Director

Graduate College Commencement

FRIDAY, MAY 13, 2016

7:00 P.M.

Master of Ceremonies

John C. Keller

*Associate Provost for Graduate and Professional Education
Dean, Graduate College*

I. Processional

The audience will remain seated during the processional. We wish to preserve the dignity of this University ceremony and assure all guests the opportunity to see and hear the proceedings. Guests are requested to remain seated during the program.

II. Welcome

John C. Keller

*Associate Provost for Graduate and Professional Education
Dean, Graduate College*

III. The Conferring of Honorary Degree

William McGuire "Bill" Bryson

Doctor of Humane Letters

Honorable James A. Leach

Professor, College of Law

John C. Keller

*Associate Provost for Graduate and Professional Education
Dean, Graduate College*

J. Bruce Harreld

President, The University of Iowa

IV. Address to the Graduates

William McGuire "Bill" Bryson

Doctor of Humane Letters

V. The Conferring of Doctoral Degrees

John C. Keller

*Associate Provost for Graduate and Professional Education
Dean, Graduate College*

J. Bruce Harreld

President, The University of Iowa

VI. The Conferring of Master's Degrees

John C. Keller

*Associate Provost for Graduate and Professional Education
Dean, Graduate College*

J. Bruce Harreld

President, The University of Iowa

VI. Farewell

J. Bruce Harreld

President, The University of Iowa

VII. Recessional

Aisles in the audience seating area will be used for the recessional. Please remain seated until the recessional is completed.

The Iowa Brass Collective

James Naigus – horn
Jonathan Allen – trombone
John Manning – tuba

Academic Recognition

High academic achievement is recognized upon graduation in three ways: graduation with distinction, based upon grades only, graduation with honors in the major, based upon both grades and the completion of an honors project approved by the College and the major department, and graduation with University Honors, based on grades and completion of a formal curriculum of honors coursework and experiences.

The College of Liberal Arts of Sciences recognizes high scholastic achievement by awarding degrees “with highest distinction,” “with high distinction,” and “with distinction,” based on the following grade point averages for graduates in the 2016 calendar year. Highest distinction—highest 2 percent (4.00) High distinction—next highest 3 percent (3.88-3.99) Distinction—next highest 5 percent (3.75-3.87)

Stars worn on the left sleeve designate graduation with distinction: three stars indicate graduation with highest distinction; two, with high distinction; and one, with distinction.

Candidates graduating with honors in the major wear white cordons to mark their achievement. Candidates graduating with University Honors are recognized by a medal worn on a black and gold lanyard.

Because multiple ceremonies are scheduled for today, we regret that graduates and their guests will not be permitted on the Arena floor after the ceremony concludes. Please plan to meet your party on the concourse level of the Arena or outdoors immediately following the ceremony.

Honorary Certificate

Andrew Mogni

DELTA SIGMA PI SCHOLARSHIP KEY

Each year, Delta Sigma Pi awards the scholarship key to the graduating senior with the highest grade-point average in business.

BETA GAMMA SIGMA

Membership in Beta Gamma Sigma is the highest recognition a business student can earn. To be eligible for membership, their academic ranking must place them in the upper 10 percent of the junior and senior class.

HONORS PROGRAM

The college recognizes students who have completed the Henry B. Tippie College of Business Honors Program. These students must complete an honors seminar, an honors research project, and maintain a grade-point average of 3.50 or above.

HONORARY DEGREES

The University of Iowa confers honorary degrees to individuals who have demonstrated extraordinary achievements in such areas as research, scholarship, education, artistic creation, social activism, human rights, or humanitarian outreach. Nominations are made by the faculty, with selections approved by the Provost and the Board of Regents, State of Iowa.

Honorary degrees have been awarded to the following individuals:

Marvin Pomerantz, Honorary Doctor of Humane Letters, December 2007

Ignacio Ponseti, Honorary Doctor of Science, December 2007

Robert Solow, Honorary Doctor of Humane Letters, May 2008

Himie Voxman, Honorary Doctor of Humane Letters, December 2008

Johan Hultin, Honorary Doctor of Science, May 2009

Henry B. Tippie, Honorary Doctor of Humane Letters, December 2009

Tom Brokaw, Honorary Doctor of Humane Letters, May 2010

Robert Hass, Honorary Doctor of Humane Letters, May 2010

John Pappajohn, Honorary Doctor of Humane Letters, May 2010

C. Vivian Stringer, Honorary Doctor of Humane Letters, May 2010

Gregs Thomopoulos, Honorary Doctor of Science, May 2010

Arthur A. Neu, Honorary Doctor of Humane Letters, December 2010

Richard (Dick) Myers, Honorary Doctor of Humane Letters, May 2011

Jerre Stead, Honorary Doctor of Humane Letters, May 2011

Robert Osterhaus, Honorary Doctor of Science, May 2012

Robert D. Ray, Honorary Doctor of Laws, May 2012

Stanley F. Redeker, Honorary Doctor of Humane Letters, May 2012

John W. Colloton, Honorary Doctor of Humane Letters, May 2013

Mary Louise Petersen, Honorary Doctor of Humane Letters, May 2013

Leonard A. Hadley, Honorary Doctor of Humane Letters, May 2014

Manny Villafana, Honorary Doctor of Science, May 2014

The University of Iowa is pleased to make the following award in May 2016:

WILLIAM M. ("BILL") BRYSON – HONORARY DOCTOR OF HUMANE LETTERS

William M. ("Bill") Bryson, a native of Des Moines, Iowa, is the internationally renowned author of 21 books of literary nonfiction and a champion of writing, literature, and the sciences in higher education. Among his best-known works are two books on the history of the English language—*The Mother Tongue: English and How it Got That Way* and *Made in America: An Informal History of the English Language in the United States*—and many bestselling books on travel in the U.S. and abroad, including *Notes from a Small Island* and *A Walk in the Woods: Rediscovering America on the Appalachian Trail*. His acclaimed work of popular science, *A Short History of Nearly Everything*, won the Aventis prize in 2004, the EU Descartes Prize in 2005, and both the James Joyce Award (from the Literary and Historical Society of University College of Dublin) and the Golden Eagle Award in 2007. In 2006, Mr. Bryson was awarded an honorary Order of the British Empire (OBE) for his contributions to literature.

Mr. Bryson is also esteemed for his achievements in higher education administration and science education advocacy. In 2005 he was honored with the President's Award from Great Britain's Royal Society for Chemistry (RSC), which recognized him for advancing the cause of the chemical sciences. In 2007 he received the Bradford Washburn Award, the highest award given by the Museum of Science in Boston for contributions to the popularization of science. In 2013, he was elected an Honorary Fellow of the Royal Society, becoming the first non-British citizen to receive that honor.

Mr. Bryson served as chancellor of Durham University in England from 2005 to 2011.

The University of Iowa wishes to recognize William M. Bryson for his contributions to literary nonfiction and to science education and communication, and for his outstanding record of leadership in higher education.

HENRY B. TIPPIE COLLEGE OF BUSINESS

The University of Iowa first offered courses in economics and business in 1858. The School of Commerce was formally established in 1914 and was later renamed the College of Business Administration in 1921. The college received national accreditation in 1923 and has held that accreditation since that time.

The college was renamed the Henry B. Tippie College of Business in 1999 in recognition of a significant gift from 1949 alumnus Henry B. Tippie. Today, there are more than 4000 students in the college working toward Bachelor of Business Administration (B.B.A.), Master of Accountancy (M.Ac.), Master of Business Administration (M.B.A.), Masters of Science (M.S.), and doctoral (Ph.D.) degrees.

The Undergraduate Business Program provides a broad business education along with specializations in the areas of accounting, economics, finance, marketing, management and business analytics and information systems. Student organizations, the Frank Business Communication Center, and specialized programming provide a full-service educational experience. In addition, students can earn certificates in International Business, Entrepreneurship, and Risk Management and Insurance.

The Iowa M.B.A. Program provides advanced management education that expands a student's ability to excel in the global business economy. Some students in the on-campus two-year Full-time MBA program take additional coursework to earn a joint degree with the University of Iowa's College of Law (M.B.A./J.D.), College of Medicine (M.B.A./M.D.), and College of Public Health (M.B.A./M.H.A.). The college offers both the Professional and Executive M.B.A. programs for working professionals in locations around the state of Iowa. The International M.B.A. program consists of the European M.B.A. Program offered in Italy and the Hong Kong M.B.A. Program.

The Masters of Accountancy program is intended for students seeking a career in public accounting. The Masters of Science Program and Certificate Program in Business Analytics trains individuals to utilize data for business decisions. The college's Ph.D. Program prepares individuals for faculty positions in academia, as well as for business and government careers.

Several centers within the college promote opportunities for students in specialized career areas including the Hawkinson Institute of Business Finance, the Marketing Institute and the Vaughan Institute for Risk Management and Insurance. The RSM Institute of Accounting Research provides research services to the field while the Iowa Electronic Markets (IEM) provides a trading platform most recognized for its

reliability in political elections. The John Pappajohn Entrepreneurial Center (JPEC) provides a full spectrum of programming for both students and community-based entrepreneurs.

With more than 48,000 living alumni around the globe, the Tippie College continues its long tradition of having impact on the world of business.

COLLEGE OF DENTISTRY

Dental education began at The University of Iowa in 1882 with 14 students, four faculty members, and a first year's budget of just over \$1,000. Patients were treated in an improvised clinic equipped with borrowed barber chairs. Today the College of Dentistry is among the leading dental schools in the United States. An integral part of The University of Iowa Health Sciences Center, the College enrolls dental students, advanced education and graduate students in programs representing all of the dental specialties as well as master's and Ph.D. programs in oral science.

The Dental Science Building affords faculty and students of the college excellent facilities for their many programs of research into the nature and treatment of oral diseases. These investigations have resulted in a number of significant advances in dental science.

An expansion and renovation of clinic, classroom and research space are soon to be complete and will result in state-of-the-art facilities for students, faculty and patients.

Faculty, postdoctoral and predoctoral students extend service to hundreds of thousands of Iowa citizens in the patient-care clinics of the Dental Science Building. Students also provide dental care to Iowa communities through the College's extramural programs in hospitals, community health centers and nursing homes. Dental health educational presentations are regularly provided by dental students in schools, nursing homes and other locations throughout the state.

The College has a long history of graduating students who become nationally prominent clinicians, dental educators, and researchers. More than 4,600 living alumni perpetuate the College's tradition of excellence as they distinguish themselves with contributions to their professions and our society.

COLLEGE OF EDUCATION

The College of Education traces its roots to the University of Iowa's founding in 1847. Teacher education was the only program specifically called for when legisla-

tors created the State University of Iowa, just 59 days after Iowa became a state.

Currently, the College enrolls approximately 550 undergraduate students in teacher education programs that prepare them for licensure in elementary education and eight secondary education areas (art, English, foreign language, math, music, science, social studies and special education). Our students benefit from more highly supervised clinical experiences than any other program in the state and is Iowa's only one to offer a one-to-one series that integrates mobile technology into the curriculum. Every Hawkeye teacher graduates with a Teacher Leader Certificate that sets them apart from every other teacher in the nation because of the advanced training and professional development students receive in the areas of assessment, technology, and diversity / community engagement.

Almost 600 graduate students are enrolled in programs that consistently rank among the nation's top 20. Education graduates can be found serving as counselors, psychologists, principals, superintendents, student development experts, testing specialists, and educational leaders around the world.

In addition to their innovative teaching, the College's 91 faculty members are actively engaged in research and service. They have formed numerous partnerships with school districts throughout Iowa to create and investigate new methods of teaching and built connections with multiple countries around the globe to enrich learning and provide opportunities not previously available.

By forging new frontiers in STEM education, our faculty lead worldwide STEM initiatives. They also provide a wide range of outreach services by supplying valuable information and support and incorporating the newest technology to enhance learning. Faculty members work collaboratively with K-12 educators, assist school districts with curriculum development, provide counseling services, and administrator workshops for professional development and continuing education.

The College is home to the world-renowned Iowa Testing Programs, developers of the Iowa Assessments™. Under the program's leadership of Stephen B. Dunbar, the Hieronymus-Feldt Professor of Educational Measurement, and Professor Catherine Welch, the Leonard and Natalie Feldt Faculty Fellow, development is underway for the Iowa Assessments' Next Generation. Iowa Testing Programs also established ACT and Pearson, now considered two of Iowa's largest technology transfers. Faculty members provide essential expertise for national assessment agencies, including Educational Testing Service and the College Board.

Faculty members also develop and lead

major assessment centers. Professor Won Lee directs the Center for Advanced Studies in Measurement and Assessment. Professor Liz Hollingsworth directs the Center for Evaluation and Assessment.

Ernest Pascarella, the Mary Louise Petersen Chair in Higher Education, is the most-cited scholar in his field with over 30,000 citations on Google Scholar. He established the College's Center for Research on Undergraduate Education, a national resource for how college affects students, now directed by Associate Professor Nick Bowman.

As a leader of gifted education, the College's Belin-Blank International Center for Gifted Education offers services, support, and programs for academically gifted and talented students and their teachers and parents from pre-K through college level. Developed 25 years ago by Dean Nicholas Colangelo and now directed by Susan As-soulne, the Myron and Jacqueline Blank Professor of Gifted Education, the center's activities touch the lives of children from a wide variety of regions, backgrounds, and abilities and have helped distinguish the College as one of the top programs for gifted education in the country.

The College also excels in the area of assisting learners with disabilities. The Iowa Center for Assistive Technology Education and Research (ICATER) provides hands-on preparation to our students, but also to educators, administrators, and families across Iowa. It conducts and supports research examining the effectiveness of adaptive technology devices in education, living, and work. In addition, the UI REACH (Realizing Educational and Career Hopes) Program offers a two-year certificate, with a third-year option, for young adults with intellectual and learning disabilities. The first of its type at a major public university, UI REACH empowers these students to acquire the skills necessary to become independent, productive, and fully participating adults living and working in the community.

The College of Education is clearly home to leaders, scholars, and innovators.

COLLEGE OF ENGINEERING

The College of Engineering is one of 11 colleges that comprise the University of Iowa. With educational courses dating back over 100 years, the College today has an enrollment of 2,474 students – 2,165 who are undergraduate students and 309 who are graduate students. About 50 percent of undergraduate students come from the state of Iowa (82% from Iowa and Illinois), with the remaining 50% percent attending from contiguous states and abroad.

The College teaches undergraduate and graduate coursework in biomedical,

chemical and biochemical, civil and environmental, electrical and computer, industrial, and mechanical engineering; 100% of undergraduate classes are taught by 90 faculty members. More than 50% of our students graduate with a second major, minor, or certificate. The college enjoys a 99% job/graduate school placement rate.

Engineering at Iowa is especially recognized for inspiring a personalized, student-oriented vision—coupled with the resources of a large research university. Most of our students come to the University of Iowa because they know with confidence that they want to become engineers, but they want to be something more. At Iowa, they can combine engineering with the University's strengths in other colleges—with natural strengths in international studies, writing and communications, health sciences, business, law, arts and humanities. This makes the University of Iowa uniquely qualified to provide talented engineering students the type of broad technological education demanded in a rapidly changing world. The College is ranked among the top 20% of graduate and undergraduate colleges of engineering in the nation.

There are more than 14,500 engineering alumni living and working throughout the world – 3,900 alone in the state of Iowa – many with corporate and personal ties to the College through recruitment, mentoring, guest seminars, faculty consulting, sponsored research, financial giving, and other interactions.

GRADUATE COLLEGE

The University of Iowa's Graduate College was founded in 1900 and that year awarded its first doctorate to Fred D. Merritt in political science. Since then, it has conferred 79,609 master's, 784 specialist, and 21,746 doctoral degrees. With more than 4,600 students, the college accounts for nearly one-fifth of the University's total enrollment, in more than 100 different programs of advanced study, research, and artistic creation. The Graduate College is a proud supporter of interdisciplinary programs, including a unique, individualized interdisciplinary studies doctorate program.

All faculty members with professorial rank in the academic divisions of the University hold membership on the Graduate College faculty; thus, almost all of the University's 1,500 faculty members participate in graduate instruction. Because academic programs involve specialists from different disciplines and because many faculty members hold appointments in more than one department, school, or college, graduate instruction is assured a healthy interaction and collaboration among disciplines.

A number of the University's graduate programs are recognized as the finest,

or among the finest, in the nation. The Graduate College boasts five winners of the prestigious UMI/CGS Dissertation Prize, the most awarded to any public institution since the inception of the award. In 2001 the college inaugurated its Graduate College Outstanding Mentor Awards. The awards for the 2015-16 academic year were made to Daniel Week, Department of Biochemistry and Dorothy Johnson, School of Art and Art History, in recognition of their outstanding contributions to graduate education.

COLLEGE OF LAW

The University of Iowa College of Law prepares its students to become tomorrow's leaders in law, government and industry. The leading academic law library, a global curriculum, and a strong writing tradition highlight the world-class legal education we provide. Through our unique Citizen Lawyer Program, live-client clinics, and a wide-range of externship placements, our law students hone their skills and embrace the highest ideals of the legal profession by providing legal services to the indigent and working on law reform for the improvement of the general welfare. Iowa-educated lawyers begin early to make a difference.

When students choose to come to the University of Iowa College of Law, they become part of a proud history. The College of Law is the oldest law school in continuous operation west of the Mississippi and from the day we first opened our doors in 1865 through the current day, the College has been a welcoming and inclusive community, admitting students dedicated to the study of law without regard to ethnicity, gender, religion, sexual identity, or socio-economic status. Today, we have an enrollment of more than 404 students and a faculty of approximately 41 full-time professors. Eighty-seven undergraduate institutions and 33 states and foreign countries were represented by the 2015 entering class; approximately 40 percent of whom are residents of the state of Iowa.

Our alumni practice law from Wall Street to the Silicon Valley, from London to Beijing, and in almost all of Iowa's 99 counties. As corporate counsel, they advise business leaders, and as chief executive officers, they run businesses. They are state and federal judges, appointed officials, elected leaders, law professors, law deans, and university presidents. They can be found in the halls of Congress, on Indian reservations, in classrooms, courtrooms, and boardrooms in every state in the nation, and in countries around the world.

The learning environment at the College of Law is rigorous and collaborative, and the intellectual climate is open and robust. Whether the topic is legal theory or legal practice, constitutional law or contracts, our students select courses from a rich and varied curriculum and participate in a wide

array of extracurricular learning opportunities. Our Legal Analysis, Writing and Research program, along with our Writing Resource Center and our four student-edited law journals, showcase our longstanding tradition of training exceptional legal writers.

The College of Law offers service to the state of Iowa and prepares our students to become civically engaged citizens and community leaders through our Citizen Lawyer Program. This comprehensive program develops and matches students with service opportunities while teaching the values and skills important to new lawyers through activities that include: *pro bono* (law-related volunteer) projects, community service opportunities, service learning courses, and professional values and civic leadership programs.

Our faculty is comprised of nationally and internationally known scholars and accomplished teachers who are leaders in their fields of study. Their scholarship is cutting-edge and their research and advocacy make a difference on issues ranging from bankruptcy law to the criminal justice system. The College of Law offers a climate of collegiality where student-faculty interaction is pervasive, and where collaboration across disciplinary boundaries yields new insights and cross-campus partnerships.

The College of Law ranks among the nation's best law schools, public or private. But, as a public law school, we take our public missions of access, affordability, and service seriously. To fulfill the promise to the public we serve, we draw upon the breadth and depth of the law school's assembled expertise to create new knowledge and to address the weightiest problems confronting modern society. We are grateful to the State of Iowa and the many individuals whose support contributes to our successes.

COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences invites students to explore the entire range of human learning: the fine arts, the humanities, the social sciences, and the natural and mathematical sciences. Our students work with faculty members who are committed to integrating their research into their teaching and to helping students develop their own capacity to ask significant questions, to think analytically, to draw conclusions from what they learn, and to discover workable solutions to problems. These skills, honed throughout the undergraduate experience, will form the basis for life-long success and learning. We seek to prepare our graduates to be knowledgeable citizens and to enable them to continually acquire the new information and skills they will need to meet the challenges of our ever-changing world.

Although a liberal arts and sciences

education has been available since The University of Iowa first began offering instruction in 1855, the "College of Liberal Arts" was not created until the beginning of the 1900-01 academic year. In the years that followed, other colleges evolved out of that first college: Engineering in 1905, Education in 1913, and Commerce (now the Tippie College of Business) in 1921. In fall 2001, The College of Liberal Arts became "The College of Liberal Arts and Sciences," a name that encompasses the breadth of the College's teaching and research.

In 1900-01, the College had about 600 students in its four "courses of study," and a faculty consisting of only 28 professors and assistant professors. Today, more than 16,500 undergraduates are enrolled every year. Over 90 percent of all UI undergraduates begin their studies in the College of Liberal Arts and Sciences, and we award more than 70 percent of the University's undergraduate degrees. Our students choose to major in one—or more—of nearly 65 different programs leading to a B.A., B.L.S., B.S., B.M., or B.F.A. degree. Many of our students add minors and certificates to their degrees, further expanding their knowledge and skills.

Almost 700 tenured and tenure-track faculty members form more than three dozen separate departments and work together in numerous interdisciplinary programs to provide research, teaching and service to our students, the state, and the world. Faculty members from every area of the College have developed national and international reputations for the quality of their research and creative work. Every year, members of our faculty are recognized by national and international foundations, earning Fulbright, Guggenheim, National Endowment for the Arts, National Institutes of Health, and National Science Foundation fellowships and other awards. They receive recognition and awards from disciplinary organizations as well. Here on campus, CLAS faculty members routinely win University-wide teaching awards as well as other recognition of their teaching and scholarship.

Our students are also recognized for their achievements. Every year, more than 200 College of Liberal Arts and Sciences students graduate "with honors" in their major. Even more graduate "with distinction," "with high distinction," or "with highest distinction." Our students participate in departmental honors societies, and in national honor societies including Phi Beta Kappa, Mortar Board, and Omicron Delta Kappa. We are pleased to recognize student achievement in other ways, too. Each year, the College provides many scholarships recognizing student achievement. We also provide research funding to undergraduates, including the Dewey Stuit Fund in Liberal Arts & Sciences and the John and Elsie Mae Ferentz Undergraduate Fellow-

ships for Research, which provide support for undergraduate travel, research, and mentoring projects.

The College collaborates with other University units to foster scholarship, teaching, and service. We work with every one of the other colleges, offering joint programs and course work, and providing students opportunities for collaborative research and other learning activities. We support and are supported by the Pomerantz Career Center in providing internships before graduation and career guidance after graduation. We are grateful to the many alumni who continue to support the College with their time and energy and who have helped to provide funding to create opportunities and scholarships for our students.

The College of Liberal Arts and Sciences is proud of our history and our current endeavors, remaining dedicated to the mission of the College: to advance scholarly and creative endeavor through leading-edge research and artistic production; to use this research and creativity to enhance undergraduate, graduate, and professional education, health care, and other services provided to the people of Iowa, the nation, and the world; and to conduct these activities in a culturally diverse, humane, technologically advanced and increasingly global environment.

ROY J. AND LUCILLE A. CARVER COLLEGE OF MEDICINE

The University of Iowa Carver College of Medicine is a cornerstone of Iowa's only comprehensive academic medical center that includes UI Hospitals and Clinics and UI Physicians, the state's largest multi-specialty group practice. With an emphasis on scholarship, humanism, and respect, students in the College acquire the knowledge and skills necessary to manage rapidly changing advances in medical science and technology and also serve as advocates for their patients, their profession, and their communities.

The College's Doctor of Medicine (M.D.) curriculum is based on core values of innovation, integration, and individualization. Three strands of learning—Mechanisms of Health and Disease, Medicine and Society, and Clinical and Professional Skills—are interwoven to ensure the integration and revisiting of material across the four years of medical education. Distinction tracks are available to students interested in medical humanities, research, service, and teaching.

The Medical Scientist Training Program provides education for both the M.D. and Ph.D. degrees. Combined degree programs are available in partnership with the Tippie College of Business and the Colleges of Law and Public Health. The College offers graduate programs in Physical Therapy, Physi-

cian Assistant Studies, and Medical Education. Bachelor's degree programs conferred by the College include Clinical Laboratory Sciences, Nuclear Medicine Technology, and Radiation Sciences.

UI Carver College of Medicine faculty provide instruction to more than 5,000 students from the UI Graduate College, the Colleges of Dentistry, Nursing, Pharmacy, and Public Health, and the life science areas of the College of Liberal Arts and Sciences. Faculty members also instruct more than 700 physicians in residency and fellowship training in all the medical and surgical specialties.

Community-based medical education is available through six regional medical education centers across Iowa. The College administers a community-based primary care clerkship for third-year medical students as well as a job-shadowing program for first-year students. The College also coordinates the UI-Affiliated Family Practice Training Network—eight family medicine residency programs located in seven Iowa communities—as well as a visiting professor program in which faculty members lead seminars and participate in educational activities at the community-based sites.

Research is a hallmark of the UI Carver College of Medicine. Faculty members are recognized as leaders in the areas of bioinformatics and computational biology, biomedical imaging, cancer, cardiovascular disease, cystic fibrosis, diabetes, hearing loss, macular degeneration and other blinding eye diseases, muscular dystrophy, neurosciences, and orthopedics.

The College's research enterprise received \$223.9 million in external funding in fiscal year 2015, which places the College 11th nationally among public institutions. Much of the biomedical research at Iowa is interdisciplinary, and collaborations are fostered and coordinated through more than 30 major research centers, institutes, and programs.

COLLEGE OF NURSING

The University of Iowa College of Nursing has offered basic nursing education since the turn of the 20th century and baccalaureate and master's degree programs for more than 50 years. A Ph.D. program in nursing began in 1988. The College is an integral part of the health sciences campus, sharing in and contributing to teaching, research, and patient-care resources, which have earned international recognition.

The Bachelor of Science in Nursing (B.S.N. degree) at the University of Iowa builds on natural and behavioral sciences, and integrates liberal arts and professional courses into a cohesive program. Clinical experiences involve working with populations in both community and hospital settings. The University of Iowa College of Nursing offers undergraduate programs for both pre-licensure and post-licensure students

looking to pursue a B.S.N.

The Master of Science—Clinical Nurse Leader (CNL) role is designed for nurses who want to stay at the bedside, lead teams, coordinate and improve care and help elevate professional practice standards. Nurses with a B.S.N. and approximately two years of experience who are seen as strong clinicians are good candidates for the CNL program. Excellent communication skills, ability to negotiate, curiosity and desire to address systems problems are essential for CNLs. Nurses who like to be leaders and are comfortable with ambiguity do well as CNLs.

The Doctor of Nursing Practice (D.N.P.) degree is designed to prepare clinicians with the knowledge and skills to provide the highest standard of care for individuals, families and communities and navigate today's complex health care systems. Nurse managers and administrators will gain the knowledge and skills necessary to develop, implement and monitor programs of care and policies in complex organizations. You can enter the D.N.P. post-B.S.N. or post-M.S.N.

The Doctor of Philosophy in Nursing (Ph.D.) program prepares scholars to conduct research in nursing, to extend the knowledge base relevant to nursing, and to collaborate in interdisciplinary research with other scholars. Study requires expertise in nursing and developing competence in research that relates to the practice of nursing and delivery of health care. Graduates of the program are prepared for careers as researchers, faculty, consultants, and as leaders within the profession, in health policy making agencies, and within the health care system.

COLLEGE OF PHARMACY

The College was originated by a forward-thinking group of pharmacists from the Iowa Pharmaceutical Association in 1885 and was one of the first Colleges of Pharmacy in the nation associated with a major public university. This nationally ranked program is located in the Health Sciences Center on the west side of the University's main campus in close proximity to the Colleges of Medicine, Nursing, Dentistry, Public Health and The University of Iowa Hospitals and Clinics.

The pharmacy profession is concerned with a wide variety of activities, from developing new drug products to dispensing medicines to patients. An important concept in the delivery of pharmacy care is medical therapy management—the responsible provision of drug therapy to achieve defined outcomes that improve patients' quality of life. These outcomes include preventing, arresting, or curing a disease, and/or eliminating or reducing its symptoms. In order to carry out these responsibilities, pharmacists

specialize in the science of drugs and drug information.

Iowa's pharmacy students study with professors who are pioneering the development of new drugs to solve chronic health problems and exploring means to improve the safety and effectiveness of current drugs. The College is also home to a drug research and manufacturing area where experimental drugs are produced for testing and licensing by manufacturers before being introduced worldwide.

The Doctor of Pharmacy (Pharm.D.) degree combines didactic course work with extensive pharmacy practice experience to prepare a pharmacist for an expanded role in monitoring, evaluating, and optimizing drug therapy in hospitalized and ambulatory patients. Students graduating from the college enjoy a wide variety of professional opportunities in community pharmacy, hospital pharmacy, government, and the pharmaceutical industry.

The College also has an extensive research and graduate education program leading to both master's and doctoral degrees in medicinal and natural products chemistry, pharmaceuticals, clinical pharmaceutical sciences, and pharmaceutical socioeconomics. Graduates of these programs are employed by the pharmaceutical industry, government and also assume academic positions. The College also offers joint degree programs with the College of Public Health and the Masters of Business Administration Program.

COLLEGE OF PUBLIC HEALTH

Formed in 1999, the College of Public Health builds on the University's long tradition of public health training, research, and service—including programs targeting agricultural safety and health, birth defects and cancer monitoring, health services planning, and women's health.

Public health is an interdisciplinary field made up of a wide range of professionals, including physicians, nurses, dentists, pharmacists, social workers, nutritionists, environmental scientists, health educators, biostatisticians, epidemiologists, health service administrators, and many others. What unites public health practitioners is the shared goal of preventing disease and injury and promoting healthy practices among entire populations.

The College of Public Health includes the Departments of Biostatistics, Community and Behavioral Health, Epidemiology, Health Management and Policy, and Occupational and Environmental Health. The college offers the undergraduate Bachelor of Arts in Public Health and the Bachelor of Science in Public Health. Four graduate degrees are offered: Master of Health Administration, Master of Public Health, Master of

Science, and Doctor of Philosophy. Several public health combined-degree options are available with other UI colleges, including Business, Law, Liberal Arts and Sciences, Medicine, and Pharmacy, as well as the College of Veterinary Medicine at Iowa State University. An interdisciplinary program in human toxicology is available as is an occupational medicine residency program. There are also opportunities for distance learning and certificate programs in public health. The Undergrad to Grad Program allows incoming undergraduates to earn both a bachelor's degree and a master's degree in five years. More than 25 research centers and institutes based in the college provide focused research on critical public health topics and deliver outreach and service activities in every Iowa county and beyond. Approximately 400 degree seeking students are enrolled in the College of Public Health. The college is accredited by the Council on Education for Public Health (CEPH), the accrediting body for the nation's schools and colleges of public health.

UNIVERSITY COLLEGE

The University College, created in 2005, has two degree programs, the Bachelor of Applied Studies (B.A.S.) and the Bachelor of Liberal Studies (B.L.S.), and several certificate programs. The B.A.S. is designed for students who have earned an Associate's degree, have a minimum of 60 hours of transferable credit, and wish to complete a four-year degree. The B.L.S. is intended for students who have completed at least 24 hours of transferable credit (or have earned an Associate's degree), and wish to pursue a four year degree that is focused in one of three areas: health and human studies; organizational studies, or global studies. Students complete a general education program that emphasizes critical thinking, data literacy, global perspectives, and leadership. Both degrees draw on courses from other undergraduate colleges, including the College of Liberal Arts and Sciences and the Tippie College of Business. Students in University College are eligible to graduate with honors.

GRADUATION HONORS

High scholastic achievement is recognized at graduation time in two ways: graduation with distinction, based on grades only, and graduation with honors in a particular field, based upon both grades and the completion of special work as outlined by the college and the major department.

Graduation with Distinction. The Office of the Registrar certifies to the deans of the colleges the names of students eligible to graduate with distinction. To be eligible for consideration, the graduate must complete the final 60 semester hours in residence in the graduating college, at least 45 semester hours of which must have been completed prior to the final semester of registration. The grade-point average upon which distinction is determined includes all work undertaken prior to the opening of the final session.

Graduates with distinction in the colleges of Liberal Arts and Sciences, Engineering, and Business rank as follows:

With Highest Distinction	Highest 2%
With High Distinction	Next Highest 3%
With Distinction	Next Highest 5%

In the undergraduate programs in the College of Medicine, distinction recognition is determined as follows:

With Highest Distinction	3.85 GPA or above
With High Distinction	3.75-3.84 GPA
With Distinction	3.65-3.74 GPA

In the College of Nursing, distinction recognition is determined as follows:

With Highest Distinction	3.90 GPA or above
With High Distinction	3.80-3.89 GPA
With Distinction	3.75-3.79 GPA

In the College of Pharmacy, distinction recognition is determined as follows:

With Highest Distinction	4.0 GPA or above
With High Distinction	3.75-3.99 GPA
With Distinction	3.50-3.74 GPA

Distinction is designated by gold stars worn on the left sleeve. Three stars indicate graduation *with highest distinction*; two, *with high distinction*; and one, *with distinction*.

Graduation with Honors Degrees. Students may graduate with both departmental Honors and University Honors. Departmental Honors recognizes excellence in a student's major area(s) of study while University Honors recognizes a breadth of academic accomplishment. Departmental Honors requires additional work by the student, commonly a scholarly project or creative piece completed under the mentorship of a single faculty member, that goes beyond the regular requirements for the major. University Honors requires the completion of a flexible curriculum of Honors course work and experiences, such as research, study abroad, or internships, woven into the student's undergraduate education. Liberal Arts and Sciences and Education candidates who are graduating with Departmental Honors wear white cordons draped over the shoulders and University Honors is recognized by a medal on a black and gold lanyard worn over their necks.

ACADEMIC COSTUME

The history of academic dress reaches far back into the early days of the oldest universities. A statute of 1321 required that all “Doctors, Licentiates, and Bachelors” of the University of Coimbra wear gowns. It is still a vexing question whether academic dress finds its sources chiefly in ecclesiastical or in secular dress. Gowns may have been necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until they were superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as “academic.”

Over the many years of development, a great diversity of academic apparel made its appearance. When American colleges and universities desired to adopt some suitable system of academic apparel more than a century ago, it seemed to them best to agree on some definite system which all might follow. Accordingly, there was held on May 16, 1895 at Columbia University a conference of representatives of the governing boards of various interested institutions. The outgrowth of that meeting was the establishment of “The Academic Costume Code.” The code has been revised several times since its initial approval. The most recent update was in 1986. In nearly every instance of the many hundreds of colleges and universities of the United States which have adopted academic dress, the standards thus prescribed have been adopted and followed, either wholly or at least in the main.

The academic costume code recognizes three styles of gowns: a bachelor’s gown, a master’s gown, and a doctor’s gown. In conjunction with its centennial celebration in May 2000, the Graduate College inaugurated a new doctor’s gown. The differences in these gowns are mainly in the cut and shape of the sleeves and in the trimming. Hoods are also recognized for each of the above degrees. They vary in shape, size, and length, the larger and more elaborate designating the doctoral level. The shell of the hood matches the black material of the gown, and is lined with the color or colors of the institution conferring the degree—in the instance of The University of Iowa, old gold. The velvet border of the hood is of a color indicative of the field of learning to which the degree pertains. An abbreviated list of these colors as they apply to The University of Iowa follows:

Arts and Letters, white
Business and Accounting, sapphire blue
Dentistry, lilac
Engineering, orange
Law, purple
Medicine, green
Music, pink
Nursing, apricot
Pharmacy, olive green
Philosophy, dark blue
Public Health, salmon
Science, golden yellow

The Oxford cap, proper for all degrees, is worn both indoors and outdoors with academic costume. The tassel, worn over the left eye, is also symbolic of the degree to be conferred on the wearer and conforms to the code colors for hood trimming.

Practice at The University of Iowa varies slightly from that established by the code. Candidates for degrees may be identified with the *colleges* from which they are to secure their degrees by the color of the tassels they wear. Colleges are designated by tassel colors as follows:

Business, sapphire blue
Dentistry, lilac
Engineering, orange
Graduate, black
Law, purple
Liberal Arts and Sciences and University College, white
Medicine, green
Nursing, apricot
Pharmacy, olive green

Only candidates for the doctoral-level degrees (Doctor of Philosophy, Doctor of Audiology, Doctor of Musical Arts, Doctor of Nursing Practice, Doctor of Physical Therapy, Doctor of Dental Surgery, Doctor of Medicine, Juris Doctor, and Doctor of Pharmacy) wear hoods. The velvet trim on the hoods for these degrees conforms to the colors set forth in the intercollegiate code, and, with the exception of the Doctor of Philosophy, the Doctor of Musical Arts, the Doctor of Audiology and the Doctor of Physical Therapy hoods, are the same color as the tassel. The Doctor of Audiology and the Doctor of Physical Therapy are trimmed in teal. The Doctor of Philosophy hood is trimmed in blue, the color appropriate to philosophy, and the Doctor of Musical Arts hood is trimmed in pink, the color for music. In all four cases, the tassel worn is black.

PRESIDENTIAL EMBLEM

The jeweled gold medallion worn by The University of Iowa president during commencement ceremonies and other formal academic events on the campus was designed as an emblem of the University’s presidency by a UI graduate student in the School of Art and Art History, Karen Cantine.

Featuring an abstract UI motif in the University’s colors—old gold and black—the emblem was first used in the investiture of Howard R. Bowen as the University’s fourteenth president during inauguration ceremonies on December 5, 1964.

Four and one-half inches in diameter, the medallion is worn on a gold chain also designed and made by Mrs. Cantine. Fashioning the emblem from a sheet of 14-carat yellow gold, Mrs. Cantine outlined in black enamel eight UI motifs in raised gold letters in areas radiating from a large topaz in the center.

The central jewel is almost an inch in diameter. A slightly smaller topaz is set in the link which attaches the emblem to the chain on which it is worn, and eight small topazes are set around the edge of the emblem, one being placed at the end of each “spoke” which bears a UI motif.

Designing and making the presidential emblem was part of Mrs. Cantine’s work for a Master of Arts degree in metalwork and jewelry.

The University of Iowa prohibits discrimination in employment, educational programs, and activities on the basis of race, national origin, color, creed, religion, sex, age, disability, veteran status, sexual orientation, gender identity, or associational preference. The University also affirms its commitment to providing equal opportunities and equal access to University facilities. For additional information contact the Office of Equal Opportunity and Diversity, 319-335-0705.
