The University of Iowa 2025-26 General Catalog

The General Catalog provides information about academic programs at the University of Iowa, one of three universities governed by the Iowa Board of Regents. The catalog also provides links to supporting offices at the university, a list of administrative officers, an A–Z list of University of Iowa faculty members, a university calendar, and a link to the Code of Iowa for information regarding admission requirements and Iowa resident/nonresident standing.

The General Catalog is published for informational purposes and should not be construed as the basis of a contract between a student and the University of Iowa. Every effort is made to provide information that is accurate at the time of publication. However, information on courses, curricula, policies, regulations, and other matters is subject to change at any time during the period for which the catalog is in effect. The 2025–26 General Catalog overviews requirements for the fall 2025 through summer 2026 academic sessions.

For PDF versions of archived back editions, visit Archive on the catalog website.

The General Catalog is produced by the Office of the Registrar. For important dates and deadlines related to the catalog publication cycle, visit General Catalog Dates on the catalog website. Your comments and suggestions are welcome. Questions concerning the catalog may be directed to the Office of the Registrar at registrar-publications@uiowa.edu.

The University of Iowa is accredited by the Higher Learning Commission. The university is a member of the Association of American Universities and is associated with Indiana, Michigan State, Northwestern, Ohio State, Pennsylvania State, Purdue, and Rutgers University-New Brunswick and the Universities of California Los Angeles, Illinois, Maryland, Michigan, Minnesota, Nebraska-Lincoln, Oregon, Southern California, Washington, and Wisconsin-Madison in the Big Ten Conference. The Big Ten institutions are members of the Big Ten Academic Alliance.

The University of Iowa prohibits discrimination in employment, educational programs, and activities on the basis of race, creed, color, religion, national origin, age, sex, pregnancy (including childbirth and related conditions), disability, genetic information, status as a U.S. veteran, service in the U.S. military, sexual orientation, or associational preferences. The university also affirms its commitment to providing equal opportunities and equal access to university facilities. For additional information on nondiscrimination policies, contact the Senior Director, Office of Civil Rights Compliance, the University of Iowa, 202 Jessup Hall, Iowa City, IA 52242-1316, 319-335-0705, ui-ocrc@uiowa.edu.

Table of Contents

Academics at Iowa 11
Course Numbering 12
General Education Requirements 15
Grading 17
Supporting Offices 19

Art, Minor 126
Art History, Minor 127
Art, MA 128
Art History, MA 131
Art, MFA 134
Art History, PhD 137
Biology 141
Biology, BA 147
Biology, BS 152
Biology, Minor 163
Integrated Biology, MS 164
Integrated Biology, PhD 168
Biomedical Sciences 173
Biomedical Sciences, BS 174
Chemistry 178
Chemistry, BA 184
Chemistry, BS 189
Chemistry, Minor 193
Chemistry, MS 194
Chemistry, PhD 195
Radiochemistry, Graduate Certificate 197
Cinematic Arts 198
Cinema, BA 202
Screenwriting Arts, BA 206
Cinema, Minor 210
Film Studies, MA 211
Film and Video Production, MFA 213
Film Studies, PhD 215
Classics 217
Ancient Civilization, BA 224
Classical Languages, BA 229
Ancient Civilization, Minor 232
Classical Languages, Minor 233
Greek, Minor 234
Health and the Human Condition, Minor 236
Latin, Minor 237
Classics, Postbaccalaureate Certificate 238
Classics, MA 239
Greek, MA 240
Latin, MA 241
Classics, PhD 242
Communication Sciences and Disorders 245
Speech and Hearing Science, BA 252
Communication Sciences and Disorders, Minor 256
Audiology, MS 257
Speech Language Pathology, MS 258
Doctor of Audiology, AuD 261
Speech and Hearing Science, PhD 263
Multilingualism and Culturally Responsive Practice, Graduate Certificate 265
Communication Studies 266
Communication Studies, BA 276
Communication Studies, Minor 280
Communication Studies, MA 281
Communication Studies, PhD 283
Computer Science 286
Computer Science, BA 292
Informatics, BA 296

Computer Science, BS 303
Informatics, BS 309
Computer Science, Minor 314
Informatics, Minor 315
Master of Computer Science, MCS 316
Computer Science, MS 318
Computer Science, PhD 319
Creative Writing (Iowa Writers' Workshop) 322
English, MFA 323
Critical Cultural Competence 324
Critical Cultural Competence, Certificate 325
Dance 326
Dance, BA 334
Dance, BFA 339
Dance, Minor 344
Dance, MFA 346
Data Science 349
Data Science, BS 350
Data Science, MS 354
Digital Arts 356
Digital Arts, Certificate 358
Disability Studies 360
Disability Studies, Certificate 361
Division of Interdisciplinary Programs 363
Earth, Environment, and Sustainability 364
Earth and Environmental Sciences, BA 374
Environmental Policy and Planning, BA 377
Geographical and Sustainability Sciences, BA 382
Earth and Environmental Sciences, BS 385
Geographical and Sustainability Sciences, BS 392
Earth and Environmental Sciences, Minor 398
Environmental Policy and Planning, Minor 400
Geographic Information Science, Certificate 402
Sustainability, Certificate 404
Geography, MA 407
Geoscience, MS 409
Geography, PhD 411
Geoscience, PhD 413
English 415
English, BA 427
English and Creative Writing, BA 434
English, Minor 441
English, MA 442
English (nonfiction writing), MFA 447
English, PhD 449
Enterprise Leadership 453
Enterprise Leadership, BA 454
Ethics and Public Policy 459
Ethics and Public Policy, BA 460
Event Management 465
Event Management, Certificate 466
Gender, Women's, and Sexuality Studies 468
Gender, Women's, and Sexuality Studies, BA 477
Gender, Health, and Healthcare Equity, Minor 481
Gender, Women's, and Sexuality Studies, Minor ... 482
Social Justice, Minor 483
Gender, Women's, and Sexuality Studies, Graduate Certificate 486
Global Health Studies 487
Global Health Studies, BA 493
Global Health Studies, BS 497
Global Health Studies, Minor 502
Global Health Studies, Graduate Certificate 503
Health, Sport, and Human Physiology 505
Health Studies, BA 519
Exercise Science, BS 522
Health Promotion, BS 525
Human Physiology, BS 528
Sport and Recreation Management, BS 532
Therapeutic Recreation, BS 540
Human Physiology, Minor 546
Inclusive Recreation, Minor 547
Lifestyle Medicine, Minor 548
Sport and Recreation Management, Minor 549
Interscholastic Athletic/Activities Administration, Certificate 551
Sport and Recreation Management, MA 552
Health and Human Physiology, MS 554
Health and Human Physiology, PhD 559
History 562
History, BA 574
History, Minor 578
Jewish Studies, Certificate 579
History, MA 581
History, PhD 583
Interdepartmental Studies 586

Academics at Iowa

Degree and Nondegree Programs

The University of Iowa offers academic degree and nondegree programs at the undergraduate and graduate levels. It also offers professional degrees, postdoctoral study, and other opportunities for nondegree study and research. The General Catalog describes the university's degree and nondegree programs at the undergraduate and graduate levels.

The following pages provide global information about undergraduate, graduate, and professional study across the university. They include all undergraduate and graduate majors, minors, and certificate programs with links to the relevant catalog sections; descriptions of the university's Course Numbering [p. 12] and Grading [p. 17] systems; and contact information for Supporting Offices [p. 19].

Searching for Programs

The catalog offers a few different ways to search for programs. The A–Z Directory lists information in alphabetical order. Catalog Contents allows a user to search by department or unit for the majors, minors, or certificates offered, and for information about each university program. Find Your Program provides users the ability to search by undergraduate, graduate, and professional program options, as well as additional learning opportunities in college or precollege programs by selecting choices with the Filter Options drop-down list. UI Courses lists all the university courses by academic unit. Finally, users can type keywords into the search bar at the top of the screen to find where they appear throughout the catalog.

Explore what the University of Iowa has to offer!

Course Numbering

Courses at the University of Iowa

Course numbers at the University of Iowa consist of an alphabetical prefix (up to four letters) showing the college, department, or program, followed by a colon and a four-digit numerical suffix for the individual course. For example, SOC:2810 identifies the course numbered 2810 in the Department of Sociology and Criminology (SOC), titled Social Inequality.

Course suffix numbers:

- 0000–0999 designate prelower-level courses;
- 1000–2999 designate lower-level undergraduate courses;
- 3000–4999 designate courses for upper-level undergraduate and graduate students (except in the College of Engineering, where numbers 3000–5999 designate courses for undergraduate and graduate students);
- 5000–7999 designate graduate-level courses; and
- 8000–9999 designate professional-level courses.

General Education Requirements

Undergraduate general education requirements vary based on the college. This table is intended to be used for comparative purposes between colleges. Some colleges and some programs of study do not have undergraduate general education requirements; others have general education requirements specific to an individual program of study, like those in Carver College of Medicine. Check each program of study's page in the catalog for program-specific requirements. World language [p. 15] graduation requirements by college can be found following this table.

General Education Requirement	College of Liberal Arts and Sciences	College of Public Health	Tippie College of Business	College of Education	College of Nursing	University College	College of Engineering
Approved Course Subjects							X
Business/ Management						BAS only	
Critical Thinking						BLS only	
Understanding Cultural Perspectives	X	X	X	X	X		X
Engineering Be Creative							X
Historical Perspectives	X	X	X	X			
International and Global Issues	X	X	X	X	X	X	X
Interpretation of Literature	X	X	X	X		BLS only	
Information Literacy						BLS only	
Leadership and Career Development						BLS only	
Literary, Visual, and Performing Arts	X	X		X	X		
Natural Sciences with lab	X	X		X	See "Natural Science Prerequisites" on BSN page	X	
Natural Sciences without lab			X		See "Natural Science Prerequisites" on BSN page	BLS only	
Quantitative or Formal Reasoning	X	X		X		X	
Rhetoric	X	X	X	X	X	X	X
Social Sciences	X	X	X	X		BAS only	
Sustainability	X	X		X			
Values and Society	X	X	X	X	X	X	

World Languages

College of Liberal Arts and Sciences

Students in the College of Liberal Arts and Sciences have three options to meet the World Language requirement.

- Complete the fourth level of a single world language.
- Complete the third level of a single world language + a 3 s.h. approved World Language and Cultural Exploration course.
- Complete the second level of two different world languages.

College of Public Health

Students in the College of Public Health have three options to meet the World Language requirement.

- Complete the fourth level of a single world language.
- Complete the second level of two different world languages.
- Complete the second level of a single world language + a 3 s.h. course from one of the following categories: Values and Society, Understanding Cultural Perspectives, International and Global Issues, or World Language and Cultural Exploration.

Tippie College of Business

Students in the Tippie College of Business have three options to meet the World Language requirement.

- Complete the fourth level of a single world language.
- Complete the second level of two different world languages.
- Complete the third level of a single world language + a 3 s.h. approved World Language and Cultural Exploration course.

College of Education

Students in the College of Education have three options to meet the World Language requirement.

- Complete the fourth level of a single world language.
- Complete the third level of a single world language + a 3 s.h. approved World Language and Cultural Exploration course.
- Complete the second level of two different world languages.

College of Nursing

Students in the College of Nursing prelicensure BSN program of study have three options to meet the World Language requirement.

- Complete the fourth level of a single world language.
- Complete the second level of two different world languages.
- Complete the second level of a single world language + a 3 s.h. course from one of the following categories: Values and Society, Understanding Cultural Perspectives, International and Global Issues, or World Language and Cultural Exploration.

College of Engineering

Students in the College of Engineering must complete the second level of a world language to be considered for admission to the college.

University College

Students in University College do not have a World Language general education requirement.

Grading

- Grading System [p. 17]
  - Grades and Points for Semester Hours [p. 17]
  - Not Used in Computing Grade-Point Average [p. 17]
  - Other Marks on the Permanent Record [p. 17]
  - Pass/Non-Pass Marks by College [p. 17]
- Distinction [p. 17]

Grading System

The University of Iowa uses a letter grading system for individual courses, except for the College of Law, which uses a numeric system for course grading. In order to compute grade-point average (GPA), letter grades are converted according to the following numerical scale. GPAs are displayed at the bottom of students' grade reports. All of the following marks appear on the permanent record.

Grades and Points for Semester Hours

A+	4.33
A	4.00
A-	3.67
B+	3.33
B	3.00
B-	2.67
C+	2.33
C	2.00
C-	1.67
D+	1.33
D	1.00
D-	0.67
F	0

Not Used in Computing Grade-Point Average

AUS	Audit Successful
AUU	Audit Unsuccessful
H	Honors
H-	Near Honors
IP	In Progress
N	Nonpass
P	Pass
S	Satisfactory
U	Unsatisfactory

Other Marks on the Permanent Record

H	Undergraduate honors section
HC	Individual undergraduate honors earned
I	Incomplete
IP	In progress
O	No grade reported
R	Registered, no grade required
W	Withdrawn
X	Excused
=	Changed grade
#	Grade not included in grade-point average
*	Undergraduate honors section

Pass/Non-Pass Marks by College

Pass Marks

A, B, C, D, PS	College of Pharmacy, Tippie College of Business
A, B, C, D, R, S	College of Dentistry
A, B, C, D, R, PS	College of Education, College of Engineering, College of Liberal Arts and Sciences, College of Nursing, University College
A, B, C, D (not accepted toward graduate degree), R, S	Graduate College, College of Public Health, Tippie Graduate and Professional Programs
3.60, 2.70, 2.10, 1.80, R, P	College of Law, numerals describe the lower limit for the equivalent letter grade
H, H-, P, R, P	Carver College of Medicine, circa 1997

Non-Pass Marks

F	College of Dentistry, Carver College of Medicine
F, N	Tippie College of Business, College of Education, College of Engineering, College of Liberal Arts and Sciences, College of Nursing, College of Pharmacy, University College
F, U	Graduate College, College of Public Health, Tippie Graduate and Professional Programs
1.50	College of Law, number describes the lower limit for equivalent letter grade

Distinction

Undergraduate

The criteria for undergraduate students to graduate with distinction is consistent among undergraduate colleges. The criteria is based solely on a static GPA.

The Office of the Registrar certifies to the deans of the colleges the names of students eligible to graduate with distinction. To be eligible for consideration, degree candidates must complete 60 semester hours in residence as an undergraduate at the University of Iowa and at least 45 graded semester hours must have been completed prior to the final semester or session of registration. The GPAs upon which distinction is determined are the University of Iowa cumulative GPA (coursework taken at UI) and overall cumulative GPA (coursework taken at UI and any transfer work) prior to the beginning of the final semester or session.

The three levels of distinction are as follows.

- With highest distinction: 3.95 GPA or above.
- With high distinction: 3.85–3.94 GPA.
- With distinction: 3.75–3.84 GPA.

College of Pharmacy

The College of Pharmacy employs three levels of distinction as follows.

- With highest distinction: 4.00 GPA or above.
- With high distinction: 3.75–3.99 GPA.
- With distinction: 3.50–3.74 GPA.

Tippie Professional Programs

Iowa MBA and CIMBA graduates must meet the following criteria prior to the final registration to graduate with distinction. Distinction appears on the transcript and diploma.

- Iowa MBA and CIMBA: 3.80 GPA or above in their MBA program coursework completed at the University of Iowa.

Supporting Offices

Prospective undergraduate, graduate, and professional students should apply to the University of Iowa through Admissions. Several other University of Iowa offices provide major services to entering and continuing students.

Undergraduate majors: BA; BS; BFA; BM

Graduate degrees: programs leading to AuD; DMA; MA; MCS; MFA; MS; MSW; PhD (degrees conferred by the Graduate College)

Website: https://clas.uiowa.edu

The College of Liberal Arts and Sciences (CLAS), established in 1900, is the largest of the 12 colleges that comprise the University of Iowa, with 37 academic units spanning the visual, performing, literary, and cinematic arts; humanities; natural and mathematical sciences; social and behavioral sciences; and communication disciplines.

Throughout CLAS departments and programs, faculty are at the forefront of their disciplines. They bring their world-class research and artistry into their classrooms, studios, and labs, giving students the unparalleled opportunity to learn right from the source of the latest innovations in knowledge and practice.

Graduate students and many undergraduates work side-by-side with faculty members, conducting breakthrough research that advances understanding of ourselves and the complex, ever-changing world in which we live.

Faculty members help students discover their individual talents and passions, mentoring students about research opportunities, internships, and career choices. Professional academic advisors encourage students to create unique academic portfolios that help them stand out among their peers, with students developing creative strategies to combine majors, minors, and certificates—a common practice in CLAS, where all work together to support students' diverse interests and goals.

CLAS students can choose from almost 70 undergraduate majors, 70 minors, and 27 undergraduate interdisciplinary certificate programs, with choices that particularly focus on applied skills helpful in a chosen profession, and that encourage students to pursue intellectual and artistic interests along with pragmatic preparation for a first career. Students in CLAS have many opportunities to engage beyond the classroom: for example, faculty-mentored research, study abroad, honors, community engagement, and internships.

CLAS Undergraduate Programs

Located in Schaeffer Hall, at the center of campus on the Pentacrest, CLAS Undergraduate Programs (CLAS UP) is an integral part of the College of Liberal Arts and Sciences. Under the direction of the Associate Dean for Undergraduate Education, CLAS UP oversees academic advising in the college; the development of the undergraduate curriculum, including the General Education CLAS Core; and the collegiate academic standards.

Academic staff in CLAS UP meet with students about requirements, collegiate policies that affect students, and a range of other issues, including successful completion of a degree. CLAS UP staff strive to promote the success of every student, maintain the academic integrity of CLAS, and impart the value of a liberal arts education.

GE CLAS Core

Students entering the College of Liberal Arts and Sciences who wish to earn a Bachelor of Arts (BA), Bachelor of Science (BS), Bachelor of Fine Arts (BFA), or Bachelor of Music (BM) degree must complete the requirements of the General Education CLAS Core in addition to the requirements of a major and other UI and CLAS graduation requirements.

The GE CLAS Core encourages students to explore beyond familiar topics, helping students to discover intriguing majors, minors, and certificates while challenging students to embrace personal transformation by expanding their core knowledge and perspectives. For this reason, the GE CLAS Core is framed by the overall concept that general education (GE) courses also teach students how to learn, thereby fostering success in the major and lifelong learning.

For GE CLAS Core requirements, related academic policies, and lists of approved courses, see the GE CLAS Core [p. 22] and related GE courses in the catalog.

Programs

CLAS Units and Academic Programs

Undergraduate Majors, Minors, and Certificates

The College of Liberal Arts and Sciences (CLAS) has 37 departments and offers about 70 undergraduate majors, 70 minors, and 18 undergraduate certificates.

In addition, CLAS collaborates with other University of Iowa colleges to award degrees in the following majors: enterprise leadership (BA) with Tippie College of Business; biochemistry (BA and BS) and microbiology (BS) with Carver College of Medicine; and science studies (BS) with the College of Education. For descriptions of these majors and their requirements, view those programs in the catalog. CLAS also offers three majors both on campus and online: enterprise leadership, political science, and sport and recreation management.

CLAS also works closely with the College of Education, which offers a Teacher Education Program (BA) designed to lead to licensure at the secondary level. These students must also complete a related CLAS major to earn the education

degree, such as a major in art, English, mathematics, the sciences, the social sciences, or various world languages. Students must apply for admission to the Teacher Education Program; contact the College of Education's Office of Student Services for more information.

Students who begin their studies in CLAS may apply to degree programs in other colleges at the University of Iowa. If they are accepted, they may earn undergraduate degrees in business (BA, BBA, BS), education (BA), engineering (BSE), nursing (BSN), or public health (BA or BS); a BS with a major in medical laboratory science, nuclear medicine technology, or radiation sciences; or a professional degree in pharmacy (PharmD). Use the General Catalog's Catalog Contents page to find these programs.

Students who are interested in earning a professional or graduate degree in addition to a bachelor's degree may apply for early admission or to combined degree programs offered through partnerships between CLAS and other UI colleges. Students admitted to these programs may count a limited amount of credit toward both degrees. CLAS has early admission programs with the College of Dentistry [p. 1291] (DDS) and the College of Law [p. 1815] (JD), for example. Combined bachelor's/graduate degree programs are available in several disciplines; see Combined Programs [p. 1683] in the Graduate College section of the catalog.

CLAS offers a wide selection of undergraduate certificates and minors. CLAS students may also earn undergraduate certificates and minors offered by other colleges. For lists of all undergraduate certificates and minors offered by the university, see Find Your Program in the catalog.

Graduate Degrees and Certificates

The College of Liberal Arts and Sciences offers graduate programs in most of its disciplines, with degrees conferred by the Graduate College. Students may earn degrees at the master's and doctoral levels; graduate certificates are available in some areas of study. See the Graduate [p. 1682] College section of the catalog for a complete list of graduate degrees offered by the university.

For information about CLAS graduate programs, consult the specific academic programs.

Courses

Most College of Liberal Arts and Sciences courses are offered by the college's departments, programs, and schools. They are listed and described in the corresponding General Catalog sections.

The college also offers the following nondepartmental courses.

Liberal Arts and Sciences Nondepartmental Courses

CLAS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CLAS:1005 ESL Special Topics 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings). Same as ESL:1005.

CLAS:1800 The Art of Active Learning 1 s.h.
Case studies, individual assessments, video, class discussions, and short readings to encourage understanding of academic standards and active engagement in the learning process; examination of behaviors, study skills, habits, and attitudes that can affect success in the classroom and in life.

CLAS:3500 Fundamentals of Project Management Leadership 3 s.h.
Overview of the fundamental principles of project management and interdisciplinary team leadership. Students develop essential skills to plan, execute, and oversee projects of varying types and complexity. Key concepts include project planning, risk management, team leadership, conflict resolution, communication, and decision-making within organizational contexts. Students are introduced to technological tools used by organizational leaders to effectively plan, lead, and execute projects across organizations. Same as INTD:3500.

CLAS:3600 Advanced Topics in Project Management Leadership 3 s.h.
Builds on foundational project management concepts to deepen students' understanding of strategic project management and leadership in complex, ever-changing economic, business, and social environments. Examine advanced topics such as strategic growth planning, organizational change, technology innovation, stakeholder engagement, and implementation. Enhances students' ability to lead high-performing teams and manage multifaceted projects with confidence and impact. Prerequisites: CLAS:3100. Same as INTD:3600.

CLAS:4100 Peer Assistant 1-2 s.h.
Opportunities to participate in classroom and course activities; work with students as an assistant to course instructor.

CLAS:5100 Practicum: College Teaching and Professional Development for Teaching Assistants arr.
Guidance for teaching assistants seeking introduction to teaching at college level; focus on practical pedagogical concerns, including how to structure a course, devise learning outcomes, develop a syllabus and a calendar of assignments, evaluate student work, and create a student-centered classroom with collaborate learning experiences; pre-semester intensive training session, weekly meetings during first month of semester, periodic meetings to address midterm and late-semester issues; concurrent with TA teaching assistantships. Recommendations: interest in teacher training and preparation. Same as RHET:5100.

CLAS:6290 Interdisciplinary Humanities Seminar 3 s.h.
Examination of interdisciplinary topics related to the humanities; topics vary.

CLAS:7290 Digital Humanities Theory and Practice 3 s.h.
Overview of theories and use of technology to preserve, deploy, visualize, map, and analyze concepts; discussions with practicing digital public scholars; assignments consist of a digital portfolio tailored to student research; introductory course in public digital humanities certificate.

GE CLAS Core

Website: https://clas.uiowa.edu/academics/general-education/requirements

The College of Liberal Arts and Sciences GE CLAS Core requirements provide students with a broad foundation of knowledge and a focused practice of transferable skills necessary for a lifetime of learning.

GE CLAS Core courses are particularly valuable for students making the transition into the University of Iowa. They help students understand the academic expectations of the College of Liberal Arts and Sciences while providing the knowledge and skills needed for more advanced work in the major.

All students in the College of Liberal Arts and Sciences who wish to earn an undergraduate degree—Bachelor of Arts (BA), Bachelor of Science (BS), Bachelor of Fine Arts (BFA), or Bachelor of Music (BM)—must complete the requirements of the GE CLAS Core.

GE CLAS Core Areas and Requirements

The GE CLAS Core has 11 required areas, grouped into three categories. Students must fulfill the requirements in each GE CLAS Core area. The requirements that follow are for students who entered the University of Iowa during summer 2025 or after. Students who entered during a previous semester are held to different requirements as indicated on a student's degree audit.

Communication and Literacy

- Understanding Cultural Perspectives [p. 22]: a minimum of 3 s.h.
- Interpretation of Literature [p. 23]: a minimum of 3 s.h.
- Rhetoric [p. 24]: a minimum of 4 s.h.
- World Languages Pathways [p. 24]: required credit varies (see "World Languages Pathways" in this section of the catalog)

Sustainability

Students complete this requirement by choosing an approved GE CLAS Core course that integrates Sustainability [p. 28] (with no additional semester hours) with a course from the Natural, Quantitative, and Social Sciences category or the Culture, Society, and the Arts category.

Natural, Quantitative, and Social Sciences

- Natural Sciences [p. 28]: a minimum of 7 s.h.; must include one lab
- Quantitative or Formal Reasoning [p. 29]: a minimum of 3 s.h.
- Social Sciences [p. 30]: a minimum of 3 s.h.

Culture, Society, and the Arts

- Historical Perspectives [p. 30]: a minimum of 3 s.h.
- International and Global Issues [p. 31]: a minimum of 3 s.h.
- Literary, Visual, and Performing Arts [p. 32]: a minimum of 3 s.h.
- Values and Society [p. 33]: a minimum of 3 s.h.

Students may count transfer credit and/or credit by exam toward some GE CLAS Core requirements. See CLAS Core Policies for details regarding the use of transfer credit, credit by exam, and other policies for how GE CLAS Core requirements may be fulfilled.

Communication and Literacy

Understanding Cultural Perspectives

Courses in the Understanding Cultural Perspectives area help students better understand social and cultural differences. Students will reflect on their own social and cultural perspectives while increasing their ability to engage with people who have backgrounds different than their own.

All students must complete at least 3 s.h. of coursework in the Understanding Cultural Perspectives area. The following courses are approved for the area.

Course #	Title	Hours
AFAM:1020/ AMST:1030	Introduction to African American Culture	3
AFAM:1030	Introduction to African American Society	3
AFAM:1130	The History of African American Film	3
AFAM:1241/ MUS:1741	The Soundtrack of Black America	3
AFAM:1900	Diverse Topics in African American Studies	3
AFAM:2064/ SOC:2064	African American Families: Urban and Suburban	3
AFAM:2070/ COMM:2069	Black Television Culture	3
AFAM:2500	Black Culture and Experience: Contemporary Issues	3
AMST:1290/ GHS:1290/ HIST:1290/ NAIS:1290	Native American Foods and Foodways	3
AMST:2025	Diversity in American Culture	3
ANTH:2151/ GWSS:2151/IS:2151	Global Migration in the Contemporary World	3
ANTH:2165/ AMST:2165/ NAIS:2165	Native Peoples of North America	3
ARTS:2100	Printmaking and Politics of Protest	3
CCCC:2220	Foundations of Critical Cultural Competence	3
CINE:1195	Video Games and Identity	3
CINE:1625	Race, Gender, and Sexuality on Screen	3
CLSA:1415	Ancient Origins of Religious Conflict	3
CLSA:1910	Ancient and Modern Worlds: Common Problems	3
CLSA:2620/ RELS:2620	Sex and the Bible	3
CLSA:2800	Race and Ethnicity in the Ancient Mediterranean World	3

COMM:1168	Music and Social Change	3
COMM:1898/ LATS:1898	Introduction to Latina/o/x Communication and Culture	3
DANC:2065	Performing Power/ Performing Protest: The Body, Identity, and the Image	3
DANC:2085	Introduction to African Caribbean Dance Practices	3
DST:1101	Introduction to Disability Studies	3
EDTL:2670	Peacebuilding, Singing, and Writing in a Prison Choir	3
EDTL:4900	Foundations of Special Education	3
EPLS:1240	Student Success in College	3
FREN:2010/ ASIA:2001/ RUSS:2001/ TRNS:2001/ WLLC:2001	Global Science Fiction	3
GHS:1200/ DST:1200/ GRMN:1200/ WLLC:1200	Disabilities and Inclusion in Writing and Film Around the World	3
GRMN:2600	Witch Hunts in Fact and Fiction: A Global History of Exclusion	3-4
GRMN:2620/ WLLC:2620	Anne Frank and Her Story	3-4
GRMN:2675/ MUSM:2675	The Politics of Memory: Holocaust, Genocide, and 9/11	3-4
GWSS:1001	Introduction to Gender, Women's, and Sexuality Studies	3
GWSS:1002	Diversity and Power in the U.S.	3
HHP:1045	Diversity and Inclusion in Healthy Living	3
HHP:2280	Cultural Competency and Health	3
HIST:1040	Diversity in History	3

THTR:2405	Staging Americans: U.S. Cultures Through Theatre and Performance	3
THTR:2605/ EDTL:2963	Monsters, Victims, and Villains: Changing Perceptions	3
TRNS:2000	Translation and Global Society	3
WLLC:2222/ ASIA:2222/ GWSS:2222	Women in Premodern East Asian Literature	3
WRIT:2100	Writing and Community Outreach	3

Interpretation of Literature

Courses in the Interpretation of Literature area focus on the major genres of literature (short and long fiction, nonfiction, poetry, and drama), improving students' abilities to read and analyze a variety of texts. Small group discussions in

these courses challenge students to think critically, to share insights, and to listen thoughtfully to the arguments of others.

All students must complete at least 3 s.h. of coursework in the Interpretation of Literature area. The following courses are approved for the area.

Course #	Title	Hours
CLSA:1200	Interpretation of Ancient Literature	3
ENGL:1200	The Interpretation of Literature	3
ENGL:2010	Foundation of the English Major: Histories, Literatures, Pleasures	3
FREN:1005	Texts and Contexts: French-Speaking World	3
FREN:1007	Nature/Ecology French Philosophy and Fiction	3
WLLC:1510/ ASIA:1510	Ghost Stories and Tales of the Weird in Premodern Chinese Literature	3

Rhetoric

Rhetoric courses develop speaking, writing, listening, and critical reading skills and build competence in research, analysis, and argumentation.

All entering first-year students are required to complete RHET:1030 Rhetoric: Writing and Communication. Because rhetorical skills lay the foundation for further study at the University, most students register for RHET:1030 during their first year at Iowa.

Students who must enroll in English as a Second Language (ESL) courses as determined by their English proficiency evaluation must complete all ESL courses before they may register for RHET:1030 Rhetoric: Writing and Communication.

Students who have transfer credit in composition, speech, and argumentation but have not been granted an AA degree from an institution that has an articulation agreement with the University of Iowa often must take RHET:1040 College Writing and Reading or RHET:1060 College Communication and Reading in addition to their transfer courses in composition and/or speech to complete the equivalent of RHET:1030 Rhetoric: Writing and Communication.

Each entering student's degree audit shows the course(s) that must be completed in order to fulfill the Rhetoric requirement.

The following courses are approved for the Rhetoric area.

Course #	Title	Hours
RHET:1030	Rhetoric: Writing and Communication	4-5
RHET:1040	College Writing and Reading	3
RHET:1060	College Communication and Reading	3

Transfer of Credit for Rhetoric

Transfer students who have been granted an Associate of Arts (AA) degree from an Iowa or Illinois community college or Waldorf College in Iowa have satisfied the Rhetoric requirement.

Transfer credit for students without an AA degree from an institution that has an articulation agreement with the University of Iowa is evaluated as follows:

- transfer students who have completed composition I, composition II, and speech at another institution have satisfied the GE CLAS Core Rhetoric requirement of RHET:1030 Rhetoric: Writing and Communication;
- transfer students who have completed only composition I must complete RHET:1030 Rhetoric: Writing and Communication at the University of Iowa;
- transfer students who have completed composition I and speech must complete RHET:1040 College Writing and Reading at the University of Iowa;
- transfer students who have completed only speech must complete RHET:1040 College Writing and Reading at the University of Iowa;
- transfer students who have completed composition I and II or only composition II must complete RHET:1060 College Communication and Reading at the University of Iowa;
- for transfer students who have completed any other course at another institution that may be equivalent to RHET:1030 Rhetoric: Writing and Communication, University of Iowa Admissions examines the content of the course and decides on equivalency based on the content of that course, conferring with the Department of Rhetoric on the correct equivalency, if necessary.

World Languages Pathways

GE CLAS Core courses in World Languages provide the practice of important communication skills in a second language as well as the knowledge of the cultures in which the language is spoken. This in-depth study allows students to better understand how languages function, encouraging students to learn more about their own first language, including how it creates both inclusion and diversity. To fulfill the GE CLAS Core requirement in World Languages, students may choose one of the following pathways.

Fourth Level

The fourth-level pathway requires students to:

- complete four years of a single world language in high school; or
- achieve the fourth level of proficiency in a world language by completing the appropriate sequence of courses offered at the University of Iowa; or
- achieve the fourth level of proficiency by completing appropriate courses at another college or university or through approved study abroad courses; or
- achieve an equivalent score on a related Advanced Placement, International Baccalaureate, or other approved college-level examination accepted by the University of Iowa and the College of Liberal Arts and Sciences (see Credit By Exam Options on the Admissions website); or
- earn an equivalent score on both a UI written placement test and on a UI oral proficiency exam in a language taught at the University of Iowa (see World Languages Placement Test (WLPT) on the New Student Services website); or
- earn an equivalent score on a proficiency exam in a language that is not taught at the University of Iowa (see Proficiency Examinations for Languages Not Taught at UI on the College of Liberal Arts and Sciences website).

A fourth level of proficiency is equivalent to the successful completion of an intermediate II language course (or of a second-year second-semester course, for example) as taught at the University of Iowa. Depending on a student's placement test results and the language taken, a student may need to take four semesters of a language to satisfy the requirement

using this pathway, starting with a beginning course and ending with a second-semester intermediate course. Other students may be able to start elsewhere in the language sequence and reach fourth-level proficiency by taking one, two, or three courses. See "World Languages Placement Tests" under Placement Tests on the College of Liberal Arts and Sciences website.

Third Level Plus a World Language and Cultural Exploration Course

The third-level plus a World Language and Cultural Exploration Course pathway requires students to:

- complete third-level coursework in a single world language in high school or college; and
- complete a World Language and Cultural Exploration course.

In courses approved for the World Language and Cultural Exploration GE area, students explore topics and issues through the lens of a world language (other than English) and/or culture, or multiple world languages and/or cultures. These courses help students expand their knowledge of language systems and structure, as well as the role of language in social interactions, cultural environments, and identity formation. The World Language and Cultural Exploration course may be taken at any time: before, concurrently, or after taking the three levels of world language coursework. The World Language and Cultural Exploration course may be taken in an area related to the world language coursework or in a different area. Suitable work may include a study abroad or experiential learning course. A minimum of 3 s.h. is required in this area for students who choose this pathway.

Second Level of Two Languages

The second level of two languages pathway requires students to complete second-level coursework in each of two different world languages in high school or college.

Course Information

World language courses for the third level plus a World Language and Cultural Exploration course pathway or the second level of two languages pathway may include any combination of high school and college-level coursework, including transfer courses.

Transfer students who have not sent an official high school transcript to UI Admissions must do so if they want to use high school courses to satisfy any portion of the GE CLAS Core World Languages requirement.

Semester hours earned for these courses vary by language and pathway. Students should be sure to take the placement test for the language of interest and should be aware of the course sequence required to fulfill the GE requirement in World Languages for that particular language.

Once the World Languages requirement is completed, a student may earn up to an additional 8 s.h. of college credit while studying a world language. See Furthering Language Incentive Program (FLIP) on the College of Liberal Arts and Sciences website.

Students may use the following language course sequences to fulfill the World Languages requirement using the fourth-level pathway. Completing part of one of the following sequences, finishing with the third or second level, would fulfill part of the third level plus a World Language and Cultural Exploration course pathway or the second level of two languages pathway. To avoid duplication or regression, and with questions about what qualifies as second or third level for a given language, consult the appropriate language department before registering for courses.

American Sign Language

Courses in American Sign Language (ASL) are offered by the Department of Languages, Linguistics, Literatures, and Cultures [p. 659]. The following sequence achieves fourth-level proficiency and fulfills one of the ways to meet the GE CLAS Core World Languages requirement.

Course #	Title	Hours
ASL:1001	American Sign Language I	4
ASL:1002	American Sign Language II	4
ASL:2001	American Sign Language III	4
ASL:2002	American Sign Language IV	4

Students with previous knowledge of American Sign Language should consult the department for placement.

Arabic

Courses in Arabic are offered by the Department of Languages, Linguistics, Literatures, and Cultures [p. 659]. The following sequence achieves fourth-level proficiency and fulfills one of the ways to meet the GE CLAS Core World Languages requirement.

Course #	Title	Hours
ARAB:1001	Elementary Modern Standard Arabic I	5
ARAB:1002	Elementary Modern Standard Arabic II	5
ARAB:2001	Intermediate Modern Standard Arabic I	5
ARAB:2002	Intermediate Modern Standard Arabic II	5

Students with previous knowledge of Arabic should consult the department for appropriate placement.

Biblical Hebrew

Courses in biblical Hebrew are offered by the Department of Classics [p. 217]. The following sequence achieves second-level proficiency.

Course #	Title	Hours
CLSA:4901/ RELS:4001	Biblical Hebrew I	3-4
CLSA:4902/ RELS:4002	Biblical Hebrew II	3

Chinese

Courses in Chinese are offered by the Department of Languages, Linguistics, Literatures, and Cultures [p. 659]. The following sequence is one way to fulfill the GE CLAS Core World Languages requirement and is appropriate for students without previous knowledge of Chinese.

Course #	Title	Hours
CHIN:1111	First-Year Chinese: First Semester	5
CHIN:1112	First-Year Chinese: Second Semester	5
CHIN:2101	Second-Year Chinese: First Semester	5
CHIN:2102	Second-Year Chinese: Second Semester	5

Students may use varied combinations of Chinese language courses approved to fulfill the GE CLAS Core World Languages requirement. Heritage learners and students who have studied Chinese abroad may be able to substitute CHIN:2103 Accelerated Second-Year Chinese: First Semester and CHIN:2104 Accelerated Second-Year Chinese: Second Semester for CHIN:2101 and CHIN:2102. Consult the department for more information.

French

Courses in French are offered by the Department of Languages, Linguistics, Literatures, and Cultures [p. 659]. The following sequence is one way to fulfill the GE CLAS Core World Languages requirement and is appropriate for students without previous knowledge of French.

Course #	Title	Hours
FREN:1001	Elementary French I	4
FREN:1002	Elementary French II	4
FREN:2001	Intermediate French I	4
FREN:2002	Intermediate French II	4

Students may use varied combinations of French language courses approved to fulfill the GE CLAS Core World Languages requirement. Those with previous knowledge of French may be able to substitute FREN:1010 First-Year French Review for FREN:1001 and FREN:1002 in the preceding sequence. Some students may be evaluated as ready for FREN:2001 or FREN:2002. Consult the department for appropriate placement.

German

Courses in German are offered by the Department of Languages, Linguistics, Literatures, and Cultures [p. 659]. The following sequence is one way to fulfill the GE CLAS Core World Languages requirement and is appropriate for students without previous knowledge of German.

Course #	Title	Hours
GRMN:1001	Elementary German I	4
GRMN:1002	Elementary German II	4
GRMN:2001	Intermediate German I	4
GRMN:2002	Intermediate German II	4

Students may use varied combinations of German language courses approved to fulfill the GE CLAS Core World Languages requirement. Those with previous knowledge of German may be able to substitute GRMN:1010 First-Year German Review for GRMN:1001 and GRMN:1002 in the preceding sequence. Some students may be evaluated as ready for GRMN:2001 or GRMN:2002. Consult the department for appropriate placement.

Greek

Courses in Greek are offered by the Department of Classics [p. 217]. The following sequence is one way to fulfill the GE CLAS Core World Languages requirement and is appropriate for students without previous knowledge of Greek.

Course #	Title	Hours
CLSG:1001	Classical and New Testament Greek I	5
CLSG:1002	Classical and New Testament Greek II	5
CLSG:2001	Second-Year Greek I	3
CLSG:2002	Second-Year Greek II	3

Students with previous knowledge of Greek should consult the department for appropriate placement.

Italian

Courses in Italian are offered by the Department of Languages, Linguistics, Literatures, and Cultures [p. 659]. The following sequence is one way to fulfill the GE CLAS Core World Languages requirement and is appropriate for students without previous knowledge of Italian.

Course #	Title	Hours
ITAL:1101	Elementary Italian I	5
ITAL:1102	Elementary Italian II	5
ITAL:2203	Intermediate Italian I	4
ITAL:2204	Intermediate Italian II	4

Students with strong language learning abilities or a background in Italian or another Romance language may be able to substitute ITAL:1103 Intensive Elementary Italian for ITAL:1101 and ITAL:1102 in the preceding sequence. Consult the department for appropriate placement.

Japanese

Courses in Japanese are offered by the Department of Languages, Linguistics, Literatures, and Cultures [p. 659]. The following sequence is one way to fulfill the GE CLAS Core World Languages requirement and is appropriate for students without previous knowledge of Japanese.

Course #	Title	Hours
JPNS:1001	First-Year Japanese: First Semester	5
JPNS:1002	First-Year Japanese: Second Semester	5
JPNS:2001	Second-Year Japanese: First Semester	5
JPNS:2002	Second-Year Japanese: Second Semester	5

Students may use varied combinations of Japanese language courses approved to fulfill the GE CLAS Core World Languages requirement. Those with previous knowledge of Japanese should consult the department for appropriate placement.

Korean

Courses in Korean are offered by the Department of Languages, Linguistics, Literatures, and Cultures [p. 659]. The following sequence is one way to fulfill the GE CLAS Core World Languages requirement and is appropriate for students without previous knowledge of Korean.

Course #	Title	Hours
KORE:1101	First-Year Korean: First Semester	4
KORE:1102	First-Year Korean: Second Semester	4
KORE:2101	Second-Year Korean: First Semester	4
KORE:2102	Second-Year Korean: Second Semester	4

Students with previous knowledge of Korean should consult the department for appropriate placement.

Latin

Courses in Latin are offered by the Department of Classics [p. 217]. The following sequence is one way to fulfill the GE CLAS Core World Languages requirement and is appropriate

for students without previous knowledge of Latin. Students must take both CLSL:2001 and CLSL:2002 in order to fulfill the fourth-level pathway of the World Languages requirement. These courses require a similar knowledge of Latin, but one focuses on poetry and the other on prose. Other world languages permit a student to complete the last courses in the sequence to meet the GE CLAS Core requirement because the final course is more difficult than the previous ones. This is not true with the Latin sequence, and therefore, both courses must be successfully completed.

Course #	Title	Hours
CLSL:1001	Elementary Latin I	5
CLSL:1002	Elementary Latin II	5
CLSL:2001	World of Cicero	3
CLSL:2002	Golden Age of Roman Poetry	3

Students with previous knowledge of Latin should consult the department for appropriate placement.

Portuguese

Courses in Portuguese are offered by the Department of Spanish and Portuguese [p. 1043]. Two sequences in Portuguese are approved to achieve fourth-level proficiency. All courses are open to entering first-year students.

Course #	Title	Hours
PORT:2000	Accelerated Elementary Portuguese	5
PORT:2500	Accelerated Intermediate Portuguese	5

Students may also substitute PORT:2015 Elementary Portuguese II for PORT:2000 in the preceding sequence.

Students with previous knowledge of Portuguese should consult the department for appropriate placement.

Russian

Courses in Russian are offered by the Department of Languages, Linguistics, Literatures, and Cultures [p. 659]. The following sequence is one way to fulfill the GE CLAS Core World Languages requirement and is appropriate for students without previous knowledge of Russian.

Course #	Title	Hours
RUSS:1111	First-Year Russian I	5
RUSS:1112	First-Year Russian II	5
RUSS:2111	Second-Year Russian I	4
RUSS:2112	Second-Year Russian II	4

Students with previous knowledge of Russian should consult the department for appropriate placement.

Spanish

Courses in Spanish are offered by the Department of Spanish and Portuguese [p. 1043]. The following sequence is one way to fulfill the GE CLAS Core World Languages requirement and is appropriate for students without previous knowledge of Spanish.

Course #	Title	Hours
SPAN:1001	Elementary Spanish I	4
SPAN:1002	Elementary Spanish II	4
SPAN:1501	Intermediate Spanish I	4
SPAN:1502	Intermediate Spanish II	4

Students may use varied combinations of Spanish language courses to fulfill the GE CLAS Core World Languages requirement. Those with previous knowledge of Spanish may be able to substitute SPAN:1003 Elementary Spanish Review for SPAN:1001 and SPAN:1002 in the preceding sequence.

The accelerated course SPAN:1503 Accelerated Intermediate Spanish, which combines SPAN:1501 and SPAN:1502, may be appropriate for some students.

The accelerated course SPAN:1505 Intermediate Spanish for Heritage Speakers may be appropriate for other students.

Students with previous knowledge of Spanish should take the language placement test in Spanish to help determine proper placement.

Swahili

Courses in Swahili are offered by the Department of Languages, Linguistics, Literatures, and Cultures [p. 659]. The following sequence is one way to fulfill the GE CLAS Core World Languages requirement and is appropriate for students without previous knowledge of Swahili. Each of these courses is open to entering first-year students.

Course #	Title	Hours
SWAH:1001	Elementary Swahili I	4
SWAH:1002	Elementary Swahili II	4
SWAH:2001	Intermediate Swahili I	4
SWAH:2002	Intermediate Swahili II	4

Students with previous knowledge of Swahili should consult the department for appropriate placement.

World Language and Cultural Exploration

The following courses are approved for the World Language and Cultural Exploration area.

Course #	Title	Hours
ARAB:2525	We Are What We Eat: Food Culture in the Middle East and North Africa	3
ASIA:1005	Scripts and Trips: A Journey Through East Asia	3
ASL:1500	Exploring the Deaf World	3
EDTL:4410	Language, Power, and Multilingual Education	3
FREN:1500	Trip to Belgium, France, and Switzerland	3
GRMN:1550	German Food, History, and Culture: Beyond Bier and Bratwurst	3
GRMN:1685	German Cultural History	3
ITAL:2205	Exploring Italy: Culture, Society, and Communication	3
JPNS:2127/ ASIA:2127/ CLSA:2127	Books of the Silk Roads	3
LING:1075	World Englishes	3
LING:1080	Communicating Across Linguistic Differences	3
SPAN:1800	Writing and Writers From Latin America	3
SPAN:2700/ IS:2700/LAS:2700/ PORT:2700	Introduction to Latin American Studies	3
SWAH:2100	Exploring East African Languages and Cultures	3

TRNS:2578	Translation in the Humanities: Modes and Approaches	3

Other Course Sequences

A student who successfully completes a four-semester world language sequence that has not been approved for the GE CLAS Core may have the sequence substituted for a proficiency test to fulfill the GE CLAS Core requirement.

Students who complete a world language sequence this way should notify the department that offers the sequence; the department will contact Degree Services in the Office of the Registrar, which will update a student's degree audit to show fulfillment of the World Languages requirement.

Sustainability

Courses in the Sustainability area focus on identifying concepts and terminology associated with sustainability and systems-thinking, investigating the interconnectedness of human and natural systems, and evaluating how students' own actions affect and are affected by society's ability to meet sustainability goals. Students also investigate institutional and/or cultural processes or natural systems processes.

Sustainability learning outcomes are integrated with the outcomes for another GE CLAS Core area so that one approved course satisfies this requirement without adding semester hours. Students complete this requirement by choosing one of the following courses that have been approved for Sustainability and another GE CLAS Core area.

Sustainability and Natural Sciences

Course #	Title	Hours
CHEM:1050	Chemistry of Our World	3
SEES:1020	The Global Environment	3
SEES:1080	Introduction to Environmental Science	3-4
SEES:1085	Fundamentals of Environmental Science	4
SEES:1400	Natural Disasters	3
SIED:3164	Introduction to Global Socioscientific Challenges	3
SIED:4110	Exploring the Geology, Mining History, and Environmental Issues of the Colorado Rockies	4

Sustainability and Quantitative or Formal Reasoning

Course #	Title	Hours
SEES:1035	Our Digital Earth	3

Sustainability and Social Sciences

Course #	Title	Hours
ANTH:2261	Human Impacts on the Environment	3
SEES:2013/ BUS:2013/ URP:2013	Introduction to Sustainability	3
SOC:1040	Energy, Sustainability, and Society	3
URP:2020/ PBAF:2020	Environment and Society: Sustainability, Policy, and Politics	3

Sustainability and Historical Perspectives

Course #	Title	Hours
HIST:1115/ SEES:1115	The History of Oil	3

Sustainability and International and Global Issues

Course #	Title	Hours
ANTH:1046/ GWSS:1046/ SEES:1046/ SJUS:1046	Environmental Politics in India	3
CPH:2200	Climageddon: Understanding Climate Change and Associated Impacts on Health	3
POLI:1510	International Politics of Environmental Issues	3
POLI:2500	Politics of Natural Disasters	3
SEES:1070	Contemporary Environmental Issues	3
SPST:2170	Sport and Globalization	3

Sustainability and Literary, Visual, and Performing Arts

Course #	Title	Hours
TDSN:2210	Introduction to 3D Design	3

Sustainability and Values and Society

Course #	Title	Hours
JMC:1800	Environmental Communication	3
SRM:1049	Foundations for Sport and Physical Activity: Catalyst for Sustainable Communities	3

Natural, Quantitative, and Social Sciences

Natural Sciences

Courses in the Natural Sciences area explore the scope and major concepts of a scientific discipline. Students learn the attitudes and practices of scientific investigators: logic, precision, experimentation, tentativeness, and objectivity. In courses with a laboratory component, students gain experience in the methods of scientific inquiry.

All students must complete at least 7 s.h. of coursework in the Natural Sciences area, including at least one natural science lab component. The following courses are approved for the area; courses with a lab component are noted "(lab)."

Course #	Title	Hours
ANTH:1301	Human Origins	3
ASTR:1060/ BIOL:1060/ SEES:1060	Big Ideas: Origins of the Universe, Earth, and Life	3

ASTR:1070	Stars, Galaxies, and the Universe (with lab 4 s.h.; without lab 3 s.h.)	3-4
ASTR:1079	Introductory Astronomy Laboratory (lab only)	1
ASTR:1080	Exploration of the Solar System (lab)	4
ASTR:1085	Citizen Astronomy	3
ASTR:1771	Fundamental Astronomy I: The Solar System and Exoplanets (lab)	4
ASTR:1772	Fundamental Astronomy II: Evolution of Stars, Galaxies, and the Universe (lab)	4
BIOL:1140	Human Biology: Nonmajors (lab)	4

Quantitative or Formal Reasoning

Courses in the Quantitative or Formal Reasoning area help develop analytical skills through the practice of quantitative or formal symbolic reasoning. Courses focus on presentation and evaluation of evidence and argument; understanding the use and misuse of data; and organization of information in quantitative or other formal symbolic systems, including those used in computer science, linguistics, mathematics, philosophy, and statistics.

All students must complete at least 3 s.h. of coursework in the Quantitative or Formal Reasoning area. Students may also fulfill this GE CLAS Core requirement by completing a course that lists an approved GE CLAS Core course as a prerequisite. The following courses are approved for the area.

Course #	Title	Hours
COMM:1117	Advocacy and Argument	3
CPH:1600	Public Health Science: Inquiry and Investigation in Public Health	3

CS:1020	Principles of Computing	3
CS:1110	Introduction to Computer Science	3

Culture, Society, and the Arts

Historical Perspectives

Courses in the Historical Perspectives area help students comprehend the historical processes of change and continuity; develop the ability to generalize, explain, and

interpret historical change; and understand the past in its own terms.

All students must complete at least 3 s.h. of coursework in the Historical Perspectives area. The following courses are approved for the area.

Course #	Title	Hours

International and Global Issues

Courses in the International and Global Issues area focus predominantly on countries or issues outside the United States, encouraging students to understand contemporary issues from an international perspective. Students develop knowledge of one or more contemporary global or international issues, gain a greater awareness of varied international perspectives, and improve their skills of analysis and critical inquiry.

All students must complete at least 3 s.h. of coursework in the International and Global Issues area. The following courses are approved for the area.

Literary, Visual, and Performing Arts

Courses in the Literary, Visual, and Performing Arts area provide students with opportunities to appreciate the arts and to analyze them within their historical and theoretical contexts. They also help students develop the analytic, expressive, and imaginative abilities necessary for understanding, appreciating, and creating art.

All students must complete at least 3 s.h. of coursework in the Literary, Visual, and Performing Arts area. The following courses are approved for the area.

Course #	Title	Hours
AFAM:1240/ MUS:1740	The Art of Listening to Jazz	3

African American Studies

Interim Chair

- Rene R. Rocha

Undergraduate major: African American studies (BA)

Undergraduate minor: African American studies

Graduate degree: MA in African American world studies

Graduate certificate: African American studies

Faculty: https://africanamericanstudies.uiowa.edu/people

Website: https://africanamericanstudies.uiowa.edu/

African American studies (AAS) examines the unique experiences of African-descended people throughout the diaspora, drawing on a rich tradition of civic engagement, scholarship, and teaching. The faculty introduce students to the foundations of African American studies and collaborate with them to understand new intellectual perspectives. Courses and research revolve around three core areas of study: history, religion, and the diaspora; literature and performing arts; and media, politics, and society. Within these areas, students carefully consider the construction of race, ethnicity, and identity and the performance of class, gender, and sexuality. Students who take courses in African American studies acquire a special skill set that enables them to critically interrogate their own culture and other cultures in the world around them.

Cocurricular Activities

Afro-American Cultural Center

African American studies encourages students to use the Afro-American Cultural Center (Afro House). The center serves as a museum housing educational artifacts. Offering enrichment for the University of Iowa and promoting diversity among all members of the Iowa City community, the center also provides a cultural hub for African American students.

African American Studies Student Association

The African American Studies Student Association aims to promote knowledge about Black life in the United States by hosting speakers, publicizing artistic performances, and sponsoring relevant programs with various campus collaborators. The association is primarily designed for AAS majors and minors; however, any University of Iowa student interested in African American studies is eligible to become a member.

Seminar and Lecture Series

The African American Studies Seminar Series and the Darwin Turner Lecture bring important scholars and creative artists to the University of Iowa campus. Guests of the lecture and seminar series have included Amiri Baraka, Trudier Harris, Ta-Nehisi Coates, Michelle Wallace, Mary Patillo, J. Lorand Matory, Paul Butler, Gabrielle Forman, and Valerie Smith.

African American Studies Annual Awards Program

Each spring, the African American Studies Program honors AAS majors and minors, along with exceptional University of Iowa students and organizations. Scholarships are awarded by the Marie Nesbitt Foundation, the African American Studies Program, the National Association of Black Journalists, and the Iowa Black Alumni Association. Awards are offered that recognize student efforts in community service, leadership, creative arts, graduate research, cultural appreciation, and academic achievement.

Graduate Student Mentoring and Advising

The African American Studies Program sponsors several intellectual and social gatherings for graduate students across multiple disciplines. During these events, the Society of Black Graduate and Professional Students (BGAPS) and other graduate students connect with others interested in African American studies and receive advice about becoming faculty members, being productive members of the academic profession, and career options outside of academia.

Iowa Black Alumni Association

The Iowa Black Alumni Association (IBAA) promotes the general mission of the University of Iowa. The group enhances the career connections of prospective, current, and former Black University of Iowa students. It also recognizes these individuals for their service. The IBAA also supports the African American Studies Program in various ways, such as with fundraising and the advisory board.

Programs

Undergraduate Programs of Study

Major

- Major in African American Studies (Bachelor of Arts) [p. 40]

Minor

- Minor in African American Studies [p. 44]

Graduate Programs of Study

- Master of Arts in African American World Studies

The African American Studies Program is not accepting MA students at this time.

- Certificate in African American Studies [p. 46]

Courses

African American Studies Courses

AFAM:1000 First-Year Seminar **1 s.h.**
Small discussion class; topics chosen by instructor. Requirements: first-year standing.

AFAM:1020 Introduction to African American Culture **3 s.h.**
Examination of Black cultural experiences in the United States and the African diaspora; focus on literature, music, film, comics, anime, popular culture, and visual/performing arts. GE: Understanding Cultural Perspectives. Same as AMST:1030.

AFAM:1030 Introduction to African American Society 3 s.h.
Examination of Black social and historical institutions in the United States and the African diaspora; focus on education, sports, political science, religion, health, criminal justice, history, sociology, and other disciplines. GE: Understanding Cultural Perspectives.

AFAM:1041 African American Religion and Popular Culture 3 s.h.
Examination of the role African American religions play in shaping 20th century and contemporary popular culture in the United States; students explore recent histories of Black Christianity, American Islam, and African diaspora religions; gender and race; cultural production in hip hop, jazz, rhythm and blues, literature, poetry, film, sports, cuisine, visual art, and style. Same as RELS:1041.

AFAM:1130 The History of African American Film 3 s.h.
History of African American cinema; examination of various cycles of Black movie fare between 1912-1999. GE: Understanding Cultural Perspectives.

AFAM:1140 Introduction to Contemporary Black Art: Painting, Performance, and Process 3 s.h.
Introduction to African American art in the United States; exploration of major art events (i.e., Harlem Renaissance, Black Arts Movement); study of specific African American artists and their work; influence of race on artistic expression. Same as ARTS:1140.

AFAM:1240 The Art of Listening to Jazz 3 s.h.
What is jazz and its importance; guided introduction to jazz music, anatomy of jazz music, cultural context; development of skills to become an informed listener; process of performing jazz music, its connection with Black culture; focused listening/analysis of prominent jazz artists' work from past and present, including intersection between jazz and hip hop; formal music experience or training not required. GE: Literary, Visual, and Performing Arts. Same as MUS:1740.

AFAM:1241 The Soundtrack of Black America 3 s.h.
Linkage of African American culture and music; Black musical innovations that shaped mainstream American musical tastes over the last century; exploration of relationship between Black music and culture; examples of blues, jazz, gospel, hip hop; artists including Bessie Smith (blues), Mahalia Jackson (gospel), Miles Davis (jazz), Nas and Talib Kweli (hip hop). GE: Understanding Cultural Perspectives. Same as MUS:1741.

AFAM:1250 Introduction to African American Religions 3 s.h.
GE: Values and Society. Same as RELS:1350.

AFAM:1900 Diverse Topics in African American Studies 3 s.h.
Examination of African American experience based on a range of topics covering history and contemporary themes; significant contributions by African Americans to American society and around the world in the arts, literature, politics, music, religion, science, and other areas; evolution of African American culture and critical evaluation of issues, including intersectionality and inequality within specific subjects; social, cultural, and historical resources that challenge assumptions and biases when it comes to racial backgrounds and perspectives; key elements within each selected environment, along with meaningful events and individuals. GE: Understanding Cultural Perspectives.

AFAM:2064 African American Families: Urban and Suburban 3 s.h.
Racial inequality and experiences of African American families in the United States during the 20th and 21st centuries; historical context for contemporary research on African American family; relative impact of structural and cultural factors on various aspects of African American family life, declining marriage rates, family formation patterns; intersections of race and class in family life; research methods used to examine dynamics of African American family life, including quantitative analysis, structured qualitative interviews, and ethnography. GE: Understanding Cultural Perspectives. Same as SOC:2064.

AFAM:2070 Black Television Culture 3 s.h.
Social and political impact of television dramas featuring people of African descent in the West; examination of production, reception, representation, and industry as it relates to the African American images that are granted tenure on television screens. GE: Understanding Cultural Perspectives. Same as COMM:2069.

AFAM:2072 African American Popular Culture 3 s.h.
Examination of global popularity and impact of African American popular culture. Same as COMM:2072.

AFAM:2076 Race, Ethnicity, and Media 3 s.h.
Introduction to debates about media portrayals of race and ethnicity; focus primarily on entertainment media; use of general analytic perspectives (stereotype analysis, aesthetic analysis, history) applied to real-world examples; address one or more racial/ethnic groups in the United States. Same as COMM:2076.

AFAM:2079 Race and Ethnicity in Sport 3 s.h.
Structural and ideological barriers to racial and ethnic equality in sport, with focus on African American sport experiences; historical and contemporary issues, media representations. Same as SPST:2079.

AFAM:2266 Civil War and Emancipation 3 s.h.
160 years later, what can we learn about American history from studying a war that both killed and liberated an unprecedented number of people? Why did it take a war to end slavery? How did emancipation occur and how did enslaved people accelerate the destruction of U.S. slavery during the war? Same as HIST:2266.

AFAM:2267 African American History to 1877 3 s.h.
Experiences of African and African American people in the American colonies and the states of the new nation; history of Africans and African Americans as early settlers, enslaved and free, in places such as Detroit, Chicago, New York, and New Orleans; interactions with Indigenous people; role in the war for American independence; long history of resistance to slavery and racial discrimination; exploration of the rich history of community building, creation of significant Black social and cultural institutions, and formation of Black political thought and political activism. GE: Understanding Cultural Perspectives. Same as HIST:2267.

AFAM:2268 African American History Since the Civil War 3 s.h.
Exploration of racial oppression of African Americans and multiracial struggles against that oppression since the Civil War era; students examine the history of racism at individualized and systematic levels; historical efforts made by individuals and collective movements in service of the long Black freedom struggle; and the ways these twinned histories have shaped modern America. GE: Understanding Cultural Perspectives. Same as HIST:2268.

AFAM:2463 Topics in African American Literature 3 s.h.
Selected topics in African American literature. Same as ENGL:2463.

AFAM:2465 Selected African American Authors 3 s.h.
Literary works by selected African American authors. Same as ENGL:2465.

AFAM:2500 Black Culture and Experience: Contemporary Issues 3 s.h.
Exploration of various contemporary social topics (e.g., education, religion, literature, theater, media, politics, sports, criminal justice, health, economics); use of readings, interactive experiences, course assignments (reading essays, interview/profile, observation analysis, case study, final paper), and unit quizzes to understand Black life in the 21st century. GE: Understanding Cultural Perspectives.

AFAM:2700 The Black Image in Sequential Art: Comics, Graphic Novels, and Anime 3 s.h.
Provides a foundation to critically interpret the representation of people of African descent in sequential art; primary focus on serial comic strips, gags, comic books, graphic novels, video games, animation, anime, Manga, film, zines, and televisual examples of Blackness; emphasis of readings and viewing materials on gender, sexualities, economics, ethnicity, the transnational circulation and commodification of the Black image, fandom communities, independent and mainstream sequential art producers. Same as AMST:2700.

AFAM:2770 Black and White Community Politics 3 s.h.
Students study the movement for environmental justice within the broader context of U.S. land use and development to understand environmental racism's prevalence and how it can be addressed; topics include pollution, health, food access, transportation and agricultural practice to land loss, public space, and infrastructure; exploration of perspectives on the environment and environmentalism. Same as GHS:2770, SOC:2770.

AFAM:2800 African American Women, Health, Hair, and Sexuality 3 s.h.
From the exotic to the erotic, African American women's bodies have been constructed to fulfill a variety of personal and cultural fantasies as well as social functions that are "killing us softly"; how cultural icons and myths of Black women—Jezebel, Mammy, Tragic Mulatto, Aunt Jemima, Sapphire, Matriarch, Welfare Queen, and more recently, the overachieving Black woman—shape and create restrictions and visions of the self that contribute to health disparities; engaging Black feminist/womanist theory to explore how larger images influence everyday acts of self-care and pleasure, such as hair and sexuality, on the health of African American women. Same as GWSS:2800.

AFAM:3053 The Civil Rights Movement 3 s.h.
History of the American civil rights movement. Same as AMST:3053, HIST:3253.

AFAM:3100 Critical Race Theory: Culture, Power, and Society 3 s.h.
Examination of the historical context of race and racism in U.S. history; focus on how social structures perpetuate longstanding patterns of racial inequality. Same as AMST:3100, SOC:3100.

AFAM:3110 Race, Organizations, and Workplace 3 s.h.
Examination of racial discrimination in the American workplace and organizations; historical context for development of complex organizations; various forms of racial discrimination; longstanding patterns of racial inequality central to American organizations. Same as SOC:3110.

AFAM:3245 Twentieth- and Twenty-first Century African American Religion 3 s.h.
Twentieth- and twenty-first-century African American religious history; major political and cultural movements including civil rights, Black power, Black feminism/womanism, hip hop, and Black Lives Matter; their impact on Black Christianity and Islam in the United States. Same as RELS:3745.

AFAM:3256 The Great Migration(s) in the Midwest 3 s.h.
Investigation of African American migration to and within the Midwest; first and second Great Migrations (1910–1940, 1940–1970); focus on reaction to and social, cultural, political, and economic impact of newcomers arrival; class time devoted to actual practice of historical research; students work on a collaborative project focused on the history of racial discrimination, housing segregation, and resistance to that oppression in Iowa's six metropolitan areas. Same as HIST:3256.

AFAM:3257 Civil Rights and Racial Justice: A Tour Through the South 1-3 s.h.
Exploration of the history of modern civil rights movement through lectures, shared readings, videos, and discussion; includes preparation and two-week tour of civil rights sites in the South. Prerequisites: SJUS:1001 or SJUS:2250 or GWSS:1002 or CCCC:2220 or AFAM:1030 or HIST:2268 or HIST:2268 or HIST:3253 or HIST:3253 or HIST:3253 or HIST:3232 or AFAM:3100 or AFAM:3500 or AFAM:3260 or AFAM:3260 or HIST:3282 or HIST:3282 or HIST:4130. Same as GWSS:3257, HIST:3257, SJUS:3257.

AFAM:3260 Violence in Black America 3 s.h.
Examination of violence—physical, structural, gendered, and psychological—and its impact of shaping Black American experience through resistance, cultural production, and community development. Same as HIST:3260.

AFAM:3262 The Black Midwest: History, Literature, and Culture 3 s.h.
Exploration of history, culture, and art of the Black Midwest using literature and scholarly readings, poems, music, and film; modern issues impacting Black Midwesterners; cultural, social, and political contributions of Black Midwesterners to the region and nation. Same as HIST:3262.

AFAM:3275 History of Slavery in North America 3 s.h.
Examines the origin, evolution, and patchwork abolition of Black chattel slavery in the parts of North America that became the United States; emphasizes the ways that slavery was not a static institution, but rather changed over time and space; centers the enslaved as historical actors with their own politics, economics, and culture; wrestles with historical memory and popular representations of slavery. Same as HIST:3275.

AFAM:3459 African American Literature Before 1900 3 s.h.
African American literature before 1900. Same as ENGL:3459.

AFAM:3460 African American Literature After 1900 3 s.h.
African American literature after 1900. Same as ENGL:3460.

AFAM:3461 Twenty-First Century African American Literature 3 s.h.
African American literature from 20th- and 21st-century writers; African American experience(s) of race, sexuality, gender, class, and privilege in contemporary era; various ways poets, rappers, authors tackle these themes within literary forms (i.e., fiction, creative nonfiction, autobiography, poems, songs); societal structures of power. Same as ENGL:3461.

AFAM:3462 African American Drama 3 s.h.
African American dramatic literature. Same as ENGL:3462, THTR:3462.

AFAM:3465 African American Autobiography 3 s.h.
The autobiography by African American writers. Same as ENGL:3465.

AFAM:3500 Malcolm X, King, and Human Rights 3 s.h.
Religion and politics of Malcolm X and Martin Luther King, Jr. in the context of U.S. civil rights and international human rights in West Africa and the Muslim world; emphasis on civil rights connections to Gandhi, the Nobel Peace prize, and other international experiences that have impacted Pan Africanists, such as Stokely Carmichael, who worked on human rights. Recommendations: international studies major or undergraduate standing. Same as HIST:3160, RELS:3808.

AFAM:3550 African Literature 3 s.h.
Literature by African writers. Same as ENGL:3550.

AFAM:3555 Topics in African Cinema 3 s.h.
African cinema and literature. Same as ENGL:3555.

AFAM:3600 Digitizing Blackness 3 s.h.
Examination of Black cultural experiences in digital spheres, including digital humanities and new information technologies; focus on Afrofuturism, gaming, augmented reality, digital mapping, podcasting, social media, and digital cultures; exposure to digital tools and methods. Same as AMST:3600.

AFAM:3630 The Racial Wealth Gap: Black Debt, White Debt 3 s.h.
Exploration of extent, historical origins, and contemporary factors of the racial wealth gap with special attention to role of debt in U.S. race relations; potential topics include education debt, monetary sanctions in criminal justice, redlining, recession, bankruptcy, and reparations. Same as SOC:3630.

AFAM:3758 The Ancient African Past 3 s.h.
Africa to 1880; oral tradition and other sources; political development, ecological change, slavery and slave trade. Same as HIST:3758.

AFAM:3760 The Making of Modern Africa 3 s.h.
Africa in colonial and postcolonial period; economics, political structures of colonialism; social change, political life in the 20th century. Same as HIST:3760.

AFAM:3900 Topics in African American Studies arr.
Different topic each semester.

AFAM:3925 African Americans and the Media 3 s.h.
Exploration of the theoretical notion of racialism in various genres of mass communication (i.e., music, print media, television/cable, film, social media); analysis and discussion of contemporary images and messages in media related to African American culture with close attention to impact of stereotypes, historical myths, stigmas, problematic representations, biased framing, and traditional racism. Same as JMC:3165.

AFAM:4250 Education In Black America 3 s.h.
Introduction to various educational policies and events germane to the history of African American education from 1900 through the mid-1980s; read works and watch documentaries that examine those policies, concepts, strategies, and events surrounding Black education; analyze and synthesize this information through small and large class discussions, reading responses, quizzes, a debate, a book review, a short essay, and related presentation. GE: Historical Perspectives. Same as EPLS:4250.

AFAM:4770 Environmental Justice 3 s.h.
Introduction to the field of environmental justice; understanding and addressing the processes that lead poor and marginalized communities to face a disproportionate degree of environmental risks and hazards. Same as GHS:4770, SEES:4770.

AFAM:4910 Special Topics 3 s.h.
Selected topics, issues, and debates about various components of African American culture including literature, sociology, psychology, media, history, rhetoric, theater, sports, health, and education.

AFAM:4980 Independent Study arr.
Topics vary.

AFAM:4990 Honors Project arr.
Independent research and writing on interdisciplinary topic.

AFAM:5900 Advanced Readings in African American Studies: Historic and Contemporary Debates arr.
Weekly readings and discussions of scholarly book chapters and articles related to key topics; students synthesize, debate, and critically evaluate all course material; topic areas include African American history, culture, politics, Black feminist criticism, critical race theory, intersectionality, and more; introduction to current research of African American studies faculty members; for students interested in conducting research about African American culture.

AFAM:6500 Critical Readings in Cultural Studies: Stuart Hall's Legacy and Influences 3 s.h.
Exploration of the scholarship of Stuart Hall along with theories, methods, and history of cultural studies; focus on major areas of Hall's work including Marxist thought and the political economy, diasporas and globalization, cultural production and popular culture, film and cinema studies, race, ethnicity, identity, and differánce; key theorists that influenced Stuart Hall (e.g., Marx, Foucault, Fanon, Gramsci, Althusser) and scholars in cultural studies that have made appropriate use of Hall's writings and theories in their own work; role of theory in everyday life and the critical role of public intellectuals. Same as AMST:6500, ENGL:6050.

AFAM:6580 Seminar: Religion and Society 3 s.h.
Same as RELS:6580.

AFAM:6610 Studies in African American Literature 3 s.h.
Same as ENGL:6610.

AFAM:7205 New Histories: U.S. Slavery arr.
Our approach to study of slavery and discipline of history have been upended by recent works by and about women; exploration of that scholarship and consideration of where it takes us in grappling with systems and subjectivity of slavery. Same as GWSS:7205, HIST:7205.

AFAM:7207 American Emancipations 3 s.h.
Sample the historiography of slavery, abolition, and emancipation in the Western Hemisphere. Focus on the movements to abolish Black chattel slavery in the eighteenth- and nineteenth-century United States; engage related histories throughout the Atlantic world. Same as HIST:7207.

AFAM:7210 The Long Civil Rights Movement arr.
Exploration of the history and historiography of the modern Black freedom struggle in the United States, with particular attention to how historians in recent years have reconsidered traditional framings of that struggle's chronology, geography, gender politics, political aspirations, and achievements. Same as HIST:7210.

AFAM:7214 Readings: African American Women's History **arr.**
Same as GWSS:7214, HIST:7214.

African American Studies, BA

Learning Outcomes

Students will:

- understand basic facts, principles, key figures, and events related to African American experience in American society, plus recognize the significant contributions of African Americans in the United States and abroad;
- become familiar with the foundations of the discipline of African American studies and the development of the field, specifically conceptual ideas that shape the academic study of African American life;
- acquire the tools for contextualizing and understanding the intersectionality of race, class, gender, and/or sexual orientation in an effort to identify relevant challenges and solve human problems related to the African American community;
- learn to critically analyze cultural issues shaping the lives and conditions of African Americans through curriculum, community service, and service learning as they confirm the value of diversity in the 21st century; and
- be prepared for potential careers or postbaccalaureate work in African American studies and related fields through the development of skills in critical thinking, oral and written communication, and research.

Requirements

The Bachelor of Arts with a major in African American studies requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Transfer credit is evaluated individually, and a maximum of 9 s.h. may be applied to the major in African American studies. Students may count up to 56 s.h. of African American studies coursework (prefix AFAM) toward credit required for the Bachelor of Arts degree.

The BA with a major in African American studies requires the following coursework.

Requirements	Hours
Introductory Courses	6
African American Studies Core	18
Electives	6

Introductory Courses

Students are required to complete the following introductory courses.

Course #	Title	Hours
AFAM:1020/ AMST:1030	Introduction to African American Culture	3
AFAM:1030	Introduction to African American Society	3

African American Studies Core

In addition to the two required introductory courses, all students must complete at least 6 s.h. from each of the three topical areas below (minimum of 18 s.h.). Other courses may be approved for the topical areas; consult with an African American studies advisor.

History, Religion, and the Diaspora

Course #	Title	Hours
At least 6 s.h. from these:		
AFAM:1041/ RELS:1041	African American Religion and Popular Culture	3
AFAM:1250/ RELS:1350	Introduction to African American Religions	3
AFAM:1900	Diverse Topics in African American Studies (when topic is history, religion, or the diaspora)	3
AFAM:2266/ HIST:2266	Civil War and Emancipation	3
AFAM:2267/ HIST:2267	African American History to 1877	3
AFAM:2268/ HIST:2268	African American History Since the Civil War	3
AFAM:2500	Black Culture and Experience: Contemporary Issues (when topic is history, religion, or the diaspora)	3
AFAM:3245/ RELS:3745	Twentieth- and Twenty-first Century African American Religion	3
AFAM:3260/ HIST:3260	Violence in Black America	3
AFAM:3262/ HIST:3262	The Black Midwest: History, Literature, and Culture	3
AFAM:3275/ HIST:3275	History of Slavery in North America	3
AFAM:3555/ ENGL:3555	Topics in African Cinema	3
AFAM:3758/ HIST:3758	The Ancient African Past	3
AFAM:3760/ HIST:3760	The Making of Modern Africa	3
AFAM:3900	Topics in African American Studies (when topic is history, religion, or the diaspora)	arr.
AFAM:7205/ GWSS:7205/ HIST:7205	New Histories: U.S. Slavery	arr.
EPLS:5126	Twentieth-Century Educational Movements	2-3

Literature and Performing Arts

Course #	Title	Hours
At least 6 s.h. from these:		
AFAM:1130	The History of African American Film	3
AFAM:1140/ ARTS:1140	Introduction to Contemporary Black Art: Painting, Performance, and Process	3
AFAM:1240/ MUS:1740	The Art of Listening to Jazz	3
AFAM:1241/ MUS:1741	The Soundtrack of Black America	3

AFAM:1900	Diverse Topics in African American Studies (when topic is literature or performing arts)	3
AFAM:2463/ ENGL:2463	Topics in African American Literature	3
AFAM:2465/ ENGL:2465	Selected African American Authors	3
AFAM:2500	Black Culture and Experience: Contemporary Issues (when topic is literature or performing arts)	3
AFAM:2700/ AMST:2700	The Black Image in Sequential Art: Comics, Graphic Novels, and Anime	3
AFAM:3459/ ENGL:3459	African American Literature Before 1900	3
AFAM:3460/ ENGL:3460	African American Literature After 1900	3
AFAM:3461/ ENGL:3461	Twenty-First Century African American Literature	3
AFAM:3462/ ENGL:3462/ THTR:3462	African American Drama	3
AFAM:3465/ ENGL:3465	African American Autobiography	3
AFAM:3900	Topics in African American Studies (when topic is literature or performing arts)	arr.

Media, Politics, and Social Institutions

Course #	Title	Hours
At least 6 s.h. from these:		
AFAM:1900	Diverse Topics in African American Studies (when topic is media, politics, or social institutions)	3
AFAM:2064/ SOC:2064	African American Families: Urban and Suburban	3
AFAM:2070/ COMM:2069	Black Television Culture	3
AFAM:2072/ COMM:2072	African American Popular Culture	3
AFAM:2076/ COMM:2076	Race, Ethnicity, and Media	3
AFAM:2079/ SPST:2079	Race and Ethnicity in Sport	3
AFAM:2500	Black Culture and Experience: Contemporary Issues (when topic is media, politics, or social institutions)	3
AFAM:2770/ GHS:2770/ SOC:2770	Black and White Community Politics	3
AFAM:3053/ AMST:3053/ HIST:3253	The Civil Rights Movement	3
AFAM:3100/ AMST:3100/ SOC:3100	Critical Race Theory: Culture, Power, and Society	3
AFAM:3110/ SOC:3110	Race, Organizations, and Workplace	3
AFAM:3500/ HIST:3160/ RELS:3808	Malcolm X, King, and Human Rights	3
AFAM:3600/ AMST:3600	Digitizing Blackness	3
AFAM:3630/ SOC:3630	The Racial Wealth Gap: Black Debt, White Debt	3
AFAM:3900	Topics in African American Studies (when topic is media, politics, or social institutions)	arr.
AFAM:3925/ JMC:3165	African Americans and the Media	3
AFAM:4250/ EPLS:4250	Education In Black America	3
AFAM:4770/ GHS:4770/ SEES:4770	Environmental Justice	3

Electives

Students must also take two elective courses (minimum of 6 s.h.) selected from the three topical areas previously listed. One of the two elective courses may be substituted with AFAM:4980 Independent Study or AFAM:4990 Honors Project. With the approval of an African American studies advisor, students may also substitute relevant courses offered by other departments for one or both electives; the substituted courses may not be cross-referenced with African American studies. Students must gain the advisor's approval before enrolling in a substitute course.

Course #	Title	Hours
Two electives selected from the three topical areas or approved substitutes		6

Language Requirement

The language requirement for the African American studies major is the same as the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Students are encouraged, but not required, to take African language courses (Swahili is currently offered) or Spanish language courses to fulfill the World Languages requirement.

Honors

Honors in the Major

Students majoring in African American studies have the opportunity to graduate with honors in the major. Honors in the major offers students the opportunity to pursue special interests and individual in-depth research.

Honors students must complete all required coursework for the major while maintaining a University of Iowa grade-point average (GPA) of at least 3.33 and a major GPA of at least 3.33 (30 s.h.). Students must register for up to 6 s.h. of AFAM:4990 Honors Project, which enhances a student's ability to complete honors projects under the guidance of the supervising faculty member. Students enroll in AFAM:4990 with the approval of an African American studies faculty member, who will supervise the course. They may count up to 6 s.h. earned in AFAM:4990 toward the 30 s.h. required for the major.

Under the guidance of the African American studies faculty member, an honors student defines a research project (thesis)

using primary, secondary, or archival sources. Students submit a project proposal by the end of their junior year. They complete a thesis under the guidance of a supervising faculty member and present the results as a senior essay to a committee of three, including the supervising African American studies faculty member, one other African American studies faculty member, and the African American studies chair. A student's committee may choose to hear an oral defense of the honors thesis, usually during the student's last semester.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the African American studies major.

Career Advancement

The African American studies major provides valuable background for careers in a diverse society, in areas such as community work, public school teaching, religion, government, political science, and law. Some graduates go on to advanced study, many preparing for work as teachers and administrators at colleges and universities.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

During the first year of study, students should focus on completing the GE CLAS Core [p. 22], perhaps including Swahili or Spanish coursework to begin satisfying the World Languages requirement.

Before the fifth semester begins: at least three courses in the major, including AFAM:1020 Introduction to African American Culture and AFAM:1030 Introduction to African American Society.

Before the seventh semester begins: at least seven courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least nine courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e See the General Catalog for list of approved courses.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g Students must complete 6 s.h. in electives selected from the three topical areas; see the General Catalog for list of approved courses. With the approval of an African American studies advisor, students may substitute relevant courses offered by other departments for one or both electives.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

African American Studies, Minor

Requirements

The minor in African American studies requires a minimum of 15 s.h., including 12 s.h. taken at the University of Iowa. At least two of the African American studies core courses must be taken at the University of Iowa. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Coursework completed for another major or minor may not be counted toward the minor in African American studies.

The minor must include the following coursework.

Requirements	Hours
Introductory Courses	6
African American Studies Core	9

Introductory Courses

Students are required to complete the following introductory courses.

Course #	Title	Hours
Both of these:		
AFAM:1020/ AMST:1030	Introduction to African American Culture	3
AFAM:1030	Introduction to African American Society	3

African American Studies Core

Students must complete one course from each of the three topical areas below (9 s.h.), with at least two courses taken at the University of Iowa.

History, Religion, and the Diaspora

Course #	Title	Hours
One of these:		
AFAM:1041/ RELS:1041	African American Religion and Popular Culture	3
AFAM:1250/ RELS:1350	Introduction to African American Religions	3
AFAM:1900	Diverse Topics in African American Studies (when topic is history, religion, or the diaspora)	3
AFAM:2266/ HIST:2266	Civil War and Emancipation	3
AFAM:2267/ HIST:2267	African American History to 1877	3
AFAM:2268/ HIST:2268	African American History Since the Civil War	3
AFAM:2500	Black Culture and Experience: Contemporary Issues (when topic is history, religion, or the diaspora)	3
AFAM:3245/ RELS:3745	Twentieth- and Twenty-first Century African American Religion	3
AFAM:3260/ HIST:3260	Violence in Black America	3
AFAM:3262/ HIST:3262	The Black Midwest: History, Literature, and Culture	3
AFAM:3275/ HIST:3275	History of Slavery in North America	3
AFAM:3555/ ENGL:3555	Topics in African Cinema	3
AFAM:3758/ HIST:3758	The Ancient African Past	3
AFAM:3760/ HIST:3760	The Making of Modern Africa	3
AFAM:3900	Topics in African American Studies (when topic is history, religion, or the diaspora)	arr.
AFAM:7205/ GWSS:7205/ HIST:7205	New Histories: U.S. Slavery	arr.
EPLS:5126	Twentieth-Century Educational Movements	2-3

Literature and Performing Arts

Course #	Title	Hours
One of these:		
AFAM:1130	The History of African American Film	3
AFAM:1140/ ARTS:1140	Introduction to Contemporary Black Art: Painting, Performance, and Process	3
AFAM:1240/ MUS:1740	The Art of Listening to Jazz	3
AFAM:1241/ MUS:1741	The Soundtrack of Black America	3
AFAM:1900	Diverse Topics in African American Studies (when topic is literature or performing arts)	3
AFAM:2463/ ENGL:2463	Topics in African American Literature	3
AFAM:2465/ ENGL:2465	Selected African American Authors	3
AFAM:2500	Black Culture and Experience: Contemporary Issues (when topic is literature or performing arts)	3
AFAM:2700/ AMST:2700	The Black Image in Sequential Art: Comics, Graphic Novels, and Anime	3
AFAM:3459/ ENGL:3459	African American Literature Before 1900	3
AFAM:3460/ ENGL:3460	African American Literature After 1900	3
AFAM:3461/ ENGL:3461	Twenty-First Century African American Literature	3
AFAM:3462/ ENGL:3462/ THTR:3462	African American Drama	3
AFAM:3465/ ENGL:3465	African American Autobiography	3

AFAM:3900	Topics in African American Studies (when topic is literature or performing arts)	arr.

Media, Politics, and Social Institutions

Course #	Title	Hours
One of these:		
AFAM:1900	Diverse Topics in African American Studies (when topic is media, politics, or social institutions)	3
AFAM:2064/ SOC:2064	African American Families: Urban and Suburban	3
AFAM:2070/ COMM:2069	Black Television Culture	3
AFAM:2072/ COMM:2072	African American Popular Culture	3
AFAM:2076/ COMM:2076	Race, Ethnicity, and Media	3
AFAM:2079/ SPST:2079	Race and Ethnicity in Sport	3
AFAM:2500	Black Culture and Experience: Contemporary Issues (when topic is media, politics, or social institutions)	3
AFAM:2770/ GHS:2770/ SOC:2770	Black and White Community Politics	3
AFAM:3053/ AMST:3053/ HIST:3253	The Civil Rights Movement	3
AFAM:3100/ AMST:3100/ SOC:3100	Critical Race Theory: Culture, Power, and Society	3
AFAM:3110/ SOC:3110	Race, Organizations, and Workplace	3
AFAM:3500/ HIST:3160/ RELS:3808	Malcolm X, King, and Human Rights	3
AFAM:3600/ AMST:3600	Digitizing Blackness	3
AFAM:3630/ SOC:3630	The Racial Wealth Gap: Black Debt, White Debt	3
AFAM:3900	Topics in African American Studies (when topic is media, politics, or social institutions)	arr.
AFAM:3925/ JMC:3165	African Americans and the Media	3
AFAM:4770/ GHS:4770/ SEES:4770	Environmental Justice	3

African American Studies, Graduate Certificate

Requirements

The graduate Certificate in African American Studies requires a least 12 s.h. of credit. Students must maintain a grade-point average of at least 2.75 in work for the certificate. With civil and corporate work environments taking a distinct interest in the diversity of people, training, and ideas within their respective environments, the certificate provides a means of formally acknowledging cultural and intellectual understanding that is being sought by potential employers.

Students must be enrolled in a graduate degree program of study to earn the certificate. They meet yearly with the certificate advisor to plan their certificate coursework.

The Certificate in African American Studies requires the following coursework.

Course #	Title	Hours
AFAM:5900	Advanced Readings in African American Studies: Historic and Contemporary Debates	3
Three courses (3 s.h. each) related to African American studies numbered 3000 or above; at least 6 s.h. of these must be taken in a department other than a student's primary area of study (consult advisor)		9

Admission

Doctor of Philosophy students are encouraged to apply for the certificate program in their first year of graduate study, and students earning their master's degree in their first semester. Students then have sufficient time to select coursework in an area of African American studies that is most appealing to them. Applicants must have a grade-point average of at least 2.75 at the time of application.

Applicants who have taken courses that may apply toward the certificate can review a list of acceptable coursework on the Graduate Certificate in African American Studies website. They should note the courses that may apply toward the certificate on their certificate application in addition to a written justification, or they may meet with the director of African American studies as soon as possible to begin the consideration process.

For more information on formal application to the certificate program, please visit Graduate Programs on the African American Studies website.

Aging and Longevity Studies

Director, School of Social Work

- Miriam J. Landsman

Coordinator, Aging and Longevity Studies

- Mercedes Bern-Klug

Undergraduate minor: aging and longevity studies

Graduate certificate: aging and longevity studies

Faculty: https://socialwork.uiowa.edu/people

Website: https://socialwork.uiowa.edu/

Aging and Longevity Studies offers undergraduate and graduate programs and a selection of courses open to students in all majors.

Undergraduate students in the College of Liberal Arts and Sciences who would like to focus on aging and longevity studies as their major or as a second major should consider the individualized plan of study track offered by the Interdepartmental Studies Program; see Interdepartmental Studies [p. 586] in the catalog. Entry into the program requires approval of a plan of study.

Undergraduate students working on a Bachelor of Arts degree in the School of Social Work have the option to use some aging-related coursework as an area of focus in their major. Graduate students earning a Master of Social Work degree can declare gerontology/aging as an area of focus by completing coursework in aging. For more information, contact the School of Social Work.

Aging and Longevity Studies is administered by the School of Social Work [p. 998].

Minor

- Minor in Aging and Longevity Studies [p. 49]

Graduate Program of Study

- Certificate in Aging and Longevity Studies [p. 50]

Career Advancement

The Aging and Longevity Studies Program minor or graduate certificate is an important asset for employment in any field. Working with an aging population and the issues affecting them will be increasingly important as the population of older adults also rises.

Among the organizations that have hired University of Iowa students and alumni are assisted living centers, retirement communities, senior centers, long-term care organizations, hospice centers, elder services, state government, businesses, advocacy organizations, and athletic clubs.

Areas of employment for individuals with specializations in aging and longevity studies include the following.

- State and local government agencies: State Department on Aging and Area Agency on Aging. All departments will be affected by population aging, even if they do not specialize in working with older adults, such as transportation, energy, housing, human services, small business supports, and veterans services, among others.
- Nonprofit organizations: senior centers, the American Association of Retired Persons (national, regional, and state offices), and Exploritas/Elderhostels (travel options for older adults).
- Social service organizations: Meals on Wheels, congregate meal sites, heating assistance programs, and transportation.
- Private corporations: human resources departments.

Courses

Aging and Longevity Studies Courses

ASP:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ASP:1800 Aging Matters: Introduction to Gerontology **3 s.h.**
Overview of the field of gerontology from a bio-psycho-social framework; how the human body and brain age, effects of these biological changes on physical and cognitive functions, and interaction of these individual factors with societal contexts; broad perspective to give students a foundation in gerontology, paving the way for more advanced courses in biology of aging, psychology of aging, and global aging; for students from a wide range of disciplines and levels, no prior knowledge of aging required. GE: Social Sciences. Same as CSD:1800, NURS:1800, SSW:1800, TR:1800.

ASP:2000 Big Ideas: Creativity for a Lifetime **3 s.h.**
Exploration of what senior artists can teach about creativity and aging; interdisciplinary project-based collaborative learning opportunities that consider role of arts and creativity across a lifespan; essential skills necessary to be professionals in numerous careers including health, social work, education, humanities, and the arts; identification of ways for students to be more creative in their own lives and work. GE: Values and Society. Same as ARTS:2000, EDTL:2000, RHET:2000.

ASP:2181 The Anthropology of Aging **3 s.h.**
Comparative anthropological perspective on aging; ethnographies from diverse contexts used to examine intersections of kinship, religion, health, and medicine in later life. Same as ANTH:2181, GHS:2181.

ASP:2265 Hard Cases in Healthcare at the End of Life **3 s.h.**
Preparation for future healthcare providers to make difficult ethical decisions regarding the end of life; interactive course. Same as GHS:2265, RELS:2265.

ASP:3135 Global Aging **3 s.h.**
Demographic factors that contribute to the worldwide phenomena of population aging in context of WHO Active Aging and the United Nation's Principles for Older Persons frameworks. Same as GHS:3050, SSW:3135.

ASP:3150 Psychology of Aging **3 s.h.**
The later years of human life viewed from perspectives of developmental psychology, biology, sociology.

ASP:3152 Anthropology of Caregiving and Health 3 s.h.
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ANTH:3152, GHS:3152.

ASP:3170 Health and Aging 3 s.h.
Lifespan approach to understanding human biological development with emphasis on the experience of older adulthood and health; key concepts and how they are measured, including health promotion, wellness, and optimal aging. Recommendations: ASP:1800.

ASP:3175 Physical Activity and Recreation for Aging Populations 3 s.h.
Provides an overview of physical, social, and psychological aspects of aging and how these changes relate to designing exercise programs and leisure opportunities to improve the quality of life for older adults. Prerequisites: TR:2160 or HHP:2200. Same as HHP:3175, TR:3175.

ASP:3519 Politics of Aging 3 s.h.
Core concepts and methods related to aging and policies that address the needs of older persons; demographic measures of population health and aging, including incidence and distribution of specific conditions relevant in older age; theories of public policy and involvement of older persons in the political process; key historical and current policies, at both the federal and state/local levels, that influence service provision and the well-being of older persons in the United States. Same as POLI:3519.

ASP:3740 End-of-Life Care for Adults and Families 3 s.h.
End-of-life issues in care of adults, older adults, and their families. Same as MED:3740, NURS:3740.

ASP:3786 Death/Dying: Issues Across the Life Span 3-4 s.h.
Introduction to the field of end-of-life care; examination of student concerns about death, dying, and grieving process; historical, cultural, societal, and personal perspectives of death and dying in modern society. Same as SSW:3786.

ASP:4190 Aging Studies Internship and Seminar 3 s.h.
Opportunities for students in various disciplines to relate their areas of study to older adults and aging; interdisciplinary relationships, approaches to meeting needs of older adults. Requirements: enrollment in undergraduate aging and longevity studies certificate program. Same as SSW:4190.

ASP:4470 Physiology of Aging 3 s.h.
Aging's effects on cells, tissues, and organs; how aging influences function of major body organ systems and the whole organism; physiological mechanisms that underlie age-related changes in body function and performance; integrative approach with focus on human aging. Prerequisites: HHP:3500 or HHP:3550. Same as HHP:4470.

ASP:5401 The Care of the Frail Elderly 3 s.h.
Clinical management of the elderly; emphasis on economic considerations, principles of gerontological care, common syndromes, ethical issues; clinical application experience in a long-term care setting. Prerequisites: NURS:5035. Corequisites: NURS:6200 and NURS:6701. Same as NURS:5401.

ASP:5750 Medicare and Medicaid Policy 3 s.h.
Health policies most pertinent to Americans over age of 65. Same as HMP:5750.

ASP:6000 Graduate Gerontology Capstone 3 s.h.
Review of core concepts as identified by the Academy for Gerontology in Higher Education (AGHE) in the form of core competencies; students engage in discussions related to gerontological ethical issues at individual, family, and societal levels; receive guidance in developing and writing a major research paper relevant to their field; and engage in discussions related to uses of their gerontological knowledge in terms of looking for a job or pursuing further education.

Aging and Longevity Studies, Minor

Requirements

The undergraduate minor in aging and longevity studies requires a minimum of 15 s.h. in aging-related coursework. Students must maintain a grade-point average of at least 2.00 in all courses for the minor. Coursework in the minor may not be taken pass/nonpass. Courses for the minor must be approved by the Aging and Longevity Studies Program if they are not aging and longevity studies courses (prefix ASP) or do not have aging and longevity studies courses cross-referenced.

The minor may be earned by undergraduate students in the colleges of Liberal Arts and Sciences, Education, Engineering, Nursing, and the Tippie College of Business.

The minor in aging and longevity studies requires the following coursework.

Course #	Title	Hours
ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800/TR:1800	Aging Matters: Introduction to Gerontology (recommended as first course for the minor)	3
Aging and longevity studies courses with the prefix ASP (except ASP:4190) or courses with aging and longevity cross-referenced; at least 6 s.h. of these must be numbered 3000 or above and must be taken at the University of Iowa		12

Aging and Longevity Studies, Graduate Certificate

Requirements

The graduate Certificate in Aging and Longevity Studies requires 12 s.h. of credit taken at the University of Iowa. Students must maintain a cumulative grade-point average of at least 2.75 in coursework to earn the certificate. The certificate program is open to University of Iowa graduate students with aging-related career interests and needs.

The Certificate in Aging and Longevity Studies takes a multidisciplinary approach to gerontology. Its coursework is coordinated and sequenced to provide a broad background in aging for students from varied disciplines.

Credit for the certificate must be earned in Aging and Longevity Studies Program courses (prefix ASP) and other courses approved for the program. With permission from the aging and longevity studies coordinator, students may be able to apply other aging-related courses to the certificate.

The Certificate in Aging and Longevity Studies requires the following coursework.

Core Courses

Students must complete three core courses.

Course #	Title	Hours
Both of these:		
ASP:3135/ GHS:3050/ SSW:3135	Global Aging	3
ASP:3150	Psychology of Aging	3
One of these:		
ASP:3170	Health and Aging	3
ASP:4470/HHP:4470	Physiology of Aging	3

Capstone Course

Course #	Title	Hours
This course:		
ASP:6000	Graduate Gerontology Capstone	3

Admission

University of Iowa students pursuing a graduate degree in any field who are in good academic standing are eligible to add the Aging and Longevity Studies Certificate as a program of study.

Domestic or international individuals who are not already enrolled in the Graduate College at the University of Iowa and who do not intend to earn a graduate degree must first apply for admission on the Admissions website as a nondegree graduate student. Prospective students should indicate an intention to pursue the certificate on their application.

American Studies

Interim Chair

- Rene R. Rocha

Undergraduate minor: American studies

Graduate degrees: MA in American studies; PhD in American studies

Faculty: https://americanstudies.uiowa.edu/people

Website: https://americanstudies.uiowa.edu/

The Department of American Studies provides an interdisciplinary introduction to American culture, past and present. It helps students acquire a broad familiarity with the dynamics of cultural experience and explore aspects of life in the United States, such as sport, popular and fine arts, institutions, values, gender and ethnic relations, artifacts, and the everyday life of a diverse citizenry.

The department offers an undergraduate minor in American studies as well as graduate programs of study in American studies, with a sport studies subprogram available in the PhD program of study.

The department is the administrative home of the Native American and Indigenous Studies Program and the Latina/o/x Studies Program, which offer undergraduate minors and undergraduate and graduate certificates; see Native American and Indigenous Studies [p. 868] and Latina/o/x Studies [p. 763] in the catalog.

American Studies Courses

AMST:1000 First-Year Seminar 0-1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, field trips). Requirements: undergraduate first-year standing.

AMST:1010 Understanding American Cultures 3 s.h.
The United States in historical, contemporary, and transnational perspective; social and cultural diversity and conflict in American life; debates on concepts of America, the American Dream, national culture, citizenship. GE: Values and Society.

AMST:1030 Introduction to African American Culture 3 s.h.
Examination of Black cultural experiences in the United States and the African diaspora; focus on literature, music, film, comics, anime, popular culture, and visual/performing arts. GE: Understanding Cultural Perspectives. Same as AFAM:1020.

AMST:1049 Introduction to Native American and Indigenous Studies 3 s.h.
Exploration of past, present, and future of American Indians in the United States and beyond through film, art, music, and comedy. GE: Values and Society. Same as HIST:1049, NAIS:1049.

AMST:1060 Sex and Popular Culture in America 3 s.h.
Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values and Society. Same as ENGL:1410, GWSS:1060.

AMST:1074 Inequality in American Sport 3 s.h.
Cultural meanings of sport in contemporary U.S. culture; sport experiences, inclusion, and exclusion as affected by social class, gender and sexuality, age and ability, race and ethnicity, and religion. GE: Understanding Cultural Perspectives. Same as GWSS:1074, SPST:1074.

AMST:1080 American Political Humor 3 s.h.
How political humor reflects and influences American attitudes regarding government institutions, elected officials, the democratic process; how humor works; examples from Revolutionary War present and from varied media, including cartoons, fiction, film, television, internet.

AMST:1154 Food in America 3 s.h.
Cultural significance of production, distribution, and consumption of food in the United States. GE: Values and Society.

AMST:1290 Native American Foods and Foodways 3 s.h.
Native Americans as original farmers of 46% of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of Indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. GE: Understanding Cultural Perspectives. Same as GHS:1290, HIST:1290, NAIS:1290.

AMST:1600 War Stories 3 s.h.
Exploration of the history of U.S. conflicts from Vietnam to the War on Terror through novels, film, and other cultural forms; specific focus on how U.S. social structures influence experiences of war. Same as LATS:1600, SJUS:1600.

AMST:1700 Fake News: A History of Misinformation in the United States 3 s.h.
Fake news is sometimes imagined as a recent phenomenon, but misinformation campaigns have a long history in the United States; students survey some of the most significant instances of misinformation in U.S. history from the18th century to present, explore the historical context that motivated the attempt at misinformation, consider how people sought to combat it, and reflect on outcomes and implications of these campaigns; tools to effectively identify and combat misinformation in contemporary life. Recommendations: basic knowledge of U.S. history.

AMST:2000 Introduction to American Studies 3 s.h.
Variety of historic and contemporary sources, such as literature, law, photography, painting, film, TV, music, fashions, environments, events of everyday life. GE: Values and Society.

AMST:2025 Diversity in American Culture 3 s.h.
History and variety of American identities, examined through citizenship, culture, social stratification; conflict and commonalities among groups according to race, ethnicity, gender, class, sexuality; how art, literature, music, film, photography, and other cultural artifacts represent diversity of identities. GE: Understanding Cultural Perspectives.

AMST:2084 Sport and Film 3 s.h.
Sport films as means of exploring contemporary ideas about sport in the U.S.; focus on narrative structure, characterization, historical, and political contexts; formal aspects of film analysis (e.g., editing, lighting, cinematography). Same as JMC:2084, SMC:2084, SPST:2084.

AMST:2101 Digital Media and the Future of Sport 3 s.h.
Emergence and significance of internet blogs, social media, convergence journalism, video games, and fantasy sports; economic, regulatory, and cultural forces that shape new media sport journalism and entertainment. Same as JMC:2101, SMC:2101, SPST:2101.

AMST:2150 Money, Capitalism, and Culture 3 s.h.
Investigation of novels, film, and art that represent complicated social and cultural life of money; how money's movement through American society shapes and is shaped by gender, race, and class dynamics; social origins and historical consequences of money, capital, and stock market; how novelists, filmmakers and artists come to terms with capitalism's ever-expanding reach.

AMST:2160 Love and Romance in America 3 s.h.
Exploration of the role of love and romance in the American experience; analysis of love and romance in their association with American ideals—pursuit of happiness, upward mobility, and liberation of self, nation, and world; history of romance as a genre; contemplation of picket fences, free love, bromance, valentines, green cards, desperate housewives, break-ups, hook-ups, and (un)happily ever after. Same as GWSS:2160.

AMST:2165 Native Peoples of North America 3 s.h.
History, culture of American Indian peoples; emphasis on North America. GE: Understanding Cultural Perspectives. Same as ANTH:2165, NAIS:2165.

AMST:2230 Fame and Celebrity in U.S. History 3 s.h.
Cultural history of the meanings and implications of fame and celebrity in America; conception of fame in the 18th century as something earned through great deeds and conferred by future generations; rise of a culture of celebrity in 19th- and 20th-century America; focus on theater, sports, movie, and musical stars; use of celebrities to sell products; implications for presidential campaigns; instant and ephemeral celebrity generated by television and the internet. Same as HIST:2230.

AMST:2292 Native American Law and Policy: A History 3 s.h.
Native Americans are citizens of governments that predate the U.S.; what it means to be a citizen of a federally recognized tribe within the U.S.; exploration of the peculiar status of Native nations and their citizens since 1789. Same as HIST:2292, NAIS:2292.

AMST:2300 Native Americans in Film 3 s.h.
Representations of Native Americans in film from the western to science fiction and animation. Same as NAIS:2300.

AMST:2700 The Black Image in Sequential Art: Comics, Graphic Novels, and Anime 3 s.h.
Provides a foundation to critically interpret the representation of people of African descent in sequential art; primary focus on serial comic strips, gags, comic books, graphic novels, video games, animation, anime, Manga, film, zines, and televisual examples of Blackness; emphasis of readings and viewing materials on gender, sexualities, economics, ethnicity, the transnational circulation and commodification of the Black image, fandom communities, independent and mainstream sequential art producers. Same as AFAM:2700.

AMST:2847 Hawkeye Nation: On Iowa and Sport 3 s.h.
Identity, community, and place explored within local frameworks: the University of Iowa, Iowa City, State of Iowa; how sport, literature, film, other cultural institutions forge connections to community and shape Iowa's image in the public imagination; identity and community as complex and contested issues; local rituals, sites of memorialization, acts of erasure, management and use of public and private space such as UI athletic complex, Field of Dreams, Iowa Writers' Workshop, Iowa Avenue Literary Walk, Blackhawk Park; interdisciplinary approaches grounded in American studies, sport studies, Native American and Indigenous studies, literature, history. Same as SPST:2847.

AMST:3050 Topics in American Cultural Studies 3 s.h.
Special topics in American history, literature, culture.

AMST:3053 The Civil Rights Movement 3 s.h.
History of the American civil rights movement. Same as AFAM:3053, HIST:3253.

AMST:3078 Archiving Women's History 3 s.h.
Exploration of girls' and women's history in Iowa through collections at the Iowa Women's Archives; introduction to archival research, digital humanities, and Omeka (a digital collection and exhibit platform) with focus on sport-related collections; guided individualized research and exhibit development. Same as GWSS:3078, MUSM:3078, SPST:3078.

AMST:3095 Central America and Its Diaspora 3 s.h.
Explore the social structures, histories, and cultures of a number of Central American countries; specificities of the U.S. Central American experience including the challenges they face from other Latinx groups, changing immigration regimes, their relationship to their "home" countries, and the cultures and communities they build once they arrive. Same as LATS:3095.

AMST:3100 Critical Race Theory: Culture, Power, and Society 3 s.h.
Examination of the historical context of race and racism in U.S. history; focus on how social structures perpetuate longstanding patterns of racial inequality. Same as AFAM:3100, SOC:3100.

AMST:3171 Baseball in America 3 s.h.
Forces that influenced political, economic, and social development of professional baseball in the United States; rise of major league baseball, its relationship to the minor leagues, and development of organized baseball industry. Same as SPST:3171.

AMST:3178 History of Sport in the United States 3 s.h.
Historic development of sport in the United States between 1700 and 2000; economic forces, professionalization, growth of media, increasing opportunities, and ongoing challenges for various sporting populations. Same as SPST:3178.

AMST:3179 Twentieth-Century American Sport 3 s.h.
Historic development of sport in the United States between 1900 and 2000; economic forces, professionalization, growth of media, and increasing opportunities and ongoing challenges for various sporting populations. Same as SPST:3179.

AMST:3205 American Cultural History 3 s.h.
Nineteenth- and twentieth-century U.S. history from a cultural perspective; culture defined broadly to encompass paintings, sculpture, theater, novels, and newer forms of entertainment made available by lithography, photography, cinema, the phonograph, radio, and television; rather than assume Americans were passive consumers of commercial culture, students examine how Americans expressed themselves through foodways, home decor, clothing fashions, or slang; how Americans drew on these cultural forms in social/political struggles over race, gender, class, and sexuality. Same as HIST:3205.

AMST:3249 Midwestern History 3 s.h.
People of Iowa and surrounding Midwestern states—a land where people work hard, are practical, down to earth, and honest; the idea of a place in the heartland as real or simply a myth; history of Midwestern states from Native American occupation to present; how reality, ideas, and images are portrayed. Same as HIST:3249.

AMST:3251 The Office: Business Life in America 3 s.h.
History of business life in America from birth of Wall Street to rise of Silicon Valley; modes of managing and regulating office workers; changing designs of office buildings, furniture, gadgets; corporate response to rise of class inequalities and growing gender and racial diversity in workforce; portrayal of businessperson in novels, movies, television, art, photography. Same as HIST:3251.

AMST:3264 Technology in American Culture and Society 3 s.h.
Social and cultural history of technology in the United States from cotton gin to smartphone; how technologies have shaped and been shaped by American culture, society, and politics—encompassing technologies of production, communication, transportation, entertainment, warfare, voting, surveillance, and more; economic forces spurring technological innovation and ways in which ordinary users re-appropriate technologies; cultural responses to new technologies (e.g., writers, artists, filmmakers, critics) ranging from fear to celebration; utopian and dystopian imaginings of future technologies. Same as HIST:3264.

AMST:3265 American Monuments 3 s.h.
History of public monuments in America from the inception of first major monuments in the 1820s to the latest incarnations (e.g., counter-monuments such as the 9/11 Memorial, spontaneous and temporary monuments, online memorials); how monuments have depicted Indians, Blacks, Southern confederates, women, and other groups; how monuments have commemorated wars, Indian massacres, lynchings, and political movements (e.g., civil rights, women's suffrage); how monuments have been reinterpreted through popular protests and depositing of artifacts; why monuments have attracted so much controversy, culminating in recent events at Charlottesville. Same as HIST:3265.

AMST:3410 Undocumented America: Citizenship, Race, and Immigration 3 s.h.
Examination of how literature and culture responds to and rearticulates culture, history, legal logic, and economic parameters that frame who is "legal" and "illegal" and how undocumented immigrants document and contest their lack of rights; how designations of immigrant's illegal or undocumented status depend on and maintain U.S. discourse about race and ethnicity. Same as LATS:3410.

AMST:3415 Latina/o/x Protest, Movement, Resistance 3 s.h.
Examination of history, form, and function of protest, social movement, and resistance by Latina/o/x peoples in the United States. Same as LATS:3415, SJUS:3415.

AMST:3420 Latinas/os/x and the Law 3 s.h.
Introduction and survey of Latina/o/x legal history; topics include segregation, educational rights, immigration, voting rights, citizenship, and the criminal justice system. Same as LATS:3420, POLI:3427, SJUS:3420.

AMST:3430 Women on Stage 3 s.h.
Examination of how and why women in the United States have expressed themselves through theatre and performance from 1776 to present; students study plays as performed events in specific times and places for specific audiences through works by African American, Asian American, European American, Latina, Native American, and lesbian/queer writers; what the theater—as a public, embodied art form—offers female writers; how stakes differ for women of diverse backgrounds in using this often suspect and uniquely powerful medium in particular historical moments; how changing definitions of gender and sexuality come into play; prior background in theater not required. Same as GWSS:3430, THTR:3430.

AMST:3450 Queer Latina/o/x Studies 3 s.h.
Relationship of Latina/o/x culture with gender, sexuality, and queerness. Same as LATS:3430, SJUS:3430.

AMST:3600 Digitizing Blackness 3 s.h.
Examination of Black cultural experiences in digital spheres, including digital humanities and new information technologies; focus on Afrofuturism, gaming, augmented reality, digital mapping, podcasting, social media, and digital cultures; exposure to digital tools and methods. Same as AFAM:3600.

AMST:3900 Seminar in American Cultural Studies 3 s.h.
Interdisciplinary perspectives on a single theme or period.

AMST:3994 Independent Study arr.

AMST:4800 Latina/o/x Popular Culture 3 s.h.
Role of Latina/o/x popular culture as a site of contemporary social practice and cultural politics in both local and global contexts; specific attention to notions of citizenship, identity, and culture. Taught in English. Same as LATS:4800.

AMST:4999 Honors Project arr.
Independent interdisciplinary research, writing.

AMST:5000 Interdisciplinary Research in American Cultures 3 s.h.
Research, theories, and methods in the interdisciplinary study of American cultures.

AMST:5002 Critical Theories and Cultural Studies 3 s.h.
Exploration and application of critical theories to contemporary sport; feminism, Marxism, critical race theory, whiteness studies, queer theory, postcolonial theory, postmodernism, and poststructuralism. Same as SPST:5002.

AMST:6050 Seminar: Topics in American Studies 3 s.h.
American cultural history; urbanization, mass media, pluralism, assimilation.

AMST:6074 Seminar in Sport History 3 s.h.
Topics in sport history; theoretical and methodological issues. Same as SPST:6074.

AMST:6140 Engaged Scholarship in the Humanities 0,3 s.h.
Survey of literature on community-engaged scholarship (CES) in the humanities; exploration of the pioneering work of engaged scholars in Native American, Latino, and African American studies; students write a research prospectus that is consistent with CES methodologies. Same as HIST:6140.

AMST:6300 Writing for Learned Journals 1-4 s.h.
Seminar that supports graduate students in bringing written work to publishable form; analysis of target journals' audiences, interests, and citation politics; submission and the publication process; response to reader reports and criticism; best writing and research practices; discussion of knowledge cultures and discourses in disciplines and the contemporary academy. Same as GRAD:6300, GWSS:6300, RHET:6330.

AMST:6500 Critical Readings in Cultural Studies: Stuart Hall's Legacy and Influences 3 s.h.
Exploration of the scholarship of Stuart Hall along with theories, methods, and history of cultural studies; focus on major areas of Hall's work including Marxist thought and the political economy, diasporas and globalization, cultural production and popular culture, film and cinema studies, race, ethnicity, identity, and differánce; key theorists that influenced Stuart Hall (e.g., Marx, Foucault, Fanon, Gramsci, Althusser) and scholars in cultural studies that have made appropriate use of Hall's writings and theories in their own work; role of theory in everyday life and the critical role of public intellectuals. Same as AFAM:6500, ENGL:6050.

AMST:7077 Sport Studies Workshop 1 s.h.
Development of individual research projects for group discussion. Requirements: graduate standing in American studies or sport studies. Same as SPST:7070.

AMST:7085 Dissertation Writing Workshop 1 s.h.
Dissertation preparatory work with peer and faculty critiques, including preparation of a prospectus, research activities, and chapter writing. Requirements: American studies graduate standing with postcomprehensive examination status.

AMST:7090 PhD Thesis arr.

AMST:7146 Temporality in History: United States and Beyond 1,3 s.h.
Introduction to growing field of temporal history; how time has been measured, regulated, experienced, and imagined in the West and non-West from antiquity to present with emphasis on 19th-and 20th-century United States; topics include time discipline (e.g., factory, slave plantation, corporate office), standard time, and deep time; focus on changing technologies of time (e.g., clocks, calendars) and to temporal impact of other technologies (e.g., cinema); application of temporal perspective to political revolution, warfare, nation building, class formation, gender relations, slavery, and urbanization. Same as HIST:7146.

AMST:7559 Race, Science, and Nature in Latin America arr.
Analysis of the history of United States and Latin America relations in the 20th century through the lens of scientific and agricultural change; how plant breeding, agrochemicals, heavy machinery, and irrigation systems set in motion trends that made the 20th century exceptional; possibility of feeding an unprecedented growing global population and transition of human species from being primarily rural to primarily urban in less than a hundred years; analysis of how a network of scientists, businesses, and governments made proliferation of agribusinesses possible to emphasize Indigenous and Mestizo peasants' role in that process. Same as HIST:7559, SEES:7559.

AMST:7994 Independent Study arr.

Sport Studies Courses

SPST:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

SPST:1074 Inequality in American Sport 3 s.h.
Cultural meanings of sport in contemporary U.S. culture; sport experiences, inclusion, and exclusion as affected by social class, gender and sexuality, age and ability, race and ethnicity, and religion. GE: Understanding Cultural Perspectives. Same as AMST:1074, GWSS:1074.

SPST:2077 Sport and Religion in America 3 s.h.
Sport as a religion; religiosity in sports; examination of religion and sport as connected in important ways in American society. Same as RELS:2877.

SPST:2078 Women, Sport, and Culture 3 s.h.
Feminist analysis of girls' and women's sports experiences, including reproduction of gender through sport, recent changes in women's intercollegiate athletics, media representations of women's sport, feminist critiques, alternatives to sport. Same as GWSS:2078.

SPST:2079 Race and Ethnicity in Sport 3 s.h.
Structural and ideological barriers to racial and ethnic equality in sport, with focus on African American sport experiences; historical and contemporary issues, media representations. Same as AFAM:2079.

SPST:2084 Sport and Film 3 s.h.
Sport films as means of exploring contemporary ideas about sport in the U.S.; focus on narrative structure, characterization, historical, and political contexts; formal aspects of film analysis (e.g., editing, lighting, cinematography). Same as AMST:2084, JMC:2084, SMC:2084.

SPST:2101 Digital Media and the Future of Sport 3 s.h.
Emergence and significance of internet blogs, social media, convergence journalism, video games, and fantasy sports; economic, regulatory, and cultural forces that shape new media sport journalism and entertainment. Same as AMST:2101, JMC:2101, SMC:2101.

SPST:2170 Sport and Globalization 3 s.h.
Sport as both a global and local phenomenon; influence of global economic, political, and cultural forces on local sporting expressions, experiences, and identities; global sporting cultures from cricket to capoeira; global sporting spectacles from the Olympics and Paralympics to the FIFA World Cup; global sporting celebrities and athlete migrants from Maria Sharapova and Christiano Rinaldo to Yao Ming and Dominican Republic baseball; global sporting production, consumption, and development from global labor and environmental concerns to sport for development and peace. GE: Sustainability. GE: International and Global Issues; Sustainability.

SPST:2500 Sport and Technology 3 s.h.
Connections between sport and technology; performance enhancement to Paralympians, sex testing to scientific racism, Fitbits to e-sports, data analytics and journalism; cultural approaches to understanding how science, medicine, and technology impact active bodies, sporting industries, and infrastructure; debates regarding risks and responsibilities; exploration of various roles (e.g., athletes, administrators, architects, engineers, programmers, trainers) in creating and sustaining past, present, and future of sports. Same as SMC:2500.

SPST:2847 Hawkeye Nation: On Iowa and Sport 3 s.h.
Identity, community, and place explored within local frameworks: the University of Iowa, Iowa City, State of Iowa; how sport, literature, film, other cultural institutions forge connections to community and shape Iowa's image in the public imagination; identity and community as complex and contested issues; local rituals, sites of memorialization, acts of erasure, management and use of public and private space such as UI athletic complex, Field of Dreams, Iowa Writers' Workshop, Iowa Avenue Literary Walk, Blackhawk Park; interdisciplinary approaches grounded in American studies, sport studies, Native American and Indigenous studies, literature, history. Same as AMST:2847.

SPST:3078 Archiving Women's History 3 s.h.
Exploration of girls' and women's history in Iowa through collections at the Iowa Women's Archives; introduction to archival research, digital humanities, and Omeka (a digital collection and exhibit platform) with focus on sport-related collections; guided individualized research and exhibit development. Same as AMST:3078, GWSS:3078, MUSM:3078.

SPST:3171 Baseball in America 3 s.h.
Forces that influenced political, economic, and social development of professional baseball in the United States; rise of major league baseball, its relationship to the minor leagues, and development of organized baseball industry. Same as AMST:3171.

SPST:3172 Football in America 3 s.h.
Forces that influenced political, economic, and cultural development of college and professional football in the United States; rise of the National Football League and its relationship to college football and commercial media interests.

SPST:3173 Cultures of Basketball 3 s.h.
Exploration of different ways basketball has been played, marketed, and celebrated in the United States and globally. Recommendations: background in U.S. history and/or African-American history.

SPST:3175 Sport and the Media 3 s.h.
Examination of sport and media's intimate relationship; aesthetic, cultural, political, economic, and industrial factors that shape it. Same as JMC:3183.

SPST:3176 Sport and Nationalism 3 s.h.
Role of sport in the phenomenon of nationalism; selected theories; case studies on Ireland, Australia, British West Indies, Cold War United States, and fascist Europe.

SPST:3178 History of Sport in the United States 3 s.h.
Historic development of sport in the United States between 1700 and 2000; economic forces, professionalization, growth of media, increasing opportunities, and ongoing challenges for various sporting populations. Same as AMST:3178.

SPST:3179 Twentieth-Century American Sport 3 s.h.
Historic development of sport in the United States between 1900 and 2000; economic forces, professionalization, growth of media, and increasing opportunities and ongoing challenges for various sporting populations. Same as AMST:3179.

SPST:3181 The Business of Sport Communication 3 s.h.
Critical and practical approach to understanding contemporary sports media and business practices that mark it; focus on sports media industries and institutions; branding, marketing, demographic, public relations, and promotional factors that shape content. Same as JMC:3540, SMC:3540.

SPST:3182 Sport, Scandal, and Strategic Communication in Media Culture 3 s.h.
Use of sport scandal to consider relationship between sport and media in American and global popular culture; broad range of case studies used to consider what constitutes a sport scandal, how this definition shifts in different circumstances; crucial roles media play in creating, communicating, and diffusing these crises; how phenomenon of sports scandal has intensified along with emergence of cable television, internet, and social media. Same as JMC:3182, SMC:3182.

SPST:3184 Narrative Sports Journalism 3 s.h.
Historical review of long-form sports journalism to understand development of subjects, form, and technique of sports coverage and long-form nonfiction writing; students read several long-form articles and books that incorporate reporting about sports, and propose an original long-form work about sports. Same as JMC:3184, SMC:3184.

SPST:3193 Independent Study 1-3 s.h.
Problem in a specific area.

SPST:3500 The Olympics 3 s.h.
Real-time analysis and evaluation of current Winter or Summer Olympic and Paralympic Games; cultural history of modern Olympic Games (1896 to present); economics and politics of mega-events (e.g., cancellations, boycotts, protests); amateurism, professionalism, and athlete migrants; commercialization, broadcasting rights, and branding; nationalism, internationalism, and (post)colonialism; social and cultural impacts and controversies (e.g., social and environmental sustainability); Olympic bids, committees, and hosts; sex, gender, and racial discrimination; doping; technology, television, and social media.

SPST:3600 Internship in Sport and Culture 1-3 s.h.
Faculty-supervised professional work experience in sport and culture. Requirements: major in sport media and culture or sport and recreation management.

SPST:4999 Honors Project 1-3 s.h.

SPST:5002 Critical Theories and Cultural Studies 3 s.h.
Exploration and application of critical theories to contemporary sport; feminism, Marxism, critical race theory, whiteness studies, queer theory, postcolonial theory, postmodernism, and poststructuralism. Same as AMST:5002.

SPST:6010 Nonprofit Organizational Effectiveness I **3 s.h.**
Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as HMP:6360, MGMT:9150, PBAF:6278, RELS:6070, SSW:6247, URP:6278.

SPST:6020 Nonprofit Organizational Effectiveness II **3 s.h.**
Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Same as HMP:6365, MGMT:9160, PBAF:6279, RELS:6075, SSW:6248, URP:6279.

SPST:6072 Seminar in Cultural Studies of Sport **3 s.h.**
Current theoretical debates in sport studies; applications of critical cultural studies theories to critical analysis of sport.

SPST:6074 Seminar in Sport History **3 s.h.**
Topics in sport history; theoretical and methodological issues. Same as AMST:6074.

SPST:7070 Sport Studies Workshop **1 s.h.**
Development of individual research projects for group discussion. Requirements: graduate standing in American studies or sport studies. Same as AMST:7077.

SPST:7090 Thesis: PhD **arr.**

SPST:7940 Independent Study **arr.**

American Studies, Minor

Requirements

The undergraduate minor in American studies requires a minimum of 15 s.h. in American studies courses (prefix AMST), including 12 s.h. numbered above AMST:1010 Understanding American Cultures taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students select courses for the minor according to their interests and the recommendation of their advisor.

American Studies, MA

Learning Outcomes

Students must demonstrate:

- comprehension of the history, values, and methods of interdisciplinary scholarship in the field of American studies;
- knowledge of the multiple forums that exist for the communication, implementation, and praxis of American studies scholarship in social and institutional contexts where diversity, equity, and inclusion are guiding values;
- proficiency in advanced research and scholarly writing skills in the field of American studies;
- ability to articulate one's own intellectual commitments and professional goals within and in relationship to the field;
- hands-on participation in university certificate programs, community-based projects and internships, or digital humanities projects, training in college teaching pedagogy where consistent with their individual development plan; and
- critical thinking, writing, and speaking skills that are central to being an effective teaching assistant in university or college courses numbered in the 1000 range, and creation of a teaching portfolio.

Requirements

The Master of Arts program in American studies requires a minimum of 36 s.h. of graduate credit. Students must maintain a program grade-point average of at least 3.00. The degree is generally offered without a thesis; students must petition the director of graduate studies for permission to pursue the thesis option.

Each MA student designs an interdisciplinary field of concentration in consultation with the student's American studies advisor.

The MA with a major in American studies requires the following work.

Course #	Title	Hours
AMST:5000	Interdisciplinary Research in American Cultures (taken twice in consecutive years for 3 s.h. each)	6
Two graduate seminars in American studies		6
Five courses in the interdisciplinary field of concentration		15
Electives		9
MA portfolio		
Total Hours		**36**

Each student must complete a portfolio or thesis. The portfolio includes a research paper, faculty evaluations for all courses taken during the student's first full year of graduate study, and a self-evaluation essay.

The research paper is a graduate seminar paper that demonstrates a student's skills as a research scholar and writer and represents the student's strongest work. The paper should be 25–30 pages, including a bibliography.

The self-evaluation essay summarizes the American studies methods and materials that have shaped the student's interdisciplinary work in the field and states how the master's degree work in American studies has contributed to, challenged, or complicated the student's goals and ambitions beyond the degree.

Students assemble the MA portfolio under the guidance of their advisors and should submit it no later than Dec. 1 of their third semester in residency. The portfolio is evaluated on a satisfactory/unsatisfactory (S/U) basis by a three-person American studies faculty committee. Students whose portfolio receives a U may resubmit the portfolio during their fourth semester of residency.

For students who wish to continue their education with doctoral study, the MA portfolio serves as the application for admission to the PhD program in American studies. The department informs applicants whether they have been accepted into the PhD program by the end of the fall semester in which they submit their MA portfolio; admission is contingent upon successful completion of the MA during a student's fourth semester of residency.

Thesis Option

As an alternative to the portfolio, students may complete a master's thesis. Students planning to write a thesis should inform their advisor as early as possible, and at least one or two semesters in advance of graduation. A thesis involves interdisciplinary research and analysis, and represents an original contribution to knowledge. In most cases, the thesis is a 50–75 page manuscript. However, students may propose alternatives to the traditional form, provided they have the dissertation committee's approval and complete a memorandum of understanding with the director of graduate studies in American studies.

The thesis will be assessed by a committee composed of a student's advisor and two other faculty members. The thesis is distributed to the committee at least two weeks ahead of an oral defense.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

American studies students' career goals are as varied as the topics they study. Graduates are well prepared for careers in a wide range of areas, such as business, education, arts and museum administration, government, journalism, or social services.

The program also provides a good foundation for graduate studies in the humanities, the social sciences, theology, and business as well as for professional studies in law or medicine.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Take twice in consecutive years.

c Each student designs an interdisciplinary field of concentration which consists of at least five courses (15 s.h.). Work with faculty advisor to determine appropriate graduate coursework.

d Work with faculty advisor to determine appropriate graduate seminars.

e Work with faculty advisor to determine appropriate graduate elective coursework.

f Completion of an MA portfolio, which includes a research paper, faculty evaluations for all courses taken during the student's first full year of graduate study, and a self-evaluation essay.

American Studies, PhD

The Doctor of Philosophy program in American studies is not currently accepting new applicants.

Learning Outcomes

Students must demonstrate:

- comprehension of the history, values, and methods of interdisciplinary scholarship in the discipline of American studies, and for sport studies subprogram students, this involves a knowledge of the current and foundational theory and methods in critical sport studies, as well as of the contributions to sport studies to American studies and vice-versa;
- knowledge of the multiple forums that exist for the communication, implementation, and praxis of American studies scholarship in social and institutional contexts, especially where diversity, equity, and inclusion are guiding values;
- ability to articulate one's own values, intellectual commitments, and professional goals within and in relationship to the field;
- proficiency in advanced research and scholarly writing skills in the field;
- hands-on participation in university certificate programs, community-based projects and internships, or digital humanities projects, training in college teaching pedagogy where consistent with the student's individual development plan;
- proficiency at situating and interpreting American social and cultural materials historically, while grasping the diversity and distinctness of historical factors as economic, colonial, racializing, transnational, global, and/or linguistic;
- proficiency and experience in communicating American studies scholarship publicly in at least three professional contexts including conference presentations and/or conference organizing; exhibitions/installations; editorial or curatorial work; invited talks; public engagement or public humanities project; publications; or digital humanities project;
- proficiency in the conceptualization, communication, and organizational skills that are crucial to pedagogy at multiple levels of a university or college curriculum, and the creation of a teaching portfolio;
- knowledge of major movements and debates in critical theory and cultural studies, as well as the theoretical and methodological issues and debates in sport history (for sport studies subprogram students); and
- understanding of how historical method, critical theory, and cultural studies concepts are utilized in critical sport studies scholarship, and identifying sports studies' place within and contributions to the wider study of culture and power (for sport studies subprogram students).

Requirements

The Doctor of Philosophy program in American studies requires a minimum of 72 s.h. of graduate credit. Students must maintain a program grade-point average of at least 3.00. They may focus on American studies or choose the sport studies subprogram.

Students work with their faculty advisor to map out a coherent plan of study that reflects their particular interests. Students are permitted considerable flexibility in constructing their study plan, but they must meet certain basic requirements, which include foundation courses, area foundation courses, two interdisciplinary fields of concentration, a research skills course, elective coursework, and a dissertation.

The two fields of concentration may be defined to correspond with a student's strongest intellectual interests, but they must be interdisciplinary in concept and multidisciplinary in scope. Each must include coursework from more than one of the university's departments and programs. The two concentration areas may, and usually should, have an intellectual relationship with each other.

Students are expected to address the cultural diversity of American life in their coursework and reading.

The PhD in American studies requires the following work. Some course requirements are different for American studies and sports studies.

Coursework

Required Foundation Course

All students complete the required foundation course and should take it as early as possible.

Course #	Title	Hours
AMST:5000	Interdisciplinary Research in American Cultures (taken twice in consecutive years for 3 s.h. each)	6

Area Foundation Courses

Course #	Title	Hours
American Studies Students		
Two American studies graduate seminars		6
Sport Studies Students		
SPST:5002	Critical Theories and Cultural Studies	3
SPST:6074	Seminar in Sport History	3

First Field of Concentration

Course #	Title	Hours
American Studies Students		
Courses in an interdisciplinary field with a historical concentration designed with the advisor and approved by the department's Plan of Study Committee		18
Sport Studies Students		
Courses on sport in cultural and historical contexts selected with the advisor and approved by the department's Plan of Study Committee		18

Second Field of Concentration

Course #	Title	Hours
American Studies Students		
Courses in an interdisciplinary field designed with the advisor and approved by the department's Plan of Study Committee		18
Sport Studies Students		
Courses in an interdisciplinary field designed with the advisor and approved by the department's Plan of Study Committee; may be a second field in sport studies or a field outside sport studies		18

Research Skills

All students take the following course.

Course #	Title	Hours
AMST:7085	Dissertation Writing Workshop (taken two or three times for 1 s.h. each)	2-3

Additional Requirements

All students take the following courses.

Course #	Title	Hours
All of these (to meet semester hours requirement to graduate):		
AMST:7090	PhD Thesis	arr.
Electives		

Admission to PhD Candidacy

Admission to PhD candidacy signifies that the department judges a doctoral student qualified to take the comprehensive examination. Doctoral students advance to PhD candidacy based on a review conducted during their second year in the PhD program (typically during fall semester); the review assesses a student's readiness to complete studies through the comprehensive examination and the dissertation, which is an original work of scholarship. In addition to judging a student's readiness for PhD candidacy, the review provides a progress report on the student's work and a tentative prognosis for future prospects in the field.

Comprehensive Examination

The comprehensive examination comprises three written exams and one oral exam.

The first exam is taken under the supervision of an American studies faculty member, who also chairs the comprehensive examination. The candidate takes a timed, take-home written exam of no less than four hours and no longer than two days. The exam details the candidate's approach to American studies (methods and models), including the student's position and critical engagement with models of American studies scholarship.

The remaining two written exams explore the candidate's major fields; these are at least four hours long and may be given on a take-home basis at the examiner's discretion.

The oral exam covers material from the written exams.

Dissertation

The final requirement for the PhD is the dissertation. A dissertation in American studies is a substantive work of scholarship that involves interdisciplinary research and analysis, and represents an original contribution to knowledge. In most cases, the dissertation takes the form of a book-length manuscript. However, students may propose alternatives to the traditional form, provided they have the dissertation committee's approval and complete a memorandum of understanding with the director of graduate studies in American studies. All dissertations must be approved by a committee of four faculty members, including at least two from the Department of American Studies.

Internships

Qualified graduate students in American studies can arrange internships with a number of local agencies, including the State Historical Society of Iowa, the Division of Historic Preservation, the University of Iowa Stanley Museum of Art, the Iowa Humanities Board, Brucemore, the Herbert Hoover Presidential Library and Museum, the Englert Theatre, and the Putnam Museum and Science Center. With special permission, candidates conducting research during on-the-job training may receive academic credit through AMST:7994 Independent Study. Other internships with social agencies, government, or businesses may also be arranged.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

American studies students' career goals are as varied as the topics they study. Graduates are well prepared for careers in a wide range of areas, such as business, education, arts and museum administration, government, journalism, or social services.

The program also provides a good foundation for further graduate studies in the humanities, the social sciences, theology, and business as well as for professional studies in law or medicine.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

American Studies, PhD

Course	Title	Hours
Academic Career		
Any Semester		
72 s.h. must be graduate level coursework; graduate transfer credits allowed upon approval. More information is included in the General Catalog and on department website. [a]		
Students work with their faculty advisor to map out a plan of study that reflects their particular interests; needs to include foundation courses, area foundation courses, two interdisciplinary fields of concentration, a research skills course, elective coursework, and a dissertation. [b]		
	Hours	**0**
First Year		
Fall		
AMST:5000	Interdisciplinary Research in American Cultures [c]	3
American Studies seminar course [d]		3
Field of Concentration course [e]		3
	Hours	**9**
Spring		
American Studies seminar course [d]		3
Field of Concentration course [e]		3

Field of Concentration course [f]		3
	Hours	**9**
Second Year

AMST:7090	PhD Thesis	3
Final Exam [j]		
	Hours	**3**
	Total Hours	**72**

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b The two fields of concentration may be defined to correspond with a student's strongest intellectual interests, but they must be interdisciplinary in concept and multidisciplinary in scope. Each must include coursework from more than one department and program. The two concentration areas may, and usually should, have an intellectual relationship with each other.

c Take twice in consecutive years.

d Work with faculty advisor to determine appropriate graduate seminars.

e Complete at least 18 s.h. in a first field of concentration; work with faculty advisor to determine appropriate graduate coursework in an interdisciplinary field with a historical concentration.

f Complete at least 18 s.h. in a second field of concentration; work with faculty advisor to determine appropriate graduate coursework in an interdisciplinary field.

g Consists of three written and one oral exam.

h Take two or three times (2-3 s.h. total).

i Work with faculty advisor to determine appropriate graduate elective coursework; includes AMST:7090.

j Dissertation defense.

Anthropology

Chair

- Andrew Kitchen

Director of Graduate Studies

- Margaret Beck

Director of Undergraduate Studies

- Matthew E. Hill

Undergraduate major: anthropology (BA, BS)

Undergraduate minor: anthropology

Graduate degrees: MA in anthropology; PhD in anthropology

Faculty: https://anthropology.uiowa.edu/people

Website: https://anthropology.uiowa.edu/

Anthropology is the comparative study of peoples and cultures past and present. The discipline's two major subfields—medical anthropology and archaeology—share a holistic, global perspective and commitment to field-based methodologies. Anthropological knowledge constructively contributes these perspectives and methods to work in other social sciences, physical and biological sciences, and the arts and humanities.

Anthropology provides a framework for understanding the relation of human beings to their natural environment and to the social and cultural worlds they create and inhabit. The field provides insight into biological and sociocultural evolution and examines how economic, social, and political processes, symbolic systems, and social structures interact to shape human experience. Fieldwork-based comparative studies of past and present cultures yield information on regularities and differences, and special insight into the diversity of human creativity and cultural change.

Anthropological training provides skills useful in a variety of careers. As the American Anthropological Association points out, "careful record-keeping, attention to details, analytical reading, and clear thinking are taught by anthropological courses. Social ease in strange situations, critical thinking, and strong skills in oral and written expression are cultivated by anthropological training."

For undergraduates, the department offers two optional tracks within the major—archaeology and medical anthropology—for students with specialized interests in these areas.

The Department of Anthropology also offers numerous courses that undergraduate students in all majors may use to fulfill GE CLAS Core [p. 22] requirements.

At the graduate level, the department grants both MA and PhD degrees in anthropology. Most students enter the PhD program and are awarded an MA after fulfilling program requirements at the end of their second year. The department also offers a terminal MA degree with a focus on cultural resource management (CRM) in archaeology, which provides academic preparation for a professional career in this field. Students work closely with faculty and staff from the Office of the State Archaeologist.

The department serves as the administrative home for Global Health Studies, which offers two undergraduate degrees, a minor, and a graduate certificate; see Global Health Studies [p. 487] in the catalog for more information.

Faculty

Members of the anthropology faculty work within and across the discipline’s two subfields, and conduct both localized and multi-sited field research at locations worldwide, including South and Southeast Asia; Europe; southern Africa; North America (especially the United States); South America; and the Pacific (especially Hawaii and New Zealand).

Current faculty interests include North America, cultural politics, environmental anthropology, European archaeology, feminist anthropology and sexuality studies, medical anthropology, science and technology studies, and Asian studies. For more details, visit People on the Department of Anthropology website.

Programs

Undergraduate Programs of Study

Majors

- Major in Anthropology (Bachelor of Arts) [p. 69]
- Major in Anthropology (Bachelor of Science) [p. 74]

Minor

- Minor in Anthropology [p. 79]

Graduate Programs of Study

- Master of Arts in Anthropology [p. 80]
- Doctor of Philosophy in Anthropology [p. 83]

Resources and Facilities

The department has well-equipped laboratories for the study of archaeology, biological anthropology, computational genetics, and evolutionary anthropology. Resources include a GIS/quantitative analysis laboratory, ground penetrating radar, x-ray fluorescence equipment, and three-dimensional (3D) scanning equipment.

Under the direction of university archaeologists, students acquire skills in data recovery and interpretive techniques. Opportunities are available for students to participate in archaeological field research in Portugal, Sicily, and various sites in the United States.

Individual faculty members maintain field laboratories and conduct research outside the United States, maintaining ties with research institutions in other countries, including Gemeente Nijmegen, Bureau Archeologie, Nijmegen, the Netherlands; the Deutsches Archäologisches Institut of Madrid, Spain; and the National University of Singapore, Singapore.

The department has access to the Iowa Archaeological Collections through the Office of the State Archaeologist and maintains its own archaeological collections (midwestern prehistoric and historical and comparative faunal material).

The department maintains a documented human osteology teaching collection amassed by the University of Iowa Carver College of Medicine and the Department of Anatomy and Cell Biology. It also holds a substantial documented human osteology research collection originally from Stanford University's medical school that is maintained jointly with the Office of the State Archaeologist.

The university is a charter member of the Human Relations Area Files (HRAF), an extensively annotated set of source materials on the peoples of the world—their environments, behavioral patterns, social lives, and cultures. Through HRAF and other library resources, anthropology students have access to source materials on more than 400 different cultures.

The university's exchange programs for Iowa students provide opportunities and some scholarships for study abroad.

Courses

Anthropology Courses

ANTH:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g. films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ANTH:1001 Issues in Anthropology 3 s.h.
In-depth exploration of methodological and theoretical issues in contemporary anthropology; emphasis on critical reading of primary texts.

ANTH:1040 Language Rights 3 s.h.
Language minorities and linguistic human rights in the United States and worldwide; language and identity, culture, power; case studies of language rights deprivation. GE: International and Global Issues. Same as LING:1040.

ANTH:1046 Environmental Politics in India 3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: Sustainability. GE: International and Global Issues; Sustainability. Same as GWSS:1046, SEES:1046, SJUS:1046.

ANTH:1101 Cultural Anthropology 3 s.h.
Comparative study of culture, social organization. GE: Social Sciences; Values and Society. Same as IS:1101.

ANTH:1201 World Archaeology 3 s.h.
What do archaeologists know about the past, and how do they know about the past? Evolution of human cultures from ice ages to first cities; archaeological methods used to understand the past. GE: Historical Perspectives.

ANTH:1301 Human Origins 3 s.h.
Processes, products of human evolution from perspectives of heredity and genetics, evolutionary theory, human biological characteristics, fossil record, artifactual evidence, biocultural behaviors. GE: Natural Sciences without Lab.

ANTH:2009 Individual Study 1-3 s.h.
Readings in area or subdivision of anthropology in which student has had basic coursework.

ANTH:2100 Anthropology and Contemporary World Problems 3 s.h.
Selected world problems from an anthropological perspective; current dilemmas and those faced by diverse human groups in recent times and distant past. GE: International and Global Issues.

ANTH:2102 Anthropology of Marriage and Family 3 s.h.
Classic anthropological theories of kinship and marriage, including topics such as cousin marriage and incest; recent work on new reproductive technologies and transnational marriage. Same as GWSS:2102.

ANTH:2103 Introduction to Global Health Studies 3 s.h.
Global health as a study of the dynamic relationship between human health and social, biological, and environmental factors that drive the spread of disease; core areas of global health research that may include health inequalities, maternal and child health, infectious diseases, nutrition, environmental health, and health interventions. GE: International and Global Issues. Same as GHS:2000.

ANTH:2108 Gendering India 3 s.h.
Aspects of Indian culture, including nation, family, sexuality, work, and religion, through the lens of gender; Hindu India, differences in region, caste, and class. Same as GWSS:2108.

ANTH:2136 Race, Place, and Power: Urban Anthropology 3 s.h.
Cross-cultural approach to urban anthropology; urbanizing processes, migration and adaptation, aspects of class and ethnicity in urban settings, urban economic relations. GE: Social Sciences.

ANTH:2140 Food, Drink, and Culture 3 s.h.
Passion of food, eating, and drinking in our lives; students are challenged to study eating and drinking in all its variety and importance in different contemporary cultures of the world; exploration of how and why food and drink hold the power to bind people together or to set groups apart, how national cuisines are made, and how people connect food and drink to ritual and health care systems; these topics and many more linked with the study of food and drink production and consumption to examine societal processes, such as the construction of identities and symbolic meanings attached to eating and drinking.

ANTH:2143 Fashion and Culture: The Making, Wearing, and Meaning of Clothing 3 s.h.
Examines anthropological perspectives on fashion, clothing, and culture.

ANTH:2151 Global Migration in the Contemporary World 3 s.h.
Examination of social, economic, and cultural dimensions of global migration in the contemporary world from a transnational and anthropological perspective; primary focus is on migration to the United States, but in comparison to other migration trajectories. Recommendations: an introductory course in cultural anthropology is useful, but not required. GE: Understanding Cultural Perspectives. Same as GWSS:2151, IS:2151.

ANTH:2155 Fighting to Live: Anthropology and Health Social Movements 3 s.h.
Analyze how different groups of people have converged and channeled their collective power to change how societies address illness.

ANTH:2160 Culture, Health, and Wellness: Southeast Asia in Focus 3 s.h.
Exploration of complex cross-cultural interactions between health, wellness, and culture; insights drawn from the culturally diverse region of Southeast Asia including Indonesia, Vietnam, Singapore, Malaysia, Thailand, Cambodia, Burma, and Philippines, among others. Same as GHS:2160.

ANTH:2164 Culture and Healing: An Introduction to Medical Anthropology 3 s.h.
Health professions are increasingly focused on how to best provide health care to culturally diverse populations; introduction to key cultural and social influences on sickness and healing; worldwide examples. Same as GHS:2164.

ANTH:2165 Native Peoples of North America 3 s.h.
History, culture of American Indian peoples; emphasis on North America. GE: Understanding Cultural Perspectives. Same as AMST:2165, NAIS:2165.

ANTH:2181 The Anthropology of Aging 3 s.h.
Comparative anthropological perspective on aging; ethnographies from diverse contexts used to examine intersections of kinship, religion, health, and medicine in later life. Same as ASP:2181, GHS:2181.

ANTH:2182 Africa: Health and Society 3 s.h.
Cultural, political, and economic diversity of African societies from precolonial period to present day; relationship between lived experiences of African people and understanding of their societies from afar; why Africa, more than any other region, is associated with warfare, hunger, and disease; idea of "Africa" in the world today; shared misunderstanding of life on continent contrasted with everyday lives of people who are not so different from ourselves. Same as GHS:2182.

ANTH:2190 Love Rules: Law and the Family Across Cultures 3 s.h.
Recent debates over legalizing gay marriage remind us that the law is not an abstract concept, it is a social creation that emphasizes certain cultural norms over others, both powerful and changeable; family law outlines what one cultural vision of relationships—those between lovers, parent and child, and between kin—supposedly should look like in a given society, a vision always marked by gendered, racial, and sexual divisions of power; students consider what happens when legal norms intersect with diverse ways that people make families through topics including marriage, divorce, custody, and surrogacy across the world. Same as GWSS:2190, IS:2190.

ANTH:2191 Love, Sex, and Money: Sexuality and Exchange Across Cultures 3 s.h.
Everything from pop songs to advertisements warn us of the evils of gold diggers, “blingsexuals,” or “buyfriends"; in America, money is seen to corrupt the purity and authenticity of love and desire, but money also is an inevitable part of sex, love, and intimacy; cross-cultural examination of how relationships between love, money, and sexuality are organized in different places; different ways people form relationships with lovers, spouses, and persons who enable childbearing; rethinking gender roles, work, value, and power. Same as GWSS:2900.

ANTH:2199 Practicum in Sociocultural Anthropology arr.
Study of a wide range of cultural and linguistic anthropological data collected from a variety of sources, examined in an intensive, systematic manner.

ANTH:2208 Archaeological Methods 3 s.h.
Current theoretical approaches, methods used to investigate the past; site formation processes, taphonomy, sampling and research design, typology and seriation, subsistence-settlement reconstruction, cultural evolution. Prerequisites: ANTH:1201.

ANTH:2220 The Olmec, Maya, and Aztecs: Archaeology of Mesoamerica 3 s.h.
Archaeological data related to the evolution of civilization in Mesoamerica; sequence from hunter-gatherers to A.D. 1519; emphasis on Central Mexico, Maya area, Oaxaca. Same as LAS:2220.

ANTH:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ASIA:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

ANTH:2261 Human Impacts on the Environment 3 s.h.
Long-term patterns of human-environment interactions surveyed through archaeological case studies; varied scales of human impacts, including animal extinction, habitat destruction, agricultural practices, urban growth, state-level societies. GE: Sustainability. GE: Social Sciences; Sustainability.

ANTH:2290 Practicum in Archaeology arr.
Intensive, hands-on examination of a wide range of materials recently recovered from archaeological sites; pottery, lithics (stone tools and related items), plant remains, animal bones; for students with strong archaeological interests or archaeological field experience.

ANTH:2320 Origins of Human Infectious Disease 3 s.h.
Origin and evolution of important infectious diseases in human history; biological evolution of infectious agents and biocultural responses to emerging infectious diseases; primary focus on viruses and bacteria; selected world problems from an anthropological perspective; current dilemmas and those faced by diverse human groups in recent times and distant past. Same as GHS:2320.

ANTH:2390 Laboratory Methods in Biological Anthropology arr.
Specimen preparation, cataloging, molding and casting, photography, computer analyses, library research.

ANTH:3001 Introduction to Museum Studies 3 s.h.
Overview of museum history, function, philosophy, collection, and curatorial practices; governance and funding issues; exhibition evaluation and audience studies; examples from Stanley Museum of Art, Museum of Natural History, Old Capitol Museum, and Medical Museum. GE: Social Sciences. Same as EDTL:3001, MUSM:3001, SIED:3001.

ANTH:3015 Independent Study arr.

ANTH:3017 Decolonizing Anthropology in Native North America 3 s.h.
Anthropology is coming to terms with its rather strange combination of colonialist origins and anti-colonial/anti-racist themes, and these contradictions have generated well-earned criticism from Indigenous peoples; how Indigenous critiques have constructively called for changes that make anti-colonialism and anti-racism more central to the profession, and examination of how the profession is responding; works by Indigenous activists, artists, and scholars, including anthropologists; examples of ethnographic and archaeological research from regions of Native North America that complement those covered in ANTH:2165. Prerequisites: ANTH:1101 or ANTH:2165 or HIST:1049.

ANTH:3103 Environment and Culture 3 s.h.
Individual and group responses to scarcities of natural resources such as land, water, food.

ANTH:3110 Colonialism and Indigenous Health Equity **3 s.h.**
Health problems and services for Indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101 or ANTH:2165 or GHS:2000 or HIST:1049 or CPH:1400. Same as CBH:4200, GHS:3110, NAIS:3110.

ANTH:3117 Using Ethnographic Methods **3 s.h.**
Ethnography, holistic, qualitative research in cultural context for anthropological and related research and careers involving interpersonal interaction; multiple ethnographic methods and their rationales. Recommendations: desire to interact with others, and prior coursework in fields that employ ethnographic or qualitative research (social sciences, social work, nursing, public health).

ANTH:3118 Politics of Reproduction **3 s.h.**
Examination of reproductive politics from historical, sociological, anthropological, and communicative perspectives; reproductive justice and bodily autonomy as key sites of feminist struggle in the United States and in global contexts; topical issues include abortion and birth control, assisted reproductive technologies, commercial surrogacy industries, LGBTQ family formation, and systems of reproductive violence. Same as COMM:3118, GWSS:3118.

ANTH:3121 Love, Marriage, and Family in India **3 s.h.**
Anthropological understandings of love in India and the region of South Asia more broadly; emphasis on contemporary society; filial and motherly love, arranged marriage and romantic love, devotional and artistic expressions, love between siblings. Same as GWSS:3121.

ANTH:3122 Historic House Management and Preservation **3 s.h.**
Historic house museums make up more than half of all museums in the United States; focus on management, preservation, and interpretation of historic houses as sites of historic memory and public engagement. Same as MUSM:3100.

ANTH:3125 Transnational Feminism **3 s.h.**
Exploration of feminist perspectives from the United States and outside of the United States; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions and populations. Same as GWSS:3350, IS:3350.

ANTH:3127 Anthropology of Death **3 s.h.**
How anthropologists and archaeologists study death, dying, mortuary rituals, and notions of the afterlife in contemporary North America and in different places and times. Prerequisites: ANTH:1201 or ANTH:1101. Requirements: ANTH:1101 or ANTH:1201 or graduate standing.

ANTH:3145 Excavation to Exhibit: Making Artifacts Public **3 s.h.**
In-depth exploration of methodological, theoretical, and historical issues in the creation of archaeological museum exhibitions including hands-on learning involving the development of an exhibit for the Stanley Museum of Art. Same as MUSM:3145, NAIS:3145.

ANTH:3152 Anthropology of Caregiving and Health **3 s.h.**
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ASP:3152, GHS:3152.

ANTH:3190 Global Debt **3 s.h.**
Economies as cultural systems that emphasize the role of worldviews and "meaning-making" in organizing economies; debt as a key mechanism in creation and maintenance of relationships; focus on how exchange, distribution, and obligation serve to shore up or sever various social institutions and links between debt, inequality, and power; debt in various forms, from a round of drinks to student loans, and from the U.S. mortgage crisis to development aid; diverse array of economies—from gift exchange to ceremonial destruction of wealth, and from Melanesia to Wall Street—to evaluate assumptions that undergird different systems of debt and credit. Requirements: introductory course in anthropology or international studies or gender, women's, and sexuality studies. Same as IS:3190, SJUS:3190.

ANTH:3199 Understanding Health in an Unequal World: Anthropology and Global Health Policy **3 s.h.**
Global health has grown as an area of practice and study, with well-being and livelihoods of increasing numbers of people now deeply influenced by these ideas, practices, and policies; students engage with ways that global health programs have influenced experiences of health and illness by those who participate in these programs, critically analyzing how global health interacts with local dynamics of inequality, race, gender, and power. Same as GHS:3199, IS:3198.

ANTH:3200 The Archaeology of Roman Britain: From Julius Caesar to the Age of Arthur **3 s.h.**
Archaeology of Britain in the Roman period from the campaigns of Julius Caesar (55 BCE) to the end of Roman rule in the fifth century CE; explores themes of trade and connectivity, conquest and resistance, and identity negotiation visible in the archaeological and epigraphic record.

ANTH:3204 Food in Ancient Mediterranean Society **3 s.h.**
Practices and values influenced by consumption and production of food in ancient Mediterranean societies; varied topics, including methods of food production and distribution, hierarchies of status as associated with food, food and ethnic identity, food and health, food and religion; focus on classical Greek and Roman society, Egypt, the ancient Near East, and Persia. Recommendations: familiarity with Greek and Roman civilization and history. Same as CLSA:3836, HIST:3436.

ANTH:3207 Animal Bones in Archaeology **3 s.h.**
Use of faunal material in interpretation of archaeological remains, including skeletal anatomy, identification, taphonomy, determination of age and sex, seasonality, quantification, sampling, breakage and cutmarks, interpretations; laboratory sessions. Prerequisites: ANTH:1201.

ANTH:3237 Politics of the Archaeological Past **3 s.h.**
How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, Indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as HIST:3137, MUSM:3237.

ANTH:3239 The Archaeology of the First Europeans **3 s.h.**
Archaeology of European societies between the Mesolithic and Iron Age; how ideas about Europe's prehistoric past have been used for political purposes.

ANTH:3240 Cultural Resources Management Archaeology: Practice and Practicalities 3 s.h.
Cultural Resources Management (CRM) archaeology is the largest sector of archaeological research in the United States in terms of employment, funding, field- and lab-related activity; students investigate the past and navigate complexities of compliance requirements from federal, state, and local regulations concerning historic preservation; introduction to legal, procedural, and practical foundations of CRM archaeology; preparation for employment by acquisition of skills from project planning through dissemination of results. Recommendations: completion of other anthropology, geography, history, or Native American studies courses. Same as NAIS:3240.

ANTH:3243 Archaeology of the American Midcontinent 3 s.h.
Survey of the archaeology of the American midcontinent for students interested in the past beyond what historical documents reveal; exploration of Late Pleistocene and Archaic hunter-gatherer adaptations, Woodland and Late Prehistoric horticulturalists, Middle and Upper Mississippian emergent chiefdoms, and historic period first contact, fur trade, and fort sites; how archaeologists utilize regional archaeological data in addressing culture change issues to develop the essential grounding for understanding how people lived in different times and places in the past, and how prehistoric peoples relate to their modern descendants across the midcontinent. Recommendations: ANTH:1201. Same as NAIS:3243.

ANTH:3255 Introduction to Archaeological Ceramics 3 s.h.
Introduction to ceramic analysis; focus on ceramics of Native North America; ceramics as an important line of evidence for past human activities (e.g., cooking, eating, feasting, trading, storage); students learn how archaeologists interpret broken ceramics from excavations by practicing various analytical techniques and conducting their own ceramic analysis.

ANTH:3257 North American Archaeology 3 s.h.
Prehistoric cultural development north of Mexico from initial occupation to European contact and conquest; emphasis on dynamics of culture change. Same as NAIS:3257.

ANTH:3260 Pleistocene Peopling of the Americas 3 s.h.
Major themes in earliest human settlement of the Americas, including human mobility, subsistence, technology, human impacts on the environment.

ANTH:3261 Our Life With Dogs: The Anthropological Study of Animals in Human Societies 3 s.h.
Intricate connections between dogs and our social, economic, political, and spiritual lives; human relationships with dogs that extend back at least 16,000 years; process of dog domestication; roles dogs play in human ideology and past economies; modern interactions with dogs.

ANTH:3265 Archaeology of the Great Plains 3 s.h.
Contrasting lifeways, diets, and technologies that humans used to survive on North America's Great Plains, from Ice Age hunter-gatherers to Euramerican homesteaders.

ANTH:3275 Egyptian Archaeology 3 s.h.
Introduction to the archaeology of ancient Egypt from predynastic times to Roman Egypt, including monumental architecture; patterns of everyday life; social, economic, and demographic considerations; history of archaeology in Egypt. Same as CLSA:3596.

ANTH:3276 Greek Archaeology 3 s.h.
Archaeology and ethnology of the Greek world, from end of Bronze Age to late Roman Empire; sociocultural processes that influence development and persistence of Greek civilization. Same as CLSA:3235.

ANTH:3277 Roman Archaeology 3 s.h.
Archaeology and ethnology of Roman civilization from Iron Age eighth-century occupation of the Palatine Hill to the end of the Roman Empire in the West, A.D. 476. Same as CLSA:3240.

ANTH:3278 Archaeology of Ancient Cities 3 s.h.
Archaeological exploration of ancient world cities; physical plant, social institutions, regional context, cultural influence; major cities considered include Uruk, Luxor, Athens, Rome, Alexandria, Kyongju, Loyang, Teotihuacan, and Tenochtitlan.

ANTH:3291 Museum Registration and Records Management 3 s.h.
Processes and standards relating to the intellectual control of museum collections. Topics include the creation and maintenance of museum collections documentation; collections management systems (CMS); digital asset management; terminology control and linked data standards; and legal and ethical obligations for museum registration. Corequisites: MUSM:3001. Same as MUSM:3291.

ANTH:3295 Field Research in Archaeology arr.
Beginning skills in site surveying and excavation, lab work, record keeping at nearby prehistoric sites.

ANTH:3300 Mothers and Motherhood 3 s.h.
Treatment of motherhood; role of motherhood and devaluation of social status. Same as GWSS:3300.

ANTH:3305 Human Osteology 3 s.h.
The human skeletal system; normal and pathologic variation; skeletal measurement and analysis with application to paleoanthropology, forensic, and archaeological investigations. Same as NAIS:3305.

ANTH:3306 The Neanderthal Enigma 3 s.h.
Survey of Neanderthals as the most widely known, yet enigmatic, fossil human lineage; history of discoveries; current interpretations of Neanderthal's origins, anatomy and behavior, relationship to today's people, extinction.

ANTH:3307 Modern Human Origins 3 s.h.
Current data and theories regarding the emergence of Homo sapiens; how human anatomical modernity is defined and recognized in the fossil record; competing models for modern humans' emergence—multiregional evolution, out of Africa, the assimilation model; interpretation of recent developments and discoveries in the human fossil record; contemporary contributions from genetics, developmental biology, evolutionary ecology, paleodemography.

ANTH:3308 Human Variation 3 s.h.
Range and patterning of biological diversity in contemporary human populations; past and present attempts to organize and explain human genetic, morphological variation in light of recent data, theory.

ANTH:3328 Molecular Genetics of Human Disease 3 s.h.
Disease as an unfortunate, but unavoidable, aspect of human condition; genetic nature of disease that reveals origins of inherited disease; variation of disease across the globe. Recommendations: biology or genetics course to provide substantial background knowledge.

ANTH:3821 City of Athens: Bronze Age to Roman World 3 s.h.
Athens from Bronze Age to end of Roman period; topics include the city's role in development of political democracy and religion, as well as the art and archaeology of the city. Same as CLSA:3821, HIST:3403.

ANTH:4080 Anthropology Internship arr.
Internship opportunity for work experience in student's field of interest; formal internship agreement established between sponsoring institution, student, and UI anthropology faculty that specifies duties and objectives of internship; internship supervisor at sponsoring institution evaluates student performance and reports directly to UI anthropology faculty. Requirements: anthropology major.

ANTH:4140 Feminist Activism and Global Health 3 s.h.
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101 or GWSS:1001 or CPH:1400 or GHS:2000. Same as CBH:4140, GHS:4140, GWSS:4140.

ANTH:4315 Human Evolutionary Anatomy 3 s.h.
Interpretation of skeletal remains as the basis for reconstructing forms, adaptations, lifestyles of prehistoric humans; body size, musculature, stance, activity patterns, brain size, and sexual dimorphism. Prerequisites: ANTH:3305.

ANTH:4700 Latin American Studies Seminar 3-4 s.h.
Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as HIST:4504, LAS:4700, PORT:4700, SPAN:4900.

ANTH:4995 Honors Research Seminar 1-2 s.h.
Preparation for writing honors thesis, including project conception and research, proposal writing, oral and written presentations of student research. Corequisites: ANTH:4996, if not taken as a prerequisite. Requirements: honors standing in anthropology.

ANTH:4996 Honors Research 2-4 s.h.
Project chosen in consultation with honors advisor.

ANTH:5001 Graduate Teaching Proseminar 1 s.h.
Graduate student teaching skills: developing course guidelines, leading discussion, grading, review sessions, dealing with problem students and complaints; development of syllabi and teaching portfolios; mentoring of less-experienced teaching assistants.

ANTH:5101 Seminar Sociocultural Anthropology 3 s.h.
Social institutions in the world's societies; problems in theory, method, interpretation. Requirements: graduate standing or undergraduate anthropology honors standing.

ANTH:5110 Anthropological Data Analysis 3 s.h.
Applied statistics for quantitative analysis of anthropological data, including field notes, library materials, and archaeological information; introduction to elementary statistics and computational methods; discussion of hypothesis testing and correlation; emphasis on proper use and interpretation of statistical methods in anthropological research.

ANTH:5120 Reading Transnational Feminist Theory 3 s.h.
Issues in transnational feminist scholarship, including coloniality and globalization as related to domains of gendered work, cultural traditions, and development; interdisciplinary readings—including from qualitative social science—consider connections across the Global North and South. Same as GWSS:5120.

ANTH:5201 Seminar: Archaeological Theory and Method 3 s.h.
Development, current status of theory, method in Americanist archaeology. Requirements: graduate standing or undergraduate anthropology honors standing.

ANTH:5301 Seminar: Biological Anthropology 3 s.h.
Physical anthropology, including heredity and genetics, evolutionary theory, human biological characteristics, primate and human fossil record, primate behavior and ecology, human adaptations. Requirements: graduate standing or undergraduate anthropology honors standing.

ANTH:6005 Independent Study: Anthropology arr.

ANTH:6010 Research: Anthropology arr.

ANTH:6015 Thesis arr.

ANTH:6115 Ethnographic Field Methods 3 s.h.
Basic data-gathering techniques for field research in sociocultural anthropology. Same as CBH:6115.

ANTH:7110 Research Design and Writing 3 s.h.
Anthropological research design; preparation of proposals for fieldwork or laboratory analysis.

ANTH:7414 Slavery and Social Death: 1200 B.C.E. to 1865 C.E. 3 s.h.
Exploration of various slave systems in antiquity, the middle ages, and modernity in terms of their motivations, utilization, and broader social, economic, and political implications; use of literary sources and archaeological remains to investigate slave cultures in ancient Near East and Egypt, Jewish exploitation of enslaved persons, and use of chattel slavery in Greek, Roman, early Christian, and Islamic societies; antebellum U.S. slavery. Same as CLSA:7114, HIST:7414.

ANTH:7501 Dissertation Writing Seminar 1 s.h.
Organization of dissertation, setting and meeting deadlines, writing a chapter, and workshopping drafts; seminar group work and consultation with advisors; completion and revision of at least one dissertation chapter; for anthropology graduate students who are beginning, or about to begin, their dissertation writing process. Requirements: anthropology graduate student who passed comprehensive exams (prospectus and essays).

Anthropology, BA

Learning Outcomes

Graduates with a bachelor's degree in anthropology should be able to:

- describe a broad range of changing and diverse human experiences, practices, and challenges across time and space;
- demonstrate how diverse cultural backgrounds and structural inequalities, including race, gender, class, and other socially constructed categories of difference, relate to peoples' beliefs, experiences, and practices;
- explain the evolutionary and historical perspective as it pertains to human and nonhuman primates, including origins, behavior, ecology, biocultural variation, and material culture;
- apply anthropological research tools to collect and interpret data; and
- communicate anthropological concepts and findings.

Requirements

The Bachelor of Arts with a major in anthropology requires a minimum of 120 s.h., including 33 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major.

Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Students may count up to 56 s.h. of Department of Anthropology coursework (prefix ANTH) toward credit required for the Bachelor of Arts degree.

The BA is designed to offer a comprehensive overview of anthropology's main subfields and the broadest possible cross-cultural background.

Students may choose to complete one of two specialized tracks: archaeology or medical anthropology. See "Optional Undergraduate Tracks."

Undergraduates majoring in anthropology, including transfer students, must earn a minimum of 15 s.h. for the major at the University of Iowa. Students may apply credit earned at approved field schools offered by other institutions toward the major, with Department of Anthropology approval.

Students who declare anthropology as their major when they are admitted to the College of Liberal Arts and Sciences are advised at the Academic Advising Center until they have earned 30 s.h. Students who have earned more than 30 s.h. are advised by the departmental undergraduate advisor.

The BA with a major in anthropology requires the following coursework.

Requirements	Hours
Common Requirements	27
Advanced Coursework	6
Optional Undergraduate Track	

Common Requirements

Students must complete three foundational courses, three global challenges courses, one course in comparative human experience, one course about people in places, and 3 s.h. in practicum and methods training.

Course #	Title	Hours
Foundational Courses		
Three of these:		
ANTH:1001	Issues in Anthropology	3
ANTH:1101	Cultural Anthropology	3
ANTH:1201	World Archaeology	3
ANTH:1301	Human Origins	3
Global Challenges		
Three of these:		
ANTH:2100	Anthropology and Contemporary World Problems	3
ANTH:2151	Global Migration in the Contemporary World	3
ANTH:2164	Culture and Healing: An Introduction to Medical Anthropology	3
ANTH:2261	Human Impacts on the Environment	3
ANTH:2320	Origins of Human Infectious Disease	3
ANTH:3237	Politics of the Archaeological Past	3
Comparative Human Experience		
One of these:		
ANTH:2102	Anthropology of Marriage and Family	3
ANTH:2136	Race, Place, and Power: Urban Anthropology	3
ANTH:2140	Food, Drink, and Culture	3
ANTH:2181	The Anthropology of Aging	3
ANTH:2190	Love Rules: Law and the Family Across Cultures	3
ANTH:2191	Love, Sex, and Money: Sexuality and Exchange Across Cultures	3
ANTH:3103	Environment and Culture	3
ANTH:3110	Colonialism and Indigenous Health Equity	3
ANTH:3125	Transnational Feminism	3
ANTH:3127	Anthropology of Death	3
ANTH:3152	Anthropology of Caregiving and Health	3
ANTH:3199	Understanding Health in an Unequal World: Anthropology and Global Health Policy	3
ANTH:3261	Our Life With Dogs: The Anthropological Study of Animals in Human Societies	3
ANTH:3278	Archaeology of Ancient Cities	3
ANTH:4140	Feminist Activism and Global Health	3
People in Places		
One of these:		
ANTH:1046	Environmental Politics in India	3
ANTH:2108	Gendering India	3

ANTH:2160	Culture, Health, and Wellness: Southeast Asia in Focus	3
ANTH:2165	Native Peoples of North America	3
ANTH:2182	Africa: Health and Society	3
ANTH:2220	The Olmec, Maya, and Aztecs: Archaeology of Mesoamerica	3
ANTH:3017	Decolonizing Anthropology in Native North America	3
ANTH:3121	Love, Marriage, and Family in India	3
ANTH:3239	The Archaeology of the First Europeans	3
ANTH:3243	Archaeology of the American Midcontinent	3
ANTH:3257	North American Archaeology	3
ANTH:3260	Pleistocene Peopling of the Americas	3
ANTH:3265	Archaeology of the Great Plains	3
ANTH:3275	Egyptian Archaeology	3
ANTH:3276	Greek Archaeology	3
ANTH:3277	Roman Archaeology	3
Practicum and Methods Training		
3 s.h. from these:		
ANTH:2208	Archaeological Methods	3
ANTH:2290	Practicum in Archaeology	arr.
ANTH:2390	Laboratory Methods in Biological Anthropology	arr.
ANTH:3117	Using Ethnographic Methods	3
ANTH:3207	Animal Bones in Archaeology	3
ANTH:3240	Cultural Resources Management Archaeology: Practice and Practicalities	3
ANTH:3255	Introduction to Archaeological Ceramics	3
ANTH:3295	Field Research in Archaeology	arr.
ANTH:3305	Human Osteology	3
ANTH:4080	Anthropology Internship	arr.
ANTH:4315	Human Evolutionary Anatomy	3

Advanced Coursework

Students must complete two additional anthropology courses (6 s.h., prefix ANTH) numbered 3000 or above.

Anthropology offers many options for advanced coursework, including courses dealing with environment and culture, expressive culture (art, verbal arts, literature, music, and dance), gender and sexuality, human evolution, human osteology, human prehistory, identity, medical anthropology, molecular genetics, psychological anthropology, and urban anthropology. Department faculty members offer courses that focus on Europe, South Asia, and Native North America.

Additional Coursework

Students are strongly encouraged to take courses and participate in archaeological field and laboratory research, biological anthropology laboratory research, ethnographic research methods in sociocultural anthropology, and multimedia research in linguistic anthropology.

Optional Undergraduate Tracks

Students have the option of adding a particular focus to their study plan by completing a specialized track. They may choose one of two options: archaeology [p. 70] or medical anthropology [p. 71].

The optional tracks reflect broad issues bridging subfields in and outside of anthropology. Completion of a track indicates the acquisition of considerable expertise and is noted on a student's transcript.

The optional tracks each require 15 s.h. (typically five courses). By selecting courses carefully, students majoring in anthropology can complete a specialization track without adding to the semester hours required for graduation.

Archaeology

In North America and throughout much of the rest of the world, modern land use continually threatens evidence of past land use. Most archaeological excavations are conducted as cultural resource management (CRM), so it is essential that all researchers who work with archaeological data and individuals committed to site preservation have a basic understanding of CRM. Students who choose this emphasis learn about the field, how to address related ethical issues, and technical and theoretical challenges.

The archaeology track requires a fundamental overview course, two area electives, a technical/practical elective, and a field school course.

Course #	Title	Hours
Overview		
This course:		
ANTH:3240	Cultural Resources Management Archaeology: Practice and Practicalities	3
Area Electives		
Two of these:		
ANTH:2165	Native Peoples of North America	3

ANTH:3305	Human Osteology	3
Field School		
At least 3 s.h. from these:		

ANTH:3295	Field Research in Archaeology	arr.

An equivalent course from another university

Medical Anthropology Track

Human experiences of sickness and suffering are universal yet profoundly shaped by cultural and historical contexts. Medical anthropology explores cultural and biological diversity in sickness, health, and healing through approaches that include examining individual experiences of disrupted well-being, considering how biological and cultural factors interact to promote health or produce sickness, analyzing political/economic causes of health inequalities, and applying research to improve health research and services in an increasingly global world. Coursework in medical anthropology helps students prepare for a range of health professions and social services careers and for work in diverse settings that increasingly include nongovernmental organizations devoted to improving health. Future health professionals are increasingly called upon to understand how sociocultural and biological factors intersect to produce experiences of health, sickness, and healing.

The medical anthropology track requires an introductory course plus four electives that focus on health-related topics. Elective options include courses numbered 2000–3999 that apply medical anthropology to specific topics and a course numbered above 4000 that helps students engage with more complex topics in this field.

Course #	Title	Hours
Overview		
This course:		
ANTH:2164	Culture and Healing: An Introduction to Medical Anthropology	3
Electives		
Four of these:		
ANTH:2160	Culture, Health, and Wellness: Southeast Asia in Focus	3
ANTH:2181	The Anthropology of Aging	3
ANTH:2182	Africa: Health and Society	3
ANTH:2320	Origins of Human Infectious Disease	3
ANTH:3110	Colonialism and Indigenous Health Equity	3
ANTH:3118	Politics of Reproduction	3
ANTH:3152	Anthropology of Caregiving and Health	3
ANTH:3199	Understanding Health in an Unequal World: Anthropology and Global Health Policy	3
ANTH:3328	Molecular Genetics of Human Disease	3
ANTH:4140	Feminist Activism and Global Health	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students majoring in anthropology have the opportunity to graduate with honors in the major. Departmental honors students must have a grade-point average (GPA) of at least 3.50 in anthropology coursework and a cumulative University of Iowa GPA of at least 3.33. To graduate with honors in the major, they must conduct an independent research project that culminates in a 30–50-page thesis. The project includes the completion of 6 s.h. divided between ANTH:4995 Honors Research Seminar (offered only in fall semesters) and ANTH:4996 Honors Research, typically taken the next semester.

Contact the department's director of undergraduate studies to learn more about honors in anthropology.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the anthropology major.

Career Advancement

The major in anthropology prepares individuals for advanced training or careers in anthropology, allied fields, and professional programs. Students who complete an anthropology major gain special understanding of human relations, as well as expertise for jobs involving international or cross-cultural work, cultural resource management, and responding to social and ethnic diversity, whether in the United States or globally.

Upon graduation, anthropology majors embark on careers in government, international affairs, conservation, economic development, public health, cultural resource management, planning and public affairs, social work, museum work, and education. Many go on to help resolve contemporary world problems by working with international or domestic organizations such as AmeriCorps, the Peace Corps, and Teach for America. Some pursue graduate study in anthropology or related social and natural sciences, while others earn degrees in business, law, or the health professions.

The Pomerantz Career Center also offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: at least two courses in the major.

Before the seventh semester begins: at least seven courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least eight courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Choose three courses from ANTH:1001, ANTH:1101, ANTH:1201, ANTH:1301.

c Students who have completed four levels of a single language or two levels of two different languages in high

school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f See the General Catalog for list of approved courses.

g Students have the option of adding a particular focus to their study by completing a specialized track (15 s.h.) in archeology or medical anthropology.

h Students must complete two additional anthropology courses (6 s.h., prefix ANTH) numbered 3000 or above.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Anthropology, BS

Learning Outcomes

Graduates with a bachelor's degree in anthropology should be able to:

- describe a broad range of changing and diverse human experiences, practices, and challenges across time and space;
- demonstrate how diverse cultural backgrounds and structural inequalities, including race, gender, class, and other socially constructed categories of difference, relate to peoples' beliefs, experiences, and practices;
- understand the evolutionary and historical perspective as it pertains to human and nonhuman primates, including origins, behavior, ecology, biocultural variation, and material culture;
- apply anthropological research tools to collect and interpret data; and
- communicate anthropological concepts and findings.

Requirements

The Bachelor of Science with a major in anthropology requires a minimum of 120 s.h., including a minimum of 39 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major.

Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Students may count up to 56 s.h. of Department of Anthropology coursework (prefix ANTH) toward credit required for the Bachelor of Science degree.

The BS is appropriate for students with interests in any of anthropology's subfields; it offers enhanced opportunities to gain experience and develop skills in research methods and scientific reasoning.

Students may choose to complete one of two specialized tracks: archaeology or medical anthropology. See "Optional Undergraduate Tracks."

Undergraduates majoring in anthropology, including transfer students, must earn a minimum of 15 s.h. for the major at the University of Iowa. Students may apply credit earned at approved field schools offered by other institutions toward the major, with Department of Anthropology approval.

Students who declare anthropology as their major when they are admitted to the College of Liberal Arts and Sciences are advised at the Academic Advising Center until they have earned 30 s.h. Students who have earned more than 30 s.h. are advised by the departmental undergraduate advisor.

The BS with a major in anthropology requires the following coursework.

Requirements	Hours
Common Requirements	30
Advanced Coursework	6
Quantitative, Mathematical, or Formal Reasoning Tool	3
Allied Topical Field	
Optional Undergraduate Track	

Common Requirements

Students must complete three foundational courses, three global challenges courses, one course in comparative human experience, one course about people in places, and 6 s.h. in practicum and methods training.

MATH:1850	Calculus I	4
PHIL:1636	Principles of Reasoning: Argument and Debate	3
STAT:1010	Statistics and Society	3
STAT:1020	Elementary Statistics and Inference	3
STAT:2010	Statistical Methods and Computing	3
STAT:3510	Biostatistics	3

Allied Topical Field

Students complete a topical concentration in one of the following allied fields: biology, chemistry, computer science, earth, environment, and sustainability sciences, economics, global health studies, health, sport, and human physiology, linguistics, mathematics, psychology, science studies, sport studies, or statistics and actuarial science. Minors (or at least five courses) in other fields, chosen in consultation with the student's advisor, may also be applied toward this requirement.

Students are strongly encouraged to take courses and participate in archaeological field and laboratory research, biological anthropology laboratory research, ethnographic research methods in sociocultural anthropology, and multimedia research in linguistic anthropology.

Optional Undergraduate Tracks

Students have the option of adding a particular focus to their study plan by completing a specialized track. They may choose one of two options: archaeology [p. 75] or medical anthropology [p. 76].

The optional tracks reflect broad issues bridging subfields in and outside of anthropology. Completion of a track indicates the acquisition of considerable expertise and is noted on a student's transcript.

The optional tracks each require 15 s.h. (typically five courses). By selecting courses carefully, students majoring in anthropology can complete a specialization track without adding to the semester hours required for graduation.

Archaeology

In North America and throughout much of the rest of the world, modern land use continually threatens evidence of past land use. Most archaeological excavations are conducted as cultural resource management (CRM), so it is essential that all

researchers who work with archaeological data and individuals committed to site preservation have a basic understanding of CRM. Students who choose this emphasis learn about the field, how to address related ethical issues, and technical and theoretical challenges.

The archaeology track requires a fundamental overview course, two area electives, a technical/practical elective, and a field school course.

Course #	Title	Hours
Overview		
This course:		
ANTH:3240	Cultural Resources Management Archaeology: Practice and Practicalities	3
Area Electives		
Two of these:		
ANTH:2165	Native Peoples of North America	3
ANTH:3243	Archaeology of the American Midcontinent	3
ANTH:3257	North American Archaeology	3
ANTH:3260	Pleistocene Peopling of the Americas	3
ANTH:3265	Archaeology of the Great Plains	3
Technical/Practical Elective		
At least 3 s.h. from these:		
ANTH:2208	Archaeological Methods	3
ANTH:2290	Practicum in Archaeology	arr.
ANTH:3207	Animal Bones in Archaeology	3
ANTH:3237	Politics of the Archaeological Past	3
ANTH:3255	Introduction to Archaeological Ceramics	3
ANTH:3305	Human Osteology	3
Field School		
At least 3 s.h. from these:		
ANTH:3295	Field Research in Archaeology	arr.
An equivalent course from another university		

Medical Anthropology Track

Human experiences of sickness and suffering are universal yet profoundly shaped by cultural and historical contexts. Medical anthropology explores cultural and biological diversity in sickness, health, and healing through approaches that include examining individual experiences of disrupted well-being, considering how biological and cultural factors interact to promote health or produce sickness, analyzing political/economic causes of health inequalities, and applying research to improve health research and services in an increasingly global world. Coursework in medical anthropology helps students prepare for a range of health professions and social services careers and for work in diverse settings that increasingly include nongovernmental organizations devoted to improving health. Future health professionals are increasingly called upon to understand how sociocultural and biological factors intersect to produce experiences of health, sickness, and healing.

The medical anthropology track requires an introductory course plus four electives that focus on health-related topics. Elective options include courses numbered 2000–3999 that apply medical anthropology to specific topics, as well as a course numbered above 4000 that helps students engage with more complex topics in this field.

Course #	Title	Hours
Overview		
This course:		
ANTH:2164	Culture and Healing: An Introduction to Medical Anthropology	3
Electives		
Four of these:		
ANTH:2160	Culture, Health, and Wellness: Southeast Asia in Focus	3
ANTH:2181	The Anthropology of Aging	3
ANTH:2182	Africa: Health and Society	3
ANTH:2320	Origins of Human Infectious Disease	3
ANTH:3110	Colonialism and Indigenous Health Equity	3
ANTH:3118	Politics of Reproduction	3
ANTH:3152	Anthropology of Caregiving and Health	3
ANTH:3199	Understanding Health in an Unequal World: Anthropology and Global Health Policy	3
ANTH:3328	Molecular Genetics of Human Disease	3
ANTH:4140	Feminist Activism and Global Health	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students majoring in anthropology have the opportunity to graduate with honors in the major. Departmental honors students must have a grade-point average (GPA) of at least 3.50 in anthropology coursework and a cumulative University of Iowa GPA of at least 3.33. To graduate with honors in the major, they must conduct an independent research project that culminates in a 30–50-page thesis. The project includes the completion of 6 s.h. divided between ANTH:4995 Honors Research Seminar (offered only in fall semesters) and ANTH:4996 Honors Research, typically taken the next semester.

Students may count their directed research project or laboratory practicum toward the requirements for graduation with honors, but fulfilling the research requirement for the BS degree does not by itself fulfill the honors research

requirement. Students must work with their honors thesis advisor to structure their research so that it meets the added requirements of honors work.

Contact the department's director of undergraduate studies to learn more about honors in anthropology.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the anthropology major.

Career Advancement

The major in anthropology prepares individuals for advanced training or careers in anthropology, allied fields, and professional programs. Students who complete an anthropology major gain special understanding of human relations, as well as expertise for jobs involving international or cross-cultural work, cultural resource management, and responding to social and ethnic diversity, whether in the United States or globally.

Upon graduation, anthropology majors embark on careers in government, international affairs, conservation, economic development, public health, cultural resource management, planning and public affairs, social work, museum work, and education. Many go on to help resolve contemporary world problems by working with international or domestic organizations such as AmeriCorps, the Peace Corps, and Teach for America. Some pursue graduate study in anthropology or related social and natural sciences, while others earn degrees in business, law, or the health professions.

The Pomerantz Career Center also offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the third semester begins: at least one anthropology course or other course in the major.

Before the fifth semester begins: at least four anthropology courses or other courses in the major, one course in the topical field, and one course for the quantitative or formal reasoning tool requirement.

Before the seventh semester begins: at least seven courses in the major, three courses in the topical field, the second quantitative or formal reasoning tool course, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least nine courses in the major, including the directed research requirement, and four courses in the topical field.

During the eighth semester: enrollment in all remaining coursework in the major (including the topical field), all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Anthropology, BS

Course	Title	Hours

Elective course [d]	3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [j]	
Hours	**15**
Total Hours	**122-128**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Choose three courses from ANTH:1001, ANTH:1101, ANTH:1201, ANTH:1301.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e See the General Catalog for list of approved courses.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Students complete a topical concentration in one of the following allied fields: biology, chemistry, computer science, earth and environmental sciences, economics, geographical and sustainability sciences, global health studies, health and human physiology, linguistics, mathematics, psychology, science studies, sport studies, or statistics and actuarial science .Minors (or at least five courses) in other fields, chosen in consultation with a student's advisor, also may be applied toward this requirement.

h Students have the option of adding a particular focus to their study by completing a specialized track (15 s.h.) in archeology or medical anthropology.

i Students must complete two additional anthropology courses (6 s.h., prefix ANTH) numbered 3000 or above.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Anthropology, Minor

Requirements

The undergraduate minor in anthropology requires a minimum of 15 s.h. in anthropology courses, including 12 s.h. in Department of Anthropology courses (prefix ANTH) numbered 2000 or above taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass.

Students may create a focus for the minor by completing a specialization area; see "Optional Undergraduate Tracks" under the BA or BS anthropology requirements in the catalog.

Anthropology, MA

Graduate study in anthropology is open to individuals with varied undergraduate majors and training backgrounds.

Graduate students normally are admitted under the assumption that they intend to pursue the PhD. The department also offers a terminal MA, with a focus on cultural resource management (CRM) in archaeology, which provides academic preparation for a professional career in that field.

PhD students who enter the program with a bachelor's degree are typically awarded a master's degree upon fulfilling program requirements at the end of their second year. The MA portion of the PhD program features coursework across all subfields of anthropology. Students are also strongly encouraged to conduct independent summer research, which is often supported by departmental and other university-based funding sources.

For additional information, view the Graduate Programs website and the current Graduate Student Guidebook on the Department of Anthropology website.

Learning Outcomes

Disciplinary Expertise

Graduate students will gain an in-depth understanding of anthropology and the discipline's contributions to our understanding of people and culture, in the past and present.

Skills for Independent Research

Graduate students will acquire professional and ethical research, reasoning, methodological, and management skills to identify important research problems. They will also learn how to design and execute a project, productively engage with feedback, and successfully report (via writing and presentations) the results of their independent research to diverse sets of audiences.

Teaching Contributions

Graduate students will learn how to communicate anthropological concepts and theories effectively and ethically to different audiences.

Disciplinary, Academic, and Community Contributions

Graduate students will develop service, mentoring, and leadership skills that enable them to advance and support professional, management, academic, and community needs.

Requirements

The Master of Arts program in anthropology requires 30–36 s.h. of graduate credit, depending on a student's previous anthropological training. Students may count a maximum of 9 s.h. earned in courses outside of anthropology toward the MA in anthropology. It is expected that a full-time student will complete all MA requirements by the end of the second year in the program. Students must maintain a cumulative grade-point average of at least 3.00.

Master's degree students who choose to focus on cultural resource management—archaeology normally do not go on to earn a PhD in anthropology.

By the end of their first semester, each student must select an MA committee, consisting of an advisor and two additional professors. Each year, students compile, in consultation with their advisor, the three strongest papers written for anthropology courses, conferences, or journals; an annotated bibliography; their current curriculum vitae; and a three-page narrative to describe their intellectual trajectory in the MA program to date.

Master's degree students who intend to earn a doctorate should consider taking a statistics course during their MA study.

General Coursework

MA students not pursuing the cultural resource management—archaeology focus must complete core seminars in all three subfields (total of 9 s.h.).

Course #	Title	Hours
All of these:		
ANTH:5101	Seminar Sociocultural Anthropology	3
ANTH:5201	Seminar: Archaeological Theory and Method	3
ANTH:5301	Seminar: Biological Anthropology	3

Electives

In consultation with the advisor and committee members, a student selects a minimum of 21 s.h. of additional coursework to complete the remaining semester hours required for the MA. Elective work may include courses in other disciplines, directed study, and up to 6 s.h. of MA thesis credit for students who choose the thesis option.

Cultural Resource Management—Archaeology Focus

Most archaeological excavations and surveys are conducted as cultural resource management (CRM), so it is essential that all researchers who work with archaeological data and individuals committed to site preservation have a basic understanding of CRM. Students who select this focus area learn about the field and how to address related ethical issues as well as technical and theoretical challenges.

Students must complete the archaeological core graduate seminar. They must also complete a research paper, which is an archaeological study with a substantive data analysis directed toward an explicit archaeological research problem, suitable to meet the section three requirement for the Registry of Professional Archaeologists application form.

The cultural resource management—archaeology focus requires a total of 30 s.h., including 24 s.h. of coursework and 6 s.h. of independent research or thesis credit.

Required Coursework

Course #	Title	Hours
Both of these:		
ANTH:3240	Cultural Resources Management Archaeology: Practice and Practicalities	3
ANTH:5201	Seminar: Archaeological Theory and Method	3

Area Electives

Course #	Title	Hours
Two of these:		
ANTH:3243	Archaeology of the American Midcontinent	3
ANTH:3257	North American Archaeology	3
ANTH:3260	Pleistocene Peopling of the Americas	3
ANTH:3265	Archaeology of the Great Plains	3

Technical Electives

Course #	Title	Hours
Four of these:		
ANTH:3207	Animal Bones in Archaeology	3
ANTH:3237	Politics of the Archaeological Past	3
ANTH:3255	Introduction to Archaeological Ceramics	3
ANTH:3295	Field Research in Archaeology	3
ANTH:3305	Human Osteology	3

Independent Research or Thesis

Course #	Title	Hours
6 s.h. from these:		
ANTH:6005	Independent Study: Anthropology	arr.
ANTH:6010	Research: Anthropology	arr.
ANTH:6015	Thesis	arr.

Admission

Applicants for admission to the graduate program in anthropology are considered regardless of their previous field of training. Students without previous training in anthropology are expected to perform additional work as necessary to achieve the competence expected for their degree objective.

Students normally are admitted under the assumption that they intend to pursue the PhD, with the exception of students entering into the MA program with the cultural research management–archaeology subprogram. Students without an MA in anthropology devote the first two years to fulfilling the MA requirements. After those requirements are completed, the student's committee may award the MA with admittance to the PhD program.

Students with an MA in anthropology from another institution may proceed directly into a PhD program organized around their special research interests. If they lack any of the requirements of the graduate program at the University of Iowa, they are informed of those requirements when admitted. Acceptance of credit hours from other institutions will follow UI regulations.

Applicants for admission to the graduate program must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Anthropology graduate program applicants are required to upload the following documentation to the University of Iowa Graduate Admissions online application:

- official academic records/transcripts from previous institutions attended;
- a brief statement of interest or intent regarding why graduate study in the Department of Anthropology is desired;
- three letters of recommendation;
- a writing sample (preferably a research paper); and
- an application for graduate funding.

For more information concerning the required application elements, see Graduate Admissions Process on the Department of Anthropology website.

When completing the online Graduate College Application for Admission for Degree, applicants should enter MA or PhD based on their final degree objective. Students at the MA level do not write a thesis, so "MA (thesis)" is not an option. For questions about which degree option to choose, contact the Department of Anthropology.

Career Advancement

Graduates establish careers at universities, colleges, museums, healthcare institutions, and a diverse range of governmental and nongovernmental agencies. For more information, see Careers and Opportunities on the Department of Anthropology website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students normally are admitted (whether with a master's or a bachelor's degree) under the assumption that they intend to pursue the PhD degree. The department also offers a terminal MA degree, with a focus on cultural resource management-archaeology (CRM).

b Some students may complete up to 36 s.h. of graduate coursework for the degree, depending on their previous anthropological training. Students should consult with their faculty advisor to determine if this is necessary and, if so, which coursework is appropriate.

c A maximum of 9 s.h. of coursework outside anthropology may count towards the degree requirements.

d Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

e Composed of three members of the anthropology graduate faculty, one of whom serves as the committee chair, and the student's faculty advisor.

f Students who conduct research involving human subjects (e.g., ethnographic research in the summer months) are required to submit a detailed application about the scope of their study and data collection methods through the HawkIRB system for Institutional Review Board (IRB) approval.

g In consultation with faculty advisor and committee members, students select a minimum of 21 s.h. of additional coursework to complete the remaining semester hours required for the MA; may include courses in other disciplines and up to 9 s.h. of directed study. Students who intend to earn a doctorate should consider taking a statistics course.

h Compile, in consultation with faculty advisor, the three strongest papers written for anthropology courses, conferences, or journals; an annotated bibliography of 3 topical areas with 5 key annotated references in each; current curriculum vitae; and a three-page narrative to describe intellectual trajectory in the MA program to date.

i Compile, in consultation with faculty advisor, the three strongest papers written for anthropology courses, conferences, or journals; an annotated bibliography of 3-4 topical areas with 6-10 key references in each; current curriculum vitae; and a three-page narrative to describe intellectual trajectory in the MA program to date.

j Discuss committee and format with faculty advisor and graduate program coordinator.

Anthropology, PhD

Learning Outcomes

Disciplinary Expertise

Graduate students will gain an in-depth understanding of anthropology and the discipline's contributions to the understanding of people and culture, in the past and present.

Skills for Independent Research

Graduate students will acquire professional and ethical research, reasoning, methodological, and management skills to identify important research problems. They will also learn how to design and execute a project, productively engage with feedback, and successfully report (via writing and presentations) the results of their independent research to diverse sets of audiences.

Teaching Contributions

Graduate students will learn how to communicate anthropological concepts and theories effectively and ethically to different audiences.

Disciplinary, Academic, and Community Contributions

Graduate students will develop service, mentoring, and leadership skills that enable them to advance and support professional, management, academic, and community needs.

Requirements

The PhD leads to the accomplishment of professional-level skills in conducting independent research, and normally features specialized training in one or two of the discipline's subfields. Doctoral education is guided by a PhD committee composed of members of the faculty competent in the particular areas and topics chosen by a student. Students must maintain a cumulative grade-point average of at least 3.00.

The doctoral program includes an integrated process of progressively developing and completing reading lists, developing and submitting research proposals to funding agencies, developing and defending a dissertation prospectus, and writing two comprehensive exam essays. Upon successful completion of the comprehensive examination and the dissertation prospectus, a student advances to candidacy for the PhD. To complete the PhD, all doctoral candidates are required to conduct independent anthropological research, write a dissertation, and defend it.

For students who enter the doctoral program with an existing MA (in anthropology or a related field), the faculty develop an individualized program of study based on a student's existing coursework and goals.

PhD students may also elect to pursue an optional concentration in feminist anthropology.

For program requirements, refer to the current Graduate Student Guidebook on the Department of Anthropology website.

Admission

Applicants for admission to the graduate program in anthropology are considered regardless of their previous field of training. Students without previous training in anthropology are expected to perform additional work as necessary to achieve the competence expected for their degree objective.

Students normally are admitted under the assumption that they intend to pursue the PhD, with the exception of students entering into the cultural resource management–archaeology MA program. Students without an MA in anthropology devote the first two years to fulfilling the MA requirements. After those requirements are completed, the student's committee may award the MA with admittance to the PhD program.

Students with an MA in anthropology from another institution may proceed directly into a PhD program organized around their special research interests. If they lack any of the requirements of the graduate program at the University of Iowa, they are informed of those requirements when admitted. Acceptance of credit hours from other institutions will follow UI regulations.

Applicants for admission to the graduate program must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Anthropology graduate program applicants are required to upload the following documentation to the University of Iowa Graduate Admissions online application:

- official academic records/transcripts from previous institutions attended;
- a brief statement of interest or intent regarding why graduate study in the Department of Anthropology is desired;
- three letters of recommendation;
- a writing sample (preferably a research paper or MA thesis); and
- an application for graduate funding.

For more information concerning the required application elements, see Graduate Admissions Process on the Department of Anthropology website.

Career Advancement

Graduates establish careers at universities, colleges, museums, healthcare institutions, and a diverse range of governmental and nongovernmental agencies. For more information, see Careers and Opportunities on the Department of Anthropology website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Total Hours	**72**

a A maximum of 18 s.h. of coursework outside anthropology (this includes and is not in addition to the 9 s.h. allowed at the MA level) may count towards the degree requirements; beyond the MA degree, no more than 9 additional semester hours of ANTH:6005 may count towards the PhD degree.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Students who conduct research involving human subjects (e.g., ethnographic research in the summer months) are required to submit a detailed application about the scope of their study and data collection methods through the HawkIRB system for Institutional Review Board (IRB) approval.

d Sociocultural Anthropology option: ANTH:5101; Archaeology options: ANTH:3237, ANTH:5201; Biological Anthropology options: ANTH:3308, ANTH:4315, ANTH:5301.

e Electives may include courses in other relevant study, a maximum of 18 s.h. of directed study, and dissertation credit. Work with faculty advisor to determine appropriate graduate level elective coursework and sequence.

f Students should consult with their advisor and committee and determine both existing and needed language competencies. A record of the status of, expected training in, and decisions (including waivers) related to language competency must be included in the student's file by the time of candidacy. The Language Competency Report can be found on the department website.

g The student will prepare two comprehensive essays: one in the geographical area of specialization and the other in the primary topical area of specialization. In some subfields and for some projects, a geographical area may not be relevant, and the student will focus on two topical areas. Each paper will address a question posed by the committee in consultation with the student.

h Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

i The dissertation prospectus should present a research question that contributes to ongoing discussions in anthropological scholarship, explain the background and significance of the question, and describe the methods that the student plans to use to answer it. The student publicly defends their prospectus before their PhD committee by the end of the final exam period of that semester

j Dissertation defense.

Art, Art History, and Design

Chair

- Andrew Casto

Undergraduate majors: art (BA, BFA); art history (BA)

Undergraduate minors: art; art history

Graduate degrees: MA in art; MA in art history; MFA in art; PhD in art history

Faculty: https://art.uiowa.edu/people/faculty

Website: https://art.uiowa.edu/

The School of Art, Art History, and Design provides a creative, multidisciplinary environment for students of the studio arts and the history of art. Established in 1936, the school is firmly grounded in the College of Liberal Arts and Sciences. It encourages interaction among its diverse faculty as well as collaboration with related disciplines across campus.

Iowa's art, art history, and design graduates enjoy success as practicing professional artists, professors of art history, teachers, museum directors and curators, theater designers, commercial designers, and art administrators.

The School of Art, Art History, and Design's Visual Arts Building opened in fall 2016 and is identified by architectural publications as one of the best designed new buildings in the world. The Visual Arts Building is adjacent to the second School of Art, Art History, and Design building, Art Building West. Visit the School of Art, Art History, and Design website and MyUI for information about studio, office, and classroom sites.

Studio Art

The School of Art, Art History, and Design is committed to students' professional futures. The studio laboratories, some of the finest facilities nationally, are updated annually with leading-edge production equipment. Students have the opportunity to develop the visual vocabulary and cross-media literacies required by the rapidly changing contemporary world. The visiting artist series introduces students to national and international leaders in the field, while a varied, diverse, and professionally active faculty ensures that the area is contemporary in its approach and pluralistic in its scope.

Undergraduate and graduate students select their major and minor studio art disciplines from ceramics, drawing, graphic design, intermedia, jewelry and metal arts, painting, photography, printmaking, sculpture, and three-dimensional (3D) design.

Art History

Art history, a broad intellectual discipline, is central to the humanities. Diverse approaches characterize the school's art history faculty, who have interdisciplinary ties within and beyond the university. Their primary mission is to help students develop skills for exploring issues and problems central to the history of art as a whole as well as to its specialized areas. Because the major in art history stresses the development of critical visual thinking and writing, it prepares students for graduate work in art history and for other professional fields as well.

Student Organizations

The undergraduate Art History Society and the graduate Art History Society sponsor activities for students. The Faculty/Graduate Student Art History Colloquium meets five times each semester to focus on professional development and issues of broad interest in art. Other student organizations include Students in Design, Children of the Clay (formerly the Ceramics Society), and the Iowa Smith Guild.

Interdisciplinary Resources

Colloquia, visiting artists and lecturer programs, and graduate workshops bring visitors to the School of Art, Art History, and Design and provide open forums for discussion of issues in art and scholarship.

Among the school's major assets is the Project for the Advanced Study of Art and Life in Africa (PASALA), an interdisciplinary program that brings together faculty with international reputations in art history, anthropology, film, history, and literature to offer courses and independent study of art in West, Central, East, and South Africa. The result is a program of unusual breadth and depth of expertise. PASALA offers scholarships and support for research in Africa and dissertation preparation to outstanding students. A major resource for PASALA is the Stanley Collection of African Art. Visit African Art on the Stanley Museum of Art website to learn more.

The School of Art, Art History, and Design affiliates with the Department of American Studies [p. 51], giving students opportunities to study not only the history of American art but a variety of interdisciplinary programs in American history, literature, and politics. The school also is linked to the Medieval Studies Program [p. 805], which offers an undergraduate certificate and courses in the history, literature, and culture of the Middle Ages.

Related Certificate

Certificate in Book Arts and Book Studies

The Center for the Book and the School of Art, Art History, and Design enable students to earn the Certificate in Book Arts and Book Studies [p. 1727] and the MFA in art. Students may wish to earn the MFA in a studio art area (printmaking, drawing, painting, design, etc.) in combination with the Certificate in Book Arts and Book Studies. If accepted to both programs, students are advised and matriculate through both programs independently. Most, if not all, of the 18 s.h. of elective coursework required for the MFA may be applied toward the Center for the Book certificate. It is possible for students to earn both credentials in the same amount of time required to earn the MFA degree.

Advisors in both areas of study assist interested students in discerning whether the MFA in book arts (Center for the Book) or the MFA in art and the certificate option is most appropriate to a student's background and career goals. In large part, this is determined by the degree to which books and book arts are central to the applicant’s chosen path.

Programs

Undergraduate Programs of Study

Majors

- Major in Art (Bachelor of Arts) [p. 99]
- Major in Art History (Bachelor of Arts) [p. 103]
- Major in Art (Bachelor of Fine Arts) [p. 112]

Minors

- Minor in Art [p. 126]
- Minor in Art History [p. 127]

Graduate Programs of Study

- Master of Arts in Art [p. 128]
- Master of Arts in Art History [p. 131]
- Master of Fine Arts in Art [p. 134]
- Doctor of Philosophy in Art History [p. 137]

Facilities

Reference Collections

Focusing on the creation and study of the visual arts, the Art Library has over 150,000 books, journals, and DVDs. It also provides access to digital resources and the major online research databases.

The Office of Visual Materials is the school's collection management service and it manages digital and physical collections. These collections include 650,000 digital images for teaching, the Thesis Rental Gallery, the Iowa Print Archive, and the DeCaso Visual Archive.

Museum of Art

The University of Iowa Stanley Museum of Art has a significant permanent collection that includes major holdings of 20th-century and contemporary art, African and pre-Columbian art, English and American silver, European and American prints, drawings and photographs, and Etruscan, Iranian, and contemporary American ceramics. As well as serving as a resource for research in a wide variety of art history areas, the museum offers a program of exhibitions, lectures, and recitals.

Learn about current exhibitions and events by visiting the University of Iowa Stanley Museum of Art website.

Art Buildings

The school's administrative center, Art Building West, is home to the school's main office as well as the Office of Visual Materials, the Art Library, an auditorium, art history classrooms, a gallery, a café, and studios for graphic design, painting, animation, and digital photography. Designed by architect Steven Holl, Art Building West has won numerous awards for its innovative design.

The Visual Arts Building has been identified by a number of publications as one of the top new buildings in the world. It also was designed by architect Steven Holl and sits adjacent to Art Building West.

Courses

- Art History Courses [p. 86]
- Studio Art Courses [p. 91]
- General Art Courses [p. 91]
- Ceramics Courses [p. 92]
- Design Courses [p. 93]
- Three-Dimensional Design Courses [p. 93]
- Drawing Courses [p. 94]
- Intermedia Courses [p. 94]
- Jewelry and Metal Arts Courses [p. 95]
- Painting Courses [p. 95]
- Papermaking Courses [p. 95]
- Photography Courses [p. 96]
- Printmaking Courses [p. 97]
- Sculpture Courses [p. 97]
- Art Education Courses [p. 98]

Art History Courses

An introductory course in the appropriate art history area or consent of the instructor is a prerequisite for some courses numbered above 3000. Courses titled "Themes in ..." consider topics of current interest in the field, organized thematically rather than chronologically.

ARTH:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ARTH:1010 Art and Visual Culture 3 s.h.
Visual analysis, media and techniques, artistic subject matter and aesthetic issues; historical periods and movements from ancient times to present; provides strong orientation to visual aspects of humanities, background for other art history courses, and introduction to visual arts for personal enrichment; for students new to art history. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:1020 Masterpieces: Art in Historical and Cultural Perspectives 3 s.h.
Masterpieces of Western art—how to look at, think about, and understand some of the worlds' most exciting works of architecture, painting, and sculpture; their construction, hidden meanings, historical content, and their meanings today. GE: Literary, Visual, and Performing Arts.

ARTH:1025 Buyer Beware! Fakes, Thefts, and the Global Art Market 3 s.h.
Examination of how manipulated artworks and outright forgeries have been accepted as genuine and sold on the art market to museums and private collectors alike; how the global art market is connected to the theft of art and the looting of archaeological sites; case studies (i.e., Parthenon marbles, Benin bronzes, widespread looting under ISIS in Syria and Iraq) allow for discussions about the relationship between colonialism, geopolitical power, and artwork displayed in museums.

ARTH:1030 Themes in Global Art 3 s.h.
Exploration of how different cultures throughout history and across the globe have expressed their social, political, and religious values in visual form; key themes include social functions of art, the ideal body, art of the divine, funerary art, propaganda and power. GE: Literary, Visual, and Performing Arts; Values and Society.

ARTH:1040 Arts of Africa 3 s.h.
Arts, artists, and cultures of Africa; sculpture, paintings, pottery, textiles, architecture, human adornment. GE: International and Global Issues; Literary, Visual, and Performing Arts.

ARTH:1045 Race and Art in America 3 s.h.
Chronological development and critical themes of African American visual culture; material culture of slave artists, history of racist imagery in the U.S., most important African American fine artists; slave dwellings, quilts, paintings, sculpture, photography; W.E.B. Du Bois' claim to Egyptian artistic patrimony, controversial work of Kara Walker, hip hop aesthetic of Kehinde Wiley; previous art history experience not required. GE: Values and Society.

ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I 3 s.h.
Survey to foster development of critical skills in thinking and writing about visual culture, and to familiarize students with broad outlines of artistic development in the Western tradition, from prehistory through later Middle Ages; aesthetic qualities of artworks, relationship between style, function, and meaning. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II 3 s.h.
Survey of the Western world's visual arts from Renaissance (ca. 1400) to present; major movements and principal masters of Western Europe and the United States in their social and historical contexts; focus on stimulation of visual literacy and familiarity with outstanding cultural monuments. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:1070 Asian Art and Culture 3 s.h.
Art from India, China, and Japan in many media and forms, in their cultural and historical contexts; cultural distinctions of these Asian civilizations as seen through the visual arts; chronology used to highlight historical processes and provide perspectives on continuity and change. Taught in English. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:1075 Contemporary Art: A Global Perspective 3 s.h.
Introduction to contemporary art across globe; exploration of how artists work today and their approaches to pressing issues and questions of current times.

ARTH:1080 How to Write About Art 3 s.h.
Opportunity to develop understanding of and skill in using visual-arts writing conventions and linguistic competencies that are necessary for academic and professional success; formats such as exhibition reviews, art criticism, research writing, artist's statements; experience through exercises, formal essays, revision, workshops. Requirements: fulfillment of GE CLAS Core Rhetoric.

ARTH:1095 Native American Art 3 s.h.
Survey of the visual arts of Indigenous peoples in North America with emphasis on regions that have become the United States; exploration of painting, sculpture, ceramics, fiber arts, performance, and architecture as expressions of identity, creativity, resistance, and resilience from ancestral traditions through transformations prompted by non-Native contact to today's vibrant art scene. GE: Literary, Visual, and Performing Arts; Values and Society. Same as NAIS:1095.

ARTH:2020 Western Architecture From Prehistory to the Present 3 s.h.
Overview of monuments, Neolithic period to present; aesthetic and structural principles, major styles, architects.

ARTH:2120 Art and Architecture of the Islamic World 3 s.h.
Introduction to the artistic production of the Islamic world from the 7th century to present day; broad geographical coverage; examination of contributions of Arabia and the Middle East as well as those of Spain, North Africa, India, and Asia; students consider a wide variety of media including ceramics, metalwork, textiles, and calligraphy; emphasis on great buildings (e.g., Dome of the Rock, Alhambra, Taj Mahal); students are challenged to understand these works in their original cultural contexts and in relation to currently ongoing debates about intercultural exchange and religious identity in a globalizing world.

ARTH:2150 Art and Life in Africa 3 s.h.
Historical overview of themes and issues in African art (i.e., aesthetics, form and function, art in religion and the spiritual realm, art and politics, art and the individual); techniques used to create art (i.e., weaving, carving, brass casting, iron smelting and forging, architecture); art in daily life.

ARTH:2220 Introduction to the Art of China 3 s.h.
Visual arts of China and their history; emphasis on understanding in context of Chinese civilization, history. Same as ASIA:2231.

ARTH:2250 Introduction to the Art of Japan 3 s.h.
Chronological survey of Japan's visual arts in their historical and cultural contexts from Neolithic age to present; extensive use of slides, films, other visual materials. Taught in English. Same as JPNS:2250.

ARTH:2320 Ancient Art From the Great Pyramids of Egypt to the Colosseum in Rome 3 s.h.
Art and architecture of the Mediterranean world (ca. 3500 B.C.E.) to death of Constantine (337 C.E.); Egyptian, Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, religion. GE: Historical Perspectives. Same as CLSA:2226.

ARTH:2330 Ancient Egyptian, Mesopotamian, and Persian Art 3 s.h.
Art and architecture of Egypt and the Near East (ca. 3500 B.C.E.) to advent of Islam; Egyptian, Sumerian, Assyrian, Babylonian, and Persian cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as CLSA:2330.

ARTH:2340 The Power of Art in Greece and Rome 3 s.h.
Art and architecture of Greece and Rome (ca. 3000 B.C.E.) to death of Constantine (337 C.E.); Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as CLSA:2340.

ARTH:2420 Medieval Art From Constantine to Columbus 3 s.h.
Comprehensive survey of artistic traditions of Western Europe and Mediterranean Basin from roughly 300 to 1500; reign of Roman Emperor Constantine to lifetime of Christopher Columbus; complexity and diversity of cultural and artistic traditions that flourished in these so-called Middle Ages, where blending of Roman and northern legacies created European cultures.

ARTH:2520 Italian Renaissance Art 3 s.h.
Consequential works of art by Italian artists of the 14th and 15th centuries; diverse roles played by images in early Renaissance society; analysis of primary sources and seminal research in the field; (re)birth of art theory and advancing social status of the artist in cultural centers of Florence, papal Rome, republican Venice, and the courts of Northern Italy.

ARTH:2530 High Renaissance Art and Mannerism: Michelangelo to Caravaggio 3 s.h.
Most consequential works of High Renaissance and Mannerist art by late 15th-century and 16th-century Italian artists; developments in painting, architecture, sculpture, printmaking, and portable arts; Michelangelo, Leonardo da Vinci, Raphael, Giorgione, Titian, Correggio, Lotto, Bronzino, Sonfonisba Anguissola, Palladio, Cellini, Veronese, Carracci, and Caravaggio receive close consideration; particular attention given to materials and techniques employed, creative approach of the artist, and multiple functions of the image in government and statecraft, churches, public spaces, and private homes; constructing social and civic identity.

ARTH:2730 Transformations in Nineteenth-Century European Art 3 s.h.
Major European artists, works, movements, aesthetic theories from late 18th century to 1900; works in their aesthetic, cultural, intellectual, political contexts; boundaries, definitions of movements (i.e., Neo-Classicism, Romanticism, Realism, Impressionism, Post-Impressionism, Symbolism).

ARTH:2740 Art of the Northern Renaissance: Jan van Eyck, Hieronymus Bosch, Albrecht Durer, and Beyond 3 s.h.
Northern European art between 1350 and 1600; the transition between the late Middle Ages and the Renaissance; artistic output of this period; development of critical thinking skills by exploring ways in which the Northern Renaissance has been defined with respect to Italian Renaissance and northern medieval traditions.

ARTH:2820 Introduction to Twentieth-Century Art 3 s.h.
Modern European and American painting, sculpture, and architecture from 1880 to present; major art movements of modern art history.

ARTH:3000 Digital Approaches to the Study of Art 3 s.h.
Digital approaches to study of art history; emphasis on cultural identity.

ARTH:3010 Fakes, Frauds, and Forgeries: The Dark Side of Art History 3 s.h.
How fraudulent artworks have been accepted as genuine and incorporated into the art historical canon, from the famous gold and ivory Minoan snake goddess to paintings purportedly by Rembrandt; the danger frauds pose to our understanding of cultural heritage and historical past, how fakes have impacted the art market, and value of forgeries as indices of contemporary taste and preconceptions about art. Same as MUSM:3010.

ARTH:3020 Paris and the Art of Urban Life 3 s.h.
City of Paris examined in varied historical, artistic, and cultural contexts; interdisciplinary.

ARTH:3090 Contemporary Architecture 3 s.h.
Quality of contemporary-built environments in America, Western Europe, Asia, and Middle East from 1970 to present; stylistic evolution of postmodern design, new urbanism, sustainable architecture; impact of literary and cultural theory on contemporary practitioners such as Daniel Libeskind, Steven Holl.

ARTH:3160 Themes in African Art 3 s.h.
Themes and topics in African art.

ARTH:3225 Modern and Contemporary Art in China 3 s.h.
Introduction to art and culture of 20th- and 21st-century China, covering the period from 1911 to present day; focus on contextualizing art objects, performances, propagandas, and exhibitions produced by government, business sector, curators, avant-garde artists and groups in China; topics include biennales, museums, art districts, luxury brands, and censorship; use of discussions and readings to investigate artworks and events that speak to China's society and economy, as well as its place in globalization and international art market.

ARTH:3245 Mountains and Waters: Landscape Art of East Asia 3 s.h.
Shanshui (mountains and waters), commonly translated as landscape, has been one of the most esteemed genres in East Asian visual cultures for over a millennium. Nonetheless, the relationship between landscape, nature, and its visual representation remains in flux. Examine the development of this genre, its transmission and translation across East Asia (China, Korea, and Japan), and its continuous transformation.

ARTH:3250 Brushwork in Chinese Art 3 s.h.
In-depth study of history, aesthetics, and techniques of brushwork on multiple forms of material culture; hands-on practical experience in Chinese brushwork; analysis of visual elements of brushwork in Chinese paintings, calligraphy, ceramics, and other artistic forms; synthesis of studio art experience and art historical analysis to provide a deeper practical and aesthetic understanding of Chinese fine art techniques.

ARTH:3255 Copy and Paste: Methods of Reproduction in Asian Art 3 s.h.
Introduction to methods of reproduction in Asian art that predates photography, encompassing technologies of graphic reproduction (manual, mechanical, and somewhere in between); exploration of themes including piece-mold bronze casting, stamping and seals, rubbing, molding and mass production, woodblock printing, trace-copying calligraphy, and free-hand copying of paintings; overarching concepts across different subjects (e.g., authorship and authenticity, value of copies and impact on canon formation, relationship between technology and style, question of aura in—and before—the age of mechanical reproduction). Same as ASIA:3255.

ARTH:3270 Themes in Asian Art History 3 s.h.
Same as ASIA:3270.

ARTH:3310 Celtic and Viking Art 3 s.h.
Art and architecture of Celts and Vikings from prehistory to Middle Ages.

ARTH:3320 Egyptian Art 3 s.h.
Survey of ancient Egypt over 3,500 years with emphasis on art and architecture in context; workshops, patrons, and audiences of Egyptian art; major principles, themes, and meanings of Egyptian art; relationship between writing and artistic representation; connections between art, kingship, and Egyptian view of the world; art and architecture of central elite and other social groups. Same as RELS:3704.

ARTH:3325 Kings, Gods, and Heroes: Art of Ancient Mesopotamia and Persia 3 s.h.
Arts, kings, and cultures of Mesopotamia, Syria, and Iran; sculpture, seals, pottery, metalworking, architecture.

ARTH:3330 Classical Greek Art 3 s.h.
Art and architecture of classical Greece (ca. 480-323 B.C.); monuments of this period—from Parthenon in Athens to Aphrodite of Knidos—often viewed as embodiments of the highest achievements in Western art and culture; classical Greek art within social, political, religious, and historical contexts; role in ancient Greek society and its impact in the 21st century. Same as CLSA:3227.

ARTH:3335 Early Greek Art 3 s.h.
Art and architecture of Early Greece (circa 3000-480 BCE); development of sculpture, architecture, and ceramics. Coverage includes the Greek Bronze Age (Cycladic, Minoan, Mycenaean), and the Iron Age from the Geometric through the Archaic periods. Art and architecture will be assessed in their social, religious, and historical contexts.

ARTH:3340 Greek Vase Painting 3 s.h.
Greek ceramics as documents of religious beliefs, mythology, and daily life 1000-300 B.C.E. Same as CLSA:3250.

ARTH:3350 Art of Early Rome: Patrons and Politics 3 s.h.
Examination of architecture, sculpture, and painting in central Italy from c. 800 B.C. to the end of the Roman Republic in 27 B.C.; art in the service of social ideology and political propaganda; funerary art and its relationship to the living; artistic interactions between Etruria, Greece, and Rome. Same as CLSA:3232.

ARTH:3360 Art of the Ancient Roman Empire 3 s.h.
Major developments in architecture, sculpture, and painting from the ascension of Augustus to sole ruler in 31 B.C. to the death of Constantine in A.D. 337; influence of individual emperors on the development of artistic forms; relationship between public and private art; interdependency of Rome and the provinces. Same as CLSA:3233.

ARTH:3370 Life and Death in Ancient Pompeii 3 s.h.
Art and architecture as documents of ancient life in Pompeii, a town that was destroyed during the eruption of Mount Vesuvius in 79 C.E.; topics include artistic choices and achievements of the city's inhabitants, roles played by men and women inside and outside the family, slavery, political organization and expression, and attitudes towards death. Same as CLSA:3234.

ARTH:3375 The Great Collision 3 s.h.
Major developments in architecture, sculpture, ceramics, and mosaics in Israel, Palestine, Syria, and Arabia from death of Alexander the Great to rise of Islam (4 B.C.E. to 8 C.E.); Greek and Roman influences versus local traditions; Roman Empire; growth of churches, synagogues, and mosques; identity and religion. Same as RELS:3375.

ARTH:3390 Early Medieval Art 3 s.h.
Complex artistic traditions that developed roughly between 300 and 1000 in territories once governed by the Roman Empire and in areas of northern Europe directly influenced by Western Christian tradition; period as not simply a "Dark Age," but a pivotal chapter in history of Western art and culture; group discussion, individual research topics.

ARTH:3400 Romanesque and Gothic Art 3 s.h.
Art and architecture produced in Western Europe from the year 1000 to the Renaissance, a period when works of boldly original character that continue to define the landscape of Europe were created; histories of Romanesque and Gothic styles; shift from monastic to episcopal, civic, and courtly patronage; intersection between art and devotional practice; flowering of medieval urbanism and building technology; intersection between artistic traditions of later Gothic and emerging Renaissance.

ARTH:3420 Gothic Architecture 3 s.h.
Gothic architecture and its history, from varied perspectives (e.g., formal structural, symbolic, geometric, socioeconomic).

ARTH:3440 Geometry in Art: From Prehistory to the Present 3 s.h.
Overviews the process of geometrical form generation in art from prehistory to the present; emphasizes the “Iowa Idea” of synergy between art history and studio practice, arguing that consideration of compositional strategy deserves a more prominent place in the literature on art history than it has usually received.

ARTH:3550 Leonardo, Raphael, Michelangelo: Rivalry and the Rise of the Artist in the Italian Renaissance 3 s.h.
The arts in Italy 1485-1550.

ARTH:3560 Art in Renaissance Venice 3 s.h.
As a center of trade between East and West, Renaissance Venice became the wealthiest city in Europe and home to many of the greatest artists in the Western tradition; students focus on Venice's revolution in art, as it transformed from depictions of medieval religious imagery to Renaissance subjects and concepts associated with modernity such as image of the reclining nude, psychological portrait, poetic allegory, and the very idea that a visual medium might express an artist's internal feelings or state of mind; exploration and evaluation of workshops including the Bellini, Carpaccio, Giorgione, Titian, Veronese, and Tintoretto from multiple perspectives.

ARTH:3600 History of Printmaking 3 s.h.
History of printmaking from its origins to the present day, following a broadly chronological framework. Students examine the development of major printmaking techniques, including relief, intaglio, lithography, and screen printing, and consider how prints served as powerful vehicles for the transmission of artistic styles and iconography across geographical regions. Highlights the contributions of significant printmakers, situating their work within broader cultural and historical contexts.

ARTH:3700 Rococo to Realism: Making Art Modern in an Age of Revolution 3 s.h.
Developments in French art and culture in a period of artistic, cultural, and political upheavals from the rise of Rococo as a new art style to the innovations of Romanticism and Realism. Topics include the intersections of art with culture and politics, the impact of women artists and patrons, the role of psychology, biology, and the natural sciences in the making of art, the uses of myth, and the rise of modernism. Changes in patronage, the new role of museums and galleries, and innovations in printmaking and book illustration will also be explored. Artists include Watteau, Chardin, Fragonard, Vigee-Lebrun, David, Ingres, Gericault, and Delacroix, among others.

ARTH:3710 Fantasy and Seduction in Venice: The Renaissance Art of Bellini, Giorgione, and Titian 3 s.h.
Exploration of the birth of modern art through three Italian Renaissance painters essential to its emergence: Bellini, Giorgione, and Titian.

ARTH:3720 The Romantic Revolution 3 s.h.
Transformations in European art and culture 1750-1850, an age of artistic, political, cultural, intellectual crisis and revolutions; major artists, including David, Ingres, Gericault, Delacroix, Goya, Freidrich, Constable, Turner.

ARTH:3730 Impressionism and the Visual Revolution 3 s.h.
Naturalism, Realism, the Impressionist landscape, painting of modern life, new trends in subjectivity and exoticism mid- to late-19th-century European art and culture; Courbet, Manet, Degas, Monet, Renoir, Seurat, Cezanne, Van Gogh, Gauguin, Ensor, Munch.

ARTH:3740 Manet to Matisse 3 s.h.
Development of modernism and the avant-garde in late 19th- and early 20th-century Paris; intersection of innovation and tradition, literature and art; role of theory and criticism in works of Manet, Degas, Seurat, Cezanne, Gauguin, Rodin, Matisse, and Picasso.

ARTH:3750 Muses, Models, Artists, and Patrons: Women in the Visual Arts 3 s.h.
Women in the visual arts from various perspectives: women as subject and inspiration, as patrons and as artists; role of women in the arts from the late 18th through the early 20th centuries, primarily in Europe, a period that witnessed significant female patronage of the arts, the first modern feminist movements that gave impetus to newly independent women artists, and the transformation of ways in which women were represented in art across genres, including history, myth, portraiture, orientalism, and images of contemporary life; impact of the role of women in art and culture will be critically examined.

ARTH:3820 Modern Art 3 s.h.
Development of modern art from early years of 20th century through 1940s; focus on painting, sculpture, architecture, and photography; progress of Modernism; exploration of major movements including Fauvism, Cubism, and Surrealism.

ARTH:3840 Contemporary Art 3 s.h.
Painting, sculpture, architecture, and photography; developments during late 1960s to present; conceptual art, performance art, neo-abstraction, and picture/theory art with each approached from a global perspective.

ARTH:3850 Pop Art 3 s.h.
Survey of pop art in America, Britain, Europe; focus on developments in painting and sculpture 1950s to early 1960s; continuing influence of Pop Art.

ARTH:3860 Minimalism 3 s.h.
Survey of Minimalism; focus on developments in painting and sculpture during 1960s; continuing influence.

ARTH:3870 History of Photography 3 s.h.
Survey of photography 1839 to present.

ARTH:3955 Art and American National Parks 3 s.h.
Artistic history of American national parks; beginning with painter George Catlin's idea of a nation's park in the 1840s; how art has played a major role in development of and attitudes toward these special places; magazine engravings, tourist guidebooks, government reports, monumental oil paintings, photographs, and recent photomontages; focus on Yellowstone, Niagara, Yosemite, and the Grand Canyon, as well as less well-known sites such as Acadia National Park and the Pictured Rocks National Lakeshore.

ARTH:3980 American Print Culture 3 s.h.
Exploration of a wide range of imagery printed and published in the United States during 19th century (1776-1900); fine art original prints, popular imagery in periodicals and illustrated books, scholarly literature, history of evolving technologies, variety of printed work; shifting reputation of printed art and its makers. Same as UICB:3980.

ARTH:3985 Honors Research in Art History arr.
Research and preparation of thesis. Requirements: honors standing.

ARTH:3990 Topics in Art History 3 s.h.
Varied topics.

ARTH:3995 Independent Study in Art History arr.
Advanced work in art history.

ARTH:4070 The Art of Curation: Designing a Museum Exhibition 3 s.h.
Principles and practices of curating art exhibitions within museum settings. Students engage with key issues in exhibition curation through readings and discussions and by critically reviewing museum exhibitions and catalogues.

ARTH:4081 The Art Museum: Theory and Practice 3 s.h.
Introduction to different aspects of art museums; emphasis on roles of art historians, especially curatorial practice; current and historical theories and practices of art exhibitions; varying debates of the politics of display; art museum professions; the many facets of art exhibition preparation; the University of Iowa Stanley Museum of Art collections. Prerequisites: (MUSM:3001 or ARTH:1040) and (RHET:1030 or RHET:1040 or RHET:1060). Same as MUSM:4081.

ARTH:4941 American Art and the Environment 3 s.h.
Artists' responses to the American environment across a broad chronological period; analysis of works of art through visual characteristics, landscape theories, ecocriticism, and environmental and cultural history to reveal deeper meanings of this seemingly "natural" genre, and position it as a preeminent American artistic subject and a critically important art form in our own time as the environment becomes a global concern.

ARTH:4999 Capstone Seminar in Art History 3 s.h.
Critical thinking and research; readings in historical development of the discipline, from Renaissance to present; methodological issues. Offered fall semesters.

ARTH:5000 History and Methods 3 s.h.
Essential foundation of critical thinking and research in the history of art; students survey the historical development of the discipline of art history from Renaissance to present; various methodological paradigms that have been deployed in the field; for beginning graduate students.

ARTH:6020 Art History Colloquium 1 s.h.
Current topics and research in art history. Requirements: art history graduate standing.

ARTH:6040 Directed Studies arr.

ARTH:6100 Graduate Practicum in Art History 3 s.h.
Exploration of current methodologies and practices central to the discipline of art history. Students engage with a variety of practical frameworks and research methods, critically analyzing how these approaches shape the study and interpretation of art in different periods and cultures.

ARTH:6210 Graduate Seminar in Asian Art 3 s.h.
Key themes and issues in Asian art.

ARTH:6300 Graduate Seminar in Ancient Art 3 s.h.
Key themes and issues in ancient art. Same as CLSA:6200.

ARTH:6440 Seminar: Problems in Medieval Art 3 s.h.
Major issues, methodologies.

ARTH:6545 Graduate Seminar in Renaissance Art 3 s.h.
Key themes and issues in Renaissance art.

ARTH:6740 Graduate Seminar: Nineteenth-Century Art 3 s.h.

ARTH:6840 Seminar: Modern/Contemporary Art 3 s.h.
Major issues, methodologies.

ARTH:7010 PhD Readings arr.

ARTH:7020 PhD Thesis arr.

Studio Art Courses

Courses numbered below 3000 are primarily for undergraduates and may not be repeated unless noted on MyUI. Some courses numbered 2000–3000 are repeatable. Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all studio courses for art majors.

General Art Courses

ARTS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ARTS:1002 Colloquium in Visual Art and Design 1 s.h.
School of Art, Art History, and Design privileges, expectations, course offerings, and procedures; overview of various studio labs, processes, and equipment; introduction to faculty research; students receive support for development of their studio practice, build community and dialogue within the studio art division among majors, and explore career paths and internships.

ARTS:1010 Elements of Art 3 s.h.
Drawing, composition; selected reading. Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1020 Elements of 3D Design 3 s.h.
Introduction to 3D design using drafting, modeling, and virtual reality software; basic concepts of drafting, planning, and color theory; basic Auto CAD, 3ds Max Studio, Vizard, InDesign software; students design an object to be printed 2D and 3D, and a conceptual space to be printed 2D and experienced virtually; student journal and portfolio. Requirements: non-art major.

ARTS:1030 Elements of Jewelry and Metal Arts 3 s.h.
Fundamental 3D design principles and appreciation of contemporary jewelry and metal artworks; techniques and materials in jewelry and metal arts; experimentation with diverse media. Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1050 Elements of Printmaking 3 s.h.
Introduction to methods, materials, and concepts of printmaking. Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1060 Elements of Digital Photography 3 s.h.
Introduction to history, aesthetics, and practice of photography as a fine art; includes demonstrations, workshops, critiques, final portfolio; photography time outside of class; digital camera required. Requirements: non-art major. GE: Engineering Be Creative.

ARTS:1070 Elements of Graphic Design 3 s.h.
Introduction to concepts and principles of graphic design and contemporary approaches to effective visual communication; demonstrations, workshops, critiques, final portfolio.

ARTS:1080 Elements of Sculpture 3 s.h.
Possibilities and definition of 3D form including time-based, performance, structural, installation, and kinetic sculpture. Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1140 Introduction to Contemporary Black Art: Painting, Performance, and Process 3 s.h.
Introduction to African American art in the United States; exploration of major art events (i.e., Harlem Renaissance, Black Arts Movement); study of specific African American artists and their work; influence of race on artistic expression. Same as AFAM:1140.

ARTS:1510 Basic Drawing 3 s.h.
Two-dimensional visual language, media; space, form; color. Requirements: art major or art minor. GE: Engineering Be Creative.

ARTS:1520 Design Fundamentals 3 s.h.
Two- and three-dimensional concepts and their relations; working with basic drawing instruments; problems in visual arts; artists' philosophies and techniques. Requirements: art major. GE: Engineering Be Creative.

ARTS:2000 Big Ideas: Creativity for a Lifetime 3 s.h.
Exploration of what senior artists can teach about creativity and aging; interdisciplinary project-based collaborative learning opportunities that consider role of arts and creativity across a lifespan; essential skills necessary to be professionals in numerous careers including health, social work, education, humanities, and the arts; identification of ways for students to be more creative in their own lives and work. GE: Values and Society. Same as ASP:2000, EDTL:2000, RHET:2000.

ARTS:2100 Printmaking and Politics of Protest 3 s.h.
Examination of historical populace roots of the print. GE: Understanding Cultural Perspectives.

ARTS:2300 Hand Drawing Bicycles for Designers and Engineers 3 s.h.
For designers and engineers drafting and drawing go hand in hand. While working exclusively in digital drawing is the norm, a person who can draw ideas by hand has a fuller understanding of the object and project. Students will do drawings of bicycles, bicycle components, and bicycles in locations, learning hand drafting, using drawing tools including pen, pencil, and marker. With the bicycle as context, students will learn iterative drawing, sketching diagrams, loose orthogonal drawings, measured two-dimensional and three-dimensional drawing, perspective, isometric study, and basic drawing skills (line, contour, cross-contour, value, volume, texture, color theory). GE: Engineering Be Creative.

ARTS:2800 Digital Arts: An Introduction 3 s.h.
Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as CINE:2800, CS:2800, DANC:2800, DIGA:2800, MUS:2800, THTR:2800.

ARTS:2900 Book Design for Publishing 3 s.h.
Introduction to the major aspects of book design, including typography, layout, standard industry software, discussion of trends in the field. Same as ENGL:2900, UICB:2900, WRIT:2900.

ARTS:3230 Scenic Design I 3 s.h.
Development of theatre scenery; how to research, conceptualize, and express ideas in 3D models, simple sketches, and drafting. GE: Engineering Be Creative. Same as THTR:3230.

ARTS:4190 Honors in Studio Art 0-3 s.h.
Research, preparation, and exhibition of an honors project in studio art. Requirements: studio art major, UI GPA of at least 3.33, and art GPA of at least 3.50.

ARTS:4195 BFA Exhibition 0 s.h.
BFA students present a show of their work in final semester; use of flyers and other media to advertise show; meetings with faculty and academic advisors to complete required documentation; students planning to graduate with honors in the art major may combine honors project and BFA show; variations require approval by BFA faculty advisor and academic advisors. Requirements: BFA standing in final semester.

ARTS:4270 Scenic Art 3 s.h.
Basic techniques in scenic art for the theatre; classical scene painting, color theory, drawing, using nontraditional tools and materials, foam carving, and finishes. Offered every other year. GE: Engineering Be Creative. Same as THTR:4270.

ARTS:4300 Letterpress I 3 s.h.
Mechanics of letterpress printing, typography, and design as applied to hand set metal type and edition printing; printing on a Vandercook proof press; introduction to photopolymer plates and methods of illustration related to edition printing, historical aspects of printing technology, typecasting, type classification; role of letterpress in modern private press and contemporary artist books. Same as UICB:4300.

ARTS:4380 Letterpress II 3 s.h.
Builds on skills acquired in UICB:4300; students produce an editioned letterpress printed chapbook or artist book, a poster for a public event, and an image built from metal type; exploration of hand-set metal, digital typesetting, printing from photopolymer plates, and pressure printing; press mechanics and operation; publication philosophies, manuscript acquisition, and topics specific to literary fine press and artist books; historical and contemporary context for literary fine press publications and artist book work. Prerequisites: UICB:4300. Same as UICB:4380.

ARTS:4390 Book and Publication Design 3 s.h.
Students plan, design, and produce a book using Adobe Creative Suite; page layout software, typography, page layout and design, book formatting, handling of image files, preparation of materials for print and other contemporary book media; history of book design, book design in contemporary publishing; visit to University of Iowa Libraries Special Collections. Prerequisites: DSGN:2600 or UICB:4300. Same as UICB:4390.

ARTS:4400 History of Western Letterforms 3 s.h.
History of Western letterforms, with focus on tools, materials, techniques; the major hands, their place in history, their influence on modern times; creation of letterforms using appropriate tools; hands-on approach with emphasis on understanding rather than mastery. Same as UICB:4400.

ARTS:4415 Introduction to Classical Calligraphy 3 s.h.
Basic calligraphy with focus on the hands modern classic typefaces are inspired by (e.g., Roman capitals, lowercase Roman, italic). GE: Engineering Be Creative. Same as UICB:4415.

ARTS:4490 Advanced Studies in Letter Arts 3 s.h.
Special topics and advanced projects in calligraphy and letter arts. Prerequisites: UICB:4400 or UICB:4415 or UICB:4420. Same as UICB:4490.

ARTS:5330 Letterpress III: Imagemaking arr.
Advanced work in alternative and innovative letterpress technologies as they apply to imagemaking processes for fine press printing; topics include pressure printing, photopolymer from nondigital negatives, explorations of type-high surfaces, monoprints on the Vandercook, and applying hand work to editioned prints; students complete a series of print exercises for each process, a small printed book sketch, and a longer format editioned artist book. Prerequisites: UICB:4380. Same as UICB:5330.

ARTS:5340 Letterpress III: The Handprinted Book 3 s.h.
Advanced work in fine press book design; exploration of problems in hand-printing books, choice of manuscript, editing, design, typesetting, proofreading, printing and binding; histories of printing and of the book, emphasis on 20th- and 21st-century book design and literature; issues of book design and production related to letterpress printing. Prerequisites: UICB:4380. Same as UICB:5340.

ARTS:6000 MA Written Thesis 1 s.h.

ARTS:6190 Graduate Independent Study arr.
Individual instruction by a faculty member.

ARTS:7000 MFA Written Thesis 1 s.h.

Ceramics Courses

CERM:2010 Ceramics I: Handbuilding 3 s.h.
Basic handbuilding methods of forming, firing, glazing clay. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

CERM:2020 Ceramics II: Wheel Throwing 3 s.h.
Basic wheel-throwing techniques; clay, glaze formulation and preparation in kiln firing. Prerequisites: ARTS:1510 and ARTS:1520 and CERM:2010.

CERM:3010 Ceramics III: Intermediate Studio 4 s.h.
Intermediate studio; lectures and demonstrations covering intermediate techniques; content varies. Prerequisites: CERM:2010 and CERM:2020.

CERM:4010 Ceramics IV: Advanced Studio 4 s.h.
Advanced individual projects. Offered spring semesters. Prerequisites: CERM:2020.

CERM:4020 Ceramic Materials and Effects 4 s.h.
Empirical methods of glaze and clay body formulation; effects of various kilns and firing atmospheres on glaze materials and clay bodies. Prerequisites: CERM:2020.

CERM:4030 Advanced Concepts in Ceramics 3-4 s.h.
Advanced studio with rotating focus such as kiln theory, gallery representation, critique theory, and methodology. Prerequisites: CERM:2020.

CERM:4041 Kiln Building 4 s.h.
Kiln theory, design, and construction methods; may include participation in kiln construction. Prerequisites: CERM:2020.

CERM:4060 Professional Practice in Ceramics 1 s.h.
Instruction on a wide-ranging set of professional development skills, such as preparing materials for résumés, applying to exhibitions, taking images of work, and writing artist statements for use in application materials, as well as other opportunities to enhance student portfolios.

CERM:4099 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in ceramics for advanced students.

CERM:6075 Ceramics Workshop 3-4 s.h.
Advanced graduate studio; critique of student work; visiting artists, field trips. Prerequisites: CERM:4010. Requirements: CERM:4010 or graduate standing.

CERM:6099 Graduate Individual Instruction in Ceramics arr.
Requirements: knowledge of clay and glaze computation, and ability to fire kilns.

Design Courses

DSGN:2500 Graphic Design I 3 s.h.
Basic concepts and principles that can be applied to all modes of contemporary visual communication. Prerequisites: ARTS:1510 and ARTS:1520. Corequisites: DSGN:2600. GE: Engineering Be Creative.

DSGN:2600 Graphic Design II 3 s.h.
Fundamentals of typography as a core element in visual communication; introduction to historical typographic practices as well as modern modes of designing with type. Prerequisites: ARTS:1510 and ARTS:1520. Corequisites: DSGN:2500. Same as UICB:2600.

DSGN:3500 Graphic Design III 4 s.h.
Focus on browser-based user interfaces and user experiences; builds basic HTML and CSS knowledge base; skills. Prerequisites: ARTS:1510 and ARTS:1520 and DSGN:2500 and DSGN:2600.

DSGN:3600 Graphic Design IV 4 s.h.
Implementing the fundamental knowledge and skills gained in previous design courses to explore the interaction of typography and visual image. Prerequisites: DSGN:2500 and DSGN:2600. Corequisites: DSGN:3500.

DSGN:4000 Graphic Design V 4 s.h.
Critical theory and professional practice of branding and identity design; topics range from icon development to packaging design and prototyping. Prerequisites: DSGN:3500 and DSGN:3600. Corequisites: DSGN:4700.

DSGN:4199 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in design for advanced students.

DSGN:4700 Graphic Design VI 4 s.h.
Advanced exploration of contemporary and experimental user interface and user experience design methodology; topics include design for mobile devices and wearables, as well as immersive environments. Prerequisites: DSGN:3500 and DSGN:3600. Corequisites: DSGN:4000.

DSGN:4800 Graphic Design VII 4 s.h.
Concentrated semester-long opportunity for students to investigate a design project driven by their own personal research interests; projects closely guided by faculty and are critiqued throughout the semester; critical theory readings and discussion. Prerequisites: DSGN:4000 or DSGN:4700.

DSGN:6175 Graphic Design VIII 4 s.h.
Introduction to complex problems in graphic design; planning, development, and organization of integrated design programs; activities include research and studio assignments, individual presentations, discussions, demonstrations, and critiques.

DSGN:6699 Individual Instruction in Graphic Design arr.

Three-Dimensional Design Courses

TDSN:2210 Introduction to 3D Design 3 s.h.
Develop conceptual and critical design thinking while solving problems to create 3D structures with sustainable materials, processes, and consumption; discuss, develop, and evaluate composition principles and their relation to aesthetics, modular systems, structure, and sustainable use of material through handmade models and systems that lead to final designs; engage in diverse multidisciplinary collaborations. GE: Sustainability. GE: Engineering Be Creative; Literary, Visual, and Performing Arts; Sustainability.

TDSN:2240 Drafting and Modeling With AutoCAD and Rhino 3 s.h.
Learn to expertly navigate AutoCAD and Rhino software to produce precise plans, elevations, and sections for various objects and interior spaces. Develop proficiency in creating and manipulating geometric forms. Explore the intricacies of texture mapping, background settings, and lighting techniques to enhance the realism of models. Master the use of cameras and viewpoints to create compelling visualizations and walkthroughs. Delve into basic animation principles to bring dynamic elements to designs. This comprehensive experience equips students with the technical skills and creative tools needed to excel in the field of digital design and modeling. Prerequisites: ARTS:1510 and ARTS:1520 and (CERM:2010 or DSGN:2500 or DRAW:2310 or INTM:2710 or MTLS:2910 or PHTO:2600 or PNTG:2410 or PRNT:2610 or SCLP:2810 or TDSN:2210). Same as CEE:2240.

TDSN:2250 Digital Prototyping 3 s.h.
Basic knowledge and practical technical skills using 3ds Max studio software; experience creating and manipulating basic forms and working with texture, background, light, and camera viewpoints; basic animation. Prerequisites: ARTS:1510 and ARTS:1520 and TDSN:2210. Corequisites: TDSN:2240.

TDSN:2280 Materials, Tools, and Fabrication: Wood, Metal, and Composites 3 s.h.
Fundamentals of traditional building techniques in wood, metal, and composite materials. The curriculum focuses on constructing a sample set of techniques. Students create the composite material themselves. Prerequisites: ARTS:1510 and ARTS:1520 and (CERM:2010 or DSGN:2500 or DRAW:2310 or INTM:2710 or MTLS:2910 or PHTO:2600 or PNTG:2410 or PRNT:2610 or SCLP:2810 or TDSN:2210).

TDSN:3010 Introduction to Weaving 4 s.h.
Fundamentals of handweaving on rigid heddle and four-shaft looms. Emphasis on design principles, color, and materials for home textiles. Prerequisites: ARTS:1510 and ARTS:1520 and (CERM:2010 or DSGN:2500 or DRAW:2310 or INTM:2710 or MTLS:2910 or PHTO:2600 or PNTG:2410 or PRNT:2610 or SCLP:2810 or TDSN:2210).

TDSN:3200 Product Design 4 s.h.
How objects are designed and structured; modeling, graphic skills necessary for basic project development. Prerequisites: TDSN:2210 and TDSN:2240. Corequisites: TDSN:2250.

TDSN:3220 Interior Design 4 s.h.
Relationship of interior space to its architecture, environment, human element; color, materials, furnishings, lighting; projects. Prerequisites: TDSN:2250.

TDSN:3230 Color for Interior Design 4 s.h.
Use of color for interior spaces; principles of color theory reviewed and applied to 3D environments; color as a compositional element and psychological tool. Prerequisites: TDSN:2210 and TDSN:2240 and TDSN:2250.

TDSN:3240 3D Computer-Aided Design arr.
Three-dimensional computer-aided drafting; use of AutoCAD software. Prerequisites: ARTS:1510 and ARTS:1520 and (MTLS:2910 or SCLP:2810 or CERM:2010 or TDSN:2210).

TDSN:3260 Design for Production 4 s.h.
Special issues and topics in design. Prerequisites: TDSN:2210 and TDSN:2240 and TDSN:2250.

TDSN:3280 Forms and Textiles 4 s.h.
Products and seating design with soft materials; students experiment with diverse soft materials and textile construction techniques to design and make unique functional forms. Prerequisites: ARTS:1510 and ARTS:1520 and TDSN:2210. Corequisites: TDSN:2240 and TDSN:2250.

TDSN:3305 Portfolio and Curriculum Vitae Workshop 1 s.h.
How to build a strong portfolio, CV, and résumé for 3D design job applications. Prerequisites: TDSN:2250. Corequisites: TDSN:3200 or TDSN:3220 or TDSN:3230 or TDSN:3260 or TDSN:3280 or TDSN:4010 or TDSN:4020.

TDSN:4010 Wood Furniture Design 4 s.h.
Introduction to advanced problems in furniture design and manufacturing. Students design and fabricate a chair using sustainable methods, incorporating computer numerical control (CNC) technologies and plywood. Prerequisites: TDSN:2210 and TDSN:2240.

TDSN:4020 Metal Furniture Design 4 s.h.
Study, design, and fabricate a metal chair using classical and modern techniques. Prerequisites: TDSN:2210 and TDSN:2240.

TDSN:4050 Site Specific Design 1 s.h.
Art of planning, building, and presenting at real professional design venues; students plan, design, and build an environment to display selected 3D design work at one or two professional design venues. Prerequisites: TDSN:2250. Corequisites: TDSN:3200 or TDSN:3220 or TDSN:3230 or TDSN:3260 or TDSN:3280.

TDSN:4299 Undergraduate Individual Instruction arr.
Individual instruction in 3D design for advanced students.

TDSN:6299 Individual Instruction in 3D Design arr.
Individual instruction in 3D design for advanced students.

Drawing Courses

DRAW:2310 Life Drawing I 3 s.h.
Observational drawing of form in its spatial contexts; drawing in varied media; figural as well as nonfigural content including clothed and nude models. Prerequisites: ARTS:1510 and ARTS:1520.

DRAW:3310 Concepts in Drawing 3-4 s.h.
Intermediate-level topics; observation, theory, media, form, content; emphasis on personal direction. Prerequisites: DRAW:2310. Same as THTR:3205.

DRAW:4310 Advanced Concepts in Drawing 3-4 s.h.
Advanced-level topics. Prerequisites: DRAW:3310.

DRAW:4399 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in drawing for advanced students.

DRAW:6399 Individual Instruction in Drawing arr.

Intermedia Courses

INTM:2710 Introduction to Intermedia 3 s.h.
Interdisciplinary focus; emphasis on conceptual, installation, video, time-based media, performance art. Prerequisites: (ARTS:1510 and ARTS:1520) or CINE:1834. Requirements: for CINE:2869—grade of C or higher in CINE:1834. Same as CINE:2869.

INTM:3700 Topics in Intermedia 4 s.h.
Performance, writing, reading, observation, physical practice, improvisation, and devising methods; development or expansion of physical practices that articulate with current artistic production. Prerequisites: (ARTS:1510 and ARTS:1520 and (CERM:2010 or INTM:2710 or MTLS:2910 or PNTG:2410 or PRNT:2610 or SCLP:2810 or TDSN:2210)) or DANC:2800 or DANC:2050. Same as DANC:3710.

INTM:3799 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in intermedia for advanced students.

INTM:3876 Projection Design 3 s.h.
Introduction to the aesthetics and practical applications of projection design for live performance, including content creation, system design, media servers, projectors, cameras, and related professional equipment. Students learn how to create digital artwork with professional content/animation/effects software Adobe After Effects, Illustrator, Photoshop, Premiere Pro, Audition, etc. Through the media server QLab students learn how to integrate digital artwork and live video cameras into live performance via projectors and digital displays. GE: Engineering Be Creative. Same as CINE:3876, DANC:3876, DIGA:3876, THTR:3876.

INTM:6799 Individual Instruction in Intermedia and Video Art arr.

Jewelry and Metal Arts Courses

ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all jewelry and metal arts courses for art majors; ARTS:1510 Basic Drawing is a prerequisite for nonmajors.

MTLS:2910 Introduction to Jewelry and Metal Arts 3 s.h.
Fabrication, hammer forming, hydraulic die forming, soldering, riveting, etching, texturing, anodization of aluminum and titanium, stone setting, and patination techniques; creation of jewelry, flatware, and other functional and nonfunctional sculptural objects using varied metals and other materials; emphasis on creativity, learning, and basic metalworking techniques. Prerequisites: ARTS:1520 and ARTS:1510. GE: Engineering Be Creative.

MTLS:3285 Fabrication and Design: Hand-Made Bicycle 4 s.h.
Building a bicycle frame by hand; use of CAD modeling and development of fabrication skills to create a modern-day work of art. Prerequisites: TDSN:2240.

MTLS:3910 Intermediate Jewelry and Metal Arts 4 s.h.
Exploration of different applications with casting (mostly gold, silver, and bronze), enameling, and stone setting; combining all three processes to create artwork; may include introduction to other processes (e.g., photo-etching, 3D computer modeling); historical and current trends in craft. Prerequisites: ARTS:1510 and ARTS:1520 and MTLS:2910.

MTLS:3915 Fabrication and Finishing in Jewelry and Metal Arts 4 s.h.
Students further their conceptual development with intermediate-level skills in fabrication and surface finishing; builds on introductory skills with techniques in complex and larger-scale soldering and forming, as well as new techniques (e.g., chasing, repousse); exploration of finishing and surface treatments (e.g., aluminum anodization, etching, powder coating). Prerequisites: MTLS:2910.

MTLS:3920 Advanced Jewelry and Metal Arts 4 s.h.
Electroforming; production of hollow copper structures through prolonged electroplating on a nonmetallic form (typically wax) with a conductive coating; metal-forming techniques (e.g., raising and fold forming); emphasis on development of personal aesthetics, learning, and refining technical skills in metalworking and jewelry techniques. Prerequisites: MTLS:2910.

MTLS:4910 Mixed Media and Professional Practices 3-4 s.h.
Free exploration of all media and materials, including found objects; creation of conceptual and/or functional mixed media objects, jewelry, sculptures, installation pieces; pioneering use of new materials, development of new techniques, creation of diverse innovative artworks. Prerequisites: ARTS:1510 and ARTS:1520 and MTLS:2910. Recommendations: MTLS:2910 and MTLS:3920.

MTLS:4920 Mold Making 4 s.h.
All aspects of mold making, including plaster, rubber, and silicone. Prerequisites: CERM:2010 or TDSN:2210 or MTLS:2910 or SCLP:2810.

MTLS:4930 Experimental Casting With New Technology 4 s.h.
Students combine traditional casting techniques with new technology (e.g., ceramic shell, 3D printed models, 3D printed resin sand molds, casting simulation software) in pursuit of their creativity; emphasis is on vessels and hollow objects; examples of historical and current application of casting, especially in mixed media and cross-disciplinary approaches. Prerequisites: SCLP:2810 or MTLS:2910.

MTLS:4960 Project Design Hand-Made Bike II 4 s.h.
Builds on MTLS:3285; advanced concepts of bicycle frame design and fabrication; concept development, fabrication geometry and design, metal properties and selection, tool selection, brazing and welding including titanium milling and how to build a frame jig; emphasis on applying fabrication skills while situating frame-building project within context of a design problem. Prerequisites: MTLS:3285.

MTLS:4970 Project Design Hand-Made Bike III 4 s.h.
Builds on MTLS:4960; advanced concepts of bicycle frame design and fabrication; concept development, fabrication geometry and design, metal properties and selection, tool selection; brazing and welding including titanium-milling and how to build a frame jig; emphasis on application of fabrication skills while situating frame building project within context of a design problem. Prerequisites: MTLS:4960.

MTLS:4999 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in metalsmithing and jewelry for advanced students.

MTLS:6999 Individual Instruction in Metalsmithing and Jewelry arr.

Painting Courses

ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all painting courses for art majors; ARTS:1510 Basic Drawing is a prerequisite for nonmajors.

PNTG:2410 Painting I 3 s.h.
Emphasis on observational painting, theory and development of pictorial ideas and skills. Prerequisites: ARTS:1510 and ARTS:1520. GE: Engineering Be Creative.

PNTG:2420 Painting II 4 s.h.
Materials, techniques, beginning of a personal painting language through observation and imagination. Prerequisites: PNTG:2410.

PNTG:4100 Advanced Painting 4 s.h.
Individual projects as they aid the realization of a personal vision. Prerequisites: PNTG:2420.

PNTG:4499 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in painting for advanced students.

PNTG:6475 Graduate Drawing and Painting Workshop 3-4 s.h.
Group and individual criticism.

PNTG:6499 Individual Instruction in Painting arr.

Papermaking Courses

BKAT:2110 Introduction to Book Arts 3 s.h.
Topics related to artist books, hand bookbinding, letterpress printing, papermaking, and lettering arts. GE: Engineering Be Creative; Literary, Visual, and Performing Arts. Same as UICB:2110.

BKAT:3280 Elements of Book Art 3 s.h.
Overview of book art process and techniques for nonmajors; introduction to traditional bookbinding skills, nontraditional book structures, and content development for artist books. GE: Engineering Be Creative. Same as UICB:3280.

BKAT:3380 Letterpress 3 s.h.
Introduction to letterpress printing; metal type, relief printing, page layout, and basic typography; basic use of Vandercook Proof Press; experimentation with diverse letterpress techniques. GE: Engineering Be Creative. Same as UICB:3380.

BKAT:4100 Paperworks 3 s.h.
Conceptual and methodological approaches to 2D and 3D paper works; creation of works that couple unique properties of paper-pulp medium with personal visual ideas and clarity of intent; contemporary issues in paper pulp, medium's relationship to larger art and craft contexts. GE: Engineering Be Creative. Same as UICB:4100.

BKAT:4205 Bookbinding I: Materials and Techniques 3 s.h.
Hands-on introduction to materials and techniques commonly used in bookbinding. Same as UICB:4205.

BKAT:4210 Boxes and Enclosures 3 s.h.
Hands-on techniques for a variety of book enclosures; appropriateness, aesthetic issues concerning box design; Japanese wraparound case, drop-spine box, hinged and lidded boxes, slipcase; technical skill development. Prerequisites: UICB:4205. Same as UICB:4210.

BKAT:4270 Bookbinding II 3 s.h.
Builds on skills acquired in UICB:4205; projects to complete six bindings based on historical and contemporary models; sewing styles, board attachments, endband types; nonadhesive and case-bound structures, varied materials and binding styles, their effects on structure, aesthetic considerations, further development of solid binding skills; historical development of particular binding practices. Prerequisites: UICB:4205. Same as UICB:4270.

BKAT:4280 Artists' Books 3 s.h.
Exploration of the book as a form for artistic expression; emphasis on conceptual development; relationship between content, form, and structure; how a book's structure and design can enhance and integrate part of the work's meaning. Prerequisites: UICB:4205 or BKAT:4205. Same as UICB:4280.

BKAT:5110 Papermaking I: East Asia, Nepal, and Contemporary Practice 3 s.h.
History, technique, and aesthetics of East Asian and Nepalese papermaking, along with their respective contemporary practices. Same as UICB:5110.

BKAT:5120 Papermaking I: Central Asia, Europe, and Contemporary Practice 3 s.h.
Foundational papermaking; history, technique, and aesthetics of Central Asian, Islamicate, and European papermaking; respective contemporary practices. Same as UICB:5130.

BKAT:5140 Papermaking II: Contemporary Papermaking 3 s.h.
Contemporary papermaking studio practice and conceptual considerations; focus on nontraditional techniques and cross-disciplinary use of paper fibers and handmade paper; handmade paper as a form of artistic expression. Prerequisites: UICB:4100 or BKAT:4100 or UICB:5110 or BKAT:5110 or UICB:5130 or BKAT:5120. Same as UICB:5140.

BKAT:5170 Papermaking III: The Papermakers 3 s.h.
Students hone skills, drawing inspiration from papermaking societies, and conduct hands-on production and research. Prerequisites: UICB:4100 or UICB:5110 or UICB:5130 or UICB:5140 or BKAT:4100 or BKAT:5110 or BKAT:5120. Same as UICB:5170.

BKAT:5180 Advanced Projects in Paper 1-3 s.h.
Advanced independent projects undertaken in a classroom setting; collaborative group discussions to plan, implement, troubleshoot, and evaluate student projects. Prerequisites: UICB:5110 or UICB:5130 or BKAT:5110 or BKAT:5120. Same as UICB:5180.

BKAT:5210 Bookbinding III 3 s.h.
Bookbinding structures based on historical and contemporary models; differences in various binding practices, how these differences affect function, why the styles developed; experience choosing appropriate structures for particular uses; emphasis on fine tuning skills and techniques required for advanced binding practices; sewn endbands, rounding and backing, sewing on varied supports, board attachments, and covering methods. Prerequisites: (UICB:4205 or BKAT:4205) and (UICB:4270 or BKAT:4270). Requirements: for UICB:5210—UICB:4205 and UICB:4270; for BKAT:5210—BKAT:4205 or BKAT:4270 or UICB:4205 or UICB:4270. Same as UICB:5210.

Photography Courses

ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all photography courses for art majors; ARTS:1510 Basic Drawing is a prerequisite for nonmajors.

PHTO:2600 Photography I 3 s.h.
Introduction to color theory, lighting, and utilizing color for conceptual concerns; experience operating digital SLR cameras in full manual mode, utilizing Adobe editing software, and producing fine art printed portfolios; requires a digital SLR camera. Prerequisites: ARTS:1510 and ARTS:1520. GE: Engineering Be Creative.

PHTO:3100 Photography II: Introduction to Darkroom Photography 4 s.h.
Darkroom techniques including operation of 35mm film cameras, exposing and developing black-and-white film, and producing fine art darkroom prints. Prerequisites: ARTS:1510 and ARTS:1520. Corequisites: PHTO:2600.

PHTO:3110 Photography III: The Constructed Image 4 s.h.
Introduction to industry practices of studio lighting and large format printing; focus on constructed scenes in and out of the studio with emphasis on conceptual development and use of advanced Adobe Photoshop techniques. Prerequisites: PHTO:2600.

PHTO:3200 Photography IV: Special Topics 4 s.h.
Investigation of contemporary themes including alternative processes, social documentary, portraiture, book making, and hybrid forms, among others. Prerequisites: INTM:2710 or (PHTO:2600 and PHTO:3100).

PHTO:3210 Photography IV: Contemporary Video Practices 4 s.h.
Investigation of contemporary themes pertaining to moving image capture with emphasis placed on conceptual development, technical mastery of software, and innovative installation approaches. Prerequisites: INTM:2710 or (PHTO:2600 and PHTO:3100).

PHTO:3220 Photography IV: Alternative Photographic Processes 4 s.h.
Investigation of historical photographic processes including cyanotype, van dyke brown, gum dichromate, and palladium printing among others. Introduction to contemporary artists using these media as well as working knowledge of analog and digital hybrid approaches. Prerequisites: PHTO:2600 and PHTO:3100.

PHTO:4000 Photography V: Advanced - Large Format Photography 4 s.h.
Individual portfolio projects with emphasis on conceptual development and craft pertaining to large and medium format camera use. Prerequisites: PHTO:2600 and PHTO:3100 and PHTO:3110.

PHTO:4010 Photography V: Advanced - Risograph Editions 4 s.h.
Alternative methods of printed image media, zines, and small collaborative publications using Risograph and print on demand services. Prerequisites: PHTO:2600 and (PHTO:3100 or PHTO:3110 or DSGN:2600).

PHTO:4200 Professional Practice in Photography 1 s.h.
Instruction on a wide-ranging set of professional development skills, such as preparing materials for grant and exhibition applications, website design, conference preparation, and other opportunities that enhance students' portfolios and preparedness for external employment options. Prerequisites: PHTO:2600 and PHTO:3100 and PHTO:3110.

PHTO:4300 Internship in Photography 1 s.h.
Professional working experience in the field of photography. Prerequisites: PHTO:2600 and PHTO:3100 and PHTO:3110.

PHTO:4599 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in photography for advanced students.

PHTO:6575 Graduate Photography Workshop 4 s.h.
Projects; group critiques; readings.

Printmaking Courses

ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all printmaking courses for art majors; ARTS:1510 Basic Drawing is a prerequisite for nonmajors.

PRNT:2610 Introduction to Printmaking 3 s.h.
Introduction to methods, materials, and concepts of printmaking. Prerequisites: ARTS:1510 and ARTS:1520. Requirements: art major. GE: Engineering Be Creative.

PRNT:3600 Textile Printing and Surface Design 4 s.h.
Introduction to screen printing and block printing on textiles, including image generation and digital techniques from start to finish; effective use of design principles; application of a conceptual approach to work; possibilities of working with textiles. Prerequisites: ARTS:1510 and ARTS:1520 and PRNT:2610.

PRNT:3610 New Media for Printmaking 4 s.h.
New concepts and techniques for contemporary print media, including digital and less toxic applications in relief, intaglio, lithography, and screenprinting. Prerequisites: PRNT:2610.

PRNT:3620 Intaglio 4 s.h.
Concepts, techniques; traditional through contemporary ideas, methods; emphasis on metal plate printing, including etching, drypoint, engraving, softground, aquatint. Prerequisites: PRNT:2610. Requirements: PRNT:2610 or BFA candidacy in any area or graduate standing.

PRNT:3630 Woodcut and Relief 4 s.h.
Concepts and techniques of relief printmaking, including woodcut, linocut, relief etching, black-and-white and color printing methods; traditional and contemporary approaches. Prerequisites: PRNT:2610. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1510 for nonmajors; or BFA candidacy in any area; or graduate standing.

PRNT:3640 Lithography 4 s.h.
Technical, aesthetic characteristics; basic direct drawing, processing, printing of stone and plate images in black and white. Prerequisites: PRNT:2610. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610; or graduate standing.

PRNT:3660 Monoprint 3-4 s.h.
Concepts, techniques in use of traditional and alternative printmaking media to produce unique, matrix-generated prints. Prerequisites: PRNT:2610.

PRNT:3665 Frogman's Print Workshop 3 s.h.
Hands-on experience in printmaking techniques; workshop format. Offered summer session.

PRNT:3680 Screenprint 4 s.h.
Photographic, nonphotographic stencil techniques for silkscreen printing. Prerequisites: PRNT:2610. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1010 and ARTS:1050 for nonmajors; or BFA candidacy in any area; or graduate standing.

PRNT:4610 Advanced Printmaking 4 s.h.
Print media (i.e., intaglio, lithography, relief, screenprint); emphasis on individual technical and conceptual growth and development of independent studio practices. Prerequisites: PRNT:2610 and (PRNT:3620 or PRNT:3630 or PRNT:3640 or PRNT:3680).

PRNT:4799 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in printmaking; for advanced students.

PRNT:6665 Frogman's Print Workshop 3 s.h.
Hands-on experience in printmaking techniques; workshop format. Offered summer session.

PRNT:6675 Graduate Print Workshop 3-4 s.h.
Contemporary issues in printmaking; emphasis on development of personal work and independent studio practice through group critiques, special research projects, work in all print media.

PRNT:6699 Individual Instruction in Printmaking arr.

Sculpture Courses

SCLP:2810 Undergraduate Sculpture I 3 s.h.
Basic sculptural concepts, processes, investigation of materials such as plaster, clay, wood; emphasis on developing formal language, acquiring basic skills; spatial, conceptual, technical issues. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

SCLP:3840 Robotic Art Studio 4 s.h.
Exploration, design, and creation of interactive artworks, kinetic sculpture, robotic art, sound works, light art, and performance environments; application of basic electronics and mechanical techniques; use of programmable micro-controller Arduino. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or INTM:2710 or MTLS:2910 or TDSN:2210). GE: Engineering Be Creative. Same as DIGA:3840.

SCLP:3895 Topics in Sculpture 4 s.h.
Projects, reading; specialized conceptual forms and issues in contemporary sculpture, such as public art, installation. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or INTM:2710 or TDSN:2210 or MTLS:2910).

SCLP:4825 Casting in Hot Metal 4 s.h.
Foundry work, wax working, mold making, and processes. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or MTLS:2910).

SCLP:4835 Electronic Objects and Spaces 4 s.h.
Aesthetic use of electronics to sequence and control motion, light, and sound; introduction to basic electronics through hands-on workshops and discussions; demonstrations on how to build an Arduino, integrated circuits, power supplies, soldering, prototyping, motors, sensors; projects integrating electronics with objects and spaces; artist screenings and critiques. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or INTM:2710 or MTLS:2910 or TDSN:2210). GE: Engineering Be Creative. Same as DIGA:4835.

SCLP:4840 Air, Actuators, and Motors 4 s.h.
Introduction to wide range of motors, actuators, and air devices available for integration in art projects; various forms of motor control and necessary means to power these devices; DC and AC motors, stepper motors, solenoids, electro magnets, relays, pneumatics, inflatables, and other air-driven devices; development of a project utilizing one or more systems; examples and media demonstrations to show how artists and scientists employ these systems. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or INTM:2710 or MTLS:2910 or TDSN:2210). GE: Engineering Be Creative. Same as DIGA:4840.

SCLP:4899 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in sculpture for advanced students.

SCLP:6264 Graduate Sculpture and Intermedia Workshop 3-4 s.h.
Critique seminar with readings; for sculpture and non-sculpture graduate students.

SCLP:6899 Individual Instruction in Sculpture arr.

Art Education Courses

ARTE:3143 Methods of Elementary Art and Field Experiences 3 s.h.
Application of studio methods to teaching children in Saturday Children's Art Class Program. Same as EDTL:3143.

ARTE:6267 Seminar: Current Issues in Art Education 3-4 s.h.
Analysis of literature in art education and related disciplines. Same as EDTL:6267.

Art, BA

Learning Outcomes

Students will:

- develop an understanding of the formal traditions and contemporary practices in studio art through coursework in a variety of media;
- learn that art embodies historical, cultural, and social factors with global influences;
- acquire critical skills in visual analysis, research, and the production of original works of art;
- develop skills in oral and written communication regarding themes in studio art; and
- gain skills for professional practice and preparedness for real-world success beyond their degree process following graduation.

Requirements

The Bachelor of Arts with a major in art requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The major provides a foundation in art history as well as an understanding of the formal traditions and contemporary practices in studio art. Students take courses in the school's studio art areas, including ceramics, drawing, graphic design, jewelry and metal arts, painting, photography, printmaking, sculpture and intermedia, and three-dimensional (3D) design.

Students may count a maximum of 56 s.h. earned in art, art history, and design courses toward the degree; they must earn at least 64 s.h. of credit in courses outside the School of Art, Art History, and Design in order to graduate.

BA students who are graduating with a double major in the school (e.g., a major in art and a major in art history) or a major and a minor in the school (e.g., a major in art and a minor in art history) may apply more than 56 s.h. from the School of Art, Art History, and Design toward their degree, but they must earn at least 56 s.h. of credit in courses outside the School of Art, Art History, and Design in order to graduate.

Students majoring in art begin their study in the Bachelor of Arts program. Those interested in pursuing concentrated work in a specific studio art discipline may apply for admission to the Bachelor of Fine Arts program through a process called "clearance," in which the faculty evaluates a student's readiness for BFA study. Clearance usually takes place during the third year, but it may be conducted earlier or later, depending on the student's readiness.

For more information about teaching art in elementary and/or secondary schools, see the following section titled "Teacher Licensure."

The BA with a major in art requires the following coursework. Not all courses are offered every semester, including required courses. When planning coursework, students should consult their advisors and MyUI to determine when specific courses will be offered.

Requirements	Hours
Art History Courses	12
Foundational Studio Art Courses	6
Studio Art 3D Courses	6
Studio Art 2D Courses	6
Upper-Level Studio Art Courses	6
Required Electives	3

Art History

Course #	Title	Hours
Two of these:		
ARTH:1040	Arts of Africa	3
ARTH:1050	From Cave Paintings to Cathedrals: Survey of Western Art I	3
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3
ARTH:1070	Asian Art and Culture	3
ARTH:1095	Native American Art	3
And:		
Two art history courses not on the above list, excluding ARTH:1000, ARTH:1080, ARTH:3985, ARTH:3995, and ARTH:4999		6

Foundational Studio Art

Students should complete ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals prior to taking the foundational studio courses. It may be possible to take either ARTS:1510 or ARTS:1520 at the same time as a foundational studio art course; contact the art advisor for more information. Foundational studio art courses may also fulfill GE CLAS Core [p. 22] requirements.

CERM:2010 Ceramics I: Handbuilding, SCLP:2810 Undergraduate Sculpture I, and TDSN:2210 Introduction to 3D Design may be taken without completing either ARTS:1510 or ARTS:1520.

Course #	Title	Hours
Both of these:		
ARTS:1510	Basic Drawing	3
ARTS:1520	Design Fundamentals	3

Studio Art 3D Courses

Course #	Title	Hours
Two of these:		
CERM:2010	Ceramics I: Handbuilding	3
INTM:2710	Introduction to Intermedia	3
MTLS:2910	Introduction to Jewelry and Metal Arts	3
SCLP:2810	Undergraduate Sculpture I	3
TDSN:2210	Introduction to 3D Design	3

Studio Art 2D Courses

Course #	Title	Hours
Two of these:		
DRAW:2310	Life Drawing I	3
DSGN:2500	Graphic Design I	3
PHTO:2600	Photography I	3

PNTG:2410	Painting I	3
PRNT:2610	Introduction to Printmaking	3

Upper-Level Studio Art Courses

Students must take two upper-level studio art courses. They may take both upper-level courses in the same studio art discipline or one upper-level course in each of two disciplines. Any course beyond the introductory course in the discipline is considered upper-level.

Introductory courses include the following and do not count toward the upper-level studio arts courses requirement.

Course #	Title	Hours
CERM:2010	Ceramics I: Handbuilding	3
DRAW:2310	Life Drawing I	3
DSGN:2500	Graphic Design I	3
INTM:2710	Introduction to Intermedia	3
MTLS:2910	Introduction to Jewelry and Metal Arts	3
PHTO:2600	Photography I	3
PNTG:2410	Painting I	3
PRNT:2610	Introduction to Printmaking	3
SCLP:2810	Undergraduate Sculpture I	3
TDSN:2210	Introduction to 3D Design	3

Required Electives

School of Art, Art History, and Design elective courses must bring the total credit for the major in art to a minimum of 39 s.h.

Transfer Students

Transfer students should contact the undergraduate academic advisors in art for information about transfer portfolio review and specific coursework that satisfies the requirements for the major in art. Students may count a maximum of 12 s.h. of approved transfer credit toward their major.

Study Abroad

Students who wish to study abroad must meet with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Students who take studio art courses abroad must bring their artwork back to campus and must present it in a portfolio review, which determines whether the work satisfies a requirement for their major. The portfolio review is not required if the study abroad course was taught by a School of Art, Art History, and Design faculty member who gave the student a grade for the course.

Students who plan to take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once the course is completed with a passing grade.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

The BA in art education [p. 1447] is offered by the Department of Teaching and Learning, and the degree is awarded by the College of Education. In order to earn the BA in art education, students also must complete the BA in art. For more information, contact the College of Education Academic Advising Office.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.50 in their major. They should meet with their academic advisor at the start of their final semester to complete the steps needed to graduate with honors in the major.

Students must select a research project, find a faculty member whose expertise aligns with their research to act as the honors advisor, enroll in ARTS:4190 Honors in Studio Art, write a one-page abstract at the conclusion of the research, and participate in an honors in the major group show and presentation.

University of Iowa Honors Program

In addition to honors in the major, students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the art major.

Career Advancement

Many graduates pursue careers that match their degree specializations, for example, commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, or community art center coordinator or instructor. Others go on to graduate study in areas such as art history, art therapy, architecture, design, medical illustration, studio art, or disciplines outside of art.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: at least four courses in the major.

Before the seventh semester begins: at least four more courses in the major (total of eight) and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least three more courses in the major (total of 11).

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students are required to complete ARTS:1510 and ARTS:1520 by the end of their first academic year.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Select art history survey course from ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, and ARTH:1095. Some introductory-level art history courses will fulfill GE CLAS Core requirements; students should consult with their advisor.

e Select introductory-level studio 2D course from DRAW:2310, DSGN:2500, PHTO:2600, PNTG:2410, or PRNT:2610.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
g Select introductory-level studio 3D course from CERM:2010, INTM:2710, MTLS:2910, SCLP:2810, or TDSN:2210.
h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.
i Does not include ARTH:1000, ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, ARTH:1080, ARTH:1095, ARTH:3985, ARTH:3995, and ARTH:4999.
j Students may select an elective art course until they complete a maximum of 56 s.h. of art courses, or select a non-art elective course.
k The following introductory courses do not count toward the upper-level studio arts courses requirement: CERM:2010, DRAW:2310, DSGN:2500, INTM:2710, MTLS:2910, PHTO:2600, PNTG:2410, PRNT:2610, SCLP:2810, TDSN:2210.
l Students may fulfill this general education requirement while also fulfilling major requirements.
mPlease see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Art History, BA

The program in art history engages in problems of historical analysis and interpretation of culture. The major provides students with a strong liberal arts background and prepares them for competitive placement in graduate schools across the country. As students progress through the major, they become familiar with historical relationships between art objects and society, learn techniques of visual analysis, study patterns of patronage, and apply methods for interpreting the meanings of art, architecture, and other forms of visual culture. In the course of their studies, art history majors develop their research abilities and writing skills.

Learning Outcomes

Students will:

- acquire a breadth of knowledge about the field of art history through coursework in a diversity of areas;
- learn that art embodies historical, cultural, social, and political factors within a diverse range of national, international, and global cultures;
- acquire critical skills in visual analysis and research; and
- develop skills in oral and written communication.

Requirements

The Bachelor of Arts with a major in art history requires a minimum of 120 s.h., including 39 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students may count a maximum of 56 s.h. earned in art, art history, and design courses toward the degree; they must earn at least 64 s.h. of credit in courses outside the School of Art, Art History, and Design in order to graduate.

BA students who are graduating with a double major in the school (e.g., a major in art history and a major in art) or a major and a minor in the school (e.g., a major in art history and a minor in art) may apply more than 56 s.h. from the School of Art, Art History, and Design toward their degree, but they must earn at least 56 s.h. of credit in courses outside the School of Art, Art History, and Design in order to graduate.

Students choose one of these tracks: art, museums, and museology [p. 103]; global and interdisciplinary connections [p. 103]; or Iowa idea [p. 106].

The BA with a major in art history requires the following coursework.

Art, Museums, and Museology Track

Requirements	Hours
Museum Studies Courses	9
Art History Courses	27
Internship	3

Art, Museums, and Museology: Museum Studies Courses

Course #	Title	Hours
This course:		
MUSM:3001	Introduction to Museum Studies	3
Two of these:		
MUSM:3115	Museum Education and Interpretation	3
MUSM:3130	Topics in Museum Administration and Management	3
MUSM:3131	Museum Evaluation and Visitor Studies	3
MUSM:3500	Nonprofit Organizational Effectiveness I	3
MUSM:3710	Fundraising Fundamentals	3
MUSM:4045	Art, Law, and Ethics	3
MUSM:4600	Nonprofit Ethics and Governance	3

Art, Museums, and Museology: Art History Courses

Course #	Title	Hours
All of these:		
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3
ARTH:1080	How to Write About Art	3
ARTH:4999	Capstone Seminar in Art History	3
Six art history courses (prefix ARTH), including:		
At least one course numbered ARTH:2000-ARTH:2999		
At least four courses numbered ARTH:3000-ARTH:4998		

Art, Museums, and Museology: Internship

Course #	Title	Hours
This course:		
CCP:1201	Academic Internship	3

Global and Interdisciplinary Connections Track

Requirements	Hours
Art History Courses	30
Related Disciplines Courses	9

Global and Interdisciplinary Connections: Art History Courses

Course #	Title	Hours
All of these:		
ARTH:1030	Themes in Global Art	3
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3

ARTH:4999	Capstone Seminar in Art History	3
One of these:		
ARTH:1040	Arts of Africa	3
ARTH:1050	From Cave Paintings to Cathedrals: Survey of Western Art I	3
ARTH:1070	Asian Art and Culture	3
ARTH:1080	How to Write About Art	3
ARTH:1095	Native American Art	3
Six additional art history courses including:		
At least two art history courses (prefix ARTH) numbered 2000-2999		
At least 12 s.h. from art history courses (prefix ARTH) numbered 3000-4998		

Global and Interdisciplinary Connections: Related Disciplines Courses

Course #	Title	Hours
At least 9 s.h. from one of these disciplines:		
American Studies		
AMST:3100	Critical Race Theory: Culture, Power, and Society	3
AMST:3249	Midwestern History	3
AMST:3265	American Monuments	3
Anthropology		
ANTH:3001	Introduction to Museum Studies	3
ANTH:3017	Decolonizing Anthropology in Native North America	3
ANTH:3121	Love, Marriage, and Family in India	3
ANTH:3237	Politics of the Archaeological Past	3
ANTH:3239	The Archaeology of the First Europeans	3
ANTH:3243	Archaeology of the American Midcontinent	3
ANTH:3255	Introduction to Archaeological Ceramics	3
ANTH:3257	North American Archaeology	3
ANTH:3265	Archaeology of the Great Plains	3
ANTH:3276	Greek Archaeology	3
ANTH:3278	Archaeology of Ancient Cities	3
ANTH:3295	Field Research in Archaeology	arr.
Asian Languages and Literature		
ASIA:3055	Death, Dying, and Beyond in Asian Religions	3
ASIA:3208	Classical Chinese Literature Through Translation	3
ASIA:3650	Chinese History From 1600 to 1911	3
ASIA:3652	Twentieth-Century China	3
ASIA:3655	Zen Buddhism	3
ASIA:3685	Modern Korean History	3
CHIN:3341	Chinese Literature: Poetry	3
CHIN:4203	Modern Chinese Writers	3
CHIN:4206	Chinese Cinema	3
KORE:3070	Topics in Korean Studies	3
JPNS:3202	Traditional Japanese Literature in Translation	3
JPNS:3203	Modern Japanese Fiction in Translation	3
JPNS:3204	Topics in Japanese Literature in Translation	1-3
JPNS:3205	Major Authors in Modern Japanese Literature	3
JPNS:3206	Warriors' Dreams	3
JPNS:3207	Japan Illuminated: Japanese Literature and Visual Culture	3
JPNS:3208	Japanese Film	3
JPNS:3210	Japanese Theater	3
JPNS:3601	Contemporary Japanese Culture	3
JPNS:4201	Genji Lab	3
Classics: Ancient Civilizations

Iowa Idea Track

Courses may count toward more than one requirement; however, students must earn at least 39 s.h. in the track.

Requirements	Hours
Art History Courses	33
Studio Art Courses	6

Iowa Idea Track: Art History Courses

Course #	Title	Hours
All of these:		
ARTH:1050	From Cave Paintings to Cathedrals: Survey of Western Art I	3
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3
ARTH:1080	How to Write About Art	3
ARTH:4999	Capstone Seminar in Art History	3
Seven additional art history courses from these (a course can count toward more than one requirement):		21
At least two art history courses (prefix ARTH) numbered 2000-2999		
At least four art history courses (prefix ARTH) numbered 3000-4998		
At least two art history courses in non-Western areas (e.g., African, Asian, Islamic, Native American) from these:		
ARTH:1040	Arts of Africa	3
ARTH:1070	Asian Art and Culture	3
ARTH:1095	Native American Art	3
ARTH:2120	Art and Architecture of the Islamic World	3
ARTH:2220	Introduction to the Art of China	3
ARTH:2250	Introduction to the Art of Japan	3
ARTH:2330	Ancient Egyptian, Mesopotamian, and Persian Art	3
ARTH:3160	Themes in African Art	3
ARTH:3225	Modern and Contemporary Art in China	3
ARTH:3250	Brushwork in Chinese Art	3
ARTH:3255	Copy and Paste: Methods of Reproduction in Asian Art	3
ARTH:3270	Themes in Asian Art History	3
ARTH:3320	Egyptian Art	3
ARTH:3325	Kings, Gods, and Heroes: Art of Ancient Mesopotamia and Persia	3
ARTH:3375	The Great Collision	3

Iowa Idea Track: Studio Art Courses

Course #	Title	Hours
This course (taken before enrollment in another studio art course):		
ARTS:1510	Basic Drawing	3
One of these:		
ARTS:1520	Design Fundamentals	3
CERM:2010	Ceramics I: Handbuilding	3
DRAW:2310	Life Drawing I	3
DSGN:2500	Graphic Design I	3
INTM:2710	Introduction to Intermedia	3
MTLS:2910	Introduction to Jewelry and Metal Arts	3
PHTO:2600	Photography I	3
PNTG:2410	Painting I	3
PRNT:2610	Introduction to Printmaking	3
SCLP:2810	Undergraduate Sculpture I	3
TDSN:2210	Introduction to 3D Design	3

Transfer Students

Transfer students should meet with the undergraduate advisor to discuss the requirements they may fulfill with transfer courses. Art history transfer courses must be reviewed by the head of the art history area to determine a student's placement in or exemption from required art history courses. Students may count a maximum of 15 s.h. of approved transfer credit toward their major.

Study Abroad

Students who wish to study abroad must meet with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Students who take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once the course is completed with a passing grade.

Students who take studio art courses abroad must bring their artwork back to campus and present it in a portfolio review, which determines whether the work satisfies a requirement for their major. The portfolio review is not required if the study abroad course was taught by a School of Art, Art History, and Design faculty member who gave the student a grade for the course.

Teacher Licensure

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the art history major and all requirements for graduation with a BA degree. The TEP requires several College of Education courses and student teaching. Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral. Contact the Office of Student Services in the College of Education for details.

Honors

Honors in the Major

The School of Art, Art History, and Design offers outstanding students the opportunity to graduate with honors in the art history major. Honors students in art history must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.50 in the major. They also must complete a departmental application to graduate with honors in the major.

Students research and write an honors paper of 5,000 to 7,500 words under the direction of an art history professor. Students work with an art history faculty member as their honors advisor. Students must register for ARTH:3985 Honors Research in Art History, earning a total of 3 s.h. over the course of one or two semesters. They must have the honors advisor's approval before beginning work on their honors paper.

The honors paper should conform to the Graduate College format for theses; see Formatting Your Thesis on the Graduate College website. The title page must follow the University of Iowa Honors Program format.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the art history major.

Career Advancement

Many graduates go on to careers in academics, museums, or private art galleries. Those who wish to work as professors, museum curators, or museum directors typically pursue graduate study in art history. Some graduates instead pursue advanced study in fields such as architecture, information science, museum studies, and law. Others may begin careers immediately, working in galleries and museums as arts administrators and catalogers, writing art criticism, or applying their skills in writing and visual analysis to disciplines beyond the arts.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: at least four courses in the major.

Before the seventh semester begins: at least four more courses in the major (total of eight) and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least three more courses in the major (total of 11).

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Art History, BA

	Total Hours	**122-129**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e Students take six art history courses. At least one course with the prefix ARTH numbered 2000-2999 and at least four courses with the prefix ARTH numbered 3000-4998.

f Students select from MUSM:3115, 3130, 3131, 3500, 3710, 4045, 4600.

g Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

h Students must meet GPA requirements in order to pursue honors in art history. See the School of Art, Art History, and Design website and your academic advisor for more information.

i Students may elect to do an Honors in the Art History major splitting 3sh over their final two semesters, if they have a minimum UI GPA of 3.33 and a minimum Art History GPA of 3.5. This needs to be done with the approval of the DUS of Art History and a faculty member who agrees to mentor the student.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d This course is recommended to fulfill both a major requirement (art history course in non-Western area) and the GE CLAS Core International and Global Issues requirement.

e This course should be taken after completing Rhetoric and before enrollment in courses ARTH:3000 and above.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Students complete at least two art history courses (6 s.h.) in non-Western areas (e.g. African, Asian, Islamic, Native American). See General Catalog for list of approved courses.

h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement

exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

i Students complete this requirement by choosing one of these courses: ARTS:1520, CERM:2010, DRAW:2310, DSGN:2500, INTM:2710, MTLS:2910, PHTO:2600, PNTG:2410, PRNT:2610, SCLP:2810, TDSN:2210.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Art, BFA

Learning Outcomes

Students will:

- develop an understanding of the formal traditions and contemporary practices in studio art through coursework in a variety of media;
- learn that art embodies historical, cultural, and social factors with global influences;
- acquire critical skills in visual analysis, research, and the production of original works of art;
- develop skills in oral and written communication regarding themes in studio art; and
- gain skills for professional practice and preparedness for real-world success beyond their degree process following graduation.

Requirements

The Bachelor of Fine Arts with a major in art requires a minimum of 120 s.h., including 62 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Bachelor of Fine Arts students majoring in art may count a maximum of 62 s.h. earned in art, art history, and design courses toward the degree; they must earn at least 58 s.h. of credit in courses outside the School of Art, Art History, and Design in order to graduate. BFA students who are graduating with a double major in the school (e.g., a major in art history and a major in studio art) or a major and a minor in the school (e.g., a major in studio art and a minor in art history) may apply more than 62 s.h. from the School of Art, Art History, and Design toward their degree, but they must earn at least 56 s.h. of credit in courses outside the School of Art, Art History, and Design in order to graduate.

The major provides a foundation in art history as well as an understanding of the formal traditions and contemporary practices in studio art. It also includes a concentration in a specific discipline in studio art.

Students select one studio art area, choosing from ceramics, drawing, graphic design, jewelry and metal arts, painting, photography, printmaking, sculpture and intermedia, and three-dimensional (3D) design. They may not select bookbinding, calligraphy, or papermaking as their studio art discipline. Although students may choose only one BFA area, they gain exposure to other areas through the BFA program of study.

Students majoring in art begin their study in the Bachelor of Arts program. They may apply to the Bachelor of Fine Arts program after consulting with the faculty in the studio discipline of their choice. Students are admitted to the BFA program through a process called "clearance," which is conducted once each semester; they must be admitted to the BFA program at least one semester before they graduate. Students who wish to enter the BFA program should consult the faculty in their major studio art discipline for information about the required portfolio review.

In order to sit for BFA clearance, students must have completed:

- the two studio art foundation courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals;
- one introductory course in the BFA studio art discipline; and
- two upper-level courses in the BFA studio art discipline (students may be enrolled in the two upper-level courses when they sit for clearance).

BFA students complete all requirements for the BA major in art (required courses) plus additional required and elective studio art coursework. They must also present a show of their work through ARTS:4195 BFA Exhibition before they graduate.

For more information about teaching art in elementary and/or secondary schools, see the following section titled "Teacher Licensure."

The BFA with a major in art requires the following coursework.

Requirements	Hours
Required Courses	30
Additional Studio Arts Courses	15-20
Electives	12-17
BFA Exhibition	

Required Courses

The following coursework is required (30 s.h.).

Art History

Course #	Title	Hours
Two of these:		
ARTH:1040	Arts of Africa	3
ARTH:1050	From Cave Paintings to Cathedrals: Survey of Western Art I	3
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3
ARTH:1070	Asian Art and Culture	3
ARTH:1095	Native American Art	3
And:		
Two art history courses not on the above list, excluding ARTH:1000, ARTH:1080, ARTH:3985, ARTH:3995, and ARTH:4999		6

Foundational Studio Art

Students should complete ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals prior to taking the foundational studio courses. It may be possible to take either ARTS:1510 or ARTS:1520 at the same time as a foundational studio art course; contact the art advisor for more information. Foundational studio art courses may also fulfill GE CLAS Core [p. 22] requirements.

CERM:2010 Ceramics I: Handbuilding, SCLP:2810 Undergraduate Sculpture I, and TDSN:2210 Introduction to 3D Design may be taken without completing either ARTS:1510 or ARTS:1520.

Course #	Title	Hours
Both of these:		
ARTS:1510	Basic Drawing	3
ARTS:1520	Design Fundamentals	3

Studio Art 3D Courses

Course #	Title	Hours
Two of these:		
CERM:2010	Ceramics I: Handbuilding	3
INTM:2710	Introduction to Intermedia	3
MTLS:2910	Introduction to Jewelry and Metal Arts	3
SCLP:2810	Undergraduate Sculpture I	3
TDSN:2210	Introduction to 3D Design	3

Studio Art 2D Courses

Course #	Title	Hours
Two of these:		
DRAW:2310	Life Drawing I	3
DSGN:2500	Graphic Design I	3
PHTO:2600	Photography I	3
PNTG:2410	Painting I	3
PRNT:2610	Introduction to Printmaking	3

Additional Studio Art Courses

Students take additional studio arts courses to equal 15–20 s.h. Some required courses may apply to the additional studio art courses requirement.

Course #	Title	Hours
All of these:		
One introductory course and three upper-level courses in the student's studio art discipline		
One introductory course and one upper-level course in a second studio art discipline		
One introductory course and one upper-level course in a third studio art discipline		

Required Electives

Students take 12–17 s.h. in School of Art, Art History, and Design courses to bring the total credit for the major to a minimum of 62 s.h.

BFA Exhibition

Students must present a show of their work in ARTS:4195 BFA Exhibition during the semester in which they graduate. Variations must be approved by the BFA faculty advisor and academic advisors. The show must be advertised using flyers and other media. Students planning to graduate with honors in the major also are required to participate in a separate honors in the major group show. Students must meet with faculty and academic advisors to complete the required documentation before they present their show.

Transfer Students

Transfer students should contact the undergraduate academic advisors in art for information about transfer portfolio review and specific coursework that satisfies the requirements for the major in art. Students may count a maximum of 21 s.h. of approved transfer credit toward their major.

Study Abroad

Students who wish to study abroad must meet with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Students who take studio art courses abroad must bring their artwork back to campus and present it in a portfolio review, which determines whether the work satisfies a requirement for their major. The portfolio review is not required if the study abroad course was taught by a School of Art, Art History, and Design faculty member who gave the student a grade for the course.

Students who plan to take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once the course is completed with a passing grade.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

The BA in art education [p. 1447] is offered by the Department of Teaching and Learning, and the degree is awarded by the College of Education. In order to earn the BA in art education, students also must complete the BFA in art. For more information, contact the College of Education Academic Advising Office.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.50 in their major. They should meet with their academic advisor at the start of their final semester to complete the steps needed to graduate with honors in the major.

Students must select a research project, find a faculty member whose expertise aligns with their research to act as the honors in the major advisor, enroll in ARTS:4190 Honors in Studio Art, write a one-page abstract at the conclusion of the research, and participate in an honors in the major group show and presentation.

University of Iowa Honors Program

In addition to honors in the major, undergraduate students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the art major.

Career Advancement

Many graduates pursue careers that match their degree specializations, for example, commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, or community art center coordinator or instructor. Others go on to graduate study in areas such as art history, art therapy, architecture, design, medical illustration, studio art, or disciplines outside of art.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the BFA major in art. Students should work with their advisors to develop individual graduation plans.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Art, BFA

- Ceramics [p. 114]
- Drawing [p. 115]
- Graphic Design [p. 116]
- Jewelry and Metal Arts [p. 118]
- Painting [p. 119]
- Photography [p. 120]
- Printmaking [p. 121]
- Sculpture and Intermedia [p. 123]
- Three-Dimensional Design [p. 124]

a Students majoring in art begin their study in the Bachelor of Arts program. They may apply to the Bachelor of Fine Arts program after consulting with the faculty in the studio discipline of their choice about the required portfolio review. Students are admitted to the BFA program through a process called "clearance," which is conducted once each semester; they must be admitted to the BFA program at least one semester before they graduate.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Studio art majors are required to complete ARTS:1510 and ARTS:1520 by the end of their first academic year.

d Students may fulfill this general education requirement while also fulfilling major requirements. Up to three major courses can be used to fulfill one GE CLAS Core area each. These areas could include: understanding cultural perspectives; historical perspectives; international and global issues; literary, visual, and performing arts; or values and society. Not all courses are available every semester. Students should consult with their advisor.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f For the two introductory-level studio 3D courses, students in the ceramics discipline complete CERM:2010. Select a second course from INTM:2710, MTLS:2910, SCLP:2810, or TDSN:2210.

g Select art history survey course from ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, and ARTH:1095. Some introductory-level art history courses will fulfill GE CLAS Core requirements; students should consult with their advisor.

h Select introductory-level studio 2D course from DRAW:2310, DSGN:2500, PHTO:2600, PNTG:2410, or PRNT:2610.

i Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

j Does not include ARTH:1000, ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, ARTH:1080, ARTH:1095, ARTH:3985, ARTH:3995, and ARTH:4999.

k Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

l Students may select an elective art course until they complete a maximum of 62 s.h. of art courses, or select a non-art elective course.

m Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

a Students majoring in art begin their study in the Bachelor of Arts program. They may apply to the Bachelor of Fine Arts program after consulting with the faculty in the studio discipline of their choice about the required portfolio review. Students are admitted to the BFA program through a process called "clearance," which is conducted once each semester; they must be admitted to the BFA program at least one semester before they graduate.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Studio art majors are required to complete ARTS:1510 and ARTS:1520 by the end of their first academic year.

d Students may fulfill this general education requirement while also fulfilling major requirements. Up to three major courses can be used to fulfill one GE CLAS Core area each. These areas could include: understanding cultural perspectives; historical perspectives; international and global issues; literary, visual, and performing arts; or values and society. Not all courses are available every semester. Students should consult with their advisor.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f For the two introductory-level studio 2D courses, students in the graphic design discipline complete DSGN:2500. Select a second course from DRAW:2310, PHTO:2600, PNTG:2410, or PRNT:2610.

g Select art history survey course from ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, and ARTH:1095. Some introductory-level art history courses will fulfill GE CLAS Core requirements; students should consult with their advisor.

h Select introductory-level studio 3D course from CERM:2010, INTM:2710, MTLS:2910, SCLP:2810, or TDSN:2210.

i Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

j Does not include ARTH:1000, ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, ARTH:1080, ARTH:1095, ARTH:3985, ARTH:3995, and ARTH:4999.

k Students may select an elective art course until they complete a maximum of 62 s.h. of art courses, or select a non-art elective course.

l Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

mPlease see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f For the two introductory-level studio 2D courses, students in the printmaking discipline complete PRNT:2610. Select a second course from DRAW:2310, DSGN:2500, PHTO:2600, or PNTG:2410.

g Select art history survey course from ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, and ARTH:1095. Some introductory-level art history courses will fulfill GE CLAS Core requirements; students should consult with their advisor.

h Select introductory-level studio 3D course from CERM:2010, INTM:2710, MTLS:2910, SCLP:2810, or TDSN:2210.

i Students who have completed four levels of a single language or two levels of two different languages in high

school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

j Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

k Does not include ARTH:1000, ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, ARTH:1080, ARTH:1095, ARTH:3985, ARTH:3995, and ARTH:4999.

l Students may select an elective art course until they complete a maximum of 62 s.h. of art courses, or select a non-art elective course.

m Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

a Students majoring in art begin their study in the Bachelor of Arts program. They may apply to the Bachelor of Fine Arts program after consulting with the faculty in the studio

discipline of their choice about the required portfolio review. Students are admitted to the BFA program through a process called "clearance," which is conducted once each semester; they must be admitted to the BFA program at least one semester before they graduate.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Studio art majors are required to complete ARTS:1510 and ARTS:1520 by the end of their first academic year.

d Students may fulfill this general education requirement while also fulfilling major requirements. Up to three major courses can be used to fulfill one GE CLAS Core area each. These areas could include: understanding cultural perspectives; historical perspectives; international and global issues; literary, visual, and performing arts; or values and society. Not all courses are available every semester. Students should consult with their advisor.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f Select art history survey course from ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, and ARTH:1095. Some introductory-level art history courses will fulfill GE CLAS Core requirements; students should consult with their advisor.

g For the two introductory-level studio 3D courses, students in the sculpture discipline complete SCLP:2810. Select a second course from CERM:2010, INTM:2710, MTLS:2910, or TDSN:2210.

h Select introductory-level studio 2D course from DRAW:2310, DSGN:2500, PHTO:2600, PNTG:2410, or PRNT:2610.

i Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

j Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

k Does not include ARTH:1000, ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, ARTH:1080, ARTH:1095, ARTH:3985, ARTH:3995, and ARTH:4999.

l Students may select an elective art course until they complete a maximum of 62 s.h. of art courses, or select a non-art elective course.

mPlease see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Art, Minor

Requirements

The undergraduate minor in art requires a minimum of 18 s.h. in art courses, including at least 15 s.h. earned in courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students may not count coursework for the minor in art toward requirements for the major in art history, except ARTS:1510 Basic Drawing.

Art courses that may be taken include ceramics, drawing, jewelry and metal arts, painting, photography, printmaking, sculpture and intermedia, and three-dimensional (3D) design. Graphic design courses do not count for the minor.

The minor in art requires the following coursework.

Course #	Title	Hours
ARTS:1510	Basic Drawing	3
ARTS:1520	Design Fundamentals	3
At least one introductory studio art 3D course		
At least one introductory studio art 2D course, except DSGN:2500		
Additional introductory studio art courses or upper-level courses in the same studio art discipline(s) as the introductory 3D and/or 2D courses required for the minor		
May select one art history course from these: ARTH:1040, ARTH:1050, ARTH:1060, ARTH:1070, ARTH:1095, or a course numbered ARTH:2000 or above		

Before registering for a course, students must complete all of the course's prerequisites.

Contact an undergraduate advisor in the School of Art, Art History, and Design for more information about how to meet the requirements for the minor.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Art, Minor

Course	Title	Hours
Academic Career		
Any Semester		
The undergraduate minor in art requires a minimum of 18 s.h. in art courses, including at least 15 s.h. earned in courses taken at the University of Iowa.		
Coursework in the minor may not be taken pass/nonpass.		
Students may be able to complete the 18 s.h. for the minor more quickly than in the three years shown on this plan, but they should plan to allot three years in case they have problems fitting in the required coursework.		
The introductory-level graphic design course (DSGN:2500 Graphic Design I) is not allowed to fulfill a requirement of the minor.		
Only 3 s.h. of approved art or art history coursework taken outside of the University of Iowa can be used for the minor.		
	Hours	**0**
First Year		
Fall		
ARTS:1510	Basic Drawing	3
ARTS:1520	Design Fundamentals	3
	Hours	**6**
Second Year		
Fall		
Minor: introductory-level studio 2D course [a]		3
	Hours	**3**
Spring		
Minor: introductory-level studio 3D course [b]		3
	Hours	**3**
Third Year		
Fall		
Minor: art minor elective [c]		3
	Hours	**3**
Spring		
Minor: art minor elective [c]		3
	Hours	**3**
	Total Hours	**18**

a Choose from DRAW:2310, PHTO:2600, PNTG:2410, or PRNT:2610.
b Choose from CERM:2010, INTM:2710, MTLS:2910, SCLP:2810, or TDSN:2210.
c Students may choose an art minor elective from the introductory-level courses, or an upper-level course in the same studio art discipline as an introductory-level course that has already been completed. Students may select one art history course (prefix ARTH) for an art minor elective, instead of one of the elective art courses.

Art History, Minor

Requirements

The undergraduate minor in art history requires a minimum of 15 s.h. in art history courses, including 12 s.h. earned in advanced courses taken at the University of Iowa. Art history courses (prefix ARTH) numbered 2000 or above are considered advanced for the minor. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students earning a major in art and a minor in art history may count one art history course required for the art major toward the requirements for the art history minor. Students must consult with their advisors.

The minor in art history must include one survey course chosen from the following list.

Course #	Title	Hours
One of these:		
ARTH:1040	Arts of Africa	3
ARTH:1050	From Cave Paintings to Cathedrals: Survey of Western Art I	3
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3
ARTH:1070	Asian Art and Culture	3
ARTH:1095	Native American Art	3

Before registering for a course, students must complete all of the course's prerequisites.

Contact an undergraduate advisor in the School of Art, Art History, and Design for more information about how to meet the requirements for the minor.

Art, MA

Learning Outcomes

Students will:

- demonstrate proficiency in critical thinking and conceptual problem solving within the particular focus and practice of their field;
- demonstrate a personal vocabulary, approach, and vision in creative work;
- demonstrate knowledge of historical, social, and cultural perspectives in relation to visual art and design;
- demonstrate technical proficiency in relation to the tools, techniques, and materials used in their field; and
- develop a professional package that includes a curriculum vitae/résumé, statement about their work, images of their work, and prepare materials (i.e., teaching and research statement, online portfolio, etc.) for specific careers as a professional emerging artist/designer or in teaching, art, or design-related positions.

Requirements

The Master of Arts in art requires a minimum of 38 s.h. of graduate credit. Students must maintain a Graduate College program grade-point average of at least 3.00. Students complete the degree with a subprogram in one of the following studio art disciplines: ceramics, drawing, graphic design, intermedia and video art, jewelry and metal arts, painting, photography, printmaking, sculpture, or three-dimensional (3D) design.

MA students must hold a BA or BFA in art equivalent to that offered by the University of Iowa. Undergraduate deficiencies, if any, may be made up concurrently with graduate study but do not count toward the graduate degree requirements.

The MA in art requires the following coursework.

Requirements	Hours
Primary Studio Art Discipline	16
Secondary Studio Art Discipline	8
Art History and Theory	6
Electives	8
Thesis	
Additional Requirements	

Primary Studio Art Discipline

Students complete 16 s.h. of coursework in their primary studio art discipline, which is the same as their subprogram.

Course #	Title	Hours
Ceramics		
Ceramics courses (prefix CERM) numbered 3000 and above		
Drawing		
Drawing courses (prefix DRAW) numbered 3000 and above		
Graphic Design		
Graphic design courses (prefix DSGN) numbered 3000 and above		
Intermedia and Visual Art		
Intermedia and visual art courses (prefix INTM) numbered 3000 and above		
Jewelry and Metal Art		
Jewelry and metal art courses (prefix MTLS) numbered 3000 and above		
Painting		
Painting courses (prefix PNTG) numbered 3000 and above		
Photography		
Photography courses (prefix PHTO) numbered 3000 and above		
Printmaking		
Printmaking courses (prefix PRNT) numbered 3000 and above		
Sculpture		
Sculpture courses (SCLP) numbered 3000 and above		
Three-Dimensional Design		
Three-dimensional design courses (prefix TDSN) numbered 3000 and above		

Secondary Studio Art Discipline

Students complete 8 s.h. in one secondary studio art discipline; this cannot be the same as the subprogram in which they are enrolled. The secondary discipline may be one of those listed above, or one of the following.

Course #	Title	Hours
Book Arts		
Papermaking courses (prefix BKAT) numbered 3000 and above		
UICB:3140-UICB:6520, excluding UICB:3900 and UICB:5550		
Other		
Courses outside of the studio arts disciplines taken with program permission		

Art History and Theory

Students complete 6 s.h. of coursework from ARTH:3000–6999, excluding ARTH:3985, ARTH:3995, ARTH:6020, and ARTH:6040.

Electives

In consultation with an advisor, students complete 8 s.h. of UI coursework numbered 3000 or above, excluding ARTS:7000.

Thesis

MA students with a subprogram in three-dimensional design are required to write a thesis and enroll in ARTS:6000 MA Written Thesis. MA students in other studio art disciplines choose to complete the MA with or without a thesis in consultation with their discipline advisor. Students may earn 1 s.h. of elective credit for writing a technical or substantial thesis by registering for ARTS:6000 with approval of the thesis supervisor, but they are not required to enroll in the course.

Thesis credit earned in an MA program is not applicable to MFA requirement.

Additional Requirements

Students provide five images of their MA work for the Grad Archive.

Students undergo a division-wide review for MA candidacy by the faculty during their third semester in residence. All those

except painting and drawing students must submit a written artist's statement or thesis.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education. The College of Education offers an MA program in art education; see the MA in teaching and learning [p. 1486] in the catalog.

Admission

Application materials should be uploaded onto a student's admissions profile. All applicants must meet the admission requirements of the Graduate College and the School of Art, Art History, and Design.

The deadline to submit materials to Graduate Admissions is Feb. 1 for studio art programs. Admission is for the following fall.

School of Art, Art History, and Design Requirements

Prospective graduate students must meet the School of Art, Art History, and Design's admission requirements for the specific degree program they plan to enter. They must submit application materials to Graduate Admissions and to the specific program.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Application Procedures

Prospective students may apply online through the Admissions website. After submitting an application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

Required documents include transcripts from all colleges and universities an applicant has attended, contact information for three individuals who are able to assess an applicant's potential for graduate study designated to provide letters of recommendation, and a statement of purpose.

Applicants should consult the Studio Art Graduate Bulletin on the School of Art, Art History, and Design website. No separate application is necessary for scholarships or teaching/research assistantships for studio art applicants.

Studio art applicants' portfolio requirements are listed below. Images in the portfolio should be uploaded as PDF files no larger than 72 dpi and 1240 by 1240 pixels. File size must not exceed 18 MB. Images must be numbered according to the order they are to be presented to the admissions committee, beginning with 01. Applicants must include an inventory list that includes each image's name, title, medium, size, and approximate date of work, as well as their name and emphasis. They may supply a link to their personal website.

Portfolio contents and submission requirements for each program are as follows.

- Ceramics: 10 to 20 images.
- Three-dimensional (3D) design and jewelry and metal arts: eight images in the primary studio art discipline and two in a second discipline.
- Graphic design: documentation of 15 to 20 projects. Applicants should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. Contact the School of Art, Art History, and Design with questions.
- Painting and drawing: eight images in the primary studio art medium (either painting or drawing) and two in a second medium.
- Photography: 15 to 20 images.
- Printmaking: 10 to 20 images.
- Sculpture and intermedia: applicants submit the following depending on their preferred area of emphasis.
  - Sculpture: Twenty images in sculpture, including details, and two or three images in a second medium. Video links may be included.
  - Intermedia: documentation of five to ten projects, including a brief description of each work illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work; contact the School of Art, Art History, and Design with questions.

Graduate Admissions notifies all applicants by mail of admission decisions.

Career Advancement

Many graduates pursue careers that match their degree specializations, for example, commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, or community art center coordinator or instructor.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students provide five images of their MA work for the Grad Archive.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d MA students with a subprogram in three-dimensional design are required to write a thesis and enroll in ARTS:6000. MA students in other studio art disciplines choose to complete the MA with or without a thesis in consultation with their discipline advisor.

e Students complete 16 s.h. of coursework in their primary studio art discipline, which is the same as their subprogram. See the General Catalog for list of approved courses.

f Students complete 6 s.h. of coursework from ARTH:3000-6999, excluding ARTH:3985, ARTH:3995, ARTH:6020, and ARTH:6040.

g In consultation with an advisor, students complete 8 s.h. of UI coursework numbered 3000 or above, excluding ARTS:7000.

h Students complete 8 s.h. in one secondary studio art discipline; this cannot be the same as the subprogram in which they are enrolled. See the General Catalog for list of approved courses.

i Students undergo a division-wide review for MA candidacy by the faculty during their third semester in residence. All those except painting and drawing students must submit a written artist's statement or thesis.

j Provide preliminary artist's statement followed by artist's statement in the semester of degree completion.

Art History, MA

The master’s degree program in art history is intended for students who wish to acquire a broad knowledge of art history, as well as of the field's theoretical and historical foundations. The MA is intended to prepare students who plan to continue for a PhD in art history as well as for students interested in careers in museums, galleries, and nonprofit organizations.

Learning Outcomes

Students are expected to demonstrate:

- basic understanding of the development of the history and methodology of art history;
- basic understanding of primary source material in five of the following distribution fields: African, architecture, Asian, ancient, medieval, Renaissance and Baroque, 18th- and 19th-century European, American, and modern/contemporary;
- reading proficiency in either French or German;
- skill in visual analysis;
- skill in contextual analysis based on relevant research;
- sustained critical thinking, writing, and speaking abilities; and
- knowledge and skills necessary to be effective teaching assistants for courses numbered 1000–1999.

Requirements

The Master of Arts program in art history requires a minimum of 30 s.h. of graduate-level coursework and is offered without a thesis. Students are expected to acquire a broad knowledge of art history and to become familiar with major periods and monuments of world art. They also become proficient scholars, receiving training in research methods and theory necessary for subsequent scholarship at the PhD level.

Students must maintain a cumulative grade-point average of at least 3.50. Only one semester of academic probation is allowed. All MA candidates, including transfer students, must complete at least 24 s.h. in residence at the University of Iowa.

Students must earn a grade of B or higher in semester-long courses (numbered 3000 or above) in five of the following distribution fields: African, Asian, ancient Mediterranean, medieval, Renaissance and Baroque, 18th- and 19th-century European, American, and modern/contemporary. These courses must be taken after completion of the BA degree.

Students must complete a qualifying paper that demonstrates their ability to conduct scholarly research and convey ideas in writing appropriately for the discipline and the student's specialization field.

The College of Education offers an MA program in art education; see Teaching and Learning [p. 1431] in the catalog.

Required Courses

Students must satisfactorily complete ARTH:4999 Capstone Seminar in Art History during their first fall semester of enrollment and must register for an art history seminar in their first, second, third, and fourth semesters of enrollment.

They must also satisfactorily complete ARTH:6020 Art History Colloquium every semester that they are enrolled for 9 s.h. or more or are serving as teaching or research assistants. Students who are not employed as teaching or research assistants or are registered for less than 9 s.h. are strongly encouraged to attend the colloquium.

Students must attend at least six public lectures by visiting scholars in art history over the course of their enrollment as MA graduate students. Proof of attendance is provided by short written responses (150–250 words) turned in to the director of graduate studies within two weeks of the lecture. Students should register for an art history seminar each semester during their first four semesters.

Courses outside the curriculum of the School of Art, Art History, and Design's art history division do not carry art history credit. Cross-referenced courses not taught by art history faculty members also do not carry art history credit.

Directed Studies

Directed Studies (ARTH:6040) is designed for graduate students who already have taken one or more advanced courses in a specific art history field. It provides students with an opportunity to work one-on-one with a professor to continue specific research interests developed in lecture courses or seminars, or on topics that eventually may be the subject of a thesis or dissertation. ARTH:6040 cannot be substituted for a lecture course already offered in the program. Students must discuss their decision to take this course with the professor involved and obtain the professor's approval. The topic must be within the professor's range of expertise.

Students meet with their professor once a week. The hours of work and written assignments required for the course must be equal to a comparable regularly scheduled course. This course is not available through Distance and Online Education.

Language Requirement

Students must demonstrate proficiency in French or German by the end of their third semester. Students may demonstrate proficiency by:

- two years of university-level coursework;
- earning a grade of B or higher in an advanced language course numbered 3000 or above;
- achieving at least an 80% proficiency score on the level 5 milestone of the relevant Rosetta Stone language program; or
- scoring 500 or above on the University of Iowa World Languages Placement Test.

In exceptional circumstances, a student could make a direct petition to the faculty upon receiving a recommendation from their advisor. Language courses do not carry degree credit.

MA Committee

The MA committee consists of a student's advisor and two additional tenured or tenure-track faculty members in art history.

MA Qualifying Paper

Prior to graduation, each candidate must complete a qualifying paper on a topic that stems from a term paper written for an art history graduate seminar or a course numbered 3000 or above. The paper should be between 5,000 and 7,500 words in length (20 to 30 pages excluding bibliography and illustrations). A student chooses an advisor who specializes in the student’s field of concentration.

In cases where a student wants to focus on a topic that involves more than one field, the art history faculty strongly recommends that the student work closely with faculty members in both fields.

Final Examination

The final examination constitutes an oral defense of the qualifying paper. The final examination meeting with the MA committee normally takes place toward the end of a student's last semester of coursework.

Admission

Application materials should be uploaded onto a student's admissions profile (see instructions under "Application Procedures"). All applicants must meet the admission requirements of the Graduate College and the School of Art, Art History, and Design.

The deadline for submission of materials is Dec. 15 for the art history program; admission is for the following fall.

School of Art, Art History, and Design Requirements

Prospective graduate students must meet the School of Art, Art History, and Design's admission requirements for the specific degree program they plan to enter. They must submit application materials to Graduate Admissions and to the specific program they wish to enter.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Although exceptions may be made when other components of the application are strong, applicants should have an undergraduate grade-point average of at least 3.25 on a 4.00 scale.

Application Procedures

Prospective students may apply online through the Admissions website. After submitting their application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

Required documents include transcripts from all colleges and universities an applicant has attended, contact information for three individuals who are able to assess the applicant's potential for graduate study designated to provide letters of recommendation, a statement of purpose, and the Supplemental Graduate Application Information form.

Art history applicants should also supply a research paper (preferably from an art history course) or thesis that demonstrates potential to undertake graduate-level research in art history, and a personal statement of 1,000 words describing their intellectual development, academic interests, and career goals. The statement must name the University of Iowa faculty member under whose guidance the applicant hopes to work and indicate how that faculty member's area of expertise, or how the art history program is especially suited to the applicant's interests and goals.

Applicants should consult the Art History Graduate Bulletin on the School of Art, Art History, and Design website. No separate application is necessary for scholarships or teaching/research assistantships for applicants.

Graduate Admissions notifies all applicants by mail of admission decisions.

Career Advancement

Many art and art history graduates pursue careers that match their degree specializations, such as commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, gallery and museum administration, art appraiser and restorer, or community art center coordinator or instructor.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

c Take each semester when enrolled in 9 s.h. or more or have a research or teaching assistant appointment; all students are encouraged to attend the colloquium.

d Students should register for an art history seminar each semester during their first four semesters. Credit for graduate seminars may be applied toward the five distribution fields requirement.

e Work with faculty advisor to determine appropriate graduate elective coursework and sequence.

f Proficiency in languages is a prerequisite for engaging in archival and field research within the discipline of art history, and the faculty is committed to assisting students in their preparation for such specialized research. Each student is encouraged to collaborate with their faculty advisor to create a personalized strategy for acquiring language skills that will help them further their research agendas.

g Students must complete a qualifying paper that demonstrates their ability to conduct scholarly research and convey ideas in writing appropriately for the discipline and the student's specialization field; preliminary qualifying paper due to the faculty advisor early in the final semester of the program.

h Oral defense of the qualifying paper.

Art, MFA

Learning Outcomes

Students will:

- demonstrate proficiency in critical thinking and conceptual problem solving within the particular focus and practice of their field;
- demonstrate a personal vocabulary, approach, and vision in creative work;
- demonstrate knowledge of historical, social, and cultural perspectives in relation to visual art and design;
- demonstrate technical proficiency in relation to the tools, techniques, and materials used in their field; and
- develop a professional package that includes a curriculum vitae/résumé, statement about their work, images of their work, and prepare materials (i.e., teaching and research statement, online portfolio, etc.) for specific careers as a professional emerging artist/designer or in teaching, art, or design-related positions.

Requirements

The Master of Fine Arts in art requires a minimum of 60 s.h. of graduate credit. Students must maintain a Graduate College program grade-point average of at least 3.00. A thesis is required. Students complete the degree with a subprogram in one of the following studio art disciplines: ceramics, drawing, graphic design, intermedia and video art, jewelry and metal arts, painting, photography, printmaking, sculpture, or three-dimensional (3D) design.

MFA students must hold an MA in art equivalent to that offered by the University of Iowa. Transfer credit is decided by faculty review. Following completion of the MA, students may be invited into the MFA program. Students must earn at least 24 s.h. of credit for the MFA degree at the University of Iowa, which may include approved credit earned for the MA in art.

The MFA in art requires the following coursework.

Requirements	Hours
Primary Studio Art Discipline	24
Secondary Studio Art Discipline	12
Art History and Theory	6
Electives	18
Thesis	

Primary Studio Art Discipline

Students complete 24 s.h. of coursework in their primary studio art discipline, which is the same as their subprogram.

Course #	Title	Hours
Ceramics		
Ceramics courses (prefix CERM) numbered 3000 and above		
Drawing		
Drawing courses (prefix DRAW) numbered 3000 and above		
Graphic Design		
Graphic design courses (prefix DSGN) numbered 3000 and above		
Intermedia and Visual Art		
Intermedia and visual art courses (prefix INTM) numbered 3000 and above		
Jewelry and Metal Art		
Jewelry and metal art courses (prefix MTLS) numbered 3000 and above		
Painting		
Painting courses (prefix PNTG) numbered 3000 and above		
Photography		
Photography courses (prefix PHTO) numbered 3000 and above

Sculpture		
Sculpture courses (prefix SCLP) numbered 3000 and above		
Three-Dimensional Design		
Three-dimensional design courses (prefix TDSN) numbered 3000 and above		

Secondary Studio Art Discipline

Students complete 12 s.h. in one secondary studio arts discipline; this cannot be the same as the subprogram in which they are enrolled. The secondary discipline may be one of those listed above or one of the following.

Course #	Title	Hours
Book Arts		
Papermaking courses (prefix BKAT) numbered 3000 and above		
UICB:3140-UICB:6520, excluding UICB:3900 and UICB:5550		
Other		
Courses outside of the studio arts disciplines taken with program permission		

Art History and Theory

Students complete 6 s.h. of coursework from ARTH:3000–6999, excluding ARTH:3985, ARTH:3995, ARTH:6020, and ARTH:6040.

Electives

In consultation with an advisor, students complete 18 s.h. of coursework numbered 3000 or above, excluding ARTS:6000.

Committee Review

Students must undergo an MFA committee review. Students are reviewed by their committees at the end of the semester prior to the semester they intend to graduate.

Students are responsible for identifying a degree chair by the semester prior to the semester they intend to graduate. Committee members are selected in consultation with the degree chair by Sept. 15 for spring or summer graduation and Feb. 15 for fall graduation. The committee is comprised of the degree committee chair and three members of the graduate faculty at the assistant professor rank or above (two graduate faculty members from a student's primary studio discipline, one graduate faculty member from a student's secondary studio discipline, and an additional member). Adjunct faculty, lecturers, and visiting professors may serve on degree committees with approval of the degree committee

chair and a Graduate College petition request (renewable every three years).

MFA students sign up for review through the graduate program coordinator. They obtain a form to be signed by both the degree committee members and a faculty member in the second emphasis studio discipline. These forms must be returned to the office no later than the university's official midterm day by 4:30 p.m.

Thesis

MFA students in all subprograms are required to write a thesis. They may earn 1 s.h. of elective credit for writing a technical or substantial thesis by registering for ARTS:7000 MFA Written Thesis with approval of the thesis supervisor, but they are not required to enroll in this course. Thesis credit earned in an MFA program is not applicable to MA requirements.

A thesis abstract is given to all degree committee members and is due by Sept. 15 for spring or summer graduation and by Feb. 15 for fall graduation. The thesis chair is responsible for meeting with the student immediately thereafter to direct thesis content and to coordinate meeting with the full committee.

The complete thesis in final form must be given to all committee members at least four weeks prior to the MFA exhibition week. Graduate College regulations covering the specific requirements of the written thesis are found on the Graduate College Thesis and Dissertation website. The thesis must be as complete as possible, including images (may be black and white or color photocopies) of approved figures that are part of the final thesis. The graduate program coordinator provides a student with complete thesis/artist statement procedures, including the Graduate College calendar.

A thesis defense of the MFA work must be scheduled with the candidate's committee during the final semester in residence. The MFA exhibition is considered the final examination and is where the degree committee reviews the thesis and artwork.

Following the defense, the thesis must be submitted by the Graduate College deadline. Committee members receive an email that provides a link to the finalized (post-format review) thesis and prompts them to verify the manuscript electronically; committee verification happens after the Graduate College format review. Any corrections to the thesis required by the graduate examiner or the degree committee should be completed immediately.

Additional Requirements

Students provide five images of their MFA work for the Grad Archive.

Admission

Application materials should be uploaded onto a student's admissions profile. All applicants must meet the admission requirements of the Graduate College and the School of Art, Art History, and Design.

The deadline to submit materials to Graduate Admissions is Feb. 1 for studio art programs. Admission is for the following fall.

School of Art, Art History, and Design Requirements

Prospective graduate students must meet the School of Art, Art History, and Design's admission requirements for the specific degree program they plan to enter. They must submit application materials to Graduate Admissions and to the specific program.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Application Procedures

Prospective students may apply online through the Admissions website. After submitting an application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

Required documents include transcripts from all colleges and universities an applicant has attended, contact information for three individuals who are able to assess an applicant's potential for graduate study designated to provide letters of recommendation, and a statement of purpose.

Applicants should consult the Studio Art Graduate Bulletin on the School of Art, Art History, and Design website. No separate application is necessary for scholarships or teaching/research assistantships for studio art applicants.

Studio art applicants' portfolio requirements are in the following list. Images in the portfolio should be uploaded as PDF files no larger than 72 dpi and 1240 by 1240 pixels. File size must not exceed 18 MB. Images must be numbered according to the order they are to be presented to the admissions committee, beginning with 01. Applicants must include an inventory list that includes each image's name, title, medium, size, and approximate date of work, as well as their name and emphasis. They may supply a link to their personal website.

Portfolio contents and submission requirements for each program are as follows.

- Ceramics: 10 to 20 images.
- Three-dimensional (3D) design, and jewelry and metal arts: eight images in the primary studio art discipline and two in a second discipline.
- Graphic design: documentation of 15 to 20 projects. Applicant should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. Contact the School of Art, Art History, and Design with questions.
- Painting and drawing: eight images in the primary studio art medium (either painting or drawing) and two in a second medium.
- Photography: 15 to 20 images.
- Printmaking: 10 to 20 images.
- Sculpture and intermedia: applicants submit the following depending on their preferred area of emphasis.
  - Sculpture: 20 images in sculpture, including details, and two or three images in a second medium. Video links may be included.
  - Intermedia: documentation of 5 to 10 projects, including a brief description of each work illustrated with embedded still images and supplemented by links

to online media. The precise number of images varies according to the nature of the work; contact the School of Art, Art History, and Design with questions.

Graduate Admissions notifies all applicants by mail of admission decisions.

Career Advancement

Many graduates pursue careers that match their degree specializations, for example, commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, or community art center coordinator or instructor.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students provide five images of their MFA work for the Grad Archive.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d Students must earn at least 24 s.h. at the University of Iowa after admission to the MFA.

e Students complete 24 s.h. of coursework in their primary studio art discipline, which is the same as their subprogram. See the General Catalog for list of approved courses.

f Students complete 6 s.h. of coursework from ARTH:3000-6999, excluding ARTH:3985, ARTH:3995, ARTH:6020, and ARTH:6040.

g In consultation with an advisor, students complete 18 s.h. of UI coursework numbered 3000 or above, excluding ARTS:7000.

h Students complete 12 s.h. in one secondary studio art discipline; this cannot be the same as the subprogram in which they are enrolled. See the General Catalog for list of approved courses.

i Students are reviewed by their committees at the end of the semester prior to the semester they intend to graduate.

j MFA students in all subprograms are required to write a thesis. They may earn 1 s.h. of elective credit for writing a technical or substantial thesis by registering for ARTS:7000 with approval of the thesis supervisor, but they are not required to enroll in this course. Thesis credit earned in an MFA program is not applicable to MA requirements.

k Thesis defense.

Art History, PhD

The PhD program is intended for students who wish to pursue original research in art history. Students should acquire a deep knowledge of art history, as well as the field's theoretical and historical foundations. PhD students are prepared to pursue careers in academia as well as to become museum curators and directors.

Learning Outcomes

Students are expected to demonstrate many, if not all, of the following:

- understanding of the development of the history and methodology of art history;
- skill in the visual analysis of primary source material;
- skill in contextual analysis and secondary source interpretations;
- productive engagement in the broad and ever-shifting philosophical, scholarly, and institutional debates that determine the structure and content of art history;
- ability to engage in sustained critical thinking;
- ability to write clearly and compellingly;
- deep knowledge of three of the following distribution fields: African, architecture, Asian, ancient, medieval, Renaissance and Baroque, 18th- and 19th-century European, American, and modern/contemporary;
- reading proficiency in French or German as well as a second language of particular relevance to their field of study;
- ability to conduct independent research in museums, archives, and/or libraries;
- knowledge and skills necessary to be effective teaching assistants for courses numbered 1000–1999;
- grant-writing skills;
- public speaking skills necessary to present research in professional academic settings;
- capacity to teach as an instructor of record in their area of expertise; and
- critical research and writing skills necessary to publish peer-reviewed articles.

Requirements

The Doctor of Philosophy program in art history requires a minimum of 72 s.h. of graduate credit. Of the 72 s.h., at least 39 s.h. must be earned while registered in the UI Graduate College, after formal program admission. For details, see the Graduate College Manual of Rules and Regulations Section XII C. Students must maintain a cumulative grade-point average of at least 3.50. They may count a maximum of 38 s.h. of work completed for the MA toward the PhD, excluding credit earned in language courses. Students are allowed only one semester of academic probation.

Students are expected to acquire great breadth and depth of knowledge in the discipline of art history, achieve a high level of expertise in a specialized field, and demonstrate professional speaking and writing skills. The program provides them with scholarly challenges, research skills, and mentoring necessary for professional development and successful careers.

Students major in one of the following distribution fields: Asian, ancient Mediterranean, medieval, Renaissance and Baroque, 18th- and 19th-century European, American, and modern/contemporary. In addition, candidates minor in two fields: any in the preceding list plus African. One minor must be in an art history distribution field that is non-contiguous with the major field. The second minor may be in any art history distribution field, or it may be in a relevant discipline outside of art history, subject to approval from the art history faculty.

For more detailed information, consult the Art History Graduate Bulletin on the School of Art, Art History, and Design website.

Required Courses

Students must satisfactorily complete ARTH:4999 Capstone Seminar in Art History, even if they have completed a similar course at another institution (students who have completed the course for a master's degree or other previous work at the University of Iowa are exempt). They must register for an art history seminar in their first three semesters of PhD coursework (or in their fifth, sixth, and seventh semesters of graduate study), before ARTH:7010 PhD Readings and the comprehensive exam.

Students must register for and satisfactorily complete ARTH:6020 Art History Colloquium for 1 s.h. each semester that they are enrolled for 9 s.h. or more or have an RA/TA appointment. Students who register for fewer than 9 s.h. are strongly encouraged to attend. Art history colloquium is a monthly series of lectures, panel discussions, or field experience focusing on professional development. Planned in conjunction with the graduate Art History Society, this requirement is integral to the degree program and is an important avenue toward professionalism in the field. Attendance is required (any absence needs to be approved by the head of art history before the missed meeting).

Students must attend at least six lectures by visiting scholars in art history during the course of their enrollment as PhD graduate students (proof of attendance is provided by short written responses of 150–250 words turned in to the director of graduate studies within two weeks of the lecture) and must register for an art history seminar in each of the first three semesters of their PhD coursework and prior to both the PhD readings course and comprehensive examinations.

Students may count up to 6 s.h. of credit earned for dissertation research toward the 72 s.h. required for the degree. Courses outside the curriculum of the School of Art, Art History, and Design's art history division do not carry art history credit.

Directed Studies

Normally, a maximum of 6 s.h. earned in ARTH:6040 Directed Studies may be applied toward the semester-hour requirement for the PhD, although doctoral students may petition the art history faculty for permission to apply up to 9 s.h.

Language Requirement

PhD students must demonstrate proficiency in French or German for admission to the PhD program in art history. They must demonstrate proficiency in a second non-English language, generally one relevant to the chosen area of research, by the end of the third semester in the PhD program. Students may demonstrate proficiency by:

- two years of university-level coursework;
- earning a grade of B or above in an advanced language course numbered 3000 or above;
- achieving at least an 80% proficiency score on the level 5 milestone of the relevant Rosetta Stone language program; or
- scoring 500 or above in the University of Iowa World Languages Placement Test.

In exceptional circumstances, a student may make a direct petition to the faculty upon receiving a recommendation from their advisor. Language courses do not carry degree credit.

PhD Committee

The PhD committee consists of the student's dissertation advisor, who is responsible for the major field; two members responsible for the two minor fields; and at least two additional members. Of these five, four must be tenured or tenure-track faculty members from the art history division. One must be from outside the division and must be a member of the Graduate College faculty. When appropriate, committees may include additional members.

Comprehensive Examination

Upon completion of course requirements, the PhD candidate takes three written comprehensive examinations. The major exam consists of six questions and lasts six hours; the two minor exams each consist of three questions and last three hours. The exams are taken on any three days within one week (Monday through Friday).

The scope of the comprehensive exams is determined in consultation with the candidate's degree committee supervisor and the committee members responsible for the two minor fields.

Oral Comprehensive Examination

Within approximately two weeks of completing the three written exams, the candidate meets with the degree committee for the oral comprehensive examination, which concentrates on questions that arise from the written comprehensive exams.

Dissertation Proposal

Each student must complete a publishable dissertation that makes an original contribution to the art history discipline and demonstrates evidence of superior understanding of critical issues in the candidate's chosen specialization field. As soon as possible after completing the comprehensive examinations, the candidate submits a dissertation proposal to the degree committee supervisor and subsequently to the degree committee. See the Art History Graduate Bulletin for complete instructions.

The committee meets as a group with the candidate to discuss the dissertation proposal and to offer comments and suggestions. The proposal must be submitted to the committee at least two weeks before the approval meeting. The proposal includes a 1–2 page abstract, a 10–15 page précis that includes a review of the state of the field, and a bibliography.

After the proposal has been approved by the committee, the candidate circulates an abstract to the entire art history faculty. The candidate must give a public presentation on the dissertation topic no later than the end of the semester following the degree committee's approval. The presentation is scheduled with the head of art history.

Final Examination

Upon completing a dissertation, the candidate meets with the PhD committee for an oral defense of the dissertation. The oral defense constitutes the final examination for the PhD. The successful completion of this examination normally marks the last stage in the candidate's fulfillment of requirements.

Admission

Application materials should be uploaded onto a student's admissions profile (see instructions below under "Application Procedures"). All applicants must meet the admission requirements of the Graduate College and the School of Art, Art History, and Design1Q.

The deadline to submit materials to Graduate Admissions is Dec. 15 for the art history program; admission is for the following fall.

School of Art, Art History, and Design Requirements

Prospective graduate students must meet the School of Art, Art History, and Design's admission requirements for the specific degree program they plan to enter. They must submit application materials to Graduate Admissions and to the specific program they wish to enter.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants must hold an MA in art history or a related graduate degree and be able to demonstrate proficiency in French or German. Proficiency in a second non-English language relevant to the student's research area is required by the end of the third semester of PhD work.

Application Procedures

Prospective students may apply online through the Admissions website. After submitting an application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

Required documents include transcripts from all colleges and universities an applicant has attended, contact information for three individuals who are able to assess the applicant's potential for graduate study designated to provide letters of recommendation, a statement of purpose, and the Supplemental Graduate Application Information form.

Art history applicants should also supply a research paper (preferably from an art history course) or thesis that demonstrates potential to undertake graduate-level research in art history, and a personal statement of 1,000 words describing their intellectual development, academic interests, and career goals. The statement must name the University of Iowa faculty member under whose guidance the applicant hopes to work and indicate how that faculty member's area of expertise, or how the art history program, is especially suited to the applicant's interests and goals.

Students who completed an MA at the University of Iowa and who wish to apply to the PhD program in art history must make a formal application for a change of status through the

graduate program coordinator. Applications are evaluated in the context of the entire applicant pool.

Applicants should consult the Art History Graduate Bulletin on the School of Art, Art History, and Design website. No separate application is necessary for scholarships or teaching/research assistantships for applicants.

Graduate Admissions notifies all applicants by mail of admission decisions.

Career Advancement

Many graduates pursue careers that match their degree specializations, such as commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, gallery and museum administration, art appraiser and restorer, or community art center coordinator or instructor.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Art History, PhD

Course	Title	Hours
Academic Career		
Any Semester		
72 s.h. must be graduate level coursework; typically 30 s.h. (but up to a maximum of 33 s.h.) of graduate transfer credits taken for the master's from an accredited institution allowed upon approval. More information is included in the General Catalog and on department website. [a, b, c]		
Maintain a cumulative program GPA of at least 3.50.		
Students major in one of the following distribution fields: Asian, ancient Mediterranean, medieval, Renaissance and Baroque, 18th- and 19th-century European, American, and modern/contemporary. In addition, candidates minor in two fields: any of the above plus African. [d]		
Students must attend at least six public lectures by visiting scholars in art history during the course of enrollment as PhD graduate students; proof of attendance is provided by short (150-250 word) written responses turned in to the director of graduate studies within two weeks of the lecture.		
	Hours	**0**

a Students must submit an annual progress to degree report by January 15th of each year.

b Students entering with fewer than 30 s.h. of coursework from the master's degree must work with their faculty advisor to complete the needed appropriate graduate coursework.

c Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

d One minor must be in an art history distribution field that is non-contiguous with the major field. The second minor may be in any art history distribution field, or it may be in a relevant discipline outside of art history, subject to approval from the art history faculty.

e Work with faculty advisor to determine appropriate graduate elective coursework and sequence.
f Students must register for and satisfactorily complete ARTH:4999 even if they have enrolled in a similar course at another institution; students who have already taken this course at The University of Iowa are exempt from this requirement and should work with faculty advisor to select an alternate course.
g Take each semester when enrolled in 9 s.h. or more or have a research or teaching assistant appointment; all students are encouraged to attend the colloquium.
h Must register for an art history seminar in first, second, and third semesters of enrollment; credit for graduate seminars may be applied toward the five distribution fields requirement.
i Students must demonstrate proficiency in two research languages in addition to English chosen in consultation with the faculty advisor by the end of the fourth semester. Students may demonstrate proficiency by a) two years of university-level coursework, b) earning a grade of B or better in a 3000-level advanced language course, c) achieving at least an 80% proficiency score on the level 5 milestone of the relevant Rosetta Stone language program, or d) placing out of the second year of the language in the University of Iowa World Languages Placement Test. In exceptional circumstances, making a direct petition to the faculty after receiving the recommendation of their advisor. Language courses do not carry degree credit.
j Students preparing for the Comprehensive Exam will work with faculty advisor to determine appropriate PhD Readings coursework and sequence.
k Taken upon completion of course requirements; consists of three written exams and an oral exam. See the General Catalog and department website for specifics.
l Submitted after completing the Comprehensive Exam; see the General Catalog and department website for specifics.
m Up to 6 s.h. of dissertation credit may count towards degree requirements.
n Dissertation defense.

Biology

Chair

- Tina L. Tootle

Undergraduate major: biology (BA, BS)

Undergraduate minor: biology

Graduate degrees: MS in integrated biology; PhD in integrated biology

Faculty: https://biology.uiowa.edu/people/faculty

Website: https://biology.uiowa.edu/

The Department of Biology offers undergraduate and graduate programs that prepare students for careers in a wide variety of fields such as health science or biological research, technology, and education. It also offers several courses that undergraduate students in all majors may use to satisfy the GE CLAS Core [p. 22] Natural Sciences requirement and other courses on topics of general interest for undergraduate non-biology majors, including a First-Year Seminar course, BIOL:1000 First-Year Seminar, designed for entering students. The department also administers the interdisciplinary biomedical sciences [p. 173] major and the neuroscience [p. 875] major, both leading to a Bachelor of Science degree.

Programs

Undergraduate Programs of Study

Majors

- Major in Biology (Bachelor of Arts) [p. 147]
- Major in Biology (Bachelor of Science) [p. 152]

Minor

- Minor in Biology [p. 163]

Graduate Programs of Study

- Master of Science in Integrated Biology [p. 164]
- Doctor of Philosophy in Integrated Biology [p. 168]

Facilities

The department is housed in two contiguous buildings, with modern facilities and equipment for state-of-the-art research.

The Roy J. Carver Center for Genomics houses the department's DNA sequencing, oligo synthesis, quantitative PCR, functional genomics facilities, and informatics facilities. The Roy J. Carver Center for Imaging is a microscopy and imaging facility; its confocal microscopes are available for teaching and research.

A large greenhouse is used in plant research and education. The department also houses animal-care facilities suitable for mice, rats, rabbits, *Xenopus laevis,* and zebra fish. These facilities are managed by the university's animal care unit, which is accredited by the Association for Assessment and Accreditation of Laboratory Animal Care (AAALAC). A central university facility provides assistance in the preparation of transgenic mice.

The department is home to the Developmental Studies Hybridoma Bank, which is affiliated with the National Institutes of Health. The hybridoma bank collects and distributes monoclonal antibodies that originate in laboratories all over the world. Its collection now contains more than 3,500 monoclonal antibodies that are distributed to users internationally for a modest fee.

In addition to department facilities, the university offers a genomic sequencing service, a DNA oligonucleotide synthesis and enzyme lab, oligopeptide synthesis and sequencing equipment, and mass- and NMR spectroscopy facilities. The Center for Biocatalysis and Bioprocessing is available for growing large amounts of microorganisms (e.g., 100 liters) for use in protein isolation.

Iowa Lakeside Laboratory

The Iowa Lakeside Laboratory is a field station run cooperatively by the University of Iowa, Iowa State University, and the University of Northern Iowa. Located on West Lake Okoboji, in northwestern Iowa, the laboratory affords excellent conditions for summer study in field biology, limnology, phycology, aquatic ecology, pollination biology, and plant taxonomy. It offers a wide variety of summer courses at the undergraduate and graduate levels. Students should check with their advisors to determine whether specific courses may be counted toward requirements for graduation. See Iowa Lakeside Laboratory [p. 2196] (University College) in the catalog or visit the Lakeside Laboratory website.

Courses

Biology Courses

Many courses include laboratory, discussion, and/or field components.

The following courses are not open to graduate students and do not provide credit toward a biology major: BIOL:1060 Big Ideas: Origins of the Universe, Earth, and Life; BIOL:1140 Human Biology: Nonmajors; BIOL:1141 Human Biology: Health Professions; BIOL:1251 How the Brain Works (and Why it Doesn't); BIOL:1261 Introduction to Botany; BIOL:1370 Understanding Evolution; and BIOL:2211 Genes, Genomes, and the Human Condition.

BIOL:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

BIOL:1060 Big Ideas: Origins of the Universe, Earth, and Life 3 s.h.
Origin of the universe, the biochemistry of life, and the origin of life on Earth; for non-science majors. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as ASTR:1060, SEES:1060.

BIOL:1140 Human Biology: Nonmajors 4 s.h.
Overview of molecular and cellular basis of human life; structure, function of human tissues, organs, organ systems; evolution, reproduction, genetics, impact of molecular biology and genetic engineering; integration of humans and the biosphere; lecture, laboratory. GE: Natural Sciences with Lab.

BIOL:1141 Human Biology: Health Professions 4 s.h.
Molecular and cellular basis of human life; structure, function of human tissues, organs, organ systems; evolution, reproduction, genetics, impact of molecular biology and genetic engineering; integration of humans and the biosphere; lecture, laboratory. Requirements: one year of high school chemistry. Recommendations: CHEM:1070. GE: Natural Sciences with Lab.

BIOL:1251 How the Brain Works (and Why it Doesn't) 3-4 s.h.
Introductory survey of neuroscience; structure and function of the brain; nature of consciousness; brain function in mental illness and degenerative disorders; genes and the mind; perception, sensation, memory, and emotions. Requirements: non-biology major. GE: Natural Sciences without Lab.

BIOL:1261 Introduction to Botany 4 s.h.
Biology of plant life; emphasis on structure, function, reproduction, inheritance, diversity, evolution. Requirements: one year of high school chemistry. GE: Natural Sciences with Lab.

BIOL:1295 Career Preparation and Life Design for Biology Majors 1 s.h.
Exploration of career paths, employers, graduate programs; preparation for life after college; development of practical skills in job searching, writing, interviewing, and networking; for students who are unsure what they can do after graduation with a bachelor's degree in biology. Requirements: junior or senior standing.

BIOL:1370 Understanding Evolution 3 s.h.
Evolution and diversity of living things, their patterns on Earth, their organization in ecological systems; dynamics of evolutionary processes. GE: Natural Sciences without Lab.

BIOL:1411 Foundations of Biology 4 s.h.
Unifying concepts of living systems; emphasis on common properties and processes; chemical and cellular basis of life, genetics, and evolution. Prerequisites: CHEM:1110 with a minimum grade of C or CHEM:1120 with a minimum grade of C or CHEM:1070 with a minimum grade of A-. GE: Natural Sciences with Lab.

BIOL:1412 Diversity of Form and Function 4 s.h.
Underlying unifying concepts of life; emphasis on diversity of living systems; the tree of life, cellular evolution, prokaryotic and eukaryotic diversity, plant and animal form and function; interactions among diverse forms of life and their environment. Prerequisites: BIOL:1411 with a minimum grade of C-. GE: Natural Sciences with Lab.

BIOL:1808 Ways of Knowing Science 1 s.h.
Science as a powerful way of knowing based on experimentation and observation of natural world; introduction to subdisciplines of scientific research; scope and methods of scientific research; questions that scientific research seek answers for; methods that scientists use to obtain answers to their questions; how science affects us personally and how it affects the rest of society; research seminars, discussion, and exploration.

BIOL:2120 Good Genes Gone Bad: Genetic Disorders of Notable Celebrities 3 s.h.
Introduction to a wide range of genetic disorders affecting notable celebrities; relevant genetic pathways in easy-to-understand language; exploration of mechanisms of disease and treatments. GE: Natural Sciences without Lab.

BIOL:2211 Genes, Genomes, and the Human Condition 3 s.h.
Organization, expression, and evolution of genes in context of genomes; focus on human genome; distribution and transmission of variation in human population. Prerequisites: BIOL:1411. Recommendations: BIOL:1412.

BIOL:2246 Entomology Lab 4 s.h.
Insects are the most species-rich and diverse of all animals; introduction to insect biology; emphasis on evolution, diversity, ecology, and morphology with some additional focus on physiology and behavior; students work in lab and field settings; memorization of entomological terms required; hands-on learning including how to employ various tools, techniques, and approaches used by professional entomologists, insect collecting and preservation, DNA extraction and sequencing, and analysis of evolutionary and ecological data. Prerequisites: BIOL:1412.

BIOL:2254 Endocrinology 3 s.h.
Production and effect of hormonal chemical messengers of secretory glands; emphasis on cell signaling in vertebrate systems; actions of hormones in regulating growth, physiology, and reproduction; organ to molecular levels. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:2400 or HHP:3500 or PSY:2701). Recommendations: CHEM:2210.

BIOL:2374 Biogeography 3 s.h.
Introduction to processes that lead to the patterns of plant and animal distributions we see across the globe; processes of focus include plate tectonics, climate, and human-ecological interactions; species management and conservation in relationship to climate and change in human patterns of environment. Prerequisites: SEES:1020 or BIOL:1412 or BIOL:1261 or BIOL:1370 or BIOL:1141. Same as SEES:2374.

BIOL:2512 Fundamental Genetics 4 s.h.
Nature, function of genetic material: classical, molecular, developmental aspects. Prerequisites: BIOL:1411 with a minimum grade of C- and CHEM:1110. Recommendations: CHEM:2210.

BIOL:2663 Plant Response to the Environment 3 s.h.
Mechanisms of plant responses to environmental factors (biotic and abiotic) at organismal and molecular levels. Prerequisites: BIOL:1411 and BIOL:1412.

BIOL:2673 Ecology 3 s.h.
Adaptations of organisms to their physical and biological environments; organism-environment interactions; population biology; interactions between species; ecology of communities, ecosystems; human impact on ecosystems. Recommendations: a basic statistics or calculus course. Same as SEES:2673.

BIOL:2723 Cell Biology 3 s.h.
Structures of cells and organelles in relation to their functions at molecular, cellular levels; emphasis on higher eukaryotic cells. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:2400 or HHP:3500 or PSY:2701) and CHEM:1120.

BIOL:2753 Introduction to Neurobiology 3 s.h.
Techniques of molecular biology, genomics, neuropharmacology, and functional brain imaging applied to understanding how the brain works. Prerequisites: (BIOL:1412 or HHP:2400 or HHP:3500) and BIOL:1411.

BIOL:3172 Evolution 4 s.h.
Nature, evidence, analysis, implications, molecular/genetic basis; historical record, phylogeny, speciation, adaptation, investigative methods. Prerequisites: BIOL:1412 with a minimum grade of C- and BIOL:2512 with a minimum grade of C- and (STAT:2010 or STAT:3510 or MATH:1550 or MATH:1850 or MATH:1460).

BIOL:3212 Bioinformatics for Beginners 3 s.h.
Overview of bioinformatics topics including access to sequence data, pairwise and multiple sequence alignment algorithms, molecular phylogeny, microarray data analysis, protein analysis, proteomics, and protein structure analysis; emphasis on each topic includes biological motivation, computational approach (practical and theoretical), and interpretation of output. Prerequisites: BIOL:2512 or BIOL:2211 or BMB:3120 or MICR:3170. Same as IGPI:3212.

BIOL:3233 Introduction to Developmental Biology 3 s.h.
Fundamental mechanisms in differentiation, organogenesis, morphogenesis; and pattern formation; mechanistic approach at molecular, cellular, tissue levels of organizations. Prerequisites: BIOL:1411 and CHEM:1120 and (BIOL:1412 with a minimum grade of C- or HHP:2400 with a minimum grade of C- or HHP:3500 with a minimum grade of C-). Recommendations: BIOL:2512.

BIOL:3244 Animal Behavior 3 s.h.
Genetics, sensory physiology, migration, development of behavior, circadian rhythms, foraging strategies, aggression, sexual and parental behavior, group selection, social behavior. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:2400 or PSY:2701).

BIOL:3245 Animal Behavior Laboratory 4 s.h.
Behavioral aspects of vertebrate and invertebrate animals under pressure of different genetic background, aggression and competition for a mate, food or security, social behavior. Prerequisites: BIOL:1411 and (BIOL:1412 or PSY:2701).

BIOL:3253 Neurobiology I 4 s.h.
Neurobiology from molecular/cellular to systems levels including cell biology of the neuron; membrane electrophysiology; synaptic transmission and plasticity; functional neuroanatomy; sensory, motor, and autonomic systems; emotion, memory, sleep, language, attention and cognition, neuronal development; focus on systems and developmental neurobiology; first in a two-semester sequence. Prerequisites: BIOL:1411 and (PSY:2701 or BIOL:2753).

BIOL:3254 Neurobiology II 4 s.h.
Neurobiology from molecular/cellular to systems levels including cell biology of the neuron; membrane electrophysiology; synaptic transmission and plasticity; functional neuroanatomy; sensory, motor, and autonomic systems; emotion, memory, sleep, language, attention and cognition, neuronal development; focus on molecular/cellular neurobiology and neurophysiology; second in a two-semester sequence. Prerequisites: BIOL:3253 and (PHYS:1512 or PHYS:1612).

BIOL:3314 Genomics 3 s.h.
Major areas of genomics including genome sequencing, assembly, and annotation; evolutionary genomics, metagenomics, functional genomics, and computational genomics; synthetic biology and genome engineering. Prerequisites: BIOL:1412 and (BIOL:2211 or BIOL:2512 or BIOL:2723 or MICR:3170). Same as IGPI:3314.

BIOL:3343 Animal Physiology 3 s.h.
Principles of cellular and systems physiology; emphasis on quantitative and experimental aspects. Prerequisites: BIOL:1411 and CHEM:1110 and CHEM:1120 and (MATH:1460 or MATH:1550 or MATH:1850). Recommendations: (PHYS:1511 and PHYS:1512) or (PHYS:1611 and PHYS:1612).

BIOL:3363 Plant Developmental Biology 3 s.h.
Developmental processes throughout life cycle of vascular plants; current knowledge of mechanisms, control; emphasis on molecular and genetic approaches to studying development. Prerequisites: BIOL:1412 and BIOL:2512.

BIOL:3373 Human Population Genetics and Variation 3 s.h.
Principles of evolutionary change of genes and genomes applied to human populations and to comparisons between humans and their closest primate relatives; emphasis on consequences of mutation, natural selection, and demographic changes. Prerequisites: BIOL:2512 with a minimum grade of C- or BIOL:2211 with a minimum grade of C-.

BIOL:3603 Mechanisms of Aging 3 s.h.
Evolutionary theories of aging, cellular and genetic basis of aging and repair, disruption of homeostasis in aging; focus on studies of biological and environmental causes of age-related diseases. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:2400 or HHP:3500 or PSY:2701). Recommendations: BIOL:2723.

BIOL:3626 Cell Biology Laboratory 4 s.h.
Conceptual understanding and technical skills in fluorescence microscopy and digital imaging, mammalian cell culture, tissue fractionation, centrifugation, electrophoresis, and expression of recombinant proteins. Prerequisites: BIOL:2723.

BIOL:3655 Neurogenetics Laboratory 4 s.h.
Emphasis on project-oriented training to develop fundamental hands-on experimental manipulations and techniques, problem-solving skills, and data analysis methodology; students utilize modern genetic, behavioral, and electrophysiological methods to explore how gene and environment influence nervous system function and behavioral expression using genetic model organisms. Prerequisites: BIOL:2512 or BIOL:2753 or PSY:2701.

BIOL:3656 Neurobiology Laboratory 4 s.h.
Principles and practice of neurobiology research, including microscopy and imaging, cellular and molecular neurobiology, and electrophysiology. Prerequisites: (BIOL:1411 and PSY:2701) or BIOL:2753.

BIOL:3663 Plant Response to the Environment 3 s.h.
Mechanisms of plant responses to environmental factors (biotic and abiotic) at organismal and molecular levels. Prerequisites: BIOL:1412 and (BIOL:2512 or BIOL:2723 or BIOL:3716 or BMB:3120).

BIOL:3676 Evolution Lab 4 s.h.
Methods of sampling and describing variation in natural populations; application of molecular genetic, bioinformatic, and computational techniques to describe genetic variation through sequence analysis; use of controlled laboratory experiments and computer simulations to illustrate evolutionary principles. Prerequisites: BIOL:2512 or BIOL:2211. Corequisites: BIOL:3172 or BIOL:3373, if not taken as a prerequisite. Recommendations: grade of C or higher in BIOL:3172.

BIOL:3713 Molecular Genetics 4 s.h.
Mechanism, regulation of RNA, DNA, protein biosynthesis, with emphasis on methods of genetic analysis; application of modern recombinant DNA techniques to basic problems. Prerequisites: BIOL:2512 or BMB:3120 or BMB:3110.

BIOL:3716 Genetics and Biotechnology Lab 4 s.h.
Expansion of genetic concepts introduced in BIOL:2512; introduction to genetic/molecular techniques currently used in genetic analysis and biotechnology. Prerequisites: BIOL:1411. Corequisites: BIOL:2512 or BIOL:2211, if not taken as a prerequisite. Recommendations: grade of C or higher in BIOL:2512.

BIOL:3736 Developmental Biology Lab 4 s.h.
Experimental manipulation of embryos to examine mechanisms of early development, including gametogenesis and fertilization, cleavage, gastrulation, pattern formation and organogenesis; in vivo imaging of development, methods to visualize gene expression and independent research; model organisms including sea urchin, fish, frog, chick, mouse. Prerequisites: BIOL:3233.

BIOL:3994 Introduction to Research 1-3 s.h.
Independent scientific research related to the field of biology.

BIOL:3999 Independent Research in Neuroscience 2-3 s.h.
Independent scientific research related to the field of neuroscience. Same as PSY:3999.

BIOL:4123 Cell Biology of the Nervous System 3 s.h.
Cell biology of each participant in the nervous system. Topics include how failures in cell function lead to neurological conditions such as Alzheimer's disease or Amyotrophic Lateral Sclerosis. Enhance critical thinking skills while building foundational knowledge of cell biology. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:2400 or HHP:3500 or PSY:2701).

BIOL:4213 Bioinformatics 2,4 s.h.
Overview of bioinformatics topics, including access to sequence data, pairwise and multiple sequence alignment algorithms, molecular phylogeny, microarray data analysis, protein analysis, proteomics and protein structure analysis; emphasis on each topic includes biological motivation, computational approach (practical and theoretical), and interpretation of output. Prerequisites: BMB:3120 or MICR:3170 or BIOL:2512 or BMB:3110. Recommendations: grade of B-plus or higher in BIOL:2512 or graduate standing. Same as GENE:4213, IGPI:4213.

BIOL:4314 Introduction to Synthetic Biology in the Lab 4 s.h.
Introduction to theory and practice of large-scale design goals of synthetic biology in which various types of DNA instructions, known from decades of research and discovery on specific biological systems, are taken out of context and used to execute various novel tasks designed to solve real-world problems; basic laboratory instruction in standardized construction techniques for stringing together off-the-shelf DNA components that are then introduced into organisms capable of executing the instructional set; controlled experiments to investigate the degree of variability exhibited by engineered genetic constructs. Prerequisites: BIOL:1411. Same as BME:4314.

BIOL:4333 Genes and Development 3 s.h.
Mechanisms by which genes control development of multicellular animals; methodology of scientific research applied to developmental genetics. Prerequisites: BIOL:1412 with a minimum grade of C- and BIOL:2512 with a minimum grade of C-. Recommendations: BIOL:3233.

BIOL:4355 Neuroimmunology 3 s.h.
Interactions of neuroscience and immunology during development, homeostasis, injury, and disease. Prerequisites: BIOL:3253.

BIOL:4373 Molecular Evolution: Genes, Genomes, and Organisms 3 s.h.
Theory underlying phylogenetic analysis with application of these methods to molecular data sets; analysis of multigene data, organellar, and nuclear genome sequences to reconstruct the history of cells. Prerequisites: BIOL:3172 with a minimum grade of C-. Same as IGPI:4373.

BIOL:4386 Introduction to Scientific Computing for Biologists 3 s.h.
In modern biological research, computational tools are no longer a luxury but a necessity; introduction to a set of computational tools and best practices in data analysis to prepare for data-intensive research in the field of biomedical sciences; topics include reproducibility in computational projects, version control, command-line interface, remote computing, and general and statistical programming. Prerequisites: BIOL:2512 or BMB:3110 or BMB:3120 or MICR:3170. Recommendations: CS:2110.

BIOL:4897 Teaching Internship in Biology 1-3 s.h.
Training and practical experiences in the teaching of biology; includes a weekly training session with a PhD instructor or course supervisor, active assistance of the primary instructor in one or more class meetings each week, and/or providing constructive written feedback on laboratory or classroom exercises; additional experiences may include leading a training session, co-teaching or lead-teaching one or more lab or classroom exercises, and assisting with the development of classroom activities or resources; specific experiences will vary depending on the course and supervisor needs. Prerequisites: BIOL:1411 with a minimum grade of B and BIOL:1412 with a minimum grade of B. Requirements: third- or fourth-year standing and interview with instructor.

BIOL:4898 Communicating Research 2 s.h.
Independent, investigative research experience; research process and communication—establishing goals and expectations with a mentor, developing and framing a research hypothesis or question, communicating results in written and oral form to scientist and nonscientist audiences; supportive learning environment to share research experiences and develop identities as scientists, learn skills to become effective independent researchers and science communicators. Requirements: concurrent enrollment in BIOL:4999 or BIOL:3994 or HONR:3994 or URES:3994; or working in a research laboratory as a volunteer or paid research assistant for the semester enrolled.

BIOL:4995 Honors Research in Neuroscience arr.
Independent scientific research related to the field of neuroscience. Requirements: honors standing in neuroscience, UI GPA of at least 3.33, and neuroscience GPA of at least 3.33. Same as PSY:4995.

BIOL:4998 Honors Seminar in Biology 2 s.h.
Prerequisites: BIOL:1411. Requirements: honors standing.

BIOL:4999 Honors Research in Biology arr.
Independent scientific research related to the field of biology. Requirements: honors standing in biology, UI GPA of at least 3.33, and biology GPA of at least 3.33.

BIOL:5110 Practicum: College Teaching for Biology Teaching Assistants 2 s.h.
Practical pedagogical concerns including how to structure a course, devise learning outcomes, development of syllabus and calendar of assignments, evaluation of student work, and creation of a student-centered classroom with collaborative learning experiences; for biology TAs teaching in introductory courses BIOL:1411 and BIOL:1412.

BIOL:5172 Evolution - Graduate Lecture 3 s.h.
Nature, evidence, analysis, implications, molecular/genetic basis; historical record, phylogeny, speciation, adaptation, investigative methods.

BIOL:5199 Critical Readings in Biology arr.

BIOL:5211 Genes, Genomes, and the Human Condition Graduate Lecture 3 s.h.
Organization, expression, and evolution of genes in context of genomes; focus on human genome; distribution and transmission of variation in human population. Recommendations: BIOL:1411 highly recommended. Same as IGPI:5211.

BIOL:5218 Microscopy for Biomedical Research arr.
Basic microscopy methods for research including optics, preparation, and analysis of biomedical specimens; light, fluorescence, confocal, transmitting electron, scanning electron, atomic force microscopes, elemental analysis; immunochemistry and stereology techniques; individualized laboratory instruction. Prerequisites: BIOL:2723. Same as ACB:5218, MICR:5218.

BIOL:5312 Critical Analysis of Biological Research: Concepts, Methods, and Interpretation 2 s.h.
Develop fundamental skills in reading, summarizing, critiquing, and extrapolating from the primary literature; gain facility in reading and understanding topics in various disciplines across the field of biology.

BIOL:5412 Fundamental Genetics: Graduate Lecture 3 s.h.
Nature and function of genetic material; classical, molecular, and developmental aspects. Corequisites: BIOL:5512.

BIOL:5472 Foundations of Evolutionary Theory 3 s.h.
Advanced study of the underpinnings of modern evolutionary theory through readings, lectures, and discussions. Topics begin with pre-Darwinian conceptions of evolution and the transformative idea of evolution by natural selection. From there, topics may include the modern synthesis of genetics with evolution, evolutionary development, the evolution of sex, and/or evolutionary genomics. For all topics, there is a dual focus both on reinforcing conceptual knowledge of evolutionary topics and learning the important history of the field.

BIOL:5512 Readings in Genetics 2 s.h.
Critical evaluation of classic genetics papers. Requirements: biology graduate standing.

BIOL:5653 Fundamental Neurobiology I 3 s.h.
Neurobiology from molecular/cellular to systems levels, including cell biology of the neuron; membrane electrophysiology; synaptic transmission and plasticity, functional neuroanatomy, sensory, motor and autonomic systems; emotion, memory, sleep, language, attention and cognition, neuronal development; focus on systems and developmental neurobiology; first in a two-semester sequence. Same as NSCI:5653, PSY:5203.

BIOL:5654 Fundamental Neurobiology II 3 s.h.
Neurobiology from molecular/cellular to systems levels, including cell biology of the neuron; membrane electrophysiology; synaptic transmission and plasticity; functional neuroanatomy, sensory, motor and autonomic systems; emotion, memory, sleep, language, attention and cognition, neuronal development; focus on molecular/cellular neurobiology and neurophysiology; second in a two-semester sequence. Prerequisites: BIOL:5653 or NSCI:5653 or PSY:5203. Same as NSCI:5654, PSY:5205.

BIOL:5658 Fundamental Neurobiology I Discussion 2 s.h.
Discussion of selected papers, including classics from neurobiology literature; coordinated with BIOL:5653 lecture material. Same as NSCI:5658, PSY:5204.

BIOL:5659 Fundamental Neurobiology II Discussion 2 s.h.
Discussion of selected papers, including classics from neurobiology literature; coordinated with BIOL:5654 lecture material. Same as NSCI:5659, PSY:5206.

BIOL:6188 Seminar: Writing in Natural Sciences 2 s.h.
Writing and critiquing skills in the natural sciences.

BIOL:6199 Research: Biology arr.

BIOL:6265 Neuroscience Seminar 0-1 s.h.
Research presentations. Same as ACB:6265, MPB:6265, NSCI:6265, PSY:6265.

BIOL:6298 Concepts, Models, and Systems in Biology (COSMOS) Seminar I 1 s.h.
Analysis and presentation of primary research on central biological questions utilizing a full array of model and non-model organisms and analytical approaches; development of effective skills in public speaking, presentation, and scientific writing.

BIOL:6299 Concepts, Models, and Systems in Biology (COSMOS) Seminar II 2 s.h.
Student presentation of thesis research on an array of model and non-model organisms and analytical approaches; development of effective skills in public speaking and presentation.

BIOL:6899 Independent Study in Biology arr.

BIOL:7270 Principles of Scholarly Integrity 1 s.h.
Training in responsible conduct of research; student/mentor responsibilities; authorship and reviewing; plagiarism/falsification/fabrication of data; intellectual property; conflict of interest; fiscal, institutional, societal; treatment of human and animal subjects; data handling. Requirements: enrollment in graduate psychology or biology program. Same as PSY:7270.

BIOL:7604 Principles of Scholarly Integrity 0 s.h.
Training in responsible conduct of research and scholarly activities; student/mentor responsibilities; authorship; plagiarism/falsification/fabrication of data; intellectual property; conflict of interest; fiscal, institutional, societal; treatment of human and animal subjects; data handling. Requirements: postdoctoral standing in psychology or biology. Same as PSY:7604.

Biology, BA

All biology majors complete a chemistry/mathematics foundation and the biology core. In addition, BA students choose courses from several breadth menus and have a wide selection of elective courses, while BS students complete physics foundation courses and choose one of four tracks.

The department acquaints undergraduate students with the nature of practicing scientists' work by offering BIOL:3994 Introduction to Research (requires a Department of Biology faculty sponsor), BIOL:4898 Communicating Research (a course supporting students involved in research), and BIOL:4999 Honors Research in Biology (requires membership in the Biology Honors Program). Students associate with one of the department's research groups for experiments, discuss current research, study specialized topics, and attend research seminars.

Students interested in field biology, zoology, or botany may take varied courses in those subjects offered during the summer at Iowa Lakeside Laboratory [p. 2196].

Learning Outcomes

Graduates with a bachelor's degree in biology will be able to demonstrate the following.

Foundational Knowledge

Comprehension of fundamental principles and concepts of biology.

Graduates will be able to:

- explain fundamental biological principles within and across levels of organization, from molecules to ecosystem;
- apply foundational knowledge and conceptual frameworks to new situations;
- recognize the consequences of evolutionary history in contrasts between living organisms;
- appreciate the historical sequence and diversity of people who have contributed to the achievements of biological discovery; and
- evaluate new information reported in the news and/or in scientific publications against prior knowledge.

New Discovery

Scientific reasoning and experimental process in biology.

Graduates will be able to:

- perform basic laboratory procedures, including correct operation of devices;
- formulate questions about biological processes based on current knowledge;
- construct a hypothesis to guide experimental inquiry;
- design experiments, identifying variables of analysis and controls for error;
- consider appropriate strategies or technologies applicable to investigate a novel problem;
- collect, organize, summarize, and interpret biological data;
- analyze and evaluate experimental results to inform a hypothesis; and
- distinguish between necessary and sufficient causes.

Quantitative Skills

Mathematical reasoning and basic numeracy applied to biology.

Graduates will be able to:

- perform essential mathematical operations such as unit conversions, dilutions, and molarity calculations;
- apply mathematical concepts and rules of probability to make predictions;
- select and apply appropriate statistical tests to determine the significance of experimental results; and
- use mathematical and/or statistical expressions to evaluate hypotheses with experimental data.

Information Literacy

Acquisition, analysis, and summary of published biological information.

Graduates will be able to:

- locate and evaluate the relevance and credibility of information from electronic and print sources;
- navigate and obtain relevant information from public databases;
- recognize and appropriately cite sources of information;
- identify questions addressed and methodologies used; and
- assess findings reported and conclusions drawn in published scientific articles.

Communication Proficiency

Written and oral presentation of biological information.

Graduates will be able to:

- write concise scientific reports based on findings or literature searches;
- construct visual presentations of results or findings from the scientific literature; and
- orally present findings or results from the literature with appropriate media.

Requirements

The Bachelor of Arts with a major in biology requires a minimum of 120 s.h., including at least 65–70 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students who wish to apply transfer credit toward the biology major should consult their biology advisor. Students who earn a degree in biology may not earn a degree in biomedical sciences.

The major for the Bachelor of Arts prepares students for graduate study in the biological sciences and is especially appropriate for those interested in careers in biological science education at all levels. It also provides suitable preparation for professional positions in industry, laboratory, field research, or for professional study in medicine and other health-related fields.

The BA program is broadly based. It introduces students to key concepts in important areas of biology and, compared to the BS program, provides more flexibility in choosing elective courses. Students working toward a Bachelor of Arts degree must complete the chemistry/math foundation; the biology

core; three courses from the breadth menus; one course with a laboratory; and five or six elective courses, which may include one course in the history or philosophy of science.

The BA with a major in biology requires the following coursework.

Requirements	Hours
Chemistry/Mathematics Foundation Courses	15
Biology Core Courses	19
Breadth Menus	9-11
Course With a Laboratory	4-6
Electives	18-19

Chemistry/Mathematics Foundation

Course #	Title	Hours
This sequence:		
CHEM:1110 & CHEM:1120	Principles of Chemistry I and Principles of Chemistry II	8
One of these:		
MATH:1460	Calculus for the Biological Sciences	4
MATH:1850	Calculus I	4
One of these:		
STAT:2010	Statistical Methods and Computing	3
STAT:3510	Biostatistics	3

Biology Core

Course #	Title	Hours
All of these:		
BIOL:1411 & BIOL:1412	Foundations of Biology and Diversity of Form and Function	8
BIOL:2512	Fundamental Genetics	4
BIOL:2723	Cell Biology	3
BIOL:3172	Evolution	4

Breadth Menus

Genes and Genomes

Course #	Title	Hours
One of these:		
BIOL:3212	Bioinformatics for Beginners	3
BIOL:3314	Genomics	3
BIOL:3373	Human Population Genetics and Variation	3
BIOL:3713	Molecular Genetics	4
BIOL:4333	Genes and Development (if not taken for a biological systems course)	3
BIOL:4373	Molecular Evolution: Genes, Genomes, and Organisms	3
BIOL:4386	Introduction to Scientific Computing for Biologists	3

Biological Systems

Course #	Title	Hours
Two of these:		
BIOL:2254	Endocrinology	3
BIOL:2673	Ecology	3
BIOL:2753	Introduction to Neurobiology	3
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3244	Animal Behavior	3
BIOL:3253	Neurobiology I	4
BIOL:3343	Animal Physiology	3
BIOL:3363	Plant Developmental Biology	3
BIOL:4333	Genes and Development (if not taken as a genes and genomes course)	3
May include one of these:		
BIOL:2663	Plant Response to the Environment	3
BIOL:3663	Plant Response to the Environment	3

Course With a Laboratory

Course #	Title	Hours
One of these (must not have been used as a breadth menu course):		
BIOL:2246	Entomology Lab	4
BIOL:3245	Animal Behavior Laboratory	4
BIOL:3626	Cell Biology Laboratory	4
BIOL:3655	Neurogenetics Laboratory	4
BIOL:3656	Neurobiology Laboratory	4
BIOL:3676	Evolution Lab	4
BIOL:3716	Genetics and Biotechnology Lab	4
BIOL:3736	Developmental Biology Lab	4
BIOL:4314	Introduction to Synthetic Biology in the Lab	4
BIOL:4999	Honors Research in Biology	6
MICR:2157 & MICR:2158	General Microbiology and General Microbiology Laboratory	5
Iowa Lakeside Laboratory courses (consult advisor)		4-5

Electives

Students complete at least one biology elective course (prefix BIOL) for 3–4 s.h. plus 15 s.h. of coursework outside the Department of Biology from the list below.

Biology courses may include courses chosen from the "Breadth Menus" list or the "Course With a Laboratory" list that have not been used to satisfy those requirements; other 3–4 s.h. courses numbered 2000 or above offered by the Department of Biology except for BIOL:2120 Good Genes Gone Bad: Genetic Disorders of Notable Celebrities and BIOL:2211 Genes, Genomes, and the Human Condition; and advanced biology courses taught at Iowa Lakeside Laboratory [p. 2196] with approval from the advisor.

Course #	Title	Hours
Four to five courses from these (15 s.h.):		
ANTH:2320	Origins of Human Infectious Disease	3
ANTH:3307	Modern Human Origins	3
ANTH:3328	Molecular Genetics of Human Disease	3
BMB:3110	Biochemistry	3
CBE:2040	Environment, Energy, and Climate Change	3
CHEM:2210	Organic Chemistry I	3
CHEM:2220	Organic Chemistry II	3
CPH:2230	Finding Patient Zero: The Exploration of Infectious Disease Transmission and Pandemic Threats	3
CPH:3400	Health, Work, and the Environment	3
CPH:4200	Agriculture, Food Systems, and Sustainability	3
CS:1110	Introduction to Computer Science	3
CS:2110	Programming for Informatics	4
GHS:2415	Bioethics	3
GHS:3110	Colonialism and Indigenous Health Equity	3
GHS:3325	Global Epidemics	3
GHS:3500	Global Public Health	3
HIST:3133	Science, Technology, and Society in the Modern World	3
HHP:2100	Human Anatomy	3
HHP:2110	Human Anatomy Laboratory	1
HHP:3115	Anatomy for Human Physiology With Lab	5
MATH:4750	Introduction to Mathematical Biology	3
MICR:2157	General Microbiology	3
MICR:2158	General Microbiology Laboratory	2
MICR:3147	Immunology and Human Disease	3
MICR:3168	Viruses and Human Disease	3
PHIL:3604	Introduction to Philosophy of Science	3
SEES:2374	Biogeography	3
SEES:2950	Environmental Conservation	4
SEES:3070	Marine Ecosystems and Conservation	3
SEES:3095	Field Ecology	4
SEES:3096	Winter Ecology	2
SEES:3097	Introduction to Bird Study	2
SEES:3110	Geography of Health	3
SEES:3210	Principles of Paleontology	3
SEES:3220	Evolution of the Vertebrates	4
SEES:3350	Urban Ecology	3
SEES:4470	Ecological Climatology	3
SEES:4600	Biogeography, Ecology, and Conservation of Mammals	4

From the physics courses, students may choose from the following (maximum of two courses); if they select PHYS:1511, they could take PHYS:1512; if they select PHYS:1611, they could take PHYS:1612:

PHYS:1400	Basic Physics	3-4
or		
PHYS:1511	College Physics I	4
or PHYS:1611	Introductory Physics I	
PHYS:1512	College Physics II	4
or PHYS:1612	Introductory Physics II	

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Combined Programs

BA/MAT (Science Education Subprogram)

Students interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. The combined program enables students to earn a BA in biology and an MAT in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 19 s.h. of qualifying credit toward both degrees. For more information, see Science Education [p. 1497] in the Master of Arts in Teaching (College of Education) section of the catalog. Interested students should consult an advisor.

Honors

Honors in the Major

Students majoring in biology have the opportunity to graduate with honors in the major. The biology honors program introduces students to the pursuits of practicing scientists. Honors students associate with one of the department's research groups and participate in an independent research project guided by a faculty member (the research supervisor).

Biology honors students write a thesis based on an interesting biological problem, which is usually identified by the research supervisor. The thesis should clearly document that a student has acquired the necessary experimental skills to address specific questions and test specific hypotheses related to the research problem. Throughout undergraduate residence, departmental honors students may also enroll in courses with honors sections offered by the Department of Biology and other departments and programs.

To graduate with honors in the biology major, students must fulfill the following requirements:

- complete the requirements for a major in biology with a grade-point average (GPA) of at least 3.33 in all coursework in the major taken at the University of Iowa (including all biology courses and cognates in chemistry, biochemistry, mathematics, and statistics) and a cumulative University of Iowa GPA of at least 3.33;
- complete 2 s.h. in either BIOL:4898 Communicating Research or a related approved course;
- complete a minimum of 6 s.h. (taken over two or more semesters) of BIOL:4999 Honors Research in Biology;
- write a brief research proposal summarizing the background and goals of their proposed honors research;
- upon completion of their research, submit an acceptable honors thesis; and
- give a brief oral presentation of their research findings to other biology honors students.

Students may apply 6 s.h. of BIOL:4999 Honors Research in Biology toward the required course with a laboratory and count the 2 s.h. earned in BIOL:4998 Honors Seminar in Biology toward the elective requirement.

Biology majors interested in graduating with honors in the major should contact the biology advisor as early as possible, preferably during their sophomore or junior year, so that they may be matched with an appropriate lab. Visit Biology Honors Program to learn more about honors study in the department.

Students who are interested in the University of Iowa Honors Program satisfy the level two requirements when they satisfy the biology honors requirements; see "University of Iowa Honors Program" below.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Students who satisfy the requirements for honors in the biology major also satisfy the experiential learning requirement of the university honors curriculum.

Membership in the UI Honors Program is not required to earn honors in the biology major.

Career Advancement

The major in biology prepares students to enter research or service careers associated with private industry or government programs and for primary and secondary school teaching. It also prepares them to enter advanced degree programs leading to careers in higher education and to independent research in a variety of biological fields, or for practice in health professions such as medicine, dentistry, pharmacy, nursing, veterinary medicine, medical technology, and physical therapy.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1460 Calculus for the Biological Sciences or MATH:1850 Calculus I, CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, and BIOL:1411 Foundations of Biology.

Before the fifth semester begins: BIOL:1412 Diversity of Form and Function, STAT:2010 Statistical Methods and Computing or STAT:3510 Biostatistics, and four other courses in the major.

Before the seventh semester begins: BIOL:2512 Fundamental Genetics, BIOL:2723 Cell Biology, BIOL:3172 Evolution, five or six more courses in the major, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two or three more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Biology, BA

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b After completing BIOL:1412 Diversity of Form & Function, students are eligible to enroll in Lakeside Laboratory summer field courses. Registration for these courses is in winter of each year.

c Enrollment in chemistry courses requires completion of a placement exam.

d Enrollment in math courses requires completion of a placement exam.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f Students complete 15 s.h. of coursework outside the Department of Biology by choosing courses from an approved list.

g Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

i See General Catalog for list of approved courses.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Biology, BS

All biology majors complete the chemistry/mathematics foundation and the biology core. In addition, BS students complete physics foundation courses and choose one of four tracks, while BA students choose courses from several breadth menus and have a wider selection of elective courses.

The department acquaints undergraduate students with the nature of practicing scientists' work by offering BIOL:3994 Introduction to Research (requires a Department of Biology faculty sponsor), BIOL:4898 Communicating Research (a course supporting students involved in research), and BIOL:4999 Honors Research in Biology (requires membership in the Biology Honors Program). Students associate with one of the department's research groups for experiments, discuss current research, study specialized topics, and attend research seminars.

Students interested in field biology, zoology, or botany may take varied courses in those subjects offered during the summer at Iowa Lakeside Laboratory [p. 2196].

Learning Outcomes

Graduates with a bachelor's degree in biology will be able to demonstrate the following.

Foundational Knowledge

Comprehension of fundamental principles and concepts of biology.

Graduates will be able to:

- explain fundamental biological principles within and across levels of organization, from molecules to ecosystem;
- apply foundational knowledge and conceptual frameworks to new situations;
- recognize the consequences of evolutionary history in contrasts between living organisms;
- appreciate the historical sequence and diversity of people who have contributed to the achievements of biological discovery; and
- evaluate new information reported in the news and/or in scientific publications against prior knowledge.

New Discovery

Scientific reasoning and experimental process in biology.

Graduates will be able to:

- perform basic laboratory procedures, including correct operation of devices;
- formulate questions about biological processes based on current knowledge;
- construct a hypothesis to guide experimental inquiry;
- design experiments, identifying variables of analysis and controls for error;
- consider appropriate strategies or technologies applicable to investigate a novel problem;
- collect, organize, summarize, and interpret biological data;
- analyze and evaluate experimental results to inform a hypothesis; and
- distinguish between necessary and sufficient causes.

Quantitative Skills

Mathematical reasoning and basic numeracy applied to biology.

Graduates will be able to:

- perform essential mathematical operations such as unit conversions, dilutions, and molarity calculations;
- apply mathematical concepts and rules of probability to make predictions;
- select and apply appropriate statistical tests to determine the significance of experimental results; and
- use mathematical and/or statistical expressions to evaluate hypotheses with experimental data.

Information Literacy

Acquisition, analysis, and summary of published biological information.

Graduates will be able to:

- locate and evaluate the relevance and credibility of information from electronic and print sources;
- navigate and obtain relevant information from public databases;
- recognize and appropriately cite sources of information;
- identify questions addressed and methodologies used; and
- assess findings reported and conclusions drawn in published scientific articles.

Communication Proficiency

Written and oral presentation of biological information.

Graduates will be able to:

- write concise scientific reports based on findings or literature searches;
- construct visual presentations of results or findings from the scientific literature; and
- orally present findings or results from the literature with appropriate media.

Requirements

The Bachelor of Science with a major in biology requires a minimum of 120 s.h., including at least 67–75 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students who wish to apply transfer credit toward graduation with a major in biology should consult their biology advisor. Students who earn a degree in biology may not earn a degree in biomedical sciences.

Students must complete the chemistry/mathematics/physics foundation, the biology core, and one of four tracks. The four tracks emphasize dynamic and active areas in the biological sciences. Three of the tracks—cell and developmental biology, genetics and biotechnology, and neurobiology—emphasize distinct areas. The fourth track—integrative biology—provides highly diverse content.

The BS with a major in biology requires the following coursework.

Requirements	Hours
Chemistry/Mathematics/Physics Foundation	29
Biology Core Courses	15
Track Courses	23-31

Chemistry/Mathematics/Physics Foundation

Course #	Title	Hours
All of these:		
CHEM:1110 & CHEM:1120	Principles of Chemistry I and Principles of Chemistry II	8
CHEM:2210	Organic Chemistry I	3
One of these:		
BMB:3110	Biochemistry	3
BMB:3120	Biochemistry and Molecular Biology I (students who take BMB:3120 must also take BMB:3130 as one of their track courses)	3
One of these sequences:		
PHYS:1511 & PHYS:1512	College Physics I and College Physics II	8
PHYS:1611 & PHYS:1612	Introductory Physics I and Introductory Physics II	8
One of these:		
MATH:1460	Calculus for the Biological Sciences	4
MATH:1850	Calculus I	4
One of these:		
STAT:2010	Statistical Methods and Computing (preferred for evolution track)	3
STAT:3510	Biostatistics	3

Biology Core

Course #	Title	Hours
All of these:		
BIOL:1411 & BIOL:1412	Foundations of Biology and Diversity of Form and Function	8
BIOL:2512	Fundamental Genetics	4
BIOL:2723	Cell Biology	3

Tracks

Bachelor of Science students must select a single track. The experiential elective requirement may be satisfied by taking an appropriate investigative lab for the track, or through several other options. Students who use BIOL:4999 Honors Research in Biology or BIOL:3994 Introduction to Research must complete a minimum of 6 s.h. in those courses. Students who use BIOL:4897 Teaching Internship in Biology must complete a minimum of 4 s.h. in that course.

Additionally, students may satisfy the experiential elective requirement by completing at least 4 s.h. in two different courses from a combination of these courses: BIOL:3994 Introduction to Research, BIOL:4898 Communicating Research, BIOL:4897 Teaching Internship in Biology, BIOL:4999 Honors Research in Biology, LATH:3001 Latham Fellows: Science Outreach Project, and an approved biology-related internship.

- Genetics and Biotechnology Track [p. 154]
- Integrative Biology Track [p. 155]
- Neurobiology Track [p. 156]

Cell and Developmental Biology Track

The cell and developmental biology track provides education in the structure and function of cells and in the principles of development as they apply to animals and plants. This track is appropriate for students who wish to pursue graduate study in cellular and developmental biology, to prepare for professional study in medicine and other health-related fields, or to take positions in laboratories and companies engaged in cancer research and related fields.

Cell and Developmental Biology Track Courses

Course #	Title	Hours
Two of these:		
BIOL:3172	Evolution	4
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3363	Plant Developmental Biology	3
One of these:		
BIOL:3626	Cell Biology Laboratory	4
BIOL:3736	Developmental Biology Lab	4
One of these:		
BIOL:3212	Bioinformatics for Beginners	3
BMB:3130	Biochemistry and Molecular Biology II (students who take BMB:3120 as a chemistry/mathematics/physics foundation course must take this course)	3
CHEM:2220	Organic Chemistry II	3
MICR:2157 & MICR:2158	General Microbiology and General Microbiology Laboratory	5

Cell and Developmental Biology Track Experiential Elective

Course #	Title	Hours
One of these:		
BIOL:3245	Animal Behavior Laboratory	4
BIOL:3626	Cell Biology Laboratory (if not taken as a track course)	4
BIOL:3655	Neurogenetics Laboratory	4
BIOL:3656	Neurobiology Laboratory	4
BIOL:3676	Evolution Lab	4
BIOL:3716	Genetics and Biotechnology Lab	4
BIOL:3736	Developmental Biology Lab (if not taken as a track course)	4
BIOL:3994	Introduction to Research (taken twice for 3 s.h. each or three times for 2 s.h. each)	6

BIOL:4314	Introduction to Synthetic Biology in the Lab	4
BIOL:4897	Teaching Internship in Biology (taken twice for 2 s.h. each)	4
BIOL:4999	Honors Research in Biology	6
or		
A combination of at least two different courses for a total of 4 s.h. from these:		
BIOL:3994	Introduction to Research	1-3
BIOL:4897	Teaching Internship in Biology	1-3
BIOL:4898	Communicating Research	2
BIOL:4999	Honors Research in Biology	arr.
LATH:3001	Latham Fellows: Science Outreach Project	2
An approved biology-related internship		

Cell and Developmental Biology Track Electives

Course #	Title	Hours
At least two of these, with a minimum of one course numbered 3000 or above:		
BIOL:2254	Endocrinology	3
BIOL:2753	Introduction to Neurobiology	3
BIOL:3172	Evolution (if not taken as a track course)	4
BIOL:3233	Introduction to Developmental Biology (if not taken as a track course)	3
BIOL:3244	Animal Behavior	3
BIOL:3253	Neurobiology I	4
BIOL:3314	Genomics	3
BIOL:3343	Animal Physiology	3
BIOL:3363	Plant Developmental Biology (if not taken as a track course)	3
BIOL:3713	Molecular Genetics	4
BIOL:4333	Genes and Development	3
May include one of these:		
BIOL:2663	Plant Response to the Environment	3
BIOL:3663	Plant Response to the Environment	3

Genetics and Biotechnology Track

The genetics and biotechnology track provides education in the key principles of transmission, maintenance, regulation, and manipulation of genes. This track is appropriate for students who wish to pursue graduate study in fields related to genetics or to enter the modern biotechnology industry. It also provides excellent preparation for professional study in medicine and other health-related fields.

Genetics and Biotechnology Track Courses

Course #	Title	Hours
Two of these:		
BIOL:3172	Evolution	4
BIOL:3314	Genomics	3
BIOL:3713	Molecular Genetics	4
This course:		
BIOL:3716	Genetics and Biotechnology Lab	4
One of these:		
BIOL:3212	Bioinformatics for Beginners	3
BMB:3130	Biochemistry and Molecular Biology II (students who take BMB:3120 as a chemistry/mathematics/physics foundation course must take this course)	3
CHEM:2220	Organic Chemistry II	3
MICR:2157 & MICR:2158	General Microbiology and General Microbiology Laboratory	5

Genetics and Biotechnology Track Experiential Elective

Course #	Title	Hours
One of these:		
BIOL:3245	Animal Behavior Laboratory	4
BIOL:3626	Cell Biology Laboratory	4
BIOL:3655	Neurogenetics Laboratory	4
BIOL:3676	Evolution Lab	4
BIOL:3736	Developmental Biology Lab	4
BIOL:3994	Introduction to Research (taken twice for 3 s.h. each or three times for 2 s.h. each)	6
BIOL:4314	Introduction to Synthetic Biology in the Lab	4
BIOL:4897	Teaching Internship in Biology (taken twice for 2 s.h. each)	4
BIOL:4999	Honors Research in Biology	6
or		
A combination of at least two different courses for a total of 4 s.h. from these:		
BIOL:3994	Introduction to Research	1-3
BIOL:4897	Teaching Internship in Biology	1-3
BIOL:4898	Communicating Research	2
BIOL:4999	Honors Research in Biology	arr.
LATH:3001	Latham Fellows: Science Outreach Project	2
An approved biology-related internship		

Genetics and Biotechnology Track Electives

Course #	Title	Hours
At least two of these (if not taken to fulfill a track requirement), with a minimum of one course numbered 3000 or above:		
BIOL:2254	Endocrinology	3
BIOL:2673	Ecology	3
BIOL:2753	Introduction to Neurobiology	3
BIOL:3172	Evolution	4
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3244	Animal Behavior	3
BIOL:3253	Neurobiology I	4

BIOL:3314	Genomics	3
BIOL:3343	Animal Physiology	3
BIOL:3363	Plant Developmental Biology	3
BIOL:3373	Human Population Genetics and Variation	3
BIOL:3713	Molecular Genetics	4
BIOL:4333	Genes and Development	3
BIOL:4373	Molecular Evolution: Genes, Genomes, and Organisms	3
BIOL:4386	Introduction to Scientific Computing for Biologists	3
May include one of these:		
BIOL:2663	Plant Response to the Environment	3
BIOL:3663	Plant Response to the Environment	3

Integrative Biology Track

The integrative biology track offers a diverse, well-balanced introduction to the major fields of biology. This track prepares students for graduate study in the biological sciences, in science education, and for work in laboratories that engage in research and applications in many fields of biology. It also provides broadly based preparation for professional study in medicine and other health-related fields.

Integrative Biology Track Courses

Course #	Title	Hours
Both of these:		
BIOL:2673	Ecology	3
BIOL:3172	Evolution	4
One of these:		
BIOL:2374	Biogeography	3
BIOL:3212	Bioinformatics for Beginners	3
BMB:3130	Biochemistry and Molecular Biology II (students who take BMB:3120 as a chemistry/mathematics/physics foundation course must take this course)	3
CHEM:2220	Organic Chemistry II	3
MICR:2157 & MICR:2158	General Microbiology and General Microbiology Laboratory	5

Integrative Biology Track Breadth Menus

Genes and Genomes

Course #	Title	Hours
One of these:		
BIOL:3314	Genomics	3
BIOL:3373	Human Population Genetics and Variation	3
BIOL:3713	Molecular Genetics	4
BIOL:4333	Genes and Development	3
BIOL:4373	Molecular Evolution: Genes, Genomes, and Organisms	3
BIOL:4386	Introduction to Scientific Computing for Biologists	3

Biological Systems

Course #	Title	Hours
One of these:		
BIOL:2254	Endocrinology	3
BIOL:2753	Introduction to Neurobiology	3
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3244	Animal Behavior	3
BIOL:3343	Animal Physiology	3
BIOL:3363	Plant Developmental Biology	3
May include one of these:		
BIOL:2663	Plant Response to the Environment	3
BIOL:3663	Plant Response to the Environment	3

Investigative Lab

Course #	Title	Hours
One of these:		
BIOL:2246	Entomology Lab	4
BIOL:3245	Animal Behavior Laboratory	4
BIOL:3626	Cell Biology Laboratory	4
BIOL:3655	Neurogenetics Laboratory	4
BIOL:3656	Neurobiology Laboratory	4
BIOL:3676	Evolution Lab	4
BIOL:3716	Genetics and Biotechnology Lab	4
BIOL:3736	Developmental Biology Lab	4

Integrative Biology Track Experiential Elective

Course #	Title	Hours
One of these:		
BIOL:2246	Entomology Lab (if not used for investigative lab course)	4
BIOL:3245	Animal Behavior Laboratory (if not used for investigative lab course)	4
BIOL:3626	Cell Biology Laboratory (if not used for investigative lab course)	4
BIOL:3655	Neurogenetics Laboratory (if not used for investigative lab course)	4
BIOL:3656	Neurobiology Laboratory (if not used for investigative lab course)	4
BIOL:3676	Evolution Lab (if not used for investigative lab course)	4
BIOL:3716	Genetics and Biotechnology Lab (if not used for investigative lab course)	4
BIOL:3736	Developmental Biology Lab (if not used for investigative lab course)	4
BIOL:3994	Introduction to Research (taken twice for 3 s.h. each or three times for 2 s.h. each)	6

BIOL:4897	Teaching Internship in Biology (taken twice for 2 s.h. each)	4
BIOL:4999	Honors Research in Biology	6
An approved Iowa Lakeside Laboratory course		4
or		
A combination of at least two different courses for a total of 4 s.h. from these:		
BIOL:3994	Introduction to Research	1-3
BIOL:4897	Teaching Internship in Biology	1-3
BIOL:4898	Communicating Research	2
BIOL:4999	Honors Research in Biology	arr.
LATH:3001	Latham Fellows: Science Outreach Project	2
An approved biology-related internship		

Neurobiology Track

The neurobiology track provides education in nervous system function at all levels, from molecular to systems biology. This track is appropriate for students who wish to pursue graduate study in neurobiology and related areas, including psychology and the social sciences; to enter laboratories that study the therapeutic basis of neurological disorders; or to work in pharmaceutical companies. It also provides good preparation for professional study in medicine and other health-related fields.

Neurobiology Track Courses

Course #	Title	Hours
All of these:		
BIOL:2753	Introduction to Neurobiology	3
BIOL:3253	Neurobiology I	4
BIOL:3254	Neurobiology II	4
One of these:		
BIOL:3245	Animal Behavior Laboratory	4
BIOL:3655	Neurogenetics Laboratory	4
BIOL:3656	Neurobiology Laboratory	4
One of these:		
BIOL:3212	Bioinformatics for Beginners	3
BMB:3130	Biochemistry and Molecular Biology II (students who take BMB:3120 as a chemistry/mathematics/physics foundation course must take this course)	3
CHEM:2220	Organic Chemistry II	3
MICR:2157 & MICR:2158	General Microbiology and General Microbiology Laboratory	5
PSY:3055	Interdisciplinary Science of Sound and Hearing	3
PSY:3250	Neuroscience of Learning and Memory	3

Neurobiology Experiential Elective

Course #	Title	Hours
One of these:		
BIOL:3245	Animal Behavior Laboratory (if not used as a track course)	4
BIOL:3626	Cell Biology Laboratory	4
BIOL:3655	Neurogenetics Laboratory (if not used as a track course)	4
BIOL:3676	Evolution Lab	4
BIOL:3716	Genetics and Biotechnology Lab	4
BIOL:3736	Developmental Biology Lab	4
BIOL:3994	Introduction to Research (taken twice for 3 s.h. each or three times for 2 s.h. each)	6
BIOL:4314	Introduction to Synthetic Biology in the Lab	4
BIOL:4897	Teaching Internship in Biology (taken twice for 2 s.h. each)	4
BIOL:4999	Honors Research in Biology	6
or		
A combination of at least two different courses for a total of 4 s.h. from these:		
BIOL:3994	Introduction to Research	1-3
BIOL:4897	Teaching Internship in Biology	1-3
BIOL:4898	Communicating Research	2
BIOL:4999	Honors Research in Biology	arr.
LATH:3001	Latham Fellows: Science Outreach Project	2
An approved biology-related internship		

Neurobiology Electives

Course #	Title	Hours
One of these:		
BIOL:2254	Endocrinology	3
BIOL:3172	Evolution	4
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3244	Animal Behavior	3
BIOL:3343	Animal Physiology	3
BIOL:4333	Genes and Development	3
BIOL:4386	Introduction to Scientific Computing for Biologists	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Combined Programs

BS/MAT (Science Education Subprogram)

Students interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Science/Master of Arts in Teaching with a science education subprogram offered by

the College of Liberal Arts and Sciences and the College of Education. The combined program enables students to earn a BS in biology and an MAT in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting qualifying credit toward both degrees. For more information, see Science Education [p. 1497] in the Master of Arts in Teaching (College of Education) section of the catalog. Interested students should consult an advisor.

Honors

Honors in the Major

Students majoring in biology have the opportunity to graduate with honors in the major. The biology honors program introduces students to the pursuits of practicing scientists. Honors students associate with one of the department's research groups and participate in an independent research project guided by a faculty member (the research supervisor).

Biology honors students write a thesis based on an interesting biological problem, which is usually identified by the research supervisor. The thesis should clearly document that the student has acquired the necessary experimental skills to address specific questions and test specific hypotheses related to the research problem. Throughout undergraduate residence, departmental honors students may also enroll in courses with honors sections offered by the Department of Biology and other departments and programs.

To graduate with honors in the biology major, students must fulfill the following requirements:

- complete the requirements for a major in biology with a grade-point average (GPA) of at least 3.33 in all coursework in the major taken at the University of Iowa (including all biology courses and cognates in chemistry, physics, biochemistry, mathematics, and statistics) and a cumulative University of Iowa GPA of at least 3.33;
- complete 2 s.h. in BIOL:4898 Communicating Research or a related approved course;
- complete a minimum of 6 s.h. (taken over two or more semesters) of BIOL:4999 Honors Research in Biology;
- write a brief research proposal summarizing the background and goals of their proposed honors research;
- upon completion of their research, submit an acceptable honors thesis; and
- give a brief oral presentation of their research findings to other biology honors students.

Students pursuing a BS in biology may apply 6 s.h. of BIOL:4999 toward the experiential elective requirement in an appropriate track.

Biology majors interested in graduating with honors in the major should contact the biology advisor as early as possible, preferably during their sophomore or junior year, so that they may be matched with an appropriate lab. Visit Biology Honors Program to learn more about honors study in the department.

Students who are interested in the University of Iowa Honors Program satisfy the level two requirements when they satisfy the biology honors requirements.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Students who satisfy the requirements for honors in the biology major also satisfy the experiential learning requirement of the university honors curriculum.

Membership in the UI Honors Program is not required to earn honors in the biology major.

Career Advancement

The major in biology prepares students to enter research or service careers associated with private industry or government programs and for primary and secondary school teaching. It also prepares them to enter advanced degree programs leading to careers in higher education and to independent research in a variety of biological fields, or for practice in health professions such as medicine, dentistry, pharmacy, nursing, veterinary medicine, medical technology, and physical therapy.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1460 Calculus for the Biological Sciences or MATH:1850 Calculus I, CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, and BIOL:1411 Foundations of Biology.

Before the fifth semester begins: BIOL:1412 Diversity of Form and Function, CHEM:2210 Organic Chemistry I, STAT:2010 Statistical Methods and Computing or STAT:3510 Biostatistics, and two other courses in the major.

Before the seventh semester begins: BIOL:2512 Fundamental Genetics; PHYS:1511 College Physics I and PHYS:1512 College Physics II, or equivalents; six or seven more courses in the major; and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two or three more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Hours	**16**
	Total Hours	**120-130**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in chemistry courses requires completion of a placement exam.

c Enrollment in math courses requires completion of a placement exam.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate

Programs Office with questions concerning the World Languages requirement.

f See General Catalog for list of approved courses. Students who took BMB:3120 must take BMB:3130.

g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

h Students who take BMB:3120 also must take BMB:3130 as one of their track courses.

i At least one elective in the major must be numbered 3000 or above.

j See General Catalog for list of approved options; some may require more than one semester.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Two of the three courses need to be taken for this track: BIOL:3172, BIOL:3314, or BIOL:3713. BIOL:3314 is typically only offered during spring semesters.

h Students who take BMB:3120 also must take BMB:3130 as one of their track courses.

i See General Catalog for list of approved courses. Students who took BMB:3120 must take BMB:3130.

j At least one elective must be numbered 3000 or above.

k See General Catalog for list of approved options; some may require more than one semester.

l Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Hours	**16**
Total Hours	**121-129**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b After completing BIOL:1412 Diversity of Form & Function, students are eligible to enroll in Lakeside Laboratory summer field courses. Registration for these courses is in winter of each year.

c Enrollment in chemistry courses requires completion of a placement exam.

d Enrollment in math courses requires completion of a placement exam.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g Students who take BMB:3120 also must take BMB:3130 as one of their track courses.

h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

i See General Catalog for list of approved courses. Students who took BMB:3120 must take BMB:3130.

j See General Catalog for list of approved options; some may require more than one semester.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Biology, Minor

Requirements

The undergraduate minor in biology requires a minimum of 15 s.h. in biology coursework, including 12 s.h. in courses numbered 2000 or above offered by the Department of Biology at the University of Iowa or in approved Iowa Lakeside Laboratory [p. 2196] courses. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students may not use transfer coursework to count as courses numbered 2000 or above.

Either BIOL:2512 Fundamental Genetics or BIOL:2211 Genes, Genomes, and the Human Condition will count toward the minor, but not both. BIOL:2120 Good Genes Gone Bad: Genetic Disorders of Notable Celebrities, BIOL:3999 Independent Research in Neuroscience, BIOL:4995 Honors Research in Neuroscience, and BIOL:4999 Honors Research in Biology do not count toward the minor.

Students may count BIOL:3994 Introduction to Research (maximum of 3 s.h.) and BIOL:4897 Teaching Internship in Biology (maximum of 3 s.h.) only once toward the minor.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Biology, Minor

Course	Title	Hours
First Year		
Fall		
CHEM:1110	Principles of Chemistry I [a, b]	4
	Hours	**4**
Spring		
CHEM:1120	Principles of Chemistry II [a]	4
	Hours	**4**
Second Year		
Fall		
BIOL:1411	Foundations of Biology [c]	4
	Hours	**4**
Spring		
BIOL:1412	Diversity of Form and Function [c]	4
	Hours	**4**
Third Year		
Fall		
Minor: biology course (prefix BIOL) [d]		3
	Hours	**3**
Spring		
Minor: biology course (prefix BIOL) [d]		3
	Hours	**3**
Fourth Year		
Fall		
Minor: biology course (prefix BIOL) [d]		3
	Hours	**3**
Spring		
Minor: biology course (prefix BIOL) [d]		3
	Hours	**3**
	Total Hours	**28**

a Chemistry does not count toward the biology minor, but CHEM:1110 is a prerequisite to the first biology course and is required for most other biology courses. CHEM:1120 will be required for some but not all upper-level biology courses.

b Enrollment in chemistry courses requires completion of a placement exam.

c BIOL:1411 and BIOL:1412 are both required before taking upper-level biology courses.

d Any biology course numbered 2000 and above except BIOL:2120, BIOL:3999, BIOL:4995 and BIOL:4999. Either BIOL:2512 or BIOL:2211 will count toward the minor, but not both. Students may count BIOL:3994 (maximum of 3 s.h.) and BIOL:4897 (maximum of 3 s.h.) only once toward the minor. Consult an advisor for approved Lakeside laboratory courses toward the minor.

Integrated Biology, MS

The Department of Biology's graduate programs in integrated biology (iBio) emphasize original research and developing the skills essential for publishing and communicating research findings to the scientific community. Research programs in the department cover many areas of the biological sciences: cell biology, developmental biology, ecology, evolution, genetics, and neurobiology. Graduate study in the department provides students with a broad understanding of these basic areas.

Newly admitted graduate students choose a faculty research advisor and together they discuss the student's educational background to formulate a first-semester study plan before registration. The programs allow each student to tailor coursework to their own research interests. Students may be advised to take specific coursework in order to enhance their background in certain areas.

During the first year, students whose preparation in chemistry, genetics, mathematics, or physics is insufficient may need to remedy deficiencies by taking appropriate coursework.

Entering students typically will have taken the following courses: organic chemistry, biochemistry, calculus or physics, and 20 s.h. of coursework in biology including a fundamental genetics course.

Students with bachelor's degrees outside the biological sciences may request modification of certain area requirements. The Graduate Affairs Committee decides whether portions of the requirements may be waived.

Learning Outcomes

Graduates will:

- master the skill of reading, understanding, and summarizing primary literature across a variety of biology subdisciplines, demonstrating effective scholarly communication in the process;
- explain in writing the experimental rationale, articulate the central hypothesis, and outline the major investigative steps that will be undertaken in a student's primary area of research;
- orally communicate established scientific concepts as well as ongoing research hypotheses, experimental design, and results to a wide array of audiences using established scientific communication norms;
- master in-depth pedagogical concepts through advanced lecture courses and engage in a vertically integrated critical analysis of a single topic over many levels of basic biology;
- learn and implement field-specific experimental processes, techniques, and data analyses in a responsible manner consistent with current bioethical protocols; and
- establish networking connections within the scientific profession, from peers to established, independent researchers.

Requirements

The Master of Science in integrated biology requires 30 s.h. of graduate credit with thesis or 34 s.h. of graduate credit without thesis. Students completing the MS with thesis must maintain a graduate college program grade-point average of at least 3.00. Entering students are typically admitted only to the thesis program; however, students who decide not to continue their studies may opt for the nonthesis program.

The MS in integrated biology requires the following coursework.

Requirements	Hours
Concepts, Models, and Systems Seminars	6
Core Courses	7
Data Informatics and Advanced Lectures	12-15
Electives	2-9

Concepts, Models, and Systems Seminars

Students take BIOL:6299 Concepts, Models, and Systems in Biology (COSMOS) Seminar II on an A–F graded basis. They may substitute another 2 s.h. seminar for BIOL:6299 Concepts, Models, and Systems in Biology (COSMOS) Seminar II with approval of the director of graduate studies.

Course #	Title	Hours
All of these (6 s.h.):		
BIOL:6298	Concepts, Models, and Systems in Biology (COSMOS) Seminar I (taken two fall semesters for 1 s.h. each)	2
BIOL:6299	Concepts, Models, and Systems in Biology (COSMOS) Seminar II (taken two spring semesters for 2 s.h. each)	4

Students enrolled longer than the typical two years to complete the degree apply additional enrollments of these courses toward electives. Should a student complete the degree in less than two years, another elective course would be substituted to reach the overall credit hours for the degree.

Core Courses

Students must earn a B-minus or above in both BIOL:5312 Critical Analysis of Biological Research: Concepts, Methods, and Interpretation and BIOL:5512 Readings in Genetics; students who earn a lower grade in either will be required to retake the course. A grade lower than B-minus in two attempts of either course will result in dismissal from the program.

Students must take BIOL:6188 Seminar: Writing in Natural Sciences on an A–F graded basis.

Students must take BIOL:7270 Principles of Scholarly Integrity every four years. Additional enrollments may be applied to elective credits.

Course #	Title	Hours
All of these (7 s.h.):		
BIOL:5312	Critical Analysis of Biological Research: Concepts, Methods, and Interpretation (taken in the first year, fall semester)	2
BIOL:5512	Readings in Genetics (taken in the second year, fall semester)	2
BIOL:6188	Seminar: Writing in Natural Sciences	2

BIOL:7270/ PSY:7270	Principles of Scholarly Integrity	1

Data Informatics and Advanced Lectures

Students must take one data informatics course and two advanced lecture courses. Students take a fourth course in either category.

Data Informatics Courses

Course #	Title	Hours
At least one of these:		
BIOL:3212/ IGPI:3212	Bioinformatics for Beginners	3
BIOL:4213/ GENE:4213/ IGPI:4213	Bioinformatics	4
BIOL:4386	Introduction to Scientific Computing for Biologists	3
BIOS:4120	Introduction to Biostatistics	3
BIOS:5710/ IGPI:5710	Biostatistical Methods I	4
BIOS:5720/ IGPI:5720	Biostatistical Methods II	4
BIOS:5730/ IGPI:5730	Biostatistical Methods in Categorical Data	3
BIOS:6810	Bayesian Methods and Design	3
BMB:4310/ BME:4310	Computational Biochemistry	3
BME:5335	Computational Bioinformatics	3
ISE:4172	Big Data Analytics	3
IGPI:4200/ STAT:4200	Statistical Methods and Computing	3
IGPI:5110/CS:5110	Introduction to Informatics	3

Advanced Lecture Courses

Students must complete BIOL:5412 Fundamental Genetics: Graduate Lecture unless they completed an equivalent course during their undergraduate studies, in which case they select an additional course from this list.

Course #	Title	Hours
This course:		
BIOL:5412	Fundamental Genetics: Graduate Lecture	3
At least one of these:		
BIOL:3212/ IGPI:3212	Bioinformatics for Beginners	3
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3244	Animal Behavior	3
BIOL:3245	Animal Behavior Laboratory	4
BIOL:3314/ IGPI:3314	Genomics	3
BIOL:3343	Animal Physiology	3
BIOL:3363	Plant Developmental Biology	3
BIOL:3713	Molecular Genetics	4
BIOL:4333	Genes and Development	3
BIOL:4373/ IGPI:4373	Molecular Evolution: Genes, Genomes, and Organisms	3
BIOL:4386	Introduction to Scientific Computing for Biologists	3
BIOL:5172	Evolution - Graduate Lecture	3
BIOL:5472	Foundations of Evolutionary Theory	3
BIOL:5653/ NSCI:5653/ PSY:5203	Fundamental Neurobiology I	3
BIOL:5654/ NSCI:5654/ PSY:5205	Fundamental Neurobiology II	3
BMED:5207	Principles of Molecular and Cellular Biology	3
EPID:4400	Epidemiology I: Principles	3
FRRB:7001/ CBIO:7001/ PATH:7001	Molecular and Cellular Biology of Cancer	3
GENE:7191	Human Molecular Genetics	3
IMMU:6247/ MICR:6247	Graduate Immunology and Human Disease	4
PATH:5270/ IGPI:5270/ MMED:5270	Pathogenesis of Major Human Diseases	3

Alternative Advanced Lecture Courses

Students may substitute one advanced lecture course with three of the following 1 s.h. courses; they may substitute two advanced lecture courses with six of the following courses.

Course #	Title	Hours
ACB:5224	Graduate Seminar in Cell and Developmental Biology	1
ACB:6200/ GENE:6200	Current Topics in Genetics	1
ACB:6227/ MMED:6227/ MPB:6227	Cell Fate Decisions	1
ACB:6239	Critical Thinking in Cell Biology	1
ACB:6249	Critical Thinking in Cellular Physiology	1
BMB:5244/ PHAR:5542	Molecular Recognition	1
BMB:5875/ CBE:5875/ CEE:5875/ CHEM:5875/ MICR:5875/ PHAR:5875	Perspectives in Biotechnology	1
BMB:7254	Metabolism I	1
BMB:7255	Metabolism II	1
BMB:7256	Molecular Biology	1
PCOL:5204	Basic Biostatistics and Experimental Design	1

Electives

Elective courses must bring the total credit for the degree to a minimum of 30 s.h. for students completing a thesis or a minimum of 34 s.h. for students who are not completing a thesis. The remaining coursework is tailored to a student's background and career goals and is selected in consultation

with the student's advisory committee. Research may be counted toward elective credits; see the following section titled "Research."

Elective courses may include additional courses from the preceding data informatics or advanced lecture categories; biology coursework (prefix BIOL) numbered 3000 or above, excluding BIOL:3172, BIOL:3245, BIOL:3626, BIOL:3655, BIOL:3656, BIOL:3676, BIOL:3716, BIOL:3736, and BIOL:4314; biostatistics coursework (prefix BIOS) numbered 3000 or above; or courses from the following list. Additional courses not listed here may be considered for approval by the student's advisor.

Students may count BIOL:5110 Practicum: College Teaching for Biology Teaching Assistants a maximum of twice toward this elective requirement.

Course #	Title	Hours
BAIS:6480/ IGPI:6480	Knowledge Discovery	3
CS:3010	Software Engineering Fundamentals in Java	3
CS:3210	Programming Languages and Tools	arr.
CS:3980	Topics in Computer Science I	3
CS:4400	Database Systems	3
CS:4500	Research Methods in Human-Computer Interaction	3
CS:4510	Human-Computer Interaction for Computer Science	3
CS:5110/IGPI:5110	Introduction to Informatics	3
CS:5980	Topics in Computer Science III	arr.
EALL:7475	ePortfolio in College Teaching	3
GRAD:7400	Practicum in College Teaching	arr.

PSQF:6205	Design of Instruction	3
PSQF:6211	Universal Design and Accessibility for Online Instruction	3
PSQF:6214	Design of Learning Environments: Theory, Practice, and Method	3
PSQF:6215	Online Instruction: Design and Facilitation	3
PSQF:6216	Tools and Utilities for Online Teaching	3
PSQF:6217/ GRAD:6217	Seminar in College Teaching	1-3
RHET:5352	Seminar: Topics in Teaching and Professional Development	3
RHET:7940	Public Speaking for Academics	3
SEES:4580/ IGPI:4581	Introduction to Geographic Databases	3
STAT:4540/ BAIS:4540/ DATA:4540/ IGPI:4540	Statistical Learning	3

Research

Students completing a thesis must first have the thesis accepted by the student's supervisor and advisory committee. Next, the student must pass an oral examination based on the thesis research and related subjects. Students completing a thesis are permitted, but not required, to apply a maximum of 5 s.h. of BIOL:6199 Research: Biology toward elective requirements.

Students not completing a thesis are instead required to write a library research report. These students are permitted, but not required, to apply a combined maximum of 4 s.h. of BIOL:6199 Research: Biology and BIOL:6899 Independent Study in Biology toward elective requirements.

Admission

Individuals who wish to pursue graduate study in integrated biology may apply to the Master of Science with thesis program. The MS without thesis is an exit program and does not admit entering graduate students.

Application materials for the graduate program must be uploaded to the university's Admissions website. These are reviewed by the Department of Biology Graduate Recruitment and Admissions Committee. For detailed instructions, visit Graduate Admissions Process on the integrated biology graduate program website.

Applicants must hold a valid BA or BS from an accredited institution. They must supply official transcripts from each undergraduate and graduate institution they have attended. The Graduate Record Examination (GRE) General Test is not required for admission, but if students wish to have their results considered they must include their verbal, quantitative, and analytical writing scores.

Successful applicants for graduate admission typically have a grade-point average of at least 3.00 on a 4.00 scale. The admissions committee also considers letters of recommendation, a personal statement, and other appropriate criteria, especially prior research experience.

Although most applicants will have completed undergraduate programs in biology, the department also considers applicants with backgrounds in related sciences, provided they have taken the required coursework.

Students applying for admission to the MS with thesis program should have a bachelor's degree in one of the biological sciences. Students with bachelor's degrees in other areas may need to register as nondegree students and complete the equivalent of the department's bachelor's degree program prior to consideration for admission. Nondegree students must complete chemistry, physics, and calculus requirements in addition to the biology courses listed in the undergraduate program. Nondegree students should consult the department's graduate program administrator before applying for admission.

Applications are reviewed on a rolling basis during the spring semester; visit the iBio Graduate Program website for updated deadline information.

Applicants must meet the minimum admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

The graduate program in integrated biology prepares students for careers in academic research, science education, industry, government, and a variety of other careers in which their scientific expertise can be used.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students who take coursework to make up for undergraduate deficiencies (e.g., physics, biochemistry, or fundamental genetics) may not count that coursework towards the degree requirements.
b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
c Students must earn a B-minus or above in both BIOL:5312 and BIOL:5512; students who earn a lower grade in either will be required to retake the course.
d Students who completed an equivalent course during their undergraduate studies may select another advanced lecture course; see the General Catalog for list of approved courses.
e Students may substitute one advanced lecture course with three 1 s.h. alternative advanced lecture courses; six of the 1 s.h. courses may be substituted for the two advanced lecture courses. See the General Catalog for list of approved courses.
f See the General Catalog for list of approved courses.
g Students are permitted to apply a maximum of 5 s.h. of BIOL:6199 toward elective requirements.
h Taken two fall semesters for 1 s.h. each.
i Students must take BIOL:6299 on an A-F graded basis. They may substitute another 2 s.h. seminar with approval of the director of graduate studies.
j Taken two spring semesters for 2 s.h. each.
k Students must take BIOL:6188 on an A-F graded basis.
l Thesis defense.

Integrated Biology, PhD

The Department of Biology's graduate programs in integrated biology (iBio) emphasize original research and developing the skills essential for publishing and communicating research findings to the scientific community. Research programs in the department cover many areas of the biological sciences: cell biology, developmental biology, ecology, evolution, genetics, and neurobiology. Graduate study in the department provides students with a broad understanding of these basic areas.

Newly admitted graduate students are assigned a temporary advisor and together they discuss the student's educational background to formulate a first-semester study plan before registration. The programs allow each student to tailor coursework to their own research interests. Students may be advised to take specific coursework in order to enhance their background in certain areas.

During the first year, students whose preparation in chemistry, genetics, mathematics, or physics is insufficient may need to remedy deficiencies by taking appropriate coursework.

Entering students typically will have taken the following courses: two semesters of organic chemistry or one semester of organic chemistry and one semester of biochemistry; one semester of calculus; two semesters of college physics; and 20 s.h. of coursework in biology, including genetics.

Students with bachelor's degrees outside the biological sciences may request modification of certain area requirements. The Graduate Affairs Committee decides whether portions of the requirements may be waived.

Learning Outcomes

Graduates will:

- master the skill of reading, understanding, and summarizing primary literature across a variety of biology subdisciplines, demonstrating effective scholarly communication in the process;
- explain in writing the experimental rationale, articulate the central hypothesis, and outline the major investigative steps that will be undertaken in a student's primary area of research;
- orally communicate established scientific concepts as well as ongoing research hypotheses, experimental design, and results to a wide array of audiences using established scientific communication norms;
- master in-depth pedagogical concepts through advanced lecture courses and engage in a vertically integrated critical analysis of a single topic over many levels of basic biology;
- learn and implement field-specific experimental processes, techniques, and data analyses in a responsible manner consistent with current bioethical protocols;
- establish networking connections within the scientific profession, from peers to established, independent researchers; and
- become a research subproject leader (evidenced by publication/meeting presentation/grant submittal) within the context of a research group.

Requirements

The Doctor of Philosophy in integrated biology requires a minimum of 72 s.h. of graduate credit. Students must maintain a graduate college program grade-point average of at least 3.00.

New PhD students typically go through three laboratory rotations with different faculty during their first semester (August–December). Students with existing mentors in the Department of Biology may also seek to directly affiliate with that laboratory. Students consult with their temporary advisor and prospective faculty research sponsors before identifying their preferences for research rotations. Based on their rotations, they choose a laboratory affiliation for their thesis late in the first semester.

The PhD in integrated biology requires the following coursework.

Requirements	Hours
Concepts, Models, and Systems Seminars	11
Core Courses	7
Data Informatics and Advanced Lectures	12-15
Research	6
Electives	33-36
Additional Requirements	

Concepts, Models, and Systems Seminars

Students must take BIOL:6299 Concepts, Models, and Systems in Biology (COSMOS) Seminar II on an A–F graded basis. They may substitute another 2 s.h. seminar for BIOL:6299 with approval of the director of graduate studies.

Course #	Title	Hours
All of these (11 s.h.):		
BIOL:6298	Concepts, Models, and Systems in Biology (COSMOS) Seminar I (taken five fall semesters for 1 s.h. each)	5
BIOL:6299	Concepts, Models, and Systems in Biology (COSMOS) Seminar II (taken three spring semesters for 2 s.h. each)	6

Students enrolled longer than the typical five years to complete the degree apply additional enrollments of these courses toward electives. Should a student complete the degree in less than five years, another elective course would be substituted to reach the overall credit hours for the degree.

Core Courses

Students must earn a B-minus or above in both BIOL:5312 Critical Analysis of Biological Research: Concepts, Methods, and Interpretation and BIOL:5512 Readings in Genetics; students who earn a lower grade in either will be required to retake the course. A grade lower than B-minus in two attempts of either course will result in dismissal from the program.

Students must take BIOL:6188 Seminar: Writing in Natural Sciences on an A–F graded basis.

Students must take BIOL:7270 Principles of Scholarly Integrity every four years. Additional enrollments may apply to elective credits.

Course #	Title	Hours
All of these (7 s.h.):		
BIOL:5312	Critical Analysis of Biological Research: Concepts, Methods, and Interpretation	2
BIOL:5512	Readings in Genetics (taken in the second year, fall semester)	2
BIOL:6188	Seminar: Writing in Natural Sciences	2
BIOL:7270/ PSY:7270	Principles of Scholarly Integrity	1

Data Informatics and Advanced Lectures

Students must take one data informatics course and two advanced lecture courses. Students take a fourth class in either category.

Data Informatics Courses

Course #	Title	Hours
At least one of these:		
BIOL:3212/ IGPI:3212	Bioinformatics for Beginners	3
BIOL:4213/ GENE:4213/ IGPI:4213	Bioinformatics	4
BIOL:4386	Introduction to Scientific Computing for Biologists	3
BIOS:4120	Introduction to Biostatistics	3
BIOS:5710/ IGPI:5710	Biostatistical Methods I	4
BIOS:5720/ IGPI:5720	Biostatistical Methods II	4
BIOS:5730/ IGPI:5730	Biostatistical Methods in Categorical Data	3
BIOS:6810	Bayesian Methods and Design	3
BMB:4310/ BME:4310	Computational Biochemistry	3
BME:5335	Computational Bioinformatics	3
ISE:4172	Big Data Analytics	3
IGPI:4200/ STAT:4200	Statistical Methods and Computing	3
IGPI:5110/CS:5110	Introduction to Informatics	3

Advanced Lecture Courses

Students must complete BIOL:5412 Fundamental Genetics: Graduate Lecture unless they completed an equivalent course during their undergraduate studies, in which case they select an additional course from this list.

Course #	Title	Hours
This course:		
BIOL:5412	Fundamental Genetics: Graduate Lecture	3
At least one of these:		
BIOL:3212/ IGPI:3212	Bioinformatics for Beginners	3
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3244	Animal Behavior	3
BIOL:3245	Animal Behavior Laboratory	4
BIOL:3314/ IGPI:3314	Genomics	3
BIOL:3343	Animal Physiology	3
BIOL:3363	Plant Developmental Biology	3
BIOL:3713	Molecular Genetics	4
BIOL:4333	Genes and Development	3
BIOL:4373/ IGPI:4373	Molecular Evolution: Genes, Genomes, and Organisms	3
BIOL:4386	Introduction to Scientific Computing for Biologists	3
BIOL:5172	Evolution - Graduate Lecture	3
BIOL:5472	Foundations of Evolutionary Theory	3
BIOL:5653/ NSCI:5653/ PSY:5203	Fundamental Neurobiology I	3
BIOL:5654/ NSCI:5654/ PSY:5205	Fundamental Neurobiology II	3
BMED:5207	Principles of Molecular and Cellular Biology	3
EPID:4400	Epidemiology I: Principles	3
FRRB:7001/ CBIO:7001/ PATH:7001	Molecular and Cellular Biology of Cancer	3
GENE:7191	Human Molecular Genetics	3
IMMU:6247/ MICR:6247	Graduate Immunology and Human Disease	4
PATH:5270/ IGPI:5270/ MMED:5270	Pathogenesis of Major Human Diseases	3

Alternative Advanced Lecture Courses

Students may substitute one advanced lecture course with three of the following 1 s.h. courses; they may substitute two advanced lecture courses with six of the following courses.

Course #	Title	Hours
ACB:5224	Graduate Seminar in Cell and Developmental Biology	1
ACB:6200/ GENE:6200	Current Topics in Genetics	1
ACB:6227/ MMED:6227/ MPB:6227	Cell Fate Decisions	1
ACB:6239	Critical Thinking in Cell Biology	1
ACB:6249	Critical Thinking in Cellular Physiology	1
BMB:5244/ PHAR:5542	Molecular Recognition	1
BMB:5875/ CBE:5875/ CEE:5875/ CHEM:5875/ MICR:5875/ PHAR:5875	Perspectives in Biotechnology	1

BMB:7254	Metabolism I	1
BMB:7255	Metabolism II	1
BMB:7256	Molecular Biology	1
PCOL:5204	Basic Biostatistics and Experimental Design	1

Research

Students are required to complete a minimum of 6 s.h. in BIOL:6199 Research: Biology. Additional enrollments beyond the 6 s.h. minimum can be applied toward the electives requirement.

Electives

Elective courses must bring the total credit for the degree to a minimum of 72 s.h. The remaining coursework is tailored to a student's background and career goals and is selected in consultation with the student's advisory committee; research may be counted toward elective credits as described in the preceding section titled "Research."

Elective courses may include additional courses from the preceding data informatics and advanced lecture categories; biology coursework (prefix BIOL) numbered 3000 or above, excluding BIOL:3172, BIOL:3245, BIOL:3626, BIOL:3655, BIOL:3656, BIOL:3676, BIOL:3716, BIOL:3736, BIOL:4314, and BIOL:6899; biostatistics coursework (prefix BIOS) numbered 3000 or above; or courses from the following list. Additional courses not listed here may be considered for approval by the student’s advisor.

Students may count BIOL:5110 Practicum: College Teaching for Biology Teaching Assistants a maximum of twice toward this elective requirement.

Course #	Title	Hours
BAIS:6480/ IGPI:6480	Knowledge Discovery	3
CS:3010	Software Engineering Fundamentals in Java	3
CS:3210	Programming Languages and Tools	arr.
CS:3980	Topics in Computer Science I	3
CS:4400	Database Systems	3
CS:4500	Research Methods in Human-Computer Interaction	3
CS:4510	Human-Computer Interaction for Computer Science	3
CS:5110/IGPI:5110	Introduction to Informatics	3
CS:5980	Topics in Computer Science III	arr.
EALL:7475	ePortfolio in College Teaching	3
GRAD:7400	Practicum in College Teaching	arr.
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
PSQF:6203	Tools and External Representations in Individual and Social Learning	3
PSQF:6205	Design of Instruction	3
PSQF:6211	Universal Design and Accessibility for Online Instruction	3
PSQF:6214	Design of Learning Environments: Theory, Practice, and Method	3
PSQF:6215	Online Instruction: Design and Facilitation	3
PSQF:6216	Tools and Utilities for Online Teaching	3
PSQF:6217/ GRAD:6217	Seminar in College Teaching	1-3
RHET:5352	Seminar: Topics in Teaching and Professional Development	3
RHET:7940	Public Speaking for Academics	3
SEES:4580/ IGPI:4581	Introduction to Geographic Databases	3
STAT:4540/ BAIS:4540/ DATA:4540/ IGPI:4540	Statistical Learning	3

Additional PhD Requirements

The comprehensive examination is taken in the summer of the second year in residence. Students prepare a National Institutes of Health/National Science Foundation-style grant application on their planned thesis work and orally defend this work in front of a review committee. They must demonstrate knowledge of biology fundamentals and the analytic and synthetic skills necessary to become creative, independent scientists. Once they complete the coursework and proficiency requirements and pass the comprehensive examination, students may be admitted to full candidacy for the PhD.

Students must serve as teaching assistants for at least two semesters in order to develop and demonstrate teaching proficiency. The first teaching semester takes place during the spring of a student's first year and is preceded by extensive departmental training in effective teaching skills (BIOL:5110).

The department also offers career seminars that explore types of employment outside of academic research, including teaching careers and other topics.

The program culminates in students' preparation of a dissertation based on original independent research. Students must pass a final examination that covers the thesis and its specialized field before the PhD is awarded.

Combined Programs

PhD/MD

Students may work toward the Doctor of Medicine degree and a PhD in integrated biology in a combined degree program offered by the Carver College of Medicine and the Graduate College. Applicants must be admitted to both programs before they may be admitted to the combined degree program. See the Medical Scientist Training Program [p. 1901] (Carver College of Medicine) in the catalog.

Admission

Application materials for the graduate program must be uploaded to the university's Admissions website. These are

reviewed by the Department of Biology Graduate Recruitment and Admissions Committee. For detailed instructions, visit Graduate Admissions Process on the integrated biology graduate program website.

Applicants must hold a valid BA or BS from an accredited institution. They should supply official transcripts from each undergraduate and graduate institution they have attended. The Graduate Record Examination (GRE) General Test is not required for admission, but if students wish to have their results considered they must include their verbal, quantitative, and analytical writing scores.

Successful applicants for graduate admission typically have a grade-point average of at least 3.00 on a 4.00 scale. The admissions committee also considers letters of recommendation, a personal statement, and other appropriate criteria, especially prior research experience.

Although most applicants will have completed undergraduate programs in biology, the department also considers applicants with backgrounds in related sciences, provided they have taken the required coursework. Students with bachelor's degrees in other areas may need to register as nondegree students and complete the equivalent of the department's bachelor's degree program prior to consideration for admission. Nondegree students may be asked to complete chemistry, physics, and calculus in addition to the biology courses listed in the undergraduate program. Nondegree students should consult the department's graduate program administrator before applying.

Review of applications typically begins by Dec. 1; visit the iBio Graduate Program website for updated application information and instructions. Applications are reviewed on a rolling basis until available slots for the interview weekend (typically held in late February) are filled.

Applicants must meet the minimum admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

The graduate program in integrated biology prepares students for careers in academic research, science education, industry, government, and a variety of other careers in which their scientific expertise can be used.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Biomedical Sciences

Chair, Department of Biology

- Tina L. Tootle

Director, Biomedical Sciences

- Jan S. Fassler (Biology)

Undergraduate major: biomedical sciences (BS)

Website: https://biology.uiowa.edu/

Biomedical sciences is an interdisciplinary major designed for students who plan to attend medical school or conduct biomedical research in graduate school and beyond. The curriculum stretches broadly across scientific and mathematical fields. The major is selective, with a limited number of students admitted, and the curriculum is challenging, requiring dedication by its students, who are mentored by faculty members from the participating disciplines.

The departments of Biology and Chemistry (College of Liberal Arts and Sciences), Biochemistry and Molecular Biology, and Microbiology and Immunology (Carver College of Medicine) collaborate to offer the major in biomedical sciences; the major is administered by the Department of Biology [p. 141].

Programs

Undergraduate Program of Study

Major

- Major in Biomedical Sciences (Bachelor of Science) [p. 174]

Biomedical Sciences, BS

Learning Outcomes

Graduates of the biomedical sciences program will achieve the following.

Foundational Knowledge

Comprehension of fundamental principles and concepts in the natural and social sciences.

Graduates will be able to:

- integrate across the natural and social sciences;
- apply foundational knowledge and conceptual frameworks to biomedicine;
- recognize the consequences of evolutionary history in the understanding of human biology and disease; and
- evaluate new information reported in the news and/or in scientific publications against prior knowledge.

New Discovery

Scientific reasoning and experimental process in biomedicine.

Graduates will be able to:

- perform basic laboratory procedures, including correct operation of devices;
- formulate questions about natural processes based on current knowledge;
- construct a hypothesis to guide experimental inquiry;
- design experiments, identifying variables of analysis and controls for error;
- consider appropriate strategies or technologies applicable to investigate a novel problem;
- collect, organize, summarize, and interpret data;
- analyze and evaluate experimental results to inform a hypothesis; and
- distinguish between necessary and sufficient causes.

Quantitative Skills

Mathematical reasoning and basic numeracy applied to biomedicine.

Graduates will be able to:

- perform essential mathematical operations such as unit conversions, dilutions, and molarity calculations;
- apply mathematical concepts and rules of probability to make predictions;
- select and apply appropriate statistical tests to determine the significance of experimental results; and
- use mathematical and/or statistical expressions to evaluate hypotheses with experimental data.

Information Literacy

Acquisition, analysis, and summary of published biomedical information.

Graduates will be able to:

- locate and evaluate the relevance and credibility of information from electronic and print sources;
- navigate and obtain relevant information from public databases;
- recognize and appropriately cite sources of information;
- identify questions addressed and methodologies used; and
- assess findings reported and conclusions drawn in published scientific articles.

Communication Proficiency

Written and oral presentation of biomedical information.

Graduates will be able to:

- write concise scientific reports based on findings or literature searches;
- construct visual presentations of results or findings from the scientific literature; and
- present findings or results from the literature orally with appropriate media.

Requirements

The Bachelor of Science with a major in biomedical sciences requires a minimum of 120 s.h., including at least 79–81 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The interdisciplinary major provides an excellent foundation for medical training and research and/or practice in the chemical, genetic, cellular, and physiological bases of human disease. The curriculum includes required and elective coursework in biochemistry and molecular biology, biology, chemistry, health, sport, and human physiology, mathematics, microbiology and immunology, physics, psychology, sociology, and statistics. Students who wish to apply transfer credit toward the major should consult their departmental advisor.

Students who earn a major in biomedical sciences may not earn a major in biology (BA or BS).

The BS with a major in biomedical sciences requires the following coursework.

Requirements	Hours
Required Courses	66-67
Elective Courses	13-14

Required Courses

Students complete the following coursework (66–67 s.h.).

Chemistry

Course #	Title	Hours
All of these:		
BMB:3120	Biochemistry and Molecular Biology I	3
BMB:3130	Biochemistry and Molecular Biology II	3
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
CHEM:2210	Organic Chemistry I	3
CHEM:2220	Organic Chemistry II	3
CHEM:2410	Organic Chemistry Laboratory	3

Life Sciences

Course #	Title	Hours
All of these:		
BIOL:1411	Foundations of Biology	4

BIOL:2512	Fundamental Genetics	4
BIOL:3373	Human Population Genetics and Variation	3
HHP:2400	Fundamentals of Human Physiology	3
MICR:2157 & MICR:2158	General Microbiology and General Microbiology Laboratory (both courses should be taken in the same semester)	5

Mathematics

Course #	Title	Hours
One of these:		
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Calculus I	4
MATH:1850	Calculus I	4

Statistics

Course #	Title	Hours
This course:		
STAT:3510	Biostatistics	3

Physics

Course #	Title	Hours
One of these sequences:		
PHYS:1511 & PHYS:1512	College Physics I and College Physics II	8
PHYS:1611 & PHYS:1612	Introductory Physics I and Introductory Physics II	8

Social Sciences

Course #	Title	Hours
Both of these:		
PSY:1001	Elementary Psychology	3
SOC:1010	Introduction to Sociology	3-4
One of these:		
CPH:1800	Social and Psychological Determinants of Health: Changing Behavior, Improving Health	3
PSY:2130	Advanced Psychology for Pre-Medical Track	3
PSY:2930	Abnormal Psychology: Health Professions	3

Elective Courses

Students complete a total of 13–14 s.h. of elective coursework chosen from the following lists.

Lecture Courses

Course #	Title	Hours
Two of these:		
BIOL:2254	Endocrinology	3
BIOL:2723	Cell Biology	3
BIOL:2753	Introduction to Neurobiology	3
BIOL:3212	Bioinformatics for Beginners	3
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3244	Animal Behavior	3
BIOL:3314	Genomics	3
BIOL:3343	Animal Physiology	3
MICR:3147	Immunology and Human Disease	3
MICR:3159	Bacteria and Human Disease	3
MICR:3168	Viruses and Human Disease	3

Investigative Lab

Course #	Title	Hours
One of these:		
BIOL:3245	Animal Behavior Laboratory	4
BIOL:3626	Cell Biology Laboratory	4
BIOL:3656	Neurobiology Laboratory	4
BIOL:3676	Evolution Lab	4
BIOL:3716	Genetics and Biotechnology Lab	4
BIOL:3736	Developmental Biology Lab	4
MICR:3165	Genetics of Bacterial Pathogens Lab and Discussion	3

Experiential Learning

The objective of this requirement is to enrich the curriculum through efforts on a research project or other academic experience where a student pursues activities in the biomedical sciences.

Course #	Title	Hours
Choose from the following:		
BIOL:3994	Introduction to Research (taken twice for 2 s.h. each)	4
BIOL:4999	Honors Research in Biology (taken twice for 2 s.h. each)	4
An approved research course equivalent, such as HONR:4990.		4
Approved internships, paid hourly research work, or similar experiences conducted over at least two semesters		0-4

Approved internships, paid hourly research work, and similar experiences may be used to satisfy the experiential learning requirement. They may also be used to fulfill the experiential learning requirement for the University of Iowa Honors Program. Students should discuss potential activities with academic advisors and, if necessary, obtain approval from the program director for a personalized plan to satisfy the requirement. A final summary of completed and in-progress experiential learning activities, including courses taken, fellowships received, appointments, presentations, and publications, among others, is required to evaluate completion.

Honors

Honors in the Major

Students majoring in biomedical sciences are encouraged to graduate with honors in the major.

Honors students in the major may enroll in courses with honors sections offered by the Department of Biology and by other departments and programs. They also are advised to

participate in the Office of Undergraduate Research (OUR) and to apply for research scholarships.

Students who earn honors in the major must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33, as required by the College of Liberal Arts and Sciences.

To graduate with honors, students additionally must fulfill the following requirements:

- complete the requirements for a major in biomedical sciences with a GPA of at least 3.33 in all University of Iowa coursework in the major;
- complete 2 s.h. in BIOL:4898 Communicating Research;
- complete a minimum of 6 s.h. (taken over two or more semesters) in BIOL:4999 Honors Research in Biology or equivalent research credit approved by the program director;
- write a brief research proposal summarizing the background and goals of their proposed honors research;
- upon completion of their research, submit an acceptable honors thesis; and
- give an oral presentation of their research findings.

Biomedical sciences majors interested in graduating with honors in the major should contact the biology honors program advisor as early as possible, preferably during their sophomore or junior year, so that they may be matched with an appropriate lab. Contact the Department of Biology to learn more about honors in the major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the biomedical sciences major.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, BIOL:1411 Foundations of Biology, PSY:1001 Elementary Psychology, SOC:1010 Introduction to Sociology, MATH:1460 Calculus for the Biological Sciences or MATH:1550 Engineering Calculus I or MATH:1850 Calculus I, CHEM:2210 Organic Chemistry I, CHEM:2220 Organic Chemistry II, MICR:2157 General Microbiology, MICR:2158 General Microbiology Laboratory, PHYS:1511 College Physics I, PHYS:1512 College Physics II, and HHP:2400 Fundamentals of Human Physiology.

Before the seventh semester begins: BMB:3120 Biochemistry and Molecular Biology I, BMB:3130 Biochemistry and Molecular Biology II, CHEM:2410 Organic Chemistry Laboratory, BIOL:2512 Fundamental Genetics, and STAT:3510 Biostatistics.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

CHEM:1110	Principles of Chemistry I [b]	4
MATH:1460	Calculus for the Biological Sciences [c]	4
ENGL:1200 or RHET:1030	The Interpretation of Literature or Rhetoric: Writing and Communication	3 - 4
SOC:1010	Introduction to Sociology	3
CSI:1600	Success at Iowa	1
	Hours	**15-16**
Spring		
BIOL:1411	Foundations of Biology	4
CHEM:1120	Principles of Chemistry II	4
RHET:1030 or ENGL:1200	Rhetoric: Writing and Communication or The Interpretation of Literature	3 - 4
PSY:1001	Elementary Psychology	3
	Hours	**14-15**
Second Year		
Any Semester		
Shadow a professional and learn more about the field of medicine in the second or third year.		
Start the search process for a research lab in the second or third year.		
	Hours	**0**
Fall		
BIOL:2512	Fundamental Genetics	4
CHEM:2210	Organic Chemistry I	3
PHYS:1511	College Physics I	4

GE CLAS Core: World Languages First Level Proficiency or elective course [d]		4 - 5
	Hours	**15-16**
Spring		
CHEM:2220	Organic Chemistry II	3
MICR:2157	General Microbiology [e]	3
MICR:2158	General Microbiology Laboratory [e]	2
PHYS:1512	College Physics II	4
GE CLAS Core: World Languages Second Level Proficiency or elective course [d]		4 - 5
	Hours	**16-17**
Third Year		
Any Semester		
Students should start the search process for letters of recommendation in the third or fourth year.		
	Hours	**0**
Fall		
BMB:3120	Biochemistry and Molecular Biology I	3
CHEM:2410	Organic Chemistry Laboratory	3
HHP:2400	Fundamentals of Human Physiology	3
STAT:3510	Biostatistics	3
GE CLAS Core: World Languages Third Level Proficiency or elective course [d]		4 - 5
	Hours	**16-17**
Spring		
BIOL:3373	Human Population Genetics and Variation	3
BMB:3130	Biochemistry and Molecular Biology II	3
CPH:1800 or PSY:2930 or PSY:2130	Social and Psychological Determinants of Health: Changing Behavior, Improving Health or Abnormal Psychology: Health Professions or Advanced Psychology for Pre-Medical Track	3
GE CLAS Core: World Languages Fourth Level Proficiency or elective course [d]		4 - 5
Elective course [f]		3
Exam: Take MCAT in spring or summer		
	Hours	**16-17**
Summer		
Admission Application: Apply to medical school		
	Hours	**0**
Fourth Year		
Fall		
Major: elective lecture I [g]		3
Major: research experience [g]		4
GE CLAS Core: Understanding Cultural Perspectives [h]		3
GE CLAS Core: Historical Perspectives [h]		3
GE CLAS Core: International and Global Issues [h]		3
	Hours	**16**
Spring		
Major: elective lecture II [g]		3 - 4
Major: investigative lab [g]		3 - 4
GE CLAS Core: Literary, Visual, and Performing Arts [h]		3
GE CLAS Core: Values and Society [h]		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [i]		
	Hours	**12-14**
	Total Hours	**120-128**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in chemistry courses requires completion of a placement exam.

c Enrollment in math courses requires completion of a placement exam.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e MICR:2157 and MICR:2158 should be taken in the same semester.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Students complete a total of 13-14 s.h. of elective coursework from approved lists of courses; see General Catalog.

h GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Chemistry

Chair

- Renee S. Cole

Undergraduate major: chemistry (BA, BS)

Undergraduate minor: chemistry

Graduate degrees: MS in chemistry; PhD in chemistry

Graduate certificate: radiochemistry

Faculty: https://chem.uiowa.edu/people

Website: https://chem.uiowa.edu/

The Department of Chemistry is committed to providing its undergraduate students with the skills needed to comprehend and confront the scientific challenges of the new century. The department's strong and vibrant undergraduate chemistry program is an environment where students can develop and ultimately find success in their chosen career paths.

The graduate programs in chemistry train scholars to lead efforts in chemistry research and teaching. One of the primary goals is to train students to become independent scientists. The department offers coursework to provide the foundational knowledge that enhances student efforts in the laboratory.

Student Organizations

A number of organizations are open to undergraduate students for support and enrichment.

Students may join the University of Iowa undergraduate student chapter of the American Chemical Society (ACS). Chapter activities include dinner meetings with guest speakers, field trips to local industries, participation in local and national meetings of the ACS, and participation in chemistry outreach programs. Students in the ACS student chapter develop valuable leadership, organization, and speaking skills during their college experience and throughout their careers.

The department has a chapter of Alpha Chi Sigma, a coed chemistry fraternity. The Alpha Theta Chapter is open to students in chemistry, biochemistry, chemical engineering, and related fields. Alpha Chi Sigma sponsors many social and professional events throughout the year.

The department endorses the National Organization for the Professional Advancement of Black Chemists and Chemical Engineers (NOBCChE), which is committed to discovery, transmittal, and application of knowledge in science and engineering and to increasing the participation of underrepresented populations in these fields. NOBCChE sponsors diverse programs designed to foster professional development and to encourage students to pursue careers in science and technical fields.

The department also supports the activities of Women in STEM Ambassadors (WiSA), whose aim is to increase women's participation and advancement as students, faculty members, and professional staff; promote a supportive study and work environment for women; integrate women's ideas, strengths, and approaches into research, teaching, and service; and inform the public of educational and career opportunities for women in scientific and technical fields. WiSA sponsors the Student-to-Student Support in Science mentoring program, a service learning program, and the WiSA Discourse and Dining series.

Programs

Undergraduate Programs of Study

Majors

- Major in Chemistry (Bachelor of Arts) [p. 184]
- Major in Chemistry (Bachelor of Science) [p. 189]

Minor

- Minor in Chemistry [p. 193]

Graduate Programs of Study

- Master of Science in Chemistry [p. 194]
- Doctor of Philosophy in Chemistry [p. 195]
- Certificate in Radiochemistry [p. 197]

Facilities

The Department of Chemistry's main office, support facilities, and faculty offices are located in the Chemistry Building, as is laboratory and classroom space dedicated to teaching and research activities. Several faculty members have offices and laboratories in the Iowa Advanced Technology Laboratories across the street from the Chemistry Building. Extensive resources are readily accessible such as nuclear magnetic resonance (NMR), mass spectrometry, and X-ray analysis facilities, advanced computational resources, and complete machine, electronics, and glass shops. See the Department of Chemistry website for information about facilities and advanced instrumentation available for instruction and research.

The Chemistry Center serves all students who take chemistry courses as well as the department's instructors. The center offers assistance with registration, returns examinations and homework assignments, schedules alternative exams, and provides information about all lower-level chemistry courses. Information about student organizations and departmental scholarships and awards is also available at the Chemistry Center.

Courses

Chemistry Courses

Students planning to take more than one year of chemistry should take CHEM:1110 Principles of Chemistry I and CHEM:1120 Principles of Chemistry II.

Students who require only one year of chemistry with no laboratory component may take CHEM:1070 General Chemistry I and CHEM:1080 General Chemistry II.

Students who have not had high school chemistry or do not have strong math and/or chemistry preparation should consider taking CHEM:1070 General Chemistry I before CHEM:1110 Principles of Chemistry I; academic advisors and the Chemistry Diagnostic Test can help students determine which of these courses to take first.

CHEM:0500 Review of Chemistry Fundamentals 0 s.h.
Self-paced course to prepare for and improve success in CHEM:1110; students acquire an appropriate mathematics background and a sound understanding of some fundamentals of chemistry; use of ALEKS to test individual chemistry knowledge and then computerized adaptive learning software to fill gaps in knowledge.

CHEM:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CHEM:1050 Chemistry of Our World 3 s.h.
Nonmathematical exploration of selected areas of technology; basic science background, current technological applications, implications for society; for non-science majors. GE: Sustainability. GE: Natural Sciences without Lab; Sustainability.

CHEM:1060 Technology and Society Laboratory 1 s.h.
Laboratory for CHEM:1050; demonstrations, student experiments. GE: Natural Sciences Lab only.

CHEM:1070 General Chemistry I 3 s.h.
Atomic structure, chemical bonds, mole relations, stoichiometry, states of matter, acids and bases, reaction rates, electrochemistry, nuclear chemistry. GE: Natural Sciences without Lab.

CHEM:1080 General Chemistry II 3 s.h.
Organic chemistry and biochemistry. GE: Natural Sciences without Lab.

CHEM:1090 Supplemental Chemistry Lab 1 s.h.
Lab techniques, elementary synthesis, measurement, analysis, case-study lectures and experiments; safety glasses, appropriate dress, compliance with laboratory safety protocols required.

CHEM:1100 Chemistry in Industry and the Economy 3 s.h.
Atomic structure, chemical bonding, acid and bases, polymers, pharmaceutics, DNA, proteins, and basic economics. GE: Natural Sciences without Lab.

CHEM:1110 Principles of Chemistry I 4 s.h.
Chemical bonding and chemical reactions; atomic and molecular structure, chemical equations, stoichiometry, gases, liquids, thermodynamics of phase changes, solutions, equilibrium, acids, bases, pH, elementary organic chemistry; the solid state, including modern materials; lecture, discussion, laboratory. Prerequisites: ALEKS score of 55 or higher or MPT Level 3 score of 9 or higher or MATH:1005 with a minimum grade of C- or MATH:1010 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or MATH:1440 with a minimum grade of C- or MATH:1460 with a minimum grade of C- or MATH:1550 with a minimum grade of C- or MATH:1850 with a minimum grade of C-. Recommendations: Chemistry Diagnostic Test score of 16. GE: Natural Sciences with Lab.

CHEM:1120 Principles of Chemistry II 4 s.h.
Continuation of CHEM:1110; colligative properties of solutions, chemical thermodynamics, electrochemistry, chemical kinetics, chemical bonding, aspects of industrial chemistry, nuclear chemistry; lecture, discussion, laboratory. Prerequisites: CHEM:1110 with a minimum grade of C-. GE: Natural Sciences with Lab.

CHEM:1160 Principles of Chemistry Lab 2 s.h.
Laboratory techniques. GE: Natural Sciences Lab only.

CHEM:2021 Fundamentals of Chemical Measurements 3 s.h.
Introduction to experimental and data analysis techniques used in performing quantitative chemical measurements; topics include titrations, spectrophotometry, potentiometry, chromatography, and statistical techniques for use in data processing and interpretation; laboratory. Prerequisites: CHEM:1120 with a minimum grade of C-. Requirements: chemistry major.

CHEM:2210 Organic Chemistry I 3 s.h.
Carbon-containing compounds; structure, stereochemistry, physical properties, reactivity, reaction mechanisms, synthesis; emphasis on alkanes, alkenes, alkynes, ethers, alcohols, and alkyl halides. Prerequisites: CHEM:1120 with a minimum grade of C-.

CHEM:2220 Organic Chemistry II 3 s.h.
Continuation of CHEM:2210; use of spectroscopic techniques to determine chemical structures; chemistry of carbonyl compounds, amines, aromatics, amino acids, carbohydrates, nucleosides. Prerequisites: CHEM:2210 with a minimum grade of C- or CHEM:2230 with a minimum grade of C-.

CHEM:2230 Organic Chemistry I for Majors 3 s.h.
Carbon-containing compounds; structure, stereochemistry, physical properties, reactivity, reaction mechanisms, synthesis; emphasis on alkanes, alkenes, alkynes, alcohols, alkyl halides, aromatics. Prerequisites: CHEM:1120 with a minimum grade of C-. Recommendations: chemistry, biochemistry, or chemical engineering major.

CHEM:2240 Organic Chemistry II for Majors 3 s.h.
Continuation of CHEM:2230; use of spectroscopic techniques to determine chemical structures; chemistry of carbonyl compounds, amines, ethers, amino acids, carbohydrates, and nucleosides. Prerequisites: CHEM:2210 with a minimum grade of C- or CHEM:2230 with a minimum grade of C-. Recommendations: chemistry, biochemistry, or chemical engineering major.

CHEM:2410 Organic Chemistry Laboratory 3 s.h.
Preparation, purification, identification, analysis of chemical compounds, principally organic compounds. Prerequisites: CHEM:1120 with a minimum grade of C- and (CHEM:2210 with a minimum grade of C- or CHEM:2230 with a minimum grade of C-). Corequisites: CHEM:2220 or CHEM:2240.

CHEM:2420 Organic Chemistry Laboratory for Majors 3 s.h.
Preparation, purification, identification, analysis of chemical compounds, principally organic compounds. Prerequisites: CHEM:1120 with a minimum grade of C- and (CHEM:2210 with a minimum grade of C- or CHEM:2230 with a minimum grade of C-). Corequisites: CHEM:2220 or CHEM:2240. Recommendations: chemistry, biochemistry, or chemical engineering major.

CHEM:3110 Equilibria and Electrochemistry 3 s.h.
Modern theory and practice; emphasis on chemical equilibria (acid-base chemistry, solubility, complexation) and electroanalytical chemistry (potentiometry, voltammetry, coulometry). Prerequisites: CHEM:1120 with a minimum grade of C-.

CHEM:3120 Spectroscopy and Separations 3 s.h.
Modern theory and practice; emphasis on atomic and molecular spectroscopy, mass spectrometry, chemical separations. Prerequisites: CHEM:1120 with a minimum grade of C-.

CHEM:3250 Inorganic Chemistry 3 s.h.
Modern principles; emphasis on descriptive chemistry of the main group and transition elements, ionic and covalent chemical bonding theories, symmetry, inorganic stereochemistry. Prerequisites: CHEM:2210 with a minimum grade of C- or CHEM:2230 with a minimum grade of C-. Corequisites: CHEM:2220 or CHEM:2240.

CHEM:3430 Analytical Measurements 3 s.h.
Modern theory and practice of laboratory methods; emphasis on experimental techniques and data analysis in spectroscopy, chromatography, electrochemistry. Prerequisites: CHEM:2021 with a minimum grade of C- and (CHEM:3110 with a minimum grade of C- or CHEM:3120 with a minimum grade of C-). Recommendations: (PHYS:1511 or PHYS:1611) and (PHYS:1512 or PHYS:1612).

CHEM:3440 Physical Measurements 3 s.h.
Laboratory experience using advanced instrumental and computational methods to generate and analyze data relevant to modern physical chemistry. Prerequisites: CHEM:2021 with a minimum grade of C- and (CHEM:4431 with a minimum grade of C- or CHEM:4432 with a minimum grade of C-).

CHEM:3530 Inorganic Chemistry Laboratory 3 s.h.
Preparation and characterization of a variety of inorganic, organometallic, and coordination compounds of the main group and transition elements; emphasis on synthetic techniques, methods for characterization of inorganic species. Prerequisites: CHEM:3250 with a minimum grade of C- and (CHEM:2410 with a minimum grade of C- or CHEM:2420 with a minimum grade of C-) and CHEM:2021 with a minimum grade of C-.

CHEM:3994 Undergraduate Research 1-4 s.h.

CHEM:4270 Advanced Inorganic Chemistry 3 s.h.
Modern principles, including crystal field/ligand field/molecular orbital theory, inorganic reaction mechanisms, coordination chemistry, bioinorganic chemistry, main group and transition metal organometallic chemistry, solid-state inorganic chemistry. Prerequisites: CHEM:3250 with a minimum grade of C-.

CHEM:4372 Advanced Organic Chemistry 3 s.h.
Basic concepts from perspectives of structure, mechanism, synthesis, stereochemistry. Prerequisites: CHEM:2220 with a minimum grade of C- or CHEM:2240 with a minimum grade of C-.

CHEM:4430 Principles of Physical Chemistry 3 s.h.
Kinetics, transport properties, elementary thermodynamics, and selected topics in quantum mechanics and spectroscopy; emphasis on application of chemistry to areas of science including health and biosciences, environmental sciences, and related areas. Prerequisites: CHEM:1120 with a minimum grade of C- and (MATH:1460 with a minimum grade of C- or MATH:1550 with a minimum grade of C- or MATH:1850 with a minimum grade of C-). Recommendations: (PHYS:1511 or PHYS:1611) and (PHYS:1512 or PHYS:1612).

CHEM:4431 Chemical Thermodynamics 3 s.h.
Chemical thermodynamics and its application to chemical equilibrium, phase changes and chemical equilibria; ideal and real gases; kinetic theory; surface absorption and electrochemistry; thermodynamics. Prerequisites: CHEM:1120 with a minimum grade of C- and (MATH:1560 with a minimum grade of C- or MATH:1860 with a minimum grade of C-).

CHEM:4432 Quantum Mechanics and Chemical Kinetics 3 s.h.
Quantum mechanics and its application to atomic and molecular structure; determination of structure and bonding by various spectroscopic methods; chemical kinetics. Prerequisites: CHEM:1120 with a minimum grade of C- and (MATH:1560 with a minimum grade of C- or MATH:1860 with a minimum grade of C-). Recommendations: PHYS:1512 or PHYS:1612.

CHEM:4450 Synthesis and Measurement 3 s.h.
Laboratory investigations integrating synthesis and measurement techniques from inorganic, analytical, and physical chemistry; emphasis on modern applications of chemistry in biology, medicine, environmental science, catalysis, and materials science. Prerequisites: (CHEM:4432 with a minimum grade of C- or CHEM:4430 with a minimum grade of C- or CHEM:4431 with a minimum grade of C-) and (CHEM:2420 with a minimum grade of C- or CHEM:2410 with a minimum grade of C-) and (CHEM:3120 with a minimum grade of C- or CHEM:3110 with a minimum grade of C-) and CHEM:3250 with a minimum grade of C- and CHEM:2021 with a minimum grade of C-.

CHEM:4480 Introduction to Molecular Modeling 3 s.h.
Theory and application of *ab initio* quantum mechanics, semiempirical molecular orbital theory, and molecular mechanics force fields to chemical research problems; underlying theory of these methods (with emphasis on *ab initio* theory) and their practical application to chemical problems; computational chemistry projects using modeling software. Prerequisites: CHEM:2220 with a minimum grade of C- or CHEM:2240 with a minimum grade of C-. Recommendations: CHEM:4432.

CHEM:4760 Radiochemistry: Energy, Medicine, and the Environment 3 s.h.
Fundamental theoretical concepts of radiochemistry and their application in energy, medicine, and environmental sectors. Prerequisites: CHEM:2210 with a minimum grade of C- or CHEM:2230 with a minimum grade of C-.

CHEM:4850 Upstream Biotechnology Processes 2 s.h.
Introduction to fermentation, fermenter preparation, cell growth and medium requirements, inoculation, sampling, process termination, separation of cells, fermentation case study, enzyme activity, and biocatalysis. Same as PHAR:4850.

CHEM:4873 Atmospheric and Environmental Chemistry 3 s.h.
Fundamental chemical processes of importance in the atmosphere, soil, and water, with emphasis on kinetics and photochemistry of homogeneous and heterogeneous reactions, atmospheric structure and dynamics, global geochemical cycling, chemistry-climate relationships, environmental remediation strategies; experimental methods in field and laboratory studies.

CHEM:5013 Science Writing in Chemistry 1 s.h.
How to providing clear, simple, and direct scientific documents; formulating good scientific questions; developing scientific context; process of writing, critiquing, and rewriting scientific documents; accepting constructive criticism; creating constructive criticism for others; student-created independent scientific proposal suitable as a funding application. Prerequisites: CHEM:5091 and CHEM:7270. Corequisites: CHEM:7999. Requirements: all comprehensive exams completed and passed.

CHEM:5090 Graduate Program Preparation 0 s.h.
Equips incoming graduate students with essential knowledge about resources in the Chemistry Department and other areas pertinent to their studies; offers a streamlined process for administering proctored proficiency exams, ensuring that students can demonstrate their competency in key subject areas; provides a solid foundation to navigate the academic journey effectively and maximize the potential for success in students' respective fields.

CHEM:5091 Graduate Chemistry Orientation 2-3 s.h.
Pedagogy, safety, and research issues relevant to advanced chemistry careers.

CHEM:5107 Electrochemistry 2-3 s.h.
Fundamental aspects, including mass transport and electron transfer, electrochemical methodology (e.g., voltammetry and potentiometry), determination of homogeneous and heterogeneous reaction mechanisms. Recommendations: CHEM:3110 and CHEM:3120.

CHEM:5108 Spectroscopy 3 s.h.
Principles of atomic and molecular absorption and emission spectroscopy in ultraviolet, visible, and infrared regions of the spectrum, including fluorescence, phosphorescence, Raman spectroscopy; applications to analytical problems, with emphasis on modern instrumentation and methodology. Recommendations: CHEM:3110 and CHEM:3120.

CHEM:5109 Separations 3 s.h.
Analytical separations; basic theory, practical applications, instrumentation, modern techniques (extractions, gas and liquid chromatography, capillary electrophoresis), and detection (mass spectrometry). Recommendations: CHEM:3110 and CHEM:3120.

CHEM:5114 Chemical Systems Modeling 3 s.h.
Basic processes and techniques; these methods applied to systems relevant to students' own research. Recommendations: CHEM:3110 or CHEM:3120.

CHEM:5115 Biophotonics 3 s.h.
Structure, dynamics of biomolecules and their optical spectroscopy; ultrasensitive fluorescence spectroscopy, vibrational spectroscopy, optical activity and circular dichroism, time-resolved spectroscopy. Recommendations: CHEM:3110 and CHEM:3120.

CHEM:5118 Nanomaterials 3 s.h.
Basic principles associated with nanoscience and nanotechnology; fabrication and synthesis, size dependent properties, characterization, applications of materials at nanometer length scales, recent technological breakthroughs in the field. Requirements: graduate standing or advanced undergraduate standing in engineering and science. Recommendations: knowledge of basic chemistry.

CHEM:5121 Nuclear Physics Concepts 1 s.h.
Introduction to fundamental concepts describing the behavior of unstable nuclei, including radioactive emissions, radionuclide generation, and interaction with the physical world; the production and modes of decay of radionuclides, the concepts of radioactive decay and equilibrium, and radiation's interactions with matter; and the occurrence and importance of natural and anthropogenic radionuclides relative to their use and importance to the environment and human health.

CHEM:5122 Radiochemistry Separation Concepts I 1 s.h.
Chemical and physical manipulation samples that enable the identification and measurement of radionuclides. These concepts focus strongly on practical inorganic and analytical chemistry techniques, including sample handling, sample dissolution/destruction, oxidation state manipulation, equilibrium reactions, and analyte preconcentration. Addresses the analytical implications of various sample types, including matrix and radionuclides interferences, and various techniques for addressing these issues.

CHEM:5123 Radiochemistry Separation Concepts II 1 s.h.
Chemical and physical manipulation samples that enable the identification and measurement of radionuclides. These concepts focus strongly on practical inorganic and analytical chemistry techniques, including sample handling, sample dissolution/destruction, oxidation state manipulation, equilibrium reactions, and analyte preconcentration. Addresses the analytical implications of various sample types, including matrix and radionuclides interferences, and various techniques for addressing these issues.

CHEM:5124 Radiochemistry Instrumental Analysis I 1 s.h.
Theory, operation, calibration, and maintenance of instrumentation used for the identification and measurement of radiation. Instrumentation covered includes gas-flow proportional counters, Geiger-Müller counters, ionization chambers, liquid scintillation counters, semiconductor detectors, and solid scintillation detectors. For each technology introduced, students learn the fundamental concepts of detection, operation, calibration, troubleshooting, maintenance, and sample measurement.

CHEM:5125 Radiochemistry Instrumental Analysis II 1 s.h.
Theory, operation, calibration, and maintenance of instrumentation used for the identification and measurement of radiation. Instrumentation includes gas-flow proportional counters, Geiger-Müller counters, ionization chambers, liquid scintillation counters, semiconductor detectors, and solid scintillation detectors. For each technology introduced, students learn the fundamental concepts of detection, operation, calibration, troubleshooting, maintenance, and sample measurement.

CHEM:5126 Radiochemistry Data Analysis and Statistics 1 s.h.
Introduction to mathematical concepts and calculations used in radiochemistry to calculate analytical results and assess data, including radioactivity calculations, counting statistics, detection limit decisions, and uncertainty estimations used in the generation of analytical results, and the optimization and evaluation of analytical systems to meet data and measurement quality objectives using the previously listed concepts.

CHEM:5127 Radiochemistry Quality Assurance 1 s.h.
Various components of quality assurance that govern radiochemical analysis, including the traceability of measurements, the standardization of measurement systems, the process of obtaining and maintaining laboratory accreditation, the various quality control procedures used to ensure defensible data, and the regulatory standards impacting radiochemical measurements; best practices for method 9 and instrument validation, and the statistical concepts and tests for evaluating radiochemical data.

CHEM:5128 Radiation Safety and Health Physics 1 s.h.
Radiation safety and health physics concepts used to both minimize human exposure to radiation and evaluate its potential effect, including processes for minimizing and evaluating exposure, radioactive materials handling and exposure, licensure considerations, and dosimetry. Discussion of the biological effects of radiation, including both acute and chronic exposure outcomes, and the regulatory limits meant to minimize these effects.

CHEM:5129 Radiochemistry Separation Laboratory 2 s.h.
Introduces students to the radiochemistry laboratory environment and covers commonly used radiochemical separation techniques; fundamental laboratory safety and techniques including exposure and contamination control, waste disposal, sample preparation and preservation, and standard preparation and verification; perform radiochemical separation methods for gross alpha radium, tritium, and uranium using a variety of techniques including co-precipitation, distillation, extraction chromatography, and ion exchange.

CHEM:5130 Radiochemistry Instrumental Analysis Laboratory 2 s.h.
Introduces students to radiation measurement instruments and data analysis software; set-up, calibration, maintenance, and use of alpha scintillation counters, gamma spectrophotometers, gas-flow proportional counters, and liquid scintillation counters; perform setup, calibration, and analysis with each of the listed instruments and their associated software packages.

CHEM:5150 Chemometrics 3 s.h.
Mathematical, statistical, and signal processing methods for analytical chemistry; hypothesis testing, experimental design, model building, optimization, digital filtering.

CHEM:5190 Seminar: Analytical Chemistry 0-1 s.h.

CHEM:5199 Special Topics in Analytical Chemistry arr.
Content varies.

CHEM:5203 Organometallic Chemistry 3 s.h.
Emphasis on organometallic compounds of transition metal elements. Corequisites: CHEM:4270.

CHEM:5204 Physical Methods in Inorganic Chemistry 3 s.h.
Application of physical methods to problems; recent developments; emphasis on magnetic resonance spectroscopy. Recommendations: CHEM:4270.

CHEM:5205 Bioinorganic Chemistry 2-3 s.h.
The role of metal ions in biology from an inorganic chemical perspective; emphasis on structure and mechanism for transition metal-containing metallo-enzymes.

CHEM:5206 Solid-State and Materials Chemistry 3 s.h.
Introduction to the chemical concepts of solid-state chemistry; focus on synthesis and characterization of various inorganic materials; structure/property relationships, real-world examples. Recommendations: CHEM:4270.

CHEM:5212 Mass Spectrometry 3 s.h.
Examination of mass spectrometry in terms of basic theory, instrumentation, qualitative and quantitative analysis, and its application to the environmental and biological sciences. Recommendations: CHEM:3110 or CHEM:3120.

CHEM:5290 Seminar: Inorganic and Chemical Education Research 0-1 s.h.

CHEM:5299 Special Topics in Inorganic Chemistry 1-3 s.h.
Recommendations: CHEM:4270.

CHEM:5321 Spectroscopic Methods in Organic Chemistry 3-4 s.h.
Methods and techniques of structure determination for organic compounds.

CHEM:5326 Organic Reactions 3 s.h.
Survey of organic reactions used in contemporary organic synthesis; emphasis on C-C bond forming reactions, functional group interconversions, oxidations and reductions; mechanistic details of reaction types; innovations in catalytic and asymmetric organic reactions. Recommendations: CHEM:4372.

CHEM:5328 Mechanisms of Organic Reactions 3 s.h.
Application of basic mechanistic concepts.

CHEM:5329 Advanced Organic Synthesis 1-3 s.h.
Preparation of complex organic compounds. Recommendations: CHEM:4372.

CHEM:5390 Seminar: Organic Chemistry 0-1 s.h.

CHEM:5399 Organic Chemistry Special Topics 1-3 s.h.
Recommendations: CHEM:4372.

CHEM:5431 Statistical Thermodynamics I 3 s.h.
Fundamentals of classical thermodynamics and equilibria; ensembles; noninteracting systems; theory of phase transitions; Monte-Carlo methods; classical fluids; nonequilibrium systems. Recommendations: CHEM:4431.

CHEM:5433 Quantum and Computational Chemistry 3 s.h.
Fundamental principles of quantum chemistry; angular momentum; approximation methods; theory of atomic and molecular electronic structure; applications of computational quantum mechanics to chemical systems. Corequisites: CHEM:4432, if not taken as a prerequisite.

CHEM:5434 Molecular Spectroscopy 3 s.h.
Quantum mechanical models of atoms, molecules, and chemical oscillators; electrostatics and magnetism; electromagnetic waves; refractive index and polarization; matter waves; symmetry and orbitals; vibronic and spin-orbit coupling; electron correlation and exchange; selection rules. Recommendations: CHEM:5433.

CHEM:5435 Chemical Kinetics 3 s.h.
Potential energy surfaces, transition state theory, diffusion limited rates, linear free energy relationships, isotope effects, solvent effects, RRKM theory; connection between experiment and various theories in the gas and solution phases; emphasis on assignment of experimental error to derived quantities. Recommendations: CHEM:4432.

CHEM:5438 Surface Chemistry and Heterogeneous Processes 3 s.h.
Fundamental and applied aspects of surface chemical processes; theories of molecular adsorption/desorption and surface complexation; kinetics; surface analysis and instrumentation; applications of surface chemistry in heterogeneous catalysis, heterogeneous environmental/atmospheric processes, and materials chemistry. Recommendations: CHEM:4431.

CHEM:5490 Seminar: Physical and Environmental Chemistry 0-1 s.h.

CHEM:5499 Physical Chemistry Topics 1-3 s.h.
Advanced topics relevant to modern physical chemistry. Recommendations: CHEM:4432 and MATH:1860.

CHEM:5599 Special Topics in Chemistry Education 3 s.h.
Special topics related to chemistry education; topics vary.

CHEM:5875 Perspectives in Biotechnology 1 s.h.
Topics related to careers in biotechnology with an emphasis on preparing graduate students for careers outside of academia; discussions led by a series of guest speakers from leading biotech industries; understanding the societal impact of basic research; participation in round-table discussions; and presentation of student research findings. Requirements: graduate standing and good academic standing in a participating department supported by the Predoctoral Training Program in Biotechnology. Same as BMB:5875, CBE:5875, CEE:5875, MICR:5875, PHAR:5875.

CHEM:5990 Chemistry Colloquium 0-1 s.h.
Presentation and discussion of research by invited presenters.

CHEM:6990 Research Seminar 0-1 s.h.
Presentation and discussion of thesis research for advanced degrees.

CHEM:7270 Ethics in Chemical Sciences 1 s.h.
Scholarly integrity for being a responsible chemist on graduate-level research; introduction to infrastructure of scientific scholarship with emphasis on interacting with peers, funding agencies, industrial entities; responsible conduct in research in the context of creation of knowledge, dissemination of scientific findings, intellectual property, and conflict of interest; workshops to study cases in chemical research to illustrate the principles of scholarly integrity.

CHEM:7604 Ethics in Chemical Sciences for Postdocs 0 s.h.
Introduction to infrastructure of scientific scholarship; emphasis on interacting with peers, funding agencies, industrial entities; scholarly integrity for being a responsible chemist on graduate-level research; responsible conduct in research in context of creation of knowledge, dissemination of scientific findings, intellectual property, conflict of interest; workshop cases in chemical research that illustrate principles of scholarly integrity.

CHEM:7999 Research in Chemistry arr.
Thesis work for advanced degrees.

Chemistry, BA

Learning Outcomes

The Department of Chemistry is committed to maintaining excellence in teaching and mentoring, and to providing the maximum educational benefit to each chemistry graduate. The desired outcomes will prepare students for success in graduate or professional school, industry or government employment, and a wide variety of career choices.

The graduate with a bachelor's degree in chemistry will be able to use the knowledge and skills obtained in the program to demonstrate the following.

Knowledge and Understanding of Chemistry

Graduates will be able to demonstrate:

- mastery of major concepts, theoretical principles, and experimental findings in chemistry;
- an understanding of the relationship between molecular structure and physical/chemical properties;
- an understanding of the relationship between the microscopic, macroscopic, and symbolic descriptions of matter and the changes it undergoes; and
- an understanding of the conditions that affect stability and factors that control rates of change.

Laboratory Skills

Graduates will be able to:

- assess chemical and procedural hazards involved in laboratory work;
- use strategies to minimize the risks associated with laboratory work;
- maintain a clearly organized laboratory notebook;
- use a variety of synthetic techniques;
- use instrumentation and laboratory techniques to separate, purify, identify, quantify, and characterize chemical species; and
- use computers as tools for data acquisition, management, and analysis.

Scientific Thinking

Graduates will be able to:

- pose scientific questions with a clear hypothesis;
- plan and carry out scientific investigations;
- analyze data in order to make inferences about chemical and physical behavior and properties, and construct scientific arguments to support conclusions;
- use scientific theory and/or interpretations of experimental results to explain chemical phenomena;
- use mathematics and computational thinking to understand and predict chemical behavior;
- identify and quantify uncertainties in measurements and limitations in methods; and
- use graphs, diagrams, and other models to communicate chemical information.

Chemical Information Skills

Graduates will be able to:

- use modern library search tools to locate and retrieve chemical information;
- read, analyze, and critically evaluate journal articles; and
- reference and cite chemical literature appropriately using designated citation styles.

Professional Skills

Graduates will be able to:

- report scientific findings in oral presentations in a clear and organized fashion using appropriate visual tools;
- report on experimental work and scientific findings in written reports;
- communicate results of scientific work to nontechnical audiences;
- work collaboratively with peers to plan and conduct experiments, interpret chemical information, and solve problems; and
- engage in responsible and ethical scientific conduct.

Requirements

The Bachelor of Arts with a major in chemistry requires a minimum of 120 s.h., including 53–54 s.h. of work for the major (20 s.h. in foundation chemistry courses, 12 s.h. in advanced chemistry, and 21–22 s.h. in supporting coursework). Students must earn at least 11 s.h. in advanced chemistry courses at the University of Iowa. They must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. Students also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The BA degree is a good choice for students interested in medical or other professional schools, or those interested in a teaching career (see "Teacher Licensure" below). The program provides students with the flexibility to earn a degree in chemistry while they also complete related courses required for medical school, such as biology and biochemistry. Compared to the BS degree, the BA has modified mathematics requirements that include a one-semester physical chemistry course, an analytical chemistry course, and a single, integrated capstone laboratory that incorporates analytical, inorganic, and physical chemistry experiments.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Advanced chemistry courses are built on the chemistry foundation courses. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year.

Students may not use a course to fulfill more than one requirement.

The BA with a major in chemistry requires the following coursework.

Requirements	Hours
Chemistry Foundation Courses	20
Advanced Chemistry Courses	12
Mathematics Courses	7-8
Introductory Physics Courses	8
Science Electives	6

Chemistry Foundation Courses

Students complete the following foundation courses.

Course #	Title	Hours
All of these:		
CHEM:1110 & CHEM:1120	Principles of Chemistry I and Principles of Chemistry II	8
CHEM:2021	Fundamentals of Chemical Measurements	3
One of these sequences:		
CHEM:2210 & CHEM:2220	Organic Chemistry I and Organic Chemistry II	6
CHEM:2230 & CHEM:2240	Organic Chemistry I for Majors and Organic Chemistry II for Majors (preferred)	6
One of these:		
CHEM:2410	Organic Chemistry Laboratory	3
CHEM:2420	Organic Chemistry Laboratory for Majors (preferred)	3

Advanced Chemistry Courses

Course #	Title	Hours
One of these:		
CHEM:3110	Equilibria and Electrochemistry	3
CHEM:3120	Spectroscopy and Separations (preferred)	3
All of these:		
CHEM:3250	Inorganic Chemistry	3
CHEM:4430	Principles of Physical Chemistry	3
CHEM:4450	Synthesis and Measurement	3

Mathematics Courses

Course #	Title	Hours
One of these:		
MATH:1460	Calculus for the Biological Sciences (preferred)	4
MATH:1550	Engineering Calculus I	4
MATH:1850	Calculus I	4
One of these:		
MATH:1560	Engineering Calculus II	4
MATH:1860	Calculus II	4
STAT:2010	Statistical Methods and Computing	3
STAT:3510/ IGPI:3510	Biostatistics (preferred)	3

Introductory Physics Courses

Course #	Title	Hours
One of these sequences:		
PHYS:1511 & PHYS:1512	College Physics I and College Physics II (preferred)	8
PHYS:1611 & PHYS:1612	Introductory Physics I and Introductory Physics II	8

Science Electives

Some of these courses may be used to fulfill other requirements for the major; students who have used a course from this list to fulfill another requirement for the major may not use that course as an elective. Students should consult their advisor to gain approval for a course that is not on the list. Undergraduate Research (CHEM:3994) may not be used to satisfy the science electives requirement.

Course #	Title	Hours
A total of 6 s.h. from these:		
CHEM:3110	Equilibria and Electrochemistry	3
CHEM:3120	Spectroscopy and Separations	3
CHEM:3430	Analytical Measurements	3
CHEM:3440	Physical Measurements	3
CHEM:3530	Inorganic Chemistry Laboratory	3
CHEM:4270	Advanced Inorganic Chemistry	3
CHEM:4372	Advanced Organic Chemistry	3
CHEM:4431	Chemical Thermodynamics	3
CHEM:4432	Quantum Mechanics and Chemical Kinetics	3
CHEM:4480	Introduction to Molecular Modeling	3
CHEM:4760	Radiochemistry: Energy, Medicine, and the Environment	3
CHEM:4873	Atmospheric and Environmental Chemistry	3
BMB:3110	Biochemistry	3
BMB:3120	Biochemistry and Molecular Biology I	3
BMB:3130	Biochemistry and Molecular Biology II	3
CEE:4150/CBE:4420	Environmental Chemistry	3
SEES:4490	Elements of Geochemistry	3
SEES:4540	Isotope Geochemistry	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Combined Programs

BA/MAT (Science Education Subprogram)

Students who are interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the combined program enables students to earn a BA and MAT in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 19 s.h. of qualifying credit toward both degrees. For more information, see "Combined Program" under Science Education [p. 1497] in the Master of Arts in Teaching (College of Education) section of the catalog. Interested students should consult an advisor.

Honors

Honors in the Major

Majors are able to graduate with departmental honors. Students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33, as required by the College of Liberal Arts and Sciences; additionally, students must maintain a 3.33 cumulative GPA in the major, a GPA set by the Department of Chemistry.

Students must also complete an undergraduate research project acceptable to their research advisor and write an honors thesis based on their research. Students should register for CHEM:3994 Undergraduate Research or HONR:3994 Honors Research Practicum to earn credit for their research. They are encouraged but not required to present their research at local and regional meetings and to publish their results in professional journals.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the chemistry major.

Financial Support

Scholarships and Awards

A number of awards and scholarships are available to chemistry majors, including the American Institute of Chemists Award, the Undergraduate Award in Analytical Chemistry, the Chemistry Alumni Awards (one each for a sophomore, a junior, and a senior), the Merck Index Award, and the Viksnins, Harris & Padys PLLP Award.

Chemistry majors may also apply for the Donald J. and Margaret Burton Scholarship, E. David Cater Scholarship, and Russell K. Simms Scholarship.

For more information, visit Undergraduate Scholarships and Awards on the Department of Chemistry website.

Career Advancement

The undergraduate major in chemistry provides a strong foundation for success in graduate and professional study and for positions in academic or industrial chemistry.

Students with a chemistry degree can pursue careers or graduate study in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year. Typical chemistry course schedules and a regression list are available at Undergraduate Program in Chemistry on the Department of Chemistry website.

Before the third semester begins: math through MATH:1460 Calculus for the Biological Sciences, MATH:1550 Engineering Calculus I, or MATH:1850 Calculus I; CHEM:1110 Principles of Chemistry I and CHEM:1120 Principles of Chemistry II, or equivalent coursework.

Before the fifth semester begins: CHEM:2021 Fundamentals of Chemical Measurements; CHEM:2210 Organic Chemistry I, CHEM:2220 Organic Chemistry II, and CHEM:2410 Organic Chemistry Laboratory, or CHEM:2230 Organic Chemistry I for Majors, CHEM:2240 Organic Chemistry II for Majors, and CHEM:2420 Organic Chemistry Laboratory for Majors; and STAT:2010 Statistical Methods and Computing, STAT:3510 Biostatistics, MATH:1560 Engineering Calculus II, or MATH:1860 Calculus II.

Before the seventh semester begins: two more courses in the major; PHYS:1511 College Physics I–PHYS:1512 College Physics II or PHYS:1611 Introductory Physics I–PHYS:1612 Introductory Physics II; and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: CHEM:4430 Principles of Physical Chemistry and one more course in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in chemistry courses requires completion of a placement exam.

c Enrollment in math courses requires completion of a placement exam.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

i Typically CHEM:3110 is offered in fall semesters only and CHEM:3120 is offered spring semesters only. Check MyUI for course availability since offerings are subject to change.

j Students are required to complete 6 s.h. of science electives chosen from a list of approved courses. Students who have used a course to fulfill another requirement for the major may not use that course as a science elective.

k This course is offered in both fall and spring semesters and is a prerequisite for CHEM:4450. If taken in spring, it should be planned for the spring semester of the third year.

l Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Chemistry, BS

Learning Outcomes

The Department of Chemistry is committed to maintaining excellence in teaching and mentoring, and to providing the maximum educational benefit to each chemistry graduate. The desired outcomes will prepare students for success in graduate or professional school, industry or government employment, and a wide variety of career choices.

The graduate with a bachelor's degree in chemistry will be able to use the knowledge and skills obtained in the program to demonstrate the following.

Knowledge and Understanding of Chemistry

Graduates will be able to demonstrate:

- mastery of major concepts, theoretical principles, and experimental findings in chemistry;
- an understanding of the relationship between molecular structure and physical/chemical properties;
- an understanding of the relationship between the microscopic, macroscopic, and symbolic descriptions of matter and the changes it undergoes; and
- an understanding of the conditions that affect stability and factors that control rates of change.

Laboratory Skills

Graduates will be able to:

- assess chemical and procedural hazards involved in laboratory work;
- use strategies to minimize the risks associated with laboratory work;
- maintain a clearly organized laboratory notebook;
- use a variety of synthetic techniques;
- use instrumentation and laboratory techniques to separate, purify, identify, quantify, and characterize chemical species; and
- use computers as tools for data acquisition, management, and analysis.

Scientific Thinking

Graduates will be able to:

- pose scientific questions with a clear hypothesis;
- plan and carry out scientific investigations;
- analyze data in order to make inferences about chemical and physical behavior and properties, and construct scientific arguments to support conclusions;
- use scientific theory and/or interpretations of experimental results to explain chemical phenomena;
- use mathematics and computational thinking to understand and predict chemical behavior;
- identify and quantify uncertainties in measurements and limitations in methods; and
- use graphs, diagrams, and other models to communicate chemical information.

Chemical Information Skills

Graduates will be able to:

- use modern library search tools to locate and retrieve chemical information;
- read, analyze, and critically evaluate journal articles; and
- reference and cite chemical literature appropriately using designated citation styles.

Professional Skills

Graduates will be able to:

- report scientific findings in oral presentations in a clear and organized fashion using appropriate visual tools;
- report on experimental work and scientific findings in written reports;
- communicate results of scientific work to nontechnical audiences;
- work collaboratively with peers to plan and conduct experiments, interpret chemical information, and solve problems; and
- engage in responsible and ethical scientific conduct.

Requirements

The Bachelor of Science with a major in chemistry requires a minimum of 120 s.h., including 66 s.h. of work for the major (20 s.h. in foundation chemistry courses, 24 s.h. in advanced chemistry, and 22 s.h. in supporting coursework). Students must earn at least 20 s.h. in advanced chemistry courses at the University of Iowa. They must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. Students must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The BS degree with a major in chemistry is certified by the American Chemical Society (ACS) when a biochemistry course is included. An ACS-approved program offers a broad-based and rigorous chemistry education that provides students with the intellectual, experimental, and communication skills to become effective scientific professionals in chemical and other related fields. The program also provides all the prerequisites for graduate work in chemistry or biochemistry and in other biomedical areas with a molecular focus.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Advanced chemistry courses are built on the chemistry foundation courses. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year.

Students may not use a course to fulfill more than one requirement.

The BS with a major in chemistry requires the following coursework.

Requirements	Hours
Chemistry Foundation Courses	20
Advanced Chemistry Courses	24
Mathematics Courses	8
Introductory Physics Courses	8
Science Electives and Research Courses	6

Chemistry Foundation Courses

Students complete the following foundation courses.

Course #	Title	Hours
All of these:		
CHEM:1110 & CHEM:1120	Principles of Chemistry I and Principles of Chemistry II	8
CHEM:2021	Fundamentals of Chemical Measurements	3
One of these sequences:		
CHEM:2210 & CHEM:2220	Organic Chemistry I and Organic Chemistry II	6
CHEM:2230 & CHEM:2240	Organic Chemistry I for Majors and Organic Chemistry II for Majors (preferred)	6
One of these:		
CHEM:2410	Organic Chemistry Laboratory	3
CHEM:2420	Organic Chemistry Laboratory for Majors (preferred)	3

Advanced Chemistry Courses

Course #	Title	Hours
All of these:		
CHEM:3110 & CHEM:3120	Equilibria and Electrochemistry and Spectroscopy and Separations	6
CHEM:3250	Inorganic Chemistry	3
CHEM:4270	Advanced Inorganic Chemistry	3
CHEM:4431 & CHEM:4432	Chemical Thermodynamics and Quantum Mechanics and Chemical Kinetics	6
Two of these:		
CHEM:3430	Analytical Measurements	3
CHEM:3440	Physical Measurements	3
CHEM:3530	Inorganic Chemistry Laboratory	3

Mathematics Courses

Course #	Title	Hours
One of these sequences:		
MATH:1550 & MATH:1560	Engineering Calculus I and Engineering Calculus II	8
MATH:1850 & MATH:1860	Calculus I and Calculus II (preferred)	8

Introductory Physics Courses

Course #	Title	Hours
One of these sequences:		
PHYS:1511 & PHYS:1512	College Physics I and College Physics II	8
PHYS:1611 & PHYS:1612	Introductory Physics I and Introductory Physics II (preferred)	8

Science Electives and Research Courses

Course #	Title	Hours
A total of 6 s.h. from these:		
CHEM:3994	Undergraduate Research	1-4
BMB:3110	Biochemistry	3
BMB:3120	Biochemistry and Molecular Biology I	3
BMB:3130	Biochemistry and Molecular Biology II	3

Advanced science elective courses

ACS Certification Requirement

Students who want an ACS-certified degree complete one of these optional courses (also in the "Science Electives and Research Courses" list).

Course #	Title	Hours
BMB:3110	Biochemistry	3
BMB:3120	Biochemistry and Molecular Biology I	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Majors are able to graduate with departmental honors. Students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33, as required by the College of Liberal Arts and Sciences; additionally, students must maintain a 3.33 cumulative GPA in the major, a GPA set by the Department of Chemistry.

Students must also complete an undergraduate research project acceptable to their research advisor and write an honors thesis based on their research. Students should register for CHEM:3994 Undergraduate Research or HONR:3994 Honors Research Practicum to earn credit for their research. They are encouraged but not required to present their research at local and regional meetings and to publish their results in professional journals.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the chemistry major.

Financial Support

Scholarships and Awards

A number of awards and scholarships are available to chemistry majors, including the American Institute of Chemists Award, the Undergraduate Award in Analytical Chemistry, the Chemistry Alumni Awards (one each for a sophomore, a junior, and a senior), the Merck Index Award, and the Viksnins, Harris & Padys PLLP Award.

Chemistry majors may also apply for the Donald J. and Margaret Burton Scholarship, E. David Cater Scholarship, and Russell K. Simms Scholarship.

For more information, visit Undergraduate Scholarships and Awards on the Department of Chemistry website.

Career Advancement

The undergraduate major in chemistry provides a strong foundation for success in graduate and professional study and for positions in academic or industrial chemistry.

Students with a chemistry degree can pursue careers or graduate study in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year. Typical chemistry course schedules and a regression list are available at Undergraduate Program in Chemistry on the Department of Chemistry website.

Before the third semester begins: math through MATH:1550 Engineering Calculus I or MATH:1850 Calculus I; CHEM:1110 Principles of Chemistry I and CHEM:1120 Principles of Chemistry II, or equivalent coursework.

Before the fifth semester begins: CHEM:2021 Fundamentals of Chemical Measurements; CHEM:3250 Inorganic Chemistry; CHEM:2210 Organic Chemistry I, CHEM:2220 Organic Chemistry II, and CHEM:2410 Organic Chemistry Laboratory, or CHEM:2230 Organic Chemistry I for Majors, CHEM:2240 Organic Chemistry II for Majors, and CHEM:2420 Organic Chemistry Laboratory for Majors; MATH:1560 Engineering Calculus II or MATH:1860 Calculus II; and PHYS:1511–PHYS:1512 or PHYS:1611–PHYS:1612.

Before the seventh semester begins: six more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: three more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

BMB:3110	Biochemistry [j, l]	3
GE CLAS Core: Social Sciences [d]		3
Elective course [k]		2 - 3
Elective course [k]		3
	Hours	**14-15**

Spring

CHEM:3120	Spectroscopy and Separations [h]	3
Major: advanced chemistry lab [i]		3
GE CLAS Core: Values and Society [d]		3
Elective course [k]		3
Elective course [k]		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [m]		
	Hours	**15**
	Total Hours	**121-128**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in chemistry courses requires completion of a placement exam.

c Enrollment in math courses requires completion of a placement exam.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

f Students should take CHEM:2021 during the first semester of the second year.

g Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

i Students are required to take two of the three following courses: CHEM:3430, CHEM:3440, or CHEM:3530.

j Students are required to complete 6 s.h. in science electives and research toward the major; refer to the General Catalog for list of approved courses.

k Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

l Students who want an ACS certified degree must complete one of these optional courses: BMB:3110 or BMB:3120.

m Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Chemistry, Minor

Requirements

The undergraduate minor in chemistry requires a minimum of 15 s.h. in chemistry courses (prefix CHEM), including 12 s.h. in courses numbered 2210 or above taken in the Department of Chemistry at the University of Iowa. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

CHEM:3994 Undergraduate Research does not count toward the minor.

Chemistry, MS

Learning Outcomes

Students will:

- independently learn new chemical principles and techniques beyond those typical of undergraduate academic training;
- identify original and worthwhile chemical problems stated as research questions and hypotheses;
- design and execute experiments as part of independent chemistry research investigations;
- critically evaluate their data, results, and conclusions and those of others in the chemistry community;
- identify potential problems in the responsible conduct of research and identify strategies for managing those problems;
- articulate standards for laboratory safety in chemical research, assess potential hazards they may encounter in novel chemistry research, and develop effective strategies to mitigate those risks; and
- communicate chemical knowledge, new models, and research results both orally and in writing for both technical and nontechnical audiences.

Requirements

The Master of Science program in chemistry requires a minimum of 30 s.h. of graduate credit. The degree is offered with or without thesis. MS requirements include proficiency examinations and core courses as necessary in biochemistry; analytical, inorganic, organic, and/or physical chemistry; and additional advanced coursework. Students must have a cumulative grade-point average of at least 2.75 or higher to complete the MS.

Admission

Applicants for graduate admission should have a bachelor's degree with a major in chemistry or a related field, preferably with a grade-point average of 3.00 or higher. For application information, contact the Department of Chemistry or visit its website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Students with a chemistry degree can pursue careers in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Chemistry, PhD

Learning Outcomes

Students will:

- independently learn new chemical principles and techniques beyond those typical of undergraduate academic training;
- identify original and worthwhile chemical problems stated as research questions and hypotheses;
- design and execute experiments as part of independent chemistry research investigations;
- critically evaluate their data, results, and conclusions and those of others in the chemistry community;
- identify potential problems in the responsible conduct of research and identify strategies for managing those problems;
- articulate standards for laboratory safety in chemical research, assess potential hazards they may encounter in novel chemistry research, and develop effective strategies to mitigate those risks; and
- communicate chemical knowledge, new models, and research results both orally and in writing for both technical and nontechnical audiences.

Requirements

The Doctor of Philosophy program in chemistry requires a minimum of 72 s.h. of graduate credit. Degree requirements include demonstrating proficiency in core areas of chemistry; completing a minimum of 11 s.h. of advanced coursework, a 1 s.h. ethics course, and a 1 s.h. chemistry proposal writing course; passing a comprehensive examination; giving two public seminars; and producing at least one published or accepted paper in a peer-reviewed journal based on a student's dissertation research.

Students who meet proficiency and advanced course requirements with a cumulative grade-point average of 3.00 or higher are admitted to the comprehensive examination. The examination is based on a research progress report and an oral examination with the student's graduate academic committee. Students must take the comprehensive examination no later than the end of their second year of enrollment.

Near the end of the PhD, candidates prepare the dissertation and present it to their graduate committee for review. The final examination consists of an oral defense of the dissertation, which may include the published or accepted paper(s) previously mentioned.

For more information and details, please visit the Graduate Program in Chemistry page on the Department of Chemistry website.

Combined Programs

PhD/MD

Students may work toward the Doctor of Medicine degree and a PhD in chemistry in a combined degree program offered by the Carver College of Medicine and the Graduate College. Applicants must be admitted to both programs before they may be admitted to the combined degree program. See the Medical Scientist Training Program [p. 1901] (Carver College of Medicine) in the catalog.

Admission

Applicants for graduate admission should have a bachelor's degree with a major in chemistry or a related field, preferably with a grade-point average of 3.00 or higher. Most admitted graduate students receive financial support. For application information, contact the Department of Chemistry or visit its website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Students with a chemistry degree can pursue careers in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Chemistry, PhD

a Students must demonstrate basic proficiency in three chosen sub-disciplines of chemistry(analytical, biochemistry, inorganic, organic, physical). Proficiency is established in one of the following ways: 1) scoring at the 50th percentile level on the proficiency exam; 2) completing a one-semester review course with a grade of C or better; or 3) completing a one-semester graduate-level/advanced course in that sub-discipline of chemistry with a grade of B or better. The proficiency requirement must be fulfilled before the beginning of the student's third semester in the graduate program.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d May take another course if proficiency requirement has been satisfied; work with faculty advisor to determine appropriate graduate coursework and sequence.

e Students should begin taking research seminar after joining a research group.

f Includes research; work with faculty advisor to determine appropriate graduate coursework and sequence.

g Students must complete the oral comprehensive examination not later than the end of their second year of enrollment.

h Students are expected to give a minimum of two acceptable seminars. One seminar must cover the student's research; the other may also deal with the student's research or can be an extensive literature report.

i First required seminar.

j Can be taken any fall semester after the Doctoral Comprehensive Exam.

k Dissertation defense at which time candidates present at least one published or accepted paper in a peer-reviewed journal based on the publishable portion of the thesis.

Radiochemistry, Graduate Certificate

Requirements

The graduate Certificate in Radiochemistry requires 12 s.h. of credit, including 8 s.h. of online coursework and 4 s.h. of hands-on, in-person laboratory instruction. The certificate is open to students enrolled in University of Iowa graduate degree programs and to individuals who are enrolled in the Graduate College as nondegree students.

The certificate curriculum addresses fundamental concepts, instrumentation, and techniques utilized in radiochemistry, with an analytical chemistry focus. The certificate is designed to serve both working professionals and University of Iowa students; courses are divided into smaller modules offering flexibility in both instruction and student course load.

The graduate Certificate in Radiochemistry requires the following coursework.

Required Online Courses

Course #	Title	Hours
All of these:		
CHEM:5121	Nuclear Physics Concepts	1
CHEM:5122	Radiochemistry Separation Concepts I	1
CHEM:5123	Radiochemistry Separation Concepts II	1
CHEM:5124	Radiochemistry Instrumental Analysis I	1
CHEM:5125	Radiochemistry Instrumental Analysis II	1
CHEM:5126	Radiochemistry Data Analysis and Statistics	1
CHEM:5127	Radiochemistry Quality Assurance	1
CHEM:5128	Radiation Safety and Health Physics	1

Required Laboratory Courses

Course #	Title	Hours
Both of these:		
CHEM:5129	Radiochemistry Separation Laboratory	2
CHEM:5130	Radiochemistry Instrumental Analysis Laboratory	2

For questions about the Certificate in Radiochemistry, please contact the Department of Chemistry.

Admission

Admission requirements include:

- a bachelor’s degree in a STEM field;
- an undergraduate grade-point average greater than 2.50; and
- two semesters of undergraduate chemistry coursework.

For more information, and how to apply, visit Radiochemistry Graduate Certificate on the Department of Chemistry website.

Cinematic Arts

Chair

- Michael J. Cowan

Undergraduate majors: cinema (BA); screenwriting arts (BA)

Undergraduate minor: cinema

Graduate degrees: MA in film studies; MFA in film and video production; PhD in film studies

Faculty: https://cinematicarts.uiowa.edu/people

Website: https://cinematicarts.uiowa.edu/

The Department of Cinematic Arts provides students with opportunities to explore and gain insight into cinema as a subject of international and interdisciplinary study as well as creative practice. The curriculum emphasizes film and related media in their historical and cultural contexts as well as film and video production in a variety of modes.

The screenwriting arts major instructs students in the practical skills and knowledge needed to become successful members of the screenwriting industry, in addition to the history and theories related to screenwriting.

The department's faculty offers expertise in film and video production; film history and theory, with emphasis on international film cultures; and the history, theory, and production of documentary media. Students conduct projects using state-of-the-art equipment and software that is updated regularly.

The department offers two majors awarded with a BA degree, an undergraduate minor, and three graduate degree programs (MA, MFA, and PhD). It also offers courses for all interested students in the Literary, Visual, and Performing Arts and Understanding Cultural Perspectives areas of the GE CLAS Core [p. 22].

Resources

The Department of Cinematic Arts maintains up-to-date film and video equipment and facilities that allow students to acquire professional skills in a range of technical and creative areas, including cinematography, editing, sound design, screenwriting, and animation. The program also draws upon the extensive media holdings, and scholarly and archival resources relevant to the study of cinema held by the University of Iowa Libraries. The department regularly sponsors events, including film screenings, festivals, symposia, and presentations by notable visiting scholars and artists, that extend the study of film beyond the classroom and regular curriculum. Collaborations with FilmScene, Iowa City’s independent cinema, and the Bijou, the University of Iowa's long-running student film society, also enhance local opportunities for students to view films outside of the classroom and mainstream venues.

Programs

Undergraduate Programs of Study

Majors

- Major in Cinema (Bachelor of Arts) [p. 202]
- Major in Screenwriting Arts (Bachelor of Arts) [p. 206]

Minor

- Minor in Cinema [p. 210]

Graduate Programs of Study

- Master of Arts in Film Studies [p. 211]
- Master of Fine Arts in Film and Video Production [p. 213]
- Doctor of Philosophy in Film Studies [p. 215]

Courses

Cinematic Arts Courses

CINE:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

CINE:1100 The Art of Smartphone Filmmaking 3 s.h.
Introduction to filmmaking principles; how to shoot and edit short videos utilizing smartphone technology; methods to produce high-quality work without professional equipment. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

CINE:1150 Introduction to Screenwriting for Nonmajors 3 s.h.
Introduction to basic storytelling strategies and principles, writing film treatments, adapting prose to professional screenplay format, story structure for features and short films, workshop original screenplays, critique student work, and analyze professional screenplays. GE: Engineering Be Creative.

CINE:1185 Internship 1-3 s.h.
Opportunity to apply skills; faculty supervision, on or off campus. Requirements: cinema major.

CINE:1195 Video Games and Identity 3 s.h.
Structural and historical problems of representation and inclusion in video games (as text, industry, and culture) along lines of race, gender, sexuality, age, class, and ability; introduction to game studies as a discipline; guidance in learning college-level reading and writing. GE: Understanding Cultural Perspectives.

CINE:1300 Foundations of Screenwriting 3 s.h.
Ideation and creative research, foundational elements of stories, creation and development of characters and story lines, dialogue writing, screenplay format, analysis of storytelling in professional screenplays, writing and workshopping student's work.

CINE:1560 Cinematic Arts Ambassador Seminar 1 s.h.
Ambassadors provide information about the Department of Cinematic Arts to incoming and visiting students, university community, and broader community; conduct tours; meet with students and parents; review curriculum; provide information on opportunities; coordinate events; and update materials for prospective and incoming students. Requirements: cinema major.

CINE:1601 Introduction to Film Analysis 3 s.h.
Formal analysis of film; narrative cinema and approaches to narrative structure; authorship and genre issues, other major topics.

CINE:1602 Introduction to Film Studies 3 s.h.
Film history, theory, criticism; issues of form, technologies, and cultural functions of cinema; screenings of narrative, documentary, experimental films from varied periods and nations. GE: Literary, Visual, and Performing Arts.

CINE:1610 Contemporary Cinema 3 s.h.
Current cinema; key genres, movements, filmmakers, technological changes; recent cultural contexts, industrial and economic factors, changes in the film viewing experience. GE: Literary, Visual, and Performing Arts.

CINE:1625 Race, Gender, and Sexuality on Screen 3 s.h.
Introduction to key issues and debates regarding the representation of gender, race, and sexuality in cinema. GE: Understanding Cultural Perspectives.

CINE:1834 Modes of Film and Video Production 4 s.h.
Introduction to filmmaking; how to shoot and edit short works of cinematic art; exposure to various working methods including nonfiction, fiction, and experimental modes of video production. GE: Engineering Be Creative. Same as THTR:1834.

CINE:2195 Individual Study arr.

CINE:2600 Writing Film Reviews and Criticism 3 s.h.
Evaluation and analysis of film, from journalistic reviews to academic scholarship; principles and theoretical positions.

CINE:2615 Introduction to Film Theory 3 s.h.
Classical film theory—formalist and realist theories, authorship, genre; contemporary film theory—semiotics, feminism, psychoanalysis, ideological criticism, postmodernism, queer theory. Prerequisites: CINE:1834 with a minimum grade of C and (CINE:1601 with a minimum grade of C or CINE:1602 with a minimum grade of C).

CINE:2620 U.S. Film 3 s.h.
American film industry; social and artistic perspectives.

CINE:2623 Introduction to Documentary Film 3 s.h.
Introduction to key issues and topics in the history and practice of nonfiction filmmaking.

CINE:2626 History of Animation 3 s.h.
Introduction to key issues and topics in the history and practice of animation. GE: Literary, Visual, and Performing Arts.

CINE:2627 Film Club 1 s.h.
Theme-based film program comprising a weekly film screening followed by a guided group discussion intended to inspire debate and film literacy.

CINE:2655 Paris on Film 3 s.h.
Overview of major milestones in French cinema through the lens of diverse cinematic representations of Paris and the evolving cultural and social relationship between the city and cinema.

CINE:2800 Digital Arts: An Introduction 3 s.h.
Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CS:2800, DANC:2800, DIGA:2800, MUS:2800, THTR:2800.

CINE:2850 Introduction to Editing 3 s.h.
Overview of film post-production; theory and practice of various styles and forms; how stories are constructed in the editing stage; editing techniques; and principles of color correction and sound mixing. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:2863 Film/Video Production: Film Festival 3 s.h.
How to run a film festival; management and orchestration of annual Iowa City International Documentary Festival. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:2864 Film/Video Production: Alternative Forms 3 s.h.
Alternative or innovative video/film practices and technologies; varied topics. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:2866 Film/Video Production: Nonfiction 3 s.h.
Individual and small group work to create video projects using nonfiction filmmaking techniques, from camera and lighting to postproduction. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:2868 Film/Video Production: Fiction 3 s.h.
Individual and small group work to create video projects using fiction filmmaking techniques, from camera and lighting to postproduction. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:2869 Introduction to Intermedia 3 s.h.
Interdisciplinary focus; emphasis on conceptual, installation, video, time-based media, performance art. Prerequisites: (ARTS:1510 and ARTS:1520) or CINE:1834. Requirements: for CINE:2869—grade of C or higher in CINE:1834. Same as INTM:2710.

CINE:3050 Practicum: Teaching Assistant 1 s.h.
Training in a range of skills crucial to media education and teaching while expanding breadth and depth of student's film knowledge; practice-based practicum. Recommendations: junior or senior standing, and cinema BA major.

CINE:3080 Film/Video Production: The Business of Filmmaking 3 s.h.
Introduction to business-related arts production techniques and strategies; budgeting and basic accounting skills, grant writing, project conceptualization and planning, film producing and location scouting, distribution models, film festival submission, project summation. Prerequisites: CINE:1834 with a minimum grade of C and (CINE:1601 with a minimum grade of C or CINE:1602 with a minimum grade of C).

CINE:3195 Undergraduate Seminar 3 s.h.
Focus on a significant text or critical problem. Prerequisites: CINE:1834 with a minimum grade of C and (CINE:1601 with a minimum grade of C or CINE:1602 with a minimum grade of C). Requirements: cinema major, and junior or senior standing.

CINE:3310 Screenwriting Studies 3 s.h.
Readings and research projects in history, theory, and analysis of screenwriting; preparation to complete screenplays in other courses; topics may include study of storytelling in sample scripts, literary adaptation, screenwriting in early and classical Hollywood, independent and global art cinema. Prerequisites: CINE:1300 with a minimum grade of C and CINE:1834 with a minimum grade of C and (CINE:1601 with a minimum grade of C or CINE:1602 with a minimum grade of C).

CINE:3315 Topics in Screenwriting 3 s.h.
Diverse specialized topics related to the art, craft, history, and business of screenwriting for film, television, and new media platforms. Prerequisites: CINE:1300 with a minimum grade of C and CINE:1834 with a minimum grade of C and (CINE:1601 with a minimum grade of C or CINE:1602 with a minimum grade of C).

CINE:3361 Screenwriting: Short Form 3 s.h.
Introduction to basic principles of screenwriting; develop, write, and workshop screenplays for short film/video projects including fiction, nonfiction, and experimental work. Prerequisites: CINE:1300 with a minimum grade of C and CINE:1834 with a minimum grade of C and (CINE:1601 with a minimum grade of C or CINE:1602 with a minimum grade of C).

CINE:3367 Screenwriting: Long Form 3 s.h.
Introduction to basic principles of screenwriting; develop, write, and workshop screenplays for longer form film/video projects including fiction, nonfiction, and experimental work. Prerequisites: CINE:3361 with a minimum grade of C.

CINE:3750 Topics in Cinema and Culture 3 s.h.
One or more national cinemas in relation to social, historical, and cultural contexts. Prerequisites: CINE:1601 with a minimum grade of C or CINE:1602 with a minimum grade of C.

CINE:3860 Film and Video Production Studio 3 s.h.
Group production work in a collaborative setting to create film and media projects; advanced on-set or in-studio production workflow. Prerequisites: CINE:1602 and CINE:1834 and (CINE:2864 or CINE:2866 or CINE:2868 or CINE:2869). Recommendations: intermediate to advanced experience in cinema.

CINE:3865 Film/Video Production: Material of 16mm Filmmaking 3 s.h.
Individual work to create projects using 16mm filmmaking techniques including camera operation, editing, lighting for film, found footage, and camera-less filmmaking; introduction to hand processing; production course. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:3876 Projection Design 3 s.h.
Introduction to the aesthetics and practical applications of projection design for live performance, including content creation, system design, media servers, projectors, cameras, and related professional equipment. Students learn how to create digital artwork with professional content/animation/effects software Adobe After Effects, Illustrator, Photoshop, Premiere Pro, Audition, etc. Through the media server QLab students learn how to integrate digital artwork and live video cameras into live performance via projectors and digital displays. GE: Engineering Be Creative. Same as DANC:3876, DIGA:3876, INTM:3876, THTR:3876.

CINE:3878 Film and Media Practicum 1 s.h.
Research and production-oriented film and media practicum; individual and small-group work on a single film, video, or media production as determined by instructor; independent library and web-based research, group presentations, readings. Requirements: junior or senior standing.

CINE:3888 Visual Effects 4 s.h.
Theory and practice of visual effects. Develop original visually-driven narrative sequences through the illusionary imaging enhancements of visual effects techniques using digital imaging tools. Examine contextual import and narrativity of these processes as they extend into historical and contemporary moving image practices. Prerequisites: CINE:1834 and CINE:2864. Recommendations: basic knowledge of animation techniques and knowledge of Adobe Photoshop, Premiere, AfterEffects, and Media Encoder.

CINE:4198 Honors Project I 3 s.h.
Requirements: standards met for honors in the major for the BA in cinema.

CINE:4199 Honors Project II 3 s.h.
Completion of honors project, working with a designated cinematic arts faculty member; content varies depending on specific projects proposed by the student, approved by the faculty member, in consultation with the director of undergraduate studies and any additional cinematic arts faculty members relevant to the project. Prerequisites: CINE:4198. Requirements: standards met for honors in the major for the BA in cinema.

CINE:4377 Advanced Screenwriting I 4 s.h.
Developing, writing, and workshopping screenplays for short film/video projects including fiction, nonfiction, and experimental work; introduction to preproduction activities; exercises and journal assignments. Prerequisites: CINE:3367 with a minimum grade of C.

CINE:4378 Advanced Screenwriting II 4 s.h.
Students write a feature screenplay (105-115 pages) within the industry standard contract guidelines for independent and studio projects; completion of outline, beat sheet, treatment, and first draft; one rewrite. Prerequisites: CINE:4377 with a minimum grade of C.

CINE:4610 Studies in Film and Music 3 s.h.
Critical approaches to historical and contemporary interrelationships between film and music; soundtracks and film scores; popular song and cinema. Prerequisites: CINE:1601 with a minimum grade of C or CINE:1602 with a minimum grade of C. Same as MUS:4610.

CINE:4618 Topics in World Cinemas 3 s.h.
Issues in international film history and film theory. Prerequisites: CINE:1601 with a minimum grade of C or CINE:1602 with a minimum grade of C.

CINE:4620 Topics in Film Form, Style, and Theory 3 s.h.
Special issues and topics relevant to film form, style, and/or theory. Prerequisites: CINE:1601 with a minimum grade of C or CINE:1602 with a minimum grade of C.

CINE:4705 Chicano Cinema 3 s.h.
History of Chicano independent and industry film and television production since the Chicano political and cultural movement began in the 1960s. Taught in English. Requirements: one Spanish literature or culture course numbered SPAN:3200 or above, or one film studies course numbered above CINE:2100. Same as LATS:4805, SPAN:4805.

CINE:4821 Film/Video Production: Selected Topics 4 s.h.
Exploration of a particular genre, issue, or process; varied topics; individual work on several video projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:3865 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4845 with a minimum grade of C or CINE:4862 with a minimum grade of C.

CINE:4825 Digital Production: Animation 4 s.h.
Intermediate 3D modeling, motion graphics; student projects culminating in CDR or video presentation. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:4841 Film/Video Production: Sound Design 4 s.h.
Exploration of sound design for film and video, from recording to editing and mixing; individual work on several audio and video projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:3865 with a minimum grade of C or CINE:4821 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4845 with a minimum grade of C or CINE:4862 with a minimum grade of C or CINE:4864 with a minimum grade of C.

CINE:4843 Film/Video Production: Image Design 4 s.h.
Lighting strategies and techniques, camera work, composition, and postproduction; individual work on several video projects. Prerequisites: CINE:2863 with a minimum grade of C or CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:3865 with a minimum grade of C or CINE:3876 with a minimum grade of C.

CINE:4845 Film/Video Production: Advanced Editing 4 s.h.
Development of editing techniques and strategies; editing for impact, mood, story; individual work on several video projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:3865 with a minimum grade of C or CINE:3876 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4862 with a minimum grade of C.

CINE:4862 Film/Video Production: Advanced Video4 s.h.
Expanded narrative or nonfiction/documentary topics; individual work on several video projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or THTR:3876 with a minimum grade of C or CINE:4821 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4845 with a minimum grade of C.

CINE:4864 Film Production: Advanced 16mm 4 s.h.
Processes and approaches to short 16mm film; advanced cameras; sync-sound techniques; optical printing; individual work on a single project or several short projects. Prerequisites: CINE:3865 with a minimum grade of C. Requirements: for graduate students—CINE:3865 or recently shot film. Recommendations: for graduate students—CINE:3865 strongly encouraged.

CINE:4890 Media Production Workshop 4 s.h.
Development, production, and realization of a self-directed project; methods and projects may include film, video, screenwriting, or hybrid forms. Prerequisites: THTR:3876 with a minimum grade of B- or CINE:4821 with a minimum grade of B- or CINE:4841 with a minimum grade of B- or CINE:4843 with a minimum grade of B- or CINE:4845 with a minimum grade of B- or CINE:4862 with a minimum grade of B- or CINE:4864 with a minimum grade of B-.

CINE:5500 Success in Graduate Studies 1-3 s.h.
Introduction to graduate studies in film and media-related areas to maximize student success through a series of workshops devoted to research and writing, professionalization, and information sessions with key graduate-related offices and resources on campus.

CINE:5673 Advanced Film Theory 3 s.h.
A major figure, issue, or approach in film theory.

CINE:5675 Advanced Film History 3 s.h.
A major period or topic in film history; issues in film historiography, research.

CINE:5890 Colloquium in Film and Video Production 4 s.h.
Projects and critical studies; focus on varied topics including process and theoretical issues; workshop, readings, production. Recommendations: previous experience with video production; prior cinema courses or filmmaking experience helpful, but not required.

CINE:5900 MA Thesis in Film Studies 3 s.h.
Students research and write their MA thesis essay under close supervision of an advisor; for MA in film studies students in third and fourth semesters.

CINE:6992 Individual Study arr.
Opportunity for prearranged independent study with faculty. Requirements: MA, MFA, or PhD candidate in cinematic arts.

CINE:7615 Film Studies Seminar 3 s.h.
A major figure, issue, or approach in film theory.

CINE:7700 PhD Comprehensive Exam Preparation 3 s.h.
Students plan and study for their fourth semester comprehensive exams under close supervision of an advisor; for PhD in film studies students in their third semester.

CINE:7992 Thesis arr.

Cinema, BA

The major in cinema prepares students as engaged participants in the ever-changing media environment by offering them conceptual and practical tools for analyzing and creating films informed by a dialogue between film studies and film production. Students build a comprehensive knowledge of motion pictures through film studies courses focused on topics such as major film movements, directors, and critical debates in the history and theory of cinema, as well as production courses focused on narrative, documentary, and experimental films, using 16mm and digital technologies.

The major in cinema is an individualized, interdisciplinary study of film and the production of creative work in film, video, and interactive multimedia. It is designed to promote cultural and artistic awareness, increase speaking and writing skills, and develop capacities for systematic reasoning and effective production in cinema arts.

All students are expected to gain a perspective on the study and the production of film, video, or digital media while becoming acquainted with the historical, critical, and theoretical issues of the area. In conjunction with an appropriate overall curriculum, the major in cinema can offer effective preparation for continuing study or creative work in the humanities, arts, and cinema; provide a solid foundation for careers in film, video, television, and digital production; and lead to careers in arts administration, advertising, and business.

Learning Outcomes

Cinema graduates will be able to:

- develop a broad proficiency in cinematic creativity in areas such as editing, cinematography, screenwriting, sound design, and animation as well as the business of filmmaking, while emphasizing their own expressive vision;
- display an understanding of preproduction, production, and postproduction in the filmmaking process; succinctly describe, pitch, and reflect on their own filmmaking practice; benefit from having assessed and evaluated their own and their peers' films in workshops that emphasize constructive critique;
- speak confidently, read critically, and research and write persuasively about the history and theory of cinema as a multifaceted medium with artistic, educational, and cultural implications;
- recognize and critically evaluate the variety of film styles and practices from historical and contemporary, as well as international, perspectives;
- demonstrate the mutually beneficial skills developed across film production and film studies courses by making films informed by film studies and by writing essays informed by filmmaking;
- display critical thinking about the relationship between form and content in moving images;
- apply this knowledge and these skills to a range of 21st-century careers permeated by media production, whether in the film and culture industries; media, arts, and marketing professions; or higher education and other related areas; and
- understand and use cinema as a powerful tool for learning about the world and creating positive change as an engaged global citizen.

Requirements

The Bachelor of Arts with a major in cinema requires a minimum of 120 s.h., including 33 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Students may count a maximum of 56 s.h. of Department of Cinematic Arts coursework (prefix CINE) toward the 120 s.h. required for the Bachelor of Arts degree. A maximum of 9 s.h. of transfer credit may be counted toward the cinema major.

Cinema students may earn a screenwriting arts major if the requirements for each major are met. Both majors require CINE:1602 Introduction to Film Studies and CINE:1834 Modes of Film and Video Production. These two courses are required for both majors and are prerequisites for other key courses in the majors. Students must earn a grade of C or higher in each of these courses to advance in both majors. Students completing both the cinema and screenwriting arts majors may only double count CINE:1602 (3 s.h.) and CINE:1834 (4 s.h.) for a total of 7 s.h. A cinema and screenwriting arts double major requires at least 68 s.h. of coursework in the majors. Students earning a double major in the Department of Cinematic Arts (cinema and screenwriting) may apply more than 56 s.h. from cinematic arts courses (prefix CINE) toward their degree, but they must earn at least 56 s.h. of credit outside the department in order to graduate.

The course CINE:1834 Modes of Film and Video Production is the only production course required for the cinema major. Students may use more advanced production courses to complete the major, but admission to these courses is limited and depends on the student's achievement in prerequisite production courses.

The BA with a major in cinema requires the following coursework.

Requirements	Hours
Required Courses	13
Electives Courses	20

Required Courses

Course #	Title	Hours
All of these:		
CINE:1602	Introduction to Film Studies (with a grade of C or higher)	3
CINE:1834	Modes of Film and Video Production (with a grade of C or higher)	4
CINE:2615	Introduction to Film Theory	3
CINE:3195	Undergraduate Seminar	3

Elective Courses

An additional 20 s.h. in elective cinematic arts coursework (prefix CINE) is required. From the 20 s.h., students must select at least 6 s.h. in advanced film studies courses. CINE:1100 The Art of Smartphone Filmmaking will not count toward the 20 s.h. of required elective credit.

Advanced Film Studies Courses

Advanced film studies courses may be selected from the following.

Course #	Title	Hours
At least 6 s.h. from these:		
CINE:3195	Undergraduate Seminar (students receive advanced film studies credit only if they take this course a second time)	3
CINE:3750	Topics in Cinema and Culture	3
CINE:4610	Studies in Film and Music	3
CINE:4618	Topics in World Cinemas	3
CINE:4620	Topics in Film Form, Style, and Theory	3
CINE:4705	Chicano Cinema	3

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative grade-point average (GPA) of at least 3.33 in all UI coursework and a cumulative GPA of at least 3.50 in all cinematic arts coursework.

Once a student has earned 75 s.h., the student submits a written proposal for an honors thesis, screenwriting, or production project. The proposal must be approved by the faculty member who heads the student's honors thesis/project committee; the committee must be composed of at least two faculty members from the Department of Cinematic Arts. For more specific honors thesis/project requirements in the cinema major, including required courses, contact the Department of Cinematic Arts or visit the department's Honors in Cinematic Arts website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the cinema major.

Career Advancement

Because the film and TV industries include a wide array of jobs, the cinema degree is not a direct track to any one specific career, but it does provide a solid foundation for entry into this field.

University of Iowa graduates have found work on sets in Hollywood and New York as location managers, editors, camera assistants, writers, producer’s assistants, location managers, casting agents, and more. Graduates also have found work in San Francisco, Chicago, Milwaukee, Seattle, and many other cities, with jobs in distribution, programming, documentary research, and education, among others. The U.S. Bureau of Labor Statistics notes in the Occupational Outlook Handbook that occupations for film and video editors and camera operators are expected to grow by 18% over the next decade, which is much higher than average job growth. Related jobs in broadcast and sound engineering are expected to grow by 9%, and film archivist and curator positions are expected to grow by 11%, both much higher than average.

In addition to student-run clubs and professional experiences, students have the opportunity to work with Student Video Production (SVP); the Bijou Film Board; Cinematic Arts Student Organization (CASO); panels with faculty members, current students, and alumni now in the industry; internships; and study abroad. Cinema students also have the option to enroll in CINE:3080 Film/Video Production: The Business of Filmmaking, a course devoted to careers in cinema as well as CINE:2863 Film/Video Production: Film Festival, where students run an internationally recognized documentary film festival.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

CINE:1100 The Art of Smartphone Filmmaking will not count toward the 20 s.h. of required elective cinematic arts credit.

Students must take CINE:1602 Introduction to Film Studies before or with CINE:1834 Modes of Film and Video Production; both courses require grades of C or higher.

Before the fifth semester begins: at least two courses in the major, including CINE:1602 Introduction to Film Studies and CINE:1834 Modes of Film and Video Production; students must earn grades of C or higher in both courses.

Before the seventh semester begins: at least five more courses in the major (total of seven), including CINE:2615 Introduction to Film Theory, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least three more courses in the major, preferably including CINE:3195 Undergraduate Seminar.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b CINE:1602 and CINE:1834 can be taken in any order but should be completed during the first year.

c CINE:1100 will not count toward the 20 s.h. of required elective cinematic arts credit.

d CINE:1625 fulfills the GE CLAS Core Understanding Cultural Perspectives requirement and also counts as semester hours toward the major requirements.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f Options include CINE:1610.

g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

i Students must select at least 6 s.h. in advanced film studies courses from CINE:3195, CINE:3750, CINE:4610, CINE:4618, CINE:4620, CINE:4705. Note: students receive advanced film studies credit for CINE:3195 only if they take the course a second time.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all

requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Screenwriting Arts, BA

The major in screenwriting arts draws on the long and historic creative writing tradition at the University of Iowa by expanding undergraduate offerings to include a program in screenwriting. Students are instructed on practical skills and knowledge needed to become successful members of the screenwriting industry, but they also learn about the history and theories related to screenwriting, encouraging the writing and production of cinema to rise to the level of art.

Learning Outcomes

Screenwriting arts students achieve nine learning outcomes within three major areas.

Obtaining Foundational Understanding and Skills

Students will:

- find and form ideas;
- learn research methods to enhance creativity;
- understand the history and genres of narrative forms and styles; and
- learn the history of world cinema and film language.

Executing, Developing, and Completing Screenplay Projects

Students will:

- engage with step-by-step screenwriting models; and
- edit, workshop, and revise screenwriting drafts.

Practical Skills and Screen Industry Knowledge

Students will learn:

- oral communication skills;
- filmmaking processes including sound, cinematography, editing, and directing; and
- business and industrial dimensions through networking and building communities.

Requirements

The Bachelor of Arts with a major in screenwriting arts requires a minimum of 120 s.h., including 42 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. They must earn a minimum of 30 s.h. for the major at the University of Iowa, with at least 15 s.h. in cinematic arts courses (prefix CINE) taken at the University of Iowa. Students may count a maximum of 56 s.h. of cinematic arts coursework toward the 120 s.h. required for the Bachelor of Arts degree.

Screenwriting arts students may earn a minor in cinema. The cinema minor requires 15 s.h., and a maximum of 3 s.h. may count for both the cinema minor and the screenwriting arts major. Students earning a major in screenwriting arts and a minor in cinema must complete at least 12 s.h. in courses offered by the Department of Cinematic Arts that are not required for the screenwriting arts major.

Screenwriting arts students may earn a cinema major if the requirements for each major are met. Both majors require CINE:1602 Introduction to Film Studies and CINE:1834 Modes of Film and Video Production. These two courses are required for both majors and are prerequisites for other key courses in the majors. Students must earn a grade of C or higher in each of these courses to advance in both majors. Students completing both the screenwriting arts and cinema majors may only double count CINE:1602 Introduction to Film Studies(3 s.h.) and CINE:1834 (4 s.h.) for a total of 7 s.h. A screenwriting arts and cinema double major requires at least 68 s.h. of coursework in the majors. Students earning a double major in the Department of Cinematic Arts (screenwriting and cinema), or a major and minor in the department (screenwriting major and cinema minor) may apply more than 56 s.h. from cinematic arts courses (prefix CINE) toward their degree, but they must earn at least 56 s.h. of credit outside the Department of Cinematic Arts in order to graduate.

The BA with a major in screenwriting arts requires the following coursework.

Requirements	Hours
Foundation Courses	13
Core Courses	20
Elective Courses	9

Foundation Courses

Course #	Title	Hours
All of these:		
CINE:1300	Foundations of Screenwriting (with a grade of C or higher)	3
CINE:1602	Introduction to Film Studies (with a grade of C or higher)	3
CINE:1834	Modes of Film and Video Production (with a grade of C or higher)	4
One of these:		
CW:2870	Fiction Writing	3
THTR:2301	Playwriting I	3

Core Courses

Course #	Title	Hours
All of these:		
CINE:3315	Topics in Screenwriting	3
CINE:3361	Screenwriting: Short Form	3
CINE:3367	Screenwriting: Long Form	3
CINE:4377	Advanced Screenwriting I	4
CINE:4378	Advanced Screenwriting II	4
One of these:		
CINE:2600	Writing Film Reviews and Criticism	3
CINE:2615	Introduction to Film Theory	3
CINE:2868	Film/Video Production: Fiction	3

Elective Courses

Students must complete a minimum of 9 s.h. from the following list of electives that includes related courses on writing fiction, nonfiction, poetry, or other genres, and on production, acting, and directing. Many of these courses are repeatable for credit, allowing students to focus on a single

genre or production experience if they choose to. Some of these courses have additional requirements and prerequisites; students must complete all of a course's prerequisites before they may register for that course. Students should confer with their advisor before they choose elective coursework.

Course #	Title	Hours

Experiential Learning Opportunities

The department offers the following experiential learning courses: CINE:1185 Internship, CINE:1560 Cinematic Arts Ambassador Seminar, and/or CINE:3050 Practicum: Teaching Assistant. Only CINE:1185 counts toward the major.

The major does not require an internship, but an internship (CINE:1185) is an elective course option (see "Elective Courses"). The Department of Cinematic Arts strongly encourages students to participate in internships and related activities.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative grade-point average (GPA) of at least 3.33 in all UI coursework and a cumulative GPA of at least 3.50 in all cinematic arts coursework.

Once a student has earned 75 s.h., the student submits a written proposal for an honors thesis, screenwriting, or production project. The proposal must be approved by the faculty member who heads the student's honors thesis/project committee; the committee must be composed of at least two faculty members from the Department of Cinematic Arts. For more specific honors thesis/project requirements in the screenwriting arts major, including required courses, contact the Department of Cinematic Arts or visit the department's Honors in Cinematic Arts website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the screenwriting arts major.

Career Advancement

Screenwriting arts majors find employment as writers in the entertainment field, including filmmaking as well as TV, marketing, advertising, public relations, and other related areas that specialize in communication through words and images. The U.S. Bureau of Labor Statistics notes in the

Occupational Outlook Handbook that occupations for writers are expected to grow by 8% over the next decade. Related occupations such as public relations will grow at around 10% as well as positions in advertising, promotions, and marketing. Students who study screenwriting will possess the knowledge and skills needed for entry into these related positions.

Screenwriting arts students benefit from the University of Iowa's status as a renowned writing university. The Department of Cinematic Arts organizes panels with faculty members, current students, and alumni working in the industry. In addition to the wealth of internship opportunities at the University of Iowa and surrounding areas, students enroll in CINE:3310 Screenwriting Studies, which addresses career opportunities for screenwriters (e.g., labs, workshops, fellowships) and have the option to enroll in CINE:3080 Film/Video Production: The Business of Filmmaking, a course devoted to careers in cinema.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: at least five courses in the major, including CINE:1300 Foundations of Screenwriting (with a grade of C or higher), CINE:1602 Introduction to Film Studies (with a grade of C or higher), CINE:1834 Modes of Film and Video Production (with a grade of C or higher), CW:2870 Fiction Writing or THTR:2301 Playwriting I, and one required elective course.

Before the seventh semester begins: at least four more courses in the major (total of nine), including CINE:2600 Writing Film Reviews and Criticism or CINE:2615 Introduction to Film Theory or CINE:2868 Film/Video Production: Fiction, CINE:3315 Topics in Screenwriting, CINE:3361 Screenwriting: Short Form, and CINE:3367 Screenwriting: Long Form.

Before the eighth semester begins: at least three more courses in the major, including CINE:4377 Advanced Screenwriting I and one required elective course.

During the eighth semester: enrollment in all remaining coursework in the major, including CINE:4378 Advanced Screenwriting II, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b CINE:1602, CINE:1834, and CINE:1300 should all be completed during the first year.

c CINE:1602 and CINE:1834 can be taken in any order. However, students should prioritize taking CINE:1834 because of seat availability.

d COMM:2069 fulfills the GE CLAS Core Understanding Cultural Perspectives requirement and also counts as semester hours toward the Screenwriting Arts requirements.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f THTR:2301 also satisfies the Literary, Visual, and Performing Arts GE requirement.

g Required if taking CW:2870 as the foundation course elective rather than THTR:2301.

h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

i Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

j Students must complete at least 9 s.h. of related coursework on writing fiction, nonfiction, poetry, or other genres, and on production, acting, and directing; see the General Catalog for list of approved courses.

k Students should complete CINE:4377 and CINE:4378 in the same academic year in sequence. Honors students should take both courses during the third year.

l Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Cinema, Minor

Requirements

The undergraduate minor in cinema requires a minimum of 15 s.h. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Students may count 3 s.h. in approved transfer credit toward the minor. Coursework in the minor may not be taken pass/nonpass.

A maximum of 3 s.h. may be counted toward both the cinema minor and the screenwriting arts major.

Required Courses

Course #	Title	Hours
All of these:		
CINE:1602	Introduction to Film Studies (with a grade of C or higher)	3
Additional cinema coursework (prefix CINE) numbered 1100 and above		12

Film Studies, MA

Learning Outcomes

Students will:

- build requisite skills for PhD-level study, including academic research and writing, public presentations, publishing, and grant applications;
- identify and apply concepts of film and media theory in scholarship as well as pedagogical practice;
- identify and apply methods of film historiography, including evaluating and working with archival materials;
- develop a broad understanding of the discipline's history, current status, and potential future;
- acquire knowledge of cinema's historical periods, global variations, and diverse forms; and
- acquire a diverse set of professionalization skills in order to explore film- and media-related career possibilities within and beyond academia.

Requirements

The Master of Arts program in film studies requires a minimum of 36 s.h. of graduate credit, of which 24 s.h. must be earned at the University of Iowa. Students must earn a minimum program grade-point average of 3.25.

The 36 s.h. are typically acquired by taking 12 graduate-level courses that span two years. The program's focus is on advanced film theory and film history in an international context.

Students meet formal degree requirements through coursework and a written MA thesis essay produced in the second year, followed by an oral examination.

The MA in film studies requires the following coursework.

Core Requirements

Course #	Title	Hours
All of these:		
CINE:5500	Success in Graduate Studies (consult advisor about semester hour enrollment)	1-3
CINE:5673	Advanced Film Theory	3
CINE:5675	Advanced Film History	3
CINE:5900	MA Thesis in Film Studies (taken twice for 3 s.h. each)	6

Language Study

Up to 6 s.h. in languages and literatures courses numbered 3000 or above in an area other than English may be counted toward the degree.

Electives

Students are required to enroll in the two graduate courses offered by the Department of Cinematic Arts each semester. This requirement of two per semester does not include the required CINE:5500 Success in Graduate Studies or CINE:5900 MA Thesis in Film Studies (third and fourth semesters). Remaining elective hours may be taken in courses selected from other departments; students should consult their advisor.

More information on the program is available on the Department of Cinematic Arts website.

Admission

A faculty committee chaired by the head of film studies evaluates applications to the MA program. Application materials should include undergraduate and/or graduate transcripts, a personal statement, a writing sample, three letters of recommendation, and samples of creative work when relevant. Admission decisions are based on the full range of an applicant's accomplishments and evidence that the applicant will fit the elements of the program and will thrive in the department.

Minimum admission requirements: Applicants should have a BA in film studies or a related discipline.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Information about the application process is available on the Department of Cinematic Arts website and the Graduate Admissions website.

Career Advancement

The Master of Arts degree typically prepares students for continued, advanced graduate work in film studies at the University of Iowa or elsewhere. However, students have used their MA training in film theory and history to seek careers in other areas, including film criticism, positions at film archives or film festivals, or within various facets of the film industry.

The Graduate College is prepared to help graduates explore careers related to or that build upon their training. In conjunction with the Graduate College, the Department of Cinematic Arts is also committed to helping graduate students explore a range of alternative careers that take advantage of their specific training. In addition, the Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Given the program's emphasis upon the study of film in an international context, world language acquisition is considered to be highly advantageous. Up to 6 s.h. in languages and literatures courses numbered 3000 or above in an area other than English may be counted toward the degree.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d Does not count as one of the two Film Studies courses required each semester.

e Must be taken during first year fall semester.

f MA thesis must be submitted to the committee at least two weeks prior to the Graduate College defense deadline for spring.

Film and Video Production, MFA

Learning Outcomes

Students will:

- develop an artistic vision that will inform an emerging practice of film and video production, and begin to develop a portfolio;
- learn the advanced technical aspects of production from cinematography and editing to sound design;
- acquire a broad range of knowledge in film and media theories and histories;
- develop skills and experience in academic research and critical writing; and
- develop professionally, including showing work at festivals, applying for grants and residencies, acquiring requisite skills for academic employment, and learning the skills for successful job applications.

Requirements

The Master of Fine Arts program in film and video production requires 59 s.h. of graduate credit, 24 of which must be earned at the University of Iowa. Students must earn a minimum program grade-point average of 3.00.

Graduate credit is typically acquired through advanced production courses, graduate colloquia, and advising-centered thesis courses taken over three years. With a focus on expanded documentary, experimental, hybrid, and narrative media forms, the curriculum combines creative and scholarly coursework with the aim of producing a body of innovative, artistic work in film, digital media, multimedia installation, and/or animation. Degree requirements include advanced coursework in film/media theory or history, annual public presentations and critiques, the development of an artist statement, a thesis paper, and a creative thesis project.

Students may not enroll in cinematic arts courses (prefix CINE) numbered below 5000 with the exception of the following courses that count toward their degree: CINE:4821, CINE:4841, CINE:4843, CINE:4845, CINE:4862, CINE:4864, and CINE:4890. These courses also count toward the degree if they are taken as electives: CINE:3865 Film/Video Production: Material of 16mm Filmmaking, CINE:4377 Advanced Screenwriting I, and CINE:4378 Advanced Screenwriting II. Candidates may enroll in courses numbered below 5000 from areas outside of cinematic arts but those courses do not count toward their degree.

Students may take CINE:4890 Media Production Workshop and CINE:5890 Colloquium in Film and Video Production as electives in their third year while they complete their thesis requirement.

The MFA in film and video production requires the following coursework.

Required Courses

This coursework must be taken before thesis clearance.

Course #	Title	Hours
Both of these:		
CINE:4890	Media Production Workshop	4
CINE:5890	Colloquium in Film and Video Production (taken twice for 4 s.h. each)	8
12 s.h. in advanced production courses from these:		
CINE:4821	Film/Video Production: Selected Topics	4
CINE:4841	Film/Video Production: Sound Design	4
CINE:4843	Film/Video Production: Image Design	4
CINE:4845	Film/Video Production: Advanced Editing	4
CINE:4862	Film/Video Production: Advanced Video	4
CINE:4864	Film Production: Advanced 16mm	4
All of these:		
Two graduate courses in film theory/history		6
Two courses from related areas outside the Department of Cinematic Arts		6
Additional electives numbered 4000 and above		5

Required Courses After Thesis Clearance

Course #	Title	Hours
All of these:		
CINE:7992	Thesis	12
Additional electives numbered 4000 and above		6

Students should consult their advisor for specific information related to MFA requirements.

Admission

A faculty committee chaired by the head of film and video production evaluates applications to the MFA program. Application materials should include undergraduate and/or graduate transcripts, a personal statement, three letters of recommendation, samples of creative work, test scores, and writing samples when relevant. Admission decisions are based on the full range of an applicant's accomplishments and evidence that the applicant will thrive in the department's program. Previous academic experience in moving image production is desirable but not required.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Information about the application process is available on the Department of Cinematic Arts website and the Graduate Admissions website.

Career Advancement

The film and video production program has a remarkable job placement record, with graduates located in faculty positions at major research universities and prestigious liberal arts colleges throughout the world. Graduates have shown their work at major festivals around the world, including Cannes, Slamdance, TIFF, Berlinale, Locarno, and SXSW. Through their creative work and published research, graduates are visible and productive contributors to film and video production and related disciplines.

Within the program, faculty mentor students toward professional careers by supervising their development as both innovative moving-image makers and scholars. Regular one-on-one advising sessions, group critiques, and workshops on topics such as film festival submissions, job interviews, and related topics prepare students for academic and artistic careers. Students are also regularly advised on applying for grants and awards to facilitate their advanced research, whether conducted in Iowa or elsewhere.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

c Take twice for total of 8 s.h.

d Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

e Work with faculty advisor to determine appropriate coursework and sequence.

f Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

g Completion of all degree requirements including MFA thesis project.

Film Studies, PhD

Learning Outcomes

Students will:

- solidify skills for work in the discipline, including researching and writing a book-length study, public presentations, publishing, grant applications, etc.;
- gain confidence and fluency working with concepts of film and media theory and learn to synthesize, adapt, contextualize, and critique theoretical approaches;
- acquire and mobilize advanced primary research skills and deepen their ability to work with models and methods of film historiography, and to articulate historical sources with theoretical approaches;
- acquire and mobilize an advanced understanding of the discipline's history and current status;
- acquire and mobilize advanced discipline-level knowledge in historical periods, global variations, and diverse forms, and learn to take a position in the future development of film and media studies;
- learn the fundamental skills for undergraduate-level teaching in film and media studies; and
- deepen professionalization skills in order to explore film and media-related career possibilities within and beyond academia (for example, in media and arts organizations, publishing, teaching, archives, film programming, and festivals).

Requirements

The Doctor of Philosophy program in film studies requires a minimum of 72 s.h. of graduate credit, of which 39 s.h. must be earned at the University of Iowa after a student has received their MA degree. Semester hours are earned through coursework and eventually work focused on the completion of a dissertation. Students must earn a minimum program grade-point average of 3.25.

The program's coursework is broadly concentrated in film history and film theory, with specific courses offered on a wide range of topics. With the regular consultation and guidance of a faculty advisor and committee, students formulate and pursue a plan of study during their first year in the program; prepare and conduct a written and oral comprehensive examination typically in their second or third year; write and present a dissertation prospectus to a carefully selected committee; and complete a dissertation in an area of advanced, original research that is defended orally in a meeting with the student's committee prior to final deposit. A detailed summary of the requirements for the PhD in film studies is available on the Department of Cinematic Arts website.

The PhD in film studies requires the following coursework.

Core Requirements

Course #	Title	Hours
All of these (must be taken at the University of Iowa):		
CINE:5500	Success in Graduate Studies (consult advisor about semester hour enrollment)	1-3
CINE:5673	Advanced Film Theory (taken twice for 3 s.h. each)	6
CINE:5675	Advanced Film History (taken twice for 3 s.h. each)	6
CINE:7615	Film Studies Seminar	3
CINE:7700	PhD Comprehensive Exam Preparation	3
CINE:7992	Thesis	4

Seminar course numbered 7000 or above

Electives

Students are required to enroll in the two graduate courses offered by the Department of Cinematic Arts each semester. This requirement of two per semester does not include the required CINE:5500 Success in Graduate Studies or CINE:7700 PhD Comprehensive Exam Preparation (typically taken in the fourth semester when the student does their comprehensive exams). Remaining elective hours may be taken in courses selected from other departments; students should consult their advisor.

More information on the program is available on the Department of Cinematic Arts website.

Admission

A faculty committee chaired by the head of film studies evaluates applications to the PhD program. Application materials should include undergraduate and/or graduate transcripts, a personal statement, a writing sample, three letters of recommendation, and samples of creative work when relevant. Admission decisions are based on the full range of an applicant's accomplishments and evidence that the applicant will fit the elements of the program and thrive in the department.

Minimum admission requirements: Applicants should have a BA in film studies or a related discipline and either an MA in film studies or a related discipline, or an MFA in film production with significant experience in film studies.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Information about the application process is available on the Department of Cinematic Arts website and the Graduate Admissions website.

Career Advancement

The PhD program in film studies has an impressive job placement record, with graduates located in faculty positions at major research universities and prestigious liberal arts colleges throughout the world. Graduates are, through their published research, visible and productive contributors to film studies and related disciplines, and many have served in leadership positions within professional organizations such as the Society for Cinema and Media Studies.

Within the program, faculty mentor students toward professional careers by supervising their development as both effective teachers and scholars. Regular workshops offered on topics such as journal and conference submissions, job interviews, and related topics help prepare students for careers within and beyond academia. Students are also regularly advised on applying for grants and awards to facilitate their advanced research, whether conducted in Iowa or elsewhere.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

e Must pass four hour written exam on each of the three major plan of study areas.

f Must pass prospectus no later than the semester following successful completion of the comprehensive exam.

g Typically satisfied with master's graduate transfer credit.

h Dissertation submission and defense.

Classics

Interim Chair

- Robert R. Cargill

Undergraduate majors: ancient civilization (BA); classical languages (BA)

Undergraduate minors: ancient civilization; classical languages; Greek; health and the human condition; Latin

Postbaccalaureate certificate: classics

Graduate degrees: MA in classics; MA in Greek; MA in Latin; PhD in classics

Faculty: https://classics.uiowa.edu/people

Website: https://classics.uiowa.edu/

Classics is the study of ancient languages, literatures, and cultures of the Mediterranean basin from approximately 2000 B.C.E. to 800 C.E. It embraces three civilizations—the Minoan-Mycenaean, Greek, and Roman; many languages —Greek, Latin, Hebrew, Aramaic, Syriac, and Coptic; and a geographical area including Europe, North Africa, Egypt, the eastern Mediterranean, and Mesopotamia. The Department of Classics provides a basis for understanding and interpreting the contribution of the ancient world to life in the present and the future.

The department offers a substantial selection of courses taught in English at the undergraduate and graduate levels; several are approved for the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Undergraduates in all majors may satisfy the World Languages requirement of the GE CLAS Core with courses in Greek, Latin, or Biblical Hebrew; see "Language for GE CLAS Core." The department's First-Year Seminar introduces entering undergraduates to classics.

The Department of Classics also administers the interdisciplinary undergraduate minor in health and the human condition.

Language for GE CLAS Core

The Department of Classics offers course sequences in Greek, Latin, and Biblical Hebrew that students in all majors may use to fulfill the World Languages requirement of the GE CLAS Core. For more information regarding pathways to fulfill the World Language GE CLAS Core requirement, including options to take four levels of the same language, two levels each of two different languages, or three levels of a language plus a World Language and Cultural Exploration course, see GE CLAS Core in the catalog.

Students who have had previous coursework or other experience with Greek or Latin should take the appropriate language placement test, which helps determine the level at which a student should begin Greek or Latin language study at the University of Iowa.

Programs

Undergraduate Programs of Study

- Major in Ancient Civilization (Bachelor of Arts) [p. 224]
- Major in Classical Languages (Bachelor of Arts) [p. 229]

Minors

- Minor in Ancient Civilization [p. 232]
- Minor in Classical Languages [p. 233]
- Minor in Greek [p. 234]
- Minor in Health and the Human Condition [p. 236]
- Minor in Latin [p. 237]

Postbaccalaureate Program of Study

Certificate

- Certificate in Classics [p. 238]

Graduate Programs of Study

- Master of Arts in Classics [p. 239]
- Master of Arts in Greek [p. 240]
- Master of Arts in Latin [p. 241]
- Doctor of Philosophy in Classics [p. 242]

Facilities

University of Iowa Libraries' Main Library and the Art Library house extensive collections of classical texts and uninterrupted runs of classical periodicals from 1850 that facilitate research in the major areas of Greek and Roman civilization. The Department of Classics has a varied collection of slides on classical subjects and a small library of reference works, texts, and issues of classical and archaeological journals. The department's classical museum contains a small collection of coins, vases, and facsimiles in bronze from Mycenae, Pompeii, and Herculaneum.

The university is a supporting institution of the American School of Classical Studies at Athens. Consult the director of undergraduate studies for more information.

The department offers students the opportunity to participate in an archaeological dig during the summer. Contact the Department of Classics in mid-February for details.

Courses

- Classics: Ancient Civilizations Courses [p. 217]
- Greek Courses [p. 222]
- Latin Courses [p. 222]

Classics: Ancient Civilizations Courses

All readings for these courses are in English; previous knowledge of Greek or Latin is not required.

CLSA:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CLSA:1010 Hero, God, Mortal: Literature of Greece 3 s.h.
Ancient Greek literature and culture as it responded to Homer; may include genre (e.g., epic to tragedy), religion, changing concept of hero, interaction with Mediterranean cultures, myth versus history. GE: Literary, Visual, and Performing Arts.

CLSA:1020 Love and Glory: The Literature of Rome 3 s.h.
Main themes and works of ancient Roman literature; works reflecting conflict of personal desire and public self in Rome. GE: Literary, Visual, and Performing Arts.

CLSA:1040 World Literature in Translation I 3 s.h.
Reading and analysis of major literary texts from writing's origins to 1700 in the Mediterranean, Asia, and Africa; interrelationship of literature and history. Taught in English. GE: Literary, Visual, and Performing Arts. Same as TRNS:1240.

CLSA:1181 Ancient Medicine 3 s.h.
Thematic examination of theories and practices of Greco-Roman physicians, which in turn became the medical tradition of medieval Islamic world and European medicine until mid-19th century; historical medical terms, theories, and practices. GE: Historical Perspectives. Same as GHS:1181.

CLSA:1200 Interpretation of Ancient Literature 3 s.h.
Development of skills in literary interpretation through study of ancient Greek, Roman, and non-Greco-Roman literature of the ancient Mediterranean in translation. Students read dramatic and nondramatic poetry, fictional and nonfictional prose, non-Greco-Roman literature of ancient Mediterranean, and classical reception; 8th century B.C.E. to 4th century C.E. GE: Interpretation of Literature.

CLSA:1340 Magic in the Ancient World 3 s.h.
Ancient Greek and Roman writings on magic, including ancient spells and charms. GE: Values and Society.

CLSA:1415 Ancient Origins of Religious Conflict 3 s.h.
Examination of ancient origins of the world's modern religions, their diversity, and religious conflict worldwide; ancient Mesopotamian and Mediterranean religions, Judaism, Christianity, and Islam; international events, fundamentalism, and protest movements. GE: Understanding Cultural Perspectives.

CLSA:1454 Hebrew Bible for Everyone 3 s.h.
Introduction to the Hebrew Bible/Old Testament; examination of the collected writings that comprise it within their historical and cultural contexts; analysis of how the literary contents of the Pentateuch, historical, prophetic, and poetic books reflect, reject, or otherwise interact with cultural and historical circumstances of their writing and reception. GE: Values and Society.

CLSA:1455 New Testament for Everyone 3 s.h.
Introduction to the Christian New Testament; examination of the collected writings that comprise it within their historical and cultural contexts; analysis of how the literary contents of the Gospels, Acts, Pauline letters, general epistles, and apocalyptic texts reflect, reject, or otherwise interact with cultural and historical circumstances of their writing and reception. GE: Values and Society.

CLSA:1740 Writing Strategies: Word Origins and Word Choice 3 s.h.
Study of words, their meanings, and their origins combined with writing; words and word histories; role of English language in the world. GE: Literary, Visual, and Performing Arts. Same as WRIT:1740.

CLSA:1805 Legends and Heroes of Ancient Rome 1 s.h.
Introduction to narratives of Roman heroes from Livy, Ovid, and Plutarch; background information for further study in classics.

CLSA:1809 Ancient World on the Modern Screen 3 s.h.
Cinematic depictions of the classical world compared with scholarly views; selected films and primary ancient sources of the same period. GE: Literary, Visual, and Performing Arts.

CLSA:1830 Greek Civilization 3 s.h.
History, literature, art, architecture, religion, social life ca. 3000 B.C.E. to second century B.C.E. GE: Historical Perspectives.

CLSA:1840 Roman Civilization 3 s.h.
History, literature, politics, religion, social structure from eighth century B.C.E. to second century C.E. GE: Historical Perspectives.

CLSA:1875 Ancient Sports and Leisure 3 s.h.
Sports, games, and hobbies in the ancient world, primarily Greece and Rome, 1500 B.C.E. to 500 C.E.; ancient Olympic games, Roman festival games; anthropology of sport. GE: Values and Society.

CLSA:1910 Ancient and Modern Worlds: Common Problems 3 s.h.
Exploration of how many modern world problems can profitably be compared to problems arising in the ancient Mediterranean world and from ancient peoples' responses to those problems. GE: Understanding Cultural Perspectives.

CLSA:2016 Classical Mythology 3 s.h.
Introduction to ancient Greek and Roman myths with focus on using these sources as interpretations of culture and human psyche; emphasis on flexibility of myth and its importance for understanding ancient history, art, literature, religion, and philosophy. GE: Literary, Visual, and Performing Arts; Values and Society.

CLSA:2048 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, COMM:2248, GRMN:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

CLSA:2127 Books of the Silk Roads 3 s.h.
Manuscripts and global manuscript cultures from a comparative, interdisciplinary perspective; history of the book in the East and West; diverse material supports, physical formats, and written layouts of manuscripts of the 1st to 19th centuries, including social and cultural contexts; manuscript traditions of particular cultural spheres (Europe, the Middle East and North Africa, India, East Asia) and historical processes of diffusion, remediation, and obsolescence. Taught in English. GE: World Language and Cultural Exploration. Same as ASIA:2127, JPNS:2127.

CLSA:2144 Engineering and Technology in the Ancient World 3 s.h.
Technologies developed and used in the ancient world—primarily in Greece and Rome, also in Egypt and the Ancient Near East; agriculture and food preparation; construction and architecture; technologies related to warfare. Same as HIST:2444.

CLSA:2151 Roman Law, Order, and Crime 3 s.h.
Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Same as HIST:2431.

CLSA:2226 Ancient Art From the Great Pyramids of Egypt to the Colosseum in Rome 3 s.h.
Art and architecture of the Mediterranean world (ca. 3500 B.C.E.) to death of Constantine (337 C.E.); Egyptian, Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, religion. GE: Historical Perspectives. Same as ARTH:2320.

CLSA:2330 Ancient Egyptian, Mesopotamian, and Persian Art 3 s.h.
Art and architecture of Egypt and the Near East (ca. 3500 B.C.E.) to advent of Islam; Egyptian, Sumerian, Assyrian, Babylonian, and Persian cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as ARTH:2330.

CLSA:2340 The Power of Art in Greece and Rome 3 s.h.
Art and architecture of Greece and Rome (ca. 3000 B.C.E.) to death of Constantine (337 C.E.); Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as ARTH:2340.

CLSA:2444 Cities of the Bible 3 s.h.
Survey of the history and archaeology of key biblical cities and the contributions they made to the formation of the Bible. GE: Historical Perspectives. Same as RELS:2444.

CLSA:2461 Middle East and Mediterranean: Alexander to Suleiman 3 s.h.
GE: Historical Perspectives. Same as HIST:2461, RELS:2361.

CLSA:2482 Ancient Mediterranean Religions 3 s.h.
Introduction to major religious traditions of ancient Mediterranean world; Mesopotamia, the Levant (Hebrew Bible), Egypt, Greece, and Rome; central aspects of mythology, ritual, and archaeology, individually and in comparative perspective; ancient Judaism and Christianity considered in their various cultural contexts; basic concepts for understanding cultural exchange; fundamental theories in the study of religion. GE: Values and Society. Same as RELS:2182.

CLSA:2489 Jerusalem: The Holy City 3 s.h.
Religious, political, and cultural history of Jerusalem over three millennia as a symbolic focus of three faiths—Judaism, Christianity, and Islam; integration of several digital learning technologies, including digital reconstructions and Google Earth tours of Jerusalem. Same as RELS:2289.

CLSA:2620 Sex and the Bible 3 s.h.
Examination and analysis of the role of the Bible in contemporary culture; how different groups can read the exact same passages, yet reach different conclusions about how they and others should live. Recommendations: basic familiarity with the Bible or religion. GE: Understanding Cultural Perspectives. Same as RELS:2620.

CLSA:2651 Gender and Sexuality in the Ancient World 3 s.h.
Survey of gender and sexuality issues in the social, political, and religious life of ancient Greece and Rome; evidence from literature, the visual arts, archaeology. Requirements: completion of GE CLAS Core Rhetoric and sophomore standing. GE: Values and Society. Same as GWSS:2651.

CLSA:2800 Race and Ethnicity in the Ancient Mediterranean World 3 s.h.
Exploration of the history of race and ethnicity in the ancient world; how people were defined, stereotyped, and outcast by Greeks and Roman culture. GE: Understanding Cultural Perspectives.

CLSA:2910 Egyptian Hieroglyphs 3 s.h.
Introduction to study of Egyptian hieroglyphs and ancient Egyptian language and culture; basic signs and their sound equivalents; more than four hundred signs which constitute written Egyptian of the Middle Kingdom; students read and construe inscriptions that might be encountered in the Egyptian exhibits of museums.

CLSA:3016 Myth Makers of the Classical World 3 s.h.
Continuation of CLSA:2016; emphasis on minor Greek and Roman sources and understanding ancient authors' and artists' motivations for depicting myths; students adapt ancient myths to modern world through writing exercises. Prerequisites: CLSA:2016.

CLSA:3020 Mental Health in the Ancient World 3 s.h.
Exploration of approaches to mental health in ancient Mediterranean world including Mesopotamia, the Levant, Greece, and Rome; examination of nosology, etiology, therapy, and ethics of mental health from ancient medical, philosophical, religious, and literary perspectives; mental health in cultural contexts. Same as GHS:3021.

CLSA:3105 Contraception Across Time and Cultures 3 s.h.
Methods and history of contraception; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as GHS:3105, GWSS:3105, WLLC:3105.

CLSA:3143 Rome at War 3 s.h.
Addresses the development and conduct of war by the Roman state from circa 500 BCE through circa 400 CE. Topics include state priorities for use of the military, methods of conducting war, and military organization. Same as HIST:3443.

CLSA:3148 Barbarians and the Fall of Rome 3 s.h.
Did barbarian hordes cause the decline and fall of the Roman Empire? In the span of just a few hundred years, the Roman Empire of the Mediterranean world was transformed in terms of culture, religion, and the peoples that inhabited it, but we can't place all the blame for the so-called fall of Rome on the Huns, Visigoths, Vandals, and other migrating peoples; students explore textual, visual, and archaeological evidence for the spread of these “barbarian” cultures, the sacking of Rome, and the late antique transition to the Middle Ages from 200-800 C.E. Same as HIST:3448.

CLSA:3227 Classical Greek Art 3 s.h.
Art and architecture of classical Greece (ca. 480-323 B.C.); monuments of this period—from Parthenon in Athens to Aphrodite of Knidos—often viewed as embodiments of the highest achievements in Western art and culture; classical Greek art within social, political, religious, and historical contexts; role in ancient Greek society and its impact in the 21st century. Same as ARTH:3330.

CLSA:3232 Art of Early Rome: Patrons and Politics 3 s.h.
Examination of architecture, sculpture, and painting in central Italy from c. 800 B.C. to the end of the Roman Republic in 27 B.C.; art in the service of social ideology and political propaganda; funerary art and its relationship to the living; artistic interactions between Etruria, Greece, and Rome. Same as ARTH:3350.

CLSA:3233 Art of the Ancient Roman Empire 3 s.h.
Major developments in architecture, sculpture, and painting from the ascension of Augustus to sole ruler in 31 B.C. to the death of Constantine in A.D. 337; influence of individual emperors on the development of artistic forms; relationship between public and private art; interdependency of Rome and the provinces. Same as ARTH:3360.

CLSA:3234 Life and Death in Ancient Pompeii 3 s.h.
Art and architecture as documents of ancient life in Pompeii, a town that was destroyed during the eruption of Mount Vesuvius in 79 C.E.; topics include artistic choices and achievements of the city's inhabitants, roles played by men and women inside and outside the family, slavery, political organization and expression, and attitudes towards death. Same as ARTH:3370.

CLSA:3235 Greek Archaeology 3 s.h.
Archaeology and ethnology of the Greek world, from end of Bronze Age to late Roman Empire; sociocultural processes that influence development and persistence of Greek civilization. Same as ANTH:3276.

CLSA:3240 Roman Archaeology 3 s.h.
Archaeology and ethnology of Roman civilization from Iron Age eighth-century occupation of the Palatine Hill to the end of the Roman Empire in the West, A.D. 476. Same as ANTH:3277.

CLSA:3247 Banned From the Bible: Pseudepigrapha and Apocrypha 3 s.h.
Introduction to biblical Pseudepigrapha and Apocrypha; writings dating from third century B.C.E. to third century C.E. fictionally attributed to characters in the Hebrew Bible and New Testament, or written as though they originated in the First or Second Temple periods, not included in Jewish or major Christian canons of scripture; English translations of documents from this period; key themes and interpretative techniques common throughout biblical texts that provide tremendous insight into the worlds that produced the Hebrew Bible and New Testament. Same as RELS:3247.

CLSA:3250 Greek Vase Painting 3 s.h.
Greek ceramics as documents of religious beliefs, mythology, and daily life 1000-300 B.C.E. Same as ARTH:3340.

CLSA:3288 Shakespeare's Romans: The Ancient World Meets the Elizabethan Stage arr.
London was a distant outpost of the Roman Empire, but the Romans had an outsized influence on Shakespeare's plays and poems; students explore those works and their sources in classical authors, including Ovid and Plutarch. Same as ENGL:3288.

CLSA:3401 Ancient Egypt and the Ancient Near East 3 s.h.
Survey of political, economic, religious, and social change in ancient Egypt from ca. 3000 B.C.E. until its conquest by Persia, and of the ancient Near East from ca. 3000 B.C.E. until Alexander the Great's conquests. Same as HIST:3401.

CLSA:3404 The World of Ancient Greece 3 s.h.
Survey of Greece history from ca. 2000 B.C. to 300 B.C.; Minoan, Mycenaean, and Greek society and culture; contact between Greek mainland and eastern Mediterranean cultures; development of the polis; political developments throughout the period; readings include a variety of sources in translation as well as modern interpretations; methodological problems in studying ancient Greece including interpretation of ancient historiography and using evidence from art, archaeology, and literature; knowledge of ancient Greek not required. Same as HIST:3404.

CLSA:3416 Greek Religion and Society 3 s.h.
From Bronze Age to the Hellenistic period, in context of Mediterranean culture; evidence such as choral hymn, inscribed prayers, magical curses inscribed on lead, architecture, sculpted offerings to the gods. Same as RELS:3716.

CLSA:3443 Pagans and Christians: The Church From Jesus to Muhammad 3 s.h.
Introduction to history of early Christianity, from time of Jesus to rise of Islam; focus on major movements, intellectuals, institutions in this period; growth of Christianity in different geographical areas including the Middle East, Greece, Western Europe, Africa; Christian relations with Jews, pagans, Muslims; conversion; orthodoxy, heresy, making of biblical canon; martyrdom; women and gender roles; asceticism, monasticism, sexuality; church and state; theological controversy and schisms; cult of saints; the Holy Land and pilgrimage. Same as RELS:3243.

CLSA:3445 Mythology of Otherworldly Journeys 3 s.h.
Examination of mythology of otherworldly journeys from earliest religions to Hellenistic period; historical context; comparison for common themes in their evolution over time; directed readings of mythological texts dealing with otherworldly journeys; ways in which past cultures confronted larger mysteries of life and death. Same as RELS:3245.

CLSA:3514 Roman Religion and Society 3 s.h.
Roman religion of the Republic, from ca. 753 B.C.E. to 44 B.C.E.; highly organized priesthood of politically powerful men and women in religious colleges in Rome who moderated and interpreted city-wide religious practice; how Romans worshipped their gods; Roman theology—what Romans thought about the divine world—and their religious response to crises; evidence from festival calendar, temple architecture, religious art, poetry, inscriptions, plays, and various other texts.

CLSA:3596 Egyptian Archaeology 3 s.h.
Introduction to the archaeology of ancient Egypt from predynastic times to Roman Egypt, including monumental architecture; patterns of everyday life; social, economic, and demographic considerations; history of archaeology in Egypt. Same as ANTH:3275.

CLSA:3666 Angels and Demons 3 s.h.
History and development of angels, demons, and the devil in Jewish and Christian theology and literature.

CLSA:3742 Word Power: Building English Vocabulary 3 s.h.
Analysis of unfamiliar English words through knowledge of the history and meaning of word parts. Same as WRIT:3742.

CLSA:3750 Medical and Technical Terminology 2 s.h.
Memorization of word stems and basic medical terms, practice on computer terminal; no formal classes.

CLSA:3821 City of Athens: Bronze Age to Roman World 3 s.h.
Athens from Bronze Age to end of Roman period; topics include the city's role in development of political democracy and religion, as well as the art and archaeology of the city. Same as ANTH:3821, HIST:3403.

CLSA:3836 Food in Ancient Mediterranean Society 3 s.h.
Practices and values influenced by consumption and production of food in ancient Mediterranean societies; varied topics, including methods of food production and distribution, hierarchies of status as associated with food, food and ethnic identity, food and health, food and religion; focus on classical Greek and Roman society, Egypt, the ancient Near East, and Persia. Recommendations: familiarity with Greek and Roman civilization and history. Same as ANTH:3204, HIST:3436.

CLSA:3900 Special Topics in Classics 1-3 s.h.
Examination of a specific topic of interest related to classics.

CLSA:3920 Video Games and the Ancient World 3 s.h.
Examination of ancient society, culture, and sources through in-class game play and discussion of video games.

CLSA:3979 Undergraduate Translation Workshop 3 s.h.
Translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Same as ENGL:3850, TRNS:3179.

CLSA:3980 Teaching in the Classics 1,3 s.h.
Instructional approaches and issues in teaching ancient language and civilization at secondary and college levels. Prerequisites: CLSG:1002 or CLSL:1002.

CLSA:3982 Graduation Portfolio 0 s.h.
Submission of final graduation portfolio required for classical languages and ancient civilization majors. Requirements: classical languages or ancient civilization major, and senior standing.

CLSA:4080 Undergraduate Teaching Assistantship 2-3 s.h.
Develop teaching skills by working as an undergraduate teaching assistant under the mentorship of a faculty supervisor.

CLSA:4085 Postbaccalaureate Seminar 1 s.h.
Current work of postbaccalaureate students; preparation of writing sample and portfolio. Requirements: postbaccalaureate certificate enrollment.

CLSA:4090 Private Assignments arr.
Readings in classical literature in translation.

CLSA:4095 Honors Readings arr.
Discussion, readings, research for a paper on ancient civilization. Requirements: ancient civilization major.

CLSA:4106 Warfare in Ancient Mediterranean Society 3 s.h.
Same as HIST:4406.

CLSA:4400 The Roman Empire 3 s.h.
History of Roman Empire from assassination of Julius Caesar through 5th century A.D.; political, economic, cultural, and social developments from the transition to imperial power to the shift of power from west to east. Same as HIST:4400.

CLSA:4403 Alexander the Great 3 s.h.
History of Alexander the Great and the generals who succeeded him in ruling the lands he conquered; military, political, and social history. Same as HIST:4403.

CLSA:4452 The Dead Sea Scrolls 3 s.h.
Introduction to the Dead Sea Scrolls; reading of the scrolls in English translation; examination of Qumran site archaeology; survey of broader sociopolitical context of Second Temple Judaism (586 B.C.E. to 135 C.E.) out of which the scrolls emerged. Same as RELS:4352.

CLSA:4901 Biblical Hebrew I 3-4 s.h.
Introduces students with no prior Hebrew experience to Biblical Hebrew, the language used to compose the bulk of the Hebrew Bible. Introduction to the Hebrew alphabet, vocabulary, and grammar, culminating with reading and comprehending passages from the Hebrew Bible. GE: World Languages First Level Proficiency. Same as RELS:4001.

CLSA:4902 Biblical Hebrew II 3 s.h.
Continues the language instruction sequence begun in CLSA:4901. Deepens understanding of Hebrew vocabulary and grammar, and the ability to read and comprehend passages from the Hebrew Bible. GE: World Languages Second Level Proficiency. Same as RELS:4002.

CLSA:4911 Coptic I 3 s.h.
Introduction to Coptic grammar and literature in several dialects, with introductory readings from the New Testament, monastic authors, and Gnostic and Manichaean texts.

CLSA:4912 Coptic II 3 s.h.
Continuation of CLSA:4911.

CLSA:5010 Proseminar in Classics 1 s.h.
Texts, techniques, and trends in classical scholarship; areas and subtopics of classical scholarship.

CLSA:5900 Advanced Special Topics in Classics 3 s.h.
Advanced examination of a specific topic of interest related to classics.

CLSA:5903 Biblical Aramaic 3 s.h.
This course introduces the basics of Biblical Aramaic grammar and syntax and provides an introduction to the Biblical lexicon. There will be extensive grammatical exercises, both in class and at home, as well as frequent opportunities to apply grammatical and lexical knowledge to the Biblical text. Recommendations: Biblical Hebrew recommended. Same as RELS:5001.

CLSA:5904 Targumic Aramaic 3 s.h.
Language used by Targums—Aramaic translations of the Hebrew Bible—for use in the study of interpretative traditions of later Jewish groups. Same as RELS:5002.

CLSA:6100 Seminar: Theory and Method 3 s.h.
Exploration of various theories and methods related to the field of classics.

CLSA:6200 Graduate Seminar in Ancient Art 3 s.h.
Key themes and issues in ancient art. Same as ARTH:6300.

CLSA:6910 Graduate Pedagogy 1 s.h.
Pedagogical theories on teaching classics in translation, practical application of those theories; classroom management, grading, syllabus development; university, college, and department regulations. Requirements: graduate standing, and teaching assistant or instructor in classics courses taught in English.

CLSA:7080 Ancient Language Thesis arr.
Thesis work in Hebrew, Aramaic, Coptic, or Syriac. Requirements: PhD enrollment.

CLSA:7090 Advanced Reading: Ancient Languages arr.
Readings in Hebrew, Aramaic, Coptic, or Syriac. Requirements: Classics graduate program enrollment.

CLSA:7114 Slavery and Social Death: 1200 B.C.E. to 1865 C.E. 3 s.h.
Exploration of various slave systems in antiquity, the middle ages, and modernity in terms of their motivations, utilization, and broader social, economic, and political implications; use of literary sources and archaeological remains to investigate slave cultures in ancient Near East and Egypt, Jewish exploitation of enslaved persons, and use of chattel slavery in Greek, Roman, early Christian, and Islamic societies; antebellum U.S. slavery. Same as ANTH:7414, HIST:7414.

Greek Courses

CLSG:1001 Classical and New Testament Greek I 5 s.h.
Focus on reading ancient Greek and developing a deeper understanding of ancient Greek civilization. GE: World Languages First Level Proficiency.

CLSG:1002 Classical and New Testament Greek II 5 s.h.
Continuation of CLSG:1001; focus on reading ancient Greek and developing a deeper understanding of ancient Greek civilization. Prerequisites: CLSG:1001. GE: World Languages Second Level Proficiency.

CLSG:2001 Second-Year Greek I 3 s.h.
Focus on reading Greek prose authors, such as Xenophon and Plato. Prerequisites: CLSG:1002. GE: World Languages Third Level Proficiency.

CLSG:2002 Second-Year Greek II 3 s.h.
Continuation of CLSG:2001; focus on reading and interpretation of Greek poetry. Prerequisites: CLSG:2001. GE: World Languages Fourth Level Proficiency.

CLSG:3001 Archaic and Classical Periods I 3 s.h.
Readings in major Greek authors of the Archaic and Classical periods. Prerequisites: CLSG:2002.

CLSG:3002 Archaic and Classical Periods II 1-3 s.h.
Continuation of CLSG:3001. Prerequisites: CLSG:2002.

CLSG:3003 Classical and Hellenistic Periods I 3 s.h.
Readings in Greek literature of the Classical and Hellenistic periods. Prerequisites: CLSG:2002. Same as RELS:3003.

CLSG:3004 Classical and Hellenistic Periods II 3 s.h.
Continuation of CLSG:3003. Prerequisites: CLSG:2002.

CLSG:3200 Literary Translation Workshop in Ancient Greek and Latin 3 s.h.
Translation from Greek/Latin to English with emphasis on literary translation; issues in theory and practice of translation in the discipline; special features of ancient languages as a source language for translation. Taught in English. Same as CLSL:3200, TRNS:3205.

CLSG:4076 Greek Composition 2-3 s.h.
Review of Greek morphology, syntax, sentence structure; composition of sentences, short passages in Greek. Prerequisites: CLSG:2002 or CLSG:3001 or CLSG:3002 or CLSG:3003 or CLSG:3004 or CLSG:5001.

CLSG:4090 Private Assignments 1-3 s.h.
Directed reading and study with faculty member.

CLSG:4095 Honors Readings arr.
Discussion, readings, research for a paper on Greek literature, history, or civilization. Requirements: classical languages major.

CLSG:5001 Greek Survey I: Archaic to Classical Literature 3 s.h.
Introductory survey of Greek literature and language from Homer to end of the fifth century.

CLSG:5002 Greek Survey II: Hellenistic to Late Antique Literature 3 s.h.
Introductory survey of Greek literature and language in and after the fourth century B.C.E.

CLSG:6000 Advanced Greek Seminar arr.
Specific Greek authors, genres, and topics from the beginnings of Greek literature through fifth century C.E.

CLSG:6011 Archaic Greece arr.
Topics chosen from Homer, Hesiod, Homeric hymns or lyric poetry.

CLSG:6012 Classical Greece arr.
Authors, genres, and topics from the fifth and fourth centuries B.C.E.

CLSG:6013 Hellenistic Greece arr.
Authors, genres, and topics from the death of Alexander to the accession of Augustus.

CLSG:7080 Greek Thesis arr.
For PhD students writing a dissertation. Requirements: PhD candidacy.

CLSG:7090 Advanced Reading arr.
Requirements: classics graduate standing.

Latin Courses

CLSL:1001 Elementary Latin I 5 s.h.
Focus on reading Latin and on Roman culture. GE: World Languages First Level Proficiency.

CLSL:1002 Elementary Latin II 5 s.h.
Continuation of CLSL:1001. Prerequisites: CLSL:1001. GE: World Languages Second Level Proficiency.

CLSL:2001 World of Cicero 3 s.h.
Focus on reading Latin prose authors, such as Caesar and Cicero. Prerequisites: CLSL:1002. GE: World Languages Third Level Proficiency.

CLSL:2002 Golden Age of Roman Poetry 3 s.h.
Focus on reading and interpretation of Roman poets, such as Vergil and Catullus. Prerequisites: CLSL:1002. GE: World Languages Third Level Proficiency.

CLSL:3001 Latin Literature of the Republic I 3 s.h.
Prose or poetry by major authors of the republic. Prerequisites: CLSL:2001 and CLSL:2002.

CLSL:3002 Latin Literature of the Republic II 3 s.h.
Continuation of CLSL:3001. Prerequisites: CLSL:2001 and CLSL:2002.

CLSL:3003 Latin Literature of the Empire I 3 s.h.
Prose or poetry by major authors of the empire. Prerequisites: CLSL:2001 and CLSL:2002.

CLSL:3004 Latin Literature of the Empire II 3 s.h.
Continuation of CLSL:3003. Prerequisites: CLSL:2001 and CLSL:2002.

CLSL:3200 Literary Translation Workshop in Ancient Greek and Latin 3 s.h.
Translation from Greek/Latin to English with emphasis on literary translation; issues in theory and practice of translation in the discipline; special features of ancient languages as a source language for translation. Taught in English. Same as CLSG:3200, TRNS:3205.

CLSL:4076 Latin Composition 2-3 s.h.
Review of Latin morphology, syntax, sentence structure; composition of sentences, short passages in Latin. Prerequisites: CLSL:2002 or CLSL:3001 or CLSL:3002 or CLSL:3003 or CLSL:3004 or CLSL:5001.

CLSL:4080 Undergraduate Teaching Assistantship 2-3 s.h.
Develop teaching skills by working as an undergraduate teaching assistant under the mentorship of a faculty supervisor.

CLSL:4090 Private Assignments 1-3 s.h.
Directed reading and study with faculty member for advanced students.

CLSL:4095 Honors Readings 3 s.h.
Discussions, readings, research for a paper on Roman literature, history, or civilization. Requirements: classical languages major.

CLSL:5001 Latin Survey I: Republican Literature 3 s.h.
Introductory survey of Latin literature and language from the early Republic to the end of the first century B.C.E.

CLSL:5002 Latin Survey II: Imperial to Late Antique Literature 3 s.h.
Introductory survey of Latin literature and language from the Augustan age through the second century C.E.

CLSL:6000 Advanced Latin Seminar arr.
Specific Latin authors, genres, and topics from the beginnings of Roman literature through fifth century C.E.

CLSL:6011 Republican Rome arr.
Authors and topics from the beginnings of Roman literature to the death of Julius Caesar.

CLSL:6013 Tiberius to Trajan arr.
Authors and topics from the first and second centuries C.E. Same as RELS:6040.

CLSL:6014 Later Empire arr.
Authors and topics from the third through fifth centuries C.E.

CLSL:6910 Graduate Pedagogy 1 s.h.
Pedagogical theories on teaching classical languages, practical application of those theories; classroom management, grading, syllabus development; university, college, and department regulations. Requirements: teaching assistant or instructor in Latin.

CLSL:7080 Latin Thesis arr.
For PhD students writing a dissertation. Requirements: PhD candidacy.

CLSL:7090 Advanced Reading arr.
Requirements: classics graduate standing.

Ancient Civilization, BA

The Bachelor of Arts in ancient civilization is a flexible program that allows students to study ancient Greece, Rome, the eastern Mediterranean, Mesopotamia, and Egypt from 3000 B.C.E. to 800 C.E. Ancient civilization majors work primarily in the English language, with their studies distributed among the areas of literature, history, religion, philosophy, art, and archaeology.

Learning Outcomes

Students are expected to demonstrate:

- knowledge of major literary works and written sources from the ancient Mediterranean world (either in translation or their original language);
- familiarity with the physical world (both public and private) in which ancient Mediterranean people lived through the study of their art and archaeology;
- appreciation of the religious and ethical mindset of ancient peoples through a broad understanding of mythology, religion, and philosophy; and
- understanding of the impact that the political, intellectual, and social environments of the people from the ancient Mediterranean have on modern cultures.

Requirements

The Bachelor of Arts with a major in ancient civilization requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The major concentrates on the ancient civilization of the Mediterranean world and draws on courses offered by various university departments. This is a flexible major that allows students to concentrate their study in areas such as religion, history, archaeology, Egypt, or the eastern Mediterranean.

The major is sponsored by the School of Art, Art History, and Design and the departments of Classics, History, and Religious Studies (College of Liberal Arts and Sciences).

Students choose courses in consultation with their advisors. They must earn at least 9 s.h. in advanced courses, which may include classics in English courses numbered 3000 or above, Greek language courses numbered 2000 or above, and Latin language courses numbered 2000 and above. Transfer credit is evaluated individually.

In addition to completing required coursework, students maintain a required portfolio detailing their progress toward the major, which they must complete before graduation; see "Major Portfolio" below.

A maximum of 9 s.h. of coursework used to satisfy requirements for the BA in classical languages may be applied toward this major. A maximum of 3 s.h. of coursework used to satisfy requirements for another minor in the Department of Classics (classical languages, Latin, and/or Greek) may be applied toward this major.

Students majoring only in ancient civilization may count a maximum of 56 s.h. earned in classics courses toward the degree. BA students who are graduating with a double major in the department (ancient civilization and classical languages) may apply more than 56 s.h. from the Department of Classics toward their degree, but they must earn at least 56 s.h. of credit in courses outside the Department of Classics in order to graduate.

A course used to satisfy a requirement in one area cannot be used to satisfy a requirement in another area.

The BA with a major in ancient civilization requires the following coursework.

Requirements	Hours
Ancient Art and Archaeology Courses	3
Ancient History and Society Courses	3
Ancient Language and Literature Courses	3
Ancient Philosophy and Religion Courses	3
Additional Courses	18
Major Portfolio	

Ancient Art and Archaeology

More than half of each course is devoted to the study of ancient art or archaeology from the geographical limits identified as relevant by the Department of Classics. Sculpture, pottery, architecture, and/or physical remains of an ancient culture are covered in these courses.

Course #	Title	Hours
At least 3 s.h. from these:		
CLSA:2127/ ASIA:2127/ JPNS:2127	Books of the Silk Roads	3
CLSA:2144/ HIST:2444	Engineering and Technology in the Ancient World	3
CLSA:2226/ ARTH:2320	Ancient Art From the Great Pyramids of Egypt to the Colosseum in Rome	3
CLSA:2330/ ARTH:2330	Ancient Egyptian, Mesopotamian, and Persian Art	3

Any courses in the Ancient Art and Archaeology, Ancient History and Society, Ancient Language and Literature, and Ancient Philosophy and Religion lists		
Any course with the prefix CLSA, CLSG, or CLSL		

Major Portfolio

To comply with the Iowa Board of Regents policy on student outcomes assessment, the Department of Classics has established a method to assess the achievement level of students completing one of the department's majors. Students must maintain a portfolio that details their progress in attaining the objectives of their major. Students must register for and complete the following course.

Course #	Title	Hours
CLSA:3982	Graduation Portfolio	0

Students submit the portfolio to their undergraduate advisor by midterm of the semester in which they intend to graduate. Formal approval of the portfolio is required for graduation. Consult the undergraduate advisor for details.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a grade-point average (GPA) of at least 3.33 in their major. Additionally, a

UI cumulative GPA of at least 3.33 at the time of graduation is required by the College of Liberal Arts and Sciences.

Students must complete two consecutive courses in honors reading, earning 3 s.h. of credit for each course. Honors work may be done in a student's fourth year, or spring of the third year and fall of the fourth year. The readings and discussions must be on an ancient author or a field in ancient history or literature chosen by the student and the instructor. At the end of the second semester, the student presents a substantial research project, which is evaluated for honors by two members of the department.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the ancient civilization major.

Career Advancement

Although the ancient civilization major is not preparation for graduate study in classics, it provides a sound basis for preparing individuals to teach at the secondary school and community college levels. It also provides a liberal arts and sciences foundation appropriate for further study in law and medicine. Some graduates go on to complete advanced work in library and information science, museum studies, archaeology, or business. A large proportion of its students pursue advanced degrees.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: at least two courses in the major.

Before the seventh semester begins: at least six courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least eight courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b See General Catalog for list of approved courses

c Students must earn at least 9 s.h. in advanced courses, which may include classics in English (CLSA) courses numbered 3000 or above, Greek language (CLSG) courses numbered 2000 or above, and Latin language (CLSL) courses numbered 2000 and above.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e The major requires six additional courses from an approved list or from any of the required subject areas. See General Catalog for list of approved courses or contact advisor for more information.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

h Students must maintain a portfolio that details their progress in attaining the objectives of their major. Students submit the portfolio to their undergraduate advisor by midterm of the semester in which they intend to graduate. Formal approval of the portfolio is required for graduation. Consult the undergraduate advisor for details.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Classical Languages, BA

The Bachelor of Arts in classical languages cultivates and hones students' skills in ancient Greek and/or Latin. Students may study a wide variety of linguistic and cultural aspects of the ancient civilizations of Greece, Rome, the eastern Mediterranean, Mesopotamia, and Egypt from 3000 B.C.E. to 800 C.E.

Learning Outcomes

Students are expected to demonstrate:

- the ability to read the ancient Greek and/or Latin languages at an intermediate to advanced level;
- knowledge of major literary works and written sources of the ancient Mediterranean world;
- transferable linguistic and analytic skills by studying the ancient languages that stand behind the vocabulary and structure of English and the Romance languages; and
- understanding of the impact that the political, intellectual, and social environments of the people from the ancient Mediterranean have on modern cultures.

Requirements

The Bachelor of Arts with a major in classical languages requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Transfer credit is evaluated individually.

The major trains students to read the ancient Greek and/or Latin languages and acquaints them with the major works of Greek and/or Roman literature. Classical languages students learn about the history of ancient Greece of the eighth through the fourth centuries B.C.E., where most of the modern Western notions of political, artistic, and social life are rooted. They also develop an understanding of the Roman Republic and Empire (3 B.C.E. through 5 C.E.), when Rome established its hegemony over the Mediterranean basin, laid the foundation of law for the Western world, and spread Greece's culture to the West, and of the fall of the Empire and the rise of Medieval civilization from the sixth through the ninth centuries C.E.

In addition to completing the required coursework, students maintain a required portfolio detailing their progress toward the major, which they must complete before graduation; see "Major Portfolio" below.

A maximum of 9 s.h. of coursework used to satisfy requirements for the BA in ancient civilization may be applied toward this major. A maximum of 3 s.h. of coursework used to satisfy requirements for the minor in ancient civilization may be applied toward this major. Students cannot pursue a minor in Latin or Greek while simultaneously enrolled as a classical languages major.

Students majoring only in classical languages may count a maximum of 56 s.h. earned in classics courses toward the degree. BA students who are graduating with a double major in the department (classical languages and ancient civilization) may apply more than 56 s.h. from the Department of Classics toward their degree, but they must earn at least 56 s.h. of credit in courses outside the Department of Classics in order to graduate.

The BA with a major in classical languages requires the following coursework.

Requirements	Hours
Required Courses	30
Major Portfolio	

Required Courses

Course #	Title	Hours
All of these:		
Intermediate or advanced Greek (prefix CLSG) and/or Latin (prefix CLSL) courses numbered 2001-4999		15
Additional classics courses at any level with the prefix CLSA, CLSG, or CLSL, and any courses cross-referenced with prefix CLSA, CLSL, or CLSG		15

The following advanced undergraduate Greek courses are offered every other year and may be repeated or taken in any sequence. They cover a broad range of prose and poetry in historical context.

Course #	Title	Hours
CLSG:3001	Archaic and Classical Periods I	3
CLSG:3002	Archaic and Classical Periods II	1-3
CLSG:3003/ RELS:3003	Classical and Hellenistic Periods I	3
CLSG:3004	Classical and Hellenistic Periods II	3

The following advanced undergraduate Latin courses are offered every other year and may be repeated or taken in any sequence. They cover a range of Latin prose and poetry in historical context from the mid-republic to the third century C.E.

Course #	Title	Hours
CLSL:3001	Latin Literature of the Republic I	3
CLSL:3002	Latin Literature of the Republic II	3
CLSL:3003	Latin Literature of the Empire I	3
CLSL:3004	Latin Literature of the Empire II	3

Major Portfolio

To comply with the Iowa Board of Regents policy on student outcomes assessment, the Department of Classics has established a method to assess the achievement level of students completing one of the department's majors. Students must maintain a portfolio that details their progress in attaining the objectives of their major. Students must register for and complete the following course.

Course #	Title	Hours
CLSA:3982	Graduation Portfolio	0

Students submit the portfolio to the undergraduate advisor by midterm of the semester in which they intend to graduate. Formal approval of the portfolio is required for graduation. Consult the undergraduate advisor for details.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors in the major students must maintain a GPA of at least 3.33 in their first three years of classics courses. Additionally, a minimum UI cumulative GPA of 3.33 at the start of the first semester of the honors in the major program and at the time of graduation is required.

Students also must complete two consecutive courses in honors reading, earning 3 s.h. of credit for each course. Honors work may be done in a student's fourth year, or spring of the third year and fall of the fourth year. The readings and discussions must be on an ancient author or a field in ancient history or literature chosen by the student and the instructor. At the end of the second semester of honors work, the student presents a substantial research project, which is evaluated for honors by two members of the department. Students who write an honors thesis in classical languages must be enrolled at the same time in the appropriate advanced language courses.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the classical languages major.

Career Advancement

The University of Iowa's classical languages major is recognized for the excellent preparation it offers for graduate study in classics. A large proportion of its students pursue advanced degrees. They are admitted to the finest public and private university programs in the country, many with full financial support.

Students who major in classical languages and complete the College of Education's Teacher Education Program may be able to find secondary school teaching positions quickly due to a nationwide shortage of Latin teachers.

Graduates have gone on to become secondary or university teachers, librarians, museum curators, and bankers. The study of Latin and Greek also prepares students for the study of law and medicine; classical languages graduates regularly enter these fields. Others go on to complete advanced work in library and information science, museum studies, religious studies, history, archaeology, or business.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Classical Languages—Greek and Latin

Before the third semester begins: CLSG:1001 Classical and New Testament Greek I or CLSL:1001 Elementary Latin I.

Before the fifth semester begins: CLSG:1002 Classical and New Testament Greek II and CLSL:1002 Elementary Latin II.

Before the seventh semester begins: CLSG:2001 Second-Year Greek I, and CLSL:2001 World of Cicero or CLSL:2002 Golden Age of Roman Poetry or CLSG:2002 Second-Year Greek II, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: 6 s.h. of courses numbered 3000 and above with the prefix CLSG or CLSL.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Classical Languages—Greek Only

Before the third semester begins: CLSG:1001 Classical and New Testament Greek I and CLSG:1002 Classical and New Testament Greek II.

Before the fifth semester begins: CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II.

Before the seventh semester begins: two courses numbered 3000 and above with prefix CLSG and at least one additional course with the prefix CLSA at any level.

Before the eighth semester begins: either one advanced course numbered 3000 and above with prefix CLSG or one additional course with the prefix CLSA; and at least 90 s.h. earned toward the degree.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Classical Languages—Latin Only

Before the third semester begins: CLSL:1001 Elementary Latin I and CLSL:1002 Elementary Latin II.

Before the fifth semester begins: CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry.

Before the seventh semester begins: two courses numbered 3000 and above with prefix CLSL and at least one additional course with the prefix CLSA at any level; and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: either one course numbered 3000 and above with prefix CLSG or one additional course with the prefix CLSA.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b A student may also begin with Greek the first year and Latin in the second year.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e Students are required to complete 15 s.h. in intermediate or advanced Greek and/or Latin courses (prefix CLSG or CLSL, numbered 2001-4999).

f Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Ancient Civilization, Minor

Requirements

The undergraduate minor in ancient civilization requires a minimum of 15 s.h., including at least 9 s.h. in advanced courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

A maximum of 3 s.h. of work for another major, minor, or certificate in the Department of Classics and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

Required Courses

Department of Classics courses with the prefix CLSA, CLSG, and CLSL and courses cross-referenced with the prefix CLSA count toward the minor. Courses considered advanced for the minor are: Greek courses (prefix CLSG) numbered 2000 or above, Latin courses (prefix CLSL) numbered 2001 or above, and classics courses (prefix CLSA) numbered 3000 or above. Appropriate courses in art, religion, history, and philosophy may be counted toward the minor if approved by the undergraduate advisor. Students who have taken high school Greek or Latin should consult the advisor.

Classical Languages, Minor

Requirements

The undergraduate minor in classical languages requires a minimum of 19 s.h., including 6 s.h. in advanced courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The sequences CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II, CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry, and Department of Classics courses numbered 3000 or above are considered advanced for the minor.

A maximum of 3 s.h. of work for another major, minor, or certificate in the Department of Classics and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

Students who earn a minor in classical languages may not earn a minor in Latin or Greek.

Required Courses

Course #	Title	Hours
All of these:		
CLSG:1001	Classical and New Testament Greek I	5
CLSG:1002	Classical and New Testament Greek II	5
CLSG:2001	Second-Year Greek I	3
CLSL:2001 or CLSL:2002	World of Cicero Golden Age of Roman Poetry	3

Electives

Course #	Title	Hours
At least 3 s.h. from these:		
An ancient civilizations course (prefix CLSA) numbered 1000-4999		
A Greek course (prefix CLSG) numbered 1000-4999		
A Latin course (prefix CLSL) numbered 1000-4999		

Students who have taken high school Greek or Latin should consult the classical languages advisor.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Classical Languages, Minor

Course	Title	Hours
Academic Career		
Any Semester		
The undergraduate minor in classical languages requires a minimum of 19 s.h., including 6 s.h. in advanced courses taken at the University of Iowa.		
Students must maintain a GPA of at least 2.00 in all courses for the minor and in all UI courses for the minor.		
Coursework in the minor may not be taken pass/nonpass.		
A maximum of 3 s.h. of work for another major, minor, or certificate in the Department of Classics and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.		
Students who earn a minor in classical languages may not earn a minor in Latin or Greek.

a Students who have taken high school Greek or Latin should consult the advisor.

b This course is a prerequisite for a required minor course.

Greek, Minor

Requirements

The undergraduate minor in Greek requires a minimum of 15 s.h. in Greek courses (prefix CLSG), including at least 12 s.h. in courses numbered 2000 and above taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

Students who earn a minor in Greek may not earn the BA or minor in classical languages; students who are interested in a minor in Latin at the same time as the minor in Greek should consider the minor in classical languages instead.

The sequence CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II and Department of Classics courses numbered 3000 or above are considered advanced for the minor. Students may substitute a maximum of 3 s.h. for the CLSG requirement with one of the relevant courses numbered 3000 or above taught in English from the following.

Course #	Title	Hours
CLSA:3227/ ARTH:3330	Classical Greek Art	3
CLSA:3235/ ANTH:3276	Greek Archaeology	3
CLSA:3247/ RELS:3247	Banned From the Bible: Pseudepigrapha and Apocrypha	3
CLSA:3250/ ARTH:3340	Greek Vase Painting	3
CLSA:3404/ HIST:3404	The World of Ancient Greece	3
CLSA:3416/ RELS:3716	Greek Religion and Society	3
CLSA:3443/ RELS:3243	Pagans and Christians: The Church From Jesus to Muhammad	3
CLSA:3742/ WRIT:3742	Word Power: Building English Vocabulary	3
CLSA:3821/ ANTH:3821/ HIST:3403	City of Athens: Bronze Age to Roman World	3
CLSA:3979/ ENGL:3850/ TRNS:3179	Undergraduate Translation Workshop	3
CLSA:3980	Teaching in the Classics	1,3
CLSA:4403/ HIST:4403	Alexander the Great	3
CLSA:4452/ RELS:4352	The Dead Sea Scrolls	3
PHIL:4152	Plato	3
PHIL:4153	Aristotle	3

Students who enter the University of Iowa with prior competence in introductory ancient Greek may substitute 3 s.h. of lower-level Greek courses with CLSA:1010 Hero, God, Mortal: Literature of Greece. Students who have taken high school Greek should consult the classical languages advisor.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Greek, Minor

Course	Title	Hours
Academic Career		
Any Semester		
Students must complete a minimum of 15 s.h. in Greek courses (prefix CLSG), including at least 12 s.h. in courses numbered 2000 and above taken at the University of Iowa. One advanced course in CLSA numbered 3000 or above may be counted toward the minor; see General Catalog for list of approved courses.		
A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the Greek minor.		
Coursework in the Greek minor may not be taken pass/nonpass.

Fall		
Minor: Greek elective (prefix CLSG) numbered 3000-4999 or relevant advanced-level course taught in English [c]		3
	Hours	**3**
Spring		
Minor: Greek elective (prefix CLSG) numbered 3000-4999		3
	Hours	**3**
	Total Hours	**22**

a This course is a prerequisite for the required minor courses.
b Language level placement will be determined by placement exam score and/or oral interview. Students who place

into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.

c Students may substitute a maximum of 3 s.h. for the CLSG requirement with one relevant course numbered 3000 or above, taught in English. See General Catalog or contact academic advisor for course list.

Health and the Human Condition, Minor

Requirements

The undergraduate minor in health and the human condition requires a minimum of 15 s.h., including at least 12 s.h. in courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

A maximum of 3 s.h. of work for another University of Iowa major, minor, or certificate may be counted toward the minor.

The minor in health and the human condition requires the following coursework.

Ethics and Values

These courses focus on moral and ethical issues in the medical field and health care, such as bioethics, patient autonomy, and the role of the state.

Course #	Title	Hours
At least 3 s.h. from these:		
PHIL:1034	Liberty and the Pursuit of Happiness	3
PHIL:1401	Matters of Life and Death	3
PHIL:2402	Introduction to Ethics	3
PHIL:2415/ GHS:2415	Bioethics	3
RELS:2260/ GHS:2260	Hard Cases in Healthcare at the Beginning of Life	3

Historical Approaches

These courses focus on the treatment and understanding of health and disease from the ancient world to the 20th century in order to contextualize students' understanding of the medical field today.

Course #	Title	Hours
At least 3 s.h. from these:		
CLSA:1181/ GHS:1181	Ancient Medicine	3
CLSA:3020/ GHS:3021	Mental Health in the Ancient World	3
HIST:3508/ GHS:3508/LAS:3508	Disease and Health in Latin American History	3

Diversity and Global Perspectives

These courses invite students to consider the contemporary cross-cultural intersections of privilege and marginalization as related to health care. These include issues of gender, sexuality, race, disability, aging, colonialism, and social class.

Course #	Title	Hours
At least 9 s.h. from these:		
ANTH:2155	Fighting to Live: Anthropology and Health Social Movements	3
ANTH:2164/ GHS:2164	Culture and Healing: An Introduction to Medical Anthropology	3
ANTH:2181/ ASP:2181/ GHS:2181	The Anthropology of Aging	3
ASP:3135/ GHS:3050/ SSW:3135	Global Aging	3
ASP:3740/ MED:3740/ NURS:3740	End-of-Life Care for Adults and Families	3
CLSA:3105/ GHS:3105/ GWSS:3105/ WLLC:3105	Contraception Across Time and Cultures	3
GHS:3060	Studies in Complementary and Alternative Medicine	3
GHS:4003	Case Studies in Global Health Inequities	3
SSW:3786/ ASP:3786	Death/Dying: Issues Across the Life Span	3-4

The minor is administered by the Department of Classics and draws on courses from several units in the College of Liberal Arts and Sciences, including the departments of Anthropology, History, Philosophy, Religious Studies, and Health, Sport, and Human Physiology as well as the Global Health Studies and Aging and Longevity Studies programs.

Latin, Minor

Requirements

The undergraduate minor in Latin requires a minimum of 15 s.h. in Latin courses (prefix CLSL), including at least 12 s.h. in advanced courses numbered 2000 and above taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

Students who earn the minor in Latin may not earn the BA or minor in classical languages; students who are interested in a minor in Greek at the same time as the minor in Latin should consider the minor in classical languages instead.

The sequence CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry, and Department of Classics courses numbered 3000 or above are considered advanced for the minor. Students may substitute a maximum of 3 s.h. for the Latin requirement with one of the relevant courses numbered 3000 or above taught in English from the following.

Course #	Title	Hours
CLSA:3148/ HIST:3448	Barbarians and the Fall of Rome	3
CLSA:3232/ ARTH:3350	Art of Early Rome: Patrons and Politics	3
CLSA:3233/ ARTH:3360	Art of the Ancient Roman Empire	3
CLSA:3234/ ARTH:3370	Life and Death in Ancient Pompeii	3
CLSA:3240/ ANTH:3277	Roman Archaeology	3
CLSA:3288/ ENGL:3288	Shakespeare's Romans: The Ancient World Meets the Elizabethan Stage	arr.
CLSA:3514	Roman Religion and Society	3
CLSA:3742/ WRIT:3742	Word Power: Building English Vocabulary	3
CLSA:3979/ ENGL:3850/ TRNS:3179	Undergraduate Translation Workshop	3
CLSA:3980	Teaching in the Classics	1,3
CLSA:4106/ HIST:4406	Warfare in Ancient Mediterranean Society	3
CLSA:4400/ HIST:4400	The Roman Empire	3

Students who enter the university with prior competence in introductory Latin may substitute 3 s.h. of lower-level Latin courses with CLSA:1020 Love and Glory: The Literature of Rome. Students who have taken high school Latin should consult the classical languages advisor.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 3rd semester level of the language will begin coursework at that level and will not be required to take semesters 1-2 of the language.

b This course is a prerequisite for the required minor courses.

c Students may substitute a maximum of 3 s.h for the Latin requirement with one relevant advanced-level course taught in English. See General Catalog or contact academic advisor for course list.

Classics, Postbaccalaureate Certificate

This program is designed for students who have a BA but do not have sufficient skills in Latin and/or Greek to continue on in graduate school, seminary, or other programs that require multiple years of both languages. Students in the postbaccalaureate program take classes at the University of Iowa in areas that are appropriate for their long-term goals. The program is typically one year in length, but students may continue if deemed appropriate by the faculty.

Learning Outcomes

Students are expected to demonstrate:

- intermediate to advanced comprehension of classical languages such as ancient Greek and Latin; and
- improvement in writing and communication skills for graduate school applications or other advanced studies focusing on the ancient world.

Requirements

The Postbaccalaureate Certificate in Classics requires 18 s.h. in Department of Classics courses numbered 2000 or above. Students must maintain a grade-point average of at least 3.00 to remain in good standing and complete the program.

The program is designed for students who have a bachelor's degree and would like further study in Greek and Latin in order to be competitive for admission to a graduate program in classics. Entry to most graduate programs requires the study of both Latin and Greek, normally a minimum of three years in one language and two years in the other. The certificate is designed to be completed in two semesters by students who enter with two years of Latin and one to two years of Greek, or vice versa.

At least 12 s.h. of the required credit must be earned in Greek and Latin language courses; the remaining 6 s.h. may be earned in approved advanced courses taught in English (prefix CLSA). Transfer credit is not accepted toward the certificate.

A suggested plan of study for a student who enters the program with two years of Latin and one year of Greek is as follows.

Course #	Title	Hours
Fall		
CLSA:4085	Postbaccalaureate Seminar	1
CLSG:2001	Second-Year Greek I	3
CLSL:3001	Latin Literature of the Republic I	3
CLSL:4076	Latin Composition	2-3
One elective with prefix CLSA, CLSG, or CLSL numbered 3000 or above		3
Spring		
CLSG:2002	Second-Year Greek II	3
CLSL:3002	Latin Literature of the Republic II	3
CLSL:4076	Latin Composition	2-3
Total Hours		**20-22**

A suggested plan of study for a student who enters the program with two years of Latin and two years of Greek is as follows.

Course #	Title	Hours
Fall		
CLSA:4085	Postbaccalaureate Seminar	1
CLSG:3001	Archaic and Classical Periods I	3
CLSG:4076 or CLSL:4076	Greek Composition Latin Composition	2-3
CLSL:3001	Latin Literature of the Republic I	3
One elective with prefix CLSA, CLSG, or CLSL numbered 3000 or above		3
Spring		
CLSG:3002	Archaic and Classical Periods II	3
CLSG:4076 or CLSL:4076	Greek Composition Latin Composition	2-3
CLSL:3002	Latin Literature of the Republic II	3
Total Hours		**20-22**

Students who complete the program successfully receive a certificate from the College of Liberal Arts and Sciences and a letter from the Department of Classics.

Admission

Applicants must have a baccalaureate degree from an accredited college or university and a minimum of two years of language study (two years of Latin or two years of Greek, or one year of each). In unusual circumstances, students with less language preparation may be admitted.

Applicants who are not enrolled in a graduate or professional program may apply to the University of Iowa as undergraduate transfer students; they must state on their application that they are applying to the College of Liberal Arts and Sciences for admission to the classics postbaccalaureate certificate program. They must submit transcripts confirming preparation for certificate language study, a statement of purpose, scores on the Graduate Record Examination (GRE) General Test, a writing sample, and three letters of recommendation from faculty members at their baccalaureate institution.

Classics, MA

The master's degree in classics is intended for students who wish to advance their understanding of ancient Mediterranean languages, literatures, and cultures. Although it is primarily intended for students who wish to teach classics—Greek, Latin, mythology, Mediterranean archaeology, ancient philosophy, and classical literature—at the high school level or continue on to a PhD program, many students bring their advanced education to such careers as law, counseling, publishing, library science, grant writing, nonprofit organizations, and university administration.

Learning Outcomes

Students are expected to demonstrate:

- understanding of advanced Greek and Latin vocabulary and grammar;
- broad knowledge of ancient Greek and Latin literature;
- comprehension of ancient Mediterranean states, geography, and history;
- synthesis of the interplay between economics and trade, politics, warfare, class, race, ethnicity, gender, and rhetoric; and
- application of ancient concepts to modern problems.

Requirements

The Master of Arts program in classics requires a minimum of 30 s.h. in courses numbered 3000 or above. Students may count a maximum of 12 s.h. earned in courses numbered 3000–4999 toward the degree. They must maintain a UI cumulative grade-point average of at least 3.00 to earn the degree.

Students must pass a sight examination in the language(s) studied and an examination on literature and history.

Courses taken to complete the Postbaccalaureate Certificate in Classics do not count toward the degree.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b This requirement may be satisfied by examination. A sight-reading examination in both languages must be taken before the final written comprehensive examination.

c Choose from CLSG or CLSL courses numbered 6011-6014, or CLSA:6100.

d Written comprehensive examination on Greek and Latin (Roman) history and literature.

Greek, MA

The master's degree program in Greek is intended for students who wish to teach Greek language, literature, and history at the high school level. It is also intended for those who wish to transfer to another institution for PhD work.

Learning Outcomes

Students are expected to demonstrate:

- understanding of advanced Greek vocabulary and grammar;
- broad knowledge of ancient Greek literature;
- comprehension of ancient Greek history, material culture, and cultural cohesion, differentiation, and development over time; and
- application of a knowledge of Greek language and culture to modern educational and civic issues.

Requirements

The Master of Arts program in Greek requires a minimum of 30 s.h. in courses numbered 3000 or above. Students may count a maximum of 12 s.h. earned in courses numbered 3000–4999 toward the degree. Students must maintain a UI cumulative grade-point average of at least 3.00 to earn the degree.

Students must pass a sight examination in Greek and an examination on Greek literature and history.

Courses taken to complete the Postbaccalaureate Certificate in Classics do not count toward the degree.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Greek, MA

Course	Title	Hours
Academic Career		
Any Semester		
30 s.h. must be graduate level coursework; graduate transfer credits allowed upon approval. More information is included in the General Catalog and on department website. [a]		
Students pursuing the master's degree in Greek who have had no Latin are expected to include it in their programs. Additionally, students must complete Greek Composition. [b]		
	Hours	**0**
First Year		
Fall		
CLSG:4076	Greek Composition	2 - 3
CLSG:5001	Greek Survey I: Archaic to Classical Literature	3
Departmental Seminar [c]		2

Departmental Seminar [c]		3
Exam: Master's Final Exam [d]		
	Hours	**6**
	Total Hours	**30-32**

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b This requirement may also be satisfied by examination. A sight-reading examination in the major language must be taken before the final written comprehensive examination.

c Choose from CLSA:6100, CLSG:6011, CLSG:6012, CLSG:6013.

d Written comprehensive examination on Greek history and literature.

Latin, MA

The master's degree program in Latin is intended for students who wish to teach Latin language, literature, and Roman history at the high school level. It is also intended for those who wish to transfer to another institution for PhD work.

Learning Outcomes

Students are expected to demonstrate:

- understanding of advanced Latin vocabulary and grammar;
- broad knowledge of ancient Latin literature;
- comprehension of ancient Roman and Italian history, material culture, and cultural cohesion, differentiation, and development over time; and
- application of a knowledge of Latin language and Roman culture to modern educational and civic issues.

Requirements

The Master of Arts program in Latin requires a minimum of 30 s.h. in courses numbered 3000 or above. Students may count a maximum of 12 s.h. earned in courses numbered 3000–4999 toward the degree. Students must maintain a UI cumulative grade-point average of at least 3.00 to earn the degree.

Students must pass a sight examination in Latin and an examination on Roman literature and history.

Courses taken to complete the Postbaccalaureate Certificate in Classics do not count toward the degree.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

c Choose from CLSA:6100, CLSL:6011, CLSL:6013, CLSL:6014.

d Written comprehensive examination on Latin history and literature.

Classics, PhD

The PhD program in classics is intended for students who wish to pursue original research in the wide-ranging field of classics—Greek, Latin, Semitic languages, ancient Mediterranean religions and mythology, Mediterranean archaeology, ancient philosophy, and classical literature from Homer to Plato to the Bible to the Church fathers. Students are also trained to teach languages and literature at the university level. Many students bring their advanced education to such careers as law, counseling, publishing, library science, grant writing, nonprofit organizations, and university administration.

Learning Outcomes

Students are expected to demonstrate many, if not all of the following:

- understanding of the vocabulary and grammar of the classical languages they have chosen to study (e.g., Greek, Latin, Hebrew, Aramaic, Syriac, Coptic) at an advanced level;
- broad knowledge of the ancient literature corresponding to their chosen languages of study;
- application of ancient concepts learned to modern problems;
- the ability to conduct original research in various subjects within the field of classics;
- the ability to conduct archaeological field research and teach it at the university level;
- facility with the writing skills necessary to publish articles and critical research volumes at the peer-review level, as well as popular articles in trade books, magazines, newspapers, and online publications; and
- facility with the public-speaking skills necessary to present research both in professional academic settings and in popular, public venues.

Requirements

The Doctor of Philosophy program in classics requires a minimum of 72 s.h. of graduate credit, including the courses listed below (16–18 s.h.). Students may count no more than 12 s.h. earned in courses numbered 3000–4999 toward the degree. Students must maintain a UI cumulative grade-point average of at least 3.00 to earn the degree.

Students must also take precomprehensive and comprehensive examinations and write a dissertation.

Courses taken to complete the Postbaccalaureate Certificate in Classics do not count toward the degree.

Required Courses

Course #	Title	Hours
All of these:		
CLSG:4076	Greek Composition	2-3
CLSG:5001	Greek Survey I: Archaic to Classical Literature	3
CLSG:5002	Greek Survey II: Hellenistic to Late Antique Literature	3
CLSL:4076	Latin Composition	2-3
CLSL:5001	Latin Survey I: Republican Literature	3
CLSL:5002	Latin Survey II: Imperial to Late Antique Literature	3

The remaining coursework is made up of Department of Classics courses and other courses with approval of the graduate advisor.

PhD Examinations

PhD students must take the foundations exam at the end of their first year. The remaining exams may be taken in any sequence during years two to four. Students must file a request for the fourth-year comprehensive exam at least three weeks before the date of the third and final field exam to be taken. Competence in reading two scholarly languages, such as French, German, or Italian, must be demonstrated by the end of the fourth year of study.

Foundations Exam

The foundations exam is based on a set reading list of broad themes in ancient Mediterranean history, literature, and culture. It consists entirely of take-home and open-book essay questions, which students have two weeks to complete.

Translation Exams

Students take two translation exams in either Greek, Latin, Hebrew/Aramaic, Coptic, or Syriac. Translation exams are scheduled on an individual basis, either one or two per semester, and are based on a set reading list. They are four hours each and taken in the department with dictionary access.

Field Exams

Students take three field exams in either Greek literature, Latin literature, biblical studies, early Christianity, Mediterranean history, Mediterranean archaeology, or ancient world digital humanities. Field exams are scheduled on an individual basis, either one or two per semester, and are based on a set reading list. They consist entirely of take-home and open-book essay questions, which students have two weeks to complete.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

The Department of Classics is recognized for the excellent program it offers for graduate study in classics. Most go on to teach at the college level.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Other modern languages may be substituted with the approval of the student's faculty advisor and the department chair.

c Taken twice in consecutive semesters.

d Choose from CLSG or CLSL courses numbered 6011-6014, or CLSA:6100.

e Taken at the end of the first year, the foundations exam is a set reading list of broad themes exams in ancient Mediterranean history, literature, and culture. It consists entirely of take-home and open-book essay questions, which students have two weeks to complete.

f The doctoral comprehensive exam is the final field or translation exam undertaken by the student prior to the prospectus defense.

g Students take three field exams in either Greek literature, Latin literature, biblical studies, early Christianity, Mediterranean history, Mediterranean archaeology, or ancient world digital humanities. Field exams are scheduled on an individual basis, either one or two per semester, and are based on a set reading list. They consist entirely of take-home and open-book essay questions, which students have two weeks to complete.

h Students take two translation exams in either Greek, Latin, Hebrew/Aramaic, Coptic, or Syriac. Translation exams are scheduled on an individual basis, either one or two per semester, and are based on a set reading list. They are four hours each and taken in the department with dictionary access.

i Dissertation defense.

Communication Sciences and Disorders

Chair

- Eric J. Hunter

Undergraduate major: speech and hearing science (BA)

Undergraduate minor: communication sciences and disorders

Graduate degrees: MS in audiology; MS in speech language pathology; AuD; PhD in speech and hearing science

Graduate certificate: multilingualism and culturally responsive practice

Faculty: https://csd.uiowa.edu/people

Website: https://csd.uiowa.edu

The courses and degree programs of the Department of Communication Sciences and Disorders are designed to meet the needs of students preparing for careers in clinical service, college and university teaching, and research concerned with speech, language, and/or hearing processes and disorders. Traditionally, this field was called audiology and speech pathology. The department also offers courses for students with vocational and professional goals in other fields—for example, engineering, psychology, education, speech, theatre arts, dentistry, and medicine—whose preparation may be enriched by the study of speech, language, and hearing processes and their disorders.

Advanced degree holders in communication sciences and disorders provide clinical services for people with speech, hearing, or language problems in hospitals, community clinics, rehabilitation facilities, elementary and secondary schools, and private practice. They teach in colleges and universities and conduct research in laboratories concerned with communication processes and disorders.

Programs

Undergraduate Programs of Study

Major

- Major in Speech and Hearing Science (Bachelor of Arts) [p. 252]

Minor

- Minor in Communication Sciences and Disorders [p. 256]

Graduate Programs of Study

- Master of Science in Audiology [p. 257]
- Master of Science in Speech Language Pathology [p. 258]
- Doctor of Audiology [p. 261]
- Doctor of Philosophy in Speech and Hearing Science [p. 263]
- Certificate in Multilingualism and Culturally Responsive Practice [p. 265]

Facilities

Clinical Facilities

The clinical training program benefits greatly from Iowa City's standing as the most comprehensive health sciences center in Iowa and from the ready availability of health service facilities for clinical training of students in speech-language pathology and audiology.

The University of Iowa Affiliated Speech and Hearing Services include the Wendell Johnson Speech and Hearing Clinic; the division of speech and hearing in University of Iowa Health Care Department of Otolaryngology—Head and Neck Surgery; UIHC Consolidated Speech and Swallowing Services, which provides services to the Departments of Neurology and Otolaryngology—Head and Neck Surgery; child psychiatry speech and hearing services in the Center for Disabilities and Development; and the audiology and speech pathology service in the VA Iowa City Health Care.

The Wendell Johnson Speech and Hearing Clinic serves the university and the general public. Included in its services are outpatient evaluation and rehabilitation programs for speech, voice, swallowing, hearing, language problems, and a full range of audiological services that include diagnostic and rehabilitative services. Intensive therapeutic summer programs for children and a variety of clinical programs provide students with supervised clinical experience with a wide variety of speech, hearing, and language disorders.

In addition to clinical training in the Wendell Johnson Speech and Hearing Clinic, training may also be acquired in supervised clinical practice with elementary school children through various state education agencies and in supervised clinical practice in speech, language, and hearing services provided by University of Iowa Health Care Consolidated Speech and Swallowing Services, the Regional Child Health Specialty Clinics, the Center for Disabilities and Development, and the VA Iowa City Health Care.

Public and private departments and programs in addition to those previously mentioned often contribute to cooperative professional training, research, and service programs.

Research Facilities

The Wendell Johnson Speech and Hearing Center includes faculty offices, research lab space for individual faculty members, classrooms, and shared lab space used for teaching. It also serves as the home for the Wendell Johnson Speech and Hearing Clinic. Research spaces are equipped with sound booths, computer labs, and a wide variety of equipment used for acoustic, physiologic, and perceptual studies of hearing, balance, speech, voice, language, and swallowing. The Wendell Johnson Speech and Hearing Clinic is a full-service training clinic that is equipped to serve individuals of all ages with speech, language, and hearing concerns. These facilities include multiple fully equipped audiometric testing suites and suites used for diagnosis and evaluation of individuals with speech, language, swallowing, hearing, and balance concerns. Video recording equipment is available, as are rooms designed specifically to allow for group instruction.

Collaboration with departments in the Carver College of Medicine, the Department of Psychological and Brain Sciences, and the University of Iowa DeLTA Center makes additional laboratory facilities available for research on problems in speech and hearing. The participation and

cooperation of specialists from varied fields, including psychology, child development, education, engineering, statistics, and medicine, further broaden the scope of research activities in speech, language, and hearing.

Courses

Communication Sciences and Disorders Courses

CSD:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CSD:1015 Introduction to Speech and Hearing Processes and Disorders 2 s.h.
Introduction to communication sciences and disorders field; clinical and research works; wide range of readings; survey course with less emphasis on specific disorders.

CSD:1800 Aging Matters: Introduction to Gerontology 3 s.h.
Overview of the field of gerontology from a bio-psycho-social framework; how the human body and brain age, effects of these biological changes on physical and cognitive functions, and interaction of these individual factors with societal contexts; broad perspective to give students a foundation in gerontology, paving the way for more advanced courses in biology of aging, psychology of aging, and global aging; for students from a wide range of disciplines and levels, no prior knowledge of aging required. GE: Social Sciences. Same as ASP:1800, NURS:1800, SSW:1800, TR:1800.

CSD:2110 Phonetics: Theory and Applications 3 s.h.
Basic concepts: articulatory and acoustic description of speech sound production, dialect variations, and language differences; development of phonetic transcription skills with emphasis on English phonetics and clinical applications to developing and disordered speech.

CSD:2111 Basic Acoustics for Speech and Hearing 3 s.h.
Principles of sound, simple harmonic motion, sound pressure and intensity, decibels, complex waves, Fourier analysis, resonance and filters, distortion, transmission of sound. Requirements: completion of departmental math requirement (MATH:1440 or MATH:1460 or MATH:1850).

CSD:3097 Honors Seminar 2 s.h.
Research topics and procedures in speech and hearing sciences; ongoing faculty research, research opportunities, possible research projects. Requirements: honors standing with intent to complete an honors thesis.

CSD:3112 Anatomy and Physiology of Speech Production 4 s.h.
Normal anatomy and physiology of structures used to produce speech; principles and methods for instrumental study of speech production.

CSD:3113 Introduction to Hearing Science 4 s.h.
Normal auditory process; anatomy and physiology of auditory system; subjective correlates of auditory stimuli.

CSD:3116 Basic Neuroscience for Speech and Hearing 3 s.h.
Basic anatomy, physiology of central nervous system; emphasis on neural systems involved in normal and disordered communication. Offered fall semesters. Requirements: biology, zoology, or physiology course. Same as LING:3116.

CSD:3117 Psychology of Language 3 s.h.
Introduction to scientific study of language use; language approached from a multidisciplinary perspective, integrating theories and methods of psycholinguistics, neuropsychology, and communication sciences and disorders. GE: Social Sciences. Same as LING:3117.

CSD:3118 Language Acquisition 1-3 s.h.
Models of children's language acquisition; child language/communication development from infancy through school age, in context of current developmental research. Requirements: for CSD:3118—LING:3001 and PSY:1001; for LING:3118—LING:3001 or LING:3117. GE: Social Sciences. Same as LING:3118.

CSD:3119 Interdisciplinary Science of Sound and Hearing 3 s.h.
Introduction to physics of sound, biology/psychology of hearing, and audio technology; theories and experimental methods; music, speech, and environmental sounds. Same as MUS:3055, PSY:3055.

CSD:3185 Hearing Loss and Audiometry 3 s.h.
Introduction to profession of audiology; overview of hearing disorders, evaluation, and treatment; basic pure-tone and speech audiometry.

CSD:3993 Research Practicum arr.
Individual or small group participation in faculty research projects.

CSD:4029 Experiential Learning in Audiology 1 s.h.
Students build a foundation of skills to develop in advanced degree program; for students interested in obtaining an AuD or learning more about audiology. Prerequisites: CSD:3185. Requirements: third- or fourth-year standing.

CSD:4030 Experiential Learning: Community Engagement Through Communication and Literacy Programs 2-3 s.h.
Designed for undergraduate students intending to pursue graduate-level professional preparation in speech-language pathology; following instruction, students will commit to local community activities focused on the implementation of programs involving Augmentative Alternative Communication (AAC), literacy, and other communication strategies for the remainder of the semester; preference will be given to third- and fourth-year students majoring in Communication Sciences and Disorders; contact the instructors for information about community activities planned for upcoming semesters. Recommendations: CSD:3118 and CSD:4145.

CSD:4098 Honors Thesis 1-3 s.h.
Close work with a faculty mentor.

CSD:4120 Introduction to Clinical Methods and Observation 3 s.h.
Observation of the diagnosis and treatment of a wide range of speech, language, or hearing disorders in a variety of settings; basic understanding of evaluation process, goal setting, behavior management, pacing of therapy, shaping of behavior, tracking performance/learning, and professional and ethical behavior through observation of clinical interactions; completion of 25 hours of observation as required by the American Speech-Language-Hearing Association for obtaining national certification. Prerequisites: CSD:4145. Recommendations: senior or graduate standing in communication sciences and disorders.

CSD:4130 Reducing Disparities and Inequities in Communication Sciences and Disorders 1 s.h.
Discussion of diversity, equity, and inclusion in communication sciences and disorders field; historical perspectives as related to current practices. Recommendations: graduate standing in speech language pathology, or junior or senior standing in speech language pathology or audiology.

CSD:4140 Manual Communication 1 s.h.
Training in use of sign systems in manual communication.

CSD:4145 Developmental Language Disorders 3 s.h.
Nature of developmental disorders; basic concepts including behavioral characteristics, developmental patterns, and etiology theories; assessment and intervention principles in semantics, morphology, and syntax.

CSD:4148 Developmental Speech Disorders 3 s.h.
Review of typical phonological development in children; introduction to assessment and intervention practices for articulation and phonological disorders in children; may include apraxia, cerebral palsy, and cleft palate.

CSD:4186 Problems: Speech/Hearing Processes and Disorders arr.
Independent readings or research experience through mutual arrangement between student and faculty; goals and requirements determined by participating faculty member.

CSD:4244 Rehabilitative Audiology 3 s.h.
Theory, procedures for assessment, and rehabilitation of speech, hearing, and language deficits of people with hearing impairment. Prerequisites: CSD:3185.

CSD:4291 Statistical and Experimental Methods in Linguistics I 3 s.h.
Introduction to basic experimental design; critical analysis of scientific claims; overview of common methods in experimental linguistics; research preparation and follow-up. Prerequisites: LING:3010 or LING:3020. Requirements: advanced standing in undergraduate linguistics program or graduate standing in linguistics. Same as LING:4291.

CSD:4292 Statistical and Experimental Methods in Linguistics II 3 s.h.
Introduction to statistics with emphasis on common data types in linguistics; coding in R. Prerequisites: LING:4291. Same as LING:4292.

CSD:5104 Language Disorders in School-Aged Children 3 s.h.
Emphasis on elementary grades; usually taken in conjunction with EDTL:4192, which provides approximately 70 hours of supervised clinical practice in elementary schools. Recommendations: primarily for communication sciences and disorders majors. Same as EDTL:5104.

CSD:5114 Introduction to Voice and Resonance Disorders 3 s.h.
Basic foundations for management of voice disorders. Prerequisites: CSD:3112.

CSD:5115 Structural Disorders 2 s.h.
Therapy approaches used to treat speech production and swallowing disorders associated with disorders that affect structure and physiology of the speech and swallowing mechanism; basic knowledge necessary for clinical practice by clinicians who do not specialize in management of patients with head and neck cancer, cleft palate, or neurological disorders.

CSD:5135 Foundations of Clinical Practice I 2 s.h.
Basic concepts of clinical practice including models of diagnosis, fundamentals of clinical data collection and measurement, treatment planning, and professional writing. Corequisites: CSD:4145.

CSD:5136 Foundations of Clinical Practice II 1 s.h.
Advanced concepts of clinical practice including professionalism, clinical decision-making, developing client-clinician alliance, examining biases and prejudices in clinical practice, and developing empathy.

CSD:5137 Foundations of Clinical Practice III 1 s.h.
Advanced principles of clinical practice including risk management, public policy, and models of third-party reimbursement; professional issues.

CSD:5146 Neurogenic Disorders of Language 3 s.h.
Overview of communication disorders secondary to acquired brain damage in adults; focus on aphasia, communication disorders arising from dementia, right-hemisphere stroke, traumatic brain injuries; general principles of diagnosis and intervention.

CSD:5183 Introduction to Stuttering 2 s.h.
Introduction to the nature and treatment of stuttering. Students learn basic concepts regarding foundational knowledge (basic phenomena, major theories, lived experience), holistic assessment, and client-centered intervention. Requirements: graduate standing.

CSD:5203 Counseling in Communication Disorders 1 s.h.
Development of appropriate intervention plans that meet client/patient needs in collaboration with client/patient and relevant others; communicating effectively and recognizing needs, values, preferred mode of communication, and cultural linguistic background of client/patient, family, caregivers, relevant others; providing counseling to clients/patients, family, and caregivers regarding communication and swallowing disorders.

CSD:5204 Counseling in Audiology 1 s.h.
Develop basic skills in the area of counseling, including, but not limited to, explaining diagnostic test results, impact of hearing loss on life, effective listening, and communication skills. Discuss variables that may impact a patient and their ability or decisions to receive care.

CSD:5205 Counseling in Speech Language Pathology 1 s.h.
Develop basic skills in counseling people with speech, language, and swallowing disorders. Topics and learning activities include basics of personal adjustment and strengths-based counseling; emotions of communication disorders; change readiness; mindfulness practices; and active listening micro-skills.

CSD:5213 Voice Habilitation 2 s.h.
Application of methods of intervention in development, training, rehabilitation of vocal behavior; motor learning, efficacy of treatment strategies, factors affecting compliance with recommended therapy. Offered fall semesters. Prerequisites: CSD:3112 and CSD:5114. Same as MUS:5555.

CSD:5219 Fundamentals of Laboratory Instrumentation 2 s.h.
Introduction to instrumentation commonly used in research in speech and hearing sciences; basic audiometric calibration.

CSD:5223 Pediatric Feeding and Swallowing Disorders 1 s.h.
Development of anatomy and physiology of feeding and swallowing in infants and children; assessment and treatment of pediatric feeding and swallowing disorders.

CSD:5224 System and Signal Theory for Speech and Hearing Science 3 s.h.
Introduction to signals and systems with emphasis on their relevance to the fields of audiology and speech-language pathology. Requirements: introductory calculus.

CSD:5233 Aphasia 2 s.h.
Assessment, diagnosis, and treatment of aphasia and other acquired language and cognition-based communication disorders. Corequisites: CSD:5136. Requirements: CSD:5146 or a course that provides an overview of acquired language disorders.

CSD:5234 Acquired Cognitive-Communication Disorders arr.
Cognitive, neuropsychological, and social aspects of communication and the management of acquired cognitive-communication disorders associated with traumatic brain injury, right hemisphere damage, and neurodegenerative diseases.

CSD:5236 Neurological and Structural Disorders of Swallowing 3 s.h.
Provides future speech-pathologists with a strong foundation for career-long learning about the nature and classification of neurogenic motor-speech and swallowing disorders, symptomatology, etiology, diagnosis, treatment, and management options.

CSD:5237 Cleft Palate and Related Disorders 1-2 s.h.
Nature, etiologies, and principles of treatment of common disorders associated with cleft lip and palate, associated disorders.

CSD:5238 Motor Speech Disorders 2 s.h.
Provides future speech-pathologists with a strong foundation for career-long learning about the nature and classification of neurogenic motor-speech disorders, symptomatology, etiology, diagnosis, treatment, and management options.

CSD:5240 Hearing Aids 3 s.h.
Hearing aids and diagnostic procedures; laboratory emphasis on measurement procedures.

CSD:5246 Advanced Audiology 3 s.h.
Theory and procedures for assessment of hearing loss in adult and pediatric populations; experience in test administration through supervised laboratory sessions.

CSD:5253 Speech Perception in Listeners With Hearing Loss 1-2 s.h.
Introduction to study of speech perception in listeners with normal hearing and those with hearing loss; overview of speech acoustics; theories of speech perception; contributions of auditory, visual, and indexical (talker-specific) information in speech signal; assessment techniques; benefits of hearing aid and/or cochlear implant use; factors influencing speech perception by children and adults with hearing loss.

CSD:5255 Educational Audiology 2 s.h.
Training in skills necessary for working with school-age population; case management and aural rehabilitation, amplification and classroom hearing technology, identification and assessment practices, federal legislation that affects services. Requirements: CSD:5240 for AuD students.

CSD:5256 Anatomy and Physiology of Hearing 3-4 s.h.
Anatomy of auditory system, cochlear mechanics, and electrophysiology of peripheral and central auditory nervous system; laboratory emphasis on physiological techniques for study of ear.

CSD:5258 Multilingualism and Culturally Responsive Practice in Communication Sciences and Disorders 2 s.h.
Trajectories of multilingual language acquisition in typical contexts and in context of communication disorders; connections between language, cognition, culture, and cultural-linguistic experiences to develop and apply culturally responsive speech and language assessment and intervention skills in context of cultural and linguistic diversity.

CSD:5260 Augmentative and Alternative Communication 2 s.h.
Theories, assessment, and intervention in augmentative and alternative communication (AAC) for individuals with severe communication disorders resulting from a variety of developmental and acquired conditions.

CSD:5282 Clinical Phonology and Speech Sound Disorders 2 s.h.
Advanced topics in phonological development and disorders; current theoretical approaches to phonological analysis and typical phonological acquisition applied to assessment and intervention with children who have phonological disorders.

CSD:5284 Advanced Fluency Disorders 2 s.h.
Fluency disorders and treatment approaches for children and adults.

CSD:5301 Practicum: Speech-Language Pathology arr.
Supervised clinical practice. Corequisites: CSD:5135. Requirements: MA professional emphasis.

CSD:5304 Speech Pathology Outplacement: School 0-4 s.h.
Supervised teaching and observation in speech-language pathology in an elementary school setting.

CSD:5305 Speech Pathology Outplacement: Non-School 0-4 s.h.
Supervised clinical work and observation in speech-language pathology in a non-school setting.

CSD:5306 Speech-Language Pathology Multilingual/Multicultural Outplacement: School arr.
Supervised multilingual and multicultural teaching and observation in speech-language pathology in an elementary school setting.

CSD:5307 Speech-Language Pathology Multilingual/Multicultural Outplacement: Non-School arr.
Supervised clinical work and observation in speech-language pathology in a multilingual and multicultural non-school setting.

CSD:5308 Practicum: Speech-Language Pathology Multilingual/Multicultural arr.
Supervised clinical practice for Multilingualism and Culturally Responsive Practice in SLP Certificate. Corequisites: CSD:5135. Requirements: MA professional emphasis.

CSD:5309 Practicum: Speech-Language Pathology International 2 s.h.
Supervised teaching and observation in speech-language pathology (SLP) in an international program. Classroom and clinical education in areas of SLP related to multilingualism, global understanding, historical and political context of a chosen country, and effective cross-cultural communication. Clinical experience includes opportunities to collaborate with local SLP students/SLPs or other partners to implement culturally responsive speech-language service delivery. Prerequisites: CSD:5135. Requirements: valid passport and ability to travel internationally.

CSD:5310 Scientific Writing and Publishing 2 s.h.
Develop advanced scientific writing skills needed for generating publishable manuscripts. Provides a space to critically engage with the writing process, offering opportunities to analyze and critique both their own writing and the writing of peers. Emphasis on iterative drafting, constructive feedback, and refining prose for clarity and impact. Requirements: PhD standing.

CSD:5311 Advanced Clinical Topics in Audiology 2 s.h.
Variety of professional issues important to clinical practice; incorporates professional and community engagement as well as service learning; topics directly related to clinical work and covered by clinical faculty and guest speakers with special expertise in each area; student presentations.

CSD:5314 Audiology Student Teaching arr.
Supervised teaching and observation in an area of audiology in the elementary schools. Corequisites: CSD:5315. Requirements: AuD first-, second-, or third-year enrollment.

CSD:5315 Clinical Rotations in Audiology arr.
Supervised clinical practice in audiology. Requirements: AuD first-, second-, or third-year enrollment.

CSD:5317 Advanced Clinical Practice in Audiology 1 s.h.
Various advanced clinical topics in audiology including professional issues and technical skills with a particular interest in culturally responsive practice.

CSD:5318 Literacy: Emergent and School Aged 1 s.h.
Examine literacy development from early emergent skills through the elementary years. Topics include phonological awareness, vocabulary development, print awareness, and reading and writing strategies. Assessment and intervention methods to support all learners will also be investigated.

CSD:5319 Head and Neck Cancer and Instrumentation 2 s.h.
Covers diagnostic procedures, instrumentation, treatment implications, and potential issues during cancer staging; reviews HNC risk factors, initial diagnostics, surgical and nonsurgical treatments, and treatment effects on functional outcomes. Instrumentation includes administering rigid and/or flexible laryngoscopy and stroboscopy for assessment of dysphonia and dysphagia. Flexible nasendoscopy for velopharyngeal port assessment may be included.

CSD:5320 Applied Statistics and Principles of Evidence-Based Practice in Audiology 3 s.h.
Combination of applied statistics and principles of evidence-based clinical practice with emphasis on applications in audiology and hearing science; review of statistical techniques widely used in audiology research including nonparametric and descriptive statistics, correlation, regression, and ANOVA; examples taken from studies published in scientific journals in communication sciences and disorders; principles of evidence-based practice that focus on topics and methods of establishing treatment efficacy, meta analyses, levels of evidence, and methods of assessing research quality. Requirements: introductory course in statistics.

CSD:5321 Clinical Rotations in Audiology Multilingual/Multicultural arr.
Under the direct supervision of a licensed and American Speech-Language-Hearing Association-certified audiologist, students work in various clinical settings with persons manifesting communicative problems. Evaluation, rehabilitation, and management of a variety of auditory and vestibular disorders; includes opportunities to work with multilingual/multicultural individuals. Requirements: AuD first-, second-, or third-year enrollment.

CSD:5350 Seminar in Supervision 1 s.h.
Process and procedures in clinical education and supervision in a graduate program.

CSD:5415 Outplacement Clinical Supervised Rotations in Audiology arr.
Under the direct supervision of a licensed and American Speech-Language-Hearing Association-certified audiologist, students work in various clinical settings that provide a range of audiology and vestibular services for individuals across the lifespan. Clinical experiences involve evaluation, rehabilitation, and management of a variety of auditory and vestibular disorders. Prerequisites: CSD:5315. Requirements: AuD second- or third-year enrollment.

CSD:5511 Introduction to Doctoral Research 1 s.h.
Topics related to development and execution of research; doctoral program, use of library, human and animal subject issues, philosophy of science, use of common research tools, reading and writing research papers, and research grant preparation.

CSD:5525 Principles of Voice Production 3 s.h.
Basic physical, physiological, and pedagogical principles required to understand professional, nonprofessional, and impaired voice production. Topics include vocal anatomy, vocal health, voice changes across the lifespan, voice classification, control of loudness, pitch, register, quality, respiration, phonation, resolution, and articulation, as well as efficient and inefficient use of both the singing and speaking voice. Same as MUS:5525.

CSD:6101 Cognitive Science of Language Proseminar I 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as LING:6101, PSY:6101.

CSD:6102 Cognitive Science of Language Proseminar II **3 s.h.**
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as LING:6102, PSY:6102.

CSD:6202 Voice Pedagogy **3 s.h.**
History of voice pedagogy, various pedagogical techniques of voice training, vocal anatomy, voice classification, critical listening, postural alignment, managing breath, tonal production, connecting registers, articulation, interpretation, vocal health, pharmacological effects on the voice, vocal gadgets, requirements for a professional career, teaching in the 21st century, and teaching practicum; diagnosis and correction of vocal faults. Same as MUS:6520.

CSD:6230 Psychoacoustics **2-3 s.h.**
Basic properties of auditory perception or psychoacoustics from material covered in CSD:5256; perception of loudness, masking frequency selectivity, temporal processing, and spatial perception; basic perceptual properties, methods of measurement, and physiological basis for performance; properties of perception in normal ears, hearing impairment, and auditory prostheses (e.g., cochlear implants).

CSD:6240 Seminar in Audiology **arr.**
Topics vary; for AuD and PhD students.

CSD:6242 Hearing Aids II **2 s.h.**
Evaluation and verification procedures; emphasis on advanced technologies and strategies.

CSD:6245 Pediatric Audiology **1,3 s.h.**
Theory and procedures for assessment and rehabilitation of pediatric populations; laboratory emphasis on test administration.

CSD:6247 Medical Audiology **2 s.h.**
Review of a wide range of pathologic conditions that have an impact on hearing; focus on understanding the underlying pathophysiology and how the disorder is diagnosed and treated.

CSD:6249 Cochlear Implants **1-3 s.h.**
Introduction to cochlear implants; history of cochlear implantation, introduction to cochlear implant technology, basics of device programming and troubleshooting, candidacy issues, outcomes in children and adults; auditory rehabilitation specific to cochlear implant recipients.

CSD:6290 Auditory Evoked Potentials **3 s.h.**
Introduction to the wide range of electrophysiologic measures of auditory function used in clinical practice.

CSD:6291 Vestibular Assessment and Rehabilitation **3 s.h.**
Introduction to vestibular anatomy, physiology theory, testing techniques, management, and rehabilitation.

CSD:6292 Advanced Rehabilitative Audiology: Adult **1 s.h.**
Current and developing procedures for assessment and habilitation of adults with hearing losses.

CSD:6294 Advanced Rehabilitative Audiology: Pediatric **1 s.h.**
Current and developing procedures for assessment and habilitation of children with hearing losses.

CSD:6311 Professional Issues in Audiology **1 s.h.**
Information on a variety of professional issues important to clinical practice; topics directly related to clinical work; written assignments required as a means for students to reflect on and share clinical experiences related to topics. Corequisites: CSD:6316.

CSD:6312 Professional Issues in Audiology II and Capstone **1 s.h.**
Information on a variety of professional issues important to clinical practice; topics directly related to clinical work; presentations, discussions, and written assignments required as a means for students to reflect on and share clinical experiences related to topics. Corequisites: CSD:6316. Requirements: AuD fourth-year enrollment.

CSD:6316 Advanced Externship in Audiology **arr.**
Advanced clinical externship in audiology. Corequisites: CSD:6311 or CSD:6312. Requirements: AuD fourth-year enrollment.

CSD:6317 Audiology Practice: Business Start-Up **1 s.h.**
Introduction to business aspects of developing and managing an audiology practice related to business start-up as well as short and long range business planning; presentation of topics by clinical faculty and guest speakers with special expertise in each area; student presentations.

CSD:6318 Occupational Audiology **1 s.h.**
Incidence and prevalence of hearing loss; risk factors and assessment; noise exposure guidelines; hearing protection devices; education and motivation.

CSD:6319 Interprofessional Practice and Community Engagement in Communication Sciences and Disorders **1 s.h.**
Advanced knowledge and experiences related to interprofessional education and practice (IPE/IPP) in communication sciences and disorders; IPE/IPP training focus on students' collaboration with multiple service providers from other professions to improve outcomes for individuals, families, and/or communities; presentation of topics by clinical faculty and guest speakers with special expertise in each area; student presentations.

CSD:6515 Professional Seminar **0 s.h.**
Weekly presentation of research projects, ideas, and clinical initiatives by faculty, students, and guests; required for PhD, AuD, and MA-SLP first-year graduate students.

CSD:6519 Evidence-Based Practice **2 s.h.**
Introduction to design and conduct of research and evidence-based clinical practice. Offered fall semesters. Recommendations: clinical graduate standing in audiology or speech-language pathology.

CSD:6538 Advanced Topics in Speech, Language, and Hearing Research **1 s.h.**
Varied topics related to auditory function, assessment, and rehabilitation; discussion based.

CSD:6540 Grant Writing for Fellowship and Career Development Awards **2 s.h.**
Equips students with the skills and knowledge necessary to develop competitive NIH pre-doctoral fellowship (F awards) and career development (K awards) applications. Key components of the NIH grant process, including identifying appropriate funding opportunities, tailoring proposals to align with NIH priorities, and writing the key sections of a training grant. Students work collaboratively with their mentors to craft the research plan as well as the mentoring and institutional support letters.

CSD:7238 Capstone 1 s.h.
Work with a faculty mentor to complete a project that focuses on an area of student's interest.

CSD:7239 Multilingual/Multicultural Capstone 1-3 s.h.
Work with a faculty mentor to complete a project that focuses on multilingualism and/or multiculturalism in speech-language pathology.

CSD:7590 Research arr.
Individual laboratory research training in speech-language pathology or audiology.

Speech and Hearing Science, BA

The undergraduate major in speech and hearing science emphasizes the normal processes of speech, hearing, and language. Coursework for the major prepares students to enroll in either a master's degree program in speech-language pathology or a clinical doctorate program in audiology (AuD). The undergraduate degree does not qualify an individual to work professionally in the field.

Learning Outcomes

Graduating BA students in speech and hearing science will have:

- a strong foundational understanding of the physical processes and biological substrates underlying normal audition, normal perception, and production of speech and language;
- a strong foundational understanding of the normal development of speech, language, and hearing;
- finished all prerequisite coursework needed to begin a graduate program in either speech-language pathology or audiology; and
- prepared to begin more advanced graduate coursework focusing on disorders, diagnosis, and treatment.

Requirements

The Bachelor of Arts with a major in speech and hearing science requires a minimum of 120 s.h., including 63–64 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Requirements include 12 core courses offered by the department and eight cognate courses offered by other departments. Transfer students must complete a minimum of 15 s.h. toward the major at the University of Iowa. Students who earn a major in speech and hearing science may not earn a minor in communication sciences and disorders.

The BA with a major in speech and hearing science requires the following coursework.

Requirements	Hours
Core Courses	37
Cognate Courses	26-27
Clinical Observation	

Core Courses

Course #	Title	Hours
All of these:		
CSD:1015	Introduction to Speech and Hearing Processes and Disorders	2
CSD:2110	Phonetics: Theory and Applications	3
CSD:2111	Basic Acoustics for Speech and Hearing	3
CSD:3112	Anatomy and Physiology of Speech Production	4
CSD:3113	Introduction to Hearing Science	4
CSD:3116	Basic Neuroscience for Speech and Hearing	3
CSD:3117	Psychology of Language	3
CSD:3118	Language Acquisition	3
CSD:3185	Hearing Loss and Audiometry	3
CSD:4145	Developmental Language Disorders	3
CSD:4148	Developmental Speech Disorders	3
CSD:4244	Rehabilitative Audiology	3

Cognate Courses

Students may choose cognate courses that help fulfill the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Course #	Title	Hours
Both of these:		
LING:3001	Introduction to Linguistics	3
PSY:1001	Elementary Psychology	3
One of these:		
PSQF:1020/ STAT:1020	Elementary Statistics and Inference	3
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
STAT:2010	Statistical Methods and Computing	3
STAT:3510/ IGPI:3510	Biostatistics	3
One of these:		
CHEM:1070	General Chemistry I	3
CHEM:1110	Principles of Chemistry I	4
PHYS:1400	Basic Physics (preferably with lab)	3-4
PHYS:1511	College Physics I	4
One of these:		
ASP:3150	Psychology of Aging	3
PSY:2301	Introduction to Clinical Psychology	3
PSY:2930	Abnormal Psychology: Health Professions	3
SSW:1800/ ASP:1800/ CSD:1800/ NURS:1800/ TR:1800	Aging Matters: Introduction to Gerontology	3
One of these:		
PSQF:4106	Child Development	3
PSY:2401	Introduction to Developmental Science	3
One of these:		
BIOL:1141	Human Biology: Health Professions (with lab)	4
BIOL:1411	Foundations of Biology (with lab)	4
One of these:		
MATH:1440	Mathematics for the Biological Sciences	4

MATH:1460	Calculus for the Biological Sciences	4
MATH:1850	Calculus I	4

The cognate requirement in mathematics may be fulfilled through an acceptable score on the Advanced Placement AB or BC Calculus exam; see Credit by Exam Options on the Admissions website. Students without AP credit are encouraged to take MATH:1440 Mathematics for the Biological Sciences (speech interest) or MATH:1460 Calculus for the Biological Sciences (audiology interest) to satisfy this requirement.

Clinical Observation

Students have the opportunity and are encouraged to obtain 25 hours of supervised clinical observation, a prerequisite for participation in clinical practicums at the graduate level. This requirement is satisfied by the completion of CSD:4120 Introduction to Clinical Methods and Observation. In some cases, this requirement also can be fulfilled by independent observations.

Honors

Honors in the Major

The departmental honors program provides students the opportunity to conduct research in the field of communication sciences and disorders, gain experience presenting research ideas in public settings, and work closely with a faculty mentor.

In order to be eligible, students must have a cumulative and major grade-point average (GPA) of at least 3.60 at the end of the spring semester of their sophomore year, when top-ranking eligible students will be invited to apply for the program. Interested students should complete and return the application. A limited number of spots are available, based on the availability of mentors. Applications will be reviewed, and a select number of students will be admitted to the program.

After entering the departmental honors program, students enroll in CSD:3097 Honors Seminar in the fall semester of their junior year. The seminar provides an introduction to research philosophies, research design and implementation, and a chance for each student to critically evaluate existing research literature. In addition, the seminar provides an introduction to the department’s research facilities and potential thesis advisors.

By the beginning of the spring semester of their junior year, students will have selected project areas and thesis advisors. During their final three semesters, honors students register for a total of 4 s.h. of CSD:4098 Honors Thesis and work on their projects/theses with their mentors. During the spring semester of their senior year, honors students present their projects at a university-wide forum (such as the UI Spring Undergraduate Research Festival) and a departmental event (such as ProSem). Students must maintain a cumulative and major GPA of at least 3.60 in order to graduate with honors in the major. As a final recognition of the completion of the departmental honors program, honors students' diplomas bear a special notation.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the speech and hearing science major.

Career Advancement

The speech and hearing science program provides excellent preparation for study in an advanced degree program that leads to a career as a speech-language pathologist or audiologist. There continues to be a strong demand for professionals in these fields, and both speech pathology and audiology are consistently ranked highly in “best job” surveys.

Advanced degree holders may work as a professor, clinician, and/or researcher in the field of communication sciences and disorders.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

The major requires specific mathematics and science competencies that may be satisfied with courses approved for the GE CLAS Core.

Before the fifth semester begins: three courses in the major.

Before the seventh semester begins: nine courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: 12 courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Speech and Hearing Science, BA

CSD:3117	Psychology of Language [i]	3
CSD:4030	Experiential Learning: Community Engagement Through Communication and Literacy Programs [k]	2 - 3
CSD:4120	Introduction to Clinical Methods and Observation [k, l]	3
CSD:4148	Developmental Speech Disorders [i]	3
Elective course [g]		3
Elective course [g]		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [m]		
	Hours	**17-18**
	Total Hours	**121-130**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students intending to pursue AuD should consider MATH:1460.

c Enrollment in math courses requires completion of a placement exam.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Students should choose a course that will also fulfill the GE CLAS Core Natural Sciences requirement.

f See General Catalog for list of approved courses.

g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

h Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

i Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

j GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

k Recommended but not required to complete Speech and Hearing Science BA degree requirements.

l Students have the opportunity and are encouraged to obtain 25 hours of supervised clinical observation, a prerequisite for participation in clinical practicums at the graduate level. This requirement is satisfied by completion of CSD:4120 Introduction to Clinical Methods and Observation. In some cases, this requirement also can be fulfilled by independent observations.

mPlease see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Communication Sciences and Disorders, Minor

Requirements

The undergraduate minor in communication sciences and disorders requires a minimum of 15 s.h., including 12 s.h. in courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students who earn a major in speech and hearing science may not earn a minor in communication sciences and disorders.

Students must begin the minor with CSD:1015 Introduction to Speech and Hearing Processes and Disorders, which provides a broad overview of all aspects of the normal communication process and of various disorders. Students complete the minor by choosing from the courses listed below, according to their interests.

The minor in communication sciences and disorders requires the following coursework.

Course #	Title	Hours
This course:		
CSD:1015	Introduction to Speech and Hearing Processes and Disorders	2
A minimum of 13 s.h. from these:		
CSD:2110	Phonetics: Theory and Applications	3
CSD:2111	Basic Acoustics for Speech and Hearing	3
CSD:3112	Anatomy and Physiology of Speech Production	4
CSD:3113	Introduction to Hearing Science	4
CSD:3116	Basic Neuroscience for Speech and Hearing	3
CSD:3117	Psychology of Language	3
CSD:3118	Language Acquisition	3
CSD:3185	Hearing Loss and Audiometry	3
CSD:4140	Manual Communication	1
CSD:4145	Developmental Language Disorders	3
CSD:4148	Developmental Speech Disorders	3
CSD:4244	Rehabilitative Audiology	3

Audiology, MS

The MS in audiology is for students currently enrolled in the University of Iowa's AuD Doctor of Audiology program. This degree facilitates the student's ability to apply for temporary audiology licensure if required by the state in which they are completing their 4th year clinical externship. There is no direct admission to the MS in audiology degree program. The doctor of audiology AuD meets all the academic and practicum requirements for clinical certification by the American Speech-Language-Hearing Association (ASHA) and for licensure by the State of Iowa; the MS in audiology does not.

Learning Outcomes

Students will:

- be able to accurately identify hearing and balance disorders affecting both children and adults; and
- understand the importance of patient- and family-centered, evidence-based approaches to identify, treat, and prevent hearing and balance disorders affecting individuals of all ages.

Requirements

The Master of Science in audiology requires 85 s.h. of graduate credit. There is no direct admission to the MS in audiology degree. Rather, it serves as an en passant to the Doctor of Audiology and facilitates the student's ability to apply for temporary audiology licensure if required by the state in which they are completing their fourth-year clinical externship.

In addition to the following coursework, students will only be awarded the MS in audiology if they have successfully secured a fourth-year clinical externship.

Core Courses

The following core courses must be taken on an A–F graded basis.

Course #	Title	Hours
All of these:		
CSD:5203	Counseling in Communication Disorders	1
CSD:5224	System and Signal Theory for Speech and Hearing Science	3
CSD:5240	Hearing Aids	3
CSD:5246	Advanced Audiology	3
CSD:5253	Speech Perception in Listeners With Hearing Loss	2
CSD:5255	Educational Audiology	2
CSD:5256	Anatomy and Physiology of Hearing	3
CSD:5320	Applied Statistics and Principles of Evidence-Based Practice in Audiology	3
CSD:6230	Psychoacoustics	2
CSD:6245	Pediatric Audiology	3
CSD:6247	Medical Audiology	2
CSD:6249	Cochlear Implants	3
CSD:6290	Auditory Evoked Potentials	3
CSD:6291	Vestibular Assessment and Rehabilitation	3
CSD:6292	Advanced Rehabilitative Audiology: Adult	1
CSD:6294	Advanced Rehabilitative Audiology: Pediatric	1
CSD:6318	Occupational Audiology	1

Students must also complete the following core courses.

Course #	Title	Hours
All of these:		
CSD:5311	Advanced Clinical Topics in Audiology (taken twice for 2 s.h. each)	4
CSD:5317	Advanced Clinical Practice in Audiology (taken three times for 1 s.h. each)	3
CSD:6317	Audiology Practice: Business Start-Up	1
CSD:6319	Interprofessional Practice and Community Engagement in Communication Sciences and Disorders	1
CSD:7238	Capstone	1

Additional Courses

Students must enroll in CSD:5315 Clinical Rotations in Audiology during the first eight fall, spring, and summer sessions in which they are enrolled in the AuD program. Students may be permitted to enroll in CSD:5314 Audiology Student Teaching instead if they are completing a rotation in a school.

Students complete a total of at least 36 s.h. in CSD:5315, CSD:5314, and elective courses selected from the following list. They work closely with an advisor to determine which courses they should complete. CSD:7238 Capstone may be taken up to two times as an elective course in addition to the one required enrollment for a total maximum of 3 s.h. toward the degree. Students may count a maximum of 2 s.h. from CSD:3993 Research Practicum toward the degree.

Course #	Title	Hours
CSD:3993	Research Practicum	1-2
CSD:4186	Problems: Speech/Hearing Processes and Disorders	1-2
CSD:6240	Seminar in Audiology	1
CSD:7238	Capstone	1

Speech Language Pathology, MS

The Master of Science program in speech language pathology provides training for individuals who wish to do clinical work in speech language pathology. Graduates of the MS program meet all academic and practicum requirements for clinical certification by the American Speech-Language-Hearing Association (ASHA) and for licensure by the State of Iowa. Students preparing for clinical positions in public schools must meet school licensure or certification requirements of the states in which they plan to work.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Learning Outcomes

Graduating MS students in speech language pathology will:

- demonstrate knowledge and skills specified in the Knowledge and Skills Acquisition (KASA) competencies for speech-language pathology professions;
- use critical thinking skills to apply theory and knowledge to clinical decision making to provide patient-centered care;
- use evidence-based practice and practice-based evidence to make clinical decisions regarding the diagnosis and treatment of persons with communication disorders; and
- adhere to the ASHA Code of Ethics, acting in an ethical and professional manner while providing patient-centered care.

Requirements

The Master of Science in speech language pathology requires a minimum of 53 s.h. of graduate credit, which may include approved graduate transfer credit. Students must maintain a Graduate College program grade-point average of 3.00. The program prepares clinicians to function independently in a variety of clinical settings. The program is designed to ensure that upon graduation, a student will meet the requirements for immediate professional employment. A typical program takes two calendar years to complete.

Candidates for the MS are not required to complete a thesis, although all interested students are encouraged to do so.

The MS in speech language pathology requires the following coursework.

Requirements	Hours
Core Courses	30
Practicum and Outplacement	17
Electives	6

Core Courses

Course #	Title	Hours
All of these (30 s.h.):		
CSD:5104	Language Disorders in School-Aged Children	3
CSD:5114	Introduction to Voice and Resonance Disorders	3
CSD:5135	Foundations of Clinical Practice I	2
CSD:5136	Foundations of Clinical Practice II	1
CSD:5137	Foundations of Clinical Practice III	1
CSD:5183	Introduction to Stuttering	2
CSD:5203	Counseling in Communication Disorders	1
CSD:5233	Aphasia	2
CSD:5234	Acquired Cognitive-Communication Disorders	2
CSD:5236	Neurological and Structural Disorders of Swallowing	3
CSD:5238	Motor Speech Disorders	2
CSD:5258	Multilingualism and Culturally Responsive Practice in Communication Sciences and Disorders	2
CSD:5260	Augmentative and Alternative Communication	2
CSD:5282	Clinical Phonology and Speech Sound Disorders	2
CSD:6519	Evidence-Based Practice	2

Practicum and Outplacement

Students must complete at least 17 s.h. of practicum and outplacement registration sufficient to meet supervised, direct clinical experience requirements for the Certificate of Clinical Competence of the American Speech-Language-Hearing Association and the Iowa license, and to provide broad, supervised practicum experience.

Practicum and outplacement courses may be repeated.

Course #	Title	Hours
12 s.h. from these:		
CSD:5301	Practicum: Speech-Language Pathology	arr.
CSD:5308	Practicum: Speech-Language Pathology Multilingual/Multicultural	arr.
CSD:5309	Practicum: Speech-Language Pathology International	2
5 s.h. from these:		
CSD:5304	Speech Pathology Outplacement: School	0-4
CSD:5305	Speech Pathology Outplacement: Non-School	0-4
CSD:5306	Speech-Language Pathology Multilingual/Multicultural Outplacement: School	arr.
CSD:5307	Speech-Language Pathology Multilingual/Multicultural Outplacement: Non-School	arr.

Electives

All nonthesis students preparing to be speech language pathologists must earn a minimum of 6 s.h. from the following electives. Thesis students earn a minimum of 2 s.h. from the following, plus 4 s.h. in CSD:7590 Research. Students may select courses not listed here with their advisor's permission.

Course #	Title	Hours
CSD:4130	Reducing Disparities and Inequities in Communication Sciences and Disorders	1
CSD:4140	Manual Communication (required for students without an undergraduate equivalent)	1
CSD:5223	Pediatric Feeding and Swallowing Disorders	1
CSD:5237	Cleft Palate and Related Disorders	1-2
CSD:5318	Literacy: Emergent and School Aged	1
CSD:5319	Head and Neck Cancer and Instrumentation	2
CSD:5350	Seminar in Supervision	1
CSD:6294	Advanced Rehabilitative Audiology: Pediatric	1
CSD:6538	Advanced Topics in Speech, Language, and Hearing Research	1
EDTL:4990	Interdisciplinary Issues in Disabilities (for Iowa Leadership Education in Neurodevelopmental and Related Disabilities (ILEND) trainees)	1-3
PSQF:7255	Autism Spectrum Disorders	2

Professional Licensure

State Licensure

A number of states, including Iowa, require a state license in speech language pathology or audiology. Students who meet the requirements listed for the MS in speech language pathology also meet the academic requirements for license in Iowa as well as most other states. For more information, visit Iowa Licensing Requirements for Audiologists and Speech-Language Pathologists on the American Speech-Language-Hearing Association website.

Public School Licensure

Students preparing for clinical positions in public schools typically must meet school licensure or certification requirements of the states in which they plan to work. The following criteria meet the requirements for endorsement as speech language pathologists in Iowa and most other states:

- a master's degree with a professional emphasis in speech language pathology or the equivalent; and
- completion of coursework described in School Speech Language Pathologist Licensure Preparation/Added Endorsement Program K–12 on the College of Education website.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Admission to the program is competitive; applicants' credentials are considered in relation to those of others in the applicant pool and a limited number of individuals are admitted to each program. Applicants whose undergraduate grade-point average is below 3.30 are rarely admitted.

The deadline for application is Jan. 15. All applications to the MS program must be submitted through the Central Application Service for Communication Science and Disorders (CSDCAS) and to the graduate program at the University of Iowa.

For detailed information regarding the evaluation of applicants, application materials and requirements, and other matters, see Graduate Programs on the department's website.

MS students usually have a background of undergraduate courses in speech and hearing science, psychology of language, and human behavior that is equivalent to an undergraduate major in speech and hearing science at the University of Iowa.

Prerequisite Coursework

Before registering for the program, entering MS students receive descriptive materials about basic core science courses considered to be required preparation for the MS and required MS clinical core courses for which the department may accept comparable courses taken at the undergraduate level. Decisions about incorporating background coursework in these areas are made by the faculty advisor in consultation with the student and the instructors of the basic science or clinical core courses. Entering students must have completed the following courses or their equivalents.

Course #	Title	Hours
CSD:2110	Phonetics: Theory and Applications	3
CSD:3112	Anatomy and Physiology of Speech Production	4
CSD:3113	Introduction to Hearing Science	4
CSD:3116	Basic Neuroscience for Speech and Hearing	3
CSD:3118	Language Acquisition	3
CSD:3185	Hearing Loss and Audiometry	3
CSD:4145	Developmental Language Disorders	3
CSD:4148	Developmental Speech Disorders	3
CSD:4244	Rehabilitative Audiology	3
PSQF:1020/ STAT:1020	Elementary Statistics and Inference	3
A biological science course (human or animal biology)		3
A physical science course (physics or chemistry)		3
A social/behavioral science course		3
25 hours of observation documented by a practitioner with ASHA certification		

Career Advancement

The Department of Communication Sciences and Disorders provides excellent preparation for a career as a speech language pathologist or audiologist. There continues to be a strong demand for professionals in these fields, and both speech pathology and audiology rank highly in "best job" surveys.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

c Complete at least 12 s.h. total of practicum credit.

d Complete a total of at least 5 s.h. from CSD:5304, CSD:5305, CSD:5306, CSD:5307.

e See the General Catalog for list of approved courses.

Doctor of Audiology, AuD

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Learning Outcomes

Graduating AuD students will:

- be able to accurately identify, diagnose, prevent, quantify, and treat hearing and balance disorders affecting both children and adults;
- understand the importance of and be able to implement patient- and family-centered, evidence-based approaches to identify, treat, and prevent hearing and balance disorders affecting individuals of all ages; and
- become leaders—nationally and internationally—driving innovation, shaping the future of the profession, and disseminating information about the consequences of untreated hearing and balance disorders as well as the importance of early intervention and prevention.

Requirements

The Doctor of Audiology (AuD) requires 89 s.h. of graduate credit. Students must earn a minimum UI cumulative grade-point average of 3.00. The AuD is the entry-level degree for individuals who wish to work as audiologists in the United States.

The four-year AuD program is designed for students who have completed an undergraduate degree in speech and hearing science, communication sciences and disorders, or another baccalaureate degree through which they completed the required course prerequisites for the AuD program.

The Doctor of Audiology requires the following coursework.

Requirements	Hours
Core Courses	51
Additional Audiology Courses	38

Core Courses

The following courses must be taken on an A–F graded basis.

Course #	Title	Hours
All of these:		
CSD:5203	Counseling in Communication Disorders	1
CSD:5224	System and Signal Theory for Speech and Hearing Science	3
CSD:5240	Hearing Aids	3
CSD:5246	Advanced Audiology	3
CSD:5253	Speech Perception in Listeners With Hearing Loss	2
CSD:5255	Educational Audiology	2
CSD:5256	Anatomy and Physiology of Hearing	3
CSD:5320	Applied Statistics and Principles of Evidence-Based Practice in Audiology	3
CSD:6230	Psychoacoustics	2
CSD:6245	Pediatric Audiology	3
CSD:6247	Medical Audiology	2
CSD:6249	Cochlear Implants	3
CSD:6290	Auditory Evoked Potentials	3
CSD:6291	Vestibular Assessment and Rehabilitation	3
CSD:6292	Advanced Rehabilitative Audiology: Adult	1
CSD:6294	Advanced Rehabilitative Audiology: Pediatric	1
CSD:6318	Occupational Audiology	1

The following courses may be completed with a grade of S.

Course #	Title	Hours
All of these:		
CSD:5311	Advanced Clinical Topics in Audiology (taken twice for 2 s.h. each)	4
CSD:5317	Advanced Clinical Practice in Audiology (taken three times for 1 s.h. each)	3
CSD:6311	Professional Issues in Audiology	1
CSD:6312	Professional Issues in Audiology II and Capstone	1
CSD:6317	Audiology Practice: Business Start-Up	1
CSD:6319	Interprofessional Practice and Community Engagement in Communication Sciences and Disorders	1
CSD:7238	Capstone	1

Additional Audiology Courses

Students complete a minimum of 38 s.h. in additional audiology courses, including required clinical rotations and elective courses.

Clinical Rotations

Students are required to enroll in CSD:5315 Clinical Rotations in Audiology for the first eight fall, spring, and summer sessions in the AuD program. They may concurrently enroll in CSD:5314 Audiology Student Teaching if completing a rotation in a school.

Students are required to enroll in CSD:6316 Advanced Externship in Audiology during the fall and spring semesters of their fourth year in the AuD program. Students will be awarded the MS in speech language pathology [p. 258] en passant if required for temporary licensure to complete the clinical externship.

Audiology Electives

Students work closely with their advisor to determine which electives they should enroll in. Electives must be numbered 3000 and above. Students commonly choose the following courses as electives.

Course #	Title	Hours
CSD:3993	Research Practicum (maximum 2 s.h.)	arr.
CSD:4186	Problems: Speech/Hearing Processes and Disorders (maximum 2 s.h.)	arr.

CSD:6240	Seminar in Audiology	arr.
CSD:7238	Capstone (including the required 1 s.h. above in Core Courses, students are permitted a maximum total of 3 s.h. of this course)	1

Combined Programs

AuD/PhD in Speech and Hearing Science

For students who are enrolled in the AuD program but interested in research, the Department of Communication Sciences and Disorders offers a combined Doctor of Audiology/Doctor of Philosophy program. This option is appropriate for students who have more applied research interests but would like to work in academics.

The combined program requires 131 s.h. of coursework. Students must satisfy all the clinical practicum experiences required for the AuD as well as all of the milestones required for the traditional PhD. Completion time for the two degrees varies but is typically seven years. Details on applying for the combined program can be found in "Admission" in this section of the catalog. For more information, contact the director of PhD studies.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Admission to the program is competitive and each applicant's credentials are considered in relation to the credentials of others in the applicant pool. Individuals with an undergraduate grade-point average below 3.00 are rarely admitted.

The deadline for application is Jan. 15. All applications to the AuD program must be submitted through the Central Application Service for Communication Science and Disorders (CSDCAS) as well as submit an application to the Graduate Program at the University of Iowa.

Students interested in admission to the combined AuD/PhD program are required to initially apply to the AuD program and be admitted. At the end of their second year in the AuD program, they may formally request permission to change their degree objective. If the faculty approve and a mentor is available, students transition into the AuD/PhD program.

For detailed information regarding the evaluation of applicants, application materials and requirements, and other matters, see Graduate Programs on the department's website.

Career Advancement

The AuD program provides students with excellent preparation for a career as an audiologist. There continues to be a strong demand for audiologists nationwide and it is consistently ranked highly in “best job” surveys. Graduates are often hired as faculty in positions at universities, in industry and clinical positions, and in research settings.

Speech and Hearing Science, PhD

The PhD program in speech and hearing science provides flexible, comprehensive training for scholar-researchers interested in communication processes and disorders, allowing students to develop the knowledge and skills necessary for them to become productive researchers, whether in academia or industry. At the University of Iowa, the program reflects the broadly multidisciplinary interests of its faculty, who have expertise in physiology, bioengineering and physical sciences, neuroscience, psychology, linguistics, and multiculturalism across the domains of speech, language, and hearing. Prospective students are encouraged to identify a mentor whose research area aligns with their own interests. Students with diverse backgrounds in the natural and behavioral sciences are encouraged to apply.

Learning Outcomes

Graduating PhD students in speech pathology and audiology will demonstrate:

- critical thinking through reading, discussing, and writing about relevant scientific literature;
- competence in designing and conducting research, from concept to methodology, and through to data analysis and publication;
- competence in scientific writing;
- competence in developing and delivering oral research presentations; and
- competence in developing and delivering course material to undergraduate and graduate classes.

Requirements

The Doctor of Philosophy program in speech and hearing science requires a minimum of 72 s.h. of graduate credit. Although there is no standard curriculum for the PhD, a program of study is developed by each student in consultation with their mentor and a faculty planning committee.
The course of study typically includes registration in an introductory course in doctoral research that covers broad issues relevant to research approaches and life in academia, as well as one or more courses in statistical or other research methods. In addition, a range of topical seminars and courses are offered by faculty members in the Department of Communication Sciences and Disorders, as well as by faculty in other departments, including linguistics, psychological and brain sciences, otolaryngology—head and neck surgery, statistics and actuarial science, molecular physiology and biophysics, engineering, neuroscience, and computer science. Also important to a student's education is registration in CSD:7590 Research, which covers individual readings and research experiences with their mentor and other faculty members.

The stepping stones of the PhD program include a pre-dissertation project, a comprehensive examination, and the dissertation. The pre-dissertation project is a research project conducted jointly between a student and mentor, under the direction of the mentor. Upon completion, students are expected to present their results at the department's weekly professional seminar series. The comprehensive exam typically involves a written exam consisting of several questions broadly related to a student's interests and goals, followed by an oral defense of the responses. Questions are developed and evaluated by the student's mentor and faculty comprehensive committee. Following successful completion of the comprehensive exam, the student can advance to the candidacy stage. This final step requires each student to successfully conduct, write up, and defend an original research project that meets the college requirements for the dissertation.

Combined Programs

PhD in Speech and Hearing Science/AuD

Students interested in research with an emphasis in audiology or hearing science may be interested in obtaining clinical certification, which requires completing the clinical doctorate (AuD). The Department of Communication Sciences and Disorders offers a combined program that allows students to earn both degrees simultaneously. The Doctor of Philosophy/ Doctor of Audiology program is especially appropriate for students who have more applied research interests but would like to work in academia.

The program requires 131 s.h. of coursework, including all the clinical practicum experiences required for the AuD. Students must also meet all of the milestones required for the traditional PhD. Completion time for the two degrees varies but is typically seven years.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Admission to the PhD program is based on a student's aptitude, as well as their specific area of research interest and the availability of a faculty member to serve as a mentor.

Students interested in admission to the combined PhD/AuD program are required to apply and be admitted to the AuD program initially. At the end of their second year in the AuD program, they may formally request permission to change their degree objective. If the faculty approve and a mentor is available, transition into the AuD/PhD program is approved.

The deadline for application to the PhD program is Jan. 15. Applications must be submitted through Graduate Admissions.

For more information, see Doctor of Philosophy in Speech and Hearing Science on the Department of Communication Sciences and Disorders website or contact the director of graduate studies.

Career Advancement

The PhD program provides excellent preparation for careers in academia, industry, and research. There continues to be a strong demand for graduates with doctoral-level training in speech and hearing sciences. Graduates routinely advance to postdoctoral research positions or are hired as university faculty members, and many graduates have achieved high-level administrative and research positions in the field.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Up to 33 s.h. of graduate-level transfer credits, taken as part of a graduate program, may be allowed upon approval.

b There is no standard curriculum for the PhD; work with faculty advisor to determine appropriate graduate coursework based on research interests. Coursework should include a range of seminars and courses offered by faculty in CSD or other departments (e.g., psychological and brain sciences, statistics, biology, neuroscience, linguistics).

c Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

d Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

e Work with faculty advisor to determine appropriate coursework and sequence.

f Course number varies depending on which department offers the course; consult with the DGS to select a course that will satisfy this requirement.

g Dissertation defense.

Multilingualism and Culturally Responsive Practice, Graduate Certificate

Requirements

The graduate Certificate in Multilingualism and Culturally Responsive Practice requires a total of 12 s.h. of credit: 9 s.h. of academic coursework and 3 s.h. of supervised clinical practicum. The certificate is open to graduate students currently enrolled and in good standing in the Master of Science in Speech Language Pathology or Doctor of Audiology and is completed concurrently with the coursework for either program. Enrollment in the certificate is subject to the availability of clinical placements. Interested prospective or current students should contact the Department of Communication Sciences and Disorders.

The certificate provides specialized academic and clinical training in culturally responsive speech-language and audiological assessment and treatment practices for bilingual/multilingual and multicultural populations. Bilingualism, multilingualism, or second-language proficiency are not requirements for this certificate.

The graduate Certificate in Multilingualism and Culturally Responsive Practice requires the following coursework.

Required Courses

Course #	Title	Hours
All of these:		
CSD:4130	Reducing Disparities and Inequities in Communication Sciences and Disorders	1
CSD:5104	Language Disorders in School-Aged Children	3
CSD:5258	Multilingualism and Culturally Responsive Practice in Communication Sciences and Disorders	2

Elective Course

Students complete 3 s.h. selected from a list of approved courses. Alternatively, students may complete a course approved by the director of the certificate that covers linguistic aspects of a language other than English; issues related to global engagement; or issues related to cultural, social, or linguistic diversity. Students should discuss their language experience and interest areas with an advisor to identify the most suitable course.

Students who choose to complete a capstone course do so under the advisement of a faculty member in the Department of Communication Sciences and Disorders.

Course #	Title	Hours
One of these:		
CSD:7239	Multilingual/Multicultural Capstone	3
CHIN:3302/ LING:3302	Introduction to Chinese Linguistics	3
EDTL:6483/ ASIA:6483	Multilingual Education and Applied Linguistics	3
EDTL:6484	Bi/Multilingual Literacies	3
FREN:4007	Topics in French Linguistics	3
JPNS:5301	Japanese Linguistics	3
KORE:3100/ LING:3101	Introduction to Korean Linguistics	3
LING:3190/ PSY:3190	Psycholinguistic Aspects of Bilingualism	3
LING:5030	First Language Acquisition	3
LING:6483	Multilingual Education and Applied Linguistics	3
PORT:3105/ LING:3105/ SPAN:3105	Linguistic Aspects of the Lusophone World	3
SPAN:3130	Introduction to Bilingualism	3

SPAN:4150	Introduction to Spanish Syntax	3
SPAN:4205/ GHS:4205	Culture, Language, and Health	3
SPAN:6110	Spanish Phonology	3
SPAN:6120	Spanish Syntax	3
SPAN:6150	Topics in Spanish Language Acquisition	3
Elective approved by certificate director		3

Required Clinical Practicum

Course #	Title	Hours
Any combination of the following classes to total 3 s.h.:		
CSD:5306	Speech-Language Pathology Multilingual/Multicultural Outplacement: School	arr.
CSD:5307	Speech-Language Pathology Multilingual/Multicultural Outplacement: Non-School	arr.
CSD:5308	Practicum: Speech-Language Pathology Multilingual/Multicultural	arr.

Communication Studies

Chair

- Kembrew McLeod

Undergraduate major: communication studies (BA)

Undergraduate minor: communication studies

Graduate degrees: MA in communication studies; PhD in communication studies

Faculty: https://communicationstudies.uiowa.edu/people/faculty

Website: https://communicationstudies.uiowa.edu/

Communication creates meaning and builds worlds. The mission of the Department of Communication Studies is to explore the central role that communication plays in shaping our relationships, institutions, and societies. The department prepares students to serve as innovative scholars, engaged citizens, effective communicators, and visionary leaders in all of the communities they inhabit.

Forensics/Debate

Students in the forensics/debate program have the opportunity to participate in on-campus debates, in developmental programs designed to improve speech activities in the state, and as members of competitive intercollegiate debate teams. Forensics scholarships are available. Students interested in debate should enroll in COMM:2813 Practicum in Debate.

Related Certificates

Certificate in Event Management

The departments of Communication Studies; Health, Sport, and Human Physiology; and Marketing, and the School of Journalism and Mass Communication collaborate to offer the undergraduate Certificate in Event Management. Students who earn the certificate will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event management and careers in the event management industry. For more information, see the Certificate in Event Management [p. 466] in the catalog.

Certificate in Leadership Studies

The Certificate in Leadership Studies is an interdisciplinary program supported by the Tippie College of Business, the colleges of Education and Liberal Arts and Sciences, and the Center for Student Involvement and Leadership. The certificate provides a structure for involvement and commitment to leadership. It introduces students to leadership concepts and offers them hands-on leadership experiences. The certificate is coordinated by the Pomerantz Career Center and housed in University College. For more information, see the Certificate in Leadership Studies [p. 2201] in the catalog.

Programs

Undergraduate Programs of Study

Major

- Major in Communication Studies (Bachelor of Arts) [p. 276]

Minor

- Minor in Communication Studies [p. 280]

Graduate Programs of Study

- Master of Arts in Communication Studies [p. 281]
- Doctor of Philosophy in Communication Studies [p. 283]

Facilities

The Samuel L. Becker Communication Studies Building is designed to meet the department's research and technological needs.

Courses

Communication Studies Courses

Courses numbered below 5000 are intended primarily for undergraduates; those numbered 5000 and above are for graduate students. Graduate students may take courses numbered 3000–4999 for credit, with their committee's approval.

Not all courses are offered each semester.

Registration in COMM:1000 First-Year Seminar is open to first- and second-semester students regardless of grade-point average.

COMM:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

COMM:1112 Interpersonal Communication **3 s.h.**
Introduction to face-to-face communication in social and personal relationships; maximizing communicative effectiveness in relationships with knowledge about how communication functions; analysis of one's own and others' communication practices and experiences.

COMM:1117 Advocacy and Argument **3 s.h.**
Public arguments as practiced in law, politics, science, and other public arenas; improvement of skills in researching, constructing, organizing, and presenting arguments on disputed subjects; analyzing and refuting arguments of others; developing a better understanding of how scholars apply tools of formal and informal logic in a variety of disciplines to improve quality of academic argument. GE: Quantitative or Formal Reasoning.

COMM:1130 The Art of Persuading Others 3 s.h.
Basic theoretical concepts of effective public communication; employ knowledge of concepts in analyzing texts; definition and influence of rhetorical situation, different elements of persuasion (message logic, appeal to feelings, character of speaker), ability of speakers to invent arguments; issues of judgment, public discourse, identity, and agency.

COMM:1168 Music and Social Change 3 s.h.
What makes popular music important for people; music's power to change culture; production, distribution, reception of popular music in cultural and historical contexts. GE: Understanding Cultural Perspectives.

COMM:1170 Communication Theory in Everyday Life 3 s.h.
General overview of everyday life communication, theories and research techniques used to understand it; sheer depth and complexity of processes in communication that occur in everyday lives and which appear to be trivial; how to observe conversations and identify what is really happening in them; ways in which scholars explain everyday communication and how it works; applications of theoretical thinking to explain processes of everyday communication. GE: Social Sciences.

COMM:1174 Media and Society 3 s.h.
Processes and effects of mass communication; how mass media operate in the United States; how mass communication scholars develop knowledge. GE: Social Sciences; Values and Society.

COMM:1302 Introduction to Civic Bridge-Building: Skills for Effective Dialogue 1 s.h.
Exploration of civic dialogue principles; focus on developing skills for peer-to-peer dialogue; emphasis on self-awareness, active listening, and empathy; application of conflict resolution techniques; reflection on personal growth and the role of dialogue in community-building.

COMM:1305 Understanding Communication Research in Real Life 3 s.h.
Social scientific methods used to generate knowledge about communication processes; basic tools necessary to conduct and evaluate communication research; epistemological perspectives, research procedures, and data analysis; readings and hands-on activities.

COMM:1306 Understanding Communication: Humanistic Approaches 3 s.h.
Humanistic methods and theories used to generate knowledge about communication processes; basic tools necessary to conduct and evaluate communication research in humanities subdisciplines; epistemological perspectives, research procedures, and critical practices; readings and hands-on activities.

COMM:1816 Business and Professional Communication 3 s.h.
Introduction to business and professional communication at individual and corporate levels; individual-level topics cover organizational communication, business vocabulary, speaking and writing, professionalism and interviewing; corporate-level topics focus on marketing, advertising, public relations, corporate communications, crisis communication management, business and communication plans, proposals; guest speakers from for-profit and not-for-profit organizations.

COMM:1818 Communication Skills for Leadership 3 s.h.
Practice and understanding of essential communication skills for leadership; skills-based curriculum promoting application of knowledge; topics include relationship skills, collaboration skills, presentation skills, and writing skills; emphasis on leadership throughout each section of the course.

COMM:1819 Organizational Leadership 3 s.h.
Introduction to nature of leadership, styles of leadership that are most effective, and ways in which obstacles may be overcome in groups or organizations; different approaches to qualities of leadership, role of visions and motivation, interpersonal and decision-making skills, meeting preparation and evaluation, and related communication skills.

COMM:1830 Communication Skills for Community Engagement 3 s.h.
Communication at the heart of public problems and solutions; critical 21st-century skills (writing for a general audience, facilitating dialogue); valuable community service experiences as an introduction to the interdisciplinary field of dialogue and deliberation; focus on a complex local issue, such as affordable housing, flood planning, or excessive drinking; partnering with local organizations to research a local problem, plan community-based solutions, and study the art of facilitating public discussions; topics include issue analysis, deliberative inquiry, convening meetings, and community organizing.

COMM:1840 Introduction to Media Production 3 s.h.
Foundation of electronic media and digital television production skills using industry-quality technology; high-definition camera operation, audio recording and editing, digital switcher operation, nonlinear editing, studio lighting techniques, and more; introduction to questions surrounding the impact of media production on artistic expression, audiences, and society.

COMM:1845 Writing and Producing Commercials 3 s.h.
Basics of writing and producing commercials and other short-form television productions including public service announcements, promotional videos, and more; entire production process from creation to production to post-production; assumes basic knowledge of studio and field production techniques, nonlinear editing. Prerequisites: COMM:1840.

COMM:1898 Introduction to Latina/o/x Communication and Culture 3 s.h.
Introduction to fundamentals of communication by and about Latina/o/x in the U.S.; Latina/o/x as one of the fastest growing demographics; how Latina/o/x history, politics, and culture remain little understood despite a longstanding and growing presence in Iowa and across the nation; historical orientation; Latina/o/x social movement and protest (e.g., Chicana/o/x movements, Young Lords Organization), institutional discourses (e.g., congressional, presidential, legal discourses), and Latina/o/x in popular culture (film, television, music, sports). GE: Understanding Cultural Perspectives. Same as LATS:1898.

COMM:2010 Communication and Organizational Culture 3 s.h.
Introduction to nature, construction, and deconstruction of organizational culture from a communication perspective; examination of different approaches for understanding and analyzing organizational culture, including the lens of symbolic performance, narrative reproduction, textual reproduction, management, power and politics, technology, and globalization; prepares students to be change agents in organizations as they learn how to conduct an organizational cultural audit and how to create and implement successful change.

COMM:2011 Group Communication 3 s.h.
Study of relevant theory, research, and application to increase understanding of communication in small groups; critical thinking and communication skills; individual roles in groups, creativity, leadership, decision-making, problem solving, and conflict resolution.

COMM:2012 African Americans in the Media 3 s.h.
Evolution of the popular image of African Americans as reflected in the visual media of television and film; examination of other media, including print (magazines, newspapers), music, and the Internet; focus on issues of representation (e.g., representations of whom, by whom, for whom) and power dynamics; exploration of the media's impact on African Americans as a cultural minority; emphasis on description, analysis, interpretation, and evaluation of historical and contemporary trends in American media.

COMM:2013 Media, Identity, and Reality TV 3 s.h.
Critical cultural analysis of reality television as a pervasive form of media; exploration of reality TV's role in shaping political, economic, and social meanings; examination of mediated representations and their influence on perceptions of marginalized communities; consideration of how narratives challenge or reinforce cultural beliefs regarding identity, body image, consumerism, and social differences such as race, gender, class, and sexuality.

COMM:2015 Communication and Resilience 3 s.h.
How resilience can be built via communication (conversation, storytelling, art, media, etc.) throughout the life course; considers factors that hinder and facilitate resilience efforts and provides strategies for encouraging resilience personally and professionally; includes practical application, research, and theory.

COMM:2020 Health Communication 3 s.h.
How to better understand the intersections of health and communication; health communication is the study of how health information is generated and disseminated, and how that information affects and is affected by individuals, community groups, institutions, and public policy; people who understand the study of communication are in an important role, and their services are in high demand; health communication specialists work in hospital education departments, public relations, marketing, and human resource departments, in healthcare administration, in media organizations covering health issues, and in organizations that educate and support public policy and research.

COMM:2030 Sexual Communication in Personal Relationships 3 s.h.
Exploration of sexual communication as a foundational activity in the development and maintenance of relationships; examination of intersection of sexual communication and personal, relational, cultural, and institutional norms and values; translation of sexual communication research into practical skills.

COMM:2040 Communication and Conflict 3 s.h.
Conflict and its management as critical issues that pervade people's personal and professional lives; complexities of conflict; forces that make conflict challenging; skills for thinking about and managing conflict more effectively; central features that define conflict; behaviors, attributions, and emotions that are manifest during conflict; formal models of conflict management and their corresponding recommendations for handling conflict.

COMM:2041 Gender, Communication, and Culture 3 s.h.
Social construction of gender and gendered identities across a range of communicative settings in contemporary U.S. society, including relationships, schools, organizations, media, and social movements; how communication creates, reproduces, sustains, and sometimes challenges and changes the meaning of gender and, with that, cultural structures and practices. Same as GWSS:2041.

COMM:2042 Intercultural Communication 3 s.h.
Culture defined as a system of taken-for-granted assumptions about the world that influence how people think and act; cultural differences that produce challenges and opportunities for understanding and communication; those differences from several theoretical perspectives; opportunities to examine culture and cultural differences in practical, experience-driven ways. Same as IS:2042, SSW:2042.

COMM:2044 Political Communication 3 s.h.
Relationship between media, cultural politics, and the American political system; focus on advertising, campaigns, and new media outlets; ways politicians, the press, and intermediaries create and disseminate messages into mainstream culture; how people generate their own discourses of political identity and dissent, creating a robust democratic practice that is both empowering and central to the contemporary political landscape.

COMM:2045 Cultural Politics of the Environment in the US 3 s.h.
Introduction to feminist and queer theories of social space; material and symbolic construction of gender and sexuality; communicating gender and sexuality in different social spaces and scales in historical and contemporary contexts. Same as GWSS:2046.

COMM:2048 Transforming Media: From Telegraph to Internet 3 s.h.
How U.S. electronic media have shaped, and been shaped by, social and cultural transformations since the mid-19th century; examination of public responses to communication revolutions; exploration of questions about media power and influence in specific historical contexts including the emergence and expansion of telegraph, telephone, broadcasting, cable, and internet; readings, discussions, and assignments investigate role of communication media in the rise of the United States as a global power and consumer culture.

COMM:2050 Politics of Popular Culture 3 s.h.
Overview of theories of culture and critical approaches to the study of popular culture; topics include broadcast television, streaming media, advertising, film, news media, video games, popular music, celebrity culture and how they intersect with race, gender, class, sexuality, and other social categories.

COMM:2054 Movements, Protest, Resistance 3 s.h.
Historical and contemporary study of social movements from a symbolic perspective (e.g., speeches, protests, propaganda, media events); social movements as interpersonal and group communication; relationships between media and social change: efficacy of individual and larger-scale forms of resistance.

COMM:2057 Introduction to Computer-Mediated Communication 3 s.h.
Theoretical and practical introduction to concepts and research in computer-mediated communication; emphasis on study of social effects of communication and information technology; factors that distinguish mediated from face-to-face interaction, theories of mediated communication, self-presentation online; internet-based relationships, online supportive communication, online communities; how the internet influences communication and how to use computer-mediated communication for self-presentation.

COMM:2059 Games, Culture, and Society 3 s.h.
Survey of the history and social implications of games, primarily digital, for society. Topics include the historical origins of the game industry; game marketing and gamification; the politics of identity and representation in game design; the advent of online networked gaming, networked toxicity, and community moderation; best practices for conceiving of and pitching prosocial games; and issues of meaning, accessibility, and rhetoric in modern game design.

COMM:2064 Media, Advertising, and Society 3 s.h.
Introduction to the critical study of advertising in the United States; advertising contextualized as an industry and as a key part of media and culture; advertising as an institution and as a series of symbols, ideas, and fantasies; how advertising works, role and function of advertising in culture and society.

COMM:2065 Television Criticism 3 s.h.
Introduction to scholarly study of television as a social institution; nature of television form and content; role of industry in creation, selection, and presentation of television programs; production conventions and textual conventions in defining the medium; application of genre and narrative theory, semiotics, political economy of media industries, and audience reception study.

COMM:2069 Black Television Culture 3 s.h.
Social and political impact of television dramas featuring people of African descent in the West; examination of production, reception, representation, and industry as it relates to the African American images that are granted tenure on television screens. GE: Understanding Cultural Perspectives. Same as AFAM:2070.

COMM:2070 Social Media and Society 3 s.h.
Introduction to theoretical and critical issues raised by social media for communication; particular emphasis on cultural and political phenomena; topics include various understandings of social media, forms of digital communication, individual and collective identity formations via social media, online communities, and global cultural exchange; recent examples of the "viral" phenomenon and internet-born activism.

COMM:2072 African American Popular Culture 3 s.h.
Examination of global popularity and impact of African American popular culture. Same as AFAM:2072.

COMM:2075 Gender, Sexuality, and Media 3 s.h.
Mediated representations of gender and sexuality (television, film, and internet) to understand how these complex and complicated codes influence meaning of sex, sexuality, and gender; contemporary and historical examples used to engage texts that illuminate cultural conceptions of femininity, masculinity, heterosexuality, and homosexuality; cases that confuse and trouble the stability of these categories. Same as GWSS:2075.

COMM:2076 Race, Ethnicity, and Media 3 s.h.
Introduction to debates about media portrayals of race and ethnicity; focus primarily on entertainment media; use of general analytic perspectives (stereotype analysis, aesthetic analysis, history) applied to real-world examples; address one or more racial/ethnic groups in the United States. Same as AFAM:2076.

COMM:2077 Writing and Producing Sitcoms 3 s.h.
Introduction to basics of writing and producing a conventional, three-camera television sitcom; hands-on experience with production equipment and workshopping television scripts; students create one or more episodes of an original television series.

COMM:2079 Digital Media and Religion 3 s.h.
Influences of digital media on religion and spirituality today. GE: Historical Perspectives. Same as RELS:2930.

COMM:2080 Public Life in the U.S.: Religion and Media 3 s.h.
Examination of how the U.S. came into being through specific communication practices, how religion has helped and hindered that process; religious roots of the idea of the U.S., intertwined histories of print media and religion, role of religion and secularism in public discourse; U.S. pride as a nation in which diversity thrives in public discourse; communicative acts that created and sustained this country and also mark sites of discord, conflict, and confusion from the very beginnings of the U.S. to today; how religion has been a source of national identity and national division. Same as RELS:2080.

COMM:2083 Privacy and Anonymity on the Internet 3 s.h.
Exploration of the influence of new communication technologies on privacy and anonymity; engagement with historical and contemporary readings; reaction papers, comprehensive essay, and group project.

COMM:2085 Media Industries and Organizations 3 s.h.
Trends in media industries as reflected in changes of ownership, different work conditions, media convergence, and globalization generally; focus on local, network, and cable television; examination of industry structures, business practices, economic fundamentals, and theoretical explanations of media industries in society.

COMM:2086 Global Media Studies 3 s.h.
Key developments in contemporary international communication; impact of deregulation and privatization on ownership and control of global communication infrastructure; spread of American television abroad in terms of production, texts, and reception; cultural concerns surrounding the phenomenon.

COMM:2088 Media and Democracy 3 s.h.
Exploration of relationship between democracy and mass communication; why controversies regarding mass communication are also controversies about democracy; logical relationship between democracy and mass media; roots and history of ideas of democracy, contemporary obstacles to realization of these ideas, and varied issues of present; latest developments in world of politics and media.

COMM:2089 Nonverbal Communication 3 s.h.
Introduction to theoretical study of nonverbal communication; focus on major principles and research trends; examination of role of nonverbal communication in communication as a whole; perception and interpretation of nonverbal communication (i.e., posture, eye movements, tone of voice); nonverbal behaviors (i.e., facial expression, eye movement) as used to persuade, impress, or deceive someone.

COMM:2090 Topics in Communication Studies 3 s.h.
Topics vary.

COMM:2091 Organizational Communication 3 s.h.
Explores nature and function of communication in organizations; theories of organizational communication and scholarly research related to communicating effectively in organizational settings; course will strengthen critical thinking and research skills, deepen understanding of topics related to organizing, and improve ability to communicate successfully as members and leaders of organizations.

COMM:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CLSA:2048, GRMN:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

COMM:2813 Practicum in Debate 1 s.h.
Practice of skills in research, reasoning, argument development, and argumentative performance in debate undertaken by members of the A. Craig Baird Debate Forum in preparation for and participation in intercollegiate debate competition. Requirements: participation in A. Craig Baird Debate Forum.

COMM:2821 Oral Interpretation 3 s.h.
Weekly performances to develop and define communication skills for professional careers in teaching and business; poetry, prose, monologue, storytelling, duo interpretation, reader's theatre, and demonstration speeches. Same as EDTL:2821.

COMM:2828 Experiential Learning in Communication Studies 1-3 s.h.
Structured coursework while student completes a semester-long professional work experience (paid or unpaid, part time or full time, on- or off- campus); professionalization and application of classroom learning to real-world contexts; requires professional supervision and evaluation by a manager in the organization. Requirements: GPA of at least 2.00, communication studies major, and minimum of 12 s.h. of communication studies coursework.

COMM:2829 Leadership for Civic Dialogue 1-3 s.h.
Prepares students to facilitate complex or controversial civic dialogues; contributes to leadership development; covers self-awareness, interpersonal interaction, and communication techniques; emphasizes empathy, active listening, and conflict resolution; explores learning and reasoning through "both/and" thinking, acknowledging complexities, and suspending judgment; fosters intellectual humility and dichotomous thinking; aims at enhancing civic life and collaborative problem-solving skills.

COMM:2897 Independent Study arr.
Creative or research project under faculty supervision.

COMM:2899 Honors Thesis 3 s.h.
Individual research, writing, or creative production under faculty supervision. Requirements: GPA of at least 3.33, honors standing, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level coursework.

COMM:3070 From Xbox to Instagram: Living and Working in the Platform Society 3 s.h.
Theoretical and practical insights into surviving and thriving in a society dependent on massive digital platforms for every aspect of life. Topics include what digital platforms are and where they came from; predicaments and possibilities of gig labor; how to navigate and brand oneself in the platformized attention economy; the rentier economics of platforms; how to form political stances on different forms of platform governance; and the ambivalent societal effects of virtualizing human socialization in the forms of social media and AI.

COMM:3118 Politics of Reproduction 3 s.h.
Examination of reproductive politics from historical, sociological, anthropological, and communicative perspectives; reproductive justice and bodily autonomy as key sites of feminist struggle in the United States and in global contexts; topical issues include abortion and birth control, assisted reproductive technologies, commercial surrogacy industries, LGBTQ family formation, and systems of reproductive violence. Same as ANTH:3118, GWSS:3118.

COMM:4040 Practical Research Applications: Communication and Community 3 s.h.
Apply research methods, design, and analysis to everyday, real-world problems through serving a community, partnering to determine a problem that will be ameliorated using research skills, including asking and answering questions, collecting and analyzing data, and, ideally, using these results to produce a product. Hone oral and written communication, problem-solving, and critical thinking skills, and build a portfolio that demonstrates practical, real-world experience to potential employers. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899).

COMM:4044 Political Marketing: Media, Campaigns, and Persuasion 3 s.h.
Relationship between media, politics, and professional marketing in American political system; representative topics include U.S. presidential campaigns, communication strategies, social media, issue framing, rhetoric, and campaign narratives; focus on critical marketing and how citizens contest efforts at marketing and generate discourses of political identity. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899).

COMM:4111 360 Radio Experience 3 s.h.
Comprehensive 360-degree survey of radio; history and current cultural and business contexts; hands-on experiential learning at the student-run campus radio station to gain a better understanding of different elements that are part of a radio station (e.g., management, programming, production, music, news, marketing, sports, communications, community engagement) and the ins-and-outs of terrestrial broadcasting, online streaming, and web publishing. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899).

COMM:4131 Globalization and Culture 3 s.h.
How context for everyday experience has increasingly become globally determined (e.g., ever-increasing transnational migration of people, spread of American culture, growth of international corporations and trade, rise of international conflict and transnational activism); range of theoretical and critical readings on globalization; various phenomena and perspectives regarding topic; themes directly relevant to lives of modern youth; how globalization affects opportunities and risks, identities and relationships. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899). Same as IS:4131.

COMM:4140 Communication and Relationships 3 s.h.
Communication process in personal relationships; how communication functions to initiate, sustain, and dissolve a variety of relationships including friendships, romantic couples, marital pairs, and family relationships. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899).

COMM:4147 Family Communication 3 s.h.
Family relationships and various ways they develop and change, how they affect those who participate in them; theory and research on family communication; family conceived as a group of persons who share their lives over an extended period of time bound by ties of marriage, blood, or commitment. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899).

COMM:4148 Advanced Health Communication 3 s.h.
How health information is communicated across a range of levels and relationships, including doctor to patient and through interpersonal relationships, social media, entertainment, and campaigns. Explores both ways to effectively communicate about health and to critically examine health communication. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899).

COMM:4154 Magic Machines: Technology and Social Change 3 s.h.
How media has altered culture, society, and human consciousness throughout history with focus on last two centuries (or modernity); how communication has been shaped by a variety of media (i.e., gesture, language, writing, printing, calendars, clocks, photography, telegraph, telephone, phonograph, film, radio, television, computers); 21st-century questions concerning technology and how few communicate today without aid of some kind of machine or technique. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899). Same as RELS:4154.

COMM:4157 Advanced Topics in Communication Studies 3 s.h.
Issues or problems in particular communication contexts. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899).

COMM:4163 The Dark Side of Interpersonal Communication 3 s.h.
Review of advanced communication theories and research; focus on dark side of interpersonal communication and close relationships; negative or difficult elements of developing and maintaining relationships; expression of difficult emotions; mundane communication that can function in destructive or negative ways. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899).

COMM:4168 Rhetoric of the Body 3 s.h.
Students survey theories of the body as vehicle for communication of social norms; the philosophy, historical, and contemporary practices of productivity culture; discourses of burnout and overwhelm; theories of care from feminist, disability, LGBTQ, and environmental communities. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899).

COMM:4169 Black Feminist Rhetorics 3 s.h.
Exploration of multiple, varied, and complex histories of U.S. Black feminisms from rhetorical perspectives; focus on primary documents, speeches, essays, and manifesto/ as that shaped Black women's feminist organizations and inspire social change from late 19th century to present; social, political, and personal issues that Black feminists sought to address and transform, communicative and rhetorical methods utilized, and implications of these efforts for Black women's lives and broader U.S. American culture. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899). Same as GWSS:4169.

COMM:4171 Community Media 3 s.h.
Theory and history of community media as means of cultural expression, political participation, and social change; focus on case studies from Latin America and other global contexts. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899). Same as LATS:4171.

COMM:4174 Communication, Technology, and National Security 3 s.h.
What is the best way to balance the democratic values of the United States and its national security objectives? To answer this question, students consider discussions in three distinct, but overlapping areas of inquiry: surveillance and privacy, cyber war, and Internet governance. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899).

COMM:4183 Networking America: The Cultural History of Broadcasting 3 s.h.
Exposure to different interpretations of cultural impact and legacy of U.S. broadcasting in 20th century; institutional practices, program genres, and audience formations of 1920s through the 1970s radio and television network eras; how historical contexts shape, and are shaped by, production and reception of broadcasting texts. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899).

COMM:5200 Introduction to Research and Teaching 1-2 s.h.
Introduction to communication studies as a field of scholarship; selection of research problems, major lines of research represented in the department, bibliographical tools for scholarship in the field; issues, practical tasks, and concerns relevant to effective college or university classroom teaching.

COMM:5230 Introduction to Rhetorical Studies 3 s.h.
Introduction to major theories, principles, and practices of rhetorical theory and rhetorical criticism.

COMM:5241 Theories of Mass Communication 3 s.h.
Major concepts, theories, schools of thought in media studies, mass communication.

COMM:5297 MA Research 3 s.h.
Preparation for master's final exam; reading and writing under the supervision of a faculty member.

COMM:5298 MA Thesis 3 s.h.
Research and writing under direction of a faculty member; leads to completion of a master's thesis.

COMM:5299 Graduate Independent Study arr.

COMM:5300 Proseminar: Preparing for the Academic Job Market 1-3 s.h.
Preparation for academic job market; development of a full academic portfolio including cover letter, curriculum vitae, research statement, teaching portfolio, job talk, strong skill set for interviewing, and statement on diversity, equity, and inclusion; includes multiple weeks dedicated to bringing a journal article to publication in an academic outlet; capstone seminar for ABD doctoral students. Requirements: successful completion of comprehensive exams and prospectus, or defense of comprehensive exams completed and prospectus defense scheduled.

COMM:6220 Health Communication Campaigns 3 s.h.
Intervention design and analysis of health campaigns; theory, practice, methods; mass media, community, organization, and interpersonal approaches. Same as CBH:6220.

COMM:6319 Criticism and Public Culture 3 s.h.
Fundamentals of criticism; practice of critical reading to engage various cultural texts (i.e., pop culture, national memorials, social movements, visual rhetoric); contemporary theories/debates that inform the art of critique (i.e., feminist theory, queer theory, critical theory).

COMM:6324 Black Feminist Thought 3 s.h.
Relationships between rhetoric and race/racism; theoretical, critical, and historical perspectives on race/racism with special emphasis on rhetoric and discourse.

COMM:6335 Proseminar: Contemporary Rhetorical Studies 2-4 s.h.
Problems in contemporary rhetorical studies; may include works of Kenneth Burke, Wayne Booth, deconstructionists, feminist theorists and critics, critics of communication technologies.

COMM:6336 Seminar in Rhetorical Theory 1-4 s.h.
Topics in history and development of rhetorical theory; theory construction and application to critical practice.

COMM:6339 Seminar: Rhetoric and Culture 1-4 s.h.
Cultural theories, their utility in accounting for communication practices.

COMM:6342 Critical Television Studies 3 s.h.
Introduction to canonical and contemporary readings in critical television studies; primary questions and theories associated with textual, industrial, ethnographic, and integrated approaches to studying television; how technological, economic, and cultural changes have altered television and how it is studied.

COMM:6343 Feminist Criticism 3 s.h.
Explore the rich terrain of feminist criticism within contemporary rhetorical and cultural studies; survey key interdisciplinary debates within contemporary feminist theory and criticism, trace significant trajectories within the history of feminist criticism, and consider how interdisciplinary feminist perspectives continue to shape humanities scholarship, including in communication studies and religious studies. Provides a strong foundation for exploring how feminism might meaningfully inform the art of academic inquiry and critical practice. Same as GWSS:6343, RELS:6343.

COMM:6345 New Materialisms 3 s.h.
Exploration of new strategies for rupturing persistent dichotomies of subject/object, representation/real, culture/nature, and active humans/passive things offered by theories of the vitality and agency of matter; introduction to origins of and developments in new materialisms; oriented to interdisciplinary inquiry and application to research in the humanities, broadly conceived; particular attention to actor-network theory, feminism, queer theory, infrastructuralism, and materialist theories of media. Same as GWSS:6345, RELS:6345.

COMM:6346 The Public Sphere 3 s.h.
Theories, intellectual history, critics, contemporary issues of the public sphere.

COMM:6350 Seminar: Mass Communication 1-4 s.h.
Topics vary.

COMM:6352 Seminar: Media Theory 3 s.h.
Topics vary.

COMM:6356 Global Media Seminar 3 s.h.
Theories and processes of globalization and cultural implications of media globalization; local responses to globalizing processes with reference to questions of modernity and national/transnational identity.

COMM:6357 Automating Exploitation: Digital Labor in Global Media Industries 3 s.h.
Explore the ways that digital technologies shape and are shaped by labor politics; examine theories of social and technological change from the fields of media studies, sociology, philosophy, and science and technology studies; consider the blurring of work, play, and everyday life through digital surveillance; debate the historical uniqueness of labor dynamics under digital capitalism; project how changing sociotechnical conditions may produce future crises for labor and laborers; and discuss the challenges facing labor organization and political action under digital capitalism.

COMM:6358 Research Design and Data Analysis Using SPSS 3 s.h.
Using concepts, data, and hypotheses to produce research, including psychometrics, using SPSS. Immersive, applied experience in data analysis. Applied methods course emphasizing conceptual and practical understanding of methods and analyses. Focus on decision-making about the relationship among theory, design, measurement and statistics, as well as practical applications of data analysis, and how to plan, submit, and execute research and publication after the point of data collection.

COMM:6365 The Communication of Social Support 3 s.h.
Substantial knowledge base developed by scholars about types, processes, and mechanisms of social support used by humans to comfort one another; in-depth examination of theory and empirical research related to communication of social support; emphasis on types of support, verbal person-centered messages, and various strategies for social support; gender differences and social skills related to comforting; online supportive communication; development of detailed knowledge of this topic, critical assessment of extant research, and synthesis of class readings in written format.

COMM:6371 Communication Theory 3 s.h.
Survey of primary theories of interpersonal, cultural, group, and organizational communication.

COMM:6376 Family Communication 3 s.h.
Theory and research on communication among and between family members (parents, children, marital partners, siblings); quantitative and qualitative research.

COMM:6381 Seminar: Topics in Communication Research 3 s.h.
Topics vary.

COMM:6387 Communication, Cognition, and Emotion 3 s.h.
Theoretical and empirical work that integrates communication, cognition, emotion; role of social cognition in communication, theories of emotion, types of emotional experiences; approaches to understanding emotion from perspectives in psychology, social cognition, communication; emotion-related issues such as influence of gender, effects of mood.

COMM:6399 PhD Dissertation arr.

Communication Studies, BA

Learning Outcomes

Graduating communication studies majors will be able to:

- explain the significance of the communicative process across personal, familial, organizational, civic, and mediated contexts;
- demonstrate effective written, oral, and/or digital communication skills;
- plan, evaluate, and conduct basic communication research using qualitative, quantitative, and critical-cultural methods;
- think critically about the role of communication in the production, maintenance, and transformation of culture;
- apply and reflect upon the skills and theories of communication in communities, professional settings, and a global context; and
- develop the ability to discuss controversial issues of public importance in a way that demonstrates intercultural competence and personal and social responsibility to a dynamic and globalizing world.

Requirements

The Bachelor of Arts with a major in communication studies requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Students may not use a course to fulfill more than one requirement for the major.

The curriculum is designed to encourage learning that progresses from foundation courses that teach the basics of communication to intermediate and advanced (capstone) courses. Students may choose to build creative combinations of coursework that suit their individual learning and career goals.

Students may count up to 56 s.h. of Department of Communication Studies coursework (prefix COMM) toward credit required for the Bachelor of Arts degree. Transfer courses may be applied toward the requirements of the major, with the department's approval. A maximum of 15 s.h. of transfer credit may be counted toward the major.

Students work with the communication studies academic advisors to develop study plans that meet the requirements of the major. Students may check their progress toward the degree on MyUI.

First-year students interested in completing a major in communication studies are advised at the Academic Advising Center. Students who have earned 30 s.h. or more and have declared the communication studies major are advised in the department by the communication studies academic advisors.

Students are encouraged to discuss their career goals and interests with faculty members.

The BA with a major in communication studies requires the following coursework.

Requirements	Hours
Foundations of Communication Courses	9
Intermediate Courses	15
Capstone Experience Course	3
Major Elective Courses	12

Foundations of Communication

Foundation courses cover introductory concepts in the field of communication. Students must complete three foundation courses (9 s.h.) and should take them early in their studies. The following foundation courses are appropriate for first- or second-year students. They do not require a minimum grade-point average for enrollment and do not have prerequisites. Students complete the three foundation courses as follows.

Course #	Title	Hours
All of these:		
COMM:1112	Interpersonal Communication	3
or COMM:1170	Communication Theory in Everyday Life	
COMM:1117	Advocacy and Argument	3
or COMM:1130	The Art of Persuading Others	
COMM:1168	Music and Social Change	3
or COMM:1174	Media and Society	

Intermediate Courses

Intermediate courses cover detailed aspects of the study of communication. Students usually complete these courses during their third and fourth years of study.

Course #	Title	Hours
At least five of these:		
Communication studies courses (prefix COMM) numbered 1300-2899		15

Capstone Experience

Capstone courses (those numbered 3000–4999) provide a faculty-led experience in which students participate directly in producing knowledge, research, or creative work about communication. The capstone experience gives students a chance to synthesize what they have learned about the study of communication. Students must complete one capstone course (3 s.h.).

In order to enroll in a capstone course, students must have completed at least two of the three foundations of communication courses and at least two intermediate courses.

Course #	Title	Hours
One of these:		
COMM:3118	Politics of Reproduction	3
COMM:4040	Practical Research Applications: Communication and Community	3
COMM:4044	Political Marketing: Media, Campaigns, and Persuasion	3
COMM:4111	360 Radio Experience	3
COMM:4131	Globalization and Culture	3
COMM:4140	Communication and Relationships	3
COMM:4147	Family Communication	3

COMM:4148	Advanced Health Communication	3
COMM:4154	Magic Machines: Technology and Social Change	3
COMM:4157	Advanced Topics in Communication Studies	3
COMM:4163	The Dark Side of Interpersonal Communication	3
COMM:4168	Rhetoric of the Body	3
COMM:4169	Black Feminist Rhetorics	3
COMM:4171	Community Media	3
COMM:4174	Communication, Technology, and National Security	3
COMM:4183	Networking America: The Cultural History of Broadcasting	3

Major Elective Courses

Students must complete 12 s.h. in communication studies courses (prefix COMM) numbered 1100–4999 not already taken for the major.

Internships and Professional Experiences

Internships enable students to supplement their coursework with professional experiences relevant to careers in communication-related fields. The department's internship program is open only to communication studies majors.

To earn academic credit for internships, students must obtain approval for their internship experience and site before they register for COMM:2828. Internship academic credit is awarded for an analytical paper and daily log submitted at the end of the internship and for the number of hours worked. Internships can be completed during fall semester, spring semester, or summer session.

Visit the department's website for information on communication studies internships.

Course #	Title	Hours
COMM:2828	Experiential Learning in Communication Studies	1-3

Honors

Honors in the Major

Students majoring in communication studies have the opportunity to graduate with honors in the major. Students interested in honors in the major should consult the honors advisor as early as possible in their undergraduate career and work with a faculty member to supervise the honors project.

Students earning honors in the major must maintain a minimum cumulative University of Iowa grade-point average (GPA) of at least 3.33, a standard set by the College of Liberal Arts and Sciences, and a minimum cumulative GPA of 3.33 in coursework for the major, a standard set by the Department of Communication Studies. Students may be required to complete COMM:2899 Honors Thesis, depending on their specific project.

Through the Global Engagement, Research, Outreach, and Work Experience (GROW) in communication studies initiative, there are a variety of options for honors in the major. Honors students must complete at least two authorized GROW activities.

Honors students may add an honors designation to a departmental course by completing an agreement with the course instructor.

To learn more about graduating with honors in the major, visit Honors on the department's website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University of Iowa Honors Program.

Membership in the UI Honors Program is not required to earn honors in the communication studies major.

Career Advancement

Communication studies graduates have numerous career options. The major provides solid preparation for employment in almost any job that requires effective critical thinking and communication skills. It also prepares students for graduate school by providing a strong theoretical and methodological foundation in communication research. Graduates find work in fields such as the arts, entertainment, and media industries; consulting; sales and marketing; human resources; public advocacy; and higher education.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Students should consult the department for details.

Before the fifth semester begins: at least two courses in the major.

Before the seventh semester begins: at least six courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least eight courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer

sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [m]		
	Hours	**15**
	Total Hours	**122-128**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives;

International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students should take foundations of communication courses early in their studies.

c COMM:1168 is typically offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

d Fulfills a major requirement and may fulfill a GE requirement.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g COMM:1117 is typically offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

h Students who have previously completed COMM:1117 have already satisfied the GE CLAS Core Quantitative or Formal Reasoning requirement.

i Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

j Students who have previously completed COMM:1168 have already satisfied the GE CLAS Core Understanding Cultural Perspectives requirement.

k Students who have previously completed COMM:1174 have already satisfied the GE CLAS Core Values and Society requirement.

l Students who have previously completed COMM:1170 or COMM:1174 have already satisfied the GE CLAS Core Social Sciences requirement.

mPlease see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Communication Studies, Minor

Requirements

The undergraduate minor in communication studies requires a minimum of 15 s.h. in communication studies courses, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students may not use a course to fulfill more than one requirement for the minor.

The undergraduate minor in communication studies requires the following coursework.

Foundations of Communication

Foundation courses cover introductory concepts in the field of communication. Students must complete two foundation courses (6 s.h.) and should take them early in their studies. The following foundation courses do not require a minimum grade-point average for enrollment and do not have prerequisites. Students complete two of the three foundation courses as follows.

Course #	Title	Hours
Two of these:		
COMM:1112	Interpersonal Communication	3
or COMM:1170	Communication Theory in Everyday Life	
COMM:1117	Advocacy and Argument	3
or COMM:1130	The Art of Persuading Others	
COMM:1168	Music and Social Change	3
or COMM:1174	Media and Society	

Intermediate Courses

Intermediate courses cover detailed aspects of the study of communication. Students complete two communication studies courses (prefix COMM) numbered 1300–2899 for 6 s.h.

Elective Course

Students complete 3 s.h. in communication studies courses (prefix COMM) numbered 1100–4999 not already taken for the minor.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

b Intermediate courses cover detailed aspects of the study of communication. Students complete two communication studies courses (prefix COMM) numbered 1300-2899 for 6 s.h.

c Students complete 3 s.h. in communication studies courses (prefix COMM) numbered 1100-4999 not already taken for the minor.

Communication Studies, MA

Specialization Areas

The following are specialization areas available for the MA program in communication studies.

Interpersonal Communication and Relationships

This area of specialization is centered on theory complemented by strength in quantitative and qualitative research methods. It focuses on scholarly issues that arise from face-to-face, everyday communication practices. It emphasizes personal relationships and family processes, identity construction, persuasion, and culture.

The goal of the program is to produce scholars who possess sophisticated knowledge of theory and methodology, who are careful consumers of theories and methods, and who can develop their own approaches to communication phenomena. The program emphasizes systematic analysis of the forms, functions, and meanings of messages within various contexts. Its broad social-scientific orientation springs from the belief that many methodological approaches are appropriate for studying and building theoretical explanations of communication.

Advisors and committee members work closely with individual students to select courses from the Department of Communication Studies and other university departments, and to plan teaching and research experiences that prepare students for the employment they seek after graduation.

Media History and Culture

This area of specialization focuses on the interplay of institutions, texts, and audiences in mediated communication systems. Its central aim is to examine modern media—radio, TV, advertising, music, new media, and a wide range of other popular cultural expressions—within their historical, social, political, economic, and cultural contexts. It also uses the mass media as a site for asking basic questions about culture, society, politics, and modernity.

Like the department's other graduate programs, media studies has a strong interdisciplinary flavor. Students draw not only on allied areas in the Department of Communication Studies but on fields across the university.

Learning Outcomes

Research

Learn to interpret and contribute to communication research using qualitative, quantitative, and critical-cultural methods.

Theory

Evaluate and apply communication theories broadly conceived to a range of social, cultural, interpersonal, and other contextual and communicative settings.

Scholarship

Demonstrate familiarity with relevant subfields of scholarship in communication studies and related disciplines.

Teaching and Professional Development

Begin relevant professional training (such as teaching technologies; pedagogy; grant writing; diversity, equity, and inclusion; digital scholarship; media production; or community engagement) to contribute to better and more equitable educational and social outcomes, and to develop transferable skills for employment both inside and outside of academic settings.

Communication Skills

Cultivate the skills to communicate in writing and orally to both professional and popular audiences in ways that demonstrate intercultural competence and personal and social responsibility.

Requirements

The Master of Arts program in communication studies requires a minimum of 36 s.h. of graduate credit, including at least 30 s.h. earned at the University of Iowa and in courses numbered above 4999. No more than 6 s.h. of courses numbered 3000–4999 may be counted toward the major. Students must earn a program grade-point average of at least 3.00 in major coursework. The degree program includes specializations in interpersonal communication and relationships and in media history and culture.

The MA in communication studies requires the following coursework.

Course #	Title	Hours
All of these:		
COMM:5200	Introduction to Research and Teaching (taken the first semester)	2
COMM:5230	Introduction to Rhetorical Studies	3
COMM:5241	Theories of Mass Communication	3
COMM:6371	Communication Theory	3
One of these:		
COMM:5297	MA Research	3
COMM:5298	MA Thesis (taken twice for 3 s.h. each)	6

In exceptional circumstances, replacement courses may be approved by the student's advisor and the Graduate Affairs Committee.

Up to 9 s.h. in coursework may be earned in credit outside the department. Students take courses in specific topical areas as determined in their plan of study meeting.

Thesis or Comprehensive Exam

Students, with the approval of their advisor and the Graduate Affairs Committee, can elect to write a thesis or complete a week-long, seven-day take-home written exam which may be completed more quickly if desired, or take a four-hour written master's comprehensive exam near the completion of the required coursework for the master's degree. The master's comprehensive exam is not a duplicate of previous course examinations but seeks to examine students on their ability to synthesize, integrate, and apply research and theory.

The master's comprehensive exam committee and the thesis committee are three-person faculty committees selected to reflect the pattern of coursework counted toward the master's degree. One of the three members of the committee must be the student's advisor. The examination or thesis is judged satisfactory or unsatisfactory, with two unsatisfactory votes necessary for a committee judgment of unsatisfactory. The thesis committee conducts an oral defense of the thesis.

The report of the master's comprehensive examination or thesis defense is due to the Graduate College no later than two weeks after the examination and by the deadline established by the Graduate College. If the department so recommends, students who fail the examination or thesis defense may be eligible for a reexamination. The examination or thesis defense may be repeated only once.

Admission

Applicants to graduate programs in communication studies must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. For information about applying to the Master of Arts program in communication studies, visit Prospective Graduate Students on the Department of Communication Studies website.

Admission is for fall semester entry. Materials received from applicants by the application deadline of Jan. 1 are considered for admission and financial support.

Career Advancement

MA communication studies graduates pursue PhD academic work and alternate academic careers. Some pursue careers in the private sector, at nonprofit organizations, and as instructional faculty at postsecondary institutions.

The department is deeply engaged in university- and discipline-wide efforts to train students in both traditional and nontraditional career paths.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Maximum of 6 s.h. from coursework numbered between 3000 and 4999 may be counted towards the degree.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d Up to 9 s.h. in coursework may be earned in credit outside the department. Work with faculty advisor to determine appropriate coursework and sequence.

e Must be completed by the end of first year spring semester.

f Students, with the approval of their advisor and the Graduate Affairs Committee, can elect to write a thesis or complete a week-long, seven day take-home written exam which may be completed more quickly if desired or take a four-hour, written master's comprehensive exam near the completion of the required coursework.

Communication Studies, PhD

Specialization Areas

The following are specialization areas available for the PhD program in communication studies.

Interpersonal Communication and Relationships

This area of specialization is centered on theory complemented by strength in quantitative and qualitative research methods. It focuses on scholarly issues that arise from face-to-face, everyday communication practices. It emphasizes personal relationships and family processes, identity construction, persuasion, and culture.

The goal of the program is to produce scholars who possess sophisticated knowledge of theory and methodology, who are careful consumers of theories and methods, and who can develop their own approaches to communication phenomena. The program emphasizes systematic analysis of the forms, functions, and meanings of messages within various contexts. Its broad social-scientific orientation springs from the belief that many methodological approaches are appropriate for studying and building theoretical explanations of communication.

Advisors and committee members work closely with individual students to select courses from the Department of Communication Studies and other university departments, and to plan teaching and research experiences that prepare students for the employment they seek after graduation.

Media History and Culture

This area of specialization focuses on the interplay of institutions, texts, and audiences in mediated communication systems. Its central aim is to examine modern media—radio, TV, advertising, music, new media, and a wide range of other popular cultural expressions—within their historical, social, political, economic, and cultural contexts. It also uses the mass media as a site for asking basic questions about culture, society, politics, and modernity.

Like the department's other graduate programs, media studies has a strong interdisciplinary flavor. Students draw not only on allied areas in the Department of Communication Studies but on fields across the university.

Rhetoric, Culture, Engagement

This area of specialization is built on foundation courses in classical and 20th-century rhetorical theory and in an overview of 20th-century rhetorical criticism. Courses from a rhetorical perspective include rhetorical theory, rhetorical criticism, visual rhetoric and politics, public address and public culture, studies in argumentation and freedom of speech, work in science and technology as well as academic inquiry, and historical methods. Cognate work of interest to rhetoricians can also be found in interpersonal communication and relationship studies as well as media studies.

The PhD in rhetoric and public advocacy is designed to give students a mature grasp of the specialties and perspectives embraced by the field and to develop research competence essential to a life of productive scholarship.

Work in related disciplines—political science, history, sociology, English, cinematic arts, anthropology, American studies, rhetoric, and journalism—complements rhetorical studies course offerings.

More information is available on the Department of Communication Studies website.

Learning Outcomes

Research

Plan, organize, and conduct innovative, ethical, and significant communication research using qualitative, quantitative, and critical-cultural methods.

Theory

Evaluate and apply communication theories broadly conceived to a range of social, cultural, interpersonal, and other contextual and communicative settings.

Scholarship

Demonstrate broad-based knowledge of relevant subfields of scholarship in communication studies and related disciplines.

Teaching and Professional Development

Develop relevant teaching and professional training (such as teaching technologies; pedagogy; grant writing; diversity, equity, and inclusion; digital scholarship; media production; or community engagement) to contribute to better and more equitable educational and social outcomes, and to develop transferable skills for employment both inside and outside of academic settings.

Communication Skills

Cultivate the skills necessary to publish peer-reviewed articles and communicate in writing and orally to both professional and popular audiences in ways that demonstrate intercultural competence and personal and social responsibility.

Requirements

The Doctor of Philosophy program in communication studies requires a minimum of 72 s.h. of graduate credit, including at least 39 s.h. earned at the University of Iowa and in courses numbered above 3000. Students must maintain a cumulative grade-point average of at least 3.00. The degree program includes specializations in interpersonal communication and relationships; media history and culture; and rhetoric, culture, and engagement.

Graduate education in communication studies focuses on the PhD, but doctoral students may choose to earn a Master of Arts on their way toward the Doctor of Philosophy degree. A terminal master's degree may be an option for some students already admitted to the doctoral program.

The PhD in communication studies requires the following coursework.

Course #	Title	Hours
These two courses:		
CLAS:5100	Practicum: College Teaching and Professional Development for Teaching Assistants (taken the first semester)	1

COMM:5200	Introduction to Research and Teaching (taken the first semester)	2
One of these in student's primary area of interest:		
COMM:5230	Introduction to Rhetorical Studies	3
COMM:5241	Theories of Mass Communication	3
COMM:6371	Communication Theory	3
All of these:		
Communication Studies courses (prefix COMM) numbered 5000-7000		15
COMM:6399	PhD Dissertation	4

Students must also complete their plan of study, the PhD comprehensive examination, the dissertation prospectus, and successfully defend their dissertation.

More information is available on the Department of Communication Studies website.

Admission

Admission decisions are based on undergraduate achievement for a BA applicant and graduate achievement for an MA applicant, letters of reference, the statement of purpose, and samples of scholarly work.

Applicants to graduate programs in communication studies must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. For information about applying to the doctoral program in communication studies, visit Prospective Graduate Students on the Department of Communication Studies website.

Admission is for fall semester entry. Applicants whose materials are received by the application deadline of Jan. 1 will be considered for admission and financial support.

Career Advancement

Communication studies PhD graduates pursue academic and alternate academic careers. Nearly three-fourths of recent graduates teach in full-time academic positions. Others pursue careers in the private sector, at nonprofit organizations, and as instructional faculty at postsecondary institutions.

The department is deeply engaged in university- and discipline-wide efforts to train students in both traditional and nontraditional career paths.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a At least 39 s.h. must be earned at the University of Iowa, including 4 s.h. of dissertation credit (COMM:6399). A maximum of 6 s.h. from University of Iowa courses numbered between 3000 and 4999 may be counted towards the degree.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d Taken during the first semester in the program.

e Must be completed by the end of the second semester but no later than the fifth week of the third semester; students entering with a BA must complete by the end of the first semester of second year.

f Work with faculty advisor to determine appropriate coursework and sequence.

g Consists of a written exam, scholarly paper, and oral defense.

h Dissertation defense.

Computer Science

Chair

- Alberto M. Segre

Director of Graduate Studies

- Stephen M. Goddard

Director of Undergraduate Studies

- Elizabeth Kleiman

Director of Graduate Studies, Informatics

- Juan Pablo Hourcade

Director of Honors

- Rahul Singh

Undergraduate majors: computer science (BA, BS); informatics (BA, BS)

Undergraduate minors: computer science; informatics

Graduate degrees: MCS; MS in computer science; PhD in computer science

Faculty: https://cs.uiowa.edu/people

Website: https://cs.uiowa.edu/

The Department of Computer Science offers undergraduate programs in computer science and in informatics as well as graduate degree programs in computer science. It offers courses that students in all majors may use to satisfy the GE CLAS Core [p. 22] Quantitative or Formal Reasoning requirement and a First-Year Seminar designed for entering undergraduate students. For general information about the department, faculty, and research activities, visit the Department of Computer Science website or the department's office.

Related Majors

Computer Science and Engineering

The Computer Science and Engineering major combines the technical content of a computer science degree and a computer engineering degree into a single program that leads to the Bachelor of Science in Engineering (BSE) degree. The curriculum is jointly offered by the Department of Computer Science and the Department of Electrical and Computer Engineering (College of Engineering). The program provides students with a strong theoretical and conceptual understanding of the principles underlying computer software and hardware along with the engineering analysis, design, and multidisciplinary teamwork skills needed to develop large and complex systems containing both software and hardware components.

Computer science majors may not earn a second major in computer science and engineering. See the BSE in computer science and engineering [p. 1620] in the catalog.

Data Science

The BS in data science produces graduates with the sophisticated analytical and computational skills required to thrive in a quantitative world where new problems are encountered at an ever-increasing rate. The major emphasizes the statistical/probabilistic and algorithmic methods that underlie the preparation, analysis, and communication of complex data. With a focus on technical foundations, the data science program promotes skills useful for creating and implementing new or special-purpose analysis and visualization tools. It also promotes a fundamental understanding of how to best handle uncertainty when making data-driven decisions.

Computer science majors may not earn a second major in data science. The Department of Statistics and Actuarial Science [p. 1075] and the Department of Computer Science collaborate to offer the major in data science. The BS in data science is administered by the Department of Statistics and Actuarial Science; see the BS in data science [p. 350] in the catalog.

Courses

Computer Science Courses

Competence in and exposure to computer science are not only useful, they often are prerequisites to advanced study and research in many disciplines. For most graduate students from other disciplines, an appropriate first course is CS:5110 Introduction to Informatics.

CS:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CS:1020 Principles of Computing **3 s.h.**
Introduction to computing; broad overview of discipline; necessary skills and concepts for effective application of computing resources in student's profession. GE: Quantitative or Formal Reasoning.

CS:1110 Introduction to Computer Science **3 s.h.**
Introduction to study of algorithms; how computers work, simple algorithms and their efficiency, networking, databases, artificial intelligence, graphics, simulation, modeling, security, and social impact of computing; hands-on introduction to programming concepts with Python; for students in data-intensive disciplines. GE: Quantitative or Formal Reasoning.

CS:1210 Computer Science I: Fundamentals 4 s.h.
Introduction to programming using Python; programming constructs, data types, problem-solving strategies, data structures, object-oriented programming. Prerequisites: (MATH:1010 with a minimum grade of C- and MATH:1340 with a minimum grade of C-) or (ALEKS score of 45 or higher and MATH:1010 with a minimum grade of C-) or ALEKS score of 75 or higher or MATH:1020 with a minimum grade of C- or (MATH:1005 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or MPT Level 3 score of 9 or higher or MATH:1460 with a minimum grade of C- or MATH:1350 with a minimum grade of C- or MATH:1850 with a minimum grade of C-. GE: Quantitative or Formal Reasoning.

CS:2110 Programming for Informatics 4 s.h.
Introduction to programming, computing principles, and fundamental aspects of computer science; use of Python programming language for topics including expressions, operators, variables, control structures, basic data structures, functions, data modeling, basic data analysis, object-oriented concepts, and proper documentation. Prerequisites: CS:1110 with a minimum grade of C-.

CS:2210 Discrete Structures 3 s.h.
Mathematical methods used in computer science, including logic, proof techniques (with induction), functions, relations, algorithm analysis, recurrence relations, counting methods, combinatorics, graphs, trees. Prerequisites: (MATH:1010 with a minimum grade of C- and MATH:1340 with a minimum grade of C-) or (ALEKS score of 45 or higher and MATH:1010 with a minimum grade of C-) or ALEKS score of 75 or higher or MATH:1020 with a minimum grade of C- or (MATH:1005 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or MPT Level 3 score of 9 or higher or MATH:1460 with a minimum grade of C- or MATH:1350 with a minimum grade of C- or MATH:1850 with a minimum grade of C-.

CS:2230 Computer Science II: Data Structures 4 s.h.
Design, implementation, and application of data structures (e.g., linked lists, stacks, queues, hash tables, trees); complexity analysis; recursion; introduction to object-oriented programming concepts; abstract data types and their realization using generic interfaces and classes; software design patterns (e.g., iterators, comparators). Prerequisites: CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-. Recommendations: previous or concurrent enrollment in CS:2210.

CS:2420 Analyzing Data for Informatics 3 s.h.
Introduction to data analytics through an understanding of data analysis pipelines including data extraction and collection, data modeling and organization, and use of tools for data analysis; topics include collection of data from a variety of sources, mapping data to appropriate data structures, basic relational database concepts and use, analysis through probability and statistics, use of basic data mining and machine learning tools, and an understanding of privacy issues. Prerequisites: CS:2110 with a minimum grade of C- and (PSY:2811 with a minimum grade of C- or SOC:2160 with a minimum grade of C- or STAT:1020 with a minimum grade of C- or STAT:1030 with a minimum grade of C- or STAT:2010 with a minimum grade of C- or STAT:2020 with a minimum grade of C- or STAT:3120 with a minimum grade of C- or STAT:3510 with a minimum grade of C- or PSQF:4143 with a minimum grade of C-).

CS:2520 Human-Computer Interaction for Informatics 3 s.h.
Basic theories, principles, and guidelines for design and evaluation of human-computer interactions; topics include usability and user experience, user-centered design, quantitative and qualitative evaluation of user interfaces (e.g., expert reviews, usability testing), societal and ethical issues, and front-end development in HTML and JavaScript. Prerequisites: CS:2110 with a minimum grade of C-.

CS:2620 Server-Side Development for Informatics 3 s.h.
Introduction to design, development, testing, and production deployment of data-driven web applications that use cloud/web services; introduction to server-side frameworks, software engineering tools, integration processes, and security mechanisms; topics include representational state transfer (REST) architectural style, key protocols and standards (e.g., HTTP, JSON), use of cloud/web services, data-binding strategies and databases. Prerequisites: CS:2420 with a minimum grade of C- and CS:2520 with a minimum grade of C-.

CS:2630 Computer Organization 4 s.h.
Computing machinery at various levels of abstraction including digital logic, control units and data paths, the representation of data, computer arithmetic, register operations, memory organization, instruction sets, I/O, and assembly language; how these relate to execution of programs written in a systems-level programming language such as C. Prerequisites: CS:2230 with a minimum grade of C- and CS:2210 with a minimum grade of C-.

CS:2800 Digital Arts: An Introduction 3 s.h.
Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, DANC:2800, DIGA:2800, MUS:2800, THTR:2800.

CS:2820 Introduction to Software Development 4 s.h.
Software design and analysis at component and interface levels; implementation of interfaces; refactoring; abstract data types, delegation, polymorphism, and extension; automation and testing; event handling; significant software project that includes reading code written by others. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-.

CS:3010 Software Engineering Fundamentals in Java 3 s.h.
Basic features of Java programming language; designed for students who know how to program in a language other than Java; exposes students to the latest technology and allows students to learn a new programming language once they understand the fundamentals of programming; topics include the philosophy of Java, concepts of OOP (Object Oriented Programming) as applied in Java, programming basics, inheritance, packages, interfaces, exceptions, threads, streams, generics, event-driven graphical user interfaces, database programming, etc. Prerequisites: CS:1210 with a minimum grade of C- or CS:2110 with a minimum grade of C-.

CS:3210 Programming Languages and Tools arr.
Varied programming languages and tools. Prerequisites: CS:1210 with a minimum grade of C- or CS:2110 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-. Requirements: no prior enrollment in CS:3210 with the same subtitle.

CS:3330 Algorithms 3 s.h.
Algorithm design techniques (e.g., greedy algorithms, divide-and-conquer, dynamic programming, randomization); fundamental algorithms (e.g., basic graph algorithms); techniques for efficiency analysis; computational intractability and NP-completeness. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-. Recommendations: concurrent or prior enrollment in calculus I.

CS:3420 Introduction to Artificial Intelligence 3 s.h.
Core ideas and techniques of artificial intelligence, including AI and agents, fundamental problem-solving and search strategies (breadth-first search, depth-first search, uniform cost search, etc.), constraint satisfaction, and logic-based reasoning; introduction to machine learning. Prerequisites: CS:2230 with a minimum grade of C- and CS:2210 with a minimum grade of C- and MATH:2700 with a minimum grade of C- and (STAT:2020 with a minimum grade of C- or STAT:3120 with a minimum grade of C-).

CS:3620 Operating Systems 3 s.h.
Introduction to modern operating systems, including device control, memory management and addressing, process scheduling, interprocess communication, interrupts, synchronization, security. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C- and (CS:2630 with a minimum grade of C- or ECE:3350 with a minimum grade of C-).

CS:3640 Introduction to Networks and Their Applications 3 s.h.
Introduction to networks and the development of network applications; basic principles of network and Internet design; socket programming; network performance measurement; link layer protocols; network layer addressing; routing protocols; transport layer user datagram protocol (UDP) and transmission control protocol (TCP); application layer protocols. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-.

CS:3700 Introduction to Numerical Methods 3 s.h.
Computer arithmetic, root finding, polynomial approximation, numerical integration, numerical linear algebra, numerical solution of differential equations; use of a higher-level computer language such as Matlab, Python, or Julia. Prerequisites: (MATH:2550 or MATH:2700) and (MATH:1560 or MATH:1860). Same as MATH:3800.

CS:3820 Programming Language Concepts 3 s.h.
Imperative, functional, and logical programming languages, and differences between them; syntax specification, types, control structures, recursion, data abstraction. Prerequisites: CS:2230 with a minimum grade of C- and CS:2210 with a minimum grade of C- and (CS:2630 with a minimum grade of C- or ECE:3330 with a minimum grade of C- or CS:2820 with a minimum grade of C- or ECE:3350 with a minimum grade of C-).

CS:3910 Informatics Project 3 s.h.
Students work in small groups to design, implement, document, and test a system using appropriate software tools; or compile, prepare, visualize, and analyze a data set to support a decision-making process; capstone course for informatics majors. Prerequisites: CS:2620 with a minimum grade of C-.

CS:3980 Topics in Computer Science I 3 s.h.
Complement to material in other courses; for informatics and non-computer science majors. Prerequisites: CS:1210 with a minimum grade of C- or CS:2110 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-. Requirements: no prior enrollment in CS:3980 with the same subtitle.

CS:3990 Honors in Computer Science or Informatics arr.
Individual projects. Requirements: computer science or informatics major, and honors standing.

CS:3999 Computer Science or Informatics Honors Cohort 0 s.h.
Students complete all requirements for honors in the computer science or informatics major; supervision by computer science honors director. Requirements: final semester prior to graduation with honors.

CS:4310 Design and Implementation of Algorithms 3 s.h.
Algorithm design techniques with emphasis on programming and implementation in the work of students; topics include data structures, graph algorithms, divide-and-conquer, dynamic programming, randomized algorithms, and dealing with intractability; primarily for master's degree students in computer science. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-.

CS:4330 Theory of Computation 3 s.h.
Finite automata; regular sets and expressions; context-free and context-sensitive grammars, their properties; push-down automata; standard, universal, and linear-bounded Turing machines; relationships between formal languages and automata; undecidability and its consequences. Prerequisites: CS:3330 with a minimum grade of C-.

CS:4350 Logic in Computer Science 3 s.h.
Applications of symbolic logic in computer science; symbolic logic as a powerful tool for modeling computation and computational devices and reasoning formally about them; introduction to several logics (i.e., propositional, predicate, temporal, modal) differing in their expressive power and focus, their uses in computer science; how to represent knowledge in these logics, what represents a valid argument, and how to prove or disprove, possibly automatically, the validity of a logical statement. Prerequisites: CS:3330 with a minimum grade of C-. Recommendations: computer science, math, or engineering major.

CS:4400 Database Systems 3 s.h.
Introduction to database systems including querying using SQL, design using ER diagrams, developing relational databases, programming web applications using PHP or JDBC. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-.

CS:4420 Artificial Intelligence 3 s.h.
Artificial intelligence course covering problem-solving methods, heuristic search, knowledge representation, automated reasoning, planning, game playing, machine learning, and neural networks. Prerequisites: CS:3330 with a minimum grade of C-.

CS:4440 Web Mining 3 s.h.
Core methods underlying development of applications on the Web; examples of relevant applications, including those pertaining to information retrieval, summarization of Web documents, and identifying social networks. Prerequisites: CS:3330 with a minimum grade of C-. Recommendations: CS:4400 strongly recommended.

CS:4470 Health Data Analytics 3 s.h.
Analysis of different kinds of health care data, such as patient electronic medical records, public health data, biomedical publications, social media pertaining to health, and ontologies in health care; students will read papers exploring different kinds of research and application development involving such data; course will run in distinct modules with each focused on a dataset type and related research; students must be comfortable with programming (e.g., Java, Python, Perl). Prerequisites: CS:3330 with a minimum grade of C-.

CS:4500 Research Methods in Human-Computer Interaction 3 s.h.
Introduction to research in the field of human-computer interaction; conducting research experiments; latest research in human-computer interaction. Prerequisites: CS:2520 with a minimum grade of C- or (CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-).

CS:4510 Human-Computer Interaction for Computer Science 3 s.h.
Basic theories, principles, and guidelines for design and evaluation of human-computer interactions; usability and user experience, user-centered design, quantitative and qualitative evaluation of user interfaces (e.g., expert reviews, usability testing), societal and ethical issues; application of topics through a challenging and collaborative software development project. Prerequisites: CS:2230 with a minimum grade of C-.

CS:4630 Mobile Computing 3 s.h.
Building mobile sensing systems requires addressing issues in sensor acquisition, wireless communication, and middleware development; hands-on projects using embedded computers and sensors; includes significant writing and presentation components; a conference-quality research paper on a novel research project in mobile computing is expected; knowledge of Java is assumed. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C- and CS:2820 with a minimum grade of C-.

CS:4640 Computer Security 3 s.h.
Mechanism versus policy; authentication, access control, security domains; perimeter security, defense in depth; cryptographic protocols; key management and distribution; security assessment. Prerequisites: CS:3620 with a minimum grade of C- or CS:3640 with a minimum grade of C- or ECE:3540 with a minimum grade of C-.

CS:4660 Cryptography 3 s.h.
Introduction to cryptography and the underlying mathematical concepts. Topics include symmetric and public-key encryption, message integrity, hash functions, block-cipher design and analysis, number theory, and digital signatures. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-.

CS:4700 High Performance and Parallel Computing 3 s.h.
Exploration and implementation of parallel algorithms using diverse frameworks and libraries, across platforms such as multicore processors and GPUs. Emphasis on current advancements, scientific computing applications, and large-scale data analysis projects. Prerequisites: (CS:2210 with a minimum grade of C- or MATH:4050) and CS:2230 with a minimum grade of C-. Same as MATH:4860.

CS:4720 Optimization Techniques 3 s.h.
Basic theory of optimization, use of numerical algorithms in solution of optimization problems; linear and nonlinear programming, sensitivity analysis, convexity, optimal control theory, dynamic programming, calculus of variations. Prerequisites: (MATH:2700 or MATH:2550) and (ME:4111 or MATH:3800 or CS:3700) and (MATH:1560 or MATH:2850). Same as MATH:4820.

CS:4740 Large Data Analysis 3 s.h.
Current areas that deal with problem of big data; techniques from computer science, mathematics, statistics; high performance and parallel computing, matrix techniques, cluster analysis, visualization; variety of applications including Google PageRank, seismology, Netflix-type problems, weather forecasting; fusion of data with simulation; projects. Prerequisites: (CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-) and (MATH:3800 or CS:3700) and (STAT:3200 or IE:3760 or IGPI:3200). Same as IGPI:4740, MATH:4740, STAT:4740.

CS:4980 Topics in Computer Science II 3 s.h.
Complements material in other courses; for computer science graduate students and advanced undergraduate computer science, computer science and engineering, and data science majors. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-. Requirements: no prior enrollment in CS:4980 with the same subtitle.

CS:5110 Introduction to Informatics 3 s.h.
Fundamentals of computer science: algorithms, complexity, relational databases, systems concepts, programming in Python. Same as IGPI:5110.

CS:5340 Limits of Computation 3 s.h.
Turing machines, undecidability and complexity: reductions, Cook's theorem and NP-completeness, approximation algorithms and randomized algorithms. Prerequisites: CS:3330.

CS:5350 Design and Analysis of Algorithms 3 s.h.
Review of design and analysis techniques; advanced data structures (binomial and Fibonacci heaps, disjoint sets); graph algorithms (network flows, matching, min-cut); NP-completeness, randomization and approximation algorithms; special topics (string matching, computational geometry, number theoretic algorithms). Prerequisites: CS:3330 or CS:5340.

CS:5360 Randomized Algorithms 3 s.h.
Use of randomization in the design of algorithms; focus on various fundamental principles in the design of randomized algorithms, such as first and second moment method, random sampling, hashing, probability amplification; tools for analysis, such as the tail bounds of Markov, Chebyshev, Chernoff, and Hoeffding, the Lovasz Local Lemma, Martingale tail bounds, randomized rounding of linear and semi-definite programs; applications to network routing, combinatorial optimization, random walks, social networks, data streaming, and more. Prerequisites: CS:3330.

CS:5370 Computational Geometry 3 s.h.
Study of data structures for geometric problems such as point location, range searching, finding nearest neighbors, and algorithms for convex hulls, Voronoi diagrams, triangulations, and quad-trees along with their uses; other topics will be determined by student interest; focus on algorithm design and an understanding of the implementation of geometric algorithms; assumes a sound understanding of the material in an undergraduate algorithms course. Prerequisites: CS:3330.

CS:5430 Machine Learning 3 s.h.
Fundamental machine learning techniques as well as hands-on experience applying these techniques and developing new techniques for solving problems from the real world; topics include regression (least square regression, lasso), classification (naive Bayes, nearest neighbor, support vector machines, logistic regression), kernel methods, unsupervised methods (k-means clustering, spectral clustering, dimensionality reduction), stochastic optimization, deep learning, and recent advances in big data analytics. Prerequisites: MATH:1850 and MATH:2700 and (STAT:2020 or STAT:3100 or STAT:3101 or STAT:3120) and CS:4420.

CS:5560 Privacy Law and Technology 3 s.h.
Introduction to privacy law and its relevance to computation, the Internet, and emerging technologies. Prerequisites: CS:3640 or ECE:3540 or CS:4510 or CS:4640.

CS:5610 High Performance Computer Architecture 3 s.h.
Problems involved in designing and analyzing current machine architectures using hardware description language (HDL) simulation and analysis, hierarchical memory design, pipeline processing, vector machines, numerical applications, multiprocessor architectures and parallel algorithm design techniques; evaluation methods to determine relationship between computer design and design goals. Prerequisites: ECE:3350 or CS:3620. Same as ECE:5320.

CS:5620 Distributed Systems and Algorithms 3 s.h.
Models of distributed systems, program correctness—safety and liveness properties, causality, logical and vector clocks, mutual exclusion, distributed snapshot, leader election, distributed algorithms for graph-theoretic problems, fault-tolerance—masking versus nonmasking types, checkpointing, stabilization, consensus—byzantine generals problem, fault-tolerant broadcast and multicast, management of replicated data. Prerequisites: CS:3330 and CS:3620. Requirements: some interest in networking.

CS:5630 Cloud Computing Technology 3 s.h.
Explores infrastructure and programming paradigms of scalable systems and databases; provides experience with popular cluster frameworks (MapReduce, Hadoop, Spark, Flink, or similar) through programming exercises, projects, and experiments; assigned readings and case studies explore themes such as replication, data sharding, looser types of consistency, virtualization, consensus, and barrier synchronization; cloud system stacks developed by Google, Amazon, Facebook, and Microsoft. Prerequisites: CS:2820 and (CS:3620 or CS:3640).

CS:5710 Numerical Methods I 3 s.h.
Root finding for nonlinear equations; polynomial interpolation; polynomial approximation of functions; numerical integration. Prerequisites: MATH:2700 and (MATH:2850 or MATH:3550). Requirements: knowledge of computer programming. Same as MATH:5800.

CS:5720 Numerical Methods II 3 s.h.
Numerical methods for initial value problems for ordinary differential equations; direct and iterative methods for linear systems of equations; eigenvalue problems for matrices. Prerequisites: MATH:2700 and MATH:5800 and (MATH:2850 or MATH:3550) and (MATH:3600 or MATH:2560). Requirements: knowledge of computer programming. Same as MATH:5810.

CS:5800 Fundamentals of Software Engineering 3 s.h.
Problem analysis, requirements definition, specification, design, implementation, testing/maintenance, integration, project management; human factors; management, technical communication; design methodologies; software validation, verification; group project experience. Prerequisites: CS:2820 or ECE:3330. Same as ECE:5800.

CS:5810 Formal Methods in Software Engineering 3 s.h.
Models, methods, and their application in all phases of software engineering process; specification methods; verification of consistency, completeness of specifications; verification using tools. Prerequisites: ECE:3330 or CS:2820. Recommendations: CS:4350. Same as ECE:5810.

CS:5820 Software Engineering Languages and Tools 3 s.h.
Modern agile software development practices for cloud and web-based applications, using state-of-the-art software engineering languages, tools, and technologies; agile software development practices, software-as-a-service (SAAS), and the Ruby on Rails Development Framework. Prerequisites: ECE:3330 or CS:2820. Same as ECE:5820.

CS:5830 Software Engineering Project 3 s.h.
Team software development project using concepts and methodologies learned in earlier software engineering classes; practical aspects of large-scale software development. Prerequisites: ECE:5820. Same as ECE:5830.

CS:5850 Programming Language Foundations 3 s.h.
Introduction to formal foundations of programming languages using a variety of models, including attribute grammars, operational, axiomatic, denotational, and algebraic techniques; proofs of program equivalence, correctness, termination. Prerequisites: CS:3330 and CS:3820.

CS:5860 Lambda Calculus and Applications 3 s.h.
Covers both typed and untyped versions of the lambda calculus in depth, including essential theoretical results like confluence for untyped lambda calculus and normalization for typed lambda calculi, as well as applications in computer science, logic, and linguistics; coursework includes both theoretical exercises and practical problems using software for manipulating lambda-calculus expressions, students devise their own final projects; no prior experience with lambda calculus, programming, logic, or linguistics is required, although ability to grasp definitions of new concepts and to follow detailed arguments is needed. Prerequisites: CS:3820.

CS:5980 Topics in Computer Science III arr.
Complements material in other courses; for computer science graduate students.

CS:5990 Individualized Research or Programming Project 1-3 s.h.
Individualized research and/or programming projects in computer science, guided by a faculty member.

CS:6000 Research Seminar: Colloquium Series 1 s.h.
Graduate colloquium. Requirements: graduate standing in computer science.

CS:6990 Readings for Research arr.
Requirements: PhD standing in computer science.

CS:7604 Computing Research Ethics for Postdocs 0 s.h.
Review of responsible conduct of research policies specifically tailored to research roles computer science students are likely to play at the University of Iowa and beyond in their professional lives. Requirements: postdoctoral research scholar/fellow standing in computer science.

CS:7990 Research for Dissertation arr.
Individualized instruction for PhD candidates in computer science towards thesis requirements. Requirements: PhD candidacy (postcomprehensive exam) in computer science.

Computer Science, BA

The major in computer science provides students with the necessary training for employment in careers such as software development and information management. It provides good preparation for graduate study in a variety of disciplines.

Students may declare a major in computer science when they are admitted to the university or afterward. They may declare either a Bachelor of Arts or a Bachelor of Science, but if no preference is indicated by a student, the Bachelor of Arts is designated. Students may switch to the Bachelor of Science at any time.

Undergraduates majoring in computer science develop competence in programming principles and methodologies, problem-solving techniques, mathematics, and computer systems. Computer science training is critical for many careers in science, engineering, business, and health care.

Computer science majors are advised at the Academic Advising Center until they have completed 30 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center can also consult with a computer science faculty advisor.

Transfer students who have taken a course approved as equivalent to a required computer science or informatics course are exempt from that course. Transfer course grades are included in the computer science grade-point average.

Students should consult the Department of Computer Science website or visit the department's office for information about general policies, elective areas, internships, scholarships, and student groups, such as the university's chapter of the Association for Computing Machinery (ACM) and Women in Computing Sciences (WiCS).

Advanced Placement

The Computer Science Advanced Placement Program test may be used to satisfy requirements. See Advanced Placement Credit Policy on the Department of Computer Science website.

Learning Outcomes

- Students understand the mathematical, logical, and theoretical foundations of computing.
- Students can analyze and compare the relative merits of alternative software designs and develop high-quality software systems.
- Students understand the fundamental principles of computer organization, system software, networks, and security.
- Students understand social, professional, and ethical issues related to computing.

Requirements

The Bachelor of Arts with a major in computer science requires a minimum of 120 s.h., including at least 41 s.h. of work for the major. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. A cumulative GPA of at least 2.00 is required for graduation. Students must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The computer science major for the Bachelor of Arts is designed for students who would like to gain considerable knowledge in computer science and have flexibility in choosing electives. Students preparing for careers in the computing field are encouraged to supplement the base requirements with additional computer science courses. The program's flexibility makes it suitable for combination with other majors.

Coursework for the major includes computer science courses as well as courses in mathematics, statistics, and other supporting disciplines. Work for the major may not be taken pass/nonpass.

Bachelor of Arts students considering a switch to the Bachelor of Science program should choose their GE CLAS Core Natural Sciences courses carefully because students may be able to use the same courses to satisfy the computer science major natural science sequences requirement for the BS degree. See "Natural Science Sequences" under Requirements in the BS in computer science [p. 303] section of the catalog.

Students who major in computer science may not also major or minor in computer science and engineering, data science, or informatics.

Departmental Residency Requirement

Students who earn a BA in computer science must complete at least five courses (minimum of 15 s.h.) at the University of Iowa from the following: CS:2630 Computer Organization or ECE:3350 Computer Architecture and Organization, CS:2820 Introduction to Software Development, CS:3330 Algorithms, and at least two computer science courses (prefix CS) numbered 3620–5899, but excluding CS:3910 Informatics Project, CS:3980 Topics in Computer Science I, and CS:4310 Design and Implementation of Algorithms; these courses are requirements for the BA in computer science as listed below.

Program Requirements

The BA with a major in computer science requires the following coursework. Enrollment in many courses for the major requires a minimum grade of C-minus in prerequisite courses.

Requirements	Hours
Computer Science Core Courses	27-28
Mathematics Core Courses	11-12
Advanced Computer Science Electives	3

Computer Science Core

Course #	Title	Hours
All of these:		
CS:1210	Computer Science I: Fundamentals	4
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
CS:2820	Introduction to Software Development	4
CS:3330	Algorithms	3
CS:3820	Programming Language Concepts	3
One of these:		
CS:2630	Computer Organization	4
ECE:3350	Computer Architecture and Organization	3

One of these:		
CS:3620	Operating Systems	3
CS:3640	Introduction to Networks and Their Applications	3

Mathematics Core

Calculus I

Course #	Title	Hours
One of these:		
MATH:1550	Engineering Calculus I	4
MATH:1850	Calculus I	4

Calculus II

Course #	Title	Hours
One of these:		
MATH:1560	Engineering Calculus II	4
MATH:1860	Calculus II	4

Linear Algebra/Probability and Statistics

Students who take MATH:2550 Engineering Matrix Algebra and MATH:2560 Engineering Differential Equations can use these courses together to satisfy the linear algebra requirement.

Course #	Title	Hours
One of these:		
MATH:2700	Introduction to Linear Algebra	4
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3120	Probability and Statistics	4

Advanced Computer Science Electives

Course #	Title	Hours
At least 3 s.h. from these:		
A computer science course (prefix CS) numbered 3620-5899, except CS:3910, CS:3980, or CS:4310		
A computer science course (prefix CS) numbered 5900 or above, with department approval		

Students may count a maximum of 3 s.h. earned in CS:3990 Honors in Computer Science or Informatics toward the advanced computer science electives requirement.

Early Admission to the Graduate College

Undergraduate computer science students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

Combined Programs

BA/MCS

Qualified computer science undergraduate students who plan to earn the Master of Computer Science degree may apply for the combined Bachelor of Arts/Master of Computer Science program. The combined BA/MCS program allows students to earn both degrees in five years. The program requires a total of 140 s.h. Students are granted a BA when they complete all requirements for the undergraduate degree.

Students in the combined program must complete all requirements for each degree, but may count a maximum of 12 s.h. (four courses) toward both degrees. The four courses must be taken during the fourth year of undergraduate study, after admission to the combined program, and must satisfy degree requirements of both the BA and the MCS.

If students withdraw from the combined program before completing their bachelor's degree, credit earned in the four courses is counted only toward the undergraduate degree.

Students apply for admission to the combined program during their third year as an undergraduate and enter the program at the beginning of their fourth year. They typically complete the combined program in one year after completing the BA requirements.

Applicants to the combined program must:

- be enrolled as a BA student majoring in computer science at the University of Iowa;
- have completed a minimum of 80 s.h. at the time of admission to the combined program, with at least 30 s.h. earned at the University of Iowa; and
- have a cumulative University of Iowa grade-point average (GPA) of at least 3.25 and a GPA of at least 3.25 in the computer science major (computed on math prerequisites and core computer science coursework taken at the University of Iowa).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Students must submit an application for admission to the program, a statement of purpose, three letters of recommendation, and transcripts from all colleges attended; they also must apply to the Graduate College. Graduate Record Examination (GRE) scores are not required. For more detailed information, see Graduate Programs on the Department of Computer Science website.

Honors

Honors in the Major

Students majoring in computer science have the opportunity to graduate with honors in the major. They must maintain a minimum UI cumulative grade-point average (GPA) of 3.33 and a minimum major GPA of 3.50; additionally, students complete 4–6 s.h. of CS:3990 Honors in Computer Science or Informatics and submit an acceptable honors thesis or project. At any time, students can communicate to the computer science professional advisor that they have an honors interest and can have that designation placed on their academic record.

A student is responsible for finding a faculty member willing to supervise the honors project. The student can register for

CS:3990 Honors in Computer Science or Informatics under the project supervisor's name once the faculty member approves the proposed project and a timetable for the work. Once that is accomplished, the student must then communicate with the Department of Computer Science honors director, who changes the student's status to denote the student is pursuing honors in the major. It is not necessary to have declared an honors interest before finding a thesis supervisor and beginning to pursue honors in the major, but the student must be coded as pursuing honors prior to completing the application for degree.

An honors project can be completed in one semester, but it usually takes two semesters to complete. In their final semester, a student must register for CS:3999 Computer Science or Informatics Honors Cohort. The honors thesis/project must be approved by the thesis supervisor and then submitted to the honors director who will give initial approval that the student can graduate with honors in the major. Final approval is given after final grades are submitted and all requirements are met. For more details regarding project requirements, see Honors in Computer Science on the department's website.

Students who pursue honors in the major may count a maximum of 3 s.h. in CS:3990 Honors in Computer Science or Informatics toward the advanced computer science elective requirement. Those in the combined BA/MCS program may register for 4–6 s.h. in CS:5990 Individualized Research or Programming Project instead of CS:3990; this registration allows them to receive graduate credit for the course while satisfying the course requirements to graduate with honors.

University of Iowa Honors Program

In addition to honors in the major, students can pursue honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the computer science major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics or CS:5990 Individualized Research or Programming Project can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning coursework.

For more information, contact the Department of Computer Science honors director.

Career Advancement

Computer science graduates work primarily in two market sectors. One sector is the software and computer industry where the words computer science are being used—those in Silicon Valley, among other areas, that can range from start-ups to giants like Amazon, Google, Facebook, and Microsoft. The other sector allows computer science students to use their technical expertise in fields beyond computer science. Examples would be working as a user experience (UX) designer for a marketing agency or developing software for a financial group; those are computer science majors working in media, health care, the government, and even law firms. Computer science skills are needed everywhere so students have ample opportunities to find an environment that fits their interests and strengths.

As many as one-third of computer science graduates go into research or elect to pursue graduate studies in computer science, including the University of Iowa's five-year BA/MCS program, or pursue other areas where computer science provides a strong foundation.

A recent job placement survey indicates that more than 97% of computer science graduates have a job, are continuing education, or are not seeking employment within six months of graduation.

View post-graduation data on the Pomerantz Career Center website, which uses University of Iowa placement information to explore what recent computer science alumni are doing, including median salaries, job titles, companies of employment, and other facts about UI graduates.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to BA students majoring in computer science. Students work with their advisors on individual graduation plans.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Computer Science, BA

	Hours	**15**
	Total Hours	**124-132**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in math courses requires completion of a placement exam.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Choose from MATH:2700, STAT:2020, or STAT:3120.

g Students may take CS:2820, CS:3330, and CS:3820 in any order after completing CS:1210, CS:2210, and CS:2230.

h Students may choose a computer science course (prefix CS) numbered 3620-5899 (except CS:3910, CS:3980, CS:4310), or a CS course numbered 5900 or above with department approval. A course used to complete a core requirement cannot also be used as a major elective.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Informatics, BA

The major in informatics provides students with the necessary training for employment in careers such as software development, user experience, and data analytics. It provides good preparation for graduate study in a variety of disciplines.

Students may declare a major in informatics when they are admitted to the university or afterward. All students begin the major as Bachelor of Arts students but may switch to the Bachelor of Science program at any time.

The informatics major combines fundamental and practical computing knowledge with a choice of cognate area from the liberal arts and sciences, providing students with the necessary background and specialized skills to work at the interface of computing and another discipline. Students may begin the major without a chosen cognate area; they may declare a cognate at any time. Some cognates are available only with the Bachelor of Arts, while others are available only with the Bachelor of Science. A student's choice of cognate determines whether the student will earn a BA or a BS.

Informatics majors are advised at the Academic Advising Center until they have completed 30 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center also can consult with an informatics faculty advisor.

Transfer students who have taken a course approved as equivalent to a required informatics or computer science course are exempt from that course. Transfer course grades are included in the informatics grade-point average.

Students should consult the Department of Computer Science website or visit the department's office for information about general policies, elective areas, internships, scholarships, and student groups, such as the university's chapter of the Association for Computing Machinery (ACM) and Women in Computing Sciences (WiCS).

Many informatics major courses are offered once per year and have prerequisites that are also only offered annually. Speak with an advisor for more information.

Advanced Placement

The Computer Science Advanced Placement (AP) exam may be used to satisfy requirements. See Advanced Placement Credit Policy on the Department of Computer Science website.

Learning Outcomes

- Students can apply computational thinking approaches to solve problems.
- Students can individually and collaboratively develop software using professional tools.
- Students can extract, organize, analyze, and present data from a variety of sources.
- Students can contribute to the development of usable, useful, and enjoyable software applications by using human-centered methods.
- Students understand social, professional, and ethical issues related to computing.
- Students have a thorough understanding of a chosen cognate area.

Requirements

The Bachelor of Arts with a major in informatics requires a minimum of 120 s.h., including at least 45–51 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. A cumulative GPA of at least 2.00 is required for graduation. Students must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The program combines foundational informatics coursework with coursework in a cognate area. The major offers the cognate areas of art, economics, geoinformatics, health informatics, human-computer interaction, linguistics, media, music, social informatics, and individualized cognates. Required credit for the major depends on a student's choice of cognate area.

Coursework for the major includes the informatics core, one elective, a statistics course, and a set of courses in a chosen cognate area. Work for the major may not be taken pass/nonpass. Students are expected to have taken MATH:1005 College Algebra or the equivalent.

Students who major in informatics may not also major in computer science, business analytics and information systems, or computer science and engineering. They may, however, earn a minor in computer science.

Departmental Residency Requirement

Students must complete at least four courses (minimum of 12 s.h.) at the University of Iowa from the following: CS:3910 Informatics Project and three additional computer science courses (prefix CS) numbered 2500–4999; these courses are requirements for the BA in informatics as listed below.

Program Requirements

The BA with a major in informatics requires the following coursework. Enrollment in many courses for the major requires a minimum grade of C-minus in prerequisite courses.

Requirements	Hours
Informatics Core Courses	19
Informatics Electives	3
Statistics Course	3-4
Cognate Courses	18-26

Informatics Core

The informatics core consists of six required computing courses (19 s.h.) that emphasize data manipulation, databases, and networking. It provides more applications-oriented content than the traditional computer science curriculum yet is designed to offer students a sound basis in underlying computer science themes and techniques.

Course #	Title	Hours
All of these:		
CS:1110	Introduction to Computer Science	3
CS:2110	Programming for Informatics	4
CS:2420	Analyzing Data for Informatics	3
CS:2520	Human-Computer Interaction for Informatics	3

CS:2620	Server-Side Development for Informatics	3
CS:3910	Informatics Project	3

Informatics Electives

Students must complete at least 3 s.h. in one computer science course (prefix CS) numbered 3000–4999, excluding CS:3910 and CS:4510; they may count up to 3 s.h. from CS:3990 Honors in Computer Science or Informatics. Course selection must be approved by an informatics advisor. Students may have additional choices from the Department of Electrical and Computer Engineering and the Department of Business Analytics; consult an informatics advisor for additional choices.

Statistics Course

Students must complete one introductory statistics course. Some cognates require a specific statistics course. Students should consult with their advisors to choose a statistics course appropriate for their cognate area.

Course #	Title	Hours
One of these:		
PSY:2811	Research Methods and Data Analysis in Psychology I	3
SOC:2160	Applied Statistics for Social Scientists	3
STAT:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2010	Statistical Methods and Computing	3
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3120	Probability and Statistics	4
STAT:3510	Biostatistics	3
STAT:4143	Introduction to Statistical Methods	3

Cognates

Students must complete all requirements listed under one of the following cognate areas: art, economics, geoinformatics, health informatics, human-computer interaction, linguistics, media, music, social informatics, or an individualized cognate.

Art

The informatics major with the art cognate requires a minimum of 47 s.h. of work for the major, including at least 22 s.h. in cognate courses. Students learn about the design and maintenance of web services, applications of modern computerized artistic tools, and benefits and limitations of computers as a digital medium. They also gain insight into computerized tool design that is guided by knowledge of an artist's requirements. The art cognate may lead to careers in web development, technology coordination for artistic productions, development of digital artistic tools, and artistic or technical development for entertainment companies. Cognate courses are primarily in art history, design, elements of art, and photography.

Some courses listed below are open only to students majoring in art, so they are appropriate choices only for students with a double major in art and informatics. Non-art majors should work with an informatics advisor to develop an individual set of art cognate courses.

Course #	Title	Hours
All of these:		
ARTS:1510	Basic Drawing	3
ARTS:1520	Design Fundamentals	3
DSGN:2500	Graphic Design I	3
or PHTO:2600	Photography I	
DSGN:2600	Graphic Design II	3
or PHTO:3100	Photography II: Introduction to Darkroom Photography	
DSGN:3500	Graphic Design III	4
or PHTO:3110	Photography III: The Constructed Image	
Any art history course (prefix ARTH) numbered 1010-2999		3
One of these, to complete at least 22 s.h. for the art cognate:		
CS:2800	Digital Arts: An Introduction	3
DSGN:3600	Graphic Design IV	4
MUSM:3125	Museums in a Digital World	3
PHTO:3200	Photography IV: Special Topics	4
PHTO:3210	Photography IV: Contemporary Video Practices	4
PHTO:3220	Photography IV: Alternative Photographic Processes	4
SCLP:3840	Robotic Art Studio	4
SCLP:4835	Electronic Objects and Spaces	4
SCLP:4840	Air, Actuators, and Motors	4

Economics

The informatics major with the economics cognate requires a minimum of 49 s.h. of work for the major, including 24 s.h. in cognate courses, which are primarily from economics. The economics cognate is intended for students interested in working with economic, financial, or demographic data. It may lead to careers in administration, business, or government or to graduate study in management or policy areas.

Course #	Title	Hours
All of these:		
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
ECON:3100	Intermediate Microeconomics	3
ECON:3150	Intermediate Macroeconomics	3
MATH:1350	Quantitative Reasoning for Business	4
Additional 6 s.h. in economics courses (prefix ECON) numbered 3000 or above		6

Geoinformatics

The informatics major with the geoinformatics cognate requires a minimum of 48 s.h. of work for the major, including 23 s.h. in cognate courses, which are primarily from earth, environment, and sustainability sciences. The geoinformatics cognate is intended for students interested in geographic information systems (GIS) and spatial aspects of data. It may

lead to careers in business, government, or public health or to graduate study in geography, public health, or policy areas.

Course #	Title	Hours
All of these:		
SEES:1020	The Global Environment	3
SEES:1021	The Global Environment Lab	1
SEES:2050	Foundations of GIS	4
Two of these:		
SEES:1070	Contemporary Environmental Issues	3
SEES:2110	Eight Billion and Counting: Introduction to Population Dynamics	3
SEES:2910	The Global Economy	3
One of these:		
SEES:3520	GIS for Environmental Applications	3
SEES:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
Two of these:		
SEES:3500	Introduction to Environmental Remote Sensing	3
SEES:3520	GIS for Environmental Applications (if not used to satisfy the preceding requirement)	3
SEES:3540	Geographic Visualization	3
SEES:3570	Light Detection and Ranging (LiDAR): Principles and Applications (if not used to satisfy the preceding requirement)	3
SEES:3610	Ethical Collection and Use of Geospatial Information	3

Health Informatics

The informatics major with the health informatics cognate requires a minimum of 46 s.h. of work for the major, including 21 s.h. in cognate courses. The health informatics cognate is intended for students interested in applications of computing to health care, especially in public health. It may lead to careers in medical or health-related areas or to graduate and professional degree programs in public health, health informatics, and medical informatics. Cognate courses are selected primarily from public health, earth, environment, and sustainability sciences, and global health studies.

Once students complete the required courses in each of the four sets below, they must select additional courses from the sets to complete 21 s.h. of credit for the cognate.

Course #	Title	Hours
One of these:		
CPH:1400	Fundamentals of Public Health	3
GHS:3720	Contemporary Issues in Global Health	3
At least two of these:		
SEES:2050	Foundations of GIS	4
SEES:3110	Geography of Health	3
SEES:4150	Health and Environment: GIS Applications	3
One of these:		
SEES:3500	Introduction to Environmental Remote Sensing	3
SEES:3520	GIS for Environmental Applications	3
SEES:3540	Geographic Visualization	3
SEES:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
SEES:3610	Ethical Collection and Use of Geospatial Information	3
At least 6 s.h. from these:		
GHS:3720	Contemporary Issues in Global Health (if not used to satisfy preceding requirement)	3
GHS:3850	Promoting Health Globally	3
GHS:4100	Topics in Global Health	1-3
JMC:3150	Media and Health	3
One of these:		
EPID:4400	Epidemiology I: Principles	3
HMP:4000	Introduction to the U.S. Health Care System	3

Human-Computer Interaction

The informatics major with the human-computer interaction cognate requires a minimum of 46 s.h. of work for the major, including at least 21 s.h. in cognate courses. The human-computer interaction cognate is intended for students interested in designing useful and usable technologies. It can lead to careers in interaction design, web design, implementation of user interfaces, and evaluation of human-computer interactions as well as providing valuable skills for graduate study in human-computer interaction.

The cognate's courses provide an interdisciplinary foundation including psychology, sociology, and studio arts, together with an understanding of research methods in human-computer interaction and relevant software development skills. This cognate requires more advanced courses in computer science than other cognates.

Course #	Title	Hours
This course:		
CS:4500	Research Methods in Human-Computer Interaction	3
Either both psychology courses or both sociology courses:		
PSY:1001 & PSY:2601	Elementary Psychology and Introduction to Cognitive Psychology	6
SOC:1010 & SOC:2130	Introduction to Sociology and Sociological Theory	6-7
One art course from these:		
ARTS:1020	Elements of 3D Design	3
ARTS:1070	Elements of Graphic Design (recommended)	3
At least 9 s.h. from these, to complete at least 21 s.h. for the cognate:		
ISE:3400	Human Factors	3

PSY:2401	Introduction to Developmental Science	3
PSY:2501	Introduction to Social Psychology	3
PSY:2701	Introduction to Behavioral Neuroscience	4
Any computer science course (prefix CS) numbered 3000 or above, except CS:4510 and CS:5990, with human-computer interaction themed courses numbered 4000 and above recommended		

Most courses in this list have prerequisites, which students must complete before they may register for the course. Most of the psychological and brain science courses (prefix PSY) require PSY:1001 Elementary Psychology as a prerequisite. Students should review prerequisites carefully before making their selections.

Linguistics

The informatics major with the linguistics cognate requires a minimum of 47 s.h. of work for the major, including 22 s.h. in cognate courses. Linguistics, the scientific study of human languages, is directly related to psychology, anthropology, and computer science as well as to more applied fields such as second language acquisition or speech and hearing science. The cognate focuses on computational representations of syntax and semantics for processing natural language. Cognate courses are drawn primarily from linguistics.

Course #	Title	Hours
All of these:		
CSD:3112	Anatomy and Physiology of Speech Production	4
CSD:3116	Basic Neuroscience for Speech and Hearing	3
LING:3001	Introduction to Linguistics	3
LING:3005	Articulatory and Acoustic Phonetics	3
LING:3010	Syntactic Analysis	3
LING:3020	Phonological Analysis	3
LING:3080	History of the English Language	3

Media

The informatics major with the media cognate requires a minimum of 47 s.h. of work for the major, including 22 s.h. in cognate courses. This cognate is intended for students interested in working in media industries. Data-specific occupations in these industries include but are not limited to data/communication analyst, data mining expert, strategic analyst, data journalist, web developer, information graphics specialist, app developer, and multimedia journalist.

Course #	Title	Hours
One of these:		
JMC:1100	Introduction to Media Effects	3
JMC:1200	Introduction to Media and Culture	3
JMC:1500	Introduction to Social Media	3
All of these:		
JMC:1300	Introduction to Journalism and Strategic Communication	3
JMC:1600	Writing Fundamentals	1
JMC:2020	Multimedia Storytelling	3
JMC:2030	Visual Communication and Design	3
Three of these:		
JMC:3600	Topics in Designing/ Producing	3-4
JMC:3603	Newscast Production	3-4
JMC:3610	Graphic Design	3-4
JMC:3630	Photography	3-4
JMC:3640	Information and Data Visualization	3-4
JMC:3650	Video Production	3-4
JMC:3660	Audio Production	3-4

Music

The informatics major with the music cognate requires a minimum of 51 s.h. of work for the major, including 26 s.h. in cognate courses. The music cognate is intended for students interested in audio recording, manipulation of sound, and digital media. It may help students prepare for careers in the entertainment industry. Cognate courses are primarily from music, with some from cinematic arts and theatre arts. Entering students must possess basic musicianship skills; an audition may be required for admission.

When students begin work on this cognate, they should enroll in MUS:1201 Musicianship and Theory I and must take the Placement Exam A, which is administered online during the summer before the fall semester begins, to determine readiness for the musicianship and theory course sequence. See Musicianship and Theory Placement on the School of Music website for more information. Advanced placement in School of Music courses does not reduce the number of semester hours required for the cognate.

Course #	Title	Hours
All of these:		
MUS:1200	Fundamentals of Music for Majors	3
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1
MUS:3780	Audio Recording I	3
MUS:3781	Audio Recording II	3
One of these:		
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311	Music of Latin America and the Caribbean	3
At least one of these, to complete 26 s.h. for the music cognate:		
CS:2800	Digital Arts: An Introduction	3
CINE:4841	Film/Video Production: Sound Design	4
MUS:1007	Garage Band: The Basics	2
MUS:1010	Recital Attendance for Nonmajors	1

THTR:3260	Sound Design for the Theatre	3

Social Informatics

The informatics major with the social informatics cognate requires a minimum of 45 s.h. of work for the major, including at least 20 s.h. in cognate courses, all from the Department of Sociology and Criminology. The sociology cognate is intended for students interested in applying data analytics to topics related to social change, social relationships, societal impact on individual behavior, crime, and the criminal justice system.

Course #	Title	Hours
All of these:		
SOC:1010	Introduction to Sociology	3-4
SOC:2130	Sociological Theory	3
SOC:2170	Research Methods	3
At least 11 s.h. from these:		
CRIM:1410	Introduction to Criminology	3
CRIM:3420	Juvenile Delinquency	3
CRIM:3450	Criminal Legal System	3
CRIM:4400	Internship in Criminal Justice and Corrections	3
Any sociology course (prefix SOC) numbered 1020 or above		

Individualized Cognates

Students interested in developing individualized cognates may work with an informatics advisor. Individualized cognates may be drawn primarily from one department or an appropriate mix of departments; they require an approved set of cognate courses totaling 18–25 s.h.

Early Admission to the Graduate College

Undergraduate informatics students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

Combined Programs

BA/MS in Informatics (Geoinformatics, Health Informatics, or Human-Computer Interaction Subprogram)

Students majoring in informatics who are interested in earning a master's degree in informatics may apply to the combined BA/MS program (geoinformatics, health informatics, or human-computer interaction subprogram) offered by the College of Liberal Arts and Sciences and the Graduate College. The program enables students to begin graduate-level study of informatics before they complete their bachelor's degree. Students are able to complete both degrees in less time than if they were to complete the two degrees separately.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For more information about the graduate degree program, see the MS in informatics [p. 1753] (Graduate College) in the catalog.

Honors

Honors in the Major

Students majoring in informatics have the opportunity to graduate with honors in the major. They must maintain a minimum UI cumulative grade-point average (GPA) of 3.33 and a minimum major GPA of 3.50; additionally, students complete 4–6 s.h. of CS:3990 Honors in Computer Science or Informatics and submit an acceptable honors thesis or project. At any time, students can communicate to the computer science professional advisor that they have an honors interest and can have that designation placed on their academic record.

A student is responsible for finding a faculty member willing to supervise the honors project. The student can register for CS:3990 Honors in Computer Science or Informatics under the project supervisor's name once the faculty member approves the proposed project and a timetable for the work. Once that is accomplished, the student must then communicate with the Department of Computer Science honors director, who changes the student's status to denote the student is pursuing honors in the major. It is not necessary to have declared an honors interest before finding a thesis supervisor and beginning to pursue honors in the major, but the student must be coded as pursuing honors prior to completing the application for degree.

An honors project can be completed in one semester, but it usually takes two semesters to complete. In the final semester, a student must register for CS:3999 Computer Science or Informatics Honors Cohort. The honors thesis/project must be approved by the thesis supervisor and then submitted to the honors director who will give initial approval that the student can graduate with honors in the major. Final approval is given after final grades are submitted and all requirements are met. For more details regarding project requirements, see Honors in Computer Science on the department's website.

University of Iowa Honors Program

In addition to honors in the major, students can pursue honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the informatics major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning coursework.

For more information, contact the Department of Computer Science honors director.

Career Advancement

Informatics graduates work in a broad range of market sectors, reflecting the interdisciplinary nature of the program and the large number of available cognates. Students will have technical skills along with a specialty area that can help them pursue a specific type of organization or interest field. Areas that informatics graduates have pursued include

software development, database and/or web administration, data analysis, software support (IT), user interface/user experience web design (the human-computer interaction cognate is useful for this area), and health care information (the health informatics cognate is useful for this area).

A recent job placement survey indicates that more than 90% of University of Iowa informatics graduates have a job, are continuing education, or are not seeking employment within six months of graduation.

View post-graduation data on the Pomerantz Career Center website, which uses University of Iowa placement information to explore what recent informatics alumni are doing, including median salaries, job titles, companies of employment, and other facts about UI graduates.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to BA students majoring in informatics. Students work with their advisors on individual graduation plans.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives;

International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

c See General Catalog for list of approved courses. Students pursuing the human-computer interaction cognate are encouraged to take either PSY:2811 or SOC:2160.

d Fulfills a major requirement and may fulfill a GE requirement.

e Students must complete all requirements in one of the following cognate areas: art, economics, geoinformatics, health informatics, human-computer interaction, linguistics, media, music, social informatics or an individualized cognate. Students interested in developing individualized cognates (a grouping of 18-25 s.h. of courses drawn primarily from one department) must work with an informatics faculty advisor to create a plan of study and obtain departmental approval for their plan.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

i Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

j Computer science course (prefix CS) numbered 3000-4999, including CS:3990 for 3 s.h., but excluding CS:3910 and CS:4510.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Computer Science, BS

The major in computer science provides students with the necessary training for employment in careers such as software development and information management. It provides good preparation for graduate study in a variety of disciplines.

Students may declare a major in computer science when they are admitted to the university or afterward. They may declare either a Bachelor of Arts or a Bachelor of Science, but if no preference is indicated by a student, the Bachelor of Arts is designated. Students may switch to the Bachelor of Science at any time.

Undergraduates majoring in computer science develop competence in programming principles and methodologies, problem-solving techniques, mathematics, and computer systems. Computer science training is critical for many careers in science, engineering, business, and health care.

Computer science majors are advised at the Academic Advising Center until they have completed 30 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center can also consult with a computer science faculty advisor.

Transfer students who have taken a course approved as equivalent to a required computer science or informatics course are exempt from that course. Transfer course grades are included in the computer science grade-point average.

Students should consult the Department of Computer Science website or visit the department's office for information about general policies, elective areas, internships, scholarships, and student groups, such as the university's chapter of the Association for Computing Machinery (ACM) and Women in Computing Sciences (WiCS).

Advanced Placement

The Computer Science Advanced Placement Program test may be used to satisfy requirements. See Advanced Placement Credit Policy on the Department of Computer Science website.

Learning Outcomes

- Students understand the mathematical, logical, and theoretical foundations of computing.
- Students can analyze and compare the relative merits of alternative software designs and develop high-quality software systems.
- Students understand the fundamental principles of computer organization, system software, networks, and security.
- Students can apply computer science principles to a variety of problems, such as databases, data mining, and various fields of artificial intelligence (AI).
- Students understand social, professional, and ethical issues related to computing.

Requirements

The Bachelor of Science with a major in computer science requires a minimum of 120 s.h., including at least 63 s.h. of work for the major. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. A cumulative GPA of at least 2.00 is required for graduation. Students must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The Bachelor of Science program is more rigorous than that of the Bachelor of Arts program; it is designed to provide in-depth training for students who would like to acquire strength in math and science in order to enhance their skills and job prospects. It is also appropriate for those who plan to pursue graduate work in computer science, although it is not required for graduate study at most universities.

Coursework for the major includes computer science courses as well as courses in mathematics, statistics, and other supporting disciplines. Work for the major may not be taken pass/nonpass.

Bachelor of Science students with a computer science major should choose their GE CLAS Core Natural Sciences courses carefully because they may be able to use the same courses to satisfy the computer science major natural science sequences requirement; see "Natural Science Sequences" below.

Students who major in computer science may not also major or minor in computer science and engineering, data science, or informatics.

Departmental Residency Requirement

Students who earn a BS in computer science must complete at least seven courses (minimum of 21 s.h.) at the University of Iowa from the following: CS:2630 Computer Organization or ECE:3350 Computer Architecture and Organization, CS:2820 Introduction to Software Development, CS:3330 Algorithms, and at least four computer science courses (prefix CS) numbered 3620–5899, but excluding CS:3910 Informatics Project, CS:3980 Topics in Computer Science I, and CS:4310 Design and Implementation of Algorithms; these courses are requirements for the BS in computer science as listed below.

Program Requirements

The BS with a major in computer science requires the following coursework. Enrollment in many courses for the major requires a minimum grade of C-minus in prerequisite courses.

Requirements	Hours
Computer Science Core Courses	27-28
Mathematics Core Courses	15-16
Computation Theory Course	3
Advanced Technical Electives	12
Natural Sciences Sequence Courses	6-8

Computer Science Core

Course #	Title	Hours
All of these:		
CS:1210	Computer Science I: Fundamentals	4
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
CS:2820	Introduction to Software Development	4
CS:3330	Algorithms	3
CS:3820	Programming Language Concepts	3

One of these:		
CS:2630	Computer Organization	4
ECE:3350	Computer Architecture and Organization	3
One of these:		
CS:3620	Operating Systems	3
CS:3640	Introduction to Networks and Their Applications	3

Mathematics Core

Calculus I

Course #	Title	Hours
One of these:		
MATH:1550	Engineering Calculus I	4
MATH:1850	Calculus I	4

Calculus II

Course #	Title	Hours
One of these:		
MATH:1560	Engineering Calculus II	4
MATH:1860	Calculus II	4

Linear Algebra

Students who take MATH:2550 Engineering Matrix Algebra and MATH:2560 Engineering Differential Equations can use these courses together to satisfy the linear algebra requirement.

Course #	Title	Hours
This course:		
MATH:2700	Introduction to Linear Algebra	4

Probability and Statistics

Course #	Title	Hours
One of these:		
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3120	Probability and Statistics	4
Other probability and statistics courses (prefix STAT) with a calculus prerequisite approved by the department		

Computation Theory

Course #	Title	Hours
One of these:		
CS:4330	Theory of Computation	3
CS:4350	Logic in Computer Science	3

Advanced Technical Electives

Students must earn at least 12 s.h. (four courses) in advanced technical electives, as follows.

Course #	Title	Hours
At least 6 s.h. from these:		
A computer science course (prefix CS) numbered 3620-5899, except CS:3910, CS:3980, or CS:4310; a maximum of 3 s.h. in CS:3990 will count toward the requirement		
A computer science course (prefix CS) numbered 5900 or above, with department approval		

Remaining courses may be chosen from advanced technical elective courses in computer science (prefix CS) or in other disciplines with department approval; the following are preapproved technical electives.

Course #	Title	Hours
Biology		
BIOL:2512	Fundamental Genetics	4
BIOL:3172	Evolution	4
Chemistry		
CHEM:2210	Organic Chemistry I	3
CHEM:2220	Organic Chemistry II	3
CHEM:2230	Organic Chemistry I for Majors	3
CHEM:2240	Organic Chemistry II for Majors	3
CHEM:2410	Organic Chemistry Laboratory	3
Electrical and Computer Engineering		
ECE:3600	Control Systems	3
ECE:5450	Machine Learning	3
ECE:5480	Digital Image Processing	3
ECE:5600	Control Theory	3
Earth, Environment, and Sustainability		
SEES:2410	Mineralogy	4
SEES:3020	Earth Surface Processes	3
SEES:3210	Principles of Paleontology	3
SEES:3330	Sedimentary Geology	4
SEES:3360	Soil Genesis and Geomorphology	3
SEES:3380	Fluvial Geomorphology	3
SEES:3390	Integrated Watershed Analysis	3
SEES:3510	Igneous and Metamorphic Petrology	4
SEES:3520	GIS for Environmental Applications	3
SEES:3540	Geographic Visualization	3
SEES:3840	Structural Geology	4
SEES:4800	Global Geophysics	3
Economics		
ECON:4700	Topics in Analytical Economics	3
Linguistics		
LING:3117	Psychology of Language	3
Mathematics		
MATH:2560	Engineering Differential Equations	3
MATH:2850	Calculus III	4
MATH:3550	Engineering Vector Calculus	3
MATH:3600	Introduction to Ordinary Differential Equations	2-3
MATH:3720	Introduction to Abstract Algebra	4
MATH:3770	Foundations of Analysis	4
MATH:4040	Matrix Theory	3
MATH:4050	Introduction to Discrete Mathematics	3

MATH:4060	Discrete Mathematical Models	3
Philosophy		
PHIL:4590	Foundations of Cognitive Science	3
PHIL:4691	Mathematical Logic	3
PHIL:4692	Modal Logic	3
Physics		
PHYS:2703	Physics III	4
PHYS:2704	Physics IV	3-4
Statistics and Actuarial Science		
ACTS:3080	Mathematics of Finance I	3
STAT:4100	Statistical Inference I	3
STAT:4101	Statistical Inference II	3

Natural Science Sequences

Students take two or more courses in a sequence (totaling at least 6 s.h.) in a cognate area of natural science. The natural science sequence is intended to enhance a student's perspective by providing a deeper understanding of the scientific method. Typically, it consists of a sequence of courses taken in the same science department. Students often choose courses that also fulfill the GE CLAS Core [p. 22] Natural Sciences requirement. Some possible choices are listed below; the director of undergraduate studies may approve others.

CLEP/AP credit may be used to satisfy part or all of the natural science requirement only if the appropriate science department at the University of Iowa accepts the credit as equivalent to one or more of the specific courses listed below.

Course #	Title	Hours
Astronomy		
ASTR:1771	Fundamental Astronomy I: The Solar System and Exoplanets	4
ASTR:1772	Fundamental Astronomy II: Evolution of Stars, Galaxies, and the Universe	4
Biology		
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
Chemistry		
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
Earth, Environment, and Sustainability		
One of these sequences:		
SEES:1030	Introduction to Earth Science	3-4
or SEES:1050	Introduction to Geology	
SEES:1080	Introduction to Environmental Science	3-4
or		
SEES:1020	The Global Environment	3
SEES:2050	Foundations of GIS	4
Physics		
PHYS:1611 & PHYS:1612	Introductory Physics I and Introductory Physics II	8
or		
PHYS:1701 & PHYS:1702	Physics I and Physics II	8

Early Admission to the Graduate College

Undergraduate computer science students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

Combined Programs

BS/MCS

Qualified computer science undergraduate students who plan to earn the Master of Computer Science degree may apply for the combined Bachelor of Science/Master of Computer Science program. The combined BS/MCS program allows students to earn both degrees in five years. The program requires a total of 140 s.h. Students are granted a BS when they complete all requirements for the undergraduate degree.

Students in the combined program must complete all requirements for each degree, but may count a maximum of 12 s.h. (four courses) toward both degrees. The four courses must be taken during the fourth year of undergraduate study, after admission to the combined program, and must satisfy degree requirements of both the BS and the MCS.

If students withdraw from the combined program before completing their bachelor's degree, credit earned in the four courses is counted only toward the undergraduate degree.

Students apply for admission to the combined program during their third year as an undergraduate and enter the program at the beginning of their fourth year. They typically complete the combined program in one year after completing the BS requirements.

Applicants to the combined program must:

- be enrolled as a BS student majoring in computer science at the University of Iowa;
- have completed a minimum of 80 s.h. at the time of admission to the combined program, with at least 30 s.h. earned at the University of Iowa; and
- have a cumulative University of Iowa grade-point average (GPA) of at least 3.25 and a GPA of at least 3.25 in the computer science major (computed on math prerequisites and core computer science coursework taken at the University of Iowa).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Students must submit an application for admission to the program, a statement of purpose, three letters of recommendation, and transcripts from all colleges attended; they also must apply to the Graduate College. Graduate Record Examination (GRE) scores are not required. For more detailed information, see Graduate Programs on the Department of Computer Science website.

Honors

Honors in the Major

Students majoring in computer science have the opportunity to graduate with honors in the major. They must maintain a minimum UI cumulative grade-point average (GPA) of 3.33 and a minimum major GPA of 3.50; additionally, students complete 4–6 s.h. of CS:3990 Honors in Computer Science or Informatics and submit an acceptable honors thesis or project. At any time, students can communicate to the computer science professional advisor that they have an honors interest and can have that designation placed on their academic record.

A student is responsible for finding a faculty member willing to supervise the honors project. The student can register for CS:3990 Honors in Computer Science or Informatics under the project supervisor's name once the faculty member approves the proposed project and a timetable for the work. Once that is accomplished, the student must then communicate with the Department of Computer Science honors director, who changes the student's status to denote the student is pursuing honors in the major. It is not necessary to have declared an honors interest before finding a thesis supervisor and beginning to pursue honors in the major, but the student must be coded as pursuing honors prior to completing the application for degree.

An honors project can be completed in one semester, but it usually takes two semesters to complete. In their final semester, a student must register for CS:3999 Computer Science or Informatics Honors Cohort. The honors thesis/project must be approved by the thesis supervisor and then submitted to the honors director who will give initial approval that the student can graduate with honors in the major. Final approval is given after final grades are submitted and all requirements are met. For more details regarding project requirements, see Honors in Computer Science on the department's website.

Students who pursue honors in the major may count a maximum of 3 s.h. in CS:3990 Honors in Computer Science or Informatics toward the advanced technical elective requirement. Those in the combined BS/MCS program may register for 4–6 s.h. in CS:5990 Individualized Research or Programming Project instead of CS:3990; this registration allows them to receive graduate credit for the course while satisfying the course requirements to graduate with honors.

University of Iowa Honors Program

In addition to honors in the major, students can pursue honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the computer science major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics or CS:5990 Individualized Research or Programming Project can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning coursework.

For more information, contact the Department of Computer Science honors director.

Career Advancement

Computer science graduates work primarily in two market sectors. One sector is the software and computer industry where the words computer science are being used—those in Silicon Valley, among other areas, that can range from start-ups to giants like Amazon, Google, Facebook, and Microsoft. The other sector allows computer science students to use their technical expertise in fields beyond computer science. Examples would be working as a user experience (UX) designer for a marketing agency or developing software for a financial group; there are computer science majors working in media, health care, the government, and even in law firms. Computer science skills are needed everywhere so students have ample opportunities to find an environment that fits their interests and strengths.

As many as one-third of computer science graduates go into research or elect to pursue graduate studies in computer science, including the University of Iowa's five-year BS/MCS program, or pursue other areas where computer science provides a strong foundation.

A recent job placement survey indicates that more than 97% of computer science graduates have a job, are continuing education, or are not seeking employment within six months of graduation.

View post-graduation data on the Pomerantz Career Center website, which uses University of Iowa placement information to explore what recent computer science alumni are doing, including median salaries, job titles, companies of employment, and other facts about UI graduates.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to BS students majoring in computer science. Students work with their advisors on individual graduation plans.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in this course requires completion of a placement exam.

c Enrollment in math courses requires completion of a placement exam.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f Students may take CS:2630, CS:2820 and CS:3330 in any order after completing CS:1210, CS:2210, and CS:2230.

g Required math electives include (1) MATH:2700 and (2) STAT:2020 or STAT:3120

h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

i Students may choose a computer science course (prefix CS) numbered 3620-5899, except CS:3910, CS:3980 and CS:4310, or a CS course numbered 5900 or above with department approval. A course used to complete a core requirement cannot also be used as a major elective.

j The BS in computer science requires a 6-8 s.h., two-semester sequence science cognate. Select courses approved to meet the major requirement may also be used to meet the GE CLAS Core Natural Science requirement. See your academic advisor for additional information.

k Students may choose a computer science course (prefix CS) numbered 3620-5890, except CS:3910, CS:3980 and CS:4310, or a CS course numbered 5900 or above with department approval. A course used to satisfy a core requirement cannot also be used as an advanced major elective. Alternatively, students may take a course in other disciplines with department approval. See academic advisor for additional information.

l Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Informatics, BS

The major in informatics provides students with the necessary training for employment in careers such as software development, user experience, and data analytics. It provides good preparation for graduate study in a variety of disciplines.

Students may declare a major in informatics when they are admitted to the university or afterward. All students begin the majors as Bachelor of Arts students but may switch to the Bachelor of Science program at any time.

The informatics major combines fundamental and practical computing knowledge with a choice of cognate area from the liberal arts and sciences, providing students with the necessary background and specialized skills to work at the interface of computing and another discipline. Students may begin the major without a chosen cognate area; they may declare a cognate at any time. Some cognates are available only with the Bachelor of Arts, while others are available only with the Bachelor of Science. A student's choice of cognate determines whether the student will earn a BA or a BS.

Informatics majors are advised at the Academic Advising Center until they have completed 30 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center also can consult with an informatics faculty advisor.

Transfer students who have taken a course approved as equivalent to a required informatics or computer science course are exempt from that course. Transfer course grades are included in the informatics grade-point average.

Students should consult the Department of Computer Science website or visit the department's office for information about general policies, elective areas, internships, scholarships, and student groups, such as the university's chapter of the Association for Computing Machinery (ACM) and Women in Computing Sciences (WiCS).

Many informatics major courses are offered once per year and have prerequisites that are only offered annually. Speak with an advisor for more information.

Advanced Placement

The Computer Science Advanced Placement (AP) exam may be used to satisfy requirements. See Advanced Placement Credit Policy on the Department of Computer Science website.

Learning Outcomes

- Students can apply computational thinking approaches to solve problems.
- Students can individually and collaboratively develop software using professional tools.
- Students can extract, organize, analyze, and present data from a variety of sources.
- Students can contribute to the development of usable, useful, and enjoyable software applications by using human-centered methods.
- Students understand social, professional, and ethical issues related to computing.
- Students have a thorough understanding of a chosen cognate area.

Requirements

The Bachelor of Science with a major in informatics requires a minimum of 120 s.h., including at least 55–59 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. A cumulative GPA of at least 2.00 is required for graduation. Students must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The program combines foundational informatics coursework with coursework in a cognate area. The major offers the cognate areas of bioinformatics, medical informatics, and individualized cognates. Required credit for the major depends on a student's choice of cognate area.

Coursework for the major includes the informatics core, two electives, a statistics course, and a set of courses in the chosen cognate area. Work for the major may not be taken pass/nonpass. Students are expected to have taken MATH:1005 College Algebra or the equivalent.

Students who major in informatics may not also major in computer science, business analytics and information systems, or computer science and engineering. They may, however, earn a minor in computer science.

Departmental Residency Requirement

Students must complete at least five courses (minimum of 15 s.h.) at the University of Iowa from the following: CS:3910 Informatics Project and four additional computer science courses (prefix CS) numbered 2500–4999; these courses are requirements for the BS in informatics as listed below.

Program Requirements

The BS with a major in informatics requires the following coursework. Enrollment in many courses for the major requires a minimum grade of C-minus in prerequisite courses.

Requirements	Hours
Informatics Core Courses	19
Informatics Electives	6
Statistics Course	3
Cognate Courses	27-31

Informatics Core

The informatics core consists of six required computing courses (19 s.h.) that emphasize data manipulation, databases, and networking. It provides more applications-oriented content than the traditional computer science curriculum yet is designed to offer students a sound basis in underlying computer science themes and techniques.

Course #	Title	Hours
All of these:		
CS:1110	Introduction to Computer Science	3
CS:2110	Programming for Informatics	4
CS:2420	Analyzing Data for Informatics	3
CS:2520	Human-Computer Interaction for Informatics	3

CS:2620	Server-Side Development for Informatics	3
CS:3910	Informatics Project	3

Informatics Electives

Students must complete at least 6 s.h. in two computer science courses (prefix CS) numbered 3000–4999, excluding CS:3910 and CS:4510; they may count up to 3 s.h. from CS:3990 Honors in Computer Science or Informatics. Course selection must be approved by an informatics advisor. Students may have additional choices from the Department of Electrical and Computer Engineering and the Department of Business Analytics; consult an informatics advisor for additional choices.

Statistics Course

Students must complete one introductory statistics course. Some cognates require a specific statistics course. Students should consult with their advisors to choose a statistics course appropriate for their cognate area.

Course #	Title	Hours
One of these:		
STAT:2010	Statistical Methods and Computing	3
STAT:3510	Biostatistics	3

Cognates

Students must complete all requirements listed under one of the following cognate areas: bioinformatics, medical informatics, or an individualized cognate.

Bioinformatics

The informatics major with the bioinformatics cognate requires a minimum of 58 s.h. of work for the major, including 30 s.h. in cognate courses. The bioinformatics cognate is intended for students interested in applications of computing to the biological sciences. It may lead to careers in laboratory research, biotechnology, data management, and other related areas. It may also prepare students for graduate programs in bioinformatics or genetics. Cognate courses are drawn primarily from biology and chemistry.

Course #	Title	Hours
All of these:		
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
BIOL:2512	Fundamental Genetics	4
BIOL:3172	Evolution	4
Two of these:		
BIOL:2673	Ecology	3
BIOL:3212	Bioinformatics for Beginners	3
BIOL:3314	Genomics	3

Medical Informatics

The informatics major with the medical informatics cognate requires a minimum of 56 s.h. of work for the major, including at least 28 s.h. in cognate courses. The medical informatics cognate is intended for students interested in applications of computing to health care, especially in a clinical setting. It may lead to careers in medical or hospital settings, graduate programs in medical informatics, or professional degree programs in medicine, dentistry, nursing, or other allied health professions. Cognate courses are drawn from biology, chemistry, health, sport, and human physiology, and public health.

Students who choose the medical informatics cognate must satisfy the major's statistics requirement with either STAT:2010 Statistical Methods and Computing or STAT:3510 Biostatistics.

Course #	Title	Hours
All of these:		
BIOL:1411 & BIOL:1412	Foundations of Biology and Diversity of Form and Function	8
CHEM:1110 & CHEM:1120	Principles of Chemistry I and Principles of Chemistry II	8
CHEM:2210 & CHEM:2220	Organic Chemistry I and Organic Chemistry II	6
At least two of these:		
BIOL:2512	Fundamental Genetics	4
BIOL:3172	Evolution	4
CHEM:2410	Organic Chemistry Laboratory	3
HHP:2100	Human Anatomy	3
HMP:4000	Introduction to the U.S. Health Care System	3

Individualized Cognates

Students interested in developing individualized cognates may work with an informatics advisor. Individualized cognates may be drawn primarily from one department or an appropriate mix of departments; they require an approved set of cognate courses totaling 27–31 s.h.

Early Admission to the Graduate College

Undergraduate informatics students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

Combined Programs

BS/MS in Informatics (Geoinformatics, Health Informatics, or Human-Computer Interaction Subprogram)

Students majoring in informatics who are interested in earning a master's degree in informatics may apply to the combined BS/MS program (bioinformatics or medical informatics subprogram) offered by the College of Liberal Arts and Sciences and the Graduate College. The program enables students to begin graduate-level study of informatics before they complete their bachelor's degree. Students are able to complete both degrees in less time than if they were to complete the two degrees separately.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For more information about the graduate degree program, see the MS in informatics [p. 1753] (Graduate College) in the catalog.

Honors

Honors in the Major

Students majoring in informatics have the opportunity to graduate with honors in the major. They must maintain a minimum UI cumulative grade-point average (GPA) of 3.33 and a minimum major GPA of 3.50; additionally, students complete 4–6 s.h. of CS:3990 Honors in Computer Science or Informatics and submit an acceptable honors thesis or project. At any time, students can communicate to the computer science professional advisor that they have an honors interest and can have that designation placed on their academic record.

A student is responsible for finding a faculty member willing to supervise the honors project. The student can register for CS:3990 Honors in Computer Science or Informatics under the project supervisor's name once the faculty member approves the proposed project and a timetable for the work. Once that is accomplished, the student must then communicate with the Department of Computer Science honors director, who changes the student's status to denote the student is pursuing honors in the major. It is not necessary to have declared an honors interest before finding a thesis supervisor and beginning to pursue honors in the major, but the student must be coded as pursuing honors prior to completing the application for degree.

An honors project can be completed in one semester, but it usually takes two semesters to complete. In the final semester, a student must register for CS:3999 Computer Science or Informatics Honors Cohort. The honors thesis/project must be approved by the thesis supervisor and then submitted to the honors director who will give initial approval that the student can graduate with honors in the major. Final approval is given after final grades are submitted and all requirements are met. For more details regarding project requirements, see Honors in Computer Science on the department's website.

University of Iowa Honors Program

In addition to honors in the major, students can pursue honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the informatics major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning coursework.

For more information, contact the Department of Computer Science honors director.

Career Advancement

Informatics graduates work in a broad range of market sectors, reflecting the interdisciplinary nature of the program and the large number of available cognates. Students will have technical skills along with a specialty area that can help them pursue a specific type of organization or interest field. Here are just a few of the areas that informatics graduates have pursued: software development, database and/or web administration, data analysis, software support (IT), user interface/user experience design (the human-computer interaction cognate is useful for this area), and health care information (the health informatics cognate is useful for this area).

A recent job placement survey indicates that more than 90% of University of Iowa informatics graduates have a job, are continuing education, or are not seeking employment within six months of graduation.

View post-graduation data on the Pomerantz Career Center website, which uses University of Iowa placement information to explore what recent informatics alumni are doing, including median salaries, job titles, companies of employment, and other facts about UI graduates.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to BS students majoring in informatics. Students work with their advisors on individual graduation plans.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in chemistry courses requires completion of a placement exam.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Choose from STAT:2010 or STAT:3510.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

g Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

i Computer science course (prefix CS) numbered 3000-4999, including CS:3990 for 3 s.h., but excluding CS:3910 and CS:4510.

j Students must choose from BIOL:2673, BIOL:3212, or BIOL:3314.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Computer Science, Minor

Requirements

The undergraduate minor in computer science requires a minimum of 17 s.h. in computer science coursework, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students excused from courses required for the minor may substitute other computer science electives. Enrollment in many courses for the minor requires a minimum grade of C- minus in prerequisite courses.

Students who major in informatics may earn a minor in computer science. Students majoring in computer science, computer science and engineering, or data science may not minor in computer science.

The minor in computer science requires the following coursework.

Course #	Title	Hours
All of these:		
CS:1210	Computer Science I: Fundamentals	4
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
CS:3330	Algorithms	3
One of these:		
CS:3210	Programming Languages and Tools	3
CS:3980	Topics in Computer Science I	3

Students who have completed ENGR:1300 Introduction to Engineering Computing and ENGR:2730 Computers in Engineering are considered to have satisfied the minor's requirement for CS:1210 Computer Science I: Fundamentals.

Students may declare the computer science minor and request an audit for the minor on MyUI.

Informatics, Minor

Requirements

The undergraduate minor in informatics requires a minimum of 16 s.h., including at least 12 s.h. in courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students who major in computer science, data science, computer science and engineering, electrical engineering (computer track), or business analytics and information systems may not earn a minor in informatics.

The minor in informatics requires the following coursework. Enrollment in many courses for the minor requires a minimum grade of C-minus in prerequisite courses.

Course #	Title	Hours
Both of these:		
CS:1110	Introduction to Computer Science	3
CS:2110	Programming for Informatics	4
Two of these:		
CS:2420	Analyzing Data for Informatics	3
CS:2520	Human-Computer Interaction for Informatics	3
CS:2620	Server-Side Development for Informatics	3
One of these:		
PSY:2811	Research Methods and Data Analysis in Psychology I	3
STAT:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2010	Statistical Methods and Computing	3
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3120	Probability and Statistics	4
STAT:3510	Biostatistics	3
STAT:4143	Introduction to Statistical Methods	3

Students may declare the informatics minor and request an audit for the minor on MyUI.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Informatics, Minor

Course	Title	Hours
Academic Career		
Any Semester		
The informatics minor requires a minimum of 16 s.h. of coursework, including at least 12 s.h. of courses taken at the University of Iowa.		
Students must earn a C-minus minimum grade in prerequisite courses to advance to the subsequent course.		
Several informatics courses are offered only in the fall or spring terms.		
For assistance sequencing the minor given the irregular course offerings and prerequisite structure, see the computer science departmental advisor.		
	Hours	**0**
First Year		
Fall		
CS:1110	Introduction to Computer Science	3
	Hours	**3**
Spring		
CS:2110	Programming for Informatics	4
	Hours	**4**
Second Year		
Fall		
Minor: statistics course [a]		3 - 4
	Hours	**3-4**
Spring		
CS:2420	Analyzing Data for Informatics [b]	3
	Hours	**3**
Third Year		
Spring		
CS:2520	Human-Computer Interaction for Informatics [b]	3
	Hours	**3**
	Total Hours	**16-17**

a Choose from PSY:2811, STAT:1020, STAT:1030, STAT:2010, STAT:2020, STAT:3120, STAT:3510 or STAT:4143. Some statistics options require specific math prerequisites. See academic advisor for more information.

b Need two of these: CS:2420 (spring only, requires a statistics prerequisite), CS:2520 (spring only), CS:2620 (fall only); check MyUI for course availability since offerings are subject to change.

Master of Computer Science, MCS

The Master of Computer Science (MCS) is a course-based program for students who wish to enhance their careers with advanced knowledge of computer science. The MCS program does not include a thesis requirement.

Current and prospective graduate students should consult the Computer Science Graduate Handbook, available from the department's office and its website. The handbook provides detailed information about specific degree requirements, such as required courses, examinations, and dissertation requirements.

Learning Outcomes

Students gain:

- in-depth and up-to-date knowledge of concepts and/or technologies covering a breadth of computer science;
- problem-solving expertise in the context of the areas covered;
- a grounding in theoretical aspects of computer science; and
- exposure to cutting-edge research.

Requirements

The Master of Computer Science (MCS) requires a minimum of 32 s.h. of graduate credit, including at least 24 s.h. earned at the University of Iowa. Students must maintain a UI cumulative grade-point average of at least 2.75. Consult the Computer Science Graduate Handbook for detailed information about MCS requirements and graduate study policies.

The Master of Computer Science requires the following coursework.

Theory

Course #	Title	Hours
One of these:		
CS:4330	Theory of Computation	3
CS:4350	Logic in Computer Science	3
CS:4980	Topics in Computer Science II (if topic is approved by the director of graduate studies)	3
CS:5340	Limits of Computation	3
CS:5350	Design and Analysis of Algorithms	3
CS:5360	Randomized Algorithms	3
CS:5370	Computational Geometry	3
CS:5850	Programming Language Foundations	3
CS:5860	Lambda Calculus and Applications	3

Algorithms

Course #	Title	Hours
This course:		
CS:4310	Design and Implementation of Algorithms	3

Colloquium

Students are graded on a satisfactory/unsatisfactory (S/U) basis. They must attend at least 80% of scheduled talks to earn a satisfactory grade in the course.

Course #	Title	Hours
This course:		
CS:6000	Research Seminar: Colloquium Series (taken twice for 1 s.h. each)	2

Electives

Students complete their remaining 24 s.h. (eight additional courses) with a combination of computer science graduate courses, research and project courses, and non-computer science graduate courses approved by their advisor. The choice of electives must satisfy the following constraints.

- At least six courses (18 s.h.) must be classroom-based computer science graduate courses numbered 4300 or above, excluding CS:5110 Introduction to Informatics, CS:5990 Individualized Research or Programming Project, CS:6000 Research Seminar: Colloquium Series, CS:6990 Readings for Research, and CS:7990 Research for Dissertation.
- At most, one offering of CS:5990 Individualized Research or Programming Project may be taken. This course is an excellent option for students interested in exploring an area in computer science beyond that provided by computer science classroom-based courses. Students interested in pursuing a PhD usually benefit from taking CS:5990.
- At most, two technical courses (approved by the advisor) that are not computer science graduate courses may be taken. For students who want to take courses outside the department, those in mathematics, statistics, electrical engineering, industrial engineering, and management sciences are some popular options. Students may also include one computer science course taken during their first year in the MCS program from these: CS:3620 Operating Systems, CS:3640 Introduction to Networks and Their Applications, or CS:3820 Programming Language Concepts.

Software Engineering Subprogram

The Department of Computer Science, with the Department of Electrical and Computer Engineering, offers an MCS subprogram in software engineering. Students receive a software engineering subprogram designation on their transcript after they complete CS:5800 Fundamentals of Software Engineering, CS:5810 Formal Methods in Software Engineering, CS:5820 Software Engineering Languages and Tools, and CS:5830 Software Engineering Project, and earn their MCS degree. Students should meet with the academic services coordinator to file the appropriate paperwork when they apply for the degree if they did not originally declare their intent to complete the software engineering subprogram.

Admission

Admission decisions are based on prior academic performance, letters of reference, and the applicant's statement about background and purpose. Applicants must meet the admission requirements of the Graduate College;

see the Manual of Rules and Regulations on the Graduate College website.

A version of the BA/MCS combined program is available for Grinnell College undergraduate students pursuing a BA degree in computer science who want to earn the MCS at the University of Iowa.

Career Advancement

Students pursue software design and development careers in the technology sector, including UIX, mobile, and web development. Recent graduates hold positions at technology giants such as Microsoft, Google, Yahoo, or Intel, while others have taken positions in internationally established organizations whose primary business lies in the consulting, financial, health care, insurance, or media/entertainment sectors. A few MCS students enter the start-up market or pursue additional graduate education leading to the PhD at the University of Iowa or elsewhere.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Master of Computer Science, MCS

Course	Title	Hours
Academic Career		
Any Semester		
32 s.h. must be graduate level coursework; up to 8 s.h. of graduate transfer credits allowed upon approval. Students choose graduate level coursework from an approved list of courses; more information is included in the General Catalog and on department website. [a]		
	Hours	**0**
First Year		
Fall		
CS:4310	Design and Implementation of Algorithms	3
CS:6000	Research Seminar: Colloquium Series [b]	1

Elective course (possibly CS:5990 Indiv Research or Programming Project) [c]		3
Elective course [c]		3
	Hours	**9**
Second Year		
Fall		
Elective course (possibly non-CS technical course) [c]		3
Elective course [c]		3
Elective course [c]		3
	Hours	**9**
Spring		
CS:6000	Research Seminar: Colloquium Series [b]	1
Elective course [c]		3
Final Exam [e]		
	Hours	**4**
	Total Hours	**32**

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Students must enroll twice for 1 s.h. each semester and attend at least 80% of scheduled talks for a satisfactory grade.

c See General Catalog and department website for specifics about elective coursework requirements; at least 18 s.h. must be computer science graduate coursework numbered 4300 or above; remaining 6 s.h. may be a combination of CS or non-CS graduate coursework, research and project courses.

d See General Catalog and department website for list of approved courses.

e Confirm completion of degree requirements.

Computer Science, MS

The Master of Science in computer science is offered only to students working toward the PhD in computer science. Students who are interested primarily in a master's degree and who do not intend to pursue a more advanced degree should apply to the Master of Computer Science [p. 316] (MCS) program. Students are not directly admitted to this degree program. For more information about program admission options, please contact the program.

Current and prospective graduate students should consult the Computer Science Graduate Handbook, available from the department's office and its website. The handbook provides detailed information about specific degree requirements, such as required courses, examinations, and dissertation requirements.

Learning Outcomes

Students gain:

- broad, up-to-date knowledge of computer science;
- fluency in reading, analyzing, synthesizing, and communicating research;
- a good understanding of a research area, its methods, and major open problems; and
- awareness of computing research ethics.

Requirements

Students should view the requirements for the PhD in computer science [p. 319]; the MS is offered only to students working toward the PhD in computer science. The MS requires a minimum of 32 s.h. of graduate credit.

Admission

The Department of Computer Science does not admit students to the Master of Science degree program; only to the Master of Computer Science (MCS) or Doctor of Philosophy (PhD) degree programs. Students who are interested primarily in a master's degree and who do not intend to pursue a more advanced degree should apply to the Master of Computer Science [p. 316] (MCS) program.

Computer Science, PhD

The Doctor of Philosophy program in computer science emphasizes preparation for research and teaching in academic settings or for research in private, industrial, or government laboratories.

Current and prospective graduate students should consult the Computer Science Graduate Handbook, available from the department's office and its website. The handbook provides detailed information about specific degree requirements, such as required courses, examinations, and dissertation requirements.

Learning Outcomes

Students gain:

- broad, up-to-date knowledge of computer science;
- fluency in reading, analyzing, synthesizing, and communicating research;
- a thorough understanding of a research area and its major open problems;
- awareness of computing research ethics; and
- experience performing original research advancing the state of knowledge in an area of computer science.

Requirements

The Doctor of Philosophy program in computer science requires a minimum of 72 s.h. of graduate credit, four examinations (qualifying, comprehensive, dissertation proposal, and final), and a written dissertation. Students must maintain a UI cumulative grade-point average of at least 3.00. Consult the Computer Science Graduate Handbook for detailed information about PhD requirements and graduate study policies.

Basic PhD requirements are as follows.

Core Requirements

Course #	Title	Hours
This course:		
CS:5350	Design and Analysis of Algorithms	3
And one of these:		
CS:4330	Theory of Computation	3
CS:5340	Limits of Computation	3

Breadth

Students must complete at least three of the following courses, with at least one course selected from each area (9 s.h.).

Systems and Software

Course #	Title	Hours
CS:4640	Computer Security	3
CS:4980	Topics in Computer Science II (section approved by the director of graduate studies)	3
CS:5610	High Performance Computer Architecture	3

Networks and Distributed Systems

Course #	Title	Hours
CS:4980	Topics in Computer Science II (section approved by the director of graduate studies)	3
CS:5620	Distributed Systems and Algorithms	3
CS:5630	Cloud Computing Technology	3

Programming Languages and Compilers

Course #	Title	Hours
CS:4980	Topics in Computer Science II (section approved by the director of graduate studies)	3
CS:5810	Formal Methods in Software Engineering	3
CS:5850	Programming Language Foundations	3
CS:5860	Lambda Calculus and Applications	3

With departmental approval, new courses or specific section offerings of CS:4980 Topics in Computer Science II may also satisfy a given area requirement.

Practice

Students must complete at least one 3 s.h. course with significant practical or implementation-oriented content. Each semester the department designates courses that satisfy this requirement. The following are typical selections.

Course #	Title	Hours
CS:4400	Database Systems	3
CS:4420	Artificial Intelligence	3
CS:4440	Web Mining	3
CS:4470	Health Data Analytics	3
CS:4500	Research Methods in Human-Computer Interaction	3
CS:4630	Mobile Computing	3
CS:4700	High Performance and Parallel Computing	3
CS:4720	Optimization Techniques	3
CS:4980	Topics in Computer Science II (section approved by the director of graduate studies)	3
CS:5800	Fundamentals of Software Engineering	3
CS:5990	Individualized Research or Programming Project	3

Cognate Area

In consultation with their advisor, students are required to select three courses, totaling 9 s.h. or more, that constitute coherent coverage of an external cognate area; the courses need not be offered by the same department. Choices include, but are not limited to, mathematics, statistics, genetics, biology, and engineering disciplines.

Colloquium

Students must earn at least 4 s.h. in the following.

Course #	Title	Hours
CS:6000	Research Seminar: Colloquium Series (taken at least four times for 1 s.h. each)	4

Responsible Conduct of Research Requirement

Students must complete this course within their first two years; it is offered in spring semesters.

Course #	Title	Hours
CS:5980	Topics in Computer Science III (Responsible Conduct of Research)	1 s.h.

Electives

Students fill their remaining semester hours with a selection of computer science graduate courses numbered 4300 or above and graduate courses outside of the Department of Computer Science, approved by their advisor.

Qualifying Exam

Students are required to pass a qualifying examination by the end of their second year of graduate study. Once students select a topic in consultation with their advisor, they are assigned a three-member faculty examination panel by the department. Then they prepare a written prospectus for review by the committee, followed by an oral presentation.

Comprehensive Exam

The comprehensive examination is an evaluation of a student's mastery of a research area near completion of formal coursework and before the preparation of the dissertation. The exam may be written, oral, or both, at the department's discretion, and is administered by a faculty committee. The comprehensive exam typically should be completed by the end of a student's third year and no later than the end of the fourth year in the PhD program.

Dissertation Proposal

At least six months prior to the final exam, a student must form a dissertation committee and circulate a formal thesis proposal to the committee. The proposal should describe the research performed to date and related work, and outline the expected thesis results. A student must argue the originality and significance of the expected results to the committee in a manner consistent with the advisor's counsel, which may or may not include an oral presentation.

Possible outcomes of a thesis proposal are that the committee finds the proposal satisfactory; the committee suggests modifications, and within a few weeks after the proposal defense, the student and committee reach a consensus by email or in face-to-face meetings on a modified set of expected thesis results; or the committee asks the student to redo their proposal, likely with a fresh proposal document and oral presentation, giving the student enough time to address the committee's concerns.

Dissertation

Each student must write a dissertation, a significant, original contribution to the field of computer science. The dissertation must be prepared in accordance with the format specified on the Graduate College Thesis and Dissertation website.

Final Oral Examination

Once the dissertation is complete and has been reviewed by the student's committee, a final oral examination is administered. This examination must take place no sooner than the semester following the successful completion of the comprehensive examination and no later than five years after completion of the comprehensive exam.

Admission

Admission decisions are based on prior academic performance, letters of reference, and the applicant's statement about background and purpose. Scores on the Graduate Record Examination (GRE) General Test are considered if applicants choose to include them. Students need not have a master's degree to begin the PhD program. Students admitted without a master's degree may choose to be granted an MS or the MCS while working toward the doctorate.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Many graduates obtain positions in industry research laboratories, such as Amazon, Disney, Google, Samsung, and Yahoo, or in government research laboratories. Others pursue research and teaching careers in higher education, with some starting their careers in postdoctoral positions at universities before seeking employment in tenure-track positions, and some are employed as faculty with more teaching-oriented positions. A few recent PhD graduates have founded or joined start-up companies.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

c Students must enroll four times for 1 s.h. each semester and attend at least 80% of scheduled talks for a satisfactory grade.

d Students must complete at least three courses (9 s.h.), with at least one course from each of the following areas: systems and software, networks and distributed systems, programming languages and compilers; see General Catalog and department website for list of approved courses.

e Students must complete this course during first two years; typically offered in spring semesters. Note: this course does not count toward degree requirements.

f Students must complete at least one course (3 s.h.) with significant practical or implementation-oriented content; see General Catalog and department website for list of approved courses.

g Taken before the end of second year; see General Catalog and department website for specifics.

h In consultation with their advisor, students are required to select three courses, totaling 9 s.h. or more, that constitutes coherent coverage of an external cognate area; the courses need not be offered by the same department. Choices include, but are not limited to, mathematics, statistics, genetics, biology, and engineering disciplines.

i See General Catalog and department website for specifics about elective coursework requirements; may be a combination of thesis hours, directed readings, or CS graduate or non-CS graduate coursework. Work with faculty advisor to determine appropriate graduate coursework and sequence.

j Taken before the end of third year; see General Catalog and department website for specifics.

k Usually takes place six months prior to doctoral final exam.

l Oral dissertation defense.

Creative Writing (Iowa Writers' Workshop)

Interim Director

- Mark Levine

Graduate degree: MFA in English

Faculty: https://writersworkshop.uiowa.edu/faculty

Website: https://writersworkshop.uiowa.edu/

The Creative Writing Program (Iowa Writers' Workshop) is a world-renowned graduate program for fiction writers and poets. Founded in 1936, it was the first creative writing program in the United States to offer a degree, and it became a model for many contemporary writing programs. In addition to its Master of Fine Arts program, it also offers writing courses for undergraduates.

The Iowa Writers' Workshop has been home to thousands of remarkable writers, including Flannery O'Connor, Raymond Carver, Rita Dove, John Irving, James Alan McPherson, Philip Levine, Jane Smiley, Michael Cunningham, Sandra Cisneros, Marilynne Robinson, Denis Johnson, Mark Levine, Jorie Graham, Charles D'Ambrosio, Ann Patchett, Lan Samantha Chang, Margot Livesey, D.A. Powell, Nathan Englander, Yiyun Li, Elizabeth Willis, Eleanor Catton, Angela Flournoy, Garth Greenwell, Jamel Brinkley and Yaa Gyasi. The program's faculty and alumni include winners of virtually every major literary award, including thirty winners of the Pulitzer Prize, eight recent U.S. Poets Laureate, and numerous winners of the National Book Award, MacArthur Foundation Fellowships, and other major honors. In 2003, the Iowa Writers' Workshop received a National Humanities Medal from the National Endowment for the Humanities—the first awarded to a university and only the second given to an institution rather than an individual.

The Creative Writing Program offers courses for students from other programs of study; summer courses are open to undergraduate and graduate students.

To learn more about the Creative Writing Program's history and faculty, visit the Iowa Writers' Workshop website.

English, MFA

The Iowa Writers' Workshop offers an MFA degree in English with a subprogram in creative writing. The MFA is administered by the Department of English.

Occasionally well-qualified PhD students in the Department of English may obtain permission to submit a creative dissertation for the doctoral degree; the creative writing program assumes responsibility for granting permission for the option of the creative dissertation and for approving the dissertation once it is completed. Contact the director of graduate studies in the Department of English for more information.

Learning Outcomes

Graduates will:

- develop expertise in the art of writing through practical, immersive engagement with techniques and principles of craft in fiction or poetry;
- build deep knowledge and broad appreciation of the literary landscape through immersive engagement with diverse literary traditions;
- gain practical experience teaching literature, rhetoric, and/or creative writing at the college level;
- create and revise a significant body of top-level creative work in fiction or poetry;
- develop a strong individual artistic vision; and
- gain exposure to a wide range of career options in both academic and non-academic literary disciplines.

Requirements

The Master of Fine Arts degree in English (creative writing) requires 48 s.h. of graduate credit taken over four semesters in residence at the University of Iowa. Students must maintain a UI cumulative grade-point average of 2.75.

Students specialize in fiction or poetry. Up to 18 s.h. of graduate transfer credit may be counted toward the degree.

The MFA in English with a creative writing subprogram requires the following coursework.

Required Workshops

Course #	Title	Hours
One of the these:		
CW:7870	Fiction Workshop (taken four times for 1-6 s.h. each)	4-24
CW:7875	Poetry Workshop (taken four times for 1-6 s.h. each)	4-24

Students must enroll in one of these workshops during each semester of residence in the program. In each course, groups of 10–15 students read and critique each other's work.

Elective Courses

In conjunction with an advisor, students select courses that align with their creative research interests. The program is flexible and individualized. Elective coursework may be selected from any course subject numbered 3000 or above and must bring the total credit for the MFA to 48 s.h.

The program's seminars provide students with a thorough knowledge of their chosen literary form and related aspects of craft. Seminars include CW:7810 Form of Fiction, CW:7820 Form of Poetry, CW:7830 Seminar: Problems in Modern Fiction, and CW:7840 Seminar: Problems in Modern Poetry. Each focuses on a single aspect of modern poetry or fiction, such as a single writer's work or a body of work with a common theme or purpose.

In addition to taking creative writing program courses, MFA students can choose courses offered by other University of Iowa departments and programs, such as the Center for the Book (Graduate College), and the departments of Theatre Arts, Languages, Linguistics, Literatures, and Cultures [p. 659], and English (College of Liberal Arts and Sciences).

Examination and Thesis

During the second year of the program, each student must take the MFA examination, an essay exam that may be written outside of the classroom. Students also enroll in CW:7895 MFA Thesis for a maximum of 12 s.h. and submit their graduate thesis during the last semester; the thesis is a fiction or poetry manuscript of substantial length.

Admission

Applicants to the Iowa Writers' Workshop must meet the program's admission requirements as well as those of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

A creative writing manuscript is the most important element of the application for admission to the workshop. Submissions for poetry should include 10–12 poems. Submissions for fiction should include two or three short stories, several sections of a novel, or a combination of those. Submissions are typically 30–80 double-spaced pages, and may not exceed 80 double-spaced pages.

Other application materials include a personal statement, official transcripts from all universities and colleges attended, the graduate application form, three letters of recommendation, an application for graduate awards, and an application to the Graduate College.

For detailed information on application materials and procedures, see How to Apply on the Iowa Writers' Workshop website.

Critical Cultural Competence

Director, School of Social Work

- Miriam J. Landsman

Coordinator, Critical Cultural Competence

- Yolanda D. Spears (Social Work)

Undergraduate certificate: critical cultural competence

Website: https://socialwork.uiowa.edu/undergraduate/certificate-critical-cultural-competence

The certificate program helps students develop an appreciation for their own cultural identities. It also helps them become critically self-reflective in their orientation to differences in other people's cultural identities as defined by matters such as race, ethnicity, gender, class, abilities, age, and sexual orientation.

Certificate students build the knowledge, skills, and attitudes they will need in order to increase their effectiveness in relating to others across cultural differences and in domestic and international environments that are increasingly diverse.

Students who complete the certificate program develop:

- a greater appreciation of cultural differences;
- increased ability to interact with individuals of diverse backgrounds;
- a philosophy of treating people fairly, equitably, and thoughtfully;
- critical self-reflection and awareness of their own culture;
- ability to assess and understand culture-related privilege and disprivilege;
- concern with issues of power, privilege, and social justice; and
- marketable skills that will give them a competitive edge in their future endeavors.

Students can schedule a meeting with their advisor or the coordinator of the certificate to determine how earning the certificate will add vital skillsets to their major/degree.

The Certificate in Critical Cultural Competence is administered by the School of Social Work [p. 998].

Programs

Undergraduate Program of Study

Certificate

- Certificate in Critical Cultural Competence [p. 325]

Courses

Critical Cultural Competence Courses

CCCC:2220 Foundations of Critical Cultural Competence **3 s.h.**
Experiential and theoretical foundation; cultural competence as a concept and practice; conceptual frameworks and models for understanding cultural differences and similarities within, among, and between groups of people with whom others interact in their professional, personal, public, and private lives; appreciating differences while learning to be self-reflective; adjustment of perceptions, behaviors, styles for effective interaction with people from different ethnic, racial, sexual, gender, age, ability, and class groups. GE: Understanding Cultural Perspectives.

CCCC:4490 Integrative Seminar in Critical Cultural Competence **3 s.h.**
Capstone course; application of knowledge to one's areas of study; community settings where cultural competence is required; challenges and benefits of behaving in culturally competent ways in varied contexts; review and critique of educational experiences in the certificate program; development of skills in community education related to cultural competence; group project to benefit the university and/or community; development of a plan to integrate critical cultural competence into careers. Requirements: completion of other required certificate courses. Same as SSW:4490.

Critical Cultural Competence, Certificate

Faculty: https://socialwork.uiowa.edu/people/yolanda-spears

Requirements

The undergraduate Certificate in Critical Cultural Competence requires 18 s.h. of coursework. Students must maintain a grade-point average of at least 2.00 in work for the certificate. Ideally, students begin the certificate during their second year of undergraduate study.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

The Certificate in Critical Cultural Competence requires the following coursework.

Course #	Title	Hours
CCCC:2220	Foundations of Critical Cultural Competence (taken first)	3
CCCC:4490	Integrative Seminar in Critical Cultural Competence	3
One elective course with an immersion-learning or service-learning component		3
Three elective courses that cover at least two diversity categories (two courses can be taken from the same department and two must be numbered 2000 or above)		9
Total Hours		**18**

Students begin the certificate with CCCC:2220 Foundations of Critical Cultural Competence, which is offered fall and spring semesters and is a prerequisite to the coursework that follows. Students complete the certificate's requirements with the capstone course, CCCC:4490 Integrative Seminar in Critical Cultural Competence, which is offered in spring semesters.

In collaboration with the certificate program's coordinator, students establish study plans while completing the foundation course. The coordinator works with the student to ensure that the study plan complements the student's academic program and career interests.

For more information, students may contact the School of Social Work, their advisor, or the certificate coordinator to determine how the certificate would contribute to their degree.

Dance

Chair

- Rebekah J. Kowal

Undergraduate major: dance (BA, BFA)

Undergraduate minor: dance

Graduate degree: MFA in dance

Faculty: https://dance.uiowa.edu/people

Website: https://dance.uiowa.edu/

The Department of Dance provides comprehensive training in dance technique, performance, choreography, and theoretical studies while approaching scholarship, creative research, and studio-based training in the framework of a liberal arts education at the Bachelor of Arts, Bachelor of Fine Arts, and Master of Fine Arts levels. Integrating dance studies with the liberal arts and sciences, the dance degree programs promote creative and intellectual growth in an environment that develops young artists and advances the art of dance.

The undergraduate major prepares students for careers as performers, choreographers, and educators as well as for graduate studies in dance and related fields. The MFA curriculum broadens and deepens the knowledge and experience of returning professionals seeking to reenter the field or secure positions in higher education.

The Department of Dance imparts the values and knowledge necessary to empower students as they create unique paths forward. Students develop as young artists, creative thinkers, and problem solvers who may further the arts in society in diverse, urgent, and transformational ways.

The department offers 10 concerts each year on average, providing dance students with numerous opportunities to perform and/or to present their choreography; visit the Dance Callboard for more information on performances and auditions. The department's annual Dance Gala presents original faculty choreography as well as work by a distinguished guest artist with undergraduate and graduate students performing. UI Dance Company, the department's student repertory company, engages with the Iowa City community and performs around Iowa and the Midwest.

All dance faculty members regularly present and publish their choreography or scholarship nationally and internationally. Students have ample opportunities to work with faculty on their creative and scholarly research. Periodic master classes with noted guest teachers, choreographers, and touring companies introduce students to contemporary artists and provide opportunities for professionalization and networking.

Students have the opportunity to earn a major in dance and a second major in another of the university's programs, including one of the other performing arts units—music or theatre arts. Faculty and advisors guide students in combining their rigorous dance education with many other disciplines. Dance graduates work in the dance profession and also establish careers in a range of professional fields, such as arts administration and production, education, business, the health sciences, law, and engineering.

Programs

Undergraduate Programs of Study

Majors

- Major in Dance (Bachelor of Arts) [p. 334]
- Major in Dance (Bachelor of Fine Arts) [p. 339]

Minor

- Minor in Dance [p. 344]

Graduate Program of Study

- Master of Fine Arts in Dance [p. 346]

Facilities

The Department of Dance houses six dance studios, a media classroom, an audio recording laboratory, a costume shop, and its own 220-seat theater for dance concerts.

Courses

Dance Courses

DANC:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

DANC:1010 Beginning Tap **3 s.h.**
Elementary techniques, steps, and performance skills for rhythm and show tap styles; enhancement of rhythmic ability through exercises, improvisation, and creative activities; concert attendance, reading assignments, reflective and analytical writing; historical origins of dance form. Tap shoes required. GE: Literary, Visual, and Performing Arts.

DANC:1020 Beginning Jazz **3 s.h.**
Basic movement fundamentals, terminology, performance skills of jazz dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; concert attendance, reading assignments, reflective and analytical writing; historical origins of dance form. GE: Literary, Visual, and Performing Arts.

DANC:1025 Beginning Hip Hop Dance **3 s.h.**
Foundations of hip hop dance and street dance culture; movement participation is central to learning; students are challenged and encouraged to understand and apply foundational and historical knowledge of hip hop; concert attendance, reading assignments, reflective and analytical writing; historical origins of dance form. GE: Literary, Visual, and Performing Arts.

DANC:1030 Beginning Ballet 3 s.h.
Basic movement fundamentals, terminology, performance skills of ballet; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; barre and center combinations; terminology; concert attendance, reading assignments, reflective and analytical writing; historical origins of dance form. GE: Literary, Visual, and Performing Arts.

DANC:1040 Beginning Modern Dance 3 s.h.
Basic movement fundamentals, terminology, performance skills of modern dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; concert attendance, reading assignments, reflective and analytical writing; historical origins of dance form. GE: Literary, Visual, and Performing Arts.

DANC:1070 Yoga 3 s.h.
In-depth physical practice of yoga postures; basic yoga philosophy and texts; personal practice of meditation; breathing techniques; for students interested in expanding or beginning yoga practice.

DANC:1075 Mat Pilates 2 s.h.
Basic movement fundamentals of the Pilates system of exercises benefiting body alignment, flexibility, balance, coordination, strengthening, injury prevention, self-awareness, and efficiency of movement; somatic training techniques that achieve conditioning needs of performing artists, athletes, and students at large.

DANC:1090 Dance Production 3 s.h.
Scenic design, costuming, lighting, audio/video, publicity; visits by professional guest lecturers, field trips to creative shops; projects.

DANC:1110 Continuing Tap 3 s.h.
Continuation of performance skills learned in DANC:1010; concert attendance, reading assignments, reflective and analytical writing; historical origins of dance form. GE: Literary, Visual, and Performing Arts.

DANC:1120 Continuing Jazz 3 s.h.
Continuation of DANC:1020; skills for technique and performance of jazz dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; concert attendance, reading assignments, reflective and analytical writing; historical origins of dance form. GE: Literary, Visual, and Performing Arts.

DANC:1125 Continuing Hip Hop Dance 3 s.h.
Continuation of DANC:1025; focus on hip hop and street dance foundations and origins through movement participation; students are challenged and encouraged to understand and apply historical and practical knowledge of hip hop; concert attendance, reading assignments, reflective and analytical writing; historical origins of dance form; for advanced beginning students. GE: Literary, Visual, and Performing Arts.

DANC:1130 Continuing Ballet 3 s.h.
Continuation of DANC:1030; skills necessary for technique and performance of ballet; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; barre and center combinations; terminology; concert attendance, reading assignments, reflective and analytical writing; historical origins of dance form. GE: Literary, Visual, and Performing Arts.

DANC:1150 Brazilian Culture and Carnival 3 s.h.
Dance, music, historical, and social contents of Brazilian Carnival production, critical theories of performance, religious backgrounds, and theatre making in carnival parades. GE: Engineering Be Creative; Values and Society. Same as LAS:1150.

DANC:1170 Functional Anatomy 2 s.h.
Introduction to human anatomy; scientific principles of movement safety and efficiency; survey of somatic practices for better kinesthetic awareness, body organization, and alignment; application of anatomical knowledge to multiple dance techniques.

DANC:1412 The Arts in Performance 3 s.h.
GE: Literary, Visual, and Performing Arts; Values and Society. Same as THTR:1412.

DANC:2020 Intermediate Jazz 3 s.h.
Low-intermediate technique and performance training in jazz dance; flexibility, strength, body alignment, and coordination as foundation for more advanced dance artistry including mobility, musicality, style; warm-up, locomotion, center combinations; concert attendance, reading assignments, reflective and analytical writing; historical origins of dance form. GE: Literary, Visual, and Performing Arts.

DANC:2025 Intermediate Hip Hop Dance 3 s.h.
Continuation of DANC:1125; focus on strengthening and adding to foundations and origins of hip hop and street dance culture; the journey to today's current definitions of hip hop and street dance with introduction to freestyling and groove theory; movement participation is central to learning; students are challenged and encouraged to understand and apply historical and practical knowledge of hip hop at an intermediate level; concert attendance, reading assignments, reflective and analytical writing; historical origins of dance form. GE: Literary, Visual, and Performing Arts.

DANC:2030 Majors Intermediate Ballet 3 s.h.
Concentrated intermediate-level technical and performance training in ballet; topics include flexibility, strength, body alignment, and coordination as a foundation for more advanced dance artistry including more difficult steps, musicality, mobility, and balance; basic ballet terminology including steps, head, body, and arm positions; variations in timing; changes of facing. Requirements: placement by departmental audition.

DANC:2040 Majors Intermediate Contemporary Movement Practices 3 s.h.
Concentrated intermediate-level technical and performance training in contemporary movement practices; topics include flexibility, strength, body alignment, and breath as a foundation for more advanced dance artistry including musicality, mobility, balance, and improvisation; variations in timing; changes of facing. Requirements: placement by departmental audition.

DANC:2050 Introduction to Improvisation and Composition 3 s.h.
Introduction to movement as research; experimental process as vehicle for invention, creative freedom, aesthetic range; development of kinesthetic imagination, awareness, creative problem solving; introduction to issues of artistic originality and authenticity; practical integration of improvisation and composition through spontaneous manipulation of time, space, and energy; knowledge of creative process supported by reading and individual research.

DANC:2060 Dance and Society in Global Contexts 3 s.h.
Dance and other physical endeavors as embodied forms of knowledge and culture; U.S. dance practices; European and African dance cultures; aesthetic and political issues raised by concert dance (i.e., performance, choreography, spectatorship, criticism); ethnographic methods to examine the function of dance in cultural formation (i.e., spiritual, celebratory, social, political contexts); lecture, discussion, viewing, movement workshops, formal and informal writing, field research, and blog construction. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

DANC:2065 Performing Power/Performing Protest: The Body, Identity, and the Image 3 s.h.
What is the relationship between Beyoncé, Jesse Owens, and Thích Quang Duc?—Protest! Each of these cultural figures put their body on the line using protest as performance to challenge power structures, address social equity, and influence social change; students examine historical and contemporary issues of power, identity, and inclusion, situating protest and dissent as key parts of civic engagement through study of music and performance videos, readings, blogs and other media; students are asked to place themselves in a historical continuum where intersections of class, race, gender, and sexuality are considered. GE: Understanding Cultural Perspectives.

DANC:2075 Teaching and Using Creative Dance for Children (K-8) in a Variety of Educational Settings 2 s.h.
Practical and creative approach to understanding and using creative dance as the art of learning by doing, involving all the senses and intelligences; language of movement (i.e., scope, possibilities, movement experiences, resources); guidance and practice in developing comprehensive lesson plans for sequencing, progression, successful presentation, objective observation, and evaluation; creative dance for children and its philosophy, theories, sound pedagogical practices, uses, and benefits; in-class teaching experience and resources for K-8 students.

DANC:2080 Dance and Social Action 3 s.h.
Exploration of dance as a means for civic engagement; readings that support theory and practice of dance as social action; practicum experience of facilitating a workshop to girls at the Iowa Juvenile Home.

DANC:2085 Introduction to African Caribbean Dance Practices 3 s.h.
Introduction to African Caribbean dance with emphasis on ritual, performance, and music; exploration of basic fundamentals of African Caribbean dances from Trinidad and Tobago, Jamaica, Haiti, and Cuba, as well as musical instruments used to accompany these dances; practical dance training; theoretical basis for understanding geographical, historical, sociological, and political contexts in which dances originated. GE: Understanding Cultural Perspectives.

DANC:2150 Brazilian Social Dance: The Samba 3 s.h.
Unique opportunity to actively experience the Samba de Gafieira and samba rock at a low-intermediate level; detailed information and extensive practice to learn social dance skills and choreograph partnering combinations; exposure to historical, social contents, and critical theories of performance; various performative elements related to Afro-Brazilian diaspora; the origins of samba music and its relevance for Brazilian culture.

DANC:2220 Production Run Crew 1 s.h.
Hands-on experience in production work for live dance performance.

DANC:2800 Digital Arts: An Introduction 3 s.h.
Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, CS:2800, DIGA:2800, MUS:2800, THTR:2800.

DANC:2880 Installations and Interactive Performance 3 s.h.
Introduction to aesthetics, techniques, and practical possibilities of fusing together theatre, dance, music/sound, art, design, cinema, gaming, human computer interaction, and engineering; foundations of creating interactive experiences that use digital photos, video, text, real-world objects, sensor data, live bodies moving in space, Kinect 2 sensors, cameras, and multiple video outputs (e.g., projectors, LED displays); use of Isadora, an interactive, node-based programming software, to create immersive mediated performances, interactive installations, embodied user-based experiences, and user-manipulated virtual environments. GE: Engineering Be Creative. Same as DIGA:2880, THTR:2880.

DANC:2890 Producing and Directing Digital Video 3 s.h.
Introduction to basic concepts, theories, and practical applications of digital video production for multiple distribution streams, with focus on aesthetic and technical principles; development of proficiency in contemporary approaches to digital media production by understanding the production pipeline from ideation to preproduction, production, postproduction, and through to distribution. GE: Engineering Be Creative. Same as DIGA:2890, THTR:2890.

DANC:2981 Dance Repertory and Performance 1 s.h.
Students broaden their exposure to contemporary concert dance forms through participation in restaging of existing works by UI faculty and nationally or internationally renowned choreographers; in-depth study of particular dance compositions from training and rehearsal process to performance, with consideration to preservation and stewardship of the work for future performances; opportunities to engage in many roles of creation and restaging process. Prerequisites: DANC:1000.

DANC:3010 Topics in Global Movement Practices 3 s.h.
Beginning, continuing, or advanced technique of global and non-Western movement practices; topics vary, may include Asia, Latin America, Africa, Pacific Islands, or other regions in historical and cultural context, and classical, folk, traditional, or contemporary forms.

DANC:3020 Advanced Jazz 2 s.h.
Advanced technique and performance training in jazz dance; flexibility, strength, body alignment, and coordination as foundation for more advanced dance artistry including mobility, musicality, style; warm-up, locomotion, center combinations; may include history of jazz dance. Requirements: dance major.

DANC:3030 Major Ballet I 1-3 s.h.
Builds on DANC:2030; intermediate technical and performance training in ballet; flexibility, strength, body alignment, and coordination as foundation for introduction of more advanced aspects of dance artistry, including steps, musicality, mobility, balance; terminology related to barre and center vocabulary including steps, head, body, and arm positions; practice of steps and combinations, variations in timing, changes of facing. Requirements: audition or promotion.

DANC:3040 Major Contemporary Movement Practices I 1-3 s.h.
Builds on DANC:2040; intermediate technical and performance training in contemporary movement practices; physical and mental skills for transition to more advanced dance—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing; basic physical concepts underlying clear and efficient movement; assimilation of new movement material; center of gravity and its role in body mobilization and control; personal movement choices and expressive range. Requirements: audition or promotion.

DANC:3050 Body/Image: Dance and Media in Discourse and Practice 3 s.h.
Intersection of body, image, and sound in analog and digital media; relationship to critical and practical texts; written and performative assignments that address fundamental concepts of corporeality in related fields including dance for camera, stage and film performance, and artistic, documentary, and publicity filmmaking and photography.

DANC:3060 Western Concert Dance History: Romantic to Contemporary 3 s.h.
Examination of concert dance practices in the United State and Europe from 19th to 21st centuries; changes in dance compositional, performance, viewing, technical, and training practices situated within aesthetic, cultural, social, and political contexts including the Industrial Revolution, Russian imperial court, World War I and World War II, movements for social justice, and aesthetic formations (e.g., romanticism, classicism, modernism, postmodernism); students consider the work of the historian and methodological approaches to formulating historiographic ideas, and put them into practice in individual research projects focused on historical or contemporary dance makers. Prerequisites: DANC:2060.

DANC:3070 Dance Kinesiology 3 s.h.
Body science related to demands of dance; structural and muscular analysis for efficient, effective dance training and prevention of injuries; investigation of skeletal and ligamentous structure for working knowledge of how the body produces movement; joint actions and restrictions, common injuries to those sites; attachments of the voluntary muscles, pathways and potential actions; neuromuscular analysis of an action; functional skeletal alignment; how individual differences may affect movement performance. Prerequisites: DANC:1170.

DANC:3075 Yoga Teacher Training I 3 s.h.
Exploration of in-depth knowledge of yoga in preparation for teaching through physical practice of yoga postures, study of basic yoga philosophy and texts, personal practice of meditation, yoga for various populations, anatomy of yoga postures, and practice teaching within class structure; two-semester course that results in a 200-hour yoga teacher certification. Requirements: dance major and sophomore or higher standing. Recommendations: prior yoga experience highly recommended.

DANC:3076 Yoga Teacher Training II 3 s.h.
Continuation of DANC:3075; expansion of yoga and/or teaching knowledge, in-depth physical practice of yoga postures, basic yoga philosophy and texts, personal practice of meditation, yoga for various populations, anatomy of yoga postures, and practice teaching within class structure. Prerequisites: DANC:3075. Corequisites: DANC:3070. Requirements: dance major and sophomore or higher standing. Recommendations: experience and knowledge of yoga practice highly recommended.

DANC:3080 Music Essentials for Dance 3 s.h.
Evolution of music and dance forms from early history times to the present; rhythmic analysis and fundamental music theory for dance students.

DANC:3150 Choreography I 3 s.h.
Introduction to theories and practices of creating choreography; locating varied sources for movement; elementary considerations of choreographic form; development of ideas, impulses, and initial inspirations into short works; fundamentals of giving and receiving critical feedback; articulation of thoughts and experience as composers and watchers of choreography; exposure to choreographic concerns supported by video and reading. Prerequisites: DANC:2050.

DANC:3250 Choreography II 3 s.h.
Continuation of DANC:3150; development of intermediate choreographic skills; emphasis on cultivation of individual choreographic voice through expansion of vocabulary, discovery of complex ways to form and arrange, and use of widening range of methods and types of resources. Prerequisites: DANC:2050 and DANC:3150.

DANC:3330 Advanced Contemporary Ballet Practices 3 s.h.
Advanced pre-professional level in contemporary ballet practice with a focus on strength, stamina, and agility for professional auditions. Study of movement phrases of contemporary choreographers to develop familiarity with current trends. Choreographic study includes selected works of Crystal Pite, Kyle Abraham, Alonzo King, other professional choreographers, and pointe study for those interested. Corequisites: DANC:2030 or DANC:3030 or DANC:3530 or DANC:4030. Requirements: BFA in dance major.

DANC:3340 BFA Movement Practices 3 s.h.
Advanced dance technique and performance training in contemporary dance, designed for students pursuing a BFA in dance. Corequisites: DANC:3030 or DANC:3040 or DANC:3530 or DANC:3540 or DANC:4030 or DANC:4040. Requirements: Dance BFA student in first, second or third year of study. Dance BA students may enroll with permission of instructor. Movement styles in the course will vary based on the expertise of the instructor.

DANC:3530 Major Ballet II 3 s.h.
High-intermediate training in ballet technique and performance; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body. Requirements: audition or promotion to determine placement.

DANC:3540 Major Contemporary Movement Practices II 3 s.h.
High-intermediate technical and performance training in contemporary movement practices; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing; basic physical concepts underlying clear and efficient movement; capacity to assimilate new movement material; awareness of the center of gravity and its role in mobilization and control of the body; consciousness of personal movement choices and expressive range. Requirements: audition or promotion to determine placement.

DANC:3600 Art, Feminist Practice, and Social Justice 3 s.h.
Issues specifically related to gender, women's, and sexuality studies through the arts; exploration of a theme—a broad social issue such as violence, sexual assault, incarceration, reproduction, immigration, labor—and work with community partners to address the theme through social practice in the arts. Recommendations: prior courses in gender, women's, and sexuality studies or social work or art education or studio arts.

DANC:3700 Dance Pedagogy: Theories, Issues, and Perspectives 3 s.h.
Overview of educational practices, ethics, and responsibilities in the dance studio for teaching children and adults; educational histories, philosophies, and methodologies for teaching dance in diverse settings; assignments may include readings, classroom observations, teaching demonstrations, and discussions with leaders in the field.

DANC:3710 Topics in Intermedia 4 s.h.
Performance, writing, reading, observation, physical practice, improvisation, and devising methods; development or expansion of physical practices that articulate with current artistic production. Prerequisites: (ARTS:1510 and ARTS:1520 and (CERM:2010 or INTM:2710 or MTLS:2910 or PNTG:2410 or PRNT:2610 or SCLP:2810 or TDSN:2210)) or DANC:2800 or DANC:2050. Same as INTM:3700.

DANC:3750 Dance Internship arr.
Develop skills in a dance or dance-related field. Internships include but are not limited to positions in teaching, administration, production, and performance. Students are tasked with connecting their internship experience to their academic coursework and their future career goals. Requirements: dance major and sophomore standing or higher.

DANC:3851 Introduction to the Alexander Technique 3 s.h.
The Alexander Technique and "self-use"—how movement choices affect results achieved; improvement of physical skills and presence; principles in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting); application to skills in daily life, addressing underpinnings of movement; physical participation (e.g., lying down, rolling, sitting, standing, locomotion). Same as MUS:3851.

DANC:3852 Introduction to the Feldenkrais Method: Posture, Perception, and Pain Relief 3 s.h.
Introduction to the Feldenkrais Method of Awareness Through Movement; refinement of physical organization and coordination applied toward ordinary actions and functions, as well as athletics and performing arts; non-repetitive lessons on the floor, sitting in a chair, and standing; lessons communicated via auditory cues, no demonstration and imitation of idealized positions; improving awareness toward uncovering postural habits; expanding options for new and more efficient movement; exploring developmental patterns, joint, muscle and postural relationships; cultivating multiple possibilities for achieving the same action; conscious integration of sensing, feeling, thinking, and action.

DANC:3853 Introduction to Klein Technique 3 s.h.
Introduction to principles and practice of Klein Technique to reeducate the body and offer tools for aligning bones, accessing the breath, and working with gravity to find more efficiency and articulation in movement; experiential design supplemented with readings and discussions on founder Susan Klein's writings.

DANC:3875 Topics in Digital Performing Arts 3 s.h.
Advanced techniques in performing with established and new technologies including live cameras in performance, controlling digital avatars, motion capture, virtual and augmented reality, and more. Same as THTR:3875.

DANC:3876 Projection Design 3 s.h.
Introduction to the aesthetics and practical applications of projection design for live performance, including content creation, system design, media servers, projectors, cameras, and related professional equipment. Students learn how to create digital artwork with professional content/animation/effects software Adobe After Effects, Illustrator, Photoshop, Premiere Pro, Audition, etc. Through the media server QLab students learn how to integrate digital artwork and live video cameras into live performance via projectors and digital displays. GE: Engineering Be Creative. Same as CINE:3876, DIGA:3876, INTM:3876, THTR:3876.

DANC:3885 Repertory Dance Company 1-4 s.h.
Advanced repertory studies; learning and performing multiple works by professional guest artists, faculty, and invited graduate students; collaborative creation and performing in community outreach lecture-demonstration throughout Iowa and the region. Requirements: audition.

DANC:3895 Performance, Art, and New Technologies in Society 3 s.h.
Students pitch projects and work in interdisciplinary groups to create original live performances and installations based on major technological innovations that have deeply impacted society and live performance in late 20th and early 21st centuries; daily hands-on making; examination of theoretical texts and performances that address impact of technology on human condition to contextualize students' own art/technology projects; exploration and adaptation of technologies/aesthetics for live performance and art including telepresence and liveness, artificial intelligence and big data, augmented and virtual reality. Prerequisites: MUS:2800 or THTR:2880 or CS:1110 or CS:1210 or SCLP:4835. Same as DIGA:3895, THTR:3895.

DANC:4030 Major Ballet III 3 s.h.
Advanced training in ballet technique and performance; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body. Requirements: audition or promotion to determine placement.

DANC:4034 Ballet Pointe 3 s.h.
Intermediate/advanced techniques and training for ballet pointe work; barre and center exercises to strengthen feet/legs/back and ensure proper alignment; review of basic ballet vocabulary; pirouettes and turns commonly performed *en pointe*; learning and performing variations drawn from repertory. Requirements: DANC:2030, or higher placement.

DANC:4040 Major Contemporary Movement Practices III 3 s.h.
Advanced technical and performance training in contemporary movement practices; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing; basic physical concepts underlying clear and efficient movement; capacity to assimilate new movement material; awareness of the center of gravity and its role in mobilization and control of the body; consciousness of personal movement choices and expressive range; may include partnering exercises for investigation of weight exchange, timing, and expressivity. Requirements: audition or promotion to determine placement.

DANC:4060 The Contemporary Dance Scene 3 s.h.
Historical, theoretical, and practical elements of contemporary dance; the term "postmodern" and its associations with dance, performing arts, contemporary culture; relationships between process and product, identity and subjectivity, artistic intent and authorship, meaning and intertextuality; possibility of art as a form of dissent; theory and practice placed in a dialectic; analysis and synthesis of previous research.

DANC:4350 Choreography III 3 s.h.
Continuation of DANC:3250; increased emphasis on invention, clarity, sophistication, and development of complete works; creation of sharply defined mature movement worlds; increasingly thorough consideration of sources and methods, responsibility for applying coursework to self-defined artistic concerns and emerging individual aesthetic; advanced theories and methods through video, reading, choreographic research. Prerequisites: DANC:2050 and DANC:3250.

DANC:4452 MFA Independent Project Research Lab arr.
Participation in rehearsals, showings, adjudication, concert rehearsals and performances; for undergraduate dancers who have been selected through audition for graduate independent projects conducted by graduate students enrolled in DANC:6990. Requirements: audition and selection by an MFA student creating a piece for adjudication, showing, and/or performances.

DANC:4453 MFA Thesis Research Lab arr.
Participation in rehearsals, showings, adjudication, and concert rehearsals and performances; for undergraduate dancers who have been selected through audition for roles in MFA thesis concerts conducted by graduate students. Requirements: audition and selection by MFA student creating a piece for thesis concert.

DANC:4454 Faculty Creative Research Lab arr.
Participation in rehearsals, showings, and concert rehearsals and performances; for students who have been selected through audition for roles in creative research conducted by faculty members. Requirements: audition or selection by faculty member.

DANC:4535 Elementary Ballet Pedagogy 3 s.h.
Methods, materials, concepts for teaching ballet techniques.

DANC:4540 Major Contemporary Movement Practices IV 3 s.h.
Professional technique and performance training in contemporary dance. Requirements: two semesters of DANC:4030 with a minimum grade of A- or two semesters of DANC:4040 with a minimum grade of A-.

DANC:4545 Teaching of Modern and Contemporary Dance Forms 3 s.h.
Practices of teaching modern dance; information and experience for developing an individualized approach to teaching; educational methodology for defining essential elements of a modern class, approaches for planning and structuring classes.

DANC:4880 Dance Gala Performance 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concerts. Requirements: audition and/or concert adjudication.

DANC:4881 Graduate Concert 1 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition.

DANC:4882 Graduate/Undergraduate Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.

DANC:4883 Faculty/Graduate Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: selection by audition and/or concert adjudication.

DANC:4884 Undergraduate Event 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.

DANC:4885 MFA Thesis Concert 0-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert.

DANC:4886 BFA Concert 0-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.

DANC:4887 MFA Event 1-3 s.h.
Participation in rehearsals, concert rehearsals, and performances; for graduate dancers who have been selected through audition for roles in the MFA event held during spring semesters. Requirements: selection by audition and/or concert adjudication.

DANC:4888 Special Project Student Performance arr.
Rehearsal hours and performance of dance works created by faculty outside of traditional performance cycle. Requirements: audition or selection by faculty member.

DANC:4980 BFA Seminar in Dance 3 s.h.
Transitioning from college to careers in professional dance; creation and performance of a devised ensemble work; résumé building and personal marketing; how to make the most of auditions, internships, and company intensives; artist portfolios, grant writing skills, arts administration strategies, and discussion of opportunities for graduate study. Requirements: BFA major and junior or senior standing.

DANC:4990 Independent Study arr.
Credit for an individual student-designed project coordinated with a faculty advisor. Requirements: sophomore or higher standing.

DANC:4991 Independent Choreography arr.
Credit for creation of independent choreographic project, developed under guidance of faculty advisor, that results in production of a dance work.

DANC:4995 Honors Studies in Dance arr.
Choreography, performance, production, Labanotation, dance history, or pedagogy. Prerequisites: a minimum g.p.a. of 3.33.

DANC:4998 BFA Senior Project in Dance arr.
Senior year choreographic/performance capstone to complete BFA in dance under supervision of faculty advisor; culminates in public showing or produced concert. Requirements: admitted to BFA program in dance and senior standing.

DANC:4999 Honors Project in Dance arr.
Research, choreographic, reconstruction, or performance project under guidance of a faculty advisor. Requirements: senior standing.

DANC:5050 Graduate Improvisation I 1-2 s.h.
Dance improvisation.

DANC:5055 Embodying Voice/Performing Persona 3 s.h.
Creation and performance of text from body-based perspectives; working in a spectrum from casual conversation to formal presentation, students research verbal and written language habits, personal access to vocal range in volume and tone, communication through body and gesture, performance of personas, how breath relates to the voice, how voice expresses a sense of self, and how listening relates to speaking; projects include creative research presentations, storytelling, solo/group songs, improvisational scene studies, nonverbal physical theater, and personal performative essay writing. Recommendations: junior or higher standing.

DANC:5060 Theories of Dance and the Body 3 s.h.
Theoretical trends in studies of dance and physical bodies; performative and choreographic aspects of being. Recommendations: MFA major in dance or advanced dance standing.

DANC:5085 Graduate African Caribbean Dance Practices 3 s.h.
Introduction to African Caribbean dance with emphasis on ritual, performance, and music; exploration of basic fundamentals of African Caribbean dances from Trinidad, Tobago, Jamaica, Haiti, and Cuba; musical instruments used to accompany these dances; practical dance training; theoretical basis for understanding geographical, historical, and political sociology contexts in which dances originated.

DANC:5530 Graduate Majors Ballet II 1-3 s.h.
High intermediate technique and performance training; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body.

DANC:5540 Graduate Contemporary Movement Practices II 1-3 s.h.
High intermediate technical and performance training in contemporary movement practices; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range.

DANC:5545 Teaching Dance in Higher Education 3 s.h.
Introduction to pedagogical practices of lecture and studio-based dance teaching at collegiate level.

DANC:5880 Installations and Interactive Performance 3 s.h.
Introduction to creating interactive experiences with technology; aesthetics, techniques, and practical possibilities of fusing together theatre, dance, music/sound, art, design, cinema, gaming, human-computer interaction, and engineering through use of Isadora, an interactive, node-based programming software; students create immersive performances, interactive installations, embodied user experiences, and user-manipulated virtual environments. Same as THTR:5880.

DANC:5890 Producing and Directing Digital Video 3 s.h.
Introduction to basic concepts, theories, and practical applications of digital video production for multiple distribution streams with focus on aesthetic and technical principles; development of proficiency in contemporary approaches to digital media production by understanding the production pipeline from ideation to preproduction, production, postproduction, and through to distribution. Same as THTR:5890.

DANC:6030 Graduate Majors Ballet III 1-3 s.h.
Advanced ballet technique and performance training for proficient dancers; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, understanding of basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body.

DANC:6040 Graduate Contemporary Movement Practices III 1-3 s.h.
Advanced technical and performance training in contemporary movement practices; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, understanding of basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range.

DANC:6050 Graduate Improvisation II 3 s.h.
Advanced concepts in compositional improvisation; students practice through individual exploration and ensemble collaboration; multiple structures and entry points to develop embodied imagination; diverse materials including movement, text, site, objects, and music; creative process as physical research applied to choreographic thinking and spontaneous performance; integration of conceptual and experiential in dancing and dance-making; examination of aesthetic and political frameworks and harmonies with other spontaneous practices.

DANC:6060 Graduate Seminar in Dance 3 s.h.
Introduction to areas of study in dance to encourage rigorous research; preparation for artistic, academic, administrative, and socially engaged careers; topics address role of dance in society and higher education, issues of dance administration, and areas of concern to dance artists, educators, and audiences; investigation of cultural, economic, political, and historical role of dance and dance artists in Western and other social contexts; brief history of dance in higher education; current issues and trends of dance programs in higher education.

DANC:6350 Graduate Choreography III 3 s.h.
Advanced choreography as research; students ask and answer questions through a creative process to produce original choreography and address complex concepts, methods, and applications to produce multiple works; experimentation with movement and structure to formulate artistic questions and produce innovative treatments of generic concepts; exploration of choreography as a directorial process; establishment of context and point-of-view to frame developing and editing processes; individual research within larger choreographic, aesthetic, theoretical, and/or sociocultural contexts; practice of advanced critical response. Requirements: MFA major in dance.

DANC:6450 Graduate Choreography IV 3 s.h.
Advanced theories, practices, directing, and arranging of choreography; collaborative process with performers and co-choreographers utilizing analytical and creative connections with bodies of knowledge across the liberal arts and sciences; theorizing through compositional studies; development of multiple works; advanced practice in critical feedback and articulation of ideas about process and product; students turn assignments into research questions that produce original/ innovative treatments of generic concept development; independent research to advance individual goals and utilize course content.

DANC:6540 Graduate Contemporary Movement Practices IV 1-3 s.h.
Professional technique and performance training in contemporary movement practices.

DANC:6880 Dance Gala Performance 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concerts. Requirements: audition and/or concert adjudication.

DANC:6881 Graduate Concert arr.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition.

DANC:6882 Graduate/Undergraduate Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.

DANC:6883 Faculty/Graduate Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: selection by audition and/or concert adjudication.

DANC:6884 Undergraduate Event 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.

DANC:6885 MFA Thesis Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert.

DANC:6887 MFA Event 1-2 s.h.
Participation in rehearsals, concert rehearsals, and performances; for graduate dancers who have been selected through audition for roles in the MFA event held during spring semesters. Requirements: selection by audition and/or concert adjudication.

DANC:6888 Special Project Student Performance arr.
Rehearsal hours and performance of dance works created by faculty outside traditional performance cycle. Requirements: graduate standing in dance.

DANC:6889 Graduate Performance Credit 1-3 s.h.
Credit for performances held outside of the department's regular production calendar; for students not already receiving credit for their project. Requirements: MFA major in dance.

DANC:6990 Graduate Independent Projects 3 s.h.
Creation and presentation of an independent choreographic or performance project; students prepare ideas, write an abstract and a proposal, attend progress showings several times during creative process, participate in feedback sessions, and complete a final paper.

DANC:6991 Graduate Independent Study arr.
Credit for individually designed project coordinated with a faculty advisor.

DANC:6992 Graduate Independent Performance Project arr.
Credit for creative participation as a performer in a chorography project, developed under guidance of a faculty advisor, that results in the performance of a dance work.

DANC:7550 Graduate Contemporary Movement Practicum 2-3 s.h.
Advanced, in-depth understanding of teaching dance technique at the college level; emphasis on studio practice of technique through active participation in technique class; individualized research on technical and pedagogical approaches to dance; taken with a faculty member during student's teaching rotation to gain understanding of the teacher's pedagogical approach across three levels of the majors-level technique curriculum. Requirements: completion of one semester of MFA program and good standing.

DANC:7560 Graduate Ballet Technique Practicum 2-3 s.h.
Advanced, in-depth understanding of teaching dance technique at the college level; emphasis on studio practice of technique through active participation in technique class; individualized research on technical and pedagogical approaches to dance; taken with a faculty member during student's teaching rotation to gain understanding of the teacher's pedagogical approach across three levels of the majors-level technique curriculum. Requirements: completion of one semester of MFA program and good standing.

DANC:7990 Thesis arr.

Dance, BA

Integrating studies in dance and the liberal arts, the Bachelor of Arts degree program establishes foundations for creative and intellectual development and cultivates multiple approaches to dance, career, and citizenship. Students train daily in movement practices and are afforded ample opportunities to perform in faculty and student creative research and to produce their own choreographic works in the department's concert season. This training is complemented by courses in improvisation, choreography, dance history and theory, multicultural movement practices, global dance studies, digital performing arts, kinesiology, pedagogy, and community engagement.

Auditions for Placement

The department admits all students to the dance BA. An audition is required to determine placement in ballet and contemporary movement classes and for consideration for scholarships. Students may email a video, attend a Hawkeye Dance Day in the department, or arrange to visit a class to audition for placement. For incoming first-year students, a short, supplemental application is required to make audition arrangements and will become available to students after they have been admitted to the University of Iowa. See Undergraduate Applications on the Department of Dance website for more information about the first-year admissions process. Students who have already matriculated at the University of Iowa may contact the Department of Dance to add the BA and to arrange placement auditions.

Learning Outcomes

Students will:

- achieve proficiency in contemporary concert dance movement practices while developing stylistic versatility, expressive range, and efficient body mechanics;
- learn to think critically about the historical, cultural, and social contexts of dance as an art form and cultural practice while developing strong writing skills and effective oral expression;
- master formal compositional elements and improvisational techniques toward the creation of original choreographic work, and learn to articulate and render their creative intentions with clarity, with opportunities to present these works in public performances;
- acquire performance skills, such as interpretation, expressivity, physical agility, and refinement, by participating in auditions, rehearsals, and studio and public performances;
- acquire knowledge of anatomical and kinesiological principles and injury prevention for effective dance training and career longevity; and
- attain an understanding of digital arts tools currently used in contemporary dance.

Requirements

The Bachelor of Arts with a major in dance requires a minimum of 120 s.h., including 61 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Students also have the opportunity to complete the Dance Pedagogy and Instruction Track [p. 335] while fulfilling the BA requirements.

In planning coursework, especially electives, students may apply a maximum of 61 s.h. in Department of Dance courses (prefix DANC) toward the minimum 120 s.h. required for the BA degree. At least 28 s.h. in major coursework must be earned at the University of Iowa. Any grades earned for coursework are included in the grade-point average.

The BA with a major in dance requires the following coursework.

Requirements	Hours
Core Courses	20
Studio Courses	9
Performance and Creative Research Courses	2
Movement Practices Courses	21
Distribution Areas	9

Core Courses

Course #	Title	Hours
All of these:		
DANC:1000	First-Year Seminar	1
DANC:1090	Dance Production	3
DANC:1170	Functional Anatomy	2
DANC:2060	Dance and Society in Global Contexts	3
DANC:2220	Production Run Crew (taken twice for 1 s.h. each)	2
DANC:3060	Western Concert Dance History: Romantic to Contemporary	3
DANC:3070	Dance Kinesiology	3
DANC:3080	Music Essentials for Dance	3

Studio Courses

Course #	Title	Hours
All of these:		
DANC:2050	Introduction to Improvisation and Composition	3
DANC:3150	Choreography I	3
DANC:3250	Choreography II	3

Performance and Creative Research Courses

Course #	Title	Hours
2 s.h. from these:		
DANC:3885	Repertory Dance Company	1-3
DANC:4452	MFA Independent Project Research Lab	arr.
DANC:4453	MFA Thesis Research Lab	arr.
DANC:4454	Faculty Creative Research Lab	arr.
DANC:4880	Dance Gala Performance	1-4
DANC:4881	Graduate Concert	1
DANC:4882	Graduate/Undergraduate Concert	1-4
DANC:4883	Faculty/Graduate Concert	1-4
DANC:4884	Undergraduate Event	1-4
DANC:4885	MFA Thesis Concert	1-4

DANC:4886	BFA Concert	1-4
DANC:4887	MFA Event	1-3
DANC:4888	Special Project Student Performance	arr.

Movement Practices Courses

Students must complete 21 s.h. from the following.

Course #	Title	Hours
At least 9 s.h. of ballet and at least 9 s.h. of contemporary movement practices from these:		
DANC:2020	Intermediate Jazz	3
DANC:2025	Intermediate Hip Hop Dance	3
DANC:2030	Majors Intermediate Ballet	3
DANC:2040	Majors Intermediate Contemporary Movement Practices	3
DANC:3030	Major Ballet I	3
DANC:3040	Major Contemporary Movement Practices I	3
DANC:3530	Major Ballet II	3
DANC:3540	Major Contemporary Movement Practices II	3
DANC:4030	Major Ballet III	3
DANC:4034	Ballet Pointe	3
DANC:4040	Major Contemporary Movement Practices III	3
DANC:4540	Major Contemporary Movement Practices IV	3
At least two semesters of one of these with grades of B-minus or higher:		
DANC:3530	Major Ballet II	3
DANC:3540	Major Contemporary Movement Practices II	3
DANC:4030	Major Ballet III	3
DANC:4040	Major Contemporary Movement Practices III	3
DANC:4540	Major Contemporary Movement Practices IV	3

Distribution Areas

Students must complete one course from each of the following three areas.

Dance Somatics

Course #	Title	Hours
One of these:		
DANC:3851/ MUS:3851	Introduction to the Alexander Technique	3
DANC:3852	Introduction to the Feldenkrais Method: Posture, Perception, and Pain Relief	3
DANC:3853	Introduction to Klein Technique	3

Global Dance Studies

Course #	Title	Hours
One of these:		
DANC:1150/ LAS:1150	Brazilian Culture and Carnival	3
DANC:2065	Performing Power/ Performing Protest: The Body, Identity, and the Image	3
DANC:2085	Introduction to African Caribbean Dance Practices	3
DANC:2150	Brazilian Social Dance: The Samba	3
DANC:3010	Topics in Global Movement Practices	3

Digital Performing Arts

Course #	Title	Hours
One of these:		
DANC:2800/ ARTS:2800/ CINE:2800/CS:2800/ DIGA:2800/ MUS:2800/ THTR:2800	Digital Arts: An Introduction	3
DANC:2880/ DIGA:2880/ THTR:2880	Installations and Interactive Performance	3
DANC:2890/ DIGA:2890/ THTR:2890	Producing and Directing Digital Video	3
DANC:3050	Body/Image: Dance and Media in Discourse and Practice	3
DANC:3875/ THTR:3875	Topics in Digital Performing Arts	3
DANC:3876/ CINE:3876/ DIGA:3876/ INTM:3876/ THTR:3876	Projection Design	3
DANC:3895/ DIGA:3895/ THTR:3895	Performance, Art, and New Technologies in Society	3

Dance Pedagogy and Instruction Track

Dance majors who have a particular interest in the art and practice of teaching dance as a passion and/or profession may complete the dance pedagogy and instruction track at the same time as they are completing their degree requirements. This track tailors the knowledge and skills gained in the pursuit of a major in dance toward the preparation of students for professions in dance instruction and studio ownership, and for opportunities to work as teaching artists within community and dance company outreach and engagement programs.

Some of the required courses fulfill the requirements for the dance major or GE CLAS Core requirements.

The dance pedagogy and instruction track requires 23 s.h. from the following.

Dance Pedagogy Foundations

Course #	Title	Hours
This course:		
DANC:3700	Dance Pedagogy: Theories, Issues, and Perspectives	3

Dance Pedagogy Electives

Course #	Title	Hours
5-6 s.h. from these:		
DANC:2075	Teaching and Using Creative Dance for Children (K-8) in a Variety of Educational Settings	2
DANC:3075	Yoga Teacher Training I	3
DANC:3076	Yoga Teacher Training II	3
DANC:4535	Elementary Ballet Pedagogy	3
DANC:4545	Teaching of Modern and Contemporary Dance Forms	3

Education, Learning, and Human Development

Course #	Title	Hours
Two of these:		
EPLS:3000	Foundations of Education	3
PSQF:1075	Educational Psychology and Measurement	3
PSQF:4133	The Adolescent and Young Adult	3
PSY:1001	Elementary Psychology	3
PSY:2401	Introduction to Developmental Science	3

Leadership and Entrepreneurship Studies

Course #	Title	Hours
One of these:		
ENTR:1350	Foundations in Entrepreneurship	3
THTR:3510/ INTD:3510	Introduction to Arts Management	3

Social Justice Studies

Students may only apply either DANC:3600 or GWSS:3600 to this area.

Course #	Title	Hours
One of these:		
DANC:2065	Performing Power/ Performing Protest: The Body, Identity, and the Image	3
DANC:3600	Art, Feminist Practice, and Social Justice	3
or GWSS:3600	Art, Feminist Practice, and Social Justice	
SJUS:1001/ GWSS:1003	Introduction to Social Justice	3

Electives

To complete the required 23 s.h., students must take one additional course selected from one of these preceding categories: "Education, Learning, and Human Development," "Leadership and Entrepreneurship Studies," or "Social Justice Studies." Students using DANC:3600 to fulfill the Social Justice Studies area cannot apply GWSS:3600 to the elective requirement. Students using GWSS:3600 to fulfill the Social Justice Studies area cannot apply DANC:3600 to the elective requirement.

Honors

Honors in the Major

Majors who maintain a Department of Dance grade-point average (GPA) of at least 3.50 and a UI GPA of at least 3.33 are encouraged to pursue honors in dance. Although it is not necessary for students pursuing honors in dance to be members of the University of Iowa Honors Program, earning honors in dance does satisfy the experiential learning component (“learning by doing”) of the UI Honors Program.

Students who graduate with honors in their major receive special recognition during commencement, and their transcript and diploma reflect honors designations.

Graduation with honors in dance requires successful completion of 8–10 s.h. of University of Iowa honors courses or honors contract courses in the Department of Dance and successful completion of an honors project.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the dance major.

Career Advancement

Careers for dance majors include professional work in performing, choreography, education, private teaching, and related areas such as arts management, technical theater, dance scholarship, or dance and physical therapy. Many graduates from the UI dance program are currently working in arts organizations throughout the United States.

The discipline and creative challenges of dance training transfer well to other careers. Students have combined dance with a second major in another field such as business or communication.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Department of Dance coursework beyond 61 s.h. for BA students does not apply toward semester hours required for graduation.

Before the third semester begins: 12 s.h. of coursework in the major.

Before the fifth semester begins: 24–32 s.h. of coursework in the major.

Before the seventh semester begins: 36–48 s.h. of coursework in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: 42–50 s.h. of coursework in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Dance, BA

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students must complete 21 s.h. of movement practices courses, including at least 9 s.h. of ballet and at least 9 s.h. of contemporary movement practices. At least two semesters of one of these must be completed with grades of B-minus or higher: DANC:3530, DANC:3540, DANC:4030, DANC:4040, DANC:4540.

c Fulfills a major requirement and may fulfill a GE requirement.

d DANC:2065 meets both the GE CLAS Core Understanding Cultural Perspectives requirement and the global dance studies requirement for the major.

e Recommended course for GE CLAS Core Natural Sciences with Lab, not a major requirement.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

h See General Catalog for list of approved courses.

i DANC:1150 and DANC:1412 meet the GE CLAS Core Values and Society requirement.

j Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Dance, BFA

The Bachelor of Fine Arts degree program provides students with a conservatory-like studio experience that is enriched by studies in the liberal arts and sciences. Students train daily in concert movement practices and are afforded ample opportunities to perform in faculty and student creative research and to produce their own choreographic works in the department's concert season. A preprofessional degree, the BFA in dance establishes a strong foundation for creative and intellectual development and cultivates multiple approaches to dance, career, and citizenship. Studies in movement practices, performance, and choreography are complemented by courses in improvisation, dance history and theory, multicultural movement practices, global dance studies, digital performing arts, kinesiology, pedagogy, and community engagement.

Auditions for BFA Admission

An audition is required to be considered for the BFA program, as well as for placement in ballet and contemporary movement practice course and for consideration for scholarships. For incoming first-year students, a short supplemental application is required as well as an audition in person or by video. Visit Undergraduate Applications on the Department of Dance website for more information about the first-year admissions process.

Students auditioning for the BFA will be required to perform a two-minute solo on audition day or send a video through their supplemental application. The solo may be self-choreographed or be choreographed by someone else, usually a teacher or mentor.

Current BA students in dance may apply for the BFA during the spring semester of their sophomore year.

Learning Outcomes

Students will:

- achieve proficiency in contemporary concert dance movement practices while developing stylistic versatility, expressive range, and efficient body mechanics;
- learn to think critically about the historical, cultural, and social contexts of dance as an art form and cultural practice while developing strong writing skills and effective oral expression;
- master formal compositional elements and improvisational techniques toward the creation of original choreographic work, and learn to articulate and render their creative intentions with clarity, with opportunities to present these works in public performances;
- acquire performance skills, such as interpretation, expressivity, physical agility, and refinement, by participating in auditions, rehearsals, and studio and public performances;
- acquire knowledge of anatomical and kinesiological principles and injury prevention for effective dance training and career longevity; and
- attain an understanding of digital arts tools currently used in contemporary dance.

Requirements

The Bachelor of Fine Arts with a major in dance requires a minimum of 120 s.h., including at least 87 s.h. of work for the major. Students must maintain a grade-point average of at least 3.50 in all courses for the major and in all UI courses for the major. Students must earn at least 42 s.h. in the major at the University of Iowa. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Students also have the opportunity to complete the Dance Pedagogy and Instruction Track [p. 341] while fulfilling the BFA requirements.

In planning coursework, especially electives, students may apply a maximum of 87 s.h. in Department of Dance courses (prefix DANC) toward the minimum 120 s.h. required for the BFA degree. Any grades earned for coursework are included in the grade-point average.

In contrast to the BA in dance, the BFA program emphasizes choreography and performance. It requires an additional 19 s.h. of choreography, performance, and technique. Students who did not audition for the BFA program prior to entrance to the University of Iowa may subsequently apply for admission to the program during their sophomore year. The strongest candidates are those who have achieved the equivalent of major II technique and show academic and professional promise.

The BFA with a major in dance requires the following coursework.

Requirements	Hours
Core Courses	23
Studio Courses	12
Performance and Creative Research Courses	10-12
Movement Technique Courses	30
Distribution Areas	9
Dance Specialization Area	3

Core Courses

Course #	Title	Hours
All of these:		
DANC:1000	First-Year Seminar	1
DANC:1090	Dance Production	3
DANC:1170	Functional Anatomy	2
DANC:2060	Dance and Society in Global Contexts	3
DANC:2220	Production Run Crew (taken twice for 1 s.h. each; must complete this requirement by the end of the second year)	2
DANC:3060	Western Concert Dance History: Romantic to Contemporary	3
DANC:3070	Dance Kinesiology	3
DANC:3080	Music Essentials for Dance	3
DANC:4980	BFA Seminar in Dance	3

Studio Courses

Course #	Title	Hours
All of these:		
DANC:2050	Introduction to Improvisation and Composition	3
DANC:3150	Choreography I	3
DANC:3250	Choreography II	3
DANC:4350	Choreography III	3

Performance and Creative Research Courses

Students should enroll in DANC:3885 Repertory Dance Company during their second or third year.

Course #	Title	Hours
This course:		
DANC:3885	Repertory Dance Company	1-3
One of these:		
DANC:4998	BFA Senior Project in Dance	3
DANC:4999	Honors Project in Dance	3
6 s.h. from these:		
DANC:4452	MFA Independent Project Research Lab	arr.
DANC:4453	MFA Thesis Research Lab	arr.
DANC:4454	Faculty Creative Research Lab	arr.
DANC:4880	Dance Gala Performance	1-4
DANC:4881	Graduate Concert	1
DANC:4882	Graduate/Undergraduate Concert	1-4
DANC:4883	Faculty/Graduate Concert	1-4
DANC:4884	Undergraduate Event	1-4
DANC:4885	MFA Thesis Concert	1-4
DANC:4886	BFA Concert	1-4
DANC:4887	MFA Event	1-3
DANC:4888	Special Project Student Performance	arr.
May include up to 2 s.h. from this:		
DANC:4991	Independent Choreography	1-2

Movement Technique Courses

Students must complete 30 s.h. of movement technique courses, including two semesters of either DANC:4030 Major Ballet III or DANC:4040 Major Contemporary Movement Practices III with a grade of A-minus or higher and two semesters of DANC:4540 Major Contemporary Movement Practices IV with a grade of B-plus or higher. All movement technique courses may be taken more than once.

Eligible students may petition to take either DANC:4030 or DANC:4040 concurrently with DANC:4540 for two semesters during their final two semesters in order to satisfy technique requirements; the petition must originate with a student's advisor and be approved by the assigned course instructors.

Course #	Title	Hours
This course:		
DANC:3340	BFA Movement Practices (taken twice for 3 s.h. each during the first year)	6
12 s.h. from these:		
DANC:3030	Major Ballet I	3
DANC:3530	Major Ballet II	3
DANC:4030	Major Ballet III	3
DANC:4034	Ballet Pointe	3
12 s.h. from these:		
DANC:3040	Major Contemporary Movement Practices I	3
DANC:3540	Major Contemporary Movement Practices II	3
DANC:4040	Major Contemporary Movement Practices III	3
DANC:4540	Major Contemporary Movement Practices IV	3

Distribution Areas

Students must complete at least one course from each of the following three areas.

Dance Somatics

Course #	Title	Hours
One of these:		
DANC:3851/ MUS:3851	Introduction to the Alexander Technique	3
DANC:3852	Introduction to the Feldenkrais Method: Posture, Perception, and Pain Relief	3
DANC:3853	Introduction to Klein Technique	3

Global Dance Studies

Course #	Title	Hours
One of these:		
DANC:1150/ LAS:1150	Brazilian Culture and Carnival	3
DANC:2065	Performing Power/ Performing Protest: The Body, Identity, and the Image	3
DANC:2085	Introduction to African Caribbean Dance Practices	3
DANC:2150	Brazilian Social Dance: The Samba	3
DANC:3010	Topics in Global Movement Practices	3
DANC:5055	Embodying Voice/Performing Persona	3

Digital Performing Arts

Course #	Title	Hours
One of these:		
DANC:2800/ ARTS:2800/ CINE:2800/CS:2800/ DIGA:2800/ MUS:2800/ THTR:2800	Digital Arts: An Introduction	3
DANC:2880/ DIGA:2880/ THTR:2880	Installations and Interactive Performance	3
DANC:2890/ DIGA:2890/ THTR:2890	Producing and Directing Digital Video	3

DANC:3876/ CINE:3876/ DIGA:3876/ INTM:3876/ THTR:3876	Projection Design	3
DANC:3895/ DIGA:3895/ THTR:3895	Performance, Art, and New Technologies in Society	3

Dance Specialization Areas

Students choose advanced-level elective coursework by selecting one of the following three options: pedagogy, advanced history or theory, or choreography.

Pedagogy

Course #	Title	Hours
One of these:		
DANC:4535	Elementary Ballet Pedagogy	3
DANC:4545	Teaching of Modern and Contemporary Dance Forms	3

Advanced History or Theory

Course #	Title	Hours
One of these:		
DANC:4060	The Contemporary Dance Scene	3
DANC:5060	Theories of Dance and the Body	3

Choreography

Students who choose this option are encouraged to complete DANC:4991 Independent Choreography before DANC:6450 Graduate Choreography IV.

Course #	Title	Hours
This course:		
DANC:6450	Graduate Choreography IV	3

Dance Pedagogy and Instruction Track

Dance majors who have a particular interest in the art and practice of teaching dance as a passion and/or profession may complete the dance pedagogy and instruction track at the same time as they are completing their degree requirements. This track tailors the knowledge and skills gained in the pursuit of a major in dance toward the preparation of students for professions in dance instruction and studio ownership, and for opportunities to work as teaching artists within community and dance company outreach and engagement programs.

Most of the required courses fulfill the requirements for the dance major and/or GE CLAS Core requirements.

The dance pedagogy and instruction track requires 23 s.h. from the following.

Dance Pedagogy Foundations

Course #	Title	Hours
This course:		
DANC:3700	Dance Pedagogy: Theories, Issues, and Perspectives	3

Dance Pedagogy Electives

Course #	Title	Hours
5-6 s.h. from these:		
DANC:2075	Teaching and Using Creative Dance for Children (K-8) in a Variety of Educational Settings	2
DANC:3075	Yoga Teacher Training I	3
DANC:3076	Yoga Teacher Training II	3
DANC:4535	Elementary Ballet Pedagogy	3
DANC:4545	Teaching of Modern and Contemporary Dance Forms	3

Education, Learning, and Human Development

Course #	Title	Hours
Two of these:		
EPLS:3000	Foundations of Education	3
PSQF:1075	Educational Psychology and Measurement	3
PSQF:4133	The Adolescent and Young Adult	3
PSY:1001	Elementary Psychology	3
PSY:2401	Introduction to Developmental Science	3

Leadership and Entrepreneurship Studies

Course #	Title	Hours
One of these:		
ENTR:1350	Foundations in Entrepreneurship	3
THTR:3510/ INTD:3510	Introduction to Arts Management	3

Social Justice Studies

Students may only apply either DANC:3600 or GWSS:3600 to this track.

Course #	Title	Hours
One of these:		
DANC:2065	Performing Power/ Performing Protest: The Body, Identity, and the Image	3
DANC:3600	Art, Feminist Practice, and Social Justice	3
or GWSS:3600	Art, Feminist Practice, and Social Justice	
SJUS:1001/ GWSS:1003	Introduction to Social Justice	3

Electives

To complete the required 23 s.h., students must take one additional course selected from one of these preceding categories: "Education, Learning, and Human Development," "Leadership and Entrepreneurship Studies," or "Social Justice Studies." Students using DANC:3600 to fulfill the Social Justice Studies area cannot apply GWSS:3600 to the elective requirement. Students using GWSS:3600 to fulfill the Social Justice Studies area cannot apply DANC:3600 to the elective requirement.

Honors

Honors in the Major

Majors who maintain a Department of Dance grade-point average (GPA) of at least 3.50 and a UI GPA of at least 3.33 are encouraged to pursue honors in dance. Although it is not necessary for students pursuing honors in dance to be members of the University of Iowa Honors Program, earning honors in dance does satisfy the experiential learning component ("learning by doing") of the UI Honors Program.

Students who graduate with honors in their major receive special recognition during commencement, and their transcript and diploma reflect honors designations.

Graduation with honors in dance requires successful completion of 8–10 s.h. of University of Iowa honors courses or honors contract courses in Department of Dance classes and successful completion of an honors project.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the dance major.

Career Advancement

Careers for dance majors include professional work in performing, choreography, education, private teaching, and related areas such as arts management, technical theater, dance scholarship, or dance and physical therapy. Many graduates from the UI dance program are currently working in arts organizations throughout the United States.

The discipline and creative challenges of dance training transfer well to other careers. Students have combined dance with a second major in another field such as business or communication.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Department of Dance coursework beyond 87 s.h. for BFA students does not apply toward semester hours required for graduation.

Before the third semester begins: 16 s.h. of coursework in the major.

Before the fifth semester begins: 25–40 s.h. of coursework in the major.

Before the seventh semester begins: 45–60 s.h. of coursework in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: 57–75 s.h. of coursework in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Hours	**17**
	Total Hours	**135-141**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students must complete 30 s.h. of movement technique courses including DANC:3340 (taken twice for 3 s.h. each during the first year); two semesters of either DANC:4030 or DANC:4040 (with a grade of A-minus or higher); and two semesters of DANC:4540 (with a grade of B-plus or higher). At least 12 s.h. of ballet and at least 12 s.h. of contemporary movement practices are required.

c Fulfills a major requirement and may fulfill a GE requirement.

d Take DANC:2220 twice for 1 s.h. each; must complete this requirement by the end of the second year.

e Students must complete DANC:3885; DANC:4998 or DANC:4999; and at least 6 s.h. from other performance and creative research courses; may include up to 2 s.h. from DANC:4991. See the General Catalog for list of approved courses.

f See General Catalog for list of approved courses.

g Recommended course for GE CLAS Core Natural Sciences with Lab, not a major requirement.

h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

i DANC:2065 meets both the GE CLAS Core Understanding Cultural Perspectives requirement and the global dance studies requirement for the major.

j GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

k DANC:1150 meets both the GE CLAS Core Values and Society requirement and the global dance studies requirement for the major.

l Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

mPlease see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Dance, Minor

Requirements

The undergraduate minor in dance requires a minimum of 15 s.h. in University of Iowa Department of Dance courses. Students must maintain a cumulative grade-point average of 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Adding a Dance Minor

The department admits all students to the dance minor without an audition. A placement audition is required to participate in ballet and contemporary movement practices courses numbered 2000 and above, however. Ballet and contemporary movement practices courses are not required to complete the minor.

Students may email a video, attend a Hawkeye Dance Day in the department, or arrange to visit a class to audition for placement in courses numbered 2000 and above. For incoming first-year students, a short, supplemental application is required to make audition arrangements and will become available to students after they have been admitted to the University of Iowa. See Undergraduate Applications on the Department of Dance website for more information about the first-year admissions process. Students who have already matriculated at the University of Iowa may declare the minor without completing the supplemental application.

Required Coursework

The minor in dance requires the following coursework. Students must complete all prerequisites for the courses they choose for the minor. Please refer to the Technique Placement and Promotion Policy for information on the major ballet and contemporary movement practices sequence of coursework.

Course #	Title	Hours
This course:		
DANC:2060	Dance and Society in Global Contexts	3

DANC:4888	Special Project Student Performance	arr.

Dance, MFA

The Master of Fine Arts program in dance offers subprograms in choreography or performance. Students must first complete the online application and then be selected to interview and audition to be considered for admission.

Learning Outcomes

- Movement expertise: achieve professional-level expertise in contemporary movement practices and techniques as a means to advanced, body-based creative research and teaching.
- Creative research: establish individualized creative research trajectories that couple dance theories and practices and foster coherent aesthetic points of view in both scholarly and performative contexts.
- Communication: demonstrate skilled communication through artistic process and product, and through verbal, written, digital, pedagogical, and emerging artistic forms.
- Artistic citizenship: understand and develop the combined artistic, social, and organizational skills of the artist-citizen who, in humane ways, contributes to the local, national, and global dialogues about dance and contemporary culture, and to the evolution of the professional field.
- Career readiness and sustainability: understand the diverse and ever-changing nature of the field of dance and develop the relevant agility to hold significant roles in a sustained, lifelong career.

Requirements

The Master of Fine Arts in dance requires a minimum of 60 s.h. of graduate credit. The program is designed to be completed in four to six semesters in residence. Students must maintain a graduate college program grade-point average (GPA) of at least 3.00.

Students who demonstrate accomplishment in dance performance and/or choreography may apply for admission to the MFA program. Applicants select the choreography or the performance subprogram before they are admitted.

The MFA in dance requires the following coursework.

Dance Core

A total of 29 s.h. of core coursework is required.

Course #	Title	Hours
All of these:		
DANC:4060	The Contemporary Dance Scene	3
DANC:5060	Theories of Dance and the Body	3
DANC:5545	Teaching Dance in Higher Education	3
DANC:5880/ THTR:5880	Installations and Interactive Performance	3
DANC:6050	Graduate Improvisation II	3
DANC:6060	Graduate Seminar in Dance	3
DANC:6350	Graduate Choreography III	3
DANC:7990	Thesis (taken once for 8 s.h.)	8

Movement Practices and Extended Techniques

Students in the choreography subprogram complete 7 s.h. and students in the performance subprogram complete 14 s.h. from the courses listed below. Performance subprogram students must satisfy at least half (7 s.h.) of their movement practice coursework in the ballet and contemporary movement practice curriculum (courses ending in 30 for ballet and 40 for contemporary movement).

Other university courses outside the Department of Dance can satisfy the movement practices requirements with permission of the MFA advisor if they serve a student's embodied creative research objectives.

Course #	Title	Hours
DANC:3030	Major Ballet I	1-3
DANC:3040	Major Contemporary Movement Practices I	1-3
DANC:3851/ MUS:3851	Introduction to the Alexander Technique	3
DANC:3852	Introduction to the Feldenkrais Method: Posture, Perception, and Pain Relief	3
DANC:3853	Introduction to Klein Technique	3
DANC:4034	Ballet Pointe	3
DANC:5085	Graduate African Caribbean Dance Practices	3
DANC:5530	Graduate Majors Ballet II	1-3
DANC:5540	Graduate Contemporary Movement Practices II	1-3
DANC:6030	Graduate Majors Ballet III	1-3
DANC:6040	Graduate Contemporary Movement Practices III	1-3
DANC:6540	Graduate Contemporary Movement Practices IV	1-3
DANC:7550	Graduate Contemporary Movement Practicum	2-3
DANC:7560	Graduate Ballet Technique Practicum	2-3

Choreography Subprogram

Choreography students complete 12 s.h. in the following courses.

Course #	Title	Hours
Both of these:		
DANC:6450	Graduate Choreography IV	3
DANC:6990	Graduate Independent Projects (taken three times for 3 s.h. each)	9

Performance Subprogram

Performance subprogram students complete 14 s.h. in the following courses.

Course #	Title	Hours
Both of these:		
DANC:5055	Embodying Voice/Performing Persona	3

DANC:6990	Graduate Independent Projects (taken twice for 3 s.h. each)	6
At least 5 s.h. from these:		
DANC:3885	Repertory Dance Company	1-3
DANC:6880	Dance Gala Performance	1-4
DANC:6881	Graduate Concert	arr.
DANC:6882	Graduate/Undergraduate Concert	1-4
DANC:6883	Faculty/Graduate Concert	1-4
DANC:6884	Undergraduate Event	1-4
DANC:6885	MFA Thesis Concert	1-4
DANC:6887	MFA Event	1-2
DANC:6888	Special Project Student Performance	arr.
DANC:6889	Graduate Performance Credit	1-3

Electives

Choreography students complete 12 s.h. of electives; performance students complete 3 s.h. of electives. Electives may be selected from dance courses (prefix DANC) numbered 3000 or above, excluding DANC:4880–DANC:4980 and DANC:7990 Thesis; this may include additional courses in the requirement areas listed above. Electives are chosen in consultation with the student's advisor; courses in other departments numbered 3000 or above may be approved.

Admission

Admission is based on a review of submitted choreographic and performance work, letters of recommendation, transcripts, teaching application, statement of purpose, and curriculum vitae. Selected applicants participate in an interview and audition which includes a solo dance, a teaching audition, and when possible, an on-campus visit that includes advanced classes in ballet and contemporary movement practices to determine class placement level.

Demonstrated accomplishment in performance or choreography is a prerequisite for admission to the program. For more information, see Master of Fine Arts in Dance on the Department of Dance website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Graduates establish successful, professional careers as professors in higher education and as dance-makers and artistic directors, performers in regional and national companies, writers who contribute to knowledge in the field, and teachers for the next generation of dancers.

Academic Plans

Sample Plans

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Total Hours	**60**

a The program is designed to be completed in four to six semesters in residence.
b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
c Typically this course is offered every other year. Check MyUI for course availability since offerings are subject to change.
d Taken twice for 3 s.h. each.
e Complete at least 14 s.h. of movement practices and extended techniques coursework. See the General Catalog for list of approved courses.
f Complete at least 5 s.h. to satisfy the performance subprogram requirements. See the General Catalog for list of approved courses.
g Complete at least 3 s.h. of electives. Electives may be selected from dance courses (prefix DANC) numbered 3000 or above, excluding DANC:4880-DANC:4980 and DANC:7990. Electives are chosen in consultation with the student's advisor; courses in other departments numbered 3000 or above may be approved.
h Taken once for 8 s.h.
i Thesis defense.

Data Science

Chair, Department of Statistics and Actuarial Science

- Kung-Sik Chan

Director of Undergraduate Studies, Data Science

- Sanvesh Srivastava

Director of Graduate Studies

- Boxiang Wang

Undergraduate major: data science (BS)

Graduate degree: MS in data science

Faculty: https://stat.uiowa.edu/people

Website: https://stat.uiowa.edu

The BS in data science produces graduates with the sophisticated analytical and computational skills required to thrive in a quantitative world where new problems are encountered at an ever-increasing rate. The major emphasizes the statistical/probabilistic and algorithmic methods that underlie the preparation, analysis, and communication of complex data. With a focus on technical foundations, the data science program promotes skills useful for creating and implementing new or special-purpose analysis and visualization tools. It also promotes a fundamental understanding of how to best handle uncertainty when making data-driven decisions.

The MS in data science trains the next generation of data scientists who have the analytical and technical skills to explore, formulate, and solve complex data-driven problems in science, industry, business, and government. The program focuses on the theory, methodology, application, and ethics for working with and learning from data. With an emphasis on statistical thinking and foundations, the program rigorously prepares its graduates with the abilities to develop and implement new or special-purpose analysis and visualization tools. It promotes a fundamental understanding of how to quantify uncertainty in data-driven decision-making.

The BS and MS in data science are administered by the Department of Statistics and Actuarial Science [p. 1075].

Programs

Undergraduate Program of Study

Major

- Major in Data Science (Bachelor of Science) [p. 350]

Graduate Program of Study

- Master of Science in Data Science [p. 354]

Data Science, BS

Learning Outcomes

Data Curation Skills

Graduates will be able to:

- understand issues associated with data collection, management, provenance, storage, merging, sharing, and preparation;
- work with multiple-source, multiple-format data;
- investigate the quality of the data; and
- have a basic understanding of ethical and confidentiality issues associated with data collection, storage, merging, and sharing.

Computational Skills

Graduates will be able to:

- use critical thinking skills to translate substantive questions into well-defined computational problems and choose appropriate computational techniques for a given problem;
- understand the foundational software skills and associated algorithmic and computational problem-solving methods used in computer science;
- be proficient in computational methods for collecting, managing, storing, preparing, sharing, and describing data numerically and graphically from a variety of sources to design and carry out basic simulation studies; and
- use professional statistical software and understand the principles of programming and algorithmic problem-solving that underlie these packages.

Statistical/Probabilistic Skills

Graduates will be able to:

- use critical thinking skills to translate substantive questions into well-defined statistical or probability problems and choose the appropriate graphical or numerical descriptive and/or inferential statistical techniques for a given problem;
- understand the importance of, and issues related to, the choice of the study design, such as designed experiment versus probability sample versus convenience sample, used to produce data;
- understand that uncertainty, variability, and randomness play significant roles in data-driven decision-making;
- understand how to measure and display uncertainty, the effect of randomness, confidence/credibility, and the likelihood of incorrect inferences;
- understand and be able to explain common misperceptions, paradoxes, and fallacies of probability and statistics; and
- understand basic regression, prediction, simulation, and visualization methods.

Mathematical Skills

Graduates will:

- have a firm grasp of the mathematical tools underlying statistical and computational methods which are primarily based on ideas in calculus, linear algebra, and discrete mathematics, including distribution theory, uncertainty quantification (e.g., probability theory), the probabilistic basis of formal statistical inference, models, and algorithms, and combinatorial analysis and recursion, which are used for algorithmic analysis, design, and for distribution theory.

Communication Skills

Graduates will be able to:

- clearly justify and communicate study results to a non-technical audience;
- write accurate and meaningful reports that describe the statistical and computational analyses and summarize important findings; and
- work effectively as part of a team to address substantive questions that can be handled using statistical and computational methods.

Requirements

The Bachelor of Science with a major in data science requires a minimum of 120 s.h., including at least 64 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Data science majors may not earn a major or minor in computer science or statistics, a major in computer science and engineering, or the Certificate in Social Science Analytics.

The BS with a major in data science requires the following coursework.

Requirements	Hours
Prerequisite Courses	16
Core Courses	36
Advanced Electives	9
Capstone Course	3

Prerequisite Courses

Course #	Title	Hours
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4

Core Courses

Course #	Title	Hours
All of these:		
DATA:3200/ IGPI:3200/ISE:3760/ STAT:3200	Applied Linear Regression	3
DATA:4580/ IGPI:4580/ STAT:4580	Data Visualization and Data Technologies	3
CS:1210	Computer Science I: Fundamentals	4
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
CS:3330	Algorithms	3
CS:4400	Database Systems	3

STAT:2010	Statistical Methods and Computing	3
STAT:3100/ IGPI:3100	Introduction to Mathematical Statistics I	4
STAT:3101/ IGPI:3101	Introduction to Mathematical Statistics II	3
One of these:		
DATA:4540/ BAIS:4540/ IGPI:4540/ STAT:4540	Statistical Learning	3
CS:5430	Machine Learning	3

Advanced Electives

Course #	Title	Hours
9 s.h. from these, with at least one computer science course (prefix CS) and one statistics course (prefix STAT):		
DATA:4600/ STAT:4600	Causal Inference for Data Science	3
DATA:4610	Data Acquisition and Management	3
DATA:4620	Text Data Analysis	3
DATA:4750/ STAT:4750	Probabilistic Statistical Learning	3
DATA:4880	Data Science Creative Component	1
DATA:6200/ ACTS:6200/ STAT:6200	Predictive Analytics	3
BIOS:4510	Data Science Foundations in R	2
CS:4420	Artificial Intelligence	3
CS:4440	Web Mining	3
CS:4470	Health Data Analytics	3
CS:4510	Human-Computer Interaction for Computer Science	3
CS:4630	Mobile Computing	3
CS:4700/ MATH:4860	High Performance and Parallel Computing	3
CS:5630	Cloud Computing Technology	3
MATH:4840	Mathematics of Machine Learning	3
STAT:3210	Experimental Design and Analysis	3
STAT:4520/ IGPI:4522/ PSQF:4520	Bayesian Statistics	3
STAT:4560	Statistics for Risk Modeling I	3
Other advanced computer science or statistics courses approved by advisor		

Capstone Course

Course #	Title	Hours
DATA:4890	Data Science Practicum	3

The Department of Statistics and Actuarial Science [p. 1075] and the Department of Computer Science [p. 286] collaborate to offer the major in data science.

Combined Programs

Undergraduate to Graduate (U2G) Program

Bachelor of Science students in data science may pair their degree with an Undergraduate to Graduate (U2G) program, which allows a student to earn a bachelor's and master's degree in five years of study. See the Undergraduate to Graduate website for available programs.

Honors

Honors in the Major

Students majoring in data science have the opportunity to graduate with honors in the major. They must maintain a grade-point average (GPA) of at least 3.67 in their major and a cumulative University of Iowa GPA of at least 3.33. Students must complete an honors thesis.

Students are responsible for finding a faculty member willing to supervise their honors project. The faculty member must approve the proposed project and a timetable for the work. Credit for thesis work must be earned in either CS:3990 Honors in Computer Science or Informatics for work supervised by a computer science faculty member or an honors course supervised by a statistics and actuarial science faculty member.

Honors in data science also satisfies the 12 s.h. experiential learning requirement for University of Iowa honors students.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the data science major.

Career Advancement

Today, nearly every business, government, social media platform, and educational institution collects and analyzes data about its users, logistics and operations, and media presence, in the hope of extracting valuable insights and utilizing the resulting efficiencies.

As an example, Amazon is the company most closely identified with a data-driven business model. Starting just over 25 years ago as an online bookseller with a relatively crude crowdsourced book review platform and simple recommender system technology, it was subsequently augmented with extensive tracking of customer page views, advertising hits, data about prior purchases, and an aggressive emphasis on data-driven operational efficiencies. Amazon has become the major player in U.S. retail and a prime example of the strategic value of big data.

Data science graduates may pursue careers as data scientists. This position allows them to apply their understanding of statistics, as well as algorithm and software design, to create and develop the next generation of data analysis tools.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to students majoring in data science. Students work with their advisors on individual graduation plans.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in math courses requires completion of a placement exam.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate

Programs Office with questions concerning the World Languages requirement.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

g Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

h Students should select at least one computer science course and one statistics course for their advanced electives.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Data Science, MS

Learning Outcomes

Graduates will be able to:

- understand the fundamental concepts in probability and statistics that underlie commonly used data science algorithms;
- write efficient Python and R codes for data processing and data wrangling (data storage, access, and management) and computing for data analysis and modeling;
- use visualization techniques to display salient data features;
- use data technologies to process complex data;
- correctly and effectively implement appropriate algorithms for learning with data;
- identify and criticize inappropriate/unethical uses of data and/or algorithms;
- acquire effective communication skills for disseminating findings; and
- work with data stakeholders to help collect and analyze data.

The program aims to train the next generation of data scientists with the analytical and technical skills to explore, formulate, and solve complex data-driven problems in science, industry, business, and government. The program focuses on the theory, methodology, application, and ethics for working with and learning from data. Students acquire the ability to develop and implement new or special-purpose analysis and visualization tools, and a fundamental understanding of how to quantify uncertainty in data-driven decision-making.

Requirements

The Master of Science in data science requires 30 s.h. of graduate credit. Students must maintain a Graduate College program grade-point average of at least 3.00 in all coursework.

Coursework includes core courses covering the fundamentals of data science including probability and statistics; data storage, access, and management; and data visualization, exploration, modeling, analysis, and uncertainty quantification. Students acquire hands-on experience in solving real-world problems, communication skills, and data ethics via a required capstone project. Students may choose from a wide variety of electives or supplemental courses on specialized data science topics offered by the departments of Statistics and Actuarial Science, Computer Science, Business Analytics, and Biostatistics to enhance their skill sets based on their interests and career goals.

Students who have received a waiver for certain required courses must select from the list of approved supplemental courses to reach 30 s.h. of graduate credit; see the " Elective and Supplemental Courses" section. In particular, this may be the case for some undergraduate to graduate students; see the Undergraduate to Graduate website for more information.

The MS in data science requires the following coursework.

Required Courses

All required courses must be taken on an A–F graded basis, except DATA:4890, DATA:5890, and DATA:6220, which may be taken for a S/U grade.

Course #	Title	Hours
All of these:		
DATA:3120/ IGPI:3120/ STAT:3120	Probability and Statistics	4
DATA:3200/ IGPI:3200/ISE:3760/ STAT:3200	Applied Linear Regression	3
DATA:4540/ BAIS:4540/ IGPI:4540/ STAT:4540	Statistical Learning	3
DATA:4580/ IGPI:4580/ STAT:4580	Data Visualization and Data Technologies	3
DATA:4600/ STAT:4600	Causal Inference for Data Science	3
DATA:4750/ STAT:4750	Probabilistic Statistical Learning	3
DATA:5400/ IGPI:5400/ STAT:5400	Computing in Statistics	3
DATA:6220/ STAT:6220	Consulting and Communication With Data	3
DATA:7400/ IGPI:7400/ STAT:7400	Computer Intensive Statistics	3
One of these:		
DATA:4890	Data Science Practicum	3
DATA:5890	MS Data Science Practicum	2

Elective and Supplemental Courses

Course #	Title	Hours
DATA:3120/ IGPI:3120/ STAT:3120	Probability and Statistics	4
DATA:4610	Data Acquisition and Management	3
DATA:4620	Text Data Analysis	3

STAT:6970	Topics in Statistics	3

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

The program prepares graduates for careers in academia, industry, business, or government that involve data visualization and modeling, managing reproducible data analysis workflows, and collaborating and communicating with scientists and other data stakeholders.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b If a student has completed STAT:3100 and STAT:3101 or STAT:4100 and STAT:4101 they will not need to take DATA:3120. However, another higher-level course must be taken to reach the 30 s.h. minimum total required for the degree.

Digital Arts

Chair, Department of Theatre Arts

- Mary Beth Easley

Coordinator, Digital Arts

- Daniel S. Fine (Dance/Theatre Arts)

Undergraduate certificate: digital arts

Website: https://theatre.uiowa.edu/

Digital technologies transform how people create, perform, and experience art. The goal of the digital arts certificate program is to give students skills to make works of art that are informed by digital technology, scholarship, disciplinary tradition, and interdisciplinary collaboration. At the core of the certificate is a commitment to innovation and interdisciplinary collaboration in research, teaching, creative work, and the public expression of the university's creative research and scholarship.

Upon completion of the certificate program, students will be able to develop and realize artistic visions using digital technology and work collaboratively with other artists, engineers, or computer scientists. Most courses will include a public dimension, where projects are shown to a public audience.

What Are the Digital Arts?

The digital arts are digital technologies that keep transforming how people create, perform, and experience art.

At the core of the digital arts cluster is a commitment to innovation and interdisciplinary collaboration in research, teaching, creative work, and the public expression of the university's creative research and scholarship. Faculty have home departments in Theatre Arts [p. 1100] and Dance [p. 326], the schools of Music [p. 813] and Art, Art History, and Design [p. 85], and the College of Engineering [p. 1514].

The Certificate in Digital Arts at the University of Iowa gives students the knowledge and skills "to apply new technologies and integrate multiple media and disciplines in new forms of expression" (Cal Arts, Integrated Media Program). Upon completion of the certificate, students are able to develop and realize artistic visions using digital technology and work collaboratively with other artists, engineers, or computer scientists.

The Department of Theatre Arts [p. 1100], which administers the Certificate in Digital Arts, partners with the schools of Music [p. 813] and Art, Art History, and Design [p. 85], the departments of Computer Science [p. 286] and Cinematic Arts [p. 198] (College of Liberal Arts and Sciences), and the College of Engineering [p. 1514] to offer the certificate.

Programs

Undergraduate Program of Study

Certificate

- Certificate in Digital Arts [p. 358]

Courses

Digital Arts Courses

DIGA:2800 Digital Arts: An Introduction 3 s.h.
Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, CS:2800, DANC:2800, MUS:2800, THTR:2800.

DIGA:2880 Installations and Interactive Performance 3 s.h.
Introduction to aesthetics, techniques, and practical possibilities of fusing together theatre, dance, music/sound, art, design, cinema, gaming, human computer interaction, and engineering; foundations of creating interactive experiences that use digital photos, video, text, real-world objects, sensor data, live bodies moving in space, Kinect 2 sensors, cameras, and multiple video outputs (e.g., projectors, LED displays); use of Isadora, an interactive, node-based programming software, to create immersive mediated performances, interactive installations, embodied user-based experiences, and user-manipulated virtual environments. GE: Engineering Be Creative. Same as DANC:2880, THTR:2880.

DIGA:2890 Producing and Directing Digital Video 3 s.h.
Introduction to basic concepts, theories, and practical applications of digital video production for multiple distribution streams, with focus on aesthetic and technical principles; development of proficiency in contemporary approaches to digital media production by understanding the production pipeline from ideation to preproduction, production, postproduction, and through to distribution. GE: Engineering Be Creative. Same as DANC:2890, THTR:2890.

DIGA:3285 New Musical Instruments: From Design to Performance 3 s.h.
Acoustic principles of selected traditional instruments (e.g., winds, strings, percussion) as well as principles of electroacoustic sound production (e.g., analog synthesizers, microphones, transducers); students work in teams to build, test, and improve their own musical instrument and experiment with its playing modes; projects may include inharmonic variations upon classical instruments, musical bots, guitar or voice-processing pedals, transducer-driven DIY Gamelans, and more; for composers, performers, engineers, and sound enthusiasts who want to design, build, and/or perform with new musical instruments. GE: Engineering Be Creative. Same as MUS:3285.

DIGA:3840 Robotic Art Studio 4 s.h.
Exploration, design, and creation of interactive artworks, kinetic sculpture, robotic art, sound works, light art, and performance environments; application of basic electronics and mechanical techniques; use of programmable micro-controller Arduino. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or INTM:2710 or MTLS:2910 or TDSN:2210). GE: Engineering Be Creative. Same as SCLP:3840.

DIGA:3876 Projection Design 3 s.h.
Introduction to the aesthetics and practical applications of projection design for live performance, including content creation, system design, media servers, projectors, cameras, and related professional equipment. Students learn how to create digital artwork with professional content/animation/effects software Adobe After Effects, Illustrator, Photoshop, Premiere Pro, Audition, etc. Through the media server QLab students learn how to integrate digital artwork and live video cameras into live performance via projectors and digital displays. GE: Engineering Be Creative. Same as CINE:3876, DANC:3876, INTM:3876, THTR:3876.

DIGA:3895 Performance, Art, and New Technologies in Society 3 s.h.
Students pitch projects and work in interdisciplinary groups to create original live performances and installations based on major technological innovations that have deeply impacted society and live performance in late 20th and early 21st centuries; daily hands-on making; examination of theoretical texts and performances that address impact of technology on human condition to contextualize students' own art/technology projects; exploration and adaptation of technologies/aesthetics for live performance and art including telepresence and liveness, artificial intelligence and big data, augmented and virtual reality. Prerequisites: MUS:2800 or THTR:2880 or CS:1110 or CS:1210 or SCLP:4835. Same as DANC:3895, THTR:3895.

DIGA:4835 Electronic Objects and Spaces 4 s.h.
Aesthetic use of electronics to sequence and control motion, light, and sound; introduction to basic electronics through hands-on workshops and discussions; demonstrations on how to build an Arduino, integrated circuits, power supplies, soldering, prototyping, motors, sensors; projects integrating electronics with objects and spaces; artist screenings and critiques. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or INTM:2710 or MTLS:2910 or TDSN:2210). GE: Engineering Be Creative. Same as SCLP:4835.

DIGA:4840 Air, Actuators, and Motors 4 s.h.
Introduction to wide range of motors, actuators, and air devices available for integration in art projects; various forms of motor control and necessary means to power these devices; DC and AC motors, stepper motors, solenoids, electro magnets, relays, pneumatics, inflatables, and other air-driven devices; development of a project utilizing one or more systems; examples and media demonstrations to show how artists and scientists employ these systems. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or INTM:2710 or MTLS:2910 or TDSN:2210). GE: Engineering Be Creative. Same as SCLP:4840.

Digital Arts, Certificate

Learning Outcomes

The certificate provides the ability to:

- think about and develop works of art that use digital technology in creative ways;
- participate in critical discourse about such artistic works;
- collaborate across disciplines on artistic projects at the intersection of the physical and digital worlds; and
- use art and digital technology to identify, attract, and interact with audiences in a meaningful and creative way.

Most courses will include a public dimension, where projects are shown to a public audience.

Requirements

The undergraduate Certificate in Digital Arts requires a minimum of 25 s.h. of coursework, including at least 18 s.h. earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in coursework for the certificate. Courses taken pass/nonpass do not count toward the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Students should declare their intent to earn the certificate at the College of Liberal Arts and Sciences Undergraduate Programs office, at the Academic Advising Center, or on MyUI.

Students must meet with the certificate director or a digital arts advisor every semester to discuss their course selections and plan for the capstone course. The capstone project course may be taken only after both core courses have been completed.

The Certificate in Digital Arts requires the following coursework.

Requirements	Hours
Core Courses	6
Interactive Sound Course	3
Electronics/Robotics Course	4
Capstone Project	3
Elective Courses	9-10

Core Courses

Course #	Title	Hours
Both of these:		
DIGA:2880/ DANC:2880/ THTR:2880	Installations and Interactive Performance	3
DIGA:3895/ DANC:3895/ THTR:3895	Performance, Art, and New Technologies in Society	3

Interactive Sound

Course #	Title	Hours
One of these:		
DIGA:2800/ ARTS:2800/ CINE:2800/CS:2800/ DANC:2800/ MUS:2800/ THTR:2800	Digital Arts: An Introduction	3
DIGA:3285/ MUS:3285	New Musical Instruments: From Design to Performance	3

Electronics/Robotics

Course #	Title	Hours
One of these:		
DIGA:3840/ SCLP:3840	Robotic Art Studio	4
DIGA:4835/ SCLP:4835	Electronic Objects and Spaces	4
DIGA:4840/ SCLP:4840	Air, Actuators, and Motors	4

Capstone Project

The capstone project must result in a work that is both artistic and digital, and it must be shared in a meaningful way with the public. It must be informally approved by the certificate director at least one semester before the work takes place. The student will then select at least one faculty member from an appropriate department as a formal advisor. The student then submits a written proposal to the certificate director and the advisor. The proposal must include a description of the work; a statement of why the student is prepared to accomplish the work; and a list of equipment, materials, space, or funding required.

Once the proposal is approved by the director and advisor, the student enrolls in an independent study in the advisor's home department with the advisor as instructor for 3 s.h. The student meets with the advisor on a regular basis and engages other faculty and students as needed. Once the project is complete and shared publicly, the advisor evaluates the project and submits a grade.

Elective Courses

Course #	Title	Hours
Three of these:		
DIGA:2890/ DANC:2890/ THTR:2890	Producing and Directing Digital Video	3
DIGA:3876/ CINE:3876/ DANC:3876/ INTM:3876/ THTR:3876	Projection Design	3
CINE:1834/ THTR:1834	Modes of Film and Video Production (when topic is interactive multimedia programming)	4
CS:3980	Topics in Computer Science I	3
CW:3218/ INTD:3200	Creative Writing for New Media	3

DANC:3050	Body/Image: Dance and Media in Discourse and Practice	3
ECE:3320	Introduction to Digital Design	3
ENGR:2730	Computers in Engineering	3
INTM:2710/ CINE:2869	Introduction to Intermedia	3
JMC:2020	Multimedia Storytelling	3
JMC:2030	Visual Communication and Design	3
MUS:2820	Electronic Music Production	3
MUS:3780	Audio Recording I	3
THTR:2690	Sound Excursions: The Evolving Soundscape and the Reverberations of Human Activity	3
THTR:3260	Sound Design for the Theatre	3
THTR:3270	Entertainment Design	3
THTR:3630	Special Topics in Theatre Arts (when topic is audio plays)	3

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Digital Arts, Certificate

Course	Title	Hours
Academic Career		
Any Semester		
The undergraduate Certificate in Digital Arts requires a minimum of 25 s.h. of coursework, including at least 18 s.h. earned at the University of Iowa.		
Students must maintain a GPA of at least 2.00 in coursework for the certificate.		
Courses taken pass/nonpass do not count toward the certificate.		
	Hours	**0**
First Year		
Fall		
DIGA:2880	Installations and Interactive Performance	3
	Hours	**3**
Spring

Certificate: elective course [a]		3 - 4
	Hours	**3-4**
Fourth Year		
Fall		
Certificate: elective course [a]		3 - 4
	Hours	**3-4**
Spring		
Certificate: capstone project [b]		3
	Hours	**3**
	Total Hours	**25-28**

a Students must complete at least 9 s.h. of electives; see General Catalog for list of approved courses.
b Consult certificate director for specifics.

Disability Studies

Chair, Department of Health, Sport, and Human Physiology

- Gary L. Pierce

Coordinator, Disability Studies

- Kristina M. Gordon (Health, Sport, and Human Physiology)

Undergraduate certificate: disability studies

Website: https://hhp.uiowa.edu/certificate-disability-studies

Disability studies examines disability as a social, cultural, historical, and political phenomenon rather than focusing on its clinical, medical, or therapeutic aspects. It is an interdisciplinary and multidisciplinary field that draws on scholarship from diverse disciplines, including anthropology, architecture, the arts, communication and media studies, cultural studies, economics, gender studies, geography, global studies, history, law, literature, medicine, nursing, philosophy, policy studies, political science, religious studies, social work, and sociology.

The certificate program helps students expand their knowledge and awareness of issues related to disability and prepare for careers in a variety of fields. Its multidisciplinary nature makes disability studies a good complement to a broad range of undergraduate majors.

Students who complete the certificate develop:

- understanding of the history of disability in America;
- awareness of how culture and society define disability;
- the ability to interact with individuals from diverse backgrounds;
- a personal philosophy of treating people fairly, equitably, and thoughtfully; and
- greater understanding of and concern for public policy issues and active citizenship.

The certificate program in disability studies is administered by the Department of Health, Sport, and Human Physiology [p. 505].

Programs

Undergraduate Program of Study

Certificate

- Certificate in Disability Studies [p. 361]

Courses

Disability Studies Courses

DST:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements:
first- or second-semester standing.

DST:1101 Introduction to Disability Studies 3 s.h.
Introduction and overview of important topics and discussions that pertain to the experience of being disabled; contrast between medical and social models of disability; focus on how disability has been constructed historically, socially, and politically in an effort to distinguish myth and stigma from reality; perspective that disability is part of human experience and touches everyone; interdisciplinary with many academic areas that offer narratives about experience of disability. GE: Understanding Cultural Perspectives.

DST:1200 Disabilities and Inclusion in Writing and Film Around the World 3 s.h.
Exploration of human experiences of dis/ability and exclusion/inclusion. Taught in English. GE: Understanding Cultural Perspectives. Same as GHS:1200, GRMN:1200, WLLC:1200.

DST:3200 Bioethics, Health, and Disability arr.
There is always room for learning to think more carefully about any ethical dilemmas that might be encountered in potential future roles as health care or social service professionals; students take a more fundamental look at issues affecting health care and social services access for people with disabilities than presently occurs.

DST:3201 Advanced Disability Studies: Issues and Research 3 s.h.
Advanced exploration and discussion of contemporary issues, concepts, and research in disability studies; investigation of domains of disability in society (i.e., history, politics, health care, housing, recreation, media); engagement with disability related organizations; application of a global social justice perspective to disability rights and equity; exploration of disability as a culture, identity, and variation on the continuum of human existence. Requirements: DST:1101.

DST:4198 Therapeutic Recreation: Experiences in Adaptive and Inclusive Sports 3 s.h.
In-depth exploration of adaptive and inclusive sports from the perspectives of disability studies, therapeutic recreation, and sport and recreation management; examines the intersectionality of these three crucial components to create meaningful, accessible, and inclusive sporting experiences for individuals with diverse abilities; integrates theoretical knowledge with practical application, including hands-on experience in adaptive sports programming. Students will emerge with the skills and understanding needed to facilitate adaptive sports activities. Same as HHP:4197, TR:4197.

Disability Studies, Certificate

Requirements

The undergraduate Certificate in Disability Studies requires a minimum of 19 s.h. of credit. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

The Certificate in Disability Studies requires the following coursework.

Core Courses

Students earn 11–12 s.h. by taking the following four core courses.

Course #	Title	Hours
Both of these:		
DST:1101	Introduction to Disability Studies	3
DST:3201	Advanced Disability Studies: Issues and Research	3
One of these:		
EDTL:4940	Characteristics of Disabilities	3
TR:3162	Therapeutic Recreation: Clientele	3
And one of these:		
EDTL:2073	Finding Your Comfort Zone: Secrets to Success	3
EDTL:4967	Integrated Disability Studies Practicum	2

Focused Elective Courses

Students earn a minimum of 7–8 s.h. in focused electives to earn a total of at least 19 s.h. for the certificate, which they select from courses in at least two of the following areas (maximum of 6 s.h. from any one area). They may count a maximum of 3 s.h. earned in courses numbered below 3000 toward this requirement.

Course #	Title	Hours
Aging Studies		
ASP:3170	Health and Aging	3
American Sign Language		
ASL:3200	Topics in Deaf Studies	3
ASL:3400	Issues in ASL and Deaf Studies	3
ASL:3500	Deafness in the Media	3
ASL:3700	Deaf Gain: Reframing Deaf People, Cultures, and Languages	3
ASL:4201/ HIST:4201	History of the American Deaf Community	3-4
American Studies		
AMST:2025	Diversity in American Culture	3
Anthropology		
ANTH:3152/ ASP:3152/ GHS:3152	Anthropology of Caregiving and Health	3
ANTH:3308	Human Variation	3
Cinematic Arts		
CINE:1195	Video Games and Identity	3
Classics		
CLSA:1181/ GHS:1181	Ancient Medicine	3
CLSA:3105/ GHS:3105/ GWSS:3105/ WLLC:3105	Contraception Across Time and Cultures	3
College of Public Health		
CPH:2400	The U.S. Health System in a Global Context	3
Communication Sciences and Disorders		
CSD:1015	Introduction to Speech and Hearing Processes and Disorders	2
CSD:3185	Hearing Loss and Audiometry	3
CSD:4145	Developmental Language Disorders	3
CSD:4148	Developmental Speech Disorders	3
Communications		
COMM:2020	Health Communication	3
RHET:2135/ SJUS:2135	Decoding Disability: Rhetoric of Access and Accommodations	3
Counselor Education		
CSED:4113	Sleep, Sleep Deprivation, and Sleep Disorders	3
CSED:4132	Introduction to Addictions and Impulse Control Disorders	3
CSED:4179	Sexuality Within the Helping Professions	3
CSED:4185	Introduction to Substance Abuse	3
CSED:4197	Citizenship in a Multicultural Society	3
Criminology		
CRIM:3250	Drugs, Deviance, and Social Control	3
Disability Studies		
DST:1200/ GHS:1200/ GRMN:1200/ WLLC:1200	Disabilities and Inclusion in Writing and Film Around the World	3
DST:3200	Bioethics, Health, and Disability	arr.
Earth, Environment, and Sustainability		
SEES:3110/ GHS:3111	Geography of Health	3
Educational Policy and Leadership		
EPLS:4180	Human Relations for the Classroom Teacher	3

EPLS:4200	Athletic Administration in Educational Settings	3
Gender, Women's, and Sexuality Studies		
GWSS:2700	Transgender People, Politics, and Cultures	3
GWSS:4140/ ANTH:4140/ CBH:4140/ GHS:4140	Feminist Activism and Global Health	3
Global Health Studies		
GHS:2260/ RELS:2260	Hard Cases in Healthcare at the Beginning of Life	3
GHS:2265/ ASP:2265/ RELS:2265	Hard Cases in Healthcare at the End of Life	3
GHS:4205/ SPAN:4205	Culture, Language, and Health	3
Health Management and Policy		
HMP:4000	Introduction to the U.S. Health Care System	3
International Studies		
IS:3555/GHS:3555/ HIST:3755	Understanding Health and Disease in Africa	3
Psychological and Quantitative Foundations		
PSQF:2116	Applied Child and Adolescent Psychology	3
PSQF:3104	Multicultural Issues in Counseling and Psychology	3
Psychology		
PSY:1501	Everyone's a Little Bit Biased: The Science Behind Prejudice	3
PSY:3320	Psychopathology	3
School of Social Work		
SSW:3729	Substance Use and Abuse	2-3
SSW:3847	Discrimination, Oppression, and Diversity	3
SSW:4100	Social Work in the Criminal Justice System	3
Sociology and Criminology		
SOC:3510	Medical Sociology	3
Teaching and Learning		
EDTL:2963/ THTR:2605	Monsters, Victims, and Villains: Changing Perceptions	3
EDTL:3130	Adaptive Physical Education for the Elementary Classroom Teacher	2
EDTL:4900	Foundations of Special Education	3
EDTL:4987/ CSED:4187	Introduction to Assistive Technology	3
EDTL:4990	Interdisciplinary Issues in Disabilities	1-3
Therapeutic Recreation		
TR:3261	Inclusive Recreation	3
TR:4197/DST:4198	Therapeutic Recreation: Experiences in Adaptive and Inclusive Sports	3

Division of Interdisciplinary Programs

Director

- Cornelia C. Lang (Physics and Astronomy)

Website: https://interdisciplinaryprograms.uiowa.edu/

The Division of Interdisciplinary Programs includes Enterprise Leadership, Interdepartmental Studies, and Museum Studies.

The academic units within the division offer two BA degrees and one certificate.

Enterprise Leadership [p. 453] provides an option for students who want to focus on entrepreneurial business leadership. The major presents a unique blend of skills, theory, and content, encouraging students to apply their knowledge and skills to entrepreneurial and growing organizations. It is designed to prepare students for career success—whether they desire to be an innovator inside a large organization or aspire to be an entrepreneur and launch their own business one day. The program offers a combination of business and liberal arts approaches and allows students to hone their skills in innovation, entrepreneurship, communication, critical thinking, problem solving, and leadership. Enterprise Leadership offers a BA degree.

Interdepartmental Studies [p. 586] gives students the opportunity to choose a preapproved plan of study in applied human services, business studies, or health science. Each track includes coursework from a variety of departments. Interdepartmental Studies offers a BA degree.

Museums embrace every aspect of human experience. Iowa's Museum Studies [p. 808] Program reflects this multiplicity and includes students and instructors from many fields, including American studies, anthropology and archaeology, art, biology, business, communication studies, earth, environment, and sustainability sciences, elementary and secondary education, English, world languages, history, and library and information science. This program offers an undergraduate certificate.

Earth, Environment, and Sustainability

Chair

- Emily Finzel

Undergraduate majors: earth and environmental sciences (BA, BS); environmental policy and planning (BA); geographical and sustainability sciences (BA, BS)

Undergraduate minors: earth and environmental sciences; environmental policy and planning

Undergraduate certificates: geographic information science; sustainability

Graduate degrees: MA in geography; MS in geoscience; PhD in geography; PhD in geoscience

Faculty: https://sees.uiowa.edu/people/faculty

Website: https://sees.uiowa.edu/

The School of Earth, Environment, and Sustainability (SEES) offers interdisciplinary education and research focused around three majors: earth and environmental sciences, geographical and sustainability sciences, and environmental policy and planning. To support the growing need for interdisciplinary understanding, SEES uniquely assembles scientists with natural science and human-centered perspectives to investigate the causes, impacts, and solutions to environmental challenges. This combination allows students to understand the breadth and integration of the overall environmental and sustainability fields, and then focus their passion to make an impact in their chosen career.

Programs

Undergraduate Programs of Study

Majors

- Major in Earth and Environmental Sciences (Bachelor of Arts) [p. 374]
- Major in Environmental Policy and Planning (Bachelor of Arts) [p. 377]
- Major in Geographical and Sustainability Sciences (Bachelor of Arts) [p. 382]
- Major in Earth and Environmental Sciences (Bachelor of Science) [p. 385]
- Major in Geographical and Sustainability Sciences (Bachelor of Science) [p. 392]

Minors

- Minor in Earth and Environmental Sciences [p. 398]
- Minor in Environmental Policy and Planning [p. 400]

Certificates

- Certificate in Geographic Information Science [p. 402]
- Certificate in Sustainability [p. 404]

Graduate Programs of Study

- Master of Arts in Geography [p. 407]
- Master of Science in Geoscience [p. 409]
- Doctor of Philosophy in Geography [p. 411]
- Doctor of Philosophy in Geoscience [p. 413]

Facilities

Geographic Information Systems Instructional Lab

Students have access to the Geographic Information Systems Instructional Lab (GISIL), a state-of-the art computer lab used to teach GIS, cartography, and remote sensing. The GISIL also supports field-based educational activities using mobile GIS software, UAVs, and GPS to collect and analyze data. This unique training experience builds future researchers and practitioners with the perspective and strong analytical skillset needed to address today's most pressing challenges head-on.

Earth Science Research Laboratories

The sample preparation and analytical equipment housed in the School of Earth, Environment, and Sustainability are shared facilities co-managed by faculty. Specific research labs include Environmental and Hydrogeology, MicroPaleontology, Petrology, Sedimentary Materials, Thin Section and Sample Preparation, and Mineral Separation. Major analytical instruments for earth science research, including an SEM, electron microprobe, laser ablation ICP-MS, and XRF, are housed in the Iowa MatFab Facility.

Ashton Prairie Living Laboratory

Ashton Prairie Living Laboratory (APLL) is an eight-acre prairie restoration project located within the University of Iowa's Ashton Cross Country Course. APLL was established in 2019 to educate students and the public about ecosystems, and for faculty and students to explore environmental processes and management at a developing prairie restoration site.

The site includes an initial one-acre pilot plot and a recently added seven-acre area, as well as an adjacent stream. The grounds have been instrumented with twelve groundwater wells, a weather station and eddy flux-tower, soil moisture probes, stream discharge gages, and two soil pits. Other equipment available for the site include a soil respiration meter, water quality probes and sondes, infiltrometers, small flumes, a soil camera, GNSS and Total Station, and thermal cameras. Over the last five years, the site has supported over forty undergraduate students, across multiple departments, working directly on management, monitoring, and research projects. Student activities have included seed gathering, thistle management, pollinator and plant distribution studies, groundwater-surface water-macroinvertebrate interactions, and soil health studies. APLL has also hosted a number of academic courses, such as Intro to Environmental Studies, Entomology, Hydrogeology, and Prairie Restoration, as well as community events, including the annual University of Iowa BioBlitz.

UI Paleontology Repository

The University of Iowa Paleontology Repository (UIPR) is a public research facility developed to support and fulfill the mission of teaching, research, and service of the School of Earth, Environment, and Sustainability and the university. The repository is an international resource that houses type specimens of fossils and makes them accessible to

the scientific community as proscribed by the International Code of Zoological Nomenclature. It holds over one million specimens including more than 25,000 type and referred specimens and has been ranked among the top ten collections in North America in terms of size and significance. UIPR is a hub for experiential learning and graduate and faculty research support. Student opportunities include unpaid volunteering and internships, course projects, internally funded Office for Undergraduate Research fellowships or Hawkeye Experience Grants, and externally funded employment (e.g., by Iowa Science Foundation, Historical Research Development Program, U.S. Geological Survey, or National Science Foundation). Projects range from database cataloging, digitization, collection preservation, specimen preparation and conservation (e.g., mastodon bone conservation), and archive management to science education, public outreach, and web development.

Iowa Lakeside Laboratory

Students may have the opportunity to take courses at Iowa Lakeside Laboratory, a field station located on West Lake Okoboji in northwestern Iowa. Run cooperatively by the University of Iowa, Iowa State University, and the University of Northern Iowa, the laboratory offers courses at the undergraduate and graduate levels and provides excellent conditions for summer study in several disciplines. See Iowa Lakeside Laboratory [p. 2196] (University College) in the catalog or visit the Lakeside Laboratory website.

Courses

Earth, Environment, and Sustainability Courses

SEES:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

SEES:1020 The Global Environment 3 s.h.
Underlying processes driving human/environment interaction, including climate change, deforestation, and natural disasters; environmental challenges, including declining biological diversity; human response to more frequent severe climate events; production of a more sustainable future. GE: Sustainability. GE: Natural Sciences without Lab; Sustainability.

SEES:1021 The Global Environment Lab 1 s.h.
Laboratory application of concepts discussed in SEES:1020; computer-based and traditional approaches to the investigation of earth's processes, including earthquakes, water and energy balances, climate and weather, and soil development. Corequisites: SEES:1020, if not taken as a prerequisite. GE: Natural Sciences Lab only.

SEES:1030 Introduction to Earth Science 3-4 s.h.
Relationships between plate tectonics, geologic time, and the rock cycle with volcanoes and igneous, sedimentary, metamorphic rocks; fossils; radioactive isotopes; landscape evolution; mountain building; natural resources; their impacts on civilization. GE: Natural Sciences with Lab; Natural Sciences without Lab. Same as CEE:1030.

SEES:1031 Introduction to Earth Science Laboratory 1 s.h.
Laboratory component of SEES:1030. Requirements: completion of 3 s.h. in SEES:1030 or CEE:1030. GE: Natural Sciences Lab only. Same as CEE:1031.

SEES:1035 Our Digital Earth 3 s.h.
Gain experience working with geospatial technology, such as geographic information systems (GIS) and remote sensing, using geospatial data and analysis to illuminate and improve sustainability issues that face current and future generations. GE: Sustainability. GE: Quantitative or Formal Reasoning; Sustainability.

SEES:1040 Evolution and the History of Life 3-4 s.h.
Fossils over the past 3.5 billion years, origin and evolution of life, evolutionary radiations and mass extinctions, the invasion of land, dinosaurs, the age of mammals, relationship between biological systems and environmental change in earth history. GE: Natural Sciences with Lab; Natural Sciences without Lab.

SEES:1046 Environmental Politics in India 3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: Sustainability. GE: International and Global Issues; Sustainability. Same as ANTH:1046, GWSS:1046, SJUS:1046.

SEES:1050 Introduction to Geology 4 s.h.
Minerals, rocks, and rock-forming processes (including volcanoes and sedimentary environments); surface processes (rivers, groundwater, glaciers, deserts, ocean shorelines), major earth processes (continental drift, plate tectonics, earthquakes, mountain building); impact on civilization. Offered fall semesters. GE: Natural Sciences with Lab.

SEES:1060 Big Ideas: Origins of the Universe, Earth, and Life 3 s.h.
Origin of the universe, the biochemistry of life, and the origin of life on Earth; for non-science majors. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as ASTR:1060, BIOL:1060.

SEES:1070 Contemporary Environmental Issues 3 s.h.
Global environmental challenges; ecological, economical, cultural, and geographical causes and effects; underlying science and potential solutions to global issues of sustainability. GE: Sustainability. GE: International and Global Issues; Sustainability.

SEES:1080 Introduction to Environmental Science 3-4 s.h.
Biological and physical character of the Earth; interaction of humans with the environment, including impacts on ecosystems, climate, natural processes, resources; alternative options, including sustainability, waste management, energy, land reform. GE: Sustainability. GE: Natural Sciences with Lab; Natural Sciences without Lab; Sustainability.

SEES:1081 Introduction to Environmental Sciences Laboratory 1 s.h.
Laboratory component of SEES:1080. Requirements: completion of 3 s.h. in SEES:1080 or 3 s.h. of transfer equivalent. GE: Natural Sciences Lab only.

SEES:1085 Fundamentals of Environmental Science 4 s.h.
Interdisciplinary study of how Earth's natural systems interact, how these systems affect society, and how they respond to human activity; how environmental problems can be solved and avoided by drawing upon knowledge in disciplines as diverse as ecology, anthropology, economics, chemistry, and political science; blended instructional environment, including traditional lectures, discussions in TILE classrooms, laboratory, online learning, peer-reviewed writing exercises, and service learning. Offered fall semesters. GE: Sustainability. GE: Natural Sciences with Lab; Sustainability.

SEES:1090 Globalization and Geographic Diversity 3 s.h.
World regions including their physical environment, culture, economy, politics, and relationships with other regions; students learn about conflicts within and between regions. GE: International and Global Issues.

SEES:1100 Age of Dinosaurs 4 s.h.
Origin and evolutionary history of dinosaurs; diversity of dinosaurian groups, their geographic distributions and paleoecology; origins of flight among dinosaurs; environmental context, including other animals and plants that lived alongside dinosaurs; the so-called extinction of dinosaurs and radiation of modern forms; the role dinosaurs play in the interaction between science and the popular media. Offered fall semesters. GE: Natural Sciences with Lab.

SEES:1115 The History of Oil 3 s.h.
Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Sustainability. GE: Historical Perspectives; Sustainability. Same as HIST:1115.

SEES:1170 Geology of the U.S. National Parks 2 s.h.
Geologic features, geologic history, important biological and archaeological characteristics, with emphasis on features that caused certain areas to be included in national park system.

SEES:1179 Geology of National Parks: Preparation and Planning 1 s.h.
Preparation for a national park field trip offered in SEES:1180; students learn about locations; basic safety rules; camping skills; administrative work, including defensive driver training; investigation of national parks, national monuments, and protected lands; basic geology.

SEES:1180 Geology of National Parks: Field Trip 2 s.h.
Observation, interpretation of prominent geologic, geomorphic, biological features; semester-break or semester-end visits to different parks or groups of parks each year. Offered spring semesters. Prerequisites: SEES:1179.

SEES:1290 Energy and the Environment 3 s.h.
Scientific concepts related to potentially significant energy sources of the 21st century; environmental impacts, positive and negative, of each energy source as well as geologic and geographical distributions and applications. GE: Natural Sciences without Lab.

SEES:1400 Natural Disasters 3 s.h.
How earth-atmosphere-hydrosphere-space systems produce events catastrophic to humans on the scale of individual lives to civilizations; root causes of earthquakes, landslides, volcanic eruptions, floods, hurricanes, tsunami, tornadoes, and asteroid impact, and their local, national, and global impact; spatial and temporal occurrences of these hazards; methods and processes for hazard preparedness, response, and recovery; social, economic, and policy aspects that affect and compound the magnitude of disasters associated with natural phenomena; case studies drawn from contemporary and ancient societies. GE: Sustainability. GE: Natural Sciences without Lab; Sustainability.

SEES:2001 Second-Year Field Trip for Earth and Environmental Sciences 1 s.h.
Opportunity for students to begin developing an appreciation of earth system and earth history scales; application of classroom learning to field-based inquiry; real-world examples of introductory course material in an outdoor classroom setting. Prerequisites: SEES:1030 or SEES:1050 or SEES:1080. Requirements: geoscience or environmental sciences major.

SEES:2010 Interdisciplinary Environmental Seminar 1 s.h.
Discover research, explore careers, and build connections. Requirements: first- or second-year standing.

SEES:2013 Introduction to Sustainability 3 s.h.
Introduction to sustainability knowledge, skills, and habits as a means to shape one's vision of a sustainable citizen; emphasis on basic skills of literacy, applied math, and finding information; traditional sustainability knowledge areas related to society, economy, and environment; intersecting themes (e.g., informed consumerism, eco-economics, and livable environments). GE: Sustainability. GE: Social Sciences; Sustainability. Same as BUS:2013, URP:2013.

SEES:2050 Foundations of GIS 4 s.h.
Introduction to concepts and methods of geographical information systems (GIS) technology through hands-on lab activities and projects; introduction to map design and spatial analysis.

SEES:2110 Eight Billion and Counting: Introduction to Population Dynamics 3 s.h.
How dramatic changes to the size of population has changed fundamental characteristics of populations and processes, such as food and water scarcity, climate change and biodiversity, rise of megacities, health and disease, migration, social networks, economics, environment, and household structure. GE: Social Sciences. Same as GHS:2110.

SEES:2200 Historical Geology 4 s.h.
Framework of earth history that is essential to understand how the earth system works; investigation of physical, biological, atmospheric, oceanographic, and chemical history of the earth to prepare for further earth and environmental science courses. Prerequisites: SEES:1030 or SEES:1050 or SEES:1080 or SEES:1085.

SEES:2310 Introduction to Climatology 3 s.h.
Introduction to atmospheric processes that determine weather and climate; flow of energy through the atmosphere, distribution and movement of moisture and air, and atmospheric disturbances such as cyclones, hurricanes and tornadoes, and climate change. Recommendations: SEES:1020 or similar earth systems science course.

SEES:2374 Biogeography 3 s.h.
Introduction to processes that lead to the patterns of plant and animal distributions we see across the globe; processes of focus include plate tectonics, climate, and human-ecological interactions; species management and conservation in relationship to climate and change in human patterns of environment. Prerequisites: SEES:1020 or BIOL:1412 or BIOL:1261 or BIOL:1370 or BIOL:1141. Same as BIOL:2374.

SEES:2410 Mineralogy 4 s.h.
Physical, chemical, and optical properties of minerals; phase relations; structures; associations; diagnostic features for identification. Offered fall semesters. Prerequisites: (CHEM:1110 or CHEM:1070) and (SEES:1050 or SEES:1030).

SEES:2673 Ecology 3 s.h.
Adaptations of organisms to their physical and biological environments; organism-environment interactions; population biology; interactions between species; ecology of communities, ecosystems; human impact on ecosystems. Recommendations: a basic statistics or calculus course. Same as BIOL:2673.

SEES:2831 Geologic Field Methods 3 s.h.
Basic methods of geologic fieldwork in southwest Montana using topographic maps and GPS to locate oneself, identifying geologic map units (including superficial deposits), recognizing geologic contacts, constructing stratigraphic sections, measuring planar structures, and making geologic maps complete with a legend and cross-section. Offered summer sessions. Prerequisites: SEES:1080 or SEES:1050 or SEES:1030 or SEES:1400.

SEES:2910 The Global Economy 3 s.h.
Examination of contemporary economic geography; types of national economies, uneven development, role of government in shaping economy, multinational corporations; foundation for understanding national economies and economic statistics; contemporary issues including economic globalization, commodification of nature, de-industrialization. GE: International and Global Issues.

SEES:2930 Water Resources 3 s.h.
Introduction to science and policy issues affecting water resources management in the U.S.; how the intersection of people, climate, technology, and geography affects the quality, availability, and demand for freshwater resources.

SEES:2950 Environmental Conservation 4 s.h.
Scientific foundations of biological conservation; strategies used to better connect conservation practice with needs of a growing human population. Prerequisites: SEES:1020 or SEES:1070 or SEES:1080 or SEES:1085.

SEES:3001 Third-Year Field Trip for Earth and Environmental Sciences 1 s.h.
Opportunity for students to apply their major coursework to real-world problems; field trip to visit parks, mines, and/or quarries in Missouri and Arkansas that illustrate many of the lessons learned in SEES:2410 and SEES:3510. Prerequisites: SEES:1030 or SEES:1050 or SEES:1080 or SEES:2410. Requirements: geoscience or environmental sciences major, and junior standing.

SEES:3003 Natural History Research Collections 3 s.h.
Techniques, methods, and issues specific to natural history research collections; practice in preparing and cleaning specimens; role of natural history specimens in modern scientific research. Recommendations: basic understanding of the diversity of plants and animals and natural history museum collections, MUSM:3001 or MUSM:3200, and BIOL:1411 or BIOL:1412; or other experience. Same as MUSM:3003.

SEES:3020 Earth Surface Processes 3 s.h.
Basic geomorphic and environmental processes that shape the earth's surface; emphasis on erosion, transport, deposition by land mass movement (creep, landslides, earth flow), fluid agents (wind, water, ice); methods used to study these processes. Recommendations: SEES:1050 or SEES:1080 or SEES:1020 or SEES:1085.

SEES:3050 Geospatial Programming 3 s.h.
Introduction to geospatial programming with Python; programming basics, data structures, and algorithms; spatial data models and structures; vector-based and raster-based geoprocessing; automating GIS tasks and models; spatial libraries (e.g., ArcPy, GeoPandas, GDAL, PySAL). Prerequisites: SEES:2050. Same as IGPI:3050.

SEES:3060 Ecology and Natural History of Iowa 3 s.h.
Plant and animal communities, landforms, and geologic history of Iowa; local area fieldwork; students learn identification and survey techniques, and interact with local naturalists.

SEES:3070 Marine Ecosystems and Conservation 3 s.h.
Introduction to ocean ecosystems, including coral reefs, mangroves, estuaries and salt marshes, sandy and rocky shores, seagrass and kelp beds, the deep sea, plankton; biodiversity of each ecosystem; interrelationship of biota and physical/chemical environment; interactions among organisms, including food webs and symbiosis; local and global threats such as overfishing, pollution, ocean acidification, global warming, sea level change; ongoing biodiversity crisis, solutions for conservation problems.

SEES:3080 Introduction to Oceanography 2 s.h.
Descriptive, chemical, physical, biological, geological aspects of oceans; impact on weather, climate, shorelines, food supply, other aspects of civilization. Offered spring semesters. Recommendations: knowledge of basic chemistry, biology, physics, earth science.

SEES:3090 Hungry Planet: Global Geographies of Food 3 s.h.
Societal and environmental implications of past, current, and future global food supply examined from a geographical perspective; focus on questions of who eats what, where, and why; transformative history of agriculture, modern agribusiness and alternative food supplies, geopolitical implications of food production, food scarcity and rising food costs, urban versus rural agriculture, the obesity epidemic versus malnutrition, and the future of food. Same as GHS:3070.

SEES:3095 Field Ecology 4 s.h.
Analysis and interpretation of patterns and underlying physical and biotic basis for regional and local distributions of plants and animals of eastern Iowa; field observation, sampling, and laboratory analysis; conduction of several field research projects requiring collection, statistical analysis, and interpretation of data in short reports; field-oriented course. Prerequisites: BIOL:2673. Recommendations: advanced undergraduate standing or graduate standing in ecology, environmental sciences, or geoscience.

SEES:3096 Winter Ecology 2 s.h.
How seasons occur, thermoregulation, microhabitats, what animals are active, and winter plant identification; local area fieldwork.

SEES:3097 Introduction to Bird Study 2 s.h.
Basic identification skills, bird banding, and bird ecology; Hageboeck Hall of Birds at the UI Museum of Natural History; local field study.

SEES:3100 Earth and Planetary Remote Sensing 4 s.h.
Remote sensing of the earth's surface from aircraft, satellites; aerial photograph interpretation; remote sensing systems, methods, data analysis using electromagnetic spectrum and digital processing techniques, including visible, infrared, microwave radiation; remote sensing applied to geologic and environmental problems. Prerequisites: SEES:1030 or SEES:1050 or SEES:1080 or SEES:1085.

SEES:3110 Geography of Health 3 s.h.
Provision of health care in selected countries, with particular reference to the Third World; focus on problems of geographical, economic, cultural accessibility to health services; disease ecology, prospective payment systems, privatization, medical pluralism. Same as GHS:3111.

SEES:3131 Unnatural Disasters: A Global History 3 s.h.
What is a natural disaster? How do we assess "naturalness" of these events within political, social, and historical contexts in which they occur? Are disasters specific moments of crisis, or rather, are they slow—unraveling across time and space years before and after the moment their pain is most acutely felt? Examination of these questions at a global scale. Same as HIST:3131.

SEES:3150 Sustainability Project arr.
Individual or collective project related to sustainability under the direction and supervision of a faculty member; involves regularly scheduled meetings, data collection and interpretation, and a final project report.

SEES:3160 Field Trip 1-3 s.h.
Field trip to an area of geologic interest, such as localities in the Midwest, Hawaii, Grand Canyon (Arizona), Rio Grande Rift (New Mexico), Death Valley (California, Nevada), Appalachian Mountains (Virginia), as well as international destinations such as the Caribbean and China; preceded by weekly discussions of destination's geology.

SEES:3190 Undergraduate Directed Study arr.
Special topics, independent research.

SEES:3200 Collection Care and Management 3 s.h.
How a museum's management policy relates to its administrative, legal, and ethical obligations to its collections; acquisitions, deaccessions, collection use, data standards, storage environment, health, safety, documentation. Same as MUSM:3200.

SEES:3210 Principles of Paleontology 3 s.h.
Patterns of evolution in fossil record; species and analysis of their evolutionary relationships; paleoecology, paleocommunity evolution; evolutionary radiation and mass extinctions; large-scale relationships between biodiversity and climatic change. Offered fall semesters.

SEES:3220 Evolution of the Vertebrates 4 s.h.
Evolutionary history of vertebrates revealed by fossils and information from living animals; biogeographic, stratigraphic, paleoecological aspects of selected groups, especially mammals and dinosaurs; transitions from aquatic to terrestrial life, origins of flight, major events in vertebrate history (including mass extinctions and explosive radiations). Requirements: introductory course in geoscience, bioscience, or physical anthropology.

SEES:3230 Prairie Restoration 3 s.h.
Actively participate in the ecological reconstruction of a prairie on the University of Iowa campus. Topics include a brief history of tallgrass prairie; aerial photography and plant community analysis; stewardship land planning; native plant seed preparation and planting techniques; botany; invasive plant species identification and management; prescribed fire/controlled burning planning and techniques; erosion control and stormwater mitigation; Native American land management practices; and the tallgrass prairie's role in shaping the American Midwest's landscape.

SEES:3250 Health, Work, and the Environment 3 s.h.
Survey of environmental and occupational health hazards and the associated health risks of exposure; how public health protects society from these hazards; how public health policy can be influenced by science. Same as CPH:3400.

SEES:3300 Envisioning Future Worlds: Sustainable Development and Its Alternatives 3 s.h.
Sociocultural, geopolitical, and environmental implications of sustainable development and its alternatives investigated from a geographic perspective; geopolitical history of sustainable development; measures of sustainability in development; major critiques of sustainable development; alternative visions of development from different geographical contexts including ecofeminism, Buen Vivir, food sovereignty, degrowth, commoning, and the People's Health Movement. Same as GHS:3300.

SEES:3315 Ecosystem Ecology 4 s.h.
Terrestrial ecosystems as integrators of biological, physical, and ecological processes; flows of energy, carbon, water, and nutrients within ecosystems; spatial and temporal patterns and processes of Earth's ecosystems; sustaining ecosystems in the face of global change. Prerequisites: SEES:1020 or SEES:1080 or SEES:1085 or SEES:2374 or SEES:2673 or BIOL:2673.

SEES:3320 Earth's Climate System 3 s.h.
Overview of climate science and how we understand Earth's climate system through interconnected relationships between oceans, atmosphere, biosphere, and geosphere; introduction to climate archives, systems science, climate modeling, and mechanisms responsible for ancient and modern climate change. Recommendations: SEES:1020, SEES:1030, SEES:1050, SEES:1080, or SEES:1085.

SEES:3330 Sedimentary Geology 4 s.h.
Basic concepts of sedimentology, stratigraphy, depositional environments, sedimentary petrology; hands-on analyses of sediments and sedimentary rocks, including thin-section petrography; lecture/laboratory. Offered fall semesters.

SEES:3331 Human Dimensions of Climate 3 s.h.
How climate shapes human societies; focus on how climate and climate variability affects food production, water use, energy use, and human disease systems (e.g., influenza, malaria, air pollution, diarrheal disease); climate change impacts (e.g., sea level rise, droughts, wildfires, famine); societal impact, adaptation and vulnerability, mitigation strategies; policy.

SEES:3340 Ecosystem Services 3 s.h.
Ecosystem services—valuable goods and services produced by ecosystems (e.g., flood control, food production, water purification)—from an interdisciplinary perspective centering on geographic techniques used to measure, map, and model ecosystem services; methods used to incorporate ecosystem services into decision and policy making; how human activities alter these services. Prerequisites: SEES:2050 and (SEES:1020 or SEES:1070 or SEES:1080 or SEES:2374 or SEES:2673 or BIOL:2673 or BIOL:1370).

SEES:3350 Urban Ecology 3 s.h.
Urban ecology as an interdisciplinary field that investigates relationships between natural and the systems in urban environments; students explore urban ecosystems through lecture, discussion of current research, and field-based research projects; and identify how cities can become more sustainable systems. Prerequisites: SEES:2374 or SEES:2673 or BIOL:2673. Requirements: SEES:2374 or SEES:2673 or BIOL:2673 or introductory course in ecology, and junior standing.

SEES:3360 Soil Genesis and Geomorphology 3 s.h.
Introduction to soil genesis, soil geomorphology, and classification including the basics of soil profile description and soil-landscape, soil-vegetation, and soil-climate relationships; emphasis on study of soils as the interface between living and non-living Earth systems and the role of soils in sustaining ecosystems and human societies; short field excursions and a weekend field trip. Requirements: college earth science and chemistry.

SEES:3380 Fluvial Geomorphology 3 s.h.
Hydrologic principles, stream channel processes, and fluvial geomorphology within drainage basin systems; spatial and temporal variations in water distribution, analysis of hydrological data, flow mechanisms, sediment transport, forecasting procedures, hydrograph construction, modeling. Requirements: SEES:3020 or another 3000-level geology or hydraulics course. Same as CEE:3328.

SEES:3390 Integrated Watershed Analysis 3 s.h.
Integration of existing knowledge of physical, hydrological, and environmental processes with management issues and challenges in water resources and environmental management; aspects of water quantity and quality, water use and treatment; basin management issues related to forestry, agriculture, urbanization, floods, droughts.

SEES:3400 Iowa Environmental Policy in Practice 3 s.h.
How Iowa government addresses environmental policy development and implementation; policy process and current environmental issues; students attend meetings with Iowa State legislators and relevant agency personnel in Des Moines, Iowa, to observe how policies move into practice in agency offices. Prerequisites: SEES:1070 or POLI:3111 or SEES:3780. Requirements: junior or higher standing.

SEES:3420 Sustainable and Green Building Concepts 3 s.h.
Green building and sustainable development trends and theories: water policy, ecosystem services, climate change, and public health; LEED certified building process and each of the associated credit categories (i.e., sustainable sites, energy and atmosphere, water efficiency); how knowledge of green building and sustainable development can help lessen the environmental impact of built environments, improve the bottom line, and better plan for great communities.

SEES:3500 Introduction to Environmental Remote Sensing 3 s.h.
Basic concepts and principles of remote sensing; sources of data; georegistration; digital processing and classification of remotely sensed images for extraction of environmental information; linkage of remote sensing techniques with GIS analysis. Same as IGPI:3500.

SEES:3510 Igneous and Metamorphic Petrology 4 s.h.
Nature, origin, and petrography of igneous and metamorphic rocks in hand specimen and thin-section. Offered spring semesters. Prerequisites: (MATH:1010 or MATH:0100 or MATH:1020 or MATH:1850) and (SEES:1050 or SEES:1030) and (CHEM:1110 or CHEM:1070) and SEES:2410.

SEES:3520 GIS for Environmental Applications 3 s.h.
Students learn new, more advanced techniques for the representation and study of human and natural systems using geographic information systems (GIS); application of this new knowledge to environmental management and problem solving. Prerequisites: SEES:2050. Same as IGPI:3520.

SEES:3539 History of Environmental (In)Justice in Latin America 3 s.h.
Introduction to history of environmental change in Latin America; examination of pre-Hispanic cultures and spaces; reshaping of landscapes due to colonialism; commodification of nature in early republics; consolidation of 19th-century agro-economies; land-tenure changes and integration of regional markets due to neoliberalism in 20th century; relationship between environmental problems (e.g., biotic invasions, soil exhaustion, biodiversity loss, pesticide contamination) and imperial domination; scientific racism, state formation, and income inequality. Same as HIST:3539.

SEES:3540 Geographic Visualization 3 s.h.
Concepts and techniques that underlie cartographic representation, interaction, and geovisualization; map symbolization and visual variables; spatiotemporal visualization, multivariate mapping, interactive cartography, animation, geovisual analytics, 3D visualization, virtual and augmented reality. Prerequisites: SEES:2050. Same as IGPI:3540.

SEES:3570 Light Detection and Ranging (LiDAR): Principles and Applications 3 s.h.
Basic principles and applications of Light Detection and Ranging (LiDAR); LiDAR as an essential technology for mapping and analyzing a vast range of topics, including hydrology flooding, transportation planning, and 3D modeling. Recommendations: SEES:2050.

SEES:3608 Planetary Geology 3 s.h.
Introduces geologic processes throughout our solar system from the formation of the solar system to the differentiation of planetary bodies up to current state of planets and exobiology. Prerequisites: SEES:1030 or SEES:1050.

SEES:3610 Ethical Collection and Use of Geospatial Information 3 s.h.
Ethical issues that arise during the collection and use of digital geospatial information; particular emphasis on privacy as well as willful and unintentional introduction of different types of errors of omission (e.g., sampling related errors) and commission (e.g., inappropriate map projections); readings provide theoretical background and illustrative practical examples.

SEES:3760 Hazards and Society 3 s.h.
Examination of the impact and societal responses to natural and technological hazards; using case studies from around the world, students explore relationships between extreme events, human behavior, disaster management, public policy, and technology to understand what makes people and places vulnerable to hazards. Same as GHS:3760.

SEES:3780 U.S. Energy Policy in Global Context 3 s.h.
Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as GHS:3780, HIST:3240, POLI:3431.

SEES:3800 Environmental Policy 3 s.h.
Reasons why markets fail in environmental realm (e.g., externalities, common pool resources, club goods, public goods); ecosystem services and techniques used for their valuation; revealed and stated preferences; cost-benefit analysis and role in policy-making process; tools to address environmental market failures, particularly command and control, taxes and subsidies, and mitigation markets; focus on air pollution, climate change, and water-related policies.

SEES:3840 Structural Geology 4 s.h.
Rock deformation; description, classification of geologic structures such as faults and folds; processes that generate geologic structures; solution of structural problems; interpretation of geologic maps. Prerequisites: SEES:1030 or SEES:1050.

SEES:3920 Planning Livable Cities 3 s.h.
Development of livable cities in the United States; economic, physical, environmental, and political forces that shape their growth; impact of planning, how it shapes the future of cities. Same as URP:3001.

SEES:3940 Transportation Economics 3 s.h.
Overview of transportation markets—intercity, rural, urban; transportation modes—rail, highway, air, water, pipeline, transit; issues in finance, policy, planning, management, physical distribution, and environmental, economic, and safety regulation. Recommendations: ECON:1100 and ECON:1200. Same as ECON:3750, URP:3350.

SEES:3992 Undergraduate Research arr.
Opportunity for undergraduate students to participate in faculty-led research projects.

SEES:4000 The United Nations Sustainable Development Goals: A Blueprint for a Sustainable Future 3 s.h.
Establishment of baseline competencies among students from diverse backgrounds; introduction to the United Nations sustainable development goals framework; foundational concepts for sustainable development (e.g., life-cycle analysis, systems thinking, data processing, visualization). Same as SDG:4000.

SEES:4001 Fourth-Year Field Trip for Earth and Environmental Sciences 2 s.h.
Application of core course learning to real-world examples; students develop a broader understanding of interrelated aspects of earth and environmental sciences as truly integrated scientific endeavors; multi-day fieldtrip to highlight a wide range of geoscience and environmental science studies and provide students an opportunity to apply all aspects of their training to the amazing geologic landscape; capstone field experience for students in their senior year. Prerequisites: SEES:2831. Requirements: geographical and sustainability sciences (GSS) or earth and environmental sciences (EES) major, and senior standing.

SEES:4010 Field Methods in Physical Geography 3 s.h.
Introduction to basic approaches to research design and of sampling environmental variables commonly used in environmental sciences; basic methods of sampling and lab analyses of vegetation, land cover, soils, and more.

SEES:4030 Senior Project Seminar 3 s.h.
Development of an independent research project, preparation of a research report, and presentation of the associated outcomes. Offered spring semesters.

SEES:4110 Global Biogeochemical Cycles 3 s.h.
Investigation of various physicochemical states oceans have assumed over the past 4 billion years of Earth history; use of isotope geochemistry as a proxy for ancient ocean conditions; focus on integrated Earth system science, paleoceanographic and paleoclimate modeling, role of chemical stratigraphy in deciphering past climate states of ocean-atmosphere system; relationship between chemical changes in ocean/atmosphere and biological systems of the Earth.

SEES:4150 Health and Environment: GIS Applications 3 s.h.
Introduction to how geographic information systems (GIS) and spatial statistics are used in the study of patterns of health and disease in space and time. Same as GHS:4150, IGPI:4150.

SEES:4200 Museum Object Preservation 3 s.h.
Detailed study of specific types of museum objects, their materials, and care; topics include care, storage, and preservation of paper, books, photographs, works of art, electronic media, textiles, furniture, archaeological artifacts, and natural history specimens; students complete a curatorial project and gain hands-on practice in basic object cleaning and making enclosures and supports; for students planning museum careers or taking care of collections as part of their professional responsibilities. Same as MUSM:4200.

SEES:4210 Sustainability as a System Science 3 s.h.
Investigation of social, environmental, and economic sustainability in systems across the planet with a focus on food, energy, and water nexus; geographical and temporal trade-offs, unintended consequences, impacts quantification, role of public and private sectors, conceptual modeling of key system drivers and their interactions, nested systems, and system relations.

SEES:4230 Special Topics 1-3 s.h.
Contemporary issues in School of Earth, Environment, and Sustainability research areas.

SEES:4310 Climate Change 3 s.h.
Physical science of climate change; impacts on human and natural systems; mitigation of and adaptation to climate change. Prerequisites: SEES:1020 or SEES:1080 or SEES:2013.

SEES:4410 Analytical Methods Seminar 2 s.h.
Theory and practice of analyzing chemical, isotopic, and mineralogical compositions of rocks, inorganic materials, and waters; use of modern analytical instruments. Offered spring semesters. Prerequisites: CHEM:1070 or CHEM:1110.

SEES:4470 Ecological Climatology 3 s.h.
Introduction to global energy, water, and carbon cycles; biosphere-atmosphere interactions across scales ranging from leaf to globe. Prerequisites: SEES:2310 or SEES:2374.

SEES:4490 Elements of Geochemistry 3 s.h.
Introduction to application of chemical principles to solution of geologic problems concerning earth and environmental processes; origin of elements, chemical differentiation of Earth and the solar system, geochronology, application of radiogenic and stable isotopes, chemical equilibrium, elementary thermodynamics and kinetics, carbonate and silicate stability relationships, chemical weathering, adsorption, trace element behavior, oxidation-reduction reactions, characterization of surface and ground waters, and ocean chemistry. Prerequisites: (SEES:1030 or SEES:1050) and (CHEM:1070 or CHEM:1110).

SEES:4500 Advanced Remote Sensing 4 s.h.
Theory and practice of remote sensing and digital image processing; practical applications to human-environment interactions. Requirements: SEES:3100 or SEES:3500 or CEE:3783. Same as IGPI:4500.

SEES:4520 GIS for Environmental Studies: Applications 3 s.h.
Project-driven course to advance student knowledge of geographic information systems (GIS); application of GIS to environmental change analysis, environmental assessment, hazard/risk analysis, and environmental decision-making. Prerequisites: SEES:3520. Same as IGPI:4520.

SEES:4540 Isotope Geochemistry 3 s.h.
Radiogenic and stable isotope systematics, applications to geological, cosmological, and environmental problems. Prerequisites: (SEES:1030 or SEES:1050) and (CHEM:1070 or CHEM:1110). Recommendations: SEES:2410.

SEES:4580 Introduction to Geographic Databases 3 s.h.
Introduction to basic building blocks of spatial database design, spatial data models, structures, relationships, queries (SQL), indexing, and geoprocessing; design and construction of various types of spatial databases, including relational and big data approaches such as ArcGIS geodatabase, PostGIS/PostgreSQL, and MongoDB. Prerequisites: SEES:2050. Same as IGPI:4581.

SEES:4600 Biogeography, Ecology, and Conservation of Mammals 4 s.h.
An overview of the class Mammalia. Topics include the evolution, diversity, functional morphology, behavior, ecology, biogeography, and conservation of mammals. Course follows a lecture/lab format and includes both field and classroom labs. Prerequisites: BIOL:1412 or SEES:2374.

SEES:4630 Hydrogeology 4 s.h.
Foundational concepts of physical hydrogeology including water cycle and hydrologic balance, hydrogeologic properties of porous media and fractured rock, Darcy's law, flow systems, and hydrogeologic characterization methods; students practice quantitatively evaluating groundwater flow problems through regular problem sets and hands-on labs. Prerequisites: MATH:1850 or MATH:1550.

SEES:4640 Contaminant Hydrogeology 3 s.h.
Introduction to controls on contaminant transport in groundwater systems (e.g., advection, dispersion, diffusion, reaction/transformation); variety of models used to practice quantitatively evaluating contaminant behavior; survey of common contaminants in groundwater through discussion of published case studies; overview of standard and leading edge characterization and remediation methods. Recommendations: SEES:4630 or CEE:4102.

SEES:4660 Groundwater Modeling 3 s.h.
Groundwater flow and contaminant transport modeling; numerical methods, applications of groundwater modeling to water supply, groundwater resources evaluation, remediation design using software; GMS (MODFLOW, MODPATH, and MT3D). Prerequisites: MATH:1860 and SEES:4630. Same as CEE:4104.

SEES:4680 Field Methods in Hydrologic Science 3 s.h.
Collection and interpretation of physical hydrology and hydraulics field measurements; basic data quality assurance and quality control; hands-on experience with field equipment and data collection. Prerequisites: SEES:4720 or SEES:2831 or SEES:3020 or SEES:3360 or SEES:3330 or SEES:3380 or ENGR:2510 or SEES:4800 or SEES:4630 or CEE:3371 or SEES:4790 or SEES:3390.

SEES:4720 Paleoclimatology 3 s.h.
Introduction to glaciers and glacial and interglacial Earth systems; linkages among glacial, oceanic, and atmospheric systems and their effects on landscapes and biota over the past 2 million years; how oceans, atmosphere, and glaciers interact and landscape effects of past glacial and interglacial cycles. Requirements: physical geology or physical geography or anthropology.

SEES:4750 Environmental Impact Analysis 3 s.h.
In-depth exposure to the history and evolution of the U.S. Environmental Impact Assessment (EIA) process; discussion of major court cases; ecological, economic, and political aspects of current environmental controversies; exposure to real-world scenarios that are crucial to understanding the EIA process in action; field trips to six or seven environmental control facilities in Iowa City and neighboring areas. Prerequisites: SEES:1070. Same as URP:4750.

SEES:4760 Mineral and Petroleum Exploration Geology 3 s.h.
Fundamentals of resource exploration philosophy and methods, with project-based presentation of techniques and strategies for mineral exploration and petroleum exploration; integration and evaluation of geological, geochemical, and geophysical techniques for mineral exploration; hydrocarbon systems and seismic interpretation for petroleum exploration. Corequisites: SEES:3510 and SEES:3840.

SEES:4770 Environmental Justice 3 s.h.
Introduction to the field of environmental justice; understanding and addressing the processes that lead poor and marginalized communities to face a disproportionate degree of environmental risks and hazards. Same as AFAM:4770, GHS:4770.

SEES:4780 Global Stratigraphy 3 s.h.
Types of stratigraphy (e.g., biostratigraphy, lithostratigraphy, sequence stratigraphy, chemostratigraphy, magnetostratigraphy, cyclostratigraphy, chronostratigraphy) that share a number of procedures and practices and how differences cloud understanding of Earth history; central role of stratigraphy in modern geoscience pursuits; issue of time in stratigraphic record as an organizing theme for investigation of comparative stratigraphy.

SEES:4790 Applied Environmental Geology 3 s.h.
Application of geology, water, and earth processes to civil and environmental engineering practice; physical properties of rock and soil, geologic mapping and surveying, groundwater supplies and wells, stream engineering, watershed management, site investigations for environmental assessment, and geologic hazards. Prerequisites: SEES:1050 or SEES:1080 or SEES:1030.

SEES:4800 Global Geophysics 3 s.h.
Geophysics is the broad geoscience field interested in discovering the unseen characteristics of the Earth and other planets, including the internal structure of the Earth, the current motions of tectonic plates, the sources and causes of geological disasters, and the locations of economic resources; methods to accomplish these goals include seismology, gravity and magnetic studies, geodesy, and measurements of heat; course offers a broad introduction to these topics that is rooted in current and growing fields of active research. Requirements: introductory geology or physics.

SEES:4820 Tectonics and Basin Analysis 3 s.h.
Dynamic processes responsible for crustal genesis, plate movements, mountain building; plate boundary zones; sedimentologic, structural, petrologic, geophysical characteristics of major tectonic settings; multidisciplinary approach; week-long field trip. Corequisites: SEES:3840.

SEES:4832 Geologic Field Analysis 3 s.h.
Structural, stratigraphic, and regional analysis of geology in the Rocky Mountains of Montana; emphasis on making reasonable geologic interpretations from field relationships; mapping projects in vicinity of Dillon, Montana that build on experience gained in SEES:2831; capstone experience dedicated to synthesizing the geology of a fold-and-thrust belt near Glacier National Park. Offered summer session. Prerequisites: SEES:3840 and SEES:2831.

SEES:4990 Senior Thesis 3 s.h.
Original research. Requirements: senior standing.

SEES:4995 Honors Thesis arr.
Original research. Requirements: honors standing.

SEES:5010 School of Earth, Environment, and Sustainability Foundations 3 s.h.
Overview of research in the School of Earth, Environment, and Sustainability (SEES).

SEES:5015 American Association of Petroleum Geologists Fall Field Trip 1 s.h.
Resource-related topics in mineral and hydrocarbon exploration; tectonic settings for resources. Requirements: AAPG student chapter member or graduate standing, and basic understanding of mineralogy, petrology, and structural geology.

SEES:5020 Research Resources 1 s.h.
Develop literature review skills; identify and synthesize key works in areas of study.

SEES:5050 Research and Writing 3 s.h.
Identification of research areas; research questions and hypotheses; methodological decisions; research proposal and paper writing.

SEES:5380 Process Geomorphology Seminar 1-3 s.h.
Topics in process geomorphology ranging from fluvial dynamics to mass movement to sediment transport and related environmental processes.

SEES:5530 Geochronology 3 s.h.
How to evaluate published ages, and assumptions/errors involved; how to select and sample suitable materials for dating, and choose a suitable dating method and analytical technique; opportunity to develop skills for research and professional careers. Prerequisites: SEES:4490 or SEES:4540.

SEES:5800 Environmental Policy: Theory and Practice 3 s.h.
Various types of approaches to environmental policy, with a focus on the differences between market-based (taxes and regulatory markets) and command and control (regulations and bans); assessment of approaches in terms of efficacy, efficiency, and equity; key United States and international environmental policies such as the Clean Water Act, the Endangered Species Act, and the Paris Agreement; role of technology, research, and development in addressing environmental problems. Same as PBAF:5800, URP:5800.

SEES:6100 Seminar in Health and Environment 3 s.h.
Research on health and environment.

SEES:6190 Graduate Directed Study arr.
Independent research.

SEES:6230 Special Topics 1-3 s.h.
Contemporary issues in School of Earth, Environment, and Sustainability research areas.

SEES:6250 Paleontology Seminar 1-3 s.h.
Current controversial issues in paleontology. Recommendations: SEES:3210.

SEES:6300 Seminar in Environment, Conservation, and Land Use 1-3 s.h.
Research on land use, water resources, conservation.

SEES:6390 Advanced Watershed Analysis Seminar 1-3 s.h.
Integration of existing knowledge of physical, hydrological, and environmental processes with management issues and challenges in water resources and environmental management; aspects of water quantity and quality, water use and treatment, and basin management issues related to forestry, agriculture, urbanization, floods, droughts.

SEES:6500 Seminar in Spatial Analysis and Modeling 1-3 s.h.
Research themes in spatial analysis, GIScience, simulation, remote sensing. Same as IGPI:6501.

SEES:6570 Earth and Planetary Science Seminar 1-2 s.h.
Topics in earth and planetary science.

SEES:7000 School of Earth, Environment, and Sustainability Research Colloquium 1 s.h.

SEES:7270 Orientation, Scholarly Integrity, and Responsible Conduct of Research 1 s.h.
Introduction to the School of Earth, Environment, and Sustainability (SEES) and provides training in the responsible conduct of research (RCR) in the earth and environmental sciences. Introduction to degree requirements, departmental programs, departmental and university facilities, and local geology; overview of research and scholarship, funding mechanisms, publication process, professional and industry considerations, conflict of interest, and intellectual property. Review and explore a broad spectrum of ethics and scholarly integrity in SEES during formulation, performance, and reporting of both basic and applied research.

SEES:7559 Race, Science, and Nature in Latin America **arr.**
Analysis of the history of United States and Latin America relations in the 20th century through the lens of scientific and agricultural change; how plant breeding, agrochemicals, heavy machinery, and irrigation systems set in motion trends that made the 20th century exceptional; possibility of feeding an unprecedented growing global population and transition of human species from being primarily rural to primarily urban in less than a hundred years; analysis of how a network of scientists, businesses, and governments made proliferation of agribusinesses possible to emphasize Indigenous and Mestizo peasants' role in that process. Same as AMST:7559, HIST:7559.

SEES:7604 Principles of Scholarly Integrity **0 s.h.**
Training in responsible conduct of research and scholarly activities; student/mentor responsibilities, authorship, plagiarism/falsification/fabrication of data, intellectual property, conflict of interest; fiscal, institutional, and societal; data handling. Requirements: Postdoctoral standing in Geoscience or Geography.

SEES:7990 Graduate Research **arr.**
Independent research related to theses or dissertations.

SEES:7999 Graduate Thesis **arr.**

Earth and Environmental Sciences, BA

Earth and environmental sciences majors study the planet's geologic materials, water, air, and biota with an emphasis on local and global interactions between these spheres in the present and over deep time. Students examine planetary evolution, including Earth's interior and landform processes, life and ecosystems, and the complex interactions between Earth systems over time and space. The program also emphasizes human interactions with Earth's water, air, and biota, and the present and future outcomes of those modifications. The integrated biological, chemical, physical, and geological components of the BA program offer students flexibility and exposure to the entire geoscience and environmental discipline while at the university, but with fewer supporting science and math requirements and more electives than the BS program.

The BA in earth and environmental science is intended for students who are interested in the fundamentals of geology or earth science and is most applicable as a second degree to students pursuing allied sciences, such as the School of Earth, Environment, and Sustainability's environmental policy and planning or geographic and sustainability sciences majors, or an associated degree in the colleges of Education and Liberal Arts and Sciences, or another unit.

Learning Outcomes

Graduates will:

- understand planetary and ecosystem processes across diverse spatial and temporal scales;
- understand past and present interactions within the Earth-life system, including human interactions and interventions;
- develop the ability to collect and interpret environmental field data within a focused subdiscipline of earth and environmental sciences; and
- develop an analytical skill set to integrate the diverse array of earth sciences and related disciplines.

Requirements

The Bachelor of Arts with a major in earth and environmental sciences requires a minimum of 120 s.h., including at least 55 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Transfer students must complete a minimum of 15 s.h. of School of Earth, Environment, and Sustainability coursework in the major.

The BA with a major in earth and environmental sciences requires the following coursework.

Requirements	Hours
Foundation Courses	40
Electives	15

Foundation Courses

Course #	Title	Hours
All of these:		
SEES:1050	Introduction to Geology	4
SEES:1070	Contemporary Environmental Issues	3
SEES:1085	Fundamentals of Environmental Science	4
SEES:2010	Interdisciplinary Environmental Seminar	1
SEES:2050	Foundations of GIS	4
SEES:2673/ BIOL:2673	Ecology	3
SEES:3020	Earth Surface Processes	3
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
CHEM:1110	Principles of Chemistry I	4
STAT:2010	Statistical Methods and Computing	3
or STAT:3510/ IGPI:3510	Biostatistics	
One of these:		
SEES:2310	Introduction to Climatology	3
SEES:3320	Earth's Climate System	3

Electives

Students must complete at least 15 s.h. in courses from at least two elective categories. Elective categories and their corresponding courses can be found in the BS in earth and environmental sciences [p. 385] section of the catalog.

Combined Programs

BA/MAT

Students interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. The combined program enables students to earn a BA in geoscience and an MAT in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 19 s.h. of qualifying credit toward both degrees. For more information, see Science Education in the Master of Arts in Teaching (College of Education) section of the catalog. Interested students should consult an advisor.

Honors

Graduating with departmental honors and graduating with university honors are two opportunities available to high-achieving undergraduate students, each with specific and distinct requirements. Some students pursue both options while others pursue one or the other.

Honors in the Major

Within the College of Liberal Arts and Sciences, each major develops its own requirements to achieve honors in the major. In order to graduate with honors in the major, students in the School of Earth, Environment, and Sustainability (SEES) pursue study beyond the typical undergraduate level. They work under the direction of a faculty member to conduct original research and then prepare and present a written honors thesis based on their work.

Potential honors students must complete an honors thesis contract with their advisor and obtain approval from the

department's undergraduate committee by the first semester of their senior year or earlier. They are also required to register for SEES:4995 Honors Thesis as they work to complete their thesis, where they must earn a grade of B or higher. Additionally, SEES honors students must maintain a cumulative grade-point average of at least 3.33 in all University of Iowa and SEES coursework.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the earth and environmental sciences major.

Career Advancement

Graduates with degrees in earth and environmental sciences find jobs and careers with a variety of public, private, and nonprofit organizations with roles ranging from research to outreach. Completing the minimum requirements for this degree may not adequately prepare a student for an entry-level professional job in geology or the environmental sciences.

Possible careers include, but are not limited to environmental science consultant, state or U.S. Geological Survey scientist, state regulatory agency scientist, Environmental Protection Agency scientist, National Resource Conservation Service scientist, academic researcher (requires graduate school), environmental education teacher, K–12 education teacher, land manager or steward, museum curator, natural hazard assessment and mitigation scientist or manager, renewable energy scientist or manager, science writer and communication specialist, National Park Service guide, resource exploration and extraction scientist, nature facility scientist and program manager, and restoration designer and manager.

Academic Plans

Sample Plans

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e Students must complete at least 15 s.h. in courses from at least two elective categories. Elective categories and their corresponding courses can be found in the BS in earth and environmental sciences section of the General Catalog.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g STAT:2010 satisfies both the GE CLAS Core Quantitative or Formal Reasoning requirement and the statistics foundation course requirement for the major.

h Students who completed STAT:2010 have already satisfied the GE CLAS Core Quantitative or Formal Reasoning requirement.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Environmental Policy and Planning, BA

Learning Outcomes

Graduates will:

- recognize the connections and relationships between human and environmental activities and outcomes across space and time;
- identify key stakeholders and sources of information in the natural and social sciences to consider in developing solutions to environmental problems;
- be able to explain the role of policy and planning in addressing environmental issues locally, regionally, and globally;
- be capable of working collaboratively in interdisciplinary teams to design approaches to managing environmental problems; and
- understand and be able to implement key tools and methods for environmental planning and policy making.

Requirements

The Bachelor of Arts with a major in environmental policy and planning requires a minimum of 120 s.h., including at least 55 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Transfer students must complete a minimum of 15 s.h. of School of Earth, Environment, and Sustainability coursework in the major.

The BA with a major in environmental policy and planning requires the following coursework.

Requirements	Hours

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course.

Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f Students can opt to take AMST:1290 instead of ANTH:3103.

g Students can opt to take PSQF:4143, STAT:1030, STAT:2010, STAT:2020, or STAT:3510 instead of STAT:1020, but may also need to take an additional course to satisfy the GE CLAS Core Quantitative or Formal Reasoning requirement.

h Students can opt to take either CNW:3664 or JMC:3185 instead of JMC:1800, but would also need to take an additional course to satisfy the GE CLAS Core Values and Society requirement.

i See the General Catalog for list of approved courses.

j Choose from SEES:3400, SEES:3992, SEES:4995, CCP:1201.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Geographical and Sustainability Sciences, BA

Learning Outcomes

Graduates will:

- understand the role of spatial information and data in addressing social and environmental questions and the role of geography as a linchpin discipline that bridges social and biophysical sciences;
- understand the connections and relationships between human and environmental activities and outcomes across space and time;
- assess various points of view and perspectives while assessing complex social and environmental problems, to evaluate the factual basis of assertions, and to understand tradeoffs;
- be able to formulate testable hypotheses, apply quantitative or qualitative approaches and methodological tools to pertinent questions, and acquire secondary data or construct primary data sets when applicable;
- be able to communicate complex geographical and technical concepts using an appropriate vocabulary to a broad spectrum of audiences.

Requirements

The Bachelor of Arts with a major in geographical and sustainability sciences requires a minimum of 120 s.h., including at least 55 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Transfer students must complete a minimum of 15 s.h. of School of Earth, Environment, and Sustainability coursework in the major.

The BA with a major in geographical and sustainability sciences requires the following coursework.

Requirements	Hours
Foundation Courses	34-37
Elective Courses	21

Foundation Courses

Course #	Title	Hours
All of these:		
SEES:1035	Our Digital Earth	3
SEES:1070	Contemporary Environmental Issues	3
SEES:1085	Fundamentals of Environmental Science	4
SEES:1090	Globalization and Geographic Diversity	3
SEES:2010	Interdisciplinary Environmental Seminar	1
SEES:2013/ BUS:2013/ URP:2013	Introduction to Sustainability	3
SEES:2050	Foundations of GIS	4
SEES:2110/ GHS:2110	Eight Billion and Counting: Introduction to Population Dynamics	3
One of these:		
SEES:2310	Introduction to Climatology	3
SEES:2950	Environmental Conservation	4
One of these:		
CS:1110	Introduction to Computer Science	3
STAT:2010	Statistical Methods and Computing	3
STAT:3200/ DATA:3200/ IGPI:3200/ISE:3760	Applied Linear Regression	3
One of these:		
SEES:3400	Iowa Environmental Policy in Practice	3
SEES:3992	Undergraduate Research (or ICIGO)	1-3
CCP:1201	Academic Internship	1-3
One of these:		
SEES:4030	Senior Project Seminar	3
SEES:4995	Honors Thesis	3

Elective Courses

Students complete at least 21 s.h. of electives with at least one course chosen from each of four categories: environment, methods, society, and sustainability.

Environment Electives

Course #	Title	Hours
At least one of these:		
SEES:3315	Ecosystem Ecology	4
SEES:4310	Climate Change	3
SEES:4470	Ecological Climatology	3

Methods Electives

Course #	Title	Hours
At least one of these:		
SEES:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
SEES:3520/ IGPI:3520	GIS for Environmental Applications	3
SEES:3540/ IGPI:3540	Geographic Visualization	3
SEES:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
SEES:4010	Field Methods in Physical Geography	3
SEES:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3
SEES:4500/ IGPI:4500	Advanced Remote Sensing	4
SEES:4520/ IGPI:4520	GIS for Environmental Studies: Applications	3

Society Electives

Course #	Title	Hours
At least one of these:		
SEES:3090/ GHS:3070	Hungry Planet: Global Geographies of Food	3
SEES:3110/ GHS:3111	Geography of Health	3
SEES:3760/ GHS:3760	Hazards and Society	3
SEES:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3

Sustainability Electives

Course #	Title	Hours
At least one of these:		
SEES:3340	Ecosystem Services	3
SEES:3350	Urban Ecology	3
SEES:3920/ URP:3001	Planning Livable Cities	3
SEES:4210	Sustainability as a System Science	3
SEES:4750/ URP:4750	Environmental Impact Analysis	3

Honors

Graduating with departmental honors and graduating with university honors are two opportunities available to high-achieving undergraduate students, each with specific and distinct requirements. Some students pursue both options while others pursue one or the other.

Honors in the Major

Within the College of Liberal Arts and Sciences, each major develops its own requirements to achieve honors in the major. In order to graduate with honors in the major, students in the School of Earth, Environment, and Sustainability (SEES) pursue study beyond the typical undergraduate level. They work under the direction of a faculty member to conduct original research and then prepare and present a written honors thesis based on their work.

Potential honors students must complete an honors thesis contract with their advisor and obtain approval from the department's undergraduate committee by the first semester of their senior year or earlier. They are also required to register for SEES:4995 Honors Thesis credits as they work to complete their thesis, where they must earn a grade of B or higher. Additionally, SEES honors students must maintain a cumulative grade-point average of at least 3.33 in all University of Iowa and SEES coursework.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the geographical and sustainability sciences major.

Career Advancement

Graduates with degrees in geographical and sustainability sciences find jobs and careers with a variety public, private, and nonprofit organizations with roles ranging from research to outreach. Possible careers include GIS technician, sustainability coordinator/specialist in the private or public sector, state regulatory agency scientist, Environmental Protection Agency scientist, National Resource Conservation Service scientist, academic researcher (requires graduate school), social science teacher, K–12 education teacher, land manager or steward, city planner, natural hazard assessment and mitigation scientist or manager, renewable energy scientist or manager, science writer and communication specialist, water industry researcher, carbon management policy specialist, nature facility scientist and program manager, and restoration designer and manager.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students complete at least 21 s.h. in track electives including at least one course from each of four categories: environment, methods, society, and sustainability. See the General Catalog for list of approved courses.

f Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Earth and Environmental Sciences, BS

Earth and environmental sciences majors study the geologic, hydrologic, atmospheric, and biotic systems that make up the dynamic Earth, with an emphasis on local and global interactions between these systems in the present and over deep time. The major comprises three tracks: earth and planetary science, environmental bioscience, and environmental geoscience. Within these tracks, students examine planetary and ecological processes emphasizing how planets, their environments, and life have evolved and continue to evolve; how recent human actions interact with surface processes to support or distress living organisms, air, and water; how altered ecosystem structure and function impacts population and community dynamics across diverse spatial and temporal scales; and how past and present changes within the Earth's systems, both big and small, may inform expectations around, and solutions to, future change. The integrated biological, chemical, physical, and geological components of the degree program offer students flexibility and exposure to the entire geoscience and environmental discipline while at the university and prepare them for either employment directly following graduation or continuation to graduate school.

Learning Outcomes

Graduates will:

- understand planetary and ecosystem processes across diverse spatial and temporal scales;
- understand past and present interactions within the Earth-life system, including human interactions and interventions;
- develop the ability to collect and interpret environmental field data within a focused sub-discipline of earth and environmental sciences; and
- develop a quantitative, analytical skill set to integrate the diverse array of earth sciences and related disciplines.

Requirements

The Bachelor of Science with a major in earth and environmental sciences requires a minimum of 120 s.h., including 72–82 s.h. of work for the major, depending on the student's chosen track (earth and planetary science, environmental bioscience, or environmental geoscience). Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core. Transfer students must complete a minimum of 15 s.h. of School of Earth, Environment, and Sustainability coursework in the major.

The BS with a major in earth and environmental sciences requires the following coursework.

Requirements	Hours
Foundation Courses	23
Track Courses	31-50
Electives	9-18

Foundation Courses

Course #	Title	Hours
All of these:		
SEES:1070	Contemporary Environmental Issues	3
SEES:1085	Fundamentals of Environmental Science	4
SEES:2010	Interdisciplinary Environmental Seminar	1
SEES:2050	Foundations of GIS	4
CHEM:1110	Principles of Chemistry I	4
MATH:1850	Calculus I	4
One of these:		
CS:1110	Introduction to Computer Science	3
STAT:2010	Statistical Methods and Computing	3
STAT:3510/ IGPI:3510	Biostatistics	3

Tracks

Students must complete one of three tracks: earth and planetary science [p. 385], environmental bioscience [p. 386], or environmental geoscience [p. 386]. Courses taken to complete a track requirement may not also be used to satisfy the electives requirement.

Earth and Planetary Science Track

Students in the earth and planetary science track must complete 45—46 s.h. in earth and planetary science track courses, a 3—4 s.h. allied math or science course, and 9 s.h. in elective courses.

Earth and Planetary Science Track Courses

Course #	Title	Hours
All of these:		
SEES:1040	Evolution and the History of Life (with laboratory)	4
SEES:1050	Introduction to Geology	4
SEES:2200	Historical Geology	4
SEES:2410	Mineralogy	4
SEES:2831	Geologic Field Methods	3
SEES:3330	Sedimentary Geology	4
SEES:3510	Igneous and Metamorphic Petrology	4
SEES:3840	Structural Geology	4
SEES:4832	Geologic Field Analysis	3
CHEM:1120	Principles of Chemistry II	4
PHYS:1511	College Physics I	4
or PHYS:1611	Introductory Physics I	
One of these:		
SEES:3210	Principles of Paleontology	3
SEES:3608	Planetary Geology	3
SEES:4490	Elements of Geochemistry	3
SEES:4630	Hydrogeology	4
SEES:4790	Applied Environmental Geology	3
SEES:4800	Global Geophysics	3

Allied Math or Science Course

Course #	Title	Hours
One of these:		
a biology course (prefix BIOL)		4
a chemistry course (prefix CHEM) numbered above 1120		3-4
a mathematics course (prefix MATH) numbered 1860 or above		3-4
a statistics course (prefix STAT) numbered 2000 or above		3-4
PHYS:1512	College Physics II	4
PHYS:1612	Introductory Physics II	4

Students with an interest in paleontology are encouraged to take BIOL:1411 Foundations of Biology and BIOL:1412 Diversity of Form and Function.

Earth and Planetary Science Track Electives

Students in this track must complete an additional 9 s.h. in elective courses. At least 9 s.h. of the elective courses must be in School of Earth, Environment, and Sustainability Studies (prefix SEES) numbered 3000 or above. Refer to the "Electives" section that follows to see electives categories and their corresponding courses.

Students may not use any course to satisfy more than one requirement.

Environmental Bioscience Track

Students in the environmental bioscience track must complete 31—33 s.h. in environmental bioscience track courses and 18 s.h. in elective courses.

Environmental Bioscience Track Courses

Course #	Title	Hours
All of these:		
SEES:2673/ BIOL:2673	Ecology	3
SEES:3020	Earth Surface Processes	3
SEES:3315	Ecosystem Ecology	4
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
CHEM:1120	Principles of Chemistry II	4
One of these:		
SEES:2374/ BIOL:2374	Biogeography	3
SEES:2950	Environmental Conservation	4
SEES:3070	Marine Ecosystems and Conservation	3
One of these:		
SEES:2310	Introduction to Climatology	3
SEES:3320	Earth's Climate System	3
One of these:		
SEES:3220	Evolution of the Vertebrates	4
BIOL:1261	Introduction to Botany	4
BIOL:2246	Entomology Lab	4
An approved organismal course at the Iowa Lakeside Laboratory (prefix IALL)		3-4

Environmental Bioscience Track Electives

Students in this track must complete at least 18 s.h. in elective courses, including at least one course from the field study category and one course from each of three other categories. At least 9 s.h. of the elective courses must be numbered 3000 or above. Refer to the "Electives" section that follows to see electives categories and their corresponding courses.

Students may not use any course to satisfy more than one requirement.

Environmental Geoscience Track

Students in the environmental geoscience track must complete 43 s.h. in environmental geoscience track courses and 12 s.h. in elective courses.

Environmental Geoscience Track Courses

Course #	Title	Hours
All of these:		
SEES:1050	Introduction to Geology	4
SEES:2673/ BIOL:2673	Ecology	3
SEES:3020	Earth Surface Processes	3
SEES:3330	Sedimentary Geology	4
SEES:3360	Soil Genesis and Geomorphology	3
SEES:4630	Hydrogeology	4
SEES:4790	Applied Environmental Geology	3
CHEM:1120	Principles of Chemistry II	4
MATH:1860	Calculus II	4
One of these sequences:		
PHYS:1511 & PHYS:1512	College Physics I and College Physics II	8
PHYS:1611 & PHYS:1612	Introductory Physics I and Introductory Physics II	8
One of these:		
SEES:2310	Introduction to Climatology	3
SEES:3320	Earth's Climate System	3

Environmental Geoscience Track Electives

Students in this track must complete at least 12 s.h. in elective courses, including at least one course from the field study category and one from each of three other categories. At least 9 s.h. of the elective courses must be numbered 3000 or above. Refer to the "Electives" section that follows to see electives categories and their corresponding courses.

Students may not use any course to satisfy more than one requirement.

Electives

Elective courses each fall into one of five categories: chemistry [p. 387], earth systems [p. 387], ecology and the biosphere [p. 387], field study [p. 387], or research and internships [p. 387]. All students must complete at least 3 s.h. from the field study category except for students in the earth and planetary science track. Students in the environmental bioscience or environmental geoscience track must select courses from at least three additional elective categories. At least three of the elective courses must be numbered 3000 or above.

Field Study Electives

Course #	Title	Hours
At least 3 s.h. from these:		
SEES:1179 & SEES:1180	Geology of National Parks: Preparation and Planning and Geology of National Parks: Field Trip	3
SEES:2001	Second-Year Field Trip for Earth and Environmental Sciences	1
SEES:2831	Geologic Field Methods	3
SEES:3001	Third-Year Field Trip for Earth and Environmental Sciences	1
SEES:3095	Field Ecology	4
SEES:3096	Winter Ecology	2
SEES:3097	Introduction to Bird Study	2
SEES:3160	Field Trip	1-3
SEES:3230	Prairie Restoration	3
SEES:4001	Fourth-Year Field Trip for Earth and Environmental Sciences	2
SEES:4010	Field Methods in Physical Geography	3
SEES:4680	Field Methods in Hydrologic Science	3
SEES:4832	Geologic Field Analysis	3
Approved Iowa Lakeside Laboratory courses (prefix IALL)		

Chemistry Electives

Course #	Title	Hours
SEES:4110	Global Biogeochemical Cycles	3
SEES:4490	Elements of Geochemistry	3
CEE:4150/CBE:4420	Environmental Chemistry	3
CEE:4158/ OEH:4920	Solid and Hazardous Wastes	3

SEES:4995	Honors Thesis	arr.
BIOL:3994	Introduction to Research	1-3
BIOL:4999	Honors Research in Biology	arr.
CCP:1201	Academic Internship	1-3

Honors

Graduating with departmental honors and graduating with university honors are two opportunities available to high-achieving undergraduate students, each with specific and distinct requirements. Some students pursue both options while others pursue one or the other.

Honors in the Major

Within the College of Liberal Arts and Sciences, each major develops its own requirements to achieve honors in the major. In order to graduate with honors in the major, students in the School of Earth, Environment, and Sustainability (SEES) pursue study beyond the typical undergraduate level. They work under the direction of a faculty member to conduct original research and then prepare and present a written honors thesis based on their work.

Potential honors students must complete an honors thesis contract with their advisor and obtain approval from the department's undergraduate committee by the first semester of their senior year or earlier. They are also required to register for SEES:4995 Honors Thesis as they work to complete their thesis, where they must earn a grade of B or higher. Additionally, SEES honors students must maintain a cumulative grade-point average of at least 3.33 in all University of Iowa and SEES coursework.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the earth and environmental sciences major.

Career Advancement

Graduates with degrees in earth and environmental sciences find jobs and careers with a variety of public, private, and nonprofit organizations with roles ranging from research to outreach. Possible careers include environmental science consultant, state or U.S. Geological Survey scientist, state regulatory agency scientist, Environmental Protection Agency scientist, National Resource Conservation Service scientist, academic researcher (requires graduate school), environmental education teacher, K–12 education teacher, land manager or steward, museum curator, natural hazard assessment and mitigation scientist or manager, renewable energy scientist or manager, science writer and communication specialist, National Park Service guide, resource exploration and extraction scientist, nature facility scientist and program manager, and restoration designer and manager.

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Earth and Environmental Sciences, BS

	Total Hours	**127-138**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Select one course from SEES: 3210, SEES:3608, SEES:4490, SEES:4630, SEES:4790, SEES:4800

g Students must complete at least 9 s.h. in elective courses from the School of Earth, Environmental, and Sustainability Studies (prefix SEES) numbered 3000 or above. See the General Catalog for list of approved courses.

h See the General Catalog for additional math or supporting science course options.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Geographical and Sustainability Sciences, BS

Learning Outcomes

Graduates will:

- understand the complex processes that connect humans to natural systems and the analytical and methodological tools used to model them and assess them;
- develop fundamental spatial thinking and real-world problem-solving skills using spatial thinking and GIS concepts and methods;
- analyze the potential impact of decisions given competing information, perceptions, and goals using interdisciplinary science-based methods and approaches;
- be able to use and develop techniques and software tools necessary for professional practice while observing ethical standards in regard to privacy, security, and communication;
- engage with stakeholders in the co-production and creation of appropriate solutions to sustainability challenges.

Requirements

The Bachelor of Science with a major in geographical and sustainability sciences requires a minimum of 120 s.h., including 69–75 s.h. of work for the major depending on a student's choice of track (geographic information science or sustainability science). Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Transfer students must complete a minimum of 15 s.h. of School of Earth, Environment, and Sustainability coursework in the major.

The BS with a major in geographical and sustainability sciences requires the following coursework.

Requirements	Hours
Foundation Courses	27-28
Track Requirements	42-47

Foundation Courses

Course #	Title	Hours
All of these:		
SEES:1070	Contemporary Environmental Issues	3
SEES:1085	Fundamentals of Environmental Science	4
SEES:2010	Interdisciplinary Environmental Seminar	1
SEES:2050	Foundations of GIS	4
One of these:		
SEES:2310	Introduction to Climatology (sustainability science track students may not select this option)	3
SEES:2374/ BIOL:2374	Biogeography	3
SEES:2930	Water Resources	3
SEES:2950	Environmental Conservation (sustainability science track students may not select this option)	4
SEES:3320	Earth's Climate System	3
One of these:		
SEES:1090	Globalization and Geographic Diversity	3
SEES:2110/ GHS:2110	Eight Billion and Counting: Introduction to Population Dynamics (sustainability science track students may not select this option)	3
SEES:2910	The Global Economy	3
One of these:		
CS:1110	Introduction to Computer Science	3
STAT:2010	Statistical Methods and Computing	3
STAT:3200/ DATA:3200/ IGPI:3200/ISE:3760	Applied Linear Regression	3
At least one of these (for a total of 3 sh):		
SEES:3400	Iowa Environmental Policy in Practice	3
SEES:3992	Undergraduate Research (or ICIGO)	1-3
CCP:1201	Academic Internship	1-3
One of these:		
SEES:4030	Senior Project Seminar	3
SEES:4995	Honors Thesis	3

Tracks

Students must complete one of two tracks: geographic information science or sustainability science. Students may not use any course to satisfy more than one requirement.

Geographic Information Science Track

Students in the geographic information science track complete 30—31 s.h. in common track courses and at least 12 s.h. in elective courses.

Geographic Information Science Track Courses

Course #	Title	Hours
All of these:		
SEES:1020	The Global Environment	3
SEES:1035	Our Digital Earth	3
SEES:3050/ IGPI:3050	Geospatial Programming	3
SEES:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
SEES:3520/ IGPI:3520	GIS for Environmental Applications	3
SEES:3540/ IGPI:3540	Geographic Visualization	3

SEES:4010	Field Methods in Physical Geography	3
SEES:4580/ IGPI:4581	Introduction to Geographic Databases	3
Two of these:		
SEES:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
SEES:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3
SEES:4500/ IGPI:4500	Advanced Remote Sensing	4
SEES:4520/ IGPI:4520	GIS for Environmental Studies: Applications	3

Geographic Information Science Track Electives

Students in the geographic information science track complete at least 12 s.h. in track electives, including at least 3 s.h. selected from each of three categories: computer science; math and statistics; and society, environment, and sustainability.

Computer Science Elective Courses

Course #	Title	Hours
At least one of these:		
CS:1210	Computer Science I: Fundamentals	4
CS:2110	Programming for Informatics	4
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
CS:3210	Programming Languages and Tools	arr.

Mathematics and Statistics Elective Courses

Course #	Title	Hours
At least one of these:		
MATH:1010	Trigonometry	3
STAT:2010	Statistical Methods and Computing	3
STAT:3200/ DATA:3200/ IGPI:3200/ISE:3760	Applied Linear Regression	3
STAT:3510/ IGPI:3510	Biostatistics	3

Society, Environment, and Sustainability Elective Courses

Course #	Title	Hours
At least one of these:		
SEES:3090/ GHS:3070	Hungry Planet: Global Geographies of Food	3
SEES:3110/ GHS:3111	Geography of Health	3
SEES:3315	Ecosystem Ecology	4
SEES:3340	Ecosystem Services	3
SEES:3350	Urban Ecology	3
SEES:3760/ GHS:3760	Hazards and Society	3
SEES:3920/ URP:3001	Planning Livable Cities	3
SEES:4210	Sustainability as a System Science	3
SEES:4310	Climate Change	3
SEES:4470	Ecological Climatology	3
SEES:4750/ URP:4750	Environmental Impact Analysis	3
SEES:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3

Sustainability Science Track

Students in the sustainability science track complete 24—26 s.h. in common track courses and at least 21 s.h. in elective courses.

Sustainability Science Track Courses

Course #	Title	Hours
All of these:		
SEES:2013/ BUS:2013/ URP:2013	Introduction to Sustainability	3
SEES:2110/ GHS:2110	Eight Billion and Counting: Introduction to Population Dynamics	3
SEES:2310	Introduction to Climatology	3
SEES:3800	Environmental Policy	3
SEES:4210	Sustainability as a System Science	3
One of these:		
SEES:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3
POLI:2417	Comparative Environmental Policy	3
One of these:		
SEES:2673/ BIOL:2673	Ecology	3
SEES:3315	Ecosystem Ecology	4
One of these:		
SEES:2950	Environmental Conservation	4
SEES:3350	Urban Ecology	3

Sustainability Science Track Electives

Students in the sustainability science track complete at least 21 sh. in track electives, including at least 3 s.h. selected from each of five categories: communications, human systems, integrated natural and human systems, methods, and natural systems. Courses taken to complete a foundation course or track requirement may not also be used to satisfy the electives requirement.

Communications Elective Courses

Course #	Title	Hours
At least one of these:		
CNW:3664/ ENGL:3764	Writing About Science	3
JMC:1800	Environmental Communication	3
JMC:3185	Topics in Understanding Media	3

Human Systems Elective Courses

Course #	Title	Hours
At least one of these:		
SEES:3300/ GHS:3300	Envisioning Future Worlds: Sustainable Development and Its Alternatives	3
SEES:3780/ GHS:3780/ HIST:3240/ POLI:3431	U.S. Energy Policy in Global Context	3
SEES:3920/ URP:3001	Planning Livable Cities	3
SEES:4750/ URP:4750	Environmental Impact Analysis	3
SEES:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3
ECON:3650	Policy Analysis	3
ENTR:3700	Sustainable Innovation and Management	3
POLI:2417	Comparative Environmental Policy	3

Integrated Natural and Human Systems Elective Courses

Course #	Title	Hours
At least one of these:		
SEES:2930	Water Resources	3
SEES:2950	Environmental Conservation	4
SEES:3331	Human Dimensions of Climate	3
SEES:3760/ GHS:3760	Hazards and Society	3
SEES:4310	Climate Change	3
ANTH:2261	Human Impacts on the Environment	3

Methods Elective Courses

Course #	Title	Hours
At least one of these:		
SEES:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
SEES:3520/ IGPI:3520	GIS for Environmental Applications	3
SEES:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
SEES:4010	Field Methods in Physical Geography	3
SEES:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3
SEES:4500/ IGPI:4500	Advanced Remote Sensing	4
SEES:4520/ IGPI:4520	GIS for Environmental Studies: Applications	3

Natural Systems Elective Courses

Course #	Title	Hours
At least one of these:		
SEES:2673/ BIOL:2673	Ecology	3
SEES:3070	Marine Ecosystems and Conservation	3
SEES:3080	Introduction to Oceanography	2
SEES:3095	Field Ecology	4
SEES:3315	Ecosystem Ecology	4
SEES:3350	Urban Ecology	3
SEES:3360	Soil Genesis and Geomorphology	3
SEES:4110	Global Biogeochemical Cycles	3
SEES:4470	Ecological Climatology	3
SEES:4600	Biogeography, Ecology, and Conservation of Mammals	4
Iowa Lakeside Laboratory course (prefix IALL) approved by advisor		

Honors

Graduating with departmental honors and graduating with university honors are two opportunities available to high-achieving undergraduate students, each with specific and distinct requirements. Some students pursue both options while others pursue one or the other.

Honors in the Major

Within the College of Liberal Arts and Sciences, each major develops its own requirements to achieve honors in the major. In order to graduate with honors in the major, students in the School of Earth, Environment, and Sustainability (SEES) pursue study beyond the typical undergraduate level. They work under the direction of a faculty member to conduct original research and then prepare and present a written honors thesis based on their work.

Potential honors students must complete an honors thesis contract with their advisor and obtain approval from the department's undergraduate committee by the first semester of their senior year or earlier. They are also required to register for SEES:4995 Honors Thesis as they work to complete their thesis, where they must earn a grade of B or higher. Additionally, SEES honors students must maintain a cumulative grade-point average of at least 3.33 in all University of Iowa and SEES coursework.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the geographical and sustainability sciences major.

Career Advancement

Graduates with degrees in geographical and sustainability sciences find jobs and careers with a variety of public,

private, and nonprofit organizations with roles ranging from research to outreach. Possible careers include GIS technician, sustainability coordinator/specialist in the private or public sector, state regulatory agency scientist, Environmental Protection Agency scientist, National Resource Conservation Service scientist, academic researcher (requires graduate school), social science teacher, K–12 education teacher, land manager or steward, city planner, natural hazard assessment and mitigation scientist or manager, renewable energy scientist or manager, science writer and communication specialist, water industry researcher, carbon management policy specialist, nature facility scientist and program manager, and restoration designer and manager.

Academic Plans

Sample Plans

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Major: track elective course (from any category) [e]		3
GE CLAS Core: Values and Society [g]		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [i]		
	Hours	**15-16**
	Total Hours	**122-131**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

d Note: SEES:2110 also satisfies the GE CLAS Core Social Sciences requirement.

e Students complete at least 12 s.h. in track electives including at least 3 s.h. selected from each of three categories: computer science; mathematics and statistics; and society, environment, and sustainability. See the General Catalog for list of approved courses.

f Complete one course from SEES:2310, SEES:2374, SEES:2930, SEES:2950, SEES:3320.

g GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

h Complete two courses from SEES:3570, SEES:4150, SEES:4500, SEES:4520.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

d Students complete at least 21 s.h. in track electives including at least 3 s.h. selected from each of five categories: communications; human systems; integrated natural and human systems; methods; and natural systems. See the General Catalog for list of approved courses.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f Note: CS:1110 or STAT:2010 can be taken to also satisfy the GE CLAS Core Quantitative or Formal Reasoning requirement.

g Students may take SEES:2950 to satisfy this foundation requirement if not planning to take the course later and count it toward the track requirements.

h Students must take SEES:3350 to satisfy this track requirement if they previously completed SEES:2950 as a foundation course.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Earth and Environmental Sciences, Minor

Requirements

The undergraduate minor in earth and environmental sciences requires a minimum of 15 s.h. selected from earth and environmental sciences BS courses. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

College-level courses in mathematics, physics, chemistry, and biology are usually required as collateral work for earth and environmental sciences students. Those seeking a minor in earth and environmental sciences should be sufficiently prepared in the areas of supporting sciences before they take advanced courses.

The minor in earth and environmental sciences is intended for students who are interested in the fundamentals of geology or earth science as it pertains to a primary major. It is most applicable to students pursuing allied sciences, such as the environmental policy and planning or geographic and sustainability sciences majors, or an associated degree in the colleges of Education, Engineering, Liberal Arts and Sciences, or another unit. Completing the minimum requirements for this minor may not adequately prepare a student for an entry-level professional job in geology or the environmental sciences.

The minor in earth and environmental sciences requires the following coursework.

Foundation Courses

Course #	Title	Hours
One of these for 4 s.h.:		
SEES:1030/ CEE:1030	Introduction to Earth Science	4
SEES:1050	Introduction to Geology	4
SEES:1080	Introduction to Environmental Science	4
SEES:1085	Fundamentals of Environmental Science	4
One of these:		
SEES:2673/ BIOL:2673	Ecology	3
SEES:3020	Earth Surface Processes	3

Electives

Students must complete at least 8 s.h. in elective courses.

Course #	Title	Hours
At least one of these:		
SEES:1040	Evolution and the History of Life	3-4
SEES:1050	Introduction to Geology	4
SEES:2200	Historical Geology	4
SEES:2310	Introduction to Climatology	3
SEES:2374/ BIOL:2374	Biogeography	3
SEES:2410	Mineralogy	4
SEES:2950	Environmental Conservation	4
SEES:3070	Marine Ecosystems and Conservation	3
SEES:3080	Introduction to Oceanography	2
SEES:3210	Principles of Paleontology	3
SEES:3220	Evolution of the Vertebrates	4
SEES:3315	Ecosystem Ecology	4
SEES:3320	Earth's Climate System	3
SEES:3330	Sedimentary Geology	4
SEES:3350	Urban Ecology	3
SEES:3360	Soil Genesis and Geomorphology	3
SEES:3380/ CEE:3328	Fluvial Geomorphology	3
SEES:3390	Integrated Watershed Analysis	3
SEES:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
SEES:3510	Igneous and Metamorphic Petrology	4
SEES:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
SEES:3608	Planetary Geology	3
SEES:3840	Structural Geology	4
SEES:4110	Global Biogeochemical Cycles	3
SEES:4310	Climate Change	3
SEES:4490	Elements of Geochemistry	3
SEES:4500/ IGPI:4500	Advanced Remote Sensing	4
SEES:4600	Biogeography, Ecology, and Conservation of Mammals	4
SEES:4630	Hydrogeology	4
SEES:4640	Contaminant Hydrogeology	3
SEES:4720	Paleoclimatology	3
SEES:4760	Mineral and Petroleum Exploration Geology	3
SEES:4790	Applied Environmental Geology	3
SEES:4800	Global Geophysics	3
BIOL:1261	Introduction to Botany	4
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
BIOL:2246	Entomology Lab	4
CEE:4150/CBE:4420	Environmental Chemistry	3
CHEM:3120	Spectroscopy and Separations	3
CHEM:4760	Radiochemistry: Energy, Medicine, and the Environment	3
At least one of these:		
SEES:2001	Second-Year Field Trip for Earth and Environmental Sciences	1
SEES:2831	Geologic Field Methods	3

SEES:3001	Third-Year Field Trip for Earth and Environmental Sciences	1
SEES:3095	Field Ecology	4
SEES:3096	Winter Ecology	2
SEES:3097	Introduction to Bird Study	2
SEES:3230	Prairie Restoration	3
SEES:4001	Fourth-Year Field Trip for Earth and Environmental Sciences	2
SEES:4010	Field Methods in Physical Geography	3
SEES:4680	Field Methods in Hydrologic Science	3
CHEM:3430	Analytical Measurements	3
approved Iowa Lakeside Laboratory courses (prefix IALL)		

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Earth and Environmental Sciences, Minor

Course	Title	Hours

Geographic Information Science, Certificate

Requirements

The undergraduate Certificate in Geographic Information Science requires a minimum of 19 s.h. of credit, including at least 12 s.h. earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in work for the certificate. Courses taken pass/nonpass do not count toward the certificate.

The certificate is designed to provide the knowledge and skills needed to work with geographic information and prepare individuals to work in this growing profession. The certificate coursework helps build a knowledgeable geospatial workforce that understands how to use geographic information science properly and applies this understanding to improve transportation systems, improve water quality, or make companies more productive.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Students who are interested in a specialization in geographic information systems, in remote sensing, or those who seek a more general background may want to select certain options when they plan their certificate coursework. For more information, contact the School of Earth, Environment, and Sustainability.

Students must complete all of a course's prerequisites before they register for the course.

The Certificate in Geographic Information Science requires the following coursework.

Core Courses

Course #	Title	Hours
All of these:		
SEES:2050	Foundations of GIS	4
SEES:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
SEES:3540/ IGPI:3540	Geographic Visualization	3

Geographic Analysis Electives

Course #	Title	Hours
At least one of these:		
SEES:3050/ IGPI:3050	Geospatial Programming	3
SEES:4500/ IGPI:4500	Advanced Remote Sensing	4
SEES:4580/ IGPI:4581	Introduction to Geographic Databases	3

Application Electives

Course #	Title	Hours
At least two of these:		
SEES:1035	Our Digital Earth	3
SEES:3520/ IGPI:3520	GIS for Environmental Applications	3
SEES:3570	Light Detection and Ranging (LiDAR): Principles and Applications	3
SEES:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Choose from SEES:3050, SEES:4500, SEES:4580.

b Choose from SEES:1035, SEES:3520, SEES:3570, SEES:4150.

Sustainability, Certificate

Requirements

The undergraduate Certificate in Sustainability requires at least 24 s.h. of credit. Students must maintain a grade-point average of at least 2.00 in work for the certificate. Certificate courses may not be taken pass/nonpass.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

A course may be used to satisfy only one certificate requirement.

The Certificate in Sustainability requires the following coursework.

Requirements	Hours
Introductory Core	12-13
Breadth Electives	9
Project/Integrative Systems	3

Introductory Core

Course #	Title	Hours
Both of these:		
SEES:1070	Contemporary Environmental Issues	3
SEES:2013/ BUS:2013/ URP:2013	Introduction to Sustainability	3
One of these:		
ENGL:1510	Introduction to Environmental Literature	3
JMC:1800	Environmental Communication	3
One of these:		
SEES:1080	Introduction to Environmental Science	3-4
SEES:1085	Fundamentals of Environmental Science	4

Breadth Electives

Students complete at least 3 s.h. in each of three breadth areas: communication, ethics, and interpretation; dynamics of human systems; and dynamics of natural systems.

Communication, Ethics, and Interpretation

Course #	Title	Hours
At least 3 s.h. from these:		
SEES:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3
AFAM:2770/ GHS:2770/ SOC:2770	Black and White Community Politics	3
CNW:2740	The Art and Craft of Writing about the Environment	3
ENGL:2329	Topics in Modern British Literature Before 1900 (when topic is British literature and environmental history)	3
ENGL:3565	Literature and the Environment	3
ENTR:3500	Social Entrepreneurship	3

Geography, MA

Learning Outcomes

Thesis Program

Students who successfully complete the MA program with a thesis in geography will demonstrate:

- both broad knowledge of the field of geography and deep knowledge in their area of research concentration;
- an ability to communicate their research concisely and effectively to both general and specialist audiences in written and verbal formats;
- an ability to formulate research questions; select, design, and apply appropriate research methods (e.g., testable hypotheses, data collection, management, analytical techniques); and utilize critical thinking skills to build knowledge, theory, and/or practice in their area of research concentration;
- competence in teaching geography, environmental, or sustainability-related courses; and
- understanding of and an ability to operate under professional standards of ethical conduct.

Requirements

The Master of Arts in geography requires a minimum of 30 s.h. of graduate credit with thesis and 32 s.h. of graduate credit without thesis. Students must maintain a Graduate College program grade-point average of at least 3.00. The MA is designed to be completed in four semesters.

Thesis students must earn 15 s.h. of credit in courses numbered 3000 or above. These hours include up to 6 s.h. of thesis credit and 2 s.h. earned in SEES:7000 School of Earth, Environment, and Sustainability Research Colloquium. Students who earn more than 30 s.h. may use the additional work to increase their breadth of knowledge in their field and to tailor their program of study to their individual interests.

Nonthesis students build skills across a range of topics in geographical and sustainability sciences during their first year and develop skills in particular application areas during their second year. They must earn 15 s.h. of credit in School of Earth, Environment, and Sustainability Sciences courses (prefix SEES) numbered 5000 and above.

Students demonstrate competence by completing appropriate coursework and completing and defending an MA thesis (for thesis students) or completing a portfolio of finished work and having it reviewed (nonthesis students).

More information is available on the School of Earth, Environment, and Sustainability website.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Application information can be found on the School of Earth, Environment, and Sustainability website.

A bachelor's degree with a major in geography is not required, but applicants must have an undergraduate background relevant to the field. Strength in social science, environmental science, or geographic information science and interest in exploring the spatial perspectives that characterize modern geography are important in admission decisions.

Career Advancement

Graduates hold a wide variety of positions with colleges and universities, private research organizations, and business and government and frequently go on to complete doctoral studies. The degree also provides a solid background for professions including law, health care, environmental engineering, and business.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

b Must earn 15 s.h. of credit in Geographical and Sustainability Sciences courses numbered 5000 or above. Work with faculty advisor to determine appropriate graduate level coursework and sequence.
c Required every semester; may count 2 s.h. earned in SEES:7000 toward the degree.
d Work with faculty advisor to determine appropriate elective coursework and sequence.
e Completed and approved portfolio of finished work.

Geoscience, MS

The MS in geoscience is regarded by most hiring agencies as the working degree. The master's program in geoscience prepares students for employment in industry or for doctoral study.

Learning Outcomes

Graduates will demonstrate the ability to:

- develop subject matter expertise and broad knowledge in the field of geoscience;
- conduct research under the direction of a faculty member and interact successfully with other members of a research team;
- effectively communicate research findings in both written and oral formats;
- conduct all aspects of research and teaching with the highest ethical standards; and
- be prepared for career options in academia, industry, government, or other relevant fields.

Requirements

The Master of Science in geoscience requires a minimum of 30 s.h. of graduate credit. The MS is designed to be completed in two years, and students must maintain a Graduate College program grade-point average of at least 3.00. Students may count up to 8 s.h. of research credit toward the 30 s.h. required for the degree. They must earn at least 24 s.h. toward the degree in University of Iowa courses taken after they enroll in the program.

All entering students are required to enroll in SEES:7270 Orientation, Scholarly Integrity, and Responsible Conduct of Research during the fall semester of their first year in the graduate program.

During the second semester of study, each student should propose an advisory committee of at least three faculty members to the department chair for approval. Thesis students are responsible for obtaining their advisory committee's approval of a suitable program of coursework and for satisfactory development of research plans as outlined in a thesis proposal, which should be completed and approved by the department chair before the end of the second semester of full-time study. The thesis typically has depth and breadth similar to those of a published research paper. Thesis students must deliver a half-hour public presentation of their thesis followed by an oral defense.

Admission

Applicants for admission to the MS in geoscience should have a bachelor's degree in geoscience, earth science, or a related discipline relevant to the field. Depending on their prior training, graduate students may be required to take courses that are prerequisites for coursework in their chosen area of graduate study. For application information, contact the School of Earth, Environment, and Sustainability or visit their website.

All geoscience graduate students must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. They also should acquaint themselves with the university calendar and application deadlines within the School of Earth, Environment, and Sustainability.

Career Advancement

Career opportunities are readily available for geoscience graduates. Professional geoscientists work in environmental companies, resource companies, educational institutions, conservation agencies, state and federal agencies, and government resource and research organizations.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

c Complete during first year fall semester.

d Courses selected should reflect the individual needs, interests, and talents of the student; work with faculty advisor to determine appropriate graduate elective coursework and sequence.

e Students may count up to 8 s.h. of research credit toward the 30 s.h. required for the degree.

f Consists of a half-hour public presentation of thesis followed by an oral defense.

Geography, PhD

Learning Outcomes

Students who successfully complete the geography doctoral program in the School of Earth, Environment, and Sustainability will demonstrate:

- both broad knowledge of the field of geography and deep knowledge in their area of research concentration;
- an ability to communicate their research concisely and effectively to both general and specialist audiences in written and verbal formats;
- an ability to formulate research questions; select, design, and apply appropriate research methods (e.g., testable hypotheses, data collection, management, analytical techniques); and utilize critical thinking skills to build knowledge, theory, and/or practice in their area of research concentration;
- competence in teaching geography, environmental, or sustainability-related courses; and
- understanding of and an ability to operate under professional standards of ethical conduct.

Requirements

The Doctor of Philosophy in geography requires 72 s.h. of graduate credit and is designed to be completed in four or five years. Students must maintain a Graduate College program grade-point average of at least 3.00.

All PhD students take the following courses. They take SEES:7000 School of Earth, Environment, and Sustainability Research Colloquium each semester they are in residence.

Course #	Title	Hours
SEES:5010	School of Earth, Environment, and Sustainability Foundations	3
SEES:5050	Research and Writing	3
SEES:7000	School of Earth, Environment, and Sustainability Research Colloquium (taken each semester)	1

Students complete a set of research milestones, including a research paper, an area of concentration bibliography, and a written qualifying examination in the discipline. With the approval of the dissertation advisor, each student submits a dissertation proposal to the dissertation committee for critical comments, oral questioning, and approval. Once the dissertation is completed, an oral defense of the dissertation is held.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Application information can be found on the School of Earth, Environment, and Sustainability website.

A previous degree in geography is not required, but applicants must have an academic background relevant to the field. Strength in social science, environmental science, geographic information science, or another relevant field and interest in exploring the spatial perspectives that characterize modern geography are important in admission decisions.

Career Advancement

The Doctor of Philosophy program prepares students to carry on creative and productive research in geography and related fields. University of Iowa graduates hold positions in college and university faculties, private research organizations, and business and government.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

c Work with faculty advisor to determine appropriate elective coursework and sequence.
d Required every semester.
e Written exam typically taken by the end of the fifth semester; refer to the Graduate Handbook for specifics.
f Choose from courses numbered 6500 through 6900.
g Typically completed by the end of the sixth semester.
h Dissertation defense.

Geoscience, PhD

A PhD in geoscience is designed to bring students to the forefront of a specialized area of geoscience for future employment in higher education, industry, or government research.

Learning Outcomes

Graduates will demonstrate the ability to:

- develop broad knowledge in the field of geoscience and identify important research problems through the development of subject matter expertise;
- develop a research framework including testable hypotheses, and conduct original independent research that contributes new knowledge to the field of study;
- effectively communicate research findings in both written and oral formats;
- conduct all aspects of research and teaching with the highest ethical standards; and
- be prepared for career options in academia, industry, government, or other relevant fields.

Requirements

The Doctor of Philosophy program in geoscience requires a minimum of 72 s.h. of graduate credit. Throughout their graduate study, PhD students must maintain a grade-point average of at least 3.00 in all coursework required for their degree.

The PhD requires a dissertation, which has the approximate research content of three published papers. Students demonstrate competence by completing appropriate coursework and defending their dissertation.

Entering students must consult with a research advisor or the department's director of graduate study before they enroll in courses. By the first month of their second semester of doctoral study, all students must select an advisor. Each student must also select a thesis topic and forward it to the department chair for approval by the end of the first month of the second semester of doctoral study.

During the second semester of doctoral study, each student should propose an advisory committee of at least five faculty members to the department chair for approval. Before the end of the second semester, students must obtain their committee's approval of a suitable plan of study to be submitted to the department chair for approval. In consultation with the advisor and other faculty members, each doctoral candidate prepares a formal dissertation proposal approved by their committee and submitted to the department chair for approval by the end of the candidate's third semester of doctoral study.

Students are required to include in their plan of study at least 18 s.h. of regular coursework taught by tenured or tenure-track faculty in the School of Earth, Environment, and Sustainability. Students must earn the 18 s.h. after being admitted to and enrolling in the PhD program. Directed study and research credit do not count toward the required 18 s.h.

All entering students are required to enroll in SEES:7270 Orientation, Scholarly Integrity, and Responsible Conduct of Research during the fall semester of their first year in the graduate program.

After earning their first 24 s.h. of graduate credit, students must be enrolled at least two consecutive semesters in full-time study (at least 9 s.h. per semester) at the University of Iowa; or they must be enrolled three consecutive semesters for at least 6 s.h. per semester at the university, during which they hold at least a one-quarter-time assistantship that is certified by the department as contributing to their doctoral program.

Students should complete most of their coursework before taking their comprehensive examination, which consists of both written and oral portions and which must be passed before the end of the fourth semester of doctoral study.

Once candidates have passed the comprehensive examination, they are required to register each semester until they receive the degree. Those who have completed their plan of study may register for GRAD:6002 Doctoral Continuous Registration or GRAD:6003 Doctoral Final Registration.

Students must submit their written dissertation to the committee at least two weeks before the final examination. All candidates must deliver a one-hour public presentation associated with the dissertation defense. They are also required to submit a manuscript presenting the results of their graduate research to a refereed journal or other publication approved by the department chair before they may defend their dissertation.

Admission

Applicants for admission to the Geoscience PhD program should have a bachelor's degree in geoscience, earth science, or a related discipline relevant to the field. An MS degree in geoscience, earth science, or a related discipline relevant to the field is not required for admission to the PhD program but is typical of most students and is strongly encouraged. Depending on their prior training, graduate students may be required to take courses that are prerequisites for coursework in their chosen area of graduate study. For application information, contact the School of Earth, Environment, and Sustainability or visit its website.

All geoscience graduate students must meet the admission and degree requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. They also should acquaint themselves with the university calendar and application deadlines within the School of Earth, Environment, and Sustainability.

Career Advancement

The doctoral degree is required for college and university faculty positions and for some research positions in industry.

Career opportunities are readily available for geoscience graduates. Professional geoscientists work in environmental companies, resource companies, educational institutions, conservation agencies, state and federal agencies, and government resource and research organizations.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

English

Chair

- Loren Glass

Undergraduate majors: English (BA); English and creative writing (BA)

Undergraduate minor: English

Graduate degrees: MA in English; MFA in English (creative writing, nonfiction writing); PhD in English

Faculty: https://english.uiowa.edu/people

Website: https://english.uiowa.edu

The Department of English offers courses in literature, cultural studies, language, and critical and creative writing. In these courses, students read poetry, fiction, essays, criticism, and theory to acquire methods for understanding literature and culture and responding creatively to texts. In addition to providing these essential elements of a liberal arts and sciences education, the department's courses can augment students' specialized interests in other fields. Visit the Department of English website to learn more about courses and upcoming events.

Many undergraduate and graduate students enroll in the department's degree programs. Most PhD students in English are preparing for careers as teachers and scholars, and many MFA students in the creative writing program and the nonfiction writing program are preparing for lives as published writers. The BA and MA programs provide valuable training for careers in a variety of fields. Students who have earned English degrees from the University of Iowa write for advertising firms, newspapers, the entertainment industry, and book publishers; teach in primary and secondary schools; practice law and medicine; work in business, industry, and nonprofits; and participate in state and federal government. Many students who earn a BA go on to pursue an MFA in creative writing fields. As much as possible, each student's course of study is arranged to meet individual needs and objectives.

The Department of English participates in several of the university's interdisciplinary units: the departments of American Studies, Cinematic Arts, and Gender, Women's, and Sexuality Studies; the African American Studies and Native American and Indigenous Studies programs; and the Center for the Book.

Creative Writing Programs

For the past 75 years, the University of Iowa has been a national leader in all areas of creative writing. The university offers graduate degrees in creative writing with specializations in fiction, nonfiction, and poetry. Undergraduate students may declare a major in English and creative writing. All qualified undergraduates in other majors may enroll in many of the creative writing courses offered by the Department of English.

View creative writing courses (prefixes CW, CNW, and ENGL) under Courses [p. 415] in this section of the catalog. See which ones are offered in certain semesters by searching for course subjects CW, CNW, and ENGL on MyUI.

Department of English Opportunities

Several periodicals are published under the department's aegis. The Iowa Review, Walt Whitman Quarterly Review, and Philological Quarterly offer opportunities for especially qualified graduate students to work as research assistants or editorial associates, and for some undergraduates to pursue volunteer opportunities.

The Department of English, the Nonfiction Writing Program, and the Iowa Writers' Workshop sponsor a rich and extensive series of readings and lectures by poets, fiction writers, and scholars, all open to students in the department.

The English Society, a student organization for those focusing on literature in English, creative writing, and related areas, is open to all students and organizes events of interest throughout the year. The Department of English also collaborates with Alpha Tau Iota, the University of Iowa chapter of Sigma Tau Delta, and the International English Honors Society. Sigma Tau Delta's central purpose is to confer distinction for high achievement in English language, literature, and writing.

The Association of Graduate Students in English sponsors social and intellectual events during the year and provides a forum for student opinion. All graduate students in the department are members.

Programs

Undergraduate Programs of Study

Majors

- Major in English (Bachelor of Arts) [p. 427]
- Major in English and Creative Writing (Bachelor of Arts) [p. 434]

Minor

- Minor in English [p. 441]

Graduate Programs of Study

- Master of Arts in English [p. 442]
- Master of Fine Arts in English (creative writing) [p. 323]
- Master of Fine Arts in English (nonfiction writing) [p. 447]
- Doctor of Philosophy in English [p. 449]

Facilities

The University of Iowa Libraries collection is strong in all areas of English and American literature. Partly because of the influence of the Iowa Writers' Workshop, University Libraries has particular strengths in 20th-century fiction and poetry, including manuscript collections of 20th-century authors.

Courses

- English Courses [p. 416]
- Creative Nonfiction Writing Courses [p. 422]
- Creative Writing–Writers' Workshop Courses [p. 424]

English Courses

Detailed descriptions for most English courses are not included because content and emphasis may vary considerably from one semester to the next. For detailed descriptions of each semester's courses, visit MyUI.

English department courses are open to all undergraduates who have satisfied the rhetoric requirement.

The courses ENGL:3148 Literary Editing, ENGL:4000 English Honors Literature Seminar, ENGL:4040 Honors Project in Literary Studies, and ENGL:4010 Special Project for Undergraduates may be repeated. Most courses with the prefix ENGL may not be repeated. Occasionally, with written consent from the department's Undergraduate Advising Office, a student may repeat a course if the course's subject matter is different from that of a course the student already has taken.

ENGL:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ENGL:1100 City of Literature 3 s.h.
Literary history of Iowa City from the founding of Writers' Workshop to its designation as a UNESCO City of Literature. GE: Literary, Visual, and Performing Arts.

ENGL:1200 The Interpretation of Literature 3 s.h.
Ways of reading; focus on reader, text, contexts; poetry, short fiction, drama, novels. GE: Interpretation of Literature.

ENGL:1350 Literature and Sexualities 3 s.h.
Works from various genres, time periods, cultures that reflect and construct a wide range of sexual identities. Prerequisites: ENGL:1200. Requirements: successful completion of GE CLAS Core Rhetoric and then ENGL:1200.

ENGL:1410 Sex and Popular Culture in America 3 s.h.
Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values and Society. Same as AMST:1060, GWSS:1060.

ENGL:1510 Introduction to Environmental Literature 3 s.h.
Introduction to diverse ways writers have conveyed humans' interaction with the environment.

ENGL:2001 English Unbound arr.
Introduction to the English department; resources to help students navigate their major; chance to meet faculty and staff, and build community with other students. Requirements: undergraduate standing, English major or English and Creative Writing major.

ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures 3 s.h.
History and practice of English as a discipline; four central aspects of literary study. GE: Interpretation of Literature.

ENGL:2012 Reading and Writing About the Novel 3 s.h.
Introduction to literary genre that teaches close reading, analytical writing, and literary criticism.

ENGL:2013 Reading and Writing About Poetry 3 s.h.
Introduction to literary genre that teaches close reading, analytical writing, and literary criticism.

ENGL:2014 Reading and Writing About the Short Story 3 s.h.
Introduction to literary genre that teaches close reading, analytical writing, and literary criticism.

ENGL:2015 Reading and Writing About Drama 3 s.h.
Introduction to literary genre that teaches close reading, analytical writing, and literary criticism.

ENGL:2016 Reading and Writing About the Essay 3 s.h.
Introduction to literary genre that teaches close reading, analytical writing, and literary criticism.

ENGL:2020 Foundations of Creative Writing: Craft, Practice, Pleasure 3 s.h.
Introduction to discipline of creative writing: fiction, poetry, and creative nonfiction.

ENGL:2030 Literary Readings Attendance 1 s.h.
Attendance at diverse literary readings and scholarly presentations on the University of Iowa campus and in Iowa City, featuring visiting, local, and University of Iowa writers and scholars.

ENGL:2040 English at Work 1 s.h.
What can be done with an English degree; knowledge and skills gained as an English major that are in high demand among a wide variety of employers; important steps taken as a student that translate unique career dreams into reality; work with Pomerantz Career Center staff.

ENGL:2100 Introduction to Criticism and Theory 3 s.h.
Selected topics within literary criticism and theory.

ENGL:2191 Modern Fiction 3 s.h.
The craft of fiction writing in modern literature.

ENGL:2192 Postmodern Fiction 3 s.h.
The craft of fiction in postmodern literature.

ENGL:2194 Lyric Structures 3 s.h.
In-depth inquiry into the lyric.

ENGL:2206 Classical and Biblical Literature 3 s.h.
Study of Classical and Biblical literature.

ENGL:2216 Selected Works of the Middle Ages 3 s.h.
Historical context of literature from the Middle Ages.

ENGL:2236 Selected Early Authors 3 s.h.
Selected authors of the Medieval and Early Modern periods.

ENGL:2309 Selected British Authors Before 1900 3 s.h.
Focus on literature by British authors before 1900.

ENGL:2310 Selected British Authors After 1900 3 s.h.
Literature by British authors after 1900.

ENGL:2329 Topics in Modern British Literature Before 1900 3 s.h.
Modern British literature and culture before 1900.

ENGL:2330 Topics in Modern British Literature After 1900 3 s.h.
Modern British literature and culture after 1900.

ENGL:2338 Eighteenth-Century British Literature 3 s.h.
British literature of the 18th century.

ENGL:2348 British Romanticism 3 s.h.
British literature of the Romantic period.

ENGL:2359 Victorian Literature 3 s.h.
British literature of the Victorian period.

ENGL:2360 Twentieth-Century British Literature 3 s.h.
British literature of the 20th century.

ENGL:2361 Twenty-first-Century British Literature 3 s.h.
British literature of the 21st century.

ENGL:2409 Selected American Authors Before 1900 **3 s.h.**
American literature by authors before 1900.

ENGL:2410 Selected American Authors After 1900 **2-3 s.h.**
American literature by authors after 1900.

ENGL:2420 American Literary Classics **3 s.h.**
Classics of American literature.

ENGL:2425 American Poetry **3 s.h.**
Study of American poetry.

ENGL:2438 American Novel Before 1900 **3 s.h.**
Study of the American novel before 1900.

ENGL:2440 American Novel After 1900 **3 s.h.**
Study of the American novel after 1900.

ENGL:2450 American Short Story **3 s.h.**

ENGL:2463 Topics in African American Literature **3 s.h.**
Selected topics in African American literature. Same as AFAM:2463.

ENGL:2465 Selected African American Authors **3 s.h.**
Literary works by selected African American authors. Same as AFAM:2465.

ENGL:2475 Asian American Literature **3 s.h.**
Selected topics in Asian American literature.

ENGL:2505 Introduction to Postcolonial Studies **3 s.h.**
Introduction to theories, topics, and literature within postcolonial studies.

ENGL:2510 Selected Transnational Authors **3 s.h.**
Literature by selected transnational authors.

ENGL:2560 Topics in Culture and Identity **3 s.h.**
Topics in culture and identity in literature.

ENGL:2570 Love, War, Activism: Stories About Women From Across the World **3 s.h.**
Literary and cinematic representations of gender in works by authors and directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of love, sexuality, friendship, and parenting; shifts in gender identities and relations that result from social and political crises. Same as GWSS:2500, SJUS:2500.

ENGL:2571 Visualizing Human Rights **3 s.h.**
Cinematic representations of human rights issues in films by directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of race relations in colonial and postcolonial societies; public health issues, specifically women's and children's rights in context of the HIV/AIDS pandemic. Same as GWSS:2571, SJUS:2571.

ENGL:2593 Literature, Culture, and Women **3 s.h.**
Studies in the intersections between literature, culture, and women. Same as GWSS:2193.

ENGL:2601 Topics in British Culture and Identity **3 s.h.**
How culture and identity of British society are created and reflected through literature and other discursive systems; focus on a specific topic and area.

ENGL:2730 The Art and Craft of Creative Nonfiction **3 s.h.**
How we tell stories: every time people talk about themselves, someone they know, places visited or events experienced; creation of a story with intention to entertain and inform a particular audience; how to create compelling, thought-provoking, and resonant texts from raw material of daily life; exploration of three fundamentals of great storytelling: taking emotional and intellectual risks, being imaginatively rigorous, and revising, revising, revising. GE: Engineering Be Creative. Same as CNW:2680.

ENGL:2741 Publishing I: Introduction to Literary Publishing **3 s.h.**
Laboratory-style class offering step-by-step breakdown of fundamental professional and creative skills needed for jobs in the literary publishing world. Become familiar with key roles and responsibilities, such as identifying and defining a corner of the market, soliciting commissions, and assuming editorial oversight through copyediting, design, budgeting, and deadline management, while simultaneously practicing each of these roles to bring individual bespoke publications to press by semester's end. Hands-on, experiential learning. Same as CNW:2991, WRIT:2991.

ENGL:2742 Publishing II: Advanced Literary Publication **3 s.h.**
Supervised, extended practice of the skills core to landing possible literary publishing jobs. Working collectively, as if part of a professional publishing house, bring a single,themed book to publication. Handle all aspects of the publication process, assuming the roles of writers, editors, art directors, designers, and marketers, culminating in a book launch. Hands-on, real-life work experience combined with exploration of inner workings of the industry, such as how agenting works to preparing for the first internship. Prerequisites: CNW:2991. Same as CNW:2992, WRIT:2992.

ENGL:2900 Book Design for Publishing **3 s.h.**
Introduction to the major aspects of book design, including typography, layout, standard industry software, discussion of trends in the field. Same as ARTS:2900, UICB:2900, WRIT:2900.

ENGL:2901 The Book in Global History **3 s.h.**
Introduction to history of the book and book arts in diverse global contexts; histories of visual and verbal media, cross-cultural exchange, and the book's impact across time and space; hands-on work with historical books and book arts including papermaking, woodblock and letterpress printing, and binding. GE: Historical Perspectives. Same as HIST:2190, UICB:2190.

ENGL:3010 Children's Literature **3 s.h.**
Classic children's literature and contemporary critical approaches to the genre.

ENGL:3100 Topics in Criticism and Theory **3 s.h.**
Selected topics in literary criticism and theory.

ENGL:3102 Topics in Poetry and Poetics **3 s.h.**
Selected topics in poetry and poetics.

ENGL:3130 Topics in Film and Literature **3 s.h.**
Selected topics in film and literature.

ENGL:3140 Literature and the Book **3 s.h.**
The relationship between literature and the book as a medium. Same as UICB:3140.

ENGL:3142 Topics in Book History **3 s.h.**
Authorship, publishing, etc. within specific historical and cultural contexts. Same as UICB:3142.

ENGL:3145 Editorial Practice 3 s.h.
Exploration of literary practice in relation to contemporary literature.

ENGL:3148 Literary Editing 3 s.h.
Exploration of history and practice of editing.

ENGL:3150 Literature and Philosophic Thought 3 s.h.
Study of literature as it intersects with philosophic thought.

ENGL:3155 Literature and Art 3 s.h.
Study of literature as it intersects with art.

ENGL:3160 Literary Genres and Modes 3 s.h.
Study of literary genres and modes.

ENGL:3181 Digital Media and Poetics 3 s.h.
Theory and practice of one or more varieties of digital composition; digital art analyzed and created in specific forms, such as radio drama, interactive fiction, and procedural and constructivist poetics.

ENGL:3182 Digital Cultures and Literacies 3 s.h.
Study of digital cultures and literacies as they relate to literature.

ENGL:3186 Science Fiction 3 s.h.
Study of science fiction literature.

ENGL:3190 Language and Learning 2-3 s.h.
How language reflects and constructs learners' identities and cultures; readings related to oral and written language, native and second language development, linguistic diversity; discussion of the relationship of language theory to schools of language instruction. Same as EDTL:3382.

ENGL:3191 Reading and Teaching Adolescent Literature 3 s.h.
Reading and evaluation of literature suitable for junior and senior high school students. Same as EDTL:3393.

ENGL:3216 Topics in Medieval and Renaissance Literature 3 s.h.
Selected topics in Medieval and Renaissance literature.

ENGL:3226 Literature and Culture of the Middle Ages 3 s.h.
Study of literature and culture of the Middle Ages. Same as MDVL:3226.

ENGL:3236 Literature and the Culture of the Renaissance 3 s.h.
Study of the literature and culture of the Renaissance.

ENGL:3237 Literature and Culture of Seventeenth-Century England 3 s.h.
Study of the literature and culture of 17th-century England.

ENGL:3246 16th- and 17th-Century Poetry 3 s.h.
Study of poetry from the 16th and 17th centuries.

ENGL:3247 The English Bible 3 s.h.
Study of the Hebrew Bible and Christian New Testament; students become familiar with its legacies in English language and literature.

ENGL:3256 Old English Language and Literature 3 s.h.
Reading knowledge of Old English; introduction to Anglo-Saxon literature and culture.

ENGL:3257 Old English Beowulf 3 s.h.
Study of Beowulf in Old English. Prerequisites: ENGL:3256.

ENGL:3266 Medieval Celtic Literature 3 s.h.
Study of Medieval Celtic literature.

ENGL:3267 Medieval Norse Literature 3 s.h.
Study of Medieval Norse literature.

ENGL:3276 Medieval Drama 3 s.h.
Study of drama in the Medieval period. Same as THTR:3276.

ENGL:3277 English Renaissance Drama 3 s.h.
Dramatic literature of the English Renaissance. Same as THTR:3277.

ENGL:3286 Chaucer 3 s.h.
The works of medieval writer Geoffrey Chaucer.

ENGL:3287 Shakespeare 3 s.h.
The literature of Early Modern author William Shakespeare.

ENGL:3288 Shakespeare's Romans: The Ancient World Meets the Elizabethan Stage arr.
London was a distant outpost of the Roman Empire, but the Romans had an outsized influence on Shakespeare's plays and poems; students explore those works and their sources in classical authors, including Ovid and Plutarch. Same as CLSA:3288.

ENGL:3296 Milton 3 s.h.
Literature of Early Modern writer John Milton.

ENGL:3320 Modern British Drama 3 s.h.
Dramatic literature of modern Britain.

ENGL:3329 Literature and Culture of Eighteenth-Century Britain 3 s.h.
British literature and culture of the 18th century.

ENGL:3338 Literature and Culture of the Romantic Period 3 s.h.
Literature and culture of the Romantic period in Britain.

ENGL:3339 Literature and Culture of Nineteenth-Century Britain 3 s.h.
British literature and culture of the 19th century.

ENGL:3350 Literature and Culture of 20th- and 21st-Century Britain 3 s.h.
British literature and culture of the 20th and 21st centuries.

ENGL:3355 British Poetry 3 s.h.
Poetry in British literature.

ENGL:3360 British Fiction 3 s.h.
British fiction written since 1700.

ENGL:3401 Literature and Book History 3 s.h.
Same as UICB:3401.

ENGL:3418 Literature and Culture of America Before 1800 3 s.h.
American literature and culture before 1800.

ENGL:3419 Literature and Culture of Nineteenth-Century America 3 s.h.
American literature and culture of the 19th century.

ENGL:3420 Literature and the Culture of Twentieth-Century America 3 s.h.
American literature and culture of the 20th century.

ENGL:3429 Topics in American Literature Before 1900 3 s.h.
Selected topics in American literature before 1900.

ENGL:3430 Topics in American Literature After 1900 3 s.h.
Selected topics in American literature after 1900.

ENGL:3431 American Novel Since 1945 3 s.h.
Study of the American novel after 1945.

ENGL:3439 American Drama Before 1900 3 s.h.
American playwrights and plays before 1900.

ENGL:3440 American Drama Since 1900 3 s.h.
American playwrights and plays after 1900. Same as THTR:3440.

ENGL:3441 Native American Literature 3 s.h.
Native American literature and culture. Same as NAIS:3441.

ENGL:3444 Literatures of the American Peoples 3 s.h.
Various literatures of the American peoples.

ENGL:3450 American Regional Literatures 3 s.h.
Regional literatures of the United States.

ENGL:3455 Jewish American Literature 3 s.h.
Jewish American literature and culture.

ENGL:3459 African American Literature Before 1900 3 s.h.
African American literature before 1900. Same as AFAM:3459.

ENGL:3460 African American Literature After 1900 3 s.h.
African American literature after 1900. Same as AFAM:3460.

ENGL:3461 Twenty-First Century African American Literature 3 s.h.
African American literature from 20th- and 21st-century writers; African American experience(s) of race, sexuality, gender, class, and privilege in contemporary era; various ways poets, rappers, authors tackle these themes within literary forms (i.e., fiction, creative nonfiction, autobiography, poems, songs); societal structures of power. Same as AFAM:3461.

ENGL:3462 African American Drama 3 s.h.
African American dramatic literature. Same as AFAM:3462, THTR:3462.

ENGL:3465 African American Autobiography 3 s.h.
The autobiography by African American writers. Same as AFAM:3465.

ENGL:3467 Latina/o/x Literatures and Cultures 3 s.h.
Exploration of major themes and research topics in Latina/o/x literatures and cultures. Same as LATS:3467.

ENGL:3470 Gender, Sexuality, and American Literature 3 s.h.
Intersection of gender and sexuality with American literature.

ENGL:3510 Topics in Transnational Literature 3 s.h.
Selected topics in transnational literature.

ENGL:3515 Topics in Postcolonial Studies 3 s.h.
Selected topics in postcolonial studies.

ENGL:3520 Literature and Culture of the 20th and 21st Century 3 s.h.
Literature and culture of the 20th and 21st centuries.

ENGL:3525 Literature and Culture of the Americas 3 s.h.
Literature and culture of North and South America.

ENGL:3535 Topics in Literature and Culture of the Americas 3 s.h.
Selected topics in literature and cultures of the Americas. Same as LAS:3535.

ENGL:3540 Literature of the Indian Subcontinent 3 s.h.
Literature from the Indian subcontinent.

ENGL:3550 African Literature 3 s.h.
Literature by African writers. Same as AFAM:3550.

ENGL:3555 Topics in African Cinema 3 s.h.
African cinema and literature. Same as AFAM:3555.

ENGL:3565 Literature and the Environment 3 s.h.
Literary studies within the contexts of environmental history and ecological concerns.

ENGL:3570 Transnational and Postcolonial Writing by Women 3 s.h.
Study of postcolonial and transnational writing by women. Same as GWSS:3570.

ENGL:3571 Higher Education and Social Justice 3 s.h.
Reflection of students' place within educational systems; development of rhetorical tools for successful advocacy; advocation through writing for change within higher education and the UI; student loans, racial segregation, social and economic immobility, free speech, data insecurity, sexual assault. Same as GWSS:3171, SJUS:3171.

ENGL:3572 Literature and Social Justice 3 s.h.
How literature from various time periods—American and global—has enacted, represented, depicted, or encouraged forms and acts of social justice; students study various genres (e.g., essay, poem, autobiography, short story, fiction) and learn how literature has been used to conceptualize social justice, address national and global inequities, and take up complex and intersecting issues of power and privilege. Same as SJUS:3250.

ENGL:3573 Gender, Sexuality, and Literature 3 s.h.
Representations of gender, class, and sexuality in British, American, or postcolonial literature. Same as GWSS:3173.

ENGL:3580 Identity and Social Issues 3 s.h.
Study of identity and social issues in literature.

ENGL:3581 Topics in Popular Culture 3 s.h.
Pop culture as a context through which to view literature.

ENGL:3595 International Literature Today 1,3 s.h.
Same as IWP:3191, TRNS:3191, WLLC:3191.

ENGL:3610 Literature and Society 3 s.h.
How literary works as products of historical forces shape and reflect society.

ENGL:3700 Topics in Craft and Method 3 s.h.
Reading and creative writing; topics vary; taught by faculty. Prerequisites: ENGL:2010. Requirements: undergraduate standing, English major or English and Creative Writing major.

ENGL:3721 Writers' Seminar: Fiction 3 s.h.
In-depth exploration and analysis of creative works in fiction. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:3722 Writers' Seminar: Poetry 3 s.h.
In-depth exploration and analysis of creative works in poetry. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:3723 Writers' Seminar: Nonfiction 3 s.h.
Rigorous exploration and analysis of a range of nonfiction creative works. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:3724 Writers' Seminar: Literary Translation 3 s.h.
Rigorous exploration and analysis of a range of creative works in literary translation. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:3725 Writers' Seminar: Playwriting 3 s.h.
Rigorous exploration and analysis of a range of creative works in drama. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:3730 Advanced Nonfiction Writing 3 s.h.
Essay writing; focus on workshop environment. Prerequisites: CNW:2830 or CNW:2720 or CNW:2840 or CNW:2710 or CNW:2700 or CNW:2760 or CNW:2910 or CNW:2780 or CNW:2730 or CNW:2740 or CNW:2770 or CNW:2680 or CNW:2790. Requirements: undergraduate standing. Same as CNW:3630.

ENGL:3732 Prose Style 3 s.h.
Sentences: how they work, what they do; how sentences can help writing, expand understanding of prose style, stretch options. GE: Engineering Be Creative. Same as CNW:3632, WRIT:3632.

ENGL:3733 Personal Writing 3 s.h.
Study of personal writing. Same as CNW:3633.

ENGL:3760 Multimedia Writing 3 s.h.
Multidisciplinary sessions mixing media production, creative nonfiction, and literary theory; topics ranging from hypertext authoring and electronic magazine publishing to sound art and digital video; principles and practices of writing for alternative media, theoretical understanding of how various media frame the situation; radio essay, video essay, interactive animation, web authoring, electronic magazine publishing. Same as CNW:3660.

ENGL:3761 Film and Writing 3 s.h.
Writers' introduction to digital video; compelling forms of nonfiction filmmaking from the film essay to the environmental documentary; how to convert texts into film, conduct interviews, and shoot and edit digital video. Same as CNW:3661.

ENGL:3764 Writing About Science 3 s.h.
Writing about science and technology from neurobiology to astrophysics; exploration of classic literary nonfiction on the sciences; focus on various stylistic practices for making complex topics compelling for a general audience and developing a clear and readable prose style. Same as CNW:3664.

ENGL:3800 Issues in Creative Nonfiction 3 s.h.
Exploration and discussion of a single topic in creative nonfiction through a variety of reading assignments and creative writing exercises. Same as CNW:3600.

ENGL:3850 Undergraduate Translation Workshop 3 s.h.
Translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Same as CLSA:3979, TRNS:3179.

ENGL:4000 English Honors Literature Seminar 3 s.h.
Honors seminar in literature. Prerequisites: ENGL:2010. Requirements: undergraduate standing and English major GPA of 3.33.

ENGL:4001 Honors Literature Seminar: American Literature, 20th/21st Century 3 s.h.
American literature of the 20th and 21st centuries. Prerequisites: ENGL:2010. Requirements: undergraduate standing and English major GPA of 3.33.

ENGL:4002 Honors Literature Seminar: British Literature, 20th/21st Century 3 s.h.
British literature of the 20th and 21st centuries. Prerequisites: ENGL:2010. Requirements: undergraduate standing and English major GPA of 3.33.

ENGL:4003 Honors Literature Seminar: Literary Theory and Interdisciplinary Studies, 20th/21st Century 3 s.h.
Literary theory and interdisciplinary studies of the 20th and 21st centuries. Prerequisites: ENGL:2010. Requirements: undergraduate standing and English major GPA of 3.33.

ENGL:4004 Honors Literature Seminar: Transnational and Postcolonial Literature, 20th/21st Century 3 s.h.
Transnational and postcolonial literature of the 20th and 21st centuries. Prerequisites: ENGL:2010. Requirements: undergraduate standing and English major GPA of 3.33.

ENGL:4005 Honors Literature Seminar: American Literature, 18th/19th Century 3 s.h.
American literature of the 18th and 19th centuries. Prerequisites: ENGL:2010. Requirements: undergraduate standing and English major GPA of 3.33.

ENGL:4006 Honors Literature Seminar: British Literature, 18th/19th Century 3 s.h.
British literature of the 18th and 19th centuries. Prerequisites: ENGL:2010. Requirements: undergraduate standing and English major GPA of 3.33.

ENGL:4009 Honors Literature Seminar: Medieval and Early Modern Literature, Early Literature/17th Century 3 s.h.
Medieval and Early Modern literature through the 17th century. Prerequisites: ENGL:2010. Requirements: undergraduate standing and English major GPA of 3.33.

ENGL:4010 Special Project for Undergraduates arr.

ENGL:4011 Honors Workshop: Creative Writing 3 s.h.
Creative writing workshop for English and Creative Writing majors. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English and Creative Writing major, undergraduate standing, and English major GPA of 3.33.

ENGL:4012 Honors Workshop: Fiction 3 s.h.
Fiction workshop for English and Creative Writing majors. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: undergraduate standing, English and Creative Writing major, and submission of portfolio.

ENGL:4013 Honors Workshop: Poetry 3 s.h.
English and Creative Writing majors may apply this course to the advanced creative writing requirement. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: undergraduate standing, English and Creative Writing major, and submission of portfolio.

ENGL:4014 Honors Workshop: Creative Nonfiction 3 s.h.
Creative nonfiction workshop for English and Creative Writing majors. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: undergraduate standing, English and Creative Writing major, and submission of portfolio.

ENGL:4020 Honors Thesis Workshop 3 s.h.
Requirements: English major or English and Creative Writing major, and GPA of 3.33.

ENGL:4030 Undergraduate Honors Project in Creative Writing 1-3 s.h.
Independent study under faculty guidance for the creation of an honors project in creative writing. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: admission to English honors program.

ENGL:4040 Honors Project in Literary Studies 1-3 s.h.
Requirements: admission to English honors program.

ENGL:4050 Internship for Majors arr.
An internship, found by the student, and related to their career goals or exploration. Requirements: English major or English and Creative Writing Major.

ENGL:4100 Advanced Literary Seminar 3 s.h.
Literary seminar. Prerequisites: ENGL:2010. Requirements: undergraduate standing, English major or English and Creative Writing major.

ENGL:4150 Introduction to Book Studies 3 s.h.
Theory and practice of book studies; meanings of word and image in the book format; comparative study of other media, applied study of the codex as a physical artifact. Same as SLIS:4150, UICB:4150.

ENGL:4172 London Performance Study 3 s.h.
Performance studies. Same as THTR:4630.

ENGL:4195 Interdisciplinary Studies 3 s.h.
Exploration of how readings of theory can be evaluated through discussions and readings in literature.

ENGL:4720 Advanced Creative Writing: Special Topic 3 s.h.
Reading and writing; topics vary. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:4721 Advanced Writers' Seminar: Fiction 3 s.h.
In-depth exploration and analysis of creative works in fiction. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English and Creative Writing major.

ENGL:4722 Advanced Writers' Seminar: Poetry 3 s.h.
In-depth exploration and analysis of creative works in poetry. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English and Creative Writing major.

ENGL:4723 Advanced Writers' Seminar: Nonfiction 3 s.h.
In-depth exploration and analysis of creative works in nonfiction. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English and Creative Writing major.

ENGL:4724 Advanced Writers' Seminar: Literary Translation 3 s.h.
Rigorous exploration and analysis of a range of creative works in literary translation. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English and Creative Writing major.

ENGL:4725 Advanced Writers' Seminar: Playwriting 3 s.h.
Rigorous exploration and analysis of a range of creative works in drama. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English and Creative Writing major.

ENGL:4731 Advanced Essay Workshop 3 s.h.
Experience working on new nonfiction projects, drafting and preparing one piece throughout a semester; individualized work to promote understanding of and creation in genres of nonfiction writing. Requirements: undergraduate standing and successful completion of one CNW course. Same as CNW:4631.

ENGL:4735 Advanced Creative Nonfiction Writing 3 s.h.
Close work with faculty and peers on advanced creative nonfiction writing projects. Requirements: one 2000- or 3000-level CNW course. Same as CNW:4635.

ENGL:4810 Learning to Teach Secondary English/ Language Arts and Field Experience 3 s.h.
Organizational techniques, methods, materials for teaching high school English; experience in simulated teaching situations during laboratory sessions, integrated with lectures and discussions. Prerequisites: EDTL:4314. Same as EDTL:4315.

ENGL:5000 Introduction to Graduate Study 3 s.h.

ENGL:5050 Professional Development Practicum 1 s.h.
Navigation of academic job market and exploration of professional development and career planning; writing cover letters, curriculum vitaes, dissertation abstracts, and teaching statements; application strategies for various jobs in research, liberal arts, community colleges, and outside academia; opportunity to practice interviews and other hands-on coaching; for advanced English department PhD, MA, and MFA students.

ENGL:5070 Writing for Academic and General Audiences 3 s.h.
Supportive, structured, publication-oriented workshop in which students draft, share, revise, and edit two pieces, one intended for an academic audience and one written for a general audience. A limited number of published readings provide models for the students' work. Requirements: MA or PhD standing.

ENGL:5990 MA Portfolio in Literary Studies arr.

ENGL:5999 MA Thesis in Literary Studies arr.

ENGL:6000 Introduction to Contemporary Theory 3 s.h.

ENGL:6020 Literature as Letters 3 s.h.

ENGL:6050 Critical Readings in Cultural Studies: Stuart Hall's Legacy and Influences 3 s.h.
Exploration of the scholarship of Stuart Hall along with theories, methods, and history of cultural studies; focus on major areas of Hall's work including Marxist thought and the political economy, diasporas and globalization, cultural production and popular culture, film and cinema studies, race, ethnicity, identity, and differánce; key theorists that influenced Stuart Hall (e.g., Marx, Foucault, Fanon, Gramsci, Althusser) and scholars in cultural studies that have made appropriate use of Hall's writings and theories in their own work; role of theory in everyday life and the critical role of public intellectuals. Same as AFAM:6500, AMST:6500.

ENGL:6080 New Media Poetics 3 s.h.

ENGL:6090 Topics in Interdisciplinary Studies 3 s.h.
Interdisciplinary approaches to literature and culture.

ENGL:6100 Readings in Medieval Literature and Culture 3 s.h.

ENGL:6110 Medieval Authors 3 s.h.

ENGL:6200 Sixteenth- and Seventeenth-Century Authors 3 s.h.

ENGL:6210 Readings in Sixteenth- and Seventeenth-Century Genres 3 s.h.

ENGL:6220 Shakespeare 3 s.h.

ENGL:6300 Restoration and Eighteenth-Century Literature 3 s.h.

ENGL:6315 MA Seminar: English Education arr.
Significant developments in English education; primary and collateral readings. Same as EDTL:6315.

ENGL:6400 Romantic Literature 3 s.h.

ENGL:6500 Victorian Literature 3 s.h.

ENGL:6601 Readings in American Literature 3 s.h.
American literature of the 18th century.

ENGL:6602 Readings in American Literature II 3 s.h.
Nineteenth-century American literature.

ENGL:6603 Readings in American Literature III 3 s.h.
Twentieth- and twenty-first-century American literature.

ENGL:6610 Studies in African American Literature 3 s.h.
Same as AFAM:6610.

ENGL:6620 Readings in Native American Literatures 3 s.h.
Same as NAIS:6620.

ENGL:6630 Readings in Latina/o/x Literary and Cultural Studies 3 s.h.
Survey of Latina/o/x literature and criticism to prepare for comprehensive exam; organized by thematic units that stress canonical and emerging research areas in Latina/o/x literary and cultural studies.

ENGL:6640 Readings in American Literary Genres 3 s.h.

ENGL:6670 American Literary Magazines 3 s.h.
Aspects of American literary magazines, from city journals to monthly periodicals, historical moment to marketplace demand.

ENGL:6720 Twentieth-Century Literatures 3 s.h.
Literatures of 20th century; varied topics (e.g., transnational approach, focus on particular theme, genre, or critical perspective).

ENGL:6730 Modernist Studies 3 s.h.

ENGL:6760 Topics in Contemporary Literature 3 s.h.

ENGL:6765 Literature, Culture, and Environment 3 s.h.
Introduction to theories and practices articulating relationship among literature, other cultural production, and environmental issues.

ENGL:6800 Readings in Postcolonial Literature and Theory 3 s.h.
Introduction to central concerns and questions of postcolonial theory; impact of imperial ideologies on formation of racial and ethnic identities; nationalist and pan-nationalist challenges to colonialism; postcolonial revisions of Western history; representations of gender and sexuality; diasporic and transnational cultural production; alternative versions of modernity; relationship between past and contemporary forms of globalization.

ENGL:6850 Topics in Creative Writing 3 s.h.
Engagement with different topics in creative writing.

ENGL:6900 Doctoral Workshop in English 1-2 s.h.

ENGL:6950 Colloquium: Teaching Foundations of the English Major 1 s.h.

ENGL:6960 Colloquium: Teaching Literature 2 s.h.
Professional development program for new ENGL:1200 teachers.

ENGL:6961 Teaching Literature II 1 s.h.
Professional development program for ENGL:1200 instructors in their second semester of teaching. Topics include grading, leading discussion, generative AI, scaffolding and giving feedback on major writing assignments, and strategies for making the class productive and enjoyable for students from all backgrounds and with various levels of preparation. Prerequisites: ENGL:6960.

ENGL:7000 Seminar: Cultural Studies arr.

ENGL:7010 Seminar: Literary Criticism and Theory 3 s.h.
Analysis of issues in current literary criticism and theory and of texts from related fields, such as aesthetics, cultural studies, political science, psychology, and philosophy.

ENGL:7050 Seminar: Performance Theory and Practice 3 s.h.
Foundational and recent work in interdisciplinary field of performance studies; focus on intersections of performance theory and theater and drama studies; production and reception of visual and participatory art, dance, music, and various forms of embodied activity.

ENGL:7100 Seminar: Medieval Literature and Culture arr.

ENGL:7200 Seminar: Early Modern Literature and Culture arr.

ENGL:7300 Seminar: Restoration and Eighteenth-Century Literature arr.

ENGL:7400 Seminar: Romantic Literatures arr.

ENGL:7500 Seminar: Victorian Literature arr.

ENGL:7600 Seminar: American Literature and Culture arr.

ENGL:7700 Seminar: Studies in the 20th and 21st Century arr.

ENGL:7800 Seminar: Postcolonial Studies 3 s.h.

ENGL:7900 Advanced Studies in an Author arr.

ENGL:7910 Advanced Studies in a Literary Period arr.

ENGL:7920 Advanced Studies in a Literary Form arr.

ENGL:7930 Advanced Studies in a Literary Genre arr.

ENGL:7940 Advanced Studies in a Literary Mode arr.

ENGL:7950 Advanced Studies in a Literary Movement arr.

ENGL:7960 Advanced Studies in a Literary Theme arr.

ENGL:7970 Advanced Studies in Literary Criticism arr.

ENGL:7980 Advanced Studies in an Interdisciplinary Subject arr.

ENGL:7990 Special Project for Graduate Students arr.

ENGL:7999 PhD Thesis arr.

Creative Nonfiction Writing Courses

The courses CNW:6654 Forms of the Essay, CNW:6650 Readings in Nonfiction, CNW:6610 Essay Writing Workshop, and CNW:6620 Nonfiction Writing Workshop may be repeated. Others may be repeated with the consent of the instructor and the director of graduate studies.

CNW:1620 Introduction to Creative Nonfiction 3 s.h.
Exploration of creative nonfiction genres through readings, discussion, and writing exercises; introduction to workshop environment. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

CNW:2680 The Art and Craft of Creative Nonfiction 3 s.h.
How we tell stories: every time people talk about themselves, someone they know, places visited or events experienced; creation of a story with intention to entertain and inform a particular audience; how to create compelling, thought-provoking, and resonant texts from raw material of daily life; exploration of three fundamentals of great storytelling: taking emotional and intellectual risks, being imaginatively rigorous, and revising, revising, revising. GE: Engineering Be Creative. Same as ENGL:2730.

CNW:2700 The Art and Craft of Personal Writing 3 s.h.
Moments of wonder, confusion, and blips in memory that can reveal deep and complicated truths in life; different kinds of personal writing with focus on strategies that writers employ to create rich and compelling stories; character, scene, voice, point of view, suspense, and timing. GE: Engineering Be Creative.

CNW:2710 The Art and Craft of Food Writing 3 s.h.
Vivid prose that evokes memories, moods, places, and events; creating a visceral bond with readers as powerful as in any other art form; basics of food writing; how to heighten awareness of physical world through exercises that focus on sensory details.

CNW:2720 The Art and Craft of Writing About Culture 3 s.h.
Writing about the culture surrounding us: literature, songs, movies, magazines, television, food, concerts, theater, commercials, billboards, comic books, internet, museums, sports, architecture; readings, field trips, and multiple approaches to writing. GE: Engineering Be Creative.

CNW:2730 The Art and Craft of Science Writing 3 s.h.
Introduction to science writing; development of a clear and engaging prose style through readings and workshops. GE: Engineering Be Creative.

CNW:2740 The Art and Craft of Writing about the Environment 3 s.h.
Tradition of nature writing and how it has inspired writers, artists, and activists to find more complicated and daring interpretations of what constitutes an environment; reading and writing that challenges assumptions and pushes boundaries of environmental writing and nonfiction. GE: Engineering Be Creative.

CNW:2760 The Art and Craft of Writing for Social Change 3 s.h.
How nonfiction writers have responded to tumultuous social, political, and cultural topics of their day through reading and writing.

CNW:2770 The Art and Craft of Writing for New Media 3 s.h.
Fundamental elements of new media; readings that celebrate and challenge today's newest experiments in podcasts, video games, internet, Twitter feeds, and Tumblr narratives; crafting and critiquing texts in these media. GE: Engineering Be Creative.

CNW:2780 The Art and Craft of Writing About Sports 3 s.h.
Introduction to sports writing through reading and writing. GE: Engineering Be Creative.

CNW:2790 The Art and Craft of Humor Writing 3 s.h.
How comedy functions as one of many tools writers have at their disposal through reading and writing. GE: Engineering Be Creative.

CNW:2830 The Art and Craft of Immersion Journalism 3 s.h.
Immersion in fieldwork, leading to nonfiction writing; writer-in-residence for a particular place, institution, or organization; observation and exploration of everything that happens within those boundaries. GE: Engineering Be Creative.

CNW:2840 The Art and Craft of Travel Writing 3 s.h.
How to capture a journey's details and sensations through explorations of character, scene, point of view, and timing; why a person does not need to be a world traveler to become a compelling "writer about place"; readings, field trips, multiple approaches to workshopping. GE: Engineering Be Creative.

CNW:2910 Writing for Applications and Awards 3 s.h.
Practical exploration of how to prepare applications for fellowships, awards, grants, and graduate schools; emphasis on composing and revising personal statements, project narratives, funding proposals; fundamentals of how to clearly, concisely, and compellingly present ideas to specialized and general audiences. GE: Engineering Be Creative.

CNW:2991 Publishing I: Introduction to Literary Publishing 3 s.h.
Laboratory-style class offering step-by-step breakdown of fundamental professional and creative skills needed for jobs in the literary publishing world. Become familiar with key roles and responsibilities, such as identifying and defining a corner of the market, soliciting commissions, and assuming editorial oversight through copyediting, design, budgeting, and deadline management, while simultaneously practicing each of these roles to bring individual bespoke publications to press by semester's end. Hands-on, experiential learning. Same as ENGL:2741, WRIT:2991.

CNW:2992 Publishing II: Advanced Literary Publication 3 s.h.
Supervised, extended practice of the skills core to landing possible literary publishing jobs. Working collectively, as if part of a professional publishing house, bring a single,themed book to publication. Handle all aspects of the publication process, assuming the roles of writers, editors, art directors, designers, and marketers, culminating in a book launch. Hands-on, real-life work experience combined with exploration of inner workings of the industry, such as how agenting works to preparing for the first internship. Prerequisites: CNW:2991. Same as ENGL:2742, WRIT:2992.

CNW:3600 Issues in Creative Nonfiction 3 s.h.
Exploration and discussion of a single topic in creative nonfiction through a variety of reading assignments and creative writing exercises. Same as ENGL:3800.

CNW:3630 Advanced Nonfiction Writing 3 s.h.
Essay writing; focus on workshop environment. Prerequisites: CNW:2830 or CNW:2720 or CNW:2840 or CNW:2710 or CNW:2700 or CNW:2760 or CNW:2910 or CNW:2780 or CNW:2730 or CNW:2740 or CNW:2770 or CNW:2680 or CNW:2790. Requirements: undergraduate standing. Same as ENGL:3730.

CNW:3632 Prose Style 3 s.h.
Sentences: how they work, what they do; how sentences can help writing, expand understanding of prose style, stretch options. GE: Engineering Be Creative. Same as ENGL:3732, WRIT:3632.

CNW:3633 Personal Writing 3 s.h.
Study of personal writing. Same as ENGL:3733.

CNW:3640 Writing for Business 3 s.h.
Foundational skills for careers in the humanities including building portfolios, résumés, cover letters, and interview skills for job searches; professional communication and protocol; and exploring career opportunities. GE: Engineering Be Creative.

CNW:3660 Multimedia Writing 3 s.h.
Multidisciplinary sessions mixing media production, creative nonfiction, and literary theory; topics ranging from hypertext authoring and electronic magazine publishing to sound art and digital video; principles and practices of writing for alternative media, theoretical understanding of how various media frame the situation; radio essay, video essay, interactive animation, web authoring, electronic magazine publishing. Same as ENGL:3760.

CNW:3661 Film and Writing 3 s.h.
Writers' introduction to digital video; compelling forms of nonfiction filmmaking from the film essay to the environmental documentary; how to convert texts into film, conduct interviews, and shoot and edit digital video. Same as ENGL:3761.

CNW:3664 Writing About Science 3 s.h.
Writing about science and technology from neurobiology to astrophysics; exploration of classic literary nonfiction on the sciences; focus on various stylistic practices for making complex topics compelling for a general audience and developing a clear and readable prose style. Same as ENGL:3764.

CNW:4355 Approaches to Teaching Writing 3 s.h.
Theories, practices, strategies, and history of writing and teaching writing. GE: Engineering Be Creative. Same as EDTL:4355.

CNW:4631 Advanced Essay Workshop 3 s.h.
Experience working on new nonfiction projects, drafting and preparing one piece throughout a semester; individualized work to promote understanding of and creation in genres of nonfiction writing. Requirements: undergraduate standing and successful completion of one CNW course. Same as ENGL:4731.

CNW:4635 Advanced Creative Nonfiction Writing 3 s.h.
Close work with faculty and peers on advanced creative nonfiction writing projects. Requirements: one 2000- or 3000-level CNW course. Same as ENGL:4735.

CNW:4690 Undergraduate Project in Nonfiction Writing arr.

CNW:5375 Teaching in a Writing Center 3 s.h.
Seminar/practicum to prepare graduate students to teach in the University of Iowa Writing Center or similar settings; seminar component on writing and reading processes, tutoring strategies, English-as-a-second-language issues; practicum experience tutoring in the Writing Center. Same as RHET:5375.

CNW:6400 Nonfiction Writing Program Salon 4 s.h.
Contemporary issues in the field of literary nonfiction, including discussions of genre, hybridity, and facticity; occasional generative writing exercises; periodic discussions and questions and answers with visiting writers and scholars from around campus. Requirements: must be taken in the third year in the Nonfiction Writing Program without exception.

CNW:6600 Teaching Nonfiction 3 s.h.
Theories and practices of teaching nonfiction writing; writing workshop approaches, strategies to encourage response and revision, connections between reading and writing, diversity of form, language, and assessment.

CNW:6610 Essay Writing Workshop 3 s.h.

CNW:6620 Nonfiction Writing Workshop arr.
Intensive workshop focusing on student work; students will have an essay critiqued and a conference with the advisor; wide-ranging discussion dealing with various aspects of this multi-faceted genre and new trends in contemporary nonfiction.

CNW:6630 Graduate Thesis Workshop 4 s.h.
Thesis work in supportive workshop environment. Prerequisites: CNW:6610 and CNW:6620.

CNW:6650 Readings in Nonfiction 3 s.h.

CNW:6651 A History of the Essay 4 s.h.
Survey of the roots of the creative essay and its development through literary history; periodic lectures, discussion, and class presentations on the ways cultures have employed the essay throughout that history, and the formal innovations that have been introduced to the genre along the way. Requirements: must be taken in the first year in the Nonfiction Writing Program without exception.

CNW:6654 Forms of the Essay arr.

CNW:6656 Approaches to Nonfiction 3 s.h.
Investigation into forms of nonfiction writing.

CNW:6660 Twenty-first-Century Nonfiction arr.

CNW:6666 Performance and Profession 3 s.h.
Making and maintaining a writing career, with lessons on navigating the writer's job market; developing cover letters and curriculum vitaes, interviewing, finding an agent, negotiating with publishers, handling social media, and delivering a reading.

CNW:7073 Ethnographic Methods, Theories, and Texts 3 s.h.
Practical and theoretical background for conducting ethnographic field studies in literacy, schooling, language, or a field of student's choice; methods, methodologies, and perspectives from anthropology, sociology, folklore, journalism, literary criticism, cultural, critical, and composition theory; read historical and contemporary ethnography, consider ethnographic forms of expression (films, graphics, fiction, poems); roles, responsibilities, and ethics of writer, reader, viewer, and informant; tools, methods, and writer's techniques to develop an ethnographic portfolio. Prerequisites: PSQF:7331 or EDTL:7070 or CSED:7338 or EPLS:7373. Same as EDTL:7073.

CNW:7900 Special Project in Nonfiction Writing arr.

CNW:7950 Thesis in Nonfiction Writing arr.

Creative Writing—Writers' Workshop Courses

The course CW:1800 Creative Writing Studio Workshop does not count toward the English major or minor.

CW:1800 Creative Writing Studio Workshop 3 s.h.
Experience reading and writing fiction, poetry, and personal narrative in a workshop setting; study of published work and critical discussion from a writer's standpoint; critique of class members' work. GE: Literary, Visual, and Performing Arts.

CW:2100 Creative Writing 3 s.h.
Guidance in the process of writing fiction and poetry; writing as exploration; development of students' critical skills as readers; application of new knowledge and skills to students' own writing. GE: Engineering Be Creative.

CW:2600 Special Topics Workshop 3 s.h.
Writing workshops on special topics (e.g., writing weird tales, world building, writing place); students dive into the intricacies of craft in context of a particular topic, practice a particular set of skills, and develop new creative work.

CW:2870 Fiction Writing 3 s.h.
Analysis of works of accomplished fiction writers; critique of class members' short stories, in writing and in class; discussion of how class members use language, characterization, point of view, other elements of fiction in their work. GE: Engineering Be Creative.

CW:2875 Poetry Writing 3 s.h.
Careful writing of poems, reading of poetry by class members as well as established poets; supportive workshop context. GE: Engineering Be Creative.

CW:3000 Writing and Reading Romance Fiction 3 s.h.
How constraints and parameters in which romance fiction is created are a useful lens through which to explore the layers of craft and technique that underlie all great creative writing; opportunity to hone understanding of genre; exploration of specific craft techniques; development of a broader understanding of the fiction landscape.

CW:3002 Writing and Reading Young Adult Fiction 0,3 s.h.
Constraints and parameters in which young adult fiction is created and a useful lens through which to explore the layers of craft and technique that underlie all great creative writing; opportunity for students to hone their understanding of genre, explore specific craft techniques, and develop a broader understanding of the fiction landscape.

CW:3003 Writing and Reading Science Fiction 3 s.h.
Science fiction literature as an ongoing conversation about the possible; exploration of world boundaries we have by imagining worlds that we don't (yet); alien encounters that consider ways we react to beings we see as unlike ourselves; alternate histories to illuminate what might have been; transhumanist fiction to explore what we may become; issues of composition and craft that underlie all effective fiction; students write and revise works of science fiction and engage in constructive discussion of each other's work. GE: Engineering Be Creative.

CW:3004 Writing and Reading Fantasy Fiction 3 s.h.
Exploration of rules and boundaries of fantasy writing; interrogation of strategies and approaches that make writing fantasy distinct from other genres of fiction.

CW:3005 Professional and Creative Business Communication 3 s.h.
Solid foundation for creative and professional communication in today's modern work world; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semester-long creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision-making, and human nature; how to navigate and succeed in business or any professional field. GE: Engineering Be Creative. Same as INTD:3005, WRIT:3005.

CW:3010 Writing and Reading Children's Fiction 3 s.h.
Immersion in the particular problems of creating artful and compelling written texts for children while developing a versatile literary voice of one's own.

CW:3105 Writing From Life 3 s.h.
Introduction to literary art of journal writing through close readings of celebrated writers' journals, fiction related to journaling, and a series of journaling exercises; students build skills in communication, observation, voice, and literary expression.

CW:3107 Creative Writing for the Health Professions 3 s.h.
GE: Engineering Be Creative. Same as INTD:3107.

CW:3215 Creative Writing and Popular Culture 3 s.h.
Creative writing through the lens of popular culture; topics include television, film writing, adaptations, commercials, advertising, magazines, newspapers, comic books, song lyrics, billboards, and backs of cereal boxes. GE: Engineering Be Creative. Same as INTD:3300.

CW:3218 Creative Writing for New Media 3 s.h.
Prepares creative writers for evolving marketplace of electronic text and media; experience writing in varied media (e.g., internet, e-books, video games, mobile devices, emergent social narratives). GE: Engineering Be Creative. Same as INTD:3200.

CW:3400 Working Writers in Conversation 3 s.h.
Exposure to work of established contemporary writers who plan to visit the University of Iowa campus; students engage with each writer directly through class visits and reading attendance.

CW:3870 Advanced Fiction Writing 3 s.h.
Analysis of accomplished fiction writers' work; critique of class members' short stories, in writing and in class; discussion of how class members use language, characterization, point of view, other elements of fiction in their work. Prerequisites: CW:2870.

CW:3875 Advanced Poetry Writing 3 s.h.
Writing poems, reading poetry by class members and established poets; workshop context. Prerequisites: CW:2875.

CW:4745 The Sentence: Strategies for Writing 3 s.h.
Writing dynamic, cogent, and grammatically correct sentences; effectively communicating ideas; writing with clarity and confidence; review of grammar and various types of sentences; building complexity by adding adverbial, subordinate, and connective clauses to simple sentences; how rhythm, syntax, and word order expand the meaning of a sentence; application and appreciation. GE: Engineering Be Creative. Same as WRIT:4745.

CW:4751 Creative Writing for the Musician 3 s.h.
Better writing by focused appreciation of classical and popular music; musical forms and storytelling; music as a source of inspiration, performance of free-form writing exercises set to different soundtracks; what music can teach about language; scansion; methods for applying musical techniques in word form; how punctuation and grammar create rhythm; tone and diction used to create and modify dynamics of prose; multimedia project incorporating written, visual, and audio storytelling techniques. GE: Engineering Be Creative.

CW:4760 The Art of Revision: Rewriting Prose for Clarity and Impact 3 s.h.
Writing and rewriting of short stories and essays; specific choices to help writing reach its full potential; examination of first drafts and making strategic or radical decisions on what needs to happen in subsequent drafts in order for writing to better match original intentions; students gain insight from peers on where first drafts are succeeding or falling short, and write second and third drafts of short stories and personal narratives; structural and aesthetic choices. GE: Engineering Be Creative. Same as WRIT:4760.

CW:4870 Undergraduate Writers' Workshop: Fiction arr.

CW:4875 Undergraduate Writers' Workshop: Poetry arr.

CW:4885 Undergraduate Writers' Seminar arr.
Exploration of literature to develop substance and craft; craft sessions designed around topic chosen by instructor; modeled after Iowa Writers' Workshop graduate reading seminars. Prerequisites: ENGL:2020.

CW:4894 Undergraduate Project in Creative Writing arr.

CW:4897 Novel Writing 3 s.h.
Introduction to the process of writing a novel through focused lessons on character, perspective, plot, scene, and dialogue; organizing a longer work; creating notes and sections of a novel with progression towards completing a draft. Requirements: creative writing or fiction writing course.

CW:7810 Form of Fiction 3 s.h.

CW:7820 Form of Poetry 3 s.h.

CW:7830 Seminar: Problems in Modern Fiction arr.

CW:7840 Seminar: Problems in Modern Poetry arr.

CW:7870 Fiction Workshop arr.

CW:7875 Poetry Workshop arr.

CW:7878 Special Topics Seminar 3 s.h.
Seminar topics vary.

CW:7880 Teaching Assistant Pedagogy Colloquium 1-2 s.h.
Training and support for graduate students in the Creative Writing Program. Corequisites: CW:7870 or CW:7875. Requirements: enrollment in creative writing graduate program.

CW:7890 Graduate Project in Creative Writing arr.

CW:7895 MFA Thesis arr.

English, BA

The English major provides instruction in and opportunities for writing in all of its classes. The department also offers an honors program in which students work closely with a faculty member to complete a major critical or creative project. See Honors [p. 431] in this section of the catalog.

Students interested in the English major should consult the academic advisor in the English undergraduate advising office.

Learning Outcomes

The goal is for students who graduate from the Department of English to demonstrate the skills of reflective reading, critical thinking, effective speaking, compelling writing, and engaged citizenship.

Reflective Readers

- Analyze literary and cultural texts through close reading.
- Gain broad knowledge of several fields of literature.
- Grasp formal elements of key literary genres.
- Learn to read comparatively to illuminate the aesthetic, social, and cultural contributions of texts.

Critical Thinkers

- Approach texts with a spirit of critical inquiry and flexibility.
- Formulate productive questions.
- Use textual evidence to support individual interpretations.
- Draw upon several different critical approaches to literature in English.

Effective Speakers

- Express opinions about the texts they read through discussion and written assignments.
- Listen respectfully to others' opinions.
- Work in class—whether through active listening or discussion—to learn by synthesizing a range of texts, insights, and opinions.

Compelling Writers

- Express their ideas in clear, fluent, and lively prose.
- Organize their ideas effectively.
- Use textual evidence to illustrate and support their insights and arguments.
- Demonstrate the ability to write in different modes that are appropriate to particular contexts.
- Engage properly with relevant scholarship and creative work.
- Use research skills that include an understanding of methods, technology, and conventions.

Engaged World Citizens

- Communicate respect and understanding for the literatures and cultures of diverse historical periods, geographical regions, and cultures.
- Explore ethical issues raised by literature.
- Reflect on the ways that literature addresses issues of social justice.
- Use reading, speaking, and writing skills to engage with the ethical concerns raised by literature in their daily and professional lives.

Requirements

The Bachelor of Arts with a major in English requires a minimum of 120 s.h., including at least 36 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students must earn at least 21 s.h. of credit for the major at the University of Iowa. Transfer students may count a maximum of 15 s.h. of approved transfer credit toward the major.

Students earning a major in English may not earn a major in English and creative writing.

Students in the English major may fulfill the GE CLAS Core Interpretation of Literature requirement with the introductory course ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures.

Students pursuing the BA in English can choose to complete the requirements for the publishing track; see the following section, "Publishing Track." For information about teaching English in elementary or secondary schools, see the section titled "Teacher Licensure."

The BA with a major in English requires the following coursework.

Requirements	Hours
Introductory Courses	6
Intermediate Courses	15
Advanced Course	3
Electives	12

Introductory Courses

All English majors must complete two introductory courses and are encouraged to enroll in them as soon as they declare the major.

Course #	Title	Hours
This course:		
ENGL:2010	Foundation of the English Major: Histories, Literatures, Pleasures	3
One of these:		
ENGL:2012	Reading and Writing About the Novel	3
ENGL:2013	Reading and Writing About Poetry	3
ENGL:2014	Reading and Writing About the Short Story	3
ENGL:2015	Reading and Writing About Drama	3
ENGL:2016	Reading and Writing About the Essay	3

Intermediate Courses

Intermediate coursework for the major (prefix ENGL, numbered 2021–3999) is divided into three areas. Students must complete at least two courses (6 s.h.) from the Historical

Contexts [p. 428] list; two courses (6 s.h.) from the Cultural Contexts [p. 428] list; and one course (3 s.h.) from the Craft and Method [p. 429] list.

Historical Contexts

English courses (prefix ENGL) numbered 2200–2450 and 3200–3440 may be used for this requirement.

Course #	Title	Hours
At least two of these:		
ENGL:2206	Classical and Biblical Literature	3
ENGL:2216	Selected Works of the Middle Ages	3
ENGL:2236	Selected Early Authors	3
ENGL:2309	Selected British Authors Before 1900	3
ENGL:2310	Selected British Authors After 1900	3

Cultural Contexts

English courses (prefix ENGL) numbered 2451–2699 and 3441–3699 may be used for this requirement.

Course #	Title	Hours
At least two of these:		
ENGL:2463	Topics in African American Literature	3
ENGL:2465	Selected African American Authors	3
ENGL:2475	Asian American Literature	3
ENGL:2505	Introduction to Postcolonial Studies	3
ENGL:2510	Selected Transnational Authors	3
ENGL:2560	Topics in Culture and Identity	3
ENGL:2570	Love, War, Activism: Stories About Women From Across the World	3
ENGL:2571	Visualizing Human Rights	3
ENGL:2593	Literature, Culture, and Women	3
ENGL:2601	Topics in British Culture and Identity	3
ENGL:3441	Native American Literature	3
ENGL:3444	Literatures of the American Peoples	3
ENGL:3450	American Regional Literatures	3

ENGL:3455	Jewish American Literature	3
ENGL:3459	African American Literature Before 1900	3
ENGL:3460	African American Literature After 1900	3
ENGL:3461	Twenty-First Century African American Literature	3
ENGL:3462	African American Drama	3
ENGL:3465	African American Autobiography	3
ENGL:3467	Latina/o/x Literatures and Cultures	3
ENGL:3470	Gender, Sexuality, and American Literature	3
ENGL:3510	Topics in Transnational Literature	3
ENGL:3515	Topics in Postcolonial Studies	3
ENGL:3520	Literature and Culture of the 20th and 21st Century	3
ENGL:3525	Literature and Culture of the Americas	3
ENGL:3535	Topics in Literature and Culture of the Americas	3
ENGL:3540	Literature of the Indian Subcontinent	3
ENGL:3550	African Literature	3
ENGL:3555	Topics in African Cinema	3
ENGL:3565	Literature and the Environment	3
ENGL:3570	Transnational and Postcolonial Writing by Women	3
ENGL:3571	Higher Education and Social Justice	3
ENGL:3572	Literature and Social Justice	3
ENGL:3573	Gender, Sexuality, and Literature	3
ENGL:3580	Identity and Social Issues	3
ENGL:3581	Topics in Popular Culture	3
ENGL:3595	International Literature Today	3

Craft and Method

English courses numbered ENGL:2100–ENGL:2199, ENGL:2700–ENGL:2799, ENGL:2900–ENGL:2999, ENGL:3010, ENGL:3100–ENGL:3199, ENGL:3700–ENGL:3899, and CNW:2000–CNW:4999 may be used for this requirement.

Course #	Title	Hours
At least one of these:		
ENGL:2100	Introduction to Criticism and Theory	3
ENGL:2191	Modern Fiction	3
ENGL:2192	Postmodern Fiction	3
ENGL:2194	Lyric Structures	3
ENGL:2900	Book Design for Publishing	3
ENGL:2901	The Book in Global History	3
ENGL:3010	Children's Literature	3
ENGL:3100	Topics in Criticism and Theory	3
ENGL:3102	Topics in Poetry and Poetics	3
ENGL:3130	Topics in Film and Literature	3
ENGL:3140	Literature and the Book	3
ENGL:3142	Topics in Book History	3
ENGL:3145	Editorial Practice	3
ENGL:3148	Literary Editing	3
ENGL:3150	Literature and Philosophic Thought	3
ENGL:3155	Literature and Art	3
ENGL:3160	Literary Genres and Modes	3

ENGL:3182	Digital Cultures and Literacies	3
ENGL:3186	Science Fiction	3
ENGL:3190	Language and Learning	3
ENGL:3191	Reading and Teaching Adolescent Literature	3
ENGL:3700	Topics in Craft and Method	3
ENGL:3721	Writers' Seminar: Fiction	3
ENGL:3722	Writers' Seminar: Poetry	3
ENGL:3723	Writers' Seminar: Nonfiction	3
ENGL:3724	Writers' Seminar: Literary Translation	3
ENGL:3725	Writers' Seminar: Playwriting	3
ENGL:3850	Undergraduate Translation Workshop	3
CNW:2680/ ENGL:2730	The Art and Craft of Creative Nonfiction	3
CNW:2700	The Art and Craft of Personal Writing	3
CNW:2710	The Art and Craft of Food Writing	3
CNW:2720	The Art and Craft of Writing About Culture	3
CNW:2730	The Art and Craft of Science Writing	3
CNW:2740	The Art and Craft of Writing about the Environment	3
CNW:2760	The Art and Craft of Writing for Social Change	3
CNW:2770	The Art and Craft of Writing for New Media	3
CNW:2780	The Art and Craft of Writing About Sports	3
CNW:2790	The Art and Craft of Humor Writing	3
CNW:2830	The Art and Craft of Immersion Journalism	3
CNW:2840	The Art and Craft of Travel Writing	3
CNW:2910	Writing for Applications and Awards	3
CNW:2991/ ENGL:2741	Publishing I: Introduction to Literary Publishing	3
CNW:2992/ ENGL:2742	Publishing II: Advanced Literary Publication	3
CNW:3600/ ENGL:3800	Issues in Creative Nonfiction	3
CNW:3630/ ENGL:3730	Advanced Nonfiction Writing	3

CNW:3632/ ENGL:3732	Prose Style	3
CNW:3633/ ENGL:3733	Personal Writing	3
CNW:3640	Writing for Business	3
CNW:3660/ ENGL:3760	Multimedia Writing	3
CNW:3661/ ENGL:3761	Film and Writing	3
CNW:3664/ ENGL:3764	Writing About Science	3
CNW:4355	Approaches to Teaching Writing	3
CNW:4631/ ENGL:4731	Advanced Essay Workshop	3
CNW:4635/ ENGL:4735	Advanced Creative Nonfiction Writing	3
CNW:4690	Undergraduate Project in Nonfiction Writing	3

Advanced Courses

Students must complete at least 3 s.h. in advanced courses for the English major, including ENGL:4000–ENGL:4009, ENGL:4100, or ENGL:4150.

Course #	Title	Hours
At least one of these:		
ENGL:4000	English Honors Literature Seminar	3
ENGL:4001	Honors Literature Seminar: American Literature, 20th/21st Century	3
ENGL:4002	Honors Literature Seminar: British Literature, 20th/21st Century	3
ENGL:4003	Honors Literature Seminar: Literary Theory and Interdisciplinary Studies, 20th/21st Century	3
ENGL:4004	Honors Literature Seminar: Transnational and Postcolonial Literature, 20th/21st Century	3
ENGL:4005	Honors Literature Seminar: American Literature, 18th/19th Century	3
ENGL:4006	Honors Literature Seminar: British Literature, 18th/19th Century	3
ENGL:4009	Honors Literature Seminar: Medieval and Early Modern Literature, Early Literature/17th Century	3
ENGL:4100	Advanced Literary Seminar	3
ENGL:4150	Introduction to Book Studies	3

Electives

Students complete 12 s.h. in additional Department of English courses (prefixes ENGL or CNW) numbered above 2000; these may include ENGL:2030 Literary Readings Attendance, ENGL:2040 English at Work, ENGL:4010 Special Project for Undergraduates, and ENGL:4050 Internship for Majors. Students may count a maximum of 6 s.h. earned in creative writing courses (prefix CW) numbered 2000–4999 as part of these electives.

Publishing Track

The world of publishing includes many different careers: editors, designers, agents, and even sales representatives. Students who are interested in these careers may wish to pursue the publishing track. By selecting courses carefully, students may complete the track without adding additional semester hours to their total credit required for graduation. Students should consult the department's advisor for information about completing the English major with the publishing track.

Courses range across print and digital media, exposing students to the history and practice of literary publishing while developing their skills in editing, proofreading, and writing with clarity and purpose. Internships and hands-on class learning offer students the opportunity to produce their own publications and gain practical experience.

Students in the publishing track must complete the following.

Literary Publishing

Course #	Title	Hours
Both of these (6 s.h.):		
CNW:2991/ ENGL:2741	Publishing I: Introduction to Literary Publishing	3
CNW:2992/ ENGL:2742	Publishing II: Advanced Literary Publication	3

Editing and Book Design, History, or Revision

Course #	Title	Hours
One of these (3 s.h.):		
ENGL:2900	Book Design for Publishing	3
ENGL:2901	The Book in Global History	3
ENGL:3140	Literature and the Book	3
ENGL:3142	Topics in Book History	3
ENGL:3145	Editorial Practice	3
ENGL:3148	Literary Editing	3
ENGL:3181	Digital Media and Poetics	3
ENGL:3182	Digital Cultures and Literacies	3
ENGL:3430	Topics in American Literature After 1900 (when topic is in print/in person)	3
ENGL:4150	Introduction to Book Studies	3
CNW:3600/ ENGL:3800	Issues in Creative Nonfiction (when topic is how to be a writer)	3
CNW:3632/ ENGL:3732	Prose Style	3

Career Preparation

Course #	Title	Hours
One of these (1-3 s.h.):		
ENGL:2040	English at Work	1
ENGL:4050	Internship for Majors	arr.
CCP:1201	Academic Internship	1-3

Teacher Licensure

Students who plan to teach English in elementary or secondary schools should consult with an advisor in the College of Education as early as possible; contact the Office of Student Services. The BA in English education [p. 1454] requires that students choose particular courses in the English major in order to meet all related requirements; both degrees may be earned at the same time. Separate application to each degree program is required.

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in English and thereby enhance their course of study through honors seminars. All those interested in taking honors coursework are welcome to apply to the English Honors Program as soon as they qualify. The process begins with an online application; visit English Honors Programs on the Department of English website.

Students take three honors seminars and must achieve a University of Iowa grade-point average (GPA) of at least 3.33 and a major GPA of at least 3.50.

Each year the department offers between four and six scholarship and criticism seminars covering a wide range of subjects, authors, and methods. Limited to 16 students, honors seminars carry 3 s.h. of credit, meet three hours each week, and encourage class discussions that are lively and knowledgeable. Substantial reading and research are required and culminate in a 15–20 page essay. Students register for ENGL:4001–ENGL:4009. These courses cover different areas and historical periods, with possible focal points in American literature, British literature, literary theory, or transnational studies.

The third of the three honor seminars may be replaced with ENGL:4040 Honors Project in Literary Studies, a capstone project. For this independent study option, interested students should seek out possible mentors in their junior year.

To register for a scholarly seminar, students are encouraged to have a University of Iowa GPA of at least 3.33. In addition, they must have completed three English courses (not including introductory courses in nonfiction or creative writing) with an English major GPA of at least 3.33: ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures; one course out of ENGL:2012–ENGL:2016; and a departmental course of their choosing.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the English major.

Career Advancement

The English major prepares students for a wide variety of career paths including teaching, medicine, law, graduate school, and jobs in private and nonprofit sectors where writing, organization, research, and communication are highly valued. Within a year of graduation, over 92% of Department of English students are employed or in graduate programs.

The department's advisor helps guide students in their career path. The Department of English partners with the Pomerantz Career Center to introduce career development strategies and offer resources to help students find internships and jobs. For more information, students are encouraged to explore Careers and Opportunities on the Department of English website or enroll in ENGL:2040 English at Work (1 s.h.).

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: at least two courses in the major.

Before the seventh semester begins: at least four more courses (total of six) in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two more courses (total of eight) in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

c Major courses can be taken in any order as long as ENGL:2010 is taken before any 3000-level-course.

d This course is recommended to fulfill the English elective requirement.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g This course is recommended but not required for the BA in English.
h English courses numbered ENGL:21XX, 27XX, 29XX, ENGL:3010, ENGL:31XX, ENGL:37XX-38XX, and CNW:20XX-49XX may be used for the craft and method requirement.
i Students choose courses with the prefix ENGL, CNW, or CW numbered 2000 or above.
j Students may count up to 6 s.h. earned in courses with prefix CW toward the major.
k Students with honors in the major complete three seminars. Visit the Department of English website for more information on applying to the English Honors Program.
l Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

English and Creative Writing, BA

The BA in English and creative writing enables students to experience the historical, traditional, and innovative aspects of literature in English and the relationship between critical reading and creative writing. The major provides the transferable skills important for a liberal arts major, including the ability to think deeply and creatively, read complex texts with comprehension, and master writing and speaking skills at an advanced level.

The English and creative writing major introduces students to the wealth of resources associated with the University of Iowa and the Iowa City writing communities. For over 75 years, the Department of English and the University of Iowa Writers' Workshop have been leaders in the area of writing. The MFA offered by the Nonfiction Writing Program and administered by the Department of English has been voted the top MFA program in creative nonfiction in the United States. Likewise, the MFA program in the Iowa Writers' Workshop is annually noted as the top graduate program in the country.

The international reputation of writing at Iowa is boosted by synergy across colleges, with the International Writing Program hosting published writers each fall from countries around the world and each spring traveling to other countries, taking Iowa writing on the road. This synergy helps the university and Iowa City draw writers of all ages and nationalities to its writing community. The community is bolstered by the strong readings series offered by the Nonfiction Writing Program, the Iowa Writers' Workshop, and Prairie Lights Books, with hundreds of readings archived by the Iowa Digital Library, creating a resource for future writers and scholars.

The status of Iowa City as a UNESCO City of Literature has also enriched the writing community, with people from across the Midwest visiting the city during the annual Book Festival. The Massive Open Online Courses (MOOCs) offered by the Department of English, "Every Atom: Walt Whitman's Song of Myself" and "Walt Whitman and the Civil War," as well as the International Writing Program's online series called "How Writers Write," have enrolled thousands of students and adult learners from around the world, enhancing the reputation of the University of Iowa as the "Writing University." The Iowa Summer Writing Festival, Iowa Young Writers' Studio, the Certificate in Writing, the Center for the Book, the Iowa Playwrights Workshop, and the Iowa Youth Writing Project all help to turn Iowa City into a destination for writers, who are drawn to the city for its heritage and for its current community of writers.

Learning Outcomes

The goal is for students who graduate from the Department of English to demonstrate the skills of reflective reading, critical thinking, effective speaking, compelling writing, and engaged citizenship.

Reflective Readers

- Analyze literary and cultural texts through close reading.
- Gain broad knowledge of several fields of literature.
- Grasp formal elements of key literary genres.
- Learn to read comparatively to illuminate the aesthetic, social, and cultural contributions of texts.

Critical Thinkers

- Approach texts with a spirit of critical inquiry and flexibility.
- Formulate productive questions.
- Use textual evidence to support individual interpretations.
- Draw upon several different critical approaches to literature in English.

Effective Speakers

- Express opinions about the texts they read through discussion and written assignments.
- Listen respectfully to others' opinions.
- Work in class—whether through active listening or discussion—to learn by synthesizing a range of texts, insights, and opinions.

Compelling Writers

- Express their ideas in clear, fluent, and lively prose.
- Organize their ideas effectively.
- Use textual evidence to illustrate and support their insights and arguments.
- Demonstrate the ability to write in different modes that are appropriate to particular contexts.
- Engage properly with relevant scholarship and creative work.
- Use research skills that include an understanding of methods, technology, and conventions.

Engaged World Citizens

- Communicate respect and understanding for the literatures and cultures of diverse historical periods, geographical regions, and cultures.
- Explore ethical issues raised by literature.
- Reflect on the ways that literature addresses issues of social justice.
- Use reading, speaking, and writing skills to engage with the ethical concerns raised by literature in their daily and professional lives.

Requirements

The Bachelor of Arts in English and creative writing requires a minimum of 120 s.h., including at least 36 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Students must earn at least 21 s.h. of credit for the major at the University of Iowa.

Students earning a major in English and creative writing may not earn a major in English.

Students in the English and creative writing major may fulfill the GE CLAS Core Interpretation of Literature requirement with the introductory course ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures.

Students pursuing the BA in English and creative writing can choose to complete the requirements for the publishing track; see the section titled "Publishing Track" for information.

For information about teaching English in elementary or secondary schools, see the "Teacher Licensure" section.

The BA with a major in English and creative writing requires the following coursework.

Requirements	Hours
Introductory Courses	6
Intermediate Courses	15
Advanced Courses	3
Electives	12

Introductory Courses

Students must complete the two introductory courses before they enroll in advanced courses.

Course #	Title	Hours
Both of these:		
ENGL:2010	Foundation of the English Major: Histories, Literatures, Pleasures	3
ENGL:2020	Foundations of Creative Writing: Craft, Practice, Pleasure	3

Intermediate Courses

Intermediate coursework for the major (numbered 2021–3999) is divided into three areas. Students must complete at least one course (3 s.h.) from the Historical Contexts [p. 435] list; at least one course (3 s.h.) from the Cultural Contexts [p. 435] list; one additional course (3 s.h.) from either the Historical Contexts or Cultural Contexts list; and two courses (6 s.h.) from the Craft and Method [p. 436] list.

Historical Contexts

English courses (prefix ENGL) numbered 2200–2450 or 3200–3440 may be used for this requirement.

Course #	Title	Hours
At least one of these:		
ENGL:2206	Classical and Biblical Literature	3
ENGL:2216	Selected Works of the Middle Ages	3
ENGL:2236	Selected Early Authors	3
ENGL:2309	Selected British Authors Before 1900	3
ENGL:2310	Selected British Authors After 1900	3
ENGL:2329	Topics in Modern British Literature Before 1900	3
ENGL:2330	Topics in Modern British Literature After 1900	3
ENGL:2338	Eighteenth-Century British Literature	3
ENGL:2348	British Romanticism	3
ENGL:2359	Victorian Literature	3
ENGL:2360	Twentieth-Century British Literature	3
ENGL:2361	Twenty-first-Century British Literature	3
ENGL:2409	Selected American Authors Before 1900	3
ENGL:2410	Selected American Authors After 1900	3
ENGL:2420	American Literary Classics	3
ENGL:2425	American Poetry	3
ENGL:2438	American Novel Before 1900	3
ENGL:2440	American Novel After 1900	3
ENGL:2450	American Short Story	3
ENGL:3216	Topics in Medieval and Renaissance Literature	3
ENGL:3226	Literature and Culture of the Middle Ages	3
ENGL:3236	Literature and the Culture of the Renaissance	3
ENGL:3237	Literature and Culture of Seventeenth-Century England	3

ENGL:3520	Literature and Culture of the 20th and 21st Century	3
ENGL:3525	Literature and Culture of the Americas	3
ENGL:3535	Topics in Literature and Culture of the Americas	3
ENGL:3540	Literature of the Indian Subcontinent	3
ENGL:3550	African Literature	3
ENGL:3555	Topics in African Cinema	3
ENGL:3565	Literature and the Environment	3
ENGL:3570	Transnational and Postcolonial Writing by Women	3
ENGL:3571	Higher Education and Social Justice	3
ENGL:3572	Literature and Social Justice	3
ENGL:3573	Gender, Sexuality, and Literature	3
ENGL:3580	Identity and Social Issues	3
ENGL:3581	Topics in Popular Culture	3
ENGL:3595	International Literature Today	3

Craft and Method

English courses numbered ENGL:2100–ENGL:2199, ENGL:2700–ENGL:2799, ENGL:2900–ENGL:2999, ENGL:3010, ENGL:3100–ENGL:3199, ENGL:3700–ENGL:3899, and CNW:2000–CNW:4999 may be used for this requirement.

Course #	Title	Hours
Two of these:		
ENGL:2100	Introduction to Criticism and Theory	3
ENGL:2191	Modern Fiction	3
ENGL:2192	Postmodern Fiction	3
ENGL:2194	Lyric Structures	3
ENGL:2900	Book Design for Publishing	3
ENGL:2901	The Book in Global History	3
ENGL:3010	Children's Literature	3
ENGL:3100	Topics in Criticism and Theory	3
ENGL:3102	Topics in Poetry and Poetics	3
ENGL:3130	Topics in Film and Literature	3
ENGL:3140	Literature and the Book	3
ENGL:3142	Topics in Book History	3
ENGL:3145	Editorial Practice	3
ENGL:3148	Literary Editing	3
ENGL:3150	Literature and Philosophic Thought	3
ENGL:3155	Literature and Art	3
ENGL:3160	Literary Genres and Modes	3
ENGL:3181	Digital Media and Poetics	3
ENGL:3182	Digital Cultures and Literacies	3
ENGL:3186	Science Fiction	3
ENGL:3190	Language and Learning	3
ENGL:3191	Reading and Teaching Adolescent Literature	3
ENGL:3700	Topics in Craft and Method	3
ENGL:3721	Writers' Seminar: Fiction	3
ENGL:3722	Writers' Seminar: Poetry	3
ENGL:3723	Writers' Seminar: Nonfiction	3
ENGL:3724	Writers' Seminar: Literary Translation	3
ENGL:3725	Writers' Seminar: Playwriting	3
ENGL:3850	Undergraduate Translation Workshop	3
CNW:2680/ ENGL:2730	The Art and Craft of Creative Nonfiction	3
CNW:2700	The Art and Craft of Personal Writing	3
CNW:2710	The Art and Craft of Food Writing	3
CNW:2720	The Art and Craft of Writing About Culture	3

CNW:2730	The Art and Craft of Science Writing	3
CNW:2740	The Art and Craft of Writing about the Environment	3
CNW:2760	The Art and Craft of Writing for Social Change	3
CNW:2770	The Art and Craft of Writing for New Media	3
CNW:2780	The Art and Craft of Writing About Sports	3
CNW:2790	The Art and Craft of Humor Writing	3
CNW:2830	The Art and Craft of Immersion Journalism	3
CNW:2840	The Art and Craft of Travel Writing	3
CNW:2910	Writing for Applications and Awards	3
CNW:2991/ ENGL:2741	Publishing I: Introduction to Literary Publishing	3
CNW:2992/ ENGL:2742	Publishing II: Advanced Literary Publication	3
CNW:3600/ ENGL:3800	Issues in Creative Nonfiction	3
CNW:3630/ ENGL:3730	Advanced Nonfiction Writing	3
CNW:3632/ ENGL:3732	Prose Style	3
CNW:3633/ ENGL:3733	Personal Writing	3
CNW:3640	Writing for Business	3
CNW:3660/ ENGL:3760	Multimedia Writing	3
CNW:3661/ ENGL:3761	Film and Writing	3
CNW:3664/ ENGL:3764	Writing About Science	3
CNW:4355	Approaches to Teaching Writing	3
CNW:4631/ ENGL:4731	Advanced Essay Workshop	3
CNW:4635/ ENGL:4735	Advanced Creative Nonfiction Writing	3
CNW:4690	Undergraduate Project in Nonfiction Writing	3

Advanced Courses

Advanced courses give students flexible choices so they can focus on fiction, nonfiction, poetry, or other genres of writing, and provide the opportunity to experiment across genres. Courses focus on the particulars of craft, tradition, and innovation. Most of the advanced courses are repeatable and most have prerequisites.

Students must complete at least 3 s.h. in advanced creative writing courses from the following.

Course #	Title	Hours
ENGL:4011	Honors Workshop: Creative Writing	3
ENGL:4012	Honors Workshop: Fiction	3
ENGL:4013	Honors Workshop: Poetry	3
ENGL:4014	Honors Workshop: Creative Nonfiction	3
ENGL:4020	Honors Thesis Workshop	3
ENGL:4030	Undergraduate Honors Project in Creative Writing	1-3
ENGL:4720	Advanced Creative Writing: Special Topic	3
ENGL:4721	Advanced Writers' Seminar: Fiction	3
ENGL:4722	Advanced Writers' Seminar: Poetry	3
ENGL:4723	Advanced Writers' Seminar: Nonfiction	3
ENGL:4724	Advanced Writers' Seminar: Literary Translation	3
ENGL:4725	Advanced Writers' Seminar: Playwriting	3
CNW:4631/ ENGL:4731	Advanced Essay Workshop (if not taken for Craft and Method requirement)	3
CNW:4635/ ENGL:4735	Advanced Creative Nonfiction Writing (if not taken for Craft and Method requirement)	3

Electives

Students complete 12 s.h. in additional Department of English courses (prefixes ENGL or CNW) numbered above 2000; these may include ENGL:2030 Literary Readings Attendance, ENGL:2040 English at Work, ENGL:4010 Special Project for Undergraduates, and ENGL:4050 Internship for Majors. Students may count a maximum of 6 s.h. from courses listed as creative writing electives in the following course list.

Creative Writing Electives

The creative writing electives give students flexible choices to focus on fiction, nonfiction, poetry, or other genres of writing, and allow students to experiment across genres. Courses focus on the particulars of craft, tradition, and innovation. Many of the courses are repeatable, enabling students to further develop in a particular writing form.

Students should be aware that some of these courses have prerequisites.

Course #	Title	Hours
Creative writing courses (prefix CW) numbered 2000-4999		
CINE:3361	Screenwriting: Short Form	3
CINE:3367	Screenwriting: Long Form	3
COMM:2077	Writing and Producing Sitcoms	3
SPAN:3060	Introductory Workshop on Creative Writing in Spanish	3
THTR:2301	Playwriting I	3
THTR:3301	Playwriting II	3
THTR:3310	Undergraduate Playwriting Workshop	3
THTR:3320	Writing for Film	3
THTR:3325	Iowa Writers' Room	3
THTR:6310	Special Topics in Playwriting	3
WLLC:2473	Cinderella	3

WLLC:3208	Classical Chinese Literature Through Translation	3

Publishing Track

The world of publishing includes many different careers: editors, designers, agents, and even sales representatives. Students who are interested in these careers may wish to pursue the publishing track. By selecting courses carefully, students may complete the track without adding additional semester hours to their total credit required for graduation. Students should consult the department's advisor for information about completing the English major with the publishing track.

Courses range across print and digital media, exposing students to the history and practice of literary publishing while developing their skills in editing, proofreading, and writing with clarity and purpose. Internships and hands-on class learning offer students the opportunity to produce their own publications and gain practical experience.

Students in the publishing track must complete the following.

Literary Publishing

Course #	Title	Hours
Both of these (6 s.h.):		
CNW:2991/ ENGL:2741	Publishing I: Introduction to Literary Publishing	3
CNW:2992/ ENGL:2742	Publishing II: Advanced Literary Publication	3

Editing and Book Design, History, or Revision

Course #	Title	Hours
One of these (3 s.h.):		
ENGL:2900	Book Design for Publishing	3
ENGL:2901	The Book in Global History	3
ENGL:3140	Literature and the Book	3
ENGL:3142	Topics in Book History	3
ENGL:3145	Editorial Practice	3
ENGL:3148	Literary Editing	3
ENGL:3181	Digital Media and Poetics	3
ENGL:3182	Digital Cultures and Literacies	3
ENGL:3430	Topics in American Literature After 1900 (when topic is in print/in person)	3
ENGL:4150	Introduction to Book Studies	3
CNW:3600/ ENGL:3800	Issues in Creative Nonfiction (when topic is how to be a writer)	3
CNW:3632/ ENGL:3732	Prose Style	3

Career Preparation

Course #	Title	Hours
One of these (1-3 s.h.):		
ENGL:2040	English at Work	1
ENGL:4050	Internship for Majors	arr.
CCP:1201	Academic Internship	1-3

Teacher Licensure

Students who plan to teach English should consult with an advisor in the College of Education as early as possible; contact the Office of Student Services. The BA in English education [p. 1454] requires that students choose particular courses in the English major in order to meet all related requirements; both degrees may be earned at the same time. Separate application to each degree program is required.

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in English and creative writing and thereby enhance their course of study through honors seminars. All those interested in taking honors coursework are welcome to apply to the English Honors Program as soon as they qualify. The process begins with an online application; visit English Honors Programs on the Department of English website.

Students take three honors seminars and must achieve a University of Iowa grade-point average (GPA) of at least 3.33 and a major GPA of at least 3.50.

Each year the department offers between four and six creative writing seminars covering a wide range of genres, modes, and styles. Small and often workshop-oriented, these honors courses are open only to English and creative writing majors who have completed at least 24 s.h. of college-level work. Seminars are limited to 16 students, carry 3 s.h. of credit, and meet three hours each week.

Two of the three honors seminars are chosen from these selective admission courses. Early in the previous semester, those interested apply with a portfolio of their creative work; no minimum GPA is required, and decisions are made in time for preregistration. Successful applicants then register for ENGL:4011–ENGL:4014. Students may apply for only one seminar per semester.

The second of the two creative writing seminars may be replaced by ENGL:4030 Undergraduate Honors Project in Creative Writing, a capstone project. For this independent study option, interested students should seek out possible mentors in their junior year.

The third required honors course is a scholarship and criticism seminar chosen from ENGL:4001–ENGL:4009, courses that offer a wide range of subjects, authors, methods, and eras. Limited to 16 students, these courses also carry 3 s.h. of credit, meet three hours each week, and encourage class discussions that are lively and knowledgeable. Substantial reading and research are required and culminate in a 15–20 page essay.

To register for a scholarly seminar, honors students in English and creative writing are encouraged to have a University of Iowa GPA of at least 3.33. They must also have completed at least three courses: ENGL:2010 Foundation of

the English Major: Histories, Literatures, Pleasures; ENGL:2020 Foundations of Creative Writing: Craft, Practice, Pleasure; and a third departmental course of their choosing.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the English and creative writing major.

Career Advancement

The English and creative writing major prepares students for a wide variety of career paths including teaching, medicine, law, graduate school, and jobs in private and nonprofit sectors where writing, organization, research, and communication are highly valued. Within a year of graduation, over 92% of Department of English students are employed or in graduate programs.

The department's advisor helps guide students in their career path. The Department of English partners with the Pomerantz Career Center to introduce career development strategies and offer resources to help students find internships and jobs. For more information, students are encouraged to explore Careers and Opportunities on the Department of English website or enroll in ENGL:2040 English at Work (1 s.h.).

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: at least six courses in the major, including ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures; ENGL:2020 Foundations of Creative Writing: Craft, Practice, Pleasure; and an approved introduction to creative writing course (consult advisor).

Before the seventh semester begins: at least four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Total Hours	**120-125**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Major courses can be taken in any order as long as ENGL:2010 is taken before any 3000-level course.

c Students must first complete ENGL:2010 and ENGL:2020 before they enroll in advanced courses for the major.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students with a second major in screenwriting arts or theatre arts will usually fulfill this elective with a writing course from that major.

f Recommended courses to fulfill this requirement: THTR:2301 or CW:1800

g This course is recommended to fulfill the English elective requirement.

h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

i First-year and transfer students enrolling for summer or fall will take CSI:1600 course during the fall semester of their first year.

j English courses numbered ENGL:21XX, 27XX, 29XX, ENGL:3010, ENGL:31XX, ENGL:37XX-38XX, and CNW:20XX-49XX may be used for the craft and method requirement.

k Students with honors in the major complete three seminars. Visit the Department of English website for more information on applying to the English Honors Program.

l Students may count a maximum of 6 s.h. from courses listed as creative writing electives. See the General Catalog for a list of courses.

m Students choose courses with the prefix ENGL or CNW numbered 2000 or above.

n Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

o See the General Catalog for a list of courses.

p Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

English, Minor

Requirements

The undergraduate minor in English requires a minimum of 15 s.h. in English courses, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students may count a maximum of 3 s.h. of approved transfer credit toward the minor.

The minor in English requires the following coursework.

Course #	Title	Hours
At least 6 s.h. from these:		
English courses (prefix ENGL) numbered 2100-2699		
ENGL:3010	Children's Literature	3
ENGL:3140	Literature and the Book	3
ENGL:3142	Topics in Book History	3
ENGL:3150	Literature and Philosophic Thought	3
ENGL:3155	Literature and Art	3
ENGL:3160	Literary Genres and Modes	3
ENGL:3181	Digital Media and Poetics	3
ENGL:3182	Digital Cultures and Literacies	3
ENGL:3186	Science Fiction	3
ENGL:4150	Introduction to Book Studies	3

The remaining 9 s.h. may be selected from additional English courses (prefix ENGL) and writing courses (prefixes CNW and CW), with a maximum of 6 s.h. earned in courses with the prefix CW. Only courses numbered above 2000 count toward the English minor.

English, MA

The Master of Arts program in English introduces students to the professional study of literature.

The MA is appropriate for students who would like graduate training in English and who may have an undergraduate major in a different field or who may intend to earn a PhD at another institution. Students interested in careers in any area of book studies (professional writing, editing, web design, or publishing) may wish to earn the MA as a terminal degree, as may teachers seeking to enhance their credentials or students pursuing intellectual growth unrelated to a specific career.

MA and PhD students in English mix freely in graduate courses, share the same access to faculty, and meet the same standards of quality in their work.

Exam for the Master of Arts in Teaching

The department administers the English component of the exam for the Master of Arts in Teaching (MAT) in coordination with the College of Education. MAT students should contact the Department of Teaching and Learning (College of Education) for information.

Learning Outcomes

- Writing skills: proficiency in writing means publishable-quality writing (e.g., what one would expect from an article placed in a scholarly or creative journal).
- Historical knowledge: comprehensive historical knowledge of literary history, reflected in courses taken across a range of literary periods and national/international traditions.
- Critical theory and approaches: rigorous study of critical methodologies and interpretive strategies.
- Research skills: familiarity with library research into secondary scholarship on primary texts, archival research methods, and field research, where applicable.
- Teaching skills: ideally, students will move from foundations-based grading positions under the supervision of tenure track faculty (introduction to the major) to rhetoric/composition coursework (rhetoric), and then on to literary analysis-focused courses (general education literature). Students learn to build their own syllabi, develop a teaching portfolio, and manage their own courses independently.
- Professional development: this includes conference presentations, curriculum vitae and résumé building, and teaching statements, along with exposure to career tracks, both academic (e.g., tenure track jobs, liberal arts colleges, community colleges, etc.) and alternative professions (e.g., digital humanities, humanities organizations, publishing, etc.).

Requirements

The Master of Arts program in English requires a minimum of 31–60 s.h. of graduate credit. The program is offered with two options: the literary studies subprogram [p. 442] (31 s.h.) and without a subprogram [p. 444] (60 s.h.).The subprogram in literary studies is designed for students pursuing the MA as a standalone program or for U2G students. The MA in English without a subprogram only applies to students admitted to the English PhD program; there is no direct admission to this subprogram.

The MA in English requires the following coursework.

Literary Studies Subprogram

The Master of Arts in English with a subprogram in literary studies requires a minimum of 31 s.h. of graduate credit. Students may receive credit for up to 6 s.h. of transfer courses toward the MA. They must maintain a graduate college program grade-point average (GPA) of at least 3.00. Applicable transfer courses must be approved by the director of graduate studies.

Requirements	Hours
Required Courses	6
Seminars and Readings: Historical Distribution Courses	6
Additional Courses	6
Electives	12
Capstone	1

Required Courses, Literary Studies

The criticism and theory course must be taken on an A–F graded basis.

Course #	Title	Hours
This course:		
ENGL:5000	Introduction to Graduate Study	3
Criticism and Theory		
One of these:		
ENGL:6000	Introduction to Contemporary Theory	3

ENGL:7700	Seminar: Studies in the 20th and 21st Century	3
ENGL:7800	Seminar: Postcolonial Studies	3

Additional Courses

Students complete two additional seminar or readings courses for a total of 6 s.h. Courses must be taken on an A–F graded basis. A course applied to the historical distribution requirement may not also count toward this requirement.

Course #	Title	Hours
6 s.h. from these:		
ENGL:6020	Literature as Letters	3
ENGL:6080	New Media Poetics	3
ENGL:6090	Topics in Interdisciplinary Studies	3
ENGL:6100	Readings in Medieval Literature and Culture	3
ENGL:6110	Medieval Authors	3
ENGL:6200	Sixteenth- and Seventeenth-Century Authors	3
ENGL:6210	Readings in Sixteenth- and Seventeenth-Century Genres	3
ENGL:6220	Shakespeare	3
ENGL:6300	Restoration and Eighteenth-Century Literature	3
ENGL:6315	MA Seminar: English Education	3
ENGL:6400	Romantic Literature	3
ENGL:6500	Victorian Literature	3
ENGL:6601	Readings in American Literature	3
ENGL:6602	Readings in American Literature II	3
ENGL:6603	Readings in American Literature III	3
ENGL:6610	Studies in African American Literature	3
ENGL:6620	Readings in Native American Literatures	3
ENGL:6630	Readings in Latina/o/x Literary and Cultural Studies	3
ENGL:6640	Readings in American Literary Genres	3
ENGL:6670	American Literary Magazines	3
ENGL:6720	Twentieth-Century Literatures	3
ENGL:6730	Modernist Studies	3
ENGL:6760	Topics in Contemporary Literature	3
ENGL:6765	Literature, Culture, and Environment	3
ENGL:6800	Readings in Postcolonial Literature and Theory	3
ENGL:6850	Topics in Creative Writing	3
ENGL:7000	Seminar: Cultural Studies	3
ENGL:7010	Seminar: Literary Criticism and Theory	3
ENGL:7050	Seminar: Performance Theory and Practice	3
ENGL:7100	Seminar: Medieval Literature and Culture	3
ENGL:7200	Seminar: Early Modern Literature and Culture	3
ENGL:7300	Seminar: Restoration and Eighteenth-Century Literature	3
ENGL:7400	Seminar: Romantic Literatures	3
ENGL:7500	Seminar: Victorian Literature	3
ENGL:7600	Seminar: American Literature and Culture	3
ENGL:7700	Seminar: Studies in the 20th and 21st Century	3
ENGL:7800	Seminar: Postcolonial Studies	3

Electives

Students complete an additional 12 s.h. of English courses (prefix ENGL) numbered 5000–7899, excluding ENGL:5990 MA Portfolio in Literary Studies, ENGL:5999 MA Thesis in Literary Studies, ENGL:6950 Colloquium: Teaching Foundations of the English Major, and ENGL:6960 Colloquium: Teaching Literature. Elective courses must be taken on an A–F graded basis. With the permission of the program, students may select elective courses outside of the Department of English. Students may wish to explore opportunities for interdisciplinary study, language study, experience in theory and practice of writing, or specialization in a field of literary scholarship.

Department of English graduate courses are repeatable with the written approval of the department's director of graduate studies.

Capstone

Completion of the MA in English with a literary studies subprogram requires either a thesis or a portfolio. Students submit a written description of their choice to the director of the program before the semester in which they plan to graduate.

Course #	Title	Hours
One of these:		
ENGL:5990	MA Portfolio in Literary Studies	1
ENGL:5999	MA Thesis in Literary Studies	1

MA Thesis

The thesis entails a 25- to 35-page essay of literary criticism consonant in form and content with the variety of articles published in journals and periodicals. The essay may not be submission-ready; rather, it must be a body of writing that looks toward possible publication. If the essay originated in a course taken during the program, it should be substantially revised per input from the thesis director and possibly the original course instructor.

The thesis may also assume a form that diverges from a traditional literary critical article. Alternate thesis projects must be approved by the director of graduate studies.

Students who choose to write a thesis must submit a brief prospectus approved by their thesis director before they register for ENGL:5999 MA Thesis in Literary Studies and at least one semester before they submit the thesis. See Academic Plans [p. 445] in this section of the catalog for detailed timelines for the submission and defense process. The thesis committee consists of the thesis director, the director of the MA program, and one other faculty member. The thesis is evaluated by the committee as either satisfactory (S) or unsatisfactory (U).

A copy of the thesis must be presented to the Graduate College for approval. For information about Graduate College deadlines and policies, see the Manual of Rules and Regulations on the Graduate College website.

MA Portfolio

Near the end of their coursework, students who do not choose the thesis option must submit a portfolio of work to the MA examination committee, which consists of the director of the MA program and two other English faculty members. All three read the full portfolio. To pass, the candidate must have a majority vote of the committee members.

Students take the first step toward preparing to submit a portfolio by meeting with the director of the MA program to discuss the portfolio, early during the semester in which they plan to graduate. After fulfilling all distribution and eligibility requirements and clearing all incomplete grades, students present the director with a draft of the portfolio's introductory statement. Students planning to graduate at the end of the fall semester should present the statement by the first week of October; those who plan to graduate at the end of the spring semester should present the statement by the first week of March. Once the director approves the statement, the student must submit three copies of the full portfolio; the submission deadline is Nov. 1 for students planning to graduate at the end of the fall semester and April 1 for those who will graduate at the end of the spring semester.

The work in the portfolio should demonstrate the student's knowledge of literature as a broad historical and theoretical inquiry. Students submit approximately 50 pages (12,500 words) of their best work, along with a self-reflective introductory statement of five to seven pages. The body of the portfolio should contain revised versions of papers originally produced for classes. The introduction should detail the student's trajectory in the program and the literary-critical or methodological skills gained. It should also explain the contents of the portfolio, contextualize each paper, and give a brief overview of the writing. Students are expected to describe the research methods used in assembling their portfolios and the critical practices that ground their work.

MA Without Subprogram

The Master of Arts in English without a subprogram requires a minimum of 60 s.h. of graduate credit. Students may receive credit for up to 18 s.h. of transfer courses toward the degree. They must maintain a graduate college program GPA of at least 3.00.

There is no direct admission to this subprogram; it is only open to students accepted into the English PhD program.

Each student must satisfy a portion of the course requirements of the PhD program. For the MA, the students must have completed the coursework that would normally be expected by that point in the program.

ENGL:5000	Introduction to Graduate Study	3

Historical Distribution and Upper-Level Courses

Historical Distribution

Students complete one course from each of the three historical areas for 9 s.h. total. See the preceding list titled Seminars and Readings: Historical Distribution Courses [p. 442] for available courses. A grade of B-plus or above is required for each course.

Upper-Level English Courses

Students complete an additional 18 s.h. of English courses (prefix ENGL) numbered 5000–7899, excluding ENGL:5990 MA Portfolio in Literary Studies, ENGL:5999 MA Thesis in Literary Studies, ENGL:6950 Colloquium: Teaching Foundations of the English Major, and ENGL:6960 Colloquium: Teaching Literature. These courses must be taken on an A–F graded basis.

Seminars

Of the 18 s.h. in upper-level courses and 9 s.h. in historical distribution courses, 9 s.h. must come from seminars. A grade of B-plus or above is required for each seminar.

Course #	Title	Hours
ENGL:7000	Seminar: Cultural Studies	3
ENGL:7010	Seminar: Literary Criticism and Theory	3
ENGL:7050	Seminar: Performance Theory and Practice	3
ENGL:7100	Seminar: Medieval Literature and Culture	3
ENGL:7200	Seminar: Early Modern Literature and Culture	3

ENGL:7300	Seminar: Restoration and Eighteenth-Century Literature	3
ENGL:7400	Seminar: Romantic Literatures	3
ENGL:7500	Seminar: Victorian Literature	3
ENGL:7600	Seminar: American Literature and Culture	3
ENGL:7700	Seminar: Studies in the 20th and 21st Century	3
ENGL:7800	Seminar: Postcolonial Studies	3

Electives

Students complete 21 s.h. of elective coursework taken on an A–F graded basis.

In consultation with their advisor, students select English courses (prefix ENGL) numbered 3000 and above, excluding ENGL:5990 MA Portfolio in Literary Studies, ENGL:5999 MA Thesis in Literary Studies, ENGL:6950 Colloquium: Teaching Foundations of the English Major, ENGL:6960 Colloquium: Teaching Literature, ENGL:7910 Advanced Studies in a Literary Period, ENGL:7920 Advanced Studies in a Literary Form, and ENGL:7960 Advanced Studies in a Literary Theme.

Elective coursework also includes courses numbered 3000 or above from the following subjects.

Course #	Title	Hours
Africam American studies (prefix AFAM)		
American studies (prefix AMST)		
Arabic studies (prefix ARAB)		
Art (prefix ART)		
Art history (prefix ARTH)		
American sign language (ASL)		
Cinema studies (prefix CINE)		
Chinese (prefix CHIN)		
Latin (prefix CLSL)		
Creative nonfiction writing (prefix CNW)		
Creative writing, writers' workshop (prefix CW)		
Dance (prefix DANC)		
Education teaching and learning (prefix EDTL)		
Educational policy and leadership studies (EPLS)		
French (prefix FREN)		
Graduate studies (prefix GRAD)		
German (prefix GRMN)		
Gender, women, and sexuality studies (prefix GWSS)		
History (prefix HIST)		
Italian (prefix ITAL)		
Korean (prefix KORE)		
Japanese (JPNS)		
Latin American studies (LAS)		
Latina/o/x studies (prefix LATS)		
Linguistics (prefix LING)		
Music (prefix MUS)		
Philosophy (prefix PHIL)		
Portuguese (prefix PORT)		
Psychological and quantitative foundations (prefix PSQF)		
Rhetoric (prefix RHET), excluding RHET:5350		
Russian (prefix RUSS)		
Library and information science (prefix SLIS)		
Spanish (prefix SPAN)		
Swahili (prefix SWAH)		
Theatre arts (prefix THTR)		
Translation (prefix TRNS)		
Center for the Book (prefix UICB)		
World languages, literatures, and cultures (prefix WLLC)		

With the permission of the program, students may be able to select additional courses from other subjects.

Additional Courses

Students complete 9 s.h. of additional coursework that may be taken either on an A–F or satisfactory/unsatisfactory (S/U) graded basis. They are required to complete the following three comprehensive exam preparation courses, each for a minimum of 1 s.h.

Students consult with their advisor on the number of credits they are required to enroll in for each course. In consultation with their advisor, students may select courses from the preceding list of elective [p. 445] subjects to complete the 9 s.h. as needed.

Course #	Title	Hours
At least 1 s.h. from each of these:		
ENGL:7910	Advanced Studies in a Literary Period	1-3
ENGL:7920	Advanced Studies in a Literary Form	1-3
ENGL:7930	Advanced Studies in a Literary Genre	1-3

Admission

Applications and all supporting documents for graduate admission must be submitted electronically by Dec. 14. Applicants should submit their applications and supporting materials to the University of Iowa Admissions website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

The Master of Arts in English degree helps prepare students for careers in professional writing, editing, web design, and publishing. It is also desirable for teachers seeking to enhance their credentials.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

c Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

d Must be taken on an A-F graded basis. See the General Catalog for list of approved courses.

e Students complete one course from two of the three historical areas for a total of 6 s.h.; must be taken on an A-F graded basis. See the General Catalog for list of approved courses.

f Students must complete two additional seminar or readings courses for a total of 6 s.h.; must be taken on an A-F graded basis. See the General Catalog for list of approved courses. A course applied to the historical distribution requirement may not also count toward this requirement.

g Students complete an additional 12 s.h. of English courses (prefix ENGL) numbered 5000-7899, excluding ENGL:5990, ENGL:5999, ENGL:6950, and ENGL:6960; courses must be taken on an A-F graded basis.

h Students may wish to explore opportunities for interdisciplinary study, language study, experience in theory and practice of writing, or specialization in a field of literary scholarship. Work with faculty advisor to determine appropriate coursework and sequence.

i Present the director with a draft of the portfolio's introductory statement by the first week of March. Once the director approves the statement, the student must submit three copies of the full portfolio by April 1.

English (nonfiction writing), MFA

The Master of Fine Arts in English with a nonfiction writing subprogram (emphasis in creative nonfiction) is offered through the Nonfiction Writing Program, one of the few programs in the nation that offers a full range of graduate courses in nonfiction.

Learning Outcomes

Students will:

- develop a common understanding and appreciation of the history and range of traditions of nonfiction writing including forms such as the essay, lyric essay, memoir, journalism, and experimental writing;
- explore and practice the range of narrative strategies, prose styles, and approaches to stylistic analysis through workshop courses;
- develop familiarity and experience with a range of research skills necessary to support the rigorous practice of nonfiction, including major theoretical approaches, and engage in reading-intensive discussions exploring new fields of nonfiction, including new writing technologies and media;
- develop an individual teaching philosophy and practical skills for teaching creative nonfiction writing, including designing courses for different audiences, crafting syllabi, producing exercises, maintaining vibrant classroom discussions, and learning helpful strategies for providing constructive feedback to the writing of others;
- engage in outreach programs making nonfiction expertise and instruction available to various audiences through master classes and other public formats;
- develop an understanding of the practical aspects of a writer's professional life, including an understanding of the basic operations of the publishing world and the necessary protocols leading to publication; and
- craft a long-form project in nonfiction; write a thesis of at least 75 pages of publishable-quality prose, the capstone of a graduate student's career in the Nonfiction Writing Program.

Requirements

The Master of Fine Arts program in English with a nonfiction writing subprogram requires a minimum of 48 s.h. of graduate credit taken at the University of Iowa. Students must earn a minimum UI cumulative grade-point average of 2.75. The program is designed for accomplished students and writers of literary nonfiction; most complete it in three years.

In addition to coursework, students are required to complete a thesis. The thesis may be a single extended piece of nonfiction, a collection of shorter nonfiction pieces, or a collection of essays. Whatever the project, the thesis is expected to be of publishable quality. The program culminates in a thesis of at least 75 pages. Students have plentiful room in their schedules to take advantage of a variety of electives offered by the English department and all other University of Iowa departments.

Department of English graduate courses are repeatable with the written approval of the department's director of graduate studies.

The MFA in English with a nonfiction writing subprogram requires the following coursework.

Required Courses

Course #	Title	Hours
All of these:		
CNW:6400	Nonfiction Writing Program Salon	4
CNW:6630	Graduate Thesis Workshop	4
CNW:6651	A History of the Essay	4
CNW:6666	Performance and Profession	3

e Take two times for 3 s.h. each.

f Successful defense of thesis.

English, PhD

The Doctor of Philosophy program in English is designed to prepare students for a lifetime of literary study, as well as for the wide range of professions that require well-developed reading, research, writing, teaching, and administrative skills. The program emphasizes individual initiative, careful choice, and creativity. Students may concentrate in one or more of several areas, including literary history, critical theory, cultural studies, the digital humanities, and pedagogy. The department offers a version of the PhD that incorporates book studies, including a certificate from the UI Center for the Book [p. 1721], as well as a combined program with the Master of Arts in library and information sciences; see Combined Programs [p. 451] in this section of the catalog.

Learning Outcomes

- Writing skills: proficiency in writing publishable academic and creative work of high quality.
- Historical knowledge: comprehensive historical knowledge of literary history, reflected in courses taken across a range of literary periods and national/international traditions.
- Critical theory and approaches: rigorous study of critical methodologies and interpretive strategies.
- Research skills: familiarity with library research into secondary scholarship on primary texts, archival research methods, and field research, where applicable.
- Teaching skills: ideally, students will move from foundations-based grading positions under the supervision of tenure track faculty (introduction to the major) to rhetoric/composition coursework (rhetoric), and then on to literary analysis-focused courses (general education literature). Students learn to build their own syllabi, develop a teaching portfolio, and manage their own courses independently.
- Professional development: preparing conference presentations, curriculum vitae, résumés, and teaching statements, as well as gaining exposure to career tracks, both academic (e.g., tenure track jobs, liberal arts colleges, community colleges, etc.) and alternative professions (e.g., digital humanities, humanities organizations, publishing, etc.).

Requirements

The Doctor of Philosophy in English requires a minimum of 72 s.h. of graduate credit. Students may receive credit for up to 18 s.h. of transfer courses. They must maintain a graduate college program grade-point average of at least 3.00. Students may focus in areas such as literary history and critical theory, as well as interdisciplinary areas such as cultural studies and transnational studies.

ENGL:7500	Seminar: Victorian Literature	3
ENGL:7600	Seminar: American Literature and Culture	3
ENGL:7700	Seminar: Studies in the 20th and 21st Century	3
ENGL:7800	Seminar: Postcolonial Studies	3

Electives

Students complete 21 s.h. of coursework taken on an A-F graded basis. Students are encouraged to explore their interdisciplinary interests, including the opportunity to complete a graduate certificate in book arts and book studies.

In consultation with their advisor, students select English courses (prefix ENGL) numbered 3000 and above, excluding ENGL:5990 MA Portfolio in Literary Studies, ENGL:5999 MA Thesis in Literary Studies, ENGL:6950 Colloquium: Teaching Foundations of the English Major, ENGL:6960 Colloquium: Teaching Literature, ENGL:7910 Advanced Studies in a Literary Period, ENGL:7920 Advanced Studies in a Literary Form, and ENGL:7960 Advanced Studies in a Literary Theme. Coursework numbered 3000 or above from an array of subjects may also be used as electives; see "Electives" in the MA in English, no subprogram section [p. 442] of the catalog for a full list of approved course subjects.

With the permission of the program, students may be able to select additional courses from other subjects.

Additional Courses

Students complete 21 s.h. of additional coursework that may be taken either on an A–F or satisfactory/unsatisfactory (S/U) graded basis. They are required to complete the following three comprehensive exam preparation courses and the thesis course, each for a minimum of 1 s.h.

Students consult with their advisor on the number of credits they are required to enroll in for each course. In consultation with their advisor, students may select courses from the preceding list of elective [p. 450] subjects to complete the 21 s.h. as needed.

Course #	Title	Hours
At least 1 s.h. from each of these:		
ENGL:7910	Advanced Studies in a Literary Period	1-3
ENGL:7920	Advanced Studies in a Literary Form	1-3
ENGL:7960	Advanced Studies in a Literary Theme	1-3
ENGL:7999	PhD Thesis	1-18

Book Studies Specialization

The book studies specialization requires 72 s.h. in courses numbered 3000 or above. Of these, at least 24 s.h. must be in English courses (prefix ENGL) numbered 5000 or above, 15 s.h. must be in Center for the Book courses (prefix UICB) numbered 4000 or above (see Center for the Book [p. 1721] in the Graduate College section of the catalog), 12 s.h. may be in courses numbered 3000 or above in the Department of English or in another unit, and 9 s.h. must be in independent studies related to a comprehensive exam. The remaining 12 s.h. of post-comprehensive courses numbered 3000 or above may be taken as graded or independent study coursework

Additional Requirements

World Language

Students must fulfill the program's world language requirement, usually by taking a standardized test or completing an advanced undergraduate course numbered 3000 or above in a language other than English with a grade of B or higher.

Comprehensive Exam

The comprehensive examination consists of the following: a portfolio of five scholarly questions based on a period of literary history (usually British or American), a review essay and annotated bibliography in a special area of interest, two course syllabi or alternate materials pertaining to an academic-adjacent career, an article to be submitted for publication, and an introduction to the portfolio that synthesizes its parts in preparation for a two-hour oral exam. Students enroll in ENGL:7910 Advanced Studies in a Literary Period, ENGL:7920 Advanced Studies in a Literary Form, and ENGL:7960 Advanced Studies in a Literary Theme to prepare for the exam.

Dissertation

A dissertation is required. Students present their prospectus formally to a faculty committee and must undergo a final exam defending the dissertation. Students continuously enroll in ENGL:7999 PhD Thesis throughout the dissertation process, from developing the prospectus until completing the final exam.

Teaching

All doctoral candidates are strongly advised to gain teaching experience, preferably in the College of Liberal Arts and Sciences Department of Rhetoric and in GE CLAS Core [p. 22] literature courses.

Combined Programs

MA in Library and Information Science/PhD in English

The combined MA in library and information science/PhD in English program prepares students for careers in academic libraries as humanities subject specialists, reference and instruction librarians, first-year experience librarians, special collections librarians and curators, and archivists. It also enhances the research profiles and methodological toolboxes of digital humanists as well as archival historicists, in addition to improving pedagogical skills. Offered by the Graduate College and the College of Liberal Arts and Sciences; see the MA in library and information science [p. 1773] in the catalog.

Admission

Applications and all supporting documents for graduate admission must be submitted electronically by Dec. 14. Applicants should submit their applications and supporting materials to the University of Iowa Admissions website.

For application forms and a complete description of the PhD program, contact the department's graduate program academic coordinator.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Most PhD graduates seek employment at colleges and universities. Although the Department of English cannot guarantee such employment, it does supply vigorous assistance. Because there is no certainty that all doctoral graduates in English will find continuing academic employment, it is valuable to remain open to the opportunity of jobs outside the profession of teaching. A number of graduates are finding employment in academic administration, the digital humanities, business, and government.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students may pursue certificates (including the book arts and book studies certificate), in conjunction with completing the degree requirements for the PhD. For more information check with the Graduate Program Coordinator.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

e Students complete 21 s.h. of additional coursework that may be taken either on an A-F or satisfactory/unsatisfactory (S/U) graded basis. The three comprehensive exam preparation courses (ENGL:7910, ENGL:7920, ENGL:7960) and the thesis course (ENGL:7999), each for a minimum of 1 s.h. are required. ENGL:6950 and ENGL6960 can also be counted toward this requirement. Students consult with their advisor on the number of credits they are required to enroll in for each course and may select additional courses from the approved list of electives to complete the requirement.

f Of the 18 s.h. in upper-level English courses and 9 s.h. in historical distribution courses, 9 s.h. must come from seminars; a grade of B-plus or above is required for each seminar. See the General Catalog for list of approved courses.

g Students complete one course from each of three historical areas for 9 s.h. total; a grade of B-plus or above is required for each course. See the General Catalog for list of approved courses.

h Students must complete 18 s.h. of English courses (prefix ENGL) numbered 5000-7899, excluding ENGL:5990, ENGL:5999, ENGL:6950, and ENGL:6960; these courses must be taken on an A-F graded basis.

i Students must fulfill the program's world language requirement, usually by taking a standardized test or completing an advanced undergraduate course numbered 3000 or above in a language other than English with a grade of B or higher.

j RHET:5350 may be counted toward either the graded elective or additional coursework requirement.

k Students complete 21 s.h. of coursework taken on an A-F graded basis. In consultation with their advisor, students select English courses (prefix ENGL) numbered 3000 and above, excluding ENGL:5990, ENGL:5999, ENGL:6950, ENGL:6960, ENGL:7910, ENGL:7920, and ENGL:7960.

l Required for TA employment.

m Requires a portfolio of five scholarly questions based on a period of literary history (usually British or American), a review essay and annotated bibliography in a special area of interest, two course syllabi or alternate materials pertaining to an academic-adjacent career, an article to be submitted for publication, and an introduction to the portfolio that synthesizes its parts in preparation for a two-hour oral exam.

n Students continuously enroll in ENGL:7999 throughout the dissertation process, from developing the prospectus until completing the final exam.

o Students present their prospectus formally to a faculty committee and must undergo a final oral exam defending the dissertation.

Enterprise Leadership

Director, Division of Interdisciplinary Programs

- Cornelia C. Lang (Physics and Astronomy)

Codirectors, Enterprise Leadership

- David K. Hensley, Cornelia C. Lang

Undergraduate major: enterprise leadership (BA)

Website: https://enterpriseleadership.clas.uiowa.edu

The enterprise leadership major equips students with a distinctive blend of professional skills to prepare them to pursue careers across a wide range of industries and organizations. This innovative program integrates applied coursework in entrepreneurship, organizational leadership, professional communication, and business consulting. A hallmark of the major is its capstone experience, which provides students with hands-on, real-world experience and the opportunity to apply entrepreneurial strategies to address business and societal challenges.

Students benefit from an array of cocurricular programming designed to enhance their skills; connect them with successful alumni, entrepreneurs, and industry leaders; and explore career opportunities with existing organizations and new ventures. They learn from accomplished faculty who have founded and led successful organizations, blending academic theory with practical insights.

Through this program, enterprise leadership majors develop in-demand competencies such as problem-solving, critical thinking, innovation, leadership, teamwork, and effective communication—skills that are essential for success in businesses of all sizes, nonprofit organizations, and government agencies. Students are introduced to the latest business and leadership approaches and learn how executives leverage innovation to successfully build sustainable organizations.

The major successfully prepares students to launch their careers and quickly be promoted into management and leadership positions. It is also an outstanding double major option for students seeking to develop a unique skill set that sets them apart in a competitive marketplace.

The major in enterprise leadership is offered jointly by the College of Liberal Arts and Sciences and the John Pappajohn Entrepreneurial Center in the Tippie College of Business.

The degree is awarded by the College of Liberal Arts and Sciences. Enterprise Leadership is one of the academic units in the Division of Interdisciplinary Programs [p. 363].

Programs

Undergraduate Program of Study

Major

- Major in Enterprise Leadership (Bachelor of Arts) [p. 454]

Enterprise Leadership, BA

Enterprise leadership is an interdisciplinary major that focuses on developing entrepreneurial management, leadership, and professional communication skills. The major promotes problem-solving, critical thinking, creativity, and innovation through understanding how to strategically address complex issues to meet consumer and organizational needs. Students also learn how to effectively communicate effectively with colleagues across all levels of an organization and external audiences and how to successfully build and lead interdisciplinary teams. Students earning this degree are uniquely positioned to pursue a wide variety of career opportunities, and graduates have leveraged their education and professional development to quickly advance in their careers.

Learning Outcomes

Students will:

- develop an entrepreneurial mindset to successfully identify, evaluate, and seize upon opportunities throughout their professional careers;
- understand the role of creativity, innovation, and management practices across the functional areas of businesses and organizations;
- develop a personal leadership approach that promotes effective teamwork, encourages diverse perspectives, and yields ethical solutions that create sustainable social and economic value;
- demonstrate critical thinking and problem-solving skills to strategically address complex issues and develop innovative, holistic, and sustainable solutions;
- demonstrate effective written and oral communication skills to professionally communicate and present information and recommendations in a clear, logical, and persuasive manner;
- understand the value and impact of contributions from diverse populations on businesses, organizations, and communities; and
- develop a global mindset by understanding the key economic, social, and cultural issues that impact local, national, and international entrepreneurship.

Requirements

The Bachelor of Arts with a major in enterprise leadership requires a minimum of 120 s.h., including a minimum of 43 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The BA in enterprise leadership may be earned at the Iowa City campus or online; more online courses are added each year. Students who wish to enroll in an online course should register in an EX section.

Students may use transfer coursework to fulfill Entrepreneurship and Business Core requirements in place of ENTR:1350 Foundations in Entrepreneurship and ENTR:2000 Entrepreneurship and Innovation. A minimum of 27 s.h. toward the major must be taken at the University of Iowa.

Students may count a maximum of 6 s.h. earned for another major or minor toward the BA in enterprise leadership, with the exception of the business administration minor. Enterprise leadership majors may count a maximum of three courses toward their major and a business minor.

Enterprise leadership majors may not earn the Certificate in Entrepreneurial Management.

The BA with a major in enterprise leadership requires the following coursework.

Requirements	Hours
Foundation Courses	9-11
Entrepreneurship and Business Core	16
Leadership Courses	6
U.S. Cultural Diversity Course	3
Communication Courses	6
Capstone Experience	3

Foundation Courses

Foundation courses introduce students to the basic skills, tools, and concepts they will need for the major. See MyUI for section information regarding modality.

Mathematics or Statistics

RELS:2000	Engaging Religious Diversity for Leadership and Entrepreneurship	3
SOC:2810	Social Inequality	3
SPST:1074/ AMST:1074/ GWSS:1074	Inequality in American Sport	3

Communication Courses

The following courses help students develop an understanding of contemporary communication theory and how it is applied.

Oral Communication

Course #	Title	Hours
One of these:		
COMM:1112	Interpersonal Communication	3
COMM:1117	Advocacy and Argument	3
COMM:1130	The Art of Persuading Others	3
COMM:1170	Communication Theory in Everyday Life	3
MGMT:4100	Dynamics of Negotiations	3
RHET:2055	Persuasion and Advocacy	3
RHET:2065	Persuading Different Audiences: Launching a Successful Career	3
RHET:2085	Speaking Skills	3
THTR:2610/ RHET:2610	Acting for Success	3

Written Communication

Course #	Title	Hours
One of these:		
BUS:3800	Business Writing	3
CNW:3640	Writing for Business	3
CW:3218/ INTD:3200	Creative Writing for New Media	3
INTD:3005/ CW:3005/ WRIT:3005	Professional and Creative Business Communication	3

Capstone Experience

Students engage in an entrepreneurial leadership experience and apply their knowledge and skills through a business consulting/field study project or internship with an external business or nonprofit organization. The capstone experience should be related to a student's career goals and involve the development and application of professional business skills such as project management; market research, analysis, and planning; financial management and forecasting; operations management; sales; organizational leadership; or professional business communications. Students may also choose to plan and launch their own business to meet the capstone requirement.

Students are encouraged to complete multiple capstone courses to enhance their professional development and strengthen their professional résumé.

Course #	Title	Hours
At least 3 s.h. from these:		
ENTR:3000	Practicum in Entrepreneurship	3
ENTR:3575	Commercializing New Technology II	3
ENTR:3850/ MGMT:3850	Entrepreneurial Leadership Academy II	3
ENTR:4100	International Entrepreneurship, Culture, and Social Impact (may be taken more than once)	1-3
ENTR:4200	Entrepreneurship: Business Consulting (may be repeated)	3
ENTR:4300	Launching an Entrepreneurial Venture	3
ENTR:4900	Academic Internship	3
Another experiential learning course from a College of Liberal Arts and Sciences major, with prior approval from the director of enterprise leadership		

The John Pappajohn Entrepreneurial Center offers two innovative final-year experiences: the Entrepreneurial Leadership Academy (ELA) and the Commercializing New Technology Academy (CNTA). The two ELA courses, ENTR:3800 Entrepreneurial Leadership Academy I and ENTR:3850 Entrepreneurial Leadership Academy II, provide selected students with an advanced study of leadership, communications, and project management and include an advanced management consulting project. ENTR:3800 is a prerequisite for ENTR:3850; only ENTR:3850 may count toward the capstone requirement. The two CNTA courses, ENTR:3550 Commercializing New Technology I and ENTR:3575 Commercializing New Technology II, provide selected students with an advanced opportunity to learn the process of identifying technology solutions, developing business models, and preparing business plans and pitch decks. ENTR:3550 is a prerequisite for ENTR:3575; only ENTR:3575 may count toward the capstone requirement.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Students must earn a minimum of 46 s.h. of work for the major. They must maintain a University of Iowa cumulative grade-point average (GPA) of 3.50 and a GPA of at least 3.50 in all coursework for the major. Students must earn at least 6 s.h. of honors or honors-designated coursework for the major. They must also complete an honors thesis in ENTR:4999 Honors Thesis in Entrepreneurial Studies by creating original research in partnership with a full-time faculty member. In addition, students must complete the capstone experience required for the major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the enterprise leadership major.

Career Advancement

Enterprise leadership students develop a solid foundation in entrepreneurial management, leadership, and professional communication skills that prepare them for a variety of career opportunities or to start their own business. Students are able to apply their innovative problem-solving and critical thinking skills to contemporary issues, develop strategies to seize opportunities, and build and lead successful teams.

Graduates find rewarding careers in general management, business analysis, business development, marketing and professional communications, management consulting, general or project management, sales, financial management, and as founders or executives in start-up businesses. Students are prepared to become entrepreneurial-minded leaders in large corporations, small- to medium-sized businesses, and nonprofit organizations.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: six courses in the major.

Before the seventh semester begins: four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: four more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students

should consult with an advisor about the best sequencing of courses.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e Students should choose a mathematics or statistics requirement that will also complete the GE CLAS Core Quantitative or Formal Reasoning requirement; see the General Catalog for list of approved courses.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g This course or experience is recommended not required.

h See the General Catalog for list of approved courses.

i Students must complete at least 6 s.h. in leadership courses; see the General Catalog for list of approved courses.

j Students must complete both oral and written communication courses (3.s.h. each for a total of 6 s.h.); see the General Catalog for lists of approved courses.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Ethics and Public Policy

Chair, Department of Philosophy

- Ali M. Hasan

Codirectors, Ethics and Public Policy

- Richard Fumerton (Philosophy), Diane Jeske (Philosophy)

Undergraduate major: ethics and public policy (BA)

Faculty: https://ethicspublicpolicy.uiowa.edu/people

Website: https://ethicspublicpolicy.uiowa.edu/

Ethics and public policy is an interdisciplinary major that presents perspectives on intersecting issues that connect the study of philosophy, economics, law, political science, and sociology. All of these disciplines involve a focus on practical questions concerning how individuals ought to behave and how they ought to regulate the behavior of others.

For example, law exists in order to regulate human behavior, enforce human ideals, and resolve human conflict. And, most people agree that what society should do depends in part on the actual or potential consequences of its actions, and some of the most important consequences of actions and policies are economic. So it is folly to try to reason clearly about how to rectify injustice without thinking long and hard about the economic impact of one’s plans. But law and social policy affect more than economics; they have a role in constructing the very fabric of society and the nature of the political state in which we want to live.

Students choose one field of specialization for the major and may find it easy to pursue a second major in another of the major's specialization fields, thus broadening their prospects for choosing graduate schools or beginning professional careers.

The departments of Philosophy, Political Science, and Sociology and Criminology (College of Liberal Arts and Sciences), and the Department of Economics (Tippie College of Business), collaborate to present the major in ethics and public policy; the major is administered by the Department of Philosophy [p. 880].

Programs

Undergraduate Program of Study

Major

- Major in Ethics and Public Policy (Bachelor of Arts) [p. 460]

Ethics and Public Policy, BA

Learning Outcomes

The general goals of the major in ethics and public policy are to:

- give students familiarity with the subject matter and methods of four closely related, but distinct disciplines—philosophy, economics, sociology, and political science—acquaintance with which is particularly important for those entering law, government and public service, and related fields;
- teach students to think critically, understand important distinctions, and present and defend positions;
- allow students to see the connections between problems that arise in the four fields that make up the cross-disciplinary major;
- encourage students to solve problems by drawing insights from different fields; and
- prepare students for postgraduate work in one or more of the fields, law school, or any of the many careers where the skills fostered in the major will be invaluable.

Ethics and Public Policy Initiatives

- Increase interactions among majors through events such as clubs and movie nights cosponsored by the Department of Philosophy and the ethics and public policy major.
- Encourage promising students to work individually with faculty on honors projects.
- Continue to improve advising.
- Continue to offer a 1 s.h. course that gives credit to students for participation in some of the programmed lectures, clubs, and film screenings, among other events.
- Advertise and encourage students to enroll in a 2–3 s.h. course that involves relevant internships.
- Review the department's current survey, which can provide more useful and fine-grained advice to improve the ethics and public policy major.

Requirements

The Bachelor of Arts with a major in ethics and public policy requires a minimum of 120 s.h., including at least 37 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The curriculum includes foundation courses and the work for one field of specialization.

The BA with a major in ethics and public policy requires the following coursework.

Requirements	Hours
Philosophy Foundation Courses	6
Economics Foundation Courses	7-8
Political Science Foundation Courses	6
Sociology Foundation Courses	6-7
Field of Specialization Courses	12

Foundation Courses

Foundation courses introduce students to each of the disciplines that participate in the major: philosophy, economics, political science, and sociology. These courses provide students with the basic reasoning skills they will need for advanced study. The foundation courses also help students make an informed selection of their specialization field.

All students are required to take PHIL:1636 Principles of Reasoning: Argument and Debate or PHIL:2603 Introduction to Symbolic Logic in order to gain facility with abstract, formal reasoning.

Some courses may be listed in both a foundation area and a specialization field; students may use a course to fulfill only one requirement for the major.

Philosophy Foundation

ECON:1100	Principles of Microeconomics	4
One of these:		
ECON:1200	Principles of Macroeconomics	4
ECON:3380	Business and Government	3
ECON:3650	Policy Analysis	3
ECON:3760	Health Economics	3

Political Science Foundation

Foundation

Course #	Title	Hours
One of these:		
POLI:1100	Introduction to American Politics	3
POLI:1300	Introduction to Political Thought and Action	3
POLI:1400	Introduction to Comparative Politics	3

POLI:1700	Introduction to Political Analysis	3

Policy

Course #	Title	Hours
One of these:		
POLI:1501	Introduction to American Foreign Policy	3
POLI:3111	American Public Policy	3

Sociology Foundation

Theory

Course #	Title	Hours
One of these:		
SOC:1010	Introduction to Sociology	3-4
SOC:1030	Contemporary Social Problems	3-4

Law, Sociology, and Criminology

Course #	Title	Hours
One of these:		
CRIM:1410	Introduction to Criminology	3
CRIM:1447	Introduction to the Criminal Justice System	3
CRIM:2430	Comparative Criminal Justice Systems	3
CRIM:2460	Policing in Modern Society	3
CRIM:3425	Women, Crime, and Justice	3
SOC:2130	Sociological Theory	3
SOC:2810	Social Inequality	3
SOC:3510	Medical Sociology	3

Fields of Specialization

Students select one of the following fields of specialization: philosophy, economics, political science, or sociology. Students must complete four courses in their field (12 s.h.), selected from one of the following course lists.

Some courses may be listed in both a foundation area and a specialization field; students may use a course to fulfill only one requirement for the major.

Philosophy

Course #	Title	Hours
PHIL:2402	Introduction to Ethics	3
PHIL:2415	Bioethics	3
PHIL:2422	Feminist Ethics	3
PHIL:2425	Sex, Marriage, Friendship, and the Law	3
PHIL:2429	War, Terrorism, and Torture	3
PHIL:2432	Introduction to Political Philosophy	3
PHIL:2435	Philosophy of Law	3
PHIL:2436	The Nature of Evil	3
PHIL:3342	Multiculturalism and Toleration	3
PHIL:3430	Philosophy of Human Rights	3
PHIL:3604	Introduction to Philosophy of Science	3
PHIL:3902	Workshop: Analytical Skills for the LSAT	3
PHIL:3920	Philosophy in Public	1-3
PHIL:4375	Rawls's Political Philosophy	3
PHIL:4480	Analytic Ethics	3
PHIL:4481	Issues in Philosophy of Law	3
PHIL:4482	Early Modern Ethics	3
PHIL:4485	Political Philosophy	3
PHIL:4510	Neuroethics	3

Economics

Course #	Title	Hours
ECON:3100	Intermediate Microeconomics	3
ECON:3345	Global Economics and Business	3
ECON:3350	Industry Analysis	3
ECON:3380	Business and Government	3
ECON:3620	Economic Growth and Development	3
ECON:3625	Environmental and Natural Resource Economics	3
ECON:3640	Regional and Urban Economics	3
ECON:3650	Policy Analysis	3
ECON:3760	Health Economics	3
ECON:4160	Public Sector Economics	3

Political Science

Course #	Title	Hours
POLI:2417	Comparative Environmental Policy	3
POLI:3101	American Constitutional Law and Politics	3
POLI:3102	The U.S. Congress	3
POLI:3104	Immigration Politics	3
POLI:3110	Local Politics	3
POLI:3111	American Public Policy	3
POLI:3114	Women and Politics in the United States	3
POLI:3116	The Presidency	3
POLI:3117	Bureaucratic Politics and Public Administration	3
POLI:3118	Interest Groups	3
POLI:3120	The Criminal Justice System	3
POLI:3121	The Judicial Process	3
POLI:3127	Legislative Policy Seminar	3
POLI:3160	Applied Research in Political Science	1-3
POLI:3204	Public Opinion	3
POLI:3302	Current Political Theory	3
POLI:3306	Problems of Democracy	3
POLI:3350	Games of Politics	3
POLI:3411	Democracy: Global Trends and Struggles	3
POLI:3423	The Middle East: Policy and Diplomacy	3
POLI:3424	Global Development	3
POLI:3427	Latinas/os/x and the Law	3

POLI:3428	Statecraft, Diplomacy, and World Order	3
POLI:3503	Politics of Terrorism	3
POLI:3509	International Courts: The Intersection of Law and Politics	3
POLI:3512	International Conflict	3
POLI:3516	The Politics of International Economics	3
POLI:3518	Water Wars: Conflict and Cooperation	3
POLI:3519	Politics of Aging	3
POLI:3530	Diplomacy Lab	3
POLI:3560	Public Policy and Persuasion	3
POLI:3601	Politics of Film	3

Sociology

Course #	Title	Hours
CRIM:3415	Global Criminology	3
CRIM:3416	Race, Crime, and Justice	3
CRIM:3417	Community Corrections	3
CRIM:3420	Juvenile Delinquency	3
CRIM:3437	American Crime	3
CRIM:3450	Criminal Legal System	3
CRIM:4400	Internship in Criminal Justice and Corrections	3
CRIM:4420	Criminal Punishment	3
CRIM:4430	Interpersonal Violence in Society	3
CRIM:4440	Sociology of White-Collar Crime	3
CRIM:4450	Juvenile Justice: A Sociolegal Perspective	3
CRIM:4460	Sociology of Law	3
SOC:2830	Race and Ethnicity	3
SOC:3171	Drugs and Society	3
SOC:3510	Medical Sociology	3
SOC:3525	Public Opinion	3
SOC:3540	Social Psychology of Good and Evil	3
SOC:3610	Organizations and Modern Society	3
SOC:3650	Education, Schools, and Society	3
SOC:3880	The Sociology of Networks	3
SOC:4200	Sociology of Religion	3
SOC:4540	Political Sociology and Social Movements	3

Student-Designed Field

In rare circumstances, a student may be given permission to design a specialization field. The student specifies four courses (12 s.h.) numbered 3000 or above, or as considered advanced by the department offering the course. Courses should be interconnected and must suggest a coherent interest. The student-designed field may not duplicate any of the established specialization fields for the major. It also may not include a course that satisfies another requirement for the major.

Students interested in designing their own specialization field should speak with an advisor as early as possible. They must obtain approval from their advisor and from the steering committee of the major in ethics and public policy as soon as possible after they declare the major and before they complete the designated coursework.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a grade-point average (GPA) of at least 3.50 in work for the major and a cumulative University of Iowa GPA of at least 3.33; the UI cumulative GPA requirement is set by the College of Liberal Arts and Sciences. In order to graduate with honors in the major, students must complete all work for the major and write an acceptable honors thesis on a significant topic related to the major. Students who write their honors thesis in philosophy should consider preparing for the thesis by taking PHIL:3950 Readings in Philosophy; students who write in economics should consult the coordinator of the Ethics and Public Policy Program for an appropriate course. Students who write in political science should take either POLI:4600 Honors Research Project or POLI:4601 Honors Senior Thesis. Students who write in sociology and criminology should consider taking SOC:4997 Honors Seminar. Contact the coordinator of the Ethics and Public Policy Program for more information.

Students who choose to write an honors thesis are required to schedule an oral discussion of their completed honors thesis, mainly to enrich the intellectual experience of its author. A student discusses the thesis with a faculty committee including the thesis director and the department's honors director or a faculty member designated by that official. The committee may withhold approval of fundamentally inadequate theses, but directors are to schedule theses for discussion only when they are ready. The discussion typically concentrates on exploring thesis ideas from several perspectives rather than whether to approve a thesis.

It is expected that students wishing to pursue the honors thesis (POLI:4601 Honors Senior Thesis) begin discussing the thesis with their thesis director one full semester prior to the semester in which they want to write the thesis. Students should consider enrolling in POLI:4700 Independent Study for 1 s.h. the semester before enrolling in the thesis seminar.

University of Iowa Honors Program

In addition to honors in the major, students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the ethics and public policy major.

Career Advancement

The ethics and public policy major provides an ideal background for law school. It brings an important background to legal studies in fields that both explicitly and implicitly arise in the context of pursuing a JD degree. The study of reasoning, an important component of the major, is useful in preparing for the Law School Admission Test (LSAT), the Graduate

Management Admission Test (GMAT), and the Medical College Admission Test (MCAT). The major also prepares students to bring a sophisticated, cross-disciplinary perspective to diverse fields such as government, urban and regional planning, social work, and business.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major.

Before the third semester begins: at least one course in the major.

Before the fifth semester begins: at least three courses in the major.

Before the seventh semester begins: at least seven courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least nine courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall)[e]	
Hours	**15**
Total Hours	**121-129**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Event Management

Director, School of Journalism and Mass Communication

- Melissa Tully

Coordinator, Event Management

- Heather J. Spangler (Journalism and Mass Communication)

Undergraduate certificate: event management

Website: https://journalism.uiowa.edu/certificate-event-management

Nearly every kind of organization has a need to create and manage events, from corporations to recreational centers, from hotels to sports teams. The Certificate in Event Management is designed to serve the career goals of a growing number of students who want to learn about the profession and wish to enter the field. It combines experiential learning with academic coursework, preparing students with the practical and intellectual skills necessary to succeed in the industry. The certificate is both interdisciplinary and intercollegiate.

Students who earn the Certificate in Event Management will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event management and careers in the event management industry.

In addition to these core competencies, students gain proficiency in:

- strategic and professional communication (oral, written, visual/design, interpersonal, group, professional, social media, and marketing);
- project management (goal setting, time management, financial, risk management, site and staff management, event design, and technology); and
- cultural and social awareness (religious, cultural, physical, and social nuances that impact event management choices; best practices for safe, inclusive events; and legal and ethical issues).

The School of Journalism and Mass Communication [p. 621] and the departments of Communication Studies [p. 266], Health, Sport, and Human Physiology [p. 505] (College of Liberal Arts and Sciences), and Marketing [p. 1261] (Tippie College of Business) collaborate to offer the certificate. The Certificate in Event Management is administered by the School of Journalism and Mass Communication.

Programs

Undergraduate Program of Study

Certificate

- Certificate in Event Management [p. 466]

Courses

Event Management Courses

EVNT:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings). Requirements: first- or second-semester standing.

EVNT:2110 Internship in Event Management **3 s.h.**
Internship for event management certificate. Prerequisites: (EVNT:3154 or SRM:3154) and (EVNT:3260 or SRM:3147).

EVNT:3154 Foundations of Event Management **3 s.h.**
Large, major special events, professional meetings, and conferences; development and planning, implementation of events, management and evaluation of events; development requirements of planning events, development strategies, budgeting, staffing requirements, resource allocation, site planning, basic risk management requirements, emergency procedures; event implementation policy and procedures; relationship to elements within development stages; event management and evaluation procedures.

EVNT:3160 Crisis Management **3 s.h.**
Exploration of crisis management through research, speakers, and hands-on experience.

EVNT:3165 Event Marketing **3 s.h.**
Understand event marketing best practices, especially through the lenses of law and ethics, writing and storytelling, and multiculturalism.

EVNT:3170 Venue Management **3 s.h.**
Exploration of venue management field through speakers, research, and hands-on experiences.

EVNT:3180 Sustainable Events **3 s.h.**
Events can have a substantial impact on our natural environment, and choices event managers make are critical in minimizing an event's carbon footprint; students explore sources of event waste, zero-waste event planning, careers in sustainable events, and more.

EVNT:3185 Topics in Event Management **3 s.h.**
Focus on particular area, issue, approach, or body of knowledge in the world of event planning; topics may include political campaign events, social media events, diversity issues, and risk management.

EVNT:3260 Event Management Workshop **3 s.h.**
Hands-on experience in event planning; working with clients, conceptualizing events, lining up small and large details, promoting events via social media and other means, carrying out events, and reflecting on outcomes; meet with event planning professionals; complete individual and group projects. Prerequisites: EVNT:3154 or SRM:3154.

Event Management, Certificate

Requirements

The undergraduate Certificate in Event Management requires a minimum of 21 s.h. of credit, including at least 6 s.h. in event management coursework (prefix EVNT). A maximum of 9 s.h. of approved transfer work may be applied to the Focused Elective requirements of the certificate. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Students take EVNT:3154 Foundations of Event Management or SRM:3154 Foundations of Event Management prior to registering for EVNT:3260 Event Management Workshop or SRM:3147 Sport Event Management. Both core courses must be completed before students register for their internship under the applicable course number: EVNT:2110, SRM:4196, SRM:4197 or SRM:4199.

Some of the certificate courses have prerequisites not included in the certificate requirements. Students should select courses for which they have met the prerequisites.

The Certificate in Event Management requires the following coursework.

Core Courses

Course #	Title	Hours
One of these:		
EVNT:3154	Foundations of Event Management	3
SRM:3154	Foundations of Event Management	3
And one of these:		
EVNT:3260	Event Management Workshop	3
SRM:3147	Sport Event Management	3

Internship

The core courses must be completed prior to enrollment in the internship.

Course #	Title	Hours
One of these:		
EVNT:2110	Internship in Event Management	3
SRM:4196	Interscholastic Athletic Administration Field Experience (must enroll in at least 3 s.h.)	arr.
SRM:4197	Sport and Recreation Field Experience	3
SRM:4199	Independent Sport and Recreation Field Experience (must enroll in at least 3 s.h.)	arr.

Focused Electives

Course #	Title	Hours
A minimum of 12 s.h. chosen from these (6 s.h. of focused elective coursework must be numbered 2000 or above with no more than two courses at the 1000 level):		
EVNT:3160	Crisis Management	3
EVNT:3165	Event Marketing	3
EVNT:3170	Venue Management	3
EVNT:3180	Sustainable Events	3
EVNT:3185	Topics in Event Management (repeatable)	3
EVNT:3260	Event Management Workshop (if not used to satisfy core requirement)	3
ARTS:1070	Elements of Graphic Design	3
BUS:3000	Business Communication and Professionalism	3
COMM:1816	Business and Professional Communication	3
COMM:1818	Communication Skills for Leadership	3
COMM:1819	Organizational Leadership	3
COMM:1830	Communication Skills for Community Engagement	3
COMM:2044	Political Communication	3
COMM:2829	Leadership for Civic Dialogue	1-3
COMM:4044	Political Marketing: Media, Campaigns, and Persuasion	3
ENTR:1350	Foundations in Entrepreneurship	3
ENTR:3595/ MGMT:3500/ MUSM:3500/ NURS:3595/ RELS:3700/ SSW:3500	Nonprofit Organizational Effectiveness I	3
JMC:1300	Introduction to Journalism and Strategic Communication	3
JMC:3530	Social Media Marketing	3
JMC:3540/ SMC:3540/ SPST:3181	The Business of Sport Communication	3
JMC:3710/ MUSM:3710	Fundraising Fundamentals	3
JMC:3720/ MUSM:3720	Nonprofit Communications	3
MKTG:3000	Introduction to Marketing Strategy	3
MKTG:4101	Integrated Marketing Communications	3
POLI:3202	Political Psychology	3
SRM:3147	Sport Event Management (if not used to satisfy core requirement)	3

SRM:3158	Sport and Recreation Promotion	3
SRM:3175	Sales in Sport	3
SRM:3178	Communications and Public Relations in Sports	3
SRM:3210	Event Bidding: Processes and Strategies	3
SRM:4197	Sport and Recreation Field Experience (if not used to satisfy internship requirement)	3
THTR:3270	Entertainment Design	3
THTR:3510/ INTD:3510	Introduction to Arts Management	3
UICB:4415/ ARTS:4415	Introduction to Classical Calligraphy	3

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Gender, Women's, and Sexuality Studies

Interim Chair

- Sarah "Cinda" Coggins Mosher

Director, Graduate Studies

- Lina-Maria Murillo

Director, Undergraduate Studies

- Aniruddha Dutta

Undergraduate major: gender, women's, and sexuality studies (BA)

Undergraduate minors: gender, health, and healthcare equity; gender, women's, and sexuality studies; social justice

Graduate certificate: gender, women's, and sexuality studies

Faculty: https://gwss.uiowa.edu/people/faculty

Website: https://gwss.uiowa.edu/

The future before us requires a deep understanding of local, national, and global challenges; the full array of diverse voices and views that shape communities; and the capacity to couple research with a rich imagination. The Department of Gender, Women's, and Sexuality Studies (GWSS) partners with University of Iowa students to meet these challenges.

GWSS courses investigate a host of thorny social challenges and inspiring solutions to such problems, with a focus on gender and sexuality in their intersections with race and ethnicity, citizenship and borders, ability and disability, religion and spirituality, and more.

GWSS faculty research and teach on gender and social justice through intersectional, interdisciplinary, and transnational frameworks, engaging such areas as the environment, culture and the arts, education, health and medicine, violence and conflict, im/migration, and the economy.

Students in GWSS programs hone critical and creative thinking skills and develop the ability to analyze social problems across an array of contexts with nuance, insight, and care. In addition to learning writing, research, and presentation skills, students also have the opportunity to pursue creative and engaged projects, working across media and/or with local communities.

GWSS graduates go on to pursue careers or advanced study in a wide array of fields, including the health professions, law, education, the arts, activism, nonprofit work, business, and social work. They also learn firsthand the power of interdisciplinary problem-solving, thinking outside the box, and building just communities.

Programs

Undergraduate Programs of Study

Major

- Major in Gender, Women's, and Sexuality Studies (Bachelor of Arts) [p. 477]

Minors

- Minor in Gender, Health, and Healthcare Equity [p. 481]
- Minor in Gender, Women's, and Sexuality Studies [p. 482]
- Minor in Social Justice [p. 483]

Graduate Program of Study

- Certificate in Gender, Women's, and Sexuality Studies [p. 486]

Courses

- Gender, Women's, and Sexuality Studies Courses [p. 468]
- Social Justice Courses [p. 474]

Gender, Women's, and Sexuality Studies Courses

GWSS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies 3 s.h.
Introduction to feminist interdisciplinary study of women's lives, with emphasis on race, class, sexual orientation; work, family, culture, political and social change. GE: Understanding Cultural Perspectives.

GWSS:1002 Diversity and Power in the U.S. 3 s.h.
How the intersection of gender, race, class affects individual experience, national ideology, social institutions; interdisciplinary perspective. GE: Understanding Cultural Perspectives.

GWSS:1003 Introduction to Social Justice 3 s.h.
Introduction to principles and theories of social justice; students examine the history of influential social movements in the United States and the world in the last century; how intersectionality can create tensions between and among members of social movements; how race, class, gender, age, geography, and our bodies play a role in the application of theories of social justice. GE: Understanding Cultural Perspectives. Same as SJUS:1001.

GWSS:1046 Environmental Politics in India 3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: Sustainability. GE: International and Global Issues; Sustainability. Same as ANTH:1046, SEES:1046, SJUS:1046.

GWSS:1060 Sex and Popular Culture in America 3 s.h.
Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values and Society. Same as AMST:1060, ENGL:1410.

GWSS:1074 Inequality in American Sport 3 s.h.
Cultural meanings of sport in contemporary U.S. culture; sport experiences, inclusion, and exclusion as affected by social class, gender and sexuality, age and ability, race and ethnicity, and religion. GE: Understanding Cultural Perspectives. Same as AMST:1074, SPST:1074.

GWSS:1310 Gender and Society 3 s.h.
Role and status of women in society; sex differences, sex role socialization, theories about origin and maintenance of sexual inequalities, changes in social life cycle of women, implications for social institutions and processes; focus on contemporary United States. GE: Values and Society. Same as SOC:1310.

GWSS:2041 Gender, Communication, and Culture 3 s.h.
Social construction of gender and gendered identities across a range of communicative settings in contemporary U.S. society, including relationships, schools, organizations, media, and social movements; how communication creates, reproduces, sustains, and sometimes challenges and changes the meaning of gender and, with that, cultural structures and practices. Same as COMM:2041.

GWSS:2046 Cultural Politics of the Environment in the US 3 s.h.
Introduction to feminist and queer theories of social space; material and symbolic construction of gender and sexuality; communicating gender and sexuality in different social spaces and scales in historical and contemporary contexts. Same as COMM:2045.

GWSS:2050 Jews, Judaism, and Social Justice 3 s.h.
Jewish frameworks for grappling with justice and ethics from ancient world to present day; emphasis on internal diversity of Jewish experience as well as interactions with dominant and other minority cultures. Same as HIST:2150, RELS:2250, SJUS:2050.

GWSS:2052 Women in Islam and the Middle East 3 s.h.
Women in the Islamic community and in non-Muslim Middle Eastern cultures; early rise of Islam to modern times; references to women in the Qur'an and Sunnah, stories from Islamic history; women and gender issues. GE: International and Global Issues. Same as RELS:2852.

GWSS:2075 Gender, Sexuality, and Media 3 s.h.
Mediated representations of gender and sexuality (television, film, and internet) to understand how these complex and complicated codes influence meaning of sex, sexuality, and gender; contemporary and historical examples used to engage texts that illuminate cultural conceptions of femininity, masculinity, heterosexuality, and homosexuality; cases that confuse and trouble the stability of these categories. Same as COMM:2075.

GWSS:2078 Women, Sport, and Culture 3 s.h.
Feminist analysis of girls' and women's sports experiences, including reproduction of gender through sport, recent changes in women's intercollegiate athletics, media representations of women's sport, feminist critiques, alternatives to sport. Same as SPST:2078.

GWSS:2080 The Cultural Politics of HIV-AIDS 3 s.h.
Complex historical shifts in cultural perceptions about HIV-AIDS in the U.S. and transnationally; controversies around HIV-AIDS and their links with questions of gender and sexuality; how HIV-AIDS subsequently became the basis of a transnational industry comprising nongovernmental organizations, donors, and activists across the global north and south, starting from 1980s in the U.S. when HIV-AIDS first emerged into public sphere as a gay disease; link between HIV-AIDS and ideologies of development or progress, neocolonialism, and emergence of lesbian, gay, bisexual, transgender, intersex, and questioning (LGBTIQ) movements in many parts of world. Recommendations: background in gender studies, and completion of rhetoric or at least one social sciences course. Same as GHS:2080.

GWSS:2100 Foundations of Health Humanities 3 s.h.
Examination of health, disease, care, and healing through humanities perspective; exploration of humanistic elements of medical care to better understand multiple meanings and impacts of disease, medical research and treatment, and health beliefs and practices in different communities; interdisciplinary inquiry through close reading, interpretation of visual images, and reflective and analytic writing to encourage adaptability and foster appreciation of non-technoscientific factors in personal and professional health care decision-making. GE: Values and Society. Same as GHS:2100.

GWSS:2102 Anthropology of Marriage and Family 3 s.h.
Classic anthropological theories of kinship and marriage, including topics such as cousin marriage and incest; recent work on new reproductive technologies and transnational marriage. Same as ANTH:2102.

GWSS:2108 Gendering India 3 s.h.
Aspects of Indian culture, including nation, family, sexuality, work, and religion, through the lens of gender; Hindu India, differences in region, caste, and class. Same as ANTH:2108.

GWSS:2151 Global Migration in the Contemporary World 3 s.h.
Examination of social, economic, and cultural dimensions of global migration in the contemporary world from a transnational and anthropological perspective; primary focus is on migration to the United States, but in comparison to other migration trajectories. Recommendations: an introductory course in cultural anthropology is useful, but not required. GE: Understanding Cultural Perspectives. Same as ANTH:2151, IS:2151.

GWSS:2160 Love and Romance in America 3 s.h.
Exploration of the role of love and romance in the American experience; analysis of love and romance in their association with American ideals—pursuit of happiness, upward mobility, and liberation of self, nation, and world; history of romance as a genre; contemplation of picket fences, free love, bromance, valentines, green cards, desperate housewives, break-ups, hook-ups, and (un)happily ever after. Same as AMST:2160.

GWSS:2190 Love Rules: Law and the Family Across Cultures 3 s.h.
Recent debates over legalizing gay marriage remind us that the law is not an abstract concept, it is a social creation that emphasizes certain cultural norms over others, both powerful and changeable; family law outlines what one cultural vision of relationships—those between lovers, parent and child, and between kin—supposedly should look like in a given society, a vision always marked by gendered, racial, and sexual divisions of power; students consider what happens when legal norms intersect with diverse ways that people make families through topics including marriage, divorce, custody, and surrogacy across the world. Same as ANTH:2190, IS:2190.

GWSS:2193 Literature, Culture, and Women 3 s.h.
Studies in the intersections between literature, culture, and women. Same as ENGL:2593.

GWSS:2222 Women in Premodern East Asian Literature 3 s.h.
Reading of East Asian literature portraying women from the first millennium B.C.E. through the 1800s; discussion of issues related to representations of women and conventional social, familial roles in premodern China, Korea, and Japan; cross-cultural comparison of different perceptions and portrayals of women in premodern East Asian literary traditions. Taught in English. Recommendations: completion of all ESL courses. GE: Understanding Cultural Perspectives. Same as ASIA:2222, WLLC:2222.

GWSS:2250 The History of Social Justice Movements 3 s.h.
History of contemporary social movements in the U.S. and how these movements have directly affected policies related to environment, food, reproductive justice, civil rights, immigration, labor, race, and gender; students read, explore, discuss, and write about the history of contemporary social movements in the U.S. that had lasting effects on policies related to environment, agriculture, health, reproductive justice, civil rights, labor, race, gender, and immigration; exploration of multiple modes of representation and resistance including protests, boycotts, strikes, music, art, writing, riots, civil disobedience, theater, poetry, dance, and poetry. Same as HIST:2250, SJUS:2250.

GWSS:2422 Feminist Ethics 3 s.h.
Philosophical evaluation of gender as a pervasive and persistent structuring principle for social inequality. Same as PHIL:2422.

GWSS:2500 Love, War, Activism: Stories About Women From Across the World 3 s.h.
Literary and cinematic representations of gender in works by authors and directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of love, sexuality, friendship, and parenting; shifts in gender identities and relations that result from social and political crises. Same as ENGL:2570, SJUS:2500.

GWSS:2571 Visualizing Human Rights 3 s.h.
Cinematic representations of human rights issues in films by directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of race relations in colonial and postcolonial societies; public health issues, specifically women's and children's rights in context of the HIV/AIDS pandemic. Same as ENGL:2571, SJUS:2571.

GWSS:2650 Global Reproduction 3 s.h.
History of birth control and work of activists and organizations that emerged to promote it; troubling connections that spawned between reproductive rights and population control movements. Same as GHS:2650.

GWSS:2651 Gender and Sexuality in the Ancient World 3 s.h.
Survey of gender and sexuality issues in the social, political, and religious life of ancient Greece and Rome; evidence from literature, the visual arts, archaeology. Requirements: completion of GE CLAS Core Rhetoric and sophomore standing. GE: Values and Society. Same as CLSA:2651.

GWSS:2674 Food, Body, and Belief: A Global Perspective 3 s.h.
Exploration of local, national, and global forces that shape food consumption, body image, and spiritual practices. Taught in English. Same as GHS:2674, RELS:2674.

GWSS:2700 Transgender People, Politics, and Cultures 3 s.h.
How people live across and beyond social differentiation of sex and gender; how practices of identity building and political resistance transform or negotiate with social structures of gender, race, and class; burgeoning field of transgender studies which pushes to interrogate some fundamental aspects of human societies and question how supposedly "natural" categories of sex and gender are constructed and transformed; exploration of lives, politics, and subcultures of people who differ from gender norms in the United States and across the world; how transgender cultures and politics negotiate with structures of race and class. Recommendations: background in gender studies or social sciences.

GWSS:2800 African American Women, Health, Hair, and Sexuality 3 s.h.
From the exotic to the erotic, African American women's bodies have been constructed to fulfill a variety of personal and cultural fantasies as well as social functions that are "killing us softly"; how cultural icons and myths of Black women—Jezebel, Mammy, Tragic Mulatto, Aunt Jemima, Sapphire, Matriarch, Welfare Queen, and more recently, the overachieving Black woman—shape and create restrictions and visions of the self that contribute to health disparities; engaging Black feminist/womanist theory to explore how larger images influence everyday acts of self-care and pleasure, such as hair and sexuality, on the health of African American women. Same as AFAM:2800.

GWSS:2900 Love, Sex, and Money: Sexuality and Exchange Across Cultures 3 s.h.
Everything from pop songs to advertisements warn us of the evils of gold diggers, “blingsexuals,” or “buyfriends"; in America, money is seen to corrupt the purity and authenticity of love and desire, but money also is an inevitable part of sex, love, and intimacy; cross-cultural examination of how relationships between love, money, and sexuality are organized in different places; different ways people form relationships with lovers, spouses, and persons who enable childbearing; rethinking gender roles, work, value, and power. Same as ANTH:2191.

GWSS:3005 Practicum 3-4 s.h.
Volunteer experience applying gender, women's, and sexuality studies in an authentic environment. Prerequisites: GWSS:1001. Same as SJUS:3005.

GWSS:3010 Transnational Sexualities 3 s.h.
How ideas about normative and nonnormative sexuality, gender/sexual identities, and related social movements travel across geographical, political, and cultural boundaries; potentials and limits of using conceptual frameworks (i.e., sexuality, gender, LGBT, queer) across the west and global south; how sexuality always intersects with race, class, nationhood, and transnational systems of power; power structures that shape gender/sexuality through a transnational approach; connection of inequalities within the United States with those across the world. Same as GHS:3015.

GWSS:3050 Topics in Gender, Women's, and Sexuality Studies 1,3 s.h.
Representative topics: American Indian/First Nations Women; population and the environment; feminism and the family; women, health, and healing; women of color.

GWSS:3078 Archiving Women's History 3 s.h.
Exploration of girls' and women's history in Iowa through collections at the Iowa Women's Archives; introduction to archival research, digital humanities, and Omeka (a digital collection and exhibit platform) with focus on sport-related collections; guided individualized research and exhibit development. Same as AMST:3078, MUSM:3078, SPST:3078.

GWSS:3100 LGBTQ/Queer Studies 3 s.h.
Overview of queer theory and queer studies; development of critical thinking skills in relation to cultural constructions of gender, sexuality, race, and other identity categories.

GWSS:3105 Contraception Across Time and Cultures 3 s.h.
Methods and history of contraception; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as CLSA:3105, GHS:3105, WLLC:3105.

GWSS:3118 Politics of Reproduction 3 s.h.
Examination of reproductive politics from historical, sociological, anthropological, and communicative perspectives; reproductive justice and bodily autonomy as key sites of feminist struggle in the United States and in global contexts; topical issues include abortion and birth control, assisted reproductive technologies, commercial surrogacy industries, LGBTQ family formation, and systems of reproductive violence. Same as ANTH:3118, COMM:3118.

GWSS:3121 Love, Marriage, and Family in India 3 s.h.
Anthropological understandings of love in India and the region of South Asia more broadly; emphasis on contemporary society; filial and motherly love, arranged marriage and romantic love, devotional and artistic expressions, love between siblings. Same as ANTH:3121.

GWSS:3138 Writing to Change the World 3 s.h.
Writers who can frame questions, weigh competing perspectives, structure an argument, and write with clarity and respect for diverse audiences as powerful agents for change; writers who have inspired human rights movements; public forms of writing with local organizations whose missions are shaped by social attitudes to gender and sexuality; conducting research and evaluation of evidence; best practices for communicating and collaborating; skills needed to be an effective advocate. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as SJUS:3138.

GWSS:3150 Feminist Readings of History 3 s.h.
Feminist analysis has revolutionized the writing of history—not only on gender and sexuality, but also on topics as diverse as politics, economics, international relations, and social hierarchies (e.g., race, class, ability, religion); students examine feminist transformations of history with specific topics chosen by instructor. Same as HIST:3150.

GWSS:3154 Sexuality in the United States 3 s.h.

GWSS:3157 Gender, Sexuality, and Human Rights 3 s.h.
History of gender and sexuality as components in international human rights activism and law; current debates, representative topics. Same as HIST:3157.

GWSS:3171 Higher Education and Social Justice 3 s.h.
Reflection of students' place within educational systems; development of rhetorical tools for successful advocacy; advocation through writing for change within higher education and the UI; student loans, racial segregation, social and economic immobility, free speech, data insecurity, sexual assault. Same as ENGL:3571, SJUS:3171.

GWSS:3173 Gender, Sexuality, and Literature 3 s.h.
Representations of gender, class, and sexuality in British, American, or postcolonial literature. Same as ENGL:3573.

GWSS:3185 Global Women's Cinema 3 s.h.
Introduction to contemporary women's cinema and feminist filmmaking from around the world; emphasis on post-1968 period and cinema produced outside the United States. Same as WLLC:3185.

GWSS:3200 Theories for Gender, Women's, and Sexuality Studies 3 s.h.
Historical and contemporary theoretical approaches to the study of gender and sexuality; emphasis on interdisciplinary methods of analysis and interpretation.

GWSS:3257 Civil Rights and Racial Justice: A Tour Through the South 1-3 s.h.
Exploration of the history of modern civil rights movement through lectures, shared readings, videos, and discussion; includes preparation and two-week tour of civil rights sites in the South. Prerequisites: SJUS:1001 or SJUS:2250 or GWSS:1002 or CCCC:2220 or AFAM:1030 or HIST:2268 or HIST:2268 or HIST:3253 or HIST:3253 or HIST:3253 or HIST:3232 or AFAM:3100 or AFAM:3500 or AFAM:3260 or AFAM:3260 or HIST:3282 or HIST:3282 or HIST:4130. Same as AFAM:3257, HIST:3257, SJUS:3257.

GWSS:3282 Women and Power in U.S. History Since the Civil War 3 s.h.
Major events and themes in U.S. women's history from late 19th century to present; how women's experiences have differed from men's; exploration of distinct but interconnected histories of different groups of women; changing ideals of femininity; women's experience of industrialization, immigration, depression, war, and sexual revolution; women's activism for social reform, women's rights, labor, civil rights, peace, and the New Right. Same as HIST:3282.

GWSS:3300 Mothers and Motherhood 3 s.h.
Treatment of motherhood; role of motherhood and devaluation of social status. Same as ANTH:3300.

GWSS:3326 The Politics of Progress: NGOs, Development, and Sexuality 3 s.h.
How nonprofit sector increasingly plays a significant role in countering socioeconomic inequalities in the United States and global south; role of nonprofit organizations in relation to governmental policies of development, transnational funders, and ideas of sexual progress; critics of development institutions' arguments that western ideas of progress impose and adversely affect groups they claim to empower, yet also may foster struggles for social justice that go beyond development policy; examination of transnational nonprofit sector in relation to gender/sexuality and how it impacts women and gender/sexual minorities around the world. Recommendations: background in gender studies or social sciences. Same as GHS:3327.

GWSS:3350 Transnational Feminism 3 s.h.
Exploration of feminist perspectives from the United States and outside of the United States; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions and populations. Same as ANTH:3125, IS:3350.

GWSS:3400 Advocacy and Engagement Colloquium 1-3 s.h.
How to capitalize on volunteer experience; how experience can lead to careers in health care, law, advocacy, social work, social justice, education; issues related to domestic violence, community education, sexual assault; health care for women, youth, and LGBTQ populations; health care inequities, social justice; field journal. Recommendations: active volunteer work at feminist-centered organizations in Iowa, completion of 40-hour training, plan to serve organization for up to ten or more hours each month, and attendance at regularly scheduled volunteer meetings. Same as SJUS:3400.

GWSS:3421 Performing Autobiography 3 s.h.
Advanced seminar and workshop; immersive readings in genre of contemporary autobiographical work, scholarship and criticism, and performance texts and videos as established artists have developed them; students write and perform their own original pieces stemming from personal experiences and interests. Recommendations: RHET:1030. Same as THTR:3421.

GWSS:3425 Women, Crime, and Justice 3 s.h.
Overview of women's experiences with crime and criminal justice system, with reference to experiences of men for purposes of comparison; role of race, ethnicity, and poverty in women's experiences; causes of crime, inequalities in police-citizen interactions, imprisonment, and other aspects of criminal justice system experience. Same as CRIM:3425.

GWSS:3427 Family, Gender, and Society in Early Modern Europe 3 s.h.
Social and gender ideologies as inscribed in patterns of authority (household, church, state); ranges of human endeavor (intellectual, psychological, biological); community organization (social, economic, legal, sexual); their influence on concept of community. Same as HIST:3427.

GWSS:3430 Women on Stage 3 s.h.
Examination of how and why women in the United States have expressed themselves through theatre and performance from 1776 to present; students study plays as performed events in specific times and places for specific audiences through works by African American, Asian American, European American, Latina, Native American, and lesbian/queer writers; what the theater—as a public, embodied art form—offers female writers; how stakes differ for women of diverse backgrounds in using this often suspect and uniquely powerful medium in particular historical moments; how changing definitions of gender and sexuality come into play; prior background in theater not required. Same as AMST:3430, THTR:3430.

GWSS:3431 Topics in Latina/o/x Studies: History and Culture 1-3 s.h.
Historical and cultural approaches; topics vary. Same as LATS:3550.

GWSS:3459 Making Change, Making History 3 s.h.
Topics may include digital history, public history, museum studies, and more. Same as HIST:3259, SJUS:3459.

GWSS:3475 Working for Social Justice 3 s.h.
Identification and pursuit of careers in a wide range of fields where people advocate for and engage issues of social justice; writing self-assessments, résumés, sample employment application letters, statements of purpose; development of e-portfolios that highlight areas of student research and expertise; mock interview practice; Pomerantz Career Center resources; interviewing professionals in careers focused on social justice and feminist issues; local internship and volunteer possibilities; national and international educational and career opportunities for making a difference in the world. Same as SJUS:3475.

GWSS:3570 Transnational and Postcolonial Writing by Women 3 s.h.
Study of postcolonial and transnational writing by women. Same as ENGL:3570.

GWSS:3600 Art, Feminist Practice, and Social Justice 3 s.h.
Issues related specifically to gender, women's, and sexuality studies through the arts; themes include broad social issues such as violence, sexual assault, incarceration, reproduction, immigration, and labor; students explore a theme and work with community partners to address the theme through social practice in the arts. Recommendations: prior courses in gender, women's, and sexuality studies, or courses in social work, art education, or studio arts.

GWSS:3750 Born in the USA: Fertility and Reproduction 3 s.h.
Exploration of when, why, how, and with whom Americans bear children; comparison to other developed and developing countries in the world; infertility and its treatments; ethics of surrogacy; voluntary childlessness; rapid rise of nonmarital childbearing in the U.S. and other countries; politics of childbirth; declining populations; rapid aging of rich where women have basically stopped having children. Same as SOC:3750.

GWSS:3900 Research for Public Engagement 3 s.h.
Emphasis on interdisciplinary reading, writing, research, and oral presentation skills necessary for pursuing socially engaged scholarship at a high level; students practice how to read for an argument, summarize and evaluate the ideas of others, and formulate their own positions within critical controversies.

GWSS:3950 Academic Internship 1-3 s.h.
Work under supervision of a faculty member on a scholarly or creative project related to the department or campus, or work with the director of undergraduate studies as a media, digital publishing, or teaching intern; students receive credit for the internship depending on the number of hours they work, learning objectives they develop, and meetings, written reports, and other research-related or self-evaluative writing they contract to do with the supervising faculty member. Prerequisites: GWSS:1001 or SJUS:1001. Requirements: gender, women's, and sexuality studies or social justice major or minor. Same as SJUS:3950.

GWSS:3990 Independent Readings and Research in Gender, Women's, and Sexuality Studies arr.
Topics not covered in regular curriculum.

GWSS:4026 French Women Writers 3-4 s.h.
Survey of 20th- and 21st-century French women's literature; introduction to French feminist thought; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. option—FREN:3060 and FREN:3300. Same as FREN:4026.

GWSS:4090 Senior Research Seminar 3 s.h.
Design and development of individual creative or scholarly projects in the field of gender, women's, and sexuality studies; emphasis on strengthening students' research and writing skills; synthesizing, extending, and applying work already completed in the major. Prerequisites: GWSS:1001 or GWSS:1002 and GWSS:3900. Requirements: two women's studies courses numbered above GWSS:1001.

GWSS:4095 Honors Senior Thesis arr.
Supervised research, writing.

GWSS:4140 Feminist Activism and Global Health 3 s.h.
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101 or GWSS:1001 or CPH:1400 or GHS:2000. Same as ANTH:4140, CBH:4140, GHS:4140.

GWSS:4169 Black Feminist Rhetorics 3 s.h.
Exploration of multiple, varied, and complex histories of U.S. Black feminisms from rhetorical perspectives; focus on primary documents, speeches, essays, and manifesto/ as that shaped Black women's feminist organizations and inspire social change from late 19th century to present; social, political, and personal issues that Black feminists sought to address and transform, communicative and rhetorical methods utilized, and implications of these efforts for Black women's lives and broader U.S. American culture. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899). Same as COMM:4169.

GWSS:4180 Gender and Sexuality in Comics 3 s.h.
Critical and historical examination of representations of gender and sexual identities in comics and graphic novels, including nonfiction and popular genres.

GWSS:4540 Gender and Sexuality in French Cinema 3-4 s.h.
Cultural, historical, and semiotic approach to studying constructions of gender identity and discourses on sexuality in French cinema from 1920s to present; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. Same as FREN:4540.

GWSS:4800 Seminar in Comparative Literature 3 s.h.
Focus on comparative, interdisciplinary, theoretical, and/ or inter-arts topic; topics vary; required for comparative literature major. Taught in English. Same as GRMN:4800, TRNS:4800, WLLC:4801.

GWSS:4820 Sociology of Sexuality 3 s.h.
Sociological perspectives on sexuality, including theoretical and conceptual developments, empirical regularities, and social implications; sexual expression in the United States. Prerequisites: SOC:1010 or SOC:1030. Same as SOC:4820.

GWSS:5000 Foundations for Gender, Women's, and Sexuality Studies 3 s.h.
Theory, methodology, practice, archive, and robust stakes of the interdisciplinary field of gender, women's, and sexuality studies (GWSS); analysis and discussion of the history and possible futures of the field, as well as the relationship of GWSS to student's developing interests and areas of study.

GWSS:5120 Reading Transnational Feminist Theory 3 s.h.
Issues in transnational feminist scholarship, including coloniality and globalization as related to domains of gendered work, cultural traditions, and development; interdisciplinary readings—including from qualitative social science—consider connections across the Global North and South. Same as ANTH:5120.

GWSS:5500 Tell Magazine Writing and Publishing Workshop 3 s.h.
Students serve as editorial, writing, and production staff for *Tell*, the Department of Gender, Women's, and Sexuality Studies' digital magazine; *Tell* explores issues of race, class, gender, sexuality, ability, national identity, and other differences of power and privilege often absent in mainstream publications; students learn technical aspects of digital publication management, write their own stories and columns for the magazine and its ongoing blog, create digital and graphic materials, organize outreach events and manage social media outlets for the magazine, and work as editors and collaborative partners with one another and with writers and artists who submit work for publication. Prerequisites: GWSS:5000.

GWSS:6050 Seminar: Gender, Women's, and Sexuality Studies 3 s.h.
Special topics in gender, women's, and sexuality studies.

GWSS:6130 Francophone Thought 3 s.h.
Comparative study of intellectual, literary, cultural, social, and historical developments in the Caribbean, the Indian Ocean, the Maghreb, and Sub-Saharan Africa; approaches include cultural theory, literary criticism, cinema, visual arts, women's studies, memory and trauma studies, postcolonial ecologies, and cultural anthropology; examination of key conceptual paradigms and cultivation of skills in critical thinking methodologies; students acquire theoretical tools to explore an interdisciplinary scholarly field and learn to establish connections between the main components of the course and their own research interests. Taught in French. Same as FREN:6130.

GWSS:6238 Gender and Education in Historical Perspective 3 s.h.
Gender in context of history of education in the United States; coeducation in common schools, academies, and high schools; women's arrival and experiences as college students; masculinity in higher education; single-sex versus coeducation; emphasis on conflicting historical interpretations. Same as EPLS:6238.

GWSS:6239 LGBTQ History in Education 3 s.h.
Lesbian, gay, bisexual, transgender, and questioning (LGBTQ) issues in context of history of education in United States; LGBTQ teachers, students, and studies in K-12 and higher education; emphasis on differences in historical interpretations. Same as EPLS:6239.

GWSS:6275 Higher Education and Society 3 s.h.
Explores theory, research, and practices of engaging difference through interdisciplinary lenses and at the intersections of sociopolitical identities and ideologies within the context of higher education/student affairs, K-12, and as it relates to society, government, and community agency settings; examines the implications of sociopolitical contexts on practices in research, teaching, and service within education. Requirements: PhD, EdD, or advanced-level MA standing. Recommendations: introductory course on issues of race, culture, gender, sociopolitical issues, or structural oppression is strongly recommended. Same as EPLS:6275.

GWSS:6300 Writing for Learned Journals 1-4 s.h.
Seminar that supports graduate students in bringing written work to publishable form; analysis of target journals' audiences, interests, and citation politics; submission and the publication process; response to reader reports and criticism; best writing and research practices; discussion of knowledge cultures and discourses in disciplines and the contemporary academy. Same as AMST:6300, GRAD:6300, RHET:6330.

GWSS:6343 Feminist Criticism 3 s.h.
Explore the rich terrain of feminist criticism within contemporary rhetorical and cultural studies; survey key interdisciplinary debates within contemporary feminist theory and criticism, trace significant trajectories within the history of feminist criticism, and consider how interdisciplinary feminist perspectives continue to shape humanities scholarship, including in communication studies and religious studies. Provides a strong foundation for exploring how feminism might meaningfully inform the art of academic inquiry and critical practice. Same as COMM:6343, RELS:6343.

GWSS:6345 New Materialisms 3 s.h.
Exploration of new strategies for rupturing persistent dichotomies of subject/object, representation/real, culture/nature, and active humans/passive things offered by theories of the vitality and agency of matter; introduction to origins of and developments in new materialisms; oriented to interdisciplinary inquiry and application to research in the humanities, broadly conceived; particular attention to actor-network theory, feminism, queer theory, infrastructuralism, and materialist theories of media. Same as COMM:6345, RELS:6345.

GWSS:6990 Independent Study arr.

GWSS:7000 Gender, Women's, and Sexuality Studies Graduate Practicum 1-3 s.h.
Volunteer work experience, or conceptualization and execution of research projects. Prerequisites: GWSS:5000.

GWSS:7122 Readings: History of Gender and Sexuality arr.
Topics in international and transnational history of gender and sexuality. Same as HIST:7122.

GWSS:7205 New Histories: U.S. Slavery arr.
Our approach to study of slavery and discipline of history have been upended by recent works by and about women; exploration of that scholarship and consideration of where it takes us in grappling with systems and subjectivity of slavery. Same as AFAM:7205, HIST:7205.

GWSS:7214 Readings: African American Women's History arr.
Same as AFAM:7214, HIST:7214.

GWSS:7275 Readings in the History of Women and Gender in the U.S.A. arr.
Same as HIST:7275.

GWSS:7400 Graduate Research Conference Presentation 1 s.h.
Crafting a presentation for the annual James F. Jakobsen Graduate Conference each spring; students work with an existing creative and/or scholarly project from another class or context; discussion of an array of presentation practices in gender, women's, and sexuality studies including interactivity, accessibility, audience engagement, workshopping, recursive revision, institutional justice, and various experiments with form, genre, discipline, body, and language; for students pursuing the Certificate in Gender, Women's, and Sexuality Studies. Prerequisites: GWSS:5000. Requirements: gender, women's, and sexuality studies graduate certificate standing.

GWSS:7435 Readings: Women, Men, and Gender in Modern Europe arr.
Same as HIST:7435.

GWSS:7805 Readings in Middle East History arr.
Global perspective on major topics in modern history of the Middle East and North Africa including gender, sexuality, race, and empire. Same as HIST:7805.

Social Justice Courses

SJUS:1001 Introduction to Social Justice 3 s.h.
Introduction to principles and theories of social justice; students examine the history of influential social movements in the United States and the world in the last century; how intersectionality can create tensions between and among members of social movements; how race, class, gender, age, geography, and our bodies play a role in the application of theories of social justice. GE: Understanding Cultural Perspectives. Same as GWSS:1003.

SJUS:1046 Environmental Politics in India 3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: Sustainability. GE: International and Global Issues; Sustainability. Same as ANTH:1046, GWSS:1046, SEES:1046.

SJUS:1600 War Stories 3 s.h.
Exploration of the history of U.S. conflicts from Vietnam to the War on Terror through novels, film, and other cultural forms; specific focus on how U.S. social structures influence experiences of war. Same as AMST:1600, LATS:1600.

SJUS:2000 Theories of Social Justice 3 s.h.
Introduction to important theories of intersectional feminist social justice. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Recommendations: prior or concurrent enrollment in SJUS:1001 strongly recommended for social justice majors or minors.

SJUS:2006 Transnational Solidarities 3-4 s.h.
Examination of connections forged by intellectuals, activists, and political thinkers in struggles against systems of colonialism, imperialism, capitalism, and state violence throughout the 20th century; opportunities to make connection with other struggles against racism, supremacy, patriarchy, and domination; optional discussion section taught in Arabic. Taught in English. Requirements: for 4 s.h. option—ARAB:1002. Same as ARAB:2006, WLLC:2006.

SJUS:2050 Jews, Judaism, and Social Justice 3 s.h.
Jewish frameworks for grappling with justice and ethics from ancient world to present day; emphasis on internal diversity of Jewish experience as well as interactions with dominant and other minority cultures. Same as GWSS:2050, HIST:2150, RELS:2250.

SJUS:2135 Decoding Disability: Rhetoric of Access and Accommodations 3 s.h.
Explores how language shapes perceptions of disability, access, and accommodations—acting both as a barrier to and a means of challenging societal norms. Students examine the role of rhetoric in defining ability and how communication practices impact accessibility. Through written, spoken, signed, and digital expression, they analyze how cultural frameworks value or marginalize different bodies and minds. Emphasizing practical strategies, the course equips students to foster accessibility and opportunity in academic, professional, and public spaces. GE: Understanding Cultural Perspectives. Same as RHET:2135.

SJUS:2240 Introduction to Jewish Studies 3 s.h.
Introduction to the interdisciplinary field of Jewish studies; topics include history from ancient origins to the present, sociology of Jewish life in the U.S. and internationally, ethical and religious principles and practices, Jewish embeddedness in non-Jewish societies, and controversies within and surrounding the Jewish world. GE: Understanding Cultural Perspectives. Same as HIST:2149, JSTU:2149, RELS:2240.

SJUS:2250 The History of Social Justice Movements 3 s.h.
History of contemporary social movements in the U.S. and how these movements have directly affected policies related to environment, food, reproductive justice, civil rights, immigration, labor, race, and gender; students read, explore, discuss, and write about the history of contemporary social movements in the U.S. that had lasting effects on policies related to environment, agriculture, health, reproductive justice, civil rights, labor, race, gender, and immigration; exploration of multiple modes of representation and resistance including protests, boycotts, strikes, music, art, writing, riots, civil disobedience, theater, poetry, dance, and poetry. Same as GWSS:2250, HIST:2250.

SJUS:2500 Love, War, Activism: Stories About Women From Across the World 3 s.h.
Literary and cinematic representations of gender in works by authors and directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of love, sexuality, friendship, and parenting; shifts in gender identities and relations that result from social and political crises. Same as ENGL:2570, GWSS:2500.

SJUS:2571 Visualizing Human Rights 3 s.h.
Cinematic representations of human rights issues in films by directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of race relations in colonial and postcolonial societies; public health issues, specifically women's and children's rights in context of the HIV/AIDS pandemic. Same as ENGL:2571, GWSS:2571.

SJUS:3005 Practicum 3-4 s.h.
Volunteer experience applying gender, women's, and sexuality studies in an authentic environment. Prerequisites: GWSS:1001. Same as GWSS:3005.

SJUS:3138 Writing to Change the World 3 s.h.
Writers who can frame questions, weigh competing perspectives, structure an argument, and write with clarity and respect for diverse audiences as powerful agents for change; writers who have inspired human rights movements; public forms of writing with local organizations whose missions are shaped by social attitudes to gender and sexuality; conducting research and evaluation of evidence; best practices for communicating and collaborating; skills needed to be an effective advocate. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as GWSS:3138.

SJUS:3171 Higher Education and Social Justice 3 s.h.
Reflection of students' place within educational systems; development of rhetorical tools for successful advocacy; advocation through writing for change within higher education and the UI; student loans, racial segregation, social and economic immobility, free speech, data insecurity, sexual assault. Same as ENGL:3571, GWSS:3171.

SJUS:3190 Global Debt 3 s.h.
Economies as cultural systems that emphasize the role of worldviews and "meaning-making" in organizing economies; debt as a key mechanism in creation and maintenance of relationships; focus on how exchange, distribution, and obligation serve to shore up or sever various social institutions and links between debt, inequality, and power; debt in various forms, from a round of drinks to student loans, and from the U.S. mortgage crisis to development aid; diverse array of economies—from gift exchange to ceremonial destruction of wealth, and from Melanesia to Wall Street—to evaluate assumptions that undergird different systems of debt and credit. Requirements: introductory course in anthropology or international studies or gender, women's, and sexuality studies. Same as ANTH:3190, IS:3190.

SJUS:3250 Literature and Social Justice 3 s.h.
How literature from various time periods—American and global—has enacted, represented, depicted, or encouraged forms and acts of social justice; students study various genres (e.g., essay, poem, autobiography, short story, fiction) and learn how literature has been used to conceptualize social justice, address national and global inequities, and take up complex and intersecting issues of power and privilege. Same as ENGL:3572.

SJUS:3257 Civil Rights and Racial Justice: A Tour Through the South 1-3 s.h.
Exploration of the history of modern civil rights movement through lectures, shared readings, videos, and discussion; includes preparation and two-week tour of civil rights sites in the South. Prerequisites: SJUS:1001 or SJUS:2250 or GWSS:1002 or CCCC:2220 or AFAM:1030 or HIST:2268 or HIST:2268 or HIST:3253 or HIST:3253 or HIST:3253 or HIST:3232 or AFAM:3100 or AFAM:3500 or AFAM:3260 or AFAM:3260 or HIST:3282 or HIST:3282 or HIST:4130. Same as AFAM:3257, GWSS:3257, HIST:3257.

SJUS:3400 Advocacy and Engagement Colloquium 1-3 s.h.
How to capitalize on volunteer experience; how experience can lead to careers in health care, law, advocacy, social work, social justice, education; issues related to domestic violence, community education, sexual assault; health care for women, youth, and LGBTQ populations; health care inequities, social justice; field journal. Recommendations: active volunteer work at feminist-centered organizations in Iowa, completion of 40-hour training, plan to serve organization for up to ten or more hours each month, and attendance at regularly scheduled volunteer meetings. Same as GWSS:3400.

SJUS:3415 Latina/o/x Protest, Movement, Resistance 3 s.h.
Examination of history, form, and function of protest, social movement, and resistance by Latina/o/x peoples in the United States. Same as AMST:3415, LATS:3415.

SJUS:3420 Latinas/os/x and the Law 3 s.h.
Introduction and survey of Latina/o/x legal history; topics include segregation, educational rights, immigration, voting rights, citizenship, and the criminal justice system. Same as AMST:3420, LATS:3420, POLI:3427.

SJUS:3430 Queer Latina/o/x Studies 3 s.h.
Relationship of Latina/o/x culture with gender, sexuality, and queerness. Same as AMST:3450, LATS:3430.

SJUS:3459 Making Change, Making History 3 s.h.
Topics may include digital history, public history, museum studies, and more. Same as GWSS:3459, HIST:3259.

SJUS:3475 Working for Social Justice 3 s.h.
Identification and pursuit of careers in a wide range of fields where people advocate for and engage issues of social justice; writing self-assessments, résumés, sample employment application letters, statements of purpose; development of e-portfolios that highlight areas of student research and expertise; mock interview practice; Pomerantz Career Center resources; interviewing professionals in careers focused on social justice and feminist issues; local internship and volunteer possibilities; national and international educational and career opportunities for making a difference in the world. Same as GWSS:3475.

SJUS:3510 Topics in Social Justice 3 s.h.
Students deep dive into a specific topic that invites research and debate about the ways cultures understand social justice—human rights in relation to gender and sexuality, race and ethnicity, generations, class religion, species, and environment.

SJUS:3560 Public Policy and Persuasion 3 s.h.
Students build their skill set in policy analysis, formation, and communication through a social justice lens; engagement in service learning projects in one Iowa community, where work done directly impacts that community's ability to make changes; development of effective writing and oral presentation styles that can be adapted to different audiences; focus on homelessness policy using social policy and social justice concepts to explore work of policy makers who have "right-sized" existing systems to serve communities in crisis and propose solutions to systemic problems that disadvantage marginalized populations. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as PBAF:3560, POLI:3560, RHET:3560.

SJUS:3950 Academic Internship 1-3 s.h.
Work under supervision of a faculty member on a scholarly or creative project related to the department or campus, or work with the director of undergraduate studies as a media, digital publishing, or teaching intern; students receive credit for the internship depending on the number of hours they work, learning objectives they develop, and meetings, written reports, and other research-related or self-evaluative writing they contract to do with the supervising faculty member. Prerequisites: GWSS:1001 or SJUS:1001. Requirements: gender, women's, and sexuality studies or social justice major or minor. Same as GWSS:3950.

SJUS:3990 Independent Study in Social Justice arr.
Topics not covered in regular social justice curriculum.

SJUS:4080 Advocacy and Engagement Capstone 3 s.h.
Design and development of individual creative or scholarly projects in the field of social justice; emphasis on strengthening student's research and writing skills; synthesizing and extending work already completed in the social justice major. Prerequisites: SJUS:1001 and SJUS:2250 and GWSS:3138.

SJUS:4085 Social Justice Bachelor of Arts Honors Senior Thesis 3 s.h.
Work on honors thesis in social justice. Requirements: honors standing, and completion (or in progress) of coursework for BA in social justice.

Gender, Women's, and Sexuality Studies, BA

Students who major in gender, women's, and sexuality studies (GWSS) explore the ways that gender and sexuality intersect with class, race, ethnicity, nationality, and transnational processes. Students develop interdisciplinary research and writing skills, the ability to address structural inequalities from the local to the global level, and the critical tools necessary to work toward social transformation and social justice. GWSS majors participate in two high-impact experiences that prepare them for careers in a wide range of fields. They participate in a practicum at a community-based site where they learn to integrate feminist theory and practice; then, during their senior year, they do rigorous, original research for critical or creative projects on topics of their own choosing.

Learning Outcomes

Students graduating with a major in gender, women's, and sexuality studies will demonstrate how to:

- apply feminist intersectional theory in scholarly and creative practice;
- evaluate issues, research problems, and construct arguments using GWSS tools and concepts;
- communicate effectively with diverse audiences through speech, writing, and other forms of creative and scholarly expression; and
- work collaboratively with others in diverse communities using core GWSS strengths and skills.

Requirements

The Bachelor of Arts with a major in gender, women's, and sexuality studies (GWSS) requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students may declare the major at any time. They are advised by the Academic Advising Center until they have earned 30 s.h. of credit. Transfer credit is evaluated case by case; a maximum of 12 s.h. of transfer credit may be counted toward the major. Students may count a maximum of 9 s.h. completed for another major, minor, or certificate toward the gender, women's, and sexuality studies major.

Work for the major consists of the undergraduate core, distribution requirements, and electives. The undergraduate core includes a practicum and culminates in a research seminar.

The BA with a major in gender, women's, and sexuality studies requires the following coursework.

Requirements	Hours
Undergraduate Core	9-10
Distribution Requirements	12-14
Electives	12
Capstone Courses	6

Undergraduate Core

The undergraduate core consists of three courses. GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies examines cultural and social beliefs about sex, gender, race, class, and sexuality; GWSS:1002 Diversity and Power in the U.S. explores the intersections of race, class, and gender in the United States. GWSS:3005/SJUS:3005 Practicum teaches students how to apply feminist intersectional concepts in a practicum experience organized in collaboration with community partners.

Course #	Title	Hours
All of these:		
GWSS:1001	Introduction to Gender, Women's, and Sexuality Studies	3
GWSS:1002	Diversity and Power in the U.S.	3
GWSS:3005/ SJUS:3005	Practicum	3-4

Distribution Requirements

The distribution requirements (total of at least 12 s.h.) are chosen from the following lists. They include one GWSS theory course, one transnational theory course, one GWSS course with a global/comparative focus, and one GWSS or other course with a race/ethnicity focus. Students may request permission from the director of undergraduate studies to use courses not on these lists; ideally, these courses should be offered by the Department of Gender, Women's, and Sexuality Studies (prefix GWSS). At least half of the material in global/comparative topics courses must have a non-U.S. context.

Theory

Course #	Title	Hours
One of these:		
GWSS:3100	LGBTQ/Queer Studies	3
GWSS:3200	Theories for Gender, Women's, and Sexuality Studies	3

Transnational Theory

Course #	Title	Hours
One of these:		
GWSS:3010/ GHS:3015	Transnational Sexualities	3
GWSS:3326/ GHS:3327	The Politics of Progress: NGOs, Development, and Sexuality	3
GWSS:3350/ ANTH:3125/IS:3350	Transnational Feminism	3

Global/Comparative Focus

Course #	Title	Hours
One of these:		
GWSS:1046/ ANTH:1046/ SEES:1046/ SJUS:1046	Environmental Politics in India	3
GWSS:2052/ RELS:2852	Women in Islam and the Middle East	3
GWSS:2108/ ANTH:2108	Gendering India	3

GWSS:2151/ ANTH:2151/IS:2151	Global Migration in the Contemporary World	3
GWSS:2222/ ASIA:2222/ WLLC:2222	Women in Premodern East Asian Literature	3
GWSS:2500/ ENGL:2570/ SJUS:2500	Love, War, Activism: Stories About Women From Across the World	3
GWSS:2571/ ENGL:2571/ SJUS:2571	Visualizing Human Rights (if not taken to fulfill the Race/ Ethnicity in the U.S. Focus area)	3
GWSS:2650/ GHS:2650	Global Reproduction	3
GWSS:2674/ GHS:2674/ RELS:2674	Food, Body, and Belief: A Global Perspective	3
GWSS:2700	Transgender People, Politics, and Cultures	3
GWSS:2900/ ANTH:2191	Love, Sex, and Money: Sexuality and Exchange Across Cultures	3
GWSS:3121/ ANTH:3121	Love, Marriage, and Family in India	3
GWSS:3157/ HIST:3157	Gender, Sexuality, and Human Rights	3
GWSS:3185/ WLLC:3185	Global Women's Cinema	3
GWSS:3326/ GHS:3327	The Politics of Progress: NGOs, Development, and Sexuality	3
GWSS:3427/ HIST:3427	Family, Gender, and Society in Early Modern Europe	3
GWSS:4026/ FREN:4026	French Women Writers	3-4
GWSS:4140/ ANTH:4140/ CBH:4140/ GHS:4140	Feminist Activism and Global Health	3
GWSS:4540/ FREN:4540	Gender and Sexuality in French Cinema	3-4
ANTH:2190/ GWSS:2190/IS:2190	Love Rules: Law and the Family Across Cultures	3

Race/Ethnicity in the U.S. Focus

Course #	Title	Hours
One of these:		
GWSS:2571/ ENGL:2571/ SJUS:2571	Visualizing Human Rights (if not taken to fulfill the Global/Comparative Focus area)	3
GWSS:2800/ AFAM:2800	African American Women, Health, Hair, and Sexuality	3
GWSS:3431/ LATS:3550	Topics in Latina/o/x Studies: History and Culture	1-3
GWSS:3459/ HIST:3259/ SJUS:3459	Making Change, Making History	3
SJUS:1001/ GWSS:1003	Introduction to Social Justice	3
SJUS:2050/ GWSS:2050/ HIST:2150/ RELS:2250	Jews, Judaism, and Social Justice	3
SJUS:2250/ GWSS:2250/ HIST:2250	The History of Social Justice Movements	3
SJUS:3250/ ENGL:3572	Literature and Social Justice	3
ENGL:3459/ AFAM:3459	African American Literature Before 1900	3
ENGL:3460/ AFAM:3460	African American Literature After 1900	3
HIST:2266/ AFAM:2266	Civil War and Emancipation	3
HIST:2267/ AFAM:2267	African American History to 1877	3
HIST:3275/ AFAM:3275	History of Slavery in North America	3
SSW:3847	Discrimination, Oppression, and Diversity	3
A Native American and Indigenous studies course (prefix NAIS) numbered 2000 or above that does not fulfill a GE CLAS Core requirement		
A Latina/o/x studies course (prefix LATS) numbered 2000 or above that does not fulfill a GE CLAS Core requirement		
An African American studies course (prefix AFAM) numbered 2000 or above that does not fulfill a GE CLAS Core requirement		

Electives

Students must complete 12 s.h. of gender, women's, and sexuality studies courses (prefix GWSS or SJUS) numbered 1000–4999; at least 6 s.h. of the 12 s.h. must be completed with courses numbered 3000–4999. Students can count gender, women's, and sexuality studies distribution area requirement courses as electives if they were not used to fulfill their area requirements. With the instructor's permission, honors students may count a graduate-level course numbered 5000 or above toward the electives requirement.

In choosing electives, students are encouraged to pursue a course of study that emphasizes breadth and depth in a specific discipline (anthropology, English, and history, among others) or a focus area (art, writing, literature, sexuality, media, global and transnational studies, race and ethnicity, health, and so on).

Capstone Courses

These courses help students develop and create their capstone projects.

Students first take GWSS:3900 Research for Public Engagement in the fall semester of their final year, which focuses on developing advanced research, reading, and writing skills and choosing capstone topics. In the spring of their senior year, students take GWSS:4090 Senior Research Seminar, a research and writing workshop in which students work collaboratively with their classmates to complete their creative or scholarship capstone work, including creating a poster for the end of the semester Senior Research Poster Show.

Students who write an honors thesis enroll in GWSS:4095 Honors Senior Thesis in the spring semester of their senior year.

Course #	Title	Hours
This course:		
GWSS:3900	Research for Public Engagement	3
One of these:		
GWSS:4090	Senior Research Seminar	3
GWSS:4095	Honors Senior Thesis	3

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.50 in the major. Students must write an honors thesis that requires two semesters of work during the senior year: fall (thesis research by enrolling in GWSS:3900 Research for Public Engagement) and spring (thesis writing by enrolling in GWSS:4095 Honors Senior Thesis).

Students who intend to graduate with honors in the major should meet with the gender, women's, and sexuality studies (GWSS) director of undergraduate study before the end of their junior year. They must also select a faculty member to serve as their honors thesis mentor before they begin their thesis work. They should meet with their mentor at least twice in the fall semester of their senior year to discuss their project. The department recommends that students consider faculty members from whom they have taken GWSS courses.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the gender, women's, and sexuality studies major.

Career Advancement

Gender, women's, and sexuality studies (GWSS) majors develop the critical skills and problem-solving abilities needed for engaging the challenges of contemporary life. Graduates work in diverse settings, such as government and nonprofit agencies, newspaper offices, human resource departments, museums, theaters, international human rights organizations, schools, and hospitals. They do fundraising, political organizing, teaching, writing, research, advocacy work, counseling, diversity training, and marketing. They become social workers, nurses, midwives, doctors, editors, librarians, business managers, grant writers, campaign directors, educational administrators, program coordinators, lawyers, and professors.

A GWSS undergraduate education provides a solid foundation for pursuing graduate degrees from schools of social work, public health, law, education, international relations, public affairs and public policy, and medicine. The major also prepares students for a wide range of graduate programs, including gender and women's studies, history, anthropology, urban education, creative writing, political science, human rights, human sexuality, and counseling.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the third semester begins: GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies.

Before the fifth semester begins: GWSS:1002 Diversity and Power in the U.S. and two GWSS electives.

Before the seventh semester begins: one GWSS distribution course (theory or comparative/non-U.S. focus) and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: GWSS:3005 Practicum, GWSS:3900 Research for Public Engagement, one more GWSS distribution course (theory or comparative/non-U.S. focus), and at least one more GWSS elective.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

d See the General Catalog for list of approved courses.

e Students must complete 12 s.h. of gender, women's, and sexuality studies courses (prefix GWSS or SJUS) numbered 1000-4999; at least 6 s.h. of the 12 s.h. must be completed with courses numbered 3000-4999.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Gender, Health, and Healthcare Equity, Minor

Requirements

The undergraduate minor in gender, health, and healthcare equity requires a minimum of 15 s.h. of coursework, including at least 12 s.h. completed at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework for the minor may not be taken pass/nonpass.

Students may count a maximum of 3 s.h. from another University of Iowa major, minor, or certificate toward the gender, health, and healthcare equity minor.

The minor in gender, health, and healthcare equity requires the following coursework.

Requirements	Hours
Core Courses	6
Health Equity Courses	9-10

Core Courses

Course #	Title	Hours
Two of these:		
GWSS:1001	Introduction to Gender, Women's, and Sexuality Studies	3
GWSS:1002	Diversity and Power in the U.S.	3
SJUS:1001/ GWSS:1003	Introduction to Social Justice	3

Health Equity Courses

Course #	Title	Hours
Three of these:		
GWSS:2080/ GHS:2080	The Cultural Politics of HIV-AIDS	3
GWSS:2650/ GHS:2650	Global Reproduction	3
GWSS:2700	Transgender People, Politics, and Cultures	3
GWSS:2800/ AFAM:2800	African American Women, Health, Hair, and Sexuality	3
GWSS:3005/ SJUS:3005	Practicum (placement must be in a health care or social service setting)	3-4
GWSS:3010/ GHS:3015	Transnational Sexualities	3
GWSS:3154	Sexuality in the United States	3
GWSS:3326/ GHS:3327	The Politics of Progress: NGOs, Development, and Sexuality	3
GWSS:4140/ ANTH:4140/ CBH:4140/ GHS:4140	Feminist Activism and Global Health	3
CPH:1400	Fundamentals of Public Health	3
CPH:3400/ SEES:3250	Health, Work, and the Environment	3
ENGL:2560	Topics in Culture and Identity (when topic is stories about HIV/AIDS)	3
GHS:3036	Ethics, Policy, and Global Health	3
GHS:3110/ ANTH:3110/ CBH:4200/ NAIS:3110	Colonialism and Indigenous Health Equity	3
GHS:4003	Case Studies in Global Health Inequities	3
HIST:3508/ GHS:3508/LAS:3508	Disease and Health in Latin American History	3
HIST:3755/ GHS:3555/IS:3555	Understanding Health and Disease in Africa	3
SEES:3090/ GHS:3070	Hungry Planet: Global Geographies of Food	3
SOC:3750/ GWSS:3750	Born in the USA: Fertility and Reproduction	3

Gender, Women's, and Sexuality Studies, Minor

Requirements

The undergraduate minor in gender, women's, and sexuality studies (GWSS) requires a minimum of 15 s.h. of coursework, including at least 12 s.h. completed at the University of Iowa. Students must take GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies and 12 s.h. in courses numbered 2000 or above. They may count GWSS:1002 Diversity and Power in the U.S. toward the 12 s.h. requirement. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework for the minor may not be taken pass/nonpass.

Students may count a maximum of 3 s.h. from another University of Iowa major, minor, or certificate toward the GWSS minor.

Social Justice, Minor

Requirements

The undergraduate minor in social justice requires a minimum of 15 s.h. of coursework, including at least 12 s.h. completed at the University of Iowa. Students must take SJUS:1001/GWSS:1003 Introduction to Social Justice and 12 s.h. in courses numbered 2000 or above. They may count GWSS:1002 Diversity and Power in the U.S. toward the 12 s.h. requirement. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students may count a maximum of 3 s.h. from another University of Iowa major, minor, or certificate toward the social justice minor.

The minor in social justice requires the following coursework.

Requirements	Hours
Foundation Courses	6
Human Rights, Diversity, Activism Course	3
Social Justice Movements: Politics, History, Culture, Art Course	3
Elective	3

Foundation Courses

Course #	Title	Hours
This course:		
SJUS:1001/ GWSS:1003	Introduction to Social Justice	3
One of these:		
SJUS:2000	Theories of Social Justice	3
SJUS:2250/ GWSS:2250/ HIST:2250	The History of Social Justice Movements	3
GWSS:3138/ SJUS:3138	Writing to Change the World	3

Human Rights, Diversity, Activism

Course #	Title	Hours
One of these:		
SJUS:1600/ AMST:1600/ LATS:1600	War Stories	3
SJUS:2050/ GWSS:2050/ HIST:2150/ RELS:2250	Jews, Judaism, and Social Justice	3
SJUS:2135/ RHET:2135	Decoding Disability: Rhetoric of Access and Accommodations	3
SJUS:2500/ ENGL:2570/ GWSS:2500	Love, War, Activism: Stories About Women From Across the World	3
SJUS:2571/ ENGL:2571/ GWSS:2571	Visualizing Human Rights	3
SJUS:3475/ GWSS:3475	Working for Social Justice	3
GWSS:1002	Diversity and Power in the U.S.	3
GWSS:2080/ GHS:2080	The Cultural Politics of HIV-AIDS	3
GWSS:2800/ AFAM:2800	African American Women, Health, Hair, and Sexuality	3
GWSS:3138/ SJUS:3138	Writing to Change the World (if not used as a Foundation course)	3
GWSS:3157/ HIST:3157	Gender, Sexuality, and Human Rights	3
GWSS:3326/ GHS:3327	The Politics of Progress: NGOs, Development, and Sexuality	3
GWSS:4140/ ANTH:4140/ CBH:4140/ GHS:4140	Feminist Activism and Global Health	3

SSW:3712/ NURS:3712	Human Sexuality, Diversity, and Society	3
SSW:3796	Family Violence	3

Gender, Women's, and Sexuality Studies, Graduate Certificate

Requirements

The graduate Certificate in Gender, Women's, and Sexuality Studies (GWSS) requires 16 s.h. of coursework. All students must maintain a Graduate College major program grade-point average of at least 3.00 in work for the certificate.

Certificate requirements include a 3 s.h. foundations course GWSS:5000 Foundations for Gender, Women's, and Sexuality Studies and a 1 s.h. capstone course GWSS:7400 Graduate Research Conference Presentation. In the capstone course, students revise an existing research-based project into a dynamic GWSS presentation, which they present at the annual Jakobsen Conference or, in some semesters, at a department-sponsored research celebration event.

Certificate students receive advising and research mentorship from the director of graduate studies, and also peer review as part of the scheduled capstone workshops.

The certificate program is open to University of Iowa graduate students working toward a degree; interested students should meet with the director of graduate studies to discuss the program's parameters and how the certificate might best support and enhance their course of study.

Students may not use the same course to satisfy more than one certificate requirement.

The Certificate in Gender, Women's, and Sexuality Studies requires the following coursework.

Course #	Title	Hours
GWSS:5000	Foundations for Gender, Women's, and Sexuality Studies	3
GWSS:7400	Graduate Research Conference Presentation	1
Electives		12
Total Hours		**16**

Electives

Certificate students complete four elective courses (12 s.h.). Elective options include any gender, women, and sexuality studies course (prefix GWSS) or those with a GWSS cross-reference numbered 3000 and above. Students must take at least one elective with GWSS as the course subject. Students are strongly encouraged to include at least one course with a transnational focus; one course with a focus on U.S. diversity; and one interdisciplinary course on theories of gender, women, feminism, and/or sexuality (or a course squarely outside of their area of specialization). Students are encouraged to take at least one GWSS certificate course outside their home department for the purpose of interdisciplinary breadth. The director of graduate studies can advise and discuss coursework options and parameters with students.

Global Health Studies

Chair, Department of Anthropology

- Andrew Kitchen

Director, Global Health Studies

- Kristine L. Munoz

Undergraduate major: global health studies (BA, BS)

Undergraduate minor: global health studies

Graduate certificate: global health studies

Faculty: https://globalhealthstudies.uiowa.edu/people

Website: https://globalhealthstudies.uiowa.edu/

The Global Health Studies Program (GHS) offers an interdisciplinary approach to the study of the complex factors influencing health and disease locally and around the world.

The academic curriculum builds upon the humanities, social sciences, and health sciences to help students understand underlying forces—such as history, culture, gender and sexuality, economics, politics, race and ethnicity, the environment, law, and technology—which lead to health disparities worldwide. The Global Health Studies Program offers a BA and BS degree, an undergraduate minor, and a graduate certificate.

The Global Health Studies Program recognizes the importance of opportunities for students to be involved in ethical activities outside of the classroom to reinforce and apply knowledge and skills obtained within the classroom. These experiences help students define and achieve their post-graduation goals. The faculty and staff help connect students to local, regional, and international academic and cocurricular opportunities.

The Global Health Studies Program is administered by the Department of Anthropology [p. 63]. The College of Liberal Arts and Sciences awards the undergraduate degrees and the minor; the Graduate College confers the graduate certificate.

Local Health is Global Health

There are many ways for GHS students to support local and global organizations that are working for health equity. GHS students intern and volunteer with organizations such as Proteus, Grow: Johnson County, the UI Food Pantry, the UI Mobile Clinic, UI Student Wellness, the Center for Worker Justice of Eastern Iowa, IC Compassion, and Johnson County Public Health. Additionally, as part of the GHS capstone and certificate curricula, students have collaborated with community organizations such as Haiti Community Health Initiative, the World Food Prize Foundation, and the Special Olympics.

Faculty Research and Outreach

GHS-affiliated faculty members conduct research at a variety of sites worldwide, including India, Haiti, the Caribbean, Germany, Colombia, Tanzania, rural Iowa, and Southeast Asia. Interested students work with faculty and staff to integrate international study and research opportunities into their graduation plans. As experts in their field, GHS faculty are often asked to be part of public programming activities. Recent examples include an International Programs webinar on "Pandemic, State, and Society" in Asia; an Iowa City Foreign Relations Council presentation on refugees, immigrants, and higher education in Iowa; and a campus collaboration on a speaker series addressing environmental justice at the University of Iowa.

Programs

Undergraduate Programs of Study

Majors

- Major in Global Health Studies (Bachelor of Arts) [p. 493]
- Major in Global Health Studies (Bachelor of Science) [p. 497]

Minor

- Minor in Global Health Studies [p. 502]

Graduate Program of Study

- Certificate in Global Health Studies [p. 503]

Courses

- Associated Courses [p. 487]
- Global Health Studies Courses [p. 488]

Associated Courses

In addition to courses offered by the Global Health Studies Program (see "Global Health Studies Courses"), students may use the following courses to complete requirements for the certificate or minor.

Course #	Title	Hours
Aging and Longevity Studies		
ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800/TR:1800	Aging Matters: Introduction to Gerontology	3
English		
ENGL:2560	Topics in Culture and Identity (when topic is stories about HIV/AIDS)	3
History		
HIST:1016	The History That Made Our World (when topic is health in the Global South)	3
Nursing		
NURS:3655	Community and Public Health Nursing Practicum (BSN students only)	2
Occupational and Environmental Health		
OEH:4240	Global Environmental Health	3
Public Health		
CPH:2230	Finding Patient Zero: The Exploration of Infectious Disease Transmission and Pandemic Threats	3
CPH:2400	The U.S. Health System in a Global Context	3
CPH:3400/ SEES:3250	Health, Work, and the Environment	3
CPH:4200	Agriculture, Food Systems, and Sustainability	3

Global Health Studies Courses

GHS:1029 First-Year Seminar 1 s.h.
Introduction to intellectual life of the university; opportunity to work closely with a faculty member or senior administrator; active participation to ease transition to college-level learning.

GHS:1181 Ancient Medicine 3 s.h.
Thematic examination of theories and practices of Greco-Roman physicians, which in turn became the medical tradition of medieval Islamic world and European medicine until mid-19th century; historical medical terms, theories, and practices. GE: Historical Perspectives. Same as CLSA:1181.

GHS:1200 Disabilities and Inclusion in Writing and Film Around the World 3 s.h.
Exploration of human experiences of dis/ability and exclusion/inclusion. Taught in English. GE: Understanding Cultural Perspectives. Same as DST:1200, GRMN:1200, WLLC:1200.

GHS:1290 Native American Foods and Foodways 3 s.h.
Native Americans as original farmers of 46% of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of Indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. GE: Understanding Cultural Perspectives. Same as AMST:1290, HIST:1290, NAIS:1290.

GHS:2000 Introduction to Global Health Studies 3 s.h.
Global health as a study of the dynamic relationship between human health and social, biological, and environmental factors that drive the spread of disease; core areas of global health research that may include health inequalities, maternal and child health, infectious diseases, nutrition, environmental health, and health interventions. GE: International and Global Issues. Same as ANTH:2103.

GHS:2080 The Cultural Politics of HIV-AIDS 3 s.h.
Complex historical shifts in cultural perceptions about HIV-AIDS in the U.S. and transnationally; controversies around HIV-AIDS and their links with questions of gender and sexuality; how HIV-AIDS subsequently became the basis of a transnational industry comprising nongovernmental organizations, donors, and activists across the global north and south, starting from 1980s in the U.S. when HIV-AIDS first emerged into public sphere as a gay disease; link between HIV-AIDS and ideologies of development or progress, neocolonialism, and emergence of lesbian, gay, bisexual, transgender, intersex, and questioning (LGBTIQ) movements in many parts of world. Recommendations: background in gender studies, and completion of rhetoric or at least one social sciences course. Same as GWSS:2080.

GHS:2090 Medical Spanish in Contemporary Society 4 s.h.
Vocabulary related to medicine; grammatical concepts; health-related cultural competence; discussion of health issues concerning Hispanic communities in the U.S. and abroad. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2090.

GHS:2100 Foundations of Health Humanities 3 s.h.
Examination of health, disease, care, and healing through humanities perspective; exploration of humanistic elements of medical care to better understand multiple meanings and impacts of disease, medical research and treatment, and health beliefs and practices in different communities; interdisciplinary inquiry through close reading, interpretation of visual images, and reflective and analytic writing to encourage adaptability and foster appreciation of non-technoscientific factors in personal and professional health care decision-making. GE: Values and Society. Same as GWSS:2100.

GHS:2110 Eight Billion and Counting: Introduction to Population Dynamics 3 s.h.
How dramatic changes to the size of population has changed fundamental characteristics of populations and processes, such as food and water scarcity, climate change and biodiversity, rise of megacities, health and disease, migration, social networks, economics, environment, and household structure. GE: Social Sciences. Same as SEES:2110.

GHS:2160 Culture, Health, and Wellness: Southeast Asia in Focus 3 s.h.
Exploration of complex cross-cultural interactions between health, wellness, and culture; insights drawn from the culturally diverse region of Southeast Asia including Indonesia, Vietnam, Singapore, Malaysia, Thailand, Cambodia, Burma, and Philippines, among others. Same as ANTH:2160.

GHS:2164 Culture and Healing: An Introduction to Medical Anthropology 3 s.h.
Health professions are increasingly focused on how to best provide health care to culturally diverse populations; introduction to key cultural and social influences on sickness and healing; worldwide examples. Same as ANTH:2164.

GHS:2181 The Anthropology of Aging 3 s.h.
Comparative anthropological perspective on aging; ethnographies from diverse contexts used to examine intersections of kinship, religion, health, and medicine in later life. Same as ANTH:2181, ASP:2181.

GHS:2182 Africa: Health and Society 3 s.h.
Cultural, political, and economic diversity of African societies from precolonial period to present day; relationship between lived experiences of African people and understanding of their societies from afar; why Africa, more than any other region, is associated with warfare, hunger, and disease; idea of "Africa" in the world today; shared misunderstanding of life on continent contrasted with everyday lives of people who are not so different from ourselves. Same as ANTH:2182.

GHS:2260 Hard Cases in Healthcare at the Beginning of Life 3 s.h.
Exploration of ethical impact that advances in biotechnology, including genetic, reproductive, and neonatal technology, are having in the medical arena and on humanity; consideration of the powerful influence that religion and spirituality have on people's ethical and medical decision-making. Same as RELS:2260.

GHS:2265 Hard Cases in Healthcare at the End of Life 3 s.h.
Preparation for future healthcare providers to make difficult ethical decisions regarding the end of life; interactive course. Same as ASP:2265, RELS:2265.

GHS:2320 Origins of Human Infectious Disease 3 s.h.
Origin and evolution of important infectious diseases in human history; biological evolution of infectious agents and biocultural responses to emerging infectious diseases; primary focus on viruses and bacteria; selected world problems from an anthropological perspective; current dilemmas and those faced by diverse human groups in recent times and distant past. Same as ANTH:2320.

GHS:2415 Bioethics 3 s.h.
Recent developments in biotechnology and medicine; designer babies and cloning, genetic screening for disease, distributive justice in health care, animal experimentation, physician-assisted suicide, and euthanasia. Same as PHIL:2415.

GHS:2650 Global Reproduction 3 s.h.
History of birth control and work of activists and organizations that emerged to promote it; troubling connections that spawned between reproductive rights and population control movements. Same as GWSS:2650.

GHS:2660 Global Media Stories of Addiction 3 s.h.
Explores addiction from several perspectives through media-based storytelling from around the world; examines storytelling and translation in conversation with social and biomedical theories and research as ways of learning and understanding the nature, effects, and possibilities for recovery from addiction.

GHS:2674 Food, Body, and Belief: A Global Perspective 3 s.h.
Exploration of local, national, and global forces that shape food consumption, body image, and spiritual practices. Taught in English. Same as GWSS:2674, RELS:2674.

GHS:2770 Black and White Community Politics 3 s.h.
Students study the movement for environmental justice within the broader context of U.S. land use and development to understand environmental racism's prevalence and how it can be addressed; topics include pollution, health, food access, transportation and agricultural practice to land loss, public space, and infrastructure; exploration of perspectives on the environment and environmentalism. Same as AFAM:2770, SOC:2770.

GHS:3010 Social Science Approaches to Global Health 3 s.h.
Review of major components of research in the social sciences as they apply to global health topics; preparation for academic pursuits or careers that utilize research to address global health issues in a systematic way. Same as IGPI:3011.

GHS:3011 Global Research: Strategies and Skills 1 s.h.
Skill development in international research; academic projects; work with research librarian; activity-based introduction to article, statistical, and governmental databases; research and popular materials; information discovery process (tools and search strategies); enhancement of critical thinking skills. Same as IS:3011, ULIB:3011.

GHS:3012 Community-Based Global Health Research 3 s.h.
Introduction to community-based participatory research methods; ethical engagement with a local/global organization addressing the social determinants of health.

GHS:3015 Transnational Sexualities 3 s.h.
How ideas about normative and nonnormative sexuality, gender/sexual identities, and related social movements travel across geographical, political, and cultural boundaries; potentials and limits of using conceptual frameworks (i.e., sexuality, gender, LGBT, queer) across the west and global south; how sexuality always intersects with race, class, nationhood, and transnational systems of power; power structures that shape gender/sexuality through a transnational approach; connection of inequalities within the United States with those across the world. Same as GWSS:3010.

GHS:3021 Mental Health in the Ancient World 3 s.h.
Exploration of approaches to mental health in ancient Mediterranean world including Mesopotamia, the Levant, Greece, and Rome; examination of nosology, etiology, therapy, and ethics of mental health from ancient medical, philosophical, religious, and literary perspectives; mental health in cultural contexts. Same as CLSA:3020.

GHS:3030 Global Health Today 1 s.h.
Attendance at diverse on-campus, local, and regional global health events. Same as CPH:3240.

GHS:3034 Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities 1 s.h.
Exploration of complex ethical issues involved in engaging in experiential learning (e.g., study abroad, volunteering, internships, research) in global communities; topics may include patient rights versus the promise of "hands-on" experience for untrained undergraduates; pitfalls of voluntourism and substituting "free" foreign labor for paid local employees; commercial aspects of study abroad—incentives and recruiting on campus by external contractors; how to select a reputable internship provider; online resources which help students become global ambassadors for patient safety; basic tools for thinking critically about outcomes.

GHS:3035 Engaging in Global Health 1 s.h.
How to become a participant in promoting health throughout the world; student peers and global health professionals share their experiences in global health; how professionals and volunteers work in a broad variety of settings; working with government-based programs, international organizations (e.g., UNICEF, World Vision), health care agencies, faith-based organizations, industry, and academic institutions; various ways to become engaged and be involved in global health.

GHS:3036 Ethics, Policy, and Global Health 3 s.h.
Ethics of health care policies, delivery systems, and interventions examined globally and locally.

GHS:3037 Technology to Improve Global Health 3 s.h.
Examination of existing, new, and future technologies used to revolutionize global health promotion through a variety of unique and often low-cost tools (e.g., mobile phones, drones, artificial intelligence).

GHS:3045 Spanish Health Narratives 3 s.h.
Narratives are the central communicative act through which humans make sense of wellness and illness, life and death, always within contexts of language and culture; students focus on reading and analyzing narratives about health and health care, and opportunities to create their own narratives; particular emphasis on health care disparities and issues they present for Spanish-language communities in the United States and abroad as context for individual narratives. Taught in Spanish. Requirements: one course numbered SPAN:2000 or above. Same as SPAN:3205.

GHS:3050 Global Aging 3 s.h.
Demographic factors that contribute to the worldwide phenomena of population aging in context of WHO Active Aging and the United Nation's Principles for Older Persons frameworks. Same as ASP:3135, SSW:3135.

GHS:3060 Studies in Complementary and Alternative Medicine 3 s.h.
Rotating topics related to complementary and alternative medicine.

GHS:3070 Hungry Planet: Global Geographies of Food 3 s.h.
Societal and environmental implications of past, current, and future global food supply examined from a geographical perspective; focus on questions of who eats what, where, and why; transformative history of agriculture, modern agribusiness and alternative food supplies, geopolitical implications of food production, food scarcity and rising food costs, urban versus rural agriculture, the obesity epidemic versus malnutrition, and the future of food. Same as SEES:3090.

GHS:3092 Spanish in the Community 3 s.h.
Students work directly with Spanish speakers through community-based service learning; focus on issues of interest to the local Latina/o/x community, develop oral proficiency, and enhance their civil engagement. Requirements: two courses numbered SPAN:2000 or above. Same as SPAN:3092.

GHS:3105 Contraception Across Time and Cultures 3 s.h.
Methods and history of contraception; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as CLSA:3105, GWSS:3105, WLLC:3105.

GHS:3110 Colonialism and Indigenous Health Equity 3 s.h.
Health problems and services for Indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101 or ANTH:2165 or GHS:2000 or HIST:1049 or CPH:1400. Same as ANTH:3110, CBH:4200, NAIS:3110.

GHS:3111 Geography of Health 3 s.h.
Provision of health care in selected countries, with particular reference to the Third World; focus on problems of geographical, economic, cultural accessibility to health services; disease ecology, prospective payment systems, privatization, medical pluralism. Same as SEES:3110.

GHS:3120 Global Maternal and Child Health 3 s.h.
Interdisciplinary approach to health of women and children locally and around the world.

GHS:3150 Media and Health 3 s.h.
Potential and limits of mass media's ability to educate the public about health; research and theory on the influence of information and entertainment media; theories, models, assumptions of mass communication in relation to public health issues. Same as CBH:3150, JMC:3150.

GHS:3152 Anthropology of Caregiving and Health 3 s.h.
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ANTH:3152, ASP:3152.

GHS:3199 Understanding Health in an Unequal World: Anthropology and Global Health Policy 3 s.h.
Global health has grown as an area of practice and study, with well-being and livelihoods of increasing numbers of people now deeply influenced by these ideas, practices, and policies; students engage with ways that global health programs have influenced experiences of health and illness by those who participate in these programs, critically analyzing how global health interacts with local dynamics of inequality, race, gender, and power. Same as ANTH:3199, IS:3198.

GHS:3230 Health Experience of Immigrants, Migrants, and Refugees 3 s.h.
Interdisciplinary exploration of the unique health concerns, challenges, and health care experiences of the diverse populations on the move around the world and new to this country; issues to be explored include four overlapping sections—broad overview (definitions, populations, and significant health challenges); health risks and needs of specific sub-populations; patterns of public and private resources and responses; and the local picture (Iowa and Midwest), programs, cases, and concerns.

GHS:3300 Envisioning Future Worlds: Sustainable Development and Its Alternatives 3 s.h.
Sociocultural, geopolitical, and environmental implications of sustainable development and its alternatives investigated from a geographic perspective; geopolitical history of sustainable development; measures of sustainability in development; major critiques of sustainable development; alternative visions of development from different geographical contexts including ecofeminism, Buen Vivir, food sovereignty, degrowth, commoning, and the People's Health Movement. Same as SEES:3300.

GHS:3325 Global Epidemics 3 s.h.
Case studies of several prominent global epidemic episodes; examination of the biology of the disease, how such epidemics came into being, how they were combated, and the relationship between the science, sociocultural, and political consequences of the disease.

GHS:3327 The Politics of Progress: NGOs, Development, and Sexuality 3 s.h.
How nonprofit sector increasingly plays a significant role in countering socioeconomic inequalities in the United States and global south; role of nonprofit organizations in relation to governmental policies of development, transnational funders, and ideas of sexual progress; critics of development institutions' arguments that western ideas of progress impose and adversely affect groups they claim to empower, yet also may foster struggles for social justice that go beyond development policy; examination of transnational nonprofit sector in relation to gender/sexuality and how it impacts women and gender/sexual minorities around the world. Recommendations: background in gender studies or social sciences. Same as GWSS:3326.

GHS:3420 Health and Healing in Early Modern Europe 3 s.h.
Health, healing, and medicine (1200-1700); transmission of medical knowledge from medieval Islam and ancient Greece; healers including physicians, midwives, surgeons, apothecaries, and ordinary people; epidemic disease; diet and the body; sex and reproduction; health in the colonial Atlantic world; healing and religion including prayer, magic, and witchcraft. Same as HIST:3420.

GHS:3500 Global Public Health 3 s.h.
Exploration of historical, current, and forecasted trends in global public health, the factors influencing health demographics in human populations, sources of health inequalities, and appropriate policy and intervention approaches for addressing global public health challenges. Same as CPH:3500.

GHS:3508 Disease and Health in Latin American History 3 s.h.
Survey of major topics in Latin American history in relation to development of medicine and public health. Same as HIST:3508, LAS:3508.

GHS:3520 Oral Histories of Health Care 3 s.h.
Oral histories capture individual lived experiences in relation to structures of law, language, society, and culture; students learn oral history methods and connect with members of the local community to conduct interviews that record their lived experiences of access to health care; these interviews may be archived in Special Collections and Archives at the University Libraries. Recommendations: some knowledge of Spanish is useful but not required. Same as LATS:3520.

GHS:3555 Understanding Health and Disease in Africa 3 s.h.
Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as HIST:3755, IS:3555.

GHS:3560 Global Garbage and Global Health 3 s.h.
Exploration of the fate of waste products as they are burnt, decomposed, landfilled, treated, recycled, reused, dumped on minority communities, or shipped abroad; definition of social and cultural aspects of garbage; students develop an understanding of the link between garbage, human health, and environmental health.

GHS:3570 Poverty Policy 3 s.h.
How poverty is regulated and addressed in the United States, and by federal, state, and local governments; particular focus on programs including Temporary Assistance for Needy Families (TANF), Section 8 housing, Medicaid, and Medicare; how these systems have changed over time; current models and innovations that have emerged in practice. Same as PBAF:3570, POLI:3570, SSW:3570.

GHS:3600 Development in a Global Context I: Preparing for an Internship in Health, Gender, and Environment 2 s.h.
Students work with a UI faculty mentor to articulate an international development project and apply to an international development organization for an internship; students are matched to an organization/project and begin preparation for their internship by communicating with onsite mentor/supervisor.

GHS:3660 Social Environmental Health Risks and Community Engagement 3 s.h.
Addresses central issues of global health such as health disparities, social determinants of health, and health equity across diverse populations through the lens of community and environmental health; examines ways in which individual risks posed by sociodemographic characteristics, housing structures, effects of adverse climatic conditions, disasters, and injuries at work are affected by marginalization and community engagement; formulate preliminary research questions and gather data on perceptions of community engagement with healthcare providers and researchers, developing research projects of their own and/or engaging in community outreach.

GHS:3700 Development in a Global Context II: Reflections on Real World Interventions 1 s.h.
Students produce a research paper analyzing their personal internship in an international development program.

GHS:3720 Contemporary Issues in Global Health 3 s.h.
Local and global dimensions of health and disease.

GHS:3732 Global Health Nursing 3 s.h.
Complexity of health and nursing in a global context; overview of biological, social, epigenetic, and environmental contributors to health and diseases in populations around the world and nursing's role in improving health; includes case studies of various global organizational and educational structures and systems relative to population health, selected infectious diseases, nutritional deficiencies, and health effects of environmental change. Same as NURS:3732.

GHS:3760 Hazards and Society 3 s.h.
Examination of the impact and societal responses to natural and technological hazards; using case studies from around the world, students explore relationships between extreme events, human behavior, disaster management, public policy, and technology to understand what makes people and places vulnerable to hazards. Same as SEES:3760.

GHS:3780 U.S. Energy Policy in Global Context 3 s.h.
Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as HIST:3240, POLI:3431, SEES:3780.

GHS:3850 Promoting Health Globally 3 s.h.
Major global health threats in the United States and abroad; impact of culture, history, economics on health disparities; approaches, programs, policies to remedy them. Same as HHP:3850.

GHS:4000 Global Health Studies Service Learning: Local Health is Global Health 4 s.h.
Service-learning projects with local community organizations; domestic opportunities which offer global health insights.

GHS:4001 Social Entrepreneurship and Global Health 3 s.h.
Fundamentals of social enterprise and innovative approaches to improving lives and communities combined with a Global Health Studies focus on social determinants of health; student teams apply their knowledge and skills to projects which support the global health mission of a community partner. Recommendations: one approved global health studies course.

GHS:4002 Working in Global Health 3 s.h.
Development of skills needed for careers in global health. Recommendations: junior or higher standing.

GHS:4003 Case Studies in Global Health Inequities 3 s.h.
Series of multidisciplinary case studies focusing on health issues and solutions locally and globally.

GHS:4100 Topics in Global Health 1-3 s.h.
Special topics related to global health studies.

GHS:4140 Feminist Activism and Global Health 3 s.h.
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101 or GWSS:1001 or CPH:1400 or GHS:2000. Same as ANTH:4140, CBH:4140, GWSS:4140.

GHS:4150 Health and Environment: GIS Applications 3 s.h.
Introduction to how geographic information systems (GIS) and spatial statistics are used in the study of patterns of health and disease in space and time. Same as IGPI:4150, SEES:4150.

GHS:4205 Culture, Language, and Health 3 s.h.
Exploration of health, wellness, and illness from a perspective of language and culture; languages we use to describe our mental and physical health that are situated within culture-specific ideas of human bodies, minds, disease, and wellness; understanding where beliefs about health and wellness come from and exploring other systems of belief on their own terms prepares students to be better informed health care practitioners, more aware patients within health care systems, and more sensitive caregivers in health related settings; emphasis on observation, asking questions, and analyzing health care worlds. Taught in Spanish. Requirements: two courses in Spanish numbered 3000 or above. Same as SPAN:4205.

GHS:4260 Global Water and Health 3 s.h.
Overview of global water and health; microbial and toxicant identification, water-related adverse health effects, risk assessment, approaches to reduce water-related disease, distal water-related influences (e.g., global warming), and historic cases. Same as OEH:4260.

GHS:4530 Global Road Safety 3 s.h.
Road safety problem, data sources, research methods used in field, and how intervention and prevention programs are developed and evaluated; lecture, hands-on approaches. Same as CPH:4220, OEH:4530.

GHS:4770 Environmental Justice 3 s.h.
Introduction to the field of environmental justice; understanding and addressing the processes that lead poor and marginalized communities to face a disproportionate degree of environmental risks and hazards. Same as AFAM:4770, SEES:4770.

GHS:4990 Independent Project in Global Health arr.
Independent work completed under the supervision of global health studies faculty.

GHS:4991 Honors Thesis in Global Health Studies 3 s.h.
Completion of honors thesis in consultation with a faculty mentor. Prerequisites: GHS:3010.

GHS:4992 Global Health Studies Honors Cohort 0 s.h.
Students complete all requirements for honors in the global health studies major; supervision by global health studies honors advisor. Corequisites: GHS:4991.

GHS:5000 Graduate Seminar in Global Health 2 s.h.
In-depth discussion and analysis of rotating topics pertinent to global health studies.

GHS:5455 Health Insurance and Managed Care 3 s.h.
History and theory of insurance, comparative health systems, health systems and networks, HMOs, public health insurance, care for uninsured; emphasis on public policy. Prerequisites: HMP:5005. Corequisites: PHAR:6330 or HMP:5410. Same as HMP:5450.

GHS:6550 Epidemiology of Infectious Diseases 3 s.h.
Underlying epidemiological concepts of infection disease, including causation and surveillance; prevention and control; case studies. Offered fall semesters. Prerequisites: EPID:4400. Same as EPID:6550.

GHS:7160 Global History of Race, Science, and Medicine 3 s.h.
Examination of the history of social construction of race in scientific and medical thought; use of science and medicine to conceptualize race, as well as how race was used by scientists and physicians in their practice; primary focus is on the Atlantic World—Europe, Africa, and the Americas—and touches briefly on the construction of race in other parts of the world. Same as HIST:7160.

Global Health Studies, BA

The Bachelor of Arts in global health studies prepares students for careers in local and international global health organizations, and for graduate and professional work in fields such as public health, law, planning and public affairs, social work, international development, sustainable agriculture, public policy, and more.

Learning Outcomes

The Global Health Studies Program equips its students to:

- apply interdisciplinary perspectives drawn from the social sciences and humanities to local and global health issues;
- understand core areas of global health such as infectious and non-communicable diseases, maternal and child health, food sovereignty, environmental health, disability studies, and health disparities;
- analyze health and disease from biomedical, sociocultural, and environmental perspectives;
- understand how health issues affect domestic and international communities;
- recognize the ethical and practical challenges involved in interventions designed to improve health and health equity across cultural and geographical boundaries.

Requirements

The Bachelor of Arts with a major in global health studies requires a minimum of 120 s.h., including at least 37 s.h. of coursework for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. A minimum of 18 s.h. of major coursework must be earned at the University of Iowa. A maximum of 6 s.h. in GHS:4990 Independent Project in Global Health may be used toward the major. Students must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22] requirements.

Students who earn the major in global health studies may earn the major in interdepartmental studies as long as they select an emphasis other than the global health emphasis in the health science track.

The BA with a major in global health studies requires the following coursework.

Requirements	Hours
Foundation Courses	7
Global Health Perspectives and Practices Electives	18
World Language and Culture Requirement	6
Inquiry Course	3
Experiential Learning Course	3

Foundation Courses

Course #	Title	Hours
Both of these:		
GHS:2000	Introduction to Global Health Studies	3
GHS:4003	Case Studies in Global Health Inequities	3
And one of these:		
GHS:3034	Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1
GHS:3035	Engaging in Global Health	1

Global Health Perspectives and Practices Electives

To provide an appreciation of the interdisciplinary nature of global health studies, students choose from a wide range of courses on topics that reflect the breadth of the field. Students must take a minimum of 18 s.h. of courses from the following lists to fulfill the global health perspectives and practices requirement, with at least 12 s.h. from courses numbered 3000 or above.

Courses taken to complete another area of the major cannot be used toward the global health perspectives and practices elective requirement.

Core Electives

Course #	Title	Hours
A minimum of 6 s.h. from these (if not taken to satisfy one of the other major requirements):		
GHS:1200	Disabilities and Inclusion in Writing and Film Around the World	3
GHS:2100	Foundations of Health Humanities	3
GHS:3010	Social Science Approaches to Global Health	3
GHS:3015	Transnational Sexualities	3
GHS:3036	Ethics, Policy, and Global Health	3
GHS:3037	Technology to Improve Global Health	3
GHS:3045	Spanish Health Narratives	3
GHS:3060	Studies in Complementary and Alternative Medicine	3
GHS:3105	Contraception Across Time and Cultures	3
GHS:3120	Global Maternal and Child Health	3
GHS:3230	Health Experience of Immigrants, Migrants, and Refugees	3
GHS:3325	Global Epidemics	3
GHS:3520	Oral Histories of Health Care	3
GHS:3560	Global Garbage and Global Health	3
GHS:3720	Contemporary Issues in Global Health	3
GHS:3850	Promoting Health Globally	3
GHS:4002	Working in Global Health	3
GHS:4205	Culture, Language, and Health	3

Additional Electives

Course #	Title	Hours
A minimum of 12 s.h. from these (if not taken to satisfy one of the other major requirements):		

Global health studies courses (prefix GHS) numbered 1000-4990, not including GHS:2000 or GHS:4003		
ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800/TR:1800	Aging Matters: Introduction to Gerontology	3
CPH:2200	Climageddon: Understanding Climate Change and Associated Impacts on Health	3
CPH:2230	Finding Patient Zero: The Exploration of Infectious Disease Transmission and Pandemic Threats	3
CPH:2400	The U.S. Health System in a Global Context	3
CPH:3400/ SEES:3250	Health, Work, and the Environment	3
CPH:4200	Agriculture, Food Systems, and Sustainability	3
ENGL:2560	Topics in Culture and Identity (when topic is stories about HIV/AIDS)	3
HIST:1016	The History That Made Our World (when topic is related to global health; consult advisor)	3
NURS:3655	Community and Public Health Nursing Practicum (BSN students only)	2
OEH:4240	Global Environmental Health	3

World Language and Culture Requirement

Students must choose one of the following options: option A or B. The semester hours necessary to complete this requirement will vary.

Option A

Students may complete a minimum of two world language courses beyond that required by the GE CLAS Core [p. 22]. This additional language requirement may be met either by completing at least two courses at a higher level in a language used to fulfill the GE CLAS Core World Languages requirement or by completing two courses, or the equivalent, of an additional world language at any level.

Option B

Students may complete 6 s.h. of World Culture coursework selected from the international studies Global Perspectives or World Cultures and Societies course tables; see Requirements [p. 702] in the BA in international studies section of the catalog. Courses taken to complete another area of the major cannot be used toward the World Culture requirement.

Inquiry Course

Students must take a minimum of 3 s.h. of courses from this list or from an approved study abroad course.

Course #	Title	Hours
One of these (if not taken to satisfy one of the other major requirements):		
GHS:2100	Foundations of Health Humanities	3
GHS:3010	Social Science Approaches to Global Health	3
In certain circumstances, an approved study abroad course (consult global health studies advisor)		3

Experiential Learning Course

The experiential learning requirement provides an opportunity for students to apply the knowledge and skills they learned in the classroom.

Course #	Title	Hours
A minimum of 3 s.h. from these (if not taken to satisfy one of the other major requirements):		
GHS:3012	Community-Based Global Health Research	3
GHS:3092	Spanish in the Community	3
GHS:3520	Oral Histories of Health Care	3
GHS:3660	Social Environmental Health Risks and Community Engagement	3
GHS:4000	Global Health Studies Service Learning: Local Health is Global Health	4
GHS:4001	Social Entrepreneurship and Global Health	3
GHS:4002	Working in Global Health	3
Approved study abroad coursework (consult global health studies advisor)		3

Honors

Honors in the Major

Students majoring in global health studies have the opportunity to graduate with honors in the major. Students who choose to graduate with honors in the major must satisfy these requirements:

- maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.33 in all work for the major;
- complete GHS:4991 Honors Thesis in Global Health Studies;
- enroll in GHS:4992 Global Health Studies Honors Cohort with the global health studies honors advisor during the semester in which GHS:4991 will be completed; and
- submit an acceptable honors thesis.

Students are also encouraged, but not required, to give an oral or poster presentation of research findings, participate in the Office of Undergraduate Research (OUR), and/or apply for research scholarships.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the global health studies major.

Career Advancement

The Global Health Studies Program engages students and faculty in real-world health problems and challenges students to embark on global health careers that prioritize improving health and achieving equity in health for people worldwide.

Graduates find opportunities in a range of global health job sectors such as:

- in-country field consulting;
- disaster relief organizations;
- immigrant/refugee health organizations;
- research and academic institutions;
- international agencies;
- other nongovernmental agencies (NGOs);
- lending agencies that work in developing countries;
- multilateral agencies (such as the World Health Organization); and
- governmental agencies (United States Agency for International Development, Center for Disease Control, in-country ministries of health, etc.).
