant Professor, Internal Medicine, 2008 (2008); PHD 2002 Intl Centre for Genetic Eng

Chavez, Joel, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); BS 1975 Regis University; DDS 1980 Colorado

Cheatum, Christopher, Associate Professor, Chemistry, 2003 (2011); BS 1995 New Mexico; PHD 2001 Wisconsin

Chen, Chih-Chia, Lecturer, Health and Human Physiology, 2013 (2013);

Chen, Songhai, Assistant Professor, Pharmacology/Internal Medicine, 2008 (2008); MD 1988 Fujian, China; PHD 2002 New South Wales,Australia

Chen, Wei Fan, Assistant Professor, Surgery, 2011 (2011); MD 2002 New York

Chen, Yong, Associate Professor, Industrial Engineering, 2003 (2010); MS 2000 Michigan; MA 2003 Michigan; PHD 2003 Michigan

Cheng, Chi-Lien, Associate Professor, Biology, 1990 (1997); BS 1969 National Taiwan; PHD 1982 Connecticut

Chereches, Razvan, Adjunct Assistant Professor, Occupational Environmental Health, 2007 (2007); MD 2001 LuLiu Hatieganu, Romania; MS 2005 Univ Lucian Blaga, Romania; PHD 2007 Univ Lucian Blaga, Romania

Cheyne, Ken, Clinical Adjunct Professor, Pediatrics, 1999 (2006); MD 1982 Iowa

Chi, Donald Leslie, Adjunct Lecturer, Public Policy Center, 2010 (2010); AB 2000 Cornell; DDS 2006 Washington

Chiavetta, Keith Michael, Adjunct Lecturer, Management Organizations, 2013 (2040);

Chibnik, Michael S., Professor, International Programs/Anthropology, 1978 (1994); BA 1968 Cornell; MA 1973 Columbia; PHD 1975 Columbia

Chifan, Ionut, Assistant Professor, Mathematics, 2011 (2011); BS 2001 Bucharest; MS 2003 Bucharest; PHD 2009 California Los Angeles

Chin, Hak Keung, Clinical Adjunct Instructor, Nursing, 2008 (2008); MSN 2006 North Dakota

Chin, Ting-Fong, Emeritus Associate Professor, Pharmacy, 1963 (1976); BS 1951 Nat'l Defense Med Ctr-Taiwan; MS 1960 Iowa; PHD 1982 Iowa

Chipara, Octav, Assistant Professor, Computer Science, 2011 (2011); BS 2003 Bucharest; MA 2009 California Los Angeles

Chiusano, Robert Michael, Adjunct Lecturer, Engineering Administration, 2008 (2008); BSE 1977 New York; MBA 1984 Iowa

Cho, Peter, Adjunct Assistant Professor, Oral Maxillofacial Surgery, 2011 (2011); DDS 2005 Iowa; MS 2009 Iowa

Choe, Steve, Assistant Professor, Cinema Comparative Literature, 2008 (2008); PHD 2008 California - Berkeley

Choi, James Yuknam, Clinical Associate Professor, Anesthesiology, 1996 (2004); BA 1986 Northwestern; MD 1991 University of Iowa

Choi, Kent Choung, Clinical Professor, Surgery, 2001 (2013); BS 1989 Florida; MD 1993 Georgia Medical

Choi, Kyung Mi, Clinical Professor, Surgery, 2011 (2011); BS 1989 Yonsei-Korea; MS 1997 Iowa; PHD 1989 Iowa

Choi, Kyung Kook, Professor, Mechanical Engineering, 1983 (1990); BS 1970 Yonsei-Korea; MS 1977 Iowa; PHD 1980 Iowa

Choi, Kyong Mi, Clinical Professor, Surgery, 2011 (2011); BS 1998 Florida; MA 1999 Iowa; MS 2006 Iowa; PHD 2010 Iowa

Choi, Kang-Joon, Clinical Assistant Professor, Surgery, 2011 (2011); BS 1989 Yonsei-Korea; MS 1997 Iowa; PHD 1999 Iowa
Choi, Won Wung, Emeritus Professor, Anesthesia, 1979 (1992); MD 1957 Chon-nam-Korea; DMS 1966 Seoul National-Korea

Choi, Yu Fai, Assistant Professor, Economics, 2013 (2013);

Chong, Hui Sen, Clinical Assistant Professor, Surgery, 2010 (2010); MD 2004 Calgary

Choo, Chunghi, Professor, Art Art History, 1968 (1981); BFA 1961 Ewha Women’s-Korea; MFA 1965 Cranbrook Academy of Art

Chope, Roger Allen, Adjunct Professor, Accounting/Finance, 2008 (2008); BA 1968 Albion; MBA 1977 Louisville; PhD 1981 Oregon

Choudhary, Jaspreet, Adjunct Instructor, Preventive Community Dentistry, 2007 (2007); DDS 2005 Creighton

Choudhury, Amit K., Assistant Professor, Anatomy Cell Biology/Orthopaedics and Rehabilitation, 2007 (2007); BS 1987 Gandhi Memorial, India; MS 1992 Nat. Dairy Resch, India; PhD 1998 Chandigarh, India

Chrischilles, Elizabeth A., Professor, Epidemiology/Pharmacy/Design Biostat and Ethics, 1982 (2000); BS 1979 Iowa; MS 1981 Iowa; PhD 1986 Iowa

Christ, Heather Ann, Adjunct Assistant Professor, Pharmacy, 2006 (2006); AA 1994 Kirkwood Community; PHARMD 2002 Iowa

Christensen, Alan J., Professor, Internal Medicine/Psychology, 1993 (2002); BS 1987 Utah; MS 1991 Utah; PhD 1993 Utah

Christensen, Cynthia K., Emeritus Associate Professor, Pediatric Dentistry, 2002 (2002); BS 1976 Iowa; DDS 1980 Iowa; MS 1983 Iowa

Christensen, Gary E., Professor, Radiation Research Laboratory/Electrical-Computer Engineering, 1997 (2010); BS 1988 Washington-St. Louis; MS 1989 Washington-St.Louis; PhD 1994 Washington-St. Louis

Christensen, Gary Lynn, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Christensen, James, Emeritus Professor, Internal Medicine, 1963 (1972); BA 1953 Nebraska-Lincoln; MS 1957 Nebraska-Omaha; MD 1957 Nebraska-Omaha

Christensen, Lori, Clinical Associate Professor, Pediatrics, 2001 (2007); BS 1993 Iowa; MD 1998 Iowa

Christensen, Steve, Adjunct Instructor, Preventive Community Dentistry, 2002 (2002); DDS 1986 Iowa

Christensen, Theodore Edward, Adjunct Professor, Accounting, 2011 (2011); PhD 1995 Georgia

Christensen-Szalanski, Carlyn M., Clinical Associate Professor, Emergency Medicine, 2003 (2011); MD 1983 Washington

Christians, Kevin, Adjunct Instructor, Pharmacy, 2004 (2004); BSPH 1995 Iowa

Christiansen, Margaret A., Adjunct Instructor, Communication Sciences and Disorders, 2008 (2008); BA 1999 UNI; MA 2001 UNI; DAUD 2006 AT Still U of Health Sci

Christie, Kevin, Adjunct Lecturer, Biology, 2012 (2012); BS 2001 College of William and Mary; PHD 2010 U of Ill Urbana - Champaign

Chrysler, Susan, Adjunct Associate Professor, Occupational Environmental Health/Public Policy Center, 2013 (2013); BA 1986 University of Minnesota; PHD 1993 University of Minnesota

Cigrand, Karla Kay, Lecturer, Teaching and Learning, 2000 (2000); BS 1982 Iowa; MA 1990 Iowa

Cilek, Joseph C., Adjunct Instructor, Health and Human Physiology, 2008 (2008); BA 1999 Iowa; MA 2003 Iowa

Cilek, Toni Lee Daters, Clinical Associate Professor, Communication Sciences and Disorders, 1992 (1992); BA 1975 Iowa; MA 1976 Iowa

Ciliberto, Heather, Clinical Assistant Professor, Dermatology, 2013 (2013);

Ciliberto, Michael Anthony, Clinical Assistant Professor, Pediatrics, 2013 (2013);

Cinnamon, Katherine A., Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Ciochon, Russell L., Professor, Pediatric Dentistry/Anthropology, 1987 (1996); BA 1971 California-Berkeley; MA 1974 California-Berkeley; PhD 1986 California-Berkeley

Cirillo, Dominic J., Adjunct Lecturer, Epidemiology, 2011 (2013); BS 1998 Cornell; MD 2008 Iowa; PHD 2009 Iowa

Ciungu, Lavinia Cornia, Lecturer, Mathematics, 2013 (2013);

Clabaugh, Gerd William, Adjunct Lecturer, Nursing, 2011 (2011); MPA 1989 Iowa State

Clair, Isaac John, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); BA 2005 Iowa; DDS 2009 Iowa

Clamon, Gerald H., Professor, Internal Medicine, 1976 (1991); BS 1967 Dartmouth; MD 1971 Washington-Missouri

Clancey, Constance Jean Lehman, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHD 1990 Baylor College

Clancy, James M., Associate Professor, Prosthodontics, 1986 (1991); BS 1975 Iowa; DDS 1978 Iowa; MS 1980 Iowa

Clark, Anthony S., Assistant Professor, Aerospace Studies, 2011 (2011); BA 2004 Maryland

Clark, Charles R., Professor, Biomedical Engineering/Orthopaedics and Rehabilitation, 1980 (1988); BS 1972 Notre Dame; MD 1976 Michigan

Clark, Craig Leo, Adjunct Instructor, Pharmacy, 1997 (1997); BSPH 1978 Iowa

Clark, Craig B., Clinical Adjunct Professor, Internal Medicine, 2001 (2012); BS 1991 Iowa State; DO 1995 Des Moines- Col of Osteopa

Clark, Elizabeth Lee, Adjunct Assistant Professor, English, 2001 (2001); BA 1986 Carroll; MA 1993 Iowa; PHD 2001 Iowa

Clark, Eve Dillman, Clinical Assistant Professor, Radiology, 2008 (2008); MD 2002 Iowa
Clark, Jason K., Assistant Professor, Psychology, 2009 (2009); BA 2000 Purdue; MS 2005 Purdue; PHD 2007 Purdue

Clark, Lee Anna, Emeritus Professor, Psychology, 1993 (1993); BA 1972 Cornell; MA 1977 Cornell; PHD 1982 Minnesota

Clark, Mary Kathleen, Professor, IA Consortium Substance Abuse/Nursing, 1982 (2007); BSN 1973 Michigan; MN 1979 Washington; PHD 1990 Iowa

Clark, Robert L., Clinical Adjunct Associate Professor, Surgery, 2012 (2012); MD 1985 Arkansas Medical

Clark, Ruth Ann, Adjunct Instructor, Pharmacy, 1997 (1997); BSPH 1992 Iowa

Clark, Sarah Elizabeth, Adjunct Instructor, Preventive Community Dentistry, 2008 (2008); DDS 2003 Iowa

Clark, Shaunda Louise, Adjunct Instructor, Preventive Community Dentistry, 1998 (1998); BS 1997 Iowa

Clark, Steven Heyen, Clinical Associate Professor, Periodontics, 1991 (2009); BS 1977 Illinois; DDS 1983 Illinois

Clark, William David, Clinical Associate Professor, Family Medicine, 1999 (1999); BS 1973 Iowa State University; MD 1977 Iowa

Clarke, Mary Frances, Adjunct Assistant Professor, Nursing, 1996 (2007); BSN 1982 Mount Mercy College; MA 1993 Iowa; PhD 2006 Iowa

Clarke, William Radue, Professor, Biostatistics, 1964 (1986); BA 1964 Oregon; MS 1967 Iowa; PHD 1975 Iowa

Claussen, Leah Ann, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARMD 2003 Iowa

Claypool, Vicki Lynn, Emeritus Professor, Political Science/International Programs, 1989 (2002); BA 1974 Minnesota; PHD 1985 Minnesota

Clayton, Christopher Edmund, Adjunct Assistant Professor, Pharmacy, 2005 (2005); AS 1995 North Iowa Area Community; PHARMD 2000 Iowa

Clegg, Steven, Professor, Microbiology, 1980 (1992); BSC 1975 Dundee - Scotland; PHD 1978 Dundee-Scotland

Clement, Colleen Marie, Adjunct Assistant Professor, Pharmacy, 2010 (2010); PHARMD 2000 Iowa

Clemson, Lance, Adjunct Instructor, Social Work, 1997 (1997); MS 1986 Columbia

Cleveland, Mark G., Clinical Adjunct Assistant Professor, Dermatology, 1999 (1999); BS 1984 Baylor; PHD 1990 Texas Medical-Houston; MD 1990 Texas Medical Galveston

Clifton, James A., Emeritus Professor, Internal Medicine, 1953 (1963); BA 1944 Vanderbilt; MD 1947 Vanderbilt

Cline, Robert N., Lecturer, Marketing, 1996 (1996); BA 1968 Iowa

Clinton, Patricia Kay, Clinical Professor, Nursing, 1984 (2002); BSN 1976 Iowa; MA 1984 Iowa; PHD 1995 Iowa

Clow, Toni J., Emeritus Associate Professor, Nursing, 1976 (1981); BSN 1966 Iowa; MA 1975 Iowa

Cloyd, Brett S., Adjunct Instructor, University College, 2011 (2013); BA 1993 St. Mary’s of Maryland; AMLS 1998 Iowa

Clubb, Merrel D., Associate Professor, Theatre Arts, 1999 (1999); BA 1976 Amherst College; MFA 1982 Yale; DFA 1991 Yale

Coats, Mary Frances, Adjunct Assistant Professor, Art Art History, 2013 (2013);

Cobb, Amy Marie, Adjunct Assistant Professor, Pharmacy, 2005 (2005); PHARMD 2002 Iowa

Cobb, Deborah Scheckel, Associate Professor, Operative Dentistry, 1986 (2000); BS 1976 Northern Arizona; DDS 1982 Iowa; MS 1995 Iowa

Cooper, Christopher Scott, Professor, Urology/Pediatrics, 1999 (2008); BA 1987 Iowa; MD 1991 Iowa

Cooper, Reginald R., Emeritus Professor, Orthopaedics and Rehabilitation, 1962 (1971); BA 1952 West Virginia; BS 1953 West Virginia; MD 1955 Med College of Virginia; MS 1960 Iowa

Cooper, Steven H., Adjunct Assistant Professor, Periodontics/Family Dentistry, 1970 (1973); DDS 1966 Iowa; MS 1970 Iowa

Cooper-Brown, Linda Jo, Clinical Associate Professor, Pediatrics, 2000 (2011); BA 1984 Miami; EDS 1988 Iowa; PHD 1991 Iowa

Corbett, Kyra Jean, Adjunct Assistant Professor, Pharmacy, 2005 (2005); PHARMD 2004 Iowa

Cordts, Marcia L., Lecturer, Microbiology, 2001 (2010); BA 1982 Stephens; PHD 1988 Cornell

Coretsopoulos, Chris, Lecturer, Chemical Biochemical Engineering, 1992 (2012); BS 1981 Massachusetts; PHD 1989 Illinois

Corkery, Brian James, Adjunct Lecturer, University College Courses, 2002 (2002); BA 1983 Iowa; MS 1988 Iowa State; PHD 1996 Utah; MPA 1996 Utah

Corkery, Julie M., Adjunct Assistant Professor, Psych Quant Foundations, 2002 (2002); BA 1983 Mount Mercy; EDS 1987 Iowa State; PHD 1991 Iowa State

Cornell, Robert A., Associate Professor, Anatomy Cell Biology, 2001 (2007); BS 1987 Stanford; PHD 1995 Washington

Cornell, Steven Hajos, Emeritus Professor, Radiology, 1963 (1971);

Correia, Amy E., Adjunct Instructor, Social Work, 2006 (2006); MSW 1998 Iowa

Correia, Monica Cruz De Gusmao, Associate Professor, Art Art History, 2003 (2010); AB 1991 Uni of Rio de Janeiro; MA 1999 Iowa; MFA 2000 Iowa

Corrigan, Melissa M., Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Coryell, William H., Professor, Psychiatry, 1977 (1986); BS 1970 Georgia; MD 1973 Medical College of Georgia

Cossman, George W., Emeritus Associate Professor, Teaching and Learning, 1966 (1970); AB 1952 Shimer; BS 1954 Illinois; MED 1955 Illinois; PHD 1967 Iowa

Cotarlan, Vlad, Clinical Assistant Professor, Internal Medicine, 2012 (2012);

Cotterman, Billie Jay, Adjunct Instructor, Classics, 2012 (2012); BA 2003 Florida State University; MA 2006 University of Florida

Coulter, Joe D., Professor, Anatomy Cell Biology/Community Behavioral Health/Community Programs, 1985 (1985); BA 1966 Oklahoma; PHD 1971 Oklahoma

Couser, Gregory Patrick, Adjunct Assistant Professor, Occupational Environmental Health, 2004 (2007); BSE 1992 Iowa; MD 1997 Iowa; MPH 2002 Iowa

Covaci, Jessica Marie, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011);

Covert, Christopher M., Clinical Adjunct Instructor, Internal Medicine, 1995 (1995); DO 1984 Osteopathic Med Hlth

Cowdery Jr., John S., Emeritus Professor, Internal Medicine, 1983 (1994); BA 1971 Duke; MS 1974 Emory; MD 1978 Emory

Cowen, Howard, Clinical Professor, Preventive Community Dentistry, 1982 (2009); BA 1972 Colorado; DDS 1976 Iowa; MS 1995 Iowa

Cowles, Mary Kathryn, Associate Professor, Statistics Actuarial Science/Biostatistics, 1997 (2002); BA 1971 Carleton college; MM 1972 Northwestern; MS 1990 Minnesota-Minneapolis; PHD 1994 Minnesota-Minneapolis

Cox, Charles D., Emeritus Professor, Microbiology, 1974 (1988); BS 1967 William and Mary; PHD 1971 Georgia

Cox, Chelsea Faye, Adjunct Lecturer, Division of Interdisciplinary Program, 2012 (2012);

Cox, Lois K., Clinical Professor, Law-Faculty, 1991 (1999); BA 1971 Rice; MA 1973 Tufts; JD 1978 Boston

Cox, Paul Russell, Adjunct Instructor, German, 2005 (2005); BA 1993 Missouri - Columbia; MA 1995 Missouri - Columbia

Crabb, Larry, Emeritus Associate Professor, Family Dentistry, 1977 (1979);

Crabb, Thomas G., Adjunct Assistant Professor, Pharmacy, 2006 (2006); BS 1973 Morningside; BSHP 1977 Creighton; JD 1991 Drake

Crabtree, Kirk, Adjunct Assistant Professor, Pharmacy, 2002 (2002); PHARMD 2001 Iowa

Craft-Rosenberg, Martha Jane, Emeritus Professor, Nursing, 1980 (1997); BSN 1970 Iowa; MA 1978 Iowa; PHD 1985 Iowa

Craig, Steven Robert, Clinical Adjunct Professor, Internal Medicine, 1987 (2005); MD 1979 Iowa

Craig, Steven Michael, Adjunct Assistant Professor, Internal Medicine/Medicine Administration, 2010 (2010); MD 2004 Iowa

Crain, Carin N., Adjunct Lecturer, Law-Faculty, 2008 (2008); BA 1983 Scripps College; JD 1991 California, Davis

Cram, Albert Edwin, Emeritus Professor, Surgery, 1975 (1991); BS 1965 Nebraska; MD 1969 Nebraska
Cram, Ellen, Clinical Associate Professor, Nursing, 2000 (2005); BSN 1980 Coe; MA 1989 Iowa; PHD 2002 University of Iowa

Cram, Peter M., Professor, Internal Medicine, 2002 (2013); BA 1991 Vermont; MD 1997 Wake Forest

Cramer, Barton Emmet, Adjunct Assistant Professor, Urban Regional Planning/Economics, 2007 (2009); BS 1963 MA Inst of Technology; MS 1966 MA Inst of Technology; PHD 2007 Iowa

Cramer, Bradley Douglas, Assistant Professor, International Programs/Geoscience, 2012 (2012);

Cramer, Elizabeth Suzanne, Clinical Assistant Professor, Family Medicine, 2012 (2012);

Cranberg, Gilbert, Emeritus Professor, Journalism Mass Communication, 1982 (1982); BA 1949 Syracuse; MA 1956 Drake

Cranston, Jane Barnes, Clinical Instructor, Teaching and Learning, 2005 (2009); MA 1980 Western Illinois; MA 1993 Iowa

Crawford, Eean Robert, Assistant Professor, Management Organizations, 2011 (2011); MAC 2006 Brigham Young; BS 2006 Brigham Young; PHD 2011 Florida

Crawford, Lance Wayne, Adjunct Assistant Professor, Endodontics, 2003 (2003); BS 1971 Iowa; BDS 1975 Loyola-Chicago; CER 1981 Loyola-Chicago

Crawford, Robert G., Adjunct Assistant Professor, Economics, 2009 (2009); MS 1971 Carnegie Mellon; PHD 1976 Carnegie Mellon

Creedon, Pamela J., Emeritus Professor, Journalism Mass Communication, 2002 (2002); BA 1969 Mount Union; MA 1970 Oregon

Creekmur, Corey, Associate Professor, Cinema Comparative Literature/International Programs/English, 1997 (2000); BA 1979 Florida; MA 1981 Chicago; PHD 1991 Illinois-Urbana Champaign

Cremer, James F., Professor, Computer Science, 1992 (2003); BS 1982 Cornell University; MS 1988 Cornell University; PHD 1999 Cornell University

Cremers, Bernard J., Adjunct Instructor, Pharmacy, 2000 (2000); BS 1964 Iowa

Cremers, Jennifer, Lecturer, Teaching and Learning, 2000 (2000); BA 1992 Iowa

Cretzmeyer, Margaret T., Adjunct Assistant Professor, Social Work, 2006 (2006); PHD 2006 Iowa

Criswell, Thomas J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2012); PHARMD 2010 Iowa

Crocker, Erin M., Clinical Assistant Professor, Psychiatry, 2011 (2011); MD 2007 South Carolina

Crocker, Stephen Russell, Adjunct Lecturer, Marketing, 2012 (2012);

Croco, Matthew Alexander Terrance, Adjunct Assistant Professor, Orthodontics, 2010 (2010); BA 1997 Grinnell; DDS 2002 Iowa; MS 2005 Iowa

Croft, Jerry, Adjunct Professor, Division of Interdisciplinary Program, 2001 (2001); PHD 1971 Tulsa

Croft, Laurie J., Adjunct Associate Professor, Teaching and Learning, 1998 (2007); BA 1978 Oklahoma State; MA 1984 Oklahoma; PHD 1994 Tulsa

Cromwell, John, Clinical Associate Professor, Surgery, 2009 (2009); BS 1989 Lincoln, Nebraska; MD 1994 Minnesota

Cross, Lowell M., Emeritus Professor, Music, 1972 (1981); BA 1961 Texas Tech; BA 1963 Texas Tech; MA 1968 Toronto-Canada

Crossett, Clay, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); BS 1983 Centre College; DMD 1983 Louisville; DMD 1987 Louisville

Crossett, Judith H., Clinical Professor, Psychiatry/Nursing, 1998 (2008); BA 1968 Grinnell; MA 1970 Toronto; MD 1984 Iowa; MS 1988 Iowa

Crowe, Raymond R., Emeritus Professor, Psychiatry, 1972 (1981); BA 1963 Vanderbilt; MD 1966 Vanderbilt

Crowell, Carolyn M., Emeritus Assistant Professor, Nursing, 1968 (1969);

Crowell, Eric T., Adjunct Lecturer, Health Management Policy, 1995 (1995); MA 1982 Minnesota

Crowley, Lois M., Lecturer, Teaching and Learning, 2010 (2010); MA 1995 Iowa

Cruikshank, Brenda M., Emeritus Associate Professor, Pediatrics, 1972 (1995); BA 1964 DePauw; MD 1967 North Carolina

Cuddihy, Henri A., Emeritus Associate Professor, Internal Medicine, 2000 (2000); BA 1969 New York; MD 1977 Alabama

Cullen, Joseph John, Professor, Radiation Oncology/Surgery, 1993 (2005); BS 1981 Loras; MD 1986 Iowa

Cullen, Laura M., Clinical Adjunct Instructor, Nursing, 2000 (2000); BSN 1982 Iowa; MA 1990 Iowa

Cullinan, Daniel, Adjunct Assistant Professor, Pharmacy Practice and Science, 2002 (2002); BS 1995 Iowa; MS 1997 Iowa; PHARMD 1999 Iowa

Culp, Kenneth Ray, Professor, Occupational Environmental Health/Nursing, 1985 (2007); BSN 1980 Iowa; MA 1985 Iowa; PHD 1992 Iowa

Culshaw, John Patrick, Adjunct Professor, Library Information Science, 2013 (2013);

Cumings, Lauren Rachael, Adjunct Assistant Professor, Pharmacy Practice and Science, 2008 (2008); PHAR 2006 Drake

Cummins, Phillip D., Emeritus Professor, Philosophy, 1963 (1974); BA 1957 Iowa; MA 1959 Iowa; PHD 1961 Iowa
Cunliffe, Paul William, Adjunct Assistant Professor, Dance, 2002 (2002);
Cunning, David, Associate Professor, Philosophy, 2003 (2007); BA 1993 California, @ Berkeley; MA 1996 California @ Irvine; PhD 2000 California @ Irvine
Cunningham-Ford, Marsha Ann, Associate Professor, Preventive Community Dentistry, 1979 (1985); BS 1976 Old Dominion; MS 1979 Old Dominion
Curley, Melissa Anne-Marie, Assistant Professor, Religion, 2009 (2009); BA 1997 McGill; MA 2004 McGill; PhD 2009 McGill
Curran, Daniel Joseph, Adjunct Lecturer, Management Organizations, 2012 (2012); BBA 1993 Cardinal Stritch; MBA 2008 UNI
Currie, Jay Dean, Clinical Professor, Pharmacy, 1984 (2005); BPharm 1980 Iowa; PHARMD 1984 Iowa
Curry, Clifford R., Lecturer, Electrical-Computer Engineering, 2008 (2008); BSEE 1975 Illinois Urbana; MSEE 1977 Wichita State; PhD 1997 Washington Seattle
Curry, Raygena Ann, Adjunct Instructor, Social Work, 1997 (1997); BA 1977 Simpson College; MSW 1992 Iowa
Curry, Sue J., Professor, Health Management Policy, 2008 (2008); BA 1976 Massachusetts; MA 1979 New Hampshire; PhD 1981 New Hampshire
Curts, Vanessa Ann, Clinical Assistant Professor, Pediatrics, 2011 (2011); MD 2005 Wisconsin
Curtius, Anny Dominique, Associate Professor, International Programs/French Italian, 2002 (2007); BA 1984 Antilles-Guyane; MA 1992 Montreal; PhD 1997 Montreal
Curto, Ines Zigrino, Lecturer, Computer Science, 2000 (2001); PhD 2000 Iowa
Curto, Raul E., Professor, Mathematics, 1981 (1987); BS 1975 San Luis-Argentina; PhD 1978 State Univ of NY - Stony Brook; MA 1978 State Univ of NY - Stony Brook
Curto, Roxanna Nydia, Assistant Professor, Spanish Portuguese/French Italian, 2011 (2011); AB 2001 Harvard; MA 2003 Yale; PhD 2008 Yale
Curtu, Iulian, Adjunct Instructor, Mathematics, 2011 (2011); BSE 1993 Politehnica,Timisoara
Curtu, Rodica, Associate Professor, Mathematics, 2007 (2007); BS 1995 Transilvania U of Brasov,Roman; MA 1999 Pittsburgh; PhD 2003 Pittsburgh
Cwiertny, David Michael, Assistant Professor, Civil-Environmental Engineering/Chemical Biological Engineering, 2011 (2011); BS 2000 California; PhD 2005 Johns Hopkins
Cyphert, Stacey Todd, Adjunct Lecturer, Health Management Policy, 1990 (1990); MHA 1983 Ohio State; PhD 1990 Iowa
Czuprynski, Hiroko, Lecturer, Asian Slavic Languages Literature, 2012 (2012);
D’Agata, John, Associate Professor, English, 2005 (2007); BA 1995 Iowa; MFA 1998 Iowa
D’Alessandro, Donna M., Professor, Pediatrics, 1995 (2007); BA 1985 Kalamazoo; MD 1989 Wayne State
D’Alessandro, Michael, Professor, Radiology, 1995 (2004); BS 1985 Wayne State; MD 1989 Wayne State
D’Aunno, Lisa E., Adjunct Associate Professor, Social Work, 2008 (2008); AB 1978 Notre Dame; JD 1984 Michigan
D’Souza, Joseph E., Adjunct Assistant Professor, Endodontics, 1983 (1987); BS 1974 Iowa; DDS 1983 Iowa
Daack-Hirsch, Sandra E., Associate Professor, Nursing, 1987 (2013); BSN 1986 Iowa; MSN 1998 Iowa; PhD 2007 Iowa
Dagle, John Michael, Professor, Biochemistry/Pediatrics, 1998 (2013); BS 1984 Creighton; PhD 1991 Iowa; MD 1991 Iowa
Dahal, Sanjiv Kumar, Clinical Adjunct Assistant Professor, Internal Medicine, 2003 (2003); MD 1988 Minsk State, Belarus
Dahl, Eva C., Adjunct Professor, Oral Path,Radiology/Medicine, 1980 (1999); DDS 1976 Iowa
Dahlke, Megan Eileen, Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);
Dahlsten, Patricia L., Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013);
Dahmoush, Laila, Clinical Associate Professor, Urology/Pathology, 2001 (2007); MBCHB 1983 Univ. Alexandria Fac Med-Egypt; MD 1999 Maryland-Baltimore
Dai, Donghai, Associate Professor, Obstetrics Gynecology, 2009 (2009); MD 1987 Shanghai Medical; PhD 1998 Medical of Georgia
Dailey, Michael E., Associate Professor, Biology, 1996 (2002); BS 1985 Geneva; PhD 1990 Washington
Dailey, Morris O., Emeritus Associate Professor, Pathology, 1984 (1989); BS 1971 Calif-Davis; PhD 1976 Chicago; MD 1977 Chicago
Dailey, Scott Alan, Adjunct Assistant Professor, Communication Sciences and Disorders, 2010 (2010); BS 1988 Iowa State; MA 1993 Northern Iowa; PhD 2009 University of Iowa
Dajud, Maria Victoria, Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);
Daley, Neal R., Adjunct Instructor, Pharmacy, 2004 (2004); BSHP 1980 Iowa
Dalrymple, Kajsa E., Assistant Professor, Journalism Mass Communication, 2011 (2011); BS 2005 Cornell; MA 2007 Wisconsin; PhD 2011 Wisconsin
Daly, Jeanette Marie, Clinical Adjunct Assistant Professor, Family Medicine/Nursing, 1993 (1993); BS 1973 Northern Illinois; MS 1978 Northern Illinois; PhD 1992 Iowa
Damasio, Antonio R., Adjunct Professor, Neurology, 1975 (1980); MD 1968 Lisbon; PhD 1974 Lisbon
Damasio, Antonio R., Adjunct Professor, Neurology, 1975 (1980); MD 1968 Lisbon; PhD 1974 Lisbon
Damasio, Antonio R., Adjunct Professor, Neurology, 1975 (1980); MD 1968 Lisbon-Portugal
Damiano, Peter Cosimo, Professor, Preventive Community Dentistry/Public Policy Center, 1988 (2001); BS 1982 Iowa; DDS 1986 Iowa; MPH 1990 California-Los Angeles
Damico, Alfonso J., Emeritus Professor, Political Science, 1999 (1999); BA 1964 George Washington; MA 1967 Ohio State; PhD 1971 Ohio State

Damico, Sandra Bowman, Emeritus Professor, Edu Policy Leadership Studies, 1999 (1999); BA 1962 Ohio State; MA 1969 Ohio State; PhD 1973 Florida

Dang, Trung, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); BA 1989 Colorado; DDS 1993 Colorado

Daniel, Brian Phillip, Clinical Assistant Professor, Internal Medicine, 2004 (2005); BA 1987 Carson-Newman-TN; MD 1991 Vanderbilt

Daniel, John F., Adjunct Assistant Professor, Pharmacy, 2000 (2000); PHARM 1999 Iowa

Daniel-Ulloa, Jason Dwight, Adjunct Lecturer, Community Behavioral Health, 2013 (2013);

Daniels, Timothy K., Clinical Adjunct Assistant Professor, Family Medicine, 1979 (2002); MD 1973 Iowa

Danielson, Angela Marie, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARM 2007 Iowa

Danielson, Stanton L., Clinical Adjunct Assistant Professor, Family Medicine, 1982 (1984); MD 1976 Iowa

Daniolos, Peter T., Clinical Associate Professor, Psychiatry, 2010 (2010); BS 1984 Denver; MD 1989 North Dakota

Danley, Dana L., Clinical Adjunct Assistant Professor, Family Medicine, 2004 (2004); BA 1993 Grinnell; MD 1998 Iowa

Darbro, Benjamin Will, Assistant Professor, Pediatrics, 2011 (2011); BS 1999 Nebraska Wesleyan; PHD 2007 Iowa; MD 2007 Iowa

Darcy, Isabel K., Associate Professor, Mathematics, 2003 (2008); BS 1987 California; MS 1989 California; PHD 1997 Florida State

Darling, Warren G., Professor, Health and Human Physiology/Physical Therapy, 1987 (2007); BSC 1979 Waterloo-Ontario; MSC 1981 Waterloo-Ontario; PHD 1986 Western Ontario

David, Marcella, Professor, Law-Faculty/International Programs, 1995 (1999); BA 1986 Rensselaer Polytechnic Institu; JD 1989 Michigan

Davidovic, Jovana, Assistant Professor, Philosophy, 2012 (2012);

Davidson, Ashley Rose, Adjunct Assistant Professor, Creative Writing, 2012 (2012);

Davidson, Beverley L., Professor, Internal Medicine/Neurology/Physiology, 1994 (2000); BS 1981 Nebraska Wesleyan; MS 1983 Michigan; PHD 1987 Michigan

Davidson, Jill Ellen Kramer, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 1995 (1995); MD 1988 Iowa

Davidson, Lawrence Stuart, Adjunct Professor, Economics, 2011 (2011); PHD 1977 North Carolina

Davies, Brandon Scott Joseph, Assistant Professor, Biochemistry, 2012 (2012);

Davis, Caroline, Adjunct Assistant Professor, Geoscience, 2011 (2011); BS 2001 Iowa State; MS 2003 Fort Hays State; PHD 2009 Missouri-Rolla

Davis, David A., Clinical Adjunct Assistant Professor, Dermatology, 2001 (2001); MD 1994 Colorado

Davis, James Eugene, Clinical Associate Professor, Cardiothoracic Surgery/Pediatrics, 2007 (2007); MD 1987 Indiana

Davis, Jody, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); BS 1996 Fort Lewis; DDS 2009 Colorado

Davis, Leodis, Emeritus Professor, Chemistry, 1968 (1976); BS 1956 Missouri; MS 1958 Iowa State; PHD 1960 Iowa State

Davis, Michael Wayne, Adjunct Lecturer, University College Courses, 2004 (2004); BA 1979 South Carolina; MDIV 1984 Southeastern Baptist Theologic

Davis, Patricia H., Professor, Neurology, 1992 (2005); BS 1973 Queen’s-Ontario; MD 1977 Queen’s-Ontario

Davis, Rebecca, Clinical Assistant Professor, Internal Medicine, 2007 (2007); BS 1981 Indiana; MD 1987 Indiana

Davis, Roy C., Adjunct Assistant Professor, Pharmacy, 1997 (1997); BA 1979 Pittsburgh; BS 1987 Kansas; PHARM 1995 Duquesne

Davis, William Alan, Emeritus Associate Professor, Obstetrics Gynecology, 2000 (2003); BA 1963 Wartburg; MD 1967 Illinois

Davis, Wilson L., Jr., Clinical Adjunct Instructor, Internal Medicine, 1990 (1990); MD 1978 Iowa

Davison, Alice L., Associate Professor, Linguistics, 1988 (1988); AB 1962 Bryn Mawr; MA 1969 Chicago; PHD 1973 Chicago

Daws, William R., Clinical Adjunct Assistant Professor, Pediatrics, 1981 (1981); MD 1976 Iowa

Dawson, Deborah V., Professor, Dows Institute-Research/ Biostatistics, 2001 (2001); BA 1974 Montclair State; SCM 1976 Johns Hopkins; PHD 1981 North Carolina

Dawson, Jeffrey D., Professor, Biostatistics, 1991 (2009); BS 1987 Brigham Young; SCD 1991 Harvard

Dawson, Steven, Clinical Adjunct Assistant Professor, Pediatrics, 2003 (2003); BA 1980 Wheaton; BS 1982 Washington; MD 1986 American University/Caribbean

Day, Anthony Alan, Clinical Adjunct Associate Professor, Family Medicine, 2008 (2008); BS 1988 Iowa; MD 1992 Iowa

De Boef, Connie Lou, Clinical Assistant Professor, Nursing, 1993 (2002); BSN 1970 Iowa; MA 1991 Iowa

De Geest, Koen, Clinical Professor, Obstetrics Gynecology, 2003 (2003); BS 1973 Gent, Belgium; MD 1977 Gent, Belgium

De La Pena, George R., Associate Professor, Dance, 2004 (2005);
De Malis, Kris A., Associate Professor, Dermatology/Chemistry/Biochemistry, 2006 (2012); PhD 1999 Colorado Health

De Matta, Renato E., Associate Professor, Management Sciences, 1990 (1997); BS 1977 Philippines; MA 1979 Philippines; PhD 1989 Pennsylvania

De Puma, Richard Daniel, Emeritus Professor, Art Art History, 1968 (1986); BA 1964 Swarthmore; MA 1967 Bryn Mawr; PhD 1969 Bryn Mawr

De Saint Victor, Carol, Emeritus Professor, English, 1964 (1984); BA 1956 Indiana; PhD 1966 Indiana

Dean, Asabi Afifi, Lecturer, Rehabilitation and Counselor Education, 2011 (2011); BA 1998 Chicago State; MA 2006 Chicago State

Demir, Ibrahim, Adjunct Assistant Professor, Civil-Environmental Engineering, 2012 (2012); PhD 2010 University of Georgia

Den Adel, Kevin John, Lecturer, Accounting, 2009 (2009); PhD 1999 Iowa

Denburg, Jeffrey Lewis, Professor, Biology, 1977 (1990); BA 1965 Amherst; PhD 1970 Johns Hopkins

Denburg, Natalie Lisa, Assistant Professor, Neurology, 1999 (1999); BA 1991 New York-Binghampton; MA 1994 Michigan State; PhD 1997 Michigan State

Denehy, Gerald, Professor, Operative Dentistry, 1968 (1977); DDS 1968 Loma Linda; MS 1970 Iowa

Denehy, Janice Ann, Emeritus Associate Professor, Nursing, 1968 (1998); BS 1966 Loma Linda; MA 1971 Iowa; PhD 1978 Iowa

Denninger, Elizabeth Ellen, Lecturer, Teaching and Learning, 2008 (2008); BA 1990 Iowa; MA 1995 Iowa

Dennis, Leslie, Adjunct Associate Professor, Epidemiology, 1999 (2004); BA 1984 Loretto Heights College; MS 1988 Colorado; PhD 1993 Washington

Dennis-Smithart, R. K., Clinical Adjunct Assistant Professor, Pediatrics, 1988 (1988); MD 1982 Iowa

Denniston, Rhawn Flavell, Adjunct Assistant Professor, Geoscience, 2001 (2001); PhD 2000 Iowa

Denny, William Joseph, Lecturer, English as Second Language, 2013 (2013);

Denry, Isabelle, Professor, Dows Institute-Research/Prosthodontics/Biomedical Engineering, 2011 (2011); DDS 1981 Paris VII; MS 1986 Paris VII; PhD 1989 Paris VII

Denschen, Peter, Professor, Internal Medicine, 1993 (1993); BA 1966 Colby; MD 1990 Johns Hopkins

Deora, Sundeep, Assistant Professor, Urology, 2012 (2012); MD 2003 All India Institute of Med Sci

Depew, David, Emeritus Professor, Communication Studies/Interdisciplinary Programs/Graduate College-Operations, 1990 (1995); BA 1965 St Marys-Calif; MA 1972 Calif-San Diego; PhD 1978 Calif-San Diego

Depew, Mary J., Associate Professor, Classics/International Programs, 1990 (1996); BA 1976 California State; BA 1979 Calif-Irvine; MA 1985 California-Los Angeles; PhD 1989 Calif-Los Angeles

Deppe, Wendy L., Adjunct Instructor, Pharmacy, 2006 (2006); BS 1988 Moorhead State; BPH 1995 Drake

Deprosse, Charles, Emeritus Associate Professor, Obstetrics Gynecology, 1972 (1978); AB 1946 Cornell; MD 1950 Cornell

Deschenes, Cynthia L., Adjunct Instructor, Nursing, 2013 (2013);

Deshpande, Milind S., Adjunct Assistant Professor, Chemical Biochemical Engineering, 2011 (2011); BS 1984 Poona,India; MSC 1986 Poona,India; PhD 1992 Poona,India
Desjardin, Lucy E., Adjunct Assistant Professor, Epidemiology, 2003 (2003); BS 1981 Florida; DPHIL 1993 Florida

Dessem, Ralph Lawrence, Adjunct Lecturer, Law-Faculty, 2012 (2012);

Dettmer, Helena R., Professor, Classics, 1976 (1997); BA 1972 Nebraska; PHD 1976 Michigan

Dettmer, Timothy, Clinical Adjunct Assistant Professor, Otolaryngology-Head Neck Surgery, 2007 (2007); BA 1996 Wartburg College; MA 2000 Jewish Hosp. Cincinnati OH; MD 2000 Iowa

Devane, Benjamin Mitchell, Assistant Professor, Psych Quant Foundations, 2013 (2013);

Devine, Arthur William, Clinical Adjunct Assistant Professor, Urology, 1999 (1999); MD 1977 Iowa

Devocht, James William, Adjunct Assistant Professor, Biomedical Engineering, 1997 (1998); PHD 1996 Iowa

Devolder, Russell David, Clinical Adjunct Assistant Professor, Biomedical Engineering, 2012 (2012);

Devor, Eric, Assistant Professor, Obstetrics Gynecology, 2010 (2013); BS 1972 New Mexico; MS 1977 New Mexico; PHD 1979 New Mexico

Devries, Steven Nelson, Adjunct Professor, Health and Human Physiology, 2013 (2013);

Dexter, Franklin, Professor, Health Management Policy/Anesthesia, 1994 (2005); SCB 1985 Brown; MS 1988 Case Western Reserve; PHD 1989 Case Western Reserve; MD 1990 Case Western Reserve

Dey, Mishtu, Assistant Professor, Chemistry, 2011 (2011); BS 1994 Utka, India; MS 1996 Utka, India; PHD 2004 Indian, Tech Bombay

Deyak, David Joseph, Professor, Military Science, 2009 (2009); BA 1989 Gustavus Adolphus, MN; MA 2001 Troy

Di Paola, Jorge Andres, Clinical Adjunct Associate Professor, Pediatrics, 2000 (2007); MD 1989 Buenos Aires

Diaz-Arnold, Ana M., Professor, Family Dentistry, 1987 (1992); BS 1979 Indiana; DDS 1983 Indiana; MS 1987 Iowa

Dibona, Gerald F., Emeritus Professor, Physiology, 1969 (1975); BA 1960 Harvard; MD 1964 Tufts

Dicharry, Bradley Clark, Associate Professor, Art Art History, 2008 (2013); BFA 2001 Tennessee Chatta; MA 2003 Iowa; MFA 2005 Iowa

Dick, David Wayne, Clinical Assistant Professor, Radiology, 2011 (2011); BS 1999 Western Washington; MS 2003 Madison; PhD 2004 Madison

Dickerson, Nikolas, Lecturer, American Studies, 2012 (2012); BA 2005 Ithica College; MA 2007 University of Maryland

Dickson, Eric W., Adjunct Professor, Emergency Medicine, 2003 (2007); BA 1991 Merrimack; MD 1995 Massachusetts

Dickson, James Sparrow, Adjunct Professor, Epidemiology, 2009 (2009); BA 1977 Clemson; MA 1980 Georgia; PHD 1984 Nebraska-Lincoln

Diehl, Beth Anne, Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Diehl, Paul B., Emeritus Associate Professor, English, 1975 (1981); BA 1966 Texas; MA 1970 Texas; PHD 1976 Texas

Diekema, Daniel James, Clinical Professor, Internal Medicine/Pathology, 1999 (2008); BA 1985 Calvin; MD 1989 Vanderbilt; MS 1995 Iowa

Dietz, Cory Lynn, Clinical Adjunct Assistant Professor, Family Medicine, 1994 (2002); MD 1990 Iowa

Dietz, Frederick R., Professor, Orthopaedics and Rehabilitation/Pediatrics, 1984 (1993); BA 1973 Harvard; MD 1977 Columbia

Dilig, John, Professor, Art History, 1975 (1987); BFA 1969 Rhode Island School of Design

Dillard, Seth Ian, Adjunct Lecturer, Mechanical Engineering, 2013 (2013); PHD 2011 University of Iowa

Dilley, Paul C., Assistant Professor, Religion/Classics, 2011 (2011); MA 2002 Yale; MPHIL 2005 Yale; PHD 2008 Yale

Dillon, Dena M. B., Adjunct Associate Professor, Pharmacy Practice and Science, 1998 (2003); PHARM 1995 Michigan

Dillon, Joseph S., Associate Professor, Internal Medicine, 1996 (2003); MBCH 1981 BAO University College-Dublin

Di Lorenzo, Jesse Francis, Adjunct Instructor, University College, 2010 (2013);

Dimke, Kristi Leigh, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2012); PHARM 2011 Iowa

Dindo, Lilian, Assistant Professor, Psychology/Psychiatry, 2009 (2009); BA 1998 Beirut; MA 2004 Iowa; PHD 2008 Iowa

Ding, Hongtao, Assistant Professor, Mechanical Engineering, 2012 (2012);

Dion, Douglas, Associate Professor, Political Science, 1999 (1999); BA 1984 North Carolina; MS 1986 Minnesota; PHD 1991 Michigan

Dion, Mark William, Clinical Assistant Professor, Radiation Oncology, 2000 (2000); BA 1973 Western State-Colorado; MD 1977 Colorado

Dirksen, Rachael Rickertsen, Clinical Assistant Professor, Internal Medicine, 2012 (2012);

Dittmer, Mark Allen, Clinical Assistant Professor, Family Dentistry, 1989 (1998); BS 1975 Iowa; DDS 1986 Iowa

Ditchtrich, Howard, Adjunct Professor, Internal Medicine, 2012 (2012);

Divekar, Abhay Ashok, Clinical Professor, Radiology/Pediatrics, 2007 (2013); MD 1995 Lokmany Tilak Municipal

Dixon, Bradley S., Associate Professor, Internal Medicine, 1990 (1994); BS 1975 Arizona State; MD 1979 Southern California
Djalali, Chaden, Professor, Physics Astronomy, 2012 (2012);

Dobrian, Walter, Emeritus Associate Professor, Spanish Portuguese, 1962 (1965); BA 1952 Wisconsin; PHD 1960 Wisconsin

Dobyns, Richard Craig, Clinical Professor, Family Medicine/International Programs, 1988 (2004); BA 1978 St. Olaf; MD 1983 Minnesota

Dodds, Amber Lynne, Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARM 2006 Iowa

Dodge, Georgia, Adjunct Associate Professor, English, 2010 (2010); BA 1991 California, Irvine; MA 1993 California; PHD 1996 California

Dodge, Jaime Kent, Clinical Adjunct Assistant Professor, Family Medicine, 2012 (2012);

Dodge, Rhonda Lynn, Clinical Adjunct Assistant Professor, Pediatrics, 2005 (2005); BA 1996 Simpson; MD 2001 Iowa

Dodson, Eric, Clinical Adjunct Assistant Professor, Pediatrics, 2004 (2004); BS 1991 Northeast Missouri State; DO 2000 Kirkville/ Osteopathic Med

Doelle, Gregory Charles, Clinical Professor, Internal Medicine, 2000 (2003); BA 1973 St. Thomas; MD 1977 Minnesota

Doering, John Val, Emeritus Professor, Family Dentistry, 1974 (1989); BA 1966 Regis; DDS 1970 Iowa; MA 1976 Iowa

Doern, Gary V., Emeritus Professor, Epidemiology/Pathology, 1997 (1997); BS 1972 Northwestern; MS 1974 Medical College of Wisconsin; PHD 1977 Medical College of Wisconsin

Doerschug, Kevin Clarke, Clinical Professor, Internal Medicine, 2002 (2013); BA 1990 Grinnell; MD 1994 Iowa

Doershuk, John F., Emeritus Professor, Radiation Oncology/Pathology, 1993 (1997); BS 1983 Wisconsin-Platteville; PHD 1991 Wisconsin-Madison

Domrin, Alexander, Adjunct Lecturer, Law-Faculty, 1999 (2005); SID 1977 Pennsylvania Law School; BA 1985 Moscow; PHD 1991 Inst. of Legislation Comp La

Donahue, James, Clinical Adjunct Assistant Professor, Internal Medicine, 2003 (2003); BS 1981 Rensselaer Polytechnic, NY; MD 1981 Albany Medical, NY

Donahue, Mary Patricia, Emeritus Professor, Nursing, 1976 (1993); BSN 1962 Ohio State; MSN 1971 Ohio State; PHD 1981 Iowa

Donald, joy Nybo, Adjunct Lecturer, Management Organizations, 2006 (2004); BA 1995 Cal. State; MBA 2002 Iowa

Donelson, John E., Emeritus Professor, Biochemistry, 1974 (1981); BS 1965 Iowa State; PHD 1971 Cornell

Donnell-Randall, Stefanie Colleen, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); DDS 2005 Iowa

Donovan, Emily Anne, Adjunct Instructor, Social Work, 2012 (2012);

Donovan, Maureen D., Professor, Pharmacy, 1989 (2005); BSPH 1983 Minnesota; PHD 1989 Michigan

Doolittle, Jeffrey J., Clinical Adjunct Assistant Professor, Family Medicine, 2012 (2012);

Doorenbos, Roy Allen, Clinical Adjunct Assistant Professor, Family Medicine, 1995 (2002); MD 1983 Iowa

Doorn, Jonathan A., Lecturer, Rhetoric, 1993 (1993); BS 1983 Iowa; MS 1988 Iowa; PHD 1993 Wisconsin

Doornbos, J. Fred, Emeritus Associate Professor, Radiology, 1986 (1993); BED 1950 Kansas; MD 1957 Kansas

Dorale, Jeffrey, Associate Professor, Geoscience, 2003 (2011); BS 1988 Iowa; MS 1992 Iowa; PHD 2001 Minnesota

Doresca, Dimy, Adjunct Lecturer, Management Organizations, 2012 (2012);

Dorman, Jane M., Adjunct Lecturer, University College Courses, 2002 (2002); BS 1982 Wisconsin-LaCrosse; MSED 1987 Northern Illinois

Dorner, Douglas B., Clinical Adjunct Professor, Surgery, 1973 (2001); MD 1967 Harvard

Dorr, Gloria Graham, Clinical Adjunct Instructor, Nursing, 2000 (2000); BSN 1974 University of Iowa; MA 1979 Iowa

Doucette, William R., Associate Professor, Biomedical Engineering, 1985 (1992); BS 1973 Virginia Polytechnic Institute; MS 1974 Virginia Polytechnic Institute; PHD 1984 Case Western Reserve

Dowden, Amy Melinda Yoder, Clinical Assistant Professor, Internal Medicine, 2007 (2008); BA 2000 Missouri-Kansas; MD 2000 Missouri-Kansas

Dowling, David O., Assistant Professor, Journalism Mass Communication, 2006 (2006); PHD 1995 Boulder
Downey, Debora Ann, Adjunct Instructor, Communication Sciences and Disorders, 1993 (1996); BA 1984 Northern Colorado; MA 1986 Northern Colorado

Downing, Donald T., Emeritus Professor, Dermatology, 1978 (1978); BSC 1951 Western Australia; PHD 1955 Western Australia

Downing, Nancy Ruth, Assistant Professor, Psychiatry/Nursing, 2012 (2012); BA 1987 University of Iowa; BSN 1998 University of Iowa; MSN 2007 University of Iowa

Doyle, John R., Emeritus Professor, Chemistry, 1955 (1965); MS MIT; BS 1949 MIT; PHD 1955 Tulane

Doyle, Matthew Richard, Adjunct Instructor, Pharmacy, 2001 (2001); BS 1991 Iowa; MS 1996 Western Illinois

Drack, Arlene V., Associate Professor, Ophthalmology Visual Science/Pediatrics, 2008 (2008); BS 1981 Scranton; MD 1986 Penn State

Drake, David R., Professor, Dows Institute-Research, 1988 (2003); BS 1977 Purdue; MS 1982 Purdue; PHD 1986 Tennessee

Drake, Lon D., Emeritus Professor, Geoscience, 1968 (1979); BA 1961 Buffalo; MA 1965 California-Los Angeles; PHD 1968 Ohio State

Dreher, Melanie, Emeritus Professor, Anthropology/ Community Behavioral Health/Nursing, 1997 (1997); BSN 1967 Long Island; MA 1974 Teachers College; MPHIL 1976 Columbia; PHD 1977 Columbia

Dreier, James, Lecturer, Music, 2000 (2006); BA 1985 Berklee; MA 2000 Iowa

Dresser, Craig, Lecturer, English as Second Language, 2010 (2012); MA 2004 Iowa

Drevyanko, Timothy, Clinical Adjunct Assistant Professor, Pathology, 2004 (2004); BA 1975 Marycrest College; MD 1980 Iowa; MS 2002 Wisconsin

Drexler, Frederick R., Adjunct Instructor, Prosthodontics, 1980 (1982); BA 1972 Earlham; DDS 1975 Iowa

Drilling, William Michael, Adjunct Instructor, Pharmacy, 2005 (2005); BSPH Iowa

Druckton, David A., Adjunct Instructor, Preventive Community Dentistry, 2000 (2000); DDS 1984 Case Western

Drwal, Jason M., Adjunct Assistant Professor, Psych Quant Foundations, 2012 (2012);

Duarte, Armando S., Professor, Dance, 1993 (2006); BS 1978 Univ de Sao Paulo-Brazil; MFA 1992 Tisch School of Arts-NY

Duarte, Maria A., Associate Professor, Spanish Portuguese/International Programs, 1982 (1989); BA 1971 Vanderbilt; MA 1974 Texas; PHD 1980 Minnesota

Duba, Vern, Clinical Assistant Professor, Pharmacy, 1993 (1999); BA 1983 Doane College; MA 1987 MO, Columbia

Dubay, Robert T., Adjunct Instructor, University College, 2010 (2013); BS 1999 St. Cloud State, MN; MS 2000 St. Cloud State, MN

Duerlinger, James P., Professor, Philosophy, 1971 (1989); BA 1961 Wisconsin; MA 1963 Washington; PHD 1966 Wisconsin

Duff, Melissa C., Assistant Professor, Communication Sciences and Disorders/Neurology, 2009 (2009); BS 1997 So IL U; MS 1999 North Carolina; PHD 2005 Illinois

Duffel, Michael W., Professor, Pharmacy, 1981 (1993); BS 1975 Texas-Austin; PHD 1979 Texas-Austin

Duffy, Pamela A., Adjunct Assistant Professor, Physical Therapy, 2008 (2008); BSPT 1978 Pennsylvania; MED 2001 Iowa State; PHD 2008 Iowa State

Duggan, Anne M., Adjunct Instructor, Journalism Mass Communication, 2010 (2010); BA 1977 California, Berkeley

Dumitrescu, Alina Valentina, Clinical Adjunct Professor, Pediatrics, 2011 (2011); MD 1999 Timisoara

Dungy, Claibourne I., Emeritus Professor, Epidemiology/Pediatrics, 1988 (1993); BS 1962 Eastern Illinois; MD 1967 Illinois; MPH 1971 Johns Hopkins

Dunkelberg, Jeffrey, Clinical Professor, Internal Medicine, 2009 (2009); MD 1981 Texas Southwestern

Dunkhase, John A., Emeritus Associate Professor, Teaching and Learning, 1976 (2006); PHD 1980 Colorado School of Mines

Dunlap, David O., Associate Professor, Art Art History, 1977 (1994); BA 1962 Colorado College; BFA 1963 Yale; MFA 1967 Yale

Dunlap, Gayle A., Emeritus Instructor, Health and Human Physiology, 2013 (2013);

Dunlap, Leslie W., Emeritus Professor, Library Information Science, (1982);

Dunn, Suzanne Marie, Adjunct Instructor, Communication Sciences and Disorders, 2006 (2006); BA 1996 Iowa; MA 2002 Iowa

Dunnwald, Martine, Assistant Professor, Pediatrics, 2001 (2001); MS 1990 Pasteur; PHARM 1991 Pasteur; PHD 1995 Laval

Duplic, Carol Rae Tate, Lecturer, Nursing, 2005 (2005); BSN 1977 Mankato State; MSN 1996 Mankato State

Duplat Ayala, Alfredo, Adjunct Instructor, Spanish Portuguese, 2013 (2013); BA 1998 Pontificia Javeriana Universit

Dupuy, Adam, Associate Professor, Anatomy Cell Biology/Pathology, 2006 (2012); PHD 2001 Minnesota

Durairaj, Lakshmi, Associate Professor, Internal Medicine, 2003 (2012); MBBS 1991 Kilpauk, India; MS 2004 Iowa

Duran, Eyup Hakan, Clinical Assistant Professor, Obstetrics Gynecology, 2010 (2010); MD 1991 Hacettepe

Durbin, William Ernest, Clinical Adjunct Assistant Professor, Family Medicine, 1997 (2002); BS 1982 Iowa; MD 1987 Iowa

Durgempudi Tripura, Sundara Reddy, Clinical Assistant Professor, Anesthesia, 2008 (2008); MBBS 1998 Andhra Medical College
Durham, Frank Dallas, Associate Professor, Journalism Mass Communication, 2009 (2007); BA 1982 Tulane; MA 1987 Florida; PhD 1993 Wisconsin-Madison

Dum, Robert, Adjunct Instructor, Nursing, 2006 (2006); BS 1982 Goshen; MSN 1982 Virginia; PhD 2004 Iowa

Dunne, James, Adjunct Assistant Professor, Nursing, 2011 (2011); BSN 1983 Chicago; MS 1997 Florida; PhD 1997 Florida

Dunn, Jon, Adjunct Instructor, Health and Human Performance, 2005 (2005); BSN 1977 Nebraska; MS 1987 Iowa; PhD 1997 Iowa

Duvall, Kimberlee A., Adjunct Assistant Professor, National Security Studies, 2007 (2007); BA 1987 Michigan; MA 1987 Michigan; PhD 2007 Michigan

Dwyer, David S., Clinical Adjunct Instructor, Ophthalmology Visual Science, 1992 (1992); MD 1979 Illinois

Dybek, Heidi J., Lecturer, Finance, 2004 (2004); BA 1991 Northeast Missouri State; PhD 1997 Purdue

Dyck, Mary J., Adjunct Assistant Professor, Nursing, 2006 (2006); BSN 1974 Goshen; MSN 1982 Virginia; PhD 2004 Iowa

Dyke, Gregory Peter, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); BS 1983 Illinois

Dyken, Mark E., Professor, Neurology, 1990 (2010); BA 1979 Indiana; MD 1984 Indiana

Dykstra, Richard L., Emeritus Professor, Statistics Actuarial Science, 1981 (1982); BA 1965 Central; PhD 1968 Iowa

Earl, Acie B., Adjunct Instructor, Health and Human Physiology, 2013 (2013); BS 1992 University of Iowa

Easter, Lonnie Dewayne, Adjunct Assistant Professor, Family Dentistry, 2011 (2011); DDS 1991 Iowa

Eastman, Diane Lynn, Clinical Adjunct Instructor, Nursing, 1990 (2010); BSN 1973 Iowa; MA 1983 Iowa

Easter, Scott D., Adjunct Assistant Professor, Social Work, 2011 (2011); BA 1989 Harvard; MSW 2006 Iowa; DR 2011 Iowa

Ebachi, Dawn Renae, Clinical Associate Professor, Pediatrics, 2005 (2011); BS 1994 Creighton, Omaha; MD 1998 Washington, St. Louis

Eberl, Daniel F., Professor, Biology, 1998 (2010); BS 1983 Alberta-Edmonton; MS 1987 Guelph, Canada; PHD 1991 Guelph, Canada

Eberlein, Michael, Clinical Assistant Professor, Internal Medicine, 2011 (2011); MD 2003 Friedrich Alexander

Eckert, Michael S., Professor, Music, 2011 (2011); BA 1977 Antioch; MA 1975 Chicago; PHD 1977 Chicago

Ecklund, Dixie Jean, Clinical Adjunct Instructor, Nursing, 2004 (2004); BSN 1983 Mt. Mercy College; MBA 2001 Iowa; MSN 2001 Iowa

Edel, James Patrick, Adjunct Instructor, Division of Performing Arts, 2010 (2010); BA 2005 Iowa

Edelstein, Burton L., Adjunct Assistant Professor, Pediatric Dentistry, 1999 (1999); MPH 1977 Harvard

Edens, R. Erik, Clinical Professor, Pediatrics, 2000 (2012); BS 1987 Saint Ambrose; PHD 1993 Iowa; MD 1994 Iowa

Edlund, Mark B., Adjunct Assistant Professor, University College, 2010 (2010); BS 1987 Minnesota; MS 1992 Michigan; PhD 1998 Michigan
Edvalson, Sherri Ivy, Adjunct Assistant Professor, Rehabilitation and Counselor Education, 2010 (2013); BA 1998 Eastern Oregon; MA 2005 Vermont

Edwards, Kathleen A., Adjunct Assistant Professor, Cinema Comparative Literature, 2004 (2004); BA 1979 Richmond, Virgin; MA 1985 Philadelphia College of Art

Edwards, Matthew, Adjunct Lecturer, University College, 2009 (2009); MED 2007 Georgia

Eerkens, Mieke, Adjunct Assistant Professor, Division of Interdisciplinary Program, 2013 (2013);

Egesdal, Travis, Adjunct Instructor, Preventive Community Dentistry, 2005 (2005); BS 1994 Iowa State; DDS 2002 Iowa

Egge, Jason Alan, Adjunct Assistant Professor, Pharmacy Practice and Science, 2006 (2006); PHARMD 2002 Iowa

Egge, Jessica Lea, Adjunct Instructor, Communication Sciences and Disorders, 2007 (2007); BA 1999 Iowa; MA 2001 Iowa; DAUD 2004 PA College of Optometry/Audiol

Ehly, Stewart W., Professor, Psych Quant Foundations, 1979 (1996); BA 1971 Massachusetts; PHD 1975 Texas-Austin

Ehrstine, Glenn, Associate Professor, German/International Programs, 1994 (2001); BA 1985 Michigan; MA 1990 Texas-Austin; PHD 1995 Texas-Austin

Eichenberger Gilmore, Julie Mae, Adjunct Assistant Professor, Preventive Community Dentistry, 2004 (2004); BA 1981 Iowa; MS 1987 Iowa; PHD 2001 Iowa

Eichinger, Leanne Marie, Adjunct Assistant Professor, Rehabilitation and Counselor Education, 2000 (2013); BS 1976 Wisconsin @ Eau Claire; MED 1988 Long Island

Eichinger, William E., Professor, Civil-Environmental Engineering, 1997 (2002); BS 1976 West Point; MS 1985 Air Force Inst of Technology; PHD 1990 California-Davis

Eichmann, David A., Associate Professor, Library Information Science, 1986 (2000); BS 1978 Iowa; MS 1983 Iowa; PHD 1989 Iowa

Eid, Bassel, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 2012 (2012);

Eilers, Lee D., Lecturer, Management Organizations, 2012 (2012);

Ellington, Stephanie Jo Kellogg, Adjunct Instructor, Radiology, 2010 (2010); BA 1993 Ottawa; MSED 2003 California State

Elliot, David E., Professor, Internal Medicine, 1993 (2006); BS 1979 Wheaton; PHD 1985 Wayne State; MD 1988 Wayne State

Elliot, Stephen C., Clinical Adjunct Associate Professor, Pediatrics, 1977 (1977); DO 1974 Coll of Osteopathic Med

Ellis, Mark, Adjunct Assistant Professor, Preventive Community Dentistry, 2010 (2010); BS 2005 Brigham Young; DDS 2009 Texas San Antonio

Elms, Caroline, Lecturer, Teaching and Learning, 2010 (2010); BA 1996 Northern Iowa; MA 2008 Northern Iowa

**Erickson, Bradley Allan**, Assistant Professor, Urology, 2010 (2010); BS 1999 Creighton; MD 2003 Iowa

**Erickson, Ty Eric**, Adjunct Assistant Professor, Endodontics, 1999 (1999); BS 1989 Illinois; DDS 1995 Iowa; MS 1998 Iowa

**Erickson, Yasuko**, Clinical Adjunct Assistant Professor, Pathology, 2008 (2008); MD 2003 Utah

**Erives, Albert J.**, Associate Professor, Biology, 2012 (2012); BS 1995 California Inst. Tech; PHD 1999 CA @ Berkeley

**Erkonen, Gwen Elaine**, Clinical Assistant Professor, Pediatrics, 2010 (2010); BA 1988 Northwestern; MD 2004 Southern Illinois

**Erkonen, William E.**, Emeritus Associate Professor, Radiology, 1988 (1995); BA 1955 Iowa; MD 1958 Iowa

**Ernst, Erika Jean**, Associate Professor, Pharmacy, 1995 (2002); PHARMD 1992 Southern California

**Ernst, Michael Edwin**, Clinical Professor, Family Medicine/Pharmacy, 1998 (2009); PHARMD 1997 Iowa

**Ersig, Anne Letocha**, Assistant Professor, Nursing, 2010 (2010); BSN 1996 Pennsylvania; MSN 1999 Pennsylvania; PHD 2008 Iowa

**Ervin, Thomas H.**, Adjunct Associate Professor, Family Dentistry, 1969 (1981); BS 1961 Iowa; DDS 1965 Iowa

**Escalada, Lawrence**, Lecturer, Teaching and Learning, 2010 (2010); BS 1989 Kansas State; MS 1995 Kansas State; PHD 1997 Kansas State

**Espe-Pfeifer, Patricia Beth**, Clinical Associate Professor, Psychiatry/Pediatrics, 2004 (2010); BA 1994 Jamestown College; MA 1997 Austin Peay State; PHD 2002 Nova Southeastern

**Espeland, Susan L.**, Clinical Adjunct Associate Professor, Internal Medicine, 1995 (2001); MD 1988 Iowa

**Espinosa, Mariola**, Assistant Professor, History, 2012 (2012);

**Esposito, Nicole M.**, Associate Professor, Music, 2007 (2013); BFA 2001 Cargie Mellon; MM 2003 Michigan Ann Arbor

**Estin, Ann L.**, Professor, Law-Faculty/International Programs, 1999 (1999); BA 1979 Dartmouth; JD 1983 Pennsylvania

**Ethington, Lanaya L.**, Adjunct Lecturer, University College, 2011 (2011); BA 2001 Michigan; MA 2002 Dublin City; PHD 2009 Indiana

**Etienne-Mesubi, Martine**, Adjunct Assistant Professor, Division of Interdisciplinary Program, 2013 (2013);
Ettinger, Ronald, Professor, Dows Institute-Research, 1973 (1980); BDS 1966 Sydney-Australia; BDS 1970 Sydney-Australia; DDS 1992 Sydney

Evans, Karen Kay Sladek, Clinical Adjunct Instructor, Nursing, 1985 (1985); BSN 1974 Iowa; MA 1978 Iowa

Evans, Landon Conrad, Adjunct Lecturer, Health and Human Physiology, 2013 (2013);

Evans, Marcie Alane, Adjunct Instructor, Health and Human Physiology, 2004 (2004); BA 1998 Simpson College; MA 2004 Iowa

Evans, Thomas C., Adjunct Associate Professor, Health Management Policy, 2007 (2007); MD 1983 Iowa

Even, John, Clinical Adjunct Instructor, Internal Medicine, 2007 (2007); BS 1999 Iowa State; MD 2003 Iowa

Everson, Michael E., Emeritus Associate Professor, International Programs/Teaching and Learning, 1994 (1999); BA 1969 Wisconsin; MA 1971 Hawaii; PHD 1986 Ohio State

Evink, Michele Marie, Adjunct Assistant Professor, Pharmacy, 2010 (2010); BS 1989 South Dakota; MS 1995 South Dakota; PHAR 2006 Kansas

Ewen, Kenneth A., Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Ewing, Roger Joe, Clinical Adjunct Instructor, Internal Medicine, 1992 (1992); MD 1983 Iowa

Eyanson, Steven, Clinical Adjunct Assistant Professor, Internal Medicine, 1986 (1986); MD 1974 Iowa

Eyman, Darrell P., Emeritus Associate Professor, Chemistry, 1964 (1969); BS 1959 Eureka; PHD 1964 Illinois

Eyman, Earl D., Emeritus Professor, Electrical-Computer Engineering, 1966 (1969); MS Illinois; BA 1949 Illinois; PHD 1966 Colorado

Faber, Luke C., Emeritus Associate Professor, Surgery, 1984 (1988); BS 1951 Massachusetts; MD 1955 Iowa

Fafendyk, Karma Lea, Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Fagan, Brian John, Adjunct Lecturer, Law-Faculty, 2012 (2012);

Fagan, Sarah, Professor, German, 1994 (2005); BA 1977 Hawaii; MA 1979 Hawaii; PHD 1985 Cornell

Fagenbaum, Jennifer Rogers, Lecturer, Health and Human Physiology, 2004 (2012); BS 1992 Truman State; MS 1998 Kansas State; PHD 2003 Iowa

Fagenbaum, Ray Alan, Lecturer, Health and Human Physiology, 2005 (2006); BS 1999 Iowa; MS 2000 Iowa; PHD 2005 Iowa

Fagin, Alice Marie, Clinical Assistant Professor, Surgery, 2012 (2012);

Faine, Brett, Adjunct Assistant Professor, Emergency Medicine/Pharmacy, 2007 (2008); PHARMD 2007 Iowa

Fairfield, Clare John, Adjunct Lecturer, Management Organizations/Finance, 1996 (1997);

Fairley, Janet A., Professor, Dermatology, 2006 (2006); BS 1973 Michigan State; MD 1977 Michigan

Fajardo, Laurie Lee, Professor, Radiology, 2002 (2002); AB 1980 Washington; MD 1984 Chicago

Fales, Evan, Associate Professor, Philosophy, 1974 (1979); BA 1964 Haveford; MA 1971 Temple; PHD 1974 Temple

Falkoff, Michelle Susan, Lecturer, Law-Faculty, 2005 (2005); BA 1995 Pennsylvania; JD 1998 Columbia

Falline, Robyn Lynn, Adjunct Lecturer, University College Courses, 2011 (2011); MA 2007 Texas at Austin

Fallon, Bernard, Emeritus Professor, Urology, 1975 (1990); BS 1968 University College Dublin; MBBC 1970 University of Dublin

Fang, Hao, Associate Professor, Mathematics, 2005 (2011); BS 1995 Nankai; MA 1998 California; PHD 2001 Princeton

Fang, Michele, Clinical Associate Professor, Internal Medicine, 2008 (2013); MD 2002 Indiana

Faraci, Frank M., Professor, Pharmacology/Internal Medicine, 1989 (2000); BS 1978 Kansas; MA 1980 Kansas; PHD 1984 Kansas State

Farland, John Evan, Lecturer, Health and Human Physiology, 2010 (2010); MA 1976 Central Michigan State; MPA 1994 Okaliland; EDD 2010 Northern Iowa

Farley, Thomas Michael, Clinical Assistant Professor, Pharmacy Practice and Science, 2011 (2011); BS 2002 Iowa; PHARMD 2007 Iowa

Farley, Yvonne Rene, Clinical Assistant Professor, Social Work, 1998 (2000); BA 1976 Drake; MSW 1994 Iowa

Farmer, Thomas A., Assistant Professor, Psychology, 2012 (2012);

Farooqi, A’Amer, Adjunct Associate Professor, Economics, 1999 (1999); BA 1976 Denison; MA 1977 Ohio State; MA 1986 Pittsburgh; PHD 1987 Pittsburgh

Farran, Susan Calabria, Adjunct Instructor, Rehabilitation and Counselor Education, 2013 (2013);

Farrell, Angela Tracy, Clinical Assistant Professor, Family Medicine, 2013 (2013);

Farrell, Michelle, Adjunct Assistant Professor, Pharmacy, 2003 (2003); PHARMD 2000 Wisconsin

Farrin, Laurel, Associate Professor, Art Art History, 1997 (2004); BFA 1987 Ohio University; MFA 1993 Maryland

Farris, Karen Bell, Adjunct Professor, Pharmacy, 2000 (2008); BS 1986 Tennessee; MPA 1990 Memphis; PHD 1993 Michigan

Farthing, Cynthia M., Lecturer, Mathematics, 2011 (2011); BA 1999 Hiram (Ohio); MS 2002 Iowa; PHD 2005 Iowa

Fasano, Mary Beth, Clinical Professor, Internal Medicine/Pediatrics, 2004 (2009); BA 1978 John Hopkins; MPH 1981 North Carolina; MD 1985 Texas Tech

Fasse, Janaleen Phillips, Adjunct Lecturer, Management Organizations, 2009 (2009); BBA 1993 Iowa; MBA 2000 Iowa

Fassler, Jan S., Professor, Biology, 1987 (2002); BS 1976 Cornell-New York; PHD 1983 Purdue

Fath, Melissa Ann, Adjunct Assistant Professor, Radiation Research Laboratory, 2001 (2001); BS 2000 Iowa; PHD 2001 Iowa
Fattal, Deema A., Clinical Associate Professor, Neurology, 1999 (2008); BS 1989 Amer Univ of Beirut-Lebanon; MD 1993 Amer Univ of Beirut-Lebanon

Faulkenberry, Lauren Elizabeth, Adjunct Assistant Professor, Interdisciplinary Programs, 2012 (2012); BFA 2000 Washington University; MFA 2006 Georgia College State Univ; MFA 2011 University of Alabama

Faust, Christopher Allan, Clinical Assistant Professor, Anesthesia, 2010 (2010); DO 1999 Des Moines COM

Faust, Elizabeth G., Clinical Assistant Professor, Psychiatry, 2011 (2011); MD 1999 Texas AM

Faust, Ethel Felicia, Clinical Adjunct Instructor, Internal Medicine, 1997 (1997); MD 1992 Iowa

Fear, Kathleen Marie Tenhundfeld, Adjunct Instructor, Nursing, 2002 (2002); BSN 1994 Iowa; MSN 2000 Iowa

Fedorchak, Virginia Lynn, Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARMD 2002 Iowa

Feeley, James E., Clinical Adjunct Assistant Professor, Internal Medicine, 1987 (1987); MD 1982 Illinois @ Chicago

Feeley, Jennifer Leigh, Assistant Professor, Asian Slavic Languages Literature, 2008 (2008); BA 1998 Oberlin College; MA 2003 Yale; MPHIL 2004 Yale; PhD 2008 Yale

Feheley, Lisa Maria, Adjunct Instructor, Preventive Community Dentistry, 2005 (2005); DDS 1990 Iowa; BS 1992 Vermont

Fehn, Bruce Rayson, Emeritus Associate Professor, Teaching and Learning, 1994 (2000); BA 1970 Iowa; MA 1971 Iowa; PhD 1991 Wisconsin

Feijo, Michelle, Adjunct Lecturer, University College Courses, 2012 (2012); PHD 2009 University of Iowa

Feiss, Michael, Emeritus Professor, Microbiology, 1972 (1982); BS 1963 Utah; MS 1965 Illinois; PhD 1969 Washington

Feld, Ronald D., Emeritus Associate Professor, Pathology, 1976 (1980); BS 1968 Massachusetts; PhD 1974 Wisconsin

Felder, Robert B., Professor, Internal Medicine, 1980 (1995); BA 1968 North Carolina; MD 1972 North Carolina

Feldick, Mark D., Lecturer, Pharmacy, 1980 (2001); BS 1974 Iowa; BSPh 1978 Iowa

Feldmann, Gregory Michael, Lecturer, Teaching and Learning, 2013 (2013);

Feldmann, Joshua David, Adjunct Instructor, Pharmacy, 2000 (2000); BS 1997 Iowa

Feldstein, Peter, Emeritus Professor, Art Art History, 1973 (1989); BA 1965 Iowa; MA 1968 Iowa; MFA 1975 Iowa

Felker, Kevin, Lecturer, Management Sciences, 2001 (2001); MS 1998 Arizona State

Femino, John, Clinical Associate Professor, Orthopaedics and Rehabilitation, 2005 (2009); BA 1988 SUNY at Stony Brook; MD 1992 North Dakota

Fennell, Ann M., Clinical Associate Professor, Communication Sciences and Disorders, 2000 (2004); BA 1982 Michigan State; MA 1985 Michigan

Ferguson, Kristi J., Professor, Community Behavioral Health/Internal Medicine, 1984 (2009); BA 1971 Concordia; MSW 1973 Michigan; PhD 1982 Minnesota

Ferguson, Polly, Associate Professor, Pediatrics, 2002 (2011); BS 1986 Iowa; MD 1990 Iowa

Ferrer, Hugh Gorman, Adjunct Lecturer, University College, 2006 (2006); AB 1990 Princeton; MFA 2001 Iowa

Ferry, Diane L., Adjunct Associate Professor, Management Organizations, 2013 (2013);

Fethke, Carol C., Emeritus Professor, Marketing, 1975 (1990); BA 1964 Wellesley; MA 1966 Iowa; PhD 1971 Iowa

Fethke, Gary Craig, Emeritus Professor, Management Sciences, 1974 (1985); BA 1964 Iowa; PhD 1968 Iowa

Fethke, Nathan B., Assistant Professor, Occupational Environmental Health/Biomedical Engineering, 2009 (2009); BSE 1996 Iowa; MSE 2000 Iowa; PhD 2006 Iowa

Fick, Daniel Scott, Clinical Professor, Family Medicine, 1993 (2003); BA 1960 Northern Iowa; MD 1989 Iowa

Fiedorowicz, Jess G., Associate Professor, Epidemiology/Internal Medicine/Psychiatry, 2007 (2013); BA 1997 Marquette; MD 2001 Wisconsin; MS 2007 Iowa

Fiegel, Jennifer, Assistant Professor, Chemical Biochemical Engineering/Pharmacy, 2006 (2006); BCHE 1998 Massachusetts; BS 1998 Massachusetts Amherst; PhD 2003 Johns Hopkins Baltimore; PHE 2003 Johns Hopkins

Field, Elizabeth H., Professor, Internal Medicine, 1986 (1999); BA 1974 Millersville; MD 1978 Pennsylvania State

Field, F. Jeffrey, Professor, Internal Medicine, 1980 (1991); BS 1970 Wisconsin; MD 1974 Wisconsin

Field, Howard, Emeritus Associate Professor, Preventive Community Dentistry, 1973 (1973); DDS 1964 Marquette University

Field, R. William, Professor, Occupational Environmental Health/Epidemiology, 1998 (2007); BA 1977 Pennsylvania; MS 1985 Pennsylvania; PhD 1994 Iowa

Fielder, Ronald S., Clinical Professor, Educ Policy Leadership Studies, 2011 (2011); BS 1972 Fort Hays State; MS 1976 Fort Hays State; PhD 1989 Kansas State

Fielding, Linda G., Associate Professor, Teaching and Learning, 1989 (1994); BA 1972 Florida; MED 1975 Florida; PhD 1988 Illinois Urbana

Fieselmann, John F., Clinical Professor, Internal Medicine, 1975 (2002); BS 1968 Iowa; MD 1972 Iowa

Fidgord, Carrie, Associate Professor, Philosophy, 2007 (2013); BA 1981 Swarthmore; MA 1997 City Univ of New York; PhD 2005 City Univ of New York

Filean, Erik Paul, Lecturer, English as Second Language, 2006 (2012); BA 1990 Iowa; MA 1997 Iowa; PhD 2006 Iowa

Fili, James M., Adjunct Assistant Professor, Periodontics, 2003 (2003); DDS 1990 New York; MSCD 1997 Iowa
Filios, Denise K., Associate Professor, Spanish Portuguese/International Programs, 1999 (2005); BA 1985 Massachusetts-Amherst; PHD 1997 California-Berkeley; MA 1998 Massachusetts-Amherst

Filstrup, Christopher Thomas, Adjunct Assistant Professor, University College, 2012 (2012);

Finamore, John F., Professor, Classics, 1983 (2003); BA 1972 Maryland; MA 1975 Tufts; PHD 1983 Rutgers

Finnerty, Diane Lee, Adjunct Instructor, Social Work, 2002 (2002); BA 1971 Briar Cliff; MSW 1976 Illinois@Chicago

Finger, Kristi Lea, Adjunct Lecturer, University College Courses, 2004 (2004); BA 1987 Iowa; MA 1992 Iowa

Fingert, John Harrison, Associate Professor, Ophthalmology Visual Science/Anatomy Cell Biology, 2005 (2010); BSE 1991 Dartmouth; MD 2000 Iowa; PHD 2000 Iowa

Finkelstein, Michael William, Professor, Anatomy Cell Biology/oral Path,RadiologyMedicine, 1982 (1994); BS 1972 Illinois; DDS 1976 Iowa; MS 1982 Iowa

Finnean, Eileen Marguerite, Associate Professor, Communication Sciences and Disorders, 1999 (2005); MA 1992 Iowa; PHD 1998 Iowa

Finnerty, Diane Lee, Adjunct Instructor, Social Work, 2000 (2005); BA 1983 Northern Iowa; MS 1988 Minnesota State

Finzel, Emily, Assistant Professor, Geoscience, 2012 (2012);

Firchau, Dennis, Clinical Assistant Professor, Pathology, 2010 (2010); BS 2000 Michigan State; MD 2004 Wayne State

Fischer, Eugene Joseph, Adjunct Assistant Professor, Creative Writing, 2013 (2013); BS 2007 Trinity University

Fischer, Gary W., Emeritus Associate Professor, Industrial Engineering, 1985 (1985); BSME 1964 Iowa; BA 1964 Iowa; MS 1966 Iowa; PHD 1969 Iowa

Fischer, Lance John, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARMD 1997 Iowa

Fischer, Susan Marie, Lecturer, Teaching and Learning, 2013 (2013);

Fisher, Dale William, Lecturer, Teaching and Learning, 2008 (2008); BS 1986 Missouri; MFA 1998 Missouri

Fisher, Ken L., Adjunct Associate Professor, Health Management Policy, 2008 (2008); MBA 1986 North Carolina-Charlottesville

Fisher, Peter S., Emeritus Professor, Urban Regional Planning, 1977 (1997); BA 1968 Harvard; MA 1972 Missouri; PHD 1978 Wisconsin

Fisher, Rory A., Professor, Pharmacology/Internal Medicine, 1987 (2004); BS 1976 Rockford; PHD 1983 Iowa State

Fisher, Scott Randall, Adjunct Lecturer, Finance, 1999 (1999); JD 1987 Iowa

Fisher, William Scott, Adjunct Associate Professor, Pharmacy, 1988 (2003); BSPH 1979 Iowa; MS 1985 Iowa

Fitzgerald, Jacquie, Adjunct Assistant Professor, Pharmacy, 2000 (2000); PHARMD 2000 Iowa

Fitzgerald, Melissa A., Adjunct Instructor, University College Courses, 2013 (2013);

Fitzgerald, Vera J., Lecturer, Biology, 1987 (1997); PHD 1980 Chicago

Fitzgibbons, Ann Marie, Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); BSE 1985 Iowa

Fitzpatrick, Laura Lee, Adjunct Instructor, Pharmacy, 2000 (2000); BS 1990 Iowa

Fitzpatrick, Lynn Rae, Adjunct Assistant Professor, Nursing, 2004 (2004); BSN 1989 Iowa; MSN 1998 Iowa

Fixmer-Oraiz, Natalie, Assistant Professor, Communication Studies, 2012 (2012);

Flaherty, Dawn Marie, Clinical Assistant Professor, Internal Medicine, 1999 (2002); BA 1985 New College, South Florida; MS 1987 Michigan; MD 1992 Wayne State

Flemming, Matthew, Clinical Adjunct Assistant Professor, Occupational Environmental Health, 2001 (2001); BA 1991 Doane; MA 1996 Memphis; PHD 2000 Memphis

Flanagan, James R., Emeritus Associate Professor, Internal Medicine, 1990 (1996); BS 1974 Marquette; PHD 1979 Washington; MD 1983 Washington

Flanagan, Michael J., Emeritus Professor, Internal Medicine, 1980 (2003); BS 1971 Wisconsin-Milwaukee; MD 1975 Wisconsin-Madison

Flatau, Lindy Kay, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2003 North Dakota State

Flateau, Michael E., Professor, Electrical-Computer Engineering/Physics Astronomy, 1995 (2005); AB 1988 Harvard; PHD 1992 Calif-Santa Barbara

Flau, Michael Alan, Clinical Professor, Psychiatry, 1990 (2009); BS 1978 Columbia; MD 1982 State U of NY-Stony Brook

Fleck, Arthur C., Emeritus Professor, Computer Science, 1965 (1972); BS 1959 Western Michigan; MA 1960 Michigan State; PHD 1964 Michigan State

Fleckenstein, Lawrence L., Professor, Pharmacy, 1991 (1991); BA 1968 California-Berkeley; PHARMD 1972 California-San Francisco

Fleckenstein, Stephanie M., Clinical Assistant Professor, Communication Sciences and Disorders, 2003 (2003); BS 1994 Iowa; MA 1996 Iowa

Fleming, Matthew, Clinical Adjunct Assistant Professor, Internal Medicine, 2007 (2007); BA 1987 McGill, Canada; MD 1991 Albany Medical College

Fletcher, Amy, Lecturer, Health and Human Physiology, 2004 (2010); BS 1993 Nebraska @Lincoln; MS 1996 Tennessee
Fletcher, Steven Lloyd, Clinical Assistant Professor, Oral Maxillofacial Surgery, 2010 (2010); BS 1998 Brigham Young; DDS 2006 Iowa

Flood, Michael T., Clinical Adjunct Professor, Internal Medicine, 1992 (2013); BA 1972 Holy Cross; DO 1977 Osteopathic-Des Moines

Flores, Ricardo, Clinical Adjunct Assistant Professor, Pediatrics, 2001 (2001); MD 1984 California-Los Angeles

Flynn, Mary Leslie, Clinical Assistant Professor, Teaching and Learning, 2011 (2013); MS 1989 Iowa

Flynn, Ryan Thomas, Clinical Assistant Professor, Radiation Oncology, 2007 (2007); BA 2002 Luther; MS 2004 Madison-Wis.; PhD 2007 Madison-Wis

Fobian-Willham, Cynthia, Adjunct Assistant Professor, Management Organizations, 1994 (1994); BBA 1983 Iowa; PHD 1990 Iowa

Foege, Romaine H., Adjunct Instructor, Social Work, 2003 (2008); BA 1960 Wartburg; MSW 1963 Iowa

Foley Nicpon, Megan, Associate Professor, Psych Quant Foundations, 2005 (2013); BA 1995 Arizona State; MED 2000 Arizona State; PHD 2003 Arizona State

Folk, G. Edgar Jr., Emeritus Professor, Physiology, 1953 (1965); AB 1937 Harvard; MA 1940 Harvard; PHD 1947 Harvard

Folsom, Lowell E., Professor, English/Interdisciplinary Programs, 1976 (1987); BA 1969 Ohio Wesleyan; MA 1972 Rochester; PHD 1976 Rochester

Foote, Jan M., Clinical Assistant Professor, Nursing, 2011 (2011); BSN 1989 Drake University; MSN 1994 Clarkson; DNP 2009 Iowa

Forbes, Andrew A., Assistant Professor, Biology, 2010 (2010); BA 2003 Colgate; PHD 2008 Notre Dame

Forbes, Cory, Assistant Professor, Teaching and Learning, 2009 (2009); BS 1999 Kansas; MS 2002 Kansas; MS 2009 Michigan; PHD 2009 Michigan

Forbes, Robert B., Professor, Anesthesia, 1983 (1994); BA 1971 Alberta-Canada; MD 1975 Alberta-Canada

Forbes, Tori M., Assistant Professor, Chemistry, 2010 (2010); BS 2001 Beloit; PhD 2007 Notre Dame

Ford, Bradley, Clinical Assistant Professor, Pathology, 2012 (2012);

Ford, Donald Lehman, Adjunct Lecturer, Law-Faculty, 2007 (2007); BA 1980 American; JD 1985 Virginia; AMLS 2002 Pittsburgh

Ford, Krista Marie, Lecturer, Nursing, 2013 (2013); BSN 2006 Bradley University; MSN 2011 University of Iowa

Ford, Patrick Jay, Adjunct Lecturer, Law-Faculty, 2011 (2011); BA 1998 Iowa; JD 2003 Iowa

Forest, Paula K., Clinical Adjunct Assistant Professor, Nursing, 2000 (2001); BSN 1975 Marycrest; MS 1997 Iowa

Fors, Cecelia, Adjunct Instructor, Preventive Community Dentistry, 1997 (1997); DDS 1995 Northwestern

Forsberg, Eric J., Adjunct Instructor, Preventive Community Dentistry, 2004 (2004); DDS 2004 Iowa

Forsyth, Robert A., Emeritus Professor, Psych Quant Foundations, 1965 (1974); BS 1959 St. Vincent; MA 1963 Kent State; PHD 1967 Iowa

Fosdick, Jamie Elizabeth, Lecturer, English as Second Language, 2011 (2011); MA 2011 Iowa

Fosnaugh, Thomas P., Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Foster, Danny Terral, Lecturer, Health and Human Physiology/Orthopaedics and Rehabilitation, 1976 (1999); BS 1974 Iowa; MA 1977 Iowa; PHD 1996 Iowa

Foster, Eric D., Clinical Assistant Professor, Biostatistics, 2012 (2012);

Foster, James Franklin, Adjunct Lecturer, Management Organizations, 2011 (2011); BGS 1972 Iowa

Foster, Patricia Ann, Professor, English, 1994 (2006); BA 1970 Vanderbilt; MFA 1980 UCLA; MFA 1986 Iowa; PHD 1993 Florida State

Foster Iii, Taylor William, Adjunct Professor, Accounting/Finance, 2013 (2013);

Foster Jr., Charles T., Professor, Geoscience, 1978 (2001); BA 1971 California-Santa Barbara; MA 1974 Johns Hopkins; PHD 1975 Johns Hopkins

Found, Ernest M., Associate Professor, Orthopaedics and Rehabilitation, 1987 (1992); BA 1974 Hamilton; MD 1980 State Univ-NY-Upstate Med Cntr

Fournier, Andrew Jacob, Adjunct Assistant Professor, Creative Writing, 2013 (2013);

Fouts, Angela A., Adjunct Assistant Professor, Pharmacy, 2005 (2005); PHARMD 2003 South Dakota State

Fox, Claire, Associate Professor, Spanish Portuguese/International Programs/English, 2001 (2001); BA 1986 Yale; MA 1988 Iowa; PHD 1995 Iowa

Fox, Margaret G., Emeritus Professor, Health, Sport Studies, 1949 (1958);

Fox, Matthew G., Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); BS 1988 Appalachian State; MD 1994 South Dakota

Fraer, Mony, Clinical Associate Professor, Internal Medicine, 2009 (2013); MD 1992 Grigore T Popa, Romania
Frahm, Josh B., Adjunct Instructor, University College, 2013 (2013);

Fraizer, Michael Christopher, Clinical Adjunct Assistant Professor, Internal Medicine, 2007 (2007); BS 1993 Notre Dame; MD 1997 Iowa

Franciscus, Robert, Professor, Orthodontics/Anthropology, 1998 (2012); BA 1985 Texas A M; MA 1987 New Mexico; PhD 1995 New Mexico

Frank, Alan Raymond, Emeritus Professor, Teaching and Learning, 1970 (1985); BA 1963 UCLA; MA 1965 California State-LA; PhD 1970 Iowa

Frank, Carl Andrew, Assistant Professor, Anatomy Cell Biology, 2010 (2010); BS 1997 Mass Institute of Tech; PHD 2003 UC Berkley

Frank, Coreen Agnes Ameter, Adjunct Lecturer, Educ Policy Leadership Studies, 2009 (2009); DIP 1993 Hopkins High School; BA 1997 Luther; MS 1998 Wisconsin; MSED 1998 Univ of Wisconsin - La Crosse

Frank, Louis A., Emeritus Professor, Physics Astronomy, 1963 (1971); BA 1960 Iowa; MS 1961 Iowa; PhD 1964 Iowa

Frank, Roslyn M., Emeritus Professor, Spanish Portuguese, 1968 (1980); BA 1961 Iowa; MA 1963 Iowa; PhD 1972 Iowa

Frank, Sarah Rosen, Adjunct Assistant Professor, Economics, 2010 (2010); BA 1999 Wellesley; PHD 2009 UC Berkley

Frankel, Joseph, Emeritus Professor, Biology, 1962 (1971); BA 1956 Cornell; PhD 1960 Yale

Franken Jr., Edmund A., Emeritus Professor, Radiology, 1979 (1979); MD 1961 Oklahoma

Frantz, Rita Ann Farren, Professor, Nursing, 1972 (1996); BSN 1970 Marycrest; MA 1973 Iowa; PHD 1978 Iowa

Franzen, Keevin J., Clinical Adjunct Associate Professor, Pediatrics, 1980 (2010); MD 1976 Iowa

Frazman, Carrie Ann, Adjunct Instructor, Preventive Community Dentistry, 2004 (2004); AS 1995 NE Wisconsin Tech

Frazman, Michael R., Adjunct Assistant Professor, Periodontics, 2008 (2008); BA 2000 Wartburg; DDS 2004 Iowa; MS 2007 Iowa

Frael, Michelle A., Clinical Assistant Professor, Pharmacy, 2006 (2006); PHARMD 2006 Iowa

Frazier, Fonda A., Adjunct Lecturer, Rehabilitation and Counselor Education, 1995 (1995); BA 1981 Iowa; MA 1983 Iowa

Freed, Jann, Adjunct Instructor, Journalism Mass Communication, 2011 (2011); BA 1977 Central; MBA 1981 Drake; PhD 1987 Iowa State

Friel, Mildred Ines, Emeritus Associate Professor, Nursing, 1962 (1977); BSN 1961 Minnesota; MED 1962 Minnesota

Freeman, Brian, Clinical Adjunct Assistant Professor, Internal Medicine, 2012 (2012);

Freeman, Janet H., Adjunct Associate Professor, English, 1975 (2001); MA 1951 Smith

Freeman, John H., Professor, Psychology, 1998 (2007); BA 1989 Calif-Berkeley; PhD 1994 North Carolina-Chapel Hill

Freiha, Suzanne, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2009 Iowa

French, Lily Kristine, Clinical Assistant Professor, Social Work, 2012 (2012); BA 1997 University of Iowa; MSW 2000 University of Michigan; UNKNOWN 2006 Windemere Inst Healing Arts

Freund, Neil, Clinical Adjunct Assistant Professor, Internal Medicine, 2012 (2012);

Frey, Kirsten Hagedorn, Adjunct Assistant Professor, Management Organizations, 1997 (1997); BBA 1991 Iowa; MBA 1995 Iowa; JD 1995 Iowa

Frey Law, Laura A., Associate Professor, Physical Therapy, 2003 (2011); MPT 1993 Iowa; MS 1994 Michigan; PHD 2004 Iowa

Fridrich, Kirk Lee, Professor, Oral Maxillofacial Surgery, 1988 (1997); BS 1979 Nebraska; DDS 1983 Nebraska; MS 1987 Iowa

Friedman, Robert L., Clinical Adjunct Associate Professor, Family Medicine, 1980 (1991); MD 1974 Pennsylvania

Friedrich, H. Bruce, Emeritus Professor, Chemistry, 1966 (1976); BA 1958 Wartburg; MS 1961 Iowa; PhD 1963 Iowa

Friedrich, Rose Marie Walk, Emeritus Associate Professor, Nursing, 1973 (1980); BSN 1961 Iowa; MA 1973 Iowa

Fries, Jeffrey Lee, Adjunct Instructor, Pharmacy Practice and Science, 2006 (2006); BSPH 1986 Iowa

Friestad, Gregory Kirk, Associate Professor, Chemistry, 2005 (2005); BS 1990 Bradley, Illinois; PhD 1995 Oregon

Frison, David E., Assistant Professor, Economics, 2013 (2013);

Fritts, Lawrence Neil, Associate Professor, Music, 1994 (2002); BS 1983 Portland State; PhD 1995 Chicago

Fritz, David Ralph, Adjunct Assistant Professor, Prosthodontics, 1980 (1986); DDS 1980 Iowa

Fritz, Jennifer Lyn, Adjunct Assistant Professor, Prosthodontics, 2012 (2012); BS 2002 Iowa State University; DDS 2006 University of Iowa

Fritzsch, Bernd, Professor, Biology, 2008 (2008); PHD 1978 Tech Univ Darmstadt

Frohman, Charles D., Professor, Mathematics, 1990 (1998); MA 1978 Kalamazoo; MA 1981 Indiana; PhD 1984 Indiana

From, Robert P., Associate Professor, Anesthesiology, 1983 (1990); BA 1971 Drake; DO 1974 Drake
Frost, Gary, Adjunct Assistant Professor, Interdisciplinary Programs, 2000 (2000); MFA 1969 Art Institute - Chicago; BFA 1969 Art Institute - Chicago
Frost, Iris Bonny, Lecturer, Rhetoric, 1993 (2011); BA 1973 Miami; MS 1976 NORTHWESTERN
Fry, N. Joel, Adjunct Instructor, Social Work, 2003 (2003); BA 1997 Simpson; MSW 1999 Iowa
Fudge, Jonathan L., Clinical Adjunct Instructor, Internal Medicine, 2001 (2001); MD 1992 Iowa
Fuentes, Ernesto J., Assistant Professor, Biochemistry, 2006 (2006); PHD 1999 Illinois-Champai
Fuhrman, Robert Michael, Adjunct Assistant Professor, Orthodontics, 2009 (2009); BA 1995 Loras; DDS 2004 Iowa
Full, Clemens A., Emeritus Professor, Pediatric Dentistry, 1963 (1975); BS 1958 Loras; DDS 1963 Iowa; MS 1965 Iowa
Fuller, James L., Emeritus Professor, Operative Dentistry, 1967 (1980); BA 1958 Grinnell; DDS 1962 Iowa; MS 1972 Iowa
Fuller, John W., Professor, Urban Regional Planning/Economics/Public Policy Center, 1979 (1979); AB 1962 San Diego State; PHD 1968 Washington State
Fuller, Kent R., Emeritus Professor, Mathematics, 1967 (1975); BS 1960 Mankato State; MS 1962 Mankato State; MA 1965 Oregon; PHD 1967 Oregon
Fuller, Laura Lu, Clinical Assistant Professor, Psychiatry, 2012 (2012);
Fuller, Michael G., Adjunct Assistant Professor, Pharmacy, 2003 (2003); PHARMD 1997 Iowa
Fumerton, Richard, Professor, Philosophy, 1974 (1985); BA 1971 Toronto-Canada; MA 1973 Brown; PHD 1974 Brown
Funderburg, Richard, Assistant Professor, Urban Regional Planning, 2005 (2005); MPA 1998 California St @ Sacramento; PHD 2006 California, Irvine
Fung, Edward L., Adjunct Assistant Professor, Operative Dentistry, 2002 (2013); BS 1988 Creighton; JD 1993 Iowa; DDS 1998 Iowa
Funk, Gerry F., Professor, Radiation Oncology/Otolaryngology-Head Neck Surgery, 1992 (2004); BS 1982 Oregon; MD 1986 Chicago-Pritzker School of Med
Fuortes, Laurence Julius, Professor, Occupational Environmental Health/International Programs/Epidemiology, 1987 (2002); BS 1976 Northern Illinois; MD 1980 Illinois; MS 1987 Iowa
Furland, Rebecca Christine, Lecturer, World Languages, Literatures, and Cultures, 2013 (2013);
Furner, Beatrice A., Emeritus Professor, Teaching and Learning, 1964 (1975); BS 1960 SUNY; MA 1963 Iowa; PHD 1967 Iowa
Fustino, Nicholas John, Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);
Gabel, Joan Therese Alexander, Adjunct Professor, Management Organizations, 2009 (2009); JD 1993 Georgia
Gaal, Daniel P., Adjunct Instructor, University College, 2011 (2013); HS 1987 Orange HS, Pepper Pike, OH; BA 1991 Marquette; AMLS 1995 Wisconsin - Milwaukee
Gallanis, Thomas P., Professor, Law-Faculty/History, 2008 (2008); JD 1990 Chicago; LLM 1993 Cambridge; PHD 1997 Cambridge
Gallup, William George, Adjunct Assistant Professor, History, 1999 (1999); BA 1975 Queens College; MA 1977 Iowa; PHD 1983 Iowa
Galusha, Yvonne, Lecturer, Management Sciences, 2003 (2003); BS 1981 Graceland; MBA 1991 Wichita State
Galvao, Antonio Fialho, Associate Professor, Economics, 2010 (2013); MA 2003 Getulio Vargas Foundation; MS 2007 Illinois; PhD 2009 Illinois
Galvin, James A., Professor, Creative Writing/English, 1983 (1992); BA 1974 Antioch; MFA 1977 Iowa
Gamble, Kevin Charles, Adjunct Assistant Professor, Pharmacy Practice and Science, 1997 (2011); MS 1995 TROY STATE; PHARMD 2004 Iowa
Gambrall, Melissa A., Clinical Adjunct Instructor, Nursing, 2001 (2008); BSN 1991 IOWA; MSN 2006 Iowa
Ganim, Russell, Professor, World Languages, Literatures, and Cultures, 2011 (2011); BA 1983 Grinnell; MA 1987 Virginia; PHD 1992 Virginia
Ganske, Corrine M., Clinical Adjunct Assistant Professor, Family Medicine, 1985 (1985); MD 1977 Iowa
Gantz, Bruce Jay, Professor, Otolaryngology-Head Neck Surgery/Neurosurgery, 1980 (1987); BS 1968 Iowa; MD 1974 Iowa; MS 1980 Iowa
Garcia, Lily Teresa, Professor, Prosthodontics, 2013 (2013);
Garcia, Luis J., Clinical Assistant Professor, Surgery, 2013 (2013);
Gardner, Sue Ellen, Associate Professor, Nursing, 2000 (2008); BSN 1981 Iowa; MA 1990 Iowa; PHD 1999 Iowa

Gardner, Thomas V., Emeritus Professor, Family Dentistry/Oral Maxillofacial Surgery, 1974 (1982);

Garfinkel, Jon A., Professor, Finance, 1999 (2012); BA 1988 Virginia Tech; PHD 1994 Florida

Garner, Sarah Ann, Clinical Adjunct Assistant Professor, Internal Medicine, 2011 (2011); BS 2002 Iowa; MD 2007 Iowa

Garrett, Robert E., Emeritus Associate Professor, Family Medicine, 1997 (1997); BA 1971 Trinity; MA 1974 Johns Hopkins; MD 1981 Calif-San Diego; MS 1986 Case Western Reserve

Garrett, Scott Michael, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2003 Iowa

Garvey, Michael J., Emeritus Professor, Psychiatry, 1985 (1992); BA 1968 Stanford; MD 1971 Stanford

Garvin, Cory G., Adjunct Assistant Professor, Pharmacy Practice and Science, 2006 (2006); PHARMD 1996 Iowa

Garvin, Gregory L., Clinical Adjunct Associate Professor, Pediatrics, 1989 (2010); DO 1975 Kirksville

Garvin, Justin Wayne, Lecturer, Mechanical Engineering, 2010 (2011); BSE 2001 Iowa; MS 2003 Iowa; PHD 2006 Iowa

Garvin, Mona Kathryn, Assistant Professor, Electrical-Computer Engineering, 2008 (2008); BSE 2003 Iowa; MS 2004 Iowa; PHD 2008 Iowa

Gasparoni, Alberto, Clinical Associate Professor, Oral Pathology/Medicine/Dental Clinic Administration, 2006 (2013); DDS 1985 Siena (Italy); DPHIL 2003 Iowa; DDS 2010 Iowa

Gassman, Robert, Adjunct Lecturer, Urban Regional Planning, 2013 (2013);

Gasway, Julie Hansen, Clinical Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012); BA 1982 University of Iowa; MA 1984 University of Iowa

Gates, Rustin B., Adjunct Assistant Professor, International Programs, 2009 (2009); AB 1996 Occidental College, CA; BA 1996 Occidental College; MA 2000 Harvard university; AM 2000 East Asia; PHD 2007 Harvard

Gatica, Juan A., Emeritus Professor, Mathematics, 1975 (1990); PHD 1972 Iowa

Gavruseva, Elena, Associate Professor, Linguistics, 1998 (2005); BS 1991 Moscow Linguistic; MA 1993 Georgetown; PHD 1998 Georgetown

Gay, Paula Bradbury, Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012);

Gayley, Kenneth, Associate Professor, Physics, Astronomy, 1997 (2003); AB 1983 Princeton; PHD 1990 San Diego

Gaylord, Joseph Robert, Adjunct Instructor, Political Science, 2011 (2011); BA 1967 Iowa

Gazsi, Denes, Assistant Professor, French Italian, 2009 (2011); MA 2004 Eotvos Lorand Univ; PHD 2010 Eotvos Lorand Univ

Gbasha, Rebecca Roberts, Emeritus Associate Professor, Geography, 1987 (1992); BA 1969 Calif State-Northridge; MS 1976 Oregon State; PHD 1982 Oregon State

Gebhart, Gerald Francis, Emeritus Professor, Pharmacology, 1973 (1981); BS 1967 Illinois; MS 1969 Iowa; PHD 1971 Iowa

Gebksa, Milena Anna, Clinical Assistant Professor, Internal Medicine, 2011 (2012); MD 1995 Silesia, Poland; PHD 2002 London, UK

Gehl, Brian Kenneth, Adjunct Assistant Professor, Psychology, 2009 (2010); BA 1999 Jamestown; PHD 2010 Iowa

Gehlbach, Brian, Clinical Associate Professor, Internal Medicine, 2011 (2011); MD 2005 Washington

Gehring, David Charles, Adjunct Assistant Professor, Orthodontics, 2009 (2009); BA 1989 Cee; DDS 1993 Iowa; MS 1995 Iowa

Gehrs, Karen M., Clinical Associate Professor, Ophthalmology Visual Science, 1996 (2002); BS 1983 Rhodes; MD 1987 Missouri

Geisinger, Brenda Sue, Adjunct Instructor, Social Work, 2006 (2006); MSW 2005 Iowa

Geist, Lois J., Professor, Internal Medicine, 1990 (2009); BS 1978 Trinity; MS 1980 Case Western Reserve; MD 1984 Case Western Reserve

Gelfand, Miriam J., Emeritus Assistant Professor, Russian, 1962 (1986); BA 1946 St Johns-China

Gellhaus, Thomas M., Clinical Associate Professor, Obstetrics Gynecology, 1991 (2010); BA 1979 Augustana College, Sioux Falls; MD 1983 Oklahoma

Genadry, Rene, Clinical Professor, Urology/Obstetrics Gynecology, 2012 (2012);

Geneser, Matthew K., Clinical Assistant Professor, Pediatric Dentistry/Preventive Community Dentistry, 2009 (2009); BA 2002 Iowa; DDS 2006 Iowa

Geng, Maxwell Lei, Professor, Chemistry, 1995 (2008); BS 1986 Science and Technology-China; PHD 1994 Duke

Gent, Courtney Sue, Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012);

Gentil-Archer, Anne Christine, Lecturer, Nursing, 2010 (2010); BSN 2002 Iowa

Gentry, James K., Adjunct Professor, Journalism Mass Communication, 2013 (2013);
Gentzsch, William Edward, Instructor, Military Science, 2013 (2013);

Georgakakos, K. P., Adjunct Professor, Civil-Environmental Engineering, 1986 (1997); BS 1977 National Technical-Athens; MS 1980 MIT; SCD 1982 MIT

George, Joseph P., Lecturer, Management Organizations, 2007 (2007); BA 1970 Mississippi

George, Michelle M., Adjunct Instructor, Pharmacy, 2003 (2003); BA 1997 Wartburg; PHARMD 2000 Creighton

George-Paulsen, Leslie Elise, Clinical Assistant Professor, Family Medicine, 2013 (2013);

Geraets, Douglas R., Adjunct Professor, Pharmacy, 1988 (2004); PHARMD 1980 Tennessee

Gerhard, Peter, Adjunct Lecturer, University College Courses, 2002 (2002); MA 1985 Phillips; PHD 2000 Iowa

Gerhold, Linda Susan, Lecturer, Biology, 1988 (2003); PHD 1987 Iowa

Gerke, Alicia, Assistant Professor, Internal Medicine, 2008 (2012); BS 1998 South Florida, Tampa; MBA 2002 South Florida, Tampa; MD 2002 South Florida, Tampa

Gerke, Henning, Clinical Associate Professor, Internal Medicine, 2004 (2009); MD 1996 Hamburg, Germany

Gering, Michael Todd, Adjunct Instructor, Pharmacy, 2008 (2008); BPH 1986 Iowa

Gerleman, Brent F., Clinical Adjunct Assistant Professor, Internal Medicine, 1990 (1990); MD 1978 Kansas

Gerr, Fredric E., Professor, Occupational Environmental Health/Internal Medicine/Epidemiology, 2002 (2002); MD 1978 New York-Stony Brook; BA 1978 Clark

Gerstmyer, Robert H. M., Lecturer, Law-Faculty, 2012 (2012);

Gervais, Martin, Associate Professor, Economics, 2011 (2011); MBA 1993 University Laval; MA 1995 Western Ontario; PHD 1999 Western Ontario

Gordon, Kimberly Jo. Clinical Adjunct Instructor, Nursing, 1988 (1988); BSN 1986 Iowa; MA 1990 Iowa; MSN 2007 Iowa

Gordon, Paul H.. Clinical Adjunct Assistant Professor, Family Medicine, 1990 (2002); BA 1971 Iowa; MD 1975 Iowa

Gorman, Janet L.. Adjunct Instructor, University College, 2013 (2013); AA 1974 Art Institute of Pittsburgh; BS 1979 LaRoche College; MOL 2007 St. Ambrose University

Gormezano, Isidore. Emeritus Professor, Psychology, 1966 (1966); AB 1952 New York; AM 1957 Wisconsin; PHD 1958 Wisconsin

Gorney, Carol S.. Clinical Assistant Professor, Physician Assistant, 2008 (2008); BA 1990 Iowa; BS 1990 University of Iowa; MPAS 2005 Nebraska

Goswami, Prabhat. Professor, Radiation Oncology, 2000 (2011); BS 1974 St Anthony’s; MS 1976 Guahati; PHD 1983 Guahati

Gotho, Bret Allyn. Adjunct Lecturer, University College, 2007 (2013); BFA 1994 Mpls/f Art and Design; MA 1996 Iowa; MFA 1997 Iowa

Grachov, Mikhail Vladimirovich. Adjunct Professor, Management Organizations, 2005 (2005); BS 1976 Moscow State; MAE 1982 Moscow State; PHD 1998 Russian Academy of Science

Grady, David L.. Adjunct Assistant Professor, Educ Policy Leadership Studies, 1993 (1993); AA 1980 Southwest Mississippi CC; BBA 1981 Mississippi State; MED 1984 Harvard University; PHD 1992 Texas

Grady, Mila. Lecturer, Nursing, 2001 (2001); BSN 1978 Iowa; MSN 1981 Texas-Austin

Graff, Jodi Mary. Adjunct Lecturer, University College Courses, 2011 (2011); BA 1991 Iowa; MA 1997 Iowa

Graham, Laura R.. Associate Professor, International Programs/Anthropology, 1990 (1996); BA 1979 Stanford; MA 1983 Texas-Austin; PHD 1990 Texas-Austin

Granchi, Thomas. Clinical Professor, Surgery, 2013 (2013);

Granner, Daryl K.. Emeritus Professor, Physiology, 2005 (2006); BA 1958 Iowa; MD 1962 Iowa; MS 1962 Iowa

Granner, Mark A.. Clinical Professor, Neurology/Neurosurgery, 1993 (2005); BA 1983 Grinnell; MD 1987 Iowa
Grosland, Nicole Marie, Professor, Biomedical Engineering/Orthopaedics and Rehabilitation, 1998 (2012); BSE 1994 Iowa; PhD 1998 Iowa

Gross, Gregory Joseph, Adjunct Instructor, Social Work, 2012 (2012); BA 2003 Drake University

Gross, Thomas J., Associate Professor, Internal Medicine, 1991 (1997); BS 1980 Michigan; MD 1983 Michigan

Gruber, Gwendolyn Mae, Adjunct Assistant Professor, Classics, 2009 (2009); BA 1998 Creighton; MA 2001 Iowa; PhD 2009 Iowa

Gruca, Thomas S., Professor, Marketing, 1991 (2006); BS 1983 Illinois; PhD 1989 Illinois

Grueter, Chad, Assistant Professor, Internal Medicine, 2012 (2012);

Grumbach, Isabella, Associate Professor, Internal Medicine, 2006 (2013); MD 1992 Ruhr Univ Germany

Grunder, Richard W., Adjunct Assistant Professor, Operative Dentistry, 1995 (2000); DDS 1984 Iowa

Gu, Xiaomei, Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012); HS 1997 WEIHAI NO 1 MIDDLE SCHOOL; BDS 2002 BINZHOU MEDICAL COLLEGE; MSD 2005 Peking University

Guayara Sanchez, Consuelo, Lecturer, Rhetoric, 2007 (2009); MA 1994 Iowa; PhD 2007 Iowa

Gucfa, Cornelius J., Clinical Adjunct Assistant Professor, Psychiatry, 2011 (2011); MD 1999 American/Caribbean

Guckert, Donald J., Adjunct Lecturer, Civil-Environmental Engineering, 2004 (2004); BS 1978 Penn State; BA 1978 Penn State; ME 1986 Penn State

Gudavalli, Maruti Ram, Adjunct Assistant Professor, Biomedical Engineering, 2001 (2001); BS 1970 Andhra, India; MS 1980 McMaster, Canada; PhD 1989 Cincinnati

Guentner, Wendelin, Professor, International Programs/French Italian, 1985 (1998); BA 1972 St. Teresa; MA 1974 Magistere-Paris; MA 1975 Delaware; PhD 1982 Chicago

Guider, Marla A., Clinical Assistant Professor, Pathology, 2010 (2010); MD 2006 Iowa

Guest, Katrina A., Clinical Adjunct Assistant Professor, Internal Medicine, 1995 (2001); MD 1986 SUNY-Buffalo

Gui, Lichuan, Adjunct Associate Professor, Mechanical Engineering, 2011 (2011); PhD 1997 Essen, Germany

Guillory, J. Keith, Emeritus Professor, Pharmacy, 1964 (1971); BS 1956 Loyola-Louisiana; MS 1960 Wisconsin; PhD 1961 Wisconsin

Gulick, Kris G., Adjunct Lecturer, Accounting, 2008 (2008); BA 1980 Northern Iowa; MA 1982 Iowa; BA 1986 Coe

Gullickson, Gregory Leo, Adjunct Assistant Professor, Psychology, 2000 (2001); BA 1979 Nortre Dame; MA 1983 Iowa; PhD 1993 Iowa

Gunstream, Adrienne, Adjunct Assistant Professor, Periodontics, 2009 (2009); DDS 2004 Pacific; MS 2007 California

Gunter, Tracy Diane, Clinical Adjunct Associate Professor, Psychiatry, 2003 (2009); BS 1985 Southern Carolina; MD 1990 Southern Carolina

Guo, Junfeng, Adjunct Associate Professor, Radiology/Biomedical Engineering, 2010 (2010); BS 1988 Xi’an Jiaotong, China; MS 1991 Xi’an Jiaotong, China; PhD 1995 Xi’an Jiaotong China

Guo, Man, Assistant Professor, Social Work, 2011 (2011); BSW 2003 Renmin of China; MSW 2005 Hong Kong; DR 2011 University of Southern Califor; PhD 2011 Southern California

Guest, Katrina A., Clinical Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Gurl, Nelson J., Emeritus Professor, Surgery, 1976 (1983); AB 1963 Calif-Berkeley; MD 1967 Calif-San Francisco

Gurnett, Donald A., Professor, Physics Astronomy, 1965 (1972); BSEE 1962 Iowa; MS 1963 Iowa; PhD 1965 Iowa

Gurwell, Adelade Maria, Clinical Assistant Professor, Family Medicine, 1997 (1997); BSN 1980 Iowa Methodist; BGS 1986 Drake; MD 1991 Iowa

Gussin, Gary N., Emeritus Professor, Biology, 1969 (1980); BS 1961 Michigan; PhD 1966 Harvard

Gutmann, Laurie, Clinical Professor, Neurology, 2013 (2013);

Guymon, C. Allan, Professor, Chemical Biochemical Engineering, 2002 (2009); BS 1993 Weber State; MS 1995 Colorado; PhD 1997 Colorado

Guzman, Elizabeth Eunice, Adjunct Instructor, Spanish Portuguese, 2007 (2007); BA 1977 Santiago; MA 1985 West Virginia

Guzman-Armstrong, Sandra, Clinical Associate Professor, Operative Dentistry, 2001 (2008); DDS 1994 Iowa; MS 1999 Iowa

Gyglayton, Briony Anne, Adjunct Assistant Professor, Creative Writing, 2013 (2013);

Haack, James A., Adjunct Instructor, University College, 2003 (2013); MSME 1988 University of Iowa

Haack, Josephine A., Adjunct Lecturer, University College, 2012 (2012);

Haack, Marcus J., Clinical Associate Professor, Educ Policy Leadership Studies, 2002 (2002); BA 1973 Northern Iowa; MA 1978 Northern Iowa; EDD 1991 Northern Iowa

Haas, Thomas J., Adjunct Instructor, Pharmacy, 1997 (1997); BS 1979 Iowa

Habashi, Meara, Lecturer, Psychology, 2011 (2011); BA 2000 Baylor; MS 2005 Purdue; PhD 2008 Purdue

Habelhah, Hasem, Associate Professor, Pathology, 2005 (2011); BS 1987 Beijing Normal; MS 1990 Beijing Normal; PhD 1998 Hokkaido

Hackbartsch, Stanley A., Clinical Adjunct Associate Professor, Pediatrics, 1981 (1981); MD 1977 Iowa
Hadder, Brent Allen, Clinical Assistant Professor, Anesthesia, 2009 (2010); BS 1998 Alabama; MD 2004 Alabama School of Medicine

Hade, Joel Edward, Clinical Adjunct Assistant Professor, Internal Medicine, 1995 (1995); MD 1983 Iowa

Haes, Amanda J., Associate Professor, Chemistry, 2006 (2013); BA 1999 Wartburg; MS 2001 Northwestern; PHD 2004 Northwestern

Hagan, Jeremy Benjamin Patrick, Adjunct Lecturer, Management Organizations, 2012 (2012);

Hagerty, Bradley Tyler, Adjunct Instructor, Preventive Community Dentistry, 1998 (1998); DDS 1994 Iowa

Hahn, Oscar A., Emeritus Professor, Spanish Portuguese, 1977 (1983); PHD 1963 Chile; MA 1972 Iowa; PHD 1977 Maryland

Hahn Berry, Linda Sue, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012);

Haim, Hillel, Assistant Professor, Microbiology, 2012 (2012);

Haines, Don R., Emeritus Associate Professor, Music, 1974 (1978); BM 1959 Illinois Wesleyan; MM 1961 Eastman School of Music; DMA 1973 Rochester

Haislet, Kari Nicole Bagby, Lecturer, Nursing, 2013 (2013);

Hajianpour, MJ, Clinical Associate Professor, Pediatrics, 2013 (2013);

Hakes, Thomas E., Clinical Adjunct Instructor, Internal Medicine, 1990 (1990); MD 1978 Iowa

Hakken, Lynda Sue, Adjunct Assistant Professor, Music, 2012 (2012);

Haldeman, Lauren Elizabeth, Adjunct Lecturer, International Writing, 2011 (2011); BA 2001 Iowa; MFA 2006 Iowa

Haleem, Ambar, Clinical Assistant Professor, Internal Medicine, 2009 (2011); MBBS 1999 Aga Khan, Pakistan

Hall, Daniel L., Emeritus Professor, Oral Path, Radiology Medicine, (1997); DDS 1959 Iowa; MS 1974 Iowa

Hall, Duane, Assistant Professor, Internal Medicine, 2009 (2009); PHD 2000 Wisconsin @Madison

Hall, Margaret S., Emeritus Associate Professor, Theatre Arts, 1951 (1974);

Hall, Mederic Micah, Clinical Assistant Professor, Family Medicine/Orthopaedics and Rehabilitation, 2011 (2011); BS 2002 Notre Dame; MD 2006 Illinois, Chicago

Hall, Penelope J., Emeritus Associate Professor, Communication Sciences and Disorders, 1968 (1991); BA 1965 Iowa; MA 1967 Iowa

Hallissey, Brendan, Adjunct Instructor, Preventive Community Dentistry, 2008 (2008); BA 2002 Bowdoin; AB 2002 Bowdoin College; DMD 2006 Connecticut

Hallmark, Shauna, Adjunct Associate Professor, Civil-Environmental Engineering, 2007 (2007); BS 1991 Brigham Young; MS 1996 Utah State; PHD 1999 Georgia Institute of Tech

Halloran, Vivien Janis Olson, Adjunct Assistant Professor, Nursing, 2008 (2008); BSN 1987 Iowa; MA 1991 Iowa

Halls, Bill J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2009 Iowa

Halterman, Tom, Adjunct Assistant Professor, Pharmacy, 2002 (2003); BS 1989 Iowa

Hamarsrost, Michael L., Adjunct Instructor, Radiology, 2010 (2010); BA 2000 Iowa; SCB 2007 Iowa

Hamiel, John N., Adjunct Assistant Professor, Pharmacy, 2002 (2002); BS 1985 Iowa; PHARM 1997 Iowa

Hamilton, David B., Emeritus Professor, English, 1975 (1982); AB 1961 Amherst; MA 1964 Virginia; PHD 1968 Virginia

Hammes, Adam Michael, Adjunct Lecturer, Management Organizations, 2013 (2013);

Hammes, Megan Ann, Adjunct Instructor, Health and Human Physiology, 2007 (2007); BS 2001 Iowa; MS 2004 American Univ Washington

Hammond, Harold L., Emeritus Professor, Oral Path, Radiology Medicine, 1967 (1983); DDS 1962 Loyola; MS 1967 Chicago

Hamot, Gregory Edward, Professor, International Programs/Teaching and Learning, 1995 (2007); BA 1975 Northwestern; MA 1976 Ohio State; PHD 1995 Ohio State

Han, Shizhong, Assistant Professor, Psychiatry, 2012 (2012);

Han, Weimin, Professor, Mathematics, 1991 (1999); BS 1983 Fudan-Shanghai; MS 1986 Academia Sinica-Beijing; PHD 1991 Maryland-College Park

Hanada, Satoshi, Clinical Assistant Professor, Anesthesia, 2011 (2011); MD 1999 Miyazaki, Japan

Hand, Brian, Professor, Teaching and Learning, 2005 (2005); BS 1975 Flinders Univ; MS 1986 Curtin Univ; PHD 1993 Curtin Univ

Hand, Gregory, Assistant Professor, Music, 2008 (2008); BM 1995 Northwestern; MM 2002 Univ of Michigan; DMA 2005 Michigan

Hanish, Lynn, Adjunct Instructor, Pharmacy, 2007 (2007); BSN 1980 North Dakota State

Hankewich, Jillien F., Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); BSN 1989 Iowa

Hanley, Paul F., Associate Professor, Urban Regional Planning/Civil-Environmental Engineering/Public Policy Center, 1999 (2006); BSC 1988 Rutgers; MSE 1990 New

Janda, Swinder, Adjunct Professor, Marketing, 2009 (2009); BS 1987 Panjab University; MBA 1992 Arkansas; PhD 1996 Arkansas, Fayetteville

Jannie, Karry M., Clinical Assistant Professor, Family Medicine, 2012 (2012);

Janz, Kathleen F., Professor, Health and Human Physiology/Epidemiology, 1982 (2004); BS 1978 Wisconsin-Stevens Point; MA 1982 Northern Colorado; EDD 1990 Northern Colorado

Janz, Siegfried, Professor, Pathology, 2007 (2007); MD 1985 Leipzig, Germany; DSC 1995 Leipzig, Germany
Japsen, Bruce R., Adjunct Instructor, Journalism Mass Communication, 2013 (2013);
Jarosinski, Keith W., Assistant Professor, Microbiology, 2011 (2011); BS 1995 Rochester Institute of Tech; PHD 1999 SUNY-Health Science
Jarvey, John A., Adjunct Lecturer, Law-Faculty, 1997 (2005); BS 1978 Akron; JD 1981 Drake University
Jarzynka-Papineau, Julie A., Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);
Jean, Wenny, Clinical Adjunct Assistant Professor, Family Medicine, 2007 (2007); BA 2000 Missouri - Kansas City; MD 2000 Missouri - Kansas City; MPH 2004 Iowa
Jebson, Peter, Emeritus Professor, Anesthesia, 1980 (1980); MBCHB 1963 St Andrews
Jenkins, Angela Danielle, Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012);
Jennings, Michael Andrew, Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); BS 1972 Iowa; MD 1976 Iowa
Jennings, Will, Lecturer, Rhetoric, 1997 (2001); MFA 1993 Iowa
Jennissen, Charles, Clinical Associate Professor, Emergency Medicine/Pediatrics, 1999 (2007); MD 1986 Minnesota
Jensen, Chris S., Clinical Professor, Pathology, 1999 (2010); BS 1985 Iowa State; MD 1989 Iowa
Jensen, Joelle Lyn, Clinical Adjunct Instructor, Nursing, 1995 (1995); BSN 1984 Dubuque; MSN 1988 Dubuque; CER 1993 ANCC
Jensen, Paul Wayne, Adjunct Instructor, Journalism Mass Communication, 2010 (2010); BA 1975 Missouri
Jensen, Valerie Ellen, Adjunct Assistant Professor, Pharmacy, 2007 (2007); BPH 1990 Iowa
Jeronimo, Selma M., Adjunct Professor, Internal Medicine, 2002 (2002); PHD 1994 Paulista DE Medicina-Sao Paulo
Jerz, Richard A., Adjunct Assistant Professor, Industrial Engineering/Management Sciences, 2002 (2002); BS 1978 Illinois Technology; MBA 1984 St. Ambrose; PHD 1997 Iowa
Jeske, Diane, Professor, Philosophy, 1992 (2009); BA 1988 Lawrence; PHD 1992 MIT
Jessen, Kerry, Adjunct Instructor, Pharmacy, 2000 (2000); BS 1977 Iowa
Jessop, Julie L. P., Associate Professor, Chemical Biochemical Engineering, 2000 (2009); BS 1994 Michigan State; PHD 1999 Michigan State
Jetton, Jennifer Garcia, Clinical Assistant Professor, Pediatrics, 2010 (2010); MD 2004 Baylor College of Medicine
Jew, Jean Y., Emeritus Professor, Anatomy Cell Biology, 1973 (1984); BS 1969 Newcomb; MD 1973 Tulane
Jin, Zhendong, Associate Professor, Medicinal Natural Products, 1997 (2003); BS 1988 East China Normal; MA 1990 State Univ of NY-Buffalo; PHD 1995 Purdue
Jivanjee, Shabnam Ibrahim, Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012); PHARMD 2011 University of Iowa
Joanning, Harvey Herman, Adjunct Professor, Rehabilitation and Counselor Education, 2010 (2010); BA 1969 Briar Cliff College; MA 1972 Iowa; PHD 1973 Iowa
Jochimsen, Peter R., Emeritus Professor, Surgery, 1983 (1983); BA 1961 Ripon; MD 1965 Marquette
Jogerst, Gerald John, Professor, Family Medicine, 1993 (2005); BA 1969 Loras; MD 1976 Iowa
Johannesen, Megan Marie, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2009 Iowa
Johannesen, Robert G., Clinical Adjunct Assistant Professor, Family Medicine, 2010 (2010); BA 1973 Central College; MD 1977 Loyola, Chicago
Johannsson, Birgir, Clinical Associate Professor, Internal Medicine, 2007 (2013); MD 1997 Iceland
Johlin, Frederick C., Professor, Internal Medicine, 1986 (2004); BS 1976 Toledo; MD 1980 Toledo Medical College
Johnsen, David C., Professor, Pediatric Dentistry/Preventive Community Dentistry/Pediatrics, 1995 (1995); BS 1965 Michigan; DDS 1970 Michigan; MS 1973 Iowa
Johnson, Alan K., Professor, Health and Human Physiology/Pharmacology/Psychology, 1973 (1982); BS 1964 Pennsylvania State; MA 1966 Temple; PHD 1970 Pittsburgh
Johnson, Brianna Noel, Lecturer, English as Second Language, 2012 (2012);
Johnson, Chris A., Professor, Ophthalmology Visual Science, 2006 (2006); BA 1970 Oregon; MSC 1972 Penn State; MS 1972 Penn State; PHD 1974 Penn State
Johnson, Christina R., Lecturer, Health and Human Physiology, 2006 (2010); BA 1999 Iowa; BS 1999 Iowa; MA 2001 Iowa; PHD 2006 Iowa
Johnson, David Cassels, Assistant Professor, Teaching and Learning, 2013 (2013);
Johnson, Deanna S., Lecturer, Spanish Portuguese, 2001 (2008); BA 1977 DRURY; BM 1979 DRURY; MA 1981 Iowa; PHD 1995 Iowa
Johnson, Debra Lynn, Adjunct Assistant Professor, Psychology, 1997 (1997); BS 1987 South Dakota; MS 1991 Utah; PHD 1993 Utah
Johnson, Dorothy, Professor, Art Art History, 1987 (1997); BA 1972 Cincinnati; MA 1979 Cincinnati; PHD 1986 Calif-Berkeley
Johnson, Elise, Adjunct Instructor, Theatre Arts, 2011 (2011); BA 2010 Iowa
Johnston, Emilie DestrueL, Assistant Professor, French Italian, 2013 (2013);

Johnston, Erik, Adjunct Instructor, Preventive Community Dentistry, 2008 (2008); BA 2001 Hamilton College; AB 2001 Hamilton College; DMD 2008 Connecticut

Johnston, Eugene W., Emeritus Professor, Mathematics, 1966 (1975); BA 1963 Calif-Riverside; MA 1964 Calif-Riverside; PhD 1966 Calif-Riverside

Johnston, Frances Lauri, Clinical Associate Professor, Internal Medicine, 2006 (2006); BS 1984 Washington, Seattle; MD 1988 Washington, Seattle

Johnston, George F., Emeritus Professor, Pathology, 1976 (1988); BA 1963 Park; PhD 1969 Iowa State; MS 1976 Johns Hopkins

Johnston, Georgia Kay Tonn, Professor, Periodontics, 1991 (1996); BS 1975 Luther; SCB 1975 University of Iowa; DDS 1981 Iowa; MS 1983 Iowa

Johnston, Gregory M., Adjunct Instructor, Journalism Mass Communication, 2008 (2008); BA 1978 Luther College; MA 1984 Iowa

Johnston, Hans Joseph, Assistant Professor, Electrical-Computer Engineering/Biomedical Engineering/Psychiatry, 2006 (2009); BSE 1997 Iowa; MS 2000 Iowa; PHD 2002 Iowa

Johnston, Hollie Ann, Adjunct Assistant Professor, Pharmacy Practice and Science, 2006 (2006); PHARMD 2004 Drake

Johnston, Jack D., Lecturer, French Italian, 1999 (2001); PhD 1995 California-Berkeley

Johnston, Jennifer Aileen, Clinical Assistant Professor, Family Medicine, 2013 (2013);

Johnston, Krista Marie, Clinical Associate Professor, Internal Medicine, 2012 (2012); MD 1995 Washington SOM

Johnston, Leah M., Clinical Adjunct Assistant Professor, Family Medicine, 2003 (2003); BA 1995 St. Olaf; MD 1999 Minnesota

Johnston, Marion Rae Biron, Emeritus Professor, Nursing, 1973 (1999); BSN 1958 St. Teresa; MSN 1961 Case Western Reserve; PhD 1986 Iowa

Johnston, Melinda Jane, Clinical Associate Professor, Internal Medicine, 2000 (2007); BS 1992 South Dakota; MD 1996 Brown-Dartmouth Medical

Johnston, Ralph Fred, Adjunct Assistant Professor, Psychology, 2007 (2007); BA 1977 Hamline; MA 1981 Iowa; PhD 1985 Iowa

Johnston, Sarah, Clinical Assistant Professor, Pharmacy, 2000 (2000); BS 1995 Iowa; BSPH 1995 Iowa; PHARMD 1997 Iowa

Johnston, Shella Ranae, Adjunct Assistant Professor, Pharmacy, 2004 (2004); PHARMD 2002 Iowa

Johnston, Susan Rae, Professor, Epidemiology/Obstetrics Gynecology, 1980 (1994); BA 1973 Iowa; MD 1976 Iowa; MS 1985 Iowa

Johnston, Truman Christopher, Adjunct Assistant Professor, Periodontics, 2012 (2012);

Johnston, W. Bruce, Professor, Accounting, 1988 (1993); BS 1970 Oregon; MS 1973 Ohio State; PHD 1975 Ohio State

Johnston, Wayne A., Professor, Physiology, 1989 (2002); BS 1980 Wyoming; PhD 1985 Washington

Johnston, William, Emeritus Professor, Microbiology, 1970 (1980); BS 1963 Marietta; MS 1965 Miami; PhD 1968 Rutgers

Johnston, William T., Professor, Endodontics, 1980 (1999); BA 1971 Drake; DDS 1975 Iowa; MS 1981 Iowa

Johnston, Maya Krista, Clinical Adjunct Assistant Professor, Internal Medicine, 2013 (2013);

Johnston, Richard C., Clinical Professor, Orthopaedics and Rehabilitation, 1967 (1982); MD 1958 Iowa

Johnston, Sara Pfister, Adjunct Assistant Professor, Rehabilitation and Counselor Education, 2009 (2013); BS 1989 Madison @ Madison; MS 2004 Madison @ Madison

Joiner, Mei-Ling Anne, Assistant Professor, Internal Medicine, 2009 (2009); PHD 1999 Brandeis

Jolin, Sarah Jean, Adjunct Instructor, Family Medicine, 2010 (2010); BS 1996 Iowa State; MSW 1999 Washington Univ

Jones, Bradley D., Professor, Microbiology, 1994 (2011); BS 1985 Maryland; PhD 1989 Maryland

Jones, Carolyn C., Professor, Law-Faculty, 2004 (2004); BA 1976 Iowa; JD 1979 Iowa

Jones, David A., Clinical Assistant Professor, Orthodontics, 2011 (2011); AB 1973 Southern Methodist; DDS 1982 UMKC; MSD 1990 UT,Houston

Jones, Ellen Louise, Adjunct Lecturer, Law-Faculty, 2005 (2005); BA 1990 Iowa; JD 1993 Iowa; MA 1994 Iowa

Jones, Jeremy, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); DMD 2009 Boston; BS 2009 Indiana University; DMD 2009 Boston University; BA 2009 Indiana

Jones, Jody Lynn, Clinical Assistant Professor, Psychology/Surgery, 2009 (2009); MA 1993 Richmond; PHD 1997 Alabama

Jones, Merritt Elmer, Adjunct Assistant Professor, Family Dentistry, 2004 (2004); BS 1976 University of Iowa; DDS 1980 University of Iowa

Jones, Robert, Adjunct Professor, Public Policy Center/Statistics Actuarial Science/Biostatistics, 2006 (2006); BA 1972 Southern California; MA 1975 Calif-Los Angeles; PhD 1986 Washington

Jones, Morgan John, Emeritus Associate Professor, Music, 1978 (1991); BM 1960 Iowa; MA 1962 Iowa; PHD 1975 Northwestern

Jones, Nancy Lyn, Adjunct Lecturer, Law-Faculty, 2006 (2006); BA 1969 Luther College; MAT 1970 Brown; PHD 1982 Iowa
Jones, Patricia Camille, Emeritus Associate Professor, Theatre Arts/African-American Studies, 2001 (2001); BA 1977 Minnesota; MA 1985 Iowa; MFA 1991 Iowa

Jones, Robert Dallas, Clinical Professor, Neurology, 1997 (2013); BA 1979 Wisconsin; MA 1984 Iowa; PHD 1986 Iowa

Jones, Shelley Ann, Clinical Adjunct Instructor, Internal Medicine, 1997 (1997); MD 1986 Iowa

Jones, Susan Sondrol, Lecturer, Music, 1998 (2001); BM 1967 Iowa; MA 1968 Iowa; MFA 1970 Iowa

Jones-Rogers, Stephanie, Assistant Professor, Gender, Women's and Sexuality Studies/History, 2012 (2012);

Jordan, Dennis Everett, Adjunct Lecturer, Management Organizations, 2010 (2010); AA 1989 Kirkwood Community; BA 1991 Northern Iowa; MBA 1998 Iowa

Jordan, Philip Eugene, Adjunct Lecturer, University College, 2007 (2013); MA 1998 Upper Iowa University

Jorgensen, James David, Adjunct Assistant Professor, Management Organizations, 2008 (2008); BA 1990 Iowa State; JD 1993 Michigan

Jorgensen, Jodi, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); AASC 2003 Kirkwood; BA 2009 Ashford

Jorgensen, Palle E., Professor, Mathematics, 1983 (1983); BA 1968 AARHUS-Denmark; MS 1970 AARHUS; PHD 1973 AARHUS

Joselson, Rachel A., Associate Professor, Music, 1997 (2004); BM 1977 Florida State; MM 1980 Indiana-Blomington

Joseph, Maria Lindell, Clinical Assistant Professor, Nursing, 2011 (2012); BSC 1993 Southern Adventist University; BS 1993 Southern Adventist; PHD 2007 Capella

Joshi, Adweta, Adjunct Lecturer, Public Policy Center, 2013 (2013); BA 2004 Inst of Tech Bhopal, India; MS 2009 The University of Iowa

Joshi, Charuta Narayan, Clinical Associate Professor, Neurology/Pediatrics, 2008 (2008); MD 1995 Grant Medical College

Joyce, Steven, Clinical Adjunct Assistant Professor, Pediatrics, 2001 (2001); MD 1996 Iowa

Judge-Ellis, Teresa M., Clinical Associate Professor, Nursing, 1999 (2010); BSN 1988 St. Louis; MSN 1996 Pacific Lutheran

Judisch, George Franklin, Emeritus Professor, Ophthalmology Visual Science, 1975 (1985); BS 1958 Iowa State; MD 1962 Iowa

Juergens, Shannon L., Adjunct Lecturer, Marketing, 2009 (2009); MBA 2008 Iowa

Jugessur, Aju S., Adjunct Assistant Professor, Physics Astronomy, 2012 (2012);

Juhlin, Jon Jeffrrey, Adjunct Assistant Professor, Endodontics, 2010 (2010); BS 1978 Iowa State; MSD 1991 Iowa; DDS 1991 Iowa

Julian, Nashae Yvonne, Adjunct Assistant Professor, Rehabilitation and Counselor Education, 2008 (2013); BS 2002 Presentation College; MS 2004 Northern State

Jung, Anita, Professor, Art Art History, 2006 (2012); BFA 1985 Arizona State; MFA 1990 Wisconsin @ Madison

Jung, Michael J., Clinical Adjunct Associate Professor, Family Medicine, 1985 (1994); MD 1980 South Dakota

Juracek, Lyle, Adjunct Assistant Professor, Dance, 1996 (1996); BM 1973 Nebraska Wesleyan; MM 1975 Michigan State

Just, Craig Lavern, Assistant Professor, Civil-Environmental Engineering, 2002 (2002); BS 1992 Northern Iowa; MA 1994 Northern Iowa; PhD 2001 Iowa

Just, Tracy A., Adjunct Instructor, Preventive Community Dentistry, 2004 (2004); AA 1989 Des Moines Comm College

Justman, Bruce Cary, Clinical Associate Professor, Endodontics, 1985 (2000); BS 1979 Loras; DDS 1983 Iowa

Kaaret, Philip Elias, Professor, Physics Astronomy, 2004 (2008); BS 1984 Mass Inst of Tech; PHD 1989 Princeton

Kabadi, Udaya M., Clinical Adjunct Professor, Internal Medicine, 1981 (2001); MBBS 1965 Bombay-India; MD 1970 Bombay-India

Kabel, David Warren, Clinical Adjunct Associate Professor, Internal Medicine, 2006 (2006); BS 1970 Iowa; MD 1973 Iowa

Kaboli, Peter John, Professor, Epidemiology/Internal Medicine, 2000 (2012); BS 1989 Iowa; MD 1994 Iowa; MS 2000 Iowa

Kacmarynski, Deborah Sue Follmer, Clinical Assistant Professor, Otolaryngology-Head Neck Surgery/Pediatrics, 2009 (2009); MD 2002 Minnesota Medical; MSO 2009 Minnesota

Kademian, Jack, Clinical Assistant Professor, Radiology, 2007 (2007); MD 1998 St. George

Kader, Khalid, Adjunct Assistant Professor, Biomedical Engineering, 2001 (2001); BS 1992 Augsburg; MS 1998 Case Western Reserve; PHD 2001 Case Western Reserve

Kadera, Kelly Michele, Associate Professor, Political Science/International Programs, 1993 (2003); BA 1987 Wells; MA 1988 Illinois-Urbana; PHD 1995 Illinois-Urbana

Kading, Thane Ann, Adjunct Assistant Professor, Pharmacy, 2004 (2004); PHARM 1996 Iowa

Kaduce, Ryan Louis, Lecturer, English as Second Language, 2011 (2011); BA 2008 Iowa; MA 2010 Univesity of Iowa

Kahn, Daniel, Professor, Radiology, 1988 (2005); BS 1977 Illinois; MD 1981 Hahnemann
Kair, Laura Rachael, Clinical Assistant Professor, Pediatrics, 2013 (2013); BS 2006 Midwestern State University

Kaldjian, Lauris Christopher, Professor, Internal Medicine, 2000 (2012); BS 1984 Michigan; BA 1986 Oxford; MD 1989 Michigan; MDIV 1994 Yale

Kailil, Roberto Sami, Clinical Associate Professor, Internal Medicine, 2000 (2003); MD 1985 Federal of Pelotas Brazil

Kalil, Linda B., Adjunct Instructor, Pharmacy, 2002 (2002); BSN 1979 South Dakota

Kalina, Paul R., Assistant Professor, Theatre Arts, 2009 (2009); BS 1991 Illinois State; MFA 2007 Idaho

Kallaus, Norman F., Emeritus Professor, Management Organizations, 1953 (1967); BSC 1949 Iowa; MA 1951 Iowa; PhD 1956 Iowa

Kallemeyn, Nicole Ann, Lecturer, Biomedical Engineering, 2011 (2011); BSE 2003 Dordt College; MS 2005 Iowa; PhD 2009 Iowa

Kamala, Jerusa Kokuhumbya, Adjunct Instructor, Obstetrics Gynecology, 2008 (2008); BS 1976 St. Olaf College; BSC 1976 St. Olaf College; MD 1980 Howard University

Kamath, Aparna Sameer, Clinical Assistant Professor, Internal Medicine, 2011 (2011); MBBS 2001 Topiwalla Nat Med Col

Kamath, Sameer Shantaram, Clinical Assistant Professor, Pediatrics, 2008 (2008); MBBS 1997 Topiwalla National Med; MD 1997 Case Western Reserve

Kamerick, Eileen A., Adjunct Lecturer, Law-Faculty, 2007 (2007); AB 1980 Boston College; JD 1984 Chicago; MBA 1993 Chicago

Kamerick, Kathleen Clare, Lecturer, History, 1992 (1999); BA 1975 Iowa; MA 1984 Iowa; PhD 1991 Iowa

Kampf, Jack Alan, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011);

Kanak, Smitha, Clinical Adjunct Assistant Professor, Internal Medicine, 2013 (2013);

Kane, Francis Leo, Clinical Adjunct Assistant Professor, Family Medicine, 2010 (2010); BS 1982 Missouri; MD 1986 Missouri

Kane-Johnson, Nancy Jean, Clinical Adjunct Assistant Professor, Internal Medicine, 2001 (2001); MD 1985 Iowa

Kanellis, Michael James, Professor, Pediatric Dentistry, 1984 (2005); DDS 1979 Iowa; MS 1981 Iowa

Kang, Jiyeon, Assistant Professor, Communication Studies, 2010 (2010); BA 1999 Seoul National; MA 2001 Seoul National; PhD 2009 Illinois

Kanouse, Sarah, Assistant Professor, Art Art History, 2008 (2008); BA 1997 Yale; MFA 2004 Illinois

Kao, Simon Ching-Shun, Professor, Radiology, 1987 (1997); MBBS 1976 Hong Kong

Kapadia, Muneera Rehana, Clinical Assistant Professor, Surgery, 2010 (2010); MD 2002 Michigan

Karacay, Bahri, Adjunct Associate Professor, Pediatrics, 2005 (2012); MS 1987 Ataturk ,Turkey; MS 1992 Ohio State; PHD 1996 Ohio State

Karacay, Kate C., Adjunct Lecturer, University College Courses, 2011 (2011); BA 1997 Iowa; MA 2008 Iowa

Karam, Matthew, Clinical Assistant Professor, Orthopaedics and Rehabilitation, 2011 (2011); BS 2001 Iowa; MD 2005 Chicago Medical

Karandikar, Nitin Jayant, Professor, Pathology, 2012 (2012);

Kardon, Randy Herbert, Professor, Ophthalmology Visual Science, 1989 (2004); BS 1975 Iowa; PHD 1982 Iowa; MD 1982 Iowa

Karim, Yasser Mohamed, Clinical Associate Professor, Anesthesiology, 2001 (2011); PNS 1971 Ains Shams; MBBC 1976 Ains Shams; MSC 1980 Ains Shams

Karkow, Diana C., Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013);

Karnell, Michael Peter, Associate Professor, Communication Sciences and Disorders/Otolaryngology-Head Neck Surgery, 1993 (1993); BA 1978 Western Michigan; MA 1979 Western Michigan; PHD 1983 Iowa

Karnes, Kelly Jo Shannon, Adjunct Lecturer, University College, 2010 (2010); BED 1997 Emporia State; MED 1999 Kansas

Karniski, Lawrence P., Professor, Internal Medicine, 1985 (2000); BS 1974 Kansas; MD 1977 Kansas

Karwal, Mark William, Clinical Associate Professor, Internal Medicine, 1994 (2003); BA 1980 Drake; MD 1984 Iowa

Karwan, Kirk, Adjunct Professor, Management Sciences, 2008 (2008); PhD 1979 Carnegie Mellon

Kashiwada, Masaki, Adjunct Associate Professor, Internal Medicine, 2004 (2011); BS 1989 TOKYO UNIV OF PHARMACY; MS 1991 Hokkaido; PHD 1994 Tokyo

Kasik, John E., Emeritus Professor, Internal Medicine, 1970 (1973); BS 1949 Roosevelt; MS 1953 Chicago; MD 1954 Chicago; PhD 1962 Chicago

Kaskie, Brian, Associate Professor, Health Management Policy, 2000 (2008); BA 1987 Indiana; MA 1993 Washington; PHD 1998 Southern California

Kassas, Sarah Carol, Lecturer, English as a Second Language, 2012 (2012);

Kasson, Barry G., Associate Professor, Pharmacology, 1986 (1996); BA 1974 California-San Diego; MS 1977 California-Los Angeles; PHD 1982 California-Los Angeles

Kasten, Katherine Elizabeth, Lecturer, English as Second Language, 1997 (2010); BA 1968 Grinnell; MA 1989 Iowa State

Kastens, L. Kevin, Professor, Music, 1998 (2011); BS 1977 Illinois; MS 1978 Illinois

Krummel, Michelle Leigh, Adjunct Assistant Professor, Pharmacy, 2007 (2007); BS 1993 Iowa

Krupp, Jennifer Lynn, Clinical Assistant Professor, Obstetrics Gynecology, 2012 (2012);

Kruse, Louise G., Emeritus Assistant Professor, Nursing, 1972 (1975); BSN 1961 Mankato State; MA 1972 Iowa

Kruse, Terese Nickol, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2006 Iowa

Kuehn, David Michael, Clinical Associate Professor, Radiology, 2002 (2005); BS 1987 Iowa; MD 1992 Iowa

Kuehn, Markus H., Associate Professor, Ophthalmology Visual Science, 2007 (2012); PHD 2000 Saint Louis

Kuffel, Mary E., Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 1999 (1999); MD 1993 Iowa

Kuhar, James, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); DDS 1969 Marquette

Kuhl, Jon Gregory, Professor, Electrical-Computer Engineering/Public Policy Center, 1980 (1992); BS 1975 Iowa; MS 1977 Iowa; PhD 1980 Iowa

Kuhn, Jerry N., Emeritus Professor, Educ Policy Leadership Studies/Teaching and Learning, 1954 (1964); BA 1948 Central Missouri; MA 1951 Central Missouri; PHD 1954 Iowa

Kulig, Carmen L., Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARMD 2002 Drake

Kumar, Priya, Associate Professor, English, 2000 (2007); BA 1992 Lady Shri Ram; MA 1994 Jawaharial Nehru

Kumar, Sudhir, Clinical Adjunct Assistant Professor, Internal Medicine, 2010 (2010); MBBS 1992 Bangalore Medical

Kumar, Vijay, Emeritus Associate Professor, Pharmacy, 1992 (2002); BS 1970 Kanpur; MS 1972 Lucknow; PHD 1976 Lucknow; PHD 1981 Concordia

Kumbera, Patty A., Adjunct Assistant Professor, Pharmacy, 2000 (2004); BS 1988 Drake

Kuntz, J. Kenneth, Emeritus Professor, Religion, 1967 (1976); BA 1956 Grinnell; BD 1959 Yale; PHD 1963 Union Theological Seminary

Kunze, Kent E., Clinical Adjunct Assistant Professor, Psychiatry, 2007 (2007); BA 1980 Wesleyan; MD 1984 Iowa

Kuperman, Ethan Frank, Clinical Assistant Professor, Internal Medicine, 2013 (2013);

Kuperman, Samuel, Professor, Psychiatry/Pediatrics, 1983 (2000); BA 1975 Iowa; MD 1978 Iowa

Kupersmith, William R., Emeritus Professor, English, 1972 (1981); BA 1963 Georgetown; PHD 1969 Texas

Kuppachi, Sarat, Clinical Assistant Professor, Internal Medicine, 2011 (2011); MBBS 1998 Christian Medical Coll, India; MBBCH 1998 Christian Med, India

Kurt, Jennifer Marie, Adjunct Instructor, Pharmacy, 2000 (2000); BS 1996 Iowa

Kurth, William S., Adjunct Professor, Physics Astronomy, 2006 (2006); BA 1973 Iowa; MS 1975 Iowa; PHD 1979 Iowa

Kurtt, Jody Lyn, Clinical Adjunct Assistant Professor, Nursing, 1992 (2001); BSN 1977 Coe; MA 1990 Iowa

Kurtz, Sheldon F., Professor, Law-Faculty/Surgery, 1973 (1976); AB 1964 Syracuse; LLB 1967 Syracuse; JD 1967 Syracuse

Kusiak, Andrew, Professor, Industrial Engineering/ Nursing, 1988 (1988); BSC 1972 Warsaw Technical; MSC 1974 Warsaw Technical; PHD 1979 Polish Academy of Science

Kutcher, Patricia M., Adjunct Instructor, Health and Human Physiology, 1987 (1998); BS 1975 Iowa

Kuthy, Raymond A., Professor, Public Policy Center/ Preventive Community Dentistry, 1999 (1999); BS 1969 Mount St. Mary’s; DDS 1973 Temple; MPH 1979 Minnesota

Kutzko, Philip C., Emeritus Professor, Religion, 1967 (1976); BA 1956 Grinnell; BD 1959 Yale; PHD 1963 Union Theological Seminary

Kwak, Emily Y., Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Kwirant, James A., Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MD 1983 Nebraska
Kwitek, Anne Emilie, Associate Professor, Physiology/Pharmacology/Internal Medicine, 2007 (2007); BS 1989 Wisconsin @ Stevens Point; PHD 1996 Iowa

Kydd, Christine T., Adjunct Professor, Management Sciences, 2011 (2011); PHD 1984 Pennsylvania

Kyles, Barbara June, Lecturer, Nursing, 2004 (2005); BSN 1981 Minnesota; MBA 1993 St. Thomas, MN

Kyser, Kathy, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 2012 (2012); BSN 1985 State University of New York; MD 2004 Uniformed Services University

La Tocha, Demitrius, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); BA 1996 St. Mary’s of Winona; DDS 2001 Iowa

Lafky, Sue A., Emeritus Associate Professor, Gender, Women's and Sexuality Studies, 1990 (1996); BS 1975 Oregon; MA 1986 Indiana; PHD 1990 Indiana

Lagos Lavenz, Susan Marie, Clinical Professor, Educ Policy Leadership Studies, 2003 (2011); BA 1972 St Mary of the Woods; MA 1975 Iowa; PHD 1985 Iowa

Lai, Brian H., Associate Professor, Political Science/International Programs, 2001 (2007); BA 1996 Northwestern; PHD 2001 Emory

Lainson, Phillip A., Emeritus Professor, Periodontics, 1965 (1975); BA 1960 Iowa; DDS 1962 Iowa; MS 1968 Iowa

Lake, Sharon Marie Rose Killeen, Adjunct Assistant Professor, American Studies, 2011 (2011); BA 1981 Iowa; MA 2004 Iowa; PHD 2010 Iowa

Lakin, Jean A., Emeritus Associate Professor, Nursing, 1967 (1988); BSN 1959 Michigan; PHD 1962 Iowa; MS 1967 Michigan

Lai, Geeta, Associate Professor, Surgery, 2004 (2012); MD 1995 Toronto; MS 1999 Toronto

Laleman, Melissa Marie, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012);

Lallier, Tamara Sue, Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013);

Lalumiere, Ryan T., Assistant Professor, Psychology, 2010 (2010); BS 2000 Mt. St. Mary’s College; BA 2000 Mt. St Mary’s; PHD 2005 California @ Irvine

Lamb, Angela Sue, Adjunct Instructor, University College Courses, 2013 (2013); BBA 2005 University of Iowa

Lambi, Lisa N., Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARMD 2002 Iowa

Lamping, Kathryn G., Associate Professor, Pharmacology/Internal Medicine, 1989 (2001); BS 1976 Illinois-Urbana; MS 1982 Milwaukee Medical; PHD 1983 Milwaukee Medical

Lance, George M., Emeritus Professor, Mechanical Engineering, 1961 (1970); BSME 1952 Case Institute of Technology; MS 1954 Cast Inst. Of Technology

Landini, Gregory, Professor, Philosophy, 1989 (2001); AB 1978 Indiana; MA 1981 Indiana; PHD 1986 Indiana

Landon, Richard B., Professor, University College/English, 1978 (1991); BA 1970 Centre; MA 1973 Texas-Austin; PHD 1978 Texas-Austin

Landsman, Miriam Joy, Associate Professor, Social Work, 1988 (2007); BA 1976 Delaware; MSW 1982 Iowa; PHD 2000 Iowa

Lang, Cornelia, Associate Professor, Physics Astronomy, 2002 (2010); BA 1995 Vassar; MS 1997 California-Los Angeles; PHD 2000 California-Los Angeles

Lang, Joseph B., Professor, Statistics Actuarial Science/Biostatistics, 1992 (2006); BA 1986 St. Cloud State; MS 1988 Florida; PHD 1992 Florida

Langguth, Nancy J., Clinical Associate Professor, Teaching and Learning, 2003 (2009); BS 1980 Iowa State; MS 1986 NW Missouri; PHD 1996 Iowa

Langworthy, Sara Ann, Lecturer, Interdisciplinary Programs, 2006 (2007); AB 1994 Grinnell

Lanning, Lynne Dorris, Clinical Adjunct Instructor, Nursing, 2011 (2011); BSN 1977 Duke; JD 1983 Texas Southern

Lannoo, Michael J., Adjunct Professor, University College, 2010 (2010); BS 1979 Iowa State; MS 1982 Iowa State; PHD 1986 Dalhousie (Halifax N.S.)

Lansing, Kimberly M., Clinical Adjunct Assistant Professor, Family Medicine, 2006 (2006); MS 1988 Penn State; PHD 1992 Hawaii at Manoa; MD 1995 Hawaii at Manoa

Lanternier, Matthew Lyman, Clinical Assistant Professor, Family Medicine, 2000 (2000); BS 1992 Indiana; MD 1999 Iowa

Lara-Braud, Carolyn W., Emeritus Associate Professor, Health, Sport Studies, 1975 (1980); BA 1962 Texas; PHD 1969 Texas

Larew, Mary Spalding, Clinical Associate Professor, Pediatrics, 1985 (2004); BA 1974 Iowa; MD 1978 Iowa

Larkin, Leah, Adjunct Instructor, Preventive Community Dentistry, 2009 (2009); BS 2005 Marquette; DDS 2008 Marquette

Laroche, Helena Hillman, Assistant Professor, Internal Medicine/Pediatrics, 2006 (2009); BA 1994 Brown; MD 1999 Missouri Medical Schoo

Laroia, Archana, Clinical Assistant Professor, Radiology, 2009 (2009); MD 1987 Indira Gandhi Med College; MBBS 1987 Himachal State, India

Laroia, Sandeep, Clinical Assistant Professor, Radiology, 2009 (2009); MD 1987 Indira Gandhi Med College; MBBS 1987 Himachal State, India

Laronde, Michel S., Professor, French Italian/International Programs, 1982 (2009); LIC 1971 Clermont-Ferrand; MA 1976 Indiana; PHD 1981 Indiana

Larpenteur, Wilene Elaine, Adjunct Instructor, Health and Human Physiology, 2011 (2011); BS 1995 Iowa State; MS 1999 Iowa State

Larsen, Bryan, Adjunct Professor, Pediatrics, 2011 (2011); BS 1971 Iowa; MS 1973 Iowa; PHD 1976 Iowa

Larsen, Sarah C., Professor, Chemistry, 1995 (2008); BA 1986 Bowdoin; PHD 1992 Harvard

Larson, Brandy Leeann, Adjunct Assistant Professor, Preventive Community Dentistry, 2010 (2010); BS 1997 Iowa State; DDS 2003 Iowa

Larson, Charles L., Adjunct Lecturer, University College Courses, 2011 (2011); BA 1990 Iowa; MA 1993 Iowa

Larson, Charles Chester, Clinical Adjunct Assistant Professor, Internal Medicine, 1990 (2010); MD 1982 Iowa

Larson, Michelle Anne, Adjunct Assistant Professor, Biostatistics, 2003 (2003); BS 1989 Iowa; MS 1994 Iowa; PHD 2002 Iowa

Larson, Paula Ann, Adjunct Instructor, Pharmacy, 2008 (2008); BPHS 1998 Iowa

Larson, Shelly Kay, Adjunct Instructor, Pharmacy, 2007 (2007); BPHS 1987 South Dakota State

Larson Ode, Katie Marie Ulring, Clinical Assistant Professor, Pediatrics, 2011 (2011); MD 2005 Wisconsin; MS 2011 Minnesota

Lary, Susan Virginia, Clinical Adjunct Instructor, Nursing, 1994 (1994); BSN 1987 Iowa

Latcham, Allan P., Clinical Adjunct Assistant Professor, Internal Medicine, 2001 (2004); BA 1984 Wartburg; MD 1988 Iowa

Lau, Benjamin, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013)

Le, Andrew G., Assistant Professor, Biomedical Engineering/Public Policy Center, 2008 (2008); BS 1990 Michigan; PHD 1997 Virginia

Lee, Amy, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); BS 2006 Nebraska; DDS 2010 Nebraska Med Ctr

Laur, John J., Clinical Associate Professor, Anesthesia, 2008 (2013); AS 1997 Milwaukee Area Tech; BS 1999 Marquette; MD 2003 Wisconsin; MSCI 2010 University of Iowa

Laurian, Lucie, Associate Professor, Urban Regional Planning/Public Policy Center, 2004 (2009); PHD 2001 U of N. Carolina Chapel Hill

Lavelle, William E., Emeritus Professor, Prosthodontics/Otolaryngology-Head Neck Surgery, 1967 (1977); DDS 1962 Iowa; BA 1962 Iowa; MS 1967 Iowa

Lavezzo, Kathryn, Associate Professor, English, 1999 (2006); BA 1988 Calif-Los Angeles; MA 1991 Virginia; PHD 1999 Calif-Santa Barbara

Lavin, Mildred H., Emeritus Assistant Professor, Psych Quant Foundations, 1971 (2002); PHD 1992 Harvard

Law, Ian Harry, Clinical Professor, Pediatrics, 2000 (2010); BSE 1988 Iowa; MD 1993 Iowa

Lawler, Ericka, Clinical Assistant Professor, Orthopaedics and Rehabilitation, 2006 (2006); BS 1996 Yale; MD 2000 New York UNI

Lawrence, Erika, Associate Professor, Psychology, 2001 (2009); BA 1992 Emory; MA 1996 UCLA; PHD 2001 UCLA

Lawrence, Todd Kenneth, Clinical Adjunct Assistant Professor, Family Medicine, 2007 (2007); BS 1996 Mount Mercy; MD 2001 Iowa

Lawrence, Walter Thomas, Professor, Surgery, 2010 (2010); MD 1976 Virginia

Lawton, William J., Emeritus Associate Professor, Internal Medicine, 1973 (1982); BA 1963 Northwestern; MD 1966 Northwestern

Lee, Jennifer Ellen, Adjunct Assistant Professor, Nursing, 2013 (2013); BS 1985 California; MD 1993 Iowa

Lee, Jacqueline Claire, Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013)

Lee, Jennifer Ellen, Adjunct Assistant Professor, Nursing, 2012 (2012); MA 2001 University of Dayton; MA 2005 University of Iowa; PHD 2008 University of Iowa
Lee, Joanna Chen, Adjunct Instructor, Communication Sciences and Disorders, 2013 (2013);

Lee, Kathy Jo, Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012);

Lee, Larry D., Adjunct Instructor, Pharmacy, 2004 (2004); BSPH 1972 Iowa

Lee, Phillip C., Clinical Adjunct Assistant Professor, Otolaryngology-Head Neck Surgery, 1991 (2001); MD 1981 Iowa

Lee, Robert A., Clinical Adjunct Assistant Professor, Family Medicine, 2002 (2002); MD 1988 Iowa

Lee, Sang Hak, Assistant Professor, Marketing, 2012 (2012);

Lee, Won-Chan, Associate Professor, Psych Quant Foundations, 2008 (2010); BA 1991 Kyungpook National; MS 1994 Oklahoma; PHD 1998 Iowa

Leger, Pierre-Majorique, Adjunct Professor, Management Sciences, 2010 (2010); PHD 2002 Ecole Polytech de Montrea

Legge, Kevin L., Associate Professor, Microbiology/ Pathology, 2004 (2010); BS 1994 Knoxville, Tenn; PHD 2000 Tenn., Knoxville

Leggett, John W., Emeritus Professor, English, 1970 (1975); AB 1942 Yale

Legler, Allison A., Clinical Assistant Professor, Dermatology, 2012 (2012);

Lehman, Linda Jean, Clinical Adjunct Assistant Professor, Ophthalmology Visual Science, 2004 (2004); BA 1981 Luther College; MS 1983 Iowa State; MD 1991 Iowa

Lehmann, Brian Howard, Clinical Instructor, Teaching and Learning, 2006 (2013); BA 1975 Iowa; MA 1978 Iowa

Lehmann, Susan P., Clinical Assistant Professor, Nursing, 1978 (2005); BSN 1975 Loyola; MSN 1979 Loyola

Lehmier, Hans-Joachim, Associate Professor, Occupational Environmental Health, 2003 (2010); BS 1990 Bonn, Germany; MS 1993 Bonn, Germany; PHD 1995 Bonn, Germany

Leibrand, Kari Lauren, Adjunct Instructor, Preventive Community Dentistry, 2013 (2013); DDS 2010 University of Iowa

Leicht, Brenda M. G., Lecturer, Biology, 1998 (2012); BS 1981 Creighton; PHD 1987 Indiana

Leicht, Kevin, Professor, Sociology/Public Policy Center, 1995 (2000); BS 1981 Creighton; MA 1983 Indiana; PHD 1987 Indiana

Leinen, Katherine Sue, Clinical Adjunct Assistant Professor, Internal Medicine, 2011 (2011); DO 2007 Des Moines

Leira, Enrique Carlos, Associate Professor, Neurology, 2004 (2012); MD 1988 Universidad de Santiago; MS 2007 University of Iowa - Epidemiol

Leisure, Mary Jill, Adjunct Assistant Professor, Pharmacy, 1997 (2006); BSPH 1991 South Dakota State; PHARMD 2003 Iowa

Little, Marta M., Clinical Adjunct Assistant Professor, Internal Medicine, 1989 (1992); BA 1978 Texas-Austin; MD 1983 Texas Southwestern

Litton, Erin Lynn, Adjunct Instructor, Health and Human Physiology, 2008 (2008); BS 2004 Iowa; MA 2006 Iowa

Liu, Dongwang, Adjunct Assistant Professor, Anthropology, 2008 (2008); MA 1995 Iowa State; MBA 2001 Iowa State; PHD 2005 Iowa State

Liu, Jack C., Adjunct Associate Professor, Family Dentistry, 2005 (2012); DDS 2001 Iowa

Liu, Vincent, Clinical Associate Professor, Dermatology/Pathology, 2005 (2009); AB 1992 Harvard; MD 1996 Pennsylvania

Liu, William Ming, Professor, Psych Quant Foundations, 2000 (2009); BA 1991 California-Irvine; MA 1995 Maryland; PHD 2000 Maryland

Liu, Y. King, Emeritus Professor, Mechanical Engineering/Biomedical Engineering/Orthopaedics and Rehabilitation, 1978 (1978); BS 1955 Bradley; MS 1959 Wisconsin; PHD 1963 Wayne State

Lively, Sonja Inga Holmes, Emeritus Assistant Professor, Nursing, 1976 (1976); BS 1969 Iowa; MA 1970 Iowa

Livermore, Joshua Adam, Adjunct Assistant Professor, University College, 2013 (2013);

Livingston, Jason T., Lecturer, Cinema Comparative Literature, 2011 (2012); BA 1994 Cornell; MA 1999 Iowa; MFA 2004 Iowa

Lizarraga, Ingrid, Clinical Assistant Professor, Surgery, 2013 (2013);

Llopart, Ana, Assistant Professor, Biology, 2009 (2009); BSC 1992 Barcelona; PhD 1999 Barcelona

Lloyd, Benjamin Andrew, Adjunct Instructor, Operative Dentistry, 2011 (2011); BS 2006 Iowa; DDS 2010 Iowa

Lloyd, Kenneth Edward, Adjunct Assistant Professor, Civil-Environmental Engineering, 1999 (1999); BS 1972 Iowa; BSE 1976 Michigan; MSE 1977 Michigan; PhD 1999 Iowa

Lloyd-Jones, Richard, Emeritus Professor, English, 1952 (1965); BA 1949 New Mexico; MA 1950 North Carolina; PHD 1956 Iowa

Lo, Chu-Ling, Adjunct Assistant Professor, Rehabilitation and Counselor Education, 2013 (2013); BA 1999 National Taiwan Normal Univers; MA 2005 National Taipei Univ of Educ

Loan, Tara Renae, Adjunct Assistant Professor, Pharmacy, 2009 (2009); DIP 2001 Clear Creek Amana; PHARMD 2007 Drake

Lobb, Timothy Garr, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARMD 2000 Iowa

Lobuznov, Andrew U., Clinical Adjunct Assistant Professor, Family Medicine, 2003 (2003); MD 1995 Kemerovo State Med Inst

Lockard, Erin Mauree, Clinical Adjunct Assistant Professor, Psychology, 1982 (1982); MD 1970 Harvard

Lockhart, Jack M., Clinical Adjunct Instructor, Internal Medicine, 1982 (1988); MD 1970 Harvard

Loening, Stefan, Clinical Adjunct Professor, Urology, 1975 (1982); MD 1965 Medical School Freiburg G

Loening-Baucke, Vera, Emeritus Professor, Pediatrics, 1975 (1992); MD 1967 Med School of Erlangen-Germany
Loewenberg, Gerhard, Emeritus Professor, Political Science, 1969 (1970); BA 1949 Cornell; MA 1950 Cornell; PHD 1955 Cornell

Lofgren, Maria Annette, Clinical Associate Professor, Nursing, 2003 (2013); BSN 1992 Iowa Wesleyan; MSN 1998 Iowa

Logan, Henrietta L., Emeritus Professor, Psych Quant Foundations/Preventive Community Dentistry, 1975 (1992); BA 1961 Wichita; MA 1973 Iowa; PHD 1976 ILWA

Logan, James, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); BS 1975 Augusta State; DDM 1978 Med of Georgia

Logan, Nelson S., Emeritus Professor, Preventive Community Dentistry, 1970 (1978); PHD 1969 Utah

Logemann, Craig D., Adjunct Associate Professor, Pharmacy, 1995 (2004); BS 1988 Iowa; PHARMD 1995 Minnesota

Logsdon, John, Associate Professor, Biology, 2003 (2007); BS 1988 Iowa State; PHD 1995 Indiana

Lohman, David F., Emeritus Professor, Psych Quant Foundations, 1981 (1993); BA 1972 Notre Dame; PHD 1979 Stanford

Lohmuller, Joseph L., Clinical Adjunct Professor, Surgery, 1999 (2013); MD 1986 Indiana

London, Barry, Professor, Internal Medicine, 2012 (2012); BS 1975 Augusta State; MD 1978 Medical College of Georgia

Long, Curtis Lowell, Lecturer, Nursing, 2006 (2013); BSN 1995 Iowa; MBA 1999 Iowa; MSN 2000 Iowa

Long, Jeffrey D., Professor, Psychiatry/Biostatistics, 2010 (2010); MA 1992 California State; PHD 1996 Southern CA

Long, Keith R., Emeritus Professor, Occupational Environmental Health, 1960 (1969); BA 1951 Kansas; MA 1953 Kansas; PHD 1960 Iowa

Longfellow, Brenda, Associate Professor, Art Art History, 2005 (2011); PHD 2005 Michigan

Longmuir, Reid Allan, Assistant Professor, Ophthalmology Visual Science, 2008 (2008); BS 1998 Iowa; MD 2002 Iowa

Longmuir, Susannah Quisling, Assistant Professor, Ophthalmology Visual Science/Pediatrics, 2008 (2008); BA 1996 Vanderbilt; MD 2003 Vanderbilt

Longo, Frank J., Emeritus Professor, Ophthalmology Visual Science/Pediatrics, 2008 (2008); BS 1965 Loyola; MS 1965 Oregon State; PHD 1966 Oregon State

Longo, Joseph Frank, Adjunct Associate Professor, Industrial Engineering, 2005 (2006); BSE 1987 Iowa; MS 1990 Iowa; PHD 1996 Iowa

Lonnegren, Karl E., Emeritus Professor, Electrical-Computer Engineering/Physics Astronomy, 1965 (1972); BS 1960 Wisconsin; MS 1962 Wisconsin; PHD 1964 Wisconsin

Looney, Angela Janine, Adjunct Instructor, Journalism Mass Communication, 2011 (2011); BA 1985 Northern Iowa

Loos, Gerald D., Clinical Adjunct Associate Professor, Family Medicine, 1987 (1987); MD 1968 Iowa

Loots, Douglas Wyatt, Adjunct Lecturer, Marketing, 2011 (2011); MBA 2010 Iowa

Lopes, Lola, Emeritus Professor, Management Organizations/Psychology, 1990 (1990); BA 1962 Redlands; MA 1971 California State; PHD 1974 California-San Diego

Losch, Mary E., Clinical Adjunct Associate Professor, Community Behavioral Health, 2004 (2004); BS 1981 Murray State; MA 1985 Iowa; PHD 1988 Iowa

Lottini, Irene, Lecturer, French Italian, 2007 (2012); MA 2002 Universita Degli Studi Di Sien; DR 2007 Universita Degli Studi Di Sien

Louko, Linda J., Clinical Associate Professor, Communication Sciences and Disorders, 2002 (2002); BS 1972 SUNY-Brockport; MA 1977 Nebraska; PHD 1998 Syracuse

Lovaglia, Michael J., Professor, Sociology, 1992 (2003); BA 1987 San Jose State; MA 1989 Stanford; PHD 1992 Stanford

Love, Jean C., Emeritus Professor, Law-Faculty, 1991 (1991); BA 1965 Wisconsin; JD 1968 Wisconsin

Lovell, James P., Clinical Adjunct Instructor, Internal Medicine, 1995 (1995); DO 1985 Kirkville/ Osteopathic Med

Lowe, Timothy J., Professor, Management Sciences, 1989 (1989); BSIE 1965 Iowa State; ME 1967 Iowa State; PHD 1973 Northwestern

Lowenber, Kathy Ann, Adjunct Lecturer, Rehabilitation and Counselor Education, 2005 (2005); BA 1972 Iowa; MA 1993 Iowa

Lowry, Heather, Lecturer, Teaching and Learning, 2001 (2001); BA 1993 Iowa Wesleyan

Lu, Charles Chunhsin, Emeritus Professor, Radiology, 1974 (1991); MD 1956 National Taiwan

Lu, Chien-Tai, Emeritus Professor, Radiology, 1992 (1992); BS 1982 National Taiwan; MD 1984 National Taiwan; PHD 1986 National Taiwan

Lu, Der-Fa, Assistant Professor, Nursing, 2004 (2005); ADN 1982 Taipei; BSN 1984 Taipei; MA 1991 Iowa; PHD 2001 Iowa

Lu, Jia, Professor, Mechanical Engineering, 2001 (2013); BS 1985 Beijing Aeronautics; MENG 1988 Tsinghua; PHD 1999 California-Berkeley

Lubaroff, David M., Professor, Urology/Microbiology, 1973 (1982); BS 1961 Philadelphia-Pharmacy and Sci; MS 1964 Georgetown; PHD 1967 Yale

Ludewig, Gabriele, Professor, Occupational Environmental Health, 2003 (2012); BS 1977 Mainz; MS 1982 Mainz; PHD 1991 Mainz

Ludwig, Gabriele, Professor, Occupational Environmental Health, 2003 (2012); BS 1977 Mainz; MS 1982 Mainz; PHD 1991 Mainz

Luikart, Joan, Adjunct Instructor, Pharmacy, 2006 (2006); BSHP Drake

Lukas, Mary F., Adjunct Instructor, Communication Sciences and Disorders, 1995 (1996); MA 1989 Iowa

Lund, Brian Christopher, Adjunct Assistant Professor, Epidemiology/Pharmacy, 2001 (2001); PHARMD 1999 Iowa; MS 2002 Iowa

Lund, Peter Scott, Clinical Associate Professor, Prosthodontics, 2007 (2007); BFA 1976 Minnesota; DDS 1980 Minnesota; MS 1987 Minnesota
Lundell, Christine M., Adjunct Instructor, Pharmacy, 2010 (2010); BSPH 1990 Drake

Lundgren, Peter Joseph, Lecturer, English as Second Language, 2013 (2013);

Lundquist, April Rose, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARM 2004 Drake

Luo, Sheng-Nian, Adjunct Assistant Professor, Mechanical Engineering, 2010 (2010); PHD 2003 California Institute of Tech

Luo, Yi, Associate Professor, Urology, 2002 (2010); MD 1978 Nanjing Medical

Lutgendorf, Philip A., Professor, Asian Slavic Languages Literature/International Programs, 1985 (2006); BA 1971 Chicago; MA 1982 Chicago; PHD 1986 Chicago

Lutter, Michael, Assistant Professor, Psychiatry, 2012 (2012);

Lutz, Gene M., Clinical Adjunct Professor, Community Behavioral Health, 2004 (2004); BS 1966 Iowa State; MS 1968 Iowa State; PHD 1971 Iowa State

Lutz, Michael A., Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013);

Lutz, Sidney Elaine, Adjunct Instructor, Social Work, 2011 (2011); BSW 1973 Iowa; MSW 1978 Iowa

Lynch, Alison Cornelia, Clinical Associate Professor, Family Medicine/Psychiatry, 2003 (2011); BS 1990 Massachusetts; MD 1998 Iowa

Lynch, Charles Francis, Professor, Epidemiology/Pathology, 1982 (1998); BS 1974 Iowa; MS 1979 Iowa; MD 1979 Iowa; PHD 1984 Iowa

Lynch, Gerald Joseph, Adjunct Professor, Economics, 2009 (2009); PHD 1975 Kentucky

Lynn, Freda B., Assistant Professor, Sociology, 2008 (2008); BA 1998 Michigan; MA 2003 Harvard; PhD 2006 Harvard

Ma, Deqin, Clinical Assistant Professor, Pathology, 2011 (2011); PHD 1988 Kentucky; MD 1988 Shandong Medical Univ.-China

Maalouf, Mouna A., Lecturer, Chemistry, 2007 (2007); PHD 2006 Iowa

Maanum, Mouna A., Lecturer, Chemistry, 2007 (2007); PHD 2006 Iowa

Maas, James Everett, Adjunct Associate Professor, Family Dentistry, 1998 (2012); BBA 1994 Iowa; DDS 1998 Iowa

Maas, Meridean Leone Speas, Emeritus Professor, Nursing, 1976 (1994); BSN 1957 Iowa; MA 1960 Iowa; PHD 1979 Iowa State

Maassen, Rachel Anna, Clinical Associate Professor, Obstetrics Gynecology, 2006 (2013); BS 1998 Iowa; MD 2002 Iowa

Mabry, Tad R., Clinical Associate Professor, Pediatric Dentistry, 2009 (2009); BA 1983 Westminster College; DDS 1987 Oklahoma Col of Dentistry; MS 1994 Nebraska Med Ctr

Mac, Joseph R., Adjunct Assistant Professor, Pharmacy, 1997 (1997); PHARM 1992 Nebraska-Omaha

Macagno, Matilde C., Emeritus Assistant Professor, Mathematics, 1957 (1974); BS 1940 National-Argentina; MS 1958 Iowa

Macauley, Kelly Anne, Adjunct Instructor, Communication Sciences and Disorders, 2007 (2007); BS 1980 Wisconsin; MA 1983 Iowa

Mace, Brandi, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); BS 1999 Nebraska; DDS 2005 Creighton

Macfarlane, Donald E., Professor, Internal Medicine, 1979 (1995); MBBS 1967 London; PHD 1975 London

Macgillivray, Leonard Richard, Professor, Chemistry, 2000 (2010); BSC 1994 Saint Mary’s; PHD 1998 Missouri-Columbia

Machak, Jayne Ann, Adjunct Lecturer, University College Courses, 2011 (2011); BA 2001 SW Texas State; MA 2006 Iowa

Mackey, Michael Austin, Associate Professor, Radiology/Biomedical Engineering, 2000 (2000); PHD 1998 California-Berkeley

Mackinney, A. Clinton, Clinical Assistant Professor, Health Management Policy, 2010 (2010); BA 1978 Miami; MD 1982 Ohio; MS 1998 Wisconsin @ Madison

Macneil, Richard David, Professor, Health and Human Physiology, 1975 (1991); BA 1970 Wisconsin; MED 1975 Springfield; PHD 1979 Iowa

Macpherson, Beth Joann, Adjunct Instructor, Communication Sciences and Disorders, 2007 (2007); BA 1987 Montana; MA 1989 Iowa

Macvey, Carol E., Lecturer, Theatre Arts, 1991 (1999); BA 1966 Notre Dame; MA 1976 Middlebury

Macwilliams, Emily, Adjunct Assistant Professor, Creative Writing, 2013 (2013);

Madia, A., Clinical Adjunct Assistant Professor, Pediatrics, 1999 (1999); MD 1981 American Board of Pediatrics

Madison, Kathi C., Professor, Oral Path,RadiologyMedicine/Dermatology, 1984 (1999); SCB 1975 Brown; MD 1978 Brown

Madsen, Donald H., Emeritus Professor, Mechanical Engineering, 1954 (1960); BSME 1944 Iowa State; MSME 1948 Purdue; PHD 1953 Purdue

Madsen, Douglas K., Emeritus Professor, Mechanical Engineering, 1954 (1960); BSME 1944 Iowa State; MSME 1948 Purdue; PHD 1953 Purdue

Madsen, Mark T., Professor, Radiology/Physics Astronomy, 1988 (2003); BS 1973 Wisconsin-Kenosha; MS
1975 Wisconsin-Madison; MS 1976 Wisconsin-Madison; PHD 1979 Wisconsin-Madison

Madsen, Murray Dean, Adjunct Assistant Professor, Occupational Environmental Health, 2003 (2003); BS 1973 Minnesota; MBA 1984 St. Ambrose

Madsen, Timothy T., Adjunct Instructor, Pharmacy, 2008 (2008); BPharm 1982 Iowa

Madin, Linda Kay, Clinical Adjunct Associate Professor, Psychiatry, 2000 (2007); BA 1981 Luther; MD 1990 Iowa

Magalhaes-Silverman, Margarida, Clinical Professor, Internal Medicine, 1997 (2003); MD 1978 University of Porto

Magboul, Magboul M. A., Clinical Assistant Professor, Anesthesia, 2001 (2001); BS 1969 Khartoum; MBBS 1974 Khartoum

Magle, Patricia Kay, Clinical Adjunct Assistant Professor, Family Medicine, 1994 (2002); BS 1973 Michigan; MD 1977 Michigan

Magnotta, Vincent Alfonso, Associate Professor, Radiology/Biomedical Engineering/Psychiatry, 2003 (2008); BA 1991 Albion; MS 1994 Iowa; PHD 1997 Iowa

Magnuson, Lori Anne, Adjunct Assistant Professor, Rehabilitation and Counseling Education, 2013 (2013); DIP 1977 Franklin-Pierce High School; BA 1981 Northwest College; MA 1998 Seattle University

Maharry, Michael Karl, Clinical Associate Professor, Family Medicine, 1999 (2008); BA 1992 Washington-St. Louis; MD 1996 Iowa

Maher, James W., Emeritus Professor, Surgery, 1985 (1989); BS 1970 Randolph-Macon; MD 1974 Florida

Mahon, Melinda Rae, Adjunct Lecturer, Management Organizations, 2013 (2013);

Mahoney, Larry T., Emeritus Professor, Pediatrics, 1976 (1992); BS 1969 Loras; MD 1973 Iowa

Mahoney, Mark Alan, Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); BA 1980 Bethel; MD 1984 Iowa

Maier, Edward Lee, Adjunct Instructor, Pharmacy, 1998 (1998); BS 1970 Iowa

Maierhofer, Waltraud, Professor, German/International Programs, 1990 (2007); MA 1986 Regensburg-West Germany; PhD 1988 Regensburg-West Germany

Maiers, Jennifer Jo, Adjunct Instructor, Radiology, 2010 (2010); BS 2001 Iowa

Maigaard, Randy N., Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MD 1989 Iowa

Mailhot, Jason M., Adjunct Professor, Periodontics, 2009 (2009); AA 1976 New York @ Farmingdale; BS 1978 New York @ Oneonta; DMD 1981 Pittsburgh; MS 1993 Georgia

Makar, Adel F., Clinical Adjunct Associate Professor, Pediatrics, 1987 (2002); MBBCH 1974 Assuit Egypt

Maklad, Samy Mokhtar, Clinical Assistant Professor, Surgery, 2013 (2013); BS 2003 University of Minnesota

Malanson, George P., Professor, Geography, 1985 (1996); BA 1972 Williams; MS 1978 Utah; PHD 1983 California-Los Angeles

Malech, Dora Rachel, Adjunct Lecturer, Creative Writing, 2006 (2012); BA 2003 Yale; MFA 2005 Iowa

Malenfant, Stephanie June, Clinical Assistant Professor, Pharmacy Practice and Science, 2011 (2013); PHARMD 2011 Iowa

Maley, Joan Elizabeth, Clinical Professor, Radiology, 1997 (2013); BS 1988 Iowa; MD 1992 Iowa

Malichky, Kimberly, Adjunct Assistant Professor, Pharmacy, 2004 (2004); BA 1996 Hastings-NE; PHARMD 2002 Iowa

Malik, Norbert R., Emeritus Professor, Electrical-Computer Engineering, 1967 (1980); BS 1959 Iowa; MSEE 1960 Iowa; PHD 1964 Iowa State

Mallik, Usha, Professor, Physics Astronomy, 1988 (1993); BS 1966 Calcutta University-India; MS 1968 Indian Institute of Tech-India; MA 1972 City College of New York; PHD 1978 City College of New York

Malone, Robert E., Professor, Biology, 1985 (1993); BS 1970 Calif-Los Angeles; PHD 1976 Oregon

Manak, John R., Associate Professor, Biology/Pediatrics, 2008 (2013); BS 1984 Trinity, Hartford CT; MS 1987 New York; PHD 1992 Columbia

Manaligod, Jose M., Associate Professor, Otolaryngology-Head Neck Surgery, 2001 (2004); BA 1986 Northwestern; MD 1990 Illinois-Chicago

Mandsager, Neil Timothy, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 2009 (2009); BS 1978 Wartburg; MD 1982 Iowa

Manganello, Marc, Lecturer, English as Second Language, 2011 (2011); MA 2011 Iowa State

Mangum, Teresa L., Associate Professor, Gender, Women’s and Sexuality Studies/International Programs/ English, 1990 (1996); BA 1976 Appalachian State; MA 1979 North Carolina State; PHD 1990 Illinois-Urbana

Manini, Mhd Louai, Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);

Manning, John, Associate Professor, Music, 2004 (2010); BM 1991 Boston; MM 2002 MA Amherst

Manoylov, Kalina, Adjunct Associate Professor, University College, 2013 (2013);

Manson, Janice, Adjunct Instructor, Preventive Community Dentistry, 2006 (2006); AS 1994 Hawkeye Community

Manvilla Gutierrez, Ricardo Ivan, Adjunct Assistant Professor, Civil-Environmental Engineering, 2012 (2012); PHD 2006 University of Colorado

Marberry, Charles E., Emeritus Professor, Finance, 1959 (1964); BA 1948 Illinois; MA 1950 Stanford; PHD 1952 Illinois
Marce, Pilar, Lecturer, Spanish Portuguese, 2006 (2008); BA 1998 Pompeu Fabra; MA 2003 Purdue; MA 2005 Monterey Institute of Int'l St
Marchalonos, Lee Celia, Adjunct Assistant Professor, Interdisciplinary Programs, 2011 (2011); BA 1996 Wellesley; MFA 2003 Tennessee
Marchik, Mary Anne Marie, Clinical Assistant Professor, Social Work, 1990 (2000); BA 1977 Iowa; MSW 1984 Iowa
Marchini, Leonardo, Assistant Professor, Preventive Community Dentistry, 2013 (2013);
Marchman, James Nathan, Clinical Professor, Psychology, 1977 (2000); BA 1966 Eastern New Mexico; MA 1968 Iowa; PHD 1973 Iowa
Marchusen, Britt Lee, Clinical Assistant Professor, Family Medicine, 1999 (2000); BS 1988 Iowa; MD 1994 Iowa

Mason, Edward E., Emeritus Professor, Surgery, 1953 (1961); BA 1943 Iowa; MD 1945 Iowa; PHD 1953 Minnesota

Mason, Ian C., Emeritus Professor, Music, 1952 (1973); BA 1943 Iowa; AM 1945 Minnesota

Mason, Karen M., Adjunct Assistant Professor, History, 2010 (2010); BA 1975 Bryn Mawr; AM 1981 Minnesota; DR 1991 Michigan

Mason, Kenneth Andrew, Lecturer, Biology, 2007 (2007); BS 1982 Washington; PHD 1991 California @ Davis

Mason, Paul Thomas, Adjunct Lecturer, Accounting, 2009 (2009); BA 1975 Connecticut; MBA 1977 Connecticut

Mason, Sally K., Professor, Biology, 2007 (2007); BA 1972 Kentucky; MS 1974 Purdue; PHD 1978 Arizona

Mason, Sara E., Assistant Professor, Chemistry, 2010 (2010); BS 2001 St. John Fisher; PHD 2007 Pennsylvania

Mastascusa, Nicolo J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2008 Iowa

Mathews, Katherine Dianne, Professor, Neurology/Pediatrics, 1989 (2008); BS 1976 Iowa; MD 1983 Iowa

Mathews, Michael, Adjunct Assistant Professor, Pediatric Dentistry, 2002 (2002); BA 1991 Central; DDS 2000 Iowa

Matowe, Lloyd, Adjunct Assistant Professor, Pharmacy, 2008 (2008); BPharm 1994 Zimbabwe

Matsuda, James Jiro, Clinical Adjunct Assistant Professor, Pediatrics, 2009 (2009); MD 1993 Iowa; MD 1993 Iowa

Matsukura, Michi, Adjunct Assistant Professor, Psychology, 2011 (2011); PHD 2008 Iowa

Matsumoto, Barry D., Associate Professor, Law-Faculty, 1974 (1974); BA 1967 Washington; JD 1970 Washington

Matsuo, Miwa, Assistant Professor, Urban Regional Planning, 2009 (2009); BE 2002 Tokyo, Japan; MS 2004 University of Toyko; MA 2005 Tokyo, Japan; PHD 2008 Harvard; Dr 2008 Harvard Grad School of Design

Matt, Gary David, Adjunct Assistant Professor, Endodontics, 2005 (2005); DDS 1998 Iowa; Cer 2003 Naval Dental, Bethesda

Mattes, Kyle, Assistant Professor, Political Science, 2008 (2008); BA 1997 Northwestern; MA 2005 California Institute of Tech; PHD 2008 California Institute of Tech

Mattes, Timothy Edward, Associate Professor, Civil-Environmental Engineering, 2004 (2010); BSE 1994 John Hopkins; MSE 1995 John Hopkins; PHD 2004 Cornell University

Matthes, William A., Emeritus Associate Professor, Rehabilitation and Counselor Education, 1967 (1970); BA 1961 Knox; MS 1965 Indiana; EDD 1967 Indiana

Matthews, David Carl, Adjunct Instructor, Electrical-Computer Engineering, 2008 (2008); BA 1984 Doane College; BS 1985 Washington; MS 1994 Iowa State

Matthews, Grace, Clinical Adjunct Instructor, Nursing, 2006 (2006); BSN 1995 Iowa; MSN 2000 Iowa

Matvievea, Yulia N., Clinical Assistant Professor, Family Medicine, 2011 (2011); MD 2000 Russian People's Friendship U.

Mauer, David Christopher, Professor, Finance, 2013 (2013);

Mauk, Benjamin David, Adjunct Assistant Professor, Division of Interdisciplinary Program, 2012 (2012);

Maurer, Candida Ruth, Adjunct Assistant Professor, Psych Quant Foundations, 1994 (1994); PHD 1991 Iowa

Maurice, Thomas J., Adjunct Assistant Professor, Pediatric Dentistry, 2003 (2003); BS 1988 Illinois Wesleyan; DDS 1992 Iowa; MS 1995 North Carolina

Maury, Wendy, Professor, Microbiology, 1999 (2012); BA 1976 Duke; MS 1980 North Carolina State; PHD 1988 Virginia

Maxey, E. James, Adjunct Associate Professor, Psych Quant Foundations, 1957 (1971); BS 1957 Illinois State; MS 1959 Iowa; PHD 1967 Iowa

Maxfield, Lynn Milo, Adjunct Instructor, Communication Sciences and Disorders, 2013 (2013); BA 2004 Albertson College of Idaho
Maxson, Jami A., Clinical Adjunct Assistant Professor, Family Medicine, 2000 (2002); BS 1989 Iowa; MD 1993 Iowa

Maxson, Linda, Professor, Biology, 1997 (1997); BS 1964 San Diego State; MA 1966 San Diego State; PHD 1973 California-Berkeley

Maxted, James C., Lecturer, Electrical-Computer Engineering, 2001 (2011); BSEE 1974 Iowa; MSEE 1984 Iowa

Maxwell, Briana Marie, Adjunct Assistant Professor, Division of Performing Arts, 2008 (2008); BS 2005 Austin Pray St.; MFA 2008 Iowa

Maxwell, John A., Adjunct Assistant Professor, Oral Path,RadiologyMedicine, 1999 (1999); DDS 1975 Iowa

Maxwell, Kathryn Ann Buchanan, Adjunct Instructor, Preventive Community Dentistry, 2007 (2007); BA 1974 Iowa

Mayer, Gayle Ann, Adjunct Instructor, Pharmacy, 2008 (2008); BSPH 1975 Drake

Maynard, Jerry Allen, Emeritus Professor, Health and Human Physiology/Anatomy Cell Biology/Orthopaedics and Rehabilitation, 1971 (1981); BA 1958 Northern Iowa; MS 1961 Indiana; PhD 1970 Iowa

Mays, A. Louise, Emeritus Professor, Social Work, (2004);

Mazar, Alexander, Clinical Associate Professor, Internal Medicine, 2007 (2007); MD 1983 Perm, Russia

Mcallister, Bryant F., Associate Professor, Biology, 2002 (2008); BS 1989 Texas A M; MS 1992 Texas A M; PHD 1997 Rochester

Mcbride, Bunny Allen, Emeritus Professor, Art Art History, 1970 (1985); BS 1960 Montana State; MFA 1970 Alfred

Mcbrien, Dianne M., Clinical Associate Professor, Pediatrics, 1997 (2005); MD 1991 Mayo Medical

Mccabe, Donald Ray, Clinical Adjunct Assistant Professor, Pediatrics, 1981 (1981); MD 1971 Iowa

Mccaffrey, Anton P., Adjunct Assistant Professor, Internal Medicine, 2004 (2004); BA 1989 California at San Dieg; PHD 1999 Colorado at Boulder

Mccambridge, Chad, Clinical Adjunct Associate Professor, Family Medicine, 2011 (2011); BS 1997 Iowa; MD 2001 Iowa

Mccarter, Linda, Professor, Microbiology, 1996 (2009); BA 1974 Hawaii; PHD 1983 California-Davis

Mccarthy, Ann Marie, Professor, Community Behavioral Health/Pediatrics/Nursing, 1984 (2005); BA 1972 Simmons; MSN 1976 Boston College; PHD 1990 Iowa

Mccarthy, Christine, Associate Professor, Educ Policy Leadership Studies, 1995 (2001); BA 1976 Quinnipiac; MA 1980 Colorado; MA 1990 Ohio State; PHD 1992 Ohio State

Mccarty, Richard C., Lecturer, Management Organizations, 2004 (2004); BA 1973 University of Northern Iowa

Mccaughey, Paul T., Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); DO 1985 Osteopathic-Des Moines

Mcclimon, Kevin, Adjunct Instructor, Pharmacy, 2000 (2000); BS 1983 Iowa

Mcconville, James B., Clinical Adjunct Assistant Professor, Family Medicine, 1979 (2002); BS 1969 Nortre Dame; MD 1973 Iowa

Mccormick, George R., Emeritus Professor, Geoscience, 1968 (1976); BA 1958 Ohio Wesleyan; PHD 1964 Ohio State

Mccormick, Laurie May, Assistant Professor, Psychiatry, 2005 (2008); MD 1998 American University Car

Mccormick, Michael Leon, Adjunct Assistant Professor, Radiation Oncology, 2001 (2001); BA 1981 Iowa; MS 1985 Iowa; PHD 1989 Iowa

Mccowan, Bernadette Alston, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARMD 2003 North Carolina

Mccray, Paul B., Professor, Microbiology/Internal Medicine/Pediatrics, 1991 (2001); BA 1976 St. Olaf; MD 1981 Iowa

Mccue, James F., Emeritus Professor, Religion, 1965 (1973); BA 1955 Xavier; MA 1958 Loyola University of Chicago; PHD 1961 Wisconsin

Mccue, Maureen F., Clinical Adjunct Assistant Professor, International Programs/Division of Interdisciplinary Program/Epidemiology, 1991 (1991); BA 1969 Wisconsin-Madison; MD 1981 Wisconsin-Madison; PHD 1997 Iowa

Mccunniff, Michael David, Adjunct Instructor, Preventive Community Dentistry, 1999 (1999); DDS 1983 Missouri-Kansas City

Mcdaniel, Deanna L., Clinical Associate Professor, Pharmacy, 2002 (2011); PHARMD 2001 Iowa

Mcdermott, Cortney C., Adjunct Lecturer, Management Organizations, 2013 (2013);

Mcdermott, Mark A., Lecturer, Teaching and Learning, 2012 (2012); BS 1995 Cornell College; MS 2002 Iowa State Univ; PHD 2009 Univ of Iowa
McDonald, Joshua, Clinical Assistant Professor, Radiology, 2012 (2012);
McDonough, Randy Patrick, Adjunct Professor, Pharmacy, 1988 (2003); BSPH 1987 Iowa; MS 1997 Iowa
Mcelroy, Kelly, Adjunct Instructor, University College, 2013 (2013); BA 2005 University of So. California; AMLS 2010 University of British Columbia
Mcelroy, Steven J., Assistant Professor, Pediatrics, 2011 (2011); BS 1995 Juniata; MD 1999 Hahnemann
Mcentaffer, Randall L., Assistant Professor, Physics Astronomy, 2008 (2008); PhD 2007 Colorado, Boulder
Mcfadden, Ryan Clay, Adjunct Lecturer, University College, 2010 (2010); AA 2004 Rock Valley; BA 2006 Northern Illinois; MED 2008 Northern Arizona
Mcfarland, John W., Adjunct Assistant Professor, Preventive Community Dentistry, 1991 (1991); DDS 1967 Northwestern
Mceachey, Mark, Clinical Adjunct Assistant Professor, Internal Medicine, 2007 (2007); BS 1975 Carelton College; MD 1979 Johns Hopkins
Mcgee, Veronica Lou, Adjunct Instructor, Pharmacy, 2008 (2008); BSPH 1996 Drake
Mcgehee, Daniel Victor, Adjunct Associate Professor, Industrial Engineering/Occupational Environmental Health, 1999 (2012); BA 1986 Central Washington; MS 1995 Idaho; PhD 2009 Leeds (UK)
Mcgill, Melissa Ann, Adjunct Assistant Professor, Pharmacy, 2005 (2005); BSPH 1995 Iowa
Mcgill, R. Michael, Clinical Adjunct Assistant Professor, Pediatrics, 2010 (2010); MD 1982 Kansas
Mcgowan, Gerald J., Clinical Adjunct Associate Professor, Family Medicine, 1975 (1982); MD 1963 Iowa
Mcgowan, Stephen E., Professor, International Programs/Internal Medicine, 1986 (1998); AB 1972 Washington; MD 1976 Rochester
Mcgraw, Amyruth, Lecturer, Communication Sciences and Disorders, 2004 (2005); BA 1993 Oberlin College; MFA 1998 Arizona State
Mcgraw, Danielle, Adjunct Instructor, Health and Human Physiology, 2011 (2011); MS 2008 Capella
Mcgregor, Karla K., Professor, Communication Sciences and Disorders, 2005 (2008); BA 1984 North Carolina; MS 1987 Purdue; PHD 1992 Purdue
Mcguire, Don R., Adjunct Assistant Professor, Pharmacy, 2007 (2007); BS 1981 Butler
Mcguire, Linda Ann, Adjunct Lecturer, Law-Faculty, 1979 (2003); BS 1970 State University of New York; MA 1971 Bowling Green State University; JD 1982 IOWA
Mcguire, Sarah Marie, Assistant Professor, Radiation Oncology, 2007 (2007); BS 1998 Milwaukee Sch. of Engineering; PHD 2004 Duke
Mcguire, Steve, Professor, Art Art History/Interdisciplinary Programs, 1988 (2005); BS 1981 Northwest Missouri State; MA 1983 Iowa; PHD 1990 Iowa
Mcintosh, Thomas J., Clinical Adjunct Professor, Internal Medicine, 2000 (2000); MS 1970 Iowa
Mckay, Sherry Lea, Emeritus Assistant Professor, Nursing, 1998 (2004); BSN 1993 Iowa Wesleyan; BSN 1998 Iowa; MSN 1998 Iowa
Mckean, Penny Lee, Adjunct Assistant Professor, Interdisciplinary Programs, 2004 (2004); BA 1976 Washington State; MA 1989 Iowa; MFA 1992 Iowa
Mckeighen, Rosemary J., Emeritus Professor, Nursing, 1975 (1980); BA 1950 Indiana; BSN 1965 California State; MS 1967 UCLA; PHD 1984 Texas
Mckenna, Jon, Adjunct Instructor, Pharmacy, 2002 (2002); BS 1979 Creighton
Mckenna, Ryan P., Adjunct Instructor, Preventive Community Dentistry, 2005 (2005); DDS 2003 Iowa
Mckibben, Kayla Nicole, Adjunct Assistant Professor, Rehabilitation and Counselor Education, 2011 (2011); PHD 2009 Southern Illinois
Mcknight, Carrie Beth, Clinical Assistant Professor, Oral Pathology, 1999 (2001); DDS 1998 Iowa
Mclaren, Rachel Maree, Assistant Professor, Communication Studies, 2008 (2008); BA 2003 LaSalle; MA 2005 Penn State; PHD 2008 Penn State
Mclaughlin, John C., Emeritus Professor, English, 1958 (1967); BA 1950 Kenyon; MA 1952 Toledo; PHD 1961 Indiana
Mclaughlin, Kiley Ann, Adjunct Assistant Professor, Creative Writing, 2013 (2013);
Mclay, Richard W., Adjunct Professor, Biomedical Engineering, 1998 (1998); PHD 1963 Wisconsin-Madison
Mclean, Jesse, Assistant Professor, Cinema Comparative Literature, 2012 (2012);
Mcleese, Donald George, Associate Professor, Journalism Mass Communication, 2003 (2006); BA 1973 North Central; MA 1975 Chicago
Mcleod, Kembrew, Professor, Communication Studies, 2000 (2013); BS 1993 James Madison; MA 1995 Virginia; PhD 1999 Massachusetts-Amherst
Mcleran, Hermine E., Adjunct Associate Professor, Preventive Community Dentistry, 1974 (1987); MPH 1961 Michigan
Mcmins, Kenneth Dean, Adjunct Associate Professor, Occupational Environmental Health, 2004 (2004); BA 1971 Northern Iowa; MD 1976 U of Autonoma de Guadalajara
Mcmullen, Mark F., Adjunct Instructor, Pharmacy, 2005 (2005); BS 1982 Iowa
Mcmurray, Robert M., Associate Professor, Linguistics/Communication Sciences and Disorders/Psychology, 2004 (2010); BA 1998 Cornell University; MS 2003 Rochester, NY; PHD 2004 Rochester, NY
Mcnabb, Scott F., Emeritus Associate Professor, Educ Policy Leadership Studies/Division of Interdisciplinary Program, 1979 (1984); BA 1968 Earlham; MED 1972 Harvard; PHD 1978 Virginia
Mcnamara, James, Assistant Professor, Internal Medicine, 2007 (2009); BSc 1992 Virginia; PhD 2003 Duke

Mcneill, Robin M., Adjunct Instructor, Preventive Community Dentistry, 2005 (2005); AS 2001 Kirkwood; BS 2004 Missouri-KC

Mcnulty, Michael L., Emeritus Professor, Geography, 1969 (1976); BS 1962 California State/Pennsylvania; MA 1964 Northwestern; PhD 1966 Northwestern

Mcpherson, James A., Professor, English/Creative Writing, 1981 (1981); BA 1965 Morris Brown; LLB 1968 Harvard; MFA 1970 Iowa

Mcquistan, Michelle, Associate Professor, Preventive Community Dentistry, 2004 (2013); BA 1997 Notre Dame; DDS 2001 Iowa; MS 2004 Iowa

Mcwilliams, Jennifer K., Clinical Assistant Professor, Psychiatry/Pediatrics, 2009 (2009); MD 2004 Nebraska Med Center

Meadows, Jill Lynelle, Clinical Adjunct Associate Professor, Obstetrics Gynecology, 1999 (2005); BA 1991 Macalester; MD 1995 Iowa

Meeker, Brian Walter, Clinical Adjunct Assistant Professor, Family Medicine, 2010 (2010); BS 1981 Truman Univ; DO 1984 Des Moines

Meeks, Sanford, Adjunct Associate Professor, Radiation Oncology, 1999 (1999); BS 1989 Florida Southern; MS 1991 Florida; PhD 1994 Florida

Mehdi, Haider, Assistant Professor, Internal Medicine, 2012 (2012);

Meier, Jeffery Linn, Associate Professor, Internal Medicine, 1993 (2004); BS 1981 Iowa; MD 1986 Iowa

Meisenbach, Rebecca, Adjunct Associate Professor, Communication Studies, 2012 (2012);

Meisterheim, Melissa, Lecturer, English as Second Language, 2009 (2010); BA 1998 Truman State; MA 2001 Iowa

Mekies, Saul, Adjunct Lecturer, Management Organizations, 2009 (2009); MA 1984 Connecticut

Melcher, Jon Christian, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Melchert, Thomas E., Emeritus Associate Professor, Biology, 1963 (1968); BA 1958 Lawrence; MS 1960 Wisconsin; PhD 1963 Texas

Melessa, Samuel Joseph, Assistant Professor, Accounting, 2012 (2012);

Mellen, Katherine Rose, Lecturer, Health and Human Physiology, 2000 (2000); MA 1997 Iowa; PhD 2007 Iowa

Melloy, Michael Joseph, Adjunct Instructor, Law-Faculty, 2012 (2012);

Menda, Yusuf, Associate Professor, Radiology/Radiation Oncology, 2001 (2011); MD 1994 Istanbul

Mendez, Adriana, Professor, Spanish Portuguese/International Programs, 1985 (1998); BA 1972 Cincinnati; MA 1974 Duke; PhD 1979 Cornell

Mendoza, Sergio Andres, Clinical Associate Professor, Orthopaedics and Rehabilitation, 2001 (2007); MD 1990 Pontifica Catolica

Meng, Xiangbing, Assistant Professor, Obstetrics Gynecology, 2009 (2009); BA 1990 Beijing Normal; MS 1995 Beijing Normal; PhD 1998 Beijing Inst Radiology

Menken, Crystal Marie, Clinical Adjunct Assistant Professor, Family Medicine, 2013 (2013);

Mennen, James, Adjunct Instructor, Pharmacy, 2000 (2000); BS 1991 Iowa

Menninger, John R., Emeritus Professor, Biology, 1972 (1978); BA 1957 Harvard; PhD 1964 Harvard

Mentzer, Raymond A., Professor, Religion/History, 2001 (2001); AB 1967 Fordham; MA 1970 Wisconsin; PhD 1973 Wisconsin

Merchant, James A., Professor, Occupational Environmental Health/Nursing, 1981 (1981); BS 1962 Iowa State; MD 1966 Iowa; PhD 1973 North Carolina

Merchant, John Arthur, Adjunct Assistant Professor, Cinema Comparative Literature, 2007 (2007); PhD 2006 Chicago

Meredith, Patricia Kay, Clinical Associate Professor, Operative Dentistry, 1984 (2000); BS 1979 Iowa; DDS 1983 Iowa; MS 2008 Iowa

Mergenthaler, Richard D., Assistant Professor, Accounting, 2008 (2008); PhD 2008 Washington

Merideth, Jeff, Adjunct Instructor, Pharmacy, 2005 (2005); BSPH Creighton

Merino, Ana, Associate Professor, Spanish Portuguese, 2009 (2009); LIC 1995 Universidad Autonoma de Madrid; MA 1997 Ohio State; PhD 2001 Pittsburgh

Merkitch, Kenneth W., Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 1995 (1995); MD 1984 Northwestern

Merlino, Robert L., Professor, Physics Astronomy, 1981 (1992); BS 1973 St Joseph’s; PhD 1980 Maryland

Merrick, Robert J., Clinical Adjunct Assistant Professor, Family Medicine, 1979 (2002); BS 1966 Iowa; MD 1969 Iowa

Merrifield, Elizabeth A., Adjunct Instructor, Communication Sciences and Disorders, 1985 (1996); BS 1962 Wisconsin; MS 1964 Wisconsin; PhD 1978 Iowa

Merrill, Katherine, Associate Professor, International Programs/English/International Writing, 2000 (2000); MA 1982 Washington

Merrill, Nathan Patrick, Adjunct Assistant Professor, Pharmacy, 2010 (2010); PHARMD 2005 Iowa

Merrill, Christopher, Professor, Cinema Comparative Literature/International Programs/English/International Writing, 2000 (2000); MA 1982 Washington

Mertens, Carol Elaine, Adjunct Assistant Professor, Teaching and Learning, 2000 (2000); BS 1975 Northeast Missouri; MA 1989 Iowa; PhD 2000 Iowa

Messerele, Louis, Associate Professor, Radiology/Chemistry, 1984 (1990); SCB 1975 Brown; PhD 1979 Massachusetts Inst of Tech

Messingham, Kelly A. Nordyke, Assistant Professor, Dermatology, 2009 (2009); BS 1993 Iowa State; MS 1995 Iowa State; PhD 2001 Loyola
Metzger, Ann Marie, Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); BS 1980 Mount Mercy; MD 1993 Iowa

Metzger II, Robert J., Adjunct Assistant Professor, Rehabilitation and Counselor Education, 2010 (2010); BGS 2001 Cornell College; MA 2004 Forest Institute; PSYD 2006 Forest Institute

Meurice, Yannick, Professor, Physics Astronomy, 1990 (2003); BS 1981 Université Catholique de Louvain; PHD 1985 Université Catholique de Louvain

Meyer, David L., Adjunct Assistant Professor, Orthodontics, 2009 (2009); DDS 1987 Iowa; MS 1989 Louisville

Meyerholz, David Kyle, Associate Professor, Pathology, 2006 (2011); DVM 1994 Iowa State; MS 2001 Iowa State; PHD 2004 Iowa State

Mezhir, James John, Assistant Professor, Surgery, 2010 (2010); MD 2001 Buffalo

Miakotina, Olga L., Adjunct Assistant Professor, Biology, 2011 (2011); PHD 1988 Moscow State, Russia

Michaelson, Jacob J., Assistant Professor, Psychiatry, 2013 (2013);

Michaelson, Susan Dominy, Adjunct Assistant Professor, Rehabilitation and Counselor Education, 2003 (2005); BA 1983 Texas Lutheran; MA 2001 Iowa; PHD 2005 Iowa

Michels, Timothy Lee, Adjunct Associate Professor, Family Dentistry, 1987 (2000); BS 1981 Drake; DDS 1985 Iowa

Midgett, Douglas K., Emeritus Associate Professor, Anthropology, 1972 (2010); BA 1965 Montana; PHD 1977 Illinois

Mineck, Daniel, Adjunct Lecturer, Mechanical Engineering, 2007 (2007); BSME 1971 Iowa State

Minion, F. Chris, Adjunct Professor, Microbiology, 2010 (2010); PHD 1983 Alabama, Birmingham

Mintner, Paul J., Adjunct Lecturer, University College, 2012 (2012);

Mirr, Ronald Kurt, Adjunct Instructor, Urban Regional Planning/Social Work, 1997 (1997); BA 1981 Purdue; MSW 1987 Iowa

Mishra, Leenu, Clinical Adjunct Assistant Professor, Psychiatry, 2011 (2011); MD 1999 MKCG Medical

Missall, Kristen, Associate Professor, Psych Quant Foundations, 2009 (2009); BA 1996 Nebraska; MA 1999 Minnesota; PHD 2002 Minnesota

Mitchell, Katie D., Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARM 2006 Drake

Mitchell, Sara Beth, Professor, Political Science, 2004 (2011); BS 1991 Iowa State; MA 1993 Michigan State; PHD 1997 Michigan State

Mitchell, Teresa Marie, Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARM 2008 Iowa

Mitros, Frank A., Emeritus Professor, Pathology, 1976 (1988); BS 1965 Seton Hall; MD 1969 New Jersey College of Medicine

Mittelberg, K. Neil, Clinical Adjunct Assistant Professor, Urology, 2002 (2002); MD 1990 Loyola

Mixdorf, Tracy Michele, Clinical Adjunct Assistant Professor, Family Medicine, 2006 (2006); BS 1992 Iowa; DO 1998 Osteopathic Medicine; MHA 1998 Osteopathic Medicine

Mobily, Kenneth Edward, Professor, Health and Human Physiology, 1979 (1994); BA 1972 Kent State; MA 1977 Iowa; PHD 1981 Iowa

Mobily, Paula Renay, Emeritus Associate Professor, Nursing, 1976 (1994); BSN 1971 Ohio State; MSN 1976 Cincinnati; PHD 1987 Iowa

Modrick, Joseph M., Clinical Assistant Professor, Radiation Oncology, 2002 (2002); BS 1989 Northern Iowa; MS 1994 Iowa; MS 1998 Wisconsin; PHD 2000 Wisconsin

Moeller, Lon D., Clinical Professor, Management Organizations, 1994 (2007); BBA 1982 Iowa; MA 1984 Iowa; JD 1987 Iowa

Mogbo, Patrick N., Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Mohammad, Yasemin, Assistant Professor, German, 2013 (2013);

Mohapatra, Durga Prasanna, Assistant Professor, Pharmacology/Anesthesia, 2008 (2008); BS 1993 Utkal Uni, Bhubaneswar, India; MS 1997 Nat Dairy Inst, Kamal, India; PHD 2003 Erlangen-Nurnberg

Mohler, Peter J., Adjunct Professor, Internal Medicine, 2006 (2011); BS 1995 Wake Forest; PHD 2000 North Carolina

Mohr, Nicholas Matthew, Clinical Assistant Professor, Anesthesia/Emergency Medicine, 2011 (2011); MD 2006 Iowa

Moline, David O., Emeritus Professor, Family Dentistry, 1983 (1992); DDS 1953 Washington

Molis, Marc Alan, Clinical Adjunct Assistant Professor, Family Medicine, 2008 (2008); BS 1996 Illinois Wesleyan; MD 2000 Northwestern

Molis, Whitney Elizabeth, Clinical Adjunct Assistant Professor, Pediatrics, 2008 (2008); MD 2001 Northwestern

Momany, Elizabeth Trumpold, Adjunct Assistant Professor, Preventive Community Dentistry, 1990 (2010); BS 1982 Iowa; MA 1984 Iowa; PHD 1988 Iowa

Monette, Shonda Lashay, Adjunct Instructor, Chemistry, 2001 (2011); BS 1998 Southern Univ @ New Orleans; MS 2001 Iowa

Monick, Martha Mary Fultz, Professor, Internal Medicine, 2009 (2009); BA 1986 Iowa; PHD 2007 Iceland

Monserud, Gerald Dale, Adjunct Associate Professor, Family Dentistry, 1985 (2000); BS 1974 Iowa; DDS 1980 Iowa

Montgomery, Ian, Clinical Adjunct Professor, Health Management Policy, 2007 (2010); BA 1975 Iowa; MHA 1979 Iowa

Montgomery, John C., Emeritus Professor, Oral Maxillofacial Surgery, 1974 (1974); BA 1952 Missouri; DDS 1956 Missouri-Kansas City; MS 1959 Missouri-Kansas City

Montgomery, Lou Ann, Clinical Adjunct Assistant Professor, Nursing, 2000 (2001); MA 1988 Iowa; PHD 2000 Iowa

Montgomery, Rex, Emeritus Professor, Biochemistry, 1955 (1964); BSC 1943 Birmingham; PHD 1946 Birmingham-England; DSc 1963 Birmingham-England

Moon, Jerald B., Professor, Communication Sciences and Disorders, 1985 (2009); BS 1978 Western Ontario-Canada; MS 1980 Western Ontario-Canada; PHD 1985 Purdue

Mooney, Barbara B., Associate Professor, International Programs/Art Art History, 2002 (2006); BA 1975 Missouri-St. Louis; MA 1980 Illinois; PHD 1991 Illinois

Moonjely, Anita J., Clinical Assistant Professor, Pediatrics, 2007 (2007); MBBS 1993 Coimbatore, India; MD 1995 Coimbatore,India

Moonjely, Joe, Clinical Adjunct Assistant Professor, Internal Medicine, 2003 (2003); BA 1984 Univ of Calicut, India; MD 1991 Trichur Medical College

Moore, Betty Marguerite, Adjunct Instructor, Psychiatry, 1999 (1999); BA 1980 Illinois; MSW 1983 Illinois

Moore, Cathleen M., Professor, Psychology, 2007 (2007); BA 1988 Hamilton; PHD 1994 California-San Diego

Moore, Daniel, Professor, Music, 1996 (2006); BME 1981 East Texas State; MM 1985 Wichita State; DMA 2000 Kentucky

Moore, Duncan, Adjunct Lecturer, Health Management Policy, 2003 (2008); BA 1963 Florida State; MA 1965 Iowa

Moore, Joseph P., Adjunct Assistant Professor, Pharmacy, 2002 (2002); PHARMD 1994 Creighton

Moore, Joyce L., Associate Professor, Psych Quant Foundations, 1994 (2000); BS 1985 Pittsburgh; PHD 1993 Stanford

Moore, Michael Edward, Associate Professor, History/International Programs, 2008 (2011); AB 1984 Michigan; AM 1987 Michigan; PHD 1993 Michigan

Moore, Pamela Sue, Adjunct Instructor, Social Work, 2000 (2000); BA 1982 Iowa; BBA 1983 Iowa; MSW 1987 Iowa

Moore, Steven A., Professor, Pathology, 1986 (1995); BS 1977 Purdue; PHD 1980 Indiana; MD 1982 Indiana

Moore, Kevin Gene, Clinical Associate Professor, Pharmacy, 1987 (2005); PHARMD 1979 Nebraska

Moorehead, Sue Ann Parmeter, Associate Professor, Nursing, 1984 (1999); BSN 1972 Maryland; MA 1982 Iowa; PHD 1993 Iowa

Mora, Francisco, Adjunct Professor, Physiology, 1995 (1995); BS 1970 Granada; MD 1974 Granada; PHD 1978 Oxford

Moran, Michael E., Adjunct Instructor, Health and Human Physiology, 1985 (1985); BA 1978 Northern Colorado; MA 1979 Northern Colorado

Morarend, Quinn, Adjunct Assistant Professor, Periodontics, 2003 (2010); DDS 2001 Iowa; MS 2009 Iowa

Morcuende, Jose A., Professor, Orthopaedics and Rehabilitation/Pediatrics, 2001 (2013); MD 1981 Autonoma Madrid

Morcuende, Maria Angeles, Clinical Assistant Professor, Psychiatry, 2007 (2007); MD 1994 Autonoma DeMadrid

Moreland, Jessica Germond, Professor, Pediatrics, 1998 (2013); BS 1988 Duke; MD 1992 Vanderbilt

Morelli, Brian A., Adjunct Instructor, University College, 2009 (2011); AA 2002 Des Moines; BA 2005 Iowa

Moreno Uribe, Lina Maria, Assistant Professor, Dows Institute-Research, 2008 (2008); DDS 1991 Medellin Colombia; PHD 2005 Iowa

Moreton, Melissa N., Adjunct Assistant Professor, Interdisciplinary Programs, 2013 (2013); BA 1990 University of Illinois; MA 2003 Syracuse University

Morf, Paul, Adjunct Lecturer, Law-Faculty, 2003 (2003); AB 1994 Dartmouth; SJD 1997 Yale

Morgan, Dale D., Clinical Adjunct Professor, Anesthesia, 2002 (2002); BA 1947 Coe; MD 1951 Iowa

Morgan, Donald P., Emeritus Professor, Occupational Environmental Health, 1973 (1983); BS 1944 Franklin Marshall; MD 1947 Indiana; MS 1949 Northwestern; PHD 1953 Northwestern

Morgan, Douglas Eugene, Adjunct Assistant Professor, Pharmacy, 1991 (1991); BS 1978 Iowa; MS 1980 Iowa

Morgan, John D., Adjunct Associate Professor, Family Dentistry/Preventive Community Dentistry, 2000 (2002); BS 1970 Iowa; DDS 1975 Iowa

Morgan, Melanie, Adjunct Associate Professor, Journalism Mass Communication/Communication Studies, 2012 (2012);

Morgan, Teresa Anne, Clinical Associate Professor, Hospital Dentistry, 2001 (2007); BA 1990 Iowa; DDS 1993 Iowa; MS 1997 Iowa

Moriguchi, Takako, Assistant Professor, Physiology, 2010 (2012); MA 1997 Tokyo; PHD 2002 Tokyo

Morio, Dominic Gerard, Adjunct Assistant Professor, Hospital Dentistry/Oral Maxillofacial Surgery, 2007 (2010); BS 1998 Iowa; DDS 2002 Iowa

Morita, Craig T., Associate Professor, Internal Medicine, 1998 (1998); PHD 1990 Calif-San Francisco; MD 1990 Calif-San Francisco

Moritani, Toshio, Clinical Professor, Radiology, 2004 (2013); MD 1987 Showa UNIV Tokyo; PHD 1991 Showa UNIV Tokyo

Moroco, Laurie J., Adjunct Associate Professor, Communication Studies, 2011 (2011); MA 1995 Duquesne; PHD 2005 Duquesne

Morris, Adalaide, Emeritus Professor, English, 1974 (1985); BA 1964 Wells; MA 1966 Minnesota; PHD 1972 Minnesota

Morris, Carrie, Adjunct Lecturer, University College Courses, 2013 (2013); MA 2009 University of Wisconsin

Morris, Hughlett, Emeritus Professor, Communication Sciences and Disorders/Otolaryngology-Head Neck Surgery, 1957 (1969); BA 1952 Iowa; MA 1957 Iowa; PHD 1960 Iowa

Morris, Woodrow W., Emeritus Professor, Social Work/Nursing, 1948 (1959);

Morrison, Dianne R., Adjunct Instructor, Pharmacy, 1997 (1997); BS 1972 Purdue

Morriss, Mary J., Emeritus Professor, Pediatrics, 1987 (2003); BS 1965 Bucknell; MD 1969 Duke

Morriss Jr., Frank H., Professor, Pediatrics, 1987 (1987); BA 1962 Virginia; MD 1966 Duke

Morton, Roscoe F., Clinical Adjunct Assistant Professor, Internal Medicine, 2001 (2001); MD 1976 Kansas

Mosel, David John, Professor, Psychiatry, 1999 (2011); BA 1989 Colby; MS 1995 Florida; PHD 1997 Florida

Mosor, Mark G., Adjunct Assistant Professor, Health Management Policy, 1994 (2003); BS 1986 University of Iowa; MA 1988 Iowa

Mosher, Hilary Jean, Clinical Assistant Professor, Internal Medicine, 2011 (2011); BA 1994 Dartmouth; MFA 1998 Warren Wilson; MD 2008 Iowa
Mosher, Mary A., Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARMD 2007 Iowa

Moss, Janalyn L., Adjunct Instructor, University College, 2011 (2013); BS 1994 Illinois State; MA 1998 IL @ Springfield; MS 2000 IL, Urbana-Champaign

Moss, Kenton Kraig, Clinical Adjunct Assistant Professor, Family Medicine, 1994 (2002); BS 1974 Iowa; MD 1978 Iowa

Mostashari, Firoozeh, Adjunct Associate Professor, History, 2008 (2008); BA 1986 Cornell; MA 1987 Cornell; PhD 1995 Pennsylvania

Mote, Gale J., Adjunct Lecturer, Management Organizations, 1995 (2000); BA 1981 Coe College; MBA 1994 Iowa

Motwani, Bharat, Clinical Adjunct Assistant Professor, Internal Medicine, 2010 (2010); MBBS 1998 Punjabrao Deshmukh Med Coll; MBCH 1998 Punjabrao Deshmukh

Moutlon, Jennifer Renee Pertzborn, Adjunct Instructor, Pharmacy, 1997 (1997); BSPH 1991 Iowa

Mount, Michael K., Professor, Management Organizations, 1981 (1993); BS 1973 Iowa; MS 1975 Iowa State; PhD 1977 Iowa State

Moussa, Hind, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 2012 (2012);

Moy, Alan B., Adjunct Associate Professor, Biomedical Engineering, 1993 (2000); BS 1981 Calif-Davis; MD 1985 Creighton

Moyer-Rowley, William, Professor, Internal Medicine/Physiology, 1989 (2002); BS 1981 Illinois-Urbana; PhD 1986 Purdue

Moyers, John R., Professor, Anesthesia, 1979 (1990); BS 1969 Iowa; MD 1973 Iowa

Mozena, Emily Nicole Ratzel, Lecturer, Health and Human Physiology, 2003 (2009); BFA 2001 Iowa; MA 2003 Iowa

Mraz, Royann C., Clinical Associate Professor, Pediatrics, 1999 (2008); BS 1973 Purdue; MD 1978 Maryland

Mudumbai, Raghuraman, Assistant Professor, Electrical-Computer Engineering, 2009 (2009); BT 1998 Indian Inst of Tech Madras; MS 2000 Brooklyn Polytechnic; PhD 2007 UC Santa Barbara

Muehl, Siegmar, Emeritus Professor, Psych Quant Foundations, 1958 (1966); MA 1948 Chicago; MS 1953 New York State Teachers; PhD 1959 Iowa

Mueller, Charles W., Emeritus Professor, Sociology, 1972 (1983); BS 1965 Iowa State; MS 1967 Iowa State; PhD 1973 Wisconsin

Mueller, Kathryn Lyndsay, Adjunct Assistant Professor, Communication Sciences and Disorders, 2012 (2012); BA 2003 University of Nottingham; MS 2006 Reading University

Mueller, Keith, Professor, Health Management Policy/Public Policy Center, 2010 (2010); BA 1973 Wisconsin-Milwaukee; MA 1975 Wisconsin-Milwaukee; PhD 1979 Arizona

Mueller, Martin, Clinical Assistant Professor, Anesthesia, 2008 (2008); MD 1998 Rostock, Germany

Mueller, Rashmi, Clinical Associate Professor, Anesthesia, 2008 (2008); MD 1990 Bombay

Muir, Mary C., Professor, Actuarial Science, 1998 (2000); BS 1998 Illinois State; MS 1999 Illinois State; PhD 2001 Illinois State

Mulhausen, Paul L., Adjunct Professor, Internal Medicine, 1990 (1993); BS 1986 WI, Madison

Muller, Barbara Ann, Clinical Adjunct Professor, Internal Medicine, 1991 (2003); BS 1978 St Peters College; MD 1982 Autonomous Univ of Guadalajara

Mullin, Karen R., Adjunct Assistant Professor, Social Work, 2005 (2005); DR 1994 Cincinnati

Mullins, Robert F., Associate Professor, Ophthalmology Visual Science/Physiology, 2001 (2007); BS 1989 Wheaton; MS 1991 Saint Louis; PhD 1998 Saint Louis

Mulrooney, Thomas P., Adjunct Lecturer, Health Management Policy, 2012 (2012);

Mundt, Jennifer Lynn, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Munoz, Kristine L., Professor, Communication Studies, 1995 (2005); BS 1980 Texas-Austin; BA 1980 Texas-Austin; MA 1982 Texas-Austin; PhD 1989 Washington

Murhammer, David W., Professor, Chemical Biochemical Engineering, 1989 (2003); BS 1979 Oregon State; MS 1982 Oregon-State; PhD 1989 Houston

Murhammer, Joan Marie, Adjunct Assistant Professor, Pharmacy, 1997 (2003); BS 1990 Iowa; BSPH 1990 Iowa

Murphy, Mary M., Lecturer, Accounting, 2001 (2001); JD 1988 Iowa

Murphy Marx, Maurita, Professor, Music, 1983 (2000); BM 1976 Eastman School of Music; MM 1979 Michigan State

Newland, Brand, Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARMD 2005 Iowa
Newland, Catherine Diane. Clinical Assistant Professor, Pediatrics, 2013 (2013);

Newsom, Charles R.. Emeritus Associate Professor, Physics Astronomy, 1985 (1989); BS 1974 Texas-Austin; PHD 1980 Texas-Austin

Neyens, Deborah M.. Adjunct Lecturer, Management Organizations, 2013 (2013);

Ng, Benton. Clinical Assistant Professor, Pediatrics, 2012 (2012);

Nguyen, Anh Thu. Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARMD 2009 Rutgers

Nguyen, Bic T.. Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARMD 2008 Philadelphia

Nguyen, Hien M.. Associate Professor, Chemistry, 2009 (2013); BS 1996 Tufts; PHD 2003 Illinois @ Champaign

Ni, Jun. Associate Professor, Radiology/Biomedical Engineering/Mechanical Engineering, 1998 (2003); BS 1982 Harbin Shipbuilding Engineerin; MS 1984 Shanghai Jan; PHD 1991 Iowa

Nibbelink, William H.. Emeritus Professor, Teaching and Learning, 1971 (1980); BA 1961 Michigan; MS 1965 Iowa; PHD 1971 Ohio State

Noble, Nathan Ross. Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);

Noblett-Feld, Reta. Emeritus Professor, Law-Faculty, 1991 (2006); BA 1980 Iowa; JD 1983 Iowa

Nock, Jeffrey Bowman. Adjunct Lecturer, Management Organizations, 2012 (2012);

Noiseux, Nicolas Olivier. Clinical Assistant Professor, Orthopaedics and Rehabilitation, 2007 (2007); BSC 1996 McGill; MD 2000 McGill Medical School; MSC 2007 Mayo Grad Schl-Clin Res Trn Pr

Noppe, Peggy Colleen. Professor, Inst for Clinical and Translational Science/Psychiatry/Pediatrics, 1994 (2005); MD 1989 Iowa

Nordquist, Gerald L.. Emeritus Professor, Economics, 1954 (1968); BSC 1953 Iowa; MA 1956 Iowa; PHD 1960 Iowa

Nordstrom, J. David. Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MD 1975 Kansas

Norian, Lyse A.. Assistant Professor, Urology, 2008 (2011); BS 1988 Iowa State; PHD 2000 Iowa

Noring, Ted Edmund. Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); AB 1996 Cornell College; BA 1996 Cornell; DDS 2001 Iowa

Norris, Andrew William. Associate Professor, Biochemistry/Pediatrics, 2005 (2012); BS 1989 Mass, Inst of Tech Cambri; PHD 1997 Wash St. Louis; MD 1997 Wash @ St. Louis
Norris, Calvin Walker, Adjunct Lecturer, Finance, 1998 (1998); BBA 1992 Iowa; MBA 2001 Iowa

Norris, William R., Adjunct Professor, University College, 2010 (2010); BS 1981 Lake Superior State; MS 1995 Iowa State; PHD 1999 Iowa State

Northrup, Jamie Alan, Adjunct Lecturer, Management Organizations, 2011 (2011); BBA 1995 Iowa

Northup, John, Associate Professor, Psych Quant Foundations/Pediatrics, 2003 (2006); BA 1977 Iowa; MA 1987 Mankato State

Nosikova, Ksenia, Professor, Music, 1998 (2010); BA 1985 Moscow State Tchaikovsky Conser; MA 1989 Moscow State Tchaikovsky Cons; DMA 1997 Colorado-Boulder

Nothnagle, John, Emeritus Professor, French Italian, 1959 (1973); BA 1949 Rochester; BA 1950 Toulouse-France; MA 1954 Wisconsin; PHD 1959 Wisconsin

Notthwehr, Faryle, Associate Professor, Community Behavioral Health, 2001 (2001); BS 1981 Winona State; MA 1987 St Thomas; MPH 1993 Minnesota; PHD 1997 Michigan

Nottingham-Spencer, Bruce H., Lecturer, German, 2000 (2000); BA 1993 Virginia; MA 1995 Michigan; PHD 2000 Michigan

Nourski, Kirill Vadimovich, Assistant Professor, Neurosurgery, 2009 (2009); MD 2001 St. Petersburg State; PHD 2006 Iowa

Noyes Jr., Russell, Emeritus Professor, Psychiatry, 1965 (1978); BA 1956 DePauw; MD 1959 Indiana

Nugent, Andrew S., Clinical Professor, Emergency Medicine, 1999 (2009); BS 1992 Iowa; MD 1996 Iowa

Nunge, Mark Richard, Clinical Adjunct Assistant Professor, Emergency Medicine, 2007 (2007); MD 1993 Washington

Nuxoll, Eric Edward, Assistant Professor, Chemical Biochemical Engineering, 2008 (2008); BS 1998 Idaho; PHD 2003 Minnesota

O'Boyle, Ernest H., Assistant Professor, Management Organizations, 2012 (2012);

O'Brien, James Dennis, Adjunct Instructor, International Writing, 2011 (2011); BA 2007 St. Mary's Maryland; MFA 2011 Iowa State

O'Brien, Mary K., Adjunct Assistant Professor, Nursing, 2004 (2004); BSN 1998 Iowa; MSN 2002 Iowa; JD 2007 Concord Law

O'Brien, Matthew J., Adjunct Assistant Professor, Psych Quant Foundations, 2013 (2013); DIPL 1996 Aledo High School; BS 2002 Western Illinois University; EDS 2006 Western Illinois University

O'Connor, Annette Maree, Adjunct Professor, Epidemiology, 2008 (2013); BVSC 1993 Sydney; DVM 2000 Guelph

O'Grady, Peter, Professor, Industrial Engineering, 1995 (1995); BS 1973 Cambridge; MS 1977 Cambridge; PHD 1981 Nottingham

O'Hara, Michael William, Professor, Psychology, 1980 (1990); BA 1974 Memphis State; MS 1978 Pittsburgh; PHD 1980 Pittsburgh

O'Leary, Dennis M., Adjunct Associate Professor, Economics, 2009 (2009); PHARMD 2008 Ohio State

O. Rourke, Barbara Lea Wolf, Adjunct Assistant Professor, Rehabilitation and Counselor Education, 1985 (1996); BSN 1975 Iowa; MA 1985 Iowa; PHD 1996 Iowa

Oakes, Elizabeth A., Lecturer, Music, 1998 (2001); MM 1991 Cleveland Institute

Oates, Thomas Patrick, Assistant Professor, Journalism Mass Communication/American Studies, 2004 (2012); BA 1996 Georgetown; MA 1999 St Louis

Obr, Clark Joseph, Clinical Associate Professor, Anesthesiology, 2006 (2007); MD 1986 South Dakota

Obreiter, Steven Roy, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); DDS 2008 Michigan

Oden, Greg C., Emeritus Professor, Computer Science/Physics, 1990 (1990); BA 1969 South Dakota; PHD 1974 California-San Diego

Odgaard, A. Jacob, Professor, Civil-Environmental Engineering, 1977 (1989); MS 1966 Tech Univ of Denmark; PHD 1970 Tech Univ of Denmark

Odonnell, Michael A., Professor, Urology, 2000 (2005); BA 1978 Northwestern; MD 1984 Duke

Olorun, M. Sue, Professor, Pediatrics, 1999 (1999); BS 1967 Creighton; MS 1969 Nebraska; PHD 1972 Nebraska; MD 1985 Ohio State

Olorun, Thomas Michael, Professor, Internal Medicine, 1999 (1999); BS 1965 Regis; MS 1967 Creighton; MD 1971 Creighton

Oelschlaeger, Douglas Robert, Adjunct Lecturer, Law-Faculty, 2013 (2013);

Oetting, Marguerite H., Clinical Assistant Professor, Pediatrics, 2008 (2008); MD 1988 Duke
Oetting, Thomas A., Clinical Professor, Ophthalmology
Duke; MD 1991 Duke

Ogren, Christine A., Associate Professor, Educ Policy
Leadership Studies, 1999 (2005); BA 1987 Carlton; MA 1993 Wisconsin; PHD 1996 Wisconsin

Ohashi, Kenjiro, Clinical Professor, Radiology, 2002
(2007); MD 1984 Yokohama; PHD 1998 St. Marriana
University

Ohl, Michael, Assistant Professor, Internal Medicine,
2008 (2008); BS 1990 Wisconsin @ Eau Claire; MD 1996
Washington

Oehlerking, Ryan Patrick, Lecturer, English as Second
Language, 2011 (2011); MA 2011 Illinois-Urban

Ohlmann, Jeffrey W., Associate Professor, Management
Sciences, 2003 (2009); BA 1998 Nebraska; MS 2000
Michigan; PHD 2003 Michigan

Ohmes, Allen F., Emeritus Professor, Music, 1964 (1970);
BM 1953 Baldwin Wallace; MM 1959 Rochester

Ohnesorge, Kimberly Arlene Elizabeth, Adjunct
Instructor, Medicinal Natural Products, 2009 (2009); BSPH 1996 Iowa

Ohrt, Angela Margaret, Adjunct Instructor, Social Work,
2011 (2011); BA 2006 Wartburg College; MSW 2008
University of Iowa

Okeoma, Chioma M., Assistant Professor, Microbiology,
2010 (2010); BS 1996 Federal of Agr-Nigeria; MS 2000
Federal of Agr-Nigeria; PhD 2006 Massey

Olen, William H., Emeritus Professor, Orthodontics/
Otolaryngology-Head Neck Surgery, 1948 (1963); DDS
1947 Marquette; MS 1948 Iowa

Oliveira, Suely P., Professor, Mathematics/Computer
Science, 1998 (2008); BS 1983 Pernambuco; MS 1988
Colorado-Denver; PhD 1993 Colorado-Denver

Oliver, Sarah Elizabeth, Adjunct Instructor, Social Work,
2002 (2002); BS 1995 Grand Valley State; MSW 2000 Iowa

Oliver Rajan, Julia, Lecturer, Spanish Portuguese, 2013
(2013);

Oliver, Alicia Kathleen, Assistant Professor, Pathology,
2010 (2010); DVM 2005 Mississippi State

Olivo, Horacio F., Associate Professor, Pharmacy, 1995
(2002); BS 1984 Universidad LaSalle-Mexico; MS 1988
Universidad Nacional-Mexico; PHD 1992 Virginia Tech

Olmsted, John S., Adjunct Associate Professor,
Endodontics, 1984 (1984); DDS 1975 Iowa

Olshansky, Brian, Emeritus Professor, Internal Medicine,
2000 (2000); AB 1974 Carleton; MD 1978 Arizona

Olson, David Alan, Adjunct Lecturer, Pharmaceutics,
2008 (2008); MHA 1986 Iowa; MBA 1987 Iowa

Olson, Richard J., Clinical Associate Professor,
Ophthalmology Visual Science/Pediatrics, 2002 (2002); BA
1984 Brigham Young; MD 1991 Utah

Oltmanns, Christy Lynn, Adjunct Instructor, Preventive
Community Dentistry, 2010 (2010); AASC 2007 Kirkwood
Community College

Oltrogge, Kate Marie, Clinical Assistant Professor,
Pharmacy Practice and Science, 2011 (2011); BA 2004
Simpson; PHARMD 2008 Minnesota

Oman, Jennifer Lock, Adjunct Instructor, Social Work,
1991 (1991); BA 1978 Northwestern; MSW 1987 Iowa

Onel, Yasar, Professor, Physics Astronomy, 1987 (1992);

Onwuachi-Willig, Angela Ifeoma, Professor, Law-
Faculty, 2006 (2007); BA 1994 Grinnell; JD 1997 Michigan

Opitz, Cindy, Adjunct Instructor, Anthropology, 2013
(2013); BA 1988 Brown University; MFA 1993 University of
Iowa

Oral, Resmiye, Clinical Professor, Pediatrics, 2001 (2011);
MD 1983 Ege

Oray, Patrick B., Adjunct Instructor, Management
Organizations, 2011 (2011); BA 1997 Moscow St, Russia; MA
1999 Rochester

Olien, William H., Emeritus Professor, Orthodontics/
Otolaryngology-Head Neck Surgery, 1948 (1963); DDS
1947 Marquette; MS 1948 Iowa

Pawar, Lokesh, Adjunct Assistant Professor, Chemistry, 2013 (2013); BS 1996 Kanrnetek Univ, India; MS 2000 Kanrnetek Univ, India
Payne, Brenda Jean, Clinical Adjunct Assistant Professor, Psychiatry, 2013 (2013);
Payne, Gerald L., Emeritus Professor, Physics Astronomy, 1969 (1980); BS 1961 Ohio State; MS 1961 Ohio State; PHD 1967 California San Diego
Paynter, Donald E., Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MD 1980 Iowa
Pearce, Elizabeth Florence, Adjunct Lecturer, Communication Studies, 2005 (2006); BED 1981 St Paul St Mary; MA 1990 Iowa; PHD 2004 Iowa
Pearcy, Donna Louise, Adjunct Lecturer, Finance, 2007 (2007); BS 1977 SE Missouri State; MBA 1979 SE Missouri State
Pearson, C. Suzanne, Adjunct Lecturer, Teaching and Learning, 2005 (2005); BS 1974 Iowa; MA 1983 Iowa
Pearson, Kent S., Associate Professor, Anesthesiology, 1994 (1994); BS 1977 California; MD 1981 California-Rockford
Peate, David William, Associate Professor, Geoscience, 2004 (2009); BA 1985 Cambridge Univ; PHD 1989 Open Univ, UK
Pedersen, Douglas Ray, Associate Professor, Orthopaedics and Rehabilitation, 2001 (2001); BSE 1979 Iowa; MS 1983 Iowa; PHD 1998 Iowa
Peek, Thomas, Adjunct Associate Professor, Family Dentistry, 2003 (2004); BS 1973 Oklahoma City; DDS 1976 Iowa; MS 1978 Iowa; JD 1989 Oklahoma City
Peek-Asa, Corinne, Professor, Occupational Environmental Health/Public Policy Center/Epidemiology/Nursing, 2001 (2004); BA 1989 New Mexico; MPH 1990 California-Los Angeles; PHD 1995 Calif-Los Angeles
Peeples, Tonya L., Professor, Chemical Biochemical Engineering, 1995 (2009); BS 1988 North Carolina State; PhD 1994 Johns Hopkins
Pelaez, Carlos, Clinical Assistant Professor, Surgery, 2011 (2011); MD 2003 Universidad de Iberoamerica
Pelenski, Jaroslaw, Emeritus Professor, History, 1967 (1971); PHD 1957 Munich-Germany; PHD 1968 Columbia
Pelton, Elizabeth L., Emeritus Professor, Health, Sport Studies, 1974 (1980); BS 1970 Iowa; MS 1974 Iowa
Pemmaraju, Sriram V., Professor, Computer Science, 2000 (2003); MSC 1987 Birla; MS 1989 Virginia Polytechnic; PHD 1992 Virginia Polytechnic
Pendergast, Jane, Professor, Biostatistics, 1999 (2005); BA 1974 Dayton; MS 1976 Iowa; PHD 1979 Iowa
Pennathur, Arunkumar, Lecturer, Industrial Engineering, 2012 (2012);
Pennathur, Priyadarshini, Assistant Professor, Internal Medicine/Industrial Engineering, 2012 (2013);
Penningroth, R. Paul, Clinical Adjunct Assistant Professor, Psychiatry, 1965 (1973); MD 1964 Iowa
Pennington, Daniel Wayne, Clinical Adjunct Assistant Professor, Internal Medicine, 2013 (2013);
Penna, Mark, Professor, Accounting, 2004 (2004); BA 1973 Wisconsin; MS 1977 Wisconsin; PHD 1983 Northwestern
Penny, H. Glenn, Associate Professor, International Programs/History, 2003 (2006); BA 1987 Colorado; MA 1991 Colorado; PHD 1999 Illinois
Pentella, Michael A., Clinical Associate Professor, Epidemiology, 2003 (2008); BS 1972 Ohio State; MS 1980 Thomas Jefferson; PHD 2000 South Florida
Perathur, Arvind, Clinical Adjunct Assistant Professor, Internal Medicine, 2011 (2011); MBBCH 1996 Goa, India; MBBS 1996 Goa University, Goa, India
Perencevich, Eli, Professor, Epidemiology/Internal Medicine, 2010 (2010); MD 1994 Case Western Reserve U
Perlman, Seth Javier, Clinical Assistant Professor, Pediatrics, 2013 (2013);
Perlman, Stanley, Professor, Microbiology/Pediatrics, 1983 (1993); AB 1968 Rochester; PHD 1972 MIT; MD 1979 Miami
Perone, Sammy, Adjunct Assistant Professor, Psychology, 2012 (2012); PHD 2010 University of Iowa
Perovic, Katarina, Assistant Professor, Philosophy, 2011 (2011); BA 2002 Bologna, Italy; MPhil 2003 King's; PHD 2008 King's
Perreau, Ann Elizabeth, Adjunct Instructor, Communication Sciences and Disorders, 2007 (2007); BA 2002 Iowa; MA 2004 Iowa
Perry, Eric Charles, Adjunct Lecturer, Finance, 2004 (2004); BA 1989 Iowa; MBA 1992 Iowa
Perry, Paul J., Emeritus Professor, Psychiatry, 1973 (1987); BS 1969 Univ of the Pacific; MS 1971 Univ of the Pacific; PHD 1973 Univ of the Pacific
Persoon, Thomas John, Adjunct Instructor, Industrial Engineering/Health Management Policy/Management Sciences, 2000 (2000); SCM 1972 Iowa; MSE 2002 Iowa
Persson, Dorothy Marie, Adjunct Assistant Professor, Educ Policy Leadership Studies, 1989 (1989); BA 1971 Ohio; AMLS 1972 Indiana; PHD 1985 Iowa
Pesantubbee, Michele, Associate Professor, Religion/American Studies, 2003 (2006); MA 1991 California; PHD 1994 California
Pesce, Liuska Maria, Clinical Assistant Professor, Pediatrics, 2008 (2008); MD 1998 Central Univ of Venezuela
Pestel, Laurie Anne, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2000 Creighton
Petasnick, William D., Adjunct Associate Professor, Health Management Policy, 1992 (1992); MA 1970 Minnesota
Petefish, Daniel E., Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARMD 2003 Drake University
Peters, Ann Marie, Adjunct Assistant Professor, Epidemiology, 2012 (2012);
Peters, Bobby Xavier, Clinical Assistant Professor, Emergency Medicine, 2001 (2001); BS 1990 Houston Baptist; MD 1996 Texas Medical
Peters, Douglas William, Clinical Adjunct Assistant Professor, Family Medicine, 2011 (2011); BA 1993 Wartburg; MD 1997 Iowa
Peters, John D., Professor, Communication Studies/International Programs, 1986 (2001); BA 1981 Utah; MA 1982 Utah; PHD 1986 Stanford
Peters, Thomas Michael, Associate Professor, Occupational Environmental Health, 2004 (2010); BS 1990 Florida; MS 1992 Florida; PHD 2004 N. Carolina
Petersen, Brian Michael, Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARMD 2004 Creighton
Petersen, Christine A., Associate Professor, Epidemiology, 2006 (2013); BA 1994 Johns Hopkins; DVM 1998 Cornell; PHD 2004 Harvard
Petersen, Elizabeth-Ann Furr, Adjunct Lecturer, Marketing, 2005 (2010); BA 1980 Iowa State; MA 1986 California State; MS 1986 California State; PHD 2000 Iowa
Petersen, Joshua Douglas, Clinical Adjunct Instructor, Nursing, 2010 (2010); BSN 2004 Mt Mercy; MSN 2008 Iowa
Petersen, Andrew Robert, Clinical Assistant Professor, Pediatrics, 2010 (2010); BA 2000 Lawrence; MD 2004 Wisconsin
Petersen, Clayton Robert, Lecturer, Health and Human Physiology, 2008 (2008); BA 1995 Luther College; PHD 2009 Iowa
Petersen, Lawrence C., Emeritus Associate Professor, Preventive Community Dentistry, 1973 (1986); BSME 1962 General Motors Institute; MS 1970 Iowa
Petersen, Nicole Elizabeth, Clinical Adjunct Professor, Nursing, 2004 (2010); BSN 2003 Iowa; MSN 2008 Iowa
Petersen, Russell Leslie, Adjunct Assistant Professor, American Studies, 2006 (2006); PHD 2005 Iowa
Petersen, Stewart Norman, Adjunct Assistant Professor, Pharmacy, 2002 (2002); PHARMD 2001 Iowa
Petersen, Tim J., Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013);
Petersen, William Mathew, Adjunct Assistant Professor, Physics Astronomy, 2011 (2011); BA 2000 Iowa; PHD 2011 Iowa
Petrova, Olga Borisovna, Adjunct Assistant Professor, Linguistics, 2001 (2001); BA 1983 Russian Pedagogical; MA 1992 Northern Iowa; PHD 2001 Iowa
Pettibone, Roy W., Adjunct Lecturer, Accounting, 2000 (2000); MA 1983 Northeast Missouri State

Pettit, Jeffrey E., Adjunct Instructor, Consultation Res Med Educ/Psych Quant Foundations/Neurosurgeries, 1999 (2007); BS 1976 Naval Academy; MA 1987 Iowa; PHD 1993 Iowa

Pettys, Todd E., Professor, Law-Faculty, 1999 (2004); BA 1988 Seattle Pacific; JD 1995 North Carolina-Chapel Hill

Pfaller, Michael A., Emeritus Professor, Epidemiology/Pathology, 1983 (1989); BA 1972 Linfield; MD 1976 Washington-St. Louis

Pfohl, Bruce Michael, Professor, Psychiatry/Biostatistics, 1981 (1993); BA 1973 Graceland; MD 1977 Iowa

Phan, Khanh Phuong, Adjunct Assistant Professor, 2006 (2006); BS 1995 Iowa; PHARMD 2006 Iowa

Phelps, Michael Allen, Clinical Adjunct Assistant Professor, Surgery, 1999 (2000); MD 1988 Iowa

Phillip, Robert Alan, Professor, Psychiatry, 1998 (2008); BS 1983 St. Ambrose; PHD 1989 Iowa; MD 1998 Iowa

Phillips, Bryan T., Assistant Professor, Biology, 2009 (2009); BS 1998 Illinois; DPHIL 2004 Texas AM

Phillips, Damani Cabral, Assistant Professor, Music/African-American Studies, 2013 (2013);

Phillips, George Christopher, Clinical Professor, Occupational Environmental Health/Pediatrics, 2002 (2013); BS 1993 Duke; MD 1998 South Carolina

Phillips, Kirk Tollef, Adjunct Instructor, Epidemiology, 1992 (2006); BS 1975 Iowa State; MSW 1997 Minnesota; MS 2002 Iowa; PHD 2005 Iowa

Phisitkul, Kantima, Clinical Assistant Professor, Internal Medicine, 2010 (2010); MD 1997 Medicine Chulalongkorn

Phisitkul, Phinit, Clinical Associate Professor, Orthopaedics and Rehabilitation, 2008 (2013); MD 1996 Chulalongkorn

Pickar, Joel, Adjunct Associate Professor, Biomedical Engineering, 1999 (1999); PHD 1990 California-Davis

Pickering, Paul Douglas, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 2012 (2012);

Piep, Marra Jeane Burr, Adjunct Assistant Professor, Pharmacy Practice and Science, 2009 (2010); PHARMD 2009 Drake

Pieper, Andrew A., Associate Professor, Neurology/Psychiatry, 2012 (2012);

Pieper, Connie Lynn Chen, Clinical Associate Professor, Neurology, 2012 (2012);

Pierce, Gary L., Assistant Professor, Health and Human Physiology, 2011 (2011); PHD 2005 Florida

Pierce, Leighton, Emeritus Professor, Cinema Comparative Literature, 1985 (1997); BA 1981 University of Iowa; MFA 1984 Syracuse

Pietrzyk, Donald J., Emeritus Professor, Chemistry, 1961 (1971); BS 1956 Wayne State; PHD 1960 Iowa State

Pigge, Fred Christopher, Associate Professor, Radiology/Chemistry, 2005 (2005); BA 1989 Wooster; PHD 1993 NC-Chapel Hill

Pike, Susan, Clinical Assistant Professor, Psychiatry, 2009 (2009); MD 2003 Southern Illinois

Pilkington, Wesley Charles, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Pilling, John Allen, Lecturer, Teaching and Learning, 2004 (2004); BA 1966 Iowa; MA 1972 Iowa

Pinckney, Thomas W., Adjunct Assistant Professor, Preventive Community Dentistry, 1985 (1985); DDS 1977 Iowa

Pinero, Anne Marie, Assistant Professor, Theatre Arts, 2012 (2012);

Pinneke, Steven Paul, Adjunct Assistant Professor, Pharmacy, 2005 (2005); BSPH 1978 Iowa; MS 1988 Central Michigan; PHARMD 1996 Creighton

Pins, Katharine J., Adjunct Instructor, Preventive Community Dentistry, 2009 (2009); AS 2002 Lorus; DDS 2006 Iowa

Pinto Tomas, Maricelle, Adjunct Assistant Professor, Spanish Portuguese, 2013 (2013); BA 1991 Kenyon College, Gambier, OH; MA 1996 Universiti d’Ottawa

Piper, Robert C., Professor, Internal Medicine/Physiology, 1997 (2009); BS 1986 Reed; PHD 1992 Washington University

Piros, James G., Clinical Adjunct Assistant Professor, Internal Medicine, 1974 (1980); MD 1971 Illinois

Pisney, Francis L., Clinical Adjunct Assistant Professor, Family Medicine, 1976 (2002); BS 1967 Iowa State; MD 1971 Iowa

Pitcher, Graeme, Clinical Associate Professor, Surgery/Pediatrics, 2009 (2009); MBCH 1984 Witwatersrand; FSC 1993 Med of South Africa

Pitman, Stuart Keith, Clinical Assistant Professor, Pharmacy, 2009 (2011); PHARMD 2009 Iowa

Pittman, Cory, Clinical Adjunct Assistant Professor, Internal Medicine, 2008 (2008); BS 1997 Missouri; MD 2002 Illinois, Wesleyan

Pitzenger, Abbey Marie, Adjunct Assistant Professor, Pharmacy Practice and Science, 2008 (2008); PHARMD 2006 Iowa

Pizzimenti, Marc Anthony, Lecturer, Health and Human Physiology/Anatomy Cell Biology, 1999 (2011); BEd 1987 Western Ontario; MA 1989 Western Ontario; PHD 1999 Iowa

Pizzini, Edward L., Emeritus Professor, Teaching and Learning, 1973 (1990); BS 1963 Montana State; MS 1968 Houston; PHD 1973 Iowa
**Pizzini, Nicole**, Adjunct Professor, Rehabilitation and Counselor Education, 2013 (2013);

**Plakans, Lia Margaret**, Assistant Professor, Teaching and Learning, 2000 (2009); BA 1991 Iowa; MA 1997 Iowa State; PhD 2007 Iowa

**Plamondon, Thomas John**, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); BS 1975 Loras; DDS 1978 Iowa

**Plapp, Bryce V.**, Emeritus Professor, Biochemistry, 1970 (1979); BS 1961 Michigan State; PhD 1966 California-Berkeley

**Plapp, Rosemary Kuhn**, Adjunct Lecturer, Linguistics, 2000 (2006); BA 1962 Michigan State; AM 1963 Stanford; MA 1990 Iowa; PhD 1999 Iowa

**Platte, Nathan Richard**, Assistant Professor, Music, 2011 (2011); BM 2004 Michigan; BA 2004 Michigan; PhD 2010 Michigan

**Platz, Charles E.**, Emeritus Professor, Pathology, 1975 (1980); BA 1959 Kansas; MD 1963 Chicago

**Pline, Connie Jean**, Adjunct Instructor, Pharmacy Practice and Science, 2006 (2006); BPharm 1990 Iowa

**Ploehn, Lisa C.**, Adjunct Instructor, Pharmacy, 1997 (1997); PHARMD 1980 Nebraska-Omaha

**Plumert, Jodie M.**, Professor, Psychology, 1990 (2004); BA 1985 Kalamazoo; PhD 1990 Minnesota

**Pogue, Thomas F.**, Emeritus Professor, Economics, 1965 (1974); BS 1957 New Mexico State; MS 1962 Oklahoma State; MA 1963 Yale; PhD 1968 Yale

**Poirier, Alexandre**, Assistant Professor, Economics, 2013 (2013);

**Polaschek, Karla A.**, Clinical Adjunct Lecturer, Obstetrics Gynecology, 1998 (1998); MD 1993 Southern Illinois

**Polgreen, Linnea Ann**, Assistant Professor, Pharmacy, 2005 (2005); BS 1991 Wheaton, IL; MA 2000 Iowa; PhD 2004 Iowa

**Polgreen, Philip Matthew**, Associate Professor, Internal Medicine/Epidemiology, 2004 (2011); BS 1992 Beloit; MD 1997 Cincinnati; MPH 2006 Iowa

**Policeni, Bruno**, Clinical Associate Professor, Radiology, 2006 (2012); MD 2001 Facultad de Medicina de Valen

**Politano, Marcela Susana**, Adjunct Assistant Professor, Mechanical Engineering, 2006 (2006); MS 1993 UNRC Argentina; MSCE 1999 UNRC, Argentina; PHE 2001 Inst. Balseiro, Argentina

**Pollard, James W.**, Adjunct Assistant Professor, Preventive Community Dentistry, 1883 (1998); DDS 1977 Iowa

**Pollock, Zach J.**, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

**Polyak, Steven**, Assistant Professor, Internal Medicine, 2009 (2009); BA 1993 Clark; MD 1998 Mount Sinai

**Polyzou, Wayne N.**, Professor, Physics Astronomy, 1982 (1991); BS 1974 Pennsylvania State; MS 1978 Maryland; PhD 1979 Maryland

**Pomeroy, Dan**, Adjunct Instructor, Pharmacy, 2002 (2002); BPharm 1981 Iowa

**Pomrehn, Paul Rudolph**, Adjunct Professor, Epidemiology, 1980 (1999); BA 1971 Iowa; MD 1975 Iowa; MS 1980 Iowa

**Pontarelli, Michel Sandom**, Adjunct Lecturer, Marketing, 2007 (2009); BA 1976 Connecticut; MBA 1999 St. Ambrose

**Ponto, James Allen**, Clinical Professor, Pharmacy, 1978 (1992); BPharm 1977 Iowa; BS 1977 Iowa; MS 1978 Southern-California-Los Angele

**Ponto, Laura L.**, Associate Professor, Radiology, 2000 (2008); BPharm 1977 Iowa; MS 1981 Iowa; PhD 1988 Iowa

**Pook, James Joseph**, Clinical Adjunct Assistant Professor, Family Medicine, 2009 (2009); BS 1995 Upper Iowa Univ, Fayette, IA; MS 1999 Iowa; MD 1999 Iowa

**Pope, Hallowell**, Emeritus Associate Professor, Sociology, 1968 (1968);

**Pope, Melody K.**, Adjunct Assistant Professor, Anthropology, 2007 (2007); MA 1989 Binghamton; PhD 2005 Binghamton

**Porcella, Aleta Anne**, Clinical Adjunct Instructor, Nursing, 2002 (2002); BA 1974 Iowa; BSN 1979 Morningside; MSN 2000 Iowa

**Poremba, Amy**, Associate Professor, Psychology, 2001 (2009); BS 1988 Illinois; PhD 1996 Illinois

**Porepp, Matt Paul**, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARMD 2008 Drake

**Poroy, Oguz**, Adjunct Lecturer, University College Courses, 2002 (2009); BS 1992 Bogazici; MS 1995 Tuskegee; PhD 2000 ARKANSAS-LITTLE ROCK

**Porter, Horace A.**, Professor, African-American Studies/English/American Studies, 1999 (1999); BA 1972 Amherst; MA 1975 Yale; PhD 1981 Yale

**Porter, Jeffrey L.**, Associate Professor, English, 1993 (2009); BA 1974 State Univ of NY-Buffalo; MA 1975 Oregon; PhD 1983 Oregon

**Porter, Samuel D.**, Emeritus Associate Professor, Surgery, 1974 (1985); BA 1956 Grinnell; MD 1960 Creighton

**Portman, Tarrell Aweagahe**, Associate Professor, Rehabilitation and Counselor Education, 1999 (2005); BS 1981 Southern Missouri State; MA 1988 southeast Missouri State; PhD 1999 Arkansas

**Posthumus, Richard Dale**, Clinical Adjunct Assistant Professor, Family Medicine, 2004 (2004); BA 1982 Dordt, IA; MD 1991 Iowa

**Postier, Paul Frederick**, Adjunct Lecturer, Management Sciences, 1990 (1990); MBA 1986 University of Iowa

**Potaczek, Karen Kay**, Adjunct Assistant Professor, Oral Maxillofacial Surgery, 2011 (2011); DDS 2006 Marquette

**Potapova, Marina**, Adjunct Professor, University College, 2010 (2010); PHD 1993 Limnological Inst

Potestio, Armand J., Adjunct Assistant Professor, Pharmacy, 2005 (2005); BA 1980 Colorado; BSPH 1984 Colorado

Potter, Donald Dean Jr., Clinical Associate Professor, Surgery, 2013 (2013);

Potter, Elizabeth Mary, Clinical Assistant Professor, Obstetrics Gynecology, 2009 (2009); BA 2000 Pomona College; MS 2008 CA, San Francisco

Potthoff, Matthew Joseph, Assistant Professor, Pharmacology, 2012 (2012);

Poulakos, P. Takis, Associate Professor, Rhetoric, 1990 (1995); BA 1974 San Jose State; MA 1976 San Jose State; PHD 1988 Miami-Ohio

Poulson, Eva-Maria, Adjunct Instructor, Preventive Community Dentistry, 1993 (1994); DDS 1981 UCLA

Poust, Rolland I., Emeritus Professor, Pharmacy, 1991 (1991); BS 1966 Pittsburgh; MS 1968 Pittsburgh; PHD 1971 Purdue

Powell-Rennecker, Becky Sue, Adjunct Instructor, Preventive Community Dentistry, 2004 (2004); BS 1979 Iowa

Powell-Young, Yolanda, Adjunct Assistant Professor, Nursing, 2011 (2011); PHD 2005 Southern Univ AM Co

Prahlad, Veena, Assistant Professor, Biology, 2012 (2012);

Prater, Nicola Jane, Lecturer, Nursing, 2001 (2008); BSN 1986 Sangamon State; MSN 2000 Iowa

Prescott, William Crego, Adjunct Assistant Professor, Mechanical Engineering, 2008 (2008); PHD 1993 Iowa

Preston, Mark Allen, Clinical Adjunct Assistant Professor, Psychiatry, 2008 (2007); BS 1979 Iowa State; MD 1984 Iowa

Preucil, William W., Emeritus Professor, Music, 1958 (1971); BM 1952 Eastman School of Music; MM 1956 Rochester

Preus, Christian Abraham, Adjunct Instructor, Classics, 2012 (2012); BA 2006 University of North Dakota

Price, David H., Professor, Biochemistry, 1989 (1998); BS 1975 North Carolina State; PHD 1980 Florida State

Price, Nathan Brandt, Clinical Assistant Professor, Pediatrics, 2013 (2013);

Prickman, Gregory J., Adjunct Instructor, Interdisciplinary Programs/Library Information Science, 2008 (2008); BA 1994 Macalester; AMSLS 1998 Indiana

Pries, Chris M., Adjunct Instructor, Nursing, 1983 (1983); MA 1975 Iowa

Priest, Richard Tyler, Associate Professor, Geography/History, 2012 (2012);

Prineas, John Paul, Associate Professor, Electrical-Computer Engineering/Physics Astronomy, 2001 (2007); BA 1991 Carleton; PHD 2000 Arizona

Pringle, Lynn, Adjunct Professor, Accounting, 1998 (2013); BBA 1969 Iowa; MA 1975 Arizona; PHD 1987 Colorado

Prorok, Alyssa Kathleen, Assistant Professor, Political Science, 2013 (2013);

Proud, Sherr Lyn Curtis, Adjunct Instructor, Health and Human Physiology, 2012 (2012);

Proudfit, Herbert K., Emeritus Professor, Pharmacology, 2000 (2000); BA 1964 Kansas; PHD 1971 Kansas-Kansas City

Prull, Michelle Ann, Adjunct Assistant Professor, Pharmacy, 1997 (2009); BS 1993 Iowa

Prybil, Lawrence, Emeritus Professor, Health Management Policy, 1999 (1999); BA 1962 Iowa; MA 1964 Iowa; PHD 1970 Iowa

Pryor, Craig Earl, Associate Professor, Physics Astronomy, 2005 (2011); PHD 1990 UCSD

Puderbaugh, David, Associate Professor, Music, 2006 (2013); BME 1994 Drake

Pudlo, Anthony T., Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Pufall, Miles A., Assistant Professor, Biochemistry, 2010 (2010); PHD 2004 Utah

Pumphrey, Carri Ann, Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Purnell, Jarvis K., Adjunct Lecturer, University College Courses, 2011 (2011); BSIE 2008 Northern Illinois; MSED 2010 Northern Illinois

Purtle, Mark William, Clinical Adjunct Associate Professor, Internal Medicine, 1990 (2005); MD 1981 Iowa

Pusey, Robert Drake, Adjunct Associate Professor, Family Dentistry, 1994 (2012); DDS 1982 Iowa

Putnam, Shannon Dennis, Adjunct Assistant Professor, Epidemiology, 2005 (2005); BS 1987 Wayne State; MS 1989 Northern Arizona; PHD 1999 Iowa

Pyevich, Elana Nadine, Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARM 1999 Iowa

Pyevich, Vickie Diamandakis, Clinical Professor, Pediatrics, 1997 (2012); BS 1987 Iowa; MD 1991 Iowa

Rabinovitz, Lauren, Professor, Cinema Comparative Literature/American Studies, 1986 (1998); BS 1972 Boston University; MA 1977 Texas-Austin; PhD 1982 Texas-Austin

Rachow, John W., Clinical Assistant Professor, Internal Medicine, 1988 (1988); BS 1965 Nebraska-Lincoln; MS 1969 Nebraska-Lincoln; PhD 1976 Nebraska-Omaha; MA 1976 Nebraska-Omaha

Rademacher, Bruce E., Adjunct Instructor, Pharmacy, 2003 (2003); BSPH 1980 Purdue

Radia, Mary A., Clinical Adjunct Assistant Professor, Internal Medicine, 1987 (2001); DO 1981 Drake

Radley, Jason J., Assistant Professor, Psychology, 2011 (2011); BA 1995 Miami; MA 1997 Princeton; PhD 2001 Princeton

Raeburn, John H., Emeritus Professor, English/American Studies, 1974 (1983); BA 1963 Indiana; PhD 1969 Pennsylvania

Raghavan, Madhavan Lakshmi, Professor, Biomedical Engineering, 2000 (2012); BE 1992 Coimbatore; PhD 1998 Pittsburgh

Raheim, Salome, Emeritus Associate Professor, Social Work/IA Consortium Substance Abuse, 1986 (1997); BSW 1974 Bowie State; MSW 1976 Catholic University of America; PhD 1990 Iowa

Rahhal, Riad, Clinical Associate Professor, Pediatrics, 2007 (2012); BS 1996 Univ of Beirut; MD 2000 Univ of Beirut

Rahman, Sharif, Professor, Mechanical Engineering, 1995 (2005); BS 1984 Bangladesh; MS 1986 Purdue; PhD 1991 Cornell

Rahmatalla, Salam Faisal, Associate Professor, Civil-Environmental Engineering/Biomedical Engineering, 2005 (2012); MME 1985 Technology; MCE 2002 Iowa; PHE 2004 Iowa

Rahmouni, Kamal, Associate Professor, Pharmacology/Internal Medicine, 2005 (2011); PHARM 2001 Strasbourg

Raife, Thomas J., Clinical Professor, Pathology, 2001 (2009); BA 1980 Iowa State; MD 1989 Iowa

Railey, Jonathan Brent, Adjunct Assistant Professor, Division of Interdisciplinary Program, 2011 (2011); BA 1997 Georgia; MA 2005 Naropa; MFA 2010 Iowa

Railsback, Linda Diane, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 1993 (1993); MD 1974 Iowa

Rainey, Emma, Adjunct Lecturer, University College, 2010 (2010); BA 2006 Iowa; MFA 2009 Iowa

Rainville, Edward Charles, Adjunct Assistant Professor, Pharmacy, 2007 (2007); MS 1988 Iowa

Rajagopal, Rangaswamy, Professor, Civil-Environmental Engineering/Geography/International Programs, 1979 (1987); BS 1964 Bombay-India; ME 1969 Florida; PhD 1973 Michigan

Rajagopal, Srinivasan, Clinical Assistant Professor, Anesthesia, 2005 (2007); MD 2000 Wayne State

Rajput, Maheen, Clinical Assistant Professor, Radiology, 2006 (2006); BS 1991 Illinois

Rakel, Barbara Ann, Associate Professor, Physical Therapy/Nursing, 2000 (2011); BSN 1979 Iowa; MA 1988 Iowa; PhD 2002 Iowa

Ralph, Patrick Bradley, Adjunct Instructor, University College, 2011 (2013); BA 2008 Iowa

Ralston, Christine R., Adjunct Lecturer, Urban Regional Planning, 2012 (2012); BM 2001 Iowa; JD 2007 Iowa; MA 2008 University of Iowa

Ramakrishnan, Prem Subramanian, Adjunct Assistant Professor, Biomedical Engineering, 2009 (2009); MS 2003 Illinois-Chicago; PhD 2006 Iowa

Ramarao, Indira, Adjunct Associate Professor, International Programs, 2009 (2009); BA 1970 Mysore; MA 1972 Mysore; PhD 1982 Mysore

Ramey, R. Chace, Adjunct Lecturer, Educ Policy Leadership Studies, 2013 (2013); BA 2001 Univ. of Kansas; JD 2004 Univ. of Iowa

Ramey, Sandra L., Assistant Professor, Community Behavioral Health/Nursing, 2006 (2006); BS 1992 St Francis; MSN 1995 Iowa; PhD 2002 Iowa State

Ramig, Lorraine, Adjunct Professor, Communication Sciences and Disorders, 1999 (1999); PhD 1980 Purdue

Ramirez, Marizen Rojas, Associate Professor, Occupational Environmental Health, 2007 (2013); BA 1995 California at Berkeley; MPH 1998 California - Los Angeles; PhD 2002 California - Los Angeles
Rand, Jacki Thompson, Associate Professor, History, 1998 (2007); BA 1982 Maine; MS 1993 Oklahoma; PHD 1998 Oklahoma

Randak, Christoph Oskar, Assistant Professor, Pediatrics, 2009 (2009); MD 1992 Wurzburg, Germany; MSC 1996 Hagen, Germany

Randall, Eric Wayne, Adjunct Instructor, Health and Human Physiology, 2007 (2007); BS 2000 Iowa; MA 2004 Iowa

Randel, Patricia Ann, Adjunct Instructor, Pharmacy, 1997 (1997); BS 1993 Iowa

Range, Regina Christiane, Lecturer, German, 2013 (2013); BA 2006 Dortmund

Rantanen, Jason, Associate Professor, Law-Faculty, 2011 (2011); AB 1999 Brown; MA 2000 Chicago; JD 2003 Chicago

Rapert, Molly I., Adjunct Associate Professor, Marketing, 2009 (2009); PHD 1992 Memphis

Rapson, Ira J., Professor, Music, 1993 (2003); BA 1976 Westmont; MA 1981 California State

Rasmussen, Maryann, Lecturer, Gender, Women’s and Sexuality Studies/English, 1992 (1994); PHD 1991 Iowa

Rastetter, Dwight W., Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); DDS 2000 Iowa

Ratliff, Timothy L., Emeritus Professor, Urology, 1997 (1997); BS 1971 Texas-Arlington; MS 1974 East Texas State; PHD 1977 Arkansas-Fayetteville

Ratner, Albert, Associate Professor, Mechanical Engineering, 2003 (2011); BS 1995 California; MS 1996 Michigan; MS 1999 Michigan; PHD 2000 Michigan

Ratner, Ed, Adjunct Assistant Professor, Electrical-Computer Engineering, 2011 (2011); BS 1990 Cal Tech; PHD 1997 Stanford

Rauch, Joseph Walter, Adjunct Associate Professor, Family Dentistry, 1984 (2000); DDS 1983 Iowa

Raw, Robert Maurice, Clinical Professor, Anesthesia, 2004 (2012); MBCHB 1979 Pretoria, South Africa

Ray, Alison, Adjunct Assistant Professor, Orthodontics, 2006 (2006); DDS 2002 Iowa

Ray, Thomas L., Emeritus Professor, Dermatology, 1979 (1991); BA 1968 Williams; MD 1972 Oregon

Raza, Tehseen, Adjunct Assistant Professor, Physics Astronomy, 2011 (2011); BS 2001 Eng Tech, Lahore; PHD 2010 Purdue

Read, Charles H., Emeritus Professor, Pediatrics, 1954 (1959); BSC 1939 ACADIA-Nova Scotia; MD 1943 McGill-Canada

Reagan, Mark K., Professor, Geoscience, 1987 (2007); BA 1978 California-Santa Barbara; MS 1982 Arizona; PHD 1987 California-Santa Cruz

Reasoner, Andrea Leigh, Clinical Assistant Professor, Pediatrics, 1994 (1995); BS 1984 Iowa; MD 1988 Iowa

Rebello Lima, Vinicius, Lecturer, Art Art History, 2009 (2009); BA 2005 Federal Univ of Rio De; MA 2007 Iowa; MFA 2009 Iowa

Rebouche, Charles J., Emeritus Associate Professor, Pediatrics, 1984 (1988); BS 1970 Tulane; PHD 1974 Vanderbilt

Recker, Bryan Mark, Adjunct Assistant Professor, Periodontics, 2009 (2009); DDS 2006 Iowa; MS 2009 Iowa

Recker, Caleb Michael, Adjunct Instructor, Health and Human Physiology, 2013 (2013); BA 2007 Univ. of Iowa; MA 2010 Univ. of Iowa

Recober-Montilla, Ana, Assistant Professor, Neurology, 2007 (2009); MD 1997 Malaga

Reddy, Chandan Gopal, Assistant Professor, Neurosurgery, 2012 (2012);

Reddy, Sudhakar M., Professor, Electrical-Computer Engineering, 1968 (1977); BSEE 1962 Osmania; ME 1963 Indian Institute of Science; PHD 1968 Iowa

Reed, Alan I., Professor, Surgery, 2007 (2007); BS 1980 Hobart College; MD 1984 Cornell

Reed, Daniel Allen, Professor, Electrical-Computer Engineering/Computer Science, 2012 (2012);

Reed, David A., Adjunct Assistant Professor, Nursing, 2003 (2003); BA 1970 Indiana; MA 1972 Indiana; PHD 1989 Indiana

Reed, Ronald Ross, Adjunct Lecturer, Health Management Policy, 2000 (2000); MPH 1983 Pittsburgh

Reese, Jean Ladora, Emeritus Associate Professor, Nursing, 1969 (1980); BSN 1961 Nebraska; MN 1968 Washington; PHD 1984 Iowa

Rego, Lopo Leotte, Adjunct Associate Professor, Marketing, 2000 (2010); BS 1991 Nove DE Lisboa, Portugal; MBA 1993 Lisbon; PHD 2000 Michigan

Rehmann, Joshua John, Clinical Adjunct Assistant Professor, Family Medicine, 2010 (2010); BS 2000 Grinnel; DO 2006 Des Moines, IA

Reichardt, Carina Lee, Adjunct Instructor, Pharmacy, 2010 (2010); BPharm 1989 Drake

Reid, Ronda, Lecturer, Teaching and Learning, 2010 (2010); BA 1981 Northern Iowa; MED 1984 Northern Iowa

Reid, Vincent Junior, Clinical Assistant Professor, Surgery, 2012 (2012);

Reider, Ronald, Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MD 1971 Virginia

Reiff, Tammy Lynn, Adjunct Instructor, Social Work, 2008 (2008); BS 1997 Mankato State; MSW 2008 Iowa

Reimer, Toni Tripp, Professor, Anthropology/Nursing, 1977 (1986); BSN 1969 Maryland; MSN 1973 Ohio State; MA 1974 Ohio State; PHD 1977 Ohio State

Reimer-Myers, Amy Jo Laura, Adjunct Instructor, Office of Management Business Development, 2013 (2013); BFA 1981 Drake University; MA 1987 Drake University

Reinhardt, Joseph M., Professor, Biomedical Engineering, 1995 (2009); BS 1985 Carnegie Mellon; MS 1988 Northeastern; PHD 1994 Penn State
Reinking, Benjamin Evers, Clinical Associate Professor, Pediatrics, 2006 (2012); BA 1996 UNI; MD 2000 Iowa

Reisinger, Heather Schacht, Assistant Professor, Internal Medicine, 2008 (2008); BA 1998 Luther College; PhD 2004 American Univ

Reisinger, William M., Professor, Political Science/International Programs, 1985 (1996); BA 1979 Oregon; MA 1981 Michigan; PhD 1986 Michigan

Reist, Jeffrey Clark, Clinical Assistant Professor, Pharmacy Practice and Science, 1993 (2005); BS 1982 Iowa; PHARM 2007 Florida

Reitz, John C., Professor, Law-Faculty/International Programs, 1983 (1988); BA 1970 Harvard; JD 1975 Michigan

Rembold, Elizabeth Marie Stanage, Adjunct Instructor, Social Work, 2006 (2006); MSW 2005 Iowa

Renner, Katherine Anne, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Renner, Lynette Michelle, Adjunct Associate Professor, Social Work, 2008 (2012); BS 1994 Mary; MSW 1995 Kentucky; PhD 2005 Wisconsin

Reno, Mary Hall, Professor, Physics Astronomy, 1990 (2002); BA 1980 Reed; PhD 1985 Stanford

Renteria, Jesus Josue, Adjunct Instructor, Division of Performing Arts, 2011 (2011); BA 2009 Iowa

Renwick, Rick F., Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 1995 (1995); MD 1976 Wisconsin-Madison

Restrepo-Kennedy, Natalia, Clinical Assistant Professor, Operative Dentistry, 2012 (2012); HS 1981 German High School; DDS 1988 University of CES-Colombia; UNKNOWN 1998 University of CES-Colombia

Rethwisch, David Gerard, Professor, Chemical Biochemical Engineering, 1985 (1995); BS 1979 Iowa; PHD 1985 Madison, WI

Retish, Paul M., Professor, Teaching and Learning, 1967 (1976); BS 1960 New York State-Geneseo; MS 1965 Indiana; EDD 1967 Indiana

Rettenmaier, Lawrence Joseph, Clinical Adjunct Instructor, Internal Medicine, 2005 (2005); MD 1984 UIHC

Rexroth, Jason Allen, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 2013 (2013);

Reyes, Ramon, Clinical Adjunct Assistant Professor, Internal Medicine, 2008 (2008); MD 1991 Santo Thomas

Reyna Fuller, Maria Del Rosario, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); DDS 2006 Iowa

Reynolds, Julie Christine, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012); DDS 2011 University of Iowa

Rezai, Karim, Emeritus Associate Professor, Radiology, 1984 (1988); MD 1971 Shiraz Meidical School-Iran

Rhodes, Ann Marie, Clinical Associate Professor, Law-Faculty/Nursing, 1983 (1993); BSN 1975 St Teresa; MA 1976 Iowa; JD 1982 Iowa

Rice, James G., Emeritus Associate Professor, Library Information Science, 2004 (1984);

Rice, John Oscar, Clinical Associate Professor, Oral Maxillofacial Surgery, 2004 (2008); DDS 1971 Iowa

Rice, Kevin G., Professor, Pharmacy, 2001 (2001); BS 1983 Marycrest; PhD 1987 Iowa

Rice, Tom W., Professor, Political Science, 1999 (1999); BA 1979 Iowa State; PhD 1983 Iowa

Rich, Michael Jeffrey, Assistant Professor, Art Art History, 2013 (2013);

Rich-Chappell, Meredith Lee, Adjunct Lecturer, Law-Faculty, 2010 (2010); JD

Richardson, Brad B., Adjunct Associate Professor, Social Work, 1997 (1997); BA 1976 Mt. Mercy; MA 1978 Nebraska; PHD 1984 Minnesota

Richardson, Leah Song, Professor, Law-Faculty, 2011 (2012); BA 1988 Harvard; JD 1993 Yale Law

Richardson, Thomas, Clinical Adjunct Assistant Professor, Urology, 2002 (2002); BS 1988 Nortre Dame; MD 1992 Indiana

Richenbacher, Wayne E., Emeritus Professor, Cardiothoracic Surgery, 1993 (1999); BS 1976 Case Western Reserve; MD 1980 Cincinnati

Richerson, George B., Professor, Neurology/Physiology, 2010 (2010); MD 1987 Iowa

Richerson, Hal B., Emeritus Professor, Internal Medicine, 1964 (1974); BS 1950 University of Arizona; MD 1954 Northwestern Univ Med School

Rose, Gerald L., Emeritus Professor, Management Organizations, 1967 (1982); BA 1960 Minnesota; MBA 1962 Cornell; PhD 1969 California-Berkeley

Rosecrance, John C., Adjunct Assistant Professor, Urology, 2012 (2012);

Romanowski, Ann Wegener, Adjunct Assistant Professor, Periodontics, 1993 (1998); DDS 1987 Iowa; CER 1994 Iowa; PhD 1994 Iowa

Romanowski, Ann Wegener, Adjunct Assistant Professor, Periodontics, 1993 (1998); DDS 1987 Iowa; CER 1994 Iowa; PhD 1994 Iowa

Romanowski, Ann Wegener, Adjunct Assistant Professor, Periodontics, 1993 (1998); DDS 1987 Iowa; CER 1994 Iowa; PhD 1994 Iowa

Romanowski, Ann Wegener, Adjunct Assistant Professor, Periodontics, 1993 (1998); DDS 1987 Iowa; CER 1994 Iowa; PhD 1994 Iowa
Roseman, Dennis M., Emeritus Professor, Mathematics, 1970 (1993); BS 1961 Wisconsin; MS 1962 Wisconsin; PHD 1968 Michigan

Rosenbaum, Marcy Ellen, Professor, Family Medicine, 1998 (2013); BA 1986 Indiana; MA 1990 Kentucky; PHD 1994 Kentucky

Rosenberger, Jay A., Clinical Adjunct Associate Professor, Internal Medicine, 1995 (2011); DO 1986 Osteopathic Med Hlth

Rosenfeld, Sandra R., Clinical Assistant Professor, Family Medicine, 2008 (2008); MD 1990 Ntnl Univ Rosario, Argentina

Rosenhimer, Jessica Ann, Adjunct Assistant Professor, Pharmacy, 2010 (2010); PHARMD 2008 Drake

Rosenkranz, Kurt Andre, Clinical Adjunct Associate Professor, Family Medicine, 1999 (2003); BS 1989 Creighton; MD 1993 Creighton

Rosenstein, Lori Jean, Clinical Assistant Professor, Internal Medicine, 2009 (2009); BS 1996 Wisconsin @ Madison; MD 2002 Iowa

Rosenthal, Nancy, Clinical Professor, Pathology, 1998 (2003); BA 1979 Emory; MD 1983 Pennsylvania

Rosmann, Michael Ray, Adjunct Professor, Occupational Environmental Health, 2000 (2013); PHD 1976 Utah

Rosser, Sue R., Emeritus Associate Professor, Psychology, 1969 (1975);

Ross, Alan F., Associate Professor, Anesthesia, 1985 (1995); BA 1976 Calif-Berkeley; MD 1980 Northwestern

Rosen, James D., Professor, Internal Medicine/Neurosurgery, 1986 (2005); BS 1975 Michigan; MD 1980 Chicago

Ross, Christopher, Professor, Art Art History, 1978 (1992); BA 1970 St. Lawrence; MA 1975 Indiana; PHD 1979 Indiana

Royer, Nora A., Clinical Assistant Professor, Surgery, 2012 (2012);

Rubach, Jerzy, Professor, Linguistics, 1990 (1990); MA 1971 Warsaw; PHD 1975 Warsaw

Rubright, William Campbell, Emeritus Professor, Periodontics, 1967 (1979); BA 1957 Westminster-Missouri; DDS 1962 Missouri; MS 1964 Missouri; MD 1965 Chicago

Rude, Mathew Bem, Assistant Professor, Art Art History, 2008 (2008); BA 1998 Luther College; MFA 2007 Montana State

Rudman, Robert Alan, Adjunct Assistant Professor, Oral Maxillofacial Surgery, 2011 (2011); DDS 1988 Loyola; MD 1992 Iowa

Rudolph, Paul H., Adjunct Lecturer, Biology, 1989 (1997); PHD 1976 Michigan

Ruen, David Arthur, Clinical Adjunct Assistant Professor, Family Medicine, 1988 (2002); BA 1977 St Mary’s; MD 1981 Iowa

Ruestman, Jordan Lee, Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2011 Drake

Rummelhart, Jo Anne Marie, Adjunct Assistant Professor, Periodontics, 2009 (2009); DDS 1981 Iowa

Runde, Mark P., Clinical Adjunct Instructor, Internal Medicine, 1995 (1995); MD 1983 Illinois

Runge, Michael Wayne, Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); BSPH 1986 Iowa

Runge, Richard M., Emeritus Associate Professor, German, 1964 (1974); BA 1961 Iowa; MA 1963 Iowa; PHD 1967 Iowa

Rupe, Kerri Lynn Arter, Clinical Associate Professor, Nursing, 2000 (2000); BSN 1984 Northeast Missouri; MSN 1994 Clarkson; DNP 2008 Iowa

Ruperrecht, Axel, Professor, Radiology/Oral Path,RadiologyMedicine/Anatomy Cell Biology, 1987 (1987); DDS 1968 Toronto; MScD 1972 Toronto

Rus, Teodor, Emeritus Professor, Computer Science, 1982 (1993); DMATH 1965 Romanian Academy

Rushton, Gerard, Emeritus Professor, Geography/Health Management Policy, 1969 (1974); BA 1959 Wales-United Kingdom; MA 1962 Wales-United Kingdom; PHD 1964 Iowa

Russell, Bobby, Adjunct Assistant Professor, Preventive Community Dentistry, 2005 (2005); DDS 1988 Loyola - Chicago

Russell, Gary J., Professor, Marketing, 1996 (1999); BA 1976 Virginia; PHD 1985 Chicago

Russo, Andrew F., Professor, Neurology/Physiology, 1988 (2000); BA 1979 California-San Diego; PHD 1984 California-Berkeley
Russo, Mary D., Lecturer, Statistics Actuarial Science, 1983 (2006); MAT 1976 SUNY AT Binghamton

Ruth, Denise., Adjunct Assistant Professor, Pharmacy, 2008 (2008); BSPH 1984 Iowa

Rutkowski, David Thomas, Assistant Professor, Anatomy Cell Biology/Internal Medicine, 2008 (2008); BS 1997 Delaware; PHD 2002 California @ San Francisco

Rutledge-Russell, Christine Marion, Professor, Music, 1998 (2010); BA 1984 Curtis Institute of Music; MA 1988 Iowa

Ryue, Kathleen Ann, Adjunct Instructor, Social Work, 1997 (1997); MSW 1993 Iowa

Ryan, Ginny Lyn, Assistant Professor, Obstetrics Gynecology, 2006 (2009); BS 1995 Cornell; MD 1999 Washington Univ.

Ryang, Soon, Professor, International Programs/Anthropology, 2006 (2010); PHD 1995 Cambridge, UK

Ryckman, Kelly, Assistant Professor, Epidemiology, 2012 (2012); BS 2003 Iowa State University; MS 2008 Vanderbilt University

Ryder, Jon Scott, Adjunct Assistant Professor, Operative Dentistry, 1996 (2000); DDS 1996 Iowa

Ryzewski, Francis Chester, Adjunct Lecturer, Management Organizations, 2006 (2009); BA 1973 Rutgers; MBA 1974 Drexel

Ryken, Timothy Charles, Adjunct Associate Professor, Radiation Oncology/Neurosurgery, 1998 (2002); MD 1988 Iowa

Rzonca, Chester S., Associate Professor, Educ Policy Leadership Studies/Teaching and Learning, 1972 (1977); BS 1965 Central Connecticut; MA 1967 Morehead State; EDD 1972 Illinois

Sabbagh, Nadia G., Adjunct Instructor, Social Work, 2013 (2013); BA 2003 University of Iowa; MSW 2011 University of Iowa

Sabiston, Charles B., Emeritus Professor, Family Dentistry, 1972 (1977); BS 1953 Wake Forest; DDS 1957 North Carolina; PHD 1968 Virginia

Sadler, Anne, Associate Professor, Psychiatry, 2003 (2013); BN 1978 Old Dominion; MS 1980 Virginia Commonwealth; DPHIL 1990 Iowa

Saftlas, Audrey, Professor, Epidemiology, 1998 (2004); BA 1977 Clark; MPH 1979 Michigan; PHD 1986 Johns Hopkins

Sagen, H. Bradley, Emeritus Professor, Educ Policy Leadership Studies, 1964 (1973); BA 1957 Grinnell; PHD 1962 Minnesota

Sah, Rajan, Assistant Professor, Internal Medicine, 2013 (2013);

Sahai, Subhash C., Clinical Adjunct Assistant Professor, Family Medicine, 1979 (2002); BS 1967 Pantab; MS 1970 Northern Iowa; MD 1973 Iowa

Sailer, Stephanie, Adjunct Lecturer, University College Courses, 2011 (2011); MFA 2008 Kansas

Sakai, Chiaki, Adjunct Lecturer, International Programs, 2010 (2010); BA 1995 Intl Christian University; AMLS 1999 Hawaii

Sakoulas, George, Adjunct Assistant Professor, Internal Medicine, 2011 (2011); MD 1995 Harvard

Salamanca, Paul E., Adjunct Professor, Law-Faculty, 2012 (2012);

Salem, Aliasger Karimjee, Associate Professor, Chemical Biochemical Engineering/Biomedical Engineering/Pharmacy, 2004 (2009); BS 1994 Birmingham UK; PHD 2002 Nottingham, England

Salomon, Frank, Adjunct Professor, Anthropology, 2011 (2011); BA 1968 Columbia; MA 1974 Cornell; PHD 1978 Cornell

Saltzman, Charles L., Adjunct Professor, Orthopaedics and Rehabilitation, 1991 (2001); BA 1978 Brown; MD 1985 North Carolina-Chapel Hill

Samuel, Isaac, Associate Professor, Surgery, 1999 (2009); MD 1981 Bangalore Medical; FRACS 1989 Royal Coll of Physicians Sur

Samuelson, Larissa K., Associate Professor, Psychology, 2000 (2009); BS 1993 Indiana; PHD 2000 Indiana

Samuelson, Mari, Adjunct Assistant Professor, Social Work, 1999 (1999); BA 1973 Missouri Valley College; MSW 1984 MISSOURI-COLUMBIA

Samuelson, Megan, Clinical Assistant Professor, Pathology, 2012 (2012);

Sanchez, Antonio Jaime, Clinical Associate Professor, Internal Medicine, 2006 (2011); MD 2000 Guayaquil SOM

Sanchez, Jose, Adjunct Associate Professor, Epidemiology, 2003 (2003); BS 1975 Puerto Rico; MD 1979 Puerto Rico; MPH 1981 John Hopkins

Sander, Edward, Assistant Professor, Biomedical Engineering, 2011 (2011); BS 2000 Texas @ Austin; MENG 2004 Tulane; PHD 2006 Tulane

Sander, Heather Anne, Assistant Professor, Geography, 2011 (2011); BS 1993 Massachusetts; MA 2005 New Orleans; PHD 2009 Minnesota

Sanders, Sara, Associate Professor, Social Work, 2003 (2011); BS 1994 St. Olaf; MSW 1995 Washington; PHD 2002 Maryland
Sanderson, Wayne T., Adjunct Professor, Epidemiology, 2002 (2005); BA 1977 Missouri; MS 1978 Central Missouri State; PhD 1997 North Carolina

Sandler, Leonard. Clinical Professor, Law-Faculty, 1990 (1997); BS 1978 Northeastern Univ; JD 1981 Maryland

Sandra, Alexander. Emeritus Professor, Anatomy Cell Biology, 1978 (1990); BS 1968 Loyola; MS 1972 DePaul; PhD 1976 Case Western Reserve

Sandrock, James P., Emeritus Professor, German, 1960 (1977); BA 1951 Iowa; MA 1958 Iowa; PhD 1961 Iowa

Sandy, Brent. Lecturer, Music, 2000 (2000); BFA 1981 Northern Iowa

Sangha, Arashdeep Singh. Lecturer, English as Second Language, 2011 (2011); MA 2011 Iowa

Santi, Emily A., Adjunct Lecturer, Rehabilitation and Counselor Education, 2012 (2012);

Santillan, Donna A., Assistant Professor, Obstetrics Gynecology, 2010 (2010); BS 1998 Loyola; BA 1998 Loyola; DPHIL 2005 Loyola

Santillan, Mark Kharim, Assistant Professor, Obstetrics Gynecology, 2009 (2012); BS 1998 Loyola; MD 2002 Loyola

Santos, Ann Marie Garcia. Clinical Assistant Professor, Psych Quant Foundations, 2008 (2008); BA 1991 Texas AM; MA 1996 Iowa; PhD 2005 Iowa

Sarasin, Daniel Scott. Adjunct Assistant Professor, Oral Path,Radiology, 1988 (1993); DDS 1988 Iowa

Sardzinski, Joel Paul. Adjunct Associate Professor, Family Dentistry, 1999 (2012); BA 1982 Mid America Nazarene; DDS 1994 Missouri-Kansas City

Schaefer, Maureen M., Adjunct Lecturer, University College Courses, 2005 (2005); BA 1992 Minnesota; MS 1994 Minnesota; PHD 1996 Minnesota

Sargent, Stephanie Lynne Kuhn. Adjunct Lecturer, University College Courses, 2008 (2008); MS 2005 Indiana

Sarsour, Ehab Hasan. Adjunct Associate Professor, Radiation Oncology, 2011 (2011); PhD 2006 Iowa

Sartini-Rideout, Claudia. Lecturer, French Italian, 2009 (2012); MS 1998 Iowa; PhD 2006 Iowa

Sather, Bethany Carol. Adjunct Assistant Professor, Pharmacy, 2007 (2007); PHARMD 2003 Iowa

Satchy, Kevin. Clinical Adjunct Assistant Professor, Psychiatry, 2006 (2006); BS 1996 North Carolina; MD 2001 Brody, East Carolina

Sato, Yutaka. Professor, Radiology, 1986 (1992); MD 1973 Nippon Medical School-Japan

Sauder, Michael Edward. Associate Professor, Sociology, 2005 (2011); BA 1993 Truman State; MA 1998 Penn State; PhD 2005 Northwestern

Sauers, Sara Thurber. Adjunct Assistant Professor, Interdisciplinary Programs, 2003 (2007); AA 1977 Dupage; BS 1981 Wisconsin-Madison; MA 2003 Iowa

Saunders, Edward J., Associate Professor, Social Work, 1985 (1991); BA 1974 Villanova; MSW 1979 St. Louis; PhD 1985 Pittsburgh; MPH 1985 Pittsburgh

Savin, Nathan Eugene. Emeritus Professor, Economics, 1986 (1986); BA 1956 California-Berkeley; MA 1960 California-Berkeley; PhD 1969 California-Berkeley

Saylor, Morgan Leigh. Clinical Assistant Professor, Pharmacy Practice and Science, 2012 (2012); PHARMD 2008 University of Kansas

Sayre, Robert F. Emeritus Professor, English, 1965 (1972); BA 1955 Wesleyan; MA 1958 Yale; PhD 1962 Yale

Scamman, Franklin L. Emeritus Professor, Anesthesiology, 1978 (1995); BS 1966 Kansas; MD 1970 Kansas

Scandrett, Forrest R. Emeritus Professor, Prosthetics, 1970 (1982); DDS 1965 Iowa; MS 1970 Texas

Schaal, David. Emeritus Professor, Theatre Arts, 1956 (1969); BA 1942 Geneva; MA 1946 Western Reserve

Schurtz, Steven Harold, Clinical Adjunct Assistant Professor, Urology, 1985 (1985); MD 1975 Iowa

Schutte, Brian C., Adjunct Associate Professor, Pediatrics, 1991 (2005); BS 1983 Creighton; PHD 1988 Wisconsin

Schwab, James C., Adjunct Lecturer, Urban Regional Planning, 2008 (2008); MA 1985 Iowa

Schwabbauer, Marian Histand, Emeritus Professor, Pathology, 1971 (1997); BA 1961 Goshen; MA 1975 Iowa; PHD 1990 Iowa

Schwalm, Carla Marourneen, Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);

Schwartz, Christopher Elmer, Lecturer, Health and Human Physiology, 2013 (2013);

Schwartz, David A., Adjunct Instructor, Journalism Mass Communication, 2008 (2008); BA 1997 Iowa; MS 1998 Northwestern

Schweitzer, John W., Emeritus Professor, Physics Astronomy, 1966 (1978); BA 1960 Thomas More; MS 1962 Cincinnati; PHD 1966 Cincinnati

Schweizer, Marin Leigh, Assistant Professor, Epidemiology/Internal Medicine, 2010 (2012); PHD 2009 Maryland

Schwenker, Robbie L., Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Schwenker, Robbie L., Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Schweser, G. Carl, Emeritus Associate Professor, Finance, 1976 (1982); BS 1966 Missouri School of Mines; MBA 1968 Missouri; PHD 1976 Georgia

Schwiesow, Tyler Michael, Clinical Adjunct Instructor, Internal Medicine, 2007 (2007); BS 1999 Drake; MD 2003 Iowa

Schwinn, Debra Anne, Professor, Medicine Administration/Biochemistry/Pharmacology/Anesthesia, 2012 (2012);

Sciegienka, Anna, Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013);

Scieszinski, John Joseph, Adjunct Assistant Professor, Family Dentistry, 2008 (2008); BS 1977 Iowa; DDS 1981 Iowa

Scott, Edward Ray, Adjunct Lecturer, Accounting, 2012 (2012);

Scott, Eric Christopher, Clinical Adjunct Assistant Professor, Surgery, 2009 (2009); BA 1996 Luther College; MD 2000 Iowa

Scott, Gerald Lee, Emeritus Assistant Professor, Endodontics, 1979 (1979); DDS 1967 University of the Pacific

Scott, John Beldon, Professor, Art Art History, 1982 (1998); BA 1968 Indiana; MA 1975 Rutgers; PHD 1982 Rutgers

Scott, Sally J., Adjunct Assistant Professor, University College/Public Policy Center, 2011 (2011); MA 1989 Johns Hopkins; MS 1997 Pennsylvania; PHD 2001 Johns Hopkins

Scott, William Edwin, Emeritus Professor, Ophthalmology Visual Science, 1971 (1979); BA 1959 Iowa; MS 1962 Iowa; MD 1964 Iowa

Scott-Conner, Carol, Professor, Surgery, 1995 (1995); MD 1976 New York University; PHD 1988 Kentucky; BS 1990 Massachusetts Institute of Tec

Scranton, Alec B., Professor, Chemical Biochemical Engineering, 2000 (2000); BS 1984 Iowa; PHD 1990 Purdue

Scudder, Jack D., Professor, Physics Astronomy, 1993 (1993); BA 1969 Williams; MS 1971 Maryland; PHD 1975 Maryland

Scullion, Rosemarie, Associate Professor, Gender, Women’s and Sexuality Studies/Cinema Comparative Literature/French Italian/International Programs, 1987 (1994); BA 1978 Wisconsin-Madison; MA 1982 Wisconsin-Madison; PHD 1987 Wisconsin-Madison

Seaba, Hazel H., Clinical Professor, International Programs/Pharmacy, 1971 (1995); BSPH 1967 Ferris State; MS 1971 Iowa

Seabold, James E., Emeritus Professor, Radiology, 1982 (1996); BS 1964 Michigan State; MD 1968 Michigan

Seaman, Walter I., Associate Professor, Mathematics/Teaching and Learning, 1983 (1991); BA 1976 Beloit; PHD 1982 Massachusetts

Seelbach, Paul M., Emeritus Professor, Internal Medicine, 1949 (1959); BA 1938 Cincinnati; MD 1941 Cincinnati

Seering, Melinda, Clinical Assistant Professor, Anesthesia, 2011 (2011); MD 2002 Iowa

Seetharam, R. S., Adjunct Associate Professor, International Programs, 2009 (2009); MENG 1974 university of Pune; MBBS 1989 Mysore University; MS 1996 PGIMER, Chandigarh

Seetharam, Sridevi, Adjunct Associate Professor, International Programs, 2009 (2009); MD 1996 Pgimer, Chandigarh; MA 2007 Katholieke, Leuven

Segal, Neil A., Associate Professor, Radiology/Epidemiology/Orthopaedics and Rehabilitation, 2004 (2009); BA 1994 Brown; MD 2000 Vanderbilt; MS 2008 Iowa

Segar, Jeffrey L., Professor, Pediatrics, 1992 (2004); BS 1982 Wisconsin-Madison; MD 1986 Wisconsin-Madison

Segre, Lisa Sharon, Assistant Professor, IA Consortium Substance Abuse/Nursing, 1998 (1998); BA 1979 Mount Holyoke; MA 1981 Maryland; PHD 1993 Illinois-Urbana Champaign

Seibert, Scott Edward, Associate Professor, Management Organizations, 2008 (2008); BS 1983 State University of New York; MS 1988 Cornell University; PHD 1994 Cornell University

Seiffert, Melinda Teresa, Adjunct Lecturer, Management Organizations, 2011 (2011); BA 1994 Iowa; MBA 2003 Iowa

Seim, Arne Rolf, Lecturer, French Italian, 2005 (2005); BS 1982 IOWA STATE; BA 1989 IOWA; MA 2004 South Dakota

Semelroth, Timothy Samuel, Adjunct Lecturer, Law-Faculty, 2005 (2005); BA 1994 Drake; JD 1997 IOWA
Semken, Holmes A., Emeritus Professor, Geoscience, 1965 (1973); BS 1958 Texas; MS 1960 Texas; PhD 1965 Michigan

Sen Gupta, Ananya, Assistant Professor, Electrical-Computer Engineering, 2012 (2012);

Seo, Seongjin, Assistant Professor, Ophthalmology Visual Science, 2011 (2011); PhD 2005 Washington St Louis

Serrano Russi, Alvaro, Clinical Assistant Professor, Pediatrics, 2011 (2011); MD 2002 Military Neuva Granada

Sertterh, Jennie L., Adjunct Instructor, Health and Human Physiology, 2001 (2001); BS 1996 Southern Illinois; MED 1998 Nebraska

Sessions, Jennifer E., Associate Professor, History, 2005 (2011); AB 1996 Harvard; PhD 2005 Pennsylvania

Severidt, Larry A., Clinical Adjunct Associate Professor, Family Medicine, 1987 (2001); MD 1977 Iowa

Severino, Carol J., Professor, Rhetoric/International Programs, 1990 (2012); BA 1971 Valparaiso; MA 1976 Illinois-Chicago; PhD 1989 Illinois-Chicago

Sexton, Jonathan Merle, Adjunct Instructor, University College, 2006 (2013); BA 2004 Central College; MA 2006 Iowa

Sexton, Nicole Elizabeth, Adjunct Lecturer, University College, 2008 (2008); BA 2006 Coe College; MA 2008 Iowa

Seyfer, James William, Adjunct Lecturer, University College, 2007 (2013); BA 1974 Iowa; MPA 1975 The American University; MA 1986 Iowa

Shadur, Craig A., Clinical Adjunct Associate Professor, Internal Medicine, 1981 (1996); MD 1974 Iowa

Shaffer, Michael A., Adjunct Instructor, Health and Human Physiology/Physical Therapy, 2003 (2003); BS 1992 Iowa; MS 1994 Beaver College

Shaftel, Matthew, Adjunct Associate Professor, Music, 2008 (2008); MPHil 1997 Yale; PhD 2000 Yale

Shah, Apurva Surendra, Assistant Professor, Orthopaedics and Rehabilitation, 2012 (2012);

Shah, Divya Kelath, Clinical Assistant Professor, Obstetrics Gynecology, 2012 (2012);

Shahid, Khadija S., Clinical Assistant Professor, Ophthalmology Visual Science, 2011 (2011); BS 1999 Pennsylvania; OD 2002 Pennsylvania

Shaik, Jaffar, Clinical Adjunct Assistant Professor, Pediatrics, 2001 (2001); MD 1993 Royal College London LONDON

Shammas, Nicolas W., Clinical Adjunct Associate Professor, Internal Medicine, 2000 (2006); MD 1987 American

Shane, Dan M., Assistant Professor, Health Management Policy/Economics, 2012 (2012);

Shank, Glenace B., Clinical Adjunct Assistant Professor, Family Medicine, 2005 (2005); BA 1978 McPherson; MS 1981 Iowa State; PhD 1986 Iowa State; DO 1997 Iowa State

Shannon, Abby Joanna Theresa, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012);

Sharma, Nancy, Clinical Assistant Professor, Internal Medicine, 2012 (2013);

Sharp, Jamie Dee, Emeritus Associate Professor, Dentistry Administration, 1995 (1994); BA 1976 San Francisco State; MS 1978 Iowa

Sharp, Victoria Jean Allen, Clinical Professor, Family Medicine/Urology, 2002 (2010); BS 1983 George Mason; MD 1993 Arizona; MBA 2003 Iowa

Shasby, Douglas Michael, Emeritus Professor, Internal Medicine, 1982 (1989); BA 1967 Duke; MD 1973 Duke

Shaw, Ian Kelloren, Adjunct Instructor, Family Dentistry, 2010 (2010); BA 2001 Iowa; DDS 2005 Iowa

Shaw, Kelly B., Adjunct Lecturer, Political Science, 2012 (2012);

Shaw, Rebecca D., Clinical Adjunct Associate Professor, Obstetrics Gynecology, 1999 (1999); MD 1975 Iowa

Shaw, Robert F., Adjunct Assistant Professor, Pharmacy Practice and Science, 2005 (2005); PHARMD 1994 Illinois; MPH 2004 South Florida

Shaw, Scott K., Assistant Professor, Chemistry, 2012 (2012);

Shchelochkov, Oleg Anatolyevich, Assistant Professor, Pediatrics, 2009 (2009); MD 1997 Tashkent, USSR

Shea, Christine Elizabeth, Assistant Professor, Spanish Portuguese, 2010 (2010); BA 1996 Concordia, Canada; MA 2003 CEIE-UNAMJ, Mexico; PhD 2010 Calgary, Canada

Shea, Madeline A., Professor, Biochemistry, 1989 (2002); BS 1977 California Inst of Technology; PHD 1984 Johns Hopkins

Sheele, Neal, Clinical Adjunct Assistant Professor, Family Medicine, 2007 (2007); MA 1984 Loras College

Sheerin, Caroline, Lecturer, Law-Faculty, 2006 (2006); BA 1993 Barnard, Columbia; MA 1996 Washington; JD 1999 Michigan

Sheets, James Steven, Adjunct Assistant Professor, Management Organizations, 2008 (2008); MAT 1983 St. Thomas; PhD 1992 Rochester; JD 2002 Iowa

Sheetz, Carolita Theresa, Adjunct Lecturer, Nursing, 2003 (2007); BSN 1989 Mt. Pleasant,IA; MSN 1999 Iowa

Sheffield, Val C., Professor, Pediatrics, 1990 (1998); MS 1974 Brigham Young; BS 1977 Brigham Young; PHD 1983 Chicago; MD 1985 Chicago

Sheldon, Daniel S., Emeritus Associate Professor, Teaching and Learning, 1973 (1980); BS 1960 Northern State; MS 1961 Northern State; PHD 1973 Iowa

Shelman, Rick Allen, Clinical Adjunct Assistant Professor, Surgery, 1999 (1999); MD 1990 Iowa

Shelton, Vanessa, Adjunct Assistant Professor, Journalism Mass Communication, 2001 (2007); BA 1977 COE; MA 1994 Iowa; PhD 2007 Iowa
Shen, Bern, Adjunct Associate Professor, Emergency Medicine, 2008 (2008); MPHIL 1981 Yale; MD 1981 Yale
Shen, Helen, Associate Professor, Asian Slavic Languages Literature/International Programs, 2002 (2008); BA 1981 Ningbo, China; MA 1990 Zhejiang, China; PHD 1997 Nevada-Reno
Shen, Rani, Adjunct Assistant Professor, Pharmacy Practice and Science, 2007 (2007); PHARMD 2005 Iowa
Shen, Wendy Weiyin, Clinical Assistant Professor, Family Medicine, 2005 (2008); MD 1992 Beijing Medical
Shepardson, Richard D., Emeritus Professor, Teaching and Learning, 1972 (1981); BA 1960 Chico State; MA 1968 San Jose State; PHD 1972 Texas
Shepherd, Rhoda, Adjunct Instructor, Nursing, 1995 (1995); MA 1976 Iowa
Shepley, Alan Martin, Adjunct Instructor, Pharmacy, 1997 (1997); BSPH 1971 Iowa
Sherer, Jennifer Kristene, Adjunct Lecturer, University College, 2009 (2009); BA 1995 Oberlin; MA 2001 Iowa; PHD 2008 Iowa
Sheridan, Charlene, Adjunct Instructor, Preventive Area Comm College; BA 2002 Simpson College
Shetty, Mahesh, Clinical Adjunct Assistant Professor, Internal Medicine, 2011 (2011); MBBS 1999 Univ of Bombay, Bombay,India; MBBC 1999 Bombay, India
Shever, Leah Lynn, Adjunct Lecturer, Nursing, 2008 (2008); BSN 2002 Iowa; MSN 2005 Iowa; PHD 2007 University of Iowa
Shey, Kathleen Suzanne, Adjunct Instructor, Social Work, 2007 (2007); BSW 1995 Iowa; MSW 1999 Iowa
Shian, Brian Xian, Clinical Assistant Professor, Family Medicine, 2011 (2011); MD 1991 Luzhou, China; MPAS 2007 Iowa
Shibata, Erwin F., Associate Professor, Physiology/ Internal Medicine, 1986 (1994); BSEE 1974 Washington; MSE 1980 Washington; PHD 1984 Texas Medical Branch-Galveston
Shibley, Deborah Lynn, Adjunct Instructor, Nursing, 2013 (2013);
Shibli-Rahhal, Amal Ali, Clinical Associate Professor, Internal Medicine, 2007 (2012); BS 1996 American Univ of Beirut; MD 2000 American Univ of Beirut
Shields, Richard Kemp, Professor, Physical Therapy/ Orthopaedics and Rehabilitation, 1986 (2004); BA 1976 Cabawba; MA 1985 Iowa; PHD 1992 Iowa
Shields, Susan Margaret, Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012);
Shih, Ming-Che, Emeritus Professor, Biology, 1988 (2003); BS 1976 Tunghai-Taiwan; PHD 1983 Iowa
Shilyansky, Joel, Professor, Surgery/Pediatrics, (2013); MD 1988 California
Shim, Hyungsub, Clinical Assistant Professor, Neurology, 2012 (2012);
Shinozaki, Gen, Associate Professor, Psychiatry, 2013 (2013);
Shirazi, Siroos S., Emeritus Professor, Surgery, 1972 (1981); PCB 1959 Shiraz; MD 1965 Shiraz-Iran
Shires, Robert S., Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); BS 1972 Nebraska Wesleyan; MD 1975 Nebraska
Shires, Thomas K., Emeritus Professor, Pharmacology, 1972 (1981); AB 1957 Colgate; MS 1962 Oklahoma; PHD 1965 Oklahoma
Shivapour, Ezzatollah Torge, Clinical Professor, Neurology, 1980 (2005); MD 1972 Tabriz
Shivers, Matthew, Adjunct Instructor, Pharmacy, 2003 (2003); BS 1978 Iowa
Shoemaker, Patrick G., Adjunct Instructor, University College, 2003 (2013); BA 1978 Dartmouth
Shokooohi-Yekta, Mohsen, Lecturer, Teaching and Learning, 1999 (2002); BA 1984 TEHRAN; MA 1989 ROOSEVELT; PHD 1993 Iowa
Shoukih, Tameem, Clinical Adjunct Assistant Professor, Pediatrics, 2002 (2002); MD 1985 Damascus
Shoulultz, Amy Kathleen Engelbert, Clinical Associate Professor, Teaching and Learning, 2002 (2010); BA 1985 Coe; MAT 1990 Iowa; PHD 2002 Iowa
Shoulultz, Gregg Alan, Adjunct Lecturer, Educ Policy Leadership Studies, 2004 (2013); BA 1987 Iowa; MAT 1994 Iowa; PHD 2002 Iowa
Shrimer, Amy E., Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);
Shrimer, Erin, Assistant Professor, Ophthalmology Visual Science, 2012 (2012);
Shtewi, Mica Devon, Lecturer, English as Second Language, 2013 (2013);
Shusterman, Vladimir, Associate Professor, Internal Medicine, 2013 (2013);
Shy, Michael E., Professor, Neurology/Pediatrics, 2012 (2012); MD 1979 Albany Medical
Shy, Rosemary Rudolph, Clinical Assistant Professor, Pediatrics, 2012 (2012);
Shyamalkumar, Nariankadu Datatreya, Associate Professor, Statistics Actuarial Science, 2004 (2012); BS 1989 Loyola, India; MS 1991 Indian Stat Inst, India; PHD 1996 Purdue Univ, IN, USA
Sidwell, Richard Allen, Clinical Adjunct Associate Professor, Surgery, 2004 (2007); BS 1988 Iowa; MD 1993 Iowa
Siebert, Calvin D., Emeritus Professor, Economics, 1965 (1975); BA 1958 Kansas; MA 1960 Kansas; PHD 1966 California-Berkeley
Sieleni, Bruce A., Clinical Adjunct Assistant Professor, Psychiatry, 2007 (2007); MD 1982 Minnesota
Sieren, Jessica Corinne, Assistant Professor, Radiology/ Biomedical Engineering, 2009 (2011); BS 2002 Flinders Univ; BENG 2002 Flinders Univ; PHD 2008 Iowa
Siewert, Rebecca, Clinical Associate Professor, Nursing, 2004 (2012); BSN 1985 St. Xavier, ILL; MS 1990 Illinois@Chicago; DR 2002 Rush, ILL

Sigmund, Curt D., Professor, Physiology/Pharmacology/Internal Medicine, 1991 (2000); BA 1982 State Univ of NY-Buffalo; MA 1984 State Univ of NY-Buffalo; PHD 1987 State Univ of NY-Buffalo

Sigurdsson, Gardar, Clinical Associate Professor, Radiology/Internal Medicine, 2008 (2013); MD 1993 Iceland, Reykjavik

Silverman, William B., Clinical Professor, Internal Medicine, 1997 (2003); BA 1976 Colby College; MD 1984 University of Brussels-Belgium

Silvers, Andrea J., Clinical Adjunct Assistant Professor, Family Medicine, 2003 (2003); BS 1994 Iowa State; MD 1999 Iowa

Simmons, Donald L., Adjunct Assistant Professor, Occupational Environmental Health, 2000 (2000); BS 1985 Oklahoma; MS 1989 Oklahoma; PHD 1994 Oklahoma

Simmons, Jonathan S., Clinical Associate Professor, Emergency Medicine/Anesthesia, 2004 (2009); SCB 1994 Truman State MO; DO 1999 Kirksville/ Osteopathic Med

Simmons, Shawn T., Clinical Associate Professor, Anesthesia, 1999 (2003); BA 1990 Kansas; MD 1994 Kansas

Simmons, Susan J., Clinical Adjunct Associate Professor, Nursing, 2013 (2013);

Simmons, Tom, Associate Professor, English, 1992 (1994); AB 1978 Stanford; MA 1983 Calif-Berkeley; PHD 1988 Calif-Berkeley

Simon, Christian, Associate Professor, Anthropology/Internal Medicine, 2008 (2008); PHD 1997 California

Simon, J. Richard, Emeritus Professor, Psychology/Industrial Engineering, 1957 (1968); BBA 1951 Wisconsin; MA 1953 Wisconsin; PHD 1955 Wisconsin

Simon, Jonathan K., Emeritus Professor, Mathematics, 1969 (1980); AB 1964 Columbia; MA 1965 Wisconsin; PHD 1969 Wisconsin

Simonds, Vanessa W., Assistant Professor, Community Behavioral Health, 2011 (2011); SCM 2005 Harvard; SCD 2009 Harvard

Simpson, Christopher Miles, Adjunct Instructor, Pharmacy, 2005 (2005); BSPH 1991 Iowa

Sims, Hallie J., Assistant Professor, Geoscience, 2005 (2005); PHD 2000 Chicago

Sindt, Christine W., Clinical Associate Professor, Ophthalmology Visual Science, 1997 (2007); BS 1990 State Univ of NY-Geneseo; OD 1994 Ohio State

Singer, Jane B., Associate Professor, Journalism Mass Communication, 1999 (2005); MA 1990 New York; PHD 1996 Missouri-Columbia

Singh, Baljit, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); DMD 1990 Boston

Singh, Madhu V., Assistant Professor, Internal Medicine, 2009 (2009); BSC 1981 Gorakhpur, India; MSc 1986 GBP, Ag Tech, India; PHD 1995 Alberta, Canada

Singh, Mammanoh, Clinical Adjunct Assistant Professor, Psychiatry, 1987 (1991); MD 1979 Magadh-India

Singh, Sarabdeep, Adjunct Assistant Professor, Health Management Policy, 2007 (2013); MAE 1991 Punjab; MS 1995 Western Michigan

Sinha, Rajendra, Adjunct Lecturer, Management Organizations, 2012 (2012);

Sinha, Sushmita, Assistant Professor, Pathology, 2013 (2013);

Sinn, Patrick Ladd, Assistant Professor, Pediatrics, 2009 (2009); PHD 1999 Iowa

Siochi, R. Alfredo C., Clinical Assistant Professor, Radiation Oncology/Electrical-Computer Engineering/Physics Astronomy, 2005 (2005); BS 1985 Ateneo de Manila; MS 1988 Virginia Tech; PHD 1990 Virginia Polytech Institute; MS 1995 Cincinnati

Sipia, Justin Scott, Lecturer, Anatomy Cell Biology, 2010 (2010); MPHIL 2004 Stony Brook University; MS 2004 Stony Brook University; PhD 2007 Stony Brook University

Siriwetchadarak, Raiphen, Clinical Assistant Professor, Anesthesia, 2008 (2008); MD 1999 Mahidol Univ, Thailand

Sitzman, Scott J., Adjunct Professor, Pharmacy Practice and Science, 2002 (2002); BS 1996 South Dakota State; PHARM 1998 South Dakota State

Sivitz, William I., Professor, Internal Medicine, 1987 (2001); BS 1966 Pittsburgh; MD 1972 Hahnemann

Six, Erich W., Emeritus Professor, Microbiology, 1960 (1973); MA 1949 Frankfurt-Germany; PHD 1954 Frankfurt-Germany

Sjolund, Richard D., Emeritus Professor, Biology, 1968 (1997); BS 1963 Wisconsin; PHD 1968 California-Davis

Skeete, Dionne A., Clinical Associate Professor, Surgery, 2011 (2011); MD 1996 Washington-St. Louis

Smoot, Milton Kyle, Clinical Associate Professor, Family Medicine/Orthopaedics and Rehabilitation/Pediatrics, 2009 (2013); BS 2000 Louisville, Kentucky; MD 2005 Wright State, OH

Smucker, Joseph Douglas, Associate Professor, Orthopaedics and Rehabilitation, 2005 (2013); BA 1995 Goshen; MD 1999 Indiana

Snetselaar, Linda G., Professor, Internal Medicine/Epidemiology, 1985 (2005); BS 1972 Iowa State; MS 1975 Iowa; PHD 1983 Iowa

Snider, Alvin, Associate Professor, English, 1986 (1992); BA 1977 Toronto; MA 1978 Toronto; PHD 1984 Chicago

Snitzer, James G., Professor, Art Art History/Interdisciplinary Programs, 1976 (2007); BA 1973 Calif-Los Angeles; MFA 1976 Art Inst of Chicago

Snyder, Jeanne M., Emeritus Professor, Anatomy Cell Biology/Pediatrics, 1988 (1993); BS 1968 Northwestern; PHD 1972 Pennsylvania

Snyder, Peter M., Professor, Internal Medicine/Physiology, 1996 (2004); BA 1984 Luther; MD 1989 Iowa

Sobocinski, Nicholas John, Adjunct Instructor, University College, 2010 (2013); BS 2009 Iowa

Sodawasser, Sara, Adjunct Instructor, Preventive Community Dentistry, 2003 (2003); BS 1988 University of Iowa

Solomon, Allison, Adjunct Instructor, Preventive Community Dentistry, 2006 (2006); DDS 2002 Colorado School of Dentistry

Solomons, Gerald, Emeritus Professor, Pediatrics, 1962 (1969); MD 1943 Royal College-Edinburgh

Solomons, Hope, Emeritus Professor, Nursing, 1967 (1982); BA 1952 Clark; AM 1954 Wellesley; EDD 1957 Boston

Solow, Catherine Mitague, Clinical Assistant Professor, Preventive Community Dentistry, 1986 (2009); MA IOWA; BA ALBERTUS MAGNUS

Solt, Frederick, Assistant Professor, Political Science, 2012 (2012);

Somasekhar, Vishwanath, Adjunct Lecturer, Mechanical Engineering, 2013 (2013); MS 2003 Iowa State University; PHD 2011 Iowa State

Sommers, James H., Adjunct Instructor, Preventive Community Dentistry, 2002 (2002); BA 1950 Iowa; DDS 1952 Iowa

Sommers, Stacy Marie, Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);
Song, Long-Sheng, Associate Professor, Internal Medicine, 2006 (2012); MD 1993 North China Coal; MS 1996 Kunming Medical, China

Sonnevile, Diane E., Adjunct Instructor, Social Work, 1996 (1996); MSW 1985 Iowa

Sorensen, Stephen Martin, Clinical Adjunct Assistant Professor, Family Medicine, 2009 (2009); BS 1989 Iowa; MD 1995 Iowa College of Medicine

Sorenson, Mark Kevin, Adjunct Assistant Professor, Pharmacy, 1987 (2002); BS 1982 Iowa; BSPH 1982 Iowa

Sorenson, Susan R., Adjunct Instructor, Pharmacy, 1997 (1997); BSPH 1983 Iowa; BS 1983 Iowa

Sorofman, Bernard A., Professor, Pharmacy, 1984 (2001); BA 1972 Nevada; BS 1979 Oklahoma; PHD 1984 Minnesota

Sosale, Sujatha, Associate Professor, International Programs/Journalism Mass Communication, 2003 (2007); MS 1986 Bangalore, India; MS 1990 Purdue; PHD 1998 Minnesota

Souders, Grant Robert, Adjunct Assistant Professor, Creative Writing, 2013 (2013);

Sougstad, Sarah Clarissa, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Soukup, Mauritza, Adjunct Assistant Professor, Nursing, 1981 (1991); BSN 1973 Marycrest College; MSN 1975 Alabama-Birmingham; PHD 1989 The Catholic Univ of America

Sousa, Sandra L., Lecturer, Spanish Portuguese, 2012 (2013);

Southard, Karin A., Emeritus Professor, Orthodontics, 1990 (2000); BS 1975 Ohio State; DDS 1981 Medical College of Virginia; MS 1986 Northwestern

Southard, Thomas E., Professor, Orthodontics, 1990 (2000); BS 1973 Old Dominion; MS 1974 Ohio State; DDS 1980 Medical College of Virginia; MS 1988 Tennessee

Spading, Kimberly A., Adjunct Instructor, Pharmacy, 2002 (2002); BS 1996 Iowa; BSPH 1996 Iowa

Spaight, Paula Marie, Adjunct Instructor, Preventive Community Dentistry, 2009 (2009); MA 2009 New Mexico

Spak, Scott Nathan, Assistant Professor, Urban Regional Planning/Civil-Environmental Engineering/Public Policy Center, 2011 (2011); BA 2000 Dartmouth; PHD 2009 Wisconsin

Spangler, Heather Jean, Adjunct Instructor, Journalism Mass Communication, 2008 (2008); BA 2003 Iowa; MA 2005 Iowa

Spangler, Steven R., Professor, Physics Astronomy, 1982 (1988); MS 1972 Iowa; BA 1972 Iowa; PHD 1975 Iowa

Spangal, Angela Michelle, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARMD 2009 Iowa

Spaulding, Sarah Ann, Adjunct Assistant Professor, University College, 2012 (2012); BA 1982 University of Colorado; MS 1990 Colorado State University; PHD 1996 Colorado State University

Spaziani, Eugene, Emeritus Professor, Health and Human Physiology/Biology, 1959 (1968); BA 1952 UCLA; MA 1954 UCLA; PHD 1958 UCLA

Specht, Janet Kay Pringle, Professor, Nursing, 1984 (2009); BSN 1973 Iowa; MA 1981 Iowa; PHD 1996 Iowa

Spector, Michael, Clinical Assistant Professor, Family Dentistry, 2005 (2005); BS 1992 Binghamton; DMD 1999 Temple; MS 2002 Columbia

Spencer, John P., Professor, Psychology, 1997 (2009); BSC 1991 Brown; PHD 1998 Indiana

Spieker, Ruth D., Clinical Assistant Professor, Oral Pathology/Radiology/Medicine, 2002 (2002); BA 1979 Toronto; DDS 1983 Toronto

Spier, Angela Lynn, Adjunct Instructor, Radiology, 2011 (2011); CER 2005 UIHC Rad. Tech. Program

Spies, Leon Fred, Adjunct Lecturer, Law-Faculty, 2005 (2005); BBA 1972 Iowa; JD 1975 Iowa

Spies, Maria, Associate Professor, Biochemistry, 2011 (2011);

Spies, Michael Ashley, Assistant Professor, Biochemistry/Pharmacy, 2011 (2011); BA 1991 Kansas; MA 1994 Kansas; PHD 1997 Kansas

Spinks, Ruth A., Adjunct Assistant Professor, Psychology, 2001 (2001); BS 1987 Wichita State; MA 1996 Case Western; PHD 1999 Case Western

Spisak, Arthur Louis, Professor, Classics, 2011 (2011); BA 1966 Youngstown State; BA 1979 Youngstown State; MA 1985 John Carroll; PHD 1992 Loyola

Spitz, Douglas R., Professor, Radiation Oncology, 2000 (2006); BA 1978 Grinnell; PHD 1984 Iowa

Spitzer, Alan B., Emeritus Professor, History, 1957 (1963); BA 1948 Swarthmore; MA 1949 Columbia; PHD 1955 Columbia

Spitzer, John Herbert, Clinical Professor, Finance, 1995 (1997); BS 1966 Stanford; MS 1967 Iowa; PHD 1975 Duke

Spofford, Christina Marie, Assistant Professor, Anesthesiology, 2008 (2011); BA 1994 Arizona; PHD 2001 Milwaukee, Wisconsin; MD 2003 Milwaukee, Wisconsin

Sponsler, Claire, Professor, English, 1993 (2004); BS 1982 Duke; MA 1984 Syracuse; PHD 1992 Pennsylvania

Spragg, Matthew Thomas, Clinical Assistant Professor, Emergency Medicine, 2011 (2012); DO 2000 Des Moines

Sprince, Nancy L., Emeritus Professor, Occupational Environmental Health/Nursing, 1990 (1999); MD 1971 Boston; BA 1971 Boston; MPH 1980 Harvard

Spyker, Rick A., Professor, Aerospace Studies, 2013 (2013);

Squire, Larry J., Clinical Associate Professor, Family Dentistry, 1978 (1983); BS 1972 St. Ambrose; DDS 1976 Iowa

Srinivasan, Padmini, Professor, Computer Science/ Nursing, 1989 (2005); MSC 1978 Birla Inst of Tech and Science; PhD 1985 Syracuse

Srinivasan, Sreedevi, Assistant Professor, Orthodontics, 2013 (2013);

Sripada, Ramprasad, Clinical Associate Professor, Anesthesia, 2012 (2012);

Staber, Janice Marie Rose, Assistant Professor, Pediatrics, 2010 (2013); BS 2000 Iowa; MD 2004 Iowa

Stachowiak, James Robert, Adjunct Lecturer, Rehabilitation and Counselor Education, 2010 (2010); BSE 2003 Michigan; MSE 2004 Michigan

Staffey, Kimberly, Clinical Assistant Professor, Radiology/ Internal Medicine, 2007 (2010); MD 2001 Illinois, Rockford

Stafford, Haraldine A., Clinical Professor, Internal Medicine, 2001 (2010); BA 1975 Case Western Reserve; PHD 1981 Case Western Reserve; MD 1983 Case Western Reserve

Stahle, Keri Collison, Clinical Assistant Professor, Dental Clinic Administration, 2007 (2007); DDS 2000 Iowa

Stahle, Rebecca S., Adjunct Assistant Professor, Pharmacy, 2002 (2002); PHARMD 2000 Iowa

Stahlin, Robert, Adjunct Lecturer, Marketing, 2000 (2000); MBA 1999 Iowa

Stahly, Donald P., Emeritus Professor, Microbiology, 1966 (1979); BS 1959 Ohio State; MS 1961 Ohio State; PHD 1964 Illinois

Staley, John H., Adjunct Professor, Health Management Policy, 1973 (2005); BA 1966 Cornell-Iowa; MA 1969 Iowa; PHD 1974 Iowa

Staley, Robert N., Professor, Orthodontics, 1970 (1985); BS 1957 Minnesota; DDS 1959 Minnesota; MA 1967 Chicago; MA 1970 State Univ of New York

Stamler, John Frederic, Clinical Adjunct Instructor, Ophthalmology Visual Science, 1996 (1996); PHD 1980 Iowa; MD 1982 Iowa

Stamnes, Mark, Associate Professor, Internal Medicine/ Physiology, 1997 (2004); BS 1986 Washington; PHD 1992 California-San Diego

Stamou, Sotiris C., Clinical Assistant Professor, Cardiothoracic Surgery, 2012 (2012);

Standing, Cheryl, Clinical Adjunct Assistant Professor, Pediatrics, 2004 (2004); BS 1978 Iowa; MD 1983 Iowa

Standidge, Dominic, Adjunct Lecturer, Journalism Mass Communication/Management Organizations/ Communication Studies, 2001 (2008); MA 2002 Kent, UK; PHD 2007 Kent, UK

Stanford, Clark Mitchell, Professor, Prosthodontics/ Biomedical Engineering/Clinical Research Resources/ Orthopaedics and Rehabilitation, 1992 (2001); BS 1984 Iowa; DDS 1987 Iowa; PHD 1992 Iowa

Stanford, William, Emeritus Professor, Radiology, 1985 (1991); BSPH 1952 Iowa; MD 1956 Iowa

Stange, Von, Adjunct Assistant Professor, Educ Policy Leadership Studies, 2004 (2004); BS 1983 South Dakota; MED 1987 Texas Tech; EDD 2002 South Dakota

Stangl, Elizabeth Ann, Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012); BS 2006 U of OK; MA 2009 University of Iowa; DAUD 2010 University of Iowa

Staples, Lawrence F., Emeritus Associate Professor, Internal Medicine, 1967 (1979); BS 1949 New Hampshire; MS 1950 New Hampshire; MD 1956 Iowa

Stapleton, Anne Mckeek, Lecturer, English, 2001 (2005); BS 1979 Kansas; BA 1991 Iowa; MA 1997 Iowa; PHD 2001 Iowa

Stapleton, Jack T., Professor, Microbiology/Internal Medicine, 1986 (1996); BA 1977 Iowa; MD 1980 Kansas

Starck, Kenneth, Emeritus Professor, Journalism Mass Communication, 1974 (1976); BA 1956 Wartburg; MA 1960 Missouri; PHD 1968 Southern Illinois

Stark, Craig A., Clinical Adjunct Assistant Professor, Internal Medicine, 1987 (1991); MD 1982 Wayne State

Stark, David Wayne, Adjunct Instructor, Pharmacy, 2008 (2008); BSPH 1977 Iowa

Stark, Thomas Michael, Adjunct Assistant Professor, Orthodontics, 2006 (2006); BS 1980 Iowa State; DDS 1983 Iowa; MS 1985 Baylor College of Dentistry

Starlin, Crystal S., Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARMD 1999 Creighton

Starner, Timothy Duane, Associate Professor, Pediatrics, 2001 (2010); BS 1987 Colorado State; BS 1991 Colorado State; MD 1995 Colorado-Denver

Starry, Mary J., Clinical Assistant Professor, Pharmacy, 1991 (2010); BSPH 1980 Iowa

Stauss, Harald Martin, Associate Professor, Health and Human Physiology, 2002 (2008); MD 1991 Heidelberg; PHD 1999 Humboldt

Stay, Barbara A., Emeritus Professor, Biology, 1967 (1977); BA 1947 Vassar; MA 1949 Radcliffe; PHD 1953 Radcliffe

Stecopoulos, Harilaos, Associate Professor, English, 1999 (2008); BA 1986 Oberlin; PHD 1999 Virginia
Steele, Gillian P., Adjunct Instructor, Spanish Portuguese, 2010 (2010); BA 2006 Iowa; MA 2009 Iowa

Steele, Oliver, Emeritus Professor, English, 1967 (1974);

Steeleman, Victoria Jean, Assistant Professor, Nursing, 1989 (2009); BSN 1979 Iowa; PHD 1997 Iowa

Steenblock, Douglas F., Clinical Adjunct Assistant Professor, Psychiatry, 2001 (2001); MD 1992 Creighton

Steffen, Angela Lynn, Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Steffensmeier, Andrew Clyde, Adjunct Assistant Professor, Ophthalmology Visual Science, 2011 (2011); BA 2000 Luther; MD 2004 Iowa

Stehbens, James A., Emeritus Professor, Pediatrics, 1967 (1984); BS 1962 Iowa State; PHD 1967 Iowa

Stein, Kyle Matthew, Clinical Assistant Professor, Oral Maxillofacial Surgery, 2013 (2013);

Steinberg, Allen, Emeritus Associate Professor, History, 1991 (1993); BA 1972 Northwestern; MA 1974 Columbia; MPHIL 1975 Columbia; PHD 1983 Columbia

Steinbrech, Nora, Lecturer, Teaching and Learning, 2001 (2001); PHD 1991 Iowa

Steines Wagemester, Jennifer Christine, Clinical Assistant Professor, Obstetrics Gynecology, 2012 (2012);

Steinitz, Maya, Associate Professor, Law-Faculty, 2011 (2011); BSL 1999 Jerusalem; LLM 2000 New York; JD 2005 New York

Stellwagen, Earle C., Emeritus Professor, Biochemistry, 1964 (1973); BS 1955 Elmhurst; MS 1959 Northwestern; PHD 1963 California-Berkeley

Stellwagen, Nancy C., Adjunct Professor, Biochemistry, 1993 (1993); BA 1956 Northwestern; MS 1958 California-Berkeley; PHD 1967 California-Berkeley

Stennes, Bryan Alvin, Adjunct Lecturer, Economics, 2012 (2012);

Stensrud, Emily Dee, Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013);

Stensvaag, John-Mark, Professor, Law-Faculty, 1987 (1987); BA 1969 Augsburg; JD 1974 Harvard

Stephens, Ralph I., Emeritus Professor, Mechanical Engineering, 1965 (1972); BS 1957 Illinois; MS 1960 Illinois; PHD 1965 Wisconsin

Stern, Ann Lynnette, Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012);

Stern, Gerald D., Emeritus Professor, Creative Writing, ();

Stern, Gerald D., Emeritus Professor, Creative Writing, (1994);

Steuber, Keli Ryan, Assistant Professor, Communication Studies, 2009 (2009); BA 2003 New Jersey; MA 2005 Delaware; PHD 2009 Pennsylvania State

Stevens, Lewis Lee, Assistant Professor, Pharmaceutics, 2012 (2012);

Stevenson, Chad Bruce, Adjunct Assistant Professor, Family Dentistry, 2010 (2010); DDS 1988 Iowa

Suls, Jerry M., Emeritus Professor, Psychology/Community Behavioral Health, 1990 (1990); BA 1968 Temple; MA 1971 Temple; PhD 1973 Temple

Summers, Robert W., Emeritus Professor, Internal Medicine, 1970 (1983); BS 1961 Michigan State; MD 1965 Iowa

Summers, Ryan Michael, Adjunct Lecturer, Chemical Biochemical Engineering, 2013 (2013); MS 2007 Utah State University; BS 2007 Utah State University; PHE 2011 University of Iowa

Sun, Lizhi, Adjunct Associate Professor, Civil-Environmental Engineering, 1999 (2004); BS 1987 Zhejiang; MS 1990 Beijing; PhD 1998 California-Los Angeles

Sun, Shiliang, Clinical Professor, Radiology, 1993 (2013); MD 1987 Dalian

Sun, Wenging, Clinical Assistant Professor, Radiation Oncology, 2011 (2011); DSC 2004 Iowa

Sunderland, John, Associate Professor, Radiology/Radiation Oncology/Physics Astronomy, 2008 (2008); PhD 1990 Wisconsin - Madison

Suneja, Manish, Clinical Associate Professor, Internal Medicine, 2006 (2011); MD 1998 Armed Forces, Pune India

Sunstein, Bonnie S., Professor, English/Teaching and Learning, 1992 (2003); BS 1968 Boston; MED 1975 Boston; PHD 1991 New Hampshire

Supanich, Barbara, Clinical Adjunct Assistant Professor, Family Medicine, 2012 (2012);

Sutherland, John E., Clinical Adjunct Professor, Family Medicine, 1992 (1992); MD 1962 Minnesota

Sutowski, Anthony, Adjunct Assistant Professor, Art Art History, 2000 (2000); BA 1986 Cleveland State; MFA 1987 Ohio University

Sutterwala, Fayyaz Shiraz, Associate Professor, Internal Medicine, 2007 (2013); BS 1992 Washington; MD 2000 Temple

Svec, Barry R., Adjunct Instructor, Preventive Community Dentistry, 1995 (1995); DDS 1989 Iowa

Swailes, Nathan Thomas, Lecturer, Anatomy Cell Biology, 2010 (2010); BS 2000 Leeds; PHD 2005 Leeds

Swain, Elisabeth Ann, Lecturer, Biochemistry, 1995 (2004); PHD 1993 Iowa

Swan, Colby C., Professor, Civil-Environmental Engineering, 1993 (2006); BS 1983 Maine; MS 1985 Miami; PHD 1993 Princeton

Swaney, Michelle M., Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012); BS 1981 north dakota state university

Swanson, Carrie Elizabeth, Assistant Professor, Philosophy, 2013 (2013);
Swanson, David E., Clinical Assistant Professor, Anesthesia, 2002 (2002); BA 1986 Northern Iowa; MD 1991 Iowa

Swanson, Elizabeth Anne, Associate Professor, Nursing, 1974 (1981); BSN 1969 Iowa; MA 1975 Iowa; PhD 1986 Iowa

Swanson, Stephen, Professor, Music, 1994 (2002); BM 1968 North Park; MM 1971 Northwestern

Swanson, Thor David, Clinical Adjunct Assistant Professor, Family Medicine, 2008 (2008); MDIV 1992 Lutheran School of Theology; MD 1997 Wisconsin

Szwartendruber, Dan C., Adjunct Lecturer, Urban Regional Planning, 2011 (2011); MA 2000 Iowa

Swayze, Victor Warren II, Associate Professor, Psychiatry, 1988 (1995); BS 1976 Union-Nebraska; MD 1979 Loma Linda

Swegle, James Robert, Clinical Adjunct Assistant Professor, Surgery, 2009 (2009); MD 1985 Iowa

Swegle, John Matthew, Clinical Associate Professor, Pharmacy, 1997 (2006); BS 1992 Drake; PHARMD 1996 Iowa

Swenson, Andrea, Clinical Assistant Professor, Neurology, 2008 (2008); BA 1999 Colorado College; MD 2003 North Dakota

Swenson, Charles A., Emeritus Professor, Biochemistry, 1960 (1972); BS 1955 Gustavus Adolphus; PHD 1959 Iowa

Swenson, Dale C., Adjunct Assistant Professor, Chemistry, 1994 (1994); BS 1973 Iowa; PHD 1979 Iowa

Swenson, David, Adjunct Lecturer, Urban Regional Planning, 2010 (2010); MA 1985 Iowa

Swett, Alan, Adjunct Instructor, Operative Dentistry, 1999 (1999); BS 1980 Iowa; DDS 1983 Iowa

Swett, Keene, Emeritus Professor, Geoscience, 1966 (1974); BS 1955 Tufts; MS 1961 Colorado; PHD 1965 Edinburgh, Scotland

Swick, Brian Lester, Clinical Associate Professor, Dermatology/Pathology, 2007 (2012); BS 1996 Iowa State; MD 2001 Iowa

Swope, Bri Lee, Adjunct Instructor, Health and Human Physiology, 2009 (2009); BA 2002 Iowa; MA 2009 Univ of Iowa

Syed, Nasreen A., Clinical Associate Professor, Ophthalmology Visual Science/Pathology, 2002 (2010); BA 1989 Missouri-Kansas City; MD 1990 Missouri-Kansas City

Synan, William J., Clinical Professor, Oral Maxillofacial Surgery, 1994 (2006); BS 1979 Fordham; DDS 1983 Columbia

Sypher, Howard Elliott, Adjunct Associate Professor, Communication Studies, 2013 (2013);

Syrbu, Sergei I., Clinical Associate Professor, Pathology, 2004 (2010); MD 1982 Chishinau Moldova; PHD 1987 Moscow, USSR

Syrop, Craig H., Professor, Obstetrics Gynecology, 1986 (1997); MD 1980 Virginia

Szabo, Ellen, Adjunct Instructor, Social Work, 2000 (2000); MED 1986 Columbia

Szeluga, Debra J., Clinical Associate Professor, Urology/Anesthesia, 1999 (2007); BS 1975 Maine; PHD 1985 Cornell; MD 1993 Rush

Szertics, Joseph, Emeritus Professor, Spanish Portuguese, 1967 (1975); MA 1957 Madrid-Spain; PHD 1962 Madrid-Spain

Szetsycki, Donald, Adjunct Lecturer, Economics, 2001 (2001); MA 1980 Northern Illinois

Szot, Joseph F., Clinical Associate Professor, Internal Medicine, 2003 (2009); BS 1990 St Bonaventure; MD 1994 Rochester, NY

Taber, Anne S., Adjunct Assistant Professor, Epidemiology, 2003 (2003); BS 1975 Iowa State; MPH 1979 Minnesota

Tachau, Katherine H., Professor, History, 1985 (1993); BA 1972 Oberlin; MA 1975 Wisconsin; PHD 1981 Wisconsin

Tague, Abby L., Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARMD 2003 Iowa

Tague, Marshall J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2003 Iowa

Taj, Jabeen, Clinical Assistant Professor, Internal Medicine, 2009 (2013); MD 2004 Andhra Pradesh India

Takacs, Elizabeth Brohammer, Clinical Associate Professor, Obstetrics Gynecology/Urology, 2006 (2011); MD 1999 Iowa

Takacs, Michael Edward, Clinical Associate Professor, Emergency Medicine, 2006 (2011); MS 1989 SUNY @ Buffalo; MD 2001 Loyola

Takahashi, Gail A., Adjunct Assistant Professor, Communication Sciences and Disorders, 2002 (2003); AB 1978 Occidental; MA 1982 California-San Diego; PHD 1990 Iowa

Talman, William T., Professor, Neurology, 1983 (1990); BA 1966 Virginia Military Institute; MD 1970 Virginia

Talungchit, Supitcha, Adjunct Assistant Professor, Operative Dentistry, 2012 (2012); DDS 1996 Chulalongkorn Univ, Thailand

Tamerius, James D., Assistant Professor, Geography, 2013 (2013);

Tan, Aixin, Assistant Professor, Statistics Actuarial Science, 2009 (2009); BS 2003 Peking; MS 2005 Florida; PHD 2009 Florida

Tan, Kai, Associate Professor, Nursing, 1997 (2006); BA 1992 Drake; PHARMD 1996 Iowa

Tang, Qihe, Adjunct Assistant Professor, Human Genetics, 2001 (2001); BS 1995 Anhui; MS 1998 Anhui; PHD 1999 Florida

Tang, Wenfang, Professor, Political Science/International Programs, 2009 (2009); BA 1982 Peking; MA 1985 Kansas; PhD 1990 Chicago

Tannous, Raymond, Emeritus Associate Professor, Pediatrics, 1977 (1982); MD 1971 France
Tansey, Janeta Fong, Clinical Adjunct Associate Professor, Psychiatry, 1999 (2004); MD 1995 Loyola
Tansey, Michael J., Clinical Professor, Pediatrics, 2001 (2012); BS 1991 Creighton; MD 1995 Loyola
Tarbox, Mary P., Adjunct Assistant Professor, Nursing, 1988 (1988); BSN 1974 Mt. Mercy; MSN 1977 Minnesota; EDD 1986 Columbia
Tardy, Dwight C., Emeritus Professor, Chemistry, 1969 (1980); BA 1962 San Diego State; PhD 1967 Washington
Tarkett, Natalie Arlene, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013); DIPL 2003 Waterloo West High School; PHARMD 2010 University of Iowa
Tarr, Adam Sean, Adjunct Lecturer, Management Organizations, 2013 (2013); BA 1999 Stephen F. Austin State Univ.; MA 2001 Washington State Univ.
Tarvydas, Vilia Marie, Professor, Rehabilitation and Counselor Education, 1991 (2002); BA 1971 Northwestern; MS 1975 Wisconsin-Milwaukee; PhD 1987 Wisconsin-Madison
Tate, Eric Benjamin, Professor, Internal Medicine, 2008 (2008); MD 2003 Iowa
Taylor, Mark S., Clinical Adjunct Assistant Professor, Family Medicine, 2012 (2012);
Teahan, Carrie Christine, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012);
Teahan, Peter R., Adjunct Lecturer, Rehabilitation and Counselor Education, 2009 (2009); AS 1974 Worsham Coll Mortuary Science; BA 1985 Coe
Temple, Scott D., Clinical Professor, Psychiatry, 1999 (2005); BA 1974 Oregon; PhD 1980 Temple; MS 1998 Kansas
Teng, Yue, Clinical Adjunct Assistant Professor, Family Medicine, 2011 (2011); MD 1999 Xinjiang,China
Tennapel, Mindi Joy, Adjunct Instructor, Radiation Oncology, 2010 (2010); BS 2001 Iowa; MBA 2004 Iowa; MS 2010 Iowa
Tephly, Thomas R., Emeritus Professor, Pharmacology, 1971 (1971); BS 1957 Connecticut; PhD 1962 Wisconsin; MD 1965 Minnesota
Tershak, Carol A., Clinical Adjunct Assistant Professor, Family Medicine, 2004 (2004); BA 1974 St. Louis Univ; PhD 1982 Oklahoma State
Tessier, Joshua J., Clinical Adjunct Assistant Professor, Family Medicine, 2012 (2012);
Tewson, Timothy, Emeritus Professor, Radiology/Radiation Oncology, 2000 (2000); PhD 1972 London
Thaggert, Miriam, Associate Professor, Gender, Women’s and Sexuality Studies/African-American Studies/English, 2006 (2010); BA 1993 Harvard/Radcliffe; PhD 2003 California, @ Berkeley

Thein, Amanda Haertling, Associate Professor, Teaching and Learning, 2011 (2011); PHD 2005 Minnesota
Theisen, William, Associate Professor, Music, 2013 (2013); HS 1978
Thenuwara, Hennadige Nandasiri, Adjunct Assistant Professor, Economics, 2008 (2012); PhD 1997 Iowa
Therrien, William J., Associate Professor, Teaching and Learning, 2006 (2009); BA 1993 Penn State; MED 1998 Arizona State; PHD 2004 Penn State
Thibodeau, Megan Elizabeth, Adjunct Instructor, Social Work, 2012 (2012);
Thiemann, Corey J., Adjunct Associate Professor, Pharmacy, 2009 (2009); PHARMD 2004 Creighton
Thies, Patrick William, Adjunct Assistant Professor, Pharmacy, 1982 (1983); MS 1981 Iowa
Thoma, Kate Duchene, Clinical Assistant Professor, Family Medicine, 2010 (2010); BA 2001 St. Thoma, MN; MD 2005 Iowa
Thomas, Alexandra, Clinical Associate Professor, Internal Medicine, 2001 (2004); AB 1987 Princeton; MD 1995 Johns Hopkins
Thomas, Barbara Schalk, Emeritus Professor, Nursing, 1971 (1980); BS 1951 Iowa State; MA 1964 Iowa; PHD 1968 Iowa
Thomas, Barrett, Associate Professor, Management Sciences, 2002 (2009); BA 1996 Grinnell; MS 1999 Michigan; PHD 2002 Michigan
Thomas, Carole L., Emeritus Associate Professor, Music, 1970 (1977); BS 1964 Northern Illinois; MM 1966 Northern Illinois; MS 1968 Northern Illinois
Thomas, Christie P., Professor, Internal Medicine/Obstetrics Gynecology, 1992 (2005); MBBS 1982 Madras
Thomas, David L., Clinical Adjunct Assistant Professor, Family Medicine, 1979 (2002); BA 1970 Iowa; MD 1974 Iowa
Thomas, Jon Gregory, Clinical Adjunct Assistant Professor, Family Medicine, 1992 (2002); BS 1976 Iowa; MD 1982 Iowa
Thomas, Joss John, Clinical Associate Professor, Anesthesia, 2006 (2012); MBBS 1994 St. John’s Medical; MPH 1999 Johns Hopkins
Thomas, Karl William, Clinical Professor, Internal Medicine, 2001 (2011); BA 1991 Williams; MD 1995 Johns Hopkins
Thomas, Michael Steven, Adjunct Associate Professor, Family Dentistry, 1982 (2000); BS 1977 Iowa; DDS 1981 Iowa
Thomas, Volker, Associate Professor, Rehabilitation and Counselor Education, 2011 (2011); PHD 1990 Minnesota
Thompson, Brad Howard, Associate Professor, Radiology, 1990 (1996); BA 1981 Luther; MD 1986 Iowa
Thompson, Duane E., Emeritus Professor, Management Organizations, 1969 (1987); BS 1953 Iowa State; MS 1954 Iowa State; PHD 1969 Iowa
Thompson, Edward S., Emeritus Professor, Nursing, 1998 (2005); BA 1970 Cincinnati; MS 1973 North Dakota; BSN 1975 North Dakota; PHD 1997 Minnesota
Thompson, Gregory Robert, Adjunct Instructor, University College, 2008 (2013); BS 2000 Eastern Illinois; MA 2002 Missouri - Columbia
Thompson, H. Stanley, Emeritus Professor, Ophthalmology Visual Science, 1967 (1976); BA 1953 Minnesota; MD 1961 Minnesota; MS 1966 Iowa
Thompson, Jonathan Glenn, Clinical Adjunct Assistant Professor, Pathology, 2009 (2009); MD 2002 Iowa
Thompson, Margaret Mary Kallaus, Adjunct Lecturer, Management Organizations, 2013 (2013); BBA 1981 The University of Iowa; MBA 1986 The University of Iowa
Thompson, Michael L., Adjunct Instructor, Social Work, 1995 (1995); BA 1970 Missouri; MPA 1976 Missouri
Thompson, Nancy J., Associate Professor, Community Behavioral Health, 1980 (1986); BS 1969 California State-Stanislaus; MS 1971 Columbia; MPHIL 1974 Columbia; PHD 1979 Columbia
Thompson, Rachael Rae, Adjunct Lecturer, Management Organizations, 2011 (2011); BA 2004 Northwestern; MA 2010 Geneva
Thompson, Robert James, Adjunct Assistant Professor, Operative Dentistry, 2011 (2013); BA 1999 Central; MS 2001 Iowa State; DDS 2011 Iowa
Thompson, Scott A., Adjunct Assistant Professor, Pharmacy, 2002 (2002); BS 1990 Drake; PHARMD 1994 Drake
Thompson, Stewart, Assistant Professor, Ophthalmology Visual Science, 2011 (2011); BSC 1997 Kingston; MSC 2000 Kings; PhD 2004 Imperial,UK
Thommen, David J., Adjunct Instructor, Pharmacy, 1998 (1998); BS 1991 Iowa; BSPH 1991 Iowa
Thommen, Teri, Clinical Associate Professor, Neurology, 2007 (2012); MD 2001 Iowa
Thommen, Timothy Alan, Clinical Professor, Surgery/Internal Medicine/Orthopaedics and Rehabilitation, 1976 (2004); MD 1974 Iowa
Thomson, William, Adjunct Instructor, Anthropology, 2003 (2003); BA 1973 NC WESLEYAN
Thoreson, Joseph D., Clinical Adjunct Assistant Professor, Internal Medicine, 1979 (1979); MD 1969 Iowa
Thornsteinson, K. A., Adjunct Instructor, Preventive Community Dentistry, 1990 (1990); BS 1982 Iowa
Thoroddsen, Asta Steinunn, Adjunct Instructor, Nursing, 1999 (1999); MSN 1989 Rochester
Thorpe, Alexander Paul, Instructor, Military Science, 2012 (2012);
Thorog Morton, James A., Emeritus Professor, Urban Regional Planning, 1986 (2004); BA 1966 Notre Dame; MS 1972 Louisville; PHD 1983 California-Los Angeles
Thunhorst, Robert Louis, Adjunct Assistant Professor, Psychology, 1993 (1998); BA 1979 Iowa; PHD 1987 Washington
Thurm, Ryan D., Adjunct Instructor, Pharmacy Practice and Science, 2013 (2014);

Thurtell, Matthew James, Assistant Professor, Ophthalmology Visual Science/Neurology, 2010 (2010); MBBS 2000 Sydney; MSC 2005 Sydney

Tibbitts, Thomas Frank, Adjunct Lecturer, Health Management Policy, 1995 (1995); MA 1970 Iowa

Tieden, Lindsey J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2009 (2011); PHARMD 2009 Iowa

Tierney, Sarah Beth, Adjunct Assistant Professor, Pharmacy, 2007 (2009); BS 1999 Iowa State; PHARMD 2007 Iowa

Tiesi, Michael Joseph, Adjunct Instructor, Pharmacy, 2008 (2008); BPharm 1982 Creighton

Tighe, Sarah Kathryn, Assistant Professor, Psychiatry, 2013 (2013);

Tilala, Niral H., Adjunct Assistant Professor, Family Medicine, 2011 (2011); BS 1999 Loyola, Chicago IL; MD 2005 Med Univ of the Americas

Tilus, Sheryl, Adjunct Instructor, Nursing, 2002 (2002); BS 1980 Oral Roberts; MS 1999 Phoenix

Timmerman, Kristen J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Timmmons, Sherry Rene, Clinical Assistant Professor, Oral Path,Radiology,Medicine, 2002 (2002); BA 1991 Augustana; DDS 1995 Iowa; PHD 2001 Iowa

Timofeyev, Oleg Vitalyevich, Adjunct Assistant Professor, Asian Slavic Languages, 1998 (1999); MS 1985 MOSCOW CHEMICAL ENGINEERING; MA 1993 SOUTHERN CALIFORNIA; PHD 1999 DUKE

Tinelli, Cesare, Professor, Computer Science, 1999 (2012); MS 1995 Illinois-Urbana; PHD 1999 Illinois-Urbana

Tinker, A. James, Adjunct Lecturer, Health Management Policy, 1983 (1983); MHA 1967 Michigan

Tinker, John H., Adjunct Professor, Nursing, 2005 (2005); BS 1964 Cincinnati

Tinkler, Gregory, Adjunct Assistant Professor, Psychology, 2009 (2009); BA 1997 Illinois Wesleyan; PHD 2005 Wake Forest

Tippin, Jon M., Clinical Professor, Neurology, 1999 (2011); BS 1975 George Fox; MD 1979 Oregon

Tipsword, Jason C., Adjunct Instructor, Theatre Arts, 2013 (2013);

Tisone, Christine, Adjunct Lecturer, International Programs, 2013 (2013);

Titler, Sarah, Clinical Assistant Professor, Anesthesia, 2009 (2010); BA 2000 Cornell; MD 2004 Roy J. and Lucille A. Carver

Titze, Ingo R., Professor, Communication Sciences and Disorders/Music/Biomedical Engineering, 1979 (1984); BS 1963 Utah; MSEE 1965 Utah; PHD 1972 Brigham Young

Tivanski, Alexei V., Assistant Professor, Chemistry, 2007 (2007); BS 1999 Moscow Inst. of Physics Tech; MS 2001 Moscow Inst. of Physics Tech; PHD 2005 Pittsburgh

Tiwari, Ashish, Associate Professor, Finance, 1997 (2006); BSc 1982 Kurukshetra; MBA 1984 Panjab; MBA 1989 Windsor; PHD 1994 Iowa

Tochigi, Yuki, Adjunct Associate Professor, Orthopaedics and Rehabilitation, 2001 (2010); MD 1990 Yamanashi Medical College; PHD 2000 Chiba

Todd, Andrew R., Assistant Professor, Psychology, 2011 (2011); BA 2003 Michigan State; MS 2006 Northwestern; PHD 2009 Northwestern

Todd, Michael M., Professor, Anesthesia, 1986 (1990); BA 1971 Chicago; MD 1975 Chicago

Tolbert, Caroline J., Professor, Political Science/Public Policy Center, 2006 (2009); BA 1989 California; MA 1991 Colorado-Boulder; PHD 1996 Colorado-Boulder

Tomanek, Robert J., Emeritus Professor, Anatomy Cell Biology, 1972 (1982); BS 1959 Omaha; MA 1960 Iowa; PHD 1967 Iowa

Tomblin, J. Bruce, Professor, Communication Sciences and Disorders/Otolaryngology-Head Neck Surgery, 1972 (1984); BA 1966 LaVerne; MA 1967 Redlands; PHD 1970 Wisconsin

Tomko, James J., Emeritus Professor, Law-Faculty, 1986 (1986); BA 1973 Southern California; JD 1976 Calif-Los Angeles

Tomova, Maggy, Associate Professor, Mathematics, 2005 (2012); BS 1999 California Lutheran; MA 2002 Calif @ Santa Barbara; PHD 2005 Calif. @ Santa Barbara

Ton-That, Tuong, Emeritus Professor, Mathematics, 1975 (1983); MA 1971 Cali-Irvine; PHD 1974 Cali-Irvine

Tonkovicz, James J., Adjunct Instructor, Social Work, 2000 (2000); MS 1987 Loyola Marymount

Tootle, Tina Louise, Assistant Professor, Anatomy Cell Biology, 2009 (2009); BS 1998 Maryland; PHD 2004 Massachusetts Inst of Tech

Tope, Betsy Ann, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Torner, James C., Professor, Education/Surgery/Epidemiology/Neurosurgery, 1991 (1993); BS 1971 Iowa; MS 1974 Iowa; PHD 1984 Iowa

Tortora, Michael R., Adjunct Instructor, Pharmacy Practice and Science, 1997 (1997); BS 1995 Iowa

Toth, Keri M., Adjunct Instructor, Preventive Medicine, 2001 (2010); PhD 1990 Yamamashi Medical College; PHD 2000 Chiba

Toth, Andrew R., Adjunct Professor, Pharmacy Practice and Science, 2013 (2013); PHARMD 2009 Iowa

Tozon, Christopher J., Adjunct Instructor, Pharmacy Practice and Science, 2013 (2013); PHD 2009 Iowa

Tozon, Orville H., Adjunct Lecturer, Rehabilitation and Counselor Education, 1976 (1994); MA 1970 Iowa
Trachsel, Mary C., Associate Professor, Rhetoric, 1989 (1996); BA 1975 Iowa; MA 1980 Pennsylvania State; PhD 1987 Texas-Austin

Tracy, Chad, Clinical Assistant Professor, Urology, 2009 (2009); BS 1999 Richmond; MD 2003 Iowa

Tranel, Daniel Thomas, Professor, Psychology/Neurology, 1986 (1994); BA 1979 Notre Dame; MA 1981 Iowa; PHD 1982 Iowa

Trapani, Pamela Lyn Smith, Clinical Associate Professor, Pediatrics, 2009 (2009); MD 1996 Texas @ San Antonio

Trecy, Journey, Adjunct Assistant Professor, Pharmacy, 2007 (2007); PHARMD 2004 Iowa

Treat, Teresa Ann, Associate Professor, Psychology, 2010 (2010); BA 1991 Indiana; PHD 2000 Indiana

Trefz, Stephen E., Adjunct Assistant Professor, Social Work, 1988 (1989); MSW 1979 Iowa

Tricot, Guido Jozek, Professor, Internal Medicine, 2012 (2012);

Trimble, Richard B., Clinical Adjunct Associate Professor, Internal Medicine, 1977 (1986); MD 1966 Baylor

Tripathy, Asit, Clinical Adjunct Assistant Professor, Pediatrics, 2011 (2011); MD 1992 India

Triplett, Chad A., Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARMD 1997 Creighton

Trout, Christina Jo, Clinical Adjunct Instructor, Nursing, 1998 (1998); BSN 1988 Iowa; MSN 1997 Iowa

Trout, Robert Kevin, Adjunct Lecturer, Accounting, 2006 (2006); MA 1980 Nebraska; MAC 2003 Iowa

Troutman, Beth Renee, Clinical Associate Professor, Psychiatry, 1989 (2005); BA 1981 Creighton; MA 1984 Iowa; PHD 1988 Iowa

Trumbull, Deanna, Adjunct Lecturer, Management Organizations, 2003 (2003); BA 1988 Northern Iowa

Trumm, Jill Marie, Adjunct Lecturer, University College Courses, 2009 (2009); MFA 2006 St. Mary’s College of CA

Truong, Gia-Lap Buu, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2010 Iowa

Tsachor, Rachelle Palnick, Adjunct Associate Professor, Music/University College, 2001 (2012); BFA 1985 Juilliard; MA 1989 City University of New York

Tsachor, Uriel, Professor, Music, 1988 (2000); BM 1980 Tel Aviv-Isreal; MM 1983 juilliard; DMA 1987 Juilliard

Tsakikian, Eva, Professor, Pediatrics, 1983 (2004); MD 1973 Athens-Greece

Tschirren, Janette Rogers, Adjunct Instructor, Communication Sciences and Disorders, 2005 (1999); MA 1996 Iowa

Tse, Kenneth T., Professor, Music, 2002 (2013); BM 1996 Indiana; MM 1998 Indiana; DMA 2008 University of Illinois

Tseng, Hui-Chen, Adjunct Assistant Professor, Nursing, 2013 (2013);

Tu, Shin-Ing Jeremy, Adjunct Assistant Professor, Operative Dentistry, 2001 (2001); BS 1980 Chinese Culture; DDS 1994 Iowa; MS 1996 Iowa

Tubbs, Traviess Allen, Adjunct Assistant Professor, Pharmacy, 2010 (2010); PHARMD 2001 Iowa

Tucker, Budd Albert, Assistant Professor, Ophthalmology Visual Science, 2010 (2010); BA 2001 Sir Wilfred Grenfell; PhD 2006 Memorial Univ, Newfoundland

Tucker, Robert D., Associate Professor, Biomedical Engineering/Pathology, 1983 (1992); BS 1969 Nebraska; PHD 1976 Minnesota; MD 1978 Nebraska

Tuetsen, Rebecca S., Clinical Associate Professor, Internal Medicine, 1997 (2005); BA 1982 Chicago; PHD 1989 Chicago; MD 1991 Chicago

Tully, Melissa, Assistant Professor, Journalism Mass Communication, 2011 (2011); BA 2005 Boston; MA 2005 Wisconsin; PHD 2011 Wisconsin

Turchet, Cristina, Adjunct Lecturer, Management Sciences, 2013 (2013);

Turek, Joseph W., Assistant Professor, Cardiothoracic Surgery/Pediatrics, 2011 (2011); MD 2002 Chicago

Turek, Lubomir P., Professor, Pathology, 1982 (1997); MD 1975 Charles-Prague Czech

Turner, Christopher W., Professor, Communication Sciences and Disorders/Otolaryngology-Head Neck Surgery, 1996 (1996); BS 1973 Wisconsin; MS 1979 Minnesota; PHD 1982 Minnesota

Turner, Deborah Ann, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 2009 (2009); BS 1973 Iowa State; MD 1978 Iowa

Turner, Jonathan Michael, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); DDS 2009 Iowa

Turner, Joyce Ellen, Adjunct Instructor, University College, 2013 (2013); MFA 2009 University of Iowa

Turner, Melissa Louise Finlay, Lecturer, Theatre Arts, 2012 (2012);

Turney, Karla Nancy, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARMD 2006 Iowa

Turvey, Carolyn Louise, Associate Professor, Epidemiology/Psychiatry, 1998 (2007); BA 1987 Connecticut; PHD 1994 Yale; MS 1996 Harvard

Tuteja, Sony, Adjunct Instructor, Pharmaceutics, 2009 (2011); PHARMD 1997 Michigan

Tweedy, Kimberly Ann, Clinical Adjunct Instructor, Nursing, 2011 (2011);

Tyler, Christopher Mark, Adjunct Assistant Professor, Family Dentistry, 1997 (2000); BA 1992 Luther; DDS 1996 Iowa
Tyler, Richard Sydney, Professor, Communication Sciences and Disorders/Otolaryngology-Head Neck Surgery, 1981 (1987); BSC 1974 Western Ontario; MS 1975 Western Ontario; PHD 1978 Iowa

Tysklind, Michael, Adjunct Instructor, Communication Sciences and Disorders, 2007 (2007); BS 1981 Purdue; MS 1983 Purdue

Uc, Aliye, Associate Professor, Radiation Oncology/Pediatrics, 2000 (2008); MD 1987 Istanbul

Uc, Ergun Y., Associate Professor, Neurology, 2001 (2007); MD 1988 Istanbul

Uden-Holman, Tanya Marie, Clinical Associate Professor, Health Management Policy/Nursing, 1997 (2003); BA 1987 Iowa; MA 1989 Iowa; PHD 1992 Iowa

Udomtecha, Danai, Clinical Assistant Professor, Anesthesia, 2009 (2009); MD 1998 Chulalongkorn, Thai

Ueda, Atsushi, Lecturer, Biology, 2013 (2013);

Ueda, Kenichi, Clinical Associate Professor, Anesthesia, 2005 (2013); MD 1997 Kochi Medical

Uhl, Alison Maureen, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012);

Uhrich, Pamela Rae, Clinical Adjunct Instructor, Nursing, 2002 (2005); BSN 1992 Iowa; MSN 2001 Iowa

Ukabiala, Onyebuchi, Clinical Adjunct Professor, Surgery, 2007 (2007); MD 1978 Nigeria

Usachev, Yuri M., Associate Professor, Pharmacology/Anesthesia, 2003 (2009); BS 1989 Kiev, Ukraine; MS 1989 Kiev, Ukraine; PHD 1993 Kiev, Ukraine

Vaena, Daniel, Clinical Associate Professor, Urology/Internal Medicine, 2004 (2009); MD 1996 Federal do Rio de Janeiro

Vakiner, Brandon M., Clinical Assistant Professor, Pharmacy Practice and Science, 2005 (2011); BS 1994 Wayne State; PHARMD 2005 Nebraska Med Center

Valde, Jill Gaffney, Clinical Associate Professor, Nursing, 1998 (2012); PHD 1996 Iowa State

Valentino, Russell, Adjunct Professor, Cinema Comparative Literature, 1994 (2009); BA 1986 California State-Fresno; MA 1988 California-Los Angeles; PHD 1993 California-Los Angeles

Valerio-Jimenez, Omar S., Associate Professor, History, 2006 (2012); BSE 1986 Mass Inst of Tech; MA 1993 California, Los Angeles; PHD 2001 California, Los Angeles

Van Aernam, Carol, Adjunct Assistant Professor, Preventive Community Dentistry, 1985 (1985); BS 1962 Iowa

Van Beek, Grant Michael, Adjunct Assistant Professor, Preventive Community Dentistry, 2008 (2008); DDS 2006 Iowa

Van Daele, Douglas Jerry, Associate Professor, Radiation Oncology/Otolaryngology-Head Neck Surgery, 2003 (2011); BSE 1991 Iowa; MD 1996 Iowa

Van Demark, Duane R., Emeritus Professor, Communication Sciences and Disorders/Otolaryngology-Head Neck Surgery, 1965 (1975); BA 1958 Hiram; MA 1962 Iowa; PHD 1962 Iowa

Van Der Veer, Jon Jay, Clinical Adjunct Assistant Professor, Internal Medicine, 2013 (2013); BA 2003 IOWA

Van Deussen, Robert M., Lecturer, Teaching and Learning, 2005 (2005); BA 1974 Coe; MA 1977 Iowa; PHD 1980 Iowa

Van Heukelom, Jon, Clinical Assistant Professor, Emergency Medicine, 2009 (2009); BA 2002 Central; MD 2006 Iowa

Van Heukelom, Paul G., Clinical Assistant Professor, Emergency Medicine, 2013 (2013);

Van Horne, Amanda Jean Owen, Associate Professor, Communication Sciences and Disorders, 2005 (2012); BS 1997 Texas @ Dallas; MS 1999 Texas@Dallas; PHD 2004 Purdue

Van Schepen, Kimberly Ann, Adjunct Instructor, Pharmacy, 2005 (2005); PHARMD 2004 Kansas

Van Tasell, Danella Jean, Lecturer, Teaching and Learning, 2013 (2013);

Van Thournout, Nicole Renae, Adjunct Assistant Professor, Pharmacy, 2005 (2005); PHARMD 2004 Kansas
Van Voorhis, Brad, Professor, Obstetrics Gynecology, 1990 (2001); BS 1981 Iowa State; MD 1984 Iowa
Van Voorst, Tanya, Adjunct Instructor, Communication Sciences and Disorders, 2007 (2007); BA 2000 University of Northern Iowa; MA 2002 Northern Iowa
Van Winkle, James L., Adjunct Assistant Professor, Pharmacy, 2003 (2003); AA 1997 Southwestern Community; PHARM 2002 Iowa
Van Zante, Carolyn, Lecturer, Teaching and Learning, 2008 (2008); BA 1973 Hope College; MAT 1974 Northwestern; MA 1980 Iowa
Vanbeek, Marta Jane, Clinical Associate Professor, Dermatology, 2003 (2010); BA 1993 Gustavus Adolphus, St. Peter; MD 1997 Iowa; MPH 2003 Iowa
Vandenbosch, Daniel Todd, Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); BA 1988 Dordt; MD 1992 Iowa
Vander Busard, Amy L., Adjunct Lecturer, University College Courses, 2011 (2011); BS 1999 Wisconsin-Stevens Pt.; MA 2001 Ball State
Vander Weg, Mark William, Associate Professor, Psychology/Internal Medicine, 2006 (2006); BA 1992 Hope College, Holland, MI; MS 1996 Memphis, Memphis, TN; PHD 1998 Memphis, Memphis, TN
Vanderbeek, Robert Alan, Clinical Assistant Professor, Social Work, 1990 (1990); BA 1972 Northern Iowa; MSW 1984 Iowa

Weigel, Ronald, Professor, Anatomy Cell Biology/Surgery/Biochemistry, 2005 (2005); PhD 1986 Yale; MD 1986 Yale; MBA 2005 Wharton-Univ. of Penn.

Weiler, John M., Emeritus Professor, Internal Medicine, 1977 (1991); BS 1967 Michigan; MD 1971 Temple

Weiler, Kay Boese, Emeritus Associate Professor, Nursing, 1982 (1995); BS 1972 Indiana; JD 1985 Iowa; MA 1986 Iowa

Weinberger, Miles, Professor, Pediatrics, 1975 (1980); BA 1960 Pittsburgh; MD 1965 Pittsburgh

Weiner, George J., Professor, Internal Medicine, 1989 (2000); BA 1978 Johns Hopkins; MD 1981 Ohio State

Weiner, Joshua, Associate Professor, Biology, 2004 (2011); BA 1992 Northwestern; PhD 1999 California

Weinkauf, Adam, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013);

Weinstein, Stuart L., Professor, Orthopaedics and Rehabilitation/Pediatrics, 1976 (1984); BA 1968 Illinois; MD 1972 Iowa

Weirich, Frank H., Associate Professor, Civil-Environmental Engineering/Geoscience, 1988 (1988); BSC 1973 Toronto-Canada; MSC 1979 McMaster; PhD 1982 Toronto

Weis, Beth Renae Nesteby, Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012);

Weis, Robert F., Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MD 1977 Iowa

Weismann, Amy, Adjunct Assistant Professor, University College, 2006 (2006); JD 2000 Iowa
Weismann, Douglas N., Emeritus Associate Professor, Pediatrics, 1977 (1984); AB 1968 Occidental; MD 1972 Arizona; MS 1977 Iowa

Weiss, David S., Associate Professor, Microbiology, 1998 (2004); BA 1985 Swarthmore; PHD 1991 Univ of California-Berkeley

Weiss, Elizabeth Josephine, Adjunct Assistant Professor, Creative Writing, 2013 (2013);

Weiss, Jerrold P., Professor, Microbiology/Internal Medicine, 1997 (1997); BS 1973 State Univ of New York; PHD 1981 New York University

Weiss, Robert M., Professor, Internal Medicine, 1989 (2004); BA 1976 Northwestern; MD 1982 Michigan

Weistroffer, Paula L., Clinical Associate Professor, Periodontics, 2007 (2013); DDS 2002 Iowa

Welch, Catherine Jo, Professor, Psych Quant Foundations, 2007 (2007); BBA 1980 Iowa; MA 1984 Iowa; PHD 1990 Iowa

Welch, Kelly, Adjunct Lecturer, Finance, 2013 (2013);

Wells, Mickey Lee, Associate Professor, Pharmacy, 2008 (2008); BSPH 1987 Iowa; PHD 1990 Iowa

Welsh, Michael James, Professor, Internal Medicine/Physiology/Neurosurgery, 1981 (1987); BS 1970 Iowa; MD 1974 Iowa

Welter, Trisha Lynn, Adjunct Instructor, Health and Human Physiology, 2010 (2010); BA 2006 Iowa; MPH 2008 Iowa

Welton, Marie Therese, Adjunct Instructor, Preventive Community Dentistry, 2008 (2008); BSE 1991 Iowa; DDS 1997 Iowa

Wemmie, John A., Professor, Physiology/Psychiatry/Neurosurgery, 2000 (2013); BA 1989 Central; PHD 1996 Iowa; MD 1996 Iowa

Wendt, David A., Lecturer, Teaching and Learning, 1999 (2012); BS 1983 Southern Illinois; MA 1996 Iowa

Wentzell, Emily Anne, Assistant Professor, Anthropology, 2010 (2010); BA 2003 Johns Hopkins; MA 2006 Michigan-Ann Arb; PHD 2009 Michigan-Ann Arb

Werner, John David, Adjunct Instructor, Health and Human Physiology, 2007 (2007); BFA 1995 Iowa; BA 1995 Iowa; MSW 1998 Iowa

Werth, Jonathan Fredric, Adjunct Instructor, University College, 2013 (2013); BA 2008 Saint John's Univ,MN

Wertz, Christopher A., Emeritus Associate Professor, Russian, 1977 (1980); BA 1963 Columbia; MA 1969 Michigan; PHD 1971 Michigan

Wertz, Philip W., Professor, Dows Institute-Research, 1990 (1993); BA 1971 Rutgers; PHD 1976 Wisconsin-Madison

Wesely, Pamela Mary, Assistant Professor, Teaching and Learning, 2009 (2009); BA 1996 Yale; MA 1998 New York; PHD 2009 Minnesota

Wessel, Linda Marie, Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); BSPH 1984 Iowa

West, Cynthia A., Adjunct Instructor, Social Work, 2013 (2013); MSW 2001 St. Ambrose University

West, Isaac, Assistant Professor, Gender, Women's and Sexuality Studies/Communication Studies, 2008 (2008); BA 1999 Kansas State; MA 2001 Kansas State; PHD 2008 Indiana

West, Jude P., Emeritus Professor, Management Organizations, 1969 (1996); BA 1953 St Mary; MBA 1961 Chicago; PHD 1969 Iowa

Wester, James Claude, Adjunct Assistant Professor, Pharmacy, 2005 (2006); BSPH 1972 Iowa

Westergaard, Nickolas Harry, Adjunct Lecturer, Marketing, 2012 (2012);

Westermann, Shawna Jane, Clinical Assistant Professor, Internal Medicine, 2003 (2003); BA 1994 Augustana; MD 1998 Iowa

Westfall, Ruth Ellen, Lecturer, Spanish Portuguese, 2005 (2012); BA 1984 Iowa; MA 1987 Indiana; PHD 1995 Texas @ Austin

Westlund, Kurt Jeffrey, Adjunct Associate Professor, Oral Maxillofacial Surgery, 1990 (1990); MS 1989 Iowa

Weston, Burns H., Emeritus Professor, Law-Faculty, 1966 (1969); BA 1956 Oberlin; LLB 1961 Yale; SJD 1973 Yale

Weston, Leah Raschel, Adjunct Instructor, Family Dentistry, 2011 (2011); DDS 2008 Iowa

Wetlaufer, Gerald, Professor, Law-Faculty, 1985 (1991); BA 1967 Princeton; JD 1972 Yale

Wetrich, Doug, Adjunct Instructor, Pharmacy, 2002 (2002); BS 1988 Iowa

Weaver, William, Adjunct Instructor, Preventive Community Dentistry, 2003 (2003); BA 1991 Iowa; DDS 2002 Iowa

Weydert, Jamie Allen, Clinical Adjunct Assistant Professor, Pathology, 2005 (2005); BS 1996 Iowa; MD 2001 Iowa

Weyer, Peter J., Adjunct Associate Professor, Geography/Occupational Environmental Health, 2000 (2013); BA 1974 Iowa; MS 1987 Iowa; PHD 1998 Iowa
Whaley, Deborah Elizabeth, Associate Professor, American Studies/African-American Studies, 2007 (2011); PHD 2002 Kansas

Wherritt, Irene Marie, Emeritus Associate Professor, Spanish Portuguese, 1980 (1984); BA 1965 California-Berkeley; MA 1969 Arizona; PHD 1977 New Mexico

Whipple, Bradley Dale, Adjunct Instructor, Social Work, 2011 (2011); BA 2005 Spring Arbor; MSW 2009 Iowa

Whiston, John Booker, Clinical Professor, Law-Faculty, 1994 (2006); BA 1970 Yale; JD 1984 Montana

White, Brian Alan, Adjunct Assistant Professor, Health Management Policy, 2007 (2007); BA 1999 Iowa; JD 2002 Iowa

White, Donald D., Adjunct Professor, Management Organizations, 2011 (2011); PHD 1971 University of Nebraska

White, Jerrold Lee, Clinical Adjunct Assistant Professor, Family Medicine, 1994 (1994); MD 1987 Iowa

White, Katherine Margaret, Clinical Assistant Professor, Internal Medicine, 2012 (2012);

White, Pamela J., Adjunct Assistant Professor, Law-Faculty/Art History, 2000 (2000); BA 1973 Graceland; JD 1978 Missouri-Kansas City; MA 1984 Kansas; PHD 1991 Kansas

White, Rachel Joanne, Adjunct Instructor, Communication Sciences and Disorders, 2011 (2011); MA 2005 Iowa

White, Robert Thomas, Adjunct Instructor, Preventive Community Dentistry, 2005 (2005); BA 1987 Wartburg; DDS 1991 Iowa

White, Susan Chrysler, Associate Professor, Art Art History, 2000 (2000); BA 1977 California-Berkeley; MFA 1980 California-Davis

Whitehill, Dawn Marie Marcellus, Adjunct Associate Professor, Pharmacy, 2008 (2008); PHARMD 2001 Iowa

Whiteman, Charles H., Emeritus Professor, Economics, 1980 (1992); BA 1975 Kansas; PHD 1981 Minnesota

Whiteman, D. Bruce, Adjunct Lecturer, Interdisciplinary Programs, 2012 (2012);

Whitney, John Edward, Instructor, Military Science, 2011 (2011);

Whitten, Blake, Lecturer, Economics, 2004 (2007); BS 1983 NORTHERN AZ; MS 1992 WISCONSIN; PHD 2001 Florida State

Whitter, Tyrone Bruce, Clinical Associate Professor, Anesthesia, 1995 (2000); BS 1982 Rochester; PHD 1988 University of Iowa; MD 1991 University of Iowa

Wibbenmeyer, Lucy A., Clinical Associate Professor, Surgery, 1997 (2008); BA 1987 Missouri-Columbia; MD 1991 Tennessee

Wiblin, Raymond Todd, Clinical Associate Professor, Internal Medicine, 1996 (2004); MD 1990 Case Western Reserve

Wichman, Michael D., Adjunct Assistant Professor, Occupational Environmental Health, 2000 (2000); AS 1976 Iowa Western Community College; BS 1978 Creighton; MS 1980 Creighton; PHD 1984 Kansas State

Wicklund, Gary A., Emeritus Associate Professor, Management Sciences, 1967 (1973);

Wickman, D. Bruce, Adjunct Instructor, Social Work, 2011 (2011); BA 2005 Spring Arbor; MSW 2009 Iowa

Widmer, Reuben B., Emeritus Professor, Family Medicine, 1971 (1980); BA 1940 Goshen; MD 1943 Iowa

Wiebel, Cara Christine Dehekker, Adjunct Instructor, University College, 2013 (2013);

Wieland, Julie A., Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012); BA 1988 University of Iowa; MA 1990 University of Northern Iowa; DR 2004 Arizona School of Health Scie

Wilde, Jaron Harp, Assistant Professor, Accounting, 2013 (2013);

Williams, Mark E., Clinical Professor, Ophthalmology Visual Science, 1997 (2007); OD 1980 Illinois College of Optometry
Willard, Derek Hunt, Emeritus Associate Professor, Preventive Community Dentistry, 1974 (1981); BA 1964 Rhode Island; MA 1968 Pennsylvania; PHD 1975 Iowa

Willard, Pamela H., Emeritus Assistant Professor, Occupational Environmental Health/Nursing, 1982 (1998); BSN 1966 Cornell-New York; MS 1979 Iowa

Willenborg, Melissa, Clinical Assistant Professor, Orthopaedics and Rehabilitation, 2012 (2012);

Williams, Chad L., Clinical Associate Professor, Internal Medicine, 1973 (1983); BA 1964 Wabash; MD 1968 Iowa

Williams, Glenn, Associate Professor, Physical Therapy/Orthopaedics and Rehabilitation, 2003 (2012); BA 1991 Kings College, Briarcliff; MPT 1994 Baylor; PHD 2004 Delaware

Williams, Glennys O., Emeritus Professor, Family Medicine, 1974 (1989); BSC 1950 Wales; MBCH 1953 Welsh Nat School of Med

Williams, J. Craig, Adjunct Lecturer, Law-Faculty, 2008 (2008); JD 1987 Iowa

Williams, Janet Karen Day, Professor, Nursing, 1969 (2002); BSN 1968 Iowa; MA 1972 Iowa; PHD 1989 Iowa

Williams, Kristin Kelly, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2000 Drake

Williams, Kristine Elise, Lecturer, Physician Assistant, 2001 (2011); BA 1992 Grinnell College; MS 2001 IOWA

Williams, Kristine Nordlie, Professor, Nursing, 2012 (2012);

Williams, Michael J., Adjunct Instructor, Pharmacy, 2008 (2008); BPH 1996 Ferris State

Williams, Nancy Ann, Clinical Professor, Psychiatry, 1998 (2011); BS 1989 Iowa State; MD 1990 Iowa

Williams, Norman E., Emeritus Professor, Biology, 1957 (1967); BA 1952 Youngstown; MS 1954 Brown

Williams, Rachel Marie-Crane, Associate Professor, Gender, Women’s and Sexuality Studies/Teaching and Learning/Art Art History, 1999 (2005); BFA 1993 East Carolina; MFA 1995 Florida State; PHD 1999 Florida State

Williams, Steven, Adjunct Assistant Professor, American Studies, 2012 (2012); BA 2002 Augsburg College

Williams, Terence H., Emeritus Professor, Anatomy Cell Biology, 1973 (1973); MD 1953 Manchester-England; PHD 1960 Wales

Williams, Vincent D., Emeritus Professor, Family Dentistry, 1972 (1991);

Williamson, Ann Marie, Clinical Adjunct Professor, Nursing, 2008 (2008); BSN 1978 North Carolina-Chapel Hill; MSN 1985 Texas - Austin; PHD 1999 California - San Fran

Williamson, Anne Elizabeth, Associate Professor, Endodontics, 2003 (2007); BS 1984 Nebraska; DDS 1988 Nebraska; CER 2003 University of Iowa; MSD 2004 University of Iowa

Williamson, H. E., Emeritus Professor, Pharmacology, 1960 (1970); BS 1953 Wisconsin; PHD 1959 Wisconsin

Williamson, Richard Alan, Clinical Associate Professor, Family Dentistry, 2001 (2008); BS 1976 Texas A M; DDS 1980 Texas; MS 2001 Nebraska

Williamson, Thomas Calvin, Adjunct Assistant Professor, Preventive Community Dentistry, 2007 (2007); DDS 1991 Iowa

Willour, Virginia Lea, Associate Professor, Psychiatry, 2011 (2011); BS 1992 Michigan; PHD 1998 Stanford

Wilson, Brent David, Adjunct Professor, Finance, 2009 (2009); BA 1969 Weber State; MBA 1971 Northwestern; DBA 1971 Northwestern

Wilson, Christopher G., Adjunct Assistant Professor, Civil-Environmental Engineering, 2011 (2011); PHD 2004 Case Western Reserve Univ.

Wilson, Jeffrey Scott, Clinical Professor, Internal Medicine, 1989 (2003); BS 1978 Iowa; MD 1983 Iowa

Wilson, Jessica Hope, Adjunct Lecturer, Management Organizations, 2012 (2012); BA 2004 Brown University

Wilson, John Thurlow, Emeritus Associate Professor, Teaching and Learning, 1973 (1977); BA 1959 Northern Colorado; MA 1962 Northern Colorado; PHD 1973 Florida

Wilson, Mark Cooper, Clinical Professor, Medicine Administration/Internal Medicine, 2004 (2004); BA 1981 Westminster; MD 1985 Texas Tech; MPH 1991 Johns Hopkins

Wilson, Mary Edythe, Professor, International Programs/Microbiology/Internal Medicine/Epidemiology, 1986 (1997); BA 1975 Carleton; MD 1980 Rochester

Wilson, Rebecca Diane, Adjunct Lecturer, University College Courses, 2011 (2011); BA 2008 Eastern Illinois; MED 2010 Grand Valley State

Wilson, Saul, Assistant Professor, Neurosurgery, 2011 (2012); MD 2003 Louisiana State

Wilson, Scott R., Clinical Professor, Internal Medicine, 2000 (2006); BS 1981 Fairfield; DO 1986 Des Moines Osteopathic

Wilson, Thomas, Adjunct Instructor, Preventive Community Dentistry, 1989 (1989); DDS 1987 Iowa

Wilson Kimber, Marian, Associate Professor, Music, 2004 (2004); BA 1983 NC Greensboro; MM 1989 Florida State; PHD 1993 Florida State

Wilson Peters, Virginia Lee, Adjunct Lecturer, Management Organizations, 2002 (2002); MBA 1995 Iowa

Windschitl, Paul D., Professor, Psychology, 1997 (2009); BA 1991 Creighton; MS 1993 Iowa State; PHD 1996 Iowa State

Winet, Jon, Associate Professor, International Programs/Art Art History, 2002 (2003); BA 1979 California-Berkeley; MA 1979 San Francisco State

Wing, Adrien K., Professor, Law-Faculty/International Programs, 1987 (1993); AB 1978 Princeton; MA 1979 California-Los Angeles; JD 1982 Stanford

Winga, Edward R., Clinical Adjunct Assistant Professor, Internal Medicine, 1982 (1991); MD 1962 Iowa
Winkler, Mark Alan, Adjunct Lecturer, Marketing, 2012 (2012); BS 1979 Shippensburg University, PA; MBA 2001 The University of Iowa

Winkler, Yvonne Elaine, Adjunct Instructor, Pharmacy Practice and Science, 1997 (1997); BSPH 1991 Iowa

Winn, Bryon Stephen, Professor, Theatre Arts, 1995 (2011); BA 1992 Weber State; MFA 1995 Iowa

Winn, Richard, Adjunct Professor, Neurosurgery, 2010 (2010); MD 1968 Pennsylvania

Winokur, Patricia Lee, Professor, Internal Medicine, 1993 (2009); BA 1981 Brown; MD 1985 Washington-St. Louis

Winter, Allison Ann, Adjunct Instructor, Preventive Community Dentistry, 2001 (2001); BS 1981 University of Iowa

Witt, Doris S., Associate Professor, Law-Faculty/English, 1994 (2001); BA 1984 Centre; MA 1987 Virginia; PHD 1995 Virginia

Witte, Suzanne Bakke, Adjunct Instructor, Social Work, 2005 (2005); BA 1985 Iowa; MSW 1990 Iowa

Wittenberg, Craig, Clinical Adjunct Associate Professor, Family Medicine, 2004 (2004); BA 1987 Iowa; MD 1991 Iowa

Wittenberg, David H., Associate Professor, Cinema Comparative Literature/English, 1998 (2004); BA 1987 Yale; MA 1989 Northwestern; PHD 1995 Johns Hopkins; MARCH 1996 Univ of California, Berkeley

Witzke, Brian J., Adjunct Associate Professor, Geoscience, 1982 (1995); BA 1974 Wisconsin-Milwaukee; MS 1976 Iowa; PHD 1981 Iowa

Wocher, John, Adjunct Lecturer, Health Management Policy, 1994 (1994); BA 1991 Maryland

Woerner, Robert F., Emeritus Associate Professor, English, 1957 (1966);

Wohlgenannt, Markus, Associate Professor, Physics Astronomy, 2002 (2008); MS 1997 Graz-Austria; PHD 2000 Utah

Wold, Marc S., Professor, Radiation Oncology/ Biochemistry, 1989 (2000); BS 1979 California Inst of Technology; PHD 1984 Johns Hopkins

Wolf, Anthony David, Assistant Professor, Military Science, 2005 (2005); BGS 1987 Iowa; AA 1995 Kirkwood Community; MA 2002 Iowa

Wolf, Brian Robert, Associate Professor, Physical Therapy/Orthopaedics and Rehabilitation, 2003 (2011); BA 1989 Loyola; MD 1997 Loyola; MS 2006 Iowa

Wolf, Karen Kay Maxfield, Adjunct Assistant Professor, Periodontics, 2005 (2005); DDS 1998 Iowa

Wolf, Kelly A., Adjunct Instructor, Pharmacy Practice and Science, 2010 (2010); BSPH 1989 Iowa

Wolf, Margaret Cate, Clinical Adjunct Assistant Professor, Urology, 1996 (1996); MD 1987 Iowa

Wolf, Margery, Emeritus Professor, Gender, Women’s and Sexuality Studies/Anthropology, 1985 (1985);

Wolfe, Katherine, Associate Professor, Music, 2004 (2004); BM 1992 Indiana; MM 1994 Manhattan School of Music

Wolfe, Steven L., Emeritus Professor, Family Medicine, 2001 (2008); BA 1968 Cornell; MD 1976 Iowa

Wolfson, Sara C., Emeritus Associate Professor, Educ Policy Leadership Studies, 1971 (1977); BS 1957 Appalachian State; MS 1962 North Carolina; EDD 1971 Houston

Wolfson, Sherwood, Emeritus Associate Professor, Oral Maxillofacial Surgery, 1971 (1976); BS 1953 Westminster; DDS 1957 Pittsburgh

Wolfgang, Brett, Adjunct Assistant Professor, Music, 2001 (2001); DMA 1994 Iowa

Wolken, Stephen H., Clinical Adjunct Assistant Professor, Ophthalmology Visual Science, 1975 (1996); MD 1968 Iowa

Woit, Jeffrey D., Adjunct Professor, Epidemiology, 2013 (2013);

Wong, Pamela Florence, Adjunct Assistant Professor, Pharmacy Practice and Science, 2013 (2013); BA 2008 University of Iowa

Wood, Kelly Elizabeth, Clinical Assistant Professor, Pediatrics, 2010 (2010); BS 2000 Iowa; MD 2004 Iowa

Wood, Kevin Michael, Adjunct Assistant Professor, Psych Quant Foundations/Pediatrics, 2011 (2011); BA 1973 Binghamton; MSED 1974 James Madison; PHD 1987 Iowa

Wood, Shari M., Adjunct Instructor, Pharmacy, 2000 (2000); BS 1993 Iowa; BSPh 1993 Iowa

Wood, Susannah Margaret, Associate Professor, Rehabilitation and Counselor Education, 2006 (2012); BA 1997 Richmond(VA); MED 2000 William Mary; PHD 2006 William Mary

Woodard, Fredrick, Emeritus Associate Professor, English, 1973 (1979); BA 1961 Iowa Wesleyan; MA 1971 Iowa; PHD 1976 Iowa

Woodhead, Jerold C., Associate Professor, Pediatrics, 1979 (1988); BA 1967 Stanford; MD 1971 Yale

Woodman, Catherine L., Associate Professor, Family Medicine/Psychiatry, 1990 (2000); BA 1981 Brown; MD 1985 Brown

Woods, Anna Marie, Adjunct Instructor, Preventive Community Dentistry, 2013 (2013);

Woods, Kenneth Todd, Adjunct Instructor, Radiology, 2013 (2013); BS 1990 Medical College of Georgia

Woods-Groves, Suzanne, Assistant Professor, Teaching and Learning, 2008 (2008); BS 1998 Auburn; MED 1999 Auburn; PHD 2007 Auburn

Woods-Jaeger, Briana A., Assistant Professor, Community Behavioral Health, 2012 (2012);

Woods-Swafford, Wendy, Clinical Adjunct Assistant Professor, Pediatrics, 2009 (2009); MD 2002 Missouri - KC; MPH 2008 Vanderbilt
Woodworth, George, Emeritus Professor, Statistics Actuarial Science/Biostatistics, 1971 (1996); BA 1962 Carleton; PHD 1966 Minnesota

Workman, Douglas M., Clinical Adjunct Associate Professor, Family Medicine, 1995 (2001); MD 1989 Iowa

Worrell, James B., Emeritus Associate Professor, Neurology, 2001 (2001); BA 1964 Iowa; MD 1967 Iowa

Wortman, Gloria Deanne, Adjunct Assistant Professor, Art History, 2012 (2012);

Wrenn, Douglas Edward, Adjunct Instructor, Pharmacy, 1997 (1997); BS 1981 Iowa

Wright, Arlene, Adjunct Instructor, Pharmacy, 1997 (1997); BSPH 1981 Drake

Wright, Brad, Assistant Professor, Health Management Policy, 2012 (2012);

Wright, Diana L., Clinical Adjunct Instructor, Internal Medicine, 2001 (2001); MD 1978 Iowa

Wright, Michael E., Adjunct Instructor, Library Information Science, 2011 (2011); BA 1979 Central Michigan; AMLS 1982 Minnesota

Wright, Michael Eugene, Assistant Professor, Physiology, 2008 (2008); BS 1994 Nevada; PHD 2000 Washington

Wu, Chun-Fang, Professor, Biology, 1979 (1989); BS 1969 Tunghai-Taiwan; PHD 1976 Purdue

Wu, Han-Chin, Emeritus Professor, Civil-Environmental Engineering/Mechanical Engineering, 1970 (1981); BS 1960 National Taiwan; MS 1965 Rhode Island; MS 1967 Yale; PHD 1970 Yale

Wu, Meng, Adjunct Assistant Professor, Pharmacy, 2012 (2012);

Wu, Qi, Assistant Professor, Pharmacology, 2012 (2012);

Wu, Shih-Yen, Emeritus Professor, Economics, 1964 (1968);

Wu, Xiaodong, Associate Professor, Radiation Oncology/Electrical-Computer Engineering, 2005 (2010); BS 1992 Peking; MCS 1995 Peking; PHE 2002 Nortre Dame

Wu, Ying-Qing, Emeritus Professor, Mathematics, 1993 (2001); BS 1982 Hehai-China; MS 1984 Beijing-China; PHD 1987 Beijing-China

Wu, Yu-Hsiang, Assistant Professor, Communication Sciences and Disorders, 2010 (2010); PHD 2007 Iowa

Wu, Yuejin, Associate Professor, Internal Medicine, 2009 (2009); PHD 1990 Tongji Medical

Wuif, Joel, Adjunct Instructor, Social Work, 2003 (2003); BA 1978 Iowa; MSW 1992 Iowa

Wunder, Charles C., Emeritus Professor, Physiology, 1954 (1971); AB 1949 Washington and Jefferson; MS 1952 Pittsburgh; PHD 1954 Pittsburgh

Wurster, Dale Eric, Professor, Pharmacy, 1982 (1996); BS 1974 Wisconsin; PhD 1979 Purdue

Wurth, Michael Gerard, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARMD 1999 Illinois-Chicago

Wyman, Christopher Ryan, Associate Professor, Computer Science, 2004 (2010); BS 1999 Minnesota; PHD 2004 Univ. of Utah

Xia, Junyi, Assistant Professor, Radiation Oncology, 2011 (2011); BS 1996 Xhe Jian, China; MS 2003 Memphis; PHD 2009 Florida

Xia, Ting, Adjunct Instructor, Biomedical Engineering, 2009 (2009); PHD 2007 Iowa

Xiao, Shaoping, Associate Professor, Mechanical Engineering, 2003 (2008); BS 1995 Univ of Science and Tech China; MS 1998 Univ of Science and Tech China; PHD 2002 Northwestern

Xing, Yi, Adjunct Associate Professor, Internal Medicine/Biostatistics, 2006 (2012); BE 2000 Univ of Science and Tech China; BS 2001 Univ of Science and Tech China; PHD 2006 UCLA

Xiong, Jinhu, Associate Professor, Radiology/Biomedical Engineering, 2003 (2003); MEE 1986 Tsinghua Beijing; PHD 1995 Texas

Xu, Weiyu, Assistant Professor, Electrical-Computer Engineering, 2011 (2011); MS 2005 Tsinghua,(Beijing); MS 2006 Cal Tech; PHD 2008 Cal Tech

Xue, Hai-Hui, Associate Professor, Microbiology, 2006 (2012); MD 1991 China Medical; MS 1994 China Medical; PHD 2000 Hamamatsu

Yablon, Nicholas, Associate Professor, American Studies, 2003 (2009); BA 1994 Birmingham, England; PHD 2002 Chicago

Yack, H. John, Associate Professor, Physical Therapy, 1994 (1994); BS 1973 New Hampshire; MS 1981 North Carolina; PHD 1987 Waterloo-Canada

Yadav, Vaibhav, Adjunct Lecturer, Mechanical Engineering, 2013 (2013); BE 2006 SGS Institute of Tech Sciences; MME 2008 Universtiy of Iowa

Yager, Kristina M., Adjunct Lecturer, Theatre Arts, 2011 (2011); BA 2006 Minnesota

Yager, Robert E., Emeritus Professor, Teaching and Learning, 1956 (1967); BA 1950 Iowa State; MS 1953 Iowa; PHD 1957 Iowa

Yahr, Timothy Lee, Professor, Microbiology, 2001 (2013); BS 1991 Wisconsin-Stevens Point; MS 1995 Medical College of Wisconsin; PHD 1998 Medical College of Wisconsin

Yamada, Thoru, Emeritus Professor, Neurology, 1975 (1984); MD 1966 Nagoya

Yang, Baoli, Associate Professor, Obstetrics Gynecology, 1999 (2009); MD 1986 Beijing Medical; PHD 1994 North Carolina

Yang, Jianming, Adjunct Associate Professor, Mechanical Engineering, 2007 (2011); PHD 2004 Maryland

Yang, Jingzhen, Adjunct Associate Professor, Community Behavioral Health, 2004 (2010); BA 1982 Suzhou, China; MPH 1999 Indiana; PHD 2004 North Carolina

Yang, Limin, Clinical Assistant Professor, Radiology, 2010 (2010); MD 1987 Beijing Medical, China; MS 1990 Peking Union, China; PHD 1996 Peking Union, China

Iowa Administrative Code

The following is extracted from the Board of Regents section of the Iowa Administrative Code as of May 15, 2013.

Admission Rules Common to the Three State Universities

681--1.1(262) Admission of undergraduate students directly from high school

Students desiring admission to the University of Iowa, Iowa State University, or the University of Northern Iowa must meet the requirements of this rule and also any special requirements for the curriculum, school, or college of their choice.

1.1(1) Application

Applicants must submit a formal application for admission, together with the appropriate application fee as approved by the state board of regents pursuant to Iowa Code subsection 262.9(18) and detailed in rule 681--1.7(262), and have their secondary school provide a transcript of their academic record, including credits and grades, rank in class, and certification of graduation. Applicants must also submit SAT Reasoning Test or ACT scores. Applicants whose primary language is not English must also meet the English language proficiency requirement specified by each university. Applicants may be required to submit additional information or data to support their applications.

1.1(2) Admission criteria

a. Effective for students who seek admission prior to fall 2009. Graduates of approved Iowa high schools who have the subject matter background required by each university and who rank in the upper one-half of their graduating class will be admitted to any regent university. Applicants who are not high school graduates, and who meet the regent admission index of 245 required for automatic admission will be admitted to any regent university.

1.1(4) Applicants who are graduates of nonapproved Iowa high schools, but whose classes have graduated, may be considered for admission. These applicants will be required to submit all academic data to the extent that it exists and achieve scores on standardized examinations. The options for conditional admission or summer tryout enrollment may not necessarily be offered to these students.

1.1(5) Applicants who are not high school graduates, but whose classes have graduated, may be considered for admission. These applicants will be required to submit all academic data to the extent that it exists and achieve scores on standardized examinations which will demonstrate that they are adequately prepared for academic study.

1.1(6) Early admission

a. Students with superior academic records may be admitted, on an individual basis, for part-time university study while enrolled in high school or during the summers prior to high school graduation.

b. In rare situations, exceptional students may be admitted as full-time students to a regent university before completing high school. Early admission to a regent university is provided to serve persons whose academic achievement and personal and intellectual maturity clearly suggest readiness for collegiate level study. Each university will specify requirements and conditions for early admission.

This rule is intended to implement Iowa Code section 262.9(3).

681--1.2(262) Admission of undergraduate students by transfer from other colleges

Students desiring admission to the University of Iowa, Iowa State University, or the University of Northern Iowa must meet the requirements of this rule and also any special
requirements for the curriculum, school, or college of their choice.

Applicants must submit a formal application for admission, together with the appropriate application fee as approved by the state board of regents pursuant to Iowa Code subsection 262.9(18) and detailed in rule 681--1.7(262), and request that each college they have attended send an official transcript of record to the admissions office. High school academic records and standardized test results may also be required. The Test of English as a Foreign Language (TOEFL) is required of foreign students whose first language is not English.

1.2(1) Transfer applicants with a minimum of 24 semester hours of graded credit from regionally accredited colleges or universities, who have achieved for all college work previously attempted the grade point required by each university for specific programs, will be admitted. Higher academic standards may be required of students who are not residents of Iowa.

Applicants who have not maintained the grade point required by each university for specific programs or who are under academic suspension from the last college attended may, after a review of their academic and test records, and at the discretion of the admissions officers:

- Be admitted unconditionally,
- Be admitted conditionally,
- Be required to enroll for a tryout period during a preceding summer session, or
- Be denied admission.

1.2(2) Admission of students with fewer than 24 semester hours of college credit will be based on high school academic and standardized test records in addition to review of the college record.

1.2(3) Transfer applicants under disciplinary suspension will not be considered for admission until information concerning the reason for the suspension has been received from the college assigning the suspension. Applicants granted admission under these circumstances will be admitted on probation.

1.2(4) Transfer applicants from colleges and universities not regionally accredited will be considered for admission on an individual basis taking into account all available academic information.

This rule is intended to implement Iowa Code section 262.9(3).

681--1.3(262) Transfer credit practices

The regent universities endorse the Joint Statement on Transfer and Award of Academic Credit approved in 1978 by the American Council on Education (ACE), the American Association of Collegiate Registrars and Admissions Officers (AACRAO), and the Council on Postsecondary Accreditation (COPA). The current issue of Transfer Credit Practices of Selected Educational Institutions, published by the American Association of Collegiate Registrars and Admissions Officers (AACRAO), and publications of the Council on Postsecondary Accreditation (COPA) are examples of references used by the universities in determining transfer credit. The acceptance and use of transfer credit is subject to limitations in accordance with the educational policies operative at each university.

1.3(1) STUDENTS FROM REGIONALLY ACCREDITED COLLEGES AND UNIVERSITIES

Credit earned at regionally accredited colleges and universities is acceptable for transfer except that credit in courses determined by the receiving university to be of a remedial, vocational, or technical nature, or credit in courses or programs in which the institution granting the credit is not directly involved, may not be accepted, or may be accepted to a limited extent.

Of the course work earned at a two-year college, students may apply up to one-half but no more than 65 hours of the credits required for a bachelor’s degree toward that degree at a regent university. This policy becomes effective September 29, 1993.

1.3(2) STUDENTS FROM COLLEGES AND UNIVERSITIES WHICH HAVE CANDIDATE STATUS

Credit earned at colleges and universities which have become candidates for accreditation by a regional association is acceptable for transfer in a manner similar to that from regionally accredited colleges and universities if the credit is applicable to the bachelor’s degree at the receiving university.

Credit earned at the junior and senior classification from an accredited two-year college which has received approval by a regional accrediting association for change to a four-year college may be accepted by a regent university.

1.3(3) STUDENTS FROM COLLEGES AND UNIVERSITIES NOT REGIONALLY ACCREDITED

When students are admitted from colleges and universities not regionally accredited, they may validate portions or all of their transfer credit by satisfactory academic study in residence, or by examination. Each university will specify the amount of the transfer credit and the terms of the validation process at the time of admission.

In determining the acceptability of transfer credit from private colleges in Iowa which do not have regional accreditation, the regent committee on educational relations, upon request from the institutions, evaluates the nature and standards of the academic program, faculty, student records, library, and laboratories.

In determining the acceptability of transfer credit from colleges in states other than Iowa which are not regionally accredited, acceptance practices indicated in the current issue of Transfer Credit Practices of Selected Educational Institutions will be used as a guide. For institutions not listed in the publication, guidance is requested from the designated reporting institution of the appropriate state.

1.3(4) STUDENTS FROM FOREIGN COLLEGES AND UNIVERSITIES

Transfer credit from foreign educational institutions may be granted after a determination of the type of institution involved and after an evaluation of the content, level, and comparability of the study to courses and programs at the receiving university. Credit may be granted in specific courses, but is frequently assigned to general areas of study. Extensive use is made of professional journals and references which describe the education systems and programs of individual countries.

This rule is intended to implement Iowa Code section 262.9(3).
Residence

681--1.4(262) Classification of residents and nonresidents for admission, tuition, and fee purposes

1.4(1) GENERAL

a. A person enrolling at one of the three state universities shall be classified as a resident or nonresident for admission, tuition, and fee purposes by the registrar or someone designated by the registrar. The decision shall be based upon information furnished by the student and other relevant information.

b. In determining resident or nonresident classification, the issue is essentially one of why the person is in the state of Iowa. If the person is in the state primarily for educational purposes, that person will be considered a nonresident. For example, it may be possible that an individual could qualify as a resident of Iowa for such purposes as voting, or holding an Iowa driver’s license, and not meet the residency requirements as established by the board of regents for admission, tuition, and fee purposes.

c. The registrar, or designated person, is authorized to require written documents, affidavits, verifications, or other evidence deemed necessary to determine why a student is in Iowa. The burden of establishing that a student is in Iowa for other than educational purposes is upon the student.

A student may be required to file any or all of the following:

(1) A statement from the student describing employment and expected sources of support;
(2) A statement from the student’s employer;
(3) A statement from the student’s parents verifying nonsupport and the fact that the student was not listed as a dependent on tax returns for the past year and will not be so listed in future years;
(4) A statement from the student’s spouse related to sources of family support, length of residence in Iowa, and reasons for being in the state of Iowa;
(5) Supporting statements from persons who might be familiar with the family situation;
(6) Iowa state income tax return.

d. Applications for resident classification for a given semester or session are due no later than the fifteenth class day of that semester or session. Applications received after the fifteenth class day of that semester or session will be considered for the next semester or session. Appeals of any nonresident classification decision resulting from applications for resident classifications are due no later than midterm of that semester or session. Change of classification from nonresident to resident will not be made retroactive beyond the term in which application for resident classification is made.

e. A student who gives incorrect or misleading information to evade payment of nonresident fees shall be subject to serious disciplinary action and must also pay the nonresident fees for each term previously attended.

f. Review Committee. These regulations shall be administered by the registrar or someone designated by the registrar. The decision of the registrar or designated person may be appealed to a university review committee.

The decision of the review committee may be appealed to the state board of regents.

1.4(2) GUIDELINES

a. The following general guidelines are used in determining the resident classification of a student for admission, tuition, and fee purposes:

(1) A financially dependent student whose parents move from Iowa after the student is enrolled remains a resident provided the student maintains continuous enrollment. A financially dependent student whose parents move from Iowa during the senior year of high school will be considered a resident provided the student has not established domicile in another state.

(2) In deciding why a person is in the state of Iowa, the person’s domicile will be considered. A person who comes to Iowa from another state and enrolls in any institution of postsecondary education for a full program or substantially a full program shall be presumed to have come to Iowa primarily for educational reasons rather than to establish a domicile in Iowa.

(3) A student who was a former resident of Iowa may continue to be considered a resident provided absence from the state was for a period of less than 12 months and provided domicile is reestablished. If the absence from the state is for a period exceeding 12 months, a student may be considered a resident if evidence can be presented showing that the student has long-term ties to Iowa and reestablishes an Iowa domicile.

A person or the dependent of a person whose domicile is permanently established in Iowa, who has been classified as a resident for admission, tuition, and fee purposes, may continue to be classified as a resident so long as domicile is maintained, even though circumstances may require extended absence of the person from the state. It is required that a person who claims Iowa domicile while living in another state or country will provide proof of the continual Iowa domicile as evidence that the person:

1. Has not acquired a domicile in another state,
2. Has maintained a continuous voting record in Iowa, and
3. Has filed regular Iowa resident income tax returns during absence from the state.

(4) A student who moves to Iowa may be eligible for resident classification at the next registration following 12 consecutive months in the state provided the student is not enrolled as more than a half-time student (6 credits for an undergraduate or professional student, 5 credits for a graduate student) in any academic year term, is not enrolled for more than 4 credits in a summer term for any classification, and provides sufficient evidence of the establishment of an Iowa domicile.

(5) A student who has been a continuous student and whose parents move to Iowa may become a resident at the beginning of the next term provided the student is dependent upon the parents for a majority of financial assistance.

(6) A person who has been certified as a refugee or granted asylum by the appropriate agency of the United States who enrolls as a student at a university governed by the Iowa state board of regents may be accorded immediate resident status for admission, tuition, and fee purposes when the person:
1. Comes directly to the state of Iowa from a refugee facility or port of debarkation, or
2. Comes to the state of Iowa within a reasonable time and has not established domicile in another state.

Any refugee or individual granted asylum not meeting these standards will be presumed to be a nonresident for admission, tuition, and fee purposes and thus subject to the usual method of proof of establishment of Iowa residency.

(7) An alien who has immigrant status establishes Iowa residency in the same manner as a United States citizen.

(8) At the regent institutions, American Indians who have origins in any of the original people of North America and who maintain a cultural identification through tribal affiliation or community recognition with one or more of the tribes or nations connected historically with the present state of Iowa, including the Iowa, Kickapoo, Menominee, Miami, Missouri, Ojibwa (Chippewa), Omaha, Otoe, Ottawa (Odawa), Potawatomi, Sac and Fox (Sauk, Meskwaki), Sioux, and Winnebago (Ho Chunk), will be assessed Iowa resident tuition and fees.

b. Additional guidelines are used in determining the resident classification of a veteran, qualified military person, and dependent children and spouses of a veteran or qualified military person for purposes of admission and undergraduate tuition and mandatory fees:

(1) A person who is stationed on active duty at the Rock Island arsenal as a result of military orders, or the dependent child or spouse of such person, is entitled to resident status for purposes of undergraduate tuition and mandatory fees. However, if the arrival of the person under orders is subsequent to the beginning of the term in which the dependent child or spouse is first enrolled, nonresident fees will be charged in all cases for the dependent child or spouse until the beginning of the next term in which the dependent child or spouse is enrolled.

(2) A veteran who is domiciled or moves to the state of Iowa and who is eligible for benefits, or has exhausted benefits under the federal Post-9/11 Veterans Educational Assistance Act of 2008, is entitled to resident status for purposes of undergraduate tuition and mandatory fees. The dependent child or spouse of a veteran who meets these requirements is entitled to resident status for undergraduate tuition. However, if the arrival of the veteran in Iowa is subsequent to the beginning of the term in which the dependent child or spouse is first enrolled, nonresident fees will be charged in all cases for the dependent child or spouse until the beginning of the next term in which the dependent child or spouse is enrolled.

(3) A person who is moved into the state as the result of military or civil orders from the government for other than educational purposes, or the dependent child or spouse of such a person, is entitled to resident status. However, if the arrival of the person under orders is subsequent to the beginning of the term in which the dependent child or spouse is first enrolled, nonresident fees will be charged in all cases until the beginning of the next term in which the dependent child or spouse is enrolled.

(4) Persons who have attended any accredited private institution.

(5) Persons whose parents, siblings, siblings-in-law, or dependents are also residents.

(6) Persons who have been residents of the state for 12 consecutive months prior to the beginning of the term for which resident classification is sought.

(7) Persons who have been residents of the state for 12 consecutive months prior to the beginning of the term for which resident classification is sought.

The following circumstances, standing alone, do not constitute sufficient evidence of domicile to effect classification of a student as a resident under these regulations:

(1) Voting or registration for voting.
(2) Employment in any position normally filled by a student.
(3) The lease of living quarters.
(4) Admission to a licensed practicing profession in Iowa.
(5) Automobile registration.
(6) Public records, for example, birth and marriage records, Iowa driver’s license.
(7) Continuous presence in Iowa during periods when not enrolled in school.
(8) Ownership of property in Iowa, or the payment of Iowa taxes.

This rule is intended to implement Iowa Code section 262.9(3).

681--1.5(262) Registration and transcripts--general

A person may not be permitted to register for a course or courses at a state board of regents institution until any delinquent accounts owed by the person to an institution or any affiliated organization for which an institution acts as fiscal agent have been paid.

A state board of regents institution may withhold official transcripts of the academic record of a person until any delinquent accounts owed by the person to an institution or any affiliated organization for which an institution acts as fiscal agent have been paid.

This rule is intended to implement Iowa Code section 262.9.

681--1.6(262) COLLEGE-BOUND PROGRAM

1.6(1) DEFINITIONS.

"Accredited private institution" means an institution of higher education as defined in Iowa Code section 261.9, subsection 5.

"Commission" means the college aid commission.
"Financial need" means the difference between the student’s financial resources, including resources available from the student’s parents and the student, as determined by a completed parents’ financial statement and including any non-campus-administered federal or state grants and scholarships, and the student’s estimated expenses while attending the institution. A student shall accept all available federal and state grants and scholarships before being considered eligible for grants under the Iowa minority academic grants for economic success program. Financial need shall be reconsidered on at least an annual basis.

"Full-time student" means an individual who is enrolled at an accredited private institution or board of regents university for at least 12 semester hours or the trimester or quarter equivalent.

"Minority person" means an individual who is black, Hispanic, Asian, or a Pacific Islander, American Indian, or an Alaskan Native American.

"Part-time student" means an individual who is enrolled at an accredited private institution or board of regents university in a course of study including at least three semester hours or the trimester or quarter equivalent of three semester hours.

"Program" means the Iowa minority academic grants for economic success program established in this division.

1.6(2) POLICY ON COLLEGE-BOUND PROGRAM
a. The regent institutions will cooperate with other state and local agencies, including the department of education, the college aid commission, and educational institutions in implementing the college-bound program.

b. The universities will develop programs for elementary, middle and secondary school students and their families in the following areas:

1. Encouragement to consider attending a postsecondary institution;
2. Enrichment and academic preparation;
3. Information about how to apply for admission.

c. College-bound program vouchers will be awarded to students on the basis of the participation of the student and the student’s family in the college-bound program. One voucher will be awarded for participation in each college-bound program sponsored by a university.

1. Each university will maintain records concerning those students who participate in the college-bound program, according to its established policies and procedures. The records will include information on those students who have received college-bound program vouchers which are described in Iowa Code section 262.92(2). The University of Iowa will maintain a central record on all students who have received college-bound program vouchers on behalf of all regent institutions and will make appropriate information available to the college aid commission.

2. College-bound program vouchers may be used by students enrolled at a regent institution or at a private college or university in Iowa.

3. A student holding vouchers and enrolling at a regent institution will receive priority in the award of funds under the Iowa minority academic grants for economic success (IMAGES) program. Awards under the IMAGES program are made on the basis of financial need. A student may be eligible for an additional award from the institution in which the student is enrolled.

4. A student holding vouchers and enrolling at a private college or university in Iowa will receive priority in the award of funds under the Iowa minority academic grants for economic success program as provided by the rules of the college aid commission.

5. The presidents, or their designees, will administer and coordinate the college-bound program at the universities. As part of the coordination, they will establish liaison with the appropriate state and local agencies, serve as the university contact and promote collaborative efforts among the regent universities and other appropriate agencies and institutions. Annual reports to the board of regents shall be prepared by each regent university. The reports shall contain relevant information as to the accomplishments of the program in the past year and a plan of action with goals and objectives for the forthcoming year. Reports shall be submitted to the board of regents on October 1 of each year.

This rule is intended to implement Iowa Code section 262.92.

Supplemental Specific Rules to The University of Iowa

681--1.7(262) Application fees
Application fees required for admission to the University of Iowa, Iowa State University and the University of Northern Iowa are as follows (only the University of Iowa fees are listed):

UNIVERSITY OF IOWA
Undergraduate domestic student and nondegree student: $40
Undergraduate international student: $85
Graduate/professional domestic student: $60
Graduate/professional international student: $100
Pharm.D. student: $100
Reentry fee: $20

This rule is intended to implement Iowa Code section 262.9(3).

681--2.1(262) Formal application for admission

All applicants for admission to any college of the University of Iowa must submit a formal application for admission with the required official transcripts and other supporting material as required to the director of admissions. Students may not be registered until they have been issued an admission statement by the director of admissions.

681--2.3(262) College of Business Administration

2.3(1) APPLICATION FOR ADMISSION

Applications for admission to the college of business administration should be submitted to the director of admissions.

Applicants are urged to apply as early as possible, since this will give the admissions committee more time to devote to each application. Closing dates for receiving applications will be announced well in advance of the opening date of any session.
2.3(2) REQUIREMENTS FOR ADMISSION

For admission to the college of business administration an applicant must have--

a. Completed specific course work as prescribed by the faculty of the college.

b. Attained satisfactory scores on the university’s required admission examinations.

c. Maintained a satisfactory grade-point average on all courses undertaken, and on all courses undertaken at the University of Iowa, and on all courses undertaken in business and economics.

Applications from students who have minor deficiencies in meeting grade-point requirements specified above will be reviewed by the admissions committee of the college, and upon favorable recommendation of the committee, such students may be granted conditional or probationary admissions.

Fulfillment of the minimal requirements listed above, however, does not assure admission to the college of business administration. From those applicants who meet the minimum requirements, the admissions committee will select the applicants who, in their judgment, appear to be best qualified.

681--2.4(262) College of Dentistry

2.4(1) APPLICATION FOR ADMISSION

Address all inquiries regarding admission to the Director of Admissions, University of Iowa.

Applicants are urged to apply as early as possible, since this will give the admissions committee more time to devote to each application. Closing dates for receiving applications will be announced well in advance of the opening date of any session.

Applicants for admission to dentistry are encouraged to complete a program leading to a baccalaureate degree before entering dentistry. Applicants should consider a combined program of liberal arts and dentistry which would qualify them for a baccalaureate degree upon the completion of the freshman year in dentistry. Preference will be given to students who have the baccalaureate degree or who have completed the requirements for the degree in a combined program.

Fulfillment of the specific requirements for admission listed does not ensure admission to the college of dentistry. From the applicants meeting the minimum requirements, the admissions committee will select the applicants who in their judgment appear to be best qualified for the study and practice of dentistry.

Each applicant must place on file in the office of the director of admissions the completed application form and an official transcript from each college attended.

The college work outlined below will suffice to meet the minimal academic requirements for admission to the college of dentistry.

The college curriculum must include at least three academic years of accredited work comprising not less than 96 semester hours and including specific required science courses as prescribed by the faculty of the college. Electives should be chosen so as to give the applicant a well-rounded educational background.

In order to meet minimum scholarship requirements, the applicant should attain a cumulative grade-point average of 2.5. Since the quality of course work in predental science is basic to success in dentistry, special consideration to such college work is given by the admissions committee. The grade-point average is based upon the University of Iowa’s marking system in which a grade of “A” is equivalent to four points. Other marking systems will be evaluated by the office of admissions and the committee on admissions of the college of dentistry.

Applicants who have completed the requirements for admission to dentistry five or more years prior to seeking admission to this college of dentistry will be considered by the admissions committee only under exceptional conditions.

Preference will be given to applicants who are residents of Iowa, but consideration will also be given to outstanding nonresidents.

Personal interviews will be required of applicants for admission to the college of dentistry. Applicants will be notified when they should appear for the required interviews with members of the admissions committee.

All applicants must complete the dental aptitude tests sponsored by the council on dental education of the American Dental Association. Tests are given three times annually. The University of Iowa is a testing center.

To facilitate early selection, applicants for admission to the college of dentistry are urged to complete the aptitude test no later than October to enable the admissions committee to begin its selection in December.

Accepted applicants are required to make the required deposit within two weeks after notification of favorable action on their applications. This deposit is not refundable but is credited toward the first fee payment. The applicant who fails to make the deposit within the time specified forfeits a place in the entering class.

Applicants accepted for admission are required to submit a satisfactory physical examination report to the university student health service within two weeks following notification of acceptance.

All applicants must also complete, through student health service, an X-ray film of the chest and a successful vaccination against smallpox prior to registration.

2.4(2) ADVANCED STANDING

Applications for admission with advanced standing are handled as individual cases.

681--2.5(262) College of Engineering

Address all inquiries regarding admission to the Director of Admissions, University of Iowa, Iowa City, Iowa.

Closing dates for receiving applications will be announced well in advance of the opening date of any session.

2.5(1) ADMISSION OF FRESHMAN STUDENTS

The applicant must submit a formal application for admission and must have the secondary school provide a certificate of high school credits, including a complete statement of the applicant’s high school record, rank in class, scores on standardized tests, and certification of high school graduation. The applicant must also submit any other evidence such as a certificate of health that may be required by this university.
Each applicant must have attained satisfactory scores on the university’s required admission examinations, maintained a satisfactory cumulative grade-point average, achieved satisfactory rank in graduating class, and successfully completed all prerequisite courses. The university with the approval of the state board of regents shall establish and periodically review specific minimum requirements for admission to the college of engineering. Among the items to be so determined are test score, grade-point average, class rank, and prerequisite courses. These specific determinations will be published in the university catalog.

From applicants who do not meet minimum admission requirements, the director of admissions may after a review of the applicant’s record: (a) Admit unconditionally, (b) admit on probation, (c) require enrollment for a tryout period during a preceding summer session, or (d) deny admission.

2.5(2) ADMISSION OF UNDERGRADUATE STUDENTS BY TRANSFER

The applicant must submit a formal application and official transcript of college work. Each applicant should have:

a. Maintained satisfactory progress in mathematics.

b. Attained satisfactory scores on the university’s required admission examinations.

c. Maintained a satisfactory cumulative grade-point average on all college work undertaken.

From applicants who do not meet recommended requirements, the director of admissions will review individual records and may offer probationary admission.

681--2.6(262) Graduate College

Graduates of any college or university accredited by regional accrediting associations may if the academic record is satisfactory be admitted to the graduate college. Admission to the graduate college is not the equivalent of acceptance as a candidate for an advanced degree. Such acceptance is given usually after the completion in residence of work at the university and upon recommendation of the major department and approval by the dean of the graduate college. The acceptance of a student as a degree candidate is determined upon the merits of each individual case.

A student who is within four semester hours of having satisfied all the requirements for the bachelor’s degree in the University of Iowa may be given a tentative admission to the graduate college.

681--2.7(262) College of Law

2.7(1) APPLICATION FOR ADMISSION

Address all inquiries concerning admission to the Director of Admissions, University of Iowa, Iowa City, Iowa. Beginning students may enter the college of law only in the summer session or the fall semester. Closing dates for receiving applications will be announced well in advance of the opening date of any session.

To be considered for admission, an applicant should have attained a cumulative grade-point average of at least 2.3 on all college work undertaken. The grade-point average is based upon the University of Iowa’s marking system in which a grade of “A” is equivalent to four points.

Other marking systems will be evaluated by the office of admissions.

Applicants for admission must present a baccalaureate degree from an approved college or university prior to commencing work in the college of law.

Each applicant for admission must take the Law School Admission Test administered by the Educational Testing Service, Princeton, New Jersey, and have the score forwarded to the college of law. The test is given several times per year and may be taken at numerous locations in the United States and throughout the world. Applicants are urged to take the test in the fall or winter preceding the fall semester for which they are making application. Except upon a showing acceptable to it, the admissions committee will not consider applications from students who fail to take the test prior to the June 1 preceding the fall semester in which they wish to enter.

Fulfillment of the specific requirements for admission listed above does not ensure admission to the college of law. From the applicants meeting the minimum requirements, the admissions committee of the college of law will select those applicants who, in their judgment, appear to be best qualified for the study and practice of law. The law admissions committee may require personal interviews of applicants.

2.7(2) ADMISSION WITH ADVANCED STANDING

A transfer student may be eligible for admission if the student (a) has attended a school approved by the Association of American Law Schools; (b) is in good standing at the time of withdrawal (evidenced by a letter from the dean of the school from which transferring); (c) meets the admission requirements for beginning students; and (d) has done substantially above average work in the law school the student attended. Where an applicant has completed more than one year of law study, advanced standing will be permitted only in exceptional cases. Applicants for admission with advanced standing should comply with the procedures required for admission to the first-year class.

681--2.8(262) College of Medicine

2.8(1) APPLICATION FOR ADMISSION

Address all inquiries regarding admission to the Director of Admissions, University of Iowa.

Applicants are urged to apply as early as possible, since this will give the admissions committee more time to devote to each application. Closing dates for receiving applications will be announced well in advance of the opening date of any session.

Fulfillment of the specific requirements for admission listed below does not ensure admission to the college of medicine. From the applicants meeting the specific requirements, the admissions committee of the college of medicine will select those applicants who in their judgment appear to be best qualified for the study and practice of medicine.

Prior to entrance an applicant must:

a. Have received the baccalaureate degree; or

b. Have completed three years of a combined baccalaureate-medicine curriculum which qualifies the applicant to receive the baccalaureate degree on completion of the first year in medicine; or
c. Have completed three years of a baccalaureate program which includes the general graduation requirements of the college of liberal arts of the University of Iowa for the combined baccalaureate degree.

Each applicant must place on file in the office of the director of admissions the completed application form and an official transcript from each college attended.

The college work as outlined below will suffice to meet the minimal academic requirements for admission to the college of medicine.

Applicants who have completed the baccalaureate degree and required courses five or more years prior to seeking admission to this college of medicine will be considered by the admissions committee only under exceptional conditions.

The college curriculum must include at least three years (equivalent to 96 semester hours) including specific required science courses as prescribed by the faculty of the college.

Students planning to study medicine should bear in mind that other college work is required in addition to prerequisite sciences because it offers an opportunity to secure a well-rounded education, which is of special importance to those entering the medical profession. In the selection of applicants, preference will be given to those who give evidence of having obtained such a broad education.

To be considered for admission, an applicant must have attained a grade-point average of at least 2.5 for all college work undertaken. As the quality of work in premedical science is very basic to success in medicine, special attention will be given by the admissions committee to grades in science. The grade-point average is based upon the University of Iowa’s marking system in which a grade of "A" is equivalent to 4 points. Other marking systems will be evaluated by the office of admissions and the committee on admissions of the college of medicine.

Preference will be given to applicants with high scholastic standing who are residents of Iowa, and consideration will also be given to outstanding nonresidents. Applicants for admission are required to take the medical college admissions test which is administered for the Association of American Medical Colleges. Applicants are requested to complete this test in May or October of the year preceding that for which they are applying for admission. Students may make arrangements to apply for this examination through the university examination service, the University of Iowa.

Personal interviews will be required. Applicants will be contacted for the appointment for required interviews.

Applicants accepted for admission are required to submit a satisfactory physical examination report to the university student health service within two weeks following notification of acceptance.

All applicants must also complete, through student health service, an X-ray film of the chest and successful vaccination against smallpox prior to registration.

2.8(2) ADMISSION TO ADVANCED STANDING

If their work preparatory to entering a college of medicine would have met entrance requirements of this college, students from other approved medical colleges may be admitted to advanced standing according to the following conditions:

Only applicants of high scholastic standing will be considered.

They must present certificates showing that they have satisfactorily completed courses equivalent to those already pursued by the class they wish to enter.

The committee on admission to advanced standing will decide in each case whether examinations in the various subjects will be required.

Applications will be considered only upon receipt of a statement from the dean or registrar of the college from which the applicant comes, showing the actual amount of time the student has spent in the study of medicine, the courses taken, and the grades received, together with a statement of the work preparatory to entering upon the course in medicine.

No advanced standing will be granted to students from other than approved medical schools. Students may be granted subject credit upon recommendation of the head of the department concerned, for work taken in other than medical schools.

2.8(3) UNCLASSIFIED STUDENTS

Applicants for admission to the college of medicine who are not candidates for a degree but who desire to register for special subjects, will be admitted to any lecture or laboratory course only upon complying with all the regular requirements for admission to such course or by action of the faculty upon recommendation of the professor in charge of the course.

681--2.9(262) College of Nursing

Applications for admission to the college of nursing should be submitted to the Director of Admissions, University of Iowa, Iowa City, Iowa. Applicants for admission to the undergraduate program in nursing must present a minimum of 30 semester hours completed in an accredited college. For admission to the college of nursing an applicant must have:

1. Completed specific course work as prescribed by the faculty of the college. The director of admissions will provide a list of the course work required.

2. Completed the American College Tests.

3. Performed satisfactorily on all courses undertaken.

Applications from students who have minor deficiencies in meeting grade-point requirements specified above will be reviewed by the admissions committee of the college, and, upon favorable recommendation of the committee, such students may be granted conditional or probationary admissions.

Fulfillment of the minimum requirements listed above, however, does not assure admission to the college of nursing. From those applicants who meet the minimum requirements, the admissions committee will select those applicants who, in their judgment, appear to be best qualified.

681--2.10(262) College of Pharmacy

2.10(1) GENERAL BASIS FOR ADMISSION

Fulfillment of the specific requirements for admission does not ensure admission to the college of pharmacy. From
the applicants meeting the specific requirements, the admissions committee will select those applicants who in their judgment appear to be best qualified. Applicants for admission to pharmacy should have graduated from an approved high school or have an equivalent amount of training.

2.10(2) COLLEGE WORK
The college work as outlined below will meet the minimum academic requirements for admission to the college of pharmacy. The minimum should include 32 semester hours of college level work exclusive of credit in military and air science and physical education. The 32 semester hours must include:

Communication skills. Applicants must have demonstrated satisfactory achievement in communication skills according to the requirements of the college of liberal arts at the state University of Iowa. Applicants from other institutions may meet this requirement by presenting six semester hours of credit in English composition and rhetoric and two semester hours of credit in speech or an eight-semester-hour year course in communication skills.

Inorganic chemistry and qualitative analysis, eight semester hours.

College mathematics, eight semester hours.

Physics or zoology, eight semester hours.

Students from other institutions may substitute a comparable eight-semester-hour course in biology in lieu of zoology.

Military or air science (if available), zero to two semester hours.

Students who present minor deficiencies in meeting the above requirements may be admitted to the college of pharmacy upon the recommendation of the dean of admissions and the college of pharmacy.

2.10(3) SCHOLARSHIP AND APPLICATION DEADLINE
To be considered for admission to the college of pharmacy, students must have earned a 2.0 or "C" average on all collegiate work undertaken. The minimum grade-point average of 2.0 is based on the state University of Iowa’s marking system in which the grade of "A" is equivalent to four points. Applications for admission and the required official transcripts should be filed before March 1 for the class to enter pharmacy in September.

2.10(4) REQUIRED TESTS
Applicants for admission are required to take the American College Testing Program test.

2.10(5) CURRENT REQUIREMENTS
Applicants who have completed work in a college of pharmacy accredited by the American Council on Pharmaceutical Education may if their college academic average is acceptable be admitted and granted advanced standing toward the degree of bachelor of science in pharmacy.

681--2.11(262) College of Liberal Arts
Applicants for admission to liberal arts must meet the rules that are common to the three state institutions in Iowa as listed in 681--1.1(262), 1.2(262) and 1.3(262).
University Calendar

Individual College Calendars

Some University of Iowa colleges have academic year schedules that are different from the one listed above. Contact the individual colleges or visit their web sites; use the A-Z Search or the Phonebook/E-mail directory on the University of Iowa home page.

Office of the Registrar Calendars

The Office of the Registrar provides additional calendars that list detailed academic deadlines, final exam schedules, and University holidays. It also publishes a five-year academic calendar (PDF file available). See Calendars/Deadlines on the Office of the Registrar web site.
Campus Visits

Each year The University of Iowa is the destination for visitors with wide-ranging interests. Prospective and new students and their parents, new faculty and staff members, fans of intercollegiate athletics, University of Iowa Health Care patients, audiences for the visual and performing arts, museum visitors, and conference and continuing education participants are among those drawn to the campus.

Prospective and New Students

Prospective and new students should come first to the Admission Visitors Center, C110 Pomerantz Center, 213 N. Clinton Street. The center is open weekdays 8:30 a.m. to 4:30 p.m. and selected Saturday mornings. It is best to visit the campus on weekdays, when classes are in session and when other University offices are open. Please call the Office of Admissions to arrange for a campus visit: 319-335-1569.

Attractions, Campus Maps, Parking

For links to campus maps, walking tours, how to arrange visits to varied attractions, and where to park on campus, see Campus Maps & Tours. For additional information about the University, use the A-Z Search on the University’s home page (http://www.uiowa.edu).
