- ENVS:3050 Geology of Iowa** **2 s.h.**  
Exploration of geologic history responsible for landscape, soil, rocks, fossils, water, and natural resources of Iowa; background of Iowa's natural history; preparation for K-12 educators to deliver earth and environmental science content in their own classrooms, utilizing natural landscapes in Iowa. Same as EES:3050.
- ENVS:3051 Geology of Iowa Field Trip** **1 s.h.**  
Exploration of the geologic history responsible for landscape, soil, rocks, fossils, water, and natural resources of Iowa; field-based examples of Iowa's natural history; preparation for K-12 educators to deliver earth and environmental science content in their own classrooms utilizing the natural landscapes in Iowa. Recommendations: EES:3050. Same as EES:3051.
- ENVS:3095 Field Ecology** **4 s.h.**  
Analysis and interpretation of patterns and underlying physical and biotic basis for regional and local distributions of plants and animals of eastern Iowa; field observation, sampling, and laboratory analysis; conduction of several field research projects requiring collection, statistical analysis, and interpretation of data in short reports; field-oriented course. Recommendations: advanced undergraduate standing or graduate standing in ecology, environmental sciences, or geoscience.
- ENVS:3096 Winter Ecology** **2 s.h.**  
How seasons occur, thermoregulation, microhabitats, what animals are active, and winter plant identification; local area fieldwork.
- ENVS:3097 Introduction to Bird Study** **2 s.h.**  
Basic identification skills, bird banding, and bird ecology; Hageboeck Hall of Birds at the UI Museum of Natural History; local field study.
- ENVS:3100 Earth and Planetary Remote Sensing** **4 s.h.**  
Remote sensing of the earth's surface from aircraft, satellites; aerial photograph interpretation; remote sensing systems, methods, data analysis using electromagnetic spectrum and digital processing techniques, including visible, infrared, microwave radiation; remote sensing applied to geologic and environmental problems. Prerequisites: EES:1030 or EES:1050 or EES:1080 or EES:1085. Same as EES:3100.
- ENVS:3110 Chemical Evolution of the Oceans** **3 s.h.**  
Investigation of various physicochemical states oceans have assumed over the past four billion years of Earth history; use of isotope geochemistry as a proxy for ancient ocean conditions; focus on integrated Earth system science, paleoceanographic and paleoclimate modeling, role of chemical stratigraphy in deciphering past climate states of ocean-atmosphere system; relationship between chemical changes in ocean/atmosphere and biological systems of the Earth. Same as EES:3110.
- ENVS:3230 Special Topics** **0-4 s.h.**  
Contemporary issues in environmental science.
- ENVS:4001 Fourth-Year Field Trip for Earth and Environmental Sciences** **2 s.h.**  
Application of core course learning to real-world examples; students develop a broader understanding of interrelated aspects of earth and environmental sciences as truly integrated scientific endeavors; field trip to Big Bend National Park to highlight a wide range of geoscience and environmental science studies and provide students an opportunity to apply all aspects of their training to the amazing geologic landscape of southwest Texas; capstone field experience for students heading into their senior year. Prerequisites: EES:2831. Requirements: geoscience or environmental sciences major, and senior standing. Same as EES:4001.
- ENVS:4700 Evolution of Ecosystems** **3 s.h.**  
Evolutionary history of terrestrial and marine ecosystems; ecological processes from population to ecosystem levels; community assembly, trophic levels, networks, biodiversity dynamics; practical aspects of paleoecological data collection, statistical analysis, modeling. Requirements: two courses in geoscience, biology, environmental sciences, anthropology, or geography. Same as EES:4700.

# Environmental Sciences, B.A.

## Learning Outcomes

Environmental Sciences Program students will:

- synthesize scientific knowledge and methods across disciplines,
- comprehend and evaluate primary findings in published scientific articles,
- gain experience conducting independent research and/or reviewing scientific areas of interest, and
- effectively communicate scientific findings in written and/or oral form.

## Requirements

The Bachelor of Arts with a major in environmental sciences requires a minimum of 120 s.h., including a minimum of 63 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]; some courses required for the major in environmental sciences may be used to satisfy GE CLAS Core requirements.

Students complete requirements in four areas: the science and mathematics foundation, the environmental sciences foundation, environmental sciences field study, and environmental sciences track courses.

The science and mathematics foundation develops fundamental skills and comprehension in biology, chemistry, geology, mathematics, and statistics. The environmental sciences foundation includes an introductory course in environmental science and additional courses that focus on the geomorphic and environmental processes that shape the Earth's surface, the ecological factors that influence the distribution and abundance of organisms, and a choice of one course that deals with remote sensing techniques or with the use of geographic information technologies. The environmental sciences field study gives students hands-on experience with methods of analysis and interpretation of natural systems/organisms.

Each of the program's four tracks focuses on areas of specialization within environmental sciences:

- biosciences (green) track—biological systems and ecological approaches;
- chemical sciences (yellow) track—environmental systems and chemistry;
- geosciences (brown) track—earth materials and surficial geologic processes; and
- hydrosiences (blue) track—hydrogeology and hydrogeologic systems, and water chemistry.

Students select one course from each of the four tracks in order to develop breadth of understanding and skill in these areas.

The B.A. in environmental sciences requires the following coursework.

Code	Title	Hours
	Science and Mathematics Foundation Courses	27
	Environmental Sciences Foundation Courses	15-16

Environmental Sciences Field Study Course	3-4
Environmental Sciences Policy Courses	6
Environmental Sciences Track Courses	12-15
<b>Total Hours</b>	<b>63-68</b>

## Science and Mathematics Foundation

Students must complete at least 27 s.h. of coursework, as follows.

Code	Title	Hours
All of these:		
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
EES:1050	Introduction to Geology	4
One of these:		
MATH:1460	Calculus for the Biological Sciences	4
MATH:1850	Calculus I	4
One of these:		
CHEM:2021	Fundamentals of Chemical Measurements	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4200/ IGPI:4200	Statistical Methods and Computing	3

## Environmental Sciences Foundation

Students must complete at least 15 s.h. of coursework, as follows.

Code	Title	Hours
All of these:		
ENVS:1085/ EES:1085	Fundamentals of Environmental Science	4
ENVS:2010/ EES:2010/ GEOG:2010	Interdisciplinary Environmental Seminar	1
ENVS:2673/ BIOL:2673	Ecology	3
ENVS:3010/ EES:3010/ GEOG:3003	Interdisciplinary Environmental Seminar	1
ENVS:3020/ EES:3020/ GEOG:3020	Earth Surface Processes	3
One of these:		
ENVS:3100/ EES:3100	Earth and Planetary Remote Sensing	4
GEOG:1050	Foundations of GIS	4
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3

## Environmental Sciences Field Study

Students must complete at least 3 s.h. from the following.

Code	Title	Hours
ENVS:3095	Field Ecology	4
ENVS:3096	Winter Ecology	2
ENVS:3097	Introduction to Bird Study	2
ENVS:3230	Special Topics (must include field component)	1-4
EES:2831	Geologic Field Methods	3
EES:4680	Field Methods in Hydrologic Science	3
GEOG:4010	Field Methods in Physical Geography	3
IALL:3103	Aquatic Ecology	4
IALL:3117	Ecology and Systematics of Diatoms	2,4
IALL:3126	Ornithology	4
Other Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor		

## Environmental Sciences Policy

Students must complete at least 6 s.h. from the following list.

Code	Title	Hours
ENVS:1115/ EES:1115/ GEOG:1115/ HIST:1115	The History and Science of Oil	3
BIOL:1260	Plants and Human Affairs	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
GEOG:1070	Contemporary Environmental Issues	3
GEOG:2910	The Global Economy	3
GEOG:2930	Water Resources	3
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3760/ GHS:3760	Hazards and Society	3
GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3

## Environmental Sciences Track Courses

Students must complete one course from each of the following four lists (at least 12 s.h.). They may not use any course to satisfy more than one requirement.

## Biosciences (Green) Track

Code	Title	Hours
BIOL:1261	Introduction to Botany	4
BIOL:2246	Entomology Lab	4
BIOL:4373/ IGPI:4373	Molecular Evolution: Genes, Genomes, and Organisms	3
EES:3030/ ENVS:3030	Conservation Paleobiology	4
EES:3070	Marine Ecosystems and Conservation	3
EES:3220	Evolution of the Vertebrates	4
GEOG:2374/ BIOL:2374	Biogeography	3
GEOG:2950	Environmental Conservation	3
GEOG:3315	Ecosystem Ecology	3
GEOG:3350	Urban Ecology	3
IALL:3117	Ecology and Systematics of Diatoms	4

## Chemical Sciences (Yellow) Track

Code	Title	Hours
BIOC:3110	Biochemistry	3
CEE:5440	Foundations of Environmental Chemistry and Microbiology	3
CHEM:2210	Organic Chemistry I	3
CHEM:3120	Analytical Chemistry II	3
CHEM:3250	Inorganic Chemistry	3
CHEM:4431	Physical Chemistry I	3
CHEM:4873	Atmospheric and Environmental Chemistry	3

## Geosciences (Brown) Track

Code	Title	Hours
ENVS:3110/ EES:3110	Chemical Evolution of the Oceans	3
EES:2200/ ENVS:2200	Historical Geology	4
EES:2310/ GEOG:2310	Introduction to Climatology	3
EES:2410	Mineralogy	4
EES:3070	Marine Ecosystems and Conservation	3
EES:3300	Sedimentary Geology	4
EES:3350	Active Tectonics	3
EES:3360/ GEOG:3360	Soil Genesis and Geomorphology	3
EES:3380/CEE:3328	Fluvial Geomorphology	3
EES:3390	Integrated Watershed Analysis	3
EES:3500	Igneous and Metamorphic Petrology	4
EES:3840	Structural Geology	4
EES:4490	Elements of Geochemistry	3
EES:4520	Isotope Geochemistry	3
EES:4720	Paleoclimatology	3

EES:4790	Applied Environmental Geology	3
EES:4800	Global Geophysics	3

## Hydrosciences (Blue) Track

Code	Title	Hours
ENVS:3110/ EES:3110	Chemical Evolution of the Oceans	3
CEE:3371	Principles of Hydraulics and Hydrology	3
EES:3300	Sedimentary Geology	4
EES:3350	Active Tectonics	3
EES:3390	Integrated Watershed Analysis	3
EES:4490	Elements of Geochemistry	3
EES:4630	Hydrogeology	4
EES:4640	Contaminant Hydrogeology	3
EES:4790	Applied Environmental Geology	3
EES:4800	Global Geophysics	3
GEOG:3320/ EES:3260	Wetlands: Function, Geography, and Management	3
GEOG:4470	Ecological Climatology	3

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

### B.A./M.A.T. (Science Education Subprogram)

B.A. students who are interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the combined program enables students to earn a B.A. and M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see "B.A./M.A.T." under Science Education [p. 1444] in the Master of Arts in Teaching (College of Education) section of the Catalog. Interested students should consult an advisor.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors study provides students with opportunities

to engage in independent research under the guidance of a faculty sponsor chosen from affiliated faculty of the Environmental Sciences Program. The program draws faculty members from the Departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences. Honors students learn how to write the results of their research in the format of a scientific paper, and they have the experience of formally presenting their research as either a short seminar or a poster.

The College of Liberal Arts and Sciences requires that students who earn honors in the major maintain a minimum University of Iowa cumulative g.p.a. of 3.33. Additional grade-point average standards and requirements are set by each department or program.

Students must fulfill the following requirements:

- complete a B.A. with a major in environmental sciences with a g.p.a. of at least 3.33 in all work for the major;
- submit a research proposal to the honors director within two months of the beginning of the semester in which the research is initiated;
- complete a minimum of 6 s.h. of honors research taken over two semesters in BIOL:4999 Honors Research in Biology, CHEM:3994 Undergraduate Research, EES:3190 Directed Study, or GEOG:3992 Undergraduate Research, depending on the departmental affiliation of the faculty sponsor;
- prepare a thesis presenting the research in the format of a scientific paper with abstract, introduction, methods, results, discussion, and conclusions; the thesis must include a title page and an abstract formatted according to the specifications of the honors program and must be submitted to the honors director at least one week before the honors program deadline for submission; and
- present either a short seminar or a poster about the research at a professional meeting and/or at the University of Iowa.

Beginning in their sophomore or junior year, students should identify potential faculty sponsors by conducting a web-based survey of the research interests of the program's affiliated faculty. The student should contact potential sponsors to determine who would be willing to sponsor an honors student and what research projects the student might undertake. Students who choose a sponsor whose faculty appointment is not in the College of Liberal Arts and Sciences (CLAS) must choose a cosponsor who has a faculty appointment in CLAS.

After the student has identified a sponsor and the two have agreed on a project, the sponsor guides the student in the preparation of a research proposal that identifies the background, goals, methods, and significance of the research project. The proposal serves as the foundation of the honors thesis, which the student prepares under the sponsor's supervision upon completion of the research. Once the thesis is nearing completion or is completed, the student presents a short seminar or a poster detailing the purpose of the research.

For examples of honors projects in environmental sciences, see Honors Projects on the Environmental Sciences Program website.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental sciences major.

### Career Advancement

Graduates are prepared for careers in conservation, environmental assessment, hazardous waste management, park inspection and compliance, or pollution control and monitoring.

The undergraduate degree program also prepares students for graduate study in disciplines such as biology, chemistry, ecosystem sciences, environmental engineering, environmental law, environmental science, environmental sustainability, geoscience, hydrologic sciences, natural resource management, remote sensing and landscape modeling, renewable energy, and urban and regional planning.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

#### Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the environmental sciences major. Students work with their advisors on individual graduation plans.

#### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

#### Environmental Sciences, B.A.

Course	Title	Hours
<b>First Year</b>		
<b>Fall</b>		
ENVS:1085	Fundamentals of Environmental Science <sup>a</sup>	4

<sup>g</sup>	

<b>Hours</b>	<b>13-14</b>
<b>Total Hours</b>	<b>115-129</b>

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Enrollment in chemistry courses requires completion of a placement exam.
- c Enrollment in math courses requires completion of a placement exam.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Environmental Sciences, B.S.

## Learning Outcomes

Environmental Sciences Program students will:

- synthesize scientific knowledge and methods across disciplines,
- comprehend and evaluate primary findings in published scientific articles,
- gain experience conducting independent research and/or reviewing scientific areas of interest, and
- effectively communicate scientific findings in written and/or oral form.

## Requirements

The Bachelor of Science with a major in environmental sciences requires a minimum of 120 s.h., including 76-81 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]; some courses required for the major in environmental sciences may be used to satisfy GE CLAS Core requirements.

Bachelor of Science students majoring in environmental sciences must complete requirements in three areas: the science and mathematics foundation, the environmental sciences foundation, and one of four environmental sciences tracks. During their third year of study, students are assigned a faculty advisor who specializes in their track.

The science and mathematics foundation develops fundamental skills and comprehension in biology, chemistry, geology, mathematics, and statistics. The environmental sciences foundation includes an introductory course in environmental science and additional courses that focus on remote sensing techniques, design and use of geographic information technologies, the geomorphic and environmental processes that shape the earth's surface, and ecological factors that influence the distribution and abundance of organisms.

Each of the program's four tracks focuses on areas of specialization within environmental sciences:

- biosciences (green) track—biological systems and ecological approaches;
- chemical sciences (yellow) track—environmental systems and chemistry;
- geosciences (brown) track—earth materials and surficial geologic processes; and
- hydrosciences (blue) track—hydrogeology and hydrogeologic systems, and water chemistry.

The tracks aim to prepare scientists who can tackle problems that require particular areas of expertise, and to help students develop the skills needed for future employment or graduate study.

The B.S. with a major in environmental sciences requires the following coursework.

Code	Title	Hours
	Science and Mathematics Foundation Courses	27
	Environmental Sciences Foundation Courses	16

Environmental Sciences Track Courses	33-38
<b>Total Hours</b>	<b>76-81</b>

## Science and Mathematics Foundation

Students must complete at least 27 s.h. of coursework, as follows.

Code	Title	Hours
All of these:		
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
EES:1050	Introduction to Geology	4
MATH:1850	Calculus I	4
One of these:		
CHEM:2021	Fundamentals of Chemical Measurements (must be taken by chemical sciences track students)	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4200/ IGPI:4200	Statistical Methods and Computing	3

## Environmental Sciences Foundation

Students must complete 16 s.h. of coursework, as follows.

Code	Title	Hours
All of these:		
ENVS:1085/ EES:1085	Fundamentals of Environmental Science	4
ENVS:2010/ EES:2010/ GEOG:2010	Interdisciplinary Environmental Seminar	1
ENVS:2673/ BIOL:2673	Ecology	3
ENVS:3010/ EES:3010/ GEOG:3003	Interdisciplinary Environmental Seminar	1
ENVS:3020/ EES:3020/ GEOG:3020	Earth Surface Processes	3
GEOG:1050	Foundations of GIS	4

## Environmental Sciences Track Courses

Students majoring in environmental sciences must choose one of the following four tracks. Each track includes required general sciences courses, track foundation courses, field study courses, and elective courses.

### Biosciences (Green) Track

The biosciences track provides the essential skills for entry-level positions that require a good knowledge of biotic systems and the ability to inventory biologic resources. The track's aim is to produce scientists who are capable of tackling environmental problems in which links and interactions with

life sciences are crucial and in which a substantial knowledge of biological/ecological sciences is required. The track also provides a strong foundation for graduate or professional training in disciplines such as ecology, wildlife management, and natural resource management.

Students must complete at least 33 s.h., including one field study course, as follows.

### Biosciences Track: Foundation

Code	Title	Hours
These three courses:		
BIOL:2512	Fundamental Genetics	4
BIOL:3172	Evolution	4
GEOG:2374/ BIOL:2374	Biogeography	3
At least 9 s.h. from these:		
ENVS:3100/ EES:3100	Earth and Planetary Remote Sensing	3-4
or GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	
BIOL:2246	Entomology Lab	4
BIOL:4373/ IGPI:4373	Molecular Evolution: Genes, Genomes, and Organisms	3
EES:3030/ ENVS:3030	Conservation Paleobiology	4
EES:3070	Marine Ecosystems and Conservation	3
EES:3220	Evolution of the Vertebrates	4
GEOG:2950	Environmental Conservation	3
GEOG:3315	Ecosystem Ecology	3
GEOG:3350	Urban Ecology	3
GEOG:4470	Ecological Climatology	3

Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor

### Biosciences Track: Field Study

Code	Title	Hours
At least 3 s.h. from these:		
ENVS:3095	Field Ecology	4
ENVS:3096	Winter Ecology	2
ENVS:3097	Introduction to Bird Study	2
ENVS:3230	Special Topics (must include field component)	1-4
IALL:3034	Topics in Ecology and Sustainability	2
IALL:3103	Aquatic Ecology	4
IALL:3109	Ecology and Systematics of Algae	4
IALL:3117	Ecology and Systematics of Diatoms	2,4
IALL:3122	Prairie Ecology	4
IALL:3126	Ornithology	2

Other Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor

### Biosciences Track: Electives

Code	Title	Hours
Biosciences track students must complete at least 6 s.h. of elective coursework; additional field study and foundation courses may be approved for elective credit:		
ENVS:3230	Special Topics	1-4
BIOL:1261	Introduction to Botany	4
BIOL:2663	Plant Response to the Environment	3
BIOL:3244	Animal Behavior	3
BIOL:3676	Evolution Lab	4
BIOL:3994	Introduction to Research (no more than 6 s.h. of research credit may count toward the major)	2-3
BIOL:4999	Honors Research in Biology (no more than 6 s.h. of research credit may count toward the major)	arr.
CEE:5440	Foundations of Environmental Chemistry and Microbiology	3
CHEM:2210	Organic Chemistry I	3
CHEM:3110	Analytical Chemistry I	3
CHEM:3120	Analytical Chemistry II	3
EES:2200/ ENVS:2200	Historical Geology	4
EES:3080	Introduction to Oceanography	2
EES:3110/ ENVS:3110	Chemical Evolution of the Oceans	3
EES:3210	Principles of Paleontology	3
EES:4630	Hydrogeology	4
EES:4790	Applied Environmental Geology	3
GEOG:2310/ EES:2310	Introduction to Climatology	3
GEOG:3310	Landscape Ecology	3
GEOG:3320/ EES:3260	Wetlands: Function, Geography, and Management	3
GEOG:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
STAT:6513/ PSQF:6243	Intermediate Statistical Methods	3

### Biosciences Track: Policy

Code	Title	Hours
Biosciences track students must complete one of the following courses:		
BIOL:1260	Plants and Human Affairs	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
EES:1115/ ENVS:1115/ GEOG:1115/ HIST:1115	The History and Science of Oil	3
GEOG:1070	Contemporary Environmental Issues	3

GEOG:3340	Ecosystem Services	3
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ GHS:4770	Environmental Justice	3

## Chemical Sciences (Yellow) Track

The chemical sciences track provides the essential skills for entry-level positions that require a basic understanding of chemical principles and a working knowledge of basic chemical concepts as applied in the environment. The track's aim is to produce scientists who are capable of tackling environmental problems in which chemical and molecular processes play an important role. The track also provides a strong foundation for graduate or professional training in environmental chemistry.

Students must complete at least 33 s.h. of coursework, as follows.

### Chemical Sciences Track: Foundation

Code	Title	Hours
These three courses:		
CHEM:2210	Organic Chemistry I	3
CHEM:3120	Analytical Chemistry II	3
CHEM:3250	Inorganic Chemistry	3
And 9 s.h. from this list (at least 3 s.h. must be lab hours):		
CHEM:2220	Organic Chemistry II	3
CHEM:2410	Organic Chemistry Laboratory	3
CHEM:3110	Analytical Chemistry I	3
CHEM:3440	Physical Measurements	3
CHEM:3530	Inorganic Chemistry Laboratory	3
CHEM:4430	Principles of Physical Chemistry	3
CHEM:4431	Physical Chemistry I	3
CHEM:4432	Physical Chemistry II	3
CHEM:4450	Synthesis and Measurement	3

### Chemical Sciences Track: Lab and Field Study

Code	Title	Hours
This course:		
CHEM:3430	Analytical Measurements	3

### Chemical Sciences Track: Electives

Code	Title	Hours
Chemical sciences track students must complete at least 9 s.h. of elective coursework chosen from the following lists; students may petition the chemistry department's environmental sciences advisor to use appropriate Department of Chemistry courses numbered 3000 and above as electives; additional foundation courses may be approved for elective credit:		

ENVS:3110/ EES:3110	Chemical Evolution of the Oceans	3
ENVS:3230	Special Topics (no more than 6 s.h. may count toward the major)	1-4
BIOC:3110	Biochemistry	3
CEE:4150/CBE:4420	Environmental Chemistry	3
CEE:4158/ OEH:4920	Solid and Hazardous Wastes	3
CHEM:3994	Undergraduate Research (no more than 6 s.h. of research credit may count toward the major)	1-4
CHEM:4760	Radiochemistry: Energy, Medicine, and the Environment	3
CHEM:4873	Atmospheric and Environmental Chemistry	3
EES:2200/ ENVS:2200	Historical Geology	4
EES:3100/ ENVS:3100	Earth and Planetary Remote Sensing	4
EES:4490	Elements of Geochemistry	3
EES:4520	Isotope Geochemistry	3
EES:4630	Hydrogeology	4
EES:4640	Contaminant Hydrogeology	3
EES:4790	Applied Environmental Geology	3
GEOG:2310/ EES:2310	Introduction to Climatology	3
GEOG:2950	Environmental Conservation	3
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3

### Chemical Sciences Track: Policy

Code	Title	Hours
Chemical sciences track students must complete at least one of the following courses:		
BIOL:1260	Plants and Human Affairs	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
EES:1115/ ENVS:1115/ GEOG:1115/ HIST:1115	The History and Science of Oil	3
GEOG:1070	Contemporary Environmental Issues	3
GEOG:2930	Water Resources	3
GEOG:3340	Ecosystem Services	3
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3

## Geosciences (Brown) Track

The geosciences track provides the essential skills for entry-level positions that require a basic understanding of geologic principles and a working knowledge of basic geologic concepts applied in the environmental industry. The track's aim is to produce scientists who are capable of tackling environmental problems in which earth materials and surficial geologic processes are of primary importance. The track also lays a strong foundation for graduate study in environmental geology, engineering geology, and natural hazards assessment.

Students must complete at least 38 s.h. of coursework, as follows.

### Geosciences Track: General Sciences

Code	Title	Hours
These two courses:		
MATH:1860	Calculus II	4
PHYS:1400	Basic Physics	4

Students are strongly encouraged to take additional coursework in physics

### Geosciences Track: Foundation

Code	Title	Hours
These three courses:		
EES:2410	Mineralogy	4
EES:3300	Sedimentary Geology	4
EES:4630	Hydrogeology	4
And at least 6 s.h. from these:		
EES:2200/ ENVS:2200	Historical Geology	4
EES:3360/ GEOG:3360	Soil Genesis and Geomorphology	3
EES:3500	Igneous and Metamorphic Petrology	4
EES:3840	Structural Geology	4
EES:4790	Applied Environmental Geology	3

### Geosciences Track: Field Study

Code	Title	Hours
One of these:		
EES:2831	Geologic Field Methods	3
EES:4680	Field Methods in Hydrologic Science	3
EES:4832	Geologic Field Analysis	3
GEOG:4010	Field Methods in Physical Geography	3

### Geosciences Track: Electives

Code	Title	Hours
Geosciences track students must complete at least 6 s.h. of elective coursework chosen from the following list; additional field study or foundation courses may be approved for elective credit:		
ENVS:3100/ EES:3100	Earth and Planetary Remote Sensing	4
ENVS:3110/ EES:3110	Chemical Evolution of the Oceans	3
ENVS:3230	Special Topics	1-4

CEE:4158/ OEH:4920	Solid and Hazardous Wastes	3
EES:1290	Energy and the Environment	3
EES:3030/ ENVS:3030	Conservation Paleobiology	4
EES:3070	Marine Ecosystems and Conservation	3
EES:3080	Introduction to Oceanography	2
EES:3190	Directed Study (no more than 6 s.h. may count toward the major)	arr.
EES:3350	Active Tectonics	3
EES:3380/CEE:3328	Fluvial Geomorphology	3
EES:3390	Integrated Watershed Analysis	3
EES:3770	Global Stratigraphy	3
EES:4490	Elements of Geochemistry	3
EES:4520	Isotope Geochemistry	3
EES:4630	Hydrogeology	4
EES:4640	Contaminant Hydrogeology	3
EES:4720	Paleoclimatology	3
EES:4800	Global Geophysics	3
EES:4820	Tectonics and Basin Analysis	3
GEOG:2310/ EES:2310	Introduction to Climatology	3
GEOG:2950	Environmental Conservation	3
GEOG:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3

### Geosciences Track: Policy

Code	Title	Hours
Geosciences track students must complete at least one of the following courses:		
ENVS:1115/ EES:1115/ GEOG:1115/ HIST:1115	The History and Science of Oil	3
BIOL:1260	Plants and Human Affairs	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
GEOG:1070	Contemporary Environmental Issues	3
GEOG:3340	Ecosystem Services	3
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3760/ GHS:3760	Hazards and Society	3
GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3

### Hydrosciences (Blue) Track

The hydrosciences track provides the essential skills for entry-level positions that require a basic understanding of geologic

principles and a working knowledge of hydrogeology and hydrogeochemistry. The track's aim is to produce scientists who are capable of tackling environmental problems that emphasize hydrogeologic systems and for which substantial knowledge of hydrogeology and water chemistry are essential. The track also lays a strong foundation for graduate education in hydrogeology, hydrology, geochemistry, and aqueous chemistry.

Students must complete at least 37 s.h. of coursework, as follows.

### Hydrosciences Track: General Sciences

Code	Title	Hours
These three courses:		
MATH:1860	Calculus II	4
PHYS:1511	College Physics I	4
PHYS:1512	College Physics II	4

### Hydrosciences Track: Foundation

Code	Title	Hours
These two courses:		
EES:4630	Hydrogeology	4
EES:4790	Applied Environmental Geology	3

And 6 s.h. from these:

ENVS:3110/ EES:3110	Chemical Evolution of the Oceans	3
EES:3380/CEE:3328	Fluvial Geomorphology	3
EES:3390	Integrated Watershed Analysis	3
EES:4490	Elements of Geochemistry	3
EES:4640	Contaminant Hydrogeology	3
EES:4800	Global Geophysics	3

### Hydrosciences Track: Field Study

Code	Title	Hours
This course:		
EES:4680	Field Methods in Hydrologic Science	3

### Hydrosciences Track: Electives

Code	Title	Hours
Hydrosciences track students must complete at least 6 s.h. of elective coursework chosen from the following list; additional field study and foundation courses may be approved for elective credit:		
ENVS:3100/ EES:3100	Earth and Planetary Remote Sensing	4
ENVS:3230	Special Topics	1-4
CEE:3371	Principles of Hydraulics and Hydrology	3
CEE:5440	Foundations of Environmental Chemistry and Microbiology	3
EES:2200/ ENVS:2200	Historical Geology	4
EES:3080	Introduction to Oceanography	2

EES:3190	Directed Study (no more than 6 s.h. may count toward the major)	arr.
EES:3300	Sedimentary Geology	4
EES:3350	Active Tectonics	3
EES:3360/ GEOG:3360	Soil Genesis and Geomorphology	3
EES:4660/CEE:4104	Groundwater Modeling	3
EES:4800	Global Geophysics	3
GEOG:2310/ EES:2310	Introduction to Climatology	3
GEOG:2950	Environmental Conservation	3
GEOG:3320/ EES:3260	Wetlands: Function, Geography, and Management	3
GEOG:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
GEOG:4470	Ecological Climatology	3

### Hydrosciences Track: Policy

Code	Title	Hours
Hydrosciences track students must complete at least one of the following courses:		
ENVS:1115/ EES:1115/ GEOG:1115/ HIST:1115	The History and Science of Oil	3
BIOL:1260	Plants and Human Affairs	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
GEOG:1070	Contemporary Environmental Issues	3
GEOG:2930	Water Resources	3
GEOG:3340	Ecosystem Services	3
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3

### Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors study provides students with opportunities to engage in independent research under the guidance of a faculty sponsor chosen from affiliated faculty of the Environmental Sciences Program. The program draws faculty members from the Departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences. Honors students learn how to write the results of their research in the format of a scientific paper, and they have the experience of formally presenting their research as either a short seminar or a poster.

The College of Liberal Arts and Sciences requires that students who earn honors in the major maintain a minimum University of Iowa cumulative g.p.a. of 3.33. Additional grade-point average standards and requirements are set by each department or program.

Students must fulfill the following requirements:

- complete a B.S. with a major in environmental sciences with a g.p.a. of at least 3.33 in all work for the major;
- submit a research proposal to the honors director within two months of the beginning of the semester in which the research is initiated;
- complete a minimum of 6 s.h. of honors research taken over two semesters in BIOL:4999 Honors Research in Biology, CHEM:3994 Undergraduate Research, EES:3190 Directed Study, or GEOG:3992 Undergraduate Research, depending on the departmental affiliation of the faculty sponsor;
- prepare a thesis presenting the research in the format of a scientific paper with abstract, introduction, methods, results, discussion, and conclusions; the thesis must include a title page and an abstract formatted according to the specifications of the honors program and must be submitted to the honors director at least one week before the honors program deadline for submission; and
- present either a short seminar or a poster about the research at a professional meeting and/or at the University of Iowa.

Beginning in their sophomore or junior year, students should identify potential faculty sponsors by conducting a web-based survey of the research interests of the program's affiliated faculty. The student should contact potential sponsors to determine who would be willing to sponsor an honors student and what research projects the student might undertake. Students who choose a sponsor whose faculty appointment is not in the College of Liberal Arts and Sciences (CLAS) must choose a cosponsor who has a faculty appointment in CLAS.

After the student has identified a sponsor and the two have agreed on a project, the sponsor guides the student in the preparation of a research proposal that identifies the background, goals, methods, and significance of the research project. The proposal serves as the foundation of the honors thesis, which the student prepares under the sponsor's supervision upon completion of the research. Once the thesis is nearing completion or is completed, the student presents a short seminar or a poster detailing the purpose of the research.

For examples of honors projects in environmental sciences, see Honors Projects on the Environmental Sciences Program website.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental sciences major.

### Career Advancement

Graduates are prepared for careers in conservation, environmental assessment, hazardous waste management, park inspection and compliance, or pollution control and monitoring.

The undergraduate degree program also prepares students for graduate study in disciplines such as biology, chemistry, ecosystem sciences, environmental engineering, environmental law, environmental science, environmental sustainability, geoscience, hydrologic sciences, natural resource management, remote sensing and landscape modeling, renewable energy, and urban and regional planning.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

#### Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the environmental sciences major. Students work with their advisors on individual graduation plans.

#### Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

#### Environmental Sciences, B.S.

- Biosciences (Green) Track [p. 477]
- Chemical Sciences (Yellow) Track [p. 478]
- Geosciences (Brown) Track [p. 479]
- Hydrosociences (Blue) Track [p. 480]

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Enrollment in chemistry courses requires completion of a placement exam.
- c Enrollment in math courses requires completion of a placement exam.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f Refer to the General Catalog for course options.
- g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- h This course is offered every other summer. Check MyUI for course availability since offerings are subject to change.
- i Choose from EES:3110, EES:3380, EES:3390, EES:4490, EES:4640, EES:4800.
- j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Environmental Sciences, Minor

## Requirements

The undergraduate minor in environmental sciences requires a minimum of 15 s.h. in University of Iowa environmental sciences coursework. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor in environmental sciences requires the following coursework.

Code	Title	Hours
One of these:		
ENVS:1080/ EES:1080	Introduction to Environmental Science	4
ENVS:1085/ EES:1085	Fundamentals of Environmental Science	4
One environmental sciences foundation course, chosen from these:		
ENVS:2673/ BIOL:2673	Ecology	3
ENVS:3020/ EES:3020/ GEOG:3020	Earth Surface Processes	3
ENVS:3100/ EES:3100	Earth and Planetary Remote Sensing	4
GEOG:1050	Foundations of GIS	4
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
And:		
Courses in one of the four environmental sciences tracks below		7-8

## Tracks

Track courses must include one 3-4 s.h. track foundation course and 3-4 s.h. in track field study coursework. The tracks are biosciences, chemical sciences, geosciences, and hydrosciences.

### Biosciences Track

#### Foundation Courses

Code	Title	Hours
BIOL:2246	Entomology Lab	4
BIOL:3172	Evolution	4
EES:3030/ ENVS:3030	Conservation Paleobiology	4
EES:3070	Marine Ecosystems and Conservation	3
EES:3220	Evolution of the Vertebrates	4
GEOG:2374/ BIOL:2374	Biogeography	3
GEOG:2950	Environmental Conservation	3
GEOG:3350	Urban Ecology	3
GEOG:4470	Ecological Climatology	3

Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor

### Field Study Courses

Code	Title	Hours
4 s.h. from these:		
ENVS:3095	Field Ecology	4
ENVS:3096	Winter Ecology	2
ENVS:3097	Introduction to Bird Study	2
ENVS:3230	Special Topics (must include field component)	1-4
IALL:3103	Aquatic Ecology	4
IALL:3109	Ecology and Systematics of Algae	4
IALL:3117	Ecology and Systematics of Diatoms	2,4
IALL:3122	Prairie Ecology	4
IALL:3126	Ornithology	4

### Chemical Sciences Track

#### Foundation Courses

Code	Title	Hours
CEE:4150/CBE:4420	Environmental Chemistry	3
CHEM:2210	Organic Chemistry I	3
CHEM:2220	Organic Chemistry II	3
CHEM:2230	Organic Chemistry I for Majors	3
CHEM:2240	Organic Chemistry II for Majors	3
CHEM:3110	Analytical Chemistry I	3
CHEM:3120	Analytical Chemistry II	3
CHEM:3250	Inorganic Chemistry	3
CHEM:4431	Physical Chemistry I	3
CHEM:4432	Physical Chemistry II	3

### Field Study Courses

Code	Title	Hours
CHEM:2410	Organic Chemistry Laboratory	3
CHEM:3430	Analytical Measurements	3

### Geosciences Track

#### Foundation Courses

Code	Title	Hours
EES:2200/ ENVS:2200	Historical Geology	4
EES:2410	Mineralogy	4
EES:3300	Sedimentary Geology	4
EES:3360/ GEOG:3360	Soil Genesis and Geomorphology	3
EES:3500	Igneous and Metamorphic Petrology	4
EES:3840	Structural Geology	4
EES:4630	Hydrogeology	4
EES:4790	Applied Environmental Geology	3

## Field Study Courses

Code	Title	Hours
EES:2831	Geologic Field Methods	3
EES:4680	Field Methods in Hydrologic Science	3
EES:4832	Geologic Field Analysis	3
GEOG:4010	Field Methods in Physical Geography	3

## Hydrosciences Track

### Foundation Courses

Code	Title	Hours
EES:3110/ ENVS:3110	Chemical Evolution of the Oceans	3
EES:3380/CEE:3328	Fluvial Geomorphology	3
EES:3390	Integrated Watershed Analysis	3
EES:4490	Elements of Geochemistry	3
EES:4630	Hydrogeology	4
EES:4790	Applied Environmental Geology	3
EES:4800	Global Geophysics	3

### Field Study Course

Code	Title	Hours
EES:4680	Field Methods in Hydrologic Science	3

# Ethics and Public Policy

## Chair, Department of Philosophy

- David Cunning

## Codirectors, Ethics and Public Policy

- Richard Fumerton (Philosophy), Diane Jeske (Philosophy)

**Undergraduate major:** ethics and public policy (B.A.)

**Faculty:** <https://clas.uiowa.edu/ethics/steering-committee>

**Website:** <https://clas.uiowa.edu/ethics/>

Ethics and public policy is an interdisciplinary major that presents perspectives on intersecting issues that connect the study of philosophy, economics, law, political science, and sociology. All of these disciplines involve a focus on practical questions concerning how individuals ought to behave and how they ought to regulate the behavior of others.

For example, law exists in order to regulate human behavior, enforce human ideals, and resolve human conflict. And, most people agree that what society should do depends in part on the actual or potential consequences of its actions, and some of the most important consequences of actions and policies are economic. So it is folly to try to reason clearly about how to rectify injustice without thinking long and hard about the economic impact of one's plans. But law and social policy affect more than economics; they have a role in constructing the very fabric of society and the nature of the political state in which we want to live.

Students choose one field of specialization for the major and may find it easy to pursue a second major in another of the major's specialization fields, thus broadening their prospects for choosing graduate schools or beginning professional careers.

The Departments of Economics, Philosophy, Political Science, and Sociology and Criminology collaborate to present the major in ethics and public policy; the major is administered by the Department of Philosophy [p. 887].

## Programs

## Undergraduate Program of Study

### Major

- Major in Ethics and Public Policy (Bachelor of Arts)  
[p. 485]

# Ethics and Public Policy, B.A.

## Learning Outcomes

The general goals of the major in ethics and public policy (EPP) are to:

- give students familiarity with the subject matter and methods of four closely related, but distinct disciplines—philosophy, economics, sociology, and political science—acquaintance with which is particularly important for those entering law, government and public service, and related fields;
- teach students to think critically, understand important distinctions, and present and defend positions;
- allow students to see the connections between problems that arise in the four fields that make up the cross-disciplinary major;
- encourage students to solve problems by drawing insights from different fields; and
- prepare students for postgraduate work in one or more of the fields, law school, or any of the indefinitely many careers where the skills fostered in the major will be invaluable.

## Ethics and Public Policy Initiatives

- Increase interactions among majors through events such as clubs and movie nights cosponsored by the Department of Philosophy and EPP.
- Encourage promising students to work individually with faculty on honors projects.
- Continue to improve advising.
- Continue to offer a 1 s.h. course that gives credit to students for participation in some of the programmed lectures, clubs, film screenings, among others.
- Advertise and encourage students to enroll in a 2-3 s.h. course that involves relevant internships.
- Review the department's current survey that can provide more useful and fine-grained advice to improve the ethics and public policy major.

## Requirements

The Bachelor of Arts with a major in ethics and public policy requires a minimum of 120 s.h., including at least 37 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The curriculum includes foundation courses and the work for one field of specialization.

The B.A. with a major in ethics and public policy requires the following coursework.

Code	Title	Hours
	Philosophy Foundation Courses	6
	Economics Foundation Courses	7-8
	Political Science Foundation Courses	6
	Sociology and Criminology Foundation Courses	6-7

Fields of Specialization Courses	12
<b>Total Hours</b>	<b>37-39</b>

## Foundation Courses

Foundation courses introduce students to each of the disciplines that participate in the major: philosophy, economics, political science, and sociology. These courses provide students with the basic reasoning skills they will need for advanced study. The foundation courses also help students make an informed selection of their specialization field.

All students are required to take PHIL:1636 Principles of Reasoning: Argument and Debate or PHIL:2603 Introduction to Symbolic Logic in order to gain facility with abstract, formal reasoning.

Some courses may be listed in both a foundation area and a specialization field; students may use a course to fulfill only one requirement for the major.

## Philosophy Foundation

### Reasoning

Code	Title	Hours
One of these:		
PHIL:1636	Principles of Reasoning: Argument and Debate	3
PHIL:2603	Introduction to Symbolic Logic	3

### Value Theory

Code	Title	Hours
One of these:		
PHIL:1034	Liberty and the Pursuit of Happiness	3
PHIL:1401	Matters of Life and Death	3
PHIL:2402	Introduction to Ethics	3
PHIL:2422	Feminist Ethics	3
PHIL:2432	Introduction to Political Philosophy	3
PHIL:2435	Philosophy of Law	3
PHIL:2436	The Nature of Evil	3

## Economics Foundation

Code	Title	Hours
This course:		
ECON:1100	Principles of Microeconomics	4
One of these:		
ECON:1200	Principles of Macroeconomics	4
ECON:3380	Business and Government	3
ECON:3650	Policy Analysis	3
ECON:3760	Health Economics	3

## Political Science Foundation

Code	Title	Hours
One of these:		
POLI:1100	Introduction to American Politics	3
POLI:1300	Introduction to Political Thought and Action	3

POLI:1400	Introduction to Comparative Politics	3
POLI:1700	Introduction to Political Analysis	3

## Policy

Code	Title	Hours
One of these:		
POLI:1501	Introduction to American Foreign Policy	3
POLI:3111	American Public Policy	3

## Sociology and Criminology Foundation

### Theory

Code	Title	Hours
One of these:		
SOC:1010	Introduction to Sociology	3-4
SOC:1030	Contemporary Social Problems	3-4

## Law, Sociology and Criminology

Code	Title	Hours
One of these:		
CRIM:1410	Introduction to Criminology	3
CRIM:1447	Introduction to the Criminal Justice System	3
CRIM:2430	Comparative Criminal Justice Systems	3
CRIM:2460	Policing in Modern Society	3
CRIM:3425	Women, Crime, and Justice	3
SOC:1219	Big Ideas: Equality, Opportunity, and Public Policy in America	3
SOC:2130	Sociological Theory	3
SOC:2810	Social Inequality	3
SOC:3510	Medical Sociology	3

## Fields of Specialization

Students select one of the following fields of specialization: philosophy, economics, political science, or sociology and criminology. Students must complete four courses in their field (12 s.h.), selected from the appropriate list below.

Some courses may be listed in both a foundation area and a specialization field; students may use a course to fulfill only one requirement for the major.

## Philosophy

Code	Title	Hours
PHIL:2402	Introduction to Ethics	3
PHIL:2415	Bioethics	3
PHIL:2422	Feminist Ethics	3
PHIL:2429	War, Terrorism, and Torture	3
PHIL:2432	Introduction to Political Philosophy	3
PHIL:2435	Philosophy of Law	3
PHIL:2436	The Nature of Evil	3
PHIL:3342	Multiculturalism and Toleration	3
PHIL:3430	Philosophy of Human Rights	3

PHIL:3510	Neuroethics	3
PHIL:3604	Introduction to Philosophy of Science	3
PHIL:3902	Workshop: Analytical Skills for the LSAT	3
PHIL:3920	Philosophy in Public	1-3
PHIL:4375	Rawls's Political Philosophy	3
PHIL:4480	Analytic Ethics	3
PHIL:4481	Issues in Philosophy of Law	3
PHIL:4482	Early Modern Ethics	3
PHIL:4485	Political Philosophy	3

## Economics

Code	Title	Hours
ECON:3100	Intermediate Microeconomics	3
ECON:3345	Global Economics and Business	3
ECON:3350	Industry Analysis	3
ECON:3380	Business and Government	3
ECON:3620	Economic Growth and Development	3
ECON:3625	Environmental and Natural Resource Economics	3
ECON:3640	Regional and Urban Economics	3
ECON:3650	Policy Analysis	3
ECON:3760	Health Economics	3
ECON:4160	Public Sector Economics	3

## Political Science

Code	Title	Hours
POLI:2417	Comparative Environmental Policy	3
POLI:3101	American Constitutional Law and Politics	3
POLI:3102	The U.S. Congress	3
POLI:3104	Immigration Politics	3
POLI:3110	Local Politics	3
POLI:3111	American Public Policy	3
POLI:3114	Women and Politics in the United States	3

SOC:3650	Education, Schools, and Society	3
SOC:3880	The Sociology of Networks	3
SOC:4200	Sociology of Religion	3
SOC:4540	Political Sociology and Social Movements	3

## Student-Designed Field

In rare circumstances, a student may be given permission to design a specialization field. The student specifies four courses (12 s.h.) numbered 3000 or above, or as considered advanced by the department offering the course. Courses should be interconnected and must suggest a coherent interest. The student-designed field may not duplicate any of the established specialization fields for the major. It also may not include a course that satisfies another requirement for the major.

Students interested in designing their own specialization field should speak with an advisor as early as possible. They must obtain approval from their advisor and from the steering committee of the major in ethics and public policy as soon as possible after they declare the major and before they complete the designated coursework.

## Combined Programs

### B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in ethics and public policy who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

### B.A./M.S. in Finance

Students majoring in ethics and public policy who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) section of the Catalog.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a g.p.a. of at least 3.50 in work for the major and a cumulative University of Iowa g.p.a. of at least 3.33; the UI cumulative g.p.a. is set by the College of Liberal Arts and Sciences. In order to graduate with honors in the major, they must complete all work for the major and write an acceptable honors thesis on a significant topic related to the major. Students who write their honors thesis in philosophy should consider preparing for the thesis

by taking PHIL:3950 Readings in Philosophy; students who write in economics should consult the coordinator of the Ethics and Public Policy program for an appropriate course; students who write in political science should take POLI:4000 Honors Seminar on the Study of Politics; and students who write in sociology and criminology should consider taking SOC:4997 Honors Seminar. Contact the coordinator of the Ethics and Public Policy program for more information.

## University of Iowa Honors Program

In addition to honors in the major, students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the ethics and public policy major.

### Career Advancement

The ethics and public policy major provides an ideal background for law school. It brings an important background to legal studies in fields that both explicitly and implicitly arise in the context of pursuing a J.D. degree. The study of reasoning, an important component of the major, is useful in preparing for the Law School Admission Test (LSAT), the Graduate Management Admission Test (GMAT), and the Medical College Admission Test (MCAT). The major also prepares students to bring a sophisticated, cross-disciplinary perspective to diverse fields such as government, urban and regional planning, social work, and business.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major.

**Before the third semester begins:** at least one course in the major.

**Before the fifth semester begins:** at least three courses in the major.

**Before the seventh semester begins:** at least seven courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** at least nine courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

#### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Ethics and Public Policy, B.A.

<b>Total Hours</b>	<b>122-130</b>

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Event Management

## Director, School of Journalism and Mass Communication

- David Ryfe

## Coordinator, Event Management

- Heather J. Spangler (Journalism and Mass Communication)

**Undergraduate certificate:** event management

**Website:** <https://journalism.uiowa.edu/undergraduate/certificate-event-management>

Nearly every kind of organization has a need to create and manage events, from corporations to recreational centers, from hotels to sports teams. The Certificate in Event Management is designed to serve the career goals of a growing number of students who want to learn about the profession and wish to enter the field. It combines experiential learning with academic coursework, preparing students with the practical and intellectual skills necessary to succeed in the industry. The certificate is both interdisciplinary and intercollegiate.

Students who earn the Certificate in Event Management will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event management and careers in the event management industry.

In addition to these core competencies, students gain proficiency in:

- strategic and professional communication (oral, written, visual/design, interpersonal, group, professional, social media, and marketing);
- project management (goal setting, time management, financial, risk management, site and staff management, event design, and technology); and
- cultural and social awareness (religious, cultural, physical, and social nuances that impact event management choices; best practices for safe, inclusive events; and legal and ethical issues).

The School of Journalism and Mass Communication [p. 742] and the Departments of Communication Studies [p. 286], Health and Human Physiology [p. 612] (College of Liberal Arts and Sciences), and the Department of Marketing [p. 1238] (Tippie College of Business) collaborate to offer the certificate. The Certificate in Event Management is administered by the School of Journalism and Mass Communication.

## Programs

## Undergraduate Program of Study Certificate

- Certificate in Event Management [p. 491]

## Courses

## Event Management Courses

**EVNT:2110 Internship in Event Management** 3 s.h.  
Internship for event management certificate. Prerequisites: (EVNT:3154 or SRM:3154) and (EVNT:3260 or SRM:3147).

**EVNT:3154 Foundations of Event Management** 3 s.h.  
Large, major special events, professional meetings, and conferences; development and planning, implementation of events, management and evaluation of events; development requirements of planning events, development strategies, budgeting, staffing requirements, resource allocation, site planning, basic risk management requirements, emergency procedures; event implementation policy and procedures; relationship to elements within development stages; event management and evaluation procedures.

**EVNT:3160 Crisis Management** 3 s.h.  
Exploration of crisis management through research, speakers, and hands-on experience.

**EVNT:3170 Venue Management** 3 s.h.  
Exploration of venue management field through speakers, research, and hands-on experiences.

**EVNT:3185 Topics in Event Management** 3 s.h.  
Focus on particular area, issue, approach, or body of knowledge in the world of event planning; topics may include political campaign events, social media events, diversity issues, and risk management.

**EVNT:3260 Event Management Workshop** 3 s.h.  
Hands-on experience in event planning; working with clients, conceptualizing events, lining up small and large details, promoting events via social media and other means, carrying out events, and reflecting on outcomes; meet with event planning professionals; complete individual and group projects. Prerequisites: EVNT:3154 or SRM:3154.

**EVNT:3280 Digital Event Management Workshop** 3 s.h.  
Hands-on experience in event planning in a digital environment; working with clients, conceptualizing events, lining up small and large details, promoting events via social media and other means, carrying out events, and reflecting on outcomes; individual and group projects.

# Event Management, Certificate

## Requirements

The undergraduate Certificate in Event Management requires a minimum of 21 s.h. of credit, including at least 6 s.h. in event management coursework (prefix EVNT). Students must maintain a g.p.a. of at least 2.00 in work for the certificate. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

Students take EVNT:3154 Foundations of Event Management or SRM:3154 Foundations of Event Management prior to registering for EVNT:3260 Event Management Workshop or SRM:3147 Sport Event Management. Both core courses must be completed before students register for their internship.

Some of the certificate courses have prerequisites not included in the certificate requirements. Students should select courses for which they have met the prerequisites.

The Certificate in Event Management requires the following coursework.

## Core Courses

Code	Title	Hours
One of these:		
EVNT:3154	Foundations of Event Management	3
SRM:3154	Foundations of Event Management	3
And one of these:		
EVNT:3260	Event Management Workshop	3
SRM:3147	Sport Event Management	3

## Internship

The core courses must be completed prior to enrollment in the internship.

Code	Title	Hours
One of these:		
EVNT:2110	Internship in Event Management	3
SRM:4197	Sport and Recreation Field Experience (must enroll in at least 3 s.h.)	arr.

## Focused Electives

Code	Title	Hours
A minimum of 12 s.h. chosen from these (6 s.h. of focused elective coursework must be numbered 2000 or above with no more than two courses at the 1000 level):		
EVNT:3160	Crisis Management	3
EVNT:3170	Venue Management	3
EVNT:3185	Topics in Event Management (repeatable)	3

EVNT:3260	Event Management Workshop (if not used to satisfy core requirement)	3
ARTS:1070	Elements of Graphic Design	3
BUS:3000	Business Communication and Protocol	3
COMM:1809	Social Marketing Campaigns	3
COMM:1816	Business and Professional Communication	3
COMM:1818	Communication Skills for Leadership	3
COMM:1819	Organizational Leadership	3
COMM:1830	Communication Skills for Community Engagement	3
COMM:2044	Political Communication	3
ENTR:1350	Foundations in Entrepreneurship	3
ENTR:3595/ MGMT:3500/ MUSM:3500/ NURS:3595/ RELS:3700/ SSW:3500	Nonprofit Organizational Effectiveness I	3
JMC:1300	Principles of Strategic Communication	3
JMC:3530	Social Media Marketing	3
JMC:3540/ SPST:3181	The Business of Sport Communication	3
JMC:3710	Fundraising Fundamentals	3
JMC:3720	Nonprofit Communications	3
MKTG:3000	Introduction to Marketing Strategy	3
MKTG:4101	Integrated Marketing Communications	3
POLI:3202	Political Psychology	3
SRM:2065	The Experience Economy	3
SRM:3147	Sport Event Management (if not used to satisfy core requirement)	3
SRM:3158	Sport and Recreation Promotion	3
SRM:3175	Sales in Sport	3
SRM:3178	Communications and Public Relations in Sports	3
SRM:4197	Sport and Recreation Field Experience (if not used to satisfy internship requirement)	1-3
THTR:3270	Entertainment Design	3
UICB:4415/ ARTS:4415	Calligraphy I: Foundational Hands	3

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Event Management, Certificate

Course	Title	Hours
<b>Academic Career</b>		
<b>Any Semester</b>		
Students are welcome to begin the Event Management certificate any year.		
<b>Hours</b>		<b>0</b>
<b>Second Year</b>		
<b>Any Semester</b>		
SRM:3154 or EVNT:3154	Foundations of Event Management <sup>a</sup> or Foundations of Event Management	3
	Certificate: event management focused elective course <sup>b</sup>	3
	Certificate: event management focused elective course <sup>b</sup>	3
<b>Hours</b>		<b>9</b>
<b>Third Year</b>		
<b>Any Semester</b>		
SRM:3147 or EVNT:3260	Sport Event Management or Event Management Workshop	3
	Certificate: event management focused elective course numbered 2000 or above <sup>b</sup>	3
<b>Hours</b>		<b>6</b>
<b>Fourth Year</b>		
<b>Any Semester</b>		
EVNT:2110 or SRM:4197	Internship in Event Management <sup>c</sup> or Sport and Recreation Field Experience	3
	Certificate: event management focused elective course numbered 2000 or above <sup>b</sup>	3
<b>Hours</b>		<b>6</b>
<b>Total Hours</b>		<b>21</b>

- a The certificate recommends taking this course as early as possible and before EVNT:3260 Event Planning Workshop.
- b See General Catalog for a list of approved courses.
- c EVNT:3154 (or SRM:3154) and EVNT:3260 (or SRM:3147) are prerequisites for EVNT:2110.

# French and Italian

## Director, Division of World Languages, Literatures and Cultures

- Jill N. Beckman

## Chair, Department of French and Italian

- Roxanna N. Curto

## General Education Language Coordinators

- Cinzia Blum (Italian), Emilie Destruel-Johnson (French), Blandina K. Giblin (Swahili), Yasmine A. Ramadan (Arabic)

**Undergraduate majors:** French (B.A.); Italian (B.A.)

**Undergraduate minors:** Arabic language; French; Italian

**Graduate degrees:** M.A. in French and Francophone world studies; Ph.D. in French and Francophone world studies

**Faculty:** <https://french-italian.uiowa.edu/people>

**Website:** <https://french-italian.uiowa.edu/>

The Department of French and Italian introduces students to the cultures of France, the Francophone world, Italy, and parts of the Middle East and Africa, providing an understanding of those countries' historical and contemporary importance. It also facilitates development of proficiency in the French, Italian, Arabic, and Swahili languages and fosters critical appreciation of French, Francophone, Italian, and Arabic literatures and cultures.

Faculty expertise enables the department to offer courses in the traditionally recognized historical periods of French literature, various literary genres, and critical theories as well as the Francophone literatures of Canada, North and Sub-Saharan Africa, the Caribbean, and the Indian Ocean. The department has particular strengths in interdisciplinary studies, notably in the areas of comparative arts, film studies, history, and second language acquisition.

Undergraduate students in all majors may satisfy the World Languages requirement of the GE CLAS Core with courses in Arabic, French, Italian, or Swahili; see "Language for GE CLAS Core" below. The department offers other GE CLAS Core courses, and entering students may take the department's First-Year Seminars.

The Department of French and Italian is one of the academic units in the Division of World Languages, Literatures and Cultures [p. 378].

## Language for GE CLAS Core

The Department of French and Italian provides course sequences in four languages—Arabic, French, Italian, and Swahili—that students in all majors may use to fulfill the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. It also offers a variety of language courses that nonmajors may take to satisfy their own educational goals and interests.

### Arabic

The department is the administrative home for Arabic language and culture courses. It offers elementary, intermediate, and advanced Arabic as well as conversational Arabic, for which ARAB:1002 Elementary Modern Standard Arabic II is prerequisite. Students without background in Arabic should begin with ARAB:1001 Elementary Modern Standard Arabic I. Students who have a background in Arabic should contact the general education coordinator

to determine the level at which they should begin Arabic language study at the University of Iowa. See Courses [p. 494] in this section of the Catalog for a list of departmental courses.

Students who wish to fulfill the GE CLAS Core World Languages requirement with Arabic should complete the following course sequence.

Code	Title	Hours
ARAB:1001	Elementary Modern Standard Arabic I	5
ARAB:1002	Elementary Modern Standard Arabic II	5
ARAB:2001	Intermediate Modern Standard Arabic I	5
ARAB:2002	Intermediate Modern Standard Arabic II	5

### French

Students who have a background in French should take the online placement test, which helps determine the level at which a student could begin French language study at the University of Iowa. Students without background in French should begin with FREN:1001 Elementary French I.

Students who wish to fulfill the GE CLAS Core World Languages requirement with French should complete the following sequence.

Code	Title	Hours
FREN:1001	Elementary French I	5
FREN:1002	Elementary French II	5
FREN:2001	Intermediate French I	5
FREN:2002	Intermediate French II	5

Those with previous knowledge of French may be able to fulfill the World Languages requirement with this sequence.

Code	Title	Hours
FREN:1010	First-Year French Review	5
FREN:2001	Intermediate French I	5
FREN:2002	Intermediate French II	5

### Italian

Students who have a background in Italian should take the online placement test. Placement cutoff scores are advisory. Students should also consult with the general education coordinator to determine the level at which they should begin Italian language study at the University of Iowa. Students without background in Italian should begin with ITAL:1101 Elementary Italian I.

Students who wish to fulfill the GE CLAS Core World Languages requirement with Italian should complete the following course sequence.

Code	Title	Hours
ITAL:1101	Elementary Italian I	5
ITAL:1102	Elementary Italian II	5
ITAL:2203	Intermediate Italian I	4
ITAL:2204	Intermediate Italian II	4

Those with strong language-learning abilities or background in another Romance language may be able to substitute ITAL:3002 Intensive Elementary Italian for ITAL:1101 Elementary Italian I and ITAL:1102 Elementary Italian II and fulfill the World Languages requirement with this sequence.

Code	Title	Hours
ITAL:3002	Intensive Elementary Italian (ITAL:3002 will change to ITAL:1103 effective winter 2021)	4,6
ITAL:2203	Intermediate Italian I	4
ITAL:2204	Intermediate Italian II	4

## Swahili

The department is the administrative home for Swahili courses. Students may fulfill the GE CLAS Core World Languages requirement by taking the following four-semester sequence. Students who have a background in Swahili should contact the general education coordinator to determine the level at which they should begin Swahili language study at the University of Iowa.

Code	Title	Hours
SWAH:1001	Elementary Swahili I	4
SWAH:1002	Elementary Swahili II	4
SWAH:2001	Intermediate Swahili I	4
SWAH:2002	Intermediate Swahili II	4

## Study Abroad

The department participates in several study abroad programs. Some of them are the University Study Abroad Consortium (USAC) French Studies in Pau and Lyon; University of Minnesota/Paul Valery University Study Abroad in Montpellier; and the Committee on Institutional Cooperation (CIC) Summer French Program in Quebec at the Université Laval. For information about these and other programs abroad, contact International Programs Study Abroad and use its programs search; or see Study Abroad [p. 2072] (University College) in the Catalog.

## Programs

### Undergraduate Programs of Study

#### Majors

- Major in French (Bachelor of Arts) [p. 501]
- Major in Italian (Bachelor of Arts) [p. 505]

#### Minors

- Minor in Arabic Language [p. 508]
- Minor in French [p. 509]
- Minor in Italian [p. 510]

### Graduate Programs of Study

- Master of Arts in French and Francophone World Studies [p. 511]
- Doctor of Philosophy in French and Francophone World Studies [p. 513]

## Facilities

The Center for Language and Culture Learning (CLCL) provides a wide variety of services and facilities to the Division of World Languages, Literatures and Cultures, including a 54-computer Instructional Technology Center (ITC) and six "All in One" studios/small group study rooms,

each equipped with video production and editing software. The CLCL also has a digital media and hardware collection available for checkout.

Directed Independent Language Study (DiLS), administered by the Center for Language and Culture Learning in the Division of World Languages, Literatures and Cultures, offers students guidance on engaging in self-instruction in languages that are not currently taught in the division. Any current University of Iowa student, staff, or faculty member who is interested in pursuing language study to enhance their professional research or academic profile can take advantage of this program. With the support of CLCL staff members, learners design their own study plans to learn basic language skills or improve upon existing skills in preparation for study or research abroad, and are paired with a language and culture consultant when possible.

## Courses

- French Courses [p. 494]
- Italian Courses [p. 497]
- Arabic Courses [p. 499]
- Swahili Courses [p. 499]

The department offers courses in French, Italian, Arabic, and Swahili. For a detailed description of courses offered each semester, contact the Department of French and Italian. French courses are conducted in French, and Italian courses are conducted in Italian, unless otherwise indicated. Students may not receive credit for a course that is prerequisite to, or whose equivalent is prerequisite to, a higher-level course they have already completed.

French courses numbered 4000-4999 are intended primarily for advanced undergraduates; graduate students should consult with their advisors before registering for these courses.

Undergraduates may count a maximum of one course taught in English toward requirements for the major in French. This restriction does not apply to courses taught in English with an additional semester hour in French. Students should consult with their advisors before registering.

Students who have had significant experience with French through living or studying abroad should consult with the department before enrolling in any French course.

## French Courses

**FREN:0001 Introduction to Language Learning 1 s.h.**  
Preparation for world language study at college level, including study and review strategies. Taught in English.

**FREN:1000 First-Year Seminar 1-2 s.h.**  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

**FREN:1001 Elementary French I 4-5 s.h.**  
Introduction to reading, writing, listening, and speaking; for students who have no knowledge of French. GE: World Languages First Level Proficiency.

- FREN:1002 Elementary French II** 4-5 s.h.  
Continuation of FREN:1001; introduction to reading, writing, listening, and speaking. Prerequisites: FREN:1001 or French Placement score of 176 or higher. GE: World Languages Second Level Proficiency.
- FREN:1005 Texts and Contexts: French-Speaking World** 3 s.h.  
Development of skills in reading, understanding, and critically engaging with literary texts, and of research skills for informed inquiry; sense of oneself as a situated reader; range of texts reflecting diversity of French and Francophone writers. Taught in English. GE: Interpretation of Literature.
- FREN:1006 Global Sports and National Cultures** 3 s.h.  
Overview of the relationship between sports and national cultures in countries around the world; focus on how athletic competitions play a role in the formation of collective identities; includes the Olympic Games in ancient Greece, hockey in Canada, cycling in France, traditional wrestling in Senegal, cricket in England and India, and soccer in Europe, Africa, and Latin America. GE: International and Global Issues.
- FREN:1007 Nature/Ecology French Philosophy and Fiction** 3 s.h.  
Representations of the natural world in literary works from 16th to 20th centuries and in film; readings in English translation. Taught in English. GE: Interpretation of Literature.
- FREN:1010 First-Year French Review** 4-5 s.h.  
FREN:1001 and FREN:1002 combined in one intensive course. GE: World Languages Second Level Proficiency.
- FREN:1040 French for Travelers** 2 s.h.  
Basic language skills for tourists wanting to increase their French language skills.
- FREN:1510 Cultural Misunderstandings: France and U.S.A.** 3 s.h.  
Key moments in the history of relations between the United States and France, from similarities underlying democratic principles to recent divergent worldviews. Taught in English. GE: International and Global Issues.
- FREN:1600 French and Francophone Cultural Activities** 1 s.h.  
Credit for attendance and participation at French and Francophone cultural events, including scholarly talks, film screenings, art exhibits, literary readings, conversation hours, French Culture Club meetings, and volunteering as a translator for a medical clinic.
- FREN:2001 Intermediate French I** 5 s.h.  
Prerequisites: FREN:1010 or FREN:1002 or French Placement score of 176 or higher. Requirements: completion of prerequisites or two years of high school French. GE: World Languages Second Level Proficiency.
- FREN:2002 Intermediate French II** 5 s.h.  
Continuation of FREN:2001. Prerequisites: FREN:2001 or French Placement score of 231 or higher. Requirements: completion of prerequisites or three years of high school French. GE: World Languages Fourth Level Proficiency.
- FREN:2010 Global Science Fiction** 3 s.h.  
Science fiction from around the world; spanning poetry, fiction, drama, film, television, comics, mobile phone games, and music; produced on six continents. Taught in English. GE: Diversity and Inclusion. Same as ASIA:2001, RUSS:2001, SPAN:2001, TRNS:2001, WLLC:2001.
- FREN:3000 Third-Year French** 3 s.h.  
Development of reading skills in French; composition and review of basic grammar structures. Prerequisites: FREN:2002 or French Placement score of 311 or higher.
- FREN:3007 French Phonetics** 3 s.h.  
Introduction to French phonetics; sounds of French in isolation and in context to improve pronunciation; audio exercises that emphasize sounds (nasal vowels, [u]-[y] contrast) and prosodic features (intonation, syllabification, liaison). Requirements: FREN:2002 or French Placement score higher than 311.
- FREN:3020 Oral Expression in French I** 3 s.h.  
First in a two-course sequence. Prerequisites: FREN:2002 or French Placement score of 311 or higher.
- FREN:3060 Introduction to Reading and Writing in Literature** 3 s.h.  
Development of analytical, organizational skills for interpretation of literature; readings in prose, poetry, drama, criticism; emphasis on reading and essay writing. Prerequisites: FREN:2002 or French Placement score of 311 or higher.
- FREN:3120 French Civilization** 3 s.h.  
From Renaissance to Revolution. Requirements: prior or concurrent enrollment in FREN:3060 or FREN:3300. GE: Historical Perspectives.
- FREN:3130 French-Speaking Cultures** 3 s.h.  
Study of cultures in which French is spoken: North Africa, Sub-Saharan Africa, the Indian Ocean, Southeast Asia, the Caribbean, Canada, Louisiana, and Europe; approaches include literature, cinema, music, the arts, and media; introduction to field of Francophone studies and promotion of linguistic and cultural diversity. Requirements: prior or concurrent enrollment in FREN:3060 or FREN:3300.
- FREN:3160 Study Abroad: Culture** 3 s.h.  
Geography, history, architecture, painting, music of France; readings, slides, video and audio cassettes, visits to sites of cultural significance. Prerequisites: FREN:2002.
- FREN:3190 Psycholinguistic Aspects of Bilingualism** 3-4 s.h.  
Interaction of two languages in a bilingual in terms of sound system, words, and grammar; different meanings of bilingualism, how bilingualism and multilingualism can change across lifespan. Taught in English. Requirements: linguistics or language acquisition course. Same as LING:3190, SPAN:3190.
- FREN:3195 French Linguistics Lab I** 3 s.h.  
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.
- FREN:3210 Comparative Arts** 3 s.h.  
Cultural and aesthetic issues arising from side-by-side investigation of several art forms, including literature, cinema, painting, music, opera, architecture; periods, schools, styles, and their theories. Taught in English. Same as ASIA:3210, IWP:3210, SPAN:3211, WLLC:3210.
- FREN:3225 Studies in Modern France** 3 s.h.  
Introduction to the study of Modern France (1815-present); history, literature, politics, and culture of the period; emphasis on interdisciplinary investigation of diverse cultural forms. Requirements: prior or concurrent enrollment in FREN:3060 or FREN:3300.

- FREN:3232 French Literary Translation Workshop 3 s.h.**  
Workshop in literary translation from French to English; practical, ethical, and theoretical questions about translation; focus on specific complication of French-English language pair; mapping style, genre, and literary influences of French authors for purpose of translation. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060 or FREN:3300. Same as TRNS:3232.
- FREN:3240 Media French 3 s.h.**  
Introduction to French press and media; students acquire knowledge related to media (e.g., newspapers, magazines, television, radio, social media); introduction to French national newspapers and television stations and their political and cultural orientations; students study articles obtained from different media to develop vocabulary and oral and written comprehension skills; study and discussion of current events in sports, politics, culture, society, and other fields. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060 or FREN:3300.
- FREN:3250 Topics in French Studies I 3 s.h.**  
Requirements: prior or concurrent enrollment in FREN:3060 or FREN:3300.
- FREN:3300 French Grammar 3 s.h.**  
Study of word forms, sentence patterns for more accurate use of French. Prerequisites: FREN:2002 or French Placement score of 311 or higher. Requirements: completion of prerequisites or four years of high school French.
- FREN:3360 Study Abroad: Language 3 s.h.**  
Written and spoken French; listening, speaking, reading, writing in cultural contexts. Prerequisites: FREN:2002.
- FREN:3410 Business French 3 s.h.**  
Language of economics and business; practice in business correspondence and communication, active use of business vocabulary. Offered fall semesters. Requirements: prior or concurrent enrollment in FREN:3060 or FREN:3300.
- FREN:4007 Topics in French Linguistics 3 s.h.**  
Concepts to aid in understanding how the French language works; major areas of linguistics—pronunciation (phonetics and phonology), the structure of words (morphology), the structure of sentences (syntax) and meaning (semantics). Prerequisites: FREN:3300 and FREN:3060.
- FREN:4015 Francophone Cinema 3-4 s.h.**  
Introduction to the cinema of French-speaking countries outside of France; history, production, distribution; issues of colonialism, postcolonial identities, gender, social realism, diasporas, popular culture. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300.
- FREN:4017 Global Comics 3-4 s.h.**  
Study of comics and graphic novels from all over the world; focus on gender, sexuality, race, language, migration, and culture; sustained reflection on questions of translation and the global circulation of the medium. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300.
- FREN:4020 Oral Expression in French II 3 s.h.**  
Last in a two-course sequence. Prerequisites: FREN:3020 or FREN:3300 or FREN:3007.
- FREN:4026 French Women Writers 3-4 s.h.**  
Survey of 20th- and 21st-century French women's literature; introduction to French feminist thought; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. option—FREN:3060 and FREN:3300. Same as GWSS:4026.
- FREN:4030 Aspects of Poetry 3-4 s.h.**  
Introduction to study of French poetry through genres, versification (metrics and rhythms), sounds, themes, styles, poetics, and significant movements; may include additional instruction in English to allow work on translations and practice perceiving forms in French different from English/American verse traditions. Prerequisites: FREN:3060 and FREN:3300.
- FREN:4070 Introduction to the Study of Meaning 3 s.h.**  
Introduction to the study of meanings and language use in context; meaning outside the literal semantic interpretation of words used including presuppositions and goals of speaker, expectation of listener, speech acts, conversational implicatures, deixis, discourse functions, and other relevant topics. Taught in English. Prerequisites: LING:3001. Same as LING:4070.
- FREN:4080 Post-Colonial Literature in France 3 s.h.**  
Literatures and cultures of Arabo-French (Beur) and Afro-French immigrations. Taught in French. Prerequisites: FREN:3300 and FREN:3060.
- FREN:4090 Quebec Literature 3 s.h.**  
Introduction to Francophone literature and culture of Canada; 19th- and 20th-century novels and other cultural practices (e.g., theater, chansons, films). Taught in French. Prerequisites: FREN:3300 and FREN:3060.
- FREN:4100 French Cinema 3-4 s.h.**  
Introduction to history of French Cinema. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. GE: Literary, Visual, and Performing Arts.
- FREN:4110 Francophone Literature of the African Diaspora 3 s.h.**  
Cultures, literatures, and visual arts of Francophone Africa, the Caribbean, and the Indian Ocean. Taught in French. Prerequisites: FREN:3060 and FREN:3300.
- FREN:4195 French Linguistics Lab II 3 s.h.**  
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.
- FREN:4210 Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South 3-4 s.h.**  
Comparative study of museums, memorials, statues, performances, and artistic works that encapsulate the entangled history and memory of transoceanic slave trades and slavery in the United States, the Caribbean, the Indian Ocean, Sub-Saharan Africa, and Europe (France and the United Kingdom); critical tools to analyze public debates over politically charged monuments; exploration of transnational and political predicaments of the contemporary world; approaches include trauma theories, memory studies, history, postcolonial ecocriticism, cultural anthropology, heritage studies and museology, and Francophone cultural critique. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. Same as MUSM:4310, WLLC:4210.

- FREN:4433 France Under Nazi Occupation, 1940-1944** 3-4 s.h.  
Political, economic, social, and cultural conditions that prevailed following the Nazi conquest of France in 1940; examination of this period of upheaval through work of prominent historians of France; representations of occupied France in literary works, documentary, and fictional films produced during the war and in the politically fraught culture of collective memorialization that formed in aftermath of this national trauma. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. Same as HIST:4433.
- FREN:4520 Versailles Under the Sun King** 3-4 s.h.  
Survey of culture and literature related to the court of King Louis XIV at Versailles, France. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300.
- FREN:4540 Gender and Sexuality in French Cinema** 3-4 s.h.  
Cultural, historical, and semiotic approach to studying constructions of gender identity and discourses on sexuality in French cinema from 1920s to present; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. Same as GWSS:4540.
- FREN:4750 Topics in French Studies II** 3 s.h.  
French and/or Francophone literature or culture. Taught in French. Prerequisites: FREN:3060 and FREN:3300.
- FREN:4890 Techniques of Translation** 3 s.h.  
Taught in French. Prerequisites: FREN:3300. Same as TRNS:4497.
- FREN:4911 French for Reading/Research** 2 s.h.
- FREN:4912 French for Reading/Research** 2 s.h.
- FREN:4990 Independent Study** arr.  
Prerequisites: FREN:3300 and FREN:3060.
- FREN:4995 Honors Research and Thesis** 3 s.h.  
Prerequisites: FREN:3300 and FREN:3060.
- FREN:5000 Teaching and Learning Languages** 3 s.h.  
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Taught in English. Same as GRMN:5001, SLA:5000, SPAN:5000, WLLC:5000.
- FREN:5001 Introduction to Graduate Study** 2 s.h.  
Expectations, resources, and opportunities of graduate study; introduction to coursework, development of preprofessional competencies. Taught in English.
- FREN:5020 Comparative Stylistics** 3 s.h.  
Translation from English to French, including literary texts. Taught in English.
- FREN:6005 Colloquium: Teaching French** 3 s.h.  
Professional training to teach in elementary and intermediate French program; individualized mentoring and pedagogical guidance; for graduate student teaching assistants. Taught in English.
- FREN:6020 Studies in the Seventeenth Century** 3 s.h.
- FREN:6025 Studies in the Eighteenth Century** 3 s.h.  
Studies of French and/or Francophone literature and culture of the 18th century. Taught in French.
- FREN:6080 Modern French Novel** 3 s.h.  
Taught in French.
- FREN:6130 Francophone Thought** 3 s.h.  
Comparative study of intellectual, literary, cultural, social, and historical developments that have taken place in Francophone Sub-Saharan Africa, the Caribbean, and the Indian Ocean; approaches include cultural theory, literary criticism, cinema, visual arts, womens' studies, popular culture, history, and cultural anthropology; examination of key conceptual paradigms and cultivation of skills in critical thinking methodologies; students acquire the appropriate theoretical tools to explore an interdisciplinary scholarly field and learn to establish connections between the main components of the course and their own research interests. Taught in French. Same as GWSS:6130.
- FREN:6142 Crossing Borders Seminar** 2-3 s.h.  
Taught in English. Same as AFAM:6635, ANTH:6635, COMM:6635, ENGL:6635, GEOG:6635, GRMN:6635, HIST:6135, IWP:6635, POLI:6635, SPAN:6904.
- FREN:6750 Topics in French Studies** 3 s.h.
- FREN:6755 French Literature of the 20th/21st Centuries** 3 s.h.  
Advanced survey of French Literature 1900-present in areas of novel, theater, poetry, and essay. Taught in French.
- FREN:6901 Second Language Acquisition Research and Theory** 3 s.h.  
Theories regarding success and failure in acquisition of second or subsequent languages; research, issues. Taught in English. Same as ASIA:6901, JPNS:6901, SLA:6901, SPAN:6901.
- FREN:6920 Multimedia and Second Language Acquisition** 3 s.h.  
Combination of theory and practice regarding use of multimedia and technology to enhance foreign language teaching and second language acquisition research. Taught in English. Same as GRMN:6920, SLA:6920, SPAN:6920.
- FREN:7000 Thesis** arr.
- FREN:7990 Independent Study** arr.
- ## Italian Courses
- ITAL:1000 First-Year Seminar** 1 s.h.  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.
- ITAL:1030 Italian for Travelers** 2 s.h.  
Basic language skills for tourists; for students with no previous Italian.
- ITAL:1050 Italy Live** 3 s.h.  
Introduction to Italian language and culture designed for students whose first contact with the language is in Italy; offered through Consortium of Universities for International Studies study abroad program (CUIS/CIMBA) in Paderno del Grappa, Italy.
- ITAL:1101 Elementary Italian I** 5 s.h.  
Beginning instruction in Italian for students with no prior experience in speaking, reading, or understanding Italian. GE: World Languages First Level Proficiency.
- ITAL:1102 Elementary Italian II** 5 s.h.  
Continuation of ITAL:1101; beginning instruction in speaking, reading, and understanding Italian. Prerequisites: ITAL:1101. GE: World Languages Second Level Proficiency.

- ITAL:1103 Intensive Elementary Italian** 4,6 s.h.  
ITAL:1101 and ITAL:1102 combined in one semester; fundamentals of Italian language and culture including reading, writing, comprehension, and speaking skills. Requirements: two years of another foreign language. GE: World Languages Second Level Proficiency.
- ITAL:1540 Topics in Italian** 2 s.h.  
Topics in Italian language, culture, and literature; may include Italian cinema, studies of specific Italian cities, thematic approaches to Italian studies.
- ITAL:2203 Intermediate Italian I** 4 s.h.  
Improvement of skills in writing, speaking, and comprehension beyond the level of elementary Italian. Prerequisites: ITAL:1102 or ITAL:3002. GE: World Languages Second Level Proficiency.
- ITAL:2204 Intermediate Italian II** 4 s.h.  
Improvement of skills in writing, speaking, and comprehension beyond the level of elementary Italian. Prerequisites: ITAL:2203. GE: World Languages Fourth Level Proficiency.
- ITAL:2440 Italian Arts for International Success** 3 s.h.  
Exploration of Italy's centuries-old artistic tradition; students become familiar with some of the most important manifestations of Italian culture and reflect on how the arts have been informing business initiatives. Taught in English. GE: Literary, Visual, and Performing Arts.
- ITAL:2550 Images of Modern Italy** 3-4 s.h.  
Survey of Italy's history since Unification; diverse aspects of modern Italian culture and society through visual and textural materials; optional discussion sections taught in Italian. Taught in English. Requirements: for students earning 4 s.h.—ITAL:2204. GE: Historical Perspectives; Values and Culture.
- ITAL:2660 The Italian American Experience** 3 s.h.  
Exploration of Italian American presence in the U.S. by investigating historical background, multifaceted reality, heritage, and contribution to national culture; examination of Italian American ethnicity as portrayed in American literature, film, and television through an interdisciplinary approach; analysis of how Italian American writers and filmmakers have represented their community and contributed to shape their own cultural identity. Taught in English. GE: Diversity and Inclusion.
- ITAL:2770 The Mafia and the Movies** 3 s.h.  
Exploration of the myth of the Mafia and mobsters and examination of its function through a selection of Italian films; students investigate the multifaceted nature of Italian organized crime, and consider its historical, geographical, social, and economical dimensions. Taught in English. GE: International and Global Issues.
- ITAL:2880 Italian Food Culture** 3 s.h.  
Introduction to Italian food culture; students explore how Italian culinary tradition was born and evolved over time, often reflecting historical and economic developments in the country; the different geographical regions of Italy and how each region established its own food culture, while at the same time being part of a national food culture; how Italian food has become a defining element of Italianness in the world, with focus on the birth of Italian-American foodways. Taught in English. GE: Values and Culture.
- ITAL:2990 Independent Study** arr.
- ITAL:3002 Intensive Elementary Italian** 4,6 s.h.  
ITAL:1101 and ITAL:1102 combined in one semester; fundamentals of Italian language and culture including reading, writing, comprehension, and speaking skills. Requirements: two years of another foreign language. GE: World Languages Second Level Proficiency.
- ITAL:3305 Advanced Italian** 3-4 s.h.  
Improvement of skills in writing, speaking, and comprehension beyond the level of intermediate Italian; activities include class discussions, oral presentations, compositions, readings of modern texts, review and expansion of grammar. Prerequisites: ITAL:2204.
- ITAL:3306 Advanced Italian II** 3-4 s.h.  
Improvement of skills in writing, speaking, and comprehension beyond the level of intermediate Italian; activities include class discussions, oral presentations, compositions, readings of modern texts, review and expansion of grammar. Prerequisites: ITAL:2204.
- ITAL:4550 Topics in Italian Studies** 3 s.h.  
Varied topics. Requirements: at least one course taught in Italian at the 2000 level or above.
- ITAL:4633 Dante's Inferno** 3-4 s.h.  
A virtual poetic journey through Hell; critical reading of Dante's *Inferno*, the first volume of *The Divine Comedy*, and the many ways this text has been interpreted and reinterpreted; while primary focus is on Dante's work, other texts and media are introduced to enhance the reading. Taught in English; discussion sessions in Italian. Requirements: for Italian majors taking 4 s.h. option—ITAL:2204.
- ITAL:4634 The Italian Renaissance** 3 s.h.  
Introduction to literature and culture of the Italian Renaissance; readings address various aspects of late medieval and renaissance culture including mysticism, humanism, women's position vis-à-vis literary tradition, and the relationship between literature and the arts. Taught in Italian. Prerequisites: ITAL:2204.
- ITAL:4660 Transcultural Texts and Translations** 3 s.h.  
Exploration of transcultural texts and films that have contributed to reshape the Italian cultural landscape; analysis and discussion of topics including migration and diaspora, belonging and exclusion, memory and nostalgia, prejudices and other obstacles to integration, use of language as a means of rejection and connection, struggles of new generations, hybrid identities, and imagined transformations that foster constructive interactions between cultures, histories, and languages; reflection and engagement in the practice of translation as a way of honing linguistic and cultural competency. Taught in Italian. Recommendations: at least one course taught in Italian at the 2000 level or above.
- ITAL:4667 Modern Italian Fiction** 3 s.h.  
Survey of major developments in Italian fiction, from birth of the modern novel in the 19th century to present-day transcultural narratives. Taught in Italian. Prerequisites: ITAL:2204.
- ITAL:4668 Modern Italian Poetry and Theater** 3 s.h.  
Survey of major developments in modern Italian poetry and theater in relation to historical and cultural context. Taught in Italian. Prerequisites: ITAL:2204.
- ITAL:4990 Independent Study** arr.
- ITAL:4998 Honors Research and Thesis** 3 s.h.

## Arabic Courses

### **ARAB:1000 First-Year Seminar** 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

**ARAB:1001 Elementary Modern Standard Arabic I** 5 s.h.  
Speaking, listening, reading, and writing skills. GE: World Languages First Level Proficiency.

**ARAB:1002 Elementary Modern Standard Arabic II** 5 s.h.  
Continuation of ARAB:1001. Requirements: ARAB:1001. GE: World Languages Second Level Proficiency.

**ARAB:1020 Study Abroad: Language (Elementary)** 5 s.h.  
Modern Standard Arabic (MSA); speaking, reading, listening and writing skills. Requirements: non-native speaker of Arabic; heritage speaker of Arabic should contact the course supervisor for appropriate placement.

### **ARAB:1050 Topics in Middle East/Muslim World Studies I** 3 s.h.

Contemporary cultural questions and debates in the Muslim and Arabic-speaking world. Taught in English.

### **ARAB:2001 Intermediate Modern Standard Arabic I** 5 s.h.

Communication in speaking and writing; cultural topics. Requirements: ARAB:1002. GE: World Languages Second Level Proficiency.

### **ARAB:2002 Intermediate Modern Standard Arabic II** 5 s.h.

Continuation of ARAB:2001. Requirements: ARAB:2001. GE: World Languages Fourth Level Proficiency.

### **ARAB:2006 Transnational Solidarities** 3-4 s.h.

Examination of connections forged by intellectuals, activists, and political thinkers in struggles against systems of colonialism, imperialism, capitalism, and state violence throughout the 20th century; opportunities to make connection with other struggles against racism, supremacy, patriarchy, and domination; optional discussion section taught in Arabic. Taught in English. Requirements: for 4 s.h. option - ARAB:1002. Same as WLLC:2006.

### **ARAB:2020 Study Abroad: Language (Intermediate)** 6 s.h.

Modern Standard Arabic (MSA); speaking, reading, listening and writing. Requirements: non-native speaker of Arabic; heritage speaker of Arabic should contact the course supervisor for appropriate placement. Recommendations: one year of Arabic study.

### **ARAB:2025 Study Abroad: Culture and Society** 1 s.h.

Introduction to Moroccan culture and society through direct observation and interaction; intensive orientation, cultural exchange activities, learning excursions outside Fez, homestay with a Moroccan family.

### **ARAB:2030 Formal Spoken Arabic** 2-3 s.h.

Conversational practice with a native speaker; for students who have completed fourth-semester Arabic. Requirements: ARAB:1002 or ARAB:2002; non-native or non-heritage speaker of Arabic.

### **ARAB:2050 Topics in Middle East/Muslim World Studies II** 3 s.h.

Contemporary cultural questions and debates in the Muslim and Arabic-speaking world. Taught in English.

### **ARAB:3005 Culture and Resistance: The Modern Middle East** 3-4 s.h.

Introduction to literature, cinema, and music of the Modern Middle East; how artists from Arab world, Turkey, and Iran explore their political terrain; how they depict issues of gender and sexuality; impact of the Arab Spring; exploration of art as expression and resistance; intersection between cultural and political; short stories, graphic novels, film, music, and visual arts. Taught in English.

### **ARAB:3011 Advanced Modern Standard Arabic I** 3 s.h.

Advanced Arabic grammar and syntax, composition writing, formal conversation (similar to conversations on Arabic mass media); classical Arabic texts, other materials written for persons whose first or official language is Arabic. Requirements: ARAB:2002.

### **ARAB:3012 Advanced Modern Standard Arabic II** 3 s.h.

Continuation of ARAB:3011; advanced Arabic grammar and syntax, composition writing, formal conversation (similar to conversations on Arabic mass media); classical Arabic texts, other materials written for persons whose first or official language is Arabic. Requirements: ARAB:3011.

### **ARAB:3020 Study Abroad: Language (Advanced)** 6 s.h.

Modern Standard Arabic (MSA); speaking, reading, listening, and writing. Requirements: non-native speaker of Arabic; heritage speaker of Arabic should contact the course supervisor for appropriate placement. Recommendations: two or more years of Arabic language.

### **ARAB:3030 Media Arabic** 3 s.h.

Introduction to vocabulary, expressions, and terminology used in Arab print and broadcast media; supplements study in modern standard Arabic. Taught in Arabic. Requirements: ARAB:2002.

### **ARAB:3050 Arab Culture Through Dialects** 3 s.h.

Communication in dialectal Arabic, Arabic dialectology, cultural topics, music and film in dialectal Arabic. Requirements: ARAB:1001; non-native or non-heritage speaker of Arabic.

### **ARAB:3498 Translate Iowa Project** arr.

Internship with the Translate Iowa Project. Taught in English. Requirements: TRNS:2000 or TRNS:3179 or TRNS:3202 or ENGL:3724 or JPNS:3201 or FREN:4890 or SPAN:3030 or SPAN:3050 or SPAN:4980. Same as TRNS:3498.

### **ARAB:4512 Topics in Global and Transnational Culture** 3-4 s.h.

In-depth look at a theme in cultural expression arising from interactions between countries and regions; focus on contemporary or historical issues; use of materials ranging from literature and the visual arts to music, mass media, and more; general processes through which cultures are formed in mutual and uneven relationships; research project. Taught in English. Recommendations: completion of a GE CLAS Core International and Global Issues course. Same as GRMN:4512, WLLC:4512.

### **ARAB:4990 Independent Study** arr.

Material not covered in regularly offered courses; independent study guided by an instructor.

## Swahili Courses

### **SWAH:1000 First-Year Seminar** 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

- SWAH:1001 Elementary Swahili I** **4 s.h.**  
Development of basic Swahili conversations; introduction to Kiswahili culture, grammar, and vocabulary necessary for communication; asking and responding to simple and short questions. GE: World Languages First Level Proficiency.
- SWAH:1002 Elementary Swahili II** **4 s.h.**  
Builds on fundamentals of Kiswahili learned in SWAH:1002; students increase their proficiency in the language; introduction to Swahili language and culture through reading and listening to Swahili authentic materials. Requirements: SWAH:1001. GE: World Languages Second Level Proficiency.
- SWAH:1010 Introduction to Swahili Language and Culture** **2 s.h.**  
Introduction to Swahili language, history, and culture for anyone who would like to learn more about East Africa, Swahili language, and culture; multidisciplinary sources include texts, newspapers, booklets, films, music videos, pictures, handouts, websites, and a taste of Swahili cuisine; provides a bird's eye view of East African culture; previous knowledge of Swahili not required.
- SWAH:2001 Intermediate Swahili I** **4 s.h.**  
Development of language skills and intercultural understanding; use simple conversation for everyday life topics, language use for daily basis needs using familiar topics, maintain conversation on simple and relevant topics, and exchange information about subjects of interest; students compare discussions and conversations to their own experiences, read literary texts and biographies, and watch video clips, movies, and documentaries to compare and relate the culture to their own backgrounds. Requirements: SWAH:1002. GE: World Languages Second Level Proficiency.
- SWAH:2002 Intermediate Swahili II** **4 s.h.**  
Continuation of SWAH:2001; students increase competence in speaking the language and cultural understanding; general Swahili grammar and cultural studies; using the language to talk about job careers, lifestyles, basic rules/policies, complicated situations, purchasing and negotiating prices; development of communicative skills and intercultural understanding by reading a wide variety of texts and types. Requirements: SWAH:2001. GE: World Languages Fourth Level Proficiency.
- SWAH:3006 Conversational Swahili** **3 s.h.**  
Extensive practice in production and comprehension of spoken Swahili; students read and interpret simple texts, and write sentences and/or paragraphs about various topics; use of online resources to develop topics of discussion; students improve their Swahili grammar and vocabulary skills through conversations and discussions. Requirements: SWAH:2002 with a minimum grade of D.
- SWAH:3007 Advanced Swahili** **3 s.h.**  
Advanced speaking, listening, reading, and writing skills. Requirements: grade of D+ or higher in SWAH:2002.
- SWAH:3010 Kiswahili for Business** **3 s.h.**  
World of Swahili business; role of Swahili-speaking countries in world trade; particular focus on business in East Africa. Taught in Swahili. Prerequisites: SWAH:1001.
- SWAH:3090 Topics in Swahili** **3 s.h.**  
Varied topics in Swahili studies. Taught in Swahili. Prerequisites: SWAH:2002.
- SWAH:4050 Kiswahili in Cyberspace** **3 s.h.**  
First-hand experience in the Kiswahili cyberworld; how to text in Kiswahili; what is in the Kiswahili blogosphere; where to find news, job and business opportunities, and discussions of health and environmental issues in Kiswahili on the internet; why and how do residents of the Kiswahili-speaking nations of East Africa, from farmers and school teachers to health professionals and business entrepreneurs, use cyberspace; taught primarily in Kiswahili. Prerequisites: SWAH:1002.
- SWAH:4070 Swahili in the Modern World** **3 s.h.**  
Deep insight into intercultural connections of Swahili and other parts of the world. Taught in Swahili. Prerequisites: SWAH:2001.
- SWAH:4090 Swahili Independent Study** **1-3 s.h.**  
Material not covered in regularly offered courses; independent study guided by an instructor.

# French, B.A.

## Learning Outcomes

At time of graduation, majors will have reached the equivalent of the intermediate high/advanced low level on the American Council on the Teaching of Foreign Languages (ACTFL) scale in the four areas of speaking, listening, reading, and writing with a special emphasis on literature and culture, language, or French and Arabic, depending on their track.

### Interpersonal Communication

- Ability to interact orally and in writing at a level sufficient for effective communication on a wide range of topics with French-speaking interlocutors from the Francophone world and across cultures.

### Written Communication

- Ability to analyze, synthesize, engage critically, and effectively present written information and argumentation on what is heard, read, or viewed on the literatures and cultures of the Francophone world—France, North-and sub-Saharan Africa, the Indian Ocean, the Caribbean, and the French-speaking communities of North America.

### Cross/Intercultural Communication

- Ability to gain knowledge on the various Francophone cultures of the world, and to reflect upon and deal appropriately with their linguistic, cultural, and artistic history and diversity.

## Requirements

The Bachelor of Arts with a major in French requires a minimum of 120 s.h., including 33-37 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Furthering Language Incentive Program (FLIP) credit may not be counted toward the major.

The French Language and Culture Advanced Placement (AP) exam with a score of 4 or higher is considered to be the equivalent to FREN:3000 Third-Year French.

Students majoring in French complete a set of four foundation courses plus the requirements for one of four tracks: the French and Arabic track, the language track, the literature and culture track, or the teaching track.

The B.A. with a major in French requires the following coursework.

Code	Title	Hours
Foundation Courses		12
Track Courses		21-25
<b>Total Hours</b>		<b>33-37</b>

## Foundation Courses

Code	Title	Hours
All of these:		
FREN:3060	Introduction to Reading and Writing in Literature	3
FREN:3300	French Grammar	3
FREN:4020	Oral Expression in French II	3

One of these:

FREN:3007	French Phonetics	3
FREN:3020	Oral Expression in French I	3

Students must maintain portfolios documenting their progress toward attaining the objectives of the French major.

A maximum of one course taught in English may be counted toward the major, except with the French and Arabic track; courses taught in English with an additional semester hour in French are exempt from this rule. Students should consult with their advisors before registering.

Transfer credit may be accepted, and students are encouraged to participate in study abroad, but the last two courses in the major ordinarily must be completed at the University of Iowa. Transfer credit is evaluated on an individual basis by the faculty in charge of study abroad.

Students choose an emphasis in one of the following four tracks when they declare the major (or later, but before their fourth year).

## Tracks

### French and Arabic Track

The French and Arabic track is designed for students interested in combining study of the French and Arabic languages with history, politics, and religions of Middle Eastern cultures and with a major in another area, such as political science, geography, or history.

Requirements for the French and Arabic track include seven or eight courses (25 s.h.) in addition to the foundation coursework in French. Refer to "Literature and Culture, Language Courses" below for French courses that will satisfy that requirement.

Code	Title	Hours
Three courses in French language, or literature and culture, taught in French, with at least one numbered above 4000		9
Two or three courses in Arabic language beyond first year		10
Two courses on Middle Eastern cultures (prefix FREN), taught in French or English, or approved courses from other departments		6

### Language Track

The language track is designed for students with an interest in language and translation, as well as French and Francophone literature and culture. Students work in specific areas such as international business, comparative stylistics, and translation.

Requirements for the language track include seven courses (21 s.h.) in addition to the foundation coursework in French. Refer to "Literature and Culture, Language Courses" below for French courses that will satisfy that requirement.

Code	Title	Hours
FREN:3410	Business French	3
FREN:4007	Topics in French Linguistics	3
Five courses in French language, or literature and culture		15

All language track students take FREN:3410 Business French and FREN:4007 Topics in French Linguistics. Of the remaining five courses, only one may be taught in English under the French department (prefix FREN). This restriction does not apply to courses taught in English with an additional semester

hour in French. Students must complete at least one course numbered above 4000, in addition to the required course FREN:4007.

Courses in French stylistics and textual analysis, another language, economics, political science, and/or business are recommended as adjunct electives.

## Literature and Culture Track

The literature and culture track is designed for students who are interested in combining study of French and Francophone literatures and cultures with a major in another area, such as cinema, communication studies, history, international studies, political science, or journalism.

Requirements for the literature and culture track include seven courses (21 s.h.) in addition to the foundation coursework in French. Refer to "Literature and Culture, Language Courses" below for French courses that will satisfy that requirement.

Code	Title	Hours
	Five courses in literature and culture	15
	Two courses in language, or literature and culture	6

Only one of these courses may be taught in English under the French department (prefix FREN). This restriction does not apply to courses taught in English with an additional semester hour in French. At least two courses must be numbered above 4000.

## Teaching Track

The teaching track is designed for students who intend to earn licensure to teach in elementary and/or secondary schools. Students must successfully complete the requirements for the major in French with the teaching track and must complete the College of Education's Teacher Education Program (TEP), which requires education courses and student teaching (see "Teacher Licensure" below).

Requirements for the French major's teaching track include seven courses (21 s.h.) in addition to the foundation coursework in French. Refer to "Literature and Culture, Language Courses" below for French courses that will satisfy that requirement.

Code	Title	Hours
	Four courses in literature and culture	12
	Three courses from these areas: language, literature and culture	9

Only one of these courses may be taught in English under the French department (prefix FREN). This restriction does not apply to courses taught in English with an additional semester hour in French. At least two courses must be numbered above 4000.

## Literature and Culture, Language Courses

Students can select courses from the following to satisfy track requirements. All courses are taught in French unless otherwise indicated.

### Literature and Culture

Code	Title	Hours
FREN:3000	Third-Year French	3
FREN:3120	French Civilization	3

FREN:3130	French-Speaking Cultures	3
FREN:3160	Study Abroad: Culture	3
FREN:3225	Studies in Modern France	3
FREN:3232	French Literary Translation Workshop	3
FREN:3250	Topics in French Studies I	3
FREN:4015	Francophone Cinema (taught in English)	3-4
FREN:4017	Global Comics (taught in English)	3-4
FREN:4026	French Women Writers (taught in English)	3-4
FREN:4030	Aspects of Poetry	3
FREN:4080	Post-Colonial Literature in France	3
FREN:4090	Quebec Literature	3
FREN:4100	French Cinema (taught in English)	3-4
FREN:4110	Francophone Literature of the African Diaspora	3
FREN:4210	Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South (taught in English)	3-4
FREN:4433	France Under Nazi Occupation, 1940-1944 (taught in English)	3-4
FREN:4520	Versailles Under the Sun King (taught in English)	3-4
FREN:4540	Gender and Sexuality in French Cinema (taught in English)	3-4
FREN:4750	Topics in French Studies II	3

## Language Courses

Code	Title	Hours
FREN:3000	Third-Year French	3
FREN:3007	French Phonetics	3
FREN:3190	Psycholinguistic Aspects of Bilingualism (taught in English)	3-4
FREN:3240	Media French	3
FREN:3360	Study Abroad: Language	3
FREN:3410	Business French	3
FREN:4007	Topics in French Linguistics	3
FREN:4070	Introduction to the Study of Meaning (taught in English)	3

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Majors who want to earn teacher licensure should choose the French teaching track. See "Teaching Track" above.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must have a g.p.a. of at least 3.50 for work undertaken in the department and a cumulative University of Iowa g.p.a. of at least 3.33.

To graduate with honors in the major, departmental honors students must register for FREN:4995 Honors Research and Thesis or one honors-designated course numbered above 4000. They must complete an honors thesis or the equivalent (e.g., translation, comparative stylistics, cultural studies, or research) in French and must present their work to a faculty committee.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the French major.

## Career Advancement

Students majoring in French may combine their studies with courses in education to prepare for jobs in high school teaching. They may go on to graduate study in areas such as French, comparative literature, and other interdisciplinary areas as preparation for college-level teaching. Or they may combine other skills and studies with their major in French to prepare for challenging career opportunities in international government, business, finance, travel, communications, and other fields where the knowledge of more than one language is essential.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

**Before the third semester begins:** competence in first-year French.

**Before the fifth semester begins:** second-year French (FREN:2002 Intermediate French II).

**Before the seventh semester begins:** three of the four requirements for the major, FREN:3007 French Phonetics or FREN:3020 Oral Expression in French I, FREN:3060 Introduction to Reading and Writing in Literature, FREN:3300 French Grammar, one or two other courses in the major, and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** FREN:4020 Oral Expression in French II and three more courses in the

major; for the French language track, FREN:3410 Business French and FREN:4007 Topics in French Linguistics.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

(typically in February for spring, September for fall)

**Hours 15-18**

**Total Hours 121-132**

- a Courses taught in English with an additional semester hour in French are exempt from this rule. Students should consult with their advisors before registering.
- b FREN:1001, FREN:1002, FREN:2001, and FREN:2002 do not count for credit toward the major. Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin major level coursework and not be required to take semesters 1-4 of the language.
- c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- d Fulfills a major requirement and may fulfill a GE requirement.
- e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- g Students complete 21-25 s.h. in track courses. Required coursework varies by track.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Italian, B.A.

## Why Study Italian?

Italian is the gateway to one of the world's richest cultures. Italy has the most United Nations Educational, Scientific and Cultural Organization (UNESCO) world heritage sites—artistic treasures considered to be of universal value—of any country in the world, due to its history as the birthplace of the Roman Empire and the Renaissance. In addition to an internationally recognized cultural patrimony, the country also has one of the world's largest economies. Italy is a world leader in design, fashion, art restoration, the culinary arts, robotics, shipbuilding, electromechanical machinery, machine tool manufacturing, construction machinery, space engineering, pharmaceuticals, and genetic mapping. Music, cinema, and sports also speak Italian. The video, *Italy the Extraordinary Commonplace*, highlights Italy's important contributions.

Students pursue Italian studies for cultural reasons, for travel and study plans in Italy, and because it enhances their competitiveness in today's marketplace. Since an estimated 950 Italian companies have offices in the U.S., and the U.S. is the third-ranked country of destinations for Italian export, many employers are seeking people who speak both Italian and English. A major in Italian opens doors to careers in a variety of fields; see Career Advancement [p. 506] in this section of the Catalog.

## Italian: Languages, Culture, and Creativity

The major in Italian provides many opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and extracurricular activities such as the Italian Table (weekly conversation hours) and the film series, Italian Movie Nights.

## Learning Outcomes

The goal is for students who graduate with a major in Italian to be able to:

- understand any spoken language even when delivered at fast native speed;
- communicate effectively, in both oral and written discourse, considering varying registers and cultural contexts;
- read with ease all forms of the written language, including complex texts such as specialized articles and literary works;
- reflect with critical insight on a range of topics in Italian literature, history, and contemporary culture;
- explain the significance of a representative selection of figures, texts, and tendencies in the literature and other forms of cultural production from the target language-speaking world;
- recognize and reflect in an informed way on cultural differences as well as shared values between Italian culture and their native cultures; and
- develop an intellectual engagement and reflective sensibility that will contribute to their lifelong learning.

## Requirements

The Bachelor of Arts with a major in Italian requires a minimum of 120 s.h., including 32-33 s.h. of work for the

major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students may count a maximum of 9 s.h. (three courses) of approved upper-level transfer or study abroad credit toward the major in Italian, but they must take either ITAL:3305 Advanced Italian or ITAL:3306 Advanced Italian II at the University of Iowa. The Italian Language and Culture Advanced Placement (AP) exam with a score of 4 or higher is the equivalent to ITAL:2203 Intermediate Italian I and ITAL:2204 Intermediate Italian II. Furthering Language Incentive Program (FLIP) credit may not be counted toward the major.

The B.A. with a major in Italian requires the following coursework.

Code	Title	Hours
All of these:		
ITAL:2203	Intermediate Italian I	4
ITAL:2204	Intermediate Italian II	4
ITAL:3305	Advanced Italian	4
ITAL:3306	Advanced Italian II	4
ITAL:4550	Topics in Italian Studies	3
ITAL:4633	Dante's Inferno	4
ITAL:4660	Transcultural Texts and Translations	3
ITAL:4667	Modern Italian Fiction	3
One of these:		
ITAL:2550	Images of Modern Italy	4
An additional course taught in Italian numbered above ITAL:3002		3

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Majors who want to earn teacher licensure should include an additional 2 s.h. in their work for the major. They should consult the director of undergraduate studies.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must have a g.p.a. of at least 3.50 for work undertaken in the department and a cumulative University of Iowa g.p.a. of at least 3.33.

To graduate with honors in the major, students must register for ITAL:4998 Honors Research and Thesis and one honors-designated course numbered above ITAL:3002. They must complete an honors thesis or the equivalent (e.g., translation, comparative stylistics, cultural studies, or research) in Italian and must present their work to a faculty committee.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the Italian major.

### Career Advancement

A background in Italian is helpful for students planning careers in international business, tourism, and teaching, as well as for opera singers, musicians, art and art history majors, and for those who study architecture, fashion, and design. With more than a thousand Italian companies doing business in the United States, the major in Italian combines well with career options in a wide variety of fields.

Students majoring in Italian may combine their studies with courses in education to prepare for jobs in high school teaching. They may go on to graduate study in areas such as Italian, comparative literature, and other interdisciplinary areas as preparation for college-level teaching. Several Italian majors go on to law school. Or they may combine other skills and studies with their major in Italian to prepare for challenging career opportunities in international government, business, finance, public relations, journalism, education, archaeology, arts administration, nongovernmental organizations, publishing, library science, politics, travel and tourism, hospitality management, communications, the culinary arts, and in other fields where the knowledge of more than one language is essential.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters to stay on the University's Four-Year Graduation Plan.

**Before the third semester begins:** competence in first-year Italian.

**Before the fifth semester begins:** competence in second-year Italian (ITAL:2204 Intermediate Italian II).

**Before the seventh semester begins:** four courses in the major numbered above ITAL:3002 Intensive Elementary Italian and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** a total of at least five courses in the major numbered above ITAL:3002.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and enough semester hours to graduate.

#### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course choice and sequence will vary and should be discussed with an academic advisor. For more sample plans, see MyUI.

# Arabic Language, Minor

## Requirements

The undergraduate minor in Arabic language requires a minimum of 15 s.h. earned in Arabic courses (prefix ARAB) considered intermediate (2000 level) or advanced (3000 level) for the minor, including 12 s.h. taken at the University of Iowa. All courses for the minor must be taught in Arabic. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- b Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.

# French, Minor

## Requirements

The undergraduate minor in French requires a minimum of 15 s.h. earned in advanced French courses (prefix FREN) numbered 3000 or above, including at least 9 s.h. taken at the University of Iowa. All courses for the minor must be taught in French. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The French Language and Culture Advanced Placement (AP) exam with a score of 4 or higher is considered to be the equivalent to FREN:3000 Third-Year French. Furthering Language Incentive Program (FLIP) credit may not be counted toward the minor.

Credit from the University Studies Abroad Consortium (USAC) programs in Pau and Lyon, France, and the Study in Montpellier program in France counts as University of Iowa credit for the minor; 6 s.h. earned in other study abroad programs may be counted toward the minor.

Those who plan to use their work toward a minor in French as academic background for earning teacher licensure should contact the Office of Student Services in the College of Education about requirements.

# French and Francophone World Studies, M.A.

The Master of Arts in French and Francophone world studies is offered with an optional French education emphasis.

For more detailed information on graduate degrees in French and Francophone world studies, contact the Department of French and Italian or visit its website. The department also publishes the Guide for Graduate Students and Assistants.

## Requirements

The Master of Arts program in French and Francophone world studies requires a minimum of 30 s.h. of graduate credit and is offered with or without thesis.

Thesis students may apply up to 6 s.h. of thesis credit toward the 30 s.h. required for the degree. They must take a written and oral examination on their areas of study and must defend their thesis at the time of the comprehensive examination. The thesis prospectus must be accepted one year before a student defends the thesis.

Nonthesis students must pass a written and oral examination. With permission of the director of graduate studies and the department chair, nonthesis students may earn up to 6 s.h. of the required 30 s.h. outside the department or transfer up to 6 s.h. of coursework completed at another institution.

All M.A. students must complete the following coursework.

Code	Title	Hours
FREN:5001	Introduction to Graduate Study	2
FREN:5020	Comparative Stylistics	3
At least four graduate-level literature or culture courses numbered 5000 or above		

## French Education Emphasis

The Master of Arts program with French education emphasis requires a minimum of 38 s.h. of graduate credit in French. The program is intended primarily for prospective secondary school and community college teachers. Candidates must pass a final written and oral examination.

All French education emphasis students must complete the following coursework.

Code	Title	Hours
FREN:5001	Introduction to Graduate Study	2
FREN:5020	Comparative Stylistics	3
Courses in French literature numbered 5000 or above (minimum requirement)		
		9

## Admission

Applicants must have completed the equivalent of the University of Iowa undergraduate major in French. They also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants for fall semester whose application materials are received in the department by January 15 have the best chance to be admitted and receive financial aid. They must

submit academic transcripts, letters of recommendation from three persons familiar with their past academic work, Graduate Record Examination (GRE) General Test results, a statement of purpose in taking graduate work, and one or more samples of original writing, one of which should be in French, that show their ability to pursue graduate work in French (an honors thesis, term paper, seminar paper, or other course papers).

## Financial Support

Teaching assistantships are offered through the department, and University fellowships and scholarships are available through the Graduate College. Contact the Department of French and Italian for details.

Exchange assistantship agreements with the University of Pau and the University of Poitiers provide one year of residence at these universities in France for graduate students.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

<b>Hours</b>	<b>5</b>
<b>Total Hours</b>	<b>30</b>

- a Students may complete 38 s.h. of graduate level coursework for the French education emphasis. In addition to fulfilling the requirements for the MA non-thesis, an additional 9 s.h. of coursework in French literature numbered 5000 or above is required. Graduate elective coursework may be reduced by 1 s.h. if students choose to complete the French education emphasis.
- b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
- c Complete at least four graduate-level literature or culture courses numbered 5000 or above.
- d May apply 6 s.h. towards the degree from coursework outside the department, including graduate transfer coursework.
- e Written and oral exam on areas of study.

# French and Francophone World Studies, Ph.D.

For more detailed information on graduate degrees in French and Francophone world studies, contact the Department of French and Italian or visit its website. The department also publishes the Guide for Graduate Students and Assistants.

## Requirements

The Doctor of Philosophy program in French and Francophone world studies requires a minimum of 72 s.h. of graduate credit, including credit earned for the M.A. degree.

The Ph.D. takes at least three years of graduate study, including at least one year spent in residence at the University of Iowa. Students must pass a comprehensive examination and make a successful oral defense of their dissertation.

Requirements for the Ph.D. with a major in French and Francophone world studies include the following.

Code	Title	Hours
FREN:5001	Introduction to Graduate Study	2
FREN:7000	Thesis (6 s.h. minimum)	6
A 5000-level course in critical theory approved by the director of graduate studies or faculty advisor		3

Students must possess fifth-semester or equivalent proficiency in a foreign language other than French. They are required to spend at least one year teaching as graduate assistants in the department.

## Admission

An M.A. in French is prerequisite to admission to the Ph.D. program in French and Francophone world studies. However, successful completion of an M.A. in French does not necessarily qualify a student for doctoral study.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants for fall semester whose application materials are received in the department by January 15 have the best chance to be admitted and receive financial aid. They must submit academic transcripts, letters of recommendation from three persons familiar with their past academic work, Graduate Record Examination (GRE) General Test results, a statement of purpose in taking graduate work, and one or more samples of original writing, one of which should be in French, that show their ability to pursue graduate work in French (an honors thesis, term paper, seminar paper, or other course papers).

## Financial Support

Teaching assistantships are offered through the department, and University fellowships and scholarships are available through the Graduate College. Contact the Department of French and Italian for details.

Exchange assistantship agreements with the University of Pau and the University of Poitiers provide one year of residence at these universities in France for graduate students.

## Career Advancement

The Ph.D. program is designed to prepare students for research, teaching, and professional service normally required of college and university faculty members.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Students entering with fewer than 30 s.h. of coursework from the master's degree must work with their faculty advisor to complete the needed appropriate graduate coursework.
- b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
- c Work with faculty advisor to determine appropriate graduate level elective coursework and sequence.
- d Teaching assistants are required to take FREN:5000.
- e Must be a 5000-level course approved by the director of graduate studies or faculty advisor.
- f Defend prospectus by end of third year.
- g Typically completed during third year fall semester; consists of three four-hour examinations followed by an oral examination.
- h Complete a minimum total of 6 s.h.
- i Dissertation defense.

# Gender, Women's, and Sexuality Studies

## Chair

- Rachel Marie-Crane Williams

## Director, Graduate Studies

- Naomi Greyser

## Director, Undergraduate Studies

- Aniruddha Dutta

**Undergraduate majors:** gender, women's, and sexuality studies (B.A.); social justice (B.A.)

**Undergraduate minors:** gender, health, and healthcare equity; gender, women's, and sexuality studies; social justice

**Graduate certificate:** gender, women's, and sexuality studies

**Faculty:** <https://clas.uiowa.edu/gwss/people>

**Website:** <https://clas.uiowa.edu/gwss/>

Gender, women's, and sexuality studies (GWSS) is an interdisciplinary field that promotes social justice and full citizenship by asking when and how gender intersects with sexuality, class, race, ethnicity, nationality, globalization, and physical ability in ways that can exclude and oppress but that also can enrich cultures and expand opportunities. GWSS trains students to investigate how gender and sexuality shape challenges people face in areas such as the environment, culture and the media, education, health, violence, and the economy. Critical thinking and analysis and development of expertise in writing, research, and presentation provide the program's graduates with the professional skills they will need to pursue careers or graduate study in a wide variety of fields or academic disciplines.

## Programs

### Undergraduate Programs of Study

#### Majors

- Major in Gender, Women's, and Sexuality Studies (Bachelor of Arts) [p. 526]
- Major in Social Justice (Bachelor of Arts) [p. 532]

#### Minors

- Minor in Gender, Health, and Healthcare Equity [p. 539]
- Minor in Gender, Women's, and Sexuality Studies [p. 540]
- Minor in Social Justice [p. 541]

### Graduate Program of Study

#### Certificate

- Certificate in Gender, Women's, and Sexuality Studies [p. 544]

## Courses

- Gender, Women's, and Sexuality Studies Courses [p. 515]
- Social Justice Courses [p. 523]

## Gender, Women's, and Sexuality Studies Courses

### GWSS:1000 First-Year Seminar 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

### GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies 3 s.h.

Introduction to feminist interdisciplinary study of women's lives, with emphasis on race, class, sexual orientation; work, family, culture, political and social change. GE: Diversity and Inclusion.

### GWSS:1002 Diversity and Power in the U.S. 3 s.h.

How the intersection of gender, race, class affects individual experience, national ideology, social institutions; interdisciplinary perspective. GE: Diversity and Inclusion.

### GWSS:1003 Introduction to Social Justice 3 s.h.

Introduction to principles and theories of social justice; students examine the history of influential social movements in the United States and the world in the last century; how intersectionality can create tensions between and among members of social movements; how race, class, gender, age, geography, and our bodies play a role in the application of theories of social justice. GE: Diversity and Inclusion. Same as SJUS:1001.

### GWSS:1046 Environmental Politics in India 3 s.h.

How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as ANTH:1046, GEOG:1046, SJUS:1046.

### GWSS:1060 Sex and Popular Culture in America 3 s.h.

Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values and Culture. Same as AMST:1060, ENGL:1410.

### GWSS:1070 Asian American Women Writers 3 s.h.

Introduction to major Asian American women writers of 20th and 21st centuries; construction of gender within Asian American communities and diverse experiences of Asians in America; novels, short stories, memoirs, films, and historical and critical texts.

### GWSS:1074 Inequality in American Sport 3 s.h.

Cultural meanings of sport in contemporary U.S. culture; sport experiences, inclusion, and exclusion as affected by social class, gender and sexuality, age and ability, race and ethnicity, and religion. GE: Diversity and Inclusion. Same as AMST:1074, SPST:1074.

### GWSS:1100 Contraception Across Time and Cultures 3 s.h.

Methods and history of contraception; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Taught in English. Same as CLSA:1100, GHS:1100, GRMN:1100, WLLC:1100.

**GWSS:1310 Gender and Society 3 s.h.**

Role and status of women in society; sex differences, sex role socialization, theories about origin and maintenance of sexual inequalities, changes in social life cycle of women, implications for social institutions and processes; focus on contemporary United States. GE: Values and Culture. Same as SOC:1310.

**GWSS:1600 Wonder Woman Unleashed: A Hero for Our Times 3 s.h.**

Development of the woman warrior archetype in mythology (Athena/Minerva and Artemis/Diana), literature (Camilla from *The Aeneid* by Virgil), and history (Artemisia and Joan of Arc); focus on the development of Amazon narratives in *Metamorphoses* by Ovid, *The Book of the City of Ladies* by Christine de Pizan, and *On Famous Women* by Boccaccio; students read *Wonder Woman Chronicles* and one or two critical studies on the subject, which may include *The Secret History of Wonder Woman* by Jill Lepore. Same as WLLC:1600.

**GWSS:2000 Desire, Consent, and Sex in U.S. Culture(s): Replacing Coercion and Violence with Respect 3 s.h.**

Exploration of desire, sex, consent, and sexual violence in practical and theoretical dimensions; recent demands by students to change the way sexual violence is addressed; lectures by scholars, activists, and professionals; sexual violence, rape culture, and sexuality-based oppression confronted with academic/therapeutic/political knowledge; real world strategies to help better understand and combat sexual violence, theories. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

**GWSS:2041 Gender, Communication, and Culture 3 s.h.**

Social construction of gender and gendered identities across a range of communicative settings in contemporary U.S. society, including relationships, schools, organizations, media, and social movements; how communication creates, reproduces, sustains, and sometimes challenges and changes the meaning of gender and, with that, cultural structures and practices. Same as COMM:2041.

**GWSS:2046 Gender, Sexuality, and Space 3 s.h.**

Introduction to feminist and queer theories of social space; material and symbolic construction of gender and sexuality; communicating gender and sexuality in different social spaces and scales in historical and contemporary contexts. Same as COMM:2045.

**GWSS:2050 Jews, Judaism, and Social Justice 3 s.h.**

Jewish frameworks for grappling with justice and ethics from ancient world to present day; emphasis on internal diversity of Jewish experience as well as interactions with dominant and other minority cultures. Same as SJUS:2050.

**GWSS:2052 Women in Islam and the Middle East 3 s.h.**

Women in the Islamic community and in non-Muslim Middle Eastern cultures; early rise of Islam to modern times; references to women in the Qur'an and Sunnah, stories from Islamic history; women and gender issues. GE: International and Global Issues; Values and Culture. Same as RELS:2852.

**GWSS:2075 Gender, Sexuality, and Media 3 s.h.**

Mediated representations of gender and sexuality (television, film, and internet) to understand how these complex and complicated codes influence meaning of sex, sexuality, and gender; contemporary and historical examples used to engage texts that illuminate cultural conceptions of femininity, masculinity, heterosexuality, and homosexuality; cases that confuse and trouble the stability of these categories. Same as COMM:2075.

**GWSS:2078 Women, Sport, and Culture 3 s.h.**

Feminist analysis of girls' and women's sports experiences, including reproduction of gender through sport, recent changes in women's intercollegiate athletics, media representations of women's sport, feminist critiques, alternatives to sport. Same as SPST:2078.

**GWSS:2080 The Cultural Politics of HIV-AIDS 3 s.h.**

Complex historical shifts in cultural perceptions about HIV-AIDS in the U.S. and transnationally; controversies around HIV-AIDS and their links with questions of gender and sexuality; how HIV-AIDS subsequently became the basis of a transnational industry comprising nongovernmental organizations, donors, and activists across the global north and south, starting from 1980s in the U.S. when HIV-AIDS first emerged into public sphere as a gay disease; link between HIV-AIDS and ideologies of development or progress, neocolonialism, and emergence of lesbian, gay, bisexual, transgender, intersex, and questioning (LGBTIQ) movements in many parts of world. Recommendations: background in gender studies, and completion of rhetoric or at least one social sciences course. Same as GHS:2080.

**GWSS:2102 Anthropology of Marriage and Family 3 s.h.**

Classic anthropological theories of kinship and marriage, including topics such as cousin marriage and incest; recent work on new reproductive technologies and transnational marriage. Same as ANTH:2102.

**GWSS:2108 Gendering India 3 s.h.**

Aspects of Indian culture, including nation, family, sexuality, work, and religion, through the lens of gender; Hindu India, differences in region, caste, and class. Same as ANTH:2108.

**GWSS:2120 Gender and Technology 3 s.h.**

Study of the technology field as it relates to gender in global perspective; core topics may include gender and STEM fields, gender in technology workplaces, and gender in the design and use of technological products such as mobile technology, artificial intelligence, and video games. Same as ANTH:2120.

**GWSS:2151 Global Migration in the Contemporary World 3 s.h.**

Examination of social, economic, and cultural dimensions of global migration in the contemporary world from a transnational and anthropological perspective; primary focus is on Asian migration to the United States, but in comparison to other migration trajectories. Recommendations: an introductory course in cultural anthropology is useful, but not required. GE: Diversity and Inclusion. Same as ANTH:2151, IS:2151.

**GWSS:2160 Love and Romance in America 3 s.h.**

Exploration of the role of love and romance in the American experience; linking love and romance with American ideals—pursuit of happiness, upward mobility, and liberation of self, nation, and the world; history of romance as a popular genre in film, text, digital, and material culture; love as a social ritual in the context of the nation state, consumerism and gender, race and class; picket fences, free love, bromance, green cards, greeting cards, desperate housewives, break-ups, hook-ups, and happily ever after. Same as AMST:2160.

**GWSS:2172 The History of African American Women from Slavery to Freedom** 3 s.h.

Survey of African American women's history from its beginnings through emancipation and Reconstruction; expansion of slavery in the South and its gendered implications, ways Black women influenced antebellum slave culture, female modes of resistance, abolition of slavery in the North, and ways Northern emancipation shaped Black women's experiences in the region; development of a free Black community and Black women's roles in these new social configurations; African American female body under slavery; impact of war and revolution on African American women's lives; Black women's experiences during Reconstruction.

**GWSS:2190 Love Rules: Law and the Family Across Cultures** 3 s.h.

Recent debates over legalizing gay marriage remind us that the law is not an abstract concept, it is a social creation that emphasizes certain cultural norms over others, both powerful and changeable; family law outlines what one cultural vision of relationships—those between lovers, parent and child, and between kin—supposedly should look like in a given society, a vision always marked by gendered, racial, and sexual divisions of power; students consider what happens when legal norms intersect with diverse ways that people make families through topics including marriage, divorce, custody, and surrogacy across the world. Same as ANTH:2190, IS:2190.

**GWSS:2193 Literature, Culture, and Women** 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as ENGL:2193.

**GWSS:2200 The Racial and Gender Construction of Identity, Citizenship, and Rights in America** 3 s.h.

Survey of how race and gender has affected notions of identity and inclusion/exclusion in the social and political sphere, and access to citizenship rights. Same as SJUS:2200.

**GWSS:2222 Women in Premodern East Asian Literature** 3 s.h.

Reading of East Asian literature portraying women from the first millennium B.C.E. through the 1800s; discussion of issues related to representations of women and conventional social, familial roles in premodern China, Korea, and Japan; cross-cultural comparison of different perceptions and portrayals of women in premodern East Asian literary traditions. Taught in English. Recommendations: completion of all ESL courses. GE: Diversity and Inclusion. Same as ASIA:2222, WLLC:2222.

**GWSS:2250 The History of Social Justice Movements** 3 s.h.

History of contemporary social movements in the U.S. and how these movements have directly affected policies related to environment, food, reproductive justice, civil rights, immigration, labor, race, and gender; students read, explore, discuss, and write about the history of contemporary social movements in the U.S. that had lasting effects on policies related to environment, agriculture, health, reproductive justice, civil rights, labor, race, gender, and immigration; exploration of multiple modes of representation and resistance including protests, boycotts, strikes, music, art, writing, riots, civil disobedience, theater, poetry, dance, and poetry. Same as HIST:2250, SJUS:2250.

**GWSS:2300 Race, Class, Gender, and Labor: Worker Struggles for Legal Rights in the United States** 3 s.h.

Students familiar with the gig economy and the "Fight for \$15" examine historical tensions between the working class, middle class, poor, and the one percent—at the intersections of race and gender—and how these diverse groups wielded their influence on the legal system in order to gain power; students examine how workers in the United States joined together, put their bodies on the line for social justice, and created radical, legal change. Same as SJUS:2300.

**GWSS:2400 Health Disparities and Intersectionality with U.S. Latina/o/x Peoples** 3 s.h.

Exploration of intersectionality—related to gender, immigration status, and more—and U.S. health disparities, particularly as they impact U.S. Latina/o/x peoples; Latina/o/x as a heterogeneous group originating from a variety of countries, with families that may have mixed immigration, education, class, and/or nationality status; public health approaches and concepts; intersectionality, social determinants of health, the Social Ecological Model, Ecosocial Theory, and Critical Race Theory; examination of various levels of racism, sexism, and other forms of intersectional discrimination. Same as CPH:2240, LATS:2400.

**GWSS:2422 Feminist Ethics** 3 s.h.

Philosophical evaluation of gender as a pervasive and persistent structuring principle for social inequality. Same as PHIL:2422.

**GWSS:2500 Love, War, Activism: Stories About Women from Across the World** 3 s.h.

Literary and cinematic representations of gender in works by authors and directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of love, sexuality, friendship, and parenting; shifts in gender identities and relations that result from social and political crises. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:2570, SJUS:2500.

**GWSS:2571 Visualizing Human Rights** 3 s.h.

Cinematic representations of human rights issues in films by directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of race relations in colonial and postcolonial societies; public health issues, specifically women's and children's rights in context of the HIV/AIDS pandemic. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:2571, SJUS:2571.

**GWSS:2600 Men, Masculinity, Identity, and Health** 3 s.h.

Impact of male gender roles, masculine identity, and biology on men's health throughout the life course; focus on description, causes, and possible solutions for health related disparities for men in general and for men of color; concepts including machismo, caballerismo, John Henryism, Man Points, hegemonic, and other gender roles related to promoting and reducing quality of health and well-being of U.S. males.

**GWSS:2650 Global Reproduction** 3 s.h.

History of birth control and work of activists and organizations that emerged to promote it; troubling connections that spawned between reproductive rights and population control movements. Same as GHS:2650.

- GWSS:2651 Gender and Sexuality in the Ancient World** 3 s.h.  
Survey of gender and sexuality issues in the social, political, and religious life of ancient Greece and Rome; evidence from literature, the visual arts, archaeology. Requirements: completion of GE CLAS Core Rhetoric and sophomore standing. GE: Values and Culture. Same as CLSA:2651.
- GWSS:2674 Food, Body, and Belief: A Global Perspective** 3 s.h.  
Exploration of local, national, and global forces that shape food consumption, body image, and spiritual practices. Taught in English. Same as GHS:2674, RELS:2674.
- GWSS:2700 Transgender People, Politics, and Cultures** 3 s.h.  
How people live across and beyond social differentiation of sex and gender; how practices of identity building and political resistance transform or negotiate with social structures of gender, race, and class; burgeoning field of transgender studies which pushes to interrogate some fundamental aspects of human societies and question how supposedly "natural" categories of sex and gender are constructed and transformed; exploration of lives, politics, and subcultures of people who differ from gender norms in the United States and across the world; how transgender cultures and politics negotiate with structures of race and class. Recommendations: background in gender studies or social sciences.
- GWSS:2800 African American Women, Health, Hair, and Sexuality** 3 s.h.  
From the exotic to the erotic, African American women's bodies have been constructed to fulfill a variety of personal and cultural fantasies as well as social functions that are "killing us softly"; how cultural icons and myths of Black women—Jezebel, Mammy, Tragic Mulatto, Aunt Jemima, Sapphire, Matriarch, Welfare Queen, and more recently, the overachieving Black woman—shape and create restrictions and visions of the self that contribute to health disparities; engaging Black feminist/womanist theory to explore how larger images influence everyday acts of self-care and pleasure, such as hair and sexuality, on the health of African American women. Same as AFAM:2800.
- GWSS:2900 Love, Sex, and Money: Sexuality and Exchange Across Cultures** 3 s.h.  
Everything from pop songs to advertisements warn us of the evils of gold diggers, "blingsexuals," or "buyfriends"; in America, money is seen to corrupt the purity and authenticity of love and desire, but money also is an inevitable part of sex, love, and intimacy; cross-cultural examination of how relationships between love, money, and sexuality are organized in different places; different ways people form relationships with lovers, spouses, and persons who enable childbearing; rethinking gender roles, work, value, and power. Same as ANTH:2191.
- GWSS:3005 Practicum** 3-4 s.h.  
Experience in volunteer work for organizations that provide services for women. Prerequisites: GWSS:1001. Same as SJUS:3005.
- GWSS:3010 Transnational Sexualities** 3 s.h.  
How ideas about normative and nonnormative sexuality, gender/sexual identities, and related social movements travel across geographical, political, and cultural boundaries; potentials and limits of using conceptual frameworks (i.e., sexuality, gender, LGBT, queer) across the west and global south; how sexuality always intersects with race, class, nationhood, and transnational systems of power; power structures that shape gender/sexuality through a transnational approach; connection of inequalities within the United States with those across the world. Same as GHS:3015.
- GWSS:3050 Topics in Gender, Women's, and Sexuality Studies** 1,3 s.h.  
Representative topics: American Indian/First Nations Women; population and the environment; feminism and the family; women, health, and healing; women of color.
- GWSS:3100 LGBTQ/Queer Studies** 3 s.h.  
Overview of queer theory and queer studies; development of critical thinking skills in relation to cultural constructions of gender, sexuality, race, and other identity categories.
- GWSS:3101 Anthropology of Sexuality** 3 s.h.  
Practice, definition, and regulation of sex in different cultures and times; use of anthropological tools, including cross-cultural comparison and social constructionist analysis; how social and historical forces shape sex; how a range of topics relate to sexuality, including science, love, work, globalization, ethnicity, health, aging, pornography, and deviance; focus on ways that dynamics (i.e., class, race, gender norms) shape people's culturally and historically specific ways of having and thinking about sex. Same as ANTH:3101.
- GWSS:3118 Politics of Reproduction** 3 s.h.  
Debates over women's reproductive experience, including its medicalization. Same as ANTH:3118.
- GWSS:3121 Love, Marriage, and Family in India** 3 s.h.  
Anthropological understandings of love in India and the region of South Asia more broadly; emphasis on contemporary society; filial and motherly love, arranged marriage and romantic love, devotional and artistic expressions, love between siblings. Same as ANTH:3121.
- GWSS:3130 Blacks and Jews: Race, Ethnicity, and Culture in America** 3 s.h.  
Examination of the historical relationship between Blacks and Jews from antebellum era to present. Same as HIST:3252, SJUS:3130.
- GWSS:3131 Gender and Sexuality in East Asia** 3 s.h.  
Examination of historical construction of gender and sexuality in East Asia from mid-19th century to present. Same as ASIA:3431, RELS:3431.
- GWSS:3133 Anthropology of Race** 3 s.h.  
Anthropological perspectives on race: history of race in anthropology; social, cultural, and political dimensions of race; intersections with gender; biology of human diversity. Recommendations: introductory course in social sciences. Same as ANTH:3133, SJUS:3133.

- GWSS:3138 Writing to Change the World** 3 s.h.  
Writers who can frame questions, weigh competing perspectives, structure an argument, and write with clarity and respect for diverse audiences as powerful agents for change; writers who have inspired human rights movements; public forms of writing with local organizations whose missions are shaped by social attitudes to gender and sexuality; conducting research and evaluation of evidence; best practices for communicating and collaborating; skills needed to be an effective advocate. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as SJUS:3138.
- GWSS:3150 Feminist Readings of History** 3 s.h.  
Feminist analysis has revolutionized the writing of history—not only on gender and sexuality, but also on topics as diverse as politics, economics, international relations, and social hierarchies (e.g., race, class, ability, religion); students examine feminist transformations of history with specific topics chosen by instructor. Same as HIST:3150.
- GWSS:3154 Sexuality in the United States** 3 s.h.
- GWSS:3157 Gender, Sexuality, and Human Rights** 3 s.h.  
History of gender and sexuality as components in international human rights activism and law; current debates, representative topics. Same as HIST:3157.
- GWSS:3171 Higher Education and Social Justice** 3 s.h.  
Reflection of students' place within educational systems; development of rhetorical tools for successful advocacy; advocacy through writing for change within higher education and the UI; student loans, racial segregation, social and economic immobility, free speech, data insecurity, sexual assault. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3171, SJUS:3171.
- GWSS:3173 Gender, Sexuality, and Literature** 3 s.h.  
Representations of gender, class, and sexuality in British, American, or postcolonial literature. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3173.
- GWSS:3177 Women and Their Bodies in Health and Illness** 3 s.h.  
Basic facts about structure and functioning of female body; particular attention to adjustments the body makes during normal physiological events (menstruation, sexuality, reproduction, menopause) and during illness processes; women's mental and physical health issues in relation to women's lives and roles in society; relationship of women as consumers, practitioners, and activists to health system; achievements and limitations of women's health movements; anti-oppression, intersectionalities, and cross-cultural perspectives. Same as NURS:3739.
- GWSS:3185 Global Women's Cinema** 3 s.h.  
Introduction to contemporary women's cinema and feminist filmmaking from around the world; emphasis on post-1968 period and cinema produced outside the United States. Same as WLLC:3185.
- GWSS:3190 Tell Magazine Writing and Publishing Workshop** 3 s.h.  
Students serve as editorial, writing, and production staff for *Tell*, the Department of Gender, Women's, and Sexuality Studies' digital magazine; *Tell* explores issues of race, class, gender, sexuality, ability, national identity, and other differences of power and privilege often absent in mainstream publications; students learn technical aspects of digital publication management, write their own stories and columns for the magazine and its ongoing blog, create digital and graphic materials, organize outreach events and manage social media outlets for the magazine, and work as editors and collaborative partners with one another and with writers and artists who submit work for publication. Requirements: gender, women's, and sexuality studies or social justice major or advanced minor.
- GWSS:3200 Theories for Gender, Women's, and Sexuality Studies** 3 s.h.  
Historical and contemporary theoretical approaches to the study of gender and sexuality; emphasis on interdisciplinary methods of analysis and interpretation.
- GWSS:3257 Civil Rights and Racial Justice: A Tour Through the South** 4 s.h.  
Exploration of the history of modern civil rights movement through lectures, shared readings, videos, and discussion; includes preparation and two-week tour of civil rights sites in the South. Prerequisites: SJUS:1001 or SJUS:2250 or GWSS:1002 or CCCC:2220 or AFAM:1030 or AFAM:2268 or HIST:2268 or AFAM:3053 or AMST:3053 or HIST:3253 or HIST:3232 or HIST:4260 or AFAM:3100 or HIST:3160 or HIST:3260 or AFAM:3260 or HIST:3282 or GWSS:3282 or HIST:4130 or HIST:4260. Same as AFAM:3257, HIST:3257, SJUS:3257.
- GWSS:3280 Women and Power in U.S. History Through the Civil War** 3 s.h.  
Exploration of how women, as political actors, shaped the outcome of familiar events (the American Revolution, the Civil War); how they organized social movements around important issues of their lives such as the abolition of slavery and the right to consent to sexual intimacy; how women's inequality was established in law and social practice; how women thought about and challenged inequality, both as individuals and in social movements. Same as HIST:3280.
- GWSS:3282 Women and Power in U.S. History Since the Civil War** 3 s.h.  
Major events and themes in U.S. women's history from late 19th century to present; how women's experiences have differed from men's; exploration of distinct, but interconnected histories of different groups of women; changing ideals of femininity; women's experience of industrialization, immigration, depression, war, and sexual revolution; women's activism for social reform, women's rights, labor, civil rights, peace, and the New Right. Same as HIST:3282.
- GWSS:3300 Mothers and Motherhood** 3 s.h.  
Treatment of motherhood; role of motherhood and devaluation of social status. Same as ANTH:3300.

**GWSS:3326 The Politics of Progress: NGOs, Development, and Sexuality** 3 s.h.

How nonprofit sector increasingly plays a significant role in countering socioeconomic inequalities in the United States and global south; role of nonprofit organizations in relation to governmental policies of development, transnational funders, and ideas of sexual progress; critics of development institutions' arguments that western ideas of progress impose and adversely affect groups they claim to empower, yet also may foster struggles for social justice that go beyond development policy; examination of transnational nonprofit sector in relation to gender/sexuality and how it impacts women and gender/sexual minorities around the world. Recommendations: background in gender studies or social sciences. Same as GHS:3327.

**GWSS:3350 Transnational Feminism** 3 s.h.

Exploration of feminist perspectives from the United States and outside of the United States; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions and populations. Same as ANTH:3125, IS:3350.

**GWSS:3375 Women and Poverty** 3 s.h.

Examination of women's experiences of poverty in the U.S.; scholarship that seeks to better understand the complex intersections of gender and class, with specific emphasis on poverty; students meet and interact with professionals working in Iowa, addressing poverty and related issues, and engage in an ongoing dialogue about the causes, consequences, and possible solutions to poverty in communities and beyond; coursework and discussions focus specifically on unique challenges women encounter as they navigate their way through and/or out of poverty using an intersectional approach.

**GWSS:3400 Advocacy and Engagement Colloquium** 1-3 s.h.

How to capitalize on volunteer experience; how experience can lead to careers in health care, law, advocacy, social work, social justice, education; issues related to domestic violence, community education, sexual assault; health care for women, youth, and LGBTQ populations; health care inequities, social justice; field journal. Recommendations: active volunteer work at feminist-centered organizations in Iowa, completion of 40-hour training, plan to serve organization for up to ten or more hours each month, and attendance at regularly scheduled volunteer meetings. Same as SJUS:3400.

**GWSS:3421 Performing Autobiography** 3 s.h.

Advanced seminar and workshop; immersive readings in genre of contemporary autobiographical work, scholarship and criticism, and performance texts and videos as established artists have developed them; students write and perform their own original pieces stemming from personal experiences and interests. Recommendations: RHET:1030. Same as THTR:3421.

**GWSS:3425 Women, Crime, and Justice** 3 s.h.

Overview of women's experiences with crime and criminal justice system, with reference to experiences of men for purposes of comparison; role of race, ethnicity, and poverty in women's experiences; causes of crime, inequalities in police-citizen interactions, imprisonment, and other aspects of criminal justice system experience. Same as CRIM:3425.

**GWSS:3427 Family, Gender, and Society in Early Modern Europe** 3 s.h.

Social and gender ideologies as inscribed in patterns of authority (household, church, state); ranges of human endeavor (intellectual, psychological, biological); community organization (social, economic, legal, sexual); their influence on concept of community. Same as HIST:3427.

**GWSS:3430 Women on Stage** 3 s.h.

Examination of how and why women in the United States have expressed themselves through theatre and performance from 1776 to present; students study plays as performed events in specific times and places for specific audiences through works by African American, Asian American, European American, Latina, Native American, and lesbian/queer writers; what the theater—as a public, embodied art form—offers female writers; how stakes differ for women of diverse backgrounds in using this often suspect and uniquely powerful medium in particular historical moments; how changing definitions of gender and sexuality come into play; prior background in theater not required. Same as AMST:3430, THTR:3430.

**GWSS:3459 Making Change, Making History: Iowa's Black Activists and Digital History** 3 s.h.

From the 1830s through the end of the 19th century, African Americans formed local, state, and national meetings called "Colored Conventions," where they strategized about how to achieve social justice; students explore Iowa's connections to this history of political activism. Same as HIST:3259, SJUS:3459.

**GWSS:3460 Girls' Studies** 3 s.h.

Introduction to the interdisciplinary field of girls' studies; examination of social constructions of girlhood with focus on contemporary girls in the U.S. and globally; media and popular culture representations of girls; girl culture and psychology; girls' lived experiences of sexism, racism, classism, and homophobia; topics include body, sexuality and identity, education, differences of race, class and nationality, and forms of girls' political activism.

**GWSS:3475 Working for Social Justice** 3 s.h.

Identification and pursuit of careers in a wide range of fields where people advocate for and engage issues of social justice; writing self-assessments, résumés, sample employment application letters, statements of purpose; development of e-portfolios that highlight areas of student research and expertise; mock interview practice; Pomerantz Career Center resources; interviewing professionals in careers focused on social justice and feminist issues; local internship and volunteer possibilities; national and international educational and career opportunities for making a difference in the world. Same as SJUS:3475.

**GWSS:3550 Social Justice, Religion, and Spirituality: Faith and Belief Ignited** 3 s.h.

Examination of some distinctively American traditions of religion, spirituality, and social justice, including women and men who have channeled their religio-spiritual beliefs into social justice in their communities; historical and anthropological focus; examination of U.S. movements (e.g., the Catholic Worker movement, the United Farm Workers movement, the civil rights movement, iterations of the feminist movement); direct involvement with the communities. Same as RELS:3550, SJUS:3550.

**GWSS:3570 Transnational and Postcolonial Writing by Women** 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3570.

**GWSS:3600 Art, Feminist Practice, and Social Justice** 3 s.h.

Issues related specifically to gender, women's, and sexuality studies through the arts; themes include broad social issues such as violence, sexual assault, incarceration, reproduction, immigration, and labor; students explore a theme and work with community partners to address the theme through social practice in the arts. Recommendations: prior courses in gender, women's, and sexuality studies, or courses in social work, art education, or studio arts.

**GWSS:3620 Narrative Medicine, Social Justice, and the End of Life** 3 s.h.

Role of narrative in health care practice, decisions, and ethics; narrative production of patient and professional selves in health care; varied practices, diverse perspectives, and situated production of medical and health care knowledge. Prerequisites: RHET:1030. Same as SJUS:3620.

**GWSS:3650 Freedom, Democracy, and Revolution** 3 s.h.

Investigation of the relationship between freedom, democracy, and revolution in American history; beginning with primary founding documents that grew out of the American Revolution, students explore the ideological and concrete expressions of these ideas, particularly as they affect race and gender; meaning, significance, and boundaries of revolution; space between slavery and freedom; considerations of women's inclusion in the body politic; relationship between political and economic democracy; and questions about whose voices should define the terms of the debate.

**GWSS:3700 Narratives of Gender and Masculinity** 3 s.h.

Engaging with and deconstructing the stories men and women tell about what it means to be a man in the 21st century; topics may include cultural differences in the construction of gender and masculinity, queer masculinity, masculinity and social justice movements (especially feminism), history of the present moment in masculinity, masculinity from a nonbinary perspective, literary representations of masculinity, and masculinity in mass culture. Requirements: completion of GE CLAS Core Rhetoric.

**GWSS:3750 Born in the USA: Fertility and Reproduction** 3 s.h.

Exploration of when, why, how, and with whom Americans bear children; comparison to other developed and developing countries in the world; infertility and its treatments; ethics of surrogacy; voluntary childlessness; rapid rise of nonmarital childbearing in the U.S. and other countries; politics of childbirth; declining populations; rapid aging of rich where women have basically stopped having children. Same as SOC:3750.

**GWSS:3900 Creative and Critical Practice: Theories, Methods, and Skills for the Capstone Senior Project** 3 s.h.

Opportunity to plan and begin work on capstone senior research projects in gender, women's, and sexuality studies and social justice; capstone project builds on coursework, knowledge, and academic skills; activism and engagement in the community; personal experiences and interests; topics include how to choose a subject area and focus, develop key questions, define a problem, find and use sources, evaluate arguments, identify research archives, employ different methodologies and forms of writing, and link research to creative work. Prerequisites: GWSS:1002 and (GWSS:1001 or GWSS:1003).

**GWSS:3950 Academic Internship** 1-3 s.h.

Work under supervision of a faculty member on a scholarly or creative project related to the department or campus, or work with the director of undergraduate studies as a media, digital publishing, or teaching intern; students receive credit for the internship depending on the number of hours they work, learning objectives they develop, and meetings, written reports, and other research-related or self-evaluative writing they contract to do with the supervising faculty member. Prerequisites: GWSS:1001 or SJUS:1001. Requirements: gender, women's, and sexuality studies or social justice major or minor. Same as SJUS:3950.

**GWSS:3990 Independent Readings and Research in Gender, Women's, and Sexuality Studies** arr.

Topics not covered in regular curriculum.

**GWSS:4000 Sex/Text: Engendering the Essay** 3 s.h.

Analysis and discussion of significant essays that have engaged and articulated sexuality and gender in contemporary societies; students write and workshop on these topics: bodies are battlegrounds, gender is convoluted, sex is serious; gender and sexuality are emotionally charged, politically volatile, and socially complex issues. Recommendations: major or minor in writing-intensive disciplines, or previous writing classes.

**GWSS:4026 French Women Writers** 3-4 s.h.

Survey of 20th- and 21st-century French women's literature; introduction to French feminist thought; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. option—FREN:3060 and FREN:3300. Same as FREN:4026.

**GWSS:4090 Senior Research Seminar** 3 s.h.

Design and development of individual creative or scholarly projects in the field of gender, women's and sexuality studies; emphasis on strengthening students' research and writing skills; synthesizing, extending, and applying work already completed in the major. Prerequisites: GWSS:1001 or GWSS:1002 and GWSS:3900. Requirements: two women's studies courses numbered above GWSS:1001.

**GWSS:4095 Honors Senior Thesis** arr.

Supervised research, writing.

**GWSS:4140 Feminist Activism and Global Health** 3 s.h.

How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101 or GWSS:1001 or CPH:1400 or GHS:2000. Same as ANTH:4140, CBH:4140, GHS:4140.

**GWSS:4169 Feminist Rhetorics** 3 s.h.

Exploration of multiple, varied, and complex histories of U.S. feminisms from rhetorical perspectives; focus on primary documents, the letters, speeches, essays, and manifesto/as that shaped women's movements and inspire social change from late 18th century to present; social, political, and personal issues that feminists sought to address and transform, communicative and rhetorical methods utilized, and implications of these efforts for women's lives and broader U.S. American culture. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, COMM:2069, COMM:2070, COMM:2072, COMM:2075, COMM:2076, COMM:2077, COMM:2078, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, COMM:2248). Same as COMM:4169.

**GWSS:4180 Gender and Sexuality in Comics** 3 s.h.

Critical and historical examination of representations of gender and sexual identities in comics and graphic novels, including nonfiction and popular genres.

**GWSS:4540 Gender and Sexuality in French Cinema** 3-4 s.h.

Cultural, historical, and semiotic approach to studying constructions of gender identity and discourses on sexuality in French cinema from 1920s to present; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. Same as FREN:4540.

**GWSS:4820 Sociology of Sexuality** 3 s.h.

Sociological perspectives on sexuality, including theoretical and conceptual developments, empirical regularities, and social implications; sexual expression in the United States. Prerequisites: SOC:1010 or SOC:1030. Same as SOC:4820.

**GWSS:5000 Foundations for Gender, Women's, and Sexuality Studies** 3 s.h.

Theory, methodology, practice, archive, and robust stakes of the interdisciplinary field of gender, women's, and sexuality studies (GWSS); analysis and discussion of the history and possible futures of the field, as well as the relationship of GWSS to student's developing interests and areas of study.

**GWSS:5120 Reading Transnational Feminist Theory** 3 s.h.

Issues in transnational feminist scholarship, including coloniality and globalization as related to domains of gendered work, cultural traditions, and development; interdisciplinary readings—including from qualitative social science—consider connections across the Global North and South. Same as ANTH:5120.

**GWSS:6050 Seminar: Gender, Women's, and Sexuality Studies** 3 s.h.

Special topics in gender, women's, and sexuality studies.

**GWSS:6130 Francophone Thought** 3 s.h.

Comparative study of intellectual, literary, cultural, social, and historical developments that have taken place in Francophone Sub-Saharan Africa, the Caribbean, and the Indian Ocean; approaches include cultural theory, literary criticism, cinema, visual arts, women's studies, popular culture, history, and cultural anthropology; examination of key conceptual paradigms and cultivation of skills in critical thinking methodologies; students acquire the appropriate theoretical tools to explore an interdisciplinary scholarly field and learn to establish connections between the main components of the course and their own research interests. Taught in French. Same as FREN:6130.

**GWSS:6238 Gender and Education in Historical Perspective** 3 s.h.

Gender in context of history of education in the United States; coeducation in common schools, academies, and high schools; women's arrival and experiences as college students; masculinity in higher education; single-sex versus coeducation; emphasis on conflicting historical interpretations. Same as EPLS:6238.

**GWSS:6239 LGBTQ History in Education** 3 s.h.

Lesbian, gay, bisexual, transgender, and questioning (LGBTQ) issues in context of history of education in United States; LGBTQ teachers, students, and studies in K-12 and higher education; emphasis on differences in historical interpretations. Same as EPLS:6239.

**GWSS:6300 Writing for Learned Journals** 1-4 s.h.

Seminar that supports graduate students in bringing written work to publishable form; analysis of target journals' audiences, interests, and citation politics; submission and the publication process; response to reader reports and criticism; best writing and research practices; discussion of knowledge cultures and discourses in disciplines and the contemporary academy. Same as AMST:6300, GRAD:6300, RHET:6330.

**GWSS:6345 New Materialisms** 3 s.h.

Exploration of new strategies for rupturing persistent dichotomies of subject/object, representation/real, culture/nature, and active humans/passive things offered by theories of the vitality and agency of matter; introduction to origins of and developments in new materialisms; oriented to interdisciplinary inquiry and application to research in the humanities, broadly conceived; particular attention to actor-network theory, feminism, queer theory, infrastructuralism, and materialist theories of media. Same as COMM:6345.

**GWSS:6350 Gender and Religion** 3 s.h.

What contemporary religious and spiritual groups and their members believe about sex, sexuality, and gender; how they define and redefine what it means to be a "man" and a "woman"; exploration of contemporary "conservative" and "progressive" cosmologies and theologies; underlying beliefs that construct these perspectives and the impact on individual and group practices; broader implications of individual and group beliefs and practices on national and global policies. Same as RELS:6350.

**GWSS:6415 Seminar: Language, Gender, and Sexuality** 3 s.h.

Role of language and discourse in cultural constructions of gender identities and relations, including domination and subordination; theoretical perspective and methodological approaches that have shaped thought on the language/gender nexus. Same as ANTH:6415, LING:6415.

**GWSS:6990 Independent Study** arr.

**GWSS:7000 Gender, Women's, and Sexuality Studies Graduate Practicum** **1-3 s.h.**

Volunteer work experience, or conceptualization and execution of research projects. Prerequisites: GWSS:5000.

**GWSS:7122 Readings: History of Gender and Sexuality** **arr.**

Topics in international and transnational history of gender and sexuality. Same as HIST:7122.

**GWSS:7205 Gender and Race in Nineteenth-Century United States** **arr.**

Same as AFAM:7205, HIST:7205.

**GWSS:7214 Readings: African American Women's History** **arr.**

Same as AFAM:7214, HIST:7214.

**GWSS:7220 Readings: History of Sexuality in the United States** **arr.**

History of sexuality within the family, its move into the marketplace; social customs and taboos, methods of birth control and abortion, religion, medical and psychological writings, state policies. Same as HIST:7220.

**GWSS:7275 Readings in the History of Women and Gender in the U.S.A.** **arr.**

Same as HIST:7275.

**GWSS:7400 Graduate Research Conference Presentation** **1 s.h.**

Crafting a presentation for the annual James F. Jakobsen Graduate Conference each spring; students work with an existing creative and/or scholarly project from another class or context; discussion of an array of presentation practices in gender, women's, and sexuality studies including interactivity, accessibility, audience engagement, workshopping, recursive revision, institutional justice, and various experiments with form, genre, discipline, body, and language; for students pursuing the Certificate in Gender, Women's, and Sexuality Studies. Requirements: gender, women's, and sexuality studies graduate certificate standing.

**GWSS:7435 Readings: Women, Men, and Gender in Modern Europe** **arr.**

Same as HIST:7435.

**GWSS:7805 Readings in Middle East History** **arr.**

Global perspective on major topics in modern history of the Middle East and North Africa including gender, sexuality, race, and empire. Same as HIST:7805.

## Social Justice Courses

**SJUS:1001 Introduction to Social Justice** **3 s.h.**

Introduction to principles and theories of social justice; students examine the history of influential social movements in the United States and the world in the last century; how intersectionality can create tensions between and among members of social movements; how race, class, gender, age, geography, and our bodies play a role in the application of theories of social justice. GE: Diversity and Inclusion. Same as GWSS:1003.

**SJUS:1046 Environmental Politics in India** **3 s.h.**

How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as ANTH:1046, GEOG:1046, GWSS:1046.

**SJUS:1600 War Stories** **3 s.h.**

Exploration of the history of U.S. conflicts from Vietnam to the War on Terror through novels, film, and other cultural forms; specific focus on how U.S. social structures influence experiences of war. Same as AMST:1600, LATS:1600.

**SJUS:2000 Theories of Social Justice** **3 s.h.**

Introduction to important theories of intersectional feminist social justice. Prerequisites: RHET:1030. Recommendations: prior or concurrent enrollment in SJUS:1001 strongly recommended for social justice majors or minors.

**SJUS:2050 Jews, Judaism, and Social Justice** **3 s.h.**

Jewish frameworks for grappling with justice and ethics from ancient world to present day; emphasis on internal diversity of Jewish experience as well as interactions with dominant and other minority cultures. Same as GWSS:2050.

**SJUS:2135 Rhetorics of Diversity and Inclusion** **3 s.h.**

How language is at the root of oppression while also being a powerful tool to enact social justice; students explore the roles of rhetoric in constructing diversity and examine how different bodies and minds are ascribed value based on their alignment with cultural attitudes toward normalcy, ability, race, gender, sexuality, and more; students use written, spoken, and/or signed language and digital forms of expression to create a more inclusive environment in and beyond the classroom. GE: Diversity and Inclusion. Same as RHET:2135.

**SJUS:2200 The Racial and Gender Construction of Identity, Citizenship, and Rights in America** **3 s.h.**

Survey of how race and gender has affected notions of identity and inclusion/exclusion in the social and political sphere, and access to citizenship rights. Same as GWSS:2200.

**SJUS:2250 The History of Social Justice Movements** **3 s.h.**

History of contemporary social movements in the U.S. and how these movements have directly affected policies related to environment, food, reproductive justice, civil rights, immigration, labor, race, and gender; students read, explore, discuss, and write about the history of contemporary social movements in the U.S. that had lasting effects on policies related to environment, agriculture, health, reproductive justice, civil rights, labor, race, gender, and immigration; exploration of multiple modes of representation and resistance including protests, boycotts, strikes, music, art, writing, riots, civil disobedience, theater, poetry, dance, and poetry. Same as GWSS:2250, HIST:2250.

**SJUS:2294 Indigenous Art Activism and Social Justice** **3 s.h.**

Examination of the Native and political aspects of Native arts in the 19th and 20th centuries, from drawings and material culture produced for tourists and collectors to works that explicitly address Native oppression through federal policies, popular cultural appropriations, and colonial representations of Indigenous peoples; emphasis on Indigenous interpretations of colonial and settler history and culture through various media and representations of Indigenous identity and politics. Same as HIST:2294, NAIS:2294.

**SJUS:2300 Race, Class, Gender, and Labor: Worker Struggles for Legal Rights in the United States** **3 s.h.**

Students familiar with the gig economy and the "Fight for \$15" examine historical tensions between the working class, middle class, poor, and the one percent—at the intersections of race and gender—and how these diverse groups wielded their influence on the legal system in order to gain power; students examine how workers in the United States joined together, put their bodies on the line for social justice, and created radical, legal change. Same as GWSS:2300.

**SJUS:2500 Love, War, Activism: Stories About Women from Across the World** 3 s.h.

Literary and cinematic representations of gender in works by authors and directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of love, sexuality, friendship, and parenting; shifts in gender identities and relations that result from social and political crises. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:2570, GWSS:2500.

**SJUS:2571 Visualizing Human Rights** 3 s.h.

Cinematic representations of human rights issues in films by directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of race relations in colonial and postcolonial societies; public health issues, specifically women's and children's rights in context of the HIV/AIDS pandemic. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:2571, GWSS:2571.

**SJUS:3005 Practicum** 3-4 s.h.

Experience in volunteer work for organizations that provide services for women. Prerequisites: GWSS:1001. Same as GWSS:3005.

**SJUS:3130 Blacks and Jews: Race, Ethnicity, and Culture in America** 3 s.h.

Examination of the historical relationship between Blacks and Jews from antebellum era to present. Same as GWSS:3130, HIST:3252.

**SJUS:3133 Anthropology of Race** 3 s.h.

Anthropological perspectives on race: history of race in anthropology; social, cultural, and political dimensions of race; intersections with gender; biology of human diversity. Recommendations: introductory course in social sciences. Same as ANTH:3133, GWSS:3133.

**SJUS:3138 Writing to Change the World** 3 s.h.

Writers who can frame questions, weigh competing perspectives, structure an argument, and write with clarity and respect for diverse audiences as powerful agents for change; writers who have inspired human rights movements; public forms of writing with local organizations whose missions are shaped by social attitudes to gender and sexuality; conducting research and evaluation of evidence; best practices for communicating and collaborating; skills needed to be an effective advocate. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as GWSS:3138.

**SJUS:3171 Higher Education and Social Justice** 3 s.h.

Reflection of students' place within educational systems; development of rhetorical tools for successful advocacy; advocacy through writing for change within higher education and the UI; student loans, racial segregation, social and economic immobility, free speech, data insecurity, sexual assault. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3171, GWSS:3171.

**SJUS:3190 Global Debt** 3 s.h.

Economies as cultural systems that emphasize the role of worldviews and "meaning-making" in organizing economies; debt as a key mechanism in creation and maintenance of relationships; focus on how exchange, distribution, and obligation serve to shore up or sever various social institutions and links between debt, inequality, and power; debt in various forms, from a round of drinks to student loans, and from the U.S. mortgage crisis to development aid; diverse array of economies—from gift exchange to ceremonial destruction of wealth, and from Melanesia to Wall Street—to evaluate assumptions that undergird different systems of debt and credit. Requirements: introductory course in anthropology or international studies or gender, women's, and sexuality studies. Same as ANTH:3190, IS:3190.

**SJUS:3250 Literature and Social Justice** 3 s.h.

How literature from various time periods—American and global—has enacted, represented, depicted, or encouraged forms and acts of social justice; students study various genres (e.g., essay, poem, autobiography, short story, fiction) and learn how literature has been used to conceptualize social justice, address national and global inequities, and take up complex and intersecting issues of power and privilege. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as ENGL:3170.

**SJUS:3257 Civil Rights and Racial Justice: A Tour Through the South** 4 s.h.

Exploration of the history of modern civil rights movement through lectures, shared readings, videos, and discussion; includes preparation and two-week tour of civil rights sites in the South. Prerequisites: SJUS:1001 or SJUS:2250 or GWSS:1002 or CCCC:2220 or AFAM:1030 or AFAM:2268 or HIST:2268 or AFAM:3053 or AMST:3053 or HIST:3253 or HIST:3232 or HIST:4260 or AFAM:3100 or HIST:3160 or HIST:3260 or AFAM:3260 or HIST:3282 or GWSS:3282 or HIST:4130 or HIST:4260. Same as AFAM:3257, GWSS:3257, HIST:3257.

**SJUS:3400 Advocacy and Engagement Colloquium** 1-3 s.h.

How to capitalize on volunteer experience; how experience can lead to careers in health care, law, advocacy, social work, social justice, education; issues related to domestic violence, community education, sexual assault; health care for women, youth, and LGBTQ populations; health care inequities, social justice; field journal. Recommendations: active volunteer work at feminist-centered organizations in Iowa, completion of 40-hour training, plan to serve organization for up to ten or more hours each month, and attendance at regularly scheduled volunteer meetings. Same as GWSS:3400.

**SJUS:3415 Latina/o/x Protest, Movement, Resistance** 3 s.h.

Examination of history, form, and function of protest, social movement, and resistance by Latina/o/x peoples in the United States. Same as AMST:3415, LATS:3415.

**SJUS:3420 Latinas/os/x and the Law** 3 s.h.

Introduction and survey of Latina/o/x legal history; topics include segregation, educational rights, immigration, voting rights, citizenship, and the criminal justice system. Same as AMST:3420, LATS:3420, POLI:3427.

**SJUS:3459 Making Change, Making History: Iowa's Black Activists and Digital History** **3 s.h.**

From the 1830s through the end of the 19th century, African Americans formed local, state, and national meetings called "Colored Conventions," where they strategized about how to achieve social justice; students explore Iowa's connections to this history of political activism. Same as GWSS:3459, HIST:3259.

**SJUS:3475 Working for Social Justice** **3 s.h.**

Identification and pursuit of careers in a wide range of fields where people advocate for and engage issues of social justice; writing self-assessments, résumés, sample employment application letters, statements of purpose; development of e-portfolios that highlight areas of student research and expertise; mock interview practice; Pomerantz Career Center resources; interviewing professionals in careers focused on social justice and feminist issues; local internship and volunteer possibilities; national and international educational and career opportunities for making a difference in the world. Same as GWSS:3475.

**SJUS:3510 Topics in Social Justice** **3 s.h.**

Students deep dive into a specific topic that invites research and debate about the ways cultures understand social justice—human rights in relation to gender and sexuality, race and ethnicity, generations, class religion, species, and environment.

**SJUS:3550 Social Justice, Religion, and Spirituality: Faith and Belief Ignited** **3 s.h.**

Examination of some distinctively American traditions of religion, spirituality, and social justice, including women and men who have channeled their religio-spiritual beliefs into social justice in their communities; historical and anthropological focus; examination of U.S. movements (e.g., the Catholic Worker movement, the United Farm Workers movement, the civil rights movement, iterations of the feminist movement); direct involvement with the communities. Same as GWSS:3550, RELS:3550.

**SJUS:3560 Public Policy and Persuasion** **3 s.h.**

Students build their skill set in policy analysis, formation, and communication through a social justice lens; engagement in service learning projects in one Iowa community, where work done directly impacts that community's ability to make changes; development of effective writing and oral presentation styles that can be adapted to different audiences; focus on homelessness policy using social policy and social justice concepts to explore work of policy makers who have "right-sized" existing systems to serve communities in crisis and propose solutions to systemic problems that disadvantage marginalized populations. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as PBAF:3560, POLI:3560, RHET:3560.

**SJUS:3620 Narrative Medicine, Social Justice, and the End of Life** **3 s.h.**

Role of narrative in health care practice, decisions, and ethics; narrative production of patient and professional selves in health care; varied practices, diverse perspectives, and situated production of medical and health care knowledge. Prerequisites: RHET:1030. Same as GWSS:3620.

**SJUS:3950 Academic Internship** **1-3 s.h.**

Work under supervision of a faculty member on a scholarly or creative project related to the department or campus, or work with the director of undergraduate studies as a media, digital publishing, or teaching intern; students receive credit for the internship depending on the number of hours they work, learning objectives they develop, and meetings, written reports, and other research-related or self-evaluative writing they contract to do with the supervising faculty member. Prerequisites: GWSS:1001 or SJUS:1001. Requirements: gender, women's, and sexuality studies or social justice major or minor. Same as GWSS:3950.

**SJUS:3990 Independent Study in Social Justice** **arr.**

Topics not covered in regular social justice curriculum.

**SJUS:4080 Advocacy and Engagement Capstone** **3 s.h.**

Design and development of individual creative or scholarly projects in the field of social justice; emphasis on strengthening student's research and writing skills; synthesizing and extending work already completed in the social justice major. Prerequisites: SJUS:1001 and SJUS:2250 and GWSS:1002 and GWSS:3138.

**SJUS:4085 Social Justice Bachelor of Arts Honors Senior Thesis** **3 s.h.**

Work on honors thesis in social justice. Requirements: honors standing, and completion (or in progress) of coursework for B.A. in social justice.

# Gender, Women's, and Sexuality Studies, B.A.

Students who major in gender, women's, and sexuality studies explore gender and sexuality as they intersect with class, race, ethnicity, nationality, and transnational movements. Students develop interdisciplinary research and writing skills, the ability to address structural inequalities from the local to global level, and the critical tools necessary to work toward social transformation and social justice. Students participate in two high impact experiences that prepare them for careers in a wide range of fields. They participate in a practicum at a community-based site where they learn to integrate feminist theory and practice; and during their senior year, students do rigorous, original research for critical or creative projects on topics of their own choosing.

## Learning Outcomes

Students graduating with a major in gender, women's, and sexuality studies (GWSS) will demonstrate how to:

- use feminist intersectional theory in scholarly and creative practice;
- evaluate issues, research problems, and construct arguments using GWSS tools and concepts;
- communicate effectively with diverse communities through speech, writing, and other forms of expression; and
- work collaboratively with others in diverse communities using core GWSS strengths and skills.

## Requirements

The Bachelor of Arts with a major in gender, women's, and sexuality studies (GWSS) requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students may declare the major at any time. They are advised by the Academic Advising Center until they have earned 24 s.h. of credit. Transfer credit is evaluated case by case; a maximum of 12 s.h. of transfer credit may be counted toward the degree. Students may count a maximum of 9 s.h. completed for another major, minor, or certificate toward the gender, women's, and sexuality studies major.

Work for the major consists of the undergraduate core, distribution requirements, and electives. The undergraduate core includes a practicum and culminates in a research seminar.

The B.A. with a major in gender, women's, and sexuality studies requires the following coursework.

Code	Title	Hours
	Undergraduate Core	9
	Distribution Requirements	12-14
	Electives	12-13
	Capstone Courses	6
<b>Total Hours</b>		<b>39-42</b>

## Undergraduate Core

The undergraduate core consists of three courses. GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies examines cultural and social beliefs about sex, gender, race, class, and sexuality; GWSS:1002 Diversity and Power in the U.S. explores the intersections of race, class, and gender in the United States. GWSS:3005/SJUS:3005 Practicum teaches students how to apply feminist intersectional concepts in a practicum experience organized in collaboration with community partners.

Code	Title	Hours
All of these:		
GWSS:1001	Introduction to Gender, Women's, and Sexuality Studies	3
GWSS:1002	Diversity and Power in the U.S.	3
GWSS:3005/ SJUS:3005	Practicum	3-4

## Distribution Requirements

The distribution requirements (total of at least 12 s.h.) are chosen from the following lists. They include one GWSS theory course, one transnational theory course, one GWSS course with a global/comparative focus, and one GWSS or other course with a race/ethnicity focus. Students may request permission from the director of undergraduate studies to use courses not on these lists; ideally, these courses should be offered by the Department of Gender, Women's, and Sexuality Studies (prefix GWSS). At least half of the material in global/comparative topics courses must have a non-U.S. context.

## Theory

Code	Title	Hours
One of these:		
GWSS:3100	LGBTQ/Queer Studies	3
GWSS:3200	Theories for Gender, Women's, and Sexuality Studies	3

## Transnational Theory

Code	Title	Hours
One of these:		
GWSS:3010/ GHS:3015	Transnational Sexualities	3
GWSS:3326/ GHS:3327	The Politics of Progress: NGOs, Development, and Sexuality	3
GWSS:3350/ ANTH:3125/IS:3350	Transnational Feminism	3

## Global/Comparative Focus

Code	Title	Hours
One of these:		
GWSS:2052/ RELS:2852	Women in Islam and the Middle East	3
GWSS:2108/ ANTH:2108	Gendering India	3
GWSS:2151/ ANTH:2151/IS:2151	Global Migration in the Contemporary World	3

GWSS:2222/ ASIA:2222/ WLLC:2222	Women in Premodern East Asian Literature	3	SJUS:2200/ GWSS:2200	The Racial and Gender Construction of Identity, Citizenship, and Rights in America	3
GWSS:2500/ ENGL:2570/ SJUS:2500	Love, War, Activism: Stories About Women from Across the World	3	SJUS:2250/ GWSS:2250/ HIST:2250	The History of Social Justice Movements	3
GWSS:2650/ GHS:2650	Global Reproduction	3	SJUS:3130/ GWSS:3130/ HIST:3252	Blacks and Jews: Race, Ethnicity, and Culture in America	3
GWSS:2700	Transgender People, Politics, and Cultures	3	SJUS:3250/ ENGL:3170	Literature and Social Justice	3
GWSS:2900/ ANTH:2191	Love, Sex, and Money: Sexuality and Exchange Across Cultures	3	ENGL:3459/ AFAM:3459	African American Literature Before 1900	3
GWSS:3101/ ANTH:3101	Anthropology of Sexuality	3	ENGL:3460/ AFAM:3460	African American Literature After 1900	3
GWSS:3121/ ANTH:3121	Love, Marriage, and Family in India	3	HIST:2266/ AFAM:2266	Civil War and Emancipation	3
GWSS:3131/ ASIA:3431/ RELS:3431	Gender and Sexuality in East Asia	3	HIST:2267/ AFAM:2267	African American History to 1877: From Slave Cabin to Senate Floor	3
GWSS:3157/ HIST:3157	Gender, Sexuality, and Human Rights	3	HIST:3275/ AFAM:3275	History of Slavery in the U.S.A.	3-4
GWSS:3185/ WLLC:3185	Global Women's Cinema	3	SSW:3847	Discrimination, Oppression, and Diversity	3
GWSS:3326/ GHS:3327	The Politics of Progress: NGOs, Development, and Sexuality	3	A Native American and Indigenous studies course (prefix NAIS) numbered 2000 or above that does not fulfill a GE CLAS Core requirement		
GWSS:3427/ HIST:3427	Family, Gender, and Society in Early Modern Europe	3	A Latina/o/x studies course (prefix LATS) numbered 2000 or above that does not fulfill a GE CLAS Core requirement		
GWSS:4026/ FREN:4026	French Women Writers	3-4			
GWSS:4140/ ANTH:4140/ CBH:4140/ GHS:4140	Feminist Activism and Global Health	3			
GWSS:4540/ FREN:4540	Gender and Sexuality in French Cinema	3-4			
SJUS:1046/ ANTH:1046/ GEOG:1046/ GWSS:1046	Environmental Politics in India	3			
ANTH:2190/ GWSS:2190/IS:2190	Love Rules: Law and the Family Across Cultures	3			

## Race/Ethnicity in the U.S. Focus

Code	Title	Hours
One of these:		
GWSS:2172	The History of African American Women from Slavery to Freedom	3
GWSS:2800/ AFAM:2800	African American Women, Health, Hair, and Sexuality	3
GWSS:3133/ ANTH:3133/ SJUS:3133	Anthropology of Race	3
GWSS:3177/ NURS:3739	Women and Their Bodies in Health and Illness	3
GWSS:3459/ HIST:3259/ SJUS:3459	Making Change, Making History: Iowa's Black Activists and Digital History	3
SJUS:1001/ GWSS:1003	Introduction to Social Justice	3

## Electives

Students must complete at least four electives (minimum of 12 s.h.), including at least 6 s.h. in courses numbered 3000 or above. Students can count GWSS distribution area requirement courses as electives if they were not used to fulfill their area requirements. With the instructor's permission, honors students may count a graduate-level course numbered 5000 or above toward the electives requirement.

In choosing electives, students are encouraged to pursue a course of study that emphasizes breadth and depth in a specific discipline (anthropology, English, and history, among others) or a focus area (art, writing, literature, sexuality, media, global and transnational studies, race and ethnicity, health, and so on).

Students must select electives from the following list.

Code	Title	Hours
GWSS:1000	First-Year Seminar	1
GWSS:1046/ ANTH:1046/ GEOG:1046/ SJUS:1046	Environmental Politics in India	3
GWSS:1060/ AMST:1060/ ENGL:1410	Sex and Popular Culture in America	3
GWSS:1074/ AMST:1074/ SPST:1074	Inequality in American Sport	3

GWSS:1100/ CLSA:1100/ GHS:1100/ GRMN:1100/ WLLC:1100	Contraception Across Time and Cultures	3	GWSS:2900/ ANTH:2191	Love, Sex, and Money: Sexuality and Exchange Across Cultures	3
GWSS:1310/ SOC:1310	Gender and Society	3	GWSS:3010/ GHS:3015	Transnational Sexualities	3
GWSS:1600/ WLLC:1600	Wonder Woman Unleashed: A Hero for Our Times	3	GWSS:3050	Topics in Gender, Women's, and Sexuality Studies	1,3
GWSS:2000	Desire, Consent, and Sex in U.S. Culture(s): Replacing Coercion and Violence with Respect	3	GWSS:3100	LGBTQ/Queer Studies	3
GWSS:2041/ COMM:2041	Gender, Communication, and Culture	3	GWSS:3101/ ANTH:3101	Anthropology of Sexuality	3
GWSS:2046/ COMM:2045	Gender, Sexuality, and Space	3	GWSS:3118/ ANTH:3118	Politics of Reproduction	3
GWSS:2052/ RELS:2852	Women in Islam and the Middle East	3	GWSS:3121/ ANTH:3121	Love, Marriage, and Family in India	3
GWSS:2075/ COMM:2075	Gender, Sexuality, and Media	3	GWSS:3131/ ASIA:3431/ RELS:3431	Gender and Sexuality in East Asia	3
GWSS:2078/ SPST:2078	Women, Sport, and Culture	3	GWSS:3133/ ANTH:3133/ SJUS:3133	Anthropology of Race	3
GWSS:2080/ GHS:2080	The Cultural Politics of HIV- AIDS	3	GWSS:3138/ SJUS:3138	Writing to Change the World	3
GWSS:2102/ ANTH:2102	Anthropology of Marriage and Family	3	GWSS:3154	Sexuality in the United States	3
GWSS:2108/ ANTH:2108	Gendering India	3	GWSS:3157/ HIST:3157	Gender, Sexuality, and Human Rights	3

## Capstone Courses

These courses help students develop and create their capstone projects. Students can select either option A or option B.

### Option A

Students first take GWSS:3900 in the fall semester of their final year, which focuses on developing advanced research, reading, and writing skills and choosing capstone topics. In the spring of their senior year, students take GWSS:4090, a research and writing workshop in which students work collaboratively with their classmates to complete their creative or scholarship capstone work, including creating a poster for the end of the semester Senior Research Poster Show.

Students who write an honors thesis enroll in GWSS:4095 in the spring semester of their senior year.

Code	Title	Hours
This course:		
GWSS:3900	Creative and Critical Practice: Theories, Methods, and Skills for the Capstone Senior Project	3
One of these:		
GWSS:4090	Senior Research Seminar	3
GWSS:4095	Honors Senior Thesis	3

### Option B

In the fall semester of their final year, students complete SJUS:3400 which requires community service work at a related social justice organization. In the spring of their senior year, students complete SJUS:4080, in which they develop an individual creative or scholarly project that pulls together their lived and community experiences, their academic learning, and significant research. The project culminates with a poster displayed at the Senior Research Poster Show.

Students who write an honors thesis enroll in SJUS:4085 in the spring semester of their senior year.

Code	Title	Hours
This course:		
SJUS:3400/ GWSS:3400	Advocacy and Engagement Colloquium	3
One of these:		
SJUS:4080	Advocacy and Engagement Capstone	3
SJUS:4085	Social Justice Bachelor of Arts Honors Senior Thesis	3

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in the major. Students must write an honors thesis that requires two semesters of work during the senior year: fall (thesis research) and spring (thesis writing).

Students who intend to graduate with honors in the major should meet with the gender, women's, and sexuality studies (GWSS) director of undergraduate study before the end of their junior year. They also must select a faculty member to serve as their honors thesis supervisor before they begin their thesis work. The department recommends that students consider faculty members from whom they have taken GWSS courses.

Students have the option of enrolling in GWSS:3990 Independent Readings and Research in Gender, Women's, and Sexuality Studies in the fall as a way to pursue their honors research for credit. They also may create an honors contract for a GWSS course numbered 3000 or above taught by the honors thesis supervisor or complete a graduate readings course or a seminar related to their thesis subject.

Students must meet the requirements of either capstone Option A or Option B.

## Option A

Students enroll in GWSS:3900 Creative and Critical Practice: Theories, Methods, and Skills for the Capstone Senior Project in the fall semester. They write their honors thesis during the spring semester in GWSS:4095 Honors Senior Thesis. While enrolled in this course, honors students work with students in GWSS:4090 Senior Research Seminar. Participation allows students to take part in a workshop-style course where their research and writing receive extensive review from classmates and instructors, and they partake in the department's end of the year Senior Research Poster Show.

## Option B

Students enroll in SJUS:3400 Advocacy and Engagement Colloquium in the fall semester. They write their honors thesis during the spring semester in SJUS:4085 Social Justice Bachelor of Arts Honors Senior Thesis. While enrolled in this course, honors students work with students in SJUS:4080 Advocacy and Engagement Capstone, and they partake in the department's end of the year Senior Research Poster Show.

GWSS students earning honors in more than one major may choose to complete a single thesis that satisfies the honors requirements of both departments. Students must have thesis advisors in both departments, and both advisors must approve the final project.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the gender, women's, and sexuality studies major.

## Career Advancement

Gender, women's, and sexuality studies (GWSS) majors develop the critical skills and problem-solving abilities needed for engaging the challenges of contemporary life. Graduates work in diverse settings, such as government and nonprofit agencies, newspaper offices, human resource departments, museums, theaters, international human rights organizations, schools, and hospitals. They do fund raising, political organizing, teaching, writing, research, advocacy work, counseling, diversity training, and marketing. They become social workers, nurse midwives and doctors, editors, librarians, business managers, grant writers, campaign directors, educational administrators, program coordinators, lawyers, and professors.

A GWSS undergraduate education provides a solid foundation for pursuing graduate degrees from schools of social work, public health, law, education, international relations, public affairs and public policy, and medicine. The major also prepares students for a wide range of graduate programs, including gender and women's studies, history, anthropology, urban education, creative writing, political science, human rights, human sexuality, and counseling.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

**Before the third semester begins:** GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies.

**Before the fifth semester begins:** GWSS:1002 Diversity and Power in the U.S. and two GWSS electives.

**Before the seventh semester begins:** one GWSS distribution course (theory or comparative/non-U.S. focus) and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** GWSS:3005 Practicum; GWSS:3900 Creative and Critical Practice: Theories, Methods, and Skills for the Capstone Senior Project (Capstone Option A) or SJUS:3400 Advocacy and Engagement Colloquium (Capstone Option B); one more GWSS distribution course (theory or comparative/non-U.S. focus); and at least one more GWSS elective.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Gender, Women's, and Sexuality Studies, B.A.

Course	Title	Hours
<b>First Year</b>		
<b>Fall</b>		
GWSS:1001	Introduction to Gender, Women's, and Sexuality Studies	3
ENGL:1200 or RHET:1030	The Interpretation of Literature or Rhetoric	3 - 4
GE CLAS Core: Values and Culture <sup>a</sup>		3
Elective course <sup>b</sup>		3
CSI:1600	Success at Iowa	2
<b>Hours</b>		<b>14-15</b>
<b>Spring</b>		
GWSS:1002	Diversity and Power in the U.S.	3
ENGL:1200 or RHET:1030	The Interpretation of Literature or Rhetoric	3 - 4
GE CLAS Core: Natural Sciences with Lab <sup>a</sup>		4
GE CLAS Core: Social Sciences <sup>a</sup>		3
Elective course <sup>b</sup>		2
<b>Hours</b>		<b>15-16</b>
<b>Second Year</b>		
<b>Fall</b>		
Major: Elective course <sup>c</sup>		3
Major: race/ethnicity in the U.S. focus course <sup>d</sup>		3
GE CLAS Core: Quantitative or Formal Reasoning <sup>a</sup>		3
GE CLAS Core: World Languages First Level Proficiency or elective course <sup>e</sup>		4 - 5

Elective course <sup>b</sup>	3
<b>Hours</b>	<b>16-17</b>
<b>Spring</b>	
Major: global/comparative focus course <sup>d</sup>	3
Major: Elective course <sup>c</sup>	3
GE CLAS Core: International and Global Issues <sup>a</sup>	3
GE CLAS Core: World Languages Second Level Proficiency or elective course <sup>e</sup>	4 - 5
Elective course <sup>b</sup>	3
<b>Hours</b>	<b>16-17</b>
<b>Third Year</b>	
<b>Fall</b>	
GWSS:3005 Practicum	3
Major: theory course <sup>d</sup>	3
GE CLAS Core: Historical Perspectives <sup>a</sup>	3
GE CLAS Core: Natural Sciences without Lab <sup>a</sup>	3
GE CLAS Core: World Languages Second Level Proficiency or elective course <sup>e</sup>	4 - 5
<b>Hours</b>	<b>16-17</b>
<b>Spring</b>	
Major: transnational theory course <sup>d</sup>	3
Major: 3000-level or above elective course <sup>c</sup>	3
GE CLAS Core: World Languages Fourth Level Proficiency or elective course <sup>e</sup>	4 - 5
Elective course <sup>b</sup>	3
Elective course <sup>b</sup>	3
<b>Hours</b>	<b>16-17</b>
<b>Fourth Year</b>	
<b>Fall</b>	
Major: 3000-level or above elective course <sup>c</sup>	3
SJUS:3400 Advocacy and Engagement or GWSS:3900 Colloquium <sup>f, g</sup> or Creative and Critical Practice: Theories, Methods, and Skills for the Capstone Senior Project	3
GE CLAS Core: Literary, Visual, and Performing Arts <sup>a</sup>	3
Elective course <sup>b</sup>	3
Elective course <sup>b</sup>	2
<b>Hours</b>	<b>14</b>
<b>Spring</b>	
Major: 2nd capstone course (completion of option A or B) <sup>f, h</sup>	3
Elective course <sup>b</sup>	3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) <sup>i</sup>	
<b>Hours</b>	<b>15</b>
<b>Total Hours</b>	<b>122-128</b>

- a GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- b Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- c Students select at least 12 s.h. in major electives with a minimum of 6 s.h. numbered 3000 or above.
- d See the General Catalog for list of approved courses.

- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f Students who choose capstone option A complete GWSS:3900 and either GWSS:4090 or GWSS:4095. Students who choose capstone option B complete SJUS:3400 and either SJUS:4080 or SJUS:4085.
- g Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
- h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
- i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Social Justice, B.A.

Students who major in social justice expand their knowledge by integrating theory and engagement with real world field experiences. They approach social justice through the arts, history, literature, comparative religious studies, political science, philosophy, health education, and gender, women's, and sexuality studies.

Social justice students:

- explore how the intersections of geography, race, class, gender, sexuality, health, economics, and history create networks of privilege and oppression across the globe through coursework and reflect on situations they encounter in the field;
- read, write, listen, and act through coursework and fieldwork in order to understand how conditions are created for change on the local, regional, and national level historically, ethically, politically, and personally;
- learn about selected history of social movements, how those movements emerged, and the impacts those movements had on policy, populations, the environment, and culture through engagement in a core course;
- develop a deeper understanding of issues, practice, research, and theory related to social justice in one or more areas of study within the traditional disciplines of the liberal arts through 9 s.h. of coursework in an area of specialization; and
- prepare for employment and/or for graduate study in various fields through high quality internships and educational experiences, including anthropology, political science, law, criminology, health, the cultural sector, social services, business, nonprofit management, or public history projects.

## Learning Outcomes

Students graduating with a degree in social justice will:

- explore how an intersectional lens can magnify the tensions within constructed identities based on race, ethnicity, gender and gender expression, geography, language, citizenship, sexuality, class, age, ability, and religion to practices of oppression and discrimination;
- learn about historical moments when oppression and discrimination have influenced policy, culture, law, and corporeal practices and find recurring patterns in current events, culture, and policy; and
- express ways their personal experiences and scholarly ideas connect to larger political, environmental, social, and geographical contexts, issues, and problems.

## Requirements

The Bachelor of Arts with a major in social justice requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students may declare the major at any time. They are advised by the Academic Advising Center until they have earned 24 s.h. of credit. Transfer credit is evaluated case by case; a maximum of 6 s.h. of transfer credit may be counted toward the degree. Foundation courses must be completed at the University of Iowa. Students may count a maximum of 9 s.h.

completed for another major, minor, or certificate toward the social justice major.

Work for the major consists of foundation coursework, core courses, an emphasis area, and a capstone experience. A course may only be applied to one area for credit.

The B.A. with a major in social justice requires the following coursework.

Code	Title	Hours
Foundation Courses		12
Core Courses		12
Social Justice Emphasis Area		9
Capstone		6
<b>Total Hours</b>		<b>39</b>

## Foundation Courses

The foundation consists of four courses (minimum of 12 s.h.). Two introductory courses, SJUS:1001 Introduction to Social Justice and SJUS:2000 Theories of Social Justice, orient students to the major conceptual areas that constitute social justice as an interdisciplinary field; SJUS:2250 The History of Social Justice Movements explores past and present social justice movements in the U.S. and their impact on policy and culture; and GWSS:3138 Writing to Change the World provides students with opportunities to enhance their writing skills to effect change.

Code	Title	Hours
All of these:		
SJUS:1001/ GWSS:1003	Introduction to Social Justice	3
SJUS:2000	Theories of Social Justice	3
SJUS:2250/ GWSS:2250/ HIST:2250	The History of Social Justice Movements	3
GWSS:3138/ SJUS:3138	Writing to Change the World	3

## Core Courses

### Human Rights, Diversity, Activism

Code	Title	Hours
Two of these:		
SJUS:1600/ AMST:1600/ LATS:1600	War Stories	3
SJUS:2050/ GWSS:2050	Jews, Judaism, and Social Justice	3
SJUS:2135/ RHET:2135	Rhetorics of Diversity and Inclusion	3
SJUS:2200/ GWSS:2200	The Racial and Gender Construction of Identity, Citizenship, and Rights in America	3
SJUS:2500/ ENGL:2570/ GWSS:2500	Love, War, Activism: Stories About Women from Across the World	3
SJUS:2571/ ENGL:2571/ GWSS:2571	Visualizing Human Rights	3
SJUS:3130/ GWSS:3130/ HIST:3252	Blacks and Jews: Race, Ethnicity, and Culture in America	3

SJUS:3133/ ANTH:3133/ GWSS:3133	Anthropology of Race	3
SJUS:3475/ GWSS:3475	Working for Social Justice	3
SJUS:3620/ GWSS:3620	Narrative Medicine, Social Justice, and the End of Life	3
GWSS:2080/ GHS:2080	The Cultural Politics of HIV-AIDS	3
GWSS:2172	The History of African American Women from Slavery to Freedom	3
GWSS:2800/ AFAM:2800	African American Women, Health, Hair, and Sexuality	3
GWSS:3157/ HIST:3157	Gender, Sexuality, and Human Rights	3
GWSS:3177/ NURS:3739	Women and Their Bodies in Health and Illness	3
GWSS:3326/ GHS:3327	The Politics of Progress: NGOs, Development, and Sexuality	3
GWSS:4140/ ANTH:4140/ CBH:4140/ GHS:4140	Feminist Activism and Global Health	3
HIST:3217/ LAS:3217/ LATS:3217	Latina/o/x Immigration	3
HIST:3232	History of American Inequality	3
HIST:3275/ AFAM:3275	History of Slavery in the U.S.A.	3-4
HIST:4101	History of Human Rights	3
HIST:4478	Holocaust in History and Memory	3
HRTS:2115/IS:2115	Introduction to Human Rights	3
HRTS:3910/IS:3910	Human Rights Advocacy	3
HRTS:3906	Global Crises and Human Rights	3
LATS:3104/ LAS:3104/ POLI:3104	Immigration Politics	3
NAIS:2292/ HIST:2292	Introduction to American Indian History and Policy	3
PHIL:3430	Philosophy of Human Rights	3
POLI:1900	Introduction to the Politics of Race	3
RELS:3855/IS:3855	Human Rights and Islam	3
RHET:3560/ PBAF:3560/ POLI:3560/ SJUS:3560	Public Policy and Persuasion	3
SOC:2810	Social Inequality	3
SSW:3712/ NURS:3712	Human Sexuality, Diversity, and Society	3
SSW:3847	Discrimination, Oppression, and Diversity	3

## Social Justice Movements: Politics, History, Culture, Art

Code	Title	Hours
Two of these:		
SJUS:2294/ HIST:2294/ NAIS:2294	Indigenous Art Activism and Social Justice	3
SJUS:2300/ GWSS:2300	Race, Class, Gender, and Labor: Worker Struggles for Legal Rights in the United States	3
SJUS:3171/ ENGL:3171/ GWSS:3171	Higher Education and Social Justice	3
SJUS:3250/ ENGL:3170	Literature and Social Justice	3
SJUS:3459/ GWSS:3459/ HIST:3259	Making Change, Making History: Iowa's Black Activists and Digital History	3
SJUS:3550/ GWSS:3550/ RELS:3550	Social Justice, Religion, and Spirituality: Faith and Belief Ignited	3
GWSS:2650/ GHS:2650	Global Reproduction	3
GWSS:2700	Transgender People, Politics, and Cultures	3
GWSS:3280/ HIST:3280	Women and Power in U.S. History Through the Civil War	3
GWSS:3282/ HIST:3282	Women and Power in U.S. History Since the Civil War	3
GWSS:3600	Art, Feminist Practice, and Social Justice	3
AFAM:3053/ AMST:3053/ HIST:3253	The Civil Rights Movement	3
COMM:2054	Movements, Protest, Resistance	3
ENGL:2463/ AFAM:2463	Topics in African American Literature (when topic is the Harlem Renaissance)	3
ENGL:3515	Topics in Postcolonial Studies (when topic is revolutionary Caribbean: Cuba and Puerto Rico)	3
HIST:3232	History of American Inequality	3
HIST:4260	The Sixties in America	3
IS:3200	Sustainable Development	3
LATS:3550	Topics in Latina/o/x Studies: History and Culture	3

## Social Justice Emphasis Area

Students choose one emphasis area from the following lists and complete three or more courses for 9 s.h.; two of the courses must be numbered 3000 or above. A course used to satisfy the core requirement cannot be taken to satisfy an emphasis area requirement. Students may substitute courses with approval of the social justice advisor. They also may include one study abroad course related to social justice, including the India Winterim Program; see Study Abroad [p. 2072] in the Catalog. In addition, students may create

their own emphasis area in collaboration with the social justice advisor.

## The Arts and Social Change

Code	Title	Hours
SJUS:3171/ ENGL:3171/ GWSS:3171	Higher Education and Social Justice	3
SJUS:3250/ ENGL:3170	Literature and Social Justice	3

An African American studies course (prefix AFAM) numbered 2000 or above that does not fulfill a GE CLAS Core requirement

A Latina/o/x studies course (prefix LATS) numbered 2000 or above that does not fulfill a GE CLAS Core requirement

A Native American and Indigenous studies course (prefix NAIS) numbered 2000 or above that does not fulfill a GE CLAS Core requirement

## Capstone

Students complete all of the requirements for either Option A or Option B.

### Option A

Students complete a senior project and the following two courses.

In the fall semester of their final year, students complete SJUS:3400 Advocacy and Engagement Colloquium which requires community service work at a related social justice organization. In the spring, students complete SJUS:4080 Advocacy and Engagement Capstone, in which they develop an individual creative or scholarly project that pulls together their lived and community experiences, their academic learning, and significant research. The project culminates with a poster shown at the Senior Research Poster Show.

Code	Title	Hours
Both of these:		
SJUS:3400/ GWSS:3400	Advocacy and Engagement Colloquium	3
SJUS:4080	Advocacy and Engagement Capstone	3

## Option B

Students prepare for the capstone by completing GWSS:3900 Creative and Critical Practice: Theories, Methods, and Skills for the Capstone Senior Project during the fall semester which focuses on developing advanced research, reading, and writing skills and choosing their capstone topics. Senior Research Seminar (GWSS:4090), taken during the spring semester of their final year, provides a platform for students to share their capstone research and writing. Students create either extended essays that document their research using the style manual of their choice or produce creative work alongside an annotated research bibliography. At the end of the semester, students make posters that represent the subject, content, and significance of their research and present them at the Senior Research Seminar Poster Show.

Both of these:		
GWSS:3900	Creative and Critical Practice: Theories, Methods, and Skills for the Capstone Senior Project	3
GWSS:4090	Senior Research Seminar	3

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major. Honors students must complete a yearlong thesis project and meet the Capstone Option A or Option B requirements. Student have the option of enrolling in GWSS:3990 Independent Readings and Research in Gender, Women's, and Sexuality Studies in the fall as a way to pursue their honors research for credit.

Students who intend to graduate with honors in the major should meet with the social justice advisor before the end of their junior year. They also must select a faculty member to serve as their honors thesis supervisor before they begin their thesis work. The department recommends that students consider faculty members from whom they have taken SJUS/ GWSS courses.

### Capstone Option A

Code	Title	Hours
Both of these:		
SJUS:3400/ GWSS:3400	Advocacy and Engagement Colloquium (fall)	3
SJUS:4085	Social Justice Bachelor of Arts Honors Senior Thesis	3

### Capstone Option B

Code	Title	Hours
Both of these:		
GWSS:3900	Creative and Critical Practice: Theories, Methods, and Skills for the Capstone Senior Project	3
GWSS:4095	Honors Senior Thesis	3

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the social justice major.

### Career Advancement

The social justice major prepares students for careers in diverse fields. Graduates may work in nonprofit and governmental agencies, international organizations, think tanks, research and policy institutes, foundations, religious and cultural institutions, schools, universities, businesses, and health care settings. Their positions may relate to the emphasis areas they developed in the major, addressing issues such as human rights, the environment and ecological justice, racial and ethnic diversity, poverty, improving the lives of women and girls, sustainability, education, public health, and the arts and social change.

Students also are well prepared to continue their studies in a wide range of graduate programs and professional schools.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

**Before the fifth semester begins:** SJUS:1001 Introduction to Social Justice, SJUS:2000 Theories of Social Justice, SJUS:2250 The History of Social Justice Movements, and GWSS:3138 Writing to Change the World.

**Before the seventh semester begins:** two social justice movement courses; two courses in human rights, diversity, activism; and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** 9 s.h. in the emphasis area and plan a capstone option with advisor.

**During the eighth semester:** capstone requirement, all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

#### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

#### Social Justice, B.A.

Elective course <sup>c</sup>		3
Elective course <sup>c</sup>		3
<b>Hours</b>		<b>15</b>

**Spring**

GWSS:4090	Senior Research Seminar <sup>f, h</sup>	3
or SJUS:4080	or Advocacy and Engagement Capstone	
GE CLAS Core: International and Global Issues <sup>b</sup>		3
Major: emphasis area course (3000 level or above) <sup>e</sup>		3
Elective course <sup>c</sup>		3
Elective course <sup>c</sup>		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) <sup>i</sup>		
<b>Hours</b>		<b>15</b>

**Total Hours****124-130**

- a Fulfills a major requirement and may fulfill a GE requirement.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- e A course used to satisfy the core requirement cannot be taken to satisfy an emphasis area requirement.
- f Students who choose capstone option A complete SJUS:3400 and SJUS:4080. Students who choose capstone option B complete GWSS:3900 and GWSS:4090.
- g Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
- h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
- i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Gender, Health, and Healthcare Equity, Minor

Health care evolves continually and capable professionals will be in high demand. In order to meet the national and international challenges posed by a rapidly changing field, people must be knowledgeable, able to innovate, and willing to learn. Upon completion of the minor in gender, health, and healthcare equity, students will possess the knowledge and skills necessary to think critically about the complex intersections of gender, race, sexuality, and class in relation to health, illness, and health care.

## Requirements

The undergraduate minor in gender, health, and healthcare equity (GHHE) requires a minimum of 15 s.h. of coursework, including at least 12 s.h. completed at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework for the minor may not be taken pass/nonpass.

Students may count a maximum of 3 s.h. from another University of Iowa major, minor, or certificate toward the GHHE minor.

The minor in gender, health, and healthcare equity requires the following coursework.

Code	Title	Hours
Core Courses		6
Health Equity Courses		9-10
<b>Total Hours</b>		<b>15-16</b>

## Core Courses

Code	Title	Hours
Two of these:		
GWSS:1001	Introduction to Gender, Women's, and Sexuality Studies	3
GWSS:1002	Diversity and Power in the U.S.	3
SJUS:1001/ GWSS:1003	Introduction to Social Justice	3

## Health Equity Courses

Code	Title	Hours
Three of these:		
GWSS:2080/ GHS:2080	The Cultural Politics of HIV-AIDS	3
GWSS:2400/ CPH:2240/ LATS:2400	Health Disparities and Intersectionality with U.S. Latina/o/x Peoples	3
GWSS:2650/ GHS:2650	Global Reproduction	3
GWSS:2700	Transgender People, Politics, and Cultures	3
GWSS:2800/ AFAM:2800	African American Women, Health, Hair, and Sexuality	3
GWSS:3005/ SJUS:3005	Practicum (when the topic is end of life, hospice, and palliative care)	3-4

GWSS:3010/ GHS:3015	Transnational Sexualities	3
GWSS:3154	Sexuality in the United States	3
GWSS:3177/ NURS:3739	Women and Their Bodies in Health and Illness	3
GWSS:3326/ GHS:3327	The Politics of Progress: NGOs, Development, and Sexuality	3
GWSS:4140/ ANTH:4140/ CBH:4140/ GHS:4140	Feminist Activism and Global Health	3
CPH:1400	Fundamentals of Public Health	3
CPH:3400/ GEOG:3210	Health, Work, and the Environment	3
ENGL:2560	Topics in Culture and Identity (when topic is stories about HIV/AIDS)	3
GHS:3036	Ethics, Politics, and Global Health	3
GHS:3070/ GEOG:3070	Hungry Planet: Global Geographies of Food	3
GHS:3110/ ANTH:3110/ NAIS:3110	Colonialism and Indigenous Health Equity	3
GHS:4003	Case Studies in Global Health Inequities	3
GHS:4600	Global Health and Human Rights	3
HIST:3508/ GHS:3508/LAS:3508	Disease and Health in Latin American History	3
HIST:3755/ GHS:3555/IS:3555	Understanding Health and Disease in Africa	3
SOC:3750/ GWSS:3750	Born in the USA: Fertility and Reproduction	3

# Gender, Women's, and Sexuality Studies, Minor

## Requirements

The undergraduate minor in gender, women's, and sexuality studies (GWSS) requires a minimum of 15 s.h. of coursework, including at least 12 s.h. completed at the University of Iowa. Students must take GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies and 12 s.h. in courses numbered 2000 or above. They may count GWSS:1002 Diversity and Power in the U.S. toward the 12 s.h. requirement. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework for the minor may not be taken pass/nonpass.

Students may count a maximum of 3 s.h. from another University of Iowa major, minor, or certificate toward the GWSS minor.

# Social Justice, Minor

## Requirements

The undergraduate minor in social justice requires a minimum of 15 s.h. of coursework, including at least 12 s.h. completed at the University of Iowa. Students must take SJUS:1001/GWSS:1003 Introduction to Social Justice and 12 s.h. in courses numbered 2000 or above. They may count GWSS:1002 Diversity and Power in the U.S. toward the 12 s.h. requirement. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students may count a maximum of 3 s.h. from another University of Iowa major, minor, or certificate toward the social justice minor.

The minor in social justice requires the following coursework.

Code	Title	Hours
Foundation Courses		6
Human Rights, Diversity, Activism Course		3
Social Justice Movements: Politics, History, Culture, Art Course		3
Elective		3
<b>Total Hours</b>		<b>15</b>

# Gender, Women's, and Sexuality Studies, Graduate Certificate

## Requirements

The graduate Certificate in Gender, Women's, and Sexuality Studies (GWSS) requires 16 s.h., including a foundations course and a capstone course. Students attend the annual Jakobsen Conference and present their own GWSS research project in GWSS:7400 Graduate Research Conference Presentation. They frequently receive advising assistance from the director of graduate studies. All students must maintain a g.p.a. of at least 3.00 in work for the certificate.

The certificate program is open to University of Iowa graduate students working toward a degree; interested students should contact the director of graduate studies to discuss the program's parameters and how the certificate might best support and enhance their course of study.

Students may not use the same course to satisfy more than one certificate requirement.

The Certificate in Gender, Women's, and Sexuality Studies requires the following coursework.

Code	Title	Hours
GWSS:5000	Foundations for Gender, Women's, and Sexuality Studies	3
GWSS:7400	Graduate Research Conference Presentation	1
Electives		12
<b>Total Hours</b>		<b>16</b>

## Electives

Certificate students complete four elective courses (12 s.h.). Students are strongly encouraged to include at least one course with a transnational focus; one course with a focus on U.S. diversity; and one course on theories of gender, women, feminism, and/or sexuality. Where appropriate, GWSS courses offered in a student's home department may count toward the certificate as elective coursework; however, students are encouraged to take at least one GWSS course outside their home department for the purpose of interdisciplinary breadth. The director of graduate studies can advise and discuss coursework options and parameters with students.

# Geographical and Sustainability Sciences

## Chair

- David A. Bennett

## Director, Undergraduate Studies

- Silvia Secchi

## Director, Graduate Studies

- Heather A. Sander

**Undergraduate majors:** geography (B.A., B.S.); sustainability science (B.S.)

**Undergraduate minors:** geographic information science; geography

**Undergraduate certificate:** geographic information science

**Graduate degrees:** M.A. in geography; Ph.D. in geography

**Faculty:** <https://clas.uiowa.edu/geography/people/faculty>

**Website:** <https://clas.uiowa.edu/geography/>

The importance of geographical and sustainability sciences is rooted in the complexity of social and environmental problems. We live on a dynamic planet, one that is constantly changing in response to human and natural processes that are highly interconnected. Geographers study the interactions of people and their environment to better understand these intricately related processes. At the University of Iowa, the department teaches and conducts research on human and natural systems and how interactions between these systems shape the world we live in. Cutting edge technologies, such as geographic information systems (GIS), satellite imagery, and Global Positioning System (GPS), are used to help inform decision making at geographic scales and to analyze and visualize geographic processes.

The Department of Geographical and Sustainability Sciences offers undergraduate programs leading to a Bachelor of Arts or Bachelor of Science degree. Undergraduate students with a major in geography select from three tracks: environmental studies, geographic information science (GISci), and health and society. Each track requires introductory and upper-level geography and sustainability courses, as well as coursework from other departments. The department also offers the B.S. with a major in sustainability science. In addition, the department offers a minor in geography and a minor and certificate in geographic information science. It administers the interdisciplinary environmental policy and planning major and collaborates with other departments to offer the undergraduate Certificates in Social Science Analytics and Sustainability (see below). The department also participates in the University's internship program for students; see Career Center Programs [p. 2041] (University College) in the Catalog.

Geography and sustainability courses provide a background for many related professions including law, health care, planning (urban, regional, environmental, or transportation), conservation, sustainability, environmental or transportation engineering, and international business, and are commonly required for students preparing to teach at elementary and secondary levels.

Geographical and sustainability science students acquire valuable skills in computer-based geographic information systems (GIS) software used to investigate and solve many environmental and social problems. Opportunities for graduates with GIS training are growing rapidly in both private

and governmental organizations. To gain related knowledge, get hands-on experience, and conduct independent research, students have access to the department's state-of-the-art Geographical Information Systems Instructional Lab (GISIL). For more information, see Facilities [p. 546] in this section of the Catalog.

The Department of Geographical and Sustainability Sciences offers Master of Arts and Doctor of Philosophy degrees. Graduate programs focus on studies that extend understanding of the environmental consequences of human decisions at local, regional, and global scales; processes that lead to geographic patterns in health and disease; technologies that help capture, represent, visualize, and analyze geographic patterns and processes; and processes that produce ecosystem services and sustainable futures. Within this broad domain, the department has strengths in environmental justice, environmental modeling, urban ecology, GIScience and GIS, land use/land cover change, and health geography. The mission of the graduate program is to empower graduates with the ability to conduct significant research. In addition to offering graduate degree programs, the department administers the geoinformatics subprogram of the graduate informatics certificate; see the Certificate in Informatics [p. 1646] (Graduate College) in the Catalog.

## GE CLAS Core Courses

The Department of Geographical and Sustainability Sciences offers a number of courses that students in other majors may use to satisfy requirements of the College of Liberal Arts and Sciences GE CLAS Core. Look for courses with the prefix GEOG under "Natural Sciences," "Social Sciences," and "International and Global Issues" in the GE CLAS Core [p. 20] section of the Catalog. Nonmajors also may choose geographical and sustainability sciences courses as electives.

## Related Certificates

### Social Science Analytics

The Department of Geographical and Sustainability Sciences collaborates with the Departments of Political Science, Sociology and Criminology, and Statistics and Actuarial Science (College of Liberal Arts and Sciences) to offer the undergraduate program in social science analytics. The Department of Political Science administers the certificate; see the Certificate in Social Science Analytics [p. 1008] in the Catalog.

### Sustainability

The Department of Geographical and Sustainability Sciences collaborates with the Departments of Biology, Earth and Environmental Science (College of Liberal Arts and Sciences), Civil and Environmental Engineering (College of Engineering), as well as the School of Planning and Public Affairs (Graduate College) and the Tippie College of Business to offer the undergraduate program in sustainability. The certificate is administered by University College; see the Certificate in Sustainability [p. 2093] in the Catalog.

## Programs

### Undergraduate Programs of Study

#### Majors

- Major in Geography (Bachelor of Arts) [p. 552]
- Major in Geography (Bachelor of Science) [p. 559]
- Major in Sustainability Science (Bachelor of Science) [p. 567]

#### Minors

- Minor in Geographic Information Science [p. 571]
- Minor in Geography [p. 572]

#### Certificate

- Certificate in Geographic Information Science [p. 573]

### Graduate Programs of Study

#### Majors

- Master of Arts in Geography [p. 575]
- Doctor of Philosophy in Geography [p. 577]

## Facilities

The department houses three geographic information computational laboratories. They support a variety of geographic information system (GIS) software packages, including the latest software from Esri (ArcGIS) and Erdas (Imagine) as well as a suite of other commercial and open-source software. All lab computers are regularly updated to ensure that they are capable of running the latest software at peak performance.

The Geographical Information Systems Instructional Lab (GISIL) is the department's center for GIS teaching as well as a place where students conduct geographic and GIS-related projects. It is equipped with 27 networked student workstations, instructional support technology (e.g., CRT projection), and a suite of peripherals, including a LiDAR 3D scanner, high-end global positioning system (GPS) units, and a large-format printer.

The environmental modeling and GIS research laboratories contain state-of-the-art machines (Windows and Linux platforms), geoprocessing and statistical software, and an array of software development tools. Projects requiring massive storage or high performance computing have access to additional resources managed by the University's Information Technology Services research support group. The University of Iowa is a charter member of Internet2, with a high performance network link to the Department of Geographical and Sustainability Sciences. The University also is a member of the University Consortium on Geographic Information Science.

To aid studies of water resources and physical geography, the department has a laboratory for the analysis of vegetation, soil, and water quality. The laboratory has a variety of field equipment, including soil probes, portable meteorological stations, GPS, ground-based 3D LiDAR, anemometers, spectrometers, light sensors, and data loggers.

Faculty and graduate students participate in multidisciplinary working groups through the University's Program in Applied

Mathematical and Computational Sciences [p. 1597], the Center for Global and Regional Environmental Research, the Center for Health Effects of Environmental Contamination, International Programs, the Institute for Rural and Environmental Health, the Iowa Quaternary Studies Group, and the Public Policy Center. Participation in multidisciplinary working groups also is available through interdisciplinary research grants with investigators from other University of Iowa academic units, for example, the College of Engineering, the Carver College of Medicine, and the College of Public Health.

Geographic researchers also have access to other University of Iowa resources, such as the University's Main Library, whose collections include more than 115,500 maps; 3,600 atlases and reference works; and around 100,000 aerial photographs, primarily of Iowa.

## Courses

- Geography Courses [p. 546]
- Sustainability Science Courses [p. 551]

### Geography Courses

**GEOG:1000 First-Year Seminar** **1 s.h.**  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**GEOG:1020 The Global Environment** **3 s.h.**  
Underlying processes driving human/environment interaction, including climate change, deforestation, and natural disasters; environmental challenges, including declining biological diversity; human response to more frequent severe climate events; production of a more sustainable future. GE: Natural Sciences without Lab.

**GEOG:1021 The Global Environment Lab** **1 s.h.**  
Laboratory application of concepts discussed in GEOG:1020; computer-based and traditional approaches to the investigation of earth's processes, including earthquakes, water and energy balances, climate and weather, and soil development. Corequisites: GEOG:1020, if not taken as a prerequisite. GE: Natural Sciences Lab only.

**GEOG:1030 Our Digital Earth** **3 s.h.**  
New technologies that have revolutionized how people navigate in unfamiliar places, locate friends and colleagues, manage cities, and confront environmental problems during the past decade; fundamental concepts related to how geographic information is used to better understand and manage the world and our everyday lives.

**GEOG:1046 Environmental Politics in India** **3 s.h.**  
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as ANTH:1046, GWSS:1046, SJUS:1046.

**GEOG:1050 Foundations of GIS** **4 s.h.**  
Introduction to concepts and methods associated with geographical information systems (GIS) technology; remote sensing, map making, data collection, and application of GIS to real-world problem solving.

- GEOG:1060 Geography of Asia: From Japan to Pakistan** 3 s.h.  
Varied cultures and environments of Asia; different geographic regions and processes in Asian development. GE: International and Global Issues.
- GEOG:1065 Introduction to Spatial Analysis: Patterns and Processes** 3 s.h.  
Fundamental concepts and applications of spatial analysis; how clusters of crime in a community are identified; how patterns of disease are described within a community.
- GEOG:1070 Contemporary Environmental Issues** 3 s.h.  
Global environmental challenges; ecological, economical, cultural, and geographical causes and effects; underlying science and potential solutions to global issues of sustainability. GE: International and Global Issues; Social Sciences.
- GEOG:1090 Globalization and Geographic Diversity** 3 s.h.  
World regions including their physical environment, culture, economy, politics, and relationships with other regions; students learn about conflicts within and between regions. GE: International and Global Issues; Social Sciences.
- GEOG:1095 The Quest for Location: Historical Developments in Cartographic Science and Technology** 3 s.h.  
Development of the science and technology of cartography as embedded in particular places and contexts; topics include determination of latitude and longitude, map projections, navigation, military mapping, surveying and taxation, printing technologies, remote sensing, and global positioning.
- GEOG:1115 The History and Science of Oil** 3 s.h.  
Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Historical Perspectives. Same as EES:1115, ENVS:1115, HIST:1115.
- GEOG:2010 Interdisciplinary Environmental Seminar** 1 s.h.  
Discover research, explore careers, and build connections. Requirements: first- or second-year standing. Same as EES:2010, ENVS:2010.
- GEOG:2013 Introduction to Sustainability** arr.  
Introduction to sustainability knowledge, skills, and habits as a means to shape one's vision of a sustainable citizen; emphasis on basic skills of literacy, applied math, and finding information; traditional sustainability knowledge areas related to society, economy, and environment; intersecting themes (e.g., informed consumerism, eco-economics, and livable environments). Same as BUS:2013, SUST:2013, URP:2013.
- GEOG:2110 Seven Billion and Counting: Introduction to Population Dynamics** 3 s.h.  
How dramatic changes to the size of population has changed fundamental characteristics of populations and processes, such as food and water scarcity, climate change and biodiversity, rise of megacities, health and disease, migration, social networks, economics, environment, and household structure. GE: Social Sciences. Same as GHS:2110.
- GEOG:2130 World Cities** 3 s.h.  
Important urban centers, past and present, with focus on why cities exist and how they are organized; examination of different historical eras, including ancient, medieval, and modern; analysis of urban physical structures.
- GEOG:2310 Introduction to Climatology** 3 s.h.  
Introduction to atmospheric processes that determine weather and climate; flow of energy through the atmosphere, distribution and movement of moisture and air, and atmospheric disturbances such as cyclones, hurricanes and tornadoes, and climate change. Recommendations: GEOG:1020 or similar earth systems science course. Same as EES:2310.
- GEOG:2374 Biogeography** 3 s.h.  
Introduction to processes that lead to the patterns of plant and animal distributions we see across the globe; processes of focus include plate tectonics, climate, and human-ecological interactions; species management and conservation in relationship to climate and change in human patterns of environment. Prerequisites: BIOL:1141 or BIOL:1370 or BIOL:1261 or GEOG:1020 or BIOL:1412. Same as BIOL:2374.
- GEOG:2410 Environment and Development** 3 s.h.  
Investigation of questions that surround human-environment interactions; case studies highlight approaches (e.g., political economy, gender, sustainability) to addressing and understanding human relationship to environmental change.
- GEOG:2910 The Global Economy** 3 s.h.  
Examination of contemporary economic geography; types of national economies, uneven development, role of government in shaping economy, multinational corporations; foundation for understanding national economies and economic statistics; contemporary issues including economic globalization, commodification of nature, de-industrialization. GE: International and Global Issues; Social Sciences.
- GEOG:2930 Water Resources** 3 s.h.  
Introduction to science and policy issues affecting water resources management in the U.S.; how the intersection of people, climate, technology, and geography affects the quality, availability, and demand for freshwater resources.
- GEOG:2950 Environmental Conservation** 3 s.h.  
Scientific foundations of biological conservation; strategies used to better connect conservation practice with needs of a growing human population. Prerequisites: EES:1080 or GEOG:1020 or GEOG:1070.
- GEOG:2990 Readings for Undergraduates** arr.  
Supervised readings in geography.
- GEOG:3001 Special Topics** arr.  
Contemporary fields of inquiry, such as biophysical systems, GIS, locational analysis, water resources, economic geography, demographic analysis, environment, urbanization, transportation, and regional development.
- GEOG:3003 Interdisciplinary Environmental Seminar** 1 s.h.  
Role of sciences in environmental issues and problems; progression from observation to evaluation to design of better questions and experiments. Requirements: third- or fourth-year standing. Same as EES:3010, ENVS:3010.

**GEOG:3010 Geographic Information Systems and Science 3 s.h.**

Solid foundation and introduction to GIS and digital map making; what GIS is and how GIS can contribute to research, careers, and everyday life; fundamentals that underlie GIS, including methods for GIS data collection and georeferencing, spatial modeling, spatial data analysis, and visualization; GIS trends including mobile GIS and the Web. Same as IGPI:3010.

**GEOG:3020 Earth Surface Processes 3 s.h.**

Basic geomorphic and environmental processes that shape the earth's surface; emphasis on erosion, transport, deposition by land mass movement (creep, landslides, earth flow), fluid agents (wind, water, ice); methods used to study these processes. Recommendations: EES:1050 or EES:1080 or ENVS:1080 or GEOG:1020 or EES:1085 or ENVS:1085. Same as EES:3020, ENVS:3020.

**GEOG:3050 Geospatial Programming 3 s.h.**

Introduction to geospatial programming with Python; programming basics, data structures, and algorithms; spatial data models and structures; vector-based and raster-based geoprocessing; automating GIS tasks and models; spatial libraries (e.g., ArcPy, GeoPandas, GDAL, PySAL). Prerequisites: GEOG:1050. Same as IGPI:3050.

**GEOG:3070 Hungry Planet: Global Geographies of Food 3 s.h.**

Societal and environmental implications of past, current, and future global food supply examined from a geographical perspective; focus on questions of who eats what, where, and why; transformative history of agriculture, modern agribusiness and alternative food supplies, geopolitical implications of food production, food scarcity and rising food costs, urban versus rural agriculture, the obesity epidemic versus malnutrition, and the future of food. Same as GHS:3070.

**GEOG:3110 Geography of Health 3 s.h.**

Provision of health care in selected countries, with particular reference to the Third World; focus on problems of geographical, economic, cultural accessibility to health services; disease ecology, prospective payment systems, privatization, medical pluralism. Same as GHS:3111.

**GEOG:3210 Health, Work, and the Environment 3 s.h.**

Survey of environmental and occupational health hazards and the associated health risks of exposure; how public health protects society from these hazards; how public health policy can be influenced by science. Same as CPH:3400.

**GEOG:3300 Envisioning Future Worlds: Sustainable Development and Its Alternatives 3 s.h.**

Sociocultural, geopolitical, and environmental implications of sustainable development and its alternatives investigated from a geographic perspective; geopolitical history of sustainable development; measures of sustainability in development; major critiques of sustainable development; alternative visions of development from different geographical contexts including ecofeminism, Buen Vivir, food sovereignty, degrowth, commoning, and the People's Health Movement. Same as GHS:3300.

**GEOG:3310 Landscape Ecology 3 s.h.**

Landscapes as complex systems that arise from interactions among physical environments and species, including humans; exploration of how these interactions shape landscape ecosystems and influence landscape change through lecture, computer and field labs, and research discussion; key topics include causes and consequences of landscape pattern, techniques used to quantify and model landscape pattern, the role of humans in determining landscape structure and function, and conservation and management of species and landscapes. Prerequisites: GEOG:2374 or BIOL:2673. Requirements: ecology course numbered 1000-4999.

**GEOG:3315 Ecosystem Ecology 3 s.h.**

Terrestrial ecosystems as integrators of biological, physical, and ecological processes; flows of energy, carbon, water, and nutrients within ecosystems; spatial and temporal patterns and processes of Earth's ecosystems; sustaining ecosystems in the face of global change. Prerequisites: GEOG:2374 or BIOL:2374 or BIOL:2673 or GEOG:1020 or EES:1080.

**GEOG:3320 Wetlands: Function, Geography, and Management 3 s.h.**

Hydrological, geomorphological, and ecological processes and their interaction in wetlands; geographic differences in wetlands based on climate and hydrology; wetlands, lakes, and rivers; role of wetlands in drainage basin hydrology and flooding; values and valuation of wetlands; wetland law and wetland delineation; wetlands and water resources. Prerequisites: GEOG:2310 or GEOG:2374. Same as EES:3260.

**GEOG:3331 Human Dimensions of Climate 3 s.h.**

How climate shapes human societies; focus on how climate and climate variability affects food production, water use, energy use, and human disease systems (e.g., influenza, malaria, air pollution, diarrheal disease); climate change impacts (e.g., sea level rise, droughts, wildfires, famine); societal impact, adaptation and vulnerability, mitigation strategies; policy.

**GEOG:3340 Ecosystem Services 3 s.h.**

Ecosystem services—valuable goods and services produced by ecosystems (e.g., flood control, food production, water purification)—from an interdisciplinary perspective centering on geographic techniques used to measure, map, and model ecosystem services; methods used to incorporate ecosystem services into decision and policy making; how human activities alter these services. Prerequisites: GEOG:1050 and (GEOG:2374 or GEOG:3310 or EES:1080 or BIOL:2673 or BIOL:1370 or GEOG:1070 or GEOG:1020).

**GEOG:3350 Urban Ecology 3 s.h.**

Urban ecology as an interdisciplinary field that investigates relationships between natural and the systems in urban environments; students explore urban ecosystems through lecture, discussion of current research, and field-based research projects; and identify how cities can become more sustainable systems. Prerequisites: BIOL:2673 or GEOG:2374. Requirements: GEOG:2374 or ENVS:2673 or introductory course in ecology, and junior standing.

**GEOG:3360 Soil Genesis and Geomorphology 3 s.h.**

Introduction to soil genesis, soil geomorphology, and classification including the basics of soil profile description and soil-landscape, soil-vegetation, and soil-climate relationships; emphasis on study of soils as the interface between living and non-living Earth systems and the role of soils in sustaining ecosystems and human societies; short field excursions and a weekend field trip. Requirements: college earth science and chemistry. Same as EES:3360.

**GEOG:3400 Iowa Environmental Policy in Practice 3 s.h.**

How Iowa government addresses environmental policy development and implementation; policy process and current environmental issues; students attend meetings with Iowa State legislators and relevant agency personnel in Des Moines, Iowa, to observe how policies move into practice in agency offices. Prerequisites: GEOG:1070 or POLI:3111 or GEOG:3780 or ANTH:3102. Requirements: junior or higher standing.

**GEOG:3420 Sustainable and Green Building Concepts 3 s.h.**

Green building and sustainable development trends and theories: water policy, ecosystem services, climate change, and public health; LEED certified building process and each of the associated credit categories (i.e., sustainable sites, energy and atmosphere, water efficiency); how knowledge of green building and sustainable development can help lessen the environmental impact of built environments, improve the bottom line, and better plan for great communities.

**GEOG:3500 Introduction to Environmental Remote Sensing 3 s.h.**

Basic concepts and principles of remote sensing; sources of data; georegistration; digital processing and classification of remotely sensed images for extraction of environmental information; linkage of remote sensing techniques with GIS analysis. Same as IGPI:3500.

**GEOG:3520 GIS for Environmental Studies 3 s.h.**

Students learn new, more advanced techniques for the representation and study of human and natural systems using geographic information systems (GIS); application of this new knowledge to environmental management and problem solving. Prerequisites: GEOG:1050. Same as IGPI:3520.

**GEOG:3540 Geographic Visualization 3 s.h.**

Concepts and techniques that underlie cartographic representation, interaction, and geovisualization; map symbolization and visual variables; spatiotemporal visualization, multivariate mapping, interactive cartography, animation, geovisual analytics, 3D visualization, virtual and augmented reality. Prerequisites: GEOG:1050. Same as IGPI:3540.

**GEOG:3560 Spatial Analyses of Wind Energy 3 s.h.**

Underlying processes, measurement methods, and spatial analyses related to wind energy; students explore techniques for data collection and analysis; GIS-based approaches to renewable energy siting.

**GEOG:3570 Light Detection and Ranging (LiDAR): Principles and Applications 3 s.h.**

Basic principles and applications of Light Detection and Ranging (LiDAR); LiDAR as an essential technology for mapping and analyzing a vast range of topics, including hydrology flooding, transportation planning, and 3D modeling. Recommendations: GEOG:3500 or EES:3100.

**GEOG:3610 Ethical Collection and Use of Geospatial Information 3 s.h.**

Ethical issues that arise during the collection and use of digital geospatial information; particular emphasis on privacy as well as willful and unintentional introduction of different types of errors of omission (e.g., sampling related errors) and commission (e.g., inappropriate map projections); readings provide theoretical background and illustrative practical examples.

**GEOG:3760 Hazards and Society 3 s.h.**

Examination of the impact and societal responses to natural and technological hazards; using case studies from around the world, students explore relationships between extreme events, human behavior, disaster management, public policy, and technology to understand what makes people and places vulnerable to hazards. Same as GHS:3760.

**GEOG:3780 U.S. Energy Policy in Global Context 3 s.h.**

Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as GHS:3780, HIST:3240.

**GEOG:3800 Environmental Economics and Policy 3 s.h.**

Reasons why markets fail in environmental realm (e.g., externalities, common pool resources, club goods, public goods); ecosystem services and techniques used for their valuation; revealed and stated preferences; cost-benefit analysis and role in policy-making process; tools to address environmental market failures, particularly command and control, taxes and subsidies, and mitigation markets; focus on air pollution, climate change, and water-related policies.

**GEOG:3920 Planning Livable Cities 3 s.h.**

Development of livable cities in the United States; economic, physical, environmental, and political forces that shape their growth; impact of planning, how it shapes the future of cities. Same as URP:3001.

**GEOG:3940 Transportation Economics 3 s.h.**

Overview of transportation markets—intercity, rural, urban; transportation modes—rail, highway, air, water, pipeline, transit; issues in finance, policy, planning, management, physical distribution, and environmental, economic, and safety regulation. Recommendations: ECON:1100 and ECON:1200. Same as ECON:3750, URP:3350.

**GEOG:3992 Undergraduate Research arr.**

Opportunity for undergraduate students to participate in faculty-led research projects.

**GEOG:4010 Field Methods in Physical Geography 3 s.h.**

Introduction to basic approaches to research design and of sampling environmental variables commonly used in environmental sciences; basic methods of sampling and lab analyses of vegetation, land cover, soils, and more.

**GEOG:4020 Field Methods: Mapping and Mobile Computing 3 s.h.**

Mapping techniques and mobile computing applications associated with GPS, wireless technologies, and data sampling techniques.

**GEOG:4030 Senior Project Seminar 3 s.h.**

Development of an independent research project, preparation of a research report, and presentation of the associated outcomes. Offered spring semesters.

**GEOG:4150 Health and Environment: GIS Applications 3 s.h.**

Introduction to how geographic information systems (GIS) and spatial statistics are used in the study of patterns of health and disease in space and time. Same as GHS:4150, IGPI:4150.

**GEOG:4200 Sustainability as a System Science 3 s.h.**

Investigation of social, environmental, and economic sustainability in systems across the planet with a focus on food, energy, and water nexus; geographical and temporal trade-offs, unintended consequences, impacts quantification, role of public and private sectors, conceptual modeling of key system drivers and their interactions, nested systems, and system relations. Same as SUST:4200.

- GEOG:4470 Ecological Climatology** 3 s.h.  
Introduction to global energy, water, and carbon cycles; biosphere-atmosphere interactions across scales ranging from leaf to globe. Prerequisites: GEOG:2310 or GEOG:2374.
- GEOG:4500 Applications in Environmental Remote Sensing** 4 s.h.  
Theory and practice of remote sensing and digital image processing; practical applications to human-environment interactions. Recommendations: GEOG:3500 or EES:3110 or ENVS:3110. Same as IGPI:4500.
- GEOG:4520 GIS for Environmental Studies: Applications** 3 s.h.  
Project-driven course to advance student knowledge of geographic information systems (GIS); application of GIS to environmental change analysis, environmental assessment, hazard/risk analysis, and environmental decision making. Prerequisites: GEOG:3520. Same as IGPI:4520.
- GEOG:4570 Spatial Analysis and Location Models** 3 s.h.  
Application of location models within GIS environments to support decision making; small area demographic forecasting, location-allocation models, regionalization problems, shortest path models, other spatial analysis methods used to support spatial decisions. Prerequisites: GEOG:1050.
- GEOG:4580 Introduction to Geographic Databases** 3 s.h.  
Introduction to basic building blocks of spatial database design, spatial data models, structures, relationships, queries (SQL), indexing, and geoprocessing; design and construction of various types of spatial databases, including relational and big data approaches such as ArcGIS geodatabase, PostGIS/PostgreSQL, and MongoDB. Prerequisites: GEOG:1050. Same as IGPI:4581.
- GEOG:4650 Simulation in Environmental Geography** 3 s.h.  
Exploration of how computer simulations are used in environmental studies, with focus on landscape ecology; students learn the basics of performing simulations and the principles and applications of simulation through readings and labs. Requirements: advanced courses in environmental geography or environmental science and senior standing.
- GEOG:4750 Environmental Impact Analysis** 3 s.h.  
In-depth exposure to the history and evolution of the U.S. Environmental Impact Assessment (EIA) process; discussion of major court cases; ecological, economic, and political aspects of current environmental controversies; exposure to real-world scenarios that are crucial to understanding the EIA process in action; field trips to six or seven environmental control facilities in Iowa City and neighboring areas. Prerequisites: GEOG:1070. Same as URP:4750.
- GEOG:4770 Environmental Justice** 3 s.h.  
Introduction to the field of environmental justice; understanding and addressing the processes that lead poor and marginalized communities to face a disproportionate degree of environmental risks and hazards. Same as AFAM:4770, GHS:4770.
- GEOG:4990 Senior Thesis** 3 s.h.  
Original research. Requirements: senior standing.
- GEOG:4995 Honors Thesis** arr.  
Original research. Requirements: honors standing.
- GEOG:5001 Readings** arr.  
Supervised readings by graduate students in topics of their choice.
- GEOG:5010 Fundamentals of Geography** 3 s.h.  
Geography as an academic discipline; history, advances, epistemology, common themes.
- GEOG:5050 Research and Writing in Geography** 3 s.h.  
Identification of research areas; research questions and hypotheses; responsible conduct of research; methodological decisions; research proposal and paper writing.
- GEOG:5055 Geospatial Programming** 3 s.h.  
Introduction to geospatial programming with Python; programming basics, data structures, and algorithms; spatial data models and structures; vector- and raster-based geoprocessing; automating GIS tasks and models; spatial libraries (e.g., ArcPy, GeoPandas, GDAL, PySAL). Same as IGPI:5055.
- GEOG:5070 Special Topics** arr.  
Contemporary fields of inquiry, such as biophysical systems, GIS, locational analysis, water resources, economic geography, demographic analysis, environment, urbanization, transportation, and regional development.
- GEOG:5300 Envisioning Future Worlds: Sustainable Development and Its Alternatives** 3 s.h.  
Sociocultural, geopolitical, and environmental implications of sustainable development and its alternatives investigated from a geographic perspective; geopolitical history of sustainable development; measures of sustainability in development; major critiques of sustainable development; alternative visions of development from different geographical contexts including ecofeminism, Buen Vivir, food sovereignty, degrowth, commoning, and the People's Health Movement. Same as GHS:5300.
- GEOG:5315 Ecosystem Ecology** 3 s.h.  
Terrestrial ecosystems as integrators of biological, physical, and ecological processes; flows of energy, carbon, water, and nutrients within ecosystems; spatial and temporal patterns and processes of Earth's ecosystems; sustaining ecosystems in the face of global change.
- GEOG:5540 Geographic Visualization** 3 s.h.  
Concepts and techniques that underlie cartographic representation, interaction, and geovisualization; map symbolization and visual variables; user-centered design, map use and usability engineering; web mapping, spatiotemporal visualization, multivariate mapping, interactive cartography, animation, geovisual analytics, 3D visualization, virtual and augmented reality. Same as IGPI:5540.
- GEOG:5800 Environmental Economics and Policy** 3 s.h.  
Reasons why markets fail in environmental realm (e.g., externalities, common pool resources, club goods, public goods); ecosystem services and techniques used for their valuation; revealed and stated preferences; cost-benefit analysis and role in policy-making process; tools to address environmental market failures, particularly command and control, taxes and subsidies, and mitigation markets; focus on air pollution, climate change, and water-related policies. Same as PBAF:5800, URP:5800.
- GEOG:6100 Seminar in Health and Environment** 3 s.h.  
Research on health and environment.
- GEOG:6264 Planning Sustainable Transportation** 3 s.h.  
Theories and methods of exerting public control over passenger and freight transportation; social and environmental regulation; effects of changing finance, regulation, and pricing policies, including privatization, tolls, impact fees. Same as PBAF:6265, URP:6265.

**GEOG:6300 Seminar in Environment, Conservation, and Land Use** **1-3 s.h.**

Research on land use, water resources, conservation.

**GEOG:6500 Seminar in Spatial Analysis and Modeling** **1-3 s.h.**

Research themes in spatial analysis, GIScience, simulation, remote sensing. Same as IGPI:6501.

**GEOG:6635 Crossing Borders Seminar** **2-3 s.h.**

Taught in English. Same as AFAM:6635, ANTH:6635, COMM:6635, ENGL:6635, FREN:6142, GRMN:6635, HIST:6135, IWP:6635, POLI:6635, SPAN:6904.

**GEOG:7000 Geography Colloquium** **1 s.h.****GEOG:7150 Research in Health and Environment** **1-3 s.h.**

Directed research in health and environment.

**GEOG:7350 Research in Environment, Conservation, and Land Use** **1-3 s.h.**

Directed research in land use, water resources, conservation.

**GEOG:7550 Research in Spatial Analysis and Modeling** **1-3 s.h.**

Directed research in spatial analysis, GIScience, simulation.

**GEOG:7750 Research in Environmental Policy** **1-3 s.h.**

Directed research in environmental justice and policy.

**GEOG:7999 Thesis** **arr.**

## Sustainability Science Courses

**SUST:2013 Introduction to Sustainability** **arr.**

Introduction to sustainability knowledge, skills, and habits as a means to shape one's vision of a sustainable citizen; emphasis on basic skills of literacy, applied math, and finding information; traditional sustainability knowledge areas related to society, economy, and environment; intersecting themes (e.g., informed consumerism, eco-economics, and livable environments). Same as BUS:2013, GEOG:2013, URP:2013.

**SUST:4200 Sustainability as a System Science** **3 s.h.**

Investigation of social, environmental, and economic sustainability in systems across the planet with a focus on food, energy, and water nexus; geographical and temporal trade-offs, unintended consequences, impacts quantification, role of public and private sectors, conceptual modeling of key system drivers and their interactions, nested systems, and system relations. Same as GEOG:4200.

# Geography, B.A.

## Learning Outcomes

The goal is for geography graduates to demonstrate spatial literacy, systems thinking, critical thinking, research proficiency, and communications skills.

### Spatial Literacy

Students will understand the role of spatial information and data in addressing social and environmental questions. They will be aware of the role of geography as a linchpin discipline that bridges social and biophysical sciences.

### Systems Thinking

Students will acquire an understanding of the connections and relationships between human and environmental activities and outcomes across space and time, be able to apply spatial analytical techniques to investigate human/environment interaction, and identify the ethical implications associated with outcomes produced by such analyses. This understanding and ability will provide students with the necessary tools to assess the sustainability of current and proposed solutions in a variety of settings across a broad spectrum of social and environmental issues.

### Critical Thinking

Students will have the capability to assess various points of view and perspectives while assessing complex social and environmental problems, to evaluate the factual basis of assertions, and to understand trade-offs.

### Research Proficiency

Students will be able to formulate testable hypotheses, apply quantitative or qualitative approaches and methodological tools to pertinent questions, and acquire secondary data or construct primary data sets when applicable.

### Communication Skills

Students will be able to communicate complex geographical and technical concepts using an appropriate vocabulary to a broad spectrum of audiences. Communication skills include verbal, written, graphic, and cartographic forms of communication.

## Requirements

The Bachelor of Arts with a major in geography requires a minimum of 120 s.h., including at least 39-43 s.h. of work for the major. Credit required for the major depends on a student's choice of track. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Transfer students must earn a minimum of 15 s.h. for the major in residence at the University of Iowa.

Geography majors may not earn the minor in geographic information science.

The major in geography is appropriate preparation for advanced training or careers in geographical and sustainability sciences.

Students choose one of three tracks in the major: environmental studies, geographic information science (GISci), or health and society. All students majoring in

geography complete a common set of foundation courses in addition to the requirements for their choice of track.

Consistent with the College of Liberal Arts and Sciences maximum semester hours rule, students may count a maximum of 56 s.h. earned in their major department toward graduation.

The B.A. with a major in geography requires the following work.

Code	Title	Hours
Common Requirements		18-23
Statistics Courses		3-4
Track Courses		15-19

## Common Requirements

Students may not use a course to fulfill more than one major requirement.

Code	Title	Hours
All of these:		
GEOG:1020	The Global Environment	3
GEOG:1021	The Global Environment Lab	1
GEOG:1050	Foundations of GIS	4
GEOG:1090	Globalization and Geographic Diversity	3
One of these:		
GEOG:1060	Geography of Asia: From Japan to Pakistan	3
GEOG:1070	Contemporary Environmental Issues	3
GEOG:2110/ GHS:2110	Seven Billion and Counting: Introduction to Population Dynamics	3
GEOG:2130	World Cities	3
GEOG:2910	The Global Economy	3
GEOG:2950	Environmental Conservation	3
One of these (not required for GISci track students):		
GEOG:3340	Ecosystem Services	3
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
GEOG:3520/ IGPI:3520	GIS for Environmental Studies	3
GEOG:3540/ IGPI:3540	Geographic Visualization	3
GEOG:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
GEOG:4010	Field Methods in Physical Geography	3
GEOG:4020	Field Methods: Mapping and Mobile Computing	3
GEOG:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3
GEOG:4650	Simulation in Environmental Geography	3
One of these:		
GEOG:4030	Senior Project Seminar	3

GEOG:4995	Honors Thesis (must enroll for 3 s.h.)	3
One of these (at least 1 s.h. required):		
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3992	Undergraduate Research (including ICIGO or independent research)	arr.
CCP:1201	Academic Internship	1-3

Senior Project Seminar (GEOG:4030) is offered only in spring semesters. Students who choose GEOG:4995 Honors Thesis must make arrangements with a faculty advisor.

The Department of Geographical and Sustainability Sciences is a participant in the University's internship program, which provides opportunities for students to participate in paid and unpaid activities related to their academic programs. The Pomerantz Career Center works with students to develop appropriate internships.

## Statistics Courses

Students must earn a minimum of 3 s.h. in statistics by completing one of the following courses or a statistics course equivalent to or numbered above one of these.

Code	Title	Hours
GEOG:1065	Introduction to Spatial Analysis: Patterns and Processes	3
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2010	Statistical Methods and Computing	3
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3510/ IGPI:3510	Biostatistics	3

## Tracks

All geography majors must complete one of the three tracks described below: environmental studies, geographic information science (GISci), or health and society. Students should pay close attention to prerequisites for the upper-level courses in each track in order to develop a study plan that allows them to complete their major in a timely way.

Students in the environmental studies or health and society track who wish to gain additional experience in theory and application of geographic information systems (GIS) should take GIS-based courses offered by the Department of Geographical and Sustainability Sciences, as described for each track below.

Students may use GEOG:3001 Special Topics to fulfill a track requirement if the course content is applicable.

### Environmental Studies Track

The environmental studies track requires a minimum of 15 s.h. It is designed for students interested in the interrelationships among social and natural processes that affect the environment. The track prepares students

for careers or pursuit of personal interests in resource management, landscape ecology, water resources, environmental policy or law, global environmental change, sustainable development, or other complex environmental issues. Graduates may find employment in an environmental profession such as conservation, environmental planning and regulation; or environmental law, policy, and politics.

The environmental studies track offers training in field observation, remote sensing, geographical information systems, quantitative analysis/computing, and cartographic representation. It also provides a sound foundation for graduate or professional-level studies in the natural or social aspects of the environment.

In addition to the common requirements, students in the environmental studies track complete a common track course (3 s.h.) and at least 12 s.h. of upper-level geographical and sustainability sciences courses.

Code	Title	Hours
Common course—all environmental studies track students take this:		
GEOG:1070	Contemporary Environmental Issues	3

Students choose a total of four upper-level courses (at least 12 s.h.) from the following, in consultation with their advisor. Those who wish to gain additional experience in theory and application of GIS systems should take GEOG:3520 GIS for Environmental Studies and GEOG:4520 GIS for Environmental Studies: Applications, or they should earn 6 s.h. in other GIS-based geographical and sustainability sciences courses.

Code	Title	Hours
At least one of these:		
GEOG:2310/ EES:2310	Introduction to Climatology	3
GEOG:2374/ BIOL:2374	Biogeography	3
GEOG:2410	Environment and Development	3
GEOG:2930	Water Resources	3
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
GEOG:3520/ IGPI:3520	GIS for Environmental Studies	3
At least one of these:		
GEOG:3310	Landscape Ecology	3
GEOG:3315	Ecosystem Ecology	3
GEOG:3320/ EES:3260	Wetlands: Function, Geography, and Management	3
GEOG:3340	Ecosystem Services	3
GEOG:3350	Urban Ecology	3
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3760/ GHS:3760	Hazards and Society	3
GEOG:3920/ URP:3001	Planning Livable Cities	3
GEOG:4010	Field Methods in Physical Geography	3
GEOG:4200/ SUST:4200	Sustainability as a System Science	3

GEOG:4470	Ecological Climatology	3
GEOG:4500/ IGPI:4500	Applications in Environmental Remote Sensing	4
GEOG:4520/ IGPI:4520	GIS for Environmental Studies: Applications	3
GEOG:4650	Simulation in Environmental Geography	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3

## Geographic Information Science Track

The geographic information science track (GISci) requires a minimum of 18-19 s.h. It is designed for students preparing for positions in government agencies, nongovernment organizations, international development agencies, and business. It also provides preparation for graduate study in geography, planning, and other disciplines. The track focuses on the design, implementation, and use of geographic information systems. Courses address how geographic data are acquired, stored, accessed, displayed, managed, and analyzed.

Students in the geographic information science track learn to address problems involved in modeling environmental systems, identifying the best locations for service facilities, assessing environmental impacts, and forecasting the populations of small areas. They use the department's Geographical Information Systems Instructional Lab (GISIL) extensively to develop expertise in using GIS software.

Coursework in the track covers methods of spatial analysis and geographical modeling and involves database management and computer programming.

In addition to the common requirements, students in the geographic information science track complete a common track course (3-4 s.h.) and at least 15 s.h. of upper-level geographical and sustainability sciences courses.

Code	Title	Hours
Common course—all GISci track students take one of these:		
CS:1110	Introduction to Computer Science	3
CS:1210	Computer Science I: Fundamentals	4
CS:2110	Programming for Informatics	4

Students choose a total of five upper-level courses (at least 15 s.h.) from the following, in consultation with their advisor. GISci track students are encouraged to add breadth to their degree by taking additional upper-level courses in the department. Students interested in the application of GIS to environmental issues should select additional courses from the department's environmental studies area; those interested in health or other socioeconomic issues should select additional courses from the department's health and society area.

Code	Title	Hours
At least one of these:		
GEOG:3050/ IGPI:3050	Geospatial Programming	3

GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
GEOG:3520/ IGPI:3520	GIS for Environmental Studies	3
GEOG:3540/ IGPI:3540	Geographic Visualization	3
GEOG:4650	Simulation in Environmental Geography	3

At least one of these:

GEOG:3340	Ecosystem Services	3
GEOG:3760/ GHS:3760	Hazards and Society	3
GEOG:4010	Field Methods in Physical Geography	3

GEOG:4020	Field Methods: Mapping and Mobile Computing	3
-----------	--	---

GEOG:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3
--------------------------------------	---	---

At least one of these:

GEOG:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
-----------	--	---

GEOG:4500/ IGPI:4500	Applications in Environmental Remote Sensing	4
-------------------------	--	---

GEOG:4520/ IGPI:4520	GIS for Environmental Studies: Applications	3
-------------------------	--	---

GEOG:4570	Spatial Analysis and Location Models	3
-----------	---	---

GEOG:4580/ IGPI:4581	Introduction to Geographic Databases	3
-------------------------	---	---

## Health and Society Track

The health and society track requires a minimum of 15 s.h. It is designed for students interested in understanding the causes and consequences of social inequalities, the long-term effects that changing human/environmental interactions have on human health, and emerging transnational challenges to the sustainability of livelihoods. The track provides students with foundational knowledge and skills to support postgraduate employment in governmental or nongovernmental positions, graduate study in public health or in health-related fields, and service experiences such as the Peace Corps and AmeriCorps.

Students gain understanding of the factors and processes that determine geographic patterns of health. They explore the effects of the social, built, and natural environments on the physical, social, and mental health of populations. Coursework in the track examines patterns and causes of infectious and chronic diseases; hazards, vulnerability, and environmental justice; and the spatial methods used to understand such issues.

Thematic content from courses is complemented by quantitative, spatial, and statistical analysis coursework, enabling students to analyze and understand geographic patterns of health. Students have opportunities to work on applied problems, such as assessing patterns of disease, identifying the underlying population and environmental drivers of good or poor health, and evaluating the social dimensions of environmental impacts.

In addition to the common requirements, students in the health and society track complete three common track courses (9 s.h.) and at least two upper-level geographical and sustainability sciences courses (6 s.h.).

Code	Title	Hours
Common courses—all health and society track students take these:		
GEOG:2110/ GHS:2110	Seven Billion and Counting: Introduction to Population Dynamics	3
GEOG:3110/ GHS:3111	Geography of Health	3
GEOG:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3

Students choose two upper-level courses (at least 6 s.h.) from the following, in consultation with their advisor. Those who wish to gain additional experience in theory and application of GIS systems should also take an additional 6 s.h. in GIS-based geographical and sustainability sciences courses.

Code	Title	Hours
At least two of these:		
GEOG:3070/ GHS:3070	Hungry Planet: Global Geographies of Food	3
GEOG:3210/ CPH:3400	Health, Work, and the Environment	3
GEOG:3300/ GHS:3300	Envisioning Future Worlds: Sustainable Development and Its Alternatives	3
GEOG:3760/ GHS:3760	Hazards and Society	3
GEOG:3920/ URP:3001	Planning Livable Cities	3
GEOG:4770/ GHS:4770	Environmental Justice	3

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

### B.A. (Geographic Information Science Track)/M.S. in Informatics (Geoinformatics Subprogram)

Students majoring in geography with a geographic information science track who are interested in earning a master's degree in informatics with a geoinformatics subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Graduate College. The program enables students to begin the study of informatics

before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the informatics program, see the M.S. in Informatics [p. 1642] (Graduate College) in the Catalog.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major. They must be admitted to the department's honors program by the first semester of their senior year or earlier.

Honors students in geography pursue study beyond the typical undergraduate level. In order to graduate with honors in the major, they work under the direction of a faculty member to conduct original research and then prepare and present an honors thesis based on their research. The thesis is reviewed by a committee of at least three faculty members. Departmental honors students earn credit for their thesis by registering for GEOG:4995 Honors Thesis. They may substitute GEOG:4030 Senior Project Seminar for GEOG:4995, as long as they continue to work on the thesis under the direction of a faculty member.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the geography major.

## Career Advancement

Courses in geography are commonly required of students preparing to teach at the elementary and secondary school levels or to work in planning and public affairs. The degree also provides a solid background for many related professions, including law, health care, environmental engineering, and business.

The application of geographic information systems (GIS) to social, economic, and environmental problems has increased considerably during the past decade. This trend is likely to continue into the future; in fact, the U.S. Department of Labor has identified the area as one of its 14 high-growth industries. GIS presents an abundance of career opportunities for geography graduates in local, state, and federal government agencies, as well as in the private sector.

Geography majors also are encouraged to participate in an internship. The department maintains close ties with the Iowa Department of Natural Resources and other local agencies that offer internships.

The department's faculty members help students apply for postgraduate programs and contact potential employers.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** one introductory course in the major.

**Before the fifth semester begins:** five courses in the major.

**Before the seventh semester begins:** 11 courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** 14 courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Geography, B.A.

- Environmental Studies Track [p. 556]
- Geographic Information Science Track [p. 557]
- Health and Society Track [p. 558]

### Environmental Studies Track

Course	Title	Hours
<b>First Year</b>		
<b>Fall</b>		
ENGL:1200 or RHET:1030	The Interpretation of Literature or Rhetoric	3 - 4
GEOG:1090	Globalization and Geographic Diversity <sup>a</sup>	3
GEOG:1020	The Global Environment <sup>a</sup>	3
GEOG:1021	The Global Environment Lab <sup>a</sup>	1
GE CLAS Core: Historical Perspectives <sup>b</sup>		3
CSI:1600	Success at Iowa	2
<b>Hours</b>		<b>15-16</b>
<b>Spring</b>		
ENGL:1200 or RHET:1030	The Interpretation of Literature or Rhetoric	3 - 4
GE CLAS Core: Literary, Visual, and Performing Arts <sup>b</sup>		3
Major: geography "select one" course <sup>c, d, e</sup>		3
GE CLAS Core: Values and Culture <sup>b</sup>		3
Elective course <sup>f</sup>		3
<b>Hours</b>		<b>15-16</b>

### Second Year

<b>Fall</b>		
GE CLAS Core: World Languages First Level Proficiency or elective course <sup>g</sup>		4 - 5
Major: statistics course <sup>h</sup>		3
GEOG:1070	Contemporary Environmental Issues <sup>a</sup>	3
GE CLAS Core: Diversity and Inclusion <sup>b</sup>		3
Elective course <sup>f</sup>		1
<b>Hours</b>		<b>14-15</b>

### Spring

GE CLAS Core: World Languages Second Level Proficiency or elective course <sup>g</sup>		4 - 5
Major: environmental studies track course		3 - 4
GEOG:1050	Foundations of GIS	4
GE CLAS Core: Quantitative or Formal Reasoning <sup>b</sup>		3
Elective course <sup>f</sup>		1
<b>Hours</b>		<b>15-17</b>

### Third Year

#### Fall

GE CLAS Core: World Languages Second Level Proficiency or elective course <sup>g</sup>		4 - 5
Major: GIS "select one" course <sup>i</sup>		3
Major: environmental studies track course		3 - 4
Elective course <sup>f</sup>		3
Elective course <sup>f</sup>		1
<b>Hours</b>		<b>14-16</b>

#### Spring

GE CLAS Core: World Languages Fourth Level Proficiency or elective course <sup>g</sup>		4 - 5
GEOG:3992 or CCP:1201 or GEOG:3400	Undergraduate Research or Academic Internship or Iowa Environmental Policy in Practice	1 - 3
Major: environmental studies track course		3 - 4
Elective course <sup>f</sup>		3
Elective course <sup>f</sup>		3
<b>Hours</b>		<b>14-18</b>

### Fourth Year

#### Fall

Major: environmental studies track course		3 - 4
GE CLAS Core: Natural Sciences without Lab <sup>b</sup>		3
Elective course <sup>f</sup>		3
Elective course <sup>f</sup>		3
Elective course <sup>f</sup>		3
<b>Hours</b>		<b>15-16</b>

#### Spring

GEOG:4030 or GEOG:4995	Senior Project Seminar or Honors Thesis	3
Elective course <sup>f</sup>		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) <sup>j</sup>		
<b>Hours</b>		<b>15</b>
<b>Total Hours</b>		<b>117-129</b>

- a Fulfills a major requirement and may fulfill a GE requirement.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Cannot use GEOG:1070 or GEOG:1090, as these are required elsewhere in the major.
- d Choose from the following options: GEOG:1060, GEOG:1070, GEOG:2110, GEOG:2130, GEOG:2910, GEOG:2950.
- e Students cannot choose a course that they have already used elsewhere in the major.
- f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- g Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- h Choose from: GEOG:1065, PSQF:4143, STAT:1020, STAT:1030, STAT:2010, STAT:2020, STAT:3510. Consider choosing a course that also fulfills the GE CLAS Core Quantitative or Formal Reasoning requirement.
- i Cannot double-count a class for this requirement and another requirement in the major.
- j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

- a Fulfills a major requirement and may fulfill a GE requirement.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Choose from the following options: GEOG:1060, GEOG:1070, GEOG:2110, GEOG:2130, GEOG:2910, GEOG:2950.
- d Students cannot choose a course that they have already used elsewhere in the major.
- e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- g Choose from: GEOG:1065, PSQF:4143, STAT:1020, STAT:1030, STAT:2010, STAT:2020, STAT:3510. Consider choosing a course that also fulfills the GE CLAS Core Quantitative or Formal Reasoning requirement.
- h Cannot double-count a class for this requirement and another requirement in the major.
- i Choose from the following: GEOG:3070, GEOG:3210, GEOG:3300, GEOG:3760, GEOG:3920, GEOG:4770.
- j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Geography, B.S.

## Learning Outcomes

The goal is for geography graduates to demonstrate spatial literacy, systems thinking, critical thinking, research proficiency, and communications skills.

### Spatial Literacy

Students will understand the role of spatial information and data in addressing social and environmental questions. They will be aware of the role of geography as a linchpin discipline that bridges social and biophysical sciences.

### Systems Thinking

Students will acquire an understanding of the connections and relationships between human and environmental activities and outcomes across space and time, be able to apply spatial analytical techniques to investigate human/environment interaction, and identify the ethical implications associated with outcomes produced by such analyses. This understanding and ability will provide students with the necessary tools to assess the sustainability of current and proposed solutions in a variety of settings across a broad spectrum of social and environmental issues.

### Critical Thinking

Students will have the capability to assess various points of view and perspectives while assessing complex social and environmental problems, to evaluate the factual basis of assertions, and to understand trade-offs.

### Research Proficiency

Students will be able to formulate testable hypotheses, apply quantitative or qualitative approaches and methodological tools to pertinent questions, and acquire secondary data or construct primary data sets when applicable.

### Communication Skills

Students will be able to communicate complex geographical and technical concepts using an appropriate vocabulary to a broad spectrum of audiences. Communication skills include verbal, written, graphic, and cartographic forms of communication.

## Requirements

The Bachelor of Science with a major in geography requires a minimum of 120 s.h., including at least 46-49 s.h. of work for the major. Credit required for the major depends on a student's choice of track. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Transfer students must earn a minimum of 15 s.h. for the major in residence at the University of Iowa.

Geography majors may not earn the minor in geographic information science.

The major in geography is appropriate preparation for advanced training or careers in geographical and sustainability sciences. Students with strong interest in quantitative analysis and model building should pursue the Bachelor of Science and are encouraged to master an appropriate computer programming language.

Students choose one of three tracks in the major: environmental studies, geographic information science (GISci), or health and society. All students majoring in geography complete a common set of foundation courses in addition to the requirements for their choice of track. Bachelor of Science students take additional mathematics coursework.

Consistent with the College of Liberal Arts and Sciences maximum semester hours rule, students may count a maximum of 56 s.h. earned in their major department toward graduation.

The B.S. with a major in geography requires the following work.

Code	Title	Hours
Common Requirements		18-23
Statistics, Mathematics, or Computer Science Courses		10
Track Courses		15-19

## Common Requirements

Students may not use a course to fulfill more than one major requirement.

Code	Title	Hours
All of these:		
GEOG:1020	The Global Environment	3
GEOG:1021	The Global Environment Lab	1
GEOG:1050	Foundations of GIS	4
GEOG:1090	Globalization and Geographic Diversity	3
One of these:		
GEOG:1060	Geography of Asia: From Japan to Pakistan	3
GEOG:1070	Contemporary Environmental Issues	3
GEOG:2110/ GHS:2110	Seven Billion and Counting: Introduction to Population Dynamics	3
GEOG:2130	World Cities	3
GEOG:2910	The Global Economy	3
GEOG:2950	Environmental Conservation	3
One of these (not required for GISci track students):		
GEOG:3340	Ecosystem Services	3
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
GEOG:3520/ IGPI:3520	GIS for Environmental Studies	3
GEOG:3540/ IGPI:3540	Geographic Visualization	3
GEOG:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
GEOG:4010	Field Methods in Physical Geography	3
GEOG:4020	Field Methods: Mapping and Mobile Computing	3
GEOG:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3

GEOG:4650	Simulation in Environmental Geography	3
One of these:		
GEOG:4030	Senior Project Seminar (offered only in spring semesters)	3
GEOG:4995	Honors Thesis (must enroll for 3 s.h. and make arrangements with a faculty advisor)	3
One of these (at least 1 s.h. required):		
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3992	Undergraduate Research (including ICIGO or independent research)	arr.
CCP:1201	Academic Internship	1-3

Senior Project Seminar (GEOG:4030) is offered only in spring semesters. Students who choose GEOG:4995 Honors Thesis must make arrangements with a faculty advisor.

The Department of Geographical and Sustainability Sciences is a participant in the University's internship program, which provides opportunities for students to participate in paid and unpaid activities related to their academic programs. The Pomerantz Career Center works with students to develop appropriate internships.

## Statistics, Mathematics, or Computer Science Courses

Students must earn a minimum of 10 s.h. in statistics, mathematics, or computer science coursework by completing the following. Equivalent courses and courses with a higher course number also may be selected in consultation with, and approval by, an advisor.

Students who complete the GIS track may not double count their required computer science courses for the statistics, mathematics, or computer science courses requirement.

Code	Title	Hours
Both of these:		
STAT:2010	Statistical Methods and Computing	3
STAT:3200/ IGPI:3200/ISE:3760	Applied Linear Regression	3
One of these:		
CS:1210	Computer Science I: Fundamentals	4
CS:2110	Programming for Informatics	4
CS:2230	Computer Science II: Data Structures	4
MATH:1380	Calculus and Matrix Algebra for Business	4
MATH:1460	Calculus for the Biological Sciences	4

## Tracks

All geography majors must complete one of the three tracks described below: environmental studies, geographic information science (GISci), or health and society. Students should pay close attention to prerequisites for the upper-level

courses in each track in order to develop a study plan that allows them to complete their major in a timely way.

Students in the environmental studies or health and society track who wish to gain additional experience in theory and application of geographic information systems (GIS) should take GIS-based courses offered by the Department of Geographical and Sustainability Sciences, as described for each track below.

Students may use GEOG:3001 Special Topics to fulfill a track requirement if the course content is applicable.

## Environmental Studies Track

The environmental studies track requires a minimum of 15 s.h. It is designed for students interested in the interrelationships among social and natural processes that affect the environment. The track prepares students for careers or pursuit of personal interests in resource management, landscape ecology, water resources, environmental policy or law, global environmental change, sustainable development, or other complex environmental issues. Graduates may find employment in an environmental profession such as conservation, environmental planning and regulation, or environmental law, policy, and politics.

The environmental studies track offers training in field observation, remote sensing, geographical information systems, quantitative analysis/computing, and cartographic representation. It also provides a sound foundation for graduate or professional-level studies in the natural or social aspects of the environment.

In addition to the common requirements, students in the environmental studies track complete a common track course (3 s.h.) and at least 12 s.h. of upper-level geographical and sustainability sciences courses.

Code	Title	Hours
Common course—all environmental studies track students take this:		
GEOG:1070	Contemporary Environmental Issues	3

Students choose a total of four upper-level courses (at least 12 s.h.) from the following, in consultation with their advisor. Those who wish to gain additional experience in theory and application of GIS systems should take GEOG:3520 GIS for Environmental Studies and GEOG:4520 GIS for Environmental Studies: Applications, or they should earn 6 s.h. in other GIS-based geographical and sustainability sciences courses.

Code	Title	Hours
At least one of these:		
GEOG:2310/ EES:2310	Introduction to Climatology	3
GEOG:2374/ BIOL:2374	Biogeography	3
GEOG:2410	Environment and Development	3
GEOG:2930	Water Resources	3
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
GEOG:3520/ IGPI:3520	GIS for Environmental Studies	3
At least one of these:		
GEOG:3310	Landscape Ecology	3

GEOG:3315	Ecosystem Ecology	3
GEOG:3320/ EES:3260	Wetlands: Function, Geography, and Management	3
GEOG:3340	Ecosystem Services	3
GEOG:3350	Urban Ecology	3
GEOG:3400	Iowa Environmental Policy in Practice	3
GEOG:3760/ GHS:3760	Hazards and Society	3
GEOG:3920/ URP:3001	Planning Livable Cities	3
GEOG:4010	Field Methods in Physical Geography	3
GEOG:4200/ SUST:4200	Sustainability as a System Science	3
GEOG:4470	Ecological Climatology	3
GEOG:4500/ IGPI:4500	Applications in Environmental Remote Sensing	4
GEOG:4520/ IGPI:4520	GIS for Environmental Studies: Applications	3
GEOG:4650	Simulation in Environmental Geography	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3

## Geographic Information Science Track

The geographic information science track (GISci) requires a minimum of 18-19 s.h. It is designed for students preparing for positions in government agencies, nongovernment organizations, international development agencies, and business. It also provides preparation for graduate study in geography, planning, and other disciplines. The track focuses on the design, implementation, and use of geographic information systems. Courses address how geographic data are acquired, stored, accessed, displayed, managed, and analyzed.

Students in the geographic information science track learn to address problems involved in modeling environmental systems, identifying the best locations for service facilities, assessing environmental impacts, and forecasting the populations of small areas. They use the department's Geographical Information Systems Instructional Lab (GISIL) extensively to develop expertise in using GIS software.

Coursework in the track covers methods of spatial analysis and geographical modeling and involves database management and computer programming.

In addition to the common requirements, students in the geographic information science track complete a common track course (3-4 s.h.) and at least 15 s.h. of upper-level geographical and sustainability sciences courses.

Code	Title	Hours
Common course—all GISci track students take one of these:		
CS:1110	Introduction to Computer Science	3

CS:1210	Computer Science I: Fundamentals	4
CS:2110	Programming for Informatics	4

Students choose a total of five upper-level courses (at least 15 s.h.) from the following, in consultation with their advisor. GISci track students are encouraged to add breadth to their degree by taking additional upper-level courses in the department. Students interested in the application of GIS to environmental issues should select additional courses from the department's environmental studies area; those interested in health or other socioeconomic issues should select additional courses from the department's health and society area.

Code	Title	Hours
At least one of these:		
GEOG:3050/ IGPI:3050	Geospatial Programming	3
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
GEOG:3520/ IGPI:3520	GIS for Environmental Studies	3
GEOG:3540/ IGPI:3540	Geographic Visualization	3
GEOG:4650	Simulation in Environmental Geography	3
At least one of these:		
GEOG:3340	Ecosystem Services	3
GEOG:3760/ GHS:3760	Hazards and Society	3
GEOG:4010	Field Methods in Physical Geography	3
GEOG:4020	Field Methods: Mapping and Mobile Computing	3
GEOG:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3
At least one of these:		
GEOG:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
GEOG:4500/ IGPI:4500	Applications in Environmental Remote Sensing	4
GEOG:4520/ IGPI:4520	GIS for Environmental Studies: Applications	3
GEOG:4570	Spatial Analysis and Location Models	3
GEOG:4580/ IGPI:4581	Introduction to Geographic Databases	3

## Health and Society Track

The health and society track requires a minimum of 15 s.h. It is designed for students interested in understanding the causes and consequences of social inequalities, the long-term effects that changing human/environmental interactions have on human health, and emerging transnational challenges to the sustainability of livelihoods. The track provides students with foundational knowledge and skills to support postgraduate employment in governmental or nongovernmental positions, graduate study in public health or

in health-related fields, and service experiences such as the Peace Corps and AmeriCorps.

Students gain understanding of the factors and processes that determine geographic patterns of health. They explore the effects of the social, built, and natural environments on the physical, social, and mental health of populations. Coursework in the track examines patterns and causes of infectious and chronic diseases; hazards, vulnerability, and environmental justice; and the spatial methods used to understand such issues.

Thematic content from courses is complemented by quantitative, spatial, and statistical analysis coursework, enabling students to analyze and understand geographic patterns of health. Students have opportunities to work on applied problems, such as assessing patterns of disease, identifying the underlying population and environmental drivers of good or poor health, and evaluating the social dimensions of environmental impacts.

In addition to satisfying the common requirements, students in the health and society track complete three common track courses (9 s.h.) and at least two upper-level geographical and sustainability sciences courses (6 s.h.).

Code	Title	Hours
Common courses—all health and society track students take these:		
GEOG:2110/ GHS:2110	Seven Billion and Counting: Introduction to Population Dynamics	3
GEOG:3110/ GHS:3111	Geography of Health	3
GEOG:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3

Students choose two upper-level courses (at least 6 s.h.) from the following, in consultation with their advisor. Those who wish to gain additional experience in theory and application of GIS systems should also take an additional 6 s.h. in GIS-based geographical and sustainability sciences courses.

Code	Title	Hours
At least two of these:		
GEOG:3070/ GHS:3070	Hungry Planet: Global Geographies of Food	3
GEOG:3210/ CPH:3400	Health, Work, and the Environment	3
GEOG:3300/ GHS:3300	Envisioning Future Worlds: Sustainable Development and Its Alternatives	3
GEOG:3760/ GHS:3760	Hazards and Society	3
GEOG:3920/ URP:3001	Planning Livable Cities	3
GEOG:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a

related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

### B.S./M.S. in Informatics (Geoinformatics Subprogram)

Students majoring in geography who are interested in earning a master's degree in informatics with a geoinformatics subprogram may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Graduate College. The program enables students to begin the study of informatics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the informatics program, see the M.S. in informatics [p. 1642] (Graduate College) in the Catalog.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major. They must be admitted to the department's honors program by the first semester of their senior year or earlier.

Honors students in geography pursue study beyond the typical undergraduate level. In order to graduate with honors in the major, they work under the direction of a faculty member to conduct original research and then prepare and present an honors thesis based on their research. The thesis is reviewed by a committee of at least three faculty members. Departmental honors students earn credit for their thesis by registering for GEOG:4995 Honors Thesis. They may substitute GEOG:4030 Senior Project Seminar for GEOG:4995, as long as they continue to work on the thesis under the direction of a faculty member.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the geography major.

## Career Advancement

Courses in geography are commonly required of students preparing to teach at the elementary and secondary school levels or to work in planning and public affairs. The degree also provides a solid background for many related professions, including law, health care, environmental engineering, and business.

The application of geographic information systems (GIS) to social, economic, and environmental problems has increased considerably during the past decade. This trend is likely to continue into the future; in fact, the U.S. Department of Labor has identified the area as one of its 14 high-growth industries. GIS presents an abundance of career opportunities for geography graduates in local, state, and federal government agencies, as well as in the private sector.

Geography majors are encouraged to participate in an internship. The department maintains close ties with the Iowa Department of Natural Resources and other local agencies that offer internships.

The department's faculty members help students apply for postgraduate programs and contact potential employers.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** two introductory courses in the major.

**Before the fifth semester begins:** six courses in the major.

**Before the seventh semester begins:** 12 courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** 15 courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Geography, B.S.

- Environmental Studies Track [p. 563]
- Geographic Information Science Track [p. 564]
- Health and Society Track [p. 565]

Elective course <sup>e</sup>		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) <sup>i</sup>		
<b>Hours</b>		<b>15</b>
<b>Total Hours</b>		<b>116-127</b>

- a Fulfills a major requirement and may fulfill a GE requirement.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Choose from the following options: GEOG:1060, GEOG:1070, GEOG:2110, GEOG:2130, GEOG:2910, GEOG:2950.
- d Students cannot choose a course that they have already used elsewhere in the major.
- e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- g Choose from the following options: CS:1210, CS:2110, CS:2230, MATH:1380, MATH:1460. This course should be chosen based on math placement exam and/or prior coursework, and cannot count for more than one major requirement.
- h Enrollment in math courses requires completion of a placement exam.
- i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

### Health and Society Track

Course	Title	Hours
<b>First Year</b>		
<b>Fall</b>		
RHET:1030 or ENGL:1200	Rhetoric or The Interpretation of Literature	3 - 4

- h Enrollment in math courses requires completion of a placement exam.
- i Choose from the following: GEOG:3070, GEOG:3210, GEOG:3300, GEOG:3760, GEOG:3920, GEOG:4770.
- j Cannot use GEOG:4150, as it is required elsewhere in the track.
- k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Sustainability Science, B.S.

The National Academy of Science defines sustainability sciences as "...an emerging field...dealing with the interactions between natural and social systems, and with how those interactions affect the challenge of sustainability: meeting the needs of present and future generations while substantially reducing poverty and conserving the planet's life support systems." The sustainability science major at the University of Iowa is built on an integrative curriculum, with coursework in the social, natural, and analytical disciplines, thereby providing students with the knowledge and skills needed to help build a more sustainable future in Iowa, the United States, and around the world. The program offers students relevant real-world experiences such as study abroad and community outreach, as well as an academically rigorous curriculum.

## Learning Outcomes

Sustainability science graduates will be able to:

- understand the complex processes that connect humans to natural systems;
- analyze the potential impact of decisions given competing information, perceptions, and goals; and
- communicate the importance of sustainability science and management to leaders and the public.

## Requirements

The Bachelor of Science with a major in sustainability science requires a minimum of 120 s.h., including at least 68-71 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Transfer students must earn a minimum of 40 s.h. for the major in residence at the University of Iowa.

Sustainability science majors may earn a second major or minor in geography, environmental policy and planning, and environmental sciences, as well as other majors, minors, or certificates at the University of Iowa (except for the Certificate in Sustainability). Students may count a maximum of 6 s.h. completed for another major toward the sustainability science major, and may count a maximum of 3 s.h. toward another minor.

The B.S. with a major in sustainability science requires the following work.

Code	Title	Hours
	Core Courses	28-30
	Analytical Tools Courses	14
	Communication Course	2-3
	Equity/Ethics/Equality Course	3
	Electives	18
	Research/Internship Experience	3
<b>Total Hours</b>		<b>68-71</b>

## Core Courses

Core courses introduce students to key elements of sustainability science.

## Sustainability Science

Code	Title	Hours
Both of these:		
GEOG:2013/ BUS:2013/ SUST:2013/ URP:2013	Introduction to Sustainability	3
GEOG:3340	Ecosystem Services	3
One of these:		
GEOG:4200/ SUST:4200	Sustainability as a System Science	3
CBE:4410/CEE:4107	Sustainable Systems	3

## Natural Systems

Code	Title	Hours
One of these:		
CHEM:1070	General Chemistry I	3
CHEM:1110	Principles of Chemistry I	4
One of these:		
EES:1085/ ENVS:1085	Fundamentals of Environmental Science	4
GEOG:1020	The Global Environment	3
One of these:		
GEOG:4470	Ecological Climatology	3
BIOL:2673/ ENVS:2673	Ecology	3

## Human Systems

Code	Title	Hours
Both of these:		
GEOG:2110/ GHS:2110	Seven Billion and Counting: Introduction to Population Dynamics	3
GEOG:3800	Environmental Economics and Policy	3
One of these:		
GEOG:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3
POLI:2417	Comparative Environmental Policy	3

## Sustainability Sciences Seminar

Code	Title	Hours
This course:		
	A sustainability science seminar course (consult advisor)	1

## Analytical Tools Courses

These courses address solid analytical skills needed to address sustainability problems.

Code	Title	Hours
All of these:		
GEOG:1050	Foundations of GIS	4
STAT:2010	Statistical Methods and Computing	3
STAT:3200/ IGPI:3200/ISE:3760	Applied Linear Regression	3
One of these:		

CS:1210	Computer Science I: Fundamentals	4
CS:2110	Programming for Informatics	4
MATH:1380	Calculus and Matrix Algebra for Business	4
MATH:1460	Calculus for the Biological Sciences	4

## Communication Course

Code	Title	Hours
At least one of these:		
CNW:2730	The Art and Craft of Science Writing	3
CNW:2740	The Art and Craft of Writing about the Environment	3
CNW:3664	Writing About Science	3
JMC:1800	Twenty-first-Century Science: Environmental Communication in the Digital Age	3
JMC:3185	Topics in Understanding Media	3
POLI:3107	Writing in Political Science: Writing for "Science" and for "Politics"	3
WRIT:2600	Science Communication I: Fundamentals of Science Communication	2
WRIT:2601	Science Communication II: Science Outreach and Engagement	2

## Equity/Ethics/Equality Course

Code	Title	Hours
At least one of these:		
GEOG:4770/ GHS:4770	Environmental Justice	3
PHIL:2402	Introduction to Ethics	3
SOC:1022/ SSW:1022	Social Justice and Social Welfare in the United States	3
SOC:1219/ HIST:1219	Big Ideas: Equality, Opportunity, and Public Policy in America	3

## Electives

Elective coursework provides the flexibility so that students can gain depth in an area of interest or continue to build a broad platform on which to build subsequent academic or professional careers.

Students cannot use an elective course to satisfy more than one requirement.

Students must select a minimum of 18 s.h. from the following, with at least 9 s.h. numbered above 3000. Students who seek to develop depth in an area may take up to 12 s.h. in a single focal area.

## Natural Systems

Code	Title	Hours
GEOG:2374/ BIOL:2374	Biogeography	3

GEOG:3310	Landscape Ecology	3
GEOG:3315	Ecosystem Ecology	3
GEOG:3350	Urban Ecology	3
GEOG:4010	Field Methods in Physical Geography	3
BIOL:2673/ ENVS:2673	Ecology	3
EES:4700/ ENVS:4700	Evolution of Ecosystems	3
ENVS:3095	Field Ecology	4
Iowa Lakeside Lab courses (prefix IALL); approved by advisor		

## Human Systems

Code	Title	Hours
GEOG:3300/ GHS:3300	Envisioning Future Worlds: Sustainable Development and Its Alternatives	3
GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
GEOG:4750/ URP:4750	Environmental Impact Analysis	3
GEOG:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3
ANTH:2100	Anthropology and Contemporary World Problems	3
ECON:3650	Policy Analysis	3
ENTR:3700	Sustainable Product Innovation and Management	3
POLI:2417	Comparative Environmental Policy	3
POLI:3126	Environmental Policy	3
URP:3001/ GEOG:3920	Planning Livable Cities	3

## Integrated Natural and Human Systems

Code	Title	Hours
GEOG:2930	Water Resources	3
GEOG:2950	Environmental Conservation	3
GEOG:3331	Human Dimensions of Climate	3
GEOG:3760/ GHS:3760	Hazards and Society	3
ANTH:2261	Human Impacts on the Environment	3

## Analytical Methods and Decision Support

Code	Title	Hours
GEOG:3050/ IGPI:3050	Geospatial Programming	3
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
GEOG:3520/ IGPI:3520	GIS for Environmental Studies	3

GEOG:3540/ IGPI:3540	Geographic Visualization	3
GEOG:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3
GEOG:4580/ IGPI:4581	Introduction to Geographic Databases	3
GEOG:4650	Simulation in Environmental Geography	3
BAIS:3005	Information Systems	2
BAIS:3200	Database Management	3
BAIS:3800	Optimization and Simulation Modeling	3
BAIS:4480/ ECE:4480	Knowledge Discovery	3
CS:1110	Introduction to Computer Science	3
CS:1210	Computer Science I: Fundamentals	4
CS:2110	Programming for Informatics	4
CS:2230	Computer Science II: Data Structures	4
CS:3210	Programming Languages and Tools	3
CS:4720/ MATH:4820	Optimization Techniques	3

## Research/Internship Experience

Students must complete a minimum of 3 s.h. for the research/internship experience requirement. They can fulfill this requirement through active participation on research with faculty, an internship at a public or private agency, or an honors thesis. Students can apply an additional 3 s.h. of research experience to their Electives requirement.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major. Students also must complete 6 s.h. of research/internship credit, and successfully complete an honors thesis and presentation.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the sustainability science major.

## Career Advancement

In Iowa, challenges associated with water quality, habitat diversity, air quality, a changing climate, and struggling rural communities have been recognized for many years. At the same time, there are significant opportunities to have a positive impact on social, economic, and environmental goals through renewable energy, reconnection of the farm with the

community, and the development of more sustainable urban infrastructure, among other ways. A knowledgeable workforce is needed to address such challenges as well as to capitalize on these related opportunities.

Sustainability science provides a solid foundation for careers in fields related to sustainability while giving students the needed preparation to continue their studies in professional or graduate programs. According to the Bureau of Labor Statistics, employment opportunities for individuals with training in the environmental area is projected to grow by 11 percent between the years 2014 and 2024, faster than the national average. Sustainability science provides entry into these and related careers, such as planning and public affairs (projected growth of six percent, as fast as average); conservation (projected growth of seven percent, as fast as average); and geospatial technologies (projected growth of 29 percent, much faster than the national average).

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** two core courses in the major.

**Before the fifth semester begins:** six courses in the major.

**Before the seventh semester begins:** 12 courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** 15 courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Sustainability Science, B.S.

- a GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- b Fulfills a major requirement and may fulfill a GE requirement.
- c Enrollment in chemistry courses requires completion of a placement exam.
- d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f Choose from: CNW:2730, CNW:2740, CNW:3664, JMC:1800, JMC:3185, POLI:3107, WRIT:2600, WRIT:2601.
- g Elective coursework provides the flexibility so that students can gain depth in an area of interest or continue to build a broad platform on which to build subsequent academic or professional careers. Students cannot use an elective course to satisfy more than one requirement. Students must select a minimum of 18 s.h. from the list found in the catalog, with at least 9 s.h. numbered above 3000. Students who seek to develop depth in an area may take up to 12 s.h. in a single focal area.
- h Choose from: GEOG:4770, PHIL:2402, SOC:1022, SOC:1219.
- i Choose from: CS:1210, CS:2110, MATH:1460, MATH:1380
- j Enrollment in math courses requires completion of a placement exam.
- k This course is a prerequisite for GEOG:4470.
- l Research or internship: must be pre-approved by the department.
- m Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Geographic Information Science, Minor

Geographic information science is the study of geography using digital technology. The field uses geographic information systems (computer-based technologies designed to facilitate the capture, organization, analysis, and display of geographic data), remote sensing (primarily interpretation of satellite imagery), and spatial modeling (viewing, analyzing, and mapping spatial data) to study geographic patterns and processes and to examine research on the nature, development, and use of these tools.

## Requirements

The undergraduate minor in geographic information science requires a minimum of 15 s.h. in geographical and sustainability sciences courses, including 12 s.h. in University of Iowa courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Geography majors may not earn the minor in geographic information science.

The minor requires one core course, three mid-level specialization courses, and an advanced course that builds on one of the three mid-level courses. Students should contact the department secretary to request an advisor for help in selecting the advanced course.

The minor in geographic information science requires the following coursework.

## Core Course

Code	Title	Hours
One of these:		
GEOG:1050	Foundations of GIS	4
GEOG:3010/ IGPI:3010	Geographic Information Systems and Science	3

## Mid-Level Specialization Courses

Code	Title	Hours
All of these:		
GEOG:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
GEOG:3520/ IGPI:3520	GIS for Environmental Studies	3
GEOG:3540/ IGPI:3540	Geographic Visualization	3

## Advanced Course

Code	Title	Hours
One of these:		
GEOG:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
GEOG:4020	Field Methods: Mapping and Mobile Computing	3

GEOG:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3
GEOG:4500/ IGPI:4500	Applications in Environmental Remote Sensing	4
GEOG:4520/ IGPI:4520	GIS for Environmental Studies: Applications	3
GEOG:4570	Spatial Analysis and Location Models	3
GEOG:4580/ IGPI:4581	Introduction to Geographic Databases	3
GEOG:4650	Simulation in Environmental Geography	3

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Geographic Information Science, Minor

Course	Title	Hours
<b>Academic Career</b>		
<b>Any Semester</b>		

Students pursuing the Geography major cannot also pursue the Geographic Information Science (GIS) minor.

12 semester hours of the Geographic Information Science minor must be 3000-level or above and taken at the University of Iowa.

	Hours	
		<b>0</b>
<b>First Year</b>

	<b>Hours</b>	<b>3</b>
<b>Fourth Year</b>		
<b>Fall</b>		
Minor: GIS advanced course <sup>a</sup>		3
	<b>Hours</b>	<b>3</b>
	<b>Total Hours</b>	<b>15-16</b>

<sup>a</sup> Refer to the General Catalog for a list of recommended courses.

# Geography, Minor

## Requirements

The undergraduate minor in geography requires a minimum of 15 s.h. in geographical and sustainability sciences courses (prefix GEOG), including 12 s.h. in University of Iowa courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students are encouraged to concentrate their coursework in tracks—environmental studies, geographic information science, or health and society (see the B.A. in geography [p. 552] or the B.S. in geography [p. 559]). For assistance in selecting courses, students should contact the department secretary to request an advisor for the minor.

# Geographic Information Science, Certificate

Geographic information systems (GIS) and the digital spatial data that they contain inform major decisions on how natural resources are managed, how smart cities are built, how communities respond to natural disasters, and how the spread of disease is detected. These same systems and data guide such everyday tasks as deciding one's driving route, finding family and friends using a phone, or figuring out when the bus arrives. Geographic information science (GIScience) has emerged as a field of study focused on fundamental questions about how to acquire, store, manage, analyze and visualize geographic information using computers.

The Certificate in Geographic Information Science is designed to provide the knowledge and skills needed to work with geographic information and prepare individuals to work in this growing profession. The certificate coursework helps build a knowledgeable geospatial workforce that understands how to use GIScience properly and applies this understanding to improve transportation systems, improve water quality, or make companies more productive.

## Requirements

The undergraduate Certificate in Geographic Information Science requires a minimum of 18 s.h. of credit, including at least 12 s.h. earned at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Courses taken pass/nonpass do not count toward the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

Students who major in geography (geographic information science track) or who earn a minor in geographic information science may not earn the Certificate in Geographic Information Science.

Students who are interested in a specialization in geographic information systems, in remote sensing, or those who seek a more general background may want to select certain options when they plan their certificate coursework. For more information, contact the Department of Geographical and Sustainability Sciences.

Students must complete all of a course's prerequisites before they register for the course.

The Certificate in Geographic Information Science requires the following coursework.

## Core Courses

Code	Title	Hours
One of these:		
GEOG:1030	Our Digital Earth	3
GEOG:1050	Foundations of GIS	4
Both of these:

# Geography, M.A.

The Master of Arts program in geography focuses on investigating the environmental consequences of human decisions, the social implications of environmental change, and the geographic information science that enables these studies. Central to the department's studies are the theories, methods, and models of environmental, social, and geographic information science. Within this broad domain, the department has strengths in environmental justice, environmental modeling, GIScience and GIS, land use and its environmental consequences, sustainability, urban ecology, climatology, and health geography.

Master of Arts students follow one of two tracks. The professional track is designed as a terminal nonthesis degree that prepares students to enter the workforce directly after receiving an M.A. degree. The thesis track includes an independent research project and prepares students to enter a Ph.D. program or a career that requires creative research in selected areas of geography.

The department provides opportunities for graduate students to gain practical experience through service as departmental teaching or research assistants. In addition, graduate students often compete successfully for intramural and extramural funding for graduate education.

Graduate students often present their research at professional conferences and publish their work in academic journals. These presentations and papers can be the product of independent research or research projects led by a faculty member.

## Requirements

The Master of Arts with a major in geography requires a minimum of 30 s.h. of graduate credit with thesis and 32 s.h. of graduate credit without thesis. Students must maintain a program g.p.a. of at least 2.75. The M.A. is designed to be completed in four semesters.

Thesis students must earn 15 s.h. of credit in Department of Geographical and Sustainability Sciences courses numbered 5000 or above; they may count 6 s.h. of thesis credit and 2 s.h. earned in GEOG:7000 Geography Colloquium toward the degree. Students who earn more than 30 s.h. may use the additional work to increase their breadth of knowledge in geography and to tailor their study programs to their individual interests.

Nonthesis students build skills across a range of topics in geographical and sustainability sciences during their first year and develop skills in particular application areas during their second year. They must earn 15 s.h. of credit in Department of Geographical and Sustainability Sciences courses numbered 5000 or above.

Students demonstrate competence by completing appropriate coursework; completing and defending an M.A. thesis (for thesis students) or completing a portfolio of finished work and having it reviewed (nonthesis students).

More detailed information about M.A. requirements is provided in the department's Manual for Graduate Degree Requirements; contact the Department of Geographical and Sustainability Sciences.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

A bachelor's degree with a major in geography is not required, but applicants must have an undergraduate background relevant to the field. Strength in social science, environmental science, or geographic information science and interest in exploring the spatial perspectives that characterize modern geography are important in admission decisions. Depending on their prior training, graduate students may be required to take courses that are prerequisites for coursework in their chosen area of graduate study; credit earned in prerequisites does not count toward the graduate degree.

Application materials should include an undergraduate transcript with grade-point average, scores on the Graduate Record Examination (GRE) General Test, three letters of recommendation, and an essay in which applicants state their reasons for wanting to study geography at the University of Iowa.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Duolingo English Test (DET).

New graduate students whose first language is not English are required to take a speaking proficiency test when they arrive at the University; eventually they take the English Language Performance Test (ELPT). Students must be fully certified by the ELPT before they begin their fourth semester in order to be considered for funding in succeeding semesters. Students who do not pass the tests are required to take Teaching Assistant Preparation in English (TAPE) courses until they have achieved proficiency in spoken English.

## Financial Support

A number of graduate teaching and research assistantships are available. In addition, outstanding applicants and underrepresented minorities are eligible for several fellowships. Awards are based on merit. In giving awards, the department pays particular attention to grade-point average, especially for the junior and senior years; scores on the Graduate Record Examination (GRE) General Test; letters of recommendation; and fit of a student's objectives with department specializations.

Applications for graduate appointments must be received by January 1. Applications for fellowships are due by January 15.

## Career Advancement

Graduates hold positions on college and university faculties, in private research organizations, and in business and government.

Courses in geography are commonly required of students preparing to teach at the elementary and secondary school levels or to work in planning and public affairs. The degree also provides a solid background for many related professions, including law, health care, environmental engineering, and business.

Geography majors also are encouraged to participate in an internship. The department maintains close ties with the Iowa Department of Natural Resources and other local agencies that offer internships.

The application of GIS to social, economic, and environmental problems has increased considerably during the past decade. This trend is likely to continue into the future; in fact, the U.S. Department of Labor has identified the area as one of its 14 high-growth industries. GIS presents an abundance of career opportunities for geography graduates in local, state, and federal government agencies, as well as in the private sector.

The department's faculty members help students apply for postgraduate programs and contact potential employers.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

- Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
- Must earn 15 s.h. of credit in Geographical and Sustainability Sciences courses numbered 5000 or above. Work with faculty advisor to determine appropriate graduate level coursework and sequence.
- Required every semester; may count 2 s.h. earned in GEOG:7000 toward the degree.
- Work with faculty advisor to determine appropriate elective coursework and sequence.
- Completed and approved portfolio of finished work.

# Geography, Ph.D.

The Doctor of Philosophy program in geography focuses on investigating the environmental consequences of human decisions, the social implications of environmental change, and the geographic information science that enables these studies. Central to the department's studies are the theories, methods, and models of environmental, social, and geographic information science. Within this broad domain, the department has strengths in environmental justice, environmental modeling, GIScience and GIS, land use and its environmental consequences, urban ecology, sustainability, climatology, and health geography.

The department provides opportunities for graduate students to gain practical experience through service as departmental teaching or research assistants. Graduate students often present their research at professional conferences and publish their work in academic journals. These presentations and papers can be the product of independent research or research projects led by a faculty member.

## Requirements

The Doctor of Philosophy with a major in geography requires 72 s.h. of graduate credit and is designed to be completed in four or five years. Students must maintain a program g.p.a. of at least 3.00.

The degree prepares students for college and university teaching and for advanced research. It provides study programs that lead to broad knowledge of a field of geography and its literature and to special expertise in a subfield.

Students may enter the Ph.D. program upon completing an undergraduate degree or with advanced standing corresponding to previous graduate education.

All Ph.D. students take the following courses. They take GEOG:7000 Geography Colloquium (1 s.h.) each semester they are in residence.

Code	Title	Hours
GEOG:5010	Fundamentals of Geography	3
GEOG:5050	Research and Writing in Geography	3
GEOG:7000	Geography Colloquium (taken each semester)	1
Two courses in geography numbered above GEOG:5001		6
Two research seminars chosen from GEOG:6500 through GEOG:6900; each course for 3 s.h.		6

Students complete a set of research milestones, including a research paper, an area of concentration bibliography, and a written qualifying examination in the discipline. With the approval of the dissertation advisor, each student submits a dissertation proposal to the dissertation committee for critical comments, oral questioning, and approval. Once the dissertation is completed, an oral defense of the dissertation is held.

More detailed information about Ph.D. requirements is provided in the department's Manual for Graduate Degree Requirements; contact the Department of Geographical and Sustainability Sciences.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

A bachelor's degree with a major in geography is not required, but applicants must have an undergraduate background relevant to the field. Strength in social science, environmental science, or geographic information science and interest in exploring the spatial perspectives that characterize modern geography are important in admission decisions. Depending on their prior training, graduate students may be required to take courses that are prerequisites for coursework in their chosen area of graduate study; credit earned in prerequisites does not count toward the graduate degree.

Application materials should include an undergraduate transcript with grade-point average, scores on the Graduate Record Examination (GRE) General Test, three letters of recommendation, and an essay in which applicants state their reasons for wanting to study geography at the University of Iowa.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Duolingo English Test (DET).

New graduate students whose first language is not English are required to take a speaking proficiency test when they arrive at the University; eventually they take the English Language Performance Test (ELPT). Students must be fully certified by the ELPT before they begin their fourth semester in order to be considered for funding in succeeding semesters. Students who do not pass the tests are required to take Teaching Assistant Preparation in English (TAPE) courses until they have achieved proficiency in spoken English.

## Financial Support

A number of graduate teaching and research assistantships are available. In addition, outstanding applicants and underrepresented minorities are eligible for several fellowships. Awards are based on merit. b Must be numbered above GEOG:5001.

c Work with faculty advisor to determine appropriate elective coursework and sequence.

d Required every semester.

e Written exam typically taken by the end of the fifth semester; refer to the Graduate Handbook for specifics.

f Choose from courses numbered 6500 through 6900.

g Typically completed by the end of the sixth semester.

h Dissertation defense.

# German

## Director, Division of World Languages, Literatures and Cultures

- Jill N. Beckman

## Interim Chair, Department of German

- Denise K. Filios (International Programs/Spanish and Portuguese)

## General Education Language Coordinator

- Bruce H. Nottingham-Spencer (first year), Elke Heckner (second year)

**Undergraduate major:** German (B.A.)

**Undergraduate minor:** German

**Graduate degree:** M.A. in German

**Faculty:** <https://german.uiowa.edu/people>

**Website:** <https://german.uiowa.edu/>

The Department of German offers a comprehensive undergraduate program of study in German. It facilitates the development of proficiency and confidence in the German language beginning with elementary and intermediate language courses and extending through advanced courses in linguistics, literature, and culture. Courses focus on the cultures of Germany, Austria, and German-speaking Switzerland, including migration to and from there, to provide an understanding of the historical and contemporary importance of these countries in a globalized world.

The program prepares students to use German that displays intercultural competency in fields as diverse as international business, teaching, engineering, medicine, music, museum studies, and linguistic or literary study. The Department of German supports outreach, extracurricular activities, and contributions to the visibility of German-related issues in the state of Iowa. The department fosters an environment of diversity, equity, and inclusion.

Undergraduate students in all majors may satisfy the World Languages requirement of the GE CLAS Core with courses in German; see "Language for GE CLAS Core" below. They may satisfy other GE CLAS Core requirements with courses on German literature and culture that are taught in English; look for courses with the prefix GRMN in the area lists under "Culture, Society, and the Arts" in the GE CLAS Core [p. 20] section of the Catalog. GE CLAS Core courses on German literature and culture also are listed with departmental courses taught in English under Courses [p. 580] in this section of the Catalog.

The Department of German is one of the academic units in the Division of World Languages, Literatures and Cultures [p. 378].

## Language for GE CLAS Core

The department offers several sequences of German language courses that students in all majors may use to satisfy the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Students who have had experience with German should take the online placement test, which helps determine the level at which a student should begin German language study at the University of Iowa. Students with no background in German should begin their study with GRMN:1001 Elementary German I.

The following sequences satisfy the World Languages requirement of the GE CLAS Core. Students using German to satisfy the World Languages requirement should speak with departmental advisors to determine which sequence is best for them.

Code	Title	Hours
GRMN:1001	Elementary German I	4
GRMN:1002	Elementary German II	4
GRMN:2001	Intermediate German I	4
GRMN:2002	Intermediate German II	4

- Minor in German [p. 588]

### Graduate Program of Study

#### Major

- Master of Arts in German [p. 590]

## Facilities

The Center for Language and Culture Learning (CLCL) provides a wide variety of services and facilities to the Division of World Languages, Literatures and Cultures, including a 54-computer Instructional Technology Center (ITC) and six "All in One" studios/small group study rooms, each equipped with video production and editing software.

The CLCL also has a digital media and hardware collection available for checkout.

Directed Independent Language Study (DiLS), administered by the Center for Language and Culture Learning in the Division of World Languages, Literatures and Cultures, offers students guidance on engaging in self-instruction in languages that are not currently taught in the division. Any current University of Iowa student, staff, or faculty member who is interested in pursuing language study to enhance their professional research or academic profile can take advantage of this program. With the support of CLCL staff members, learners design their own study plans to learn basic language skills or improve upon existing skills in preparation for study or research abroad, and are paired with a language and culture consultant when possible.

An extensive collection of works and periodicals at University of Iowa Libraries facilitates research in all major areas of German literature and Germanic linguistics and at all levels of study.

## Courses

Graduate students not pursuing a degree in German may take GRMN:1020 Intensive Elementary German and GRMN:2020 Intensive Intermediate German. Those courses do not count for graduate credit.

## German Courses

- GRMN:1000 First-Year Seminar** **1 s.h.**  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first or second semester standing.
- GRMN:1001 Elementary German I** **4 s.h.**  
Understanding and speaking "everyday German"; reading and writing skills; acquaintance with the German-speaking world through discussion, readings, videos. GE: World Languages First Level Proficiency.
- GRMN:1002 Elementary German II** **4 s.h.**  
Continuation of GRMN:1001. Prerequisites: GRMN:1001. GE: World Languages Second Level Proficiency.
- GRMN:1010 First-Year German Review** **5 s.h.**  
Accelerated review in preparation for third-semester German. Requirements: previous study of German, typically one to two years of high-school German. GE: World Languages Second Level Proficiency.
- GRMN:1020 Intensive Elementary German** **4,6 s.h.**  
Elementary German I and II combined in one intensive course. GE: World Languages Second Level Proficiency.
- GRMN:1040 German for Travelers** **2 s.h.**  
Basic German skills for tourists; for students with no previous knowledge of German.
- GRMN:1100 Contraception Across Time and Cultures** **3 s.h.**  
Methods and history of contraception; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Taught in English. Same as CLSA:1100, GHS:1100, GWSS:1100, WLLC:1100.
- GRMN:1200 Disabilities and Inclusion in Writing and Film Around the World** **3 s.h.**  
Exploration of human experiences of dis/ability and exclusion/inclusion. Taught in English. GE: Diversity and Inclusion. Same as DST:1200, GHS:1200, WLLC:1200.
- GRMN:1500 German Cultural Activities** **1 s.h.**  
Attendance and participation at events related to culture and history of German-speaking countries; reflection papers in English; includes scholarly talks, film screenings, art exhibits, literary readings, and music or theater performances; most events in English.
- GRMN:2001 Intermediate German I** **4 s.h.**  
Proficiency in spoken and written German; German-speaking cultures of central Europe, their historical background; emphasis on refinement of reading skills. Prerequisites: GRMN:1020 or GRMN:1002 or GRMN:1010. GE: World Languages Second Level Proficiency.
- GRMN:2002 Intermediate German II** **4 s.h.**  
Continuation of GRMN:2001. Prerequisites: GRMN:2001. GE: World Languages Fourth Level Proficiency.
- GRMN:2020 Intensive Intermediate German** **4-6 s.h.**  
Intermediate German I and II combined in one intensive course. Prerequisites: GRMN:1002 or GRMN:1020 or GRMN:1010. GE: World Languages Fourth Level Proficiency.
- GRMN:2248 The Invention of Writing: From Cuneiform to Computers** **3 s.h.**  
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, COMM:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.
- GRMN:2275 Scandinavian Crime Fiction** **3 s.h.**  
Contemporary Scandinavian crime novel in its literary, historical, geographic, cultural, and social context. Taught in English. GE: Literary, Visual, and Performing Arts.
- GRMN:2550 Mardi Gras and More: Cultures of Carnival** **3-4 s.h.**  
Literature and customs associated with carnival from antiquity through present day; readings on theories of carnivalesque (Mikhail Bakhtin, Peter Burke, and others); materials from three distinct carnival cultures—Renaissance Europe (Francois Rabelais, German carnival plays), 19th-century New Orleans, and present day Rio de Janeiro. Taught in English. GE: Values and Culture. Same as WLLC:2550.
- GRMN:2600 Witch Hunts in Fact and Fiction: A Global History of Exclusion** **3-4 s.h.**  
Survey of the phenomenon of witchcraft and its persecution past and present; students read a historical study that sheds new light on the history of European witch hunts while demonstrating that witch hunts are not simply part of European past; how belief that certain people are able to cause harm by supernatural powers endures throughout the world today; discussion and analysis of exemplary works of fiction about witchcraft persecutions, mostly from German background. Taught in English. GE: Diversity and Inclusion.

- GRMN:2618 Film and Literature of the Holocaust** 3-4 s.h.  
European and American films (e.g., documentaries, feature films); literature of the Holocaust in English translation (e.g., survivor memoirs, testimony, poetry, philosophical essays, graphic novels). Taught in English. GE: Values and Culture. Same as WLLC:2618.
- GRMN:2620 Anne Frank and Her Story** 3-4 s.h.  
Analysis of the *Diary of Anne Frank*, its media adaptations, and related materials (e.g., fictionalizations, additional first-hand accounts); examination of Holocaust in the Netherlands, Belgium, and other countries outside Germany; anti-Semitism, discrimination, tolerance, resistance, identity formation, human aspiration and belief. Taught in English. GE: Diversity and Inclusion. Same as WLLC:2620.
- GRMN:2630 German Cinema: Greatest Hits** 3-4 s.h.  
Overview of German cinema; expressionist film of the Weimar Republic; Nazi cinema; post-war cinema; East German film; New German Cinema; post-unification and contemporary cinema. Taught in English. GE: Literary, Visual, and Performing Arts.
- GRMN:2650 German Nationalism from Enlightenment to Present** 3-4 s.h.  
Introduction to the history of German nationalism and national identities; examination of various theories of nationalism in historical and contemporary contexts. Taught in English. GE: Values and Culture.
- GRMN:2655 Muslim Minorities in the West** 3-4 s.h.  
Introduction to lives of Muslim immigrants in the USA, France, Germany, and England; examination of various theories on multiculturalism. Taught in English. GE: Values and Culture. Same as IS:2600.
- GRMN:2666 Pact with the Devil** 3-4 s.h.  
Since early modern times, the pact with the devil has served as a metaphor for humankind's desire to surpass the limits of knowledge and power; students explore a variety of works from German, British, and Russian literature and culture from early modern time to the present, and critique different twists that fascination with the forbidden takes in regard to women. Taught in English. GE: Literary, Visual, and Performing Arts. Same as RUSS:2666, WLLC:2666.
- GRMN:2675 The Politics of Memory: Holocaust, Genocide, and 9/11** 3-4 s.h.  
How contested legacies of genocide, global violent conflict, and 9/11 continue to pose an urgent and generationally mediated challenge for critical politics of memory; various approaches to effective or failed coming-to-terms with injurious and difficult past (e.g., Holocaust, Armenian genocide); analysis of museums, sites of memory, and artwork. Taught in English. GE: Diversity and Inclusion.
- GRMN:2720 Germany in the World** 3-4 s.h.  
The Federal Republic of Germany's increasing prominence in post-Cold War international affairs against backdrop of 20th-century history; Germany's role in the European Union and the changing relationship between Europe and the United States. Taught in English. GE: International and Global Issues. Same as HIST:2420.
- GRMN:2750 The Work of Franz Kafka: Adventures in Language and Imagination** 3-4 s.h.  
Introduction to the literary works of Franz Kafka; readings in English, with constant attention to German originals and translation difficulties. Taught in English.
- GRMN:2770 Norse Mythology: Gods, Heroes, and Monsters of Northern Europe** 3-4 s.h.  
Introduction to Norse mythology and related West Germanic mythologies; readings from primary sources in translation (Prose Edda, Poetic Edda, Icelandic sagas); social, historical, and geographic context in northern Europe; reception of Norse mythology in 19th and 20th centuries; incorporation of figures and themes from Norse mythology in works ranging from opera to fantasy fiction and comic books. Taught in English.
- GRMN:2785 Cyborgs, Monsters, and the Uncanny** 3-4 s.h.  
Literature, film, and theory of the monstrous and uncanny from short stories (e.g., Kafka) to science fiction (e.g., *A Cyborg Manifesto*) and horror films (e.g., *Dracula*). Taught in English. GE: Literary, Visual, and Performing Arts.
- GRMN:3010 Stories in German** 3 s.h.  
Stories and other relatively short prose by representative authors; discussion and response; varied topics. Taught in German. Prerequisites: GRMN:2002.
- GRMN:3103 Composition and Conversation I** 3 s.h.  
Improvement of overall language ability with particular emphasis in areas of speaking and writing; may include vocabulary-building activities and review of selected grammar topics. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
- GRMN:3104 Composition and Conversation II** 3 s.h.  
Improvement of general language abilities with emphasis in areas of speaking, writing, and vocabulary; content drawn from newspapers, magazines, internet, television, recent films, and social media; students also have the opportunity to explore individual interests. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
- GRMN:3195 German Linguistics Lab I** 3 s.h.  
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.
- GRMN:3200 Literary Translation from German** 3 s.h.  
Workshop and seminar on translating from German to English; emphasis on literary translations and studying existing translations; special issues of German as a source language for translation into English. Taught in English and German. Requirements: prior completion of two German courses at the 3000 level or above. Same as TRNS:3200.
- GRMN:3214 Business German** 3 s.h.  
World of German business, role of German-speaking countries in world trade; emphasis on professional communication and workplace culture. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
- GRMN:3236 German Film** 3 s.h.  
Overview 1925-1987; examples of avant-garde films of the Weimar Republic, propagandist filmmaking from the Third Reich, filmmaking traditions of the German Democratic Republic (GDR) and the Federal Republic of Germany (FRG). Requirements: GRMN:2002 or GRMN:2020.
- GRMN:3250 Brief Texts About Big Events** 3 s.h.  
Twentieth-century German literature in context of major historical events. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
- GRMN:3405 German Cultural History** 3 s.h.  
Major historical persons, events, and places; art and architecture, music, and intellectual life; Middle Ages to 19th century; emphasis on mythical historical persons and places. Taught in German. Requirements: GRMN:2002 or GRMN:2020.

- GRMN:3501 German Writers Engaged** 3 s.h.  
Literary works from various genres. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
- GRMN:3550 The Politics of Remembrance in German Multicultural Literature and Film** 3 s.h.  
Exploration of contemporary literary texts and films by multicultural German authors and filmmakers who deal critically with German collective memory and the politics of remembrance. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
- GRMN:3845 The Structure of German** 3 s.h.  
Structure analysis of German words and sentences; emphasis on vocabulary expansion and writing with increased grammatical accuracy and complexity. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
- GRMN:3850 Twentieth- and Twenty-first-Century German Children's Literature** 3 s.h.  
Exploration of the concept of childhood within broader contexts of history and culture unique to Germany—what lessons are inherent in German children's literature and how has childhood developed accordingly, and what does it mean for a child to be a "reader;" evolution of child-rearing and gender roles over the decades; how Germany holds a solid corner of classic children's literature; examination of canonical texts and more recent child-centered contributions to Germany's literary scene; students connect with local elementary, middle, and/or high schools on a German project. Taught in German. Prerequisites: GRMN:3103 or GRMN:3104.
- GRMN:3855 The Sounds of German** 3 s.h.  
Analysis of sounds and sound system of German; practice in listening and speaking. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
- GRMN:3860 German Language and Society** 3 s.h.  
Introduction to sociolinguistics in context of German-speaking countries; major topics include German dialects, regional and social variation in contemporary German, minority and immigrant languages in German-speaking countries, language and national identity, multilingualism, educational policies related to language teaching and learning, linguistic purism, language use in digital contexts, and language change. Taught in German. Requirements: GRMN:2002, GRMN:2020, or a higher-level course in German. Same as LING:3860.
- GRMN:3865 History of the German Language** 3 s.h.  
History of the German language; its Indo-European roots, characteristics of the major periods, and basic principles of historical linguistics. Taught in German. Prerequisites: GRMN:3103 or GRMN:3501 or GRMN:3104.
- GRMN:4195 German Linguistics Lab II** 3 s.h.  
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.
- GRMN:4315 German Society Today** 3 s.h.  
Government and political structure, economy, mass media, education, social and cultural life of Germany, Austria, and Switzerland from the end of World War II to present. Taught in German. Prerequisites: GRMN:3501 or GRMN:3103 or GRMN:3104. GE: International and Global Issues.
- GRMN:4512 Topics in Global and Transnational Culture** 3-4 s.h.  
In-depth look at a theme in cultural expression arising from interactions between countries and regions; focus on contemporary or historical issues; use of materials ranging from literature and the visual arts to music, mass media, and more; general processes through which cultures are formed in mutual and uneven relationships; research project. Taught in English. Recommendations: completion of a GE CLAS Core International and Global Issues course. Same as ARAB:4512, WLLC:4512.
- GRMN:4540 Literature in Film** 3 s.h.  
Representative texts of German literature with film adaptations as specific readings. Taught in German. Requirements: GRMN:3501 or one upper-level literature/culture course taught in German.
- GRMN:4730 Beautiful Souls and Scandalous Writing** 3 s.h.  
Varied works of and about the 18th century; fairy tales, plays, short novels, poems, and other texts by authors such as Lichtenberg, Goethe, Naubert, Schiller, Schlegel, and Sueskind; gender roles ascribed to women and men. Taught in German. Requirements: GRMN:2002 or GRMN:2020.
- GRMN:4800 Seminar in Comparative Literature** 3 s.h.  
Focus on comparative, interdisciplinary, theoretical, and/or inter-arts topic; topics vary; required for comparative literature major. Taught in English. Same as CL:4800, TRNS:4800, WLLC:4801.
- GRMN:4850 Senior Seminar** arr.  
Capstone course for majors in their last year; online graduation portfolio. Prerequisites: GRMN:3103 and GRMN:3104. Requirements: German major and undergraduate standing.
- GRMN:4900 Independent Study** arr.  
Independent work completed under the supervision of Department of German faculty members. Requirements: German major or minor.
- GRMN:4910 Peer Tutoring in German** arr.  
Opportunities to participate in classroom and tutoring activities and engage with students in language learning; for advanced students.
- GRMN:4920 Research in German Studies** arr.  
Supplemental research and writing for introductory German studies courses taught in English (GRMN:2500 through GRMN:2999).
- GRMN:4990 Honors Research** 3 s.h.  
Students work with a Department of German faculty member to identify a topic for an honors thesis; research and preliminary writing. Requirements: three years of college-level German and g.p.a. of at least 3.50 in German.
- GRMN:4991 Honors Thesis** 3 s.h.  
Completion of honors thesis in consultation with a faculty mentor. Requirements: honors standing and GRMN:4990.
- GRMN:5000 German Reading for Graduate Students** 3 s.h.  
Grammar review, vocabulary building, extensive reading of sophisticated texts. Offered spring semesters. Prerequisites: GRMN:1002 or GRMN:1010 or GRMN:1020. Requirements: non-German graduate standing.

**GRMN:5001 Teaching and Learning Languages 3 s.h.**

Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Taught in English. Same as FREN:5000, SLA:5000, SPAN:5000, WLLC:5000.

**GRMN:6635 Crossing Borders Seminar 2-3 s.h.**

Taught in English. Same as AFAM:6635, ANTH:6635, COMM:6635, ENGL:6635, FREN:6142, GEOG:6635, HIST:6135, IWP:6635, POLI:6635, SPAN:6904.

**GRMN:6920 Multimedia and Second Language Acquisition 3 s.h.**

Combination of theory and practice regarding use of multimedia and technology to enhance foreign language teaching and second language acquisition research. Taught in English. Same as FREN:6920, SLA:6920, SPAN:6920.

**GRMN:7000 Advanced Studies arr.**

Independent work completed under the supervision of Department of German faculty members. Requirements: German graduate standing.

# German, B.A.

## Learning Outcomes

The B.A. in German is directed toward graduates' ability to converse effectively in German; to write coherent short texts; to interpret literary, cultural, and linguistic phenomena; and to exhibit an understanding of alternative cultural perspectives.

### Interpersonal Speaking

- Capacity to engage effectively in conversations in German on a range of topics, recount events and personal experiences, and produce explanations and descriptions (Intermediate High on the ACTFL scale).

### Writing

- Capacity to produce a cohesive piece of writing in German, such as an essay, a paper, or a narrative.

### Interpretation and Analysis

- Capacity to critically interpret and analyze literary texts and other cultural artifacts written in German using appropriate sources to support their arguments.

### Cultural Understanding

- Capacity to demonstrate understanding of alternative cultural perspectives acquired through coursework, study abroad, and other cross-cultural experiences.

## Requirements

The Bachelor of Arts with a major in German requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Students who plan to earn licensure to teach in elementary and/or secondary schools should see "Teacher Licensure" below.

The German Language and Culture Advanced Placement (AP) exam with a score of 4 or higher is considered to be the equivalent to one of the 3000-level electives.

A maximum of 15 s.h. of approved transfer credit may be counted toward the major, including study abroad coursework. However, students may count up to 21 s.h. earned from the Academic Year in Freiburg program toward the major in German.

Students who begin a German major with no previous German language experience must complete the following courses or their equivalents.

Code	Title	Hours
GRMN:1001	Elementary German I	4
GRMN:1002	Elementary German II	4
GRMN:2001	Intermediate German I	4
GRMN:2002	Intermediate German II	4

This requirement also may be satisfied by various combinations of GRMN:1010 First-Year German Review, GRMN:1020 Intensive Elementary German, and GRMN:2020 Intensive Intermediate German.

The 30 s.h. required for the major must include at least five German courses numbered 3000 or above taken at the University of Iowa. Students should note that GRMN:3501

German Writers Engaged (or the equivalent) is prerequisite for some other German literature courses.

The B.A. with a major in German requires the following coursework.

Code	Title	Hours
Core Courses		6
Linguistics Course		3
Literature Course		3
Culture Course		3
Capstone Course		3
Electives		12
<b>Total Hours</b>		<b>30</b>

## Core Courses

Courses GRMN:3103 and GRMN:3104 can be taken in any order.

Code	Title	Hours
Two of these:		
GRMN:3103	Composition and Conversation I	3
GRMN:3104	Composition and Conversation II	3
GRMN:3845	The Structure of German	3

## Linguistics Course

Code	Title	Hours
One of these:		
GRMN:3855	The Sounds of German	3
GRMN:3860	German Language and Society	3
GRMN:3865	History of the German Language	3

## Literature Course

Code	Title	Hours
This course:		
GRMN:3501	German Writers Engaged	3

## Culture Course

Code	Title	Hours
One of these:		
GRMN:3405	German Cultural History	3
GRMN:4315	German Society Today	3

## Capstone Course

Code	Title	Hours
This course:		
GRMN:4850	Senior Seminar	3

## Electives

Code	Title	Hours
Four electives chosen from Department of German courses (prefix GRMN), with at least two numbered 3000-4999; required honors in the major courses count as elective coursework		12

Students may count a maximum of two Department of German courses taught in English numbered 2500-2999

toward the major by registering for 4 s.h. of credit for each course instead of 3 s.h.; the additional 1 s.h. of credit reflects an added research component. See "German in Translation Courses" below. Courses taught in English that are taken for 3 s.h. do not count toward the major in German (e.g., GRMN:2248 The Invention of Writing: From Cuneiform to Computers, GRMN:4800 Seminar in Comparative Literature, and so on). Courses numbered at the 1000 level do not count toward the major.

With the approval of the departmental director of undergraduate studies, students also may apply one course from the University of Iowa Honors Program to the requirements of the major when that course concerns German culture or language.

German majors are urged to supplement their degree programs with relevant courses in areas such as German history, philosophy, and business.

## German Studies in Translation Courses

Code	Title	Hours
Students may use two of the following courses toward the major (some also may apply toward GE CLAS Core requirements):		
GRMN:2550	Mardi Gras and More: Cultures of Carnival	4
GRMN:2600	Witch Hunts in Fact and Fiction: A Global History of Exclusion	4
GRMN:2618	Film and Literature of the Holocaust	4
GRMN:2620	Anne Frank and Her Story	4
GRMN:2630	German Cinema: Greatest Hits	4
GRMN:2650	German Nationalism from Enlightenment to Present	4
GRMN:2655	Muslim Minorities in the West	4
GRMN:2666	Pact with the Devil	4
GRMN:2675	The Politics of Memory: Holocaust, Genocide, and 9/11	4
GRMN:2720	Germany in the World	4
GRMN:2770	Norse Mythology: Gods, Heroes, and Monsters of Northern Europe	4
GRMN:2785	Cyborgs, Monsters, and the Uncanny	4

## Study Abroad

The University of Iowa offers a number of opportunities for study in Germany, Switzerland, and Austria. Students frequently choose to participate in the summer USAC Lüneburg program, the Dortmund University Exchange, or the Academic Year in Freiburg program at the Albert Ludwig University of Freiburg. Students should consult the Office of Study Abroad and the German undergraduate advisor to select a program that fits their interests.

For German majors, the year-long Freiburg program provides the most comprehensive linguistic and professional preparation for a future career involving German. The Academic Year in Freiburg program is offered by a consortium made up of the University of Iowa, Michigan State University,

the University of Michigan, and the University of Wisconsin-Madison.

Students arrive during the first week of September and participate in a four-week intensive language program. Then they take a blend of special program classes and regular German university courses. Organized field trips are designed to give students a broader perspective on German culture. Vacation periods permit extensive travel throughout Europe, and students are encouraged to use weekends for shorter trips in the region.

To apply, students must have reached at least sophomore standing by the beginning of the program, have completed at least the first four semesters of college German or the equivalent with a g.p.a. of at least 3.00 in German, and be in good academic standing at a U.S. college or university.

Students earn resident credit in all courses successfully completed in the program. They may count up to 21 s.h. earned at Freiburg toward the major.

For more information about study abroad opportunities, contact the Department of German or International Programs Study Abroad.

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

### B.A./M.A. in German

The combined B.A./M.A. in German is appropriate for students who enter the University from high school with advanced German language preparation. It is attractive to highly motivated students who plan to study abroad and who plan to pursue a Ph.D. in German or second language acquisition. It may serve as preparation for other programs, such as those related to international studies, library science, business with an international focus, or international relations. Students seeking careers in teaching or other fields may pursue the combined degree as a credential.

Combined program students must fulfill all requirements for the B.A. degree. They ordinarily spend two semesters in their junior year enrolled in the study abroad program at the University of Freiburg in Germany (see "Study Abroad" under Requirements [p. 584] in this section of the Catalog), unless they have satisfied this requirement another way (e.g., a year abroad during high school or another study abroad program with similar content).

During the last two semesters of their senior year, they may take up to 12 s.h. of graduate-level coursework that counts toward both degrees (6 s.h. toward required courses and 6 s.h. toward electives) and they can take graduate-level German courses while they are still undergraduates. Once they complete all B.A. requirements, they complete the

remaining M.A. requirements. Students may complete both degrees in five years.

Students must maintain an undergraduate German g.p.a. of at least 3.50; if they fail to meet this standard for more than one semester, they may be required to leave the program. They must have an overall undergraduate g.p.a. of at least 3.00 when they achieve graduate standing.

Students pay undergraduate tuition and fees during their first semester in the combined program (normally their seventh semester); beginning with their second semester in the combined program (normally their eighth semester), they begin paying graduate tuition and fees. Students may hold a graduate appointment beginning with their second semester in the combined program.

## Applicant Requirements

Applicants to the combined program must:

- be University of Iowa undergraduate students;
- be admitted before the beginning of their seventh semester (senior year);
- have completed 80 s.h. or be in the process of completing at least 90 s.h. of undergraduate work;
- have completed, or be in the process of completing, at least 21 s.h. of courses in the German major numbered 3000 or above;
- have a g.p.a. of at least 3.50 at the time of application (or have a letter from a Department of German faculty member recommending an exception); and
- have completed, or be in the process of completing at the time of application, a study abroad program in a German-speaking country or have satisfied this requirement in another way.

## Honors

### Honors in the Major

Students majoring in German have the opportunity to graduate with honors in the major. Students who choose to graduate with honors in German must satisfy these requirements:

- Maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in upper-level work for the major.
- Complete GRMN:4990 Honors Research or the equivalent, such as one course for the major (3 s.h.) as an honors contract course. For equivalent courses taken abroad, students should consult with the honors advisor or director of undergraduate studies in German.
- Complete GRMN:4991 Honors Thesis.
- Submit an acceptable honors thesis, and present and discuss their research findings in a defense meeting with their faculty mentor and two additional UI faculty members.

The courses, GRMN:4990 and GRMN:4991, will count toward the 30 s.h. for the major. Students are encouraged to participate in the Iowa Center for Research by Undergraduates (ICRU) and apply for research scholarships.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the German major.

## Career Advancement

Students majoring in German may combine their studies with courses in education to prepare for positions in high school teaching and administration. Many combine other skills and studies with their major in German to prepare for careers in business, travel, communications, foreign service, and other fields where the knowledge of languages is essential.

German graduates go on to earn graduate and professional degrees in German, English as a second language, history, library science, medicine, law, sustainable agriculture, industries with strong connections to German-speaking countries, and organizations such as the Goethe Institutes in the United States.

Completion of a German major ensures that students enter their professional lives as informed global citizens with a strong skill set in cross-cultural literacy. German is spoken by an estimated 126 million people, giving it the largest number of native speakers in the European Union. Germany has the third largest economy across the globe and was until recently the largest export nation in the world.

Coursework builds strong reading, communication, and teamwork skills which are sought by many employers.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

**Before the third semester begins:** language competency equal to first-year German.

**Before the fifth semester begins:** language competency equal to second-year German.

**Before the seventh semester begins:** four courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester:** two or three additional courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

<b>Total Hours</b>		<b>119-121</b>

- a GRMN:1001, GRMN:1002, GRMN:2001, and GRMN:2002 do not count for credit toward the major. Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin major level coursework and not be required to take semesters 1-4 of the language.
- b Fulfills a major requirement and may fulfill a GE requirement.
- c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- f GRMN:3103 and GRMN:3104 can be taken in any order.
- g German elective courses can be taken from prefix GRMN numbered 2500-4999. Up to two courses taught in English for 4 s.h. of credit may be taken for credit towards the major.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# German, Minor

## Requirements

The undergraduate minor in German requires a minimum of 15 s.h. in college-level German courses, including at least 12 s.h. in courses taken at the University of Iowa. All Department of German courses (prefix GRMN) numbered 3000 or above and taught in German count toward the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor may include a maximum of 3 s.h. in Department of German courses numbered 2002-2100 (e.g., GRMN:2002 Intermediate German II). The German Language and Culture Advanced Placement (AP) exam with a score of 4 or higher is considered to be equivalent to GRMN:2002. Furthering Language Incentive Program (FLIP) credit courses count as equivalent to GRMN:2002 and 3 s.h. is applicable toward the minor.

Students may count one Department of German course taught in English numbered 2500-2999 toward the minor by registering for 4 s.h. of credit for the course instead of 3 s.h.; the additional 1 s.h. of credit reflects an added research component. Courses taught in English taken for 3 s.h. do not count toward the minor. See "German in Translation Courses" below. View 3000-level course selections (prefix GRMN) under Courses [p. 580] in this section of the Catalog.

With the approval of the director of undergraduate studies, students may count up to 6 s.h. earned in study abroad toward the minor. Students also may apply one course from the University of Iowa Honors Program to the requirements toward the minor when that course concerns German culture or language; consult the director of undergraduate studies for approval.

## German in Translation Courses

Code	Title	Hours
Students may use one of the following courses toward the minor (some also may apply toward GE CLAS Core requirements):		
GRMN:2550	Mardi Gras and More: Cultures of Carnival	4
GRMN:2600	Witch Hunts in Fact and Fiction: A Global History of Exclusion	4
GRMN:2618	Film and Literature of the Holocaust	4
GRMN:2620	Anne Frank and Her Story	4
GRMN:2630	German Cinema: Greatest Hits	4
GRMN:2650	German Nationalism from Enlightenment to Present	4
GRMN:2655	Muslim Minorities in the West	4
GRMN:2666	Pact with the Devil	4
GRMN:2675	The Politics of Memory: Holocaust, Genocide, and 9/11	4
GRMN:2720	Germany in the World	4

GRMN:2770	Norse Mythology: Gods, Heroes, and Monsters of Northern Europe	4
GRMN:2785	Cyborgs, Monsters, and the Uncanny	4

## Study Abroad

The University of Iowa offers a number of opportunities for study in Germany, Switzerland, and Austria. Students frequently choose to participate in the summer USAC Lüneburg program, the Dortmund University Exchange, or the Academic Year in Freiburg program at the Albert Ludwing University of Freiburg. Students should consult the Office of Study Abroad and the German undergraduate advisor to select a program that fits their interests.

Students pursuing a minor in German often enroll in one of the summer sessions offered by the USAC Lüneburg program, but minors are eligible for all study abroad programs offered by the University. Up to 6 s.h. of study abroad credit can be applied to the requirements for the minor.

For more information about study abroad opportunities, contact the Department of German or International Programs Study Abroad.

## Teacher Licensure

Students who plan to use their work toward a minor in German as academic background for earning teacher licensure should contact the Office of Student Services in the College of Education about requirements.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## German, Minor

Course	Title	Hours
<b>Academic Career</b>		
<b>Any Semester</b>		
The undergraduate minor in German requires a minimum of 15 s.h., including at least 12 s.h. in courses taken at the University of Iowa.		
All Department of German courses numbered 3000 or above count toward the minor; however, courses taught in English that are taken for 3 s.h. do not count toward the minor in German (e.g. GRMN:2248 The Invention of Writing and GRMN:4800 Seminar in Comparative Literature).		
Courses numbered at the 1000 level do not count toward the German minor.		
With the approval of the departmental director of undergraduate studies, students may apply one course from the University of Iowa Honors program to the requirements of the minor when that course concerns German culture or language.		
Study Abroad: with the approval of the director of undergraduate studies, students may count up to 6 s.h. earned in study abroad toward the minor.		

Students must maintain a GPA of at least 2.00 in all courses for the minor and in all UI courses for the minor.

Coursework in the minor may not be taken pass/nonpass.

Students may count one Department of German course taught in English and numbered 2500-2999 toward the minor by registering for 4 s.h. of credit for the course instead of 3 s.h.; the additional 1 s.h. of credit reflects an added research component.<sup>a</sup>

<b>Hours</b>		<b>0</b>
<b>First Year</b>		
<b>Fall</b>		
GRMN:1001	Elementary German I <sup>b, c</sup>	4
<b>Hours</b>		<b>4</b>
<b>Spring</b>		
GRMN:1002	Elementary German II <sup>b, c</sup>	4

Minor: German elective (prefix GRMN) numbered 3000 or above		3
<b>Hours</b>		<b>3</b>
<b>Total Hours</b>		<b>28</b>

a Students may choose a German in translation course from: GRMN:2550, GRMN:2600, GRMN:2618, GRMN:2620, GRMN:2630, GRMN:2650, GRMN:2655, GRMN:2666, GRMN:2675, GRMN:2720, GRMN:2770, or GRMN:2785. Some of these courses also may apply toward GE CLAS Core requirements.

b This course is a prerequisite for the required minor courses.

c Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.

d The minor may include a maximum of 3 s.h. in Department of German courses numbered 2002-2100 (e.g. GRMN:2002). The German Language and Culture Advanced Placement (AP) exam with a score of 4 or higher is considered to be equivalent to GRMN:2002.

# German, M.A.

## Requirements

The Master of Arts program in German requires a minimum of 33 s.h. of graduate credit. It is offered with or without thesis. Students must maintain a cumulative g.p.a. of at least 3.00.

M.A. students choose one of two concentrations: German literature or Germanic linguistics. The German literature concentration requires seven literature courses (21 s.h.) and four linguistics courses (12 s.h.). The Germanic linguistics concentration requires seven linguistics courses (21 s.h.) and four literature courses (12 s.h.).

M.A. students are expected to complete at least 24 s.h. in the Department of German. All M.A. coursework taken outside the department requires the graduate advisor's approval.

Before taking the M.A. exam, students must demonstrate reading knowledge of a foreign language other than German, at a level equivalent to two years of college study or four years of high school study. Students may demonstrate competence by submitting proof that they have taken the required coursework with a g.p.a. of at least 3.00 or by passing an exam at the fourth-semester college level, as determined by the appropriate language department.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Teaching assistantships, research assistantships, and partial tuition scholarships are available for qualified graduate students. The department awards the Wilson and the Funke prizes to students of distinction.

## Career Advancement

Graduates in this area of study frequently enter the teaching profession. They also find positions in government, foreign service, and commercial enterprises.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

# Global Health Studies

## Interim Director, Division of Interdisciplinary Programs

- Kristy Nabhan-Warren

## Director, Global Health Studies

- Sokhieng Au

## Associate Director, Global Health Studies

- Karmen Berger

**Undergraduate major:** global health studies (B.A., B.S.)

**Undergraduate minor:** global health studies

**Undergraduate certificate:** global health studies

**Graduate certificate:** global health studies

**Faculty:** <https://globalhealthstudies.uiowa.edu/people>

**Website:** <https://globalhealthstudies.uiowa.edu/>

The Global Health Studies Program (GHS) offers an interdisciplinary approach to the study of the complex factors influencing health and disease locally and around the world.

The academic curriculum builds upon the humanities, social sciences, and health sciences to help students understand underlying forces—such as history, culture, gender and sexuality, economics, politics, race and ethnicity, the environment, law, and technology—which lead to health disparities worldwide. The Global Health Studies Program offers a B.A. and B.S. degree, an undergraduate minor, and an undergraduate and graduate certificate.

The Global Health Studies Program recognizes the importance of opportunities for students to be involved in ethical activities outside of the classroom which reinforce and apply knowledge and skills obtained within the classroom. These experiences help students define and achieve their post-graduation goals. The faculty and staff help connect students to local, regional, and international academic and cocurricular opportunities.

The Global Health Studies Program is one of the academic units in the Division of Interdisciplinary Programs [p. 375]. The College of Liberal Arts and Sciences awards the undergraduate degrees, the certificate, and the minor; the Graduate College confers the graduate certificate.

## Local Health is Global Health

There are many ways for GHS students to support local and global organizations which are working for health equity. GHS students intern and volunteer with organizations, such as Proteus, Grow: Johnson County, University of Iowa Mobile Clinic, Center for Worker Justice, IC Compassion, and ImmUNITY. Additionally, as part of the GHS capstone and certificate curricula, students have collaborated with community organizations such as Community Health Initiative, Haiti, as well as the World Food Prize and the Special Olympics.

## Summer Global Health Studies Internship

The Global Health Studies Program collaborates with the University of Iowa South Asian Studies Program to provide preparation and financial support for students completing virtual and on-site internships with the renowned international nongovernmental organization (NGO), the Swami Vivekananda Youth Movement (SVYM) in Mysuru, India. Students work

on a variety of health equity projects and develop global perspectives crucial for life and careers in the 21st century.

## Faculty Research and Outreach

GHS faculty members conduct research at a variety of sites worldwide, including India, Haiti, the Caribbean, Germany, Russia, and Southeast Asia. Interested students work with faculty and staff to integrate international study and research opportunities into their graduation plans. As experts in their field, GHS faculty are often asked to be part of public programming activities. Recent examples include a CLAS Theme Year Event, "Barriers to Health Equity in Iowa City: Centering Diverse Community Voices," an Obermann Center for Advanced Studies Pandemic Insights discussion, "Effects of COVID-19 on Food Systems," and an Iowa City Foreign Relations Council presentation on global garbage and global health.

## Programs

### Undergraduate Programs of Study

#### Majors

- Major in Global Health Studies (Bachelor of Arts) [p. 598]
- Major in Global Health Studies (Bachelor of Science) [p. 603]

#### Minor

- Minor in Global Health Studies [p. 608]

#### Certificate

- Certificate in Global Health Studies [p. 609]

### Graduate Program of Study Certificate

- Certificate in Global Health Studies [p. 611]

## Courses

- Associated Courses [p. 591]
- Global Health Studies Courses [p. 592]

## Associated Courses

In addition to courses offered by the Global Health Studies Program (see "Global Health Studies Courses" below), students may use the following courses to complete requirements for the certificate or minor.

Code	Title	Hours
<b>Aging and Longevity Studies</b>		
ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800/TR:1800	Aging Matters: Introduction to Gerontology	3
<b>English</b>		
ENGL:2560	Topics in Culture and Identity (when topic is stories about HIV/AIDS)	3
<b>History</b>		

HIST:1016	The History That Made Our World (when topic is health in the Global South)	3
<b>Nursing</b>		
NURS:3655	Community and Public Health Nursing Practicum (B.S.N. students only)	2
<b>Occupational and Environmental Health</b>		
OEH:4240	Global Environmental Health	3
<b>Public Health</b>		
CPH:2230	Finding Patient Zero: The Exploration of Infectious Disease Transmission and Pandemic Threats	3
CPH:2400	The U.S. Health System in a Global Context	3
CPH:3400/ GEOG:3210	Health, Work, and the Environment	3
CPH:4200	Agriculture, Food Systems, and Sustainability	3

## Global Health Studies Courses

**GHS:1029 First-Year Seminar** 1 s.h.  
Introduction to intellectual life of the University; opportunity to work closely with a faculty member or senior administrator; active participation to ease transition to college-level learning.

**GHS:1100 Contraception Across Time and Cultures** 3 s.h.  
Methods and history of contraception; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Taught in English. Same as CLSA:1100, GRMN:1100, GWSS:1100, WLLC:1100.

**GHS:1181 Ancient Medicine** 3 s.h.  
Thematic examination of theories and practices of Greco-Roman physicians, which in turn became the medical tradition of medieval Islamic world and European medicine until mid-19th century; historical medical terms, theories, and practices. GE: Historical Perspectives. Same as CLSA:1181.

**GHS:1200 Disabilities and Inclusion in Writing and Film Around the World** 3 s.h.  
Exploration of human experiences of dis/ability and exclusion/inclusion. Taught in English. GE: Diversity and Inclusion. Same as DST:1200, GRMN:1200, WLLC:1200.

**GHS:1290 Native American Foods and Foodways** 3 s.h.  
Native Americans as original farmers of 46 percent of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of Indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. GE: Diversity and Inclusion. Same as AMST:1290, HIST:1290, NAIS:1290.

**GHS:2000 Introduction to Global Health Studies** 3 s.h.  
Global health as a study of the dynamic relationship between human health and social, biological, and environmental factors that drive the spread of disease; core areas of global health research that may include health inequalities, maternal and child health, infectious diseases, nutrition, environmental health, and health interventions. GE: International and Global Issues. Same as ANTH:2103.

**GHS:2080 The Cultural Politics of HIV-AIDS** 3 s.h.  
Complex historical shifts in cultural perceptions about HIV-AIDS in the U.S. and transnationally; controversies around HIV-AIDS and their links with questions of gender and sexuality; how HIV-AIDS subsequently became the basis of a transnational industry comprising nongovernmental organizations, donors, and activists across the global north and south, starting from 1980s in the U.S. when HIV-AIDS first emerged into public sphere as a gay disease; link between HIV-AIDS and ideologies of development or progress, neocolonialism, and emergence of lesbian, gay, bisexual, transgender, intersex, and questioning (LGBTIQ) movements in many parts of world. Recommendations: background in gender studies, and completion of rhetoric or at least one social sciences course. Same as GWSS:2080.

**GHS:2090 Medical Spanish in Contemporary Society** 4 s.h.  
Vocabulary related to medical field; grammatical concepts; health-related cultural competence; discussion of health issues concerning Hispanic communities in the U.S. and abroad. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2090.

**GHS:2110 Seven Billion and Counting: Introduction to Population Dynamics** 3 s.h.  
How dramatic changes to the size of population has changed fundamental characteristics of populations and processes, such as food and water scarcity, climate change and biodiversity, rise of megacities, health and disease, migration, social networks, economics, environment, and household structure. GE: Social Sciences. Same as GEOG:2110.

**GHS:2160 Culture, Health, and Wellness: Southeast Asia in Focus** 3 s.h.  
Exploration of complex cross-cultural interactions between health, wellness, and culture; insights drawn from the culturally diverse region of Southeast Asia including Indonesia, Vietnam, Singapore, Malaysia, Thailand, Cambodia, Burma, and Philippines, among others. Same as ANTH:2160.

**GHS:2164 Culture and Healing for Future Health Professionals** 3 s.h.  
Health professions increasingly focused on how to best provide health care to culturally diverse populations; introduction to key cultural and social influences on sickness and healing; worldwide examples. Same as ANTH:2164.

**GHS:2181 The Anthropology of Aging** 3 s.h.  
Comparative anthropological perspective on aging; ethnographies from diverse contexts used to examine intersections of kinship, religion, health, and medicine in later life. Same as ANTH:2181, ASP:2181.

**GHS:2182 Africa: Health and Society** 3 s.h.  
Cultural, political, and economic diversity of African societies from precolonial period to present day; relationship between lived experiences of African people and understanding of their societies from afar; why Africa, more than any other region, is associated with warfare, hunger, and disease; idea of "Africa" in the world today; shared misunderstanding of life on continent contrasted with everyday lives of people who are not so different from ourselves. Same as ANTH:2182.

**GHS:2260 Hard Cases in Healthcare at the Beginning of Life** 3 s.h.  
Exploration of ethical impact that advances in biotechnology—including genetic, reproductive, and neonatal technology—have in the medical arena and on humanity; consideration of the powerful influence that religion and spirituality have on most people's thinking about life and death. Same as RELS:2260.

- GHS:2265 Hard Cases in Healthcare at the End of Life** 3 s.h.  
Preparation for future healthcare providers to make difficult ethical decisions regarding the end of life; interactive course. Same as RELS:2265.
- GHS:2320 Origins of Human Infectious Disease** 3 s.h.  
Origin and evolution of important infectious diseases in human history; biological evolution of infectious agents and biocultural responses to emerging infectious diseases; primary focus on viruses and bacteria; selected world problems from an anthropological perspective; current dilemmas and those faced by diverse human groups in recent times and distant past. Same as ANTH:2320.
- GHS:2415 Bioethics** 3 s.h.  
Recent developments in biotechnology and medicine; designer babies and cloning, genetic screening for disease, distributive justice in health care, animal experimentation, physician-assisted suicide, and euthanasia. Same as PHIL:2415.
- GHS:2650 Global Reproduction** 3 s.h.  
History of birth control and work of activists and organizations that emerged to promote it; troubling connections that spawned between reproductive rights and population control movements. Same as GWSS:2650.
- GHS:2674 Food, Body, and Belief: A Global Perspective** 3 s.h.  
Exploration of local, national, and global forces that shape food consumption, body image, and spiritual practices. Taught in English. Same as GWSS:2674, RELS:2674.
- GHS:2770 Race, Space, and the Environment** 3 s.h.  
Students study the movement for environmental justice within the broader context of U.S. land use and development to understand environmental racism's prevalence and how it can be addressed; topics include pollution, health, food access, transportation and agricultural practice to land loss, public space, and infrastructure; exploration of perspectives on the environment and environmentalism. Same as AFAM:2770, SOC:2770.
- GHS:3010 Identifying and Developing a Global Health Project** 3 s.h.  
Review of major components of global health related research process; preparation for a local or international project which addresses a global health issue in a systematic way. Same as IGPI:3011.
- GHS:3011 Global Research: Strategies and Skills** 1 s.h.  
Skill development in international research; academic projects; work with research librarian; activity-based introduction to article, statistical, and governmental databases; research and popular materials; information discovery process (tools and search strategies); enhancement of critical thinking skills. Same as IS:3011, ULIB:3011.
- GHS:3012 Community-Based Global Health Research** 3 s.h.  
Introduction to community-based participatory research methods; ethical engagement with a local/global organization addressing the social determinants of health.
- GHS:3015 Transnational Sexualities** 3 s.h.  
How ideas about normative and nonnormative sexuality, gender/sexual identities, and related social movements travel across geographical, political, and cultural boundaries; potentials and limits of using conceptual frameworks (i.e., sexuality, gender, LGBT, queer) across the west and global south; how sexuality always intersects with race, class, nationhood, and transnational systems of power; power structures that shape gender/sexuality through a transnational approach; connection of inequalities within the United States with those across the world. Same as GWSS:3010.
- GHS:3021 Doctors and Patients** 3 s.h.  
How medicine increasingly requires that physicians consider subjective experience of patients inside health care system; what it means to be the object of medical treatment; exploration of global historical experience of diseased body within health care systems from antiquity to modern world using texts from doctors and patients; interaction between roles of doctor and patient—two individuals at center of health care literature. Requirements: completion of GE CLAS Core Rhetoric. Same as CLSA:3020.
- GHS:3030 Global Health Today** 1 s.h.  
Attendance at diverse on-campus, local, and regional global health events. Same as CPH:3240.
- GHS:3034 Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities** 1 s.h.  
Exploration of complex ethical issues involved in engaging in experiential learning (e.g., study abroad, volunteering, internships, research) in global communities; topics may include patient rights versus the promise of "hands-on" experience for untrained undergraduates; pitfalls of voluntourism and substituting "free" foreign labor for paid local employees; commercial aspects of study abroad—incentives and recruiting on campus by external contractors; how to select a reputable internship provider; online resources which help students become global ambassadors for patient safety; basic tools for thinking critically about outcomes.
- GHS:3035 Engaging in Global Health** 1 s.h.  
How to become a participant in promoting health throughout the world; student peers and global health professionals share their experiences in global health; how professionals and volunteers work in a broad variety of settings; working with government-based programs, international organizations (e.g., UNICEF, World Vision), health care agencies, faith-based organizations, industry, and academic institutions; various ways to become engaged and be involved in global health.
- GHS:3036 Ethics, Politics, and Global Health** 3 s.h.  
Ethics of health care policies, delivery systems, and interventions examined globally and locally.
- GHS:3037 Technology to Improve Global Health** 3 s.h.  
Examination of existing, new, and future technologies used to revolutionize global health promotion through a variety of unique and often low-cost tools (e.g., mobile phones, drones, artificial intelligence).

- GHS:3040 Health in Mexico** 3 s.h.  
Use of anthropological perspectives to examine disease, healing systems, and ideas about health and the body in Mexico and its diaspora; relationships between structural conditions and historical and political transformations; ideas about gender and race; chronic and acute disease in Mexico; conquest and disease; racialized bodies; sexual health; biomedicine; shamanism; immigration and health; pollution and narcoviolence; readings in English. Same as ANTH:3111, LAS:3111.
- GHS:3045 Spanish Health Narratives** 3 s.h.  
Narratives are the central communicative act through which humans make sense of wellness and illness, life and death, always within contexts of language and culture; students focus on reading and analyzing narratives about health and health care, and opportunities to create their own narratives; particular emphasis on health care disparities and issues they present for Spanish-language communities in the United States and abroad as context for individual narratives. Taught in Spanish. Requirements: one course numbered SPAN:2000 or above. Same as SPAN:3045.
- GHS:3050 Global Aging** 3 s.h.  
Demographic factors that contribute to the worldwide phenomena of population aging in context of WHO Active Aging and the United Nation's Principles for Older Persons frameworks. Same as ASP:3135, SSW:3135.
- GHS:3060 Studies in Complementary and Alternative Medicine** 3 s.h.  
Rotating topics related to complementary and alternative medicine.
- GHS:3070 Hungry Planet: Global Geographies of Food** 3 s.h.  
Societal and environmental implications of past, current, and future global food supply examined from a geographical perspective; focus on questions of who eats what, where, and why; transformative history of agriculture, modern agribusiness and alternative food supplies, geopolitical implications of food production, food scarcity and rising food costs, urban versus rural agriculture, the obesity epidemic versus malnutrition, and the future of food. Same as GEOG:3070.
- GHS:3102 Medical Anthropology** 3 s.h.  
Major theoretical, methodological approaches; international health and development; biomedicine as a cultural system; ethnomedicine; anthropology and AIDS, human reproduction, epidemiology, ethnopsychiatry. Prerequisites: ANTH:1101 or ANTH:2100 or ANTH:2164 or GHS:2000. Same as ANTH:3102, CBH:3102.
- GHS:3110 Colonialism and Indigenous Health Equity** 3 s.h.  
Health problems and services for Indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101 or ANTH:2165 or GHS:2000 or NAIS:1049. Same as ANTH:3110, NAIS:3110.
- GHS:3111 Geography of Health** 3 s.h.  
Provision of health care in selected countries, with particular reference to the Third World; focus on problems of geographical, economic, cultural accessibility to health services; disease ecology, prospective payment systems, privatization, medical pluralism. Same as GEOG:3110.
- GHS:3113 Religion and Healing** 3 s.h.  
Historical evidence of religious healing in Christian, Hindu, Buddhist, Native American, and Shaman traditions. Same as ANTH:3113, ASIA:3561, RELS:3580.
- GHS:3120 Global Maternal and Child Health** 3 s.h.  
Interdisciplinary approach to health of women and children locally and around the world.
- GHS:3131 Models of Health Care Delivery in Russia** 3 s.h.  
Societal changes and their continuing effect on the Russian health care system since 1991; guest lectures from public health, nursing, medicine, cultural anthropology. Taught in English. Same as RUSS:3131.
- GHS:3150 Media and Health** 3 s.h.  
Potential and limits of mass media's ability to educate the public about health; research and theory on the influence of information and entertainment media; theories, models, assumptions of mass communication in relation to public health issues. Same as CBH:3150, JMC:3150.
- GHS:3151 The Anthropology of the Beginnings and Ends of Life** 3 s.h.  
Examination of diverse understandings of birth and death, drawing on anthropological analysis of personhood, kinship, ritual, and medicine; how social inequality and new technologies shape human experience at life's margins. Prerequisites: ANTH:1101 or ANTH:2100. Same as ANTH:3151, ASP:3151.
- GHS:3152 Anthropology of Caregiving and Health** 3 s.h.  
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ANTH:3152, ASP:3152.
- GHS:3162 History of Global Health** 3 s.h.  
Foremost problems of health and disease in colonial and postcolonial societies; topical approach. Same as HIST:3162.
- GHS:3170 Visualizing Global Health Through Popular Fiction and Film** 3 s.h.  
Prominent global health issues visualized through the lens of popular film and fiction; use of books and film to explore how the public understands various global health topics (e.g., human trafficking, emerging infectious diseases, post-apocalyptic societies, population control).
- GHS:3180 Climate Change and Health** 3 s.h.  
Addressing global health issues affected by climate change through an interdisciplinary lens, drawing from medicine, human psychology, law, history, business, religion, and environmental science; exploring health and disease risk patterns as they vary around the world; examining the major social, economic, political, and related factors contributing to our changing climate and health and security threats; introducing the basic public health and human rights concepts and policies necessary for reducing morbidity and mortality rates among at-risk populations; preparing students to work internationally or domestically to address threats of a changing climate.
- GHS:3191 Sustainable Development: India and the Global Context** 3 s.h.  
Introduction to development in India; critical examination of current discourses on domestic sociological, economic, and ecological environmental effects of the current model of development.
- GHS:3192 Environment and Health in Modern India** 3 s.h.  
Introduction to India's environmental and health traditions; major contemporary scenarios.

**GHS:3199 Anthropology and Global Health Policy 3 s.h.**

How global health has grown as an area of practice and study, with well-being and livelihoods of increasing numbers of people now deeply influenced by these ideas, practices, and policies; students engage with ways that global health programs have influenced experiences of health and illness by those who participate in these programs; critical analysis of how global health interacts with local dynamics of inequality, race, gender, and power. Same as ANTH:3199, IS:3198.

**GHS:3230 Health Experience of Immigrants, Migrants, and Refugees 3 s.h.**

Interdisciplinary exploration of the unique health concerns, challenges, and health care experiences of the diverse populations on the move around the world and new to this country; issues to be explored include four overlapping sections—broad overview (definitions, populations, and significant health challenges); health risks and needs of specific sub-populations; patterns of public and private resources and responses; and the local picture (Iowa and Midwest), programs, cases, and concerns.

**GHS:3300 Envisioning Future Worlds: Sustainable Development and Its Alternatives 3 s.h.**

Sociocultural, geopolitical, and environmental implications of sustainable development and its alternatives investigated from a geographic perspective; geopolitical history of sustainable development; measures of sustainability in development; major critiques of sustainable development; alternative visions of development from different geographical contexts including ecofeminism, Buen Vivir, food sovereignty, degrowth, commoning, and the People's Health Movement. Same as GEOG:3300.

**GHS:3325 Global Epidemics 3 s.h.**

Case studies of several prominent global epidemic episodes; examination of the biology of the disease, how such epidemics came into being, how they were combated, and the relationship between the science, sociocultural, and political consequences of the disease.

**GHS:3327 The Politics of Progress: NGOs, Development, and Sexuality 3 s.h.**

How nonprofit sector increasingly plays a significant role in countering socioeconomic inequalities in the United States and global south; role of nonprofit organizations in relation to governmental policies of development, transnational funders, and ideas of sexual progress; critics of development institutions' arguments that western ideas of progress impose and adversely affect groups they claim to empower, yet also may foster struggles for social justice that go beyond development policy; examination of transnational nonprofit sector in relation to gender/sexuality and how it impacts women and gender/sexual minorities around the world. Recommendations: background in gender studies or social sciences. Same as GWSS:3326.

**GHS:3420 Health and Healing in Early Modern Europe 3 s.h.**

Health, healing, and medicine (1200-1700); transmission of medical knowledge from medieval Islam and ancient Greece; healers including physicians, midwives, surgeons, apothecaries, and ordinary people; epidemic disease; diet and the body; sex and reproduction; health in the colonial Atlantic world; healing and religion including prayer, magic, and witchcraft. Same as HIST:3420.

**GHS:3500 Global Public Health 3 s.h.**

Exploration of historical, current, and forecasted trends in global public health, the factors influencing health demographics in human populations, sources of health inequalities, and appropriate policy and intervention approaches for addressing global public health challenges. Same as CPH:3500.

**GHS:3508 Disease and Health in Latin American History 3 s.h.**

Survey of major topics in Latin American history in relation to development of medicine and public health. Same as HIST:3508, LAS:3508.

**GHS:3555 Understanding Health and Disease in Africa 3 s.h.**

Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as HIST:3755, IS:3555.

**GHS:3560 Global Garbage and Global Health 3 s.h.**

Exploration of the fate of waste products as they are burnt, decomposed, landfilled, treated, recycled, reused, dumped on minority communities, or shipped abroad; definition of social and cultural aspects of garbage; students develop an understanding of the link between garbage, human health, and environmental health.

**GHS:3570 Poverty Policy 3 s.h.**

How poverty is regulated and addressed in the United States, and by federal, state, and local governments; particular focus on programs including Temporary Assistance for Needy Families (TANF), Section 8 housing, Medicaid, and Medicare; how these systems have changed over time; current models and innovations that have emerged in practice. Same as PBAF:3570.

**GHS:3600 Development in a Global Context I: Preparing for an Internship in Health, Gender, and Environment 2 s.h.**

Students work with a UI faculty mentor to articulate an international development project and apply to an international development organization for an internship; students are matched to an organization/project and begin preparation for their internship by communicating with onsite mentor/supervisor.

**GHS:3700 Development in a Global Context II: Reflections on Real World Interventions 1 s.h.**

Students produce a research paper analyzing their personal internship in an international development program.

**GHS:3720 Contemporary Issues in Global Health 3 s.h.**

Local and global dimensions of health and disease.

**GHS:3732 Global Health Nursing 3 s.h.**

Complexity of health and nursing in a global context; overview of biological, social, epigenetic, and environmental contributors to health and diseases in populations around the world and nursing's role in improving health; includes case studies of various global organizational and educational structures and systems relative to population health, selected infectious diseases, nutritional deficiencies, and health effects of environmental change. Same as NURS:3732.

**GHS:3760 Hazards and Society 3 s.h.**

Examination of the impact and societal responses to natural and technological hazards; using case studies from around the world, students explore relationships between extreme events, human behavior, disaster management, public policy, and technology to understand what makes people and places vulnerable to hazards. Same as GEOG:3760.

- GHS:3780 U.S. Energy Policy in Global Context** 3 s.h.  
Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as GEOG:3780, HIST:3240.
- GHS:3850 Promoting Health Globally** 3 s.h.  
Major global health threats in the United States and abroad; impact of culture, history, economics on health disparities; approaches, programs, policies to remedy them. Same as HHP:3850.
- GHS:4000 Global Health Studies Service Learning: Local Health is Global Health** 4 s.h.  
Service-learning projects with local community organizations; domestic opportunities which offer global health insights.
- GHS:4001 Social Entrepreneurship and Global Health** 3 s.h.  
Fundamentals of social enterprise and innovative approaches to improving lives and communities combined with a Global Health Studies focus on social determinants of health; student teams apply their knowledge and skills to projects which support the global health mission of a community partner. Recommendations: one approved global health studies course.
- GHS:4002 Working in Global Health** 3 s.h.  
Development of skills needed for careers in global health. Recommendations: junior or higher standing.
- GHS:4003 Case Studies in Global Health Inequities** 3 s.h.  
Series of multidisciplinary case studies focusing on health issues and solutions locally and globally.
- GHS:4100 Topics in Global Health** 1-3 s.h.  
Special topics related to global health studies.
- GHS:4140 Feminist Activism and Global Health** 3 s.h.  
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101 or GWSS:1001 or CPH:1400 or GHS:2000. Same as ANTH:4140, CBH:4140, GWSS:4140.
- GHS:4150 Health and Environment: GIS Applications** 3 s.h.  
Introduction to how geographic information systems (GIS) and spatial statistics are used in the study of patterns of health and disease in space and time. Same as GEOG:4150, IGPI:4150.
- GHS:4162 History of Global Health** 3 s.h.  
Foremost problems of health and disease in colonial and postcolonial societies; topical approach. Same as HIST:4162.
- GHS:4205 Culture, Language, and Health** 3 s.h.  
Exploration of health, wellness, and illness from a perspective of language and culture; languages we use to describe our mental and physical health that are situated within culture-specific ideas of human bodies, minds, disease, and wellness; understanding where beliefs about health and wellness come from and exploring other systems of belief on their own terms prepares students to be better informed health care practitioners, more aware patients within health care systems, and more sensitive caregivers in health related settings; emphasis on observation, asking questions, and analyzing health care worlds. Taught in Spanish. Requirements: two courses in Spanish numbered 3000 or above. Same as SPAN:4205.
- GHS:4260 Global Water and Health** 3 s.h.  
Overview of global water and health; microbial and toxicant identification, water-related adverse health effects, risk assessment, approaches to reduce water-related disease, distal water-related influences (e.g., global warming), and historic cases. Same as OEH:4260.
- GHS:4530 Global Road Safety** 3 s.h.  
Road safety problem, data sources, research methods used in field, and how intervention and prevention programs are developed and evaluated; lecture, hands-on approaches. Same as CPH:4220, OEH:4530.
- GHS:4600 Global Health and Human Rights** 2-3 s.h.  
Requirements: sophomore or higher standing.
- GHS:4770 Environmental Justice** 3 s.h.  
Introduction to the field of environmental justice; understanding and addressing the processes that lead poor and marginalized communities to face a disproportionate degree of environmental risks and hazards. Same as AFAM:4770, GEOG:4770.
- GHS:4900 Approaches to Global Health Studies** 3 s.h.  
Global health as a study of the dynamic relationship between human health and social, biological, and environmental factors that drive the spread of disease; core areas of global health research that may include health inequalities, maternal and child health, infectious diseases, nutrition, environmental health, and health interventions.
- GHS:4990 Independent Project in Global Health** arr.  
Independent work completed under the supervision of global health studies faculty.
- GHS:4991 Honors Thesis in Global Health Studies** 3 s.h.  
Completion of honors thesis in consultation with a faculty mentor. Prerequisites: GHS:3010.
- GHS:4992 Global Health Studies Honors Cohort** 0 s.h.  
Students complete all requirements for honors in the global health studies major; supervision by global health studies honors advisor. Corequisites: GHS:4991.
- GHS:4999 International Experience** 0 s.h.  
Engagement in international experiences. Same as IS:4999.
- GHS:5000 Graduate Seminar in Global Health** 2 s.h.  
In-depth discussion and analysis of rotating topics pertinent to global health studies.
- GHS:5300 Envisioning Future Worlds: Sustainable Development and Its Alternatives** 3 s.h.  
Sociocultural, geopolitical, and environmental implications of sustainable development and its alternatives investigated from a geographic perspective; geopolitical history of sustainable development; measures of sustainability in development; major critiques of sustainable development; alternative visions of development from different geographical contexts including ecofeminism, Buen Vivir, food sovereignty, degrowth, commoning, and the People's Health Movement. Same as GEOG:5300.
- GHS:5455 Health Insurance and Managed Care** 3 s.h.  
History and theory of insurance, comparative health systems, health systems and networks, HMOs, public health insurance, care for uninsured; emphasis on public policy. Prerequisites: HMP:5005. Corequisites: PHAR:6330 or HMP:5410. Same as HMP:5450.
- GHS:6550 Epidemiology of Infectious Diseases** 3 s.h.  
Underlying epidemiological concepts of infection disease, including causation and surveillance; prevention and control; case studies. Offered fall semesters. Prerequisites: EPID:4400. Same as EPID:6550.

**GHS:6625 Seminar: Religion and Health 3 s.h.**

Examination of global perspectives on relationships between religion, health, disease, living well, and dying. Same as ANTH:6625, RELS:6625.

**GHS:7160 Global History of Race, Science, and Medicine 3 s.h.**

Examination of the history of social construction of race in scientific and medical thought; use of science and medicine to conceptualize race, as well as how race was used by scientists and physicians in their practice; primary focus is on the Atlantic World—Europe, Africa, and the Americas—and touches briefly on the construction of race in other parts of the world. Same as HIST:7160.

# Global Health Studies, B.A.

The Bachelor of Arts in global health studies prepares students for careers in local and international global health organizations, and for graduate and professional work in fields such as public health, law, planning and public affairs, social work, international development, sustainable agriculture, public policy, and more.

## Learning Outcomes

The Global Health Studies Program equips its students to:

- identify the core areas of global health such as infectious and non-communicable diseases, maternal and child health, food sovereignty, environmental health, health inequalities, and interventions;
- analyze biomedical, social, cultural, and environmental determinants of health and disease;
- draw connections between significant health problems which affect both domestic and international communities; and
- recognize the ethical challenges involved in interventions designed to improve health and health equity across cultural and geographical boundaries.

## Requirements

The Bachelor of Arts with a major in global health studies requires a minimum of 120 s.h., including at least 37 s.h. of coursework for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. A minimum of 18 s.h. of major coursework must be earned at the University of Iowa. A maximum of 6 s.h. in GHS:4990 Independent Project in Global Health may be used toward the major. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20] requirements.

A total of 9 s.h. may be counted from other majors, minors, or certificates toward the global health studies major, excluding courses taken to satisfy GE CLAS Core requirements.

Students who earn the major in global health studies may not earn the certificate or the minor in global health studies.

Students who earn the major in global health studies may earn the major in interdepartmental studies as long as they select an emphasis other than the global health emphasis in the health science track.

The B.A. with a major in global health studies requires the following coursework.

Code	Title	Hours
Foundation Courses		10
Global Health Perspectives and Practices Courses		18
World Language and Culture Requirement		6
Capstone Experience		3
<b>Total Hours</b>		<b>37</b>

## Foundation Courses

Code	Title	Hours
All of these:		
GHS:2000	Introduction to Global Health Studies	3

GHS:3720	Contemporary Issues in Global Health	3
GHS:3850	Promoting Health Globally	3
And one of these:		
GHS:3030	Global Health Today	1
GHS:3034	Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1
GHS:3035	Engaging in Global Health	1

## Global Health Perspectives and Practices Courses

To provide an appreciation of the interdisciplinary nature of global health studies, students choose from a wide range of courses on topics which reflect the breadth of the field.

Courses taken to complete another area of the major cannot be used toward the global health perspectives and practices requirement.

Students choose a minimum of 18 s.h. from these, with at least 12 s.h. numbered 3000 or above, and a minimum of 6 s.h. selected from the courses at the end of the list.

Code	Title	Hours
GHS:1029	First-Year Seminar	1
GHS:1181	Ancient Medicine	3
GHS:1290	Native American Foods and Foodways	3
GHS:2080	The Cultural Politics of HIV-AIDS	3
GHS:2090	Medical Spanish in Contemporary Society	4
GHS:2110	Seven Billion and Counting: Introduction to Population Dynamics	3
GHS:2160	Culture, Health, and Wellness: Southeast Asia in Focus	3
GHS:2164	Culture and Healing for Future Health Professionals	3
GHS:2181	The Anthropology of Aging	3
GHS:2182	Africa: Health and Society	3
GHS:2260	Hard Cases in Healthcare at the Beginning of Life	3
GHS:2265	Hard Cases in Healthcare at the End of Life	3
GHS:2320	Origins of Human Infectious Disease	3
GHS:2415	Bioethics	3
GHS:2650	Global Reproduction	3
GHS:2674	Food, Body, and Belief: A Global Perspective	3
GHS:2770	Race, Space, and the Environment	3
GHS:3010	Identifying and Developing a Global Health Project	3
GHS:3011	Global Research: Strategies and Skills	1
GHS:3012	Community-Based Global Health Research	3
GHS:3021	Doctors and Patients	3

GHS:3030	Global Health Today	1	GHS:4001	Social Entrepreneurship and Global Health	3
GHS:3034	Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1	GHS:4002	Working in Global Health	3
GHS:3035	Engaging in Global Health	1	GHS:4003	Case Studies in Global Health Inequities	3
GHS:3037	Technology to Improve Global Health	3	GHS:4100	Topics in Global Health	1-3
GHS:3040	Health in Mexico	3	GHS:4140	Feminist Activism and Global Health	3
GHS:3045	Spanish Health Narratives	3	GHS:4150	Health and Environment: GIS Applications	3
GHS:3050	Global Aging	3	GHS:4162	History of Global Health	3
GHS:3060	Studies in Complementary and Alternative Medicine	3	GHS:4205	Culture, Language, and Health	3
GHS:3070	Hungry Planet: Global Geographies of Food	3	GHS:4260	Global Water and Health	3
GHS:3102	Medical Anthropology	3	GHS:4530	Global Road Safety	3
GHS:3110	Colonialism and Indigenous Health Equity	3	GHS:4600	Global Health and Human Rights	2-3
GHS:3111	Geography of Health	3	GHS:4770	Environmental Justice	3
GHS:3113	Religion and Healing	3	GHS:4990	Independent Project in Global Health	arr.
GHS:3150	Media and Health	3	GHS:5000	Graduate Seminar in Global Health	2
GHS:3151	The Anthropology of the Beginnings and Ends of Life	3	GHS:5455	Health Insurance and Managed Care	3
GHS:3152	Anthropology of Caregiving and Health	3	GHS:6550	Epidemiology of Infectious Diseases	3
GHS:3180	Climate Change and Health	3	GHS:6625	Seminar: Religion and Health	3
GHS:3191	Sustainable Development: India and the Global Context	3	ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800/TR:1800	Aging Matters: Introduction to Gerontology	3
GHS:3192	Environment and Health in Modern India	3	CPH:2200	Climageddon: Understanding Climate Change and Associated Impacts on Health	2
GHS:3300	Envisioning Future Worlds: Sustainable Development and Its Alternatives	3	CPH:2230	Finding Patient Zero: The Exploration of Infectious Disease Transmission and Pandemic Threats	3
GHS:3327	The Politics of Progress: NGOs, Development, and Sexuality	3	CPH:2400	The U.S. Health System in a Global Context	3
GHS:3420	Health and Healing in Early Modern Europe	3	CPH:3400/ GEOG:3210	Health, Work, and the Environment	3
GHS:3500	Global Public Health	3	CPH:4200	Agriculture, Food Systems, and Sustainability	3
GHS:3508	Disease and Health in Latin American History	3	ENGL:2560	Topics in Culture and Identity (when topic is stories about HIV/AIDS)	3
GHS:3555	Understanding Health and Disease in Africa	3	HIST:1016	The History That Made Our World (when topic is related to global health; consult advisor)	3
GHS:3600	Development in a Global Context I: Preparing for an Internship in Health, Gender, and Environment	2	NURS:3655	Community and Public Health Nursing Practicum (B.S.N. students only)	2
GHS:3700	Development in a Global Context II: Reflections on Real World Interventions	1	OEH:4240	Global Environmental Health	3
GHS:3720	Contemporary Issues in Global Health (topic must be different than the Foundation Course topic)	3	A minimum of 6 s.h. from these:		
GHS:3732	Global Health Nursing	3	GHS:1100	Contraception Across Time and Cultures	3
GHS:3760	Hazards and Society	3			
GHS:3780	U.S. Energy Policy in Global Context	3			
GHS:4000	Global Health Studies Service Learning: Local Health is Global Health	4			

GHS:1200	Disabilities and Inclusion in Writing and Film Around the World	3
GHS:3015	Transnational Sexualities	3
GHS:3036	Ethics, Politics, and Global Health	3
GHS:3120	Global Maternal and Child Health	3
GHS:3131	Models of Health Care Delivery in Russia	3
GHS:3170	Visualizing Global Health Through Popular Fiction and Film	3
GHS:3230	Health Experience of Immigrants, Migrants, and Refugees	3
GHS:3325	Global Epidemics	3
GHS:3560	Global Garbage and Global Health	3

## World Language and Culture Requirement

Students must choose option A or B below. Semester hours necessary to complete this requirement will vary.

### Option A

Students may complete a minimum of two world language courses beyond that required by the GE CLAS Core [p. 20]. This additional language requirement may be met either by completing at least two courses of fifth-semester-level study or higher in the same language used to fulfill the GE CLAS Core World Languages requirement or by completing two courses, or the equivalent, of a second world language at any level.

### Option B

Students may complete 6 s.h. related to one of the following area studies: African studies; Caribbean studies; East Asian studies; Islamic and Middle Eastern studies; Latin American studies; Russian, East European, and Eurasian studies; or South Asian studies. See the International Studies Course Database web page for approved courses each semester.

## Capstone Experience

The capstone experience requirement provides an opportunity for students to apply the knowledge and skills they learned in the classroom.

Students choose a minimum of 3 s.h. from the following.

Code	Title	Hours
GHS:3010	Identifying and Developing a Global Health Project	3
GHS:3012	Community-Based Global Health Research	3
GHS:4000	Global Health Studies Service Learning: Local Health is Global Health	4
GHS:4001	Social Entrepreneurship and Global Health (when topic is student team projects with community health initiative, Haiti)	3
GHS:4002	Working in Global Health	3

GHS:4003	Case Studies in Global Health Inequities	3
----------	--	---

## Honors

### Honors in the Major

Students majoring in global health studies have the opportunity to graduate with honors in the major. Students who choose to graduate with honors in the major must satisfy these requirements:

- maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major;
- complete a minimum of 6 s.h. of honors or contract honors courses in their global health studies major coursework;
- complete GHS:3010 Identifying and Developing a Global Health Project followed by GHS:4991 Honors Thesis in Global Health Studies as their capstone experience;
- enroll in GHS:4992 Global Health Studies Honors Cohort (0 s.h.) with the global health studies honors advisor during the semester in which GHS:4991 will be completed;
- submit an acceptable honors thesis; and
- give an oral or poster presentation of research findings at a venue approved by the Global Health Studies Program.

Students are encouraged to participate in the Iowa Center for Research by Undergraduates (ICRU) and to apply for research scholarships.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the global health studies major.

## Career Advancement

The Global Health Studies Program engages students and faculty in real-world health problems and challenges students to embark on global health careers which place a priority on improving health and achieving equity in health for people worldwide.

Graduates find opportunities in a range of global health job sectors such as:

- in-country field consultants;
- disaster relief organizations;
- immigrant/refugee health organizations;
- research and academic institutions;
- international agencies;
- other nongovernmental agencies (NGOs);
- lending agencies that do work in developing countries;
- multilateral agencies (such as the World Health Organization); and
- governmental agencies (United States Agency for International Development, Center for Disease Control, in-country ministries of health, etc.).

Global health studies graduates also have pursued graduate and professional degrees in medicine, dentistry, pharmacy, nursing, public health, law, nonprofit management, urban

and regional planning, sustainable agriculture, international development, and public administration.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the University's Four-Year Graduation Plan.

**Before the fifth semester begins:** at least six courses in the major.

**Before the seventh semester begins:** at least 12 courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** at least two additional courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a The Global Health Studies Program connects students to experiential learning opportunities such as study abroad, internships, research, service learning, and capstone courses through which students develop real world skills related to major global health issues. Students meet regularly with their academic advisor for help in identifying ethical activities which can be integrated into their individualized graduation plan.
- b Global Health Studies students are encouraged to enroll in this course to explore how professionals and volunteers work in a broad variety of global health settings. This course counts toward Global Health Perspectives and Practices.
- c Students completing Honors in the Global Health Studies major work with a faculty mentor to produce an honors thesis, and then present their research at a venue approved by the Global Health Studies Program.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Global Health Studies, B.S.

The Bachelor of Science in global health studies is designed for students who desire to enter professional programs in the health sciences.

## Learning Outcomes

The Global Health Studies Program equips its students to:

- identify the core areas of global health such as infectious and non-communicable diseases, maternal and child health, food sovereignty, environmental health, health inequalities, and interventions;
- analyze biomedical, social, cultural, and environmental determinants of health and disease;
- draw connections between significant health problems which affect both domestic and international communities; and
- recognize the ethical challenges involved in interventions designed to improve health and health equity across cultural and geographical boundaries.

## Requirements

The Bachelor of Science with a major in global health studies requires a minimum of 120 s.h., including at least 47 s.h. of coursework for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. A minimum of 18 s.h. of major coursework must be earned at the University of Iowa. A maximum of 6 s.h. in GHS:4990 Independent Project in Global Health may be used toward the major. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20] requirements.

A total of 9 s.h. may be counted from other majors, minors, or certificates toward the global health studies major, excluding courses taken to satisfy GE CLAS Core requirements.

Students who earn the major in global health studies may not earn the certificate or the minor in global health studies.

Students who earn the major in global health studies may earn the major in interdepartmental studies as long as they select an emphasis other than the global health emphasis in the health science track.

The B.S. with a major in global health studies requires the following coursework.

Code	Title	Hours
	Foundation Courses	10
	Global Health Perspectives and Practices Courses	18
	World Language and Culture Requirement	6
	Capstone Experience	3
	Natural Sciences Courses	7-8
	Mathematics and Statistics Course	3-4
	<b>Total Hours</b>	<b>47-49</b>

## Foundation Courses

Code	Title	Hours
	All of these:	
GHS:2000	Introduction to Global Health Studies	3

GHS:3720	Contemporary Issues in Global Health	3
GHS:3850	Promoting Health Globally	3
	And one of these:	
GHS:3030	Global Health Today	1
GHS:3034	Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1
GHS:3035	Engaging in Global Health	1

## Global Health Perspectives and Practices Courses

To provide an appreciation of the interdisciplinary nature of global health studies, students choose from a wide range of courses on topics which reflect the breadth of the field.

Courses taken to complete another area of the major cannot be used toward the global health perspectives and practices requirement.

Students choose a minimum of 18 s.h. from these, with at least 12 s.h. numbered 3000 or above, and a minimum of 6 s.h. selected from the courses at the end of the list.

Code	Title	Hours
GHS:1029	First-Year Seminar	1

## World Language and Culture Requirement

Students must choose option A or B below. Semester hours necessary to complete this requirement will vary.

### Option A

Students may complete a minimum of two world language courses beyond that required by the GE CLAS Core [p. 20]. This additional language requirement may be met either by completing at least two courses of fifth-semester-level study or higher in the same language used to fulfill the GE CLAS Core World Languages requirement or by completing two courses, or the equivalent, of a second world language at any level.

### Option B

Students may complete 6 s.h. related to one of the following area studies: African studies; Caribbean studies; East Asian studies; Islamic and Middle Eastern studies; Latin American studies; Russian, East European, and Eurasian studies; or South Asian studies. See the International Studies Course Database web page for approved courses each semester.

## Capstone Experience

The capstone experience requirement provides an opportunity for students to apply the knowledge and skills they learned in the classroom.

Students complete 3 s.h. from the following.

Code	Title	Hours
GHS:3010	Identifying and Developing a Global Health Project	3
GHS:3012	Community-Based Global Health Research	3

## Natural Sciences Courses

The natural sciences course requirement can be used to fulfill the GE CLAS Core [p. 20] requirement. Students should consult with their advisor concerning specific courses that satisfy these requirements.

Students must complete a minimum of one of the sequences, with at least one lab, from the following.

Code	Title	Hours
<b>Chemistry</b>		
CHEM:1110 & CHEM:1120	Principles of Chemistry I-II	8
<b>Chemistry and Biology</b>		
CHEM:1070 & BIOL:1141	General Chemistry I - Human Biology: Health Professions	7
CHEM:1110 & BIOL:1141	Principles of Chemistry I - Human Biology: Health Professions	8
CHEM:1110 & BIOL:1411	Principles of Chemistry I - Foundations of Biology	8
CHEM:1110 & BIOL:1412	Principles of Chemistry I - Diversity of Form and Function	8
<b>Chemistry and Physics</b>		
CHEM:1070 & PHYS:1400	General Chemistry I - Basic Physics	7
CHEM:1110 & PHYS:1511	Principles of Chemistry I - College Physics I	8
<b>Physics</b>		
PHYS:1511- PHYS:1512	College Physics I-II	8

## Mathematics and Statistics Course

Students must complete at least one calculus or statistics course. In some cases, students also may need to complete a precalculus or statistics course, depending on their math placement.

The mathematics and statistics course requirement can be used to fulfill the GE CLAS Core [p. 20] requirement. Students should consult with their advisor concerning specific courses that satisfy these requirements.

Students complete one of the following.

Code	Title	Hours
MATH:1380	Calculus and Matrix Algebra for Business	4
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1850	Calculus I	4
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
Any higher-level statistics course (consult advisor)		3-4

## Honors

### Honors in the Major

Students majoring in global health studies have the opportunity to graduate with honors in the major. Students who choose to graduate with honors in the major must satisfy these requirements:

- maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major;
- complete a minimum of 6 s.h. of honors or contract honors courses in their global health studies major coursework;
- complete GHS:3010 Identifying and Developing a Global Health Project followed by GHS:4991 Honors Thesis in Global Health Studies as their capstone experience;
- enroll in GHS:4992 Global Health Studies Honors Cohort (0 s.h.) with the global health studies honors advisor during the semester in which GHS:4991 will be completed;
- submit an acceptable honors thesis; and
- give an oral or poster presentation of research findings at a venue approved by the Global Health Studies Program.

Students are encouraged to participate in the Iowa Center for Research by Undergraduates (ICRU) and to apply for research scholarships.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the global health studies major.

## Career Advancement

The Global Health Studies Program engages students and faculty in real-world health problems and challenges students to embark on global health careers which place a priority on improving health and achieving equity in health for people worldwide.

Graduates find opportunities in a range of global health job sectors such as:

- in-country field consultants;
- disaster relief organizations;
- immigrant/refugee health organizations;
- research and academic institutions;
- international agencies;
- other nongovernmental agencies (NGOs);
- lending agencies that do work in developing countries;
- multilateral agencies (such as the World Health Organization); and
- governmental agencies (United States Agency for International Development, Center for Disease Control, in-country ministries of health, etc.).

Global health studies graduates also have pursued graduate and professional programs in medicine, dentistry, pharmacy, nursing, public health, law, nonprofit management, urban and regional planning, sustainable agriculture, international development, and public administration.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the University's Four-Year Graduation Plan.

**Before the fifth semester begins:** at least six courses in the major.

**Before the seventh semester begins:** at least 12 courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** at least two additional courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

<b>Total Hours</b>	<b>124-137</b>

- a The Global Health Studies Program connects students to experiential learning opportunities such as study abroad, internships, research, service learning, and capstone courses through which students develop real world skills related to major global health issues. Students meet regularly with their academic advisor for help in identifying ethical activities which can be integrated into their individualized graduation plan.
- b Global Health Studies students are encouraged to enroll in GHS:3035 Engaging in Global Health to explore how professionals and volunteers work in a broad variety of global health settings. This course counts toward Global Health Perspectives and Practices.
- c Students completing Honors in the Global Health Studies major work with a faculty mentor to produce an honors thesis, and then present their research at a venue approved by the Global Health Studies Program.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f Choose from CHEM:1110 & CHEM:1120, CHEM:1070 & BIOL:1141, CHEM:1110 & BIOL:1141, CHEM:1110 & BIOL:1411, CHEM:1110 & BIOL:1412, CHEM:1070 & PHYS:1400, CHEM:1110 & PHYS:1511, PHYS:1511 & PHYS:1512.
- g Fulfills a major requirement and may fulfill a GE requirement.
- h Enrollment in chemistry courses requires completion of a placement exam.
- i Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- j Students should choose from the Global Health Studies approved B.S. course list.
- k Choose from MATH:1380, MATH:1440, MATH:1460, MATH:1550, MATH:1850, STAT:1020.
- l Enrollment in math courses requires completion of a placement exam.
- m Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Global Health Studies, Minor

## Requirements

The undergraduate minor in global health studies requires a minimum of 15 s.h., including 12 s.h. in courses completed at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nopass.

The minor is interdisciplinary, designed for students who wish to study the complex factors influencing health and disease locally and around the world.

A maximum of 6 s.h. of coursework used to satisfy requirements for another major, minor, or certificate may be applied toward the minor. This includes second areas, concentrations, and cognates, with the exception of the B.A. in journalism and mass communication, for which no overlap is assessed. Students may earn either the minor or the certificate in global health studies, but not both. Undergraduates who earn the minor in global health studies may not earn the major in global health studies.

The minor in global health studies requires the following coursework.

## Required Courses

Code	Title	Hours
One of these:		
GHS:2000	Introduction to Global Health Studies	3
GHS:3850	Promoting Health Globally	3
One of these:		
GHS:3720	Contemporary Issues in Global Health	3
GHS:4003	Case Studies in Global Health Inequities	3
6 s.h. from these:		
GHS:1100	Contraception Across Time and Cultures	3
GHS:1200	Disabilities and Inclusion in Writing and Film Around the World	3
GHS:3030	Global Health Today	1
GHS:3034	Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1
GHS:3035	Engaging in Global Health	1
GHS:3036	Ethics, Politics, and Global Health	3
GHS:3037	Technology to Improve Global Health	3
GHS:3060	Studies in Complementary and Alternative Medicine	3
GHS:3120	Global Maternal and Child Health	3
GHS:3131	Models of Health Care Delivery in Russia	3

GHS:3170	Visualizing Global Health Through Popular Fiction and Film	3
GHS:3230	Health Experience of Immigrants, Migrants, and Refugees	3
GHS:3325	Global Epidemics	3
GHS:3560	Global Garbage and Global Health	3
One of these:		
Global Health Perspectives and Practices course(s) if not taken as a requirement above; see B.A. or B.S. in global health studies for approved list		3
Approved global health-themed study abroad coursework (consult GHS advisor)		3

# Global Health Studies, Certificate

## Requirements

The undergraduate Certificate in Global Health Studies requires 18 s.h. of study. Students must maintain a minimum g.p.a. of 2.00 or higher in the 18 s.h. of coursework required for the certificate.

University of Iowa undergraduate students who are not concurrently enrolled in a UI graduate or professional degree program may apply for admission to the certificate program. Students in the College of Pharmacy are an exception; those who have earned the Pharm.D. degree also may earn an undergraduate global health studies certificate.

Work for the certificate includes required courses, electives, a global health project that culminates in a public presentation and written report, and study of a world language. Students must earn at least 12 s.h. of credit for the certificate in courses numbered 3000 or above taken at the University of Iowa. A maximum of 3 s.h. in GHS:4990 Independent Project in Global Health may be used toward the certificate. Students may choose courses offered by the Global Health Studies Program (prefix GHS) or associated courses offered by other departments and programs (see "Associated Courses" under Courses [p. 591] in this section of the Catalog).

The certificate program is interdisciplinary, and requires students to complete a global health project (either in an international setting or in a domestic setting which focuses on global connections) during which they address an important global health issue in a systematic way. Students then present their results and report on the completed project. The program helps prepare students for advanced work or careers in global health.

Undergraduates may earn the certificate or the minor in global health studies, but not both. Undergraduates who earn the certificate in global health studies may not earn the major in global health studies.

The Certificate in Global Health Studies requires the following work.

## Required Courses

Code	Title	Hours
All of these:		
GHS:2000	Introduction to Global Health Studies	3
GHS:3010	Identifying and Developing a Global Health Project	3
GHS:3720	Contemporary Issues in Global Health	3
GHS:3850	Promoting Health Globally	3
GHS:4990	Independent Project in Global Health	1
One of these:		
GHS:3030	Global Health Today	1

GHS:3034	Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1
GHS:3035	Engaging in Global Health	1

## Electives

Students complete 4 s.h. of approved electives chosen from the course lists under Courses [p. 591] in the Global Health Studies section of the Catalog. They may petition to use other courses as electives if they can demonstrate that the courses include substantial material related to global health. Contact the Global Health Studies Program for details.

## Global Health Project

Students must complete a global health project during which they systematically address an important global health issue. The project can be completed either in an international setting or in a domestic setting which focuses on global connections. Eight weeks is considered the optimal amount of time to meet this requirement. The project may be completed as part of a study abroad program, a service learning course, an internship, a volunteer experience, or an independent research project.

Projects require approval by the Global Health Studies Program faculty director and must be supervised by an approved UI faculty mentor. Students may apply for a Stanley Award; other financial support may be available for some projects. Visit Global Health Project on the program's website for more information.

## Language Study

Students must complete the GE CLAS Core [p. 20] World Languages requirement or demonstrate fourth-semester-level language proficiency.

The Global Health Studies Program may advise students to take additional language study in preparation for a research or internship program. Students interested in learning an infrequently taught language to facilitate their participation in a global health project can contact the Center for Language and Culture Learning in the Division of World Languages, Literatures and Cultures.

## Public Presentation and Report

Certificate requirements culminate in a public presentation and report. Students present the results of their global health project in GHS:3010 Identifying and Developing a Global Health Project or in an equivalent public forum. Students also must submit a 10-12 page report that summarizes their global health project. Students enroll in GHS:4990 Independent Project in Global Health for 1 s.h. during the semester in which they are completing their report and presentation.

## Admission

Admission to the certificate program is competitive. Applicants must be in good academic standing and must be able to demonstrate interest in and understanding of the field of global health. For application forms and deadline information, contact the Global Health Studies Program advisor.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Global Health Studies, Certificate

Course	Title	Hours
<b>First Year</b>		
<b>Fall</b>		
Certificate: global health studies elective <sup>a</sup>		1 - 3
<b>Hours</b>		<b>1-3</b>
<b>Spring</b>		
GHS:2000	Introduction to Global Health Studies	3
GHS:3030 or GHS:3035 or GHS:3034	Global Health Today or Engaging in Global Health or Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1
<b>Hours</b>		<b>4</b>
<b>Second Year</b>

GHS:3010	Identifying and Developing a Global Health Project <sup>b</sup>	3
<b>Hours</b>		<b>3</b>
<b>Spring</b>		
Certificate: global health studies elective <sup>a</sup>		1 - 3
Apply for a Stanley Award for International Research (optional not required to earn the certificate)		
<b>Hours</b>		<b>1-3</b>
<b>Summer</b>		
Complete an approved global health project <sup>c, d</sup>		
<b>Hours</b>		<b>0</b>
<b>Fourth Year</b>		
<b>Fall</b>		
GHS:4990	Independent Project in Global Health	1
Complete a report and presentation on the approved global health project <sup>d</sup>		
<b>Hours</b>		<b>1</b>
<b>Spring</b>		
Certificate: global health studies elective (if needed to reach a minimum of 4 s.h. of GHS electives) <sup>a</sup>		1 - 3
<b>Hours</b>		<b>1-3</b>
<b>Total Hours</b>		<b>17-23</b>

- Students complete 4 s.h. of approved electives. See the General Catalog for a list of approved courses.
- GHS:3010 can be taken earlier in the plan to prepare for the Global Health Project; meet with the GHS academic advisor to create an individualized plan of study.
- The Global Health Project may be completed during any session after GHS:3010 and before the student's final session; it can be local or international; meet with the GHS academic advisor to create an individualized plan of study.
- See the Global Health Studies Program website for details.

# Global Health Studies, Graduate Certificate

## Requirements

The graduate Certificate in Global Health Studies requires 18 s.h. of study. Students must earn at least 12 s.h. of credit for the certificate in courses numbered 3000 or above taken at the University of Iowa. Students must maintain a minimum g.p.a. of 2.50 or higher in the 18 s.h. coursework required for the certificate.

The certificate is open to University of Iowa graduate and professional students, except for those in the College of Pharmacy who have earned the Pharm.D. degree; they are awarded the undergraduate certificate. Other students are awarded the graduate certificate by the Graduate College.

Work for the certificate includes required courses, electives, a global health project that culminates in a public presentation and written report, and study of a world language. A maximum of 3 s.h. in GHS:4990 Independent Project in Global Health may be used toward the certificate. Students may choose courses offered by the Global Health Studies Program (prefix GHS) or associated courses offered by other departments and programs (see "Associated Courses" under Courses [p. 591] in this section of the Catalog).

Graduate and professional students who would like to count credit from a degree program toward the global health studies certificate should consult their graduate/professional academic programs.

The certificate program is interdisciplinary, and requires students to complete a global health project (either in an international setting or in a domestic setting which focuses on global connections) during which they address an important global health issue in a systematic way. Students then present their results and report on the completed project. The program helps prepare students for careers in global health.

The Certificate in Global Health Studies requires the following work.

## Required Courses

Code	Title	Hours
All of these:		
GHS:3010	Identifying and Developing a Global Health Project	3
GHS:3720	Contemporary Issues in Global Health	3
GHS:3850	Promoting Health Globally	3
GHS:4900	Approaches to Global Health Studies	3
GHS:4990	Independent Project in Global Health	1
One of these:		
GHS:3030	Global Health Today	1
GHS:3034	Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1
GHS:3035	Engaging in Global Health	1

## Electives

Students complete 4 s.h. of approved electives chosen from the course lists under Courses [p. 591] in the Global Health Studies section of the Catalog. They may petition to use other courses as electives if they can demonstrate that the courses include substantial material related to global health. Contact the Global Health Studies Program for details.

## Global Health Project

Students must complete a global health project during which they systematically address an important global health issue. The project can be completed either in an international setting or in a domestic setting which focuses on global connections. Eight weeks is considered the optimal amount of time to meet this requirement. The project may be completed as part of a study abroad program, a service learning course, an internship, a volunteer experience, or an independent research project.

Projects require approval by the Global Health Studies Program faculty director and must be supervised by an approved UI faculty mentor. Students may apply for a Stanley Award; other financial support may be available for some projects. Visit Global Health Project on the program's website for more information.

## Language Study

Students must either complete the GE CLAS Core [p. 20] World Languages requirement or demonstrate fourth-semester-level language proficiency.

The Global Health Studies Program steering committee may advise students to take additional language study in preparation for a research or internship program. Students interested in learning an infrequently taught language to facilitate their participation in a global health project can contact the Center for Language and Culture Learning in the Division of World Languages, Literatures and Cultures.

## Public Presentation and Report

Certificate requirements culminate in a public presentation and report. Students present the results of their global health project in GHS:3010 Identifying and Developing a Global Health Project or in an equivalent public forum. Students also must submit a 10-12 page report that summarizes their global health project. Students enroll in GHS:4990 Independent Project in Global Health for 1 s.h. during the semester in which they are completing their report and presentation.

## Admission

Admission to the certificate program is competitive. Applicants must be in good academic standing and must be able to demonstrate interest in and understanding of the field of global health. For application forms and deadline information, contact the Global Health Studies Program advisor.

# Health and Human Physiology

## Chair

- Warren G. Darling

**Undergraduate majors:** health and human physiology (B.A.); human physiology (B.S.); sport and recreation management (B.S.); therapeutic recreation (B.S.)

**Undergraduate minors:** human physiology; physical activity and nutrition science; sport and recreation management

**Undergraduate certificate:** interscholastic athletic/activities administration

**Graduate degrees:** M.A. in sport and recreation management; M.S. in health and human physiology; Ph.D. in health and human physiology

**Faculty:** <https://clas.uiowa.edu/hhp/people/faculty>

**Website:** <https://clas.uiowa.edu/hhp/>

The Department of Health and Human Physiology offers undergraduate majors, minors, and a certificate; and graduate degree programs in health and human physiology and in sport and recreation management. The department also administers the Certificate in Disability Studies, as well as coaching authorization courses. In addition, the department is home to the Health and Physical Activity Skills Program, which offers courses that provide instruction and practice in lifetime sports, fitness training, and wellness activities aimed at enhancing physical health and well-being. Additionally, the department collaborates with other departments to offer the Certificate in Event Management.

Undergraduates in all majors may use several health and human physiology courses to fulfill requirements of the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. The department's First-Year Seminar is designed for entering undergraduate students.

## Certificates

### Disability Studies

The Department of Health and Human Physiology administers the undergraduate certificate program in disability studies. Disability studies examines disability as a social, cultural, historical, and political phenomenon rather than focusing on its clinical, medical, or therapeutic aspects. It is an interdisciplinary field that draws on scholarship from diverse disciplines. The certificate program helps students expand their knowledge and awareness of disability issues and prepare for careers in public life. See the Certificate in Disability Studies [p. 373] in the Catalog.

### Event Management

The Departments of Health and Human Physiology and Communication Studies, the School of Journalism and Mass Communication (College of Liberal Arts and Sciences), and the Department of Marketing (Tippie College of Business) collaborate to offer the undergraduate Certificate in Event Management. Students who earn the certificate will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event management and careers in the event management industry. For information, see the Certificate in Event Management [p. 491] in the Catalog.

## Programs

### Undergraduate Programs of Study

#### Majors

- Major in Health and Human Physiology (Bachelor of Arts) [p. 626]
- Major in Human Physiology (Bachelor of Science) [p. 632]
- Major in Sport and Recreation Management (Bachelor of Science) [p. 635]
- Major in Therapeutic Recreation (Bachelor of Science) [p. 642]

#### Minors

- Minor in Human Physiology [p. 648]
- Minor in Physical Activity and Nutrition Science [p. 649]
- Minor in Sport and Recreation Management [p. 650]

#### Certificate

- Certificate in Interscholastic Athletic/Activities Administration [p. 651]

### Graduate Programs of Study

#### Majors

- Master of Arts in Sport and Recreation Management [p. 653]
- Master of Science in Health and Human Physiology [p. 655]
- Doctor of Philosophy in Health and Human Physiology [p. 660]

## Facilities

Classroom and research laboratories are located in the Field House and in other buildings on campus. They provide excellent facilities for instruction and research at both the undergraduate and graduate levels.

Cooperative efforts with other units facilitate specialization by allowing Department of Health and Human Physiology students to use additional special facilities and research equipment in other departments on campus (e.g., biology, biochemistry and molecular biology, molecular physiology and biophysics, orthopedic surgery, internal medicine, pharmacology, and the College of Engineering).

## Courses

- Health and Human Physiology Courses [p. 613]
- Sport and Recreation Management Courses [p. 618]
- Therapeutic Recreation Courses [p. 621]
- Health and Physical Activity Skills Courses [p. 623]

## Health and Human Physiology Courses

- HHP:1000 First-Year Seminar** 1 s.h.  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
- HHP:1010 Exploring Athletic Training** 1 s.h.  
Exploration of professional preparation for athletic trainers; application, career opportunities, professional organizations, awareness of basic athletic training principles.
- HHP:1050 Exploring Health and Human Physiology** 1 s.h.  
Introduction to different ways of thinking within the fields of physiology, health, exercise, and medicine; exploration of quantitative reasoning, evidence-based reasoning, the scientific method, analytical reasoning and data literacy, ethical reasoning, importance of diversity and inclusion, and creative applications.
- HHP:1100 Human Anatomy** 3 s.h.  
General human anatomy covering most systems of the body. GE: Natural Sciences without Lab.
- HHP:1110 Human Anatomy Laboratory** 1 s.h.  
All major systems of the human body, understood through computer-generated images, models, histological slides, anatomical specimens. Prerequisites: HHP:1100 or HHP:3105. GE: Natural Sciences Lab only.
- HHP:1150 Human Anatomy Lecture with Lab** 4 s.h.  
Study of general human anatomy, covering all systems of the body in lecture and most systems in lab; appropriate for students planning on careers in various health professions or for those needing an introductory human anatomy course. GE: Natural Sciences with Lab.
- HHP:1200 First Aid/CPR Athletic Training** 2 s.h.  
First Aid and CPR with automated external defibrillator (AED); opportunity for certification in basic life support through the American Heart Association; satisfies the first aid and CPR requirement for the athletic training program application; for declared athletic training interest majors. Requirements: completion of or current enrollment in HHP:1010.
- HHP:1300 Fundamentals of Human Physiology** 3 s.h.  
Introduction to function and regulation of the human body. Recommendations: high school chemistry and basic biology. GE: Natural Sciences without Lab.
- HHP:1310 Human Physiology Laboratory** 1 s.h.  
Laboratory course illustrating principles of physiological principles through experimental measurements, practical assessments, and computer-based illustrations of human function. Recommendations: one semester of biology.
- HHP:1350 Fundamentals of Human Physiology with Laboratory** 4 s.h.  
Combines lecture and laboratory; introduction to function and regulation of the human body; laboratory work illustrates principles learned in lectures utilizing experimental measurements, practical assessments, and computer-based simulations.
- HHP:1400 Human Anatomy and Physiology** 3 s.h.  
General human anatomy and physiology covering most systems of the body. GE: Natural Sciences without Lab.
- HHP:2020 Professional Branding: Preparing for Your Future** 2 s.h.  
Development and preparation for professional growth; focus on image as a brand; how to manage brand on social media, LinkedIn, and professional documentation; expansion of brand; preparation for experiential learning and job searching. Corequisites: HHP:2200.
- HHP:2130 Human Development Through the Life Span** 3 s.h.  
Overview of human developmental theories across the life-span; aspects of cognitive, physical, and personality development from birth to death; the role of culture, environment, health, and economic factors over the developmental process and life continuum.
- HHP:2148 Personal Training** 3 s.h.  
Essential aspects of personal training including theory and applied practice of screening, assessment, exercise prescription, and technique for development of safe and effective training programs for clients. Prerequisites: (HHP:1300 or HHP:1350) and HHP:2200.
- HHP:2200 Physical Activity and Health** 3 s.h.  
Physical activity determinants in society; school, workplace, community-based health promotion interventions to improve activity levels. GE: Values and Culture.
- HHP:2280 Cultural Competency in Health Promotion** 3 s.h.  
Examination of the importance of ethnic and cultural factors for community health practice; essential theories, models, and practices for working with race, ethnicity, gender, and social issues; topics may include demographics, disparities, complementary and alternative medicine, spiritually grounded approaches, multicultural populations, communication, workforce, aging, sexual orientation, and future challenges. GE: Diversity and Inclusion.
- HHP:2310 Nutrition and Health** 3 s.h.  
Physiology, biochemistry of human nutrition; appropriate food sources; qualitative and quantitative evaluation of diets using standard references. GE: Natural Sciences without Lab.
- HHP:2350 Biomechanics of Sport and Physical Activity** 3 s.h.  
Principles of biomechanics, kinesiology, and anatomy; quantitative aspects of sport and physical activity; emphasis on developing a qualitative grasp on mechanical principles of human movement within sports and physical activity; how to apply these principles in a sport/exercise environment. Prerequisites: HHP:1100 or HHP:1150.
- HHP:2500 Physical Activity Psychology** 3 s.h.  
Psychological theory and research related to sport and physical activity; motivation, aggression, attribution, socialization, competitive anxiety, leadership.
- HHP:3030 Lifestyle Medicine** 3 s.h.  
Overview of influences of lifestyle medicine on chronic disease treatment and prevention; understanding evidence-based lifestyle medicine factors on holistic well-being; development of communication skills to support behavioral and lifestyle medicine changes for treatment and prevention of chronic conditions. Prerequisites: HHP:2200 and HHP:2310. Same as INTD:3030.

**HHP:3050 Obesity: Causes, Consequences, Prevention, and Treatment** 3 s.h.

In-depth overview of biological, behavioral, and societal causes and consequences of obesity epidemic; potential solutions from primary and secondary prevention standpoints; causes of obesity, available treatments, and global impact that obesity epidemic presents to society. Prerequisites: HHP:2200 and HHP:2310.

**HHP:3060 Advanced Human Anatomy for Athletic Trainers** 4 s.h.

Extremities and relevant body cavity anatomy; anatomical terminology, anatomical relationships of human body, 3D view of anatomy, clinical relevance of anatomy; basic science lectures, radiologic imaging discussions, introduction to clinically relevant anatomy, dissection laboratories, small group learning and teaching, faculty interaction, and computer-assisted resources. Offered summer sessions. Prerequisites: HHP:1100.

**HHP:3105 Anatomy for Human Physiology** 3 s.h.

All major systems of the body are covered with focus on the normal structure of the human body; appropriate for preprofessional students planning on careers in the various health professions.

**HHP:3110 Advanced Anatomy Laboratory** 2 s.h.

Detailed gross anatomy of all major systems of the body; structure of the human body at organ, tissue, and cellular levels; examination of various human and other mammalian specimens. Prerequisites: HHP:3105.

**HHP:3115 Anatomy for Human Physiology with Lab** 5 s.h.

Covers all major systems of the body in a combined lecture and laboratory anatomy course; focus on normal structure of the human body; laboratory includes gross anatomy of some human structures and dissection of other mammalian specimen; appropriate for preprofessional students planning on careers in various health professions. Prerequisites: BIOL:1411.

**HHP:3150 Program Design in Strength and Conditioning** 3 s.h.

Examination of elements of program design for developing muscular fitness and skill related to fitness; applies to programming for individuals with whom a major goal of their physical activity program is to maximize human performance potential; these goals can either be for personal fitness, success in specific sports, or for applications in occupational athletes.

**HHP:3200 Health Behavior and Health Promotion** 3 s.h.

Principles of epidemiology and health behavior theories applied to multilevel frameworks for health promotion. Prerequisites: HHP:2200 and HHP:2310.

**HHP:3230 Psychopharmacology** 3 s.h.

How drugs act to influence behavior; general principles of drug action on the nervous system; licit and illicit drugs, use/abuse, historical perspective on drug use. Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) or (HHP:1300 with a minimum grade of C- or HHP:3500 with a minimum grade of C- or HHP:3550 with a minimum grade of C-). Same as PSY:3230.

**HHP:3300 Human Growth and Motor Development** 3 s.h.

Human growth and biological maturation; focus on motor development from birth through puberty. Recommendations: prior course in anatomy, human physiology, or biology.

**HHP:3400 Applied Exercise Physiology** 3 s.h.

Effects of acute exercise and chronic exercise training on different physiological systems (energy, neuromuscular, circulatory, respiratory, endocrine); overview of physiological principles necessary for more advanced study of fitness evaluation and exercise prescription; preparation for ACSM certification. Prerequisites: HHP:1300 or HHP:1350 or HHP:3500.

**HHP:3420 Practicum in Health Education and Outreach** 3 s.h.

Coursework and experiential learning with the Office of Student Wellness; practical experience in planning, implementing, and evaluating health programs; students spend at least 20 hours assisting with health outreach events, programs, and opportunities which may include staffing a table, assisting with group fitness assessments, or participating in health promotion-related opportunities; students also work on a team health project and plan their own health event; reflection on how health issues apply to students personally and to their communities; foundation of theories/models that guide health behavior change in college setting; papers, projects, outreach events, presentations. Prerequisites: HHP:2310 and HHP:2200.

**HHP:3430 Health Management and Administration** 3 s.h.

Introduction to management, administration, and leadership principles as they relate to health promotion programs. Prerequisites: HHP:3200 or HHP:4040.

**HHP:3440 Physical Activity Interventions** 3 s.h.

Development, implementation, evaluation of effective health communication interventions; identification of health education resources for targeted groups. Prerequisites: HHP:2310 and HHP:2200.

**HHP:3450 Immunology in Health and Disease** 3 s.h.

Overview of immunology, beginning at the molecular level and ending with the role of the immune system in disease; fundamental concepts of the immune system; innate and adaptive immunity, focusing on cell-mediated and humoral immune responses, in addition to effector mechanisms in both of these responses; concepts of immunologic tolerance; autoimmune disease; immunodeficiency syndromes; the inflammatory process in disease. Prerequisites: HHP:3500 or HHP:3550.

**HHP:3500 Human Physiology** 3 s.h.

Organ system approach to physiology in order to understand normal function of the human body from the submolecular and cellular levels to the whole organism; emphasis on the development of a mechanistic understanding of organ system function and integrated physiological function across systems to promote homeostatic regulation in the human body. Prerequisites: (HHP:1300 or BIOL:1141 or BIOL:1140 or BIOL:1411) and (CHEM:1070 or CHEM:1110).

**HHP:3550 Human Physiology with Laboratory** 5 s.h.

Mechanistic approach to understand organ system function and integrated function across systems as the basis for homeostatic regulation within the human body; experiential laboratory activities that incorporate fundamental measurements of human function and analysis, interpretation, and presentation of experimental findings. Prerequisites: (HHP:1300 or BIOL:1141 or BIOL:1140 or BIOL:1411) and (CHEM:1070 or CHEM:1110). Recommendations: one semester of human anatomy, and one semester of statistics or biostatistics.

- HHP:3555 Lab for Human Physiology** 2 s.h.  
 Experiential laboratory activities that incorporate fundamental measurements of human function and analysis, interpretation, and presentation of experimental findings. Prerequisites: HHP:3500. Recommendations: one semester of statistics or biostatistics.
- HHP:3820 Community Wellness Guided Practicum** 3 s.h.  
 Application of theory into practice to support skill development; students work with local worksites to deliver a wellness program, conduct a well-being assessment, develop and implement a behavior change intervention, deliver education, and evaluate outcomes in a professional context; utilization of skills in marketing, design, presentation, and cultivating connections.
- HHP:3850 Promoting Health Globally** 3 s.h.  
 Major global health threats in the United States and abroad; impact of culture, history, economics on health disparities; approaches, programs, policies to remedy them. Same as GHS:3850.
- HHP:3870 Motivational Interviewing for Health Professions** 3 s.h.  
 Theoretical foundations, empirical research support, and application of motivational interviewing; how people make changes with regard to health behaviors, how health professionals can support positive change, barriers to change process, empowerment and autonomy, intrinsic motivation, applications of motivational interviewing; theory and research; motivational interviewing for health behavior change; extensive applied practice of motivational interviewing techniques and group work to practice skills; discussion and application of techniques, research, and practical knowledge.
- HHP:3900 Writing for Health and Human Physiology** 3 s.h.  
 Effective written communication specific to health sciences; planning, drafting, revising, and peer-editing materials (e.g., personal statements, professional communications, general articles of interest, scientific papers); practicum experience.
- HHP:4010 Behavioral and Clinical Health Assessment Laboratory** 4 s.h.  
 Expected assessment skill set for health promotion professionals, including ability to assess and interpret blood pressure, lung function, blood lipids, and heart rate; health behavior measurement issues including how to use objective monitors, self report, interview, and web-based trackers to assess diet, physical activity, and sleep; general measurement and research concepts will be introduced and students will have laboratory practice in sphygmomanometry, spirometry, anthropometry, accelerometry, sleep tracking, computerized dietary assessments, and graded exercise testing. Prerequisites: HHP:2200 and HHP:2310 and (HHP:1100 or HHP:1150) and (HHP:1300 or HHP:1350).
- HHP:4020 Health Communication and Coaching Strategies** 3 s.h.  
 Science of health communication, including evidence-based development, strategic dissemination, and critical evaluation of relevant, accurate, accessible, and understandable health information communicated to individuals to advance their health; the art of health coaching including the processes that facilitate healthy, sustainable behavior change; health coaching strategies will include motivational interviewing, goal setting, and social support. Prerequisites: HHP:2200 and HHP:2310.
- HHP:4030 Policy, Environmental, and Social Determinants of Health** 3 s.h.  
 How health is determined by access to social and economic opportunities (e.g., quality of our schools, safety of neighborhoods, and quality of our social interactions); policy, environmental, and social factors that influence health; how collaboration among federal, state, and local-level partners can improve health; goals and objectives of Healthy People 2020 (U.S. Federal Health Promotion Planning Guide) will be used to frame course material. Prerequisites: HHP:2200 and HHP:2310.
- HHP:4040 Health Services: Current Barriers and Innovative Solutions** 3 s.h.  
 Barriers to quality health care access (e.g., lack of availability, high costs, lack of insurance coverage, health disparities); consequences of such barriers (e.g., unmet health needs, delays in care, lack of preventive services, preventable hospitalization); innovative solutions for improving access and quality of care (e.g., technologies and innovations, improving access to preventive health services, reducing costs); novel ways to improve access and quality of today's health care system. Prerequisites: HHP:2200 and HHP:2310.
- HHP:4110 Advanced Human Anatomy Laboratory** 4 s.h.  
 Regional dissection of the human body. Prerequisites: HHP:3110 or HHP:3115.
- HHP:4130 Skeletal Muscle Physiology** 3 s.h.  
 Skeletal muscle structure, contractile mechanisms, production of movement, biomechanical properties; adaptation to increased use, disuse, injury. Prerequisites: HHP:3500 or HHP:3550.
- HHP:4150 Clinical Exercise Physiology** 3 s.h.  
 Recent advances in exercise physiology for clinical populations; emphasis on acute and chronic responses to exercise in healthy aged adults and in patients with cardiac, vascular, pulmonary, and metabolic diseases; basic and intermediate electrocardiography (ECG), pathophysiology of disease process, clinical assessment of disease severity, diagnostic testing, acute exercise responses, and exercise rehabilitation. Prerequisites: HHP:3500 or HHP:3550 or HHP:3400. Recommendations: HHP:4460.
- HHP:4190 Scientific Basis of Training for Elite Performance** 3 s.h.  
 Application of scientific principles to goal of improving strength, speed, endurance, and overall human function; general overview of structure and function of muscular, nervous, cardiovascular, and respiratory systems; bioenergetics of exercise; endocrine response to exercise; biomechanics of resistance exercise; adaptations to anaerobic and aerobic training programs; age and sex related considerations on training; nutrition and ergogenic aids. Prerequisites: HHP:3500 or HHP:1300 or HHP:1350.
- HHP:4195 Exercise Programming for Special Populations** 3 s.h.  
 Measurement of health-related fitness and exercise capacity in special populations (e.g., children, older adults, obesity, orthopedic problems, cerebral palsy, intellectual disabilities). Prerequisites: HHP:3400 and (HHP:4200 or HHP:4210).

**HHP:4200 Metabolic Exercise Testing and Prescription 4 s.h.**

Basic techniques in physical fitness assessment, prescription of exercise for healthy and unhealthy adults, promotion of physical activity within communities; provides knowledge and skill competencies required for certification as American College of Sports Medicine health fitness instructor. Prerequisites: HHP:2200 and (HHP:3400 or HHP:3500 or HHP:3550). Requirements: health promotion, exercise science, or human physiology major.

**HHP:4210 Musculoskeletal Exercise Testing and Prescription 4 s.h.**

Educational and practical experience for designing resistance training and flexibility programs; competencies for certification with National Strength and Conditioning Association. Prerequisites: HHP:2200 and (HHP:3400 or HHP:3500 or HHP:3550). Requirements: health promotion, exercise science, or human physiology major.

**HHP:4220 Biomechanics of Human Motion 3 s.h.**

Application of the principles of mechanics to investigation of human motion in two dimensions; system modeling, force system and equilibrium analysis, particle and rigid body kinematics, Newton's and Euler's equations of motion, work-energy and impulse-momentum integral principles. Prerequisites: (HHP:1100 or HHP:1150 or HHP:3105 or HHP:3115) and (PHYS:1400 or PHYS:1511 or PHYS:1611 or HHP:2350).

**HHP:4230 Motor Learning: Theory and Application 3 s.h.**

How skilled motor behavior is acquired; behavioral changes that occur during skill acquisition; structural and physiological changes that occur in central nervous system; principles of training and practice that yield efficient and effective motor learning; how this information is helpful to health professionals involved in motor rehabilitation, physical educators and coaches, music instructors and musicians, strength and conditioning professionals, fitness professionals, and athletes, among others. Prerequisites: HHP:1300. Recommendations: familiarity with basic neuroscience (neurons, synaptic transmission, basic anatomical organization of sensory and motor systems).

**HHP:4250 Human Pathophysiology 3 s.h.**

In-depth study of human pathological processes and their effects on homeostasis; etiology, symptoms, and risk factors of various diseases; emphasis on major diseases impacting worldwide disability and death; how pathological processes are manifested and progress in the body. Prerequisites: HHP:3500 or HHP:3550.

**HHP:4260 Respiratory Pathophysiology 3 s.h.**

Structure and function of human respiratory system; focus on didactic and case study-based learning; control of breathing, gas exchange, lung mechanics, regulation of pulmonary blood flow, respiratory responses to stress; application of these physiological concepts to case studies of human disease. Prerequisites: HHP:1300 or HHP:1350 or HHP:3500 or HHP:3550. Recommendations: PHYS:1511, and MATH:1460 or MATH:1850.

**HHP:4300 Sensorimotor Neurophysiology 3 s.h.**

Neuroanatomical and neurophysiological bases of human motor control; role of sensory and motor structures in control of posture, locomotion, and upper limb movements. Prerequisites: HHP:3500 or HHP:3550. Requirements: anatomy or human physiology course.

**HHP:4310 Sport and Exercise Nutrition 3 s.h.**

Relationship between nutrition, fitness and sport performance; basic nutrition, physiology, chemistry, psychology, food preparation. Prerequisites: HHP:2200 and HHP:2310.

**HHP:4320 Nutrition Interventions 3 s.h.**

Strategies that assist in assessment and evaluation of nutrition behaviors of individuals and groups; interventions to meet nutritional needs of individuals and groups with a variety of health issues. Prerequisites: HHP:2200 and HHP:2310.

**HHP:4330 Physical Activity and Dietary Behavior Change 1,3 s.h.**

Major determinants (barriers and facilitators) of physical activity and dietary behaviors; evidence-based behavior change techniques; application of behavior change techniques to improve physical activity and dietary behaviors at individual and organizational levels. Prerequisites: HHP:3050.

**HHP:4350 Health and Human Physiology Practicum 1-3 s.h.**

Experience in planning and implementing programs in the areas of fitness, strength and conditioning, nutrition, clinical rehabilitation, or health promotion. Prerequisites: (HHP:1100 or HHP:1150) and HHP:2200 and HHP:2310 and (HHP:1300 or HHP:1350 or HHP:3500).

**HHP:4360 Practicum in Group Fitness Instruction 2 s.h.**

Opportunity to observe group-fitness instructors in an applied setting; help organize and execute a group-fitness class. Prerequisites: (HHP:4410 or HHP:3400) and HHP:2310 and (HHP:3500 or HHP:1300) and HHP:1100. Requirements: CPR/AED or Group Fitness Instructor (ACSM, ACE, AFAA) or specific fitness (yoga, indoor cycling, crossfit) certification.

**HHP:4365 Practicum in Health Coaching 3 s.h.**

Opportunity to develop and practice health coaching skills in an observed classroom setting; includes discussion, reviews of case studies, and role playing as health coaches; students dedicate seven-and-one-half hours per week in the community outreach laboratory, remotely (phone, Skype, text messaging) or in person, providing health coach services to referred patients and community members. Prerequisites: HHP:4020 or HHP:3030.

**HHP:4390 Understanding Human Disease 3 s.h.**

Introduction to process of human disease at cell, organ, and whole body level throughout the lifespan; pathophysiological changes occurring with disease, including risk factors, disease development, and overall effects of disease on the body; cancer, diabetes, obesity, cardiovascular, neurodegenerative diseases, and aging. Prerequisites: HHP:1300 or HHP:1350.

**HHP:4400 Health Promotion Clinical Practicum 1 s.h.**

Experience in planning and implementing clinical health promotion programs focusing on nutrition, physical fitness, cardiac rehabilitation, and respiratory rehabilitation. Prerequisites: HHP:3200 and (HHP:4200 or HHP:4010).

**HHP:4405 Health Promotion Community and Worksite Practicum 1 s.h.**

Planning and implementing community and worksite health promotion programs. Prerequisites: HHP:3200 and (HHP:4200 or HHP:4010).

**HHP:4410 Exercise Physiology 3 s.h.**

Mechanisms responsible for the acute and chronic effects of exercise on the different organ systems of the body. Offered fall semesters. Prerequisites: HHP:1300 or HHP:1350 or HHP:3500 or HHP:3550.

- HHP:4415 Exercise Science Practicum** 1 s.h.  
Experience in planning and implementing exercise programs related to physical fitness, including strength and conditioning in healthy and diseased/injured populations, and in elite athletes. Prerequisites: HHP:4200 and HHP:4210.
- HHP:4420 Planning and Evaluating Health Interventions** 3 s.h.  
Assessment, planning, implementation, and evaluation of health promotion programs. Prerequisites: HHP:3200.
- HHP:4440 Physiology of Nutrition** 3 s.h.  
Metabolic and biological aspects of human energy production, relationship to energy consumption; systems or integrative approach. Prerequisites: HHP:1300 or HHP:1350 or HHP:3500 or HHP:3550.
- HHP:4450 Human Genetics and Disease** 3-4 s.h.  
Fundamental concepts of human genetics including genome organization, expression of genes, and pedigree analysis; emphasis on role of genetics in human health and disease. Prerequisites: HHP:3500 or HHP:3550.
- HHP:4460 Cardiovascular Physiology** 3 s.h.  
Structure and function of cardiovascular system; heart, microcirculation, hemodynamics, regional circulation, reflex integration, regulation during physical stress. Prerequisites: HHP:3500 or HHP:3550. Recommendations: calculus and physics.
- HHP:4465 Environmental Exercise Physiology** 3 s.h.  
Study of physiological responses of the human organism to various forms of environmental stress at rest and during exercise; how physical performance is affected by environmental stressors such as heat, cold, altitude, microgravity, and hyperbaria. Prerequisites: HHP:3400 or HHP:3500 or HHP:3550.
- HHP:4470 Physiology of Aging** 3 s.h.  
Aging's effects on cells, tissues, and organs; how aging influences function of major body organ systems and the whole organism; physiological mechanisms that underlie age-related changes in body function and performance; integrative approach with focus on human aging. Prerequisites: HHP:3500 or HHP:3550. Same as ASP:4470.
- HHP:4490 International Medicine: Experiential Learning** 3 s.h.  
Experiential learning in select health care settings outside of the United States; for pre-health professional students.
- HHP:4500 Undergraduate Independent Study** arr.  
Library or laboratory research related to a specific topic in human physiology, normally culminating with a written manuscript; work directed by a faculty member.
- HHP:4510 Energetics in Health and Disease** 3 s.h.  
Comprehensive and molecular driven approach to: impairments in energy metabolism leading to obesity; type 2 diabetes and associated chronic diseases (e.g., cardiovascular diseases, cancer); and mechanisms by which exercise and calorie restriction regimens may prevent and/or reverse those impairments in skeletal muscle, adipose tissue, liver, and heart. Prerequisites: HHP:3500 or HHP:3550. Recommendations: HHP:4410 and BIOL:2723.
- HHP:4800 Research Methods and Ethics** 3 s.h.  
Introduction to concepts, principles, and methods of research; topics include research design, data collection, data analysis, and reporting research; students identify and formulate research questions, design appropriate research, collect data using different methods, conduct data analysis, present research findings, and critically critique research literature; main ethical issues and professional conduct in scientific research. Requirements: honors standing.
- HHP:4900 Honors Research** 3 s.h.  
Completion of honors research begun in HHP:4800; analysis of data, writing and oral presentation of honors thesis, work with an active research tenure-track faculty member in a laboratory; second of a two-semester sequence. Prerequisites: HHP:4800 with a minimum grade of B. Requirements: honors standing.
- HHP:4930 Health and Human Physiology Internship** 3-9,12 s.h.  
Directed practical field experience involving program planning, implementation, evaluation, and administration; varied areas such as fitness, wellness, nutrition, clinical, and strength and conditioning.
- HHP:5200 Epidemiology of Physical Activity** 3 s.h.  
Overview of epidemiological evidence on how physical activity, sedentary behavior, and sleep affect health outcomes including cardiovascular disease, diabetes, cancer, and obesity; emphasis on research design, interpretation of studies, selection of appropriate measurement tools, and translating scientific findings to recommendations/policies for health promotion and disease prevention.
- HHP:5300 Advanced Human Physiology** 3 s.h.  
Provides an advanced study of human physiology for students entering health related fields; mechanisms of body function will be presented at various levels ranging from cellular and molecular, to tissue and organ system levels, with emphasis on integration of the various systems. Offered spring semesters. Prerequisites: HHP:1100 and HHP:3500.
- HHP:5935 Clinical Exercise Physiology Internship** 1-6 s.h.  
Directed practical field experience; program planning, implementation, evaluation, and administrative procedures.
- HHP:6000 Research** arr.
- HHP:6010 Nonthesis Seminar** 2 s.h.  
For candidates for the M.S. without thesis. Offered spring semesters.
- HHP:6020 Advanced Research Methods and Ethics** 1-3 s.h.  
Introduction to concepts, principles, and methods of research; topics include research design, data collection, data analysis, and reporting research; students identify and formulate research questions, design appropriate research, collect data using different methods, conduct data analysis, present research findings, and critically critique research literature; main ethical issues and professional conduct in scientific research. Recommendations: concurrent enrollment in BIOS:5120 or STAT:6513.
- HHP:6030 Physical Activity and Dietary Behavior Change** 3 s.h.  
Major determinants (barriers and facilitators) of physical activity and dietary behaviors; evidence-based behavior change techniques; application of behavior change techniques to improve physical activity and dietary behaviors at the individual and organizational levels.

**HHP:6050 Advanced Topics in Obesity 3 s.h.**

In-depth overview of biological, behavioral, and societal causes and consequences of obesity epidemic; potential solutions from primary and secondary prevention standpoints; causes of obesity, available treatments, and global impact that obesity epidemic presents to society.

**HHP:6100 Health and Human Physiology Seminar 0 s.h.**

Biweekly forum for research presentations by health and human physiology faculty and graduate students, and by invited guest speakers; attended by health and human physiology faculty and students, and by faculty and guests from other departments and programs on campus.

**HHP:6130 Advanced Skeletal Muscle Physiology 1,3 s.h.**

Skeletal muscle structure, contractile mechanisms, production of movement, biomechanical properties; adaptation to increased use, disuse, injury. Prerequisites: HHP:3500.

**HHP:6150 Advanced Clinical Exercise Physiology 1,3 s.h.**

Recent advances in exercise physiology for clinical populations; emphasis on acute and chronic responses to exercise in healthy aged adults and in patients with cardiac, vascular, pulmonary, and metabolic diseases; basic and intermediate electrocardiography (ECG), pathophysiology of disease process, clinical assessment of disease severity, diagnostic testing, acute exercise responses, and exercise rehabilitation. Prerequisites: HHP:3500. Recommendations: HHP:4460.

**HHP:6200 Advanced Metabolic Exercise Testing and Prescription 1,4 s.h.**

Basic techniques in physical fitness assessment; prescription of exercise for healthy and unhealthy adults; promotion of physical activity within communities; knowledge and skill competencies required for certification as American College of Sports Medicine health fitness instructor. Prerequisites: HHP:2200 and (HHP:1300 or HHP:3500).

**HHP:6260 Advanced Respiratory Pathophysiology 1,3 s.h.**

Complements HHP:4260; structure and function of human respiratory system; focus on didactic and case study based learning; control of breathing, gas exchange, lung mechanics, regulation of pulmonary blood flow, and respiratory responses to stress; application of these physiological concepts to case studies of human disease. Prerequisites: HHP:3500. Corequisites: HHP:4260.

**HHP:6300 Motor Control Seminar 1 s.h.**

Current topics in neural control of movement, biomechanics, and rehabilitation sciences.

**HHP:6310 Advanced Sport and Exercise Nutrition 3 s.h.**

Relationship between nutrition and dietetics and sport and exercise performance; application of nutrition, dietetics, physiology, chemistry, psychology, and food preparation to sport and exercise training and performance. Requirements: M.C.N. graduate standing.

**HHP:6400 Integrative Physiology Seminar 1 s.h.**

Current topics in cardiovascular physiology, vascular biology, free radical biology.

**HHP:6410 Advanced Exercise Physiology 1,3 s.h.**

Mechanisms responsible for acute and chronic effects of exercise on different organ systems of the body. Offered fall semesters. Prerequisites: HHP:1300 or HHP:3500.

**HHP:6460 Advanced Cardiovascular Physiology 1,3 s.h.**

Structure and function of cardiovascular system; heart, microcirculation, hemodynamics, regional circulation, reflex integration, and regulation during physical stress. Prerequisites: HHP:3500. Recommendations: calculus and physics.

**HHP:6470 Advanced Physiology of Aging 1,3 s.h.**

Effects of aging on cells, tissues, and organs; how aging influences function of major body organ systems and the whole organism; physiological mechanisms that underlie age-related changes in body function and performance; integrative approach with focus on human aging. Prerequisites: HHP:1100 and HHP:3500.

**HHP:6480 Advanced Human Pharmacology 1,3 s.h.**

General pharmacology (administration, distribution, elimination of drugs, dose response curves, adverse effects, placebos, homeopathy); pharmacotherapy of selected human diseases, pathophysiological aspects of disease, how different classes of drugs modify pathophysiological effects to restore health or reduce impact of disease; focus on mechanisms of drug actions in humans; adverse effects, pharmacokinetic considerations, drug interactions; how to write prescriptions. Prerequisites: HHP:3500.

**HHP:6500 Seminar in Health Promotion 1 s.h.**

Peer and faculty response to graduate student work addressing health promotion, physical activity and health outcomes, clinical exercise physiology; review and critique current literature; presentation of published work or in-process projects; critical thinking, scientific writing, and oral communication skill development pertaining to health promotion.

**HHP:6510 Advanced Energetics in Health and Disease 1,3 s.h.**

Discussions of recent published, and/or seminal, state-of-the-art papers on energy metabolism related to exercise and diet interventions in context of obesity, diabetes, cardiovascular diseases, and cancer. Prerequisites: HHP:3500. Recommendations: HHP:4410 and BIOL:2723.

**HHP:7000 Practicum in College Teaching arr.****HHP:7300 Advanced Sensorimotor Neurophysiology 1,3 s.h.**

Neuroanatomical and neurophysiological bases of human motor control; mechanisms for locomotion and posture, control of arm and hand movements, role of sensory information. Prerequisites: HHP:3500 or HHP:3550. Requirements: anatomy or human physiology course.

**HHP:7500 Thesis: M.S. 0-4 s.h.****HHP:7900 Thesis: Ph.D. arr.**

## Sport and Recreation Management Courses

**SRM:1000 First-Year Seminar 1 s.h.**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, readings, visits to research facilities).

**SRM:1045 Diversity and Inclusion in Healthy Living****3 s.h.**

Personal health strategies; information and empowerment; application-based work, including creating a family health pedigree or individual health portfolio; discussion of current health ethics topics; subjects may include nutrition, sleep, stress, physical fitness, relationships, injury prevention, prenatal health, vaccination, cancer, infectious diseases, global health, and more. GE: Diversity and Inclusion.

**SRM:1046 Health for Happiness****3 s.h.**

Recent research has discovered fundamental elements and mechanisms of human happiness and well-being; students review these discoveries in the fields of positive psychology, positive neurobiology, system theory, economics of happiness, and history; practical learning experiences that apply these findings to everyday student life; hands-on ways to improve both subjective well-being and individual character strengths and virtues.

**SRM:1060 Contemporary Issues in Sports****3 s.h.**

Basic philosophical, historical, scientific foundations and developments; function, settings of organized recreation.

**SRM:1072 Leisure and the Liberal Arts****3 s.h.**

Integration of the ideal of a liberal education with worthy, meaningful use of free time in contemporary society; classic writings in the humanities. GE: Values and Culture.

**SRM:1085 Introduction to Travel and Tourism****3 s.h.**

Nature, scope, and significance of fields of travel and tourism: their histories, theories and philosophies, current trends, issues and challenges; critical analysis of current travel and tourism practices; green alternatives that are more sustainable and in keeping with values the field of leisure studies has long placed on active participation and local, community development.

**SRM:2065 The Experience Economy****3 s.h.**

Introduction to emerging experience economy; just as manufacturing sector of economy supersedes agriculture and service economy supersedes manufacturing, how experience economy is now gaining ascendancy as the last, best hope for future economic growth; critical analysis of experience economy with discussion of ways in which experience economy may offer green, moral, and humane alternatives to previous stages of economic development; new opportunities for travel and tourism, sports settings, recreation and wellness services, possible applications in education and helping professions.

**SRM:3020 Nutrition in Health and Performance****3 s.h.**

Effects of exercise and nutrition on health- and sports-related fitness; for professionals in health and physical education. Same as INTD:3027.

**SRM:3146 Sports Officiating: Rules, Theories, and Issues****3 s.h.**

Fundamental principles of officiating sports at all levels; supervision and management of officials for sport and recreation administrators; rules and mechanics of sports officiating, general qualifications to be a sports official, philosophy of officiating, teaching and evaluation methods for officials, and application of principles through officiating intramural sports.

**SRM:3147 Sport Event Management****3 s.h.**

Current status, challenges, and opportunities in sporting event industry; sporting event planning, budgeting, marketing, sponsorship, and evaluation; development of event timelines and event management skills; introduction to networking and interaction with sporting events. Recommendations: SRM:3154.

**SRM:3148 Interscholastic Activities and Athletics Administration****3 s.h.**

Survey of activities administration foundations including philosophy, leadership, professional programs and activities administration principles, strategies and methods; understanding of the techniques and theory of coaching concepts and strategies for interscholastic budget and concepts and strategies for interscholastic fundraising; basics of assessment and evaluation of interscholastic athletic programs and personnel, dealing with challenging personalities, and administration of professional growth programs for interscholastic personnel.

**SRM:3149 Coaching Theory, Body Structure, and Human Development****3 s.h.**

Comprehensive introduction to the coaching profession and obtaining a coaching license in the state of Iowa; ethics, licensing, and body development.

**SRM:3150 Recreation Administration****3 s.h.**

Personnel, finance, budgets, liability, marketing.

**SRM:3151 Liability in Sport and Recreation****3 s.h.**

The legal system shapes the way sport and recreation professionals at every level perform their jobs, and a basic understanding of the law and its impact on sport and recreation industry can help practitioners operate in a legally compliant manner, seek appropriate legal counsel when necessary, and reduce potential organizational and individual liability; exploration of tort law, constitutional law, statutory law, and contract law as applied to sport and recreation industry, and risk management process; students develop the ability to identify and analyze legal issues and how the law affects the sport and recreation industry.

**SRM:3152 Design and Management of Sport and Recreation Facilities****3 s.h.**

Facilities management, personnel assignment and evaluation, fee structures, maintenance, programming, compliance with regulations and standards. Requirements: must have 30 s.h. completed.

**SRM:3153 Sport Business Practices****3 s.h.**

Business of professional and intercollegiate athletics including league, team, and player-level issues; revenue generation and distribution; competitive balance issues; sport league structure strategies; business behind intercollegiate athletics and challenges facing NCAA structure; negotiation. Requirements: must have 30 s.h. completed.

**SRM:3154 Foundations of Event Management****3 s.h.**

Large, major special events, professional meetings, and conferences; development and planning, implementation of events, management and evaluation of events; development requirements of planning events, development strategies, budgeting, staffing requirements, resource allocation, site planning, basic risk management requirements, emergency procedures; event implementation policy and procedures; relationship to elements within development stages; event management and evaluation procedures.

**SRM:3155 Prevention and Care of Athletic Injuries for Coaches** 3 s.h.

Comprehensive introduction to the sports world in relation to obtaining a coaching license in the state of Iowa in regards to first aid, injury prevention, and care.

**SRM:3157 Managerial Operations in Sport and Recreation** 3 s.h.

Introduction to the operation of a private or nonprofit sport-related business.

**SRM:3158 Sport and Recreation Promotion** 3 s.h.

Foundations and principles of recreation sport promotion and sales operation; application of foundations and principles to sport and recreation industries; historical aspects; current and future trends of sport and recreation management as it relates to sales and promotions; sales management, marketing, financial/economic, legal, and ethical principles related to sport management. Requirements: must have 30 s.h. completed.

**SRM:3172 Finance in Sport and Recreation** 3 s.h.

Capital funding and revenue acquisition for funding public and private sport and leisure service organizations; contemporary sport and leisure service; financial and economic issues. Requirements: 30 s.h. completed.

**SRM:3175 Sales in Sport** 3 s.h.

Fundamentals of business development and sales management; incentivizing sports consumers, direct and indirect sales strategies, brand communications, atmospherics, technology in sports sales, ticket sales, licensing products, negotiating sports sponsorships, and brand building. Recommendations: health and human physiology major.

**SRM:3176 Sports Analytics for Coaches, Managers, and Other Decision Makers** 3 s.h.

Data management, analytic models, and information systems; how sports analytics are used to make decisions for structuring athletic departments, develop in-game competitive strategies, and improve player performance; analytic examples applied to professional sports, college sports, high school sports, and fantasy sports; experience with statistics or computer science not required.

**SRM:3178 Communications and Public Relations in Sports** 3 s.h.

How public relations is used to promote service products, demonstrate social responsibility, and communicate with consumers and investors; campaigns, customer service, legal and ethical considerations in promoting service products, media events, information services, public relations in strategic management, atmospherics, critical service moment, social media. Recommendations: health and human physiology major.

**SRM:3200 Topics in Sport and Recreation Management** 3 s.h.

Exploration of various issues shaping the future of sport and recreation industries; in-depth focus on a specific topic within sport or recreation utilizing the expertise of the instructor.

**SRM:3210 Event Bidding: Processes and Strategies** 3 s.h.

Event rights holders—such as the International Olympic Committee (IOC) and the National Collegiate Athletic Association (NCAA)—use a competitive bid process to select a location, venue, and host committee to plan and execute their sport events; non-sport organizations also use the bidding process to select hosts for exhibitions, conferences, and workshops; students learn the processes and strategies used by event rights holders and event hosts in event bidding process.

**SRM:3300 Writing for Sport and Recreation Managers** 3 s.h.

Students discover their unique writing style and routine; areas of weakness in writing process; necessary tools to become more efficient, clear, and effective writers; discussion, practice, and review of important writing skills; writing skills of diverse professional situations; proper mechanics of persuasive, informative, and factual writing; styles applied to document formats (e.g., press releases, résumés, cover letters, emails, memos, marketing messages, interviews, crisis management); guest speakers provide unique expertise and insight; student-centered, workshop format.

**SRM:3700 Ethics in Sport** 3 s.h.

Ethical development and decision making processes in the sport and recreation industry including personal development, educational focused programming, and other types of ethics-based program development.

**SRM:3800 Sport Law for Interscholastic Athletic Directors** 3 s.h.

Part of the Interscholastic Athletic Director certificate; content includes sport unintentional torts, intentional torts, constitution, legislation, and risk management.

**SRM:4190 Preinternship** 0-1 s.h.

Orientation to internship process. Requirements: sport and recreation management major.

**SRM:4194 Honors Readings** arr.**SRM:4195 Honors Problems** arr.**SRM:4196 Interscholastic Athletic Administration Field Experience** 1-9 s.h.

Students complete 360 contact hours of practical experience with private or nonprofit recreation or sport-related enterprise; supervision by an agency mentor and a university representative.

**SRM:4197 Sport and Recreation Field Experience** arr.

Educational opportunity involving a small group of students in a unique sport business experience; students serve as consultants for a sport or recreation organization; in-class preparation prior to off-campus work with designated agency; sport or recreation enterprise vary according to faculty expertise and agency availability.

**SRM:4198 NCAA Rules Compliance and Enforcement** 3 s.h.

Rules that govern NCAA athletics, rules compliance function on campuses of member institutions, and enforcement of rules by NCAA; essential legislation in NCAA Manual, including bylaws covering recruiting, eligibility, and amateurism; history of NCAA as related to organization's current structure and activities; summer session capstone experience includes attendance at NCAA Regional Rules Seminar in Indiana and participation in educational sessions conducted by NCAA staff.

**SRM:4199 Independent Sport and Recreation Field Experience** **arr.**

Educational opportunity involving an independent study of students in a unique sport business experience; students serve as consultants for a sport or recreation organization; in-class preparation prior to off-campus work with designated agency; sport or recreation enterprise varies according to faculty expertise and agency availability.

**SRM:5065 The Economy of Experience** **3 s.h.**

In-depth analysis of emerging experience economy; just as manufacturing sector of economy supersedes agriculture and service economy supersedes manufacturing, how experience economy is gaining ascendancy as the last, best hope for future economic growth; exploration of current research in positive psychology and sociologist findings on evolution of post-materialist values as related to experience economy; evaluation of current trends; critical analysis and theory development; case studies; original research and investigation of novel marketing possibilities and experience design.

**SRM:6251 Risk Management** **3 s.h.**

Legal knowledge necessary for effective management of sport, recreation, and physical activity programs, avoidance of legal problems; strategies for addressing issues such as right to participate, liability for injuries, risk management; legal statutes that govern sport, health, recreation organizations.

**SRM:6252 Economics and Financing** **3 s.h.**

Economic issues for sport/leisure services in nonprofit, private/commercial, and public sectors; strategic financial analysis for the nonfinancial manager; principles, issues in financing sport/leisure organizations.

**SRM:6253 Sport Administration** **3 s.h.**

Overview of various segments that constitutes the role and function of a sport administrator (i.e., planning, organizing, leading, controlling); focus on ways in which sport administrators and their subsequent organizations influence and are influenced by the link between sport and globalization; sport administration encompassing services provided within an organizational context; administration viewed as the coordination of production and distribution of those services.

**SRM:6254 Marketing and Sport Promotion** **3 s.h.**

Overview of varied segments that constitutes sports business practice, including marketing, data-based marketing, sales, promotion, sponsorship; varied segments that make up the sport industry, including the mass media, infrastructure, stadium building, consumer behavior; readings and discussions consider the development and structure of each segment, interactions between segments, planning, policy implications; focus on the United States, professional team sports, comparisons to other sports.

**SRM:6255 Capstone Project** **3 s.h.**

Development of a project applying expertise acquired through required coursework to an area of interest fitting student's career ambitions; includes final presentation to a faculty committee and written paper to support the presentation. Prerequisites: SRM:5065 and SRM:6251 and SRM:6252 and SRM:6253 and SRM:6254.

**Therapeutic Recreation Courses****TR:1000 First-Year Seminar** **1 s.h.**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, readings, visits to research facilities).

**TR:1061 Recreation Leadership and Programming** **3 s.h.**

Leadership principles, techniques; programming techniques.

**TR:1070 Perspectives on Leisure and Play** **3 s.h.**

Relationships between leisure and economics, sociology, other social sciences; effect of leisure on individual and group behavior; antecedents, motives, consequences of leisure behavior. GE: Social Sciences.

**TR:1077 Introduction to Child Life** **3 s.h.**

Orientation to the field of child life services including services for hospitalized children and their families.

**TR:1800 Aging Matters: Introduction to Gerontology** **3 s.h.**

Overview of the field of gerontology from a bio-psycho-social framework; how the human body and brain age, effects of these biological changes on physical and cognitive functions, and interaction of these individual factors with societal contexts; broad perspective to give students a foundation in gerontology, paving the way for more advanced courses in biology of aging, psychology of aging, and global aging; for students from a wide range of disciplines and levels, no prior knowledge of aging required. GE: Social Sciences. Same as ASP:1800, CSD:1800, NURS:1800, SSW:1800.

**TR:2061 Recreation Leadership and Programming** **3 s.h.**

Leadership principles, techniques; programming techniques.

**TR:3160 Introduction to Therapeutic Recreation** **3 s.h.**

Lifestyles and barriers faced by persons with disabilities; basic aspects of the therapeutic recreation profession; skills used to establish therapeutic relationship; techniques used with patients; theoretical and conceptual bases for practice.

**TR:3161 Assessment and Evaluation in Therapeutic Recreation** **3 s.h.**

Basic assessment psychometrics (e.g., reliability), standardized instrumentation and data collection (e.g., observation, self-report), construction of instruments, data reduction. Prerequisites: TR:3160.

**TR:3162 Therapeutic Recreation: Clientele** **3 s.h.**

Developmental patterns of special populations; examination of specific interventions and research applied to specific cognitive, emotional, and physical impairments.

**TR:3163 Concepts and Issues in Therapeutic Recreation: Advancement of the Profession** **3 s.h.**

Ethical, professional, and theoretical issues in delivery of therapeutic recreation services; impact of legislation, standards of practice, health care reform; application of research to practice and marketing services. Prerequisites: TR:3160.

**TR:3164 Therapeutic Recreation: Rehabilitation** **3 s.h.**

In-depth review of therapeutic recreation techniques used in clinical and community rehabilitation; opportunities to use techniques with patients. Prerequisites: TR:3160.

**TR:3171 Child Life Practical Application** **3 s.h.**

Overview of medical conditions and treatments commonly encountered by children and adolescents in health care settings; common pediatric sedation medications; sequence of medical procedures to understand how to provide procedural preparation and support; facilitate medical play with pediatric population.

**TR:3174 Cultural Perspectives in Health Care** **3 s.h.**

Health care beliefs related to various cultures and religions; focus on illness, hospitalization, treatment, death.

- TR:3261 Inclusive Recreation** 3 s.h.  
Laws pertaining to access to recreation and leisure opportunities for disabled persons in a community; evaluation of physical access to built environment; how social construction of disability can be a barrier to integrated leisure involvement; practical aspects of how to include disabled persons in community recreation and sport activities.
- TR:3262 Therapeutic Recreation Administration** 3 s.h.  
Examination of the organization and administration of therapeutic recreation services; focus on planning, organizing, and managing therapeutic recreation services; comprehensive and strategic planning, funding, marketing, legal and legislative issues, personnel management, and professional practice of therapeutic recreation. Prerequisites: TR:3160.
- TR:3281 Special Projects in Child Life Practice** 2 s.h.  
Student directed and student led hospital camping experience for patients at the University of Iowa Children's Hospital; planning and preparing for a large function, planning and leading therapeutic activities, working directly with patients and their families, processing and discussion of experiences and concerns; practical and clinical-based experiences for students interested in working with pediatric population in health care setting. Requirements: hospital orientation, patient confidentiality (HIPAA) training, and health screening.
- TR:4169 Child Life Experience** 1 s.h.  
Practical experience with ill children, including a trip to the Give Kids the World village in Florida; documentation and engagement of course materials, experience working with ill children; students are assigned a specific diagnosis and present the diagnosis (appropriate statistics, effects of hospitalization, treatment, etc.) on child and family; coping strategies, appropriate methods of talking to and interacting with children and families, overview of child life in hospitals.
- TR:4190 Preinternship Seminar** 1 s.h.  
Interviewing skills, résumés and cover letters, selection of internship site(s), application procedures for internship positions, and responsibilities of interns to the agency.
- TR:4191 Therapeutic Recreation Internship** arr.  
Practical field experience; direct leadership, program planning, administrative procedures. Prerequisites: TR:4190. Requirements: overall g.p.a. of 2.00 and major g.p.a. of 2.00.
- TR:4193 Independent Study** arr.  
Problem in a specific area.
- TR:4194 Honors Readings** arr.  
Independent reading or research project under faculty supervision usually leading to an honors paper. Requirements: admission to honors program.
- TR:4195 Honors Problems** arr.  
Completion of a project over and above normal independent study as an honors project; major research effort involving close work with an advisor.
- TR:4197 Practicum in Therapeutic Recreation** 1-3 s.h.  
Educational opportunity in inclusive and therapeutic recreation professional settings; development of skills, techniques, and proficiencies under guidance of experienced professionals and academic supervisors; students gain experience with various populations and differing abilities; academic research, in-class preparation, and off-campus work with designated agency.
- TR:5165 Child Life: Child Development and Healthcare Interventions** 3 s.h.  
Application of typical growth and development content, including theoretical content for children and adolescents (birth to 18 years old); theories of cognitive development, psycho-social development, and attachment applied to essential healthcare interventions unique to child life practice; history of child life profession and scope of practice; application of developmental perspectives to intervention (e.g., education, healthcare play, support and coping interventions, pain management, bereavement).
- TR:5166 Child Life: Seminar** 3 s.h.  
Students utilize official documents of the Association of Child Life Professionals (ACLP) and evidenced-based practice to understand current issues and research in child life as well as the expanding scope of service; cultural issues and impact of care for children and families; need for understanding of cultural diversity in a variety of settings; meets the six requirements of a child life course taught by a Certified Child Life Specialist (CCLS) for the ACLP including professional scope of practice in child life, impact of illness and hospitalizations of children and families, patient and family-centered care, therapeutic play, and preparation.
- TR:5167 Child Life Practicum** 1-3 s.h.  
Observational experience with children and families in hospitals and other community settings to understand the scope of practice for child life; development of basic clinical skills in child life; opportunities to observe the integration of theories with practice and understand the impact of illness, injury, and health care on patients and families; integration of therapeutic play and preparation for children; academic requirements in addition to clinical observation hours under supervision of a Certified Child Life Specialist in hospital, outpatient, rehabilitation, camp, or bereavement setting.
- TR:5205 Research Methods and Play Behavior** 3 s.h.  
The scientific process: research designs for experiments and surveys, questionnaire construction, sampling theory, basic data analysis.
- TR:5211 Professional Ethics and Practice in Pediatrics** 3 s.h.  
Examination of core issues in clinical pediatrics; beginning life critical care, end-of-life care, role of medical technology, public health research pertinent to children, and maintaining professional boundaries. Prerequisites: TR:1077.
- TR:5212 Child Life Research Problems** arr.  
Work one-to-one with a faculty member on a mentored research project pertaining to child life, play, and development, or an appropriate special topic agreed upon by student and faculty member. Prerequisites: TR:5205. Requirements: acceptance to M.S. program in health and human physiology child life track.
- TR:5260 Play and Childhood** arr.  
Multiple levels of theories and current research on importance of play in child development; advocacy for importance and necessity of play in childhood that leads to well-being and healthy lifestyles; practical and theoretically based experiences; for students interested in working with children in health care, clinical, school, community, and family life settings.
- TR:5261 Family Systems** 3 s.h.  
Examination of dynamics of family life as a social system from a historical, sociocultural, and theoretical perspective; approaches to working with diverse children and families facing life stresses; interactive format, incorporates experiential learning, classroom lecture, and discussion.

**TR:5270 Child Life Internship 4-5,9,12 s.h.**

Child life student interns complete a minimum 15-week, 600-hour field experience under supervision of a Certified Child Life Specialist to meet certification requirements of the Association of Child Life Professionals; students are required to complete academic coursework in addition to clinical requirements. Prerequisites: TR:5165 and TR:5166 and TR:5167 and TR:5205 and TR:5211 and TR:5260 and TR:5261.

**TR:6200 Child Life Graduate Forum 0 s.h.**

Informational sessions, networking, review of research scholarship, resources, and joint collaboration for first- and second-year child life graduate students. Requirements: enrollment in Department of Health and Human Physiology M.S. child life track.

## Health and Physical Activity Skills Courses

**HPAS:1001 Alcohol and Your College Experience 1 s.h.**

Patterns of alcohol, drug use focused on college years; strategies for monitoring use, behavioral change plans for implementing lower-risk drinking practices; for drinkers and non-drinkers.

**HPAS:1002 Vaping, Tobacco Use, and Your College Experience 1 s.h.**

Current behavior change theories related to tobacco use and cessation; vaping, nicotine replacement therapies (NRT), and non-NRT methods; triggers, relapse prevention, cognitive behavioral skills, and support systems; for smokers and nonsmokers.

**HPAS:1003 Resiliency and Your College Experience 2 s.h.**

Resiliency and psychological hardiness theories relevant to college life; resiliency and ability to cope with challenges; components of psychological fitness; skills for personal growth and emotional well-being.

**HPAS:1004 Food and Your College Experience 2 s.h.**

Sociocultural perspective on the forces that facilitate low-quality diets, particularly during young adulthood; basic components of nutrition; opportunity to develop and personalize healthy eating skills.

**HPAS:1005 Indoor Group Cycling 1 s.h.**

Introduction to group cycling; bike setup, safety, proper technique, injury prevention, and utilization of interval training.

**HPAS:1006 Intuitive Eating 1 s.h.**

How to create and sustain a healthy relationship with mind, body, food, and exercise using an evidence-based approach; introduction to 10 basic principles of intuitive eating, taking a critical look at dieting and a healthful approach to satisfying eating balanced with exercise.

**HPAS:1007 Basic CPR 1 s.h.**

Basic, beginner-level information on CPR procedures; passing the course leads to certification in CPR; more advanced certifications may be sought for medical professionals.

**HPAS:1008 Basic First Aid 1 s.h.**

Basic, beginner-level information on first aid procedures; leads to certification in first aid; more advanced certifications may be needed for medical professionals.

**HPAS:1009 Personal Fitness: Theory and Practice 2 s.h.**

Introduction to dimensions of wellness with focus on health-related components of physical fitness; varied health and wellness topics; emphasis on engaging in physical activity to create a sustainable lifelong habit; theory, practice, physical activity; application of materials and exercise; prior physical activity or exercise experience not required.

**HPAS:1010 Introduction to Workout Design 1 s.h.**

Introduction to personal workout programming and design; includes sections on cardiovascular fitness, muscular strength and endurance, and flexibility.

**HPAS:1020 Core Strengthening 1 s.h.**

Introduction to developing strength, flexibility, and endurance through the core; students will learn what the core is, how to best develop the muscles of the core, and why core training is important.

**HPAS:1030 Cardio Training 1 s.h.**

Beginner's guide to cardio fitness to develop and maintain levels of cardiovascular health and fitness.

**HPAS:1040 Pilates I 1 s.h.**

Introduction to the study and practice of Pilates for beginners; topics include proper breathing techniques, flexibility, balance, relaxation, and Pilates exercises.

**HPAS:1045 Pilates II: Intermediate Pilates 1 s.h.**

Study and practice of Pilates; intermediate and advanced Pilates moves; modifications and use of props based on current ability level; musculoskeletal anatomy and biomechanics as related to Pilates. Prerequisites: HPAS:1040.

**HPAS:1055 Introduction to Triathlon Training 1 s.h.**

Introduction to the sport of triathlon; promote skill development to enable beginner level students to complete an indoor sprint triathlon; students will swim in an indoor pool, cycle on indoor bicycles and run inside and outside weather permitting; how to use basic periodization, improve technique, and nutritional guidelines for triathlon; beginning training for the outdoor triathlon season. Requirements: ability to swim 200 yards (4 laps) without stopping.

**HPAS:1060 High Intensity Interval Training 1 s.h.**

Increased fitness levels through principles of resistance training using a high-intensity interval training (HIIT) method; various types of resistance (free weights, rubber bands, partner resistance, and body weight resistance); topics include muscular anatomy, principles of resistance training, various resistance training exercises, safety, motivation and goal setting, and personal program design.

**HPAS:1070 Introduction to Weight Training 1 s.h.**

Introduction to basic principles of weight training using barbells and dumbbells as resistance; muscular anatomy, principles of weight training, muscular strength, muscular endurance, weight room safety, motivation and goal setting, personal program development; no prior weight training experience required.

**HPAS:1075 Weight Training II 1 s.h.**

Builds on skills and concepts acquired in HPAS:1070; advanced weight training programs aimed at developing muscular strength and endurance. Prerequisites: HPAS:1070. Recommendations: knowledge of basic anatomy, ability to demonstrate proper lifting techniques, and understanding of weight training principles.

- HPAS:1080 Olympic Weightlifting** 1 s.h.  
Beginning-level introduction to classical Olympic weightlifting movements leading up to the snatch, clean and jerk, power snatch, and power clean. Recommendations: HPAS:1070 and/or an understanding of weight training fundamentals and basics.
- HPAS:1090 Sports Skills and Drills** 1 s.h.  
Develop and practice basic skills and game strategy for an array of team sports; participate in a variety of educational and competitive physical activities that may include flag football, soccer, basketball, tennis, pickleball, and racquetball.
- HPAS:1100 Kettlebell Training** 1 s.h.  
Introduction to basic principles and benefits of using kettlebells for strength, power, mobility, weight loss, and more; topics include history, mobility drills, foundational movements (e.g., deadlift, swing, clean, press, Turkish Get Up, high pull, snatch), safety, goal-setting, and personal program development.
- HPAS:1110 Fitness Walking** 1 s.h.  
Walking as a means to improve cardiovascular health and fitness; utilizes outdoor walking, weather permitting, or the indoor track.
- HPAS:1130 5K Training** 1 s.h.
- HPAS:1140 PE Games** 1 s.h.  
Participation in and design of physical activity games and skills; students improve physical health through cardio endurance and resistance training during game play; games and variations of games may consist of basketball, dodgeball, tag, volleyball, and other physical activities; how to be physically active and healthy while having fun; physiological responses to physical activity.
- HPAS:1150 Introduction to Health and Wellness** 1 s.h.  
Optimal physical health and wellness in the college years; focus on behavioral change and goal setting, five components of fitness, dimensions of wellness, and stress management.
- HPAS:1210 Stress Management** 1 s.h.  
How to define the sources of underlying stress, learn to cope with everyday stressors, and become more proactive through life skill management.
- HPAS:1220 Flexibility** 1 s.h.  
Help students move through full range of motion, work to correct imbalances, and ultimately move better through activities of daily living.
- HPAS:1230 Hatha Yoga** 1 s.h.  
Introduction to the study and practice of yoga; geared towards beginners.
- HPAS:1235 Hatha Yoga II: Intermediate Hatha Yoga** 1 s.h.  
Study and practice of Hatha Yoga; topics may include history and philosophy of Hatha Yoga, props and modifications, and biomechanics and anatomy as it relates to yoga. Prerequisites: HPAS:1230.
- HPAS:1240 Power Yoga** 1 s.h.  
Build strength, flexibility, and balance while maintaining traditional yoga emphasis of breath and intention; breath and movement are linked as you flow in and out of a combination of vinyasas (yoga sequences) and balancing poses; topics include proper breathing techniques, sun salutations, arm balances, backbends, and inversions. Requirements: basic understanding and background in yoga; a 6-week yoga practice is recommended.
- HPAS:1250 Tai Chi** 1 s.h.  
Introduction to the practice of tai chi; basic structure, footwork, and breathing involved in execution of routines consisting of a variety of postures; application of this knowledge to a self-defense situation.
- HPAS:1260 Movement for Injury Prevention** 1 s.h.  
Introduction to basic self-care and movement recommendations for injury prevention, efficient movement, and health; topics include posture and movement correction and form, optimization of daily movement patterns, and self-care principles; prior exercise experience not required.
- HPAS:1320 Lap Swimming I** 1 s.h.  
Introduction to swim stroke development utilizing swimming as a form of exercise; this is not a learn-to-swim class and a basic prerequisite swimming test will be performed prior to instruction.
- HPAS:1325 Lap Swimming II** 1 s.h.  
Advanced technique refinement course geared towards students who have passed HPAS:1320 or can perform the prerequisite swim test. Prerequisites: HPAS:1320.
- HPAS:1340 Water Workout** 1 s.h.  
Basic principles and benefits of aquatic exercise; guidelines for creating safe and effective aquatic exercise programs; topics include fitness and conditioning, anatomy, safety, deep-water workouts, goal setting, and nutrition.
- HPAS:1400 Pickleball** 1 s.h.  
Introduction to the game of pickleball; rules of the game, terminology, key offensive and defensive strategies, and drills to help improve performance; class time involves instruction, practice, and playing time; no prior pickleball experience required.
- HPAS:1410 Badminton** 1 s.h.  
Introduction to the game, rules, and skills involved in badminton.
- HPAS:1430 Racquetball** 1 s.h.  
Introduction to the game, rules, and skills involved in racquetball.
- HPAS:1440 Table Tennis** 1 s.h.  
Introduction to the game, rules, and skills involved in table tennis.
- HPAS:1460 Basketball I** 1 s.h.  
Introduction to the game of basketball at the beginning level, assumes little or no prior basketball experience; students learn rules of the game, basketball terminology, key offensive and defensive strategies, fundamental skills (e.g., dribbling, passing, catching, shooting, rebounding, defending), and drills to help improve performance; course format consists of instruction, practice, and playing time.
- HPAS:1530 Volleyball I** 1 s.h.  
Introduction to the game, rules, and skills involved in volleyball.
- HPAS:1535 Volleyball II** 1 s.h.  
Advanced skill refinement course geared towards students who have passed HPAS:1530 or are able to show mastery of the basic techniques. Prerequisites: HPAS:1530.
- HPAS:1540 Soccer I** 1 s.h.  
Beginner-level introduction to the game of soccer; students learn rules, terminology, and basic offensive and defensive strategies; fundamental skills of dribbling, passing, trapping, and shooting; individual practice, partner, and small group drills; small and large field games; course format consists of instruction, practice, and playing time.

**HPAS:1550 Slow-Pitch Softball** **1 s.h.**

Introduction to the game, rules, and skills involved in softball; course will meet outside, weather permitting.

**HPAS:1560 Ultimate Frisbee** **1 s.h.**

Introduction to the game, rules, and skills involved in ultimate frisbee; course will meet outside, weather permitting.

**HPAS:1610 Self Defense** **1 s.h.**

Introduction to the practice of self-defense through upper and lower body strikes, joint manipulation, and other personal protection measures; this is a noncontact course.

# Health and Human Physiology, B.A.

## Learning Outcomes

The B.A. degree in health and human physiology:

- provides students a broad education in the health sciences;
- prepares students to employ their fundamental knowledge of human physiology and health sciences together with the scientific method to solve problems in their chosen professional and/or graduate career fields; and
- instills an understanding and appreciation of the relevance of healthy behaviors to a fulfilling and productive life, and the importance of lifelong learning in the rapidly evolving fields of physiology and the health sciences.

## Requirements

The Bachelor of Arts with a major in health and human physiology requires a minimum of 120 s.h., including work for the major, which varies by track. The health promotion track requires a total of 47-51 s.h. of work for the major; the health studies track requires 43-47 s.h. of work for the major; and the exercise science track requires 48-52 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The health promotion track is intended for students seeking careers that promote wellness in the community and the workplace. The health studies track is designed for students who want a more flexible health science curriculum. The exercise science track is intended for students seeking careers as professionals in fitness and in strength and conditioning.

Students may earn a Bachelor of Arts degree with a major in health and human physiology or a Bachelor of Science degree with a major in human physiology, but not both.

Students who major in health and human physiology may not earn the minor in human physiology or the minor in physical activity and nutrition science.

Students in all tracks are required to complete the following science and math foundation courses and departmental core courses, as well as additional courses required specifically for their track.

The B.A. with a major in health and human physiology requires the following coursework.

Code	Title	Hours
	Science and Math Foundation Courses	10-12
	Departmental Core Courses	12-14
	Track Courses	21-26
<b>Total Hours</b>		<b>43-52</b>

## Science and Math Foundation Courses

All students complete three foundation courses (minimum of 10 s.h.): one each in chemistry, biology, and mathematics or statistics.

Code	Title	Hours
Chemistry—one of these:		
CHEM:1080	General Chemistry II	3
CHEM:1120	Principles of Chemistry II	4
Biology—one of these:		
BIOL:1140	Human Biology: Nonmajors	4
BIOL:1141	Human Biology: Health Professions	4
BIOL:1411	Foundations of Biology	4
Mathematics or statistics—one of these:		
MATH:1020	Elementary Functions	4
MATH:1350	Quantitative Reasoning for Business	4
MATH:1380	Calculus and Matrix Algebra for Business	4
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1850	Calculus I	4
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:3510/ IGPI:3510	Biostatistics	3

## Departmental Core Courses

All students must complete the four-course departmental core (12-14 s.h.).

Code	Title	Hours
One of these:		
HHP:1100	Human Anatomy	3
HHP:1150	Human Anatomy Lecture with Lab	4
One of these:		
HHP:1300	Fundamentals of Human Physiology	3
HHP:1350	Fundamentals of Human Physiology with Laboratory	4
Both of these:		
HHP:2200	Physical Activity and Health	3
HHP:2310	Nutrition and Health	3

## Tracks

### Exercise Science Track Requirements

The exercise science track provides focused study in physical fitness, physical activity, sport nutrition, and sport conditioning as they pertain to health and performance outcomes. The curriculum has been approved by the American College of Sports Medicine (ACSM) as meeting the academic preparation for certification as an ACSM certified exercise physiologist and ACSM certified personal trainer. It also prepares students for certification by the National Strength and Conditioning Association as a certified strength and conditioning specialist and certified special population specialist. The strong physiological science-based curriculum can serve as preparation for professional or graduate study

in rehabilitation sciences, performance sciences, or medical fields.

In addition to completing the courses listed above under Science and Math Foundation Courses and Departmental Core Courses, exercise science track students must complete the following exercise science core courses (20 s.h.) and major electives (6 s.h.).

### Exercise Science Core

Code	Title	Hours
All of these:		
HHP:2350	Biomechanics of Sport and Physical Activity	3
HHP:2500	Physical Activity Psychology	3
HHP:3400	Applied Exercise Physiology	3
HHP:4200	Metabolic Exercise Testing and Prescription	4
HHP:4210	Musculoskeletal Exercise Testing and Prescription	4
HHP:4310	Sport and Exercise Nutrition	3

### Exercise Science Major Electives

Code	Title	Hours
At least 6 s.h. from these:		
Health and human physiology courses numbered HHP:2000 or above		

### Health Promotion Track Requirements

The health promotion track prepares students to directly work with individuals and communities to improve health and quality of life. Students learn how to assess, plan, implement, evaluate, and oversee programs designed to improve health behaviors, create environments supportive of healthy lifestyles, and effectively communicate health issues to key stakeholders. The health promotion track prepares students to take the certification exam from the National Commission for Health Education Credentialing. The mix of natural and social sciences in this track also provides a foundation for professional or graduate study in allied health, health management, or public health.

In addition to completing the courses listed above under Science and Math Foundation Courses and Departmental Core Courses, health promotion track students must complete the following health promotion core courses (16 s.h.), the applied learning requirement (3 s.h.), and major electives (6 s.h.).

### Health Promotion Core

Code	Title	Hours
All of these:		
HHP:3200	Health Behavior and Health Promotion	3
HHP:3430	Health Management and Administration	3
HHP:4010	Behavioral and Clinical Health Assessment Laboratory	4
HHP:4020	Health Communication and Coaching Strategies	3
HHP:4420	Planning and Evaluating Health Interventions	3

### Health Promotion Applied Learning

Code	Title	Hours
3 s.h. from these:		
HHP:3420	Practicum in Health Education and Outreach	3
HHP:3820	Community Wellness Guided Practicum	3
HHP:4350	Health and Human Physiology Practicum	1-3
HHP:4365	Practicum in Health Coaching	3
HHP:4400	Health Promotion Clinical Practicum	1
HHP:4405	Health Promotion Community and Worksite Practicum	1
HHP:4490	International Medicine: Experiential Learning	3
HHP:4500	Undergraduate Independent Study	arr.
HHP:4900	Honors Research	3

### Health Promotion Major Electives

Code	Title	Hours
At least 6 s.h. from these:		
Health and human physiology courses numbered HHP:2000 or above		

### Health Studies Track Requirements

The health studies track interconnects the systems, technologies, and policies driving the U.S. wellness and health care industries. It provides flexible opportunities to work with faculty in developing the knowledge and skills needed to understand health determinants and anticipate continuing changes in preventive and clinical health delivery.

In addition to completing the courses listed above under Science and Math Foundation Courses and Departmental Core Courses, health studies track students must complete the following health studies core courses (9 s.h.) and major electives (12 s.h.).

### Health Studies Core

Code	Title	Hours
All of these:		
HHP:4030	Policy, Environmental, and Social Determinants of Health	3
HHP:4040	Health Services: Current Barriers and Innovative Solutions	3
HHP:4390	Understanding Human Disease	3

### Health Studies Major Electives

Code	Title	Hours
At least 12 s.h. from these:		
Health and human physiology courses numbered HHP:2000 or above		

## Combined Programs

### B.A. (Exercise Science Track)/ M.S. in Athletic Training

The Department of Health and Human Physiology and the Department of Orthopedics and Rehabilitation (Carver College of Medicine) offer a combined Bachelor of Arts in health and human physiology (exercise science track)/Master of Science in athletic training. The combined degree program allows students to count a limited amount of credit toward both degrees, enabling them to begin the study of athletic training before they complete their bachelor's degree. Coursework taken during the first three years on campus constitutes the required prerequisites for application to the master's degree program.

#### Admission

Students apply to the M.S. program in their third year of undergraduate study. Admission to the M.S. program in athletic training is for summer entry. Students should consult their advisor about the appropriate sequence of courses and other requirements.

For more information, see the M.S. in athletic training [p. 1806] in the Catalog.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall g.p.a. of at least 3.33 in work for their major and a cumulative University of Iowa g.p.a. of at least 3.33.

In order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4800 Research Methods and Ethics and HHP:4900 Honors Research; write an honors thesis that is deposited with the University of Iowa Honors Program and is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the health and human physiology major.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay

on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the fifth semester begins:** one foundation course and at least six more courses in the major.

**Before the seventh semester begins:** at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** at least two more courses in the major (total of 15).

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

# Human Physiology, B.S.

## Learning Outcomes

The B.S. degree in human physiology:

- provides students a broad education in the health sciences;
- prepares students to employ their fundamental knowledge of human physiology and health sciences together with the scientific method to solve problems in their chosen professional and/or graduate career fields; and
- instills an understanding and appreciation of the relevance of healthy behaviors to a fulfilling and productive life, and the importance of lifelong learning in the rapidly evolving fields of physiology and the health sciences.

## Requirements

The Bachelor of Science with a major in human physiology requires a minimum of 120 s.h., including 62 s.h. of work for the major (31 s.h. in health and human physiology and 31 s.h. in required cognate courses). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Transfer students must complete a minimum of 16 s.h. in human physiology coursework at the University of Iowa, including HHP:3550 Human Physiology with Laboratory.

The major in human physiology is designed primarily for individuals who intend to continue their education beyond the B.S. in the health professions, including medicine, physician assistant, physical therapy, dentistry, occupational therapy, chiropractic, and optometry, and for those who intend to pursue graduate degrees in basic life sciences.

Students may earn a Bachelor of Science degree with a major in human physiology or a Bachelor of Arts degree with a major in health and human physiology, but not both.

Students who major in human physiology may not earn the minor in human physiology or the minor in physical activity and nutrition science.

The B.S. with a major in human physiology requires the following coursework.

Code	Title	Hours
Human Physiology Courses		31
Cognate Area Courses		31
<b>Total Hours</b>		<b>62</b>

## Human Physiology Courses

Code	Title	Hours
All of these:		
HHP:2200	Physical Activity and Health	3
HHP:3115	Anatomy for Human Physiology with Lab	5
HHP:3550	Human Physiology with Laboratory	5
At least 18 s.h. from these, of which at least 12 s.h. must be in HHP coursework:		
HHP:3230/PSY:3230	Psychopharmacology	3
HHP:3300	Human Growth and Motor Development	3

HHP:3450	Immunology in Health and Disease	3
HHP:3900	Writing for Health and Human Physiology	3
HHP:4110	Advanced Human Anatomy Laboratory	4
HHP:4130	Skeletal Muscle Physiology	3
HHP:4150	Clinical Exercise Physiology	3
HHP:4200	Metabolic Exercise Testing and Prescription	4
HHP:4210	Musculoskeletal Exercise Testing and Prescription	4
HHP:4220	Biomechanics of Human Motion	3
HHP:4250	Human Pathophysiology	3
HHP:4260	Respiratory Pathophysiology	3
HHP:4300	Sensorimotor Neurophysiology	3
HHP:4410	Exercise Physiology	3
HHP:4440	Physiology of Nutrition	3
HHP:4450	Human Genetics and Disease	3-4
HHP:4460	Cardiovascular Physiology	3
HHP:4465	Environmental Exercise Physiology	3
HHP:4470/ASP:4470	Physiology of Aging	3
HHP:4490	International Medicine: Experiential Learning	3
HHP:4500	Undergraduate Independent Study	arr.
HHP:4510	Energetics in Health and Disease	3
HHP:4900	Honors Research	3
BIOC:3110	Biochemistry	3
BIOL:2254	Endocrinology	3
BIOL:2512	Fundamental Genetics	4
BIOL:2723	Cell Biology	3
BIOL:2753	Introduction to Neurobiology	3
MICR:2157	General Microbiology	3
MICR:2158	General Microbiology Laboratory	2
MICR:3168	Viruses and Human Disease	3
PCOL:3101	Pharmacology I: A Drug's Fantastic Journey	2-3
PCOL:3102	Pharmacology II: Mechanisms of Drug Action	3
SOC:3510	Medical Sociology	3
May include one of these:		
PSY:2130	Advanced Psychology for Pre-Medical Track	3
PSY:2930	Abnormal Psychology: Health Professions	3

## Cognate Areas

Students must earn a minimum of 31 s.h. in cognate areas—subjects outside of human physiology—by completing courses from the following lists.

Code	Title	Hours
<b>Biology</b>		
This sequence:		
BIOL:1411- BIOL:1412	Foundations of Biology - Diversity of Form and Function	8
<b>Chemistry</b>		
This sequence:		
CHEM:1110 & CHEM:1120	Principles of Chemistry I-II	8
<b>Mathematics</b>		
One of these:		
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1850	Calculus I	4
<b>Physics</b>		
This sequence:		
PHYS:1511- PHYS:1512	College Physics I-II	8
<b>Statistics</b>		
One of these:		
STAT:2010	Statistical Methods and Computing	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall g.p.a. of at least 3.33 in work for their major and a cumulative University of Iowa g.p.a. of at least 3.33.

In order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4800 Research Methods and Ethics and HHP:4900 Honors Research; write an honors thesis that is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the human physiology major.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the fifth semester begins:** calculus and at least six more courses in the major.

**Before the seventh semester begins:** at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** at least two more courses in the major (total of 15).

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Human Physiology, B.S.

Course	Title	Hours
<b>Academic Career</b>		
<b>Any Semester</b>		
Transfer students must complete a minimum of 16 s.h. in human physiology coursework at the University of Iowa, including HHP:3550 Human Physiology with Laboratory.		

Hours		0
<b>First Year</b>		
<b>Fall</b>		
RHET:1030 or ENGL:1200	Rhetoric or The Interpretation of Literature	3 - 4
GE CLAS Core: Diversity and Inclusion <sup>a</sup>		3
MATH:1460	Calculus for the Biological Sciences <sup>b, c</sup>	4
CSI:1600	Success at Iowa	2
GE CLAS Core: Literary, Visual, and Performing Arts <sup>a</sup>		3
<b>Hours</b>		<b>15-16</b>
<b>Spring</b>		
RHET:1030 or ENGL:1200	Rhetoric or The Interpretation of Literature	3 - 4

#### Spring

Major: Elective course <sup>h</sup>		3
Major: Elective course <sup>h</sup>		3
Major: Elective course <sup>h</sup>		3
Elective course <sup>e</sup>		3
Elective course <sup>e</sup>		2

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)<sup>i</sup>

**Hours 14**

**Total Hours 120-126**

- a GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- b Fulfills a major requirement and may fulfill a GE requirement.
- c Enrollment in math courses requires completion of a placement exam.
- d Enrollment in chemistry courses requires completion of a placement exam.
- e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

- f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- g This course must be completed at the University of Iowa.
- h Students complete at least 18 s.h. in approved major electives, of which at least 12 s.h. must be in HHP coursework.
- i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Sport and Recreation Management, B.S.

## Learning Outcomes

Students with a B.S. in sport and recreation management will be able to:

- demonstrate knowledge of foundational sport and recreation management principles;
- apply and analyze financial, human resource and facility management principles; marketing, communications and sales strategies; and legal concepts to the sport and recreation industries;
- evaluate and explore career paths in the sport and recreation industries to identify where individual student strengths and interests will thrive;
- acquire knowledge in a concentration area within sport or recreation unique to individual student career objectives;
- express ideas clearly, logically, and persuasively in both oral and written formats; and
- demonstrate critical thinking; effective research methods; and teamwork, project management, and presentation principles to unique sport and recreation organization business challenges.

## Requirements

The Bachelor of Science with a major in sport and recreation management requires a minimum of 120 s.h., including 48 s.h. of work for the major (27 s.h. in sport and recreation management, 12 s.h. in a concentration area, and 9 s.h. in field experience). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The Bachelor of Science in sport and recreation management prepares students to make meaningful contributions to the sport and recreation industry at all levels and broaden their understanding and appreciation of the sport and recreation industry.

The curriculum challenges students to think critically and creatively while developing analytical, rhetorical, and research abilities that are required for leadership positions in the sport and recreation industry. Moreover, the program emphasizes and provides experiential learning opportunities for a student's application of concepts and skills in professional settings to enhance learning and development.

Students who major in sport and recreation management may not earn the minor in sport and recreation management.

## Online Degree Option

The Department of Health and Human Physiology offers an online B.S. degree in sport and recreation management. The online program enables students to complete their B.S. degree from anywhere in the world. For more information, see Online B.S. Degree in Sport and Recreation Management on the Department of Health and Human Physiology website, or contact the Department of Health and Human Physiology directly.

## Degree Requirements

The B.S. with a major in sport and recreation management requires the following coursework.

Code	Title	Hours
Foundation Courses		27
Field Experience		9
Concentration Area Courses		12
<b>Total Hours</b>		<b>48</b>

## Foundation Courses

Code	Title	Hours
All of these:		
SRM:1060	Contemporary Issues in Sports	3
SRM:3157	Managerial Operations in Sport and Recreation	3
SRM:3175	Sales in Sport	3
SRM:3178	Communications and Public Relations in Sports	3
Students must have completed 30 s.h. before they enroll in the following:		
SRM:3151	Liability in Sport and Recreation	3
SRM:3152	Design and Management of Sport and Recreation Facilities	3
SRM:3153	Sport Business Practices	3
SRM:3158	Sport and Recreation Promotion	3
SRM:3172	Finance in Sport and Recreation	3

## Field Experience

Students are required to complete a total of 9 s.h. of field experience (guided and/or independent) and must obtain prior approval from the director of field experience before performing any independent field experience for academic credit. See Independent Field Experience on the Department of Health and Human Physiology website, or contact the Department of Health and Human Physiology directly.

Field experience includes both guided and independent options. Guided experience sections are led by faculty who set learning objectives and outcomes with partner organizations. Courses have regular meeting times and faculty oversee and evaluate student engagement, participation, and completion.

Independent experience is student initiated with an approved sport or recreation affiliated organization, such as an internship. In consultation with the faculty and organization, a student sets the learning objectives for the duration of the experience. Faculty communicates with each student and site supervisor to evaluate student engagement, participation, and completion of learning objectives.

Both guided and independent field experience credit is based on 45 hours of field experience for each semester hour earned.

Code	Title	Hours
SRM:4196	Interscholastic Athletic Administration Field Experience	1-9

SRM:4197	Sport and Recreation Field Experience	1-9
SRM:4199	Independent Sport and Recreation Field Experience	1-9

## Concentration Areas

Students must complete 12 s.h. in one of the following concentration areas: business studies, coaching and sport instruction, communications and public relations/journalism, entrepreneurship, event management, interscholastic athletic/activities administration, sport and diversity, or the student-designed concentration that allows students to map out their own concentration with approval of their advisor and faculty. Some of these courses below have prerequisites; students must complete all of a course's prerequisites before they may register for the course. Prerequisite courses do not count toward the concentration unless also listed as a concentration course.

Topics in Sport and Recreation Management (SRM:3200) can be used for certain concentration areas depending on the topic being taught. Students may request a waiver to allow a course that is not listed to count toward a concentration. All students should consult with the SRM program's academic advisor for details and approval prior to enrolling in SRM:3200 or any unlisted course for concentration credit.

- Business Studies [p. 636]
- Coaching and Sport Instruction [p. 636]
- Communications and Public Relations/Journalism [p. 638]
- Entrepreneurship [p. 638]
- Event Management [p. 639]
- Interscholastic Athletic/Activities Administration [p. 637]
- Sport and Diversity [p. 639]
- Student-Designed [p. 639]

## Business Studies Concentration

Code	Title	Hours
Business studies concentration students select 12 s.h. from these:		
SRM:1046	Health for Happiness	3
SRM:1085	Introduction to Travel and Tourism	3
SRM:2065	The Experience Economy	3
SRM:3148	Interscholastic Activities and Athletics Administration	3
SRM:3150	Recreation Administration	3
SRM:3210	Event Bidding: Processes and Strategies	3
SRM:3300	Writing for Sport and Recreation Managers	3
SRM:3700	Ethics in Sport	3
SRM:4198	NCAA Rules Compliance and Enforcement	3
ACCT:2100	Introduction to Financial Accounting	3
ACCT:2200	Managerial Accounting	3
ARTS:1070	Elements of Graphic Design	3

EPLS:4200	Diversity and Inclusion in Athletics	3
HHP:1100	Human Anatomy	3
HHP:2130	Human Development Through the Life Span	3
HHP:2200	Physical Activity and Health	3
HHP:2310	Nutrition and Health	3
HHP:2500	Physical Activity Psychology	3
HHP:3300	Human Growth and Motor Development	3
HHP:3400	Applied Exercise Physiology	3
HHP:4310	Sport and Exercise Nutrition	3
HPAS:1007	Basic CPR	1
HPAS:1008	Basic First Aid	1
HPAS:1010	Introduction to Workout Design	1
RCE:4111	Building Leadership and Success at Work	3
RHET:2085	Speaking Skills	3
SPST:2081	Theory and Ethics of Coaching	3
TR:1061	Recreation Leadership and Programming	3

### Coaching Certification Process

University of Iowa students can become authorized to coach K-12 school-sponsored athletics in the state of Iowa by taking the following two courses. These courses prepare students for statewide coaching authorization application only; students must take these courses and can opt to apply for certification as part of their coursework.

Code	Title	Hours
SRM:3149	Coaching Theory, Body Structure, and Human Development	3
SRM:3155	Prevention and Care of Athletic Injuries for Coaches	3

### Interscholastic Athletic/Activities Administration Concentration

In addition to the 12 s.h. concentration area requirement, students also may choose to complete the Certificate in Interscholastic Athletic/Activities Administration [p. 651], a 21 s.h. program.

Code	Title	Hours
All of these (9 s.h.):		
SRM:3148	Interscholastic Activities and Athletics Administration	3
SRM:3800	Sport Law for Interscholastic Athletic Directors	3

EPLS:4200	Diversity and Inclusion in Athletics	3
At least one of these (3 s.h.):		
SRM:1045	Diversity and Inclusion in Healthy Living	3
SRM:2065	The Experience Economy	3
SRM:3146	Sports Officiating: Rules, Theories, and Issues	3
SRM:3147	Sport Event Management	3
SRM:3149	Coaching Theory, Body Structure, and Human Development (this course and SRM:3155 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3150	Recreation Administration	3
SRM:3155	Prevention and Care of Athletic Injuries for Coaches (this course and SRM:3149 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3176	Sports Analytics for Coaches, Managers, and Other Decision Makers	3
SRM:3210	Event Bidding: Processes and Strategies	3
SRM:3300	Writing for Sport and Recreation Managers	3
SRM:3700	Ethics in Sport	3

MGMT:3050	Professional Preparation for Management	1
RHET:2085	Speaking Skills	3

## Event Management Concentration

Students who aspire to work in the field of event management may earn one or both of the following credentials: the event management concentration (12 s.h.) and/or the Certificate in Event Management [p. 491] (21 s.h.). It is strongly recommended that students consult the sport and recreation management undergraduate academic advisor and a member of the Certificate in Event Management committee to discuss what is appropriate to earn.

Students who wish to earn the Certificate in Event Management must take SRM:3154 Foundations of Event Management and cannot substitute EVNT:3154 Foundations of Event Management. They also must take SRM:3147 Sport Event Management and cannot substitute EVNT:3260 Event Management Workshop.

Code	Title	Hours
Both of these:		
SRM:3147	Sport Event Management	3
SRM:3154	Foundations of Event Management	3
At least 6 s.h. from these:		
SRM:1046	Health for Happiness	3
SRM:1085	Introduction to Travel and Tourism	3
SRM:2065	The Experience Economy	3
SRM:3146	Sports Officiating: Rules, Theories, and Issues	3
SRM:3148	Interscholastic Activities and Athletics Administration	3
SRM:3150	Recreation Administration	3
SRM:3210	Event Bidding: Processes and Strategies	3

TR:1070	Perspectives on Leisure and Play	3

## Student-Designed Concentration

If a student wishes to develop a concentration area focused on a specialized area that is not covered by an existing

concentration area outlined above, the student must consult with an advisor in the sport and recreation management program. After consultation, the student must submit a written proposal to the sport and recreation management program director for approval. The proposal should provide a rationale for, and description of, the student-designed concentration, including proposed courses. The proposal must be approved before the start of the semester in which the student wishes to use the concentration for graduation.

The concentration requires at least 12 s.h. of coursework. Self-designed concentrations may not include coursework that was used to complete GE CLAS Core or field experience requirements.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33, a major g.p.a. of at least 3.50, and earn a grade of at least a B-plus in SRM:4195 Honors Problems. During SRM:4195 Honors Problems, the student works on a project under the supervision of a program faculty member. For additional information, visit B.S. in Sport and Recreation Management Curriculum on the Department of Health and Human Physiology website or contact the sport and recreation management program director.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the sport and recreation management major.

## Career Advancement

Sport and recreation management majors find employment in municipal or campus recreation; interscholastic, high school, or college athletic administration; intramural departments; community private clubs or community parks and recreation departments; nonprofit organizations; armed forces recreation; professional or Olympic sports organizations; commercial fitness businesses; and in firms specializing in sport marketing or sport sponsorship. The sport and recreation management faculty provides individual mentoring to students and offers several opportunities for students to connect with industry professionals throughout the year to learn about internships and jobs.

The Office of Field Experience in the sport and recreation management program in the Department of Health and Human Physiology assists students in finding their specific connection to the industry. The Pomerantz Career Center also offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the fifth semester begins:** four foundation courses, at least 3 s.h. in the concentration area, and 3 s.h. in a field experience course.

**Before the seventh semester begins:** two more foundation courses (total of six), an additional 6 s.h. in the concentration area, and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** two more foundation courses (total of eight), an additional 3 s.h. in a field experience course, and one remaining concentration area course (3 s.h.).

**During the eighth semester:** enrollment in the final 3 s.h. in a field experience course, all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

**Hours****15****Total Hours****123-129**

- a GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- b Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- d Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Therapeutic Recreation, B.S.

Therapeutic recreation is a professional field that involves providing recreation programs designed to improve or maintain the physical, emotional, mental, and social functioning of patients and consumers. Therapeutic practice involves a continuum of services that use recreational activities to improve functional abilities; leisure education to help individuals acquire skills, knowledge, and attitudes that facilitate an independent lifestyle; and other programs to enhance health, growth, development, and independence through intrinsically rewarding leisure activities. Additionally, inclusive recreation provides opportunities for people with all abilities and disabilities to participate together in meaningful and purposeful therapeutic recreation programs based on choice and common interests.

## Learning Outcomes

The B.S. degree in therapeutic recreation:

- instills an understanding and appreciation of leisure, recreation, and play in diverse and inclusive settings;
- prepares students for professional fields and/or graduate study through the integration of research and critical thinking;
- provides service and experiential learning to enhance students' leadership strengths and their ability to build therapeutic relationships;
- teaches critical skills necessary in inclusive practice to assess, plan goals, design appropriate interventions, and evaluate effectiveness;
- instructs students in the practice of inclusion for persons of diverse abilities, backgrounds, and cultures; and
- teaches students how to facilitate inclusive and therapeutic recreation programs.

## Requirements

The Bachelor of Science with a major in therapeutic recreation requires a minimum of 120 s.h., including 60-63 s.h. of work for the major, which varies by track. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The therapeutic recreation program prepares students for professional work with persons in various underserved populations and as advocates for social inclusion. The major emphasizes the use of a systematic process of assessment, planning, implementation, and evaluation to provide equitable opportunity for recreation, leisure, and play by diverse populations.

The curriculum consists of two tracks designed to allow students to acquire in-depth knowledge in their chosen area of interest. The courses in each track provide an opportunity for students to tailor the degree to best fit their career goals and academic interests. The inclusive recreation track (60-63 s.h.) allows students to gain knowledge in a variety of domains related to adaptive and inclusive recreation. Students may choose to focus on a certain population or diversify their experience through their curriculum design. The NCTRC Certification track (63 s.h.) focuses on developing therapeutic recreation competencies necessary to sit for the National

Council on Therapeutic Recreation Certification examination and successfully pursue a career in clinical or community therapeutic recreation.

The B.S. with a major in therapeutic recreation requires the following coursework.

Code	Title	Hours
Core Courses		33
Track Requirements (varies by track)		27-30
<b>Total Hours</b>		<b>60-63</b>

Students in both tracks are required to complete the following core courses, as well as additional courses required specifically for their track.

## Core Courses

Code	Title	Hours
This course:		
PSY:1001	Elementary Psychology	3
One of these:		
HHP:2130	Human Development Through the Life Span	3
NURS:1030	Human Development and Behavior	3
One of these:		
PSY:2501	Introduction to Social Psychology	3
SOC:1010	Introduction to Sociology	3
All of these:		
HHP:1400	Human Anatomy and Physiology	3
TR:1061	Recreation Leadership and Programming	3
TR:1070	Perspectives on Leisure and Play	3
TR:1077	Introduction to Child Life	3
TR:1800/ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800	Aging Matters: Introduction to Gerontology	3
TR:3160	Introduction to Therapeutic Recreation	3
TR:3162	Therapeutic Recreation: Clientele	3
TR:3261	Inclusive Recreation	3

## Tracks

Students select one of the following tracks and complete the requirements.

### Inclusive Recreation Track

#### Requirements

Inclusive recreation in community-based settings is the fastest growing area of practice in therapeutic recreation and the most diverse. Community-based inclusive recreation specialists may be affiliated with community recreation departments, adaptive sports programs, school systems, independent living support services, special recreation associations, and community mental health agencies. The goals of inclusive recreation in community-based settings are equally diverse, including enhancing quality of life, health

protection and health promotion, and integration and inclusion of persons with disabilities in recreation programs.

Students who complete this track are not eligible for the National Council on Therapeutic Recreation Certification exam or for the CTRS credential.

Students earn a minimum of 27 s.h. in this track. Coursework is selected around several themes relevant for foundational comprehension and practice in the field of inclusion and diversity in recreation.

## Inclusive Recreation Coursework

### Social Justice

Code	Title	Hours
One of these:		
GWSS:2250/ HIST:2250/ SJUS:2250	The History of Social Justice Movements	3
SOC:1022/ SSW:1022	Social Justice and Social Welfare in the United States	3
SOC:1030	Contemporary Social Problems	3

SRM:3150	Recreation Administration	3
ENTR:3595/ MGMT:3500/ MUSM:3500/ NURS:3595/ RELS:3700/ SSW:3500	Nonprofit Organizational Effectiveness I	3

## Human Interaction and Health Behavior

Code	Title	Hours
This course:		
HHP:2200	Physical Activity and Health	3
One of these:		
HHP:3200	Health Behavior and Health Promotion	3
RCE:4175	Motivational Interviewing	3
RCE:4199	Counseling for Related Professions	3

### Field Experience

Code	Title	Hours
3-6 s.h. from these:		
ASP:3920	Service Learning in Aging Studies	1-3
ASP:4190/ SSW:4190	Aging Studies Internship and Seminar	3
CCP:1201	Academic Internship	1-3
CSI:1410	Life Design	2
HHP:3820	Community Wellness Guided Practicum	3
TR:4197	Practicum in Therapeutic Recreation	1-3

## NCTRC Certification Track

### Requirements

Certified therapeutic recreation specialists (CTRS) work in both clinical and community-based settings with a wide variety of client populations. The most common clientele groups include persons with mental illness, spinal cord and brain injuries, older adults, individuals who experience chemical dependence and substance abuse, at-risk youth, and people with developmental disabilities. Settings often focus on psychiatric or physical rehabilitation where the therapist works with a team of allied health professionals to provide treatment through recreation and leisure-based interventions. Services also may be provided in long-term care settings where the therapist works with the health care team to provide treatment interventions and recreation opportunities to enhance quality of life for residents in nursing homes, memory care and assisted-living centers, or respite care agencies. Many certified therapeutic recreation specialists also are employed by community and nonprofit agencies that provide services for underrepresented populations.

This is a selective track; students must complete 24 s.h. at the University of Iowa (or 12 s.h. for transfer students) and must have a University of Iowa g.p.a. of at least 2.50 and a cumulative g.p.a. of at least 2.50 to enter the track. Entrance to the track can occur after completion of HHP:1400 Human Anatomy and Physiology, TR:1070 Perspectives on Leisure and Play, and TR:3160 Introduction to Therapeutic Recreation. Students earn 30 s.h. of coursework within the NCTRC Certification track. Students who complete this track, including the therapeutic recreation internship, are eligible to sit for the National Council for Therapeutic Recreation Certification exam. Successful completion of the exam confers the Certified Therapeutic Recreation Specialist (CTRS) credential.

Students earn 30 s.h. in this track.

## NCTRC Certification Coursework

Code	Title	Hours
All of these (17 s.h.):		
TR:3161	Assessment and Evaluation in Therapeutic Recreation	3
TR:3163	Concepts and Issues in Therapeutic Recreation: Advancement of the Profession	3
TR:3164	Therapeutic Recreation: Rehabilitation	3
TR:3262	Therapeutic Recreation Administration	3
CLSA:3750	Medical and Technical Terminology	2
PSY:2930	Abnormal Psychology: Health Professions	3

## Field Experience

Code	Title	Hours
Both of these (13 s.h.):		
TR:4190	Preinternship Seminar	1
TR:4191	Therapeutic Recreation Internship	12

## Combined Programs

### B.S./M.S. in Health and Human Physiology (Child Life Subprogram)

The combined program allows qualified students to begin work toward a master's degree while they complete their bachelor's degree. It permits students to count certain courses toward both degrees, completing them in less time than they would need to complete each degree separately.

The completion of the two degrees in five years is designed for students who wish to pursue a career providing services to children and their families, primarily in the health care field. Graduates are eligible to be credentialed professionals in child life (certified child life specialist). They fill positions such as child life specialist, activity director, or administrative positions.

Students follow the standard curriculum of their B.S. degree the first two years and complete all the prerequisite courses for the M.S. degree in health and human physiology with a child life subprogram during the third year. Successful students receive a B.S. at the end of the fourth year and a M.S. at the end of the fifth year.

Applicants to the combined program must:

- be enrolled as a B.S. student at the University of Iowa;
- have completed a minimum of 80 s.h. at the time of admission to the combined program, with at least 30 s.h. earned at the University of Iowa;
- have completed all GE CLAS Core requirements and all prerequisites; and
- have a cumulative University of Iowa g.p.a. of at least 3.25.

Applicants must submit a letter of application to the program that includes a statement of purpose, a résumé, document a

minimum of 100 hours of paid or volunteer experience in a child life and/or pediatric health care setting, and three letters of recommendation (with at least one from a certified child life specialist).

Each application is reviewed by the program and requires support from the applicant's undergraduate advisor. Recommendations for approval will be sent to the Office of Graduate Admissions. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

For more information about applying to the combined program, contact the child life program in the Department of Health and Human Physiology.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall g.p.a. of at least 3.33 in work for their major and a cumulative University of Iowa g.p.a. of at least 3.33.

In order to graduate with honors, students must successfully complete TR:4194 Honors Readings and TR:4195 Honors Problems, in which they conduct a reading or research project under the supervision of a faculty member in their major and write a paper summarizing the project's results.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the therapeutic recreation major.

## Career Advancement

Graduates find jobs in a variety of settings. Therapeutic recreation professionals are employed in settings such as skilled nursing facilities, community recreation centers, state and community mental health institutions, general medical hospitals, physical rehabilitation centers, special recreation districts, the Special Olympics, correctional facilities, senior living communities, facilities for persons with intellectual disabilities or mental illness, substance abuse programs, and camp programs as inclusion specialists. The majority of children's hospitals and pediatric units in other health care facilities employ child life specialists to address cognitive, social, and psychological issues associated with child illness and hospitalization. Child life specialists also work in rehabilitation centers, private practice and consulting, school systems, special-purpose camps, and hospice.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the

major are those required to complete the major; they may be offered by departments other than the major department.

**Before the fifth semester begins:** eleven courses.

**Before the seventh semester begins:** two more major requirement courses, 3 s.h. of supporting coursework, and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** two more major requirement courses and the remaining supporting coursework.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

<b>Hours</b>	<b>12</b>
<b>Total Hours</b>	<b>124-130</b>

- a The Academic Advising Center advises Therapeutic Recreation Interest students on prerequisite course planning. Students are advised for success, based on academic strength, not necessarily for a four year plan. Prerequisites may take more than two years to complete.
- b Fulfills a major requirement and may fulfill a GE requirement.
- c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- e This course is a requirement for admission to the Therapeutic Recreation (NCTRC Certification) BS program.
- f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- g Applicants for admission should use the application form on the Department of Health and Human Physiology website. Completed applications typically must be submitted in October for admission the following spring or in March for admission the following fall. For more information see your advisor.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.
- i Students who complete the curriculum, including the therapeutic recreation internship, are eligible to sit for the National Council for Therapeutic Recreation Certification exam. Successful completion of the exam confers the Certified Therapeutic Recreation Specialist (CTRS) credential.

# Human Physiology, Minor

## Requirements

The undergraduate minor in human physiology requires a minimum of 15 s.h. in Department of Health and Human Physiology courses. Students must maintain a g.p.a. of at least 2.00 in all courses taken for the minor and in all UI courses to earn the minor. Coursework in the minor may not be taken pass/nonpass. Transfer credit does not count toward the minor.

Students who earn a Bachelor of Arts degree with a major in health and human physiology or a Bachelor of Science degree with a major in human physiology may not earn the minor in human physiology.

The minor is designed to provide in-depth study of human structure and function. Students must complete a human physiology course plus elective coursework as indicated below. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

The minor in human physiology requires the following coursework.

## Core Courses

Code	Title	Hours
One of these:		
HHP:3500	Human Physiology	3
HHP:3550	Human Physiology with Laboratory	5

## Electives

Code	Title	Hours
10-12 s.h. from these:		
HHP:3105	Anatomy for Human Physiology	3
HHP:3110	Advanced Anatomy Laboratory	2
HHP:3115	Anatomy for Human Physiology with Lab	5
HHP:3300	Human Growth and Motor Development	3
HHP:3450	Immunology in Health and Disease	3
HHP:3900	Writing for Health and Human Physiology	3
HHP:4110	Advanced Human Anatomy Laboratory	4
HHP:4130	Skeletal Muscle Physiology	3
HHP:4150	Clinical Exercise Physiology	3
HHP:4220	Biomechanics of Human Motion	3
HHP:4250	Human Pathophysiology	3
HHP:4260	Respiratory Pathophysiology	3
HHP:4300	Sensorimotor Neurophysiology	3
HHP:4410	Exercise Physiology	3
HHP:4440	Physiology of Nutrition	3

HHP:4450	Human Genetics and Disease	3-4
HHP:4460	Cardiovascular Physiology	3
HHP:4465	Environmental Exercise Physiology	3
HHP:4470/ASP:4470	Physiology of Aging	3
HHP:4490	International Medicine: Experiential Learning	3
HHP:4510	Energetics in Health and Disease	3

# Physical Activity and Nutrition Science, Minor

The minor in physical activity and nutrition science is designed in conjunction with the Obesity Research and Education Initiative. The minor provides a specialized group of courses that unify concepts underlying the causes, consequences, treatment, and prevention of obesity, with attention to physical activity, nutrition, physiology, psychology, and human disease. Students who earn the minor will be prepared to apply their knowledge in areas such as clinical health professions, public health policy, personal coaching and fitness, health psychology, and health promotion.

## Requirements

The undergraduate minor in physical activity and nutrition science requires a minimum of 15 s.h., including at least 12 s.h. in courses taken at the University of Iowa in courses offered by the Department of Health and Human Physiology. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students who earn a Bachelor of Arts degree with a major in health and human physiology or a Bachelor of Science degree with a major in human physiology may not earn the minor in physical activity and nutrition science.

For the minor, students complete three core courses plus two elective courses that focus on various facets of obesity and on its treatment and prevention. Students choose electives in consultation with an undergraduate advisor. Some courses for the minor have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

The minor in physical activity and nutrition science requires the following coursework.

## Core Courses

Code	Title	Hours
All of these:		
HHP:2200	Physical Activity and Health	3
HHP:2310	Nutrition and Health	3
HHP:3050	Obesity: Causes, Consequences, Prevention, and Treatment	3

## Electives

Code	Title	Hours
Two of these:		
HHP:2500	Physical Activity Psychology	3
HHP:4020	Health Communication and Coaching Strategies	3
HHP:4030	Policy, Environmental, and Social Determinants of Health	3
HHP:4310	Sport and Exercise Nutrition	3
HHP:4440	Physiology of Nutrition	3

# Sport and Recreation Management, Minor

## Requirements

The undergraduate minor in sport and recreation management requires a minimum of 15 s.h. in Department of Health and Human Physiology courses, including at least 12 s.h. in courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. A maximum of 3 s.h. of transfer credit may be accepted toward the minor with the approval of the sport and recreation management program director.

Students who earn a Bachelor of Science degree with a major in sport and recreation management may not earn the minor in sport and recreation management.

## Online Option

The minor in sport and recreation management may be earned through coursework that is offered online. For more information, contact the Department of Health and Human Physiology.

## Requirements

The minor in sport and recreation management requires the following coursework.

Students take 15 s.h., with at least 12 s.h. in coursework numbered 3000 or above, from the following. No more than 6 s.h. combined from SRM:4196 Interscholastic Athletic Administration Field Experience, SRM:4197 Sport and Recreation Field Experience, and SRM:4199 Independent Sport and Recreation Field Experience may count toward the minor.

Code	Title	Hours
SRM:1045	Diversity and Inclusion in Healthy Living	3
SRM:1060	Contemporary Issues in Sports	3
SRM:1085	Introduction to Travel and Tourism	3
SRM:2065	The Experience Economy	3
SRM:3020/ INTD:3027	Nutrition in Health and Performance	3
SRM:3146	Sports Officiating: Rules, Theories, and Issues	3
SRM:3147	Sport Event Management	3
SRM:3148	Interscholastic Activities and Athletics Administration	3
SRM:3149	Coaching Theory, Body Structure, and Human Development (this course and SRM:3155 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3150	Recreation Administration	3
SRM:3151	Liability in Sport and Recreation	3

SRM:3152	Design and Management of Sport and Recreation Facilities	3
SRM:3153	Sport Business Practices	3
SRM:3154	Foundations of Event Management	3
SRM:3155	Prevention and Care of Athletic Injuries for Coaches (this course and SRM:3149 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3157	Managerial Operations in Sport and Recreation	3
SRM:3158	Sport and Recreation Promotion	3
SRM:3172	Finance in Sport and Recreation	3
SRM:3175	Sales in Sport	3
SRM:3176	Sports Analytics for Coaches, Managers, and Other Decision Makers	3
SRM:3178	Communications and Public Relations in Sports	3
SRM:3200	Topics in Sport and Recreation Management	3
SRM:3210	Event Bidding: Processes and Strategies	3
SRM:3300	Writing for Sport and Recreation Managers	3
SRM:3700	Ethics in Sport	3
SRM:3800	Sport Law for Interscholastic Athletic Directors	3
SRM:4196	Interscholastic Athletic Administration Field Experience	1-6
SRM:4197	Sport and Recreation Field Experience	arr.
SRM:4198	NCAA Rules Compliance and Enforcement	3
SRM:4199	Independent Sport and Recreation Field Experience	arr.

# Interscholastic Athletic/ Activities Administration, Certificate

The Certificate in Interscholastic Athletic/Activities Administration provides students an opportunity to focus a segment of their studies on extracurricular activities at the interscholastic level. The program provides experiential learning and networking prospects along with academic coursework.

The world of interscholastic athletics has become increasingly competitive and commercialized. The certificate will aid marketability for students as they enter the job market. Students will be prepared to enter a school district with preparation to succeed in athletic/activities administration roles.

The certificate is an option for educators and other professionals who already have a degree but may wish to pursue career opportunities in interscholastic athletics/activities administration. Students who want to earn the certificate and do not want to pursue a degree may apply as nondegree students.

## Learning Outcomes

Students who earn the Certificate in Interscholastic Athletic/Activities Administration will be able to:

- summarize the history of the position and the development of interscholastic athletics;
- utilize management techniques to develop and maintain facilities; plan and oversee financially sustainable events; transfer practical experience into improved employment opportunities; and carry out effective and appropriate marketing, communication, and fundraising campaigns;
- recognize and establish liability protections in programming; and
- formulate effective program and coach assessment/evaluation.

## Requirements

The undergraduate Certificate in Interscholastic Athletic/Activities Administration requires a minimum of 21 s.h. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The certificate may be earned by any undergraduate student admitted to the University of Iowa and by all individuals who are not concurrently enrolled in a UI graduate or professional degree program.

Students may transfer up to 9 s.h. of credit toward certificate completion. Contact the Department of Health and Human Physiology for guidance on submitting courses from other institutions that may be approved for certificate credit. Field experience taken elsewhere is not eligible for use toward the certificate.

Some courses below have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

The Certificate in Interscholastic Athletic/Activities Administration requires the following coursework.

## Core Courses

Code	Title	Hours
All of these:		
SRM:3148	Interscholastic Activities and Athletics Administration	3
SRM:3700	Ethics in Sport	3
SRM:3800	Sport Law for Interscholastic Athletic Directors	3
EPLS:4200	Diversity and Inclusion in Athletics	3

## Field Experience

Field experience is essential to completion of the National Interscholastic Athletic Administrators Association (NIAAA) requirements for first-level certification as a registered athletic administrator (RAA). Students must complete a minimum of 3 s.h. in the following course with an approved partner and oversight from the Office of Field Experience (sport and recreation management) in the Department of Health and Human Physiology.

Code	Title	Hours
SRM:4196	Interscholastic Athletic Administration Field Experience	3-9

## Electives

Students select a minimum of 6 s.h. from the following.

Code	Title	Hours
HHP:2500	Physical Activity Psychology	3
SRM:1045	Diversity and Inclusion in Healthy Living	3
SRM:2065	The Experience Economy	3
SRM:3020/ INTD:3027	Nutrition in Health and Performance	3
SRM:3146	Sports Officiating: Rules, Theories, and Issues	3
SRM:3147	Sport Event Management	3
SRM:3149	Coaching Theory, Body Structure, and Human Development (this course and SRM:3155 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3150	Recreation Administration	3
SRM:3155	Prevention and Care of Athletic Injuries for Coaches (this course and SRM:3149 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3176	Sports Analytics for Coaches, Managers, and Other Decision Makers	3
SRM:3200	Topics in Sport and Recreation Management (when topic is the politics of sports)	3
SRM:3210	Event Bidding: Processes and Strategies	3

ARTS:1070	Elements of Graphic Design	3
COMM:1819	Organizational Leadership	3
EDTL:3114	Parent-Child Relationships	3
EDTL:4940	Characteristics of Disabilities	3
EPLS:4180	Human Relations for the Classroom Teacher	3
EPLS:6201	Foundations of School Administration	3
JMC:1300	Principles of Strategic Communication	3
JMC:5240	Digital Strategic Communication	3
PSQF:1075	Educational Psychology and Measurement	3
PSQF:4134/ EDTL:4934	Parent-Teacher Communication	1-3
RHET:2085	Speaking Skills	3

The Iowa Board of Educational Examiners (BoEE) requires applicants for the state activities director authorization to also have a BoEE coaching authorization. Students who do not have the BoEE coaching authorization must complete the following certificate elective courses, which lead to the BoEE coaching authorization: SRM:3149 Coaching Theory, Body Structure, and Human Development and SRM:3155 Prevention and Care of Athletic Injuries for Coaches.

# Sport and Recreation Management, M.A.

## Requirements

The Master of Arts program in sport and recreation management requires a minimum of 30 s.h. Required coursework (21 s.h.) includes experiential learning in a field experience course and a capstone course that allows students to perform research in an area of interest that has practical application during the final semester before graduation.

The M.A. with a major in sport and recreation management requires the following coursework.

Code	Title	Hours
All of these:		
SRM:4197	Sport and Recreation Field Experience	3
SRM:5065	The Economy of Experience	3
SRM:6251	Risk Management	3
SRM:6252	Economics and Financing	3
SRM:6253	Sport Administration	3
SRM:6254	Marketing and Sport Promotion	3
SRM:6255	Capstone Project	3
Electives (need advisor approval for electives; no more than 3 s.h. in elective credit may be taken in SRM:4197)		9
<b>Total Hours</b>		<b>30</b>

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants also must meet sport and recreation management program requirements, which include:

- U.S. baccalaureate degree from a regionally accredited college or university or an equivalent degree from another country as determined by the Office of Admissions;
- a minimum g.p.a. of at least 3.00 or the international equivalent as determined by the Office of Admissions;
- a score from either the Graduate Record Examination (GRE) General Test or the Graduate Management Admissions Test (GMAT) taken no more than five years prior to the date the applicant is seeking admission;
- a personal statement;
- three letters of recommendation;
- a résumé; and
- international applicants whose native language is other than English must comply with the Graduate College guidelines for admission, which include submission of an acceptable score on the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Duolingo English Test (DET), and any other Office of Admission requirements.

Application deadlines are:

- Fall semester—February 1
- Spring semester—October 1
- Summer session—February 1

Applications submitted after the deadline will be considered only if there is available space.

## Financial Support

The sport and recreation management program offers a limited number of teaching assistantships. Applicants interested in being considered for a position should indicate their interest when they submit their online application.

## Career Advancement

Through academic coursework, practical experience, an individualized capstone project, and a network of industry contacts, the program is designed to help students achieve their unique professional and educational goals. Alumni find employment in such settings as professional team front offices, college and high school athletic departments, campus and community recreation programs, agencies serving sport and recreation clients, league offices, coaching, and in a number of other areas.

The faculty provides individual mentoring to students and offers several opportunities for students to connect with industry professionals throughout the year to learn about internships and jobs.

The Office of Field Experience in the sport and recreation management program in the Department of Health and Human Physiology assists students in finding their specific connection to the industry. The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Sport and Recreation Management, M.A.

- c Includes oral and written components.

# Health and Human Physiology, M.S.

## Requirements

The Master of Science program in health and human physiology requires 30-36 s.h. of graduate credit. Required credit varies by subprogram: the child life subprogram requires a minimum of 36 s.h. and is offered without thesis; the clinical exercise physiology subprogram requires a minimum of 32 s.h. and is offered without thesis; the health and human physiology subprogram requires a minimum of 30 s.h. and is offered with thesis.

Students interested in pursuing a Ph.D. after earning a master's degree should choose the M.S. with thesis (health and human physiology subprogram).

## Child Life Subprogram

The child life subprogram provides expertise in child development through services to support families and to promote children's mastery of life experiences, particularly children's health care events. Professionals in this area enhance effective coping skills through play, education, communication, and family-centered care. The program prepares students to meet credentialing requirements. For more information about the profession, visit the Association of Child Life Professionals.

In order to be admitted to the subprogram, students must:

- hold a B.S. or B.A. degree with a g.p.a. of at least 3.00;
- have completed one course each in human anatomy, medical terminology, and two courses in child development that focus on children and adolescents;
- have verification of 100 hours of paid or volunteer experience in child life or in a pediatric setting; and
- three letters of recommendation, with at least one from a credentialed child life specialist.

Students who have not completed an introductory course in child life must enroll in TR:1077 Introduction to Child Life during their first semester.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Duolingo English Test (DET).

Students who pursue the child life subprogram must successfully pass comprehensive exams in the last semester prior to their child life internship. The comprehensive exam committee works with each student to develop exam questions.

The M.S. in health and human physiology with the child life subprogram requires the following coursework (minimum of 36 s.h.).

## Core Courses

Code	Title	Hours
All of these:		
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3

SSW:3786/ ASP:3786	Death/Dying: Issues Across the Life Span	3
TR:5165	Child Life: Child Development and Healthcare Interventions	3
TR:5166	Child Life: Seminar	3
TR:5167	Child Life Practicum	3
TR:5205	Research Methods and Play Behavior	3
TR:5211	Professional Ethics and Practice in Pediatrics	3
TR:5260	Play and Childhood	3
TR:5261	Family Systems	3

## Internship

The supervised internship requires 600 contact hours with a certified child life specialist.

Code	Title	Hours
This course:		
TR:5270	Child Life Internship	9

## Clinical Exercise Physiology Subprogram

The clinical exercise physiology subprogram provides an advanced scientific and clinical education. It prepares students to be allied health professionals who work in the application of physical activity and behavioral interventions for clinical diseases and health conditions including cardiovascular, pulmonary, metabolic, orthopedic, neuromuscular, immunologic, and hematologic diseases.

In order to be admitted to the subprogram, students must:

- hold a B.S. or B.A. degree with a g.p.a. of at least 3.00 and
- have completed anatomy and physiology with laboratories (8 s.h.).

The Master of Science with the clinical exercise physiology subprogram requires the following coursework (minimum of 33 s.h.).

## Core Courses

Code	Title	Hours
All of these:		
HHP:6030	Physical Activity and Dietary Behavior Change	3
HHP:6150	Advanced Clinical Exercise Physiology (consult advisor for semester hours required)	1,3
HHP:6200	Advanced Metabolic Exercise Testing and Prescription	4
HHP:6260	Advanced Respiratory Pathophysiology (consult advisor for semester hours required)	1,3
HHP:6410	Advanced Exercise Physiology (consult advisor for semester hours required)	1,3
HHP:6460	Advanced Cardiovascular Physiology (consult advisor for semester hours required)	1,3

PCOL:3101	Pharmacology I: A Drug's Fantastic Journey	3
-----------	--	---

## Statistics Courses

Code	Title	Hours
One of these introductory courses (or equivalent):		
BIOS:4120	Introduction to Biostatistics	3
PSQF:6242	Selected Applications of Statistics	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

## Research Methods Course

Code	Title	Hours
This course:		
HHP:6020	Advanced Research Methods and Ethics	2

## Internship

Students complete an individually arranged internship, usually during their second year, earning at least 3 s.h. of credit.

Code	Title	Hours
This course:		
HHP:5935	Clinical Exercise Physiology Internship	3-6

## General Elective Courses

With advisor approval, students choose elective coursework that enhances their concentration in human and exercise physiology, clinical exercise physiology, prescriptive exercise and training for health and fitness, health maintenance, and understanding human disease.

Code	Title	Hours
HHP:4400	Health Promotion Clinical Practicum	1
HHP:4405	Health Promotion Community and Worksite Practicum	1
HHP:4420	Planning and Evaluating Health Interventions	3
HHP:5200	Epidemiology of Physical Activity	3
HHP:6050	Advanced Topics in Obesity	3
HHP:6130	Advanced Skeletal Muscle Physiology	1,3
HHP:6300	Motor Control Seminar	1
HHP:6400	Integrative Physiology Seminar	1
HHP:6470	Advanced Physiology of Aging	1,3
HHP:6500	Seminar in Health Promotion	1
HHP:6510	Advanced Energetics in Health and Disease	1,3
HHP:7300	Advanced Sensorimotor Neurophysiology	1,3
ACB:5203	Gross Human Anatomy for Graduate Students	5

EPID:6350	Nutritional Epidemiology	2
EPID:6360	Nutrition Intervention in Clinical Trials Research	2
EPID:6650	Cardiovascular Disease Epidemiology	3
PSY:3010	Health Psychology	3
PSY:3340	Behavior Modification	3
PTRS:6224	Activity-Based Neural and Musculoskeletal Plasticity in Health Care	4
PTRS:7812	Biomedical Instrumentation and Measurement	3
PTRS:7875	Analysis of Activity-Based Neural and Musculoskeletal Plasticity	3

## Health and Human Physiology Subprogram

The health and human physiology subprogram requires a thesis. Students who intend to earn a Ph.D. after completing the master's degree should choose this subprogram. In order to be admitted to the subprogram, students must hold a B.S. or B.A. degree with a g.p.a. of at least 3.00.

The Master of Science with the health and human physiology subprogram requires the following coursework (minimum of 30 s.h.).

## Introductory Statistics Courses

Code	Title	Hours
One of these:		
BIOS:4120	Introduction to Biostatistics	3
PCOL:5204	Basic Biostatistics and Experimental Design	1
PSQF:6242	Selected Applications of Statistics	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

## Advanced Statistics Courses

Code	Title	Hours
One of these:		
BIOS:5120/ IGPI:5120/ STAT:5610	Regression Modeling and ANOVA in the Health Sciences	3
STAT:6513/ PSQF:6243	Intermediate Statistical Methods	3

## Research Methods Course

Code	Title	Hours
This course:		
HHP:6020	Advanced Research Methods and Ethics	3

## Seminar Courses

Code	Title	Hours
Two enrollments (1 s.h. each) chosen from these:		
HHP:6300	Motor Control Seminar	1

HHP:6400	Integrative Physiology Seminar	1
HHP:6500	Seminar in Health Promotion	1

## General Elective Courses

Students choose elective courses that broaden their knowledge in health and human physiology and related disciplines, and enhance their knowledge in their specific areas of interest, with guidance from their advisor/mentor; electives may include the following.

Code	Title	Hours
HHP:3050	Obesity: Causes, Consequences, Prevention, and Treatment	3
HHP:3440	Physical Activity Interventions	3
HHP:3450	Immunology in Health and Disease	3
HHP:4020	Health Communication and Coaching Strategies	3
HHP:4320	Nutrition Interventions	3
HHP:4390	Understanding Human Disease	3
HHP:4450	Human Genetics and Disease	3-4
HHP:5200	Epidemiology of Physical Activity	3
HHP:6000	Research	arr.
HHP:6030	Physical Activity and Dietary Behavior Change	3
HHP:6050	Advanced Topics in Obesity	3
HHP:6130	Advanced Skeletal Muscle Physiology	1,3
HHP:6150	Advanced Clinical Exercise Physiology	1,3
HHP:6200	Advanced Metabolic Exercise Testing and Prescription	1,4
HHP:6260	Advanced Respiratory Pathophysiology	1,3
HHP:6410	Advanced Exercise Physiology	1,3
HHP:6460	Advanced Cardiovascular Physiology	1,3
HHP:6470	Advanced Physiology of Aging	1,3
HHP:6510	Advanced Energetics in Health and Disease	1,3
HHP:7300	Advanced Sensorimotor Neurophysiology	1,3
ACB:5203	Gross Human Anatomy for Graduate Students	5
BIOC:3110	Biochemistry	3
EPID:4400	Epidemiology I: Principles	3
EPID:6350	Nutritional Epidemiology	2
EPID:6400	Epidemiology II: Advanced Methods	4
EPID:6600	Epidemiology of Chronic Diseases	3
MPB:5153	Graduate Physiology	4

PTRS:7812	Biomedical Instrumentation and Measurement	3
PTRS:7875	Analysis of Activity-Based Neural and Musculoskeletal Plasticity	3

## Thesis

Code	Title	Hours
This course:		
HHP:7500	Thesis: M.S.	4

## Admission

Admission to the department's graduate programs is based on grade-point average, and score on the Graduate Record Examination (GRE) General Test or the International English Language Testing System (IELTS). International students also can submit acceptable scores on the Test of English as a Foreign Language (TOEFL) or the Duolingo English Test (DET).

Applicants to the M.S. program must have an undergraduate g.p.a. of at least 3.00. They also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Application deadline is February 1 for admission the following fall.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

<b>Second Year</b>		
<b>Fall</b>		
HHP:6000	Research	3
Seminar course <sup>d</sup>		1
Elective course <sup>b</sup>		3
<b>Hours</b>		<b>7</b>

**Spring**

Advanced Statistics course <sup>e</sup>	3
HHP:7500      Thesis: M.S.	4
Final Exam: Thesis Defense	
<b>Hours</b>	<b>7</b>
<b>Total Hours</b>	<b>30-32</b>

- a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
- b Work with faculty advisor to determine appropriate graduate coursework and sequence.
- c Choose one course from BIOS:4120, PCOL:5204, PSQF:6242, STAT:3510/IGPI:3510, STAT:4143/PSQF:4143.
- d Choose from HHP:6300, HHP:6400, HHP:6500; enroll two times for 1 s.h. each.
- e Choose one course from BIOS:5120/IGPI:5120/STAT:5610, STAT:6513/PSQF:6243.

# Health and Human Physiology, Ph.D.

## Requirements

The Doctor of Philosophy program in health and human physiology requires a minimum of 72 s.h. of graduate credit.

Doctoral students should have a strong background in the natural sciences and/or health promotion, and a working knowledge of statistics and research methodology. Students may acquire additional knowledge of statistics and research methodology after entering the program.

All Ph.D. students complete a common core of courses, elective courses, 10 s.h. of independent research in HHP:6000 Research, and a 12 s.h. dissertation requirement. They must complete a dissertation in their specialization area.

Some courses in the program are offered by other departments. Faculty members from those departments frequently serve on comprehensive examination committees and on dissertation committees for the initial presentation of a candidate's prospectus. They also participate in the final examination.

The Ph.D. with a major in health and human physiology requires the following coursework.

## Core Courses

Code	Title	Hours
All of these:		
HHP:6000	Research	arr.
HHP:6020	Advanced Research Methods and Ethics	3
HHP:7000	Practicum in College Teaching (only for students without a teaching assistantship)	arr.
HHP:7900	Thesis: Ph.D.	arr.

## Introductory Statistics Course

Code	Title	Hours
One of these:		
BIOS:4120	Introduction to Biostatistics	3
PSQF:6242	Selected Applications of Statistics	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

## Advanced Statistics Courses

Code	Title	Hours
Two advanced statistics courses, such as the following (consult advisor):		
BIOS:5120/ IGPI:5120/ STAT:5610	Regression Modeling and ANOVA in the Health Sciences	3
STAT:6513/ PSQF:6243	Intermediate Statistical Methods	3

## Seminar Courses

Code	Title	Hours
Four enrollments (1 s.h. each) from the following:		
HHP:6300	Motor Control Seminar	1
HHP:6400	Integrative Physiology Seminar	1
HHP:6500	Seminar in Health Promotion	1

## General Electives

Students are expected to obtain broad-based knowledge in their specialization area. This normally entails approximately 30 s.h. of coursework. Students choose specialization electives with guidance from their advisor/mentor. Electives may include any of the following.

Code	Title	Hours
HHP:3050	Obesity: Causes, Consequences, Prevention, and Treatment	3
HHP:3440	Physical Activity Interventions	3
HHP:3450	Immunology in Health and Disease	3
HHP:4020	Health Communication and Coaching Strategies	3
HHP:4320	Nutrition Interventions	3
HHP:4390	Understanding Human Disease	3
HHP:4450	Human Genetics and Disease	3-4
HHP:5200	Epidemiology of Physical Activity	3
HHP:6030	Physical Activity and Dietary Behavior Change	3
HHP:6050	Advanced Topics in Obesity	3
HHP:6130	Advanced Skeletal Muscle Physiology	1,3
HHP:6150	Advanced Clinical Exercise Physiology	1,3
HHP:6200	Advanced Metabolic Exercise Testing and Prescription	1,4
HHP:6260	Advanced Respiratory Pathophysiology	1,3
HHP:6310	Advanced Sport and Exercise Nutrition	3
HHP:6410	Advanced Exercise Physiology	1,3
HHP:6460	Advanced Cardiovascular Physiology	1,3
HHP:6470	Advanced Physiology of Aging	1,3
HHP:6510	Advanced Energetics in Health and Disease	1,3
HHP:7300	Advanced Sensorimotor Neurophysiology	1,3
ACB:5203	Gross Human Anatomy for Graduate Students	5
BIOC:3110	Biochemistry	3
BIOC:3120	Biochemistry and Molecular Biology I	3

BIOC:3130	Biochemistry and Molecular Biology II	3
EPID:4400	Epidemiology I: Principles	3
EPID:5241	Statistical Methods in Epidemiology	4
EPID:6350	Nutritional Epidemiology	2
EPID:6400	Epidemiology II: Advanced Methods	4
EPID:6600	Epidemiology of Chronic Diseases	3
FRRB:7000	Redox Biology and Medicine	4
MPB:5153	Graduate Physiology	4
NSCI:4353/ BIOL:4353	Neurophysiology: Cells and Systems	3-4
NSCI:7235/ NEUR:7235	Neurobiology of Disease	3
OEH:4310	Occupational Ergonomics: Principles	3
PCOL:3101	Pharmacology I: A Drug's Fantastic Journey	2-3
PCOL:3102	Pharmacology II: Mechanisms of Drug Action	3
PTRS:5210	Kinesiology and Pathomechanics	4
PTRS:6224	Activity-Based Neural and Musculoskeletal Plasticity in Health Care	4
PTRS:7812	Biomedical Instrumentation and Measurement	3
PTRS:7875	Analysis of Activity-Based Neural and Musculoskeletal Plasticity	3

## Independent Research

Students must enroll in the independent research course.

Code	Title	Hours
This course:		
HHP:6000	Research	10

## Dissertation

Students working on a dissertation register for the following course.

Code	Title	Hours
HHP:7900	Thesis: Ph.D.	12

## Admission

Admission to the graduate program is based on grade-point average, and score on the Graduate Record Examination (GRE) General Test or International English Language Testing System (IELTS). International students also can submit acceptable scores on the Test of English as a Foreign Language (TOEFL) or the Duolingo English Test (DET).

Applicants to the Ph.D. program must have a g.p.a. of at least 3.00 on undergraduate work and previous graduate work. They also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Application deadline is February 1 for admission the following fall.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- g For students entering with a BA or BS degree.

# History

## Chair

- Landon Storrs

**Undergraduate major:** history (B.A.)

**Undergraduate minor:** history

**Graduate degrees:** M.A. in history; Ph.D. in history

**Faculty:** <https://clas.uiowa.edu/history/people/>

**Website:** <https://clas.uiowa.edu/history/>

History is the heart of a liberal arts education. Students of history develop an understanding of change—how it happens and why it happens the way it does—that enables them to engage the world they inhabit and to participate fully in civic life. Department of History courses engage the diversity of American life and bring a global consciousness that helps students to navigate the streets (and the news) from Iowa City to Berlin to Dar es Salaam.

Faculty and students in the department participate in many of the University's interdisciplinary departments and programs, including American studies, African American studies, Native American and Indigenous studies, classics, Asian studies, international studies, global health studies, Latin American studies, Latina/o/x studies, and gender, women's, and sexuality studies.

In addition to the undergraduate and graduate programs offered by the Department of History, many history courses are approved for the GE CLAS Core. Look for courses with prefix HIST under Historical Perspectives, International and Global Issues, Social Sciences, Values and Culture, and Diversity and Inclusion areas in the GE CLAS Core [p. 20] section of the Catalog. History courses approved for the GE CLAS Core may not be taken pass/nonpass, even when they are taken as electives.

## Programs

### Undergraduate Programs of Study

#### Major

- Major in History (Bachelor of Arts) [p. 677]

#### Minor

- Minor in History [p. 681]

### Graduate Programs of Study

#### Majors

- Master of Arts in History [p. 682]
- Doctor of Philosophy in History [p. 684]

## Facilities

University of Iowa Libraries offer excellent resources for undergraduate study in all fields of history, with distinct strengths in U.S. history. The Main Library houses the Henry A. Wallace papers and related collections, the Iowa Women's Archives, and other unique materials. Special Collections has a vast archive of both printed and digitized materials, including five decades of papers and work donated by television news correspondent Tom Brokaw. The State Historical Society of Iowa in Iowa City and the Herbert Hoover

Presidential Library and Museum in West Branch also hold valuable research materials. The Digital Scholarship & Publishing Studio offers assistance with projects in the digital humanities.

## Courses

History majors should take HIST:2151 Introduction to the History Major during their sophomore year or the first semester after they declare the major. First-year students planning to major in history may be admitted to HIST:2151 with permission from the director of undergraduate studies in the Department of History.

### History Courses

**HIST:1000 First-Year Seminar** **1-2 s.h.**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**HIST:1010 History Matters** **3 s.h.**

How do we understand the past on its own terms and what is its relevance to the present? Introduction to historical thinking through a variety of topics. GE: Historical Perspectives.

**HIST:1016 The History That Made Our World** **3 s.h.**

How does history help to explain our interconnected world? Introduction to international and global thinking through a variety of topics. GE: Historical Perspectives; International and Global Issues.

**HIST:1025 Medieval Religion and Culture** **3 s.h.**

Religion in Europe from classical antiquity to dawn of the Reformation; the religious element in traditions such as art, architecture, literature. GE: Historical Perspectives. Same as RELS:1225.

**HIST:1030 Introduction to Islamic Civilization** **3 s.h.**

Survey of texts, ideas, events, institutions, geography, communities, literature, arts, sciences, and cultures in Islamic communities and societies since the 7th century. GE: International and Global Issues; Values and Culture. Same as RELS:1130.

**HIST:1040 Diversity in History** **3 s.h.**

How did diversity affect past societies? How does history help us to understand diversity today? Introduction to thinking about diversity and inclusion; topics vary. GE: Diversity and Inclusion.

**HIST:1049 Introduction to American Indian and Native Studies** **3 s.h.**

Exploration of past, present, and future of American Indians in the United States and beyond through film, art, music, and comedy. GE: Values and Culture. Same as AMST:1049, NAIS:1049.

**HIST:1050 Modern Religion and Culture** **3 s.h.**

European and American religious life from Renaissance to 21st century; focus on specific themes, such as secularism, regionalism, pluralism. GE: Historical Perspectives. Same as RELS:1250.

**HIST:1101 The Modern World 3 s.h.**

How did today's globalized world come to be? Which aspects of globalization are new and which are inherited from the past? Taking a long-term perspective, this course traces the development and acceleration of global interdependence since the 14th century; how far-flung parts of the globe have been linked to one another, how long-distance connections affected the societies involved, and how individuals have experienced and contributed to such global networks; students develop an understanding of globalization's long history leading up to the present and of their place in contemporary global networks. GE: Historical Perspectives.

**HIST:1115 The History and Science of Oil 3 s.h.**

Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Historical Perspectives. Same as EES:1115, ENVS:1115, GEOG:1115.

**HIST:1166 Rapid Response History 1 s.h.**

Bringing historians' expertise to bear on breaking news.

**HIST:1216 The American Dream in Historical Context 1-3 s.h.**

Introduction to the "American Dream" from the perspective of workers in the United States.

**HIST:1219 Big Ideas: Equality, Opportunity, and Public Policy in America 3 s.h.**

Examination of major social issues and challenges faced by nation, state, and communities; what government's role is in a democratic society; how we decide when, where, and how government acts in ways consistent with social goals and values; focus on pressing social issues (i.e., education, inequality, labor standards, health care); historical development of the problem or policy; ways we address social issues; effectiveness of current policies and alternative policies; ways in which social science contributes to policy design and assessment. GE: Social Sciences. Same as SOC:1219.

**HIST:1261 American History to 1877 3 s.h.**

America before European colonization; encounters between Native Americans, Europeans, and Africans in North America; the rise and decline of European imperial powers; the independence and expansion of the American republic; economic, political, and social change from the American Revolutionary era through Civil War and Reconstruction. GE: Historical Perspectives.

**HIST:1262 American History 1877-Present 3 s.h.**

America since Civil War and Reconstruction; politics, society, and culture from the post-Civil War decades through the Progressive Era, the Great Depression, and two world wars; the "Cold War" with Soviet communism abroad and at home, social protest movements and their influence on electoral politics, and the evolving economic and political role of U.S. in the world. GE: Historical Perspectives.

**HIST:1275 Black Chicago: The Past, Present, and Future of an American Community 3 s.h.**

Students explore the history of Chicago's Black communities; modern issues impacting Chicago's Black neighborhoods; cultural, social, and political contributions of Black Chicagoans to city and nation; consideration of what strategies might be deployed to shape a better future for Black Chicago. Same as AFAM:1275.

**HIST:1290 Native American Foods and Foodways 3 s.h.**

Native Americans as original farmers of 46 percent of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of Indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. GE: Diversity and Inclusion. Same as AMST:1290, GHS:1290, NAIS:1290.

**HIST:1401 The West and the World: Ancient 3 s.h.**

Many consider Greece and Rome important influences for the modern West, but who influenced the Greeks and Romans? Students look to the ancient Near East, home to civilizations such as Egypt and the Babylonians, and investigate the formation of larger communities, study how peoples of the ancient Mediterranean viewed their world, follow the paths of Greeks and Romans, and end with Christianization of the Roman Empire, to not only understand the history of the period, but also learn how to think, read, and write critically. GE: Historical Perspectives.

**HIST:1402 The West and the World: Medieval 3 s.h.**

How have events of European history shaped modern institutions, politics, and culture worldwide, and how have other regions of the world shaped Europe? Students explore this question by tracing European history in a global context from the late Roman Empire to the 18th century to not only understand this history, but also learn how to read, write, and think critically about it. GE: Historical Perspectives.

**HIST:1403 The West and the World: Modern 3 s.h.**

What is "the West" and how does it relate to the rest of the world? Is it the inspiring values of the U.S. and French Revolutions or an exclusive idea that justifies racism and imperialism? Students explore social, cultural, and political developments in modern Europe and its colonies that gave rise to the idea of the West; debates about democracy, industrialization, nationalism, and empire over the last 300 years; how our own ideas about liberty and equality, rights and justice, peace and conflict are shaped by this history; to not only understand this history, but also learn how to read, write, and think critically about it. GE: Historical Perspectives; International and Global Issues.

**HIST:1601 Civilizations of Asia: China from Origins to the 17th Century 3 s.h.**

Introductory survey of Chinese history and civilization from its origins to 1800; exploration of traditions in politics, social organization, thought, religion, and culture. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1601.

**HIST:1602 Civilizations of Asia: China from the 17th Century to the Present 3 s.h.**

Introductory survey of Chinese history from the 17th century to present; exploration of political, social, economics, and culture. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1602.

**HIST:1604 Civilizations of Asia: Japan 3-4 s.h.**

GE: Historical Perspectives; International and Global Issues. Same as ASIA:1604.

**HIST:1606 Civilizations of Asia: South Asia 3-4 s.h.**

Civilization of a vast region that includes India, Pakistan, Bangladesh, Nepal, and Sri Lanka. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1606, RELS:1606.

**HIST:1607 Civilizations of Asia: Korea 3-4 s.h.**

Introduction to Korean history and culture; how meanings of "Korea" and "Koreans" changed from ancient times to present; relevant issues of politics, society, and culture; events that shaped ancient Korean states—Koryo state (918-1392), the Choson dynasty (1392-1910), Japanese colonization (1910-1945), and the two Koreas (1945-present); how present perspectives on Korea have influenced understandings of its past. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1607.

**HIST:1609 India Now! Surveying the World's Largest Democracy 3-4 s.h.**

Introduction to India and its place in global economics, politics, religion, science, and culture since independence in 1947; India's contributions and adaptations to contemporary world, gender roles, changing sexual standards, and new ways India enters American lives—from globalized Bollywood films and music to new foods, fashions, and lifestyles; students examine the quiet revolution of affirmative action that has brought self-respect to millions, and market liberalization that has heightened economic inequality; consideration of ongoing challenges to world's largest democracy and contemporary efforts, both peaceful and violent, to address them. GE: Values and Culture. Same as ASIA:1609.

**HIST:1610 Living Religions of the East 3 s.h.**

Religious beliefs, practices in India, China, Japan. GE: Values and Culture. Same as ASIA:1040, RELS:1404.

**HIST:1612 Introduction to Buddhism 3 s.h.**

Development of Buddhism in India, its spread across Asia, and arrival in the West; exploration of diverse Buddhist philosophies, practices, and cultures; readings from India, Tibet, China, Japan, Korea, and Southeast Asia. GE: Values and Culture. Same as ASIA:1060, RELS:1506.

**HIST:1708 Civilizations of Africa 3 s.h.**

Introduction to the study of Africa; brief survey of African history; aspects of modern African life, including political and social issues, economic and health problems (including HIV/AIDS); classroom discussion of selected African films and assigned African novels. GE: Values and Culture.

**HIST:2120 World History: Stone Age to Feudal Age 3 s.h.**

World history from human origins, through classical antiquity, to the 16th century; political, economic, and environmental forces contributing to social transformations. Same as IS:2120.

**HIST:2122 World History: Feudal Age to Nuclear Age 3 s.h.**

World history from the late 1400s to 1945; colonialism, imperialism, capitalism, and industrialization as forces of global social and cultural transformation. Same as IS:2122.

**HIST:2148 The Invention of Writing: From Cuneiform to Computers 3 s.h.**

Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, COMM:2248, GRMN:2248, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

**HIST:2151 Introduction to the History Major 3 s.h.**

Topics vary; development of skills needed to succeed as a history major and post-graduation; exploration of diverse sources historians use (textual, visual, oral history, digital, material culture); examination of primary sources created by the people studied; analysis of how historians comb evidence to offer varying interpretations of controversies; how to frame historical questions, find and interpret relevant sources, integrate them into clear arguments; the ways history is used in public life (public service, education, policy making, political debate, information management, culture industry); students complete at least one graded paper to be included in history portfolio (HIST:3193). Requirements: history major.

**HIST:2195 Digital History Workshop 3-4 s.h.**

Introduction to use of new media in historical research and writing; web-based publishing and blogging; photo, text, and video editing; digital mapping; curation of digital resources; projects may include short documentary videos, web development, mapping projects, or collaborative curation (identifying, digitizing, annotating artifacts or documents from University collections) in collaboration with University of Iowa Libraries Digital Research & Publishing.

**HIST:2230 Fame and Celebrity in U.S. History 3 s.h.**

Cultural history of the meanings and implications of fame and celebrity in America; conception of fame in the 18th century as something earned through great deeds and conferred by future generations; rise of a culture of celebrity in 19th- and 20th-century America; focus on theater, sports, movie, and musical stars; use of celebrities to sell products; implications for presidential campaigns; instant and ephemeral celebrity generated by television and the internet. Same as AMST:2230.

**HIST:2250 The History of Social Justice Movements 3 s.h.**

History of contemporary social movements in the U.S. and how these movements have directly affected policies related to environment, food, reproductive justice, civil rights, immigration, labor, race, and gender; students read, explore, discuss, and write about the history of contemporary social movements in the U.S. that had lasting effects on policies related to environment, agriculture, health, reproductive justice, civil rights, labor, race, gender, and immigration; exploration of multiple modes of representation and resistance including protests, boycotts, strikes, music, art, writing, riots, civil disobedience, theater, poetry, dance, and poetry. Same as GWSS:2250, SJUS:2250.

**HIST:2266 Civil War and Emancipation 3 s.h.**

160 years later, what can we learn about American history from studying a war that both killed and liberated an unprecedented number of people? Why did it take a war to end slavery? How did emancipation occur and how did enslaved people accelerate the destruction of U.S. slavery during the war? Same as AFAM:2266.

**HIST:2267 African American History to 1877: From Slave Cabin to Senate Floor 3 s.h.**

Experiences of African and African American people in the American colonies and the states of the new nation; history of Africans and African Americans as early settlers, enslaved and free, in places such as Detroit, Chicago, New York, and New Orleans; interactions with Indigenous people; role in the war for American independence; long history of resistance to slavery and racial discrimination; exploration of the rich history of community building, creation of significant Black social and cultural institutions, and formation of Black political thought and political activism. GE: Diversity and Inclusion. Same as AFAM:2267.

**HIST:2268 African American History Since the Civil War** 3 s.h.

Exploration of racial oppression of African Americans and multiracial struggles against that oppression since the Civil War era; students examine the history of racism at individualized and systematic levels; historical efforts made by individuals and collective movements in service of the long Black freedom struggle; and the ways these twinned histories have shaped modern America. GE: Diversity and Inclusion. Same as AFAM:2268.

**HIST:2280 Introduction to Latina/o/x Studies** 3 s.h.

Introduction to field of Latina/o/x studies through interdisciplinary readings from literature, history, sociology, political science, urban studies, and anthropology; commonalities and differences among long-standing Latina/o/x populations (i.e., Mexican Americans, Puerto Ricans, Cuban Americans); challenges faced by newer arrivals (i.e., Dominican Americans, Salvadoran Americans, Guatemalan Americans, Central and South American immigrants). Taught in English. GE: Diversity and Inclusion. Same as LATS:2280, SPAN:2280.

**HIST:2288 Latina/o/x History from Conquest to the Present** 3 s.h.

Beginning with 16th century and stretching to the present, students map varied terrains of Latina/o/x history, exploring Mexican American, Puerto Rican, Cuban American, Dominican American, and Central American experiences in the United States; major themes include details of conquest and resistance, immigration, work, and creation of racial, gendered, and sexual differences within and between Latino/a/x communities; focus on shared Latina/o/x identity and changing images of Latina/o/x peoples within American popular culture; effects of current political issues on Latina/o/x community today.

**HIST:2292 Introduction to American Indian History and Policy** 3 s.h.

Survey of relationships among American Indian tribes, the U.S. government, and the American settler society; consequences of contact and colonialism through study of an individual tribe, impacts of U.S. federal policy and settler colonialism on tribal communities, and how tribes responded variously to these challenges. Same as NAIS:2292.

**HIST:2294 Indigenous Art Activism and Social Justice** 3 s.h.

Examination of the Native and political aspects of Native arts in the 19th and 20th centuries, from drawings and material culture produced for tourists and collectors to works that explicitly address Native oppression through federal policies, popular cultural appropriations, and colonial representations of Indigenous peoples; emphasis on Indigenous interpretations of colonial and settler history and culture through various media and representations of Indigenous identity and politics. Same as NAIS:2294, SJUS:2294.

**HIST:2420 Germany in the World** 3-4 s.h.

The Federal Republic of Germany's increasing prominence in post-Cold War international affairs against backdrop of 20th-century history; Germany's role in the European Union and the changing relationship between Europe and the United States. Taught in English. GE: International and Global Issues. Same as GRMN:2720.

**HIST:2431 Roman Law, Order, and Crime** 3 s.h.

Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Same as CLSA:2151.

**HIST:2444 Engineering and Technology in the Ancient World** 3 s.h.

Technologies developed and used in the ancient world—primarily in Greece and Rome, also in Egypt and the Ancient Near East; agriculture and food preparation; construction and architecture; technologies related to warfare. Same as CLSA:2144.

**HIST:2461 Middle East and Mediterranean: Alexander to Suleiman** 3 s.h.

GE: Historical Perspectives. Same as CLSA:2461, RELS:2361.

**HIST:2462 Middle East and Mediterranean: Saladin to Napoleon** 3 s.h.

Complement to HIST:2461; Mediterranean world from the age of Saladin (12th century) to Napoleon (early 19th century); history and imaginaries of the relationship between Europe and the Middle East.

**HIST:2465 Europe Since 1945** 3 s.h.

Europe since World War II: recovery, cold war, social and economic change, global perspectives.

**HIST:2483 History of Britain: Fall of Rome to the Norman Conquest** 3 s.h.

History of Britain from fall of Rome (after 410) and through Anglo-Saxon era, until Norman Conquest of 1066; Anglo-Saxon kings and kingdoms, church and society; poetry, historical writings, archaeology.

**HIST:2684 Korean War: Local and Global History** 3 s.h.

Examination of the Korean War as a local, regional, and global event; major topics of the war including its origins, methods of warfare, refugee question, war crimes, POWs, propaganda, memory, and commemoration from the perspective of multiple nations; discussion and analysis of scholarly works, textbooks, diplomatic documents, memoirs, fiction, visual sources, and film. Taught in English. Same as ASIA:2684.

**HIST:2687 Perspectives on Korea** 3 s.h.

History of Korea from earliest times to present; changing meanings of Korea and Koreans; relevant issues of politics, society, and culture; events that shaped ancient Korean kingdoms, the Choson dynasty (1392-1910), Japanese occupation, and divided Korean peninsula; how present perspectives on Korea have influenced understandings of its past; placement of Korea within a regional and global context to examine Korea's relationship with the world. Same as ASIA:2887.

**HIST:2802 Gender, Religion, and Social Identities in the Modern Middle East** 3 s.h.

Gender, religion, and social identities historically have served to articulate notions of modernity, community, and political ideologies; in the Middle East and North Africa, these categories have been used to assert European colonial and racial supremacy and patriarchal dominance as well as anti-colonial resistance and social revolution; examination of the formulations of gender, religion, and social identities with special emphasis on reformulation of individual and communitarian identities in the region after independence from European colonial powers.

**HIST:2810 The Modern Middle East: 1914 to Present** 3 s.h.

Fundamental questions that go beyond the boundaries of the Middle East and North Africa (e.g., legacy of colonialism, race/racism, identity, citizenship, violence); roots of present events.

- HIST:3101 History Internship** 1-6 s.h.  
Internship involving historical work. Requirements: consent of director of undergraduate studies and Pomerantz Career Center.
- HIST:3106 History Behind the Headlines** 1-3 s.h.  
Examination of selected national and international news stories and their historical background; a goal of creating informed world citizens.
- HIST:3126 History of Globalization** 3 s.h.  
Broad overview of globalization in modern world history; focus on evolution of international business, world economy, interstate system, and cultural interchange in 19th and 20th centuries; long-distance trade and exchange; global economy under British Empire; globalization after 1945 following a 30-year period of nationalism, war, and depression; global market integration in late 20th century under American supremacy.
- HIST:3133 Science, Technology, and Society in the Modern World** 3 s.h.  
Origins and history of modern science and technology in cultural, social, political, and economic context from 1500s to present, with focus on Europe and the United States.
- HIST:3137 Politics of the Archaeological Past** 3 s.h.  
How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, Indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as ANTH:3237, MUSM:3237.
- HIST:3143 International Politics: The History of the Present** 3-4 s.h.  
Historical approach to international relations; comprehensive overview of key developments and concepts in history of international politics.
- HIST:3145 Europe and the United States in the Twentieth Century** 3 s.h.  
Traveling in time and across the Atlantic, through movies and documentaries, propaganda and art, government documents and private letters, students explore the history of Europe and the United States in the 20th century and watch major events unfold: impact of the Great War and rise of fascism, World War Two and the Holocaust, origins of the European Union and NATO, major crises and resolution of the Cold War, transatlantic conflict and cooperation.
- HIST:3150 Feminist Readings of History** 3 s.h.  
Feminist analysis has revolutionized the writing of history—not only on gender and sexuality, but also on topics as diverse as politics, economics, international relations, and social hierarchies (e.g., race, class, ability, religion); students examine feminist transformations of history with specific topics chosen by instructor. Same as GWSS:3150.
- HIST:3155 The World Since 1945** 3 s.h.
- HIST:3157 Gender, Sexuality, and Human Rights** 3 s.h.  
History of gender and sexuality as components in international human rights activism and law; current debates, representative topics. Same as GWSS:3157.
- HIST:3160 Malcolm X, King, and Human Rights** 3 s.h.  
Religion and politics of Malcolm X and Martin Luther King, Jr. in the context of U.S. civil rights and international human rights in West Africa and the Muslim world; emphasis on civil rights connections to Gandhi, the Nobel Peace prize, and other international experiences that have impacted Pan Africanists, such as Stokely Carmichael, who worked on human rights. Recommendations: international studies major or undergraduate standing. Same as AFAM:3500, RELS:3808.
- HIST:3162 History of Global Health** 3 s.h.  
Foremost problems of health and disease in colonial and postcolonial societies; topical approach. Same as GHS:3162.
- HIST:3190 Medieval to Modern: The Birth of Protestantism** 3 s.h.  
Same as RELS:3190.
- HIST:3191 Individual Study: Undergraduate** arr.
- HIST:3193 Undergraduate History Portfolio** 0 s.h.  
Submission of required history portfolio. Requirements: history major and senior standing.
- HIST:3205 Modern American Cultural History** 3 s.h.  
Nineteenth- and twentieth-century U.S. history from a cultural perspective; culture defined broadly to encompass paintings, sculpture, theater, novels, and newer forms of entertainment made available by lithography, photography, cinema, the phonograph, radio, and television; rather than assume Americans were passive consumers of commercial culture, students examine how Americans expressed themselves through foodways, home decor, clothing fashions, or slang; how Americans drew on these cultural forms in social/political struggles over race, gender, class, and sexuality. Same as AMST:3205.
- HIST:3217 Latina/o/x Immigration** 3 s.h.  
Immigration experiences of people arriving in the United States from other regions of the Americas (e.g., Mexico, Central America, the Caribbean, South America); what has fueled immigration—social, political, and economic developments in the United States and other nations; territorial conquest, colonialism, real and imagined borders, chain migration, formation of immigrant communities, acculturation, circular migration, social networks; how migration restructures gender relations; immigrant communities and pan-Latina/o/x identity in the United States. Same as LAS:3217, LATS:3217.
- HIST:3220 Pandemic Politics: The COVID-19 Crisis in Historical Perspective** 3 s.h.  
How the COVID-19 crisis marks an unprecedented public health and public policy moment in American history; challenges to public polices and governing institutions that have important parallels in earlier historical moments—particularly the Great Depression and the mobilization for World War II—and also mark important departures; examination of historical, political, and public policy implications of the COVID-19 crisis in the United States; placement of current moment in historical perspective; history of key public policies including public health, health insurance, employment security, and social assistance across the last century.

- HIST:3230 American Environmental History 3 s.h.**  
Introduction to environmental change in American history; human-nature interactions from colonial period to recent past; food and agriculture, industrial technologies and transportation, energy production and consumption, urbanization and sprawl, public lands and public works, environmental politics and law, toxic pollution and health, natural disasters, climate change.
- HIST:3232 History of American Inequality 3 s.h.**  
Survey of causes and consequences of inequality in modern American history.
- HIST:3234 Hard Times, Hard Luck: Social Policy in the United States 3 s.h.**  
Students examine the history of the American "safety net"; policies that provide state assistance to individuals and families; history of public role in addressing poverty, unemployment, health, and retirement security; how policies and policy makers determine who is deserving or undeserving of public assistance; historical background of current social policy debates.
- HIST:3240 U.S. Energy Policy in Global Context 3 s.h.**  
Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as GEOG:3780, GHS:3780.
- HIST:3242 The United States in World Affairs 3-4 s.h.**  
America's emergence as leader in world affairs; imperialism, international collaboration, participation in world wars, the Cold War.
- HIST:3247 American Disasters 3 s.h.**  
Fault lines of American society and culture as exposed during catastrophe; history of American disaster investigated through methods from cultural history, visual theory, sociology, and media studies; varied disasters, 1800 to present, including those involving cities (Chicago fire, San Francisco earthquake, Chicago heat wave), transportation (Titanic, Challenger, Columbia), and environment (Union Carbide and Bhopal, Exxon Valdez); causes of catastrophes; how Americans react and are drawn to catastrophe (disaster films, jokes); related topics including technology, urbanism, race, class, apocalyptic religion, journalism, and popular culture.
- HIST:3249 History of Iowa and the Midwest 3 s.h.**  
People of Iowa and surrounding Midwestern states—a land where people work hard, are practical, down to earth, and honest; the idea of a place in the heartland as real or simply a myth; history of Midwestern states from Native American occupation to present; how reality, ideas, and images are portrayed. Same as AMST:3249.
- HIST:3250 American Stuff: Discovering History in Things 3 s.h.**  
Introduction to the historical study of material artifacts; how people have used objects to construct their memories, identities (e.g., class, race, sexuality, gender, nation), relationships, and status/power; how objects have inadvertently shaped us; finding artifacts in local collections; analyzing artifacts as historical sources; researching how objects were produced and sold and how they were used or misused; curating one's own exhibition; objects range from utilitarian (e.g., guns, farming tools, office gadgets, automobiles) to decorations, toys, souvenirs, and more.
- HIST:3251 The Office: Business Life in America 3 s.h.**  
History of business life in America from birth of Wall Street to rise of Silicon Valley; modes of managing and regulating office workers; changing designs of office buildings, furniture, gadgets; corporate response to rise of class inequalities and growing gender and racial diversity in workforce; portrayal of businessperson in novels, movies, television, art, photography. Same as AMST:3251.
- HIST:3252 Blacks and Jews: Race, Ethnicity, and Culture in America 3 s.h.**  
Examination of the historical relationship between Blacks and Jews from antebellum era to present. Same as GWSS:3130, SJUS:3130.
- HIST:3253 The Civil Rights Movement 3 s.h.**  
History of the American civil rights movement. Same as AFAM:3053, AMST:3053.
- HIST:3257 Civil Rights and Racial Justice: A Tour Through the South 4 s.h.**  
Exploration of the history of modern civil rights movement through lectures, shared readings, videos, and discussion; includes preparation and two-week tour of civil rights sites in the South. Prerequisites: SJUS:1001 or SJUS:2250 or GWSS:1002 or CCCC:2220 or AFAM:1030 or AFAM:2268 or HIST:2268 or AFAM:3053 or AMST:3053 or HIST:3253 or HIST:3232 or HIST:4260 or AFAM:3100 or HIST:3160 or HIST:3260 or AFAM:3260 or HIST:3282 or GWSS:3282 or HIST:4130 or HIST:4260. Same as AFAM:3257, GWSS:3257, SJUS:3257.
- HIST:3259 Making Change, Making History: Iowa's Black Activists and Digital History 3 s.h.**  
From the 1830s through the end of the 19th century, African Americans formed local, state, and national meetings called "Colored Conventions," where they strategized about how to achieve social justice; students explore Iowa's connections to this history of political activism. Same as GWSS:3459, SJUS:3459.
- HIST:3260 Violence in Black America 3 s.h.**  
Examination of violence—physical, structural, gendered, and psychological—and its impact of shaping Black American experience through resistance, cultural production, and community development. Same as AFAM:3260.
- HIST:3263 American Ruins 3 s.h.**  
Emergence and development of American fascination with ruins, from Indigenous to urban-industrial remains; actual ruins and depiction of imagined ruins in art, literature, cinema.
- HIST:3265 American Monuments 3 s.h.**  
History of public monuments in America from the inception of first major monuments in the 1820s to the latest incarnations (e.g., counter-monuments such as the 9/11 Memorial, spontaneous and temporary monuments, online memorials); how monuments have depicted Indians, Blacks, Southern confederates, women, and other groups; how monuments have commemorated wars, Indian massacres, lynchings, and political movements (e.g., civil rights, women's suffrage); how monuments have been reinterpreted through popular protests and depositing of artifacts; why monuments have attracted so much controversy, culminating in recent events at Charlottesville. Same as AMST:3265.

**HIST:3267 Apocalyptic Visions and Movements in U.S. History** 3 s.h.

The end of the world as imagined, feared, and in some cases, desired by Americans from 1700s to present; status of apocalypse in various religious communities and in American culture more generally (i.e., literature, art, popular culture, etc); focus on political and social implications of apocalyptic visions; how they shaped historical events and periods (i.e., American Revolution, Civil War, Cold War); how they contributed to nationalism, racism, and imperialism as well as pacifism, anti-Americanism, utopian communities, and opposition to industry and technology; what role apocalypticism plays in the United States today.

**HIST:3270 Colonial North America, ca. 1600-1775** 3 s.h.

Introduction to major themes in colonial American history prior to the American Revolution; Native American history; colonialism and Native resistance; slavery; material culture; religion and spirituality; immigration; gender and sexuality in cross-cultural perspective. Same as NAIS:3270.

**HIST:3271 American Revolutionary Period** 3 s.h.

Political and military history of colonies 1754-1776; imperial upheaval; building a new nation; creation of federal system.

**HIST:3272 Native Americans in the Age of Empires, ca. 1500-1815** 3 s.h.

Overview of major issues in Native American history during the period of European Imperialism; colonialism, diplomacy and alliance building, warfare, captivity, religious and spiritual exchanges, revolution, and the disintegration of Native-European alliances in the early 19th century. Same as NAIS:3272.

**HIST:3273 War and Violence in Early American Societies and Culture** 3 s.h.

Introduction to role of warfare and violence in shaping early American society.

**HIST:3275 History of Slavery in the U.S.A.** 3-4 s.h.

Beginning, expansion, and ending of American slavery; how our national memory of slavery in popular culture (in high school history, in historical landmarks and museums) helps or hinders our understanding of history of slavery in the U.S. Same as AFAM:3275.

**HIST:3280 Women and Power in U.S. History Through the Civil War** 3 s.h.

Exploration of how women, as political actors, shaped the outcome of familiar events (the American Revolution, the Civil War); how they organized social movements around important issues of their lives such as the abolition of slavery and the right to consent to sexual intimacy; how women's inequality was established in law and social practice; how women thought about and challenged inequality, both as individuals and in social movements. Same as GWSS:3280.

**HIST:3282 Women and Power in U.S. History Since the Civil War** 3 s.h.

Major events and themes in U.S. women's history from late 19th century to present; how women's experiences have differed from men's; exploration of distinct, but interconnected histories of different groups of women; changing ideals of femininity; women's experience of industrialization, immigration, depression, war, and sexual revolution; women's activism for social reform, women's rights, labor, civil rights, peace, and the New Right. Same as GWSS:3282.

**HIST:3289 The Atlantic World c. 1450-1850** 3 s.h.

Interactions between peoples of Europe, Africa, and the Americas between the 15th and mid-19th centuries, interconnected system of exchange that defied national and imperial boundaries; encounters between Native Americans, Africans, and Europeans in different parts of the Americas; forced and voluntary resettlement of Africans and Europeans overseas; development of plantation slave societies; biological consequences of transatlantic contact; circulation of people, goods, and ideas; development of creole societies; era of revolutions; abolition of slavery. Same as NAIS:3289.

**HIST:3401 Ancient Egypt and the Ancient Near East** 3 s.h.

Survey of political, economic, religious, and social change in ancient Egypt from ca. 3000 B.C.E. until its conquest by Persia, and of the ancient Near East from ca. 3000 B.C.E. until Alexander the Great's conquests. Same as CLSA:3401.

**HIST:3404 The World of Ancient Greece** 3 s.h.

Survey of Greece history from ca. 2000 B.C. to 300 B.C.; Minoan, Mycenaean, and Greek society and culture; contact between Greek mainland and eastern Mediterranean cultures; development of the polis; political developments throughout the period; readings include a variety of sources in translation as well as modern interpretations; methodological problems in studying ancient Greece including interpretation of ancient historiography and using evidence from art, archaeology, and literature; knowledge of ancient Greek not required. Same as CLSA:3404.

**HIST:3409 Medieval Civilization I** 3 s.h.

Europe from the decline of Roman empire to the eleventh century; cultural, political, economic, artistic and architectural foundations of Western civilization. Same as MDVL:3409.

**HIST:3410 Medieval Civilization II** 3 s.h.

Europe from the eleventh century to the Italian Renaissance; cultural, political, economic, artistic, and architectural foundations of Western civilization. Same as MDVL:3410.

**HIST:3412 Medieval Philosophy** 3 s.h.

Introduction to St. Thomas Aquinas, William of Ockham, and Duns Scotus, three of the most brilliant philosophers of the high middle ages (11th through 13th centuries); their writing as Christians in (fascinated) reaction to philosophical systems of their pagan predecessors; how medieval philosophers wrestled with problems concerning possibility of free will and responsibility in face of divine omniscience and foreknowledge; existence of abstract universals in a world that is nonabstract and particular; nature and existence of God; skepticism and limits of human knowledge; nature of good and evil. Same as PHIL:3112.

**HIST:3413 Early Modern Britain: The Tudor and Stuart Era** 3 s.h.

History of Britain during the reigns of the Tudor and Stuart monarchs (1509-1714); focus on political institutions, economic development, civil conflict, religious change, origins of the British Empire, and everyday life.

**HIST:3415 Britain and Its Empire: Eighteenth and Nineteenth Centuries** 3 s.h.

Britain and its empire from the Revolution of 1688 to the outbreak of World War I; topics include the growth of the British Empire; trans-Atlantic slave trade and its abolition; Industrial Revolution; political union and ongoing conflict between England, Scotland, and Ireland; political reform, expansion of franchise, and rise of labor and feminist movements; science, art, and culture; religion in British life.

**HIST:3416 Modern Britain: War and Empire in the Twentieth Century 3 s.h.**

Great Britain from the First World War to Tony Blair's political triumph; World War I and the postwar settlement, expansion of the British Empire in the Middle East, rise of the Labour Party, the Depression, appeasement, World War II, Labour Party's triumph after the war, decolonization and emergence of postcolonial independent states around the world, 1960s cultural changes, Margaret Thatcher's political ascendancy, transformation of the Labour Party under Blair, and emergence of a new, multicultural and multiracial Britain.

**HIST:3420 Health and Healing in Early Modern Europe 3 s.h.**

Health, healing, and medicine (1200-1700); transmission of medical knowledge from medieval Islam and ancient Greece; healers including physicians, midwives, surgeons, apothecaries, and ordinary people; epidemic disease; diet and the body; sex and reproduction; health in the colonial Atlantic world; healing and religion including prayer, magic, and witchcraft. Same as GHS:3420.

**HIST:3423 Ireland in the Early Middle Ages 3 s.h.**

Ireland and the northern British islands 400-1000 C.E., a region of small kingdoms and thin population, lacking natural resources, far from Rome and ancient centers of Mediterranean culture; development of civilization, including monastic, legal, theological, and scholarly traditions that had a major impact on continental Europe; early medieval Irish history; introduction to the world of historical scholarship. Same as MDVL:3423.

**HIST:3427 Family, Gender, and Society in Early Modern Europe 3 s.h.**

Social and gender ideologies as inscribed in patterns of authority (household, church, state); ranges of human endeavor (intellectual, psychological, biological); community organization (social, economic, legal, sexual); their influence on concept of community. Same as GWSS:3427.

**HIST:3436 Food in Ancient Mediterranean Society 3 s.h.**

Practices and values influenced by consumption and production of food in ancient Mediterranean societies; varied topics, including methods of food production and distribution, hierarchies of status as associated with food, food and ethnic identity, food and health, food and religion; focus on classical Greek and Roman society, Egypt, the ancient Near East, and Persia. Recommendations: familiarity with Greek and Roman civilization and history. Same as ANTH:3204, CLSA:3836.

**HIST:3448 Barbarians and the Fall of Rome 3 s.h.**

Did barbarian hordes cause the decline and fall of the Roman Empire? In the span of just a few hundred years, the Roman empire of the Mediterranean world was transformed in terms of culture, religion, and the peoples that inhabited it, but we can't place all the blame for the so-called fall of Rome on the Huns, Visigoths, Vandals, and other migrating peoples; students explore textual, visual, and archaeological evidence for the spread of these "barbarian" cultures, the sacking of Rome, and the late antique transition to the Middle Ages from 200-800 C.E. Same as CLSA:3148.

**HIST:3470 France from 1815 to Present 3 s.h.**

History of France in the 19th century to present; major topics include the French Revolution, France and the European balance of power, Napoleon, the Bourbon Restoration, the Revolutions of 1830 and 1848, Napoleon III and the Second Empire, creation and survival of the Third French Republic, relations between the French state and the Catholic Church, the Dreyfus Affair, French colonial expansion, France and the origins of the First World War, France's role in World War I, and France and the origins of the Second World War.

**HIST:3473 German History 1648-1914 3 s.h.**

Introduction to history of German-speaking lands from the devastation of the Thirty-Years War through the trauma of World War I, cutting across the French Revolution, the Revolutions of 1848, and German unification (1871); role of the German nation-state in European politics, not centered on the rise of that state and those politics, instead, an exploration of the vast diversity of German communities that emerged and persisted across this period; students are challenged to think about ways in which German history was part of a global history that extended into Iowa as well as many other places in the world.

**HIST:3475 Germany's Twentieth Century 3-4 s.h.**

How did Germany come to play such a great role in 20th century history, and how does that legacy shape the 21st century? Students pick up the story with Germany as an upstart new nation-state in the late 19th century and explore causes and consequences of World War I; the promise and crises of the Weimar Republic; Nazism, the Holocaust, and World War II; divided Germany in the Cold War; reunification; what the larger power structures, economic developments, and geopolitics were that shaped this history; how ordinary people experienced and contributed to it, and what Germany's impact is on the larger world.

**HIST:3485 Early Modern Catholicism 3 s.h.**

Same as RELS:3385.

**HIST:3492 Russian Literature in Translation 1860-1917 3 s.h.**

Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (*Fathers and Sons*), Tolstoy (*Confession*), Dostoevsky (*The Idiot*, *The Brothers Karamazov*), and Chekhov (plays). Taught in English. Same as RUSS:3202, TRNS:3203, WLLC:3202.

**HIST:3501 Rebel Island: A History of Cuba 3 s.h.**

Cuban society and revolutionary movements since the late colonial period, including the years since 1959. Same as LAS:3501.

**HIST:3508 Disease and Health in Latin American History 3 s.h.**

Survey of major topics in Latin American history in relation to development of medicine and public health. Same as GHS:3508, LAS:3508.

**HIST:3515 Introduction to Modern Latin America 3 s.h.**

Introduction to modern history of Latin America from independence movements of the early 19th century to present; topics include race and ethnicity, slave emancipation, gender, labor relations, and foreign interventions; exploration of relationship between economic, social, and political structures over time to explain difference and commonality between Latin American people and societies; focus on topics pertaining to histories of Mexico, Central America, the Caribbean, and South America. Same as LAS:3515.

- HIST:3644 Gandhi and His Legacy** 0-1,3 s.h.  
In-depth introduction to the life, ideas, and ongoing impact of Mohandas Karamchand Gandhi (1869-1948); from his conservative upbringing to his early career as a lawyer, his transformative experiences, and self-transformation into a charismatic mahatma ("great soul"), the pursuit of political and social liberation through non-violent civil disobedience, the assertion of human rights, and the quest for sustainable lifestyles that uphold the common good and protect the natural environment; evolution of Gandhi's thought and activism and his legacy. Same as RELS:3644, SOAS:3644.
- HIST:3650 Chinese History from 1600 to 1911** 3 s.h.  
Chinese history from the 17th to early 20th century, history of the Qing dynasty (1644-1911); Qing's role in shaping aspects of today's politics in China and the mentality of Chinese people; foundation of Manchu state in early 17th century, Ming-Qing transition in 1644, politics and society during the high Qing era, decline of the empire under foreign invasion and inner rebellions in the 19th century, collapse of the dynasty in 1911. Same as ASIA:3650.
- HIST:3652 Twentieth-Century China** 3 s.h.  
Communist revolution from 1920s to founding of People's Republic of China in 1949; Mao Zedong's radical policies, Cultural Revolution; Deng Xiaoping's economic reforms; China today. Same as ASIA:3652.
- HIST:3655 Zen Buddhism** 3 s.h.  
Same as ASIA:3655, RELS:3655.
- HIST:3685 Modern Korean History** 3 s.h.  
Transformation of Choson Korea to North and South Korea; local, regional, and global transformations in Korea from the late 19th century to present; severing of historic ties with China; encounters with the West and Japan; new ideas of civilization and political community; erasure of Choson as a country in 1910; colonial experience; civil war; industrialization; creation of North Korea; democratic movement in South Korea and spread of diasporic communities abroad; Korean peninsula as a laboratory for analyzing compressed communist and capitalist modernities of the 20th century. Same as ASIA:3685.
- HIST:3745 Islam in Africa** 4 s.h.  
African Islamic history beginning with earliest Muslim migrants from Arabia to Ethiopia in early 7th century C.E. to dawn of 21st century; focus on historical development of Islam on African continent, specific regions, and particular themes; part of Islamic Studies Virtual Curriculum and Committee on Institutional Cooperation (CIC) CourseShare Program. Same as IS:3745, RELS:3845.
- HIST:3755 Understanding Health and Disease in Africa** 3 s.h.  
Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as GHS:3555, IS:3555.
- HIST:3758 The Ancient African Past** 3 s.h.  
Africa to 1880; oral tradition and other sources; political development, ecological change, slavery and slave trade. Same as AFAM:3758.
- HIST:3760 The Making of Modern Africa** 3 s.h.  
Africa in colonial and postcolonial period; economics, political structures of colonialism; social change, political life in the 20th century. Same as AFAM:3760.
- HIST:3808 Art, Power, and Resistance in the Modern Middle East and North Africa** 3 s.h.  
Contemporary history of the Middle East and North Africa through (auto)biographies (e.g., comics, films, literature); use of art and comics as sites of political power and resistance; sources delve into Middle Eastern experiences of conflict and political violence—how ordinary people survived during the Lebanese Civil War in the 1970s to 1980s; what has been the Palestinian Diasporic experience after 1948; how Israelis remember the 1982 military campaign in Lebanon; what comics bring to our knowledge of the Islamic Republic of Iran; how political institutions use visual arts as means of persuasion; and how sites of power then become sites of resistance.
- HIST:3810 History of the Modern Middle East** 3 s.h.  
Survey of major political, socioeconomic, and cultural changes in the Middle East and North Africa after 1900.
- HIST:3995 History Honors Research Seminar** 0-3 s.h.  
Research and method seminar; developing and writing an honors thesis in history. Corequisites: HIST:3996. Requirements: g.p.a. of 3.33.
- HIST:3996 Honors Thesis** 3 s.h.  
Individual research and writing under supervision of faculty member; occasional group sessions with other students in the course.
- HIST:4101 History of Human Rights** 3 s.h.  
Introduction to history of human rights in the 20th century; disjuncture between human rights in theory and in practice; provides an international approach to the history of human rights by situating U.S. human rights activism and policy in a global context; focus on human rights following World War II, contradictory impact of the Cold War; emergence of human rights politics in 1970s United States, challenges of post-Cold War human rights activism, and human rights rhetoric of the Global War on Terrorism.
- HIST:4115 Workshop for History Educators and Cultural Professionals** 1-3 s.h.  
Topics vary based on ongoing project work and instructors.
- HIST:4130 Museum Literacy and Historical Memory** 3 s.h.  
Concepts and methods for understanding the role of museums in shaping knowledge and collective memory of history; institutionally based exhibits and collections, historical markers and public monuments, public holidays and events, media and artistic works that interpret the past; how events, people, and civic ambitions are memorialized and how memories of them are shaped; appearance of museums and related practices in the non-Western world after 1850. Same as MUSM:4130.
- HIST:4131 Origins of Western Science** 3 s.h.  
Exploration of philosophical, cultural and religious factors behind birth and growth of natural philosophy (science) from prehistory to High Middle Ages. Recommendations: junior or senior standing.
- HIST:4132 Science, Medicine, and Race** 3 s.h.  
Examination of social construction of race in scientific and medical thought; focus on Atlantic world (Europe, Africa, the Americas); construction of race in other parts of world.

- HIST:4148 Global History as Local History: European Immigration in Iowa** 1,3-4 s.h.  
Opportunity to use skills developed in other courses to pursue global history locally; waves of immigration that flowed across Iowa during 19th century; ways in which national and international shifts in economics and geopolitics affected this population and state from mid-19th century through World War II; research project based on a local community of student's choice; capstone course. Recommendations: junior or senior standing.
- HIST:4162 History of Global Health** 3 s.h.  
Foremost problems of health and disease in colonial and postcolonial societies; topical approach. Same as GHS:4162.
- HIST:4176 Vietnam War on Film** 3-4 s.h.
- HIST:4201 History of the American Deaf Community** 3-4 s.h.  
Students discuss the roots of American Deaf community, exploring the development of a distinct language known today as ASL and the culture of Deaf people in America during 19th and 20th centuries. Taught in American Sign Language. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information. Same as ASL:4201.
- HIST:4203 Disability in American History** 3 s.h.
- HIST:4216 Mexican American History** 3 s.h.  
Survey of Chicana/o (Mexican American) history from 18th century to present; Mexican American society's diverse nature, explored through class, ethnic, gender, and regional divisions. Same as LAS:4216.
- HIST:4228 Cold War America** 3 s.h.  
Key historical developments of the Cold War; examination of how the war shaped ideological, political, economic, and cultural aspects of American society.
- HIST:4229 The United States as Empire** 3 s.h.  
The U.S. rise to world power; continental empire-building in the 19th century; industrial, military and colonial power in the early 20th century; global hegemony from the mid-20th century to the present; white settler colonialism; overseas rule of Philippines and Puerto Rico; cultural Americanization; Cold War interventionism; post-9/11 unilateralism; meanings of American exceptionalism, intersections of U.S. nationalism with race and gender, remaking of domestic U.S. society within a changing global and imperial context.
- HIST:4245 The Social History of American Baseball** 3 s.h.  
History of baseball in the United States from its beginnings as a working-class recreation through the present; history of the game and the people who have played it, how the history of American society is viewed through the lens of baseball, how the game has contributed to social change; social class, race, urbanization, crime and political corruption, public health, big business and professionalism, spectatorship, entertainment and mass culture, national mythology, the exercise of legitimate authority (umpires!).
- HIST:4260 The Sixties in America** 3 s.h.  
The 1960s as a moment in American politics and culture, pivotal and romanticized; major events and conflicts, including the election and assassination of President Kennedy, Lyndon B. Johnson (LBJ) and the Great Society, civil rights movement and Black Power movement, counterculture and the urban crisis, sexual revolution and second wave feminism, anti-war protest and silent majority; changing conceptions of the sixties and development of a fresh interpretation.
- HIST:4264 The American Home Front During World War II** 3 s.h.  
Examination of the significance and impact of World War II on the American home front; topics include labor relations, private lives, citizenship and civil rights, popular culture, and propaganda.
- HIST:4286 U.S. Legal History** 3 s.h.  
History of the law in the United States, as it developed from era of the Revolution to present; interaction of courts and legislatures with social movements; readings on court decisions, social histories, fiction (film and prose).
- HIST:4334 Topics in American Borderlands History** 3 s.h.  
Broad historical overview of the American Borderlands, a region that has been the site of conflict, cultural exchange, and economic interdependence.
- HIST:4400 The Roman Empire** 3 s.h.  
History of Roman empire from assassination of Julius Caesar through 5th century A.D.; political, economic, cultural, and social developments from the transition to imperial power to the shift of power from west to east. Same as CLSA:4400.
- HIST:4403 Alexander the Great** 3 s.h.  
History of Alexander the Great and the generals who succeeded him in ruling the lands he conquered; military, political, and social history. Same as CLSA:4403.
- HIST:4406 Warfare in Ancient Mediterranean Society** 3 s.h.  
Same as CLSA:4106.
- HIST:4407 The Hellenistic World and Rome** 3 s.h.  
Social, economic, political, intellectual history of Graeco-Roman world, from fourth century B.C.E. to Justinian's reign.
- HIST:4412 History of the Medieval Church** 3 s.h.  
Development of Christianity to end of great schism; rise of Roman primacy, development of monasticism, orthodox and heterodox groups. Same as MDVL:4412.
- HIST:4414 Christianity and Empire (35-450 AD)** 2-3 s.h.  
Introduction to major topics in history of Europe and the church; relationship between Christian message and political power as evidenced in Christian writings from Paul to St. Augustine; examination of key historical moments.
- HIST:4415 European Intellectual History Medieval to Modern** 3 s.h.  
Long view of European intellectual life from Middle Ages to modern times; students learn about key thinkers of the medieval period before expanding focus to include Renaissance and Early Modern thinkers (e.g., Cusanus, Giordano Bruno, Vico); exploration of modern European philosophical and historiographical tradition—intertwining patterns of sociology, philosophy, and history including Hans Jonas, Hannah Arendt, and Ernst Cassirer; understanding these thinkers within broader context of European cultural and political history. Same as MDVL:4415.

- HIST:4417 Medieval Intellectual History 300-1150** 3 s.h.  
Philosophy, art, literature, religious culture of Europe from waning of classical intellectual modes of culture in late antiquity, to their recovery in 12th century. Same as MDVL:4417.
- HIST:4418 Medieval Intellectual History 1150-1500** 3 s.h.  
European philosophy, religion, literature, art from 12th-century rise of scholasticism; their transformation in period of Copernicus, Luther. Same as MDVL:4418.
- HIST:4419 Ancient and Medieval Science** 3 s.h.  
Greeks' initiation of scientific inquiry; developments in astronomy, cosmology, optics, mathematics, physics, medicine, psychology in ancient and medieval societies of Middle East, Europe. Same as MDVL:4419.
- HIST:4428 Nineteenth-Century Europe** 3 s.h.  
Political, social, economic, and cultural factors.
- HIST:4430 Topics in Material Analysis** 3 s.h.  
Analysis and description of physical book artifacts and their component parts (parchment, paper, bookbinding) and allied specialties (the lettering arts, printing and illustration techniques); reading, writing, presentations. Same as UICB:4930.
- HIST:4433 France Under Nazi Occupation, 1940-1944** 3-4 s.h.  
Political, economic, social, and cultural conditions that prevailed following the Nazi conquest of France in 1940; examination of this period of upheaval through work of prominent historians of France; representations of occupied France in literary works, documentary, and fictional films produced during the war and in the politically fraught culture of collective memorialization that formed in aftermath of this national trauma. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. Same as FREN:4433.
- HIST:4438 Modern European Imperialism** 3 s.h.  
Introduction to the history of European imperialism since the 18th century; major shifts in the nature of European empire examined through the Haitian Revolution, India, Australia, Congo, Algeria.
- HIST:4440 Artists, Intellectuals, and Politics in 20th-Century Europe** 3 s.h.  
Political engagement of European artists and intellectuals from 1870 to present; cultural and intellectual history, rise of social science, artistic avant-gardes, fascist and socialist aesthetics, world war, Cold War, existentialism, feminism, anti-colonialism.
- HIST:4455 Religious Conflict: Early Modern Period** 3 s.h.  
Religious conflict among European Christians (Catholics, Lutherans, Calvinists, and Radicals), as well as between Christians and non-Christians from the Late Middle Ages through the Reformation of the 16th century and beyond. Same as RELS:4155.
- HIST:4464 Modern France 1789-1871** 3 s.h.
- HIST:4465 Modern France 1870-Present** 3 s.h.
- HIST:4478 Holocaust in History and Memory** 3 s.h.  
Origins and implementation of Holocaust; perpetrators, victims, and bystanders; impact of Holocaust on post-World War II world.
- HIST:4499 First World War** 3-4 s.h.  
Social, economic, political, technological, military aspects of causes, conduct, consequences of war of 1914-1918; fiction, contemporary documents, historical works, films.
- HIST:4502 History of Mexico** 3 s.h.  
Mexican history since the eve of the Spanish invasion, with focus on the national period; may include ethnic groups, conquest and demographic disaster, Native survival, labor and migration, social protest and rebellions, nationhood, regional differences, religions, popular culture, economic growth and distribution, state building, international relations; survey. Same as LAS:4502, NAIS:4502.
- HIST:4504 Latin American Studies Seminar** 3-4 s.h.  
Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as ANTH:4700, LAS:4700, PORT:4700, SPAN:4900.
- HIST:4505 Topics in Latin American History** 3 s.h.
- HIST:4510 Colonial Latin America** 3 s.h.  
Cultural, institutional continuity from 16th century to independence.
- HIST:4610 Japan - Age of the Samurai** 3 s.h.  
Society, culture, and politics of feudal Japan; social class, gender, norms, and political and economic developments explored through cinema and literature. Taught in English. Same as JPNS:4610.
- HIST:4615 Modern Japan** 3 s.h.  
Political, social, and cultural developments of Japanese feudalism; feature films, fiction. Taught in English. Same as JPNS:4615.
- HIST:4616 Japanese History and Society: World War II to the Twenty-First Century** 3 s.h.  
Transformation of Japan from devastation and unconditional surrender in 1945 to peace and prosperity in late 20th century; defeat and occupation, 1945-1952; peace and high economic growth, mid-1950s to early 1990s; economic, social, and political challenges of 21st century; combination of historical analysis with discussion of contemporary political, cultural, social, economic, ecological, and geopolitical developments through reading of English-language media.
- HIST:4620 Japan-U.S. Relations** 3 s.h.  
Political, social, economic, and cultural developments in Japan mid-19th century to late 20th century. Taught in English. Same as JPNS:4620.
- HIST:4666 Topics in Asian History** 3 s.h.  
Same as ASIA:4166.
- HIST:4815 Topics in the Modern Middle East** 3 s.h.
- HIST:4910 The Book in the Middle Ages** 3 s.h.  
Relation of text, decoration, function, creators, and audience in different genres of medieval manuscript books 400-1500 A.D. Same as SLIS:4910, UICB:4910.
- HIST:4920 The Transition from Manuscript to Print** 3 s.h.  
History of the book and communication in Europe 1400-1800; production, distribution, and use of texts in cultural context. Same as SLIS:4920, UICB:4920.
- HIST:5431 Roman Law, Order, and Crime** 3 s.h.  
Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Recommendations: some background in Roman history. Same as CLSA:5151.
- HIST:6001 First-Year Graduate Colloquium** 3 s.h.  
Introduction to history graduate program.

**HIST:6002 Introduction to Graduate Studies in History: Historiography and Methods** 3 s.h.

Students gain a better understanding of the principal intellectual strengths of the history department, degree requirements (e.g., M.A. essay and comprehensive exams), various methodological approaches and audiences, fundamental analytical skills (e.g., how to write a historiographical essay, how to use databases, how to edit their own work), and professional issues (e.g., participation in conferences and academic associations); for students getting started on their M.A. essays or Ph.D. dissertations. Requirements: first-year history graduate standing.

**HIST:6003 History Theory and Interpretation** 3 s.h.

Introduction to basic theoretical approaches to historical research.

**HIST:6004 Comprehensive Exams Seminar I** 3 s.h.

Comprehensive exams seminar; for history graduate students in semester prior to comprehensive exams. Requirements: history graduate standing in third semester.

**HIST:6005 Comprehensive Exams Seminar II** 3 s.h.

Comprehensive exams seminar; for history graduate students during the semester in which they take their comprehensive examinations. Requirements: history graduate standing.

**HIST:6135 Crossing Borders Seminar** 2-3 s.h.

Taught in English. Same as AFAM:6635, ANTH:6635, COMM:6635, ENGL:6635, FREN:6142, GEOG:6635, GRMN:6635, IWP:6635, POLI:6635, SPAN:6904.

**HIST:6140 Engaged Scholarship in the Humanities** 0,3 s.h.

Survey of literature on community-engaged scholarship (CES) in the humanities; exploration of the pioneering work of engaged scholars in Native American, Latino, and African American studies; students write a research prospectus that is consistent with CES methodologies. Same as AMST:6140.

**HIST:6158 Approaches to Teaching Global History** arr.

Approaching history from a global or international perspective; introduction to issues; preparation for teaching courses at college level; historiographies and methodologies, problems of periodization and area divisions, syllabi on world and global history.

**HIST:6250 American Religious Histories** 3 s.h.

Focused examination of the variety and vagaries of religious experiences in the Americas, 16th to 21st centuries. Same as RELS:6150.

**HIST:6475 Seminar: Reformation Culture** arr.

Culture and thought of 16th-century Europe. Same as RELS:6475.

**HIST:7101 Research Seminar** arr.

Research for students in all areas of history.

**HIST:7122 Readings: History of Gender and Sexuality** arr.

Topics in international and transnational history of gender and sexuality. Same as GWSS:7122.

**HIST:7126 Readings on the History of Human Rights** arr.

Survey of recent literature on history of human rights; development of bibliographies; readings from individual areas of interest (e.g., transitional justice, migration, gender and sexuality, labor).

**HIST:7140 Climate Change in World History** 3 s.h.

Readings on climate change and its impacts on planetary life across time.

**HIST:7155 Theories of Diaspora, Immigration, and Migration** arr.

Vexed notion of diaspora(s); challenge of understanding and writing histories of immigration and migration during modern era; exploration of central questions including difficulty of tracking things in motion—individuals, families, groups, and ever-elusive cultural traits as they flow through local, national, and international contexts that are themselves in flux.

**HIST:7160 Global History of Race, Science, and Medicine** 3 s.h.

Examination of the history of social construction of race in scientific and medical thought; use of science and medicine to conceptualize race, as well as how race was used by scientists and physicians in their practice; primary focus is on the Atlantic World—Europe, Africa, and the Americas—and touches briefly on the construction of race in other parts of the world. Same as GHS:7160.

**HIST:7165 Global History of Incarceration** 3 s.h.

History of incarceration across world regions from antiquity to present; particular emphasis on the Atlantic and trans-America between 16th and early 21st centuries; relevant historical literature on Middle East, Asia, Russia, and Australia; analytical focus on how epistemologies, structures, processes, and more recent debates (e.g., racial slavery, policing, science and medicine, war and revolution, migration, prison abolition, etc.) have shaped and transformed logics and practices associated with incarceration over time.

**HIST:7175 Theories of World History** arr.

Macrohistorical theories of world history; can a prominent theory or combination of theories explain the social evolution of humankind over hundreds of thousands of years; how to periodize world history; does history have a direction, and if so, what direction; the future of humankind.

**HIST:7190 Individual Study: Graduate** arr.**HIST:7192 Predissertation Seminar** arr.

Preparing for dissertation work for students in all areas of history; thesis topic, relevant literature in the topic field, potential sources, primary research strategy, sources of research funding, research proposal; preparation for submitting applications for dissertation research fellowships and beginning of completing the thesis prospectus.

**HIST:7193 Thesis** arr.**HIST:7202 Readings: 20th-Century Native American History** arr.

Examination of the Indigenous 20th century through a series of themes including settler colonialism, sovereignty and self-determination, federal Indian policy, and Indigenous feminism; readings focus primarily on secondary sources, but attention is given to key primary sources; students are required to carry out specified research tasks. Same as NAIS:7202.

**HIST:7205 Gender and Race in Nineteenth-Century United States** arr.

Same as AFAM:7205, GWSS:7205.

**HIST:7208 The American Civil War in History and Memory** arr.**HIST:7210 The Long Civil Rights Movement** arr.

Exploration of the history and historiography of the modern Black freedom struggle in the United States, with particular attention to how historians in recent years have reconsidered traditional framings of that struggle's chronology, geography, gender politics, political aspirations, and achievements. Same as AFAM:7210.

**HIST:7212 Seminar: Research in Race and Ethnicity** arr.

- HIST:7214 Readings: African American Women's History** arr.  
Same as AFAM:7214, GWSS:7214.
- HIST:7217 Social Movements in the United States from 1965 to Present** 3 s.h.  
Exploration of social movements in the United States and how they have shaped the country and its people since 1965; students study a range of historic movements that were diverse in their ideology and goals—from the fight for welfare rights to conservative tax revolts, LGBTQ+ rights to the White Power Movement—and examine more contemporary movements (e.g., Standing Rock and Black Lives Matter) and situate them historically in their respective protest lineages; interrogation of what constitutes a social movement and how and why they emerge, operate, and ultimately end; opportunity to work on a research project relevant to student's own interests.
- HIST:7220 Readings: History of Sexuality in the United States** arr.  
History of sexuality within the family, its move into the marketplace; social customs and taboos, methods of birth control and abortion, religion, medical and psychological writings, state policies. Same as GWSS:7220.
- HIST:7227 Readings in American Environmental History** arr.  
Introduction to historiography—classic texts and recent work—in American environmental history; topics from colonial period to recent past.
- HIST:7236 Readings in Borderlands History** arr.  
Comparative borderlands; articles on diverse topics from borderland regions worldwide (main focus on U.S.-Mexico borderlands, with inclusion of European, Asian, African, and Latin American borderlands); analysis of each article for its thesis, research questions, methodology, primary sources, and weaknesses; seminar.
- HIST:7241 Readings in U.S. Social Policy** arr.  
History and historiography of social welfare policy, chiefly in the United States; proceeds chronologically with analysis of private and public efforts to address problems including poverty, unemployment, sickness, homelessness, and family violence.
- HIST:7246 United States in the World** arr.  
Historiographies that situate modern U.S. history in a global context; how historians study the American past beyond traditional, nation-centered frames; transnational histories of migration, nativism and exclusion; social movements; colonial empire-building; commercial and cultural Americanization; transfer of policy ideas; military occupations; decolonization; Cold War's impact on social reform; post-9/11 moment.
- HIST:7261 Readings: Early American History** arr.
- HIST:7263 Readings: Contemporary United States** arr.  
New work in American social, political, and economic history; readings tailored for students seeking background for research or preparing for comprehensive exams.
- HIST:7271 Transnational U.S. History: Theory and Practice** arr.  
Benefits of transnational U.S. history and comparative analysis; exploration of connections between theory and practice in the field of history.
- HIST:7275 Readings in the History of Women and Gender in the U.S.A.** arr.  
Same as GWSS:7275.
- HIST:7287 Seminar: History of Women and Gender** arr.  
Opportunity to pursue research for a single paper, M.A. thesis, or doctoral dissertation in the history of women and gender in the United States; interdisciplinary and internationally comparative projects; meetings and evaluations with attention to the craft of writing.
- HIST:7293 Graduate Readings in Public History** arr.  
Overview of public history with attention to ways in which historians have engaged various publics; major theoretical constructs (memory, heritage, commemoration); public history methodologies (oral history, material culture, archival documentation); legal ethics; how history is communicated to the public; how public history sites contribute to public memory; how and why controversies emerge in public history settings; relationship between academic history and public history.
- HIST:7414 Slavery and Social Death: 1200 B.C.E. to 1865 C.E.** 3 s.h.  
Exploration of various slave systems in antiquity, the middle ages, and modernity in terms of their motivations, utilization, and broader social, economic, and political implications; use of literary sources and archaeological remains to investigate slave cultures in ancient Near East and Egypt, Jewish exploitation of enslaved persons, and use of chattel slavery in Greek, Roman, early Christian, and Islamic societies; antebellum U.S. slavery. Same as ANTH:7414, CLSA:7114.
- HIST:7415 Graduate Readings: Monastic History** arr.  
History of Christian monasticism in the medieval west; the developing monastic and religious orders, nuns of those groups; tertiaries, beguines, other orthodox penitent movements from the development of Christianity to the Reformation.
- HIST:7419 Readings: Medieval Intellectual History** arr.
- HIST:7422 Medieval Latin Paleography** arr.
- HIST:7428 Seminar: Medieval Philosophy** arr.  
Investigation of theories of knowledge developed by medieval philosophers including Augustine, Boethius, Duns Scotus, Ockham, and Auriol.
- HIST:7435 Readings: Women, Men, and Gender in Modern Europe** arr.  
Same as GWSS:7435.
- HIST:7440 Readings in Modern German History** arr.  
Major problems in modern German history; historiographic debates organized thematically and proceeds chronologically from the French Revolution to the present; oral presentations and comparative essays.
- HIST:7445 Readings: Imperialism and Colonialism** 3-4 s.h.  
Engagement of Europeans in an immense outward expansion of people, goods, ideas, and more than a few germs since 1492; exploration of some of the implications of this expansion by focusing on a selection of different colonial encounters and some legacies of European empires.
- HIST:7456 Readings: Modern European History** arr.
- HIST:7458 Readings: War and Society in Modern Europe** arr.  
Preparation, conduct, and aftermath of war; social-historical examination; conflicts on European territory, colonial wars, and wars of decolonization, from French Revolution through late 20th century.
- HIST:7460 Readings in the History of Modern France** arr.

**HIST:7505 Readings: Latin American History arr.**

Introduction to historiography in the field of Latin American history; students deepen their understanding of the region's history and become acquainted with trends in topical concerns, sources, and methods that are shaping historical research on Latin America's past. Taught in English. Same as SPAN:7505.

**HIST:7535 Readings in Latina/o/x History arr.**

Introduction to major works and recent scholarship in Latina/o/x history.

**HIST:7551 Readings: Globalizing Latin American Science and Medicine arr.**

Recent trends in Latin American history of science and medicine.

**HIST:7606 Readings in Chinese History arr.**

Same as ASIA:7606.

**HIST:7622 Readings in Modern Korean History arr.**

Introduction to English-language scholarly works on modern Korean history; focus on nationalist discourse, social and cultural history, and complex interactions among Koreans and Japanese within space of empire; major historiographical issues in Korean and East Asian history.

**HIST:7691 Topics in East Asian History arr.**

Introduction to major works and recent scholarship on border-crossing topics in East Asian history, including transnational/regional exchange, empire, frontiers/borderlands, migration, ethnicity, and historiography.

**HIST:7706 Readings in African History arr.****HIST:7710 Seminar: Interpreting Oral Histories arr.**

Interpretations and methods applied by historians in various world regions to different forms of oral history, from old oral traditions to contemporary autobiographical testimony. Same as AFAM:7710.

**HIST:7805 Readings in Middle East History arr.**

Global perspective on major topics in modern history of the Middle East and North Africa including gender, sexuality, race, and empire. Same as GWSS:7805.

# History, B.A.

## Learning Outcomes

Historical knowledge gives insight into the depth and range of human experience and perspective on the increasingly interconnected world in which we live. Students of history learn how to locate, verify, and interpret many kinds of evidence in order to understand the causes and effects of changes over time. History courses strengthen skills in analyzing and explaining the major ideas and complex problems of the past and the present. The history major provides students with the tools and perspective for active citizenship in a democratic, pluralistic society, as well as for success in graduate studies and a wide range of careers.

The undergraduate program is organized around the intertwined skills of research and communication—whether digital, written, or oral. Students learn about significant events, places, and people of the past, but just as importantly, they learn how to engage in factual research about the past, how to understand the context of human actions, and how to identify the factors that brought about the world of the past and the world we know today.

- Students of history acquire a broad knowledge of history and historical change across multiple regions of the globe and a range of historical periods.
- Students gain an awareness of their own place in today's world and of the connections between past and present. This prepares the way for better understanding between individuals and across cultural boundaries.
- Students learn to value the role of evidence in their understanding of the world, and how to assess and verify different types of data, whether written, visual, oral, statistical, or cultural.
- Students learn how to distinguish between primary and secondary sources, and how each kind of source is used. They develop an understanding of the possible impact of authorial bias, social background, or ideology. Students learn to employ differing methods of analysis, and they explore diverse ways of thinking about the past and human society.
- Students develop skills in research, critical thinking, reading, and writing. History writing assignments sharpen students' skills in original research and analysis, while reading assignments develop their abilities to synthesize information and grapple with varying points of view.

## Requirements

The Bachelor of Arts with a major in history requires a minimum of 120 s.h., including 36 s.h. of work for the major. Of the 36 s.h., at least 24 s.h. must be numbered 2000 or above. No more than 3 s.h. in courses numbered HIST:1002-HIST:1099 may count toward the major. Courses that count toward the major may not be taken on a pass/nonpass basis. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

College Level Equivalency Program (CLEP) and Advanced Placement Program (APP) credit does not count toward the history major. Transfer work that is equivalent to University of Iowa coursework may be accepted toward the major, but at least 18 s.h. of work for the major, including HIST:2151

Introduction to the History Major, must be taken at the University of Iowa.

Major requirements include an introductory course and a history portfolio in addition to a range of coursework in history.

Undergraduate courses in history are divided into four areas: American history, European history, non-Western history, and courses that have no specific area designation. Students must earn at least 6 s.h. in each of the designated areas (American, European, non-Western), with at least 3 s.h. in each of those areas taken in courses numbered 3000 or above. Courses numbered 1100-1199, 2100-2199 (including HIST:2151 Introduction to the History Major), 3100-3199, 3995-3996, or 4100-4199 do not fulfill a specific geographical area or the pre-1700 requirement.

Students may count a maximum of 18 s.h. earned in American history courses (numbered 1200-1299, 2200-2299, 3200-3299, and 4200-4299) toward the major.

History majors are encouraged to take courses in other fields that illuminate and expand the meaning of history courses and that introduce information and a variety of approaches to understanding how societies and cultures work.

Students majoring in history are encouraged to complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20] World Languages requirement by choosing a language that fits their interests in history. The department also encourages study abroad programs that complement students' foreign area interests.

The B.A. with a major in history requires the following coursework.

Code	Title	Hours
<b>Introductory Course</b>		
HIST:2151	Introduction to the History Major	3
<b>American History Courses</b>		
Two American history courses (numbered 1200-1299, 2200-2299, 3200-3299, or 4200-4299), including at least one numbered 3000 or above		6
<b>European History Courses</b>		
Two European history courses (numbered 1400-1499, 2400-2499, 3400-3499, or 4400-4499), including at least one numbered 3000 or above		6
<b>Non-Western History Courses</b>		
Two non-Western history courses (numbered 1500-1999, 2500-2899, 3500-3899, 4500-4999), including at least one numbered 3000 or above		6
<b>Pre-1700 History Course</b>		
One pre-1700 history course (select from the list below)		3
<b>History Electives</b>		
Additional history courses selected by the student		12
<b>Portfolio Course</b>		
HIST:3193	Undergraduate History Portfolio	0
<b>Total Hours</b>		<b>36</b>

## Introductory Course

Students enroll in HIST:2151 Introduction to the History Major as soon as possible after declaring the major in history. Topics vary, but all sections of HIST:2151 instruct students in the skills they need to succeed in upper-level history courses. Students explore the diverse kinds of sources historians use, including both primary (original) sources and secondary (scholarly) sources. They learn how to frame a historical question, find and interpret relevant sources (in libraries, online, and in archives), and then integrate them into a historical argument, expressed clearly and in accordance with appropriate scholarly conventions. By the end of the semester, students have produced a substantial research paper or project and have a clearer understanding of the historian's craft. Students must include at least one graded paper or project from the course HIST:2151 in their history portfolio (see "Portfolio" below). Introduction to the History Major (HIST:2151) does not count toward the area (American, European, non-Western) or pre-1700 era requirements.

## Pre-1700 History Courses

A course taken to fulfill the pre-1700 history course requirement also may be counted toward the requirement in American, European, or non-Western history. These courses fulfill the pre-1700 history requirement.

Code	Title	Hours
HIST:1401	The West and the World: Ancient	3
HIST:1402	The West and the World: Medieval	3
HIST:1601	Civilizations of Asia: China from Origins to the 17th Century	3
HIST:1602	Civilizations of Asia: China from the 17th Century to the Present	3
HIST:1604	Civilizations of Asia: Japan	3
HIST:1606	Civilizations of Asia: South Asia	3
HIST:2444	Engineering and Technology in the Ancient World	3
HIST:2461	Middle East and Mediterranean: Alexander to Suleiman	3
HIST:2483	History of Britain: Fall of Rome to the Norman Conquest	3
HIST:3270	Colonial North America, ca. 1600-1775	3
HIST:3289	The Atlantic World c. 1450-1850	3
HIST:3401	Ancient Egypt and the Ancient Near East	3
HIST:3404	The World of Ancient Greece	3
HIST:3409	Medieval Civilization I	3
HIST:3410	Medieval Civilization II	3
HIST:3413	Early Modern Britain: The Tudor and Stuart Era	3
HIST:3423	Ireland in the Early Middle Ages	3
HIST:3427	Family, Gender, and Society in Early Modern Europe	3

HIST:3448	Barbarians and the Fall of Rome	3
HIST:3758	The Ancient African Past	3
HIST:4400	The Roman Empire	3
HIST:4406	Warfare in Ancient Mediterranean Society	3
HIST:4407	The Hellenistic World and Rome	3
HIST:4412	History of the Medieval Church	3
HIST:4417	Medieval Intellectual History 300-1150	3
HIST:4418	Medieval Intellectual History 1150-1500	3
HIST:4419	Ancient and Medieval Science	3
HIST:4510	Colonial Latin America	3
HIST:4610	Japan - Age of the Samurai	3
HIST:4910	The Book in the Middle Ages	3
HIST:4920	The Transition from Manuscript to Print	3

## Portfolio

All history majors must complete a portfolio, enrolling in the portfolio course during the semester in which they plan to graduate. The portfolio includes three papers or projects completed in history courses and submitted electronically (preferably a student submits graded papers/projects, and one paper/project should be from HIST:2151 Introduction to the History Major. A history honors thesis may replace the other two papers/projects. The portfolio does not affect a student's grade-point average; timely submission fulfills the requirement on a nongraded basis with an assignment of S (satisfactory).

Students should submit their portfolios on the University of Iowa ICON website for HIST:3193 Undergraduate History Portfolio early during the semester in which they plan to graduate.

Code	Title	Hours
This course:		
HIST:3193	Undergraduate History Portfolio	0

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

### B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in history who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

### B.A./M.S. in Finance

Students majoring in history who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) section of the Catalog.

## Honors

### Honors in the Major

Honors in the major gives students the opportunity to conduct independent research on a topic of their choosing, and write an original piece of scholarship based on that research. The product is a 30-35 page thesis written under the supervision of a faculty member who specializes in the field. To graduate with honors in history, students must maintain a cumulative University of Iowa g.p.a. of at least 3.33, as required by the College of Liberal Arts and Sciences, and a 3.33 g.p.a. in the major as set by the Department of History. Students register for 3 s.h. in HIST:3995 History Honors Research Seminar, usually during the spring of their junior year, and HIST:3996 Honors Thesis, usually during the fall of their senior year. The 6 s.h. of credit counts toward the semester hours required for the history major.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the history major.

## Career Advancement

Students of history develop an understanding of change that enables them to function as active, well-informed citizens. Because of the geographical breadth required for the degree, history students develop a global consciousness that helps them to understand developments worldwide.

University of Iowa's history graduates win admission to the best graduate and professional schools in the country. Employers value history students' ability to analyze human and social behavior, to research pressing problems, and to express themselves clearly. Graduates of the department occupy prominent positions in government, business, journalism, law, entertainment, education, the nonprofit sector, library science, social work, and philanthropy, among others. A recent study showed that history graduates with a B.A. earn more than graduates in any other humanities field.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

**Before the fifth semester begins:** three courses in the major, including HIST:2151 Introduction to the History Major.

**Before the seventh semester begins:** four more courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** three more courses in the major.

**During the eighth semester:** submission of the portfolio of written work (three history papers/projects, preferably graded) to the director of undergraduate studies through the HIST:3193 Undergraduate History Portfolio ICON website (a student must be enrolled in HIST:3193 in order to submit the portfolio), enrollment in all remaining coursework in the major (two courses), all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and

should be discussed with an academic advisor. For additional sample plans, see MyUI.

## History, B.A.

Course	Title	Hours
<b>First Year</b>		
<b>Fall</b>

## Fourth Year

### Fall

Major: history elective course <sup>a, b, c</sup>		3 - 4
GE CLAS Core: Literary, Visual, and Performing Arts <sup>f</sup>		3
Elective course <sup>g</sup>		3
Elective course <sup>g</sup>		3
Elective course <sup>g</sup>		3
<b>Hours</b>		<b>15-16</b>

### Spring

HIST:3193	Undergraduate History Portfolio	0
Major: history elective course <sup>a, b, c</sup>		3 - 4
GE CLAS Core: Values and Culture <sup>f</sup>		3
Elective course <sup>g</sup>		3
Elective course <sup>g</sup>		3
Elective course <sup>g</sup>		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) <sup>j</sup>		
<b>Hours</b>		<b>15-16</b>
<b>Total Hours</b>		<b>123-133</b>

- Students must complete 24 s.h. from courses in prefix HIST numbered 2000 or above.
- Students may count a maximum of 3 s.h. numbered HIST:1002-1099 toward the major.
- Students complete at least 12 s.h. in history electives.
- Consider choosing a course that also fulfills the GE CLAS Core: International and Global Issues requirement.
- Fulfills a major requirement and may fulfill a GE requirement.
- GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- Students may count a maximum of 18 s.h. earned in American history courses toward the major.
- Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# History, Minor

Students majoring in another discipline—whether in the STEM field, social sciences, or the humanities—may want to round out their studies and sharpen their skills by adding an undergraduate minor in history. For the current semester's offerings, view Department of History courses (prefix HIST) on MyUI.

## Requirements

The undergraduate minor in history requires the following:

- a minimum of 15 s.h. in history courses (prefix HIST), including 12 s.h. earned in courses numbered 2000 or above,
- at least 12 s.h. earned in courses taken at the University of Iowa,
- maintain a g.p.a. of at least 2.00 in all courses for the minor, and
- coursework for the minor may not be taken pass/nonpass.

# History, M.A.

The Department of History offers a master's degree program in history. Individuals may pursue the degree for a variety of reasons, from professional enhancement to personal enrichment. Students interested in graduate work may obtain a copy of the current Guide to Graduate Study in history from the Department of History website. The guide is revised annually to include the latest faculty listings, research interests of faculty members, detailed regulations on study toward advanced degrees, and other information for students.

## Requirements

The Master of Arts program in history requires a minimum of 30 s.h. of graduate credit, including at least 24 s.h. in history coursework numbered 3000 or above. Students must maintain a cumulative UI g.p.a. of at least 3.33. The M.A. is offered with two options: one that stresses breadth of learning through coursework; and with approval of a faculty advisor, one that emphasizes the development of research capabilities culminating in a research essay designed to prepare students for doctoral studies.

Students are required to take HIST:6002 Introduction to Graduate Studies in History: Historiography and Methods during their first semester in the program. They must take 12 s.h. of coursework (one course numbered 6000 or above) in one major division of history; and 6 s.h. each in two other divisions (with at least one course numbered 6000 or above in one of the two divisions), either in history or a related field. Students work with their primary faculty advisor to determine appropriate coursework.

Students must take a written and oral examination based on the coursework in the major field after they complete these requirements (or in the semester in which completion is expected). The exam is administered by the advisor and two other faculty members.

## Combined Programs

### M.A./J.D.

The Department of History and the College of Law offer a combined Master of Arts/Juris Doctor. The combined degree program allows students to count a limited amount of credit toward both degrees.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the J.D., see Juris Doctor, J.D. [p. 1707] (College of Law) in the Catalog.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants must submit academic transcripts and Graduate Record Examination (GRE) General Test scores. They also must submit examples of original writing to the Department of History, such as a term paper, a seminar paper, or an honors thesis; letters of recommendation from three persons familiar with the student's past academic work; and a one- or two-page personal statement of the applicant's purpose for doing

graduate work. Applicants submit their application online; see History (M.A. or Ph.D.) on the University of Iowa Graduate Admissions website.

All application materials are due by January 15 for entry the following August.

## Career Advancement

Graduate study in history prepares students for occupations such as high school or college teaching, publishing, commercial research, foundations and nongovernmental organizations, and government or other public service. With additional specialized training, students may become qualified for careers in historical site preparation and display, and archival, library, or museum work.

Some students choose to pursue the combined Master of Arts/Juris Doctor program which leads to degrees in both law and history; see Combined Programs [p. 682] in this section of the Catalog.

The University of Iowa's history graduates who earn an M.A. experience remarkable job placement rates, depending on their area of study. Graduate and postdoctoral career services offers multiple resources to assist students in locating opportunities and preparing for jobs upon completion of the program.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
- b Required during first semester in the program.
- c Work with faculty advisor to determine appropriate coursework; refer to the General Catalog and department website for courses and specifics.
- d Students must take 12 s.h. of coursework (one course numbered 6000 or above) in one major division of history, and 6 s.h. each in two other divisions (with at least one course numbered 6000 or above in one of the two divisions) either in history or a related field.
- e Written and oral examination in the student's major division of history.

## History, Ph.D.

The Department of History offers a doctoral program for students interested in earning a Ph.D. in history. Students interested in graduate work may obtain a copy of the current Guide to Graduate Study in history from the Department of History website. The guide is revised annually to include the latest faculty listings, research interests of faculty members, detailed regulations on study toward advanced degrees, and other information for students.

### Requirements

The Doctor of Philosophy program in history requires at least 72 s.h. of graduate credit. Students must maintain a cumulative UI g.p.a. of at least 3.33. Those who have earned M.A. degrees can apply up to 30 s.h. of credit toward the Ph.D. degree.

Students must complete at least seven graduate-level history or related field courses numbered 6000 or above, earning 3 or 4 s.h. of credit for each course. Courses taken at the M.A. level may be counted toward this requirement.

Students must complete a required course sequence their first year: HIST:6002 Introduction to Graduate Studies in History: Historiography and Methods and HIST:6003 History Theory and Interpretation. These courses develop an understanding of the philosophy of history, historiography, and methods of historical research. Students also must complete the comprehensive exam sequence in the second or third year depending on their degree at admission: HIST:6004 Comprehensive Exams Seminar I (the semester before the comprehensive exam) and HIST:6005 Comprehensive Exams Seminar II (the semester of the comprehensive exam).

Students who enter the program without an M.A. must write two research papers that are the length of a standard journal article (7,000-9,000 words) before taking comprehensive exams. One of these research papers is the qualifying research paper. For students who enter the program with an M.A., only the qualifying research essay must be completed before taking comprehensive exams. The essay must be based on original research and should be sufficient quality to submit for publication in learned journals, just as the Ph.D. dissertation takes the form of a full-length scholarly monograph. The qualifying essay must be approved by the faculty advisor and a second faculty member in order for a student to continue in the program.

The department has a basic world language requirement for the Ph.D.; however, the supervising faculty member may require a student to demonstrate a reading knowledge of one or more languages and proficiency in the use of other study tools. Students may not complete the comprehensive exam until these requirements have been met.

The comprehensive written and oral exams cover three distinct fields. The primary field is defined thematically and geographically in consultation with the advisor. The secondary field is defined with a field supervisor; it must have a different thematic and/or geographic focus than the primary field. Both of these fields are based on core sets of readings created together with advisors. There are two options for the third field—a teaching option and a non-teaching option. In either case, the parameters are set by the student's advisor, and the required work must be completed prior to the written examinations. The written portion of the comprehensive exams consists of two questions for each field, each answered

over two days during the comprehensive exam period. The oral portion of the comprehensive examination focuses on the submitted written examination.

In most cases, the candidate submits a written prospectus for the dissertation to the faculty advisor before the comprehensive exams, and the student defends the prospectus within two weeks of passing the oral portion of the examination. The examination committee considers the prospectus and may approve it, reject it, or require its revision. At this point, all that remains is researching and writing the dissertation, in regular consultation with the faculty advisor. When the dissertation is completed in final form, a dissertation committee composed of up of five faculty members administers the final examination. A formal oral defense of the dissertation typically lasts two hours.

### Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants must submit academic transcripts and Graduate Record Examination (GRE) General Test scores. They also must submit examples of original writing to the history department, such as a term paper, a seminar paper, or a master's essay; letters of recommendation from three persons familiar with the student's past academic work; and a one- or two-page personal statement of the applicant's purpose for doing graduate work. Applicants submit their application online; see History (M.A. or Ph.D.) on the University of Iowa Graduate Admissions website.

All application materials are due by January 15 for entry the following August.

### Career Advancement

Graduate study in history prepares students for occupations such as secondary or college teaching, publishing, commercial research, foundations and nongovernmental organizations, and government or other public service. With additional specialized training, students may become qualified for careers in historical site preparation and display, or archival, library, or museum work.

The University of Iowa's history graduates who earn a Ph.D. have an excellent history of job placement, depending on their area of study. Graduate and postdoctoral career services offers multiple resources to assist students in preparing for job opportunities upon completion of the program.

### Academic Plans

#### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Students entering with fewer than 30 s.h. of coursework from the master's degree must work with their faculty advisor to complete the needed appropriate graduate coursework.
- b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
- c The department has a basic world language requirement for the PhD. However, the faculty advisor may require a student to demonstrate a reading knowledge of one or more languages and proficiency in the use of other study tools. Students may not complete the comprehensive examination until these requirements have been met.
- d Students must complete HIST:6002 and HIST:6003 during their first year.
- e Students must complete at least seven graduate level history (or related field) courses numbered 6000 or above; work with faculty advisor to determine appropriate coursework and sequence.
- f Must be completed prior to the end of second year fall semester.
- g Written and oral examination typically completed during the second year; more information is included in the General Catalog and on department website.
- h Typically completed during the second year, written prospectus for the dissertation is submitted to the faculty advisor before the comprehensive exams; the student defends the prospectus within two weeks of passing the oral portion of the comprehensive examination.
- i Work with faculty advisor to determine appropriate elective coursework and sequence.
- j Dissertation defense.

# Interdepartmental Studies

## Interim Director, Division of Interdisciplinary Programs

- Kristy Nabhan-Warren

## Chair, Interdepartmental Studies

- Helena R. Dettmer

## Coordinator, Interdepartmental Studies

- Andy Tinkham

**Undergraduate major:** interdepartmental studies (B.A.)

**Faculty:** <https://interdepartmentalstudies.uiowa.edu/people>

**Website:** <https://interdepartmentalstudies.uiowa.edu/>

The Interdepartmental Studies Program (ISP) provides an alternative to traditional undergraduate majors. It gives students the opportunity to design an individualized plan of study or to choose a preapproved plan in applied human services, business studies, or health science. Each track includes coursework from a variety of departments.

Since the major in interdepartmental studies affords opportunities outside the traditional degree pattern, students must create or choose study programs that meet their individual educational and career objectives. Those who plan to seek employment immediately after graduation should familiarize themselves with the educational background and qualifications required by employers and should include appropriate courses in their study programs.

Students preparing for advanced study should become familiar with the admissions requirements of graduate or professional schools that interest them. The earlier students decide to pursue graduate or professional study, the easier it is to complete necessary prerequisites.

The Interdepartmental Studies Program is one of the academic units in the Division of Interdisciplinary Programs [p. 375].

## Programs

### Undergraduate Program of Study Major

- Major in Interdepartmental Studies (Bachelor of Arts) [p. 688]

## Courses

### Interdepartmental Studies Courses

#### **INTD:3005 Professional and Creative Business Communication 3 s.h.**

Solid foundation for creative and professional communication in today's modern work world; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semester-long creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision making, and human nature; how to navigate and succeed in business or any professional field. GE: Engineering Be Creative. Same as CW:3005, WRIT:3005.

#### **INTD:3027 Nutrition in Health and Performance 3 s.h.**

Effects of exercise and nutrition on health- and sports-related fitness; for professionals in health and physical education. Same as SRM:3020.

#### **INTD:3030 Lifestyle Medicine 3 s.h.**

Overview of influences of lifestyle medicine on chronic disease treatment and prevention; understanding evidence-based lifestyle medicine factors on holistic well-being; development of communication skills to support behavioral and lifestyle medicine changes for treatment and prevention of chronic conditions. Prerequisites: HHP:2200 and HHP:2310. Same as HHP:3030.

#### **INTD:3107 Creative Writing for the Health Professions 3 s.h.**

GE: Engineering Be Creative. Same as CW:3107.

#### **INTD:3200 Creative Writing for New Media 3 s.h.**

Prepares creative writers for evolving marketplace of electronic text and media; experience writing in varied media (e.g., internet, e-books, video games, mobile devices, emergent social narratives). GE: Engineering Be Creative. Same as CW:3218.

#### **INTD:3210 Creative Writing and the Natural World 3 s.h.**

How humans tether to their environment through stories; students write stories and through writing explore if there is a new tie to sustainable history. GE: Engineering Be Creative. Same as CW:3210.

#### **INTD:3250 Fieldwork in Social Innovation 3 s.h.**

Entrepreneurial skills necessary to actualize ideas in the community; students work with local partners to brainstorm, prototype, and build an original community-based venture involving needs assessment, social history of problem, and concept mapping; students learn soft skills such as interviewing, networking, collaboration, and building trust. Requirements: enrollment in engaged social innovation plan of study and honors program membership in good standing. Same as HONR:3250.

#### **INTD:3300 Creative Writing and Popular Culture 3 s.h.**

Creative writing through the lens of popular culture; topics include television, film writing, adaptations, commercials, advertising, magazines, newspapers, comic books, song lyrics, billboards, and backs of cereal boxes. GE: Engineering Be Creative. Same as CW:3215.

**INTD:3510 Introduction to Arts Management 3 s.h.**

Nonprofit performing arts management and administrative principles; practical applications, trends in the field; focus on arts organizations and their key administrative positions. Same as DPA:3510, THTR:3510.

**INTD:3520 Starting Up the Arts Start-up 3 s.h.**

Arts administration principles and trends as applied to creation of an arts-related enterprise; case studies; students create business plan for a new arts organization. Duplicates ENTR:2000 and ENTR:3350. Corequisites: ENTR:1350 or (ACCT:2100 and MKTG:3000). Same as DPA:3520, ENTR:3520, THTR:3520.

**INTD:4098 Independent Study arr.**

Individual study of issues or topics related to a specific interdepartmental focus chosen by the student.

**INTD:4099 Interdepartmental Studies Practicum arr.**

Opportunity to relate a student's chosen area of study to practical application. Requirements: interdepartmental studies student.

**INTD:4510 Arts Leadership Seminar 3 s.h.**

Performing arts management and administrative principles, practical applications, trends in arts leadership and advocacy. Prerequisites: THTR:3510 or ENTR:2000 or THTR:3520. Same as DPA:4510, ENTR:4510, THTR:4510.

# Interdepartmental Studies, B.A.

## Learning Outcomes

After completing any of the three tracks—applied human services, business studies, or health science—in the interdepartmental studies major, students will:

- possess the mathematical skills to present and understand data and to create probability models, or to design, analyze, and interpret research using a correlational design;
- understand how social and/or political issues shape economic behavior, or how key anthropological concepts assist in comprehending global or societal problems; and
- synthesize key concepts or techniques related to the track they are pursuing.

## Requirements

The Bachelor of Arts with a major in interdepartmental studies requires a minimum of 120 s.h., including at least 33-47 s.h. of work for the major (total semester hours required depends on the track). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students choose one of five tracks for the major: applied human services, business studies, engaged social innovation, health science, or an individualized plan of study. The engaged social innovation and individualized plan of study tracks are selective; students must apply and be admitted to one of these tracks before they may declare it. The other three tracks are open; students may declare them without an application.

Students who choose the individualized plan of study track design their own major. Those admitted to the engaged social innovation track complete a common core, plan and complete an internship, and design their remaining coursework to support the internship. Students who choose the applied human services track, business studies track, or health science track follow a preapproved study plan, which includes foundation courses and a selection of emphasis areas. The applied human services track offers three emphasis areas: aging services, community-based services, and corrections services. The business studies track offers four emphasis areas: organizational practice and perspectives, values and ethics, arts management, and technology and inquiry. The health science track offers six emphasis areas: multidisciplinary science, entrepreneurial, aging, global health, cultures of healing, and writing for the sciences.

Interdepartmental studies students who earn a second major may count a maximum of two courses from the second major toward the interdepartmental studies major. Students who earn the major in interdepartmental studies may earn the major in global health studies as long as they select an emphasis in interdepartmental studies other than the global health emphasis in the health science track.

Students majoring in interdepartmental studies may earn certificates in other programs, departments, or colleges.

Interdepartmental studies students who earn minors in other departments or programs may not count courses from the minors toward the interdepartmental studies major.

The B.A. with a major in interdepartmental studies requires the following coursework.

- Applied Human Services Track [p. 688]
- Business Studies Track [p. 691]
- Engaged Social Innovation Track [p. 697]
- Health Science Track [p. 698]
- Individualized Plan of Study Track [p. 704]

## Applied Human Services Track

Students in the applied human services track may not earn a minor in human relations. Students in this track may count courses that reside in another college outside the College of Liberal Arts and Sciences (CLAS) toward their residence requirement. For example, Department of Counselor Education courses (prefix RCE) offered through the College of Education will be accepted toward the CLAS residence requirement for students in the applied human services track.

The applied human services track requires 36-42 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized psychology background with a choice of three emphasis areas: aging services, community-based services, and corrections services. Students who choose this track also have the option of proposing their own human services-related emphasis area to the faculty advisory committee.

Applied human services track students must complete foundation coursework (24-26 s.h.), one emphasis area (at least 12 s.h.), and an internship (0-3 s.h.). They must complete a minimum of 15 s.h. of work for the major at the University of Iowa. The Academic Advising Center advises applied human services track students; contact the center for more information about requirements.

SSW:3797	Child Welfare Policy and Practice	3

### Community-Based Services Emphasis: Internship

Code	Title	Hours
One of these:		
CCP:1005	Internship in Liberal Arts and Sciences	0
CCP:1201	Academic Internship	1-3
INTD:4099	Interdepartmental Studies Practicum	arr.

### Corrections Services Emphasis

Students in the correction services emphasis area may not earn a major or a minor in sociology or in criminology, law and justice.

Students who choose the corrections services emphasis must complete the foundation component (3-4 s.h.), the elective component (9 s.h.), and the internship (0-3 s.h.). The elective component must include 6 s.h. earned in courses numbered 3000 or above.

### Corrections Services Emphasis: Foundation Component

Code	Title	Hours
One of these:		
SOC:1010	Introduction to Sociology	3-4
SOC:1030	Contemporary Social Problems	3-4

### Corrections Services Emphasis: Elective Component

Students select 9 s.h. of electives from the following lists of lower-level and advanced courses, with a minimum of 6 s.h. from the advanced courses list.

Code	Title	Hours
<b>Lower-Level Courses</b>		
Maximum of 3 s.h. from these:		
ANTH:1101/IS:1101	Cultural Anthropology	3
ANTH:2100	Anthropology and Contemporary World Problems	3

CRIM:1410	Introduction to Criminology	3
CRIM:1447	Introduction to the Criminal Justice System	3
CRIM:2210/ CSI:2210	Iowa Criminal Justice Policy and Reform	3
CRIM:2200	Gender and Violence	3
CRIM:2430	Comparative Criminal Justice Systems	3
CRIM:2460	Policing in Modern Society	3
MGMT:2000	Introduction to Law	3
PSY:2930	Abnormal Psychology: Health Professions	3
SOC:1022/ SSW:1022	Social Justice and Social Welfare in the United States	3
SOC:2810	Social Inequality	3

### Advanced Courses

At least 6 s.h. from these:

ANTH:3101/ GWSS:3101	Anthropology of Sexuality	3
CRIM:3110	Communities and Crime	3
CRIM:3250	Drugs, Deviance, and Social Control	3
CRIM:3350	Life Course Criminology	3
CRIM:3415	Global Criminology	3

CRIM:4420	Criminal Punishment	3
CRIM:4430	Interpersonal Violence in Society	3
CRIM:4440	Sociology of White-Collar Crime	3
CRIM:4450	Juvenile Justice: A Sociolegal Perspective	3
CRIM:4460	Sociology of Law	3
CRIM:4901	Advanced Topics in Criminology, Law, and Justice	3
GWSS:3005/ SJUS:3005	Practicum	3-4
RCE:4176	Child Abuse: Assessment, Intervention, and Advocacy	3
SOC:3171	Drugs and Society	3
SOC:3220	Sociology of Mental Illness	3
SSW:3796	Family Violence	2-3

### Corrections Services Emphasis: Internship

Code	Title	Hours
One of these:		
CCP:1005	Internship in Liberal Arts and Sciences	0

CCP:1201	Academic Internship	1-3
INTD:4099	Interdepartmental Studies Practicum	arr.

## Business Studies Track

Students in the business studies track may not earn a business administration minor.

The business studies track requires 37-50 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized business background with a choice of four emphasis areas: organizational practice and perspectives, values and ethics, arts management, and technology and inquiry. Students who choose this track also have the option of proposing their own business-related emphasis area to the faculty advisory committee.

Business studies track students must complete foundation coursework (at least 11 s.h.), business electives (at least 10 s.h.), one emphasis area (at least 15 s.h.), and the career preparation component (at least 1 s.h.). They must complete a minimum of 15 s.h. of work for the major at the University of Iowa. The Academic Advising Center advises business studies track students; contact the center for more information about requirements.

Code	Title	Hours
Foundation Courses		11-15
Business Electives		10-12
Emphasis Area		15-20
Career Preparation Component		1-3
<b>Total Hours</b>		<b>37-50</b>

## Business Studies Track: Foundation Courses

### Foundational Math

Code	Title	Hours
Both of these:		
MATH:1005	College Algebra	4
MATH:1010	Trigonometry	3
Or one of these:		
MATH:1020	Elementary Functions	4
MATH:1340	Mathematics for Business	4
MATH:1350	Quantitative Reasoning for Business	4
MATH:1380	Calculus and Matrix Algebra for Business	4
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1850	Calculus I	4

### Foundational Statistics

Code	Title	Hours
One of these:		
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4

STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

## Foundational Economics

Code	Title	Hours
One of these:		
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4

## Business Studies Track: Business Electives

Students complete four electives (at least 10 s.h.) from the following list.

Code	Title	Hours
ACCT:2100	Introduction to Financial Accounting	3
ACCT:2200	Managerial Accounting	3
BAIS:3000	Operations Management	2
CS:2420	Analyzing Data for Informatics	3
CS:4400	Database Systems	3
ENTR:1350	Foundations in Entrepreneurship	3
FIN:3000	Introductory Financial Management	3
MGMT:2000	Introduction to Law	3
MGMT:2100	Introduction to Management	3
MKTG:3000	Introduction to Marketing Strategy	3
May include one of these:		
BAIS:1500	Business Computing Essentials	2
CS:1020	Principles of Computing	3

## Organizational Practice and Perspectives Emphasis

Students who choose the organizational practice and perspectives emphasis must complete at least one course from each of the four components (speaking and writing, communication and media, cultural diversity, and entrepreneurship) for a total of 15 s.h. and one course from the career preparation component (at least 1 s.h.). The required 15 s.h. must include 9 s.h. earned in advanced courses. Advanced courses for each component are listed below.

## Organizational Practice and Perspectives Emphasis: Speaking and Writing Component

Code	Title	Hours
At least one course from these or from the advanced courses:		
CNW:1620	Introduction to Creative Nonfiction	3

CNW:2680	The Art and Craft of Creative Nonfiction	3
COMM:1112	Interpersonal Communication	3
COMM:1117	Theory and Practice of Argument	4
COMM:1130	The Art of Persuading Others	3
COMM:1816	Business and Professional Communication	3
COMM:2821/ EDTL:2821	Oral Interpretation	3
CW:1800	Creative Writing Studio Workshop	3
CW:2100	Creative Writing	3
CW:2870	Fiction Writing	3
LING:1030/ WRIT:1030	English Words	3
RHET:2055	Persuasion and Advocacy	3
RHET:2065	Persuading Different Audiences: Launching a Successful Career	3
RHET:2070	Persuasive Stories	3
RHET:2085	Speaking Skills	3
RHET:2095	Fundamental Strategies of Persuasion	3
RHET:2350	Forensic Rhetoric	3
RHET:2620	Body Language: Study of Movement and Gesture in Speaking	3
THTR:1140	Basic Acting	3
THTR:2610/ RHET:2610	Acting for Success	3

#### Advanced Courses

BUS:3800	Business Writing	3
CLSA:3742/ WRIT:3742	Word Power: Building English Vocabulary	3
CNW:3600	Issues in Creative Nonfiction	3
CNW:3630	Advanced Nonfiction Writing	3
CNW:3632/ WRIT:3632	Prose Style	3
CNW:3633	Personal Writing	3
CNW:3640	Writing for Business	3
CW:3210/ INTD:3210	Creative Writing and the Natural World	3
CW:3215/ INTD:3300	Creative Writing and Popular Culture	3
CW:3218/ INTD:3200	Creative Writing for New Media	3
CW:4745/ WRIT:4745	The Sentence: Strategies for Writing	3

### Engaged Social Innovation Track

The engaged social innovation track requires 33 s.h. of work for the major. The track combines coursework and experiential learning with a student-designed capstone internship. By focusing on coursework with a strong hands-on component, the track encourages students to learn in multiple ways, both in and out of the classroom, and prepares them to bring social change through innovation to communities.

Admission to the engaged social innovation track is selective; students must apply using the online application in order to be admitted. Applicants must show evidence of commitment to community engagement and service.

Engaged social innovation students complete core courses, an individualized plan of study, and an internship.

Code	Title	Hours
Core Courses		12
Individualized Plan of Study		15
Internship		6
<b>Total Hours</b>		<b>33</b>

### Engaged Social Innovation Track: Core Courses

Code	Title	Hours
All of these:		
ENTR:2000	Entrepreneurship and Innovation	3

ENTR:3500	Social Entrepreneurship	3
HONR:3250/ INTD:3250	Fieldwork in Social Innovation	3
RHET:2400	Idea to Innovation	3

### Engaged Social Innovation Track: Individualized Plan of Study

Coursework selected by each student must reflect and support the student's internship project. Students must earn at least 15 s.h. in upper-level coursework (generally numbered 3000 or above).

### Engaged Social Innovation Track: Internship

Code	Title	Hours
This course:		
INTD:4098	Independent Study	6

### Health Science Track

The health science track requires 38-43 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized health background with a varied choice of emphasis areas: multidisciplinary science, entrepreneurial, aging, global health, cultures of healing, and writing for the sciences. Students who choose this track also have the option of proposing their own health science-related emphasis area to the faculty advisory committee.

Health science track students must complete foundation coursework (at least 22 s.h.), one emphasis area (at least 15 s.h.), and the career preparation component (at least 1 s.h.). They must complete a minimum of 15 s.h. for the major at the University of Iowa. The Academic Advising Center advises health science track students; contact the center for more information about requirements.

Code	Title	Hours
Foundation Courses		22-25
Emphasis Area		15
Career Preparation Component		1-3
<b>Total Hours</b>		<b>38-43</b>

### Health Science Track: Foundation Courses

Students must complete at least 22 s.h. of foundation courses from the following.

#### Foundational Chemistry

Code	Title	Hours
One of these:		
CHEM:1070	General Chemistry I	3
CHEM:1110	Principles of Chemistry I	4
One of these:		
CHEM:1080	General Chemistry II	3
CHEM:1120	Principles of Chemistry II	4

#### Foundational Biology

Code	Title	Hours
One of these:		
BIOL:1140	Human Biology: Nonmajors	4

BIOL:1141	Human Biology: Health Professions	4
BIOL:1411	Foundations of Biology	4

### Foundational Math and Statistics

Code	Title	Hours
One of these:		
MATH:1020	Elementary Functions	4
MATH:1380	Calculus and Matrix Algebra for Business	4
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1850	Calculus I	4
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

### Foundational Social Science

Code	Title	Hours
One of these:		
ANTH:1101/IS:1101	Cultural Anthropology	3
ANTH:2100	Anthropology and Contemporary World Problems	3
PSY:1001	Elementary Psychology	3
SOC:1010	Introduction to Sociology	3-4
SOC:1030	Contemporary Social Problems	3-4
SOC:1220	Principles of Social Psychology	3-4

### Foundational Science Elective

Code	Title	Hours
One of these:		
ACB:3110	Principles of Human Anatomy	3
BIOL:1412	Diversity of Form and Function	4
HHP:1100	Human Anatomy	3

## Individualized Plan of Study Track

The individualized plan of study track requires a minimum of 36 s.h. of work for the major, all taken at the University of Iowa. Students who choose this track build their own study plan, creating a unique major that speaks to interests across departments and that integrates varied approaches to a particular topic (e.g., aging studies, international business, children's studies, environmental issues, health issues).

Students must submit their study plan for approval. The plan must include an essay that provides a clear statement of the area of intellectual focus; the reasons for preferring the Interdepartmental Studies Program (ISP) to any departmental program; a concrete discussion of how the advanced courses relate to each other, to personal interests, and to the central focus of the study plan; a description of academic goals for the bachelor's degree; a list of advanced-level coursework already completed; and a list of advanced-level coursework planned for all remaining semesters.

Each study plan is approved by a faculty advisory committee. If the advisory committee does not grant approval, the study plan may be returned to a student for revisions and resubmitted. In some cases, a student may be referred to an appropriate departmental major.

Once the study plan is approved, a student is required to follow the plan, taking the courses approved for it. A limited number of substitutions may be allowed, but only if they are clearly consistent with the area of intellectual focus in the approved study plan, and only if they are approved in advance by the ISP advisor. Unauthorized substitutions may be designated as elective coursework.

Significant changes in the focus of a student's study plan require the submission and approval of a revised study plan. A student's academic advisor determines whether changes warrant a revised plan.

See the Interdepartmental Studies Program website for up-to-date information on the individualized plan of study track and rules for submission of study plans.

Students who choose the individualized plan of study track are advised by the ISP coordinator; they work closely with the Interdepartmental Studies Program office while designing the study plan. Students who intend to submit a study plan should contact the ISP coordinator as early as possible.

## Combined Programs

### B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in interdepartmental studies who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the

M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

## B.A./M.S. in Finance

Students majoring in interdepartmental studies who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) section of the Catalog.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major; they usually complete the honors requirements of a particular department or program appropriate to their area of study. Students should initiate inquiries about graduating with honors in the interdepartmental studies major by contacting the Interdepartmental Studies Program (ISP) coordinator; they should inquire early in their junior year to allow time for foundation coursework. Students must submit an honors project approval form to the ISP coordinator.

The College of Liberal Arts and Sciences requires that students who earn honors in the major maintain a minimum University of Iowa cumulative g.p.a. of at least 3.33. Additional g.p.a. standards and requirements are set by each department or program.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the interdepartmental studies major.

## Career Advancement

Graduates in the applied human services, business studies, engaged social innovation, and health science tracks have career options in a variety of settings, including retirement homes, hospitals, health clubs, government agencies, insurance companies, and performing arts companies.

Students who create individualized plans of study stand out when they apply for jobs because their major emphasizes a unique set of strengths and interests. In addition, employers often are impressed by their enthusiasm and self-directed nature.

Many interdepartmental studies majors go on to graduate school.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The Four-Year Graduation Plan is available only to Interdepartmental Studies Program (ISP) students in the individualized plan of study track. Students in the other ISP tracks work with their advisors to develop individual graduation plans.

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major.

**Before the seventh semester begins:** an approved individualized plan of study, at least six courses in the plan of study, and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** a total of at least nine courses in the plan of study.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

# International Relations

## Chair, Department of Political Science

- Brian H. Lai

**Undergraduate major:** international relations (B.A., B.S.)

**Undergraduate minor:** international relations

**Faculty:** <https://clas.uiowa.edu/polisci/people/faculty>

**Website:** <https://clas.uiowa.edu/polisci/>

The undergraduate programs of study in international relations are administered by the Department of Political Science [p. 929] which offers related B.A. and B.S. programs of study in political science. The department also offers the Certificate in Political Risk Analysis [p. 927], and it collaborates with other departments to offer the Certificate in Social Science Analytics [p. 1008]. The department additionally provides a number of courses that undergraduate students in all majors may use to fulfill GE CLAS Core [p. 20] requirements.

## Programs

### Undergraduate Programs of Study

#### Majors

- Major in International Relations (Bachelor of Arts) [p. 710]
- Major in International Relations (Bachelor of Science) [p. 715]

#### Minor

- Minor in International Relations [p. 722]

# International Relations, B.A.

A major in international relations focuses on economic relations between states, a crucial area of study in today's globalized world. Students are introduced to the politics of foreign countries. They develop an understanding of how countries interact and acquire a deep appreciation for the root causes of problems that transcend national boundaries.

Requirements for the major are the same for B.A. and B.S. students, except that the major for the B.S. requires a set of mathematics/statistics courses, while the major for the B.A. does not.

## Learning Outcomes

Graduates will:

- possess a broad understanding of international relations,
- be able to apply a theoretical approach in international relations to understand a specific area of international relations,
- have effective written and oral communication skills, and
- be able to conceptualize problems and apply analytical tools to solve them.

## Requirements

The Bachelor of Arts with a major in international relations requires a minimum of 120 s.h., including at least 37 s.h. of work for the major. At least 18 s.h. of coursework for the major must be taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students choose one of five tracks: conflict and foreign policy, international business and economic relations, regional politics and relationships, transnational issues, or a self-defined track.

The B.A. with a major in international relations requires the following coursework.

Code	Title	Hours
International Relations Core		12-13
Methods Course		3
Senior Seminar Courses		4
Track Courses		18-19
<b>Total Hours</b>		<b>37-39</b>

## International Relations Core

Code	Title	Hours
All of these:		
POLI:1500	Introduction to International Relations	3
POLI:3512	International Conflict	3
POLI:3516	The Politics of International Economics	3
One of these:		
HIST:1101	The Modern World	3
HIST:1403	The West and the World: Modern	3

HIST:3143	International Politics: The History of the Present	3-4
HIST:3155	The World Since 1945	3

## Methods Course

Code	Title	Hours
One of these:		
POLI:2000	Designing Political Research	3
POLI:3000	Analyzing Political Data	3

## Senior Seminar Courses

Code	Title	Hours
This course:		
POLI:4802	International Relations Senior Seminar Preparation	1
One of these:		
POLI:4800	Senior Seminar in International Relations	3
POLI:4801	Honors Senior Seminar in International Relations	3

## Tracks

International relations students complete one of the following five tracks, each of which requires 18 s.h. of coursework. Students who would like to declare the major in international relations before deciding on a track may declare the open track for advising purposes. They should talk with an advisor and decide on a track as soon as possible.

- Conflict and Foreign Policy Track [p. 710]
- International Business and Economic Relations Track [p. 711]
- Regional Politics and Relationships Track [p. 711]
- Transnational Issues Track [p. 712]
- Self-Defined Track [p. 713]

## Conflict and Foreign Policy Track

The conflict and foreign policy track requires the following coursework (minimum of 18 s.h.).

Code	Title	Hours
This course:		
POLI:1501	Introduction to American Foreign Policy	3
Five of these, including at least 6 s.h. in courses from each of two departments:		
POLI:2417	Comparative Environmental Policy	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3126	Environmental Policy	3
POLI:3405	Authoritarian Politics	3
POLI:3410	Russian Foreign Policy	3
POLI:3411	Democracy: Global Trends and Struggles	3
POLI:3420	Southeast Asia: Politics and Development	3
POLI:3422	Horn of Africa: Politics and Transnational Issues	3
POLI:3423	The Middle East: Policy and Diplomacy	3

POLI:3425	South Asia: Politics, Identity, and Conflict	3
POLI:3503	Politics of Terrorism	3
POLI:3505	Civil Wars	3
POLI:3506	Consequences of War	3
POLI:3509	International Courts: The Intersection of Law and Politics	3
POLI:3518	Water Wars: Conflict and Cooperation	3
POLI:3522	Ending Wars and Keeping Peace	3
POLI:3530	Diplomacy Lab	arr.
POLI:3550	Problems of International Politics	3
POLI:3603	War and Film	3
HIST:2420/ GRMN:2720	Germany in the World	3-4
HIST:3106	History Behind the Headlines	3
HIST:3145	Europe and the United States in the Twentieth Century	3
HIST:3242	The United States in World Affairs	3-4
HIST:4176	Vietnam War on Film	3-4
HIST:4228	Cold War America	3
HIST:4264	The American Home Front During World War II	3
HIST:4478	Holocaust in History and Memory	3
HIST:4499	First World War	3-4
HIST:4620/ JPNS:4620	Japan-U.S. Relations	3

## International Business and Economic Relations Track

The international business and economic relations track requires the following coursework (minimum of 19 s.h.).

Code	Title	Hours
Two of these:		
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
GEOG:2910	The Global Economy	3
Four of these, including courses from at least two departments:		
POLI:2417	Comparative Environmental Policy	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3126	Environmental Policy	3
POLI:3400	Political Economy	3
POLI:3424	Global Development	3
POLI:3504	Globalization	3
POLI:3524	Politics and Multinational Enterprises	3
ECON:3345	Global Economics and Business	3
ECON:3620	Economic Growth and Development	3

ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
ECON:3750/ GEOG:3940/ URP:3350	Transportation Economics	3
ECON:4110	International Economics	3
ENTR:4460	Entrepreneurship and Global Trade	3
FIN:4240	International Finance (prerequisite required)	3
GEOG:2410	Environment and Development	3
GEOG:3070/ GHS:3070	Hungry Planet: Global Geographies of Food	3
GEOG:3800	Environmental Economics and Policy	3
HIST:3240/ GEOG:3780/ GHS:3780	U.S. Energy Policy in Global Context	3
IS:3200	Sustainable Development	3
MGMT:3450	International Business Environment	3
MKTG:4300	International Marketing (prerequisite required)	3

## Regional Politics and Relationships Track

The regional politics and relationships track requires the following coursework (minimum of 18 s.h.).

Code	Title	Hours
This course:		
POLI:1400	Introduction to Comparative Politics	3
Five of these, including at least 6 s.h. in courses from each of two departments:		
POLI:1401	Introduction to Russian Politics	3
POLI:1445	Introduction to Asian Politics: China	3
POLI:1449	Introduction to European Politics	3
POLI:2415	Latin American Politics	3
POLI:2500	Politics of Natural Disasters	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3405	Authoritarian Politics	3
POLI:3408	Chinese Politics and Society	3
POLI:3410	Russian Foreign Policy	3
POLI:3420	Southeast Asia: Politics and Development	3
POLI:3422	Horn of Africa: Politics and Transnational Issues	3
POLI:3423	The Middle East: Policy and Diplomacy	3
POLI:3424	Global Development	3
POLI:3425	South Asia: Politics, Identity, and Conflict	3
POLI:3426	Outliers: Comparing Odd Countries	3

POLI:3450	Problems in Comparative Politics	3	POLI:2500	Politics of Natural Disasters	3
POLI:3514	Regional Peace and Security	3	POLI:3035	Careers in Political Science and International Relations	3
HIST:1602/ ASIA:1602	Civilizations of Asia: China from the 17th Century to the Present	3	POLI:3126	Environmental Policy	3
HIST:1604/ ASIA:1604	Civilizations of Asia: Japan	3-4	POLI:3411	Democracy: Global Trends and Struggles	3

IS:3200	Sustainable Development	3
IS:4131/ COMM:4131	Globalization and Culture	3

## Self-Defined Track

Students may create their own track with permission from the director of undergraduate studies. A self-defined track may not duplicate an existing track or another academic program of study at the University of Iowa. It must consist of at least 18

s.h. of coursework, which must include 3 s.h. of credit earned in courses from each of three departments.

## Honors

### Honors in the Major

Students majoring in international relations have the opportunity to graduate with honors in the major. Students must maintain a cumulative University of Iowa g.p.a. of at least 3.33, as required by the College of Liberal Arts and Sciences, and a major g.p.a. of at least 3.50. They must complete POLI:4000 Honors Seminar on the Study of Politics in addition to the minimum major requirements. Honors students complete an honors thesis through their enrollment in POLI:4801 Honors Senior Seminar in International Relations.

### National Honor Society

The department sponsors a chapter of Pi Sigma Alpha. Students who have a cumulative g.p.a. of at least 3.30, have attained junior standing, and have completed 15 s.h. of coursework in political science are considered for membership. Contact the Department of Political Science honors advisor for more information.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the international relations major.

## Career Advancement

A major in international relations is an excellent choice for any student considering a career in either the public or private sector, including the diplomatic service, intelligence organizations, multinational corporations, nongovernmental organizations, international organizations, think tanks, public health agencies, the media, and numerous other professions. The international relations major also prepares students to pursue postbaccalaureate degrees such as the J.D., M.A., or Ph.D.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** POLI:1500 Introduction to International Relations.

**Before the fifth semester begins:** all core courses and the methods course.

**Before the seventh semester begins:** at least 12 s.h. in the track and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** all track requirements.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e STAT:1010 or STAT:1020 recommended.
- f Students complete four approved international business and economic relations track elective courses, including courses from at least two different departments.
- g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# International Relations, B.S.

A major in international relations focuses on economic relations between states, a crucial area of study in today's globalized world. Students are introduced to the politics of foreign countries. They develop an understanding of how countries interact and acquire a deep appreciation for the root causes of problems that transcend national boundaries.

Requirements for the major are the same for B.S. and B.A. students, except that the major for the B.S. requires a set of mathematics/statistics courses, while the major for the B.A. does not.

## Learning Outcomes

Graduates will:

- possess a broad understanding of international relations,
- be able to apply a theoretical approach in international relations to understand a specific area of international relations,
- have effective written and oral communication skills, and
- be able to conceptualize problems and apply analytical tools to solve them.

## Requirements

The Bachelor of Science with a major in international relations requires a minimum of 120 s.h., including at least 47 s.h. of work for the major. At least 18 s.h. of coursework for the major must be taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students choose one of five tracks: conflict and foreign policy, international business and economic relations, regional politics and relationships, transnational issues, or a self-defined track.

The B.S. with a major in international relations requires the following coursework.

Code	Title	Hours
	International Relations Core	12-13
	Methods Course	3
	Senior Seminar Courses	4
	Mathematics/Statistics Courses	10-11
	Track Courses	18-19
<b>Total Hours</b>		<b>47-50</b>

## International Relations Core

Code	Title	Hours
All of these:		
POLI:1500	Introduction to International Relations	3
POLI:3512	International Conflict	3
POLI:3516	The Politics of International Economics	3
One of these:		
HIST:1101	The Modern World	3

HIST:1403	The West and the World: Modern	3
HIST:3143	International Politics: The History of the Present	3-4
HIST:3155	The World Since 1945	3

## Methods Course

Code	Title	Hours
One of these:		
POLI:2000	Designing Political Research	3
POLI:3000	Analyzing Political Data	3

## Senior Seminar Courses

Code	Title	Hours
This course:		
POLI:4802	International Relations Senior Seminar Preparation	1
One of these:		
POLI:4800	Senior Seminar in International Relations	3
POLI:4801	Honors Senior Seminar in International Relations	3

## Mathematics/Statistics Courses

Students must complete one of the following approved sets of mathematics/statistics courses (10-11 s.h.) with a g.p.a. of at least 2.00. Substitutions must be approved by the director of undergraduate studies.

### Set 1

Code	Title	Hours
MATH:1380	Calculus and Matrix Algebra for Business (or equivalent or higher-level calculus course)	4
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3
STAT:6513/ PSQF:6243	Intermediate Statistical Methods	3

### Set 2

Code	Title	Hours
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

## Tracks

International relations students complete one of the following five tracks, each of which requires 18 s.h. of coursework. Students who would like to declare the major in international relations before deciding on a track may declare the open track for advising purposes. They should talk with an advisor and decide on a track as soon as possible.

- Conflict and Foreign Policy Track [p. 716]
- International Business and Economic Relations Track [p. 716]
- Regional Politics and Relationships Track [p. 716]

- Transnational Issues Track [p. 717]
- Self-Defined Track [p. 718]

## Conflict and Foreign Policy Track

The conflict and foreign policy track requires the following coursework (minimum of 18 s.h.).

Code	Title	Hours
This course:		
POLI:1501	Introduction to American Foreign Policy	3
Five of these, including at least 6 s.h. in courses from each of two departments:		
POLI:2417	Comparative Environmental Policy	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3126	Environmental Policy	3
POLI:3405	Authoritarian Politics	3
POLI:3410	Russian Foreign Policy	3
POLI:3411	Democracy: Global Trends and Struggles	3
POLI:3420	Southeast Asia: Politics and Development	3
POLI:3422	Horn of Africa: Politics and Transnational Issues	3
POLI:3423	The Middle East: Policy and Diplomacy	3
POLI:3425	South Asia: Politics, Identity, and Conflict	3
POLI:3503	Politics of Terrorism	3
POLI:3505	Civil Wars	3
POLI:3506	Consequences of War	3
POLI:3509	International Courts: The Intersection of Law and Politics	3
POLI:3518	Water Wars: Conflict and Cooperation	3
POLI:3522	Ending Wars and Keeping Peace	3
POLI:3530	Diplomacy Lab	arr.
POLI:3550	Problems of International Politics	3
POLI:3603	War and Film	3
HIST:2420/ GRMN:2720	Germany in the World	3-4
HIST:3106	History Behind the Headlines	3
HIST:3145	Europe and the United States in the Twentieth Century	3
HIST:3242	The United States in World Affairs	3-4
HIST:4176	Vietnam War on Film	3-4
HIST:4228	Cold War America	3
HIST:4264	The American Home Front During World War II	3
HIST:4478	Holocaust in History and Memory	3
HIST:4499	First World War	3-4
HIST:4620/ JPNS:4620	Japan-U.S. Relations	3

## International Business and Economic Relations Track

The international business and economic relations track requires the following coursework (minimum of 19 s.h.).

Code	Title	Hours
Two of these:		
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
GEOG:2910	The Global Economy	3
Four of these, including courses from at least two departments:		
POLI:2417	Comparative Environmental Policy	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3126	Environmental Policy	3
POLI:3400	Political Economy	3
POLI:3424	Global Development	3
POLI:3504	Globalization	3
POLI:3524	Politics and Multinational Enterprises	3
ECON:3345	Global Economics and Business	3
ECON:3620	Economic Growth and Development	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
ECON:3750/ GEOG:3940/ URP:3350	Transportation Economics	3
ECON:4110	International Economics	3
ENTR:4460	Entrepreneurship and Global Trade	3
FIN:4240	International Finance (prerequisite required)	3
GEOG:2410	Environment and Development	3
GEOG:3070/ GHS:3070	Hungry Planet: Global Geographies of Food	3
GEOG:3800	Environmental Economics and Policy	3
HIST:3240/ GEOG:3780/ GHS:3780	U.S. Energy Policy in Global Context	3
IS:3200	Sustainable Development	3
MGMT:3450	International Business Environment	3
MKTG:4300	International Marketing (prerequisite required)	3

## Regional Politics and Relationships Track

The regional politics and relationships track requires the following coursework (minimum of 18 s.h.).

Code	Title	Hours
This course:		
POLI:1400	Introduction to Comparative Politics	3

Five of these, including at least 6 s.h. in courses from each of two departments:

POLI:1401	Introduction to Russian Politics	3
POLI:1445	Introduction to Asian Politics: China	3
POLI:1449	Introduction to European Politics	3
POLI:2415	Latin American Politics	3
POLI:2500	Politics of Natural Disasters	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3405	Authoritarian Politics	3
POLI:3408	Chinese Politics and Society	3
POLI:3410	Russian Foreign Policy	3
POLI:3420	Southeast Asia: Politics and Development	3
POLI:3422	Horn of Africa: Politics and Transnational Issues	3
POLI:3423	The Middle East: Policy and Diplomacy	3
POLI:3424	Global Development	3
POLI:3425	South Asia: Politics, Identity, and Conflict	3
POLI:3426	Outliers: Comparing Odd Countries	3
POLI:3450	Problems in Comparative Politics	3
POLI:3514	Regional Peace and Security	3
HIST:1602/ ASIA:1602	Civilizations of Asia: China from the 17th Century to the Present	3
HIST:1604/ ASIA:1604	Civilizations of Asia: Japan	3-4
HIST:1606/ ASIA:1606/ RELS:1606	Civilizations of Asia: South Asia	3-4
HIST:1607/ ASIA:1607	Civilizations of Asia: Korea	3-4
HIST:1609/ ASIA:1609	India Now! Surveying the World's Largest Democracy	3-4
HIST:1708	Civilizations of Africa	3
HIST:2420/ GRMN:2720	Germany in the World	3-4
HIST:3145	Europe and the United States in the Twentieth Century	3
HIST:3289/ NAIS:3289	The Atlantic World c. 1450-1850	3
HIST:3416	Modern Britain: War and Empire in the Twentieth Century	3
HIST:3470	France from 1815 to Present	3
HIST:3475	Germany's Twentieth Century	3-4
HIST:3501/ LAS:3501	Rebel Island: A History of Cuba	3
HIST:3515/ LAS:3515	Introduction to Modern Latin America	3
HIST:3652/ ASIA:3652	Twentieth-Century China	3

HIST:3685/ ASIA:3685	Modern Korean History	3
HIST:3760/ AFAM:3760	The Making of Modern Africa	3
HIST:3810	History of the Modern Middle East	3
HIST:4433/ FREN:4433	France Under Nazi Occupation, 1940-1944	3-4
HIST:4438	Modern European Imperialism	3
HIST:4502/ LAS:4502/ NAIS:4502	History of Mexico	3
HIST:4615/ JPNS:4615	Modern Japan	3
HIST:4666/ ASIA:4166	Topics in Asian History	3

## Transnational Issues Track

The transnational issues track requires the following coursework (minimum of 18 s.h.).

Code	Title	Hours
Six of these, including at least 3 s.h. in courses from each of three departments:		
POLI:2417	Comparative Environmental Policy	3
POLI:2500	Politics of Natural Disasters	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3126	Environmental Policy	3
POLI:3411	Democracy: Global Trends and Struggles	3
POLI:3422	Horn of Africa: Politics and Transnational Issues	3
POLI:3424	Global Development	3
POLI:3509	International Courts: The Intersection of Law and Politics	3
CRIM:3415	Global Criminology	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
ECON:3750/ GEOG:3940/ URP:3350	Transportation Economics	3
ECON:3760	Health Economics	3
GEOG:1020	The Global Environment	3
GEOG:1070	Contemporary Environmental Issues	3
GEOG:1090	Globalization and Geographic Diversity	3
GEOG:2110/ GHS:2110	Seven Billion and Counting: Introduction to Population Dynamics	3
GEOG:2410	Environment and Development	3
GEOG:3070/ GHS:3070	Hungry Planet: Global Geographies of Food	3
GEOG:3110/ GHS:3111	Geography of Health	3

GEOG:3300/ GHS:3300	Envisioning Future Worlds: Sustainable Development and Its Alternatives	3
GEOG:3331	Human Dimensions of Climate	3
GEOG:3780/ GHS:3780/ HIST:3240	U.S. Energy Policy in Global Context	3
GEOG:3800	Environmental Economics and Policy	3

## Self-Defined Track

Students may create their own track with permission from the director of undergraduate studies. A self-defined track may not duplicate an existing track or another academic program of study at the University of Iowa. It must consist of at least 18 s.h. of coursework, which must include 3 s.h. of credit earned in courses from each of three departments.

## Honors

### Honors in the Major

Students majoring in international relations have the opportunity to graduate with honors in the major. Students must maintain a cumulative University of Iowa g.p.a. of at least 3.33, as required by the College of Liberal Arts and Sciences, and a major g.p.a. of at least 3.50. Students also must complete POLI:4000 Honors Seminar on the Study of Politics in addition to the minimum major requirements. Honors students complete an honors thesis through their enrollment in POLI:4801 Honors Senior Seminar in International Relations.

### National Honor Society

The department sponsors a chapter of Pi Sigma Alpha. Students who have a cumulative g.p.a. of at least 3.30, have attained junior standing, and have completed 15 s.h. of coursework in political science are considered for membership. Contact the Department of Political Science honors advisor for more information.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the international relations major.

## Career Advancement

Because international relations and the international community are so important, a major in international relations is an excellent choice for any student considering a career in either the public or private sector, including the diplomatic service, intelligence organizations, multinational corporations, nongovernmental organizations, international organizations, think tanks, public health agencies, the media, and numerous other professions. The international relations major also prepares students to pursue postbaccalaureate degrees such as the J.D., M.A., or Ph.D.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** POLI:1500 Introduction to International Relations.

**Before the fifth semester begins:** all core courses and the methods course.

**Before the seventh semester begins:** at least two of the mathematics/statistics courses, at least 12 s.h. in the track, and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** all core courses, the methods course, the remaining mathematics/statistics course, and all track requirements.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

--------------	--------------

<b>Total Hours</b>	<b>124-134</b>
--------------------	----------------

- a Fulfills a major requirement and may fulfill a GE requirement.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- d Refer to the General Catalog for list of approved courses.
- e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- f The transnational issues track requires at least six approved track courses (18 s.h. total). This must include at least 3 s.h. in courses from each of three departments.
- g Students must complete one of the approved sets of mathematics/statistics courses (10-11 s.h.).
- h Enrollment in math courses requires completion of a placement exam.
- i Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# International Relations, Minor

## Requirements

The undergraduate minor in international relations requires a minimum of 15 s.h. in coursework approved for the international relations major, including at least 9 s.h. in courses numbered 3000 or above and at least 12 s.h. taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students may count a maximum of 9 s.h. earned in coursework from one department toward the minor. To view the selection of courses available, see the B.A. in international relations [p. 710] or the B.S. in international relations [p. 715] in the Catalog.

Courses for the minor in international relations must include the following.

Code	Title	Hours
This course:		
POLI:1500	Introduction to International Relations	3
One of these:		
POLI:3512	International Conflict	3
POLI:3516	The Politics of International Economics	3

# International Studies

## Interim Director, Division of Interdisciplinary Programs

- Kristy Nabhan-Warren

## Director, International Studies

- Ari Ariel (History/Interdisciplinary Programs)

## Academic Coordinator

- Meredith Mahy Gall

**Undergraduate major:** international studies (B.A.)

**Undergraduate minor:** international studies

**Faculty:** <https://internationalstudies.uiowa.edu/people>

**Website:** <https://internationalstudies.uiowa.edu/>

The International Studies Program offers a multidisciplinary approach to international issues and global connections.

International Studies is one of the academic units in the Division of Interdisciplinary Programs [p. 375].

## Programs

## Undergraduate Programs of Study

### Major

- Major in International Studies (Bachelor of Arts) [p. 726]

### Minor

- Minor in International Studies [p. 740]

## Courses

## International Studies Courses

### IS:1000 Designing Your International Studies

**Major** 1 s.h.

Importance of interdisciplinarity, global perspectives, and world language study for 21st-century liberal education; intentional planning of courses and other out-of-class experiences to prepare students for life and career after college.

### IS:1030 International Events Attendance 1 s.h.

Attendance at internationally oriented academic, artistic, or cultural events taking place in Iowa City.

### IS:1101 Cultural Anthropology 3 s.h.

Comparative study of culture, social organization. GE: Social Sciences; Values and Culture. Same as ANTH:1101.

### IS:2000 Introduction to International Studies 3 s.h.

Introduction to the interdisciplinary field of international studies; globalization, migration, and inequality. GE: International and Global Issues.

### IS:2009 World Travel: Cross-Cultural Skills for International Business, Education, and Service 3 s.h.

Cross-cultural skills and ethics for international business, education, and service.

### IS:2012 Issues in International Studies 1 s.h.

Modules focusing on varied topics, taught by international studies faculty members.

### IS:2013 Issues in International Studies 1-3 s.h.

Modules focusing on varied topics, taught by international studies faculty members.

### IS:2020 World Events Today! 3 s.h.

Current events that introduce students to political and cultural developments throughout the world. GE: Diversity and Inclusion.

### IS:2041 Understanding "The Muslim World" 3 s.h.

Exploration of expressions and experiences of Muslims in increasingly diverse societies around the world. Same as ASIA:2041, RELS:2041.

### IS:2042 Intercultural Communication 3 s.h.

Culture defined as a system of taken-for-granted assumptions about the world that influence how people think and act; cultural differences that produce challenges and opportunities for understanding and communication; those differences from several theoretical perspectives; opportunities to examine culture and cultural differences in practical, experience-driven ways. Same as COMM:2042, SSW:2042.

### IS:2115 Introduction to Human Rights 3 s.h.

Analysis and evaluation of the international human rights program; relationship between human rights and international law. Same as HRTS:2115.

### IS:2120 World History: Stone Age to Feudal Age 3 s.h.

World history from human origins, through classical antiquity, to the 16th century; political, economic, and environmental forces contributing to social transformations. Same as HIST:2120.

### IS:2122 World History: Feudal Age to Nuclear Age 3 s.h.

World history from the late 1400s to 1945; colonialism, imperialism, capitalism, and industrialization as forces of global social and cultural transformation. Same as HIST:2122.

### IS:2151 Global Migration in the Contemporary World 3 s.h.

Examination of social, economic, and cultural dimensions of global migration in the contemporary world from a transnational and anthropological perspective; primary focus is on Asian migration to the United States, but in comparison to other migration trajectories. Recommendations: an introductory course in cultural anthropology is useful, but not required. GE: Diversity and Inclusion. Same as ANTH:2151, GWSS:2151.

### IS:2190 Love Rules: Law and the Family Across Cultures 3 s.h.

Recent debates over legalizing gay marriage remind us that the law is not an abstract concept, it is a social creation that emphasizes certain cultural norms over others, both powerful and changeable; family law outlines what one cultural vision of relationships—those between lovers, parent and child, and between kin—supposedly should look like in a given society, a vision always marked by gendered, racial, and sexual divisions of power; students consider what happens when legal norms intersect with diverse ways that people make families through topics including marriage, divorce, custody, and surrogacy across the world. Same as ANTH:2190, GWSS:2190.

- IS:2248 The Invention of Writing: From Cuneiform to Computers** 3 s.h.  
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, LING:2248, TRNS:2248, WLLC:2248.
- IS:2500 Working Internationally** 1 s.h.  
Information on international job sectors; presentations by experts in the field; advice on what is required to work internationally.
- IS:2600 Muslim Minorities in the West** 3-4 s.h.  
Introduction to lives of Muslim immigrants in the USA, France, Germany, and England; examination of various theories on multiculturalism. Taught in English. GE: Values and Culture. Same as GRMN:2655.
- IS:2700 Introduction to Latin American Studies** 3 s.h.  
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Taught in English. Same as COMM:2800, LAS:2700, PORT:2700, SPAN:2700.
- IS:3009 International Perspectives: Xicotepec** 2-3 s.h.  
Introduction to provision of service to a community in a less-developed country; development of discipline-specific projects aimed at improving community life in Xicotepec, Mexico in collaboration with Rotary International; cultural and professional preparation for teamwork in an international environment; service-learning course requiring travel to Xicotepec, Mexico during spring break.
- IS:3010 Designing an International Studies Project** 3 s.h.  
How to do research related to international and global topics; preparation for a local or international project which addresses international issues in a systematic way. Requirements: junior or higher standing.
- IS:3011 Global Research: Strategies and Skills** 1 s.h.  
Skill development in international research; academic projects; work with research librarian; activity-based introduction to article, statistical, and governmental databases; research and popular materials; information discovery process (tools and search strategies); enhancement of critical thinking skills. Same as GHS:3011, ULIB:3011.
- IS:3012 Service Learning in International Studies** 3 s.h.  
Internationally focused service learning in local communities.
- IS:3020 Writing Projects in International Studies** 0-3 s.h.  
Writing project completed with the supervision of an approved faculty mentor.
- IS:3116 Media and Global Cultures** 3 s.h.  
Communication as a vital component for any effort to create social change; necessary communication to reach out to target audiences—people and communities in need—from campaigns persuading communities to change knowledge, attitudes, and practices to aiding other development efforts in areas of health, education, rural development, or sustainable agricultural practices; importance of communication as an integral part to any effort aimed at creating large-scale social change. Same as JMC:3116.
- IS:3142 Social Media for Social Change** 3 s.h.  
Individuals and groups use social media to organize, collaborate, and spread their messages to local and global audiences; students explore the myriad ways that people and organizations use social media as tools for civic engagement, activism, and political participation; drawing on a broad range of international and national cases, students examine unfolding social movements from early internet activism to the present. Same as JMC:3142.
- IS:3190 Global Debt** 3 s.h.  
Economies as cultural systems that emphasize the role of worldviews and "meaning-making" in organizing economies; debt as a key mechanism in creation and maintenance of relationships; focus on how exchange, distribution, and obligation serve to shore up or sever various social institutions and links between debt, inequality, and power; debt in various forms, from a round of drinks to student loans, and from the U.S. mortgage crisis to development aid; diverse array of economies—from gift exchange to ceremonial destruction of wealth, and from Melanesia to Wall Street—to evaluate assumptions that undergird different systems of debt and credit. Requirements: introductory course in anthropology or international studies or gender, women's, and sexuality studies. Same as ANTH:3190, SJUS:3190.
- IS:3198 Anthropology and Global Health Policy** 3 s.h.  
How global health has grown as an area of practice and study, with well-being and livelihoods of increasing numbers of people now deeply influenced by these ideas, practices, and policies; students engage with ways that global health programs have influenced experiences of health and illness by those who participate in these programs; critical analysis of how global health interacts with local dynamics of inequality, race, gender, and power. Same as ANTH:3199, GHS:3199.
- IS:3199 Global Environmental Politics** 3 s.h.  
Survey of major environmental crises and conflict between environmental groups and their detractors; climate change, global warming, loss of biodiversity, pollution, toxins, nuclear power, deforestation.
- IS:3200 Sustainable Development** 3 s.h.  
Overview of development theory and debate; increasing role of China and other new players in development funding and projects; development-oriented projects, career paths.
- IS:3350 Transnational Feminism** 3 s.h.  
Exploration of feminist perspectives from the United States and outside of the United States; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions and populations. Same as ANTH:3125, GWSS:3350.
- IS:3550 Special Topics in International Studies** 1-3 s.h.  
Special topics related to international studies.

- IS:3555 Understanding Health and Disease in Africa** 3 s.h.  
Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as GHS:3555, HIST:3755.
- IS:3560 Global Food Migrations** 3 s.h.  
Understanding how food influences, and is influenced by, social, political, and cultural factors.
- IS:3565 Global Perspectives on Negotiation, Persuasion, and Communication** 3 s.h.  
Cross-cultural approach to preparation for negotiation; exploration of how culture simultaneously enhances and complicates persuasive interactions at the individual, organizational, and global levels; evaluation and improvement of negotiation and cross-cultural communication skills through experiential in-class exercises.
- IS:3600 Development in a Global Context I: Preparing for an Internship in Health, Gender, and Environment** 2 s.h.  
Students work with a UI faculty mentor to articulate an international development project and apply to an international development organization for an internship; students are matched to an organization/project and begin preparation for their internship by communicating with onsite mentor/supervisor.
- IS:3700 Development in a Global Context II: Reflections on Real World Interventions** 1 s.h.  
Students produce a research paper analyzing their personal internship in an international development program.
- IS:3745 Islam in Africa** 4 s.h.  
African Islamic history beginning with earliest Muslim migrants from Arabia to Ethiopia in early 7th century C.E. to dawn of 21st century; focus on historical development of Islam on African continent, specific regions, and particular themes; part of Islamic Studies Virtual Curriculum and Committee on Institutional Cooperation (CIC) CourseShare Program. Same as HIST:3745, RELS:3845.
- IS:3855 Human Rights and Islam** 3 s.h.  
Human rights in religious and secular discourse, seventh century to present; Islamic law, human rights law, religion, politics. GE: International and Global Issues. Same as RELS:3855.
- IS:3905 Topics in Human Rights** 1-3 s.h.  
Examination of emerging human rights issues from an interdisciplinary and international perspective. Same as HRTS:3905.
- IS:3910 Human Rights Advocacy** 3 s.h.  
Theoretical foundations and critical issues for international human rights advocacy and international humanitarian movements. Same as HRTS:3910.
- IS:3990 Independent Study in International Studies arr.**  
Research on a topic of international significance. Requirements: international studies major.
- IS:4131 Globalization and Culture** 3 s.h.  
How context for everyday experience has increasingly become globally determined (e.g., ever-increasing transnational migration of people, spread of American culture, growth of international corporations and trade, rise of international conflict and transnational activism); range of theoretical and critical readings on globalization; various phenomena and perspectives regarding topic; themes directly relevant to lives of modern youth; how globalization affects opportunities and risks, identities and relationships. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1305, COMM:1306) and (2 of the following are required: COMM:1809, COMM:1816, COMM:1818, COMM:1819, COMM:2020, COMM:2030, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2045, COMM:2048, COMM:2051, COMM:2053, COMM:2054, COMM:2057, COMM:2060, COMM:2064, COMM:2065, COMM:2069, COMM:2070, COMM:2072, COMM:2075, COMM:2076, COMM:2077, COMM:2078, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091, COMM:2248). Same as COMM:4131.
- IS:4990 International Studies Senior Project** 3 s.h.  
Prerequisites: IS:3010. Requirements: international studies major.
- IS:4991 Honors Thesis in International Studies** 3 s.h.  
Prerequisites: IS:3010. Requirements: international studies major.
- IS:4999 International Experience** 0 s.h.  
Engagement in international experiences. Same as GHS:4999.

# International Studies, B.A.

International studies students learn that the complexity of current world conditions requires a multidisciplinary approach to problem solving. They take core international studies courses to learn key concepts and practical skills, and extend their education by choosing from an array of internationally focused courses from the social sciences, humanities, and the arts.

Students also are encouraged to develop real-world intercultural skills by studying abroad, engaging locally with international communities, service learning, internships, and conducting research. Through academic and cocurricular experiences, students become prepared to positively contribute to the world.

As a second major, international studies can add cross-cultural skills and perspectives to degrees in business, health sciences, journalism, and the arts.

## Learning Outcomes

Students will be able to:

- recognize that the complexity of current world conditions requires a multidisciplinary approach to problem solving,
- analyze and synthesize information about key topics in international studies,
- demonstrate intellectual open-mindedness when addressing global issues, and
- apply cross-cultural skills when engaging respectfully with people from other countries and diverse communities in the United States.

## Requirements

The Bachelor of Arts with a major in international studies requires a minimum of 120 s.h., including at least 43 s.h. of work for the major. Students must complete at least 15 s.h. of work for the major at the University of Iowa. They must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Students who declare or enter the major before the first day of the fall 2021 semester may choose to complete the international studies requirements as listed on their degree audit or may choose to complete the requirements below.

The international studies major is flexible, combining core international studies coursework with those drawn from across the humanities, social sciences, and the arts. Students work closely with an academic advisor to plan their program of study.

Students are encouraged to study or intern abroad and should work with their academic advisor to determine how credits earned from approved study abroad or international internships can fulfill the global perspectives, world cultures and societies, and/or language requirements for the major.

To benefit from the interdisciplinary nature of international studies, students choose from a wide range of courses. To ensure that students take courses from varied disciplines, they may count a maximum of 12 s.h. from any department or program toward the global perspectives [p. 726] and the

world cultures and societies [p. 729] requirements as well as the language [p. 734] requirement.

Students may apply up to 12 s.h. of coursework from each additional major, minor, or certificate they earn toward the international studies major. Transfer credit approved by the International Studies Program may be applied to the major.

Students have the option to complete a 15 s.h. concentration. They choose global perspectives courses and world cultures and societies courses approved in one of the three concentrations: global business and communication [p. 735], international human rights and public service [p. 735], or international sustainable development [p. 736].

The B.A. with a major in international studies requires the following coursework.

Code	Title	Hours
Foundation Courses		10
Global Perspectives Courses		12
World Cultures and Societies Courses		12
Capstone Course		3
Language Requirement		6
<b>Total Hours</b>		<b>43</b>

## Foundation Courses

Students learn the core, multidisciplinary intellectual and interpersonal international studies skill set, and its applications for travel, employment, and understanding global issues.

Code	Title	Hours
All of these:		
IS:2000	Introduction to International Studies	3
IS:2009	World Travel: Cross-Cultural Skills for International Business, Education, and Service	3
IS:2020	World Events Today!	3
One of these:		
IS:1000	Designing Your International Studies Major	1
IS:2500	Working Internationally	1

## Global Perspectives Courses

Students learn about global trends, comparisons, and interactions.

THTR:1401	Theatre and Society: Romantics and Rebels	3

## Capstone Course

Students apply their knowledge in internationally focused experiences.

Code	Title	Hours
One of these:		
IS:3010	Designing an International Studies Project	3
IS:3012	Service Learning in International Studies	3

## Language Requirement

By fulfilling the language requirement, students gain language competence needed for work and life in the increasingly globalized world.

All students must complete a minimum of two semesters of language study beyond that required by the GE CLAS Core [p. 20]. This additional language requirement may be met either by completing two semesters of upper-level study in the same language used to fulfill the GE CLAS Core World Languages requirement or by completing two semesters, or the equivalent, of a second world language at any level.

In satisfying this requirement, most students are eligible to receive an additional 4 s.h. of ungraded credit under the Furthering Language Incentive Program (FLIP). This credit may be applied to the minimum 120 s.h. required for

graduation, but it does not count toward requirements for the international studies major.

## Optional Concentrations

Students have the option to complete a 15 s.h. concentration. This may be done by choosing global perspectives courses and world cultures and societies courses which are approved in one of the three concentrations—global business and communication [p. 735], international human rights and public service [p. 735], and international sustainable development [p. 736].

### Global Business and Communication

This concentration enables students to understand the complex forces which shape global commerce on the macro and micro levels. Students use multidisciplinary perspectives to understand the economic and cultural impacts of globalization processes, including on globalized systems and cultures of business, communication, and media. It offers social scientific and humanistic approaches to global business and communication. This background enables students who earn the concentration to stand out among entry-level business applicants; students develop the knowledge and skills needed for engaging in ethical and effective intercultural communication and action in the global business world, which are valued by multinational corporations and businesses worldwide.

### International Human Rights and Public Service

This concentration is designed to provide a combination of philosophical and practical knowledge related to social justice and human rights. The study of human rights is inherently multidisciplinary, and students have the opportunity to become familiar with international human rights standards, their application, and implications through coursework in a variety of disciplines. Students are expected to understand how to discuss and address human rights concerns from a number of distinct perspectives and to apply critical thinking skills to complex problems. Students also develop an understanding of the ways that cultural and political-economic systems reflect specific place-based contexts as well as complex world histories of colonization, resistance, migration and globalization. They gain knowledge and skills that are directly applicable to public service careers in government and nongovernmental organization, in the United States and abroad, as well as graduate programs of study such as law and public policy.

## International Sustainable Development

Students learn about the multiple dimensions to social change and human development in areas of the world categorized as developing societies, including poverty reduction; health; the environment and sustainability; climate change; food security; communication for development; cultures of developing societies; and historical, cultural, and critical perspectives on the idea of modern development. They gain an understanding of development as a cultural and political-economic process which directly influences the environment. Students also study the ways in which direct and indirect policy making by social, economic, and political institutions affect environmental issues. In this way, they develop an appreciation of the complexity of development and environmental problems in the globalized world. This concentration gives students the knowledge and skills needed for jobs or graduate education in international development and sustainability work after graduation.

## Honors

Students who declared the major before the first day of the fall 2021 semester may choose to complete the prior honors requirements as listed in the 2020-21 General Catalog but are encouraged to complete the new requirements listed below; other students wishing to complete honors in the major are held to the new requirements below.

## Honors in the Major

Students have the opportunity to graduate with honors in the major. International studies honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all coursework for the major and in all coursework that may be applied to the major.

To graduate with honors in the major, students must complete a minimum of 46 s.h. for the major (an additional 3 s.h.),

including at least 6 s.h. in courses designated as honors courses.

Honors students must choose IS:3010 Designing an International Studies Project for their capstone option, and complete IS:4991 Honors Thesis in International Studies. Students also are encouraged to present their research in a public venue, such as the Spring Undergraduate Research Festival (SURF).

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the international studies major.

## Career Advancement

The flexible structure of the international studies major allows students to tailor the degree to fit a wide range of academic interests and career goals. International studies is an ideal complement to a variety of academic degree programs and many students combine the international studies major with another major such as in world languages, business, journalism, health sciences, or the arts.

International studies alumni find employment in a range of career sectors such as education, nonprofit/nongovernmental organizations (NGOs), business, government, and translation/interpreting.

Specific examples of organizations where recent graduates have found post-graduation opportunities include Doctors without Borders (New York City, New York), the International Visitor Leadership Program/U.S. Department of State (Washington, D.C.), Coyote Logistics (Chicago, Illinois), Peace Corps (Cambodia and Uganda), American Councils for International Education (Washington, D.C.), CET Study Abroad Programs (Greece), RefugeeRISE AmeriCorps (Des Moines and Iowa City, Iowa), Japan Exchange and Teaching Program (Japan), The Bold Italic (San Francisco, California), and Texas Rio Grande Legal Aid (Austin, Texas).

International studies graduates also have used their cross-cultural, interdisciplinary education to win prestigious awards such as the Fulbright English Teaching Assistantship (Czech Republic, Taiwan, Brazil, Russia), the Gilman Scholarship, the Stanley Undergraduate Award for International Research, the Princeton in Latin America Fellowship, and the Critical Language Scholarship.

Additionally, the international studies major is excellent preparation for graduate and professional programs in law, international development, medicine, nonprofit management, higher education, public health, and urban and regional planning.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the University's Four-Year Graduation Plan.

Students who intend to study abroad during their junior year should schedule an appointment during their fourth semester to meet with an advisor from International Programs Study Abroad; those who intend to study abroad during their senior year should schedule an appointment during their sixth semester.

**Before the fifth semester begins:** at least two 3 s.h. foundation courses, and one global perspectives course or world cultures and societies course.

**Before the seventh semester begins:** at least nine courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** at least 12 courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major (including capstone course if not already taken), all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

	<b>Hours</b>	<b>15</b>
	<b>Total Hours</b>	<b>122-134</b>

- Students meet regularly with the International Studies academic advisor for help in identifying experiential learning activities and integrating them into their academic plans.
- Students earn a minimum of 10 s.h. in International Studies Foundation courses.
- Students earn a minimum of 12 s.h. in International Studies Global Perspectives courses including at least 6 s.h. numbered 2000 or above; see the General Catalog for list of approved courses.
- Fulfills a major requirement and may fulfill a GE requirement.
- Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- Students have the option to complete a 15 s.h. concentration. They choose Global Perspectives courses and World Cultures and Societies courses approved in one of the three concentrations: Global Business and Communication, International Human Rights and Public Service, or International Sustainable Development.
- Students earn a minimum of 12 s.h. in International Studies World Cultures and Societies courses; see the General Catalog for list of approved courses.
- Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

- j Students must complete a minimum of two semesters of language study beyond that required by the GE CLAS Core. This additional language requirement may be met either by completing two semesters of upper-level study in the same language used to fulfill the GE CLAS Core World Languages requirement or by completing two semesters, or the equivalent, of a second world language at any level.
- k International Studies Capstone course.
- l Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# International Studies, Minor

## Requirements

The undergraduate minor in international studies requires a minimum of 16 s.h., including 13 s.h. in courses taken at the University of Iowa.

Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students may count a maximum of 6 s.h. from a single department or program, from the Tippie College of Business, or from a major, another minor, or a certificate toward the minor in international studies.

A minor in international studies requires the following work.

## Required Courses

Code	Title	Hours
One of these:		
IS:2000	Introduction to International Studies	3
IS:2020	World Events Today!	3
Both of these:		
IS:2009	World Travel: Cross-Cultural Skills for International Business, Education, and Service	3
IS:2500	Working Internationally	1

## Additional Requirements

### Coursework/Approved Credit-Bearing Experiential Learning Activity

For approved coursework options listed below, students can choose courses under Requirements [p. 726] in the B.A. in international studies section of the Catalog. The courses with course numbers listed below are experiential learning activities. Students may consult with their program of study academic advisor to find additional opportunities that they can petition to use toward the minor.

Code	Title	Hours
These:		
Approved coursework numbered 2000-4999		6
One of these (minimum of 3 s.h.):		
Approved coursework numbered 2000-4999		3
Approved study abroad coursework		3

# Journalism and Mass Communication

## Director

- David Ryfe

**Undergraduate major:** journalism and mass communication (B.A.)

**Undergraduate minors:** media management; news and media literacy

**Graduate degrees:** M.A. in journalism; M.A. in strategic communication; Ph.D. in mass communications

**Faculty:** <https://journalism.uiowa.edu/people>

**Website:** <https://journalism.uiowa.edu/>

The School of Journalism and Mass Communication offers an undergraduate major and two minors as well as three graduate degree programs. Undergraduate students in all majors may use approved journalism and mass communication courses to satisfy the Diversity and Inclusion, Historical Perspectives, Social Sciences, and Values and Culture requirements of the College of Liberal Arts and Sciences GE CLAS Core [p. 20], and the school's First-Year Seminar is designed specifically for entering undergraduate students. The School of Journalism and Mass Communication also administers the two undergraduate certificates listed below.

The school is accredited by the Accrediting Council on Education in Journalism and Mass Communications.

## Certificates

The School of Journalism and Mass Communication administers the Certificate in Event Management (in collaboration with the Departments of Communication Studies, Health and Human Physiology, and Marketing). It also collaborates with the Department of Management and Entrepreneurship to offer the Certificate in Nonprofit Leadership and Philanthropy.

## Event Management

See the Certificate in Event Management [p. 491] in the Catalog.

## Nonprofit Leadership and Philanthropy

See the Certificate in Nonprofit Leadership and Philanthropy [p. 2068] in the Catalog.

## Professional Enrichment

### Internships

The school encourages undergraduate majors to complete at least one internship. The school's internship coordinator helps students find appropriate positions.

Undergraduate students may earn up to a total of 4 s.h. of internship credit, but not more than 3 s.h. from one single internship, registering with appropriate faculty sponsorship for JMC:2100 Journalism Internship (1-3 s.h.). Internships do not fulfill requirements for the major, but internship credit counts toward the total journalism and mass communication credit that students may apply toward a B.A. degree (maximum of 48 s.h.). Students may take internships for no credit through CCP:1201 Academic Internship.

Students also are encouraged to pursue opportunities for journalism experience on campus through student-operated media, including The Daily Iowan, Daily Iowan TV, and KRUI-FM radio.

## Activities

The school engages in a variety of activities for the enrichment of students, faculty, and the entire campus. Speakers visit campus each year under lectureships funded by the Li Chen Fund and the M. Holly McGranahan Lecture. In addition, guest speakers are funded through the Hearst Visiting Professionals Program. Campus organizations for students include Kappa Tau Alpha (KTA, a national society honoring scholarship in journalism), the National Association of Black Journalists (NABJ), the Public Relations Student Society of America (PRSSA), and Ed on Campus (EOC).

## Financial Support

More than \$200,000 in scholarships and awards is disbursed to journalism and mass communication students each year. Scholarship information and applications are available each fall. Visit Undergraduate Awards and Scholarships on the School of Journalism and Mass Communication website or contact the school.

Additionally, the school has a limited number of annual awards to encourage and support journalism and mass communication majors who seek an international experience or an immersive internship experience.

The school offers research and teaching assistantships for graduate students; preference is given to Ph.D. students. Journalism and mass communication students have been successful in winning competitive fellowships open to all graduate students; applicants must be nominated by the graduate committee.

## Programs

### Undergraduate Programs of Study

#### Major

- Major in Journalism and Mass Communication (Bachelor of Arts) [p. 749]

#### Minors

- Minor in Media Management [p. 754]
- Minor in News and Media Literacy [p. 755]

### Graduate Programs of Study

#### Majors

- Master of Arts in Journalism
- Master of Arts in Strategic Communication [p. 756]
- Doctor of Philosophy in Mass Communications [p. 758]

## Facilities

The School of Journalism and Mass Communication is housed in the Philip D. Adler Journalism and Mass Communication Building. The 65,000-square-foot building has computer laboratories for audio, video, design, writing and web publishing, a student center, and the Moeller Media Research Lab. The building also is home to offices of the Iowa High

School Press Association; the Quill and Scroll Society, an international honor society for high school journalists; the University's award-winning student newspaper, *The Daily Iowan*; *Daily Iowan TV*, a student-run newscast; and the *Journal of Communication Inquiry*.

## Courses

### Journalism and Mass Communication Courses

#### **JMC:1000 First-Year Seminar** 1-2 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

#### **JMC:1100 Media Uses and Effects** 3 s.h.

Introduction to mass communication theory as it relates to practical applications in the media industry and American society. GE: Social Sciences.

#### **JMC:1200 Media History and Culture** 3 s.h.

Historical development of journalism in the United States; cultural, historical content. GE: Historical Perspectives.

#### **JMC:1300 Principles of Strategic Communication** 3 s.h.

Theory and practice of public relations; cultural, social, organizational roles of public relations, opportunities, problems, and solutions.

#### **JMC:1400 Principles of Journalism** 3 s.h.

Understanding changes in American journalism; including factors driving this change, orientation to the contemporary landscape of journalism, and making educated guesses about the near-term future of journalism; reflection on distinctive public service mission of journalism and its adaptation to the digital age.

#### **JMC:1500 Social Media Today** 3 s.h.

Prehistory of social media and identification of ideas, events, and elements in ancient and historical times; earliest days of online posting and interacting; first instances of social engagement on the Web; how social media (journalism, politics, health care, romance and lifestyle, entertainment, war and terrorism, professions and jobs) affects individual areas of life, culture, and society; what's next and how social media changes lives in the future and affects the fate of humanity. GE: Values and Culture.

#### **JMC:1600 Writing Fundamentals** 1 s.h.

The importance of grammar; recognition of common errors in the student's own writing, with a focus on fixing these problems.

#### **JMC:1800 Twenty-first-Century Science: Environmental Communication in the Digital Age** 3 s.h.

How information created by scientists about environmental issues is used by media, public relations practitioners, law makers, regulators, and decision makers in governments, organizations, and corporations, as well as by lay citizens; analysis of strategies to get scientific knowledge to the public arena in ways that inform, educate, and empower the public; examination of how this information can be used to mislead or confuse the public.

#### **JMC:2010 Journalistic Reporting and Writing** 4 s.h.

Fundamental skills of journalistic reporting and writing. Prerequisites: JMC:1200 with a minimum grade of C- and JMC:1100 with a minimum grade of C- and JMC:1600 with a minimum grade of C- and (JMC:1300 with a minimum grade of C- or JMC:1400 with a minimum grade of C-). Corequisites: JMC:2020. Requirements: journalism major.

#### **JMC:2020 Introduction to Multimedia Storytelling** 4 s.h.

Fundamental skills of multimedia storytelling, including visual and digital. Prerequisites: JMC:1200 with a minimum grade of C- and JMC:1100 with a minimum grade of C- and JMC:1600 with a minimum grade of C- and (JMC:1300 with a minimum grade of C- or JMC:1400 with a minimum grade of C-). Corequisites: JMC:2010. Requirements: journalism major.

#### **JMC:2100 Journalism Internship** 1-3 s.h.

Faculty-supervised professional work experience in journalism and mass communication. Prerequisites: JMC:2020 and JMC:2010. Requirements: journalism major.

#### **JMC:2150 News and Knowledge: Chinese Culture, History, and Journalism** 1 s.h.

Chinese culture, and social and cultural issues as perceived by people inside and outside China from a journalistic view.

#### **JMC:2500 Community Media** 3 s.h.

The boundaries of community can be set in many ways —by geography, age, ability, race, ethnicity, and more —or by intersection of several of these factors; students engage deeply with media representations of different types of communities, discuss basic concepts of identity and community, and explore some of the major fault lines, biases, and privileges in contemporary life; students critique common stereotypes that often show up in media coverage of marginalized communities to better practice storytelling across difference, focusing on how stories from communities that are underrepresented or misrepresented by media can be amplified. GE: Diversity and Inclusion.

#### **JMC:2600 Freedom of Expression** 3 s.h.

Philosophy, history, political science, and legal studies blended into a semester-long meditation on the meaning of freedom of expression, especially in the United States, and specifically on the U.S. Supreme Court; special attention given to the way in which freedom of expression enters into societal debates about benefits and challenges of diversity, and whether and how to rectify structural relationships of inequality; as students learn the history and tradition of how Americans have understood this concept, they reflect on their own perspectives and engage with others who may have different ideas from their own. GE: Diversity and Inclusion.

#### **JMC:2700 Media Ethics and Diversity** 3 s.h.

Application of ethical principles in journalistic decision making; consideration of potentially conflicting values, loyalties, and goals that force professional journalists to make difficult choices.

#### **JMC:3025 Iowa Policy and Opinion Lab** 0-3 s.h.

Collaboration and study of policymaking and public opinion in Iowa; examination of policy choices in legislative, executive, and judicial branches; collection of survey data on public opinion among Iowans; students assist with research question development, data collection, data analysis, writing up results, and work with topics in these and other areas (e.g., race and crime, gender and social issues, health and COVID-19, environment); research group led by faculty in the Departments of Political Science and Journalism and Mass Communication.

- JMC:3116 Media and Global Cultures** 3 s.h.  
Communication as a vital component for any effort to create social change; necessary communication to reach out to target audiences—people and communities in need—from campaigns persuading communities to change knowledge, attitudes, and practices to aiding other development efforts in areas of health, education, rural development, or sustainable agricultural practices; importance of communication as an integral part to any effort aimed at creating large-scale social change. Same as IS:3116.
- JMC:3122 Digital and Gaming Culture** 3 s.h.  
Examination of digital and gaming cultures including immersive media technology, vloggers, online communities, and Twitch celebrities; industry, aesthetics, storytelling, rewards, and risks in video games across mobile, open world, role playing, casual, and serious game genres.
- JMC:3123 Advocacy Communication** 3 s.h.  
Explore how organizations, businesses, nonprofits, and grassroots groups attempt to shape public policy through use of traditional and new media, direct communication, and lobbying.
- JMC:3124 Entertainment Media** 3 s.h.  
Explore the technological revolution as it has profoundly shaped entertainment media, analyzing the parallels and differences among a variety of digitized media (movies, music, television, books, even video games); everything has changed, from the distribution to consumption to creation.
- JMC:3135 New Media and the Future of Sport** 3 s.h.  
Emergence and significance of internet blogs, social media, convergence journalism, video games, and fantasy sports; economic, regulatory, and cultural forces that shape new media sport journalism and entertainment. Same as AMST:3198, SPST:3198.
- JMC:3142 Social Media for Social Change** 3 s.h.  
Individuals and groups use social media to organize, collaborate, and spread their messages to local and global audiences; students explore the myriad ways that people and organizations use social media as tools for civic engagement, activism, and political participation; drawing on a broad range of international and national cases, students examine unfolding social movements from early internet activism to the present. Same as IS:3142.
- JMC:3150 Media and Health** 3 s.h.  
Potential and limits of mass media's ability to educate the public about health; research and theory on the influence of information and entertainment media; theories, models, assumptions of mass communication in relation to public health issues. Same as CBH:3150, GHS:3150.
- JMC:3165 African Americans and the Media** 3 s.h.  
Exploration of the theoretical notion of racialism in various genres of mass communication (i.e., music, print media, television/cable, film, social media); analysis and discussion of contemporary images and messages in media related to African American culture with close attention to impact of stereotypes, historical myths, stigmas, problematic representations, biased framing, and traditional racism. Same as AFAM:3925.
- JMC:3175 Gender and Mass Media** 3 s.h.  
Media images and representations of the body in terms of gender; impact on people, society; media and body image, sexuality, gender roles, gender and power, race, ethnicity, class, age; critical analysis of mediated images.
- JMC:3182 Sport, Scandal, and Strategic Communication in Media Culture** 3 s.h.  
Use of sport scandal to consider relationship between sport and media in American and global popular culture; broad range of case studies used to consider what constitutes a sport scandal, how this definition shifts in different circumstances; crucial roles media play in creating, communicating, and diffusing these crises; how phenomenon of sports scandal has intensified along with emergence of cable television, internet, and social media. Same as SPST:3182.
- JMC:3183 Sport and the Media** 3 s.h.  
Examination of sport and media's intimate relationship; aesthetic, cultural, political, economic, and industrial factors that shape it. Same as SPST:3175.
- JMC:3184 Narrative Sports Journalism** 3 s.h.  
Historical review of long-form sports journalism to understand development of subjects, form, and technique of sports coverage and long-form nonfiction writing; students read several long-form articles and books that incorporate reporting about sports, and propose an original long-form work about sports. Same as SPST:3184.
- JMC:3185 Topics in Understanding Media** 3 s.h.  
Focus on particular area, issue, approach, or body of knowledge; may include international media, media criticism, new technologies, history of documentary photography, literary journalism, media management.
- JMC:3190 Classics of Sports Journalism: From Jack London to Grantland** 3 s.h.  
Historical examples of celebrated works of sports journalism; focus on long-form texts. Same as SPST:3180.
- JMC:3210 Workshop for Secondary School Journalism/Communication Teachers** 1-3 s.h.  
Workshops on journalism/mass media curriculum, audio/video production, photojournalism, publication design, journalistic writing techniques, advising student publications. Same as EDTL:3026.
- JMC:3350 Journalism Topics for Nonmajors** 3 s.h.  
Varied journalism topics. Requirements: non-journalism major.
- JMC:3360 Journalism Writing for Nonmajors** 3 s.h.  
Intensive writing on varied journalism topics. Requirements: non-journalism major.
- JMC:3400 Topics in Writing/Storytelling** 3-4 s.h.  
Topics may include public affairs, law, science, business, medicine, intercultural affairs, education, computer-assisted reporting. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3410 Magazine Reporting and Writing** 3-4 s.h.  
Finding ideas, researching, interviewing; problems of organization and style; identification of audiences and markets; development of writing skills. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3411 Multimedia News Storytelling** 3-4 s.h.  
Principles of gathering, writing, editing, and reporting the news; techniques and concepts as a foundation for understanding, successfully writing, and delivering broadcast news. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.

- JMC:3412 Strategic Communication Writing** 3-4 s.h.  
Principles and practices of persuasive writing; focus on public relations; may include editorials, op-ed pieces, magazine essays, reviews. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3413 Sports Writing** 3-4 s.h.  
Introduction to the history, culture, industry, and practice of sports writing. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-.
- JMC:3414 Basic Elements of Book Writing** 3-4 s.h.  
Basic elements involved in writing a novel or a nonfiction book; students will research, write, and workshop either a nonfiction book or novel proposal; they will complete a chapter outline and one chapter from their manuscript, and constructively edit and evaluate the work of fellow classmates through individual workshop sessions; course will culminate in an author's pavilion where students will select five minutes from their chapter to read to an audience. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3415 Writing Across Cultures** 3-4 s.h.  
Forms of travel writing and other types of cross-cultural reporting; skills, knowledge, understandings vital to writing well about an increasingly multicultural and diverse world. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3420 Content Marketing** 3-4 s.h.  
Tools for creating great content, as well as tactics for getting that content in front of the right audiences with the right message at the right time. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism and mass communication major.
- JMC:3425 Personal Branding and Building a Niche** 3-4 s.h.  
Creation of original journalistic websites incorporating writing, design, and structure; contemporary online media issues. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.
- JMC:3430 Political Public Relations** 3-4 s.h.  
How strategic communication goals, objectives, strategies, and tactics can influence public debate on policy issues; students apply this knowledge for the benefit of a real-world client, producing a portfolio of work by the end of the semester. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism and mass communication major.
- JMC:3440 Multimedia Narratives** 3-4 s.h.  
Builds on skills learned in JMC:2020 to develop compelling multipart digital stories; focus on a range of storytelling techniques and tools to create in-depth stories that incorporate visual, audio, text, and data; students strengthen their digital storytelling skills by producing various multimedia projects, such as podcasts and digital long-form stories; project-based with opportunities to produce individual and collaborative work. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3445 Journalistic Writing in Spanish** 3 s.h.  
Spanish writing skills; introduction to style and practice of journalistic reporting and writing. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as LAS:3020, SPAN:3020.
- JMC:3460 Arts and Culture Reporting and Writing** 3-4 s.h.  
Writing about arts and culture in a range of formats (e.g., news, profiles, features, criticism, essays); emphasis on original reporting that draws on resources, issues, people, and events on campus and in the community, especially in visual and performing arts. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.
- JMC:3470 Narrative Journalism** 3-4 s.h.  
Process of writing the true story; development of skills in researching, interviewing, information gathering, organization, story-telling techniques, writing final story; story publication in magazines, newspapers, journals, online. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3490 Feature Reporting and Writing** 3-4 s.h.  
Storytelling techniques for magazine, newspaper, website features; stylistic flair; human elements in stories; research, interviewing, and reporting. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3500 Topics in Managing/Planning** 3 s.h.  
Focus on particular area, issue, approach, or body of knowledge.
- JMC:3510 Audience Engagement: Marketing Research in the Digital Age** 3 s.h.  
Solutions to problems related to communication channels, content, users, and audiences sought daily by media and communication professionals to understand what the public thinks, feels, and does about ideas, events, and trends; learn about audience needs; ways to improve or change content; systematic and methodical ways to investigate problems and figure out how best to tackle communication problems related to media content, audiences, media practice, and media institutions.
- JMC:3520 Business of Media: Profits, People, and Power** 3 s.h.  
How U.S. media is managed; decision making in a current highly charged, rapidly changing media culture; how major company decision makers seek competitive advantage, and their consequent successes and failures in doing so.
- JMC:3530 Social Media Marketing** 3 s.h.  
Social media marketing as an ever-changing area that seems to only grow in importance for everyone from academic institutions to nonprofits to businesses big and small; each of these entities and more has an online brand and goals that social media can help them meet.
- JMC:3540 The Business of Sport Communication** 3 s.h.  
Critical and practical approach to understanding contemporary sports media and business practices that mark it; focus on sports media industries and institutions; branding, marketing, demographic, public relations, and promotional factors that shape content. Same as SPST:3181.
- JMC:3550 Editing** 3-4 s.h.  
Principles and process of editing content for publication; micro- and macroediting, headline writing, other aspects of editing.

- JMC:3600 Topics in Designing/Producing** 3-4 s.h.  
Analysis and solution of problems with communication strategies and/or media products; public relations, newsletter production, radio, media research, web basics, global media, interviewing, PR fund-raising. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3603 Studio News Production** 3-4 s.h.  
Electronic news gathering (ENG); conceptualization, shooting, editing basic news packages. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3610 Graphic Design** 3-4 s.h.  
Problems of design, layout and production; practical and aesthetic considerations; digital techniques; creative projects. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.
- JMC:3611 Web Design** 3-4 s.h.  
Web development from the ground up; students will choose topics and build personal sites for original pieces of journalism. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.
- JMC:3630 Photography** 3-4 s.h.  
Techniques; basic craft, location shooting, editing photographs; group critiques of assignments. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-.
- JMC:3640 Information and Data Visualization** 3-4 s.h.  
How to find and tell stories using data; hands-on introduction to data visualization, data analysis and data literacy for journalists and communications professionals. Prerequisites: (JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-) or CS:2110 or IGPI:5110.
- JMC:3650 Video Production** 3-4 s.h.  
Creation of high-quality videos for social media and mobile platforms; students learn how to use digital single-lens reflex (DSLR) cameras and Final Cut Pro to create professional content customized for social media sites such as YouTube and Facebook; how to use smartphone cameras and editing software to make shareable videos for mobile apps such as Instagram and Snapchat; current industry trends and preferred practices for designing, directing, and editing compelling video stories for multiple digital platforms. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3660 Audio Production** 3-4 s.h.  
Techniques; basic craft, audio recording, audio editing; individual and group production; group critiques of assignments. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.
- JMC:3700 Field Experience: Nonprofit Leadership and Philanthropy** 3 s.h.  
Faculty-supervised professional work experience with a nonprofit organization with associated academic content.
- JMC:3710 Fundraising Fundamentals** 3 s.h.  
Nonprofit organization reliance on raised funds to survive and thrive; basic concepts of fundraising for successful nonprofit organization; work with a nonprofit organization to explore basic fundraising techniques that nonprofits typically use including donor research, annual fund campaigns (phone, mail, email), capital campaigns, events, cause-related marketing, grants, planned giving, and donor stewardship; when and how to use different fundraising strategies to meet an organization's goals.
- JMC:3720 Nonprofit Communications** 3 s.h.  
Practical experience planning and writing fundraising materials; how yearly fundraising helps approximately 1.5 million nonprofit organizations receive more than \$3 billion from individuals, foundations, and corporations to help people in need, advocate for causes, support research/arts/culture, and enhance opportunities for public and/or their members.
- JMC:4000 Scientists and Writers** 1 s.h.  
Science communication and collaborative skills that are highly sought after by employers in STEM firms including pharmaceutical firms, biotech start-ups, and many others; these same skills essential for reporting on, writing about, or translating science in any area; studio-style format. Requirements: STEM graduate standing in biological, chemical, physical, medical science, or engineering disciplines; or advanced undergraduate standing in journalism, creative writing, English, or any other writing-intensive major. Same as CHEM:4000, WRIT:4002.
- JMC:4100 Advanced Topics in Writing/Storytelling** 3-4 s.h.  
Project journalism; extended magazine pieces, explanatory/investigative journalism, series for newspapers, or task-force projects by entire class on a major issue, with goal of publication. Prerequisites: JMC:3400 or JMC:3405 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3425 or JMC:3430 or JMC:3435 or JMC:3440 or SPAN:3020 or JMC:3460 or JMC:3470 or JMC:3490. Requirements: journalism major.
- JMC:4110 Iowa Journalist** 3-4 s.h.  
Development of research, writing, editing, and design skills necessary to produce an engaging *Iowa Journalist* alumni magazine; students generate effective, strategy-based copy delivered through a variety of formats including print, online, and social media; critical thinking about magazine content and design and how they relate to public relations practice. Prerequisites: (JMC:3400 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3425 or JMC:3430 or JMC:3435 or JMC:3440 or SPAN:3020 or JMC:3460 or JMC:3470 or JMC:3490) and (JMC:3600 or JMC:3603 or JMC:3610 or JMC:3611 or JMC:3630 or JMC:3640 or JMC:3650 or JMC:3660). Requirements: journalism and mass communication major.
- JMC:4125 Advanced Strategic Storytelling** 3-4 s.h.  
Advanced tools for creating great content; tactics for getting that content in front of the right audiences with the right message at the right time. Prerequisites: 2 of the following are required: JMC:3412, JMC:3420, JMC:3530. Requirements: journalism major.
- JMC:4300 Advanced Photography** 3-4 s.h.  
Builds on photography skills learned in JMC:3630; may include documentary photography, advanced photography methods and techniques. Prerequisites: JMC:3630.

- JMC:4310 Advanced Topics in Designing/Producing** 3-4 s.h.  
Journalism and mass communication skills; may include editing, broadcasting, design, multimedia. Prerequisites: JMC:3600 or JMC:3603 or JMC:3610 or JMC:3611 or JMC:3630 or JMC:3640 or JMC:3650 or JMC:3660. Requirements: journalism major.
- JMC:4315 Advanced Strategic Communication** 3-4 s.h.  
Development and presentation of public relations campaigns for client organizations; communication theory and research techniques applied to analyzing and solving public relations problems through objective-based strategic planning. Prerequisites: JMC:3412 or JMC:3420. Requirements: journalism and mass communication major.
- JMC:4350 Advanced Graphic Design** 3-4 s.h.  
Advanced design, layout, and production; practical and aesthetic considerations; digital techniques; creative projects. Prerequisites: JMC:3610. Requirements: journalism major.
- JMC:4360 Advanced Web Design** 3-4 s.h.  
Course builds upon techniques learned in JMC:3611. Prerequisites: JMC:3611. Requirements: journalism major.
- JMC:4400 Capstone** 3-4 s.h.  
Application and practice of classroom experience to a specific project with guidance from a faculty member. Prerequisites: (JMC:3400 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3425 or JMC:3430 or JMC:3435 or JMC:3440 or SPAN:3020 or JMC:3460 or JMC:3470 or JMC:3490) and (JMC:3600 or JMC:3603 or JMC:3610 or JMC:3611 or JMC:3630 or JMC:3640 or JMC:3650 or JMC:3660). Requirements: journalism major.
- JMC:4900 Special Projects in Mass Communication** arr.  
Research and readings to fit needs, interests of students.
- JMC:4910 Readings in Communication and Mass Communication** 1-3 s.h.  
Focus on a problem or issue.
- JMC:4955 Honors Project** 3 s.h.  
Independent research or project for honors students. Requirements: honors standing.
- JMC:5100 Masters Seminar** 1 s.h.  
Theoretical or methodological problems in mass communication.
- JMC:5200 Topics in Strategic Communication** 3 s.h.  
Various topics relevant to strategic communication.
- JMC:5235 Strategic Communications Research** 3 s.h.  
Methodology of social science inquiry, the process and instruments of data gathering, evaluation of evidence, and the usefulness and appropriateness of various information sources in the service of strategic communication research; blends theory and practice.
- JMC:5237 Financial and Budget Fundamentals for Communicators** 3 s.h.  
How a company operates as a business; rapid changes in international economy; important SEC documents and other sources of information on public companies; a public company's financial statements; comparison of public companies financial conditions; analysis and informed conclusions about a public company's financial condition.
- JMC:5238 Strategic Communication Campaigns** 3 s.h.  
Practice of strategic communication through traditional and new media for purpose of benefiting nonprofit organizations or bringing about social change; examples and strategies from corporate, nonprofit, and social marketing campaigns; application of knowledge for benefit of real-world clients; principles and strategies applied to professional projects. Prerequisites: JMC:5300 and JMC:5400.
- JMC:5239 Strategic Web Video Communication** 3 s.h.  
Production of video content and releasing visual stories online; tools needed to capture compelling images and edit meaningful stories; strengths and weaknesses of video storytelling using portable video cameras and affordable editing software; for graduate students who are working professionals.
- JMC:5240 Digital Strategic Communication** 3 s.h.  
Exploration of information industry growth; creative processes involved in developing a blog and utilizing multimedia tools to enhance strategic messages; focus on characteristics and spread of new communication technologies and their social, economic, and political effects.
- JMC:5243 Copywriting for Strategic Communication** 3 s.h.  
Focusing copy to a targeted audience to move them to action; multiple platforms where copywriting can appear; learn how professional copywriters craft motivational, persuasive messages and continuously refine their skills; build copywriting skills through weekly exercises, peer reviews, and a final portfolio.
- JMC:5248 Strategic Political Communication** 3 s.h.  
Study of political communication; topics range from classic issues (agenda setting) to current debates and emerging topics associated with new media; readings address political communication in the United States.
- JMC:5250 Strategic Communication for Nonprofits** 3 s.h.  
Examination of components, objectives, and initiatives of strategic communications for nonprofit organizations; students specifically examine strategies that inspire and persuade diverse audiences and stakeholders through multi-channel communications with emphasis on audience analysis; in addition to assigned texts, students utilize case studies to examine organizational approaches and identify successful—and unsuccessful—strategies; although focus is primarily on nonprofits, the teaching modules are applicable to diverse industries.
- JMC:5255 Strategic Global Communication** 3 s.h.  
Examination of communications practices around the globe and exploration of different professions and organizations that employ international strategic communications; emphasis on practical application of communications theory, with copious use of real-life case studies and examples from leading expert practitioners; through a combination of projects, discussions, and case studies, students develop a more nuanced understanding of international and intercultural communication strategies while taking into account cultural context, stakeholders, and trends.
- JMC:5260 Digital Analytics for Strategic Communication** 3 s.h.  
Introduction to multiple digital analytics platforms and dashboards; how to align business objectives and digital metrics, ensuring the ability to make more strategic content, marketing, and audience targeting decisions; strategies to assist students in communicating insights and analytics to leadership.

- JMC:5266 Risk Communication** 3 s.h.  
Examination of risk as a central concept in communication process; risk as intrinsically an interdisciplinary concept; literature from a wide range of disciplines and perspectives (communication, psychology, sociology, formal risk analysis); case studies drawn from issues and cultural contexts (environmental, technological or health risks, food safety risks; international military crisis or threats of terrorism, natural disasters); emphasis on comparison of European and American contexts.
- JMC:5267 Strategic Health Care Communication** 3 s.h.  
Breaking down health care to basics; writing and communicating about health care in an understandable way so that hospitals, medical groups, and health care businesses can be better understood when doing business with each other as well as the public and consumers at large; health care writing and communication so consumers can understand, avoid injuries and even death from medical errors shown by studies on health literacy; how doctors and insurance companies can convey their messages in easy-to-understand way to lessen public frustration with the system.
- JMC:5269 Media Management for Strategic Communicators** 3 s.h.  
Looking at media in a completely new way; focus on economics and management of competitive businesses; how modern-day businesses in the media sector succeed or fail and why; decision making, competition, and outcomes; emphasis on news media companies that operate in public glare and offer rich opportunities for critical observation.
- JMC:5270 Leadership Communication** 3 s.h.  
Using communications skills effectively for leadership in the modern workplace; how technological, global, and demographic developments have combined to transform the field of strategic communications; skills necessary to be effective in an environment of collaboration, teamwork, and self-management across a variety of platforms.
- JMC:5285 Strategic Communication Externship** 3 s.h.  
Externship to allow connection between academic program and professional world; enhancement of skill and knowledge.
- JMC:5300 Foundations of Strategic Communication** 3 s.h.  
Introduction to the field of strategic communication.
- JMC:5400 Strategic Communication Writing** 3 s.h.  
Writing workshop for M.A. strategic communication students.
- JMC:5910 Masters Tutorial** arr.  
Topics in communication and mass communication inquiry.
- JMC:5950 Capstone Project in Strategic Communication** 1-3 s.h.  
Workshop of capstone projects required for graduation; for students nearing completion of M.A. in strategic communication. Requirements: M.A. in strategic communication program enrollment.
- JMC:5955 Masters Research** arr.  
Independent research for projects, theses.
- JMC:6100 M.A./Ph.D. Seminar** 1 s.h.  
Forum on theoretical or methodological problems in mass communication.
- JMC:6200 Humanistic Approaches to Media Communication** 3 s.h.  
Exploration of foundations, assumptions, and applications of critical/cultural theory and methods; how to understand and critique humanistic research; how to develop ideas, evidence, and arguments that lead to compelling and useful research in media communication.
- JMC:6300 Social Scientific Approaches to Media Communication** 3 s.h.  
Exploration of foundations, assumptions, and application of social science theory and methods to media communication questions; how to understand and critique social science research; how to develop and test questions that lead to rigorous and useful research in media communication.
- JMC:6330 Reading Group** 1-3 s.h.  
Analysis and discussion of important texts.

# Journalism and Mass Communication, B.A.

Media writing and visual storytelling form the core of the undergraduate major in journalism and mass communication. Students are required to take introduction, foundation, application, and advanced or capstone courses offered by the school; they develop professional skills while studying the historical, legal, cultural, and institutional roles of media in society. They also complete extensive academic work outside the school, consistent with the University's commitment to the liberal arts and sciences.

First-year students completing a major in journalism and mass communication are advised at the Academic Advising Center. Students who have earned 30 s.h. or more and have declared the journalism and mass communication major are advised in the School of Journalism and Mass Communication by one of the journalism and mass communication academic advisors.

## Transfer Students

The School of Journalism and Mass Communication may accept transfer credit in journalism earned at institutions accredited by the Accrediting Council on Education in Journalism and Mass Communications. A maximum of 9 s.h. of approved transfer credit may be applied to the major in journalism and mass communication. Some journalism coursework taken at other schools may be used to fulfill the GE CLAS Core [p. 20] and/or second area of concentration requirements.

Students who wish to apply transfer credit toward School of Journalism and Mass Communication requirements must discuss the proposed transfer credit with a journalism advisor and must have approval from the head of undergraduate studies.

## Learning Outcomes

### Learning Goals

#### Law and Ethics

Students will understand and be able to apply the principles and laws of freedom of speech and press in real space and cyberspace, and demonstrate an understanding of professional ethical principles and their historical development.

#### Media Literacy

Students will understand the principles of media literacy and develop the skills necessary to access, analyze, evaluate, and create media messages across multiple media domains.

#### Writing and Storytelling

Students will understand that clear, concise, and correct writing is at the heart of journalistic expression, and that reporting and communicating it effectively requires a knowledge and achievement of the highest, professionally accepted standards in all work.

#### Multiculturalism

Students will be able to demonstrate an understanding of the diversity of groups (including communities defined by gender, race, ethnicity, age, religion, and sexual orientation) in a global society in relationship to communications.

## Media History

Students will understand the history of media in the context of industries and identify transformations in audiences, engagement, and business practice over time. They will grasp the significance of advances in mass communication technology for cultural production in domestic and global media markets from the printing press to the latest digital platforms. Students will trace the production of cultural meanings across historical periods as well as connections between business models and news consumption.

## Requirements

The Bachelor of Arts with a major in journalism and mass communication requires a minimum of 120 s.h., including at least 42 s.h. in journalism and mass communication courses, plus a second major, certificate, or minor from the school's approved list. See "Second Major or Concentration Area" below for specific requirements. Students must maintain a g.p.a. of at least 2.00 in the major. All students must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students may count a maximum of 48 s.h. earned in School of Journalism and Mass Communication courses (prefix JMC) toward the 120 s.h. required for the degree.

Each student works with an assigned educational advisor and/or faculty advisor to develop a study plan that meets the major's requirements. Requirements for the major are consistent with the program's accreditation requirements; the school cannot make exceptions.

The B.A. with a major in journalism and mass communication requires the following coursework.

Code	Title	Hours
	Introduction Courses	10
	Foundation Courses	14
	Application Courses	15
	Advanced or Capstone Course	3
	Second Major or Concentration Area	
<b>Total Hours</b>		<b>42</b>

## Introduction Courses

Students must complete these courses before they enroll in JMC:2010 Journalistic Reporting and Writing and JMC:2020 Introduction to Multimedia Storytelling.

Code	Title	Hours
All of these completed with a grade of C-minus or higher:		
JMC:1100	Media Uses and Effects	3
JMC:1200	Media History and Culture	3
JMC:1600	Writing Fundamentals	1
One of these completed with a grade of C-minus or higher:		
JMC:1300	Principles of Strategic Communication	3
JMC:1400	Principles of Journalism	3

## Foundation Courses

Students must complete JMC:2010 and JMC:2020 before they enroll in a Designing/Producing or Writing/Storytelling course.

Code	Title	Hours
Both of these completed with a grade of C-minus or higher:		
JMC:2010	Journalistic Reporting and Writing	4
JMC:2020	Introduction to Multimedia Storytelling	4
And both of these:		
JMC:2600	Freedom of Expression	3
JMC:2700	Media Ethics and Diversity	3

## Application Courses

### Managing/Planning

Code	Title	Hours
One of these:		
JMC:3500	Topics in Managing/Planning	3
JMC:3510	Audience Engagement: Marketing Research in the Digital Age	3
JMC:3520	Business of Media: Profits, People, and Power	3
JMC:3530	Social Media Marketing	3
JMC:3540	The Business of Sport Communication	3
JMC:3550	Editing	3
JMC:3720	Nonprofit Communications	3

### Understanding Media

Code	Title	Hours
One of these:		
JMC:3116	Media and Global Cultures	3
JMC:3122	Digital and Gaming Culture	3
JMC:3123	Advocacy Communication	3
JMC:3124	Entertainment Media	3
JMC:3135	New Media and the Future of Sport	3
JMC:3142	Social Media for Social Change	3
JMC:3150	Media and Health	3
JMC:3165	African Americans and the Media	3
JMC:3175	Gender and Mass Media	3
JMC:3182	Sport, Scandal, and Strategic Communication in Media Culture	3
JMC:3183	Sport and the Media	3
JMC:3184	Narrative Sports Journalism	3
JMC:3185	Topics in Understanding Media	3
JMC:3190	Classics of Sports Journalism: From Jack London to Grantland	3

### Designing/Producing

Code	Title	Hours
One of these:		
JMC:3600	Topics in Designing/Producing	3
JMC:3603	Studio News Production	3

JMC:3610	Graphic Design	3
JMC:3611	Web Design	3
JMC:3630	Photography	3
JMC:3640	Information and Data Visualization	3
JMC:3650	Video Production	3
JMC:3660	Audio Production	3

### Writing/Storytelling

Code	Title	Hours
Two of these:		
JMC:3400	Topics in Writing/Storytelling	3
JMC:3410	Magazine Reporting and Writing	3
JMC:3411	Multimedia News Storytelling	3
JMC:3412	Strategic Communication Writing	3
JMC:3413	Sports Writing	3
JMC:3414	Basic Elements of Book Writing	3
JMC:3415	Writing Across Cultures	3
JMC:3420	Content Marketing	3
JMC:3425	Personal Branding and Building a Niche	3
JMC:3430	Political Public Relations	3
JMC:3440	Multimedia Narratives	3
JMC:3445	Journalistic Writing in Spanish	3
JMC:3460	Arts and Culture Reporting and Writing	3
JMC:3470	Narrative Journalism	3
JMC:3490	Feature Reporting and Writing	3

### Advanced or Capstone Course

Code	Title	Hours
One of these:		
JMC:4100	Advanced Topics in Writing/Storytelling	3
JMC:4125	Advanced Strategic Storytelling	3
JMC:4300	Advanced Photography	3
JMC:4310	Advanced Topics in Designing/Producing	3
JMC:4315	Advanced Strategic Communication	3
JMC:4350	Advanced Graphic Design	3
JMC:4360	Advanced Web Design	3
JMC:4400	Capstone	3

### Optional Journalism Electives

Students may earn elective credit by completing additional journalism and mass communication coursework (prefix JMC), but they may not exceed a maximum of 48 s.h. earned in the School of Journalism and Mass Communication toward the 120 s.h. required for the degree.

Code	Title	Hours
JMC:1000	First-Year Seminar	1-2
JMC:1500	Social Media Today	3
JMC:1800	Twenty-first-Century Science: Environmental Communication in the Digital Age	3
JMC:2100	Journalism Internship	1-3
JMC:2150	News and Knowledge: Chinese Culture, History, and Journalism	1
JMC:2500	Community Media	3
JMC:3025	Iowa Policy and Opinion Lab	1-3
JMC:3210	Workshop for Secondary School Journalism/Communication Teachers	1-3
JMC:3350	Journalism Topics for Nonmajors	3
JMC:3360	Journalism Writing for Nonmajors	3
JMC:3700	Field Experience: Nonprofit Leadership and Philanthropy	3
JMC:3710	Fundraising Fundamentals	3
JMC:4900	Special Projects in Mass Communication	arr.
JMC:4910	Readings in Communication and Mass Communication	1-3
JMC:4955	Honors Project	3

## Second Major or Concentration Area

Every student majoring in journalism and mass communication must complete a second major, an approved certificate, or a concentration area outside the School of Journalism and Mass Communication. Study in the second major or concentration area enables students to acquire a substantial body of knowledge or expertise in a relevant area, learn how another discipline views the world, and/or develop a companion set of skills to those in journalism and mass communication.

### Requirements for the Second Major or Concentration Area

Students must complete the requirements for the journalism and mass communication major (at least 42 s.h.) and must satisfy the school's second major or concentration area requirement in one of three ways.

#### Option 1

Complete a second major in another department.

#### Option 2

Complete an undergraduate certificate or minor that is listed on the department's approved list. Students may not count courses toward both their journalism and mass communication major and the certificate or minor being used as their second area of study. They can choose from one of the following: aging and longevity studies, arts entrepreneurship, business administration minor, critical cultural competence, disability studies, drug delivery, entrepreneurial management, event management, geographic information science, global health studies, human rights, international business, interscholastic athletic/activities

administration, Latin American studies, leadership studies, medieval studies, museum studies, Native American and Indigenous studies, naval science and technology, nonprofit leadership and philanthropy, political risk analysis, public digital arts, public health, resilience and trauma-informed perspectives, risk management and insurance, social science analytics, sustainability, technological entrepreneurship, and writing.

#### Option 3

Reasonable accommodations may be made for students who wish to develop their own secondary area of concentration, which must consist of a minimum of 24 s.h., and at least 15 of the 24 s.h. must be earned in advanced courses numbered 3000 or above or with approval of advisor.

## Combined Programs

### B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in journalism and mass communication who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

### B.A./M.S. in Finance

Students majoring in journalism and mass communication who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) section of the Catalog.

## Honors

### Honors in the Major

Students majoring in journalism and mass communication have the opportunity to graduate with honors in the major. Students in the school's honors program must have a g.p.a. of at least 3.50 in work for the major and a UI cumulative g.p.a. of at least 3.33. To graduate with honors in the major, they complete JMC:4955 Honors Project, earning 3 s.h. of credit in work guided by a faculty member. The honors project may be a thesis or a professional project and typically is completed during the last semester of the senior year.

## National Honor Society

The school's chapter of Kappa Tau Alpha, the national society honoring scholarship in journalism and mass communication, was founded in 1936 and is named for former director Leslie G. Moeller. Students are considered for membership if their grade-point average places them in the top 10 percent of their class and they have completed at least five semesters of University work, including a minimum of 9 s.h. in journalism and mass communication skills courses. Contact the school's Kappa Tau Alpha advisor for details.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the journalism and mass communication major.

All majors with a UI cumulative g.p.a. of at least 3.33 are encouraged to take any journalism and mass communication course for honors credit and to make use of other honors opportunities in the school. Visit Honors in Journalism on the school's website or contact the school's honors advisor for details.

### Career Advancement

The major prepares students for careers in the field. Graduates find employment in a variety of areas, such as public relations, advertising, marketing, political communication, health communication, philanthropy and fundraising communication, newspapers, magazines, radio, television, online communications and social media, publication design, photojournalism, and media research.

The school's internship and assessment coordinator helps students seeking career guidance and employment opportunities. The school compiles and publicizes notices of professional jobs open to journalism and mass communication students and graduates. It also cooperates with the University's Pomerantz Career Center in providing career guidance and placement services as well as workshops and programs on seeking jobs.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Students must declare the journalism and mass communication major by the first semester of their sophomore year in order to be eligible for the Four-Year Graduation Plan. The checkpoints below include the required work in journalism and mass communication plus a second concentration area, but they do not include the requirements of a second major, since the Four-Year Graduation Plan does not apply to second majors.

**Before the fifth semester begins:** JMC:1100 Media Uses and Effects, JMC:1200 Media History and Culture, JMC:1300 Principles of Strategic Communication or JMC:1400 Principles

of Journalism, JMC:1600 Writing Fundamentals, and at least one quarter of the semester hours required for graduation.

**Before the seventh semester begins:** JMC:2010 Journalistic Reporting and Writing, JMC:2020 Introduction to Multimedia Storytelling, JMC:2600 Freedom of Expression, JMC:2700 Media Ethics and Diversity, one managing/planning course, one writing/storytelling or one designing/producing course, and at least one-half of the semester hours required for graduation.

**During the seventh semester:** one writing/storytelling or designing/producing course, one understanding media course, and at least three-quarters of the semester hours required for graduation.

**During the eighth semester:** one writing/storytelling or designing/producing course, one advanced or capstone course, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Journalism and Mass Communication, B.A.

Course	Title	Hours
<b>First Year</b>		
<b>Fall</b>		
JMC:1200	Media History and Culture <sup>a, b</sup>	3
JMC:1600	Writing Fundamentals	1

Major: second program of study <sup>e</sup>	4
GE CLAS Core: Values and Culture <sup>d</sup>	3
GE CLAS Core: Natural Sciences without Lab <sup>d</sup>	3

**Hours 16**

### Fourth Year

#### Fall

Major: understanding media course (prefix JMC, numbered 31XX)	3
Major: writing/storytelling course (prefix JMC, numbered 34XX)	3
Major: second program of study <sup>e</sup>	4
Major: second program of study or elective <sup>e</sup>	3
Major: second program of study or elective <sup>e</sup>	3

**Hours 16**

#### Spring

Major: advanced or capstone course (prefix JMC, numbered 4100-4400)	3
Major: second program of study <sup>e</sup>	3
Major: second program of study <sup>e</sup>	3
Major: second program of study or elective <sup>e</sup>	3
GE CLAS Core: Literary, Visual, and Performing Arts <sup>d</sup>	3

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)

**Hours 15**

**Total Hours 120-126**

- a Students must complete these courses before they enroll in JMC:2010 and JMC:2020.
- b Fulfills a major requirement and may fulfill a GE requirement.
- c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

- e Students must complete a second area of study. There are three options: 1. complete a second major, 2. complete a certificate on the School of Journalism and Mass Communication's list of approved certificate programs (the Business Administration Minor is also on this list), or 3. complete a student-designed area of concentration, which must be approved by the SJMC and consist of a minimum of 24 s.h.; at least 15 of the 24 s.h. must be earned in advanced courses (typically numbered above 3000).
- f JMC:2010 and JMC:2020 should be taken concurrently. Students must complete JMC:2010 and JMC:2020 before they enroll in a designing/producing or writing/storytelling course.
- g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Media Management, Minor

## Requirements

The minor in media management requires a minimum of 15 s.h. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass.

Students may apply a maximum of 6 s.h. toward both the minor in media management and any major, minor, or certificate housed in the School of Journalism and Mass Communication or the John Pappajohn Entrepreneurial Center.

The minor prepares students to work in media industries and areas that focus on audiences and business. They also will have a foundation to pursue advanced degrees related to media management.

The minor in media management requires the following coursework.

## Required Courses

Code	Title	Hours
Both of these:		
JMC:3510	Audience Engagement: Marketing Research in the Digital Age	3
JMC:3520	Business of Media: Profits, People, and Power	3

## Elective Courses

Some of the entrepreneurial management courses (prefix ENTR) have prerequisites; students must complete all of a course's prerequisites before they may register for a course.

Code	Title	Hours
Three of these (9 s.h.), with at least one journalism and mass communication course (prefix JMC):		
JMC:2700	Media Ethics and Diversity	3
JMC:3540	The Business of Sport Communication	3
COMM:2085	Media Industries and Organizations	3
ENTR:2000	Entrepreneurship and Innovation	3
ENTR:3100	Entrepreneurial Finance	3
ENTR:3200	Entrepreneurial Marketing	3
ENTR:3500	Social Entrepreneurship	3
ENTR:3600	E-Commerce Strategies for Entrepreneurs	3

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Media Management, Minor

Course	Title	Hours
<b>Academic Career</b>		
<b>Any Semester</b>		
The minor in media management requires a minimum of 15 s.h.		
Students must maintain a GPA of at least 2.00 in all courses for the minor and in all UI courses for the minor.		
Courses for the minor may not be taken pass/nonpass.		
Students may apply a maximum of 6 s.h. toward both the minor in media management and any major, minor or certificate housed in Journalism and Mass Communication or the John Pappajohn Entrepreneurial Center.		
<b>Hours</b>		<b>0</b>
<b>First Year</b>		
<b>Any Semester</b>		
Students typically begin taking courses for the media management minor during spring semester of their second year. <sup>a</sup>		
<b>Hours</b>		<b>0</b>
<b>Second Year</b>		
<b>Spring</b>		
JMC:3520	Business of Media: Profits, People, and Power <sup>b</sup>	3
<b>Hours</b>		<b>3</b>
<b>Third Year</b>		
<b>Fall</b>		
JMC:3510	Audience Engagement: Marketing Research in the Digital Age	3
<b>Hours</b>		<b>3</b>
<b>Spring</b>		
Minor: elective course <sup>c</sup>		
<b>Hours</b>		<b>3</b>
<b>Fourth Year</b>		
<b>Fall</b>		
JMC:3540 or JMC:2700	The Business of Sport Communication or Media Ethics and Diversity	3
<b>Hours</b>		<b>3</b>
<b>Spring</b>		
Minor: elective course <sup>c</sup>		
<b>Hours</b>		<b>3</b>
<b>Total Hours</b>		<b>15</b>

a Some of the entrepreneurial management courses (prefix ENTR) have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

b Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

c See the General Catalog for list of approved courses.

# News and Media Literacy, Minor

## Requirements

The minor in news and media literacy requires a minimum of 15 s.h. in mass communication courses. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass.

Students may earn the minor in news and media literacy or the journalism and mass communication major, but not both.

The minor provides students with an introduction to news and media literacy; it does not prepare them for careers in media.

The minor in news and media literacy requires the following coursework.

## Required Courses

Code	Title	Hours
One of these:		
JMC:1100	Media Uses and Effects	3
JMC:1200	Media History and Culture	3
JMC:1300	Principles of Strategic Communication	3
JMC:1400	Principles of Journalism	3
JMC:1500	Social Media Today	3
One of these:		
JMC:2600	Freedom of Expression	3
JMC:2700	Media Ethics and Diversity	3

## Elective Courses

Code	Title	Hours
Three of these:		
JMC:3116	Media and Global Cultures	3
JMC:3122	Digital and Gaming Culture	3
JMC:3123	Advocacy Communication	3
JMC:3124	Entertainment Media	3
JMC:3135	New Media and the Future of Sport	3
JMC:3142	Social Media for Social Change	3
JMC:3150	Media and Health	3
JMC:3165	African Americans and the Media	3
JMC:3175	Gender and Mass Media	3
JMC:3182	Sport, Scandal, and Strategic Communication in Media Culture	3
JMC:3183	Sport and the Media	3
JMC:3184	Narrative Sports Journalism	3
JMC:3185	Topics in Understanding Media	3
JMC:3190	Classics of Sports Journalism: From Jack London to Grantland	3
JMC:3500	Topics in Managing/Planning	3

JMC:3510	Audience Engagement: Marketing Research in the Digital Age	3
JMC:3520	Business of Media: Profits, People, and Power	3
JMC:3530	Social Media Marketing	3
JMC:3540	The Business of Sport Communication	3
JMC:3550	Editing	3
JMC:3720	Nonprofit Communications	3

# Strategic Communication, M.A.

## Requirements

The Master of Arts program in strategic communication requires a minimum of 30 s.h. of graduate credit. Courses for the program are offered online.

The curriculum consists of core courses, electives, and a capstone project in place of a thesis. In most courses, students are encouraged to introduce case studies and projects from their workplace.

The M.A. with a major in strategic communication requires the following coursework.

## Core Courses

Code	Title	Hours
All of these:		
JMC:5235	Strategic Communications Research	3
JMC:5240	Digital Strategic Communication	3
JMC:5300	Foundations of Strategic Communication	3
JMC:5400	Strategic Communication Writing	3
JMC:5950	Capstone Project in Strategic Communication	3

## Electives

In consultation with their advisors, students earn 15 s.h. in elective coursework chosen from the list below. They also may choose other electives that are appropriate for their individual programs, drawing from courses offered by the School of Journalism and Mass Communication and by other University of Iowa departments and programs.

Code	Title	Hours
JMC:5200	Topics in Strategic Communication	3
JMC:5237	Financial and Budget Fundamentals for Communicators	3
JMC:5238	Strategic Communication Campaigns	3
JMC:5243	Copywriting for Strategic Communication	3
JMC:5248	Strategic Political Communication	3
JMC:5250	Strategic Communication for Nonprofits	3
JMC:5255	Strategic Global Communication	3
JMC:5260	Digital Analytics for Strategic Communication	3
JMC:5266	Risk Communication	3
JMC:5267	Strategic Health Care Communication	3
JMC:5269	Media Management for Strategic Communicators	3

JMC:5270	Leadership Communication	3
JMC:5285	Strategic Communication Externship	3

For a more detailed description of the M.A. in strategic communication, contact the School of Journalism and Mass Communication.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applications for admission to the program are accepted all year.

## Career Advancement

The strategic communication program is designed for professionals in a wide variety of areas, such as corporate and organizational communication, public relations, integrated marketing communication, advertising, political and public affairs communication, health communication, event management, risk communication, and professional writing. The program focuses on the skills, knowledge, and experience that working professionals need, including the ability to anticipate and meet the challenges of radical change in the media landscape.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Note: Most students take 2 courses per semester with some summer courses; program courses are offered online, so most students work full-time jobs.
- b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
- c Students may complete graduate elective coursework based on their specific career goals; electives (3000 level or above) may be taken from within the program or across the university. Work with faculty advisor to determine elective coursework and sequence.
- d Students must complete JMC:5235, JMC:5240, JMC:5300, JMC:5400, JMC:5950; work with faculty advisor to determine required core coursework and sequence.
- e SJMC usually offers a JMC:5200 Topics course in summer. Students may also opt to take an elective across the university.

# Mass Communications, Ph.D.

## Requirements

The Doctor of Philosophy program in mass communications requires 72 s.h. of graduate credit. The program provides training in research methods, communication theory, and teaching skills.

The program emphasizes interdisciplinary studies, with coursework and research tailored to each student's interests under the guidance of faculty members. The school offers several areas of strength to support graduate student research in both traditional and digital media:

- critical and cultural studies,
- sports and media,
- international/development studies,
- health and science communication,
- journalism studies, and
- history of media and media institutions.

Students in the Ph.D. program in mass communications must complete the following curriculum:

Code	Title	Hours
JMC:6100	M.A./Ph.D. Seminar (must register for a total of 8 s.h.; should enroll every semester for entire program of study)	8
JMC:6200	Humanistic Approaches to Media Communication	3
JMC:6300	Social Scientific Approaches to Media Communication	3
JMC:6920	Ph.D. Research Practicum (for guided reading)	3
JMC:6999	Dissertation (must register for at least 4 s.h.)	4
RHET:5100	Practicum: College Teaching and Professional Development for Teaching Assistants	1
Additional Professionalization Courses		2
Methods Area Courses		3
Theory Area Courses		3
Concentration Courses		6
Electives		6
Credit from master's degree and/or additional Ph.D. courses		30
<b>Total Hours</b>		<b>72</b>

For a more detailed description of the Ph.D. program, contact the School of Journalism and Mass Communication.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Admission to the program is for fall entry.

## Financial Support

The School of Journalism and Mass Communication offers research and teaching assistantships for graduate students; preference is given to Ph.D. students. Students have been successful in winning competitive fellowships open to all graduate students; applicants must be nominated by the graduate committee.

## Career Advancement

Students in this program prepare for careers as teachers and industry researchers.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Final Exam <sup>k</sup>		
<b>Hours</b>		<b>2</b>
<b>Total Hours</b>		<b>42</b>

- a Students entering with a bachelor's degree must work with their faculty advisor to complete 30 s.h. of appropriate graduate coursework. Students entering with fewer than 30 s.h. of coursework from the master's degree must work with their faculty advisor to complete the needed appropriate graduate coursework.
- b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
- c Work with faculty advisor to determine appropriate graduate coursework; see the General Catalog and department website for specifics.
- d Students are required to complete 3 s.h. of methods area, 3 s.h. of theory area, 6 s.h. of concentration area, and 6 s.h. of elective coursework.
- e Students are required to take a total of 3 s.h. of professionalization courses including RHET:5100; consult with faculty advisor to determine which courses best align with career goals.
- f Registration required every semester.
- g Completed at the end of first year to directly assess understanding of content from two approaches courses.
- h Prior to comprehensive exam, work with faculty advisor and committee to build the proposals literature review; see the General Catalog and department website for specifics.
- i Writing and defending the dissertation proposal satisfies the comprehensive exam requirement. The dissertation proposal must clearly indicate the logical steps necessary for the completion of the project and suggest a plan of action.
- j Minimum total of 4 s.h. of thesis credit required.
- k Dissertation defense.

# Latham Science Engagement Initiative

## Chair, Department of Biology

- Diane C. Slusarski

## Program Director, Latham Science Engagement Initiative

- Lori Adams (Biology)

**Faculty:** <https://latham.uiowa.edu/people/faculty>

**Website:** <https://latham.uiowa.edu/>

The Latham Science Engagement Initiative provides the opportunity to engage highly talented undergraduate students across science disciplines in community outreach. The program enhances research opportunities for selected undergraduate students with the goal to position students with scientific and creative ability for graduate work.

The program prepares students to communicate science in the public sphere, work in interdisciplinary settings, and demonstrate the broader impact of scientific research. Students experience the strength of interdisciplinary interactions through exposure to research in other disciplines and work with students in other science majors on group projects. In addition, they develop fluency in communicating to diverse audiences in the community.

Students selected for the program complete two courses, design and implement an outreach project, and participate in an event that highlights their achievements.

The Latham Science Engagement Initiative is administered by the Department of Biology [p. 182]. For additional information, contact the Latham Science Engagement Initiative Fellowship Program.

## Admission

Students must apply for this program. Requirements include first-year, sophomore, or junior standing in the College of Liberal Arts and Sciences; a g.p.a. of at least 3.00; a minimum of one semester of undergraduate research experience; and an interest in speaking about science in a public forum.

## Courses

### Latham Science Engagement Initiative Courses

#### **LATH:3000 Latham Fellows: Science Communication Skill Building** **1-2 s.h.**

Provide Latham Fellows with various communication skills needed to explain scientific research to varied audiences.

#### **LATH:3001 Latham Fellows: Science Outreach Project** **2 s.h.**

Guidance to Latham Fellows as they implement one individual and one group project proposed the previous fall. Prerequisites: LATH:3000. Requirements: Latham Fellow standing.

#### **LATH:4900 Science Communication and Engagement** **0 s.h.**

Independent science outreach and engagement project through the Latham Science Engagement Initiative. Prerequisites: LATH:3000 and LATH:3001. Requirements: admission to the Latham Science Engagement Fellows Program.

#### **LATH:4990 Science Communication and Engagement** **1-3 s.h.**

Independent science outreach and engagement project through the Latham Science Engagement Initiative. Prerequisites: LATH:3000 and LATH:3001. Requirements: admission to the Latham Science Engagement Fellows Program.

# Latin American Studies

## Interim Director, Division of Interdisciplinary Programs

- Kristy Nabhan-Warren

## Director, Latin American Studies

- Amber E. Brian (Interdisciplinary Programs/Spanish and Portuguese)

## Associate Director, Latin American Studies

- Karmen Berger

**Undergraduate minor:** Latin American studies

**Undergraduate certificate:** Latin American studies

**Faculty:** <https://latinamericanstudies.uiowa.edu/people>

**Website:** <https://latinamericanstudies.uiowa.edu/>

The Latin American Studies Program (LASP) is an interdisciplinary curriculum that introduces students to the cultures, arts, languages, histories, and social practices from Mexico, Central and South America, and the Caribbean, and provides students with frameworks for making sense of the social, political, and economic challenges faced in those regions.

Faculty members from across the College of Liberal Arts and Sciences participate in the Latin American Studies Program as affiliated faculty members. Other University of Iowa faculty members occasionally offer courses and participate in the program's research, study, and interdisciplinary activities.

In addition to its instructional activity, LASP sponsors a wide variety of activities, brings scholars of Latin America to campus, and fosters institutional linkages.

Latin American Studies is one of the academic units in the Division of Interdisciplinary Programs [p. 375].

## Study Abroad

The Latin American Studies Program highly recommends, but does not require, that students have an in-depth Latin American cultural experience, usually through study abroad, before completing their undergraduate requirements.

In cooperation with International Programs Study Abroad, LASP faculty members facilitate student participation in programs in many Latin American countries. University of Iowa students may enroll in programs in Argentina, Brazil, Chile, Colombia, Costa Rica, Cuba, the Dominican Republic, Honduras, Mexico, and Uruguay. Programs range from intensive language study to group programs with a special focus. The University of Iowa cosponsors these programs through various consortiums.

Study abroad courses may be counted toward requirements for the certificate and the minor with prior approval from a LASP director.

## Financial Support

Students are encouraged to apply for a Stanley Undergraduate Award for International Research through University of Iowa International Programs. The awards are given to outstanding University of Iowa undergraduates who, in close consultation with a faculty member, propose well-conceived, small-scale research or fieldwork projects that require travel abroad. Students may conduct projects while participating in a study abroad program and may combine

the award with other awards and financial assistance. For information regarding other scholarships, contact LASP advisors, International Programs staff, and the LASP director.

## Activities

In addition to its instructional activity, LASP organizes a range of public programming activities each semester, including film series, photography and art exhibits, conferences, roundtable discussions, and lectures. Recent events include public lectures on community media and violence in Mexico and Colombia and on the cultural legacies of the 1960s in Latin America, and the annual Charles A. Hale Lectures in Latin American Studies.

## Programs

### Undergraduate Programs of Study

#### Minor

- Minor in Latin American Studies [p. 765]

#### Certificate

- Certificate in Latin American Studies [p. 766]

SPAN:4920	Topics in Film Studies	3

## Latin American Studies Courses

All Latin American Studies Program courses are approved for the certificate and minor.

- LAS:1150 Brazilian Culture and Carnival** 3 s.h.  
Dance, music, historical, and social contents of Brazilian Carnival production, critical theories of performance, religious backgrounds, and theatre making in carnival parades. GE: Engineering Be Creative; Values and Culture. Same as DANC:1150.
- LAS:2200 Introduction to Spanish American Cultures** 3 s.h.  
Introduction to study of cultural history of Spanish America; topics range from precolombian times to present; for students who are just starting work on the Spanish major or minor. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2200.
- LAS:2220 The Olmec, Maya, and Aztecs: Archaeology of Mesoamerica** 3 s.h.  
Archaeological data related to the evolution of civilization in Mesoamerica; sequence from hunter-gatherers to A.D. 1519; emphasis on Central Mexico, Maya area, Oaxaca. Same as ANTH:2220.
- LAS:2311 Music of Latin America and the Caribbean** 3 s.h.  
Folk and popular musical traditions and their social contexts in Latin America, the Caribbean; listening skills; video/film screenings. GE: Literary, Visual, and Performing Arts; Values and Culture. Same as MUS:2311.
- LAS:2415 Latin American Politics** 3 s.h.  
Governmental institutions, major interest groups; focus on area as a whole. GE: International and Global Issues; Social Sciences. Same as POLI:2415.
- LAS:2700 Introduction to Latin American Studies** 3 s.h.  
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Taught in English. Same as COMM:2800, IS:2700, PORT:2700, SPAN:2700.
- LAS:2800 Screening Latin America** 3 s.h.  
Latin American film; histories of the four major national film industries; aesthetic and political debates surrounding the New Latin American Cinema movement of the 1960s and 1970s. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2800.
- LAS:2850 Brazilian Narrative in Translation** 3 s.h.  
Representative readings of modern and contemporary novels, short stories, and other narrative forms; cultural background; focus on major writers. Taught in English. Prerequisites: ENGL:1200. GE: Literary, Visual, and Performing Arts. Same as PORT:2850, SPAN:2850.
- LAS:2900 Music of the Hispanic World** 3 s.h.  
Introduction to music of Spain and Latin America, including the United States; listening skills, music appreciation, continuing development of Spanish language skills. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2900.
- LAS:3020 Journalistic Writing in Spanish** 3 s.h.  
Spanish writing skills; introduction to style and practice of journalistic reporting and writing. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as JMC:3445, SPAN:3020.
- LAS:3104 Immigration Politics** 3 s.h.  
United States immigration policy and political consequences of Latina/o/x population growth; contrast of political experiences of Latina/o/x with groups and ideals of democratic political systems; analyses of past immigration policies; studies of public opinion, voter turnout, and campaign tactics. Same as LATS:3104, POLI:3104.
- LAS:3111 Health in Mexico** 3 s.h.  
Use of anthropological perspectives to examine disease, healing systems, and ideas about health and the body in Mexico and its diaspora; relationships between structural conditions and historical and political transformations; ideas about gender and race; chronic and acute disease in Mexico; conquest and disease; racialized bodies; sexual health; biomedicine; shamanism; immigration and health; pollution and narcoviolence; readings in English. Same as ANTH:3111, GHS:3040.
- LAS:3215 Medellin** 3 s.h.  
Medellin, Colombia has been transformed from one of the most violent places on Earth to an award-winning city of innovation in only 20 years; introduction to the city and its people through literature, music, and a digital map project. Taught in Spanish. Requirements: at least one course numbered SPAN:2000 or above. Same as SPAN:3215.
- LAS:3217 Latina/o/x Immigration** 3 s.h.  
Immigration experiences of people arriving in the United States from other regions of the Americas (e.g., Mexico, Central America, the Caribbean, South America); what has fueled immigration—social, political, and economic developments in the United States and other nations; territorial conquest, colonialism, real and imagined borders, chain migration, formation of immigrant communities, acculturation, circular migration, social networks; how migration restructures gender relations; immigrant communities and pan-Latina/o/x identity in the United States. Same as HIST:3217, LATS:3217.
- LAS:3225 Latin American Women Writers** 3 s.h.  
Focus on long tradition of strong female writers in Latin America; materials may include poetry, theater, fiction, and essay from the Spanish-speaking countries of Mexico, Central America, South America, and Brazil. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as SPAN:3225.
- LAS:3310 Spanish American Short Story** 3 s.h.  
Works by 19th- and 20th-century Spanish American writers; emphasis on reading strategies and historical, cultural, literary backgrounds. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as SPAN:3310.
- LAS:3501 Rebel Island: A History of Cuba** 3 s.h.  
Cuban society and revolutionary movements since the late colonial period, including the years since 1959. Same as HIST:3501.
- LAS:3508 Disease and Health in Latin American History** 3 s.h.  
Survey of major topics in Latin American history in relation to development of medicine and public health. Same as GHS:3508, HIST:3508.
- LAS:3515 Introduction to Modern Latin America** 3 s.h.  
Introduction to modern history of Latin America from independence movements of the early 19th century to present; topics include race and ethnicity, slave emancipation, gender, labor relations, and foreign interventions; exploration of relationship between economic, social, and political structures over time to explain difference and commonality between Latin American people and societies; focus on topics pertaining to histories of Mexico, Central America, the Caribbean, and South America. Same as HIST:3515.

**LAS:3535 Topics in Literature and Culture of the Americas 3 s.h.**

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3535.

**LAS:4216 Mexican American History 3 s.h.**

Survey of Chicana/o (Mexican American) history from 18th century to present; Mexican American society's diverse nature, explored through class, ethnic, gender, and regional divisions. Same as HIST:4216.

**LAS:4390 Topics in Spanish American Literature 3 s.h.**

Taught in Spanish. Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above. Same as SPAN:4390.

**LAS:4502 History of Mexico 3 s.h.**

Mexican history since the eve of the Spanish invasion, with focus on the national period; may include ethnic groups, conquest and demographic disaster, Native survival, labor and migration, social protest and rebellions, nationhood, regional differences, religions, popular culture, economic growth and distribution, state building, international relations; survey. Same as HIST:4502, NAIS:4502.

**LAS:4700 Latin American Studies Seminar 3-4 s.h.**

Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as ANTH:4700, HIST:4504, PORT:4700, SPAN:4900.

**LAS:4815 Lost Childhoods: Marginal Children of Latin America 3 s.h.**

Focus on lost childhoods from a cultural studies perspective; analysis of marginal perspectives that emerge from a globalized urban landscape; evolution of literary, artistic (art, photography, comics), and film productions about dispossessed children, the construction of childhood by nongovernmental and nonprofit organizations, and how these cultural productions denounce social violence. Taught in Spanish. Requirements: two courses numbered SPAN:3000 or above. Same as SPAN:4815.

**LAS:4990 Independent Project in Latin American Studies arr.**

Independent work completed under the supervision of Latin American studies faculty.

# Latin American Studies, Minor

## Requirements

The undergraduate minor in Latin American studies requires a minimum of 15 s.h. in Latin American Studies Program (LASP) approved courses (see "Associated Courses" and "Latin American Studies Courses" under Courses [p. 761] in this section of the Catalog), including at least 12 s.h. of credit earned at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students may count a total of 6 s.h. earned for majors, certificates, and other minors toward the Latin American studies minor. Since the minor is interdisciplinary, it may include a maximum of 6 s.h. of credit from any single department or program. However, a student earning the minor in Latin American studies may not earn the Certificate in Latin American Studies.

Students are strongly encouraged to take either or both of these for the minor.

Code	Title	Hours
LAS:2700	Introduction to Latin American Studies	3
LAS:4700	Latin American Studies Seminar	3

## Career Advancement

The Latin American Studies Program minor prepares students for a range of careers and graduate programs related to Latin America, including bilingual/bicultural education, business, government, and international work.

# Latin American Studies, Certificate

## Requirements

The undergraduate Certificate in Latin American Studies requires a minimum of 18 s.h. The 18 s.h. required for the certificate must be earned in Latin American Studies Program (LASP) approved courses (see "Associated Courses" and "Latin American Studies Courses" under Courses [p. 761] in this section of the Catalog), including at least 12 s.h. of credit earned at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in certificate courses.

The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program. However, a student earning the Certificate in Latin American Studies may not earn the minor in Latin American studies.

All students develop an individual certificate plan of study in close cooperation with a LASP advisor. In some cases, students may be able to count certificate courses toward certain GE CLAS Core [p. 20] requirements.

The Certificate in Latin American Studies requires the following coursework.

Code	Title	Hours
LAS:2700	Introduction to Latin American Studies	3
LAS:4700	Latin American Studies Seminar	3
Spanish and Portuguese Courses		6
Additional Courses (excluding Spanish or Portuguese courses)		6
<b>Total Hours</b>		<b>18</b>

Students who complete the required 6 s.h. of Spanish and Portuguese coursework at the University of Iowa must choose courses from the "Associated Courses" list under Courses [p. 761] in this section of the Catalog. Students also may use 6 s.h. of Spanish or Portuguese language study at any level if those hours are earned through an approved study abroad program in Latin America. Contact the Latin American Studies Program for prior approval of a study abroad program.

The required 6 s.h. of additional courses also must be chosen from the "Associated Courses" and "Latin American Studies Courses" lists under Courses [p. 761] in this section of the Catalog. They may not include Spanish or Portuguese courses (prefix PORT or SPAN).

## Study Abroad

The program highly recommends study abroad in Latin America. Students must have prior approval to apply credit from a study abroad program toward the certificate requirements; contact the Latin American Studies Program.

## Career Advancement

The Latin American Studies Program certificate prepares students for a range of careers and graduate programs related to Latin America, including bilingual/bicultural education, business, government, and international work.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

<sup>a</sup> The 18 s.h. required for the Certificate in Latin American Studies must be earned in Latin American Studies Program-approved courses and must include at least 12 s.h. of credit earned at the University of Iowa. If all other coursework is completed at the University of Iowa, then 6 s.h. of additional courses may be satisfied through coursework completed in a pre-approved study abroad program in Latin America. Contact the LASP academic advisor for pre-approval.

# Latina/o/x Studies

## Interim Director, Division of Interdisciplinary Programs

- Kristy Nabhan-Warren

## Director, Latina/o/x Studies

- Rene R. Rocha (Interdisciplinary Programs/Political Science)

## Associate Director, Latina/o/x Studies

- Karmen Berger

**Undergraduate minor:** Latina/o/x studies

**Faculty:** <https://latinxstudies.uiowa.edu/people>

**Website:** <https://latinxstudies.uiowa.edu/>

Latina/o/x studies offers an interdisciplinary perspective on the history, culture, politics, and experiences of the Latina/o/x population in the United States. This population is now the largest minority group in the United States, and by the year 2060, it is expected that approximately one third of the U.S. population will be Latina/o/x. Courses in Latina/o/x studies introduce the peoples who have had a long-term presence in the United States and in the Midwest and who are increasingly neighbors, classmates, and coworkers.

The Latina/o/x studies minor helps to prepare undergraduates for careers in medicine, public health, social work, business, education, and the arts, and to respond to the changing demographics of the United States.

Latina/o/x studies is one of the academic units in the Division of Interdisciplinary Programs [p. 375].

## Cocurricular Activities

### Latino Native American Cultural Center

Latina/o/x studies collaborates with the Latino Native American Cultural Center (LNACC). LNACC was founded in 1971 and is the home to important University of Iowa student organizations which sponsor conferences, pow-wows, study groups and educational programs.

### Unidos Living Learning Community

Latina/o/x studies works with University Housing and Dining to support the Unidos Living Learning Community. Founded in 2020, Unidos welcomes all Latinx-identifying students and those who seek to learn and engage more in the cultural background. Unidos members are required to enroll in a Latina/o/x studies course which introduces them to the minor.

## Community Engagement

In addition to their instructional activity, Latina/o/x studies faculty participate in a range of public programming activities each semester, such as film series, conferences, round table discussions, and lectures. Most recently, Latina/o/x studies faculty have contributed to events for Latinx Heritage Month, the Latinx Excellence in the Midwest Conference, and the "Imagining Latinidades" Mellon Sawyer Seminar.

## Programs

### Undergraduate Program of Study Minor

- Minor in Latina/o/x Studies [p. 769]

## Courses

### Latina/o/x Studies Courses

- LATS:1000 First-Year Seminar** **1 s.h.**  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, field trips). Requirements: first- or second-semester standing.
- LATS:1600 War Stories** **3 s.h.**  
Exploration of the history of U.S. conflicts from Vietnam to the War on Terror through novels, film, and other cultural forms; specific focus on how U.S. social structures influence experiences of war. Same as AMST:1600, SJUS:1600.
- LATS:1700 Latina/o/x Literature in the United States** **3 s.h.**  
Introduction to growing cultural production of varied Latina/o/x communities (e.g., Chicano, Puerto Rican American/Nuyorican, Cuban American) that have a strong presence in the United States; recent cultural production from borderland transcultural spaces with physical, cultural, economic, political, and mythical elements; visions of the United States from contemporary Latin American writers who recently have become U.S. residents. Taught in English. GE: Literary, Visual, and Performing Arts; Values and Culture. Same as SPAN:1700.
- LATS:1765 U.S. Latina/o/x Religions** **3 s.h.**  
Beliefs and practices of U.S. Latina/o/x, ways that their beliefs and practices are unique and where they overlap with mainstream U.S. society; beliefs, symbols, and practices among U.S. Latina/o/x on national and local level; field visits to local churches and religious sites; class visitors share insights. Same as RELS:1765.
- LATS:1898 Introduction to Latina/o/x Communication and Culture** **3 s.h.**  
Introduction to fundamentals of communication by and about Latina/o/x in the U.S.; Latina/o/x as one of the fastest growing demographics; how Latina/o/x history, politics, and culture remain little understood despite a longstanding and growing presence in Iowa and across the nation; historical orientation; Latina/o/x social movement and protest (e.g., Chicana/o/x movements, Young Lords Organization), institutional discourses (e.g., congressional, presidential, legal discourses), and Latina/o/x in popular culture (film, television, music, sports). GE: Diversity and Inclusion. Same as COMM:1898.
- LATS:2280 Introduction to Latina/o/x Studies** **3 s.h.**  
Introduction to field of Latina/o/x studies through interdisciplinary readings from literature, history, sociology, political science, urban studies, and anthropology; commonalities and differences among long-standing Latina/o/x populations (i.e., Mexican Americans, Puerto Ricans, Cuban Americans); challenges faced by newer arrivals (i.e., Dominican Americans, Salvadoran Americans, Guatemalan Americans, Central and South American immigrants). Taught in English. GE: Diversity and Inclusion. Same as HIST:2280, SPAN:2280.

**LATS:2400 Health Disparities and Intersectionality with U.S. Latina/o/x Peoples** 3 s.h.

Exploration of intersectionality—related to gender, immigration status, and more—and U.S. health disparities, particularly as they impact U.S. Latina/o/x peoples; Latina/o/x as a heterogeneous group originating from a variety of countries, with families that may have mixed immigration, education, class, and/or nationality status; public health approaches and concepts; intersectionality, social determinants of health, the Social Ecological Model, Ecosocial Theory, and Critical Race Theory; examination of various levels of racism, sexism, and other forms of intersectional discrimination. Same as CPH:2240, GWSS:2400.

**LATS:3104 Immigration Politics** 3 s.h.

United States immigration policy and political consequences of Latina/o/x population growth; contrast of political experiences of Latina/o/x with groups and ideals of democratic political systems; analyses of past immigration policies; studies of public opinion, voter turnout, and campaign tactics. Same as LAS:3104, POLI:3104.

**LATS:3217 Latina/o/x Immigration** 3 s.h.

Immigration experiences of people arriving in the United States from other regions of the Americas (e.g., Mexico, Central America, the Caribbean, South America); what has fueled immigration—social, political, and economic developments in the United States and other nations; territorial conquest, colonialism, real and imagined borders, chain migration, formation of immigrant communities, acculturation, circular migration, social networks; how migration restructures gender relations; immigrant communities and pan-Latina/o/x identity in the United States. Same as HIST:3217, LAS:3217.

**LATS:3400 Chicano Literature and Culture** 3 s.h.

Recent fiction and poetry by Chicano and Chicana writers; readings in Spanish and English. Taught in English. Requirements: satisfaction of GE CLAS Core Interpretation of Literature, or LATS:2280 or SPAN:2280 or HIST:2280. Same as SPAN:3400.

**LATS:3410 Undocumented America: Citizenship, Race, and Immigration** 3 s.h.

Examination of how literature and culture responds to and rearticulates culture, history, legal logic, and economic parameters that frame who is "legal" and "illegal" and how undocumented immigrants document and contest their lack of rights; how designations of immigrant's illegal or undocumented status depend on and maintain U.S. discourse about race and ethnicity. Same as AMST:3410.

**LATS:3415 Latina/o/x Protest, Movement, Resistance** 3 s.h.

Examination of history, form, and function of protest, social movement, and resistance by Latina/o/x peoples in the United States; wide historical and regional scope, generally including exemplars such as the Young Lords, Chicana/o/x Movement, United Farm Workers, and local activism at the University of Iowa.

**LATS:3420 Latinas/os/x and the Law** 3 s.h.

Introduction and survey of Latina/o/x legal history; topics include segregation, educational rights, immigration, voting rights, citizenship, and the criminal justice system. Same as AMST:3420, POLI:3427, SJUS:3420.

**LATS:3440 Topics in Latina/o/x Literature and Culture** 3 s.h.

Examination of special topics in interdisciplinary field of Latina/o/x studies. Taught in Spanish or English. Requirements: one course taught in Spanish at the 2000 level or above, or LATS:2280 or SPAN:2280 or HIST:2280. Same as SPAN:3440.

**LATS:3467 Latina/o/x Literatures and Cultures** 3 s.h.

Exploration of major themes and research topics in Latina/o/x literatures and cultures. English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as ENGL:3467.

**LATS:3550 Topics in Latina/o/x Studies: History and Culture** 1-3 s.h.

Historical and cultural approaches; topics vary.

**LATS:3551 Topics in Latina/o/x Studies: Comparative and Transnational** 1-3 s.h.

Comparative and transnational approaches; topics vary.

**LATS:4160 Language, Justice, and the Law** 3 s.h.

Focus on language policy, immigrants' linguistic rights, and cultural communication in context of U.S. law; development of Spanish language skills in legal and cultural contexts. Taught in Spanish. Requirements: two courses in Spanish numbered 3000 or above. Same as SPAN:4160.

**LATS:4800 Latina/o/x Popular Culture** 3 s.h.

Role of Latina/o/x popular culture as a site of contemporary social practice and cultural politics in both local and global contexts; specific attention to notions of citizenship, identity, and culture. Taught in English. Same as AMST:4800, SPAN:4820.

**LATS:4805 Chicano Cinema** 3 s.h.

History of Chicano independent and industry film and television production since the Chicano political and cultural movement began in the 1960s. Taught in English. Requirements: one Spanish literature or culture course numbered SPAN:3200 or above, or one film studies course numbered above CINE:2100. Same as CINE:4705, SPAN:4805.

**LATS:4990 Independent Project in Latina/o/x Studies** arr.

Independent work under the supervision of Latina/o/x studies faculty.

# Latina/o/x Studies, Minor

## Requirements

The undergraduate minor in Latina/o/x studies (Latina/Latino/Latinx studies) requires a minimum of 15 s.h. Additionally, 12 s.h. of coursework must be taken at the University of Iowa, with a maximum of 3 s.h. accepted as transfer credit from another institution. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate may be counted toward the minor.

The minor in Latina/o/x studies requires the following coursework.

Code	Title	Hours
	Foundation Course	3
	Historical and Cultural Approaches Courses	6
	Comparative and Transnational Topics Course	3
	One additional course from the Historical and Cultural Approaches list or the Comparative and Transnational Topics list or LATS:4990	3
<b>Total Hours</b>		<b>15</b>

## Foundation Course

Code	Title	Hours
This course:		
LATS:2280/ HIST:2280/ SPAN:2280	Introduction to Latina/o/x Studies	3

## Historical and Cultural Approaches

Code	Title	Hours
At least 6 s.h. from these:		
AMST:1600/ LATS:1600/ SJUS:1600	War Stories	3
COMM:1898/ LATS:1898	Introduction to Latina/o/x Communication and Culture	3
ENGL:3467/ LATS:3467	Latina/o/x Literatures and Cultures	3
GWSS:2400/ CPH:2240/ LATS:2400	Health Disparities and Intersectionality with U.S. Latina/o/x Peoples	3
HIST:3217/ LAS:3217/ LATS:3217	Latina/o/x Immigration	3
HIST:4216/ LAS:4216	Mexican American History	3
LATS:1000	First-Year Seminar	1
LATS:3104/ LAS:3104/ POLI:3104	Immigration Politics	3
LATS:3410/ AMST:3410	Undocumented America: Citizenship, Race, and Immigration	3

LATS:3415	Latina/o/x Protest, Movement, Resistance	3
LATS:3420/ AMST:3420/ POLI:3427/ SJUS:3420	Latinas/os/x and the Law	3
LATS:3550	Topics in Latina/o/x Studies: History and Culture	1-3
LATS:4800/ AMST:4800/ SPAN:4820	Latina/o/x Popular Culture	3
RELS:1765/ LATS:1765	U.S. Latina/o/x Religions	3
SPAN:1700/ LATS:1700	Latina/o/x Literature in the United States	3
SPAN:3400/ LATS:3400	Chicano Literature and Culture	3
SPAN:3440/ LATS:3440	Topics in Latina/o/x Literature and Culture	3
SPAN:4160/ LATS:4160	Language, Justice, and the Law	3
SPAN:4805/ CINE:4705/ LATS:4805	Chicano Cinema	3

## Comparative and Transnational Topics

Code	Title	Hours
One of these:		
AFAM:2770/ GHS:2770/ SOC:2770	Race, Space, and the Environment	3
AFAM:3100/ AMST:3100/ SOC:3100	Critical Race Theory: Culture, Power, and Society	3
AFAM:3630/ SOC:3630	The Racial Wealth Gap: Black Debt, White Debt	3
ANTH:2151/ GWSS:2151/IS:2151	Global Migration in the Contemporary World	3
COMM:2076/ AFAM:2076	Race, Ethnicity, and Media	3
ENGL:3525	Literature and Culture of the Americas	3
ENGL:3535/ LAS:3535	Topics in Literature and Culture of the Americas	3
GWSS:2650/ GHS:2650	Global Reproduction	3
HIST:4334	Topics in American Borderlands History	3
LATS:3551	Topics in Latina/o/x Studies: Comparative and Transnational	3
NAIS:2294/ HIST:2294/ SJUS:2294	Indigenous Art Activism and Social Justice	3
PHIL:3342	Multiculturalism and Toleration	3
POLI:1900	Introduction to the Politics of Race	3
SJUS:2250/ GWSS:2250/ HIST:2250	The History of Social Justice Movements	3

SJUS:3550/ GWSS:3550/ RELS:3550	Social Justice, Religion, and Spirituality: Faith and Belief Ignited	3
SOC:2830	Race and Ethnicity	3
SPAN:2050	Spanish in the United States	3
SPAN:3045/ GHS:3045	Spanish Health Narratives	3
SPAN:3130	Introduction to Bilingualism	3

## **Additional Course**

Students select an additional 3 s.h. course from the Historical and Cultural Approaches list or the Comparative and Translational Topics list or take LATS:4990 Independent Project in Latina/o/x Studies.

# Linguistics

## Director, Division of World Languages, Literatures and Cultures

- Jill N. Beckman

## Chair, Department of Linguistics

- Sarah Fagan

**Undergraduate major:** linguistics (B.A.)

**Undergraduate minor:** linguistics

**Graduate degrees:** M.A. in linguistics; Ph.D. in linguistics

**Faculty:** <https://linguistics.uiowa.edu/people/faculty>

**Website:** <https://linguistics.uiowa.edu/>

Linguistics is the scientific study of human languages, which are highly complex systems. Areas of study include word structure (morphology), speech sounds (phonetics) and their patterns of combination and contrast (phonology), sentence structure (syntax), and meaning relations (semantics).

Linguists study well-known and familiar languages, such as English, Spanish, Russian, and Chinese. They also study less well-known languages and even those languages about which little has been discovered. While human languages are different from one another in many ways, there are broad similarities among them, supporting the idea that the capacity for language is part of human cognitive functions.

The description of formal patterns of human language has a number of applications. Linguistics is connected to psychology and to speech and hearing, in studying how children learn language, how speakers process and interpret language, and how injuries and disorders affect both production and perception of speech. Linguistics also is linked with anthropology and other social sciences in studying how language use relates to culture, region, class, and gender. Linguists collaborate with computer scientists to construct computational representations of syntax and semantics for processing natural languages.

Linguistics has important ties with instruction in world languages and in English as a second language (ESL). Studies of how languages are learned are based in part on analysis of the languages in question. They also are grounded strongly in theories of second language acquisition, which in turn are related to theories of how linguistic knowledge is represented in the mind.

People with linguistic training teach ESL and help clinicians retrain people with linguistic disabilities. Some help design school programs for minority groups or intelligence and achievement tests. Linguists also work in occupations related to law, the computer industry, and world languages.

High scores on verbal, analytic, and quantitative aptitude tests are indicators of success in linguistics. Although few aspects of the field deal with numbers, students must be able to reason logically and explicitly and deal with formulas and abstract symbols.

The Department of Linguistics is one of the academic units in the Division of World Languages, Literatures and Cultures [p. 378].

## Related Certificate

### Cognitive Science of Language

The Graduate College offers the graduate Certificate in Cognitive Science of Language. Designed to complement doctoral study, the certificate program ensures that students have training in interdisciplinary approaches to the study of language along with strong theoretical grounding in their Ph.D. discipline. See the Certificate in Cognitive Science of Language [p. 1621] in the Catalog for more information.

## Programs

### Undergraduate Programs of Study

#### Major

- Major in Linguistics (Bachelor of Arts) [p. 775]

#### Minor

- Minor in Linguistics [p. 779]

### Graduate Programs of Study

#### Majors

- Master of Arts in Linguistics [p. 780]
- Doctor of Philosophy in Linguistics [p. 782]

## Facilities

The Center for Language and Culture Learning (CLCL) provides a wide variety of services and facilities to the Division of World Languages, Literatures and Cultures, including a 54-computer Instructional Technology Center (ITC) and six "All in One" studios/small group study rooms, each equipped with video production and editing software. The CLCL also has a digital media and hardware collection available for checkout.

Directed Independent Language Study (DiLS), administered by the Center for Language and Culture Learning in the Division of World Languages, Literatures and Cultures, offers students guidance on engaging in self-instruction in languages that are not currently taught in the division. Any current University of Iowa student, staff, or faculty member who is interested in pursuing language study to enhance their professional research or academic profile can take advantage of this program. With the support of CLCL staff members, learners design their own study plans to learn basic language skills or improve upon existing skills in preparation for study or research abroad, and are paired with a language and culture consultant when possible.

## Courses

### Linguistics Courses

#### LING:1000 First-Year Seminar

**1 s.h.**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

- LING:1003 English Grammar** 3 s.h.  
Recognizing nouns, verbs, adverbs, adjectives, and other parts of speech; sentence analysis; subjects, objects; types of sentences; passives, relative clauses; for students with little or no background in English grammar study. Does not count toward the linguistics major. Same as WRIT:1003.
- LING:1010 Language and Society** 3 s.h.  
Correlations between social and linguistic behavior; methods for discovering and describing socially significant language behavior; educational and political implications of findings. GE: Social Sciences.
- LING:1030 English Words** 3 s.h.  
English word formation, basic units of English vocabulary; vocabulary skill expansion; word structure. Same as WRIT:1030.
- LING:1040 Language Rights** 3 s.h.  
Language minorities and linguistic human rights in the United States and worldwide; language and identity, culture, power; case studies of language rights deprivation. GE: International and Global Issues. Same as ANTH:1040.
- LING:1050 Language and Formal Reasoning** 3 s.h.  
Semantics and sentence structure of English; word meanings, meaning connected to truth conditions, reasoning based on logical connectives and quantifiers, evaluation of valid and invalid arguments. GE: Quantitative or Formal Reasoning.
- LING:1060 Languages of the World** 3 s.h.  
Overview of structural similarities and differences in human language; survey of the world's major language families; emphasis on sentence and word structure, sound systems, and modes of classification. GE: Social Sciences.
- LING:1070 Language Attitudes: Is How You Sound How You Are Seen?** 3 s.h.  
Pretend that you are making a phone call to ask about ordering a textbook and the person who answers is a stranger to you; you will immediately start to form opinions about that person (and about any other talkers you interact with) based upon the way they speak—where they are from, whether they are a native speaker of English, and even how well educated they are—and whether you are aware or not, these opinions and impressions you have will influence your interaction with that person and are based in language ideologies that all people have regarding how others sound; students explore common language ideologies and reflect upon their own. Taught in English. GE: Diversity and Inclusion.
- LING:2010 Research Practicum** arr.  
Individual participation in faculty research projects.
- LING:2090 Special Project** arr.
- LING:2248 The Invention of Writing: From Cuneiform to Computers** 3 s.h.  
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, TRNS:2248, WLLC:2248.
- LING:2900 Language, Gender, and Sexuality** 3 s.h.  
Gender-related language variation; current research on gender-specific linguistic forms and usage in the United States and other language communities; introduction to relevant principles of linguistic theory and analysis. GE: Values and Culture.
- LING:3001 Introduction to Linguistics** 3 s.h.  
Introduction to the study of human language: sounds and their contrasts and variation, words and meaningful subunits, sentence structure, historical change.
- LING:3005 Articulatory and Acoustic Phonetics** 3 s.h.  
Production and transcription of sounds in human languages; physics of sound, computer analysis of speech sounds. Offered fall semesters. Same as SLA:3400.
- LING:3010 Syntactic Analysis** 3 s.h.  
Introduction to sentence structures and basic abstract relations that characterize them, including word category, word order, hierarchical organization; problem sets from English and other languages as basis for discussion, analysis. Offered spring semesters. Prerequisites: LING:3001.
- LING:3020 Phonological Analysis** 3 s.h.  
Introduction to analysis of sound systems; generative phonological theory; practice in phonological analysis using data from a variety of languages. Offered spring semesters. Prerequisites: LING:3001 and LING:3005.
- LING:3030 Child Language-Linguistic Perspectives** 3 s.h.  
Linguistic theory as applied to first-language learning, including acquisition of sounds, syntax and word meaning, acquisition strategies, properties of input, theories of first-language acquisition. Prerequisites: LING:3001.
- LING:3040 Topics in Linguistics** 3 s.h.  
Varied topics in linguistics; for undergraduates. Requirements: LING:3001 or LING:3020 or LING:3080 or LING:5020.
- LING:3080 History of the English Language** 3 s.h.  
Development of phonological and grammatical structure of English, from Old to Modern English; selected issues in the history of England. Same as WRIT:3080.
- LING:3101 Introduction to Korean Linguistics** 3 s.h.  
Introduction to various topics in Korean linguistics including sentence structures, sound patterns, word formation, discourse structures, and historical background of Korean language. Taught in English. Recommendations: two years of Korean language study. Same as KORE:3100.
- LING:3105 Linguistic Aspects of the Lusophone World** 3-4 s.h.  
Introduction to Portuguese incorporating formal (theoretical), historical, and sociolinguistic perspectives; linguistic analysis of phonetics/phonology, morphology, and syntax; origins of Portuguese and its expansion to Africa, Asia, and Latin America. Taught in English. Same as PORT:3105, SPAN:3105.
- LING:3116 Basic Neuroscience for Speech and Hearing** 3 s.h.  
Basic anatomy, physiology of central nervous system; emphasis on neural systems involved in normal and disordered communication. Offered fall semesters. Requirements: biology, zoology, or physiology course. Same as CSD:3116.
- LING:3117 Psychology of Language** 3 s.h.  
Introduction to scientific study of language use; language approached from a multidisciplinary perspective, integrating theories and methods of psycholinguistics, neuropsychology, and communication sciences and disorders. GE: Social Sciences. Same as CSD:3117.

- LING:3118 Language Acquisition** 1-3 s.h.  
Models of children's language acquisition; child language/communication development from infancy through school age, in context of current developmental research. Requirements: for CSD:3118—LING:3001 and PSY:1001; for LING:3118—LING:3001 or LING:3117. GE: Social Sciences. Same as CSD:3118.
- LING:3190 Psycholinguistic Aspects of Bilingualism** 3-4 s.h.  
Interaction of two languages in a bilingual in terms of sound system, words, and grammar; different meanings of bilingualism, how bilingualism and multilingualism can change across lifespan. Taught in English. Requirements: linguistics or language acquisition course. Same as FREN:3190, SPAN:3190.
- LING:3195 Linguistics Lab I** 3 s.h.  
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.
- LING:3290 Statistical and Experimental Methods in Linguistics** 3 s.h.  
Introduction to basic experimental design; critical analysis of scientific claims; overview of common methods in experimental linguistics; introduction to statistics with emphasis on common data types in linguistics. Prerequisites: (LING:3010 or LING:5010) and (LING:3020 or LING:5020). Requirements: advanced standing in linguistics program and completion of core courses in syntax and phonetics/phonology at undergraduate or graduate level.
- LING:3302 Introduction to Chinese Linguistics** 3 s.h.  
Aspects of modern Chinese linguistics, such as Chinese phonology, syntax, pedagogical grammar, history of the language. Taught in English. Same as CHIN:3302, SLA:3302.
- LING:3670 Language Processes** 3 s.h.  
Psychological processes involved in using languages, including speech perception and production, the meaning of words, understanding and producing sentences, and basics of discourse and pragmatics; developmental and neural bases of language processes. Prerequisites: ((PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2601 with a minimum grade of C-) or CSD:1015 or LING:3001. Same as PSY:3670.
- LING:3860 German Language and Society** 3 s.h.  
Introduction to sociolinguistics in context of German-speaking countries; major topics include German dialects, regional and social variation in contemporary German, minority and immigrant languages in German-speaking countries, language and national identity, multilingualism, educational policies related to language teaching and learning, linguistic purism, language use in digital contexts, and language change. Taught in German. Requirements: GRMN:2002, GRMN:2020, or a higher-level course in German. Same as GRMN:3860.
- LING:4010 Undergraduate Practicum in Teaching English as a Second Language** 3 s.h.  
Practicum experience for undergraduate linguistics majors with an emphasis in teaching English as a second language (TESL); readings and reflection on academic writing, international student writing, and providing feedback on written work; training in the policies and procedures of the Department of Rhetoric's Writing Center; mentored experience in working with international student writers. Prerequisites: LING:3005 and LING:4040. Corequisites: LING:4050. Requirements: undergraduate major in linguistics with TESL emphasis.
- LING:4020 Morphology** 3 s.h.  
Lexicon and principles of word formation; principal processes of inflection, derivation, and compounding found in the world's languages; relation to phonology, syntax; practice in morphological analysis from a variety of languages. Prerequisites: LING:3001.
- LING:4040 The Structure of English** 3 s.h.  
Descriptive analysis of English, including word and sentence structure; focus on relevance to teaching English as a second language. Offered fall semesters. Prerequisites: LING:3001.
- LING:4050 Methods of Teaching English as a Second Language** 3 s.h.  
Observations of ESL and intensive English classes at the University; design and presentation of short lessons, text evaluation, demonstrations of innovative approaches of the last decade; materials. Offered spring semesters. Prerequisites: LING:3005 and LING:4040. Same as SLA:4401.
- LING:4070 Introduction to the Study of Meaning** 3 s.h.  
Introduction to the study of meanings and language use in context; meaning outside the literal semantic interpretation of words used including presuppositions and goals of speaker, expectation of listener, speech acts, conversational implicatures, deixis, discourse functions, and other relevant topics. Taught in English. Prerequisites: LING:3001. Same as FREN:4070.
- LING:4090 Practical Phonetics** 3 s.h.  
Contemporary articulatory and acoustic research, including second-language acquisition, elicitation and computer analysis of primary linguistic data. Prerequisites: LING:3005.
- LING:4195 Linguistics Lab II** 3 s.h.  
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.
- LING:4589 Philosophy of Language** 3 s.h.  
Main issues in contemporary philosophy of language; topics may include theories of meaning, truth, belief, interpretation, translation, speech acts, performatives, rule following, reference, naming, propositional attitudes, metaphor. Same as PHIL:4589.
- LING:4900 Honors: Research and Thesis** arr.  
Guided independent research to earn departmental honors. Prerequisites: LING:3001 and LING:3005. Corequisites: LING:3010 and LING:3020. Requirements: permission from departmental honors advisor.
- LING:5000 Proseminar: Morphosyntax** 1 s.h.  
Basic morphological analysis of languages other than English; morphological markers of syntactic relations (morphosyntax), such as case/agreement, possession, switch reference and other inflectional marking. Corequisites: LING:5010.
- LING:5010 Introduction to Syntax** 3 s.h.  
Methods and argumentation for formal analysis of sentence structure through induction from language data of central concepts and relations; hypothesis testing, empirical bases of theoretical concepts. Corequisites: LING:5000. Same as SLA:5010.
- LING:5020 Introduction to Phonology** 3 s.h.  
Analysis of sound systems, focus on early generative phonological theory; extensive practice in analysis using data from a variety of languages; linguistic argumentation. Prerequisites: LING:3005. Same as SLA:5020.
- LING:5030 First Language Acquisition** 3 s.h.  
Child language from a crosslinguistic perspective. Prerequisites: LING:3005 and (LING:4040 or LING:5010). Same as SLA:5401.

- LING:5070 Practicum in Teaching English as a Second Language** 2-3 s.h.  
Practical experience in TESL; observation and participation in intensive English classes; design and teaching of ESL classes under supervision. Prerequisites: LING:4050.
- LING:5090 Special Projects** arr.  
Theoretical and applied topics.
- LING:6010 Syntactic Theory** 3 s.h.  
Current syntactic theory examined through analysis of data sets, readings in recent research; emphasis on argument construction, statement of formal principles. Offered spring semesters. Prerequisites: LING:5010. Same as SLA:6010.
- LING:6020 Phonological Theory** 3 s.h.  
Post-SPE phonological theory, including autosegmental phonology, feature geometry, the syllable, optimality theory. Prerequisites: LING:5020. Same as SLA:6011.
- LING:6040 Linguistic Structures** 3 s.h.  
Grammatical and/or phonological structure of a selected language or language family.
- LING:6050 Language Universals Linguistic Typology** 3 s.h.  
Proposed universal principles of linguistic structure; approaches to classification of languages on the basis of grammatical and phonological structure. Prerequisites: LING:5010.
- LING:6080 Topics in Second Language Acquisition** 3 s.h.  
Overview of current second-language acquisition research in the generative linguistic framework; focus on characterizing second language learners' linguistic competence and how it is constrained by principles of universal grammar. Offered fall semesters. Prerequisites: (LING:3010 or LING:5010) and (LING:3020 or LING:5020). Same as SLA:6452.
- LING:6101 Cognitive Science of Language Proseminar I** 3 s.h.  
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6101, PSY:6101.
- LING:6102 Cognitive Science of Language Proseminar II** 3 s.h.  
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6102, PSY:6102.
- LING:6190 Topics in Comparative Romance Linguistics** 3 s.h.  
Comparative study of phonology, morphology, or syntax of the main Romance languages as informed by linguistic theory; diachronic or synchronic perspective. Taught in English. Recommendations: additional graduate coursework in linguistics. Same as SLA:6302, SPAN:6190.
- LING:6415 Seminar: Language, Gender, and Sexuality** 3 s.h.  
Role of language and discourse in cultural constructions of gender identities and relations, including domination and subordination; theoretical perspective and methodological approaches that have shaped thought on the language/gender nexus. Same as ANTH:6415, GWSS:6415.
- LING:6483 Multilingual Education and Applied Linguistics** 3 s.h.  
Introduction to research in language teaching and learning; theories and research in applied linguistics, sociolinguistics, anthropology, and psychology; fundamentals of second language acquisition, educational linguistics, applied linguistics, and methods used in teaching and learning second/foreign languages; consideration of applications and implications of research when reviewing multilingual education policy and practice.
- LING:6900 Master's Thesis** arr.
- LING:7000 Seminar: Spanish Linguistics** 3 s.h.  
Taught in Spanish. Same as SPAN:7000.
- LING:7010 Advanced Syntactic Theory** 2-3 s.h.  
Recent developments in syntax; comparison of theories, argumentation, and uses of data. Prerequisites: LING:6010. Same as SLA:7401.
- LING:7040 Topics in Linguistic Theory** 2-3 s.h.  
Varied topics in linguistic theory; for graduate students.
- LING:7090 Seminar: Problems in Linguistics** 2-3 s.h.  
Intensive study of theoretical and practical problems. Same as SLA:7404.
- LING:7100 Special Projects** arr.
- LING:7900 Ph.D. Thesis** arr.

# Linguistics, B.A.

Linguistics as a discipline inquires into the fundamental nature of human language. The ability to learn and speak a language is unique to humans, and language is intrinsic to the human mind, as well as integral to human society. The study of linguistics at the undergraduate level teaches students how to analyze languages, which are highly structured in ways that most people are not consciously aware of.

Undergraduate courses in the linguistics major teach a vocabulary of concepts and notation for analyzing language, and a process of analytical reasoning for applying the concepts to forms from specific languages. Students who major in linguistics achieve an informed awareness of language which has applications to many other fields, as well as preparation for continuing in linguistics and other fields which focus on language. The curriculum also provides an introduction to the kind of arguments used in scientific reasoning, using data and techniques which are perhaps more easily accessible to undergraduates than the kind used in laboratory sciences.

Depending on their vocational goals, students planning to major in linguistics should consider pursuing their studies either through the M.A. in linguistics with a professional focus or through the Ph.D., or they should complete a second major. Appropriate companion fields include languages, anthropology, computer science, English, mathematics, philosophy, psychology, sociology, speech pathology, and elementary and secondary education.

## Learning Outcomes

Students will have the:

- ability to identify generalizations in language data,
- ability to apply theoretical concepts to the analysis of language,
- understanding of and ability to use scientific method,
- ability to present a valid and sound argument, and
- ability to identify the empirical shortfalls of a linguistic analysis and think creatively about alternative solutions.

## Requirements

The Bachelor of Arts with a major in linguistics requires a minimum of 120 s.h., including 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The major in linguistics prepares students to do basic language analysis in syntax-semantics (sentence patterns and their relation to meanings) and phonology (sound patterns). Elective courses in a variety of subspecialties enable students to tailor the program to their own interests.

The B.A. with a major in linguistics requires the following coursework.

Code	Title	Hours
Major Courses		15
Electives		15
<b>Total Hours</b>		<b>30</b>

## Major Courses

Students must complete no fewer than 15 s.h. of requirements for the major at the University of Iowa, including LING:3005 Articulatory and Acoustic Phonetics, LING:3010 Syntactic Analysis, and LING:3020 Phonological Analysis.

The course LING:1003 English Grammar does not count toward the linguistics major.

Code	Title	Hours
All of these:		
LING:3001	Introduction to Linguistics	3
LING:3005	Articulatory and Acoustic Phonetics	3
LING:3010	Syntactic Analysis	3
LING:3020	Phonological Analysis	3
One of these:		
A course in language history, such as LING:3080		3
A course in an old language (classical Greek, Latin, Old English, Sanskrit)		3

## Electives

Electives are chosen in consultation with a faculty advisor (15 s.h.), bringing the total credit in the major to 30 s.h.

## TESL Emphasis

As part of the major in linguistics, students may complete an emphasis in Teaching English as a Second Language (TESL). The TESL emphasis can prepare students to teach English to non-native speakers abroad. It also is excellent preparation for graduate work in second language acquisition. TESL emphasis students complete the requirements for the linguistics major listed above, using the following coursework to partially satisfy the electives requirement.

Code	Title	Hours
Both of these:		
LING:4040	The Structure of English	3
LING:4050	Methods of Teaching English as a Second Language	3
One of these:		
LING:3030	Child Language-Linguistic Perspectives	3
LING:3670	Language Processes	3
LING:4010	Undergraduate Practicum in Teaching English as a Second Language	3
LING:4090	Practical Phonetics	3

## Combined Programs

### B.A./M.A. in Linguistics (TESL Subprogram)

Undergraduate linguistics majors who plan to earn a master's degree in linguistics with a teaching English as a second language (TESL) subprogram have the opportunity to enroll in the Bachelor of Arts/Master of Arts in linguistics degree program. Students in the B.A./M.A. program take selected graduate-level courses while they are still undergraduates and may count 12 s.h. of advanced coursework toward both degrees. Once students complete the requirements for the

bachelor's degree, they are granted the B.A., and they usually complete the M.A. one year later.

As part of the undergraduate major with TESL subprogram, B.A./M.A. students take LING:4040 The Structure of English, a course in language history, LING:3001 Introduction to Linguistics, and LING:3005 Articulatory and Acoustic Phonetics.

Students substitute some graduate-level coursework for typical undergraduate requirements. Instead of taking LING:3010 Syntactic Analysis to fulfill the B.A. syntax requirement, they take LING:5010 Introduction to Syntax, the first course in the mandatory two-course syntax sequence for M.A. students. Instead of taking LING:3020 Phonological Analysis to fulfill the B.A. phonology requirement, they take LING:5020 Introduction to Phonology, the first in the graduate two-course phonology sequence.

In addition, LING:4050 Methods of Teaching English as a Second Language and LING:6010 Syntactic Theory count toward both degrees and usually are taken during the senior year.

To be admitted to the program, students must be working toward an undergraduate major in linguistics, must have completed at least 80 s.h. of undergraduate coursework (typically by the end of their fifth semester), and must have a g.p.a. of at least 3.50.

## B.A./M.S. in Business Analytics (Career Subprogram)

Students who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

## B.A./M.S. in Finance

The combined Bachelor of Arts in linguistics/Master of Science in finance program is offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) in the Catalog.

## Honors

### Honors in the Major

Students majoring in linguistics have the opportunity to graduate with honors in the major. Departmental honors students must complete the required coursework for the

major and must prepare an honors thesis, working in consultation with their academic advisor.

The College of Liberal Arts and Sciences requires that students who earn honors in the major maintain a minimum University of Iowa cumulative g.p.a. of 3.33. Additional g.p.a. standards and requirements are set by each department or program.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the linguistics major.

## Career Advancement

Linguistics majors have found work teaching English as a second language overseas. Unique teaching opportunities worth exploring include those with the Peace Corps and Teach For America.

A number of companies, such as Microsoft, Xerox, Apple, Hewlett-Packard, and other high-tech firms, regularly hire employees with linguistics degrees. Opportunities also exist for government work, for example, as a special agent linguist for the FBI.

Some graduates choose to pursue advanced study in linguistics or other disciplines. Graduates with bachelor's degrees in linguistics may be admitted to certain graduate programs without additional academic preparation, such as anthropology, English literature, world language specializations, law, library science, philosophy, psychology, and sociology.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the fifth semester begins:** LING:3001 Introduction to Linguistics and one additional linguistics course.

**Before the seventh semester begins:** three more courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** two more courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and

should be discussed with an academic advisor. For additional sample plans, see MyUI.

- Linguistics, B.A. [p. 777]
- Teaching English as a Second Language Emphasis [p. 777]

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)	

<b>Hours</b>	<b>15</b>
<b>Total Hours</b>	<b>123-129</b>

- Students complete Linguistics electives (prefix LING) chosen in consultation with an advisor, bringing total credit in the major to 30 s.h. LING:1003 may not be used as an elective course.
- Fulfills a major requirement and may fulfill a GE requirement.
- GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- Students may choose to take LING:1050 to fulfill this GE requirement.
- Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- Students may choose to take LING:1040 to fulfill this GE requirement.
- Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Teaching English as a Second Language Emphasis

# Linguistics, Minor

## Requirements

The undergraduate minor in linguistics requires a minimum of 15 s.h. in linguistics courses, including at least 12 s.h. in University of Iowa courses. The minor must include the courses listed below. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor in linguistics requires the following coursework.

Code	Title	Hours
LING:3001	Introduction to Linguistics	3
LING:3005	Articulatory and Acoustic Phonetics	3
LING:3010	Syntactic Analysis	3
LING:3020	Phonological Analysis	3
Additional approved course numbered 3000 or above		3
<b>Total Hours</b>		<b>15</b>

## Academic Plans

## Linguistics, M.A.

Graduate programs in the Department of Linguistics emphasize theory and research. Students interested in non-university careers also may take courses in applied linguistics and other fields as an option in the M.A. program.

Iowa's Department of Linguistics has particular strengths in phonology, syntax, and second language acquisition (SLA).

The phonology curriculum emphasizes current theoretical perspectives, including optimality theory, and the collection, description, and interpretation of novel phonological and phonetic data. Courses feature extensive work in data analysis and problem solving, focusing on construction and evaluation of phonological theories, particularly in light of new empirical data.

The syntax curriculum includes the dual emphases of empirical and theoretical perspectives. It offers a variety of foundational courses that build analytic and argumentation skills, as well as specialized coursework on current issues in syntactic theory. The courses consist of intensive work in problem solving. They combine discovery and description of new linguistic data with exploration of the implications of such facts in testing and constructing syntactic theories.

The curriculum in second language acquisition includes courses that provide an overview and analysis of current SLA research. Work focuses on experimental research investigating the influence of the first language, environmental and contextual factors, and related topics.

### Requirements

The Master of Arts program in linguistics requires a minimum of 37 s.h. of graduate credit. A student's advisor must approve all courses that count toward the degree. Students must maintain a cumulative g.p.a. of at least 2.75.

A student with a linguistics background may waive up to 6 s.h. of coursework if the department determines that the student completed comparable work before enrolling in the program.

### Core Courses

All M.A. students complete the following set of required core courses in phonetics, phonology, syntax, and language acquisition (total of 22 s.h.).

Code	Title	Hours
All of these:		
LING:3005	Articulatory and Acoustic Phonetics	3
LING:5000	Proseminar: Morphosyntax	1
LING:5010	Introduction to Syntax	3
LING:5020	Introduction to Phonology	3
LING:6010	Syntactic Theory	3
LING:6020	Phonological Theory	3
LING:6080	Topics in Second Language Acquisition	3
One of these:		
LING:6040	Linguistic Structures	3
LING:6050	Language Universals Linguistic Typology	3

## Electives

Students also complete 15 s.h. of Department of Linguistics coursework, which may include a 9 s.h. focus (e.g., teaching English as a second language).

### Admission

Applicants to the M.A. program in linguistics must complete an application form, submit Graduate Record Examination (GRE) General Test scores, and have three letters of recommendation sent to the Department of Linguistics. Applications for admission should be submitted as early as possible for the following academic year.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

### Financial Support

Applications should be received by January 15 for the following academic year in order to have priority in consideration for financial aid. Applications received after January 15 are considered for remaining aid. Early submission of an application is strongly encouraged.

Applications for awards are considered only for students whose application for admission is complete.

### Career Advancement

A master's degree with teaching English as a second language (TESL) emphasis qualifies graduates to teach English as a second language in the United States or overseas. Unique teaching opportunities worth exploring include those with the Peace Corps and Teach For America.

A number of companies, such as Microsoft, Xerox, Apple, Hewlett-Packard, and other high-tech firms, regularly hire employees with linguistics degrees. Opportunities also exist for government work, for example, as a special agent linguist for the FBI.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Complete 15 s.h. which may include a 9 s.h. focus. Work with faculty advisor to determine coursework and sequence.

# Linguistics, Ph.D.

The Department of Linguistics has particular strengths in multilingual language acquisition, phonology, and syntax. Students are encouraged to take courses in a wide variety of departments and programs across the university.

The phonology curriculum emphasizes current theoretical perspectives, including optimality theory, and the collection, description, and interpretation of novel phonological and phonetic data. Students also may study phonological acquisition and development. Courses feature extensive work in data analysis and problem solving, focusing on construction and evaluation of phonological theories, particularly in light of new empirical data.

The syntax curriculum includes the dual emphases of empirical and theoretical perspectives. It offers a variety of foundational courses that build analytic and argumentation skills, as well as specialized coursework on current issues in syntactic theory. The courses consist of intensive work in problem solving. They combine discovery and description of new linguistic data with exploration of the implications of such facts in testing and constructing syntactic theories.

The acquisition curriculum emphasizes multilingual language syntax and phonological development in simultaneous, sequential, and late learners across a variety of learning contexts. Students have research opportunities that provide an overview and analysis of current language acquisition research.

Ph.D. students enroll in the Certificate in Cognitive Science of Language [p. 1621] program of study offered through the Graduate College. This certificate provides students with multidisciplinary training in cognitive science—a field that complements linguistics in many diverse ways—and the opportunity to work closely with faculty and graduate students from other departments across campus.

## Requirements

The Doctor of Philosophy program in linguistics requires a minimum of 72 s.h. of graduate credit, or 73 s.h. for graduates of the M.A. nonthesis program. Students must maintain a cumulative g.p.a. of at least 3.00. The highly selective program provides students with a strong foundation in theoretical linguistics and helps them develop the skills they will need to explore the close relationship between linguistics and related disciplines.

The Ph.D. with a major in linguistics requires the following coursework.

## Core Courses

Code	Title	Hours
All of these (18 s.h.):		
	One upper-level syntax course	
	One upper-level phonology course	
	Two or more courses numbered 5000 or above, as approved by advisor	

## Specialty Area Courses

An approved specialty area (18 s.h.) also is required. In addition, students whose work is focused on a particular language are strongly encouraged to take courses in or on

that language (e.g., French, Spanish, Japanese, Chinese, Korean linguistics), in consultation with their advisor.

## Additional Requirements

To pass the comprehensive examination for the Ph.D., a student must gain approval for two papers of publishable quality. One must be in phonology or syntax. The other should be in an area of the student's choosing and must be distinct from the area of the first paper.

An oral defense of the dissertation and three years in residence at the University of Iowa are required. In addition, all candidates are required to gain supervised experience in teaching and research.

## Admission

Applicants to the graduate program in linguistics must complete an application form, submit Graduate Record Examination (GRE) General Test scores, and have three letters of recommendation sent to the Department of Linguistics. They must submit a statement of purpose outlining their goals, planned area of research, and state the faculty member(s) with whom the student would like to work.

Applicants must provide written evidence of the ability to do advanced work in linguistics. This may include one or more of the following:

- a short squib style paper (short notes consisting of 5,000 words maximum) that makes a specific point by calling attention to a theoretically unexpected observation about language without the need for a developed analysis or solution,
- a final course paper, and
- a research project outlining the area of investigation the applicant wishes to pursue.

Applications must be received no later than January 15.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Applications should be received by January 15 for the following academic year in order to have priority in consideration for financial aid. Applications received after January 15 are considered for remaining aid. Early submission of an application is strongly encouraged.

Applications for awards are considered only for students whose application for admission is complete.

## Career Advancement

Linguistics majors have found work teaching English as a second language overseas. Unique teaching opportunities worth exploring include those with the Peace Corps and Teach For America.

A number of companies, such as Amazon, Microsoft, Xerox, Apple, Hewlett-Packard, and other high-tech firms, regularly

hire employees with linguistics degrees. Opportunities also exist for government work, for example, as a special agent linguist for the FBI.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Beyond the MA degree course requirements, the PhD program in linguistics has few set requirements. Upon acceptance to the program, students work closely with their faculty advisor to determine and select appropriate graduate level coursework that best suits their goals.
- b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
- c Work with faculty advisor to determine appropriate coursework and sequence.
- d 18 s.h. must be in an approved specialty area; if relevant to research, students may complete coursework in an additional language. Work with faculty advisor to determine appropriate elective coursework and sequence.
- e To pass the Comprehensive Exam for the PhD, a student must submit two papers of publishable quality and present each orally as part of the departmental colloquium. One must be in phonology or syntax. The other should be in an area of the student's choosing and must be distinct from the area of the first paper.
- f Prepare first Comprehensive Exam paper.
- g Prepare second Comprehensive Exam paper.
- h Begin preparing Dissertation Prospectus in consultation with Dissertation Committee.
- i In the semester following the Comprehensive Exam, but no later than the sixth semester of enrollment in the PhD program, the student presents a Dissertation Prospectus to the Dissertation Committee.
- j Set-up Dissertation Committee in consultation with faculty advisor.
- k Prepare Dissertation Prospectus defense.
- l Must be approved by Dissertation Committee.
- m Oral dissertation defense.

# Literary Translation

## Director, Division of World Languages, Literatures and Cultures

- Jill N. Beckman

## Director, Literary Translation

- Aron R. Aji (World Languages, Literatures and Cultures)

**Graduate degree:** M.F.A. in literary translation

**Graduate certificate:** literary translation

**Faculty:** <https://translation.uiowa.edu/faculty>

**Website:** <https://translation.uiowa.edu/>

The Certificate in Literary Translation complements students' primary graduate training to allow them to:

- become more firmly grounded in comparative literature or contemporary international writing,
- take advantage of the synergy between creative writing and literary translation as part of their personal writing life, and
- develop stronger competencies in translation as a method of scholarly inquiry and pedagogy.

Students will benefit from the creative commons established when translators, poets, fiction and nonfiction writers, playwrights, and literary scholars work together for a shared purpose.

The Certificate in Literary Translation is administered by the Division of World Languages, Literatures and Cultures [p. 378].

## Programs

### Graduate Programs of Study

#### Major

- Master of Fine Arts in Literary Translation [p. 787]

#### Certificate

- Certificate in Literary Translation [p. 789]

## Facilities

The Center for Language and Culture Learning (CLCL) provides a wide variety of services and facilities to the Division of World Languages, Literatures and Cultures, including a 54-computer Instructional Technology Center (ITC) and six "All in One" studios/small group study rooms, each equipped with video production and editing software. The CLCL also has a digital media and hardware collection available for checkout.

Directed Independent Language Study (DiLS), administered by the Center for Language and Culture Learning in the Division of World Languages, Literatures and Cultures, offers students guidance on engaging in self-instruction in languages that are not currently taught in the division. Any current University of Iowa student, staff, or faculty member who is interested in pursuing language study to enhance their professional research or academic profile can take advantage of this program. With the support of CLCL staff members, learners design their own study plans to learn basic language skills or improve upon existing skills in preparation for study or

research abroad, and are paired with a language and culture consultant when possible.

## Courses

### Translation Courses

#### TRNS:1000 First-Year Seminar 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

#### TRNS:1620 Bhagavad Gita: Essential Teachings of Indian Religion 3 s.h.

Students read the Bhagavad Gita and discuss its interpretations and use in classical and modern religious, literary, and political contexts; composed around 2000 years ago, it is the best known and most influential religious text in Indian history and concisely addresses war and peace, duty and righteousness, renunciation, devotion, and the nature of the universe; its been read, debated, and discussed by ancient philosophers, modern religious teachers, and political figures such as Mahatma Gandhi, the father of modern Independent India. Same as RELS:1620, SOAS:1620.

#### TRNS:2000 Translation and Global Society 3 s.h.

Contexts and functions of translation in the age of globalization; how translations are produced, received, and utilized in various contexts; effects of globalization on ethics, aesthetics, and politics of translation; how we understand cultures when they are received or transmitted through translation; effects of these exchanges on the English language. GE: Diversity and Inclusion.

#### TRNS:2001 Global Science Fiction 3 s.h.

Science fiction from around the world; spanning poetry, fiction, drama, film, television, comics, mobile phone games, and music; produced on six continents. Taught in English. GE: Diversity and Inclusion. Same as ASIA:2001, FREN:2010, RUSS:2001, SPAN:2001, WLLC:2001.

#### TRNS:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.

Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, LING:2248, WLLC:2248.

#### TRNS:3122 Tolstoy and Dostoevsky 3-4 s.h.

Tolstoy's *War and Peace* and *Anna Karenina*; Dostoevsky's *Crime and Punishment*, *The Demons*, and short stories. Taught in English. Same as RUSS:3122, WLLC:3122.

#### TRNS:3179 Undergraduate Translation Workshop 3 s.h.

Translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Same as CLSA:3979, ENGL:3850.

- TRNS:3189 Undergraduate Translation Workshop II** **3 s.h.**  
Continued training through translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Prerequisites: TRNS:3179.
- TRNS:3200 Literary Translation from German** **3 s.h.**  
Workshop and seminar on translating from German to English; emphasis on literary translations and studying existing translations; special issues of German as a source language for translation into English. Taught in English and German. Requirements: prior completion of two German courses at the 3000 level or above. Same as GRMN:3200.
- TRNS:3201 Workshop in Japanese Literary Translation** **3 s.h.**  
Workshop in translation from Japanese to English, with emphasis on literary translation; issues in theory and practice of translation; special features of Japanese as a source language for translation. Taught in Japanese. Corequisites: JPNS:3001, if not taken as a prerequisite. Same as JPNS:3201.
- TRNS:3202 Workshop in Chinese Literary Translation** **3 s.h.**  
Translation from Chinese to English with emphasis on literary translation; issues in theory and practice of translation; special features of Chinese as a source language for translation. Prerequisites: CHIN:3102. Same as CHIN:3201.
- TRNS:3203 Russian Literature in Translation 1860-1917** **3 s.h.**  
Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (*Fathers and Sons*), Tolstoy (*Confession*), Dostoevsky (*The Idiot*, *The Brothers Karamazov*), and Chekhov (plays). Taught in English. Same as HIST:3492, RUSS:3202, WLLC:3202.
- TRNS:3205 Literary Translation Workshop in Ancient Greek and Latin** **3 s.h.**  
Translation from Greek/Latin to English with emphasis on literary translation; issues in theory and practice of translation in the discipline; special features of ancient languages as a source language for translation. Taught in English. Same as CLSG:3200, CLSL:3200.
- TRNS:3208 Classical Chinese Literature Through Translation** **3 s.h.**  
Reading of English translations of classical Chinese literature; discussion of special features of classical Chinese as a source language for translation; issues in translation practice and theory with focus on trends in translation of Classical Chinese literary works to English. Taught in English. Recommendations: completion of required ESL courses. Same as ASIA:3208, WLLC:3208.
- TRNS:3232 French Literary Translation Workshop** **3 s.h.**  
Workshop in literary translation from French to English; practical, ethical, and theoretical questions about translation; focus on specific complication of French-English language pair; mapping style, genre, and literary influences of French authors for purpose of translation. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060 or FREN:3300. Same as FREN:3232.
- TRNS:3491 Translation Internship** **1-3 s.h.**  
Translation internship. Requirements: permission of the program coordinator of the undergraduate minor in translation for global literacy in consultation with the student's advisor.
- TRNS:3498 Translate Iowa Project** **arr.**  
Internship with the Translate Iowa Project. Taught in English. Requirements: TRNS:2000 or TRNS:3179 or TRNS:3202 or ENGL:3724 or JPNS:3201 or FREN:4890 or SPAN:3030 or SPAN:3050 or SPAN:4980. Same as ARAB:3498.
- TRNS:3700 Topics in Global Cinema** **3 s.h.**  
Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Taught in English. Same as ASIA:3700, JPNS:3700, WLLC:3700.
- TRNS:4040 Topics in Translation** **3-4 s.h.**  
Examination of special issues related to craft, context, and practice of translation.
- TRNS:4050 Independent Study** **1-3 s.h.**  
Focused study on topic of student's choosing under direction of faculty member. Requirements: permission of the student's academic advisor or the program coordinator of the undergraduate minor in translation for global literacy.
- TRNS:4480 Literature and Translation** **3 s.h.**  
Translation in the broadest sense; originality, authority, authorship, accuracy, ownership, audience; issues problematizing differences between medium and message.
- TRNS:4497 Techniques of Translation** **3 s.h.**  
Taught in French. Prerequisites: FREN:3300. Same as FREN:4890.
- TRNS:4500 Undergraduate Capstone Project** **0-3 s.h.**  
Culmination of undergraduate minor in translation for global literacy; translation manuscript or a scholarly/research thesis on topics relevant to scope of minor. Requirements: approval of the program coordinator of the undergraduate minor in translation for global literacy; consent of a faculty member willing to serve as director of the capstone project.
- TRNS:4800 Seminar in Comparative Literature** **3 s.h.**  
Focus on comparative, interdisciplinary, theoretical, and/or inter-arts topic; topics vary; required for comparative literature major. Taught in English. Same as CL:4800, GRMN:4800, WLLC:4801.
- TRNS:4900 Topics in Translation Studies** **1-3 s.h.**  
Current topics and/or issues in translation studies and practice.
- TRNS:5491 Translation Internship** **arr.**
- TRNS:5500 Advanced Translation Practice** **1-3 s.h.**  
Substantial translation project guided by a faculty advisor; readings and assignments designed to help translator with particular tasks and challenges presented by the project; translation and critical/reflective writing. Prerequisites: TRNS:6459 and TRNS:7460. Requirements: advanced-level translator in literary translation M.F.A. program.
- TRNS:5999 Publishing, Prizes, and Prestige** **3 s.h.**  
Introduction to contemporary world literature and its producers, circulation, and gatekeepers; students award the annual Translator's Choice Award for a literary translation published in the previous calendar year. Taught in English.

- TRNS:6000 The Craft and Contexts of Translation** **1,3 s.h.**  
Focus on craft and contexts of translation practice; provides students with information and experience regarding the profession and practice of translation; readings, reflective writing, and participation at guest events that focus on topics and practices relevant to the craft and professional contexts of translation.
- TRNS:6050 Independent Study** **arr.**
- TRNS:6400 Thesis** **arr.**  
Translation thesis with critical introduction.
- TRNS:6444 Thesis Workshop** **3 s.h.**  
Intensive multi-language workshop; focus on M.F.A. thesis manuscript and critical paratext; translations from various languages into English. Prerequisites: TRNS:7460. Requirements: second-year standing in M.F.A. literary translation.
- TRNS:6459 Issues in Translation** **3 s.h.**  
Contemporary and historical theories.
- TRNS:6555 Translator-in-Residence Workshop** **3 s.h.**  
Translation workshop facilitated by the translator-in-residence; focus on review and revision of student manuscripts; readings on technique and theories, translation practice, and manuscript review.
- TRNS:7460 Translation Workshop** **3 s.h.**  
Requirements: at least one foreign language. Same as IWP:7460.

# Literary Translation, M.F.A.

## Requirements

The Master of Fine Arts program in literary translation requires 48 s.h. of graduate credit, including a thesis. Students must maintain a cumulative g.p.a. of at least 2.75. They typically complete the program and graduate in two to three years.

Translators in the program focus on creating works that can convey the distinctness of the original languages and the immediacy of contemporary languages, whether poetry, fiction, or drama. Students consider ideas of literariness, style, cultural politics, authority, and how these come into play in the relationships between authors and their texts, authors and translators, translations and readers, and in the media landscapes in which these circulate.

At the core of the M.F.A. program are the workshops, TRNS:6555 Translator-in-Residence Workshop and TRNS:7460 Translation Workshop, which every student must take for a minimum of 12 s.h. of credit. Depth in the literature and culture of the source language, creative writing (translation is considered a writing art), translation theory and history, and contemporary literary theory are basic curricular requirements, supplemented with elective courses in which students may develop an area of special interest in consultation with their advisors.

During the first year, each student has an advisory committee of two faculty members: one from the translation program, who is the student's primary advisor; and one from a department in the Division of World Languages, Literatures and Cultures or from one of the M.F.A. writing programs. A third member joins the committee during the second year, when a student submits the thesis proposal. At least one member of the committee should be competent in the student's source language.

The M.F.A. with a major in literary translation requires the following work.

## Required Courses

Code	Title	Hours
All of these (36 s.h.):		
TRNS:6000	The Craft and Contexts of Translation (taken three semesters for 1 s.h. each semester)	3
TRNS:6459	Issues in Translation	3
Courses in literature and culture of the source language		9
Courses in creative writing (chosen in consultation with advisor)		6
Additional course in theory (chosen in consultation with advisor)		3
12 s.h. of workshop courses (each course taken at least twice):		
TRNS:6555	Translator-in-Residence Workshop	3
TRNS:7460	Translation Workshop	3

## Electives

Code	Title	Hours
Students earn 9 s.h. in electives of their choice, or from additional coursework in translation:		
TRNS:4040	Topics in Translation	3-4
TRNS:4480	Literature and Translation	3
TRNS:4900	Topics in Translation Studies	1-3
TRNS:4497	Techniques of Translation	3
TRNS:5491	Translation Internship	1-2
TRNS:5500	Advanced Translation Practice	1-3

## Thesis and Examination

Code	Title	Hours
One of these:		
TRNS:6400	Thesis	3
TRNS:6444	Thesis Workshop	3

Students earn 3 s.h. for the thesis, which is a translated collection of poems, literary essays, short stories, a short novel, or a drama with an introduction that sets the work in appropriate context. The introduction should include a critical discussion of issues and problems related to the translation; it should present a rationale for the translator's approach and strategies, based on interpretation, analysis of the leading features, structure, style, or authorial objectives of the source text. The source text should be a work that has not been translated previously or, at the discretion of the advisory committee, a work whose previous translation is judged to be outdated or inadequate in some respect. An oral defense of the thesis examines the student's translation and the introductory essay in detail.

## Admission

Applicants to the program are evaluated mainly on a writing portfolio. The portfolio should include translations, including source texts, and an original critical literary essay or literary writing in English; a statement of purpose; and three letters of recommendation. Applicants should provide evidence of advanced competence in their source language—normally at least three years of college-level work or the equivalent—and substantial preparation in English literature. Availability of faculty expertise in the applicant's source language and culture is considered in admission decisions.

All applicants must submit their scores on the Graduate Record Examination (GRE) General Test and transcripts from previous college-level study. Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

The program nominates up to two newly admitted, qualified students for the Iowa Arts Fellowship, a full-support fellowship awarded by the Graduate College each year. In addition, qualified students may receive teaching assistantships

or part-time graduate assistantships. Students must apply for assistantships and other support; contact the translation program and the Office of Student Financial Aid for information.

## Career Advancement

Graduates have gone on to work in the world of professional publishing as editors and reviewers or as free-lance translators; to become university professors after earning a Ph.D.; and to pursue other careers involving cross-cultural and artistic exchange. In recent years, publishers of works by translation alumni have included Greywolf Press, Seven Stories Press, Autumn Hill Books, Melville House, Words Without Borders, *The Iowa Review*, *91st Meridian*, Two Lines Press, *Circumference Poetry in Translation*, *The Literary Review*, Passport Publications and Media Corporation, *Absinthe*, and others.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
- b Taken three times for 1 s.h. each semester.
- c Work with faculty advisor to determine appropriate graduate level coursework and sequence.
- d Complete workshop courses TRNS:6555 and TRNS:7460 for a total of 12 s.h. by taking each course twice.
- e Students earn 9 s.h. in electives of their choice, or from additional coursework in translation; work with faculty advisor to select appropriate graduate coursework.
- f Students earn 3 s.h. for the thesis, which is a translated collection of poems, literary essays, short stories, a short novel, or a drama with an introduction that sets the work in appropriate context. An oral defense of the thesis examines the student's translation and the introductory essay in detail.
- g Oral thesis defense.

# Literary Translation, Graduate Certificate

## Requirements

The graduate Certificate in Literary Translation requires at least 15 s.h. of credit, including coursework in translation practice, techniques, and theories. Students must maintain a g.p.a. of at least 3.00 in work for the certificate. Students may earn the certificate while working toward a graduate degree. Nondegree students also can complete the certificate.

Translation workshops and coursework in translation theory are central to the certificate program since they are essential to the training of literary translators.

Certificate students enroll in a combination of the following courses determined in consultation with the director of the M.F.A. program in comparative literature—translation.

<b>Code</b>	<b>Title</b>	<b>Hours</b>
TRNS:4040	Topics in Translation	3-4
TRNS:4480	Literature and Translation	3

### Undergraduate certificate: writing

**Faculty:** <https://magidcenter.uiowa.edu/people>

**Website:** <https://magidcenter.uiowa.edu/>

The Magid Center for Undergraduate Writing takes seriously its mission to offer all undergraduate students at the University of Iowa (regardless of major or area of study) the unique opportunity to enhance their academic, creative, and professional communication skills by focusing on the written word. In addition to sponsoring the Certificate in Writing [p. 794], the center also publishes the student literary magazines Ink Lit Mag and earthwords; advises and coordinates the publication of Fools Magazine and Boundless; supports the Iowa Writers Living Learning Community (in association with University Housing and Dining); and is home to the Iowa Youth Writing Project (a nonprofit K-12 literacy outreach endeavor), the Iowa Young Writers' Studio (a selective summer camp for aspiring high school writers), and the Iowa Summer Writing Festival; (a noncredit, open enrollment creative writing program for adult learners).

The Magid Center for Undergraduate Writing was established in 2011 through a gift from Marilyn Y. Magid and family, in the name of the late Frank Magid, who believed that writing was a key component of a liberal arts and sciences education and a successful career.

## College Program

### Certificate in Writing

The Certificate in Writing [p. 794] (offered on campus and online) enables all undergraduate and nondegree-seeking students the opportunity to benefit from the University's wide-ranging writing programs and resources by pursuing a concentration in writing related to their academic success, career goals, or personal interests.

## Precollege Program

### Iowa Young Writers' Studio

**Website:** <https://iyws.clas.uiowa.edu/>

The Iowa Young Writers' Studio is a creative writing program for high school students at the University of Iowa, housed in the Magid Center for Undergraduate Writing. The Summer

Residential Program gives promising high school-age creative writers the opportunity to spend two weeks studying writing (primarily fiction, poetry, and creative nonfiction) at the University of Iowa, in the thriving literary community of Iowa City, with teachers and counselors from the Iowa Writers' Workshop and other renowned UI writing programs.

Students in the Summer Residential Program share their writing with teachers and peers, receive constructive critique, participate in writing exercises and activities, and attend readings and literary events. The Iowa Young Writers' Studio operates under the philosophy that the study of creative writing is essential not only to students who want to pursue writing as a career, but to any student hoping to function effectively in a writing-centric world. The studio encourages students to explore different genres and approaches, and to express themselves freely, without censorship. Students are taught to be generous, respectful critics.

Students who have completed grade 10, 11, or 12 are eligible to attend the Summer Residential Program. Those interested submit an application, a creative writing sample, a statement of purpose, a high school transcript, and a letter of recommendation. Applications are taken online during the first week of February for the following summer.

The Iowa Young Writers' Studio also offers six-week online creative writing courses for high school students. These courses are offered in January-February and in late June-early August. The courses are asynchronous, so students can complete the assignments and participate in the discussions on their own schedules. The courses offer students the chance to study creative writing with graduates of the Iowa Writers' Workshop and other UI writing programs, and to connect with other high school-age writers around the country and the world. Students who complete the course and meet all the requirements will receive a certificate of completion. Applicants must be enrolled in high school and have a g.p.a. of 3.00 or higher. Applicants must submit a statement of purpose, a teacher statement of support, a parental permission form, and a transcript. Applications are taken online in the fall (for January-February courses) and in the spring (for June-August courses).

Visit the Iowa Young Writers' Studio website for detailed information about the summer program and online courses.

## K-12 Opportunities

### Iowa Youth Writing Project

**Website:** <https://iywp.org/>

The Iowa Youth Writing Project (IYWP) is an arts outreach organization based at the University of Iowa that empowers, inspires, and engages K-12 youth throughout the state using language arts and creative thinking.

For more information or to get involved, contact the Iowa Youth Writing Project.

## Adult Opportunities

### Iowa Summer Writing Festival

**Website:** <https://iowasummerwritingfestival.org>

The Iowa Summer Writing Festival is a noncredit creative writing program for adults. The festival brings some 1,200 writers to the University of Iowa campus each summer to participate in weeklong, two-week, and weekend workshops

across the genres, as well as online workshops offered throughout the year. Writers at all levels are welcome.

Participants choose from more than 140 workshops in novel writing, short fiction, hybrid forms, poetry, memoirs, essays, playwrighting, screenwriting, travel writing, humor, writing for children, and more. Festival classes are conducted as workshops, where the primary texts are participants' own creative work.

Weeklong workshops meet for three hours each day, Monday through Friday, and include individual student/instructor conferences. Weeklong sessions feature a daily lecture series on aspects of literary craft, as well as evening readings and other events. Weekend sessions meet for eight hours over two days. Visit the Iowa Summer Writing Festival website for information about workshops, schedules, and registration. Program information for the coming summer is posted in mid-January.

The Magid Center for Undergraduate Writing is one of the academic units in the Division of Interdisciplinary Programs [p. 375]. The Certificate in Writing and the Iowa Young Writers' Studio are administered by the College of Liberal Arts and Sciences [p. 17].

Learn more about the University's wealth of writing resources by visiting The Writing University website, and read about the University's central role in Iowa City's designation as a UNESCO City of Literature.

## Programs

### Precollege Program of Study

The Iowa Young Writers' Studio is a residential creative writing program offered during the summer for high school students who have completed grade 10, 11, or 12. See "Precollege Program" in this section of the Catalog.

### Undergraduate Program of Study Certificate

- Certificate in Writing [p. 794]

## Career Advancement

Recent Certificate in Writing graduates have gone on to work in various fields that are wide-ranging in scope and background. Graduates have found work as teachers, copywriters, editors and publishers, government administrators, freelance journalists, magazine writers, and more. Additionally, graduates often go on to pursue professional programs of study and advanced degrees in law and writing, among other fields. Finally, many recent graduates have found internships during and after their time in the program with publishing companies and magazines across the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Courses

- Iowa Young Writers' Studio Courses [p. 791]
- Magid Center for Undergraduate Writing Courses [p. 791]

## Iowa Young Writers' Studio Courses

**IYWS:1001 Iowa Young Writers' Studio** 0 s.h.

**IYWS:1002 Iowa Young Writers' Studio: Fiction Writing** 0-1 s.h.

Introduction to fiction writing; for high school students. Requirements: admission through Iowa Young Writers' Studio application process.

**IYWS:1003 Iowa Young Writers' Studio: Poetry Writing** 0-1 s.h.

Introduction to poetry writing; for high school students. Requirements: admission through Iowa Young Writers' Studio application process.

**IYWS:1004 Iowa Young Writers' Studio: Creative Writing** 0-1 s.h.

Basic introduction to creative writing (poetry, fiction, creative nonfiction); for high school students. Requirements: admission through Iowa Young Writers' Studio application process.

## Magid Center for Undergraduate Writing Courses

**WRIT:1003 English Grammar** 3 s.h.

Recognizing nouns, verbs, adverbs, adjectives, and other parts of speech; sentence analysis; subjects, objects; types of sentences; passives, relative clauses; for students with little or no background in English grammar study. Does not count toward the linguistics major. Same as LING:1003.

**WRIT:1030 English Words** 3 s.h.

English word formation, basic units of English vocabulary; vocabulary skill expansion; word structure. Same as LING:1030.

**WRIT:1500 Writing Commons: A Community of Writers** 1-3 s.h.

Varied topics focused on building community and enhancing writing skills through generative exercises, long-form essay and hybrid assignments, workshops, sharing work in public, reading and discussing works of published authors.

**WRIT:1600 Fast Fixes: Improving Your Writing in Six Short Weeks** 1 s.h.

Varied topics focused on improving common writing problems or specific aspects of craft. Prerequisites: (RHET:1040 and RHET:1060) or RHET:1030.

**WRIT:1740 Writing Strategies: Word Origins and Word Choice** 3 s.h.

Study of words, their meanings, and their origins combined with writing; words and word histories; role of English language in the world. GE: Literary, Visual, and Performing Arts. Same as CLSA:1740.

**WRIT:2100 Writing and Community Outreach** 3 s.h.

Service-learning course offered in coordination with Iowa Youth Writing Project (IYWP); students create lesson plans, lead creative writing workshops in area schools and after-school programs, and collaborate to publish a final chapbook of writing from their teaching sites; assigned readings on creative writing pedagogy, teaching life, community outreach, social justice; relationships between self and community enhance interdisciplinary perspectives; weekly written reflections on teaching experiences featured on IYWP blog. GE: Diversity and Inclusion.

- WRIT:2101 Writers in the Community** 1 s.h.  
 Experiential, hands-on learning opportunities organized by the Iowa Youth Writing Project; introduction to the community at large; fun and meaningful activities with elementary and junior high school students; designing creative writing lessons, discussion of teaching tips and tricks, leading creative writing workshops for children in the Iowa City community, writing reflective essays about experiences; for those interested in education, creative writing, volunteerism, nonprofit work, or community engagement.
- WRIT:2300 Writing Toward Empathy** 3 s.h.  
 Students practice personal narrative, research writing, and professional communication skills to actively understand relevant social justice issues in Iowa; diversity, equity, and inclusion-based writing course offered in coordination with the Iowa Youth Writing Project.
- WRIT:2600 Science Communication I: Fundamentals of Science Communication** 2 s.h.  
 Bringing science to varied audiences; focus on writing and presenting research story, analogies, connecting with audiences, collaborating with others from science and film/writing disciplines; first of a two-course sequence culminating in a group outreach project and print product.
- WRIT:2601 Science Communication II: Science Outreach and Engagement** 2 s.h.  
 Bringing science to varied audiences; focus on writing and presenting research story, analogies, connecting with audiences, collaborating with others from science and film/writing disciplines; second of a two-course sequence culminating in a group outreach project and print product. Prerequisites: WRIT:2600.
- WRIT:2900 Book Design for Publishing** 3 s.h.  
 Introduction to the major aspects of book design, including typography, layout, standard industry software, discussion of trends in the field. Same as ARTS:2900, ENGL:2900, UICB:2900.
- WRIT:2991 Publishing I: Introduction to Literary Publishing** 3 s.h.  
 Introduction to major aspects of book and literary publishing, including evaluating submissions, copy editing, production calendars, and planning marketing campaigns; discussion of industry trends. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Same as CNW:2991.
- WRIT:2992 Publishing II: Advanced Literary Publication** 3 s.h.  
 Hands-on experience of entire literary publishing process including reading submissions, selecting texts, editing, layout and design, marketing and promotion, and book release. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: CNW:2991. Same as CNW:2992.
- WRIT:3000 Publishing Practicum: The Iowa Chapbook Prize** 3 s.h.  
 Experiential learning in the field of publishing through the Iowa Chapbook Prize; students gain knowledge in all aspects of publishing world including assessing submissions, selecting manuscripts, editing and proofreading, layout and design, marketing and promotion, and book release.
- WRIT:3005 Professional and Creative Business Communication** 3 s.h.  
 Solid foundation for creative and professional communication in today's modern work world; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semester-long creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision making, and human nature; how to navigate and succeed in business or any professional field. GE: Engineering Be Creative. Same as CW:3005, INTD:3005.
- WRIT:3080 History of the English Language** 3 s.h.  
 Development of phonological and grammatical structure of English, from Old to Modern English; selected issues in the history of England. Same as LING:3080.
- WRIT:3526 The Business of Writing** 3 s.h.  
 Students learn how to hone their writing skills and successfully transition into the workforce; objectives include developing the ability to pitch articles, establish personal brands, and navigate the world of freelance writing and editing; students network with professionals and explore writing-centric jobs. Same as DPA:3526.
- WRIT:3632 Prose Style** 3 s.h.  
 Sentences: how they work, what they do; how sentences can help writing, expand understanding of prose style, stretch options. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative. Same as CNW:3632.
- WRIT:3742 Word Power: Building English Vocabulary** 3 s.h.  
 Analysis of unfamiliar English words through knowledge of the history and meaning of word parts. Same as CLSA:3742.
- WRIT:3900 Writing: Undergraduate Internship** 1-3 s.h.  
 Professional and/or creative experience; students arrange faculty-approved internship. Requirements: undergraduate standing and minimum of 24 s.h. of coursework with at least 12 s.h. in University of Iowa courses.
- WRIT:3910 Iowa Youth Writing Project Internship** 1 s.h.  
 Internship with the Iowa Youth Writing Project. Requirements: application and acceptance as an Iowa Youth Writing Project intern.
- WRIT:4000 Independent Capstone Project** 1-3 s.h.  
 Capstone requirement for the Certificate in Writing through Program Option B. Requirements: junior or higher standing.
- WRIT:4001 Guided Capstone Portfolio** 1 s.h.  
 Capstone requirement for Certificate in Writing through Program Option A. Recommendations: junior or higher standing.
- WRIT:4002 Scientists and Writers** 1 s.h.  
 Science communication and collaborative skills that are highly sought after by employers in STEM firms including pharmaceutical firms, biotech start-ups, and many others; these same skills essential for reporting on, writing about, or translating science in any area; studio-style format. Requirements: STEM graduate standing in biological, chemical, physical, medical science, or engineering disciplines; or advanced undergraduate standing in journalism, creative writing, English, or any other writing-intensive major. Same as CHEM:4000, JMC:4000.

**WRIT:4100 Iowa Youth Writing Project Mentorship Practicum 1-3 s.h.**

Mentor new volunteers on a weekly basis at Iowa Youth Writing Project (IYWP) program sites; work one-on-one with volunteers, write and review lesson plans, provide resources and feedback for volunteers, lead workshops for children. Requirements: WRIT:2100 or completion of Iowa Youth Writing Project internship.

**WRIT:4745 The Sentence: Strategies for Writing 3 s.h.**

Writing dynamic, cogent, and grammatically correct sentences; effectively communicating ideas; writing with clarity and confidence; review of grammar and various types of sentences; building complexity by adding adverbial, subordinate, and connective clauses to simple sentences; how rhythm, syntax, and word order expand the meaning of a sentence; application and appreciation. GE: Engineering Be Creative. Same as CW:4745.

**WRIT:4760 The Art of Revision: Rewriting Prose for Clarity and Impact 3 s.h.**

Writing and rewriting of short stories and essays; specific choices to help writing reach its full potential; examination of first drafts and making strategic or radical decisions on what needs to happen in subsequent drafts in order for writing to better match original intentions; students gain insight from peers on where first drafts are succeeding or falling short, and write second and third drafts of short stories and personal narratives; structural and aesthetic choices. GE: Engineering Be Creative. Same as CW:4760.

# Writing, Certificate

## Learning Outcomes

Students who complete the Certificate in Writing develop:

- skills in the craft of writing, such as the ability to write clearly and concisely, control of mechanics and style, and the ability to communicate with particular audiences for specific purposes;
- skills in planning and using strategies to begin writing, overcome obstacles, obtain feedback, revise their work, and present their writing in public venues; and
- competence in discussing writing.

## Requirements

The undergraduate Certificate in Writing requires a minimum of 22 s.h. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

Certificate students explore and develop their own writing skills in a wide range of genres and for varied purposes, including creative writing (fiction, nonfiction, poetry); writing for the professions, such as the arts, business, journalism, or science; writing for organizations; and writing related to personal interests.

The Certificate in Writing also is available online for students unable to attend classes on campus, including professionals, distance education students, nondegree-seeking students, and international students. More information about the online Certificate in Writing is available at the Magid Center for Undergraduate Writing website. Some courses below are available online; more online courses are added frequently.

Coursework for the certificate includes a minimum of 12 s.h. in core courses, a minimum of 9 s.h. in focused electives, and a minimum of 1 s.h. in a capstone course. Up to 6 s.h. of transfer credit is allowed. For questions regarding the transfer credit policy, contact the director.

Certificate students have the opportunity to participate in the Iowa City writing community through activities such as attending readings and lectures; presenting their own work in public; working with professional journals, newspapers, or other publications; and volunteering or interning with the Iowa Youth Writing Project literacy outreach program.

Certificate in Writing students may not earn the B.A.S. degree with the creative writing emphasis.

See "Professional Track" below for information and requirements regarding the literary publishing track for the Certificate in Writing.

The Certificate in Writing requires the following work.

Code	Title	Hours
Core Courses		12
Focused Electives		9
Capstone Project		1-3
<b>Total Hours</b>		<b>22-24</b>

## Core Courses

Code	Title	Hours
All students must complete this course:		
WRIT:1500	Writing Commons: A Community of Writers (online or on campus)	3
And 9 s.h. from the following list:		
WRIT:1003/ LING:1003	English Grammar (online or on campus)	3
WRIT:1600	Fast Fixes: Improving Your Writing in Six Short Weeks (to count as a core course, must be taken three times for 1 s.h. each with different subtitles)	3
WRIT:3080/ LING:3080	History of the English Language	3
WRIT:3632/ CNW:3632	Prose Style	3
WRIT:4745/ CW:4745	The Sentence: Strategies for Writing (online or on campus)	3
WRIT:4760/ CW:4760	The Art of Revision: Rewriting Prose for Clarity and Impact (online or on campus)	3
The 9 s.h. may include one of these:		
WRIT:1030/ LING:1030	English Words	3
WRIT:1740/ CLSA:1740	Writing Strategies: Word Origins and Word Choice	3
WRIT:3742/ CLSA:3742	Word Power: Building English Vocabulary (online or on campus)	3

## Focused Electives

Students earn a total of at least 9 s.h. in focused electives, which they select from courses in at least two of the following categories (maximum of 6 s.h. from any one category).

- Writing for the Professions [p. 794]
- Writing and the Literary Arts [p. 795]
- Writing and the Media [p. 796]
- Writing in Context [p. 796]
- Student-Designated Writing-Intensive Course [p. 797]

Each focused elective course may be used to fulfill only one certificate requirement, even if the course is listed in more than one category below. Some of these courses have prerequisites and other requirements for registration; students must complete a course's prerequisites and meet its registration requirements before they may register for the course.

## Student-Designated Writing-Intensive Course

Students may petition to count a course not listed above toward their elective requirements. Petitions must be submitted online and receive prior approval from the Certificate in Writing advisor; visit Focused Electives on the Magid Center for Undergraduate Writing website.

Students may also request permission to count a maximum of 3 s.h. earned in a non-writing intensive course numbered 3000 or above as credit toward the focused elective requirement. For this option, students must propose a writing-related project that extends the writing focus of their chosen course. They must have the approval of the faculty member teaching the course and the writing certificate advisor.

## Capstone Project

Each student must earn at least 1 s.h. in a capstone course that serves as a culmination of their Certificate in Writing. Students choose one of the following four options for completing their capstone requirement.

### Program Option A

Guided Capstone Portfolio (WRIT:4001, 1 s.h.) is an online, portfolio-based class that allows students the chance to direct their own academic, professional, and creative learning experience by asking them to think critically about where they have come from and where they are headed. Students are guided by a series of prompts, readings, and targeted assignments that lead to a shared final goal—an online portfolio of writing that highlights the work created and the skills gained while pursuing the Certificate in Writing.

### Program Option B

Independent Capstone Project (WRIT:4000, 1-3 s.h.) is an independent writing project of the student's choosing, guided by a faculty mentor. It is available online or on campus.

### Program Option C

Writing: Undergraduate Internship (WRIT:3900, 1-3 s.h.) provides departmental oversight for students completing a writing-related internship and guides students through a series of reflections on their internship experience and how it relates to their academic, professional, and creative goals.

### Program Option D

Students may petition to count an additional 3 s.h. writing course from the core or focused elective courses listed above as their capstone. Petitions are submitted online and must be approved by the certificate advisor.

Visit capstone project information on the Magid Center for Undergraduate Writing website for more information related to registering for a capstone course.

## Professional Track

### Literary Publishing

Students considering a career in literary publishing can learn the ins and outs of the industry and gain a competitive edge by enrolling in the literary publishing track. This unique educational experience provides a substantial understanding

of the editorial, design, and managerial work essential to this profession. Students who enroll in the track complete the certificate's core courses (see "Core Courses" above) and fulfill the focused elective requirement by taking a series of three publishing-specific courses (see "Literary Publishing Track Focused Electives" below). Finally, they complete a publishing-related capstone project; literary publishing students may select WRIT:3000 Publishing Practicum: The Iowa Chapbook Prize as a capstone project or Program Option A, B, C, or D (see "Capstone Project" above).

The literary publishing track, interdisciplinary in scope, is a collaboration between the Magid Center for Undergraduate Writing, the Nonfiction Writing Program in the Department of English, the School of Art and Art History [p. 98], and the University of Iowa Center for the Book [p. 1614]. For more information, contact the Magid Center for Undergraduate Writing.

Students may earn either the Certificate in Writing with the literary publishing track or the Bachelor of Arts in English (publishing track) or the Bachelor of Arts in English and creative writing (publishing track). Students may not earn the publishing track in both the major and in the writing certificate.

### Literary Publishing Track Focused Electives

Code	Title	Hours
WRIT:2900/ ARTS:2900/ ENGL:2900/ UICB:2900	Book Design for Publishing	3
WRIT:2991/ CNW:2991	Publishing I: Introduction to Literary Publishing	3
WRIT:2992/ CNW:2992	Publishing II: Advanced Literary Publication	3

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Writing, Certificate

Course	Title	Hours
<b>Second Year</b>		
<b>Any Semester</b>		
WRIT:1500	Writing Commons: A Community of Writers	3
	Certificate: core course (prefix WRIT) <sup>a</sup>	3
	Certificate: core course (prefix WRIT) <sup>a</sup>	3
	<b>Hours</b>	<b>9</b>
<b>Third Year</b>		
<b>Any Semester</b>		
	Certificate: core course (prefix WRIT) <sup>a</sup>	3
	Certificate: focused elective <sup>b</sup>	3
	Certificate: focused elective <sup>b</sup>	3

Internship: consider applying for internship with the Iowa Youth Writing Project or another organization (not required to earn the certificate but encouraged)

<b>Hours</b>	<b>9</b>
<b>Fourth Year</b>	
<b>Any Semester</b>	
Certificate: focused elective <sup>b</sup>	3
Certificate: capstone project <sup>c</sup>	1 - 3
<b>Hours</b>	<b>4-6</b>
<b>Total Hours</b>	<b>22-24</b>

- a Students must complete 9 s.h. of core courses from the list of approved options. See General Catalog for more information.
- b Students earn a total of at least 9 s.h. in focused electives, which they select from courses in at least two of the following categories (maximum of 6 s.h. from any one category): Writing for the Professions, Writing and the Literary Arts, Writing and the Media, Writing in Context, and Student-Designated Writing-Intensive Course.
- c Students choose from WRIT:4001, WRIT:4000, WRIT:3900, or petition to count an additional 3 s.h. writing course approved as a core or focused elective course as their capstone.

# Mathematics

## Chair

- Weimin Han

**Undergraduate major:** mathematics (B.A., B.S.)

**Undergraduate minor:** mathematics

**Graduate degrees:** M.S. in mathematics; Ph.D. in mathematics

**Faculty:** <https://math.uiowa.edu/people/faculty>

**Website:** <https://math.uiowa.edu>

Mathematics is a basic tool for understanding modern society as well as a crucial requirement for many careers in science, engineering, business, and the professions. Research in this living, dynamic subject is at the highest level in history.

An undergraduate degree in mathematics prepares students for a variety of careers in government and business, for secondary teaching, for graduate study, and with proper planning, for a variety of professional programs. Graduate study is advisable for some business and governmental positions and for college and university teaching and research. The department also offers a minor.

## Programs

### Undergraduate Programs of Study

#### Majors

- Major in Mathematics (Bachelor of Arts) [p. 806]
- Major in Mathematics (Bachelor of Science) [p. 812]

#### Minor

- Minor in Mathematics [p. 818]

### Graduate Programs of Study

#### Majors

- Master of Science in Mathematics [p. 819]
- Doctor of Philosophy in Mathematics [p. 821]

## Courses

Credit earned in MATH:0100 Basic Algebra I does not count toward graduation.

The sequences MATH:1850 Calculus I and MATH:1860 Calculus II, and MATH:1550 Engineering Mathematics I: Single Variable Calculus and MATH:1560 Engineering Mathematics II: Multivariable Calculus are similar, but they cover the material in a different order and with different emphases. Students who have taken the first semester of one sequence must consult with their advisor before taking the second semester of the other sequence.

Students who consider taking MATH:1860 Calculus II after MATH:1380 Calculus and Matrix Algebra for Business or MATH:1460 Calculus for the Biological Sciences must consult with their advisor; they also must take a math placement test.

Graduate students may not earn graduate credit in courses numbered below 3000.

Graduate students in mathematics must have departmental approval to earn credit for any of the courses listed below

numbered 3000 or above except MATH:3995 Topics in Mathematics. Graduate students in mathematics may not earn credit for MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra. Graduate students in other disciplines may earn credit for any course numbered 3000 or above.

## Mathematics Courses

### MATH:0100 Basic Algebra I 3 s.h.

Percents, ratio and proportion, algebraic expressions and operations, simple products, linear and quadratic equations, simultaneous equations, exponents and radicals; emphasis on verbal problems.

### MATH:1000 First-Year Seminar 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

### MATH:1005 College Algebra 4 s.h.

Algebraic techniques, equations and inequalities, functions and graphs, exponential and logarithmic functions, systems of equations and inequalities. Prerequisites: MATH:0100 with a minimum grade of C- or ALEKS score of 30 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

### MATH:1010 Trigonometry 3 s.h.

Trigonometric functions, solutions of right and oblique triangles, complex numbers. Prerequisites: MATH:1340 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH:1005 with a minimum grade of C- or MATH:1380 with a minimum grade of C- or ALEKS score of 55 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

### MATH:1020 Elementary Functions 4 s.h.

Functions, relations, coordinate systems; properties and graphs of algebraic, trigonometric, logarithmic, exponential functions; inverse trigonometric functions; properties of lines, conic sections. Prerequisites: MATH:1010 with a minimum grade of C- or MATH:1005 with a minimum grade of C- or MPT Level 3 score of 9 or higher or ALEKS score of 60 or higher or MATH:1340 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

**MATH:1120 Logic of Arithmetic** 4 s.h.

Mathematical and conceptual foundations of the natural numbers used in elementary school arithmetic teaching; multiple algorithmic approaches to arithmetic and its mathematical and contextual relationships, extensions to integers, rational and irrational numbers, multiple representations. Prerequisites: ALEKS score of 30 or higher or MATH:1460 with a minimum grade of C- or MATH:1010 with a minimum grade of C- or MATH:1550 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or MATH:1860 with a minimum grade of C- or MATH:1005 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH:1850 with a minimum grade of C- or MATH:1380 with a minimum grade of C- or MATH:1440 with a minimum grade of C- or MATH:0100 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

**MATH:1140 Mathematical Basis of Elementary Geometry** 3 s.h.

Points, lines, planes; measurement, two- and three-dimensional coordinate geometry, transformational geometry and vectors; applications of geometry to solve real-world problems. Prerequisites: MPT Level 3 score of 9 or higher or MATH:1850 with a minimum grade of C- or ALEKS score of 30 or higher or MATH:1010 with a minimum grade of C- or MATH:1005 with a minimum grade of C- or MATH:1380 with a minimum grade of C- or MATH:0100 with a minimum grade of C- or MATH:1440 with a minimum grade of C- or MATH:1460 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or MATH:1860 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or MATH:1550 with a minimum grade of C-. Requirements: elementary teacher certificate candidacy or certification. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

**MATH:1210 Diverse Perspectives in the Mathematical Sciences** 3 s.h.

Exploration of the wide diversity of cultures and individuals who have contributed to mathematical sciences; experiences and cultural messages that have shaped our own mathematical attitudes; numerous mathematical contributions of women, people of color, and members of other underrepresented groups—their accomplishments, challenges they faced, and factors that led to their success; revisiting and revising our own attitudes toward mathematics in light of what is read to incorporate a larger vision of mathematics and of people who do mathematical work. GE: Diversity and Inclusion.

**MATH:1250 Mathematics for Arts and Humanities** 3 s.h.

Introduction to mathematical concepts via their applications in arts and humanities: mathematical patterns in nature; mathematics in ecology, religion, history, and linguistics; cryptology; modeling with mathematics; *The Matrix* directed by the Wachowskis; and *Star Wars* directed by George Lucas; students solve basic mathematical problems involving quadratic equation, exponential function, matrices, permutations, and combinatorics; application of mathematical logic to solve various mathematical games; application of mathematical concepts to real life problems (e.g., data interpretations); understanding the mathematics behind games, ciphers, and patterns. GE: Quantitative or Formal Reasoning.

**MATH:1260 PokeMath: The Mathematics of Pokemon Go** 3 s.h.

Use of mathematics to take Pokémon Go play to the next level; exposure to a range of topics central to applied mathematics including set theory, functions, probability and statistics, rates of change, and game theory; requires a mobile device with the game Pokémon Go. Pokémon Go is a registered trademark of the Pokémon Company. GE: Quantitative or Formal Reasoning.

**MATH:1340 Mathematics for Business** 4 s.h.

Algebraic techniques, functions and functional models, exponential and logarithmic functions and models, linear programming, informal introduction to calculus; examples and applications from management, economic sciences, related areas. Prerequisites: MATH:1005 with a minimum grade of C- or MPT Level 3 score of 9 or higher or ALEKS score of 45 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

**MATH:1350 Quantitative Reasoning for Business** 4 s.h.

Algebraic techniques and modeling; quantitative methods for treating problems that arise in management and economic sciences; topics include algebra techniques, functions and functional models, exponential and logarithmic functions and models, and a thorough introduction to differential calculus; examples and applications from management, economic sciences, and related areas; for students planning to major in business. Prerequisites: MATH:1005 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or ALEKS score of 55 or higher or MPT Level 3 score of 9 or higher. GE: Quantitative or Formal Reasoning.

**MATH:1380 Calculus and Matrix Algebra for Business** 4 s.h.

Quantitative methods for treating problems arising in management, economic sciences, related areas; introduction to differential and integral calculus, systems of linear equations and matrix operations. Prerequisites: MATH:1340 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH:1020 with a minimum grade of C- or ALEKS score of 65 or higher or MATH:1440 with a minimum grade of C- or MATH:1005 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

**MATH:1440 Mathematics for the Biological Sciences** 4 s.h.

Relations, functions, coordinate systems, graphing, polynomials, trigonometric functions, logarithmic and exponential functions; discrete mathematics, probability; examples and applications from biological sciences. Prerequisites: MATH:1005 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or ALEKS score of 55 or higher or MATH:1010 with a minimum grade of C- or MPT Level 3 score of 9 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

**MATH:1460 Calculus for the Biological Sciences 4 s.h.**

One-semester survey of calculus for students in biological or life sciences; nontheoretical treatment of differential and integral calculus; brief introduction to differential equations and probability with calculus, with applications to the life sciences. Prerequisites: MATH:1440 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or (MATH:1005 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or ALEKS score of 70 or higher or (ALEKS score of 55 or higher and MATH:1010 with a minimum grade of C-) or (MATH:1010 with a minimum grade of C- and MATH:1340 with a minimum grade of C-) or MPT Level 3 score of 9 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

**MATH:1550 Engineering Mathematics I: Single Variable Calculus 4 s.h.**

Limits, derivatives, max/min, other applications, mean-value theorem, approximating functions, concavity, curve sketching, exponential models; Riemann sums, fundamental theorem; integration techniques, improper integrals, approximations. Prerequisites: (MATH:1010 with a minimum grade of C- and MATH:1005 with a minimum grade of C-) or MPT Level 3 score of 9 or higher or ALEKS score of 75 or higher or (MATH:1380 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or MATH:1020 with a minimum grade of C- or MATH:1460 with a minimum grade of C- or (MATH:1010 with a minimum grade of C- and ALEKS score of 55 or higher) or (MATH:1340 with a minimum grade of C- and MATH:1010 with a minimum grade of C-). Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

**MATH:1560 Engineering Mathematics II: Multivariable Calculus 4 s.h.**

Vector geometry; functions of several variables; polar coordinates; partial derivatives, gradients, directional derivatives; tangent lines and planes; max/min/parametric curves, curvilinear motion; multiple integrals; vector fields, flows; integration on curves, work; divergence, flux, Green's theorem. Prerequisites: MATH:1550 with a minimum grade of C- or MATH:1850 with a minimum grade of C- or MPT Level 3 score of 15 or higher. Requirements: score of 4 or higher on AP Calc (AB) exam, or score of 4 or higher on AP Calc (BC) exam.

**MATH:1850 Calculus I 4 s.h.**

Fundamental concepts, limits, methods, and techniques of differential calculus of a single variable; definite and indefinite integrals, substitution rule, fundamental theorem of calculus; applications including graphing, extreme values, areas, and volumes. Prerequisites: (MATH:1010 with a minimum grade of C- and MATH:1380 with a minimum grade of C-) or MATH:1460 with a minimum grade of C- or ALEKS score of 75 or higher or MPT Level 3 score of 9 or higher or (ALEKS score of 55 or higher and MATH:1010 with a minimum grade of C-) or MATH:1020 with a minimum grade of C- or (MATH:1340 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or (MATH:1005 with a minimum grade of C- and MATH:1010 with a minimum grade of C-). Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

**MATH:1860 Calculus II 4 s.h.**

Techniques of integration including by-parts, trigonometric Integrals, trigonometric substitutions, partial fractions, improper integrals; applications (i.e., arclength), area surfaces of revolutions, application to physics; introduction to differential equations; parametric equations and polar coordinates; infinite sequences and series, convergence tests, power series, Taylor polynomials and series. Prerequisites: MATH:1550 with a minimum grade of C- or MATH:1850 with a minimum grade of C- or MPT Level 3 score of 15 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

**MATH:2150 Foundations of Geometry 3 s.h.**

Axiomatic development of common foundation for Euclidean, non-Euclidean geometry; constructions of non-Euclidean models, independence of parallel postulate. Prerequisites: MATH:1860 or MATH:1560.

**MATH:2550 Engineering Mathematics III: Matrix Algebra 2 s.h.**

Applications, computers for matrix calculations; matrix, vector arithmetic; linear independence, basis, subspace (in  $R^2$ ,  $R^3$ ); systems of equations, matrix reduction; rank, dimension; determinants, applications; eigenvalues, eigenvectors; diagonalization, principal axis theorem. Prerequisites: MATH:1850 or MATH:1550 or MATH:1860 or MATH:1560 or MPT Level 3 score of 15 or higher.

**MATH:2560 Engineering Mathematics IV: Differential Equations 3 s.h.**

Ordinary differential equations and applications; first-order equations; higher order linear equations; systems of linear equations, Laplace transforms; introduction to nonlinear equations and systems, phase plane, stability. Prerequisites: (MATH:1560 or MATH:1860) and (MATH:2700 or MATH:2550).

**MATH:2700 Introduction to Linear Algebra 4 s.h.**

Vector algebra and geometry of three-dimensional Euclidean space and extensions to n-space and vector spaces; lines and planes, matrices, linear transformations, systems of linear equations, reduction to row echelon form, dimension, rank, determinants, eigenvalues and eigenvectors, diagonalization, Principal Axis Theorem. Prerequisites: MATH:1850 or MATH:1550 or MATH:1860 or MATH:1560 or MPT Level 3 score of 15 or higher.

**MATH:2850 Calculus III 4 s.h.**

Multivariable calculus; vector functions, total differentials, gradient, implicit functions, coordinate systems, Taylor's expansion, extrema, multiple integrals, vector fields, line integrals, surface integrals, and Green's, Stokes', and divergence theorems. Prerequisites: MATH:1860 with a minimum grade of C- or MATH:1560 with a minimum grade of C-.

**MATH:2995 Introduction to Research Opportunities 1 s.h.**

Modern mathematics research areas and activities; seminar. Prerequisites: (MATH:2700 or MATH:2550) and (MATH:1560 or MATH:1860).

- MATH:3550 Engineering Mathematics V: Vector Calculus** 3 s.h.  
 Partial derivatives, max-min problems, integrals along curves, surfaces and solids, vector fields and conservation of energy; curl, divergence, Stokes' theorem and the divergence theorem; the classical partial differential equations and qualitative behavior of their solutions. Prerequisites: MATH:1560 and (MATH:2550 or MATH:2700). Corequisites: MATH:2560.
- MATH:3600 Introduction to Ordinary Differential Equations** 2-3 s.h.  
 First-order ordinary differential equations; second-order linear differential equations; series solutions; higher-order linear and matrix differential equations; existence and uniqueness theorems; may include introduction to basic partial differential equations (PDE) or Laplace Transforms. Prerequisites: (MATH:1560 or MATH:1860) and (MATH:2550 or MATH:2700). Corequisites: MATH:2850 (if not taken as a prerequisite). Requirements: prior or concurrent enrollment in MATH:2850.
- MATH:3700 Introduction to Matrix Theory** 3 s.h.  
 Vector algebra and geometry of three-dimensional Euclidean space and extensions to  $n$ -space and vector spaces; lines and planes, matrices, linear transformations, systems of linear equations, reduction to row-echelon form, dimension, rank, determinants, eigenvalues and eigenvectors, diagonalization, Principal Axis Theorem. Requirements: graduate standing.
- MATH:3720 Introduction to Abstract Algebra I** 4 s.h.  
 Basic logic, proof methods, sets, functions, relations, mathematical induction; gradual transition from familiar number systems to abstract structures—division algorithm, unique factorization theorems; groups, subgroups, quotient groups, homomorphisms. Prerequisites: MATH:2700 or MATH:2550.
- MATH:3750 Classical Analysis** 4 s.h.  
 Multivariable calculus; vector functions, total differentials, gradient, implicit functions, coordinate systems, Taylor's expansion, extrema, multiple integrals, vector fields, line integrals, surface integrals, and Green's, Stokes', and divergence theorems. Requirements: graduate standing and one year of calculus.
- MATH:3770 Fundamental Properties of Spaces and Functions I** 4 s.h.  
 Elementary topological and analytic properties of real numbers; emphasis on ability to handle definitions, theorems, proofs. Prerequisites: MATH:1560 or MATH:1860. Corequisites: MATH:2700. Requirements: second-semester calculus.
- MATH:3800 Elementary Numerical Analysis** 3 s.h.  
 Computer arithmetic, root finding, polynomial approximation, numerical integration, numerical linear algebra, numerical solution of differential equations; use of a higher-level computer language such as Matlab, Python, or Julia. Prerequisites: (MATH:2550 or MATH:2700) and (MATH:1560 or MATH:1860). Same as CS:3700.
- MATH:3900 Introduction to Mathematics Research** 3 s.h.  
 Research experience; students study an elementary topic of active research, then work in groups under faculty supervision. Prerequisites: (MATH:2700 or MATH:2550) and (MATH:1860 or MATH:1560).
- MATH:3995 Topics in Mathematics** 3 s.h.  
 Varied topics. Recommendations: junior, senior, or graduate standing in mathematics, classics, or related fields.
- MATH:3996 Individual Study and Honors in Mathematics** arr.
- MATH:3997 Readings in Mathematics** arr.
- MATH:4010 Basic Analysis** 3 s.h.  
 Elementary topological and analytical properties of real numbers; emphasis on ability to handle definitions, theorems, proofs; same material as MATH:3770 for non-mathematics graduate students. Requirements: graduate standing, one year of calculus, and one semester of linear algebra.
- MATH:4020 Basic Abstract Algebra** 3 s.h.  
 Basic logic, proof methods, sets, functions, relations, mathematical induction; gradual transition from familiar number systems to abstract structures (division algorithm, unique factorization theorems); groups, subgroups, quotient groups, homomorphisms; same material as MATH:3720; for non-mathematics graduate students. Requirements: graduate standing, one year of calculus, and one semester of linear algebra.
- MATH:4040 Matrix Theory** 3 s.h.  
 Vector spaces, linear transformations, matrices, equivalence of matrices, eigenvalues and eigenvectors, canonical forms, similarity, orthogonal transformations, bilinear and quadratic forms. Prerequisites: MATH:2700 or MATH:3700.
- MATH:4050 Introduction to Discrete Mathematics** 3 s.h.  
 Basic methods of enumerative combinatorics, inclusion-exclusion and generating functions, applications of group theory (Polya-Burnside theorem). Offered fall semesters. Prerequisites: (MATH:1860 or MATH:1560) and (MATH:2550 or MATH:2700).
- MATH:4060 Discrete Mathematical Models** 3 s.h.  
 Basic combinatorics and graph theory, their applications (which may include scheduling, matching, optimization); Eulerian and Hamiltonian paths, spanning trees. Offered spring semesters. Prerequisites: MATH:2700 or MATH:2550.
- MATH:4080 Elementary Theory of Numbers** 3 s.h.  
 Factorization, congruence, Diophantine equations, law of quadratic reciprocity. Prerequisites: MATH:1860 and MATH:2700.
- MATH:4090 A Rigorous Introduction to Abstract Algebra** 4 s.h.  
 Rigorous review of groups including homomorphisms and quotient groups; group actions; Sylow's theorems; rigorous review of rings; ideals, ring homomorphisms, quotient rings; polynomial rings; vector spaces and linear transformations; basic field theory; serves as a bridge between MATH:3720 and MATH:5000. Prerequisites: MATH:3720. Requirements: MATH:3720 or graduate standing.
- MATH:4095 Rigorous Introduction to Module Theory and Galois Theory** 4 s.h.  
 Rigorous review of vector spaces and linear transformations; introduction to module theory, including finitely generated modules over principal ideal domains; rigorous introduction to field theory, including existence of algebraic closure and splitting fields; introduction to Galois theory, including solvability by radicals. Prerequisites: MATH:4090 or MATH:5000.
- MATH:4120 History of Mathematics** 3 s.h.  
 May include numerical systems; Babylonian, Egyptian, and Greek mathematics; mathematics of other cultures; calculus; 19th- and 20th-century mathematics. Prerequisites: (MATH:2700 or MATH:2550) and (MATH:1560 or MATH:1860). Requirements: two semesters of calculus and one semester of linear algebra.

- MATH:4200 Complex Variables** 3 s.h.  
Geometry of complex plane, analytic functions; Cauchy-Goursat theorem, applications; Laurent series, residues, elementary conformal mapping. Prerequisites: MATH:2850 or MATH:1560 or MATH:3750.
- MATH:4210 Foundations of Analysis** 4 s.h.  
Introduction to fundamental ideas of analysis; emphasis on understanding and constructing definitions, theorems, and proofs; real and complex numbers, set theory in metric spaces, compactness and connectedness, sequences, Cauchy sequences, series, and continuity; elements of differential and integral calculus; sequences and series of functions; modes of convergence; equicontinuity; serves as a bridge between MATH:3770 and MATH:5200. Prerequisites: MATH:3770. Requirements: MATH:3770 or graduate standing.
- MATH:4250 Introduction to Financial Mathematics** 3 s.h.  
Financial mathematics; option pricing and portfolio optimization, stochastic integration, methods due to Ito and Feynman-Kac, Monte-Carlo simulation. Prerequisites: MATH:2850 or STAT:3120.
- MATH:4500 Introduction to Differential Geometry I** 3 s.h.  
Space curves, Frenet frames, intrinsic and extrinsic geometry of surfaces, first and second fundamental forms, isometries, Gauss map, Gaussian curvature, Theorema Egregium, geodesics, covariant differentiation; may include global theory of curves and Gauss-bonnet theorem. Prerequisites: (MATH:3550 or MATH:2850) and (MATH:2700 or MATH:2550).
- MATH:4510 Introduction to Differential Geometry II** 3 s.h.  
Continuation of MATH:4500; geometry of surfaces in Euclidean space, Gauss-Bonnet theorem and its applications, minimal surfaces, abstract surfaces; may include Riemannian manifolds, connections, elementary Lie groups, applications of differential geometry to other disciplines (physics, engineering). Prerequisites: MATH:4500.
- MATH:4610 Continuous Mathematical Models** 3 s.h.  
Building and analyzing mathematical models involving differential equations for specific problems from engineering and the sciences; modeling project. Prerequisites: MATH:2560 or MATH:3600.
- MATH:4740 Large Data Analysis** 3 s.h.  
Current areas that deal with problem of big data; techniques from computer science, mathematics, statistics; high performance and parallel computing, matrix techniques, cluster analysis, visualization; variety of applications including Google PageRank, seismology, Netflix-type problems, weather forecasting; fusion of data with simulation; projects. Prerequisites: (CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-) and (MATH:3800 or CS:3700) and (STAT:3200 or ISE:3760 or IGPI:3200). Same as CS:4740, IGPI:4740, STAT:4740.
- MATH:4750 Introduction to Mathematical Biology** 3 s.h.  
Use and creation of mathematical models in biology, primarily those using continuous dynamical systems ordinary and partial differential equations; may include additional approaches (e.g., game theory, discrete models); modeling approaches—the model as representation—and canonical models in context of example systems drawn from a range of application areas including, but not limited to, neurobiology, electrophysiology, epidemiology, ecology, evolution, demography, and spatiotemporal pattern formation including morphogenesis. Prerequisites: MATH:3600 or MATH:2560.
- MATH:4820 Optimization Techniques** 3 s.h.  
Basic theory of optimization, use of numerical algorithms in solution of optimization problems; linear and nonlinear programming, sensitivity analysis, convexity, optimal control theory, dynamic programming, calculus of variations. Prerequisites: (MATH:2700 or MATH:2550) and (ME:4111 or MATH:3800 or CS:3700) and (MATH:1560 or MATH:2850). Same as CS:4720.
- MATH:4860 High Performance and Parallel Computing** 3 s.h.  
Parallel algorithms presented and implemented with different approaches and libraries (e.g., OpenMP, MPI); various platforms including Message Passing Clusters, Multicore and GPUs, MapReduce (Hadoop), and related current topics; scientific computing and large data analysis projects. Prerequisites: (CS:2210 with a minimum grade of C- or MATH:4050) and CS:2230 with a minimum grade of C-. Same as CS:4700.
- MATH:5000 Abstract Algebra I** 4 s.h.  
Groups and homomorphisms, Sylow Theorems, rings, finitely generated modules over a PID, Galois theory, vector spaces, linear transformations and matrices, canonical forms. Prerequisites: MATH:3720.
- MATH:5010 Abstract Algebra II** 4 s.h.  
Continuation of MATH:5000. Prerequisites: MATH:5000.
- MATH:5200 Introduction to Analysis I** 4 s.h.  
Real numbers, fundamentals of limits and continuity in the context of metric spaces; Lebesgue theory of functions of one real variable. Prerequisites: MATH:3770 or MATH:4210. Requirements: MATH:3770 or graduate standing.
- MATH:5210 Introduction to Analysis II** 4 s.h.  
Local theory of analytic functions of one complex variable, power series, classical transcendental functions; spaces of functions. Prerequisites: MATH:5200.
- MATH:5400 Fundamental Groups and Covering Spaces** 4 s.h.  
Homotopy, homotopy equivalence, homotopy extension property, fundamental group, Van Kampen's theorem, free products of groups, covering spaces, lifting properties, classification of covering spaces, deck transformations and group actions, cell complexes, applications to cell complexes, graphs and free groups; may include simplicial homology and point-set topology topics. Prerequisites: MATH:3770 or MATH:4210.
- MATH:5410 Introduction to Smooth Manifolds** 4 s.h.  
Calculus on smooth manifolds; smooth functions, mean value theorem, chain rule, smooth manifolds, tangent vectors, tangent spaces, inverse and implicit functions theorems, submersions and immersions, vector fields, flows, multilinear algebra, differential forms, Stokes theorem. Prerequisites: MATH:2700 and MATH:2850 and MATH:5400.

- MATH:5600 Nonlinear Dynamics with Numerical Methods** 4 s.h.  
Linear systems of differential equations (fundamental solutions, matrix exponentials, Floquet theory); nonlinear differential equations (theorem for existence and uniqueness, flows, attractors); local nonlinear theory (invariant manifolds, Hartman-Grobman theorem, Poincaré maps); global nonlinear theory (Poincaré-Bendixson criterion, Lyapunov functions, gradient systems, Hamiltonian systems); bifurcations (saddle-node, pitchfork, transcritical, Hopf); introduction to chaos theory (Lorenz equations); computational methods to solve numerically differential equations and to draw phase planes and trajectories. Prerequisites: MATH:3600 and (MATH:3770 or MATH:4210).
- MATH:5700 Introduction to Partial Differential Equations** 4 s.h.  
Diffusion, Laplace, and wave equations; scalar conservation laws; weak solutions and energy methods. Prerequisites: MATH:2850 and MATH:3600 and (MATH:3770 or MATH:4210).
- MATH:5750 Mathematical Biology I** 4 s.h.  
Topics in mathematical biology; canonical mathematical modeling and analysis of problems in the biological sciences; first of a two-semester sequence. Prerequisites: MATH:5600 and MATH:5700.
- MATH:5760 Mathematical Biology II** 4 s.h.  
Topics in mathematical biology; canonical mathematical modeling and analysis of problems in the biological sciences; second of a two-semester sequence. Corequisites: MATH:5600 and MATH:5700, if not taken as prerequisites.
- MATH:5800 Numerical Analysis: Nonlinear Equations and Approximation Theory** 4 s.h.  
Root finding for nonlinear equations; polynomial interpolation; polynomial approximation of functions; numerical integration. Prerequisites: MATH:2700 and (MATH:2850 or MATH:3550). Requirements: knowledge of computer programming. Same as CS:5710.
- MATH:5810 Numerical Analysis: Differential Equations and Linear Algebra** 4 s.h.  
Numerical methods for initial value problems for ordinary differential equations; direct and iterative methods for linear systems of equations; eigenvalue problems for matrices. Prerequisites: MATH:2700 and MATH:5800 and (MATH:2850 or MATH:3550) and (MATH:3600 or MATH:2560). Requirements: knowledge of computer programming. Same as CS:5720.
- MATH:5900 First-Year Graduate Seminar** 1 s.h.  
Introduction to mathematics graduate program. Requirements: first-year graduate standing in mathematics.
- MATH:5950 Qualifying Exam Preparation Seminars** 0 s.h.  
Exam preparation in pure and applied mathematics.
- MATH:6000 Introduction to Algebra I** 3 s.h.  
Abstract algebra: semigroups, groups, rings, integral domains, polynomial rings, division rings, fields, vector spaces, matrices, modules over rings, lattices, categories. Prerequisites: MATH:5010.
- MATH:6010 Introduction to Algebra II** 3 s.h.  
Continuation of MATH:6000. Prerequisites: MATH:6000.
- MATH:6200 Analysis I** 3 s.h.  
Lebesgue measure and integral, fundamental theorem of calculus, abstract measures and integration, Fubini's theorem, Radon-Nikodym theorem, Riesz representation theorem, L-p spaces. Prerequisites: MATH:5210.
- MATH:6210 Analysis II** 3 s.h.  
Hilbert space, Banach space techniques; Hahn-Banach theorem, open mapping theorem, principle of uniform boundedness; reflexivity, H-p spaces, Paley-Wiener theorem, space of functions analytic on the open unit disk. Prerequisites: MATH:6200.
- MATH:6400 Algebraic Topology** 3 s.h.  
Singular homology, relative homology, homotopy invariance, exact sequences and excision, cellular homology, Mayer-Vietoris sequences, homology with coefficients, axioms for homology, Hurewicz theorem, cohomology groups, universal coefficient theorem, cup product, cohomology ring, fundamental class, Poincaré duality. Prerequisites: MATH:5400.
- MATH:6410 Introduction to Differential Topology** 3 s.h.  
Manifolds, functions: tangent bundle, Morse-Sard theorem, transversality, submanifolds, tubular neighborhoods, normal bundles, vector fields, degree and intersection theory, fixed-point theory, Morse theory. Prerequisites: MATH:5410.
- MATH:6500 Differential Geometry I** 3 s.h.  
Differentiable manifolds, forms, tensors, Riemannian metrics, isometries, connections, geodesics, curvature, related topics. Prerequisites: MATH:5410.
- MATH:6510 Differential Geometry II** 3 s.h.  
Continuation of MATH:6500; varied topics, may include study of existence and uniqueness of solutions to differential equations and systems related to geometry, indefinite metrics, Lie groups, attributes of manifolds with particular curvature properties, global Riemannian geometry, Kähler geometry, applications of differential geometry to other disciplines. Prerequisites: MATH:6500.
- MATH:6600 Ordinary Differential Equations I** 3 s.h.  
Existence, uniqueness, continuous dependence of solutions to initial value problems, variational calculus, Lagrangian and Hamiltonian systems, differential inequalities, perturbation theory, normal forms, invariant manifolds, KAM theory, bifurcation theory, boundary value problems. Prerequisites: MATH:5210.
- MATH:6610 Ordinary Differential Equations II** 3 s.h.  
Continuation of MATH:6600. Prerequisites: MATH:6600.
- MATH:6700 Partial Differential Equations I** 3 s.h.  
Elliptic equations; potential theory, maximum principle, a priori estimate, Dirichlet problem; initial value problem for parabolic equations; hyperbolic equations; Duhamel's principle, Cauchy problem; nonlinear equations, characteristics, canonical form, first-order systems. Prerequisites: MATH:5210.
- MATH:6710 Partial Differential Equations II** 3 s.h.  
Continuation of MATH:6700. Prerequisites: MATH:6700.
- MATH:6850 Theoretical Numerical Analysis I** 3 s.h.  
Theoretical foundations of numerical analysis, within framework of functional analysis; application areas including approximation theory, numerical methods for partial differential equations, integral equations; introduction to functional analysis. Prerequisites: MATH:5200 and MATH:5210 and MATH:5800 and MATH:5810.
- MATH:6860 Theoretical Numerical Analysis II** 3 s.h.  
Continuation of MATH:6850. Prerequisites: MATH:6850.
- MATH:7000 Homological Algebra** 2-3 s.h.  
Modules, tensor products, groups of homomorphisms, categories, functors, homology functors, projective and injective modules, derived functors, torsion and extension functors, homological dimension. Prerequisites: MATH:6010.

- MATH:7020 Algebraic Number Theory** 3 s.h.  
Topics include integral elements, integrally closed rings, algebraic extensions, norms and traces, the discriminant; number fields and some analogues in positive characteristic, global fields; class groups, unit groups; valuations and local fields; adèle ring and idele group attached to global fields; L-functions (including the Riemann zeta function) and class number formulas. Prerequisites: MATH:5000 and MATH:5010.
- MATH:7030 Topics in Algebra** 2-3 s.h.  
May include algebraic number theory, groups, representation theory, algebras, ideal theory, lattice theory. Prerequisites: MATH:6010.
- MATH:7070 Seminar: Algebra** arr.
- MATH:7080 Seminar: Commutative Ring Theory** arr.
- MATH:7090 Seminar: Representation Theory** arr.
- MATH:7200 Functional Analysis I** 2-3 s.h.  
Locally convex topological vector spaces, duality, tensor products and nuclear spaces; Krein-Millman theorem, Choquet's theory; geometry of Banach spaces, nonlinear functional analysis; operators on Hilbert spaces, spectral theorem, algebras of operators. Prerequisites: MATH:6210.
- MATH:7210 Functional Analysis II** 2-3 s.h.  
Continuation of MATH:7200. Prerequisites: MATH:7200.
- MATH:7250 Topics in Analysis** 2-3 s.h.  
Measure theory, integration, general topology.
- MATH:7290 Seminar: Operator Theory** arr.
- MATH:7400 Current Geometry and Topology I** 3 s.h.  
Introduction to current topics in geometry and topology: Gromov-Witten theory, moduli spaces, Floer theory, mirror symmetry, geometric analysis, conformal geometry, knots and braids, topological data analysis, contact and symplectic topology, mapping class groups, categorification, Heegaard splittings of 3-manifolds, trisections of 4-manifolds, quantum topology, and Skein theory. Prerequisites: MATH:5400 and MATH:5410.
- MATH:7450 Current Geometry and Topology II** 2-3 s.h.  
Introduction to current topics in geometry and topology: Gromov-Witten theory, moduli spaces, Floer theory, mirror symmetry, geometric analysis, conformal geometry, knots and braids, topological data analysis, contact and symplectic topology, mapping class groups, categorification, Heegaard splittings of 3-manifolds, trisections of 4-manifolds, quantum topology, and Skein theory. Prerequisites: MATH:5400 and MATH:5410.
- MATH:7470 Seminar: Topology** arr.
- MATH:7570 Seminar: Differential Geometry** arr.
- MATH:7580 Seminar: Mathematical Physics** arr.
- MATH:7630 Topics in Mathematical Biology** 2-3 s.h.  
Application of mathematics to biology.
- MATH:7660 Seminar: Nonlinear Dynamics and Differential Equations** arr.
- MATH:7670 Seminar: Mathematical Biology** arr.
- MATH:7730 Topics in Partial Differential Equations** 2-3 s.h.  
Regularity theory, nonlinear analysis in partial differential equations, fluid dynamics, harmonic analysis, conservation laws, other topics.
- MATH:7770 Seminar: Partial Differential Equations** arr.
- MATH:7830 Topics in Applied Mathematics** arr.  
Application of mathematics to other disciplines.
- MATH:7870 Seminar: Numerical Analysis** arr.
- MATH:7990 Reading Research** arr.

# Mathematics, B.A.

Bachelor of Arts students majoring in mathematics enroll in one of three programs: Program A is for students who plan to work in business or government or pursue graduate study in mathematics; Program B is for students who seek secondary school teaching licensure; and Program C is for those seeking specialization in a math-related area, such as actuarial science, biomathematics, biostatistics, business, computer science, economics, engineering, finance, physics, statistics, and so forth. Program C may be especially appropriate for students who plan to seek a math-related job after earning a bachelor's degree, rather than going on to graduate study.

## Learning Outcomes

Math majors will be able to demonstrate the ability to:

- give correct, logical mathematical proofs using mathematical terminology and hypotheses;
- reason logically and quantitatively using algebraic, analytic, and numerical methods;
- incorporate mathematical ideas and reasoning into well-written English; and
- model and analyze problems in pure mathematics and in other disciplines.

## B.A. with Second Major

Students majoring in mathematics may choose to earn a second major in computer science, statistics, actuarial science, or other disciplines. They must satisfy all requirements of Program A, Program B, or Program C in mathematics as well as all requirements for the second major. For more information, consult an advisor and see Declaring or Changing a Major on the College of Liberal Arts and Sciences website.

## Transfer from Engineering to Mathematics

Certain engineering students who have completed MATH:1550 Engineering Mathematics I: Single Variable Calculus, MATH:1560 Engineering Mathematics II: Multivariable Calculus, MATH:2550 Engineering Mathematics III: Matrix Algebra, MATH:2560 Engineering Mathematics IV: Differential Equations, or MATH:3550 Engineering Mathematics V: Vector Calculus may count these courses toward the major in mathematics. See the Department of Mathematics website.

### Requirements

The Bachelor of Arts with a major in mathematics requires a minimum of 120 s.h., including at least 38-48 s.h. (11-12 courses) of work for the major. Total credit for the major depends on a student's choice of Program A, B, or C. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

All students complete the post-calculus mathematics requirement, the upper-level mathematics requirement, and the requirements for Program A, B, or C.

For policies concerning transfer credit, correspondence credit, credit by examination, cumulative grade-point average, general rules relating to regression and duplication, and so

forth, see For Undergraduate Students on the College of Liberal Arts and Sciences website.

For information about duplication, regression, and use of the second-grade-only option for mathematics courses, contact the Department of Mathematics or visit the Department of Mathematics website. The website also provides details about schedule planning and career options for mathematics students. For more information on admission, financial support, employment opportunities, the faculty, facilities, and other topics, visit the Department of Mathematics or the University of Iowa website.

The B.A. with a major in mathematics (Program A, B, or C) requires the following coursework.

Code	Title	Hours
Program Requirements (semester hours vary in Program A, B, or C selection)		38-48
<b>Total Hours</b>		<b>38-48</b>

## Post-Calculus Mathematics Requirement

Students majoring in mathematics must earn at least 15 s.h. in post-calculus mathematical sciences courses offered by the University of Iowa; students may not count transfer courses or credit by exam toward this requirement. At least 12 s.h. of the required 15 s.h. in post-calculus courses must be earned in Department of Mathematics courses (prefix MATH) or in courses cross-listed with the department.

Post-calculus courses in the Department of Mathematics are numbered 2000 or above, excluding these:

Code	Title	Hours
MATH:3700	Introduction to Matrix Theory	3
MATH:3750	Classical Analysis	4
MATH:3995	Topics in Mathematics	3
MATH:3996	Individual Study and Honors in Mathematics	arr.
MATH:3997	Readings in Mathematics	arr.
MATH:4010	Basic Analysis	3
MATH:4020	Basic Abstract Algebra	3

Post-calculus courses offered by the Department of Computer Science and the Department of Statistics and Actuarial Science must have a calculus prerequisite.

## Upper-Level Mathematics Requirement

Majors must take at least one upper-level mathematics course for the B.A. degree. Upper-level mathematics courses include MATH:3900 Introduction to Mathematics Research and courses numbered 4000 or above, excluding these:

Code	Title	Hours
MATH:4010	Basic Analysis	3
MATH:4020	Basic Abstract Algebra	3
MATH:4120	History of Mathematics	3

No courses from other departments can be counted as upper-level mathematics courses unless they are cross-listed with an upper-level mathematics course (prefix MATH).

## Program A

Program A is primarily for students who plan to work in business or government or to pursue graduate study in mathematics.

### Program A: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit granted through the Mathematics Incentive Program are accepted for all or part of the calculus requirement.

Students complete the following core courses.

Code	Title	Hours
MATH:1850 & MATH:1860	Calculus I-II	8
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3600	Introduction to Ordinary Differential Equations	3
MATH:3720	Introduction to Abstract Algebra I	4
MATH:3770	Fundamental Properties of Spaces and Functions I	4

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

### Program A: Electives

Students complete four electives (12-16 s.h.), including at least one upper-level mathematics course.

#### Mathematics

Students may choose from mathematics courses numbered MATH:2150 Foundations of Geometry, MATH:3800 Elementary Numerical Analysis or courses above MATH:3800, excluding MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra.

#### Computer Science

Students may choose computer science courses numbered CS:1210 through CS:4740, excluding CS:3210 Programming Languages and Tools, CS:3910 Informatics Project, CS:3980 Topics in Computer Science I, and CS:3990 Honors in Computer Science or Informatics.

#### Statistics and Actuarial Science

Students may choose statistics courses numbered STAT:2020 Probability and Statistics for the Engineering and Physical Sciences, STAT:3100 through STAT:4740, STAT:5100 through STAT:5120, excluding STAT:3510 Biostatistics, STAT:4143 Introduction to Statistical Methods, and STAT:4200 Statistical Methods and Computing.

Among the courses listed above, only one of the following three courses, STAT:2020, STAT:3100, or STAT:3120 can be counted; although none of these courses can be counted if taken after STAT:4100.

Students may choose actuarial science courses numbered ACTS:3080 Mathematics of Finance I and ACTS:4130 through ACTS:4380.

Consult the Department of Mathematics website for a complete list of electives in computer science, and statistics and actuarial science.

## Program B

Program B is intended for students seeking secondary school teaching licensure. Students who wish to earn teaching licensure in addition to earning a Bachelor of Arts with a major in mathematics also must complete the Teacher Education Program (TEP); see "Teacher Licensure" below.

### Program B: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit earned through the Mathematics Incentive Program are accepted for part or all of the calculus requirement. Students complete the following core courses.

Code	Title	Hours
MATH:1850 & MATH:1860	Calculus I-II	8
MATH:2150	Foundations of Geometry	3
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3720	Introduction to Abstract Algebra I	4
MATH:3770	Fundamental Properties of Spaces and Functions I	4
MATH:4050 or MATH:4060	Introduction to Discrete Mathematics Discrete Mathematical Models	3
CS:1210	Computer Science I: Fundamentals	4
STAT:3120	Probability and Statistics	4

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

### Program B: Electives

Students in Program B must take at least one additional Department of Mathematics post-calculus course (3-4 s.h.). The post-calculus courses must be chosen avoiding duplication and regression with the core mathematics courses, particularly when engineering mathematics courses are considered. With the department's approval, capable students are encouraged to substitute more advanced courses in the same subject area for any of the electives. The Department of Mathematics website offers advice on course selection.

### Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Students who wish to earn teacher licensure should choose Program B; see "Program B" above.

## Program C

Program C enables students to specialize in a mathematics-related subtrack, such as the mathematics of making optimal business decisions, risk management and insurance, economics, finance, physics, chemistry, biostatistics, biomathematics, computer science, statistics and actuarial science, or all departments within the College of Engineering. In consultation with the faculty advisor, students build on the Program C core to prepare a subtrack plan of study tailor-made to their interests and academic or career goals. The proposed study plan must be approved by the Department of Mathematics.

Students must file their subtrack plan of study before they begin their senior year; they use the Program C Plan of Study form, available at the Department of Mathematics website. The website has templates for choosing electives in several areas; students may use these or propose other plans.

### Program C: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit earned through the Mathematics Incentive Program are accepted for part or all of the calculus requirement. Students complete the following core mathematics courses.

Code	Title	Hours
MATH:1850 & MATH:1860	Calculus I-II	8
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
One additional "proofs" course such as MATH:3720 or MATH:3770		4

Some subtracks require additional core courses from other departments; consult the Department of Mathematics website. Additional non-math core courses count toward electives (see "Program C: Electives" below). Students who specialize in engineering should consult the Department of Mathematics website.

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

### Program C: Electives

Students choose six or seven electives beyond the core math courses, depending on their subtrack. All electives must be offered for 3-4 s.h. of credit. At least three of the electives must be offered by the Departments of Computer Science, Mathematics, and Statistics and Actuarial Science (prefixes CS, MATH, and STAT or ACTS). At least two of the three electives must be post-calculus mathematics courses (prefix MATH). All B.A. students must take 15 s.h. of post-calculus mathematics courses at the University of Iowa and at least one upper-level mathematics course; see "Post-Calculus Mathematics Requirement" and "Upper-Level Mathematics Requirement" above.

Some subtracks require additional core courses from other departments (see "Program C: Core Courses" above); the additional non-math core courses count toward electives. For a list of suggested subtracks and restrictions on electives in each subtrack, consult the Department of Mathematics website.

## Combined Programs

### B.A./M.A.T. (Mathematics Education Subprogram)

The College of Liberal Arts and Sciences and the College of Education offer students the opportunity to earn their Bachelor of Arts/Master of Arts in Teaching degree with a mathematics education subprogram in as little as five years. Students can begin work toward the M.A.T. while completing their bachelor's degree. The combined program allows students to count a limited amount of credit toward both the B.A. and M.A.T. degree requirements.

Separate application to each program is required. For more information, see "Mathematics Education" in the Master of Arts in Teaching, M.A.T. [p. 1442] (College of Education) section in the Catalog.

### B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in mathematics who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

### B.A./M.S. in Finance

Students majoring in mathematics who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) section in the Catalog.

## Honors

### Honors in the Major

Students majoring in mathematics have the opportunity to graduate with honors in the major. Students must maintain a cumulative University of Iowa g.p.a. of at least 3.33, as required by the College of Liberal Arts and Sciences; additionally, students must complete all requirements for the major and must maintain a cumulative g.p.a. of at least 3.40 in the major, a g.p.a. set by the Department of Mathematics.

To graduate with honors in the major, students also must complete one of the options below.

## Option 1

Students complete four of the courses below, including a two-course sequence; and at least one 5000 level course, with a B average for the four courses.

Code	Title	Hours
MATH:3900	Introduction to Mathematics Research	3
MATH:4090	A Rigorous Introduction to Abstract Algebra	4
MATH:4210	Foundations of Analysis	4
MATH:4610	Continuous Mathematical Models	3
MATH:4750	Introduction to Mathematical Biology	3
MATH:4820	Optimization Techniques	3
MATH:5000 & MATH:5010	Abstract Algebra I-II	8
MATH:5200 & MATH:5210	Introduction to Analysis I-II	8
MATH:5400 & MATH:5410	Fundamental Groups and Covering Spaces - Introduction to Smooth Manifolds	8
MATH:5600 & MATH:5700	Nonlinear Dynamics with Numerical Methods - Introduction to Partial Differential Equations	8
MATH:5750 & MATH:5760	Mathematical Biology I-II	8
MATH:5800 & MATH:5810	Numerical Analysis: Nonlinear Equations and Approximation Theory - Numerical Analysis: Differential Equations and Linear Algebra	8
Mathematics courses (prefix MATH) numbered 6000 or above, to be approved by the mathematics honors advisor in advance		
<b>Total Hours</b>		<b>68</b>

## Option 2

Students complete an honors project comparable to taking several of the courses above, approved by the mathematics honors advisor and the thesis supervisor. Students who choose this option typically register for MATH:3996 Individual Study and Honors in Mathematics for 3 s.h. or more. They must find a faculty member willing to supervise their project; contact the department for help finding a project supervisor. Contact the Department of Mathematics honors advisor for more information.

It is recommended that students who earn honors in mathematics pursue the B.S. degree.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program. Honors in mathematics is awarded by the Department of Mathematics and is separate from the University of Iowa Honors Program.

Membership in the UI Honors Program is not required to earn honors in the mathematics major. However, honors in mathematics can be applied toward UI Honors Program requirements.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Many mathematics courses must be taken in sequence, so students must begin major requirements as early as possible, and individual plans of study must be constructed carefully. The major typically requires 11 or 12 courses. Students must choose Program A, B, or C by the end of the third semester and must remain in their chosen program until they graduate in order to stay on track for the four-year graduation plan.

**Before the third semester begins:** coursework in the major through second-semester calculus.

**Before the fifth semester begins:** two or three more courses in the major.

**Before the seventh semester begins:** three or four more courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** two or three more courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

**Hours 15**

### Spring

Major: required post-calculus math elective course <sup>f</sup>	3
Elective course <sup>c, e</sup>	3

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)

**Hours 15**

**Total Hours 123-129**

- a Enrollment in math courses requires completion of a placement exam.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- e Electives may also be used to complete additional hours in the major up to a total of 56 s.h.
- f Students must earn at least 15 s.h. in post-calculus mathematical sciences courses offered by the University of Iowa. Post-calculus courses are numbered 2000 or above, excluding: MATH:3700, MATH:3750, MATH:3995, MATH:3996, MATH:3997, MATH:4010, and MATH:4020. Required mathematical electives must include at least one upper-level math course (prefix MATH). Some statistics, actuarial science and computer sciences courses can be included among post-calculus electives only. See advisor for list of acceptable courses in MATH, STAT, ACTS, and CS.
- g Required mathematical electives must include at least one upper-level math course. These include: MATH:3900 and math courses (MATH prefix) numbered 4000 and higher, but not MATH:4010, MATH:4020 and MATH:4120. Each upper-level math course is offered at most once per year; choose when to complete the upper-level requirement according to spring or fall offerings for desired courses.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

## Program B

Course	Title	Hours
<b>Academic Career</b>		
<b>Any Semester</b>		

Program B is intended for students seeking secondary school teaching licensure. Completion of mathematics (program B) BA, Teacher Education Program, and all general education requirements exceeds the minimum 120 s.h. required for graduation. Students should expect to take higher than average number of semester hours per term, take summer classes, and/or extend graduation time frame beyond four years.

Admission to the Teacher Education Program, College of Education, is by competitive application. For information about application requirements, process, and deadlines, please consult an advisor for the College of Education.

**Hours 0**

**First Year****Fall**

RHET:1030 or ENGL:1200	Rhetoric or The Interpretation of Literature	3 - 4

Degree Application: apply on MyUI before deadline  
(typically in February for spring, September for fall)<sup>j</sup>

Exam: edTPA<sup>k</sup>

**Hours** **15**

**Total Hours** **126-133**

- a Required for admission into the Teacher Education Program.
- b Enrollment in math courses requires completion of a placement exam.
- c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- d Complete the College of Education verification of 10 hour field experience form available on the Office of Student Services web page.
- e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- f Please see the College of Education website for detailed application instructions and deadlines. Admission is selective and a priority deadline exists.
- g Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
- h Students must complete MATH:4050, a fall-only course, or MATH:4060, a spring-only course.
- i Post-calculus courses are numbered 2000 or above, excluding: MATH:3700, MATH:3750, MATH:3995, MATH:3996, MATH:3997, MATH:4010, and MATH:4020.
- j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.
- k As a requirement for completion of an approved Teacher Education Program for initial teaching licensure, the state of Iowa requires a passing score on this exam. The assessment is required before recommendation for licensure or certification to any state.

# Mathematics, B.S.

Bachelor of Science students majoring in mathematics enroll in one of three programs: Program A is for students who plan to work in business or government or pursue graduate study in mathematics; Program B is for students who seek secondary school teaching licensure; and Program C is for those seeking specialization in a mathematics-related area, such as actuarial science, biomathematics, biostatistics, business, computer science, economics, engineering, finance, physics, statistics, and so forth. Program C may be especially appropriate for students who plan to seek a mathematics-related job after earning a bachelor's degree, rather than going on to graduate study.

## Learning Outcomes

Math majors will be able to demonstrate the ability to:

- give correct, logical mathematical proofs using mathematical terminology and hypotheses;
- reason logically and quantitatively using algebraic, analytic, and numerical methods;
- incorporate mathematical ideas and reasoning into well-written English; and
- model and analyze problems in pure mathematics and in other disciplines.

## B.S. with Second Major

Students majoring in mathematics may choose to earn a second major in computer science, statistics, actuarial science, or other disciplines. They must satisfy all requirements of Program A, Program B, or Program C in mathematics as well as all requirements for the second major. For more information, consult an advisor and see Declaring or Changing a Major on the College of Liberal Arts and Sciences website.

## Transfer from Engineering to Mathematics

Certain engineering students who have completed MATH:1550 Engineering Mathematics I: Single Variable Calculus, MATH:1560 Engineering Mathematics II: Multivariable Calculus, MATH:2550 Engineering Mathematics III: Matrix Algebra, MATH:2560 Engineering Mathematics IV: Differential Equations, or MATH:3550 Engineering Mathematics V: Vector Calculus may count these courses toward the major in mathematics. See the Department of Mathematics website.

### Requirements

The Bachelor of Science with a major in mathematics requires a minimum of 120 s.h., including at least 44-56 s.h. (13-14 courses) of work for the major. Total credit for the major depends on a student's choice of Program A, B, or C. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

All students complete the post-calculus mathematics requirement, the upper-level mathematics requirement, and the requirements for Program A, B, or C.

For policies concerning transfer credit, correspondence credit, credit by examination, cumulative grade-point average, general rules relating to regression and duplication, and so

forth, see For Undergraduate Students on the College of Liberal Arts and Sciences website.

For information about duplication, regression, and use of the second-grade-only option for mathematics courses, contact the Department of Mathematics or visit the Department of Mathematics website. The website also provides details about schedule planning and career options for mathematics students. For more information on admission, financial support, employment opportunities, the faculty, facilities, and other topics, visit the Department of Mathematics or the University of Iowa website.

The B.S. with a major in mathematics (Program A, B, or C) requires the following coursework.

Code	Title	Hours
Program Requirements (semester hours vary in Program A, B, or C selection)		44-56
<b>Total Hours</b>		<b>44-56</b>

## Post-Calculus Mathematics Requirement

Students majoring in mathematics must earn at least 15 s.h. in post-calculus mathematical sciences courses offered by the University of Iowa; students may not count transfer courses or credit by exam toward this requirement. At least 12 s.h. of the required 15 s.h. in post-calculus courses must be earned in Department of Mathematics courses (prefix MATH) or in courses cross-listed with the department.

Post-calculus courses in the Department of Mathematics are numbered 2000 or above, excluding these:

Code	Title	Hours
MATH:3700	Introduction to Matrix Theory	3
MATH:3750	Classical Analysis	4
MATH:3995	Topics in Mathematics	3
MATH:3996	Individual Study and Honors in Mathematics	arr.
MATH:3997	Readings in Mathematics	arr.
MATH:4010	Basic Analysis	3
MATH:4020	Basic Abstract Algebra	3

Post-calculus courses offered by the Department of Computer Science, and the Department of Statistics and Actuarial Science must have a calculus prerequisite.

## Upper-Level Mathematics Requirement

Mathematics majors must take at least two upper-level mathematics courses (three in Program A) for the B.S. degree. Upper-level mathematics courses include MATH:3900 Introduction to Mathematics Research and courses numbered 4000 or above, excluding these:

Code	Title	Hours
MATH:4010	Basic Analysis	3
MATH:4020	Basic Abstract Algebra	3
MATH:4120	History of Mathematics	3

No courses from other departments can be counted as upper-level mathematics courses, unless they are cross-listed with an upper-level mathematics course (prefix MATH).

## Program A

Program A is primarily for students who plan to work in business or government or to pursue graduate study in mathematics.

### Program A: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit granted through the Mathematics Incentive Program are accepted for all or part of the calculus requirement.

Students complete the following core courses.

Code	Title	Hours
MATH:1850 & MATH:1860	Calculus I-II	8
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3600	Introduction to Ordinary Differential Equations	3
MATH:3720	Introduction to Abstract Algebra I	4
MATH:3770	Fundamental Properties of Spaces and Functions I	4

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

### Program A: Electives

Students complete six electives (18-24 s.h.), including at least three upper-level mathematics courses.

#### Mathematics

Students may choose from mathematics courses numbered MATH:2150 Foundations of Geometry, MATH:3800 Elementary Numerical Analysis or courses above MATH:3800, excluding MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra.

#### Computer Science

Students may choose computer science courses numbered CS:1210 through CS:4740, excluding CS:3210 Programming Languages and Tools, CS:3910 Informatics Project, CS:3980 Topics in Computer Science I, and CS:3990 Honors in Computer Science or Informatics.

#### Statistics and Actuarial Science

Students may choose statistics courses numbered STAT:2020 Probability and Statistics for the Engineering and Physical Sciences, STAT:3100 through STAT:4740, STAT:5100 through STAT:5120, excluding STAT:3510 Biostatistics, STAT:4143 Introduction to Statistical Methods, and STAT:4200 Statistical Methods and Computing.

Among the courses listed above, only one of the following three courses, STAT:2020, STAT:3100, or STAT:3120 can be counted; although none of these courses can be counted if taken after STAT:4100.

Students may choose actuarial science courses numbered ACTS:3080 Mathematics of Finance I and ACTS:4130 through ACTS:4380.

Consult the Department of Mathematics website for a complete list of electives in computer science, and statistics and actuarial science.

## Program B

Program B is intended for students seeking secondary school teaching licensure. Students who wish to earn teaching licensure in addition to earning a Bachelor of Science with a major in mathematics also must complete the Teacher Education Program (TEP); see "Teacher Licensure" below.

### Program B: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit earned through the Mathematics Incentive Program are accepted for part or all of the calculus requirement. Students complete the following core courses.

Code	Title	Hours
MATH:1850 & MATH:1860	Calculus I-II	8
MATH:2150	Foundations of Geometry	3
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3720	Introduction to Abstract Algebra I	4
MATH:3770	Fundamental Properties of Spaces and Functions I	4
MATH:4050 or MATH:4060	Introduction to Discrete Mathematics Discrete Mathematical Models	3
CS:1210	Computer Science I: Fundamentals	4
STAT:3120	Probability and Statistics	4

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

### Program B: Electives

Students in Program B must take at least three additional Department of Mathematics post-calculus courses (9-12 s.h.), including two chosen from MATH:3900 Introduction to Mathematics Research and courses numbered 4000 or above, excluding MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra. The post-calculus courses must be chosen avoiding duplication and regression with the core math courses, particularly when engineering mathematics courses are considered. With the department's approval, capable students are encouraged to substitute more advanced courses in the same subject area for any of the electives. The Department of Mathematics website offers advice on course selection.

### Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Students who wish to earn teacher licensure should choose Program B; see "Program B" above.

## Program C

Program C enables students to specialize in a mathematics-related subtrack, such as the mathematics of making optimal business decisions, risk management and insurance, economics, finance, physics, chemistry, biostatistics, biomathematics, computer science, statistics and actuarial science, or all departments within the College of Engineering. In consultation with the faculty advisor, students build on the Program C core to prepare a subtrack plan of study tailor-made to their interests and academic or career goals. The proposed study plan must be approved by the Department of Mathematics.

Students must file their subtrack plan of study before they begin their senior year; they use the Program C Plan of Study form, available at the Department of Mathematics website. The website has templates for choosing electives in several areas; students may use these or propose other plans.

### Program C: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit earned through the Mathematics Incentive Program are accepted for part or all of the calculus requirement. Students complete the following core math courses.

Code	Title	Hours
MATH:1850 & MATH:1860	Calculus I-II	8
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
One additional "proofs" course such as MATH:3720 or MATH:3770		4

Some subtracks require additional core courses from other departments; consult the Department of Mathematics website. Additional non-math core courses count toward electives (see "Program C: Electives" below). Students who specialize in engineering should consult the Department of Mathematics website.

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

### Program C: Electives

Students choose eight or nine approved electives. All electives must be offered for 3-4 s.h. of credit. At least three of the electives must be post-calculus mathematics courses (prefix MATH). All B.S. mathematics majors must take 15 s.h. of post-calculus mathematics courses at the University of Iowa and at least two upper-level mathematics courses; see "Post-Calculus Mathematics Requirement" and "Upper-Level Mathematics Requirement" above.

Some subtracks require additional core courses from other departments (see "Program C: Core Courses" above); the additional non-math core courses count toward electives. For a list of suggested subtracks and restrictions on electives in each subtrack, consult the Department of Mathematics website.

## Combined Programs

### B.S./M.S. in Business Analytics (Career Subprogram)

Students majoring in mathematics who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

### B.S./M.S. in Finance

Students majoring in mathematics who are interested in earning a master's degree in finance may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) section of the Catalog.

## Honors

### Honors in the Major

Students majoring in mathematics have the opportunity to graduate with honors in the major. Students must maintain a cumulative University of Iowa g.p.a. of at least 3.33, as required by the College of Liberal Arts and Sciences; additionally, students must maintain a cumulative g.p.a. of at least 3.40 in the major, a g.p.a. set by the Department of Mathematics.

To graduate with honors in the major, students also must complete one of the options below.

#### Option 1

Students complete four of the courses below, including a two-course sequence; and at least one 5000 level course, with a B average for the four courses.

Code	Title	Hours
MATH:3900	Introduction to Mathematics Research	3
MATH:4090	A Rigorous Introduction to Abstract Algebra	4
MATH:4210	Foundations of Analysis	4
MATH:4610	Continuous Mathematical Models	3
MATH:4750	Introduction to Mathematical Biology	3

MATH:4820	Optimization Techniques	3
MATH:5000 & MATH:5010	Abstract Algebra I-II	8
MATH:5200 & MATH:5210	Introduction to Analysis I-II	8
MATH:5400 & MATH:5410	Fundamental Groups and Covering Spaces - Introduction to Smooth Manifolds	8
MATH:5600 & MATH:5700	Nonlinear Dynamics with Numerical Methods - Introduction to Partial Differential Equations	8
MATH:5750 & MATH:5760	Mathematical Biology I-II	8
MATH:5800 & MATH:5810	Numerical Analysis: Nonlinear Equations and Approximation Theory - Numerical Analysis: Differential Equations and Linear Algebra	8

Mathematics courses (prefix MATH) numbered 6000 or above, to be approved by the mathematics honors advisor in advance

**Total Hours** **68**

## Option 2

Students complete an honors project comparable to taking several of the courses above, approved by the mathematics honors advisor and the thesis supervisor. Students who choose this option typically register for MATH:3996 Individual Study and Honors in Mathematics for 3 s.h. or more. They must find a faculty member willing to supervise their project; contact the department for help finding a project supervisor. Contact the Department of Mathematics honors advisor for more information.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program. Honors in mathematics is awarded by the Department of Mathematics and is separate from the University of Iowa Honors Program.

Membership in the UI Honors Program is not required to earn honors in the mathematics major. However, honors in mathematics can be applied toward UI Honors Program requirements.

### Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the

major are those required to complete the major; they may be offered by departments other than the major department.

Many mathematics courses must be taken in sequence, so students must begin major requirements as early as possible, and individual plans of study must be constructed carefully. The major typically requires 13 or 14 courses. Students must choose Program A, B, or C by the end of the third semester and must remain in their chosen program until they graduate in order to stay on track for the four-year graduation plan.

**Before the third semester begins:** coursework in the major through second-semester calculus.

**Before the fifth semester begins:** three or four more courses in the major.

**Before the seventh semester begins:** three or four more courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** two or three more courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Mathematics, B.S.

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)<sup>g</sup>

<b>Hours</b>	<b>15</b>
<b>Total Hours</b>	<b>123-131</b>

- a Enrollment in math courses requires completion of a placement exam.
- b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- e Students must earn at least 15 s.h. in post-calculus mathematical sciences courses offered by the University of Iowa. Post-calculus courses are numbered 2000 or above, excluding: MATH:3700, MATH:3750, MATH:3995, MATH:3996, MATH:3997, MATH:4010, and MATH:4020. Required mathematical electives must include at least three upper-level math courses (prefix MATH). Some statistics, actuarial science and computer sciences courses can be included among post-calculus electives only. See advisor for list of acceptable courses in MATH, STAT, ACTS, and CS.
- f Required mathematical electives must include at least three upper-level math courses. These include: MATH:3900 and math courses (MATH prefix) numbered 4000 and higher, but not MATH:4010, MATH:4020 and MATH:4120. Each upper-level math course is offered at most once per year; choose when to complete the upper-level requirement according to spring or fall offerings for desired courses.
- g Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

**Program B**

Course	Title	Hours
--------	-------	-------

**Academic Career****Any Semester**

Program B is intended for students seeking secondary school teaching licensure.

Completion of mathematics (program B) BS, Teacher Education Program, and all general education requirements exceeds the minimum 120 s.h. required for graduation. Students should expect to take higher than average number of semester hours per term, take summer classes, and/or extend graduation time frame beyond four years.

Admission to the Teacher Education Program, College of Education, is by competitive application. For information about application requirements, process, and deadlines, please consult an advisor for the College of Education.

GE CLAS Core: World Languages Second Level Proficiency or elective course<sup>c</sup> 4 - 5

Course(s) required for second degree - consult sample plan for BA in mathematics education 3  
10-hour pre-admission school field experience<sup>a, d</sup>

**Hours 14-16**

### Summer

GE CLAS Core: International and Global Issues<sup>e</sup> 3

GE CLAS Core: Natural Sciences without Lab<sup>e</sup> 3

Prepare materials for Teacher Education Program application (e.g. essays, letters of recommendation)<sup>f</sup>

**Hours 6**

### Second Year

#### Fall

MATH:2700 Introduction to Linear Algebra 4

MATH:2850 Calculus III 4

GE CLAS Core: World Languages Second Level Proficiency or elective course<sup>c</sup> 4 - 5

Course(s) required for second degree - consult sample plan for BA in mathematics education 3

Admission Application: apply to the Teacher Education Program<sup>f</sup>

**Hours 15-16**

#### Spring

MATH:2150 Foundations of Geometry<sup>g</sup> 3

GE CLAS Core: World Languages Fourth Level Proficiency or elective course<sup>c</sup> 4 - 5

GE CLAS Core: Social Sciences<sup>e</sup> 3

Course(s) required for second degree - consult sample plan for BA in mathematics education 6

**Hours 16-17**

#### Summer

GE CLAS Core: Natural Sciences with Lab<sup>e</sup> 4

**Hours 4**

### Third Year

#### Fall

MATH:3720 Introduction to Abstract Algebra I 4

MATH:4050 Introduction to Discrete Mathematics<sup>h</sup> 3

GE CLAS Core: Historical Perspectives<sup>e</sup> 3

Course(s) required for second degree, including a course that satisfies the GE CLAS Core Diversity and Inclusion area - consult sample plan for BA in mathematics education 6

**Hours 16**

#### Spring

MATH:3770 Fundamental Properties of Spaces and Functions I 4

STAT:3120 Probability and Statistics 4

Major: required post-calculus math elective course<sup>i</sup> 3 - 4

Course(s) required for second degree, including a course that satisfies the GE CLAS Core Values and Culture area - consult sample plan for BA in mathematics education 6

Apply for student teaching (see the College of Education website for application instructions and deadlines)

**Hours 17-18**

### Fourth Year

#### Fall

CS:1210 Computer Science I: Fundamentals 4

Major: required upper-level math elective course<sup>j</sup> 3 - 4

Major: required upper-level math elective course<sup>j</sup> 3 - 4

GE CLAS Core: Literary, Visual, and Performing Arts<sup>e</sup> 3

Course(s) required for second degree - consult sample plan for BA in mathematics education 3

**Hours 16-18**

#### Spring

Course(s) required for second degree - consult sample plan for BA in mathematics education 15

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)<sup>k</sup>

Exam: edTPA<sup>l</sup>

**Hours 15**

**Total Hours 132-141**

- a Required for admission into the Teacher Education Program.
- b Enrollment in math courses requires completion of a placement exam.
- c Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- d Complete the College of Education verification of 10 hour field experience form available on the Office of Student Services web page.
- e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- f Please see the College of Education website for detailed application instructions and deadlines. Admission is selective and a priority deadline exists.
- g Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
- h Students must complete MATH:4050, a fall-only course, or MATH:4060, a spring-only course.
- i Post-calculus courses are numbered 2000 or above, excluding: MATH:3700, MATH:3750, MATH:3995, MATH:3996, MATH:3997, MATH:4010, and MATH:4020.
- j Upper-level electives include MATH:3900 or any MATH prefix courses numbered 4040 or higher.
- k Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.
- l As a requirement for completion of an approved Teacher Education Program for initial teaching licensure, the state of Iowa requires a passing score on this exam. The assessment is required before recommendation for licensure or certification to any state.

# Mathematics, Minor

## Requirements

The undergraduate minor in mathematics requires a minimum of 15 s.h. of credit earned in mathematics courses. At least 12 of the 15 s.h. must be equivalent to post-calculus math courses (prefix MATH) offered by the Department of Mathematics; credit by examination does not count toward the 12 s.h. requirement. The mathematics course, MATH:1210 Diverse Perspectives in the Mathematical Sciences, does not count toward the minor. At least 9 of the 12 s.h. in post-calculus math courses must be taken at the University of Iowa. No more than one transfer course can be counted toward the post-calculus requirement.

Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Courses numbered 2000 or above are considered post-calculus, excluding these:

Code	Title	Hours
MATH:3700	Introduction to Matrix Theory	3
MATH:3750	Classical Analysis	4
MATH:3995	Topics in Mathematics	3
MATH:3996	Individual Study and Honors in Mathematics	arr.
MATH:3997	Readings in Mathematics	arr.
MATH:4010	Basic Analysis	3
MATH:4020	Basic Abstract Algebra	3

Post-calculus courses must be chosen to avoid duplication and regression with the core mathematics courses, particularly when the engineering mathematics courses are considered.

## Special Rules for Engineering

Students who have taken the engineering math courses—MATH:1560 Engineering Mathematics II: Multivariable Calculus, MATH:2550 Engineering Mathematics III: Matrix Algebra, MATH:2560 Engineering Mathematics IV: Differential Equations, and MATH:3550 Engineering Mathematics V: Vector Calculus—may satisfy the post-calculus requirement by taking an additional 3 s.h. course from the list below.

Substituting a 3 s.h. post-calculus math course (prefix MATH) for any of these—MATH:1560, MATH:2550, MATH:2560, or MATH:3550—is allowed as long as there is no regression or duplication.

At least four of these courses must be taken at the University of Iowa: MATH:1560, MATH:2550, MATH:2560, MATH:3550, or the additional 3 s.h. post-calculus math course; no more than one transfer course will count.

Students can choose the additional 3 s.h. course from MATH:2150 or from courses numbered MATH:3720 or above, excluding these:

Code	Title	Hours
MATH:3750	Classical Analysis	4
MATH:3995	Topics in Mathematics	3
MATH:3996	Individual Study and Honors in Mathematics	arr.
MATH:3997	Readings in Mathematics	arr.

MATH:4010	Basic Analysis	3
MATH:4020	Basic Abstract Algebra	3

For more information, see the Department of Mathematics website.

# Mathematics, M.S.

## Requirements

The Master of Science program in mathematics requires a minimum of 30 s.h. of graduate credit. Students earn the degree through courses and comprehensive examinations. There is no M.S. thesis. Requirements (courses and comprehensive examination areas) may be modified with the department's consent.

Four different programs (I, II, III, and IV) lead to the M.S. in mathematics.

### Program I

Program I prepares students for further study of pure and applied mathematics and for employment in government and business. Students in Program I take several courses and pass two comprehensive examinations. They must earn a grade of B-minus or higher in six of the courses and maintain a g.p.a. of at least 2.75 in all mathematics courses taken for the degree.

Program I requires the following courses.

Code	Title	Hours
MATH:5000 & MATH:5010	Abstract Algebra I-II	8
MATH:5200 & MATH:5210	Introduction to Analysis I-II	8
MATH:5400	Fundamental Groups and Covering Spaces	4
MATH:5410	Introduction to Smooth Manifolds	4
MATH:5600	Nonlinear Dynamics with Numerical Methods	4
MATH:5700	Introduction to Partial Differential Equations	4

The two comprehensive examinations are chosen from algebra, analysis, differential equations with numerical methods, and topology.

### Program II

Program II is designed for secondary school teachers. Program II requirements are similar to those for Programs I and III, but Program II students complete two mathematics education courses and a minimum of 24 s.h. in Department of Mathematics courses. The following courses may be used to satisfy the program II mathematics course requirements.

Code	Title	Hours
MATH:3600	Introduction to Ordinary Differential Equations	2-3

Mathematics courses (prefix MATH) numbered 4000 or above

Students are encouraged to consult with the mathematics education faculty when planning their course of study.

### Program III

Program III focuses on applied mathematics. Students in Program III take several courses and pass two comprehensive examinations. Students must earn a grade of B-minus or

higher in six of the courses and maintain a g.p.a. of at least 2.75 in all mathematics courses taken for the degree.

Program III requires the following courses.

Code	Title	Hours
All of these:		
MATH:5200 & MATH:5210	Introduction to Analysis I-II	8
MATH:5600	Nonlinear Dynamics with Numerical Methods	4
MATH:5700	Introduction to Partial Differential Equations	4
MATH:5800	Numerical Analysis: Nonlinear Equations and Approximation Theory	4
MATH:5810	Numerical Analysis: Differential Equations and Linear Algebra	4
Both courses in group A, or two courses from group B:		
Group A		
MATH:5400	Fundamental Groups and Covering Spaces	4
MATH:5410	Introduction to Smooth Manifolds	4
Group B		
MATH:4060	Discrete Mathematical Models	3
MATH:4610	Continuous Mathematical Models	3
MATH:4820	Optimization Techniques	3

The two comprehensive examinations are chosen from analysis, differential equations with numerical methods, numerical analysis, and topology.

### Program IV

Program IV is designed for nondepartmental students working toward a Ph.D. in areas of study that require mathematical knowledge. The program has no specific required courses.

Students in Program IV are considered to have passed the comprehensive examination for the master's degree in mathematics if they have maintained a g.p.a. of at least 3.00 in all mathematics courses taken for the M.S. in mathematics and have successfully completed the Ph.D. comprehensive examination in their area of study.

Students in Program IV are assigned a mathematics advisor, who works with them and their major advisor to plan an appropriate curriculum for the M.S. in mathematics. A suitable program of study should be approved by a mathematics advisor before the student takes the Ph.D. comprehensive examination, and a member of the mathematics faculty should serve on the Ph.D. comprehensive examination committee.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Applicants to the Ph.D. program have preference for admission and funding.

Admission to Programs I, II, and III is competitive and based on a combination of undergraduate coursework and grades,

letters of recommendation, and test scores. Numerical standards change every year or so; exceptions may be made to the following guidelines.

Applicants must have completed work in an undergraduate program equivalent to the major in mathematics offered by the University of Iowa Department of Mathematics with an undergraduate g.p.a. of at least 3.20. Relevance and difficulty of courses are considered when evaluating grades; grades of C or lower in mathematics courses must be balanced by grades of A. Individuals whose preparation does not meet this requirement may be admitted conditionally and are asked to take specific courses that cover deficiencies.

All applicants must submit three letters of recommendation.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL). English proficiency demonstrated by a score of at least 100 (internet-based) on TOEFL is expected. The International English Language Testing System (IELTS) with an overall score of 7 with no subscore less than 6 or the Duolingo English Test (DET) with a score of 105 or above also are accepted.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

# Mathematics, Ph.D.

## Requirements

The Doctor of Philosophy program in mathematics requires a minimum of 72 s.h. of graduate credit. Students must maintain a program g.p.a. of at least 3.00. The program places strong emphasis on preparation for research and teaching. The department maintains no division between pure and applied mathematics. It cooperates in interdisciplinary doctoral programs with the College of Education (see Teaching and Learning [p. 1387] in the Catalog) and the Program in Applied Mathematical and Computational Sciences [p. 1597].

Ph.D. students in mathematics must satisfy the following requirements for coursework (credits and breadth), examinations, foreign language, and the Ph.D. thesis.

Students must spend at least three years in residence at a graduate college, including at least one year at the University of Iowa. They also should enroll in specific courses designated as preparatory for the Ph.D. examinations; consult the Department of Mathematics graduate studies director.

To further encourage mathematical breadth, students must earn at least 33 s.h. of graduate credit in regular courses equivalent to or more advanced than Ph.D. comprehensive examination preparatory courses. For a list of accepted Department of Mathematics courses and rules to ensure proper distribution, contact the department.

The Ph.D. examinations consist of a qualifying exam and a comprehensive exam. Students choose three areas from the department's list of qualifying examination areas: algebra, analysis, differential equations with numerical methods, numerical analysis, and topology. For each qualifying area, there is a two-semester course sequence numbered 5000 or above that is designated as preparatory, although exams may differ from course content. Parts of the qualifying exam are taken over a two-week period. An exam committee gives one grade (pass, fail, conditional pass) on each part of the qualifying examination.

The Ph.D. comprehensive exam tests students on research-related topics. Candidates also take an oral final examination on their dissertation material.

Ph.D. students are required to demonstrate reading proficiency in French, German, or Russian by passing a reading test administered by the Department of Mathematics. Consult the department for details.

The most distinctive aspect of a Ph.D. is the thesis. The department expects the thesis to be an original mathematical work comparable in content and writing quality to that found in standard published research journals. The thesis is written under the supervision of a mathematics department faculty member and must be approved by the Ph.D. defense committee.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Applicants to the Ph.D. program have preference for admission and funding.

Admission to the Ph.D. program is competitive and based on a combination of undergraduate or graduate coursework and

grades, letters of recommendation, and test scores. Required scores on the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), and the Duolingo English Test (DET) are the same as those for admission to the M.S. program, but applicants to the Ph.D. program must have an undergraduate or graduate g.p.a. of at least 3.40.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

# Medieval Studies

## Chair

- Craig A. Gibson (Classics)

## Coordinator, Medieval Studies

- Michael E. Moore (History)

**Undergraduate certificate:** medieval studies

**Website:** <https://classics.uiowa.edu/undergraduate/certificate-medieval-studies>

Medieval studies is an interdisciplinary program designed to offer students an introduction to the history and culture of the Middle Ages and to provide them with the tools necessary to pursue a more advanced study in a number of disciplines, including languages and literatures, philosophy, history, and art history. The study of Medieval society provides a window to those centuries that span the end of the ancient world and the beginning of the modern era. During the Middle Ages, the development of Western heritage began in such areas as law, religion, philosophy, language, art, and music.

The Medieval Studies Program offers an undergraduate program of study and a selection of courses open to students in all majors.

## Programs

## Undergraduate Program of Study

### Certificate

- Certificate in Medieval Studies [p. 823]

## Courses

## Medieval Studies Courses

### **MDVL:3226 Literature and Culture of the Middle Ages** 3 s.h.

English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as ENGL:3226.

### **MDVL:3409 Medieval Civilization I** 3 s.h.

Europe from the decline of Roman empire to the eleventh century; cultural, political, economic, artistic and architectural foundations of Western civilization. Same as HIST:3409.

### **MDVL:3410 Medieval Civilization II** 3 s.h.

Europe from the eleventh century to the Italian Renaissance; cultural, political, economic, artistic, and architectural foundations of Western civilization. Same as HIST:3410.

### **MDVL:3423 Ireland in the Early Middle Ages** 3 s.h.

Ireland and the northern British islands 400-1000 C.E., a region of small kingdoms and thin population, lacking natural resources, far from Rome and ancient centers of Mediterranean culture; development of civilization, including monastic, legal, theological, and scholarly traditions that had a major impact on continental Europe; early medieval Irish history; introduction to the world of historical scholarship. Same as HIST:3423.

### **MDVL:4412 History of the Medieval Church** 3 s.h.

Development of Christianity to end of great schism; rise of Roman primacy, development of monasticism, orthodox and heterodox groups. Same as HIST:4412.

### **MDVL:4415 European Intellectual History Medieval to Modern** 3 s.h.

Long view of European intellectual life from Middle Ages to modern times; students learn about key thinkers of the medieval period before expanding focus to include Renaissance and Early Modern thinkers (e.g., Cusanus, Giordano Bruno, Vico); exploration of modern European philosophical and historiographical tradition—intertwining patterns of sociology, philosophy, and history including Hans Jonas, Hannah Arendt, and Ernst Cassirer; understanding these thinkers within broader context of European cultural and political history. Same as HIST:4415.

### **MDVL:4417 Medieval Intellectual History 300-1150** 3 s.h.

Philosophy, art, literature, religious culture of Europe from waning of classical intellectual modes of culture in late antiquity, to their recovery in 12th century. Same as HIST:4417.

### **MDVL:4418 Medieval Intellectual History 1150-1500** 3 s.h.

European philosophy, religion, literature, art from 12th-century rise of scholasticism; their transformation in period of Copernicus, Luther. Same as HIST:4418.

### **MDVL:4419 Ancient and Medieval Science** 3 s.h.

Greeks' initiation of scientific inquiry; developments in astronomy, cosmology, optics, mathematics, physics, medicine, psychology in ancient and medieval societies of Middle East, Europe. Same as HIST:4419.

# Medieval Studies, Certificate

The Certificate in Medieval Studies program enables students to combine study in three or more disciplines into an organized investigation of the Middle Ages, a rich historical period that continues to influence today's culture.

Students may earn the Certificate in Medieval Studies as a distinct interest or combine it with focused study in areas such as art history; classics; gender, women's, and sexuality studies; languages (e.g., French, German, Italian, Portuguese, Spanish); music; philosophy; religion; and theater.

## Requirements

The undergraduate Certificate in Medieval Studies requires at least 18 s.h. in medieval studies coursework. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

Courses used to fulfill GE CLAS Core [p. 20] requirements or the requirements of a major or minor may be counted toward the certificate in most cases. Up to 6 s.h. of transfer credit may be counted toward certificate requirements, with the Certificate in Medieval Studies coordinating committee's approval; contact the certificate program's coordinator.

The Certificate in Medieval Studies requires the following coursework.

Code	Title	Hours
<b>Core Course</b>		
Students must complete one of these early in their program of study:		
MDVL:3409 or MDVL:3410	Medieval Civilization I Medieval Civilization II	3
<b>Additional Courses</b>		
Remaining coursework, as indicated below		15
<b>Total Hours</b>		<b>18</b>

## Additional Courses

Remaining courses may be chosen from the "Associated Courses" below or from medieval studies courses (prefix MDVL) under Courses [p. 822] in this section of the Catalog. Students must include courses from at least three different departments; they may count a maximum of 10 s.h. from a single department or program. Students should consult regularly with a medieval studies advisor while planning and completing their program of study.

## Associated Courses

The following courses are approved for the medieval studies certificate. Other courses may be approved for satisfaction of certificate requirements; students who wish to have a course approved should make a request to the Certificate in Medieval Studies coordinating committee. The coordinating committee revises the list of approved courses as necessary.

## Arabic Language and Literature

Code	Title	Hours
ARAB:2001	Intermediate Modern Standard Arabic I	5
ARAB:2002	Intermediate Modern Standard Arabic II	5

## Art and Art History

Code	Title	Hours
ARTH:2420	Medieval Art from Constantine to Columbus	3
ARTH:3310	Celtic and Viking Art	3
ARTH:3390	Early Medieval Art	3
ARTH:3400	Romanesque and Gothic Art	3
ARTH:3420	Gothic Architecture	3
ARTH:3990	Topics in Art History (when topic is medieval)	3

## Center for the Book

Code	Title	Hours
UICB:4910/ HIST:4910/ SLIS:4910	The Book in the Middle Ages	3
UICB:4920/ HIST:4920/ SLIS:4920	The Transition from Manuscript to Print	3

## Classics

Code	Title	Hours
CLSA:2127/ JPNS:2127	Global Manuscript Cultures	3
CLSL:2001	World of Cicero	3
CLSL:2002	Golden Age of Roman Poetry	3

## English

Code	Title	Hours
ENGL:2216	Selected Works of the Middle Ages	3
ENGL:2236	Selected Early Authors (when topic is medieval)	3
ENGL:3216	Topics in Medieval and Renaissance Literature	3
ENGL:3226/ MDVL:3226	Literature and Culture of the Middle Ages	3
ENGL:3256	Old English Language and Literature	3
ENGL:3257	Old English Beowulf	3
ENGL:3266	Medieval Celtic Literature	3
ENGL:3267	Medieval Norse Literature	3
ENGL:3276/ THTR:3276	Medieval Drama	3
ENGL:3286	Chaucer	3
ENGL:4009	Honors Seminar: Medieval and Early Modern Literature, Early Literature/17th Century	3

## German

Code	Title	Hours
GRMN:2770	Norse Mythology: Gods, Heroes, and Monsters of Northern Europe	3-4

## History

Code	Title	Hours
HIST:2151	Introduction to the History Major (when topic is medieval)	3
HIST:2483	History of Britain: Fall of Rome to the Norman Conquest	3
HIST:3409/ MDVL:3409	Medieval Civilization I	3
HIST:3410/ MDVL:3410	Medieval Civilization II	3
HIST:3423/ MDVL:3423	Ireland in the Early Middle Ages	3
HIST:4412/ MDVL:4412	History of the Medieval Church	3
HIST:4417/ MDVL:4417	Medieval Intellectual History 300-1150	3
HIST:4418/ MDVL:4418	Medieval Intellectual History 1150-1500	3
HIST:4419/ MDVL:4419	Ancient and Medieval Science	3

## Italian

Code	Title	Hours
ITAL:4633	Dante's Inferno	3
ITAL:4634	The Italian Renaissance	3

## Japanese

Code	Title	Hours
JPNS:3202	Traditional Japanese Literature in Translation	3
JPNS:3206	Warriors' Dreams	3
JPNS:4201	The Tale of Genji	3

## Music

Code	Title	Hours
MUS:2301	History of Western Music I	3
MUS:4200	Counterpoint Before 1600	3

## Philosophy

Code	Title	Hours
PHIL:3112/ HIST:3412	Medieval Philosophy	3

## Religious Studies

Code	Title	Hours
RELS:1225/ HIST:1025	Medieval Religion and Culture	3
RELS:3243/ CLSA:3443	Pagans and Christians: The Church from Jesus to Muhammad	3
RELS:4001/ CLSA:4901	Biblical Hebrew I	3-4

RELS:4002/ CLSA:4902	Biblical Hebrew II	4
-------------------------	--------------------	---

## Russian

Code	Title	Hours
RUSS:1532	Traces of Ancient Russian Culture (IX-XVII Centuries): Vikings, Mongols, and Tsars	3

## Spanish and Portuguese

Code	Title	Hours
SPAN:4690	Topics in Spanish Literature (when topic is medieval)	3

## Language Courses

The Medieval Studies Program strongly encourages students to complete coursework in a language relevant to the medieval period. Latin is recommended for anyone intending to pursue graduate study in the field. Many language courses have prerequisites, and some are offered irregularly, so students should complete their language coursework as early as possible. The following language courses are approved for the medieval studies certificate.

Code	Title	Hours
ARAB:2001- ARAB:2002	Intermediate Modern Standard Arabic I-II	10
CLSL:2001- CLSL:2002	World of Cicero - Golden Age of Roman Poetry	6
CLSA:4901- CLSA:4902	Biblical Hebrew I-II (same as RELS:4001-RELS:4002)	8
ENGL:3256	Old English Language and Literature	3

## Sample Study Plans

Both of these sample study plans fulfill the certificate's requirements.

Sample plan for students planning graduate work in medieval studies:

Code	Title	Hours
MDVL:3226/ ENGL:3226	Literature and Culture of the Middle Ages	3
MDVL:3410/ HIST:3410	Medieval Civilization II	3
ARTH:2420	Medieval Art from Constantine to Columbus	3
CLSL:2001	World of Cicero	3
CLSL:2002	Golden Age of Roman Poetry	3
HIST:4418/ MDVL:4418	Medieval Intellectual History 1150-1500	3

Sample plan for students with a general interest in medieval studies:

Code	Title	Hours
MDVL:3409/ HIST:3409	Medieval Civilization I	3
ENGL:3256	Old English Language and Literature	3
ENGL:3286	Chaucer	3
HIST:2483	History of Britain: Fall of Rome to the Norman Conquest	3

HIST:4412/ MDVL:4412	History of the Medieval Church	3
MUS:2301	History of Western Music I	3

# Museum Studies

## Chair, Department of Anthropology

- Katina Lillios

## Coordinator, Museum Studies

- Heidi K. Lung (Anthropology)

**Undergraduate certificate:** museum studies

**Faculty:** <https://museumstudies.sites.uiowa.edu/contacts>

**Website:** <https://museumstudies.sites.uiowa.edu/>

Museum studies has a long history at the University of Iowa, with courses offered continuously since 1910.

Museums embrace every aspect of human experience. Iowa's Museum Studies Program reflects this multiplicity, and includes students from many fields, including American studies, anthropology and archaeology, art, biology, business, communication studies, earth and environmental sciences, elementary and secondary education, English, world languages, history, and library and information science.

Instructors for museum studies courses reflect the program's interdisciplinary nature. They include faculty members from anthropology, art and art history, business, history, library and information science, and other related fields.

The Museum Studies Program holds academic memberships with the American Association for State and Local History and the Iowa Museum Association. These connections offer museum studies students opportunities for internships, professional networking, and career development. In addition to offering a wide range of on-campus courses, the certificate also can be earned online with a growing number of online courses.

The Museum Studies Program is administered by the Department of Anthropology [p. 70].

## Programs

### Undergraduate Program of Study Certificate

- Certificate in Museum Studies [p. 828]

## Facilities

Museum studies students have access to a wide variety of museums and related resources, including the following University of Iowa museums: the Museum of Natural History, the Stanley Museum of Art, the Old Capitol Museum, the Medical Museum, and the Karro Athletic Hall of Fame.

The Museum Studies Program maintains close connections with a number of local, community-based museums and organizations, including the State Historical Society of Iowa, the Herbert Hoover Presidential Library and Museum, the African American Museum of Iowa, the Iowa Children's Museum, and the Johnson County Historical Society.

## Courses

### Museum Studies Courses

#### **MUSM:2850 Museums and Social Justice** 3 s.h.

Exploration of museums as institutions that frame social justice, promote equity of access through social bridging, and at times, address and challenge social ills directly through exhibits and programs; case studies and dialogue.

#### **MUSM:3001 Introduction to Museum Studies** 3 s.h.

Overview of museum history, function, philosophy, collection, and curatorial practices; governance and funding issues; exhibition evaluation and audience studies; examples from Stanley Museum of Art, Museum of Natural History, Old Capitol Museum, and Medical Museum. GE: Social Sciences. Same as ANTH:3001, EDTL:3001, SIED:3001.

#### **MUSM:3003 Natural History Research Collections** 3 s.h.

Techniques, methods, and issues specific to natural history research collections; practice in preparing and cleaning specimens; role of natural history specimens in modern scientific research. Recommendations: basic understanding of the diversity of plants and animals and natural history museum collections, MUSM:3001 or MUSM:3200, and BIOL:1411 or BIOL:1412; or other experience. Same as EES:3003.

#### **MUSM:3004 Exhibition Planning** 3 s.h.

Preliminary work for and process of developing museum exhibitions; history of exhibit design, evaluation, budgets, teams and team member roles, working with community and special interest groups, methods of production and display; students research a topic, choose artifacts and images, and create a narrative and exhibit script. Prerequisites: MUSM:3001.

#### **MUSM:3100 Historic House Management and Preservation** 3 s.h.

Management, preservation, interpretation, and basic operations of historic structures and the museums they serve.

#### **MUSM:3105 Engaging Museum Audiences** 3 s.h.

Effective audience engagement requires museums to meet visitors halfway; employing learning theories, knowledge of audience, and innovative examples from the field; students investigate a variety of approaches that are visitor-centered, interdisciplinary, and locally focused. Prerequisites: MUSM:3001.

#### **MUSM:3120 Museum Origins** 3 s.h.

History of museums; origin, character, and evolution into content specific institutions; anecdotes and personalities; how museums influenced society and their continuing relevance to a technological world.

#### **MUSM:3125 Museums in a Digital World** 3 s.h.

Digital technologies streamline internal museum processes while exponentially increasing the capacity of individuals to engage with museum collections; explores the digitized strategies and systems that democratize access and enhance museum visitor experiences.

#### **MUSM:3131 Museum Evaluation and Visitor Studies** 3 s.h.

Students explore evaluation theory, methodologies, and practical application through case studies and hands-on activities from all types of museum experiences (e.g., programs, exhibitions, wayfinding, interpretive technology) from both staff and visitor perspective. Prerequisites: MUSM:3001.

**MUSM:3200 Collection Care and Management 3 s.h.**

How a museum's management policy relates to its administrative, legal, and ethical obligations to its collections; acquisitions, deaccessions, collection use, data standards, storage environment, health, safety, documentation. Same as EES:3200.

**MUSM:3215 The Museum of Today and Tomorrow: How Museums Enhance the K-12 Classroom 3 s.h.**

What do museums have to offer teachers? How are they relevant to social studies, math, English, and science teachers? Students are put in charge of answering these questions and build their knowledge about art and innovative teaching strategies in the K-12 classroom and museum, practice designing lessons around a work of art, and apply their knowledge about art and curriculum into interactive online modules; students work directly with art on campus in the Lindquist Art Collection in the College of Education and the University of Iowa Stanley Museum of Art. Same as EDTL:3215.

**MUSM:3237 Politics of the Archaeological Past 3 s.h.**

How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, Indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as ANTH:3237, HIST:3137.

**MUSM:3500 Nonprofit Organizational Effectiveness I 3 s.h.**

Operational and financial aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as ENTR:3595, MGMT:3500, NURS:3595, RELS:3700, SSW:3500.

**MUSM:4080 Museum Internship arr.**

Work experience in functions, departments, and programs of the sponsoring museum related to museum's overall mission and museum field in general.

**MUSM:4081 The American Art Museum: Theory and Practice 3 s.h.**

Introduction to different aspects of art museums; emphasis on roles of art historians, especially curatorial practice; current and historical theories and practices of art exhibitions; varying debates of the politics of display; art museum professions; the many facets of art exhibition preparation; the University of Iowa Stanley Museum of Art collections. Same as ARTH:4081.

**MUSM:4082 Distance Learning Museum Internship arr.**

Work experience in functions, departments, and programs of the sponsoring museum related to museum's overall mission and museum field in general.

**MUSM:4084 Museum Professionalism 1-3 s.h.**

Opportunity to apply core concepts learned in other courses through an in-depth service learning experience within a museum; students complete a minimum of 40 hours per credit hour of primarily independent work for a museum or like organization under the supervision of a staff member and faculty advisor; development of a digital portfolio reflecting on project activities. Prerequisites: MUSM:3001.

**MUSM:4130 Museum Literacy and Historical Memory 3 s.h.**

Concepts and methods for understanding the role of museums in shaping knowledge and collective memory of history; institutionally based exhibits and collections, historical markers and public monuments, public holidays and events, media and artistic works that interpret the past; how events, people, and civic ambitions are memorialized and how memories of them are shaped; appearance of museums and related practices in the non-Western world after 1850. Same as HIST:4130.

**MUSM:4150 Introduction to Grant Writing 3 s.h.**

Comprehensive training in grant proposal writing; basics of project development and management; core principles for writing small and large proposals to public and private funding sources; finer points of grant writing to increase competitiveness of future proposals and applications; for students with limited grant writing experience. Same as EALL:4130.

**MUSM:4200 Museum Object Preservation 3 s.h.**

Detailed study of specific types of museum objects, their materials, and care; topics include care, storage, and preservation of paper, books, photographs, works of art, electronic media, textiles, furniture, archaeological artifacts, and natural history specimens; students complete a curatorial project and gain hands-on practice in basic object cleaning and making enclosures and supports; for students planning museum careers or taking care of collections as part of their professional responsibilities. Same as EES:4200.

**MUSM:4210 Museum Without Walls: Museum, Art Education, and Community Engagement in the Digital Age 3 s.h.**

Collaborative work to recreate one exhibition from the University of Iowa Stanley Museum of Art that took place before the flood of 2008; creation of content that contributes to a virtual museum experience; introduction to digital tools commonly used in design of exhibitions; recreation of historical exhibitions based on documentary photographs in museum and University archives and research on the premise of the exhibition and objects on view; how digital artifacts might be used in different contexts; use of museum and digital environments as labs for lifelong and distance learning. Same as EDTL:4210.

**MUSM:4310 Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South 3-4 s.h.**

Comparative study of museums, memorials, statues, performances, and artistic works that encapsulate the entangled history and memory of transoceanic slave trades and slavery in the United States, the Caribbean, the Indian Ocean, Sub-Saharan Africa, and Europe (France and the United Kingdom); critical tools to analyze public debates over politically charged monuments; exploration of transnational and political predicaments of the contemporary world; approaches include trauma theories, memory studies, history, postcolonial ecocriticism, cultural anthropology, heritage studies and museology, and Francophone cultural critique. Taught in English. Requirements: for 4 s.h. option —prior enrollment in FREN:3060 and FREN:3300. Same as FREN:4210, WLLC:4210.

# Museum Studies, Certificate

The museum studies program provides a broad foundation of knowledge increasingly valued in the museum field. Museum studies courses introduce students to the spectrum of museum endeavors, from organization and mission planning to institutional histories and current developments in the field. Many courses developed by the program offer hands-on experience in exhibition planning and design, collection management, educational programming, community development, and administration.

## Requirements

The undergraduate Certificate in Museum Studies requires 18 s.h. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. The certificate is open to current University of Iowa undergraduate students and to all individuals who are not enrolled in a UI graduate or professional degree program.

College of Liberal Arts and Sciences students who are interested in museum studies may earn the certificate, or they may use the individualized plan of study track in the interdepartmental studies major to create a museum studies concentration relevant to their academic and professional interests.

Work for the certificate consists of an introductory course, a minimum of four courses on specific museum studies topics, and an internship. Students must request permission from the coordinator of the museum studies certificate to use courses that are not included in the program, and the proposed course content and requirements must fit into one of the program's defined areas.

## Online Option

Those with an interest in furthering their education in museum studies and who live outside of the Iowa City area may be interested in pursuing the certificate online.

The Certificate in Museum Studies requires the following coursework.

Code	Title	Hours
	Introductory Course	3
	Museum Studies Topic Areas	12
	Museum Studies Internship	3
<b>Total Hours</b>		<b>18</b>

## Introductory Course

Students should begin the certificate with MUSM:3001, which is prerequisite to some of the program's more advanced courses and is approved for the Social Sciences area of the GE CLAS Core [p. 20]. The course provides a historical overview of museum development and function while introducing students to issues such as museum governance and financing, ethics and law, collection management, exhibition and educational programming, interpretation, and audience research.

Code	Title	Hours
MUSM:3001	Introduction to Museum Studies	3

## Museum Studies Topic Areas

Students complete a minimum of four courses in museum studies topic areas, choosing from the lists below. The areas are collection care and management; exhibition development and public education; history, theory, and culture; and museum administration and management.

Students must select one course each from three of the four topic areas (9 s.h. total). They also must complete a fourth course (3 s.h.) from any of the four topic areas.

### Collection Care and Management

Code	Title	Hours
MUSM:3003	Natural History Research Collections	3
MUSM:3200	Collection Care and Management	3
MUSM:4200	Museum Object Preservation	3

### Exhibition Development and Public Education

Code	Title	Hours
MUSM:3004	Exhibition Planning	3
MUSM:3105	Engaging Museum Audiences	3
MUSM:3125	Museums in a Digital World	3
MUSM:3215	The Museum of Today and Tomorrow: How Museums Enhance the K-12 Classroom	3
MUSM:4210	Museum Without Walls: Museum, Art Education, and Community Engagement in the Digital Age	3

### History, Theory, and Culture

Code	Title	Hours
MUSM:2850	Museums and Social Justice	3
MUSM:3120	Museum Origins	3
MUSM:3237	Politics of the Archaeological Past	3
MUSM:4081	The American Art Museum: Theory and Practice	3
MUSM:4130	Museum Literacy and Historical Memory	3
MUSM:4310	Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South	3-4

### Museum Administration and Management

Code	Title	Hours
MUSM:3100	Historic House Management and Preservation	3
MUSM:3131	Museum Evaluation and Visitor Studies	3
MUSM:3500	Nonprofit Organizational Effectiveness I	3
MUSM:4150	Introduction to Grant Writing	3

## Museum Studies Internship

After completing at least 12 s.h. of the required coursework above, students must complete one of the following internships, earning a minimum of 3 s.h.

The Certificate in Museum Studies coordinator works closely with students and affiliated faculty members to ensure that the internship provides students with the instruction and experience they need.

<b>Code</b>	<b>Title</b>	<b>Hours</b>
MUSM:4080	Museum Internship	arr.
MUSM:4082	Distance Learning Museum Internship	arr.
MUSM:4084	Museum Professionalism	1-3

### Career Advancement

Museum studies students have become directors, curators, educators, and exhibit specialists in museums throughout the country.

# Music

## Director, Division of Performing Arts

- Alan M. MacVey

## Director, School of Music

- Tammie Walker

## Associate Directors

- Alan Huckleberry, David Puderbaugh

**Undergraduate major:** music (B.A., B.M.)

**Undergraduate minor:** music

**Graduate degrees:** M.A. in music; Ph.D. in music; D.M.A.

**Graduate minor:** theory pedagogy

**Graduate certificate:** sacred music

**Faculty:** <https://music.uiowa.edu/people>

**Website:** <https://music.uiowa.edu/>

The University of Iowa School of Music is prominent in a fine arts community of international repute. It has long been recognized as one of the excellent university-based music schools in the United States.

The school's on-campus enrollment of approximately 450 music majors is large enough to sustain strong programs in all areas of specialization, yet small enough to ensure the individual attention essential to each student's development.

The faculty consists of highly trained artist-teachers in each specialization area and scholars of international distinction. Private lessons with faculty members are offered in all band and orchestra instruments, and in voice, piano, and organ.

The school's undergraduate programs offer all qualified students, whether music majors or nonmajors, the opportunity for further study of music. In addition to its comprehensive course offerings for majors, the school provides a substantial selection of courses especially recommended for nonmajors and several approved for the GE CLAS Core [p. 20] (see "Courses for Nonmajors" below).

Graduate programs in music are designed primarily to prepare students for teaching in secondary schools, colleges, and universities and for careers in performance and music therapy.

The School of Music is a charter member of the National Association of Schools of Music. The requirements for entrance and for graduation are in accordance with the association's published standards.

The department is one of the academic units in the Division of Performing Arts [p. 376]. The School of Music participates in offering the Certificate in Public Digital Arts [p. 970].

## Courses for Nonmajors

The School of Music offers a wide range of courses that are appropriate for non-music majors. Courses about jazz, music and culture, music history, music software, and other topics are available as well as individual instruction on a number of instruments and voice; see School of Music Courses [p. 835] in this section of the Catalog.

Several School of Music courses are approved for the GE CLAS Core; look for courses with the prefix MUS under "Historical Perspectives," "Literary, Visual, and Performing Arts," and "Values and Culture" in the GE CLAS Core [p. 20] section of the Catalog.

For course descriptions, see School of Music Courses [p. 835] in this section of the Catalog.

Participation in School of Music ensembles is open to all University of Iowa students with the ensemble director's approval. Major ensembles are as follows.

Code	Title	Hours
MUS:1176	Voxman Chorale	1
MUS:1180	All-University String Orchestra	1
MUS:3160	Symphony Band/Concert Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1

Other courses recommended for music nonmajors include the following.

Code	Title	Hours
MUS:1000	First-Year Seminar	1
MUS:1001	Group Piano I: Non-Music Majors	1
MUS:1002	Group Piano II: Non-Music Majors	1
MUS:1007	Garage Band: The Basics	2
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1010	Recital Attendance for Nonmajors	1
MUS:1012	Creativity in Music	3
MUS:1020	Performance Instruction for Nonmajors (interested students should consult with the instructor of their instrument)	1
MUS:1066	Introduction to Film Music	3
MUS:1100	Fundamentals of Music for Non-Music Majors	3
MUS:1201	Musicianship and Theory I	4
MUS:1301	Concepts and Contexts of Western Music	3
MUS:1302	Great Musicians	3
MUS:1303	Roots, Rock, and Rap: A History of Popular Music	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:1800/ DPA:1800	World of the Beatles	3
MUS:2005	Issues in Popular Music: Women Who Rock	3
MUS:2106	Improvisation for Classical Musicians	3
MUS:2160	Drumline Techniques	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

MUS:3850/ DANC:3850/ DPA:3850/ THTR:3850	Introduction to Laban Movement Studies	2-3
MUS:3851/ DANC:3851/ DPA:3851	Introduction to the Alexander Technique	3

## Applied Music

Instruction in applied music consists of individual and/or class lessons, at the instructor's option, for a minimum of one hour per week (students register for 2 s.h.). Music majors are required to attend weekly performance and pedagogy seminars in applied music. Courses are offered on a fee-per-course basis, in addition to tuition, and may be repeated.

Instruction in jazz guitar, MUS:2038 Lower Level Jazz Guitar, is only offered at the lower level; enrollment is limited.

Code	Title	Hours
MUS:2020	Lower Level Voice	2
MUS:2021	Lower Level Piano	2
MUS:2022	Lower Level Organ	2
MUS:2023	Lower Level Violin	2
MUS:2024	Lower Level Viola	2
MUS:2025	Lower Level Cello	2
MUS:2026	Lower Level String Bass	2
MUS:2027	Lower Level Flute	2
MUS:2028	Lower Level Oboe	2
MUS:2029	Lower Level Clarinet	2
MUS:2030	Lower Level Bassoon	2
MUS:2031	Lower Level Saxophone	2
MUS:2032	Lower Level Horn	2
MUS:2033	Lower Level Trumpet	2
MUS:2034	Lower Level Trombone	2
MUS:2035	Lower Level Euphonium	2
MUS:2036	Lower Level Tuba	2
MUS:2037	Lower Level Percussion	2
MUS:2038	Lower Level Jazz Guitar	2
MUS:3020	Upper Level Voice	2
MUS:3021	Upper Level Piano	2
MUS:3022	Upper Level Organ	2
MUS:3023	Upper Level Violin	2
MUS:3024	Upper Level Viola	2
MUS:3025	Upper Level Cello	2
MUS:3026	Upper Level String Bass	2
MUS:3027	Upper Level Flute	2
MUS:3028	Upper Level Oboe	2
MUS:3029	Upper Level Clarinet	2
MUS:3030	Upper Level Bassoon	2
MUS:3031	Upper Level Saxophone	2
MUS:3032	Upper Level Horn	2
MUS:3033	Upper Level Trumpet	2
MUS:3034	Upper Level Trombone	2
MUS:3035	Upper Level Euphonium	2
MUS:3036	Upper Level Tuba	2
MUS:3037	Upper Level Percussion	2
MUS:6020	Major Voice	2
MUS:6021	Major Piano	2
MUS:6022	Major Organ	2

MUS:6023	Major Violin	2
MUS:6024	Major Viola	2
MUS:6025	Major Cello	2
MUS:6026	Major String Bass	2
MUS:6027	Major Flute	2
MUS:6028	Major Oboe	2
MUS:6029	Major Clarinet	2
MUS:6030	Major Bassoon	2
MUS:6031	Major Saxophone	2
MUS:6032	Major Horn	2
MUS:6033	Major Trumpet	2
MUS:6034	Major Trombone	2
MUS:6035	Major Euphonium	2
MUS:6036	Major Tuba	2
MUS:6037	Major Percussion	2

## Applied Music: Secondary Instruction for Majors

Instruction consists of one half-hour lesson per week. Courses are offered on a fee-per-course basis, in addition to tuition, and may be repeated.

Code	Title	Hours
MUS:1120	Secondary Performance - Voice	1
MUS:1121	Secondary Performance - Piano	1
MUS:1122	Secondary Performance - Organ	1
MUS:1123	Secondary Performance - Violin	1
MUS:1124	Secondary Performance - Viola	1
MUS:1125	Secondary Performance - Cello	1
MUS:1126	Secondary Performance - String Bass	1
MUS:1127	Secondary Performance - Flute	1
MUS:1128	Secondary Performance - Oboe	1
MUS:1129	Secondary Performance - Clarinet	1
MUS:1130	Secondary Performance - Bassoon	1
MUS:1131	Secondary Performance - Saxophone	1
MUS:1132	Secondary Performance - Horn	1
MUS:1133	Secondary Performance - Trumpet	1
MUS:1134	Secondary Performance - Trombone	1
MUS:1135	Secondary Performance - Euphonium	1
MUS:1136	Secondary Performance - Tuba	1
MUS:1137	Secondary Performance - Percussion	1
MUS:1139	Secondary Performance - Composition	1

MUS:6120	Graduate Secondary Performance - Voice	1
MUS:6121	Graduate Secondary Performance - Piano	1
MUS:6122	Graduate Secondary Performance - Organ	1
MUS:6123	Graduate Secondary Performance - Violin	1
MUS:6124	Graduate Secondary Performance - Viola	1
MUS:6125	Graduate Secondary Performance - Cello	1
MUS:6126	Graduate Secondary Performance - String Bass	1
MUS:6127	Graduate Secondary Performance - Flute	1
MUS:6128	Graduate Secondary Performance - Oboe	1
MUS:6129	Graduate Secondary Performance - Clarinet	1
MUS:6130	Graduate Secondary Performance - Bassoon	1
MUS:6131	Graduate Secondary Performance - Saxophone	1
MUS:6132	Graduate Secondary Performance - Horn	1
MUS:6133	Graduate Secondary Performance - Trumpet	1
MUS:6134	Graduate Secondary Performance - Trombone	1
MUS:6135	Graduate Secondary Performance - Euphonium	1
MUS:6136	Graduate Secondary Performance - Tuba	1
MUS:6137	Graduate Secondary Performance - Percussion	1

## Choral Literature

Code	Title	Hours
MUS:6561	Seminar: Choral Literature and Analysis I	1-3
MUS:6562	Seminar: Choral Literature and Analysis II	1-3
MUS:6563	Seminar: Choral Literature and Analysis III	1-3
MUS:6564	Seminar: Choral Literature and Analysis IV	1-3

## Composition

Code	Title	Hours
MUS:2220	Composition	1-2
MUS:3230	Composition Seminar	0-1
MUS:4220	Orchestration	3
MUS:4250	Composition: Electronic Media I	3
MUS:4251	Composition: Electronic Media II	3
MUS:5220	Advanced Composition	1-2

## Conducting

Also see MUS:3635 Instrumental Conducting, MUS:3640 Choral Methods, and MUS:3645 Choral Conducting and Literature under "Music Education" below.

Code	Title	Hours
MUS:3625	Techniques of Conducting	2
MUS:6579	Orchestral Conducting Lab	2
MUS:6580	Advanced Orchestral Conducting	2
MUS:6581	Advanced Choral Conducting I	1-3
MUS:6582	Advanced Choral Conducting II	1-3
MUS:6583	Advanced Choral Conducting III	1-3
MUS:6584	Advanced Choral Conducting IV	1-3
MUS:6585	Score Reading	1
MUS:6586	Advanced Orchestral Literature and Professional Development	2
MUS:6590	Seminar in Advanced Band Literature and Band History	1-2

## Ensembles

Enrollment requires consent of instructor. Courses may be repeated.

Code	Title	Hours
MUS:1160	University Band	1
MUS:1165	Hawkeye Marching Band	1
MUS:1166	Large Pep Band	1
MUS:1176	Voxman Chorale	1
MUS:1180	All-University String Orchestra	1
MUS:3150	Percussion Ensemble/Steel Band	1
MUS:3151	Percussion Chamber Ensemble	1
MUS:3160	Symphony Band/Concert Band	1
MUS:3163	Intermediate Steel Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1
MUS:3182	Chamber Orchestra	1
MUS:3190	Center for New Music Ensemble	0-1
MUS:3480	Piano Accompaniment	1
MUS:3481	Piano Chamber Music	1-2
MUS:3482	String Chamber Music	1-2
MUS:3485	Wind Chamber Music	1-2
MUS:3489	Chamber Music Residency Program	1-2

## Jazz Studies

Code	Title	Hours
MUS:1009	Jazz Cultures in America and Abroad	3

MUS:1711	Jazz Rhythms and Interpretation I	1
MUS:1712	Jazz Rhythms and Interpretation II	1
MUS:1720	History of Jazz	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:3730	Jazz Band	1

## Programs

### Undergraduate Programs of Study

#### Majors

- Major in Music (Bachelor of Arts) [p. 847]
- Major in Music (Bachelor of Music) [p. 857]

#### Minor

- Minor in Music [p. 869]

### Graduate Programs of Study

#### Majors

- Master of Arts in Music [p. 871]
- Doctor of Philosophy in Music [p. 873]
- Doctor of Musical Arts [p. 874]

#### Minor

- Minor in Theory Pedagogy [p. 875]

#### Certificate

- Certificate in Sacred Music [p. 876]

## Facilities

The School of Music is housed in the Voxman Music Building, a state-of-the-art facility in the heart of the downtown campus that opened in the fall of 2016. The 190,000 square-foot building includes a 700-seat concert hall; 200-seat recital hall; organ performance hall; opera and chamber music rehearsal spaces; faculty studios; classrooms; practice rooms; specialized facilities for music therapy, electronic music, and percussion; and light-filled public and social spaces. The building features the latest instructional and recording technology, and superior acoustic ambience and isolation.

### Center for New Music

The Center for New Music is a vital component of the School of Music's composition program. Since its founding in 1966, the center has been both laboratory and showcase for late 20th- and 21st-century music. It presents at least four concerts of contemporary works each academic season. It also provides a forum for visiting composers and other creative artists, bringing new music to a variety of outreach venues. Audition, rehearsal, and programming information is available on the Center for New Music website.

### Rita Benton Music Library

The Rita Benton Music Library is located on the first floor of the Voxman Music Building. The Music Library holds more than 90,000 scores, including chamber music sets; 51,000 books, including bound journals; 125 active periodical

subscriptions; and 46,000 media items in all formats. The Arthur and Miriam Canter Rare Book Room holds around 3,000 rare books and scores and has particular strengths in 18th- and 19th-century music theory treatises and instrumental methods, and an outstanding collection of keyboard and chamber music of Ignaz Pleyel. Additional music collections of note are housed in Special Collections and University Archives, including the Goldman Band Collection; the University of Iowa's Center for New Music papers; and papers of composers Philip Greeley Clapp, William Hibbard, and Donald Martin Jenni. The Music Library holds the School of Music Recordings Archive, including faculty recital and ensemble concert program, audio recordings, and video recordings.

The Library's online subscriptions include research tools such as Grove Music Online, RILM, RISM, Music Index, International Index to Music Periodicals (IIMP), and the Oxford Music Bibliographies. Streaming media resources include Naxos Music Library Jazz and video libraries, Berlin Philharmonic Digital Concert Hall, Met Opera on Demand: Student Access, music online, and DRAM.

Materials circulate to University of Iowa faculty and students and to institutions that have reciprocal agreements for interlibrary loan services with the University.

## Courses

Several School of Music courses are especially appropriate for non-music majors. Some are approved for the GE CLAS Core; look for them (prefix MUS) under "Historical Perspectives," "Literary, Visual, and Performing Arts," and "Values and Culture" in the GE CLAS Core [p. 20] section of the Catalog.

Applied music instruction consists of individual and/or class lessons, at the instructor's option, for a minimum of one hour per week (students register for 2 s.h.), or one half-hour per week (students register for 1 s.h.). Music majors are required to attend weekly performance and pedagogy seminars in applied music. Courses are offered on a fee-per-course basis, in addition to tuition, and may be repeated.

### Music Courses

#### **MUS:1000 First-Year Seminar** **1 s.h.**

An aspect of performance, creativity, musical literature, or scholarship; seminar format with classroom participation, papers, projects, other assignments; may require attendance at lectures, rehearsals, or performances. Requirements: first- or second-semester standing.

#### **MUS:1001 Group Piano I: Non-Music Majors** **1 s.h.**

Reading, technical study, chording, playing by ear, improvisation; for beginners. Requirements: non-music major. GE: Literary, Visual, and Performing Arts.

#### **MUS:1002 Group Piano II: Non-Music Majors** **1 s.h.**

Continuation of MUS:1001. Requirements: non-music major.

#### **MUS:1007 Garage Band: The Basics** **2 s.h.**

Application of GarageBand software (Mac platform) using midi keyboards; composition and music theory for projects using drag-and-drop looping, multitrack recording, sound effects, mixing, importing music for composition. GE: Engineering Be Creative.

#### **MUS:1008 Jazz Masters** **3 s.h.**

Major 20th-century jazz leaders of varied styles and recordings; developments between 1917 and present.

- MUS:1009 Jazz Cultures in America and Abroad 3 s.h.**  
How to listen to jazz and recognize a variety of processes that are taking place in performances and recordings; historical, social, and political issues, including race and gender; the unique blend of jazz of a particular region; attendance at live performances, meet and interview musicians, critics, and educators. GE: Literary, Visual, and Performing Arts; Values and Culture.
- MUS:1010 Recital Attendance for Nonmajors 1 s.h.**  
Musical experience through student, faculty recitals.
- MUS:1012 Creativity in Music 3 s.h.**  
Where does music come from? When, why, and how did people first start making music? How do music creators turn raw inspiration into finished pieces? How do improvisers create music on the spot? Can anyone create music or is that something only for composers? Development of music creation from long ago to present day; presentations by guest composers and performers who will demonstrate how they compose or improvise their music. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.
- MUS:1020 Performance Instruction for Nonmajors 1 s.h.**  
Bassoon, cello, clarinet, euphonium, flute, horn, oboe, organ, percussion, piano, saxophone, string bass, trombone, trumpet, tuba, viola, violin, or voice. Requirements: non-music major. GE: Literary, Visual, and Performing Arts.
- MUS:1030 Writing Rap: The Basics 3 s.h.**  
Focus on the craft of writing raps; students listen, attempt to dissect, and evaluate a broad range of hip hop music while learning the basics of crafting and composing lyrics; songwriting methods and theoretical approaches to composing larger works—such as a mixtape, album or extended play record (EP)—through an examination of music, film, literature, and criticism; previous experience writing raps is not required.
- MUS:1066 Introduction to Film Music 3 s.h.**  
Major styles and composers of film music from early 20th century to the present; focus on case studies to understand different roles music can play in cinema; opportunities to employ critical thinking and listening skills to analyze particular films or key scenes. GE: Literary, Visual, and Performing Arts.
- MUS:1100 Fundamentals of Music for Non-Music Majors 3 s.h.**  
Notation of pitch and rhythm, intervals, scales, key signatures, triads, and seventh chords. Requirements: non-music major.
- MUS:1120 Secondary Performance - Voice 1 s.h.**  
Requirements: music major.
- MUS:1121 Secondary Performance - Piano 1 s.h.**  
Requirements: music major.
- MUS:1122 Secondary Performance - Organ 1 s.h.**  
Seminar and lessons arranged. Requirements: music major.
- MUS:1123 Secondary Performance - Violin 1 s.h.**
- MUS:1124 Secondary Performance - Viola 1 s.h.**
- MUS:1125 Secondary Performance - Cello 1 s.h.**
- MUS:1126 Secondary Performance - String Bass 1 s.h.**
- MUS:1127 Secondary Performance - Flute 1 s.h.**
- MUS:1128 Secondary Performance - Oboe 1 s.h.**
- MUS:1129 Secondary Performance - Clarinet 1 s.h.**
- MUS:1130 Secondary Performance - Bassoon 1 s.h.**
- MUS:1131 Secondary Performance - Saxophone 1 s.h.**
- MUS:1132 Secondary Performance - Horn 1 s.h.**
- MUS:1133 Secondary Performance - Trumpet 1 s.h.**
- MUS:1134 Secondary Performance - Trombone 1 s.h.**
- MUS:1135 Secondary Performance - Euphonium 1 s.h.**
- MUS:1136 Secondary Performance - Tuba 1 s.h.**
- MUS:1137 Secondary Performance - Percussion 1 s.h.**
- MUS:1139 Secondary Performance - Composition 1 s.h.**  
Individual lessons for non-composition majors that help to prepare a portfolio for entrance into the composition area. Corequisites: MUS:1201 and MUS:1202 and MUS:2203 and MUS:2204.
- MUS:1160 University Band 1 s.h.**  
Participation in University Band.
- MUS:1165 Hawkeye Marching Band 1 s.h.**  
Offered fall semesters.
- MUS:1166 Large Pep Band 1 s.h.**  
Performing ensemble for basketball games and wrestling meets. Requirements: membership by audition.
- MUS:1176 Voxman Chorale 1 s.h.**  
Auditioned choral ensemble; for students who sing in soprano or alto range.
- MUS:1180 All-University String Orchestra 1 s.h.**  
Repertoire, rehearsal pacing, and performance expectation geared to general students. Open to all UI students with no audition.
- MUS:1200 Fundamentals of Music for Majors 0 s.h.**  
Rudiments of music—notation of pitch and rhythm, meter, scales, keys, intervals, triads. Corequisites: MUS:1201. Requirements: successful completion of placement exam A or concurrent enrollment in MUS:1201.
- MUS:1201 Musicianship and Theory I 4 s.h.**  
Principles of harmony; emphasis on aural skills, theoretical concepts, notation. Offered fall semesters. Requirements: MUS:1200 or successful completion of music theory diagnostic exam, and concurrent enrollment in MUS:1211 or successful completion of piano proficiency exam.
- MUS:1202 Musicianship and Theory II 4 s.h.**  
Continuation of MUS:1201. Offered spring semesters. Prerequisites: MUS:1201. Requirements: MUS:1212 or successful completion of piano proficiency exam.
- MUS:1210 Recital Attendance 1 s.h.**  
Requirements: music major.
- MUS:1211 Group Instruction in Piano I 1 s.h.**  
Beginning instruction for music majors whose principal performing medium is voice or an orchestral or band instrument; skill development in sight reading, technique, harmonization, transposition, improvisation, simple literature. Corequisites: MUS:1201. Requirements: music major.
- MUS:1212 Group Instruction in Piano II 1 s.h.**  
Elementary to early intermediate instruction for music majors whose principal performing medium is voice or an orchestral or band instrument; continued skill development begun in MUS:1211; introduction of easy solo and ensemble literature. Corequisites: MUS:1202. Requirements: MUS:1211 or successful completion of proficiency examination.

- MUS:1301 Concepts and Contexts of Western Music** 3 s.h.  
Ideas, social and historical contexts, emergence of genres and styles, diverse performing traditions in music making of Europe and North America. Recommendations: non-music major. GE: Literary, Visual, and Performing Arts.
- MUS:1302 Great Musicians** 3 s.h.  
Lives and works of important composers, performers. Recommendations: non-music major. GE: Literary, Visual, and Performing Arts.
- MUS:1303 Roots, Rock, and Rap: A History of Popular Music** 3 s.h.  
Historical narrative of popular music; focus on understanding and analyzing music of past and present in relation to major issues central to popular culture and society; production, dissemination, and reception of popular music; interpretation of ways in which music forms individual and collective identities and how contemporary musical experiences are shaped by historical processes. GE: Historical Perspectives.
- MUS:1310 World Music** 3 s.h.  
Varied perspectives on the relationship of music and culture, drawing from musical cultures around the world. GE: Literary, Visual, and Performing Arts.
- MUS:1510 Diction for Singers I** 2 s.h.  
Italian and German pronunciation for singing; basics of international phonetic alphabet; no previous background required.
- MUS:1687 Orientation to Music Therapy** 2 s.h.  
Theory, practice; typical clients and places of employment in music therapy.
- MUS:1711 Jazz Rhythms and Interpretation I** 1 s.h.  
Methods for sight-reading and interpreting jazz notation. Requirements: music major or audition.
- MUS:1712 Jazz Rhythms and Interpretation II** 1 s.h.  
Connection of rhythm-body principle—where movement and motion connects directly with rhythmic motifs and patterns; advanced rhythmic concepts (e.g., odd meters, borrowed note-groupings, unconventional notation); Latin, West African, and non-Western concepts of rhythm; for B.M. jazz majors and music majors wanting more in-depth, advanced interaction with jazz rhythms and phrasing; second in a two-course sequence. Requirements: music major.
- MUS:1720 History of Jazz** 3 s.h.  
Major 20th-century styles, artists, seminal works, and recordings; developments between 1917 and 1972. GE: Literary, Visual, and Performing Arts; Values and Culture.
- MUS:1740 The Art of Listening to Jazz** 3 s.h.  
What is jazz and its importance; guided introduction to jazz music, anatomy of jazz music, cultural context; development of skills to become an informed listener; process of performing jazz music, its connection with Black culture; focused listening/analysis of prominent jazz artists' work from past and present, including intersection between jazz and hip hop; formal music experience or training not required. GE: Literary, Visual, and Performing Arts. Same as AFAM:1240.
- MUS:1741 The Soundtrack of Black America** 3 s.h.  
Linkage of African American culture and music; Black musical innovations that shaped mainstream American musical tastes over the last century; exploration of relationship between Black music and culture; examples of blues, jazz, gospel, hip hop; artists including Bessie Smith (blues), Mahalia Jackson (gospel), Miles Davis (jazz), Nas and Talib Kweli (hip hop). GE: Diversity and Inclusion. Same as AFAM:1241.
- MUS:1800 World of the Beatles** 3 s.h.  
How the Beatles' music was influenced by American pop music, the drug culture, and the avant-garde, nonwestern instruments and philosophy, anti-war sentiments, world politics, and so forth; Beatlemania's impact on British and American cultures and its role in opening Eastern Europe to the West. GE: Literary, Visual, and Performing Arts. Same as DPA:1800.
- MUS:2005 Issues in Popular Music: Women Who Rock** 3 s.h.  
History of popular female musicians and the influence of their lyrics, music, and performances on American and British cultures; how women's musical careers have been influenced by civil rights, the British invasion (Beatles, Rolling Stones), second-wave feminism, postfeminism, Vietnam, counterculture, social injustice, music education, rock festivals, charity concerts. GE: Literary, Visual, and Performing Arts.
- MUS:2020 Lower Level Voice** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2021 Lower Level Piano** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: piano major or approval of the area following a successful audition.
- MUS:2022 Lower Level Organ** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2023 Lower Level Violin** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2024 Lower Level Viola** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2025 Lower Level Cello** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2026 Lower Level String Bass** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

- MUS:2027 Lower Level Flute** arr. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2028 Lower Level Oboe** arr. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2029 Lower Level Clarinet** arr. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2030 Lower Level Bassoon** arr. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2031 Lower Level Saxophone** arr. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2032 Lower Level Horn** arr. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2033 Lower Level Trumpet** arr. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2034 Lower Level Trombone** arr. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2035 Lower Level Euphonium** arr. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2036 Lower Level Tuba** arr. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2037 Lower Level Percussion** arr. Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:2038 Lower Level Jazz Guitar** 2 s.h. Requirements: audition required.
- MUS:2106 Improvisation for Classical Musicians** 3 s.h. Theory and practice in beginning nonjazz improvisation; development of aural and rhythmic skills, creation of rhythms and melodies, use of timbres and extended techniques in expression, development of instrumental technique for improvisation, practical understanding of harmony and form, experience in solo and accompaniment roles, creation of short pieces as vehicles for improvisation. Requirements: one year of music theory.
- MUS:2160 Drumline Techniques** 1 s.h. Training and experience in contemporary marching percussion and rudimental drumming techniques.
- MUS:2203 Musicianship and Theory III** 4 s.h. Continuation of MUS:1201 and MUS:1202; focus on common-practice repertory. Offered fall semesters. Prerequisites: MUS:1202.
- MUS:2204 Musicianship and Theory IV** 4 s.h. Continuation of MUS:1201, MUS:1202, and MUS:2203; focus on late 19th- and early 20th-century repertoires. Offered spring semesters. Prerequisites: MUS:2203.
- MUS:2206 Form and Analysis** 3 s.h. Analysis of musical forms and procedures, including 18th- and 19th-century tonal repertoires. Prerequisites: MUS:2204. Requirements: undergraduate standing.
- MUS:2207 Introduction to Popular Music** 3 s.h. Analysis of major styles of popular music including rock, country, hip-hop, dance, and rhythm and blues (R&B); conventional notational methods and rudimentary use of digital audio workstations (e.g., Ableton, Logic); students read and compose in a variety of endemic to American popular music from the last century. Prerequisites: MUS:2204.
- MUS:2213 Group Instruction in Piano III** 1 s.h. Varies by semester: skills for the music therapy profession, sight-reading, harmonization, transposition, reading from a fake book, and improvisation (fall); skills for the music education profession, sight-reading, harmonization, transposition, score, and hymn reading (spring). Requirements: music therapy, music education, or piano major.
- MUS:2220 Composition** 1-2 s.h. Individual lessons with a composition faculty member. Corequisites: MUS:3230. Requirements: admission to B.M. composition concentration.
- MUS:2301 History of Western Music I** 3 s.h. Recommendations: MUS:1201 and MUS:1202 for music majors. GE: Historical Perspectives; Literary, Visual, and Performing Arts.
- MUS:2302 History of Western Music II** 3 s.h. Recommendations: MUS:1201 and MUS:1202 for music majors. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

- MUS:2311 Music of Latin America and the Caribbean** 3 s.h.  
Folk and popular musical traditions and their social contexts in Latin America, the Caribbean; listening skills; video/film screenings. GE: Literary, Visual, and Performing Arts; Values and Culture. Same as LAS:2311.
- MUS:2510 Diction for Singers II** 2 s.h.  
French and English pronunciation for singing. Prerequisites: MUS:1510.
- MUS:2671 Music Foundations in Therapy I** 2 s.h.  
Skill development on social instruments such as guitar, autoharp, piano; percussion, song-leading skills, and repertoire development for use in clinical music therapy sessions. Prerequisites: MUS:1687. Requirements: music therapy major.
- MUS:2672 Music Foundations in Therapy II** 2 s.h.  
Advanced skill development on guitar for use in clinical music therapy sessions; percussion techniques, and related skills used in therapeutic settings. Prerequisites: MUS:2671. Requirements: music therapy major.
- MUS:2800 Digital Arts: An Introduction** 3 s.h.  
Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, CS:2800, DANC:2800, DIGA:2800, THTR:2800.
- MUS:2820 Electronic Music Production** 3 s.h.  
Improvement of listening skills through critical study of recorded music in a variety of styles; hands-on, weekly creative challenges in electronic music studio to gain skills working with Musical Instrument Digital Interface (MIDI) instruments, samples, and student's own recorded audio; transformation of sounds creatively using editing, effects, and more; generation of musical ideas using a variety of approaches; introduction to elements of mixing (balance, frequency range, space); demonstration of techniques using Reaper, Ableton, or Logic; for students with some experience using computers to make music. Requirements: presentation of one production, any style, with a minimum duration of one minute.
- MUS:3001 Introduction to Jazz Improvisation** 3 s.h.  
Introduction to the practice of improvisation through performance of repertoire and the development of practicing strategies; exercises in melody, harmony, rhythm and transcription that together form an integrated approach to developing improvisations. Prerequisites: MUS:1201. Requirements: audition.
- MUS:3020 Upper Level Voice** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3021 Upper Level Piano** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: piano major or approval following a successful audition.
- MUS:3022 Upper Level Organ** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3023 Upper Level Violin** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3024 Upper Level Viola** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3025 Upper Level Cello** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3026 Upper Level String Bass** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3027 Upper Level Flute** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3028 Upper Level Oboe** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3029 Upper Level Clarinet** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3030 Upper Level Bassoon** arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

- MUS:3031 Upper Level Saxophone** arr. 1 s.h.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3032 Upper Level Horn** arr. 1 s.h.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3033 Upper Level Trumpet** arr. 1 s.h.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3034 Upper Level Trombone** arr. 1 s.h.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3035 Upper Level Euphonium** arr. 1 s.h.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3036 Upper Level Tuba** arr. 1 s.h.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3037 Upper Level Percussion** arr. 1 s.h.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
- MUS:3055 Interdisciplinary Science of Sound and Hearing** 3 s.h.  
Introduction to physics of sound, biology/psychology of hearing, and audio technology; theories and experimental methods; music, speech, and environmental sounds. Same as CSD:3119, PSY:3055.
- MUS:3140 Audition Repertoire** 1 s.h.  
Practicum on passages frequently requested at professional auditions.
- MUS:3150 Percussion Ensemble/Steel Band** 1 s.h.  
Range of styles and idioms, primarily written during the 20th and 21st centuries; historical or cultural aspects such as ancient rudimental drumming styles, ragtime, jazz, popular music, and music from Africa, the Caribbean, Brazil, Cuba, China.
- MUS:3151 Percussion Chamber Ensemble** 1 s.h.  
Advanced percussion ensemble experience to complement work in larger format percussion ensemble; preparation and performance of most important repertoire for percussion ensemble; new works brought to light in a small chamber group setting. Requirements: upper-level undergraduate or graduate percussion major.
- MUS:3160 Symphony Band/Concert Band** 1 s.h.  
Participation in Symphony Band or Concert Band. Requirements: (for concert band) membership by audition.
- MUS:3162 All University Steel Band** 1-3 s.h.  
Musical and cultural introduction to steel band music of Trinidad and other Caribbean musical styles, including calypso, soca, ska, and reggae.
- MUS:3163 Intermediate Steel Band** 1 s.h.  
Small group steel band experience for more advanced players with experience playing steel pans.
- MUS:3170 Kantorei** 1 s.h.
- MUS:3172 Camerata Singers** 1 s.h.
- MUS:3174 University Choir** 1 s.h.
- MUS:3180 Orchestra** 1 s.h.
- MUS:3182 Chamber Orchestra** 1 s.h.  
Requirements: upper-level undergraduate standing.
- MUS:3190 Center for New Music Ensemble** 0-1 s.h.  
Participation in the Center for New Music; focus on contemporary composition and performance, 20th- and 21st-century repertoire and styles.
- MUS:3230 Composition Seminar** 0-1 s.h.  
Corequisites: MUS:2220 and MUS:5220.
- MUS:3240 Advanced Compositional Concepts and Techniques** 1-2 s.h.  
Acquisition, development, and application of advanced techniques and concepts in composition; topics will vary, depending on faculty and student interests; topics may include algorithmic methods, interactive performance systems, sound diffusion/spatialization, tuning systems, mathematical group theory, signal processing, advanced coding, and study and compositional application of new digital technologies and software, as well as analog systems from the past 50 years. Prerequisites: MUS:2220 or MUS:5220.
- MUS:3280 Spectral Nature of Sound: Acoustics, Analysis, and Resynthesis** 3 s.h.  
Fourier, fast Fourier transform (FFT), and inverse FFT, including spectral analysis and processing in Max; for composers, performers, and music theorists interested in the nature of sounds and their manipulation.
- MUS:3285 New Musical Instruments: From Design to Performance** 3 s.h.  
Acoustic principles of selected traditional instruments (e.g., winds, strings, percussion) as well as principles of electroacoustic sound production (e.g., analog synthesizers, microphones, transducers); students work in teams to build, test, and improve their own musical instrument and experiment with its playing modes; projects may include inharmonic variations upon classical instruments, musical bots, guitar or voice-processing pedals, transducer-driven DIY Gamelans, and more; for composers, performers, engineers, and sound enthusiasts who want to design, build, and/or perform with new musical instruments. GE: Engineering Be Creative. Same as DIGA:3285.
- MUS:3400 Methods of Teaching Piano** 2 s.h.  
Methods, materials, and teaching techniques for preschool students, precollege students, and adult learners. Requirements: keyboard major.
- MUS:3410 Fundamentals of Piano Technology** 1 s.h.  
Offered spring semesters. Requirements: music major.
- MUS:3480 Piano Accompaniment** 1 s.h.  
Collaborative arts techniques, methods, and history.

- MUS:3481 Piano Chamber Music** 1-2 s.h.  
Requirements: music major.
- MUS:3482 String Chamber Music** 1-2 s.h.
- MUS:3483 Baroque Seminar for Strings** 1 s.h.  
Introduction to Baroque performance practices and techniques on period string instruments; ensembles. Requirements: enrollment in upper-level or graduate-level applied studies.
- MUS:3485 Wind Chamber Music** 1-2 s.h.  
Preparation, performance of representative literature; sections for woodwinds, brass, flute, clarinet, horn, saxophone, double reed, trumpet, trombone, brass choir, tuba/euphonium ensemble.
- MUS:3486 Bach Performance Seminar** 1 s.h.  
Performance practice and interpretation of J.S. Bach's music and late German Baroque period using modern instruments; differences between Baroque performance on period and modern instruments; concept of historically informed practice (HIP) and its application in performing Bach's masterpieces; master-class format culminating in a public recital of repertoire studied during semester.
- MUS:3489 Chamber Music Residency Program** 1-2 s.h.  
Focused exploration of chamber music literature through small ensemble experiences; students are assigned a group to work with and groups rehearse independently a minimum of two hours per week; weekly one-hour coaching with a faculty member; attendance at weekly seminars; opportunity to explore the national chamber music scene and learn about various aspects of pursuing a chamber music career through interactions with faculty, guest lecturers, and master classes provided by visiting performers of the UI String Quartet Residency Program.
- MUS:3500 Opera Workshop** 2 s.h.  
Opera performing techniques, including acting, aria interpretation, scene work. Requirements: vocal major or audition.
- MUS:3501 Opera Theater Chorus** 1 s.h.  
Requirements: audition.
- MUS:3502 Opera Production** 2-4 s.h.  
Preparation and rehearsals leading up to performance of full production; may include one-act opera, chamber opera, musical theater production, or full-length opera. Corequisites: MUS:3503. Requirements: audition.
- MUS:3503 Vocal/Operatic Coaching** 1 s.h.  
Professional-level vocal coaching in preparation for opera productions, opera workshop, degree recitals. Corequisites: MUS:3502.
- MUS:3510 Discovering Art Song** 1 s.h.  
Schubert, Schumann, Brahms, Wolf, Strauss, Mahler; appropriate diction, style. Prerequisites: MUS:1510 and MUS:2510.
- MUS:3511 Interpretation of Non-German Art Song** 1 s.h.  
Art songs in English, French, Italian, Spanish; appropriate diction, style. Prerequisites: MUS:1510 and MUS:2510.
- MUS:3530 Musical Theatre Workshop** 2 s.h.  
Development of musical theatre performance skills through participation; students learn how to project intentions, attitudes, and personality traits of characters they portray; fundamentals of stagecraft, acting, movement, relaxation, and concentration; accurate musical coaching, including clear diction and solidly built dramatic musical interpretation. Same as THTR:3530.
- MUS:3600 Undergraduate Music Education Workshop** 1 s.h.  
Topics vary; for inservice music teachers.
- MUS:3601 Undergraduate Music Education Workshop II** 1 s.h.  
Topics vary; for inservice music teachers.
- MUS:3605 Instrumental Techniques** 2 s.h.  
Same as EDTL:3605.
- MUS:3625 Techniques of Conducting** 2 s.h.  
Basic elements, score analysis.
- MUS:3635 Instrumental Conducting** 3 s.h.  
Advanced skills for instrumental conducting, score analysis, rehearsal techniques, literature selection. Prerequisites: MUS:3625. Same as EDTL:3635.
- MUS:3640 Choral Methods** 3 s.h.  
Organization, implementation of effective choral music programs for all ages. Prerequisites: EDTL:3610. Same as EDTL:3640.
- MUS:3645 Choral Conducting and Literature** 3 s.h.  
Advanced skills appropriate to choral conducting, analysis, literature selection studied and implemented to develop a secure approach to choral art; students preparing to teach in the elementary or secondary schools must register under EDTL:3645. Prerequisites: MUS:3625. Same as EDTL:3645.
- MUS:3650 Instrumental Methods and Materials** 3 s.h.  
Elementary and secondary instrumental music methods course required for K-12 music teacher certification. Prerequisites: EDTL:3610. Same as EDTL:3650.
- MUS:3659 Class Strings** 1 s.h.  
String playing and basic principles of string pedagogy; for band and string students. Offered fall semesters for band; offered fall and spring semesters for string. Requirements: teacher education student in music.
- MUS:3664 Introduction to Wind and Percussion Instruments** 2 s.h.  
Survey of wind and percussion instruments; for music education string majors.
- MUS:3665 Arranging for Band** 2-3 s.h.  
Scoring and arranging techniques for concert, marching bands.
- MUS:3666 Marching Band Techniques** 1 s.h.  
Administration, show design. Offered fall semesters.
- MUS:3675 Music Therapy Practicum** 1-2 s.h.  
Supervised clinical training with adult clients and children in variety of health care and educational settings. Prerequisites: MUS:1687. Requirements: music therapy major.
- MUS:3676 Percussion Experience for Teachers and Therapists** arr.  
Hands-on learning experiences in percussion techniques used by music teachers, special education teachers, music therapists, or social workers; basics of hand drumming centering on West African djembe and Trinidadian steel band; skills necessary for interacting with students and clients in educational and clinical settings.
- MUS:3680 Music in Special Education** 3 s.h.  
Music methods and materials appropriate for students with disabilities in special educational settings; overview of individualized educational planning for students with disabilities. Requirements: music therapy or music education major.

- MUS:3690 Music Therapy with Adults** 3 s.h.  
Techniques, procedures for work with adult clients with disabilities. Prerequisites: MUS:1687. Requirements: music therapy major.
- MUS:3700 iPad for Musicians** 2 s.h.  
Opportunity to discover the many hardware and software applications available for the iPad; for music majors, especially of interest for music education and music therapy students. Requirements: music major.
- MUS:3710 Intermediate Jazz Improvisation** 2 s.h.  
Improvisation in the jazz repertoire of standards, bebop, and major composers such as Thelonious Monk, Wayne Shorter; memorization and use of melodies, knowledge of chords to the thirteenth, chromatic harmony, development of rhythmic motifs/alteration, strategies for multiple chorus improvisations; separate section for drummers. Prerequisites: MUS:3001 and MUS:3750. Requirements: audition.
- MUS:3730 Jazz Band** 1 s.h.  
Jazz performance ensembles, rehearsals, and concerts on and off campus.
- MUS:3740 Small Jazz Ensembles** 1 s.h.  
Development of repertoire from standard jazz literature, arrangements and compositions by ensemble members; rehearsals (three hours per week) and performances on and off campus. Requirements: audition.
- MUS:3760 Jazz Band Techniques** 1 s.h.  
Development of skills for sight-reading and interpreting notated jazz. Prerequisites: MUS:1711.
- MUS:3780 Audio Recording I** 3 s.h.  
Introduction to audio fundamentals, including basic acoustics and audio systems; survey of important equipment and practices, use of microphones and mixers; introduction to AVID's Pro Tools digital audio workstation; students with no background in audio production brought up to an operational proficiency level with basic recording systems; related technical topics develop an understanding of common equipment and conventional application in modern recording studio setting; recording techniques used in MUS:3781.
- MUS:3781 Audio Recording II** 3 s.h.  
Survey of Pro Tools; fundamental digital audio concepts applied to hands-on music recording and postproduction projects on digital audio workstations; Pro Tools 101 content with supplementary readings and recording sessions; operational knowledge of Pro Tools software and hardware configurations; basic processes of software-based digital audio recording through recording sessions and sample projects; development of functional understanding of postproduction concepts. Prerequisites: MUS:3780.
- MUS:3800 Reed Class** 1 s.h.  
Development of reed-making skills; focus on steps to complete reeds from tube cane to a finished reed; different ways of reed making; practical, pedagogical, and historical approaches; producing various reed styles. Requirements: music major.
- MUS:3830 Wind Instrument Maintenance and Repair** 1 s.h.  
Principles of maintenance, repair, and adjustment of wind instruments; hands-on experience including mechanical instruction on all brass and woodwind instruments; how to perform minor and emergency repairs on wind instruments, demonstration of tools and supplies needed to perform repairs and musical instrument maintenance.
- MUS:3850 Introduction to Laban Movement Studies** 2-3 s.h.  
Introduction to Bartenieff Fundamentals (BF) and Laban Movement Analysis (LMA) as methods of organizing and integrating movement to support artistic goals and expanding expressive range; BF teaches body awareness, breath support, developmental patterns, ergonomically efficient alignment, balancing of muscular strength and stretch, and coordination; LMA teaches vocabulary of expressive movement and nonverbal communication, including effort (use of energy/dynamics for expression, stamina, stress relief) and shape (how posture and gesture communicate); quality of movement that supports individual goals in artistic expression, sound production, and wellness. Same as DANC:3850, DPA:3850, THTR:3850.
- MUS:3851 Introduction to the Alexander Technique** 3 s.h.  
The Alexander Technique and "self-use"—how movement choices affect results achieved; improvement of physical skills and presence; principles in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting); application to skills in daily life, addressing underpinnings of movement; physical participation (e.g., lying down, rolling, sitting, standing, locomotion). Same as DANC:3851, DPA:3851.
- MUS:3990 Special Studies** 0-4 s.h.
- MUS:4080 Contemporary Improvisation and Production for Classical Performers** 2 s.h.  
Introduction and development of skills related to improvisation and production (i.e., arranging, composition, project creation) applicable to the ever-evolving world of the 21st-century performer; topics include practical ear training/theory necessary for success in improvisation, arranging skills, relevant technologies, and introduction to various nonclassical styles.
- MUS:4200 Counterpoint Before 1600** 3 s.h.  
Two- and three-part counterpoint; Renaissance polyphony. Requirements: MUS:2203 for undergraduates; MUS:5200 for graduate students or exemption by Graduate Advisory Exam.
- MUS:4201 Counterpoint After 1600** 3 s.h.  
Survey of contrapuntal and textural techniques from 1600 to the present. Requirements: MUS:2204 for undergraduates; MUS:5200 or exemption on Graduate Advisory Exam for graduate students.
- MUS:4210 Keyboard Harmony** 1-2 s.h.  
Melody harmonization and figured-bass realization at the keyboard. Requirements: MUS:2204 for undergraduates; MUS:5200 or exemption by Graduate Advisory Exam for graduate students; and keyboard proficiency for all students.
- MUS:4220 Orchestration** 3 s.h.  
Instrumental capabilities and combinations in solo, chamber, and large ensemble literature; application in composition.
- MUS:4250 Composition: Electronic Media I** 3 s.h.  
Composition using analog, digital technology. Offered fall semesters.
- MUS:4251 Composition: Electronic Media II** 3 s.h.  
Advanced interactive techniques in composition in association with analog, digital technologies. Offered spring semesters.
- MUS:4320 Music and Gender** 3 s.h.  
Roles that gender has played in shaping the history of musical performance and composition.
- MUS:4325 Medieval and Renaissance Music** 3 s.h.
- MUS:4330 Baroque Music** 3 s.h.

- MUS:4335 Eighteenth-Century Music** 3 s.h.
- MUS:4340 Nineteenth-Century Music** 3 s.h.
- MUS:4345 Twentieth-Century Music** 3 s.h.
- MUS:4350 Advanced Jazz History** 3 s.h.  
Survey and examination of the history of jazz from early 20th century to present; placement of musical conventions, influential performers, and aesthetic shifts that have shaped the history of jazz music in social, cultural, and technological context; prior musical background not required.
- MUS:4355 American Music** 3 s.h.  
Who defines American music? In what ways do musicians, audiences, conductors, critics, and historians in the United States work to shape (and reshape) the country's musical identity? Students examine a variety of performers, works, and events in the history of American music that help ask and answer these questions in different ways; special attention given to analytical skills required to think critically about the different voices empowered to shape public understanding(s) of our musical past.
- MUS:4360 Jazz Matters** 3 s.h.  
Students cover a variety of historic jazz scenes (e.g., New Orleans, New York, Chicago) and investigate the reciprocal relationship between music and place as it pertains to the history of jazz; through listening, analysis, and primary source research, students work to understand select case studies as influential musical environments, charting the ways American cities have historically supported jazz and jazz musicians; examination of a broad range of musical media (e.g., film soundtracks, musicals, cartoon depictions) to uncover the ways prominent "jazz cities" have been imagined, shaped, and reshaped by adjacent ideas about race, gender, and nationhood.
- MUS:4450 Organ Literature Survey** 2 s.h.  
Fifteenth century to present. Requirements: advanced undergraduate or graduate standing.
- MUS:4452 Liturgics** 2 s.h.  
History of liturgies and survey of liturgical music from Judaism to present.
- MUS:4454 Service Playing and Improvisation** 2 s.h.  
Hymn playing, accompanying, basic improvisation techniques. Requirements: organ major.
- MUS:4610 Studies in Film and Music** 3 s.h.  
Critical approaches to historical and contemporary interrelationships between film and music; soundtracks and film scores; popular song and cinema. Prerequisites: CINE:1601 with a minimum grade of C. Same as CINE:4610.
- MUS:4630 Psychology of Music** 2-3 s.h.  
Cognition of music, affective response, aesthetic response, musical ability. Same as ECTL:4630.
- MUS:4670 Internship in Music Therapy** 2,12 s.h.  
Clinical training under direction of board certified music therapist. Requirements: core music therapy requirements.
- MUS:4675 Senior Project in Music Therapy** 1 s.h.
- MUS:4685 Music Therapy with Children** 3 s.h.  
Techniques, procedures for use in clinical, educational settings. Prerequisites: MUS:1687. Requirements: music therapy major.
- MUS:4710 Advanced Jazz Improvisation** 2 s.h.  
Builds on the skills learned in MUS:3710; contemporary techniques and styles used by current practitioners of improvisation; free improvisation, bitonal harmonies, through-composed forms, collective improvisation, nonwestern approaches. Prerequisites: MUS:3710 and MUS:3750. Requirements: audition.
- MUS:4730 Jazz Theory** 3 s.h.  
Development of skills needed for interpreting jazz melodies, chord symbols, comprehension of jazz song forms, and analysis of jazz-specific harmony in mainstream jazz music; practical application of jazz scales and reharmonization techniques; contains a practical application component on student's instrument of specialty. Requirements: MUS:1201.
- MUS:4750 Transcription** 2 s.h.  
Individual projects to transcribe improvisations, small ensemble arrangements, large ensemble arrangements, or nonwestern techniques; use of computer notation programs and midi-realizations. Prerequisites: MUS:3710 and MUS:3750.
- MUS:4760 Jazz Composition and Arranging** 2 s.h.  
Experience writing and arranging original jazz material for small and large ensembles, and presenting scores in computer notation; individual lessons. Prerequisites: MUS:3750.
- MUS:4761 Advanced Jazz Composition and Arranging** 2 s.h.  
Continuation of MUS:4760; opportunity for further study and work in the practical application of composition and arranging skills; one-on-one lessons focus on areas of composition that best suit student's desired type, style, and/or instrumentation of creative output; areas may include writing for big band, strings, styles beyond typical jazz, or composing original repertoire. Prerequisites: MUS:4760.
- MUS:4800 Special Topics in Music** 1-2 s.h.  
Topics vary.
- MUS:4900 Senior Recital** 1 s.h.
- MUS:4910 Bachelor's Thesis** 0-1 s.h.
- MUS:4995 Honors in Music** 1-4 s.h.  
Requirements: honors standing.
- MUS:5101 Advanced Woodwind Pedagogy and Literature I** 2 s.h.  
Saxophone and clarinet solo and study literature; integration of pedagogical topics.
- MUS:5102 Advanced Woodwind Pedagogy and Literature II** 3 s.h.  
Oboe, bassoon, and flute solo and study literature; integration of pedagogical topics.
- MUS:5111 Advanced Brass Pedagogy and Literature I** 2 s.h.  
Tuba, euphonium, and trombone literature; pedagogical topics.
- MUS:5112 Advanced Brass Pedagogy and Literature II** 2 s.h.  
Trumpet and horn literature; pedagogical topics.
- MUS:5115 Advanced Brass Ensemble Literature** 2 s.h.  
Brass chamber music literature, including mixed and like-instrument ensembles.
- MUS:5121 Advanced String Methods and Literature I** 2 s.h.  
Violin, viola, cello, and double bass solo and chamber music repertoire, pedagogical methods.

<b>MUS:5122 Advanced String Methods and Literature II</b>	<b>2 s.h.</b>	<b>MUS:5555 Voice Habilitation</b>	<b>2 s.h.</b>
Violin, viola, cello, and double bass solo and chamber music repertoire, pedagogical methods.		Application of methods of intervention in development, training, rehabilitation of vocal behavior; motor learning, efficacy of treatment strategies, factors affecting compliance with recommended therapy. Offered fall semesters. Same as CSD:5213.	
<b>MUS:5130 Advanced Percussion Pedagogy and Literature</b>	<b>2 s.h.</b>	<b>MUS:5600 Graduate Music Education Workshop</b>	<b>1 s.h.</b>
Percussion literature, styles, notation, performance techniques, composition; survey.		For inservice music teachers; topics vary. Same as EDTL:5600.	
<b>MUS:5200 Review of Undergraduate Theory</b>	<b>3 s.h.</b>	<b>MUS:5601 Graduate Music Education Workshop II</b>	<b>1 s.h.</b>
Theories and strategies of analysis applied to tonal and post-tonal music.		Varied topics; for inservice music teachers. Same as EDTL:5601.	
<b>MUS:5220 Advanced Composition</b>	<b>1-2 s.h.</b>	<b>MUS:6020 Major Voice</b>	<b>arr.</b>
Corequisites: MUS:3230.		<b>MUS:6021 Major Piano</b>	<b>arr.</b>
<b>MUS:5235 Tonal Analysis</b>	<b>3 s.h.</b>	<b>MUS:6022 Major Organ</b>	<b>arr.</b>
Requirements: MUS:5200 or exemption on Graduate Advisory Exam.		<b>MUS:6023 Major Violin</b>	<b>arr.</b>
<b>MUS:5236 Non-Tonal Analysis</b>	<b>3 s.h.</b>	<b>MUS:6024 Major Viola</b>	<b>arr.</b>
Requirements: MUS:5200 or exemption on Graduate Advisory Examination.		<b>MUS:6025 Major Cello</b>	<b>arr.</b>
<b>MUS:5237 Analysis of Popular Music</b>	<b>3 s.h.</b>	<b>MUS:6026 Major String Bass</b>	<b>arr.</b>
Survey; analysis of popular music. Prerequisites: MUS:5200.		<b>MUS:6027 Major Flute</b>	<b>arr.</b>
<b>MUS:5240 Special Topics in Theory and Analysis</b>	<b>3 s.h.</b>	<b>MUS:6028 Major Oboe</b>	<b>arr.</b>
Requirements: MUS:5200 or exemption on Graduate Advisory Exam for graduate students.		<b>MUS:6029 Major Clarinet</b>	<b>arr.</b>
<b>MUS:5300 Introduction to Graduate Study in Music</b>	<b>2 s.h.</b>	<b>MUS:6030 Major Bassoon</b>	<b>arr.</b>
Music library; reference materials; bibliography; research problems, methods; writing research papers. Offered fall and spring semesters.		<b>MUS:6031 Major Saxophone</b>	<b>arr.</b>
<b>MUS:5400 Piano Pedagogy I</b>	<b>2 s.h.</b>	<b>MUS:6032 Major Horn</b>	<b>arr.</b>
In-depth study of techniques and materials needed to teach intermediate and advanced piano students; judging competitions; conducting master classes; writing curriculum vitae and cover letters in preparation for academic job searches.		<b>MUS:6033 Major Trumpet</b>	<b>arr.</b>
<b>MUS:5401 Piano Pedagogy II</b>	<b>2 s.h.</b>	<b>MUS:6034 Major Trombone</b>	<b>arr.</b>
History of the piano and its technique and pedagogy; national schools of piano playing; relationship of technological changes in piano construction to piano technique, pedagogy, and composition; major methods and treatises, historical recordings and video clips; research leading to understanding of students' individual piano lineage.		<b>MUS:6035 Major Euphonium</b>	<b>arr.</b>
<b>MUS:5410 Piano Literature I</b>	<b>2 s.h.</b>	<b>MUS:6036 Major Tuba</b>	<b>arr.</b>
Baroque era to Mozart or Chopin through 1900.		<b>MUS:6037 Major Percussion</b>	<b>arr.</b>
<b>MUS:5411 Piano Literature II</b>	<b>2 s.h.</b>	<b>MUS:6120 Graduate Secondary Performance - Voice</b>	<b>1 s.h.</b>
Beethoven through Schumann or 20th century.		<b>MUS:6121 Graduate Secondary Performance - Piano</b>	<b>1 s.h.</b>
<b>MUS:5450 History of Organ Building and Design</b>	<b>2-3 s.h.</b>	Required seminar and lessons to be arranged. Requirements: music major.	
Development of organ design from Middle Ages to present; basic concepts of construction, maintenance.		<b>MUS:6122 Graduate Secondary Performance - Organ</b>	<b>1 s.h.</b>
<b>MUS:5452 Organ Pedagogy</b>	<b>2 s.h.</b>	Required seminar and lessons to be arranged. Requirements: music major.	
History, theory, practice from Renaissance to present; methods, literature appropriate for various levels.		<b>MUS:6123 Graduate Secondary Performance - Violin</b>	<b>1 s.h.</b>
<b>MUS:5475 Organ Literature Special Topics</b>	<b>2 s.h.</b>	<b>MUS:6124 Graduate Secondary Performance - Viola</b>	<b>1 s.h.</b>
Specialized study in selected areas of organ literature.		Required seminar and lessons to be arranged. Requirements: music major.	
<b>MUS:5510 Graduate Diction</b>	<b>2 s.h.</b>	<b>MUS:6125 Graduate Secondary Performance - Cello</b>	<b>1 s.h.</b>
Advanced pronunciation of singing languages. Requirements: grade of B or higher in undergraduate diction in French, German, and Italian.		Required seminar and lessons to be arranged. Requirements: music major.	
		<b>MUS:6126 Graduate Secondary Performance - String Bass</b>	<b>1 s.h.</b>
		Required seminar and lessons to be arranged. Requirements: music major.	

- MUS:6127 Graduate Secondary Performance - Flute** 1 s.h.  
Required seminar and lessons to be arranged. Requirements: music major.
- MUS:6128 Graduate Secondary Performance - Oboe** 1 s.h.  
Required seminar and lessons to be arranged. Requirements: music major.
- MUS:6129 Graduate Secondary Performance - Clarinet** 1 s.h.  
Required seminar and lessons to be arranged. Requirements: music major.
- MUS:6130 Graduate Secondary Performance - Bassoon** 1 s.h.  
Required seminar and lessons to be arranged. Requirements: music major.
- MUS:6131 Graduate Secondary Performance - Saxophone** 1 s.h.  
Required seminar and lessons to be arranged. Requirements: music major.
- MUS:6132 Graduate Secondary Performance - Horn** 1 s.h.  
Required seminar and lessons to be arranged. Requirements: music major.
- MUS:6133 Graduate Secondary Performance - Trumpet** 1 s.h.  
Required seminar and lessons to be arranged. Requirements: music major.
- MUS:6134 Graduate Secondary Performance - Trombone** 1 s.h.  
Required seminar and lessons to be arranged. Requirements: music major.
- MUS:6135 Graduate Secondary Performance - Euphonium** 1 s.h.  
Required seminar and lessons to be arranged. Requirements: music major.
- MUS:6136 Graduate Secondary Performance - Tuba** 1 s.h.  
Required seminar and lessons to be arranged. Requirements: music major.
- MUS:6137 Graduate Secondary Performance - Percussion** 1 s.h.  
Required seminar and lessons to be arranged. Requirements: music major.
- MUS:6139 Graduate Secondary Performance - Composition** 1 s.h.  
Individual lessons; for non-composition music majors. Requirements: music major.
- MUS:6200 Music Theory Colloquium** 1 s.h.
- MUS:6210 History of Ideas of Music** 3 s.h.  
Topical survey; historical theories of music with regard to harmony, rhythm, affect, and more. Requirements: MUS:5200 or exemption on Graduate Advisory Exam.
- MUS:6211 Theoretical Approaches to Music** 3 s.h.  
Requirements: MUS:5200 or exemption by Graduate Advisory Exam.
- MUS:6215 Music Theory Pedagogy** 3 s.h.  
Methods and techniques of teaching college-level music theory, including harmony, sight singing, ear training. Corequisites: MUS:6200. Requirements: MUS:5200 or exemption by Graduate Advisory Exam.
- MUS:6250 Advanced Tonal Theory and Analysis** 3 s.h.  
Prerequisites: MUS:5235.
- MUS:6251 Advanced Non-Tonal Theory and Analysis** 3 s.h.  
Prerequisites: MUS:5236.
- MUS:6252 Advanced Theory and Analysis of Popular Music** 3 s.h.  
Intensive study of theories and advanced analysis of popular music. Prerequisites: MUS:5237.
- MUS:6300 Musicology Colloquium** 1 s.h.
- MUS:6305 Teaching Music History and Culture** 3 s.h.  
Preparation for teaching music history and culture including course design, syllabi preparation, classroom strategies, and current pedagogical issues.
- MUS:6310 Topics in Musicology** 3 s.h.  
One or more selected areas of music history.
- MUS:6312 Historical Approaches to Music** 3 s.h.  
Research techniques, methodologies, and contemporary issues of historical musicology.
- MUS:6314 Topics in Ethnomusicology** 3 s.h.  
Perspectives on analysis and representation of selected musical cultures from around the world.
- MUS:6315 Foundations of Ethnomusicology** 3 s.h.  
Ethnomusicology in relation to domains of musical, humanistic, social science scholarship on expressive culture and artistic processes. Requirements: senior standing.
- MUS:6326 Renaissance Music Notations** 3 s.h.  
Renaissance white notation, keyboard tablatures, musical paleography; transcription of early vocal, instrumental notations; editorial problems. Requirements: exemption by Graduate Advisory Exam.
- MUS:6375 Music Editing** 3 s.h.  
Principles and methods of music editing; use of primary source materials, establishment of music text, preparation of critical apparatus; project to prepare a critical edition of music for publication.
- MUS:6520 Vocal Pedagogy** 3 s.h.  
History of voice pedagogy, various pedagogical techniques of voice training, vocal anatomy, voice classification, critical listening, postural alignment, managing breath, tonal production, connecting registers, articulation, interpretation, vocal health, pharmacological effects on the voice, vocal gadgets, requirements for a professional career, teaching in the 21st century, and teaching practicum; diagnosis and correction of vocal faults. Same as CSD:6202.
- MUS:6530 Topics in Vocal Performance** 2 s.h.  
Selected areas of vocal performance.
- MUS:6535 Opera Theater Directing Seminar** 3 s.h.  
Exploration, discussion, and experience using techniques unique to directing opera. Score and libretto analysis, fundamentals of stagecraft, casting and management skills.
- MUS:6540 Survey of Operatic Literature** 3 s.h.  
Important operatic scores examined from standpoint of performers, directors; production problems.
- MUS:6541 Survey of Song Literature I** 3 s.h.  
German language lieder from 18th century to present; French mélodie from Meyerbeer to present. Offered fall semesters of odd years.

- MUS:6542 Survey of Song Literature II** 3 s.h.  
British, American, Italian, Spanish, Latin American, Scandinavian, and Russian art song from 18th century to present. Offered fall semesters of even years.
- MUS:6561 Seminar: Choral Literature and Analysis I** 1-3 s.h.  
Choral music of the Renaissance. Corequisites: MUS:6581.
- MUS:6562 Seminar: Choral Literature and Analysis II** 1-3 s.h.  
Choral music of the Baroque era. Corequisites: MUS:6582.
- MUS:6563 Seminar: Choral Literature and Analysis III** 1-3 s.h.  
Choral music of the Classical and Romantic eras. Corequisites: MUS:6583.
- MUS:6564 Seminar: Choral Literature and Analysis IV** 1-3 s.h.  
Choral music of the 20th and 21st centuries. Corequisites: MUS:6584.
- MUS:6579 Orchestral Conducting Lab** 2 s.h.  
Introduce, improve, and refine gestural skills, emphasizing score analysis; class discussions and laboratory orchestra experiences.
- MUS:6580 Advanced Orchestral Conducting** 2 s.h.
- MUS:6581 Advanced Choral Conducting I** 1-3 s.h.  
Music of the Renaissance. Corequisites: MUS:6561.
- MUS:6582 Advanced Choral Conducting II** 1-3 s.h.  
Music of the Baroque era. Corequisites: MUS:6562.
- MUS:6583 Advanced Choral Conducting III** 1-3 s.h.  
Music of the Classical and Romantic eras. Corequisites: MUS:6563.
- MUS:6584 Advanced Choral Conducting IV** 1-3 s.h.  
Music of the 20th and 21st centuries. Corequisites: MUS:6564.
- MUS:6585 Score Reading** 1 s.h.
- MUS:6586 Advanced Orchestral Literature and Professional Development** 2 s.h.
- MUS:6589 Advanced Wind Conducting** 1 s.h.  
Advanced conducting technique, score study, and literature as related to symphonic band and chamber wind ensembles.
- MUS:6590 Seminar in Advanced Band Literature and Band History** 1-2 s.h.  
Band literature; history.
- MUS:6670 Graduate Music Therapy Practicum** arr.  
Seminar, clinical fieldwork. Requirements: undergraduate music therapy practicum.
- MUS:6675 Research in Music Therapy - Graduate** 1 s.h.  
Research methodology; foundation for subsequent semesters of research on capstone project in music therapy.
- MUS:6680 College Teaching and Clinic Supervision in Music Therapy** 1-2 s.h.  
Principles of college teaching, curriculum development, clinical supervision in music therapy.
- MUS:6685 Theory and Research in Music Therapy** 1 s.h.  
Historical background, current principles and practices associated with theories of music therapy, common uses with specific populations; research methodologies associated with testing; theories and clinical practices, assigned research publications; information covered over several semesters with each semester covering three to four common theories; seminar includes strengths and limitations of each theory and its place within clinical practice. Requirements: undergraduate core courses in music therapy.
- MUS:6690 Special Studies in Music Therapy** 1-3 s.h.  
Seminar. Requirements: music therapy or music education graduate standing.
- MUS:6900 M.A. Recital** 1-2 s.h.
- MUS:6910 M.F.A. Thesis** 1-2 s.h.
- MUS:6920 M.A. Performance Project** 1-2 s.h.
- MUS:6950 M.A. Thesis** 1-3 s.h.
- MUS:7135 Seminar in Music Recording and Research** 1 s.h.  
Review of existing projects, preparation, and vetting of recording project proposals; discussion of recording technology, preparation and planning of recording projects, and recording session protocols and best practices; preparation for the D.M.A. thesis recording option and taken before or during the semester in which the D.M.A. candidate intends to defend the topic proposal.
- MUS:7140 Seminar in Music Research** 2 s.h.  
Builds on skills learned in MUS:5300; exploration of research methodologies necessary to initiate selection of a thesis research topic and preparation of a proposal for the D.M.A. thesis; class time devoted to student preparation for the profession including application and interviewing for academic positions, development of a research plan, and other topics related to career development. Prerequisites: MUS:5300. Requirements: third semester graduate standing and pass qualifying recital.
- MUS:7280 Readings in Music Theory** 0-1 s.h.
- MUS:7380 Readings in Music History** arr.
- MUS:7400 Special Studies Piano Literature** 1-2 s.h.  
Individual research in special aspects of piano literature; primarily for D.M.A. students.
- MUS:7401 Special Studies in Piano Accompaniment and Chamber Music** 1-2 s.h.  
Advanced collaborative arts practicum.
- MUS:7899 D.M.A. Qualifying Recital** 0 s.h.  
Preparation and work towards a qualifying recital presented to a full doctoral recital committee of five members by the end of the second semester of registration (excluding summer session); in the event a qualifying recital is unacceptable, one additional recital with different repertoire may be given at the discretion of the examining committee.
- MUS:7900 D.M.A. Recital** 1-2 s.h.
- MUS:7950 Ph.D. Thesis** 1-4 s.h.
- MUS:7960 Composition Ph.D. Thesis** 1-4 s.h.
- MUS:7970 D.M.A. Essay and Thesis** 1-4 s.h.

# Music, B.A.

The Bachelor of Arts with a major in music is intended for undergraduates who have a strong background in music, and who wish to major in music as part of a broad liberal arts education irrespective of specific career aspirations. The curriculum includes musicianship, performance, and electives.

The program is designed for students who have solid abilities and interest in music but are not necessarily planning on careers as musicians, or for those who wish to pursue a double major or earn more than one bachelor's degree. Students must audition and be accepted into a performance area. They develop musicianship, performance skills, and select from a wide variety of music electives.

Students in many areas, from engineering and physics to history, art, and English, find that a B.A. in music is a good addition to their studies. Other students pursue the degree to complement coursework in business (especially the minor in business administration), a world language and literature, or interdisciplinary fields such as American studies. Some students combine their B.A. with undergraduate preparation to study law or medicine.

## Learning Outcomes

Graduates of the B.A. program in music will be able to:

- demonstrate the ability to hear, identify, and work conceptually with the rhythmic, melodic, harmonic, and structural elements of music;
- identify compositional processes, aesthetic properties of style, and artistic and cultural forces in music;
- demonstrate a broad acquaintance with music literature, musical genres, and cultural sources;
- demonstrate the ability to read and write critically about music; and
- demonstrate the ability to sight read, prepare for performance, interpret, and perform both solo and ensemble music in a variety of musical styles.

## Requirements

The Bachelor of Arts with a major in music requires a minimum of 120 s.h., including 42-54 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. B.A. students majoring in music may count a maximum of 56 s.h. earned in music courses toward their degree and they must earn at least 64 s.h. in coursework outside of the School of Music in order to graduate. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20]. Students must satisfy all requirements for graduation; contact the School of Music and the Academic Advising Center to learn more.

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be accepted into a performance area through audition either in person or by recording before they register. All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses.

Transfer students admitted to the School of Music must complete a minimum of one year of applied music (lower or upper level) and one year of major ensemble at the

University of Iowa in order to earn a degree in music. Transfer students who have not completed the equivalent of the four-semester sequence of Musicianship and Theory I-IV (MUS:1201, MUS:1202, MUS:2203, and MUS:2204) must complete an advisory theory diagnostic exam to determine recommendations for appropriate placement in the musicianship and theory sequence. Transfer students who have not completed the equivalent of two semesters of class piano or a piano proficiency exam must meet piano proficiency requirements at the University of Iowa.

Students may choose to complete the B.A. with no track or choose from the following tracks: chamber music—piano, chamber music—strings/winds, jazz, music theory, musicology, and piano pedagogy.

- Major in Music Without Track [p. 847]
- Chamber Music—Piano Track [p. 848]
- Chamber Music—Strings/Winds Track [p. 849]
- Jazz Track [p. 850]
- Music Theory Track [p. 851]
- Musicology Track [p. 852]
- Piano Pedagogy Track [p. 853]

All music majors with scholarships must participate in a major ensemble and studio lessons each semester.

Students who take a music course in one area cannot use it to satisfy a music requirement in another area.

## Major in Music Without Track

The Bachelor of Arts with a major in music without a track requires a minimum of 120 s.h., including at least 42-44 s.h. of work for the major.

The B.A. with a major in music without a track requires the following coursework.

Code	Title	Hours
	Musicianship Courses	16-18
	Musicianship Electives	6
	Performance (Applied Music/Ensembles)	14
	Electives	6
<b>Total Hours</b>		<b>42-44</b>

## Musicianship Courses

Students take a piano placement exam and may be exempt from one or both of these courses: MUS:1211 or MUS:1212.

Code	Title	Hours
All of these:		
MUS:1200	Fundamentals of Music for Majors (or successful completion of MUS:1201 online theory diagnostic examination)	0
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1

Two of these:

MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

To register for MUS:1201 Musicianship and Theory I, students also must register for MUS:1211 Group Instruction in Piano I, have already completed that course, or have been exempted from it by proficiency exam. To register for MUS:1202 Musicianship and Theory II, students also must register for MUS:1212 Group Instruction in Piano II or already have completed that course or have been exempted from it by proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempted by proficiency exam.

### Musicianship Electives

Code	Title	Hours
6 s.h. from these:		
MUS:1310	World Music	3
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
MUS:3625	Techniques of Conducting	2
MUS:3665	Arranging for Band	2-3
MUS:4200	Counterpoint Before 1600	3
MUS:4350	Advanced Jazz History	3
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2

### Performance (Applied Music/Ensembles)

Major ensembles include MUS:1176 Voxman Chorale, MUS:3160 Symphony Band/Concert Band, MUS:3170 Kantorei, MUS:3172 Camerata Singers, MUS:3174 University Choir, and MUS:3180 Orchestra. With approval, students may use MUS:3730 Jazz Band to satisfy the major ensemble requirement. Any student who wishes to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the director for undergraduate studies.

Code	Title	Hours
All of these:		
	Lower-level applied music lessons	4
	Major ensemble (minimum of four semesters)	4
	Performance electives (lower- or upper-level applied music, ensembles, improvisation; a maximum of six semesters of 12 s.h. in lower-level applied instruction is allowed)	6

### Electives

Code	Title	Hours
6 s.h. in music electives chosen from any music courses (prefix MUS) or from these recommended courses, except for music courses closed to music majors:		
DPA:3510/ INTD:3510/ THTR:3510	Introduction to Arts Management	3
ENTR:2000	Entrepreneurship and Innovation	3
ENTR:3200	Entrepreneurial Marketing	3
THTR:3525/ DANC:3525/ DPA:3525/ ENTR:3525	The Business of the Performing Arts	3

### Tracks

#### Chamber Music—Piano Track

The Bachelor of Arts with a major in music with the chamber music—piano track requires a minimum of 120 s.h., including at least 54 s.h. of work for the major.

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be accepted into an applied piano studio through audition either in person or by recording before they register.

All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses. Entering students who do not have Advanced Placement (AP) or transfer credit should enroll in MUS:1201, section 2, and take Placement Exam A, administered online in the summer before the start of the fall semester to determine readiness for the sequence. For further information, see Musicianship and Theory Placement on the School of Music website.

The B.A. with a major in music with the chamber music—piano track requires the following coursework.

Code	Title	Hours
	Musicianship Courses	16
	Musicianship Electives	6
	Performance (Applied Music/Ensembles)	18
	Collaborative Piano Requirements	8
	Electives	6
<b>Total Hours</b>		<b>54</b>

#### Musicianship Courses

MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2

### Performance (Applied Music/Ensembles)

Major ensembles include MUS:1176 Voxman Chorale, MUS:3160 Symphony Band/Concert Band, MUS:3170 Kantorei, MUS:3172 Camerata Singers, MUS:3174 University Choir, and MUS:3180 Orchestra. With approval, students may use MUS:3730 Jazz Band to satisfy the major ensemble requirement. Any student who wishes to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the director for undergraduate studies.

Code	Title	Hours
All of these:		
Lower-level applied music lessons		4
Major ensemble (minimum of four semesters)		4
Performance electives (lower- or upper-level applied music, ensembles, improvisation; a maximum of six semesters of 12 s.h. in lower-level applied instruction is allowed)		6
4 s.h. from these (courses may be repeated):		
MUS:3481	Piano Chamber Music	1-2
MUS:3489	Chamber Music Residency Program	1-2

### Collaborative Piano Requirements

Code	Title	Hours
All of these:		
MUS:1510	Diction for Singers I	2
MUS:2510	Diction for Singers II	2
MUS:3480	Piano Accompaniment	1
MUS:3510	Discovering Art Song	1

MUS:3511	Interpretation of Non-German Art Song	1
MUS:4900	Senior Recital (chamber music capstone project)	1

### Electives

Code	Title	Hours
6 s.h. in music electives chosen from any music courses (prefix MUS) or from these recommended courses, except for music courses closed to music majors:		
DPA:3510/ INTD:3510/ THTR:3510	Introduction to Arts Management	3
ENTR:2000	Entrepreneurship and Innovation	3
ENTR:3200	Entrepreneurial Marketing	3
THTR:3525/ DANC:3525/ DPA:3525/ ENTR:3525	The Business of the Performing Arts	3

### Chamber Music—Strings/Winds Track

The Bachelor of Arts with a major in music with the chamber music—strings/winds track requires a minimum of 120 s.h., including at least 49-51 s.h. of work for the major.

The B.A. with a major in music with the chamber music—strings/winds track requires the following coursework.

Code	Title	Hours
Musicianship Courses		16-18
Musicianship Electives		6
Performance (Applied Music/Ensembles)		14
Chamber Music Requirements		7
Electives		6
<b>Total Hours</b>		<b>49-51</b>

### Musicianship Courses

Students take a piano placement exam which may exempt them from one or both of these courses: MUS:1211 or MUS:1212.

Code	Title	Hours
All of these:		
MUS:1200	Fundamentals of Music for Majors (or successful completion of MUS:1201 online theory diagnostic examination)	0
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1
Two of these:		
MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3

MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

To register for MUS:1201 Musicianship and Theory I, students also must register for MUS:1211 Group Instruction in Piano I, already have completed that course, or have been exempted from it by proficiency exam. To register for MUS:1202 Musicianship and Theory II, students also must register for MUS:1212 Group Instruction in Piano II, already have completed that course, or have been exempted from it by proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempted by proficiency exam.

### Musicianship Electives

Code	Title	Hours
6 s.h. from these:		
MUS:1310	World Music	3

### Jazz Track

The Bachelor of Arts with a major in music with the jazz track requires a minimum of 120 s.h., including at least 44-47 s.h. of work for the major.

The B.A. with a major in music with the jazz track requires the following coursework.

Code	Title	Hours
	Musicianship Courses	16-18
	Performance (Applied Music/Ensembles)	14-15
	Jazz Requirements	8
	Electives	6
<b>Total Hours</b>		<b>44-47</b>

### Musicianship Courses

Students take a piano placement exam which may exempt them from one or both of these courses: MUS:1211 or MUS:1212.

Code	Title	Hours
All of these:		
MUS:1200	Fundamentals of Music for Majors (or successful completion of MUS:1201 online theory diagnostic examination)	0
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1

Two of these:

MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

To register for MUS:1201 Musicianship and Theory I, students also must register for MUS:1211 Group Instruction in Piano I, already have completed that course, or have been exempted from it by proficiency exam. To register for MUS:1202 Musicianship and Theory II, students also must register for MUS:1212 Group Instruction in Piano II, already have completed that course, or have been exempted from it by proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempted by proficiency exam.

### Performance (Applied Music/Ensembles)

Code	Title	Hours
All of these:		
Lower-level applied music lessons		4
MUS:3730	Jazz Band (taken four times for 1 s.h. each)	4
MUS:3740	Small Jazz Ensembles (taken twice for 1 s.h. each)	2
One of these sequences:		
MUS:3001 & MUS:3710	Introduction to Jazz Improvisation - Intermediate Jazz Improvisation	5
MUS:3710 & MUS:4710	Intermediate Jazz Improvisation - Advanced Jazz Improvisation	4

### Jazz Requirements

Code	Title	Hours
All of these:		
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2
MUS:4900	Senior Recital (jazz capstone project)	1

### Electives

Code	Title	Hours
6 s.h. in music electives chosen from any music courses (prefix MUS) or from these recommended courses, except for music courses closed to music majors:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
MUS:3730	Jazz Band (Latin jazz ensemble)	1
AFAM:1241/ MUS:1741	The Soundtrack of Black America	3

DPA:3510/ INTD:3510/ THTR:3510	Introduction to Arts Management	3

ENTR:3200	Entrepreneurial Marketing	3
THTR:3525/ DANC:3525/ DPA:3525/ ENTR:3525	The Business of the Performing Arts	3

### Music Theory Track

The Bachelor of Arts with a major in music with the music theory track requires a minimum of 120 s.h., including at least 50-52 s.h. of work for the major.

The B.A. with a major in music with the music theory track requires the following coursework.

Code	Title	Hours
Musicianship Courses		16-18
Performance (Applied Music/Ensembles)		8
Music Theory Requirements		11
Music Theory Electives		9
Electives		6
<b>Total Hours</b>		<b>50-52</b>

### Musicianship Courses

Students take a piano placement exam which may exempt them from one or both of these courses: MUS:1211 or MUS:1212.

Code	Title	Hours
All of these:		
MUS:1200	Fundamentals of Music for Majors (or successful completion of MUS:1201 online theory diagnostic examination)	0
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1

Two of these:

MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

To register for MUS:1201 Musicianship and Theory I, students also must register for MUS:1211 Group Instruction in Piano I, already have completed that course, or have been exempted from it by proficiency exam. To register for MUS:1202 Musicianship and Theory II, students also must register for MUS:1212 Group Instruction in Piano II, already have completed that course, or have been exempted from it by proficiency exam. Transfer students should complete the

group piano requirement during their first year in residence unless they are exempted by proficiency exam.

### Performance (Applied Music/Ensembles)

Major ensembles include MUS:1176 Voxman Chorale, MUS:3160 Symphony Band/Concert Band, MUS:3170 Kantorei, MUS:3172 Camerata Singers, MUS:3174 University Choir, and MUS:3180 Orchestra. With approval, students may use MUS:3730 Jazz Band to satisfy the major ensemble requirement. Any student who wishes to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the director for undergraduate studies.

Code	Title	Hours
All of these:		
	Lower-level applied music lessons	4
	Major ensemble (minimum of four semesters)	4

### Music Theory Requirements

Code	Title	Hours
All of these:		
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
MUS:4900	Senior Recital (music theory capstone project)	1
	An undergraduate-level music theory colloquium course (consult advisor)	2

### Music Theory Electives

Code	Title	Hours
9 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:2220	Composition	1-2
MUS:3280	Spectral Nature of Sound: Acoustics, Analysis, and Resynthesis	3
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4730	Jazz Theory	3
MUS:4760	Jazz Composition and Arranging	2
MUS:5236	Non-Tonal Analysis	3
MUS:5240	Special Topics in Theory and Analysis	3

### Electives

Code	Title	Hours
6 s.h. in music electives chosen from any music courses (prefix MUS) or from these recommended courses, except for music courses closed to music majors:		
MUS:1066	Introduction to Film Music	3
MUS:1303	Roots, Rock, and Rap: A History of Popular Music	3
MUS:1310	World Music	3
MUS:1800/ DPA:1800	World of the Beatles	3
MUS:2005	Issues in Popular Music: Women Who Rock	3
MUS:2206	Form and Analysis	3

MUS:2220	Composition	1-2
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3280	Spectral Nature of Sound: Acoustics, Analysis, and Resynthesis	3
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4320	Music and Gender	3
MUS:4325	Medieval and Renaissance Music	3
MUS:4330	Baroque Music	3
MUS:4335	Eighteenth-Century Music	3
MUS:4340	Nineteenth-Century Music	3
MUS:4345	Twentieth-Century Music	3
MUS:4350	Advanced Jazz History	3
MUS:4355	American Music	3
MUS:4360	Jazz Matters	3
MUS:4610/ CINE:4610	Studies in Film and Music	3
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2
MUS:5236	Non-Tonal Analysis	3
MUS:5240	Special Topics in Theory and Analysis	3

### Musicology Track

The Bachelor of Arts with a major in music with the musicology track requires a minimum of 120 s.h., including at least 43-45 s.h. of work for the major.

The B.A. with a major in music with the musicology track requires the following coursework.

Code	Title	Hours
Musicianship Courses		16-18
Performance (Applied Music/Ensembles)		8
Musicology Requirements		3
Musicology Electives		6
Electives		10
<b>Total Hours</b>		<b>43-45</b>

### Musicianship Courses

Students take a piano placement exam which may exempt them from one or both of these courses: MUS:1211 or MUS:1212.

Code	Title	Hours
All of these:		
MUS:1200	Fundamentals of Music for Majors (or successful completion of MUS:1201 online theory diagnostic examination)	0
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4

MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1
Two of these:		
MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

To register for MUS:1201 Musicianship and Theory I, students also must register for MUS:1211 Group Instruction in Piano I, already have completed that course, or have been exempted from it by proficiency exam. To register for MUS:1202 Musicianship and Theory II, students also must register for MUS:1212 Group Instruction in Piano II, already have completed that course, or have been exempted from it by proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempted by proficiency exam.

### Performance (Applied Music/Ensembles)

Major ensembles include MUS:1176 Voxman Chorale, MUS:3160 Symphony Band/Concert Band, MUS:3170 Kantorei, MUS:3172 Camerata Singers, MUS:3174 University Choir, and MUS:3180 Orchestra. With approval, students may use MUS:3730 Jazz Band to satisfy the major ensemble requirement. Any student who wishes to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the director for undergraduate studies.

Code	Title	Hours
All of these:		
	Lower-level applied music lessons	4

MUS:4760	Jazz Composition and Arranging	2

### Piano Pedagogy Track

The Bachelor of Arts with a major in music with the piano pedagogy track requires a minimum of 120 s.h., including at least 49 s.h. of work for the major.

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be accepted into an applied piano studio through audition either in person or by recording before they register.

All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses. Entering students who do not

have Advanced Placement (AP) or transfer credit should enroll in MUS:1201, section 2, and take Placement Exam A, administered online in the summer before the start of the fall semester, to determine readiness for the sequence. For further information, see Musicianship and Theory Placement on the School of Music website.

The B.A. with a major in music with the piano pedagogy track requires the following coursework.

Code	Title	Hours
Musicianship Courses		16
Musicianship Electives		6
Performance (Applied Music/Ensembles)		14
Piano Pedagogy Requirements		7

### Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. They must have a g.p.a. of at least 3.80 in music

coursework and a cumulative University of Iowa g.p.a. of at least 3.33.

To graduate with honors, students must complete at least 6 s.h. of honors work in music, normally in their junior and senior years. They must earn a minimum of 3 s.h. of the required honors work in MUS:4995 Honors in Music by completing one or more honors projects, such as solo or ensemble recitals; compositions, transcriptions, orchestrations, or arrangements; and essays, research papers, editions, or translations. Honors projects must be in addition to the projects normally required for graduation with a major in music.

Students also may earn honors credit in other honors courses (normally upper-level undergraduate courses) or in approved graduate courses (music history and music theory are particularly recommended).

For complete details about requirements for graduation with honors in the music major, visit Honors in Music on the School of Music website and consult the school's honors advisor.

## National Honor Society

The School of Music sponsors a chapter of Pi Kappa Lambda, the national music honor society. Students of exceptional ability are recommended for membership by faculty members. For more information, consult the School of Music honors advisor.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the music major.

### Financial Support

A number of music performance-based merit scholarships are available to qualified undergraduate music majors. All music majors with scholarships must enroll in a major ensemble and studio lessons each semester. For information, contact the School of Music.

### Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

In addition to the requirements listed under the checkpoints, all students must complete 2 s.h. in applied music and 1 s.h. in a major ensemble each semester.

The Bachelor of Arts in music requires at least 44 s.h. in School of Music courses.

**Before the third semester begins:** 15-18 s.h. of coursework in the major, including MUS:1201 Musicianship and Theory I, MUS:1202 Musicianship and Theory II, and if required, MUS:1211 Group Instruction in Piano I and MUS:1212 Group Instruction in Piano II.

**Before the fifth semester begins:** at least 23-32 s.h. of coursework in the major.

**Before the seventh semester begins:** at least 33-41 s.h. of coursework in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** at least 40-46 s.h. of coursework in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

<b>Total Hours</b>	<b>123-137</b>
--------------------	----------------

a This course is required for students enrolled in MUS:1201 who do not pass Placement Examination A.

b Students must complete two semesters of MUS:1210.

c Students must complete at least 4 s.h. in lower-level applied lessons.

d Students must complete a minimum of four semesters of major ensemble.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Choose two courses from MUS:2301, MUS:2302, MUS:4350. Note: two GE CLAS Core requirements may be fulfilled by MUS:2301 and MUS:2302. Students who take MUS:4350 must complete an additional GE CLAS Core course that satisfies either the Historical Perspectives or the Literary, Visual, and Performing Arts requirement.

h Fulfills a major requirement and may fulfill a GE requirement.

i Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

j If not completed with a MUS course. MUS:1009, MUS:1720, MUS:2311 fulfill the GE CLAS Core Values and Culture requirement.

k Students must complete at least 6 s.h. in performance electives.

l Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Music, B.M.

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be accepted into a performance area through audition either in person or by recording before they register. All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses.

Transfer students admitted to the School of Music must complete a minimum of one year of applied music (lower or upper level) and one year of major ensemble at the University of Iowa in order to earn a degree in music. Transfer students who have not completed the equivalent of the four-semester sequence of Musicianship and Theory I-IV (MUS:1201, MUS:1202, MUS:2203, and MUS:2204) must complete a theory diagnostic exam to determine appropriate placement in the musicianship and theory sequence. Transfer students who have not completed the equivalent of two semesters of class piano or a piano proficiency exam must meet piano proficiency requirements at the University of Iowa.

## Learning Outcomes

### Bachelor of Music Graduates

The Bachelor of Music degree is the primary professional degree in music, and it emphasizes the development of the skills, concepts, and sensitivities essential to the professional life of the musician. Bachelor of Music students in performance programs develop comprehensive capabilities in the major-performing medium and the ability to integrate musical knowledge and performance skills in preparation for entering the profession or advanced study in graduate school.

All graduates of the Bachelor of Music program in music will be able to demonstrate the following.

- **Performance.** Students will acquire the ability to sight read, reach technical proficiency, apply historically and stylistically informed performance practices, gain a broad knowledge of the repertoire of their performance area, perform a cross-section of that repertoire, and gain collaborative skills through ensemble experiences.
- **Keyboard Competency.** Students will acquire the functional ability to play piano, including the ability to perform major and minor scales, arpeggios, and chord progressions in all keys; and to harmonize melodies, transpose, and improvise.
- **Conducting, Leadership, and Collaboration.** Students will acquire the ability to work as leaders and in collaboration on matters of musical preparation, rehearsal techniques, and interpretation. Students will demonstrate competent conducting technique.
- **Musical Repertoire and Style.** Students will acquire a basic knowledge of music history and repertoire through the present; an acquaintance with repertoires beyond the area of specialization; the ability to place music in historical, cultural, and stylistic contexts; and the ability to write and speak about music history and style in a coherent manner.
- **Music Theory, Analysis, and Compositional Processes.** Students will acquire aural skills sufficient to hear melodic, rhythmic, harmonic, and formal elements of music; analytical skills sufficient to understand the melodic, rhythmic, harmonic, and formal elements of music; knowledge of basic compositional techniques; and the

ability to write and speak about musical processes in a coherent manner.

### Teacher Education Program Graduates

All graduates of the Teacher Education Program will be able to:

- demonstrate competent conducting, and musical leadership of performing groups and in general classroom situations;
- apply knowledge of analytical and historical knowledge to curriculum development, lesson planning, and daily classroom and performance activities;
- demonstrate the ability to arrange and adapt music from a variety of sources to meet the needs and ability levels of individuals and groups;
- demonstrate functional performance abilities in keyboard, voice, and instruments appropriate to the teaching specialization;
- demonstrate pedagogical skills appropriate to the area of specialization sufficient to teach students individually and in groups; and
- demonstrate knowledge and skills in student learning, diverse learning, planning instruction, instructional strategies, the learning environment, communication, assessment and evaluation, collaboration, ethics, and relationships.

### Bachelor of Music in Composition Graduates

In addition to the learning outcomes listed above, all graduates of the Bachelor of Music in composition will:

- demonstrate the ability to compose solo, chamber, vocal, and electronic music;
- acquire a basic knowledge of acoustics; and
- demonstrate the ability to use technologies applicable to musical composition, such as sound synthesis, recording and processing, and computer notation.

### Bachelor of Music in Music Therapy Graduates

The undergraduate music therapy program provides the required academic and clinical coursework necessary to become professionally certified as a music therapist. The program, which is approved by the American Music Therapy Association, prepares students to pass the Certification Board for Music Therapists national exam, which is required for entry-level music therapy positions.

In addition to the learning outcomes listed above, all graduates of the Bachelor of Music in music therapy will display:

- Functional musical and arranging skills in voice, keyboard, guitar, and percussion to accompany self and group singing, with basic repertory of traditional, folk, popular songs in several keys, with and without written music.
- Knowledge of basic principles of human development, exceptionality, psychopathology, principles of therapy, and the therapeutic relationship.
- Knowledge of basic principles of music therapy including history and philosophy; the psychological, physiological, and sociological bases for the use of music as therapy; music therapy techniques and materials and their application with various client populations.

- Knowledge of various client populations, the therapeutic process (client assessment, treatment planning, therapeutic implementation, evaluation, and documentation of progress); knowledge of research methods and ability to interpret research findings.
- Knowledge of professional issues (standards, ethics, interdisciplinary collaboration, supervision, and administration).
- Clinical skills with a variety of client populations to enable students to function as entry-level music therapists. Students will acquire knowledge of the technological developments applicable to the field of music therapy.

## Requirements

The Bachelor of Music requires a minimum of 120 s.h. of credit. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The program offers concentrations in composition, music therapy, and performance. Students seeking licensure/certification in music education or music therapy should enroll in the B.M. program.

Many students earn more than 120 s.h. in fulfilling the requirements for their majors—for instance, those who choose the music therapy concentration or seek teacher certification. The College of Liberal Arts and Sciences maximum hours rule does not apply to the Bachelor of Music, so B.M. students may count more than 56 s.h. of coursework in music toward the degree.

To register for MUS:1201 Musicianship and Theory I, students also must register for MUS:1211 Group Instruction in Piano I or already have completed that course or have been exempted from it by proficiency exam. To register for MUS:1202 Musicianship and Theory II, students also must register for MUS:1212 Group Instruction in Piano II or already have completed that course or have been exempted from it by proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempted by proficiency exam.

Six semesters of MUS:1210 Recital Attendance are required for all B.M. students, except music therapy students, who are required to take four semesters. Transfer students should plan to enroll in this course each of their remaining semesters, or until the requirement is met.

To complete the senior recital, students must have achieved upper-level applied status or be enrolled in upper-level applied music courses (see "Applied Music" below). Music therapy students may complete a senior recital or a senior research project. Composition students substitute MUS:4910 Bachelor's Thesis for the senior recital. The senior recital, research project, or thesis must be completed at the University of Iowa.

## Applied Music

Students must complete four years of applied music. Instruction is provided on two levels, lower and upper. Students must achieve upper-level status before they may present their senior recital. Readiness for upper-level applied music is determined by a jury examination in the area. The eighth semester of applied music may be waived for students who have successfully completed a senior recital, are enrolled in the Teacher Education Program (TEP), and are student

teaching. Students are allowed a maximum of six semesters (not including summer) in lower-level applied instruction. Those who want to continue lessons beyond the maximum allowable lower-level registration must do so under the nonmajor category.

Composition students are required to take 6 s.h. of lower-level applied music and 2 s.h. of secondary piano.

Music therapy students who complete a senior research project rather than a senior recital are required to take three years of lower-level applied music.

## Ensemble Participation

Students must complete eight semesters of major ensemble participation. They normally enroll in a major ensemble during consecutive semesters, beginning early in their degree work, to ensure timely completion of the requirement. Ensemble assignments are made at the discretion of the major teacher and ensemble director. String students participate in University Orchestra and Chamber Orchestra. Wind and percussion students participate in Symphony Band, Concert Band, and University Band. Voice students participate in Camerata Singers, University Choir, Kantorei, and Voxman Chorale. Keyboard students may substitute accompaniment for major ensemble participation for two semesters during their junior and/or senior years, with their major applied-music teacher's consent. Composition students may, with their advisor's consent, substitute two semesters of other ensembles during their junior and/or senior year.

Music therapy students who complete a senior research project rather than a senior recital are required to complete 6 s.h. of major ensemble participation.

Any student who wants to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the associate director for undergraduate studies.

Major ensembles are as follows.

Code	Title	Hours
MUS:1176	Voxman Chorale	1
MUS:3160	Symphony Band/Concert Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1

## Electives

Students may take advanced electives in performance (including chamber music and piano accompaniment), theory, composition, music education, music therapy, music history, diverse music cultures, music literature, conducting, and orchestration.

## Concentration Areas

- Composition Concentration [p. 859]
- Music Therapy Concentration [p. 859]
- Performance—Brass/Woodwind Concentration [p. 861]
- Performance—Jazz Concentration [p. 862]
- Performance—Organ Concentration [p. 862]
- Performance—Percussion Concentration [p. 863]
- Performance—Piano Concentration [p. 864]

- Performance—String Concentration [p. 865]
- Performance—Voice Concentration [p. 866]

## Composition Concentration

Applicants to the composition concentration must submit a portfolio of creative work to the composition faculty for evaluation and acceptance into the program. Students who wish to prepare a portfolio may register for MUS:1139 Secondary Performance - Composition.

The composition concentration requires the following coursework.

## Musicianship

The composition concentration is open to students who have been admitted to a performance area in the School of Music.

Code	Title	Hours
All of these (completed before admission to the composition concentration):		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six semesters for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

## Diverse Musical Cultures

Code	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

## Performance (Applied Music/Ensembles)

Code	Title	Hours
All of these:		
MUS:1121	Secondary Performance - Piano (taken two semesters for 1 s.h. each)	2
Lower-level applied lessons (prefix MUS) numbered at the 2000 level (maximum of six semesters for 12 s.h. total)		
Major ensemble music courses (prefix MUS)		8

## Composition Requirements

Code	Title	Hours
All of these:		
MUS:2220	Composition (taken for at least four semesters for 2 s.h. each)	8
MUS:3230	Composition Seminar	1
MUS:4250	Composition: Electronic Media I	3
MUS:4910	Bachelor's Thesis	1

The course MUS:4910 Bachelor's Thesis consists of one or more compositions, approved by a committee of three faculty members, and performed in regularly scheduled School of Music recitals.

## Required Supportive Courses

Code	Title	Hours
One of these:		
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
This course:		
MUS:5236	Non-Tonal Analysis	3

## Electives

Students complete 6 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors. If students took either MUS:4200 Counterpoint Before 1600 or MUS:4201 Counterpoint After 1600 as a required supportive course above, they cannot use it as an elective.

The courses MUS:3190 Center for New Music Ensemble and MUS:4251 Composition: Electronic Media II are recommended for composition concentration students.

## Music Therapy Concentration

Admission to the music therapy concentration is based on successful completion (grade of C-plus or higher) in MUS:1687 Orientation to Music Therapy. Students must earn a B-minus or higher in all remaining music therapy core courses. In addition to the core courses in music therapy listed below, specific courses are required in biology, anatomy, psychology, and music.

A six-month, full time internship in an American Music Therapy Association (AMTA) approved off-campus clinical facility is required for completion of the degree. There are a limited number of approved music therapy internships in the Iowa City area, and many internship placements require relocation to a different city. Students are eligible to begin applying for their internship one year prior to the start of the internship. Securing an internship typically involves completing application materials, interviewing on site or via electronic platform, and demonstrating musical competencies. Students are not automatically placed in internships, but must work with the clinical advisor to select and apply for appropriate programs. Following successful completion of the internship, students are eligible to take the board certification examination in music therapy. This exam is offered through the Certification Board for Music Therapists and leads to national board certification as a music therapist, with the credential music therapist-board certified (MT-BC).

Since music therapists work with vulnerable populations, the School of Music is required to run a criminal background check on all students when they begin their clinical experiences.

Criminal convictions could negatively impact a student's ability to continue in the music therapy program and/or gain placement at an internship site. For more information, contact the director of the music therapy program.

The music therapy concentration requires the following coursework.

## Musicianship

Code	Title	Hours
All of these (completed before admission to the music therapy concentration):		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken four semesters for 1 s.h. each)	4
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2213	Group Instruction in Piano III	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3

## Performance (Applied Music/Ensembles)

Code	Title	Hours
All of these are required for clinical option students:		
MUS:1120	Secondary Performance - Voice	1
MUS:4675	Senior Project in Music Therapy	1
Lower-level applied lessons (prefix MUS) numbered at the 2000 level		12
Major ensemble music courses (prefix MUS; taken six times for 1 s.h. each)		6
Additional music performance electives such as Afro-Cuban ensemble, steel band, secondary percussion lessons, secondary piano, additional secondary voice		4
All of these required for performance option students:		
MUS:1120	Secondary Performance - Voice (not required for performance—voice students)	1
MUS:1510	Diction for Singers I (required for performance—voice students)	2
MUS:2510	Diction for Singers II (required for performance—voice students)	2
MUS:4900	Senior Recital	1
Lower-level applied music lessons (prefix MUS) numbered at the 2000 level		8
Upper-level applied music lessons (prefix MUS) numbered at the 3000 level		8

Major ensemble music courses (prefix MUS; taken eight times for 1 s.h. each) 8

## Music Therapy Requirements

Code	Title	Hours
All of these:		
MUS:1687	Orientation to Music Therapy	2
MUS:3675	Music Therapy Practicum (section 1 taken twice for 2 s.h. each and section 2 taken once for 1 s.h.)	5
MUS:3680	Music in Special Education	3
MUS:3690	Music Therapy with Adults	3
MUS:4670	Internship in Music Therapy (minimum of 2 s.h.)	2,12
MUS:4685	Music Therapy with Children	3
EDTL:4630/ MUS:4630	Psychology of Music	2
EDTL:4640	Introduction to Music Research	2
4 s.h. from these:		
MUS:2671	Music Foundations in Therapy I	2
MUS:2672	Music Foundations in Therapy II	2
MUS:3676	Percussion Experience for Teachers and Therapists	1

## Required Supportive Courses

Code	Title	Hours
Both of these:		
PSY:2930	Abnormal Psychology: Health Professions	3
PSY:3320	Abnormal Psychology	3
One of these:		
DANC:2085	Introduction to Afro-Caribbean Movement Practices	3
MUS:3850/ DANC:3850/ DPA:3850/ THTR:3850	Introduction to Laban Movement Studies	2-3
MUS:3851/ DANC:3851/ DPA:3851	Introduction to the Alexander Technique	3
One of these:		
MUS:1121	Secondary Performance - Piano	1
MUS:3001	Introduction to Jazz Improvisation	3
One of these:		
MUS:1007	Garage Band: The Basics	2
MUS:3665	Arranging for Band	2-3
One of these:		
PSQF:4106	Child Development	3
PSY:2401	Introduction to Developmental Science	3
One of these:		
CSD:1015	Introduction to Speech and Hearing Processes and Disorders	2

CSD:2140	Manual Communication	1
PSQF:1075	Educational Psychology and Measurement	3
PSY:2301	Introduction to Clinical Psychology	3
PSY:2601	Introduction to Cognitive Psychology	3
PSY:2701	Introduction to Behavioral Neuroscience	4
RCE:4178	Microcounseling	1,3
RCE:4199	Counseling for Related Professions	3
SSW:1800/ ASP:1800/ CSD:1800/ NURS:1800/ TR:1800	Aging Matters: Introduction to Gerontology	3
Clinical option students take 4 s.h. from these:		
MUS:1120	Secondary Performance - Voice	1
MUS:1121	Secondary Performance - Piano	1
MUS:1137	Secondary Performance - Percussion	1
MUS:3163	Intermediate Steel Band	1

Other courses approved by advisor

Music therapy students who elect the senior recital/performance option must take four years of applied music and attain upper-level status; they also must take 8 s.h. of major ensemble participation. Vocal majors choosing this option also must take MUS:1510 Diction for Singers I and MUS:2510 Diction for Singers II.

Music therapy students who elect the senior project/clinical option must take three years of applied music and 6 s.h. of major ensemble. They also must take an additional 4 s.h. of music performance courses in areas such as MUS:1120 Secondary Performance - Voice, MUS:1121 Secondary Performance - Piano, MUS:1137 Secondary Performance - Percussion, MUS:3163 Intermediate Steel Band, or other courses approved by the advisor.

In order to satisfy national certification requirements, all music therapy students must fulfill certain GE CLAS Core requirements with specific courses. Students should consult their music therapy advisor before selecting GE CLAS Core courses.

## Performance—Brass/Woodwind Concentration

The performance—brass/woodwind concentration requires the following coursework.

### Musicianship

Code	Title	Hours
All of these (completed before admission to the performance—brass/woodwind concentration):		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4

Then these:

MUS:1210	Recital Attendance (taken six semesters for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

## Diverse Musical Cultures

Code	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

## Performance (Applied Music/Ensembles)

Code	Title	Hours
All of these:		
MUS:3160	Symphony Band/Concert Band (taken eight semesters for 1 s.h. each)	8
MUS:4900	Senior Recital	1
Lower-level applied lessons (prefix MUS) numbered at the 2000 level (maximum of six semesters for 12 s.h. total)		8
Upper-level applied lessons (prefix MUS) numbered at the 3000 level		8

## Theory-Based Courses

Code	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3665	Arranging for Band	2-3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4210	Keyboard Harmony	1-2
MUS:4710	Advanced Jazz Improvisation	2
MUS:4730	Jazz Theory (when topic is at the piano)	3
MUS:4750	Transcription	2

## Brass/Woodwind Area Requirement

Code	Title	Hours
This course:		
MUS:3485	Wind Chamber Music	1

## Electives

Students complete 17 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for wind majors.

Code	Title	Hours
MUS:3140	Audition Repertoire	1
MUS:3180	Orchestra	1
MUS:3182	Chamber Orchestra	1
MUS:3485	Wind Chamber Music	1-2

These music education courses may be taken as music electives by brass/woodwind concentration students pursuing teacher licensure.

Code	Title	Hours
MUS:3635/ EDTL:3635	Instrumental Conducting	3
EDTL:3605/ MUS:3605	Instrumental Techniques	2
EDTL:3620	Methods and Materials: General Music	3

## Performance—Jazz Concentration

The performance—jazz concentration requires the following coursework.

### Musicianship

Code	Title	Hours
Both of these (completed before admission to the performance—jazz concentration):		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
Then these:		
MUS:1210	Recital Attendance (taken six semesters for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:1711	Jazz Rhythms and Interpretation I	1
MUS:1712	Jazz Rhythms and Interpretation II	1
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:3760	Jazz Band Techniques	1
MUS:4730	Jazz Theory	3

### Diverse Musical Cultures

Code	Title	Hours
One of these:		
MUS:1310	World Music	3
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

## Performance (Applied Music/Ensembles)

Code	Title	Hours
All of these:		
MUS:3730	Jazz Band (taken six semesters for 1 s.h. each)	6
MUS:3740	Small Jazz Ensembles (taken six semesters for 1 s.h. each)	6
MUS:4710	Advanced Jazz Improvisation (taken three semesters for 2 s.h. each)	6
MUS:4750	Transcription	2
MUS:4900	Senior Recital	1
Lower-level applied lessons (prefix MUS) numbered at the 2000 level (maximum of six semesters for 12 s.h. total)		

## Jazz Area Requirements

Code	Title	Hours
All of these:		
MUS:3780	Audio Recording I	3
MUS:4760	Jazz Composition and Arranging	2
AFAM:1020/ AMST:1030	Introduction to African American Culture	3
ENTR:2000	Entrepreneurship and Innovation	3

## Electives

Students complete 9 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for jazz majors.

Code	Title	Hours
MUS:1007	Garage Band: The Basics	2
MUS:3140	Audition Repertoire	1
MUS:3990	Special Studies	1-4

## Performance—Organ Concentration

The performance—organ concentration requires the following coursework.

### Musicianship

Code	Title	Hours
All of these (completed before admission to the performance—organ concentration):		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six semesters for 1 s.h. each)	6
MUS:2301	History of Western Music I	3

MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

## Diverse Musical Cultures

Code	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

## Performance (Applied Music/Ensembles)

Code	Title	Hours
All of these:		
MUS:2022	Lower Level Organ (maximum of six semesters for 12 s.h. total)	8
MUS:3022	Upper Level Organ	8
MUS:4900	Senior Recital	1
Major ensemble music courses (prefix MUS; taken eight times for 1 s.h. each)		8

## Theory-Based Courses

Code	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3665	Arranging for Band	2-3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4210	Keyboard Harmony	1-2
MUS:4710	Advanced Jazz Improvisation	2
MUS:4730	Jazz Theory (when topic is at the piano)	3
MUS:4750	Transcription	2

## Organ Area Requirements

Code	Title	Hours
All of these:		
MUS:4450	Organ Literature Survey (taken two semesters for 2 s.h. each)	4
MUS:4452	Liturgics	2
MUS:4454	Service Playing and Improvisation	2

## Electives

Students complete 10 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for organ majors.

Code	Title	Hours
MUS:5450	History of Organ Building and Design	2-3
MUS:5452	Organ Pedagogy	2
MUS:5475	Organ Literature Special Topics	2

## Performance—Percussion Concentration

The performance—percussion concentration requires the following coursework.

### Musicianship

Code	Title	Hours
All of these (completed before admission to the performance—percussion concentration)		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six semesters for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

## Diverse Musical Cultures

Code	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

## Performance (Applied Music/Ensembles)

Code	Title	Hours
All of these:		
MUS:2037	Lower Level Percussion (maximum of six semesters for 12 s.h. total)	8
MUS:3037	Upper Level Percussion	8
MUS:3160	Symphony Band/Concert Band (taken eight semesters for 1 s.h. each)	8
MUS:4900	Senior Recital	1

## Theory-Based Courses

Code	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3

MUS:3001	Introduction to Jazz Improvisation	3
MUS:3665	Arranging for Band	2-3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4210	Keyboard Harmony	1-2
MUS:4710	Advanced Jazz Improvisation	2
MUS:4730	Jazz Theory (when topic is at the piano)	3
MUS:4750	Transcription	2

## Percussion Area Requirements

Code	Title	Hours
Both of these:		
MUS:3150	Percussion Ensemble/Steel Band (taken six semesters for 1 s.h. each)	6
MUS:3163	Intermediate Steel Band (taken two semesters for 1 s.h. each)	2

## Electives

Students complete 10 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for percussion majors.

Code	Title	Hours
MUS:3140	Audition Repertoire	1
MUS:3180	Orchestra	1
MUS:3182	Chamber Orchestra	1
MUS:3730	Jazz Band	1
MUS:3740	Small Jazz Ensembles	1
MUS:5130	Advanced Percussion Pedagogy and Literature	2

These music education courses may be taken as music electives by percussion concentration students pursuing teacher licensure.

Code	Title	Hours
EDTL:3605/ MUS:3605	Instrumental Techniques	2
EDTL:3620	Methods and Materials: General Music	3
EDTL:3635/ MUS:3635	Instrumental Conducting	3

## Performance—Piano Concentration

The performance—piano concentration requires the following coursework.

### Musicianship

Code	Title	Hours
All of these (completed before admission to the performance—piano concentration):		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4

MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six semesters for 1 s.h. each)	6
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

## Diverse Musical Cultures

Code	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

## Performance (Applied Music/ Ensembles)

Code	Title	Hours
All of these:		
MUS:2021	Lower Level Piano (maximum of six semesters for 12 s.h. total)	8
MUS:3021	Upper Level Piano	8
MUS:4900	Senior Recital	1
Major ensemble music courses (prefix MUS) taken eight times for 1 s.h. each; keyboard majors may substitute piano accompaniment for major ensemble participation for a maximum of two semesters during their junior and/or senior years with advisor consent		
		8

## Theory-Based Courses

Code	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3665	Arranging for Band	2-3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4710	Advanced Jazz Improvisation	2
MUS:4730	Jazz Theory (when topic is at the piano)	3
MUS:4750	Transcription	2

## Piano Area Requirements

Code	Title	Hours
Both of these:		
MUS:3400	Methods of Teaching Piano	2
MUS:3481	Piano Chamber Music	1-2
One of these:		
MUS:2213	Group Instruction in Piano III	1

MUS:4730	Jazz Theory (when topic is at the piano)	3
----------	--	---

## Electives

Students complete 13 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for piano majors.

Code	Title	Hours
MUS:5400	Piano Pedagogy I	2
MUS:5401	Piano Pedagogy II	2
MUS:5410	Piano Literature I	2
MUS:5411	Piano Literature II	2

These music education courses may be taken as music electives by piano concentration students pursuing teacher licensure.

Code	Title	Hours
MUS:3605/ EDTL:3605	Instrumental Techniques	2
MUS:3635/ EDTL:3635	Instrumental Conducting	3
EDTL:3620	Methods and Materials: General Music	3
EDTL:3640/ MUS:3640	Choral Methods	3
EDTL:3645/ MUS:3645	Choral Conducting and Literature	3

## Performance—String Concentration

The performance—string concentration requires the following coursework.

### Musicianship

Code	Title	Hours
All of these (completed before admission to the performance—string concentration):		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six semesters for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

### Diverse Musical Cultures

Code	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3

MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

## Performance (Applied Music/Ensembles)

Code	Title	Hours
All of these:		
MUS:3180	Orchestra (taken eight semesters for 1 s.h. each)	8
MUS:4900	Senior Recital	1
Lower-level applied lessons (prefix MUS) numbered at the 2000 level (maximum of six semesters for 12 s.h. total)		
Upper-level applied lessons (prefix MUS) numbered at the 3000 level		

## Theory-Based Courses

Code	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3665	Arranging for Band	2-3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4210	Keyboard Harmony	1-2
MUS:4710	Advanced Jazz Improvisation	2
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2

## String Area Requirements

Code	Title	Hours
This course:		
MUS:3182	Chamber Orchestra (taken four semesters for 1 s.h. each)	4
4 s.h. from these:		
MUS:3482	String Chamber Music	1-2
MUS:3489	Chamber Music Residency Program	1-2

## Electives

Students complete 11 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

This course is recommended for string majors.

Code	Title	Hours
MUS:3140	Audition Repertoire	1

These music education courses may be taken as music electives by string concentration students pursuing teacher licensure.

Code	Title	Hours
EDTL:3605/ MUS:3605	Instrumental Techniques	2
EDTL:3620	Methods and Materials: General Music	3

EDTL:3635/ MUS:3635	Instrumental Conducting	3
------------------------	-------------------------	---

## Performance—Voice Concentration

The performance—voice concentration requires the following coursework.

### Musicianship

Code	Title	Hours
All of these (completed before admission to the performance—voice concentration):		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six semesters for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

### Diverse Musical Cultures

Code	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

### Performance (Applied Music/Ensembles)

Code	Title	Hours
All of these:		
MUS:2020	Lower Level Voice (maximum of six semesters for 12 s.h. total)	8
MUS:3020	Upper Level Voice (taken eight semesters for 1 s.h. each)	8
MUS:4900	Senior Recital	1
Major ensemble (choir) music (prefix MUS; taken eight times for 1 s.h. each)		8

### Theory-Based Courses

Code	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3665	Arranging for Band	2-3

MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4210	Keyboard Harmony	1-2
MUS:4710	Advanced Jazz Improvisation	2
MUS:4730	Jazz Theory (when topic is at the piano)	3
MUS:4750	Transcription	2

### Voice Area Requirements

Code	Title	Hours
All of these:		
MUS:1510	Diction for Singers I	2
MUS:2510	Diction for Singers II	2
MUS:3500	Opera Workshop	2
MUS:3510	Discovering Art Song	1
MUS:3511	Interpretation of Non-German Art Song	1

### Electives

Students complete 10 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for voice majors.

Code	Title	Hours
MUS:3140	Audition Repertoire	1
MUS:3500	Opera Workshop	2
MUS:3501	Opera Theater Chorus	1
MUS:3502	Opera Production	2-4
MUS:3850/ DANC:3850/ DPA:3850/ THTR:3850	Introduction to Laban Movement Studies	2-3
MUS:3851/ DANC:3851/ DPA:3851	Introduction to the Alexander Technique	3
MUS:6520/ CSD:6202	Vocal Pedagogy	3

These music education courses may be taken as music electives by voice concentration students pursuing teacher licensure.

Code	Title	Hours
MUS:3640/ EDTL:3640	Choral Methods	3
MUS:3645/ EDTL:3645	Choral Conducting and Literature	3
EDTL:3620	Methods and Materials: General Music	3

### Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and

deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Undergraduate students seeking teacher licensure/certification must be enrolled in a Bachelor of Music program in a performance subprogram of brass/woodwind, jazz, organ, percussion, piano, piano with teacher education, string, or voice and must complete the appropriate licensure program.

## Honors

### Honors in the Major

Students have the opportunity to graduate with honors in the major. They must have a g.p.a. of at least 3.80 in music coursework and a cumulative University of Iowa g.p.a. of at least 3.33.

Students must complete at least 6 s.h. of honors work in music, normally in their junior and senior years. They must earn a minimum of 3 s.h. of the required honors work in MUS:4995 Honors in Music by completing one or more honors projects, such as solo or ensemble recitals; compositions, transcriptions, orchestrations, or arrangements; and essays, research papers, editions, or translations. Honors projects must be in addition to the projects normally required for graduation with a major in music.

Students also may earn honors credit in other honors courses (normally upper-level undergraduate courses) or in approved graduate courses (music history and music theory are particularly recommended).

For complete details about requirements for graduation with honors in the music major, visit Honors in Music on the School of Music website and consult the school's honors advisor.

### National Honor Society

The School of Music sponsors a chapter of Pi Kappa Lambda, the national music honor society. Students of exceptional ability are recommended for membership by faculty members. For more information, consult the School of Music honors advisor.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the music major.

## Financial Support

A number of music performance-based merit scholarships are available to qualified undergraduate music majors. Students are considered for merit scholarships based on their auditions for admission. All music majors with scholarships must enroll in a major ensemble and studio lessons each semester. For information, contact the School of Music.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

In addition to the requirements listed under the checkpoints, all students must complete 2 s.h. in applied music and 1 s.h. in a major ensemble each semester.

The Four-Year Graduation Plan is not available for music therapy and music education students.

Students may apply more than 56 s.h. earned in School of Music courses toward the minimum 120 s.h. required for the B.M. degree.

**Before the third semester begins:** 18 s.h. of coursework in the major, including MUS:1201 Musicianship and Theory I, MUS:1202 Musicianship and Theory II, MUS:1211 Group Instruction in Piano I, and MUS:1212 Group Instruction in Piano II.

**Before the fifth semester begins:** at least 34 s.h. of coursework in the major, including MUS:2203 Musicianship and Theory III and MUS:2204 Musicianship and Theory IV.

**Before the seventh semester begins:** at least 50 s.h. of coursework in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** at least 56 s.h. of coursework in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Music, B.M.

Course	Title	Hours
<b>First Year</b>		
<b>Fall</b>		
Audition: Entering students who plan to major in music must be accepted into a performance area through audition before they register.		
MUS:1201	Musicianship and Theory I	4

### Fourth Year

#### Fall

Major: major ensemble		1 - 2
Major: music elective course		2 - 4
Major: upper-level applied lessons		2

Major: music elective course or elective course if music electives have been met	3
GE CLAS Core: International and Global Issues <sup>e</sup>	3
GE CLAS Core: Natural Sciences with Lab <sup>e</sup>	4

**Hours 15-18**

### Spring

MUS:4900	Senior Recital <sup>k</sup>	1
Major: upper-level applied lessons		2
Major: major ensemble		1 - 2
Major: music elective courses		3 - 4
GE CLAS Core: Natural Sciences without Lab <sup>e</sup>		3
GE CLAS Core: Social Sciences <sup>e</sup>		3
Major: music elective course or elective course if music electives have been met		3

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)<sup>l</sup>

**Hours 16-18**

**Total Hours 126-147**

- a This course is required for students enrolled in MUS:1201 who do not pass Placement Examination A.
- b Students must complete six semesters of MUS:1210.
- c Unless excused by exam.
- d A maximum of six semesters (12 s.h.) in lower-level applied instruction is allowed.
- e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- f Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- g MUS:1009, MUS:2311, and MUS:1720 fulfill GE CLAS Core requirements for Literary, Visual, & Performing Arts and Values and Culture. MUS:1310 fulfills the GE CLAS Core Literary, Visual, & Performing Arts requirement.
- h Fulfills a major requirement and may fulfill a GE requirement.
- i Readiness for upper-level applied music is determined by a jury examination in the area.
- j If not completed with a MUS course. MUS:1009, MUS:1720, MUS:2311 fulfill the GE CLAS Core Values and Culture requirement.
- k Students must achieve upper-level status before they may present their senior recital.
- l Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Music, Minor

## Requirements

The undergraduate minor in music requires 15 s.h. of coursework taken in the School of Music (prefix MUS), including at least 8 s.h. taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor. Courses used to satisfy minor requirements may not be taken pass/nonpass. Up to 7 s.h. of transfer credit in music history, music theory, and elective courses may be accepted toward the minor, with approval of the School of Music. Music performance courses must be taken at the University of Iowa.

Work for the minor includes courses in three areas: music history, music performance, and music theory. The remaining 5 s.h. in elective coursework must be chosen from School of Music courses.

Some School of Music courses have prerequisites; students must complete all of a course's prerequisites before they may register for a course. Courses approved for the minor are listed below. A course may only be applied to one area for credit.

The music minor requires the following work.

## Music History

Code	Title	Hours
One of these:		
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

## Music Performance

Code	Title	Hours
3 s.h. from these:		
<b>Applied Music Instruction (Lessons)</b>		
MUS:1020	Performance Instruction for Nonmajors	1
Lower-level lessons for music majors numbered from MUS:2020-MUS:2038, with consent of faculty		2
Upper-level lessons for music majors numbered from MUS:3020-MUS:3037, with consent of faculty		2
<b>Jazz Improvisation</b>		
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4710	Advanced Jazz Improvisation	2
MUS:4750	Transcription	2
<b>Ensemble Participation</b>		
Instructor permission or audition is required for these courses:		
MUS:1160	University Band	1
MUS:1165	Hawkeye Marching Band	1

MUS:1176	Voxman Chorale	1
MUS:1180	All-University String Orchestra	1
MUS:3150	Percussion Ensemble/Steel Band	1
MUS:3160	Symphony Band/Concert Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1
MUS:3480	Piano Accompaniment	1
MUS:3482	String Chamber Music	1-2
MUS:3485	Wind Chamber Music	1-2
MUS:3740	Small Jazz Ensembles	1
Other 1 s.h. music performance courses, with consent of the associate director for undergraduate studies		

## Music Theory

Admission to theory courses is determined by results on the theory placement exam.

Code	Title	Hours
One of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4

## Electives

Students must complete 5 s.h. in elective coursework. The following are suggested electives.

Code	Title	Hours
MUS:1001	Group Piano I: Non-Music Majors	1
MUS:1002	Group Piano II: Non-Music Majors	1
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1010	Recital Attendance for Nonmajors	1
MUS:1012	Creativity in Music	3
MUS:1020	Performance Instruction for Nonmajors	1
MUS:1066	Introduction to Film Music	3
MUS:1160	University Band	1
MUS:1165	Hawkeye Marching Band	1
MUS:1176	Voxman Chorale	1
MUS:1200	Fundamentals of Music for Majors	0
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1301	Concepts and Contexts of Western Music	3
MUS:1302	Great Musicians	3
MUS:1303	Roots, Rock, and Rap: A History of Popular Music	3
MUS:1310	World Music	3

MUS:1720	History of Jazz	3
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

Lower-level applied instruction courses for  
majors numbered from MUS:2020-MUS:2038

For additional information, contact the School of Music.

# Music, M.A.

## Advisory Examinations

Entering Master of Arts students must take two School of Music advisory examinations prior to registering for music history and music theory classes. These examinations are given on the Friday and Saturday preceding the opening of classes in the fall semester.

M.A. students in music therapy are not required to take the advisory examinations.

## Preliminary Procedures for Music Therapy Graduate Students

Since music therapists work with vulnerable populations, the School of Music is required to run a criminal background check on all students when they begin their clinical experiences. Criminal convictions could negatively impact a student's ability to continue in the music therapy program and/or gain placement at an internship site. For more information, contact the director of the music therapy program.

## Ensemble Participation

Graduate students in the performance and pedagogy tracks of all graduate programs are required to complete four semesters of major ensemble participation. Students normally enroll in major ensemble participation during consecutive semesters beginning early in their degree work, to ensure completion of the major ensemble requirements in a timely manner. Ensemble assignments are made at the discretion of the major teacher and ensemble director.

Major ensembles are as follows.

Code	Title	Hours
MUS:3160	Symphony Band/Concert Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1

Keyboard majors may substitute piano accompaniment for major ensemble participation, at their major applied teacher's discretion. Jazz studies majors substitute MUS:3730 Jazz Band for major ensemble participation. Theory, composition, music education, and music therapy majors have no major ensemble requirement.

Any student who wants to request adjustment of this requirement must submit a request in writing to a review committee consisting of the major ensemble director(s) involved, the major teacher, and the School of Music director for graduate studies.

## Requirements

The Master of Arts program in music requires a minimum of 30-37 s.h. of graduate credit. Students must maintain a cumulative g.p.a. of at least 3.00 to earn the degree.

The M.A. concentrations in performance, conducting, jazz studies, composition, music theory, musicology, music therapy, and music education require a recital, capstone project, or thesis. Performance majors present a public recital in place of a written thesis. Music therapy majors complete

a capstone research project. Jazz studies majors present a public recital and a separate performance project. The Master of Arts in music education is offered with thesis and nonthesis options.

All M.A. programs—except music therapy and music education—require the following coursework.

## Introductory Course

Code	Title	Hours
This course:		
MUS:5300	Introduction to Graduate Study in Music	2

## Music Theory

Students earn 6 s.h. from the following.

Code	Title	Hours
This course:		
MUS:5200	Review of Undergraduate Theory (unless exempt by advisory exam)	3

Students exempted from MUS:5200 through the advisory examination in music theory must substitute an additional theory elective chosen from the following:

MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:5235	Tonal Analysis	3
MUS:5236	Non-Tonal Analysis	3
MUS:5240	Special Topics in Theory and Analysis	3

Students also must choose one elective from these:

MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:5235	Tonal Analysis	3
MUS:5236	Non-Tonal Analysis	3
MUS:5237	Analysis of Popular Music	3
MUS:5240	Special Topics in Theory and Analysis	3
MUS:6210	History of Ideas of Music	3
MUS:6211	Theoretical Approaches to Music	3
MUS:6250	Advanced Tonal Theory and Analysis	3
MUS:6251	Advanced Non-Tonal Theory and Analysis	3
MUS:6252	Advanced Theory and Analysis of Popular Music	3

## Musicology

Students earn 6 s.h. from the following; at least one 6000-level course must be taken.

Code	Title	Hours
MUS:4320	Music and Gender	3
MUS:4325	Medieval and Renaissance Music	3
MUS:4330	Baroque Music	3
MUS:4335	Eighteenth-Century Music	3
MUS:4340	Nineteenth-Century Music	3

MUS:4345	Twentieth-Century Music	3
MUS:4350	Advanced Jazz History	3
MUS:4355	American Music	3
MUS:4360	Jazz Matters	3
MUS:6305	Teaching Music History and Culture	3
MUS:6310	Topics in Musicology	3
MUS:6312	Historical Approaches to Music	3
MUS:6314	Topics in Ethnomusicology	3
MUS:6315	Foundations of Ethnomusicology	3
MUS:6326	Renaissance Music Notations	3
MUS:6375	Music Editing	3

## Admission

Individuals applying to graduate programs in music must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area in the School of Music is available on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Qualified graduate students may be nominated for teaching and research assistantships. Inquiries should be directed to the head faculty member in the applicant's area of interest.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

# Music, Ph.D.

## Advisory Examinations

Entering Doctor of Philosophy students must take two School of Music advisory examinations prior to registering for music history and music theory classes. These examinations are given on the Friday and Saturday preceding the opening of classes in the fall semester.

### Requirements

The Doctor of Philosophy program in music requires a minimum of 72 s.h. of graduate credit. Students must maintain a cumulative g.p.a. of at least 3.00 to earn the degree. Ph.D. concentration areas include composition, musicology, music education, and music theory. Information about specific admission and curricular requirements for each area is available on the School of Music website.

Ph.D. students in composition, musicology, and music theory must complete the courses required for the M.A. (see the M.A. in music [p. 871] in the Catalog). They also must complete the following coursework.

Code	Title	Hours
One or more additional music theory course(s) listed in the M.A. requirements		
And one of these:		
MUS:7950	Ph.D. Thesis	1-4
MUS:7960	Composition Ph.D. Thesis	1-4

Proficiency in one or more world languages is required for Ph.D. students in composition, musicology, and music theory.

### Admission

Applicants must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area in the School of Music is available on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations on the Graduate College website.

### Financial Support

Qualified graduate students may be nominated for teaching and research assistantships. Inquiries should be directed to the head faculty member in the applicant's area of interest.

### Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

# Doctor of Musical Arts, D.M.A.

## Advisory Examinations

Entering Doctor of Musical Arts students must take two School of Music advisory examinations prior to registering for music history and music theory courses. These examinations are given on the Friday and Saturday preceding the opening of classes in the fall semester.

## Ensemble Participation

Students in the performance and pedagogy tracks of all graduate programs are required to complete four semesters of major ensemble participation. Students normally enroll in major ensemble participation during consecutive semesters beginning early in their degree work, to ensure completion of the major ensemble requirements in a timely manner. Ensemble assignments are made at the discretion of the major teacher and ensemble director.

Major ensembles are as follows.

Code	Title	Hours
MUS:3160	Symphony Band/Concert Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1

Keyboard majors may substitute piano accompaniment for major ensemble participation, at their major applied teacher's discretion.

Any student who wants to request adjustment of this requirement must submit a request in writing to a review committee consisting of the major ensemble director(s) involved, the major teacher, and the School of Music director for graduate studies.

## Requirements

The Doctor of Musical Arts requires a minimum of 72 s.h. of graduate credit. Students must maintain a cumulative g.p.a. of at least 3.00 to earn the degree. The D.M.A. is offered with two concentrations: conducting, and performance and pedagogy. Requirements for the D.M.A. are the same as for the Ph.D. (see the Ph.D. in music [p. 873] in the Catalog), except D.M.A. students also complete these courses: MUS:7900 D.M.A. Recital, MUS:7970 D.M.A. Essay and Thesis (instead of the Ph.D. thesis), and MUS:7140 Seminar in Music Research.

At the performance area's discretion, a concerto performance with orchestra or other appropriate ensemble from the School of Music may be substituted for one of the recitals. Some performance areas allow one or more lecture recitals, with faculty approval. Singers may substitute one major opera role or one major solo contribution to an orchestra performance for one of their recitals.

For more information, visit the School of Music website.

## Admission

Applicants must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area in the School of Music is available on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Qualified graduate students may be nominated for teaching and research assistantships. Inquiries should be directed to the head faculty member in the applicant's area of interest.

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

# Theory Pedagogy, Graduate Minor

## Requirements

The graduate minor in theory pedagogy requires 20 s.h. of credit. The program is open to students who have been admitted to a graduate degree program in the School of Music.

The minor in theory pedagogy requires the following coursework.

Code	Title	Hours
One of these:		
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
Both of these:		
MUS:6200	Music Theory Colloquium (taken twice)	2
MUS:6215	Music Theory Pedagogy	3
One of these:		
MUS:5235	Tonal Analysis	3
MUS:6250	Advanced Tonal Theory and Analysis	3
One of these:		
MUS:5236	Non-Tonal Analysis	3
MUS:6251	Advanced Non-Tonal Theory and Analysis	3
Two of these:		
MUS:5240	Special Topics in Theory and Analysis	3
MUS:6210	History of Ideas of Music	3
MUS:6211	Theoretical Approaches to Music	3
MUS:6250	Advanced Tonal Theory and Analysis	3
MUS:6251	Advanced Non-Tonal Theory and Analysis	3

# Sacred Music, Graduate Certificate

## Requirements

The graduate Certificate in Sacred Music requires 25 s.h. of credit. It is an interdisciplinary program with courses in sacred music, choral conducting and literature, keyboard, voice, religion, and art and art history. Students may earn the certificate while working toward a graduate degree. Individuals not enrolled in a graduate program also may complete the certificate, but they must be admitted to the Graduate College and have the consent of a faculty advisor.

The Certificate in Sacred Music requires the following coursework.

## Liturgy, History of Church Music Hymnology, and Keyboard Studies

This area requires at least 10 s.h. of coursework.

Code	Title	Hours
Both of these:		
MUS:4452	Liturgics	2
MUS:4454	Service Playing and Improvisation	2
At least 3 s.h. from these:		
MUS:3021	Upper Level Piano	2
MUS:3022	Upper Level Organ	2
MUS:4210	Keyboard Harmony	1-2
MUS:6021	Major Piano	2
MUS:6022	Major Organ	2
At least 3 s.h. from these:		
MUS:4450	Organ Literature Survey	2
MUS:5450	History of Organ Building and Design	2-3
MUS:5452	Organ Pedagogy	2
MUS:5475	Organ Literature Special Topics	2

## Choral Conducting, Literature, and Vocal Studies

This area requires 7-8 s.h. of coursework.

Code	Title	Hours
Required (if no previous conducting study):		
MUS:3625	Techniques of Conducting	2
At least 3 s.h. from these:		
MUS:3020	Upper Level Voice	2
MUS:3645/ EDTL:3645	Choral Conducting and Literature	3
MUS:5510	Graduate Diction	2
MUS:6020	Major Voice	2
MUS:6520/ CSD:6202	Vocal Pedagogy	3
MUS:6561	Seminar: Choral Literature and Analysis I	1-3

MUS:6562	Seminar: Choral Literature and Analysis II	1-3
MUS:6563	Seminar: Choral Literature and Analysis III	1-3
MUS:6564	Seminar: Choral Literature and Analysis IV	1-3
MUS:6581	Advanced Choral Conducting I	1-3
MUS:6582	Advanced Choral Conducting II	1-3
MUS:6583	Advanced Choral Conducting III	1-3
MUS:6584	Advanced Choral Conducting IV	1-3

## Religion, History, and Art History

This area requires 6 s.h. of coursework.

Code	Title	Hours
ARTH:3390	Early Medieval Art	3
ARTH:3550	Leonardo, Raphael, Michelangelo: Rivalry and the Rise of the Artist in the Italian Renaissance	3
ARTH:3720	The Romantic Revolution	3
ARTH:3730	Impressionism and the Visual Revolution	3
ARTH:3820	Modern Art	3
ARTH:3840	Contemporary Art	3
HIST:4412/ MDVL:4412	History of the Medieval Church	3
HIST:4417/ MDVL:4417	Medieval Intellectual History 300-1150	3
HIST:4418/ MDVL:4418	Medieval Intellectual History 1150-1500	3
RELS:3247/ CLSA:3247	Banned from the Bible: Pseudepigrapha and Apocrypha	3

Other courses numbered 3000 or above approved by Certificate in Sacred Music advisor

## Optional Electives

Students must complete additional coursework to total 25 s.h. of credit for the certificate.

Code	Title	Hours
MUS:3601	Undergraduate Music Education Workshop II	1

Other electives numbered 3000 or above approved by the Certificate in Sacred Music advisor

# Native American and Indigenous Studies

## Director

- Stephen A. Warren (American Studies/History)

**Undergraduate minor:** Native American and Indigenous studies

**Undergraduate certificate:** Native American and Indigenous studies

**Graduate certificate:** Native American and Indigenous studies

**Faculty:** <https://nativeamericanstudies.uiowa.edu/people>

**Website:** <https://nativeamericanstudies.uiowa.edu/>

Native American and Indigenous studies (NAIS) is an interdisciplinary program that focuses on the histories, cultures, literatures, and contemporary legal and political issues of Native North Americans and other Indigenous peoples of the Americas.

Students taking NAIS courses begin to understand historical and contemporary social issues among Indigenous peoples of the Americas, within the international and global context of settler colonialism and its legacies. Courses provide students with a better understanding of ethnic, social, and political diversity. The curriculum increasingly enables students to encounter innovative teaching methods that cross conventional disciplinary boundaries, that involve visiting and learning more about regional Native American communities in Iowa and the Midwest, and that focus on communicating knowledge to audiences both within and beyond the classroom. Students thereby gain expertise for employment in advocacy, social services, health care, education, and other areas that require cross-cultural understanding and communication with diverse public audiences. Students also gain a background for more specialized or advanced study in a variety of disciplines, including anthropology; economics; education; ethnic studies; gender, women's, and sexuality studies; geography; history; political science; psychology; religious studies; and social justice.

A certificate or minor in NAIS also complements preprofessional and professional training in areas such as health care, business, social work, and law.

The Native American and Indigenous Studies Program is administered by the Department of American Studies [p. 53].

## Programs

### Undergraduate Programs of Study

#### Minor

- Minor in Native American and Indigenous Studies [p. 880]

#### Certificate

- Certificate in Native American and Indigenous Studies [p. 881]

### Graduate Program of Study Certificate

- Certificate in Native American and Indigenous Studies [p. 882]

## Courses

### Native American and Indigenous Studies Courses

#### **NAIS:1049 Introduction to American Indian and Native Studies** 3 s.h.

Exploration of past, present, and future of American Indians in the United States and beyond through film, art, music, and comedy. GE: Values and Culture. Same as AMST:1049, HIST:1049.

#### **NAIS:1095 Native American Art** 3 s.h.

Survey of the visual arts of Indigenous peoples in North America with emphasis on regions that have become the United States; exploration of painting, sculpture, ceramics, fiber arts, performance, and architecture as expressions of identity, creativity, resistance, and resilience from ancestral traditions through transformations prompted by non-Native contact to today's vibrant art scene. GE: Literary, Visual, and Performing Arts; Values and Culture. Same as ARTH:1095.

#### **NAIS:1290 Native American Foods and Foodways** 3 s.h.

Native Americans as original farmers of 46 percent of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of Indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. GE: Diversity and Inclusion. Same as AMST:1290, GHS:1290, HIST:1290.

#### **NAIS:1500 Topics in Native American and Indigenous Studies** 3 s.h.

Native American and Indigenous peoples; concepts, problems, and issues.

#### **NAIS:2165 Native Peoples of North America** 3 s.h.

History, culture of American Indian peoples; emphasis on North America. GE: Diversity and Inclusion. Same as AMST:2165, ANTH:2165.

#### **NAIS:2292 Introduction to American Indian History and Policy** 3 s.h.

Survey of relationships among American Indian tribes, the U.S. government, and the American settler society; consequences of contact and colonialism through study of an individual tribe, impacts of U.S. federal policy and settler colonialism on tribal communities, and how tribes responded variously to these challenges. Same as HIST:2292.

- NAIS:2294 Indigenous Art Activism and Social Justice** 3 s.h.  
Examination of the Native and political aspects of Native arts in the 19th and 20th centuries, from drawings and material culture produced for tourists and collectors to works that explicitly address Native oppression through federal policies, popular cultural appropriations, and colonial representations of Indigenous peoples; emphasis on Indigenous interpretations of colonial and settler history and culture through various media and representations of Indigenous identity and politics. Same as HIST:2294, SJUS:2294.
- NAIS:2300 Native Americans in Film** 3 s.h.  
Representations of Native Americans in film from the western to science fiction and animation. Same as AMST:2300.
- NAIS:2500 Indigenous Art, Land, and Social Justice** 3 s.h.  
Examples, readings, discussions, and special projects examine contemporary visual, performance, and multimedia art by Native North American and other Indigenous artists as a component of broader indigenous activism for social justice and defense of land.
- NAIS:2700 Sacred World of Native Americans** 3 s.h.  
GE: Values and Culture. Same as RELS:2700.
- NAIS:3050 Topics in American Cultural Studies** 3 s.h.  
Special topics in American history, literature, culture. Same as AMST:3050.
- NAIS:3110 Colonialism and Indigenous Health Equity** 3 s.h.  
Health problems and services for Indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101 or ANTH:2165 or GHS:2000 or NAIS:1049. Same as ANTH:3110, GHS:3110.
- NAIS:3257 North American Archaeology** 3 s.h.  
Prehistoric cultural development north of Mexico from initial occupation to European contact and conquest; emphasis on dynamics of culture change. Same as ANTH:3257.
- NAIS:3258 Southwestern Archaeology** 3 s.h.  
Anthropological overview of prehistoric cultures of the American Southwest; emphasis on understanding archaeological arguments concerning major processes in the past. Same as ANTH:3258.
- NAIS:3270 Colonial North America, ca. 1600-1775** 3 s.h.  
Introduction to major themes in colonial American history prior to the American Revolution; Native American history; colonialism and Native resistance; slavery; material culture; religion and spirituality; immigration; gender and sexuality in cross-cultural perspective. Same as HIST:3270.
- NAIS:3272 Native Americans in the Age of Empires, ca. 1500-1815** 3 s.h.  
Overview of major issues in Native American history during the period of European Imperialism; colonialism, diplomacy and alliance building, warfare, captivity, religious and spiritual exchanges, revolution, and the disintegration of Native-European alliances in the early 19th century. Same as HIST:3272.
- NAIS:3276 American Indian Environmentalism** 3 s.h.  
Clean water, plant diversity, animal health as worldwide issues; Native American relationships and responsibilities to the living things of their homelands—from the earth itself to the raindrops that fall from the sky—and how those relationships have been altered in the last 150 years; explore innovative Native American efforts to restore their relationships to plants, animals, and landscapes that have been damaged by resource development, manufacturing, population growth, and political interests. Same as RELS:3976.
- NAIS:3289 The Atlantic World c. 1450-1850** 3 s.h.  
Interactions between peoples of Europe, Africa, and the Americas between the 15th and mid-19th centuries, interconnected system of exchange that defied national and imperial boundaries; encounters between Native Americans, Africans, and Europeans in different parts of the Americas; forced and voluntary resettlement of Africans and Europeans overseas; development of plantation slave societies; biological consequences of transatlantic contact; circulation of people, goods, and ideas; development of creole societies; era of revolutions; abolition of slavery. Same as HIST:3289.
- NAIS:3441 Native American Literature** 3 s.h.  
English majors and English and Creative Writing majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. English and Creative Writing majors may apply this course to the Multiethnic American Literature and Culture requirement. Same as ENGL:3441.
- NAIS:4500 Special Topics in Native American and Indigenous Studies** 1-3 s.h.  
Native American and Indigenous peoples; concepts, problems, and issues.
- NAIS:4502 History of Mexico** 3 s.h.  
Mexican history since the eve of the Spanish invasion, with focus on the national period; may include ethnic groups, conquest and demographic disaster, Native survival, labor and migration, social protest and rebellions, nationhood, regional differences, religions, popular culture, economic growth and distribution, state building, international relations; survey. Same as HIST:4502, LAS:4502.
- NAIS:4990 Independent Study** arr.
- NAIS:5099 American Indian and Native Studies Proseminar** 1 s.h.  
Intensive reading on designated topics with multidisciplinary relevance in Native American and Indigenous studies; may include screenings, field trips, guest speakers, special events.
- NAIS:6050 Seminar: Topics in Native American and Indigenous Studies** 3 s.h.  
Native American and Indigenous peoples; concepts, problems, and issues.
- NAIS:6099 Independent Study Project** arr.  
Completion of a significant scholarly project that addresses the scope, goals, and ongoing development of Native American and Indigenous studies as an academic field; findings presented on campus (e.g., NAIS steering committee or in association with an NAIS-sponsored event) or at an academic conference.
- NAIS:6620 Readings in Native American Literatures** 3 s.h.  
Same as ENGL:6620.

**NAIS:7202 Readings: 20th-Century Native American History arr.**

Examination of the Indigenous 20th century through a series of themes including settler colonialism, sovereignty and self-determination, federal Indian policy, and Indigenous feminism; readings focus primarily on secondary sources, but attention is given to key primary sources; students are required to carry out specified research tasks. Same as HIST:7202.

# Native American and Indigenous Studies, Minor

## Requirements

The minor in Native American and Indigenous studies (NAIS) requires a minimum of 15 s.h., including at least 12 s.h. completed at the University of Iowa. Students must earn a g.p.a. of at least 2.00 in all coursework completed for the minor.

Students complete one introductory course and 12 s.h. in elective coursework as indicated below. Elective courses reflect the program's emphasis on Indigenous histories in the Americas, Indigenous cultures and literatures, and Indigenous peoples in global perspective. Elective courses from several departments ensure that students are exposed to different themes. Students may consult with the NAIS coordinator.

The minor in Native American and Indigenous studies requires the following coursework.

## Introductory Courses

Code	Title	Hours
One of these:		
AMST:1049/ HIST:1049/ NAIS:1049	Introduction to American Indian and Native Studies	3
ANTH:2165/ AMST:2165/ NAIS:2165	Native Peoples of North America	3
HIST:2292/ NAIS:2292	Introduction to American Indian History and Policy	3

## Elective Courses

Students must choose 12 s.h. in elective coursework. They may petition for minor credit for courses not listed below that contain significant Indigenous content.

Code	Title	Hours
AMST:1049/ HIST:1049/ NAIS:1049	Introduction to American Indian and Native Studies (if not taken as an introductory course)	3
AMST:1290/ GHS:1290/ HIST:1290/ NAIS:1290	Native American Foods and Foodways	3
ANTH:2165/ AMST:2165/ NAIS:2165	Native Peoples of North America (if not taken as an introductory course)	3
ANTH:3110/ GHS:3110/ NAIS:3110	Colonialism and Indigenous Health Equity	3
ANTH:3257/ NAIS:3257	North American Archaeology	3
ANTH:3258/ NAIS:3258	Southwestern Archaeology	3
ARTH:1095/ NAIS:1095	Native American Art	3
ENGL:2505	Introduction to Postcolonial Studies	3

ENGL:3431	American Novel Since 1945 (when topic is Native American literature)	3
ENGL:3515	Topics in Postcolonial Studies	3
FREN:4090	Quebec Literature	3
GWSS:3350/ ANTH:3125/IS:3350	Transnational Feminism	3
HIST:1040	Diversity in History (when topic is Indigenous feminisms; consult instructor)	3
HIST:2151	Introduction to the History Major (when topic is Indigenous women in settler societies; consult instructor)	3
HIST:2292/ NAIS:2292	Introduction to American Indian History and Policy (if not taken as an introductory course)	3
HIST:2294/ NAIS:2294/ SJUS:2294	Indigenous Art Activism and Social Justice	3
HIST:3270/ NAIS:3270	Colonial North America, ca. 1600-1775	3
HIST:3272/ NAIS:3272	Native Americans in the Age of Empires, ca. 1500-1815	3
HIST:3273	War and Violence in Early American Societies and Culture	3
HIST:4130/ MUSM:4130	Museum Literacy and Historical Memory	3
SPAN:3240	Mexico City	3

# Native American and Indigenous Studies, Certificate

## Requirements

The undergraduate Certificate in Native American and Indigenous Studies (NAIS) requires a minimum of 18 s.h., including at least 12 s.h. completed at the University of Iowa. Students must earn a g.p.a. of at least 2.00 in all certificate coursework.

The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

All students develop an individual certificate plan of study in consultation with the NAIS coordinator. In some cases, students may be able to count certificate courses toward certain GE CLAS Core [p. 20] requirements. Students complete one introductory course and 15 s.h. in elective coursework as indicated below. Elective courses reflect the certificate program's emphasis on Indigenous histories in the Americas, Indigenous cultures and literatures, and Indigenous peoples in global perspective. Elective courses from several departments ensure that students are exposed to different themes.

The Certificate in Native American and Indigenous Studies requires the following coursework.

## Introductory Courses

Code	Title	Hours
One of these:		
AMST:1049/ HIST:1049/ NAIS:1049	Introduction to American Indian and Native Studies	3
ANTH:2165/ AMST:2165/ NAIS:2165	Native Peoples of North America	3
HIST:2292/ NAIS:2292	Introduction to American Indian History and Policy	3

## Elective Courses

Students must choose 15 s.h. in elective coursework. They may petition for certificate credit for courses not listed below that contain significant Indigenous content.

Code	Title	Hours
AMST:1049/ HIST:1049/ NAIS:1049	Introduction to American Indian and Native Studies (if not taken as an introductory course)	3
AMST:1290/ GHS:1290/ HIST:1290/ NAIS:1290	Native American Foods and Foodways	3
ANTH:2165/ AMST:2165/ NAIS:2165	Native Peoples of North America (if not taken as an introductory course)	3
ANTH:3110/ GHS:3110/ NAIS:3110	Colonialism and Indigenous Health Equity	3

ANTH:3257/ NAIS:3257	North American Archaeology	3
ANTH:3258/ NAIS:3258	Southwestern Archaeology	3
ARTH:1095/ NAIS:1095	Native American Art	3
ENGL:2505	Introduction to Postcolonial Studies	3
ENGL:3431	American Novel Since 1945 (when topic is Native American literature)	3
ENGL:3515	Topics in Postcolonial Studies	3
FREN:4090	Quebec Literature	3
GWSS:3350/ ANTH:3125/IS:3350	Transnational Feminism	3

SPAN:3240	Mexico City	3

# Native American and Indigenous Studies, Graduate Certificate

## Requirements

The graduate Certificate in Native American and Indigenous Studies (NAIS) requires a minimum of 15 s.h. in courses numbered 3000 and above. Students must maintain a g.p.a. of at least 3.00 in coursework toward the certificate.

Students must contact the NAIS coordinator in order to apply to the certificate program, and they work with the NAIS coordinator to develop a plan of study.

Students who earned an undergraduate certificate in the program may not receive a graduate certificate.

Native American and Indigenous studies aims to expose students to the interdisciplinary nature of the field. NAIS emphasizes Indigenous histories in the Americas, Indigenous cultures and literatures, and Indigenous peoples in global perspective.

Students may petition for certificate credit for courses that are not on the list. The petition must show that the course contains significant Indigenous content. Before enrolling in any courses listed below, students should contact the NAIS coordinator.

Code	Title	Hours
ANTH:3257/ NAIS:3257	North American Archaeology	3
ANTH:3258/ NAIS:3258	Southwestern Archaeology	3
ENGL:3431	American Novel Since 1945	3
ENGL:3515	Topics in Postcolonial Studies	3

# Neuroscience

## Chair, Department of Biology

- Jodie M. Plumert

**Undergraduate major:** neuroscience (B.S.)

**Faculty:** <https://clas.uiowa.edu/neuro#faculty>

**Website:** <https://clas.uiowa.edu/neuro>

The Departments of Biology and Psychological and Brain Sciences collaborate to offer the Bachelor of Science degree in neuroscience. The neuroscience program also is closely aligned with the Iowa Neuroscience Institute (INI). The program is administered by the Department of Biology [p. 182].

## Programs

## Undergraduate Program of Study

### Major

- Major in Neuroscience (Bachelor of Science) [p. 884]

# Neuroscience, B.S.

## Learning Outcomes

Students will:

- learn how molecules and cells generate brain circuits that build human behavior and cognition;
- design effective experiments;
- think critically about scientific data;
- communicate effectively about neuroscience; and
- be prepared for graduate education in neuroscience or related life-science fields; for medical school or other health-related programs such as public health or nursing; or for a first step in a career, including work in biomedical industries, academic laboratories, and science education.

## Requirements

The Bachelor of Science with a major in neuroscience requires a minimum of 120 s.h., including at least 64 s.h. of work for the major. Coursework includes neuroscience, chemistry, biochemistry, mathematics, and physics courses. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students who major in neuroscience may not earn a major in biology or psychology, but may earn a minor in biology or psychology as long as no more than 3 s.h. are double counted.

The B.S. with a major in neuroscience requires the following coursework.

Code	Title	Hours
	Cognate Requirements	23-26
	Introductory Courses	8
	Core Courses	17
	Laboratory Course	4-5
	Neuroscience Electives	12-15
	<b>Total Hours</b>	<b>64-71</b>

## Cognate Requirements

Code	Title	Hours
One of these options:		
BIOC:3110	Biochemistry	3
BIOC:3120 & BIOC:3130	Biochemistry and Molecular Biology I-II (both of these)	6
This sequence:		
CHEM:1110 & CHEM:1120	Principles of Chemistry I-II	8
One of these sequences:		
PHYS:1511- PHYS:1512	College Physics I-II (preferred)	8
PHYS:1611- PHYS:1612	Introductory Physics I-II	8
One of these:		
MATH:1460	Calculus for the Biological Sciences (preferred)	4
MATH:1380	Calculus and Matrix Algebra for Business	4

MATH:1550	Engineering Mathematics I: Single Variable Calculus	4
MATH:1850	Calculus I	4

## Introductory Courses

Code	Title	Hours
Both of these:		
BIOL:1411	Foundations of Biology	4
PSY:2701	Introduction to Behavioral Neuroscience	4

## Core Courses

Code	Title	Hours
All of these:		
BIOL:3253	Neurobiology I	4
BIOL:3254	Neurobiology II	4
PSY:2811-PSY:2812	Research Methods and Data Analysis in Psychology I-II	6
PSY:2975	Introduction to Cognitive Neuroscience	3

## Laboratory Course

Code	Title	Hours
One of these:		
BIOL:3244	Animal Behavior (with lab)	5
BIOL:3655	Neurogenetics Laboratory	4
BIOL:3656	Neurobiology Laboratory	4
PSY:4025	Laboratory in Cognitive Neuroscience	4

## Neuroscience Electives

Code	Title	Hours
A minimum of four courses (12 s.h.) from these:		
BIOL:1412	Diversity of Form and Function	4
BIOL:2254	Endocrinology	3
BIOL:2512	Fundamental Genetics	4
BIOL:2603	Mechanisms of Aging	3
BIOL:2723	Cell Biology	3
BIOL:3343	Animal Physiology	3
BIOL:4333	Genes and Development	3
BIOL:4353	Neurophysiology: Cells and Systems	3-4
PCOL:3101	Pharmacology I: A Drug's Fantastic Journey	2-3
PHIL:3510	Neuroethics	3
PSY:3035	Science of Emotion	3
PSY:3040	Psychology of Learning	3
PSY:3060	Sensation and Perception	3
PSY:3250	Neuroscience of Learning and Memory	3
PSY:3265	Cognitive and Clinical Neuroscience of Executive Functions	3
PSY:3270	Neurobiology of Stress	3
PSY:3275	The Science of Sleep	3
PSY:3575	Social Cognition in Autism	3

May include one of these:

PCOL:3102	Pharmacology II: Mechanisms of Drug Action	3
PSY:3230	Psychopharmacology	3

## Honors

### Honors in the Major

Students majoring in neuroscience have the opportunity to graduate with honors in the major. Departmental honor students must maintain a major g.p.a. and a UI g.p.a. of at least 3.33.

In order to earn honors in the neuroscience major, students must complete the following:

- A minimum of 6 s.h. over two or more semesters of an independent laboratory research project undertaken in the laboratory of an Iowa Neuroscience Institute (INI) faculty member chosen from a list of approved mentors. Students enroll in BIOL:4995/PSY:4995 Honors Research in Neuroscience.
- A brief initial research proposal summarizing the background and goals of the planned honors investigations research, submitted to the honors coordinator, typically at the end of the semester immediately prior to the final semester of honors research.
- An acceptable honors thesis describing the research submitted to the honors coordinator near the end of the final semester of enrollment in BIOL:4995/PSY:4995 Honors Research in Neuroscience.
- An oral presentation of the honors research findings during the student's final semester.

Honors students also are encouraged to participate in the Iowa Center for Research by Undergraduates (ICRU) and to apply for research scholarships, including the Iowa Neuroscience Institute (INI) Summer Scholars Fellowships.

Neuroscience majors interested in graduating with honors in the major should contact the honors coordinator as early as possible, preferably during their sophomore or junior year.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Students who satisfy the requirements for honors in the neuroscience major also satisfy the Experiential Learning requirement of the University honors curriculum.

Membership in the UI Honors Program is not required to earn honors in the neuroscience major.

## Career Advancement

The major provides students with a rigorous and broad background in neuroscience, from the cellular and molecular levels to the behavioral and cognitive levels. Students earning a degree in neuroscience will be well prepared to pursue graduate work in neuroscience or related life sciences, to attend medical school, or to enter other health-related programs such as a physician's assistant program, public health, or nursing. Graduates also will be prepared to directly enter the workforce in biotechnology industries, academic

life science laboratories, or in science education, and science writing.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** BIOL:1411 Foundations of Biology, CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, MATH:1380 Calculus and Matrix Algebra for Business or MATH:1460 Calculus for the Biological Sciences or MATH:1550 Engineering Mathematics I: Single Variable Calculus or MATH:1850 Calculus I, and PSY:2701 Introduction to Behavioral Neuroscience.

**Before the fifth semester begins:** PHYS:1511 College Physics I or PHYS:1611 Introductory Physics I, PSY:2811 Research Methods and Data Analysis in Psychology I, PSY:2812 Research Methods and Data Analysis in Psychology II, and PSY:2975 Introduction to Cognitive Neuroscience.

**Before the seventh semester begins:** BIOC:3110 Biochemistry, or BIOC:3120 Biochemistry and Molecular Biology I and BIOC:3130 Biochemistry and Molecular Biology II; BIOL:3253 Neurobiology I; BIOL:3244 Animal Behavior (with lab) or BIOL:3656 Neurobiology Laboratory; BIOL:3254 Neurobiology II; and PHYS:1512 College Physics II or PHYS:1612 Introductory Physics II.

**Before the eighth semester begins:** two required neuroscience electives.

**During the eighth semester:** one required neuroscience elective, enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

### Neuroscience, B.S.

Course	Title	Hours
<b>First Year</b>		
<b>Fall</b>		
CHEM:1110	Principles of Chemistry I <sup>a, b</sup>	4
PSY:1001	Elementary Psychology <sup>b, c</sup>	3
PSY:2701	Introduction to Behavioral Neuroscience	4
ENGL:1200 or RHET:1030	The Interpretation of Literature or Rhetoric	3 - 4
CSI:1600	Success at Iowa	2
<b>Hours</b>		<b>16-17</b>
<b>Spring</b>		
BIOL:1411	Foundations of Biology <sup>b</sup>	4
CHEM:1120	Principles of Chemistry II <sup>b</sup>	4

MATH:1460	Calculus for the Biological Sciences <sup>b, d</sup>	4
ENGL:1200 or RHET:1030	The Interpretation of Literature or Rhetoric	3 - 4

**Hours 15-16**

### Second Year

#### Fall

PSY:2811	Research Methods and Data Analysis in Psychology I	3
PSY:2975	Introduction to Cognitive Neuroscience	3
PHYS:1511	College Physics I	4
GE CLAS Core: World Languages First Level Proficiency or elective course <sup>e</sup>		4 - 5

**Hours 14-15**

#### Spring

PSY:2812	Research Methods and Data Analysis in Psychology II	3
PHYS:1512	College Physics II	4
BIOC:3110 or BIOC:3120	Biochemistry <sup>f</sup> or Biochemistry and Molecular Biology I	3
GE CLAS Core: World Languages Second Level Proficiency or elective course <sup>e</sup>		4 - 5

**Hours 14-15**

### Third Year

#### Fall

BIOL:3253	Neurobiology I	4
Major: neuroscience elective I		3 - 4
BIOC:3130	Biochemistry and Molecular Biology II <sup>f</sup>	3
GE CLAS Core: World Languages Second Level Proficiency or elective course <sup>e</sup>		4 - 5

**Hours 14-16**

#### Spring

BIOL:3254	Neurobiology II	4
Major: neuroscience elective II		3 - 4
GE CLAS Core: Diversity and Inclusion <sup>g</sup>		3
GE CLAS Core: World Languages Fourth Level Proficiency or elective course <sup>e</sup>		4 - 5

**Hours 14-16**

### Fourth Year

#### Fall

Major: neuroscience elective III		3 - 4
Major: neuroscience lab course or neuroscience elective IV		3 - 5
GE CLAS Core: International and Global Issues <sup>g</sup>		3
GE CLAS Core: Values and Culture <sup>g</sup>		3

**Hours 12-15**

#### Spring

Major: neuroscience lab course or neuroscience elective IV		3 - 4
GE CLAS Core: Historical Perspectives <sup>g</sup>		3
GE CLAS Core: Literary, Visual, and Performing Arts <sup>g</sup>		3
Elective course <sup>h</sup>		3

Degree Application: apply on MyUI before deadline<sup>i</sup>  
(typically in February for spring, September for fall)<sup>i</sup>

**Hours 12-13**

**Total Hours 111-123**

- Enrollment in chemistry courses requires completion of a placement exam.
- Fulfills a major requirement and may fulfill a GE requirement.
- It is strongly recommended that neuroscience majors take this course as their GE CLAS Core: Social Science requirement and that they do so in their first semester.
- Enrollment in math courses requires completion of a placement exam.
- Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- If BIOC:3120 is taken, students will also have to complete BIOC:3130 to meet this requirement.
- GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Philosophy

## Chair

- David Cunning

**Undergraduate major:** philosophy (B.A.)

**Undergraduate minor:** philosophy

**Graduate degrees:** M.A. in philosophy; Ph.D. in philosophy

**Faculty:** <https://clas.uiowa.edu/philosophy/people/faculty>

**Website:** <https://clas.uiowa.edu/philosophy/>

The Department of Philosophy offers programs of study for undergraduate and graduate students. A major in philosophy develops abilities useful for careers in many fields and for any situation requiring clear, systematic thinking.

The department also administers the interdisciplinary undergraduate major in ethics and public policy, which it offers jointly with the Department of Economics and the Department of Sociology and Criminology; see Ethics and Public Policy [p. 484] in the Catalog.

## Programs

### Undergraduate Programs of Study

#### Major

- Major in Philosophy (Bachelor of Arts) [p. 892]

#### Minor

- Minor in Philosophy [p. 896]

### Graduate Programs of Study

#### Majors

- Master of Arts in Philosophy [p. 897]
- Doctor of Philosophy in Philosophy [p. 898]

## Courses

For more detailed descriptions of undergraduate and graduate courses offered during a given semester or summer session, visit the University's MyUI website before early registration. Graduate-level courses are numbered from 4000 to 6000.

### Philosophy Courses

#### **PHIL:1010 First-Year Seminar** 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

#### **PHIL:1033 The Meaning of Life** 3 s.h.

Philosophical investigation of the nature of human life and of what makes human life valuable and/or meaningful. GE: Historical Perspectives.

#### **PHIL:1034 Liberty and the Pursuit of Happiness** 3 s.h.

Examination of conflict between state power and individual liberty; philosophical and historical examination of theories from Plato through today. GE: Historical Perspectives.

#### **PHIL:1401 Matters of Life and Death** 3 s.h.

Contemporary ethical controversies with life and death implications; topics may include famine, brain death, animal ethics, abortion, torture, terrorism, capital punishment. GE: Values and Culture.

#### **PHIL:1636 Principles of Reasoning: Argument and Debate** 3 s.h.

Critical thinking and its application to arguments and debates. GE: Quantitative or Formal Reasoning.

#### **PHIL:1861 Introduction to Philosophy** 3 s.h.

Varied topics; may include personal identity, existence of God, philosophical skepticism, nature of mind and reality, time travel, and the good life; readings, films. GE: Values and Culture.

#### **PHIL:1902 Philosophy Lab: The Meaning of Life** 1 s.h.

Further exploration of PHIL:1033 course material with the professor in a smaller group.

#### **PHIL:1904 Philosophy Lab: Liberty and the Pursuit of Happiness** 1 s.h.

Further exploration of PHIL:1034 course material with the professor in a smaller group.

#### **PHIL:1950 Philosophy Club** 1-3 s.h.

Relevant philosophical debates as they are exhibited in current events, text, and film; participation through discussions and film screenings.

#### **PHIL:2111 Ancient Philosophy** 3 s.h.

Ancient Greek philosophy from Thales to Aristotle; pre-Socratic cosmologists, Socrates, ancient medicine and religion, rivalry between sophists and philosophers; primary focus on reaction of Plato and Aristotle to this intellectual inheritance culminating in their greatest achievement, the invention of systematic philosophy.

#### **PHIL:2214 Seventeenth-Century Philosophy** 3 s.h.

Varied topics; may include free will, the mind-body problem, existence of God, relationship between God and creatures, science and religion, stoicism, early feminism; Francis Bacon, Rene Descartes, Margaret Cavendish, Baruch Spinoza, Anne Conway, G.W. Leibniz, Mary Astell, John Locke.

#### **PHIL:2215 Modern Philosophy** 3 s.h.

Varied topics; may include free will, the mind-body problem, existence of God, creation versus evolution, subjectivity of perception, limits of cognition, the good life; Rene Descartes, Margaret Cavendish, Baruch Spinoza, Anne Conway, G.W. Leibniz, Mary Astell, John Locke, George Berkeley, David Hume, Immanuel Kant.

#### **PHIL:2216 Eighteenth-Century Philosophy** 3 s.h.

Varied topics; may include appearance versus reality, empiricism and science, the mind-body problem, existence of God, creation versus evolution, subjectivity of perception, limits of cognition, the good life, early feminism; Mary Astell, John Locke, George Berkeley, David Hume, Immanuel Kant.

#### **PHIL:2343 Philosophy East and West** 3 s.h.

A comparative study of Eastern and Western theories and arguments concerning the nature and existence of the self.

#### **PHIL:2352 Chinese Philosophy** 3 s.h.

Introduction to Chinese philosophy; Confucius and Mencius; human flourishing in accordance with nature; Daoism; Laozi and Zhuangzi; virtues and lives in ancient China and Greece; human nature and good and evil; moral sentiment and desire for profit.

- PHIL:2402 Introduction to Ethics** 3 s.h.  
Analytical and historical introduction to ethical theories; issues such as the nature of the goodness, distinction between right and wrong. GE: Values and Culture.
- PHIL:2415 Bioethics** 3 s.h.  
Recent developments in biotechnology and medicine; designer babies and cloning, genetic screening for disease, distributive justice in health care, animal experimentation, physician-assisted suicide, and euthanasia. Same as GHS:2415.
- PHIL:2422 Feminist Ethics** 3 s.h.  
Philosophical evaluation of gender as a pervasive and persistent structuring principle for social inequality.
- PHIL:2429 War, Terrorism, and Torture** 3 s.h.  
Examination of some of the most compelling ethical and legal questions surrounding the topic of war: Can a war ever be just? If so, under which conditions is one justified in waging war? Are there limitations on permissible ways to fight a war? How are acts of terrorism different from acts of war? Is torture ever justified?
- PHIL:2432 Introduction to Political Philosophy** 3 s.h.  
Survey of central problems in political philosophy; focus on liberty, equality, justice, and purpose of the state; core philosophers may include John Locke, Jean-Jacques Rousseau, Thomas Hobbes, John Stuart Mill, and John Rawls.
- PHIL:2435 Philosophy of Law** 3 s.h.  
Examination of jurisprudential theories and their answers to the question, "What is law?"; intersection between law and morality, legal punishment, political obligation, constitutional interpretation.
- PHIL:2436 The Nature of Evil** 3 s.h.  
The nature of evil explored through philosophical texts, videos and films, case studies of individuals.
- PHIL:2437 Introduction to Metaphysics** 3 s.h.  
Questions about the ultimate nature of reality and our place in it: What is the nature of space and time? Is time travel possible? What is the self and how does it persist through time and change? What is the nature of causation? Do we have free will?
- PHIL:2442 Knowledge and the Threat of Skepticism** 3 s.h.  
Skeptical doubt and distinction between appearance and reality; nature of knowledge and what, if anything, can we know.
- PHIL:2480 Language and Its Social Roles** 3 s.h.  
Introduction to basic concepts in philosophy of language and speech act theory; social and political uses of language including nature of speech, silencing, oppressive and hate speech, propaganda and dehumanizing language, lying and misleading with language.
- PHIL:2534 Philosophy of Religion** 3 s.h.  
Historical to contemporary treatments of central issues; nature of faith, existence and nature of God, science and religion, ethics and religion, miracles, religious experience, interpretation of religious texts. Requirements: sophomore or higher standing. Same as RELS:2834.
- PHIL:2538 Minds and Machines** 3 s.h.  
Questions concerning artificial intelligence: What is a mind? What is the relationship between minds and machines? What distinguishes real minds from artificial minds? Could computers or robots think or have feelings? If we create something whose intelligence surpasses that of humans, do we have a right to control it? Are your smart electronic devices parts of your mind? How has the internet changed our lives? Do we survive, perhaps immortally, if we upload contents of our minds to the internet or cloud?
- PHIL:2542 Minds and Brains** 3 s.h.  
Nature of mind in the age of the brain; exploration of questions (How is the mind related to the brain? What do brain scans show? How does the brain process information? What is conscious experience? Is free will threatened by neuroscience? How are intuitive conceptions of memory, emotion, and other mental capacities changing?).
- PHIL:2603 Introduction to Symbolic Logic** 3 s.h.  
Main ideas and techniques of modern natural deduction with quantifiers (all, some, most, exactly one); relations and identity; topics in philosophy of logic including nature of logic, nature of functions, logical necessity, identity as a relation, and how we know logic.
- PHIL:3002 Ancient Skepticism** 3 s.h.  
Introduction to skeptical philosophy of Greek philosopher and physician, Sextus Empiricus (c. 160-210 A.D.); skepticism as a way of life and a form of philosophical therapy, skeptic's avoidance of dogmatism by suspension of belief, attaining suspension through discovery of opposing arguments on either side of any philosophical problem, skeptic's attack on ancient theories of ethics and logic, search for a criterion of truth, relation of skepticism to rival contemporary schools of medicine (Empiricists, Rationalists, Methodists); influence of the rediscovery of Sextus' writings on 17th century thinkers.
- PHIL:3112 Medieval Philosophy** 3 s.h.  
Introduction to St. Thomas Aquinas, William of Ockham, and Duns Scotus, three of the most brilliant philosophers of the high middle ages (11th through 13th centuries); their writing as Christians in (fascinated) reaction to philosophical systems of their pagan predecessors; how medieval philosophers wrestled with problems concerning possibility of free will and responsibility in face of divine omniscience and foreknowledge; existence of abstract universals in a world that is nonabstract and particular; nature and existence of God; skepticism and limits of human knowledge; nature of good and evil. Same as HIST:3412.
- PHIL:3143 Existentialism** 3 s.h.  
Main ideas of existentialism, including free will, authenticity, power, nihilism; emphasis on Jean Paul Sartre, Simone de Beauvoir, Friedrich Nietzsche, Martin Heidegger, Soren Kierkegaard, Albert Camus.
- PHIL:3318 Twentieth-Century Philosophy** 3 s.h.  
Exploration of fundamental issues that shaped philosophy in the past century; impact of the theory of evolution on philosophy; whether philosophy is a science; nature of truth and meaning; nature of necessity; nature of space, time, and being; John Dewey, Bertrand Russell, Gottlob Frege, Ludwig Wittgenstein, W.V.O. Quine, Saul Kripke, David Lewis.
- PHIL:3342 Multiculturalism and Toleration** 3 s.h.  
Evaluation of multiculturalism as a political policy and as a personal attitude of respect; individual and collective identity, gender justice, autonomy, toleration, multiculturalism and education; contested practices.

- PHIL:3430 Philosophy of Human Rights** 3 s.h.  
Examination of the concept of human rights; sources of human rights; how we justify calling some, while not other rights, "human rights"; applied issues in women's, children's, and anti-poverty rights.
- PHIL:3431 Aesthetics** 3 s.h.  
Issues regarding art, aesthetic judgment, and role of art in society; investigation of questions: What is art and what is good art? What is conceptual art? Are aesthetic judgments just a matter of taste, or are some opinions about art better than others? What features of artworks matter for making such judgments, and which don't?; issues pertaining to various arts including painting and sculpture, music, fiction and poetry, performance arts; introduction to artworks and artists.
- PHIL:3510 Neuroethics** 3 s.h.  
Issues that arise from advances in knowledge of brain-mind relations: cognitive neuroenhancement, neuroimaging-based lie detection and privacy, changing standards of moral and legal responsibility, justification of punishment, admissibility of neuroimaging in legal contexts.
- PHIL:3604 Introduction to Philosophy of Science** 3 s.h.  
Examination of basic questions regarding nature of science and scientific knowledge: When is a field of inquiry a science? What counts as evidence in a science, and why? In what sense, if any, is science objective? What are scientific laws, theories, and explanations? If scientific theories are never proven with certainty, are we justified in believing them to be true? Recommendations: background in science (psychology, biology, chemistry, physics).
- PHIL:3845 Buddhist Philosophy** 3 s.h.  
Theories and arguments concerning the Buddhist path to enlightenment. Same as RELS:3645.
- PHIL:3847 Philosophical Issues** 3-4 s.h.  
A philosophical topic or controversy.
- PHIL:3902 Workshop: Analytical Skills for the LSAT** 3 s.h.  
Guided preparation for pre-law students who plan to take the Law School Admission Test (LSAT); exercises in analytical thinking, analytical writing, problem solving; practice developing skills in logical reasoning; reflection on professional skills and goals.
- PHIL:3904 Workshop: Analytical Skills for the GMAT** 3 s.h.  
Guided preparation for undergraduate students who plan to enroll in a graduate business program and take the Graduate Management Admission Test (GMAT); exercises in analytical thinking, analytical writing, problem solving; practice developing skills in logical reasoning; reflection on professional skills and goals.
- PHIL:3906 Workshop: Analytical Skills for the MCAT** 3 s.h.  
Guided preparation for students who plan to take the Medical College Admission Test (MCAT); exercises in analytical thinking, analytical writing, problem solving; practice developing skills in logical reasoning; reflection on professional skills and goals.
- PHIL:3908 Workshop: Analytical Skills for the GRE** 3 s.h.  
Guided preparation for students who plan to take the Graduate Record Examination (GRE) and attend graduate school; exercises in analytical thinking, analytical writing, problem solving; practice developing skills in logical reasoning; reflection on professional skills and goals.
- PHIL:3920 Philosophy in Public** 1-3 s.h.  
Engagement and service-learning; philosophical concepts are applied to and extracted from internship work in the community and beyond.
- PHIL:3950 Readings in Philosophy** arr.  
Independent study. Requirements: sophomore or higher standing.
- PHIL:4050 Topics in Buddhist Philosophy** 3 s.h.  
Buddhist theories and arguments concerning nature and existence of the self.
- PHIL:4152 Plato** 3 s.h.  
Introduction to metaphysics, epistemology, and moral theory of Plato; topics may include the philosophy of Socrates, Plato's theory of Forms, the tripartite soul, nature of virtue and moral education; Plato's cosmology and assimilation of human nature to the divine; close reading and interpretation of specific texts.
- PHIL:4153 Aristotle** 3 s.h.  
Introduction to metaphysics, epistemology, and moral theory of Aristotle; topics may include Aristotle's theories of matter and form, causation, motion, change, space, void, time; Aristotle's philosophy of biology and theory of the soul; unity of virtue, nature of action and choice; the syllogism; combines survey with close reading and interpretation of specific texts.
- PHIL:4258 Descartes** 3 s.h.  
Descartes' systematic philosophy and impact on current debates; topics may include skepticism, the confusion of everyday experience, the mind-body problem, innate ideas and empiricism, free will, nature and existence of God, science and religion, problem of evil, stoicism.
- PHIL:4260 Spinoza and Leibniz** 3 s.h.  
Comparative and critical examination of metaphysical and epistemological views of 17th-century rationalists, Baruch Spinoza and G.W. Leibniz; topics may include monism, panpsychism, space and time, free will and necessity, the confusion of everyday experience, incomplete versus complete ideas, nature and existence of God, stoicism, passions and emotions as objects of detached scientific investigation.
- PHIL:4263 Berkeley and Hume** 3 s.h.  
Comparative and critical examination of metaphysical and epistemological views of 18th-century empiricists, George Berkeley and David Hume; topics may include the theory of ideas, perception, skepticism, limits of knowledge, the mind-body problem, scientific and philosophical method, role of God in Berkeley's and Hume's philosophical systems.
- PHIL:4266 Kant** 3 s.h.  
Main ideas and major texts of Kant's metaphysics and epistemology; particular attention given to *Critique of Pure Reason*.
- PHIL:4346 Frege and Russell** 3 s.h.  
Major issues concerning Frege's revolution in logic, Cantor's taming of the infinite, and Russellian synthesis of these revolutions to form Logicist thesis that all of pure mathematics (including geometry) is a branch of the science of logic; central issues in the philosophy of language and analysis of logical form; Russell's theory of definite descriptions and his logicism as a paradigm for a philosophical solution to mysteries of existence, number, infinite, motion, and Zeno paradoxes.

- PHIL:4373 Heidegger** 3 s.h.  
Main ideas and major texts of Martin Heidegger; early and later periods; particular attention given to *Being and Time*; focus on Heidegger's analyses of Being and being-in-the-world.
- PHIL:4375 Rawls's Political Philosophy** 3 s.h.  
Major works by John Rawls, selected secondary readings; contractarianism, concept of justice, justice as fairness as an alternative to utilitarianism, Kantian foundations, comprehensive and political liberalism.
- PHIL:4377 Wittgenstein** 3 s.h.  
Main ideas and major texts of Ludwig Wittgenstein; early and later periods; particular attention given to *Tractatus*, *Philosophical Investigations*, and development of Wittgenstein's thought.
- PHIL:4379 Quine** 3 s.h.  
Evaluation of Quine's attempt to restructure philosophy so that ontological questions are questions of "what there is" and methods for answering such questions are methods of natural (empirical) sciences; central issues pertaining to Quine's thesis that this naturalization program also applies to physics, mathematics, logic; comparison of Dewey's pragmatist and evolutionary reconstruction in philosophy to that of Quine and others (e.g., Carnap, Russell, Wittgenstein); major themes involving Quine on set theory, modal logic, the *a priori*; and the thesis that meaning is translation and translation is indeterminate.
- PHIL:4480 Analytic Ethics** 3 s.h.  
Exploration of central meta-ethical questions: Are there objective values, and if there are, can we gain knowledge of what has such value? Should we always act so as to bring about the best consequences? If not, why not? Can we derive moral conclusions from scientifically established facts about the world? If not, does this undermine the idea that we can offer sensible arguments for ethical conclusions?
- PHIL:4481 Issues in Philosophy of Law** 3 s.h.  
Nature of law and legal interpretation; natural law theory and positivism; critical legal theories.
- PHIL:4482 Early Modern Ethics** 3 s.h.  
Thomas Hobbes' 1651 publication, *Leviathan*, set British moral philosophy on a new course, rejecting most of the presuppositions of theistic natural law theory, shocked and outraged many of his contemporaries, and set in motion a debate about the nature of morality that continues today in philosophical ethics; focus on debate between sentimentalists (Francis Hutcheson, David Hume, Adam Smith) who regarded morality as a matter of human attitudes and emotions, and rationalists (Samuel Clarke, Ralph Cudworth, Richard Price) who regarded morality as analogous to mathematics.
- PHIL:4485 Political Philosophy** 3 s.h.  
Political philosophy topics; may include obligation to obey the law, secession, nature of rights, limits of state power, just distribution of property, feminist criticisms.
- PHIL:4586 Topics in Metaphysics** 3 s.h.  
In-depth exploration of metaphysical problems: material constitution, persistence of objects and persons through time, problem of universals, mind-body problem, free will and determinism.
- PHIL:4587 Epistemology** 3 s.h.  
Theories of nature, structure, and extent of knowledge and rational belief; investigation of questions: Do we really know as much as we are inclined to think we do? Can we rule out the possibility that we are dreaming or being systematically deceived right now? And if we can't, what reason do we have for thinking that things are as they seem to us to be?
- PHIL:4588 Philosophy of Mind** 3 s.h.  
Foundational questions about the mind: What is the mind, and how is it related to the brain? What makes minds so special? How do we know if other animals, or even other people, have minds? Can things without brains, such as aliens or computers, think? What is consciousness? Are we mere machines, lacking free will, if neuroscientists can explain the mind?; recent research in related sciences including neuroscience, psychology, cognitive ethology (animal cognition).
- PHIL:4589 Philosophy of Language** 3 s.h.  
Main issues in contemporary philosophy of language; topics may include theories of meaning, truth, belief, interpretation, translation, speech acts, performatives, rule following, reference, naming, propositional attitudes, metaphor. Same as LING:4589.
- PHIL:4590 Foundations of Cognitive Science** 3 s.h.  
Cognitive science defined as the study of individual agency; its nature, mechanisms, and patterns; development of cognitive science from historical roots in psychology, computer science, neuroscience, philosophy, linguistics; key issues; motivations for and varieties of cognitive explanations; models of cognitive architecture; nature of information processing; relation between cognitive processes and experimental tasks; relation between cognitive and neural theories, models, explanations.
- PHIL:4691 Mathematical Logic** 3 s.h.  
Presentation of logic as the science that studies kinds of structure; different axiom systems, decidability, model theoretic semantics, Gödel's incompleteness theorems; topics include nature of logic, mathematics, type-theories, set-theoretical paradoxes.
- PHIL:4692 Modal Logic** 3 s.h.  
Presentation of systems of logic designed to capture concepts of necessity and possibility; different axiom systems, semantics, nonexistent objects; topics include nonclassical systems, nature of possible worlds, relevant entailment, transworld identity, and counterparts inhabiting parallel worlds.
- PHIL:4694 Philosophy of Science** 3 s.h.  
Issues in the nature of science and scientific knowledge considered in greater depth; nature of causation, kinds of relations that might hold between sciences and scientific theories, and varieties of explanation. Requirements: prior coursework in philosophy.
- PHIL:4798 Topics in Philosophy** 3 s.h.  
A single philosopher or philosophical problem.
- PHIL:4920 Research Practicum** 2-3 s.h.  
Collaborative research between student and faculty member.

- PHIL:5153 Aristotle: Seminar Discussion** 1 s.h.  
Introduction to metaphysics, epistemology, and moral theory of Aristotle; topics may include Aristotle's theories of matter and form, causation, motion, change, space, void, time; Aristotle's philosophy of biology and theory of the soul; unity of virtue, nature of action and choice; the syllogism; combines survey with close reading and interpretation of specific texts; seminar discussion for graduate students. Corequisites: PHIL:4153.
- PHIL:5266 Kant: Seminar Discussion** 1 s.h.  
Main ideas and major texts of Kant's metaphysics and epistemology; particular attention given to *Critique of Pure Reason*; seminar discussion for graduate students. Corequisites: PHIL:4266.
- PHIL:5377 Wittgenstein: Seminar Discussion** 1 s.h.  
Main ideas and major texts of Ludwig Wittgenstein; early and later periods; particular attention given to *Tractatus Logico-Philosophicus*, *Philosophical Investigations*, and development of Wittgenstein's thought; seminar discussion for graduate students. Corequisites: PHIL:4377.
- PHIL:5480 Analytic Ethics: Seminar Discussion** 1 s.h.  
Exploration of central meta-ethical questions: Are there objective values, and if there are, can we gain knowledge of what has such value? Should we always act so as to bring about the best consequences? If not, why not? Can we derive moral conclusions from scientifically established facts about the world? If not, does this undermine the idea that we can offer sensible arguments for ethical conclusions?; seminar discussion for graduate students. Corequisites: PHIL:4480.
- PHIL:5586 Topics in Metaphysics: Seminar Discussion** 1 s.h.  
In-depth exploration of metaphysical problems: material constitution, persistence of objects and persons through time, problem of universals, mind-body problem, free will and determinism; seminar discussion for graduate students. Corequisites: PHIL:4586.
- PHIL:5588 Philosophy of Mind: Seminar Discussion** 1 s.h.  
Foundational questions about the mind: What is the mind, and how is it related to the brain? What makes minds so special? How do we know if other animals, or even other people, have minds? Can things without brains, such as aliens or computers, think? What is consciousness? Are we mere machines, lacking free will, if neuroscientists can explain the mind?; recent research in related sciences including neuroscience, psychology, and cognitive ethology (animal cognition); seminar discussion for graduate students. Corequisites: PHIL:4588.
- PHIL:6100 Seminar: Ancient Philosophy** 3 s.h.
- PHIL:6200 Seminar: Modern Philosophy** 3 s.h.
- PHIL:6300 Seminar: Philosophical Analysis** 3 s.h.
- PHIL:6400 Seminar: Ethics** 3 s.h.
- PHIL:6510 Seminar: Metaphysics** 3 s.h.
- PHIL:6520 Seminar: Epistemology** 3 s.h.
- PHIL:6540 Seminar: Philosophy of Language** 3 s.h.
- PHIL:6620 Seminar: Philosophy of Science** 3 s.h.
- PHIL:6920 Philosophy Colloquium** 1-3 s.h.  
Attendance and participation at departmental colloquia and precolloquium meetings; lunch with visiting speakers; weekly meetings to discuss background to topic and larger issues of professionalization.
- PHIL:7200 Research: History of Philosophy** arr.
- PHIL:7400 Research: Value Theory** arr.
- PHIL:7500 Research: Metaphysics and Epistemology** arr.
- PHIL:7600 Research: Logic and Philosophy of Science** arr.
- PHIL:7900 Thesis** arr.

# Philosophy, B.A.

Undergraduate courses in philosophy are designed to impart knowledge of fundamental issues and main developments in philosophy while strengthening logical and analytic skills.

The department sponsors an active Philosophy Club that hosts informal discussion meetings, movie nights, outreach events, departmental public lectures and colloquia, and other activities. The department also offers a service-learning course, PHIL:3920 Philosophy in Public.

## Learning Outcomes

The goals of philosophical training are:

- to think critically and make well-grounded arguments, both orally and in written work;
- to understand key philosophical problems and major traditions;
- to learn variegated approaches to solving problems;
- to detect problems and puzzles that are not readily apparent;
- to develop critical listening;
- to learn a step-by-step approach to the mastery of public speaking; and
- to read and interpret all forms of text—news reports, books, film, television, etc.

## Department of Philosophy Initiatives

- Applying philosophical concepts to everyday affairs.
- Creating community through movie nights, the philosophy club, public lectures, optional one-hour lab sections for students to work more closely with research faculty, an undergraduate colloquium series, and the undergraduate journal—Labrynth.
- Outreach and engagement; for example, through the service-learning course, PHIL:3920 Philosophy in Public, the K-12 Iowa Lyceum Summer Philosophy Institute, and outreach with the Johnson County Senior Center.
- The philosophy undergraduate internship program.
- Prompt and helpful advising.
- Career guidance and support.
- An annual newsletter that connects students with successful alumni.

## Requirements

The Bachelor of Arts with a major in philosophy requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. A minimum of 15 s.h. for the major must be earned at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students should discuss the requirements for the major with an advisor as soon as possible. The advisor can suggest the most effective order for taking courses, based on each student's interests and on the relation of the course topics to each other. See Courses [p. 887] in this section of the Catalog for a complete listing of philosophy courses.

Students can only count one of these courses toward the major.

Code	Title	Hours
PHIL:3902	Workshop: Analytical Skills for the LSAT	3
PHIL:3904	Workshop: Analytical Skills for the GMAT	3
PHIL:3906	Workshop: Analytical Skills for the MCAT	3
PHIL:3908	Workshop: Analytical Skills for the GRE	3

Of the 30 s.h. of philosophy coursework (prefix PHIL) required for the major, at least two courses must be numbered 4000 or above. Only 3 s.h. of PHIL:4920 Research Practicum may be counted toward the major and toward the 4000-level course and area requirement.

The B.A. with a major in philosophy requires the following coursework.

Code	Title	Hours
Value Theory Courses		6
Metaphysics/Epistemology Courses		6
Ancient Philosophy Course		3
Modern Philosophy Course		3
Introductory Logic Course		3
Philosophy Electives		9
<b>Total Hours</b>		<b>30</b>

## 1000-Level Course Options

Only 6 s.h. of the total hours required for the major can be taken in coursework numbered at the 1000 level (see the list below for options).

Code	Title	Hours
May take two courses from these:		
PHIL:1033	The Meaning of Life	3
PHIL:1034	Liberty and the Pursuit of Happiness	3
PHIL:1401	Matters of Life and Death	3
PHIL:1636	Principles of Reasoning: Argument and Debate	3
PHIL:1861	Introduction to Philosophy	3

## Value Theory

Code	Title	Hours
Must take at least two of these:		
PHIL:2402	Introduction to Ethics	3
PHIL:2415	Bioethics	3
PHIL:2422	Feminist Ethics	3
PHIL:2429	War, Terrorism, and Torture	3
PHIL:2432	Introduction to Political Philosophy	3
PHIL:2435	Philosophy of Law	3
PHIL:2436	The Nature of Evil	3
PHIL:3342	Multiculturalism and Toleration	3
PHIL:3430	Philosophy of Human Rights	3
PHIL:3431	Aesthetics	3
PHIL:3510	Neuroethics	3

PHIL:3845	Buddhist Philosophy	3
PHIL:4375	Rawls's Political Philosophy	3
PHIL:4480	Analytic Ethics	3
PHIL:4481	Issues in Philosophy of Law	3
PHIL:4482	Early Modern Ethics	3
PHIL:4485	Political Philosophy	3
These may be taken with permission of the instructor if content is applicable:		
PHIL:2352	Chinese Philosophy	3
PHIL:3847	Philosophical Issues	3
PHIL:4152	Plato	3
PHIL:4153	Aristotle	3
PHIL:4798	Topics in Philosophy	3
PHIL:4920	Research Practicum	3
PHIL:6100	Seminar: Ancient Philosophy	3
PHIL:6200	Seminar: Modern Philosophy	3
PHIL:6300	Seminar: Philosophical Analysis	3
PHIL:6400	Seminar: Ethics	3

## Metaphysics/Epistemology

Code	Title	Hours
Must take at least two of these:		
PHIL:2343	Philosophy East and West	3
PHIL:2437	Introduction to Metaphysics	3
PHIL:2442	Knowledge and the Threat of Skepticism	3
PHIL:2480	Language and Its Social Roles	3
PHIL:2534	Philosophy of Religion	3
PHIL:2538	Minds and Machines	3
PHIL:2542	Minds and Brains	3
PHIL:3002	Ancient Skepticism	3
PHIL:3112	Medieval Philosophy	3
PHIL:3143	Existentialism	3
PHIL:3318	Twentieth-Century Philosophy	3
PHIL:3604	Introduction to Philosophy of Science	3
PHIL:4050	Topics in Buddhist Philosophy	3
PHIL:4258	Descartes	3
PHIL:4260	Spinoza and Leibniz	3
PHIL:4263	Berkeley and Hume	3
PHIL:4266	Kant	3
PHIL:4346	Frege and Russell	3
PHIL:4373	Heidegger	3
PHIL:4377	Wittgenstein	3
PHIL:4379	Quine	3
PHIL:4586	Topics in Metaphysics	3
PHIL:4587	Epistemology	3
PHIL:4588	Philosophy of Mind	3
PHIL:4589	Philosophy of Language	3
PHIL:4590	Foundations of Cognitive Science	3
PHIL:4694	Philosophy of Science	3

These may be taken with permission of the instructor if content is applicable:

PHIL:2352	Chinese Philosophy	3
PHIL:3847	Philosophical Issues	3
PHIL:4152	Plato	3
PHIL:4153	Aristotle	3
PHIL:4798	Topics in Philosophy	3
PHIL:4920	Research Practicum	3
PHIL:6100	Seminar: Ancient Philosophy	3
PHIL:6200	Seminar: Modern Philosophy	3
PHIL:6300	Seminar: Philosophical Analysis	3
PHIL:6510	Seminar: Metaphysics	3
PHIL:6520	Seminar: Epistemology	3
PHIL:6540	Seminar: Philosophy of Language	3
PHIL:6620	Seminar: Philosophy of Science	3

## Ancient Philosophy

Code	Title	Hours
This course:		
PHIL:2111	Ancient Philosophy	3

## Modern Philosophy

Code	Title	Hours
At least one of these:		
PHIL:2214	Seventeenth-Century Philosophy	3
PHIL:2215	Modern Philosophy	3
PHIL:2216	Eighteenth-Century Philosophy	3

## Introductory Logic

Code	Title	Hours
This course:		
PHIL:2603	Introduction to Symbolic Logic	3

## Combined Programs

### B.A./J.D.

The Department of Philosophy participates in the 3+3 program with the College of Law which allows students the opportunity to apply for admission during their junior year to the College of Law, and if accepted, to begin work on the Juris Doctor degree during their fourth year of study in the B.A. degree program.

For more information, see the 3+3 Program for Undergraduates on the College of Law website and the Juris Doctor, J.D. [p. 1707] (College of Law) in the Catalog.

## Honors

### Honors in the Major

Students majoring in philosophy have the opportunity to graduate with honors in the major. In order to be admitted to the departmental honors program, a student must have taken and passed three courses required for the philosophy major. To graduate with honors in the major, students must complete the requirements for the major with a g.p.a. of

at least 3.40 in philosophy coursework and a University of Iowa cumulative g.p.a. of at least 3.33. In addition, they must write an acceptable honors thesis on a significant topic in philosophy of interest to them; students must enroll in PHIL:4920 Research Practicum while working on their honors thesis. Contact the department's director of undergraduate studies for more information.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the philosophy major.

### Career Advancement

Philosophy graduates have a variety of career options. Many continue their education by studying law or pursuing graduate work in philosophy or other disciplines. Philosophy graduates also enter into such fields as business, medicine, scientific research, government, consulting, journalism, and K-12 education, among others. The Department has a philosophy undergraduate career consultant to help students with résumé writing, career exploration, interview skills, and preparing for the University of Iowa job and internship fair.

Undergraduates are encouraged to enroll in PHIL:3920 Philosophy in Public at least one time before graduating in order to get a head start on their career trajectory. Students who intend to teach philosophy in a college setting must earn a graduate degree.

Philosophy majors earn among the very highest scores on the Law School Admission Test (LSAT), the Graduate Management Admission Test (GMAT), the Medical College Admission Test (MCAT), and the Graduate College Record Exam (GRE) General Test.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

**Before the fifth semester begins:** at least one course in the major.

**Before the seventh semester begins:** at least five courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** at least six courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

#### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and

should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Philosophy, B.A.

Course	Title	Hours
<b>Academic Career</b>		
<b>Any Semester</b>		
A minimum of 15 s.h. for the philosophy major must be earned at the University of Iowa.		
Students can only count one of these courses toward the major: PHIL:3902 Workshop: Analytical Skills for the LSAT, PHIL:3904 Workshop: Analytical Skills for the GMAT, PHIL:3906 Workshop: Analytical Skills for the MCAT, PHIL:3908 Workshop: Analytical Skills for the GRE.		
<b>Hours</b>		<b>0</b>
<b>First Year</b>		
<b>Fall</b>		
ENGL:1200 or RHET:1030	The Interpretation of Literature or Rhetoric	3 - 4
PHIL:1861	Introduction to Philosophy <sup>a, b, c</sup>	3
GE CLAS Core: Diversity and Inclusion <sup>d</sup>		3
GE CLAS Core: Literary, Visual, and Performing Arts <sup>d</sup>		3
CSI:1600	Success at Iowa	2
<b>Hours</b>		<b>14-15</b>
<b>Spring</b>		
PHIL:1636	Principles of Reasoning: Argument and Debate <sup>e</sup>	3
RHET:1030 or ENGL:1200	Rhetoric or The Interpretation of Literature	3 - 4
GE CLAS Core: Social Sciences <sup>d</sup>		3
GE CLAS Core: Natural Sciences with Lab <sup>d</sup>		4
Elective course <sup>f</sup>		3
<b>Hours</b>		<b>16-17</b>
<b>Second Year</b>		
<b>Fall</b>		
PHIL:2603	Introduction to Symbolic Logic	3
PHIL:2111	Ancient Philosophy	3
GE CLAS Core: International and Global Issues <sup>d</sup>		3
GE CLAS Core: World Languages First Level Proficiency or elective course <sup>g</sup>		4 - 5
Elective course <sup>f</sup>		3
<b>Hours</b>		<b>16-17</b>
<b>Spring</b>		
PHIL:2214 or PHIL:2215 or PHIL:2216	Seventeenth-Century Philosophy or Modern Philosophy or Eighteenth-Century Philosophy	3
Elective course <sup>f</sup>		3
GE CLAS Core: Historical Perspectives <sup>d</sup>		3
GE CLAS Core: World Languages Second Level Proficiency or elective course <sup>g</sup>		4 - 5
Elective course <sup>f</sup>		3
<b>Hours</b>		<b>16-17</b>
<b>Third Year</b>		
<b>Fall</b>		
Major: value theory course		3

Major: metaphysics/epistemology course	3
GE CLAS Core: Natural Sciences without Lab <sup>d</sup>	3
GE CLAS Core: World Languages Second Level Proficiency or elective course <sup>g</sup>	4 - 5
Elective course <sup>f</sup>	3

**Hours 16-17**

### Spring

Major: metaphysics/epistemology course	3
Major: value theory course	3
GE CLAS Core: World Languages Fourth Level Proficiency or elective course <sup>g</sup>	4 - 5
Elective course <sup>f</sup>	3
Elective course <sup>f</sup>	3

**Hours 16-17**

### Fourth Year

#### Fall

Major: upper-level course numbered 4000 or above (prefix PHIL) <sup>h, i</sup>	3
Elective course <sup>f</sup>	3

**Hours 15**

#### Spring

Major: upper-level course numbered 4000 or above (prefix PHIL) <sup>h, i</sup>	3
Elective course <sup>f</sup>	3

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)<sup>j</sup>

**Hours 15**

**Total Hours 124-130**

- j Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.
- a PHIL:1861 fulfills a GE requirement. This course may also count as credit toward the major.
- b Students may choose from PHIL:1033, PHIL:1034, PHIL:1401, PHIL:1636, or PHIL:1861. A student is not required to take any 1000-level courses for the major, but a 1000-level course often serves as an important introduction to help a student determine which particular topics they might want to pursue at a more advanced level.
- c Students may include no more than 6 s.h. of 1000-level PHIL courses toward the major.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e This course is recommended for the GE CLAS Core Quantitative or Formal Reasoning requirement. It is not a major requirement.
- f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- g Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- h Only 3 s.h. of PHIL:4920 Research Practicum may be counted toward the major and toward the 4000-level course and area requirement.
- i Students complete 30 s.h. of philosophy courses (prefix PHIL), of which at least two courses must be numbered 4000 or above.

# Philosophy, Minor

## Requirements

The undergraduate minor in philosophy requires a minimum of 15 s.h. in philosophy courses, including at least 9 s.h. in courses numbered 2000 or above. At least 12 s.h. for the minor must be taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

See Courses [p. 887] in this section of the Catalog for a complete listing of philosophy courses.

Students may count only one of these courses toward the minor.

<b>Code</b>	<b>Title</b>	<b>Hours</b>
PHIL:3902	Workshop: Analytical Skills for the LSAT	3
PHIL:3904	Workshop: Analytical Skills for the GMAT	3
PHIL:3906	Workshop: Analytical Skills for the MCAT	3
PHIL:3908	Workshop: Analytical Skills for the GRE	3

Contact the undergraduate studies director for more information.

## Philosophy, M.A.

### Requirements

The Master of Arts program in philosophy requires a minimum of 30 s.h. of graduate credit and is offered without thesis. Students must earn a program g.p.a. of at least 3.00. The M.A. is not offered as a terminal degree; it is awarded to students as they work successfully toward the Ph.D.

The M.A. with a major in philosophy requires the following coursework.

### Metaphysics and Epistemology

Code	Title	Hours
Two of these (with earned grades of B or higher):		
PHIL:4379	Quine	3
PHIL:4586	Topics in Metaphysics	3
PHIL:4587	Epistemology	3
PHIL:4588	Philosophy of Mind	3
PHIL:4589	Philosophy of Language	3
PHIL:4590	Foundations of Cognitive Science	3
PHIL:6300	Seminar: Philosophical Analysis	3
PHIL:6510	Seminar: Metaphysics	3
PHIL:6520	Seminar: Epistemology	3
PHIL:6540	Seminar: Philosophy of Language	3

### Ancient and Medieval Philosophy and Modern Philosophy

Code	Title	Hours
Two of these (with earned grades of B or higher):		
<b>Ancient and Medieval Philosophy</b>		
PHIL:4152	Plato	3
PHIL:4153	Aristotle	3
PHIL:6100	Seminar: Ancient Philosophy	3
<b>Modern Philosophy</b>		
PHIL:4260	Spinoza and Leibniz	3
PHIL:4263	Berkeley and Hume	3
PHIL:4266	Kant	3
PHIL:4377	Wittgenstein	3
PHIL:6200	Seminar: Modern Philosophy	3

### Logic, Philosophy of Science, and Philosophy of Mathematics

Code	Title	Hours
One of these (with an earned grade of B or higher):		
PHIL:4346	Frege and Russell	3
PHIL:4691	Mathematical Logic	3
PHIL:4692	Modal Logic	3
PHIL:4694	Philosophy of Science	3
PHIL:6620	Seminar: Philosophy of Science	3

## Value Theory

Code	Title	Hours
One of these (with an earned grade of B or higher):		
PHIL:4375	Rawls's Political Philosophy	3
PHIL:4480	Analytic Ethics	3
PHIL:4481	Issues in Philosophy of Law	3
PHIL:4482	Early Modern Ethics	3
PHIL:4485	Political Philosophy	3
PHIL:6400	Seminar: Ethics	3

Students may be able to apply PHIL:4798 Topics in Philosophy or a research course toward one of the requirement areas. Contact the graduate studies director for more information.

## Electives

All students must complete 12 s.h. in coursework numbered 4000 or above. They should consult the graduate studies director for approval of elective coursework.

## Final Examination

Students must pass an oral final examination that will not exceed three hours in length. They are informed of at least one of the exam questions no later than one week before their exam. Students who fail may petition the M.A. Examination Committee for a second opportunity to pass the exam. The second exam must be scheduled not sooner than three months, nor later than one year, after the date of the examination.

## Combined Programs

### M.A./J.D.

The Department of Philosophy and the College of Law offer a combined Master of Arts/Juris Doctor program. M.A./J.D. students may count 12 s.h. earned in the combined program toward both degrees. They must earn 18 of the 30 s.h. required for the M.A. in graduate-level philosophy courses (the usual requirement is 24 s.h.). They also must earn a minimum of 36 s.h. in undergraduate and graduate philosophy courses, combined (the usual requirement is 42 s.h.).

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

For more information about the J.D., see Juris Doctor, J.D. [p. 1707] (College of Law) in the Catalog.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Career Advancement

The graduate program is designed to train teachers and scholars in philosophy. The Department of Philosophy also is invested in helping students to use their philosophical training careers outside of academia.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

# Philosophy, Ph.D.

The main areas of concentration in the graduate curriculum are metaphysics, epistemology, history of philosophy, philosophy of science, social and political philosophy, logic, and value theory.

## Requirements

The Doctor of Philosophy program in philosophy requires a minimum of 72 s.h. of graduate credit. Graduate students must take Department of Philosophy courses (prefix PHIL) that are numbered 4000 and above. Students must earn a program g.p.a. of at least 3.00. Candidacy for the doctoral program is determined by a formal vote of the entire Department of Philosophy faculty, usually after a student has completed three semesters of graduate study in residence.

Requirements include courses in metaphysics, epistemology, history of philosophy, logic, philosophy of science, and value theory. See Courses [p. 887] in this section of the Catalog for a complete listing of philosophy courses.

Students are required to take a comprehensive examination that includes both a written dissertation prospectus and an oral defense. Upon successfully completing the exam, they begin work on their dissertation. There is no world language requirement. Contact the graduate studies director for more information.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Career Advancement

The graduate program is designed to train teachers and scholars in philosophy. The Department of Philosophy also is invested in helping students to use their philosophical training careers outside of academia.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

# Physics and Astronomy

## Chair

- Philip E. Kaaret

## Director, Undergraduate Studies

- Jane M. Nachtman

## Director, Graduate Studies

- Vincent Rodgers

## Director, Research Operations

- John P. Prineas

**Undergraduate majors:** physics (B.A., B.S.); applied physics (B.S.); astronomy (B.A., B.S.)

**Undergraduate minors:** physics; astronomy

**Graduate degrees:** M.S. in physics; M.S. in astronomy; Ph.D. in physics

**Faculty:** <https://physics.uiowa.edu/people>

**Website:** <https://physics.uiowa.edu/>

The Department of Physics and Astronomy provides comprehensive and rigorous instruction in all basic aspects of its subjects. It also provides research facilities and guidance in selected specialties for advanced individual scholarly work.

In addition to its undergraduate and graduate programs of study, the department offers several courses that undergraduate students in all majors may use to satisfy the GE CLAS Core Natural Sciences requirement. Look for courses with prefixes ASTR and PHYS under "Natural Sciences" in the GE CLAS Core [p. 20] section of the Catalog. The department often offers First-Year Seminars designed for entering undergraduates.

The department also participates in an interdisciplinary doctoral program, the Program in Applied Mathematical and Computational Sciences [p. 1597] (Graduate College).

All of the department's courses and advanced laboratories are taught by faculty members. Faculty members also supervise associated laboratories taught by graduate students. Enrollment in courses beyond the elementary level is typically 15 to 20 students; there is ample opportunity for individual work. Special introductory courses are offered for students majoring in physics and astronomy and for others with a special interest in these subjects.

Total enrollment in physics and astronomy courses is approximately 2,200 each semester of the academic year and 150 during the summer session. The department has around 120 undergraduate majors, half of whom are honors students, and 75 graduate students.

## Programs

### Undergraduate Programs of Study

#### Majors

- Major in Physics (Bachelor of Arts) [p. 905]
- Major in Astronomy (Bachelor of Arts) [p. 908]
- Major in Physics (Bachelor of Science) [p. 911]
- Major in Applied Physics (Bachelor of Science) [p. 914]
- Major in Astronomy (Bachelor of Science) [p. 918]

#### Minors

- Minor in Physics [p. 921]
- Minor in Astronomy [p. 922]

### Graduate Programs of Study

#### Majors

- Master of Science in Physics [p. 923]
- Master of Science in Astronomy [p. 924]
- Doctor of Philosophy in Physics [p. 925]

## Facilities

The department has a number of well-equipped laboratories and observatories. Faculty, students, and staff access national supercomputers via the internet, and have access to high performance computing clusters on campus. The central machine shop is fully equipped and staffed by skilled instrument makers and machinists, and there are electronics and machine shops for use by advanced students and research staff.

Experimental research is conducted in astronomy (optical, radio, and X-ray), atomic and molecular physics, condensed matter physics, elementary particle physics, laser physics, medical physics, plasma physics, and space physics. Extensive facilities are available for construction of specialized research equipment and for data processing and analysis.

State-of-the-art semiconductor materials and devices are grown in two molecular beam epitaxy machines. Ultrafast laser techniques are developed and used to probe electron transport, energy relaxation, recombination, and spin dynamics in the novel nanostructures grown in these machines. Experiments also are conducted on laser-induced coherent phenomena and coherent control of charge carriers in semiconductor nanostructures. The experimental condensed matter program is closely coordinated with the condensed matter theory group.

Plasma physics is an active area of experimental and theoretical research. Laboratory experiments studying plasma processes of importance in various space and astrophysical plasmas are performed in a Q machine, including experiments on waves and instabilities in dusty plasmas. Additional laboratory and microgravity experiments with dusty plasmas include studies of Coulomb crystals, shocks, and complex fluids. Glow discharges for plasma processing applications are studied using laser diagnostics and numerical simulations. Wave propagation and plasma particle dynamics also are studied in collisionless plasmas through laboratory experiments. Laser techniques are developed for measuring plasma flow and following particle orbits. Plasma theory efforts include analytical and numerical investigations of magnetic reconnection and turbulence in space and astrophysical plasmas; collaboration with laboratory and space plasma experimental groups in strongly coupled dusty plasmas, waves, and instabilities; and free electron lasers and hydrodynamic turbulence.

State-of-the-art laser systems are available for high-resolution spectroscopic measurement and ultrafast studies of molecular structure, for collisional relaxation and nonlinear optical effects in atomic and molecular systems, and for plasma diagnostics.

Experimental research in elementary particle physics is carried out at Fermi National Accelerator Laboratory, Stanford

Linear Accelerator Center, CERN in Switzerland, and other international laboratories. The present generation of high-energy experiments has been designed to probe both the strong nuclear force and the weak interactions.

The department is well-equipped for research and instruction in observational astronomy. The primary optical instrument is a fully automated 15-inch telescope at a dark-sky site in Arizona. The telescope is equipped with CCD cameras and a variety of filters. There are 3-meter and 4.5-meter radio telescopes on the roof of Van Allen Hall, which are used for instruction and student research projects.

Research programs in galactic and extragalactic radio astronomy are carried out using the facilities of the National Radio Astronomy Observatory, including the Very Large Array and the Very Long Baseline Array, one element of which is 10 miles north of campus. Current long-term research activities include studies of the center of the Milky Way galaxy; investigations of extragalactic radio sources; the formation of powerful winds in young, luminous stars; radio-wave scattering in the interstellar and interplanetary media; and interacting binary stars. There is a research program in X-ray astronomy and a laboratory for instrument development. Research topics in X-ray astronomy concentrate on observations of X-ray emission from black holes and supernova remnants, using existing spacecraft.

Active theoretical research is carried on in astrophysics; atomic, molecular, and optical physics; condensed matter physics; elementary particle physics; laser physics; mathematical physics; nuclear physics; plasma physics; and space physics. An active mathematical physics seminar fosters the exchange of ideas between mathematics and physics.

The primary emphasis of Iowa's program in experimental and theoretical space physics is on studies of cosmic and heliospheric physics, magnetospheric physics, and magnetosphere-ionosphere interactions. Facilities are available for designing and constructing spaceflight instruments. Investigators in the department have flown instruments for studying plasmas, energetic charged particles, auroral images, plasma waves, and radio emissions on a wide variety of terrestrial and planetary spacecraft, including Pioneer 10 and 11, Dynamics Explorer, Voyager 1 and 2, Galileo, Polar, Cassini, and Mars Express.

## Courses

- Physics Courses [p. 900]
- Astronomy Courses [p. 903]

## Physics Courses

**PHYS:1000 First-Year Seminar** **1 s.h.**  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**PHYS:1100 From Quarks to Quasars** **3-4 s.h.**  
Conceptual explanations of the latest discoveries in physics—from the smallest objects, such as quarks and atoms, to the largest, such as galaxies, black holes, and quasars. Requirements: non-science major. GE: Natural Sciences with Lab; Natural Sciences without Lab.

**PHYS:1200 Physics of Everyday Experience** **3 s.h.**  
Principles of physics; basic motion, behavior of fluids, waves, temperature and heat, gravity and planetary motion, electricity and magnetism, optics, nuclear energy, radioactivity, and medical imaging technology; examples from everyday experience; for non-science majors. GE: Natural Sciences without Lab.

**PHYS:1400 Basic Physics** **3-4 s.h.**  
Quantitative treatment of mechanics, electricity, heat, liquids, gases, and atomic, nuclear, and elementary particle physics. Requirements: must have completed high school trigonometry or achieved a minimum ALEKS score of 75%. GE: Natural Sciences with Lab; Natural Sciences without Lab.

**PHYS:1409 Basic Physics Lab** **1 s.h.**  
Laboratory for PHYS:1400. Corequisites: PHYS:1400 (if not taken as a prerequisite). GE: Natural Sciences Lab only.

**PHYS:1410 Physics of Sound** **3-4 s.h.**  
Acoustical foundations of music; production of sound by vibrating objects, properties of sound waves, vocal acoustics, hearing, room acoustics, principles of electroacoustics. GE: Natural Sciences with Lab; Natural Sciences without Lab.

**PHYS:1511 College Physics I** **4 s.h.**  
Algebra-based treatment of mechanics, waves, thermodynamics, and special relativity. Requirements: must have completed high school trigonometry or achieved a minimum ALEKS score of 75%. GE: Natural Sciences with Lab.

**PHYS:1512 College Physics II** **4 s.h.**  
Continuation of PHYS:1511; algebra-based treatment of electricity, magnetism, light, and modern physics. Prerequisites: PHYS:1611 or PHYS:1511. GE: Natural Sciences with Lab.

**PHYS:1611 Introductory Physics I** **4 s.h.**  
Calculus-based treatment of mechanics, waves, and thermodynamics. Corequisites: MATH:1550 or MATH:1850. GE: Natural Sciences with Lab.

**PHYS:1612 Introductory Physics II** **3-4 s.h.**  
Continuation of PHYS:1611; calculus-based treatment of electricity, magnetism, and light. Prerequisites: PHYS:1611. Corequisites: MATH:1560 or MATH:1860. GE: Natural Sciences with Lab; Natural Sciences without Lab.

**PHYS:1619 Introductory Physics II Lab** **1 s.h.**  
Laboratory for PHYS:1612. Requirements: 3 s.h. in PHYS:1612. GE: Natural Sciences Lab only.

**PHYS:1701 Physics I** **4 s.h.**  
Introduction to physics; calculus-based treatment of Newtonian mechanics for point particles and rigid bodies; conservation laws. Offered fall semesters. Corequisites: MATH:1850. Requirements: physics or astronomy major. GE: Natural Sciences with Lab.

**PHYS:1702 Physics II** **4 s.h.**  
Continuation of PHYS:1701; introduction to fluid mechanics, electricity, magnetism (Maxwell's equations). Offered spring semesters. Prerequisites: PHYS:1701. Corequisites: MATH:1860. Requirements: physics or astronomy major. GE: Natural Sciences with Lab.

**PHYS:1999 Undergraduate Seminar** **arr.**  
Selected topics in physics and astronomy; discussion, presentations.

**PHYS:2703 Physics III** **4 s.h.**  
Continuation of PHYS:1702; introduction to physics; calculus-based treatment of electromagnetic waves and optics; mechanical and sound waves; thermal physics. Offered fall semesters. Prerequisites: PHYS:1702.

- PHYS:2704 Physics IV** 3-4 s.h.  
Introduction to quantum mechanics and other topics in modern physics, including special relativity, atomic and solid state physics. Offered spring semesters. Prerequisites: (PHYS:1612 or PHYS:2703) and (MATH:1860 or MATH:1550). Requirements: for 3 s.h. option—nonmajor.
- PHYS:2905 Programming for Physics** 2 s.h.  
Introduction to scientific programming for applications in physics.
- PHYS:2990 Reading in Physics** arr.  
Selected topics in physics.
- PHYS:3500 Undergraduate Practicum** arr.  
Experiences that provide special opportunities for students to gain practical and hands-on training related to topics in physics; practicums typically arranged by individual faculty members. Requirements: application and acceptance into practicum.
- PHYS:3710 Intermediate Mechanics** 3 s.h.  
Introduction to Newtonian mechanics; noninertial reference systems; central forces, celestial mechanics; rigid body motion; Lagrangian and Hamiltonian equations of motion; small oscillations. Prerequisites: (PHYS:1611 or PHYS:1511 or PHYS:1701) and (MATH:1860 or MATH:1560).
- PHYS:3730 Statistical Physics** 3 s.h.  
Integrated introduction to subjects of thermodynamics, statistical mechanics, classical and quantum statistics of interacting particles; kinetic theory; emphasis on applications. Prerequisites: PHYS:2704.
- PHYS:3741 Introduction to Quantum Mechanics I** 3 s.h.  
Superposition principle, Stern-Gerlach experiment, linear operators, measurement theory, time evolution, angular momentum, wave mechanics in one dimension, one-dimensional harmonic oscillator, two-body problems with central forces, and the hydrogen atom. Prerequisites: MATH:2850 and PHYS:2704 and MATH:2700.
- PHYS:3742 Introduction to Quantum Mechanics II** 3 s.h.  
Continuation of PHYS:3741; Perturbation theory, variational methods, WKB approximation, scattering, Helium atom, periodic table, atomic spectroscopy, transition rates, and other selected applications. Prerequisites: PHYS:3741.
- PHYS:3750 Fundamentals of Micro and Nanofabrication** 3 s.h.  
Fundamentals of micro and nanofabrication processes; physical principles of photo and electron beam lithography, alternative nanolithography techniques, thin film deposition, molecular beam epitaxy, atomic layer deposition, self-assembly; metrology methods; physical and chemical processes of wet and plasma etching; clean room science, operations, safety protocols; sequential micro and nanofabrication processes involved in manufacture of semiconductor, photonic, nanoscale devices; imaging and characterization of micro and nanostructures; scientific and technological applications of emerging micro and nanodevices and systems. Prerequisites: BIOL:1141 or CHEM:1120 or PHYS:1612 or CHEM:1110 or CHEM:1060 or PHYS:1702 or PHYS:1611. Requirements: undergraduate lab course in chemistry, biology, physics, or engineering.
- PHYS:3756 Intermediate Laboratory** 3 s.h.  
Introduction to instruments and techniques of experimental physics and basic skills needed for carrying out experimental physics research; hands-on use of a variety of instruments and equipment. Prerequisites: PHYS:2704. Corequisites: PHYS:3811.
- PHYS:3811 Electricity and Magnetism I** 3 s.h.  
Introduction to electricity and magnetism; topics include electrostatics, magnetostatics, potential theory, and electric and magnetic fields in matter. Prerequisites: (MATH:3550 or MATH:2850) and (PHYS:1612 or PHYS:1702 or PHYS:1512).
- PHYS:3812 Electricity and Magnetism II** 3 s.h.  
Continuation of PHYS:3811; introduction to electricity and magnetism; topics include Maxwell's equations, electrodynamics, electromagnetic waves, radiation, and special relativity. Prerequisites: PHYS:3811.
- PHYS:3850 Electronics** 4 s.h.  
Design and construction of small circuits; use of measurement instruments—oscilloscope, multimeter, function generator; circuits, including transistors, operational amplifiers, digital, analog-to-digital conversion. Prerequisites: PHYS:1512 or PHYS:1612 or PHYS:1702. Requirements: physics or astronomy major.
- PHYS:4720 Introductory Optics** 3 s.h.  
Wave motion and superposition, electromagnetic theory, photons, propagation of light, geometrical and physical optics, interference, diffraction, polarization, and Fourier optics; optical components, devices, and systems. Prerequisites: (PHYS:1512 or PHYS:2703 or PHYS:1612) and (MATH:1560 or MATH:1860). Same as ECE:4720.
- PHYS:4726 Electro Optics** 3 s.h.  
Wave equation solutions; optical birefringence; finite beam propagation in free space, dielectric waveguides and fibers; optical resonators; nonlinear phenomena; electro-optic, acousto-optic modulation; optical detection, noise; application to communication systems. Requirements: for ECE:5790—ECE:3700; for PHYS:4726—PHYS:3812. Same as ECE:5790.
- PHYS:4728 Introductory Solid State Physics** 3 s.h.  
Phenomena associated with solid state; classification of solids and crystal structures, electronic and vibrational properties in solids; thermal, optical, magnetic, dielectric properties of solids. Prerequisites: PHYS:3741. Same as ECE:4728.
- PHYS:4731 Plasma Physics I** 3 s.h.  
Physics of ionized gases, including orbit theory, guiding center motion, adiabatic invariants, ionization balance description of plasmas by fluid variables and distribution functions; linearized wave motions, instabilities; magnetohydrodynamics. Prerequisites: PHYS:3812.
- PHYS:4740 Elementary Particles and Nuclear Physics** 3 s.h.  
Accelerators, particle detectors, passage of radiation through matter; nuclear structure, nuclear reactions; quark model of hadrons; strong, electromagnetic, weak interactions of elementary particles; gauge theories, intermediate vector bosons; unification of electromagnetic and weak interactions. Prerequisites: PHYS:3741.
- PHYS:4750 Advanced Laboratory** 3 s.h.  
Advanced experimental work and development of new experiments. Prerequisites: PHYS:3756.
- PHYS:4761 Mathematical Methods of Physics I** 3 s.h.  
Functions of complex variables, integration methods, linear vector spaces, tensors, matrix algebra. Prerequisites: MATH:2850.
- PHYS:4762 Mathematical Methods of Physics II** 3 s.h.  
Continuation of PHYS:4761; Hilbert space, special functions, Fourier transform and expansions in orthogonal polynomials, differential equations, Green's functions. Prerequisites: PHYS:4761.

- PHYS:4820 Optical Signal Processing** 3 s.h.  
Linear systems description of optical propagation; diffraction and angular plane wave spectrum; lenses as Fourier transformers, lens configurations as generalized optical processors; lasers, coherence, spatial frequency analysis; holography; convolvers, correlators, matched filters; synthetic aperture radar; optical computing. Requirements: for ECE:5780—ECE:3700; for PHYS:4820—PHYS:3812. Same as ECE:5780.
- PHYS:4860 Computational Physics** 3 s.h.  
Introduction to contemporary use of computers by physicists; topics such as numerical solutions of ordinary differential equations in classical mechanics, boundary value problems in electricity and magnetism, eigenvalue problems in quantum mechanics, Monte Carlo simulations in statistical mechanics, methods of data analysis. Prerequisites: PHYS:3741 and PHYS:3811 and PHYS:3710.
- PHYS:4905 Special Topics in Physics** arr.  
Introduction to scientific programming using the Python language and linear algebra for applications in physics.
- PHYS:4990 Reading in Physics** arr.  
Selected topics in physics.
- PHYS:4999 Undergraduate Research** arr.  
Supervised research leading to written report or oral presentation.
- PHYS:5000 Workshops and Special Training in Physics** arr.  
Workshops and special training opportunities for postbaccalaureate students; may include collaborations with other departments, institutions, or externally funded research organizations.
- PHYS:5710 Classical Mechanics** 3 s.h.  
Dynamics of mass points; Lagrange multipliers, small oscillations, Hamilton's equations; canonical transformations, Hamilton-Jacobi theory; chaos. Prerequisites: PHYS:3710.
- PHYS:5730 Statistical Mechanics I** 3 s.h.  
Probability concepts; kinetic equations; classical and quantum equilibrium statistical mechanics with applications, including ideal and imperfect gases and phase transitions, irreversible processes, fluctuation-dissipation theorems. Prerequisites: PHYS:3730 and PHYS:3741.
- PHYS:5741 Quantum Mechanics I** 3 s.h.  
Nonrelativistic quantum mechanics, Schrödinger wave mechanics, Hilbert space methods, perturbation theory, scattering, spin and angular momentum, identical particles, selected applications, introduction to relativistic theory. Prerequisites: PHYS:3741 and PHYS:3742.
- PHYS:5742 Quantum Mechanics II** 3 s.h.  
Continuation of PHYS:5741. Prerequisites: PHYS:5741.
- PHYS:5811 Classical Electrodynamics I** 3 s.h.  
Advanced electrostatics, boundary value problems, Green's functions, Maxwell's equations, radiation theory, physical optics, multipole expansion of radiation field.
- PHYS:5812 Classical Electrodynamics II** 3 s.h.  
Special relativity, motion of charges in fields, theories of radiation reaction, special topics. Prerequisites: PHYS:5811.
- PHYS:5905 Special Topics in Physics** 3 s.h.  
Selected topics in physics.
- PHYS:6723 Advanced Optics** 3 s.h.  
Classical theory of absorption and emission; laser theory, threshold, rate equations, saturation, spectral and spatial hole burning; resonators and Gaussian beam optics; dispersion and light scattering; nonlinear optics, three- and four-wave mixing, harmonic generation, parametric amplification, and stimulated scattering. Prerequisites: PHYS:3812.
- PHYS:7270 Ethics in Physics for Graduate Students** arr.  
Responsible conduct and ethics training.
- PHYS:7604 Ethics in Physics for Postdocs** 0 s.h.  
Responsible conduct and ethics training.
- PHYS:7720 Semiconductor Physics** 3 s.h.  
Electronic, optical, and materials properties of semiconductors. Prerequisites: PHYS:4728 and PHYS:5742. Same as ECE:7720.
- PHYS:7722 Advanced Condensed Matter** 3 s.h.  
Elementary excitations, plasmonics, exchange/magnetism, hyperfine interactions, resonance, superconductivity, topological materials. Prerequisites: PHYS:7720.
- PHYS:7729 Plasma Physics II** 3 s.h.  
Continuation of PHYS:4731; cold plasma waves, MHD stability, kinetic theory of plasmas, including Landau damping and velocity space instabilities; nonlinear evolution. Prerequisites: PHYS:4731.
- PHYS:7730 Advanced Plasma Physics I** 3 s.h.  
Microscopic plasma behavior: statistical mechanics of plasmas; Liouville equation; BBGKY hierarchy; Fokker-Planck equation and relaxation processes; Balescu-Lenard equation; Vlasov equation and linearized wave motion; shocks, nonlinear plasma motions, and instabilities; fluctuations and radiation processes; topics from recent literature.
- PHYS:7740 Introduction to Quantum Field Theory** 3 s.h.  
Quantization of relativistic and nonrelativistic field theories, covariant perturbation theory, theory of renormalization, dimensional regularization, renormalization group theory, introduction to gauge theories and anomalies. Prerequisites: PHYS:5742.
- PHYS:7746 Particle Physics** 3 s.h.  
Elementary particle properties and phenomenology, quark-parton models, quantum chromodynamics, unified theory of weak and electromagnetic interactions.
- PHYS:7760 General Relativity** 2-3 s.h.  
Einstein's theory of gravitation; principles of general relativity.
- PHYS:7761 Cosmology** 3 s.h.  
Einstein's theory of general relativity radically changed the way we understand the cosmos by providing a mathematical description of space-time itself—this is cosmology; the last three decades have shown remarkable evidence that cosmology is an experimentally testable theory; students explore mathematical underpinnings of cosmology by studying the early universe, the cosmic microwave background, inflation, big bang nucleosynthesis, neutrino physics, quantum field theory effects on space-time, and other issues. Prerequisites: PHYS:7760.
- PHYS:7840 Quantum Gauge Theories** 3 s.h.  
Gauge invariance, introductory group theory, Yang-Mills theories, electroweak theory, quantum chromodynamics, running coupling constants, operator product expansions, Ward identities, spontaneous symmetry breaking, chiral anomalies, instantons, monopoles, effective Lagrangians, supersymmetry, quantum gravity, introduction to string theory. Prerequisites: PHYS:7740.
- PHYS:7905 Special Topics in Physics** arr.

**PHYS:7920 Seminar: Solid State Physics**

Current research.

**PHYS:7930 Seminar: Plasma Physics**

Current research. Same as ECE:7930.

**PHYS:7936 Seminar: Space Physics**

Current research.

**PHYS:7945 Seminar: Math/Physics**

Current research.

**PHYS:7946 Seminar: Nuclear and Particle Physics**

Current research.

**PHYS:7990 Research: Physics****PHYS:7992 Individual Critical Study**

Essay on topic chosen in consultation with faculty member.

Requirements: candidacy for M.S. with critical essay.

## Astronomy Courses

**ASTR:1000 First-Year Seminar****1 s.h.**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

**ASTR:1060 Big Ideas: Origins of the Universe, Earth, and Life****3 s.h.**

Origin of the universe, the biochemistry of life, and the origin of life on Earth; for non-science majors. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as BIOL:1060, EES:1060.

**ASTR:1061 Big Ideas: Evolution of Life on Earth and the Search for Life in the Universe****4 s.h.**

Evolution of life on Earth, origins of plants and animals, origins of humans and humanity, and the search for life in the universe; for non-science majors. GE: Natural Sciences with Lab. Same as ANTH:1061, EES:1061.

**ASTR:1070 Stars, Galaxies, and the Universe****3-4 s.h.**

Students survey topics including the Sun; life cycles of stars including black holes and pulsars; diversity of galaxies including the Milky Way and distant quasars; cosmology—the history, structure, and fate of the universe; current results from recent astronomical observations; for non-science majors. Recommendations: closed to physics and astronomy majors. GE: Natural Sciences with Lab; Natural Sciences without Lab.

**ASTR:1079 Introductory Astronomy Laboratory****1 s.h.**

Laboratory for ASTR:1070. GE: Natural Sciences Lab only.

**ASTR:1080 Exploration of the Solar System****3-4 s.h.**

Survey of the solar system; topics include physical properties of the planets, comets, and asteroids; origin of the solar system; search for extrasolar planetary systems; search for life in the universe; current results of recent planetary space missions; night sky observation; for non-science majors. Recommendations: closed to physics and astronomy majors. GE: Natural Sciences with Lab; Natural Sciences without Lab.

**ASTR:1085 Citizen Astronomy****3 s.h.**

Survey of topics in astronomy and astrophysics; topics include the Solar System and exoplanets, nearby stars in the Galaxy, distant galaxies and unseen black holes; focus on citizen science projects that allow students to examine real data; for non-science majors. GE: Natural Sciences without Lab.

**ASTR:1091 Life in the Universe****3 s.h.**

Are we alone? Scientific foundations of this question, technology behind searches for extraterrestrial life in the solar system and on extrasolar planets; evolution of life on Earth, likelihood that such conditions exist elsewhere in the universe; cultural consequences of discovering extraterrestrial life. GE: Natural Sciences without Lab.

**ASTR:1771 Introductory Astronomy I: Basic Astrophysics and Planetary Astronomy****4 s.h.**

Quantitative introduction to physical principles needed to understand astronomical phenomena (e.g., laws of motion, gravitation, radiation), astronomical instrumentation, properties structure, and evolution of solar system bodies, exoplanets, and the search for life. Requirements: four years of high school math. GE: Natural Sciences with Lab.

**ASTR:1772 Introductory Astronomy II: Stellar, Galactic, and Extragalactic Astronomy****4 s.h.**

Continuation of ASTR:1771; quantitative introduction to stellar, Galactic, and extragalactic astronomy; topics include the Sun, stellar evolution, stellar corpses such as neutron stars and black holes, the Milky Way galaxy, the interstellar medium, galaxies, cosmology, and fate of the universe. Requirements: four years of high school math. GE: Natural Sciences with Lab.

**ASTR:2991 Reading in Astronomy****arr.**

Selected topics in astronomy.

**ASTR:3500 Undergraduate Practicum****arr.**

Undergraduate practicum experiences that provide special opportunities for students to gain practical and hands-on training related to topics in astronomy; practicums typically arranged by individual faculty members. Requirements: application and acceptance into practicum.

**ASTR:3771 Introduction to Astrophysics I****3 s.h.**

Topics include celestial mechanics, radiative transfer, stellar structure and evolution, and star formation; first in a two-semester sequence. Prerequisites: PHYS:2704 and ASTR:1772 and ASTR:1771 and (MATH:2850 or MATH:3550) and (MATH:2700 or MATH:2550). Recommendations: computer programming experience.

**ASTR:3772 Introduction to Astrophysics II****3 s.h.**

Continuation of ASTR:3771; topics include post-main-sequence stellar evolution, stellar remnants, close binary stars, the Milky Way and other galaxies, active galactic nuclei, galaxy evolution, and cosmology; second in a two-semester sequence. Prerequisites: ASTR:3771.

**ASTR:4770 Radio Astronomy****3 s.h.**

Survey of radio astronomy, emphasizing technical aspects; radiation, antennas, receivers, radio spectroscopy, interferometer arrays and aperture synthesis; emission mechanisms, pulsars, supernova remnants, radio galaxies.

**ASTR:4850 Astronomical Laboratory****3 s.h.**

Introduction to instruments of optical (and sometimes multi-wavelength) astronomy and basic skills needed for carrying out observational astronomical research; hands-on use of observing equipment; nighttime observing sessions. Prerequisites: PHYS:2704 and ASTR:1772 and ASTR:1771.

**ASTR:4996 Reading in Astronomy****arr.****ASTR:6782 Extragalactic Astronomy****3 s.h.**

Normal and active galaxies, large scale structure, the early Universe, cosmology.

**ASTR:6785 The Interstellar Medium 3 s.h.**

The interstellar medium; optical properties of small interstellar grains, radiative processes in interstellar gas, structure of HII regions, interstellar shock waves, supernova remnants, modification of interstellar medium by luminous stars, molecular clouds.

**ASTR:6790 Stellar Astrophysics 3 s.h.**

Stellar interiors, nuclear astrophysics; advanced topics.

**ASTR:6870 Radiative Processes in Astrophysics 3 s.h.**

Physics of stars including interiors, spectra, nuclear processes, plasma hydrodynamics, and the extreme physics of condensed final states.

**ASTR:6880 High Energy Astrophysics 3 s.h.**

Detection of X-rays and gamma-rays, black holes and neutron stars, accretion onto compact objects, pulsars, supernova remnants, cosmic rays, and gamma-ray bursts.

**ASTR:7775 Special Topics in Astrophysics 1-3 s.h.**

Advanced lectures.

**ASTR:7830 Space and Astrophysical Plasma Physics 3 s.h.**

Dynamics and evolution of space and astrophysical plasmas; heliosphere, planetary magnetospheres, accretion disks; plasma waves, shock waves, turbulence.

**ASTR:7970 Seminar: Astrophysics arr.**

Current research.

**ASTR:7991 Research: Astronomy arr.**

Original research in observational, theoretical astronomy.

# Physics, B.A.

## Learning Outcomes

Physics majors will be able to:

- demonstrate competency in applying the basic laws of physics in classical and quantum mechanics, electromagnetism, thermodynamics, and statistical physics;
- solve complex, real-world problems using the principles of physics; and
- demonstrate competency in using basic instrumentation and in analyzing the data obtained.

## Requirements

The Bachelor of Arts with a major in physics requires a minimum of 120 s.h., including at least 44 s.h. of work for the major (minimum of 24 s.h. in physics plus 20 s.h. in supporting coursework). The B.A. program requires fewer physics courses than the B.S. program does, giving students a wider choice of electives. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The major is designed for students who wish to build a foundation of knowledge in physics but do not plan a research-oriented career in the discipline. The B.A. program also is good preparation for students interested in secondary school science teaching; see "Teacher Licensure" below. Bachelor of Arts students majoring in physics who are interested in science teaching and in earning a graduate degree may enroll in a combined degree program offered by the College of Liberal Arts and Sciences and the College of Education; see "B.A./M.A.T. (Science Education Subprogram)" under Combined Programs [p. 906] in this section of the Catalog.

The B.A. with a major in physics requires the following courses or their equivalents.

Code	Title	Hours
Mathematics Courses		8
Physics Courses		15-19
Elective Physics Courses		9-10
Supporting Coursework		12
<b>Total Hours</b>		<b>44-49</b>

## Mathematics Courses

Code	Title	Hours
Both of these:		
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4

## Physics Courses

Code	Title	Hours
These three courses:		
PHYS:1701	Physics I	4
PHYS:1702	Physics II	4
PHYS:2703	Physics III	4
Or these two courses:		
PHYS:1611	Introductory Physics I	4

PHYS:1612	Introductory Physics II	4
Both of these:		
PHYS:2704	Physics IV	4
PHYS:3756	Intermediate Laboratory	3

## Elective Physics Courses

Code	Title	Hours
Three of these:		
PHYS:3710	Intermediate Mechanics	3
PHYS:3741	Introduction to Quantum Mechanics I	3
PHYS:3811	Electricity and Magnetism I	3
PHYS:3850	Electronics	4
PHYS:4720	Introductory Optics	3
PHYS:4728	Introductory Solid State Physics	3
PHYS:4740	Elementary Particles and Nuclear Physics	3

## Supporting Coursework

Students should work with their academic advisor to select courses that fit with their plan of study.

Code	Title	Hours
12 s.h. of coursework from one these STEM subject areas or from coursework required for teacher licensure:		
ACTS	(Actuarial Science)	
BIOC	(Biochemistry and Molecular Biology)	
BIOL	(Biology)	
CHEM	(Chemistry)	
CS	(Computer science)	
EES	(Earth and Environmental Sciences)	
GEOG	(Geography)	
MATH	(Mathematics), except MATH:1210	
PHYS	(Physics)	
PSY	(Psychology)	
STAT	(Statistics)	

In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: Students earning a B.A. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and

deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Double Major in Physics and Astronomy

Students working toward a Bachelor of Arts with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

### Combined Programs

#### B.A./M.A.T. (Science Education Subprogram)

Bachelor of Arts students in physics who are interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the combined program enables students to earn a B.A. and M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see "Combined Program" and then "B.A./M.A.T." under Science Education [p. 1444] in the Master of Arts in Teaching, M.A.T. (College of Education) section of the Catalog. Interested students should consult an advisor.

#### B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in physics who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

#### B.A./M.S. in Finance

Students majoring in physics who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For

information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) in the Catalog.

### Honors

#### Honors in the Major

Students majoring in physics have the opportunity to graduate with honors in their major. They must maintain a University of Iowa g.p.a. of at least 3.33. Students must earn 6-8 s.h. in PHYS:4999 Undergraduate Research during their junior and senior years and conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

#### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the physics major.

### Career Advancement

Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

The degree leads to careers in medicine, law, science-related administration, business, or technical writing. It also is good preparation for students interested in secondary school science teaching.

About 70 percent of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** calculus II and physics II.

**Before the fifth semester begins:** physics III-IV and up to four more courses in the major.

**Before the seventh semester begins:** two to four more courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** two or three more courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Enrollment in math courses requires completion of a placement exam.
- c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- d While this course is not a major requirement, it is strongly recommended and a prerequisite for many physics and astronomy courses in the department.
- e Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- f See General Catalog for a list of approved courses.
- g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Astronomy, B.A.

## Learning Outcomes

Astronomy majors will be able to:

- demonstrate understanding of the fundamental concepts in astrophysics such as gravity, the nature of light, the physical characteristics of matter, and the motions of astronomical objects in the night sky;
- demonstrate proficiency in each of the major areas of astronomy—cosmology, galaxies, accretion and compact objects, the life cycle, and properties of stars and solar system science;
- show a working knowledge of a broad array of astrophysical phenomena that are based upon fundamental concepts; and
- gain familiarity with astronomical observations, instrumentation, computational methods, and software.

## Requirements

The Bachelor of Arts with a major in astronomy requires a minimum of 120 s.h., including at least 49 s.h. of work for the major. The B.A. program requires fewer physics and mathematics courses than the B.S. program does, giving students a wider choice of electives. Students take calculus in addition to physics and astronomy courses, which include laboratories. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The program is designed for students who wish to build considerable knowledge in astronomy but do not plan a research-oriented career in the field. It is appropriate for students planning careers in secondary school science teaching or science-related administration.

The B.A. with a major in astronomy requires the following courses or their equivalents.

Code	Title	Hours
Mathematics Courses		8
Physics Courses		24-29
Astronomy Courses		17
<b>Total Hours</b>		<b>49-54</b>

## Mathematics Courses

Code	Title	Hours
Both of these:		
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4

## Physics Courses

If students select PHYS:3811 Electricity and Magnetism I, they must complete the prerequisite before they register for that course.

Code	Title	Hours
These three courses:		
PHYS:1701	Physics I	4
PHYS:1702	Physics II	4
PHYS:2703	Physics III	4
Or these two courses:		
PHYS:1611	Introductory Physics I	4

PHYS:1612	Introductory Physics II	4
All of these:		
PHYS:2704	Physics IV	4
PHYS:3710	Intermediate Mechanics	3
PHYS:3756	Intermediate Laboratory	3
One of these:		
PHYS:3730	Statistical Physics	3
PHYS:4720	Introductory Optics	3
One of these:		
PHYS:3811	Electricity and Magnetism I	3
PHYS:3850	Electronics	4

## Astronomy Courses

Code	Title	Hours
All of these:		
ASTR:1771	Introductory Astronomy I: Basic Astrophysics and Planetary Astronomy	4
ASTR:1772	Introductory Astronomy II: Stellar, Galactic, and Extragalactic Astronomy	4
ASTR:3771	Introduction to Astrophysics I	3
ASTR:3772	Introduction to Astrophysics II	3
ASTR:4850	Astronomical Laboratory	3

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements listed above, including further work in mathematics. In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: Students earning a B.A. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

## Double Major in Physics and Astronomy

Students working toward a Bachelor of Arts with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

## Honors

### Honors in the Major

Students majoring in astronomy have the opportunity to graduate with honors in their major. They must maintain a University of Iowa g.p.a. of at least 3.33. Students must earn 6-8 s.h. in PHYS:4999 Undergraduate Research during their junior and senior years and conduct an investigation

under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the astronomy major.

### Career Advancement

Astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting. Some graduates plan for careers in secondary school science teaching or science-related administration or plan to earn professional degrees.

About 70 percent of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** math through calculus I-II and physics I-II.

**Before the fifth semester begins:** physics III-IV and at least one more course in the major.

**Before the seventh semester begins:** three more courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** five more courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

#### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Physics, B.S.

## Learning Outcomes

Physics majors will be able to:

- demonstrate competency in applying the basic laws of physics in classical and quantum mechanics, electromagnetism, thermodynamics, and statistical physics;
- solve complex, real-world problems using the principles of physics; and
- demonstrate competency in using basic instrumentation and in analyzing the data obtained.

## Requirements

The Bachelor of Science with a major in physics requires a minimum of 120 s.h., including at least 58 s.h. of work for the major (minimum of 42 s.h. in physics plus 16 s.h. in supporting coursework). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students must complete several required mathematics courses in addition to their required physics core. The department offers a wide range of upper-level electives and students are encouraged to explore different research areas. All students are strongly encouraged to get involved with research.

The B.S. with a major in physics requires the following courses or their equivalents.

Code	Title	Hours
Mathematics Courses		16
Introductory Physics Courses		8-12
Physics Core Courses		25
Upper-Level Elective Courses		9-11
<b>Total Hours</b>		<b>58-64</b>

## Mathematics Courses

Code	Title	Hours
All of these:		
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4

## Introductory Physics Courses

Code	Title	Hours
These three courses:		
PHYS:1701	Physics I	4
PHYS:1702	Physics II	4
PHYS:2703	Physics III	4
Or these two courses:		
PHYS:1611	Introductory Physics I	4

PHYS:4860	Computational Physics	3
PHYS:4905	Special Topics in Physics	3
PHYS:5905	Special Topics in Physics	3
ASTR:3771	Introduction to Astrophysics I	3
ASTR:3772	Introduction to Astrophysics II	3
ASTR:4850	Astronomical Laboratory	3

In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: Students earning a B.S. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the

department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Students earning a B.S. with a double major in physics and astronomy may count more than 56 s.h. earned in the Department of Physics and Astronomy to the 120 s.h. required for graduation, but they must earn at least 56 s.h. in coursework outside the department in order to graduate.

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Double Major in Physics and Astronomy

Students working toward a Bachelor of Science with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

## Combined Programs

### B.S./M.S. in Business Analytics (Career Subprogram)

Students majoring in physics who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

### B.S./M.S. in Finance

Students majoring in physics who are interested in earning a master's degree in finance may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they

may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) section of the Catalog.

## Honors

### Honors in the Major

Students majoring in physics have the opportunity to graduate with honors in their major. They must maintain a University of Iowa g.p.a. of at least 3.33. They must earn 6-8 s.h. in PHYS:4999 Undergraduate Research Undergraduate Research during their junior and senior years and conduct an investigation under the guidance of a faculty member. Students must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the physics major.

## Career Advancement

Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

The degree provides preparation for careers in industry, employment in research laboratories, and graduate study in physics and related sciences.

About 70 percent of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** calculus II and physics II.

**Before the fifth semester begins:** physics III-IV, introduction to linear algebra, calculus III, and up to two more courses in the major.

**Before the seventh semester begins:** two to four more courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** two or three more courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- Fulfills a major requirement and may fulfill a GE requirement.
- Enrollment in math courses requires completion of a placement exam.
- GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- Students who choose PHYS:3850 as one of their two required laboratory courses are advised to take it before they take PHYS:3756 Intermediate Laboratory.
- Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Applied Physics, B.S.

## Learning Outcomes

Applied physics majors will be able to:

- demonstrate competency in applying the basic laws of physics in a focused area of physics and a related applied field;
- solve complex, real-world problems using the principles of physics; and
- demonstrate competency in using theoretical tools, basic instrumentation, and in analyzing the data obtained.

## Requirements

The Bachelor of Science with a major in applied physics requires a minimum of 120 s.h., including at least 59-87 s.h. of work for the major. Total credit required for the major depends on a student's choice of concentration. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

The major in applied physics is intended primarily for students interested in a broad program of study in physics combined with a significant concentration of courses in a field that has immediate application to high-technology industry. The degree provides a foundation for a wide range of employment opportunities in high-technology industries, including research and development, product design and testing, sales, and quality control. It also is designed to include exposure to physics sufficient to allow students to continue with graduate studies in either physics or astronomy.

An essential component of each concentration is successful completion of a related one-semester internship or practicum experience in a research laboratory (an applied physics research report is required for the latter option). Well-prepared students will be able to complete the degree in four years. Students should work closely with their advisors on a graduation plan.

All applied physics students complete a common set of courses that includes calculus, linear algebra, physics, and an experiential learning course. They also complete the courses required for their chosen concentration. The department encourages students to take additional coursework; advisors can suggest electives that will enrich programs and help students prepare for graduate work.

Students who want to earn a double major in applied physics and astronomy must choose their coursework carefully; see "Double Major in Applied Physics and Astronomy" below.

The B.S. with a major in applied physics requires the following courses. Many upper-level physics courses have prerequisites; students should consult their advisors when choosing courses numbered 3000 or above.

Code	Title	Hours
	Common Requirements	37-41
	Concentration Area Courses	22-46
<b>Total Hours</b>		<b>59-87</b>

## Common Requirements

Students in all concentrations must successfully complete the following courses or their equivalents.

### Mathematics

Code	Title	Hours
All of these:		
MATH:1850 & MATH:1860	Calculus I-II	8
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4

### Physics

Code	Title	Hours
One of these sequences:		
PHYS:1611- PHYS:1612	Introductory Physics I-II	8
PHYS:1701 & PHYS:1702 & PHYS:2703	Physics I-II - Physics III (strongly preferred)	12
All of these:		
PHYS:2704	Physics IV	4
PHYS:3710	Intermediate Mechanics	3
PHYS:3741	Introduction to Quantum Mechanics I	3
PHYS:3811	Electricity and Magnetism I	3

### Experiential Learning

Code	Title	Hours
One of these:		
A one-semester industrial internship (requires a research report)		
A one-semester practicum in a research laboratory (requires a research report)		

## Concentrations

Students select one of the four concentration areas below.

### Computer Science Concentration

Code	Title	Hours
All of these:		
PHYS:3730	Statistical Physics	3
PHYS:3756	Intermediate Laboratory	3
PHYS:3812	Electricity and Magnetism II	3
PHYS:3850	Electronics	4

PHYS:3812	Electricity and Magnetism II	3
PHYS:4750	Advanced Laboratory	3
PHYS:4905	Special Topics in Physics (when topic is physics of the body)	3

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements listed above, including further work in mathematics. In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: Students earning a B.S. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

## Double Major in Applied Physics and Astronomy

Students working toward a Bachelor of Science with a double major in applied physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

## Combined Programs

### B.S./M.S. in Business Analytics (Career Subprogram)

Students majoring in applied physics who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

### B.S./M.S. in Finance

Students majoring in applied physics who are interested in earning a master's degree in finance may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For

information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) section of the Catalog.

## Honors

### Honors in the Major

Students majoring in applied physics have the opportunity to graduate with honors in their major. Departmental honors students must maintain a University of Iowa g.p.a. of at least 3.33. To graduate with honors in the major, they must earn 6-8 s.h. in PHYS:4999 Undergraduate Research during their junior and senior years and conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

### University of Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the applied physics major.

## Career Advancement

Applied physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

About 70 percent of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** calculus II and physics II.

**Before the fifth semester begins:** physics III-IV, introduction to linear algebra, calculus III, one more course in the major, and up to four courses in another science or engineering department.

**Before the seventh semester begins:** two to four more courses in the major, up to three other science or engineering courses, and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** two or three more courses in the major or other science or engineering courses and all or part of an academic year research experience or a summer research experience or internship as approved by the applied physics coordinator.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Enrollment in chemistry courses requires completion of a placement exam.
- c Enrollment in math courses requires completion of a placement exam.
- d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- f Students in this concentration are required to complete two biology courses (BIOL) numbered 2000 or above (6-8 s.h.)
- g Choose from PHYS:3730, PHYS:3742, PHYS:3812, PHYS:4750, or PHYS:4905.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Astronomy, B.S.

## Learning Outcomes

Astronomy majors will be able to:

- demonstrate understanding of the fundamental concepts in astrophysics such as gravity, the nature of light, the physical characteristics of matter, and the motions of astronomical objects in the night sky;
- demonstrate proficiency in each of the major areas of astronomy—cosmology, galaxies, accretion and compact objects, the life cycle, and properties of stars and solar system science;
- show a working knowledge of a broad array of astrophysical phenomena that are based upon fundamental concepts; and
- gain familiarity with astronomical observations, instrumentation, computational methods, and software.

## Requirements

The Bachelor of Science with a major in astronomy requires a minimum of 120 s.h., including at least 63 s.h. of work for the major. The program provides balanced and integrated coursework in astronomy, mathematics, and physics that prepares students for graduate studies in astronomy, astrophysics, or related science disciplines. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Students must complete several required mathematics courses in addition to the required physics and astronomy core. The department offers a wide range of upper-level electives and students are encouraged to explore different research areas. All students are strongly encouraged to get involved with research.

The B.S. with a major in astronomy requires the following courses or their equivalents.

Code	Title	Hours
Mathematics Courses		16
Physics Core Courses		24-28
Astronomy Core Courses		17
Upper-Level Physics Courses		6-7
Optional Upper-Level Elective Courses		
<b>Total Hours</b>		<b>63-68</b>

## Mathematics Courses

Code	Title	Hours
All of these:		
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4

## Physics Core Courses

Code	Title	Hours
These three courses:		
PHYS:1701	Physics I	4
PHYS:1702	Physics II	4

PHYS:2703	Physics III	4
Or these two courses:		
PHYS:1611	Introductory Physics I	4
PHYS:1612	Introductory Physics II	4
All of these:		
PHYS:2704	Physics IV	4
PHYS:3710	Intermediate Mechanics	3
PHYS:3741	Introduction to Quantum Mechanics I	3
PHYS:3811	Electricity and Magnetism I	3
PHYS:3812	Electricity and Magnetism II	3

## Astronomy Core Courses

Code	Title	Hours
All of these:		
ASTR:1771	Introductory Astronomy I: Basic Astrophysics and Planetary Astronomy	4
ASTR:1772	Introductory Astronomy II: Stellar, Galactic, and Extragalactic Astronomy	4
ASTR:3771	Introduction to Astrophysics I (offered every other year)	3
ASTR:3772	Introduction to Astrophysics II (offered every other year)	3
ASTR:4850	Astronomical Laboratory (offered every other year)	3

## Upper-Level Physics Courses

Code	Title	Hours
One of these:		
PHYS:3756	Intermediate Laboratory	3
PHYS:3850	Electronics	4
One of these:		
PHYS:3742	Introduction to Quantum Mechanics II	3
PHYS:4731	Plasma Physics I	3

## Optional Upper-Level Elective Courses

Code	Title	Hours
Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the requirements above by taking one or more of these elective courses:		
PHYS:3730	Statistical Physics	3
PHYS:3742	Introduction to Quantum Mechanics II	3
PHYS:4720	Introductory Optics	3
PHYS:4731	Plasma Physics I	3
PHYS:4740	Elementary Particles and Nuclear Physics	3
PHYS:4761	Mathematical Methods of Physics I	3
PHYS:4762	Mathematical Methods of Physics II	3
PHYS:4905	Special Topics in Physics	arr.

In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: Students earning a B.S. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

## Double Major in Physics and Astronomy

Students working toward a Bachelor of Science with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

### Honors

#### Honors in the Major

Students majoring in astronomy have the opportunity to graduate with honors in their major. They must maintain a University of Iowa g.p.a. of at least 3.33. Students must earn 6-8 s.h. in PHYS:4999 Undergraduate Research during their junior and senior years and conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

#### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the astronomy major.

### Career Advancement

Astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

About 70 percent of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** calculus I-II and physics II.

**Before the fifth semester begins:** all of the remaining required math courses, physics III-IV, and two other courses in the major.

**Before the seventh semester begins:** four more courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** three more courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

#### Astronomy, B.S.

Course	Title	Hours
<b>Academic Career</b>		
<b>Any Semester</b>		

Research: students are strongly encouraged to be active participants in research within the department.

Students can pursue a double major in Astronomy and Physics and earn more than 56 s.h. from the department toward these degrees but must also complete at least 56 s.h. outside of the Department of Physics & Astronomy.

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Enrollment in math courses requires completion of a placement exam.
- c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- d Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- e Typically this course is offered every other year. Check MyUI for course availability since offerings are subject to change.
- f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- g Students who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements. See General Catalog for a list of appropriate courses.
- h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Physics, Minor

## Requirements

The undergraduate minor in physics requires a minimum of 15 s.h. in physics coursework, including 12 s.h. taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The 12 s.h. taken at the University of Iowa must be chosen from these:

<b>Code</b>	<b>Title</b>	<b>Hours</b>
PHYS:1612 or PHYS:2703	Introductory Physics II Physics III	4
PHYS:2704	Physics IV	3-4
Physics courses numbered 3000 or above		

Both PHYS:2703 Physics III and PHYS:2704 Physics IV have prerequisites, as do most physics courses numbered 3000 or above. Students must complete a course's prerequisites before they may enroll in the course.

# Astronomy, Minor

## Requirements

The undergraduate minor in astronomy requires a minimum of 15 s.h. in astronomy and physics courses, including 12 s.h. of coursework numbered 3000 or above and 12 s.h. taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Coursework numbered 3000 or above must include 6 s.h. chosen from these:

Code	Title	Hours
ASTR:3771	Introduction to Astrophysics I	3
ASTR:3772	Introduction to Astrophysics II	3
ASTR:4850	Astronomical Laboratory	3

Remaining work may be chosen from any astronomy or physics courses numbered 3000 or above.

Most University of Iowa courses for the minor have prerequisites; students must complete a course's prerequisites before they may enroll in the course.

## Academic Plans

### Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

# Physics, M.S.

Graduate study in physics and astronomy is highly individualized. Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student's progress.

## Requirements

The Master of Science program in physics requires a minimum of 30 s.h. of graduate credit. All students must earn the required 30 s.h. of graduate credit in courses numbered 4000 or above, with at least 15 s.h. in courses numbered 5000 or above. At least 24 s.h. must be completed under the auspices of the University of Iowa after admission to the Department of Physics and Astronomy. Students must maintain a program g.p.a. of at least 3.00.

Each student's plan of study should provide for as much advanced work as aptitude and previous preparation permit. Up to one-third of the program of study may be taken in related scientific fields other than physics (e.g., mathematics, chemistry, astronomy, geology, engineering).

The degree is offered with thesis or critical essay. Students who choose the thesis option must write a thesis based on an original experimental or theoretical investigation that they have conducted. Students may earn a maximum of 6 s.h. in PHYS:7990 Research: Physics or PHYS:7992 Individual Critical Study.

Students who choose the critical essay option must conduct an independent study of the literature on a particular area of physics and write a critical essay on that topic. Students may earn a maximum of 4 s.h. in PHYS:7990 Research: Physics or PHYS:7992 Individual Critical Study.

The M.S. may be a terminal degree or a step toward a Ph.D. In either case, the final examination is oral, conducted by a committee of three faculty members.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Students qualified for graduate study are encouraged to apply for fellowships and assistantships. Contact the Department of Physics and Astronomy chair.

## Career Advancement

Graduates have opportunities for employment in universities, colleges, and research laboratories in government and industry. Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in engineering, software development, finance, or consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

# Astronomy, M.S.

Graduate study in physics and astronomy is highly individualized. Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student's progress.

## Requirements

The Master of Science program in astronomy requires a minimum of 30 s.h. of graduate credit. Students must complete a minimum of 30 s.h. of graduate work, including at least 12 s.h. from the courses listed below, at least 3 s.h. numbered 5000 or above, and the remainder in courses numbered at least 4000 or above. At least 24 s.h. must be completed under the auspices of the University of Iowa after admission to the Department of Physics and Astronomy. Seminars do not count toward the minimum of 30 s.h. required for the degree. All students must maintain a g.p.a. of at least 3.00.

Up to one-third of the program of study may be taken in related scientific fields (e.g., meteorology, geology, electrical engineering); selection of such courses is encouraged.

The degree is offered either with or without thesis. The M.S. may be a terminal degree or a step toward a Ph.D. in physics with subprogram and a dissertation in astronomy or astrophysics. In either case the final examination is oral, conducted by a committee of three faculty members.

Students must select at least 12 s.h. from these.

Code	Title	Hours
ASTR:6782	Extragalactic Astronomy	3
ASTR:6785	The Interstellar Medium	3
ASTR:6790	Stellar Astrophysics	3
ASTR:6870	Radiative Processes in Astrophysics	3
ASTR:6880	High Energy Astrophysics	3
ASTR:7775	Special Topics in Astrophysics	1-3
ASTR:7830	Space and Astrophysical Plasma Physics	3
PHYS:7760	General Relativity	2-3
PHYS:7761	Cosmology	3

For the M.S. with thesis option, students may take no more than 6 s.h. in PHYS:7992 Individual Critical Study and ASTR:7991 Research: Astronomy; and for those who complete the M.S. without thesis and writing a critical essay, no more than 4 s.h. may be taken in those courses.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

## Financial Support

Students qualified for graduate study are encouraged to apply for fellowships and assistantships. Contact the Department of Physics and Astronomy chair.

## Career Advancement

Graduates have opportunities for employment in universities, colleges, and research laboratories in government and industry. Astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in engineering, software development, finance, or consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Physics, Ph.D.

Graduate study in physics and astronomy is highly individualized. The department does not offer a Ph.D. in astronomy, but students may pursue a Ph.D. in physics with an astronomy subprogram and a dissertation in astronomy.

Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student's progress. All graduate students who intend to pursue a Ph.D. in physics must pass the qualifying exam; see Requirements [p. 925] in this section of the Catalog.

### Requirements

The Doctor of Philosophy program in physics requires a minimum of 72 s.h. of graduate credit. At least 39 s.h. must be earned at the University of Iowa to complete the residency requirement. For students interested in doing doctoral work in astronomy, the department offers an astronomy subprogram, including a dissertation, within the Ph.D. program in physics. All students must maintain a program g.p.a. of at least 3.00.

Graduate students who wish to pursue a Ph.D. in physics must pass a qualifying examination in all principal areas of physics at the level of advanced undergraduate work. The examination, which may be repeated only once, is given each year before the beginning of the spring semester. Students must pass the qualifying examination before the beginning of their fourth semester of graduate work at the University of Iowa. Students with high scores on the Graduate Record Exam (GRE) subject test in physics may be exempt from this requirement.

All students must earn at least 24 s.h. in departmental courses numbered 5000 or above. They may not count credit earned in PHYS:7990 Research: Physics, PHYS:7992 Individual Critical Study, ASTR:7991 Research: Astronomy, or seminars.

All students must take comprehensive examinations; participate in advanced seminars; do original research in experimental physics, theoretical physics, or astrophysics; and prepare and defend a written dissertation based on this work.

Ph.D. students in physics without the astronomy subprogram must complete the following courses.

Code	Title	Hours
PHYS:4761- PHYS:4762	Mathematical Methods of Physics I-II (students who pass a written examination are exempt from this requirement)	6
PHYS:5710	Classical Mechanics	3
PHYS:5730	Statistical Mechanics I	3
PHYS:5741- PHYS:5742	Quantum Mechanics I-II	6
PHYS:5811- PHYS:5812	Classical Electrodynamics I-II	6

These courses freely use advanced mathematics (e.g., complex variables, tensor analysis). An introduction is provided in PHYS:4761 Mathematical Methods of Physics I and PHYS:4762 Mathematical Methods of Physics II. The selection of less advanced coursework depends on the adequacy of a student's preparation for graduate work; students' choice of more advanced and specialized courses depends on the direction in which their interests develop.

Ph.D. students in physics with the astronomy subprogram must complete a total of six courses from the following.

Code	Title	Hours
Four of these:		
ASTR:6782	Extragalactic Astronomy	3
ASTR:6785	The Interstellar Medium	3
ASTR:6790	Stellar Astrophysics	3
ASTR:6870	Radiative Processes in Astrophysics	3
ASTR:6880	High Energy Astrophysics	3
ASTR:7775	Special Topics in Astrophysics	3
ASTR:7830	Space and Astrophysical Plasma Physics	3
PHYS:7760	General Relativity	3
PHYS:7761	Cosmology	3
Two of these:		
PHYS:5710	Classical Mechanics	3
PHYS:5730	Statistical Mechanics I	3
PHYS:5741	Quantum Mechanics I	3
PHYS:5742	Quantum Mechanics II	3
PHYS:5811	Classical Electrodynamics I	3
PHYS:5812	Classical Electrodynamics II	3

After a student has chosen a research specialty, the student must submit a formal thesis proposal and defend the proposal in an oral comprehensive exam. The appropriate thesis advisor then becomes the candidate's general advisor and the chair of the comprehensive and final examination committee. The comprehensive exam must be taken before the beginning of the fourth year of graduate study.

### Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

### Financial Support

Students qualified for graduate study are encouraged to apply for fellowships and assistantships. Contact the Department of Physics and Astronomy chair.

### Career Advancement

Graduates have opportunities for employment in universities, colleges, and research laboratories in government and industry. Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in engineering, software development, finance, or consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

# Political Risk Analysis

## Chair, Department of Political Science

- Brian H. Lai

**Undergraduate certificate:** political risk analysis

**Faculty:** <https://clas.uiowa.edu/polisci/people/faculty>

**Website:** <https://clas.uiowa.edu/polisci/>

The Certificate in Risk Analysis prepares students to work in a growing area of focus for many corporations and international organizations—political risk analysis or risk intelligence. Risk analysis focuses on the effect that country characteristics and events have on sovereign risk (the ability of a country to repay its debts), company security, supply chains, and the safety of individuals working or traveling in a country. Understanding this risk provides assistance to companies and organizations so that they can better manage their investments, assets, and activities in countries around the world based on threats they might face.

Career workshops, internship, and job opportunities also are provided.

The Certificate in Risk Analysis is administered by the Department of Political Science [p. 929].

## Programs

### Undergraduate Program of Study Certificate

- Certificate in Political Risk Analysis [p. 927]

# Political Risk Analysis, Certificate

The Certificate in Political Risk Analysis prepares students to work in this highly interdisciplinary area, which requires a keen understanding of business practices and the political situation facing countries. Political risk analysis focuses on the effect that country characteristics and events have on sovereign risk (ability of a country to repay its debts), company security, supply chains, and the safety of individuals working or traveling in a country. Understanding this risk is part of helping companies better manage their investments, assets, and activities in foreign countries based on threats that a company might face.

The certificate demonstrates to companies that students have the requisite training to work in this area. The political risk analysis certificate was developed in conjunction with individuals working in this area and the Association of International Risk Intelligence Professionals. Feedback about the curriculum has been received from individuals working in the industry so that it provides the training that students need to be competitive in this area. Alumni are active in assisting students with advice on internships and careers.

## Learning Outcomes

Students will be able to:

- demonstrate knowledge of relevant economic and risk principles for an organization,
- demonstrate knowledge of country and international system factors that influence an organization, and
- analyze these system factors to show how they impact the risk for an organization.

## Requirements

The undergraduate Certificate in Political Risk Analysis requires a minimum of 18 s.h. of credit. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Certificate courses cannot be taken pass/nonpass. A maximum of 6 s.h. of transfer credit may be accepted toward certificate requirements, with the approval of the political risk analysis advisor.

The certificate can be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

The Certificate in Political Risk Analysis requires the following coursework.

## Core Courses

The course, FIN:3400, has ECON:1100 Principles of Microeconomics and ECON:1200 Principles of Macroeconomics as prerequisite courses; the prerequisites do not count toward the certificate.

## Financial Risk Principles

Code	Title	Hours
This course:		
FIN:3400	Principles of Risk Management and Insurance	3

## Quantitative Analysis

Code	Title	Hours
One of these:		
POLI:3000	Analyzing Political Data	3
STAT:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3510	Biostatistics	3

## Politics Foundation

Code	Title	Hours
One of these:		
POLI:1400	Introduction to Comparative Politics	3
POLI:1500	Introduction to International Relations	3

## Elective Courses

Students select three courses from the following.

## Country and International Risk

Code	Title	Hours
POLI:2415	Latin American Politics	3
POLI:3405	Authoritarian Politics	3
POLI:3408	Chinese Politics and Society	3
POLI:3410	Russian Foreign Policy	3
POLI:3411	Democracy: Global Trends and Struggles	3
POLI:3418	Governance in the Middle East	3
POLI:3420	Southeast Asia: Politics and Development	3
POLI:3422	Horn of Africa: Politics and Transnational Issues	3
POLI:3423	The Middle East: Policy and Diplomacy	3
POLI:3426	Outliers: Comparing Odd Countries	3
POLI:3450	Problems in Comparative Politics	3
POLI:3503	Politics of Terrorism	3
POLI:3504	Globalization	3
POLI:3505	Civil Wars	3
POLI:3506	Consequences of War	3
POLI:3509	International Courts: The Intersection of Law and Politics	3
POLI:3512	International Conflict	3
POLI:3514	Regional Peace and Security	3
POLI:3516	The Politics of International Economics	3
POLI:3518	Water Wars: Conflict and Cooperation	3
POLI:3522	Ending Wars and Keeping Peace	3

# Political Science

## Chair

- Brian H. Lai

**Undergraduate major:** political science (B.A., B.S.)

**Undergraduate minor:** political science

**Graduate degrees:** M.A. in political science; Ph.D. in political science

**Faculty:** <https://clas.uiowa.edu/polisci/people/faculty>

**Website:** <https://clas.uiowa.edu/polisci/>

The Department of Political Science offers undergraduate majors and minors as well as graduate degree programs. In addition to the programs of study in political science, it offers the B.A., B.S., and minor in international relations, and the undergraduate Certificate in Political Risk Analysis [p. 927]. It collaborates with other departments to offer the Certificate in Social Science Analytics [p. 1008]. The department also offers several courses that undergraduate students in all majors may use to fulfill GE CLAS Core [p. 20] requirements and a First-Year Seminar designed for entering undergraduate students.

## Related Certificates

### Political Risk Analysis

The Certificate in Political Risk Analysis prepares students to work in this highly interdisciplinary area, which requires a keen understanding of business practices and the political situation facing countries. Political risk analysis focuses on the effect that country characteristics and events have on sovereign risk (ability of a country to repay its debts), company security, supply chains, and the safety of individuals working or traveling in a country. Understanding this risk is part of helping companies better manage their investments, assets, and activities in foreign countries based on threats that a company might face. The Department of Political Science collaborates with the College of Business to offer the undergraduate program in political risk analysis; see Political Risk Analysis [p. 926] in the Catalog. The Department of Political Science administers the certificate.

### Social Science Analytics

The growth of big data and informatics calls for a new set of skills for social science students and an increased understanding of the logic of data collection and analysis. The certificate focuses on the application side of data analysis and allows focus to be on the specific research methods and quantitative skills using data-driven methods effective for more understanding in an increasingly complicated social-political world. The certificate offers an opportunity for interdisciplinary training on how data can be used to address important questions in the social sciences. The Department of Political Science collaborates with the Departments of Geographical and Sustainability Sciences, Sociology and Criminology, and Statistics and Actuarial Science to offer the undergraduate program in social science analytics; see Social Science Analytics [p. 1007] in the Catalog. The Department of Political Science administers the certificate.

## Programs

### Undergraduate Programs of Study

#### Majors

- Major in Political Science (Bachelor of Arts) [p. 937]
- Major in Political Science (Bachelor of Science) [p. 941]

#### Minor

- Minor in Political Science [p. 945]

### Graduate Programs of Study

#### Majors

- Master of Arts in Political Science [p. 946]
- Doctor of Philosophy in Political Science [p. 947]

## Courses

Courses numbered below 2000 are introductory undergraduate courses. Course POLI:1000 First-Year Seminar does not count toward the major or the minor in political science.

Courses numbered 2000-4999 are considered advanced for undergraduates. Courses POLI:4900 Government and Politics Internship and POLI:3124 Guided Political Science Internship do not count toward the major or the minor in political science; they are offered only satisfactory/fail or pass/nonpass.

Courses numbered 5000-6000 are graduate core courses; those numbered 7000 or above are advanced graduate courses.

## Political Science Courses

- POLI:1000 First-Year Seminar** **1 s.h.**  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
- POLI:1001 Introduction to Politics** **3 s.h.**  
Introduction to selected processes, institutions, or behaviors central to the study of politics.
- POLI:1050 Big Ideas: Introduction to Information, Society, and Culture** **3 s.h.**  
What is information? What does it teach us about societies and cultures? How is information used to shape societies and even personal preferences? What types of information are there and how can we understand and use them? Students work with faculty from multiple disciplines to investigate these questions using inquiry-based activities to build success in critical thinking and teamwork. GE: Quantitative or Formal Reasoning. Same as RELS:1050.
- POLI:1100 Introduction to American Politics** **3 s.h.**  
Structure and processes of American national government; how the United States manages political conflict; impact of the U.S. Constitution; effect of public opinion, interest groups, and media on government; role and evolution of Congress, presidency, bureaucracy, and Supreme Court. GE: Social Sciences.

- POLI:1200 Introduction to Political Behavior** 3 s.h.  
Patterns and basis of political behavior of American electorate; trends in voter turnout; vote choice; ideology, partisanship, and public opinion. GE: Social Sciences.
- POLI:1300 Introduction to Political Thought and Action** 3 s.h.  
Common problems, literature, analytic techniques. GE: Social Sciences; Values and Culture.
- POLI:1400 Introduction to Comparative Politics** 3 s.h.  
Politics worldwide, including all regions and levels of development; wide-ranging themes, including regime types, political change, political culture, public opinion, government structures, state-society relationship, electoral systems, public policy issues. GE: International and Global Issues; Social Sciences.
- POLI:1401 Introduction to Russian Politics** 3 s.h.  
Political dynamics in postcommunist countries of east-central Europe and Eurasia; imperial legacies, ideology and practice of communist politics, patterns of democracy and authoritarianism. GE: International and Global Issues; Social Sciences.
- POLI:1410 Introduction to Asian International Relations** 3 s.h.  
Examination of historical and current relationships between countries in Asia; conflict, cooperation, effect of international organizations, and role of non-Asian powers in the region (i.e., United States); North Korea-South Korea conflict; rivalry between Japan, China, and Korea; Association of Southeast Asian Nations (ASEAN); South China Sea dispute; rise of Asian economies; the United States pivot to Asia; how current explanations of international relations may or may not work in the context of Asia.
- POLI:1445 Introduction to Asian Politics: China** 3 s.h.  
How sociopolitical life in China is shaped by political structure, economic modernization, and traditional political culture; topics include historical, political, economic, and social conditions in contemporary China; course objectives are to broaden student's horizons in global affairs by learning about a foreign country that seems completely different and to sharpen student's analytical and communication skills. GE: International and Global Issues; Social Sciences.
- POLI:1449 Introduction to European Politics** 3 s.h.  
Political institutions, processes of selected European countries. GE: International and Global Issues; Social Sciences.
- POLI:1500 Introduction to International Relations** 3 s.h.  
Survey of key issues in international relations, including causes of wars, different types of theories of international relations, international organizations, and global environmental problems. GE: International and Global Issues; Social Sciences.
- POLI:1501 Introduction to American Foreign Policy** 3 s.h.  
Foreign policies: goals, basic themes and general patterns, problems encountered by policy makers, means employed in dealing with other nations and international organizations, processes by which policies are formulated, factors that influence structure of policies. GE: International and Global Issues; Social Sciences.
- POLI:1600 Introduction to Political Communication** 3 s.h.  
Institutions, dynamics, issues of political communities considered as networks of communication; representative topics include political actors, ads, films, media, myths, news, publics, regulations, rhetorics, symbols. GE: Social Sciences.
- POLI:1601 Introduction to Social Media and Politics** 3 s.h.  
Politics in news, culture, commerce, campaigns, and government with attention to current media (e.g., cinema, internet, print, television). GE: Diversity and Inclusion.
- POLI:1700 Introduction to Political Analysis** 3 s.h.  
Tools necessary to analyze and solve puzzles in politics (i.e., Why do countries go to war rather than negotiate? Why do lifelong enemies become allies? Why do majorities act irrationally?); questions approached from a quantitative perspective (unlike most political analyses), in particular, game theory—a branch of mathematics that investigates how rational players act in situations (like those in politics) of strategic interaction. GE: Quantitative or Formal Reasoning.
- POLI:1800 Introduction to the Politics of Class and Inequality** 3 s.h.  
Introduction to issues of class and economic inequality in the U.S. and other countries; what class and economic inequality are, debates surrounding these definitions, and attempts to measure both of these concepts; research and arguments on economic and political explanations of economic inequality; different policies aimed at reducing economic inequality and debates over them. GE: Diversity and Inclusion.
- POLI:1900 Introduction to the Politics of Race** 3 s.h.  
Introduction to politics of race in the U.S.; history of racial and ethnic groups in the U.S., their relationship with each other, and their interactions with different levels of government. GE: Diversity and Inclusion.
- POLI:1950 Introduction to the Politics of Religion** 3 s.h.  
Introduction to the complex relationship between religion and politics; examination of historical and contemporary effect of religion on a wide range of areas (e.g., political culture, political parties, political behavior, public policy); consideration of important policy debates (e.g., role of religion in public life, religious discrimination, various social issues). GE: Diversity and Inclusion.
- POLI:2000 Designing Political Research** 3 s.h.  
How research is conducted on politics and government; students examine different research approaches (both qualitative and quantitative), learn how to read and understand published research on politics, demonstrate an understanding of different research approaches, and understand, interpret, and critically analyze published research on politics.
- POLI:2415 Latin American Politics** 3 s.h.  
Governmental institutions, major interest groups; focus on area as a whole. GE: International and Global Issues; Social Sciences. Same as LAS:2415.
- POLI:2417 Comparative Environmental Policy** 3 s.h.  
Analysis of environmental policy and governance processes; case examples and analysis primarily focus on water governance in local contexts outside the United States; causes and consequences of environmental policy differences; effects of government structure, society, and natural resource conditions on policy development, implementation, and environmental outcomes.
- POLI:2500 Politics of Natural Disasters** 3 s.h.  
Examination of local, national, and international politics that guide government action (and inaction) in the face of increasingly intense and increasingly frequent natural disasters; draws on core concepts from political science related to distributive politics, natural resource governance, state capacity, government responsiveness, and collective action.

- POLI:3000 Analyzing Political Data** 3 s.h.  
Creating knowledgeable evaluators of current research in political science; interpretation of different quantitative techniques with examples from current political science research.
- POLI:3001 Hawkeye Poll** 3 s.h.  
Basics of survey design, sampling, question wording, interpreting responses, and writing press releases; students work together to help design questions as part of the Hawkeye Poll, a collaborative teaching and research enterprise in the Department of Political Science.
- POLI:3035 Careers in Political Science and International Relations** 3 s.h.  
Introduction to careers available to students in political science and international relations by Department of Political Science alumni; focus on types of careers available in their fields, how to prepare for these careers, and how to find jobs in the field.
- POLI:3050 Problems in Methods** arr.  
Problems in political science research methods; data collection, interpretation, analysis.
- POLI:3100 American State Politics** 3 s.h.  
Approaches to analysis of political behavior in American state governments; emphasis on cultures, parties, actors, processes, issues.
- POLI:3101 American Constitutional Law and Politics** 3 s.h.  
Role of U.S. Supreme Court in American political system; emphasis on analysis of Supreme Court cases.
- POLI:3102 The U.S. Congress** 3 s.h.  
History of Congress, how congressional elections shape what legislators do, how laws are made in Congress, rules and maneuvers that shape these laws, and the future of Congress as one of the major institutions of American government; gain an understanding of Congress and why Americans continue to be confused and fascinated by this complicated branch and its politics.
- POLI:3104 Immigration Politics** 3 s.h.  
United States immigration policy and political consequences of Latina/o/x population growth; contrast of political experiences of Latina/o/x with groups and ideals of democratic political systems; analyses of past immigration policies; studies of public opinion, voter turnout, and campaign tactics. Same as LAS:3104, LATS:3104.
- POLI:3107 Writing in Political Science: Writing for "Science" and for "Politics"** 3 s.h.  
Examination of principles used in writing for science and writing for politics: science writing clearly explains its ideas to promote understanding, and political writing advocates for its ideas by highlighting and obscuring different pieces of information and "spinning" its findings to promote persuasion; students produce and analyze examples of both forms of writing.
- POLI:3109 Fixing America's Electoral System** 3 s.h.  
What's wrong with American politics and what can be done to fix it; overview of major problems facing American democracy from polarized political parties and money in politics, to low voter turnout and trust in government, to growing gap between super rich and middle class; focus on problem solving, including movement towards digital politics and new media, participatory democracy, reform of congressional elections and non-partisan redistricting, presidential elections (Electoral College), presidential nomination process, campaign finance, voter registration and voting, proportional representation. Requirements: no prior enrollment in POLI:3150 with subtitle Election Reform.
- POLI:3110 Local Politics** 3 s.h.  
Models of city government, relation to state and federal governments; rights, liabilities of municipalities; city elections, campaigns, issues; role of pressure groups.
- POLI:3111 American Public Policy** 3 s.h.  
Functions and policies of national government; emphasis on domestic policy making, impact of public policy.
- POLI:3113 Research in Judicial Politics** 3 s.h.  
Applied research training in courts and judicial politics. Prerequisites: POLI:3121 or POLI:3120 or POLI:3101.
- POLI:3114 Women and Politics in the United States** 3 s.h.  
Involvement of women in the U.S. political system; topics include political theories about women's involvement in politics and government, women and constitutional law, public policies that affect women, women's participation in politics at the mass and elite levels.
- POLI:3116 The Presidency** 3 s.h.  
Constitutional foundations, subsequent development, current status of the office of the presidency; evolution of presidential selection process; powers, structures, functions of the office; role of president as legislative, executive, and public leader.
- POLI:3117 Bureaucratic Politics and Public Administration** 3 s.h.  
Examination of bureaucracy from political, theoretical, and practical perspectives; what we mean by "bureaucracy" and how it developed over time; political control of bureaucracy; how bureaucracy performs its tasks, including behavior of bureaucrats; role of nonprofit service delivery in modern bureaucracy; how bureaucracy affects American policy and politics. Same as PBAF:3117.
- POLI:3118 Interest Groups** 3 s.h.  
Theory, organization, and structure of interest groups; how they influence Congress, executive branch, courts, elections.
- POLI:3120 The Criminal Justice System** 3 s.h.  
Role of actors, institutions that constitute and participate in the American criminal justice system.
- POLI:3121 The Judicial Process** 3 s.h.  
Role of courts, lawyers, judges, interest groups in the American political system.
- POLI:3123 State Politics in Iowa** 3 s.h.  
Introduction to Iowa government and politics; emphasis on Iowa Constitution, founding and history, political institutions, voting, political parties, mass movements and interest groups; evangelical movement in Iowa, immigration, and Iowa's role in national politics given the state's first-in-the-nation caucus.
- POLI:3124 Guided Political Science Internship** 1-9 s.h.  
Supervised professional work experience in government and nongovernment organizations, as well as private industry. Requirements: sophomore or higher standing.

- POLI:3126 Environmental Policy** 3 s.h.  
Analysis of environmental problems through an interdisciplinary approach drawing from economics, environmental economics, political economy, and political science; how environmental resources differ from other goods that economists study (usually there is no market for them); government policies that are needed to maintain and improve environmental quality; how governments are influenced by voters' policy preferences and by policy preferences of special interest groups; three main areas of political economy as it relates to environmental policy.
- POLI:3127 Legislative Policy Seminar** arr.  
Policy research for the Iowa Legislature.
- POLI:3128 Politics of the U.S. National Park System** 3 s.h.  
Examination of politics surrounding the U.S. National Park System and other federally managed lands; debates about the founding of the U.S. National Parks system; expansion, environmental effects, and current issues; role of important actors, such as the President, Congress, bureaucracies, land owners, and nongovernmental organizations.
- POLI:3150 Problems in American Politics** 1-3 s.h.  
Problems in studying American system; structures, functions, behavior.
- POLI:3160 Research Task Force: Solving Policy Problems Through Research** 3 s.h.  
How policy research assists elected officials and government bureaucrats to design and implement effective public policies; introduction to process of conducting policy research and preparing summary reports; students examine various theories and methods of policy research, then apply what they have learned by conducting original policy research on local, state, national, and international issues.
- POLI:3202 Political Psychology** 3 s.h.  
Political phenomena from psychological perspective; political behaviors of individuals, including decision making by elites and masses, evaluations of political candidates, mass mobilization, response to mass media; psychological concepts including stereotyping, social cognition, attitude, group identification.
- POLI:3203 Campaigns, Elections, and Voting Behavior** 3 s.h.  
Determinants of voting behavior; correlates of political participation, political apathy; political socialization processes; nature and functions of elections.
- POLI:3204 Public Opinion** 3 s.h.  
Role in making public policy; formation, change of political attitudes and opinions; political ideology; measurement of public opinion; how opinion polls are conducted; experience with interviewing and conducting public opinion research. Same as SOC:3525.
- POLI:3300 Postmodern Political Theory** 3 s.h.  
Major writers and intellectual trends, from 19th century to World War II.
- POLI:3302 Current Political Theory** 3 s.h.  
Thinkers or schools of thought, from World War II to present.
- POLI:3305 Modern Political Theory** 3 s.h.  
Major writers and intellectual trends in political thought from Renaissance and Reformation to 19th century.
- POLI:3306 Problems of Democracy** 3 s.h.  
Theory and practice of democracy; democratic ideals and the institutions and practices necessary for those ideals to work in everyday politics—power, equality, majority rule, participation, trust, representation.
- POLI:3350 Games of Politics** 3 s.h.  
Active learning component to many theories and concepts learned in political science and international relations; multitude of simulations (games) that provide a hands-on learning element to these concepts and theories; topics include alliances, balance of power, inequality, public opinion, gerrymandering, and policy making; students read materials connected to the specific weekly topic, complete a simulation tied to that topic, discuss links between topics; and complete a variety of assignments that tie these items together.
- POLI:3400 Political Economy** 3 s.h.  
Economic reasoning applied to political issues, including evolution of institutions, voting, leadership, interest groups, bargaining tactics, federalism, bureaucracy, fairness and compensation for wrongs, legitimacy of democracy, electoral cycles in economic policy, revolutions.
- POLI:3405 Authoritarian Politics** 3 s.h.  
Political dynamics in countries with authoritarian governing regimes; how those dynamics differ from their counterparts in democracies; how decisions are reached and get enforced; forms political struggles take; how interest groups pursue influence; ways individuals deal with the government; tension between regime control and societal progress.
- POLI:3408 Chinese Politics and Society** 3 s.h.  
Comprehensive introduction to modern Chinese history; current Chinese political system and political culture; public policy issues.
- POLI:3410 Russian Foreign Policy** 3 s.h.  
Russia's behavior as a major economic, military, and diplomatic power in the world and what shapes that behavior; Russians' perceptions of other countries; Russian national interests; capabilities and domestic political dynamics; implications for foreign policy of the United States and other countries.
- POLI:3411 Democracy: Global Trends and Struggles** 3 s.h.  
Diverse contemporary understandings and practices of democracy; worldwide democratization trends; what political, economic, cultural and transnational factors shape those trends; how elites and citizens struggle to promote or retard democracy; the news full of people around the world taking action to demand democracy and what this term, so highly prized, really means; what is known about when democracy will replace authoritarianism; how can democracies more fully live up to their promise.
- POLI:3418 Governance in the Middle East** 3 s.h.  
Institutions and social systems that are affected by political behavior; ways in which Islam, oil production, and international forces shape political evolution in the region; comparative political inquiry of the operation of government institutions in the context of specific historical legacies, economic structures, and population characteristics in Iran, Iraq, Egypt, Turkey, Saudi Arabia.

**POLI:3420 Southeast Asia: Politics and Development****3 s.h.**

Eleven states of Southeast Asia; governance, development strategies, domestic politics, approach to democracy and national identity; regional politics and important transnational issues; role of ASEAN, terrorism, trans-Pacific trade and investment issues, China's looming presence, impact of ongoing and historic conflicts; briefings, discussions, presentations.

**POLI:3422 Horn of Africa: Politics and Transnational Issues****3 s.h.**

Eight states in the Horn of Africa region; important transnational and regional issues; governance, development strategies, domestic politics, social and civic dynamics of countries in the region; wildlife trafficking, piracy, fight against HIV/AIDS, imprint of colonialism, secession, ethnic and national identities, democratization, role of women in society, impact of ongoing and historic conflicts; briefings, discussions, presentations.

**POLI:3423 The Middle East: Policy and Diplomacy****3 s.h.**

Nineteen states and entities of North Africa and the Middle East; issues of governance, development strategies, domestic politics, and approach to democracy and national identity; regional politics and important transnational issues; role of political Islam; impacts of the Arab Spring, terrorism, oil, role of women in society, ongoing and historic conflicts; briefings, discussions, presentations.

**POLI:3424 Global Development****3 s.h.**

Exploration of political and social causes and consequences of economic development; two important questions asked—Why are some countries rich while others are poor? What can be done to encourage growth in underdeveloped countries?

**POLI:3425 South Asia: Politics, Identity, and Conflict****3 s.h.**

Survey of the eight countries in the South Asia region; examination of governance in the eight countries; students explore the interaction of politics, identity, and conflict within and across the regional states; ethnic, religious, caste, class, and other identities that have long competed for primacy with national identities in South Asia, sometimes leading to armed conflict within countries and sometimes sparking war between countries, and the question—Am I first a Sri Lankan or a Tamil? What do I feel like most?

**POLI:3426 Outliers: Comparing Odd Countries****3 s.h.**

The 195 countries that make up today's international system vary greatly by demography, geography, cultural variables, income, and many other characteristics; United Nations member Nauru, for example, with only 10,000 people and eight square miles of territory was once ranked among the world's richest countries per capita; how being "odd" (compared to the norm) in key characteristics relates to sociopolitical outcomes like good governance, human development, or happiness; students write short research papers, participate in group projects, and engage in an active learning environment to explore governance in the world's "odd" countries.

**POLI:3427 Latinas/os/x and the Law****3 s.h.**

Introduction and survey of Latina/o/x legal history; topics include segregation, educational rights, immigration, voting rights, citizenship, and the criminal justice system. Same as AMST:3420, LATS:3420, SJUS:3420.

**POLI:3450 Problems in Comparative Politics****3 s.h.**

Structures, functions, behaviors of different political systems.

**POLI:3503 Politics of Terrorism****3 s.h.**

Strategies of terrorists, insurgents, guerrillas, and other non-state actors; terrorists' use of the media; suicide attacks; al Qaeda and the U.S.-led War on Terrorism; counterinsurgency and counter-terrorism; self-starters and transnational terrorist networks; drone strikes and data-mining operations as counter-terrorism tools and the associated political controversies.

**POLI:3504 Globalization****3 s.h.**

Introduction to multidisciplinary literature on political economy and culture of globalization; major topics of debate on globalization.

**POLI:3505 Civil Wars****3 s.h.**

Causes, duration, management, and consequences of civil war; factors that create more frequent, longer civil wars (e.g., greed, grievance, ethnic conflict, state capacity); conflict management strategies for ending civil wars and minimizing long-term negative consequences.

**POLI:3506 Consequences of War****3 s.h.**

War's enduring effects: war's impact on individuals, including combatants and noncombatants; war's impact on states, including states' development, economic, political, and social effects; war's effects on the international system.

**POLI:3509 International Courts: The Intersection of Law and Politics****3 s.h.**

Introduction to important international courts including (Permanent) International Court of Justice, European Court of Justice, International Criminal Tribunal for Yugoslavia, International Criminal Tribunal for Rwanda, and International Criminal Court; the formation, design, and expansion of international courts from political and legal perspectives; states' capabilities, regime type, and war; intersection of domestic and international law, emphasizing the major legal systems in the world (civil law, common law, Islamic law).

**POLI:3512 International Conflict****3 s.h.**

International conflict as the primary ingredient of international politics; sources, causes, and effects of conflict, alliance structures, power distribution, geography, arms races, deterrence.

**POLI:3514 Regional Peace and Security****3 s.h.**

Analysis of the causes of peace and conflict between countries in various regions of the world; theories of zones of peace, security communities, regional security complexes.

**POLI:3516 The Politics of International Economics****3 s.h.**

Politics of international trade and financial systems, including rise of free trade in 19th century and breakdown between the two world wars, postwar trading system framed around the World Trade Organization, different types of international monetary systems, relations between rich countries and poor countries, and global environmental politics.

**POLI:3517 Global Justice****3 s.h.**

Introduction to normative issues in international politics (i.e., Under what conditions are wars just? When is intervention justified? Do wealthier nations owe anything to those elsewhere who are in need?); theoretical works on global justice by Rawls, Kant, Pogge, Walzer, and others; normative theories analyzed against background of empirical examples, such as recent humanitarian interventions, contemporary wars, current trade regime, global environmental problems; seminar. Requirements: no prior enrollment in POLI:3550 with subtitle Global Justice.

**POLI:3518 Water Wars: Conflict and Cooperation 3 s.h.**

How climate change may aggravate shortage of freshwater in water-stressed regions, producing warnings of conflict over international river basins or "water wars"; recent U.S. intelligence assessment notes that water may be used as a weapon between or within states, or to further terrorist aims in the future; management of international water resources including conflicts over cross-border rivers and maritime areas; common property resources, piracy, maritime security, peaceful and militarized conflict management of water-based conflicts, climate issues, natural disasters, United Nations Law of the Sea Convention.

**POLI:3519 Politics of Aging 3 s.h.**

Core concepts and methods related to aging and policies that address the needs of older persons; demographic measures of population health and aging, including incidence and distribution of specific conditions relevant in older age; theories of public policy and involvement of older persons in the political process; key historical and current policies, at both the federal and state/local levels, that influence service provision and the well-being of older persons in the United States. Same as ASP:3519.

**POLI:3522 Ending Wars and Keeping Peace 3 s.h.**

When are international and civil wars ripe for resolution? What determines intervention strategies for third parties, and why do attempts at conflict resolution so frequently fail? Students will investigate these questions and consider the process by which conflicts reach cease-fires and peace agreements, why some agreements last when others do not, and what can be done to make peace more durable; considering post-conflict societies and the lingering problems they face; topics include peacekeeping, mediation, the role of regional and international organizations, and post-conflict justice.

**POLI:3524 Politics and Multinational Enterprises 3 s.h.**

Relationship between business and politics by examining the operation of multinational business enterprises; how corporations interact with countries, subnational governments, interest groups, international organizations, and nongovernmental organizations.

**POLI:3525 Iowa Policy and Opinion Lab 0-3 s.h.**

Collaboration and study of policymaking and public opinion in Iowa; examination of policy choices in legislative, executive, and judicial branches; collection of survey data on public opinion among Iowans; students assist with research question development, data collection, data analysis, writing up results, and work with topics in these and other areas (e.g., race and crime, gender and social issues, health and COVID-19, environment); research group led by faculty in the Departments of Political Science and Journalism and Mass Communication.

**POLI:3530 Diplomacy Lab arr.**

Students work in teams under the supervision of a faculty member on projects created by the U.S. Department of State; class meetings are arranged and most work will occur outside of the classroom; experiential learning course in partnership with the U.S. Department of State.

**POLI:3550 Problems of International Politics 3 s.h.**

Problems in studying international system, structures, functions, behavior.

**POLI:3560 Public Policy and Persuasion 3 s.h.**

Students build their skill set in policy analysis, formation, and communication through a social justice lens; engagement in service learning projects in one Iowa community, where work done directly impacts that community's ability to make changes; development of effective writing and oral presentation styles that can be adapted to different audiences; focus on homelessness policy using social policy and social justice concepts to explore work of policy makers who have "right-sized" existing systems to serve communities in crisis and propose solutions to systemic problems that disadvantage marginalized populations. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as PBAF:3560, RHET:3560, SJUS:3560.

**POLI:3601 Politics of Film 3 s.h.**

Issues in the popular politics of aesthetics, communication, culture, and myth, explored through analysis of films.

**POLI:3603 War and Film 3 s.h.**

Exploration of one of the most significant political phenomena, war, as it is represented and understood through film; various film genres including classic war films, historical and historical fiction, documentary (e.g., *Battle of Algiers*, *Triumph of the Will*, *Invisible War*), comedy-drama (e.g., *Life is Beautiful*), and dark comedy or satire (e.g., *The Mouse that Roared*, *Tropic Thunder*); scholarly writings on international conflict; students discover and investigate themes related to nature of war, its underlying causes, and its consequences.

**POLI:3604 New Media and Public Opinion 3 s.h.**

How do citizens give voice to their interest in and concerns about governing? New media and public opinion, measured by surveys, supplement each other, each with strengths and weaknesses; parallel moves of the two in elections and when important political decisions are being made.

**POLI:3701 Special Topics in Politics 1-2 s.h.**

Presentations by distinguished lecturers on topics in the study of politics not covered in other courses.

**POLI:3710 Law School Readiness Seminar 0-1 s.h.**

Engagement in a number of programs and educational activities in preparation for successful application to and completion of law school. Requirements: enrollment in College of Liberal Arts and Sciences Law School Readiness Program.

**POLI:4000 Honors Seminar on the Study of Politics 3 s.h.**

Examination of big ideas in the study of politics and government that cut across the fields of American politics, comparative politics, international relations, and political theory. Requirements: honors standing in political science.

**POLI:4100 Honors Seminar on American Politics 3 s.h.**

Ideas, issues, methods in selected area. Requirements: junior or senior honors standing in political science.

**POLI:4400 Honors Seminar on Comparative Politics 3 s.h.**

Exploration of a selected topic in comparative politics, its cross-national patterns, strategies used to study it, and major debates among scholars; study of politics by comparing two or more countries or other political units; new light on how societies are divided on major issues (whether state regulation of economy or role of religion in society), how people behave politically (from voting to demonstrations to revolution), role played by political institutions (e.g., legislatures, courts, political parties). Requirements: junior or senior honors standing in political science.

- POLI:4500 Honors Seminar on International Politics** 3 s.h.  
Ideas, issues, methods in selected area. Requirements: junior or senior honors standing in political science.
- POLI:4600 Honors Research Project** 3 s.h.  
Special research assistance to political science faculty. Requirements: junior or senior honors standing in political science.
- POLI:4601 Honors Senior Thesis** 3 s.h.  
Supervised research and writing. Requirements: honors standing in political science and more than one semester before graduation.
- POLI:4700 Independent Study** arr.  
Supervised special projects.
- POLI:4701 Undergraduate Research Tutorial** 3 s.h.  
Individual training in applied research.
- POLI:4702 Senior Research Project/Paper** 3 s.h.  
Supervised research and writing. Requirements: political science major and more than one semester before graduation.
- POLI:4800 Senior Seminar in International Relations** 3 s.h.  
Completion of final research project as a culmination of student's work in the major; research supervised by a faculty member; required for international relations major. Recommendations: taken during one of student's final two semesters at the University of Iowa.
- POLI:4801 Honors Senior Seminar in International Relations** 3 s.h.  
Honors capstone course for international relations majors.
- POLI:4802 International Relations Senior Seminar Preparation** 1 s.h.  
Preparation for international relations senior seminar.
- POLI:4900 Government and Politics Internship** 1-3 s.h.  
Undergraduate internships in state or national legislative office, executive agency, or with election campaign official.
- POLI:5000 Introduction to Political Analysis** 4 s.h.  
Conceptual problems of political analysis; empirical research strategies, philosophy of science. Requirements: M.A. or Ph.D. standing in political science.
- POLI:5001 Introductory Methodology** 3-4 s.h.  
Introduction to quantitative techniques in political science; set theory, probability distributions, estimation, testing; emphasis on acquiring mathematical skills for more advanced quantitative work in political science. Requirements: M.A. or Ph.D. standing in political science. Same as IGPI:5001.
- POLI:5003 Intermediate Methodology** 4 s.h.  
Techniques of data analysis; statistical models and their relationship to hypotheses tested. Requirements: doctoral standing in political science and one semester of intermediate statistics.
- POLI:5100 American Politics** 4 s.h.  
Major literature of American politics, emphasis on comparative, systemic, behavioral studies. Requirements: M.A. or Ph.D. standing in political science.
- POLI:5111 American Public Policy** 3 s.h.  
Introduction to study of public policy in the United States; development of analytical skills necessary to better understand and explain contemporary policy debates and public policy decision making that takes place at the local, state, and national levels in the United States; topics include a mix of theoretical approaches and substantive policy areas to better understand how policy is made, manipulated, and maintained; examination of demands and supports, institutional, and environmental variables that drive American public policy. Same as PBAF:5111.
- POLI:5117 Bureaucratic Politics and Public Administration** 3 s.h.  
Examination of bureaucracy from political, theoretical, and practical perspectives; what we mean by "bureaucracy" and how it developed over time; political control of bureaucracy; how bureaucracy performs its tasks, including behavior of bureaucrats; role of nonprofit service delivery in modern bureaucracy; how bureaucracy affects American policy and politics. Same as PBAF:5117.
- POLI:5200 American State Politics** 3 s.h.  
Approaches to analysis of political behavior in American state governments; emphasis on cultures, parties, actors, processes, issues. Same as PBAF:5200.
- POLI:5300 Political Theory** 4 s.h.  
Methods of political theory, epistemological and moral foundations of political inquiry; terms of political discourse (e.g., power, legitimacy, equality, ideological foundations of politics); schools of thought and current controversies in political theory. Requirements: M.A. or Ph.D. standing in political science.
- POLI:5400 Comparative Politics** 4 s.h.  
Conceptual, theoretical, and methodological issues in comparative study of politics; developments in comparative politics subfield. Requirements: M.A. or Ph.D. standing in political science.
- POLI:5500 International Politics** 4 s.h.  
Approaches to study of international politics. Requirements: M.A. or Ph.D. standing in political science.
- POLI:5700 Introduction to Formal Models in Political Science** 4 s.h.  
Use of formal mathematical models; current modeling techniques, applications in American politics, comparative politics, international politics. Requirements: M.A. or Ph.D. standing in political science.
- POLI:6635 Crossing Borders Seminar** 2-3 s.h.  
Taught in English. Same as AFAM:6635, ANTH:6635, COMM:6635, ENGL:6635, FREN:6142, GEOG:6635, GRMN:6635, HIST:6135, IWP:6635, SPAN:6904.
- POLI:7002 Topics Methodology** 4 s.h.  
Application of advanced statistical techniques in political science; limited dependent variable regression techniques, simulation methods, missing data techniques, history/rare event analysis and maximum likelihood, and topics tailored to students' research; focus on learning how and when to apply these techniques.
- POLI:7003 Advanced Methodology** 4 s.h.  
Introduction to regression techniques for limited dependent and qualitative variables in political science; logit, probit, multinomial logit and probit, ordered logit and probit, event history models, event count models; emphasis on understanding how and when to apply these models.

- POLI:7100 Modeling American Politics** 4 s.h.  
Exploration of how well formal models explain the real world and how the fit between models and world can be improved.
- POLI:7150 Problems in American Politics** 4 s.h.  
Problems in study of American political system; structures, functions, behavior.
- POLI:7202 Public Opinion and Electoral Behavior** 4 s.h.  
Political attitudes and beliefs in mass publics; voting behavior; how electoral systems function.
- POLI:7270 Responsible Research in Political Science** 1 s.h.  
Concepts and practice of scholarly integrity, responsible conduct of research, and research ethics in political science; data management, mentor/trainee responsibilities, publication practices and responsible authorship, peer review, collaborative science, human subjects, animal welfare, research misconduct, and conflict of interest and commitment. Requirements: enrollment in political science M.A. or Ph.D. program.
- POLI:7409 Democratization and Authoritarianism** 4 s.h.  
Rival understandings and practices of democracy and authoritarianism, including challenges of quantifying them for comparative analyses; major theoretical and empirical approaches to studying democratization and other forms of regime change.
- POLI:7423 Comparative Parties and Elections** 4 s.h.  
Introduction to important questions and puzzles in the study of political parties; party formation and development, the role of parties in society, how parties are organized, party systems, electoral systems, party strategy and behavior, development of new parties, whether parties are still relevant, regeneration of communist parties in post-communist regimes, ethnic parties, failure of party consolidation.
- POLI:7450 Problems of Comparative Politics** 4 s.h.  
Problems in study of comparative political systems; structures, functions, behavior.
- POLI:7500 Foreign Policy** 4 s.h.  
Foreign policy making and international behavior in relation to theories, findings from selected countries.
- POLI:7502 International Institutions and Cooperation** 4 s.h.  
Literature of international systems and international organization; major schools of thought in international relations theory, their utility in explaining evolution of the international system and recent developments in international organization and global governance.
- POLI:7503 International Conflict and Cooperation** 4 s.h.  
Recent theoretical and empirical debates in international relations literature; emphasis on formal and quantitative research.
- POLI:7550 Problems in International Politics** 4 s.h.  
Issues of international politics, emphasis on problems of theoretical analysis.
- POLI:7604 Responsible Research in Political Science: Postdocs** 1 s.h.  
Concepts and practice of scholarly integrity, responsible conduct of research, and research ethics in political science; data management, mentor/trainee responsibilities, publication practices and responsible authorship, peer review, collaborative science, human subjects, animal welfare, research misconduct, conflict of interest and commitment. Requirements: postdoctoral research scholar/fellow in political science.
- POLI:7701 Dynamic Models of International Politics** 2-4 s.h.  
Overview of several dynamic modeling techniques used to study international relations; modeling assumptions, the kinds of information models can provide, evaluation of models.
- POLI:7900 Readings Tutorial** arr.  
Independent study.
- POLI:7901 Research Tutorial** arr.  
Individual training in applied research.
- POLI:7910 Ph.D. Dissertation** arr.

## Political Science, B.A.

Most of the political science coursework required for the major is the same for B.A. and B.S. students, but the major for the B.S. includes a political science research component. The major for the B.S. also requires a set of mathematics/statistics courses, while the major for the B.A. does not.

The B.A. degree with a major in political science offers an option for an on-campus or an online program of study. See Requirements [p. 937] in this section of the Catalog.

### Learning Outcomes

Graduates will:

- possess a basic understanding of American and world politics,
- be able to apply a theoretical approach in political science to understand American or world politics,
- have effective written and oral communication skills, and
- be able to conceptualize problems and apply analytical tools to solve them.

### Requirements

The Bachelor of Arts with a major in political science requires a minimum of 120 s.h., including 36 s.h. of work for the major (all in political science courses). At least 18 s.h. of coursework for the major must be taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Credit earned in POLI:1000 First-Year Seminar, POLI:3124 Guided Political Science Internship, and POLI:4900 Government and Politics Internship does not count toward the major, but grades in these courses become part of a student's grade-point average.

In planning coursework, students should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a B.A. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average; but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

The B.A. with a major in political science requires the following coursework.

Code	Title	Hours
	Political Science Introductory Courses	15
	Additional Political Science Courses	21
<b>Total Hours</b>		<b>36</b>

## Political Science Introductory Courses

Code	Title	Hours
This course:		
POLI:1100	Introduction to American Politics	3
And four of these:		
POLI:1001	Introduction to Politics	3
POLI:1050	Big Ideas: Introduction to Information, Society, and Culture	3
POLI:1200	Introduction to Political Behavior	3
POLI:1300	Introduction to Political Thought and Action	3
POLI:1400	Introduction to Comparative Politics	3
POLI:1401	Introduction to Russian Politics	3
POLI:1410	Introduction to Asian International Relations	3
POLI:1445	Introduction to Asian Politics: China	3
POLI:1449	Introduction to European Politics	3
POLI:1500	Introduction to International Relations	3
POLI:1501	Introduction to American Foreign Policy	3
POLI:1600	Introduction to Political Communication	3
POLI:1601	Introduction to Social Media and Politics	3
POLI:1700	Introduction to Political Analysis	3
POLI:1800	Introduction to the Politics of Class and Inequality	3
POLI:1900	Introduction to the Politics of Race	3
POLI:1950	Introduction to the Politics of Religion	3

## Additional Political Science Courses

Code	Title	Hours
All of these:		
	At least seven additional political science courses numbered 2000 or above, excluding POLI:3124 and POLI:4900	21

## Emphases in Political Science

Students may elect to complete one or two emphases while fulfilling the requirements for the major. The emphasis is indicated on the transcript at graduation if a student completes the emphasis and requests recognition from the department.

Each emphasis consists of four courses. Emphases are available in American institutions, identity politics, international relations, political behavior, political

communication, political theory, and politics of foreign countries. For lists of courses approved in each area, contact the Department of Political Science.

## Online B.A.

The Department of Political Science offers an online B.A. degree with a major in political science intended for students who are not able to attend courses that meet on campus. The online program enables students to complete their B.A. degree from anywhere in the world. For more information, see Online Political Science B.A. on the Department of Political Science website.

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

### B.A./M.S. in Business Analytics (Career Subprogram)

Students majoring in political science who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

### B.A./M.S. in Finance

Students majoring in political science who are interested in earning a master's degree in finance may apply to the combined B.A./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) section of the Catalog.

## Honors

### Honors in the Major

Students majoring in political science have the opportunity to graduate with honors in the major. Departmental honors students must maintain a UI g.p.a. of at least 3.33 and a major g.p.a. of at least 3.50. In addition to maintaining the minimum grade-point average requirements, students must complete 6-9 s.h. in specific departmental honors courses with a grade of B or higher in each course. They also are encouraged to enroll in honors sections of introductory courses whenever available. The required honors courses are included in the minimum 36 s.h. of political science coursework for the major.

Students earning departmental honors must include the following courses in their major coursework.

### Honors Seminar

Code	Title	Hours
This course:		
POLI:4000	Honors Seminar on the Study of Politics	3

### Experiential Learning

Code	Title	Hours
One of these:		
POLI:3001	Hawkeye Poll	3
POLI:3113	Research in Judicial Politics	3
POLI:3124	Guided Political Science Internship	1-9
POLI:3127	Legislative Policy Seminar	arr.
POLI:4701	Undergraduate Research Tutorial	3
POLI:4900	Government and Politics Internship	3

Another course or experience, such as POLI:3530, study abroad, internship credit, or research work (approved by the honors director) 0-3

### Final Honors Project

Code	Title	Hours
One of these:		
POLI:4600	Honors Research Project	3
POLI:4601	Honors Senior Thesis	3

Students who choose to write an honors thesis are required to schedule an oral discussion of their completed honors thesis, mainly to enrich the intellectual experience of its author. A student discusses the thesis with a faculty committee including the thesis director and the department's honors director or a faculty member designated by that official. The committee may withhold approval of fundamentally inadequate theses, but directors are to schedule theses for discussion only when they are ready. The discussion typically concentrates on exploring thesis ideas from several perspectives rather than whether to approve a thesis.

For more information about honors in the political science major, contact the Department of Political Science honors advisor.

## National Honor Society

The department sponsors a chapter of Pi Sigma Alpha. Students who have a cumulative g.p.a. of at least 3.30, have attained junior standing, and have completed 15 s.h. of coursework in political science are considered for membership. Contact the Department of Political Science honors advisor for more information.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the political science major.

### Career Advancement

A recent survey showed that graduates with political science degrees have higher average salaries than graduates in all other social sciences, excluding students with economics degrees. The Department of Political Science organizes career workshops for its students throughout the year. The workshops are led by former political science students who have achieved distinction in business, law, campaign operations, local government, elected office, or other fields.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

### Academic Plans

## Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

In addition to the following checkpoints, honors students must complete POLI:4000 Honors Seminar on the Study of Politics and one additional honors seminar before the seventh semester begins.

**Before the fifth semester begins:** two courses in the major.

**Before the seventh semester begins:** six courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** eight courses in the major.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

## Political Science, B.A.

Course	Title	Hours
<b>First Year</b>		
<b>Fall</b>		
POLI:1100	Introduction to American Politics <sup>a</sup>	3
RHET:1030	Rhetoric	3 - 4
	or ENGL:1200 or The Interpretation of Literature

---

**Total Hours** **123-130**

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e For the political science major upper-level is defined as those courses numbered 2000 or above, excluding POLI:3124 and POLI:4900.
- f Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

# Political Science, B.S.

Most of the political science coursework required for the major is the same for B.S. and B.A. students, but the major for the B.S. includes a political science research component. The major for the B.S. also requires a set of mathematics/statistics courses, while the major for the B.A. does not.

## Learning Outcomes

Graduates will:

- possess a basic understanding of American and world politics,
- be able to apply a theoretical approach in political science to understand American or world politics,
- have effective written and oral communication skills, and
- be able to conceptualize problems and apply analytical tools to solve them.

## Requirements

The Bachelor of Science with a major in political science requires a minimum of 120 s.h., including at least 46 s.h. of work for the major (36 s.h. in political science courses and 10-11 s.h. of approved mathematics/statistics courses). At least 18 s.h. of coursework for the major must be taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 20].

Credit earned in POLI:1000 First-Year Seminar, POLI:3124 Guided Political Science Internship, and POLI:4900 Government and Politics Internship does not count toward the major, but grades in these courses become part of a student's grade-point average.

In planning coursework, students should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a B.S. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average; but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

The B.S. with a major in political science requires the following coursework.

Code	Title	Hours
	Political Science Introductory Courses	15
	Additional Political Science Courses	21
	Mathematics/Statistics Courses	10-11
<b>Total Hours</b>		<b>46-47</b>

## Political Science Introductory Courses

Code	Title	Hours
This course:		
POLI:1100	Introduction to American Politics	3

And four of these:

POLI:1001	Introduction to Politics	3
POLI:1050	Big Ideas: Introduction to Information, Society, and Culture	3
POLI:1200	Introduction to Political Behavior	3
POLI:1300	Introduction to Political Thought and Action	3
POLI:1400	Introduction to Comparative Politics	3
POLI:1401	Introduction to Russian Politics	3
POLI:1410	Introduction to Asian International Relations	3
POLI:1445	Introduction to Asian Politics: China	3
POLI:1449	Introduction to European Politics	3
POLI:1500	Introduction to International Relations	3
POLI:1501	Introduction to American Foreign Policy	3
POLI:1600	Introduction to Political Communication	3
POLI:1601	Introduction to Social Media and Politics	3
POLI:1700	Introduction to Political Analysis	3
POLI:1800	Introduction to the Politics of Class and Inequality	3
POLI:1900	Introduction to the Politics of Race	3
POLI:1950	Introduction to the Politics of Religion	3

## Additional Political Science Courses

Code	Title	Hours
<b>Advanced Courses</b>		
These:		
	Political science courses numbered 2000 or above, excluding POLI:3124 and POLI:4900	15
This course:		
POLI:3000	Analyzing Political Data	3
One of these:		
POLI:4600	Honors Research Project	3
POLI:4701	Undergraduate Research Tutorial	3

## Mathematics/Statistics Courses

Students complete one of the following sets of mathematics/statistics courses with a g.p.a. of at least 2.00. Other sets of courses may be used with written approval of the B.S. program advisor.

### Set 1

Code	Title	Hours
MATH:1380	Calculus and Matrix Algebra for Business	4

or MATH:1550	Engineering Mathematics I: Single Variable Calculus	
or MATH:1850	Calculus I	
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3
STAT:6513	Intermediate Statistical Methods	3

### Set 2

Code	Title	Hours
MATH:1850	Calculus I	4
or MATH:1550	Engineering Mathematics I: Single Variable Calculus	
MATH:1860	Calculus II	4
or MATH:1560	Engineering Mathematics II: Multivariable Calculus	
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

## Emphases in Political Science

Students may elect to complete one or two emphases while fulfilling the requirements for the major. The emphasis is indicated on the transcript at graduation if the student completes the emphasis and requests recognition from the department.

Each emphasis consists of four courses. Emphases are available in American institutions, identity politics, international relations, political behavior, political communication, political theory, and politics of foreign countries. For lists of courses approved in each area, contact the Department of Political Science.

## Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Teacher Education Program Application and Admission on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

## Combined Programs

### B.S./M.S. in Business Analytics (Career Subprogram)

Students majoring in political science who are interested in earning a master's degree in business analytics with a career subprogram may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of business analytics before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the business analytics program, see the

M.S. in business analytics (career) [p. 1171] in the Tippie College of Business section of the Catalog.

## B.S./M.S. in Finance

Students majoring in political science who are interested in earning a master's degree in finance may apply to the combined B.S./M.S. program offered by the College of Liberal Arts and Sciences and the Tippie College of Business. The program enables students to begin the study of finance before they complete their bachelor's degree. Students are able to complete both degrees in five years rather than six.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the finance program, see the M.S. in finance [p. 1214] (Tippie College of Business) section of the Catalog.

## Honors

### Honors in the Major

Students majoring in political science have the opportunity to graduate with honors in the major. Departmental honors students must maintain a UI g.p.a. of at least 3.33 and a major g.p.a. of at least 3.50. In addition to maintaining the minimum grade-point average requirements, students must complete 9 s.h. in specific departmental honors courses with a grade of B or higher in each course. They also are encouraged to enroll in honors sections of introductory courses whenever available. The required honors courses are included in the minimum 36 s.h. of political science coursework for the major.

Students earning departmental honors must include the following courses in their major coursework.

### Honors Seminar

Code	Title	Hours
This course:		
POLI:4000	Honors Seminar on the Study of Politics	3

### Experiential Learning

Code	Title	Hours
One of these:		
POLI:3001	Hawkeye Poll	3
POLI:3113	Research in Judicial Politics	3
POLI:3124	Guided Political Science Internship	1-9
POLI:3127	Legislative Policy Seminar	arr.
POLI:4701	Undergraduate Research Tutorial	3
POLI:4900	Government and Politics Internship	1-3

Another course or experience, such as POLI:3530, study abroad, internship credit, or research work (approved by the honors director) 0-3

### Final Honors Project

Code	Title	Hours
One of these:		
POLI:4600	Honors Research Project	3
POLI:4601	Honors Senior Thesis	3

Students who choose to write an honors thesis are required to schedule an oral discussion of their completed honors thesis, mainly to enrich the intellectual experience of its author. A student discusses the thesis with a faculty committee including the thesis director and the department's honors director or a faculty member designated by that official. The committee may withhold approval of fundamentally inadequate theses, but directors are to schedule theses for discussion only when they are ready. The discussion typically concentrates on exploring thesis ideas from several perspectives rather than whether to approve a thesis.

For more information about honors in the political science major, contact the Department of Political Science honors advisor.

## National Honor Society

The department sponsors a chapter of Pi Sigma Alpha. Students who have a cumulative g.p.a. of at least 3.30, have attained junior standing, and have completed 15 s.h. of coursework in political science are considered for membership. Contact the Department of Political Science honors advisor for more information.

## University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the political science major.

## Career Advancement

A recent survey showed that graduates with political science degrees have higher average salaries than graduates in all other social sciences, excluding economics. The Department of Political Science organizes career workshops for its students throughout the year. The workshops are led by former political science students who have achieved distinction in business, law, campaign operations, local government, elected office, or other fields.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

In addition to the following checkpoints, honors students must complete POLI:4000 Honors Seminar on the Study of Politics and one additional honors seminar before the seventh semester begins.

**Before the fifth semester begins:** two courses in the major.

**Before the seventh semester:** eight courses in the major, including two of the three required mathematics/statistics

courses and POLI:3000 Analyzing Political Data; and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** 11 courses in the major, including POLI:4600 Honors Research Project or POLI:4701 Undergraduate Research Tutorial.

**During the eighth semester:** enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

## Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)  
<sup>h</sup>

<b>Hours</b>	<b>15</b>
<b>Total Hours</b>	<b>123-132</b>

h Please see Academic Calendar, Office of the Registrar website for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Graduation Services.

- a Fulfills a major requirement and may fulfill a GE requirement.
- b Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
- c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
- d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
- e Students complete an approved set of mathematics/statistics courses (10-11 s.h.).
- f Enrollment in math courses requires completion of a placement exam.
- g For the political science major upper-level is defined as those courses numbered 2000 or above, excluding POLI:3124 and POLI:4900.

# Political Science, Minor

## Requirements

The undergraduate minor in political science requires a minimum of 15 s.h. in political science courses, including 12 s.h. in courses numbered 2000 or above and 12 s.h. taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Credit from POLI:1000 First-Year Seminar, POLI:3124 Guided Political Science Internship, and POLI:4900 Government and Politics Internship does not count toward the minor.

Students may complete an emphasis area; see "Emphases in Political Science" under the B.A. in political science [p. 937] or the B.S. in political science [p. 941] in the Catalog. Emphasis areas in the minor are not recorded on a student's transcript; however a student may request a letter from the Department of Political Science noting the completion of an emphasis area in the minor.

# Political Science, M.A.

The department usually offers the master's degree only as a preliminary step toward the Ph.D.

## Requirements

The Master of Arts program in political science requires a minimum of 30 s.h. of graduate credit, with a cumulative g.p.a. of at least 3.25. No thesis is required. Each student's record is reviewed by a final examination committee, which may waive the final oral examination.

A first-year evaluation committee convenes at the end of a student's first year of courses; if the committee finds that the student's work provides sufficient evidence of the research and writing skills ordinarily demonstrated in a master's thesis, it may recommend that the student be allowed to proceed with a doctoral program. When the first-year evaluation committee finds the quality of a student's work inadequate for recommending continuation toward the Ph.D., the committee may recommend that the student be permitted to seek the nonthesis M.A. as a terminal degree.

## Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

# Political Science, Ph.D.

The doctoral program in political science is nationally recognized as a leader in the discipline, with outstanding research faculty in each of the major subfields and a reputation for outstanding graduate training.

Graduate study in political science emphasizes the Doctor of Philosophy program. The department usually offers the master's degree only as a preliminary step toward the Ph.D.

## Requirements

The Doctor of Philosophy program in political science requires a minimum of 72 s.h. of graduate credit. Students must maintain a cumulative g.p.a. of at least 3.40.

The program is designed to prepare students for research, teaching, and scholarly endeavor in academic settings and private or governmental institutions. It produces graduates who are deeply committed to the study of politics, familiar with fundamental knowledge about political processes, well trained in methods and techniques for careful investigation of basic and applied research questions, and determined to make contributions to the discipline of political science and to society.

The department usually admits seven to ten Ph.D. students each year, so students work closely with faculty members, often collaborating on research and publication. Graduate students know one another and enjoy supportive, congenial working conditions.

Six fields of study are available: American politics, comparative politics, international relations, political theory, formal theory, and for those who wish to go beyond the basic methodology training, research methods. Each student chooses three fields of study for qualifying examinations.

Students choosing political theory as a field should be familiar with core texts in the history of political thought. For those who lack that knowledge, the requirement can be met by enrolling in a 3000-level course on political theory. They should consult with the political theory faculty to select a course that fits their interests and program of study in political theory.

Doctoral study usually lasts four to five years. The first-year curriculum for all students consists of core courses equally divided between substance and methodology. Emphasis is on basic research methods, including quantitative methods, that political scientists must understand thoroughly. Special attention is given to research design, collection of observations, and data analysis and interpretation.

The second and third years of study are spent in small seminars with focused, substantive topics. Papers written for these seminars might be submitted to journals or read at professional meetings. Students must complete their qualifying examinations by the end of the third year. They take their comprehensive examination (oral defense of the dissertation proposal) by the middle of the first semester of their fourth year.

The fourth and fifth years are spent on dissertation research and writing. Students who do basic research and gather data abroad often require an additional year to complete the dissertation.

The following courses are required during the first and second years of graduate study.

Code	Title	Hours
<b>First Year, Fall Semester</b>		
POLI:5000	Introduction to Political Analysis	4
POLI:5001	Introductory Methodology	4
A 5000-level field seminar (see "Field Seminars" below)		
<b>First Year, Second Semester</b>		
POLI:5003	Intermediate Methodology	4
Two 5000-level field seminars (see "Field Seminars" below)		
<b>Second Year</b>		
POLI:7003	Advanced Methodology	4

## Field Seminars

The 5000-level field seminars are as follows.

Code	Title	Hours
POLI:5100	American Politics	4
POLI:5400	Comparative Politics	4
POLI:5500	International Politics	4
POLI:5700	Introduction to Formal Models in Political Science	4

Students must complete the appropriate 5000-level course before enrolling in a 7000-level course. In unusual circumstances and with the permission of the instructor teaching the higher-level course, a student may enroll in that course and the 5000-level course at the same time.

Graduate students are expected to take at least 12 s.h. of coursework per semester through their second year of graduate study. Typically, this is in regularly scheduled courses rather than readings courses. During the third year, students are expected to take a minimum of 12 s.h. of regularly scheduled coursework; readings courses should be limited to the second semester of the third year. Students may take up to 12 s.h. in readings courses (not counting coursework accumulated in summer terms, when readings courses are often all that is available).

## Core Graduate Courses

Code	Title	Hours
POLI:5000	Introduction to Political Analysis	4
POLI:5001	Introductory Methodology	3-4
POLI:5100	American Politics	4
POLI:5300	Political Theory	4
POLI:5400	Comparative Politics	4
POLI:5500	International Politics	4
POLI:5700	Introduction to Formal Models in Political Science	4
POLI:6635	Crossing Borders Seminar	2-3

## Advanced Graduate Courses

Code	Title	Hours
POLI:5003	Intermediate Methodology	4
POLI:5111	American Public Policy	3
POLI:5117	Bureaucratic Politics and Public Administration	3
POLI:5200	American State Politics	3
POLI:7002	Topics Methodology	4

POLI:7003	Advanced Methodology	4
POLI:7100	Modeling American Politics	4
POLI:7150	Problems in American Politics	4
POLI:7202	Public Opinion and Electoral Behavior	4
POLI:7270	Responsible Research in Political Science	1
POLI:7409	Democratization and Authoritarianism	4
POLI:7423	Comparative Parties and Elections	4
POLI:7450	Problems of Comparative Politics	4
POLI:7500	Foreign Policy	4
POLI:7502	International Institutions and Cooperation	4
POLI:7503	International Conflict and Cooperation	4
POLI:7550	Problems in International Politics	4
POLI:7701	Dynamic Models of International Politics	2-4
POLI:7900	Readings Tutorial	arr.
POLI:7901	Research Tutorial	arr.
POLI:7910	Ph.D. Dissertation	arr.

## Quantitative Methods

All doctoral students must demonstrate at least minimal competence in quantitative methods. Students must earn at least a B grade in POLI:5001 Introductory Methodology, POLI:5003 Intermediate Methodology, and POLI:7003 Advanced Methodology. Students who do not meet this requirement must take a substitute course selected by faculty members who teach the quantitative methods courses.

## Postcomprehensive Registration

Graduate College regulations require that students be registered at the University of Iowa each semester after passing the comprehensive examination until their degree is awarded, and that this registration accurately reflects the amount and type of work undertaken, the use of University facilities, and the amount of consultation with the faculty. After passing their comprehensive examination, students working on their dissertation research should register in POLI:7910 Ph.D. Dissertation. No more than 30 s.h. are granted for dissertation preparation.

The Guide to Doctoral Study, available from the Department of Political Science and on its website, provides a comprehensive statement of departmental requirements.

## Admission

Because the number of positions available in the Ph.D. program is limited, the competition for admission is keen. However, applicants who did not major in political science or who are not acquainted with quantitative research methods are not at a disadvantage.

The deadline for application and consideration for assistantships and fellowships is January 7.

Admission requirements include a baccalaureate degree, an undergraduate g.p.a. of at least 3.30 on a four-point scale (or

its equivalent for international applicants), and three letters of recommendation from persons who can comment upon the applicant's academic ability and motivation. For applicants who have pursued graduate work elsewhere, a graduate g.p.a. of at least 3.50 is required.

Applicants whose first language is not English must submit official test scores to verify English proficiency. Applicants can verify English proficiency by submitting official test scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Students may only enter the program in the fall semester.

## Career Advancement

The Doctor of Philosophy program in political science is designed to prepare students for careers in research and teaching. All students receive a thorough grounding in research methods. It is this grounding that permits teachers to be critical consumers of the research they read and permits researchers to undertake significant theoretical and empirical work.

Because the faculty and the graduate student body is not large, there is ample opportunity to collaborate with individual faculty members in research endeavors. In addition, students spend some time as apprentice teachers in large undergraduate classes.

Ph.D. graduates secure employment in a wide variety of academic and nonacademic settings. In particular, they work in highly ranked research universities and teaching colleges throughout the United States and the world. Over the last decade, almost all graduates seeking academic positions found jobs.

Iowa graduates use their training to build distinguished research records that allow them to move to some of the nation's top institutions.

# Psychological and Brain Sciences

## Chair

- Mark S. Blumberg

**Undergraduate major:** psychology (B.A., B.S.)

**Undergraduate minor:** psychology

**Graduate degrees:** M.A. in psychology; Ph.D. in psychology

**Faculty:** <https://psychology.uiowa.edu/people/faculty>

**Website:** <https://psychology.uiowa.edu>

The Department of Psychological and Brain Sciences offers an undergraduate major and minor as well as graduate degree programs. It also offers courses that undergraduate students in all majors may use to satisfy the GE CLAS Core [p. 20] Social Sciences requirement, a course approved for the Diversity and Inclusion requirement, and a First-Year Seminar designed for entering undergraduate students.

The department also collaborates with the Department of Biology to offer an undergraduate degree in neuroscience. See the B.S. in neuroscience [p. 884] in the Catalog.

## Faculty

Faculty members of the Department of Psychological and Brain Sciences are nationally and internationally renowned leaders in a variety of subdisciplines. Their research is funded by numerous federal and private research grants, their findings are documented in many publications, and their research and teaching accomplishments have earned them many awards.

## Programs

### Undergraduate Programs of Study

#### Majors

- Major in Psychology (Bachelor of Arts) [p. 956]
- Major in Psychology (Bachelor of Science) [p. 960]

#### Minor

- Minor in Psychology [p. 965]

### Graduate Programs of Study

#### Majors

- Master of Arts in Psychology [p. 966]
- Doctor of Philosophy in Psychology [p. 968]

## Facilities

The department's facilities for graduate training and research are among the finest in the country. The Department of Psychological and Brain Sciences is housed in three buildings. The newly constructed Psychological and Brain Sciences Building contains modern laboratories devoted to research in cognitive science, developmental science, and cognitive neuroscience. The building also houses administrative and faculty offices, an undergraduate advising center, classrooms, breakout rooms, conference rooms, and commons spaces. The Kenneth W. Spence Laboratories of Psychology, which

connects with the Psychological and Brain Sciences Building on each floor, houses additional laboratories devoted to research in human psychology, animal housing and testing facilities associated with laboratories in behavioral neuroscience, offices, meeting rooms, a mechanical shop, and a computer support facility. The adjacent and recently renovated Stuit Hall houses laboratories for many of the clinical science faculty, as well as offices, meeting rooms, and the Seashore Psychology Clinic.

The research and teaching activities of the department benefit greatly from the facilities and staff of other University entities and local agencies, including University of Iowa Hospitals & Clinics, the Iowa Neuroscience Institute, the VA Iowa City Health Care, the University Counseling Service, the Center for Disabilities and Development, the Wendell Johnson Speech and Hearing Clinic, the Center for Health Policy and Research, and the School of Social Work.

## Courses

The following courses are open to first-year students who have satisfactorily completed an introductory psychology course (PSY:1001 Elementary Psychology or equivalent). Other courses numbered from 1000-2999 are considered lower-level undergraduate courses.

- PSY:2301 Introduction to Clinical Psychology
- PSY:2401 Introduction to Developmental Science
- PSY:2501 Introduction to Social Psychology
- PSY:2601 Introduction to Cognitive Psychology
- PSY:2701 Introduction to Behavioral Neuroscience

Before enrolling in any advanced undergraduate courses, students must complete all specified lower-level prerequisites or obtain consent of the instructor. Courses numbered 3000-4999 are considered advanced undergraduate courses. Those numbered 5000-7610 are considered graduate-level courses.

### Psychological and Brain Sciences Courses

#### **PSY:1000 First-Year Seminar** **1 s.h.**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

#### **PSY:1001 Elementary Psychology** **3 s.h.**

Psychology as a behavioral science. GE: Social Sciences.

#### **PSY:1010 Your Brain Unlocked: Learning About Learning** **1 s.h.**

Research about the human mind and brain that students can use to foster academic success at the UI; presentation of research findings that indicate best practices for studying, learning, and succeeding at the UI (not a remedial study skills course); topics range from retrieving information stored in memory to maintaining psychological health under stress; course format consists of lecture, student response to reading assignments, and discussion; readings are primarily original documents (journal articles).

**PSY:1501 Everyone's a Little Bit Biased: The Science Behind Prejudice 3 s.h.**

Tendencies to view and/or respond in favorable or unfavorable ways to individuals based solely on social group membership; social psychological concepts, underlying principles, and theories to understand how stereotypic beliefs, prejudicial attitudes, and discriminatory actions impact individuals and reinforce social inequality. GE: Diversity and Inclusion.

**PSY:2105 Winning Hearts and Minds: Understanding Social Influence 1 s.h.**

What social psychologists have discovered about changing people's attitudes and behavior; social influence strategies including applications to fundraising, public service campaigns, religious cults, sales, and political campaigns.

**PSY:2130 Advanced Psychology for Pre-Medical Track 3 s.h.**

Psychology as a behavioral science; elementary psychology in more depth, advanced topics. Prerequisites: PSY:1001. Requirements: non-psychology major.

**PSY:2301 Introduction to Clinical Psychology 3 s.h.**

Introduction to abnormal psychology; scientist-practitioner model, training, ethics, research methods in clinical psychology; current approaches to intellectual, personality, behavioral assessment; theories, research on treatment of psychological disorders. Prerequisites: PSY:1001. GE: Social Sciences.

**PSY:2401 Introduction to Developmental Science 3 s.h.**

Current research in developmental science; prenatal development, brain development, motor and physical development, perceptual development, language development, cognitive development, aspects of socio-emotional development; emphasis on modern theoretical approaches. Prerequisites: PSY:1001. GE: Social Sciences.

**PSY:2501 Introduction to Social Psychology 3 s.h.**

Research and theories on people's thoughts, feelings, and behaviors in social situations; attitudes, attributions, person perception, aggression, stereotypes and prejudice, attraction, relationships, social influence, group processes, altruism. Prerequisites: PSY:1001.

**PSY:2601 Introduction to Cognitive Psychology 3 s.h.**

Individual human cognition; perception, attention, memory, language, learning, problem solving, decision making, thought considered from viewpoint of information processing. Prerequisites: PSY:1001. GE: Social Sciences.

**PSY:2701 Introduction to Behavioral Neuroscience 4 s.h.**

Biological mechanisms of behavior; comparative study of behavior, behavioral organization, animal intelligence, social behavior, communication; behavioral neuroscience, how brain systems control sensation, movement, homeostasis, emotion, learning.

**PSY:2811 Research Methods and Data Analysis in Psychology I 3 s.h.**

Foundational knowledge in psychological research methods and corresponding statistical concepts; basic concepts of statistics, statistical inference, and research design as applied in psychological research; study of descriptive statistics, measurement, survey design, correlational analyses, and regression analysis; first in a sequence of two courses. Prerequisites: PSY:1001 or PSY:2701. GE: Quantitative or Formal Reasoning.

**PSY:2812 Research Methods and Data Analysis in Psychology II 3 s.h.**

Foundational knowledge in psychological research methods and corresponding statistical concepts; basic concepts of statistics, statistical inference, and research design as they are applied in psychological research; study of experimental control, experimental design, and hypothesis testing; second in a sequence of two courses. Prerequisites: PSY:2811 with a minimum grade of C-.

**PSY:2920 The Damaged Brain 3 s.h.**

Basic understanding of relationship between brain and behavior through examination of behavioral and cognitive consequences of brain damage from disease or trauma; foundations of neuropsychology, structure of the nervous system, functional specialization of the brain, cognitive functions, and assessments of brain disorders.

**PSY:2930 Abnormal Psychology: Health Professions 3 s.h.**

Introduction to psychological disorders; description of psychopathology; general issues in etiology and treatment; for non-psychology students in allied health professions. Prerequisites: PSY:1001. Requirements: non-psychology major.

**PSY:2975 Introduction to Cognitive Neuroscience 3 s.h.**

Analysis of brain systems and neuroanatomy that underlie cognitive tasks such as vision, hearing, emotion, attention, language, decision making, learning, and memory. Prerequisites: PSY:2701.

**PSY:3005 Scientific Communication in Psychology 3 s.h.**

Training in modes of communication in psychological science; scientific writing; APA format for scientific papers; describing psychological research; creating research presentations tailored to different audiences. Prerequisites: PSY:2811 with a minimum grade of C-.

**PSY:3010 Health Psychology 3 s.h.**

Psychological contributions to understanding etiology, prevention, treatment of physical illness; basic and clinical research that addresses reciprocal effects of behavior and physical health. Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2301 with a minimum grade of C- or PSY:2501 with a minimum grade of C- or PSY:2701 with a minimum grade of C-).

**PSY:3020 Mind and Behavior 3 s.h.**

Theories of what it is to act and know, of what intelligence might be in animals, humans, machines; perspectives from philosophy, psychology. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2701 with a minimum grade of C- or PSY:2601 with a minimum grade of C-). Requirements: junior or senior standing.

**PSY:3030 Social and Personality Development 3 s.h.**

Emotional, social, and personality development from infancy to adolescence; major theories and empirical research; child temperament, parent-child relationship, and social context as contributors to individual differences. Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2501 with a minimum grade of C- or PSY:2401 with a minimum grade of C-).

- PSY:3035 Science of Emotion** **3 s.h.**  
 Scientific study of emotion from psychological and neuroscientific perspectives; theories, measurements, and mechanisms (e.g., physiological, psychological, neural); perception, expression, and function of emotion. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2501 with a minimum grade of C- or PSY:2601 with a minimum grade of C- or PSY:2701 with a minimum grade of C-).
- PSY:3040 Psychology of Learning** **3 s.h.**  
 Psychological science of acquired behavior; interests in experimental study of Pavlovian conditioning, operant conditioning, cognition in humans and nonhuman animals, relevance to behavioral adaptation. Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2701 with a minimum grade of C- or PSY:2601 with a minimum grade of C-).
- PSY:3050 Applied Psychology: Addressing Real-World Problems** **3 s.h.**  
 Bridging the basic applied research divide in psychology; contributions of cognitive, clinical, social, and developmental psychology to understand real-world problems (e.g., traffic safety, screen time). Prerequisites: PSY:2301 with a minimum grade of C- or PSY:2401 with a minimum grade of C- or PSY:2501 with a minimum grade of C- or PSY:2601 with a minimum grade of C-.
- PSY:3055 Interdisciplinary Science of Sound and Hearing** **3 s.h.**  
 Introduction to physics of sound, biology/psychology of hearing, and audio technology; theories and experimental methods; music, speech, and environmental sounds. Same as CSD:3119, MUS:3055.
- PSY:3060 Sensation and Perception** **3 s.h.**  
 Principles of sensory processes in vision, audition, and other modalities; perception of objects and events.
- PSY:3066 Aging Mind and Brain** **3 s.h.**  
 Current theories and research on cognitive, affective, socioemotional, and decision-making changes that occur during aging; behavioral, cognitive, and cognitive neuroscience methodologies applied to study of aging in these domains; lifespan perspective with emphasis on decline and adaptation. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2701 with a minimum grade of C- or PSY:2601 with a minimum grade of C-).
- PSY:3080 Barking and Talking: What Is Communication?** **3 s.h.**  
 Similarities and differences in human language and animal communication; contexts of communication, function of communication, cognitive bases of communication, and mechanisms of communication. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2401 with a minimum grade of C- or PSY:2701 with a minimum grade of C-).
- PSY:3090 Psychology of Workplace Behaviors** **3 s.h.**  
 Introduction to theory and research of workplace and work-related behaviors; focus on industrial and organizational psychology. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2501 with a minimum grade of C- or PSY:2601 with a minimum grade of C-).
- PSY:3230 Psychopharmacology** **3 s.h.**  
 How drugs act to influence behavior; general principles of drug action on the nervous system; licit and illicit drugs, use/abuse, historical perspective on drug use. Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) or (HHP:1300 with a minimum grade of C- or HHP:3500 with a minimum grade of C- or HHP:3550 with a minimum grade of C-). Same as HHP:3230.
- PSY:3250 Neuroscience of Learning and Memory** **3 s.h.**  
 Major topics in the neuroscience of learning and memory; focus on anatomical, cellular, molecular bases of various learning and memory processes. Prerequisites: (PSY:2701 with a minimum grade of C- or BIOL:2753 with a minimum grade of C-) and (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-).
- PSY:3265 Cognitive and Clinical Neuroscience of Executive Functions** **3 s.h.**  
 Major topics in cognitive and clinical neuroscience of executive functions; focus on attention, working memory, cognitive control, and executive dysfunction in psychiatric and neurological disorders. Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2701 with a minimum grade of C-.
- PSY:3270 Neurobiology of Stress** **3 s.h.**  
 Introduction to concept of stress and physiological systems involved; factors modulating stress vulnerability versus resilience; stress interactions with other systems with health relevance; emphasis on current research on brain mechanisms. Prerequisites: PSY:2701 with a minimum grade of C- and PSY:2811 with a minimum grade of C-.
- PSY:3275 The Science of Sleep** **3 s.h.**  
 What is the brain doing during sleep? Why do we and other animals exhibit an altered state of consciousness that renders us unresponsive to the outside world? These questions and many others are subjects of the rapidly growing field of sleep research, including neurobiological basis of sleep drive and biological clock, cognitive and emotional functions of sleep, significance of dreams, relationship between sleep and psychopathology, and impact of sleep on society (i.e., serendipitous discoveries and major disasters attributable to sleep). Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2701 with a minimum grade of C-.
- PSY:3320 Abnormal Psychology** **3 s.h.**  
 Etiology, phenomenology, and treatment of child and adult DSM-IV psychological disorders (e.g., mood disorders, psychotic disorders, anxiety disorders, personality disorders). Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2301 with a minimum grade of C-.
- PSY:3330 Childhood Psychopathology** **3 s.h.**  
 Major forms of childhood psychopathology; current theoretical approaches and methodological issues in diagnosis, conceptualization, treatment of developmental psychopathology. Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2301 with a minimum grade of C-.
- PSY:3340 Behavior Modification** **3 s.h.**  
 Basic approaches to modification of clinically distressing behavior; learning theory principles underlying techniques, translation into procedures, experimental evaluation of effectiveness. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2301 with a minimum grade of C-.

- PSY:3350 Psychotherapies** 3 s.h.  
Current theories and research on frequently used psychotherapeutic approaches; focus on methodology in psychotherapy research, specific types of therapy, and empirically supported therapies. Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2301 with a minimum grade of C-.
- PSY:3420 Cognitive Development of Children** 3 s.h.  
Developmental research, theory concerning children's concepts, thinking, problem solving, memory, communication. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2401 with a minimum grade of C-.
- PSY:3460 Language and Communication Development** 3 s.h.  
Vocal and social development from prelinguistic communication through early language; precursors of language development; social cognitive aspects of language development; comparative perspectives of communication development. Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2401 with a minimum grade of C-.
- PSY:3530 Personality** 3 s.h.  
Classic theoretical models and contemporary empirical research in personality, including influence of heredity and environment, consistency and stability of behavior. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2301 with a minimum grade of C- or PSY:2501 with a minimum grade of C-).
- PSY:3540 Attitude Change** 3 s.h.  
Current theoretical approaches; laboratory and field methods of research; basic processes of change considered within broader framework of psychology. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2501 with a minimum grade of C-.
- PSY:3560 Psychology of Gender** 3 s.h.  
Origins of gender roles, gender socialization in childhood, gender differences across lifespan; research on gender differences in cognition, emotions, behavior, physical and mental disorders, communication. Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2501 with a minimum grade of C-.
- PSY:3570 Social Cognition** 3 s.h.  
Research and theory on cognitive structures and processes that underlie judgment, decision, belief, and behavior in social situations; attribution, heuristics, schemas, person perception, stereotypes, attitudes. Prerequisites: (PSY:2811 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2501 with a minimum grade of C-.
- PSY:3575 Social Cognition in Autism** 3 s.h.
