Global health studies graduates also have pursued graduate and professional degrees in medicine, dentistry, pharmacy, nursing, public health, law, nonprofit management, urban and regional planning, sustainable agriculture, international development, and public administration.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: at least six courses in the major.

Before the seventh semester begins: at least 12 courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two additional courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Global Health Studies, BA

Course	Title	Hours
Academic Career		
Any Semester		
The global health studies program connects students to experiential learning opportunities such as study abroad, internships, research, and service learning courses through which students develop real world skills related to major global health issues. [a]		
GE CLAS Core: Sustainability [b]		
Students completing honors in the global health studies major work with a faculty mentor to produce an honors thesis, and then present their research during the final year at a venue approved by the global health studies program.		
	Hours	**0**
First Year		
Fall		
GHS:2000	Introduction to Global Health Studies	3
GHS:3035 or GHS:3034	Engaging in Global Health [c] or Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1
RHET:1030 or ENGL:1200	Rhetoric: Writing and Communication or The Interpretation of Literature	3 - 4
GE CLAS Core: Understanding Cultural Perspectives [d]		3

Major: global health perspectives and practices elective course numbered 3000 or above [g]		3
GE CLAS Core: International and Global Issues [d]		3
Elective course [h]		3
Elective course [h]		3
Elective course [h]		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [j]		
	Hours	**15**
	Total Hours	**124-138**

a Students meet regularly with their academic advisor for help in identifying ethical activities which can be integrated into their individualized graduation plan.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

f Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

g See General Catalog for list of approved courses.

h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

i See General Catalog for details.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Global Health Studies, BS

The Bachelor of Science in global health studies is designed for students who desire to enter professional programs in the health sciences.

Learning Outcomes

The Global Health Studies Program equips its students to:

- apply interdisciplinary perspectives drawn from the social sciences and humanities to local and global health issues;
- understand core areas of global health such as infectious and non-communicable diseases, maternal and child health, food sovereignty, environmental health, disability studies, and health disparities;
- analyze health and disease from biomedical, sociocultural, and environmental perspectives;
- understand how health issues affect domestic and international communities;
- recognize the ethical and practical challenges involved in interventions designed to improve health and health equity across cultural and geographical boundaries.

Requirements

The Bachelor of Science with a major in global health studies requires a minimum of 120 s.h., including at least 47 s.h. of coursework for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. A minimum of 18 s.h. of major coursework must be earned at the University of Iowa. A maximum of 6 s.h. in GHS:4990 Independent Project in Global Health may be used toward the major. Students must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22] requirements.

Students who earn the major in global health studies may earn the major in interdepartmental studies as long as they select an emphasis other than the global health emphasis in the health science track.

The BS with a major in global health studies requires the following coursework.

Requirements	Hours
Foundation Courses	7
Global Health Perspectives and Practices Electives	18
World Language and Culture Requirement	6
Inquiry Course	3
Experiential Learning Course	3
Natural Sciences Courses	7-8
Mathematics and Statistics Course	3-4

Foundation Courses

Course #	Title	Hours
Both of these:		
GHS:2000	Introduction to Global Health Studies	3
GHS:4003	Case Studies in Global Health Inequities	3
And one of these:		
GHS:3034	Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1
GHS:3035	Engaging in Global Health	1

Global Health Perspectives and Practices Electives

To provide an appreciation of the interdisciplinary nature of global health studies, students choose from a wide range of courses on topics that reflect the breadth of the field. Students must take a minimum of 18 s.h. of courses from the following lists to fulfill the global health perspectives and practices requirement, with at least 12 s.h. from courses numbered 3000 or above.

Courses taken to complete another area of the major cannot be used toward the global health perspectives and practices elective requirement.

Core Electives

Course #	Title	Hours
A minimum of 6 s.h. from these (if not taken to satisfy one of the other major requirements):		
GHS:1200	Disabilities and Inclusion in Writing and Film Around the World	3
GHS:2100	Foundations of Health Humanities	3
GHS:2164	Culture and Healing: An Introduction to Medical Anthropology	3
GHS:2320	Origins of Human Infectious Disease	3
GHS:2415	Bioethics	3
GHS:3010	Social Science Approaches to Global Health	3
GHS:3015	Transnational Sexualities	3
GHS:3036	Ethics, Policy, and Global Health	3
GHS:3037	Technology to Improve Global Health	3
GHS:3045	Spanish Health Narratives	3
GHS:3060	Studies in Complementary and Alternative Medicine	3
GHS:3105	Contraception Across Time and Cultures	3
GHS:3120	Global Maternal and Child Health	3
GHS:3230	Health Experience of Immigrants, Migrants, and Refugees	3
GHS:3325	Global Epidemics	3
GHS:3520	Oral Histories of Health Care	3
GHS:3560	Global Garbage and Global Health	3
GHS:3720	Contemporary Issues in Global Health	3
GHS:3850	Promoting Health Globally	3
GHS:4002	Working in Global Health	3
GHS:4150	Health and Environment: GIS Applications	3

GHS:4205	Culture, Language, and Health	3
GHS:4260	Global Water and Health	3

Additional Electives

Course #	Title	Hours
A minimum of 12 s.h. from these (if not taken to satisfy one of the other major requirements):		
Global health studies courses (prefix GHS) numbered 1000-4990, not including GHS:2000 or GHS:4003		
ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800/TR:1800	Aging Matters: Introduction to Gerontology	3
CPH:2200	Climageddon: Understanding Climate Change and Associated Impacts on Health	3
CPH:2230	Finding Patient Zero: The Exploration of Infectious Disease Transmission and Pandemic Threats	3
CPH:2400	The U.S. Health System in a Global Context	3
CPH:3400/ SEES:3250	Health, Work, and the Environment	3
CPH:4200	Agriculture, Food Systems, and Sustainability	3
ENGL:2560	Topics in Culture and Identity (when topic is stories about HIV/AIDS)	3
HIST:1016	The History That Made Our World (when topic is related to global health; consult advisor)	3
NURS:3655	Community and Public Health Nursing Practicum (BSN students only)	2
OEH:4240	Global Environmental Health	3

World Language and Culture Requirement

Students must choose one of the following options: option A or B. The semester hours necessary to complete this requirement will vary.

Option A

Students may complete a minimum of two world language courses beyond that required by the GE CLAS Core [p. 22]. This additional language requirement may be met either by completing at least two courses at a higher level in a language used to fulfill the GE CLAS Core World Languages requirement or by completing two courses, or the equivalent, of an additional world language at any level.

Option B

Students may complete 6 s.h. of World Culture coursework selected from the international studies Global Perspectives or World Cultures and Societies course tables; see Requirements [p. 702] in the BA in international studies section of the catalog. Courses taken to complete another area of the major cannot be used toward the World Culture requirement.

Inquiry Course

Students must take a minimum of 3 s.h. of courses from this list or from an approved study abroad course.

Course #	Title	Hours
One of these (if not taken to satisfy one of the other major requirements):		
GHS:2100	Foundations of Health Humanities	3
GHS:3010	Social Science Approaches to Global Health	3
In certain circumstances, an approved study abroad course (consult global health studies advisor)		3

Experiential Learning Course

The experiential learning requirement provides an opportunity for students to apply the knowledge and skills they learned in the classroom.

Course #	Title	Hours
A minimum of 3 s.h. from these (if not taken to satisfy one of the other major requirements):		
GHS:3012	Community-Based Global Health Research	3
GHS:3092	Spanish in the Community	3
GHS:3520	Oral Histories of Health Care	3
GHS:3660	Social Environmental Health Risks and Community Engagement	3
GHS:4000	Global Health Studies Service Learning: Local Health is Global Health	4
GHS:4001	Social Entrepreneurship and Global Health	3
GHS:4002	Working in Global Health	3
Approved study abroad coursework (consult global health studies advisor)		3

Natural Sciences Courses

The natural sciences courses taken for the major can also be used to fulfill the GE CLAS Core [p. 22] natural sciences requirement. Students should consult with their advisor concerning specific courses that satisfy these requirements.

Course #	Title	Hours
A minimum of one of the sequences, with at least one lab, from these:		
Chemistry		
CHEM:1110 & CHEM:1120	Principles of Chemistry I and Principles of Chemistry II	8
Chemistry and Biology		
CHEM:1070 & BIOL:1141	General Chemistry I and Human Biology: Health Professions	7
CHEM:1110 & BIOL:1141	Principles of Chemistry I and Human Biology: Health Professions	8
CHEM:1110 & BIOL:1411	Principles of Chemistry I and Foundations of Biology	8

CHEM:1110 & BIOL:1412	Principles of Chemistry I and Diversity of Form and Function	8
Chemistry and Physics		
CHEM:1070 & PHYS:1400	General Chemistry I and Basic Physics	7
CHEM:1110 & PHYS:1511	Principles of Chemistry I and College Physics I	8
Health and Human Physiology		
HHP:2100 & HHP:2400	Human Anatomy and Fundamentals of Human Physiology (must complete either HHP:2110 or HHP:2410 to satisfy lab requirement)	7
Physics		
PHYS:1511 & PHYS:1512	College Physics I and College Physics II	8

Mathematics and Statistics Course

Students must complete at least one calculus or statistics course. In some cases, students may also need to complete a precalculus course, depending on their math placement.

The mathematics and statistics course requirement can be used to fulfill the GE CLAS Core [p. 22] requirement. Students should consult with their advisor concerning specific courses that satisfy these requirements.

Course #	Title	Hours
One of these:		
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Calculus I	4
MATH:1850	Calculus I	4
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
Any higher-level statistics course (consult advisor)		3-4

Honors

Honors in the Major

Students majoring in global health studies have the opportunity to graduate with honors in the major. Students who choose to graduate with honors in the major must satisfy these requirements:

- maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.33 in all work for the major;
- complete GHS:4991 Honors Thesis in Global Health Studies;
- enroll in GHS:4992 Global Health Studies Honors Cohort with the global health studies honors advisor during the semester in which GHS:4991 will be completed; and
- submit an acceptable honors thesis.

Students are also encouraged, but not required, to give an oral or poster presentation of research findings, participate in the Office of Undergraduate Research (OUR), and/or apply for research scholarships.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the global health studies major.

Career Advancement

The Global Health Studies Program engages students and faculty in real-world health problems and challenges students to embark on global health careers that prioritize improving health and achieving equity in health for people worldwide.

Graduates find opportunities in a range of global health job sectors such as:

- in-country field consulting;
- disaster relief organizations;
- immigrant/refugee health organizations;
- research and academic institutions;
- international agencies;
- other nongovernmental agencies (NGOs);
- lending agencies that work in developing countries;
- multilateral agencies (such as the World Health Organization); and
- governmental agencies (United States Agency for International Development, Center for Disease Control, in-country ministries of health, etc.).

Global health studies graduates have also pursued graduate and professional programs in medicine, dentistry, pharmacy, nursing, public health, law, nonprofit management, urban and regional planning, sustainable agriculture, international development, and public administration.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: at least six courses in the major.

Before the seventh semester begins: at least 12 courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two additional courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and

should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [n]	
Hours	**15**
Total Hours	**126-140**

a Students meet regularly with their academic advisor for help in identifying ethical activities which can be integrated into their individualized graduation plan.
b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.
c Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.
f Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
g See General Catalog for list of approved courses.
h Enrollment in chemistry courses requires completion of a placement exam.
i Fulfills a major requirement and may fulfill a GE requirement.
j Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.
k Choose from MATH:1440, MATH:1460, MATH:1550, MATH:1850, STAT:1020.
l Enrollment in math courses requires completion of a placement exam.
m See General Catalog for details.
n Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Global Health Studies, Minor

Requirements

The undergraduate minor in global health studies requires a minimum of 15 s.h., including 12 s.h. in courses completed at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor in global health studies is interdisciplinary and designed for students who wish to study the complex factors influencing health and disease locally and around the world. The minor equips students to apply interdisciplinary perspectives drawn from the social sciences and humanities to local and global health issues; analyze health and disease from biomedical, sociocultural, and environmental perspectives; understand how health issues affect domestic and international communities; and recognize the ethical challenges involved in interventions designed to improve health and health equity across cultural and geographical boundaries.

The minor in global health studies requires the following coursework.

Course #	Title	Hours
One of these:		
GHS:2000	Introduction to Global Health Studies	3
GHS:3850	Promoting Health Globally	3
One of these:		
GHS:3720	Contemporary Issues in Global Health	3
GHS:4003	Case Studies in Global Health Inequities	3
6 s.h. from these:		
GHS:1200	Disabilities and Inclusion in Writing and Film Around the World	3
GHS:2000	Introduction to Global Health Studies (if not taken for the previous requirement)	3
GHS:2100	Foundations of Health Humanities	3
GHS:3010	Social Science Approaches to Global Health	3
GHS:3012	Community-Based Global Health Research	3
GHS:3034	Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1
GHS:3035	Engaging in Global Health	1
GHS:3036	Ethics, Policy, and Global Health	3
GHS:3037	Technology to Improve Global Health	3
GHS:3060	Studies in Complementary and Alternative Medicine	3
GHS:3105	Contraception Across Time and Cultures	3
GHS:3120	Global Maternal and Child Health	3
GHS:3230	Health Experience of Immigrants, Migrants, and Refugees	3
GHS:3325	Global Epidemics	3
GHS:3520	Oral Histories of Health Care	3
GHS:3560	Global Garbage and Global Health	3
GHS:3660	Social Environmental Health Risks and Community Engagement (if not taken as a subtopic under GHS:3012)	3
GHS:3720	Contemporary Issues in Global Health (if not taken for the previous requirement)	3
GHS:3850	Promoting Health Globally (if not taken for the previous requirement)	3
GHS:4001	Social Entrepreneurship and Global Health	3
GHS:4002	Working in Global Health	3
GHS:4003	Case Studies in Global Health Inequities (if not taken for the previous requirement)	3
One of these:		
Global Health Perspectives and Practices Elective(s) if not used for another minor requirement; see BA or BS in global health studies for approved list		3
Approved global health-themed study abroad coursework (consult global health studies advisor)		3

Global Health Studies, Graduate Certificate

Requirements

The graduate Certificate in Global Health Studies requires 18 s.h. of study. Students must earn at least 12 s.h. of credit for the certificate in courses numbered 3000 or above taken at the University of Iowa. Students must maintain a minimum grade-point average of 2.50 or higher in the 18 s.h. coursework required for the certificate.

The certificate is open to University of Iowa graduate and professional students. Students who wish to declare the global health studies certificate must contact the global health studies faculty advisor. Global health studies staff will see to it that the certificate is added to a student's program of study.

Work for the certificate includes required courses, electives, a global health project that culminates in a public presentation and written report, and the study of a world language. A maximum of 4 s.h. in GHS:4990 Independent Project in Global Health may be used toward the certificate. Students may choose courses offered by the Global Health Studies Program (prefix GHS) or associated courses offered by other departments and programs (see "Associated Courses" under Courses [p. 487] in this section of the catalog).

Graduate and professional students who would like to count credit from a degree program toward the global health studies certificate should consult their graduate/professional academic programs.

The certificate program is interdisciplinary, and requires students to complete a global health project (either in an international setting or in a domestic setting that focuses on global connections) during which they address an important global health issue in a systematic way. Students then present their results and report on the completed project. The program helps prepare students for careers in global health.

The Certificate in Global Health Studies requires the following work.

Required Courses

Course #	Title	Hours
All of these:		
GHS:3010	Social Science Approaches to Global Health	3
GHS:3720	Contemporary Issues in Global Health	3
GHS:3850	Promoting Health Globally	3
GHS:4990	Independent Project in Global Health (maximum of 4 s.h. may count toward the certificate)	1
One of these:		
GHS:4002	Working in Global Health	3
GHS:4003	Case Studies in Global Health Inequities	3
One of these:		
GHS:3011	Global Research: Strategies and Skills	1
GHS:3030	Global Health Today	1
GHS:3034	Doing Harm by Doing Good: The Ethics of Studying, Volunteering, and Working in Global Communities	1
GHS:3035	Engaging in Global Health	1

Electives

Students complete 4 s.h. of approved electives chosen from the course lists under Courses [p. 487] in the Global Health Studies section of the catalog. They may petition to use other courses as electives if they can demonstrate that the courses include substantial material related to global health. Contact the Global Health Studies Program for details.

Global Health Project

Students must complete a global health project during which they systematically address an important global health issue. The project can be completed either in an international setting or in a domestic setting that focuses on global connections. Eight weeks is considered the optimal amount of time to meet this requirement. The project may be completed as part of a study abroad program, a service learning course, an internship, a volunteer experience, or an independent research project.

Projects require approval by the Global Health Studies Program faculty director and must be supervised by an approved UI faculty mentor. Students may apply for a Stanley Award; other financial support may be available for some projects. Visit Global Health Project on the program's website for more information.

Language Study

Students must either demonstrate fourth-semester-level language proficiency or complete the GE CLAS Core [p. 22] World Languages requirement through any of the available pathways.

The Global Health Studies Program steering committee may advise students to take additional language study in preparation for a research or internship program. Students interested in learning an infrequently taught language to facilitate their participation in a global health project can contact the Center for Language and Culture Learning in the Department of Languages, Linguistics, Literatures, and Cultures.

Public Presentation and Report

Certificate requirements culminate in a public presentation and report. Students present the results of their global health project in GHS:3010 Social Science Approaches to Global Health or in an equivalent public forum. Students must also submit a 10–12 page report that summarizes their global health project. Students enroll in GHS:4990 Independent Project in Global Health for 1 s.h. during the semester in which they are completing their report and presentation.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Global Health Studies, Graduate Certificate

Course	Title	Hours
First Year		
Fall		
GHS:3850	Promoting Health Globally	3
Global Health Studies elective [a]		1 - 3
	Hours	**4-6**
Spring		
GHS:3720	Contemporary Issues in Global Health	3
	Hours	**3**
Second Year		
Fall		
GHS:3010	Social Science Approaches to Global Health [b]	3
Global Health Studies course [c]		1
	Hours	**4**
Spring		
GHS:4003 or GHS:4002	Case Studies in Global Health Inequities or Working in Global Health	3
Apply for a Stanley Award for International Research (optional, not required to earn the certificate)		
	Hours	**3**
Summer		
Complete an approved global health project [d, e]		
	Hours	**0**
Third Year		
Fall		
GHS:4990	Independent Project in Global Health	1
Complete a report and presentation on the approved global health project [d]		
	Hours	**1**
Spring		
Global Health Studies elective (if needed to reach a minimum of 4 s.h. of GHS electives) [a]		1 - 3
	Hours	**1-3**
	Total Hours	**16-20**

a Students complete 4 s.h. of approved electives. See the General Catalog for a list of approved courses.

b GHS:3010 can be taken earlier in the plan to prepare for the global health project; meet with the GHS academic advisor to create an individualized plan of study.

c Choose from GHS:3011, GHS:3030, GHS:3034, GHS:3035.

d See the Global Health Studies program website for details.

e The global health project may be completed during any session after GHS:3010 and before the student's final session; it can be local or international. Meet with the GHS academic advisor to create an individualized plan of study.

Health, Sport, and Human Physiology

Chair

- Gary L. Pierce

Undergraduate majors: health studies (BA); exercise science (BS); health promotion (BS); human physiology (BS); sport and recreation management (BS); therapeutic recreation (BS)

Undergraduate minors: human physiology; inclusive recreation; lifestyle medicine; sport and recreation management

Undergraduate certificate: interscholastic athletic/activities administration, disability studies

Graduate degrees: MA in sport and recreation management; MS in health and human physiology; PhD in health and human physiology

Faculty: https://hshp.uiowa.edu/people

Website: https://hshp.uiowa.edu/

The Department of Health, Sport, and Human Physiology offers undergraduate majors, minors, and a certificate, and graduate degree programs in health and human physiology and in sport and recreation management. The department administers the Certificate in Disability Studies and collaborates with other departments to offer the Certificate in Event Management, as well as offering coaching authorization courses. In addition, the department is home to the Health and Physical Activity Skills Program (HPAS), which offers courses that provide instruction and practice in lifetime sports, fitness training, and wellness activities aimed at enhancing physical health and well-being.

Undergraduates in all majors may use several health, sport, and human physiology courses to fulfill the requirements of the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. The department's First-Year Seminar is designed for entering undergraduate students.

Certificates

Disability Studies

The Department of Health, Sport, and Human Physiology administers the undergraduate certificate program in disability studies. Disability studies examines disability as a social, cultural, historical, and political phenomenon rather than focusing on its clinical, medical, or therapeutic aspects. It is an interdisciplinary field that draws on scholarship from diverse disciplines. The certificate program helps students expand their knowledge and awareness of disability issues and prepare for careers in public life. See the Certificate in Disability Studies [p. 361] in the catalog.

Event Management

The departments of Health, Sport, and Human Physiology and Communication Studies, the School of Journalism and Mass Communication (College of Liberal Arts and Sciences), and the Department of Marketing (Tippie College of Business) collaborate to offer the undergraduate Certificate in Event Management. Students who earn the certificate will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event management and careers in the event management industry. The School of Journalism and Mass Communication administers the certificate. For information, see the Certificate in Event Management [p. 466] in the catalog.

Programs

Undergraduate Programs of Study

Majors

- Major in Health Studies (Bachelor of Arts) [p. 519]
- Major in Exercise Science (Bachelor of Science) [p. 522]
- Major in Health Promotion (Bachelor of Science) [p. 525]
- Major in Human Physiology (Bachelor of Science) [p. 528]
- Major in Sport and Recreation Management (Bachelor of Science) [p. 532]
- Major in Therapeutic Recreation (Bachelor of Science) [p. 540]

Minors

- Minor in Human Physiology [p. 546]
- Minor in Inclusive Recreation [p. 547]
- Minor in Lifestyle Medicine [p. 548]
- Minor in Sport and Recreation Management [p. 549]

Certificate

- Certificate in Interscholastic Athletic/Activities Administration [p. 551]

Graduate Programs of Study

- Master of Arts in Sport and Recreation Management [p. 552]
- Master of Science in Health and Human Physiology [p. 554]
- Doctor of Philosophy in Health and Human Physiology [p. 559]

Facilities

Classroom and research laboratories are located in the Field House, Iowa Bioscience Innovation Facility and other buildings on campus. They provide excellent facilities for instruction and research at both the undergraduate and graduate levels.

Cooperative efforts with other units facilitate specialization by allowing Department of Health, Sport, and Human Physiology students to use additional special facilities and research equipment in other departments on campus (e.g., biology, biochemistry and molecular biology, molecular physiology and biophysics, orthopedic surgery, internal medicine, pharmacology, and the College of Engineering).

Courses

- Health and Human Physiology Courses [p. 506]
- Sport and Recreation Management Courses [p. 512]
- Therapeutic Recreation Courses [p. 515]
- Health and Physical Activity Skills Courses [p. 517]

Health and Human Physiology Courses

HHP:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

HHP:1045 Diversity and Inclusion in Healthy Living 3 s.h.
Personal health strategies; information and empowerment; application-based work, including creating a family health pedigree or individual health portfolio; discussion of current health ethics topics; subjects may include nutrition, sleep, stress, physical fitness, relationships, injury prevention, prenatal health, vaccination, cancer, infectious diseases, global health, and more. GE: Understanding Cultural Perspectives.

HHP:1050 Exploring Health and Human Physiology 1 s.h.
An onboarding experience for future (or potential) health and human physiology students; introduces and discusses skills critical for future success in college and beyond.

HHP:1200 First Aid/CPR Athletic Training 2 s.h.
First Aid and CPR with automated external defibrillator (AED); opportunity for certification in basic life support through the American Heart Association; satisfies the first aid and CPR requirement for the athletic training program application; for declared athletic training interest majors. Requirements: completion of or current enrollment in AT:1010.

HHP:1400 Human Anatomy and Physiology 3 s.h.
Introductory human anatomy and physiology; overview of the structures and functions of most organ systems of the body, including the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, respiratory, digestive, urinary, and reproductive systems; how multiple organ systems work together to maintain health; health-related information literacy and communication skills related to human function. GE: Natural Sciences without Lab.

HHP:2020 Developing Your Professional Brand 2 s.h.
Development and preparation for professional growth; focus on image as a brand; how to manage brand on social media, LinkedIn, and professional documentation; expansion of brand; preparation for experiential learning and job searching. Corequisites: HHP:2200.

HHP:2061 Recreation Leadership and Programming 3 s.h.
Leadership principles, techniques; programming techniques. Same as TR:2061.

HHP:2100 Human Anatomy 3 s.h.
Intermediate human anatomy; anatomical language and the organ systems of the body.

HHP:2110 Human Anatomy Laboratory 1 s.h.
All major systems of the human body, understood through computer-generated images, models, histological slides, anatomical specimens. Corequisites: HHP:1100 or HHP:3105 or HHP:1400, if not taken as a prerequisite. GE: Natural Sciences Lab only.

HHP:2130 Human Development Through the Life Span 3 s.h.
Overview of human developmental theories across the lifespan; aspects of cognitive, physical, social, and emotional development from birth to death; the role of culture, environment, health, and economic factors over the developmental process and life continuum.

HHP:2148 Personal Training 3 s.h.
Essential aspects of personal training including theory and applied practice of screening, assessment, exercise prescription, and technique for development of safe and effective training programs for clients. Prerequisites: HHP:2400 and HHP:2200.

HHP:2200 Physical Activity and Health 3 s.h.
Physical activity determinants in society; school, workplace, community-based health promotion interventions to improve activity levels.

HHP:2280 Cultural Competency and Health 3 s.h.
Learn the cultural competency awareness, knowledge, and skills vital to effectively delivering healthcare services that meet the social, cultural, and linguistic needs of patients; address the disparities that people of culturally diverse backgrounds often experience, and influence patient outcomes. GE: Understanding Cultural Perspectives.

HHP:2310 Nutrition and Health 3 s.h.
Physiology, biochemistry of human nutrition; appropriate food sources; qualitative and quantitative evaluation of diets using standard references. GE: Natural Sciences without Lab.

HHP:2350 Biomechanics of Sport and Physical Activity 3 s.h.
Learn how to apply principles of biomechanics and musculoskeletal anatomy to better understand movement for the purpose of injury prevention, fitness, and performance. Prerequisites: HHP:2100.

HHP:2400 Fundamentals of Human Physiology 3 s.h.
Introduction to function and regulation of the human body. Recommendations: high school chemistry and basic biology.

HHP:2410 Human Physiology Laboratory 1 s.h.
Laboratory course illustrating principles of physiological principles through experimental measurements, practical assessments, and computer-based illustrations of human function. Corequisites: HHP:2400 or HHP:3500 or HHP:1400, if not taken as a prerequisite. Recommendations: one semester of biology.

HHP:3030 Lifestyle Medicine 3 s.h.
Overview of influences of lifestyle medicine on chronic disease treatment and prevention; understanding evidence-based lifestyle medicine factors on holistic well-being; development of communication skills to support behavioral and lifestyle medicine changes for treatment and prevention of chronic conditions. Prerequisites: HHP:2200 and HHP:2310.

HHP:3045 Physical Activity Psychology 3 s.h.
Application of psychological principles to the adoption and maintenance of physical activity as well as the psychological effects of physical activity. Prerequisites: HHP:2200.

HHP:3050 Obesity 3 s.h.
A broad overview of the causes and consequences of the obesity epidemic; evidence-based approaches for preventing and treating obesity. Prerequisites: HHP:2200 and HHP:2310.

HHP:3105 Anatomy for Human Physiology 3 s.h.
All major systems of the body are covered with focus on the normal structure of the human body; appropriate for preprofessional students planning on careers in the various health professions.

HHP:3110 Advanced Anatomy Laboratory 2 s.h.
Detailed gross anatomy of all major systems of the body; structure of the human body at organ, tissue, and cellular levels; examination of various human and other mammalian specimens.

HHP:3115 Anatomy for Human Physiology With Lab 5 s.h.
Covers all major systems of the body in a combined lecture and laboratory anatomy course; focus on normal structure of the human body; laboratory includes gross anatomy of some human structures and dissection of other mammalian specimen; appropriate for preprofessional students planning on careers in various health professions. Prerequisites: BIOL:1411.

HHP:3150 Program Design in Strength and Conditioning 3 s.h.
Examination of elements of program design for developing muscular fitness and skill related to fitness; applies to programming for individuals with whom a major goal of their physical activity program is to maximize human performance potential; these goals can either be for personal fitness, success in specific sports, or for applications in occupational athletes.

HHP:3175 Physical Activity and Recreation for Aging Populations 3 s.h.
Provides an overview of physical, social, and psychological aspects of aging and how these changes relate to designing exercise programs and leisure opportunities to improve the quality of life for older adults. Prerequisites: TR:2160 or HHP:2200. Same as ASP:3175, TR:3175.

HHP:3200 Health Behavior and Health Promotion 3 s.h.
Principles of epidemiology and health behavior theories applied to multilevel frameworks for health promotion. Prerequisites: HHP:2200 and HHP:2310.

HHP:3250 Motor Learning 3 s.h.
Explore how humans acquire and refine movement skills; examine the cognitive, behavioral, and environmental factors that influence motor skill development and performance in both health and disease. Corequisites: HHP:2100 or HHP:3115 or HHP:2400 or HHP:3550.

HHP:3261 Inclusive Recreation 3 s.h.
Introduction to inclusive recreation topics. Focus on offering recreation programs and services for individuals of all abilities and backgrounds. Same as TR:3261.

HHP:3300 Human Growth and Motor Development 3 s.h.
Growth, maturation, and development of the human body and its various tissues from conception through infancy, childhood, and adolescence; topics include the biological maturation of systems important for physical activity (nervous, musculoskeletal, cardiopulmonary systems) as well as the effects of genes and the endocrine system on growth and development. Recommendations: prior course in anatomy, human physiology, or biology.

HHP:3361 Animal-Assisted Interventions in the Helping Professions 3 s.h.
Explore the principles and practices of Animal-Assisted Interventions (AAIs); provide a comprehensive understanding of the theoretical foundations, ethical considerations, and practical applications of incorporating animals into therapeutic settings. Students will gain insight into how animals can enhance therapeutic experiences, promote well-being, and contribute to the overall effectiveness of programs and services. Overviews diverse populations and settings, emphasizing the role of animals as cofacilitators in promoting therapeutic outcomes within helping professions. Same as TR:3300.

HHP:3400 Applied Exercise Physiology 3 s.h.
Effects of acute exercise and chronic exercise training on different physiological systems (energy, neuromuscular, circulatory, respiratory, endocrine); overview of physiological principles necessary for more advanced study of fitness evaluation and exercise prescription; preparation for ACSM certification. Prerequisites: HHP:2200 and (HHP:2400 or HHP:3500).

HHP:3410 Applied Exercise Physiology With Lab 4 s.h.
Effects of acute exercise and chronic exercise training on different physiological systems (energy, neuromuscular, circulatory, respiratory, endocrine); overview of physiological principles and lab activities necessary for more advanced study of fitness evaluation and exercise prescription; preparation for American College of Sports Medicine certification. Prerequisites: HHP:2200 and HHP:2400.

HHP:3420 Practicum in Health Education and Outreach 3 s.h.
Coursework and experiential learning with the Office of Student Wellness; practical experience in planning, implementing, and evaluating health programs; students spend at least 20 hours assisting with health outreach events, programs, and opportunities which may include staffing a table, assisting with group fitness assessments, or participating in health promotion-related opportunities; students also work on a team health project and plan their own health event; reflection on how health issues apply to students personally and to their communities; foundation of theories/models that guide health behavior change in college setting; papers, projects, outreach events, presentations. Prerequisites: HHP:2310 and HHP:2200.

HHP:3430 Health Management and Administration 3 s.h.
Introduction to management, administration, and leadership principles as they relate to health promotion programs. Prerequisites: HHP:2200 and HHP:2310.

HHP:3450 Immunology in Health and Disease 3 s.h.
Overview of immunology, beginning at the molecular level and ending with the role of the immune system in disease; fundamental concepts of the immune system; innate and adaptive immunity, focusing on cell-mediated and humoral immune responses, in addition to effector mechanisms in both of these responses; concepts of immunologic tolerance; autoimmune disease; immunodeficiency syndromes; the inflammatory process in disease. Prerequisites: HHP:3500 or HHP:3550.

HHP:3500 Human Physiology 3 s.h.
Organ system approach to physiology in order to understand normal function of the human body from the submolecular and cellular levels to the whole organism; emphasis on the development of a mechanistic understanding of organ system function and integrated physiological function across systems to promote homeostatic regulation in the human body. Prerequisites: (HHP:2400 or BIOL:1141 or BIOL:1140 or BIOL:1411) and (CHEM:1070 or CHEM:1110).

HHP:3550 Human Physiology With Laboratory 5 s.h.
Mechanistic approach to understand organ system function and integrated function across systems as the basis for homeostatic regulation within the human body; laboratory activities that incorporate fundamental measurements of human function and analysis, interpretation, and presentation of experimental findings. Prerequisites: (HHP:2400 or BIOL:1141 or BIOL:1140 or BIOL:1411) and (CHEM:1070 or CHEM:1110). Recommendations: HHP:1050, one semester of human anatomy, and one semester of statistics or biostatistics.

HHP:3555 Lab for Human Physiology 2 s.h.
Experiential laboratory activities that incorporate fundamental measurements of human function and analysis, interpretation, and presentation of experimental findings. Prerequisites: HHP:3500. Recommendations: one semester of statistics or biostatistics.

HHP:3700 Health Care Communications 1 s.h.
Health care provider communication with patients and other health care workers; students communicate with digital patient(s) within a software platform to establish a patient history and relevant documentation.

HHP:3820 Community Wellness Guided Practicum arr.
Application of theory into practice to support personal and professional skill development; students work to deliver wellness programming, develop, implement, and evaluate behavior change interventions for various populations, deliver education; utilize skills in marketing, design, presentation, and cultivating connections. Prerequisites: HHP:2200 and HHP:2310 and (HHP:2100 or HHP:2400 or HHP:1400).

HHP:3850 Promoting Health Globally 3 s.h.
Major global health threats in the United States and abroad; impact of culture, history, economics on health disparities; approaches, programs, policies to remedy them. Same as GHS:3850.

HHP:3900 Writing for Health and Human Physiology 3 s.h.
Effective written and oral communications specific to careers in the health sciences; projects include cover letters, resumes, personal statements, and writing/presenting scientific information for both general and expert audiences; planning, drafting, revising, editing, and peer-review of materials.

HHP:3930 Practicum in Health and Human Physiology 1-3 s.h.
Practicum experience that consists of shadowing and practicing field specific skills under close supervision of a professional at the organization, subject matter expert, or faculty member in the areas of research, fitness, strength and conditioning, nutrition, clinical rehabilitation, health promotion, health education, community outreach, medical training, or other health-related area; students receive regular feedback, overall performance evaluations, and meet learning objectives for practicum experience that align with professional competencies and/or academic preparation.

HHP:3994 Undergraduate Research 1-3 s.h.
Exposure to laboratory research in health, human physiology, or related science fields; students develop research skills in a supervised research setting.

HHP:4010 Behavioral and Clinical Health Assessment Laboratory 4 s.h.
Learn and practice specific health assessment skills, including the ability to assess and interpret blood pressure, lung function, blood lipids, and heart rate; health behavior measurement issues including how to use objective monitors, self-reports, interviews, and web-based trackers to assess diet, physical activity, and sleep; general measurement and research concepts introduced and students have laboratory practice in sphygmomanometry, spirometry, anthropometry, accelerometry, sleep tracking, computerized dietary assessments, biochemical measures, and exercise testing. Prerequisites: HHP:2200 and HHP:2310 and HHP:2100 and HHP:2400.

HHP:4020 Health Coaching 3 s.h.
Learn, practice, and demonstrate evidence-based, patient-centered skills and processes for helping patients achieve their self-determined health and wellness goals. One of two courses required for the National Board of Health and Wellness Coaching (NBHWC) health coaching pathway. Prerequisites: HHP:2200 and HHP:2310.

HHP:4030 Social Determinants of Health 3 s.h.
Explore how social and economic factors determine opportunities, resources, and health; use of Healthy People 2030 to consider how federal, state, and local-level partners can create opportunities to understand and improve social determinants of health. Prerequisites: HHP:2200 and HHP:2310.

HHP:4040 Health Services 3 s.h.
Barriers to quality health care access (e.g., lack of availability, high costs, lack of insurance coverage, health disparities); consequences of such barriers (e.g., unmet health needs, delays in care, lack of preventive services, preventable hospitalization); innovative solutions for improving access and quality of care (e.g., technologies and innovations, improving access to preventive health services, reducing costs); novel ways to improve access and quality of today's health care system. Prerequisites: HHP:2200 and HHP:2310.

HHP:4110 Advanced Human Anatomy Laboratory 4 s.h.
Regional dissection of the human body. Prerequisites: HHP:3110 or HHP:3115.

HHP:4130 Skeletal Muscle Physiology 3 s.h.
Investigation of the role of skeletal muscle in health and disease; skeletal muscle structure, contractile mechanisms, production of movement, energetics, adaptation to increased use and exercise, disuse, injury, pathologies, and therapeutic strategies. Prerequisites: HHP:3500 or HHP:3550.

HHP:4150 Clinical Exercise Physiology 3 s.h.
Recent advances in exercise physiology for clinical populations; emphasis on acute and chronic responses to exercise in healthy aged adults and in patients with cardiac, vascular, pulmonary, and metabolic diseases; basic and intermediate electrocardiography (ECG), pathophysiology of disease process, clinical assessment of disease severity, diagnostic testing, acute exercise responses, and exercise rehabilitation. Prerequisites: HHP:3500 or HHP:3550 or HHP:3400. Recommendations: HHP:4460.

HHP:4190 Scientific Basis of Training for Elite Performance 3 s.h.
Application of scientific principles to goal of improving strength, speed, endurance, and overall human function; general overview of structure and function of muscular, nervous, cardiovascular, and respiratory systems; bioenergetics of exercise; endocrine response to exercise; biomechanics of resistance exercise; adaptations to anaerobic and aerobic training programs; age and sex related considerations on training; nutrition and ergogenic aids. Prerequisites: HHP:3500 or HHP:2400.

HHP:4197 Therapeutic Recreation: Experiences in Adaptive and Inclusive Sports 3 s.h.
In-depth exploration of adaptive and inclusive sports from the perspectives of disability studies, therapeutic recreation, and sport and recreation management; examines the intersectionality of these three crucial components to create meaningful, accessible, and inclusive sporting experiences for individuals with diverse abilities; integrates theoretical knowledge with practical application, including hands-on experience in adaptive sports programming. Students will emerge with the skills and understanding needed to facilitate adaptive sports activities. Same as DST:4198, TR:4197.

HHP:4200 Metabolic Exercise Testing and Prescription 4 s.h.
Learn how to assess an individual's health, fitness, and readiness for exercise. Apply this information to formulate a tailored program for an individual to address their needs and goals. Prerequisites: HHP:3400 or HHP:3500 or HHP:3550. Requirements: health promotion, exercise science, or human physiology major.

HHP:4210 Musculoskeletal Exercise Testing and Prescription 4 s.h.
Educational and practical experience for designing resistance training and flexibility programs; competencies for certification with National Strength and Conditioning Association. Prerequisites: HHP:3400 or HHP:3500 or HHP:3550. Requirements: health promotion, exercise science, or human physiology major.

HHP:4220 Biomechanics of Human Motion 3 s.h.
Application of the principles of mechanics to investigation of human motion in two dimensions; system modeling, force system and equilibrium analysis, particle and rigid body kinematics, Newton's and Euler's equations of motion, work-energy and impulse-momentum integral principles. Prerequisites: (HHP:2100 or HHP:3105 or HHP:3115) and (PHYS:1400 or PHYS:1511 or PHYS:1611 or HHP:2350).

HHP:4230 Motor Learning: Theory and Application 3 s.h.
How skilled motor behavior is acquired; behavioral changes that occur during skill acquisition; structural and physiological changes that occur in central nervous system; principles of training and practice that yield efficient and effective motor learning; how this information is helpful to health professionals involved in motor rehabilitation, physical educators and coaches, music instructors and musicians, strength and conditioning professionals, fitness professionals, and athletes, among others. Prerequisites: HHP:2400 or HHP:3500 or HHP:3550. Recommendations: familiarity with basic neuroscience (neurons, synaptic transmission, basic anatomical organization of sensory and motor systems).

HHP:4240 Exercise Testing and Prescription With Lab 4 s.h.
Basic techniques in cardiovascular and musculoskeletal physical fitness assessment, prescription of exercise for healthy adults and children, and individuals with chronic health conditions. Prerequisites: HHP:2200 and HHP:2350 and (HHP:3410 or HHP:3550).

HHP:4250 Human Pathophysiology 3 s.h.
In-depth study of human pathological processes and their effects on homeostasis; etiology, symptoms, and risk factors of various diseases; emphasis on major diseases impacting worldwide disability and death; how pathological processes are manifested and progress in the body. Prerequisites: HHP:3500 or HHP:3550 or HHP:2400.

HHP:4260 Respiratory Pathophysiology 3 s.h.
Structure and function of human respiratory system; focus on didactic and case study-based learning; control of breathing, gas exchange, lung mechanics, regulation of pulmonary blood flow, respiratory responses to stress; application of these physiological concepts to case studies of human disease. Prerequisites: HHP:2400 or HHP:3500 or HHP:3550. Recommendations: PHYS:1511, and MATH:1460 or MATH:1850.

HHP:4280 Applied Cultural Safety and Healthcare 3 s.h.
Reduce health disparities and improve patient health outcomes through the philosophy and practice of cultural safety in healthcare, which involves examining the potential impact of culture on clinical interactions and professional services.

HHP:4290 Exercise Oncology 3 s.h.
Comprehensive understanding of how exercise can influence cancer development, treatment, and survivorship. Explore the latest research and practical applications in this emerging field. Prerequisites: (HHP:2100 or HHP:3115) and (HHP:2400 or HHP:3550). Recommendations: HHP:3400 or HHP:4410.

HHP:4300 Neurophysiology 3 s.h.
Exploring the fundamental physiological systems of the brain in detail with an emphasis on connecting these systems to neurological disorders. Prerequisites: HHP:3500 or HHP:3550. Requirements: anatomy or human physiology course.

HHP:4310 Sport and Exercise Nutrition 3 s.h.
The relationship between nutrition and sport and exercise performance; basic nutrition, physiology, chemistry, psychology, and food preparation as applied to sport and exercise training, competition, and recovery. Prerequisites: HHP:2100 and HHP:2200 and HHP:2310 and HHP:2400.

HHP:4320 Nutrition Interventions 3 s.h.
Strategies that assist in assessment and evaluation of nutrition behaviors of individuals and groups; interventions to meet nutritional needs of individuals and groups with a variety of health issues. Prerequisites: HHP:2200 and HHP:2310.

HHP:4330 Physical Activity and Dietary Behavior Change 1,3 s.h.
Major determinants (barriers and facilitators) of physical activity and dietary behaviors; evidence-based behavior change techniques; application of behavior change techniques to improve physical activity and dietary behaviors at individual and organizational levels. Prerequisites: HHP:2200 and HHP:2310.

HHP:4365 Internship in Health Coaching 3 s.h.
Opportunity to develop and practice health coaching skills with clients engaged in community outreach programs; structured around coaching hours, project management, and training requiring a high level of professionalism. Prerequisites: HHP:4020 and HHP:3030.

HHP:4390 Understanding Human Disease 3 s.h.
Examination of human disease processes, including risk factors, changes occurring with disease, and their effect on homeostasis. Prerequisites: HHP:2400 or HHP:1400. Recommendations: junior or senior standing.

HHP:4400 Health Promotion Clinical Practicum 1 s.h.
Experience in planning and implementing clinical health promotion programs focusing on nutrition, physical fitness, cardiac rehabilitation, and respiratory rehabilitation. Prerequisites: HHP:3200 and (HHP:4200 or HHP:4010).

HHP:4410 Integrative Physiology of Exercise 3 s.h.
Evaluation of mechanisms underlying organ system responses and adaptations elicited by acute and chronic exercise, highlighting integrative nature of human physiological function, research methods, and classic and contemporary research findings in physiology of exercise. Prerequisites: HHP:3400 or HHP:3500 or HHP:3550.

HHP:4420 Planning and Evaluating Health Interventions 3 s.h.
Assessment, planning, implementation, and evaluation of health promotion programs. Prerequisites: HHP:3200 or TR:2160.

HHP:4440 Physiology of Nutrition 3 s.h.
Metabolic and biological aspects of human energy production, relationship to energy consumption; systems or integrative approach. Prerequisites: HHP:2400 or HHP:3500 or HHP:3550.

HHP:4450 Human Genetics and Disease 3-4 s.h.
Fundamental concepts of human genetics including genome organization, expression of genes, and pedigree analysis; emphasis on role of genetics in human health and disease. Prerequisites: HHP:3500 or HHP:3550 or HHP:2400.

HHP:4460 Cardiovascular Physiology 3 s.h.
Structure and function of cardiovascular system; heart, microcirculation, hemodynamics, regional circulation, reflex integration, regulation during physical stress. Prerequisites: HHP:3500 or HHP:3550. Recommendations: calculus and physics.

HHP:4470 Physiology of Aging 3 s.h.
Aging's effects on cells, tissues, and organs; how aging influences function of major body organ systems and the whole organism; physiological mechanisms that underlie age-related changes in body function and performance; integrative approach with focus on human aging. Prerequisites: HHP:3500 or HHP:3550. Same as ASP:4470.

HHP:4490 International Health: Experiential Learning 3 s.h.
Experiential learning in select health care settings and examining health outcomes outside of the United States.

HHP:4500 Undergraduate Independent Project arr.
Independent library or laboratory project related to a specific topic in health and human physiology, typically culminating with a written manuscript or conference/campus scientific presentation; provides an opportunity to apply learning as students develop and carry out a unique project while being mentored by a faculty member. Requirements: third- or fourth-year standing.

HHP:4510 Energetics in Health and Disease 3 s.h.
Comprehensive and molecular-driven approach to impairments in energetics (energy metabolism) leading to obesity, type 2 diabetes, and associated chronic diseases (e.g., cardiovascular diseases, cancer). In addition, mechanisms by which exercise and calorie restriction regimes may prevent and/or reverse those impairments in skeletal muscle, adipose tissue, liver, and heart will be discussed. Discussions of recent published and/or seminal, state-of-the-art papers on energetics related to obesity and diabetics as well as on the effects of exercise and diet interventions to prevent or treat those conditions. Prerequisites: HHP:3500 or HHP:3550. Recommendations: HHP:4410 and BIOL:2723.

HHP:4700 Health and Human Physiology Teaching Internship 0-3 s.h.
Opportunity to serve as an undergraduate learning assistant in selected health and human physiology courses; learning assistants are generally expected to attend class or lab sessions for a specific course, engage with students in an intentional manner that supports their learning, and serve as a positive role model for their undergraduate peers; learning assistants receive training for development of interpersonal skills and facilitating collaborative learning environments, along with content-specific mentoring provided by course supervisor.

HHP:4800 Research Methods 3 s.h.
Introduction to concepts, principles, and methods of research; topics include research design, data collection, data analysis, and reporting research; students identify and formulate research questions, design appropriate research, collect data using different methods, conduct data analysis, present research findings, and critique research literature. Requirements: honors standing.

HHP:4900 Honors Research 3 s.h.
Introduction to concepts, principles, and methods of research; topics include research design, data collection, data analysis, reporting research, and critical critique of research literature. Prerequisites: HHP:3994 with a minimum grade of B or HHP:4500 with a minimum grade of B. Requirements: honors standing.

HHP:4910 Honors Research II 3 s.h.
Completion of honors research begun in HHP:4900; analysis of data; writing and oral presentation of honors thesis; work with a faculty member pursuing research in a laboratory and/or classroom outside of scheduled class time; second of a two-semester sequence. Prerequisites: HHP:4900 with a minimum grade of B.

HHP:4930 Health and Human Physiology Internship arr.
Experience in planning and implementing programs in areas of research, fitness, strength and conditioning, nutrition, clinical rehabilitation, health promotion, health education, community outreach, or medical training; students explore, experience, prepare, network, and build skills for academic or professional development.

HHP:5200 Physical Activity Epidemiology 3 s.h.
Overview of epidemiological evidence on how physical activity, sedentary behavior, and sleep affect health outcomes including cardiovascular disease, diabetes, cancer, and obesity; emphasis on research design, interpretation of studies, selection of appropriate measurement tools, and translating scientific findings to recommendations/policies for health promotion and disease prevention.

HHP:5935 Clinical Exercise Physiology Internship 1-6 s.h.
Directed practical field experience; program planning, implementation, evaluation, and administrative procedures.

HHP:6000 Research arr.

HHP:6020 Advanced Research Methods 1-3 s.h.
Introduction to concepts, principles, and methods of research; topics include research design, data collection, data analysis, and reporting research; students identify and formulate research questions, design appropriate research, collect data using different methods, conduct data analysis, present research findings, and critically critique research literature. Recommendations: concurrent enrollment in BIOS:5120 or STAT:6513.

HHP:6030 Physical Activity and Dietary Behavior Change 3 s.h.
Major determinants (barriers and facilitators) of physical activity and dietary behaviors; evidence-based behavior change techniques; application of behavior change techniques to improve physical activity and dietary behaviors at the individual and organizational levels.

HHP:6130 Advanced Skeletal Muscle Physiology 1,3 s.h.
Investigation of the role of skeletal muscle in health and disease. Content includes skeletal muscle structure, contractile mechanisms, production of movement, energetics, adaptation to increased use and exercise, disuse, injury, pathologies, and therapeutic strategies. Prerequisites: HHP:3500 or HHP:3550.

HHP:6150 Advanced Clinical Exercise Physiology 1,3 s.h.
Recent advances in exercise physiology for clinical populations; emphasis on acute and chronic responses to exercise in healthy aged adults and in patients with cardiac, vascular, pulmonary, and metabolic diseases; basic and intermediate electrocardiography (ECG), pathophysiology of disease process, clinical assessment of disease severity, diagnostic testing, acute exercise responses, and exercise rehabilitation. Prerequisites: HHP:3400 or HHP:3500 or HHP:3550. Recommendations: HHP:4460.

HHP:6200 Advanced Metabolic Exercise Testing and Prescription 1,4 s.h.
Basic techniques in physical fitness assessment; prescription of exercise for healthy and unhealthy adults; promotion of physical activity within communities; knowledge and skill competencies required for certification as American College of Sports Medicine health fitness instructor. Prerequisites: (HHP:3500 or HHP:2400) and HHP:2200.

HHP:6260 Advanced Respiratory Pathophysiology 1,3 s.h.
Complements HHP:4260; structure and function of human respiratory system; focus on didactic and case study based learning; control of breathing, gas exchange, lung mechanics, regulation of pulmonary blood flow, and respiratory responses to stress; application of these physiological concepts to case studies of human disease. Prerequisites: HHP:3500 or HHP:3550. Corequisites: HHP:4260.

HHP:6300 Motor Control Seminar 1 s.h.
Current topics in neural control of movement, biomechanics, and rehabilitation sciences.

HHP:6310 Advanced Sport and Exercise Nutrition 3 s.h.
Relationship between nutrition and dietetics and sport and exercise performance; application of nutrition, dietetics, physiology, chemistry, psychology, and food preparation to sport and exercise training and performance. Requirements: MCN graduate standing.

HHP:6400 Integrative Physiology Seminar 1 s.h.
Current topics in cardiovascular physiology, vascular biology, free radical biology.

HHP:6410 Advanced Integrative Physiology of Exercise 1,3 s.h.
Evaluation of mechanisms underlying organ system responses and adaptations elicited by acute and chronic exercise; integrative nature of human physiological function, research methods, and classic and contemporary research findings in physiology of exercise. Prerequisites: HHP:3400 or HHP:3550.

HHP:6460 Advanced Cardiovascular Physiology 1,3 s.h.
Structure and function of cardiovascular system; heart, microcirculation, hemodynamics, regional circulation, reflex integration, and regulation during physical stress. Prerequisites: HHP:3500 or HHP:3550. Recommendations: calculus and physics.

HHP:6470 Advanced Physiology of Aging 1,3 s.h.
Effects of aging on cells, tissues, and organs; how aging influences function of major body organ systems and the whole organism; physiological mechanisms that underlie age-related changes in body function and performance; integrative approach with focus on human aging. Prerequisites: HHP:2100 and HHP:3500.

HHP:6500 Seminar in Health Promotion 1 s.h.
Peer and faculty response to graduate student work addressing health promotion, physical activity and health outcomes, clinical exercise physiology; review and critique current literature; presentation of published work or in-process projects; critical thinking, scientific writing, and oral communication skill development pertaining to health promotion.

HHP:6510 Advanced Energetics in Health and Disease 1,3 s.h.
Comprehensive and molecular-drive approach to impairments in energetics (energy metabolism) leading to obesity, type 2 diabetes, and associated chronic diseases (e.g., cardiovascular diseases, cancer). In addition, mechanisms by which exercise and calorie restriction regimes may prevent and/or reverse those impairments in skeletal muscle, adipose tissue, liver, and heart will be discussed. Discussions of recent published and/or seminal, state-of-the-art papers on energetics related to obesity and diabetes, and the effects of exercise and diet interventions to prevent or treat those conditions. Prerequisites: HHP:3500 or HHP:3550. Recommendations: HHP:4410 and BIOL:2723.

HHP:6600 Professional Skills for Graduate Students Seminar 1 s.h.
Preparation for careers in academic biomedical research, scientific positions in industry, teaching, or other scientific careers.

HHP:7000 Practicum in College Teaching arr.

HHP:7300 Advanced Sensorimotor Neurophysiology 1,3 s.h.
Neuroanatomical and neurophysiological bases of human motor control; mechanisms for locomotion and posture, control of arm and hand movements, role of sensory information. Prerequisites: HHP:3500 or HHP:3550. Requirements: anatomy or human physiology course.

HHP:7500 Thesis: MS **0-4 s.h.**

HHP:7900 Thesis: PhD **arr.**

Sport and Recreation Management Courses

SRM:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, readings, visits to research facilities).

SRM:1046 Health for Happiness **3 s.h.**
Recent research has discovered fundamental elements and mechanisms of human happiness and well-being; students review these discoveries in the fields of positive psychology, positive neurobiology, system theory, economics of happiness, and history; practical learning experiences that apply these findings to everyday student life; hands-on ways to improve both subjective well-being and individual character strengths and virtues.

SRM:1049 Foundations for Sport and Physical Activity: Catalyst for Sustainable Communities **3 s.h.**
Introduces the current state of sports participation and physical activity and how increasing both will lead to positive economic, human, and environmental outcomes. Learn the social-ecological model as a framework for understanding sports participation and physical activity; address strategies relevant to coaches and organizational administrators to create and deliver positive sport and physical activity environments. GE: Sustainability; Values and Society.

SRM:1060 Contemporary Issues in Sports **3 s.h.**
Learn fundamental concepts and definitions to provide a base understanding of the business and socio-economic models that determine behavior in sport and recreation management practice. Examples will vary from spectator-driven sport at its most commercial to participant-driven activities with varying levels of formal organization. Evaluation is based on two exams, a group and an individual presentation in a smaller group, three writing exercises, and multiple quizzes.

SRM:1070 Recreation and Parks in the United States: Foundations and Impact **3 s.h.**
United States parks have been referred to as "America's Best Idea" and represent ideals of exploration and challenge; park and recreational offerings have become a valued staple of American life, focused on opportunity for diverse communities with economic, social, and quality of life implications; introduction to cultural differences in values and expectations related to recreation and park experiences in the U.S.; students scrutinize the roots and contexts of their own recreation choices and attitudes, and gain insight into the power of these preferences on individual development and shaping of perspectives. GE: Values and Society.

SRM:1085 Introduction to Travel and Tourism **3 s.h.**
Nature, scope, and significance of fields of travel and tourism: their histories, theories and philosophies, current trends, issues and challenges; critical analysis of current travel and tourism practices; green alternatives that are more sustainable and in keeping with values the field of leisure studies has long placed on active participation and local, community development.

SRM:2100 Professional Preparation for Careers in Sport: Building Your Playbook **1 s.h.**
Essential tools and strategies for academic preparation, experiential learning opportunity identification, and initial job search. Content includes crafting impactful cover letters and resumes, optimizing LinkedIn profiles, mastering professional networking, and efficiently managing a job search.

SRM:3050 Collaborative Leadership in Sport and Recreation **3 s.h.**
Explore leadership and collaboration in sport and recreation organizations. Learn about career opportunities, what tools are needed to thrive in today's professional landscape, and how to implement strategies for fostering effective teamwork, leveraging various perspectives, and creating an engaging culture. Students develop the leadership skills needed to navigate complex organizational dynamics and drive positive change within a competitive industry.

SRM:3143 Youth Sports Administration **3 s.h.**
Explores the successful administration and delivery of youth sports primarily through public and private recreation agencies. Topics include program philosophy and structure, volunteer training and supervision, age-appropriate developmental approaches, and contemporary issues in youth sports. Students will gain knowledge and competencies to apply in individual career paths.

SRM:3144 Program Design for Recreational Services **3 s.h.**
Development of professional skills in design, implementation, and evaluation of recreational experiences in a variety of settings for diverse groups; programming concepts for delivering recreation and leisure activities through application-based projects; careers within recreational sports, fitness, and leisure industry that focus on enhancing lives through fun and personal development.

SRM:3145 Leadership and Group Dynamics in Recreation and Sport **3 s.h.**
Exploration of leadership at many levels within an organization; students gain insights into fundamental principles of leadership and group dynamics and their incorporation into fostering staff development and facilitating group initiatives; active engagement in practical application of course concepts through designing and leading initiatives including productive meetings and seminars, team building, other outcomes-based training sessions, and group activities for all ages.

SRM:3146 Sports Officiating: Rules, Theories, and Issues **3 s.h.**
Current status, challenges, and opportunities in the sport officiating industry; general qualifications, fundamental principles, rules, mechanics, and philosophy of officiating sports at various levels; supervision and management of officials for sport and recreation administrators; application of principles in approved game settings.

SRM:3147 Sport Event Management **3 s.h.**
Current status, challenges, and opportunities in sporting event industry; sporting event planning, budgeting, marketing, sponsorship, and evaluation; development of event timelines and event management skills; introduction to networking and interaction with sporting events. Recommendations: SRM:3154.

SRM:3148 Interscholastic Activities and Athletics Administration 3 s.h.
Survey of activities administration foundations including philosophy, leadership, professional programs and activities administration principles, strategies and methods; understanding of the techniques and theory of coaching concepts and strategies for interscholastic budget and concepts and strategies for interscholastic fundraising; basics of assessment and evaluation of interscholastic athletic programs and personnel, dealing with challenging personalities, and administration of professional growth programs for interscholastic personnel.

SRM:3149 Coaching Theory, Body Structure, and Human Development 3 s.h.
Comprehensive introduction to the coaching profession and obtaining a coaching license in the state of Iowa; ethics, licensing, and body development.

SRM:3150 Recreation Administration 3 s.h.
Personnel, finance, budgets, liability, marketing.

SRM:3151 Liability in Sport and Recreation 3 s.h.
The legal system shapes the way sport and recreation professionals at every level perform their jobs, and a basic understanding of the law and its impact on sport and recreation industry can help practitioners operate in a legally compliant manner, seek appropriate legal counsel when necessary, and reduce potential organizational and individual liability; exploration of tort law, constitutional law, statutory law, and contract law as applied to sport and recreation industry, and risk management process; students develop the ability to identify and analyze legal issues and how the law affects the sport and recreation industry. Requirements: 30 s.h. completed.

SRM:3152 Design and Management of Sport and Recreation Facilities 3 s.h.
Facilities management, personnel assignment and evaluation, fee structures, maintenance, programming, compliance with regulations and standards. Requirements: must have 30 s.h. completed.

SRM:3153 Sport Business Practices 3 s.h.
Business of professional and intercollegiate athletics including league, team, and player-level issues; revenue generation and distribution; competitive balance issues; sport league structure strategies; business behind intercollegiate athletics and challenges facing NCAA structure; negotiation. Requirements: must have 30 s.h. completed.

SRM:3154 Foundations of Event Management 3 s.h.
Large, major special events, professional meetings, and conferences; development and planning, implementation of events, management and evaluation of events; development requirements of planning events, development strategies, budgeting, staffing requirements, resource allocation, site planning, basic risk management requirements, emergency procedures; event implementation policy and procedures; relationship to elements within development stages; event management and evaluation procedures.

SRM:3155 Prevention and Care of Athletic Injuries for Coaches 3 s.h.
Comprehensive introduction to the sports world in relation to obtaining a coaching license in the state of Iowa in regards to first aid, injury prevention, and care.

SRM:3157 Managerial Operations in Sport and Recreation 3 s.h.
Introduction to the operation of a private or nonprofit sport-related business.

SRM:3158 Sport and Recreation Promotion 3 s.h.
Foundations and principles of recreation sport promotion and sales operation; application of foundations and principles to sport and recreation industries; historical aspects; current and future trends of sport and recreation management as it relates to sales and promotions; sales management, marketing, financial/economic, legal, and ethical principles related to sport management. Requirements: must have 30 s.h. completed.

SRM:3172 Finance in Sport and Recreation 3 s.h.
Capital funding and revenue acquisition for funding public and private sport and leisure service organizations; contemporary sport and leisure service; financial and economic issues. Requirements: 30 s.h. completed.

SRM:3175 Sales in Sport 3 s.h.
Fundamentals of business development and sales management; incentivizing sports consumers, direct and indirect sales strategies, brand communications, atmospherics, technology in sports sales, ticket sales, licensing products, negotiating sports sponsorships, and brand building.

SRM:3176 Sports Analytics for Decision Makers 3 s.h.
How data is used to analyze player performance, improve scouting and recruitment, enhance fan engagement, and optimize strategic decision-making; analytic examples applied to professional and college sports; experience with statistics or computer science not required.

SRM:3178 Communications and Public Relations in Sports 3 s.h.
How public relations is used to promote service products, demonstrate social responsibility, and communicate with consumers and investors; campaigns, customer service, legal and ethical considerations in promoting service products, media events, information services, public relations in strategic management, atmospherics, critical service moment, social media.

SRM:3179 Podcasting for Sport and Recreation Professionals 3 s.h.
Podcasting as a tool for communication and brand development in sport and recreation; focus on production techniques, audience engagement, and the evolving role of podcasting in the industry.

SRM:3200 Topics in Sport and Recreation Management 3 s.h.
Exploration of various issues shaping the future of sport and recreation industries; in-depth focus on a specific topic within sport or recreation utilizing the expertise of the instructor.

SRM:3210 Event Bidding: Processes and Strategies 3 s.h.
Event rights holders—such as the International Olympic Committee (IOC) and the National Collegiate Athletic Association (NCAA)—use a competitive bid process to select a location, venue, and host committee to plan and execute their sport events; non-sport organizations also use the bidding process to select hosts for exhibitions, conferences, and workshops; students learn the processes and strategies used by event rights holders and event hosts in event bidding process.

SRM:3240 Name, Image, and Likeness (NIL) in College Athletics 3 s.h.
Exposes students to information on the events that led to the NCAA's change to permit collegiate athletes to accept compensation for use of their names, images, and likenesses; how this pivot has impacted and will impact college athletics constituents. Students receive information regarding current and future hot topics regarding name, image, and likeness (NIL) in college athletics.

SRM:3300 Writing for Sport and Recreation Managers 3 s.h.
Students discover their unique writing style and routine; areas of weakness in writing process; necessary tools to become more efficient, clear, and effective writers; discussion, practice, and review of important writing skills; writing skills of diverse professional situations; proper mechanics of persuasive, informative, and factual writing; styles applied to document formats (e.g., press releases, résumés, cover letters, emails, memos, marketing messages, interviews, crisis management); guest speakers provide unique expertise and insight; student-centered, workshop format.

SRM:3700 Ethics in Sport 3 s.h.
Ethical development and decision-making processes in the sport and recreation industry including personal development, educational focused programming, and other types of ethics-based program development.

SRM:3800 Sport Law for Interscholastic Athletic Directors 3 s.h.
Part of the Interscholastic Athletic Director certificate; content includes sport unintentional torts, intentional torts, constitution, legislation, and risk management.

SRM:4158 Advanced Sport Marketing 3 s.h.
Build on the general principles of marketing by discussing the unique aspects of sport marketing and applying marketing concepts to sport as a product; focus on the importance of, and practical challenges associated with, branding and brand management. Advanced marketing theory related to social responsibility; research and information systems; consumer behavior; sport product and logistical management; social, digital, and mobile media and technologies; and communication management and promotions. Prerequisites: SRM:3158.

SRM:4178 Media Relations Strategy in Sport and Recreation 3 s.h.
Follow the flow of information in sports and recreation from capturing statistics and content to the cycle of support required to facilitate the best outcomes for fans, participants, partners, and an organization. Discover the breadth of media relations by following, charting, and critiquing a communications strategy. Execute putting a plan in place for a community entity. Explore the changing, tech-fueled landscape of sport and recreation communication by tracing campaigns and their results through lectures, guest speakers, and projects. Prerequisites: SRM:3178.

SRM:4195 Honors Problems arr.

SRM:4196 Interscholastic Athletic Administration Field Experience arr.
Students complete a minimum of 45 on-site hours with an interscholastic athletic/activities administrator or other approved interscholastic organization (i.e., conference or state office). Prerequisites: SRM:3148.

SRM:4197 Sport and Recreation Field Experience 3 s.h.
Educational opportunities involving a small group of students in a unique sport business experience; students serve as consultants for a sport or recreation organization; in-class preparation complements off-campus work with designated industry partner; sport or recreation enterprise vary according to faculty expertise and industry partner availability.

SRM:4198 NCAA Rules Compliance and Enforcement 3 s.h.
Rules that govern NCAA athletics, rules compliance function on campuses of member institutions, and enforcement of rules by NCAA; essential legislation in NCAA Manual, including bylaws covering recruiting, eligibility, and amateurism; history of NCAA as related to organization's current structure and activities; summer session capstone experience includes attendance at NCAA Regional Rules Seminar in Indiana and participation in educational sessions conducted by NCAA staff.

SRM:4199 Independent Sport and Recreation Field Experience arr.
Participation in approved practical learning experience with private or nonprofit recreation or sport-related enterprise; on-site supervision by industry partner; minimum of 45 on-site hours.

SRM:4240 Name, Image, and Likeness (NIL): Simulated Agency Experience 3 s.h.
Students learn about name, image, and likeness (NIL) and what representing college athletes in NIL deals is like through the experience of being in a simulated agency environment. Students from a variety of majors and levels work collaboratively on branding, issue spotting and best practices in NIL contract drafting, social media marketing, understanding state NIL legislation, NIL collectives, intellectual property rights and much more with partner student-athletes serving as class examples. Emphasis on guest speakers, group work, discussion and peer learning.

SRM:5065 The Economy of Experience 3 s.h.
In-depth analysis of emerging experience economy; just as manufacturing sector of economy supersedes agriculture and service economy supersedes manufacturing, how experience economy is gaining ascendancy as the last, best hope for future economic growth; exploration of current research in positive psychology and sociologist findings on evolution of post-materialist values as related to experience economy; evaluation of current trends; critical analysis and theory development; case studies; original research and investigation of novel marketing possibilities and experience design.

SRM:6250 Research in Sport and Recreation 3 s.h.
Introduces students to research methods commonly practiced in social sciences including qualitative and quantitative methods including research questions and hypotheses, research design, methods, data collection, descriptive data analysis, and presentation. Emphasis will be placed on reading sport management and recreation research and preparing for the capstone project. Recommendations: first-semester sport recreation and management MA students.

SRM:6251 Risk Management 3 s.h.
Legal knowledge necessary for effective management of sport, recreation, and physical activity programs, avoidance of legal problems; strategies for addressing issues such as right to participate, liability for injuries, risk management; legal statutes that govern sport, health, recreation organizations.

SRM:6252 Economics and Financing 3 s.h.
Economic issues for sport/leisure services in nonprofit, private/commercial, and public sectors; strategic financial analysis for the nonfinancial manager; principles, issues in financing sport/leisure organizations.

SRM:6253 Sport Administration 3 s.h.
Overview of various segments that constitutes the role and function of a sport administrator (i.e., planning, organizing, leading, controlling); focus on ways in which sport administrators and their subsequent organizations influence and are influenced by the link between sport and globalization; sport administration encompassing services provided within an organizational context; administration viewed as the coordination of production and distribution of those services.

SRM:6254 Marketing and Sport Promotion 3 s.h.
Overview of varied segments that constitutes sports business practice, including marketing, data-based marketing, sales, promotion, sponsorship; varied segments that make up the sport industry, including the mass media, infrastructure, stadium building, consumer behavior; readings and discussions consider the development and structure of each segment, interactions between segments, planning, policy implications; focus on the United States, professional team sports, comparisons to other sports.

SRM:6255 Capstone Project 3 s.h.
Development of a project applying expertise acquired through required coursework to an area of interest fitting student's career ambitions; includes final presentation to a faculty committee and written paper to support the presentation. Prerequisites: SRM:5065 and SRM:6251 and SRM:6252 and SRM:6253 and SRM:6254.

Therapeutic Recreation Courses

TR:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, readings, visits to research facilities).

TR:1010 Adapted Recreation and Physical Activity 1-3 s.h.
Instruction in various fitness programs, lifetime sports, and recreation activities.

TR:1070 Leisure, Play, and the Human Experience 3 s.h.
Examines leisure behavior and play's impact on the human experience from social, psychological, cultural, and economic perspectives. Uses historical and contemporary literature and research to study the influence of leisure on a person's health and well-being, connections to society, and life satisfaction. Encourages learners to examine their own values and connections to leisure from a systems approach to culture and community. Economic topics include work ethic, overwork, and retirement. GE: Values and Society.

TR:1800 Aging Matters: Introduction to Gerontology 3 s.h.
Overview of the field of gerontology from a bio-psycho-social framework; how the human body and brain age, effects of these biological changes on physical and cognitive functions, and interaction of these individual factors with societal contexts; broad perspective to give students a foundation in gerontology, paving the way for more advanced courses in biology of aging, psychology of aging, and global aging; for students from a wide range of disciplines and levels, no prior knowledge of aging required. GE: Social Sciences. Same as ASP:1800, CSD:1800, NURS:1800, SSW:1800.

TR:2061 Recreation Leadership and Programming 3 s.h.
Leadership principles, techniques; programming techniques. Same as HHP:2061.

TR:2077 Children and Families in Healthcare 3 s.h.
Prepares students to work with children and their families in a variety of healthcare settings. Understand the impact of illness, injury, trauma, and healthcare environments on patients and families to help develop appropriate coping strategies; examine psychosocial and developmental issues and how they are impacted by childhood illness and hospitalization; study important developmental theories as they relate to therapeutic play interventions, the value of family-centered care, sibling involvement, peer interactions, and grief/bereavement.

TR:2160 Introduction to Therapeutic Recreation 3 s.h.
Lifestyles and barriers faced by persons with disabilities; basic aspects of the therapeutic recreation profession; skills used to establish therapeutic relationship; techniques used with patients; theoretical and conceptual bases for practice.

TR:3161 Assessment and Evaluation in Therapeutic Recreation 3 s.h.
Basic assessment psychometrics (e.g., reliability), standardized instrumentation and data collection (e.g., observation, self-report), construction of instruments, data reduction. Prerequisites: TR:2160.

TR:3162 Therapeutic Recreation: Clientele 3 s.h.
Developmental patterns of special populations; examination of specific interventions and research applied to specific cognitive, emotional, and physical impairments.

TR:3163 Concepts and Issues in Therapeutic Recreation: Advancement of the Profession 3 s.h.
Ethical, professional, and theoretical issues in delivery of therapeutic recreation services; impact of legislation, standards of practice, health care reform; application of research to practice and marketing services. Prerequisites: TR:2160.

TR:3164 Clinical Practice in Therapeutic Recreation 3 s.h.
Introduces students to the basic knowledge and skills necessary to practice therapeutic recreation (TR). Special emphasis placed on techniques and intervention strategies necessary for developing and implementing individualized treatment plans. Examines the principles of TR practice, development of TR programs aimed at addressing client needs, and utilization of the TR process with individual clients. Prerequisites: TR:2160.

TR:3171 Child Life Practical Application 3 s.h.
Overview of medical conditions and treatments commonly encountered by children and adolescents in health care settings; common pediatric sedation medications; sequence of medical procedures to understand how to provide procedural preparation and support; facilitate medical play with pediatric population.

TR:3174 Cultural Perspectives in Health Care 3 s.h.
Health care beliefs related to various cultures and religions; focus on illness, hospitalization, treatment, death.

TR:3175 Physical Activity and Recreation for Aging Populations 3 s.h.
Provides an overview of physical, social, and psychological aspects of aging and how these changes relate to designing exercise programs and leisure opportunities to improve the quality of life for older adults. Prerequisites: TR:2160 or HHP:2200. Same as ASP:3175, HHP:3175.

TR:3261 Inclusive Recreation 3 s.h.
Introduction to inclusive recreation topics. Focus on offering recreation programs and services for individuals of all abilities and backgrounds. Same as HHP:3261.

TR:3262 Therapeutic Recreation Administration 3 s.h.
Examination of the organization and administration of therapeutic recreation services; focus on planning, organizing, and managing therapeutic recreation services; comprehensive and strategic planning, funding, marketing, legal and legislative issues, personnel management, and professional practice of therapeutic recreation. Prerequisites: TR:2160.

TR:3281 Special Projects in Child Life Practice 2 s.h.
Student directed and student led hospital camping experience for patients at the University of Iowa Children's Hospital; planning and preparing for a large function, planning and leading therapeutic activities, working directly with patients and their families, processing and discussion of experiences and concerns; practical and clinical-based experiences for students interested in working with pediatric population in health care setting. Requirements: hospital orientation, patient confidentiality (HIPAA) training, and health screening.

TR:3300 Animal-Assisted Interventions in the Helping Professions 3 s.h.
Explore the principles and practices of Animal-Assisted Interventions (AAIs); provide a comprehensive understanding of the theoretical foundations, ethical considerations, and practical applications of incorporating animals into therapeutic settings. Students will gain insight into how animals can enhance therapeutic experiences, promote well-being, and contribute to the overall effectiveness of programs and services. Overviews diverse populations and settings, emphasizing the role of animals as cofacilitators in promoting therapeutic outcomes within helping professions. Same as HHP:3361.

TR:4100 Practicum in Therapeutic Recreation 1-3 s.h.
Provides students with a hands-on, immersive experience in the field of therapeutic and inclusive recreation. Designed to bridge classroom learning with real-world application, the practicum offers students the opportunity to integrate theoretical knowledge and practical skills in diverse therapeutic settings. Students are provided an educational experience under the guidance of experienced professionals and academic supervisors to develop skills, techniques, and proficiencies in the field as well as the opportunity to gain practical experience with various populations and differing abilities.

TR:4169 Child Life Experience 1 s.h.
Practical experience with ill children, including a trip to the Give Kids the World village in Florida; documentation and engagement of course materials, experience working with ill children; students are assigned a specific diagnosis and present the diagnosis (appropriate statistics, effects of hospitalization, treatment, etc.) on child and family; coping strategies, appropriate methods of talking to and interacting with children and families, overview of child life in hospitals.

TR:4190 Preinternship Seminar 1 s.h.
Interviewing skills, résumés and cover letters, selection of internship site(s), application procedures for internship positions, and responsibilities of interns to the agency. Requirements: admission to NCTRC certification track.

TR:4191 Therapeutic Recreation Internship arr.
Practical field experience; direct leadership, program planning, administrative procedures. Prerequisites: TR:4190. Requirements: overall GPA of 2.00 and major GPA of 2.00; admission to NCTRC-track and completion of NCTRC-track coursework and therapeutic recreation pre-internship paperwork.

TR:4193 Independent Study arr.
Problem in a specific area.

TR:4194 Honors Readings arr.
Independent reading or research project under faculty supervision usually leading to an honors paper. Requirements: admission to honors program.

TR:4195 Honors Problems arr.
Completion of a project over and above normal independent study as an honors project; major research effort involving close work with an advisor.

TR:4197 Therapeutic Recreation: Experiences in Adaptive and Inclusive Sports 3 s.h.
In-depth exploration of adaptive and inclusive sports from the perspectives of disability studies, therapeutic recreation, and sport and recreation management; examines the intersectionality of these three crucial components to create meaningful, accessible, and inclusive sporting experiences for individuals with diverse abilities; integrates theoretical knowledge with practical application, including hands-on experience in adaptive sports programming. Students will emerge with the skills and understanding needed to facilitate adaptive sports activities. Same as DST:4198, HHP:4197.

TR:5165 Child Life: Child Development and Healthcare Interventions 3 s.h.
Application of typical growth and development content, including theoretical content for children and adolescents (birth to 18 years old); theories of cognitive development, psycho-social development, and attachment applied to essential healthcare interventions unique to child life practice; history of child life profession and scope of practice; application of developmental perspectives to intervention (e.g., education, healthcare play, support and coping interventions, pain management, bereavement).

TR:5166 Child Life: Seminar 3 s.h.
Students utilize official documents of the Association of Child Life Professionals (ACLP) and evidenced-based practice to understand current issues and research in child life as well as the expanding scope of service; cultural issues and impact of care for children and families; need for understanding of cultural diversity in a variety of settings; meets the six requirements of a child life course taught by a Certified Child Life Specialist (CCLS) for the ACLP including professional scope of practice in child life, impact of illness and hospitalizations of children and families, patient and family-centered care, therapeutic play, and preparation.

TR:5167 Child Life Practicum 1-3 s.h.
Observational experience with children and families in hospitals and other community settings to understand the scope of practice for child life; development of basic clinical skills in child life; opportunities to observe the integration of theories with practice and understand the impact of illness, injury, and health care on patients and families; integration of therapeutic play and preparation for children; academic requirements in addition to clinical observation hours under supervision of a Certified Child Life Specialist in hospital, outpatient, rehabilitation, camp, or bereavement setting.

TR:5205 Research Methods and Play Behavior 3 s.h.
The scientific process: research designs for experiments and surveys, questionnaire construction, sampling theory, basic data analysis.

TR:5211 Professional Ethics and Practice in Pediatrics 3 s.h.
Examination of core issues in clinical pediatrics; beginning life critical care, end-of-life care, role of medical technology, public health research pertinent to children, and maintaining professional boundaries. Prerequisites: TR:2077.

TR:5260 Play and Childhood arr.
Multiple levels of theories and current research on importance of play in child development; advocacy for importance and necessity of play in childhood that leads to well-being and healthy lifestyles; practical and theoretically based experiences; for students interested in working with children in health care, clinical, school, community, and family life settings.

TR:5261 Family Systems 3 s.h.
Examination of dynamics of family life as a social system from a historical, sociocultural, and theoretical perspective; approaches to working with diverse children and families facing life stresses; interactive format, incorporates experiential learning, classroom lecture, and discussion.

TR:5270 Child Life Internship 4-5,9,12 s.h.
Child life student interns complete a minimum 15-week, 600-hour field experience under supervision of a Certified Child Life Specialist to meet certification requirements of the Association of Child Life Professionals; students are required to complete academic coursework in addition to clinical requirements. Prerequisites: TR:5165 and TR:5166 and TR:5167 and TR:5205 and TR:5211 and TR:5260 and TR:5261.

TR:6200 Child Life Graduate Forum 0 s.h.
Informational sessions, networking, review of research scholarship, resources, and joint collaboration for first- and second-year child life graduate students. Requirements: enrollment in Health and Human Physiology MS child life track.

Health and Physical Activity Skills Courses

HPAS:1000 Healthy Relationships, Sexuality, and Your College Experience 1 s.h.
Empower students to make healthy, informed decisions about sexual health and relationship wellness throughout the college years and beyond. Topics include healthy behaviors related to sexuality, appropriate boundaries, and advocacy.

HPAS:1001 Alcohol and Your College Experience 1 s.h.
Patterns of alcohol, drug use focused on college years; strategies for monitoring use, behavioral change plans for implementing lower-risk drinking practices; for drinkers and non-drinkers.

HPAS:1002 Vaping, Tobacco Use, and Your College Experience 1 s.h.
Current behavior change theories related to tobacco use and cessation; vaping, nicotine replacement therapies (NRT), and non-NRT methods; triggers, relapse prevention, cognitive behavioral skills, and support systems; for smokers and nonsmokers.

HPAS:1003 Resiliency and Your College Experience 2 s.h.
Resiliency and psychological hardiness theories relevant to college life; resiliency and ability to cope with challenges; components of psychological fitness; skills for personal growth and emotional well-being.

HPAS:1004 Food and Your College Experience 2 s.h.
Sociocultural perspective on the forces that facilitate low-quality diets, particularly during young adulthood; basic components of nutrition; opportunity to develop and personalize healthy eating skills.

HPAS:1005 Indoor Group Cycling 1 s.h.
Introduction to group cycling; bike setup, safety, proper technique, injury prevention, and utilization of interval training.

HPAS:1006 Intuitive Eating 1 s.h.
How to create and sustain a healthy relationship with mind, body, food, and exercise using an evidence-based approach; introduction to 10 basic principles of intuitive eating, taking a critical look at dieting and a healthful approach to satisfying eating balanced with exercise.

HPAS:1007 Basic CPR 1 s.h.
Basic, beginner-level information on CPR procedures; passing the course leads to certification in CPR; more advanced certifications may be sought for medical professionals.

HPAS:1008 Basic First Aid and CPR 1 s.h.
Basic, beginner-level information on automated external defibrillator (AED), CPR, and first aid procedures; in-class certification testing leads to certification in CPR and first aid; more advanced certifications may be needed for medical professionals.

HPAS:1009 Personal Fitness: Theory and Practice 2 s.h.
Introduction to dimensions of wellness with focus on health-related components of physical fitness; varied health and wellness topics; emphasis on engaging in physical activity to create a sustainable lifelong habit; theory, practice, physical activity; application of materials and exercise; prior physical activity or exercise experience not required.

HPAS:1010 Introduction to Workout Design 1 s.h.
Introduction to personal workout programming and design; includes sections on cardiovascular fitness, muscular strength and endurance, and flexibility.

HPAS:1020 Core Strengthening 1 s.h.
Introduction to developing strength, flexibility, and endurance through the core; students will learn what the core is, how to best develop the muscles of the core, and why core training is important.

HPAS:1030 Cardio Training 1 s.h.
Beginner's guide to cardio fitness to develop and maintain levels of cardiovascular health and fitness.

HPAS:1040 Pilates I 1 s.h.
Introduction to the study and practice of Pilates for beginners; topics include proper breathing techniques, flexibility, balance, relaxation, and Pilates exercises.

HPAS:1060 High Intensity Interval Training 1 s.h.
Increased fitness levels through principles of resistance training using a high-intensity interval training (HIIT) method; various types of resistance (free weights, rubber bands, partner resistance, and body weight resistance); topics include muscular anatomy, principles of resistance training, various resistance training exercises, safety, motivation and goal setting, and personal program design.

HPAS:1070 Introduction to Weight Training 1 s.h.
Introduction to basic principles of weight training using barbells and dumbbells as resistance; muscular anatomy, principles of weight training, muscular strength, muscular endurance, weight room safety, motivation and goal setting, personal program development; no prior weight training experience required.

HPAS:1080 Olympic Weightlifting 1 s.h.
Beginning-level introduction to classical Olympic weightlifting movements leading up to the snatch, clean and jerk, power snatch, and power clean. Recommendations: HPAS:1070 and/or an understanding of weight training fundamentals and basics.

HPAS:1090 Sports Skills and Drills 1 s.h.
Develop and practice basic skills and game strategy for an array of team sports; participate in a variety of educational and competitive physical activities that may include flag football, soccer, basketball, tennis, pickleball, and racquetball.

HPAS:1110 Fitness Walking 1 s.h.
Walking as a means to improve cardiovascular health and fitness; utilizes outdoor walking, weather permitting, or the indoor track.

HPAS:1130 5K Training 1 s.h.

HPAS:1140 PE Games 1 s.h.
Participation in and design of physical activity games and skills; students improve physical health through cardio endurance and resistance training during game play; games and variations of games may consist of basketball, dodgeball, tag, volleyball, and other physical activities; how to be physically active and healthy while having fun; physiological responses to physical activity.

HPAS:1150 Introduction to Health and Wellness 1 s.h.
Optimal physical health and wellness in the college years; focus on behavioral change and goal setting, five components of fitness, dimensions of wellness, and stress management.

HPAS:1210 Stress Management 1 s.h.
How to define the sources of underlying stress, learn to cope with everyday stressors, and become more proactive through life skill management.

HPAS:1220 Flexibility 1 s.h.
Help students move through full range of motion, work to correct imbalances, and ultimately move better through activities of daily living.

HPAS:1230 Hatha Yoga 1 s.h.
Introduction to the study and practice of yoga; geared towards beginners.

HPAS:1260 Movement and Mobility 1 s.h.
Introduction to basic self-care and movement recommendations for injury prevention, efficient movement, and health; topics include posture and movement correction and form, optimization of daily movement patterns, and self-care principles; prior exercise experience not required.

HPAS:1320 Lap Swimming I 1 s.h.
Introduction to swim stroke development utilizing swimming as a form of exercise; this is not a learn-to-swim class and a basic prerequisite swimming test will be performed prior to instruction.

HPAS:1400 Pickleball 1 s.h.
Introduction to the game of pickleball; rules of the game, terminology, key offensive and defensive strategies, and drills to help improve performance; class time involves instruction, practice, and playing time; no prior pickleball experience required.

HPAS:1440 Table Tennis 1 s.h.
Introduction to the game, rules, and skills involved in table tennis.

HPAS:1460 Basketball I 1 s.h.
Introduction to the game of basketball at the beginning level, assumes little or no prior basketball experience; students learn rules of the game, basketball terminology, key offensive and defensive strategies, fundamental skills (e.g., dribbling, passing, catching, shooting, rebounding, defending), and drills to help improve performance; course format consists of instruction, practice, and playing time.

HPAS:1470 Badminton 1 s.h.
Introduction to the game, rules, and skills involved in badminton.

HPAS:1530 Volleyball I 1 s.h.
Introduction to the game, rules, and skills involved in volleyball.

HPAS:1535 Volleyball II 1 s.h.
Advanced skill refinement course geared towards students who have passed HPAS:1530 or are able to show mastery of the basic techniques. Prerequisites: HPAS:1530.

HPAS:1560 Ultimate Frisbee 1 s.h.
Introduction to the game, rules, and skills involved in ultimate frisbee; course will meet outside, weather permitting.

HPAS:1610 Self Defense 1 s.h.
Introduction to the practice of self-defense through upper and lower body strikes, joint manipulation, and other personal protection measures; this is a noncontact course.

Health Studies, BA

Learning Outcomes

Students will be able to:

- understand the form and function of the human body at the organ and system levels;
- understand and communicate the major behavioral, clinical, social, economic, and environmental determinants of health and well-being;
- draw connections between major determinants of health and their influence on health and human diseases;
- identify and compare evidence-based health strategies to improve major determinants of health and well-being;
- apply knowledge to solve health problems using evidence-based health strategies; and
- critically evaluate evidence-based strategies targeted to specific health conditions.

Requirements

The Bachelor of Arts with a major in health studies requires a minimum of 120 s.h., including at least 37–41 s.h. of work for the major. A minimum of 16 s.h. in the major must be earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The BA in health studies is designed for students who want a flexible health science curriculum. The major interconnects the systems, technologies, and policies driving the U.S. wellness and health care industries. It provides flexible opportunities to work with faculty in developing the knowledge and skills needed to understand health determinants and anticipate continuing changes in preventive and clinical health delivery.

Students who earn the major in health studies may not earn a major in exercise science or health promotion.

Students who earn the major in health studies may not earn a minor in lifestyle medicine or inclusive recreation but may earn a minor in human physiology.

The BA with a major in health studies requires the following coursework.

Requirements	Hours
Quantitative Reasoning Course	3-4
Health Studies Foundation Courses	10-13
Health Studies Core Courses	12
Electives	12

Quantitative Reasoning Course

Students must complete 3–4 s.h. from one of the following courses.

Course #	Title	Hours
One of these:		
MATH:1020	Elementary Functions	4
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:3510/ IGPI:3510	Biostatistics	3

Health Studies Foundation Courses

Course #	Title	Hours
10-13 s.h. from these:		
HHP:1050	Exploring Health and Human Physiology	1
HHP:2100 & HHP:2400	Human Anatomy and Fundamentals of Human Physiology	3-6
or HHP:1400	Human Anatomy and Physiology	
HHP:2200	Physical Activity and Health	3
HHP:2310	Nutrition and Health	3

Health Studies Core Courses

Course #	Title	Hours
All of these:		
HHP:3030	Lifestyle Medicine	3
HHP:4030	Social Determinants of Health	3
HHP:4040	Health Services	3
HHP:4390	Understanding Human Disease	3

Electives

Students must complete at least 12 s.h. of additional health, sport, and human physiology courses (prefix HHP) numbered 2000 or above.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall grade-point average (GPA) of at least 3.33 in work for their major and a cumulative University of Iowa GPA of at least 3.33.

In order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4900 Honors Research and HHP:4910 Honors Research II; write an honors thesis that is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the health and human physiology major.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: one foundation course and at least six more courses in the major.

Before the seventh semester begins: at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two more courses in the major (total of 15).

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Total Hours	**123-130**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

d See the General Catalog for list of approved courses.

e Fulfills a major requirement and may fulfill a GE requirement.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g Students must complete HHP:2100 and HHP:2400 (both courses), or HHP:1400.

h Students must complete at least 12 s.h. of additional health and human physiology courses (prefix HHP) numbered 2000 or above.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Exercise Science, BS

Learning Outcomes

Students will be able to:

- apply principles of biomechanics and musculoskeletal anatomy to better understand movement, exercise, and injury;
- apply understanding of psychological benefits and determinants of physical activity behavior to facilitate behavior change;
- apply understanding of the effects of acute exercise and training on physiological systems;
- design population-specific aerobic, strength, balance, and flexibility exercise programs for health and performance outcomes;
- measure health and fitness outcomes to inform and evaluate tailored exercise programs; and
- apply evidence-based nutrition recommendations to support and enhance sport, performance, and exercise training outcomes.

Requirements

The Bachelor of Science with a major in exercise science requires a minimum of 120 s.h., including at least 48–50 s.h. of work for the major. A minimum of 16 s.h. in the major must be earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The BS in exercise science is intended for students seeking careers as professionals in fitness and in strength and conditioning. The major provides focused study in physical fitness, physical activity, sport nutrition, and sport conditioning as they pertain to health and performance outcomes. The curriculum has been approved by the American College of Sports Medicine (ACSM) as meeting the academic preparation for certification as an ACSM-certified exercise physiologist and ACSM-certified personal trainer. It also prepares students for certification by the National Strength and Conditioning Association as a certified strength and conditioning specialist and certified special population specialist. The strong physiological science-based curriculum can serve as preparation for professional or graduate study in rehabilitation sciences, performance sciences, or medical fields.

Students who earn the major in exercise science may not earn a major in human physiology, health promotion, or health studies.

Students who earn the major in exercise science may not earn a minor in lifestyle medicine but may earn a minor in human physiology.

The BS with a major in exercise science requires the following coursework.

Requirements	Hours
Science and Math Foundation Courses	10-12
Exercise Science Foundation Courses	12
Exercise Science Core Courses	20
Electives	6

Science and Math Foundation Courses

Students complete three foundation courses (minimum of 10 s.h.): one each in chemistry, biology, and mathematics or statistics. Note that courses may have required prerequisites.

Course #	Title	Hours
Chemistry		
One of these:		
CHEM:1080	General Chemistry II	3
CHEM:1120	Principles of Chemistry II	4
Biology		
One of these:		
BIOL:1140	Human Biology: Nonmajors	4
BIOL:1141	Human Biology: Health Professions	4
BIOL:1411	Foundations of Biology	4
Mathematics or Statistics		
One of these:		
MATH:1020	Elementary Functions	4
MATH:1350	Quantitative Reasoning for Business	4
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1850	Calculus I	4
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:3510/ IGPI:3510	Biostatistics	3

Exercise Science Foundation Courses

Students must complete the four-course departmental core (12 s.h.).

Course #	Title	Hours
All of these:		
HHP:2100	Human Anatomy	3
HHP:2200	Physical Activity and Health	3
HHP:2310	Nutrition and Health	3
HHP:2400	Fundamentals of Human Physiology	3

Exercise Science Core Courses

Course #	Title	Hours
All of these:		
HHP:2350	Biomechanics of Sport and Physical Activity	3
HHP:3045	Physical Activity Psychology	3
HHP:3400	Applied Exercise Physiology	3
HHP:4200	Metabolic Exercise Testing and Prescription	4

HHP:4210	Musculoskeletal Exercise Testing and Prescription	4
HHP:4310	Sport and Exercise Nutrition	3

Electives

Students must complete at least 6 s.h. of additional health, sport, and human physiology courses (prefix HHP) numbered 2000 or above.

Combined Programs

BS/MS in Athletic Training

The Department of Health, Sport, and Human Physiology (College of Liberal Arts and Sciences) and the Department of Orthopedics and Rehabilitation (Carver College of Medicine) offer a combined Bachelor of Science/Master of Science in athletic training. The combined degree program allows students to count a limited amount of credit toward both degrees, enabling them to begin the study of athletic training before they complete their bachelor's degree. Coursework taken during the first three years on campus constitutes the required prerequisites for application to the master's degree program.

Admission

Students apply to the MS program in their third year of undergraduate study. Admission to the MS program in athletic training is for summer entry. Students should consult their advisor about the appropriate sequence of courses and other requirements.

For more information, see the MS in athletic training [p. 1938] in the Carver College of Medicine section of the catalog.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall grade-point average (GPA) of at least 3.33 in work for their major and a cumulative University of Iowa GPA of at least 3.33.

In order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4900 Honors Research and HHP:4910 Honors Research II; write an honors thesis that is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the exercise science major.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: one foundation course and at least six more courses in the major.

Before the seventh semester begins: at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two more courses in the major (total of 15).

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Course not required before CHEM:1080 if student has completed high school chemistry.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e See the General Catalog for list of approved courses.

f Fulfills a major requirement and may fulfill a GE requirement.

g Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

h Students must complete at least 6 s.h. of additional health and human physiology courses (prefix HHP) numbered 2000 or above.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Health Promotion, BS

Learning Outcomes

Students will be able to:

- identify and communicate the needs for, barriers to, and facilitators of health among various populations;
- understand, communicate, and apply health theories to inform health promotion programs;
- assess and interpret common behavioral and clinical health outcomes;
- use evidence-based communication strategies designed to facilitate behavior change;
- understand, communicate, and apply evidence-based leadership and management strategies in a health organization setting; and
- understand how to plan, implement, and evaluate targeted health promotion programs.

Requirements

The Bachelor of Science with a major in health promotion requires a minimum of 120 s.h., including at least 47–49 s.h. of work for the major. A minimum of 16 s.h. in the major must be earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The health promotion major is intended for students seeking careers that promote wellness in the community and the workplace. The major prepares students to work directly with individuals and communities to improve health and quality of life. Students learn how to assess, plan, implement, evaluate, and oversee programs designed to improve health behaviors, create environments supportive of healthy lifestyles, and effectively communicate health issues to key stakeholders. The major prepares students to take the certification exam from the National Commission for Health Education Credentialing. The mix of natural and social sciences in this major also provides a foundation for professional or graduate study in allied health, health management, or public health.

Students who earn the major in health promotion may not earn a major in exercise science, human physiology, or health studies.

Students who earn the major in health promotion may not earn a minor in lifestyle medicine but may earn a minor in human physiology.

The BS with a major in health promotion requires the following coursework.

Requirements	Hours
Science and Math Foundation Courses	10-12
Health Promotion Foundation Courses	12
Health Promotion Core Courses	16
Experiential Learning	3
Electives	6

Science and Math Foundation Courses

Students complete three foundation courses (minimum of 10 s.h.): one each in chemistry, biology, and mathematics or statistics. Note that courses may have required prerequisites.

Course #	Title	Hours
Chemistry		
One of these:		
CHEM:1080	General Chemistry II	3
CHEM:1120	Principles of Chemistry II	4
Biology		
One of these:		
BIOL:1140	Human Biology: Nonmajors	4
BIOL:1141	Human Biology: Health Professions	4
BIOL:1411	Foundations of Biology	4
Mathematics or Statistics		
One of these:		
MATH:1020	Elementary Functions	4
MATH:1350	Quantitative Reasoning for Business	4
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1850	Calculus I	4
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:3510/ IGPI:3510	Biostatistics	3

Health Promotion Foundation Courses

Students must complete the four-course departmental core (12 s.h.).

Course #	Title	Hours
All of these:		
HHP:2100	Human Anatomy	3
HHP:2200	Physical Activity and Health	3
HHP:2310	Nutrition and Health	3
HHP:2400	Fundamentals of Human Physiology	3

Health Promotion Core Courses

Course #	Title	Hours
All of these:		
HHP:3200	Health Behavior and Health Promotion	3
HHP:3430	Health Management and Administration	3
HHP:4010	Behavioral and Clinical Health Assessment Laboratory	4
HHP:4020	Health Coaching	3

HHP:4420	Planning and Evaluating Health Interventions	3

Experiential Learning

Course #	Title	Hours
3 s.h. from these:		
HHP:3820	Community Wellness Guided Practicum	3
HHP:3930	Practicum in Health and Human Physiology	1-3
HHP:3994	Undergraduate Research	1-3
HHP:4365	Internship in Health Coaching	3
HHP:4490	International Health: Experiential Learning	3
HHP:4500	Undergraduate Independent Project	arr.
HHP:4910	Honors Research II	3
HHP:4930	Health and Human Physiology Internship	3-12

Electives

Students must complete at least 6 s.h. of additional health, sport, and human physiology courses (prefix HHP) numbered 2000 or above.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall grade-point average (GPA) of at least 3.33 in work for their major and a cumulative University of Iowa GPA of at least 3.33.

In order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4900 Honors Research and HHP:4910 Honors Research II; write an honors thesis that is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the health promotion major.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: one foundation course and at least six more courses in the major.

Before the seventh semester begins: at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two more courses in the major (total of 15).

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Human Physiology, BS

Learning Outcomes

The BS degree in human physiology:

- provides a broad understanding of the form (anatomy) and function (physiology) of the human body through evaluation of organ system function and integrative function across systems in health and disease;
- prepares students to employ their fundamental knowledge of human physiology together with the scientific method, disciplinary research, and evidence-based reasoning to solve problems in their chosen professional and/or graduate career fields;
- develops skills and interpersonal competencies relevant to a diverse range of career pathways; and
- instills an understanding and appreciation of the relevance of healthy behaviors to a fulfilling and productive life, and the importance of lifelong learning in the rapidly evolving fields of human physiology and the health sciences.

Requirements

The Bachelor of Science with a major in human physiology requires a minimum of 120 s.h., including 63 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Transfer students must complete a minimum of 16 s.h. in human physiology coursework at the University of Iowa, including HHP:3550 Human Physiology With Laboratory.

The major in human physiology is designed primarily for individuals who intend to continue their education beyond the BS in the health professions, including medicine, physician assistant, physical therapy, dentistry, occupational therapy, chiropractic, and optometry, and for those who intend to pursue graduate degrees in basic life sciences.

Students may complete the BS with a major in human physiology without an emphasis area or with one of three optional emphasis areas: clinical physiology, neuromuscular physiology and metabolism, or research.

Students may earn a BS in human physiology, health promotion, or exercise science, but not more than one of these.

Students who earn a BS in human physiology may not earn the minor in human physiology.

For policies concerning transfer credit, credit by examination, cumulative grade-point average, general rules relating to regression and duplication, and so forth, see For Undergraduate Students on the College of Liberal Arts and Sciences website.

The BS with a major in human physiology requires the following coursework.

Requirements	Hours
Core Courses	14
Elective Courses	18
Cognate Area Courses	31
Area of Emphasis	

Core Courses

Course #	Title	Hours
All of these:		
HHP:1050	Exploring Health and Human Physiology	1
HHP:3115	Anatomy for Human Physiology With Lab	5
HHP:3550	Human Physiology With Laboratory	5
One of these:		
HHP:2200	Physical Activity and Health	3
HHP:2280	Cultural Competency and Health	3
HHP:2310	Nutrition and Health	3

Elective Courses

At least 18 s.h. from these with at least 12 s.h. in health, sport, and human physiology courses (prefix HHP).

Course #	Title	Hours
At least 6 s.h. from these (organ system-based courses):		
HHP:3450	Immunology in Health and Disease	3
HHP:4110	Advanced Human Anatomy Laboratory	4
HHP:4130	Skeletal Muscle Physiology	3
HHP:4260	Respiratory Pathophysiology	3
HHP:4300	Neurophysiology	3
HHP:4460	Cardiovascular Physiology	3
At least 3 s.h. from these (integrative physiology courses):		
HHP:4150	Clinical Exercise Physiology	3
HHP:4250	Human Pathophysiology	3
HHP:4410	Integrative Physiology of Exercise	3
HHP:4470/ASP:4470	Physiology of Aging	3
HHP:4510	Energetics in Health and Disease	3
May include up to 9 s.h. from these:		
HHP:3300	Human Growth and Motor Development	3
HHP:3700	Health Care Communications	1
HHP:3900	Writing for Health and Human Physiology	3
HHP:3994	Undergraduate Research (may be repeated; up to 3 s.h. may be applied toward the degree)	1-3
HHP:4197	Therapeutic Recreation: Experiences in Adaptive and Inclusive Sports	3
HHP:4200	Metabolic Exercise Testing and Prescription	4
HHP:4210	Musculoskeletal Exercise Testing and Prescription	4
HHP:4230	Motor Learning: Theory and Application	3
HHP:4440	Physiology of Nutrition	3

HHP:4450	Human Genetics and Disease	3-4
HHP:4490	International Health: Experiential Learning (may be repeated; up to 3 s.h. may be applied toward the degree)	3
HHP:4500	Undergraduate Independent Project (may be repeated; up to 3 s.h. may be applied toward the degree)	arr.
HHP:4700	Health and Human Physiology Teaching Internship	2-3
HHP:4800	Research Methods	3
HHP:4900	Honors Research	3
HHP:4910	Honors Research II	3
HHP:4930	Health and Human Physiology Internship (may be repeated; up to 3 s.h. may be applied toward the degree)	arr.
BIOL:2254	Endocrinology	3
BIOL:2723	Cell Biology	3
BMB:3110	Biochemistry	3
MICR:2157	General Microbiology	3
MICR:2158	General Microbiology Laboratory	2
May include one of these:		
PSY:2130	Advanced Psychology for Pre-Medical Track	3
PSY:2930	Abnormal Psychology: Health Professions	3
SOC:3510	Medical Sociology	3

Cognate Area Courses

Students must earn a minimum of 31 s.h. in cognate areas—subjects outside of human physiology—by completing courses from the following lists.

Course #	Title	Hours
Biology		
This sequence:		
BIOL:1411 & BIOL:1412	Foundations of Biology and Diversity of Form and Function	8
Chemistry		
This sequence:		
CHEM:1110 & CHEM:1120	Principles of Chemistry I and Principles of Chemistry II	8
Mathematics		
One of these:		
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Calculus I	4
MATH:1850	Calculus I	4
Physics		
This sequence:		
PHYS:1511 & PHYS:1512	College Physics I and College Physics II	8
Statistics		
One of these:		
STAT:2010	Statistical Methods and Computing	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

Areas of Emphasis

Students majoring in human physiology may declare an emphasis area but are not required to do so to satisfy major requirements. Declaring an emphasis area does not require completion of elective coursework beyond that already required for the major. Major elective requirements can be met through emphasis area courses.

Clinical Physiology Area

Course #	Title	Hours
Four of these:		
HHP:3450	Immunology in Health and Disease	3
HHP:4150	Clinical Exercise Physiology	3
HHP:4200	Metabolic Exercise Testing and Prescription	4
HHP:4250	Human Pathophysiology	3
HHP:4260	Respiratory Pathophysiology	3
HHP:4460	Cardiovascular Physiology	3

Neuromuscular Physiology and Metabolism Area

Course #	Title	Hours
Four of these:		
HHP:4110	Advanced Human Anatomy Laboratory	4
HHP:4130	Skeletal Muscle Physiology	3
HHP:4230	Motor Learning: Theory and Application	3
HHP:4300	Neurophysiology	3
HHP:4410	Integrative Physiology of Exercise	3
HHP:4510	Energetics in Health and Disease	3

Research Area

Course #	Title	Hours
All of these:		
HHP:3994	Undergraduate Research	3-6
or HHP:4900 & HHP:4910	Honors Research and Honors Research II	
HHP:4800	Research Methods	3

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall grade-point average (GPA) of at least 3.33 in work for

their major and a cumulative University of Iowa GPA of at least 3.33.

In order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4900 Honors Research and HHP:4910 Honors Research II; write an honors thesis that is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the human physiology major.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: calculus and at least six more courses in the major.

Before the seventh semester begins: at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two more courses in the major (total of 15).

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Enrollment in math courses requires completion of a placement exam.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Enrollment in chemistry courses requires completion of a placement exam.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Students opting to take HHP:2310 must complete other courses to satisfy the following GE requirements: Understanding Cultural Perspectives; and Values and Society.

h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

i This course must be completed at the University of Iowa.

j Students may declare an emphasis area in clinical physiology; neuromuscular physiology and metabolism; or research. Major elective requirements can be met by completing emphasis area courses. See the General Catalog for approved emphasis area course lists.

k Students complete at least 18 s.h. of major electives, of which 12 s.h. must be in HHP coursework; at least 6 s.h. will be taken from designated organ system-based courses and 3 s.h. from courses emphasizing integrative physiology. See the General Catalog for a list of approved elective courses.

l Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Sport and Recreation Management, BS

Learning Outcomes

Graduates will be able to:

- demonstrate knowledge of foundational sport and recreation management principles;
- apply and analyze financial, human resource, and facility management principles; marketing, communications, and sales strategies; and legal concepts to the sport and recreation industries;
- evaluate and explore career paths in the sport and recreation industries to identify where individual student strengths and interests will thrive;
- acquire knowledge in a concentration area within sport or recreation unique to individual student career objectives;
- express ideas clearly, logically, and persuasively in both oral and written formats; and
- demonstrate critical thinking and effective research methods; and
- apply teamwork, project management, and presentation principles to unique sport and recreation organization business challenges.

Requirements

The Bachelor of Science with a major in sport and recreation management requires a minimum of 120 s.h., including 48 s.h. of work for the major (27 s.h. in sport and recreation management, 12 s.h. in a concentration area, and 9 s.h. in field experience). Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The Bachelor of Science in sport and recreation management prepares students to make meaningful contributions to the sport and recreation industry at all levels and broaden their understanding and appreciation of the sport and recreation industry.

The curriculum challenges students to think critically and creatively while developing analytical, rhetorical, and research abilities that are required for leadership positions in the sport and recreation industry. Moreover, the program emphasizes and provides experiential learning opportunities for a student's application of concepts and skills in professional settings to enhance learning and development.

Students who earn a BS in sport and recreation management may not earn the minor in sport and recreation management.

Online Degree Option

The Department of Health, Sport, and Human Physiology offers an online BS degree in sport and recreation management. The online program enables students to complete their BS degree from anywhere in the world. For more information, see Online Bachelor of Science in Sport and Recreation Management on the sport and recreation management website, or contact the Department of Health, Sport, and Human Physiology directly.

Degree Requirements

The BS with a major in sport and recreation management requires the following coursework.

Requirements	Hours
Foundation Courses	27
Field Experience	9
Concentration Area Courses	12

Foundation Courses

Course #	Title	Hours
All of these:		
SRM:1060	Contemporary Issues in Sports	3
SRM:3157	Managerial Operations in Sport and Recreation	3
SRM:3175	Sales in Sport	3
SRM:3178	Communications and Public Relations in Sports	3
Students must have completed 30 s.h. before they enroll in the following:		
SRM:3151	Liability in Sport and Recreation	3
SRM:3152	Design and Management of Sport and Recreation Facilities	3
SRM:3153	Sport Business Practices	3
SRM:3158	Sport and Recreation Promotion	3
SRM:3172	Finance in Sport and Recreation	3

Field Experience

Students are required to complete a total of 9 s.h. of field experience (guided and/or independent) and must obtain prior approval from the director of field experience before performing any independent field experience for academic credit. See Independent Field Experience on the sport and recreation management website, or contact the Department of Health, Sport, and Human Physiology directly.

Field experience includes both guided and independent options. Guided experience sections are led by faculty who set learning objectives and outcomes with partner organizations. Courses have regular meeting times and faculty oversee and evaluate student engagement, participation, and completion.

Independent experience is student-initiated with an approved sport or recreation-affiliated organization, such as an internship. In consultation with the faculty and organization, a student sets the learning objectives for the duration of the experience. Faculty communicates with each student and site supervisor to evaluate student engagement, participation, and completion of learning objectives.

Both guided and independent field experience credit is based on 45 hours of field experience for each semester hour earned.

Course #	Title	Hours
SRM:4196	Interscholastic Athletic Administration Field Experience	1-9
SRM:4197	Sport and Recreation Field Experience	3

SRM:4199	Independent Sport and Recreation Field Experience	1-9

Concentration Areas

Students must complete 12 s.h. in one of the following concentration areas: business studies, coaching and sport instruction, entrepreneurship, event management, interscholastic athletic/activities administration, public and media relations, recreation management, organizational culture management, or the student-designed concentration that allows students to map out their own concentration with the approval of their advisor and faculty. Some of the concentration courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course. Prerequisite courses do not count toward the concentration unless also listed as a concentration course.

SRM:3200 Topics in Sport and Recreation Management can be used for certain concentration areas depending on the topic being taught. Students may request a waiver to allow a course that is not listed to count toward a concentration. All students should consult with sport and recreation management's academic advisor for details and approval prior to enrolling in SRM:3200 or any unlisted course for concentration credit.

- Business Studies [p. 533]
- Coaching and Sport Instruction [p. 533]
- Entrepreneurship [p. 535]
- Event Management [p. 536]
- Interscholastic Athletic/Activities Administration [p. 534]
- Public and Media Relations [p. 535]
- Recreation Management [p. 536]
- Organizational Culture Management [p. 537]
- Student-Designed Concentration [p. 537]

Business Studies

Course #	Title	Hours
Business studies concentration students select 12 s.h. from these:		
SRM:1085	Introduction to Travel and Tourism	3
SRM:2100	Professional Preparation for Careers in Sport: Building Your Playbook	1
SRM:3050	Collaborative Leadership in Sport and Recreation	3
SRM:3148	Interscholastic Activities and Athletics Administration	3
SRM:3150	Recreation Administration	3
SRM:3176	Sports Analytics for Decision Makers	3
SRM:3179	Podcasting for Sport and Recreation Professionals	3
SRM:3210	Event Bidding: Processes and Strategies	3
SRM:3240	Name, Image, and Likeness (NIL) in College Athletics	3
SRM:3300	Writing for Sport and Recreation Managers	3
SRM:3700	Ethics in Sport	3
SRM:4158	Advanced Sport Marketing	3
SRM:4198	NCAA Rules Compliance and Enforcement	3
SRM:4240	Name, Image, and Likeness (NIL): Simulated Agency Experience	3
ACCT:2100	Introduction to Financial Accounting	3
ARTS:1070	Elements of Graphic Design	3
BAIS:1500	Business Computing Essentials	2
BAIS:2800	Foundations of Business Analytics	3
CCP:1301	Communication for the Workplace	1
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
FIN:3000	Introductory Financial Management	3
JMC:3520	Business of Media: Profits, People, and Power	3
JMC:3530	Social Media Marketing	3
JMC:3540/ SMC:3540/ SPST:3181	The Business of Sport Communication	3
JMC:3710/ MUSM:3710	Fundraising Fundamentals	3
JMC:3720/ MUSM:3720	Nonprofit Communications	3
MGMT:2100	Introduction to Management	3
MGMT:3500/ ENTR:3595/ MUSM:3500/ NURS:3595/ RELS:3700/ SSW:3500	Nonprofit Organizational Effectiveness I	3
MGMT:4300	Leadership and Personal Development	3
MGMT:4600/ MUSM:4600	Nonprofit Ethics and Governance	3
MKTG:3000	Introduction to Marketing Strategy	3
MKTG:4200	Sales Management	3
MKTG:4201	Professional Selling	3
MKTG:4410	Customer Relationship Management	3
RHET:2095	Fundamental Strategies of Persuasion	3
SMC:2500/ SPST:2500	Sport and Technology	3
STAT:4580/ DATA:4580/ IGPI:4580	Data Visualization and Data Technologies	3

Coaching and Sport Instruction

In addition to the 12 s.h. concentration area requirement, students may also choose to complete the Certificate in Interscholastic Athletic/Activities Administration [p. 551], a 21 s.h. program.

Course #	Title	Hours
Coaching and sport instruction concentration students select 12 s.h. from these:		

SRM:1049	Foundations for Sport and Physical Activity: Catalyst for Sustainable Communities	3
SRM:3145	Leadership and Group Dynamics in Recreation and Sport	3
SRM:3146	Sports Officiating: Rules, Theories, and Issues	3
SRM:3149	Coaching Theory, Body Structure, and Human Development	3
SRM:3155	Prevention and Care of Athletic Injuries for Coaches	3
SRM:3176	Sports Analytics for Decision Makers	3
SRM:3700	Ethics in Sport	3
SRM:4198	NCAA Rules Compliance and Enforcement	3
DST:1101	Introduction to Disability Studies	3
EPLS:4200	Athletic Administration in Educational Settings	3
HHP:2100	Human Anatomy	3
HHP:2130	Human Development Through the Life Span	3
HHP:2200	Physical Activity and Health	3
HHP:2310	Nutrition and Health	3
HHP:3045	Physical Activity Psychology	3
HHP:3300	Human Growth and Motor Development	3
HHP:4310	Sport and Exercise Nutrition	3
TR:2061/HHP:2061	Recreation Leadership and Programming	3
Up to 6 s.h. from these:		
SRM:2100	Professional Preparation for Careers in Sport: Building Your Playbook	1
SRM:3050	Collaborative Leadership in Sport and Recreation	3
SRM:3143	Youth Sports Administration	3
SRM:3144	Program Design for Recreational Services	3
SRM:3148	Interscholastic Activities and Athletics Administration	3
SRM:3150	Recreation Administration	3
SRM:3179	Podcasting for Sport and Recreation Professionals	3
SRM:3210	Event Bidding: Processes and Strategies	3
SRM:3300	Writing for Sport and Recreation Managers	3
SRM:3800	Sport Law for Interscholastic Athletic Directors	3
SRM:4158	Advanced Sport Marketing	3
ARTS:1070	Elements of Graphic Design	3
CCP:1301	Communication for the Workplace	1
COMM:1819	Organizational Leadership	3
CSED:4111	Building Leadership and Success at Work	3
HPAS:1007	Basic CPR	1
HPAS:1008	Basic First Aid and CPR	1
HPAS:1010	Introduction to Workout Design	1
PSQF:3115	Sport and Performance Psychology	3
RHET:2085	Speaking Skills	3
SPST:2079/ AFAM:2079	Race and Ethnicity in Sport	3

Coaching Certification Process

University of Iowa students can become authorized to coach K–12 school-sponsored athletics in the state of Iowa by taking the following two courses. These courses prepare students for the statewide coaching authorization application only; students must take these courses and can opt to apply for certification as part of their coursework.

Course #	Title	Hours
SRM:3149	Coaching Theory, Body Structure, and Human Development	3
SRM:3155	Prevention and Care of Athletic Injuries for Coaches	3

Interscholastic Athletic/Activities Administration

Students interested in interscholastic athletic/activities administration may choose to pursue the 12 s.h. concentration area or the Certificate in Interscholastic Athletic/Activities Administration [p. 551], a 21 s.h. program. Students may not receive a BS in sport and recreation management with an interscholastic athletic/activities administration concentration and a Certificate in Interscholastic Athletic/Activities Administration. However, the certificate is compatible with the BS with other 12 s.h. concentrations, such as coaching and sport instruction. Students should consult the BS and certificate academic advisors to discuss which credential is appropriate.

Course #	Title	Hours
All of these (9 s.h.):		
SRM:3148	Interscholastic Activities and Athletics Administration	3
SRM:3800	Sport Law for Interscholastic Athletic Directors	3
EPLS:4200	Athletic Administration in Educational Settings	3
At least 3 s.h. from these:		
SRM:2100	Professional Preparation for Careers in Sport: Building Your Playbook	1
SRM:3146	Sports Officiating: Rules, Theories, and Issues	3
SRM:3147	Sport Event Management	3
SRM:3149	Coaching Theory, Body Structure, and Human Development (this course and SRM:3155 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3150	Recreation Administration	3

SRM:3155	Prevention and Care of Athletic Injuries for Coaches (this course and SRM:3149 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3176	Sports Analytics for Decision Makers	3
SRM:3179	Podcasting for Sport and Recreation Professionals	3
SRM:3210	Event Bidding: Processes and Strategies	3
SRM:3300	Writing for Sport and Recreation Managers	3
SRM:3700	Ethics in Sport	3
ARTS:1070	Elements of Graphic Design	3
COMM:1819	Organizational Leadership	3
CSED:4111	Building Leadership and Success at Work	3
EDTL:4940	Characteristics of Disabilities	3
JMC:1300	Introduction to Journalism and Strategic Communication	3
JMC:3530	Social Media Marketing	3
JMC:3710/ MUSM:3710	Fundraising Fundamentals	3
JMC:3720/ MUSM:3720	Nonprofit Communications	3
MGMT:3500/ ENTR:3595/ MUSM:3500/ NURS:3595/ RELS:3700/ SSW:3500	Nonprofit Organizational Effectiveness I	3
PSQF:1075	Educational Psychology and Measurement	3
PSQF:3115	Sport and Performance Psychology	3
PSQF:4134/ EDTL:4934	Parent-Teacher Communication	1-3
RHET:2085	Speaking Skills	3
SPST:2079/ AFAM:2079	Race and Ethnicity in Sport	3

Public and Media Relations

Course #	Title	Hours
Public and media relations concentration students take a 3 s.h. requirement:		
SRM:4178	Media Relations Strategy in Sport and Recreation	3
Public and media relations concentration students select 9 s.h. from these:		
SRM:2100	Professional Preparation for Careers in Sport: Building Your Playbook	1
SRM:3148	Interscholastic Activities and Athletics Administration	3
SRM:3150	Recreation Administration	3
SRM:3179	Podcasting for Sport and Recreation Professionals	3
SRM:3210	Event Bidding: Processes and Strategies	3
SRM:3300	Writing for Sport and Recreation Managers	3
SRM:3700	Ethics in Sport	3
SRM:4198	NCAA Rules Compliance and Enforcement	3
ARTS:1070	Elements of Graphic Design	3
CNW:1620	Introduction to Creative Nonfiction	3
COMM:1840	Introduction to Media Production	3
COMM:1898/ LATS:1898	Introduction to Latina/o/x Communication and Culture	3
COMM:2064	Media, Advertising, and Society	3
JMC:1100	Introduction to Media Effects	3
JMC:1300	Introduction to Journalism and Strategic Communication	3
JMC:1500	Introduction to Social Media	3
JMC:2101/ AMST:2101/ SMC:2101/ SPST:2101	Digital Media and the Future of Sport	3
JMC:3122	Influencers, Artificial Intelligence, and Digital Games	3
JMC:3182/ SMC:3182/ SPST:3182	Sport, Scandal, and Strategic Communication in Media Culture	3
JMC:3183/ SPST:3175	Sport and the Media	3
JMC:3412	Strategic Communication Writing	4
JMC:3510	Media and Marketing Research	3
JMC:3520	Business of Media: Profits, People, and Power	3
JMC:3530	Social Media Marketing	3
JMC:3540/ SMC:3540/ SPST:3181	The Business of Sport Communication	3
JMC:3720/ MUSM:3720	Nonprofit Communications	3
RHET:2085	Speaking Skills	3
SMC:1050/JMC:1050	Sport and the Media	3
SPST:2079/ AFAM:2079	Race and Ethnicity in Sport	3

Entrepreneurship

Course #	Title	Hours
Entrepreneurship concentration students select 12 s.h. from these:		
SRM:1085	Introduction to Travel and Tourism	3
SRM:2100	Professional Preparation for Careers in Sport: Building Your Playbook	1
SRM:3050	Collaborative Leadership in Sport and Recreation	3
SRM:3150	Recreation Administration	3
SRM:3176	Sports Analytics for Decision Makers	3

SRM:3179	Podcasting for Sport and Recreation Professionals	3
SRM:3210	Event Bidding: Processes and Strategies	3
SRM:3240	Name, Image, and Likeness (NIL) in College Athletics	3
SRM:3300	Writing for Sport and Recreation Managers	3
SRM:3700	Ethics in Sport	3
SRM:4158	Advanced Sport Marketing	3
SRM:4240	Name, Image, and Likeness (NIL): Simulated Agency Experience	3
ARTS:1070	Elements of Graphic Design	3
BAIS:1500	Business Computing Essentials	2
COMM:1818	Communication Skills for Leadership	3
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
EDTL:3715	Experiential Teaching and Learning	3
ENTR:1350	Foundations in Entrepreneurship	3

RHET:2085	Speaking Skills	3
SPST:2079/ AFAM:2079	Race and Ethnicity in Sport	3

Event Management

Students who aspire to work in the field of event management may earn one or both of the following credentials: the event management concentration (12 s.h.) and/or the Certificate in Event Management [p. 466] (21 s.h.). It is strongly recommended that students consult the sport and recreation management undergraduate academic advisor and a member of the Certificate in Event Management committee to discuss which credential is appropriate.

Students who wish to earn both credentials must take SRM:3154 Foundations of Event Management and cannot substitute EVNT:3154 Foundations of Event Management to count toward the concentration. They must also take SRM:3147 Sport Event Management and cannot substitute EVNT:3260 Event Management Workshop.

Course #	Title	Hours
Both of these:		
SRM:3147	Sport Event Management	3
SRM:3154	Foundations of Event Management	3
At least 6 s.h. from these:		
SRM:1085	Introduction to Travel and Tourism	3
SRM:2100	Professional Preparation for Careers in Sport: Building Your Playbook	1
SRM:3146	Sports Officiating: Rules, Theories, and Issues	3

SPAN:2700/ IS:2700/LAS:2700/ PORT:2700	Introduction to Latin American Studies	3
SPST:1074/ AMST:1074/ GWSS:1074	Inequality in American Sport	3
SPST:2078/ GWSS:2078	Women, Sport, and Culture	3
SPST:2079/ AFAM:2079	Race and Ethnicity in Sport	3
SPST:2170	Sport and Globalization	3
TR:3261/HHP:3261	Inclusive Recreation	3

Student-Designed Concentration

If a student wishes to develop a concentration area focused on a specialized area that is not covered by an existing concentration area, the student must consult with an advisor in the sport and recreation management program. After consultation, the student must submit a written proposal to the sport and recreation management program director for approval. The proposal should provide a rationale for, and description of, the student-designed concentration, including proposed courses. The proposal must be approved before the start of the semester in which the student wishes to use the concentration for graduation.

The concentration requires at least 12 s.h. of coursework. Self-designed concentrations may not include coursework that was used to complete GE CLAS Core or field experience requirements.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a major GPA of at least 3.50, and earn a grade of at least a B-plus in SRM:4195 Honors Problems. During SRM:4195 Honors Problems, the student works on a project under the supervision of a program faculty member. For additional information, visit BS in Sport and Recreation Management on the Department of Health, Sport, and Human Physiology website or contact the sport and recreation management program director.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the sport and recreation management major.

Career Advancement

Sport and recreation management majors find employment in municipal or campus recreation; interscholastic, high school, or college athletic administration; intramural departments; community private clubs or community parks and recreation departments; nonprofit organizations; armed forces recreation; professional or Olympic sports organizations; commercial fitness businesses; and in firms specializing in sport marketing or sport sponsorship. The sport and recreation management faculty provides individual mentoring to students and offers several opportunities for students to connect with industry professionals throughout the year to learn about internships and jobs.

Experiential learning in the sport and recreation management program in the Department of Health, Sport, and Human Physiology assists students in finding their specific connection to the industry. The Pomerantz Career Center also offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: four foundation courses, at least 3 s.h. in the concentration area, and 3 s.h. in a field experience course.

Before the seventh semester begins: two more foundation courses (total of six), an additional 6 s.h. in the concentration area, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two more foundation courses (total of eight), an additional 3 s.h. in a field experience course, and one remaining concentration area course (3 s.h.).

During the eighth semester: enrollment in the final 3 s.h. in a field experience course, all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

d SRM:2100 is not required for the major but is strongly recommended as a way to connect with the program and be prepared for the field experience opportunities.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

f Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Therapeutic Recreation, BS

Therapeutic recreation is a professional field that involves providing recreation programs designed to improve or maintain the physical, emotional, mental, and social functioning of patients and consumers. Therapeutic practice involves a continuum of services that use recreational activities to improve functional abilities; leisure education to help individuals acquire skills, knowledge, and attitudes that facilitate an independent lifestyle; and other programs to enhance health, growth, development, and independence through intrinsically rewarding leisure activities. Additionally, inclusive recreation provides opportunities for people with all abilities and disabilities to participate together in meaningful and purposeful therapeutic recreation programs based on choice and common interests.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Learning Outcomes

The BS degree in therapeutic recreation:

- instills an understanding and appreciation of leisure, recreation, and play in various settings;
- prepares students for professional fields and/or graduate study through the integration of research and critical thinking;
- provides service and experiential learning to enhance students' leadership strengths and their ability to build therapeutic relationships;
- teaches critical skills necessary to assess, plan goals, design appropriate interventions, and evaluate effectiveness;
- instructs students in the practice of inclusion for persons of various abilities and backgrounds; and
- teaches students how to facilitate therapeutic recreation programs.

Requirements

The Bachelor of Science with a major in therapeutic recreation requires a minimum of 120 s.h., including 58–66 s.h. of work for the major, which varies by track. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The therapeutic recreation program prepares students for professional work with persons in various populations and as advocates for participant inclusion. The major emphasizes the use of a systematic process of assessment, planning, implementation, and evaluation to provide opportunities for recreation, leisure, and play.

The curriculum consists of two tracks designed to allow students to acquire in-depth knowledge in their chosen area of interest. The courses in each track provide an opportunity for students to tailor the degree to best fit their career goals and academic interests. The inclusive recreation track (58–63 s.h.) allows students to gain knowledge in a variety of domains related to adaptive recreation. Students may choose to focus on a certain client population or vary their experience through their curriculum design. The National Council on Therapeutic Recreation Certification (NCTRC) track (63–66 s.h.) focuses on developing therapeutic recreation competencies necessary to sit for the National Council on Therapeutic Recreation Certification examination and successfully pursue a career in clinical or community therapeutic recreation.

The BS with a major in therapeutic recreation requires the following coursework.

Requirements	Hours
Core Courses	33-36
Track Requirements (varies by track)	25-30

Students in both tracks are required to complete the following core courses, as well as additional courses required specifically for their track.

Core Courses

Course #	Title	Hours
This course:		
PSY:1001	Elementary Psychology	3
One of these:		
HHP:2130	Human Development Through the Life Span	3
NURS:1030	Human Development and Behavior	3
One of these:		
PSY:2501	Introduction to Social Psychology	3
SOC:1010	Introduction to Sociology	3
One of these:		
HHP:1400	Human Anatomy and Physiology	3
HHP:2100 & HHP:2400	Human Anatomy and Fundamentals of Human Physiology	6
One of these:		
TR:1800/ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800	Aging Matters: Introduction to Gerontology	3
TR:3175/HHP:3175	Physical Activity and Recreation for Aging Populations	3
All of these:		
TR:1070	Leisure, Play, and the Human Experience	3
TR:2061/HHP:2061	Recreation Leadership and Programming	3
TR:2077	Children and Families in Healthcare	3
TR:2160	Introduction to Therapeutic Recreation	3
TR:3162	Therapeutic Recreation: Clientele	3
TR:3261/HHP:3261	Inclusive Recreation	3

Tracks

Students select one of the following tracks and complete the requirements.

Inclusive Recreation Track

Requirements—Inclusive Recreation Track

Inclusive recreation in community-based settings is the fastest-growing area of practice in therapeutic recreation and the most varied. Community-based inclusive recreation specialists may be affiliated with community recreation departments, adaptive sports programs, school systems, independent living support services, special recreation associations, and community mental health agencies. The goals of inclusive recreation in community-based settings include enhancing quality of life, leisure education, health protection, the pursuit of positive health outcomes, and community integration in recreation programs.

Students who complete this track are not eligible for the National Council on Therapeutic Recreation Certification exam or for the Certified Therapeutic Recreation Specialist credential.

Students earn a minimum of 25–27 s.h. in this track. Coursework is selected around several themes relevant for foundational comprehension and practice in the field.

Inclusive Recreation Coursework

Course #	Title	Hours
Social Foundations		
Two of these:		
GWSS:3100	LGBTQ/Queer Studies	3
GWSS:3138/ SJUS:3138	Writing to Change the World	3
HIST:2250/ GWSS:2250/ SJUS:2250	The History of Social Justice Movements	3
SOC:1030	Contemporary Social Problems	3
SPST:1074/ AMST:1074/ GWSS:1074	Inequality in American Sport	3
SSW:1022/ SOC:1022	Social Justice and Social Welfare in the United States	3
SSW:3712/ NURS:3712	Human Sexuality, Diversity, and Society	3
Culture		
One of these:		
HHP:2280	Cultural Competency and Health	3
HHP:4280	Applied Cultural Safety and Healthcare	3
CCCC:2220	Foundations of Critical Cultural Competence	3
Disability Studies and Inclusive Interventions		
Both of these:		
TR:3300/HHP:3361	Animal-Assisted Interventions in the Helping Professions	3
DST:1101	Introduction to Disability Studies	3
Administration and Nonprofit		
One of these:		
TR:3262	Therapeutic Recreation Administration	3
MGMT:3500/ ENTR:3595/ MUSM:3500/ NURS:3595/ RELS:3700/ SSW:3500	Nonprofit Organizational Effectiveness I	3
SRM:3150	Recreation Administration	3
Human Interaction and Health Behavior		
This course:		
HHP:2200	Physical Activity and Health	3
One of these:		
TR:1010	Adapted Recreation and Physical Activity	1-3
HHP:4420	Planning and Evaluating Health Interventions	3
CSED:4175	Motivational Interviewing	3
CSED:4199	Counseling for Related Professions	3
Field Experience		
3 s.h. from these:		
TR:3164	Clinical Practice in Therapeutic Recreation	3
TR:4100	Practicum in Therapeutic Recreation	1-3
TR:4197/DST:4198/ HHP:4197	Therapeutic Recreation: Experiences in Adaptive and Inclusive Sports	3
ABRD:3712	Child Life Experiential Learning Program	3
CCP:1201	Academic Internship	1-3

NCTRC Certification Track

Requirements

Certified therapeutic recreation specialists (CTRS) work in both clinical and community-based settings with a wide variety of client populations. The most common clientele groups include persons with mental illness, persons with spinal cord and brain injuries, older adults, individuals who experience chemical dependence and substance abuse, at-risk youth, and people with developmental disabilities. Settings often focus on psychiatric or physical rehabilitation where the therapist works with a team of allied health professionals to provide treatment through recreation- and leisure-based interventions. Services may also be provided in long-term care settings where the therapist works with the health care team to provide treatment interventions and recreation opportunities to enhance the quality of life for residents in nursing homes, memory care and assisted-living centers, or respite care agencies. Many certified therapeutic recreation specialists are also employed by community and nonprofit agencies that provide services for underrepresented populations.

This is a selective track; students earn 30 s.h. of coursework for the NCTRC certification track. To enter the track they must complete 24 s.h. at the University of Iowa (or 12 s.h. for transfer students) and must have a University of Iowa GPA of at least 2.50 and a cumulative GPA of at least 2.50. Entrance to the track can occur after completion of HHP:2100 Human Anatomy or HHP:1400 Human Anatomy and Physiology, TR:1070 Leisure, Play, and the Human Experience, and TR:2160 Introduction to Therapeutic Recreation. Students who complete this track, including the therapeutic recreation internship, are eligible to sit for the National Council for

Therapeutic Recreation Certification exam. Successful completion of the exam confers the Certified Therapeutic Recreation Specialist (CTRS) credential. Students must earn a C-minus or higher in all prerequisite courses prior to admission to the NCTRC track.

NCTRC Certification Coursework

Course #	Title	Hours
All of these (17 s.h.):		
TR:3161	Assessment and Evaluation in Therapeutic Recreation	3
TR:3163	Concepts and Issues in Therapeutic Recreation: Advancement of the Profession	3
TR:3164	Clinical Practice in Therapeutic Recreation	3
TR:3262	Therapeutic Recreation Administration	3
CLSA:3750	Medical and Technical Terminology	2
PSY:2930	Abnormal Psychology: Health Professions	3

Field Experience

Course #	Title	Hours
Both of these (13 s.h.):		
TR:4190	Preinternship Seminar	1
TR:4191	Therapeutic Recreation Internship	12

Combined Programs

BS/MS in Health and Human Physiology (Child Life Subprogram)

The combined program allows qualified students to begin work toward a master's degree while they complete their bachelor's degree. It permits students to count certain courses toward both degrees, completing them in less time than they would need to complete each degree separately.

The completion of the two degrees in five years is designed for students who wish to pursue a career providing services to children and their families, primarily in the health care field. Graduates are eligible to be credentialed professionals in child life (certified child life specialist). They fill positions such as child life specialist, activity director, or administrative positions.

Students follow the standard curriculum of their BS degree the first two years and complete all the prerequisite courses for the MS in health and human physiology with a child life subprogram during the third year. Successful students receive a BS at the end of the fourth year and an MS at the end of the fifth year.

Applicants to the combined program must:

- be enrolled as a BS student at the University of Iowa;
- have completed a minimum of 80 s.h. at the time of admission to the combined program, with at least 30 s.h. earned at the University of Iowa;
- have completed all GE CLAS Core requirements and all prerequisites; and
- have a cumulative University of Iowa grade-point average of at least 3.25.

Applicants must submit a letter of application to the program that includes a statement of purpose, a résumé, documentation of paid or volunteer experience in a child life and/or pediatric health care setting, and three letters of recommendation.

Each application is reviewed by the program and requires support from the applicant's undergraduate advisor. Recommendations for approval will be sent to Graduate Admissions. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

For more information about applying to the combined program, contact the child life program in the Department of Health, Sport, and Human Physiology.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall grade-point average (GPA) of at least 3.33 in work for their major and a cumulative University of Iowa GPA of at least 3.33.

In order to graduate with honors, students must successfully complete TR:4194 Honors Readings and TR:4195 Honors Problems, in which they conduct a reading or research project under the supervision of a faculty member in their major and write a paper summarizing the project's results.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the therapeutic recreation major.

Career Advancement

Graduates find jobs in a variety of settings. Therapeutic recreation professionals are employed in settings such as skilled nursing facilities, community recreation centers, state and community mental health institutions, general medical hospitals, physical rehabilitation centers, special recreation districts, the Special Olympics, correctional facilities, senior living communities, facilities for persons with intellectual disabilities or mental illness, substance abuse programs, and camp programs as inclusion specialists. The majority of children’s hospitals and pediatric units in other health care facilities employ child life specialists to address cognitive, social, and psychological issues associated with child illness and hospitalization. Child life specialists also work in rehabilitation centers, private practice and consulting, school systems, special-purpose camps, and hospices.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: eleven courses.

Before the seventh semester begins: two more major requirement courses, 3 s.h. of supporting coursework, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two more major requirement courses and the remaining supporting coursework.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Hours	**15**
	Total Hours	**122-135**

a Fulfills a major requirement and may fulfill a GE requirement.

b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

d This course fulfills a themed area within the Inclusive Recreation Track.

e Students must complete either HHP:1400 (3 s.h.) or both HHP:2100 and HHP:2400 (6 s.h.).

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g See the General Catalog for list of approved courses.

h Complete 3 s.h. of field experience coursework; see the General Catalog for list of approved courses.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

a The Academic Advising Center advises Therapeutic Recreation Interest students on prerequisite course planning. Students are advised for success, based on academic strength, not necessarily for a four year plan. Prerequisites may take more than two years to complete.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Fulfills a major requirement and may fulfill a GE requirement.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Completion of HHP:2100 or HHP:1400 is required for admission to the Therapeutic Recreation (NCTRC Certification) BS program.

g Students must complete either HHP:1400 (3 s.h.) or both HHP:2100 and HHP:2400 (6 s.h.).

h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

i Applicants for admission should use the application form on the Department of Health and Human Physiology website. Completed applications typically must be submitted in October for admission the following spring or in March for admission the following fall. For more information see your advisor.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

k Students who complete the curriculum, including the therapeutic recreation internship, are eligible to sit for the National Council for Therapeutic Recreation Certification exam. Successful completion of the exam confers the Certified Therapeutic Recreation Specialist (CTRS) credential.

Human Physiology, Minor

Requirements

The undergraduate minor in human physiology requires a minimum of 17 s.h. in Department of Health, Sport, and Human Physiology courses. Students must maintain a grade-point average of at least 2.00 in all courses taken for the minor and in all UI courses to earn the minor. Coursework in the minor may not be taken pass/nonpass. Transfer credit does not count toward the minor.

Students who earn a BS in human physiology may not earn the minor in human physiology.

The minor is designed to provide an in-depth study of human structure and function. Students must complete a human physiology course plus elective coursework as indicated in the "Electives" course list. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

The minor in human physiology requires the following coursework.

Core Course

Course #	Title	Hours
This course:		
HHP:3550	Human Physiology With Laboratory	5

Electives

Course #	Title	Hours
12 s.h. from these:		
HHP:3105	Anatomy for Human Physiology	3
HHP:3110	Advanced Anatomy Laboratory	2
HHP:3115	Anatomy for Human Physiology With Lab	5
HHP:3300	Human Growth and Motor Development	3
HHP:3450	Immunology in Health and Disease	3
HHP:4110	Advanced Human Anatomy Laboratory	4
HHP:4130	Skeletal Muscle Physiology	3
HHP:4150	Clinical Exercise Physiology	3
HHP:4230	Motor Learning: Theory and Application	3
HHP:4250	Human Pathophysiology	3
HHP:4260	Respiratory Pathophysiology	3
HHP:4300	Neurophysiology	3
HHP:4410	Integrative Physiology of Exercise	3
HHP:4450	Human Genetics and Disease	3-4
HHP:4460	Cardiovascular Physiology	3
HHP:4470/ASP:4470	Physiology of Aging	3
HHP:4510	Energetics in Health and Disease	3

Inclusive Recreation, Minor

Requirements

The undergraduate minor in inclusive recreation requires a minimum of 15 s.h., including at least 12 s.h. taken at the University of Iowa in courses offered by the Department of Health, Sport, and Human Physiology. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/non-pass.

Students who earn a Bachelor of Science degree with a major in therapeutic recreation, either the inclusive recreation track or National Council on Therapeutic Recreation Certification (NCTRC) track, may not earn the minor in inclusive recreation. Students who earn the Bachelor of Arts degree with a major in health studies may not earn the minor in inclusive recreation.

For the minor, students complete required courses that focus on various populations and interventions to promote inclusive recreation and participation in leisure.

The minor in inclusive recreation requires the following coursework.

Foundational Courses

Course #	Title	Hours
All of these:		
TR:1070	Leisure, Play, and the Human Experience	3
TR:2160	Introduction to Therapeutic Recreation	3
TR:3261	Inclusive Recreation	3

Electives

Students choose at least two courses (6 s.h.) from "Client Population Electives" and/or "Recreation Electives" that align with their interests.

Course #	Title	Hours
At least two of these (6 s.h.):		
Client Populations Electives		
DST:1101	Introduction to Disability Studies	3
HHP:2130	Human Development Through the Life Span	3
TR:1800/ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800	Aging Matters: Introduction to Gerontology	3
TR:2077	Children and Families in Healthcare	3
TR:3162	Therapeutic Recreation: Clientele	3
TR:3175/HHP:3175	Physical Activity and Recreation for Aging Populations	3
TR:3300	Animal-Assisted Interventions in the Helping Professions	3
Recreation Electives		
TR:2061	Recreation Leadership and Programming	3
TR:3262	Therapeutic Recreation Administration	3
TR:4197/DST:4198/ HHP:4197	Therapeutic Recreation: Experiences in Adaptive and Inclusive Sports	3
ABRD:3712	Child Life Experiential Learning Program	3

Lifestyle Medicine, Minor

Requirements

The minor in lifestyle medicine requires a minimum of 15 s.h. in the Department of Health, Sport, and Human Physiology, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor in lifestyle medicine focuses on whole-person health by providing students the knowledge, skill, and ability to help individuals improve their health and well-being and prevent the onset and/or progression of chronic diseases. The minor prepares students to incorporate the principles of evidence-based lifestyle medicine in health and wellness-related careers.

Students who earn a BA in health studies, a BS in health promotion, or a BS in exercise science may not earn the minor in lifestyle medicine. Students who earn a BS in human physiology may earn the minor in lifestyle medicine.

The minor requires the following coursework.

Core Courses

Course #	Title	Hours
All of these:		
HHP:2200	Physical Activity and Health	3
HHP:2310	Nutrition and Health	3
HHP:3030	Lifestyle Medicine	3

Electives

Course #	Title	Hours
Two of these:		
HHP:3045	Physical Activity Psychology	3
HHP:3050	Obesity	3
HHP:3200	Health Behavior and Health Promotion	3
HHP:4010	Behavioral and Clinical Health Assessment Laboratory	4
HHP:4020	Health Coaching	3

HHP:4365	Internship in Health Coaching	3
HHP:4490	International Health: Experiential Learning	3

Sport and Recreation Management, Minor

Requirements

The undergraduate minor in sport and recreation management requires a minimum of 15 s.h. in Department of Health, Sport, and Human Physiology courses, including at least 9 s.h. in courses numbered 3000 or above. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. A maximum of 3 s.h. of transfer credit may be accepted toward the minor with the approval of the sport and recreation management program director.

Students who earn a BS in sport and recreation management may not earn the minor in sport and recreation management.

Online Option

The minor in sport and recreation management may be earned through coursework that is offered online. For more information, contact the Department of Health, Sport, and Human Physiology.

Requirements

The minor in sport and recreation management requires the following coursework.

Students take 15 s.h. from the following list, including at least one introductory course numbered 1000–1999 and at least 9 s.h. in coursework numbered 3000 or above. No more than 3 s.h. combined from SRM:4196 Interscholastic Athletic Administration Field Experience, SRM:4197 Sport and Recreation Field Experience, and SRM:4199 Independent Sport and Recreation Field Experience may count toward the minor.

Course #	Title	Hours
Between 3-6 s.h. from these:		
SRM:1046	Health for Happiness	3
SRM:1049	Foundations for Sport and Physical Activity: Catalyst for Sustainable Communities	3
SRM:1060	Contemporary Issues in Sports	3
SRM:1070	Recreation and Parks in the United States: Foundations and Impact	3
SRM:1085	Introduction to Travel and Tourism	3
At least 9 s.h. from these:		
SRM:2100	Professional Preparation for Careers in Sport: Building Your Playbook	1
SRM:3050	Collaborative Leadership in Sport and Recreation	3
SRM:3143	Youth Sports Administration	3
SRM:3144	Program Design for Recreational Services	3
SRM:3145	Leadership and Group Dynamics in Recreation and Sport	3
SRM:3146	Sports Officiating: Rules, Theories, and Issues	3
SRM:3147	Sport Event Management	3
SRM:3148	Interscholastic Activities and Athletics Administration	3
SRM:3149	Coaching Theory, Body Structure, and Human Development (this course and SRM:3155 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3150	Recreation Administration	3
SRM:3151	Liability in Sport and Recreation	3
SRM:3152	Design and Management of Sport and Recreation Facilities	3
SRM:3153	Sport Business Practices	3
SRM:3154	Foundations of Event Management	3
SRM:3155	Prevention and Care of Athletic Injuries for Coaches (this course and SRM:3149 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3157	Managerial Operations in Sport and Recreation	3
SRM:3158	Sport and Recreation Promotion	3
SRM:3172	Finance in Sport and Recreation	3
SRM:3175	Sales in Sport	3
SRM:3176	Sports Analytics for Decision Makers	3
SRM:3178	Communications and Public Relations in Sports	3
SRM:3179	Podcasting for Sport and Recreation Professionals	3
SRM:3200	Topics in Sport and Recreation Management	3
SRM:3210	Event Bidding: Processes and Strategies	3
SRM:3240	Name, Image, and Likeness (NIL) in College Athletics	3
SRM:3300	Writing for Sport and Recreation Managers	3
SRM:3700	Ethics in Sport	3
SRM:3800	Sport Law for Interscholastic Athletic Directors	3
SRM:4158	Advanced Sport Marketing	3
SRM:4178	Media Relations Strategy in Sport and Recreation	3
SRM:4198	NCAA Rules Compliance and Enforcement	3
SRM:4240	Name, Image, and Likeness (NIL): Simulated Agency Experience	3
May include a maximum of 3 s.h. from these:		

SRM:4196	Interscholastic Athletic Administration Field Experience	1-3
SRM:4197	Sport and Recreation Field Experience	3
SRM:4199	Independent Sport and Recreation Field Experience	1-3

Interscholastic Athletic/ Activities Administration, Certificate

Requirements

The undergraduate Certificate in Interscholastic Athletic/ Activities Administration requires a minimum of 21 s.h. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

The certificate is an option for educators and other professionals who already have a degree but may wish to pursue career opportunities in interscholastic athletics/ activities administration. Students who want to earn the certificate and do not want to pursue a degree may apply as nondegree students.

Students may transfer up to 9 s.h. of credit toward certificate completion. Contact the Department of Health, Sport, and Human Physiology for guidance on submitting courses from other institutions that may be approved for certificate credit. Field experience taken elsewhere is not eligible for use toward the certificate.

Some courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

The Certificate in Interscholastic Athletic/Activities Administration requires the following coursework.

Core Courses

Course #	Title	Hours
All of these:		
SRM:3148	Interscholastic Activities and Athletics Administration	3
SRM:3700	Ethics in Sport	3
SRM:3800	Sport Law for Interscholastic Athletic Directors	3
EPLS:4200	Athletic Administration in Educational Settings	3

Field Experience

Field experience is essential to the completion of the National Interscholastic Athletic Administrators Association (NIAAA) requirements for first-level certification as a registered athletic administrator (RAA). Students must complete a minimum of 3 s.h. in the following course with an approved partner and oversight from Experiential Learning (sport and recreation management) in the Department of Health, Sport, and Human Physiology.

Course #	Title	Hours
SRM:4196	Interscholastic Athletic Administration Field Experience	arr.

Electives

Students select a minimum of 6 s.h. from the following.

Course #	Title	Hours
SRM:3146	Sports Officiating: Rules, Theories, and Issues	3
SRM:3147	Sport Event Management	3
SRM:3149	Coaching Theory, Body Structure, and Human Development (this course and SRM:3155 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3150	Recreation Administration	3
SRM:3155	Prevention and Care of Athletic Injuries for Coaches (this course and SRM:3149 together allow students to apply for state of Iowa coaching authorization)	3
SRM:3176	Sports Analytics for Decision Makers	3
SRM:3200	Topics in Sport and Recreation Management (when topic is the politics of sports)	3
SRM:3210	Event Bidding: Processes and Strategies	3
ARTS:1070	Elements of Graphic Design	3
COMM:1819	Organizational Leadership	3
EDTL:4940	Characteristics of Disabilities	3
EPLS:4180	Human Relations for the Classroom Teacher	3
EPLS:6201	Foundations of School Administration	3
JMC:1300	Introduction to Journalism and Strategic Communication	3
PSQF:1075	Educational Psychology and Measurement	3
PSQF:3115	Sport and Performance Psychology	3
PSQF:4134/ EDTL:4934	Parent-Teacher Communication	1-3
RHET:2085	Speaking Skills	3

Sport and Recreation Management, MA

Learning Outcomes

Graduates will be able to:

- apply and analyze financial and risk management principles and marketing and promotion strategies in the sport and recreation industries;
- demonstrate a comprehensive understanding of leadership principles in the sport and recreation industries;
- demonstrate a comprehensive understanding of the experience economy and its application in the sport and recreation industries;
- demonstrate the ability to perform research for and apply findings to the sport and recreation industries;
- express ideas clearly, logically, and persuasively in both oral and written formats;
- demonstrate critical thinking, teamwork, project management, and presentation principles to unique sport and recreation organization challenges;
- develop a career objective and begin to implement a clear plan for achieving it; and
- demonstrate an understanding of and the ability to apply ethical decision-making to sport and recreation industry challenges.

Requirements

The Master of Arts program in sport and recreation management requires a minimum of 30 s.h. Required coursework (21 s.h.) includes experiential learning in a field experience course and a capstone course that allows students to perform research in an area of interest that has practical application during the final semester before graduation.

The MA in sport and recreation management requires the following coursework.

Required Courses

Course #	Title	Hours
All of these:		
SRM:4197	Sport and Recreation Field Experience	3
or SRM:4199	Independent Sport and Recreation Field Experience	
SRM:6250	Research in Sport and Recreation	3
SRM:6251	Risk Management	3
SRM:6252	Economics and Financing	3
SRM:6253	Sport Administration	3
SRM:6254	Marketing and Sport Promotion	3
SRM:6255	Capstone Project	3

Electives

Students must complete 9 s.h. in elective coursework selected in consultation with an advisor. Students may select electives from the following list or propose alternative elective courses numbered 3000 or above to be taken with advisor approval.

In addition to the courses listed, students may apply to the elective requirement a maximum of 3 s.h. total from SRM:4197 Sport and Recreation Field Experience and SRM:4199 Independent Sport and Recreation Field Experience.

Course #	Title	Hours
Sport and recreation management courses (prefix SRM) numbered 3144-4158		
SRM:4178	Media Relations Strategy in Sport and Recreation	3
SRM:4198	NCAA Rules Compliance and Enforcement	3
SRM:4240	Name, Image, and Likeness (NIL): Simulated Agency Experience	3
CSED:4140	Foundations of Leadership for Community Agencies	3
CSED:4174	Positive Psychology	3
EALL:4130/ MUSM:4150	Introduction to Grant Writing	3
EPLS:4200	Athletic Administration in Educational Settings	3
EPLS:5250	Introduction to Higher Education and Student Affairs	3
EPLS:5252	Administration of Higher Education and Student Affairs	3
EPLS:5278	Helping Skills in Student Affairs Work	3
EPLS:6216	Finance in Higher Education	3
JMC:3182/ SMC:3182/ SPST:3182	Sport, Scandal, and Strategic Communication in Media Culture	3
JMC:3183/ SPST:3175	Sport and the Media	3
JMC:3710/ MUSM:3710	Fundraising Fundamentals	3
JMC:5220	Foundations of Strategic Communication	3
JMC:5225	Digital Strategic Communication	3
JMC:5260	Digital Analytics for Strategic Communication	3
JMC:5269	Media Management for Strategic Communicators	3
LAW:8879	Sports Law	2-3
LAW:8880	Baseball Salary Arbitration	1-3
LAW:8881	College Athletics Infractions Process	1-2
MGMT:9150/ HMP:6360/ PBAF:6278/ RELS:6070/ SPST:6010/ SSW:6247/ URP:6278	Nonprofit Organizational Effectiveness I	3

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants must also meet sport and recreation management program requirements, which include:

- a U.S. baccalaureate degree from a regionally accredited college or university or an equivalent degree from another country as determined by Admissions;
- a minimum grade-point average of at least 3.00 or the international equivalent as determined by Admissions;
- a personal statement;
- three letters of recommendation; and
- a résumé.

Application deadlines are:

- Fall semester—Feb. 1
- Spring semester—Oct. 1
- Summer session—Feb. 1

Applications submitted after the deadline will be considered only if there is available space.

Career Advancement

Through academic coursework, practical experience, an individualized capstone project, and a network of industry contacts, the program is designed to help students achieve their unique professional and educational goals. Alumni find employment in such settings as professional team front offices, college and high school athletic departments, campus and community recreation programs, agencies serving sport and recreation clients, league offices, coaching, and in a number of other areas.

The faculty provides individual mentoring to students and offers several opportunities for students to connect with industry professionals throughout the year to learn about internships and jobs.

Experiential Learning in the sport and recreation management program in the Department of Health, Sport, and Human Physiology assists students in finding their specific connection to the industry. The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Students must complete 9 s.h. in elective coursework; see the General Catalog for list of approved courses. May apply a maximum total of 3 s.h. from SRM:4197 and SRM:4199. Work with faculty advisor to determine appropriate graduate elective coursework and sequence.

c Includes oral and written components.

Health and Human Physiology, MS

The MS in health and human physiology is offered with three subprograms. The child life subprogram provides expertise in child development through services to support families and to promote children's mastery of life experiences, particularly children's health care events. Professionals in this area enhance effective coping skills through play, education, communication, and family-centered care. The program prepares students to meet credentialing requirements. For more information about the profession, visit the Association of Child Life Professionals.

The clinical exercise physiology subprogram provides advanced scientific and clinical education. It prepares students to be allied health professionals who work in the application of physical activity and behavioral interventions for clinical diseases and health conditions including cardiovascular, pulmonary, metabolic, orthopedic, neuromuscular, immunologic, and hematologic diseases.

Learning Outcomes

Child Life Subprogram

Graduates will:

- demonstrate an understanding of developmental and psychosocial needs of children and families in health care settings and the assessment, planning, implementation, and documentation of developmentally appropriate child life interventions;
- demonstrate an understanding of stressful life experiences and coping techniques for children and families from a family systems perspective;
- demonstrate the ability to maintain relationships with children, families, peers, and an approach to teamwork and collaboration skills;
- demonstrate an understanding of therapeutic play and creating a therapeutic environment with opportunities in health care and community settings;
- demonstrate effective oral and written communication and strong critical thinking skills;
- learn to analyze and present research and evidenced-based practice related to children and families;
- prepare for the role of a certified child life specialist in hospitals and community-based facilities; and
- successfully complete a child life practicum, a child life internship, and meet all requirements and pass the certification exam.

Clinical Exercise Physiology Subprogram

Graduates will:

- demonstrate a comprehensive understanding of normal and abnormal cardiovascular, respiratory, and exercise physiology;
- demonstrate a comprehensive understanding of pharmacokinetics, mechanisms of action, indication, contraindication, and names of common cardiac, vascular, metabolic, pulmonary, hematological, and neurological drugs;
- demonstrate a comprehensive understanding of physical activity assessment, the major determinants of physical activity behaviors, and the application of physical activity behavior change strategies;
- demonstrate a comprehensive understanding of metabolic exercise testing and exercise prescription for healthy adults;
- demonstrate understanding of beginning and intermediate electrocardiography (ECG), exercise testing, and exercise prescription for adults with cardiovascular, pulmonary, or metabolic disease;
- demonstrate competency in clinical skills, including taking health screening, heart rate pulse, blood pressure, and pulse oximetry at rest and during exercise;
- understand basic research methods, study design, and statistical analysis; and
- read, interpret, and critique scientific papers in clinical exercise physiology.

MS in Health and Human Physiology Without Subprogram

Graduates will:

- demonstrate understanding and critical evaluation of the scholarly literature in the area of specialization within human physiology and/or health promotion;
- formulate testable research questions and hypotheses resulting in proper experimental study design and analysis plan;
- conduct quantitative or qualitative research including data collection, analysis, and interpretation of results in the context of current scientific knowledge; and
- present scientific results to the department, university, or regional/national scientific community.

Requirements

The Master of Science in health and human physiology requires 30–36 s.h. of graduate credit. Required credit varies by subprogram: the child life subprogram requires a minimum of 36 s.h. and is offered without a thesis; the clinical exercise physiology subprogram requires a minimum of 33 s.h. and is offered without a thesis; the MS program in health and human physiology without a subprogram requires a minimum of 30 s.h. and is offered with a thesis.

Students interested in pursuing a PhD after earning a master's degree should choose the MS in health and physiology program with a thesis.

Child Life Subprogram

The MS in health and human physiology with the child life subprogram requires the following coursework. All courses except PSQF:4143/STAT:4143 are required to be taken on an A–F graded basis.

Requirements	Hours
Child Life Core Courses	27
Child Life Internship	9
Comprehensive Exam	

Child Life Core Courses

Course #	Title	Hours
All of these:		
TR:5165	Child Life: Child Development and Healthcare Interventions	3
TR:5166	Child Life: Seminar	3
TR:5167	Child Life Practicum	3
TR:5211	Professional Ethics and Practice in Pediatrics	3
TR:5260	Play and Childhood	3
TR:5261	Family Systems	3
CSED:4131	Loss, Death, and Bereavement	3
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
One of these:		
HHP:6020	Advanced Research Methods	3
TR:5205	Research Methods and Play Behavior	3

Child Life Internship

Students take TR:5270 Child Life Internship for 9 s.h. The supervised internship requires 600 contact hours with a certified child life specialist.

Child Life Comprehensive Exam

Students who pursue the child life subprogram must successfully pass a comprehensive exam in the last semester prior to their child life internship. The comprehensive exam committee works with each student to develop exam questions.

Clinical Exercise Physiology Subprogram

The Master of Science with the clinical exercise physiology subprogram requires the following coursework. All courses except HHP:5935 Clinical Exercise Physiology Internship must be taken on an A–F graded basis.

Requirements	Hours
Clinical Exercise Physiology Core Courses	14-25
Statistics Course	3
Clinical Exercise Physiology Internship	3-6
Electives	0-13

Clinical Exercise Physiology Core Courses

Course #	Title	Hours
Both of these:		
HHP:6020	Advanced Research Methods	3
PCOL:3101	Pharmacology I: A Drug's Fantastic Journey	3
One of these:		
HHP:4020	Health Coaching	3
HHP:6030	Physical Activity and Dietary Behavior Change	3

With the permission of an advisor, students who have a prior undergraduate equivalent to any of these courses enroll in the 1 s.h. option.

Course #	Title	Hours
All of these:		
HHP:6150	Advanced Clinical Exercise Physiology	1,3
HHP:6200	Advanced Metabolic Exercise Testing and Prescription	1,4
HHP:6260	Advanced Respiratory Pathophysiology	1,3
HHP:6410	Advanced Integrative Physiology of Exercise	1,3
HHP:6460	Advanced Cardiovascular Physiology	1,3

Statistics Course

Course #	Title	Hours
One of these introductory courses (or equivalent with department approval):		
BIOS:4120	Introduction to Biostatistics	3
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
PSQF:6242	Selected Applications of Statistics	3
STAT:3510/ IGPI:3510	Biostatistics	3

Clinical Exercise Physiology Internship

Students complete an individually arranged internship, usually during their second year. They are required to enroll in HHP:5935 Clinical Exercise Physiology Internship for a minimum of 3 s.h. and are permitted to enroll in a maximum of 6 s.h.

Electives

Elective courses must bring the total credit for the degree to a minimum of 33 s.h.

Though any health, sport, and human physiology (prefix HHP) course numbered 3000 or above is approved as an elective option, students are strongly encouraged to select from the following courses, as it enhances their concentration in human and exercise physiology, clinical exercise physiology, prescriptive exercise and training for health and fitness, health maintenance, and understanding human disease.

Course #	Title	Hours
HHP:4420	Planning and Evaluating Health Interventions	3
HHP:5200	Physical Activity Epidemiology	3
HHP:6130	Advanced Skeletal Muscle Physiology	1,3
HHP:6470	Advanced Physiology of Aging	1,3
HHP:6510	Advanced Energetics in Health and Disease	1,3
HHP:7300	Advanced Sensorimotor Neurophysiology	1,3

The following courses outside the Department of Health, Sport, and Human Physiology are also approved elective

options. Additional elective options not listed here may be possible with the permission of the student's advisor.

Course #	Title	Hours
ACB:5203	Gross Human Anatomy for Graduate Students	5-6
EPID:6350	Nutritional Epidemiology	2
EPID:6360	Nutrition Intervention in Clinical Trials Research	2
EPID:6600	Epidemiology of Chronic Diseases	3
PSY:3340	Behavior Modification	3
PTRS:6224	Activity-Based Neural and Musculoskeletal Plasticity in Health Care	4
PTRS:7812	Biomedical Instrumentation and Measurement	3
PTRS:7875	Analysis of Activity-Based Neural and Musculoskeletal Plasticity	3

MS in Health and Human Physiology With Thesis

Students who intend to earn a PhD after completing the master's degree should choose the health and human physiology program with a thesis. In order to be admitted, students must hold a BS or BA degree with a GPA of at least 3.00. All courses are required to be taken on an A–F graded basis.

The MS in health and human physiology with thesis requires the following coursework.

Requirements	Hours
Required Courses	15
General Elective Courses	15

Required Courses

Course #	Title	Hours
One of these (or equivalent with department approval):		
BIOS:4120	Introduction to Biostatistics	3
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
PSQF:6242	Selected Applications of Statistics	3
STAT:3510/ IGPI:3510	Biostatistics	3
One of these:		
BIOS:5120/ IGPI:5120/ STAT:5610	Regression Modeling and ANOVA in the Health Sciences	3
PSQF:6243/ STAT:6513	Intermediate Statistical Methods	3
All of these:		
HHP:6020	Advanced Research Methods	3
HHP:6600	Professional Skills for Graduate Students Seminar (taken twice for 1 s.h. each)	2
HHP:7500	Thesis: MS	4

General Elective Courses

With guidance from an advisor, students choose 15 s.h. in elective courses that broaden their knowledge in health and human physiology and related disciplines and enhance their knowledge in their specific areas of interest.

Though any health, sport, and human physiology (prefix HHP) course numbered 3000 or above is approved as an elective option, students are strongly encouraged to select from the following.

Course #	Title	Hours
HHP:3050	Obesity	3
HHP:3450	Immunology in Health and Disease	3
HHP:4020	Health Coaching	3
HHP:4320	Nutrition Interventions	3
HHP:4365	Internship in Health Coaching	3
HHP:4390	Understanding Human Disease	3
HHP:4420	Planning and Evaluating Health Interventions	3
HHP:4450	Human Genetics and Disease	3-4
HHP:5200	Physical Activity Epidemiology	3
HHP:6000	Research	arr.
HHP:6030	Physical Activity and Dietary Behavior Change	3
HHP:6130	Advanced Skeletal Muscle Physiology	1,3
HHP:6150	Advanced Clinical Exercise Physiology	1,3
HHP:6200	Advanced Metabolic Exercise Testing and Prescription	1,4
HHP:6260	Advanced Respiratory Pathophysiology	1,3
HHP:6410	Advanced Integrative Physiology of Exercise	1,3
HHP:6460	Advanced Cardiovascular Physiology	1,3
HHP:6470	Advanced Physiology of Aging	1,3
HHP:6510	Advanced Energetics in Health and Disease	1,3
HHP:7300	Advanced Sensorimotor Neurophysiology	1,3

The following courses outside the Department of Health, Sport, and Human Physiology are also approved elective options. Additional elective options not listed here may be possible with the permission of the student's advisor.

Course #	Title	Hours
ACB:5203	Gross Human Anatomy for Graduate Students	5-6
BMB:3110	Biochemistry	3
EPID:4400	Epidemiology I: Principles	3
EPID:6350	Nutritional Epidemiology	2
EPID:6400	Epidemiology II: Advanced Methods	4

EPID:6600	Epidemiology of Chronic Diseases	3
MPB:5153	Graduate Physiology	4
PTRS:7812	Biomedical Instrumentation and Measurement	3
PTRS:7875	Analysis of Activity-Based Neural and Musculoskeletal Plasticity	3

Admission

Applicants to the MS program must have an undergraduate grade-point average (GPA) of at least 3.00. They also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Application deadline is Feb. 1 for admission the following fall.

Child Life Subprogram Admission

In order to be admitted to the subprogram, students must:

- hold a BS or BA degree with a GPA of at least 3.00;
- have completed one course each in human anatomy, medical terminology, and two courses in child development that focus on children and adolescents; and
- three letters of recommendation (e.g., from a certified child life specialist, professor, advisor, and/or someone who has observed the student working with children and families in health care or non-health care settings)

Students who have not completed an introductory course in child life must enroll in TR:2077 Children and Families in Healthcare during their first semester.

Clinical Exercise Physiology Subprogram

In order to be admitted to the subprogram, students must:

- hold a BS or BA degree with a GPA of at least 3.00; and
- have completed anatomy and physiology with laboratories (8 s.h.).

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Spring		
HHP:5935	Clinical Exercise Physiology Internship [f]	3
Elective course [g]		2
Exam: Master's Final Exam [h]		
	Hours	**5**
	Total Hours	**33**

a All courses except HHP:5935 must be taken on an A-F graded basis.
b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
c With the permission of an advisor, students who have a prior undergraduate equivalent to this course may enroll in the 1 s.h. option.
d If statistics course completed as an undergraduate, may be waived upon approval; otherwise choose one introductory course from BIOS:4120, PSQF:4143/STAT:4143, PSQF:6242, STAT:3510/IGPI:3510 and work with faculty advisor to determine which course to take.
e Work with faculty advisor to determine appropriate graduate elective coursework and sequence.
f Students complete an individually arranged internship, usually during their second year. They are required to enroll in HHP:5935 for a minimum of 3 s.h. and a maximum of 6 s.h.
g Work with faculty advisor to determine appropriate graduate elective coursework and sequence. Elective courses must bring the total credits for the degree up to a minimum of 33 s.h.
h Written one-day (4-6 hour) exam.

Health and Human Physiology, PhD

Learning Outcomes

Graduates will:

- demonstrate understanding and critical evaluation of the scholarly literature in the area of specialization within human physiology and/or health promotion;
- formulate testable research questions and hypotheses resulting in proper experimental study design and analysis plans;
- conduct quantitative or qualitative research including data collection, analysis, and interpretation of results in the context of current scientific knowledge;
- present research results in oral, poster, and/or written format to the scientific community;
- prepare a research grant or fellowship for an extramural federal, state, or private funding agency; and
- prepare original research manuscript(s) as the first author for submission to a peer-reviewed scientific journal.

Requirements

The Doctor of Philosophy in health and human physiology requires a minimum of 72 s.h. of graduate credit.

Doctoral students should have a strong background in the natural sciences and/or health promotion, and a working knowledge of statistics and research methodology. Students may acquire additional knowledge of statistics and research methodology after entering the program.

All PhD students complete a common core of courses, elective courses, 10 s.h. of independent research in HHP:6000 Research, and a 12 s.h. dissertation requirement in HHP:7900 Thesis: PhD. They must complete a dissertation in their specialization area.

Some courses in the program are offered by other departments. Faculty members from those departments frequently serve on comprehensive examination committees and on dissertation committees for the initial presentation of a candidate's prospectus. They also participate in the final examination.

The PhD in health and human physiology requires the following coursework.

Core Courses

Course #	Title	Hours
Both of these:		
HHP:6020	Advanced Research Methods	3
HHP:7000	Practicum in College Teaching (only for students without a teaching assistantship)	arr.

Introductory Statistics Course

Course #	Title	Hours
One of these:		
BIOS:4120	Introduction to Biostatistics	3
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
PSQF:6242	Selected Applications of Statistics	3
STAT:3510/ IGPI:3510	Biostatistics	3

Advanced Statistics Courses

Course #	Title	Hours
Two advanced statistics courses, such as the following (consult advisor):		
BIOS:5120/ IGPI:5120/ STAT:5610	Regression Modeling and ANOVA in the Health Sciences	3
PSQF:6243/ STAT:6513	Intermediate Statistical Methods	3

Seminar Course

Course #	Title	Hours
This course:		
HHP:6600	Professional Skills for Graduate Students Seminar (taken four times for 1 s.h. each)	4

General Electives

Students are expected to obtain broad-based knowledge in their specialization area. This normally entails approximately 30 s.h. of coursework. Students choose specialization electives with guidance from their advisor/mentor. Electives may include any of the following.

Course #	Title	Hours
HHP:4020	Health Coaching	3
HHP:4320	Nutrition Interventions	3
HHP:4365	Internship in Health Coaching	3
HHP:4420	Planning and Evaluating Health Interventions	3
HHP:5200	Physical Activity Epidemiology	3
HHP:6030	Physical Activity and Dietary Behavior Change	3
HHP:6130	Advanced Skeletal Muscle Physiology	1,3
HHP:6150	Advanced Clinical Exercise Physiology	1,3
HHP:6200	Advanced Metabolic Exercise Testing and Prescription	1,4
HHP:6260	Advanced Respiratory Pathophysiology	1,3
HHP:6310	Advanced Sport and Exercise Nutrition	3
HHP:6410	Advanced Integrative Physiology of Exercise	1,3
HHP:6460	Advanced Cardiovascular Physiology	1,3
HHP:6470	Advanced Physiology of Aging	1,3
HHP:6510	Advanced Energetics in Health and Disease	1,3

HHP:7300	Advanced Sensorimotor Neurophysiology	1,3
ACB:5203	Gross Human Anatomy for Graduate Students	5-6
BMB:3110	Biochemistry	3
BMB:3120	Biochemistry and Molecular Biology I	3
BMB:3130	Biochemistry and Molecular Biology II	3
EPID:4400	Epidemiology I: Principles	3
EPID:5241	Statistical Methods in Epidemiology	4
EPID:6100	Writing a Grant Proposal	3
EPID:6350	Nutritional Epidemiology	2
EPID:6400	Epidemiology II: Advanced Methods	4
EPID:6600	Epidemiology of Chronic Diseases	3
EPID:6900	Design of Intervention and Clinical Trials	3
FRRB:7000	Redox Biology and Medicine	4
MMED:6230	Pathogenesis of Metabolic and Cardiovascular Disorders	3
MPB:5153	Graduate Physiology	4
NSCI:7235/ NEUR:7235	Neurobiology of Disease	3
OEH:4310	Occupational Ergonomics: Principles	3
PCOL:3101	Pharmacology I: A Drug's Fantastic Journey	3
PCOL:3102	Pharmacology II: Mechanisms of Drug Action	3
PTRS:5210	Kinesiology and Pathomechanics	4
PTRS:6224	Activity-Based Neural and Musculoskeletal Plasticity in Health Care	4
PTRS:7812	Biomedical Instrumentation and Measurement	3
PTRS:7875	Analysis of Activity-Based Neural and Musculoskeletal Plasticity	3

Independent Research

Students must enroll in the independent research course.

Course #	Title	Hours
This course:		
HHP:6000	Research	10

Dissertation

Students working on a dissertation register for the following course.

Course #	Title	Hours
HHP:7900	Thesis: PhD	12

Admission

Applicants to the PhD program must have a grade-point average of at least 3.00 on undergraduate work and previous graduate work. They must also meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Application deadline is Feb. 1 for admission the following fall.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

History

Chair

- Colin Gordon

Director, Graduate Program

- Tom Arne Midtrød

Director, Undergraduate Program

- Elizabeth E. Yale

Undergraduate major: history (BA)

Undergraduate minor: history

Undergraduate certificates: Jewish studies; Medieval studies

Graduate degrees: MA in history; PhD in history

Faculty: https://history.uiowa.edu/people

Website: https://history.uiowa.edu/

History is the centerpiece of a humanities education. History unlocks important insights into the world we inhabit, understanding the past on its own terms. Drawing on the geographical breadth of the department's courses, history students develop a global consciousness as they develop key transferable skills such as critical thinking, communication, and empathy.

History faculty and students participate in many of the university's interdisciplinary programs and certificates, including African American Studies; American Studies; Classics; Gender, Women's, and Sexuality Studies; Global Health Studies; Jewish Studies; Languages, Literatures, Linguistics, and Cultures; Latina/o/x Studies; Medieval Studies; and Native American and Indigenous Studies.

Programs

Undergraduate Programs of Study

Major

- Major in History (Bachelor of Arts) [p. 574]

Minor

- Minor in History [p. 578]

Certificate

- Certificate in Jewish Studies [p. 579]

Graduate Programs of Study

- Master of Arts in History [p. 581]
- Doctor of Philosophy in History [p. 583]

Facilities

The University of Iowa Libraries offer excellent resources for undergraduate study in all fields of history, with distinct strengths in U.S. history. The Main Library houses the Henry A. Wallace papers and related collections, the Iowa Women's Archives, and other unique materials. Special Collections has a vast archive of both printed and digitized materials, including five decades of papers and work donated by TV news correspondent Tom Brokaw. The State Historical Society of Iowa in Iowa City and the Herbert Hoover Presidential Library and Museum in West Branch also hold valuable research materials. The Digital Scholarship and Publishing Studio is the repository for a wide range of digitized collections (including the Iowa Labor History Project) and offers assistance with projects in the digital humanities.

Courses

- History Courses [p. 562]
- Jewish Studies Courses [p. 573]

History Courses

History majors should take HIST:2151 Introduction to the History Major during their sophomore year or the first semester after they declare the major. First-year students planning to major in history may be admitted to HIST:2151 with permission from the director of undergraduate studies in the Department of History.

HIST:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

HIST:1010 History Matters 3 s.h.
How do we understand the past on its own terms and what is its relevance to the present? Introduction to historical thinking through a variety of topics. GE: Historical Perspectives.

HIST:1016 The History That Made Our World 3 s.h.
How does history help to explain our interconnected world? Introduction to international and global thinking through a variety of topics. GE: Historical Perspectives; International and Global Issues.

HIST:1025 Medieval Religion and Culture 3 s.h.
Religion in Europe from classical antiquity to dawn of the Reformation; the religious element in traditions such as art, architecture, literature. GE: Historical Perspectives. Same as RELS:1225.

HIST:1030 Introduction to Islamic Civilization 3 s.h.
Survey of texts, ideas, events, institutions, geography, communities, literature, arts, sciences, and cultures in Islamic communities and societies since the 7th century. GE: International and Global Issues. Same as RELS:1130.

HIST:1040 Diversity in History 3 s.h.
How did diversity affect past societies? How does history help us to understand diversity today? Introduction to thinking about diversity and inclusion; topics vary. GE: Understanding Cultural Perspectives.

HIST:1049 Introduction to Native American and Indigenous Studies 3 s.h.
Exploration of past, present, and future of American Indians in the United States and beyond through film, art, music, and comedy. GE: Values and Society. Same as AMST:1049, NAIS:1049.

HIST:1050 Modern Religion and Culture 3 s.h.
European and American religious life from Renaissance to 21st century; focus on specific themes, such as secularism, regionalism, pluralism. GE: Historical Perspectives. Same as RELS:1250.

HIST:1101 The Modern World 3 s.h.
How did today's globalized world come to be? Which aspects of globalization are new and which are inherited from the past? Taking a long-term perspective, this course traces the development and acceleration of global interdependence since the 14th century; how far-flung parts of the globe have been linked to one another, how long-distance connections affected the societies involved, and how individuals have experienced and contributed to such global networks; students develop an understanding of globalization's long history leading up to the present and of their place in contemporary global networks. GE: Historical Perspectives.

HIST:1115 The History of Oil 3 s.h.
Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Sustainability. GE: Historical Perspectives; Sustainability. Same as SEES:1115.

HIST:1166 Rapid Response History 1 s.h.
Bringing historians' expertise to bear on breaking news.

HIST:1261 American History to 1877 3 s.h.
America before European colonization; encounters between Native Americans, Europeans, and Africans in North America; the rise and decline of European imperial powers; the independence and expansion of the American republic; economic, political, and social change from the American Revolutionary era through Civil War and Reconstruction. GE: Historical Perspectives.

HIST:1262 American History 1877-Present 3 s.h.
America since Civil War and Reconstruction; politics, society, and culture from the post-Civil War decades through the Progressive Era, the Great Depression, and two world wars; the "Cold War" with Soviet communism abroad and at home, social protest movements and their influence on electoral politics, and the evolving economic and political role of U.S. in the world. GE: Historical Perspectives.

HIST:1290 Native American Foods and Foodways 3 s.h.
Native Americans as original farmers of 46% of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of Indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. GE: Understanding Cultural Perspectives. Same as AMST:1290, GHS:1290, NAIS:1290.

HIST:1401 The West and the World: Ancient 3 s.h.
Many consider Greece and Rome important influences for the modern West, but who influenced the Greeks and Romans? Students look to the ancient Near East, home to civilizations such as Egypt and the Babylonians, and investigate the formation of larger communities, study how peoples of the ancient Mediterranean viewed their world, follow the paths of Greeks and Romans, and end with Christianization of the Roman Empire, to not only understand the history of the period, but also learn how to think, read, and write critically. GE: Historical Perspectives.

HIST:1402 The West and the World: Medieval 3 s.h.
How have events of European history shaped modern institutions, politics, and culture worldwide, and how have other regions of the world shaped Europe? Students explore this question by tracing European history in a global context from the late Roman Empire to the 18th century to not only understand this history, but also learn how to read, write, and think critically about it. GE: Historical Perspectives.

HIST:1403 The West and the World: Modern 3 s.h.
Why are debates about Western Civilization so heated? What is the relationship between the West and other world regions? Exploration of the idea of "the West" as it evolved from interactions between modern Europe, its colonies, and other regions; overview of topics including politics, slavery, global economy, colonialism, migration, and cultural norms over the last 300 years. GE: Historical Perspectives; International and Global Issues.

HIST:1601 Civilizations of Asia: China From Origins to the 17th Century 3 s.h.
Introductory survey of Chinese history and civilization from its origins to 1800; exploration of traditions in politics, social organization, thought, religion, and culture. GE: Historical Perspectives. Same as ASIA:1601.

HIST:1602 Civilizations of Asia: China from the 17th Century to the Present 3 s.h.
Introductory survey of Chinese history from the 17th century to present; exploration of political, social, economics, and culture. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1602.

HIST:1604 Civilizations of Asia: Japan 3-4 s.h.
GE: Historical Perspectives; International and Global Issues. Same as ASIA:1604.

HIST:1606 Civilizations of Asia: South Asia 3-4 s.h.
Civilization of a vast region that includes India, Pakistan, Bangladesh, Nepal, and Sri Lanka. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1606, RELS:1606.

HIST:1607 Civilizations of Asia: Korea 3-4 s.h.
Introduction to Korean history and culture; how meanings of "Korea" and "Koreans" changed from ancient times to present; relevant issues of politics, society, and culture; events that shaped ancient Korean states—Koryo state (918-1392), the Choson dynasty (1392-1910), Japanese colonization (1910-1945), and the two Koreas (1945-present); how present perspectives on Korea have influenced understandings of its past. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1607.

HIST:1609 India Now! Surveying the World's Largest Democracy 3-4 s.h.
Introduction to India and its place in global economics, politics, religion, science, and culture since independence in 1947; India's contributions and adaptations to contemporary world, gender roles, changing sexual standards, and new ways India enters American lives—from globalized Bollywood films and music to new foods, fashions, and lifestyles; students examine the quiet revolution of affirmative action that has brought self-respect to millions, and market liberalization that has heightened economic inequality; consideration of ongoing challenges to world's largest democracy and contemporary efforts, both peaceful and violent, to address them. GE: Values and Society. Same as ASIA:1609.

HIST:1610 Introduction to Asian Religions 3 s.h.
Religious beliefs, practices in India, China, Japan. GE: Values and Society. Same as ASIA:1040, RELS:1404.

HIST:1612 Introduction to Buddhism 3 s.h.
Development of Buddhism in India, its spread across Asia, and arrival in the West; exploration of diverse Buddhist philosophies, practices, and cultures; readings from India, Tibet, China, Japan, Korea, and Southeast Asia. GE: Values and Society. Same as ASIA:1060, RELS:1506.

HIST:1708 Civilizations of Africa 3 s.h.
Introduction to the study of Africa; brief survey of African history; aspects of modern African life, including political and social issues, economic and health problems (including HIV/AIDS); classroom discussion of selected African films and assigned African novels. GE: Values and Society.

HIST:2148 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CLSA:2048, COMM:2248, GRMN:2248, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

HIST:2149 Introduction to Jewish Studies 3 s.h.
Introduction to the interdisciplinary field of Jewish studies; topics include history from ancient origins to the present, sociology of Jewish life in the U.S. and internationally, ethical and religious principles and practices, Jewish embeddedness in non-Jewish societies, and controversies within and surrounding the Jewish world. GE: Understanding Cultural Perspectives. Same as JSTU:2149, RELS:2240, SJUS:2240.

HIST:2150 Jews, Judaism, and Social Justice 3 s.h.
Jewish frameworks for grappling with justice and ethics from ancient world to present day; emphasis on internal diversity of Jewish experience as well as interactions with dominant and other minority cultures. Same as GWSS:2050, RELS:2250, SJUS:2050.

HIST:2151 Introduction to the History Major 3 s.h.
Topics vary; development of skills needed to succeed as a history major and post-graduation; exploration of diverse sources historians use (textual, visual, oral history, digital, material culture); examination of primary sources created by the people studied; analysis of how historians comb evidence to offer varying interpretations of controversies; how to frame historical questions, find and interpret relevant sources, integrate them into clear arguments; the ways history is used in public life (public service, education, policy making, political debate, information management, culture industry); students complete at least one graded paper to be included in history portfolio (HIST:3193). Requirements: history major.

HIST:2155 Global Jewish History 3 s.h.
Examines the Jewish experience in the modern period. Jewish history is global (the focus will be on Jews in the Middle East, Europe, the United States, and Latin America). Each community has participated in local politics and in the creation of local cultures, while remaining part of a Jewish Diaspora, held together to varying degrees by ethnic identity and religious tradition. Students will study how Jewish identity is constructed and how Jews negotiate their relationships with each other, with non-Jews in their local societies, and with other Jewish communities. GE: Understanding Cultural Perspectives. Same as JSTU:2155.

HIST:2156 Arabs and Jews in Palestine and Israel 3 s.h.
Examines relations between Muslim, Christian, and Jewish communities in Palestine during the Ottoman and Mandate periods, and between Jewish groups and Arab-Israelis after the establishment of the State of Israel in 1948. After an introduction to ethnicity, nationality, and religious identity from a theoretical perspective, focus will be on Ashkenazi Jews, Middle Eastern Jews, and Palestinian Arabs. Students will engage with important contemporary issues in Arab-Israel relations. GE: Understanding Cultural Perspectives. Same as JSTU:2156.

HIST:2190 The Book in Global History 3 s.h.
Introduction to history of the book and book arts in diverse global contexts; histories of visual and verbal media, cross-cultural exchange, and the book's impact across time and space; hands-on work with historical books and book arts including papermaking, woodblock and letterpress printing, and binding. GE: Historical Perspectives. Same as ENGL:2901, UICB:2190.

HIST:2195 Digital History Workshop 3-4 s.h.
Introduction to use of new media in historical research and writing; web-based publishing and blogging; photo, text, and video editing; digital mapping; curation of digital resources; projects may include short documentary videos, web development, mapping projects, or collaborative curation (identifying, digitizing, annotating artifacts or documents from university collections) in collaboration with UI Libraries Digital Research and Publishing.

HIST:2230 Fame and Celebrity in U.S. History 3 s.h.
Cultural history of the meanings and implications of fame and celebrity in America; conception of fame in the 18th century as something earned through great deeds and conferred by future generations; rise of a culture of celebrity in 19th- and 20th-century America; focus on theater, sports, movie, and musical stars; use of celebrities to sell products; implications for presidential campaigns; instant and ephemeral celebrity generated by television and the internet. Same as AMST:2230.

HIST:2250 The History of Social Justice Movements 3 s.h.
History of contemporary social movements in the U.S. and how these movements have directly affected policies related to environment, food, reproductive justice, civil rights, immigration, labor, race, and gender; students read, explore, discuss, and write about the history of contemporary social movements in the U.S. that had lasting effects on policies related to environment, agriculture, health, reproductive justice, civil rights, labor, race, gender, and immigration; exploration of multiple modes of representation and resistance including protests, boycotts, strikes, music, art, writing, riots, civil disobedience, theater, poetry, dance, and poetry. Same as GWSS:2250, SJUS:2250.

HIST:2266 Civil War and Emancipation 3 s.h.
160 years later, what can we learn about American history from studying a war that both killed and liberated an unprecedented number of people? Why did it take a war to end slavery? How did emancipation occur and how did enslaved people accelerate the destruction of U.S. slavery during the war? Same as AFAM:2266.

HIST:2267 African American History to 1877 3 s.h.
Experiences of African and African American people in the American colonies and the states of the new nation; history of Africans and African Americans as early settlers, enslaved and free, in places such as Detroit, Chicago, New York, and New Orleans; interactions with Indigenous people; role in the war for American independence; long history of resistance to slavery and racial discrimination; exploration of the rich history of community building, creation of significant Black social and cultural institutions, and formation of Black political thought and political activism. GE: Understanding Cultural Perspectives. Same as AFAM:2267.

HIST:2268 African American History Since the Civil War 3 s.h.
Exploration of racial oppression of African Americans and multiracial struggles against that oppression since the Civil War era; students examine the history of racism at individualized and systematic levels; historical efforts made by individuals and collective movements in service of the long Black freedom struggle; and the ways these twinned histories have shaped modern America. GE: Understanding Cultural Perspectives. Same as AFAM:2268.

HIST:2280 Introduction to Latina/o/x Studies 3 s.h.
Introduction to field of Latina/o/x studies through interdisciplinary readings from literature, history, sociology, political science, urban studies, and anthropology; commonalities and differences among long-standing Latina/o/x populations (i.e., Mexican Americans, Puerto Ricans, Cuban Americans); challenges faced by newer arrivals (i.e., Dominican Americans, Salvadoran Americans, Guatemalan Americans, Central and South American immigrants). Taught in English. GE: Understanding Cultural Perspectives. Same as LATS:2280.

HIST:2288 Latina/o/x History From Conquest to the Present 3 s.h.
Beginning with 16th century and stretching to the present, students map varied terrains of Latina/o/x history, exploring Mexican American, Puerto Rican, Cuban American, Dominican American, and Central American experiences in the United States; major themes include details of conquest and resistance, immigration, work, and creation of racial, gendered, and sexual differences within and between Latino/a/x communities; focus on shared Latina/o/x identity and changing images of Latina/o/x peoples within American popular culture; effects of current political issues on Latina/o/x community today.

HIST:2292 Native American Law and Policy: A History 3 s.h.
Native Americans are citizens of governments that predate the U.S.; what it means to be a citizen of a federally recognized tribe within the U.S.; exploration of the peculiar status of Native nations and their citizens since 1789. Same as AMST:2292, NAIS:2292.

HIST:2420 Germany in the World 3-4 s.h.
The Federal Republic of Germany's increasing prominence in post-Cold War international affairs against backdrop of 20th-century history; Germany's role in the European Union and the changing relationship between Europe and the United States. Taught in English. GE: International and Global Issues. Same as GRMN:2720.

HIST:2431 Roman Law, Order, and Crime 3 s.h.
Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Same as CLSA:2151.

HIST:2444 Engineering and Technology in the Ancient World 3 s.h.
Technologies developed and used in the ancient world—primarily in Greece and Rome, also in Egypt and the Ancient Near East; agriculture and food preparation; construction and architecture; technologies related to warfare. Same as CLSA:2144.

HIST:2461 Middle East and Mediterranean: Alexander to Suleiman 3 s.h.
GE: Historical Perspectives. Same as CLSA:2461, RELS:2361.

HIST:2465 Europe Since 1945 3 s.h.
Europe since World War II: recovery, cold war, social and economic change, global perspectives.

HIST:2684 Korean War: Local and Global History 3 s.h.
Examination of the Korean War as a local, regional, and global event; major topics of the war including its origins, methods of warfare, refugee question, war crimes, POWs, propaganda, memory, and commemoration from the perspective of multiple nations; discussion and analysis of scholarly works, textbooks, diplomatic documents, memoirs, fiction, visual sources, and film. Same as ASIA:2684.

HIST:2687 Perspectives on Korea 3 s.h.
History of Korea from earliest times to present; changing meanings of Korea and Koreans; relevant issues of politics, society, and culture; events that shaped ancient Korean kingdoms, the Choson dynasty (1392-1910), Japanese occupation, and divided Korean peninsula; how present perspectives on Korea have influenced understandings of its past; placement of Korea within a regional and global context to examine Korea's relationship with the world. Same as ASIA:2887.

HIST:2802 Gender, Religion, and Social Identities in the Modern Middle East 3 s.h.
Gender, religion, and social identities historically have served to articulate notions of modernity, community, and political ideologies; in the Middle East and North Africa, these categories have been used to assert European colonial and racial supremacy and patriarchal dominance as well as anti-colonial resistance and social revolution; examination of the formulations of gender, religion, and social identities with special emphasis on reformulation of individual and communitarian identities in the region after independence from European colonial powers.

HIST:2804 The Middle East Through Graphic Novels and Animated Film 3 s.h.
Contemporary history of the Middle East and North Africa with emphasis on visual media—comics, animated films, and political cartoons; art as political manipulation/expression and resistance; students gain knowledge through a variety of personal accounts about the Arab-Israeli conflict, Lebanese Civil War, civil war in Syria, or Islamic revolution in Iran.

HIST:2810 The Modern Middle East 3 s.h.
Fundamental questions that go beyond the boundaries of the Middle East and North Africa (e.g., legacy of colonialism, race/racism, identity, citizenship, violence); roots of present events.

HIST:3101 History Internship 1-6 s.h.
Internship involving historical work. Requirements: consent of director of undergraduate studies and Pomerantz Career Center.

HIST:3106 History Behind the Headlines 1-3 s.h.
Examination of selected national and international news stories and their historical background; a goal of creating informed world citizens.

HIST:3108 History of Human Rights 3 s.h.
Introduction to history of human rights in the 20th century; disjuncture between human rights in theory and in practice; provides an international approach to the history of human rights by situating U.S. human rights activism and policy in a global context; focus on human rights following World War II, contradictory impact of the Cold War; emergence of human rights politics in 1970s United States, challenges of post-Cold War human rights activism, and human rights rhetoric of the Global War on Terrorism.

HIST:3114 Divided Cities: Global Histories of Segregation 3 s.h.
Cities are always defined by diversity and division. Over the past two centuries segregation has taken on new scales and forms, segregating cities through legal dictates, violent attacks, and economic pressures as well as everyday efforts to form stable communities. Students examine these forces to understand how segregation has structured cities since the early 19th century, including the changing ways legal, economic, spatial, and cultural structures determined how people divided cities along social categories like race, immigration status, gender, class, sexuality, or religion. Learning how people experienced, challenged, and transformed urban segregation over time.

HIST:3126 History of Globalization 3 s.h.
Broad overview of globalization in modern world history; focus on evolution of international business, world economy, interstate system, and cultural interchange in 19th and 20th centuries; long-distance trade and exchange; global economy under British Empire; globalization after 1945 following a 30-year period of nationalism, war, and depression; global market integration in late 20th century under American supremacy.

HIST:3128 Topics in Global Environmental History 3 s.h.
Examination of changing relationship over time between humans and nonhuman world in global and transregional contexts; environmental history from different angles; how humans have depended on, interacted with, and been shaped by natural world over time; how people have perceived and assigned meaning to natural world around them; how human attitudes and actions have altered or reshaped landscapes and their inhabitants; becoming sensitive to gendered, class, and racial aspects of environmental change; topics, scope, and time periods may vary.

HIST:3131 Unnatural Disasters: A Global History 3 s.h.
What is a natural disaster? How do we assess "naturalness" of these events within political, social, and historical contexts in which they occur? Are disasters specific moments of crisis, or rather, are they slow—unraveling across time and space years before and after the moment their pain is most acutely felt? Examination of these questions at a global scale. Same as SEES:3131.

HIST:3132 Science, Medicine, and Race 3 s.h.
Examination of social construction of race in scientific and medical thought; focus on Atlantic world (Europe, Africa, the Americas); construction of race in other parts of world.

HIST:3133 Science, Technology, and Society in the Modern World 3 s.h.
Origins and history of modern science and technology in cultural, social, political, and economic context from 1500s to present, with focus on Europe and the United States.

HIST:3137 Politics of the Archaeological Past 3 s.h.
How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, Indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as ANTH:3237, MUSM:3237.

HIST:3145 Europe and the United States in the Twentieth Century 3 s.h.
Traveling in time and across the Atlantic, through movies and documentaries, propaganda and art, government documents and private letters, students explore the history of Europe and the United States in the 20th century and watch major events unfold: impact of the Great War and rise of fascism, World War Two and the Holocaust, origins of the European Union and NATO, major crises and resolution of the Cold War, transatlantic conflict and cooperation.

HIST:3147 The Cold War 3 s.h.
Examine the contours of Cold War history from its roots prior to 1945 through the collapse of the Soviet Union in 1991; study a variety of perspectives in order to further elucidate the complexities of this period and the "new Cold War."

HIST:3150 Feminist Readings of History 3 s.h.
Feminist analysis has revolutionized the writing of history —not only on gender and sexuality, but also on topics as diverse as politics, economics, international relations, and social hierarchies (e.g., race, class, ability, religion); students examine feminist transformations of history with specific topics chosen by instructor. Same as GWSS:3150.

HIST:3155 The World Since 1945 3 s.h.

HIST:3157 Gender, Sexuality, and Human Rights 3 s.h.
History of gender and sexuality as components in international human rights activism and law; current debates, representative topics. Same as GWSS:3157.

HIST:3160 Malcolm X, King, and Human Rights 3 s.h.
Religion and politics of Malcolm X and Martin Luther King, Jr. in the context of U.S. civil rights and international human rights in West Africa and the Muslim world; emphasis on civil rights connections to Gandhi, the Nobel Peace prize, and other international experiences that have impacted Pan Africanists, such as Stokely Carmichael, who worked on human rights. Recommendations: international studies major or undergraduate standing. Same as AFAM:3500, RELS:3808.

HIST:3171 Slavery in World History 3 s.h.
Introduction to study of slavery through the lens of world history; exposure to a range of societies where slavery was prevalent; identification of similarities and differences over different time periods and geographical distances; exploration of Roman slavery, slavery in non-Islamic Africa, trans-Atlantic slave trade in the United States and the Caribbean, and Native American slaveries, among others.

HIST:3184 History of Death and Dying 3 s.h.
The history of death is a means of understanding experiences and conceptions of life, ethics, community, belief systems, and boundaries. Such knowledge is critical for those involved with, or envisioning, psychological, social, or medical work. Focus will be on the Middle East and North Africa with a transnational, transregional, and global perspective surrounding death and its politics.

HIST:3190 Medieval to Modern: The Birth of Protestantism 3 s.h.
Same as RELS:3190.

HIST:3191 Individual Study: Undergraduate arr.

HIST:3193 Undergraduate History Portfolio 0 s.h.
Submission of required history portfolio. Requirements: history major and senior standing.

HIST:3205 American Cultural History 3 s.h.
Nineteenth- and twentieth-century U.S. history from a cultural perspective; culture defined broadly to encompass paintings, sculpture, theater, novels, and newer forms of entertainment made available by lithography, photography, cinema, the phonograph, radio, and television; rather than assume Americans were passive consumers of commercial culture, students examine how Americans expressed themselves through foodways, home decor, clothing fashions, or slang; how Americans drew on these cultural forms in social/political struggles over race, gender, class, and sexuality. Same as AMST:3205.

HIST:3217 Latina/o/x Immigration 3 s.h.
Immigration experiences of people arriving in the United States from other regions of the Americas (e.g., Mexico, Central America, the Caribbean, South America); what has fueled immigration—social, political, and economic developments in the United States and other nations; territorial conquest, colonialism, real and imagined borders, chain migration, formation of immigrant communities, acculturation, circular migration, social networks; how migration restructures gender relations; immigrant communities and pan-Latina/o/x identity in the United States. Same as LAS:3217, LATS:3217.

HIST:3220 Pandemic Politics: The COVID-19 Crisis in Historical Perspective 3 s.h.
How the COVID-19 crisis marks an unprecedented public health and public policy moment in American history; challenges to public polices and governing institutions that have important parallels in earlier historical moments —particularly the Great Depression and the mobilization for World War II—and also mark important departures; examination of historical, political, and public policy implications of the COVID-19 crisis in the United States; placement of current moment in historical perspective; history of key public policies including public health, health insurance, employment security, and social assistance across the last century.

HIST:3226 The United States in the 1960s 3 s.h.
Explores the turbulent decade of the 1960s in American politics and culture.

HIST:3230 American Environmental History 3 s.h.
Introduction to environmental change in American history; human-nature interactions from colonial period to recent past; food and agriculture, industrial technologies and transportation, energy production and consumption, urbanization and sprawl, public lands and public works, environmental politics and law, toxic pollution and health, natural disasters, climate change.

HIST:3232 History of American Inequality 3 s.h.
Survey of causes and consequences of inequality in modern American history.

HIST:3240 U.S. Energy Policy in Global Context 3 s.h.
Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as GHS:3780, POLI:3431, SEES:3780.

HIST:3242 The United States in World Affairs 3-4 s.h.
America's emergence as leader in world affairs; imperialism, international collaboration, participation in world wars, the Cold War.

HIST:3249 Midwestern History 3 s.h.
People of Iowa and surrounding Midwestern states—a land where people work hard, are practical, down to earth, and honest; the idea of a place in the heartland as real or simply a myth; history of Midwestern states from Native American occupation to present; how reality, ideas, and images are portrayed. Same as AMST:3249.

HIST:3250 American Stuff: Discovering History in Things 3 s.h.
Introduction to the historical study of material artifacts; how people have used objects to construct their memories, identities (e.g., class, race, sexuality, gender, nation), relationships, and status/power; how objects have inadvertently shaped us; finding artifacts in local collections; analyzing artifacts as historical sources; researching how objects were produced and sold and how they were used or misused; curating one's own exhibition; objects range from utilitarian (e.g., guns, farming tools, office gadgets, automobiles) to decorations, toys, souvenirs, and more. Same as MUSM:3250.

HIST:3251 The Office: Business Life in America 3 s.h.
History of business life in America from birth of Wall Street to rise of Silicon Valley; modes of managing and regulating office workers; changing designs of office buildings, furniture, gadgets; corporate response to rise of class inequalities and growing gender and racial diversity in workforce; portrayal of businessperson in novels, movies, television, art, photography. Same as AMST:3251.

HIST:3253 The Civil Rights Movement 3 s.h.
History of the American civil rights movement. Same as AFAM:3053, AMST:3053.

HIST:3256 The Great Migration(s) in the Midwest 3 s.h.
Investigation of African American migration to and within the Midwest; first and second Great Migrations (1910–1940, 1940–1970); focus on reaction to and social, cultural, political, and economic impact of newcomers arrival; class time devoted to actual practice of historical research; students work on a collaborative project focused on the history of racial discrimination, housing segregation, and resistance to that oppression in Iowa's six metropolitan areas. Same as AFAM:3256.

HIST:3257 Civil Rights and Racial Justice: A Tour Through the South 1-3 s.h.
Exploration of the history of modern civil rights movement through lectures, shared readings, videos, and discussion; includes preparation and two-week tour of civil rights sites in the South. Prerequisites: SJUS:1001 or SJUS:2250 or GWSS:1002 or CCCC:2220 or AFAM:1030 or HIST:2268 or HIST:2268 or HIST:3253 or HIST:3253 or HIST:3253 or HIST:3232 or AFAM:3100 or AFAM:3500 or AFAM:3260 or AFAM:3260 or HIST:3282 or HIST:3282 or HIST:4130. Same as AFAM:3257, GWSS:3257, SJUS:3257.

HIST:3259 Making Change, Making History 3 s.h.
Topics may include digital history, public history, museum studies, and more. Same as GWSS:3459, SJUS:3459.

HIST:3260 Violence in Black America 3 s.h.
Examination of violence—physical, structural, gendered, and psychological—and its impact of shaping Black American experience through resistance, cultural production, and community development. Same as AFAM:3260.

HIST:3262 The Black Midwest: History, Literature, and Culture 3 s.h.
Exploration of history, culture, and art of the Black Midwest using literature and scholarly readings, poems, music, and film; modern issues impacting Black Midwesterners; cultural, social, and political contributions of Black Midwesterners to the region and nation. Same as AFAM:3262.

HIST:3264 Technology in American Culture and Society 3 s.h.
Social and cultural history of technology in the United States from cotton gin to smartphone; how technologies have shaped and been shaped by American culture, society, and politics —encompassing technologies of production, communication, transportation, entertainment, warfare, voting, surveillance, and more; economic forces spurring technological innovation and ways in which ordinary users re-appropriate technologies; cultural responses to new technologies (e.g., writers, artists, filmmakers, critics) ranging from fear to celebration; utopian and dystopian imaginings of future technologies. Same as AMST:3264.

HIST:3265 American Monuments 3 s.h.
History of public monuments in America from the inception of first major monuments in the 1820s to the latest incarnations (e.g., counter-monuments such as the 9/11 Memorial, spontaneous and temporary monuments, online memorials); how monuments have depicted Indians, Blacks, Southern confederates, women, and other groups; how monuments have commemorated wars, Indian massacres, lynchings, and political movements (e.g., civil rights, women's suffrage); how monuments have been reinterpreted through popular protests and depositing of artifacts; why monuments have attracted so much controversy, culminating in recent events at Charlottesville. Same as AMST:3265.

HIST:3267 Apocalyptic Visions and Movements in U.S. History 3 s.h.
The end of the world as imagined, feared, and in some cases, desired by Americans from 1700s to present; status of apocalypse in various religious communities and in American culture more generally (i.e., literature, art, popular culture); focus on political and social implications of apocalyptic visions; how they shaped historical events and periods (i.e., American Revolution, Civil War, Cold War); how they contributed to nationalism, racism, and imperialism as well as pacificism, anti-Americanism, utopian communities, and opposition to industry and technology; what role apocalypticism plays in the United States today.

HIST:3270 Colonial North America, ca. 1600-1775 3 s.h.
Introduction to major themes in colonial American history prior to the American Revolution; Native American history; colonialism and Native resistance; slavery; material culture; religion and spirituality; immigration; gender and sexuality in cross-cultural perspective. Same as NAIS:3270.

HIST:3271 American Revolutionary Period 3 s.h.
Political and military history of colonies 1754-1776; imperial upheaval; building a new nation; creation of federal system.

HIST:3272 Native Americans in the Age of Empires, ca. 1500-1815 3 s.h.
Overview of major issues in Native American history during the period of European Imperialism; colonialism, diplomacy and alliance building, warfare, captivity, religious and spiritual exchanges, revolution, and the disintegration of Native-European alliances in the early 19th century. Same as NAIS:3272.

HIST:3273 War and Violence in Early American Societies and Culture 3 s.h.
Introduction to role of warfare and violence in shaping early American society.

HIST:3275 History of Slavery in North America 3 s.h.
Examines the origin, evolution, and patchwork abolition of Black chattel slavery in the parts of North America that became the United States; emphasizes the ways that slavery was not a static institution, but rather changed over time and space; centers the enslaved as historical actors with their own politics, economics, and culture; wrestles with historical memory and popular representations of slavery. Same as AFAM:3275.

HIST:3282 Women and Power in U.S. History Since the Civil War 3 s.h.
Major events and themes in U.S. women's history from late 19th century to present; how women's experiences have differed from men's; exploration of distinct but interconnected histories of different groups of women; changing ideals of femininity; women's experience of industrialization, immigration, depression, war, and sexual revolution; women's activism for social reform, women's rights, labor, civil rights, peace, and the New Right. Same as GWSS:3282.

HIST:3289 The Atlantic World c. 1450-1850 3 s.h.
Interactions between peoples of Europe, Africa, and the Americas between the 15th and mid-19th centuries, interconnected system of exchange that defied national and imperial boundaries; encounters between Native Americans, Africans, and Europeans in different parts of the Americas; forced and voluntary resettlement of Africans and Europeans overseas; development of plantation slave societies; biological consequences of transatlantic contact; circulation of people, goods, and ideas; development of creole societies; era of revolutions; abolition of slavery. Same as NAIS:3289.

HIST:3401 Ancient Egypt and the Ancient Near East 3 s.h.
Survey of political, economic, religious, and social change in ancient Egypt from ca. 3000 B.C.E. until its conquest by Persia, and of the ancient Near East from ca. 3000 B.C.E. until Alexander the Great's conquests. Same as CLSA:3401.

HIST:3403 City of Athens: Bronze Age to Roman World 3 s.h.
Athens from Bronze Age to end of Roman period; topics include the city's role in development of political democracy and religion, as well as the art and archaeology of the city. Same as ANTH:3821, CLSA:3821.

HIST:3404 The World of Ancient Greece 3 s.h.
Survey of Greece history from ca. 2000 B.C. to 300 B.C.; Minoan, Mycenaean, and Greek society and culture; contact between Greek mainland and eastern Mediterranean cultures; development of the polis; political developments throughout the period; readings include a variety of sources in translation as well as modern interpretations; methodological problems in studying ancient Greece including interpretation of ancient historiography and using evidence from art, archaeology, and literature; knowledge of ancient Greek not required. Same as CLSA:3404.

HIST:3409 Medieval Civilization I 3 s.h.
Europe from the decline of Roman empire to the eleventh century; cultural, political, economic, artistic and architectural foundations of Western civilization. Same as MDVL:3409.

HIST:3410 Medieval Civilization II 3 s.h.
Europe from the eleventh century to the Italian Renaissance; cultural, political, economic, artistic, and architectural foundations of Western civilization. Same as MDVL:3410.

HIST:3413 Early Modern Britain: The Tudor and Stuart Era 3 s.h.
History of Britain during the reigns of the Tudor and Stuart monarchs (1509-1714); focus on political institutions, economic development, civil conflict, religious change, origins of the British Empire, and everyday life.

HIST:3414 Science, Magic, and Religion in Early Modern Europe 3 s.h.
Magic and witchcraft, religious beliefs and practices, and the development of science, technology, and medicine during the late Middle Ages, Scientific Revolution, and Enlightenment. The natural and supernatural; astrology and astronomy; alchemy and chemistry; popular and elite knowledge; occult beliefs and mysticism; male and female magical, scientific, and religious practitioners; and science, magic, and religion in European politics and colonialism.

HIST:3415 Britain and Its Empire: Eighteenth and Nineteenth Centuries 3 s.h.
Britain and its empire from the Revolution of 1688 to the outbreak of World War I; topics include the growth of the British Empire; trans-Atlantic slave trade and its abolition; Industrial Revolution; political union and ongoing conflict between England, Scotland, and Ireland; political reform, expansion of franchise, and rise of labor and feminist movements; science, art, and culture; religion in British life.

HIST:3420 Health and Healing in Early Modern Europe 3 s.h.
Health, healing, and medicine (1200-1700); transmission of medical knowledge from medieval Islam and ancient Greece; healers including physicians, midwives, surgeons, apothecaries, and ordinary people; epidemic disease; diet and the body; sex and reproduction; health in the colonial Atlantic world; healing and religion including prayer, magic, and witchcraft. Same as GHS:3420.

HIST:3425 Peasants in the Middle Ages 3 s.h.
Examination of the social, economic, and cultural history of peasants in medieval Europe. Same as MDVL:3425.

HIST:3427 Family, Gender, and Society in Early Modern Europe 3 s.h.
Social and gender ideologies as inscribed in patterns of authority (household, church, state); ranges of human endeavor (intellectual, psychological, biological); community organization (social, economic, legal, sexual); their influence on concept of community. Same as GWSS:3427.

HIST:3436 Food in Ancient Mediterranean Society 3 s.h.
Practices and values influenced by consumption and production of food in ancient Mediterranean societies; varied topics, including methods of food production and distribution, hierarchies of status as associated with food, food and ethnic identity, food and health, food and religion; focus on classical Greek and Roman society, Egypt, the ancient Near East, and Persia. Recommendations: familiarity with Greek and Roman civilization and history. Same as ANTH:3204, CLSA:3836.

HIST:3443 Rome at War 3 s.h.
Addresses the development and conduct of war by the Roman state from circa 500 BCE through circa 400 CE. Topics include state priorities for use of the military, methods of conducting war, and military organization. Same as CLSA:3143.

HIST:3448 Barbarians and the Fall of Rome 3 s.h.
Did barbarian hordes cause the decline and fall of the Roman Empire? In the span of just a few hundred years, the Roman Empire of the Mediterranean world was transformed in terms of culture, religion, and the peoples that inhabited it, but we can't place all the blame for the so-called fall of Rome on the Huns, Visigoths, Vandals, and other migrating peoples; students explore textual, visual, and archaeological evidence for the spread of these “barbarian” cultures, the sacking of Rome, and the late antique transition to the Middle Ages from 200-800 C.E. Same as CLSA:3148.

HIST:3470 France From 1815 to Present 3 s.h.
History of France in the 19th century to present; major topics include the French Revolution, France and the European balance of power, Napoleon, the Bourbon Restoration, the Revolutions of 1830 and 1848, Napoleon III and the Second Empire, creation and survival of the Third French Republic, relations between the French state and the Catholic Church, the Dreyfus Affair, French colonial expansion, France and the origins of the First World War, France's role in World War I, and France and the origins of the Second World War.

HIST:3492 Russian Literature in Translation 1860-1917 3 s.h.
Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (*Fathers and Sons*), Tolstoy (*Confession*), Dostoevsky (*The Idiot*, *The Brothers Karamazov*), and Chekhov (plays). Taught in English. Same as RUSS:3202, TRNS:3203, WLLC:3202.

HIST:3494 The Russian Revolutions and Their Legacies 3 s.h.
The Russian Revolutions of 1905 and 1917 unquestionably changed the fabric of Russian political and social life, transforming Russia from an autocratic imperial power to the first self-proclaimed socialist federation in Europe; students explore sources, nature, and consequences of the revolutions by intensively analyzing politics, society, and culture in late imperial and Bolshevik Russia; students review events and revolutionary movements of late 19th century, changes in political practices extending from late tsarist period, and development of Leninist and Stalinist ideology after the revolutions. Same as RUSS:3494.

HIST:3501 Rebel Island: A History of Cuba 3 s.h.
Cuban society and revolutionary movements since the late colonial period, including the years since 1959. Same as LAS:3501.

HIST:3502 History of Mexico 3 s.h.
Mexican history since the eve of the Spanish invasion, with focus on the national period; indigenous groups, conquest and demographic disaster, Native survival, labor and migration, social protest and rebellions, nationhood, revolution, regional differences, religions, popular culture, economic growth and distribution, state building, environmental change, international relations; survey. Same as LAS:3502, NAIS:3502.

HIST:3508 Disease and Health in Latin American History 3 s.h.
Survey of major topics in Latin American history in relation to development of medicine and public health. Same as GHS:3508, LAS:3508.

HIST:3515 Introduction to Modern Latin America 3 s.h.
Introduction to modern history of Latin America from independence movements of the early 19th century to present; topics include race and ethnicity, slave emancipation, gender, labor relations, and foreign interventions; exploration of relationship between economic, social, and political structures over time to explain difference and commonality between Latin American people and societies; focus on topics pertaining to histories of Mexico, Central America, the Caribbean, and South America. Same as LAS:3515.

HIST:3522 Indigenous Women and Rural Unrest in Latin America 3 s.h.
Trace the major and everyday forms of contestation between Indigenous peoples and the groups that have tried to assimilate, subjugate, or dominate them in Latin America, concentrating on Mesoamerica, the Amazonia, and the Andes; explore questions of power, identity, and resistance through the lens of gender. Same as LATS:3522.

HIST:3539 History of Environmental (In)Justice in Latin America 3 s.h.
Introduction to history of environmental change in Latin America; examination of pre-Hispanic cultures and spaces; reshaping of landscapes due to colonialism; commodification of nature in early republics; consolidation of 19th-century agro-economies; land-tenure changes and integration of regional markets due to neoliberalism in 20th century; relationship between environmental problems (e.g., biotic invasions, soil exhaustion, biodiversity loss, pesticide contamination) and imperial domination; scientific racism, state formation, and income inequality. Same as SEES:3539.

HIST:3650 Chinese History From 1600 to 1911 3 s.h.
Chinese history from the 17th to early 20th century, history of the Qing dynasty (1644-1911); Qing's role in shaping aspects of today's politics in China and the mentality of Chinese people; foundation of Manchu state in early 17th century, Ming-Qing transition in 1644, politics and society during the high Qing era, decline of the empire under foreign invasion and inner rebellions in the 19th century, collapse of the dynasty in 1911. Same as ASIA:3650.

HIST:3652 Twentieth-Century China 3 s.h.
Communist revolution from 1920s to founding of People's Republic of China in 1949; Mao Zedong's radical policies, Cultural Revolution; Deng Xiaoping's economic reforms; China today. Same as ASIA:3652.

HIST:3655 Zen Buddhism 3 s.h.
Same as ASIA:3655, RELS:3655.

HIST:3685 Modern Korean History 3 s.h.
Transformation of Choson Korea to North and South Koreas; local, regional, and global transformations in Korea from the late 19th century to present; severing of historic ties with China; encounters with the West and Japan; new ideas of civilization and political community; erasure of Choson as a country in 1910; colonial experience; civil war; industrialization; creation of North Korea; democratic movement in South Korea and spread of diasporic communities abroad; Korean peninsula as a laboratory for analyzing compressed communist and capitalist modernities of the 20th century. Same as ASIA:3685.

HIST:3755 Understanding Health and Disease in Africa 3 s.h.
Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as GHS:3555, IS:3555.

HIST:3758 The Ancient African Past 3 s.h.
Africa to 1880; oral tradition and other sources; political development, ecological change, slavery and slave trade. Same as AFAM:3758.

HIST:3760 The Making of Modern Africa 3 s.h.
Africa in colonial and postcolonial period; economics, political structures of colonialism; social change, political life in the 20th century. Same as AFAM:3760.

HIST:3810 History of the Modern Middle East 3 s.h.
Survey of major political, socioeconomic, and cultural changes in the Middle East and North Africa after 1900.

HIST:3995 History Honors Research Seminar 0-3 s.h.
Research and method seminar; developing and writing an honors thesis in history. Corequisites: HIST:3996. Requirements: GPA of 3.33.

HIST:3996 Honors Thesis 3 s.h.
Individual research and writing under supervision of faculty member; occasional group sessions with other students in the course.

HIST:4130 Museum Literacy and Historical Memory 3 s.h.
Concepts and methods for understanding the role of museums in shaping knowledge and collective memory of history; institutionally based exhibits and collections, historical markers and public monuments, public holidays and events, media and artistic works that interpret the past; how events, people, and civic ambitions are memorialized and how memories of them are shaped; appearance of museums and related practices in the non-Western world after 1850. Same as MUSM:4130.

HIST:4201 History of the American Deaf Community 3-4 s.h.
Students discuss the roots of American Deaf community, exploring the development of a distinct language known today as ASL and the culture of Deaf people in America during 19th and 20th centuries. Taught in American Sign Language. Prerequisites: ASL:2002 with a minimum grade of C. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information. Same as ASL:4201.

HIST:4216 Mexican American History 3 s.h.
Survey of Chicana/o (Mexican American) history from 18th century to present; Mexican American society's diverse nature, explored through class, ethnic, gender, and regional divisions. Same as LAS:4216.

HIST:4334 Topics in American Borderlands History 3 s.h.
Broad historical overview of the American Borderlands, a region that has been the site of conflict, cultural exchange, and economic interdependence.

HIST:4400 The Roman Empire 3 s.h.
History of Roman Empire from assassination of Julius Caesar through 5th century A.D.; political, economic, cultural, and social developments from the transition to imperial power to the shift of power from west to east. Same as CLSA:4400.

HIST:4403 Alexander the Great 3 s.h.
History of Alexander the Great and the generals who succeeded him in ruling the lands he conquered; military, political, and social history. Same as CLSA:4403.

HIST:4406 Warfare in Ancient Mediterranean Society 3 s.h.
Same as CLSA:4106.

HIST:4407 The Hellenistic World and Rome 3 s.h.
Social, economic, political, intellectual history of Graeco-Roman world, from fourth century B.C.E. to Justinian's reign.

HIST:4412 History of the Medieval Church 3 s.h.
Development of Christianity to end of great schism; rise of Roman primacy, development of monasticism, orthodox and heterodox groups. Same as MDVL:4412.

HIST:4422 The Book in the Middle Ages 3 s.h.
Relation of text, decoration, function, creators, and audience in different genres of medieval manuscript books 400-1500 A.D. Same as SLIS:4910, UICB:4910.

HIST:4428 Nineteenth-Century Europe 3 s.h.
Political, social, economic, and cultural factors.

HIST:4429 The Book in Early Modern Europe 3 s.h.
History of the book and communication in Europe 1400-1800; production, distribution, and use of texts in cultural context. Same as SLIS:4920, UICB:4920.

HIST:4433 France Under Nazi Occupation, 1940-1944 3-4 s.h.
Political, economic, social, and cultural conditions that prevailed following the Nazi conquest of France in 1940; examination of this period of upheaval through work of prominent historians of France; representations of occupied France in literary works, documentary, and fictional films produced during the war and in the politically fraught culture of collective memorialization that formed in aftermath of this national trauma. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. Same as FREN:4433.

HIST:4478 Holocaust in History and Memory 3 s.h.
Origins and implementation of Holocaust; perpetrators, victims, and bystanders; impact of Holocaust on post-World War II world.

HIST:4504 Latin American Studies Seminar 3-4 s.h.
Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as ANTH:4700, LAS:4700, PORT:4700, SPAN:4900.

HIST:4666 Topics in Asian History 3 s.h.
Same as ASIA:4166.

HIST:6002 Introduction to Graduate Studies in History: Historiography and Methods 3 s.h.
Students gain a better understanding of the principal intellectual strengths of the history department, degree requirements (e.g., MA essay and comprehensive exams), various methodological approaches and audiences, fundamental analytical skills (e.g., how to write a historiographical essay, how to use databases, how to edit their own work), and professional issues (e.g., participation in conferences and academic associations); for students getting started on their MA essays or PhD dissertations. Requirements: first-year history graduate standing.

HIST:6003 History Theory and Interpretation 3 s.h.
Introduction to basic theoretical approaches to historical research.

HIST:6004 Comprehensive Exams Seminar I 3 s.h.
Comprehensive exams seminar; for history graduate students in semester prior to comprehensive exams. Requirements: history graduate standing in third semester.

HIST:6005 Comprehensive Exams Seminar II 3 s.h.
Comprehensive exams seminar; for history graduate students during the semester in which they take their comprehensive examinations. Requirements: history graduate standing.

HIST:6130 Book History Seminar 3 s.h.
Topics, theories, and methods in book history, material textual studies, material culture studies, and critical bibliography. Integration of historical questions, sources, and methods into student's scholarly and creative work. Same as UICB:6530.

HIST:6140 Engaged Scholarship in the Humanities 0,3 s.h.
Survey of literature on community-engaged scholarship (CES) in the humanities; exploration of the pioneering work of engaged scholars in Native American, Latino, and African American studies; students write a research prospectus that is consistent with CES methodologies. Same as AMST:6140.

HIST:6158 Approaches to Teaching Global History arr.
Approaching history from a global or international perspective; introduction to issues; preparation for teaching courses at college level; historiographies and methodologies, problems of periodization and area divisions, syllabi on world and global history.

HIST:6165 History and Scientific Approaches 3 s.h.
Introduction of natural scientific evidence in the discipline of history. Work with interdisciplinary evidence and think about its application to the historian's craft through scientific articles in palaeogenetics (human, animal, and pathogen), archaeology, climatology, and other fields used for the science of the human past. Students learn to read scientific articles and discuss the theoretical and methodological problems of putting the hard sciences in conversation with history.

HIST:6250 American Religious Histories 3 s.h.
Focused examination of the variety and vagaries of religious experiences in the Americas, 16th to 21st centuries. Same as RELS:6150.

HIST:7101 Research Seminar arr.
Research for students in all areas of history.

HIST:7122 Readings: History of Gender and Sexuality arr.
Topics in international and transnational history of gender and sexuality. Same as GWSS:7122.

HIST:7126 Readings on the History of Human Rights arr.
Survey of recent literature on history of human rights; development of bibliographies; readings from individual areas of interest (e.g., transitional justice, migration, gender and sexuality, labor).

HIST:7137 Readings in Global Environmental History 3 s.h.
Environmental history is a rapidly growing interdisciplinary area of study that draws from a variety of social science, humanist, and natural science fields; examination of development in the field of global environmental history with focus on histories of the Global South; assessment of salient debates within the field, past and present; various methodological strategies employed by environmental historians; relationship of the field with area studies and "global turn"; students gain a functional fluency and understanding of how the field's growth has shaped the discipline of history more broadly.

HIST:7140 Climate Change in World History 3 s.h.
Readings on climate change and its impacts on planetary life across time.

HIST:7146 Temporality in History: United States and Beyond 1,3 s.h.
Introduction to growing field of temporal history; how time has been measured, regulated, experienced, and imagined in the West and non-West from antiquity to present with emphasis on 19th-and 20th-century United States; topics include time discipline (e.g., factory, slave plantation, corporate office), standard time, and deep time; focus on changing technologies of time (e.g., clocks, calendars) and to temporal impact of other technologies (e.g., cinema); application of temporal perspective to political revolution, warfare, nation building, class formation, gender relations, slavery, and urbanization. Same as AMST:7146.

HIST:7160 Global History of Race, Science, and Medicine 3 s.h.
Examination of the history of social construction of race in scientific and medical thought; use of science and medicine to conceptualize race, as well as how race was used by scientists and physicians in their practice; primary focus is on the Atlantic World—Europe, Africa, and the Americas—and touches briefly on the construction of race in other parts of the world. Same as GHS:7160.

HIST:7190 Individual Study: Graduate arr.

HIST:7193 Thesis arr.

HIST:7202 Readings: 20th-Century Native American History arr.
Examination of the Indigenous 20th century through a series of themes including settler colonialism, sovereignty and self-determination, federal Indian policy, and Indigenous feminism; readings focus primarily on secondary sources, but attention is given to key primary sources; students are required to carry out specified research tasks. Same as NAIS:7202.

HIST:7205 New Histories: U.S. Slavery arr.
Our approach to study of slavery and discipline of history have been upended by recent works by and about women; exploration of that scholarship and consideration of where it takes us in grappling with systems and subjectivity of slavery. Same as AFAM:7205, GWSS:7205.

HIST:7207 American Emancipations 3 s.h.
Sample the historiography of slavery, abolition, and emancipation in the Western Hemisphere. Focus on the movements to abolish Black chattel slavery in the eighteenth- and nineteenth-century United States; engage related histories throughout the Atlantic world. Same as AFAM:7207.

HIST:7210 The Long Civil Rights Movement arr.
Exploration of the history and historiography of the modern Black freedom struggle in the United States, with particular attention to how historians in recent years have reconsidered traditional framings of that struggle's chronology, geography, gender politics, political aspirations, and achievements. Same as AFAM:7210.

HIST:7214 Readings: African American Women's History arr.
Same as AFAM:7214, GWSS:7214.

HIST:7217 Social Movements in the United States From 1965 to Present 3 s.h.
Exploration of social movements in the United States and how they have shaped the country and its people since 1965; students study a range of historic movements that were diverse in their ideology and goals—from the fight for welfare rights to conservative tax revolts, LGBTQ+ rights to the White Power Movement—and examine more contemporary movements (e.g., Standing Rock and Black Lives Matter) and situate them historically in their respective protest lineages; interrogation of what constitutes a social movement and how and why they emerge, operate, and ultimately end; opportunity to work on a research project relevant to student's own interests.

HIST:7227 Readings in American Environmental History arr.
Introduction to historiography—classic texts and recent work—in American environmental history; topics from colonial period to recent past.

HIST:7236 Readings in Borderlands History arr.
Comparative borderlands; articles on diverse topics from borderland regions worldwide (main focus on U.S.-Mexico borderlands, with inclusion of European, Asian, African, and Latin American borderlands); analysis of each article for its thesis, research questions, methodology, primary sources, and weaknesses; seminar.

HIST:7246 United States in the World arr.
Historiographies that situate modern U.S. history in a global context; how historians study the American past beyond traditional, nation-centered frames; transnational histories of migration, nativism and exclusion; social movements; colonial empire-building; commercial and cultural Americanization; transfer of policy ideas; military occupations; decolonization; Cold War’s impact on social reform; post-9/11 moment.

HIST:7261 Readings: Early American History arr.

HIST:7263 Readings in U.S. History 3 s.h.
Cultural, political, economic, and social changes in the history of the United States.

HIST:7275 Readings in the History of Women and Gender in the U.S.A. arr.
Same as GWSS:7275.

HIST:7293 Graduate Readings in Public History arr.
Overview of public history with attention to ways in which historians have engaged various publics; major theoretical constructs (memory, heritage, commemoration); public history methodologies (oral history, material culture, archival documentation); legal ethics; how history is communicated to the public; how public history sites contribute to public memory; how and why controversies emerge in public history settings; relationship between academic history and public history.

HIST:7414 Slavery and Social Death: 1200 B.C.E. to 1865 C.E. 3 s.h.
Exploration of various slave systems in antiquity, the middle ages, and modernity in terms of their motivations, utilization, and broader social, economic, and political implications; use of literary sources and archaeological remains to investigate slave cultures in ancient Near East and Egypt, Jewish exploitation of enslaved persons, and use of chattel slavery in Greek, Roman, early Christian, and Islamic societies; antebellum U.S. slavery. Same as ANTH:7414, CLSA:7114.

HIST:7425 Gender, Sex, and Women in the History of Science and Medicine 3 s.h.
Introduction to historical debates and current research in the history of gender, sex, and women in science and medicine from the medieval era to the 20th century.

HIST:7435 Readings: Women, Men, and Gender in Modern Europe arr.
Same as GWSS:7435.

HIST:7440 Readings in Modern German History arr.
Major problems in modern German history; historiographic debates organized thematically and proceeds chronologically from the French Revolution to the present; oral presentations and comparative essays.

HIST:7445 Readings: Imperialism and Colonialism 3-4 s.h.
Engagement of Europeans in an immense outward expansion of people, goods, ideas, and more than a few germs since 1492; exploration of some of the implications of this expansion by focusing on a selection of different colonial encounters and some legacies of European empires.

HIST:7456 Readings: Modern European History arr.

HIST:7505 Readings: Latin American History arr.
Introduction to historiography in the field of Latin American history; students deepen their understanding of the region's history and become acquainted with trends in topical concerns, sources, and methods that are shaping historical research on Latin America's past. Taught in English. Same as SPAN:7505.

HIST:7535 Readings in Latina/o/x History arr.
Introduction to major works and recent scholarship in Latina/o/x history.

HIST:7551 Readings: Globalizing Latin American Science and Medicine arr.
Recent trends in Latin American history of science and medicine.

HIST:7559 Race, Science, and Nature in Latin America arr.
Analysis of the history of United States and Latin America relations in the 20th century through the lens of scientific and agricultural change; how plant breeding, agrochemicals, heavy machinery, and irrigation systems set in motion trends that made the 20th century exceptional; possibility of feeding an unprecedented growing global population and transition of human species from being primarily rural to primarily urban in less than a hundred years; analysis of how a network of scientists, businesses, and governments made proliferation of agribusinesses possible to emphasize Indigenous and Mestizo peasants' role in that process. Same as AMST:7559, SEES:7559.

HIST:7606 Readings in Chinese History arr.
Same as ASIA:7606.

HIST:7680 Readings in Modern Korean History 3 s.h.
Introduction to historiography of modern Korean history from late 19th century to present.

HIST:7691 Topics in East Asian History arr.
Introduction to major works and recent scholarship on border-crossing topics in East Asian history, including transnational/regional exchange, empire, frontiers/borderlands, migration, ethnicity, and historiography.

HIST:7706 Readings in African History arr.

HIST:7805 Readings in Middle East History arr.
Global perspective on major topics in modern history of the Middle East and North Africa including gender, sexuality, race, and empire. Same as GWSS:7805.

Jewish Studies Courses

JSTU:2149 Introduction to Jewish Studies 3 s.h.
Introduction to the interdisciplinary field of Jewish studies; topics include history from ancient origins to the present, sociology of Jewish life in the U.S. and internationally, ethical and religious principles and practices, Jewish embeddedness in non-Jewish societies, and controversies within and surrounding the Jewish world. GE: Understanding Cultural Perspectives. Same as HIST:2149, RELS:2240, SJUS:2240.

JSTU:2155 Global Jewish History 3 s.h.
Examines the Jewish experience in the modern period. Jewish history is global (the focus will be on Jews in the Middle East, Europe, the United States, and Latin America). Each community has participated in local politics and in the creation of local cultures, while remaining part of a Jewish Diaspora, held together to varying degrees by ethnic identity and religious tradition. Students will study how Jewish identity is constructed and how Jews negotiate their relationships with each other, with non-Jews in their local societies, and with other Jewish communities. GE: Understanding Cultural Perspectives. Same as HIST:2155.

JSTU:2156 Arabs and Jews in Palestine and Israel 3 s.h.
Examines relations between Muslim, Christian, and Jewish communities in Palestine during the Ottoman and Mandate periods, and between Jewish groups and Arab-Israelis after the establishment of the State of Israel in 1948. After an introduction to ethnicity, nationality, and religious identity from a theoretical perspective, focus will be on Ashkenazi Jews, Middle Eastern Jews, and Palestinian Arabs. Students will engage with important contemporary issues in Arab-Israel relations. GE: Understanding Cultural Perspectives. Same as HIST:2156.

History, BA

Learning Outcomes

Historical knowledge offers insight into the depth and range of human experience and perspectives on the increasingly interconnected world in which we live. Students of history learn how to locate, verify, and interpret many kinds of evidence in order to understand historical cause, effect, and change over time. History courses strengthen skills in analyzing and explaining the complex problems of the past and the present. The history major provides students with the tools and perspective for active citizenship in a democratic, pluralistic society, as well as for success in graduate studies and a wide range of careers.

The undergraduate program is organized around the intertwined skills of research and communication. Students learn about significant events, places, and people of the past, but just as importantly, they learn how to engage in factual research about the past, how to understand the context of human actions, and how to identify the factors that brought about the world of the past and the world we know today. Students of history:

- acquire a broad knowledge of history and historical change across multiple regions of the globe and a range of historical periods;
- gain an awareness of their own place in today's world and of the connections between past and present;
- learn to value the role of evidence in their understanding of the world, and how to assess and verify different types of data, whether written, visual, oral, statistical, or cultural;
- learn how to distinguish between primary and secondary sources, and how each kind of source is used;
- develop an understanding of the possible impact of authorial bias, social background, or ideology;
- learn to employ differing methods of analysis, and they explore diverse ways of thinking about the past and human society; and
- develop skills in research, critical thinking, reading, and writing. History writing assignments sharpen students' skills in original research and analysis, while reading assignments develop their abilities to synthesize information and grapple with varying points of view.

Requirements

The Bachelor of Arts with a major in history requires a minimum of 120 s.h., including 36 s.h. of work for the major. Of the 36 s.h., at least 24 s.h. must be numbered 2000 or above. No more than 3 s.h. in history courses (prefix HIST) numbered 1002–1099 may count toward the major. Courses that count toward the major may not be taken on a pass/nonpass basis. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

College Level Equivalency Program (CLEP) and Advanced Placement Program (APP) credit do not count toward the history major. Transfer work that is equivalent to University of Iowa coursework may be accepted toward the major, but at least 18 s.h. of work for the major, including HIST:2151 Introduction to the History Major, must be taken at the University of Iowa.

Students may count up to 56 s.h. of history coursework (prefix HIST) toward credit required for the Bachelor of Arts degree. History majors are encouraged to take courses in other fields that illuminate and expand the meaning of history courses and that introduce information and a variety of approaches to understanding how societies and cultures work.

Students majoring in history are encouraged to complete the College of Liberal Arts and Sciences GE CLAS Core World Languages requirement by choosing a language that fits their interests in history. The department also encourages study abroad programs that complement students' language area interests.

The BA with a major in history requires the following coursework.

Requirements	Hours
Introductory Course	3
Required History Courses	21
History Electives	12
Portfolio	

Introductory Course

Students enroll in HIST:2151 Introduction to the History Major as soon as possible after declaring the major in history. Topics vary, but all sections of HIST:2151 instruct students in the skills they need to succeed in upper-level history courses. Students explore the diverse kinds of sources historians use, including both primary (original) sources and secondary (scholarly) sources. They learn how to frame a historical question, find and interpret relevant sources (in libraries, online, and in archives), and then integrate them into a historical argument, expressed clearly and in accordance with appropriate scholarly conventions. By the end of the semester, students have produced a substantial research paper or project and have a clearer understanding of the historian's craft. Students must include at least one paper or project from HIST:2151 in their history portfolio (see the "Portfolio" section that follows). Introduction to the History Major (HIST:2151) does not count toward the area (American, European, non-Western) or pre-1700 era requirements.

Required History Courses

Undergraduate courses in history are divided into four areas: American history, European history, non-Western history, and courses that have no specific area designation. Students must earn at least 6 s.h. in each of the designated areas (American, European, non-Western), with at least 3 s.h. in each of those areas taken in courses numbered 3000 or above. Courses numbered 1100–1199, 2100–2199 (including HIST:2151 Introduction to the History Major), 3100–3199, 3995–3996, or 4100–4199 do not fulfill a specific geographical area or the pre-1700 requirement.

Students may count a maximum of 18 s.h. earned in American history courses (numbered 1200–1299, 2200–2299, 3200–3299, and 4200–4299) toward the major.

Course #	Title	Hours
American History Courses		
Two American history courses (numbered 1200-1299, 2200-2299, 3200-3299, or 4200-4299), including at least one numbered 3000 or above		6
European History Courses		

Two European history courses (numbered 1400-1499, 2400-2499, 3400-3499, or 4400-4499), including at least one numbered 3000 or above	6
Non-Western History Courses	
Two non-Western history courses (numbered 1500-1999, 2500-2899, 3500-3899, 4500-4999), including at least one numbered 3000 or above	6
Pre-1700 History Course	
One pre-1700 history course (select from the list that follows)	3
History Electives	
Additional history courses selected by the student	12

Pre-1700 History Course

A course taken to fulfill the pre-1700 history course requirement may also be counted toward the requirement in American, European, or non-Western history. These courses fulfill the pre-1700 history requirement.

Course #	Title	Hours
HIST:1401	The West and the World: Ancient	3
HIST:1402	The West and the World: Medieval	3
HIST:1601	Civilizations of Asia: China From Origins to the 17th Century	3
HIST:1602	Civilizations of Asia: China from the 17th Century to the Present	3
HIST:1604	Civilizations of Asia: Japan	3
HIST:1606	Civilizations of Asia: South Asia	3
HIST:2444	Engineering and Technology in the Ancient World	3
HIST:2461	Middle East and Mediterranean: Alexander to Suleiman	3
HIST:3270	Colonial North America, ca. 1600-1775	3
HIST:3289	The Atlantic World c. 1450-1850	3
HIST:3401	Ancient Egypt and the Ancient Near East	3
HIST:3404	The World of Ancient Greece	3
HIST:3409	Medieval Civilization I	3
HIST:3410	Medieval Civilization II	3
HIST:3413	Early Modern Britain: The Tudor and Stuart Era	3
HIST:3427	Family, Gender, and Society in Early Modern Europe	3
HIST:3443	Rome at War	3
HIST:3448	Barbarians and the Fall of Rome	3
HIST:3758	The Ancient African Past	3
HIST:4400	The Roman Empire	3
HIST:4406	Warfare in Ancient Mediterranean Society	3
HIST:4407	The Hellenistic World and Rome	3
HIST:4412	History of the Medieval Church	3

Portfolio

All history majors must complete a portfolio, enrolling in the portfolio course HIST:3193 Undergraduate History Portfolio during the semester in which they plan to graduate. The portfolio includes three papers or projects completed in history courses and submitted electronically (preferably a student submits papers/projects, and one paper/project should be from HIST:2151 Introduction to the History Major. A history honors thesis may replace the other two papers/projects. The portfolio does not affect a student's grade-point average; timely submission fulfills the requirement with a grade of S (satisfactory).

Students should submit their portfolios on the University of Iowa ICON website for HIST:3193 early during the semester in which they plan to graduate.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Honors in the major gives students the opportunity to conduct independent research on a topic of their choosing, and write an original piece of scholarship based on that research. The product is a 30–35 page thesis written under the supervision of a faculty member who specializes in the field. To graduate with honors in history, students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33, as required by the College of Liberal Arts and Sciences, and a 3.33 GPA in the major as set by the Department of History. Students register for 3 s.h. in HIST:3995 History Honors Research Seminar, usually during the spring of their junior year, and HIST:3996 Honors Thesis, usually during the fall of their senior year. The 6 s.h. of credit counts toward the semester hours required for the history major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the history major.

Career Advancement

A major in history provides broad training in evaluating and interpreting data, thinking critically, and understanding issues

in a global context that prepares history graduates to succeed in careers in nearly any field.

Employers value history students' ability to analyze human and social behavior, research pressing problems, and express themselves clearly. Graduates of the department occupy positions in government, business, journalism, law, entertainment, education, the nonprofit sector, library science, social work, and philanthropy, among others. Iowa's history graduates who choose to continue their education frequently earn admission to top graduate and professional schools.

Career outcomes show that graduates with a history BA fare comparatively well in the workforce. History graduates enter a wide range of professions, and mid-career salaries tend to be strong, particularly in the categories of education, business, and law. Salaries for history graduates are generally higher than those of graduates in other humanities disciplines across all job fields.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs. History students are also encouraged to meet with the departmental advisor and their faculty mentors to discuss their career plans as they prepare for the future.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: three courses in the major, including HIST:2151 Introduction to the History Major

Before the seventh semester begins: four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: three more courses in the major.

During the eighth semester: submission of the portfolio of written work (three history papers/projects, preferably graded) to the director of undergraduate studies through the HIST:3193 Undergraduate History Portfolio ICON website (a student must be enrolled in HIST:3193 in order to submit the portfolio), enrollment in all remaining coursework in the major (two courses), all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students complete at least 12 s.h. in history electives.

c Students must complete 24 s.h. from courses in prefix HIST numbered 2000 or above.

d Consider choosing a course that also fulfills the GE CLAS Core: International and Global Issues requirement.

e Students may count a maximum of 3 s.h. numbered HIST:1002-1099 toward the major.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

h Fulfills a major requirement and may fulfill a GE requirement.

i Students may count a maximum of 18 s.h. earned in American history courses toward the major.

j Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

History, Minor

Requirements

To earn the undergraduate minor in history, students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor in history requires a minimum of 15 s.h. in history courses (prefix HIST), including 12 s.h. earned in courses numbered 2000 or above, and at least 12 s.h. earned in courses taken at the University of Iowa.

Jewish Studies, Certificate

Requirements

The Certificate in Jewish Studies requires a minimum of 18 s.h., including at least 12 s.h. in courses completed at the University of Iowa. Students must earn a grade-point average of at least 2.00 in all certificate coursework.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

The certificate takes an interdisciplinary approach to the study of Jewish history and cultures across time and space. Jewish studies encompasses a broad range of topics, including biblical studies; ancient, medieval, and modern history; Jewish religion; Jewish literature and art; Sephardic, Mizrahi, and Ashkenazi studies; race and gender; social justice; Holocaust studies; Israel studies; Jewish languages; and more. Jewish studies interrogates ethnicity and other forms of identity and therefore intersects with African American studies; Latina/o/x studies; gender, women's, and sexuality studies; and other similar fields. Jewish studies is inherently transnational, interdisciplinary, and intersectional.

All students develop an individual certificate plan of study in close cooperation with a Jewish studies advisor. As a general rule, both foundation courses are offered annually, one in the fall and one in the spring. Other courses are typically offered on an annual or biennial basis. In some cases, students may be able to count certificate courses toward certain GE CLAS Core [p. 22] requirements.

Some courses in the following list only apply to the certificate when an appropriately themed section is completed; additional notations appear on those courses. Students must ensure they are enrolled for a qualifying section of the course.

Students may petition to receive credit for courses not listed. These may include more general courses in which students complete a major project centered around Jewish studies, such as courses in the creative and performing arts, independent studies, or a senior or honors thesis. Students are advised to consult with the Jewish studies certificate director about any questions regarding qualifying coursework.

The Certificate in Jewish Studies requires the following coursework.

Foundation Courses

Course #	Title	Hours
One of these:		
JSTU:2149/ HIST:2149/ RELS:2240/ SJUS:2240	Introduction to Jewish Studies	3
JSTU:2155/ HIST:2155	Global Jewish History	3

Elective Courses

Students fulfill the remainder of the 18 s.h. with elective courses selected from the following.

It is recommended but not required that students distribute elective courses in the following ways: courses from at least two different departments; courses from at least two different clusters; and at least 9 s.h. in courses numbered 2000 or above.

Cross-Chronological Cluster

Course #	Title	Hours
JSTU:2149/ HIST:2149/ RELS:2240/ SJUS:2240	Introduction to Jewish Studies (if not taken as a foundation course)	3
JSTU:2155/ HIST:2155	Global Jewish History (if not taken as a foundation course)	3
ENGL:3247	The English Bible	3
RELS:1001	Judaism, Christianity, and Islam	3

The Ancient and Medieval World Cluster

Course #	Title	Hours
CLSA:1415	Ancient Origins of Religious Conflict	3
CLSA:1454	Hebrew Bible for Everyone	3
CLSA:1455	New Testament for Everyone	3
CLSA:2444/ RELS:2444	Cities of the Bible	3
CLSA:2482/ RELS:2182	Ancient Mediterranean Religions	3
CLSA:2489/ RELS:2289	Jerusalem: The Holy City	3
CLSA:2620/ RELS:2620	Sex and the Bible	3
CLSA:3247/ RELS:3247	Banned From the Bible: Pseudepigrapha and Apocrypha	3
CLSA:4452/ RELS:4352	The Dead Sea Scrolls	3
ENGL:3226/ MDVL:3226	Literature and Culture of the Middle Ages	3
HIST:2461/ CLSA:2461/ RELS:2361	Middle East and Mediterranean: Alexander to Suleiman	3
RELS:1070	Introduction to the Hebrew Bible/Old Testament	3

The Modern World Cluster

Course #	Title	Hours
JSTU:2156/ HIST:2156	Arabs and Jews in Palestine and Israel	3
FREN:4433/ HIST:4433	France Under Nazi Occupation, 1940-1944	3-4
GRMN:2618/ WLLC:2618	Film and Literature of the Holocaust	3-4
GRMN:2620/ WLLC:2620	Anne Frank and Her Story	3-4
GRMN:2675/ MUSM:2675	The Politics of Memory: Holocaust, Genocide, and 9/11	3-4
HIST:1016	The History That Made Our World (when topic is Israel-Palestine conflict)	3

HIST:2151	Introduction to the History Major (when topic is Nazi Germany)	3
HIST:4478	Holocaust in History and Memory	3
POLI:3423	The Middle East: Policy and Diplomacy	3
RELS:2265/ ASP:2265/ GHS:2265	Hard Cases in Healthcare at the End of Life	3
SJUS:2050/ GWSS:2050/ HIST:2150/ RELS:2250	Jews, Judaism, and Social Justice	3

Language Cluster

Students interested in pursuing additional language study through the Big Ten Academic Alliance CourseShare Program should contact the Department of Languages, Linguistics, Literatures, and Cultures [p. 659] for more information.

Course #	Title	Hours
CLSA:4901/ RELS:4001	Biblical Hebrew I	3-4
CLSA:4902/ RELS:4002	Biblical Hebrew II	3
CLSA:5903/ RELS:5001	Biblical Aramaic	3
CLSA:5904/ RELS:5002	Targumic Aramaic	3
Big Ten Academic Alliance (BTAA) CourseShare courses in Modern Hebrew, Yiddish, or Ladino		

Career Advancement

The Certificate in Jewish Studies is of value for careers for which training in ethics and diversity are important qualifications, such as social services, the health care professions, law, and the arts. The certificate also helps to prepare students for careers with Jewish or interfaith nonprofits and graduate work in Jewish studies or cognate fields.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

History, MA

The Department of History offers a master's degree program in history. Individuals may pursue the degree for a variety of reasons, from professional enhancement to personal enrichment. Students interested in graduate work may obtain a copy of the current History Guide to Graduate Study from the Department of History website. The guide is revised periodically to include detailed regulations on study toward advanced degrees and other information for students.

Learning Outcomes

The MA is for students who wish to acquire a broad knowledge of history and an introduction to the field's theoretical and historical foundations. It is intended to prepare students to pursue a PhD in history or for careers outside the academy.

Students are expected to demonstrate:

- a basic understanding of the development of historiography and historical methodologies;
- a basic understanding of primary source material in one subfield of history; and
- sustained critical thinking, writing, and speaking abilities.

Requirements

The Master of Arts program in history requires a minimum of 30 s.h. of graduate credit, including at least 24 s.h. in history coursework numbered 3000 or above. Students must maintain a UI cumulative grade-point average of at least 3.33.

The MA is offered with two options: one that stresses breadth of learning through coursework; and with the approval of a faculty advisor, one that emphasizes the development of research capabilities culminating in a research essay designed to prepare students for doctoral studies.

Students are required to take HIST:6002 Introduction to Graduate Studies in History: Historiography and Methods during their first semester in the program. They must take 12 s.h. of coursework (one course numbered 6000 or above) in one major division of history; and 6 s.h. each in two other divisions (with at least one course numbered 6000 or above in one of the two divisions), either in history or a related field. Students work with their primary faculty advisor to determine appropriate coursework.

Students take a written exam in their major division of history and defend to a committee of three faculty members.

Students who choose a research option instead of a written exam must complete and defend a research essay to a committee of three faculty members. The essay must be based on original research and completed under the guidance of a faculty advisor. The finished essay should emulate the character of articles in learned journals, just as the PhD dissertation takes the form of a full-length scholarly monograph.

Combined Programs

MA/JD

The Department of History and the College of Law offer a combined Master of Arts/Juris Doctor. The combined degree program allows students to count a limited amount of credit toward both degrees.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the JD, see Juris Doctor, JD [p. 1833] (College of Law) in the catalog.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants submit their application online. Along with the official application, they submit academic transcripts; examples of original writing, such as a term paper, a seminar paper, or an honors thesis; letters of recommendation from three persons familiar with the student's past academic work; and a one- or two-page personal statement of the applicant's purpose for doing graduate work. See History (MA or PhD) on the University of Iowa Graduate Admissions website for more information.

All application materials are due by Jan. 15 for entry the following August.

Career Advancement

Graduate study in history prepares students for occupations such as high school or college teaching, publishing, commercial research, foundations and nongovernmental organizations, and government or other public services. With additional specialized training, students may become qualified for careers in historical site preparation and display, and archival, library, or museum work.

Some students choose to pursue the combined Master of Arts/Juris Doctor program, which leads to degrees in both law and history; see Combined Programs [p. 581] in this section of the catalog.

The University of Iowa's history graduates who earn an MA experience remarkable job placement rates, depending on their area of study. Graduate and postdoctoral career services offer multiple resources to assist students in locating opportunities and preparing for jobs upon completion of the program.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Required during first semester in the program.

c Work with faculty advisor to determine appropriate coursework; refer to the General Catalog and department website for courses and specifics.

d Students must take 12 s.h. of coursework (one course numbered 6000 or above) in one major division of history, and 6 s.h. each in two other divisions (with at least one course numbered 6000 or above in one of the two divisions) either in history or a related field.

e Written and oral examination in the student's major division of history.

History, PhD

The Department of History offers a doctoral program for students interested in earning a PhD in history. Students interested in graduate work may obtain a copy of the current History Guide to Graduate Study from the Department of History website. The guide is revised periodically to include the latest detailed regulations on study toward advanced degrees and other information for students.

Learning Outcomes

The PhD program is intended for students who wish to pursue original research in history. The end goal is a first-rate dissertation based on that research. Students should acquire a deep knowledge of two fields of history and understand the field's historical and theoretical foundations. They are prepared to pursue careers in and outside of academia, and they fashion their plans of study together with their advisors.

Students are expected to demonstrate:

- understanding of the development of the historiography and historical methodologies;
- skill in analyzing primary source material;
- skill in contextual analysis and secondary source interpretations;
- the ability to engage in the broad and ever-shifting philosophical, scholarly, and institutional debates animating the practice of history;
- the ability to engage in sustained critical thinking;
- the ability to write clearly and compellingly;
- a deep knowledge of their two research fields;
- reading knowledge of a second language of particular relevance to their field of study;
- the ability to conduct independent research;
- knowledge and skills necessary to be effective teachers;
- public speaking skills necessary to present research in professional academic settings; and
- critical research and writing skills necessary to publish peer-reviewed articles.

Requirements

The Doctor of Philosophy program in history requires at least 72 s.h. of graduate credit. Students must maintain a cumulative University of Iowa grade-point average of at least 3.33. Those who have earned MA degrees can apply up to 30 s.h. of credit toward the PhD.

Students must complete at least five (for those entering with an MA) and at least seven (for those entering with a BA) graduate-level history courses numbered 6000 or above, earning 3 s.h. of credit for each course. Courses taken at the MA level may be counted toward this requirement.

Students must complete a required course sequence: HIST:6002 Introduction to Graduate Studies in History: Historiography and Methods (in the first semester) and HIST:6003 History Theory and Interpretation. These courses develop an understanding of the philosophy of history, historiography, and methods of historical research. Students must also start the comprehensive exam sequence in the second or third year depending on their degree at admission: HIST:6004 Comprehensive Exams Seminar I (taken the semester before the comprehensive exam) and HIST:6005 Comprehensive Exams Seminar II (taken the semester of the comprehensive exam).

Students who enter the program without an MA must write two research papers that are the length of a standard journal article (7,000–9,000 words) before taking comprehensive exams. One of these research papers is the qualifying research paper. For students who enter the program with an MA, only the qualifying research essay must be completed before taking comprehensive exams. The essay must be based on original research and should be of sufficient quality to submit for publication in learned journals, just as the PhD dissertation takes the form of a full-length scholarly monograph. The qualifying essay must be approved by the faculty advisor and a second faculty member in order for a student to continue in the program.

The department has a basic world language requirement for the PhD; however, the supervising faculty member may require a student to demonstrate reading proficiency in one or more languages and proficiency in the use of other study tools. Students may not complete the comprehensive exam until these requirements have been met.

The comprehensive written and oral exams cover three distinct fields. The primary field is defined thematically and geographically in consultation with the advisor. The secondary field is defined with a field supervisor; it must have a different thematic and/or geographic focus than the primary field. Both of these fields are based on core sets of readings created together with advisors. There are two options for the third field: a teaching option and a non-teaching option. In either case, the parameters are set by the student's advisor, and the required work must be completed prior to the written examinations. The written portion of the comprehensive exams consists of two questions for each field, each answered over two days during the comprehensive exam period. The oral portion of the comprehensive examination focuses on the submitted written examination and is defended to a committee of at least four faculty members.

In most cases, the candidate submits a written prospectus for the dissertation to the faculty advisor before the comprehensive exams, and the student defends the prospectus within two weeks of passing the oral portion of the examination. The examination committee considers the prospectus and may approve it, reject it, or require its revision. At this point, all that remains is researching and writing the dissertation, in regular consultation with the faculty advisor. When the dissertation is completed, a dissertation committee composed of at least four faculty members administers the final examination. A formal oral defense of the dissertation typically lasts two hours.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants submit their application online. Along with the official application, they submit academic transcripts; examples of original writing, such as a term paper, a seminar paper, or a master's essay; letters of recommendation from three persons familiar with the student's past academic work; and a one- or two-page personal statement of the applicant's purpose for doing graduate work. See History (MA or PhD) on the University of Iowa Graduate Admissions website for more information.

All application materials are due by Jan. 15 for entry the following August.

Career Advancement

Graduate study in history prepares students for occupations such as secondary or college teaching, publishing, commercial research, foundations and nongovernmental organizations, and government or other public services. With additional specialized training, students may become qualified for careers in historical site preparation and display, or archival, library, or museum work.

The University of Iowa's history graduates who earn a PhD have an excellent history of job placement, depending on their area of study. Graduate and postdoctoral career services offer multiple resources to assist students in preparing for job opportunities upon completion of the program.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Students must complete HIST:6002 during the first semester.

c Students must complete at least seven graduate level history (or related field) courses numbered 6000 or

above; work with faculty advisor to determine appropriate coursework and sequence.

d Work with faculty advisor to determine appropriate elective coursework and sequence.

e The department has a basic world language requirement for the PhD. However, the faculty advisor may require a student to demonstrate a reading knowledge of one or more languages and proficiency in the use of other study tools. Students may not complete the comprehensive examination until these requirements have been met.

f Must be completed prior to the end of second year fall semester.

g Students who enter the program without an MA must write a second research paper. This paper can be completed anytime between the 1st and 5th semesters and should be complete before beginning the comprehensive exam prep courses.

h Written and oral examination typically completed during the seventh semester; more information is included in the General Catalog and on department website.

i Typically completed during the seventh semester, written prospectus for the dissertation is submitted to the faculty advisor before the comprehensive exams; the student defends the prospectus within two weeks of passing the oral portion of the comprehensive examination.

j Dissertation defense.

Interdepartmental Studies

Director, Division of Interdisciplinary Programs

- Cornelia C. Lang (Physics and Astronomy)

Director, Interdepartmental Studies

- Cornelia C. Lang

Undergraduate major: interdepartmental studies (BA)

Faculty: https://interdepartmentalstudies.uiowa.edu/people

Website: https://interdepartmentalstudies.uiowa.edu/

The Interdepartmental Studies Program (ISP) gives students the opportunity to choose a preapproved plan of study in applied human services, business studies, or health science. Each track includes coursework from a variety of departments.

Students who plan to seek employment immediately after graduation should familiarize themselves with the educational background and qualifications required by employers and should include appropriate courses in their study programs.

Students preparing for advanced study should become familiar with the admissions requirements of graduate or professional schools that interest them. The earlier students decide to pursue graduate or professional study, the easier it is to complete the necessary prerequisites.

The Interdepartmental Studies Program is one of the academic units in the Division of Interdisciplinary Programs [p. 363].

Programs

Undergraduate Program of Study

Major

- Major in Interdepartmental Studies (Bachelor of Arts) [p. 587]

Courses

Interdepartmental Studies Courses

INTD:3005 Professional and Creative Business Communication **3 s.h.**
Solid foundation for creative and professional communication in today's modern work world; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semester-long creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision-making, and human nature; how to navigate and succeed in business or any professional field. GE: Engineering Be Creative. Same as CW:3005, WRIT:3005.

INTD:3107 Creative Writing for the Health Professions **3 s.h.**
GE: Engineering Be Creative. Same as CW:3107.

INTD:3200 Creative Writing for New Media **3 s.h.**
Prepares creative writers for evolving marketplace of electronic text and media; experience writing in varied media (e.g., internet, e-books, video games, mobile devices, emergent social narratives). GE: Engineering Be Creative. Same as CW:3218.

INTD:3300 Creative Writing and Popular Culture **3 s.h.**
Creative writing through the lens of popular culture; topics include television, film writing, adaptations, commercials, advertising, magazines, newspapers, comic books, song lyrics, billboards, and backs of cereal boxes. GE: Engineering Be Creative. Same as CW:3215.

INTD:3500 Fundamentals of Project Management Leadership **3 s.h.**
Overview of the fundamental principles of project management and interdisciplinary team leadership. Students develop essential skills to plan, execute, and oversee projects of varying types and complexity. Key concepts include project planning, risk management, team leadership, conflict resolution, communication, and decision-making within organizational contexts. Students are introduced to technological tools used by organizational leaders to effectively plan, lead, and execute projects across organizations. Same as CLAS:3500.

INTD:3510 Introduction to Arts Management **3 s.h.**
Nonprofit performing arts management and administrative principles; practical applications, trends in the field; focus on arts organizations and their key administrative positions. Same as THTR:3510.

INTD:3600 Advanced Topics in Project Management Leadership **3 s.h.**
Builds on foundational project management concepts to deepen students' understanding of strategic project management and leadership in complex, ever-changing economic, business, and social environments. Examine advanced topics such as strategic growth planning, organizational change, technology innovation, stakeholder engagement, and implementation. Enhances students' ability to lead high-performing teams and manage multifaceted projects with confidence and impact. Prerequisites: CLAS:3100. Same as CLAS:3600.

INTD:4098 Independent Study **arr.**
Individual study of issues or topics related to a specific interdepartmental focus chosen by the student.

INTD:4099 Interdepartmental Studies Practicum **arr.**
Opportunity to relate a student's chosen area of study to practical application. Requirements: interdepartmental studies student.

INTD:4510 Arts Leadership Seminar **3 s.h.**
Performing arts management and administrative principles, practical applications, trends in arts leadership and advocacy. Same as ENTR:4510, THTR:4510.

Interdepartmental Studies, BA

Learning Outcomes

After completing any of the three tracks—applied human services, business studies, or health science—in the interdepartmental studies major, students will:

- possess the mathematical skills to present and understand data and to create probability models, or to design, analyze, and interpret research using a correlational design;
- understand how social and/or political issues shape economic behavior, or how key anthropological concepts assist in comprehending global or societal problems; and
- synthesize key concepts or techniques related to the track they are pursuing.

Requirements

The Bachelor of Arts with a major in interdepartmental studies requires a minimum of 120 s.h., including at least 36 s.h. of work for the major (total semester hours required depends on the track). Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students choose one of three tracks for the major: applied human services, business studies, or health science. Students may declare them without an application.

Students follow a preapproved study plan, which includes foundation courses and a selection of emphasis areas. The applied human services track offers one emphasis area: community-based services. The business studies track offers three emphasis areas: organizational practice and perspectives, arts management, and technology and inquiry. The health science track offers three emphasis areas: cultural contexts, entrepreneurial, and multidisciplinary science.

Interdepartmental studies students who earn a second major may count a maximum of two courses from the second major toward the interdepartmental studies major. The exception to this rule is that there is no limit on the number of GE CLAS Core courses that can overlap between the two majors. Students who earn the major in interdepartmental studies may earn the major in global health studies as long as they select an emphasis in interdepartmental studies other than the cultural contexts emphasis in the health science track.

Students majoring in interdepartmental studies may earn certificates in other programs, departments, or colleges.

Interdepartmental studies students who earn minors in other departments or programs may not count courses from the minors toward the interdepartmental studies major. The exception to this rule is that there is no limit on the number of GE CLAS Core courses that can overlap between the minors and the interdepartmental studies major.

The BA with a major in interdepartmental studies requires the following coursework.

- Applied Human Services Track [p. 587]
  - Community-based Services Emphasis [p. 588]
- Business Studies Track [p. 588]
  - Arts Management Emphasis [p. 589]
  - Organizational Practice and Perspectives Emphasis [p. 591]
  - Technology and Inquiry Emphasis [p. 593]
- Health Science Track [p. 594]
  - Cultural Contexts Emphasis [p. 595]
  - Entrepreneurial Emphasis [p. 597]
  - Multidisciplinary Science Emphasis [p. 597]

Applied Human Services Track

Students in the applied human services track may not earn a minor in human relations. Students in this track may count courses that reside in another college outside the College of Liberal Arts and Sciences (CLAS) toward their residence requirement. For example, Department of Counselor Education courses (prefix CSED) offered through the College of Education will be accepted toward the CLAS residence requirement for students in the applied human services track.

The applied human services track requires 37–41 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized psychology background with one emphasis area: community-based services.

Applied human services track students must complete foundation coursework (24–26 s.h.), the emphasis area (at least 12 s.h.), and a career preparation component (at least 1 s.h.). They must complete a minimum of 15 s.h. of work for the major at the University of Iowa. The Academic Advising Center advises applied human services track students; contact the center for more information about requirements.

Requirements	Hours
Foundation Courses	24-26
Emphasis Area	12
Career Preparation Component	1-3

Applied Human Services Track: Foundation Courses

Psychology Core

Course #	Title	Hours
This course:		
PSY:1001	Elementary Psychology	3
One of these:		
PSY:2811	Research Methods and Data Analysis in Psychology I	3
STAT:1010	Statistics and Society	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4

Human Relations Core

Course #	Title	Hours
One of these:		
CCCC:2220	Foundations of Critical Cultural Competence	3
CSED:4197	Citizenship in a Multicultural Society	3
Both of these:		
CSED:4195	Ethics in Human Relations and Counseling	3

CSED:4199	Counseling for Related Professions	3

Psychology Electives

Course #	Title	Hours
Three of these:		
PSY:2301	Introduction to Clinical Psychology	3
PSY:2401	Introduction to Developmental Science	3
PSY:2501	Introduction to Social Psychology	3
PSY:2601	Introduction to Cognitive Psychology	3
PSY:2701	Introduction to Behavioral Neuroscience	4

Community-Based Services Emphasis

Students who choose the community-based services emphasis complete the elective component (12 s.h.) and the career preparation component (at least 1 s.h.).

Community-Based Services Emphasis: Elective Component

Course #	Title	Hours
12 s.h. from these:		
CSED:4110	Psychology of Food and Mood	3
CSED:4113	Sleep, Sleep Deprivation, and Sleep Disorders	3
CSED:4114	Psychology of Body Modification and Self-Image	3
CSED:4130	Human Sexuality	3
CSED:4132	Introduction to Addictions and Impulse Control Disorders	3
CSED:4140	Foundations of Leadership for Community Agencies	3
CSED:4145/ PSQF:4145	Marriage and Family Interaction	3
CSED:4162/ PSQF:4162	Introduction to Couple and Family Therapy	3
CSED:4173	Trauma Across the Lifespan	3
CSED:4174	Positive Psychology	3
CSED:4175	Motivational Interviewing	3
CSED:4178	Microcounseling	3
CSED:4179	Sexuality Within the Helping Professions	3
CSED:4180	Topical Seminar for Helping Professionals	arr.
CSED:4185	Introduction to Substance Abuse	3
CSED:4187/ EDTL:4987	Introduction to Assistive Technology	3
CSED:4193	Individual Instruction - Undergraduate	arr.
CSED:4194	Interpersonal Effectiveness	3
PSQF:1027	Mindfulness Foundations in the Helping Professions	3
PSY:2930	Abnormal Psychology: Health Professions	3
SSW:3712/ NURS:3712	Human Sexuality, Diversity, and Society	1-3
SSW:3729	Substance Use and Abuse	2-3
SSW:3797	Child Welfare Policy and Practice	3

Community-Based Services Emphasis: Career Preparation Component

Course #	Title	Hours
One of these (at least 1 s.h.):		
INTD:4099	Interdepartmental Studies Practicum	arr.
CCP:1201	Academic Internship	1-3
CCP:1301	Communication for the Workplace	1
CCP:1302	Office Etiquette for the Workplace	1
CCP:1303	Successful Teamwork for the Workplace	1
CCP:1306	Student Employment for Career Success	2
CCP:2001	Graduate Admissions 101	1
CCP:2004	Internships: Search, Secure, and Succeed	1
CCP:3102	Job Search Essentials	1-3
CCP:3104	Defining Your Career Path	2
CCP:3105	Transitioning From Campus to the Workplace	1
CCP:3107	Social Media for Your Job Search	1
LS:2002	Career Leadership Academy Part 1: Leadership in Practice	3
LS:2013	Strengths-Based Leadership	1
LS:3002	Career Leadership Academy Part 2: Leadership in Action	3

Business Studies Track

Students in the business studies track may not earn a business administration minor.

The business studies track requires 37–46 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized business background with a choice of three emphasis areas: organizational practice and perspectives, arts management, and technology and inquiry.

Business studies track students must complete foundation coursework (at least 11 s.h.), business electives (at least 10 s.h.), one emphasis area (at least 15 s.h.), and the career preparation component (at least 1 s.h.). They must complete a minimum of 15 s.h. of work for the major at the University of Iowa. The Academic Advising Center advises business studies track students; contact the center for more information about requirements.

Requirements	Hours
Foundation Courses	11-15
Business Electives	10-12
Emphasis Area	15-16
Career Preparation Component	1-3

Business Studies Track: Foundation Courses

Foundational Math

Course #	Title	Hours
Both of these:		
MATH:1005	College Algebra	4
MATH:1010	Trigonometry	3
Or one of these:		
MATH:1020	Elementary Functions	4
MATH:1340	Mathematics for Business	4
MATH:1350	Quantitative Reasoning for Business	4
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Calculus I	4
MATH:1850	Calculus I	4

Foundational Statistics

Course #	Title	Hours
One of these:		
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

Foundational Economics

Course #	Title	Hours
One of these:		
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4

Business Studies Track: Business Electives

Students complete four electives (at least 10 s.h.) from the following list.

Course #	Title	Hours
ACCT:2100	Introduction to Financial Accounting	3
ACCT:2200	Managerial Accounting Analytics and Data Visualization	3
BAIS:3000	Operations Management	2
CS:2420	Analyzing Data for Informatics	3
CS:4400	Database Systems	3
ENTR:1350	Foundations in Entrepreneurship	3
FIN:3000	Introductory Financial Management	3
MGMT:2000	Introduction to Law	3
MGMT:2100	Introduction to Management	3
MKTG:3000	Introduction to Marketing Strategy	3
May include one of these:		
BAIS:1500	Business Computing Essentials	2
CS:1020	Principles of Computing	3

Arts Management Emphasis

Students who choose the arts management emphasis must complete the administration component (6 s.h.), the history component (3 s.h.), the production component (3 s.h.), the elective component (3 s.h.), and one course from the career preparation component (at least 1 s.h.).

Arts Management Emphasis: Administration Component

Course #	Title	Hours
Two of these:		
INTD:3510/ THTR:3510	Introduction to Arts Management	3
INTD:4510/ ENTR:4510/ THTR:4510	Arts Leadership Seminar	3
ENTR:2000	Entrepreneurship and Innovation	3

Arts Management Emphasis: History Component

Course #	Title	Hours
One of these:		
ARTH:1010	Art and Visual Culture	3
ARTH:1020	Masterpieces: Art in Historical and Cultural Perspectives	3
ARTH:1030	Themes in Global Art	3
ARTH:1040	Arts of Africa	3
ARTH:1050	From Cave Paintings to Cathedrals: Survey of Western Art I	3
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3
ARTH:1070	Asian Art and Culture	3
ARTH:1095/ NAIS:1095	Native American Art	3
COMM:1168	Music and Social Change	3
DANC:2060	Dance and Society in Global Contexts	3
DANC:3060	Western Concert Dance History: Romantic to Contemporary	3
ENGL:3440/ THTR:3440	American Drama Since 1900	3
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1066	Introduction to Film Music	3
MUS:1302	Great Musicians	3
MUS:1303	Roots, Rock, and Rap: A History of Popular Music	3

Health Science Track

The health science track requires 38–47 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized health background with a varied choice of emphasis areas: multidisciplinary science, entrepreneurial, and cultural contexts.

Health science track students must complete foundation coursework (at least 22 s.h.), one emphasis area (at least 15 s.h.), and the career preparation component (at least 1 s.h.). They must complete a minimum of 15 s.h. for the major at the University of Iowa. The Academic Advising Center advises health science track students; contact the center for more information about requirements.

Requirements	Hours
Foundation Courses	22-29
Emphasis Area	15
Career Preparation Component	1-3

Health Science Track: Foundation Courses

Students must complete at least 22 s.h. of foundation courses from the following.

Foundational Chemistry

Course #	Title	Hours
One of these:		
CHEM:1070	General Chemistry I	3
CHEM:1110	Principles of Chemistry I	4
One of these:		
CHEM:1080	General Chemistry II	3
CHEM:1120	Principles of Chemistry II	4

Foundational Biology

Course #	Title	Hours
One of these:		
BIOL:1140	Human Biology: Nonmajors	4

BIOL:1141	Human Biology: Health Professions	4
BIOL:1411	Foundations of Biology	4

Foundational Math and Statistics

Course #	Title	Hours
One of these:		
MATH:1020	Elementary Functions	4
MATH:1350	Quantitative Reasoning for Business	4
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Calculus I	4
MATH:1850	Calculus I	4
PSQF:4143/ STAT:4143	Introduction to Statistical Methods	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:3510/ IGPI:3510	Biostatistics	3

Foundational Social Science

Course #	Title	Hours
One of these:		
ANTH:1101/IS:1101	Cultural Anthropology	3
ANTH:2100	Anthropology and Contemporary World Problems	3
PSY:1001	Elementary Psychology	3
SOC:1010	Introduction to Sociology	3-4
SOC:1030	Contemporary Social Problems	3-4
SOC:1220	Principles of Social Psychology	3-4

Foundational Science Elective

Course #	Title	Hours
One of these:		
ACB:3110	Principles of Human Anatomy	3
BIOL:1412	Diversity of Form and Function	4
HHP:3105	Anatomy for Human Physiology	3
MICR:2157	General Microbiology	3
PSY:2701	Introduction to Behavioral Neuroscience	4
PSY:2975	Introduction to Cognitive Neuroscience	3

Foundational Elective

Course #	Title	Hours
One of these:		
HHP:2200	Physical Activity and Health	3
HHP:2310	Nutrition and Health	3
HHP:3400	Applied Exercise Physiology	3
HHP:3500	Human Physiology	3
HHP:3550	Human Physiology With Laboratory	5
NURS:1030	Human Development and Behavior	3
PSY:2401	Introduction to Developmental Science	3
PSY:2701	Introduction to Behavioral Neuroscience	4

Cultural Contexts Emphasis

Students who choose the cultural contexts emphasis area may not earn the Certificate in Global Health Studies or the minor in global health studies.

Students who choose the cultural contexts emphasis must complete 15 s.h. from the following list and the career preparation component (at least 1 s.h.).

Course #	Title	Hours
ANTH:1046/ GWSS:1046/ SEES:1046/ SJUS:1046	Environmental Politics in India	3
CLSA:1181/ GHS:1181	Ancient Medicine	3
GHS:1200/ DST:1200/ GRMN:1200/ WLLC:1200	Disabilities and Inclusion in Writing and Film Around the World	3

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major; they usually complete the honors requirements of a particular department or program appropriate to their area of study. Students should initiate inquiries about graduating with honors in the interdepartmental studies major by contacting the Interdepartmental Studies Program (ISP) coordinator; they should inquire early in their junior year to allow time for foundation coursework. Students must submit an honors project approval form to the ISP coordinator.

The College of Liberal Arts and Sciences requires that students who earn honors in the major maintain a minimum University of Iowa cumulative grade-point average (GPA) of at least 3.33 and a minimum major GPA of at least 3.33. Additional GPA standards and requirements are set by each department or program.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the interdepartmental studies major.

Career Advancement

Graduates in the applied human services, business studies, and health science tracks have career options in a variety of settings, including retirement homes, hospitals, health clubs, government agencies, insurance companies, and performing arts companies.

Students who create individualized plans of study stand out when they apply for jobs because their major emphasizes a unique set of strengths and interests. In addition, employers often are impressed by their enthusiasm and self-directed nature.

Many interdepartmental studies majors go on to graduate school.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is available only to Interdepartmental Studies Program (ISP) students in the individualized plan of study track. Students in the other ISP tracks work with their advisors to develop individual graduation plans.

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major.

Before the seventh semester begins: an approved individualized plan of study, at least six courses in the plan of study, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: a total of at least nine courses in the plan of study.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Hours	**13-15**
Total Hours	**121-130**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f See the General Catalog for list of approved courses.

g Choose one course from PSY:2811, STAT:1010, STAT:1020, STAT:1030.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

c Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

d Fulfills a major requirement and may fulfill a GE requirement.

e See the General Catalog for list of approved courses. Students should choose a mathematics or statistics course that will also complete the GE: Quantitative or Formal Reasoning requirement.

f Enrollment in math courses requires completion of a placement exam.

g See the General Catalog for list of approved courses.

h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

i Students must complete a total of 15 s.h. and one course (at least 1 s.h.) from the career preparation component; the required 15 s.h. must include 9 s.h. earned in advanced courses. See the General Catalog for list of approved courses.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

International Relations

Chair, Department of Political Science

- Julianna Pacheco

Undergraduate major: international relations (BA, BS)

Undergraduate minor: international relations

Faculty: https://politicalscience.uiowa.edu/people/faculty

Website: https://politicalscience.uiowa.edu

The undergraduate programs of study in international relations are administered by the Department of Political Science [p. 927], which offers related BA and BS programs of study in political science. The department also offers the Certificate in Political Risk Analysis [p. 925], and it collaborates with other departments to offer the Certificate in Social Science Analytics [p. 996]. The department additionally provides a number of courses that undergraduate students in all majors may use to fulfill GE CLAS Core [p. 22] requirements.

Programs

Undergraduate Programs of Study

Majors

- Major in International Relations (Bachelor of Arts) [p. 604]
- Major in International Relations (Bachelor of Science) [p. 610]

Minor

- Minor in International Relations [p. 618]

International Relations, BA

A major in international relations focuses on economic relations between states, a crucial area of study in today's globalized world. Students are introduced to the politics of foreign countries. They develop an understanding of how countries interact and acquire a deep appreciation for the root causes of problems that transcend national boundaries.

Requirements for the major are the same for BA and BS students, except that the major for the BS requires a set of statistics, research, and experiential courses, while the major for the BA does not.

Learning Outcomes

Graduates will:

- possess a broad understanding of international relations;
- be able to apply a theoretical approach in international relations to understand a specific area of international relations;
- have effective written and oral communication skills; and
- be able to conceptualize problems and apply analytical tools to solve them.

Requirements

The Bachelor of Arts with a major in international relations requires a minimum of 120 s.h., including at least 37 s.h. of work for the major. At least 18 s.h. of coursework for the major must be taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students choose one of five tracks: conflict and foreign policy, international business and economic relations, regional politics and relationships, transnational issues, or a self-defined track.

The BA with a major in international relations requires the following coursework.

Requirements	Hours
International Relations Core	12
Methods Course	3
Senior Seminar Courses	4
Track Courses	18-19

International Relations Core

Course #	Title	Hours
All of these:		
POLI:1500	Introduction to International Relations	3
POLI:3512	International Conflict	3
POLI:3516	The Politics of International Economics	3
One of these:		
HIST:1101	The Modern World	3
HIST:1403	The West and the World: Modern	3
HIST:3155	The World Since 1945	3

Methods Course

Course #	Title	Hours
One of these:		
POLI:2000	Designing Political Research	3
POLI:3000	Analyzing Political Data	3

Senior Seminar Courses

Course #	Title	Hours
This course:		
POLI:4802	International Relations Senior Seminar Preparation	1
One of these:		
POLI:4800	Senior Seminar in International Relations	3
POLI:4801	Honors Senior Seminar in International Relations	3

Tracks

International relations students complete one of the following five tracks, each of which requires 18–19 s.h. of coursework. Students who would like to declare the major in international relations before deciding on a track may declare the open track for advising purposes. They should talk with an advisor and decide on a track as soon as possible.

- Conflict and Foreign Policy Track [p. 604]
- International Business and Economic Relations Track [p. 605]
- Regional Politics and Relationships Track [p. 605]
- Transnational Issues Track [p. 606]
- Self-Defined Track [p. 607]

Conflict and Foreign Policy Track

The conflict and foreign policy track requires the following coursework (minimum of 18 s.h.).

Course #	Title	Hours
This course:		
POLI:1501	Introduction to American Foreign Policy	3
15 s.h. from these, including courses from at least two departments (minimum 3 s.h. per department):		
POLI:2417	Comparative Environmental Policy	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3405	Authoritarian Politics	3
POLI:3411	Democracy: Global Trends and Struggles	3
POLI:3420	Southeast Asia: Politics and Development	3
POLI:3422	Horn of Africa: Politics and Transnational Issues	3
POLI:3423	The Middle East: Policy and Diplomacy	3
POLI:3428	Statecraft, Diplomacy, and World Order	3

POLI:3450	Problems in Comparative Politics	3
POLI:3503	Politics of Terrorism	3
POLI:3505	Civil Wars	3
POLI:3506	Consequences of War	3
POLI:3509	International Courts: The Intersection of Law and Politics	3
POLI:3518	Water Wars: Conflict and Cooperation	3
POLI:3527	Civil War Research Lab	3
POLI:3530	Diplomacy Lab	arr.
POLI:3550	Problems of International Politics	3
POLI:3603	War and Film	3
HIST:2156/ JSTU:2156	Arabs and Jews in Palestine and Israel	3
HIST:2420/ GRMN:2720	Germany in the World	3-4
HIST:2465	Europe Since 1945	3
HIST:2684/ ASIA:2684	Korean War: Local and Global History	3
HIST:2804	The Middle East Through Graphic Novels and Animated Film	3
HIST:2810	The Modern Middle East	3
HIST:3106	History Behind the Headlines	3
HIST:3108	History of Human Rights	3
HIST:3145	Europe and the United States in the Twentieth Century	3
HIST:3147	The Cold War	3
HIST:3155	The World Since 1945	3
HIST:3242	The United States in World Affairs	3-4
HIST:3494/ RUSS:3494	The Russian Revolutions and Their Legacies	3
HIST:4478	Holocaust in History and Memory	3

International Business and Economic Relations Track

The international business and economic relations track requires the following coursework (minimum of 19 s.h.).

Course #	Title	Hours
Two of these:		
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
SEES:2910	The Global Economy	3
11-12 s.h. from these, including courses from at least two departments (minimum 3 s.h. per department):		
POLI:2417	Comparative Environmental Policy	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3424	Global Development	3
POLI:3432	Agriculture Politics and Policy	3
POLI:3504	Globalization	3
ECON:3335	Money, Banking, and Financial Markets	3
ECON:3345	Global Economics and Business	3
ECON:3620	Economic Growth and Development	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
ECON:4110	International Economics	3
ENTR:4460	Entrepreneurship and Global Trade	3
FIN:4240	International Finance (prerequisite required)	3
HIST:1115/ SEES:1115	The History of Oil	3
HRTS:3904/IS:3904	Business, Labor, and Human Rights	1-3
MGMT:3450	International Business Environment	3
MKTG:4300	International Marketing (prerequisite required)	3
SEES:3090/ GHS:3070	Hungry Planet: Global Geographies of Food	3
SEES:3780/ GHS:3780/ HIST:3240/ POLI:3431	U.S. Energy Policy in Global Context	3
SEES:3800	Environmental Policy	3
URP:3350/ ECON:3750/ SEES:3940	Transportation Economics	3

Regional Politics and Relationships Track

The regional politics and relationships track requires the following coursework (minimum of 18 s.h.).

Course #	Title	Hours
This course:		
POLI:1400	Introduction to Comparative Politics	3
15 s.h. from these, including courses from at least two departments (minimum 3 s.h. per department):		
POLI:1401	Introduction to Russian Politics	3
POLI:1449	Introduction to European Politics	3
POLI:2415	Latin American Politics	3
POLI:2500	Politics of Natural Disasters	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3405	Authoritarian Politics	3
POLI:3408	Chinese Politics and Society	3
POLI:3420	Southeast Asia: Politics and Development	3
POLI:3422	Horn of Africa: Politics and Transnational Issues	3
POLI:3423	The Middle East: Policy and Diplomacy	3
POLI:3424	Global Development	3

POLI:3426	Outliers: Comparing Odd Countries	3
POLI:3428	Statecraft, Diplomacy, and World Order	3
POLI:3430	Environmental Politics and Indigeneity	3
POLI:3432	Agriculture Politics and Policy	3
POLI:3450	Problems in Comparative Politics	3
POLI:3527	Civil War Research Lab	3
POLI:3530	Diplomacy Lab	arr.
POLI:3550	Problems of International Politics	3
GWSS:3326/ GHS:3327	The Politics of Progress: NGOs, Development, and Sexuality	3
HIST:1602/ ASIA:1602	Civilizations of Asia: China from the 17th Century to the Present	3
HIST:1604/ ASIA:1604	Civilizations of Asia: Japan	3-4

Self-Defined Track

Students may create their own track with permission from the director of undergraduate studies. A self-defined track may not duplicate an existing track or another academic program of study at the University of Iowa. It must consist of at least 18 s.h. of coursework, which must include 3 s.h. of credit earned in courses from three different departments (9 s.h. total).

Honors

Honors in the Major

Students majoring in international relations have the opportunity to graduate with honors in the major. Departmental honors students must maintain a UI grade-point average (GPA) of at least 3.33 and a major GPA of at least 3.50. In addition to maintaining the minimum GPA requirements and minimum major requirements, honors students must complete a final honors thesis, POLI:4801 Honors Senior Seminar in International Relations.

National Honor Society

The department sponsors a chapter of Pi Sigma Alpha. Students who have met the expectations for membership in Pi Sigma Alpha are invited to join. Contact the Department of Political Science honors advisor for more information.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the international relations major.

Career Advancement

Because international relations and the international community are so important, a major in international relations is an excellent choice for any student considering a career in either the public or private sector, including the diplomatic service, intelligence organizations, multinational corporations, nongovernmental organizations, international organizations, think tanks, public health agencies, the media, and numerous other professions. The international relations major also prepares students to pursue postbaccalaureate degrees such as a JD, MA, or PhD.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: POLI:1500 Introduction to International Relations.

Before the fifth semester begins: all core courses and the methods course.

Before the seventh semester begins: at least 12 s.h. in the track and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: all track requirements.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f STAT:1010 or STAT:1020 recommended.

g Students complete 11-12 s.h. from approved international business and economic relations track elective courses, including courses from at least two different departments (minimum 3 s.h. per department). See the General Catalog for list of approved courses.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

International Relations, BS

A major in international relations focuses on economic relations between states, a crucial area of study in today's globalized world. Students are introduced to the politics of foreign countries. They develop an understanding of how countries interact and acquire a deep appreciation for the root causes of problems that transcend national boundaries.

Requirements for the major are the same for BS and BA students, except that the major for the BS requires a set of statistics, research, and experiential courses, while the major for the BA does not.

Learning Outcomes

Graduates will:

- possess a broad understanding of international relations;
- be able to apply a theoretical approach in international relations to understand a specific area of international relations;
- have effective written and oral communication skills; and
- be able to conceptualize problems and apply analytical tools to solve them.

Requirements

The Bachelor of Science with a major in international relations requires a minimum of 120 s.h., including at least 40 s.h. of work for the major. At least 18 s.h. of coursework for the major must be taken at the University of Iowa. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students choose one of five tracks: conflict and foreign policy, international business and economic relations, regional politics and relationships, transnational issues, or a self-defined track.

The BS with a major in international relations requires the following coursework.

Requirements	Hours
International Relations Core	12
Methods Course	3
Senior Seminar Courses	4
Statistics/Research/Experiential Courses	6
Track Courses	15-16

International Relations Core

Course #	Title	Hours
All of these:		
POLI:1500	Introduction to International Relations	3
POLI:3512	International Conflict	3
POLI:3516	The Politics of International Economics	3
One of these:		
HIST:1101	The Modern World	3
HIST:1403	The West and the World: Modern	3
HIST:3155	The World Since 1945	3

Methods Course

Course #	Title	Hours
This course:		
POLI:3000	Analyzing Political Data	3

Senior Seminar Courses

Course #	Title	Hours
This course:		
POLI:4802	International Relations Senior Seminar Preparation	1
One of these:		
POLI:4800	Senior Seminar in International Relations	3
POLI:4801	Honors Senior Seminar in International Relations	3

Statistics/Research/Experiential Courses

Students must take 6 s.h. in statistical methods, research processes, and experiential learning courses. Students are allowed to customize the courses to fit their interests and academic goals.

Course #	Title	Hours
One of these (minimum 3 s.h.):		
POLI:3001	Hawkeye Poll	3
POLI:3020	Project Vote Smart: Research and Engagement on Elections	3
POLI:3127	Legislative Policy Seminar	arr.
POLI:3160	Applied Research in Political Science	1-3
POLI:3525	Iowa Policy and Opinion Lab	3
POLI:3527	Civil War Research Lab	3
POLI:3530	Diplomacy Lab	arr.
POLI:3994	Political Science Undergraduate Research Projects	3-4
POLI:4700	Independent Study	arr.
POLI:4701	Undergraduate Research Tutorial	3
One of these (minimum 3 s.h.):		
POLI:3050	Problems in Methods	arr.
CS:1210	Computer Science I: Fundamentals	4
CS:2110	Programming for Informatics	4
ECON:3300	Introduction to Econometrics: Causal Inference With Data	3
ECON:4800	Econometric Analysis: Advanced Causal Inference With Data	3
SEES:2050	Foundations of GIS	4
SEES:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3

SEES:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3
SOC:3880	The Sociology of Networks	3
SOC:4000	Data Science for Social Good	3
Statistics courses (prefix STAT) numbered 3000 and above		
Additional courses may be approved with exception by the director of undergraduate studies		

Tracks

International relations students complete one of the following five tracks, each of which requires 15–16 s.h. of coursework. Students who would like to declare the major in international relations before deciding on a track may declare the open track for advising purposes. They should talk with an advisor and decide on a track as soon as possible.

- Conflict and Foreign Policy Track [p. 611]
- International Business and Economic Relations Track [p. 611]
- Regional Politics and Relationships Track [p. 612]
- Transnational Issues Track [p. 613]
- Self-Defined Track [p. 614]

Conflict and Foreign Policy Track

The conflict and foreign policy track requires the following coursework (minimum of 15 s.h.).

Course #	Title	Hours
This course:		
POLI:1501	Introduction to American Foreign Policy	3
12 s.h. from these, including courses from at least two departments (minimum 3 s.h. per department):		
POLI:2417	Comparative Environmental Policy	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3405	Authoritarian Politics	3
POLI:3411	Democracy: Global Trends and Struggles	3
POLI:3420	Southeast Asia: Politics and Development	3
POLI:3422	Horn of Africa: Politics and Transnational Issues	3
POLI:3423	The Middle East: Policy and Diplomacy	3
POLI:3428	Statecraft, Diplomacy, and World Order	3
POLI:3450	Problems in Comparative Politics	3
POLI:3503	Politics of Terrorism	3
POLI:3505	Civil Wars	3
POLI:3506	Consequences of War	3
POLI:3509	International Courts: The Intersection of Law and Politics	3
POLI:3518	Water Wars: Conflict and Cooperation	3
POLI:3527	Civil War Research Lab	3
POLI:3530	Diplomacy Lab	arr.
POLI:3550	Problems of International Politics	3
POLI:3603	War and Film	3
HIST:2156/ JSTU:2156	Arabs and Jews in Palestine and Israel	3
HIST:2420/ GRMN:2720	Germany in the World	3-4
HIST:2465	Europe Since 1945	3
HIST:2684/ ASIA:2684	Korean War: Local and Global History	3
HIST:2804	The Middle East Through Graphic Novels and Animated Film	3
HIST:2810	The Modern Middle East	3
HIST:3106	History Behind the Headlines	3
HIST:3108	History of Human Rights	3
HIST:3145	Europe and the United States in the Twentieth Century	3
HIST:3147	The Cold War	3
HIST:3155	The World Since 1945	3
HIST:3242	The United States in World Affairs	3-4
HIST:3494/ RUSS:3494	The Russian Revolutions and Their Legacies	3
HIST:4478	Holocaust in History and Memory	3

International Business and Economic Relations Track

The international business and economic relations track requires the following coursework (minimum of 16 s.h.).

Course #	Title	Hours
Two of these:		
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
SEES:2910	The Global Economy	3
8-9 s.h. from these, including courses from at least two departments (minimum 3 s.h. per department):		
POLI:2417	Comparative Environmental Policy	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3424	Global Development	3
POLI:3432	Agriculture Politics and Policy	3
POLI:3504	Globalization	3
ECON:3335	Money, Banking, and Financial Markets	3
ECON:3345	Global Economics and Business	3
ECON:3620	Economic Growth and Development	3
ECON:3625/ URP:3135	Environmental and Natural Resource Economics	3
ECON:4110	International Economics	3

ENTR:4460	Entrepreneurship and Global Trade	3
FIN:4240	International Finance (prerequisite required)	3
HIST:1115/ SEES:1115	The History of Oil	3
HRTS:3904/IS:3904	Business, Labor, and Human Rights	1-3
MGMT:3450	International Business Environment	3
MKTG:4300	International Marketing (prerequisite required)	3
SEES:3090/ GHS:3070	Hungry Planet: Global Geographies of Food	3
SEES:3780/ GHS:3780/ HIST:3240/ POLI:3431	U.S. Energy Policy in Global Context	3
SEES:3800	Environmental Policy	3
URP:3350/ ECON:3750/ SEES:3940	Transportation Economics	3

Regional Politics and Relationships Track

The regional politics and relationships track requires the following coursework (minimum of 15 s.h.).

Course #	Title	Hours
This course:		
POLI:1400	Introduction to Comparative Politics	3
12 s.h. from these, including courses from at least two departments (minimum 3 s.h. per department):		
POLI:1401	Introduction to Russian Politics	3
POLI:1449	Introduction to European Politics	3
POLI:2415	Latin American Politics	3
POLI:2500	Politics of Natural Disasters	3
POLI:3035	Careers in Political Science and International Relations	3
POLI:3405	Authoritarian Politics	3
POLI:3408	Chinese Politics and Society	3
POLI:3420	Southeast Asia: Politics and Development	3
POLI:3422	Horn of Africa: Politics and Transnational Issues	3
POLI:3423	The Middle East: Policy and Diplomacy	3
POLI:3424	Global Development	3
POLI:3426	Outliers: Comparing Odd Countries	3
POLI:3428	Statecraft, Diplomacy, and World Order	3
POLI:3430	Environmental Politics and Indigeneity	3
POLI:3432	Agriculture Politics and Policy	3
POLI:3450	Problems in Comparative Politics	3
POLI:3527	Civil War Research Lab	3
POLI:3530	Diplomacy Lab	arr.
POLI:3550	Problems of International Politics	3
GWSS:3326/ GHS:3327	The Politics of Progress: NGOs, Development, and Sexuality	3
HIST:1602/ ASIA:1602	Civilizations of Asia: China from the 17th Century to the Present	3

Self-Defined Track

Students may create their own track with permission from the director of undergraduate studies. A self-defined track may not duplicate an existing track or another academic program of study at the University of Iowa. It must consist of at least 15 s.h. of coursework, which must include 3 s.h. of credit earned in courses from three different departments (9 s.h. total).

Honors

Honors in the Major

Students majoring in international relations have the opportunity to graduate with honors in the major. Departmental honors students must maintain a UI grade-point average (GPA) of at least 3.33 and a major GPA of at least 3.50. In addition to maintaining the minimum GPA requirements and minimum major requirements, honors students must complete a final honors thesis, POLI:4801 Honors Senior Seminar in International Relations.

National Honor Society

The department sponsors a chapter of Pi Sigma Alpha. Students who have met the expectations for membership in Pi Sigma Alpha are invited to join. Contact the Department of Political Science honors advisor for more information.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the international relations major.

Career Advancement

Because international relations and the international community are so important, a major in international relations is an excellent choice for any student considering a career in either the public or private sector, including the diplomatic service, intelligence organizations, multinational corporations, nongovernmental organizations, international organizations, think tanks, public health agencies, the media, and numerous other professions. The international relations major also prepares students to pursue postbaccalaureate degrees such as a JD, MA, or PhD.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: POLI:1500 Introduction to International Relations.

Before the fifth semester begins: all core courses and the methods course.

Before the seventh semester begins: at least one of the statistics/research/experiential courses, at least 12 s.h. in the track, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: all core courses, the methods course, the remaining statistics/research/experiential course, and all track requirements.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f The conflict and foreign policy track requires POLI:1501 and at least 12 s.h. of additional courses (15 s.h. total); must include courses from at least two departments (minimum 3 s.h. per department). See the General Catalog for list of approved courses.

g Students must take 6 s.h. in statistical methods, research processes, and experiential learning courses. See the General Catalog for list of approved courses.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f The transnational issues track requires at least 15 s.h. of additional courses, including courses from at least three

departments (minimum 3 s.h. per department). See the General Catalog for list of approved courses.

g Students must take 6 s.h. in statistical methods, research processes, and experiential learning courses. See the General Catalog for list of approved courses.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

International Relations, Minor

Requirements

The undergraduate minor in international relations requires a minimum of 15 s.h. in coursework approved for the international relations major, including at least 9 s.h. in courses numbered 3000 or above and at least 12 s.h. taken at the University of Iowa. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students may count a maximum of 9 s.h. earned in coursework from one department toward the minor. To view the selection of courses available, see the BA in international relations [p. 604] or the BS in international relations [p. 610] in the catalog.

Courses for the minor in international relations must include the following.

Course #	Title	Hours
This course:		
POLI:1500	Introduction to International Relations	3
One of these:		
POLI:3512	International Conflict	3
POLI:3516	The Politics of International Economics	3

Iowa Sciences Academy

Director

- Lori Adams (Biology)

Faculty: https://isa.uiowa.edu/people

Website: https://isa.uiowa.edu/

The Iowa Sciences Academy (ISA) is home to a range of programs that support the success of undergraduate students interested in research and scientific communication. Through ISA programs, students have access to hands-on research, professional development, and scientific outreach opportunities. The Iowa Sciences Academy strives to build a strong community of students, staff, and faculty engaged in the sciences.

The Science Alliance Internship program supports qualified first- and second-year students interested in exploring research on campus. The program aims to enrich the undergraduate experience through coursework, mentor matching, career guidance, and creating a cohort of students with similar interests in science and research. Competitive wages to carry out research in laboratories and access to a summer program for science alliance interns are provided.

The Maximizing Access to Research Careers (UI-MARC) is a National Institutes of Health (NIH) funded program that supports the academic and personal success of qualified junior and senior students committed to pursuing a PhD in science. The goal of the UI-MARC research training program is to develop a cohort of undergraduates who complete their baccalaureate degree and transition into and complete biomedical, research-focused higher degree programs (e.g., PhD). A yearly stipend, funding for conference travel, tuition support, and access to external summer research experiences are provided.

The mission of the National Science Foundation (NSF) funded Louis Stokes Alliance for Minority Participation (UI-LSAMP) program is to support and increase the nation's STEM workforce, broaden undergraduate participation in research, and create a sense of community and support for students with a declared major in science, technology, engineering, mathematics, and pre-health professions. UI-LSAMP facilitates professional development and finding laboratory experiences for STEM majors transferring from community colleges. Selected students receive stipends for each term.

The Latham Science Engagement Initiative provides the opportunity for sophomore, junior, and senior students to interact with highly talented undergraduate students across science disciplines. The program prepares students to communicate science in the public sphere, work in multidisciplinary settings, and demonstrate the broader impact of scientific research. Students selected for the program complete two courses, design and implement science outreach projects, and participate in an event that highlights their achievements.

Admission

Students must apply for each program individually to be considered for admission. Requirements for admission vary from program to program. Admission to some programs may require an interview. For more information, including the online application forms, visit the Iowa Sciences Academy website.

In general, applicants should:

- have a strong interest in pursuing a research career;
- have a qualifying academic major;
- have a strong academic record (e.g., a grade-point average of at least 3.00); and
- meet additional requirements as specified by the individual program.

Courses

Iowa Sciences Academy Courses

ISA:1040 Exploring Research **1 s.h.**
Professional and career development; tours of scientific research facilities and laboratories on campus; network with professors and graduate students; explore different types of research environments on campus; learn how to identify and contact potential research mentors.

ISA:1041 Entering Research **1 s.h.**
Complement to independent scientific research experience; students meet weekly to share research experiences; students gain experience searching peer-reviewed literature databases; reading and summarizing peer-reviewed scientific papers.

ISA:2040 Professionalism in the Scientific Community **1 s.h.**
Development of communication skills and appropriate professional conduct while maintaining ethical standards; further understanding of ethical issues in student's field, improve communication of student's research to the public, and understanding the significance of professional conduct, networking, and diversity within student's field.

ISA:2041 Career Exploration and Specification **1 s.h.**
Students define career goals, increase knowledge about the process of obtaining a graduate or professional degree, and create personal plans for future academic and research endeavors.

ISA:3040 Critical Analysis of Primary Literature **1 s.h.**
Development of critical thinking and research skills through analysis of primary scientific research literature to demystify and humanize research science; how to analyze components of a good empirical article; students present a research paper from literature in their field of interest as preparation to contribute to future empirical manuscripts. Requirements: minimum of 60 s.h. earned and junior or senior standing.

ISA:3041 Pathways to Post-Undergraduate Education **1 s.h.**
Successful preparation for graduate school application process; students learn how to write their own curriculum vita, personal statements, research statements, and graduate school application action plan. Requirements: minimum of 60 s.h. earned and junior or senior standing.

ISA:3992 Iowa Sciences Academy Undergraduate Research **0 s.h.**
Registration in a section taught by student's research mentor. Requirements: participation in Iowa Sciences Academy.

ISA:4040 Teaching Your Undergraduate Research 1 s.h.
Scientific teaching principles (e.g., backwards design, active learning, formative assessment); students develop a teaching unit based on some aspect of their research and teach it to the class in preparation for future interviews where the ability to explain the background and significance for their research is a highly valued skill. Requirements: minimum of 60 s.h. earned, junior or senior standing, and undergraduate research experience.

ISA:4041 Senior Capstone Project 1 s.h.
Structure for development, planning, and implementation of a culminating project for the Iowa Sciences Academy; students dedicate three to five hours per week to the project and are encouraged to connect their projects to community issues or problem; integration of external learning experiences and activities including interviews, scientific observations, or internships.

Journalism and Mass Communication

Director

- Melissa Tully

Undergraduate majors: journalism and mass communication (BA); sport media and culture (BA)

Undergraduate minors: media management; news and media literacy; sport media and culture

Graduate degrees: MA in mass communication; MA in strategic communication; PhD in mass communication

Faculty: https://journalism.uiowa.edu/people

Website: https://journalism.uiowa.edu/

The School of Journalism and Mass Communication offers two undergraduate majors, three minors, and three graduate degree programs. Undergraduate students in all majors may use approved journalism and mass communication courses to satisfy the Historical Perspectives, Social Sciences, Sustainability, Understanding Cultural Perspectives, and Values and Society requirements of the College of Liberal Arts and Sciences GE CLAS Core [p. 22], and the school's First-Year Seminar is designed specifically for entering undergraduate students.

The school is accredited by the Accrediting Council on Education in Journalism and Mass Communications.

Certificates

The School of Journalism and Mass Communication administers the Certificate in Event Management in collaboration with the departments of Communication Studies, Health, Sport, and Human Physiology, and Marketing. It also collaborates with the Department of Management and Entrepreneurship to offer the Certificate in Nonprofit Leadership and Philanthropy.

Event Management

See the Certificate in Event Management [p. 466] in the catalog.

Nonprofit Leadership and Philanthropy

See the Certificate in Nonprofit Leadership and Philanthropy [p. 2209] in the catalog.

Professional Enrichment

Internships

The school encourages journalism and mass communication undergraduate majors to complete at least one internship. The school's internship coordinator helps students find appropriate positions.

Journalism and mass communication undergraduate majors may earn up to a total of 4 s.h. of internship credit, registering for JMC:2100 Internship in Journalism and Mass Communication. Completing an internship will fulfill the Study Abroad, Community Engagement, Research, Internship, Professional Practice, or Teaching (SCRIPT) requirement for the journalism and mass communication major, but internship credit counts toward the total journalism and mass communication (JMC) credit that students may apply toward a BA degree (maximum of 56 s.h.).

Students may also take internships for no credit through CCP:1005 Internship in Liberal Arts and Sciences.

Students are also encouraged to pursue opportunities for experience on campus through student media, including The Daily Iowan, Daily Iowan TV (DITV), KRUI-FM radio, and The Adler Agency.

Activities

The school engages in a variety of activities for the enrichment of students, faculty, and the entire campus. Speakers visit campus each year under lectureships funded by the Li Chen Fund and the M. Holly McGranahan Lecture series. In addition, guest speakers are funded through the Hearst Visiting Professionals Program. Campus organizations for students include Kappa Tau Alpha (KTA), a national society honoring scholarship in journalism, the National Association of Black Journalists (NABJ), the Online News Association (ONA), the Public Relations Student Society of America (PRSSA), Ed on Campus (EOC), and the Association for Women in Sports Media (AWSM).

Financial Support

More than $200,000 in scholarships and awards is disbursed to students in the School of Journalism and Mass Communication each year. Scholarship information and applications are available each fall. Visit Undergraduate Awards and Scholarships on the School of Journalism and Mass Communication website or contact the school.

Additionally, the school has a limited number of annual awards to encourage and support journalism and mass communication majors who seek an international experience or an immersive internship experience.

The school offers research and teaching assistantships for graduate students; preference is given to PhD students. Journalism and mass communication students have been successful in winning competitive fellowships open to all graduate students; applicants must be nominated by the graduate committee.

Programs

Undergraduate Programs of Study

Majors

- Major in Journalism and Mass Communication (Bachelor of Arts) [p. 631]
- Major in Sport Media and Culture (Bachelor of Arts) [p. 643]

Minors

- Minor in Media Management [p. 647]
- Minor in News and Media Literacy [p. 649]
- Minor in Sport Media and Culture [p. 650]

Graduate Programs of Study

- Master of Arts in Mass Communication [p. 652]
- Master of Arts in Strategic Communication [p. 654]
- Doctor of Philosophy in Mass Communication [p. 657]

Facilities

The School of Journalism and Mass Communication is housed in the Philip D. Adler Journalism and Mass Communication Building. The 65,000-square-foot building has computer labs for audio, video, design, writing, and web publishing; a student center; the Iowa Stories Lab; and the Moeller Media Research Lab. The building is also home to offices of the Iowa High School Press Association; the university's award-winning student newspaper, The Daily Iowan; Daily Iowan TV (DITV), a student-run newscast; and the Journal of Communication Inquiry.

Courses

- Journalism and Mass Communication Courses [p. 622]
- Sport Media and Culture Courses [p. 629]

Journalism and Mass Communication Courses

JMC:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

JMC:1010 Introduction to Experiential Learning 1 s.h.
Exploring experiential learning opportunities in journalism and mass communication while connecting students to faculty experts and career resources.

JMC:1050 Sport and the Media 3 s.h.
Examination of sport and media's intimate relationship; aesthetic, cultural, political, economic, and industrial factors that shape it. GE: Values and Society. Same as SMC:1050.

JMC:1100 Introduction to Media Effects 3 s.h.
Application of social science methods and media theory to understanding effects of news, advertising, entertainment, and social media. GE: Social Sciences.

JMC:1200 Introduction to Media and Culture 3 s.h.
Historical development of journalism in the United States; cultural, historical content. GE: Historical Perspectives.

JMC:1300 Introduction to Journalism and Strategic Communication 3 s.h.
Understanding foundational theories and practices of contemporary journalism and strategic communication; unique public service mission of journalism; cultural, social, organizational roles of public relations; journalism and public relations (PR) industry opportunities, problems, and solutions; structural inequalities in journalism and strategic communication impacting industry diversity and media representation.

JMC:1500 Introduction to Social Media 3 s.h.
Prehistory of social media and identification of ideas, events, and elements in ancient and historical times; earliest days of online posting and interacting; first instances of social engagement on the Web; how social media (journalism, politics, health care, romance and lifestyle, entertainment, war and terrorism, professions and jobs) affects individual areas of life, culture, and society; what's next and how social media changes lives in the future and affects the fate of humanity. GE: Values and Society.

JMC:1600 Writing Fundamentals 1 s.h.
The importance of grammar; recognition of common errors in the student's own writing, with a focus on fixing these problems.

JMC:1800 Environmental Communication 3 s.h.
How information created by scientists about environmental issues is used by media, public relations practitioners, law makers, regulators, and decision makers in governments, organizations, and corporations, as well as by lay citizens; analysis of strategies to get scientific knowledge to the public arena in ways that inform, educate, and empower the public; examination of how this information can be used to mislead or confuse the public. GE: Sustainability. GE: Sustainability; Values and Society.

JMC:2001 Exploring Nonprofits: Communities, Communication, and Changemakers 3 s.h.
Explore real-world examples of nonprofit organizations and hear from guest speakers who are leaders in the field; gain practical insights into the challenges and successes of the sector; examine the various types of nonprofit organizations, including arts, culture, human services, environment, animals, health, international, religion, education, and more; discover the innumerable career paths within the nonprofit sector, including roles in marketing, communications, grant writing, program management, fundraising, finance, human resources, advocacy, and more.

JMC:2005 Preparing for Internship Success Seminar 1-2 s.h.
Facilitates student career exploration and professional development; gain job search skills and resources; identify and learn more about various career paths; and focus on professionalism, résumé development, and interviewing in preparation for an internship search. Prerequisites: JMC:1300 with a minimum grade of C-. Requirements: journalism and mass communication major.

JMC:2010 Reporting and Writing 3 s.h.
Fundamental skills of journalistic reporting and writing. Prerequisites: JMC:1300 with a minimum grade of C- and JMC:1600 with a minimum grade of C- and (JMC:1100 with a minimum grade of C- or JMC:1200 with a minimum grade of C- or JMC:1500 with a minimum grade of C-). Requirements: journalism major.

JMC:2020 Multimedia Storytelling 3 s.h.
Fundamental skills of multimedia storytelling. Prerequisites: JMC:1300 with a minimum grade of C- and JMC:1600 with a minimum grade of C- and (JMC:1100 with a minimum grade of C- or JMC:1200 with a minimum grade of C- or JMC:1500 with a minimum grade of C-). Requirements: journalism major.

JMC:2030 Visual Communication and Design 3 s.h.
Introduction to visual communication design through lectures and hands-on projects; key professional production skills, including technical aspects of graphics and graphic design software; use of visual communication design skills to create effective layouts and design pieces; topics include elements and principles of design, visual perception theories, typography, color theory, representation, composition, information design, and ethical and inclusive practices of visual communication design; how to become more effective visual communicators and designers; preparation for upper-level journalism and mass communication coursework. Prerequisites: JMC:1300 with a minimum grade of C- and (JMC:1100 with a minimum grade of C- or JMC:1200 with a minimum grade of C- or JMC:1500 with a minimum grade of C-). Requirements: journalism and mass communication major.

JMC:2084 Sport and Film 3 s.h.
Sport films as means of exploring contemporary ideas about sport in the U.S.; focus on narrative structure, characterization, historical, and political contexts; formal aspects of film analysis (e.g., editing, lighting, cinematography). Same as AMST:2084, SMC:2084, SPST:2084.

JMC:2100 Internship in Journalism and Mass Communication 0-3 s.h.
Faculty-supervised professional work experience in journalism and mass communication. Prerequisites: JMC:2020 and JMC:2010. Requirements: journalism major.

JMC:2101 Digital Media and the Future of Sport 3 s.h.
Emergence and significance of internet blogs, social media, convergence journalism, video games, and fantasy sports; economic, regulatory, and cultural forces that shape new media sport journalism and entertainment. Same as AMST:2101, SMC:2101, SPST:2101.

JMC:2150 News and Knowledge: Chinese Culture, History, and Journalism 1 s.h.
Chinese culture, and social and cultural issues as perceived by people inside and outside China from a journalistic view.

JMC:2350 Student Media Experience 0 s.h.
Opportunities to participate in student-generated television, radio, and web and print media in a semi-professional environment that enables students to apply academic curriculum in a structured, practical setting.

JMC:2400 Journalism and Mass Communication Media Experience 1-3 s.h.
Educational opportunities involving small groups of students in unique journalism, strategic communication, and/or media-related experiences; students serve as journalism and/or communication consultants for an organization; in-class preparation complements off-campus work with a designated industry partner; the organization will vary according to faculty expertise, industry partner availability, and location.

JMC:2410 Adler Agency 1-3 s.h.
Simulated experience of working in a professional agency. Students will build upon the knowledge base acquired in previous courses and focus on a practical, collaborative effort to create output of a sufficiently high standard. Requirements: journalism and mass communication major.

JMC:2415 Prep Sports Report 1-3 s.h.
Covering high school athletics in several communities, including Solon, Mt. Vernon, and Lisbon, Iowa as if working in a sports department. Requirements: journalism and mass communication major or sport media and culture major. Same as SMC:2415.

JMC:2500 Community Media 3 s.h.
The boundaries of community can be set in many ways —by geography, age, ability, race, ethnicity, and more —or by intersection of several of these factors; students engage deeply with media representations of different types of communities, discuss basic concepts of identity and community, and explore some of the major fault lines, biases, and privileges in contemporary life; students critique common stereotypes that often show up in media coverage of marginalized communities to better practice storytelling across difference, focusing on how stories from communities that are underrepresented or misrepresented by media can be amplified. GE: Understanding Cultural Perspectives.

JMC:2600 Freedom of Expression 3 s.h.
Philosophy, history, political science, and legal studies blended into a semester-long meditation on the meaning of freedom of expression, especially in the United States, and specifically on the U.S. Supreme Court; special attention given to the way in which freedom of expression enters into societal debates about benefits and challenges of diversity, and whether and how to rectify structural relationships of inequality; as students learn the history and tradition of how Americans have understood this concept, they reflect on their own perspectives and engage with others who may have different ideas from their own. GE: Understanding Cultural Perspectives.

JMC:2700 Media Ethics 3 s.h.
Application of ethical principles in journalistic decision-making; consideration of potentially conflicting values, loyalties, and goals that force professional journalists to make difficult choices.

JMC:3000 Peer Assistant 0 s.h.
Opportunities to assist course instructors, facilitate classroom activities, and provide mentorship and outreach to journalism and mass communication students.

JMC:3116 Media and Global Cultures 3 s.h.
Communication as a vital component for any effort to create social change; necessary communication to reach out to target audiences—people and communities in need—from campaigns persuading communities to change knowledge, attitudes, and practices to aiding other development efforts in areas of health, education, rural development, or sustainable agricultural practices; importance of communication as an integral part to any effort aimed at creating large-scale social change. Same as IS:3116.

JMC:3118 Political Communication 3 s.h.
A comprehensive exploration of media and politics, tracing the evolution of political communication from the print era to the digital age, focusing on American politics. Examine key historical milestones, technological innovations, and socio-political contexts that have shaped the dynamics of political communication over time.

JMC:3122 Influencers, Artificial Intelligence, and Digital Games 3 s.h.
Explores the impact of digital games on online lives, from social media and online news to the capitalist logic of AI and influencers. Special emphasis given to how industrial contexts for media production shape cultural values as expressed through design aesthetics and interactive technologies, especially in influencers, AI, and digital games.

JMC:3123 Advocacy Communication 3 s.h.
Explore how organizations, businesses, nonprofits, and grassroots groups attempt to shape public policy through use of traditional and new media, direct communication, and lobbying.

JMC:3124 Entertainment Media 3 s.h.
Explore the technological revolution as it has profoundly shaped entertainment media, analyzing the parallels and differences among a variety of digitized media (movies, music, television, books, even video games); everything has changed, from the distribution to consumption to creation.

JMC:3142 Media and Social Change 3 s.h.
Students explore the myriad ways that people and organizations use media (e.g., writing, video, social media) for civic engagement, activism, and political participation; drawing on a broad range of cases and issues, students examine historical and contemporary social movements and activism. Same as IS:3142.

JMC:3150 Media and Health 3 s.h.
Potential and limits of mass media's ability to educate the public about health; research and theory on the influence of information and entertainment media; theories, models, assumptions of mass communication in relation to public health issues. Same as CBH:3150, GHS:3150.

JMC:3165 African Americans and the Media 3 s.h.
Exploration of the theoretical notion of racialism in various genres of mass communication (i.e., music, print media, television/cable, film, social media); analysis and discussion of contemporary images and messages in media related to African American culture with close attention to impact of stereotypes, historical myths, stigmas, problematic representations, biased framing, and traditional racism. Same as AFAM:3925.

JMC:3175 Gender and Mass Media 3 s.h.
Media images and representations of the body in terms of gender; impact on people, society; media and body image, sexuality, gender roles, gender and power, race, ethnicity, class, age; critical analysis of mediated images.

JMC:3182 Sport, Scandal, and Strategic Communication in Media Culture 3 s.h.
Use of sport scandal to consider relationship between sport and media in American and global popular culture; broad range of case studies used to consider what constitutes a sport scandal, how this definition shifts in different circumstances; crucial roles media play in creating, communicating, and diffusing these crises; how phenomenon of sports scandal has intensified along with emergence of cable television, internet, and social media. Same as SMC:3182, SPST:3182.

JMC:3183 Sport and the Media 3 s.h.
Examination of sport and media's intimate relationship; aesthetic, cultural, political, economic, and industrial factors that shape it. Same as SPST:3175.

JMC:3184 Narrative Sports Journalism 3 s.h.
Historical review of long-form sports journalism to understand development of subjects, form, and technique of sports coverage and long-form nonfiction writing; students read several long-form articles and books that incorporate reporting about sports, and propose an original long-form work about sports. Same as SMC:3184, SPST:3184.

JMC:3185 Topics in Understanding Media 3 s.h.
Focus on particular area, issue, approach, or body of knowledge; may include international media, media criticism, new technologies, history of documentary photography, literary journalism, media management.

JMC:3186 Athletes, Activism, and Social Media 3 s.h.
Examine the relationship between sport and media. Media create many of the values, beliefs, feelings, and problems commonly connected to sports. Sports cannot be properly understood without taking into account their relationship to media. Same as SMC:3186.

JMC:3187 American College Athletics: A Big Money Tradition Unlike Any Other 3 s.h.
Explore the series of events that led college football to go from almost being banned by the government to being an industry worth more than $20 billion. Students will learn about the social, cultural, and financial history of college athletes to better understand how we got to where we are and where we might be going. Same as SMC:3187.

JMC:3188 Staging the World's Game: Soccer and Media 3 s.h.
Explore the complex relationship between soccer and the media companies that cover it; discuss television contracts; read about and discuss the role of video games and fantasy sports, the growth of women’s soccer, television documentaries and dramas that introduce U.S. audiences to the European game, how governments and corporations use soccer to launder their international reputations, and how fans use social media to mobilize collective action. Same as SMC:3188.

JMC:3191 Journalism and Mass Communication Theories 3 s.h.
Provides a historical and contemporary overview of journalism and mass communication theories, processes, and effects; reviews the scientific method and ways of conducting theoretically informed journalism and mass communication research.

JMC:3400 Topics in Writing/Storytelling 3-4 s.h.
Topics may include public affairs, law, science, business, medicine, intercultural affairs, education, computer-assisted reporting. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3401 Beat Reporting and Writing 3 s.h.
Choose and follow an area of interest, known in journalism circles as a "beat." Examples of newsroom beats are education, health, arts and entertainment, sports, crime and safety, business, city government, and state government. Prerequisites: JMC:2010 with a minimum grade of C-.

JMC:3403 Public Affairs Reporting and Writing 3 s.h.
Combination of a skills-based course and a seminar-style course. Become familiar with the skills needed to produce excellent reporting on matters of policy and public affairs; learn how to successfully file requests for public records; learn the law and practice of making public records requests at the state and federal levels; create a piece of original enterprise reporting on public affairs that relies on public records. Prerequisites: JMC:2010 with a minimum grade of C-.

JMC:3408 Investigative Reporting and Writing 3 s.h.
Enterprise reporting; emphasis on reporter as researcher, organizer, writer of complex stories in a variety of contexts. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism and mass communication major.

JMC:3410 Magazine Reporting and Writing 3-4 s.h.
Finding ideas, researching, interviewing; problems of organization and style; identification of audiences and markets; development of writing skills. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3411 Newscast Reporting and Writing 3-4 s.h.
Principles of gathering, writing, editing, and reporting the news; techniques and concepts as a foundation for understanding, successfully writing, and delivering broadcast news. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.

JMC:3412 Strategic Communication Writing 3-4 s.h.
Principles and practices of persuasive writing; focus on public relations; may include editorials, op-ed pieces, magazine essays, reviews. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3413 Sports Writing 3-4 s.h.
Introduction to the history, culture, industry, and practice of sports writing. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-.

JMC:3414 Basic Elements of Book Writing 3-4 s.h.
Basic elements involved in writing a novel or a nonfiction book; students will research, write, and workshop either a nonfiction book or novel proposal; they will complete a chapter outline and one chapter from their manuscript, and constructively edit and evaluate the work of fellow classmates through individual workshop sessions; course will culminate in an author's pavilion where students will select five minutes from their chapter to read to an audience. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3415 Writing Across Cultures 3-4 s.h.
Forms of travel writing and other types of cross-cultural reporting; skills, knowledge, understandings vital to writing well about an increasingly multicultural and diverse world. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3420 Content Marketing 3-4 s.h.
Tools for creating great content, as well as tactics for getting that content in front of the right audiences with the right message at the right time. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism and mass communication major.

JMC:3421 Sport Content Marketing 3 s.h.
Tools for creating great sport content, as well as tactics for getting that content in front of the right audiences with the right message at the right time. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-.

JMC:3425 Personal Branding 3-4 s.h.
Develop a brand and presence on social media and mobile platforms; learn about social media influencing and how to create compelling content; how to draw attention to a brand, reporting, and news in a crowded online environment; how to make shareable content for social media; best practices and ways to promote work to develop and deepen connection with audiences. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.

JMC:3430 Political Public Relations 3-4 s.h.
How strategic communication goals, objectives, strategies, and tactics can influence public debate on policy issues; students apply this knowledge for the benefit of a real-world client, producing a portfolio of work by the end of the semester. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism and mass communication major.

JMC:3436 Cross-Platform Storytelling 3 s.h.
Produce content across multiple media platforms using a story concept. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-.

JMC:3440 Multimedia Narratives 3-4 s.h.
Builds on skills learned in JMC:2020 to develop compelling multipart digital stories; focus on a range of storytelling techniques and tools to create in-depth stories that incorporate visual, audio, text, and data; students strengthen their digital storytelling skills by producing various multimedia projects, such as podcasts and digital long-form stories; project-based with opportunities to produce individual and collaborative work. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3445 Journalistic Writing in Spanish 3 s.h.
Spanish writing skills; introduction to style and practice of journalistic reporting and writing. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as LAS:3020, SPAN:3020.

JMC:3460 Arts and Culture Reporting and Writing 3-4 s.h.
Writing about arts and culture in a range of formats (e.g., news, profiles, features, criticism, essays); emphasis on original reporting that draws on resources, issues, people, and events on campus and in the community, especially in visual and performing arts. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.

JMC:3470 Narrative Journalism 3-4 s.h.
Process of writing the true story; development of skills in researching, interviewing, information gathering, organization, story-telling techniques, writing final story; story publication in magazines, newspapers, journals, online. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3490 Feature Reporting and Writing 3-4 s.h.
Storytelling techniques for magazine, newspaper, website features; stylistic flair; human elements in stories; research, interviewing, and reporting. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3500 Topics in Managing/Planning 3 s.h.
Focus on particular area, issue, approach, or body of knowledge.

JMC:3505 Audiences and Analytics 3 s.h.
Comprehensive understanding of audiences and consumers in the digital era; focus on developing essential analytical skills necessary for strategic communication professionals in the digital age. Students will acquire digital literacy skills to practice strategic communication effectively.

JMC:3510 Media and Marketing Research 3 s.h.
Solutions to problems related to communication channels, content, users, and audiences sought daily by media and communication professionals to understand what the public thinks, feels, and does about ideas, events, and trends; learn about audience needs; ways to improve or change content; systematic and methodical ways to investigate problems and figure out how best to tackle communication problems related to media content, audiences, media practice, and media institutions.

JMC:3520 Business of Media: Profits, People, and Power 3 s.h.
How U.S. media is managed; decision-making in a current highly charged, rapidly changing media culture; how major company decision makers seek competitive advantage, and their consequent successes and failures in doing so.

JMC:3530 Social Media Marketing 3 s.h.
Social media marketing as an ever-changing area that seems to only grow in importance for everyone from academic institutions to nonprofits to businesses big and small; each of these entities and more has an online brand and goals that social media can help them meet.

JMC:3540 The Business of Sport Communication 3 s.h.
Critical and practical approach to understanding contemporary sports media and business practices that mark it; focus on sports media industries and institutions; branding, marketing, demographic, public relations, and promotional factors that shape content. Same as SMC:3540, SPST:3181.

JMC:3550 Editing 3-4 s.h.
Principles and process of editing content for publication; micro- and macroediting, headline writing, other aspects of editing.

JMC:3560 Crisis Communication 3 s.h.
Principles and practices of effective communication during organizational crises. Examine case studies, theoretical models, and strategic frameworks for crisis communication used by corporations, government agencies, and nonprofit organizations; develop practical skills in creating and executing crisis communication plans.

JMC:3600 Topics in Designing/Producing 3-4 s.h.
Analysis and solution of problems with communication strategies and/or media products; public relations, newsletter production, radio, media research, web basics, global media, interviewing, public relations fund raising. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-. Requirements: journalism major.

JMC:3603 Newscast Production 3-4 s.h.
Electronic news gathering; conceptualization, shooting, editing basic news packages. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-. Requirements: journalism major.

JMC:3610 Graphic Design 3-4 s.h.
Problems of design, layout and production; practical and aesthetic considerations; digital techniques; creative projects. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-. Requirements: journalism major.

JMC:3611 Web Design 3-4 s.h.
Foundational concepts of interactive design, prototyping, and production; projects focus on web-based communication pieces. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-. Requirements: journalism major.

JMC:3612 Nonfiction Narrative Podcasting 3 s.h.
Examine the elements that contribute to a compelling series and learn the fundamentals of audio storytelling from pre-production through post-production. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-.

JMC:3630 Photography 3-4 s.h.
Techniques; basic craft, location shooting, editing photographs; group critiques of assignments. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-.

JMC:3640 Information and Data Visualization 3-4 s.h.
How to find and tell stories using data; hands-on introduction to data visualization, data analysis and data literacy for journalists and communications professionals. Prerequisites: (JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-) or CS:2110 or IGPI:5110.

JMC:3650 Video Production 3-4 s.h.
Intermediate video pre-production, production, and post-production. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-. Requirements: journalism major.

JMC:3660 Audio Production 3-4 s.h.
Techniques; basic craft, audio recording, audio editing; individual and group production; group critiques of assignments. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-. Requirements: journalism major.

JMC:3670 Social Media Production 3 s.h.
High-quality content creation for social media and mobile platforms; use of branding guidelines and design best practices to create posts for various social media platforms; use of SEO and social search; lighting and audio techniques for producing social media content; current industry trends and preferred practices for designing, directing, and editing compelling visual content for multiple digital platforms. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2030 with a minimum grade of C-.

JMC:3700 Nonprofit Internship 3 s.h.
Faculty-supervised professional work experience with a nonprofit organization with associated academic content.

JMC:3710 Fundraising Fundamentals 3 s.h.
Nonprofit organization reliance on raised funds to survive and thrive; basic concepts of fundraising for successful nonprofit organization; work with a nonprofit organization to explore basic fundraising techniques that nonprofits typically use including donor research, annual fund campaigns (phone, mail, email), capital campaigns, events, cause-related marketing, grants, planned giving, and donor stewardship; when and how to use different fundraising strategies to meet an organization's goals. Same as MUSM:3710.

JMC:3720 Nonprofit Communications 3 s.h.
Practical experience planning and writing fundraising materials; how yearly fundraising helps approximately 1.5 million nonprofit organizations receive more than $3 billion from individuals, foundations, and corporations to help people in need, advocate for causes, support research/arts/culture, and enhance opportunities for public and/or their members. Same as MUSM:3720.

JMC:4100 Advanced Topics in Writing/ Storytelling 3-4 s.h.
Project journalism; extended magazine pieces, explanatory/ investigative journalism, series for newspapers, or task-force projects by entire class on a major issue, with goal of publication. Prerequisites: JMC:3400 or JMC:3401 or JMC:3403 or JMC:3408 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3421 or JMC:3425 or JMC:3430 or JMC:3436 or JMC:3440 or SPAN:3020 or JMC:3460 or JMC:3470 or JMC:3490. Requirements: journalism major.

JMC:4105 Iowa Community News 3 s.h.
Public affairs reporting; introducing and utilizing community-engaged storytelling techniques. Learn about government reporting and covering underrepresented groups; work with the goal of publishing project stories in an Iowa newspaper. Prerequisites: JMC:3400 or JMC:3401 or JMC:3403 or JMC:3408 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3421 or JMC:3425 or JMC:3430 or JMC:3436 or JMC:3440 or SPAN:3020 or JMC:3460 or JMC:3470 or JMC:3490.

JMC:4115 Enterprise Reporting and Writing 3 s.h.
Explore the art of great feature writing, building on the tools learned in foundational journalism classes to become stronger reporters and writers with the goal of writing compelling narratives that help readers feel. Covers the process from beginning to end, including idea generation, source-building, observation, note-taking and interviewing. Explore the craft of writing, including story structure, creating an impactful lead, how, when and why to use quotes, and the tricks to keep a reader engaged through a longer piece. Prerequisites: JMC:3400 or JMC:3401 or JMC:3403 or JMC:3408 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3421 or JMC:3425 or JMC:3430 or JMC:3436 or JMC:3440 or JMC:3445 or JMC:3460 or JMC:3470 or JMC:3490.

JMC:4125 Advanced Strategic Storytelling 3-4 s.h.
Advanced tools for creating great content; tactics for getting that content in front of the right audiences with the right message at the right time. Prerequisites: JMC:3412 or JMC:3420 or JMC:3421 or JMC:3430 or JMC:3436 or JMC:3440 or JMC:3600 or JMC:3603 or JMC:3610 or JMC:3611 or JMC:3612 or JMC:3630 or JMC:3640 or JMC:3650 or JMC:3660 or JMC:3670. Requirements: journalism major.

JMC:4300 Photo Storytelling 3-4 s.h.
Builds on photography skills learned in JMC:3630; may include documentary photography, advanced photography methods and techniques. Prerequisites: JMC:3630.

JMC:4310 Advanced Topics in Designing/ Producing 3-4 s.h.
Journalism and mass communication skills; may include editing, broadcasting, design, multimedia. Prerequisites: JMC:3600 or JMC:3603 or JMC:3610 or JMC:3611 or JMC:3612 or JMC:3630 or JMC:3640 or JMC:3650 or JMC:3660 or JMC:3670. Requirements: journalism major.

JMC:4315 Strategic Communication Campaigns 3-4 s.h.
Development and presentation of public relations campaigns for client organizations; communication theory and research techniques applied to analyzing and solving public relations problems through objective-based strategic planning. Prerequisites: JMC:3412 or JMC:3420 or JMC:3421. Requirements: journalism and mass communication major.

JMC:4325 Advanced Newscast Writing and Production 3 s.h.
Advanced training and experience in producing, writing, and reporting news packages and newscasts. Prerequisites: JMC:3411 or JMC:3603.

JMC:4335 Multimedia Production for Publication 3 s.h.
Build upon the knowledge base acquired in previous journalism and mass communication courses and focus on creating professional quality, commercially viable content for media. Prerequisites: (JMC:3400 or JMC:3401 or JMC:3403 or JMC:3408 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3421 or JMC:3425 or JMC:3430 or JMC:3436 or JMC:3440 or SPAN:3020 or JMC:3460 or JMC:3470 or JMC:3490) and (JMC:3600 or JMC:3603 or JMC:3610 or JMC:3611 or JMC:3612 or JMC:3630 or JMC:3640 or JMC:3650 or JMC:3660 or JMC:3670).

JMC:4345 Audio and Video Storytelling 3 s.h.
Build on the skills used in the 3000-level audio and video Journalism and Mass Communication courses. Prerequisites: JMC:3411 or JMC:3436 or JMC:3440 or JMC:3603 or JMC:3612 or JMC:3650 or JMC:3660 or JMC:3670.

JMC:4350 Advanced Graphic Design 3-4 s.h.
Advanced design, layout, and production; practical and aesthetic considerations; digital techniques; creative projects. Prerequisites: JMC:3610. Requirements: journalism major.

JMC:4360 Visual Branding and Design 3-4 s.h.
Use a variety of design research and visual communication methods to produce public-facing visual marketing materials for a client. Prerequisites: JMC:3610 or JMC:3611 or JMC:3630 or JMC:3640 or JMC:3670. Requirements: journalism major.

JMC:4400 Capstone 3-4 s.h.
Application and practice of classroom experience to a specific project with guidance from a faculty member. Prerequisites: (JMC:3400 or JMC:3401 or JMC:3403 or JMC:3408 or JMC:3410 or JMC:3411 or JMC:3412 or JMC:3413 or JMC:3414 or JMC:3415 or JMC:3420 or JMC:3421 or JMC:3425 or JMC:3430 or JMC:3436 or JMC:3440 or SPAN:3020 or JMC:3460 or JMC:3470 or JMC:3490) and (JMC:3600 or JMC:3603 or JMC:3610 or JMC:3611 or JMC:3612 or JMC:3630 or JMC:3640 or JMC:3650 or JMC:3660). Requirements: journalism major.

JMC:4900 Special Projects in Mass Communication arr.
Research and readings to fit needs, interests of students.

JMC:4910 Readings in Communication and Mass Communication 1-3 s.h.
Focus on a problem or issue.

JMC:4920 Undergraduate Research 0-3 s.h.
Undergraduate research in the field of journalism and mass communication.

JMC:4955 Honors Project 3 s.h.
Independent research or project for honors students. Requirements: honors standing.

JMC:5220 Foundations of Strategic Communication 3 s.h.
Introduction to the field of strategic communication.

JMC:5225 Digital Strategic Communication 3 s.h.
Explore various digital communication channels, established and new, and understand how the fundamentals of communication apply in this ever-changing, always-on world. Through best practices and purpose-driven, audience-centric content creation processes, students will strategically evaluate and utilize appropriate digital platforms for clearer, more effective communication.

JMC:5230 Strategic Communication Writing 3 s.h.
Writing workshop for MA strategic communication students.

JMC:5235 Strategic Communication Research 3 s.h.
Methodology of social science inquiry, process and instruments of data gathering, evaluation of evidence, and usefulness and appropriateness of various information sources in the service of strategic communication research; blends theory and practice. Prerequisites: JMC:5220.

JMC:5236 Topics in Strategic Communication 3 s.h.
Various topics relevant to strategic communication.

JMC:5238 Strategic Communication Campaigns 3 s.h.
Practice of strategic communication through traditional and new media for purpose of benefiting nonprofit organizations or bringing about social change; examples and strategies from corporate, nonprofit, and social marketing campaigns; application of knowledge for benefit of real-world clients; principles and strategies applied to professional projects. Prerequisites: JMC:5220 and JMC:5230.

JMC:5243 Copywriting for Strategic Communication 3 s.h.
Focusing copy to a targeted audience to move them to action; multiple platforms where copywriting can appear; learn how professional copywriters craft motivational, persuasive messages and continuously refine their skills; build copywriting skills through weekly exercises, peer reviews, and a final portfolio.

JMC:5248 Strategic Political Communication 3 s.h.
Study of political communication; topics range from classic issues (agenda setting) to current debates and emerging topics associated with new media; readings address political communication in the United States.

JMC:5250 Strategic Communication for Nonprofits 3 s.h.
Examination of components, objectives, and initiatives of strategic communications for nonprofit organizations; students specifically examine strategies that inspire and persuade diverse audiences and stakeholders through multi-channel communications with emphasis on audience analysis; in addition to assigned texts, students utilize case studies to examine organizational approaches and identify successful —and unsuccessful—strategies; although focus is primarily on nonprofits, the teaching modules are applicable to diverse industries.

JMC:5255 Strategic Global Communication 3 s.h.
Examination of communications practices around the globe and exploration of different professions and organizations that employ international strategic communications; emphasis on practical application of communications theory, with copious use of real-life case studies and examples from leading expert practitioners; through a combination of projects, discussions, and case studies, students develop a more nuanced understanding of international and intercultural communication strategies while taking into account cultural context, stakeholders, and trends.

JMC:5260 Digital Analytics for Strategic Communication 3 s.h.
Introduction to multiple digital analytics platforms and dashboards; how to align business objectives and digital metrics, ensuring the ability to make more strategic content, marketing, and audience targeting decisions; strategies to assist students in communicating insights and analytics to leadership.

JMC:5266 Risk Communication 3 s.h.
Examination of risk as a central concept in communication process; risk as intrinsically an interdisciplinary concept; literature from a wide range of disciplines and perspectives (communication, psychology, sociology, formal risk analysis); case studies drawn from issues and cultural contexts (environmental, technological or health risks, food safety risks; international military crisis or threats of terrorism, natural disasters); emphasis on comparison of European and American contexts.

JMC:5267 Strategic Health Care Communication 3 s.h.
Breaking down health care to basics; writing and communicating about health care in an understandable way so that hospitals, medical groups, and health care businesses can be better understood when doing business with each other as well as the public and consumers at large; health care writing and communication so consumers can understand, avoid injuries and even death from medical errors shown by studies on health literacy; how doctors and insurance companies can convey their messages in easy-to-understand way to lessen public frustration with the system.

JMC:5269 Media Management for Strategic Communicators 3 s.h.
Looking at media in a completely new way; focus on economics and management of competitive businesses; how modern-day businesses in the media sector succeed or fail and why; decision-making, competition, and outcomes; emphasis on news media companies that operate in public glare and offer rich opportunities for critical observation.

JMC:5270 Leadership Communication 3 s.h.
Using communications skills effectively for leadership in the modern workplace; how technological, global, and demographic developments have combined to transform the field of strategic communications; skills necessary to be effective in an environment of collaboration, teamwork, and self-management across a variety of platforms.

JMC:5285 Strategic Communication Externship 3 s.h.
Externship to allow connection between academic program and professional world; enhancement of skill and knowledge.

JMC:5290 Capstone Project in Strategic Communication 1-3 s.h.
Workshop of capstone projects required for graduation; for students nearing completion of MA in strategic communication. Prerequisites: JMC:5220 and (JMC:5230 or JMC:5235). Requirements: MA in strategic communication program enrollment.

JMC:5600 Teaching Media Writing, Production, and Design 1 s.h.
Preparation to teach media skills courses; core topics include media writing, media production, and media design.

JMC:5955 Masters Research arr.
Independent research for projects, theses.

JMC:6100 Communication and Media Colloquium 1 s.h.
Forum on theoretical or methodological problems in mass communication.

JMC:6200 Humanistic Approaches to Media Communication 3 s.h.
Exploration of foundations, assumptions, and applications of critical/cultural theory and methods; how to understand and critique humanistic research; how to develop ideas, evidence, and arguments that lead to compelling and useful research in media communication.

JMC:6300 Social Scientific Approaches to Media Communication 3 s.h.
Exploration of foundations, assumptions, and application of social science theory and methods to media communication questions; how to understand and critique social science research; how to develop and test questions that lead to rigorous and useful research in media communication.

JMC:6315 Mixed Methods Research and Design 3 s.h.
Paradigms and theories of mixed methods research; how to use and integrate qualitative and quantitative approaches and data to answer research questions; formulating research questions, collecting and analyzing data, choosing an appropriate mixed methods design, and interpreting results; focus on mixed methods research in journalism, mass communication, and media studies; students develop an original project that is connected to their larger research agenda.

JMC:6325 Global Digital Media 3 s.h.
Exploration of media theory, production, consumption, and audiences in comparative international contexts; focus on digital media and contemporary issues, exploration of traditional media theories and concepts, newer approaches that ground understanding of current issues; topics include international media flows and counter flows, media, development, information and communications technology, social change and activism; identity and representation; global popular culture, and social media; research options include developing and conducting original research, proposing an international research project, or conducting country and region-specific research.

JMC:6330 Reading Group 1-3 s.h.
Analysis and discussion of important texts.

JMC:6333 Seminar in Media Communication 3 s.h.
Topics vary.

JMC:6334 Research Methods in Media Communication 3 s.h.
Specialized methods for conducting research in media, communication, and journalism. Topics vary.

JMC:6335 Journalism Studies 3 s.h.
Examine the major research areas of journalism studies; explore a variety of approaches and issues central to the study of journalism, drawing on the fields of sociology, media studies, and technology studies to make sense of its social, cultural, and epistemological consequences; inquiry into the ways in which technology continues to influence and destabilize core definitions of news production, distribution, and consumption.

JMC:6920 PhD Research arr.
Independent research for projects, theses.

JMC:6999 Dissertation arr.

Sport Media and Culture Courses

SMC:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings). Requirements: first- or second-semester standing.

SMC:1050 Sport and the Media 3 s.h.
Examination of sport and media's intimate relationship; aesthetic, cultural, political, economic, and industrial factors that shape it. GE: Values and Society. Same as JMC:1050.

SMC:2084 Sport and Film 3 s.h.
Sport films as means of exploring contemporary ideas about sport in the U.S.; focus on narrative structure, characterization, historical, and political contexts; formal aspects of film analysis (e.g., editing, lighting, cinematography). Same as AMST:2084, JMC:2084, SPST:2084.

SMC:2101 Digital Media and the Future of Sport 3 s.h.
Emergence and significance of internet blogs, social media, convergence journalism, video games, and fantasy sports; economic, regulatory, and cultural forces that shape new media sport journalism and entertainment. Same as AMST:2101, JMC:2101, SPST:2101.

SMC:2400 Sport Media and Culture Experience 1-3 s.h.
Educational opportunities involving small groups of students in unique sport media or sport culture experiences; students serve as consultants for an organization; in-class preparation complements off-campus work with a designated industry partner; the organization will vary according to faculty expertise, industry partner availability, and location.

SMC:2415 Prep Sports Report 1-3 s.h.
Covering high school athletics in several communities, including Solon, Mt. Vernon, and Lisbon, Iowa as if working in a sports department. Requirements: journalism and mass communication major or sport media and culture major. Same as JMC:2415.

SMC:2500 Sport and Technology 3 s.h.
Connections between sport and technology; performance enhancement to Paralympians, sex testing to scientific racism, Fitbits to e-sports, data analytics and journalism; cultural approaches to understanding how science, medicine, and technology impact active bodies, sporting industries, and infrastructure; debates regarding risks and responsibilities; exploration of various roles (e.g., athletes, administrators, architects, engineers, programmers, trainers) in creating and sustaining past, present, and future of sports. Same as SPST:2500.

SMC:3182 Sport, Scandal, and Strategic Communication in Media Culture 3 s.h.
Use of sport scandal to consider relationship between sport and media in American and global popular culture; broad range of case studies used to consider what constitutes a sport scandal, how this definition shifts in different circumstances; crucial roles media play in creating, communicating, and diffusing these crises; how phenomenon of sports scandal has intensified along with emergence of cable television, internet, and social media. Same as JMC:3182, SPST:3182.

SMC:3184 Narrative Sports Journalism 3 s.h.
Historical review of long-form sports journalism to understand development of subjects, form, and technique of sports coverage and long-form nonfiction writing; students read several long-form articles and books that incorporate reporting about sports, and propose an original long-form work about sports. Same as JMC:3184, SPST:3184.

SMC:3186 Athletes, Activism, and Social Media 3 s.h.
Examine the relationship between sport and media. Media create many of the values, beliefs, feelings, and problems commonly connected to sports. Sports cannot be properly understood without taking into account their relationship to media. Same as JMC:3186.

SMC:3187 American College Athletics: A Big Money Tradition Unlike Any Other 3 s.h.
Explore the series of events that led college football to go from almost being banned by the government to being an industry worth more than $20 billion. Students will learn about the social, cultural, and financial history of college athletes to better understand how we got to where we are and where we might be going. Same as JMC:3187.

SMC:3188 Staging the World's Game: Soccer and Media 3 s.h.
Explore the complex relationship between soccer and the media companies that cover it; discuss television contracts; read about and discuss the role of video games and fantasy sports, the growth of women’s soccer, television documentaries and dramas that introduce U.S. audiences to the European game, how governments and corporations use soccer to launder their international reputations, and how fans use social media to mobilize collective action. Same as JMC:3188.

SMC:3540 The Business of Sport Communication 3 s.h.
Critical and practical approach to understanding contemporary sports media and business practices that mark it; focus on sports media industries and institutions; branding, marketing, demographic, public relations, and promotional factors that shape content. Same as JMC:3540, SPST:3181.

SMC:3600 Internship in Sport and Media 1-3 s.h.
Faculty-supervised professional work experience in sport and media. Requirements: major in sport media and culture.

SMC:4500 Sport Media and Culture Capstone 3 s.h.
Application and practice of classroom experience through a specific project with guidance from a faculty member. Prerequisites: (JMC:1050 or SMC:1050 or JMC:3183 or SPST:3175) and (SPST:1074 or AMST:1074 or GWSS:1074).

Journalism and Mass Communication, BA

Media writing and visual storytelling form the core of the undergraduate major in journalism and mass communication. Students are required to take introduction, foundation, application, and capstone courses offered by the school; they develop professional skills while studying the historical, legal, cultural, and institutional roles of media in society. They also complete extensive academic work outside the major, consistent with the university's commitment to the liberal arts and sciences.

First-year students completing a major in journalism and mass communication are advised at the Academic Advising Center. Students who have earned 30 s.h. or more and have declared the journalism and mass communication major are advised by one of the journalism and mass communication academic advisors.

Transfer Students

The School of Journalism and Mass Communication may accept transfer credit earned at other institutions. A maximum of 15 s.h. of approved transfer credit may be applied to the major in journalism and mass communication unless the transfer institution has an approved articulation agreement with the School of Journalism and Mass Communication to count additional coursework. Some journalism coursework taken at other schools may be used to fulfill the GE CLAS Core [p. 22] and/or second area of study requirements. Additional transfer coursework may be used to fulfill the second area of study requirements if accepted by the second area of study program.

Students who wish to apply transfer credit toward School of Journalism and Mass Communication requirements must discuss the proposed transfer credit with a journalism advisor and must have approval from the head of undergraduate studies.

Learning Outcomes

Students will learn to:

- write correctly and clearly;
- conduct research and evaluate information critically;
- present images and information effectively;
- use media tools and technologies appropriately;
- apply basic numerical and statistical concepts accurately;
- evaluate work for accuracy, fairness, style, and clarity; and
- create audience-aware, culturally responsive communication.

Students will explore:

- the multicultural history of media professionals and institutions; and
- the role of media in shaping cultures.

Students will value:

- the First Amendment and free speech;
- equity and inclusion for a diverse global community; and
- ethical principles in pursuit of truth, accuracy, and fairness.

Requirements

The Bachelor of Arts with a major in journalism and mass communication requires a minimum of 120 s.h., including at least 43 s.h. in journalism and mass communication courses, plus a second major, certificate, or minor (see the section titled "Second Area of Study"). Students must maintain a grade-point average of at least 2.00 in the major. All students must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students may count a maximum of 56 s.h. earned in School of Journalism and Mass Communication courses (prefix JMC) toward the 120 s.h. required for the degree. Journalism and mass communication majors who also complete another major or minor offered by the School of Journalism and Mass Communication must earn a minimum of 56 s.h. from courses offered outside of the school.

Students may choose to complete the BA with a major in journalism and mass communication without a track or declare one of three optional tracks: multimedia production and design, reporting and writing, or strategic communication. All students must complete the introduction and foundation course requirements. Application and capstone course requirements vary for each track.

Each student works with an assigned educational advisor and/or faculty mentor to develop a study plan that meets the major's requirements. Requirements for the major are consistent with the program's accreditation requirements; the school cannot make exceptions.

The BA with a major in journalism and mass communication requires the following coursework.

Requirements	Hours
Introduction Courses	7
Foundation Courses	15
Application Courses	18
Capstone Course	3
Experiential Learning Course: SCRIPT	
Second Area of Study	

Introduction Courses

Students must complete these courses before they enroll in JMC:2010 Reporting and Writing or JMC:2020 Multimedia Storytelling. Students must complete these courses except for JMC:1600 Writing Fundamentals before enrolling in JMC:2030 Visual Communication and Design.

Course #	Title	Hours
One of these completed with a grade of C-minus or higher:		
JMC:1100	Introduction to Media Effects	3
JMC:1200	Introduction to Media and Culture	3
JMC:1500	Introduction to Social Media	3
Both of these completed with a grade of C-minus or higher:		
JMC:1300	Introduction to Journalism and Strategic Communication	3
JMC:1600	Writing Fundamentals	1

Foundation Courses

Before students enroll in most Writing/Storytelling courses, they must complete JMC:2010 and JMC:2020. Before students enroll in a Designing/Producing course, they must complete JMC:2020 and JMC:2030.

Course #	Title	Hours
All three of these completed with a grade of C- minus or higher:		
JMC:2010	Reporting and Writing	3
JMC:2020	Multimedia Storytelling	3
JMC:2030	Visual Communication and Design	3
And both of these:		
JMC:2600	Freedom of Expression	3
JMC:2700	Media Ethics	3

Application Courses

Managing/Planning

All students take one managing/planning course. The list of acceptable courses varies according to optional tracks.

Managing/Planning—No Optional Track and Multimedia Production and Design Track

Course #	Title	Hours
One of these:		
JMC:3500	Topics in Managing/Planning	3
JMC:3505	Audiences and Analytics	3
JMC:3510	Media and Marketing Research	3
JMC:3520	Business of Media: Profits, People, and Power	3
JMC:3530	Social Media Marketing	3
JMC:3540	The Business of Sport Communication	3
JMC:3550	Editing	3
JMC:3720	Nonprofit Communications	3

Managing/Planning—Reporting and Writing Track

Course #	Title	Hours
One of these:		
JMC:3500	Topics in Managing/Planning (advisor input required for course topic)	3
JMC:3505	Audiences and Analytics	3
JMC:3510	Media and Marketing Research	3
JMC:3520	Business of Media: Profits, People, and Power	3
JMC:3540	The Business of Sport Communication	3
JMC:3550	Editing	3

Managing/Planning—Strategic Communication Track

Course #	Title	Hours
One of these:		
JMC:3500	Topics in Managing/Planning (advisor input required for course topic)	3
JMC:3505	Audiences and Analytics	3
JMC:3510	Media and Marketing Research	3
JMC:3520	Business of Media: Profits, People, and Power	3
JMC:3530	Social Media Marketing	3
JMC:3540	The Business of Sport Communication	3
JMC:3720	Nonprofit Communications	3

Understanding Media

All students complete one course from the following list.

Course #	Title	Hours
One of these:		
JMC:2101	Digital Media and the Future of Sport	3
JMC:3116	Media and Global Cultures	3
JMC:3118	Political Communication	3
JMC:3122	Influencers, Artificial Intelligence, and Digital Games	3
JMC:3123	Advocacy Communication	3
JMC:3124	Entertainment Media	3
JMC:3142	Media and Social Change	3
JMC:3150	Media and Health	3
JMC:3165	African Americans and the Media	3
JMC:3175	Gender and Mass Media	3
JMC:3182	Sport, Scandal, and Strategic Communication in Media Culture	3
JMC:3183	Sport and the Media	3
JMC:3184	Narrative Sports Journalism	3
JMC:3185	Topics in Understanding Media	3
JMC:3186	Athletes, Activism, and Social Media	3
JMC:3187	American College Athletics: A Big Money Tradition Unlike Any Other	3
JMC:3188	Staging the World's Game: Soccer and Media	3
JMC:3191	Journalism and Mass Communication Theories	3

Designing/Producing

All students select designing/producing courses from the following list; the number of required courses in this category varies according to optional tracks. Students who do not declare an optional track and students on the strategic communication track must take two Designing/Producing courses. Students on the multimedia production and design track must take three Designing/Producing courses. Students

on the reporting and writing track must take one Designing/Producing course.

Course #	Title	Hours
JMC:3600	Topics in Designing/Producing	3
JMC:3603	Newscast Production	3
JMC:3610	Graphic Design	3
JMC:3611	Web Design	3
JMC:3612	Nonfiction Narrative Podcasting	3
JMC:3630	Photography	3
JMC:3640	Information and Data Visualization	3
JMC:3650	Video Production	3
JMC:3660	Audio Production	3
JMC:3670	Social Media Production	3

Writing/Storytelling

All students take writing/storytelling courses. The number of courses needed and the list of acceptable courses vary according to optional tracks.

Writing/Storytelling—No Optional Track

Course #	Title	Hours
Two of these:		
JMC:3400	Topics in Writing/Storytelling	3
JMC:3401	Beat Reporting and Writing	3
JMC:3403	Public Affairs Reporting and Writing	3
JMC:3408	Investigative Reporting and Writing	3
JMC:3410	Magazine Reporting and Writing	3
JMC:3411	Newscast Reporting and Writing	3
JMC:3412	Strategic Communication Writing	3
JMC:3413	Sports Writing	3
JMC:3414	Basic Elements of Book Writing	3
JMC:3415	Writing Across Cultures	3
JMC:3420	Content Marketing	3
JMC:3421	Sport Content Marketing	3
JMC:3425	Personal Branding	3
JMC:3430	Political Public Relations	3
JMC:3436	Cross-Platform Storytelling	3
JMC:3440	Multimedia Narratives	3
JMC:3445	Journalistic Writing in Spanish	3
JMC:3460	Arts and Culture Reporting and Writing	3
JMC:3470	Narrative Journalism	3
JMC:3490	Feature Reporting and Writing	3

Writing/Storytelling—Multimedia Production and Design Track

Course #	Title	Hours
One of these:		
JMC:3400	Topics in Writing/Storytelling	3
JMC:3401	Beat Reporting and Writing	3
JMC:3403	Public Affairs Reporting and Writing	3
JMC:3408	Investigative Reporting and Writing	3
JMC:3410	Magazine Reporting and Writing	3
JMC:3411	Newscast Reporting and Writing	3
JMC:3412	Strategic Communication Writing	3
JMC:3413	Sports Writing	3
JMC:3414	Basic Elements of Book Writing	3
JMC:3415	Writing Across Cultures	3
JMC:3420	Content Marketing	3
JMC:3421	Sport Content Marketing	3
JMC:3425	Personal Branding	3
JMC:3430	Political Public Relations	3
JMC:3436	Cross-Platform Storytelling	3
JMC:3440	Multimedia Narratives	3
JMC:3445	Journalistic Writing in Spanish	3
JMC:3460	Arts and Culture Reporting and Writing	3
JMC:3470	Narrative Journalism	3
JMC:3490	Feature Reporting and Writing	3

Writing/Storytelling—Reporting and Writing Track

Course #	Title	Hours
One of these:		
JMC:3401	Beat Reporting and Writing	3
JMC:3403	Public Affairs Reporting and Writing	3
And two of these:		
JMC:3400	Topics in Writing/Storytelling (advisor input required for course topic)	3
JMC:3401	Beat Reporting and Writing (if not taken as a required course)	3
JMC:3403	Public Affairs Reporting and Writing (if not taken as a required course)	3
JMC:3408	Investigative Reporting and Writing	3
JMC:3410	Magazine Reporting and Writing	3
JMC:3411	Newscast Reporting and Writing	3
JMC:3413	Sports Writing	3
JMC:3414	Basic Elements of Book Writing	3
JMC:3415	Writing Across Cultures	3
JMC:3425	Personal Branding	3
JMC:3436	Cross-Platform Storytelling	3
JMC:3440	Multimedia Narratives	3

JMC:3445	Journalistic Writing in Spanish	3
JMC:3460	Arts and Culture Reporting and Writing	3
JMC:3470	Narrative Journalism	3
JMC:3490	Feature Reporting and Writing	3

Writing/Storytelling—Strategic Communication Track

Course #	Title	Hours
This course:		
JMC:3412	Strategic Communication Writing	3
And one of these:		
JMC:3400	Topics in Writing/Storytelling (advisor input required for course topic)	3
JMC:3420	Content Marketing	3
JMC:3421	Sport Content Marketing	3
JMC:3425	Personal Branding	3
JMC:3430	Political Public Relations	3
JMC:3436	Cross-Platform Storytelling	3
JMC:3440	Multimedia Narratives	3

Capstone Course

All students must take one capstone class. The list of acceptable courses varies according to optional tracks.

No Optional Track

Course #	Title	Hours
One of these:		
JMC:4100	Advanced Topics in Writing/ Storytelling	3
JMC:4105	Iowa Community News	3
JMC:4115	Enterprise Reporting and Writing	3
JMC:4125	Advanced Strategic Storytelling	3
JMC:4300	Photo Storytelling	3
JMC:4310	Advanced Topics in Designing/Producing	3
JMC:4315	Strategic Communication Campaigns	3
JMC:4325	Advanced Newscast Writing and Production	3
JMC:4335	Multimedia Production for Publication	3

JMC:4400	Capstone (advisor input required for course topic)	3

Experiential Learning Requirement: SCRIPT

Every student majoring in journalism and mass communication must complete at least one experiential education course from Study Abroad, Community Engagement, Research, Internship, Professional Practice, or Teaching (SCRIPT). Courses that satisfy the SCRIPT requirement are as follows.

Study Abroad

Any study abroad program is accepted, including global internships, virtual programs, short-term faculty-led programs, and summer, semester, or year-long coursework abroad. Study abroad courses typically have a prefix of ABRD or INTL. More information on course options can be found in the Study Abroad [p. 2215] section of the catalog.

Community Engagement

Community-engaged courses (CEC) administered by the School of Journalism and Mass Communication, as designated by the Office of Community Engagement, may be used for this requirement.

Course #	Title	Hours
JMC:3720	Nonprofit Communications	3
EVNT:3154	Foundations of Event Management	3
EVNT:3260	Event Management Workshop	3

Research

Research with faculty oversight including research assistantships (RAs), independent student research projects, and research-driven courses as determined by the School of Journalism and Mass Communication may be used for this requirement.

Course #	Title	Hours
JMC:4920	Undergraduate Research	0-3
JMC:4955	Honors Project	3
SPST:4999	Honors Project	1-3
URES:3992	Undergraduate Research and Creative Projects	0
URES:3993	Undergraduate Research and Creative Projects	1-4
URES:3994	Undergraduate Research and Creative Projects	1-4
URES:3995	Independent Creative Research by Undergraduates Summer Internship	0

Internship

Both academic and non-credit internship courses are accepted.

Course #	Title	Hours
JMC:2005	Preparing for Internship Success Seminar	1-2
JMC:2100	Internship in Journalism and Mass Communication	0-3
JMC:3700	Nonprofit Internship	3
CCP:1201	Academic Internship	1-3
EVNT:2110	Internship in Event Management	3
SMC:3600	Internship in Sport and Media	1-3
SPST:3600	Internship in Sport and Culture	1-3

Professional Practice

Professional practice includes academic media experiences led by faculty and non-credit participation in student media.

Course #	Title	Hours
JMC:2350	Student Media Experience	0
JMC:2400	Journalism and Mass Communication Media Experience	1-3
JMC:2410	Adler Agency	1-3
JMC:2415	Prep Sports Report	1-3
SMC:2400	Sport Media and Culture Experience	1-3

Teaching

Undergraduate teaching assistantships (UTA), peer mentorships, and executive leadership roles in student media may be used for this requirement.

Course #	Title	Hours
JMC:3000	Peer Assistant	0
CLAS:4100	Peer Assistant	1-2

Optional Journalism Electives

Students may earn elective credit by completing additional journalism and mass communication courses (prefix JMC), but they may not exceed a maximum of 56 s.h. earned in the School of Journalism and Mass Communication toward the 120 s.h. required for the degree.

Course #	Title	Hours
JMC:1000	First-Year Seminar	1-2
JMC:1050	Sport and the Media	3
JMC:1800	Environmental Communication	3
JMC:2001	Exploring Nonprofits: Communities, Communication, and Changemakers	3
JMC:2005	Preparing for Internship Success Seminar	1-2
JMC:2084	Sport and Film	3
JMC:2100	Internship in Journalism and Mass Communication	0-3
JMC:2150	News and Knowledge: Chinese Culture, History, and Journalism	1
JMC:2400	Journalism and Mass Communication Media Experience	1-3
JMC:2410	Adler Agency	1-3
JMC:2415	Prep Sports Report	1-3
JMC:2500	Community Media	3
JMC:3700	Nonprofit Internship	3
JMC:3710	Fundraising Fundamentals	3
JMC:4900	Special Projects in Mass Communication	arr.
JMC:4910	Readings in Communication and Mass Communication	1-3
JMC:4920	Undergraduate Research	0-3
JMC:4955	Honors Project	3

Second Area of Study

Every student majoring in journalism and mass communication must complete a second area of study. The second area of study enables students to acquire a substantial body of knowledge or expertise in a relevant area, learn how another discipline views the world, and/or develop a companion set of skills to those in journalism and mass communication.

Requirements for the Second Area of Study

Students must complete the requirements for the journalism and mass communication major (at least 43 s.h.) and must satisfy the school's second area of study requirement in one of three ways.

Option 1

Students complete a second major.

Option 2

Students complete an undergraduate certificate. Students may not double count courses for their journalism and mass communication major and a certificate being used as their second area of study.

Option 3

Students complete an undergraduate minor. Students may not double count courses for their journalism and mass communication major and a minor being used as their second area of study. The minor in media management may not be used as the second area of study.

Combined Programs

BA in Journalism and Mass Communication/MA in Strategic Communication

The combined BA/MA program enables students to begin work toward the MA in strategic communication while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of credit toward both the BA and MA degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences; see the MA in strategic communication in the catalog.

Students must have a 3.25 University of Iowa grade-point average (GPA) upon application and a 3.00 cumulative GPA upon completion of the undergraduate degree.

Honors

Honors in the Major

Students majoring in journalism and mass communication have the opportunity to graduate with honors in the major. Students in the school's honors program must have a grade-point average (GPA) of at least 3.50 in work for the major and a UI cumulative GPA of at least 3.33. To graduate with honors in the major, they complete JMC:4955 Honors Project, earning 3 s.h. of credit in work guided by a faculty member. The honors project may be a thesis or a professional project and typically is completed during the last semester of the senior year.

National Honor Society

The school's chapter of Kappa Tau Alpha, the national society honoring scholarship in journalism and mass communication, was founded in 1936 and is named for former director Leslie G. Moeller. Students are considered for membership if their GPA places them in the top 10% of their class and they have completed at least five semesters of university work, including a minimum of 9 s.h. in journalism and mass communication skills courses. Contact the school's Kappa Tau Alpha advisor for details.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the journalism and mass communication major. Visit Honors in Journalism on the school's website or contact the school's honors advisor for details.

Career Advancement

The major prepares students for careers in the field. Graduates find employment in a variety of areas, such as public relations, advertising, marketing, political communication, health communication, philanthropy and fundraising communication, newspapers, magazines, radio, TV, online communications and social media, publication design, photojournalism, and media research.

The school's internship and assessment coordinator helps students seeking career guidance and employment opportunities. The school compiles and publicizes notices of professional jobs open to journalism and mass communication students and graduates. It also cooperates with the university's Pomerantz Career Center in providing career guidance and placement services as well as workshops and programs on seeking jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Students must declare the journalism and mass communication major by the first semester of their sophomore year in order to be eligible for the Four-Year Graduation Plan. The following checkpoints include the required work in journalism and mass communication plus a second area of study, but they do not include the requirements of a second major, since the Four-Year Graduation Plan does not apply to second majors.

Complete during any semester: To fulfill the SCRIPT experiential learning requirement, complete an approved course in at least one of the following categories: study abroad, community engagement, research, internship, professional practice, or teaching.

Before the fifth semester begins: JMC:1100 Introduction to Media Effects or JMC:1200 Introduction to Media and Culture or JMC:1500 Introduction to Social Media, JMC:1300

Introduction to Journalism and Strategic Communication, and JMC:1600 Writing Fundamentals; choose a second area of study; and complete at least one-half of the semester hours required for graduation.

Before the sixth semester begins: JMC:2600 Freedom of Expression, JMC:2020 Multimedia Storytelling, and JMC:2010 Reporting and Writing or JMC:2030 Visual Communication and Design.

Before the seventh semester begins: JMC:2010 Reporting and Writing or JMC:2030 Visual Communication and Design (if not already taken), JMC:2700 Media Ethics, one managing/planning or one understanding media course, one writing/storytelling or one designing/producing course, and at least three-quarters of the semester hours required for graduation.

During the seventh semester: two additional writing/storytelling or designing/producing courses, and one understanding media or one managing/planning course.

During the eighth semester: one writing/storytelling or designing/producing course, one capstone course, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Major: second area of study course or elective [j]	3
GE CLAS Core: International and Global Issues [g]	3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [m]	
Hours	**15**
Total Hours	**120-130**

a Every student majoring in journalism and mass communication must complete at least one experiential education course from Study Abroad, Community Engagement, Research, Internship, Professional Practice, or Teaching (SCRIPT). Courses that satisfy the SCRIPT requirement can be found in the General Catalog.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Students must complete these courses with a C-minus or higher before taking JMC:2010, JMC:2020, and JMC:2030.

d Fulfills a major requirement and may fulfill a GE requirement.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

h Students must complete these courses with a C-minus or higher before taking writing/storytelling courses (JMC:34XX).

i Students must complete these courses with a C-minus or higher before taking designing/producing courses (JMC:36XX).

j Students must complete a second area of study. There are three options: 1) complete a second major; 2) complete an undergraduate certificate; or 3) complete an undergraduate minor (except the Media Management minor). Students may not double count courses for their JMC major and a certificate or minor being used as their second area of study.

k Students who choose a track will pick from 3000 and 4000-level courses designated for their track.

l Depending on which major introduction course is taken, students must still complete two of the following GE requirements: Historical Perspectives, Social Sciences, Values and Society.

m Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Sport Media and Culture, BA

The sport media and culture major examines the complex and dynamic relationship between sporting organizations and media companies, and how this relationship shapes the cultures of sports in the U.S. and beyond. Students take courses in the area of sport and media and the area of sport and culture in order to gain an understanding of how cultural meanings are shaped and contested through sport.

Coursework provides students with the critical skills necessary to understand sport media's relationships to economics, politics, and education. A focus on race, class, gender, and sexuality in sports is central to the major.

Learning Outcomes

Graduates of the BA in sport media and culture learn how to study sports critically and understand their complex relationships with cultural meanings. This entails an understanding of:

- contemporary U.S. sports' relationship with media and how this relationship intersects with other institutions and contexts including politics and the economy;
- the diversity of sporting experiences in the U.S., including how opportunities for and the nature of participation are influenced by social class, race, ethnicity, nationality, gender, sexuality, age, and ability/disability; as well as how that diversity is represented in sport media;
- the historical and cultural forces that shape the relationship between U.S. sport and media from the 19th century to the present;
- U.S. sport media's relationship to global sport media and the historical, political, and social factors that impact it; and
- the theories and research methods that allow students to forge their own well-informed and clearly communicated critical studies of sport media.

Requirements

The Bachelor of Arts with a major in sport media and culture requires a minimum of 120 s.h., including 33 s.h. in sport media and culture courses, plus a second major, certificate, or minor (see the section titled "Second Area of Study"). Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. At least 24 s.h. of credit for the major must be earned at the University of Iowa. Students must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students may count a maximum of 56 s.h. of sport media and culture courses (prefix SMC) toward the 120 s.h. required for the degree. Sport media and culture majors who also complete another major or minor offered by the School of Journalism and Mass Communication must earn a minimum of 56 s.h. from courses offered outside of the school.

The BA with a major in sport media and culture requires the following coursework.

Requirements	Hours
Foundation Courses	6
Sport and Media Courses	12
Sport and Culture Courses	12
Capstone Course	3
Second Area of Study	

Foundation Courses

Course #	Title	Hours
Both of these:		
SMC:1050	Sport and the Media	3
SPST:1074	Inequality in American Sport	3

Sport and Media Courses

In addition to the following courses, students with a second major in journalism and mass communication may take JMC:3413 Sports Writing, JMC:3421 Sport Content Marketing, or JMC:3530 Social Media Marketing (when the topic is "Sports") as one of the two courses numbered 3000 or above.

Students may use a maximum of 3 s.h. of internship credit to satisfy major requirements.

Course #	Title	Hours
At least 6 s.h. from these:		
SMC:2084	Sport and Film	3
SMC:2101	Digital Media and the Future of Sport	3
SMC:2400	Sport Media and Culture Experience	1-3
SMC:2415	Prep Sports Report	1-3
SMC:2500	Sport and Technology	3
At least 6 s.h. from these:		
SMC:3182	Sport, Scandal, and Strategic Communication in Media Culture	3
SMC:3184	Narrative Sports Journalism	3
SMC:3186	Athletes, Activism, and Social Media	3
SMC:3187	American College Athletics: A Big Money Tradition Unlike Any Other	3
SMC:3188	Staging the World's Game: Soccer and Media	3
SMC:3540	The Business of Sport Communication	3
SMC:3600	Internship in Sport and Media (only 3 s.h. of internship credit satisfies major requirements)	1-3

Sport and Culture Courses

Students may only use 3 s.h. of internship credit to satisfy major requirements.

Course #	Title	Hours
At least 6 s.h. from these:		
SPST:2077	Sport and Religion in America	3
SPST:2078	Women, Sport, and Culture	3
SPST:2079	Race and Ethnicity in Sport	3
SPST:2170	Sport and Globalization	3
SPST:2847	Hawkeye Nation: On Iowa and Sport	3
At least 6 s.h. from these:		
SPST:3078	Archiving Women's History	3

SPST:3171	Baseball in America	3
SPST:3172	Football in America	3
SPST:3173	Cultures of Basketball	3
SPST:3176	Sport and Nationalism	3
SPST:3178	History of Sport in the United States	3
SPST:3500	The Olympics	3
SPST:3600	Internship in Sport and Culture (only 3 s.h. of internship credit satisfies major requirements)	1-3

Capstone Course

Course #	Title	Hours
This course:		
SMC:4500	Sport Media and Culture Capstone	3

Optional Sport Media and Culture Electives

Students may earn elective credit by completing additional sport media and culture coursework from the following.

Course #	Title	Hours
SMC:1000	First-Year Seminar	1
SPST:3193	Independent Study	1-3
SPST:4999	Honors Project	1-3

Second Area of Study

Every student majoring in sport media and culture must complete a second area of study. The second area of study enables students to acquire a substantial body of knowledge or expertise in a relevant area, learn how another discipline views the world, and/or develop a companion set of skills to those in sport media and culture.

Students must complete the requirements for the sport media and culture major (at least 33 s.h.) and must satisfy the second area of study requirement in one of three ways.

Option 1

Students complete a second major.

Option 2

Students complete an undergraduate certificate. Students may not double count courses for the major and a certificate being used as their second area of study.

Option 3

Students complete an undergraduate minor. Students may not double count courses for the major and a minor being used as their second area of study.

Honors

Honors in the Major

Students majoring in sport media and culture have the opportunity to graduate with honors in the major. They must maintain a University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.50 in the major.

The honors project is usually undertaken in a student's final semester. Students should identify a potential project topic and advisor from the sport media and culture faculty the semester before. Work for the honors project is done under the supervision of a faculty member with expertise in the topic the student is exploring. Projects typically take the form of traditional scholarly research. However, they also can be organized around public engagement, the digital humanities, or other formats decided on in consultation with the faculty advisor.

Students should enroll in SPST:4999 Honors Project.

Students who pursue honors projects in two departments may not submit the same project for both unless special permission is obtained from each department. Such an option would require more substance and depth than projects undertaken in one department. Students should check with honors advisors from both departments before they pursue such projects.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. University honors students must maintain a 3.33 UI cumulative GPA, complete 12 s.h. of coursework designated as honors courses, and complete 12 s.h. of an experiential learning project. Visit Honors at Iowa for more details.

Membership in the UI Honors Program is not required to earn honors in the sport media and culture major.

Career Advancement

Students who major in sport media and culture can pursue a wide variety of exciting career paths within and beyond the growing and diverse field of sport media. These include more established careers in storytelling (writing, public relations, and marketing) as well as emerging professions in social media, podcasting, digital market research, and analytics. The major also provides students with a firm background in the critical and contextual analysis of sport media institutions that can prepare them for careers in law or for socially committed organizations that seek to transform sport by making it more equitable, diverse, and inclusive.

The School of Journalism and Mass Communication and the Pomerantz Career Center offer multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: declaration of the major.

Before the sixth semester begins: second area of study determined.

Before the seventh semester begins: SMC:1050 Sport and the Media, SPST:1074 Inequality in American Sport, at least four additional sport media and culture courses, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least eight sport media and culture courses.

During the eighth semester: SMC:4500 Sport Media and Culture Capstone (if not already taken), all remaining coursework in the major, including all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Total Hours	**120-126**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Students should complete these foundation courses as early as possible.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement

exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

f Note: SPST:2170 also satisfies both the Sustainability and the International and Global Issues GE requirements.

g See the General Catalog for list of approved courses.

h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

i Students must complete a second area of study. There are three options: 1) complete a second major; 2) complete an undergraduate certificate; or 3) complete an undergraduate minor. Students may not double count courses for their SMC major and a certificate or minor being used as their second area of study.

j Students who completed SPST:2170 for the major have already satisfied the International and Global Issues GE requirement.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Media Management, Minor

Requirements

The minor in media management requires a minimum of 15 s.h. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass.

Students may apply a maximum of 6 s.h. toward both the minor in media management and any major, minor, or certificate housed in the School of Journalism and Mass Communication or the John Pappajohn Entrepreneurial Center.

The minor prepares students to work in media industries and areas that focus on audiences and business. Students completing this minor will also have a foundation to pursue advanced degrees related to media management.

The minor in media management requires the following coursework.

Required Courses

Course #	Title	Hours
Two of these:		
JMC:3505	Audiences and Analytics	3
JMC:3510	Media and Marketing Research	3
JMC:3520	Business of Media: Profits, People, and Power	3

Elective Courses

Some of the entrepreneurial management courses (prefix ENTR) have prerequisites; students must complete all of a course's prerequisites before they may register for a course.

Course #	Title	Hours
Three of these, with at least one journalism and mass communication course (prefix JMC):		
JMC:2700	Media Ethics	3
JMC:3500	Topics in Managing/Planning	3
JMC:3505	Audiences and Analytics (if not taken as a required course)	3
JMC:3510	Media and Marketing Research (if not taken as a required course)	3
JMC:3520	Business of Media: Profits, People, and Power (if not taken as a required course)	3
JMC:3530	Social Media Marketing	3
JMC:3540	The Business of Sport Communication	3
JMC:3550	Editing	3
JMC:3720	Nonprofit Communications	3
COMM:2085	Media Industries and Organizations	3
ENTR:2000	Entrepreneurship and Innovation	3
ENTR:3100	Entrepreneurial Finance	3
ENTR:3200	Entrepreneurial Marketing	3
ENTR:3500	Social Entrepreneurship	3
ENTR:3600	Social Media Strategies for Entrepreneurial Ventures	3

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Media Management, Minor

Course	Title	Hours
Academic Career		
Any Semester		
The minor in media management requires a minimum of 15 s.h.		
Students must maintain a GPA of at least 2.00 in all courses for the minor and in all UI courses for the minor.		
Courses for the minor may not be taken pass/nonpass.		
Students may apply a maximum of 6 s.h. toward both the minor in media management and any major, minor or certificate housed in Journalism and Mass Communication or the John Pappajohn Entrepreneurial Center.		
	Hours	**0**
First Year		
Any Semester		
Students typically begin taking courses for the media management minor during spring semester of their second year. [a]		
	Hours	**0**
Second Year		
Spring		
JMC:3510 or JMC:3520 or JMC:3505	Media and Marketing Research [b, c] or Business of Media: Profits, People, and Power or Audiences and Analytics	3
	Hours	**3**
Third Year		
Fall		
JMC:3510 or JMC:3520 or JMC:3505	Media and Marketing Research [b, c] or Business of Media: Profits, People, and Power or Audiences and Analytics	3
	Hours	**3**

Spring	
Minor: elective course [d]	3
Hours	**3**
Total Hours	**15**

a Some of the entrepreneurial management courses (prefix ENTR) have prerequisites; students must complete all of a course's prerequisites before they may register for the course.
b Students must take two courses from JMC:3505, JMC:3510, JMC:3520.
c JMC:3520 is typically offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
d See General Catalog for list of approved courses.

News and Media Literacy, Minor

Requirements

The minor in news and media literacy requires a minimum of 15 s.h. in mass communication courses, including 6 s.h. in courses numbered 3000 or above. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass.

Students may earn the minor in news and media literacy or the journalism and mass communication major, but not both.

The minor provides students with an introduction to news and media literacy; it does not prepare them for careers in media.

The minor in news and media literacy requires the following coursework.

Required Courses

Course #	Title	Hours
One of these:		
JMC:1100	Introduction to Media Effects	3
JMC:1200	Introduction to Media and Culture	3
JMC:1300	Introduction to Journalism and Strategic Communication	3
JMC:1500	Introduction to Social Media	3
JMC:1800	Environmental Communication	3
One of these:		
JMC:2600	Freedom of Expression	3
JMC:2700	Media Ethics	3

Elective Courses

Course #	Title	Hours
9 s.h with at least 6 s.h. numbered 3000 or above:		
JMC:2084	Sport and Film	3
JMC:2101	Digital Media and the Future of Sport	3
JMC:2500	Community Media	3
JMC:3116	Media and Global Cultures	3
JMC:3118	Political Communication	3
JMC:3122	Influencers, Artificial Intelligence, and Digital Games	3
JMC:3123	Advocacy Communication	3
JMC:3124	Entertainment Media	3
JMC:3142	Media and Social Change	3
JMC:3150	Media and Health	3

Mass Communication, MA

Learning Outcomes

A candidate for a research master's degree is expected to demonstrate knowledge in the chosen discipline and to synthesize and create new knowledge, making a contribution to the field in an appropriate timeframe.

- Make a contribution to the scholarship of the field: synthesize existing knowledge; identify and access appropriate resources and other sources of relevant information; critically analyze and evaluate one's own findings and those of others; apply existing research methodologies, techniques, and technical skills; and communicate in a style appropriate to the discipline.
- Demonstrate commitment to advancing the values of scholarship: keep abreast of current advances within one's field and related areas; show commitment to personal professional development through engagement in professional societies and other knowledge transfer modes; and show a commitment to creating an environment that supports learning through teaching, collaborative inquiry, mentoring, or demonstration.
- Demonstrate professional skills: adhere to ethical standards in the discipline and listen, give, and receive feedback effectively.

Requirements

The School of Journalism and Mass Communication offers a Master of Arts in mass communication. The MA program requires 34 s.h. with a thesis. Students who plan to continue on to doctoral studies in the school can complete the required coursework for the master's degree, plus one additional course, and successfully pass a qualifying examination; a thesis is not required.

Students in the MA program in mass communication must complete the following coursework. They are required to take at least two courses in the School of Journalism and Mass Communication selected from the methods, theory, or electives areas.

Course #	Title	Hours
All of these:		
JMC:6100	Communication and Media Colloquium (taken at least four times for 1 s.h. each; should enroll every semester for entire program of study)	4
JMC:6200	Humanistic Approaches to Media Communication	3
JMC:6300	Social Scientific Approaches to Media Communication	3
JMC:6999	Dissertation (must register for at least 3 s.h.)	3
CLAS:5100	Practicum: College Teaching and Professional Development for Teaching Assistants	1
Additional professionalization courses		2
Methods area courses		3
Theory area courses		3
Electives		12

For a more detailed description of the MA program in mass communication, contact the School of Journalism and Mass Communication.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Admission to the program is for fall entry.

Career Advancement

This is an academically oriented degree that prepares students for doctoral studies or a career in research.

The MA program is designed to meet the needs of:

- journalism and mass communication students who have earned a bachelor's degree and wish to continue their education; MA students can be considered for admission into the doctoral program after completion of all their MA degree requirements; and
- experienced journalists or communicators who wish to prepare themselves for teaching by earning the MA, possibly continuing on to earn their PhD.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Students are required to complete 3 s.h. of methods area, 3 s.h. of theory area, 6 s.h. of concentration area, and 6 s.h. of elective coursework.

c Work with faculty advisor to determine appropriate graduate coursework; see the General Catalog and department website for specifics.

d Students are required to take a total of 3 s.h. of professionalization courses including RHET:5100; consult with faculty advisor to determine which courses best align with career goals.

e Registration required every semester.

f Non-thesis option requires the completion of one additional course instead of a thesis.

g Must complete the master's curriculum with one additional course instead of a thesis; successful completion of qualifying exam in the fourth semester of the program.

Strategic Communication, MA

Learning Outcomes

A candidate for a professional master's degree is expected to demonstrate knowledge and skills in the chosen discipline. Graduates will:

- be able to generate innovative and integrative solutions to communication problems that impact organizations and communities;
- evaluate and apply strategic communication and public relations theories broadly conceived to a range of social, cultural, and other contextual and communicative settings;
- learn to interpret and contribute to strategic communication research using qualitative and quantitative methods;
- demonstrate familiarity with relevant subfields of scholarship, synthesize existing knowledge, and identify and access appropriate resources and other sources of relevant information;
- grow their human capital through the attainment of relevant communication knowledge and skills and the ability to be effective team members and leaders in a diverse and complex world; and
- demonstrate professional skills, adhere to ethical standards in the discipline, and listen, give, and receive feedback effectively.

Requirements

The Master of Arts in strategic communication requires a minimum of 30 s.h. of graduate credit. Courses for the program are offered online.

The curriculum consists of core courses, electives, and a capstone project. In most courses, students are encouraged to introduce case studies and projects from their workplace.

The MA in strategic communication requires the following coursework.

Core Courses

Course #	Title	Hours
All of these:		
JMC:5220	Foundations of Strategic Communication	3
JMC:5225	Digital Strategic Communication	3
JMC:5230	Strategic Communication Writing	3
JMC:5235	Strategic Communication Research	3
JMC:5290	Capstone Project in Strategic Communication	3

Electives

In consultation with their advisors, students earn 15 s.h. in elective coursework. At least 9 s.h. of electives must be in journalism and mass communication courses (prefix JMC) numbered 5000 or above.

Students are strongly encouraged to select coursework from the following list.

Course #	Title	Hours
JMC:5236	Topics in Strategic Communication	3
JMC:5238	Strategic Communication Campaigns	3
JMC:5243	Copywriting for Strategic Communication	3
JMC:5248	Strategic Political Communication	3
JMC:5250	Strategic Communication for Nonprofits	3
JMC:5255	Strategic Global Communication	3
JMC:5260	Digital Analytics for Strategic Communication	3
JMC:5266	Risk Communication	3
JMC:5267	Strategic Health Care Communication	3
JMC:5269	Media Management for Strategic Communicators	3
JMC:5270	Leadership Communication	3
JMC:5285	Strategic Communication Externship	3

Students may choose other electives appropriate for their individual programs, drawing from courses offered by the School of Journalism and Mass Communication or by other University of Iowa departments and programs. A combined maximum of 6 s.h. of courses numbered 3000–4999 or approved graduate transfer credit is permitted.

With the approval of the student's advisor, additional elective options include but are not limited to the following list.

Course #	Title	Hours
Journalism and mass communication courses (prefix JMC) numbered 3000-7999		
Event management courses (prefix EVNT) numbered 3000-7999		
Approved graduate-level transfer credit

Combined Programs

BA in Journalism and Mass Communication/MA

The combined BA/MA program enables students to begin work toward the MA in strategic communication while completing the bachelor's degree in journalism and mass communication. Students admitted to the program may count 12 s.h. of credit toward both the BA and MA degree requirements. Offered by the Graduate College and the College of Liberal Arts and Sciences.

MA/MBA

The combined Master of Business Administration/MA in strategic communication program aims to meet the evolving needs of the market by producing graduates with a unique skill set that integrates advanced communication strategies with robust business acumen for the digital world. Offered by Tippie Professional Programs (Tippie College of Business) and the College of Liberal Arts and Sciences; see the Master of Business Administration, MBA [p. 1274] in the catalog.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applications for admission to the program are accepted all year.

Career Advancement

The strategic communication program is designed for professionals in a wide variety of areas, such as corporate and organizational communication, public relations, integrated marketing communication, advertising, political and public affairs communication, health communication, event management, risk communication, and professional writing. The program focuses on the skills, knowledge, and experience that working professionals need, including the ability to anticipate and meet the challenges of radical change in the media landscape.

Elective course [e]		3
	Hours	**6**
	Total Hours	**30**

a Most students take two courses per semester with some summer courses; program courses are offered online.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d Students must complete JMC:5220, JMC:5225, JMC:5230, JMC:5235, JMC:5290; work with faculty advisor to determine required core coursework and sequence.

e In consultation with their advisors, students earn 15 s.h. in elective coursework. At least 9 s.h. of electives must be in journalism and mass communication courses (prefix JMC) numbered 5000 or above. See the General Catalog for list of approved courses.

f SJMC usually offers a JMC:5236 topics course in summer. Students may also opt to take an elective across the university.

Mass Communication, PhD

Learning Outcomes

A candidate for a doctoral degree is expected to demonstrate mastery of knowledge in the field of communication and to synthesize and create new knowledge, making an original and substantial contribution to the discipline in an appropriate time frame.

- Make an original and substantial contribution to the discipline: think originally and independently to develop concepts and methodologies, and identify new research opportunities within the field of communication.
- Demonstrate advanced research skills: synthesize existing knowledge; identify and access appropriate resources and other sources of relevant information; critically analyze and evaluate one's own findings and those of others; master application of existing research methodologies, techniques, and technical skills; and communicate in a style appropriate to the field of communication.
- Demonstrate commitment to advancing the values of scholarship: keep abreast of current advances within one's field and related areas; show commitment to personal professional development through engagement in professional societies and other knowledge transfer modes; and show a commitment to creating an environment that supports learning through teaching, collaborative inquiry, mentoring, or demonstration.
- Demonstrate professional skills: adhere to ethical standards in the discipline and listen, give, and receive feedback effectively.

Requirements

The Doctor of Philosophy program in mass communication requires 72 s.h. of graduate credit. The program provides training in research methods, communication theory, and teaching skills.

The program emphasizes interdisciplinary studies, with coursework and research tailored to each student's interests under the guidance of faculty members. The school offers several areas of strength to support graduate student research in both traditional and digital media: critical/cultural studies, digital media, global media, health communication, journalism studies, and sports media.

Students in the PhD program in mass communication must complete the following curriculum.

Course #	Title	Hours
JMC:6100	Communication and Media Colloquium (taken four times for 1 s.h. each; should enroll every semester for first two years of study)	4
JMC:6200	Humanistic Approaches to Media Communication	3
JMC:6300	Social Scientific Approaches to Media Communication	3
JMC:6920	PhD Research (for guided reading)	3
JMC:6999	Dissertation (must register for at least 4 s.h.)	4
CLAS:5100	Practicum: College Teaching and Professional Development for Teaching Assistants	1
Additional professionalization courses		3
Methods area courses		3
Theory area courses		3
Electives		15
Credit from master's degree and/or additional PhD courses		30

For a more detailed description of the PhD program, contact the School of Journalism and Mass Communication.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Admission to the program is for fall entry.

Career Advancement

Students in this program prepare for careers as teachers and industry researchers.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students entering with a bachelor's degree must work with their faculty advisor to complete 30 s.h. of appropriate graduate coursework. Students entering with fewer that 30 s.h. of coursework from the master's degree must work with their faculty advisor to complete the needed appropriate graduate coursework.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Taken four times for 1 s.h. each; students should enroll every semester for first two years of study.

d Students are required to complete 3 s.h. of methods area, 3 s.h. of theory area, and 15 s.h. of elective coursework.

e Work with faculty advisor to determine appropriate graduate coursework; see the General Catalog and department website for specifics.

f Completed at the end of first year to directly assess understanding of content from two approaches courses.

g Students are required to take a total of 3 s.h. of professionalization courses; consult with faculty advisor to determine which courses best align with career goals.

h Prior to comprehensive exam, work with faculty advisor and committee to build the proposals literature review; see the General Catalog and department website for specifics.

i Minimum total of 4 s.h. of thesis credit required.

j Writing and defending the dissertation proposal satisfies the comprehensive exam requirement. The dissertation proposal must clearly indicate the logical steps necessary for the completion of the project and suggest a plan of action.

k Dissertation defense.

Languages, Linguistics, Literatures, and Cultures

Chair

- Jill Beckman

Undergraduate majors: Asian Languages and Literature, BA; French, BA; German, BA; International Studies, BA; Italian, BA; Linguistics, BA; Russian, BA; Translation, BA

Undergraduate minors: American Sign Language; Arabic Studies; Asian Languages and Literature; French; German; International Studies; Italian; Korean Studies; Linguistics; Russian; Translation for Global Literacy

Graduate degrees: French and Francophone World Studies, MA; French and Francophone World Studies, PhD; Linguistics, MA; Linguistics, PhD; Literary Translation, MFA

Graduate certificate: Literary Translation

Faculty: https://lllc.uiowa.edu/people

Website: https://lllc.uiowa.edu/

The Department of Languages, Linguistics, Literatures, and Cultures (LLLC) fosters interdisciplinary scholarship in languages, linguistics, literatures, and cultures. It encourages synergy and collaboration among its faculty and enhances opportunities for cross-cultural course development and research.

Undergraduate and graduate programs in the department serve students with varied interests and career aspirations. Students are educated to become global citizens who understand and are understood by diverse populations. They are trained to be critical thinkers and problem solvers who are also capable scholars, lucid writers, and proficient speakers.

The department offers instruction in numerous fields related to language, linguistics, literature, and culture.

Language for GE CLAS Core

Undergraduate students in all majors may satisfy the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core [p. 22] with course sequences in American Sign Language, Arabic, Chinese, French, German, Italian, Japanese, Korean, Russian, and Swahili. For more information regarding pathways to fulfill the World Languages GE CLAS Core requirement, including options to take four levels of one world language, two levels each of two different languages, or three levels of a world language plus a World Language and Cultural Exploration course, see GE CLAS Core [p. 22] in the catalog.

Students who have had experience with a world language should take the appropriate University of Iowa World Languages Placement Test, which helps determine the level at which they should begin study of the language. If no placement test exists, students should contact the general education coordinator to determine the level at which they should begin language study at the University of Iowa.

Related Certificates

Cognitive Science of Language

The Graduate College offers the graduate Certificate in Cognitive Science of Language. Designed to complement doctoral study, the certificate program ensures that students have training in interdisciplinary approaches to the study of language along with a strong theoretical grounding in their PhD discipline. See the Certificate in Cognitive Science of Language [p. 1730] in the catalog for more information.

International Business

The College of Liberal Arts and Sciences and the Tippie College of Business offer the undergraduate Certificate in International Business. The program entails the study of international business and economics; international relations and institutions; a language; and the art, literature, culture, and/or politics of a geographic area. Students who major in Asian Languages and Literature (both Chinese and Japanese subprograms) or Russian are likely to satisfy the certificate's cultural immersion requirement through major requirements. For more information, see the Certificate in International Business [p. 1230] (Tippie College of Business) in the catalog.

Study Abroad

The department strongly encourages its students to study abroad to accelerate language learning and deepen cultural understanding. Many students participate in summer, semester, and year-long study abroad programs. There are many resources available for funding study, intern, or research abroad. It may also be possible for students to apply University of Iowa financial aid to their study abroad programs. Interested students should discuss study abroad programs with their academic advisor or see Study Abroad [p. 2215] (University College) in the catalog.

Summer Internships

Students are encouraged to enrich their programs of study through internships designed to combine work experience abroad or in the United States with study or research projects. The university's Pomerantz Career Center maintains a list of internships.

Student Associations

Students have many opportunities to enrich their studies in languages and literature while living in Iowa City. The university sponsors student associations for students from many countries. All University of Iowa students are welcome to join. Various international community groups sponsor cultural events and holiday celebrations throughout the year.

Programs

Undergraduate Programs of Study

Majors

- Major in Asian Languages and Literature (Bachelor of Arts) [p. 688]
- Major in French (Bachelor of Arts) [p. 693]
- Major in German (Bachelor of Arts) [p. 698]
- Major in International Studies (Bachelor of Arts) [p. 702]
- Major in Italian (Bachelor of Arts) [p. 715]
- Major in Linguistics (Bachelor of Arts) [p. 718]
- Major in Russian (Bachelor of Arts) [p. 722]
- Major in Translation (Bachelor of Arts) [p. 725]

Minors

- Minor in American Sign Language [p. 730]
- Minor in Arabic Studies [p. 732]
- Minor in Asian Languages and Literature [p. 733]
- Minor in French [p. 736]
- Minor in German [p. 737]
- Minor in International Studies [p. 739]
- Minor in Italian [p. 740]
- Minor in Korean Studies [p. 741]
- Minor in Linguistics [p. 743]
- Minor in Russian [p. 744]
- Minor in Translation for Global Literacy [p. 745]

Graduate Programs of Study

- Master of Arts in French and Francophone World Studies [p. 747]
- Master of Arts in Linguistics [p. 749]
- Master of Fine Arts in Literary Translation [p. 751]
- Doctor of Philosophy in French and Francophone World Studies [p. 756]
- Doctor of Philosophy in Linguistics [p. 758]
- Certificate in Literary Translation [p. 761]

Facilities

The Center for Language and Culture Learning provides a wide variety of facilities and services, including a 24-computer Instructional Technology Center (ITC), five All-In-One Studios/small group study rooms equipped with video production and editing software, a Computer Assisted Language Learning Lab with 25 computers integrated with Sanako software for language practice, and virtual reality hardware and development space.

The center provides spaces for quiet study as well as for group meetings. Departments, programs, and student organizations are welcome to host conversation hours, film nights, study groups, workshops, and more. Peer education services include peer tutoring programs in many of the languages taught at the university with both in-person and online availability, as well as Independent Language Study, through which faculty, staff, or students can be paired with a tutor to learn a language not taught at UI. Tutors are trained to use the Three Ms for Effective Learning, which include developing a growth mindset, using memory strategies to retain knowledge, and reflecting on learning gains.

A-F Courses

- Arabic Studies Courses [p. 660]
- Asian Languages and Literature Courses [p. 661]
- Chinese Courses [p. 663]
- English as a Second Language Courses [p. 664]
- French Courses [p. 665]

Arabic Studies Courses

ARAB:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

ARAB:1001 Elementary Modern Standard Arabic I 5 s.h.
Speaking, listening, reading, and writing skills. GE: World Languages First Level Proficiency.

ARAB:1002 Elementary Modern Standard Arabic II 5 s.h.
Continuation of ARAB:1001. Requirements: ARAB:1001. GE: World Languages Second Level Proficiency.

ARAB:2001 Intermediate Modern Standard Arabic I 5 s.h.
Communication in speaking and writing; cultural topics. Requirements: ARAB:1002. GE: World Languages Third Level Proficiency.

ARAB:2002 Intermediate Modern Standard Arabic II 5 s.h.
Continuation of ARAB:2001. Requirements: ARAB:2001. GE: World Languages Fourth Level Proficiency.

ARAB:2006 Transnational Solidarities 3-4 s.h.
Examination of connections forged by intellectuals, activists, and political thinkers in struggles against systems of colonialism, imperialism, capitalism, and state violence throughout the 20th century; opportunities to make connection with other struggles against racism, supremacy, patriarchy, and domination; optional discussion section taught in Arabic. Taught in English. Requirements: for 4 s.h. option—ARAB:1002. Same as SJUS:2006, WLLC:2006.

ARAB:2010 The Modern Arabic Short Story 3 s.h.
Introduction to the modern Arabic short story from the late 19th century to the present day; examination of the development of the genre, as well as depictions of political struggle, gender, class, and religion; taught in English.

ARAB:2012 Modern Palestinian Literature and Culture 3 s.h.
Examines modern Palestinian literature and culture from the beginning of the twentieth century until the contemporary period. Explores works of literature and art focusing on topics such as the 1948 Nakba, the 1967 Naksa, resistance literature, exile and alienation, gender and sexuality, and prison literature. Works are situated within the larger socio-political context examining how the Palestinian struggle for liberation has impacted artistic production. Taught in English.

ARAB:2060 Arab-American Immigration: Society, Identity, and Culture 3 s.h.
Overview of the Arab-American immigration experience since the early 20th century. Taught in English.

ARAB:2525 We Are What We Eat: Food Culture in the Middle East and North Africa 3 s.h.
Explores the cultural significance of food practices, traditions, and rituals, highlighting their role in shaping daily life and social structures. Students examine how language and food intersect to convey meaning, preserve heritage, and facilitate intercultural exchange. Students develop a nuanced appreciation of the Middle East and North Africa's diverse culinary traditions while enhancing their intercultural competency and language skills in cultural contexts. Taught in English. GE: World Language and Cultural Exploration.

ARAB:3005 Culture and Resistance: The Modern Middle East 3-4 s.h.
Introduction to literature, cinema, and music of the Modern Middle East; how artists from Arab world, Turkey, and Iran explore their political terrain; how they depict issues of gender and sexuality; impact of the Arab Spring; exploration of art as expression and resistance; intersection between cultural and political; short stories, graphic novels, film, music, and visual arts. Taught in English.

ARAB:3011 Advanced Modern Standard Arabic I 3 s.h.
Advanced Arabic grammar and syntax, composition writing, formal conversation (similar to conversations on Arabic mass media); classical Arabic texts, other materials written for persons whose first or official language is Arabic. Requirements: ARAB:2002.

ARAB:3012 Advanced Modern Standard Arabic II 3 s.h.
Continuation of ARAB:3011; advanced Arabic grammar and syntax, composition writing, formal conversation (similar to conversations on Arabic mass media); classical Arabic texts, other materials written for persons whose first or official language is Arabic. Requirements: ARAB:3011.

ARAB:3030 Media Arabic 3 s.h.
Introduction to vocabulary, expressions, and terminology used in Arab print and broadcast media; supplements study in modern standard Arabic. Taught in Arabic. Requirements: ARAB:1002.

ARAB:3050 Arab Culture Through Dialects 3 s.h.
Communication in dialectal Arabic, Arabic dialectology, cultural topics, music and film in dialectal Arabic. Requirements: ARAB:1001; non-native or non-heritage speaker of Arabic.

ARAB:3060 Introduction to Arabic-English Translation 3 s.h.
Thorough introduction to translation (including theory) with particular emphasis on development of Arabic-to-English translation techniques and acquisition of related knowledge above and beyond language skills; basic problems commonly encountered during translation; development and application of an appropriate strategy for future translations. Prerequisites: ARAB:2001 with a minimum grade of C.

ARAB:3498 Internship/Community Engagement arr.
Internship with the Translate Iowa Project. Taught in English. Requirements: TRNS:2000 or TRNS:3179 or TRNS:3202 or ENGL:3724 or JPNS:3201 or SPAN:3030 or SPAN:3050 or SPAN:4980. Same as TRNS:3498.

ARAB:4990 Independent Study arr.
Material not covered in regularly offered courses; independent study guided by an instructor.

Asian Languages and Literature Courses

ASIA:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ASIA:1005 Scripts and Trips: A Journey Through East Asia 3 s.h.
Survey of Chinese, Japanese, and Korean. Students learn one of the languages and its culture through the lens of a traveler. Overview of the languages from a comparative perspective; learning basic language skills and intercultural competence to navigate in a country where one of the three languages is spoken; and collaboratively creating a digital travel guide. GE: World Language and Cultural Exploration.

ASIA:1016 Classical Chinese Short Fiction 1 s.h.
Reading and discussion of classical Chinese short fiction in English translation. Taught in English. Recommendations: completion of required ESL courses. Same as WLLC:1016.

ASIA:1040 Introduction to Asian Religions 3 s.h.
Religious beliefs, practices in India, China, Japan. GE: Values and Society. Same as HIST:1610, RELS:1404.

ASIA:1060 Introduction to Buddhism 3 s.h.
Development of Buddhism in India, its spread across Asia, and arrival in the West; exploration of diverse Buddhist philosophies, practices, and cultures; readings from India, Tibet, China, Japan, Korea, and Southeast Asia. GE: Values and Society. Same as HIST:1612, RELS:1506.

ASIA:1502 Asian Humanities: India 3 s.h.
Introduction to 4,000 years of South Asian civilization through popular stories. Taught in English. GE: Values and Society. Same as RELS:1502, SOAS:1502.

ASIA:1510 Ghost Stories and Tales of the Weird in Premodern Chinese Literature 3 s.h.
Reading of Chinese literature concerning ghosts, marvels, and supernatural from the first millennium B.C.E. through the 1800s; readings analyzed against changing historical and religious contexts. Taught in English. Recommendations: completion of all required ESL courses. GE: Interpretation of Literature. Same as WLLC:1510.

ASIA:1601 Civilizations of Asia: China From Origins to the 17th Century 3 s.h.
Introductory survey of Chinese history and civilization from its origins to 1800; exploration of traditions in politics, social organization, thought, religion, and culture. GE: Historical Perspectives. Same as HIST:1601.

ASIA:1602 Civilizations of Asia: China from the 17th Century to the Present 3 s.h.
Introductory survey of Chinese history from the 17th century to present; exploration of political, social, economics, and culture. GE: Historical Perspectives; International and Global Issues. Same as HIST:1602.

ASIA:1604 Civilizations of Asia: Japan 3-4 s.h.
GE: Historical Perspectives; International and Global Issues. Same as HIST:1604.

ASIA:1606 Civilizations of Asia: South Asia 3-4 s.h.
Civilization of a vast region that includes India, Pakistan, Bangladesh, Nepal, and Sri Lanka. GE: Historical Perspectives; International and Global Issues. Same as HIST:1606, RELS:1606.

ASIA:1607 Civilizations of Asia: Korea 3-4 s.h.
Introduction to Korean history and culture; how meanings of "Korea" and "Koreans" changed from ancient times to present; relevant issues of politics, society, and culture; events that shaped ancient Korean states—Koryo state (918-1392), the Choson dynasty (1392-1910), Japanese colonization (1910-1945), and the two Koreas (1945-present); how present perspectives on Korea have influenced understandings of its past. GE: Historical Perspectives; International and Global Issues. Same as HIST:1607.

ASIA:1609 India Now! Surveying the World's Largest Democracy 3-4 s.h.
Introduction to India and its place in global economics, politics, religion, science, and culture since independence in 1947; India's contributions and adaptations to contemporary world, gender roles, changing sexual standards, and new ways India enters American lives—from globalized Bollywood films and music to new foods, fashions, and lifestyles; students examine the quiet revolution of affirmative action that has brought self-respect to millions, and market liberalization that has heightened economic inequality; consideration of ongoing challenges to world's largest democracy and contemporary efforts, both peaceful and violent, to address them. GE: Values and Society. Same as HIST:1609.

ASIA:1670 Korea in the World 3 s.h.
Comprehensive and critical understanding of Korea's place in the world; emphasis on historical and sociocultural roots of various aspects of life on the contemporary Korean peninsula (both North and South Korea); comprehensive list of topics including cultural production (K-pop and film), religions, economy, gender relations, cuisine, politics, and prospects for reunification. Taught in English. Same as KORE:1670, RELS:1670.

ASIA:2001 Global Science Fiction 3 s.h.
Science fiction from around the world; spanning poetry, fiction, drama, film, television, comics, mobile phone games, and music; produced on six continents. Taught in English. GE: Understanding Cultural Perspectives. Same as FREN:2010, RUSS:2001, TRNS:2001, WLLC:2001.

ASIA:2127 Books of the Silk Roads 3 s.h.
Manuscripts and global manuscript cultures from a comparative, interdisciplinary perspective; history of the book in the East and West; diverse material supports, physical formats, and written layouts of manuscripts of the 1st to 19th centuries, including social and cultural contexts; manuscript traditions of particular cultural spheres (Europe, the Middle East and North Africa, India, East Asia) and historical processes of diffusion, remediation, and obsolescence. Taught in English. GE: World Language and Cultural Exploration. Same as CLSA:2127, JPNS:2127.

ASIA:2222 Women in Premodern East Asian Literature 3 s.h.
Reading of East Asian literature portraying women from the first millennium B.C.E. through the 1800s; discussion of issues related to representations of women and conventional social, familial roles in premodern China, Korea, and Japan; cross-cultural comparison of different perceptions and portrayals of women in premodern East Asian literary traditions. Taught in English. Recommendations: completion of all ESL courses. GE: Understanding Cultural Perspectives. Same as GWSS:2222, WLLC:2222.

ASIA:2231 Introduction to the Art of China 3 s.h.
Visual arts of China and their history; emphasis on understanding in context of Chinese civilization, history. Same as ARTH:2220.

ASIA:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

ASIA:2450 India Beat: The Aesthetics and Politics of India Today 3 s.h.
Ways in which music forms a crucial part of Indian public sphere, reflecting and shaping culture, society, and economy; wide range of genres commonly performed and heard across India and South Asia today (i.e., film music, several folk forms, classical, semi-classical, Indipop, rock) and locating each of them in their respective historical, cultural, and socioeconomic contexts; exploration of themes and questions (i.e., emergence and impact of technologies of mass production, distribution of music in colonial and post-independence India). GE: Values and Society. Same as MUS:2450.

ASIA:2515 Introduction to Chinese Religious Thought: How Best to Live 3 s.h.
Overview of how different Chinese religious traditions are addressing central questions about human existence and the best ways to live. Same as RELS:2515.

ASIA:2684 Korean War: Local and Global History 3 s.h.
Examination of the Korean War as a local, regional, and global event; major topics of the war including its origins, methods of warfare, refugee question, war crimes, POWs, propaganda, memory, and commemoration from the perspective of multiple nations; discussion and analysis of scholarly works, textbooks, diplomatic documents, memoirs, fiction, visual sources, and film. Same as HIST:2684.

ASIA:2887 Perspectives on Korea 3 s.h.
History of Korea from earliest times to present; changing meanings of Korea and Koreans; relevant issues of politics, society, and culture; events that shaped ancient Korean kingdoms, the Choson dynasty (1392-1910), Japanese occupation, and divided Korean peninsula; how present perspectives on Korea have influenced understandings of its past; placement of Korea within a regional and global context to examine Korea's relationship with the world. Same as HIST:2687.

ASIA:3055 Death, Dying, and Beyond in Asian Religions 3 s.h.
Survey of cultural and religious approaches to the dying process, post-death rituals, and conceptions about the afterlife in different religions in Asia. Same as RELS:3055.

ASIA:3208 Classical Chinese Literature Through Translation 3 s.h.
Reading of English translations of classical Chinese literature; discussion of special features of classical Chinese as a source language for translation; issues in translation practice and theory with focus on trends in translation of Classical Chinese literary works to English. Taught in English. Recommendations: completion of required ESL courses. Same as TRNS:3208, WLLC:3208.

ASIA:3255 Copy and Paste: Methods of Reproduction in Asian Art 3 s.h.
Introduction to methods of reproduction in Asian art that predates photography, encompassing technologies of graphic reproduction (manual, mechanical, and somewhere in between); exploration of themes including piece-mold bronze casting, stamping and seals, rubbing, molding and mass production, woodblock printing, trace-copying calligraphy, and free-hand copying of paintings; overarching concepts across different subjects (e.g., authorship and authenticity, value of copies and impact on canon formation, relationship between technology and style, question of aura in—and before—the age of mechanical reproduction). Same as ARTH:3255.

ASIA:3270 Themes in Asian Art History 3 s.h.
Same as ARTH:3270.

ASIA:3650 Chinese History From 1600 to 1911 3 s.h.
Chinese history from the 17th to early 20th century, history of the Qing dynasty (1644-1911); Qing's role in shaping aspects of today's politics in China and the mentality of Chinese people; foundation of Manchu state in early 17th century, Ming-Qing transition in 1644, politics and society during the high Qing era, decline of the empire under foreign invasion and inner rebellions in the 19th century, collapse of the dynasty in 1911. Same as HIST:3650.

ASIA:3652 Twentieth-Century China 3 s.h.
Communist revolution from 1920s to founding of People's Republic of China in 1949; Mao Zedong's radical policies, Cultural Revolution; Deng Xiaoping's economic reforms; China today. Same as HIST:3652.

ASIA:3655 Zen Buddhism 3 s.h.
Same as HIST:3655, RELS:3655.

ASIA:3685 Modern Korean History 3 s.h.
Transformation of Choson Korea to North and South Koreas; local, regional, and global transformations in Korea from the late 19th century to present; severing of historic ties with China; encounters with the West and Japan; new ideas of civilization and political community; erasure of Choson as a country in 1910; colonial experience; civil war; industrialization; creation of North Korea; democratic movement in South Korea and spread of diasporic communities abroad; Korean peninsula as a laboratory for analyzing compressed communist and capitalist modernities of the 20th century. Same as HIST:3685.

ASIA:3700 Topics in Global Cinema 3 s.h.
Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Taught in English. Same as JPNS:3700, TRNS:3700, WLLC:3700.

ASIA:4166 Topics in Asian History 3 s.h.
Same as HIST:4666.

ASIA:4301 Honors Tutorial arr.

ASIA:4506 Senior Honors Thesis arr.

ASIA:4507 Topics in Asian Studies arr.
Topics vary.

ASIA:6483 Multilingual Education and Applied Linguistics 3 s.h.
Introduction to research in language teaching and learning, drawing on theories and research in applied linguistics, sociolinguistics, anthropology, and psychology; students gain understanding of fundamentals in second language acquisition, educational linguistics, applied linguistics, and methods used in teaching and learning second/foreign languages; applications and implications of research considered when reviewing multilingual education policy and practice. Same as EDTL:6483, SLA:6506.

ASIA:6501 MA Thesis arr.
Offered fall semesters.

ASIA:6502 MA Thesis arr.
Offered spring semesters.

ASIA:6520 Seminar: South Asian Religion 3 s.h.
Topics in South Asian religions. Same as RELS:6520.

ASIA:7606 Readings in Chinese History arr.
Same as HIST:7606.

Chinese Courses

High school students and University of Iowa students who would like to learn Chinese but do not plan to use Chinese to satisfy the World Languages requirement of the College of Liberal Arts and Sciences GE CLAS Core may wish to take the beginning Chinese courses CHIN:1115 and CHIN:1116 in sequence and may follow them with the second-year courses CHIN:2101 and CHIN:2102. See the following course descriptions.

CHIN:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

CHIN:1030 Introduction to Chinese Ethnic Folk Dance 1 s.h.
China has 56 ethnic minorities and each has a unique culture; folk dances of Chinese minorities reflect peculiarities of each ethnic group's religious, cultural, and historical narrative. Taught in English.

CHIN:1101 Conversational Chinese I 1 s.h.
Introduction to modern Chinese, with focus on communication "survival" skills for discussing oneself, family, daily activities, interests, personal preferences, food, shopping, travel, lodging; situational activities and performance.

CHIN:1102 Conversational Chinese II 1 s.h.
Continuation of CHIN:1101, with focus on speaking and listening.

CHIN:1111 First-Year Chinese: First Semester 5 s.h.
Sound system of Mandarin Chinese, basic sentence patterns; aural understanding, speaking, reading, writing. Offered fall semesters. GE: World Languages First Level Proficiency.

CHIN:1112 First-Year Chinese: Second Semester 5 s.h.
Continuation of CHIN:1111. Offered spring semesters. Prerequisites: CHIN:1111. GE: World Languages Second Level Proficiency.

CHIN:1115 Beginning Chinese I 3 s.h.
Introduction to modern standard Chinese; development of students' functional language ability.

CHIN:1116 Beginning Chinese II 3 s.h.
Continuation of CHIN:1115. Requirements: CHIN:1115 or equivalent as demonstrated in written and oral exams.

CHIN:1121 Beginning Chinese III 3 s.h.
Continuation of CHIN:1116; instruction in all four language skills of listening, speaking, reading, and writing; students further develop their understanding of Chinese culture through language learning. Prerequisites: CHIN:1116.

CHIN:1122 Beginning Chinese IV 3 s.h.
Continuation of CHIN:1121; instruction in all four language skills of listening, speaking, reading, and writing through task-based and task-supported curriculum; students further develop their understanding of historical and contemporary Chinese culture. Prerequisites: CHIN:1121.

CHIN:1504 China Beyond Walls 3 s.h.
Literary and philosophical texts of China in English translation. GE: Values and Society.

CHIN:1702 Chinese Popular Culture 3 s.h.
Introduction to popular culture from the People's Republic of China, Taiwan, Hong Kong, and the Chinese diaspora; shifting relationships among cultural production, media and technology, and political thought; influences of Japan, Korea, and the West; materials drawn from film, television shows, music, new media, popular literature, comics, magazines, advertising, fashion, art, and material culture; no previous knowledge of Chinese is required. GE: Literary, Visual, and Performing Arts.

CHIN:1800 Chinese Calligraphy and Culture 3 s.h.
Introduction to historical development of Chinese script, Chinese calligraphy theories, representative calligraphers, and writing Chinese script using a Chinese writing brush. GE: Values and Society.

CHIN:2101 Second-Year Chinese: First Semester 5 s.h.
Continuation of CHIN:1112. Offered fall semesters. Prerequisites: CHIN:1112 or Chinese Placement score of 301 or higher. GE: World Languages Third Level Proficiency.

CHIN:2102 Second-Year Chinese: Second Semester 5 s.h.
Continuation of CHIN:2101. Offered spring semesters. Prerequisites: CHIN:2101. GE: World Languages Fourth Level Proficiency.

CHIN:2103 Accelerated Second-Year Chinese: First Semester 3 s.h.
Intermediate Chinese. Requirements: grades of C or higher in CHIN:1111 and CHIN:1112, and one summer of Chinese study in China. GE: World Languages Third Level Proficiency.

CHIN:2104 Accelerated Second-Year Chinese: Second Semester 3 s.h.
Intermediate Chinese. Prerequisites: grade of C or higher in CHIN:2103. GE: World Languages Fourth Level Proficiency.

CHIN:3101 Third-Year Chinese: First Semester 3 s.h.
Reading of advanced modern Chinese texts; speaking, writing. Offered fall semesters. Prerequisites: CHIN:2102 or CHIN:2104 or Chinese Placement score of 451 or higher.

CHIN:3102 Third Year Chinese: Second Semester 3 s.h.
Continuation of CHIN:3101. Offered spring semesters. Prerequisites: CHIN:3101.

CHIN:3103 Business Chinese I 3 s.h.
Skill development in communicating with Chinese counterparts on a number of domains in business translations; first of a two-course sequence. Prerequisites: CHIN:2102 or CHIN:2104.

CHIN:3104 Business Chinese II 3 s.h.
Skill development in communicating with Chinese counterparts on a number of domains in business translations; second of a two-course sequence. Prerequisites: CHIN:3102 or CHIN:3103.

CHIN:3201 Workshop in Chinese Literary Translation 3 s.h.
Translation from Chinese to English with emphasis on literary translation; issues in theory and practice of translation; special features of Chinese as a source language for translation. Prerequisites: CHIN:3102. Same as TRNS:3202.

CHIN:3302 Introduction to Chinese Linguistics 3 s.h.
Aspects of modern Chinese linguistics, such as Chinese phonology, syntax, pedagogical grammar, history of the language. Taught in English. Same as LING:3302, SLA:3302.

CHIN:3341 Chinese Literature: Poetry 3 s.h.
Readings in classical and modern Chinese poetry in English translation. Taught in English. Recommendations: sophomore or higher standing.

CHIN:4101 Classical Chinese: First Semester 3 s.h.
Introduction to basic knowledge of classical Chinese; appreciation of traditional Chinese culture through reading idiomatic phrases and ancient fables with vivid and interesting plots. Prerequisites: CHIN:2102 or CHIN:2104.

CHIN:4102 Classical Chinese: Second Semester 3 s.h.
Continuation of CHIN:4101. Prerequisites: CHIN:4101.

CHIN:4103 Fourth-Year Chinese: First Semester 3 s.h.
Proficiency through oral and written discussions of modern texts. Offered fall semesters. Prerequisites: CHIN:3102 or Chinese Placement score of 601 or higher.

CHIN:4104 Fourth-Year Chinese: Second Semester 3 s.h.
Offered spring semesters. Prerequisites: CHIN:4103.

CHIN:4150 Advanced Reading and Writing in Chinese 3 s.h.
Essays in aspects of contemporary Chinese society to further understanding of Chinese society and to expand reading and writing skills. Taught in Chinese. Prerequisites: CHIN:2101.

CHIN:4203 Modern Chinese Writers 3 s.h.
Readings in modern and contemporary Chinese fiction; in English translation. Taught in English. Recommendations: sophomore or higher standing.

CHIN:4206 Chinese Cinema 3 s.h.
Films from Mainland China, Hong Kong, Taiwan, and Chinese diasporic communities, silent era to present; relationship of film to nation-state, cultural interflows, media technologies, ideologies. English subtitles. Recommendations: sophomore or higher standing.

CHIN:4300 Independent Study arr.
Research, reading, writing, and translation projects for undergraduate students. Prerequisites: CHIN:3102.

CHIN:5103 Readings in Chinese Society 3 s.h.
Academic texts relating to aspects of Chinese society to develop students' academic reading and writing skills. Requirements: CHIN:5102 for non-native Chinese student.

CHIN:5106 Individual Chinese for Advanced Students arr.
Research, translation projects. Prerequisites: CHIN:4104.

CHIN:5107 Advanced Classical Chinese 3 s.h.
Readings from classical texts of early China period. Prerequisites: CHIN:4102.

CHIN:5201 Seminar in Chinese Fiction 3 s.h.
Novels, novelettes; 16th to 18th centuries (Ming and Qing periods). Taught in English. Requirements: ability to read original texts.

CHIN:5202 Seminar in Chinese Literature arr.
Taught in English. Requirements: two years of modern Chinese and one year of classical Chinese.

English as a Second Language Courses

The following courses are for students whose first language is not English. Courses taken to meet the College of Liberal Arts and Sciences English proficiency requirement may not be taken pass/nonpass. English as a Second Language (ESL) courses may not be taken as satisfactory/unsatisfactory. In order to enroll in ESL courses, students must take the English

Proficiency Evaluation (EPE) or receive consent from the ESL office.

ESL:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

ESL:1005 ESL Special Topics 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings). Same as CLAS:1005.

ESL:1006 Independent Study in Academic Language and Skill Support 1 s.h.
Academic language skills and resources to achieve academic success including writing, effective reading strategies, vocabulary building, listening and note taking, speech fluency and clarity; exploration of study skills and strategies; cultural expectations in U.S. academic settings including academic integrity; culture shock; time management skills; techniques to stay motivated and manage stress; overcoming barriers to student success; assignments emphasize demonstration of language skill development and self-reflection. Requirements: completion of all ESL requirements.

ESL:4006 Individual English Language Support 1-4 s.h.
Foundational English language skills and resources to achieve academic success including writing, effective reading strategies, vocabulary building, listening and note-taking, speech fluency and clarity; exploration of study skills and strategies; cultural expectations in U.S. academic settings including academic integrity; culture shock; time management skills; techniques to stay motivated and manage stress; overcoming barriers to student success; assignments emphasize demonstration of language skill development and self-reflection.

ESL:4050 Focused Academic English Language Support 1 s.h.
Academic language skills and resources to achieve academic success; overcoming barriers to student success; assignments emphasize demonstration of language skill development and self-reflection.

ESL:4100 English as a Second Language: Academic Oral Skills 3 s.h.
Speaking skills for the U.S. academic setting and society; pronunciation, grammar, vocabulary; structured opportunity to develop fluency.

ESL:4130 English as a Second Language: Academic Listening Skills 3 s.h.
Development of listening skills for students whose first language is not English; focus on listening skills necessary for success in a U.S. academic setting; academic lectures, note-taking skills, fast-paced classroom discussions. Requirements: undergraduate standing.

ESL:4180 English as a Second Language: Academic Writing and Grammar for Undergraduates 4 s.h.
Exploration of iterative steps of drafting and revising academic writing; emphasis on the need to ultimately produce writings that communicate clearly and meet required standards; process oriented; students improve writing fluency (comprehensibility and cohesion) and their ability to select from a variety of appropriate grammatical functions (at word and clausal level) to produce a fluent and accurate result to succeed in all requirements of academic writing and communication.

ESL:4200 English as a Second Language: Academic Reading Skills 3 s.h.
Increasing reading speed and comprehension of university-level writing and vocabulary; exercises, discussion, and note-taking assignments to develop critical analysis skills.

ESL:6200 English as a Second Language: Academic Writing and Grammar for Graduates 3 s.h.
Students learn how to be confident, fluent, and independent writers, and become proficient with conventions and requirements of academic writing in their respective disciplines; selection of appropriate grammatical functions —at the word and clausal level—for success in academic communication.

French Courses

French courses numbered 4000–4999 are intended primarily for advanced undergraduates; graduate students should consult with their advisors before registering for these courses.

FREN:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

FREN:1001 Elementary French I 4 s.h.
Introduction to reading, writing, listening, and speaking; for students who have no knowledge of French. GE: World Languages First Level Proficiency.

FREN:1002 Elementary French II 4 s.h.
Continuation of FREN:1001; introduction to reading, writing, listening, and speaking. Prerequisites: FREN:1001 or French Placement score of 110 or higher. GE: World Languages Second Level Proficiency.

FREN:1005 Texts and Contexts: French-Speaking World 3 s.h.
Development of skills in reading, understanding, and critically engaging with literary texts, and of research skills for informed inquiry; sense of oneself as a situated reader; range of texts reflecting diversity of French and Francophone writers. Taught in English. GE: Interpretation of Literature.

FREN:1006 Global Sports and National Cultures 3 s.h.
Overview of the relationship between sports and national cultures in countries around the world; focus on how athletic competitions play a role in the formation of collective identities; includes the Olympic Games in ancient Greece, hockey in Canada, cycling in France, traditional wrestling in Senegal, cricket in England and India, and soccer in Europe, Africa, and Latin America. GE: International and Global Issues.

FREN:1007 Nature/Ecology French Philosophy and Fiction 3 s.h.
Representations of the natural world in literary works from 16th to 20th centuries and in film; readings in English translation. Taught in English. GE: Interpretation of Literature.

FREN:1009 Introduction to Language Learning 1 s.h.
Preparation for world language study at college level, including study and review strategies. Taught in English.

FREN:1010 First-Year French Review 5 s.h.
FREN:1001 and FREN:1002 combined in one intensive course. GE: World Languages Second Level Proficiency.

FREN:1040 French for Travelers 2 s.h.
Basic language skills for tourists wanting to increase their French language skills.

FREN:1500 Trip to Belgium, France, and Switzerland 3 s.h.
An imaginary trip across the French-speaking countries of Europe—Belgium, France, and Switzerland—focusing on the language, culture, and history of different cities and regions; taught in English. GE: World Language and Cultural Exploration.

FREN:1510 Cultural Misunderstandings: France and U.S.A. 3 s.h.
Key moments in the history of relations between the United States and France, from similarities underlying democratic principles to recent divergent worldviews. Taught in English. GE: International and Global Issues.

FREN:1600 French and Francophone Cultural Activities 1 s.h.
Credit for attendance and participation at French and Francophone cultural events, including scholarly talks, film screenings, art exhibits, literary readings, conversation hours, French Culture Club meetings, and volunteering as a translator for a medical clinic.

FREN:2001 Intermediate French I 4 s.h.
Prerequisites: FREN:1010 or FREN:1002 or French Placement score of 176 or higher. Requirements: completion of prerequisites or two years of high school French. GE: World Languages Third Level Proficiency.

FREN:2002 Intermediate French II 4 s.h.
Continuation of FREN:2001. Prerequisites: FREN:2001 or French Placement score of 231 or higher. Requirements: completion of prerequisites or three years of high school French. GE: World Languages Fourth Level Proficiency.

FREN:2010 Global Science Fiction 3 s.h.
Science fiction from around the world; spanning poetry, fiction, drama, film, television, comics, mobile phone games, and music; produced on six continents. Taught in English. GE: Understanding Cultural Perspectives. Same as ASIA:2001, RUSS:2001, TRNS:2001, WLLC:2001.

FREN:2473 Cinderella 3 s.h.
Comparative analysis of Cinderella stories from around the world including Asia, Europe, Africa, South America; readings, discussion, workshops, and writing; consideration of visual and material presentation of Cinderella stories in physical books. Taught in English. Same as TRNS:2473, WLLC:2473.

FREN:3000 Third-Year French 3 s.h.
Development of reading skills in French; composition and review of basic grammar structures. Prerequisites: FREN:2002 or French Placement score of 311 or higher.

FREN:3007 French Phonetics 3 s.h.
Introduction to French phonetics; sounds of French in isolation and in context to improve pronunciation; audio exercises that emphasize sounds (nasal vowels, [u]-[y] contrast) and prosodic features (intonation, syllabification, liaison). Requirements: FREN:2002 or French Placement score higher than 311.

FREN:3020 Oral Expression in French I 3 s.h.
First in a two-course sequence. Prerequisites: FREN:2002 or French Placement score of 311 or higher.

FREN:3060 Introduction to Reading and Writing in Literature 3 s.h.
Development of analytical, organizational skills for interpretation of literature; readings in prose, poetry, drama, criticism; emphasis on reading and essay writing. Prerequisites: FREN:2002 or French Placement score of 311 or higher.

FREN:3120 French Civilization 3 s.h.
Examination of what constitutes French culture and civilization from pre-Roman period to later 20th-century. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060.

FREN:3130 Francophone Cultures 3 s.h.
Study of cultures of the Caribbean, the Indian Ocean, the Maghreb, Sub-Saharan Africa, South Est Asia, Quebec, and Louisiana; approaches include literature, cinema, music, the arts, and media; introduction to field of Francophone studies and promotion of linguistic and cultural diversity. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060.

FREN:3160 Study Abroad: Culture 3 s.h.
Geography, history, architecture, painting, music of France; readings, slides, video and audio cassettes, visits to sites of cultural significance. Prerequisites: FREN:2002.

FREN:3232 French Literary Translation Workshop 3 s.h.
Workshop in literary translation from French to English; practical, ethical, and theoretical questions about translation; focus on specific complication of French-English language pair; mapping style, genre, and literary influences of French authors for purpose of translation. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060. Same as TRNS:3232.

FREN:3240 Media French 3 s.h.
Introduction to French press and media; students acquire knowledge related to media (e.g., newspapers, magazines, television, radio, social media); introduction to French national newspapers and television stations and their political and cultural orientations; students study articles obtained from different media to develop vocabulary and oral and written comprehension skills; study and discussion of current events in sports, politics, culture, society, and other fields. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060.

FREN:3250 Topics in French Studies I 3 s.h.
Requirements: prior or concurrent enrollment in FREN:3060.

FREN:3300 French Grammar 3 s.h.
Study of word forms, sentence patterns for more accurate use of French. Prerequisites: FREN:2002 or French Placement score of 311 or higher. Requirements: completion of prerequisites or four years of high school French.

FREN:3360 Study Abroad: Language 3 s.h.
Written and spoken French; listening, speaking, reading, writing in cultural contexts. Prerequisites: FREN:2002.

FREN:3410 Business French 3 s.h.
Language of economics and business; practice in business correspondence and communication, active use of business vocabulary. Offered fall semesters. Requirements: prior or concurrent enrollment in FREN:3060.

FREN:4007 Topics in French Linguistics 3 s.h.
Concepts to aid in understanding how the French language works; major areas of linguistics—pronunciation (phonetics and phonology), the structure of words (morphology), the structure of sentences (syntax) and meaning (semantics). Prerequisites: FREN:3300 and FREN:3060.

FREN:4015 Francophone Cinema 3-4 s.h.
Study of pioneering and contemporary Francophone fictional and documentary films from the Caribbean, the Indian Ocean, the Maghreb and Sub-Saharan Africa; cinematic vocabulary and critical concepts related to Francophone intellectual history to closely examine emergence and vibrancy of Francophone cinema, colonial, and postcolonial elements that characterize it, and ideological engagement of filmmakers; exploration of challenges and ground-breaking dynamics of distribution, funding, spectatorship, and free training in filmmaking in Dakar. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300.

FREN:4020 Oral Expression in French II 3 s.h.
Last in a two-course sequence. Prerequisites: FREN:3020 or FREN:3300 or FREN:3007.

FREN:4026 French Women Writers 3-4 s.h.
Survey of 20th- and 21st-century French women's literature; introduction to French feminist thought; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. option—FREN:3060 and FREN:3300. Same as GWSS:4026.

FREN:4070 Introduction to the Study of Meaning 3 s.h.
Introduction to the study of meanings and language use in context; meaning outside the literal semantic interpretation of words used including presuppositions and goals of speaker, expectation of listener, speech acts, conversational implicatures, deixis, discourse functions, and other relevant topics. Taught in English. Prerequisites: LING:3001. Same as LING:4070.

FREN:4080 Post-Colonial Literature in France 3 s.h.
Literatures and cultures of Arabo-French (Beur) and Afro-French immigrations. Taught in French. Prerequisites: FREN:3300 and FREN:3060.

FREN:4090 Quebec Literature 3 s.h.
Study of Quebec literature and culture, First Nations' literature and écriture migrante; films and mixed media art enhance analysis of texts, historical and political contexts, and critical understanding of national and linguistic identity and relation between Quebec society, First Nations, immigration, and diversity. Taught in French. Prerequisites: FREN:3300 and FREN:3060.

FREN:4100 French Cinema 3-4 s.h.
Introduction to history of French Cinema. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. GE: Literary, Visual, and Performing Arts.

FREN:4110 Francophone Studies: Literature and the Arts 3 s.h.
Study of literature, cultures, and visual arts of the Caribbean, the Indian Ocean, Sub-Saharan Africa, and the South Pacific; major theoretical paradigms in Francophone studies; variety of topics and interdisciplinary approaches. Taught in French. Prerequisites: FREN:3060 and FREN:3300.

FREN:4210 Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South 3-4 s.h.
Comparative study of museums, memorials, statues, performances, and artistic works that encapsulate the entangled history and memory of transoceanic slave trades and slavery in the United States, the Caribbean, the Indian Ocean, Sub-Saharan Africa, and Europe (France and the United Kingdom); critical tools to analyze public debates over politically charged monuments; exploration of transnational and political predicaments of the contemporary world; approaches include trauma theories, memory studies, history, postcolonial ecocriticism, cultural anthropology, heritage studies and museology, and Francophone cultural critique. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. Same as MUSM:4310, WLLC:4210.

FREN:4433 France Under Nazi Occupation, 1940-1944 3-4 s.h.
Political, economic, social, and cultural conditions that prevailed following the Nazi conquest of France in 1940; examination of this period of upheaval through work of prominent historians of France; representations of occupied France in literary works, documentary, and fictional films produced during the war and in the politically fraught culture of collective memorialization that formed in aftermath of this national trauma. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. Same as HIST:4433.

FREN:4520 Versailles Under the Sun King 3-4 s.h.
Survey of culture and literature related to the court of King Louis XIV at Versailles, France. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300.

FREN:4540 Gender and Sexuality in French Cinema 3-4 s.h.
Cultural, historical, and semiotic approach to studying constructions of gender identity and discourses on sexuality in French cinema from 1920s to present; optional discussion section taught in French. Taught in English. Requirements: for 4 s.h. option—prior enrollment in FREN:3060 and FREN:3300. Same as GWSS:4540.

FREN:4750 Topics in French Studies II 3 s.h.
French and/or Francophone literature or culture. Taught in French. Prerequisites: FREN:3060 and FREN:3300.

FREN:4911 French for Reading/Research 2 s.h.

FREN:4912 French for Reading/Research 2 s.h.

FREN:4990 Independent Study arr.
Prerequisites: FREN:3300 and FREN:3060.

FREN:4995 Honors Research and Thesis 3 s.h.
Prerequisites: FREN:3300 and FREN:3060.

FREN:5000 Teaching and Learning Languages 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Taught in English. Same as GRMN:5001, SLA:5000, SPAN:5000, WLLC:5000.

FREN:5001 Introduction to Graduate Study 2 s.h.
Expectations, resources, and opportunities of graduate study; introduction to coursework, development of preprofessional competencies. Taught in English.

FREN:5020 Comparative Stylistics 3 s.h.
Translation from English to French, and French to English, including literary texts. Taught in English.

FREN:6001 Reimagining Humanities Scholarship 0-1 s.h.
Students focus on rethinking humanities research by questioning traditional scholarly periodizations, developing an awareness of how scholarship can incorporate questions of diversity and inclusion, and exploring alternate career pathways; cross-disciplinary workshop.

FREN:6005 Colloquium: Teaching French 3 s.h.
Professional training to teach in elementary and intermediate French program; individualized mentoring and pedagogical guidance; for graduate student teaching assistants. Taught in English.

FREN:6015 The Renaissance in France 3 s.h.
Survey of literature from the French Renaissance. Taught in French.

FREN:6020 Studies in the Seventeenth Century 3 s.h.

FREN:6025 Studies in the Eighteenth Century 3 s.h.
Studies of French and/or Francophone literature and culture of the 18th century. Taught in French.

FREN:6080 Modern French Novel 3 s.h.
Taught in French.

FREN:6130 Francophone Thought 3 s.h.
Comparative study of intellectual, literary, cultural, social, and historical developments in the Caribbean, the Indian Ocean, the Maghreb, and Sub-Saharan Africa; approaches include cultural theory, literary criticism, cinema, visual arts, women's studies, memory and trauma studies, postcolonial ecologies, and cultural anthropology; examination of key conceptual paradigms and cultivation of skills in critical thinking methodologies; students acquire theoretical tools to explore an interdisciplinary scholarly field and learn to establish connections between the main components of the course and their own research interests. Taught in French. Same as GWSS:6130.

FREN:6750 Topics in French Studies 3 s.h.

FREN:6755 French Literature of the 20th/21st Centuries 3 s.h.
Advanced survey of French Literature 1900-present in areas of novel, theater, poetry, and essay. Taught in French.

FREN:7000 Thesis arr.

FREN:7990 Independent Study arr.

German Courses

GRMN:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first or second semester standing.

GRMN:1001 Elementary German I 4 s.h.
Understanding and speaking "everyday German"; reading and writing skills; acquaintance with the German-speaking world through discussion, readings, videos. GE: World Languages First Level Proficiency.

GRMN:1002 Elementary German II 4 s.h.
Continuation of GRMN:1001. Prerequisites: GRMN:1001 or German Placement score of 100 or higher. GE: World Languages Second Level Proficiency.

GRMN:1010 First-Year German Review 5 s.h.
Accelerated review in preparation for third-semester German. Requirements: previous study of German, typically one to two years of high-school German. GE: World Languages Second Level Proficiency.

GRMN:1200 Disabilities and Inclusion in Writing and Film Around the World 3 s.h.
Exploration of human experiences of dis/ability and exclusion/inclusion. Taught in English. GE: Understanding Cultural Perspectives. Same as DST:1200, GHS:1200, WLLC:1200.

GRMN:1500 German Cultural Activities 1 s.h.
Attendance and participation at events related to culture and history of German-speaking countries; reflection papers in English; includes scholarly talks, film screenings, art exhibits, literary readings, and music or theater performances; most events in English.

GRMN:1550 German Food, History, and Culture: Beyond Bier and Bratwurst 3 s.h.
This course provides a basic introduction to the language, history, and culture of German-speaking Europe through the study of food; topics include popular and well-known foods, regional dishes, food-focused celebrations, the history of food, and the importance of food in the history of German-speaking Europe; German food vocabulary, regional language and culture, the geography of German-speaking Europe, the influence of immigrant communities and diversity in the German-speaking countries, and the history of German-speaking immigrants in the Midwest will also be considered; taught in English, no knowledge of German is needed. GE: World Language and Cultural Exploration.

GRMN:1685 German Cultural History 3 s.h.
Overview of two thousand years of German cultural history, with an emphasis on well-known medieval architectural monuments and musical compositions from the 18th century onward. GE: World Language and Cultural Exploration.

GRMN:2001 Intermediate German I 4 s.h.
Proficiency in spoken and written German, German-speaking cultures of Europe; emphasis on speaking and reading skills. Taught in German. Prerequisites: GRMN:1002 or GRMN:1010 or German Placement score of 350 or higher. GE: World Languages Third Level Proficiency.

GRMN:2002 Intermediate German II 4 s.h.
Continuation of GRMN:2001; proficiency in spoken and written German; German-speaking cultures of Europe; emphasis on speaking and reading skills. Taught in German. Prerequisites: GRMN:2001 or German Placement score of 400 or higher. GE: World Languages Fourth Level Proficiency.

GRMN:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CLSA:2048, COMM:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248, WLLC:2248.

GRMN:2275 Scandinavian Crime Fiction 3 s.h.
Contemporary Scandinavian crime novel in its literary, historical, geographic, cultural, and social context. Taught in English. GE: Literary, Visual, and Performing Arts.

GRMN:2600 Witch Hunts in Fact and Fiction: A Global History of Exclusion 3-4 s.h.
Survey of the phenomenon of witchcraft and its persecution past and present; students read a historical study that sheds new light on the history of European witch hunts while demonstrating that witch hunts are not simply part of European past; how belief that certain people are able to cause harm by supernatural powers endures throughout the world today; discussion and analysis of exemplary works of fiction about witchcraft persecutions, mostly from German background. Taught in English. GE: Understanding Cultural Perspectives.

GRMN:2618 Film and Literature of the Holocaust 3-4 s.h.
European and American films (e.g., documentaries, feature films); literature of the Holocaust in English translation (e.g., survivor memoirs, testimony, poetry, philosophical essays, graphic novels). Taught in English. GE: Values and Society. Same as WLLC:2618.

GRMN:2620 Anne Frank and Her Story 3-4 s.h.
Analysis of the *Diary of Anne Frank,* its media adaptations, and related materials (e.g., fictionalizations, additional first-hand accounts); examination of Holocaust in the Netherlands, Belgium, and other countries outside Germany; anti-Semitism, discrimination, tolerance, resistance, identity formation, human aspiration and belief. Taught in English. GE: Understanding Cultural Perspectives. Same as WLLC:2620.

GRMN:2630 German Cinema: Greatest Hits 3-4 s.h.
Overview of German cinema; expressionist film of the Weimar Republic; Nazi cinema; post-war cinema; East German film; New German Cinema; post-unification and contemporary cinema. Taught in English. GE: Literary, Visual, and Performing Arts.

GRMN:2666 Pact With the Devil 3-4 s.h.
Pact with the devil has served as a metaphor for humankind's desire to surpass the limits of knowledge and power and engage with the forbidden; students explore a variety of works—mostly from German literature and culture—from early modern time to present, and critique different twists that fascination with the forbidden takes with regard to women. Taught in English. GE: Literary, Visual, and Performing Arts. Same as WLLC:2666.

GRMN:2675 The Politics of Memory: Holocaust, Genocide, and 9/11 3-4 s.h.
How contested legacies of genocide, global violent conflict, and 9/11 continue to pose an urgent and generationally mediated challenge for critical politics of memory; various approaches to effective or failed coming-to-terms with injurious and difficult past (e.g., Holocaust, Armenian genocide); analysis of museums, sites of memory, and artwork. Taught in English. GE: Understanding Cultural Perspectives. Same as MUSM:2675.

GRMN:2720 Germany in the World 3-4 s.h.
The Federal Republic of Germany's increasing prominence in post-Cold War international affairs against backdrop of 20th-century history; Germany's role in the European Union and the changing relationship between Europe and the United States. Taught in English. GE: International and Global Issues. Same as HIST:2420.

GRMN:2785 Cyborgs, Monsters, and the Uncanny 3-4 s.h.
Literature, film, and theory of the monstrous and uncanny from short stories (e.g., Kafka) to science fiction (e.g., *A Cyborg Manifesto*) and horror films (e.g., *Dracula*). Taught in English. GE: Literary, Visual, and Performing Arts.

GRMN:2949 Accountability, War Crimes, and Justice 3-4 s.h.
Introduction to current juridical and nonjuridical approaches to hold perpetrators (e.g., states, state actors, individuals) of war crimes accountable in international criminal and humanitarian law; students examine concepts such as universal jurisdiction, which has been successfully deployed in German courts, and corporate accountability through recent case studies. Taught in English. Same as WLLC:2949.

GRMN:3010 Stories in German 3 s.h.
Stories and other relatively short prose by representative authors; discussion and response; varied topics. Taught in German. Requirements: GRMN:2002 or equivalent transfer coursework or a placement test score at the GRMN:2002 level or higher.

GRMN:3103 Composition and Conversation I 3 s.h.
Improvement of overall language ability with particular emphasis in areas of speaking and writing; may include vocabulary-building activities and review of selected grammar topics. Taught in German. Requirements: GRMN:2002 or equivalent transfer coursework or a placement test score at the GRMN:2002 level or higher.

GRMN:3104 Composition and Conversation II 3 s.h.
Improvement of general language abilities with emphasis in areas of speaking, writing, and vocabulary; content drawn from newspapers, magazines, internet, television, recent films, and social media; students also have the opportunity to explore individual interests. Taught in German. Requirements: GRMN:2002 or equivalent transfer coursework or a placement test score at the GRMN:2002 level or higher.

GRMN:3195 German Linguistics Lab I 3 s.h.
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.

GRMN:3214 Business German 3 s.h.
World of German business, role of German-speaking countries in world trade; emphasis on professional communication and workplace culture. Taught in German. Requirements: GRMN:2002 or equivalent transfer coursework or a placement test score at the GRMN:2002 level or higher.

GRMN:3236 German Film 3 s.h.
Overview 1925-1987; examples of avant-garde films of the Weimar Republic, propagandist filmmaking from the Third Reich, filmmaking traditions of the German Democratic Republic (GDR) and the Federal Republic of Germany (FRG). Requirements: GRMN:2002 or equivalent transfer coursework or a placement test score at the GRMN:2002 level or higher.

GRMN:3405 German Cultural History 3 s.h.
Major historical persons, events, and places; art and architecture, music, and intellectual life; Middle Ages to 19th century; emphasis on mythical historical persons and places. Taught in German. Requirements: GRMN:2002 or equivalent transfer coursework or a placement test score at the GRMN:2002 level or higher.

GRMN:3501 German Writers Engaged 3 s.h.
Literary works from various genres. Taught in German. Requirements: GRMN:2002 or equivalent transfer coursework or a placement test score at the GRMN:2002 level or higher.

GRMN:3845 The Structure of German 3 s.h.
Structure analysis of German words and sentences; emphasis on vocabulary expansion and writing with increased grammatical accuracy and complexity. Taught in German. Requirements: GRMN:2002 or equivalent transfer coursework or a placement test score at the GRMN:2002 level or higher.

GRMN:3850 Twentieth- and Twenty-first-Century German Children's Literature 3 s.h.
Exploration of the concept of childhood within broader contexts of history and culture unique to Germany—what lessons are inherent in German children's literature and how has childhood developed accordingly, and what does it mean for a child to be a "reader;" evolution of child-rearing and gender roles over the decades; how Germany holds a solid corner of classic children's literature; examination of canonical texts and more recent child-centered contributions to Germany's literary scene; students connect with local elementary, middle, and/or high schools on a German project. Taught in German. Prerequisites: GRMN:3103 or GRMN:3104.

GRMN:3855 The Sounds of German 3 s.h.
Analysis of sounds and sound system of German; practice in listening and speaking. Taught in German. Requirements: GRMN:2002 or equivalent transfer coursework or a placement test score at the GRMN:2002 level or higher.

GRMN:3860 German Language and Society 3 s.h.
Introduction to sociolinguistics in context of German-speaking countries; major topics include German dialects, regional and social variation in contemporary German, minority and immigrant languages in German-speaking countries, language and national identity, multilingualism, educational policies related to language teaching and learning, linguistic purism, language use in digital contexts, and language change. Taught in German. Requirements: GRMN:2002 or equivalent transfer coursework or a placement test score at the GRMN:2002 level or higher. Same as LING:3860.

GRMN:4195 German Linguistics Lab II 3 s.h.
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.

GRMN:4315 German Society Today 3 s.h.
Government and political structure, economy, mass media, education, social and cultural life of Germany, Austria, and Switzerland from the end of World War II to present. Taught in German. Prerequisites: GRMN:3501 or GRMN:3103 or GRMN:3104.

GRMN:4800 Seminar in Comparative Literature 3 s.h.
Focus on comparative, interdisciplinary, theoretical, and/or inter-arts topic; topics vary; required for comparative literature major. Taught in English. Same as GWSS:4800, TRNS:4800, WLLC:4801.

GRMN:4900 Independent Study arr.
Independent work completed under the supervision of Department of German faculty members. Requirements: German major or minor.

GRMN:4910 Peer Tutoring in German arr.
Opportunities to participate in classroom and tutoring activities and engage with students in language learning; for advanced students.

GRMN:4920 Research in German Studies arr.
Supplemental research and writing for introductory German studies courses taught in English (GRMN:2500 through GRMN:2999).

GRMN:4990 Honors Research 3 s.h.
Students work with a Department of German faculty member to identify a topic for an honors thesis; research and preliminary writing. Requirements: three years of college-level German and GPA of at least 3.50 in German.

GRMN:4991 Honors Thesis 3 s.h.
Completion of honors thesis in consultation with a faculty mentor. Requirements: honors standing and GRMN:4990.

GRMN:4995 German Graduation Portfolio 0 s.h.
Completion of the Global Seal of Biliteracy and submission of a representative sample of past course assignments in German. To be completed in a student's final year of study.

GRMN:5000 German Reading for Graduate Students 3 s.h.
Grammar review, vocabulary building, extensive reading of sophisticated texts. Offered spring semesters. Prerequisites: GRMN:1002 or GRMN:1010. Requirements: non-German graduate standing.

GRMN:5001 Teaching and Learning Languages 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Taught in English. Same as FREN:5000, SLA:5000, SPAN:5000, WLLC:5000.

GRMN:7000 Advanced Studies arr.
Independent work completed under the supervision of Department of German faculty members. Requirements: German graduate standing.

International Studies Courses

IS:1000 Designing Your International Studies Major 1 s.h.
Importance of interdisciplinarity, global perspectives, and world language study for 21st-century liberal education; intentional planning of courses and other out-of-class experiences to prepare students for life and career after college.

IS:1101 Cultural Anthropology 3 s.h.
Comparative study of culture, social organization. GE: Social Sciences; Values and Society. Same as ANTH:1101.

IS:2000 Introduction to International Studies 3 s.h.
Introduction to the interdisciplinary field of international studies; globalization, colonialism, inequality, and global challenges. GE: International and Global Issues.

IS:2009 World Travel: Cross-Cultural Skills for International Business, Education, and Service 3 s.h.
Cross-cultural skills and ethics for international business, education, and service.

IS:2013 Issues in International Studies 1-3 s.h.
Modules focusing on varied topics, taught by international studies faculty members.

IS:2020 World Events Today! 3 s.h.
Current events that introduce students to political and cultural developments throughout the world. GE: Understanding Cultural Perspectives.

IS:2042 Intercultural Communication 3 s.h.
Culture defined as a system of taken-for-granted assumptions about the world that influence how people think and act; cultural differences that produce challenges and opportunities for understanding and communication; those differences from several theoretical perspectives; opportunities to examine culture and cultural differences in practical, experience-driven ways. Same as COMM:2042, SSW:2042.

IS:2115 Introduction to Human Rights 3 s.h.
Analysis and evaluation of the international human rights program; relationship between human rights and international law. Same as HRTS:2115.

IS:2151 Global Migration in the Contemporary World 3 s.h.
Examination of social, economic, and cultural dimensions of global migration in the contemporary world from a transnational and anthropological perspective; primary focus is on migration to the United States, but in comparison to other migration trajectories. Recommendations: an introductory course in cultural anthropology is useful, but not required. GE: Understanding Cultural Perspectives. Same as ANTH:2151, GWSS:2151.

IS:2190 Love Rules: Law and the Family Across Cultures 3 s.h.
Recent debates over legalizing gay marriage remind us that the law is not an abstract concept, it is a social creation that emphasizes certain cultural norms over others, both powerful and changeable; family law outlines what one cultural vision of relationships—those between lovers, parent and child, and between kin—supposedly should look like in a given society, a vision always marked by gendered, racial, and sexual divisions of power; students consider what happens when legal norms intersect with diverse ways that people make families through topics including marriage, divorce, custody, and surrogacy across the world. Same as ANTH:2190, GWSS:2190.

IS:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, LING:2248, TRNS:2248, WLLC:2248.

IS:2400 Global Citizenship and the College Student 3 s.h.
An interdisciplinary and highly interactive course that aims to spark discussion and new understandings of the complex and contested concept of “global citizenship,” with focus given to the lived experiences of and relevancies for college-aged students. GE: International and Global Issues.

IS:2500 Working Internationally 1 s.h.
Information on international job sectors; presentations by experts in the field; advice on what is required to work internationally.

IS:2560 Global Food Migrations 3 s.h.
Understanding how food influences and is influenced by social, political, and cultural factors. GE: International and Global Issues.

IS:2700 Introduction to Latin American Studies 3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Taught in English. GE: World Language and Cultural Exploration. Same as LAS:2700, PORT:2700, SPAN:2700.

IS:2902 The Arts and Human Rights 1-3 s.h.
Examination of emerging human rights issues in the arts from an interdisciplinary and international perspective. Same as HRTS:2902.

IS:2903 Technology and Human Rights 1-3 s.h.
Examination of emerging human rights issues in technology from an interdisciplinary and international perspective. Same as HRTS:2903.

IS:2907 Literature and Human Rights 1-3 s.h.
Examination in human rights in literature from an interdisciplinary and international perspective. Same as HRTS:2907.

IS:2908 Governance and Human Rights 1-3 s.h.
Examination of emerging human rights related to governance issues from an interdisciplinary and international perspective. Same as HRTS:2908.

IS:2909 Human Rights Lab 1-3 s.h.
Discussion-based examination of emerging human rights issues from an interdisciplinary and international perspective. Same as HRTS:2909.

IS:2955 Human Rights and Islam 3 s.h.
Exploration of social forces, legal regimes, and cultural norms that have shaped discourse on human rights in a global context with reliance on a systems thinking framework; examination of intersections of rights, culture, society, and law in the last 2,000 years; consideration of interplay between institutional (formal) and societal (informal) powers that shape human rights norms; origins and evolution of discourse on rights across cultures and throughout history. GE: International and Global Issues. Same as RELS:2955.

IS:3010 Writing and Research for the World 3 s.h.
How to research and write on international and global topics in various genres; preparation for a local or international project which addresses international issues in a systematic way. Requirements: junior or higher standing.

IS:3011 Global Research: Strategies and Skills 1 s.h.
Skill development in international research; academic projects; work with research librarian; activity-based introduction to article, statistical, and governmental databases; research and popular materials; information discovery process (tools and search strategies); enhancement of critical thinking skills. Same as GHS:3011, ULIB:3011.

IS:3012 Service Learning in International Studies 3 s.h.
Internationally focused service learning in local communities.

IS:3020 Writing Projects in International Studies 0-3 s.h.
Writing project completed with the supervision of an approved faculty mentor.

IS:3116 Media and Global Cultures 3 s.h.
Communication as a vital component for any effort to create social change; necessary communication to reach out to target audiences—people and communities in need—from campaigns persuading communities to change knowledge, attitudes, and practices to aiding other development efforts in areas of health, education, rural development, or sustainable agricultural practices; importance of communication as an integral part to any effort aimed at creating large-scale social change. Same as JMC:3116.

IS:3142 Media and Social Change 3 s.h.
Students explore the myriad ways that people and organizations use media (e.g., writing, video, social media) for civic engagement, activism, and political participation; drawing on a broad range of cases and issues, students examine historical and contemporary social movements and activism. Same as JMC:3142.

IS:3190 Global Debt 3 s.h.
Economies as cultural systems that emphasize the role of worldviews and "meaning-making" in organizing economies; debt as a key mechanism in creation and maintenance of relationships; focus on how exchange, distribution, and obligation serve to shore up or sever various social institutions and links between debt, inequality, and power; debt in various forms, from a round of drinks to student loans, and from the U.S. mortgage crisis to development aid; diverse array of economies—from gift exchange to ceremonial destruction of wealth, and from Melanesia to Wall Street—to evaluate assumptions that undergird different systems of debt and credit. Requirements: introductory course in anthropology or international studies or gender, women's, and sexuality studies. Same as ANTH:3190, SJUS:3190.

IS:3198 Understanding Health in an Unequal World: Anthropology and Global Health Policy 3 s.h.
Global health has grown as an area of practice and study, with well-being and livelihoods of increasing numbers of people now deeply influenced by these ideas, practices, and policies; students engage with ways that global health programs have influenced experiences of health and illness by those who participate in these programs, critically analyzing how global health interacts with local dynamics of inequality, race, gender, and power. Same as ANTH:3199, GHS:3199.

IS:3350 Transnational Feminism 3 s.h.
Exploration of feminist perspectives from the United States and outside of the United States; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions and populations. Same as ANTH:3125, GWSS:3350.

IS:3550 Special Topics in International Studies 1-3 s.h.
Special topics related to international studies.

IS:3555 Understanding Health and Disease in Africa 3 s.h.
Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as GHS:3555, HIST:3755.

IS:3904 Business, Labor, and Human Rights 1-3 s.h.
Examination of emerging human rights issues in labor and business from an interdisciplinary and international perspective. Same as HRTS:3904.

IS:3905 Topics in Human Rights 1-3 s.h.
Examination of emerging human rights issues from an interdisciplinary and international perspective. Same as HRTS:3905.

IS:3910 Approaches to Advocacy: From Theory to Practice 3 s.h.
Examine the application of advocacy models to the practice of human rights advocacy. Students explore real-life human rights and humanitarian advocacy initiatives, learn to apply a variety of advocacy models, and critically analyze challenges faced by practitioners working in the field of human rights advocacy. Same as HRTS:3910.

IS:3990 Independent Study in International Studies arr.
Research on a topic of international significance. Requirements: international studies major.

IS:4131 Globalization and Culture 3 s.h.
How context for everyday experience has increasingly become globally determined (e.g., ever-increasing transnational migration of people, spread of American culture, growth of international corporations and trade, rise of international conflict and transnational activism); range of theoretical and critical readings on globalization; various phenomena and perspectives regarding topic; themes directly relevant to lives of modern youth; how globalization affects opportunities and risks, identities and relationships. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899). Same as COMM:4131.

IS:4990 International Studies Senior Project 3 s.h.
Prerequisites: IS:3010. Requirements: international studies major.

IS:4991 Honors Thesis in International Studies 3 s.h.
Prerequisites: IS:3010. Requirements: international studies major.

Italian Courses

ITAL:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

ITAL:1030 Italian for Travelers 2 s.h.
Basic language skills for tourists; for students with no previous Italian.

ITAL:1050 Italy Live 3 s.h.
Introduction to Italian language and culture designed for students whose first contact with the language is in Italy; offered through Consortium of Universities for International Studies study abroad program (CUIS/CIMBA) in Paderno del Grappa, Italy.

ITAL:1101 Elementary Italian I 5 s.h.
Beginning instruction in Italian for students with no prior experience in speaking, reading, or understanding Italian. GE: World Languages First Level Proficiency.

ITAL:1102 Elementary Italian II 5 s.h.
Continuation of ITAL:1101; beginning instruction in speaking, reading, and understanding Italian. Prerequisites: ITAL:1101. GE: World Languages Second Level Proficiency.

ITAL:1103 Intensive Elementary Italian 4,6 s.h.
ITAL:1101 and ITAL:1102 combined in one semester; fundamentals of Italian language and culture including reading, writing, comprehension, and speaking skills. Requirements: two years of another world language. GE: World Languages Second Level Proficiency.

ITAL:2203 Intermediate Italian I 4 s.h.
Improvement of skills in writing, speaking, and comprehension beyond the level of elementary Italian. Prerequisites: ITAL:1102. GE: World Languages Third Level Proficiency.

ITAL:2204 Intermediate Italian II 4 s.h.
Improvement of skills in writing, speaking, and comprehension beyond the level of elementary Italian. Prerequisites: ITAL:2203. GE: World Languages Fourth Level Proficiency.

ITAL:2205 Exploring Italy: Culture, Society, and Communication 3 s.h.
Introduction to diverse aspects of Italian culture and society; examines Italy's position in the global context. Taught in English. GE: World Language and Cultural Exploration. GE: World Language and Cultural Exploration.

ITAL:2440 Italian Arts for International Success 3 s.h.
Exploration of Italy's centuries-old artistic tradition; students become familiar with some of the most important manifestations of Italian culture and reflect on how the arts have been informing business initiatives. Taught in English. GE: Literary, Visual, and Performing Arts.

ITAL:2550 Images of Modern Italy 3-4 s.h.
Survey of Italy's history since Unification; diverse aspects of modern Italian culture and society through visual and textural materials; optional discussion sections taught in Italian. Taught in English. Requirements: for students earning 4 s.h.—ITAL:2204. GE: Historical Perspectives; Values and Society.

ITAL:2660 The Italian American Experience 3 s.h.
Exploration of Italian American presence in the U.S. by investigating historical background, multifaceted reality, heritage, and contribution to national culture; examination of Italian American ethnicity as portrayed in American literature, film, and television through an interdisciplinary approach; analysis of how Italian American writers and filmmakers have represented their community and contributed to shape their own cultural identity. Taught in English. GE: Understanding Cultural Perspectives.

ITAL:2770 The Mafia and the Movies 3 s.h.
Exploration of the myth of the Mafia and mobsters and examination of its function through a selection of Italian films; students investigate the multifaceted nature of Italian organized crime, and consider its historical, geographical, social, and economical dimensions. Taught in English. GE: International and Global Issues.

ITAL:2880 Italian Food Culture 3 s.h.
Introduction to Italian food culture; students explore how Italian culinary tradition was born and evolved over time, often reflecting historical and economic developments in the country; the different geographical regions of Italy and how each region established its own food culture, while at the same time being part of a national food culture; how Italian food has become a defining element of Italianness in the world, with focus on the birth of Italian-American foodways. Taught in English. GE: Values and Society.

ITAL:2990 Independent Study arr.

ITAL:3305 Advanced Italian 3-4 s.h.
Improvement of skills in writing, speaking, and comprehension beyond the level of intermediate Italian; activities include class discussions, oral presentations, compositions, readings of modern texts, review and expansion of grammar. Prerequisites: ITAL:2204.

ITAL:3306 Advanced Italian II 3-4 s.h.
Improvement of skills in writing, speaking, and comprehension beyond the level of intermediate Italian; activities include class discussions, oral presentations, compositions, readings of modern texts, review and expansion of grammar. Prerequisites: ITAL:2204.

ITAL:4500 Undergraduate Capstone Project 1-3 s.h.
Culmination of undergraduate major in translation or minor in translation for global literacy; translation manuscript or scholarly/research thesis on topics relevant to scope of major or minor. Requirements: approval of the director of undergraduate studies for translation. Same as TRNS:4500.

ITAL:4550 Topics in Italian Studies 3 s.h.
Varied topics. Requirements: ITAL:2204.

ITAL:4633 Dante's Inferno 3-4 s.h.
A virtual poetic journey through Hell; critical reading of Dante's *Inferno*, the first volume of *The Divine Comedy*, and the many ways this text has been interpreted and reinterpreted; while primary focus is on Dante's work, other texts and media are introduced to enhance the reading. Taught in English; discussion sessions in Italian. Requirements: for Italian majors taking 4 s.h. option—ITAL:2204.

ITAL:4660 Transcultural Texts and Translations 3 s.h.
Exploration of transcultural texts and films that have contributed to reshape the Italian cultural landscape; analysis and discussion of topics including migration and diaspora, belonging and exclusion, memory and nostalgia, prejudices and other obstacles to integration, use of language as a means of rejection and connection, struggles of new generations, hybrid identities, and imagined transformations that foster constructive interactions between cultures, histories, and languages; reflection and engagement in the practice of translation as a way of honing linguistic and cultural competency. Taught in Italian. Recommendations: at least one course taught in Italian at the 2000 level or above. Same as TRNS:4660.

ITAL:4667 Modern Italian Fiction 3 s.h.
Survey of major developments in Italian fiction, from birth of the modern novel in the 19th century to present-day transcultural narratives. Taught in English and Italian. Requirements: ITAL:2204.

ITAL:4668 Modern Italian Poetry and Theater 3 s.h.
Survey of major developments in modern Italian poetry and theater in relation to historical and cultural context. Taught in Italian. Requirements: ITAL:2204.

ITAL:4990 Independent Study arr.

ITAL:4998 Honors Research and Thesis 3 s.h.

Japanese Courses

JPNS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

JPNS:1001 First-Year Japanese: First Semester 5 s.h.
Modern Japanese. Offered fall semesters. GE: World Languages First Level Proficiency.

JPNS:1002 First-Year Japanese: Second Semester 5 s.h.
Continuation of JPNS:1001. Offered spring semesters. Prerequisites: JPNS:1001. GE: World Languages Second Level Proficiency.

JPNS:1506 Ghostly Japan 3 s.h.
Introduction to premodern, modern, and contemporary Japanese culture; special attention given to the relationship of classical texts to contemporary novels, short stories, manga, anime, music, and film; students consider relationships of textual and visual cultures, high art and low art, moments of crisis and the everyday, the sacred and the profane, men and women. Taught in English. GE: Values and Society.

JPNS:2001 Second-Year Japanese: First Semester 5 s.h.
Continuation of JPNS:1002. Offered fall semesters. Prerequisites: JPNS:1002. GE: World Languages Third Level Proficiency.

JPNS:2002 Second-Year Japanese: Second Semester 5 s.h.
Continuation of JPNS:2001. Offered spring semesters. Prerequisites: JPNS:2001. GE: World Languages Fourth Level Proficiency.

JPNS:2010 Self-Paced Kanji for All Levels 2 s.h.
Supplements the kanji learning of students at any level who have completed JPNS:1001 and have no background in languages using Chinese characters. Students develop effective strategies and skills for learning kanji independently, with guidance tailored to individual progress. For those seeking extra instruction and practice with kanji to enhance their mastery and confidence. Ideal for students who want flexible, focused support in kanji acquisition. Prerequisites: JPNS:1001.

JPNS:2127 Books of the Silk Roads 3 s.h.
Manuscripts and global manuscript cultures from a comparative, interdisciplinary perspective; history of the book in the East and West; diverse material supports, physical formats, and written layouts of manuscripts of the 1st to 19th centuries, including social and cultural contexts; manuscript traditions of particular cultural spheres (Europe, the Middle East and North Africa, India, East Asia) and historical processes of diffusion, remediation, and obsolescence. Taught in English. GE: World Language and Cultural Exploration. Same as ASIA:2127, CLSA:2127.

JPNS:2250 Introduction to the Art of Japan 3 s.h.
Chronological survey of Japan's visual arts in their historical and cultural contexts from Neolithic age to present; extensive use of slides, films, other visual materials. Taught in English. Same as ARTH:2250.

JPNS:3001 Third-Year Japanese I 4 s.h.
Modern Japanese; focus on speaking, listening, reading, writing; materials related to everyday life and civilization in Japan. Offered fall semesters. Prerequisites: JPNS:2002 with a minimum grade of C.

JPNS:3002 Third-Year Japanese II 4 s.h.
Continuation of JPNS:3001. Offered spring semesters. Prerequisites: JPNS:3001 with a minimum grade of C.

JPNS:3107 Classical Japanese: First Semester 3 s.h.
Introduction to vocabulary, grammar, and calligraphic scripts of classical Japanese through readings of primary literary and historic sources; instruction in English, readings in classical and modern Japanese. Prerequisites: JPNS:3002.

JPNS:3128 Introduction to Japanese Linguistics 3 s.h.
Basic structural features of the Japanese language; topics include typological and historical background, writing system, phonetics, phonology, syntax, semantics, pragmatics, and language variation; recommended for students who wish to have a deeper understanding of the Japanese language as well as non-Indo-European languages. Taught in English. Prerequisites: JPNS:1002.

JPNS:3201 Workshop in Japanese Literary Translation 3 s.h.
Workshop in translation from Japanese to English, with emphasis on literary translation; issues in theory and practice of translation; special features of Japanese as a source language for translation. Taught in Japanese. Corequisites: JPNS:3001, if not taken as a prerequisite. Same as TRNS:3201.

JPNS:3202 Traditional Japanese Literature in Translation 3 s.h.
Japanese literature and culture from 7th to 19th centuries including tales, folklore, poetry, drama, and visual culture; topics vary and may address traditional literature through manga/anime, gaming and play, foodways, supernatural and the uncanny, animals and humans, nature and disaster, travel and landscape, gender and sexuality, and women's writing. Taught in English.

JPNS:3203 Modern Japanese Fiction in Translation 3 s.h.
Introduction to modern Japanese literature from 1868 to present; focus on representative short stories, novels, and manga; the twin advent of modern Japanese language and the modern novel; rise of autobiographical "I-novel"; Japanese *bundan* (literary establishment), high modernity, and *ero guro nansensu* (erotic grotesque nonsense); stories of the war and its endless postwar; the neo-traditional and the avant-garde; literature of economic collapse and internationalization. Taught in English.

JPNS:3204 Topics in Japanese Literature in Translation 1-3 s.h.
Topics vary. Taught in English.

JPNS:3205 Major Authors in Modern Japanese Literature 3 s.h.
Modern Japanese literary works in English translation; topics vary. Taught in English.

JPNS:3206 Warriors' Dreams 3 s.h.
Images of the warrior in traditional Japanese literature from ancient legendary heroes, medieval warrior monks, and ninja to the unifying generals, masterless samurai, and women revolutionaries of early modern Japan; students discover what is truth and what is fiction when encountering the warrior in popular culture today. Taught in English.

JPNS:3207 Japan Illuminated: Japanese Literature and Visual Culture 3 s.h.
How text and image have been used together to tell stories across 1,000 years of Japanese culture; students read and view illustrated handscrolls, calligraphy, maps, mandalas, early board games, woodblock prints, modern print media, manga and anime; emphasis on visual analysis and material culture. Taught in English.

JPNS:3208 Japanese Film 3 s.h.
History of Japanese cinema with particular attention paid to Japanese conventions and innovations that differ from classical Hollywood or European paradigms (*benshi* silent-film narrators, *jidaigeki* period films, wartime propaganda, postwar melodrama, avant-garde Japanese New Wave, rise of Japanese documentary, anime); screenings may include works by world famous directors (Mizoguchi, Ozu, Kurosawa) and recent masters (Nishikawa Miwa, Koreeda Hirokazu, Mitani Koki). Taught in English.

JPNS:3210 Japanese Theater 3 s.h.
Major forms of Japanese theater and performance including No and kyogen, the bunraku puppet theater, kabuki, shingeki "Western" theater, benshi film narration, butoh modern dance, counterculture and street theater of the 1960s, Japanese musicals; focus on textual analysis and performance practices; weekly screenings of theatrical performances and student-led staged readings of contemporary performances. Taught in English.

JPNS:3401 Language in Japanese Society 3 s.h.
Aspects of the Japanese language that reflect culture, social structures of Japan; communication styles and strategies, cross-cultural communication, language in media, metaphors. Prerequisites: JPNS:1002.

JPNS:3402 Japan: Culture and Communication 3 s.h.
How Japanese-speaking people communicate; what factors determine the way they speak; how they communicate nonverbally; how people convey messages and emotions in various social settings. Taught in English. Prerequisites: JPNS:1002.

JPNS:3500 Japanese for Professional Purposes 3 s.h.
Introduction to essential linguistic skills and practical knowledge needed to effectively communicate in Japanese in various professional contexts and in socially appropriate manners; recommended for anyone interested in working in Japan or using Japanese at work. Prerequisites: JPNS:2002 with a minimum grade of B-. Corequisites: JPNS:3001.

JPNS:3601 Contemporary Japanese Culture 3 s.h.
Japanese media and culture including manga (comics), anime (animation), films, video games, television drama, fashion, music, sports, food, and contemporary art in the 20th and 21st centuries; students explore aspects of Japanese society relating to youth and otaku cultures, technology and humanity, gender and sexuality, power and violence, obscenity and censorship, beauty and fashion, and global consumption of and participation in Japanese pop culture. Taught in English.

JPNS:3700 Topics in Global Cinema 3 s.h.
Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Taught in English. Same as ASIA:3700, TRNS:3700, WLLC:3700.

JPNS:4001 Fourth-Year Japanese I 3 s.h.
Modern Japanese; focus on reading, writing, speaking, listening. Offered fall semesters. Prerequisites: JPNS:3002 with a minimum grade of C.

JPNS:4002 Fourth-Year Japanese II 3 s.h.
Continuation of JPNS:4001. Offered spring semesters. Prerequisites: JPNS:4001 with a minimum grade of C.

JPNS:4201 Genji Lab 3 s.h.
Hands-on examination of traditional Japanese culture through Murasaki Shikibu's classic, *Tale of Genji*; students discover art, literature, and material culture described in the *Tale of Genji* through lab-based experimentation with brush and ink, pigments, papermaking and decoration, incense blending, textile matching, music, etc. Taught in English.

JPNS:5301 Japanese Linguistics 3 s.h.
Japanese language as linguistic system; basic linguistic terminology; sound systems, grammar, meanings, usages.

JPNS:5902 Individual Japanese for Advanced Students arr.

JPNS:7101 Readings in Modern Japanese 3 s.h.
Readings in modern Japanese.

Korean Courses

KORE:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

KORE:1101 First-Year Korean: First Semester 4 s.h.
Modern Korean; speaking, listening, reading, writing. Offered fall semesters. GE: World Languages First Level Proficiency.

KORE:1102 First-Year Korean: Second Semester 4 s.h.
Continuation of KORE:1101. Offered spring semesters. Prerequisites: KORE:1101. GE: World Languages Second Level Proficiency.

KORE:1135 Cultural Fusion: Korean Pop Culture in a Globalized World 3 s.h.
Explores the general characteristics of Korean culture, language differences between North and South Korea, gender and generational disparities, and the use of English and other languages in Korea. Part of the BTAA Korean e-school program; taught in English.

KORE:1670 Korea in the World 3 s.h.
Comprehensive and critical understanding of Korea's place in the world; emphasis on historical and sociocultural roots of various aspects of life on the contemporary Korean peninsula (both North and South Korea); comprehensive list of topics including cultural production (K-pop and film), religions, economy, gender relations, cuisine, politics, and prospects for reunification. Taught in English. Same as ASIA:1670, RELS:1670.

KORE:2101 Second-Year Korean: First Semester 4 s.h.
Continuation of KORE:1102; conversation and readings in intermediate Korean language; Korean culture. Prerequisites: KORE:1102. GE: World Languages Third Level Proficiency.

KORE:2102 Second-Year Korean: Second Semester 4 s.h.
Continuation of KORE:2101. Prerequisites: KORE:2101. GE: World Languages Fourth Level Proficiency.

KORE:3070 Topics in Korean Studies 3 s.h.
Varied topics in Korean studies.

KORE:3100 Introduction to Korean Linguistics 3 s.h.
Introduction to various topics in Korean linguistics including sentence structures, sound patterns, word formation, discourse structures, and historical background of Korean language. Taught in English. Recommendations: two years of Korean language study. Same as LING:3101.

KORE:3101 Third-Year Korean: First Semester 3 s.h.
Continuation of KORE:2102; advanced intermediate Korean—conversation and grammar skills beyond basic intermediate level; vocabulary expansion with increasingly complex, abstract concepts; how to advance one's opinion and discuss thoughts, ideas. Requirements: KORE:2102 with a minimum grade of C-.

KORE:3102 Third-Year Korean: Second Semester 3 s.h.
Continuation of KORE:3101; conversation and grammar skills beyond basic intermediate level; writing skills for formal occasions; advanced discussion skills—how to advance one's opinion and share thoughts and ideas; traditional and modern Korean culture. Requirements: KORE:3101 with a minimum grade of C-.

KORE:3200 Introduction to Korean-English Translation 3 s.h.
Opportunity to develop skills and methods in translating texts from Korean into English; students practice reading and translating various types of Korean texts (e.g., novels, cartoons, movie/drama subtitles, newspaper articles) based on the foundation learned in Korean language courses; students analyze translated works before translation and discussion of how to approach translating various genres depending on targeted audiences, purposes, and circumstances. Taught in English and Korean. Prerequisites: KORE:1102 with a minimum grade of C.

KORE:4000 Fourth Year Korean: First Semester 3 s.h.
Continuation of KORE:3102; development of intermediate high to advanced-level Korean; enlarging vocabulary, exploring Korean sentence structures, reading various types of texts, listening to authentic Korean materials; Korean society and culture; content-based learning methodology. Requirements: KORE:3102 with a minimum grade of C-.

KORE:4001 Fourth Year Korean: Second Semester 3 s.h.
Continuation of KORE:4000; development of intermediate high- to advanced-level Korean speaking ability; enlarging vocabulary, exploring Korean sentence structures, reading various types of texts, and listening to authentic Korean materials; Korean society and culture; materials provided to prepare for Korean standardized tests; content-based learning methodology. Requirements: KORE:4000 with a minimum grade of C-.

KORE:5102 Individual Korean for Advanced Students arr.
Korea's modern/traditional culture, history, and current social issues; reading, translating authentic articles. Prerequisites: KORE:3102.

Linguistics

LING:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

LING:1003 English Grammar 3 s.h.
Recognizing nouns, verbs, adverbs, adjectives, and other parts of speech; sentence analysis; subjects, objects; types of sentences; passives, relative clauses; for students with little or no background in English grammar study. Does not count toward the linguistics major. Same as WRIT:1003.

LING:1010 Language and Society 3 s.h.
Correlations between social and linguistic behavior; methods for discovering and describing socially significant language behavior; educational and political implications of findings. GE: Social Sciences.

LING:1040 Language Rights 3 s.h.
Language minorities and linguistic human rights in the United States and worldwide; language and identity, culture, power; case studies of language rights deprivation. GE: International and Global Issues. Same as ANTH:1040.

LING:1050 Language and Formal Reasoning 3 s.h.
Semantics and sentence structure of English; word meanings, meaning connected to truth conditions, reasoning based on logical connectives and quantifiers, evaluation of valid and invalid arguments. GE: Quantitative or Formal Reasoning.

LING:1060 Languages of the World 3 s.h.
Overview of structural similarities and differences in human language; survey of the world's major language families; emphasis on sentence and word structure, sound systems, and modes of classification. GE: Social Sciences.

LING:1070 Language Attitudes: Is How You Sound How You Are Seen? 3 s.h.
Pretend that you are making a phone call to ask about ordering a textbook and the person who answers is a stranger to you; you will immediately start to form opinions about that person (and about any other talkers you interact with) based upon the way they speak—where they are from, whether they are a native speaker of English, and even how well educated they are—and whether you are aware or not, these opinions and impressions you have will influence your interaction with that person and are based in language ideologies that all people have regarding how others sound; students explore common language ideologies and reflect upon their own. Taught in English. GE: Understanding Cultural Perspectives. Same as SPAN:1070.

LING:1075 World Englishes 3 s.h.
Explore the diversity of Englishes within the United States and around the world; consider language contact, language change, language mixing, dialects, accents, and various Englishes with a focus on the geographic, cultural, and political forces that have driven this linguistic diversity; develop an understanding of linguistic concepts and principles that apply to all human language. GE: World Language and Cultural Exploration.

LING:1080 Communicating Across Linguistic Differences 3 s.h.
Encourages students to view successful communication as a shared responsibility. Students from a variety of backgrounds explore their attitudes toward linguistic differences, build awareness of phonology and language acquisition, gain familiarity with diverse Englishes, and practice intercultural communication strategies. Taught in English. GE: World Language and Cultural Exploration.

LING:1090 Language and Globalization 3 s.h.
The effects of globalization on language use and structure; the future of linguistic diversity; applying concepts of sustainability to language endangerment and language revival. GE: International and Global Issues.

LING:2010 Research Practicum arr.
Individual participation in faculty research projects.

LING:2090 Special Project arr.

LING:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, TRNS:2248, WLLC:2248.

LING:2900 Language and Gender 3 s.h.
Gender-related language variation; current research on gender-specific linguistic forms and usage in the United States and other language communities; introduction to relevant principles of linguistic theory and analysis. GE: Values and Society.

LING:3001 Introduction to Linguistics 3 s.h.
Introduction to the study of human language: sounds and their contrasts and variation, words and meaningful subunits, sentence structure, historical change.

LING:3005 Articulatory and Acoustic Phonetics 3 s.h.
Production and transcription of sounds in human languages; physics of sound, computer analysis of speech sounds. Offered fall semesters. Same as SLA:3400.

LING:3010 Syntactic Analysis 3 s.h.
Introduction to sentence structures and basic abstract relations that characterize them, including word category, word order, hierarchical organization; problem sets from English and other languages as basis for discussion, analysis. Offered spring semesters. Prerequisites: LING:3001.

LING:3020 Phonological Analysis 3 s.h.
Introduction to analysis of sound systems; generative phonological theory; practice in phonological analysis using data from a variety of languages. Offered spring semesters. Prerequisites: LING:3001 and LING:3005.

LING:3030 Child Language-Linguistic Perspectives 3 s.h.
Linguistic theory as applied to first-language learning, including acquisition of sounds, syntax and word meaning, acquisition strategies, properties of input, theories of first-language acquisition. Prerequisites: LING:3001.

LING:3040 Topics in Linguistics 3 s.h.
Varied topics in linguistics; for undergraduates. Requirements: LING:3001 or LING:3020 or LING:3080 or LING:5020.

LING:3080 History of the English Language 3 s.h.
Development of phonological and grammatical structure of English, from Old to Modern English; selected issues in the history of England. Same as WRIT:3080.

LING:3101 Introduction to Korean Linguistics 3 s.h.
Introduction to various topics in Korean linguistics including sentence structures, sound patterns, word formation, discourse structures, and historical background of Korean language. Taught in English. Recommendations: two years of Korean language study. Same as KORE:3100.

LING:3105 Linguistic Aspects of the Lusophone World 3-4 s.h.
Introduction to Portuguese incorporating formal (theoretical), historical, and sociolinguistic perspectives; linguistic analysis of phonetics/phonology, morphology, and syntax; origins of Portuguese and its expansion to Africa, Asia, and Latin America. Taught in English. Same as PORT:3105, SPAN:3105.

LING:3116 Basic Neuroscience for Speech and Hearing 3 s.h.
Basic anatomy, physiology of central nervous system; emphasis on neural systems involved in normal and disordered communication. Offered fall semesters. Requirements: biology, zoology, or physiology course. Same as CSD:3116.

LING:3117 Psychology of Language 3 s.h.
Introduction to scientific study of language use; language approached from a multidisciplinary perspective, integrating theories and methods of psycholinguistics, neuropsychology, and communication sciences and disorders. GE: Social Sciences. Same as CSD:3117.

LING:3118 Language Acquisition 1-3 s.h.
Models of children's language acquisition; child language/communication development from infancy through school age, in context of current developmental research. Requirements: for CSD:3118—LING:3001 and PSY:1001; for LING:3118—LING:3001 or LING:3117. GE: Social Sciences. Same as CSD:3118.

LING:3190 Psycholinguistic Aspects of Bilingualism 3-4 s.h.
Interaction of two languages in a bilingual in terms of sound system, words, and grammar; different meanings of bilingualism, how bilingualism and multilingualism can change across lifespan. Taught in English. Requirements: linguistics or language acquisition course. Same as PSY:3190.

LING:3195 Linguistics Lab I 1-3 s.h.
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.

LING:3290 Statistical and Experimental Methods in Linguistics 3 s.h.
Introduction to basic experimental design; critical analysis of scientific claims; overview of common methods in experimental linguistics; introduction to statistics with emphasis on common data types in linguistics. Prerequisites: (LING:3010 or LING:5010) and (LING:3020 or LING:5020). Requirements: advanced standing in linguistics program and completion of core courses in syntax and phonetics/phonology at undergraduate or graduate level.

LING:3302 Introduction to Chinese Linguistics 3 s.h.
Aspects of modern Chinese linguistics, such as Chinese phonology, syntax, pedagogical grammar, history of the language. Taught in English. Same as CHIN:3302, SLA:3302.

LING:3410 Exploring TESL for Fulbright Students 1 s.h.
Introduction to second language acquisition, structure of English, and methods of teaching English to speakers of other languages; opportunities to observe theory in action; students read and discuss articles, observe a variety of teachers and skills, and reflect on their experiences and how they can prepare for future teaching assignments during the Fulbright experience. Taught in English. Requirements: application to Fulbright program. Recommendations: prior or concurrent enrollment in LING:3001.

LING:3670 Language Processes 3 s.h.
Psychological processes involved in using languages, including speech perception and production, the meaning of words, understanding and producing sentences, and basics of discourse and pragmatics; developmental and neural bases of language processes. Prerequisites: (PSY:2811 with a minimum grade of C- and PSY:2601 with a minimum grade of C-) or CSD:1015 or LING:3001. Same as PSY:3670.

LING:3860 German Language and Society 3 s.h.
Introduction to sociolinguistics in context of German-speaking countries; major topics include German dialects, regional and social variation in contemporary German, minority and immigrant languages in German-speaking countries, language and national identity, multilingualism, educational policies related to language teaching and learning, linguistic purism, language use in digital contexts, and language change. Taught in German. Requirements: GRMN:2002 or equivalent transfer coursework or a placement test score at the GRMN:2002 level or higher. Same as GRMN:3860.

LING:4010 Undergraduate Practicum in Teaching English as a Second Language 3 s.h.
Practicum experience for undergraduate linguistics majors with an emphasis in teaching English as a second language (TESL); readings and reflection on academic writing, international student writing, and providing feedback on written work; training in the policies and procedures of the Department of Rhetoric's Writing Center; mentored experience in working with international student writers. Prerequisites: LING:3005 and LING:4040. Corequisites: LING:4050. Requirements: undergraduate major in linguistics with TESL emphasis, and minimum cumulative UI GPA of 3.33.

LING:4020 Morphology 3 s.h.
Lexicon and principles of word formation; principal processes of inflection, derivation, and compounding found in the world's languages; relation to phonology, syntax; practice in morphological analysis from a variety of languages. Prerequisites: LING:3001.

LING:4040 The Structure of English 3 s.h.
Descriptive analysis of English, including word and sentence structure; focus on relevance to teaching English as a second language. Offered fall semesters. Prerequisites: LING:3001.

LING:4050 Methods of Teaching English as a Second Language 3 s.h.
Observations of ESL classes at the University of Iowa; design and presentation of short lessons, text evaluation, demonstrations of innovative approaches of the last decade; materials. Offered spring semesters. Prerequisites: LING:3005 and LING:4040.

LING:4070 Introduction to the Study of Meaning 3 s.h.
Introduction to the study of meanings and language use in context; meaning outside the literal semantic interpretation of words used including presuppositions and goals of speaker, expectation of listener, speech acts, conversational implicatures, deixis, discourse functions, and other relevant topics. Taught in English. Prerequisites: LING:3001. Same as FREN:4070.

LING:4090 Practical Phonetics 3 s.h.
Contemporary articulatory and acoustic research, including second-language acquisition, elicitation and computer analysis of primary linguistic data. Prerequisites: LING:3005.

LING:4195 Linguistics Lab II 1-3 s.h.
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.

LING:4291 Statistical and Experimental Methods in Linguistics I 3 s.h.
Introduction to basic experimental design; critical analysis of scientific claims; overview of common methods in experimental linguistics; research preparation and follow-up. Prerequisites: LING:3010 or LING:3020. Requirements: advanced standing in undergraduate linguistics program or graduate standing in linguistics. Same as CSD:4291.

LING:4292 Statistical and Experimental Methods in Linguistics II 3 s.h.
Introduction to statistics with emphasis on common data types in linguistics; coding in R. Prerequisites: LING:4291. Same as CSD:4292.

LING:4589 Philosophy of Language 3 s.h.
Main issues in contemporary philosophy of language; topics may include theories of meaning, truth, belief, interpretation, translation, speech acts, performatives, rule following, reference, naming, propositional attitudes, metaphor. Same as PHIL:4589.

LING:4900 Honors: Research and Thesis arr.
Guided independent research to earn departmental honors. Prerequisites: LING:3001 and LING:3005. Corequisites: LING:3010 and LING:3020. Requirements: permission from departmental honors advisor.

LING:5000 Proseminar: Morphosyntax 1 s.h.
Basic morphological analysis of languages other than English; morphological markers of syntactic relations (morphosyntax), such as case/agreement, possession, switch reference and other inflectional marking. Corequisites: LING:5010.

LING:5010 Introduction to Syntax 3 s.h.
Methods and argumentation for formal analysis of sentence structure through induction from language data of central concepts and relations; hypothesis testing, empirical bases of theoretical concepts. Corequisites: LING:5000. Same as SLA:5010.

LING:5020 Introduction to Phonology 3 s.h.
Analysis of sound systems, focus on early generative phonological theory; extensive practice in analysis using data from a variety of languages; linguistic argumentation. Prerequisites: LING:3005.

LING:5030 First Language Acquisition 3 s.h.
Child language from a crosslinguistic perspective. Prerequisites: LING:3005 and (LING:4040 or LING:5010).

LING:5050 Principles of Language Creation: Introduction to Constructed Languages 3 s.h.
Introduction to language construction (conlanging) with consideration to the task of building a language from a number of different perspectives—structure, evolution, development, typology, and social function; students apply these ideas, with their knowledge of existing languages and historical, social, and grammatical processes they display, to construct their own languages. Requirements: graduate standing or completion of linguistics upper-level undergraduate coursework.

LING:5070 Practicum in Teaching English as a Second Language 2-3 s.h.
Introduction to assessment design and practice for English as a second language (ESL) classrooms; practical experience in teaching English as a second language through observation and participation in ESL classes; design and teaching of ESL classes under supervision. Prerequisites: LING:4050.

LING:5090 Special Projects arr.
Theoretical and applied topics.

LING:6010 Syntactic Theory 3 s.h.
Current syntactic theory examined through analysis of data sets, readings in recent research; emphasis on argument construction, statement of formal principles. Offered spring semesters. Prerequisites: LING:5010.

LING:6020 Phonological Theory 3 s.h.
Post-SPE phonological theory, including autosegmental phonology, feature geometry, the syllable, optimality theory. Prerequisites: LING:5020. Same as SLA:6011.

LING:6040 Linguistic Structures 3 s.h.
Grammatical and/or phonological structure of a selected language or language family. Prerequisites: LING:5010 and LING:5020.

LING:6050 Language Universals Linguistic Typology 3 s.h.
Proposed universal principles of linguistic structure; approaches to typological classification of languages; patterns in syntactic and morphological structure and constraints on cross-linguistic variation. Prerequisites: LING:6010.

LING:6080 Topics in Second Language Acquisition 3 s.h.
Overview of current second-language acquisition research in the generative linguistic framework; focus on characterizing second language learners' linguistic competence and how it is constrained by principles of universal grammar. Offered fall semesters. Prerequisites: (LING:3010 or LING:5010) and (LING:3020 or LING:5020).

LING:6101 Cognitive Science of Language Proseminar I 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6101, PSY:6101.

LING:6102 Cognitive Science of Language Proseminar II 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6102, PSY:6102.

LING:6190 Topics in Comparative Romance Linguistics 3 s.h.
Comparative study of phonology, morphology, or syntax of the main Romance languages as informed by linguistic theory; diachronic or synchronic perspective. Taught in English. Recommendations: additional graduate coursework in linguistics. Same as SPAN:6190.

LING:6483 Multilingual Education and Applied Linguistics 3 s.h.
Introduction to research in language teaching and learning; theories and research in applied linguistics, sociolinguistics, anthropology, and psychology; fundamentals of second language acquisition, educational linguistics, applied linguistics, and methods used in teaching and learning second/foreign languages; consideration of applications and implications of research when reviewing multilingual education policy and practice.

LING:6486 Sociolinguistics in Education 3 s.h.
Investigate how social, cultural, and political forces influence language use in communities and classrooms. Topics include language contact, language ideology, dialectology and African American language, discourse analysis, communicative competence, language socialization, and language policy and planning. Specific cases from around the world are considered including interrogation of how minoritized languages and their speakers are marginalized in schools and communities. Same as EDTL:6486.

LING:6900 Master's Thesis arr.

LING:7000 Seminar: Spanish Linguistics 3 s.h.
Taught in Spanish. Same as SPAN:7000.

LING:7010 Advanced Syntactic Theory 2-3 s.h.
Recent developments in syntax; comparison of theories, argumentation, and uses of data. Prerequisites: LING:6010.

LING:7040 Topics in Linguistic Theory 2-3 s.h.
Varied topics in linguistic theory; for graduate students.

LING:7090 Seminar: Problems in Linguistics 2-3 s.h.
Intensive study of theoretical and practical problems.

LING:7100 Special Projects arr.

LING:7900 PhD Thesis arr.

R-W Courses

- Russian Courses [p. 679]
- Second Language Acquisition Courses [p. 681]
- South Asian Studies Courses [p. 681]

Russian Courses

RUSS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

RUSS:1082 Youth Subcultures After Socialism 3 s.h.
Examination of youth subculture (i.e., distinct style and identity, beliefs, value system, fashion and favorite music) on the territory of post-communist Europe and its relations with the mainstream culture; how young people of Russia express their individuality after years of dullness and monotony. GE: Values and Society.

RUSS:1111 First-Year Russian I 5 s.h.
Basic language skills of listening, speaking, reading, and writing Russian; fundamentals of Russian grammar. GE: World Languages First Level Proficiency.

RUSS:1112 First-Year Russian II 5 s.h.
Continuation of RUSS:1111. Requirements: RUSS:1111. GE: World Languages Second Level Proficiency.

RUSS:1131 Introduction to Russian Culture 3 s.h.
Development of cultural history in Russia during the Romanov period (1613-1917); painting, music, architecture, and literature viewed against their political, historical, and social settings. Taught in English. GE: Values and Society. Same as WLLC:1131.

RUSS:1132 Russia Today 3 s.h.
Contemporary Russia, with focus on prevailing social, political, economic, ethnic, environmental conditions; attention to historical evolution of problems, current factors; what these factors might portend for the future. Taught in English. GE: International and Global Issues.

RUSS:1200 Growing Up Russian: A Cultural History of Russian Childhood 3 s.h.
Introduction to Russian language and culture through the lens of children's literature, film, music, and games. Examines how childhood culture shapes the Russian mindset and national identity, considering parallels and contrasts between Russian and American (or other native) childhood experiences. Study the creators of cultural works and explore the historical and political contexts that influenced their production. Taught in English.

RUSS:1531 Slavic Folklore 3 s.h.
Introduction to culture, history, and art of eastern European peoples; pagan, dualistic, and animistic beliefs and their coexistence with Christian faith in eastern Europe. GE: Historical Perspectives; Values and Society.

RUSS:1532 Traces of Ancient Russian Culture (IX-XVII Centuries): Vikings, Mongols, and Tsars 3 s.h.
Early and medieval Slavic history, with focus on Russian art, literature, and religion from 10th through 17th century. Taught in English. GE: Historical Perspectives; Values and Society.

RUSS:2001 Global Science Fiction 3 s.h.
Science fiction from around the world; spanning poetry, fiction, drama, film, television, comics, mobile phone games, and music; produced on six continents. Taught in English. GE: Understanding Cultural Perspectives. Same as ASIA:2001, FREN:2010, TRNS:2001, WLLC:2001.

RUSS:2050 Women From an Unknown Land: The Fight for Independence 3 s.h.
Exploration of past and current issues related to the Caucasus—a mountainous region located where Europe, the Middle East, and Asia meet—forming a geographical and cultural crossroad; topics include those related to women's rights, causes of poverty and ethnic conflicts, and foreign policy including terrorism in the region, the fight for freedom, and the struggle over natural resources. Taught in English. GE: International and Global Issues. Same as WLLC:2050.

RUSS:2100 Russian Mindset: Sex, Business, and Politics 3 s.h.
Deeper insight of Russian mentality through philosophical, historical, cultural, and practical developments that have shaped Russian behavior and thought. GE: Values and Society.

RUSS:2110 Russian Sports: Politics, Scandal, Glory 3 s.h.
Overview of Russian sports from its beginnings in Slavic tribes through the importance of sports as a political tool during Soviet time to the scandals and glory of modern days; focus on the strong cultural background and rigorous traditions that form the powerhouse known as Russian sports; includes Russian sport celebrities of past and present. Taught in English. GE: Historical Perspectives.

RUSS:2111 Second-Year Russian I 4 s.h.
Transition to upper-level study through oral practice, grammar exercises, tapes, videos, readings from the Russian press. Requirements: RUSS:1112. GE: World Languages Third Level Proficiency.

RUSS:2112 Second-Year Russian II 4 s.h.
Continuation of RUSS:2111. Requirements: RUSS:2111. GE: World Languages Fourth Level Proficiency.

RUSS:3111 Third-Year Russian I 4 s.h.
Advanced Russian grammar, reading, conversation, and written skills through oral reports, compositions, conversation. Requirements: RUSS:2112.

RUSS:3112 Third-Year Russian II 4 s.h.
Advanced Russian grammar, reading, conversation, and written skills through oral reports, compositions, conversation. Requirements: RUSS:3111.

RUSS:3113 Russian Composition and Conversation 4 s.h.
Russian oral and aural skills developed through idiomatic usage, stylistics, phonetics, intonation, grammar review; supplemented by short stories, newspaper texts. Taught in Russian. Requirements: RUSS:1112.

RUSS:3122 Tolstoy and Dostoevsky 3-4 s.h.
Tolstoy's War and Peace and Anna Karenina; Dostoevsky's Crime and Punishment, Brothers Karamazov, and short works. Taught in English. Same as TRNS:3122, WLLC:3122.

RUSS:3202 Russian Literature in Translation 1860-1917 3 s.h.
Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (*Fathers and Sons*), Tolstoy (*Confession*), Dostoevsky (*The Idiot*, *The Brothers Karamazov*), and Chekhov (plays). Taught in English. Same as HIST:3492, TRNS:3203, WLLC:3202.

RUSS:3205 Contemporary Russian Prose in Translation 3 s.h.
Examines Russian literature in the post-Soviet era. Engage in close readings of contemporary texts, exploring their cultural, historical, and political contexts. Taught in English.

RUSS:3224 Russian Culture Through Cinema 3 s.h.
Introduction to Russian by exploring classic and contemporary Russian films to help develop a deeper understanding of Russian language and culture, while also building intercultural competencies and engaging with different perspectives. Taught in English.

RUSS:3494 The Russian Revolutions and Their Legacies 3 s.h.
The Russian Revolutions of 1905 and 1917 unquestionably changed the fabric of Russian political and social life, transforming Russia from an autocratic imperial power to the first self-proclaimed socialist federation in Europe; students explore sources, nature, and consequences of the revolutions by intensively analyzing politics, society, and culture in late imperial and Bolshevik Russia; students review events and revolutionary movements of late 19th century, changes in political practices extending from late tsarist period, and development of Leninist and Stalinist ideology after the revolutions. Same as HIST:3494.

RUSS:3990 Special Readings arr.
Russian-language materials determined by student and instructor. Requirements: 16 s.h. of Russian language instruction.

RUSS:4111 Fourth-Year Russian I 4 s.h.
Perfecting spoken Russian and aural comprehension of native speech. Taught in Russian. Requirements: RUSS:3112 or three years of college-level Russian.

RUSS:4112 Fourth-Year Russian II 4 s.h.
Perfecting spoken Russian and aural comprehension of native speech. Taught in Russian. Requirements: RUSS:4111 or three years of college-level Russian.

RUSS:4990 Independent Research arr.
Directed study.

RUSS:4995 Honors arr.
Honors project with a faculty member.

Second Language Acquisition Courses

SLA:3302 Introduction to Chinese Linguistics 3 s.h.
Aspects of modern Chinese linguistics, such as Chinese phonology, syntax, pedagogical grammar, history of the language. Taught in English. Same as CHIN:3302, LING:3302.

SLA:3400 Articulatory and Acoustic Phonetics 3 s.h.
Production and transcription of sounds in human languages; physics of sound, computer analysis of speech sounds. Offered fall semesters. Same as LING:3005.

SLA:4300 Introduction to Spanish Syntax 3 s.h.
Basic principles of generative syntax as applied to analysis of Spanish syntactic structure; extensive syntactic analysis. Taught in Spanish. Prerequisites: SPAN:3100. Same as SPAN:4150.

SLA:5000 Teaching and Learning Languages 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Taught in English. Same as FREN:5000, GRMN:5001, SPAN:5000, WLLC:5000.

SLA:5010 Introduction to Syntax 3 s.h.
Methods and argumentation for formal analysis of sentence structure through induction from language data of central concepts and relations; hypothesis testing, empirical bases of theoretical concepts. Corequisites: LING:5000. Same as LING:5010.

SLA:6011 Phonological Theory 3 s.h.
Post-SPE phonological theory, including autosegmental phonology, feature geometry, the syllable, optimality theory. Prerequisites: LING:5020. Same as LING:6020.

SLA:6506 Multilingual Education and Applied Linguistics 3 s.h.
Introduction to research in language teaching and learning, drawing on theories and research in applied linguistics, sociolinguistics, anthropology, and psychology; students gain understanding of fundamentals in second language acquisition, educational linguistics, applied linguistics, and methods used in teaching and learning second/foreign languages; applications and implications of research considered when reviewing multilingual education policy and practice. Same as ASIA:6483, EDTL:6483.

South Asian Studies Courses

SOAS:1502 Asian Humanities: India 3 s.h.
Introduction to 4,000 years of South Asian civilization through popular stories. Taught in English. GE: Values and Society. Same as ASIA:1502, RELS:1502.

SOAS:4103 Individual Hindi arr.
Readings in medieval and modern Hindi.

SOAS:4802 South Asian Research Seminar arr.
Faculty and student research.

Swahili Courses

SWAH:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

SWAH:1001 Elementary Swahili I 4 s.h.
Development of basic Swahili conversations; introduction to Kiswahili culture, grammar, and vocabulary necessary for communication; asking and responding to simple and short questions. GE: World Languages First Level Proficiency.

SWAH:1002 Elementary Swahili II 4 s.h.
Builds on fundamentals of Kiswahili learned in SWAH:1002; students increase their proficiency in the language; introduction to Swahili language and culture through reading and listening to Swahili authentic materials. Requirements: SWAH:1001. GE: World Languages Second Level Proficiency.

SWAH:1010 Introduction to Swahili Language and Culture 2 s.h.
Introduction to Swahili language, history, and culture for anyone who would like to learn more about East Africa, Swahili language, and culture; multidisciplinary sources include texts, newspapers, booklets, films, music videos, pictures, handouts, websites, and a taste of Swahili cuisine; provides a bird's eye view of East African culture; previous knowledge of Swahili not required.

SWAH:2001 Intermediate Swahili I 4 s.h.
Development of language skills and intercultural understanding; use simple conversation for everyday life topics, language use for daily basis needs using familiar topics, maintain conversation on simple and relevant topics, and exchange information about subjects of interest; students compare discussions and conversations to their own experiences, read literary texts and biographies, and watch video clips, movies, and documentaries to compare and relate the culture to their own backgrounds. Requirements: SWAH:1002. GE: World Languages Third Level Proficiency.

SWAH:2002 Intermediate Swahili II 4 s.h.
Continuation of SWAH:2001; students increase competence in speaking the language and cultural understanding; general Swahili grammar and cultural studies; using the language to talk about job careers, lifestyles, basic rules/policies, complicated situations, purchasing and negotiating prices; development of communicative skills and intercultural understanding by reading a wide variety of texts and types. Requirements: SWAH:2001. GE: World Languages Fourth Level Proficiency.

SWAH:2100 Exploring East African Languages and Cultures 3 s.h.
Introduction to the rich and diverse languages and cultures of East Africa. GE: World Language and Cultural Exploration. GE: World Language and Cultural Exploration.

SWAH:3006 Conversational Swahili 3 s.h.
Extensive practice in production and comprehension of spoken Swahili; students read and interpret simple texts, and write sentences and/or paragraphs about various topics; use of online resources to develop topics of discussion; students improve their Swahili grammar and vocabulary skills through conversations and discussions. Requirements: SWAH:1001 or prior background with Swahili.

SWAH:3007 Advanced Swahili 3 s.h.
Advanced speaking, listening, reading, and writing skills. Requirements: grade of D+ or higher in SWAH:2002.

SWAH:4090 Swahili Independent Study 1-3 s.h.
Material not covered in regularly offered courses; independent study guided by an instructor.

Teaching Assistant Preparation in English Courses

The Teaching Assistant Preparation in English (TAPE) program is designed for prospective teaching assistants whose first language is not English and who need additional work on English communication skills. Entry to the program is determined by a test.

TAPE:5100 Pronunciation, Fluency Building, and Culture 0 s.h.
Attain greater fluency for teaching by making short presentations and participating in natural interactions about U.S. culture; intensive work on pronunciation to help future teaching assistants attain maximum intelligibility.

TAPE:5300 TA Preparation in English: Presentation Skills 0 s.h.
Intelligibility of speech and clarity of expression in presenting and responding; practice in videotaped lectures.

TAPE:5330 TA Preparation in English: Orientation 0 s.h.
Student expectations, typical teacher/student relationships, basic classroom management at the university.

Translation Courses

TRNS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

TRNS:1240 World Literature in Translation I 3 s.h.
Reading and analysis of major literary texts from writing's origins to 1700 in the Mediterranean, Asia, and Africa; interrelationship of literature and history. Taught in English. GE: Literary, Visual, and Performing Arts. Same as CLSA:1040.

TRNS:1241 World Literature: 1700 to Present 3 s.h.
Reading and analysis of major literary texts from 18th century to present in chronological sequence; emphasis on interrelationship of literature and history. Requirements: completion of GE CLAS Core Rhetoric. GE: Literary, Visual, and Performing Arts.

TRNS:2000 Translation and Global Society 3 s.h.
Contexts and functions of translation in the age of globalization; how translations are produced, received, and utilized in various contexts; effects of globalization on ethics, aesthetics, and politics of translation; how we understand cultures when they are received or transmitted through translation; effects of these exchanges on the English language. GE: Understanding Cultural Perspectives.

TRNS:2001 Global Science Fiction 3 s.h.
Science fiction from around the world; spanning poetry, fiction, drama, film, television, comics, mobile phone games, and music; produced on six continents. Taught in English. GE: Understanding Cultural Perspectives. Same as ASIA:2001, FREN:2010, RUSS:2001, WLLC:2001.

TRNS:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, LING:2248, WLLC:2248.

TRNS:2473 Cinderella 3 s.h.
Comparative analysis of Cinderella stories from around the world including Asia, Europe, Africa, South America; readings, discussion, workshops, and writing; consideration of visual and material presentation of Cinderella stories in physical books. Taught in English. Same as FREN:2473, WLLC:2473.

TRNS:2578 Translation in the Humanities: Modes and Approaches 3 s.h.
Introduction to translation in several humanistic modes including anthropology, linguistics, film, philosophy, poetry, fiction, comics, memoir, history, religion, the digital humanities, sign languages (including ASL), and the retranslation of classic works. Students learn to view translation approaches as tools for their own life-long linguistic and cultural exploration. No language background or prior exposure to translation required. GE: World Language and Cultural Exploration.

TRNS:3001 Reading for Translation: Text Analysis 3 s.h.
Required skills and vocabulary to identify and discuss elements of literary texts; formal and genre distinctions, historical and theoretical approaches to analyzing literature, and comparative methods.

TRNS:3122 Tolstoy and Dostoevsky 3-4 s.h.
Tolstoy's War and Peace and Anna Karenina; Dostoevsky's Crime and Punishment, Brothers Karamazov, and short works. Taught in English. Same as RUSS:3122, WLLC:3122.

TRNS:3179 Undergraduate Translation Workshop 3 s.h.
Translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Same as CLSA:3979, ENGL:3850.

TRNS:3191 International Literature Today 1,3 s.h.
Same as ENGL:3595, IWP:3191, WLLC:3191.

TRNS:3201 Workshop in Japanese Literary Translation 3 s.h.
Workshop in translation from Japanese to English, with emphasis on literary translation; issues in theory and practice of translation; special features of Japanese as a source language for translation. Taught in Japanese. Corequisites: JPNS:3001, if not taken as a prerequisite. Same as JPNS:3201.

TRNS:3202 Workshop in Chinese Literary Translation 3 s.h.
Translation from Chinese to English with emphasis on literary translation; issues in theory and practice of translation; special features of Chinese as a source language for translation. Prerequisites: CHIN:3102. Same as CHIN:3201.

TRNS:3203 Russian Literature in Translation 1860-1917 3 s.h.
Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (*Fathers and Sons*), Tolstoy (*Confession*), Dostoevsky (*The Idiot*, *The Brothers Karamazov*), and Chekhov (plays). Taught in English. Same as HIST:3492, RUSS:3202, WLLC:3202.

TRNS:3205 Literary Translation Workshop in Ancient Greek and Latin 3 s.h.
Translation from Greek/Latin to English with emphasis on literary translation; issues in theory and practice of translation in the discipline; special features of ancient languages as a source language for translation. Taught in English. Same as CLSG:3200, CLSL:3200.

TRNS:3208 Classical Chinese Literature Through Translation 3 s.h.
Reading of English translations of classical Chinese literature; discussion of special features of classical Chinese as a source language for translation; issues in translation practice and theory with focus on trends in translation of Classical Chinese literary works to English. Taught in English. Recommendations: completion of required ESL courses. Same as ASIA:3208, WLLC:3208.

TRNS:3232 French Literary Translation Workshop 3 s.h.
Workshop in literary translation from French to English; practical, ethical, and theoretical questions about translation; focus on specific complication of French-English language pair; mapping style, genre, and literary influences of French authors for purpose of translation. Taught in French. Requirements: prior or concurrent enrollment in FREN:3060. Same as FREN:3232.

TRNS:3491 Translation Internship 1-3 s.h.
Translation internship. Requirements: permission of the program coordinator of the undergraduate minor in translation for global literacy in consultation with the student's advisor.

TRNS:3498 Internship/Community Engagement arr.
Internship with the Translate Iowa Project. Taught in English. Requirements: TRNS:2000 or TRNS:3179 or TRNS:3202 or ENGL:3724 or JPNS:3201 or SPAN:3030 or SPAN:3050 or SPAN:4980. Same as ARAB:3498.

TRNS:3700 Topics in Global Cinema 3 s.h.
Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Taught in English. Same as ASIA:3700, JPNS:3700, WLLC:3700.

TRNS:4040 Topics in Translation 3-4 s.h.
Examination of special issues related to craft, context, and practice of translation.

TRNS:4050 Independent Study 1-3 s.h.
Focused study on topic of student's choosing under direction of faculty member. Requirements: permission of the student's academic advisor or the program coordinator of the undergraduate minor in translation for global literacy.

TRNS:4131 Critical Reading 3 s.h.
Analysis of different types of texts—theoretical, cultural, political, philosophical, literary, poetic—and exploration of varying ways to frame and read them. Same as WLLC:4131.

TRNS:4470 Translating Style 3 s.h.
How do translators carry style over from one language and cultural milieu to another? To what extent does style structure storytelling? Exploration of these questions through a variety of readings by modern and contemporary stylists who either write in English or translate into English; special attention to what stylistic devices are at work and what their implications are for narration, characterization, and world building.

TRNS:4480 Literature and Translation 3 s.h.
Translation in the broadest sense; originality, authority, authorship, accuracy, ownership, audience; issues problematizing differences between medium and message.

TRNS:4500 Undergraduate Capstone Project 1-3 s.h.
Culmination of undergraduate major in translation or minor in translation for global literacy; translation manuscript or scholarly/research thesis on topics relevant to scope of major or minor. Requirements: approval of the director of undergraduate studies for translation. Same as ITAL:4500.

TRNS:4660 Transcultural Texts and Translations 3 s.h.
Exploration of transcultural texts and films that have contributed to reshape the Italian cultural landscape; analysis and discussion of topics including migration and diaspora, belonging and exclusion, memory and nostalgia, prejudices and other obstacles to integration, use of language as a means of rejection and connection, struggles of new generations, hybrid identities, and imagined transformations that foster constructive interactions between cultures, histories, and languages; reflection and engagement in the practice of translation as a way of honing linguistic and cultural competency. Taught in Italian. Recommendations: at least one course taught in Italian at the 2000 level or above. Same as ITAL:4660.

TRNS:4800 Seminar in Comparative Literature 3 s.h.
Focus on comparative, interdisciplinary, theoretical, and/or inter-arts topic; topics vary; required for comparative literature major. Taught in English. Same as GRMN:4800, GWSS:4800, WLLC:4801.

TRNS:5210 International Translation Workshop 1,3 s.h.
International writers pair with University of Iowa translators to write new works of poetry and fiction in English; second-language fluency not required for international writers. Same as IWP:5205.

TRNS:5491 Translation Internship arr.

TRNS:5500 Advanced Translation Practice 1-3 s.h.
Substantial translation project guided by a faculty advisor; readings and assignments designed to help translator with particular tasks and challenges presented by the project; translation and critical/reflective writing. Prerequisites: TRNS:6459 and TRNS:7460. Requirements: advanced-level translator in literary translation MFA program.

TRNS:5999 Publishing, Prizes, and Prestige 3 s.h.
Introduction to contemporary world literature and its producers, circulation, and gatekeepers; students award the annual Translator's Choice Award for a literary translation published in the previous calendar year. Taught in English.

TRNS:6000 The Craft and Contexts of Translation 1,3 s.h.
Focus on craft and contexts of translation practice; provides students with information and experience regarding the profession and practice of translation; readings, reflective writing, and participation at guest events that focus on topics and practices relevant to the craft and professional contexts of translation.

TRNS:6050 Independent Study arr.

TRNS:6399 Writing About Translation 3 s.h.
Hands-on, skills-building seminar on the forms of commentary about translation, such as review essays, interviews, video/audio podcasts, craft critique, prefaces, and critical studies; readings will include exemplary texts and method studies. Corequisites: TRNS:6000.

TRNS:6400 Thesis arr.
Translation thesis with critical introduction.

TRNS:6444 Thesis Workshop 3 s.h.
Intensive multi-language workshop; focus on MFA thesis manuscript and critical paratext; translations from various languages into English. Prerequisites: TRNS:7460. Requirements: second-year standing in MFA literary translation.

TRNS:6459 Issues in Translation 3 s.h.
Contemporary and historical theories.

TRNS:6555 Translator-in-Residence Workshop 3 s.h.
Translation workshop facilitated by the translator-in-residence; focus on review and revision of student manuscripts; readings on technique and theories, translation practice, and manuscript review.

TRNS:7460 Translation Workshop 3 s.h.
Requirements: at least one world language. Same as IWP:7460.

World Languages, Literatures, and Cultures

WLLC:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

WLLC:1016 Classical Chinese Short Fiction 1 s.h.
Reading and discussion of classical Chinese short fiction in English translation. Taught in English. Recommendations: completion of required ESL courses. Same as ASIA:1016.

WLLC:1131 Introduction to Russian Culture 3 s.h.
Development of cultural history in Russia during the Romanov period (1613-1917); painting, music, architecture, and literature viewed against their political, historical, and social settings. Taught in English. GE: Values and Society. Same as RUSS:1131.

WLLC:1200 Disabilities and Inclusion in Writing and Film Around the World 3 s.h.
Exploration of human experiences of dis/ability and exclusion/inclusion. Taught in English. GE: Understanding Cultural Perspectives. Same as DST:1200, GHS:1200, GRMN:1200.

WLLC:1510 Ghost Stories and Tales of the Weird in Premodern Chinese Literature 3 s.h.
Reading of Chinese literature concerning ghosts, marvels, and supernatural from the first millennium B.C.E. through the 1800s; readings analyzed against changing historical and religious contexts. Taught in English. Recommendations: completion of all required ESL courses. GE: Interpretation of Literature. Same as ASIA:1510.

WLLC:1777 Language Work in the Age of AI: The Products and the Poetry 3 s.h.
Artificial intelligence tools now draft legal contracts in Mandarin, subtitle K-dramas in Arabic, and help poets rethink meter, yet every act of translation—human or machine—rests on interpretation, not mythical one-to-one equivalence; students explore that paradox while learning to deploy AI responsibly across world languages.

WLLC:2001 Global Science Fiction 3 s.h.
Science fiction from around the world; spanning poetry, fiction, drama, film, television, comics, mobile phone games, and music; produced on six continents. Taught in English. GE: Understanding Cultural Perspectives. Same as ASIA:2001, FREN:2010, RUSS:2001, TRNS:2001.

WLLC:2006 Transnational Solidarities 3-4 s.h.
Examination of connections forged by intellectuals, activists, and political thinkers in struggles against systems of colonialism, imperialism, capitalism, and state violence throughout the 20th century; opportunities to make connection with other struggles against racism, supremacy, patriarchy, and domination; optional discussion section taught in Arabic. Taught in English. Requirements: for 4 s.h. option—ARAB:1002. Same as ARAB:2006, SJUS:2006.

WLLC:2050 Women From an Unknown Land: The Fight for Independence 3 s.h.
Exploration of past and current issues related to the Caucasus—a mountainous region located where Europe, the Middle East, and Asia meet—forming a geographical and cultural crossroad; topics include those related to women's rights, causes of poverty and ethnic conflicts, and foreign policy including terrorism in the region, the fight for freedom, and the struggle over natural resources. Taught in English. GE: International and Global Issues. Same as RUSS:2050.

WLLC:2222 Women in Premodern East Asian Literature 3 s.h.
Reading of East Asian literature portraying women from the first millennium B.C.E. through the 1800s; discussion of issues related to representations of women and conventional social, familial roles in premodern China, Korea, and Japan; cross-cultural comparison of different perceptions and portrayals of women in premodern East Asian literary traditions. Taught in English. Recommendations: completion of all ESL courses. GE: Understanding Cultural Perspectives. Same as ASIA:2222, GWSS:2222.

WLLC:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Taught in English. Same as ANTH:2248, ASIA:2248, CLSA:2048, COMM:2248, GRMN:2248, HIST:2148, IS:2248, LING:2248, TRNS:2248.

WLLC:2473 Cinderella 3 s.h.
Comparative analysis of Cinderella stories from around the world including Asia, Europe, Africa, South America; readings, discussion, workshops, and writing; consideration of visual and material presentation of Cinderella stories in physical books. Taught in English. Same as FREN:2473, TRNS:2473.

WLLC:2618 Film and Literature of the Holocaust 3-4 s.h.
European and American films (e.g., documentaries, feature films); literature of the Holocaust in English translation (e.g., survivor memoirs, testimony, poetry, philosophical essays, graphic novels). Taught in English. GE: Values and Society. Same as GRMN:2618.

WLLC:2620 Anne Frank and Her Story 3-4 s.h.
Analysis of the *Diary of Anne Frank,* its media adaptations, and related materials (e.g., fictionalizations, additional first-hand accounts); examination of Holocaust in the Netherlands, Belgium, and other countries outside Germany; anti-Semitism, discrimination, tolerance, resistance, identity formation, human aspiration and belief. Taught in English. GE: Understanding Cultural Perspectives. Same as GRMN:2620.

WLLC:2666 Pact With the Devil 3-4 s.h.
Pact with the devil has served as a metaphor for humankind's desire to surpass the limits of knowledge and power and engage with the forbidden; students explore a variety of works—mostly from German literature and culture—from early modern time to present, and critique different twists that fascination with the forbidden takes with regard to women. Taught in English. GE: Literary, Visual, and Performing Arts. Same as GRMN:2666.

WLLC:2949 Accountability, War Crimes, and Justice 3-4 s.h.
Introduction to current juridical and nonjuridical approaches to hold perpetrators (e.g., states, state actors, individuals) of war crimes accountable in international criminal and humanitarian law; students examine concepts such as universal jurisdiction, which has been successfully deployed in German courts, and corporate accountability through recent case studies. Taught in English. Same as GRMN:2949.

WLLC:3000 Big Ten Academic Alliance CourseShare: Lower-Level Language 0-5 s.h.
Opportunity for students from universities across the Big Ten to participate in language courses together; part of the Big Ten Academic Alliance (BTAA) CourseShare program; not an elementary/intermediate language sequence.

WLLC:3001 Big Ten Academic Alliance CourseShare: Elementary I 1-6 s.h.
Opportunity for students from universities across the Big Ten to participate in courses together; part of the Big Ten Academic Alliance (BTAA) CourseShare program; first in a language sequence.

WLLC:3002 Big Ten Academic Alliance CourseShare: Elementary II 1-6 s.h.
Opportunity for students from universities across the Big Ten to participate in courses together; part of the Big Ten Academic Alliance (BTAA) CourseShare program; second in a language sequence. Requirements: WLLC:3001 or equivalent language background.

WLLC:3003 Big Ten Academic Alliance CourseShare: Intermediate I 1-6 s.h.
Opportunity for students from universities across the Big Ten to participate in courses together; part of the Big Ten Academic Alliance (BTAA) CourseShare program; third in a language sequence. Requirements: WLLC:3002 or equivalent language background.

WLLC:3004 Big Ten Academic Alliance CourseShare: Intermediate II 1-6 s.h.
Opportunity for students from universities across the Big Ten to participate in courses together; part of the Big Ten Academic Alliance (BTAA) CourseShare program; fourth in a language sequence. Requirements: WLLC:3003 or equivalent language background.

WLLC:3005 Big Ten Academic Alliance CourseShare: Upper-Level Language 1-6 s.h.
Opportunity for students from universities across the Big Ten to participate in language courses together; part of the Big Ten Academic Alliance (BTAA) CourseShare program. Requirements: WLLC:3004 or equivalent language background.

WLLC:3105 Contraception Across Time and Cultures 3 s.h.
Methods and history of contraception; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as CLSA:3105, GHS:3105, GWSS:3105.

WLLC:3122 Tolstoy and Dostoevsky 3-4 s.h.
Tolstoy's War and Peace and Anna Karenina; Dostoevsky's Crime and Punishment, Brothers Karamazov, and short works. Taught in English. Same as RUSS:3122, TRNS:3122.

WLLC:3185 Global Women's Cinema 3 s.h.
Introduction to contemporary women's cinema and feminist filmmaking from around the world; emphasis on post-1968 period and cinema produced outside the United States. Same as GWSS:3185.

WLLC:3191 International Literature Today 1,3 s.h.
Same as ENGL:3595, IWP:3191, TRNS:3191.

WLLC:3202 Russian Literature in Translation 1860-1917 3 s.h.
Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (*Fathers and Sons*), Tolstoy (*Confession*), Dostoevsky (*The Idiot*, *The Brothers Karamazov*), and Chekhov (plays). Taught in English. Same as HIST:3492, RUSS:3202, TRNS:3203.

WLLC:3208 Classical Chinese Literature Through Translation 3 s.h.
Reading of English translations of classical Chinese literature; discussion of special features of classical Chinese as a source language for translation; issues in translation practice and theory with focus on trends in translation of Classical Chinese literary works to English. Taught in English. Recommendations: completion of required ESL courses. Same as ASIA:3208, TRNS:3208.

WLLC:3700 Topics in Global Cinema 3 s.h.
Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Taught in English. Same as ASIA:3700, JPNS:3700, TRNS:3700.

WLLC:3991 Cultural Studies Conference 1 s.h.
Attendance and participation in a conference of importance to world and cultural studies; discussion of preparatory readings in weekly meetings.

WLLC:4131 Critical Reading 3 s.h.
Analysis of different types of texts—theoretical, cultural, political, philosophical, literary, poetic—and exploration of varying ways to frame and read them. Same as TRNS:4131.

WLLC:4210 Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South 3-4 s.h.
Comparative study of museums, memorials, statues, performances, and artistic works that encapsulate the entangled history and memory of transoceanic slave trades and slavery in the United States, the Caribbean, the Indian Ocean, Sub-Saharan Africa, and Europe (France and the United Kingdom); critical tools to analyze public debates over politically charged monuments; exploration of transnational and political predicaments of the contemporary world; approaches include trauma theories, memory studies, history, postcolonial ecocriticism, cultural anthropology, heritage studies and museology, and Francophone cultural critique. Taught in English. Requirements: for 4 s.h. option —prior enrollment in FREN:3060 and FREN:3300. Same as FREN:4210, MUSM:4310.

WLLC:4801 Seminar in Comparative Literature 3 s.h.
Focus on comparative, interdisciplinary, theoretical, and/or inter-arts topic; topics vary; required for comparative literature major. Taught in English. Same as GRMN:4800, GWSS:4800, TRNS:4800.

WLLC:5000 Teaching and Learning Languages 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Taught in English. Same as FREN:5000, GRMN:5001, SLA:5000, SPAN:5000.

WLLC:5005 Heritage and Dual Language Teaching 3 s.h.
Theoretical issues (e.g., ideological, educational, linguistic) of heritage language teaching and learning; pedagogical issues including curriculum development and assessment for dual language programs in the United Statues; focus on teaching heritage language learners (those who learned a language other than English at home) or dual language education (those who develop academic skills in their native language while building skills in a different language) in the United States. Taught in English. Same as SPAN:5005.

WLLC:6320 Topics in Contemporary Critical Theory 3 s.h.
Focused discussion of critical discourses and paradigms that have contributed to development of contemporary literary and cultural theory.

WLLC:7001 Language Justice: Multilingual Community Engagement and Scholarship 3 s.h.
Application of language justice to lived experiences of multilingual individuals; exploration of how communities can incorporate language justice into shared spaces and interactions within those spaces; engagement with local community groups that support multilingual Iowans whose personal language practices are less valued than the default monolingual English norm. Taught in English. Same as SPAN:7001.

English as a Second Language

The University of Iowa offers English as a Second Language (ESL) instruction in two distinct, but related, programs: ESL credit classes and the Teaching Assistant Preparation in English program (TAPE).

These programs meet the needs of students whose first language is not English. ESL credit classes help students raise their English proficiency so they can complete a degree successfully. TAPE helps graduate students improve their oral competence in English so they may assume classroom teaching responsibilities.

English as a Second Language is administered by the Department of Languages, Linguistics, Literatures, and Cultures.

Programs

ESL Credit Program

English as a Second Language credit courses provide academic language support to students, based on their performance on the English Placement Evaluation (EPE), so that students can succeed in university coursework. ESL courses are offered to help students increase their proficiency in four skill areas: reading, writing, speaking, and listening. Each course offers 3–4 s.h. of credit, which undergraduates may count as elective credit toward graduation. Courses are taught by ESL lecturers and by teaching assistants pursuing advanced degrees in linguistics.

Courses taken to meet the College of Liberal Arts and Sciences English proficiency requirement must be completed with a grade of C or higher for undergraduate students. If an undergraduate student earns a grade of C-minus or lower in an ESL course, the course must be retaken in order for the student to fulfill the ESL course requirement. Courses taken by graduate students for English proficiency must be completed with a grade of C-minus or higher. An ESL course must be taken on an A–F graded basis and may not be taken pass/non-pass or satisfactory/unsatisfactory. Undergraduate students are not allowed to drop ESL courses once the semester begins. A student held for ESL courses may not enroll in a Rhetoric course or an Interpretation of Literature course until the ESL requirement is completed.

Visit the ESL Credit Program website for more information.

Teaching Assistant Preparation in English (TAPE)

The Teaching Assistant Preparation in English program (TAPE) is designed for graduate students whose first language is not English, who need additional work on English communication, and who will hold teaching assistantships while enrolled at the University of Iowa. Only students who need the program and who have sufficient competence in English to profit from it are eligible. TAPE courses are open to graduate students who have been evaluated for TA certification and to others if space is available. Students are taught by full-time professional ESL instructors.

Asian Languages and Literature, BA

The BA program in Asian languages and literature gives students the opportunity to develop advanced skills in an Asian language while they study the people, literatures, and cultures of Asia. Students choose one of two tracks: Chinese or Japanese.

Many other disciplines work well as second majors for Asian languages and literature students, such as history, art history, political science, religion, sociology, journalism, business, and anthropology.

Learning Outcomes

Culture and Literature Knowledge

Students will have:

- knowledge about the target literature and culture, from premodern to modern and contemporary;
- the cultural foundation and critical thinking skills necessary to engage with relevant primary and secondary materials; and
- the ability to communicate their knowledge of Chinese or Japanese culture and language effectively.

Language Competence

Students will be able to:

- carry out tasks in various circumstances and interact with others in different social settings and everyday situations in a culturally appropriate manner;
- understand relatively uncomplicated texts that describe events and personal feelings, while they understand the essence of various types of lengthy, more complex written materials; and
- critically assess materials and produce coherent writing based on the acquired information.

Linguistics Knowledge

Students will have:

- basic knowledge of sociocultural aspects of the language; and
- skills to see through the stereotypes and myths of the target culture in order to have a better understanding of both the target culture and their own.

Requirements

The Bachelor of Arts with a major in Asian languages and literature requires a minimum of 120 s.h., including 30–32 s.h. of work for the major, depending on the track. Students choose one of two tracks: Chinese or Japanese. The credit required for the major depends on the choice of track. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Furthering Language Incentive Program (FLIP) credit may not be counted toward the major.

The amount of approved transfer credit that may be applied to the major varies by track; students should consult their advisors about courses taken at other institutions, including study abroad.

Students may earn the Asian languages and literature major and minor if the minor emphasis language (Chinese or Japanese) differs from the major language track.

The BA with a major in Asian languages and literature requires the following work.

Tracks

- Chinese Track [p. 688]
- Japanese Track [p. 689]

Chinese Track

Students in the Chinese track must complete the following coursework.

Requirements	Hours
Prerequisite Chinese Language Courses	
Chinese Language Courses	12
Gateway Courses	6
Literature and Culture Courses	6
Linguistics and Advanced Language Studies Courses	6

Prerequisite Chinese Language Courses

Students must successfully complete the prerequisite courses or the equivalent before they enroll in the required courses. These courses do not count as credit earned toward track requirements.

Course #	Title	Hours
This sequence:		
CHIN:1111	First-Year Chinese: First Semester	5
CHIN:1112	First-Year Chinese: Second Semester	5
CHIN:2101	Second-Year Chinese: First Semester	5
CHIN:2102	Second-Year Chinese: Second Semester	5

Chinese Language Courses

Course #	Title	Hours
All of these:		
CHIN:3101	Third-Year Chinese: First Semester	3
CHIN:3102	Third Year Chinese: Second Semester	3
CHIN:4103	Fourth-Year Chinese: First Semester	3
CHIN:4104	Fourth-Year Chinese: Second Semester	3

Gateway Courses

Course #	Title	Hours
This course:		
CHIN:1504	China Beyond Walls	3
At least 3 s.h. from these:		
CHIN:1702	Chinese Popular Culture	3
CHIN:1800	Chinese Calligraphy and Culture	3

ASIA:1060/ HIST:1612/ RELS:1506	Introduction to Buddhism	3
ASIA:1510/ WLLC:1510	Ghost Stories and Tales of the Weird in Premodern Chinese Literature	3
ASIA:1602/ HIST:1602	Civilizations of Asia: China from the 17th Century to the Present	3
ASIA:2222/ GWSS:2222/ WLLC:2222	Women in Premodern East Asian Literature	3
ASIA:2515/ RELS:2515	Introduction to Chinese Religious Thought: How Best to Live	3
ASIA:3208/ TRNS:3208/ WLLC:3208	Classical Chinese Literature Through Translation	3
ASIA:3650/ HIST:3650	Chinese History From 1600 to 1911	3
ASIA:3652/ HIST:3652	Twentieth-Century China	3

Literature and Culture Courses

Course #	Title	Hours
Two of these:		
CHIN:3201/ TRNS:3202	Workshop in Chinese Literary Translation	3
CHIN:3341	Chinese Literature: Poetry	3
CHIN:4203	Modern Chinese Writers	3
CHIN:4206	Chinese Cinema	3

Linguistics and Advanced Language Studies Courses, Chinese

Course #	Title	Hours
Two of these:		
CHIN:3302/ LING:3302/ SLA:3302	Introduction to Chinese Linguistics	3
CHIN:4101	Classical Chinese: First Semester	3
CHIN:4150	Advanced Reading and Writing in Chinese	3

Chinese Track Electives

The courses and requirements in the preceding lists represent the minimum hours required to complete the Chinese track. Students may also choose additional Chinese elective courses (prefix CHIN), but they may only apply a maximum of 56 s.h. of courses in Chinese to the 120 s.h. required for graduation. Elective Chinese courses will not count toward Chinese requirements for the major. Independent studies and arranged hours may be used as elective hours but are not counted toward the requirements for the major.

Japanese Track

Students in the Japanese track must complete the following coursework.

Requirements	Hours
Prerequisite Japanese Language Courses	
Third- and Fourth-Year Japanese Courses	14
Literature and Translation Courses	9
Linguistics and Advance Language Studies Courses	6
Cultural Studies Course	3

Students may apply a maximum of 12 s.h. of approved transfer credit toward track requirements. Those who are planning to study abroad should consult with their Japanese track advisors in advance to determine whether their planned coursework abroad will be accepted toward track requirements.

Prerequisite Japanese Language Courses

Students must successfully complete the prerequisite courses or the equivalent before they enroll in required courses. These courses do not count as credit earned toward track requirements.

Course #	Title	Hours
All of these:		
JPNS:1001	First-Year Japanese: First Semester	5
JPNS:1002	First-Year Japanese: Second Semester	5
JPNS:2001	Second-Year Japanese: First Semester	5
JPNS:2002	Second-Year Japanese: Second Semester	5

Third- and Fourth-Year Japanese Courses

Course #	Title	Hours
Both of these sequences:		
JPNS:3001 & JPNS:3002	Third-Year Japanese I and Third-Year Japanese II	8
JPNS:4001 & JPNS:4002	Fourth-Year Japanese I and Fourth-Year Japanese II	6

Literature and Translation Courses

Course #	Title	Hours
9 s.h. from these:		
JPNS:3201/ TRNS:3201	Workshop in Japanese Literary Translation	3
JPNS:3202	Traditional Japanese Literature in Translation	3
JPNS:3203	Modern Japanese Fiction in Translation	3
JPNS:3204	Topics in Japanese Literature in Translation	1-3
JPNS:3205	Major Authors in Modern Japanese Literature	3
JPNS:3206	Warriors' Dreams	3
JPNS:3207	Japan Illuminated: Japanese Literature and Visual Culture	3
JPNS:3208	Japanese Film	3
JPNS:3210	Japanese Theater	3
JPNS:3601	Contemporary Japanese Culture	3
JPNS:4201	Genji Lab	3

Linguistics and Advanced Language Studies Courses, Japanese

Course #	Title	Hours
At least 6 s.h. from these:		
JPNS:3107	Classical Japanese: First Semester	3

JPNS:3128	Introduction to Japanese Linguistics	3
JPNS:3401	Language in Japanese Society	3
JPNS:3402	Japan: Culture and Communication	3
JPNS:3500	Japanese for Professional Purposes	3

Cultural Studies Course

Course #	Title	Hours
One of these:		
ASIA:1005	Scripts and Trips: A Journey Through East Asia	3
JPNS:1506	Ghostly Japan	3
JPNS:2250/ ARTH:2250	Introduction to the Art of Japan	3

Japanese Track Electives

The courses and requirements in the preceding lists represent the minimum hours required to complete the Japanese track. Students may choose additional Japanese elective courses (prefix JPNS), but they may only apply a maximum of 56 s.h. of courses in Japanese to the 120 s.h. required for graduation. Elective Japanese courses will not count toward Japanese requirements for the major. Independent studies and arranged hours may be used as elective hours but are not counted toward the requirements for the major.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

Asian languages and literature majors must complete designated pedagogy and linguistics courses in the department in addition to the coursework required for their major.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students earning a major in Asian languages and literature with a minimum grade-point average (GPA) of 3.50 in the major and an overall minimum GPA of 3.33 have the opportunity to graduate with honors in the major. Students interested in earning honors in the major should seek the consent of the department chair and a faculty sponsor (an Asian specialist from any department) for departmental honors work. Students must register for ASIA:4301 Honors Tutorial and ASIA:4506 Senior Honors Thesis and must complete an acceptable thesis based on original research.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the Asian languages and literature major.

Financial Support

Undergraduate students have access to financial aid and scholarship resources.

Career Advancement

Asian languages and literature graduates pursue careers in education, government, communication, business, and other fields in the United States and beyond. The program also provides an excellent background for advanced study in the humanities and social sciences and in professional schools, such as law and business. The number of Americans who can speak Asian languages is relatively small, so many career opportunities exist for individuals trained in these areas.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: begin language work.

Before the fifth semester begins: at least first-year language competency.

Before the seventh semester begins: at least second-year language competency and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least third-year, first-semester language competency and one additional course in the major (for the Japanese track, two additional courses in the major).

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b CHIN:1111, CHIN:1112, CHIN:2101, and CHIN:2102 do not count for credit toward the major. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin major level coursework and not be required to take semesters 1-4 of the language.

c Fulfills a major requirement and may fulfill a GE requirement.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e See the General Catalog for list of approved courses.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

French, BA

Learning Outcomes

At the time of graduation, majors will have reached the equivalent of the intermediate high/advanced low level on the American Council on the Teaching of Foreign Languages (ACTFL) scale in the four areas of speaking, listening, reading, and writing with a special emphasis on language, literature, and culture, or French and Arabic, depending on their track.

French majors will be able to:

- interact orally and in writing at a level sufficient for effective communication on a wide range of topics with French-speaking interlocutors from the Francophone world and across cultures;
- analyze, synthesize, engage critically, and effectively present written information and argumentation on what is heard, read, or viewed in the literatures and cultures of the Francophone world—France, North- and sub-Saharan Africa, the Indian Ocean, the Caribbean, and the French-speaking communities of North America; and
- gain knowledge of the various Francophone cultures of the world, and reflect upon and deal appropriately with their linguistic, cultural, and artistic history and diversity.

Requirements

The Bachelor of Arts with a major in French requires a minimum of 120 s.h., including 33–38 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Furthering Language Incentive Program (FLIP) credit may not be counted toward the major.

The French Language and Culture Advanced Placement (AP) exam with a score of 4 or higher is considered to be equivalent to FREN:3000 Third-Year French. Transfer credit may be accepted, and students are encouraged to participate in study abroad, but the last two courses in the major must ordinarily be completed at the University of Iowa. Transfer credit is evaluated on an individual basis by the faculty in charge of study abroad.

Students majoring in French complete one of two tracks: language, literature, and culture or French and Arabic.

The language, literature, and culture track of the French major is designed for students with interests in language and translation, in French and Francophone literary and cultural expression, and for those with interdisciplinary interests in cinema, communication studies, history, international studies, political science, or journalism. The French and Arabic track is designed for students interested in combining the study of the French and Arabic languages with the history, politics, and religions of Middle Eastern cultures.

Language, Literature, and Culture Track Requirements

Students in the language, literature, and culture track complete a set of three lower-level courses, four foundation courses, and four elective courses (typically 33–37 s.h.).

Students who intend to earn licensure to teach in elementary and/or secondary schools must also complete the College of Education's Teacher Education Program (TEP), which requires education courses and student teaching (see the section titled "Teacher Licensure" that follows).

Lower-Level Courses

If students place out of FREN:2001 or FREN:2002, they must take an additional 3 s.h. course numbered 3000–4999 from the electives list; see the section "Language, Literature, and Culture Courses" that follows. Students who place out of both courses must take two additional electives numbered 3000–4999.

Course #	Title	Hours
All of these:		
FREN:2001	Intermediate French I	4
FREN:2002	Intermediate French II	4
One French course (prefix FREN) numbered 1000-2999 except FREN:1001, FREN:1002, and FREN:1040; may be taught in English		3

Language, Literature, and Culture Foundation Courses

Course #	Title	Hours
All of these:		
FREN:3060	Introduction to Reading and Writing in Literature	3
FREN:3300	French Grammar	3
FREN:4007	Topics in French Linguistics	3
FREN:4020	Oral Expression in French II	3

Language, Literature, and Culture Elective Courses

Students complete at least four electives courses (12–16 s.h.). At least two of the elective courses must be numbered above 4000; this requirement is in addition to the 4000-level foundation coursework in French. Only one of the elective courses may be in the French subject area (prefix FREN) taught in English; this restriction does not apply to courses taught in English with an additional semester hour in French.

Courses in French stylistics and textual analysis, another language, economics, political science, and/or business are recommended as additional coursework outside the major.

Course #	Title	Hours
Four of these, with at least two numbered 4000 or above:		
FREN:3000	Third-Year French	3
FREN:3020	Oral Expression in French I	3
FREN:3007	French Phonetics	3
FREN:3120	French Civilization	3
FREN:3160	Study Abroad: Culture	3
FREN:3232	French Literary Translation Workshop	3
FREN:3240	Media French	3
FREN:3360	Study Abroad: Language	3
FREN:3410	Business French	3
FREN:4015	Francophone Cinema (taught in English)	3-4
FREN:4026	French Women Writers (taught in English)	3-4
FREN:4070	Introduction to the Study of Meaning (taught in English)	3

FREN:4080	Post-Colonial Literature in France	3
FREN:4090	Quebec Literature	3
FREN:4100	French Cinema (taught in English)	3-4
FREN:4110	Francophone Studies: Literature and the Arts	3
FREN:4210	Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South (taught in English)	3-4
FREN:4433	France Under Nazi Occupation, 1940-1944 (taught in English)	3-4
FREN:4520	Versailles Under the Sun King (taught in English)	3-4
FREN:4540	Gender and Sexuality in French Cinema (taught in English)	3-4
FREN:4750	Topics in French Studies II	3

French and Arabic Track

Students in the French and Arabic track complete five foundation courses and six or seven elective courses (typically 37–38 s.h.).

French and Arabic Foundation Courses

Course #	Title	Hours
All of these:		
FREN:3060	Introduction to Reading and Writing in Literature	3
FREN:3300	French Grammar	3
FREN:4007	Topics in French Linguistics	3
FREN:4020	Oral Expression in French II	3
One of these:		
FREN:3007	French Phonetics	3
FREN:3020	Oral Expression in French I	3

French and Arabic Elective Courses

Elective requirements include six to seven courses (22–23 s.h.) in addition to the foundation coursework in French. Only one of the elective courses may be in the French subject area (prefix FREN) taught in English; this restriction does not apply to courses taught in English with an additional semester hour in French or Arabic.

French and Arabic Electives: Language, Literature, and Culture

Students complete two courses from the language, literature and culture electives; see the preceding section titled "Language, Literature, and Culture Elective Courses" for courses that may be used for this area. At least one of these elective courses must be numbered 4000 or above.

French and Arabic Electives: Arabic Language

Students complete one of the following sequences for a total of 9–11 s.h.

Course #	Title	Hours
One of these sets of courses:		
ARAB:2001 & ARAB:2002	Intermediate Modern Standard Arabic I and Intermediate Modern Standard Arabic II	10
ARAB:2002 & ARAB:3011 & ARAB:3012	Intermediate Modern Standard Arabic II and Advanced Modern Standard Arabic I and Advanced Modern Standard Arabic II	11
Or this set of courses:		
ARAB:3011 & ARAB:3012	Advanced Modern Standard Arabic I and Advanced Modern Standard Arabic II	6
A third Arabic course (prefix ARAB) selected in consultation with faculty		3

French and Arabic Electives: Middle Eastern Cultures

Students complete two courses on Middle Eastern cultures. These courses may be in the subject of French (prefix FREN) or Arabic (prefix ARAB) and taught in French, Arabic, or English; courses from other departments may also be approved. The following courses count toward this requirement without additional approval.

Course #	Title	Hours
ARAB:2006	Transnational Solidarities	3-4
ARAB:2012	Modern Palestinian Literature and Culture	3
ARAB:3005	Culture and Resistance: The Modern Middle East	3-4

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must have a grade-point average (GPA) of at least 3.50 for work undertaken in the department and a cumulative University of Iowa GPA of at least 3.33.

To graduate with honors in the major, departmental honors students must register for FREN:4995 Honors Research and Thesis or one honors-designated course numbered above 4000. They must complete an honors thesis or the equivalent (e.g., translation, comparative stylistics, cultural studies, or research) in French and must present their work to a faculty committee.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the French major.

Career Advancement

Students majoring in French may combine their studies with courses in education to prepare for jobs in high school teaching. They may go on to graduate study in areas such as French, comparative literature, and other interdisciplinary areas as preparation for college-level teaching. They may also combine other skills and studies with their major in French to prepare for challenging career opportunities in international government, business, finance, travel, communications, and other fields where the knowledge of more than one language is essential.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the third semester begins: competence in first-year French.

Before the fifth semester begins: second-year French (FREN:2002 Intermediate French II).

Before the seventh semester begins: two of the four requirements for the major, FREN:3060 Introduction to Reading and Writing in Literature, FREN:3300 French Grammar, one or two other courses in the major, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: one elective numbered 4000 or above and three more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b FREN:1001, FREN:1002, FREN:2001, and FREN:2002 do not count for credit toward the major. Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin major level coursework and not be required to take semesters 1-4 of the language.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f ARAB:1001 and ARAB:1002 do not count for credit toward the major.

g Requirements for the French and Arabic track include six to seven track courses (22 s.h.) in addition to the foundation coursework in French.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

German, BA

Learning Outcomes

The BA in German is directed toward graduates' ability to converse effectively in German; write coherent short texts; interpret literary, cultural, and linguistic phenomena; and exhibit an understanding of alternative cultural perspectives.

- Interpersonal speaking: the capacity to engage effectively in conversations in German on a range of topics, recount events and personal experiences, and produce explanations and descriptions; correlates with "intermediate high" on the American Council on the Teaching of Foreign Languages (ACTFL) scale.
- Writing: the capacity to produce a cohesive piece of writing in German, such as an essay, a paper, or a narrative.
- Interpretation and analysis: the capacity to critically interpret and analyze literary texts and other cultural artifacts written in German using appropriate sources to support their arguments.
- Cultural understanding: the capacity to demonstrate understanding of alternative cultural perspectives acquired through coursework, study abroad, and other cross-cultural experiences.

Requirements

The Bachelor of Arts with a major in German requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Students who plan to earn licensure to teach in elementary and/or secondary schools should see the "Teacher Licensure" section that follows.

GRMN:3501 German Writers Engaged or the equivalent is a prerequisite for some other German literature courses. Students should enroll in GRMN:4995 German Graduation Portfolio in their final year of study.

A maximum of 15 s.h. of approved transfer credit may be counted toward the major, including study abroad coursework. Students may count up to 18 s.h. earned from the Academic Year in Freiburg program toward the major in German.

Students who begin a German major with no previous German language experience must complete the following courses or their equivalents. The course GRMN:2002 Intermediate German II (or the equivalent) is a prerequisite for all courses numbered 3000 or above. The major may include up to 6 s.h. total from the courses GRMN:2001 Intermediate German I or GRMN:2002 Intermediate German II, or from equivalent transfer, Furthering Language Incentive Program (FLIP), or Advanced Placement (AP) credit.

Course #	Title	Hours
GRMN:1001	Elementary German I	4
GRMN:1002	Elementary German II	4
GRMN:2001	Intermediate German I	4
GRMN:2002	Intermediate German II	4

The BA with a major in German requires the following coursework.

Requirements	Hours
Language Core Courses	9
Culture Core Courses	6
Linguistics Course	3
Graduation Portfolio	0
Electives	12

Language Core Courses

Courses GRMN:3103 and GRMN:3104 may be taken in any order.

Course #	Title	Hours
Three of these:		
GRMN:3103	Composition and Conversation I	3
GRMN:3104	Composition and Conversation II	3
GRMN:3214	Business German	3
GRMN:3845	The Structure of German	3

Culture Core Courses

Course #	Title	Hours
This course:		
GRMN:3501	German Writers Engaged	3
One of these:		
GRMN:3010	Stories in German	3
GRMN:3236	German Film	3
GRMN:3850	Twentieth- and Twenty-first-Century German Children's Literature	3

Linguistics Course

Course #	Title	Hours
One of these:		
GRMN:3855	The Sounds of German	3
GRMN:3860	German Language and Society	3

Graduation Portfolio

Course #	Title	Hours
This course:		
GRMN:4995	German Graduation Portfolio	0

Electives

Students must take four electives (12 s.h.) of additional German courses (prefix GRMN). All students pursuing a German major are encouraged to take as many courses taught in German as possible, especially those who have completed their World Languages requirement in German before beginning their studies at the University of Iowa.

Course #	Title	Hours
12 s.h. from these:		
German courses (prefix GRMN) numbered 3000-4999		
Up to three German courses (prefix GRMN) numbered 1500-1999 and 2500-2999, taught in English		

Up to 6 s.h. from GRMN:2001, GRMN:2002, equivalent transfer credit, Furthering Language Incentive Program, or Advanced Placement credit with a score of 4 or higher

Either GRMN:4900 Independent Study or GRMN:4920 Research in German Studies may be applied once toward the major, but not both. For students pursuing a German major with honors, GRMN:4990 Honors Research and GRMN:4991 Honors Thesis will both count as electives toward the major.

Students pursuing a second major in an adjacent field that overlaps with German (i.e., linguistics, history, cinematic arts, art history, etc.) can consult with the director of undergraduate studies in German to see if they might apply a non-German course (prefix GRMN) numbered 3000 or above with predominantly German-based content towards the 30 s.h. of coursework required for the German major.

These courses do not count toward the major.

Course #	Title	Hours
GRMN:1200	Disabilities and Inclusion in Writing and Film Around the World	3
GRMN:2248	The Invention of Writing: From Cuneiform to Computers	3
GRMN:2275	Scandinavian Crime Fiction	3
GRMN:4800	Seminar in Comparative Literature	3

Study Abroad

The University of Iowa offers a number of opportunities for study in Germany, Switzerland, and Austria. Students frequently choose to participate in the summer USAC Lüneburg program, the Dortmund University Exchange, or the Academic Year in Freiburg program at the Albert Ludwig University of Freiburg. Students should consult Study Abroad and the German undergraduate advisor to select a program that fits their interests.

For German majors, the year-long Freiburg program provides the most comprehensive linguistic and professional preparation for a future career involving German. The Academic Year in Freiburg program is offered by a consortium made up of the University of Iowa, Michigan State University, the University of Michigan, and the University of Wisconsin–Madison.

Students arrive during the first week of September and participate in a four-week intensive language program. Then they take a blend of special program classes and regular German university courses. Organized field trips are designed to give students a broader perspective on German culture. Vacation periods permit extensive travel throughout Europe, and students are encouraged to use weekends for shorter trips in the region.

To apply, students must have reached at least second-year standing by the beginning of the program, have completed at least the first four semesters of college German or the equivalent with a GPA of at least 3.00 in German, and be in good academic standing at a U.S. college or university.

Students earn resident credit in all courses successfully completed in the program. They may count up to 18 s.h. earned at Freiburg toward the major.

For more information about study abroad opportunities, contact International Programs Study Abroad.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students majoring in German have the opportunity to graduate with honors in the major. Students who choose to graduate with honors in German must satisfy the following requirements.

- Maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.50 in all coursework for the major.
- Complete GRMN:4990 Honors Research or the equivalent, such as one course for the major (3 s.h.) as an honors contract course. For equivalent courses taken abroad, students should consult with the honors advisor or director of undergraduate studies in German.
- Complete GRMN:4991 Honors Thesis.
- Submit an acceptable honors thesis, and present and discuss their research findings in a defense meeting with their faculty mentor and two additional UI faculty members.

The courses GRMN:4990 Honors Research and GRMN:4991 Honors Thesis will count toward the 30 s.h. for the major. Students are encouraged to participate in the Office of Undergraduate Research (OUR) and apply for research scholarships.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the German major.

Career Advancement

Students majoring in German may combine their studies with courses in education to prepare for positions in high school teaching and administration. Many combine other skills and studies with their major in German to prepare for careers in business, travel, communications, foreign service, and other fields where the knowledge of languages is essential.

German graduates go on to earn graduate and professional degrees in German, English as a second language, history, library science, medicine, law, and sustainable agriculture. They find work in industries with strong connections to

German-speaking countries and organizations such as the Goethe Institutes in the United States.

Completion of a German major ensures that students enter their professional lives as informed global citizens with a strong skill set in cross-cultural literacy. German is spoken by an estimated 126 million people, with the largest number of native speakers in the European Union. Germany has the third largest economy across the globe and was until recently the largest export nation in the world.

Coursework builds strong reading, communication, and teamwork skills, which are sought by many employers.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the third semester begins: language competency equal to first-year German.

Before the fifth semester begins: language competency equal to second-year German.

Before the seventh semester begins: four courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester: two or three additional courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Total Hours	**120-122**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

c To satisfy both the GE CLAS Core Understanding Cultural Perspectives requirement and part of the 12 s.h. elective requirement for the major, students may opt to take one of following GRMN courses that are taught in English: GRMN:2600, GRMN:2620, GRMN:2675.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f To satisfy both the GE CLAS Core Values and Society requirement and part of the 12 s.h. elective requirement for the major, students may opt to take GRMN:2618.

g The major may include up to 6 s.h. total from the courses GRMN:2001 Intermediate German I or GRMN:2002 Intermediate German II, or from equivalent transfer, Furthering Language Incentive Program (FLIP), or Advanced Placement (AP) credit.

h To satisfy both the GE CLAS Core Literary, Visual, and Performing Arts requirement and part of the 12 s.h. elective requirement for the major, students may opt to take one of following GRMN courses that are taught in English: GRMN:2630, GRMN:2666, GRMN:2785.

i To satisfy both the GE CLAS Core International and Global Issues requirement and part of the 12 s.h. elective requirement for the major, students may opt to take GRMN:2720.

j Students must take four electives (12 s.h.) of additional German courses (prefix GRMN). Students may apply up to 9 s.h. of German courses (prefix GRMN) taught in English towards the major, selected from courses numbered 1501-1999 and 2500-2999. Either GRMN:4900 or GRMN:4920 may be applied toward the major, but not both. For students pursuing a German major with honors, GRMN:4990 and GRMN:4991 will both count as electives toward the major.

k Students must complete three courses from the following: GRMN:3103, GRMN:3104, GRMN:3214, GRMN:3845. GRMN:3103 and GRMN:3104 can be taken in any order.

l GRMN:3010 is typically offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

mPlease see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

International Studies, BA

International studies students learn that the complexity of current world conditions requires a multidisciplinary approach to problem solving. They take core international studies courses to learn key concepts and practical skills, and extend their education by choosing from an array of internationally focused courses from the social sciences, humanities, and the arts.

Students are also encouraged to develop real-world intercultural skills by studying abroad, engaging locally with international communities, participating in service learning and internships, and conducting research. Through academic and cocurricular experiences, students become prepared to positively contribute to the world.

As a second major, international studies can add cross-cultural skills and perspectives to degrees in business, health sciences, journalism, and the arts.

Learning Outcomes

Students will be able to:

- recognize that the complexity of current world conditions requires a multidisciplinary approach to problem solving;
- analyze and synthesize information about key topics in international studies;
- demonstrate intellectual open-mindedness when addressing global issues; and
- apply cross-cultural skills when engaging respectfully with people from other countries and diverse communities in the United States.

Requirements

The Bachelor of Arts with a major in international studies requires a minimum of 120 s.h., including at least 43 s.h. of work for the major. Students must complete at least 15 s.h. of work for the major at the University of Iowa. They must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. Students must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The international studies major is flexible, combining core international studies coursework with courses drawn from across the humanities, social sciences, and the arts. Students work closely with an academic advisor to plan their program of study.

Students are encouraged to study or intern abroad and should work with their academic advisor to determine how credits earned from approved study abroad programs or international internships can fulfill the global perspectives, world cultures and societies, and/or language requirements for the major.

To benefit from the interdisciplinary nature of international studies, students choose from a wide range of courses. To ensure that students take courses from varied disciplines, students may count a maximum of 12 s.h. from a single course subject toward the global perspectives [p. 703] and the world cultures and societies [p. 706] requirements (with the exception of international studies courses, prefix IS).

Transfer credit approved by the International Studies Program may be applied to the major.

Students have the option to complete a 15 s.h. concentration. They choose global perspectives courses and world cultures and societies courses approved in one of the three concentrations: global business and communication [p. 710], international human rights and public service [p. 710], or international sustainable development [p. 711].

The BA with a major in international studies requires the following coursework.

Requirements	Hours
Foundation Courses	10
Language Requirement	6
Capstone Course	3
Global Perspectives Courses	12
World Cultures and Societies Courses	12
Optional Concentrations	

Foundation Courses

Students learn the core, multidisciplinary intellectual and interpersonal international studies skill set, and its applications for travel, employment, and understanding global issues.

Course #	Title	Hours
All of these:		
IS:2000	Introduction to International Studies	3
IS:2009	World Travel: Cross-Cultural Skills for International Business, Education, and Service	3
IS:2020	World Events Today!	3
One of these:		
IS:1000	Designing Your International Studies Major	1
IS:2500	Working Internationally	1

Language Requirement

By fulfilling the language requirement, students gain the language competence needed for work and life in the increasingly globalized world.

Students must complete a minimum of two world language courses beyond those required by the GE CLAS Core [p. 22]. If students have not completed the fourth level of a single language in fulfilling the GE CLAS Core requirement, then they must complete the fourth level of a single world language to fulfill the international studies major language requirement.

If a student completes the fourth level of a single language prior to completing the international studies major language requirement, this requirement can be met by completing additional courses in the same language or two courses in a second world language at any level. A single course in a second language may not be used alone. A maximum of one 3 s.h. course from the GE CLAS Core World Language and Cultural Exploration course list may also be used toward the major requirement.

In satisfying this requirement, many students are eligible to receive an additional 4 s.h. of ungraded credit under the Furthering Language Incentive Program (FLIP). This credit may be applied to the minimum 120 s.h. required for graduation, but it does not count toward requirements for the international studies major.

Capstone Course

Students apply their knowledge in internationally focused experiences. They typically complete the capstone course in their third or fourth year.

Course #	Title	Hours
One of these:		
IS:3010	Writing and Research for the World	3
IS:3012	Service Learning in International Studies	3

Global Perspectives Courses

Students learn about global trends, comparisons, and interactions.

Optional Concentrations

Students have the option to complete a 15 s.h. concentration. This may be done by choosing global perspectives courses and world cultures and societies courses that are approved in one of the three concentrations: global business and communication [p. 710], international human rights and public service [p. 710], or international sustainable development [p. 711].

Global Business and Communication

This concentration enables students to understand the complex forces that shape global commerce on the macro and micro levels. Students use multidisciplinary perspectives to understand the economic and cultural impacts of globalization processes, including on globalized systems and cultures of business, communication, and media. It offers social scientific and humanistic approaches to global business and communication. This background enables students who earn the concentration to stand out among entry-level business applicants; students develop the knowledge and skills needed for engaging in ethical and effective intercultural communication and action in the global business world, which are valued by multinational corporations and businesses worldwide.

International Human Rights and Public Service

This concentration is designed to provide a combination of philosophical and practical knowledge related to social justice and human rights. The study of human rights is inherently multidisciplinary, and students have the opportunity to

become familiar with international human rights standards, their application, and implications through coursework in a variety of disciplines. Students are expected to understand how to discuss and address human rights concerns from a number of distinct perspectives and to apply critical thinking skills to complex problems. Students also develop an understanding of the ways that cultural and political-economic systems reflect specific place-based contexts as well as complex world histories of colonization, resistance, migration, and globalization. They gain knowledge and skills that are directly applicable to public service careers in government and nongovernmental organizations, in the United States and abroad, as well as graduate programs of study such as law and public policy.

International Sustainable Development

Students learn about the multiple dimensions of social change and human development in areas of the world categorized as developing societies, including poverty reduction; health; the environment and sustainability; climate change; food security; communication for development; cultures of developing societies; and historical, cultural, and critical perspectives on the idea of modern development. They gain an understanding of development as a cultural and political-economic process that directly influences the environment. Students also study the ways in which direct and indirect policy-making by social, economic, and political institutions affect environmental issues. In this way, they develop an appreciation of the complexity of development and environmental problems in the globalized world. This concentration gives students the knowledge and skills needed for jobs or graduate education in international development and sustainability.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. International studies honors students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.33 in all coursework for the major and in all coursework that may be applied to the major.

To graduate with honors in the major, students must complete a minimum of 46 s.h. for the major (an additional 3 s.h.).

Honors students must choose IS:3010 Writing and Research for the World for their capstone option, and complete IS:4991 Honors Thesis in International Studies. Students also are encouraged to present their research in a public venue, such as the Spring Undergraduate Research Festival (SURF).

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the international studies major.

Career Advancement

The flexible structure of the international studies major allows students to tailor the degree to fit a wide range of academic interests and career goals. International studies is an ideal complement to a variety of academic degree programs and many students combine the international studies major with another major such as in world languages, business, journalism, health sciences, or the arts.

International studies alumni find employment in a range of career sectors such as education, nonprofit/nongovernmental organizations (NGOs), business, government, and translation/interpreting.

Specific examples of organizations where recent graduates have found post-graduation opportunities include Doctors without Borders (New York City, New York), the International Visitor Leadership Program/U.S. Department of State (Washington, D.C.), Coyote Logistics (Chicago, Illinois), Peace Corps (Cambodia and Uganda), American Councils for International Education (Washington, D.C.), CET Study Abroad Programs (Greece), RefugeeRISE AmeriCorps (Des Moines and Iowa City, Iowa), Japan Exchange and Teaching Program (Japan), The Bold Italic (San Francisco, California), and Texas Rio Grande Legal Aid (Austin, Texas).

International studies graduates also have used their cross-cultural, interdisciplinary education to win prestigious awards such as the Fulbright English Teaching Assistantship (Czech Republic, Taiwan, Brazil, Russia), the Gilman Scholarship, the Stanley Undergraduate Award for International Research, the Princeton in Latin America Fellowship, and the Critical Language Scholarship.

Additionally, the international studies major is excellent preparation for graduate and professional programs in law, international development, medicine, nonprofit management, higher education, public health, and urban and regional planning.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Students who intend to study abroad during their junior year should schedule an appointment during their fourth semester to meet with an advisor from International Programs Study Abroad; those who intend to study abroad during their senior year should schedule an appointment during their sixth semester.

Before the fifth semester begins: at least two 3 s.h. foundation courses, and one global perspectives course or world cultures and societies course.

Before the seventh semester begins: at least nine courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least 12 courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major (including capstone course if not already taken), all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students meet regularly with the international studies academic advisor for help in identifying experiential learning activities and integrating them into their academic plans.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Students earn a minimum of 10 s.h. in foundation courses.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Students have the option to complete a 15 s.h. concentration. They choose global perspectives courses and world cultures and societies courses approved in one of the three concentrations: global business and communication, international human rights and public service, or international sustainable development.

h Students earn a minimum of 12 s.h. in world cultures and societies courses including at least 6 s.h. numbered 2000 or above; see the General Catalog for list of approved courses.

i Students earn a minimum of 12 s.h. in global perspectives courses including at least 6 s.h. numbered 2000 or above; see the General Catalog for list of approved courses.

j Students must complete a minimum of two world language courses beyond that required by the GE CLAS Core program. If students have not completed the fourth level of a single language in fulfilling the GE CLAS Core requirement, then they must complete the fourth level of a single world language to fulfill the international studies major language requirement. If a student completes the fourth level of a single language prior to completed the international studies major language requirement, this requirement can be met by completing additional courses in the same language or two courses in a second world language at at any level. A single course in a second language may not be used alone. A maximum of one 3 s.h. course from the GE CLAS Core World Language and Cultural Exploration course list may also be used toward the major requirement.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Italian, BA

Italian is the gateway to one of the world's richest cultures. Italy has the most United Nations Educational, Scientific and Cultural Organization (UNESCO) world heritage sites—artistic treasures considered to be of universal value—of any country in the world, due to its history as the birthplace of the Roman Empire and the Renaissance. In addition to an internationally recognized cultural patrimony, the country also has one of the world's largest economies. Italy is a world leader in design, fashion, art restoration, the culinary arts, robotics, shipbuilding, electromechanical machinery, machine tool manufacturing, construction machinery, space engineering, pharmaceuticals, and genetic mapping. Music, cinema, and sports also speak Italian.

Students pursue Italian studies for cultural reasons, for travel and study plans in Italy, and because it enhances their competitiveness in today's marketplace. Because an estimated 950 Italian companies have offices in the U.S., and the U.S. is the third-ranked country of destination for Italian export, many employers are seeking people who speak both Italian and English. A major in Italian opens doors to careers in a variety of fields; see Career Advancement in this section of the catalog.

Languages, Culture, and Creativity

The major in Italian provides many opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and extracurricular activities.

Learning Outcomes

Students who graduate with a major in Italian will be able to:

- understand Italian spoken language even when delivered at fast native speed;
- communicate effectively in both oral and written discourse, considering varying registers and cultural contexts;
- read with ease all forms of the Italian written language, including complex texts such as specialized articles and literary works;
- reflect with critical insight on a range of topics in Italian literature, history, and contemporary culture;
- explain the significance of a representative selection of figures, texts, and tendencies in the literature and other forms of cultural production from the Italian-speaking world;
- recognize and reflect in an informed way on cultural differences as well as shared values between Italian culture and their native cultures; and
- develop an intellectual engagement and reflective sensibility that will contribute to their lifelong learning.

Requirements

The Bachelor of Arts with a major in Italian requires a minimum of 120 s.h., including 32–33 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students may count a maximum of 9 s.h. (three courses) of approved upper-level transfer or study abroad credit toward the major in Italian, but they must take either ITAL:3305 Advanced Italian or ITAL:3306 Advanced Italian II at the University of Iowa. The Italian Language and Culture Advanced Placement (AP) exam with a score of 4 or higher may be used to complete the GE CLAS Core World Languages requirement and applied to requirements for the Italian major or minor, or used as elective hours.

The BA with a major in Italian requires the following coursework.

Course #	Title	Hours
All of these:		
ITAL:2203	Intermediate Italian I	4
ITAL:2204	Intermediate Italian II	4
ITAL:3305	Advanced Italian	4
ITAL:3306	Advanced Italian II	4
ITAL:4550	Topics in Italian Studies	3
ITAL:4633	Dante's Inferno	4
ITAL:4660	Transcultural Texts and Translations	3
ITAL:4667	Modern Italian Fiction	3
One of these:		
ITAL:2550	Images of Modern Italy	4
A course taught in Italian numbered above 3000		3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Majors who want to earn teacher licensure should include an additional 2 s.h. in their work for the major. They should consult the director of undergraduate studies.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must have a grade-point average (GPA) of at least 3.50 for work undertaken in the department and a cumulative University of Iowa GPA of at least 3.33.

To graduate with honors in the major, students must register for ITAL:4998 Honors Research and Thesis and one honors-designated course numbered 3000 or above. They must complete an honors thesis or the equivalent (e.g., translation, comparative stylistics, cultural studies, or research) in Italian and must present their work to a faculty committee.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the

University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the Italian major.

Career Advancement

A background in Italian is helpful for students planning careers in international business, tourism, and teaching, as well as for opera singers, musicians, art and art history majors, and for those who study architecture, fashion, and design. With more than a thousand Italian companies doing business in the United States, the major in Italian combines well with career options in a wide variety of fields.

Students majoring in Italian may combine their studies with courses in education to prepare for jobs in high school teaching. They may go on to graduate study in areas such as Italian, comparative literature, and other interdisciplinary areas as preparation for college-level teaching. Some Italian majors go on to law school. Students may also combine other skills and studies with their major in Italian to prepare for challenging career opportunities in international government, business, finance, public relations, journalism, education, archaeology, arts administration, nongovernmental organizations, publishing, library science, politics, travel and tourism, hospitality management, communications, the culinary arts, and in other fields where the knowledge of more than one language is essential.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters to stay on the university's Four-Year Graduation Plan.

Before the third semester begins: competence in first-year Italian.

Before the fifth semester begins: competence in second-year Italian (ITAL:2204 Intermediate Italian II).

Before the seventh semester begins: four courses in the major numbered above 3000 and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: a total of at least five courses in the major numbered above 3000.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and enough semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course choice and sequence will vary and should be discussed with an academic advisor. For more sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students who have completed four years of a single language in high school have satisfied the GE CLAS Core World Languages requirement. Enrollment in Italian courses requires an online placement exam and consultation with the Director of Italian Studies, unless enrolling in a first-semester-level course.

c ITAL:1101 and ITAL:1102 do not count for credit toward the major. Language level placement will be determined by the online placement test score and consultation with the Director of Italian Studies. Students who place into the 5th semester level of the language will begin major level coursework and not be required to take semesters 1-4 of the language.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Students pursuing the Italian major must take this course for 4 s.h.

g Fulfills a major requirement and may fulfill a GE requirement.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Linguistics, BA

Linguistics as a discipline inquires into the fundamental nature of human language. The ability to learn and speak a language is unique to humans. Language is intrinsic to the human mind, as well as integral to human society. The study of linguistics at the undergraduate level teaches students how to analyze languages, which are highly structured in ways in which most people are not consciously aware.

Undergraduate courses in the linguistics major teach a vocabulary of concepts and notation for analyzing language and a process of analytical reasoning for applying the concepts to forms from specific languages. Students who major in linguistics achieve an informed awareness of language that has applications in many other fields, as well as preparation for continuing in linguistics and other fields that focus on language. The curriculum also provides an introduction to the kind of arguments used in scientific reasoning, using data and techniques that are perhaps more easily accessible to undergraduates than the kind used in laboratory sciences.

Depending on their vocational goals, students planning to major in linguistics should consider furthering their studies either through the MA in linguistics with a professional focus or through the PhD, or they should complete a second major. Appropriate companion fields include languages, anthropology, computer science, English, mathematics, philosophy, psychology, sociology, speech pathology, and elementary and secondary education.

Learning Outcomes

Students will have the ability to:

- identify generalizations in language data;
- apply theoretical concepts to the analysis of language;
- understand and use the scientific method;
- present a valid and sound argument; and
- identify the empirical shortfalls of a linguistic analysis and think creatively about alternative solutions.

Requirements

The Bachelor of Arts with a major in linguistics requires a minimum of 120 s.h., including 30 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The major in linguistics prepares students to do basic language analysis in syntax-semantics (sentence patterns and their relation to meanings) and phonology (sound patterns). Elective courses in a variety of subspecialties enable students to tailor the program to their own interests.

The BA with a major in linguistics requires the following coursework.

Requirements	Hours
Major Courses	15
Electives	15

Major Courses

Students must complete no fewer than 15 s.h. of requirements for the major at the University of Iowa, including LING:3005 Articulatory and Acoustic Phonetics, LING:3010 Syntactic Analysis, and LING:3020 Phonological Analysis.

The course LING:1003 English Grammar does not count toward the linguistics major.

Course #	Title	Hours
All of these:		
LING:3001	Introduction to Linguistics	3
LING:3005	Articulatory and Acoustic Phonetics	3
LING:3010	Syntactic Analysis	3
LING:3020	Phonological Analysis	3
One of these:		
A course in language history, such as LING:3080		3
A course in an old language (classical Greek, Latin, Old English)		3

Electives

Electives are chosen in consultation with a faculty advisor (15 s.h.), bringing the total credit in the major to 30 s.h.

TESL Emphasis

As part of the major in linguistics, students may complete an emphasis in teaching English as a second language (TESL). The TESL emphasis can prepare students to teach English to non-native speakers abroad. It is also excellent preparation for graduate work in second language acquisition. TESL emphasis students complete the requirements for the linguistics major as listed, using the following coursework to partially satisfy the electives requirement.

Course #	Title	Hours
Both of these:		
LING:4040	The Structure of English	3
LING:4050	Methods of Teaching English as a Second Language	3
One of these:		
LING:3030	Child Language-Linguistic Perspectives	3
LING:3670	Language Processes	3
LING:4010	Undergraduate Practicum in Teaching English as a Second Language	3
LING:4090	Practical Phonetics	3

Combined Programs

BA/MA in Linguistics

Undergraduate linguistics majors who plan to earn a master's degree in linguistics have the opportunity to enroll in the Bachelor of Arts/Master of Arts in linguistics degree program. Students in the BA/MA program take selected graduate-level courses while they are still undergraduates and may count 13 s.h. of advanced coursework toward both degrees. Once students complete the requirements for the bachelor's degree, they are granted the BA, and they usually complete the MA one year later.

Students substitute some graduate-level coursework for typical undergraduate requirements. Instead of taking LING:3010 Syntactic Analysis to fulfill the BA syntax requirement, they take LING:5010 Introduction to Syntax, the

first course in the mandatory two-course syntax sequence for MA students. Instead of taking LING:3020 Phonological Analysis to fulfill the BA phonology requirement, they take LING:5020 Introduction to Phonology, the first in the graduate two-course phonology sequence.

To be admitted to the program, students must be working toward an undergraduate major in linguistics, must have completed at least 80 s.h. of undergraduate coursework (typically by the end of their fifth semester), and must have a grade-point average of at least 3.50.

Honors

Honors in the Major

Students majoring in linguistics have the opportunity to graduate with honors in the major. Departmental honors students must complete the required coursework for the major and must prepare an honors thesis, working in consultation with their academic advisor. Departmental honors students must maintain a University of Iowa grade-point average (GPA) of at least 3.33 and a major GPA of at least 3.50.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the linguistics major.

Career Advancement

Linguistics majors have found work teaching English as a second language overseas. Unique teaching opportunities worth exploring include those with the Peace Corps and Teach For America.

A number of companies, such as Microsoft, Xerox, Apple, Hewlett-Packard, and other high-tech firms, regularly hire employees with linguistics degrees. Opportunities also exist for government work, for example, as a special agent linguist for the FBI.

Some graduates choose to pursue advanced study in linguistics or other disciplines. Graduates with bachelor's degrees in linguistics may be admitted to certain graduate programs without additional academic preparation, such as anthropology, English literature, world language specializations, law, library science, philosophy, psychology, and sociology.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: LING:3001 Introduction to Linguistics and one additional linguistics course.

Before the seventh semester begins: three more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [i]		
	Hours	**15**
	Total Hours	**124-130**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students complete linguistics electives (prefix LING) chosen in consultation with an advisor, bringing total credit in the major to 30 s.h. LING:1003 may not be used as an elective course.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e Students may choose to take LING:1050 to fulfill this GE requirement.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g Students may choose to take LING:1040 to fulfill this GE requirement.

h Choose one of these: LING:3030, LING:3670, LING:4010, or LING:4090.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Russian, BA

The Russian major leading to the BA degree trains students in both written and spoken Russian and in Russian literature, culture, and civilization. The department encourages students to pursue a second major (e.g., global health studies, history, linguistics, political science) and to develop their interests in related or complementary fields. Students interested in focusing on a broader interdisciplinary understanding of the region may earn a second major in international studies; see the BA in international studies [p. 702] in the catalog.

Learning Outcomes

Russian majors will:

- enhance their language proficiency and cultural awareness of the Russian-speaking world;
- attain skills to engage critically with histories, cultures, literatures, and other arts, and gain knowledge of the diversified Russian-speaking world (Russia, former Republics of the Soviet Union, and Southern and Western Slavs);
- practice interpersonal, interpretative, and presentational communication skills at levels of increasing complexity as indicated by each course number and description;
- engage with multiple perspectives while practicing linguistic skills and analyzing cultural items, such texts, art and other images, or film and music; and
- develop intercultural competence, helping to engage with those whose first language is other than English.

Study Abroad

Russian is one of the most popular languages on earth. Contact the academic coordinator of the Russian program or International Programs Study Abroad for more information on safe programs abroad where Russian is one of the official languages.

Requirements

The Bachelor of Arts with a major in Russian requires a minimum of 120 s.h., including 31 s.h. of work for the major earned in Russian courses. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students must complete RUSS:2112 Second-Year Russian II or the equivalent before they complete language requirements for the major.

The BA with a major in Russian requires the following coursework.

Requirements	Hours
Language Courses	12
Composition and Conversation Course	4
Gateway Culture Courses	6
Advanced Culture Courses	9

Language Courses

Course #	Title	Hours
All of these:		
RUSS:2112	Second-Year Russian II	4
RUSS:3111	Third-Year Russian I	4
RUSS:3112	Third-Year Russian II	4

Composition and Conversation Course

Course #	Title	Hours
This course:		
RUSS:3113	Russian Composition and Conversation	4

Gateway Culture Courses

Course #	Title	Hours
Two of these (6 s.h.):		
RUSS:1131/ WLLC:1131	Introduction to Russian Culture	3
RUSS:1132	Russia Today	3
RUSS:1531	Slavic Folklore	3
RUSS:1532	Traces of Ancient Russian Culture (IX-XVII Centuries): Vikings, Mongols, and Tsars	3
RUSS:2050/ WLLC:2050	Women From an Unknown Land: The Fight for Independence	3
RUSS:2100	Russian Mindset: Sex, Business, and Politics	3
RUSS:2110	Russian Sports: Politics, Scandal, Glory	3

Advanced Culture Courses

Course #	Title	Hours
Three of these (9 s.h.):		
RUSS:3122/ TRNS:3122/ WLLC:3122	Tolstoy and Dostoevsky	3
RUSS:3202/ HIST:3492/ TRNS:3203/ WLLC:3202	Russian Literature in Translation 1860-1917	3
RUSS:3205	Contemporary Russian Prose in Translation	3
RUSS:3224	Russian Culture Through Cinema	3

Students are urged to choose elective courses in economics, geographical and sustainability sciences, history, political science, global health studies, and international studies. Nearly every avenue of professional training and employment requires a solid background in Russian area studies. For example, criteria for U.S. government employment include substantive knowledge in history, economics, political science, sociological disciplines, scientific specialties, demography, military-related skills, and in some cases, cultural and religious background. In-depth knowledge of literature or linguistics without other substantive background may be of limited practical use in finding employment.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

Majors must complete designated pedagogy and linguistics courses in the department in addition to the coursework required for their major.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. They must have junior or senior standing, a grade-point average (GPA) of at least 3.33 in Russian, and a cumulative University of Iowa GPA of at least 3.33 in order to enroll in the honors program.

Honors students must register for RUSS:4995 Honors. They must complete an honors project (e.g., thesis, translation, cultural studies, or research) in Russian. Students must present their work to a faculty committee as determined by their honors thesis advisor. Contact the department for more information about requirements for graduation with honors in the Russian major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the Russian major.

Financial Support

Undergraduate students have access to undergraduate awards and scholarships.

Career Advancement

Training in Russian is often an important asset to careers in the natural and physical sciences, engineering, medicine, business, journalism, library and information science, and the social and military sciences. It may also be appropriate preparation for the study of law or international relations as well as Russian language and literature, translation, and other humanistic disciplines.

Some governmental agencies are interested in job candidates who have advanced training in Russian; these agencies give preference to applicants who combine strong language proficiency with a well-rounded background in area studies. Students who develop an exceptional facility with the Russian language may pursue careers in literary and technical translation and interpretation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: competence in first-year Russian.

Before the fifth semester begins: competence in second-year Russian.

Before the seventh semester begins: competence in third-year Russian, an additional course in the major, and at least 90 s.h. earned toward the degree.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b RUSS:1111, RUSS:1112, and RUSS:2111 do not count for credit toward the major. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin major level coursework and not be required to take semesters 1-4 of the language.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e Only 3 s.h. from RUSS:2112 applies toward the major.

f Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Translation, BA

Translation is a crucial dimension of global society. Today's extensive exchange of material and nonmaterial cultures across national borders has made interconnectedness a defining feature of globalization. Translation has become at once the object, the conduit, and the method by which global culture gets generated, exchanged, and experienced. To brave this vast geography of interconnectedness requires a special reserve of knowledge and skills (i.e., global literacy) to support intercultural understanding and communication, critical inquiry and creativity, an ethics of trust and empathy, and global engagement and collaboration.

Undergraduate courses in translation equip students with proficiency in the complex, multifarious context in which texts are produced and processed. Critical reflection on and engaged practice of translation present unparalleled opportunities for undergraduate academic inquiry.

Students who major in translation become learned users of translation and critically reflective participants in the global circulation of information, people, and cultures. They graduate ready to fill the growing demand for trained translators to serve as language mediators in global sectors such as business, communication, and diplomacy.

Learning Outcomes

Students will:

- develop critical global literacies necessary for purposeful and productive participation in global professional and cultural environments;
- learn research methods to enhance creativity;
- develop foundational knowledge and practice of translation, in its various modes and contexts, necessary for graduate study in specialized translation programs;
- attain preprofessional competencies toward building a career as professional translators and language mediators; and
- gain awareness of the business and industrial dimensions of translation through networking and building communities.

Requirements

The Bachelor of Arts with a major in translation requires a minimum of 120 s.h., including 33 s.h. of work for the major. A minimum of 21 s.h. for the major must be earned at the University of Iowa. Coursework in the major may not be taken pass/nonpass. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students are encouraged to declare the major as early as possible, especially if they intend to pursue an additional major or minor. Active proficiency in a second language is required for the major; most students who successfully complete the major will need at least 6 s.h. of additional coursework beyond fourth-level proficiency in language study.

Students may count a maximum of 9 s.h. of coursework from another major, minor, or certificate toward the translation major. Students who earn a BA in translation may not earn a minor in translation for global literacy.

The major in translation prepares students to translate from another language into English or vice versa in a variety of fields such as literary, legal, medical, or technical translation. All students should tailor their plan of study to their experience and objectives. Students interested in the major should meet with a faculty member associated with the major program as soon as possible to develop an individualized plan of study.

Courses listed in two or more categories may only be used toward one requirement.

The BA with a major in translation requires the following coursework.

Requirements	Hours
Gateway and Foundation Courses	12
Workshops	6
Seminar	3
Electives	6
Outreach and Engagement	3
Capstone	3
Language Proficiency	

Gateway and Foundation Courses

Course #	Title	Hours
One of these:		
TRNS:1240/ CLSA:1040	World Literature in Translation I	3
TRNS:1241	World Literature: 1700 to Present	3
All of these:		
TRNS:2000	Translation and Global Society	3
TRNS:2578	Translation in the Humanities: Modes and Approaches	3
TRNS:3001	Reading for Translation: Text Analysis	3

Workshops

Course #	Title	Hours
This course:		
TRNS:3179/ CLSA:3979/ ENGL:3850	Undergraduate Translation Workshop	3
One of these:		
TRNS:4050	Independent Study	3
ARAB:3060	Introduction to Arabic-English Translation	3
CHIN:3201/ TRNS:3202	Workshop in Chinese Literary Translation	3
CLSL:3200/ CLSG:3200/ TRNS:3205	Literary Translation Workshop in Ancient Greek and Latin	3
ENGL:4724	Advanced Writers' Seminar: Literary Translation	3
FREN:3232/ TRNS:3232	French Literary Translation Workshop	3
IWP:5205/ TRNS:5210	International Translation Workshop	3
JPNS:3201/ TRNS:3201	Workshop in Japanese Literary Translation	3

KORE:3200	Introduction to Korean-English Translation	3
SPAN:3030	Translation Workshop: English to Spanish	3
SPAN:3050	Translation Workshop: Spanish to English	3
WLLC:3208/ ASIA:3208/ TRNS:3208	Classical Chinese Literature Through Translation	3

Seminar

Course #	Title	Hours
One of these:		
TRNS:4131/ WLLC:4131	Critical Reading	3
TRNS:4470	Translating Style	3

Electives

Students earn 6 s.h. in electives chosen from a list of approved courses in consultation with a faculty advisor. Many different courses can be used to satisfy the electives requirement.

The following are examples of possible electives.

Course #	Title	Hours
ARAB:2012	Modern Palestinian Literature and Culture	3
ARTH:1020	Masterpieces: Art in Historical and Cultural Perspectives	3
ASIA:1510/ WLLC:1510	Ghost Stories and Tales of the Weird in Premodern Chinese Literature	3
FREN:1006	Global Sports and National Cultures	3
GRMN:2275	Scandinavian Crime Fiction	3
IS:2000	Introduction to International Studies	3
JPNS:3208	Japanese Film	3
RUSS:1531	Slavic Folklore	3
SPAN:2050	Spanish in the United States	3

Outreach and Engagement

Course #	Title	Hours
One of these:		
TRNS:3491	Translation Internship	3
TRNS:3498/ ARAB:3498	Internship/Community Engagement	3
Internship or study abroad experience, approved by the translation program		3

Capstone

Course #	Title	Hours
One of these:		
TRNS:4500/ ITAL:4500	Undergraduate Capstone Project	3
Language-specific capstone related to translation in the Department of Languages, Linguistics, Literatures, and Cultures or the Department of Spanish and Portuguese		3

Language Proficiency

Students are required to have language proficiency in the world language from which the student plans to translate, demonstrated by successfully completing an advanced course taught in that language: either a course numbered 4000 or above or a course at the highest level available in that language at the University of Iowa. With the consent of the advisor, exceptions can be made for transfer courses or independent study to meet the language proficiency requirement.

The following are possible choices.

Course #	Title	Hours
ARAB:3060	Introduction to Arabic-English Translation	3
CHIN:4103	Fourth-Year Chinese: First Semester	3
CLSG:3001	Archaic and Classical Periods I	3
CLSG:3002	Archaic and Classical Periods II	3
CLSL:3001	Latin Literature of the Republic I	3
CLSL:3002	Latin Literature of the Republic II	3
FREN:4020	Oral Expression in French II	3
FREN:4080	Post-Colonial Literature in France	3
FREN:4090	Quebec Literature	3
FREN:4110	Francophone Studies: Literature and the Arts	3
FREN:4750	Topics in French Studies II	3
GRMN:3104	Composition and Conversation II	3
GRMN:3501	German Writers Engaged	3
GRMN:3855	The Sounds of German	3
GRMN:3860/ LING:3860	German Language and Society	3
ITAL:4660/ TRNS:4660	Transcultural Texts and Translations	3
ITAL:4667	Modern Italian Fiction	3
ITAL:4668	Modern Italian Poetry and Theater	3
JPNS:4001	Fourth-Year Japanese I	3
KORE:4000	Fourth Year Korean: First Semester	3
RUSS:4111	Fourth-Year Russian I	4
SPAN:4150/ SLA:4300	Introduction to Spanish Syntax	3
SPAN:4170	Second Language Acquisition	3
SPAN:4205/ GHS:4205	Culture, Language, and Health	3
SPAN:4390/ LAS:4390	Topics in Spanish American Literature	3
SPAN:4690	Topics in Spanish Literature	3
SPAN:4815/ LAS:4815	Lost Childhoods: Marginal Children of Latin America	3
SWAH:3007	Advanced Swahili	3

Related Majors and Programs

Translation majors can pursue second degrees or certificates in programs that emphasize language proficiency, writing arts, and international and global inquiry such as ancient civilization, classical languages, creative writing, global health, international business, international relations, international studies, screenwriting, world language education, and world languages, literatures, and cultures.

Honors

Honors in the Major

Students majoring in translation have the opportunity to graduate with honors in the major. Departmental honors students must complete the required coursework for the major and an honors thesis or project. They must attain a grade-point average (GPA) of at least 3.50 in the major, and a cumulative University of Iowa GPA of at least 3.33.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the translation major.

Career Advancement

The translation program approaches translation as a crucial dimension of global literacy and communication, and a valuable career competency for the future. Graduates complete pre-professional training to obtain specializations to serve as translators in global sectors such as business, communication, and diplomacy where there is growing demand for language mediation.

Graduates are strongly encouraged to pursue graduate study in a range of programs, including specialized translation and interpreting programs; area studies; world languages, literatures, and cultures studies; education and teacher-training programs in schools, cultures, and society; global studies; international business; law school; nonprofit management; international development, and other fields in which language proficiency and language mediation are assets.

Graduates find opportunities in a range of professions for which language mediation is desirable: translation services; independent literary or legal/medical/business translation; international businesses; international agencies; publishing and media; refugee/immigrant service organizations; nongovernmental organizations (NGOs); schools and educational institutions; and research and academic institutions.

Translation graduates also receive fellowships to travel and work/teach abroad.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: completion of fourth-level proficiency or two world language courses numbered 2000 or above, TRNS:2000 Translation and Global Society, and one additional major course.

Before the seventh semester begins: three more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Students must demonstrate language proficiency by successfully completing either a course numbered 4000 or above or a course at the highest level available in that language at the University of Iowa. Students should continue language study if proficiency has not yet been reached. See General Catalog and consult an advisor for more information.

h See General Catalog for full list of approved courses.

i Students must complete 6 s.h. in elective courses in consultation with a faculty advisor. See General Catalog for examples of acceptable choices; see advisor for full list of approved courses.

j Students can complete the outreach and engagement requirement in one of three ways: an internship registered as TRNS:3491 or TRNS:3498, or another internship or study abroad experience approved by the translation program.

k Students must complete TRNS:4500 or an approved language-specific capstone related to translation in a Division of World Languages, Literatures, and Cultures department.

l Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all

requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

American Sign Language, Minor

Requirements

The undergraduate minor in American Sign Language (ASL) requires 16 s.h. of ASL coursework, including 12 s.h. in advanced courses numbered 2500 or above taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor must include ASL:2002 American Sign Language IV or demonstrated equivalent proficiency. Only one American Sign Language in English course (prefix ASLE) may be applied to the minor in ASL; if students choose to apply an ASLE course toward the minor, it must be taken for 4 s.h. All ASLE courses are taught in English.

The minor in American Sign Language requires the following coursework.

Course #	Title	Hours
This course:		
ASL:2002	American Sign Language IV	4
At least 12 s.h. from these:		
ASL:3001	American Sign Language V	3
ASL:3100	American Sign Language Conversation	3
ASL:3200	Topics in Deaf Studies	3
ASL:3300	American Deaf Culture	3
ASL:3400	Issues in ASL and Deaf Studies	3
ASL:3500	Deafness in the Media	3
ASL:3600	American Sign Language Literature	3
ASL:3700	Deaf Gain: Reframing Deaf People, Cultures, and Languages	3
ASL:4201/ HIST:4201	History of the American Deaf Community	3-4
ASLE:2500	Introduction to Interpreting	4
ASLE:3905/ EDTL:3905	Teaching Deaf and Hard of Hearing Students	4

Academic Plans

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on track to graduate in the typical four-year time frame to meet the requirements for the ASL minor:

- before the third semester begins, students should have completed ASL:1001 American Sign Language I (this course should be taken as early as possible); and
- before the sixth semester begins, students should have completed ASL:2002 American Sign Language IV.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

American Sign Language, Minor

Course	Title	Hours
Academic Career		
Any Semester		
The undergraduate minor in American Sign Language (ASL) requires 16 s.h. of ASL coursework, including 12 s.h. of advanced courses numbered 2500 or above taken at the University of Iowa.		
Students must maintain a GPA of at least 2.00 in all courses for the minor.		
Coursework in the minor may not be taken pass/nonpass.		
	Hours	**0**
First Year		
Fall

Fourth Year		
Fall		
Minor: ASL elective [d, e]		3 - 4
	Hours	**3-4**
Spring		
Minor: ASL elective [d, e]		3 - 4
	Hours	**3-4**
	Total Hours	**28-32**

a Language level placement will be determined by placement exam score and/or interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.

b This course is a prerequisite for the required minor courses.

c Minor must include ASL:2002 or demonstrated equivalent proficiency.

d Choose from: ASL:3001, ASL:3100, ASL:3200, ASL:3300, ASL:3400, ASL:3500, ASL:3600, ASL:3700, ASL:4201/ HIST:4201, ASLE:2500, ASLE:3905/EDTL:3905.

e Only one American Sign Language course taught in English (ASLE) may be applied to the minor in ASL; if students

choose to apply an ASLE course toward the minor, it must be taken for 4 s.h.

Arabic Studies, Minor

Requirements

The undergraduate minor in Arabic studies requires a minimum of 16 s.h. earned in Arabic courses (prefix ARAB) considered intermediate (numbered 2000–2999) or advanced (numbered 3000 or above). A maximum of 3 s.h. may be taken in approved coursework taught in English. At least 12 s.h. must be taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Required Coursework

Course #	Title	Hours
All of these:		
ARAB:2001	Intermediate Modern Standard Arabic I	5
ARAB:2002	Intermediate Modern Standard Arabic II	5
At least one Arabic course (ARAB) numbered 2000 or above taught in Arabic		3

Courses Taught in English

Students may apply 3 s.h. of the following approved coursework taught in English toward the minor.

Course #	Title	Hours
ARAB:2006	Transnational Solidarities	3
ARAB:2010	The Modern Arabic Short Story	3
ARAB:2012	Modern Palestinian Literature and Culture	3
ARAB:2060	Arab-American Immigration: Society, Identity, and Culture	3
ARAB:3005	Culture and Resistance: The Modern Middle East	3
Related elective (program approval required)		3

c This course is a prerequisite for the required minor courses.
d Work with academic advisor to select appropriate course.

Asian Languages and Literature, Minor

Requirements

The undergraduate minor in Asian languages and literature is offered with two emphases: Chinese or Japanese. The minor requires 15–17 s.h. of credit, depending on the emphasis. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students may earn the Asian languages and literature major and minor if the minor emphasis language (Chinese or Japanese) differs from the major language track.

The minor requirements for each emphasis are listed below.

- Chinese Emphasis [p. 733]
- Japanese Emphasis [p. 733]

Chinese Emphasis

The minor in Asian languages and literature with Chinese emphasis requires 15 s.h., including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. Some of the courses below have prerequisites; students must complete all of a course's prerequisites before they may register for that course.

Students with the Chinese emphasis must complete the following coursework.

Requirements	Hours
Prerequisite Chinese Language Courses	
Chinese Language Courses	6
Gateway Courses	3
Literature and Culture Courses	3
Linguistics and Advanced Language Studies Courses	3

Prerequisite Chinese Language Courses

Students must successfully complete the prerequisite courses that follow or the equivalent before they enroll in required courses. These courses do not count as credit earned toward the minor.

Course #	Title	Hours
All of these:		
CHIN:1111	First-Year Chinese: First Semester	5
CHIN:1112	First-Year Chinese: Second Semester	5
CHIN:2101	Second-Year Chinese: First Semester	5
CHIN:2102	Second-Year Chinese: Second Semester	5

Chinese Language Courses

Course #	Title	Hours
This sequence:		
CHIN:3101 & CHIN:3102	Third-Year Chinese: First Semester and Third Year Chinese: Second Semester	6

Gateway Courses

Course #	Title	Hours
One of these:		
CHIN:1504	China Beyond Walls	3
CHIN:1702	Chinese Popular Culture	3
CHIN:1800	Chinese Calligraphy and Culture	3

Literature and Culture Courses

Course #	Title	Hours
One of these:		
CHIN:3201/ TRNS:3202	Workshop in Chinese Literary Translation	3
CHIN:3341	Chinese Literature: Poetry	3
CHIN:4203	Modern Chinese Writers	3
CHIN:4206	Chinese Cinema	3

Linguistics and Advanced Language Studies Courses, Chinese

Course #	Title	Hours
One of these:		
CHIN:3302/ LING:3302/ SLA:3302	Introduction to Chinese Linguistics	3
CHIN:4101	Classical Chinese: First Semester	3
CHIN:4150	Advanced Reading and Writing in Chinese	3

Japanese Emphasis

The minor in Asian languages and literature with Japanese emphasis requires 17 s.h., including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. Furthering Language Incentive Program (FLIP) credit may not be counted toward the Japanese emphasis.

Students must successfully complete the prerequisite courses that follow or the equivalent before they enroll in required courses. These courses do not count as credit earned toward the minor.

Course #	Title	Hours
JPNS:1001	First-Year Japanese: First Semester	5
JPNS:1002	First-Year Japanese: Second Semester	5
JPNS:2001	Second-Year Japanese: First Semester	5
JPNS:2002	Second-Year Japanese: Second Semester	5

The minor with Japanese emphasis must include the following courses.

Course #	Title	Hours
JPNS:3001	Third-Year Japanese I	4
JPNS:3002	Third-Year Japanese II	4
One course in literature and translation		3
One course in linguistics and advanced language studies		3
One course in literature and translation, or in linguistics and advanced language studies, or in cultural studies		3
Total Hours		**17**

Students select courses in literature and translation, linguistics and advanced language studies, and cultural studies from the following course lists.

Literature and Translation Courses

Course #	Title	Hours
JPNS:3201/ TRNS:3201	Workshop in Japanese Literary Translation (only 3 s.h. of JPNS:3201 may be applied to minor requirements)	3
JPNS:3202	Traditional Japanese Literature in Translation	3
JPNS:3203	Modern Japanese Fiction in Translation	3
JPNS:3204	Topics in Japanese Literature in Translation	1-3
JPNS:3205	Major Authors in Modern Japanese Literature	3
JPNS:3206	Warriors' Dreams	3
JPNS:3207	Japan Illuminated: Japanese Literature and Visual Culture	3
JPNS:3208	Japanese Film	3
JPNS:3210	Japanese Theater	3
JPNS:3601	Contemporary Japanese Culture	3
JPNS:4201	Genji Lab	3

Linguistics and Advanced Language Studies Courses, Japanese

Course #	Title	Hours
JPNS:3107	Classical Japanese: First Semester	3
JPNS:3128	Introduction to Japanese Linguistics	3
JPNS:3401	Language in Japanese Society	3
JPNS:3402	Japan: Culture and Communication	3
JPNS:3500	Japanese for Professional Purposes	3

Cultural Studies Courses

Course #	Title	Hours
Asian and Slavic Languages and Literatures		
ASIA:1005	Scripts and Trips: A Journey Through East Asia (when topic is focus on Japan)	3
JPNS:1506	Ghostly Japan	3
Art History		
JPNS:2250/ ARTH:2250	Introduction to the Art of Japan	3

French, Minor

Requirements

The undergraduate minor in French requires a minimum of 15 s.h. earned in advanced French courses (prefix FREN) numbered 3000 or above, including at least 9 s.h. taken at the University of Iowa. All courses for the minor must be taught in French. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The French Language and Culture Advanced Placement (AP) exam with a score of 4 or higher is considered to be the equivalent to FREN:3000 Third-Year French. Furthering Language Incentive Program (FLIP) credit may not be counted toward the minor.

Credit from the University Studies Abroad Consortium (USAC) programs in Pau and Lyon, France, and the Study in Montpellier program in France counts as University of Iowa credit for the minor; 6 s.h. earned in other study abroad programs may be counted toward the minor.

Those who plan to use their work toward a minor in French as an academic background for earning teacher licensure should contact the Office of Student Services in the College of Education about requirements.

a This course is a prerequisite for the required minor courses.

b Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.

German, Minor

Requirements

The undergraduate minor in German requires a minimum of 15 s.h. in college-level German courses, including at least 9 s.h. in courses taken at the University of Iowa. All German courses (prefix GRMN) numbered 3000 or above with the language of instruction in German count toward the minor. At least 9 s.h. of coursework toward the minor must consist of German courses numbered 3000–4999. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor may include up to 6 s.h. from GRMN:2001 Intermediate German I or GRMN:2002 Intermediate German II or from equivalent transfer, Furthering Language Incentive Program (FLIP), or Advanced Placement (AP) credit.

Students may count no more than one German course (prefix GRMN) taught in English toward the minor. These include German courses in the World Language and Cultural Exploration category of the General Education curriculum (numbered 1500–1999) or German courses in other General Education categories (numbered 2500–2999).

With the approval of the director of undergraduate studies for German, students may count up to 6 s.h. earned in study abroad programs toward the minor. Students may also apply one course from the University of Iowa Honors Program to the requirements for the minor when that course concerns German culture or language, with approval from the director of undergraduate studies.

Study Abroad

The University of Iowa offers a number of opportunities for study in Germany, Switzerland, and Austria. Students frequently choose to participate in the summer USAC Lüneburg program, the Dortmund University Exchange, or the Academic Year in Freiburg program at the Albert Ludwig University of Freiburg. Students should consult Study Abroad and the German undergraduate advisor to select a program that fits their interests.

Students pursuing a minor in German often enroll in one of the summer sessions offered by the USAC Lüneburg program, but minors are eligible for all study abroad programs offered by the University. Up to 6 s.h. of study abroad credit can be applied to the requirements for the minor.

For more information about study abroad opportunities, contact International Programs Study Abroad.

Teacher Licensure

Students who plan to use their work toward a minor in German as an academic background for earning teacher licensure should contact the Office of Student Services in the College of Education about requirements.

International Studies, Minor

Requirements

The undergraduate minor in international studies requires a minimum of 16 s.h., including 13 s.h. in courses taken at the University of Iowa.

Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

A minor in international studies requires the following work.

Required Courses

Course #	Title	Hours
One of these:		
IS:2000	Introduction to International Studies	3
IS:2020	World Events Today!	3
Both of these:		
IS:2009	World Travel: Cross-Cultural Skills for International Business, Education, and Service	3
IS:2500	Working Internationally	1

Global Perspectives and World Cultures

Students must complete at least 6 s.h. in courses numbered 2000–4999 from the global perspectives or the world cultures and societies course tables; see Requirements [p. 702] in the BA in international studies section of the catalog.

Additional Requirement

Study Abroad, Experiential Learning, or Additional Course

Students complete 3 s.h. with a University of Iowa study abroad course, one of the courses in the following list, or an additional course numbered 2000–4999 from the global perspectives or the world cultures and societies course tables; see Requirements [p. 702] in the BA in international studies section of the catalog.

Course #	Title	Hours
One of these (minimum of 3 s.h.):		
IS:2000	Introduction to International Studies (if not taken as a foundation course)	3
IS:2400	Global Citizenship and the College Student	3
IS:2560	Global Food Migrations	3
IS:3012	Service Learning in International Studies	3
Approved coursework numbered 2000-4999 from Global Perspectives or World Cultures and Societies		3
Approved study abroad coursework		3

Italian, Minor

Requirements

The undergraduate minor in Italian requires a minimum of 15 s.h., including 12 s.h. earned in advanced Italian courses (prefix ITAL) numbered 3000 or above taken at the University of Iowa. Images of Modern Italy (ITAL:2550) and Dante's Inferno (ITAL:4633), if taken for 4 s.h. (includes discussion section in Italian), will count toward the 12 s.h. of advanced courses required for the minor. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Credit for the Italian Language and Culture Advanced Placement (AP) exam with a score of 4 or higher or Furthering Language Incentive Program (FLIP) credit equivalent to ITAL:2204 Intermediate Italian II may be counted toward the 3 s.h. maximum of lower-level courses allowed for the minor.

Those who plan to use their work toward a minor in Italian as an academic background for earning teacher licensure should contact the Office of Student Services in the College of Education about the requirements.

a Language level placement will be determined by the online placement test score and consultation with the Director of Italian Studies. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.

b This course is a prerequisite for the required minor courses.

c Students may also take an Italian elective course

d All courses for the minor must be taught in Italian; ITAL:2550 and ITAL:4633, if taken for 4 s.h. (includes discussion section in Italian), will count towards the 12 s.h. of advanced courses required for the minor.

Korean Studies, Minor

Requirements

The undergraduate minor in Korean studies requires a minimum of 15 s.h., with a minimum of 9 s.h. completed at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

A maximum of 6 s.h. of transfer coursework may be selected out of approved study abroad coursework. See "Study Abroad" below for details.

Required Courses

Course #	Title	Hours
One of these:		
KORE:1135	Cultural Fusion: Korean Pop Culture in a Globalized World	3
KORE:3100/ LING:3101	Introduction to Korean Linguistics	3
KORE:3200	Introduction to Korean-English Translation	3
Two of these:		
KORE:3101	Third-Year Korean: First Semester	3
KORE:3102	Third-Year Korean: Second Semester	3
KORE:4000	Fourth Year Korean: First Semester	3
KORE:4001	Fourth Year Korean: Second Semester	3

Electives

Students proficient through upper-level Korean language courses (more advanced than third-year Korean or with a Test of Proficiency in Korean [TOPIK] level of 3 or higher) and who have an approved waiver from the Korean program coordinator may substitute 6 s.h. of other coursework from the list below instead of completing the Korean language requirement.

Students proficient through upper-level Korean language courses who do not have a waiver must complete a minimum of 3 s.h. in a related area elective. They can select a course from the list below or consult with the Korean program coordinator for approval to take a different elective course.

All other students select 6 s.h. from the following (consult the Korean program coordinator for options involving study abroad or waivers). KORE:3070 Topics in Korean Studies is designated for Big Ten Academic Alliance (BTAA) Korean e-school courses, which are delivered via video conferencing from other Big Ten institutions.

Course #	Title	Hours
KORE:1135	Cultural Fusion: Korean Pop Culture in a Globalized World (if not already taken)	3
KORE:1670/ ASIA:1670/ RELS:1670	Korea in the World	3
KORE:3070	Topics in Korean Studies	3
KORE:3100/ LING:3101	Introduction to Korean Linguistics (if not already taken)	3
KORE:3200	Introduction to Korean-English Translation (if not already taken)	3
KORE:5102	Individual Korean for Advanced Students (with instructor approval)	arr.
HIST:1607/ ASIA:1607	Civilizations of Asia: Korea	3-4
HIST:2687/ ASIA:2887	Perspectives on Korea	3
HIST:3685/ ASIA:3685	Modern Korean History	3
Study abroad options (see "Study Abroad")		arr.

Study Abroad

Students may select a maximum of 6 s.h. (one or two courses per year) from courses offered by Ewha Womans University, Korea University, or other universities in South Korea eligible for credit transfer. Consult the Korean program coordinator before undertaking study abroad work.

Translation for Global Literacy, Minor

Requirements

The undergraduate minor in translation for global literacy requires a minimum of 18 s.h., including a minimum of 12 s.h. in courses taken at the University of Iowa. At least 12 s.h. of coursework must be taken in courses numbered 2000 or above. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students are encouraged to declare the minor after satisfying the GE CLAS Core [p. 22] World Languages requirement or during more advanced language study. Most students who successfully complete the minor will need at least 6 s.h. of additional coursework beyond fourth level proficiency in language study.

Students may count a maximum of 6 s.h. of coursework taken for each major, minor, or certificate program toward the requirements for the minor. Students who earn a BA in translation may not earn a minor in translation for global literacy.

All students should tailor their plan of study to their experience and objectives. Students interested in the minor should meet with a faculty member associated with the minor program as soon as possible to develop an individualized plan of study.

Courses listed in two or more categories may only be used toward one requirement.

The minor in translation for global literacy requires the following coursework.

Requirements	Hours
Core Course	3
Translation Courses	6
Language, Linguistics, Literature, and Culture Courses	6
Capstone Course	3

French and Francophone World Studies, MA

The Master of Arts in French and Francophone world studies is offered with an optional French education emphasis.

For more detailed information on graduate degrees in French and Francophone world studies, contact the Department of Languages, Linguistics, Literatures, and Cultures.

Learning Outcomes

- Mastery level of competence and proficiency in spoken and written French. Ability to change between languages and registers with ease as well as express sophisticated ideas in both English and French.
- Ability to perform a formal analysis of literary texts from a variety of genres, including narrative, poetry, theater, and those situated at the limits between traditional notions of genre as well as the visual arts.
- Knowledge of the various periods and subfields of French and Francophone literature from the Renaissance to the present, including major literary, cultural, and historical movements, and the relationship between France and its former colonies.
- Understanding of critical theory and its potential use for analyzing objects of study from a variety of media.
- Ability to think critically and make sustained and convincing arguments in relation to scholarship in the field, as well as express original opinions and thinking, as evidenced in a body of scholarship such as final papers.

Requirements

The Master of Arts program in French and Francophone world studies requires a minimum of 30 s.h. of graduate credit and is offered with or without thesis.

Thesis students may apply up to 6 s.h. of thesis credit toward the 30 s.h. required for the degree. They must take a written and oral examination on their areas of study and must defend their thesis at the time of the comprehensive examination. The thesis prospectus must be accepted one year before a student defends the thesis.

Nonthesis students must pass a written and oral examination. With permission of the director of graduate studies and the department chair, nonthesis students may earn up to 6 s.h. of the required 30 s.h. outside the department or transfer up to 6 s.h. of coursework completed at another institution.

All MA students must complete the following coursework.

Course #	Title	Hours
FREN:5001	Introduction to Graduate Study	2
FREN:5020	Comparative Stylistics	3
At least four graduate-level literature or culture courses numbered 5000 or above		

French Education Emphasis

The Master of Arts program with French education emphasis requires a minimum of 38 s.h. of graduate credit in French. The program is intended primarily for prospective secondary school and community college teachers. Candidates must pass a final written and oral examination.

All French education emphasis students must complete the following coursework.

Course #	Title	Hours
FREN:5001	Introduction to Graduate Study	2
FREN:5020	Comparative Stylistics	3
Courses in French literature numbered 5000 or above (minimum requirement)		9

Combined Programs

French and Francophone World Studies, MA/Literary Translation MFA

The Department of Languages, Linguistics, Literatures, and Cultures offers a combined Master of Arts in French and Francophone world studies and Master of Fine Arts in literary translation. Students interested in writing in its different forms—creative, academic, and translation—will find the University of Iowa to be the ideal place to develop their talents and an attractive option for more diversified career preparation.

A separate application and admission to each degree program is required. For more information, review the admissions requirements for French and Francophone world studies and literary translation.

Students in the combined program earn both degrees by completing a minimum of 60 s.h. of coursework, fewer semester hours than if each degree was completed separately. Qualified students may be eligible for up to three years of full funding for a teaching assistant (TA) position.

Students are held to the core translation courses (9 s.h.) and thesis workshop (3 s.h.) requirements in the MFA in literary translation. In addition to the four translation workshop courses (12 s.h.), students in the combined program complete two translation workshops (6 s.h.) for a total of 18 s.h. They are permitted to apply FREN:3232 French Literary Translation Workshop toward the translation workshop requirement. These two additional translation workshops apply toward elective requirements; the remaining 18 s.h. of electives is shared with French and Francophone world studies MA.

Students in the combined program are required to complete a thesis for the MFA in literary translation. For the MA in French and Francophone world studies, students are not required to complete a thesis. Should they choose to do so, a separate thesis is required.

Admission

Applicants must have completed the equivalent of the University of Iowa undergraduate major in French. They also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants for the fall semester whose application materials are received in the department by Jan. 15 have the best chance to be admitted and receive financial aid. They must submit academic transcripts, letters of recommendation from three persons familiar with their past academic work, a statement of purpose in taking graduate work, and one or more samples of original writing, one of which should be in French, that show their ability to pursue graduate work in

French (an honors thesis, term paper, seminar paper, or other course papers).

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students may complete 38 s.h. of graduate level coursework for the French education emphasis. In addition to fulfilling the requirements for the MA non-thesis, an additional 9 s.h. of coursework in French literature numbered 5000 or above is required. Graduate elective coursework may be reduced by 1 s.h. if students choose to complete the French education emphasis.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Complete at least four graduate-level literature or culture courses numbered 5000 or above.

d May apply 6 s.h. towards the degree from coursework outside the department, including graduate transfer coursework.

e Written and oral exam on areas of study.

Linguistics, MA

The Master of Arts in linguistics emphasizes theory and research. They prepare students for academic and non-academic careers.

The Department of Languages, Linguistics, Literatures, and Cultures has particular strengths in phonology, syntax, and language acquisition.

The phonology curriculum emphasizes current theoretical perspectives, including optimality theory, and the collection, description, and interpretation of novel phonological and phonetic data. Courses feature extensive work in data analysis and problem-solving, focusing on the construction and evaluation of phonological theories, particularly in light of new empirical data.

The syntax curriculum includes the dual emphases of empirical and theoretical perspectives. It offers a variety of foundational courses that build analytic and argumentation skills, as well as specialized coursework on current issues in syntactic theory. The courses consist of intensive work in problem-solving. They combine the discovery and description of new linguistic data with the exploration of the implications of such facts in testing and constructing syntactic theories.

The curriculum in language acquisition includes courses that provide an overview and analysis of current second language acquisition research. Work focuses on experimental research investigating the influence of the first language, environmental and contextual factors, and related topics.

Learning Outcomes

The master's degree in linguistics is intended for students who want to pursue a PhD in linguistics or are interested in linguistics-related professional areas.

Students are expected to:

- be familiar with the basics of theoretical linguistic approaches to phonology and syntax, be able to analyze linguistic data using formal theoretical linguistics approaches, and be familiar with the basics of applied phonetics and approaches to multilingual language acquisition research;
- be familiar with the basics of empirical research in linguistics and be able to use appropriate software and methods to understand original research;
- be able to write a formal research paper in syntax and phonology demonstrating a critical evaluation of a particular problem or issue they have investigated;
- be familiar with the basics of multilingual language acquisition from a theoretical and empirical perspective;
- formulate a research project by the end of their third semester if they have articulated the goal of continuing to a PhD program in linguistics; and
- possibly explore course options in areas related to their professional development if they are not planning on continuing to a PhD program in linguistics.

Requirements

The Master of Arts in linguistics requires a minimum of 34–37 s.h. of graduate credit. Students must maintain a Graduate College major program grade-point average of at least 3.00. The degree is offered with two options: without a thesis (34 s.h.) and with a thesis (37 s.h.). A student's advisor must approve all courses that count toward the degree. All courses must be taken on an A–F graded basis.

Core Courses

Students complete the following set of required core courses in phonetics, phonology, syntax, and language acquisition for a total of 22 s.h.

Course #	Title	Hours
All of these:		
LING:3005	Articulatory and Acoustic Phonetics	3
LING:5000	Proseminar: Morphosyntax	1
LING:5010	Introduction to Syntax	3
LING:5020	Introduction to Phonology	3
LING:6010	Syntactic Theory	3
LING:6020	Phonological Theory	3
LING:6080	Topics in Second Language Acquisition	3
One of these:		
LING:6040	Linguistic Structures	3
LING:6050	Language Universals Linguistic Typology	3

Electives

Students are encouraged to use electives to focus on a specialized area, such as data analytics. With advisor permission, additional non-linguistics courses may be considered as elective options.

Students not completing a thesis take 12 s.h. of linguistics courses (prefix LING) numbered 4000 or above, excluding LING:4010, LING:4050, LING:4900, LING:6900, and LING:7900. These may include a maximum of 6 s.h. total from LING:4195 Linguistics Lab II, LING:5090 Special Projects, and LING:7100 Special Projects.

Students completing a thesis take 15 s.h. of linguistics courses numbered 4000 or above, excluding LING:4010, LING:4050, LING:4900, and LING:7900. This may include a maximum of 9 s.h. total from LING:4195 Linguistics Lab II, LING:5090 Special Projects, LING:6900 Master's Thesis, and LING:7100 Special Projects. Students must take at least 3 s.h. in LING:6900 Master's Thesis.

Admission

Applicants to the MA program in linguistics must submit an application to the Graduate College, including three letters of recommendation. Applications for admission should be submitted as early as possible for the following academic year.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Career opportunities in linguistics can be found in academia, government, industry, and the non-profit sectors.

A number of companies, such as Microsoft, Xerox, Apple, Hewlett-Packard, and other high-tech firms, regularly hire employees with linguistics degrees. Opportunities also exist

for government work, for example, as a special agent linguist for the FBI.

The Linguistic Society of America has a wealth of resources available to individuals interested in pursuing a career in linguistics.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Complete 12 s.h. of Department of Linguistics coursework, which may include a 9-12 s.h. focus. Work with faculty advisor to determine appropriate coursework and sequence.

Literary Translation, MFA

Learning Outcomes

Students will be able to demonstrate:

- skills and knowledge of literary translation practice as a creative art;
- broad knowledge of the professional field of literary translation;
- familiarity with the cultural and literary context of the student's source language;
- understanding of literary translation as a critical and reflective practice and of the history and contemporary discourse on translation theories; and
- ability to independently complete a literary translation project of scope and sophistication.

Requirements

The Master of Fine Arts program in literary translation requires 48 s.h. of graduate credit, including a thesis. Students must maintain a UI cumulative grade-point average of at least 2.75. They typically complete the program and graduate in two to three years.

Translators in the program focus on creating works that can convey the distinctness of the original languages and the immediacy of contemporary languages, whether poetry, fiction, or drama. Students consider ideas of literariness, style, cultural politics, and authority, and how these come into play in the relationships between authors and their texts, authors and translators, translations and readers, and in the media landscapes in which these circulate.

At the core of the MFA program are the workshops, TRNS:6555 Translator-in-Residence Workshop and TRNS:7460 Translation Workshop, which every student must take for a minimum of 12 s.h. of credit. Depth in the literature and culture of the source language, creative writing (translation is considered a writing art), translation theory and history, and contemporary literary theory are basic curricular requirements, supplemented with elective courses in which students may develop an area of special interest in consultation with their advisors.

During the first year, each student has an advisory committee of two faculty members: one from the translation program, who is the student's primary advisor; and one from the departments of Languages, Linguistics, Literatures, and Cultures or Spanish and Portuguese or from one of the MFA writing programs. A third member joins the committee during the second year when a student submits the thesis proposal. At least one member of the committee should be competent in the student's source language.

The MFA in literary translation requires the following coursework.

Requirements	Hours
Core Courses	24
Electives	24
Thesis	

Core Courses

Students must take TRNS:6000, TRNS:6399, and TRNS:6459 on an A–F graded basis.

Course #	Title	Hours
All of these (9 s.h.):		
TRNS:6000	The Craft and Contexts of Translation	3
TRNS:6399	Writing About Translation	3
TRNS:6459	Issues in Translation	3
Translation Workshops		
12 s.h. from these:		
TRNS:6555	Translator-in-Residence Workshop (may be repeated)	3
TRNS:7460	Translation Workshop (may be repeated)	3
This course:		
TRNS:6444	Thesis Workshop	3

Electives

Students select 24 s.h. of electives in consultation with their advisors, with up to 6 s.h. of credit from the pedagogy courses in the following list. They are strongly encouraged to enroll in a minimum of 12 s.h. in translation courses (prefix TRNS). A maximum of 3 s.h. from TRNS:6400 Thesis may count as elective credit. With permission of a student's advisor, additional electives not listed here may be selected.

Pedagogy Courses

Course #	Title	Hours
A maximum of 6 s.h. from these:		
CNW:5375	Teaching in a Writing Center	3
CNW:6600	Teaching Nonfiction	3

Elective Courses

Elective options may include the following.

Course #	Title	Hours
Translation courses (prefix TRNS) numbered 3000 and above, excluding:		
TRNS:3179	Undergraduate Translation Workshop	3
TRNS:3491	Translation Internship	1-3
TRNS:6000	The Craft and Contexts of Translation	1,3
TRNS:6050	Independent Study	arr.
TRNS:6399	Writing About Translation	3
TRNS:6444	Thesis Workshop	3
TRNS:6459	Issues in Translation	3
Asian Languages and Literatures courses (prefix ASIA) numbered 3000 and above, excluding:		
ASIA:4301	Honors Tutorial	arr.
ASIA:4506	Senior Honors Thesis	arr.
ASIA:6501	MA Thesis	arr.
Arabic Studies courses (prefix ARAB) numbered 3000 and above, excluding:		
ARAB:3011	Advanced Modern Standard Arabic I	3
ARAB:3012	Advanced Modern Standard Arabic II	3
ARAB:3030	Media Arabic	3
ARAB:3050	Arab Culture Through Dialects	3

American Sign Language courses (prefix ASL) numbered 3000 and above, excluding:		
ASL:3001	American Sign Language V	3
ASL:3100	American Sign Language Conversation	3
Chinese courses (prefix CHIN) numbered 3000 and above, excluding:		
CHIN:3101	Third-Year Chinese: First Semester	3
CHIN:3102	Third Year Chinese: Second Semester	3
CHIN:3103	Business Chinese I	3
CHIN:3104	Business Chinese II	3
CHIN:4101	Classical Chinese: First Semester	3
CHIN:4102	Classical Chinese: Second Semester	3
CHIN:4103	Fourth-Year Chinese: First Semester	3
CHIN:4104	Fourth-Year Chinese: Second Semester	3
CHIN:4150	Advanced Reading and Writing in Chinese	3
CHIN:5106	Individual Chinese for Advanced Students	arr.
Creative Nonfiction Writing courses (prefix CNW), excluding:		
CNW:4690	Undergraduate Project in Nonfiction Writing	arr.
CNW:7900	Special Project in Nonfiction Writing	arr.
CNW:7950	Thesis in Nonfiction Writing	arr.
Creative Writing courses (prefix CW) numbered 3000 and above, excluding:		
CW:4870	Undergraduate Writers' Workshop: Fiction	arr.
CW:4875	Undergraduate Writers' Workshop: Poetry	arr.
CW:4885	Undergraduate Writers' Seminar	arr.
CW:4894	Undergraduate Project in Creative Writing	arr.
CW:7890	Graduate Project in Creative Writing	arr.
CW:7895	MFA Thesis	arr.
Comparative Literature courses (prefix CL) numbered 3000 and above		
English courses (prefix ENGL) numbered 300 and above, excluding:		
French courses (prefix FREN) numbered 3000 and above, excluding:		
FREN:3000	Third-Year French	3
FREN:3020	Oral Expression in French I	3
FREN:3060	Introduction to Reading and Writing in Literature	3
FREN:3240	Media French	3
FREN:3410	Business French	3
FREN:4020	Oral Expression in French II	3
FREN:4911	French for Reading/Research	2
FREN:4912	French for Reading/Research	2
FREN:4995	Honors Research and Thesis	3
German courses (prefix GRMN) numbered 3000 and above, excluding:		
GRMN:3103	Composition and Conversation I	3
GRMN:3104	Composition and Conversation II	3
GRMN:3195	German Linguistics Lab I	3
GRMN:3214	Business German	3
GRMN:3845	The Structure of German	3
GRMN:3855	The Sounds of German	3
GRMN:4195	German Linguistics Lab II	3
GRMN:4910	Peer Tutoring in German	arr.
GRMN:4990	Honors Research	3
GRMN:4995	German Graduation Portfolio	0
GRMN:5000	German Reading for Graduate Students	3
International Studies courses (IS) numbered 3000 and above, excluding:		
IS:3020	Writing Projects in International Studies	0-3
IS:3990	Independent Study in International Studies	arr.
IS:4990	International Studies Senior Project	3
IS:4991	Honors Thesis in International Studies	3
International Writing Program courses (prefix IWP) numbered 3000 and above		
Italian courses (prefix ITAL) numbered 3000 and above, excluding:		
ITAL:3305	Advanced Italian	3-4
ITAL:3306	Advanced Italian II	3-4
ITAL:4500	Undergraduate Capstone Project	1-3
ITAL:4998	Honors Research and Thesis	3
Japanese courses (prefix JPNS) numbered 3000 and above, excluding:		
JPNS:3001	Third-Year Japanese I	4
JPNS:3002	Third-Year Japanese II	4
JPNS:3107	Classical Japanese: First Semester	3
JPNS:3128	Introduction to Japanese Linguistics	3
JPNS:3500	Japanese for Professional Purposes	3
JPNS:4001	Fourth-Year Japanese I	3
JPNS:4002	Fourth-Year Japanese II	3
Korean Studies courses (KORE) numbered 3000 and above, excluding:		
KORE:3101	Third-Year Korean: First Semester	3
KORE:3102	Third-Year Korean: Second Semester	3
KORE:4000	Fourth Year Korean: First Semester	3
KORE:4001	Fourth Year Korean: Second Semester	3
Latin courses (prefix CLSL) numbered 3000 and above, excluding:		

CLSL:4080	Undergraduate Teaching Assistantship	2-3
CLSL:4090	Private Assignments	1-3
CLSL:4095	Honors Readings	3
CLSL:7080	Latin Thesis	arr.
CLSL:7090	Advanced Reading	arr.
Latin American Studies courses (prefix LAS) numbered 3000 and above, excluding:		
LAS:4990	Independent Project in Latin American Studies	arr.
Linguistics courses (prefix LING) numbered 3000 and above, excluding:		
LING:4010	Undergraduate Practicum in Teaching English as a Second Language	3
LING:4900	Honors: Research and Thesis	arr.
LING:6900	Master's Thesis	arr.
LING:7900	PhD Thesis	arr.
Portuguese courses (prefix PORT) numbered 3000 and above, excluding:		
PORT:3050	Intensive Portuguese for Spanish Speakers	4
PORT:3100	Writing and Speaking	3
PORT:4995	Portuguese Senior Project	3
Religious Studies courses (prefix RELS) numbered 3000 and above, excluding:		
RELS:4001	Biblical Hebrew I	3-4
RELS:4002	Biblical Hebrew II	3
RELS:4893	Classical Arabic: Vocabulary, Syntax, and Grammar	1-3
RELS:4950	Senior Majors Seminar	3
RELS:4960	Individual Study: Undergraduates	arr.
RELS:4970	Honors Tutorial	2-3
RELS:4975	Honors Essay	2-4
RELS:5001	Biblical Aramaic	3
RELS:5002	Targumic Aramaic	3
RELS:6125	Classical Arabic and Grammar	3-6
RELS:7950	Thesis	arr.
Russian courses (prefix RUSS) numbered 3000 and above, excluding:		
RUSS:3111	Third-Year Russian I	4
RUSS:3112	Third-Year Russian II	4
RUSS:3113	Russian Composition and Conversation	4
RUSS:4111	Fourth-Year Russian I	4
RUSS:4112	Fourth-Year Russian II	4
RUSS:4995	Honors	arr.
Spanish courses (prefix SPAN) numbered 3000 and above, excluding:		
SPAN:3010	Advanced Spanish Speaking and Writing	3
SPAN:3015	Fast Fixes: Improved Spanish in Six Weeks	1
SPAN:3020	Journalistic Writing in Spanish	3
SPAN:3080	Spanish for International Business	3
SPAN:3090	Spanish at Work	1
SPAN:3095	Spanish Composition and Grammar	3
SPAN:3100	Structures of Spanish: Words and Sentences	3
SPAN:3110	Spanish Sound Structure	3
SPAN:4195	Spanish Linguistics Lab II	3
SPAN:4998	Honors: Research and Thesis	2-3
SPAN:5002	Pedagogical Practicum	2
SPAN:6299	Thesis: Creative Writing	arr.
Swahili courses (prefix SWAH) numbered 3000 and above, excluding:		
SWAH:3006	Conversational Swahili	3
SWAH:3007	Advanced Swahili	3
World Languages, Literatures, and Cultures courses (prefix WLLC) numbered 3000 and above, excluding:		
WLLC:3000	Big Ten Academic Alliance CourseShare: Lower-Level Language	0-5
WLLC:3001	Big Ten Academic Alliance CourseShare: Elementary I	1-6
WLLC:3002	Big Ten Academic Alliance CourseShare: Elementary II	1-6
WLLC:3003	Big Ten Academic Alliance CourseShare: Intermediate I	1-6
WLLC:3004	Big Ten Academic Alliance CourseShare: Intermediate II	1-6
WLLC:3005	Big Ten Academic Alliance CourseShare: Upper-Level Language	1-6

Thesis

Students complete a thesis, which is a translated collection of poems, literary essays, short stories, a short novel, or a drama with an introduction that sets the work in appropriate context. A maximum of 3 s.h. of TRNS:6400 Thesis may count as elective credit.

The introduction should include a critical discussion of issues and problems related to the translation; it should present a rationale for the translator’s approach and strategies, based on interpretation, analysis of the leading features, structure, style, or authorial objectives of the source text. The source text should be a work that has not been translated previously or, at the discretion of the advisory committee, a work whose previous translation is judged to be outdated or inadequate in some respect. An oral defense of the thesis examines the student’s translation and the introductory essay in detail.

Combined Programs

French and Francophone World Studies, MA/Literary Translation MFA

The Department of Languages, Linguistics, Literatures, and Cultures offers a combined Master of Arts in French and Francophone world studies and Master of Fine Arts in literary translation. Students interested in writing in its different forms—creative, academic, and translation—will find the University of Iowa to be the ideal place to develop their talents and an attractive option for more diversified career preparation.

A separate application and admission to each degree program is required. For more information, review the admissions requirements for French and Francophone world studies and literary translation.

Students in the combined program earn both degrees by completing a minimum of 60 s.h. of coursework, fewer semester hours than if each degree was completed separately. Qualified students may be eligible for up to three years of full funding for a teaching assistant (TA) position.

Students are held to the core translation courses (9 s.h.) and thesis workshop (3 s.h.) requirements in the MFA in literary translation. In addition to the four translation workshop courses (12 s.h.), students in the combined program complete two translation workshops (6 s.h.) for a total of 18 s.h. They are permitted to apply FREN:3232 French Literary Translation Workshop toward the translation workshop requirement. These two additional translation workshops apply toward elective requirements; the remaining 18 s.h. of electives is shared with French and Francophone world studies MA.

Students in the combined program are required to complete a thesis for the MFA in literary translation. For the MA in French and Francophone world studies, students are not required to complete a thesis. Should they choose to do so, a separate thesis is required.

Admission

Applicants to the program are evaluated mainly on a writing portfolio. The portfolio should include translations, including source texts, and an original critical literary essay or literary writing in English; a statement of purpose; and three letters of recommendation. Applicants should provide evidence of advanced competence in their source language—normally at least three years of college-level work or the equivalent—and substantial preparation in English literature. The availability of faculty expertise in the applicant's source language and culture is considered in admission decisions.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Graduates have gone on to work in the world of professional publishing as editors and reviewers or as free-lance translators; to become university professors after earning a PhD; and to pursue other careers involving cross-cultural and artistic exchange. In recent years, publishers of works by translation alumni have included Greywolf Press, Seven Stories Press, Autumn Hill Books, Melville House, Words Without Borders, *The Iowa Review*, *91st Meridian*, Two Lines Press, *Circumference Poetry in Translation*, *The Literary Review*, Passport Publications and Media Corporation, *Absinthe*, and others.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Students must take TRNS:6000, TRNS:6399, and TRNS:6459 on an A-F graded based.

c Complete workshop courses by taking a mix of TRNS:6555 (usually taken once) and TRNS:7460 (usually taken three times) for a total of 12 s.h.

d Students select 24 s.h. of electives in consultation with their advisors and are strongly encouraged to enroll in a minimum of 12 s.h. in translation courses (prefix TRNS). See the General Catalog for list of approved courses.

e Students complete a thesis, which is a translated collection of poems, literary essays, short stories, a short novel, or a drama with an introduction that sets the work in appropriate context. A maximum of 3 s.h. of TRNS:6400 may count as elective credit.

f Oral thesis defense.

French and Francophone World Studies, PhD

Learning Outcomes

- Mastery level of competence and proficiency in spoken and written French. Ability to change between languages and registers with ease as well as express sophisticated ideas in both English and French.
- Ability to perform a formal analysis of literary texts from a variety of genres, including narrative, poetry, theater, and those situated at the limits between traditional notions of genre as well as the visual arts.
- Knowledge of the various periods and subfields of French and Francophone literature from the Renaissance to the present, including major literary, cultural, and historical movements, and the relationship between France and its former colonies.
- Understanding of critical theory and its potential use for analyzing objects of study from a variety of media.
- Ability to think critically and make sustained and convincing arguments in relation to scholarship in the field, as well as express original opinions and thinking, as evidenced in a body of scholarship such as final papers or a dissertation.

Requirements

The Doctor of Philosophy program in French and Francophone world studies requires a minimum of 72 s.h. of graduate credit, including credit earned for the MA degree.

The PhD takes at least three years of graduate study, including at least one year spent in residence at the University of Iowa. Students must pass a comprehensive examination and make a successful oral defense of their dissertation.

The PhD in French and Francophone world studies requires the following coursework.

Course #	Title	Hours
FREN:5001	Introduction to Graduate Study	2
FREN:7000	Thesis (6 s.h. minimum)	6
A course numbered 5000 or above in critical theory approved by the director of graduate studies		3

Students must possess fifth-semester or equivalent proficiency in an additional language other than French. They are required to spend at least one year teaching as graduate assistants in the department.

Admission

An MA in French is prerequisite to admission to the PhD program in French and Francophone world studies. However, successful completion of an MA in French does not necessarily qualify a student for doctoral study.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants for the fall semester whose application materials are received in the department by Jan. 15 have the best chance to be admitted and receive financial aid. They must submit academic transcripts, letters of recommendation from three persons familiar with their past academic work, a statement of purpose in taking graduate work, and one or more samples of original writing, one of which should be in French, that show their ability to pursue graduate work in French (a term paper, seminar paper, or other course papers).

Career Advancement

The PhD program is designed to prepare students for research, teaching, and professional service normally required of college and university faculty members.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

i Dissertation defense.

Linguistics, PhD

The Department of Languages, Linguistics, Literatures, and Cultures has particular strengths in multilingual language acquisition, phonology, and syntax. Students are encouraged to take courses in a wide variety of departments and programs across the university.

The phonology curriculum emphasizes current theoretical perspectives, including optimality theory, and the collection, description, and interpretation of novel phonological and phonetic data. Students may also study phonological acquisition and development. Courses feature extensive work in data analysis and problem-solving, focusing on the construction and evaluation of phonological theories, particularly in light of new empirical data.

The syntax curriculum includes the dual emphases of empirical and theoretical perspectives. It offers a variety of foundational courses that build analytic and argumentation skills, as well as specialized coursework on current issues in syntactic theory. The courses consist of intensive work in problem-solving. They combine the discovery and description of new linguistic data with the exploration of the implications of such facts in testing and constructing syntactic theories.

The acquisition curriculum emphasizes multilingual language syntax and phonological development in simultaneous, sequential, and late learners across a variety of learning contexts. Students have research opportunities that provide an overview and analysis of current language acquisition research.

PhD students may enroll in the Certificate in Cognitive Science of Language [p. 1730] program of study offered through the Graduate College. This certificate provides students with multidisciplinary training in cognitive science—a field that complements linguistics in many diverse ways—and the opportunity to work closely with faculty and graduate students from other departments across campus.

Learning Outcomes

Students will:

- be familiar with the fundamental concepts of phonology, syntax, and an additional specialization area typically focused on an aspect of language acquisition in multilingual populations;
- conduct original research in the field of linguistics by writing two comprehensive exam papers, of publishable quality, to be presented to the department no later than their third year in the program;
- conduct original research that will culminate in a dissertation, defended by an oral exam;
- gain experience with experimental methods and analysis through participation in faculty-run labs and discussion groups across campus that focus on language acquisition and development;
- expand their understanding of how the fundamental concepts of linguistics relate to those of cognate areas determined with their advisor, such as psychology, education, anthropology, and computer science, providing them with a broad perspective on human language;
- take courses in statistical methods and have a clear understanding of how to carry out and interpret statistical analyses at an intermediate to advanced level;
- be encouraged to submit abstracts to conferences (national and international) to disseminate their research and to work towards publishing their comprehensive papers before graduation; and
- be encouraged to participate in cocurricular activities outside of their regular coursework.

Requirements

The Doctor of Philosophy in linguistics requires a minimum of 72 s.h. of graduate credit. Students must maintain a Graduate College major program grade-point average of at least 3.50. The highly selective program provides students with a strong foundation in theoretical linguistics and helps them develop the skills they will need to explore the close relationship between linguistics and related disciplines.

The PhD in linguistics requires the following coursework.

Requirements	Hours
Core Courses	22
Electives	12
Additional Coursework	38
Additional Requirements	

Core Courses

Students complete the following set of required core courses for a total of 22 s.h. Core courses must be taken on an A–F graded basis.

Course #	Title	Hours
All of these:		
LING:3005	Articulatory and Acoustic Phonetics	3
LING:5000	Proseminar: Morphosyntax	1
LING:5010	Introduction to Syntax	3
LING:5020	Introduction to Phonology	3
LING:6010	Syntactic Theory	3
LING:6020	Phonological Theory	3
LING:6080	Topics in Second Language Acquisition	3
One of these:		
LING:6040	Linguistic Structures	3
LING:6050	Language Universals Linguistic Typology	3

Linguistics Core Electives

Students take 12 s.h. of linguistics courses (prefix LING) numbered 4000 or above, excluding LING:4010, LING:4050, LING:4900, LING:6900, and LING:7900; these courses must be taken on an A–F graded basis. The core electives may include a maximum of 6 s.h. total from LING:4195 Linguistics Lab II, LING:5090 Special Projects, and LING:7100 Special Projects.

Additional Coursework

Students complete 38 s.h. in additional coursework. This may include additional linguistics courses (prefix LING) numbered 3000 or above. All additional coursework must be approved by a student's advisor.

Students are encouraged to explore courses from other disciplines that align with their individual research focus, including the graduate certificate in the cognitive science of language [p. 1730].

Additional Requirements

Comprehensive Exam

To pass the comprehensive examination for the PhD, a student must gain approval for two papers of publishable quality. One must be in phonology or syntax. The other should be in an area of the student's choosing and must be distinct from the area of the first paper.

Dissertation

An oral defense of the dissertation and three years in residence at the University of Iowa are required. Students enroll in LING:7900 PhD Thesis while working on the dissertation. In addition, all candidates are required to gain supervised experience in teaching and research.

Admission

Applicants to the graduate program in linguistics must submit an online application to the Graduate College. In addition to three letters of recommendation, the application requires a statement of purpose that outlines the student's goals and planned area of research and identifies the faculty member(s) with whom the student would like to work.

Applicants also must provide written evidence of the ability to do advanced work in linguistics. This may include one or more of the following:

- a short squib-style paper (short notes consisting of 5,000 words maximum) that makes a specific point by calling attention to a theoretically unexpected observation about language without the need for a developed analysis or solution;
- a final course paper; and
- a research project outlining the area of investigation the applicant wishes to pursue.

Applications must be received no later than Jan. 15 for admission the following fall.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Career opportunities in linguistics can be found in academia, government, industry, and the non-profit sectors.

A number of companies, such as Amazon, Microsoft, Xerox, Apple, Hewlett-Packard, and other high-tech firms, regularly hire employees with linguistics degrees. Opportunities also exist for government work, for example, as a special agent linguist for the FBI.

The Linguistic Society of America has a wealth of resources available to individuals interested in pursuing a career in linguistics.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Beyond the MA degree course requirements, the PhD program in linguistics has few set requirements. Upon acceptance to the program, students work closely with their faculty advisor to determine and select appropriate graduate level coursework that best suits their goals.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Work with faculty advisor to determine appropriate coursework and sequence.

d 18 s.h. must be in an approved specialty area; if relevant to research, students may complete coursework in an additional language. Work with faculty advisor to determine appropriate elective coursework and sequence.

e To pass the Comprehensive Exam for the PhD, a student must submit two papers of publishable quality and present each orally as part of the departmental colloquium. One must be in phonology or syntax. The other should be in an area of the student's choosing and must be distinct from the area of the first paper.

f Prepare first Comprehensive Exam paper.

g Prepare second Comprehensive Exam paper.

h In the semester following the Comprehensive Exam, but no later than the sixth semester of enrollment in the PhD program, the student presents a Dissertation Prospectus to the Dissertation Committee.

i Begin preparing Dissertation Prospectus in consultation with Dissertation Committee.

j Set-up Dissertation Committee in consultation with faculty advisor.

k Present second Comprehensive Exam paper.

l Prepare Dissertation Prospectus defense.

mMust be approved by Dissertation Committee.

n Oral dissertation defense.

Literary Translation, Graduate Certificate

Requirements

The graduate Certificate in Literary Translation requires at least 15 s.h. of credit, including coursework in translation practice, techniques, and theories. A minimum of 9 s.h. must be from translation coursework (prefix TRNS). Students must maintain a grade-point average of at least 3.00 in work for the certificate. Students may earn the certificate while working toward a graduate degree. Nondegree students also can complete the certificate.

Translation workshops and coursework in translation theory are central to the certificate program because they are essential to the training of literary translators.

Certificate students enroll in a combination of courses determined in consultation with the director of graduate studies in the MFA program in literary translation.

Admission

Applicants should submit a one-page statement of interest and a letter from their academic advisor indicating support for entrance to the program. Admission decisions are made when an application is received and contingent on enrollment capacity. Students must be in good standing in their degree programs.

Latham Science Engagement Initiative

Chair, Department of Biology

- Tina L. Tootle

Program Director, Latham Science Engagement Initiative

- Lori Adams (Biology)

Faculty: https://isa.uiowa.edu/people

Website: https://isa.uiowa.edu/programs/latham

The Latham Science Engagement Initiative provides the opportunity to engage highly talented undergraduate students across science disciplines in community outreach. The program enhances research opportunities for selected undergraduate students with the goal to position students with the scientific and creative abilities for graduate work.

The program prepares students to communicate science in the public sphere, work in interdisciplinary settings, and demonstrate the broader impact of scientific research. Students experience the strength of interdisciplinary interactions through exposure to research in other disciplines and work with students in other science majors on group projects. In addition, they develop fluency in communicating to a range of audiences in the community.

Students selected for the program complete two courses, design and implement an outreach project, and participate in an event that highlights their achievements.

The Latham Science Engagement Initiative is administered by the Iowa Sciences Academy in the Department of Biology. For additional information, contact the Latham Science Engagement Initiative Fellowship Program.

Admission

Students must apply for this program on the Latham Science Engagement Initiative website. Requirements include first-year, sophomore, or junior standing at the time of application; a grade-point average of at least 3.00; a minimum of one semester of undergraduate research experience preferred but not required; and an interest in speaking about science in a public forum.

Courses

Latham Science Engagement Initiative Courses

LATH:3000 Latham Fellows: Science Communication Skill Building **2 s.h.**
Provide Latham Fellows with various communication skills needed to explain scientific research to varied audiences.

LATH:3001 Latham Fellows: Science Outreach Project **2 s.h.**
Guidance to Latham Fellows as they implement one individual and one group project proposed the previous fall. Prerequisites: LATH:3000. Requirements: Latham Fellow standing.

LATH:4900 Science Communication and Engagement **0 s.h.**
Independent science outreach and engagement project through the Latham Science Engagement Initiative. Prerequisites: LATH:3000 and LATH:3001. Requirements: admission to the Latham Science Engagement Fellows Program.

LATH:4990 Science Communication and Engagement **1-3 s.h.**
Independent science outreach and engagement project through the Latham Science Engagement Initiative. Prerequisites: LATH:3000 and LATH:3001. Requirements: admission to the Latham Science Engagement Fellows Program.

Latina/o/x Studies

Interim Chair, American Studies

- Rene R. Rocha

Director, Latina/o/x Studies

- Rene R. Rocha

Undergraduate minor: Latina/o/x studies

Faculty: https://latinxstudies.uiowa.edu/people

Website: https://latinxstudies.uiowa.edu/

Latina/o/x studies offers an interdisciplinary perspective on the history, culture, politics, and experiences of the Latina/o/x population in the United States. This population is now the largest minority group in the United States, and by the year 2060, it is expected that approximately one-third of the U.S. population will be Latina/o/x. Courses in Latina/o/x studies introduce the peoples who have had a long-term presence in the United States and in the Midwest and who are increasingly neighbors, classmates, and coworkers.

The Latina/o/x studies minor helps to prepare undergraduates for careers in medicine, public health, social work, business, education, and the arts, and to respond to the changing demographics of the United States.

Latina/o/x studies is administered by the Department of American Studies [p. 51].

Cocurricular Activities

Latino Native American Cultural Center

Latina/o/x studies collaborates with the Latino Native American Cultural Center (LNACC). LNACC was founded in 1971 and is the home to important University of Iowa student organizations that sponsor conferences, pow-wows, study groups, and educational programs.

Community Engagement

In addition to their instructional activity, Latina/o/x studies faculty participate in a range of public programming activities each semester, such as film series, conferences, round table discussions, and lectures. Most recently, Latina/o/x studies faculty have contributed their time and expertise in support of campus and community organizations such as Iowa Public Radio, the League of United Latin American Citizens (LULAC), the Iowa City Foreign Relations Council, and the Obermann Center for Advanced Studies.

Programs

Undergraduate Program of Study

Minor

- Minor in Latina/o/x Studies [p. 765]

Courses

Latina/o/x Studies Courses

LATS:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, field trips). Requirements: first- or second-semester standing.

LATS:1600 War Stories **3 s.h.**
Exploration of the history of U.S. conflicts from Vietnam to the War on Terror through novels, film, and other cultural forms; specific focus on how U.S. social structures influence experiences of war. Same as AMST:1600, SJUS:1600.

LATS:1700 Latina/o/x Literature in the United States **3 s.h.**
Introduction to growing cultural production of varied Latina/o/x communities (e.g., Chicano, Puerto Rican American/Nuyorican, Cuban American) that have a strong presence in the United States; recent cultural production from borderland transcultural spaces with physical, cultural, economic, political, and mythical elements; visions of the United States from contemporary Latin American writers who recently have become U.S. residents. Taught in English. GE: Literary, Visual, and Performing Arts; Values and Society. Same as SPAN:1700.

LATS:1898 Introduction to Latina/o/x Communication and Culture **3 s.h.**
Introduction to fundamentals of communication by and about Latina/o/x in the U.S.; Latina/o/x as one of the fastest growing demographics; how Latina/o/x history, politics, and culture remain little understood despite a longstanding and growing presence in Iowa and across the nation; historical orientation; Latina/o/x social movement and protest (e.g., Chicana/o/x movements, Young Lords Organization), institutional discourses (e.g., congressional, presidential, legal discourses), and Latina/o/x in popular culture (film, television, music, sports). GE: Understanding Cultural Perspectives. Same as COMM:1898.

LATS:2280 Introduction to Latina/o/x Studies **3 s.h.**
Introduction to field of Latina/o/x studies through interdisciplinary readings from literature, history, sociology, political science, urban studies, and anthropology; commonalities and differences among long-standing Latina/o/x populations (i.e., Mexican Americans, Puerto Ricans, Cuban Americans); challenges faced by newer arrivals (i.e., Dominican Americans, Salvadoran Americans, Guatemalan Americans, Central and South American immigrants). Taught in English. GE: Understanding Cultural Perspectives. Same as HIST:2280.

LATS:3095 Central America and Its Diaspora **3 s.h.**
Explore the social structures, histories, and cultures of a number of Central American countries; specificities of the U.S. Central American experience including the challenges they face from other Latinx groups, changing immigration regimes, their relationship to their "home" countries, and the cultures and communities they build once they arrive. Same as AMST:3095.

LATS:3100 Latinx Community Engagement **3 s.h.**
Focus on Latinx engagement in local communities.

LATS:3104 Immigration Politics 3 s.h.
United States immigration policy and political consequences of Latina/o/x population growth; contrast of political experiences of Latina/o/x with groups and ideals of democratic political systems; analyses of past immigration policies; studies of public opinion, voter turnout, and campaign tactics. Same as LAS:3104, POLI:3104.

LATS:3217 Latina/o/x Immigration 3 s.h.
Immigration experiences of people arriving in the United States from other regions of the Americas (e.g., Mexico, Central America, the Caribbean, South America); what has fueled immigration—social, political, and economic developments in the United States and other nations; territorial conquest, colonialism, real and imagined borders, chain migration, formation of immigrant communities, acculturation, circular migration, social networks; how migration restructures gender relations; immigrant communities and pan-Latina/o/x identity in the United States. Same as HIST:3217, LAS:3217.

LATS:3410 Undocumented America: Citizenship, Race, and Immigration 3 s.h.
Examination of how literature and culture responds to and rearticulates culture, history, legal logic, and economic parameters that frame who is "legal" and "illegal" and how undocumented immigrants document and contest their lack of rights; how designations of immigrant's illegal or undocumented status depend on and maintain U.S. discourse about race and ethnicity. Same as AMST:3410.

LATS:3415 Latina/o/x Protest, Movement, Resistance 3 s.h.
Examination of history, form, and function of protest, social movement, and resistance by Latina/o/x peoples in the United States. Same as AMST:3415, SJUS:3415.

LATS:3420 Latinas/os/x and the Law 3 s.h.
Introduction and survey of Latina/o/x legal history; topics include segregation, educational rights, immigration, voting rights, citizenship, and the criminal justice system. Same as AMST:3420, POLI:3427, SJUS:3420.

LATS:3430 Queer Latina/o/x Studies 3 s.h.
Relationship of Latina/o/x culture with gender, sexuality, and queerness. Same as AMST:3450, SJUS:3430.

LATS:3435 Intersectional Identities: Writing About the Twenty-first-Century Self 3 s.h.
Analysis of intersections between systems of oppression, domination, and discrimination; focus on how writers of color represent those connections and critical articulation of students' lived experience of them. Same as WRIT:3435.

LATS:3467 Latina/o/x Literatures and Cultures 3 s.h.
Exploration of major themes and research topics in Latina/o/x literatures and cultures. Same as ENGL:3467.

LATS:3468 Writing About Migration and Memory 3 s.h.
Examines how writers face the challenge of writing across cultures through reading texts that center migration and through writing about migration across any genre. Writing workshop and community of readers discussing how transnational narratives of migration complicate the concept of home.

LATS:3520 Oral Histories of Health Care 3 s.h.
Oral histories capture individual lived experiences in relation to structures of law, language, society, and culture; students learn oral history methods and connect with members of the local community to conduct interviews that record their lived experiences of access to health care; these interviews may be archived in Special Collections and Archives at the University Libraries. Recommendations: some knowledge of Spanish is useful but not required. Same as GHS:3520.

LATS:3522 Indigenous Women and Rural Unrest in Latin America 3 s.h.
Trace the major and everyday forms of contestation between Indigenous peoples and the groups that have tried to assimilate, subjugate, or dominate them in Latin America, concentrating on Mesoamerica, the Amazonia, and the Andes; explore questions of power, identity, and resistance through the lens of gender. Same as HIST:3522.

LATS:3550 Topics in Latina/o/x Studies: History and Culture 1-3 s.h.
Historical and cultural approaches; topics vary. Same as GWSS:3431.

LATS:4171 Community Media 3 s.h.
Theory and history of community media as means of cultural expression, political participation, and social change; focus on case studies from Latin America and other global contexts. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899). Same as COMM:4171.

LATS:4800 Latina/o/x Popular Culture 3 s.h.
Role of Latina/o/x popular culture as a site of contemporary social practice and cultural politics in both local and global contexts; specific attention to notions of citizenship, identity, and culture. Taught in English. Same as AMST:4800.

LATS:4805 Chicano Cinema 3 s.h.
History of Chicano independent and industry film and television production since the Chicano political and cultural movement began in the 1960s. Taught in English. Requirements: one Spanish literature or culture course numbered SPAN:3200 or above, or one film studies course numbered above CINE:2100. Same as CINE:4705, SPAN:4805.

LATS:4990 Independent Project in Latina/o/x Studies arr.
Independent work under the supervision of Latina/o/x studies faculty.

Latina/o/x Studies, Minor

Requirements

The undergraduate minor in Latina/o/x studies (Latina/Latino/Latinx studies) requires a minimum of 15 s.h., including 12 s.h. taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate may be counted toward the minor.

The minor in Latina/o/x studies requires the following coursework.

Requirements	Hours
Foundation Course	3
Historical and Cultural Approaches Courses	9
Comparative and Translational Topics Course	3

Foundation Course

Magid Center for Writing

Acting Coordinator

- Cornelia Lang

Undergraduate certificate: writing

Faculty: https://magidcenter.uiowa.edu/people

Website: https://magidcenter.uiowa.edu/

The Magid Center for Writing takes seriously its mission to offer all undergraduate and nondegree-seeking students at the University of Iowa (regardless of major or area of study) the unique opportunity to enhance their academic, creative, and professional communication skills by focusing on the written word. In addition to sponsoring the Certificate in Writing [p. 769], the center also publishes 10+ student literary magazines; supports the Iowa Writers Living Learning Community (in association with University Housing and Dining); and is home to the Iowa Writers' Room (a collection of credit-bearing courses that prepares undergraduate and graduate students to enter a career in writing for television).

The Magid Center for Writing was established in 2011 through a gift from Marilyn Y. Magid and family, in the name of the late Frank Magid, who believed that writing was a key component of a liberal arts and sciences education and a successful career.

The Certificate in Writing is administered by the College of Liberal Arts and Sciences [p. 20].

Learn more about the university's wealth of writing resources by visiting the Writing University website, and read about the university's central role in Iowa City's designation as a UNESCO City of Literature.

College Programs

Certificate in Writing

The Certificate in Writing [p. 769] (offered on campus and online) enables all undergraduate and nondegree-seeking students the opportunity to benefit from the university's wide-ranging writing programs and resources by pursuing a concentration in writing related to their academic success, career goals, or personal interests.

Iowa Writers' Room

The Iowa Writers' Room (IWR) is a professionally oriented program that prepares students to enter a career in writing for television. With the guidance of industry insiders, the IWR offers courses to help students hone their skills in this exciting medium. IWR courses include WRIT:3325 Iowa Writers' Room (when the topic is "Adaptation and Half-Hour Comedy"), WRIT:4325 Iowa Writers' Room: Advanced Pilot Writing, and WRIT:1325 Iowa Writers' Room: The Big Binge. For enrollment information, including application instructions, view course descriptions on MyUI.

Programs

Undergraduate Program of Study

Certificate

- Certificate in Writing [p. 769]

Courses

Magid Center for Writing Courses

WRIT:1003 English Grammar **3 s.h.**
Recognizing nouns, verbs, adverbs, adjectives, and other parts of speech; sentence analysis; subjects, objects; types of sentences; passives, relative clauses; for students with little or no background in English grammar study. Does not count toward the linguistics major. Same as LING:1003.

WRIT:1325 Iowa Writers' Room: The Big Binge **1 s.h.**
Screening-based course in which students develop skills in television script writing, structural analysis, and story craft by conducting an in-depth review of a season of a television show; includes instruction and class visits by acclaimed industry insiders. Part of the Iowa Writers' Room series offered through the Magid Center for Writing.

WRIT:1500 Writing Commons: A Community of Writers **1-3 s.h.**
Varied topics focused on building community and enhancing writing skills through generative exercises, long-form essay and hybrid assignments, workshops, sharing work in public, reading and discussing works of published authors.

WRIT:1600 Fast Fixes: Improving Your Writing in Six Short Weeks **1 s.h.**
Varied topics focused on improving common writing problems or specific aspects of craft. Prerequisites: (RHET:1040 and RHET:1060) or RHET:1030.

WRIT:1650 Essentials of Writing: Nursing **1 s.h.**
Develop writing skills and conventions integral to both the academic and professional needs of the nursing field.

WRIT:1740 Writing Strategies: Word Origins and Word Choice **3 s.h.**
Study of words, their meanings, and their origins combined with writing; words and word histories; role of English language in the world. GE: Literary, Visual, and Performing Arts. Same as CLSA:1740.

WRIT:2100 Writing and Community Outreach **3 s.h.**
Service-learning course offered in coordination with local community organizations and nonprofits; students critically consider ways in which written content—creative, promotional, and logistical—can help ensure outreach initiatives prioritize inclusivity; assignments include readings and discussions on community outreach and social justice issues, written reflections on relationships between self and community to enhance interdisciplinary perspectives, and volunteering time and energy with a local organization or nonprofit group in meaningful ways. GE: Understanding Cultural Perspectives.

WRIT:2300 Writing Toward Empathy **3 s.h.**
Students practice personal narrative, research writing, and professional communication skills to actively understand relevant social justice issues in Iowa; diversity, equity, and inclusion-based writing course offered in coordination with the Iowa Youth Writing Project.

WRIT:2900 Book Design for Publishing **3 s.h.**
Introduction to the major aspects of book design, including typography, layout, standard industry software, discussion of trends in the field. Same as ARTS:2900, ENGL:2900, UICB:2900.

WRIT:2991 Publishing I: Introduction to Literary Publishing 3 s.h.
Laboratory-style class offering step-by-step breakdown of fundamental professional and creative skills needed for jobs in the literary publishing world. Become familiar with key roles and responsibilities, such as identifying and defining a corner of the market, soliciting commissions, and assuming editorial oversight through copyediting, design, budgeting, and deadline management, while simultaneously practicing each of these roles to bring individual bespoke publications to press by semester's end. Hands-on, experiential learning. Same as CNW:2991, ENGL:2741.

WRIT:2992 Publishing II: Advanced Literary Publication 3 s.h.
Supervised, extended practice of the skills core to landing possible literary publishing jobs. Working collectively, as if part of a professional publishing house, bring a single,themed book to publication. Handle all aspects of the publication process, assuming the roles of writers, editors, art directors, designers, and marketers, culminating in a book launch. Hands-on, real-life work experience combined with exploration of inner workings of the industry, such as how agenting works to preparing for the first internship. Prerequisites: CNW:2991. Same as CNW:2992, ENGL:2742.

WRIT:3000 Publishing Practicum: The Iowa Chapbook Prize 3 s.h.
Experiential learning in the field of publishing through the Iowa Chapbook Prize; students gain knowledge in all aspects of publishing world including assessing submissions, selecting manuscripts, editing and proofreading, layout and design, marketing and promotion, and book release.

WRIT:3005 Professional and Creative Business Communication 3 s.h.
Solid foundation for creative and professional communication in today's modern work world; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semester-long creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision-making, and human nature; how to navigate and succeed in business or any professional field. GE: Engineering Be Creative. Same as CW:3005, INTD:3005.

WRIT:3080 History of the English Language 3 s.h.
Development of phonological and grammatical structure of English, from Old to Modern English; selected issues in the history of England. Same as LING:3080.

WRIT:3325 Iowa Writers' Room 3 s.h.
Experiential learning in television writing field; first-hand experience as part of a traditional television writers' room —selecting material and show topics, pitching ideas, collaboratively breaking story, and writing and workshopping scripts for a limited series television show of student's choosing; includes instruction and class visits by acclaimed industry insiders. Same as THTR:3325.

WRIT:3435 Intersectional Identities: Writing About the Twenty-first-Century Self 3 s.h.
Analysis of intersections between systems of oppression, domination, and discrimination; focus on how writers of color represent those connections and critical articulation of students' lived experience of them. Same as LATS:3435.

WRIT:3526 The Business of Writing 3 s.h.
Students learn how to hone their writing skills and successfully transition into the workforce; objectives include developing the ability to pitch articles, establish personal brands, and navigate the world of freelance writing and editing; students network with professionals and explore writing-centric jobs.

WRIT:3632 Prose Style 3 s.h.
Sentences: how they work, what they do; how sentences can help writing, expand understanding of prose style, stretch options. GE: Engineering Be Creative. Same as CNW:3632, ENGL:3732.

WRIT:3742 Word Power: Building English Vocabulary 3 s.h.
Analysis of unfamiliar English words through knowledge of the history and meaning of word parts. Same as CLSA:3742.

WRIT:3900 Writing: Undergraduate Internship 1-3 s.h.
Professional and/or creative experience; students arrange faculty-approved internship. Requirements: undergraduate standing and minimum of 24 s.h. of coursework with at least 12 s.h. in University of Iowa courses.

WRIT:4000 Independent Capstone Project 1-3 s.h.
Capstone requirement for the Certificate in Writing through Program Option B. Requirements: junior or higher standing.

WRIT:4001 Guided Capstone Portfolio 1 s.h.
Capstone requirement for Certificate in Writing through Program Option A. Recommendations: junior or higher standing.

WRIT:4100 Iowa Youth Writing Project Mentorship Practicum 1-3 s.h.
Mentor new volunteers on a weekly basis at Iowa Youth Writing Project (IYWP) program sites; work one-on-one with volunteers, write and review lesson plans, provide resources and feedback for volunteers, lead workshops for children. Requirements: WRIT:2100 or completion of Iowa Youth Writing Project internship.

WRIT:4325 Iowa Writers' Room: Advanced Pilot Writing 3 s.h.
Advanced experiential learning in television writing field; builds on students' experience from WRIT:3325, Iowa Writers' Room—selecting material and show topics, pitching ideas, breaking story, and writing and workshopping scripts —to collaboratively produce a pilot for a limited series television show of students' choosing; includes instruction and class visits by acclaimed industry insiders. Prerequisites: WRIT:3325.

WRIT:4745 The Sentence: Strategies for Writing 3 s.h.
Writing dynamic, cogent, and grammatically correct sentences; effectively communicating ideas; writing with clarity and confidence; review of grammar and various types of sentences; building complexity by adding adverbial, subordinate, and connective clauses to simple sentences; how rhythm, syntax, and word order expand the meaning of a sentence; application and appreciation. GE: Engineering Be Creative. Same as CW:4745.

WRIT:4760 The Art of Revision: Rewriting Prose for Clarity and Impact 3 s.h.
Writing and rewriting of short stories and essays; specific choices to help writing reach its full potential; examination of first drafts and making strategic or radical decisions on what needs to happen in subsequent drafts in order for writing to better match original intentions; students gain insight from peers on where first drafts are succeeding or falling short, and write second and third drafts of short stories and personal narratives; structural and aesthetic choices. GE: Engineering Be Creative. Same as CW:4760.

Writing, Certificate

Learning Outcomes

Students who complete the Certificate in Writing develop:

- skills in the craft of writing, such as the ability to write clearly and concisely, control of mechanics and style, and the ability to communicate with particular audiences for specific purposes;
- skills in planning and using strategies to begin writing, overcome obstacles, obtain feedback, revise their work, and present their writing in public venues; and
- competence in discussing writing.

Requirements

The undergraduate Certificate in Writing requires a minimum of 19 s.h. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Certificate students explore and develop their own writing skills in a wide range of genres and for varied purposes, including creative writing (fiction, nonfiction, poetry); writing for the professions, such as the arts, business, journalism, or science; writing for organizations; and writing related to personal interests.

The Certificate in Writing is also available online for students unable to attend classes on campus, including professionals, distance education students, nondegree-seeking students, and international students. More information about the online Certificate in Writing is available at the Magid Center for Writing website. Some courses are available online; more online courses are added frequently.

Coursework for the certificate includes a minimum of 9 s.h. in core courses, a minimum of 9 s.h. in focused electives, and a minimum of 1 s.h. in a capstone course. Students may count a maximum of 6 s.h. earned for a major, a minor, or another certificate toward the certificate in writing. Up to 6 s.h. of transfer credit may be applied to the certificate. For questions regarding the double counting and transfer credit policies, contact the director.

Certificate students have the opportunity to participate in the Iowa City writing community through activities such as attending readings and lectures; presenting their own work in public; working with professional journals, newspapers, or other publications; and volunteering or interning with the Iowa Youth Writing Project literacy outreach program.

Certificate in Writing students may not earn the BAS degree with the creative writing emphasis.

See the section titled "Professional Track" for information and requirements regarding the literary publishing track for the Certificate in Writing.

The Certificate in Writing requires the following work.

Requirements	Hours
Core Courses	9
Focused Electives	9
Capstone Course	1

Core Courses

Course #	Title	Hours
This course:		
WRIT:1500	Writing Commons: A Community of Writers	3
6 s.h. from these:		
WRIT:1003/ LING:1003	English Grammar	3
WRIT:1600	Fast Fixes: Improving Your Writing in Six Short Weeks (to count as a core course, must be taken three times for 1 s.h. each with different topics)	3
WRIT:3080/ LING:3080	History of the English Language	3
WRIT:3632/ CNW:3632/ ENGL:3732	Prose Style	3
WRIT:4745/ CW:4745	The Sentence: Strategies for Writing	3
WRIT:4760/ CW:4760	The Art of Revision: Rewriting Prose for Clarity and Impact	3
The 6 s.h. may include one of these:		
WRIT:1740/ CLSA:1740	Writing Strategies: Word Origins and Word Choice	3
WRIT:3742/ CLSA:3742	Word Power: Building English Vocabulary	3

Focused Electives

Students earn a total of at least 9 s.h. in focused electives, which they select from courses in at least two of the following categories (maximum of 6 s.h. from any one category) unless completing the literary publishing track (see "Professional Track").

- Writing for the Professions [p. 769]
- Writing and the Literary Arts [p. 770]
- Writing and the Media [p. 771]
- Writing in Context [p. 771]
- Student-Designated Writing-Intensive Course [p. 771]

Each focused elective course may be used to fulfill only one certificate requirement, even if the course is listed in more than one category. Some of these courses have prerequisites and other requirements for registration; students must complete a course's prerequisites and meet its registration requirements before they may register for the course.

Writing for the Professions

Art

Course #	Title	Hours
ARTH:1080	How to Write About Art	3

Business

Course #	Title	Hours
WRIT:3005/ CW:3005/ INTD:3005	Professional and Creative Business Communication	3
WRIT:3526	The Business of Writing	3
BUS:3000	Business Communication and Professionalism	3
BUS:3800	Business Writing	3
CNW:3640	Writing for Business	3
COMM:1816	Business and Professional Communication	3
SRM:3300	Writing for Sport and Recreation Managers	3

Grant/Proposal Writing

Course #	Title	Hours
EALL:4130/ MUSM:4150	Introduction to Grant Writing	3

Journalism

Course #	Title	Hours
CINE:2600	Writing Film Reviews and Criticism	3
CNW:2780	The Art and Craft of Writing About Sports	3
JMC:2010	Reporting and Writing	3
JMC:3410	Magazine Reporting and Writing	3-4
JMC:3412	Strategic Communication Writing	4
JMC:3415	Writing Across Cultures	4
JMC:3470	Narrative Journalism	4
SPAN:3020/ JMC:3445/LAS:3020	Journalistic Writing in Spanish	3

Literature, Language, and Translation

Course #	Title	Hours
ASIA:3208/ TRNS:3208/ WLLC:3208	Classical Chinese Literature Through Translation	3
JPNS:3201/ TRNS:3201	Workshop in Japanese Literary Translation	3
SPAN:2000	Spanish Language Skills: Writing	4
SPAN:3000	Cultural Narratives for Heritage Speakers	3
SPAN:3010	Advanced Spanish Speaking and Writing	3
SPAN:3030	Translation Workshop: English to Spanish	3
SPAN:3050	Translation Workshop: Spanish to English	3
SPAN:3060	Introductory Workshop on Creative Writing in Spanish	3
SPAN:4950	Advanced Workshop on Creative Writing in Spanish	3
TRNS:3179/ CLSA:3979/ ENGL:3850	Undergraduate Translation Workshop	3
TRNS:4480	Literature and Translation	3

Political Science

Course #	Title	Hours
POLI:3107	Writing in Political Science: Writing for "Science" and for "Politics"	3
RHET:3560/ PBAF:3560/ POLI:3560/ SJUS:3560	Public Policy and Persuasion	3

Publishing

Course #	Title	Hours
WRIT:2900/ ARTS:2900/ ENGL:2900/ UICB:2900	Book Design for Publishing	3
WRIT:2991/ CNW:2991/ ENGL:2741	Publishing I: Introduction to Literary Publishing	3
WRIT:2992/ CNW:2992/ ENGL:2742	Publishing II: Advanced Literary Publication	3
WRIT:3000	Publishing Practicum: The Iowa Chapbook Prize	3
HONR:2900	Honors Publications: From Pitch to Print (taken two times, first time for 2 s.h. and second time for 1 s.h.)	3

Sciences

Course #	Title	Hours
CNW:2730	The Art and Craft of Science Writing	3
HHP:3900	Writing for Health and Human Physiology	3

Undergraduate Research

Course #	Title	Hours
BUS:1999	Introduction to Research in Business	1
BUS:4999	Honors Thesis in Business	arr.
An undergraduate thesis or writing-based capstone project related to any undergraduate discipline		1-3

Writing and the Literary Arts

Creative Writing

Course #	Title	Hours
CW:2100	Creative Writing	3
or CW:1800	Creative Writing Studio Workshop	
CW:3002	Writing and Reading Young Adult Fiction	3
CW:3003	Writing and Reading Science Fiction	3
CW:3004	Writing and Reading Fantasy Fiction	3
CW:4894	Undergraduate Project in Creative Writing	arr.
WLLC:1510/ ASIA:1510	Ghost Stories and Tales of the Weird in Premodern Chinese Literature	3

Fiction

Course #	Title	Hours
CW:2870	Fiction Writing	3
CW:3870	Advanced Fiction Writing	3
CW:4870	Undergraduate Writers' Workshop: Fiction	arr.
CW:4897	Novel Writing	3

Nonfiction

Course #	Title	Hours
CNW:1620	Introduction to Creative Nonfiction	3
CNW:2680/ ENGL:2730	The Art and Craft of Creative Nonfiction	3
CNW:2700	The Art and Craft of Personal Writing	3
CNW:2840	The Art and Craft of Travel Writing	3
CNW:3630/ ENGL:3730	Advanced Nonfiction Writing	3
CNW:3633/ ENGL:3733	Personal Writing	3
CNW:4631/ ENGL:4731	Advanced Essay Workshop	3
CNW:4635/ ENGL:4735	Advanced Creative Nonfiction Writing	3
CNW:4690	Undergraduate Project in Nonfiction Writing	arr.

Playwriting

Course #	Title	Hours
THTR:2301	Playwriting I	3
THTR:2320	Playwriting in a Global World	3
THTR:3301	Playwriting II	3
THTR:3310	Undergraduate Playwriting Workshop	3
THTR:3421/ GWSS:3421	Performing Autobiography	3

Poetry

Course #	Title	Hours
CW:2875	Poetry Writing	3
CW:3875	Advanced Poetry Writing	3
CW:4875	Undergraduate Writers' Workshop: Poetry	arr.

Writing and the Media

TV and Screenwriting

Course #	Title	Hours
CINE:1150	Introduction to Screenwriting for Nonmajors	3
CINE:1300	Foundations of Screenwriting	3
CINE:2600	Writing Film Reviews and Criticism	3
CINE:3361	Screenwriting: Short Form	3
CINE:3367	Screenwriting: Long Form	3
CINE:4377	Advanced Screenwriting I	4
CINE:4378	Advanced Screenwriting II	4
CNW:3661/ ENGL:3761	Film and Writing	3
COMM:2077	Writing and Producing Sitcoms	3
THTR:3320	Writing for Film	3
THTR:6310	Special Topics in Playwriting	3
WRIT:3325/ THTR:3325	Iowa Writers' Room	3
WRIT:4325	Iowa Writers' Room: Advanced Pilot Writing	3

Other Media

Course #	Title	Hours
CNW:2770	The Art and Craft of Writing for New Media	3
CNW:3660/ ENGL:3760	Multimedia Writing	3
CW:3218/ INTD:3200	Creative Writing for New Media	3
JMC:3600	Topics in Designing/ Producing	3-4
RHET:2070	Persuasive Stories	3

Writing in Context

Course #	Title	Hours
WRIT:2100	Writing and Community Outreach	3
WRIT:2300	Writing Toward Empathy	3
CNW:2710	The Art and Craft of Food Writing	3
CNW:2720	The Art and Craft of Writing About Culture	3
CNW:2740	The Art and Craft of Writing about the Environment	3
CNW:2760	The Art and Craft of Writing for Social Change	3
CW:3107/ INTD:3107	Creative Writing for the Health Professions	3
CW:3215/ INTD:3300	Creative Writing and Popular Culture	3
CW:4751	Creative Writing for the Musician	3
EDTL:4355/ CNW:4355	Approaches to Teaching Writing	3
GWSS:3138/ SJUS:3138	Writing to Change the World	3
IWP:3191/ ENGL:3595/ TRNS:3191/ WLLC:3191	International Literature Today	1,3
RHET:2350	Forensic Rhetoric	3
RHET:3220	Honors Writing Fellows: Writing Theory and Practice	3

Student-Designated Writing-Intensive Course

Students may petition to count a course not in the previous lists toward their elective requirements. Petitions must be submitted online and receive prior approval from the Certificate in Writing advisor. Students may also

complete WRIT:4000 Independent Capstone Project or WRIT:3900 Writing: Undergraduate Internship.

Students may also request permission to count a maximum of 3 s.h. earned in a non-writing intensive course numbered 3000 or above as credit toward the focused elective requirement. For this option, students must propose a writing-related project that extends the writing focus of their chosen course. They must have the approval of the faculty member teaching the course and the writing certificate advisor.

Capstone Course

Each student must earn 1 s.h. in a capstone course that serves as a culmination of their Certificate in Writing.

Guided Capstone Portfolio (WRIT:4001, 1 s.h.) is an asynchronous, online, portfolio-based course that allows students the chance to direct their own academic, professional, and creative learning experience by asking them to think critically about where they have come from and where they are headed. Students take the guided capstone portfolio course during the semester they plan to complete the writing certificate. In the course, students revise a piece of their writing, generate one new piece of writing, participate in workshops and critiques, and create a digital portfolio of their work (five pieces total). Their final project also includes an essay that reflects on the work created and the skills gained while pursuing the writing certificate.

Professional Track

Literary Publishing

Students considering a career in literary publishing can learn the ins and outs of the industry and gain a competitive edge by enrolling in the literary publishing track. This unique educational experience provides a substantial understanding of the editorial, design, and managerial work essential to this profession.

The literary publishing track, interdisciplinary in scope, is a collaboration between the Magid Center for Writing, the Nonfiction Writing Program in the Department of English, the School of Art, Art History, and Design [p. 85], and the University of Iowa Center for the Book [p. 1721]. For more information, contact the Magid Center for Writing.

Students may earn either the Certificate in Writing with the literary publishing track or the Bachelor of Arts in English (publishing track) or the Bachelor of Arts in English and creative writing (publishing track). Students may not earn the publishing track in both the major and in the writing certificate, and credit earned toward the English or English and creative writing publishing track cannot be counted toward the Certificate in Writing literary publishing track. Students may double count a maximum of 6 s.h. earned for another major, minor, or certificate toward the certificate in writing literary publishing track.

Students who enroll in the literary publishing track complete the certificate's core courses (9 s.h.; see "Core Courses") and capstone (1 s.h.; see "Capstone Course"). They fulfill the focused elective requirement with the following coursework.

Literary Publishing Track Focused Electives

Course #	Title	Hours
Both of these:		
WRIT:2991/ CNW:2991/ ENGL:2741	Publishing I: Introduction to Literary Publishing	3
WRIT:2992/ CNW:2992/ ENGL:2742	Publishing II: Advanced Literary Publication	3
One of these:		
WRIT:2900/ ARTS:2900/ ENGL:2900/ UICB:2900	Book Design for Publishing	3
WRIT:3000	Publishing Practicum: The Iowa Chapbook Prize	3

Career Advancement

Recent Certificate in Writing graduates have gone on to work in various fields that are wide-ranging in scope and background. Graduates have found work as teachers, copywriters, editors and publishers, government administrators, freelance journalists, magazine writers, and more. Additionally, graduates often go on to pursue professional programs of study and advanced degrees in law and writing, among other fields. Finally, many recent graduates have found internships during and after their time in the program with publishing companies and magazines across the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Writing, Certificate

Course	Title	Hours
Second Year		
Any Semester		
WRIT:1500	Writing Commons: A Community of Writers	3
Certificate: core course (prefix WRIT) [a]		3
Certificate: core course (prefix WRIT) [a]		3
	Hours	**9**
Third Year		
Any Semester		
Certificate: core course (prefix WRIT) [a]		3
Certificate: focused elective [b]		3
Certificate: focused elective [b]		3
Internship: consider applying for internship with the Iowa Youth Writing Project or another organization (not required to earn the certificate but encouraged)		
	Hours	**9**

Fourth Year

Any Semester

Certificate: focused elective [b]	3
Certificate: capstone project [c]	1 - 3
Hours	**4-6**
Total Hours	**22-24**

a Students must complete 9 s.h. of core courses from the list of approved options. See General Catalog for more information.

b Students earn a total of at least 9 s.h. in focused electives, which they select from courses in at least two of the following categories (maximum of 6 s.h. from any one category) unless completing the literary publishing track: Writing for the Professions, Writing and the Literary Arts, Writing and the Media, Writing in Context, and Student-Designated Writing-Intensive Course.

c Students choose from WRIT:4001, WRIT:4000, WRIT:3900, or petition to count an additional 3 s.h. writing course approved as a core or focused elective course as their capstone.

Mathematics

Chair

- Ryan D. Kinser

Undergraduate major: mathematics (BA, BS)

Undergraduate minor: mathematics

Graduate degrees: MS in mathematics; PhD in mathematics

Faculty: https://math.uiowa.edu/people/faculty

Website: https://math.uiowa.edu

Mathematics is a basic tool for understanding modern society as well as a crucial requirement for many careers in science, engineering, business, and the professions. Research in this living, dynamic subject is at the highest level in history.

An undergraduate degree in mathematics prepares students for a variety of careers in government and business, secondary teaching, graduate study, and with proper planning, a variety of professional programs. Graduate study is advisable for some business and governmental positions and college and university teaching and research. The department also offers a minor.

Programs

Undergraduate Programs of Study

Majors

- Major in Mathematics (Bachelor of Arts) [p. 781]
- Major in Mathematics (Bachelor of Science) [p. 791]

Minor

- Minor in Mathematics [p. 801]

Graduate Programs of Study

- Master of Science in Mathematics [p. 802]
- Doctor of Philosophy in Mathematics [p. 804]

Courses

The regular math sequence (MATH:1850 Calculus I, MATH:1860 Calculus II, MATH:2700 Introduction to Linear Algebra, MATH:2850 Calculus III, and MATH:3600 Introduction to Ordinary Differential Equations) and the engineering math sequence (MATH:1550 Engineering Calculus I, MATH:1560 Engineering Calculus II, MATH:2550 Engineering Matrix Algebra, MATH:2560 Engineering Differential Equations, and MATH:3550 Engineering Vector Calculus) are similar, but they cover material in different orders with different emphases. Students who have taken courses in one sequence must receive approval from their advisor before taking courses in the other sequence.

Students who consider taking MATH:1860 Calculus II after MATH:1350 Quantitative Reasoning for Business or MATH:1460 Calculus for the Biological Sciences must consult with their advisor; they also must take a math placement test.

Mathematics Courses

MATH:0100 Basic Algebra I **3 s.h.**
Percents, ratio and proportion, algebraic expressions and operations, simple products, linear and quadratic equations, simultaneous equations, exponents and radicals; emphasis on verbal problems. Credit earned does not count toward graduation.

MATH:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

MATH:1005 College Algebra **4 s.h.**
Algebraic techniques, equations and inequalities, functions and graphs, exponential and logarithmic functions, systems of equations and inequalities. Prerequisites: MATH:0100 with a minimum grade of C- or ALEKS score of 30 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

MATH:1010 Trigonometry **3 s.h.**
Trigonometric functions, solutions of right and oblique triangles, complex numbers. Prerequisites: MATH:1340 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH:1005 with a minimum grade of C- or ALEKS score of 55 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

MATH:1020 Elementary Functions **4 s.h.**
Functions, relations, coordinate systems; properties and graphs of algebraic, trigonometric, logarithmic, exponential functions; inverse trigonometric functions; properties of lines, conic sections. Prerequisites: MATH:1010 with a minimum grade of C- or MATH:1005 with a minimum grade of C- or MPT Level 3 score of 9 or higher or ALEKS score of 60 or higher or MATH:1340 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1120 Logic of Arithmetic **4 s.h.**
Mathematical and conceptual foundations of the natural numbers used in elementary school arithmetic teaching; multiple algorithmic approaches to arithmetic and its mathematical and contextual relationships, extensions to integers, rational and irrational numbers, multiple representations. Prerequisites: ALEKS score of 30 or higher or MATH:1460 with a minimum grade of C- or MATH:1010 with a minimum grade of C- or MATH:1550 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or MATH:1860 with a minimum grade of C- or MATH:1005 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH:1850 with a minimum grade of C- or MATH:1440 with a minimum grade of C- or MATH:0100 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1140 Mathematical Basis of Elementary Geometry 3 s.h.
Points, lines, planes; measurement, two- and three-dimensional coordinate geometry, transformational geometry and vectors; applications of geometry to solve real-world problems. Prerequisites: MPT Level 3 score of 9 or higher or MATH:1850 with a minimum grade of C- or ALEKS score of 30 or higher or MATH:1010 with a minimum grade of C- or MATH:1005 with a minimum grade of C- or MATH:0100 with a minimum grade of C- or MATH:1440 with a minimum grade of C- or MATH:1460 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or MATH:1860 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or MATH:1550 with a minimum grade of C-. Requirements: elementary teacher certificate candidacy or certification. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

MATH:1210 Diverse Perspectives in the Mathematical Sciences 3 s.h.
Exploration of the wide diversity of cultures and individuals who have contributed to mathematical sciences; experiences and cultural messages that have shaped our own mathematical attitudes; numerous mathematical contributions of women, people of color, and members of other underrepresented groups—their accomplishments, challenges they faced, and factors that led to their success; revisiting and revising our own attitudes toward mathematics in light of what is read to incorporate a larger vision of mathematics and of people who do mathematical work. GE: Understanding Cultural Perspectives.

MATH:1260 PokeMath: The Mathematics of Pokemon Go 3 s.h.
Use of mathematics to take Pokémon Go play to the next level; exposure to a range of topics central to applied mathematics including set theory, functions, probability and statistics, rates of change, and game theory; requires a mobile device with the game Pokémon Go. Pokémon Go is a registered trademark of the Pokémon Company. GE: Quantitative or Formal Reasoning.

MATH:1340 Mathematics for Business 4 s.h.
Algebraic techniques, functions and functional models, exponential and logarithmic functions and models, linear programming, informal introduction to calculus; examples and applications from management, economic sciences, related areas. Prerequisites: MATH:1005 with a minimum grade of C- or MPT Level 3 score of 9 or higher or ALEKS score of 45 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1350 Quantitative Reasoning for Business 4 s.h.
Algebraic techniques and modeling; quantitative methods for treating problems that arise in management and economic sciences; topics include algebra techniques, functions and functional models, exponential and logarithmic functions and models, and a thorough introduction to differential calculus; examples and applications from management, economic sciences, and related areas; for students planning to major in business. Prerequisites: MATH:1005 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or ALEKS score of 55 or higher or MPT Level 3 score of 9 or higher. GE: Quantitative or Formal Reasoning.

MATH:1440 Mathematics for the Biological Sciences 4 s.h.
Relations, functions, coordinate systems, graphing, polynomials, trigonometric functions, logarithmic and exponential functions; discrete mathematics, probability; examples and applications from biological sciences. Prerequisites: MATH:1005 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or ALEKS score of 55 or higher or MATH:1010 with a minimum grade of C- or MPT Level 3 score of 9 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1460 Calculus for the Biological Sciences 4 s.h.
One-semester survey of calculus for students in biological or life sciences; nontheoretical treatment of differential and integral calculus; brief introduction to differential equations and probability with calculus, with applications to the life sciences. Prerequisites: MATH:1440 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or (MATH:1005 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or ALEKS score of 70 or higher or (ALEKS score of 55 or higher and MATH:1010 with a minimum grade of C-) or (MATH:1010 with a minimum grade of C- and MATH:1340 with a minimum grade of C-) or MPT Level 3 score of 9 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1550 Engineering Calculus I 4 s.h.
Review of functions, introduction to limits and continuity, introduction to derivatives and their applications, introduction to integrals/anti-derivatives, and introduction to the basics of vectors. Prerequisites: (MATH:1010 with a minimum grade of C- and MATH:1005 with a minimum grade of C-) or MPT Level 3 score of 9 or higher or ALEKS score of 75 or higher or MATH:1020 with a minimum grade of C- or MATH:1460 with a minimum grade of C- or (MATH:1010 with a minimum grade of C- and ALEKS score of 55 or higher) or (MATH:1350 with a minimum grade of C- and MATH:1010 with a minimum grade of C-). Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1560 Engineering Calculus II 4 s.h.
Continuation of MATH:1550. Covers applications of integration, techniques of integration, sequences and series, parametric equations and polar coordinates, and an introduction to vector-valued functions and parametric motion. Prerequisites: MATH:1550 with a minimum grade of C- or MATH:1850 with a minimum grade of C- or MPT Level 3 score of 15 or higher. Requirements: score of 4 or higher on AP Calc (AB) exam, or score of 4 or higher on AP Calc (BC) exam.

MATH:1850 Calculus I 4 s.h.
Fundamental concepts, limits, methods, and techniques of differential calculus of a single variable; definite and indefinite integrals, substitution rule, fundamental theorem of calculus; applications including graphing, extreme values, areas, and volumes. Prerequisites: MATH:1460 with a minimum grade of C- or ALEKS score of 75 or higher or MPT Level 3 score of 9 or higher or (ALEKS score of 55 or higher and MATH:1010 with a minimum grade of C-) or MATH:1020 with a minimum grade of C- or (MATH:1340 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or (MATH:1005 with a minimum grade of C- and MATH:1010 with a minimum grade of C-). Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1860 Calculus II 4 s.h.
Techniques of integration including by-parts, trigonometric Integrals, trigonometric substitutions, partial fractions, improper integrals; applications (i.e., arclength), area surfaces of revolutions, application to physics; introduction to differential equations; parametric equations and polar coordinates; infinite sequences and series, convergence tests, power series, Taylor polynomials and series. Prerequisites: MATH:1550 with a minimum grade of C- or MATH:1850 with a minimum grade of C- or MPT Level 3 score of 15 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

MATH:2150 Foundations of Geometry 3 s.h.
Axiomatic development of common foundation for Euclidean, non-Euclidean geometry; constructions of non-Euclidean models, independence of parallel postulate. Prerequisites: MATH:1860 or MATH:1560.

MATH:2550 Engineering Matrix Algebra 2 s.h.
Applications, computers for matrix calculations; matrix, vector arithmetic; linear independence, basis, subspace (in R2, R3); systems of equations, matrix reduction; rank, dimension; determinants, applications; eigenvalues, eigenvectors; diagonalization, principal axis theorem. Prerequisites: MATH:1850 or MATH:1550 or MATH:1860 or MATH:1560 or MPT Level 3 score of 15 or higher.

MATH:2560 Engineering Differential Equations 3 s.h.
Ordinary differential equations and applications; first-order equations; higher order linear equations; systems of linear equations, Laplace transforms; introduction to nonlinear equations and systems, phase plane, stability. Prerequisites: (MATH:1560 or MATH:1860) and (MATH:2700 or MATH:2550).

MATH:2700 Introduction to Linear Algebra 4 s.h.
Vector algebra and geometry of three-dimensional Euclidean space and extensions to n-space and vector spaces; lines and planes, matrices, linear transformations, systems of linear equations, dimension, rank, determinants, eigenvalues and eigenvectors, and diagonalization. Additional topics may include singular value decomposition. Prerequisites: MATH:1850 or MATH:1550 or MATH:1860 or MATH:1560 or MPT Level 3 score of 15 or higher.

MATH:2850 Calculus III 4 s.h.
Multivariable calculus; vector functions, total differentials, gradient, implicit functions, coordinate systems, Taylor's expansion, extrema, multiple integrals, vector fields, line integrals, surface integrals, and Green's, Stokes', and divergence theorems. Prerequisites: MATH:1860 with a minimum grade of C- or MATH:1560 with a minimum grade of C-.

MATH:3550 Engineering Vector Calculus 3 s.h.
Partial derivatives, max-min problems, integrals along curves, surfaces and solids, vector fields and conservation of energy; curl, divergence, Stokes' theorem and the divergence theorem; the classical partial differential equations and qualitative behavior of their solutions. Prerequisites: MATH:1560 and (MATH:2550 or MATH:2700). Corequisites: MATH:2560.

MATH:3600 Introduction to Ordinary Differential Equations 2-3 s.h.
First-order ordinary differential equations; second-order linear differential equations; series solutions; higher-order linear and matrix differential equations; existence and uniqueness theorems; may include introduction to basic partial differential equations (PDE) or Laplace Transforms. Prerequisites: (MATH:1560 or MATH:1860) and (MATH:2550 or MATH:2700). Requirements: prior or concurrent enrollment in MATH:2850.

MATH:3700 Introduction to Matrix Theory 3 s.h.
Vector algebra and geometry of three-dimensional Euclidean space and extensions to n-space and vector spaces; lines and planes, matrices, linear transformations, systems of linear equations, reduction to row-echelon form, dimension, rank, determinants, eigenvalues and eigenvectors, diagonalization, Principal Axis Theorem. Requirements: graduate standing.

MATH:3720 Introduction to Abstract Algebra 4 s.h.
Introduction to group theory, covering topics such as integers, permutations, the definition of groups, subgroups, quotient groups, and group homomorphisms. Prerequisites: MATH:2700 or MATH:2550.

MATH:3770 Foundations of Analysis 4 s.h.
Elementary topological and analytic properties of real numbers, especially the completeness axiom, limit, convergence, and the basic theory underlying differential and integral calculus. Prerequisites: MATH:1560 or MATH:1860. Corequisites: MATH:2700. Requirements: second-semester calculus.

MATH:3800 Introduction to Numerical Methods 3 s.h.
Computer arithmetic, root finding, polynomial approximation, numerical integration, numerical linear algebra, numerical solution of differential equations; use of a higher-level computer language such as Matlab, Python, or Julia. Prerequisites: (MATH:2550 or MATH:2700) and (MATH:1560 or MATH:1860). Same as CS:3700.

MATH:3900 Introduction to Mathematics Research 3 s.h.
Research experience; students study an elementary topic of active research, then work in groups under faculty supervision. Prerequisites: (MATH:2700 or MATH:2550) and (MATH:1860 or MATH:1560).

MATH:3996 Individual Study and Honors in Mathematics arr.

MATH:3997 Readings in Mathematics arr.

MATH:4010 Basic Analysis 3 s.h.
Elementary topological and analytical properties of real numbers; emphasis on ability to handle definitions, theorems, proofs; same material as MATH:3770 for non-mathematics graduate students. Requirements: graduate standing, one year of calculus, and one semester of linear algebra.

MATH:4020 Basic Abstract Algebra 3 s.h.
Basic logic, proof methods, sets, functions, relations, mathematical induction; gradual transition from familiar number systems to abstract structures (division algorithm, unique factorization theorems); groups, subgroups, quotient groups, homomorphisms; same material as MATH:3720; for non-mathematics graduate students. Requirements: graduate standing, one year of calculus, and one semester of linear algebra.

MATH:4040 Matrix Theory 3 s.h.
Vector spaces, linear transformations, matrices, equivalence of matrices, eigenvalues and eigenvectors, canonical forms, similarity, orthogonal transformations, bilinear and quadratic forms. Prerequisites: MATH:2700 or MATH:3700.

MATH:4050 Introduction to Discrete Mathematics 3 s.h.
Fundamental methods and concepts of discrete mathematics. Topics include enumerative combinatorics, the inclusion-exclusion principle, recurrence relations, and generating functions. Explores applications to group theory, including the Polya-Burnside theorem. Prerequisites: (MATH:1860 or MATH:1560) and (MATH:2550 or MATH:2700).

MATH:4060 Discrete Mathematical Models 3 s.h.
Basic combinatorics and graph theory and their applications, which may include scheduling, matching, and optimization. Topics include Eulerian and Hamiltonian paths; spanning trees; discrete mathematical models from various fields using graphs, trees, networks, Markov chains, and games; understanding and writing proofs in graph theory. Prerequisites: MATH:2700 or MATH:2550.

MATH:4080 Number Theory and Cryptography 3 s.h.
Elementary number theory and its applications in public key cryptography, which forms the foundation of internet communication, cybersecurity, and digital finance. Prerequisites: MATH:1860 and MATH:2700.

MATH:4090 A Rigorous Introduction to Abstract Algebra 3 s.h.
Rigorous review of groups including homomorphisms and quotient groups; group actions; Sylow's theorems; rigorous review of rings; ideals, ring homomorphisms, quotient rings; polynomial rings; vector spaces and linear transformations; basic field theory; serves as a bridge between MATH:3720 and MATH:5000. Prerequisites: MATH:3720. Requirements: MATH:3720 or graduate standing.

MATH:4095 Rigorous Introduction to Module Theory and Galois Theory 4 s.h.
Rigorous review of vector spaces and linear transformations; introduction to module theory, including finitely generated modules over principal ideal domains; rigorous introduction to field theory, including existence of algebraic closure and splitting fields; introduction to Galois theory, including solvability by radicals. Prerequisites: MATH:4090 or MATH:5000.

MATH:4120 History of Mathematics 3 s.h.
May include numerical systems; Babylonian, Egyptian, and Greek mathematics; mathematics of other cultures; calculus; 19th- and 20th-century mathematics. Prerequisites: (MATH:2700 or MATH:2550) and (MATH:1560 or MATH:1860). Requirements: two semesters of calculus and one semester of linear algebra.

MATH:4200 Complex Variables 3 s.h.
Geometry of complex plane, analytic functions; Cauchy-Goursat theorem, applications; Laurent series, residues, elementary conformal mapping. Prerequisites: MATH:2850 or MATH:1560.

MATH:4220 Fourier Analysis and Applications 3 s.h.
Fourier series and Fourier transforms; pointwise, uniform, and mean square convergence of Fourier series; Parseval's identity and Bessel's inequity; convolutions. Prerequisites: (MATH:1560 or MATH:1860) and (MATH:2550 or MATH:2700).

MATH:4250 Introduction to Financial Mathematics 3 s.h.
Financial mathematics; option pricing and portfolio optimization, stochastic integration, methods due to Ito and Feynman-Kac, and Monte-Carlo simulation. Prerequisites: MATH:2850 or STAT:3120.

MATH:4700 Partial Differential Equations and Applications 3 s.h.
Introduction to elliptic, parabolic, and hyperbolic partial differential equations and their applications to problems from science and engineering. Prerequisites: (MATH:1560 or MATH:2850) and (MATH:2560 or MATH:3600).

MATH:4740 Large Data Analysis 3 s.h.
Current areas that deal with problem of big data; techniques from computer science, mathematics, statistics; high performance and parallel computing, matrix techniques, cluster analysis, visualization; variety of applications including Google PageRank, seismology, Netflix-type problems, weather forecasting; fusion of data with simulation; projects. Prerequisites: (CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-) and (MATH:3800 or CS:3700) and (STAT:3200 or IE:3760 or IGPI:3200). Same as CS:4740, IGPI:4740, STAT:4740.

MATH:4750 Introduction to Mathematical Biology 3 s.h.
Use and creation of mathematical models in biology, primarily those using continuous dynamical systems ordinary and partial differential equations; may include additional approaches (e.g., game theory, discrete models); modeling approaches—the model as representation—and canonical models in context of example systems drawn from a range of application areas including, but not limited to, neurobiology, electrophysiology, epidemiology, ecology, evolution, demography, and spatiotemporal pattern formation including morphogenesis. Prerequisites: MATH:3600 or MATH:2560.

MATH:4820 Optimization Techniques 3 s.h.
Basic theory of optimization, use of numerical algorithms in solution of optimization problems; linear and nonlinear programming, sensitivity analysis, convexity, optimal control theory, dynamic programming, calculus of variations. Prerequisites: (MATH:2700 or MATH:2550) and (ME:4111 or MATH:3800 or CS:3700) and (MATH:1560 or MATH:2850). Same as CS:4720.

MATH:4840 Mathematics of Machine Learning 3 s.h.
Mathematical aspects of machine learning; regression methods and related issues of overfitting, generalization error, cross-validation; matrix methods for dimension reduction; optimization for support vector machines and neural networks, including convex duality and "kernel trick" for support vector machines; training of neural networks using backpropagation and gradients; reliability of optimization methods for nonconvex optimization; approximation properties of neural networks; convolutions for handling sound and image data; game theory for adversarial networks. Prerequisites: (MATH:2550 or MATH:2700) and (MATH:1560 or MATH:2850 or MATH:3550).

MATH:4860 High Performance and Parallel Computing 3 s.h.
Exploration and implementation of parallel algorithms using diverse frameworks and libraries, across platforms such as multicore processors and GPUs. Emphasis on current advancements, scientific computing applications, and large-scale data analysis projects. Prerequisites: (CS:2210 with a minimum grade of C- or MATH:4050) and CS:2230 with a minimum grade of C-. Same as CS:4700.

MATH:5000 Abstract Algebra I 3 s.h.
Groups and homomorphisms, Sylow Theorems, rings, finitely generated modules over a PID, Galois theory, vector spaces, linear transformations and matrices, canonical forms. Prerequisites: MATH:3720.

MATH:5010 Abstract Algebra II 3 s.h.
Continuation of MATH:5000. Prerequisites: MATH:5000.

MATH:5200 Introduction to Analysis I 3 s.h.
Real numbers, fundamentals of limits and continuity in the context of metric spaces; Lebesque theory of functions of one real variable. Prerequisites: MATH:3770 or MATH:4220. Requirements: MATH:3770 or graduate standing.

MATH:5210 Introduction to Analysis II 3 s.h.
Local theory of analytic functions of one complex variable, power series, classical transcendental functions; spaces of functions. Prerequisites: MATH:5200.

MATH:5400 Fundamental Groups and Covering Spaces 3 s.h.
Homotopy, homotopy equivalence, homotopy extension property, fundamental group, Van Kampen's theorem, free products of groups, covering spaces, lifting properties, classification of covering spaces, deck transformations and group actions, cell complexes, applications to cell complexes, graphs and free groups; may include simplicial homology and point-set topology topics. Prerequisites: MATH:3770.

MATH:5410 Introduction to Smooth Manifolds 3 s.h.
Calculus on smooth manifolds; smooth functions, mean value theorem, chain rule, smooth manifolds, tangent vectors, tangent spaces, inverse and implicit functions theorems, submersions and immersions, vector fields, flows, multilinear algebra, differential forms, Stokes theorem. Prerequisites: MATH:2700 and MATH:2850 and MATH:5400.

MATH:5600 Nonlinear Dynamics With Numerical Methods 3 s.h.
Linear systems of differential equations (fundamental solutions, matrix exponentials, Floquet theory); nonlinear differential equations (theorem for existence and uniqueness, flows, attractors); local nonlinear theory (invariant manifolds, Hartman-Grobman theorem, Poincare maps); global nonlinear theory (Poincare-Bendixson criterion, Lyapunov functions, gradient systems, Hamiltonian systems); bifurcations (saddle-node, pitchfork, transcritical, Hopf); introduction to chaos theory (Lorenz equations); computational methods to solve numerically differential equations and to draw phase planes and trajectories. Prerequisites: MATH:3600 and (MATH:3770 or MATH:4220).

MATH:5700 Introduction to Partial Differential Equations 3 s.h.
Diffusion, Laplace, and wave equations; scalar conservation laws; weak solutions and energy methods. Prerequisites: MATH:2850 and MATH:3600 and (MATH:3770 or MATH:4220).

MATH:5750 Mathematical Biology I 3 s.h.
Topics in mathematical biology; canonical mathematical modeling and analysis of problems in the biological sciences; first of a two-semester sequence. Prerequisites: MATH:5600 and MATH:5700.

MATH:5760 Mathematical Biology II 3 s.h.
Topics in mathematical biology; canonical mathematical modeling and analysis of problems in the biological sciences; second of a two-semester sequence. Corequisites: MATH:5600 and MATH:5700, if not taken as prerequisites.

MATH:5800 Numerical Methods I 3 s.h.
Root finding for nonlinear equations; polynomial interpolation; polynomial approximation of functions; numerical integration. Prerequisites: MATH:2700 and (MATH:2850 or MATH:3550). Requirements: knowledge of computer programming. Same as CS:5710.

MATH:5810 Numerical Methods II 3 s.h.
Numerical methods for initial value problems for ordinary differential equations; direct and iterative methods for linear systems of equations; eigenvalue problems for matrices. Prerequisites: MATH:2700 and MATH:5800 and (MATH:2850 or MATH:3550) and (MATH:3600 or MATH:2560). Requirements: knowledge of computer programming. Same as CS:5720.

MATH:5900 First-Year Graduate Seminar 1 s.h.
Introduction to mathematics graduate program. Requirements: first-year graduate standing in mathematics.

MATH:5950 Qualifying Exam Preparation Seminars 0 s.h.
Exam preparation in pure and applied mathematics.

MATH:6000 Categories and Modules 3 s.h.
Introduction to categories and functors; emphasis on module categories, products and coproducts, hom functors and tensor product functors, exact sequences, projective/injective/flat modules, Noetherian and Artinian rings and modules, composition series and Jordan-Hölder theorem, Jacobson radical, Nakayama's lemma, semisimple rings and modules, and Artin-Wedderburn structure theorem. Prerequisites: MATH:5010.

MATH:6010 Commutative Algebra and Representation Theory 3 s.h.
Fundamental notions in commutative algebra and representation theory; specific topics may include Gröbner bases, associated primes, primary decomposition, valuation rings, affine and projective varieties, group representations, characters, orthogonality relations, and other branches of representation theory. Prerequisites: MATH:5010.

MATH:6200 Analysis I 3 s.h.
Lebesque measure and integral, fundamental theorem of calculus, abstract measures and integration, Fubini's theorem, Radon-Nikodym theorem, Riesz representation theorem, L-p spaces. Prerequisites: MATH:5210.

MATH:6210 Analysis II 3 s.h.
Hilbert space, Banach space techniques; Hahn-Banach theorem, open mapping theorem, principle of uniform boundedness; reflexivity, H-p spaces, Paley-Wiener theorem, space of functions analytic on the open unit disk. Prerequisites: MATH:6200.

MATH:6400 Algebraic Topology 3 s.h.
Singular homology, relative homology, homotopy invariance, exact sequences and excision, cellular homology, Mayer-Vietoris sequences, homology with coefficients, axioms for homology, Hurewicz theorem, cohomology groups, universal coefficient theorem, cup product, cohomology ring, fundamental class, Poincaré duality. Prerequisites: MATH:5400.

MATH:6410 Introduction to Differential Topology 3 s.h.
Manifolds, functions: tangent bundle, Morse-Sard theorem, transversality, submanifolds, tubular neighborhoods, normal bundles, vector fields, degree and intersection theory, fixed-point theory, Morse theory. Prerequisites: MATH:5410.

MATH:6500 Differential Geometry I 3 s.h.
Differentiable manifolds, forms, tensors, Riemannian metrics, isometries, connections, geodesics, curvature, related topics. Prerequisites: MATH:5410.

MATH:6510 Differential Geometry II 3 s.h.
Continuation of MATH:6500; varied topics, may include study of existence and uniqueness of solutions to differential equations and systems related to geometry, indefinite metrics, Lie groups, attributes of manifolds with particular curvature properties, global Riemannian geometry, Kahler geometry, applications of differential geometry to other disciplines. Prerequisites: MATH:6500.

MATH:6600 Ordinary Differential Equations I 3 s.h.
Existence, uniqueness, continuous dependence of solutions to initial value problems, variational calculus, Lagrangian and Hamiltonian systems, differential inequalities, perturbation theory, normal forms, invariant manifolds, KAM theory, bifurcation theory, boundary value problems. Prerequisites: MATH:5600.

MATH:6610 Ordinary Differential Equations II 3 s.h.
Continuation of MATH:6600. Prerequisites: MATH:6600.

MATH:6700 Partial Differential Equations I 3 s.h.
Elliptic equations; potential theory, maximum principle, a priori estimate, Dirichlet problem; initial value problem for parabolic equations; hyperbolic equations; Duhamel's principle, Cauchy problem; nonlinear equations, characteristics, canonical form, first-order systems. Prerequisites: MATH:5210.

MATH:6710 Partial Differential Equations II 3 s.h.
Continuation of MATH:6700. Prerequisites: MATH:6700.

MATH:6850 Advanced Numerical Methods I 3 s.h.
Theoretical foundations of numerical analysis, within framework of functional analysis; application areas including approximation theory, numerical methods for partial differential equations, integral equations; introduction to functional analysis. Prerequisites: MATH:5200 and MATH:5210 and MATH:5800 and MATH:5810.

MATH:6860 Advanced Numerical Methods II 3 s.h.
Continuation of MATH:6850. Prerequisites: MATH:6850.

MATH:7000 Homological Algebra 2-3 s.h.
Fundamental notions in homological algebra, including derived functors (Ext and Tor); specific topics may include group cohomology, spectral sequences, and derived categories. Prerequisites: MATH:6000.

MATH:7020 Algebraic Number Theory 3 s.h.
Topics include integral elements, integrally closed rings, algebraic extensions, norms and traces, the discriminant; number fields and some analogues in positive characteristic, global fields; class groups, unit groups; valuations and local fields; adele ring and idele group attached to global fields; L-functions (including the Riemann zeta function) and class number formulas. Prerequisites: MATH:5000 and MATH:5010.

MATH:7030 Topics in Algebra 2-3 s.h.
May include algebraic number theory, groups, representation theory, algebras, ideal theory, lattice theory. Prerequisites: MATH:6010.

MATH:7070 Seminar: Algebra arr.

MATH:7090 Seminar: Representation Theory arr.

MATH:7200 Functional Analysis I 2-3 s.h.
Locally convex topological vector spaces, duality, tensor products and nuclear spaces; Krein-Millman theorem, Choquet's theory; geometry of Banach spaces, nonlinear functional analysis; operators on Hilbert spaces, spectral theorem, algebras of operators. Prerequisites: MATH:6210.

MATH:7210 Functional Analysis II 2-3 s.h.
Continuation of MATH:7200. Prerequisites: MATH:7200.

MATH:7250 Topics in Analysis 2-3 s.h.
Measure theory, integration, general topology.

MATH:7290 Seminar: Operator Theory arr.

MATH:7400 Current Geometry and Topology I 3 s.h.
Introduction to current topics in geometry and topology: Gromov-Witten theory, moduli spaces, Floer theory, mirror symmetry, geometric analysis, conformal geometry, knots and braids, topological data analysis, contact and symplectic topology, mapping class groups, categorification, Heegaard splittings of 3-manifolds, trisections of 4-manifolds, quantum topology, and Skein theory. Prerequisites: MATH:5400 and MATH:5410.

MATH:7450 Current Geometry and Topology II 2-3 s.h.
Introduction to current topics in geometry and topology: Gromov-Witten theory, moduli spaces, Floer theory, mirror symmetry, geometric analysis, conformal geometry, knots and braids, topological data analysis, contact and symplectic topology, mapping class groups, categorification, Heegaard splittings of 3-manifolds, trisections of 4-manifolds, quantum topology, and Skein theory. Prerequisites: MATH:5400 and MATH:5410.

MATH:7470 Seminar: Topology arr.

MATH:7570 Seminar: Differential Geometry arr.

MATH:7580 Seminar: Mathematical Physics arr.

MATH:7630 Topics in Mathematical Biology 2-3 s.h.
Application of mathematics to biology.

MATH:7660 Seminar: Nonlinear Dynamics and Differential Equations arr.

MATH:7670 Seminar: Mathematical Biology arr.

MATH:7730 Topics in Partial Differential Equations 2-3 s.h.
Regularity theory, nonlinear analysis in partial differential equations, fluid dynamics, harmonic analysis, conservation laws, other topics.

MATH:7770 Seminar: Partial Differential Equations arr.

MATH:7830 Topics in Applied Mathematics 3 s.h.
Application of mathematics to other disciplines.

MATH:7870 Seminar: Numerical Analysis arr.

MATH:7990 Reading Research arr.

Mathematics, BA

Bachelor of Arts students majoring in mathematics enroll in one of these programs: Program A is for students who plan to work in business or government or pursue graduate study in mathematics; Program B is for students who seek secondary school teaching licensure; and the program with a related specialization may be especially appropriate for students who plan to seek a math-related job after earning the bachelor's degree rather than going on to graduate study. Defined areas of specialization include business (economics, finance, or risk management and insurance), data sciences (biostatistics, computer science, data science, or statistics and actuarial science), and physical sciences (biochemistry, biomathematics, chemistry, or physics). Program C is also available for students who wish to design their own area of specialization, like engineering.

Learning Outcomes

Math majors will be able to:

- give correct, logical mathematical proofs using mathematical terminology and hypotheses;
- reason logically and quantitatively using algebraic, analytic, and numerical methods;
- incorporate mathematical ideas and reasoning into well-written English; and
- model and analyze problems in pure mathematics and in other disciplines.

Transfer From Engineering to Mathematics

Certain engineering students who have completed MATH:1550 Engineering Calculus I, MATH:1560 Engineering Calculus II, MATH:2550 Engineering Matrix Algebra, MATH:2560 Engineering Differential Equations, or MATH:3550 Engineering Vector Calculus may count these courses toward the major in mathematics. See the Department of Mathematics website.

Requirements

The Bachelor of Arts with a major in mathematics requires a minimum of 120 s.h., including at least 38–47 s.h. of work for the major. Total credit for the major depends on a student's choice of Program A, B, C, or a related specialization (business, data sciences, or physical sciences). Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

All students complete the post-calculus mathematics requirement, the upper-level mathematics requirement, and the requirements for Program A, B, or C, or a related specialization. Students must complete a two-semester sequence of MATH:1850 Calculus I and MATH:1860 Calculus II. Students in certain subtracks or Program C may be able to substitute another two-course calculus sequence; see information for specific specializations below. Advanced placement credit, CLEP credit, and credit granted through the Mathematics Incentive Program are accepted for all or part of the calculus requirement.

Students may count up to 56 s.h. of Department of Mathematics coursework (prefix MATH) toward credit required for the Bachelor of Arts degree. For policies concerning transfer credit, correspondence credit, credit by examination, cumulative grade-point average, general rules relating to regression and duplication, and so forth, see For Undergraduate Students on the College of Liberal Arts and Sciences website.

For information about duplication, regression, and use of the second-grade-only option for mathematics courses, contact the Department of Mathematics or visit the Department of Mathematics website. The website also provides details about schedule planning and career options for mathematics students. For more information on admission, financial support, employment opportunities, the faculty, facilities, and other topics, visit the Department of Mathematics or the University of Iowa website.

The BA with a major in mathematics requires the following coursework.

Requirements	Hours
Post-Calculus Mathematics Courses	
Upper-Level Mathematics Course	
Program Requirements	38-47

Post-Calculus Mathematics Courses

15 s.h. of post-calculus mathematics courses (prefix MATH) applied toward the major must be completed at the University of Iowa; students may not count transfer courses or credit by exam toward this requirement.

Post-calculus courses in the Department of Mathematics are numbered 2000 or above, excluding MATH:3700, MATH:3996, MATH:3997, MATH:4010, and MATH:4020.

Upper-Level Mathematics Course

Students must take at least one upper-level mathematics course for the BA degree. Upper-level mathematics courses include MATH:3900 and courses numbered 4000 or above, excluding MATH:4010, MATH:4020, and MATH:4120.

No courses from other departments can be counted as upper-level mathematics courses unless they are cross-referenced with an upper-level mathematics course (prefix MATH).

Program A

Program A is primarily for students who plan to work in business or government or to pursue graduate study in mathematics.

Program A: Core Courses

Students complete the following core courses.

Course #	Title	Hours
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3600	Introduction to Ordinary Differential Equations	3
MATH:3720	Introduction to Abstract Algebra	4
MATH:3770	Foundations of Analysis	4

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

Program A: Electives

Students complete four electives (12–16 s.h.), including at least two courses with a MATH prefix. Of these two courses, at least one course must be an upper-level mathematics course.

Mathematics

Students may choose from mathematics courses numbered MATH:2150, MATH:3800, or courses above MATH:3800, excluding MATH:4010 and MATH:4020.

Computer Science

Students may choose computer science courses numbered CS:1210 through CS:4740, excluding CS:3210, CS:3910, CS:3980, and CS:3990.

Statistics and Actuarial Science

Students may choose statistics courses numbered STAT:2020, STAT:3100 through STAT:4740, STAT:5100 through STAT:5120, excluding STAT:3510, STAT:4143, and STAT:4200.

Among the courses previously listed, only one of the following three courses can be counted toward the elective requirement: STAT:2020, STAT:3100, or STAT:3120. None of these courses can be counted as credit earned toward graduation if taken after STAT:4100 owing to regression policies.

Students may choose actuarial science courses numbered ACTS:3080 and ACTS:4130 through ACTS:4380.

Program B

Program B is intended for students seeking secondary school teaching licensure. Students who wish to earn teaching licensure in addition to earning a Bachelor of Arts with a major in mathematics must also complete the Teacher Education Program (TEP); see the section titled "Teacher Licensure."

Program B: Core Courses

Students complete the following core courses.

Course #	Title	Hours
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
MATH:2150	Foundations of Geometry	3
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3720	Introduction to Abstract Algebra	4
MATH:3770	Foundations of Analysis	4
MATH:4050	Introduction to Discrete Mathematics	3
or MATH:4060	Discrete Mathematical Models	
CS:1210	Computer Science I: Fundamentals	4
STAT:3120	Probability and Statistics	4

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

Program B: Electives

Students in Program B must take at least one additional Department of Mathematics post-calculus course (3–4 s.h.).

Post-calculus courses must avoid duplication and regression with core mathematics courses, particularly when engineering mathematics courses are considered. With the department's approval, capable students are encouraged to substitute more advanced courses in the same subject area for any of the electives. The Department of Mathematics website offers advice on course selection.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Students who wish to earn teacher licensure should choose Program B.

Program in Math With a Related Specialization

The Department of Mathematics encourages students of other majors to take more mathematics courses and attempt a BA or BS secondary major, or a secondary degree if their first major is outside CLAS, in mathematics. The program in math with a related specialization offers a curricular path to achieve this goal. Students complete core courses, mathematics electives, and subtrack requirements.

The program in math with a related specialization enables students to declare a concentration in a mathematics-related area. Options include specialization in business (subtracks in economics, finance, and risk management and insurance), data sciences (subtracks in biostatistics, data science, computer science, and statistics and actuarial science), and physical sciences (subtracks in biochemistry, biomathematics, chemistry, and physics). Students may declare one of these three defined areas of specialization and must complete all requirements for one subtrack. They may also propose other plans of study, which would be categorized under Program C. An individualized plan of study must be approved by the Department of Mathematics prior to the start of the student's final year.

Business, Data Sciences, and Physical Sciences: Core Courses

Students complete the following core mathematics courses. Students pursuing the biostatistics subtrack of the data sciences specialization should refer to the following section titled "Biostatistics Subtrack" for additional information about an alternative set of core courses. Students in the biomathematics subtrack of the physical sciences specialization should refer to the section titled "Biomathematics Subtrack" rather than the following list.

Course #	Title	Hours
One of these sequences:		
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
MATH:1550 & MATH:1560	Engineering Calculus I and Engineering Calculus II	8
All of these:		

MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3720	Introduction to Abstract Algebra (students in the biostatistics subtrack must take MATH:3770)	4
or MATH:3770	Foundations of Analysis	

If students complete both MATH:3720 and MATH:3770, one may count toward core courses and the other toward the elective requirement.

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

Business, Data Sciences, and Physical Sciences: Mathematics Electives

Students must take three mathematics elective courses (9–12 s.h.), including at least one upper-level math course. Mathematics elective options include mathematics courses (prefix MATH) numbered MATH:3600–MATH:5810, excluding MATH:3700, MATH:3996, MATH:3997, MATH:4010, MATH:4020, and MATH:4120.

When a subtrack requires post-calculus mathematics courses, those courses may also count as mathematics electives, with the exception of the physics subtrack of the physical sciences specialization. See the following section titled "Physics Subtrack" for more information.

Business Specialization

Economics Subtrack

The business specialization with an economics subtrack requires the following four courses.

Course #	Title	Hours
All of these:		
CS:1210	Computer Science I: Fundamentals	4
ECON:3100	Intermediate Microeconomics	3
ECON:3150	Intermediate Macroeconomics	3
STAT:3120	Probability and Statistics	4

Finance Subtrack

The business specialization with a finance subtrack requires the following four courses.

Course #	Title	Hours
This course:		
FIN:3000	Introductory Financial Management	3
One of these:		
FIN:3200	Investment Management	3
FIN:3300	Corporate Finance	3
Two of these:		
ACCT:3020	Financial Accounting and Reporting	3
FIN:3200	Investment Management (if not taken for the previous requirement)	3
FIN:3300	Corporate Finance (if not taken for the previous requirement)	3
FIN:3400	Principles of Risk Management and Insurance	3
A 3-4 s.h. finance course (prefix FIN) that counts toward the BBA in finance		3-4

Risk Management and Insurance Subtrack

The business specialization with a risk management and insurance subtrack requires the following four courses.

Course #	Title	Hours
Both of these:		
FIN:3000	Introductory Financial Management	3
FIN:3400	Principles of Risk Management and Insurance	3
Two of these:		
FIN:4420	Property and Liability Insurance	3
FIN:4430	Life and Health Insurance	3
FIN:4440	Employee Benefit Plans	3
FIN:4450	Risk Modeling	3

Data Sciences Specialization

Biostatistics Subtrack

Biostatistics: Alternative Core Courses

Students may complete five core courses as previously listed, or they may complete the six courses listed below.

Course #	Title	Hours
All of these:		
MATH:1550	Engineering Calculus I	4
MATH:1560	Engineering Calculus II	4
MATH:2550	Engineering Matrix Algebra	2
MATH:2560	Engineering Differential Equations	3
MATH:3550	Engineering Vector Calculus	3
MATH:3770	Foundations of Analysis	4

Biostatistics: Additional Required Courses

The data sciences specialization with a biostatistics subtrack requires the following six courses.

Course #	Title	Hours
This course:		
CPH:1400	Fundamentals of Public Health	3
Three of these, with at least one course numbered 4000 or above:		
MATH:3600	Introduction to Ordinary Differential Equations (if student has not taken MATH:2560 as a core course)	3
MATH:3800	Introduction to Numerical Methods	3
MATH:4220	Fourier Analysis and Applications	3
MATH:4700	Partial Differential Equations and Applications	3

MATH:4820	Optimization Techniques	3
One of these:		
STAT:2010	Statistical Methods and Computing	3
STAT:3200	Applied Linear Regression	3
STAT:3210	Experimental Design and Analysis	3
STAT:4100	Statistical Inference I	3
STAT:4101	Statistical Inference II	3
One of these:		
BIOS:4120	Introduction to Biostatistics	3
BIOS:5120	Regression Modeling and ANOVA in the Health Sciences	3
BIOS:5310	Research Data Management	3
BIOS:5710	Biostatistical Methods I	4
BIOS:5720	Biostatistical Methods II	4
BIOS:5730	Biostatistical Methods in Categorical Data	3

Computer Science Subtrack

The data sciences specialization with a computer science subtrack requires three electives in computer science (prefix CS) numbered CS:1210–CS:4740, excluding CS:2110, CS:3010, CS:3210, CS:3910, CS:3980, CS:3990, and CS:3999.

Data Science Subtrack

The data sciences specialization with a data science subtrack requires the following three courses.

Course #	Title	Hours
Three of these, with at least one course in computer science (prefix CS) and one course in statistics (prefix STAT):		
CS:3330	Algorithms	3
CS:4400	Database Systems	3
CS:4470	Health Data Analytics	3
CS:5430	Machine Learning	3
CS:5630	Cloud Computing Technology	3
STAT:3100	Introduction to Mathematical Statistics I	4
STAT:3101	Introduction to Mathematical Statistics II	3
STAT:3200	Applied Linear Regression	3
STAT:3210	Experimental Design and Analysis	3
STAT:4520	Bayesian Statistics	3
STAT:4540	Statistical Learning	3
STAT:4560	Statistics for Risk Modeling I	3
STAT:4580	Data Visualization and Data Technologies	3
STAT:5810	Research Data Management	3
At most one of these in each course subject:		
CS:1210	Computer Science I: Fundamentals	4
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
STAT:2010	Statistical Methods and Computing	3

Statistics and Actuarial Science Subtrack

The data sciences specialization with a statistics and actuarial science subtrack requires the following three courses.

Course #	Title	Hours
Three of these:		
ACTS:3080	Mathematics of Finance I	3
ACTS:4130	Quantitative Methods for Actuaries	3
ACTS:4150	Fundamentals of Short-Term Actuarial Mathematics	3
ACTS:4180	Life Contingencies I	3
ACTS:4280	Life Contingencies II	3
STAT:2010	Statistical Methods and Computing	3
STAT:3101	Introduction to Mathematical Statistics II	3
STAT:3200	Applied Linear Regression	3
STAT:3210	Experimental Design and Analysis	3
STAT:3620	Quality Control	3
STAT:4100	Statistical Inference I	3
STAT:4101	Statistical Inference II	3
STAT:4520	Bayesian Statistics	3
STAT:4740	Large Data Analysis	3
STAT:5100	Statistical Inference I	3
STAT:5101	Statistical Inference II	3
STAT:5120	Mathematical Methods for Statistics	3
May count one of these if taken before STAT:4100:		
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3100	Introduction to Mathematical Statistics I	4
STAT:3120	Probability and Statistics	4

Physical Sciences Specialization

Biochemistry Subtrack

The physical sciences specialization with a biochemistry subtrack requires the following five courses.

Course #	Title	Hours
Both of these:		
MATH:3600	Introduction to Ordinary Differential Equations	3
BMB:4240	Biophysics and Advanced Biochemistry	3
Three electives from these:		
BMB:3120	Biochemistry and Molecular Biology I	3
BMB:3130	Biochemistry and Molecular Biology II	3
BMB:4310	Computational Biochemistry	3
May include one of these:		
CHEM:4430	Principles of Physical Chemistry	3
CHEM:4431	Chemical Thermodynamics	3
CHEM:4432	Quantum Mechanics and Chemical Kinetics	3

Up to 3 s.h. from this course:		
BMB:4999	Advanced Undergraduate Biochemistry Research (requires departmental approval in advance)	arr.

Biomathematics Subtrack

Biomathematics: Core Courses

Students in the biomathematics subtrack should complete one of the two sets of core courses below for a total of at least 23 s.h.

Course #	Title	Hours
Option 1		
One of these sequences:		
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
MATH:1550 & MATH:1560	Engineering Calculus I and Engineering Calculus II	8
All of these:		
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3600	Introduction to Ordinary Differential Equations	3
MATH:3770	Foundations of Analysis	4

Course #	Title	Hours
Option 2		
All of these:		
MATH:1550	Engineering Calculus I	4
MATH:1560	Engineering Calculus II	4
MATH:2550	Engineering Matrix Algebra	2
MATH:2560	Engineering Differential Equations	3
MATH:3550	Engineering Vector Calculus	3
MATH:3770	Foundations of Analysis	4
An additional post-calculus mathematics course (prefix MATH) as previously defined in this section of the catalog, excluding MATH:2550, MATH:2560, MATH:2700, MATH:2850, MATH:3550, MATH:3600, MATH:3770, MATH:3800, MATH:4060, and MATH:4750		3-4

Biomathematics: Additional Required Courses

The physical sciences specialization with a biomathematics subtrack requires the following five courses.

Course #	Title	Hours
All of these:		
MATH:3800	Introduction to Numerical Methods	3
MATH:4750	Introduction to Mathematical Biology	3
STAT:3120	Probability and Statistics	4
Two electives from these, with at least one course numbered 3000 or above:		
BIOL:2512	Fundamental Genetics	4
BIOL:2673	Ecology	3
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3253	Neurobiology I	4
BIOL:3254	Neurobiology II	4
BIOL:3314	Genomics	3
BIOL:3343	Animal Physiology	3
BIOL:3713	Molecular Genetics	4
BMB:3120	Biochemistry and Molecular Biology I	3
BMB:3130	Biochemistry and Molecular Biology II	3
BMB:4240	Biophysics and Advanced Biochemistry	3
BME:2500	Biomaterials and Biomechanics	4
CHEM:2210	Organic Chemistry I	3
At most one of these:		
BIOL:3172	Evolution	4
BIOL:3373	Human Population Genetics and Variation	3
At most one of these:		
BIOL:2753	Introduction to Neurobiology	3
PSY:2701	Introduction to Behavioral Neuroscience	4
At most one of these:		
BIOL:4213	Bioinformatics	4
BIOL:4386	Introduction to Scientific Computing for Biologists	3
BMB:3310	Practical Data Science and Bioinformatics	3
BMB:4310	Computational Biochemistry	3

Chemistry Subtrack

The physical sciences specialization with a chemistry subtrack requires the following five courses.

Course #	Title	Hours
Both of these:		
MATH:3600	Introduction to Ordinary Differential Equations	3
CHEM:3250	Inorganic Chemistry	3
Three electives from these:		
CHEM:3110	Equilibria and Electrochemistry	3
CHEM:3120	Spectroscopy and Separations	3
CHEM:4430	Principles of Physical Chemistry	3
CHEM:4431	Chemical Thermodynamics	3
CHEM:4432	Quantum Mechanics and Chemical Kinetics	3
CHEM:4480	Introduction to Molecular Modeling	3
CHEM:5114	Chemical Systems Modeling	3
May include one of these:		
CHEM:3430	Analytical Measurements	3
CHEM:3440	Physical Measurements	3
CHEM:4450	Synthesis and Measurement	3

Physics Subtrack

The physical sciences specialization with a physics subtrack requires the following four courses. If students complete both MATH:3720 and MATH:3770, one may count toward core courses and the other toward this subtrack.

Course #	Title	Hours
Three of these, with at least two courses in physics (prefix PHYS):		
MATH:3600	Introduction to Ordinary Differential Equations	3
MATH:3800	Introduction to Numerical Methods	3
MATH:4200	Complex Variables	3
PHYS:3710	Intermediate Mechanics	3
PHYS:3730	Statistical Physics	3
PHYS:3811	Electricity and Magnetism I	3
PHYS:3812	Electricity and Magnetism II	3
PHYS:3741	Introduction to Quantum Mechanics I	3
PHYS:3742	Introduction to Quantum Mechanics II	3
One of these, which will not count toward the mathematics electives:		
MATH:3720	Introduction to Abstract Algebra	4
or MATH:3770	Foundations of Analysis	
MATH:3900	Introduction to Mathematics Research	3
Mathematics course (prefix MATH) numbered MATH:4000-MATH:5899, excluding MATH:4010, MATH:4020, and MATH:4120		3-4
Physics course (prefix PHYS) taken for at least 3 s.h. and numbered PHYS:3000-PHYS:4998, excluding PHYS:3756, PHYS:3850, PHYS:4750, and PHYS:4990		

Program C: Core Courses

Students complete the following core mathematics courses.

Course #	Title	Hours
One of these sequences:		
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
MATH:1550 & MATH:1560	Engineering Calculus I and Engineering Calculus II	8
One of these groups:		
MATH:2700 & MATH:2850	Introduction to Linear Algebra and Calculus III	8
MATH:2550 & MATH:2560 & MATH:3550	Engineering Matrix Algebra and Engineering Differential Equations and Engineering Vector Calculus	8
One of these:		
MATH:3720	Introduction to Abstract Algebra	4
MATH:3770	Foundations of Analysis	4

If students complete both MATH:3720 and MATH:3770, one may count toward core courses and the other toward the elective requirement described below.

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

Program C: Electives

Students choose six electives beyond the core courses, including three mathematics elective courses (9-12 s.h.), at least one of which must be an upper-level math course numbered MATH:3900 or numbered 4000 or above. Mathematics elective options include mathematics courses (prefix MATH) numbered MATH:3600–MATH:5810, excluding MATH:3700, MATH:3996, MATH:3997, MATH:4010, MATH:4020, and MATH:4120. Only one of MATH:2560 or MATH:3600 may be counted toward the major requirements.

All electives must be offered for 3–4 s.h. The individualized area of specialization should be in a subject that is math-related and should demonstrate a progression of learning in that discipline. At least some of the proposed electives must be upper-level for that course subject. Students must propose their plan of study before they begin their final year. Individualized plans of study must be approved by the Department of Mathematics.

Combined Programs

BA/MAT (Mathematics Education Subprogram)

The College of Liberal Arts and Sciences and the College of Education offer students the opportunity to earn their Bachelor of Arts/Master of Arts in Teaching degree with a mathematics education subprogram in as little as five years. Students can begin work toward the MAT while completing their bachelor's degree. The combined program allows students to count a limited amount of credit toward both the BA and MAT degree requirements.

Separate application to each program is required. For more information, see Mathematics Education [p. 1495] in the Master of Arts in Teaching, MAT (College of Education) section in the catalog.

Honors

Honors in the Major

Students majoring in mathematics have the opportunity to graduate with honors in the major. Students must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33, as required by the College of Liberal Arts and Sciences; additionally, students must complete all requirements for the major and must maintain a cumulative GPA of at least 3.40 in the major, a GPA set by the Department of Mathematics.

To graduate with honors in the major, students also must complete one of the following options.

Option 1

Students complete five upper-level mathematics courses as defined in "Upper-Level Mathematics Courses" under "Requirements." Mathematics courses (prefix MATH) numbered 6000 or above must be approved by the mathematics honors advisor in advance.

An honors research project may produce a research report but not a formal thesis. A research report will be counted as one upper-level math course towards option 1 by enrolling in MATH:3996 Individual Study and Honors in Mathematics for 3 s.h. A research report must be approved by the honors research project supervisor.

Option 2

Students complete three upper-level mathematics courses and write an honors thesis. A student who chooses this option must contact the Department of Mathematics honors advisor and find a faculty member who is willing to supervise their honors thesis project. The Department of Mathematics honors advisor will then appoint a thesis committee of at least two faculty members. The student will need to obtain preapproval at the beginning of their thesis project, midterm approval from the thesis committee, and pass a defense.

The Department of Mathematics encourages students to use their sole-authored or coauthored research papers as honors theses if the papers have been published, accepted, or submitted to a research journal. Satisfactory peer reviews or referee's reports may be accepted in lieu of preapproval and midterm approval.

It is recommended that students who earn honors in mathematics pursue the BS degree.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program. Honors in mathematics is awarded by the Department of Mathematics and is separate from the University of Iowa Honors Program.

Membership in the UI Honors Program is not required to earn honors in the mathematics major. However, honors in mathematics can be applied toward UI Honors Program requirements.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Many mathematics courses must be taken in sequence, so students must begin major requirements as early as possible, and individual plans of study must be constructed carefully. The major typically requires 11 or 12 courses. Students must choose Program A, B, or C by the end of the third semester and must remain in their chosen program until they graduate in order to stay on track for the four-year graduation plan.

Before the third semester begins: coursework in the major through second-semester calculus.

Before the fifth semester begins: two or three more courses in the major.

Before the seventh semester begins: three or four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two or three more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Mathematics, BA

- Program A [p. 787]
- Program B [p. 788]

Program A

Course	Title	Hours
Academic Career		
Any Semester		
Program A is primarily for students who plan to work in business or government or to pursue graduate study in mathematics.		
Students must earn at least 15 s.h. in post-calculus mathematics courses offered by the Department of Mathematics or cross-referenced with a mathematics course at the University of Iowa. Post-calculus courses are numbered 2000 or above, excluding: MATH:3700 Introduction to Matrix Theory, MATH:3996 Individual Study & Honors in Mathematics, MATH:3997 Readings in Mathematics, MATH:4010 Basic Analysis, and MATH:4020 Basic Abstract Algebra. [a]		
GE CLAS Core: Sustainability [b]		
	Hours	**0**
First Year

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [j]		
	Hours	**15**
	Total Hours	**121-127**

a See General Catalog or consult an advisor for more information.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Enrollment in math courses requires completion of a placement exam.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g At least two of the four major electives must have a prefix of MATH, including at least one upper-level math course. See General Catalog or consult an advisor for more information about appropriate elective courses.

h Electives may also be used to complete additional hours in the major up to a total of 56 s.h.

i Mathematical electives must include at least one upper-level math course. These include: MATH:3900 and math courses (MATH prefix) numbered 4000 and higher, but not MATH:4010, MATH:4020 and MATH:4120. Each upper-level math course is offered at most once per year; choose when to complete the upper-level requirement according to spring or fall offerings for desired courses.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Program B

Course	Title	Hours
Academic Career		
Any Semester		
Program B is intended for students seeking secondary school teaching licensure.		
Completion of mathematics (program B) BA, Teacher Education Program, and all general education requirements exceeds the minimum 120 s.h. required for graduation. Students should expect to take higher than average number of semester hours per term, take summer classes, and/or extend graduation time frame beyond four years.		
Admission to the Teacher Education Program, College of Education, is by competitive application. For information about application requirements, process, and deadlines, please consult an advisor for the College of Education.

Fall		
CS:1210	Computer Science I: Fundamentals	4
Major: required post-calculus math elective course [j]		3 - 4
GE CLAS Core: Literary, Visual, and Performing Arts [f]		3
Course(s) required for second degree - consult sample plan for BA in mathematics education		7
	Hours	**17-18**
Spring		
Course(s) required for second degree - consult sample plan for BA in mathematics education		15
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [k]		
	Hours	**15**
	Total Hours	**129-136**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Required for admission into the Teacher Education Program.

c Enrollment in math courses requires completion of a placement exam.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Complete the College of Education 10-hour pre-admission school field experience verification form available on the Teacher Education Program web page.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Please see the College of Education website for detailed application instructions and deadlines. Admission is selective and a priority deadline exists.

h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

i Students must complete MATH:4050, a fall-only course, or MATH:4060, a spring-only course.

j Post-calculus courses are numbered 2000 or above, excluding: MATH:3700, MATH:3996, MATH:3997, MATH:4010, MATH:4020, and MATH:4120.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Mathematics, BS

Bachelor of Science students majoring in mathematics enroll in one of these programs: Program A is for students who plan to work in business or government or pursue graduate study in mathematics; Program B is for students who seek secondary school teaching licensure; and the program in math with a related specialization may be especially appropriate for students who plan to seek a math-related job after earning the bachelor's degree rather than going on to graduate study. Defined areas of specialization include business (economics, finance, or risk management and insurance), data sciences (biostatistics, computer science, data science, or statistics and actuarial science), and physical sciences (biochemistry, biomathematics, chemistry, or physics). Program C is also available for students who wish to design their own area of specialization, like engineering.

Learning Outcomes

Math majors will be able to:

- give correct, logical mathematical proofs using mathematical terminology and hypotheses;
- reason logically and quantitatively using algebraic, analytic, and numerical methods;
- incorporate mathematical ideas and reasoning into well-written English; and
- model and analyze problems in pure mathematics and in other disciplines.

Transfer From Engineering to Mathematics

Certain engineering students who have completed MATH:1550 Engineering Calculus I, MATH:1560 Engineering Calculus II, MATH:2550 Engineering Matrix Algebra, MATH:2560 Engineering Differential Equations, or MATH:3550 Engineering Vector Calculus may count these courses toward the major in mathematics. See the Department of Mathematics website.

Requirements

The Bachelor of Science with a major in mathematics requires a minimum of 120 s.h., including at least 41–56 s.h. of work for the major. Total credit for the major depends on a student's choice of Program A, B, C, or a related specialization (business, data sciences, or physical sciences). Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

All students complete the post-calculus mathematics requirement, the upper-level mathematics requirement, and the requirements for Program A, B, or C, or a related specialization. Students must complete a two-semester sequence of MATH:1850 Calculus I and MATH:1860 Calculus II. Students in certain subtracks or Program C may be able to substitute another two-course calculus sequence; see information for specific specializations below. Advanced placement credit, CLEP credit, and credit granted through the Mathematics Incentive Program are accepted for all or part of the calculus requirement.

Students may count up to 56 s.h. of Department of Mathematics coursework (prefix MATH) toward credit required for the Bachelor of Science degree. For policies concerning transfer credit, correspondence credit, credit by examination, cumulative grade-point average, general rules relating to regression and duplication, and so forth, see For Undergraduate Students on the College of Liberal Arts and Sciences website.

For information about duplication, regression, and use of the second-grade-only option for mathematics courses, contact the Department of Mathematics or visit the Department of Mathematics website. The website also provides details about schedule planning and career options for mathematics students. For more information on admission, financial support, employment opportunities, the faculty, facilities, and other topics, visit the Department of Mathematics or the University of Iowa website.

The BS with a major in mathematics requires the following coursework.

Requirements	Hours
Post-Calculus Mathematics Courses	
Upper-Level Mathematics Courses	
Program Requirements	41-56

Post-Calculus Mathematics Courses

At least 15 s.h. of post-calculus mathematics courses (prefix MATH) applied toward the major must be completed at the University of Iowa; students may not count transfer courses or credit by exam toward this requirement.

Post-calculus courses in the Department of Mathematics are numbered 2000 or above, excluding MATH:3700, MATH:3996, MATH:3997, MATH:4010, and MATH:4020.

Upper-Level Mathematics Courses

Students must take at least two upper-level mathematics courses (three in Program A) for the BS degree. Upper-level mathematics courses include MATH:3900 Introduction to Mathematics Research and courses numbered 4000 or above, excluding MATH:4010, MATH:4020, and MATH:4120.

No courses from other departments can be counted as upper-level mathematics courses unless they are cross-referenced with an upper-level mathematics course (prefix MATH).

Program A

Program A is primarily for students who plan to work in business or government or to pursue graduate study in mathematics.

Program A: Core Courses

Students complete the following core courses.

Course #	Title	Hours
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3600	Introduction to Ordinary Differential Equations	3

MATH:3720	Introduction to Abstract Algebra	4
MATH:3770	Foundations of Analysis	4

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

Program A: Electives

Students complete six electives (18–24 s.h.), including at least four courses in the Department of Mathematics (prefix MATH). Of these four courses, at least three must be upper-level mathematics courses.

Mathematics

Students may choose from mathematics courses numbered MATH:2150, MATH:3800, or courses above MATH:3800, excluding MATH:4010 and MATH:4020.

Computer Science

Students may choose computer science courses numbered CS:1210 through CS:4740, excluding CS:3210, CS:3910, CS:3980, and CS:3990.

Statistics and Actuarial Science

Students may choose statistics courses numbered STAT:2020, STAT:3100 through STAT:4740, or STAT:5100 through STAT:5120, excluding STAT:3510, STAT:4143, and STAT:4200.

Among the courses previously listed, only one of the following three courses can be counted toward the elective requirement: STAT:2020, STAT:3100, or STAT:3120. None of these courses can be counted as credit earned toward graduation if taken after STAT:4100 owing to regression policies.

Students may choose actuarial science courses numbered ACTS:3080 and ACTS:4130 through ACTS:4380.

Program B

Program B is intended for students seeking secondary school teaching licensure. Students who wish to earn teaching licensure in addition to earning a Bachelor of Science with a major in mathematics must also complete the Teacher Education Program (TEP); see the section titled "Teacher Licensure."

Program B: Core Courses

Students complete the following core courses.

Course #	Title	Hours
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
MATH:2150	Foundations of Geometry	3
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3720	Introduction to Abstract Algebra	4
MATH:3770	Foundations of Analysis	4
MATH:4050	Introduction to Discrete Mathematics	3
or MATH:4060	Discrete Mathematical Models	
CS:1210	Computer Science I: Fundamentals	4
STAT:3120	Probability and Statistics	4

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

Program B: Electives

Students in Program B must take at least three additional Department of Mathematics post-calculus courses (9–12 s.h.), including two chosen from MATH:3900 and courses numbered 4000 or above, excluding MATH:4010 and MATH:4020. Post-calculus courses must avoid duplication and regression with the core math courses, particularly when engineering mathematics courses are considered. With the department's approval, capable students are encouraged to substitute more advanced courses in the same subject area for any of the electives. The Department of Mathematics website offers advice on course selection.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Students who wish to earn teacher licensure should choose Program B.

Program in Math With a Related Specialization

The Department of Mathematics encourages students of other majors to take more mathematics courses and attempt a BA or BS secondary major, or a secondary degree if their first major is outside CLAS, in mathematics. The program in math with a related specialization offers a curricular path to achieve this goal. Students complete core courses, mathematics electives, and subtrack requirements.

The program in math with a related specialization enables students to declare a concentration in a mathematics-related area. Options include specializations in business (subtracks in economics, finance, and risk management and insurance), data sciences (subtracks in biostatistics, computer science, data science, and statistics and actuarial science), and physical sciences (subtracks in biochemistry, biomathematics, chemistry, and physics). Students may declare one of these three defined areas of specialization and must complete requirements for one subtrack. They may also propose other plans of study, which would be categorized under Program C. An individualized plan of study must be approved by the Department of Mathematics prior to the start of the student's final year.

Business, Data Sciences, and Physical Sciences: Core Courses

Students complete the following core mathematics courses. Students pursuing the biostatistics subtrack of the data sciences specialization should refer to the following section titled "Biostatistics Subtrack" for additional information about an alternative set of core courses. Students

in the biomathematics subtrack of the physical sciences specialization should refer to the following section titled "Biomathematics Subtrack" rather than the list below.

Course #	Title	Hours
One of these sequences:		
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
MATH:1550 & MATH:1560	Engineering Calculus I and Engineering Calculus II	8
Both of these:		
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
One of these:		
MATH:3720	Introduction to Abstract Algebra	4
MATH:3770	Foundations of Analysis (students in the biostatistics subtrack must take MATH:3770)	4

If students complete both MATH:3720 and MATH:3770, one may count toward core courses and the other toward the elective requirement described below.

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

Business, Data Sciences, and Physical Sciences: Mathematics Electives

Students must also take four elective courses (3–4 s.h. each), including at least two upper-level math courses. Mathematics elective options include mathematics courses (prefix MATH) numbered MATH:3600–MATH:5810, excluding MATH:3700, MATH:3996, MATH:3997, MATH:4010, MATH:4020, and MATH:4120.

When a subtrack requires post-calculus mathematics courses, those courses may also count as mathematics electives, with the exception of the physics subtrack of the physical sciences specialization. See the following section titled "Physics Subtrack" for more information.

Business Specialization

Economics Subtrack

The business specialization with an economics subtrack requires the following four courses.

Course #	Title	Hours
All of these:		
CS:1210	Computer Science I: Fundamentals	4
ECON:3100	Intermediate Microeconomics	3
ECON:3150	Intermediate Macroeconomics	3
STAT:3120	Probability and Statistics	4

Finance Subtrack

The business specialization with a finance subtrack requires the following four courses.

Course #	Title	Hours
This course:		
FIN:3000	Introductory Financial Management	3
One of these:		
FIN:3200	Investment Management	3
FIN:3300	Corporate Finance	3
Two of these:		
ACCT:3020	Financial Accounting and Reporting	3
FIN:3200	Investment Management (if not taken for the previous requirement)	3
FIN:3300	Corporate Finance (if not taken for the previous requirement)	3
FIN:3400	Principles of Risk Management and Insurance	3
A 3-4 s.h. finance course (prefix FIN) that counts toward the BBA in finance		3,4

Risk Management and Insurance Subtrack

The business specialization with a risk management and insurance subtrack requires the following four courses.

Course #	Title	Hours
Both of these:		
FIN:3000	Introductory Financial Management	3
FIN:3400	Principles of Risk Management and Insurance	3
Two of these:		
FIN:4420	Property and Liability Insurance	3
FIN:4430	Life and Health Insurance	3
FIN:4440	Employee Benefit Plans	3
FIN:4450	Risk Modeling	3

Data Sciences Specialization

Biostatistics Subtrack

Biostatistics: Alternative Core Courses

Students may complete five core courses as previously listed, or they may complete the six core courses listed below.

Course #	Title	Hours
All of these:		
MATH:1550	Engineering Calculus I	4
MATH:1560	Engineering Calculus II	4
MATH:2550	Engineering Matrix Algebra	2
MATH:2560	Engineering Differential Equations	3
MATH:3550	Engineering Vector Calculus	3
MATH:3770	Foundations of Analysis	4

Biostatistics: Additional Required Courses

The data sciences specialization with a biostatistics subtrack requires the following eight courses.

Course #	Title	Hours
This course:		
CPH:1400	Fundamentals of Public Health	3

Four of these, with at least two courses numbered 4000 or above:		
MATH:3600	Introduction to Ordinary Differential Equations (if student has not taken MATH:2560 as a core course)	3
MATH:3800	Introduction to Numerical Methods	3
MATH:4220	Fourier Analysis and Applications	3
MATH:4700	Partial Differential Equations and Applications	3
MATH:4820	Optimization Techniques	3
Three of these, with at least one course in biostatistics (prefix BIOS) and at least one course in statistics (prefix STAT):		
BIOS:4120	Introduction to Biostatistics	3
BIOS:5120	Regression Modeling and ANOVA in the Health Sciences	3
BIOS:5310	Research Data Management	3
BIOS:5710	Biostatistical Methods I	4
BIOS:5720	Biostatistical Methods II	4
BIOS:5730	Biostatistical Methods in Categorical Data	3
STAT:2010	Statistical Methods and Computing	3
STAT:3200	Applied Linear Regression	3
STAT:3210	Experimental Design and Analysis	3
STAT:4100	Statistical Inference I	3
STAT:4101	Statistical Inference II	3

Computer Science Subtrack

The data sciences specialization with a computer science subtrack requires four electives in computer science (prefix CS) numbered CS:1210–CS:4740, excluding CS:2110, CS:3010, CS:3210, CS:3910, CS:3980, CS:3990, and CS:3999.

Data Science Subtrack

The data sciences specialization with a data science subtrack requires the following four courses.

Course #	Title	Hours
Computer Science Electives		
Two of these:		
CS:3330	Algorithms	3
CS:4400	Database Systems	3
CS:4470	Health Data Analytics	3
CS:5430	Machine Learning	3
CS:5630	Cloud Computing Technology	3
May include one of these:		
CS:1210	Computer Science I: Fundamentals	4
CS:2110	Programming for Informatics	4
CS:2230	Computer Science II: Data Structures	4
Statistics Electives		
Two of these:		
STAT:2010	Statistical Methods and Computing	3
STAT:3100	Introduction to Mathematical Statistics I	4
STAT:3200	Applied Linear Regression	3
STAT:3210	Experimental Design and Analysis	3
STAT:4520	Bayesian Statistics	3
STAT:4540	Statistical Learning	3
STAT:4560	Statistics for Risk Modeling I	3
STAT:4580	Data Visualization and Data Technologies	3
STAT:5810	Research Data Management	3

Statistics and Actuarial Science Subtrack

The data sciences specialization with a statistics and actuarial science subtrack requires the following four courses.

Course #	Title	Hours
Four of these:		
ACTS:3080	Mathematics of Finance I	3
ACTS:4130	Quantitative Methods for Actuaries	3
ACTS:4150	Fundamentals of Short-Term Actuarial Mathematics	3
ACTS:4180	Life Contingencies I	3
ACTS:4280	Life Contingencies II	3
STAT:2010	Statistical Methods and Computing	3
STAT:3101	Introduction to Mathematical Statistics II	3
STAT:3200	Applied Linear Regression	3
STAT:3210	Experimental Design and Analysis	3
STAT:3620	Quality Control	3
STAT:4100	Statistical Inference I	3
STAT:4101	Statistical Inference II	3
STAT:4520	Bayesian Statistics	3
STAT:4740	Large Data Analysis	3
STAT:5100	Statistical Inference I	3
STAT:5101	Statistical Inference II	3
STAT:5120	Mathematical Methods for Statistics	3
May count one of these if taken before STAT:4100		
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3100	Introduction to Mathematical Statistics I	4
STAT:3120	Probability and Statistics	4

Physical Sciences Specialization

Biochemistry Subtrack

The physical sciences specialization with a biochemistry subtrack requires the following five courses.

Course #	Title	Hours
Both of these:		
MATH:3600	Introduction to Ordinary Differential Equations	3

BMB:4240	Biophysics and Advanced Biochemistry	3
Three electives from these:		
BMB:3120	Biochemistry and Molecular Biology I	3
BMB:3130	Biochemistry and Molecular Biology II	3
BMB:4310	Computational Biochemistry	3
May include one of these:		
CHEM:4430	Principles of Physical Chemistry	3
CHEM:4431	Chemical Thermodynamics	3
CHEM:4432	Quantum Mechanics and Chemical Kinetics	3
Up to 3 s.h. from this course:		
BMB:4999	Advanced Undergraduate Biochemistry Research (requires departmental approval in advance)	arr.

Biomathematics Subtrack

Biomathematics: Core Courses

Students in the biomathematics subtrack should complete one of the two sets of core courses below for a total of at least 23 s.h.

Course #	Title	Hours
Option 1		
One of these sequences:		
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
MATH:1550 & MATH:1560	Engineering Calculus I and Engineering Calculus II	8
All of these:		
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3600	Introduction to Ordinary Differential Equations	3
MATH:3770	Foundations of Analysis	4

Course #	Title	Hours
Option 2		
All of these:		
MATH:1550	Engineering Calculus I	4
MATH:1560	Engineering Calculus II	4
MATH:2550	Engineering Matrix Algebra	2
MATH:2560	Engineering Differential Equations	3
MATH:3550	Engineering Vector Calculus	3
MATH:3770	Foundations of Analysis	4
An additional post-calculus mathematics course (prefix MATH) as previously defined in this section of the catalog, excluding MATH:2550, MATH:2560, MATH:2700, MATH:2850, MATH:3550, MATH:3600, MATH:3770, MATH:3800, MATH:4060, and MATH:4750		3-4

Biomathematics: Additional Required Courses

The physical sciences specialization with a biomathematics subtrack requires the following eight courses.

Course #	Title	Hours
Required Courses		
All of these:		
MATH:3800	Introduction to Numerical Methods	3
MATH:4060	Discrete Mathematical Models	3
MATH:4750	Introduction to Mathematical Biology	3
STAT:3120	Probability and Statistics	4
Elective Courses		
Two electives from these, with at least one course numbered 3000 or above:		
BIOL:2512	Fundamental Genetics	4
BIOL:2673	Ecology	3
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3253	Neurobiology I	4
BIOL:3254	Neurobiology II	4
BIOL:3314	Genomics	3
BIOL:3343	Animal Physiology	3
BIOL:3713	Molecular Genetics	4
BMB:3120	Biochemistry and Molecular Biology I	3
BMB:3130	Biochemistry and Molecular Biology II	3
BMB:4240	Biophysics and Advanced Biochemistry	3
BME:2500	Biomaterials and Biomechanics	4
CHEM:2210	Organic Chemistry I	3
At most one of these (if selected, courses in this area may not count as an additional elective):		
BIOL:3172	Evolution	4
BIOL:3373	Human Population Genetics and Variation	3
At most one of these (if selected, courses in this area may not count as an additional elective):		
BIOL:2753	Introduction to Neurobiology	3
PSY:2701	Introduction to Behavioral Neuroscience	4
At most one of these (if selected, courses in this area may not count as an additional elective):		
BIOL:4213	Bioinformatics	4
BIOL:4386	Introduction to Scientific Computing for Biologists	3
BMB:3310	Practical Data Science and Bioinformatics	3
BMB:4310	Computational Biochemistry	3
Additional Elective		
One of these:		
A previously listed elective option numbered 3000 or above, if not used to satisfy the preceding requirement.		3-4
Computer science course (prefix CS) taken for at least 3 s.h. and numbered 2000 or above		3-4

Mathematics course (prefix MATH) numbered MATH:3000-MATH:5899, excluding MATH:3550, MATH:3600, MATH:3700, MATH:3770, MATH:3800, MATH:3996, MATH:3997, MATH:4010, MATH:4020, MATH:4060, and MATH:4750	3-4

Chemistry Subtrack

The physical sciences specialization with a chemistry subtrack requires the following five courses.

Course #	Title	Hours
Both of these:		
MATH:3600	Introduction to Ordinary Differential Equations	3
CHEM:3250	Inorganic Chemistry	3
Three of these:		
CHEM:3110	Equilibria and Electrochemistry	3
CHEM:3120	Spectroscopy and Separations	3
CHEM:4430	Principles of Physical Chemistry	3
CHEM:4431	Chemical Thermodynamics	3
CHEM:4432	Quantum Mechanics and Chemical Kinetics	3
CHEM:4480	Introduction to Molecular Modeling	3
CHEM:5114	Chemical Systems Modeling	3
At most one of these:		
CHEM:3430	Analytical Measurements	3
CHEM:3440	Physical Measurements	3
CHEM:4450	Synthesis and Measurement	3

Physics Subtrack

The physical sciences specialization with a physics subtrack requires the following four courses. If students complete both MATH:3720 and MATH:3770, one may count toward core courses and the other toward this subtrack.

Course #	Title	Hours
Two of these:		
PHYS:3710	Intermediate Mechanics	3
PHYS:3730	Statistical Physics	3
PHYS:3741	Introduction to Quantum Mechanics I	3
PHYS:3742	Introduction to Quantum Mechanics II	3
PHYS:3811	Electricity and Magnetism I	3
PHYS:3812	Electricity and Magnetism II	3
One of these:		
MATH:3600	Introduction to Ordinary Differential Equations	3
MATH:3800	Introduction to Numerical Methods	3
MATH:4200	Complex Variables	3
One of these, which will not count toward the mathematics electives:		
MATH:3720	Introduction to Abstract Algebra	4
or MATH:3770	Foundations of Analysis	
MATH:3900	Introduction to Mathematics Research	3
Mathematics course (prefix MATH) numbered MATH:4000-MATH:5899, excluding MATH:4010, MATH:4020, and MATH:4120		3-4
Physics course (prefix PHYS) taken for at least 3 s.h. and numbered PHYS:3000-PHYS:4998, excluding PHYS:3756, PHYS:3850, PHYS:4750, and PHYS:4990		

Program C: Core Courses

Students complete the following core mathematics courses.

Course #	Title	Hours
One of these sequences:		
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
MATH:1550 & MATH:1560	Engineering Calculus I and Engineering Calculus II	8
One of these groups:		
MATH:2700 & MATH:2850	Introduction to Linear Algebra and Calculus III	8
MATH:2550 & MATH:2560 & MATH:3550	Engineering Matrix Algebra and Engineering Differential Equations and Engineering Vector Calculus	8
One of these:		
MATH:3720	Introduction to Abstract Algebra	4
MATH:3770	Foundations of Analysis	4

If students complete both MATH:3720 and MATH:3770, one may count toward core courses and the other toward the elective requirement described below.

More advanced courses may be substituted for the core courses with Department of Mathematics approval.

Program C: Electives

Students choose at least eight electives beyond the core courses, including four mathematics elective courses (12-16 s.h.), at least two of which must be upper-level math courses numbered MATH:3900 or numbered 4000 or above. Mathematics elective options include mathematics courses (prefix MATH) numbered MATH:3600–MATH:5810, excluding MATH:3700, MATH:3996, MATH:3997, MATH:4010, MATH:4020, and MATH:4120. Only one of MATH:2560 or MATH:3600 may be counted toward the major requirements.

All electives must be offered for 3–4 s.h. The individualized area of specialization should be in a subject that is math-related and should demonstrate a progression of learning in that discipline. At least some of the proposed electives must be upper-level for that course subject. Students must propose their plan of study before they begin their final year. Individualized plans of study must be approved by the Department of Mathematics.

Honors

Honors in the Major

Students majoring in mathematics have the opportunity to graduate with honors in the major. Students must maintain a cumulative University of Iowa grade-point average (GPA)

of at least 3.33, as required by the College of Liberal Arts and Sciences; additionally, students must maintain a cumulative GPA of at least 3.40 in the major, a GPA set by the Department of Mathematics.

To graduate with honors in the major, students also must complete one of the following options.

Option 1

Students complete five upper-level mathematics courses as defined in "Upper-Level Mathematics Courses" under "Requirements." Mathematics courses (prefix MATH) numbered 6000 or above must be approved by the mathematics honor advisor in advance.

Sometimes an honors research project may only produce a research report but not a formal thesis. A research report will be counted as one upper-level math course towards option 1 by enrolling in MATH:3996 Individual Study and Honors in Mathematics for 3 s.h. A research report must be approved by the honors research project supervisor.

Option 2

Students complete three upper-level mathematics courses and write an honors thesis. A student who chooses this option must contact the Department of Mathematics honors advisor and find a faculty member who is willing to supervise their honors thesis project. The Department of Mathematics honors advisor will then appoint a thesis committee of at least two faculty members. The student will need to obtain preapproval at the beginning of their thesis project, midterm approval from the thesis committee, and pass a defense.

The Department of Mathematics encourages students to use their sole-authored or coauthored research papers as honors theses if the papers have been published, accepted, or submitted to a research journal. Satisfactory peer reviews or referee's reports may be accepted in lieu of preapproval and midterm approval.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program. Honors in mathematics is awarded by the Department of Mathematics and is separate from the University of Iowa Honors Program.

Membership in the UI Honors Program is not required to earn honors in the mathematics major. However, honors in mathematics can be applied toward UI Honors Program requirements.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Many mathematics courses must be taken in sequence, so students must begin major requirements as early as possible, and individual plans of study must be constructed carefully. The major typically requires 13 or 14 courses. Students must choose Program A, B, or C by the end of the third semester and must remain in their chosen program until they graduate in order to stay on track for the four-year graduation plan.

Before the third semester begins: coursework in the major through second-semester calculus.

Before the fifth semester begins: three or four more courses in the major.

Before the seventh semester begins: three or four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two or three more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Mathematics, BS

- Program A [p. 797]
- Program B [p. 798]

Program A

Course	Title	Hours
Academic Career		
Any Semester		
Program A is primarily for students who plan to work in business or government or to pursue graduate study in mathematics.		
Students must earn at least 15 s.h. in post-calculus mathematics courses offered by the Department of Mathematics or cross-referenced with a mathematics course at the University of Iowa. Post-calculus courses are numbered 2000 or above, excluding: MATH:3700 Introduction to Matrix Theory, MATH:3996 Individual Study & Honors in Mathematics, MATH:3997 Readings in Mathematics, MATH:4010 Basic Analysis, and MATH:4020 Basic Abstract Algebra. a See General Catalog or consult an advisor for more information.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Enrollment in math courses requires completion of a placement exam.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g At least four of the six major electives must have a prefix of MATH, including at least three upper-level math courses. See General Catalog or consult an advisor for more information about appropriate elective courses.

h Mathematical electives must include at least three upper-level math courses. These include: MATH:3900 and math courses (MATH prefix) numbered 4000 and higher, but not MATH:4010, MATH:4020 and MATH:4120. Each upper-level math course is offered at most once per year; choose when to complete the upper-level requirement according to spring or fall offerings for desired courses.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Program B

Course	Title	Hours
Academic Career		
Any Semester		
Program B is intended for students seeking secondary school teaching licensure.		

Completion of mathematics (program B) BS, Teacher Education Program, and all general education requirements exceeds the minimum 120 s.h. required for graduation. Students should expect to take higher than average number of semester hours per term, take summer classes, and/or extend graduation time frame beyond four years.

Admission to the Teacher Education Program, College of Education, is by competitive application. For information about application requirements, process, and deadlines, please consult an advisor for the College of Education.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Required for admission into the Teacher Education Program.

c Enrollment in math courses requires completion of a placement exam.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an

approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Complete the College of Education 10-hour pre-admission school field experience verification form available on the Teacher Education Program web page.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Please see the College of Education website for detailed application instructions and deadlines. Admission is selective and a priority deadline exists.

h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

i Students must complete MATH:4050, a fall-only course, or MATH:4060, a spring-only course.

j Post-calculus courses are numbered 2000 or above, excluding: MATH:3700, MATH:3996, MATH:3997, MATH:4010, MATH:4020, and MATH:4120.

k Upper-level electives include MATH:3900 or any MATH prefix courses numbered 4000 or above, excluding MATH:4010, MATH:4020, and MATH:4120.

l Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Mathematics, Minor

Requirements

A minor in mathematics requires a minimum of 15 s.h. of mathematics coursework. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the minor and in all UI courses for the minor.

Coursework for the minor must be taken on an A–F graded basis.

All courses must be at or above the level of calculus with differentiation and integration, numbered MATH:1460 Calculus for the Biological Sciences or above at the University of Iowa, or equivalent courses transferred from another institution. Courses for the minor must be mathematics courses (prefix MATH) or cross-referenced with a mathematics course.

Post-Calculus Courses

At least 12 s.h. must be post-calculus courses offered by the Department of Mathematics or equivalent courses transferred from another institution. At least 9 of these 12 s.h. in post-calculus math courses must be taken at the University of Iowa. No more than 3 s.h. of transferred courses can be counted toward this post-calculus requirement.

Mathematics courses (prefix MATH) numbered 2000 or above are considered post-calculus, excluding MATH:3700, MATH:3996, MATH:3997, MATH:4010, and MATH:4020.

Post-calculus courses must be chosen to avoid duplication and regression with the core mathematics courses, particularly when the engineering mathematics courses are considered.

Special Rules for Engineering

Students who have taken the engineering math courses —MATH:1560 Engineering Calculus II, MATH:2550 Engineering Matrix Algebra, MATH:2560 Engineering Differential Equations, and MATH:3550 Engineering Vector Calculus—may satisfy the post-calculus requirement by taking an additional 3 s.h. course from the following list.

Substituting a 3 s.h. post-calculus math course (prefix MATH) for any of these—MATH:1560, MATH:2550, MATH:2560, or MATH:3550—is allowed as long as there is no regression or duplication.

At least four of these courses must be taken at the University of Iowa: MATH:1560, MATH:2550, MATH:2560, MATH:3550, or the additional 3 s.h. post-calculus math course; no more than one transfer course will count.

Students may choose the additional 3 s.h. course from MATH:2150 Foundations of Geometry or courses numbered MATH:3720 or above, excluding the courses listed below.

Course #	Title	Hours
MATH:3996	Individual Study and Honors in Mathematics	arr.
MATH:3997	Readings in Mathematics	arr.
MATH:4010	Basic Analysis	3
MATH:4020	Basic Abstract Algebra	3

Mathematics, MS

Learning Outcomes

Students:

- have a broad foundational knowledge of mathematics, preparing them to teach a wide variety of mathematics courses at any four-year college or university in the United States, work in a wide variety of business, industry, and government positions, and hold leadership positions in these organizations;
- can identify and develop new lines of investigation that push forward frontiers of research;
- can bring together problem-solving tools to make new discoveries, including locating and understanding the most current research literature, and working with interdisciplinary collaborators; and
- can communicate mathematics via professional writings and presentations at a level appropriate to the audience, from the general public to technical experts.

Requirements

The Master of Science program in mathematics requires a minimum of 30 s.h. of graduate credit. Students choose from two subprograms, program I and program II. Students must earn a Graduate College major program grade-point average of 2.75.

3 s.h. of MATH:7990 Reading Research and mathematics courses (prefix MATH) numbered 7000 and above may be counted toward the degree.

The Master of Science in mathematics requires the following coursework.

Program I Requirements

Program I is intended for master's students who have been admitted by the Department of Mathematics. It also provides a path for PhD students in mathematics or applied mathematical and computational sciences to earn a master's degree during their course of study. Students complete 30 s.h. in mathematics courses (prefix MATH), including at least 18 s.h. in courses numbered 5000 and 12 s.h. in courses numbered 3000 and above. They must also pass two qualifying examinations. The qualifying examinations may be chosen from algebra, analysis, differential equations, topology, and numerical analysis.

5000-Level Courses

Students must complete at least 18 s.h. from the following courses.

Course #	Title	Hours
One of these sequences:		
MATH:5000 & MATH:5010	Abstract Algebra I and Abstract Algebra II	6
MATH:5200 & MATH:5210	Introduction to Analysis I and Introduction to Analysis II	6
Four courses from these:		
MATH:5000 & MATH:5010	Abstract Algebra I and Abstract Algebra II (if not taken as a required sequence)	6
MATH:5200 & MATH:5210	Introduction to Analysis I and Introduction to Analysis II (if not taken as a required sequence)	6
MATH:5400	Fundamental Groups and Covering Spaces	3
MATH:5410	Introduction to Smooth Manifolds	3
MATH:5600	Nonlinear Dynamics With Numerical Methods	3
MATH:5700	Introduction to Partial Differential Equations	3
MATH:5750	Mathematical Biology I	3
MATH:5760	Mathematical Biology II	3
MATH:5800	Numerical Methods I	3
MATH:5810	Numerical Methods II	3
Mathematics courses (prefix MATH) numbered 6000 and above with departmental approval		

Program II Requirements

Program II is intended for students pursuing graduate degrees in other departments and students on the undergraduate-to-graduate (U2G) pathway. Students are advised to meet with the director of graduate studies (DGS) at the beginning of the master's program to understand the expectations for fulfilling the program requirements.

Students complete 30 s.h. in mathematics courses (prefix MATH), including at least 18 s.h. in courses numbered 5000 and above and 12 s.h. in courses numbered 3000 and above.

5000-Level Courses

Course #	Title	Hours
18 s.h. from these:		
MATH:5000 & MATH:5010	Abstract Algebra I and Abstract Algebra II	6
MATH:5200 & MATH:5210	Introduction to Analysis I and Introduction to Analysis II	6
MATH:5400	Fundamental Groups and Covering Spaces	3
MATH:5410	Introduction to Smooth Manifolds	3
MATH:5600	Nonlinear Dynamics With Numerical Methods	3
MATH:5700	Introduction to Partial Differential Equations	3
MATH:5750	Mathematical Biology I	3
MATH:5760	Mathematical Biology II	3
MATH:5800	Numerical Methods I	3
MATH:5810	Numerical Methods II	3

Depth Requirement

The depth requirement may be fulfilled one of three ways:

- achieve a master's pass or above in two of the five mathematics qualifying exams (algebra, analysis, differential equations, topology, and numerical analysis);
- fulfill a qualifying exam or similar requirement from a different graduate program at the University of Iowa, subject to approval of the Department of Mathematics; or
- complete a final project supervised or co-supervised by a faculty member in the Department of Mathematics,

subject to departmental approval. The acting director of graduate studies and at least two members of the qualifying committee representing two different subject areas must agree that the final project constitutes master's level work. Students are required to submit a Project Plan Form by the first week of their final semester.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Applicants to the PhD program have preference for admission and funding.

Admission is competitive and based on a combination of undergraduate coursework and grades, letters of recommendation, and test scores. Numerical standards change every year or so; exceptions may be made to the following guidelines.

Applicants must have completed work in an undergraduate program equivalent to the major in mathematics offered by the University of Iowa Department of Mathematics with an undergraduate grade-point average of at least 3.20. Relevance and difficulty of courses are considered when evaluating grades; grades of C or lower in mathematics courses must be balanced by grades of A. Individuals whose preparation does not meet this requirement may be admitted conditionally and are asked to take specific courses that cover deficiencies.

All applicants must submit three letters of recommendation.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Mathematics, PhD

Learning Outcomes

Students:

- have a broad foundational knowledge of mathematics, preparing them to teach a wide variety of mathematics courses at any four-year college or university in the United States, work in a wide variety of business, industry, and government positions, and hold leadership positions in these organizations;
- can identify and develop new lines of investigation that push forward frontiers of research;
- can bring together problem-solving tools to make new discoveries, including locating and understanding the most current research literature, working with interdisciplinary collaborators; and
- can communicate mathematics via professional writings and presentations at a level appropriate to the audience, from the general public to technical experts.

Requirements

The Doctor of Philosophy program in mathematics requires a minimum of 72 s.h. of graduate credit. Students must maintain a program grade-point average of at least 3.00. The program places a strong emphasis on preparation for research and teaching. The department maintains no division between pure and applied mathematics. It cooperates in interdisciplinary doctoral programs with the College of Education (see Teaching and Learning [p. 1431] in the catalog) and the program in Applied Mathematical and Computational Sciences [p. 1695] (Graduate College).

PhD students in mathematics must satisfy the following requirements for coursework (credits and breadth), examinations, world language, and the PhD thesis.

Students must spend at least three years in residence at a graduate college, including at least one year at the University of Iowa. They also should enroll in specific courses designated as preparatory for the PhD examinations; consult the Department of Mathematics graduate studies director.

To further encourage mathematical breadth, students must earn at least 27 s.h. of graduate credit in regular courses equivalent to or more advanced than PhD comprehensive examination preparatory courses. For a list of accepted Department of Mathematics courses and rules to ensure proper distribution, contact the department. Graduate students in mathematics must have departmental approval to earn credit for any of the courses numbered between 3000 and 4999. Analysis and computation graduate students in mathematics may not earn credit for MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra.

The PhD examinations consist of a qualifying exam and a comprehensive exam. Students choose three areas from the department's list of qualifying examination areas: algebra, analysis, differential equations, numerical analysis, and topology. For each qualifying area, there is a two-semester course sequence numbered 5000 or above that is designated as preparatory, although exams may differ from course content. Parts of the qualifying exam are taken over a two-week period. An exam committee gives one grade (pass, fail, conditional pass) on each part of the qualifying examination.

The PhD comprehensive exam tests students on research-related topics. Candidates also take an oral final examination on their dissertation material.

PhD students are required to demonstrate reading proficiency in French, German, or Russian by passing a reading test administered by the Department of Mathematics. Consult the department for details.

The most distinctive aspect of a PhD is the thesis. The department expects the thesis to be an original mathematical work comparable in content and writing quality to that found in standard published research journals. The thesis is written under the supervision of a mathematics department faculty member and must be approved by the PhD defense committee.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Applicants to the PhD program have preference for admission and funding.

Admission to the PhD program is competitive and based on a combination of undergraduate or graduate coursework and grades, letters of recommendation, and test scores. Applicants to the PhD program must have an undergraduate or graduate grade-point average of at least 3.40.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Medieval Studies

Chair

- Colin Gordon (History)

Coordinators, Medieval Studies

- Shane Bobrycki (History), William Rhodes (English)

Undergraduate certificate: medieval studies

Website: https://classics.uiowa.edu/undergraduate/certificate-medieval-studies

Medieval studies is an interdisciplinary program designed to offer students an introduction to the history and culture of the Middle Ages and to provide them with the tools necessary to pursue more advanced study in a number of disciplines, including languages and literatures, philosophy, history, and art history. The study of medieval society provides a window to those centuries that span the end of the ancient world and the beginning of the modern era. The Middle Ages saw fascinating global developments in such areas as law, religion, philosophy, language, art, music, and literature.

The Medieval Studies Program offers an undergraduate certificate and a selection of courses open to students in all majors. The Medieval Studies Program is administered by the Department of History.

Programs

Undergraduate Program of Study

Certificate

- Certificate in Medieval Studies [p. 806]

Courses

Medieval Studies Courses

MDVL:3226 Literature and Culture of the Middle Ages **3 s.h.**
Study of literature and culture of the Middle Ages. Same as ENGL:3226.

MDVL:3409 Medieval Civilization I **3 s.h.**
Europe from the decline of Roman empire to the eleventh century; cultural, political, economic, artistic and architectural foundations of Western civilization. Same as HIST:3409.

MDVL:3410 Medieval Civilization II **3 s.h.**
Europe from the eleventh century to the Italian Renaissance; cultural, political, economic, artistic, and architectural foundations of Western civilization. Same as HIST:3410.

MDVL:3425 Peasants in the Middle Ages **3 s.h.**
Examination of the social, economic, and cultural history of peasants in medieval Europe. Same as HIST:3425.

MDVL:4412 History of the Medieval Church **3 s.h.**
Development of Christianity to end of great schism; rise of Roman primacy, development of monasticism, orthodox and heterodox groups. Same as HIST:4412.

Medieval Studies, Certificate

Requirements

The undergraduate Certificate in Medieval Studies requires at least 18 s.h. in medieval studies coursework. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The Certificate in Medieval Studies enables students to combine study in three or more disciplines into an organized investigation of the Middle Ages, a rich historical period that continues to influence today's culture.

Students may earn the Certificate in Medieval Studies as a distinct interest or combine it with focused study in areas such as art history; classics; gender, women's, and sexuality studies; languages (e.g., French, German, Italian, Portuguese, Spanish); music; philosophy; religion; theater; and literature.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Courses used to fulfill GE CLAS Core [p. 22] requirements or the requirements of a major or minor may be counted toward the certificate in most cases. Up to 6 s.h. of transfer credit may be counted toward certificate requirements with the Certificate in Medieval Studies coordinating committee's approval; contact the certificate program's coordinator.

The Certificate in Medieval Studies requires the following coursework.

Courses

Courses may be chosen from the "Associated Courses" list or from medieval studies courses (prefix MDVL) under Courses [p. 805] in this section of the catalog. Students must include courses from at least three different departments; they may count a maximum of 10 s.h. from a single department or program. Students should consult regularly with a medieval studies advisor while planning and completing their program of study.

Associated Courses

The following courses are approved for the medieval studies certificate. Other courses may be approved for the satisfaction of certificate requirements; students who wish to have a course approved should make a request to the Certificate in Medieval Studies coordinating committee. The coordinating committee revises the list of approved courses as necessary.

Russian

Course #	Title	Hours
RUSS:1532	Traces of Ancient Russian Culture (IX-XVII Centuries): Vikings, Mongols, and Tsars	3

Spanish and Portuguese

Course #	Title	Hours
SPAN:4690	Topics in Spanish Literature (when topic is medieval)	3

Language Courses

The Medieval Studies Program strongly encourages students to complete coursework in a language relevant to the medieval period. Latin is recommended for anyone intending to pursue graduate study in the field. Many language courses have prerequisites, and some are offered irregularly, so students should complete their language coursework as early as possible. The following language courses are approved for the medieval studies certificate.

Course #	Title	Hours
ARAB:2001 & ARAB:2002	Intermediate Modern Standard Arabic I and Intermediate Modern Standard Arabic II	10
CLSL:2001 & CLSL:2002	World of Cicero and Golden Age of Roman Poetry	6
CLSA:4901 & CLSA:4902	Biblical Hebrew I and Biblical Hebrew II (same as RELS:4001-RELS:4002)	6-7
ENGL:3256	Old English Language and Literature	3

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Medieval Studies, Certificate

For students with an interest in graduate-level work.

Course	Title	Hours
Academic Career		
Any Semester		
The undergraduate Certificate in Medieval Studies requires at least 18 s.h. in medieval studies coursework.		
This sample plan is a suggestion for students planning graduate work in medieval studies.		
MDVL:3226	Literature and Culture of the Middle Ages [a]	3
MDVL:3410	Medieval Civilization II [a]	3
ARTH:2420	Medieval Art From Constantine to Columbus [a]	3
CLSL:2001	World of Cicero [a]	3
CLSL:2002	Golden Age of Roman Poetry [a]	3
ENGL:3286	Chaucer [a]	3
	Hours	**18**
	Total Hours	**18**

a Students may substitute this course for another approved medieval studies course (refer to the General Catalog for a list of approved courses). Students must include courses from at least three different departments in their work for the certificate; they may count a maximum of 10 s.h. from a single department or program.

Museum Studies

Director, Division of Interdisciplinary Programs

- Cornelia C. Lang (Physics and Astronomy)

Museum Studies Coordinator

- Debra Trusty (Classics)

Undergraduate certificate: museum studies

Faculty: https://museumstudies.sites.uiowa.edu/contacts

Website: https://museumstudies.sites.uiowa.edu/

Museum studies has a long history at the University of Iowa, with courses offered continuously since 1910.

Museums embrace every aspect of human experience. Iowa's Museum Studies Program reflects this multiplicity and includes students from many fields, including American studies, anthropology and archaeology, art, biology, business, communication studies, earth, environment, and sustainability sciences, elementary and secondary education, English, world languages, history, and library and information science.

Instructors for museum studies courses reflect the program's interdisciplinary nature. They include faculty members from anthropology; art, art history, and design; business; classics; history; journalism and mass communication; library and information science; and other related fields.

The Museum Studies Program holds academic memberships with the American Association for State and Local History and the Iowa Museum Association. These connections offer museum studies students opportunities for internships, professional networking, and career development. In addition to offering a wide range of on-campus courses, the certificate can also be earned online with a growing number of online courses.

The Museum Studies Program is administered by the Division of Interdisciplinary Programs [p. 363].

Programs

Undergraduate Program of Study

Certificate

- Certificate in Museum Studies [p. 811]

Facilities

Museum studies students have access to a wide variety of museums and related resources, including the following University of Iowa museums: the Museum of Natural History, the Stanley Museum of Art, the Old Capitol Museum, the Medical Museum, and the Karro Athletic Hall of Fame.

The Museum Studies Program also maintains close connections with a number of local, community-based museums and organizations.

Courses

Museum Studies Courses

MUSM:2675 The Politics of Memory: Holocaust, Genocide, and 9/11 3-4 s.h.
How contested legacies of genocide, global violent conflict, and 9/11 continue to pose an urgent and generationally mediated challenge for critical politics of memory; various approaches to effective or failed coming-to-terms with injurious and difficult past (e.g., Holocaust, Armenian genocide); analysis of museums, sites of memory, and artwork. Taught in English. GE: Understanding Cultural Perspectives. Same as GRMN:2675.

MUSM:2850 Museums and Social Justice 3 s.h.
Exploration of museums as institutions that frame social justice, promote equity of access through social bridging, and at times, address and challenge social ills directly through exhibits and programs; case studies and dialogue.

MUSM:3001 Introduction to Museum Studies 3 s.h.
Overview of museum history, function, philosophy, collection, and curatorial practices; governance and funding issues; exhibition evaluation and audience studies; examples from Stanley Museum of Art, Museum of Natural History, Old Capitol Museum, and Medical Museum. GE: Social Sciences. Same as ANTH:3001, EDTL:3001, SIED:3001.

MUSM:3003 Natural History Research Collections 3 s.h.
Techniques, methods, and issues specific to natural history research collections; practice in preparing and cleaning specimens; role of natural history specimens in modern scientific research. Recommendations: basic understanding of the diversity of plants and animals and natural history museum collections, MUSM:3001 or MUSM:3200, and BIOL:1411 or BIOL:1412; or other experience. Same as SEES:3003.

MUSM:3004 Exhibition Planning 3 s.h.
Preliminary work for and process of developing museum exhibitions; history of exhibit design, evaluation, budgets, teams and team member roles, working with community and special interest groups, methods of production and display; students research a topic, choose artifacts and images, and create a narrative and exhibit script. Prerequisites: MUSM:3001.

MUSM:3010 Fakes, Frauds, and Forgeries: The Dark Side of Art History 3 s.h.
How fraudulent artworks have been accepted as genuine and incorporated into the art historical canon, from the famous gold and ivory Minoan snake goddess to paintings purportedly by Rembrandt; the danger frauds pose to our understanding of cultural heritage and historical past, how fakes have impacted the art market, and value of forgeries as indices of contemporary taste and preconceptions about art. Same as ARTH:3010.

MUSM:3078 Archiving Women's History 3 s.h.
Exploration of girls' and women's history in Iowa through collections at the Iowa Women's Archives; introduction to archival research, digital humanities, and Omeka (a digital collection and exhibit platform) with focus on sport-related collections; guided individualized research and exhibit development. Same as AMST:3078, GWSS:3078, SPST:3078.

MUSM:3091 Topics in Museum Studies 1 s.h.
Systematic and analytic methods used for research in physical collections; tutorials in collection building, curation, and preservation designed by UI Collections Coalition. Prerequisites: MUSM:3001.

MUSM:3100 Historic House Management and Preservation 3 s.h.
Historic house museums make up more than half of all museums in the United States; focus on management, preservation, and interpretation of historic houses as sites of historic memory and public engagement. Same as ANTH:3122.

MUSM:3105 Engaging Museum Audiences 3 s.h.
Effective audience engagement requires museums to meet visitors halfway; employing learning theories, knowledge of audience, and innovative examples from the field; students investigate a variety of approaches that are visitor-centered, interdisciplinary, and locally focused. Prerequisites: MUSM:3001.

MUSM:3115 Museum Education and Interpretation 3 s.h.
Examination of the educational role of museums; educational theory, audience development, teaching strategies, accessibility, and evaluation within museum context; community-engaged project and collaboration with museum to develop curriculum and educational resources. Same as EDTL:3115.

MUSM:3120 Museum Origins 3 s.h.
History of museums; origin, character, and evolution into content specific institutions; anecdotes and personalities; how museums influenced society and their continuing relevance to a technological world.

MUSM:3125 Museums in a Digital World 3 s.h.
Digital technologies streamline internal museum processes while exponentially increasing the capacity of individuals to engage with museum collections; explores the digitized strategies and systems that democratize access and enhance museum visitor experiences.

MUSM:3130 Topics in Museum Administration and Management 3 s.h.
Topics and scope vary but are centered around an examination of the complex leadership skills needed to manage and administer museums; operating daily business tasks, managing visitor needs, communicating between collection handling and restoration and museum educators, fundraising, grant writing, and budget management; leadership and management theory; discussions on museum governance, human resources, and project management while working with all museum stakeholders, including volunteers, employees, directors, and board members. Prerequisites: MUSM:3001.

MUSM:3131 Museum Evaluation and Visitor Studies 3 s.h.
Students explore evaluation theory, methodologies, and practical application through case studies and hands-on activities from all types of museum experiences (e.g., programs, exhibitions, wayfinding, interpretive technology) from both staff and visitor perspective. Prerequisites: MUSM:3001.

MUSM:3145 Excavation to Exhibit: Making Artifacts Public 3 s.h.
In-depth exploration of methodological, theoretical, and historical issues in the creation of archaeological museum exhibitions including hands-on learning involving the development of an exhibit for the Stanley Museum of Art. Same as ANTH:3145, NAIS:3145.

MUSM:3200 Collection Care and Management 3 s.h.
How a museum's management policy relates to its administrative, legal, and ethical obligations to its collections; acquisitions, deaccessions, collection use, data standards, storage environment, health, safety, documentation. Same as SEES:3200.

MUSM:3237 Politics of the Archaeological Past 3 s.h.
How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, Indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as ANTH:3237, HIST:3137.

MUSM:3250 American Stuff: Discovering History in Things 3 s.h.
Introduction to the historical study of material artifacts; how people have used objects to construct their memories, identities (e.g., class, race, sexuality, gender, nation), relationships, and status/power; how objects have inadvertently shaped us; finding artifacts in local collections; analyzing artifacts as historical sources; researching how objects were produced and sold and how they were used or misused; curating one's own exhibition; objects range from utilitarian (e.g., guns, farming tools, office gadgets, automobiles) to decorations, toys, souvenirs, and more. Same as HIST:3250.

MUSM:3291 Museum Registration and Records Management 3 s.h.
Processes and standards relating to the intellectual control of museum collections. Topics include the creation and maintenance of museum collections documentation; collections management systems (CMS); digital asset management; terminology control and linked data standards; and legal and ethical obligations for museum registration. Corequisites: MUSM:3001. Same as ANTH:3291.

MUSM:3500 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financial aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as ENTR:3595, MGMT:3500, NURS:3595, RELS:3700, SSW:3500.

MUSM:3710 Fundraising Fundamentals 3 s.h.
Nonprofit organization reliance on raised funds to survive and thrive; basic concepts of fundraising for successful nonprofit organization; work with a nonprofit organization to explore basic fundraising techniques that nonprofits typically use including donor research, annual fund campaigns (phone, mail, email), capital campaigns, events, cause-related marketing, grants, planned giving, and donor stewardship; when and how to use different fundraising strategies to meet an organization's goals. Same as JMC:3710.

MUSM:3720 Nonprofit Communications 3 s.h.
Practical experience planning and writing fundraising materials; how yearly fundraising helps approximately 1.5 million nonprofit organizations receive more than $3 billion from individuals, foundations, and corporations to help people in need, advocate for causes, support research/arts/culture, and enhance opportunities for public and/or their members. Same as JMC:3720.

MUSM:4045 Art, Law, and Ethics 3 s.h.
How law and ethics apply to individuals and institutions concerned with visual arts. Same as LAW:8164.

MUSM:4081 The Art Museum: Theory and Practice 3 s.h.
Introduction to different aspects of art museums; emphasis on roles of art historians, especially curatorial practice; current and historical theories and practices of art exhibitions; varying debates of the politics of display; art museum professions; the many facets of art exhibition preparation; the University of Iowa Stanley Museum of Art collections. Prerequisites: (MUSM:3001 or ARTH:1040) and (RHET:1030 or RHET:1040 or RHET:1060). Same as ARTH:4081.

MUSM:4130 Museum Literacy and Historical Memory 3 s.h.
Concepts and methods for understanding the role of museums in shaping knowledge and collective memory of history; institutionally based exhibits and collections, historical markers and public monuments, public holidays and events, media and artistic works that interpret the past; how events, people, and civic ambitions are memorialized and how memories of them are shaped; appearance of museums and related practices in the non-Western world after 1850. Same as HIST:4130.

MUSM:4150 Introduction to Grant Writing 3 s.h.
Comprehensive training in grant proposal writing; basics of project development and management; core principles for writing small and large proposals to public and private funding sources; finer points of grant writing to increase competitiveness of future proposals and applications; for students with limited grant writing experience. Same as EALL:4130.

MUSM:4200 Museum Object Preservation 3 s.h.
Detailed study of specific types of museum objects, their materials, and care; topics include care, storage, and preservation of paper, books, photographs, works of art, electronic media, textiles, furniture, archaeological artifacts, and natural history specimens; students complete a curatorial project and gain hands-on practice in basic object cleaning and making enclosures and supports; for students planning museum careers or taking care of collections as part of their professional responsibilities. Same as SEES:4200.

MUSM:4310 Slavery Museums, Memorials, and Statues in the United States, Europe, and the Global South 3-4 s.h.
Comparative study of museums, memorials, statues, performances, and artistic works that encapsulate the entangled history and memory of transoceanic slave trades and slavery in the United States, the Caribbean, the Indian Ocean, Sub-Saharan Africa, and Europe (France and the United Kingdom); critical tools to analyze public debates over politically charged monuments; exploration of transnational and political predicaments of the contemporary world; approaches include trauma theories, memory studies, history, postcolonial ecocriticism, cultural anthropology, heritage studies and museology, and Francophone cultural critique. Taught in English. Requirements: for 4 s.h. option —prior enrollment in FREN:3060 and FREN:3300. Same as FREN:4210, WLLC:4210.

MUSM:4600 Nonprofit Ethics and Governance 3 s.h.
Tools to help identify, understand, and resolve ethical issues in nonprofit sectors; how individual beliefs and societal standards shape ethical decision-making; application of ethical frameworks to classic and contemporary ethical dilemmas; how various forms of governance shape ethical behavior in organizations; case studies, readings, lectures, and guest speakers. Same as MGMT:4600.

Museum Studies, Certificate

Requirements

The undergraduate Certificate in Museum Studies requires 18 s.h. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Work for the certificate consists of one introductory course, a minimum of four courses on specific museum studies topics, and 3 s.h. from the internship and professionalism category. Students must request permission from the coordinator of the museum studies certificate to use courses that are not included in the program, and the proposed course content and requirements must fit into one of the program's defined areas. A maximum of 6 s.h. of coursework used to satisfy requirements for another major, minor, or certificate may be applied toward this certificate. Transfer credit requests are evaluated individually by the museum studies coordinator.

The Certificate in Museum Studies requires the following coursework.

Requirements	Hours
Introductory Course	3
Museum Studies Topic Areas	12
Museum Studies Internship and Professionalism	3

Introductory Course

Students should begin the certificate with MUSM:3001/ANTH:3001/EDTL:3001/SIED:3001 Introduction to Museum Studies (3 s.h.), which is a prerequisite or corequisite for some of the program's more advanced courses. This course provides a historical overview of museum development and function while introducing students to issues such as museum governance and financing, ethics and law, collection management, exhibition and educational programming, interpretation, and audience research.

Museum Studies Topic Areas

Students complete a minimum of four courses in museum studies topic areas, choosing from the following lists. The areas are collection care and management; exhibition development and public education; history, theory, and culture; and museum administration and management.

Students must select one course each from three of the four topic areas (9 s.h. total). They must also complete a fourth course (3 s.h.) from any of the four topic areas.

Collection Care and Management

Course #	Title	Hours
MUSM:3003/ SEES:3003	Natural History Research Collections	3
MUSM:3200/ SEES:3200	Collection Care and Management	3
MUSM:3291/ ANTH:3291	Museum Registration and Records Management	3
MUSM:4200/ SEES:4200	Museum Object Preservation	3

Exhibition Development and Public Education

Course #	Title	Hours
MUSM:3004	Exhibition Planning	3
MUSM:3078/ AMST:3078/ GWSS:3078/ SPST:3078	Archiving Women's History	3
MUSM:3105	Engaging Museum Audiences	3
MUSM:3115/ EDTL:3115	Museum Education and Interpretation	3
MUSM:3125	Museums in a Digital World	3
MUSM:3145/ ANTH:3145/ NAIS:3145	Excavation to Exhibit: Making Artifacts Public	3

History, Theory, and Culture

Course #	Title	Hours
MUSM:2675/ GRMN:2675	The Politics of Memory: Holocaust, Genocide, and 9/11	3-4
MUSM:2850	Museums and Social Justice	3
MUSM:3010/ ARTH:3010	Fakes, Frauds, and Forgeries: The Dark Side of Art History	3
MUSM:3120	Museum Origins	3
MUSM:3237/ ANTH:3237/ HIST:3137	Politics of the Archaeological Past	3
MUSM:3250/ HIST:3250	American Stuff: Discovering History in Things	3
MUSM:4081/ ARTH:4081	The Art Museum: Theory and Practice	3

MUSM:3710/ JMC:3710	Fundraising Fundamentals	3
MUSM:3720/ JMC:3720	Nonprofit Communications	3

MUSM:4045/ LAW:8164	Art, Law, and Ethics	3
MUSM:4150/ EALL:4130	Introduction to Grant Writing	3
MUSM:4600/ MGMT:4600	Nonprofit Ethics and Governance	3

Museum Studies Internship and Professionalism

Students must complete either 2 s.h. in CCP:1201 Academic Internship plus 1 s.h. in MUSM:3091 Topics in Museum Studies or 3 s.h. in CCP:1201. Additionally, students should not take 3 s.h. of CCP:1201 in a single semester. Instead, students who opt to take 3 s.h. of the internship course should divide the s.h. over two or three semesters (e.g., 1 s.h. for three semesters or 2 s.h. one semester and 1 s.h. another semester).

It is highly recommended that students wait to begin their internship work until after they have completed the introductory course and at least 12 s.h. of coursework for the program.

The Certificate in Museum Studies coordinator and Pomerantz Career Center staff work closely with students and affiliated faculty members to ensure that the internship provides students with the instruction and experience they need.

Online Option

Those with an interest in furthering their education in museum studies and who live outside of the Iowa City area may be interested in pursuing the certificate online. Please see the program website for details.

Career Advancement

Museum studies students have become directors, curators, educators, and exhibit specialists in museums throughout the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Music

Director, School of Music

- Tammie Walker

Associate Directors

- Benjamin Coelho, John Manning

Undergraduate major: music (BA, BM)

Undergraduate minor: music

Graduate degrees: MA in music; PhD in music; DMA

Graduate minor: theory pedagogy

Faculty: https://music.uiowa.edu/people

Website: https://music.uiowa.edu/

The University of Iowa School of Music is prominent in a fine arts community of international repute. It has long been recognized as one of the excellent university-based music schools in the United States.

The school's on-campus enrollment of approximately 450 music majors is large enough to sustain strong programs in all areas of specialization, yet small enough to ensure the individual attention essential to each student's development.

The faculty consists of highly trained artist-teachers in each specialization area and scholars of international distinction. Private lessons with faculty members are offered in all band and orchestra instruments, and in jazz studies, organ, piano, and voice.

The school's undergraduate programs offer all qualified students, whether music majors or nonmajors, the opportunity for further study of music. In addition to its comprehensive course offerings for majors, the school provides a substantial selection of courses especially recommended for nonmajors and several approved for the GE CLAS Core [p. 22] (see the following section, "Courses for Nonmajors").

Graduate programs in music are designed primarily to prepare students for teaching in secondary schools, colleges, and universities and for careers in performance and music therapy.

The School of Music is a charter member of the National Association of Schools of Music. The requirements for entrance and for graduation are in accordance with the association's published standards.

The School of Music participates in offering the Certificate in Digital Arts [p. 356], and the Certificate in Social Justice and the Performing Arts.

Courses for Nonmajors

The School of Music offers a wide range of courses that are appropriate for non-music majors. Courses about jazz, music and culture, music history, music software, and other topics are available as well as individual instruction on a number of instruments and voice; see School of Music Courses [p. 814] in this section of the catalog.

Several School of Music courses are approved for the GE CLAS Core; look for courses with the prefix MUS under Historical Perspectives; Literary, Visual, and Performing Arts; and Values and Society in the GE CLAS Core [p. 22] section of the catalog.

For course descriptions, see School of Music Courses in this section of the catalog.

Participation in School of Music ensembles is open to all University of Iowa students with the ensemble director's approval.

Course #	Title	Hours
MUS:1160	University Band	1
MUS:1165	Hawkeye Marching Band	1
MUS:1166	Large Pep Band	1
MUS:1176	Voxman Chorale	1
MUS:1180	Campus Symphony Orchestra	1
MUS:3160	Symphony Band/Concert Band	1
MUS:3162	All University Steel Band	1-3
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1

Other courses recommended for music nonmajors include the following.

Course #	Title	Hours
MUS:1000	First-Year Seminar	1
MUS:1001	Group Piano I: Non-Music Majors	1
MUS:1002	Group Piano II: Non-Music Majors	1
MUS:1007	Garage Band: The Basics	2
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1010	Recital Attendance for Nonmajors	1
MUS:1012	Creativity in Music	3
MUS:1020	Performance Instruction for Nonmajors (interested students should consult with the instructor of their instrument)	1
MUS:1066	Introduction to Film Music	3
MUS:1100	Fundamentals of Music for Non-Music Majors	3
MUS:1201	Musicianship and Theory I	4
MUS:1301	Concepts and Contexts of Western Music	3
MUS:1302	Great Musicians	3
MUS:1303	Roots, Rock, and Rap: A History of Popular Music	3
MUS:1310	World Music	3
MUS:1610	Group Singing Experience	1
MUS:1720	History of Jazz	3
MUS:1740/ AFAM:1240	The Art of Listening to Jazz	3
MUS:1741/ AFAM:1241	The Soundtrack of Black America	3
MUS:1800	World of the Beatles	3
MUS:2005	Issues in Popular Music: Women Who Rock	3
MUS:2160	Drumline Techniques	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3

MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
MUS:3851/ DANC:3851	Introduction to the Alexander Technique	3

Programs

Undergraduate Programs of Study

Majors

- Major in Music (Bachelor of Arts) [p. 827]
- Major in Music (Bachelor of Music) [p. 837]

Minor

- Minor in Music [p. 850]

Graduate Programs of Study

- Master of Arts in Music [p. 852]
- Doctor of Philosophy in Music [p. 862]
- Doctor of Musical Arts [p. 866]
- Minor in Theory Pedagogy [p. 867]

Facilities

The School of Music is housed in the Voxman Music Building, a state-of-the-art facility in the heart of the downtown campus that opened in the fall of 2016. The 190,000 square-foot building includes a 700-seat concert hall; 200-seat recital hall; organ performance hall; opera and chamber music rehearsal spaces; faculty studios; classrooms; practice rooms; specialized facilities for music therapy, electronic music, and percussion; and light-filled public and social spaces. The building features the latest instructional and recording technology, and superior acoustic ambience and isolation.

Center for New Music

The Center for New Music is a vital component of the School of Music's composition program. Since its founding in 1966, the center has been both a laboratory and showcase for late 20th- and 21st-century music. It presents at least four concerts of contemporary works each academic season. It also provides a forum for visiting composers and other creative artists, bringing new music to a variety of outreach venues. Audition, rehearsal, and programming information is available on the Center for New Music website.

Rita Benton Music Library

The Rita Benton Music Library is located on the first floor of the Voxman Music Building. The music library holds more than 90,000 scores, including chamber music sets; 54,000 books; 125 active periodical subscriptions; and 46,000 media items in all formats. The Arthur and Miriam Canter Rare Book Room holds around 3,000 rare books and scores and has particular strengths in 18th- and 19th-century music theory treatises and instrumental methods, and an outstanding collection of keyboard and chamber music of Ignaz Pleyel. Additional music collections of note are housed in Special Collections and Archives, including the Goldman Band Records; the University of Iowa's Center for New Music papers; and papers of composers Philip Greeley Clapp, William Hibbard, and Donald Martin Jenni. The music library holds the School of Music Recordings Archive, including faculty recital and ensemble concert programs, audio recordings, and video recordings.

The music library's online subscriptions include research tools such as Grove Music Online, RILM, RIPM, RIPM Jazz, Music Index, and Music Periodicals Database. Streaming media resources include Naxos Music Library, Met Opera on Demand: Student Access, and Music Online. Online scores resources include the A-R Online Music Anthology, BabelScores, and nKoda.

Materials circulate to University of Iowa faculty and students and to institutions that have reciprocal agreements for interlibrary loan services with the university.

Courses

Several School of Music courses are especially appropriate for non-music majors. Some are approved for the GE CLAS Core; look for them (prefix MUS) under Historical Perspectives; Literary, Visual, and Performing Arts; and Values and Society in the GE CLAS Core [p. 22] section of the catalog.

Applied music instruction consists of individual and/or class lessons, at the instructor's option, for a minimum of one hour per week (students register for 2 s.h.), or one half-hour per week (students register for 1 s.h.). Music majors are required to attend weekly performance and pedagogy seminars in applied music. Courses are offered on a fee-per-course basis, in addition to tuition, and may be repeated.

Music Courses

MUS:1000 First-Year Seminar **1 s.h.**
An aspect of performance, creativity, musical literature, or scholarship; seminar format with classroom participation, papers, projects, other assignments; may require attendance at lectures, rehearsals, or performances. Requirements: first- or second-semester standing.

MUS:1001 Group Piano I: Non-Music Majors **1 s.h.**
Reading, technical study, chording, playing by ear, improvisation; for beginners. Requirements: non-music major. GE: Literary, Visual, and Performing Arts.

MUS:1002 Group Piano II: Non-Music Majors **1 s.h.**
Continuation of MUS:1001. Requirements: non-music major.

MUS:1007 Garage Band: The Basics **2 s.h.**
Application of GarageBand software (Mac platform) using midi keyboards; composition and music theory for projects using drag-and-drop looping, multitrack recording, sound effects, mixing, importing music for composition. GE: Engineering Be Creative.

MUS:1009 Jazz Cultures in America and Abroad **3 s.h.**
How to listen to jazz and recognize a variety of processes that are taking place in performances and recordings; historical, social, and political issues, including race and gender; the unique blend of jazz of a particular region; attendance at live performances, meet and interview musicians, critics, and educators. GE: Literary, Visual, and Performing Arts; Values and Society.

MUS:1010 Recital Attendance for Nonmajors **1 s.h.**
Musical experience through student, faculty recitals.

MUS:1012 Creativity in Music 3 s.h.
Where does music come from? When, why, and how did people first start making music? How do music creators turn raw inspiration into finished pieces? How do improvisers create music on the spot? Can anyone create music or is that something only for composers? Development of music creation from long ago to present day; presentations by guest composers and performers who will demonstrate how they compose or improvise their music. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

MUS:1020 Performance Instruction for Nonmajors 1 s.h.
One thirty-minute weekly lesson in one of the following areas: bassoon, cello, clarinet, composition, euphonium, flute, harp, horn, jazz studies instruments, oboe, organ, percussion, piano, saxophone, string bass, trombone, trumpet, tuba, viola, violin, or voice. Requirements: non-music major. GE: Literary, Visual, and Performing Arts.

MUS:1066 Introduction to Film Music 3 s.h.
Major styles and composers of film music from early 20th century to the present; focus on case studies to understand different roles music can play in cinema; opportunities to employ critical thinking and listening skills to analyze particular films or key scenes. GE: Literary, Visual, and Performing Arts.

MUS:1100 Fundamentals of Music for Non-Music Majors 3 s.h.
Notation of pitch and rhythm, intervals, scales, key signatures, triads, and seventh chords. Requirements: non-music major.

MUS:1120 Secondary Performance - Voice 1 s.h.
Requirements: music major.

MUS:1121 Secondary Performance - Piano 1 s.h.
Requirements: music major.

MUS:1122 Secondary Performance - Organ 1 s.h.
Seminar and lessons arranged. Requirements: music major.

MUS:1123 Secondary Performance - Violin 1 s.h.

MUS:1124 Secondary Performance - Viola 1 s.h.

MUS:1125 Secondary Performance - Cello 1 s.h.

MUS:1126 Secondary Performance - String Bass 1 s.h.

MUS:1127 Secondary Performance - Flute 1 s.h.

MUS:1128 Secondary Performance - Oboe 1 s.h.

MUS:1129 Secondary Performance - Clarinet 1 s.h.

MUS:1130 Secondary Performance - Bassoon 1 s.h.

MUS:1131 Secondary Performance - Saxophone 1 s.h.

MUS:1132 Secondary Performance - Horn 1 s.h.

MUS:1133 Secondary Performance - Trumpet 1 s.h.

MUS:1134 Secondary Performance - Trombone 1 s.h.

MUS:1135 Secondary Performance - Euphonium 1 s.h.

MUS:1136 Secondary Performance - Tuba 1 s.h.

MUS:1137 Secondary Performance - Percussion 1 s.h.

MUS:1138 Secondary Performance - Jazz 1 s.h.
Seminar and lessons arranged. Requirements: music major.

MUS:1139 Secondary Performance - Composition 1 s.h.
Individual lessons for non-composition majors that help to prepare a portfolio for entrance into the composition area. Corequisites: MUS:1201 and MUS:1202 and MUS:2203 and MUS:2204.

MUS:1160 University Band 1 s.h.
Participation in University Band.

MUS:1165 Hawkeye Marching Band 1 s.h.
Offered fall semesters.

MUS:1166 Large Pep Band 1 s.h.
Performing ensemble for basketball games and wrestling meets. Requirements: membership by audition.

MUS:1176 Voxman Chorale 1 s.h.
Auditioned choral ensemble; for students who sing in soprano or alto range.

MUS:1180 Campus Symphony Orchestra 0-1 s.h.
Repertoire, rehearsal pacing, and performance expectation geared to general students. Open to all UI students with no audition.

MUS:1200 Fundamentals of Music for Majors 3 s.h.
Rudiments of music—notation of pitch and rhythm, meter, scales, keys, intervals, triads.

MUS:1201 Musicianship and Theory I 4 s.h.
Principles of harmony; emphasis on aural skills, theoretical concepts, notation. Offered fall semesters. Requirements: successful completion of placement exam A or an AP score of 3.

MUS:1202 Musicianship and Theory II 4 s.h.
Continuation of MUS:1201. Offered spring semesters. Prerequisites: MUS:1201. Requirements: MUS:1212 or successful completion of piano proficiency exam.

MUS:1210 Recital Attendance 1 s.h.
Requirements: music major.

MUS:1211 Group Instruction in Piano I 1 s.h.
Beginning instruction for music majors whose principal performing medium is voice or an orchestral or band instrument; skill development in sight reading, technique, harmonization, transposition, improvisation, simple literature. Corequisites: MUS:1201. Requirements: music major.

MUS:1212 Group Instruction in Piano II 1 s.h.
Elementary to early intermediate instruction for music majors whose principal performing medium is voice or an orchestral or band instrument; continued skill development begun in MUS:1211; introduction of easy solo and ensemble literature. Corequisites: MUS:1202. Requirements: MUS:1211 or successful completion of proficiency examination.

MUS:1301 Concepts and Contexts of Western Music 3 s.h.
Ideas, social and historical contexts, emergence of genres and styles, diverse performing traditions in music making of Europe and North America. Recommendations: non-music major. GE: Literary, Visual, and Performing Arts.

MUS:1302 Great Musicians 3 s.h.
Lives and works of important composers, performers. Recommendations: non-music major. GE: Literary, Visual, and Performing Arts.

MUS:1303 Roots, Rock, and Rap: A History of Popular Music 3 s.h.
Historical narrative of popular music; focus on understanding and analyzing music of past and present in relation to major issues central to popular culture and society; production, dissemination, and reception of popular music; interpretation of ways in which music forms individual and collective identities and how contemporary musical experiences are shaped by historical processes. GE: Historical Perspectives.

MUS:1310 World Music 3 s.h.
Varied perspectives on the relationship of music and culture, drawing from musical cultures around the world. GE: Literary, Visual, and Performing Arts.

MUS:1510 Diction for Singers I 2 s.h.
Italian and German pronunciation for singing; basics of international phonetic alphabet; no previous background required.

MUS:1610 Group Singing Experience 1 s.h.
Choral singing in a supported and structured environment. Develop knowledge of singing and music-making in an inclusive group setting, musicianship, community, leadership, teamwork, professionalism, interpersonal communication, self-advocacy, and self-determination. Requirements: public concert performance attendance.

MUS:1687 Orientation to Music Therapy 2 s.h.
Theory, practice; typical clients and places of employment in music therapy.

MUS:1711 Jazz Rhythms and Interpretation I 1 s.h.
Methods for sight-reading and interpreting jazz notation. Requirements: music major or audition.

MUS:1712 Jazz Rhythms and Interpretation II 1 s.h.
Connection of rhythm-body principle—where movement and motion connects directly with rhythmic motifs and patterns; advanced rhythmic concepts (e.g., odd meters, borrowed note-groupings, unconventional notation); Latin, West African, and non-Western concepts of rhythm; for BM jazz majors and music majors wanting more in-depth, advanced interaction with jazz rhythms and phrasing; second in a two-course sequence. Requirements: music major.

MUS:1720 History of Jazz 3 s.h.
Major 20th-century styles, artists, seminal works, and recordings; developments between 1917 and 1972. GE: Literary, Visual, and Performing Arts; Values and Society.

MUS:1740 The Art of Listening to Jazz 3 s.h.
What is jazz and its importance; guided introduction to jazz music, anatomy of jazz music, cultural context; development of skills to become an informed listener; process of performing jazz music, its connection with Black culture; focused listening/analysis of prominent jazz artists' work from past and present, including intersection between jazz and hip hop; formal music experience or training not required. GE: Literary, Visual, and Performing Arts. Same as AFAM:1240.

MUS:1741 The Soundtrack of Black America 3 s.h.
Linkage of African American culture and music; Black musical innovations that shaped mainstream American musical tastes over the last century; exploration of relationship between Black music and culture; examples of blues, jazz, gospel, hip hop; artists including Bessie Smith (blues), Mahalia Jackson (gospel), Miles Davis (jazz), Nas and Talib Kweli (hip hop). GE: Understanding Cultural Perspectives. Same as AFAM:1241.

MUS:1800 World of the Beatles 3 s.h.
How the Beatles' music was influenced by American pop music, the drug culture, and the avant-garde, nonwestern instruments and philosophy, anti-war sentiments, world politics, and so forth; Beatlemania's impact on British and American cultures and its role in opening Eastern Europe to the West. GE: Literary, Visual, and Performing Arts.

MUS:2005 Issues in Popular Music: Women Who Rock 3 s.h.
History of popular female musicians and the influence of their lyrics, music, and performances on American and British cultures; how women's musical careers have been influenced by civil rights, the British invasion (Beatles, Rolling Stones), second-wave feminism, postfeminism, Vietnam, counterculture, social injustice, music education, rock festivals, charity concerts. GE: Literary, Visual, and Performing Arts.

MUS:2020 Lower Level Voice 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2021 Lower Level Piano 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: piano major or approval of the area following a successful audition.

MUS:2022 Lower Level Organ 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2023 Lower Level Violin 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2024 Lower Level Viola 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2025 Lower Level Cello 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2026 Lower Level String Bass 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2027 Lower Level Flute 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2028 Lower Level Oboe 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2029 Lower Level Clarinet 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2030 Lower Level Bassoon 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2031 Lower Level Saxophone 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2032 Lower Level Horn 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2033 Lower Level Trumpet 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2034 Lower Level Trombone 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2035 Lower Level Euphonium 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2036 Lower Level Tuba 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2037 Lower Level Percussion 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2038 Lower Level Jazz 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: jazz studies major or audition.

MUS:2160 Drumline Techniques 1 s.h.
Training and experience in contemporary marching percussion and rudimental drumming techniques.

MUS:2203 Musicianship and Theory III 4 s.h.
Continuation of MUS:1201 and MUS:1202; focus on common-practice repertory. Offered fall semesters. Prerequisites: MUS:1202.

MUS:2204 Musicianship and Theory IV 4 s.h.
Continuation of MUS:1201, MUS:1202, and MUS:2203; focus on late 19th- and early 20th-century repertories. Offered spring semesters. Prerequisites: MUS:2203.

MUS:2206 Form and Analysis 3 s.h.
Analysis of musical forms and procedures, including 18th- and 19th-century tonal repertoires. Prerequisites: MUS:2204. Requirements: undergraduate standing.

MUS:2207 Introduction to Popular Music 3 s.h.
Analysis of major styles of popular music including rock, country, hip-hop, dance, and rhythm and blues (R&B); conventional notational methods and rudimentary use of digital audio workstations (e.g., Ableton, Logic); students read and compose in a variety of endemic to American popular music from the last century. Prerequisites: MUS:2204.

MUS:2213 Group Instruction in Piano III 1 s.h.
Varies by semester: skills for the music therapy profession, sight-reading, harmonization, transposition, reading from a fake book, and improvisation (fall); skills for the music education profession, sight-reading, harmonization, transposition, score, and hymn reading (spring). Requirements: music therapy, music education, or piano major.

MUS:2219 Introduction to Composition 3 s.h.
Explore composing acoustic music; develop the understanding of music composition through weekly listening assignments and discussions; build composition skills through scaffolded assignments, beginning with composing melodies, and progressing to more complex harmonic and polyphonic pieces; deepen knowledge of melody, harmony, rhythm, form, texture, and timbre, and learn about notation practices, instrumental and vocal techniques, and preparing scores and parts; when possible, students will read and perform each other's works, giving them experience rehearsing and giving feedback on their music. Prerequisites: MUS:1201.

MUS:2220 Composition 1-2 s.h.
Individual lessons with a composition faculty member. Corequisites: MUS:3230. Requirements: admission to BM composition concentration.

MUS:2301 History of Western Music I 3 s.h.
Recommendations: MUS:1201 and MUS:1202 for music majors. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

MUS:2302 History of Western Music II 3 s.h.
Recommendations: MUS:1201 and MUS:1202 for music majors. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

MUS:2311 Music of Latin America and the Caribbean 3 s.h.
Folk and popular musical traditions and their social contexts in Latin America, the Caribbean; listening skills; video/film screenings. GE: Literary, Visual, and Performing Arts; Values and Society. Same as LAS:2311.

MUS:2450 India Beat: The Aesthetics and Politics of India Today 3 s.h.
Ways in which music forms a crucial part of Indian public sphere, reflecting and shaping culture, society, and economy; wide range of genres commonly performed and heard across India and South Asia today (i.e., film music, several folk forms, classical, semi-classical, Indipop, rock) and locating each of them in their respective historical, cultural, and socioeconomic contexts; exploration of themes and questions (i.e., emergence and impact of technologies of mass production, distribution of music in colonial and post-independence India). GE: Values and Society. Same as ASIA:2450.

MUS:2510 Diction for Singers II 2 s.h.
French and English pronunciation for singing. Prerequisites: MUS:1510.

MUS:2630 Introduction to the Psychology of Music 3 s.h.
Processes by which people perceive, respond to, create, and use music in their daily lives; basic physics of musical stimuli, psychoacoustics of musical perception, principles of musical cognition, neurological and physiological responses to music, theories of musical learning and development, and social psychology of musical activity; previous musical performing experience helpful but not required. GE: Social Sciences. Same as EDTL:2630.

MUS:2671 Music Foundations in Therapy I 2 s.h.
Skill development on social instruments such as guitar, autoharp, piano; percussion, song-leading skills, and repertoire development for use in clinical music therapy sessions. Prerequisites: MUS:1687. Requirements: music therapy major.

MUS:2672 Music Foundations in Therapy II 2 s.h.
Advanced skill development on guitar for use in clinical music therapy sessions; percussion techniques, and related skills used in therapeutic settings. Prerequisites: MUS:2671. Requirements: music therapy major.

MUS:2800 Digital Arts: An Introduction 3 s.h.
Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, CS:2800, DANC:2800, DIGA:2800, THTR:2800.

MUS:2820 Electronic Music Production 3 s.h.
Improvement of listening skills through critical study of recorded music in a variety of styles; hands-on, weekly creative challenges in electronic music studio to gain skills working with Musical Instrument Digital Interface (MIDI) instruments, samples, and student's own recorded audio; transformation of sounds creatively using editing, effects, and more; generation of musical ideas using a variety of approaches; introduction to elements of mixing (balance, frequency range, space); demonstration of techniques using Reaper, Ableton, or Logic; for students with some experience using computers to make music. Requirements: presentation of one production, any style, with a minimum duration of one minute.

MUS:3001 Introduction to Jazz Improvisation 3 s.h.
Introduction to the practice of improvisation through performance of repertoire and the development of practicing strategies; exercises in melody, harmony, rhythm and transcription that together form an integrated approach to developing improvisations. Corequisites: MUS:1201. Requirements: audition.

MUS:3020 Upper Level Voice 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3021 Upper Level Piano 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: piano major or approval following a successful audition.

MUS:3022 Upper Level Organ 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3023 Upper Level Violin 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3024 Upper Level Viola 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3025 Upper Level Cello 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3026 Upper Level String Bass 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3027 Upper Level Flute 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3028 Upper Level Oboe 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3029 Upper Level Clarinet 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3030 Upper Level Bassoon 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3031 Upper Level Saxophone 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3032 Upper Level Horn 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3033 Upper Level Trumpet 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3034 Upper Level Trombone 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3035 Upper Level Euphonium 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3036 Upper Level Tuba 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3037 Upper Level Percussion 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3038 Upper Level Jazz 2 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: jazz studies major or approval following a successful audition.

MUS:3055 Interdisciplinary Science of Sound and Hearing 3 s.h.
Introduction to physics of sound, biology/psychology of hearing, and audio technology; theories and experimental methods; music, speech, and environmental sounds. Same as CSD:3119, PSY:3055.

MUS:3140 Audition Repertoire 1 s.h.
Practicum on passages frequently requested at professional auditions.

MUS:3150 Percussion Ensemble 1 s.h.
Range of styles and idioms, primarily written during the 20th and 21st centuries; historical or cultural aspects such as ancient rudimental drumming styles, ragtime, jazz, popular music, and music from Africa, the Caribbean, Brazil, Cuba, China.

MUS:3151 Percussion Chamber Ensemble 1 s.h.
Advanced percussion ensemble experience to complement work in larger format percussion ensemble; preparation and performance of most important repertoire for percussion ensemble; new works brought to light in a small chamber group setting. Requirements: upper-level undergraduate or graduate percussion major.

MUS:3160 Symphony Band/Concert Band 1 s.h.
Participation in Symphony Band or Concert Band. Requirements: (for concert band) membership by audition.

MUS:3162 All University Steel Band 1-3 s.h.
Musical and cultural introduction to steel band music of Trinidad and other Caribbean musical styles, including calypso, soca, ska, and reggae.

MUS:3163 Iowa Steel Band 1 s.h.
Small group steel band experience for more advanced players with experience playing steel pans.

MUS:3170 Kantorei 1 s.h.

MUS:3172 Camerata Singers 1 s.h.

MUS:3174 University Choir 1 s.h.

MUS:3180 Orchestra 1 s.h.

MUS:3182 Chamber Orchestra 1 s.h.
Requirements: upper-level undergraduate standing.

MUS:3190 Center for New Music Ensemble 1 s.h.
Participation in the Center for New Music; focus on contemporary composition and performance, 20th- and 21st-century repertoire and styles.

MUS:3230 Composition Seminar 1 s.h.
Corequisites: MUS:2220 and MUS:5220.

MUS:3280 Spectral Nature of Sound: Acoustics, Analysis, and Resynthesis 3 s.h.
Fourier, fast Fourier transform (FFT), and inverse FFT, including spectral analysis and processing in Max; for composers, performers, and music theorists interested in the nature of sounds and their manipulation.

MUS:3285 New Musical Instruments: From Design to Performance 3 s.h.
Acoustic principles of selected traditional instruments (e.g., winds, strings, percussion) as well as principles of electroacoustic sound production (e.g., analog synthesizers, microphones, transducers); students work in teams to build, test, and improve their own musical instrument and experiment with its playing modes; projects may include inharmonic variations upon classical instruments, musical bots, guitar or voice-processing pedals, transducer-driven DIY Gamelans, and more; for composers, performers, engineers, and sound enthusiasts who want to design, build, and/or perform with new musical instruments. GE: Engineering Be Creative. Same as DIGA:3285.

MUS:3400 Methods of Teaching Piano 2 s.h.
Methods, materials, and teaching techniques for preschool students, precollege students, and adult learners. Requirements: keyboard major.

MUS:3410 Fundamentals of Piano Technology 1 s.h.
Offered spring semesters. Requirements: music major.

MUS:3480 Piano Accompaniment 1 s.h.
Collaborative arts techniques, methods, and history.

MUS:3481 Piano Chamber Music 1-2 s.h.
Requirements: music major.

MUS:3482 String Chamber Music 1-2 s.h.

MUS:3483 Baroque Seminar for Strings 1 s.h.
Introduction to Baroque performance practices and techniques on period string instruments; ensembles. Requirements: enrollment in upper-level or graduate-level applied studies.

MUS:3485 Wind Chamber Music 1-2 s.h.
Preparation, performance of representative literature; sections for woodwinds, brass, flute, clarinet, horn, saxophone, double reed, trumpet, trombone, brass choir, tuba/euphonium ensemble.

MUS:3489 Chamber Music Residency Program 1-2 s.h.
Focused exploration of chamber music literature through small ensemble experiences; students are assigned a group to work with and groups rehearse independently a minimum of two hours per week; weekly one-hour coaching with a faculty member; attendance at weekly seminars; opportunity to explore the national chamber music scene and learn about various aspects of pursuing a chamber music career through interactions with faculty, guest lecturers, and master classes provided by visiting performers of the UI String Quartet Residency Program.

MUS:3500 Opera Workshop 2 s.h.
Opera performing techniques, including acting, aria interpretation, scene work. Requirements: vocal major or audition.

MUS:3501 Opera Theater Chorus 1 s.h.
Requirements: audition.

MUS:3502 Opera Production 2-4 s.h.
Preparation and rehearsals leading up to performance of full production; may include one-act opera, chamber opera, musical theater production, or full-length opera. Corequisites: MUS:3503. Requirements: audition.

MUS:3503 Vocal/Operatic Coaching 1 s.h.
Professional-level vocal coaching in preparation for opera productions, opera workshop, degree recitals. Corequisites: MUS:3502.

MUS:3510 Discovering Art Song 1 s.h.
Schubert, Schumann, Brahms, Wolf, Strauss, Mahler; appropriate diction, style. Prerequisites: MUS:1510 and MUS:2510.

MUS:3511 Discovering Opera 1 s.h.
Art songs in English, French, Italian, Spanish; appropriate diction, style. Prerequisites: MUS:1510 and MUS:2510.

MUS:3530 Musical Theatre Workshop 2 s.h.
Development of musical theatre performance skills through participation; students learn how to project intentions, attitudes, and personality traits of characters they portray; fundamentals of stagecraft, acting, movement, relaxation, and concentration; accurate musical coaching, including clear diction and solidly built dramatic musical interpretation. Same as THTR:3530.

MUS:3600 Undergraduate Music Education Workshop 1 s.h.
Topics vary; for inservice music teachers.

MUS:3601 Undergraduate Music Education Workshop II 1 s.h.
Topics vary; for inservice music teachers.

MUS:3605 Instrumental Techniques 2 s.h.
Same as EDTL:3605.

MUS:3625 Techniques of Conducting 2 s.h.
Basic elements, score analysis. Prerequisites: MUS:1201 and MUS:1202.

MUS:3635 Instrumental Conducting 3 s.h.
Advanced skills for instrumental conducting, score analysis, rehearsal techniques, literature selection. Prerequisites: MUS:3625. Same as EDTL:3635.

MUS:3640 Choral Methods 3 s.h.
Organization, implementation of effective choral music programs for all ages. Prerequisites: EDTL:3610. Same as EDTL:3640.

MUS:3645 Choral Conducting and Literature 3 s.h.
Advanced skills appropriate to choral conducting, analysis, literature selection studied and implemented to develop a secure approach to choral art; students preparing to teach in the elementary or secondary schools must register under EDTL:3645. Prerequisites: MUS:3625. Same as EDTL:3645.

MUS:3650 Instrumental Methods and Materials 3 s.h.
Elementary and secondary instrumental music methods course required for K-12 music teacher certification. Prerequisites: EDTL:3610. Same as EDTL:3650.

MUS:3659 Class Strings 1 s.h.
String playing and basic principles of string pedagogy; for band and string students. Offered fall semesters for band; offered fall and spring semesters for string. Requirements: teacher education student in music.

MUS:3664 Introduction to Wind and Percussion Instruments 2 s.h.
Survey of wind and percussion instruments; for music education string majors.

MUS:3665 Arranging for Band 2-3 s.h.
Scoring and arranging techniques for concert, marching bands.

MUS:3666 Marching Band Techniques 1 s.h.
Administration, show design. Offered fall semesters.

MUS:3675 Music Therapy Practicum 1-2 s.h.
Supervised clinical training with adult clients and children in variety of health care and educational settings. Prerequisites: MUS:1687. Requirements: music therapy major.

MUS:3676 Percussion Experience for Teachers and Therapists 1 s.h.
Hands-on learning experiences in percussion techniques used by music teachers, special education teachers, music therapists, or social workers; basics of hand drumming centering on West African djembe and Trinidadian steel band; skills necessary for interacting with students and clients in educational and clinical settings.

MUS:3680 Music in Special Education 3 s.h.
Music methods and materials appropriate for students with disabilities in special educational settings; overview of individualized educational planning for students with disabilities. Requirements: music therapy or music education major.

MUS:3690 Music Therapy With Adults 3 s.h.
Techniques, procedures for work with adult clients with disabilities. Prerequisites: MUS:1687. Requirements: music therapy major.

MUS:3710 Intermediate Jazz Improvisation 2 s.h.
Improvisation in the jazz repertoire of standards, bebop, and major composers such as Thelonious Monk, Wayne Shorter; memorization and use of melodies, knowledge of chords to the thirteenth, chromatic harmony, development of rhythmic motifs/alteration, strategies for multiple chorus improvisations; separate section for drummers. Prerequisites: MUS:3001. Requirements: audition.

MUS:3730 Jazz Band 1 s.h.
Jazz performance ensembles, rehearsals, and concerts on and off campus.

MUS:3740 Small Jazz Ensembles 1 s.h.
Development of repertoire from standard jazz literature, arrangements and compositions by ensemble members; rehearsals (three hours per week) and performances on and off campus. Requirements: audition.

MUS:3760 Jazz Band Techniques 1 s.h.
Development of skills for sight-reading and interpreting notated jazz. Prerequisites: MUS:1711.

MUS:3780 Audio Recording I 3 s.h.
Introduction to audio fundamentals, including basic acoustics and audio systems; survey of important equipment and practices, use of microphones and mixers; introduction to AVID's Pro Tools digital audio workstation; students with no background in audio production brought up to an operational proficiency level with basic recording systems; related technical topics develop an understanding of common equipment and conventional application in modern recording studio setting; recording techniques used in MUS:3781.

MUS:3781 Audio Recording II 3 s.h.
Survey of Pro Tools; fundamental digital audio concepts applied to hands-on music recording and postproduction projects on digital audio workstations; Pro Tools 101 content with supplementary readings and recording sessions; operational knowledge of Pro Tools software and hardware configurations; basic processes of software-based digital audio recording through recording sessions and sample projects; development of functional understanding of postproduction concepts. Prerequisites: MUS:3780.

MUS:3800 Reed Class 1 s.h.
Development of reed-making skills; focus on steps to complete reeds from tube cane to a finished reed; different ways of reed making; practical, pedagogical, and historical approaches; producing various reed styles. Requirements: music major.

MUS:3830 Wind Instrument Maintenance and Repair 1 s.h.
Principles of maintenance, repair, and adjustment of wind instruments; hands-on experience including mechanical instruction on all brass and woodwind instruments; how to perform minor and emergency repairs on wind instruments, demonstration of tools and supplies needed to perform repairs and musical instrument maintenance.

MUS:3851 Introduction to the Alexander Technique 3 s.h.
The Alexander Technique and "self-use"—how movement choices affect results achieved; improvement of physical skills and presence; principles in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting); application to skills in daily life, addressing underpinnings of movement; physical participation (e.g., lying down, rolling, sitting, standing, locomotion). Same as DANC:3851.

MUS:3990 Undergraduate Special Studies 0-4 s.h.

MUS:4200 Counterpoint Before 1600 3 s.h.
Two- and three-part counterpoint; Renaissance polyphony. Requirements: MUS:2203 for undergraduates; MUS:5200 for graduate students or exemption by Graduate Advisory Exam.

MUS:4201 Counterpoint After 1600 3 s.h.
Survey of contrapuntal and textural techniques from 1600 to the present. Requirements: MUS:2204 for undergraduates; MUS:5200 or exemption on Graduate Advisory Exam for graduate students.

MUS:4210 Keyboard Harmony 1-2 s.h.
Melody harmonization and figured-bass realization at the keyboard. Requirements: MUS:2204 for undergraduates; MUS:5200 or exemption by Graduate Advisory Exam for graduate students; and keyboard proficiency for all students.

MUS:4220 Orchestration 3 s.h.
Instrumental capabilities and combinations in solo, chamber, and large ensemble literature; application in composition.

MUS:4290 Music Theory Colloquium 1 s.h.

MUS:4320 Music and Gender 3 s.h.
Roles that gender has played in shaping the history of musical performance and composition.

MUS:4325 Medieval and Renaissance Music 3 s.h.

MUS:4330 Baroque Music 3 s.h.

MUS:4335 Eighteenth-Century Music 3 s.h.

MUS:4340 Nineteenth-Century Music 3 s.h.

MUS:4345 Twentieth-Century Music 3 s.h.

MUS:4350 Advanced Jazz History 3 s.h.
Survey and examination of the history of jazz from early 20th century to present; placement of musical conventions, influential performers, and aesthetic shifts that have shaped the history of jazz music in social, cultural, and technological context; prior musical background not required.

MUS:4355 American Music 3 s.h.
Who defines American music? In what ways do musicians, audiences, conductors, critics, and historians in the United States work to shape (and reshape) the country's musical identity? Students examine a variety of performers, works, and events in the history of American music that help ask and answer these questions in different ways; special attention given to analytical skills required to think critically about the different voices empowered to shape public understanding(s) of our musical past.

MUS:4360 Jazz Matters 3 s.h.
Students cover a variety of historic jazz scenes (e.g., New Orleans, New York, Chicago) and investigate the reciprocal relationship between music and place as it pertains to the history of jazz; through listening, analysis, and primary source research, students work to understand select case studies as influential musical environments, charting the ways American cities have historically supported jazz and jazz musicians; examination of a broad range of musical media (e.g., film soundtracks, musicals, cartoon depictions) to uncover the ways prominent "jazz cities" have been imagined, shaped, and reshaped by adjacent ideas about race, gender, and nationhood.

MUS:4390 Musicology Colloquium 1 s.h.

MUS:4450 Organ Literature Survey 2 s.h.
Fifteenth century to present. Requirements: advanced undergraduate or graduate standing.

MUS:4452 Liturgics 2 s.h.
History of liturgies and survey of liturgical music from Judaism to present.

MUS:4454 Service Playing and Improvisation 2 s.h.
Hymn playing, accompanying, basic improvisation techniques. Requirements: organ major.

MUS:4610 Studies in Film and Music 3 s.h.
Critical approaches to historical and contemporary interrelationships between film and music; soundtracks and film scores; popular song and cinema. Prerequisites: CINE:1601 with a minimum grade of C or CINE:1602 with a minimum grade of C. Same as CINE:4610.

MUS:4630 Psychology of Music 2-3 s.h.
Cognition of music, affective response, aesthetic response, musical ability. Same as EDTL:4630.

MUS:4670 Internship in Music Therapy arr.
Clinical training under direction of board certified music therapist. Requirements: core music therapy requirements.

MUS:4675 Senior Project in Music Therapy 1 s.h.

MUS:4685 Music Therapy With Children 3 s.h.
Techniques, procedures for use in clinical, educational settings. Prerequisites: MUS:1687. Requirements: music therapy major.

MUS:4730 Jazz Theory 3 s.h.
Development of skills needed for interpreting jazz melodies, chord symbols, comprehension of jazz song forms, and analysis of jazz-specific harmony in mainstream jazz music; practical application of jazz scales and reharmonization techniques; contains a practical application component on student's instrument of specialty. Requirements: MUS:1201.

MUS:4750 Transcription 2 s.h.
Individual projects to transcribe improvisations, small ensemble arrangements, large ensemble arrangements, or nonwestern techniques; use of computer notation programs and midi-realizations. Prerequisites: MUS:3710 and MUS:4730.

MUS:4760 Jazz Composition and Arranging 2 s.h.
Experience writing and arranging original jazz material for small and large ensembles, and presenting scores in computer notation; individual lessons. Prerequisites: MUS:4730.

MUS:4761 Advanced Jazz Composition and Arranging 2 s.h.
Continuation of MUS:4760; opportunity for further study and work in the practical application of composition and arranging skills; one-on-one lessons focus on areas of composition that best suit student's desired type, style, and/or instrumentation of creative output; areas may include writing for big band, strings, styles beyond typical jazz, or composing original repertoire. Prerequisites: MUS:4760.

MUS:4800 Special Topics in Music 1-3 s.h.
Topics vary.

MUS:4850 Music Industry Foundation I 2 s.h.
Students will learn about the business of music by exploring career paths, inspiring music entrepreneurship, and establishing professional decorum and documents.

MUS:4851 Music Industry Foundation II 2 s.h.
Students will learn about the business of music by advancing successful interview/audition practices, developing audience engagement, and fostering 21st-century career success.

MUS:4900 Senior Recital 1 s.h.

MUS:4910 Bachelor's Thesis 0-1 s.h.

MUS:4995 Honors in Music 1-4 s.h.
Requirements: honors standing.

MUS:5101 Advanced Woodwind Pedagogy and Literature I 2 s.h.
Saxophone and clarinet solo and study literature; integration of pedagogical topics.

MUS:5102 Advanced Woodwind Pedagogy and Literature II 3 s.h.
Oboe, bassoon, and flute solo and study literature; integration of pedagogical topics.

MUS:5111 Advanced Brass Pedagogy and Literature I 2 s.h.
Tuba, euphonium, and trombone literature; pedagogical topics.

MUS:5112 Advanced Brass Pedagogy and Literature II 2 s.h.
Trumpet and horn literature; pedagogical topics.

MUS:5115 Advanced Brass Ensemble Literature 2 s.h.
Brass chamber music literature, including mixed and like-instrument ensembles.

MUS:5121 Advanced String Methods and Literature I 2 s.h.
Violin, viola, cello, and double bass solo and chamber music repertoire, pedagogical methods.

MUS:5122 Advanced String Methods and Literature II 2 s.h.
Violin, viola, cello, and double bass solo and chamber music repertoire, pedagogical methods.

MUS:5130 Advanced Percussion Pedagogy and Literature 2 s.h.
Percussion literature, styles, notation, performance techniques, composition; survey.

MUS:5200 Review of Undergraduate Theory 3 s.h.
Theories and strategies of analysis applied to tonal and post-tonal music.

MUS:5220 Advanced Composition 1-2 s.h.
Corequisites: MUS:3230.

MUS:5235 Tonal Analysis 3 s.h.
Requirements: MUS:5200 or exemption on Graduate Advisory Exam.

MUS:5236 Non-Tonal Analysis 3 s.h.
Requirements: MUS:5200 or exemption on Graduate Advisory Examination.

MUS:5237 Analysis of Popular Music 3 s.h.
Survey; analysis of popular music. Prerequisites: MUS:5200.

MUS:5240 Special Topics in Theory and Analysis 3 s.h.
Requirements: MUS:5200 or exemption on Graduate Advisory Exam for graduate students.

MUS:5300 Introduction to Graduate Study in Music 3 s.h.
Music library; reference materials; bibliography; research problems, methods; writing research papers.

MUS:5400 Piano Pedagogy I 2 s.h.
In-depth study of techniques and materials needed to teach intermediate and advanced piano students; judging competitions; conducting master classes; writing curriculum vitaes and cover letters in preparation for academic job searches.

MUS:5401 Piano Pedagogy II 2 s.h.
History of the piano and its technique and pedagogy; national schools of piano playing; relationship of technological changes in piano construction to piano technique, pedagogy, and composition; major methods and treatises, historical recordings and video clips; research leading to understanding of students' individual piano lineage.

MUS:5410 Piano Literature I 2 s.h.
Baroque era to Mozart or Chopin through 1900.

MUS:5411 Piano Literature II 2 s.h.
Beethoven through Schumann or 20th century.

MUS:5420 Collaborative Piano Literature I: Strings 2-3 s.h.
Study of repertoire written for strings (violin, viola, cello, double bass) and piano. Standard literature includes duos, sonatas, showpieces, and orchestral reductions. Familiarizes students with standard repertoire written for strings and piano, ranging from duo/sonatas to concerti/pieces with orchestral reductions. Provides students with a well-rounded comprehension of collaborative piano repertoire. Students sharpen listening and analytical skills that can be applied to learning pieces outside of the traditional canon.

MUS:5421 Collaborative Piano Literature II: Woodwinds and Brass 2-3 s.h.
Study of repertoire written for woodwinds (flute, oboe, clarinet, bassoon, saxophone) and piano, as well as brass (trumpet, horn, trombone, euphonium/tuba) and piano. Standard literature includes duos, sonatas, short pieces, and orchestral reductions. Provides students with a well-rounded comprehension of collaborative piano repertoire. Students sharpen listening and analytical skills that can be applied to learning pieces outside of the traditional canon.

MUS:5450 History of Organ Building and Design 2-3 s.h.
Development of organ design from Middle Ages to present; basic concepts of construction, maintenance.

MUS:5452 Organ Pedagogy 2 s.h.
History, theory, practice from Renaissance to present; methods, literature appropriate for various levels.

MUS:5475 Organ Literature Special Topics 2 s.h.
Specialized study in selected areas of organ literature.

MUS:5480 Introduction to Chamber Music Entrepreneurship 2 s.h.
Exploration of ways to create, coordinate, sustain, and cultivate chamber music; discussions, readings, guest presentations, individual reflections, and maintenance of regular creative practice; students are encouraged to register as a chamber ensemble; performance and collaboration skills; communication and promotion strategies; teaching artistry; community and social engagement; grant writing; nonprofit funding; programming; commissioning; best practices for partnering with external organization; examination of a range of models; individual or group project.

MUS:5510 Graduate Diction 2 s.h.
Advanced pronunciation of singing languages. Requirements: grade of B or higher in undergraduate diction in French, German, and Italian.

MUS:5525 Principles of Voice Production 3 s.h.
Basic physical, physiological, and pedagogical principles required to understand professional, nonprofessional, and impaired voice production. Topics include vocal anatomy, vocal health, voice changes across the lifespan, voice classification, control of loudness, pitch, register, quality, respiration, phonation, resolution, and articulation, as well as efficient and inefficient use of both the singing and speaking voice. Same as CSD:5525.

MUS:5555 Voice Habilitation 2 s.h.
Application of methods of intervention in development, training, rehabilitation of vocal behavior; motor learning, efficacy of treatment strategies, factors affecting compliance with recommended therapy. Offered fall semesters. Prerequisites: CSD:3112 and CSD:5114. Same as CSD:5213.

MUS:5600 Graduate Music Education Workshop 1 s.h.
For inservice music teachers; topics vary. Same as EDTL:5600.

MUS:5601 Graduate Music Education Workshop II 1 s.h.
Varied topics; for inservice music teachers. Same as EDTL:5601.

MUS:5800 Interactive Music 3 s.h.
Integration of art and music with technology, providing a foundation of skills and concepts through hands-on experimentation and creation; lectures and demonstrations; introduction to key concepts and ideas about the history of digital arts; programming audio and visual interactive art; students work on a creative final project and public presentation.

MUS:5820 Electronic Music Production 3 s.h.
Improvement of listening skills through regular critical study of recorded music in a variety of styles; weekly creative challenges to gain new skills working with MIDI instruments, samples, and student's own recorded audio; introduction to elements of mixing (e.g., balance, frequency range, space); creation and public presentation of a final personal project; hands-on course; for students with some experience using computers to make music. Requirements: previously created production with minimum duration of one minute, in any style.

MUS:5990 Graduate Special Studies 0-4 s.h.
Graduate study with a specific School of Music faculty member on a topic that is not currently offered or to expand knowledge beyond what is in an offered course.

MUS:6020 Major Voice 2 s.h.

MUS:6021 Major Piano 2 s.h.

MUS:6022 Major Organ 2 s.h.

MUS:6023 Major Violin 2 s.h.

MUS:6024 Major Viola **2 s.h.**

MUS:6025 Major Cello **2 s.h.**

MUS:6026 Major String Bass **2 s.h.**

MUS:6027 Major Flute **2 s.h.**

MUS:6028 Major Oboe **2 s.h.**

MUS:6029 Major Clarinet **2 s.h.**

MUS:6030 Major Bassoon **2 s.h.**

MUS:6031 Major Saxophone **2 s.h.**

MUS:6032 Major Horn **2 s.h.**

MUS:6033 Major Trumpet **2 s.h.**

MUS:6034 Major Trombone **2 s.h.**

MUS:6035 Major Euphonium **2 s.h.**

MUS:6036 Major Tuba **2 s.h.**

MUS:6037 Major Percussion **2 s.h.**

MUS:6038 Major Jazz **2 s.h.**
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:6120 Graduate Secondary Performance - Voice **1 s.h.**

MUS:6121 Graduate Secondary Performance - Piano **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6122 Graduate Secondary Performance - Organ **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6123 Graduate Secondary Performance - Violin **1 s.h.**

MUS:6124 Graduate Secondary Performance - Viola **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6125 Graduate Secondary Performance - Cello **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6126 Graduate Secondary Performance - String Bass **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6127 Graduate Secondary Performance - Flute **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6128 Graduate Secondary Performance - Oboe **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6129 Graduate Secondary Performance - Clarinet **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6130 Graduate Secondary Performance - Bassoon **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6131 Graduate Secondary Performance - Saxophone **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6132 Graduate Secondary Performance - Horn **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6133 Graduate Secondary Performance - Trumpet **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6134 Graduate Secondary Performance - Trombone **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6135 Graduate Secondary Performance - Euphonium **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6136 Graduate Secondary Performance - Tuba **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6137 Graduate Secondary Performance - Percussion **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6138 Graduate Secondary Performance - Jazz **1 s.h.**
Required seminar and lessons to be arranged. Requirements: music major.

MUS:6139 Graduate Secondary Performance - Composition **1 s.h.**
Individual lessons; for non-composition music majors. Requirements: music major.

MUS:6211 Theoretical Approaches to Music **3 s.h.**
Survey of theoretical approaches to music; development of an exomusicological conception of music (i.e., music throughout intergalactic space); students contextualize and critique current theoretical approaches in terms of this framework, and engage with these approaches through independent scholarship or creative work to deepen connection with certain forms of music or musicians and become more confident, capable, and savvy in musical explorations. Requirements: MUS:5200 or exemption by Graduate Advisory Exam.

MUS:6215 Music Theory Pedagogy **3 s.h.**
Methods and techniques of teaching college-level music theory, including harmony, sight singing, ear training. Requirements: MUS:5200 or exemption by Graduate Advisory Exam.

MUS:6305 Teaching Music History and Culture **3 s.h.**
Preparation for teaching music history and culture including course design, syllabi preparation, classroom strategies, and current pedagogical issues.

MUS:6310 Topics in Musicology **3 s.h.**
One or more selected areas of music history.

MUS:6312 Historical Approaches to Music 3 s.h.
Research techniques, methodologies, and contemporary issues of historical musicology.

MUS:6314 Topics in Ethnomusicology 3 s.h.
Perspectives on analysis and representation of selected musical cultures from around the world.

MUS:6315 Foundations of Ethnomusicology 3 s.h.
Ethnomusicology in relation to domains of musical, humanistic, social science scholarship on expressive culture and artistic processes. Requirements: senior standing.

MUS:6326 Renaissance Music Notations 3 s.h.
Renaissance white notation, keyboard tablatures, musical paleography; transcription of early vocal, instrumental notations; editorial problems. Requirements: exemption by Graduate Advisory Exam.

MUS:6375 Music Editing 3 s.h.
Principles and methods of music editing; use of primary source materials, establishment of music text, preparation of critical apparatus; project to prepare a critical edition of music for publication.

MUS:6520 Voice Pedagogy 3 s.h.
History of voice pedagogy, various pedagogical techniques of voice training, vocal anatomy, voice classification, critical listening, postural alignment, managing breath, tonal production, connecting registers, articulation, interpretation, vocal health, pharmacological effects on the voice, vocal gadgets, requirements for a professional career, teaching in the 21st century, and teaching practicum; diagnosis and correction of vocal faults. Same as CSD:6202.

MUS:6530 Topics in Vocal Performance 2 s.h.
Selected areas of vocal performance.

MUS:6535 Opera Theater Directing Seminar 3 s.h.
Exploration, discussion, and experience using techniques unique to directing opera. Score and libretto analysis, fundamentals of stagecraft, casting and management skills.

MUS:6540 Survey of Operatic Literature 3 s.h.
Important operatic scores examined from standpoint of performers, directors; production problems.

MUS:6541 Survey of Song Literature I 3 s.h.
German language lieder from 18th century to present; French mélodie from Meyerbeer to present. Offered fall semesters of odd years.

MUS:6542 Survey of Song Literature II 3 s.h.
British, American, Italian, Spanish, Latin American, Scandinavian, and Russian art song from 18th century to present. Offered fall semesters of even years.

MUS:6561 Seminar: Choral Literature and Analysis I 1-3 s.h.
Choral music of the Renaissance. Corequisites: MUS:6581.

MUS:6562 Seminar: Choral Literature and Analysis II 1-3 s.h.
Choral music of the Baroque era. Corequisites: MUS:6582.

MUS:6563 Seminar: Choral Literature and Analysis III 1-3 s.h.
Choral music of the Classical and Romantic eras. Corequisites: MUS:6583.

MUS:6564 Seminar: Choral Literature and Analysis IV 1-3 s.h.
Choral music of the 20th and 21st centuries. Corequisites: MUS:6584.

MUS:6579 Orchestral Conducting Lab 2 s.h.
Introduce, improve, and refine gestural skills, emphasizing score analysis; class discussions and laboratory orchestra experiences.

MUS:6580 Advanced Orchestral Conducting 2 s.h.

MUS:6581 Advanced Choral Conducting I 1-3 s.h.
Music of the Renaissance. Corequisites: MUS:6561.

MUS:6582 Advanced Choral Conducting II 1-3 s.h.
Music of the Baroque era. Corequisites: MUS:6562.

MUS:6583 Advanced Choral Conducting III 1-3 s.h.
Music of the Classical and Romantic eras. Corequisites: MUS:6563.

MUS:6584 Advanced Choral Conducting IV 1-3 s.h.
Music of the 20th and 21st centuries. Corequisites: MUS:6564.

MUS:6585 Score Reading 1 s.h.

MUS:6586 Advanced Orchestral Literature and Professional Development 2 s.h.

MUS:6589 Advanced Wind Conducting 1-2 s.h.
Advanced conducting technique, score study, and literature as related to symphonic band and chamber wind ensembles.

MUS:6590 Seminar in Advanced Band Literature and Band History 2 s.h.
Band literature; history.

MUS:6670 Graduate Music Therapy Practicum 1-3 s.h.
Seminar, clinical fieldwork. Requirements: undergraduate music therapy practicum.

MUS:6675 Research in Music Therapy - Graduate 1 s.h.
Research methodology; foundation for subsequent semesters of research on capstone project in music therapy.

MUS:6680 College Teaching and Clinic Supervision in Music Therapy 1-2 s.h.
Principles of college teaching, curriculum development, clinical supervision in music therapy.

MUS:6685 Theory and Research in Music Therapy 1 s.h.
Historical background, current principles and practices associated with theories of music therapy, common uses with specific populations; research methodologies associated with testing; theories and clinical practices, assigned research publications; information covered over several semesters with each semester covering three to four common theories; seminar includes strengths and limitations of each theory and its place within clinical practice. Requirements: undergraduate core courses in music therapy.

MUS:6690 Special Studies in Music Therapy 1-3 s.h.
Seminar. Requirements: music therapy or music education graduate standing.

MUS:6900 MA Recital 1-2 s.h.

MUS:6920 MA Performance Project 1-2 s.h.

MUS:6950 MA Thesis 1-3 s.h.

MUS:7140 Seminar in Music Research 2 s.h.
Builds on skills learned in MUS:5300; exploration of research methodologies necessary to initiate selection of a thesis research topic and preparation of a proposal for the DMA thesis; class time devoted to student preparation for the profession including application and interviewing for academic positions, development of a research plan, and other topics related to career development. Prerequisites: MUS:5300. Requirements: third semester graduate standing and pass qualifying recital.

MUS:7380 Readings in Music History 1-3 s.h.

MUS:7401 Special Studies in Piano Accompaniment and Chamber Music **1-2 s.h.**
Advanced collaborative arts practicum.

MUS:7899 DMA Qualifying Recital **0 s.h.**
Preparation and work towards a qualifying recital presented to a full doctoral recital committee of five members by the end of the second semester of registration (excluding summer session); in the event a qualifying recital is unacceptable, one additional recital with different repertoire may be given at the discretion of the examining committee.

MUS:7900 DMA Recital **1-2 s.h.**

MUS:7950 PhD Thesis **1-4 s.h.**

MUS:7960 Composition PhD Thesis **1-4 s.h.**

MUS:7970 DMA Essay and Thesis **1-4 s.h.**

Music, BA

The Bachelor of Arts with a major in music is intended for undergraduates who have a strong background in music, and who wish to major in music as part of a broad liberal arts education irrespective of specific career aspirations. The curriculum includes musicianship, performance, and electives.

The program is designed for students who have solid abilities and interest in music but are not necessarily planning on careers as musicians, or for those who wish to pursue a double major or earn more than one bachelor's degree. Students must audition and be accepted into a performance area. They develop musicianship and performance skills, and they select from a wide variety of music electives.

Students in many areas, from engineering and physics to history, art, and English, find that a BA in music is a good addition to their studies. Other students pursue the degree to complement coursework in business (especially the minor in business administration), a STEM field, a world language or literature program, or an interdisciplinary field. Some students combine their BA with undergraduate preparation to study law or medicine.

Learning Outcomes

Graduates of the BA program in music will be able to:

- demonstrate the ability to hear, identify, and work conceptually with the rhythmic, melodic, harmonic, and structural elements of music;
- identify compositional processes, aesthetic properties of style, and artistic and cultural forces in music;
- demonstrate a broad acquaintance with music literature, musical genres, and cultural sources;
- demonstrate the ability to read and write critically about music; and
- demonstrate the ability to sight read, prepare for performance, interpret, and perform both solo and ensemble music in a variety of musical styles.

Requirements

The Bachelor of Arts with a major in music requires a minimum of 120 s.h., including at least 42–54 s.h. of work for the major. Students must maintain a minimum grade-point average of 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Students must satisfy all graduation requirements. Contact the School of Music and the Academic Advising Center to learn more.

BA students majoring in music may count a maximum of 56 s.h. earned in music courses (prefix MUS) toward their degree. They must earn at least 64 s.h. in coursework outside of the School of Music in order to graduate. Specific circumstances may require a student to complete 57 s.h. of music coursework depending on their choice of track and placement in theory and piano. Only 56 of those semester hours would count toward the graduation requirement of 120 s.h.

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be admitted into a performance area through an audition. All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses.

Transfer students admitted to the School of Music must complete a minimum of one year of applied music (lower or upper level) and one year of major ensemble at the University of Iowa in order to earn a degree in music. Transfer students who have not completed the equivalent of the four-semester sequence of Musicianship and Theory I–IV (MUS:1201, MUS:1202, MUS:2203, and MUS:2204) must complete an advisory theory diagnostic exam to determine recommendations for appropriate placement in the musicianship and theory sequence. Transfer students who have not completed the equivalent of two semesters of class piano or a piano proficiency exam must meet piano proficiency requirements at the University of Iowa.

All music majors with School of Music scholarships must participate in a major ensemble and studio lessons each semester.

Students who take a music course in one area may not use it to satisfy a music requirement in another area.

Students may choose to complete the BA with no track or choose from the following tracks: chamber music–piano, chamber music–strings/winds, jazz, music theory, musicology, and piano pedagogy.

- Major in Music Without Track [p. 827]
- Chamber Music [p. 828]– [p. 828]Piano Track [p. 828]
- Chamber Music [p. 829]– [p. 829]Strings/Winds Track [p. 829]
- Jazz Track [p. 830]
- Music Theory Track [p. 831]
- Musicology Track [p. 832]
- Piano Pedagogy Track [p. 833]

Major in Music Without Track

The Bachelor of Arts with a major in music without a track requires a minimum of 120 s.h., including at least 42 s.h. of work for the major.

The BA with a major in music without a track requires the following coursework:

Requirements	Hours
Musicianship Courses	16-18
Musicianship Electives	6
Performance (Applied Music/Ensembles)	14
Electives	6

Musicianship Courses

Students take a piano placement exam and may be exempt from one or both of these courses: MUS:1211 or MUS:1212.

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1
Two of these:		

MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

To register for MUS:1201 Musicianship and Theory I, students must also register for MUS:1211 Group Instruction in Piano I, have already completed that course, or be exempt based on the results of their proficiency exam. To register for MUS:1202 Musicianship and Theory II, students must also register for MUS:1212 Group Instruction in Piano II, have already completed that course, or be exempt based on the results of their proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempt based on the results of their proficiency exam.

Musicianship Electives

Course #	Title	Hours
6 s.h. from these:		
MUS:1310	World Music	3
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
MUS:3625	Techniques of Conducting	2
MUS:3665	Arranging for Band	2-3
MUS:4200	Counterpoint Before 1600	3
MUS:4350	Advanced Jazz History	3
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2

Performance (Applied Music/ Ensembles)

Major ensembles include MUS:1176 Voxman Chorale, MUS:3160 Symphony Band/Concert Band, MUS:3170 Kantorei, MUS:3172 Camerata Singers, MUS:3174 University Choir, and MUS:3180 Orchestra. With approval, students may use MUS:3730 Jazz Band to satisfy the major ensemble requirement. Any student who wishes to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the director for undergraduate studies.

Course #	Title	Hours
All of these:		
Lower-level applied music lessons		4
Major ensemble (minimum of four semesters)		4
Performance electives (lower- or upper-level applied music, ensembles, improvisation; a maximum of six semesters/12 s.h. in lower-level applied instruction is allowed)		6

Electives

Course #	Title	Hours
6 s.h. in music electives chosen from any music courses (prefix MUS) or from these recommended courses, except for music courses closed to music majors:		
ENTR:2000	Entrepreneurship and Innovation	3
ENTR:3200	Entrepreneurial Marketing	3
THTR:3510/ INTD:3510	Introduction to Arts Management	3

Tracks

Chamber Music–Piano Track

The Bachelor of Arts with a major in music with the chamber music–piano track requires a minimum of 120 s.h., including at least 54 s.h. of work for the major.

All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses. Entering students who do not have Advanced Placement (AP) or transfer credit should enroll in MUS:1201 and take Placement Exam A, administered online in the summer before the fall semester to determine readiness for the sequence. For further information, see Musicianship and Theory Placement on the School of Music website.

The BA with a major in music with the chamber music–piano track requires the following coursework.

Requirements	Hours
Musicianship Courses	16
Musicianship Electives	6
Performance (Applied Music/Ensembles)	18
Collaborative Piano Requirements	8
Electives	6

Chamber Music–Piano Track Musicianship Courses

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
Two of these:		
MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

Chamber Music–Piano Track Musicianship Electives

Course #	Title	Hours
6 s.h. from these:		
MUS:1310	World Music	3
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
MUS:3625	Techniques of Conducting	2
MUS:3665	Arranging for Band	2-3
MUS:4200	Counterpoint Before 1600	3
MUS:4350	Advanced Jazz History	3
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2

Chamber Music–Piano Track Performance (Applied Music/Ensembles)

Major ensembles include MUS:1176 Voxman Chorale, MUS:3160 Symphony Band/Concert Band, MUS:3170 Kantorei, MUS:3172 Camerata Singers, MUS:3174 University Choir, and MUS:3180 Orchestra. With approval, students may use MUS:3730 Jazz Band to satisfy the major ensemble requirement. Any student who wishes to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the director for undergraduate studies.

Course #	Title	Hours
All of these:		
Lower-level applied music lessons		4
Major ensemble (minimum of four semesters)		4
Performance electives (lower- or upper-level applied music, ensembles, improvisation; a maximum of six semesters of 12 s.h. in lower-level applied instruction is allowed)		6
4 s.h. from these (courses may be repeated):		
MUS:3481	Piano Chamber Music	1-2
MUS:3489	Chamber Music Residency Program	1-2

Collaborative Piano Requirements

Course #	Title	Hours
All of these:		
MUS:1510	Diction for Singers I	2
MUS:2510	Diction for Singers II	2
MUS:3480	Piano Accompaniment	1
MUS:3510	Discovering Art Song	1
MUS:3511	Discovering Opera	1
MUS:4900	Senior Recital (chamber music capstone project)	1

Chamber Music–Piano Track Electives

Course #	Title	Hours
6 s.h. in music electives chosen from any music courses (prefix MUS) or from these recommended courses, except for music courses closed to music majors:		
ENTR:2000	Entrepreneurship and Innovation	3
ENTR:3200	Entrepreneurial Marketing	3
THTR:3510/ INTD:3510	Introduction to Arts Management	3

Chamber Music–Strings/Winds Track

The Bachelor of Arts with a major in music with the chamber music–strings/winds track requires a minimum of 120 s.h., including at least 49 s.h. of work for the major.

The BA with a major in music with the chamber music–strings/winds track requires the following coursework.

Requirements	Hours
Musicianship Courses	16-18
Musicianship Electives	6
Performance (Applied Music/Ensembles)	14
Chamber Music Requirements	7
Electives	6

Chamber Music–Strings/Winds Track Musicianship Courses

Students take a piano placement exam which may exempt them from one or both of these courses: MUS:1211 or MUS:1212.

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1
Two of these:		
MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

To register for MUS:1201 Musicianship and Theory I, students must also register for MUS:1211 Group Instruction in Piano I, have already completed that course, or be exempt based on the results of their proficiency exam. To register for MUS:1202 Musicianship and Theory II, students must also register for MUS:1212 Group Instruction in Piano II, have already completed that course, or be exempt based on the results of their proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempt based on the results of their proficiency exam.

Chamber Music–Strings/Winds Track Musicianship Electives

Course #	Title	Hours
6 s.h. from these:		
MUS:1310	World Music	3
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
MUS:3625	Techniques of Conducting	2
MUS:3665	Arranging for Band	2-3
MUS:4200	Counterpoint Before 1600	3
MUS:4350	Advanced Jazz History	3
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2

Chamber Music–Strings/Winds Track Performance (Applied Music/Ensembles)

Major ensembles include MUS:1176 Voxman Chorale, MUS:3160 Symphony Band/Concert Band, MUS:3170 Kantorei, MUS:3172 Camerata Singers, MUS:3174 University Choir, and MUS:3180 Orchestra. With approval, students may use MUS:3730 Jazz Band to satisfy the major ensemble requirement. Any student who wishes to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the director for undergraduate studies.

Course #	Title	Hours
All of these:		
Lower-level applied music lessons		4
Major ensemble (minimum of four semesters)		4
Performance electives (lower- or upper-level applied music, ensembles, improvisation; a maximum of six semesters of 12 s.h. in lower-level applied instruction is allowed)		6

Chamber Music Requirements

Course #	Title	Hours
6 s.h. from these:		
MUS:3482	String Chamber Music (for string majors; repeatable)	1-2
MUS:3485	Wind Chamber Music (for wind majors; repeatable)	1-2
MUS:3489	Chamber Music Residency Program (repeatable)	1-2
And this course:		
MUS:4900	Senior Recital (for string and wind majors; chamber music capstone project)	1

Chamber Music–Strings/Winds Track Electives

Course #	Title	Hours
6 s.h. in music electives chosen from any music courses (prefix MUS) or from these recommended courses, except for music courses closed to music majors:		
ENTR:2000	Entrepreneurship and Innovation	3
ENTR:3200	Entrepreneurial Marketing	3
THTR:3510/ INTD:3510	Introduction to Arts Management	3

Jazz Track

The Bachelor of Arts with a major in music with the jazz track requires a minimum of 120 s.h., including at least 44 s.h. of work for the major.

The BA with a major in music with the jazz track requires the following coursework.

Requirements	Hours
Musicianship Courses	16-18
Performance (Applied Music/Ensembles)	14-15
Jazz Requirements	8
Electives	6

Jazz Track Musicianship Courses

Students take a piano placement exam which may exempt them from one or both of these courses: MUS:1211 or MUS:1212.

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1
Two of these:		
MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

To register for MUS:1201 Musicianship and Theory I, students must also register for MUS:1211 Group Instruction in Piano I, have already completed that course, or be exempt based on the results of their proficiency exam. To register for MUS:1202 Musicianship and Theory II, students must also register for MUS:1212 Group Instruction in Piano II, have already completed that course, or be exempt based on the results of their proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempt based on the results of their proficiency exam.

Jazz Track Performance (Applied Music/ Ensembles)

Course #	Title	Hours
All of these:		
MUS:2038	Lower Level Jazz (taken two times for 2 s.h. each)	4
MUS:3730	Jazz Band (taken four times for 1 s.h. each)	4
MUS:3740	Small Jazz Ensembles (taken two times for 1 s.h. each)	2
One of these sequences:		
MUS:3001 & MUS:3710	Introduction to Jazz Improvisation and Intermediate Jazz Improvisation	5
MUS:3710 & MUS:3038	Intermediate Jazz Improvisation and Upper Level Jazz	4

Jazz Requirements

Course #	Title	Hours
All of these:		
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2
MUS:4900	Senior Recital (jazz capstone project)	1

Jazz Track Electives

Course #	Title	Hours
6 s.h. in music electives chosen from any music courses (prefix MUS) or from these recommended courses, except for music courses closed to music majors:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
MUS:3730	Jazz Band (Latin jazz ensemble)	1
AFAM:1241/ MUS:1741	The Soundtrack of Black America	3
ENTR:2000	Entrepreneurship and Innovation	3
ENTR:3200	Entrepreneurial Marketing	3
THTR:3510/ INTD:3510	Introduction to Arts Management	3

Music Theory Track

The Bachelor of Arts with a major in music with the music theory track requires a minimum of 120 s.h., including at least 50 s.h. of work for the major.

The BA with a major in music with the music theory track requires the following coursework.

Requirements	Hours
Musicianship Courses	16-18
Performance (Applied Music/Ensembles)	8
Music Theory Requirements	11
Music Theory Electives	9
Electives	6

Music Theory Track Musicianship Courses

Students take a piano placement exam which may exempt them from one or both of these courses: MUS:1211 or MUS:1212.

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1
Two of these:		
MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

To register for MUS:1201 Musicianship and Theory I, students must also register for MUS:1211 Group Instruction in Piano I, have already completed that course, or be exempt based on the results of their proficiency exam. To register for MUS:1202 Musicianship and Theory II, students must also register for MUS:1212 Group Instruction in Piano II, have already completed that course, or be exempt based on the results of their proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempt based on the results of their proficiency exam.

Music Theory Track Performance (Applied Music/Ensembles)

Major ensembles include MUS:1176 Voxman Chorale, MUS:3160 Symphony Band/Concert Band, MUS:3170 Kantorei, MUS:3172 Camerata Singers, MUS:3174 University Choir, and MUS:3180 Orchestra. With approval, students may use MUS:3730 Jazz Band to satisfy the major ensemble requirement. Any student who wishes to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the director for undergraduate studies.

Course #	Title	Hours
All of these:		
Lower-level applied music lessons		4
Major ensemble (minimum of four semesters)		4

Music Theory Requirements

Course #	Title	Hours
All of these:		
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4

MUS:4290	Music Theory Colloquium (taken two semesters for 1 s.h. each)	2
MUS:4900	Senior Recital (music theory capstone project)	1

Music Theory Electives

Course #	Title	Hours
9 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:2220	Composition	1-2
MUS:3280	Spectral Nature of Sound: Acoustics, Analysis, and Resynthesis	3
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4730	Jazz Theory	3
MUS:4760	Jazz Composition and Arranging	2
MUS:5236	Non-Tonal Analysis	3
MUS:5240	Special Topics in Theory and Analysis	3

Additional Electives

Course #	Title	Hours
6 s.h. in music electives chosen from any music courses (prefix MUS) or from these recommended courses, except for music courses closed to music majors:		
MUS:1066	Introduction to Film Music	3
MUS:1303	Roots, Rock, and Rap: A History of Popular Music	3
MUS:1310	World Music	3
MUS:1800	World of the Beatles	3
MUS:2005	Issues in Popular Music: Women Who Rock	3
MUS:2206	Form and Analysis	3
MUS:2220	Composition	1-2
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3280	Spectral Nature of Sound: Acoustics, Analysis, and Resynthesis	3
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4320	Music and Gender	3
MUS:4325	Medieval and Renaissance Music	3
MUS:4330	Baroque Music	3
MUS:4335	Eighteenth-Century Music	3
MUS:4340	Nineteenth-Century Music	3
MUS:4345	Twentieth-Century Music	3
MUS:4350	Advanced Jazz History	3
MUS:4355	American Music	3
MUS:4360	Jazz Matters	3
MUS:4610/ CINE:4610	Studies in Film and Music	3
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2
MUS:5236	Non-Tonal Analysis	3
MUS:5240	Special Topics in Theory and Analysis	3

Musicology Track

The Bachelor of Arts with a major in music with the musicology track requires a minimum of 120 s.h., including at least 43 s.h. of work for the major.

The BA with a major in music with the musicology track requires the following coursework.

Requirements	Hours
Musicianship Courses	16-18
Performance (Applied Music/Ensembles)	8
Musicology Requirements	3
Musicology Electives	6
Electives	10

Musicology Track Musicianship Courses

Students take a piano placement exam which may exempt them from one or both of these courses: MUS:1211 or MUS:1212.

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
MUS:1211	Group Instruction in Piano I	1
MUS:1212	Group Instruction in Piano II	1
Two of these:		
MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

To register for MUS:1201 Musicianship and Theory I, students must also register for MUS:1211 Group Instruction in Piano I, have already completed that course, or be exempt based on the results of their proficiency exam. To register for MUS:1202 Musicianship and Theory II, students must also register for MUS:1212 Group Instruction in Piano II, have already completed that course, or be exempt based on the results of their proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempt based on the results of their proficiency exam.

Musicology Track Performance (Applied Music/Ensembles)

Major ensembles include MUS:1176 Voxman Chorale, MUS:3160 Symphony Band/Concert Band, MUS:3170 Kantorei, MUS:3172 Camerata Singers, MUS:3174 University Choir, and MUS:3180 Orchestra. With approval, students may use MUS:3730 Jazz Band to satisfy the major ensemble requirement. Any student who wishes to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the director for undergraduate studies.

Course #	Title	Hours
All of these:		
Lower-level applied music lessons		4
Major ensemble (minimum of four semesters)		4

Musicology Requirements

Course #	Title	Hours
Both of these:		
MUS:4390	Musicology Colloquium (taken two semesters for 1 s.h. each)	2
MUS:4900	Senior Recital (musicology capstone project)	1

Musicology Electives

Course #	Title	Hours
Two of these:		
MUS:4320	Music and Gender	3
MUS:4325	Medieval and Renaissance Music	3
MUS:4330	Baroque Music	3
MUS:4335	Eighteenth-Century Music	3
MUS:4340	Nineteenth-Century Music	3
MUS:4345	Twentieth-Century Music	3
MUS:4350	Advanced Jazz History	3
MUS:4355	American Music	3
MUS:4360	Jazz Matters	3
MUS:4610/ CINE:4610	Studies in Film and Music	3

Musicology Track Additional Electives

Course #	Title	Hours
10 s.h. in music electives chosen from any music courses (prefix MUS) or from these recommended courses, except for music courses closed to music majors:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1066	Introduction to Film Music	3
MUS:1303	Roots, Rock, and Rap: A History of Popular Music	3
MUS:1310	World Music	3
MUS:1800	World of the Beatles	3
MUS:2005	Issues in Popular Music: Women Who Rock	3

MUS:2204	Musicianship and Theory IV	4
MUS:2220	Composition	1-2
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
MUS:3625	Techniques of Conducting	2
MUS:3665	Arranging for Band	2-3
MUS:4200	Counterpoint Before 1600	3
MUS:4320	Music and Gender	3
MUS:4325	Medieval and Renaissance Music	3
MUS:4330	Baroque Music	3
MUS:4335	Eighteenth-Century Music	3
MUS:4340	Nineteenth-Century Music	3
MUS:4345	Twentieth-Century Music	3
MUS:4350	Advanced Jazz History	3
MUS:4355	American Music	3
MUS:4360	Jazz Matters	3
MUS:4610/ CINE:4610	Studies in Film and Music	3
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2

Piano Pedagogy Track

The Bachelor of Arts with a major in music with the piano pedagogy track requires a minimum of 120 s.h., including at least 49 s.h. of work for the major.

All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses. Entering students who do not have Advanced Placement (AP) or transfer credit should enroll in MUS:1201 and take Placement Exam A, administered online in the summer before the start of the fall semester, to determine readiness for the sequence. For further information, see Musicianship and Theory Placement on the School of Music website.

The BA with a major in music with the piano pedagogy track requires the following coursework:

Requirements	Hours
Musicianship Courses	16
Musicianship Electives	6
Performance (Applied Music/Ensembles)	14
Piano Pedagogy Requirements	7
Electives	6

Piano Pedagogy Track Musicianship Courses

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1210	Recital Attendance (taken two semesters for 1 s.h. each)	2
Two of these:		

MUS:2301	History of Western Music I (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:2302	History of Western Music II (also can be used to satisfy a GE CLAS Core requirement)	3
MUS:4350	Advanced Jazz History	3

Piano Pedagogy Track Musicianship Electives

Course #	Title	Hours
6 s.h. from these:		
MUS:1310	World Music	3
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
MUS:3625	Techniques of Conducting	2
MUS:3665	Arranging for Band	2-3
MUS:4200	Counterpoint Before 1600	3
MUS:4350	Advanced Jazz History	3
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2

Piano Pedagogy Track Performance (Applied Music/Ensembles)

Major ensembles include MUS:1176 Voxman Chorale, MUS:3160 Symphony Band/Concert Band, MUS:3170 Kantorei, MUS:3172 Camerata Singers, MUS:3174 University Choir, and MUS:3180 Orchestra. With approval, students may use MUS:3730 Jazz Band to satisfy the major ensemble requirement. Any student who wishes to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the director for undergraduate studies.

Course #	Title	Hours
All of these:		
Lower-level applied music lessons		4
Major ensemble (minimum of four semesters)		4
Performance electives (lower- or upper-level applied music, ensembles, improvisation; a maximum of six semesters of 12 s.h. in lower-level applied instruction is allowed)		6

Piano Pedagogy Requirements

Course #	Title	Hours
All of these:		
MUS:3400	Methods of Teaching Piano	2
MUS:4900	Senior Recital (piano pedagogy capstone project)	1
MUS:5400	Piano Pedagogy I	2
MUS:5401	Piano Pedagogy II	2

Piano Pedagogy Track Electives

Course #	Title	Hours
6 s.h. in music electives chosen from any music courses (prefix MUS) or from these recommended courses, except for music courses closed to music majors:		
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
MUS:2206	Form and Analysis	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:4730	Jazz Theory	3
MUS:5410	Piano Literature I	2
MUS:5411	Piano Literature II	2
ENTR:2000	Entrepreneurship and Innovation	3
ENTR:3200	Entrepreneurial Marketing	3
THTR:3510/ INTD:3510	Introduction to Arts Management	3

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. A minimum grade-point average (GPA) of 3.80 in music coursework and a minimum cumulative University of Iowa GPA of 3.33 are required.

To graduate with honors, students must complete a minimum of 6 s.h. of honors work in music, generally in their junior and senior years. They must complete a minimum of 3 s.h. of the required honors work in MUS:4995 Honors in Music by completing one or more honors projects, such as solo or ensemble recitals; compositions, transcriptions, orchestrations, or arrangements; and essays, research papers, editions, or translations. Honors projects must be in addition to the projects required for graduation with a major in music.

Students may also earn honors credit in other honors courses (upper-level undergraduate courses) or in approved graduate courses (music history and music theory are particularly recommended).

For complete details about graduation requirements with honors in the music major, visit Honors in Music on the School of Music website and consult the school's honors advisor.

National Honor Society

The School of Music sponsors a chapter of Pi Kappa Lambda, the national music honor society. Students of exceptional ability are recommended for membership by faculty members. For more information, consult the School of Music honors advisor.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the music major.

Financial Support

A number of music performance-based merit scholarships are available to qualified undergraduate music majors. The audition for admission to the School of Music is also the audition for music scholarships. All music majors with School of Music scholarships must enroll as full-time students, enroll in their instrumental major ensemble and studio lessons each semester, and meet specific grade-point averages. For information, contact the School of Music.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

In addition to the requirements listed under the checkpoints, all students must complete 2 s.h. in applied music and 1 s.h. in a major ensemble each semester.

The Bachelor of Arts in music requires a minimum of 44 s.h. in School of Music courses.

Before the third semester begins: 15–18 s.h. of coursework in the major, including MUS:1201 Musicianship and Theory I, MUS:1202 Musicianship and Theory II, and if required, MUS:1211 Group Instruction in Piano I, and MUS:1212 Group Instruction in Piano II.

Before the fifth semester begins: at least 23–32 s.h. of coursework in the major.

Before the seventh semester begins: at least 33–41 s.h. of coursework in the major and 90 s.h. earned toward the degree.

Before the eighth semester begins: at least 40–46 s.h. of coursework in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Hours	**15-16**
Total Hours	**124-138**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b This course is required for students enrolled in MUS:1201 who do not pass Placement Examination A.

c Students must complete two semesters of MUS:1210.

d Students must complete at least 4 s.h. in lower-level applied lessons.

e Students must complete a minimum of four semesters of major ensemble.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

h Choose two courses from MUS:2301, MUS:2302, MUS:4350. Note: two GE CLAS Core requirements may be fulfilled by MUS:2301 and MUS:2302. Students who take MUS:4350 must complete an additional GE CLAS Core course that satisfies either the Historical Perspectives or the Literary, Visual, and Performing Arts requirement.

i Fulfills a major requirement and may fulfill a GE requirement.

j Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

k If not completed with a MUS course. MUS:1009, MUS:1720, MUS:2311 fulfill the GE CLAS Core Values and Society requirement.

l Students must complete at least 6 s.h. in performance electives.

m Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Music, BM

The Bachelor of Music degree allows students to specialize further than in the Bachelor of Arts degree in music, choosing from the following areas: composition studies, jazz studies, music therapy, or performance (brass, organ, percussion, piano, strings, voice, or woodwinds).

Learning Outcomes

Bachelor of Music Graduates

The Bachelor of Music degree is the primary professional degree in music, and it emphasizes the development of the skills, concepts, and sensitivities essential to the professional life of the musician. Bachelor of Music students in performance programs develop comprehensive capabilities in the major-performing medium and the ability to integrate musical knowledge and performance skills in preparation for entering the profession or advanced study in graduate school.

All graduates of the Bachelor of Music program in music will be able to demonstrate the following.

- Performance: Students will acquire the ability to sight read, reach technical proficiency, apply historically and stylistically informed performance practices, gain a broad knowledge of the repertoire of their performance area, perform a cross-section of that repertoire, and gain collaborative skills through ensemble experiences.
- Keyboard Competency: Students will acquire the functional ability to play piano, including the ability to perform major and minor scales, arpeggios, and chord progressions in all keys; and to harmonize melodies, transpose, and improvise.
- Conducting, Leadership, and Collaboration: Students will acquire the ability to work as leaders and in collaboration on matters of musical preparation, rehearsal techniques, and interpretation. Students will demonstrate competent conducting technique.
- Musical Repertoire and Style: Students will acquire a basic knowledge of music history and repertoire through the present; an acquaintance with repertories beyond the area of specialization; the ability to place music in historical, cultural, and stylistic contexts; and the ability to write and speak about music history and style in a coherent manner.
- Music Theory, Analysis, and Compositional Processes: Students will acquire aural skills sufficient to hear melodic, rhythmic, harmonic, and formal elements of music; analytical skills sufficient to understand the melodic, rhythmic, harmonic, and formal elements of music; knowledge of basic compositional techniques; and the ability to write and speak about musical processes in a coherent manner.

Teacher Education Program Graduates

All graduates of the Teacher Education Program will be able to:

- demonstrate competent conducting and musical leadership of performing groups and in general classroom situations;
- apply knowledge of analytical and historical knowledge to curriculum development, lesson planning, and daily classroom and performance activities;
- demonstrate the ability to arrange and adapt music from a variety of sources to meet the needs and ability levels of individuals and groups;
- demonstrate functional performance abilities in keyboard, voice, and instruments appropriate to the teaching specialization;
- demonstrate pedagogical skills appropriate to the area of specialization sufficient to teach students individually and in groups; and
- demonstrate knowledge and skills in student learning, diverse learning, planning instruction, instructional strategies, the learning environment, communication, assessment and evaluation, collaboration, ethics, and relationships.

Bachelor of Music in Composition Graduates

In addition to the learning outcomes previously listed, all graduates of the Bachelor of Music in composition will:

- demonstrate the ability to compose solo, chamber, vocal, and electronic music;
- acquire a basic knowledge of acoustics; and
- demonstrate the ability to use technologies applicable to musical composition, such as sound synthesis, recording and processing, and computer notation.

Bachelor of Music in Music Therapy Graduates

The undergraduate music therapy program provides the required academic and clinical coursework necessary to become professionally certified as a music therapist. The program, which is approved by the American Music Therapy Association, prepares students to pass the Certification Board for Music Therapists national exam, which is required for entry-level music therapy positions.

In addition to the learning outcomes previously listed, all graduates of the Bachelor of Music in music therapy will display the following.

- Functional musical and arranging skills in voice, keyboard, guitar, and percussion to accompany self and group singing, with a basic repertory of traditional, folk, and popular songs in several keys, with and without written music.
- Knowledge of basic principles of human development, exceptionality, psychopathology, principles of therapy, and the therapeutic relationship.
- Knowledge of basic principles of music therapy including history and philosophy; the psychological, physiological, and sociological bases for the use of music as therapy; music therapy techniques and materials and their application with various client populations.
- Knowledge of various client populations, the therapeutic process (client assessment, treatment planning, therapeutic implementation, evaluation, and documentation of progress); knowledge of research methods, and ability to interpret research findings.
- Knowledge of professional issues (standards, ethics, interdisciplinary collaboration, supervision, and administration).
- Clinical skills with a variety of client populations to enable students to function as entry-level music therapists. Students will acquire knowledge of the technological developments applicable to the field of music therapy.

Requirements

The Bachelor of Music (BM) requires a minimum of 120 s.h. of credit. Students must maintain a minimum grade-point average of 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be admitted into a performance area through an audition. All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses.

Transfer students admitted to the School of Music must complete a minimum of one year of applied music (lower or upper level) and one year of major ensemble at the University of Iowa in order to earn a degree in music. Transfer students who have not completed the equivalent of the four-semester sequence of Musicianship and Theory I–IV (MUS:1201, MUS:1202, MUS:2203, and MUS:2204) must complete a theory diagnostic exam to determine appropriate placement in the musicianship and theory sequence. Transfer students who have not completed the equivalent of two semesters of class piano or a piano proficiency exam must meet piano proficiency requirements at the University of Iowa.

The program offers concentrations in composition, music therapy, and performance. Students seeking licensure/certification in music education or music therapy should enroll in the BM program.

Each concentration in the Bachelor of Music requires various minimum credit hours.

Requirements	Hours
Composition	83-85
Music Therapy	91-100
Performance, Brass/Woodwind	79-81
Performance, Jazz	85-87
Performance, Organ	79
Performance, Percussion	79-81
Performance, Piano	79-81
Performance, String	79-81
Performance, Voice	79-81

Many students earn more than 120 s.h. in fulfilling the requirements for their majors, for instance, those who choose the music therapy concentration or seek teacher certification. The College of Liberal Arts and Sciences maximum hours rule does not apply to the Bachelor of Music, so BM students may count more than 56 s.h. of coursework in music toward the degree.

To register for MUS:1201 Musicianship and Theory I, students must also register for MUS:1211 Group Instruction in Piano I, have already completed that course, or be exempt based on the results of their proficiency exam. To register for MUS:1202 Musicianship and Theory II, students must also register for MUS:1212 Group Instruction in Piano II, have already completed that course, or be exempt based on the results of their proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempt based on the results of their proficiency exam.

Six semesters of MUS:1210 Recital Attendance are required for all BM students, except music therapy students, who are required to take four semesters. Transfer students should plan to enroll in this course each of their remaining semesters, or until the requirement is met.

To complete the senior recital, students must have achieved upper-level applied status or be enrolled in upper-level applied music courses (see "Applied Music"). Music therapy students may complete a senior recital or a senior research project. Composition students substitute MUS:4910 Bachelor's Thesis for the senior recital. The senior recital, research project, or thesis must be completed at the University of Iowa.

Applied Music

Students must complete four years of applied music. Instruction is provided on two levels, lower and upper. Students must achieve upper-level status before they may present their senior recital. Readiness for upper-level applied music is determined by a jury examination in the area. The eighth semester of applied music may be waived for students who have successfully completed a senior recital, are enrolled in the Teacher Education Program (TEP), and are student teaching. Students are allowed a maximum of six semesters (not including summer) in lower-level applied instruction. Those who want to continue lessons beyond the maximum allowable lower-level registration must do so under the nonmajor category.

Composition students are required to take 6 s.h. of lower-level applied music and 2 s.h. of secondary piano.

Music therapy students who complete a senior research project rather than a senior recital are required to take three years of lower-level applied music.

Ensemble Participation

Students must complete eight semesters of major ensemble participation. They enroll in a major ensemble during consecutive semesters, beginning early in their degree work, to ensure timely completion of the requirement. Ensemble assignments are made at the discretion of the major teacher and ensemble director. Keyboard students may substitute piano accompaniment, piano chamber music, or the chamber music residency program for major ensemble participation for two semesters during their junior and/or senior years, with their major applied music teacher's consent. Composition students may, with their advisor's consent, substitute two semesters of other ensembles during their junior and/or senior year.

Music therapy students who complete a senior research project rather than a senior recital are required to complete 6 s.h. of major ensemble participation.

Students who want to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the associate director for undergraduate studies.

Major ensembles are as follows.

Course #	Title	Hours
MUS:1176	Voxman Chorale	1
MUS:3160	Symphony Band/Concert Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1

MUS:3174	University Choir	1
MUS:3180	Orchestra	1

Electives

Students may take advanced electives in performance (including chamber music and piano accompaniment), theory, composition, music education, music therapy, music history, diverse music cultures, music literature, conducting, and orchestration.

Concentration Areas

- Composition Concentration [p. 839]
- Music Therapy Concentration [p. 839]
- Performance, Brass/Woodwind Concentration [p. 841]
- Performance, Jazz Concentration [p. 842]
- Performance, Organ Concentration [p. 843]
- Performance, Percussion Concentration [p. 843]
- Performance, Piano Concentration [p. 844]
- Performance, String Concentration [p. 845]
- Performance, Voice Concentration [p. 846]

Composition Concentration

Applicants to the composition concentration must submit a portfolio of creative work to the composition faculty for evaluation and acceptance into the program. Students who wish to prepare a portfolio may register for MUS:1139 Secondary Performance - Composition.

The composition concentration requires the following coursework:

Musicianship, Composition Concentration

The composition concentration is open to students who have been admitted to a performance area in the School of Music.

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six times for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

Diverse Musical Cultures, Composition Concentration

Course #	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

Performance (Applied Music/ Ensembles), Composition Concentration

Course #	Title	Hours
All of these:		
MUS:1121	Secondary Performance - Piano (taken two times for 1 s.h. each)	2
Lower-level applied lessons (prefix MUS) numbered 2000-2999 (may take a maximum of six times for no more than 12 s.h. total)		6
Major ensemble music courses (prefix MUS)		6

Composition Requirements

Course #	Title	Hours
All of these:		
MUS:2219	Introduction to Composition	3
MUS:2220	Composition (taken at least six times for 2 s.h. each)	12
MUS:2820	Electronic Music Production	3
MUS:3230	Composition Seminar (taken twice for 1 s.h. each as corequisite with MUS:2220)	2
MUS:4910	Bachelor's Thesis	1

The course MUS:4910 Bachelor's Thesis consists of one or more compositions, approved by a committee of three faculty members, and performed in regularly scheduled School of Music recitals.

Required Supportive Courses, Composition Concentration

Course #	Title	Hours
All of these:		
MUS:4200	Counterpoint Before 1600	3
or MUS:4201	Counterpoint After 1600	
MUS:4220	Orchestration	3
MUS:5236	Non-Tonal Analysis	3

Electives, Composition Concentration

Students complete 6 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors. If students took either MUS:4200 Counterpoint Before 1600 or MUS:4201 Counterpoint After 1600 as a required supportive course, they cannot use it as an elective.

The course MUS:3190 Center for New Music Ensemble is recommended for composition concentration students.

Music Therapy Concentration

Admission to the music therapy concentration is based on successful completion (grade of C-plus or higher) in MUS:1687 Orientation to Music Therapy. Students must earn a B-minus or higher in all remaining music therapy core courses. In addition to the core courses in music therapy in the following list, specific courses are required in anatomy, biology, music, and psychology.

A six-month, full-time internship in an American Music Therapy Association (AMTA) approved off-campus clinical facility is required for completion of the degree. There are a limited number of approved music therapy internships in the Iowa City area, and many internship placements require relocation to a different city. Students are eligible to begin applying for their internship one year prior to the start of the internship. Securing an internship typically involves completing application materials, interviewing on-site or via an electronic platform, and demonstrating musical competencies. Students are not automatically placed in internships but must work with the clinical advisor to select and apply for appropriate programs. Following successful completion of the internship, students are eligible to take the board certification examination in music therapy. This exam is offered through the Certification Board for Music Therapists and leads to national board certification as a music therapist, with the credential music therapist-board certified (MT-BC).

Because music therapists work with vulnerable populations, the School of Music is required to run a criminal background check on all students when they begin their clinical experiences. Criminal convictions could negatively impact a student's ability to continue in the music therapy program and/or gain placement at an internship site. For more information, contact the director of the music therapy program.

The music therapy concentration requires the following coursework.

Musicianship, Music Therapy Concentration

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken four times for 1 s.h. each)	4
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2213	Group Instruction in Piano III	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3

Performance (Applied Music/ Ensembles), Music Therapy Concentration

Course #	Title	Hours
Clinical Option		
All of these are required for clinical option students:		
MUS:1120	Secondary Performance - Voice	1
MUS:4675	Senior Project in Music Therapy	1
Lower-level applied lessons (prefix MUS) numbered 2000-2999		12
Major ensemble music courses (prefix MUS) taken six times for 1 s.h. each		6
Additional music performance electives such as steel band, secondary percussion lessons, secondary piano, additional secondary voice		4
Performance Option		
All of these are required for performance option students:		
MUS:1120	Secondary Performance - Voice (taken twice for 1 s.h. each; not required for performance—voice students)	2
MUS:1510	Diction for Singers I (required for performance—voice students)	2
MUS:2510	Diction for Singers II (required for performance—voice students)	2
MUS:4900	Senior Recital	1
Lower-level applied music lessons (prefix MUS) numbered 2000-2999		8
Upper-level applied music lessons (prefix MUS) numbered 3000-3999		8
Major ensemble music courses (prefix MUS) taken eight times for 1 s.h. each		8

Music Therapy Requirements

Course #	Title	Hours
All of these:		
MUS:1687	Orientation to Music Therapy	2
MUS:2671	Music Foundations in Therapy I	2
MUS:2672	Music Foundations in Therapy II	2
MUS:3675	Music Therapy Practicum (section 1 taken once for 1 s.h.; section 2 taken twice for 2 s.h. each)	5
MUS:3676	Percussion Experience for Teachers and Therapists	1
MUS:3680	Music in Special Education	3
MUS:3690	Music Therapy With Adults	3
MUS:4670	Internship in Music Therapy (minimum of 2 s.h.)	arr.
MUS:4685	Music Therapy With Children	3
EDTL:4630/ MUS:4630	Psychology of Music	2
EDTL:4640	Introduction to Music Research	2

Required Supportive Courses, Music Therapy Concentration

Course #	Title	Hours
One of these:		
PSY:2930	Abnormal Psychology: Health Professions	3
PSY:3320	Psychopathology	3
One of these:		
MUS:1121	Secondary Performance - Piano	1

MUS:3001	Introduction to Jazz Improvisation	3
One of these:		
MUS:1007	Garage Band: The Basics	2
MUS:3665	Arranging for Band	2
One of these:		
PSQF:4106	Child Development	3
PSY:2401	Introduction to Developmental Science	3
One of these:		
CSD:1015	Introduction to Speech and Hearing Processes and Disorders	2
CSD:4140	Manual Communication	1
CSED:4178	Microcounseling	3
CSED:4199	Counseling for Related Professions	3
PSQF:1075	Educational Psychology and Measurement	3
PSY:2601	Introduction to Cognitive Psychology	3
PSY:2701	Introduction to Behavioral Neuroscience	4
SSW:1800/ ASP:1800/ CSD:1800/ NURS:1800/ TR:1800	Aging Matters: Introduction to Gerontology	3
Clinical option students take 4 s.h. from these:		
MUS:1120	Secondary Performance - Voice	1
MUS:1121	Secondary Performance - Piano	1
MUS:1137	Secondary Performance - Percussion	1
MUS:3163	Iowa Steel Band	1
Other courses approved by advisor		

Music therapy students who elect the senior recital/performance option must take four years of applied music and attain upper-level status; they must also take 8 s.h. of major ensemble participation. Vocal majors choosing this option must also take MUS:1510 Diction for Singers I and MUS:2510 Diction for Singers II.

Music therapy students who elect the senior project/clinical option must take three years of applied music and 6 s.h. of major ensemble. They must also take an additional 4 s.h. of music performance courses in areas such as MUS:1120 Secondary Performance - Voice, MUS:1121 Secondary Performance - Piano, MUS:1137 Secondary Performance - Percussion, MUS:3163 Iowa Steel Band, or other courses approved by the advisor.

In order to satisfy national certification requirements, all music therapy students must fulfill certain GE CLAS Core requirements with specific courses. Students should consult their music therapy advisor before selecting GE CLAS Core courses.

Performance, Brass/Woodwind Concentration

The performance, brass/woodwind concentration requires the following coursework.

Musicianship, Brass/Woodwind Concentration

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six times for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

Diverse Musical Cultures, Brass/Woodwind Concentration

Course #	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

Performance (Applied Music/Ensembles), Brass/Woodwind Concentration

Course #	Title	Hours
8 s.h. from these (both courses are repeatable):		
MUS:3160	Symphony Band/Concert Band	1
MUS:3180	Orchestra	1
All of these:		
MUS:4900	Senior Recital	1
Lower-level applied lessons (prefix MUS) numbered 2000-2999 (may take a maximum of six times for no more than 12 s.h. total)		8
Upper-level applied lessons (prefix MUS) numbered 3000-3999		8

Theory-Based Courses, Brass/Woodwind Concentration

Course #	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3

MUS:3001	Introduction to Jazz Improvisation	3
MUS:3665	Arranging for Band	2-3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4210	Keyboard Harmony	1-2
MUS:4730	Jazz Theory (when topic is at the piano)	3
MUS:4750	Transcription	2

Brass/Woodwind Area Requirement

Course #	Title	Hours
This course:		
MUS:3485	Wind Chamber Music	1

Electives, Brass/Woodwind Concentration

Students complete 17 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for wind majors.

Course #	Title	Hours
MUS:3140	Audition Repertoire	1
MUS:3180	Orchestra	1
MUS:3485	Wind Chamber Music	1-2
MUS:3830	Wind Instrument Maintenance and Repair	1
EDTL:3650	Instrumental Methods and Materials	3

These music education courses may be taken as music electives by brass/woodwind concentration students pursuing teacher licensure.

Course #	Title	Hours
MUS:3635/ EDTL:3635	Instrumental Conducting	3
EDTL:3605/ MUS:3605	Instrumental Techniques	2
EDTL:3620	Methods and Materials: General Music	3

Performance, Jazz Concentration

The performance, jazz concentration requires the following coursework.

Musicianship, Jazz Concentration

Course #	Title	Hours
Both of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
Then these:		
MUS:1210	Recital Attendance (taken six times for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:1711	Jazz Rhythms and Interpretation I	1
MUS:1712	Jazz Rhythms and Interpretation II	1
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:3760	Jazz Band Techniques	1
MUS:4350	Advanced Jazz History	3
MUS:4360	Jazz Matters	3
MUS:4730	Jazz Theory	3

Diverse Musical Cultures, Jazz Concentration

Course #	Title	Hours
One of these:		
MUS:1310	World Music	3
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

Performance (Applied Music/ Ensembles), Jazz Concentration

Course #	Title	Hours
All of these:		
MUS:2038	Lower Level Jazz (may take for maximum of six times for no more than 12 s.h. total)	8
MUS:3038	Upper Level Jazz (taken four times for 2 s.h. each)	8
MUS:3730	Jazz Band (taken six times for 1 s.h. each)	6
MUS:3740	Small Jazz Ensembles (taken six times for 1 s.h. each)	6
MUS:4750	Transcription	2
MUS:4900	Senior Recital	1

Jazz Area Requirements

Course #	Title	Hours
All of these:		
MUS:3140	Audition Repertoire	1
MUS:3780	Audio Recording I	3
MUS:4760	Jazz Composition and Arranging	2
MUS:4761	Advanced Jazz Composition and Arranging	2
AFAM:1020/ AMST:1030	Introduction to African American Culture	3
ENTR:2000	Entrepreneurship and Innovation	3

Electives, Jazz Concentration

Students complete 8 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for jazz majors.

Course #	Title	Hours
MUS:1007	Garage Band: The Basics	2
MUS:3140	Audition Repertoire	1
MUS:3730	Jazz Band (when section is Black popular music ensemble)	1
MUS:3990	Undergraduate Special Studies	1-4

Performance, Organ Concentration

The performance, organ concentration requires the following coursework.

Musicianship, Organ Concentration

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six times for 1 s.h. each)	6
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

Diverse Musical Cultures, Organ Concentration

Course #	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

Performance (Applied Music/ Ensembles), Organ Concentration

Course #	Title	Hours
All of these:		
MUS:2022	Lower Level Organ (may take a maximum of six times for no more than 12 s.h. total)	8
MUS:3022	Upper Level Organ (taken four times for 2 s.h. each)	8
MUS:4900	Senior Recital	1
Major ensemble music courses (prefix MUS; taken eight times for 1 s.h. each)		8

Theory-Based Courses, Organ Concentration

Course #	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3665	Arranging for Band	2-3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4210	Keyboard Harmony	1-2
MUS:4730	Jazz Theory (when topic is at the piano)	3
MUS:4750	Transcription	2

Organ Area Requirements

Course #	Title	Hours
All of these:		
MUS:4450	Organ Literature Survey (taken two times for 2 s.h. each)	4
MUS:4452	Liturgics	2
MUS:4454	Service Playing and Improvisation	2

Electives, Organ Concentration

Students complete 10 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for organ majors.

Course #	Title	Hours
MUS:5450	History of Organ Building and Design	2-3
MUS:5452	Organ Pedagogy	2
MUS:5475	Organ Literature Special Topics	2

Performance, Percussion Concentration

The performance, percussion concentration requires the following coursework.

Musicianship, Percussion Concentration

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six times for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

Diverse Musical Cultures, Percussion Concentration

Course #	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

Performance (Applied Music/ Ensembles), Percussion Concentration

Course #	Title	Hours
8 s.h. from these (both courses are repeatable):		
MUS:3160	Symphony Band/Concert Band	1
MUS:3180	Orchestra	1
All of these:		
MUS:2037	Lower Level Percussion (may take a maximum of six times)	8
MUS:3037	Upper Level Percussion (taken four times for 2 s.h. each)	8
MUS:4900	Senior Recital	1

Theory-Based Courses, Percussion Concentration

Course #	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3665	Arranging for Band	2-3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4210	Keyboard Harmony	1-2
MUS:4730	Jazz Theory (when topic is at the piano)	3
MUS:4750	Transcription	2

Percussion Area Requirements

Course #	Title	Hours
Both of these:		
MUS:3150	Percussion Ensemble (taken six times for 1 s.h. each)	6
MUS:3163	Iowa Steel Band (taken two times for 1 s.h. each)	2

Electives, Percussion Concentration

Students complete 10 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for percussion majors.

Course #	Title	Hours
MUS:3140	Audition Repertoire	1
MUS:3180	Orchestra	1
MUS:3182	Chamber Orchestra	1
MUS:3730	Jazz Band	1
MUS:3740	Small Jazz Ensembles	1
MUS:5130	Advanced Percussion Pedagogy and Literature	2

These music education courses may be taken as music electives by percussion concentration students pursuing teacher licensure.

Course #	Title	Hours
EDTL:3605/ MUS:3605	Instrumental Techniques	2
EDTL:3620	Methods and Materials: General Music	3
EDTL:3635/ MUS:3635	Instrumental Conducting	3

Performance, Piano Concentration

The performance, piano concentration requires the following coursework.

Musicianship, Piano Concentration

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six times for 1 s.h. each)	6
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

Diverse Musical Cultures, Piano Concentration

Course #	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

Performance (Applied Music/ Ensembles), Piano Concentration

Course #	Title	Hours
All of these:		
MUS:2021	Lower Level Piano (may take a maximum of six times for no more than 12 s.h. total)	8
MUS:3021	Upper Level Piano (taken four times for 2 s.h. each)	8

MUS:4900	Senior Recital	1
Major ensemble music courses (prefix MUS) taken eight times for 1 s.h. each; keyboard majors may substitute piano accompaniment for major ensemble participation for a maximum of two semesters during their junior and/or senior years with advisor consent		8

Theory-Based Courses, Piano Concentration

Course #	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3665	Arranging for Band	2-3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4730	Jazz Theory (when topic is at the piano)	3
MUS:4750	Transcription	2

Piano Area Requirements, Piano Concentration

Course #	Title	Hours
This course:		
MUS:3400	Methods of Teaching Piano	2
A total of 2 s.h. from the following:		
MUS:3481	Piano Chamber Music	1-2
MUS:3485	Wind Chamber Music	1-2
MUS:3489	Chamber Music Residency Program	1-2
One of these:		
MUS:2213	Group Instruction in Piano III	1
MUS:4730	Jazz Theory (when topic is at the piano)	3

Electives, Piano Concentration

Students complete 13 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for piano majors.

Course #	Title	Hours
MUS:5400	Piano Pedagogy I	2
MUS:5401	Piano Pedagogy II	2
MUS:5410	Piano Literature I	2
MUS:5411	Piano Literature II	2

These music education courses may be taken as music electives by piano concentration students pursuing teacher licensure.

Course #	Title	Hours
MUS:3605/ EDTL:3605	Instrumental Techniques	2
MUS:3635/ EDTL:3635	Instrumental Conducting	3
EDTL:3620	Methods and Materials: General Music	3
EDTL:3640/ MUS:3640	Choral Methods	3
EDTL:3645/ MUS:3645	Choral Conducting and Literature	3

Performance, String Concentration

The performance, string concentration requires the following coursework.

Musicianship, String Concentration

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six times for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

Diverse Musical Cultures, String Concentration

Course #	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

Performance (Applied Music/ Ensembles), String Concentration

Course #	Title	Hours
All of these:		
MUS:3180	Orchestra (taken eight times for 1 s.h. each)	8
MUS:4900	Senior Recital	1
Lower-level applied lessons (prefix MUS) numbered 2000-2999 (may take maximum of six times for no more than 12 s.h. total)		8
Upper-level applied lessons (prefix MUS) numbered 3000-3999		8

Theory-Based Courses, String Concentration

Course #	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:3001	Introduction to Jazz Improvisation	3

MUS:3665	Arranging for Band	2-3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4210	Keyboard Harmony	1-2
MUS:4730	Jazz Theory	3
MUS:4750	Transcription	2

String Area Requirements

Course #	Title	Hours
4 s.h. from these:		
MUS:3482	String Chamber Music	1-2
MUS:3489	Chamber Music Residency Program	1-2

Electives, String Concentration

Students complete 14 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors. MUS:3140 Audition Repertoire is recommended for string majors.

These music education courses may be taken as music electives by string concentration students pursuing teacher licensure.

Course #	Title	Hours
EDTL:3605/ MUS:3605	Instrumental Techniques	2
EDTL:3620	Methods and Materials: General Music	3
EDTL:3635/ MUS:3635	Instrumental Conducting	3

Performance, Voice Concentration

The performance, voice concentration requires the following coursework.

Musicianship, Voice Concentration

Course #	Title	Hours
All of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4
Then these:		
MUS:1210	Recital Attendance (taken six times for 1 s.h. each)	6
MUS:1211	Group Instruction in Piano I (or piano placement exam)	1
MUS:1212	Group Instruction in Piano II (or piano placement exam)	1
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:3625	Techniques of Conducting	2

Diverse Musical Cultures, Voice Concentration

Course #	Title	Hours
One of these:		
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

Performance (Applied Music/ Ensembles), Voice Concentration

Course #	Title	Hours
All of these:		
MUS:2020	Lower Level Voice (may take a maximum of six times for no more than 12 s.h. total)	8
MUS:3020	Upper Level Voice (taken four times for 2 s.h. each)	8
MUS:4900	Senior Recital	1
Major ensemble (choir) music (prefix MUS; taken eight times for 1 s.h. each)		8

Theory-Based Courses, Voice Concentration

Course #	Title	Hours
3 s.h. from these:		
MUS:2206	Form and Analysis	3
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3665	Arranging for Band	2-3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4210	Keyboard Harmony	1-2
MUS:4730	Jazz Theory (when topic is at the piano)	3
MUS:4750	Transcription	2

Voice Area Requirements

Course #	Title	Hours
All of these:		
MUS:1510	Diction for Singers I	2
MUS:2510	Diction for Singers II	2
MUS:3500	Opera Workshop	2
MUS:3510	Discovering Art Song	1
MUS:3511	Discovering Opera	1

Electives, Voice Concentration

Students complete 10 s.h. of music coursework (prefix MUS) except for those courses that are closed to music majors.

These courses are recommended for voice majors.

Course #	Title	Hours
MUS:3140	Audition Repertoire	1
MUS:3500	Opera Workshop	2

MUS:3501	Opera Theater Chorus	1
MUS:3502	Opera Production	2-4
MUS:3851/ DANC:3851	Introduction to the Alexander Technique	3
MUS:6520/ CSD:6202	Voice Pedagogy	3

These music education courses may be taken as music electives by voice concentration students pursuing teacher licensure.

Course #	Title	Hours
MUS:3640/ EDTL:3640	Choral Methods	3
MUS:3645/ EDTL:3645	Choral Conducting and Literature	3
EDTL:3620	Methods and Materials: General Music	3

Teacher Licensure

To qualify for licensure to teach in elementary and/or secondary schools (K–12) students must be admitted into the School of Music seeking a Bachelor of Music degree in one of the following performance subprograms: brass/woodwind, jazz, organ, percussion, piano, string, or voice. Students must then apply to the Teacher Education Program to concurrently earn a Bachelor of Arts degree in music education. First-year students with a minimum high school GPA of 3.00 are eligible to apply to the direct admission program in their first semester. All other students may apply after they have completed 30 s.h. at the University of Iowa. For more information, see Music Education on the College of Education website.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. They must have a minimum grade-point average (GPA) of 3.80 in music coursework and a minimum cumulative University of Iowa GPA of 3.33..

Students must complete at least 6 s.h. of honors work in music, generally during their junior and senior years. They must earn at least 3 s.h. of the required honors work in MUS:4995 Honors in Music by completing one or more honors projects, such as solo or ensemble recitals; compositions, transcriptions, orchestrations, or arrangements; and essays, research papers, editions, or translations. Honors projects must be in addition to the projects required for graduation with a major in music.

Students may also earn honors credit in other honors courses (undergraduate courses numbered 3000 or above) or in approved graduate courses (music history and music theory are particularly recommended).

For complete details about the requirements for graduation with honors in the music major, visit Honors in Music on the School of Music website and consult the school's honors advisor.

National Honor Society

The School of Music sponsors a chapter of Pi Kappa Lambda, the national music honor society. Students of exceptional ability are recommended for membership by faculty members. For more information, consult the School of Music honors advisor.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the music major.

Financial Support

A number of music performance-based merit scholarships are available to qualified undergraduate music majors. The audition for admission to the School of Music is also the audition for music scholarships. All music majors with School of Music scholarships must enroll as full-time students, enroll in their instrumental major ensemble and studio lessons each semester, and meet specific grade-point averages. For information, contact the School of Music.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

In addition to the requirements listed under the checkpoints, all students must complete 2 s.h. in applied music and 1 s.h. in a major ensemble each semester.

The Four-Year Graduation Plan is not available for music therapy and music education students.

Students may apply more than 56 s.h. earned in School of Music courses toward the minimum 120 s.h. required for the BM degree.

Before the third semester begins: 18 s.h. of coursework in the major, including MUS:1201 Musicianship and Theory I, MUS:1202 Musicianship and Theory II, MUS:1211 Group Instruction in Piano I, and MUS:1212 Group Instruction in Piano II.

Before the fifth semester begins: at least 34 s.h. of coursework in the major, including MUS:2203 Musicianship and Theory III, and MUS:2204 Musicianship and Theory IV.

Before the seventh semester begins: at least 50 s.h. of coursework in the major and 90 s.h. earned toward the degree.

Before the eighth semester begins: at least 56 s.h. of coursework in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

GE CLAS Core: Natural Sciences without Lab [f]		3
GE CLAS Core: Social Sciences [f]		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [m]		
	Hours	**16-18**
	Total Hours	**126-147**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b This course is required for students enrolled in MUS:1201 who do not pass Placement Examination A.
c Students must take MUS:1210 for four semesters.
d Unless excused by exam.
e A maximum of six semesters (12 s.h.) in lower-level applied instruction is allowed.
f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
g Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.
h MUS:1009, MUS:2311, and MUS:1720 fulfill GE CLAS Core requirements for Literary, Visual, & Performing Arts and Values and Society. MUS:1310 fulfills the GE CLAS Core Literary, Visual, & Performing Arts requirement.
i Fulfills a major requirement and may fulfill a GE requirement.
j Readiness for upper-level applied music is determined by a jury examination in the area.
k If not completed with a MUS course. MUS:1009, MUS:1720, MUS:2311 fulfill the GE CLAS Core Values and Society requirement.
l Students must achieve upper-level status before they may present their senior recital.
mPlease see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Music, Minor

Requirements

The undergraduate minor in music requires 15 s.h. of coursework completed in the School of Music (prefix MUS), including at least 8 s.h. at the University of Iowa. Students must maintain a minimum grade-point average of 2.00 in all courses for the minor and all UI courses for the minor. Courses used to satisfy minor requirements may not be taken pass/nonpass. Up to 7 s.h. of transfer credit in music history, music theory, and elective courses may be accepted toward the minor, with approval of the School of Music. Music performance courses must be completed at the University of Iowa.

Work for the minor includes courses in three areas: music history, music performance, and music theory. The remaining 5 s.h. in elective coursework must be chosen from School of Music courses.

Some School of Music courses have prerequisites; students must complete a course's prerequisites before they may register for a course. Courses approved for the minor are in the following lists. Students who take a music course for one area may not use it to satisfy a music requirement in another area.

The minor in music requires the following coursework.

Music History

Course #	Title	Hours
One of these:		
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3

Music Performance

Course #	Title	Hours
3 s.h. from these:		
Applied Music Instruction (Lessons)		
MUS:1020	Performance Instruction for Nonmajors	1
Lower-level lessons for music majors numbered MUS:2020-MUS:2038, with consent of faculty		2
Upper-level lessons for music majors numbered MUS:3020-MUS:3038, with consent of faculty		2
Jazz Improvisation		
MUS:3001	Introduction to Jazz Improvisation	3
MUS:3710	Intermediate Jazz Improvisation	2
MUS:4750	Transcription	2
Ensemble Participation		
Instructor permission or audition is required for these courses:		
MUS:1160	University Band	1
MUS:1165	Hawkeye Marching Band	1
MUS:1176	Voxman Chorale	1
MUS:1180	Campus Symphony Orchestra	1
MUS:3150	Percussion Ensemble	1
MUS:3160	Symphony Band/Concert Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1
MUS:3480	Piano Accompaniment	1
MUS:3482	String Chamber Music	1-2
MUS:3485	Wind Chamber Music	1-2
MUS:3730	Jazz Band	1
MUS:3740	Small Jazz Ensembles	1
Other 1 s.h. music performance courses, with consent of the director for undergraduate studies		

Music Theory

Admission to theory courses is determined by the results of the theory placement exam.

Course #	Title	Hours
One of these:		
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:2203	Musicianship and Theory III	4
MUS:2204	Musicianship and Theory IV	4

Electives

Students must complete 5 s.h. in elective coursework. The following are suggested electives.

Course #	Title	Hours
MUS:1001	Group Piano I: Non-Music Majors	1
MUS:1002	Group Piano II: Non-Music Majors	1
MUS:1009	Jazz Cultures in America and Abroad	3
MUS:1010	Recital Attendance for Nonmajors	1
MUS:1012	Creativity in Music	3
MUS:1020	Performance Instruction for Nonmajors	1
MUS:1066	Introduction to Film Music	3
MUS:1160	University Band	1
MUS:1165	Hawkeye Marching Band	1
MUS:1176	Voxman Chorale	1
MUS:1200	Fundamentals of Music for Majors	3
MUS:1201	Musicianship and Theory I	4
MUS:1202	Musicianship and Theory II	4
MUS:1301	Concepts and Contexts of Western Music	3
MUS:1302	Great Musicians	3
MUS:1303	Roots, Rock, and Rap: A History of Popular Music	3
MUS:1310	World Music	3
MUS:1720	History of Jazz	3
MUS:2203	Musicianship and Theory III	4

MUS:2204	Musicianship and Theory IV	4
MUS:2301	History of Western Music I	3
MUS:2302	History of Western Music II	3
MUS:2311/ LAS:2311	Music of Latin America and the Caribbean	3
Lower-level applied instruction courses for majors numbered MUS:2020-MUS:2038		

For additional information, contact the School of Music.

Music, MA

The MA concentrations in performance, conducting, jazz studies, composition, music theory, musicology, music therapy, and music education require a recital, capstone project, or thesis. Performance majors present a public recital in place of a written thesis. Music therapy majors complete a capstone research project. Jazz studies majors present a public recital and a separate performance project. The Master of Arts in music education is offered with thesis and nonthesis options.

Learning Outcomes

- Acquisition of knowledge and skills that will prepare students for careers in performance or academia.
- Knowledge and skills in one or more fields of music outside the student's area of study, such as theory, musicology, performance, composition, etc.
- Preparation for doctoral study in music.

Requirements

The Master of Arts in music requires a minimum of 32–40 s.h. of graduate credit. Students must maintain a graduate college program grade-point average of at least 2.75 to earn the degree. The degree offers subprograms in brass [p. 852], choral conducting [p. 853], composition [p. 853], jazz studies [p. 854], music education [p. 854], music theory [p. 855], music therapy [p. 855], musicology [p. 857], orchestral conducting [p. 858], organ [p. 858], percussion [p. 859], piano [p. 859], string [p. 859], voice [p. 860], wind conducting [p. 860], and woodwind [p. 860].

Entering MA students must take two School of Music advisory examinations prior to registering for music history and music theory classes. These examinations are given on the Friday and Saturday preceding the opening of classes in the fall semester. MA students in music therapy are not required to take the advisory examinations.

Graduate students in the performance subprograms (brass, choral conducting, jazz studies, orchestral conducting, organ, percussion, piano, string, voice, wind conducting, and woodwind) are required to complete four semesters of major ensemble participation. Students enroll in major ensemble participation during consecutive semesters beginning early in their degree work to ensure completion of the major ensemble requirements in a timely manner. Ensemble assignments are made at the discretion of the ensemble director and/or major professor. Specific information about the ensemble requirement for these subprograms follows. The subprograms in composition, music education, music theory, music therapy, and musicology do not have the same ensemble requirement.

Common Requirements

Introductory Course

Students in all subprograms except music therapy and music education must complete MUS:5300 Introduction to Graduate Study in Music (3 s.h.) on an A–F graded basis.

Music Theory Requirement

All subprograms except music education and music theory require 6 s.h. from the following course list taken on an A–F graded basis. Music education students complete 3 s.h. from the following course list taken on an A–F graded basis. Music theory students should instead refer to their subprogram's requirements.

Course #	Title	Hours
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4730	Jazz Theory	3
MUS:5235	Tonal Analysis	3
MUS:5236	Non-Tonal Analysis	3
MUS:5237	Analysis of Popular Music	3
MUS:5240	Special Topics in Theory and Analysis (may be repeated)	3
MUS:6211	Theoretical Approaches to Music	3
MUS:6215	Music Theory Pedagogy	3

Music History Requirement

Students in all subprograms except music education and musicology earn 6 s.h. from the following course list taken on an A–F graded basis; at least one course numbered 6000 or above must be taken. Students in music education take 3 s.h. from the course list taken on an A–F graded basis. Musicology students should instead refer to their subprogram's requirements.

Course #	Title	Hours
MUS:4320	Music and Gender	3
MUS:4325	Medieval and Renaissance Music	3
MUS:4330	Baroque Music	3
MUS:4335	Eighteenth-Century Music	3
MUS:4340	Nineteenth-Century Music	3
MUS:4345	Twentieth-Century Music (may be repeated)	3
MUS:4350	Advanced Jazz History	3
MUS:4355	American Music	3
MUS:4360	Jazz Matters	3
MUS:4610	Studies in Film and Music (may be repeated)	3
MUS:6305	Teaching Music History and Culture	3
MUS:6310	Topics in Musicology (may be repeated)	3
MUS:6312	Historical Approaches to Music	3
MUS:6314	Topics in Ethnomusicology (may be repeated)	3
MUS:6315	Foundations of Ethnomusicology	3
MUS:6326	Renaissance Music Notations	3
MUS:6375	Music Editing	3

Subprograms

Brass

The MA in music with a brass subprogram requires 36 s.h. of graduate credit. Students do not complete a thesis for this subprogram.

In addition to the common requirements, the brass subprogram requires the following coursework.

Brass Required Courses

Course #	Title	Hours
All of these:		
MUS:5111	Advanced Brass Pedagogy and Literature I	2
MUS:5112	Advanced Brass Pedagogy and Literature II	2
MUS:5115	Advanced Brass Ensemble Literature	2
MUS:6900	MA Recital	1

Brass Ensemble

Course #	Title	Hours
4 s.h. from these:		
MUS:3160	Symphony Band/Concert Band (may be repeated)	1
MUS:3180	Orchestra (may be repeated)	1

Brass Applied Lessons

Students must choose one instrument for all 8 s.h. in applied lessons.

Course #	Title	Hours
One of these:		
MUS:6032	Major Horn (taken four times for 2 s.h. each)	8
MUS:6033	Major Trumpet (taken four times for 2 s.h. each)	8
MUS:6034	Major Trombone (taken four times for 2 s.h. each)	8
MUS:6035	Major Euphonium (taken four times for 2 s.h. each)	8
MUS:6036	Major Tuba (taken four times for 2 s.h. each)	8

Brass-Wind Chamber Music

Course #	Title	Hours
2 s.h. from these:		
MUS:3485	Wind Chamber Music (may be repeated)	1
MUS:3489	Chamber Music Residency Program (may be repeated)	1

Choral Conducting

The MA in music with a choral conducting subprogram requires 38 s.h. of graduate credit and satisfaction of a world language proficiency requirement. Students do not complete a thesis for this subprogram.

In addition to the common requirements, the choral conducting subprogram requires the following coursework.

Choral Conducting Required Courses

Course #	Title	Hours
All of these (19 s.h.):		
MUS:6120	Graduate Secondary Performance - Voice	1
MUS:6561	Seminar: Choral Literature and Analysis I	2
MUS:6562	Seminar: Choral Literature and Analysis II	2
MUS:6563	Seminar: Choral Literature and Analysis III	2
MUS:6564	Seminar: Choral Literature and Analysis IV	2
MUS:6581	Advanced Choral Conducting I	2
MUS:6582	Advanced Choral Conducting II	2
MUS:6583	Advanced Choral Conducting III	2
MUS:6584	Advanced Choral Conducting IV	2
MUS:6585	Score Reading	1
MUS:6900	MA Recital	1

Choral Conducting Ensemble

Course #	Title	Hours
4 s.h. from these:		
MUS:3170	Kantorei (may be repeated)	1
MUS:3172	Camerata Singers (may be repeated)	1
MUS:3174	University Choir (may be repeated)	1

Choral Conducting World Language Proficiency

Proficiency in French, German, or Italian is required. Other languages may replace these if approved by the choral conducting faculty. The requirement must be met by the end of the fourth semester of residency. Students may satisfy the proficiency requirement in one of these ways.

1. Testing out of the second semester of the language at the University of Iowa by individual testing through the individual world language area. See the director of choral activities regarding this option.
2. Passing one of the following courses with a grade of C or above.
   a. German: GRMN:1002 Elementary German II (4 s.h.) or GRMN:5000 German Reading for Graduate Students (3 s.h.).
   b. French: Elementary French II (FREN:1002, 4 s.h.) or FREN:4911 French for Reading/Research (2 s.h.).
   c. Italian: ITAL:1102 Elementary Italian II (5 s.h.).
3. Passing a course of similar scope with a grade of C or above from another institution. Check with the director of choral activities before enrolling in a course.

Composition

The MA in music with a composition subprogram requires 40 s.h. of graduate credit and satisfaction of a keyboard proficiency requirement. Students are required to complete a thesis for this subprogram.

In addition to the common requirements, the composition subprogram requires the following coursework.

Composition Required Courses

Course #	Title	Hours
All of these (16 s.h.):		
MUS:3230	Composition Seminar (taken four times for 1 s.h. each)	4

MUS:5220	Advanced Composition (taken four times for 2 s.h. each)	8
MUS:5820	Electronic Music Production	3
MUS:6950	MA Thesis	1

Composition Electives

Course #	Title	Hours
9 s.h. from these:		
MUS:3280	Spectral Nature of Sound: Acoustics, Analysis, and Resynthesis	3
MUS:3285	New Musical Instruments: From Design to Performance	3
MUS:4201	Counterpoint After 1600	3
MUS:4220	Orchestration	3
MUS:5800	Interactive Music	3

Composition Keyboard Examination

Students are required to demonstrate basic keyboard ability by either passing MUS:4210 Keyboard Harmony (1-2 s.h.) with a grade of B or higher or passing the final examination for MUS:4210 by arrangement with the organ faculty.

Jazz Studies

The MA in music with a jazz studies subprogram requires at least 36 s.h. of graduate credit. Students do not complete a thesis for this subprogram.

In addition to the common requirements, the jazz studies subprogram requires the following coursework.

Jazz Studies Required Courses

Course #	Title	Hours
All of these (20 s.h.):		
MUS:3730	Jazz Band (taken four times for 1 s.h. each)	4
MUS:3740	Small Jazz Ensembles (taken twice for 1 s.h. each)	2
MUS:4750	Transcription	2
MUS:4760	Jazz Composition and Arranging	2
MUS:6038	Major Jazz (taken four times for 2 s.h. each)	8
MUS:6900	MA Recital	1
MUS:6920	MA Performance Project	1

Jazz Studies Electives

Course #	Title	Hours
One of these:		
MUS:3140	Audition Repertoire	1
MUS:4761	Advanced Jazz Composition and Arranging	2
MUS:5990	Graduate Special Studies	2

Music Education

The MA in music with a music education subprogram requires 33 s.h. of graduate credit and satisfaction of a world language proficiency requirement. Students have the option to complete a thesis but are not required to do so.

In addition to 6 s.h. of common requirements, the music education subprogram requires the following courses.

Music Education Required Courses

Course #	Title	Hours
All of these (11 s.h.):		
EDTL:4630	Psychology of Music	2
EDTL:4640	Introduction to Music Research	3
EDTL:5610	Foundations of Music Education Curricula	3
EDTL:7600	Seminar: Current Topics in Music Education	3

Music Education Performance/Pedagogy and Literature

Course #	Title	Hours
3 s.h. from these (all courses may be repeated unless otherwise noted):		
MUS:3160	Symphony Band/Concert Band	1
MUS:3163	Iowa Steel Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1
MUS:3730	Jazz Band	1
MUS:5220	Advanced Composition	1-2
MUS:5990	Graduate Special Studies	0-4
MUS:6120	Graduate Secondary Performance - Voice	1
MUS:6121	Graduate Secondary Performance - Piano	1
MUS:6122	Graduate Secondary Performance - Organ	1
MUS:6123	Graduate Secondary Performance - Violin	1
MUS:6124	Graduate Secondary Performance - Viola	1
MUS:6125	Graduate Secondary Performance - Cello	1
MUS:6126	Graduate Secondary Performance - String Bass	1
MUS:6127	Graduate Secondary Performance - Flute	1
MUS:6128	Graduate Secondary Performance - Oboe	1
MUS:6129	Graduate Secondary Performance - Clarinet	1
MUS:6130	Graduate Secondary Performance - Bassoon	1
MUS:6131	Graduate Secondary Performance - Saxophone	1
MUS:6132	Graduate Secondary Performance - Horn	1
MUS:6133	Graduate Secondary Performance - Trumpet	1
MUS:6134	Graduate Secondary Performance - Trombone	1
MUS:6135	Graduate Secondary Performance - Euphonium	1
MUS:6136	Graduate Secondary Performance - Tuba	1

MUS:6137	Graduate Secondary Performance - Percussion	1
MUS:6138	Graduate Secondary Performance - Jazz	1
MUS:6580	Advanced Orchestral Conducting (may not be repeated)	2
MUS:6581	Advanced Choral Conducting I	1-3
MUS:6582	Advanced Choral Conducting II	1-3
MUS:6583	Advanced Choral Conducting III	1-3
MUS:6584	Advanced Choral Conducting IV	1-3
MUS:6589	Advanced Wind Conducting	1-2
MUS:6590	Seminar in Advanced Band Literature and Band History (may not be repeated)	2
EDTL:7380	Practicum in College Teaching	1-3

Music Education Capstone

Student completing a thesis take MUS:6950 MA Thesis for a total of 3 s.h. Students not completing a thesis take EDTL:6600 Individual Projects in Music Education for 1 s.h.

Music Education Electives

Students completing a thesis take 10 s.h. of electives. Students not completing a thesis take 12 s.h. of electives. Courses are chosen in consultation with an advisor and may include music courses (prefix MUS), psychological and quantitative foundations courses (prefix PSQF), and educational policy and leadership studies courses (prefix EPLS) numbered 3000 or above, and teaching and learning courses (prefix EDTL) numbered 4000 and above.

Music Theory

The MA in music with a music theory subprogram requires 33 s.h. of graduate credit and satisfaction of a world language proficiency requirement. Students are required to complete a thesis for this subprogram.

In addition to 9 s.h. of common requirements, the music theory subprogram requires the following coursework.

Music Theory Required Courses

Course #	Title	Hours
All of these (9 s.h.)		
MUS:4290	Music Theory Colloquium (taken four times for 1 s.h. each)	4
MUS:6215	Music Theory Pedagogy	3
MUS:6950	MA Thesis	2
Two of these:		
MUS:5235	Tonal Analysis	3
MUS:5236	Non-Tonal Analysis	3
MUS:5237	Analysis of Popular Music	3

Music Theory Additional Courses

Course #	Title	Hours
Two of these (6 s.h.):		
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
MUS:4730	Jazz Theory	3
MUS:5235	Tonal Analysis (if not taken as subprogram required course)	3
MUS:5236	Non-Tonal Analysis (if not taken as subprogram required course)	3
MUS:5237	Analysis of Popular Music (if not taken as subprogram required course)	3
MUS:5240	Special Topics in Theory and Analysis (may be repeated)	3
MUS:6211	Theoretical Approaches to Music	3

Music Elective

Students must take 3 s.h. of music coursework (prefix MUS) numbered 3000 or above not related to music theory. Courses listed under "Music Theory Required Courses" or "Music Theory Additional Courses" may not be counted.

Music Theory World Language Proficiency

Students must demonstrate the ability to read pertinent scholarly literature in a language determined in consultation with the theory faculty.

This requirement may be met in one of the following ways.

1. Completing two semesters of a graduate-level reading course approved by the theory faculty with a passing grade of C or higher on the final examination.
2. Two years of coursework while enrolled as a graduate student.
3. Written examination administered by the theory faculty. The exam consists of reading a short article in the designated language, answering a series of questions about said article, and translating a short excerpt.

Music Therapy

The MA in music with a music therapy subprogram requires 30 s.h. of graduate credit. Students do not complete a thesis for this subprogram.

Music therapy students are not held to the common requirements. The music therapy subprogram requires the following coursework.

Music Therapy Research Core Courses

Course #	Title	Hours
Both of these (5 s.h.):		
MUS:6675	Research in Music Therapy - Graduate (taken three times for 1 s.h. each)	3
MUS:6685	Theory and Research in Music Therapy (taken twice for 1 s.h. each)	2
One of these (at least 2 s.h.):		
EDTL:4640	Introduction to Music Research	2-3
EDTL:7640	Advanced Research in Music Education	3
PSQF:6206	Advanced Child Development	3

PSQF:6220	Quantitative Educational Research Methodologies	3

Music Therapy Research Electives

Course #	Title	Hours
5 s.h. from these:		
MUS:7140	Seminar in Music Research	2
EDTL:4640	Introduction to Music Research	2-3
EDTL:5099	Conducting School-Based Action Research	3
EDTL:7008	Seminar: Research and Current Issues	arr.
EDTL:7070	Qualitative Research Methods in Teaching and Learning	3
EDTL:7071	Critical Discourse Analysis in Educational Research	3
EDTL:7410	Mixed Methods Research	3
EDTL:7640	Advanced Research in Music Education	3
EDTL:7751	Advanced Qualitative Data Analysis	3
EDTL:7953	Seminar: Single Subject Design Research	3
EPLS:6209	Survey Research and Design	3
PSQF:6206	Advanced Child Development	3
PSQF:6220	Quantitative Educational Research Methodologies	3
PSQF:6230	Research in Educational Psychology	1-3
PSQF:6248	Research Synthesis and Meta-Analysis	3
PSQF:7270	Scholarly Integrity and Responsible Conduct of Educational Research and Evaluation	arr.
PSQF:7331	Qualitative Educational Research Methods	3
PSQF:7476	Research in Educational Measurement and Statistics	3

Music Therapy Special Topics

Course #	Title	Hours
6 s.h. from these:		
MUS:6690	Special Studies in Music Therapy (may be repeated)	1-3
EDTL:7600	Seminar: Current Topics in Music Education (may be repeated)	1-3

Music Therapy Advanced Clinical, Supervision, and Teaching

Course #	Title	Hours
2 s.h. from these:		
MUS:6670	Graduate Music Therapy Practicum (may be repeated)	1-2
MUS:6680	College Teaching and Clinic Supervision in Music Therapy	1-2

Music Therapy Electives

Course #	Title	Hours
Sociocultural, Historical, Theoretical, or Educational		
At least 3 s.h. from these:		
MUS:3400	Methods of Teaching Piano (may be repeated)	2
MUS:4320	Music and Gender	3
MUS:4350	Advanced Jazz History	3
MUS:4355	American Music	3
MUS:4730	Jazz Theory	3
MUS:6315	Foundations of Ethnomusicology	3
Performance, Ensemble, and Composition		
2 s.h. from these (all courses may be repeated unless otherwise noted):		
MUS:3001	Introduction to Jazz Improvisation (may not be repeated)	3
MUS:3160	Symphony Band/Concert Band	1
MUS:3163	Iowa Steel Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1
MUS:3710	Intermediate Jazz Improvisation	2
MUS:3730	Jazz Band	1
MUS:5220	Advanced Composition	1-2
MUS:6120	Graduate Secondary Performance - Voice	1
MUS:6121	Graduate Secondary Performance - Piano	1
MUS:6122	Graduate Secondary Performance - Organ	1
MUS:6123	Graduate Secondary Performance - Violin	1
MUS:6124	Graduate Secondary Performance - Viola	1
MUS:6125	Graduate Secondary Performance - Cello	1
MUS:6126	Graduate Secondary Performance - String Bass	1
MUS:6127	Graduate Secondary Performance - Flute	1
MUS:6128	Graduate Secondary Performance - Oboe	1
MUS:6129	Graduate Secondary Performance - Clarinet	1
MUS:6130	Graduate Secondary Performance - Bassoon	1
MUS:6131	Graduate Secondary Performance - Saxophone	1
MUS:6132	Graduate Secondary Performance - Horn	1

MUS:6133	Graduate Secondary Performance - Trumpet	1
MUS:6134	Graduate Secondary Performance - Trombone	1
MUS:6135	Graduate Secondary Performance - Euphonium	1
MUS:6136	Graduate Secondary Performance - Tuba	1
MUS:6137	Graduate Secondary Performance - Percussion	1
MUS:6138	Graduate Secondary Performance - Jazz	1
MUS:6580	Advanced Orchestral Conducting (may not be repeated)	2
MUS:6581	Advanced Choral Conducting I	1-3
MUS:6582	Advanced Choral Conducting II	1-3
MUS:6583	Advanced Choral Conducting III	1-3
MUS:6584	Advanced Choral Conducting IV	1-3
MUS:6589	Advanced Wind Conducting	1-2

Music Therapy Supporting Electives

In consultation with their advisor, students must take 5 s.h. of coursework numbered 3000 or above from any course subject excluding music (prefix MUS) and English as a second language (prefixes ESL and TAPE).

Musicology

The MA in music with a musicology subprogram requires at least 32 s.h. of graduate credit and satisfaction of a world language proficiency requirement. Students are required to complete a thesis for this subprogram.

In addition to 9 s.h. of common requirements, the musicology subprogram requires the following coursework.

Musicology Required Courses

Course #	Title	Hours
All of these (minimum 10 s.h.):		
MUS:4390	Musicology Colloquium (taken three times for 1 s.h. each)	3
MUS:6312	Historical Approaches to Music	3
MUS:6315	Foundations of Ethnomusicology	3
MUS:6950	MA Thesis	1-3

Musicology Seminars

Course #	Title	Hours
6 s.h. from these:		
MUS:6310	Topics in Musicology (may be repeated)	3
MUS:6314	Topics in Ethnomusicology (may be repeated)	3

Musicology Electives

Course #	Title	Hours
3 s.h. from these:		
MUS:4320	Music and Gender	3
MUS:4325	Medieval and Renaissance Music	3
MUS:4330	Baroque Music	3
MUS:4335	Eighteenth-Century Music	3
MUS:4340	Nineteenth-Century Music	3
MUS:4345	Twentieth-Century Music	3
MUS:4350	Advanced Jazz History	3
MUS:4355	American Music	3
MUS:4360	Jazz Matters	3
MUS:4610	Studies in Film and Music (may be repeated)	3
MUS:6305	Teaching Music History and Culture	3
MUS:6312	Historical Approaches to Music	3
MUS:6326	Renaissance Music Notations	3
MUS:6375	Music Editing	3

Musicology Ensemble Requirement

Course #	Title	Hours
At least 1 s.h. from these:		
MUS:3151	Percussion Chamber Ensemble	1
MUS:3160	Symphony Band/Concert Band	1
MUS:3162	All University Steel Band	1
MUS:3163	Iowa Steel Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1
MUS:3190	Center for New Music Ensemble	1
MUS:3481	Piano Chamber Music	1
MUS:3482	String Chamber Music	1
MUS:3485	Wind Chamber Music	1
MUS:3489	Chamber Music Residency Program	1
MUS:3502	Opera Production	2
MUS:3730	Jazz Band	1
MUS:3740	Small Jazz Ensembles	1

Additional Musicology Elective

Students must take 3 s.h. of music coursework (prefix MUS) numbered 3000 or above not related to musicology. Courses listed under "Musicology Required Courses", "Musicology Seminars", or "Musicology Electives," and MUS:5300 may not be counted.

Musicology World Language Proficiency

Students must demonstrate the ability to read musicological literature in either French or German, or another language chosen in consultation with the advisor and approved by the musicology faculty.

The requirement can be met in one of the following ways.

1. Successful completion of one semester of a graduate-level reading course approved by the musicology faculty with a grade of C or higher.
2. Two years of coursework in the language in the last ten years with grades of C or higher.
3. Testing out of the second semester of a language at the University of Iowa through individual testing in a specific language area, as approved by the musicology faculty.
4. Written examination administered by the musicology faculty. The exam consists of a short article in the designated language, which the student summarizes and from which they translate a short excerpt.

Orchestral Conducting

The MA in music with an orchestral conducting subprogram requires 41 s.h. of graduate credit. Students do not complete a thesis for this subprogram.

In addition to the common requirements, the orchestral conducting subprogram requires the following coursework.

Orchestral Conducting Required Courses

Course #	Title	Hours
All of these (21 s.h.):		
MUS:5510	Graduate Diction	2
MUS:6120	Graduate Secondary Performance - Voice	1
MUS:6580	Advanced Orchestral Conducting (taken four times for 2 s.h. each)	8
MUS:6585	Score Reading	1
MUS:6586	Advanced Orchestral Literature and Professional Development (taken four times for 2 s.h. each)	8
MUS:6900	MA Recital	1

Orchestral Conducting Applied Lessons

Course #	Title	Hours
One of these:		
MUS:6120	Graduate Secondary Performance - Voice	1
MUS:6121	Graduate Secondary Performance - Piano	1
MUS:6122	Graduate Secondary Performance - Organ	1
MUS:6123	Graduate Secondary Performance - Violin	1
MUS:6124	Graduate Secondary Performance - Viola	1
MUS:6125	Graduate Secondary Performance - Cello	1
MUS:6126	Graduate Secondary Performance - String Bass	1
MUS:6127	Graduate Secondary Performance - Flute	1
MUS:6128	Graduate Secondary Performance - Oboe	1
MUS:6129	Graduate Secondary Performance - Clarinet	1
MUS:6130	Graduate Secondary Performance - Bassoon	1
MUS:6131	Graduate Secondary Performance - Saxophone	1
MUS:6132	Graduate Secondary Performance - Horn	1
MUS:6133	Graduate Secondary Performance - Trumpet	1
MUS:6134	Graduate Secondary Performance - Trombone	1
MUS:6135	Graduate Secondary Performance - Euphonium	1
MUS:6136	Graduate Secondary Performance - Tuba	1
MUS:6137	Graduate Secondary Performance - Percussion	1

Orchestral Conducting Ensemble Requirement

Choral Ensemble

Course #	Title	Hours
One of these:		
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1

Orchestral Conducting

Course #	Title	Hours
An additional 3 s.h. from these (all courses may be repeated):		
MUS:3160	Symphony Band/Concert Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1

Organ

The MA in music with an organ subprogram requires 34 s.h. of graduate credit. Students do not complete a thesis for this subprogram.

In addition to the common requirements, the organ subprogram requires the following coursework.

Organ Required Courses

Course #	Title	Hours
All of these (13 s.h.):		
MUS:4450	Organ Literature Survey (taken twice for 2 s.h. each)	4
MUS:6022	Major Organ (taken four times for 2 s.h. each)	8
MUS:6900	MA Recital	1

Organ Ensemble Requirement

Course #	Title	Hours
4 s.h. from these (all courses may be repeated):		
MUS:3160	Symphony Band/Concert Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1

Organ Electives

Course #	Title	Hours
2 s.h. from these:		
MUS:4452	Liturgics	2
MUS:4454	Service Playing and Improvisation	2
MUS:5450	History of Organ Building and Design	2
MUS:5452	Organ Pedagogy	2
MUS:5475	Organ Literature Special Topics	2

Percussion

The MA in music with a percussion subprogram requires 35 s.h. of graduate credit. Students do not complete a thesis for this subprogram.

In addition to the common requirements, the percussion subprogram requires the following coursework.

Percussion Required Courses

Course #	Title	Hours
All of these (16 s.h.):		
MUS:3150	Percussion Ensemble (taken four times for 1 s.h. each)	4
MUS:5130	Advanced Percussion Pedagogy and Literature	2
MUS:6037	Major Percussion (taken four times for 2 s.h. each)	8
MUS:6900	MA Recital	2

Percussion Ensemble

Course #	Title	Hours
4 s.h. from these:		
MUS:3160	Symphony Band/Concert Band (may be repeated)	1
MUS:3180	Orchestra (may be repeated)	1

Piano

The MA in music with a piano subprogram requires 37 s.h. of graduate credit. Students do not complete a thesis for this subprogram. Students choose to emphasize either pedagogy or performance.

In addition to the common requirements, the piano subprogram requires the following coursework.

Piano Required Courses

Course #	Title	Hours
All of these (13 s.h.):		
MUS:3480	Piano Accompaniment	1
MUS:6021	Major Piano (taken four times for 2 s.h. each)	8
MUS:6900	MA Recital	2
MUS:7401	Special Studies in Piano Accompaniment and Chamber Music (taken twice for 1 s.h. each)	2

Piano Chamber Music Requirement

Course #	Title	Hours
One of these:		
MUS:3481	Piano Chamber Music	1
MUS:3489	Chamber Music Residency Program	1

Piano Pedagogy Emphasis

Students completing the pedagogy emphasis complete the following coursework.

Course #	Title	Hours
6 s.h. from these:		
MUS:3400	Methods of Teaching Piano	2
MUS:5400	Piano Pedagogy I	2
MUS:5401	Piano Pedagogy II	2
MUS:5990	Graduate Special Studies (may not be repeated)	2
One of these (2 s.h.):		
MUS:5410	Piano Literature I (may be repeated)	2
MUS:5411	Piano Literature II	2

Piano Performance Emphasis

Students completing the performance emphasis complete the following coursework.

Course #	Title	Hours
4 s.h. from these:		
MUS:3400	Methods of Teaching Piano	2
MUS:5400	Piano Pedagogy I	2
MUS:5401	Piano Pedagogy II	2
MUS:5990	Graduate Special Studies	2
4 s.h. from these:		
MUS:5410	Piano Literature I (may be repeated)	2
MUS:5411	Piano Literature II (may be repeated)	2

String

The MA in music with a string subprogram requires 35 s.h. of graduate credit. Students do not complete a thesis for this subprogram.

In addition to the common requirements, the string subprogram requires the following coursework.

String Required Courses

Course #	Title	Hours
All of these (9 s.h.):		
MUS:3180	Orchestra (taken four times for 1 s.h. each)	4
MUS:5121	Advanced String Methods and Literature I	2
MUS:5122	Advanced String Methods and Literature II	2
MUS:6900	MA Recital	1

String Applied Lessons

Students must choose one instrument for all 8 s.h. in applied lessons.

Course #	Title	Hours
One of these:		
MUS:6023	Major Violin (taken four times for 2 s.h. each)	8
MUS:6024	Major Viola (taken four times for 2 s.h. each)	8
MUS:6025	Major Cello (taken four times for 2 s.h. each)	8
MUS:6026	Major String Bass (taken four times for 2 s.h. each)	8

String Chamber Music

Course #	Title	Hours
3 s.h. from these:		
MUS:3482	String Chamber Music (may be repeated)	1
MUS:3489	Chamber Music Residency Program (may be repeated)	1

Voice

The MA in music with a voice subprogram requires 38 s.h. of graduate credit and satisfaction of a world language proficiency requirement. Students do not complete a thesis for this subprogram.

In addition to the common requirements, the voice subprogram requires the following courses.

Voice Required Courses

Course #	Title	Hours
All of these (14 s.h.):		
MUS:5510	Graduate Diction	2
MUS:6020	Major Voice (taken four times for 2 s.h. each)	8
MUS:6520	Voice Pedagogy	3
MUS:6900	MA Recital	1

Voice Ensemble

Course #	Title	Hours
4 s.h. from these (all courses may be repeated):		
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1

Voice Survey of Song Literature

Course #	Title	Hours
One of these:		
MUS:6541	Survey of Song Literature I	3
MUS:6542	Survey of Song Literature II	3

Voice Opera/Musical Theater

Course #	Title	Hours
One of these (at least 2 s.h.):		
MUS:3500	Opera Workshop	2
MUS:3502	Opera Production	2-4
MUS:3530	Musical Theatre Workshop	2

Voice Language Proficiency Requirement

Students must have completed at least two semesters of college-level language study with a grade of B or above in two of the three major singing languages (French, German, and Italian) within the six years prior to taking the final exam. Students may also verify proficiency in any or all of these languages by testing out of the second semester of the language at the University of Iowa through individual testing with the individual world language area.

Wind Conducting

The MA in music with a wind conducting subprogram requires 39 s.h. of graduate credit. Students do not complete a thesis for this subprogram.

In addition to the common requirements, the wind conducting subprogram requires the following coursework.

Wind Conducting Required Courses

Course #	Title	Hours
All of these (24 s.h.):		
MUS:3160	Symphony Band/Concert Band (taken four times for 1 s.h. each)	4
MUS:6589	Advanced Wind Conducting (taken four times for 2 s.h. each)	8
MUS:6590	Seminar in Advanced Band Literature and Band History	2
MUS:6900	MA Recital (taken twice for 2 s.h. each)	4

Woodwind

The MA in music with a woodwind subprogram requires 35 s.h. of graduate credit. Students do not complete a thesis for this subprogram.

In addition to the common requirements, the woodwind subprogram requires the following coursework.

Woodwind Required Courses

Course #	Title	Hours
All of these (6 s.h.):		
MUS:5101	Advanced Woodwind Pedagogy and Literature I	2
MUS:5102	Advanced Woodwind Pedagogy and Literature II	3
MUS:6900	MA Recital	1

Woodwind Ensemble

Course #	Title	Hours
4 s.h. from these:		
MUS:3160	Symphony Band/Concert Band (may be repeated)	1
MUS:3180	Orchestra (may be repeated)	1

Woodwind Applied Lessons

Students must choose one instrument for all 8 s.h. in applied lessons.

Course #	Title	Hours
One of these:		
MUS:6027	Major Flute (taken four times for 2 s.h. each)	8
MUS:6028	Major Oboe (taken four times for 2 s.h. each)	8
MUS:6029	Major Clarinet (taken four times for 2 s.h. each)	8

MUS:6030	Major Bassoon (taken four times for 2 s.h. each)	8
MUS:6031	Major Saxophone (taken four times for 2 s.h. each)	8

Woodwind Wind Chamber Music

Course #	Title	Hours
2 s.h. from these:		
MUS:3485	Wind Chamber Music (may be repeated)	1
MUS:3489	Chamber Music Residency Program (may be repeated)	1

Admission

Individuals applying to graduate programs in music must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area is available on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations on the Graduate College website.

Preliminary Procedures for Music Therapy Graduate Students

Because music therapists work with vulnerable populations, the School of Music is required to run a criminal background check on all students when they begin their clinical experiences. Criminal convictions could negatively impact a student's ability to continue in the music therapy program and/or gain placement at an internship site. For more information, contact the director of the music therapy program.

Career Advancement

The Grad Success Center within the Graduate College offers multiple resources to help students explore their potential career options.

Music, PhD

Learning Outcomes

- Acquisition of the highest level of knowledge and skills that will prepare students for careers in or beyond academia.
- Development of advanced critical thinking and skills in music research, writing, and public presentation of original scholarship.
- Demonstration of a core body of knowledge concerning the student's area of study.
- Learning effective approaches to pedagogy in the student's area of study.
- Knowledge and skills in one or more fields of music outside the student's area of study, such as theory, musicology, performance, composition, and more.

Requirements

The Doctor of Philosophy program in music requires a minimum of 72 s.h. of graduate credit. Students must maintain a minimum cumulative grade-point average of 3.00 to earn the degree. PhD concentration areas include composition, musicology, music education, and music theory. Information about specific curricular requirements for each area is available on the School of Music website.

Advisory Examinations

Entering Doctor of Philosophy students must take School of Music advisory examinations in the areas of music history and music theory. These examinations are given on the Friday and Saturday preceding the opening of classes in the fall semester. PhD students in music education are not required to take the advisory examinations.

PhD students in composition, musicology, and music theory must complete the courses required for the MA (see the MA in music [p. 852] in the catalog) and the following coursework. In addition, proficiency in one or more world languages is required.

Course #	Title	Hours
One or more additional music history course(s) listed in the MA requirements		
One or more additional music theory course(s) listed in the MA requirements		
And one of these:		
MUS:7950	PhD Thesis	1-4
MUS:7960	Composition PhD Thesis	1-4

Admission

Applicants must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission for each area is available on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

The Grad Success Center within the Graduate College offers multiple resources to help students explore their potential career options.

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must demonstrate ability to read professional literature in either French or German (other languages must be approved by the composition area). The language requirement must be satisfied by the end of the student's final semester of coursework.

b An Area Keyboard Examination is required. Students may demonstrate basic keyboard ability in one of two ways: 1) take and pass MUS:4210 with a grade of B or better; or 2) take and pass the final examination for MUS:4210 by arrangement with the organ faculty.

c Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

d May take during second year instead.

e Take a music theory elective if exempted from MUS:5200 based on results from advisory examination in music theory.

f See the department website for list of approved courses.

g Must have either passed the advisor examination in music theory or completed MUS:5200 before taking additional music theory elective courses.

h The PhD Qualification Exam is to be taken not later than the end of the second semester of residency; consists of both written and oral components. Refer to the department website for more information.

i Take a graduate level course (numbered 4000 or above) outside of the School of Music.

j Work with faculty advisor to determine appropriate graduate level coursework.

k Typically taken during the final semester of coursework.

l Choose from MUS:3190, MUS:3280, MUS:3285, MUS:4201.

mThesis defense.

a Students must demonstrate the ability to read pertinent scholarly literature in French or German and one other language. This requirement must be fulfilled before the student takes the comprehensive examination, preferably during the first year of residency. Refer to the department website for more information.

b Students must demonstrate competence in six areas of practical musicianship: sight singing; dictation of a chorale; keyboard sight reading; realization of thoroughbass OR harmonization of a melody from chord symbols; keyboard sight reading of a string quartet score OR improvising on an instrument; reduction at the keyboard of an orchestral score. Musicianship examinations are offered once a semester and may be taken as many times as necessary to pass.

c Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

d May take during second year instead.

e See the department website for list of approved courses.

f Work with faculty advisor to determine appropriate graduate level coursework.

g Take two graduate courses (6 s.h.) outside of the School of Music.

h Taken at the end of the second semester or the beginning of the third; must pass a written examination evaluating foundational theoretical knowledge of analytical skills with regard to a reading and score study list determined by the theory faculty. See the General Catalog and department website for more information.

i Taken at the end of the fourth semester or the beginning of the fifth. See the General Catalog and department website for more information.

j Choose from MUS:4200, MUS:4201, MUS:4730, MUS:5235, MUS:5236, MUS:5237, MUS:5240.

k Dissertation defense.

Doctor of Musical Arts, DMA

Learning Outcomes

- Acquisition of the highest level of knowledge and skills in performance that will prepare students for careers in performance or academia.
- Advanced competencies in repertoire, historical understanding, performance practice, and overall musicianship.
- Acquisition of knowledge and skills at the highest professional level in all facets and modes of performance within the student's area of study.
- Learning of effective approaches to pedagogy in the student's area of study.
- Knowledge and skills in one or more fields of music outside the student's area of study, such as theory, musicology, performance, composition, etc.

Requirements

The Doctor of Musical Arts (DMA) requires a minimum of 72 s.h. of graduate credit. Students must maintain a cumulative grade-point average of at least 3.00 to earn the degree. The DMA is offered with two concentrations: conducting and performance.

Advisory Examinations

Entering Doctor of Musical Arts students must take School of Music advisory examinations in the areas of music history and music theory. These examinations are given on the Friday and Saturday preceding the opening of classes in the fall semester.

DMA students complete the courses under the MA degree (see the MA in music [p. 852] in the catalog) and the following courses. In addition, students have either a world language or a secondary area requirement.

Course #	Title	Hours
One or more additional music history course(s) listed in the MA requirements		
One or more additional music theory course(s) listed in the MA requirements		
MUS:7140	Seminar in Music Research	2
MUS:7899	DMA Qualifying Recital	0
MUS:7900	DMA Recital (three required recitals for 1-2 s.h. each)	3-6
MUS:7970	DMA Essay and Thesis (minimum 2 s.h. required; maximum 6 s.h.)	2

Ensemble Participation

Students in the performance and pedagogy tracks of all graduate programs are required to complete four semesters of major ensemble participation. Students enroll in major ensemble participation during consecutive semesters beginning early in their degree work, to ensure completion of the major ensemble requirements in a timely manner. Ensemble assignments are made at the discretion of the major teacher and ensemble director.

Major ensembles are as follows.

Course #	Title	Hours
MUS:3160	Symphony Band/Concert Band	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1
MUS:3174	University Choir	1
MUS:3180	Orchestra	1

For more information, visit the School of Music website.

Admission

Applicants must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area is available on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

The Grad Success Center within the Graduate College offers multiple resources to help students explore their potential career options.

Theory Pedagogy, Graduate Minor

Requirements

The graduate minor in theory pedagogy requires 18 s.h. of graduate credit. The program is open to students who have been admitted to a graduate degree program in the School of Music. A minimum UI cumulative GPA of 2.50 and a graduate college major program GPA of 3.00 is required.

The minor in theory pedagogy requires the following coursework.

Course #	Title	Hours
This course:		
MUS:6215	Music Theory Pedagogy	3
One of these:		
MUS:4200	Counterpoint Before 1600	3
MUS:4201	Counterpoint After 1600	3
Two of these:		
MUS:5240	Special Topics in Theory and Analysis (may be repeated)	3
MUS:6211	Theoretical Approaches to Music	3
Two of these:		
MUS:4730	Jazz Theory	3
MUS:5235	Tonal Analysis	3
MUS:5236	Non-Tonal Analysis	3
MUS:5237	Analysis of Popular Music	3

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Native American and Indigenous Studies

Interim Chair, American Studies

- Rene R. Rocha

Director

- Stephen Warren

Undergraduate minor: Native American and Indigenous studies

Undergraduate certificate: Native American and Indigenous studies

Graduate certificate: Native American and Indigenous studies

Faculty: https://nativeamericanstudies.uiowa.edu/people

Website: https://nativeamericanstudies.uiowa.edu/

Native American and Indigenous studies (NAIS) is an interdisciplinary program that focuses on the histories, cultures, literatures, and contemporary legal and political issues of Native North Americans and the Indigenous peoples of the world.

Students taking NAIS courses begin to understand the historical and contemporary social issues facing Indigenous peoples within the international and global context of settler colonialism. Courses provide students with a better understanding of ethnic, social, and political diversity. The curriculum provides students with teaching methods that cross conventional disciplinary boundaries, and that involve visiting and learning more about regional Native American communities. Through engagement with Native peoples from Iowa and the Midwest, students will learn how to communicate knowledge to audiences both within and beyond the classroom. Students thereby gain expertise for employment in advocacy, social services, health care, education, and other areas that require cross-cultural understanding and communication with diverse public audiences. Students also gain a background for more specialized or advanced study in a variety of disciplines, including anthropology; economics; education; ethnic studies; gender, women's, and sexuality studies; geography; history; political science; psychology; religious studies; and social justice.

A certificate or minor in NAIS also complements preprofessional and professional training in areas such as health care, business, social work, and law.

The Native American and Indigenous Studies Program is administered by the Department of American Studies [p. 51].

Courses

Native American and Indigenous Studies Courses

NAIS:1049 Introduction to Native American and Indigenous Studies **3 s.h.**
Exploration of past, present, and future of American Indians in the United States and beyond through film, art, music, and comedy. GE: Values and Society. Same as AMST:1049, HIST:1049.

NAIS:1095 Native American Art **3 s.h.**
Survey of the visual arts of Indigenous peoples in North America with emphasis on regions that have become the United States; exploration of painting, sculpture, ceramics, fiber arts, performance, and architecture as expressions of identity, creativity, resistance, and resilience from ancestral traditions through transformations prompted by non-Native contact to today's vibrant art scene. GE: Literary, Visual, and Performing Arts; Values and Society. Same as ARTH:1095.

NAIS:1290 Native American Foods and Foodways **3 s.h.**
Native Americans as original farmers of 46% of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of Indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. GE: Understanding Cultural Perspectives. Same as AMST:1290, GHS:1290, HIST:1290.

NAIS:1500 Topics in Native American and Indigenous Studies **3 s.h.**
Native American and Indigenous peoples; concepts, problems, and issues.

NAIS:2165 Native Peoples of North America **3 s.h.**
History, culture of American Indian peoples; emphasis on North America. GE: Understanding Cultural Perspectives. Same as AMST:2165, ANTH:2165.

NAIS:2292 Native American Law and Policy: A History **3 s.h.**
Native Americans are citizens of governments that predate the U.S.; what it means to be a citizen of a federally recognized tribe within the U.S.; exploration of the peculiar status of Native nations and their citizens since 1789. Same as AMST:2292, HIST:2292.

NAIS:2300 Native Americans in Film **3 s.h.**
Representations of Native Americans in film from the western to science fiction and animation. Same as AMST:2300.

NAIS:2500 Indigenous Art, Land, and Social Justice 3 s.h.
Examples, readings, discussions, and special projects to examine contemporary visual, performance, and multimedia art by Native North American and other Indigenous artists as a component of broader indigenous activism for social justice and defense of land.

NAIS:3110 Colonialism and Indigenous Health Equity 3 s.h.
Health problems and services for Indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101 or ANTH:2165 or GHS:2000 or HIST:1049 or CPH:1400. Same as ANTH:3110, CBH:4200, GHS:3110.

NAIS:3145 Excavation to Exhibit: Making Artifacts Public 3 s.h.
In-depth exploration of methodological, theoretical, and historical issues in the creation of archaeological museum exhibitions including hands-on learning involving the development of an exhibit for the Stanley Museum of Art. Same as ANTH:3145, MUSM:3145.

NAIS:3240 Cultural Resources Management Archaeology: Practice and Practicalities 3 s.h.
Cultural Resources Management (CRM) archaeology is the largest sector of archaeological research in the United States in terms of employment, funding, field- and lab-related activity; students investigate the past and navigate complexities of compliance requirements from federal, state, and local regulations concerning historic preservation; introduction to legal, procedural, and practical foundations of CRM archaeology; preparation for employment by acquisition of skills from project planning through dissemination of results. Recommendations: completion of other anthropology, geography, history, or Native American studies courses. Same as ANTH:3240.

NAIS:3243 Archaeology of the American Midcontinent 3 s.h.
Survey of the archaeology of the American midcontinent for students interested in the past beyond what historical documents reveal; exploration of Late Pleistocene and Archaic hunter-gatherer adaptations, Woodland and Late Prehistoric horticulturalists, Middle and Upper Mississippian emergent chiefdoms, and historic period first contact, fur trade, and fort sites; how archaeologists utilize regional archaeological data in addressing culture change issues to develop the essential grounding for understanding how people lived in different times and places in the past, and how prehistoric peoples relate to their modern descendants across the midcontinent. Recommendations: ANTH:1201. Same as ANTH:3243.

NAIS:3257 North American Archaeology 3 s.h.
Prehistoric cultural development north of Mexico from initial occupation to European contact and conquest; emphasis on dynamics of culture change. Same as ANTH:3257.

NAIS:3270 Colonial North America, ca. 1600-1775 3 s.h.
Introduction to major themes in colonial American history prior to the American Revolution; Native American history; colonialism and Native resistance; slavery; material culture; religion and spirituality; immigration; gender and sexuality in cross-cultural perspective. Same as HIST:3270.

NAIS:3272 Native Americans in the Age of Empires, ca. 1500-1815 3 s.h.
Overview of major issues in Native American history during the period of European Imperialism; colonialism, diplomacy and alliance building, warfare, captivity, religious and spiritual exchanges, revolution, and the disintegration of Native-European alliances in the early 19th century. Same as HIST:3272.

NAIS:3289 The Atlantic World c. 1450-1850 3 s.h.
Interactions between peoples of Europe, Africa, and the Americas between the 15th and mid-19th centuries, interconnected system of exchange that defied national and imperial boundaries; encounters between Native Americans, Africans, and Europeans in different parts of the Americas; forced and voluntary resettlement of Africans and Europeans overseas; development of plantation slave societies; biological consequences of transatlantic contact; circulation of people, goods, and ideas; development of creole societies; era of revolutions; abolition of slavery. Same as HIST:3289.

NAIS:3305 Human Osteology 3 s.h.
The human skeletal system; normal and pathologic variation; skeletal measurement and analysis with application to paleoanthropology, forensic, and archaeological investigations. Same as ANTH:3305.

NAIS:3430 Environmental Politics and Indigeneity 3 s.h.
Examination of contemporary environmental challenges through the lens of indigeneity; exploration of the concepts of environment and indigeneity, and development of a guiding framework for analyzing environmental challenges; application of this framework to analyze themes including climate change, biodiversity, food production, management of genetic resources, extractivism, and sustainable development; environmental/indigenous scholars and activists share their work and insights. Same as POLI:3430.

NAIS:3432 Agriculture Politics and Policy 3 s.h.
Examination of local, national, and international politics and policies around agriculture including genetically modified organisms (GMOs), subsidies, trade, genetic seed banks, sustainability, and indigeneity. Same as POLI:3432.

NAIS:3441 Native American Literature 3 s.h.
Native American literature and culture. Same as ENGL:3441.

NAIS:3502 History of Mexico 3 s.h.
Mexican history since the eve of the Spanish invasion, with focus on the national period; indigenous groups, conquest and demographic disaster, Native survival, labor and migration, social protest and rebellions, nationhood, revolution, regional differences, religions, popular culture, economic growth and distribution, state building, environmental change, international relations; survey. Same as HIST:3502, LAS:3502.

NAIS:3580 Native American Public Policy 3 s.h.
Exploration of ways that Native nations govern themselves, including the relationship between these sovereign entities and the U.S. government; topics include Indian Child Welfare Act, membership and enrollment, income and taxation, crime and justice; how these systems have changed over time; current practices and innovations that have emerged within different tribes. Same as PBAF:3580.

NAIS:4500 Special Topics in Native American and Indigenous Studies 1-3 s.h.
Native American and Indigenous peoples; concepts, problems, and issues.

NAIS:4990 Independent Study arr.

NAIS:5099 American Indian and Native Studies Proseminar **1 s.h.**
Intensive reading on designated topics with multidisciplinary relevance in Native American and Indigenous studies; may include screenings, field trips, guest speakers, special events.

NAIS:6050 Seminar: Topics in Native American and Indigenous Studies **3 s.h.**
Native American and Indigenous peoples; concepts, problems, and issues.

NAIS:6099 Independent Study Project **arr.**
Completion of a significant scholarly project that addresses the scope, goals, and ongoing development of Native American and Indigenous studies as an academic field; findings presented on campus (e.g., NAIS steering committee or in association with an NAIS-sponsored event) or at an academic conference.

NAIS:6620 Readings in Native American Literatures **3 s.h.**
Same as ENGL:6620.

NAIS:7202 Readings: 20th-Century Native American History **arr.**
Examination of the Indigenous 20th century through a series of themes including settler colonialism, sovereignty and self-determination, federal Indian policy, and Indigenous feminism; readings focus primarily on secondary sources, but attention is given to key primary sources; students are required to carry out specified research tasks. Same as HIST:7202.

Native American and Indigenous Studies, Minor

Requirements

The minor in Native American and Indigenous studies (NAIS) requires a minimum of 15 s.h., including at least 12 s.h. in courses completed at the University of Iowa. Students must earn a grade-point average of at least 2.00 in all coursework completed for the minor.

Students complete one introductory course and 12 s.h. in elective coursework. Elective courses reflect the program's emphasis on Indigenous histories in the Americas, Indigenous cultures and literatures, and Indigenous peoples in global perspectives. Elective courses from several departments ensure that students are exposed to different themes. Students may consult with the NAIS coordinator.

The minor in Native American and Indigenous studies requires the following coursework.

Introductory Courses

Course #	Title	Hours
One of these:		
NAIS:1049/ AMST:1049/ HIST:1049	Introduction to Native American and Indigenous Studies	3
NAIS:2165/ AMST:2165/ ANTH:2165	Native Peoples of North America	3
NAIS:2292/ AMST:2292/ HIST:2292	Native American Law and Policy: A History	3

Elective Courses

Students must choose 12 s.h. in elective coursework. They may petition for minor credit for courses not in the following list that contain significant Indigenous content.

Course #	Title	Hours
NAIS:1049/ AMST:1049/ HIST:1049	Introduction to Native American and Indigenous Studies (if not taken as an introductory course)	3
NAIS:1095/ ARTH:1095	Native American Art	3
NAIS:1290/ AMST:1290/ GHS:1290/ HIST:1290	Native American Foods and Foodways	3
NAIS:1500	Topics in Native American and Indigenous Studies	3
NAIS:2165/ AMST:2165/ ANTH:2165	Native Peoples of North America (if not taken as an introductory course)	3
NAIS:2292/ AMST:2292/ HIST:2292	Native American Law and Policy: A History (if not taken as an introductory course)	3
NAIS:2300/ AMST:2300	Native Americans in Film	3
NAIS:2500	Indigenous Art, Land, and Social Justice	3
NAIS:3110/ ANTH:3110/ CBH:4200/ GHS:3110	Colonialism and Indigenous Health Equity	3
NAIS:3145/ ANTH:3145/ MUSM:3145	Excavation to Exhibit: Making Artifacts Public	3
NAIS:3240/ ANTH:3240	Cultural Resources Management Archaeology: Practice and Practicalities	3
NAIS:3243/ ANTH:3243	Archaeology of the American Midcontinent	3
NAIS:3257/ ANTH:3257	North American Archaeology	3
NAIS:3270/ HIST:3270	Colonial North America, ca. 1600-1775	3
NAIS:3272/ HIST:3272	Native Americans in the Age of Empires, ca. 1500-1815	3
NAIS:3289/ HIST:3289	The Atlantic World c. 1450-1850	3
NAIS:3305/ ANTH:3305	Human Osteology	3
NAIS:3430/ POLI:3430	Environmental Politics and Indigeneity	3
NAIS:3432/ POLI:3432	Agriculture Politics and Policy	3
NAIS:3441/ ENGL:3441	Native American Literature	3
NAIS:3502/ HIST:3502/ LAS:3502	History of Mexico	3
NAIS:3580/ PBAF:3580	Native American Public Policy	3
NAIS:4500	Special Topics in Native American and Indigenous Studies	1-3
ENGL:2505	Introduction to Postcolonial Studies	3
ENGL:3431	American Novel Since 1945 (when topic is Native American literature)	3
ENGL:3515	Topics in Postcolonial Studies	3
FREN:4090	Quebec Literature	3
GWSS:3350/ ANTH:3125/IS:3350	Transnational Feminism	3
HIST:1040	Diversity in History (when topic is Indigenous feminisms; consult instructor)	3
HIST:2151	Introduction to the History Major (when topic is focused on Indigenous peoples)	3
HIST:3273	War and Violence in Early American Societies and Culture	3
HIST:4130/ MUSM:4130	Museum Literacy and Historical Memory	3
SPAN:3240	Mexico City	3

Native American and Indigenous Studies, Certificate

Requirements

The undergraduate Certificate in Native American and Indigenous Studies (NAIS) requires a minimum of 18 s.h., including at least 12 s.h. in courses completed at the University of Iowa. Students must earn a grade-point average of at least 2.00 in all certificate coursework.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

All students develop an individual certificate plan of study in consultation with the NAIS coordinator. In some cases, students may be able to count certificate courses toward certain GE CLAS Core [p. 22] requirements. Students complete one introductory course and 15 s.h. in elective coursework. Elective courses reflect the certificate program's emphasis on Indigenous histories in the Americas, Indigenous cultures and literatures, and Indigenous peoples in global perspectives. Elective courses from several departments ensure that students are exposed to different themes.

The Certificate in Native American and Indigenous Studies requires the following coursework.

Introductory Courses

Course #	Title	Hours
One of these:		
NAIS:1049/ AMST:1049/ HIST:1049	Introduction to Native American and Indigenous Studies	3

SPAN:3240	Mexico City	3

Native American and Indigenous Studies, Graduate Certificate

Requirements

The graduate Certificate in Native American and Indigenous Studies (NAIS) requires a minimum of 15 s.h. in courses numbered 3000 and above. Students must maintain a grade-point average of at least 3.00 in coursework toward the certificate.

Students must contact the NAIS coordinator in order to apply to the certificate program, and they work with the NAIS coordinator to develop a plan of study.

Students who earned an undergraduate certificate in the program may not receive a graduate certificate.

Native American and Indigenous studies aims to expose students to the interdisciplinary nature of the field. NAIS emphasizes Indigenous histories in the Americas, Indigenous cultures and literatures, and Indigenous peoples in global perspectives.

Students may petition for certificate credit for courses that are not on the list. The petition must show that the course contains significant Indigenous content. Before enrolling in any courses for the graduate certificate, students should contact the NAIS coordinator.

Neuroscience

Chair, Department of Biology

- Tina L. Tootle

Undergraduate major: neuroscience (BS)

Faculty: https://clas.uiowa.edu/neuroscience

Website: https://clas.uiowa.edu/neuroscience

The departments of Biology and Psychological and Brain Sciences collaborate to offer the Bachelor of Science degree in neuroscience. The neuroscience program is also closely aligned with the Iowa Neuroscience Institute (INI). The program is administered by the Department of Biology [p. 141].

Programs

Undergraduate Program of Study

Major

- Major in Neuroscience (Bachelor of Science) [p. 876]

Neuroscience, BS

Learning Outcomes

Students will:

- learn how molecules and cells generate brain circuits that build human behavior and cognition;
- design effective experiments;
- think critically about scientific data;
- communicate effectively about neuroscience; and
- be prepared for graduate education in neuroscience or related life-science fields; for medical school or other health-related programs such as public health or nursing; or for a first step in a career, including work in biomedical industries, academic laboratories, and science education.

Requirements

The Bachelor of Science with a major in neuroscience requires a minimum of 120 s.h., including at least 64 s.h. of work for the major. Coursework includes neuroscience, chemistry, biochemistry, mathematics, and physics courses. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students who major in neuroscience may not earn a major in biology or psychology, but may earn a minor in biology or psychology as long as no more than 3 s.h. are double counted.

The BS with a major in neuroscience requires the following coursework.

Requirements	Hours
Cognate Requirements	20
Introductory Courses	8
Core Courses	17
Laboratory Course	4
Neuroscience Electives	15

Cognate Requirements

Course #	Title	Hours
This sequence:		
CHEM:1110 & CHEM:1120	Principles of Chemistry I and Principles of Chemistry II	8
One of these sequences:		
PHYS:1511 & PHYS:1512	College Physics I and College Physics II (preferred)	8
PHYS:1611 & PHYS:1612	Introductory Physics I and Introductory Physics II	8
One of these:		
MATH:1460	Calculus for the Biological Sciences (preferred)	4
MATH:1550	Engineering Calculus I	4
MATH:1850	Calculus I	4

Introductory Courses

Course #	Title	Hours
Both of these:		
BIOL:1411	Foundations of Biology	4
PSY:2701	Introduction to Behavioral Neuroscience	4

Core Courses

Course #	Title	Hours
All of these:		
BIOL:3253	Neurobiology I	4
BIOL:3254	Neurobiology II	4
PSY:2811 & PSY:2812	Research Methods and Data Analysis in Psychology I and Research Methods and Data Analysis in Psychology II	6
PSY:2975	Introduction to Cognitive Neuroscience	3

Laboratory Course

Course #	Title	Hours
One of these:		
BIOL:3245	Animal Behavior Laboratory	4
BIOL:3655	Neurogenetics Laboratory	4
BIOL:3656	Neurobiology Laboratory	4
PSY:4025	Laboratory in Cognitive Neuroscience	4
PSY:4035	Laboratory in Computational Neuroscience	4

Neuroscience Electives

Course #	Title	Hours
A minimum of five courses (15 s.h.) from these:		
BIOL:1412	Diversity of Form and Function	4
BIOL:2254	Endocrinology	3
BIOL:2512	Fundamental Genetics	4
BIOL:2723	Cell Biology	3
BIOL:3244	Animal Behavior	3
BIOL:3343	Animal Physiology	3
BIOL:4333	Genes and Development	3
CHEM:2210	Organic Chemistry I	3
PCOL:3101	Pharmacology I: A Drug's Fantastic Journey	3
PSY:3035	Science of Emotion	3
PSY:3040	Psychology of Learning	3
PSY:3055	Interdisciplinary Science of Sound and Hearing	3
PSY:3060	Sensation and Perception	3
PSY:3075	The Damaged Brain	3
PSY:3250	Neuroscience of Learning and Memory	3
PSY:3265	Cognitive and Clinical Neuroscience of Executive Functions	3
PSY:3270	Neurobiology of Stress	3
PSY:3275	The Science of Sleep	3

PSY:3360	The Psychosis Spectrum	3
PSY:3575	Social Cognition in Autism	3
PSY:4090	Psychology Seminar (when topic is social cognitive neuroscience or learning and decision making)	3
May include one of these:		
BIOL:3999/ PSY:3999	Independent Research in Neuroscience	3
BIOL:4995/ PSY:4995	Honors Research in Neuroscience	3
May include one of these:		
PCOL:3102	Pharmacology II: Mechanisms of Drug Action	3
PSY:3230	Psychopharmacology	3
May include one of these:		
BMB:3110	Biochemistry	3
BMB:3120	Biochemistry and Molecular Biology I	3

Honors

Honors in the Major

Students majoring in neuroscience have the opportunity to graduate with honors in the major. Departmental honor students must maintain a major grade-point average (GPA) and a UI GPA of at least 3.33.

In order to earn honors in the neuroscience major, students must complete the following.

- A minimum of 6 s.h. over two or more semesters of an independent laboratory research project undertaken in the laboratory of an Iowa Neuroscience Institute (INI) faculty member chosen from a list of approved mentors. Students enroll in BIOL:4995/PSY:4995 Honors Research in Neuroscience.
- A brief initial research proposal summarizing the background and goals of the planned honors investigations research, submitted to the honors coordinator, typically at the end of the semester immediately prior to the final semester of honors research.
- An acceptable honors thesis describing the research submitted to the honors coordinator near the end of the final semester of enrollment in BIOL:4995/PSY:4995 Honors Research in Neuroscience.
- An oral presentation of the honors research findings during the student's final semester.

Honors students are also encouraged to participate in the Office of Undergraduate Research (OUR) and to apply for research scholarships, including the Iowa Neuroscience Institute (INI) Summer Scholars Fellowships.

Neuroscience majors interested in graduating with honors in the major should contact the honors coordinator as early as possible, preferably during their sophomore or junior year.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Students who satisfy the requirements for honors in the neuroscience major also satisfy the experiential learning requirement of the university honors curriculum.

Membership in the UI Honors Program is not required to earn honors in the neuroscience major.

Career Advancement

The major provides students with a rigorous and broad background in neuroscience, from the cellular and molecular levels to the behavioral and cognitive levels. Students earning a degree in neuroscience will be well prepared to pursue graduate work in neuroscience or related life sciences, attend medical school, or enter other health-related programs such as a physician's assistant program, public health, or nursing. Graduates will also be prepared to directly enter the workforce in biotechnology industries, academic life science laboratories, or in science education, and science writing.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: BIOL:1411 Foundations of Biology, CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, MATH:1460 Calculus for the Biological Sciences (can also be taken during the third semester) or MATH:1550 Engineering Calculus I or MATH:1850 Calculus I, and PSY:2701 Introduction to Behavioral Neuroscience.

Before the fifth semester begins: PHYS:1511 College Physics I or PHYS:1611 Introductory Physics I, PSY:2811 Research Methods and Data Analysis in Psychology I, PSY:2812 Research Methods and Data Analysis in Psychology II, and PSY:2975 Introduction to Cognitive Neuroscience.

Before the seventh semester begins: one of the five approved laboratory courses and PHYS:1512 College Physics II or PHYS:1612 Introductory Physics II.

Before the eighth semester begins: BIOL:3253 Neurobiology I and three required neuroscience electives.

During the eighth semester: BIOL:3254 Neurobiology II, remaining required neuroscience electives, enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [i]		
	Hours	**16-18**
	Total Hours	**123-136**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b It is strongly recommended that neuroscience majors take this course as their GE CLAS Core: Social Science requirement and that they do so in their first semester.

c Enrollment in chemistry courses requires completion of a placement exam.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Enrollment in math courses requires completion of a placement exam.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g See General Catalog for a list of courses.

h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all

requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Philosophy

Chair

- Ali M. Hasan

Undergraduate major: philosophy (BA)

Undergraduate minor: philosophy

Graduate degrees: MA in philosophy; PhD in philosophy

Faculty: https://philosophy.uiowa.edu/people/faculty

Website: https://philosophy.uiowa.edu/

The Department of Philosophy offers programs of study for undergraduate and graduate students. A major in philosophy develops abilities useful for careers in many fields and for any situation requiring clear, systematic thinking.

The department also administers the interdisciplinary undergraduate major in ethics and public policy, which it offers jointly with the departments of Economics, Sociology and Criminology, and Political Science; see Ethics and Public Policy [p. 459] in the catalog.

Programs

Undergraduate Programs of Study

Major

- Major in Philosophy (Bachelor of Arts) [p. 884]

Minor

- Minor in Philosophy [p. 888]

Graduate Programs of Study

- Master of Arts in Philosophy [p. 889]
- Doctor of Philosophy in Philosophy [p. 891]

Courses

For more detailed descriptions of undergraduate and graduate courses offered during a given session, visit MyUI before early registration. Graduate students can take courses numbered 4000–7900 for graduate credit.

Philosophy Courses

PHIL:1010 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

PHIL:1033 The Meaning of Life **3 s.h.**
Philosophical investigation of the nature of human life and of what makes human life valuable and/or meaningful. GE: Historical Perspectives.

PHIL:1034 Liberty and the Pursuit of Happiness **3 s.h.**
Examination of conflict between state power and individual liberty; philosophical and historical examination of theories from Plato through today. GE: Historical Perspectives.

PHIL:1401 Matters of Life and Death **3 s.h.**
Contemporary ethical controversies with life and death implications; topics may include famine, brain death, animal ethics, abortion, torture, terrorism, capital punishment. GE: Values and Society.

PHIL:1636 Principles of Reasoning: Argument and Debate **3 s.h.**
Critical thinking and its application to arguments and debates. GE: Quantitative or Formal Reasoning.

PHIL:1861 Introduction to Philosophy **3 s.h.**
Varied topics; may include personal identity, existence of God, philosophical skepticism, nature of mind and reality, time travel, and the good life; readings, films. GE: Values and Society.

PHIL:1950 Philosophy Club **1-3 s.h.**
Relevant philosophical debates as they are exhibited in current events, text, and film; participation through discussions and film screenings.

PHIL:2111 Ancient Philosophy **3 s.h.**
Ancient Greek philosophy from Thales to Aristotle; pre-Socratic cosmologists, Socrates, ancient medicine and religion, rivalry between sophists and philosophers; primary focus on reaction of Plato and Aristotle to this intellectual inheritance culminating in their greatest achievement, the invention of systematic philosophy.

PHIL:2214 Seventeenth-Century Philosophy **3 s.h.**
Varied topics; may include free will, the mind-body problem, existence of God, relationship between God and creatures, science and religion, stoicism, early feminism; Francis Bacon, Rene Descartes, Margaret Cavendish, Baruch Spinoza, Anne Conway, G.W. Leibniz, Mary Astell, John Locke.

PHIL:2215 Modern Philosophy **3 s.h.**
Varied topics; may include free will, the mind-body problem, existence of God, creation versus evolution, subjectivity of perception, limits of cognition, the good life; Rene Descartes, Margaret Cavendish, Baruch Spinoza, Anne Conway, G.W. Leibniz, Mary Astell, John Locke, George Berkeley, David Hume, Immanuel Kant.

PHIL:2216 Eighteenth-Century Philosophy **3 s.h.**
Varied topics; may include appearance versus reality, empiricism and science, the mind-body problem, existence of God, creation versus evolution, subjectivity of perception, limits of cognition, the good life, and early feminism; Mary Astell, John Locke, George Berkeley, David Hume, Immanuel Kant, and Thomas Reid.

PHIL:2343 Philosophy East and West **3 s.h.**
Conception of human good in the East and in the West.

PHIL:2402 Introduction to Ethics **3 s.h.**
Analytical and historical introduction to ethical theories; issues such as the nature of the goodness, distinction between right and wrong. GE: Values and Society.

PHIL:2415 Bioethics **3 s.h.**
Recent developments in biotechnology and medicine; designer babies and cloning, genetic screening for disease, distributive justice in health care, animal experimentation, physician-assisted suicide, and euthanasia. Same as GHS:2415.

PHIL:2422 Feminist Ethics **3 s.h.**
Philosophical evaluation of gender as a pervasive and persistent structuring principle for social inequality. Same as GWSS:2422.

PHIL:2425 Sex, Marriage, Friendship, and the Law 3 s.h.
Examination and evaluation of ways in which society and law have privileged or discouraged certain forms of sexual activity and certain forms of adult intimate relationships. GE: Understanding Cultural Perspectives.

PHIL:2429 War, Terrorism, and Torture 3 s.h.
Examination of some of the most compelling ethical and legal questions surrounding the topic of war: Can a war ever be just? If so, under which conditions is one justified in waging war? Are there limitations on permissible ways to fight a war? How are acts of terrorism different from acts of war? Is torture ever justified?

PHIL:2432 Introduction to Political Philosophy 3 s.h.
Survey of central problems in political philosophy; focus on liberty, equality, justice, and purpose of the state; core philosophers may include John Locke, Jean-Jacques Rousseau, Thomas Hobbes, John Stuart Mill, and John Rawls.

PHIL:2435 Philosophy of Law 3 s.h.
Examination of jurisprudential theories and their answers to the question, "What is law?"; intersection between law and morality, legal punishment, political obligation, constitutional interpretation.

PHIL:2436 The Nature of Evil 3 s.h.
The nature of evil explored through philosophical texts, videos and films, case studies of individuals.

PHIL:2437 Introduction to Metaphysics 3 s.h.
Questions about the ultimate nature of reality and our place in it: What is the nature of space and time? Is time travel possible? What is the self and how does it persist through time and change? What is the nature of causation? Do we have free will?

PHIL:2442 Knowledge and the Threat of Skepticism 3 s.h.
Skeptical doubt and distinction between appearance and reality; nature of knowledge and what, if anything, can we know.

PHIL:2480 Language and Its Social Roles 3 s.h.
Introduction to basic concepts in philosophy of language and speech act theory; social and political uses of language including nature of speech, silencing, oppressive and hate speech, propaganda and dehumanizing language, lying and misleading with language.

PHIL:2534 Philosophy of Religion 3 s.h.
Historical to contemporary treatments of central issues; nature of faith, existence and nature of God, science and religion, ethics and religion, miracles, religious experience, interpretation of religious texts. Requirements: sophomore or higher standing. Same as RELS:2834.

PHIL:2538 Minds and Machines 3 s.h.
Questions concerning artificial intelligence: What is a mind? What is the relationship between minds and machines? What distinguishes real minds from artificial minds? Could computers or robots think or have feelings? If we create something whose intelligence surpasses that of humans, do we have a right to control it? Are your smart electronic devices parts of your mind? How has the internet changed our lives? Do we survive, perhaps immortally, if we upload contents of our minds to the internet or cloud?

PHIL:2542 Minds and Brains 3 s.h.
Nature of mind in the age of the brain; exploration of questions (How is the mind related to the brain? What do brain scans show? How does the brain process information? What is conscious experience? Is free will threatened by neuroscience? How are intuitive conceptions of memory, emotion, and other mental capacities changing?).

PHIL:2603 Introduction to Symbolic Logic 3 s.h.
Main ideas and techniques of modern natural deduction with quantifiers (all, some, most, exactly one); relations and identity; topics in philosophy of logic including nature of logic, nature of functions, logical necessity, identity as a relation, and how we know logic.

PHIL:3002 Stoics and Epicureans, or How to Live Like a Roman Sage 3 s.h.
Introduction to ethics, epistemology, and metaphysics of Stoicism and Epicureanism, two rival schools of philosophy that profoundly influenced popular and intellectual culture of the Roman Empire.

PHIL:3143 Existentialism 3 s.h.
Main ideas of existentialism, including free will, authenticity, power, nihilism; emphasis on Jean Paul Sartre, Simone de Beauvoir, Friedrich Nietzsche, Martin Heidegger, Soren Kierkegaard, Albert Camus.

PHIL:3318 Twentieth-Century Philosophy 3 s.h.
Exploration of fundamental issues that shaped philosophy in the past century; impact of the theory of evolution on philosophy; whether philosophy is a science; nature of truth and meaning; nature of necessity; nature of space, time, and being; John Dewey, Bertrand Russell, Gottlob Frege, Ludwig Wittgenstein, W.V.O. Quine, Saul Kripke, David Lewis.

PHIL:3342 Multiculturalism and Toleration 3 s.h.
Evaluation of multiculturalism as a political policy and as a personal attitude of respect; individual and collective identity, gender justice, autonomy, toleration, multiculturalism and education; contested practices.

PHIL:3430 Philosophy of Human Rights 3 s.h.
Examination of the concept of human rights; sources of human rights; how we justify calling some, while not other rights, "human rights"; applied issues in women's, children's, and anti-poverty rights.

PHIL:3604 Introduction to Philosophy of Science 3 s.h.
Examination of basic questions regarding nature of science and scientific knowledge: When is a field of inquiry a science? What counts as evidence in a science, and why? In what sense, if any, is science objective? What are scientific laws, theories, and explanations? If scientific theories are never proven with certainty, are we justified in believing them to be true? Recommendations: background in science (psychology, biology, chemistry, physics).

PHIL:3847 Philosophical Issues 3-4 s.h.
A philosophical topic or controversy.

PHIL:3902 Workshop: Analytical Skills for the LSAT 3 s.h.
Guided preparation for pre-law students who plan to take the Law School Admission Test (LSAT); exercises in analytical thinking, analytical writing, problem solving; practice developing skills in logical reasoning; reflection on professional skills and goals.

PHIL:3906 Workshop: Analytical Skills for the MCAT **3 s.h.**
Guided preparation for students who plan to take the Medical College Admission Test (MCAT); exercises in analytical thinking, analytical writing, problem solving; practice developing skills in logical reasoning; reflection on professional skills and goals.

PHIL:3908 Workshop: Analytical Skills for the GRE **3 s.h.**
Guided preparation for students who plan to take the Graduate Record Examination (GRE) and attend graduate school; exercises in analytical thinking, analytical writing, problem solving; practice developing skills in logical reasoning; reflection on professional skills and goals.

PHIL:3920 Philosophy in Public **1-3 s.h.**
Engagement and service-learning; philosophical concepts are applied to and extracted from internship work in the community and beyond.

PHIL:3950 Readings in Philosophy **arr.**
Independent study. Requirements: sophomore or higher standing.

PHIL:4152 Plato **3 s.h.**
Introduction to metaphysics, epistemology, and moral theory of Plato; topics may include the philosophy of Socrates, Plato's theory of Forms, the tripartite soul, nature of virtue and moral education; Plato's cosmology and assimilation of human nature to the divine; close reading and interpretation of specific texts.

PHIL:4153 Aristotle **3 s.h.**
Introduction to metaphysics, epistemology, and moral theory of Aristotle; topics may include Aristotle's theories of matter and form, causation, motion, change, space, void, time; Aristotle's philosophy of biology and theory of the soul; unity of virtue, nature of action and choice; the syllogism; combines survey with close reading and interpretation of specific texts.

PHIL:4258 Descartes **3 s.h.**
Descartes' systematic philosophy and impact on current debates; topics may include skepticism, the confusion of everyday experience, the mind-body problem, innate ideas and empiricism, free will, nature and existence of God, science and religion, problem of evil, stoicism.

PHIL:4260 Spinoza and Leibniz **3 s.h.**
Comparative and critical examination of metaphysical and epistemological views of 17th-century rationalists, Baruch Spinoza and G.W. Leibniz; topics may include monism, panpsychism, space and time, free will and necessity, the confusion of everyday experience, incomplete versus complete ideas, nature and existence of God, stoicism, passions and emotions as objects of detached scientific investigation.

PHIL:4266 Kant **3 s.h.**
Main ideas and major texts of Kant's metaphysics and epistemology; particular attention given to *Critique of Pure Reason*.

PHIL:4346 Frege and Russell **3 s.h.**
Major issues concerning Frege's revolution in logic, Cantor's taming of the infinite, and Russellian synthesis of these revolutions to form Logicist thesis that all of pure mathematics (including geometry) is a branch of the science of logic; central issues in the philosophy of language and analysis of logical form; Russell's theory of definite descriptions and his logicism as a paradigm for a philosophical solution to mysteries of existence, number, infinite, motion, and Zeno paradoxes.

PHIL:4373 Heidegger **3 s.h.**
Main ideas and major texts of Martin Heidegger; early and later periods; particular attention given to *Being and Time*; focus on Heidegger's analyses of Being and being-in-the-world.

PHIL:4375 Rawls's Political Philosophy **3 s.h.**
Major works by John Rawls, selected secondary readings; contractarianism, concept of justice, justice as fairness as an alternative to utilitarianism, Kantian foundations, comprehensive and political liberalism.

PHIL:4377 Wittgenstein **3 s.h.**
Main ideas and major texts of Ludwig Wittgenstein; early and later periods; particular attention given to *Tractatus*, *Philosophical Investigations*, and development of Wittgenstein's thought.

PHIL:4431 Aesthetics **3 s.h.**
Issues regarding art, aesthetic judgment, and role of art in society; investigation of questions: What is art and what is good art? What is conceptual art? Are aesthetic judgments just a matter of taste, or are some opinions about art better than others? What features of artworks matter for making such judgments, and which don't?; issues pertaining to various arts including painting and sculpture, music, fiction and poetry, performance arts; introduction to artworks and artists.

PHIL:4480 Analytic Ethics **3 s.h.**
Exploration of central meta-ethical questions: Are there objective values, and if there are, can we gain knowledge of what has such value? Should we always act so as to bring about the best consequences? If not, why not? Can we derive moral conclusions from scientifically established facts about the world? If not, does this undermine the idea that we can offer sensible arguments for ethical conclusions?

PHIL:4481 Issues in Philosophy of Law **3 s.h.**
Nature of law and legal interpretation; natural law theory and positivism; critical legal theories.

PHIL:4482 Early Modern Ethics **3 s.h.**
Thomas Hobbes' 1651 publication, *Leviathan*, set British moral philosophy on a new course, rejecting most of the presuppositions of theistic natural law theory, shocked and outraged many of his contemporaries, and set in motion a debate about the nature of morality that continues today in philosophical ethics; focus on debate between sentimentalists (Francis Hutcheson, David Hume, Adam Smith) who regarded morality as a matter of human attitudes and emotions, and rationalists (Samuel Clarke, Ralph Cudworth, Richard Price) who regarded morality as analogous to mathematics.

PHIL:4485 Political Philosophy **3 s.h.**
Political philosophy topics; may include obligation to obey the law, secession, nature of rights, limits of state power, just distribution of property, feminist criticisms.

PHIL:4510 Neuroethics **3 s.h.**
Issues that arise from advances in knowledge of brain-mind relations: cognitive neuroenhancement, neuroimaging-based lie detection and privacy, changing standards of moral and legal responsibility, justification of punishment, admissibility of neuroimaging in legal contexts.

PHIL:4586 Topics in Metaphysics **3 s.h.**
In-depth exploration of metaphysical problems: material constitution, persistence of objects and persons through time, problem of universals, mind-body problem, free will and determinism.

PHIL:4587 Epistemology 3 s.h.
Theories of nature, structure, and extent of knowledge and rational belief; investigation of questions: Do we really know as much as we are inclined to think we do? Can we rule out the possibility that we are dreaming or being systematically deceived right now? And if we can't, what reason do we have for thinking that things are as they seem to us to be?

PHIL:4588 Philosophy of Mind 3 s.h.
Foundational questions about the mind: What is the mind, and how is it related to the brain? What makes minds so special? How do we know if other animals, or even other people, have minds? Can things without brains, such as aliens or computers, think? What is consciousness? Are we mere machines, lacking free will, if neuroscientists can explain the mind?; recent research in related sciences including neuroscience, psychology, cognitive ethology (animal cognition).

PHIL:4589 Philosophy of Language 3 s.h.
Main issues in contemporary philosophy of language; topics may include theories of meaning, truth, belief, interpretation, translation, speech acts, performatives, rule following, reference, naming, propositional attitudes, metaphor. Same as LING:4589.

PHIL:4590 Foundations of Cognitive Science 3 s.h.
Cognitive science defined as the study of individual agency; its nature, mechanisms, and patterns; development of cognitive science from historical roots in psychology, computer science, neuroscience, philosophy, linguistics; key issues; motivations for and varieties of cognitive explanations; models of cognitive architecture; nature of information processing; relation between cognitive processes and experimental tasks; relation between cognitive and neural theories, models, explanations.

PHIL:4691 Mathematical Logic 3 s.h.
Presentation of logic as the science that studies kinds of structure; different axiom systems, decidability, model theoretic semantics, Gödel's incompleteness theorems; topics include nature of logic, mathematics, type-theories, set-theoretical paradoxes.

PHIL:4692 Modal Logic 3 s.h.
Presentation of systems of logic designed to capture concepts of necessity and possibility; different axiom systems, semantics, nonexistent objects; topics include nonclassical systems, nature of possible worlds, relevant entailment, transworld identity, and counterparts inhabiting parallel worlds.

PHIL:4694 Philosophy of Science 3 s.h.
Issues in the nature of science and scientific knowledge considered in greater depth; nature of causation, kinds of relations that might hold between sciences and scientific theories, and varieties of explanation. Requirements: prior coursework in philosophy.

PHIL:4798 Topics in Philosophy 3 s.h.
A single philosopher or philosophical problem.

PHIL:5373 Heidegger: Seminar Discussion 1 s.h.
Seminar discussion; for graduate students enrolled in PHIL:4373. Corequisites: PHIL:4373.

PHIL:5377 Wittgenstein: Seminar Discussion 1 s.h.
Main ideas and major texts of Ludwig Wittgenstein; early and later periods; particular attention given to *Tractatus Logico-Philosophicus*, *Philosophical Investigations*, and development of Wittgenstein's thought; seminar discussion for graduate students. Corequisites: PHIL:4377.

PHIL:6100 Seminar: Ancient Philosophy 3 s.h.

PHIL:6200 Seminar: Modern Philosophy 3 s.h.

PHIL:6300 Seminar: Philosophical Analysis 3 s.h.

PHIL:6400 Seminar: Ethics 3 s.h.

PHIL:6510 Seminar: Metaphysics 3 s.h.

PHIL:6520 Seminar: Epistemology 3 s.h.

PHIL:6620 Seminar: Philosophy of Science 3 s.h.

PHIL:6920 Philosophy Colloquium 1-3 s.h.
Attendance and participation at departmental colloquia and precolloquium meetings; lunch with visiting speakers; weekly meetings to discuss background to topic and larger issues of professionalization.

PHIL:7200 Research: History of Philosophy arr.

PHIL:7400 Research: Value Theory arr.

PHIL:7500 Research: Metaphysics and Epistemology arr.

PHIL:7600 Research: Logic and Philosophy of Science arr.

PHIL:7900 Thesis arr.

Philosophy, BA

Undergraduate courses in philosophy are designed to impart knowledge of fundamental issues and main developments in philosophy while strengthening logical and analytic skills.

The department sponsors an active Philosophy Club that hosts informal discussion meetings, movie nights, outreach events, departmental public lectures and colloquia, and other activities. The department also offers a service-learning course, PHIL:3920 Philosophy in Public.

Learning Outcomes

The goals of philosophical training are:

- to think critically and make well-grounded arguments, both orally and in written work;
- to understand key philosophical problems and major traditions;
- to learn variegated approaches to solving problems;
- to detect problems and puzzles that are not readily apparent;
- to develop critical listening;
- to learn a step-by-step approach to the mastery of public speaking; and
- to read and interpret all forms of text—news reports, books, film, TV, etc.

Department of Philosophy Initiatives

- Applying philosophical concepts to everyday affairs.
- Creating community through movie nights, the philosophy club, public lectures, optional one-hour lab sections for students to work more closely with research faculty, an undergraduate colloquium series, and the undergraduate journal, Labyrinth.
- Outreach and engagement; for example, through the service-learning course, PHIL:3920 Philosophy in Public, the K–12 Iowa Lyceum Summer Philosophy Institute, and outreach with the Johnson County Senior Center.
- The philosophy undergraduate internship program.
- Prompt and helpful advising.
- An annual newsletter that connects students with successful alumni.

Requirements

The Bachelor of Arts with a major in philosophy requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. A minimum of 15 s.h. for the major must be earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students should discuss the requirements for the major with an advisor as soon as possible. The advisor can suggest the most effective order for taking courses, based on each student's interests and on the relation of the course topics to each other. See Courses [p. 880] in this section of the catalog for a complete listing of philosophy courses.

Students can only count one of these courses toward the major.

Course #	Title	Hours
PHIL:3902	Workshop: Analytical Skills for the LSAT	3
PHIL:3906	Workshop: Analytical Skills for the MCAT	3
PHIL:3908	Workshop: Analytical Skills for the GRE	3

Of the 30 s.h. of philosophy coursework (prefix PHIL) required for the major, at least two courses must be numbered 3000 or above.

The BA with a major in philosophy requires the following coursework.

Requirements	Hours
Value Theory Courses	6
Metaphysics/Epistemology Courses	6
Ancient Philosophy Course	3
Modern Philosophy Course	3
Introductory Logic Course	3
Philosophy Electives	9

Only 6 s.h. of the total hours required for the major can be taken in coursework numbered 1000–1999 (see the following list for options).

Course #	Title	Hours
May take two courses from these:		
PHIL:1033	The Meaning of Life	3
PHIL:1034	Liberty and the Pursuit of Happiness	3
PHIL:1401	Matters of Life and Death	3
PHIL:1636	Principles of Reasoning: Argument and Debate	3
PHIL:1861	Introduction to Philosophy	3

Value Theory

Course #	Title	Hours
At least two of these:		
PHIL:2402	Introduction to Ethics	3
PHIL:2415	Bioethics	3
PHIL:2422	Feminist Ethics	3
PHIL:2425	Sex, Marriage, Friendship, and the Law	3
PHIL:2429	War, Terrorism, and Torture	3
PHIL:2432	Introduction to Political Philosophy	3
PHIL:2435	Philosophy of Law	3
PHIL:2436	The Nature of Evil	3
PHIL:3342	Multiculturalism and Toleration	3
PHIL:3430	Philosophy of Human Rights	3
PHIL:4375	Rawls's Political Philosophy	3
PHIL:4431	Aesthetics	3
PHIL:4480	Analytic Ethics	3
PHIL:4481	Issues in Philosophy of Law	3
PHIL:4482	Early Modern Ethics	3
PHIL:4485	Political Philosophy	3
PHIL:4510	Neuroethics	3
May be taken with permission of the instructor if content is applicable:		

PHIL:3847	Philosophical Issues	3
PHIL:4152	Plato	3
PHIL:4153	Aristotle	3
PHIL:4798	Topics in Philosophy	3
PHIL:6100	Seminar: Ancient Philosophy	3
PHIL:6200	Seminar: Modern Philosophy	3
PHIL:6300	Seminar: Philosophical Analysis	3
PHIL:6400	Seminar: Ethics	3

Metaphysics/Epistemology

Course #	Title	Hours
At least two of these:		
PHIL:2343	Philosophy East and West	3
PHIL:2437	Introduction to Metaphysics	3
PHIL:2442	Knowledge and the Threat of Skepticism	3
PHIL:2480	Language and Its Social Roles	3
PHIL:2534	Philosophy of Religion	3
PHIL:2538	Minds and Machines	3
PHIL:2542	Minds and Brains	3
PHIL:3002	Stoics and Epicureans, or How to Live Like a Roman Sage	3
PHIL:3143	Existentialism	3
PHIL:3318	Twentieth-Century Philosophy	3
PHIL:3604	Introduction to Philosophy of Science	3
PHIL:4258	Descartes	3
PHIL:4260	Spinoza and Leibniz	3
PHIL:4266	Kant	3
PHIL:4346	Frege and Russell	3
PHIL:4373	Heidegger	3
PHIL:4377	Wittgenstein	3
PHIL:4586	Topics in Metaphysics	3
PHIL:4587	Epistemology	3
PHIL:4588	Philosophy of Mind	3
PHIL:4589	Philosophy of Language	3
PHIL:4590	Foundations of Cognitive Science	3
PHIL:4694	Philosophy of Science	3
May be taken with permission of the instructor if content is applicable:		
PHIL:3847	Philosophical Issues	3
PHIL:4152	Plato	3
PHIL:4153	Aristotle	3
PHIL:4798	Topics in Philosophy	3
PHIL:6100	Seminar: Ancient Philosophy	3
PHIL:6200	Seminar: Modern Philosophy	3
PHIL:6300	Seminar: Philosophical Analysis	3
PHIL:6510	Seminar: Metaphysics	3
PHIL:6520	Seminar: Epistemology	3
PHIL:6620	Seminar: Philosophy of Science	3

Ancient Philosophy

Course #	Title	Hours
This course:		
PHIL:2111	Ancient Philosophy	3

Modern Philosophy

Course #	Title	Hours
At least one of these:		
PHIL:2214	Seventeenth-Century Philosophy	3
PHIL:2215	Modern Philosophy	3
PHIL:2216	Eighteenth-Century Philosophy	3

Introductory Logic

Course #	Title	Hours
This course:		
PHIL:2603	Introduction to Symbolic Logic	3

Combined Programs

BA/JD

The Department of Philosophy participates in the 3+3 program with the College of Law which allows students the opportunity to apply for admission during their junior year to the College of Law, and if accepted, to begin work on the Juris Doctor degree during their fourth year of study in the BA degree program.

For more information, see the 3+3 Program for Undergraduates on the College of Law website and the Juris Doctor, JD [p. 1833] (College of Law) in the catalog.

Honors

Honors in the Major

Students majoring in philosophy have the opportunity to graduate with honors in the major. In order to be admitted to the departmental honors program, a student must have taken and passed three courses required for the philosophy major. To graduate with honors in the major, students must complete the requirements for the major with a grade-point average (GPA) of at least 3.40 in philosophy coursework and a University of Iowa cumulative GPA of at least 3.33. In addition, they must write an acceptable honors thesis on a significant topic in philosophy of interest to them. Contact the department's director of undergraduate studies for more information.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the philosophy major.

Career Advancement

Philosophy graduates have a variety of career options. Many continue their education by studying law or pursuing graduate work in philosophy or other disciplines. Philosophy graduates also enter into such fields as business, medicine, scientific research, government, consulting, journalism, and K–12 education, among others.

Undergraduates are encouraged to enroll in PHIL:3920 Philosophy in Public at least one time before graduating in order to get a head start on their career trajectory. Students who intend to teach philosophy in a college setting must earn a graduate degree.

Philosophy majors earn among the very highest scores on the Law School Admission Test (LSAT), the Graduate Management Admission Test (GMAT), the Medical College Admission Test (MCAT), and the Graduate College Record Exam (GRE) General Test.

The Pomerantz Career Center offers multiple resources to help students with résumé writing, career exploration, interview skills, finding internships and jobs, and preparing for the University of Iowa job and internship fair.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: at least one course in the major.

Before the seventh semester begins: at least five courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least six courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Elective course [g]	3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [j]	
Hours	**15**
Total Hours	**123-129**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b PHIL:1861 fulfills a GE requirement. This course may also count as credit toward the major.

c Students may choose from PHIL:1033, PHIL:1034, PHIL:1401, PHIL:1636, or PHIL:1861. A student is not required to take any 1000-level courses for the major, but a 1000-level course often serves as an important introduction to help a student determine which particular topics they might want to pursue at a more advanced level.

d Students may include no more than 6 s.h. of 1000-level PHIL courses toward the major.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f PHIL:1636 is recommended for the GE CLAS Core Quantitative or Formal Reasoning requirement. It is not a major requirement.

g Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

i Students complete 30 s.h. of philosophy courses (prefix PHIL), of which at least two courses must be numbered 3000 or above.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Philosophy, Minor

Requirements

The undergraduate minor in philosophy requires a minimum of 15 s.h. in philosophy courses, including at least 9 s.h. in courses numbered 2000 or above. At least 12 s.h. for the minor must be taken at the University of Iowa. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

See Courses [p. 880] in this section of the catalog for a complete listing of philosophy courses.

Students may count only one of these courses toward the minor.

Course #	Title	Hours
PHIL:3902	Workshop: Analytical Skills for the LSAT	3
PHIL:3906	Workshop: Analytical Skills for the MCAT	3
PHIL:3908	Workshop: Analytical Skills for the GRE	3

Contact the director of undergraduate studies for more information.

Philosophy, MA

The Master of Arts in philosophy is not offered as a terminal degree. It is awarded to students as they work toward the philosophy PhD or as part of the combined MA/JD program.

Learning Outcomes

- Breadth of knowledge: demonstrate knowledge of a wide range of areas in philosophy—metaphysics and epistemology; value theory; history of philosophy; and logic, philosophy of mathematics, and philosophy of science.
- Depth of knowledge: demonstrate advanced knowledge in at least one major subarea of philosophy.
- Scholarship and research skills: develop the skills required to conduct rigorous philosophical research, including philosophical writing and communication skills; and the ability to engage others' work.
- Professionalization and career preparation: understand the disciplinary norms and standards of research, and of professional and collegial engagement with others; and develop a portfolio and skills contributing to one's career prospects, guided by one's career goals and interests, and informed by knowledge of different possible career opportunities and trajectories.

Requirements

The Master of Arts program in philosophy requires a minimum of 30 s.h. of graduate credit and is offered without thesis. Students must earn a program grade-point average of at least 3.00.

The MA in philosophy requires the following coursework.

Metaphysics and Epistemology

Course #	Title	Hours
Two of these (with earned grades of B or higher):		
PHIL:4586	Topics in Metaphysics	3
PHIL:4587	Epistemology	3
PHIL:4588	Philosophy of Mind	3
PHIL:4589	Philosophy of Language	3
PHIL:4590	Foundations of Cognitive Science	3
PHIL:6300	Seminar: Philosophical Analysis	3
PHIL:6510	Seminar: Metaphysics	3
PHIL:6520	Seminar: Epistemology	3

Ancient and Medieval Philosophy and Modern Philosophy

Course #	Title	Hours
Two of these (with earned grades of B or higher):		
Ancient and Medieval Philosophy		
PHIL:4152	Plato	3
PHIL:4153	Aristotle	3
PHIL:6100	Seminar: Ancient Philosophy	3
Modern Philosophy		
PHIL:4260	Spinoza and Leibniz	3
PHIL:4266	Kant	3
PHIL:4377	Wittgenstein	3
PHIL:6200	Seminar: Modern Philosophy	3

Logic, Philosophy of Science, and Philosophy of Mathematics

Course #	Title	Hours
One of these (with an earned grade of B or higher):		
PHIL:4346	Frege and Russell	3
PHIL:4691	Mathematical Logic	3
PHIL:4692	Modal Logic	3
PHIL:4694	Philosophy of Science	3
PHIL:6620	Seminar: Philosophy of Science	3

Value Theory

Course #	Title	Hours
One of these (with an earned grade of B or higher):		
PHIL:4375	Rawls's Political Philosophy	3
PHIL:4480	Analytic Ethics	3
PHIL:4481	Issues in Philosophy of Law	3
PHIL:4482	Early Modern Ethics	3
PHIL:4485	Political Philosophy	3
PHIL:6400	Seminar: Ethics	3

Students may be able to apply PHIL:4798 Topics in Philosophy or a research course toward one of the requirement areas. Contact the graduate studies director for more information.

Electives

All students must complete 12 s.h. in coursework numbered 4000 or above. They should consult the graduate studies director for approval of elective coursework.

Final Examination

Students must pass an oral final examination that will not exceed three hours in length. They are informed of at least one of the exam questions no later than one week before their exam. Students who fail may petition the MA examination committee for a second opportunity to pass the exam. The second exam must be scheduled no sooner than three months, nor later than one year, after the date of the examination.

Combined Programs

MA/JD

The Department of Philosophy and the College of Law offer a combined Master of Arts/Juris Doctor program. MA/JD students may count 12 s.h. earned in the combined program toward both degrees. They must earn 18 of the 30 s.h. required for the MA in graduate-level philosophy courses (the usual requirement is 24 s.h.). They also must earn a minimum of 36 s.h. in undergraduate and graduate philosophy courses, combined (the usual requirement is 42 s.h.).

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

For more information about the JD, see Juris Doctor, JD [p. 1833] (College of Law) in the catalog.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

The graduate program is designed to train teachers and scholars in philosophy. The Department of Philosophy is also invested in helping students use their philosophical training in careers outside of academia.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Philosophy, PhD

The main areas of concentration in the graduate curriculum are metaphysics, epistemology, history of philosophy, philosophy of science, social and political philosophy, logic, and value theory.

Learning Outcomes

- Breadth of knowledge: demonstrate knowledge of a wide range of areas in philosophy—metaphysics and epistemology; value theory; history of philosophy; and logic, philosophy of mathematics, and philosophy of science.
- Depth of knowledge: demonstrate advanced knowledge in a primary area of specialization and substantial knowledge in a distinct, secondary area, to support teaching and potential research in that area.
- Scholarship and research skills: develop specific research projects, including the central project of the dissertation; and develop the skills required to conduct research at a professional level, including philosophical writing and communication skills, the ability to engage others' work, and the ability to make substantial contributions in the field.
- Teaching skills and pedagogy: demonstrate effective teaching skills that are in line with pedagogical standards in the discipline, acquire teaching competence in a wide range of areas, and develop pedagogical tools for effective engagement with their students.
- Professionalization and career preparation: understand the disciplinary norms and standards of research, professional and collegial engagement with others, and responsibilities related to teaching; and develop a portfolio and skills contributing to one's career prospects, guided by one's career goals and interests, and informed by knowledge of different possible career opportunities and trajectories.

Requirements

The Doctor of Philosophy program in philosophy requires a minimum of 72 s.h. of graduate credit. Graduate students must take Department of Philosophy courses (prefix PHIL) that are numbered 4000 and above. Students must earn a Graduate College program grade-point average of at least 3.00. Candidacy for the doctoral program is determined by a formal vote of the entire Department of Philosophy faculty, usually after a student has completed three semesters of graduate study in residence.

Requirements include courses in metaphysics, epistemology, history of philosophy, logic, philosophy of science, and value theory. See Courses [p. 880] in this section of the catalog for a complete listing of philosophy courses.

Students are required to take a comprehensive examination that includes both a written dissertation prospectus and an oral defense. Upon successfully completing the exam, they begin work on their dissertation. There is no world language requirement. Contact the graduate studies director for more information.

Admission

Applications and all supporting documents for graduate admission must be submitted electronically by Feb. 1.

Applicants should submit their applications and supporting materials to the University of Iowa admissions website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

The graduate program is designed to train teachers and scholars in philosophy. The Department of Philosophy is also invested in helping students to use their philosophical training careers outside of academia.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must take Department of Philosophy courses (prefix PHIL) that are numbered 4000 and above; graduate transfer credits of up to 9 s.h. (maximum of 3 s.h. for any distribution area) allowed upon approval.

b Four main areas: 1) Metaphysics and Epistemology (metaphysics, epistemology, philosophy of mind, philosophy of language, philosophy of religion); 2) History (ancient philosophy, medieval philosophy, early modern philosophy, 19th century philosophy, 20th century philosophy; 3) Logic/Philosophy of Science/Philosophy of Mathematics (logic, philosophy of science, philosophy of mathematics); 4) Value Theory (ethics, aesthetics, political philosophy, philosophy of law).

c Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

d Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

e 9 s.h. total coursework required with grades of B or better, 3 s.h. of which should be in ancient philosophy and 3 s.h. in modern philosophy.

f 9 s.h. total coursework required with grades of B or better, 3 s.h. of which should be a seminar.

g 9 s.h. total coursework required with grades of B or better.

h Course on varied topics in the profession: pedagogy, writing, publication, career preparation, etc.

i 6 s.h. total coursework required with grades of B or better.

j Must take two additional courses in one of the four main areas of distribution; must be different from the student's area of specialization. Requested exceptions to this rule possible with approval.

k Can overlap with other requirements. Note: 9 s.h. of specialization coursework required. Must pass three courses in a specific area (e.g., metaphysics, epistemology, ancient, logic).

l Should have completed all distribution and secondary area requirements.

m Includes professionalization courses, research and thesis credit; must be numbered 4000 or above. May include coursework from other units relevant to one's philosophical research with approval.

n Written and oral exam, consisting of a written dissertation prospectus and oral defense of the prospectus.

o Work with advisor on research relevant to comprehensive exam (dissertation prospectus).

p Dissertation defense.

Physics and Astronomy

Chair

- Gregory G. Howes

Director, Undergraduate Studies

- Jane M. Nachtman

Director, Graduate Studies

- Allison N. Jaynes

Director, Research Operations

- Casey DeRoo

Undergraduate majors: physics (BA, BS); applied physics (BS); astronomy (BA, BS)

Undergraduate minors: physics; astronomy

Graduate degrees: MS in physics; MS in astronomy; PhD in physics

Faculty: https://physics.uiowa.edu/people

Website: https://physics.uiowa.edu/

The Department of Physics and Astronomy provides comprehensive and rigorous instruction in all basic aspects of its subjects. It also provides research facilities and guidance in selected specialties for advanced individual scholarly work.

In addition to its undergraduate and graduate programs of study, the department offers several courses that undergraduate students in all majors may use to satisfy the GE CLAS Core Natural Sciences requirement. Look for courses with prefixes ASTR and PHYS under "Natural Sciences" in the GE CLAS Core [p. 22] section of the catalog. The department often offers First-Year Seminars designed for entering undergraduates.

The applied physics degree offers flexibility in the choice of concentration corresponding to career goals, and can also be customized beyond the existing areas of concentration.

Students may pair a BA in physics or astronomy or a BS in applied physics with a Master of Arts in Teaching (MAT), data science, or another postgraduate degree. More information can be found on the Department of Physics and Astronomy website.

The department also participates in an interdisciplinary doctoral program, the Applied Mathematical and Computational Sciences [p. 1695] Program (Graduate College).

All of the department's courses and advanced laboratories are taught by faculty members. Faculty members also supervise associated laboratories taught by graduate students. Enrollment in courses beyond the elementary level is typically 15 to 20 students; there is ample opportunity for individual work. Special introductory courses are offered for students majoring in physics and astronomy and for others with a special interest in these subjects.

Student Organizations

The Department of Physics and Astronomy sponsors two organizations open to students for support and enrichment.

Students may join the University of Iowa undergraduate student chapter of the Society of Physics Students (SPS). Chapter activities include outreach events to community groups and local schools, helping with public observing nights at the Van Allen Observatory, faculty dinners, undergraduate colloquia, and less formal social gatherings.

The department also sponsors GradMAP, a peer mentoring program for graduate students that assists early graduate students in navigating the nuances of our graduate school, informs them about departmental, collegiate, and university resources for their professional development, and provides a network of mentorship to support them during the transition to the graduate program.

Programs

Undergraduate Programs of Study

Majors

- Major in Physics (Bachelor of Arts) [p. 899]
- Major in Astronomy (Bachelor of Arts) [p. 903]
- Major in Physics (Bachelor of Science) [p. 906]
- Major in Applied Physics (Bachelor of Science) [p. 909]
- Major in Astronomy (Bachelor of Science) [p. 913]

Minors

- Minor in Physics [p. 916]
- Minor in Astronomy [p. 917]

Graduate Programs of Study

- Master of Science in Physics [p. 918]
- Master of Science in Astronomy [p. 920]
- Doctor of Philosophy in Physics [p. 922]

Facilities

The department has a number of well-equipped laboratories and observatories. Faculty, students, and staff access national supercomputers via the internet, and have access to high performance computing clusters on campus. The central machine shop is fully equipped and staffed by skilled instrument makers and machinists, and there are electronics and machine shops for use by advanced students and research staff.

Experimental research is conducted in astronomy (optical, radio, and X-ray), atomic and molecular physics, condensed matter physics, elementary particle physics, laser physics, medical physics, plasma physics, and space physics. Extensive facilities are available for the construction of specialized research equipment and for data processing and analysis.

State-of-the-art semiconductor materials and devices are grown in two molecular beam epitaxy machines. Ultrafast laser techniques are developed and used to probe electron transport, energy relaxation, recombination, and spin dynamics in the novel nanostructures grown in these machines. Experiments are also conducted on laser-induced coherent phenomena and coherent control of charge carriers in semiconductor nanostructures. The experimental condensed matter program is closely coordinated with the condensed matter theory group.

Plasma physics is an active area of experimental and theoretical research. Laboratory experiments studying plasma processes of importance in various space and astrophysical

plasmas are performed in a Q machine, including experiments on waves and instabilities in dusty plasmas. Additional laboratory and microgravity experiments with dusty plasmas include studies of Coulomb crystals, shocks, and complex fluids. Glow discharges for plasma processing applications are studied using laser diagnostics and numerical simulations. Wave propagation and plasma particle dynamics are also studied in collisionless plasmas through laboratory experiments. Laser techniques are developed for measuring plasma flow and following particle orbits. Plasma theory efforts include analytical and numerical investigations of magnetic reconnection and turbulence in space and astrophysical plasmas; collaboration with laboratory and space plasma experimental groups in strongly coupled dusty plasmas, waves, and instabilities; and free electron lasers and hydrodynamic turbulence.

State-of-the-art laser systems are available for high-resolution spectroscopic measurement and ultrafast studies of molecular structure, for collisional relaxation and nonlinear optical effects in atomic and molecular systems, and for plasma diagnostics.

Experimental research in elementary particle physics is carried out at Fermi National Accelerator Laboratory, Stanford Linear Accelerator Center, CERN in Switzerland, and other international laboratories. The present generation of high-energy experiments has been designed to probe both the strong nuclear force and the weak interactions.

The department is well-equipped for research and instruction in observational astronomy. The primary optical instrument is a fully automated 15-inch telescope at a dark-sky site in Arizona. The telescope is equipped with CCD cameras and a variety of filters. There are 3-meter and 4.5-meter radio telescopes on the roof of Van Allen Hall, which are used for instruction and student research projects.

Research programs in galactic and extragalactic radio astronomy are carried out using the facilities of the National Radio Astronomy Observatory, including the Very Large Array and the Very Long Baseline Array, one element of which is 10 miles north of campus. Current long-term research activities include studies of the center of the Milky Way galaxy; investigations of extragalactic radio sources; the formation of powerful winds in young, luminous stars; radio-wave scattering in the interstellar and interplanetary media; and interacting binary stars. There is a research program in X-ray astronomy and a laboratory for instrument development. Research topics in X-ray astronomy concentrate on observations of X-ray emission from black holes and supernova remnants, using existing spacecraft.

Active theoretical research is carried on in astrophysics; atomic, molecular, and optical physics; condensed matter physics; elementary particle physics; laser physics; mathematical physics; nuclear physics; plasma physics; and space physics. An active mathematical physics seminar fosters the exchange of ideas between mathematics and physics.

The primary emphasis of Iowa's program in experimental and theoretical space physics is on studies of cosmic and heliospheric physics, magnetospheric physics, and magnetosphere-ionosphere interactions. Facilities are available for designing and constructing spaceflight instruments. Investigators in the department have flown instruments for studying plasmas, energetic charged particles, auroral images, plasma waves, and radio emissions on a wide variety of terrestrial and planetary spacecraft, including Pioneer 10 and 11, Dynamics Explorer, Voyager 1 and 2, Galileo, Polar, Cassini, and Mars Express.

Courses

- Physics Courses [p. 894]
- Astronomy Courses [p. 897]

Physics Courses

PHYS:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

PHYS:1200 Physics of Everyday Experience **3 s.h.**
Principles of physics; basic motion, behavior of fluids, waves, temperature and heat, gravity and planetary motion, electricity and magnetism, optics, nuclear energy, radioactivity, and medical imaging technology; examples from everyday experience; for non-science majors. GE: Natural Sciences without Lab.

PHYS:1400 Basic Physics **3-4 s.h.**
Quantitative treatment of mechanics, electricity, heat, liquids, gases, and atomic, nuclear, and elementary particle physics. Requirements: must have completed high school trigonometry or achieved a minimum ALEKS score of 75%. GE: Natural Sciences with Lab; Natural Sciences without Lab.

PHYS:1409 Basic Physics Lab **1 s.h.**
Laboratory for PHYS:1400. Corequisites: PHYS:1400 (if not taken as a prerequisite). GE: Natural Sciences Lab only.

PHYS:1410 Physics of Sound **3-4 s.h.**
Acoustical foundations of music; production of sound by vibrating objects, properties of sound waves, vocal acoustics, hearing, room acoustics, principles of electroacoustics. GE: Natural Sciences with Lab; Natural Sciences without Lab.

PHYS:1511 College Physics I **4 s.h.**
Algebra-based treatment of mechanics, waves, thermodynamics, and special relativity. Requirements: must have completed high school trigonometry or achieved a minimum ALEKS score of 75%. GE: Natural Sciences with Lab.

PHYS:1512 College Physics II **4 s.h.**
Continuation of PHYS:1511; algebra-based treatment of electricity, magnetism, light, and modern physics. Prerequisites: PHYS:1611 or PHYS:1511. GE: Natural Sciences with Lab.

PHYS:1611 Introductory Physics I **4 s.h.**
Calculus-based treatment of mechanics, waves, and thermodynamics. Corequisites: MATH:1550 or MATH:1850. GE: Natural Sciences with Lab.

PHYS:1612 Introductory Physics II **4 s.h.**
Continuation of PHYS:1611; calculus-based treatment of electricity, magnetism, and light. Prerequisites: PHYS:1611. Corequisites: MATH:1560 or MATH:1860. GE: Natural Sciences with Lab.

PHYS:1619 Introductory Physics II Lab **1 s.h.**
Laboratory for PHYS:1612. Requirements: 3 s.h. in PHYS:1612. GE: Natural Sciences Lab only.

PHYS:1701 Physics I **4 s.h.**
Introduction to physics; calculus-based treatment of Newtonian mechanics for point particles and rigid bodies; conservation laws. Offered fall semesters. Corequisites: MATH:1850. Requirements: physics or astronomy major. GE: Natural Sciences with Lab.

PHYS:1702 Physics II 4 s.h.
Continuation of PHYS:1701; introduction to fluid mechanics, electricity, magnetism (Maxwell's equations). Offered spring semesters. Prerequisites: PHYS:1701. Corequisites: MATH:1860. Requirements: physics or astronomy major. GE: Natural Sciences with Lab.

PHYS:1999 Undergraduate Seminar arr.
Selected topics in physics and astronomy; discussion, presentations.

PHYS:2703 Physics III 4 s.h.
Continuation of PHYS:1702; introduction to physics; calculus-based treatment of electromagnetic waves and optics; mechanical and sound waves; thermal physics. Offered fall semesters. Prerequisites: PHYS:1702.

PHYS:2704 Physics IV 3-4 s.h.
Introduction to quantum mechanics and other topics in modern physics, including special relativity, atomic and solid state physics. Offered spring semesters. Prerequisites: (PHYS:1612 or PHYS:2703) and (MATH:1860 or MATH:1550). Requirements: for 3 s.h. option—nonmajor.

PHYS:2905 Programming for Physics 2 s.h.
Introduction to scientific programming for applications in physics.

PHYS:2990 Reading in Physics arr.
Selected topics in physics.

PHYS:3710 Intermediate Mechanics 3 s.h.
Introduction to Newtonian mechanics; noninertial reference systems; central forces, celestial mechanics; rigid body motion; Lagrangian and Hamiltonian equations of motion; small oscillations. Prerequisites: (PHYS:1611 or PHYS:1511 or PHYS:1701) and (MATH:1860 or MATH:1560).

PHYS:3730 Statistical Physics 3 s.h.
Integrated introduction to subjects of thermodynamics, statistical mechanics, classical and quantum statistics of interacting particles; kinetic theory; emphasis on applications. Prerequisites: PHYS:2704.

PHYS:3741 Introduction to Quantum Mechanics I 3 s.h.
Superposition principle, Stern-Gerlach experiment, linear operators, measurement theory, time evolution, angular momentum, wave mechanics in one dimension, one-dimensional harmonic oscillator, two-body problems with central forces, and the hydrogen atom. Prerequisites: MATH:2850 and PHYS:2704 and MATH:2700.

PHYS:3742 Introduction to Quantum Mechanics II 3 s.h.
Continuation of PHYS:3741; Perturbation theory, variational methods, WKB approximation, scattering, Helium atom, periodic table, atomic spectroscopy, transition rates, and other selected applications. Prerequisites: PHYS:3741.

PHYS:3756 Intermediate Laboratory 3 s.h.
Introduction to instruments and techniques of experimental physics and basic skills needed for carrying out experimental physics research; hands-on use of a variety of instruments and equipment. Prerequisites: PHYS:2704. Corequisites: PHYS:3811.

PHYS:3811 Electricity and Magnetism I 3 s.h.
Introduction to electricity and magnetism; topics include electrostatics, magnetostatics, potential theory, and electric and magnetic fields in matter. Prerequisites: (MATH:3550 or MATH:2850) and (PHYS:1612 or PHYS:1702 or PHYS:1512).

PHYS:3812 Electricity and Magnetism II 3 s.h.
Continuation of PHYS:3811; introduction to electricity and magnetism; topics include Maxwell's equations, electrodynamics, electromagnetic waves, radiation, and special relativity. Prerequisites: PHYS:3811.

PHYS:3850 Electronics 4 s.h.
Design and construction of small circuits; use of measurement instruments—oscilloscope, multimeter, function generator; circuits, including transistors, operational amplifiers, digital, analog-to-digital conversion. Prerequisites: PHYS:1512 or PHYS:1612 or PHYS:1702. Requirements: physics or astronomy major.

PHYS:4720 Introductory Optics 3 s.h.
Wave motion and superposition, electromagnetic theory, photons, propagation of light, geometrical and physical optics, interference, diffraction, polarization, Fourier optics, coherence, lasers, a and nonlinear optics. Prerequisites: (PHYS:1512 or PHYS:2703 or PHYS:1612) and (MATH:1560 or MATH:1860). Same as ECE:4720.

PHYS:4726 Electro Optics 3 s.h.
Wave equation solutions; optical birefringence; finite beam propagation in free space, dielectric waveguides and fibers; optical resonators; nonlinear phenomena; electro-optic, acousto-optic modulation; optical detection, noise; application to communication systems. Requirements: for ECE:5790—ECE:3700; for PHYS:4726—PHYS:3812. Same as ECE:5790.

PHYS:4728 Introductory Solid State Physics 3 s.h.
Phenomena associated with solid state; classification of solids and crystal structures, electronic and vibrational properties in solids; thermal, optical, magnetic, dielectric properties of solids. Prerequisites: PHYS:3741. Same as ECE:4728.

PHYS:4731 Plasma Physics I 3 s.h.
Physics of ionized gases, including orbit theory, guiding center motion, adiabatic invariants, ionization balance description of plasmas by fluid variables and distribution functions; linearized wave motions, instabilities; magnetohydrodynamics. Prerequisites: PHYS:3812.

PHYS:4740 Elementary Particles and Nuclear Physics 3 s.h.
Accelerators, particle detectors, passage of radiation through matter; nuclear structure, nuclear reactions; quark model of hadrons; strong, electromagnetic, weak interactions of elementary particles; gauge theories, intermediate vector bosons; unification of electromagnetic and weak interactions. Prerequisites: PHYS:3741.

PHYS:4750 Advanced Laboratory 3 s.h.
Advanced experimental work and development of new experiments. Prerequisites: PHYS:3756.

PHYS:4761 Mathematical Methods of Physics I 3 s.h.
Functions of complex variables, integration methods, linear vector spaces, tensors, matrix algebra. Prerequisites: MATH:2850.

PHYS:4762 Mathematical Methods of Physics II 3 s.h.
Continuation of PHYS:4761; Hilbert space, special functions, Fourier transform and expansions in orthogonal polynomials, differential equations, Green's functions. Prerequisites: PHYS:4761.

PHYS:4820 Optical Signal Processing 3 s.h.
Linear systems description of optical propagation; diffraction and angular plane wave spectrum; lenses as Fourier transformers, lens configurations as generalized optical processors; lasers, coherence, spatial frequency analysis; holography; convolvers, correlators, matched filters; synthetic aperture radar; optical computing. Requirements: for ECE:5780—ECE:3700; for PHYS:4820—PHYS:3812. Same as ECE:5780.

PHYS:4860 Computational Physics 3 s.h.
Introduction to contemporary use of computers by physicists; topics such as numerical solutions of ordinary differential equations in classical mechanics, boundary value problems in electricity and magnetism, eigenvalue problems in quantum mechanics, Monte Carlo simulations in statistical mechanics, methods of data analysis. Prerequisites: PHYS:3741 and PHYS:3811 and PHYS:3710.

PHYS:4905 Special Topics in Physics arr.
Introduction to scientific programming using the Python language and linear algebra for applications in physics.

PHYS:4990 Reading in Physics arr.
Selected topics in physics.

PHYS:4999 Undergraduate Research arr.
Supervised research leading to written report or oral presentation.

PHYS:5000 Workshops and Special Training in Physics arr.
Workshops and special training opportunities for postbaccalaureate students; may include collaborations with other departments, institutions, or externally funded research organizations.

PHYS:5466 Optical Components, Alignment, and Instrumentation for Remote Sensing 3 s.h.
Explore optical components including lenses, mirrors, beam splitters, fiber optics, and filters, and optical assemblies including beam expanders, interferometers, and laser cavities; assess and align optical assemblies using metrology equipment including collimators, autocollimators, and wavemeters; hands-on laboratory work. Work with optics, optical devices, and metrology equipment; learn how to handle, work with, and assess optics and optical components and how to align complex assemblages of components in a sensor. Recommendations: basic or introductory physics course with applications to atmospheric chemistry. Same as CBE:5466, ECE:5466.

PHYS:5710 Classical Mechanics 3 s.h.
Dynamics of mass points; Lagrange multipliers, small oscillations, Hamilton's equations; canonical transformations, Hamilton-Jacobi theory; chaos. Prerequisites: PHYS:3710.

PHYS:5730 Statistical Mechanics I 3 s.h.
Probability concepts; kinetic equations; classical and quantum equilibrium statistical mechanics with applications, including ideal and imperfect gases and phase transitions, irreversible processes, fluctuation-dissipation theorems. Prerequisites: PHYS:3730 and PHYS:3741.

PHYS:5741 Quantum Mechanics I 3 s.h.
Nonrelativistic quantum mechanics, Schrödinger wave mechanics, Hilbert space methods, perturbation theory, scattering, spin and angular momentum, identical particles, selected applications, introduction to relativistic theory. Prerequisites: PHYS:3741 and PHYS:3742.

PHYS:5742 Quantum Mechanics II 3 s.h.
Continuation of PHYS:5741. Prerequisites: PHYS:5741.

PHYS:5805 Advanced Programming for Physics 2 s.h.
Introduction to scientific programming for applications in physics.

PHYS:5811 Classical Electrodynamics I 3 s.h.
Advanced electromagnetostatics, boundary value problems, Green's functions, Maxwell's equations, radiation theory, physical optics, multipole expansion of radiation field.

PHYS:5812 Classical Electrodynamics II 3 s.h.
Special relativity, motion of charges in fields, theories of radiation reaction, special topics. Prerequisites: PHYS:5811.

PHYS:5905 Special Topics in Physics 3 s.h.
Selected topics in physics.

PHYS:6723 Quantum Optics and Nanophotonics 3 s.h.
Classical theory of emission and absorption of light, classical dispersion, semiclassical approach, thermal and laser sources, photons, photon statistics, quantization of electromagnetic fields, quantum coherence, noise, Jaynes-Cummings model, squeezed light, metamaterials, plasmonics, and polaritons. Prerequisites: PHYS:3741 and PHYS:3812.

PHYS:6725 Microfabrication and Thin Film Materials 3 s.h.
Microfabrication and nanofabrication techniques and thin film materials growth used to create micro-, nano-, and opto-electronic devices that underlie modern technology; introduction to microfabrication techniques, physics, and chemistry; growth and properties of thin film materials upon which fabrication is performed; review of materials science; introduction to vacuum science and technology; survey of micro- and nano-devices; examination of thin film growth and deposition science, plasma etching and sputtering, micro- and nano-patterning and characterization, and film nucleation, growth, structure, and properties. Prerequisites: (PHYS:2704 or ENGR:2130 or CHEM:1120) and (MATH:1560 or MATH:1860) and (PHYS:1612 or PHYS:2703) and CHEM:1110. Recommendations: background in thermal and statistical physics, introductory quantum mechanics, and introductory chemistry. Same as ECE:6725, ME:6725.

PHYS:7270 Ethics in Physics for Graduate Students arr.
Responsible conduct and ethics training.

PHYS:7604 Ethics in Physics for Postdocs 0 s.h.
Responsible conduct and ethics training.

PHYS:7720 Semiconductor Physics 3 s.h.
Electronic, optical, and materials properties of semiconductors. Prerequisites: PHYS:4728 and PHYS:5742. Same as ECE:7720.

PHYS:7722 Advanced Condensed Matter 3 s.h.
Elementary excitations, plasmonics, exchange/magnetism, hyperfine interactions, resonance, superconductivity, topological materials. Prerequisites: PHYS:7720.

PHYS:7729 Plasma Physics II 3 s.h.
Continuation of PHYS:4731; cold plasma waves, MHD stability, kinetic theory of plasmas, including Landau damping and velocity space instabilities; nonlinear evolution. Prerequisites: PHYS:4731.

PHYS:7730 Advanced Plasma Physics I 3 s.h.
Microscopic plasma behavior: statistical mechanics of plasmas; Liouville equation; BBGKY hierarchy; Fokker-Planck equation and relaxation processes; Balescu-Lenard equation; Vlasov equation and linearized wave motion; shocks, nonlinear plasma motions, and instabilities; fluctuations and radiation processes; topics from recent literature.

PHYS:7740 Introduction to Quantum Field Theory 3 s.h.
Quantization of relativistic and nonrelativistic field theories, covariant perturbation theory, theory of renormalization, dimensional regularization, renormalization group theory, introduction to gauge theories and anomalies. Prerequisites: PHYS:5742.

PHYS:7746 Particle Physics 3 s.h.
Elementary particle properties and phenomenology, quark-parton models, quantum chromodynamics, unified theory of weak and electromagnetic interactions.

PHYS:7760 General Relativity 2-3 s.h.
Einstein's theory of gravitation; principles of general relativity.

PHYS:7761 Cosmology 3 s.h.
Einstein's theory of general relativity radically changed the way we understand the cosmos by providing a mathematical description of space-time itself—this is cosmology; the last three decades have shown remarkable evidence that cosmology is an experimentally testable theory; students explore mathematical underpinnings of cosmology by studying the early universe, the cosmic microwave background, inflation, big bang nucleosynthesis, neutrino physics, quantum field theory effects on space-time, and other issues. Prerequisites: PHYS:7760.

PHYS:7840 Quantum Gauge Theories 3 s.h.
Gauge invariance, introductory group theory, Yang-Mills theories, electroweak theory, quantum chromodynamics, running coupling constants, operator product expansions, Ward identities, spontaneous symmetry breaking, chiral anomalies, instantons, monopoles, effective Lagrangians, supersymmetry, quantum gravity, introduction to string theory. Prerequisites: PHYS:7740.

PHYS:7905 Special Topics in Physics arr.

PHYS:7920 Seminar: Condensed Matter Physics arr.
Current research.

PHYS:7930 Seminar: Plasma Physics arr.
Current research. Same as ECE:7930.

PHYS:7936 Seminar: Space Physics arr.
Current research.

PHYS:7945 Seminar: Math/Physics arr.
Current research.

PHYS:7946 Seminar: Nuclear and Particle Physics arr.
Current research.

PHYS:7990 Research: Physics arr.

PHYS:7992 Individual Critical Study arr.
Essay on topic chosen in consultation with faculty member. Requirements: candidacy for MS with critical essay.

Astronomy Courses

ASTR:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

ASTR:1060 Big Ideas: Origins of the Universe, Earth, and Life 3 s.h.
Origin of the universe, the biochemistry of life, and the origin of life on Earth; for non-science majors. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as BIOL:1060, SEES:1060.

ASTR:1070 Stars, Galaxies, and the Universe 3-4 s.h.
Students survey topics including the Sun; life cycles of stars including black holes and pulsars; diversity of galaxies including the Milky Way and distant quasars; cosmology—the history, structure, and fate of the universe; current results from recent astronomical observations; for non-science majors. Recommendations: closed to physics and astronomy majors. GE: Natural Sciences with Lab; Natural Sciences without Lab.

ASTR:1079 Introductory Astronomy Laboratory 1 s.h.
Laboratory for ASTR:1070. GE: Natural Sciences Lab only.

ASTR:1080 Exploration of the Solar System 4 s.h.
Survey of the solar system; topics include physical properties of the planets, comets, and asteroids; origin of the solar system; search for extrasolar planetary systems; search for life in the universe; current results of recent planetary space missions; night sky observation; for non-science majors. Recommendations: closed to physics and astronomy majors. GE: Natural Sciences with Lab.

ASTR:1085 Citizen Astronomy 3 s.h.
Survey of topics in astronomy and astrophysics; topics include the Solar System and exoplanets, nearby stars in the Galaxy, distant galaxies and unseen black holes; focus on citizen science projects that allow students to examine real data; for non-science majors. GE: Natural Sciences without Lab.

ASTR:1771 Fundamental Astronomy I: The Solar System and Exoplanets 4 s.h.
Quantitative introduction to physical principles needed to understand astronomical phenomena (e.g., laws of motion, gravitation, radiation), astronomical instrumentation, properties structure, and evolution of solar system bodies, exoplanets, and the search for life. Requirements: four years of high school math. GE: Natural Sciences with Lab.

ASTR:1772 Fundamental Astronomy II: Evolution of Stars, Galaxies, and the Universe 4 s.h.
Continuation of ASTR:1771; quantitative introduction to stellar, Galactic, and extragalactic astronomy; topics include the Sun, stellar evolution, stellar corpses such as neutron stars and black holes, the Milky Way galaxy, the interstellar medium, galaxies, cosmology, and fate of the universe. Prerequisites: ASTR:1771. Requirements: four years of high school math. GE: Natural Sciences with Lab.

ASTR:2991 Reading in Astronomy arr.
Selected topics in astronomy.

ASTR:3771 Introduction to Astrophysics I 3 s.h.
Topics include celestial mechanics, radiative transfer, stellar structure and evolution, and star formation; first in a two-semester sequence. Prerequisites: PHYS:2704 and ASTR:1772 and ASTR:1771 and (MATH:2850 or MATH:3550) and (MATH:2700 or MATH:2550). Recommendations: computer programming experience.

ASTR:3772 Introduction to Astrophysics II 3 s.h.
Continuation of ASTR:3771; topics include post-main-sequence stellar evolution, stellar remnants, close binary stars, the Milky Way and other galaxies, active galactic nuclei, galaxy evolution, and cosmology; second in a two-semester sequence. Prerequisites: ASTR:3771.

ASTR:4850 Observational Techniques in Astronomy 3 s.h.
Introduction to instruments of optical (and sometimes multi-wavelength) astronomy and basic skills needed for carrying out observational astronomical research; hands-on use of observing equipment; nighttime observing sessions. Prerequisites: PHYS:2704 and ASTR:1772 and ASTR:1771.

ASTR:4996 Reading in Astronomy arr.

ASTR:6782 Extragalactic Astronomy 3 s.h.
Normal and active galaxies, large scale structure, the early Universe, cosmology.

ASTR:6785 The Interstellar Medium 3 s.h.
The interstellar medium; optical properties of small interstellar grains, radiative processes in interstellar gas, structure of HII regions, interstellar shock waves, supernova remnants, modification of interstellar medium by luminous stars, molecular clouds.

ASTR:6790 Stellar Astrophysics 3 s.h.
Stellar interiors, nuclear astrophysics; advanced topics.

ASTR:6870 Radiative Processes in Astrophysics 3 s.h.
Explores how electromagnetic radiation is generated and transported in astronomical systems, serving both as a driver of change and a key source of information; emphasis on using radiation processes to understand the physics of free charges, atoms, and molecules from a classical perspective, with links to quantum mechanics; topics include bremsstrahlung, Compton scattering, synchrotron radiation, and resonant interactions in atoms, molecules, and nuclei, including fine and hyperfine magnetic effects.

ASTR:6880 High Energy Astrophysics 3 s.h.
Detection of X-rays and gamma-rays, black holes and neutron stars, accretion onto compact objects, pulsars, supernova remnants, cosmic rays, and gamma-ray bursts.

ASTR:7775 Special Topics in Astrophysics 1-3 s.h.
Advanced lectures.

ASTR:7830 Space and Astrophysical Plasma Physics 3 s.h.
Dynamics and evolution of space and astrophysical plasmas; heliosphere, planetary magnetospheres, accretion disks; plasma waves, shock waves, turbulence.

ASTR:7970 Seminar: Astrophysics and Space Physics arr.
Current research.

ASTR:7991 Research: Astronomy arr.
Original research in observational, theoretical astronomy.

Physics, BA

Learning Outcomes

Physics majors will be able to:

- demonstrate competency in applying the basic laws of physics in classical and quantum mechanics, electromagnetism, thermodynamics, and statistical physics;
- solve complex, real-world problems using the principles of physics; and
- demonstrate competency in using basic instrumentation and in analyzing the data obtained.

Requirements

The Bachelor of Arts with a major in physics requires a minimum of 120 s.h., including at least 44 s.h. of work for the major (minimum of 24 s.h. in physics plus 20 s.h. in supporting coursework). The BA program requires fewer physics courses than the BS program does, giving students a wider choice of electives. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The major is designed for students who wish to build a foundation of knowledge in physics but do not plan a research-oriented career in the discipline. The BA program is also good preparation for students interested in secondary school science teaching; see the section titled "Teacher Licensure." Bachelor of Arts students majoring in physics who are interested in science teaching and in earning a graduate degree may enroll in a combined degree program offered by the College of Liberal Arts and Sciences and the College of Education; see "BA/MAT (Science Education Subprogram)" under Combined Programs [p. 900] in this section of the catalog.

Students who earn a BA in physics may not earn a BS in applied physics or a BS in physics.

The BA with a major in physics requires the following courses or their equivalents. Substitutions may be allowed by exception through the department.

Requirements	Hours
Mathematics Courses	8
Physics Courses	15-19
Elective Physics Courses	9-10
Supporting Coursework	12

Mathematics Courses

Course #	Title	Hours
Both of these:		
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
Or both of these:		
MATH:1550	Engineering Calculus I	4
MATH:1560	Engineering Calculus II	4

Physics Courses

Course #	Title	Hours
These three courses:		
PHYS:1701	Physics I	4
PHYS:1702	Physics II	4
PHYS:2703	Physics III	4
Or these two courses:		
PHYS:1611	Introductory Physics I	4
PHYS:1612	Introductory Physics II	4
Both of these:		
PHYS:2704	Physics IV	4
PHYS:3756	Intermediate Laboratory	3

Elective Physics Courses

Course #	Title	Hours
Three of these:		
PHYS:3710	Intermediate Mechanics	3
PHYS:3741	Introduction to Quantum Mechanics I	3
PHYS:3811	Electricity and Magnetism I	3
PHYS:3850	Electronics	4
PHYS:4720	Introductory Optics	3
PHYS:4726	Electro Optics	3
PHYS:4728	Introductory Solid State Physics	3
PHYS:4731	Plasma Physics I	3
PHYS:4740	Elementary Particles and Nuclear Physics	3
PHYS:4750	Advanced Laboratory	3
PHYS:4761	Mathematical Methods of Physics I	3
PHYS:4762	Mathematical Methods of Physics II	3
PHYS:4820	Optical Signal Processing	3
PHYS:4860	Computational Physics	3
PHYS:4905	Special Topics in Physics	arr.

Supporting Coursework

Students should work with their academic advisor to select courses that fit with their plan of study. Students wishing to pursue subject areas that are not in the following list may do so with the approval of the director of undergraduate studies.

Course #	Title	Hours
Coursework from one these STEM subject areas or from coursework required for teacher licensure		12
actuarial science (prefix ACTS)		
biochemistry and molecular biology (prefix BMB)		
biology (prefix BIOL)		
chemistry (prefix CHEM)		
computer science (prefix CS)		
earth and environmental sciences (prefix EES)		
engineering (subject to departmental approval)		
geography (prefix GEOG)		
mathematics (prefix MATH), except MATH:1210		

- physics (prefix PHYS)
- psychology (prefix PSY)
- statistics (prefix STAT)

In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BA may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward the requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) [p. 1339] in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Double Major in Physics and Astronomy

Students working toward a Bachelor of Arts with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

Combined Programs

BA/MAT (Science Education Subprogram)

Bachelor of Arts students in physics who are interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, geoscience, or physics, the combined program enables students to earn a BA and MAT in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 19 s.h. of qualifying credit toward both degrees. For more information, see Science Education BA/MAT [p. 1497] in the Master of Arts in Teaching, MAT (College of Education) section of the catalog. Interested students should consult an advisor.

Undergraduate to Graduate (U2G) Program

Bachelor of Arts students in physics may pair their degree with an Undergraduate to Graduate (U2G) program, which allows earning a bachelor's and master's degree in five years of study. See the Undergraduate to Graduate (U2G) website for available programs.

Honors

Honors in the Major

Students majoring in physics have the opportunity to graduate with honors in their major. They must maintain a University of Iowa grade-point average (GPA) of at least 3.33. During their junior and senior years, students must conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the physics major.

Career Advancement

Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

The degree leads to careers in medicine, law, science-related administration, business, or technical writing. It also is good preparation for students interested in secondary school science teaching.

About 70% of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1860 Calculus II and PHYS:1702 Physics II.

Before the fifth semester begins: PHYS:2703 Physics III, PHYS:2704 Physics IV, and up to four more courses in the major.

Before the seventh semester begins: two to four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two or three more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in math courses requires completion of a placement exam.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d While this course is not a major requirement, it is strongly recommended and a prerequisite for many physics and astronomy courses in the department.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an

approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g See General Catalog for a list of approved courses.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Astronomy, BA

Learning Outcomes

Astronomy majors will be able to:

- demonstrate understanding of the fundamental concepts in astrophysics such as gravity, the nature of light, the physical characteristics of matter, and the motions of astronomical objects in the night sky;
- demonstrate proficiency in each of the major areas of astronomy—cosmology, galaxies, accretion and compact objects, the life cycle, and properties of stars and solar system science;
- show a working knowledge of a broad array of astrophysical phenomena that are based upon fundamental concepts; and
- gain familiarity with astronomical observations, instrumentation, computational methods, and software.

Requirements

The Bachelor of Arts with a major in astronomy requires a minimum of 120 s.h., including at least 43 s.h. of work for the major. The BA program requires fewer physics and mathematics courses than the BS program does, giving students a wider choice of electives. Students take calculus in addition to physics and astronomy courses, which include laboratories. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The program is designed for students who wish to build considerable knowledge in astronomy but do not plan a research-oriented career in the field. It is appropriate for students planning careers in secondary school science teaching or science-related administration.

The BA with a major in astronomy requires the following courses or their equivalents. Substitutions may be allowed by exception through the department.

Requirements	Hours
Mathematics Courses	8
Physics Courses	24-29
Astronomy Courses	11

Mathematics Courses

Course #	Title	Hours
Both of these:		
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
Or both of these:		
MATH:1550	Engineering Calculus I	4
MATH:1560	Engineering Calculus II	4

Physics Courses

If students select PHYS:3811 Electricity and Magnetism I, they must complete the prerequisite before they register for that course.

Course #	Title	Hours
These three courses:		
PHYS:1701	Physics I	4
PHYS:1702	Physics II	4
PHYS:2703	Physics III	4
Or these two courses:		
PHYS:1611	Introductory Physics I	4
PHYS:1612	Introductory Physics II	4
All of these:		
PHYS:2704	Physics IV	4
PHYS:3710	Intermediate Mechanics	3
PHYS:3756	Intermediate Laboratory	3
One of these:		
PHYS:3730	Statistical Physics	3
PHYS:4720	Introductory Optics	3
One of these:		
PHYS:3811	Electricity and Magnetism I	3
PHYS:3850	Electronics	4

Astronomy Courses

Course #	Title	Hours
All of these:		
ASTR:1771	Fundamental Astronomy I: The Solar System and Exoplanets	4
ASTR:1772	Fundamental Astronomy II: Evolution of Stars, Galaxies, and the Universe	4
ASTR:4850	Observational Techniques in Astronomy	3

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements, including further work in mathematics. In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BA may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward the requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Double Major in Physics and Astronomy

Students working toward a Bachelor of Arts with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

Honors

Honors in the Major

Students majoring in astronomy have the opportunity to graduate with honors in their major. They must maintain a University of Iowa grade-point average (GPA) of at least 3.33. During their junior and senior years, students must conduct an

investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the astronomy major.

Career Advancement

Astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting. Some graduates plan for careers in secondary school science teaching or science-related administration or plan to earn professional degrees.

About 70% of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: math through MATH:1850 Calculus I and MATH:1860 Calculus II; and PHYS:1701 Physics I and PHYS:1702 Physics II.

Before the fourth semester begins: ASTR:1771 Fundamental Astronomy I: The Solar System and Exoplanets.

Before the fifth semester begins: ASTR:1772 Fundamental Astronomy II: Evolution of Stars, Galaxies, and the Universe, PHYS:2703 Physics III, PHYS:2704 Physics IV, and at least one more course in the major.

Before the seventh semester begins: three more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: three more courses in the major.

Before or during the eighth semester: ASTR:4850 Observational Techniques in Astronomy.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Typically this course is offered every other year. Check MyUI for course availability since offerings are subject to change.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Physics, BS

Learning Outcomes

Physics majors will be able to:

- demonstrate competency in applying the basic laws of physics in classical and quantum mechanics, electromagnetism, thermodynamics, and statistical physics;
- solve complex, real-world problems using the principles of physics; and
- demonstrate competency in using basic instrumentation and in analyzing the data obtained.

Requirements

The Bachelor of Science with a major in physics requires a minimum of 120 s.h., including at least 55 s.h. of work for the major (minimum of 42 s.h. in physics plus 16 s.h. in supporting coursework). Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students must complete several required mathematics courses in addition to their required physics core. The department offers a wide range of upper-level electives and students are encouraged to explore different research areas. All students are strongly encouraged to get involved with research.

Students who earn a BS in physics may not earn a BS in applied physics or a BA in physics.

The BS with a major in physics requires the following courses or their equivalents. Substitutions may be allowed by exception through the department.

Requirements	Hours
Mathematics Courses	13-16
Introductory Physics Courses	8-12
Physics Core Courses	25
Upper-Level Elective Courses	9-11

Mathematics Courses

Course #	Title	Hours
All of these:		
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
Or all of these:		
MATH:1550	Engineering Calculus I	4
MATH:1560	Engineering Calculus II	4
MATH:2550	Engineering Matrix Algebra	2
MATH:3550	Engineering Vector Calculus	3

Introductory Physics Courses

Course #	Title	Hours
These three courses:		
PHYS:1701	Physics I	4
PHYS:1702	Physics II	4
PHYS:2703	Physics III	4
Or these two courses:		
PHYS:1611	Introductory Physics I	4
PHYS:1612	Introductory Physics II	4

Physics Core Courses

Course #	Title	Hours
All of these:		
PHYS:2704	Physics IV	4
PHYS:3710	Intermediate Mechanics	3
PHYS:3730	Statistical Physics	3
PHYS:3741	Introduction to Quantum Mechanics I	3
PHYS:3742	Introduction to Quantum Mechanics II	3
PHYS:3756	Intermediate Laboratory	3
PHYS:3811	Electricity and Magnetism I	3
PHYS:3812	Electricity and Magnetism II	3

Upper-Level Elective Courses

Students can only take these courses once: PHYS:3850 Electronics, PHYS:4750 Advanced Laboratory, or ASTR:4850 Observational Techniques in Astronomy.

Students must take at least three different courses from the following lists to satisfy this requirement.

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements in the following list, including further work in mathematics.

Course #	Title	Hours
One of these:		
PHYS:3850	Electronics	4
PHYS:4750	Advanced Laboratory	3
ASTR:4850	Observational Techniques in Astronomy	3
Two of these:		
PHYS:3850	Electronics (if not taken for the previous requirement)	4
PHYS:4720	Introductory Optics	3
PHYS:4726	Electro Optics	3
PHYS:4728	Introductory Solid State Physics	3
PHYS:4731	Plasma Physics I	3
PHYS:4740	Elementary Particles and Nuclear Physics	3
PHYS:4750	Advanced Laboratory (if not taken for the previous requirement)	3
PHYS:4761	Mathematical Methods of Physics I	3
PHYS:4762	Mathematical Methods of Physics II	3
PHYS:4820	Optical Signal Processing	3
PHYS:4860	Computational Physics	3
PHYS:4905	Special Topics in Physics	3
PHYS:5905	Special Topics in Physics	3
ASTR:3771	Introduction to Astrophysics I	3

ASTR:3772	Introduction to Astrophysics II	3
ASTR:4850	Observational Techniques in Astronomy (if not taken for the previous requirement)	3

In planning this work, students should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BS may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward the requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) [p. 1339] in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Double Major in Physics and Astronomy

Students working toward a Bachelor of Science with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

Honors

Honors in the Major

Students majoring in physics have the opportunity to graduate with honors in their major. They must maintain a University of Iowa grade-point average (GPA) of at least 3.33. During their junior and senior years, students must conduct an investigation under the guidance of a faculty member. Students must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the physics major.

Career Advancement

Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

The degree provides preparation for careers in industry, employment in research laboratories, and graduate study in physics and related sciences.

About 70% of physics and astronomy graduates go on to graduate school. With help from the department’s in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1860 Calculus II and PHYS:1702 Physics II.

Before the fifth semester begins: PHYS:2703 Physics III, PHYS:2704 Physics IV, MATH:2700 Introduction to Linear Algebra, MATH:2850 Calculus III, and up to two more courses in the major.

Before the seventh semester begins: two to four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two or three more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in math courses requires completion of a placement exam.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Students who choose PHYS:3850 as one of their two required laboratory courses are advised to take it before they take PHYS:3756 Intermediate Laboratory.

g Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Applied Physics, BS

Learning Outcomes

Applied physics majors will be able to:

- demonstrate competency in applying the basic laws of physics in a focused area of physics and a related applied field;
- solve complex, real-world problems using the principles of physics; and
- demonstrate competency in using theoretical tools and basic instrumentation, and in analyzing the data obtained.

Requirements

The Bachelor of Science with a major in applied physics requires a minimum of 120 s.h., including at least 56–87 s.h. of work for the major. Total credit required for the major depends on a student's choice of concentration. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The major in applied physics is intended primarily for students interested in a broad program of study in physics combined with a significant concentration of courses in a field that has immediate application to high-technology industries. The degree provides a foundation for a wide range of employment opportunities in high-technology industries, including research and development, product design and testing, sales, and quality control. It is also designed to include exposure to physics sufficient to allow students to continue with graduate studies in either physics or astronomy.

An essential component of each concentration is the successful completion of a related one-semester internship or practicum experience in a research laboratory (an applied physics research report is required for the latter option). Well-prepared students will be able to complete the degree in four years. Students should work closely with their advisors on a graduation plan.

All applied physics students complete a common set of courses that includes calculus, linear algebra, physics, and an experiential learning course. They also complete the courses required for their chosen concentration. The department encourages students to take additional coursework; advisors can suggest electives that will enrich programs and help students prepare for graduate work. Flexibility to customize an area of concentration or to develop a unique concentration is available in consultation with the applied physics coordinator.

Students who want to earn a double major in applied physics and astronomy must choose their coursework carefully; see the section titled "Double Major in Applied Physics and Astronomy."

Students who earn a BS in applied physics may not earn a BA or BS in physics.

The BS with a major in applied physics requires the following courses. Many upper-level physics courses have prerequisites; students should consult their advisors when choosing courses numbered 3000 or above.

Requirements	Hours
Common Requirements	34-41
Concentration Area Courses	22-46

Common Requirements

Students in all concentrations must successfully complete the following courses or their equivalents.

Mathematics

Course #	Title	Hours
All of these:		
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
Or all of these:		
MATH:1550	Engineering Calculus I	4
MATH:1560	Engineering Calculus II	4
MATH:2550	Engineering Matrix Algebra	2
MATH:3550	Engineering Vector Calculus	3

Physics

Course #	Title	Hours
One of these sequences:		
PHYS:1611 & PHYS:1612	Introductory Physics I and Introductory Physics II	8
PHYS:1701 & PHYS:1702 & PHYS:2703	Physics I and Physics II and Physics III (strongly preferred)	12
All of these:		
PHYS:2704	Physics IV	4
PHYS:3710	Intermediate Mechanics	3
PHYS:3741	Introduction to Quantum Mechanics I	3
PHYS:3811	Electricity and Magnetism I	3

Experiential Learning

Course #	Title	Hours
One of these:		
A one-semester industrial internship (requires a research report)		
A one-semester practicum in a research laboratory (requires a research report)		

Concentrations

Students select one of four concentration areas, or, with approval from the applied physics advisor, a custom concentration is permitted, such as acoustics and propulsion science.

Computer Science Concentration

Course #	Title	Hours
All of these:		
PHYS:3730	Statistical Physics	3
PHYS:3756	Intermediate Laboratory	3
PHYS:3812	Electricity and Magnetism II	3
PHYS:3850	Electronics	4

CS:1210	Computer Science I: Fundamentals	4
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
One additional computer science course numbered 3000 or above		3
Two of these:		
CS:2630	Computer Organization	4
CS:2820	Introduction to Software Development	4
CS:3330	Algorithms	3

Optics Concentration

Course #	Title	Hours
All of these:		
PHYS:3730	Statistical Physics	3
PHYS:3756	Intermediate Laboratory	3
PHYS:3812	Electricity and Magnetism II	3
PHYS:3850	Electronics	4
PHYS:4720	Introductory Optics	3
Two of these:		
PHYS:4726	Electro Optics	3
PHYS:4728	Introductory Solid State Physics	3
PHYS:4820	Optical Signal Processing	3

Solid-State Electronics Concentration

Course #	Title	Hours
All of these:		
PHYS:3730	Statistical Physics	3
PHYS:4728	Introductory Solid State Physics	3
ECE:2400	Linear Systems I	3
ECE:2410	Principles of Electronic Instrumentation	4
ECE:3320	Introduction to Digital Design	3
ECE:3410	Electronic Circuits	4
ENGR:1300	Introduction to Engineering Computing	3
ENGR:2120	Electrical Circuits	3
ENGR:2730	Computers in Engineering	3
One of these:		
PHYS:3742	Introduction to Quantum Mechanics II	3
PHYS:3812	Electricity and Magnetism II	3

Medical Physics Concentration

Course #	Title	Hours
All of these:		
PHYS:3756	Intermediate Laboratory	3
PHYS:3850	Electronics	4
BIOL:1411 & BIOL:1412	Foundations of Biology and Diversity of Form and Function	8
CHEM:1110 & CHEM:1120	Principles of Chemistry I and Principles of Chemistry II	8
CHEM:2210 & CHEM:2220	Organic Chemistry I and Organic Chemistry II	6
CHEM:2410	Organic Chemistry Laboratory	3
Two additional biology courses numbered 2000 or above		6-8
One of these:		
BIOS:4120	Introduction to Biostatistics	3
STAT:3510	Biostatistics	3
One of these:		
PHYS:3730	Statistical Physics	3
PHYS:3742	Introduction to Quantum Mechanics II	3
PHYS:3812	Electricity and Magnetism II	3
PHYS:4750	Advanced Laboratory	3
PHYS:4905	Special Topics in Physics (when topic is physics of the body)	3

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements, including further work in mathematics. In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BS may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward the requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Double Major in Applied Physics and Astronomy

Students working toward a Bachelor of Science with a double major in applied physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

Honors

Honors in the Major

Students majoring in applied physics have the opportunity to graduate with honors in their major. Departmental honors students must maintain a University of Iowa grade-point average (GPA) of at least 3.33. To graduate with honors in the major, students must conduct an investigation under the guidance of a faculty member during their junior and senior years. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

University of Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the

University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the applied physics major.

Career Advancement

Applied physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

About 70% of physics and astronomy graduates go on to graduate school. With help from the department's in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1860 Calculus II and PHYS:1702 Physics II.

Before the fifth semester begins: PHYS:2703 Physics III, PHYS:2704 Physics IV, MATH:2700 Introduction to Linear Algebra, MATH:2850 Calculus III, one more course in the major, and up to four courses in another science or engineering department.

Before the seventh semester begins: two to four more courses in the major, up to three other science or engineering courses, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two or three more courses in the major or other science or engineering courses and all or part of an academic year research experience or a summer research experience or internship as approved by the applied physics coordinator.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in chemistry courses requires completion of a placement exam.

c Enrollment in math courses requires completion of a placement exam.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f Students in this concentration are required to complete two biology courses (BIOL) numbered 2000 or above (6-8 s.h.)

g Choose from PHYS:3730, PHYS:3742, PHYS:3812, PHYS:4750, or PHYS:4905.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Astronomy, BS

Learning Outcomes

Astronomy majors will be able to:

- demonstrate understanding of the fundamental concepts in astrophysics such as gravity, the nature of light, the physical characteristics of matter, and the motions of astronomical objects in the night sky;
- demonstrate proficiency in each of the major areas of astronomy—cosmology, galaxies, accretion and compact objects, the life cycle, and properties of stars and solar system science;
- show a working knowledge of a broad array of astrophysical phenomena that are based upon fundamental concepts; and
- gain familiarity with astronomical observations, instrumentation, computational methods, and software.

Requirements

The Bachelor of Science with a major in astronomy requires a minimum of 120 s.h., including at least 60 s.h. of work for the major. The program provides balanced and integrated coursework in astronomy, mathematics, and physics that prepares students for graduate studies in astronomy, astrophysics, or related science disciplines. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students must complete several required mathematics courses in addition to the required physics and astronomy core. The department offers a wide range of upper-level electives and students are encouraged to explore different research areas. All students are strongly encouraged to get involved with research.

The BS with a major in astronomy requires the following coursework. Substitutions may be allowed by exception through the department.

Requirements	Hours
Mathematics Courses	13-16
Physics Core Courses	24-28
Astronomy Core Courses	17
Upper-Level Physics Courses	6-7
Optional Upper-Level Elective Courses	

Mathematics Courses

Course #	Title	Hours

PHYS:4761	Mathematical Methods of Physics I	3
PHYS:4762	Mathematical Methods of Physics II	3
PHYS:4905	Special Topics in Physics	arr.

In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BS may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward the requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their GPA, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Double Major in Physics and Astronomy

Students working toward a Bachelor of Science with a double major in physics and in astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Bachelor's Degree on the College of Liberal Arts and Sciences website.

Honors

Honors in the Major

Students majoring in astronomy have the opportunity to graduate with honors in their major. They must maintain a University of Iowa grade-point average (GPA) of at least 3.33. During their junior and senior years, students must conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the astronomy major.

Career Advancement

Astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

About 70% of physics and astronomy graduates go on to graduate school. With help from the department’s in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1850 Calculus I, MATH:1860 Calculus II, and PHYS:1702 Physics II.

Before the fifth semester begins: all of the remaining required math courses, PHYS:2703 Physics III, PHYS:2704 Physics IV, and two other courses in the major.

Before the seventh semester begins: four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: three more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in math courses requires completion of a placement exam.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Typically this course is offered every other year. Check MyUI for course availability since offerings are subject to change.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Students who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements. See General Catalog for a list of appropriate courses.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Physics, Minor

Requirements

The undergraduate minor in physics requires a minimum of 15 s.h. in physics coursework, including 12 s.h. taken at the University of Iowa from the following course list. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Course #	Title	Hours
12 s.h. from these:		
PHYS:1612	Introductory Physics II	4
or PHYS:2703	Physics III	
PHYS:2704	Physics IV	3-4
Physics courses numbered 3000 or above		

Both PHYS:2703 Physics III and PHYS:2704 Physics IV have prerequisites, as do most physics courses numbered 3000 or above. Students must complete a course's prerequisites before they may enroll in the course.

Astronomy, Minor

Requirements

The undergraduate minor in astronomy requires a minimum of 15 s.h. in astronomy and physics courses, including 12 s.h. of coursework numbered 3000 or above and 12 s.h. taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Course #	Title	Hours
6 s.h. from these:		
ASTR:3771	Introduction to Astrophysics I	3
ASTR:3772	Introduction to Astrophysics II	3
ASTR:4850	Observational Techniques in Astronomy	3

The remaining work may be chosen from astronomy and physics courses (prefixes ASTR and PHYS) numbered 3000 or above.

Most University of Iowa courses for the minor have prerequisites; students must complete a course's prerequisites before they may enroll in the course.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Astronomy, Minor

Course	Title	Hours
Academic Career		
Any Semester		
12 semester hours for the Astronomy minor must be taken at the University of Iowa.		
	Hours	**0**
First Year		
Fall

PHYS:2704	Physics IV	4
	Hours	**8**
Third Year		
Fall		
ASTR:3771	Introduction to Astrophysics I [b]	3
	Hours	**3**
Spring		
ASTR:3772	Introduction to Astrophysics II [b]	3
	Hours	**3**
Fourth Year		
Fall		
Minor: 3000-level or above course		3
	Hours	**3**
Spring		
Minor: 3000-level or above course (ASTR:4850 Observational Techniques in Astronomy is recommended)		3
	Hours	**3**
	Total Hours	**52**

a Enrollment in math courses requires completion of a placement exam.

b Typically this course is offered every other year. Check MyUI for course availability since offerings are subject to change.

Physics, MS

Graduate study in physics and astronomy is highly individualized. Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student's progress.

Learning Outcomes

Graduates will:

- understand the foundational principles that transcend many distinct areas, and learn the technical language, problem-solving skills, and training in technical listening and discussion;
- learn and practice advanced discourse in mathematical aspects that translate to physics;
- become familiar with the state-of-the-art experimental tools and equipment in the field;
- promote aspects of creativity and originality in the field and prepare for adaptability to new discoveries;
- learn and practice advanced discourse in experimental and observational aspects, including data and information mining, translating experimental observations to physical principles and vice versa; and
- learn analysis of data and computational skills as well as become familiar with state-of-the-art techniques for data processing.

Requirements

The Master of Science program in physics requires a minimum of 30 s.h. of graduate credit. All students must earn the required 30 s.h. of graduate credit in courses numbered 4000 or above, with at least 15 s.h. in courses numbered 5000 or above. At least 24 s.h. must be completed under the auspices of the University of Iowa after admission to the Department of Physics and Astronomy. Students must maintain a program grade-point average of at least 2.75.

Each student's plan of study should provide for as much advanced work as aptitude and previous preparation permit. Up to one-third of the program of study may be taken in related scientific fields other than physics (e.g., mathematics, chemistry, astronomy, geology, engineering).

The degree is offered with a thesis or critical essay. Students who choose the thesis option must write a thesis based on an original experimental or theoretical investigation that they have conducted. Students may earn a maximum of 6 s.h. in PHYS:7990 Research: Physics or PHYS:7992 Individual Critical Study.

Students who choose the critical essay option must conduct an independent study of the literature on a particular area of physics and write a critical essay on that topic. Students may earn a maximum of 4 s.h. in PHYS:7990 Research: Physics or PHYS:7992 Individual Critical Study.

The MS may be a terminal degree or a step toward a PhD. In either case, the final examination is oral, conducted by a committee of three faculty members.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Graduates have opportunities for employment in universities, colleges, and research laboratories in government and industry. Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in engineering, software development, finance, or consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must earn at least 15 s.h. in courses numbered 5000 or above. Up to one-third of the program of study may be taken in related scientific fields other than physics (e.g., mathematics, chemistry, astronomy, geology, engineering).

b Students must complete specific requirements in the University of Iowa Graduate College after program

admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d Work with faculty advisor to determine appropriate upper-level graduate coursework and sequence.

e Oral examination.

Astronomy, MS

Graduate study in physics and astronomy is highly individualized. Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student's progress.

Learning Outcomes

Graduates will:

- understand the foundational principles that transcend many distinct areas, and learn the technical language, problem-solving skills, and training in technical listening and discussion;
- learn and practice advanced discourse in mathematical aspects that translate to physics;
- become familiar with the state-of-the-art experimental tools and equipment in the field;
- promote aspects of creativity and originality in the field and prepare for adaptability to new discoveries;
- learn and practice advanced discourse in experimental and observational aspects, including data and information mining, translating experimental observations to physical principles and vice versa; and
- learn analysis of data and computational skills as well as become familiar with state-of-the-art techniques for data processing.

Requirements

The Master of Science program in astronomy requires a minimum of 30 s.h. of graduate credit. Students must complete a minimum of 30 s.h. of graduate work, including at least 12 s.h. from the following course list, at least 3 s.h. numbered 5000 or above, and the remainder in courses numbered at least 4000 or above. At least 24 s.h. must be completed under the auspices of the University of Iowa after admission to the Department of Physics and Astronomy. Seminars do not count toward the minimum of 30 s.h. required for the degree. All students must maintain a grade-point average of at least 2.75.

Up to one-third of the program of study may be taken in related scientific fields (e.g., meteorology, geology, electrical engineering); selection of such courses is encouraged.

The degree is offered either with or without a thesis. The MS may be a terminal degree or a step toward a PhD in physics with a subprogram and a dissertation in astronomy or astrophysics. In either case, the final examination is oral, conducted by a committee of three faculty members.

Students must select at least 12 s.h. from these.

Course #	Title	Hours
ASTR:6782	Extragalactic Astronomy	3
ASTR:6785	The Interstellar Medium	3
ASTR:6790	Stellar Astrophysics	3
ASTR:6870	Radiative Processes in Astrophysics	3
ASTR:6880	High Energy Astrophysics	3
ASTR:7775	Special Topics in Astrophysics	1-3
ASTR:7830	Space and Astrophysical Plasma Physics	3
PHYS:7760	General Relativity	2-3
PHYS:7761	Cosmology	3

For the MS with thesis option, students may take no more than 6 s.h. in PHYS:7992 Individual Critical Study and ASTR:7991 Research: Astronomy; and for those who complete the MS without thesis and writing a critical essay, no more than 4 s.h. may be taken in those courses.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Graduates have opportunities for employment in universities, colleges, and research laboratories in government and industry. Astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in engineering, software development, finance, or consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

a Students must complete at least 12 s.h. from list of approved required courses, at least 3 s.h. numbered 5000 or above, and the remainder in courses numbered at least 4000 or above. Note: seminars do not count toward the minimum of 30 s.h. required for the degree.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d See the General Catalog for list of approved courses.

e Work with faculty advisor to select appropriate coursework. Up to one-third of the program of study may be taken in related scientific fields (e.g., meteorology, geology, electrical engineering); selection of such courses is encouraged.

f No more than 4 s.h. may be taken from ASTR:7991 and PHYS:7992.

g Oral examination.

Physics, PhD

Graduate study in physics and astronomy is highly individualized. The department does not offer a PhD in astronomy, but students may pursue a PhD in physics with an astronomy subprogram and a dissertation in astronomy.

Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student's progress.

Learning Outcomes

Graduates will:

- understand the foundational principles that transcend many distinct areas, and learn the technical language, problem-solving skills, and training in technical listening and discussion;
- learn, practice, and discover advanced discourse in mathematical aspects that translate to physics;
- become familiar with the state-of-the-art experimental tools and equipment in the field;
- develop skills for creativity and originality in the field and promote communication of new discoveries;
- learn and practice advanced discourse in experimental and observational aspects, including data and information mining, translating experimental observations to physical principles and vice versa; and
- learn analysis of data and computational skills as well as become familiar with state-of-the-art techniques for data processing.

Requirements

The Doctor of Philosophy program in physics requires a minimum of 72 s.h. of graduate credit. At least 39 s.h. must be earned at the University of Iowa to complete the residency requirement. For students interested in doing doctoral work in astronomy, the department offers an astronomy subprogram, including a dissertation, within the PhD program in physics. All students must maintain a program grade-point average of at least 3.00.

All students must earn at least 24 s.h. in departmental courses numbered 5000 or above. They may not count credit earned in PHYS:7990 Research: Physics, PHYS:7992 Individual Critical Study, ASTR:7991 Research: Astronomy, or seminars.

All students must take comprehensive examinations; participate in advanced seminars; do original research in experimental physics, theoretical physics, or astrophysics; and prepare and defend a written dissertation based on this work.

PhD students in physics without the astronomy subprogram must complete the following courses.

Course #	Title	Hours
PHYS:4761 & PHYS:4762	Mathematical Methods of Physics I and Mathematical Methods of Physics II (students who pass a written examination are exempt from this requirement)	6
PHYS:5710	Classical Mechanics	3
PHYS:5730	Statistical Mechanics I	3
PHYS:5741 & PHYS:5742	Quantum Mechanics I and Quantum Mechanics II	6
PHYS:5811 & PHYS:5812	Classical Electrodynamics I and Classical Electrodynamics II	6

These courses freely use advanced mathematics (e.g., complex variables, tensor analysis). An introduction is provided in PHYS:4761 Mathematical Methods of Physics I and PHYS:4762 Mathematical Methods of Physics II. The selection of less advanced coursework depends on the adequacy of a student's preparation for graduate work; students' choice of more advanced and specialized courses depends on the direction in which their interests develop.

PhD students in physics with the astronomy subprogram must complete a total of six courses from the following.

Course #	Title	Hours
Four of these:		
ASTR:6782	Extragalactic Astronomy	3
ASTR:6785	The Interstellar Medium	3
ASTR:6790	Stellar Astrophysics	3
ASTR:6870	Radiative Processes in Astrophysics	3
ASTR:6880	High Energy Astrophysics	3
ASTR:7775	Special Topics in Astrophysics	3
ASTR:7830	Space and Astrophysical Plasma Physics	3
PHYS:7760	General Relativity	3
PHYS:7761	Cosmology	3
Two of these:		
PHYS:5710	Classical Mechanics	3
PHYS:5730	Statistical Mechanics I	3
PHYS:5741	Quantum Mechanics I	3
PHYS:5742	Quantum Mechanics II	3
PHYS:5811	Classical Electrodynamics I	3
PHYS:5812	Classical Electrodynamics II	3

After a student has chosen a research specialty, the student must submit a formal thesis proposal and defend the proposal in an oral comprehensive exam. The appropriate thesis advisor then becomes the candidate's general advisor and the chair of the comprehensive and final examination committee. The comprehensive exam must be taken before the beginning of the fourth year of graduate study.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Graduates have opportunities for employment in universities, colleges, and research laboratories in government and industry. Physics graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in engineering, software development, finance, or consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

a Students must earn at least 24 s.h. in departmental courses numbered 5000 or above, and may not include credit earned in PHYS:7990, PHYS:7992, ASTR:7991, or seminars.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d Students who pass a written examination are exempt from this requirement.

e Work with faculty advisor to determine appropriate coursework and sequence.

f Dissertation defense.

Political Risk Analysis

Chair, Department of Political Science

- Julianna Pacheco

Undergraduate certificate: political risk analysis

The Certificate in Political Risk Analysis prepares students to work in a growing area of focus for many corporations and international organizations—political risk analysis or risk intelligence. Risk analysis focuses on the effect that country characteristics and events have on sovereign risk (the ability of a country to repay its debts), company security, supply chains, and the safety of individuals working or traveling in a country. Understanding this risk provides assistance to companies and organizations so that they can better manage their investments, assets, and activities in countries around the world based on threats they might face.

Career workshops, internships, and job opportunities also are provided.

The certificate demonstrates to companies that students have the requisite training to work in this area. The political risk analysis certificate was developed in conjunction with individuals working in this area and the Association of International Risk Intelligence Professionals. Feedback about the curriculum has been received from individuals working in the industry so that it provides the training that students need to be competitive in this area. Alumni are active in assisting students with advice on internships and careers.

The Certificate in Political Risk Analysis is administered by the Department of Political Science.

Programs

Undergraduate Program of Study

Certificate

- Certificate in Political Risk Analysis [p. 925]

Political Risk Analysis, Certificate

Requirements

The undergraduate Certificate in Political Risk Analysis requires a minimum of 18 s.h. of credit. Students must maintain a grade-point average of at least 2.00 in work for the certificate. Certificate courses cannot be taken pass/nonpass. A maximum of 6 s.h. of transfer credit may be accepted toward certificate requirements, with the approval of the political risk analysis advisor.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

The Certificate in Political Risk Analysis requires the following coursework.

Core Courses

Financial Risk Principles

Course #	Title	Hours
This course:		
FIN:3400	Principles of Risk Management and Insurance	3

Quantitative Analysis

Course #	Title	Hours
One of these:		
POLI:3000	Analyzing Political Data	3
STAT:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:3510	Biostatistics	3

Politics Foundation

Course #	Title	Hours
One of these:		
POLI:1400	Introduction to Comparative Politics	3
POLI:1500	Introduction to International Relations	3

Elective Courses

Students select three courses from the following.

Country and International Risk

Course #	Title	Hours
POLI:2415	Latin American Politics	3
POLI:3405	Authoritarian Politics	3
POLI:3408	Chinese Politics and Society	3
POLI:3411	Democracy: Global Trends and Struggles	3
POLI:3420	Southeast Asia: Politics and Development	3
POLI:3422	Horn of Africa: Politics and Transnational Issues	3
POLI:3423	The Middle East: Policy and Diplomacy	3
POLI:3426	Outliers: Comparing Odd Countries	3
POLI:3428	Statecraft, Diplomacy, and World Order	3
POLI:3450	Problems in Comparative Politics	3
POLI:3503	Politics of Terrorism	3
POLI:3504	Globalization	3
POLI:3505	Civil Wars	3
POLI:3506	Consequences of War	3
POLI:3509	International Courts: The Intersection of Law and Politics	3
POLI:3512	International Conflict	3
POLI:3516	The Politics of International Economics	3
POLI:3518	Water Wars: Conflict and Cooperation	3
POLI:3550	Problems of International Politics	3

Experiential Learning Requirement

All students select one of the following after consultation with the political risk analysis advisor.

Study Abroad

Students may register for a study abroad course (prefix ABRD).

Research

Course #	Title	Hours
POLI:3001	Hawkeye Poll	3
POLI:3127	Legislative Policy Seminar	arr.
POLI:3160	Applied Research in Political Science	1-3
POLI:3525	Iowa Policy and Opinion Lab	0-3
POLI:3527	Civil War Research Lab	3
POLI:3530	Diplomacy Lab	arr.
POLI:3994	Political Science Undergraduate Research Projects	1-4
POLI:4701	Undergraduate Research Tutorial	3
URES:3992	Undergraduate Research and Creative Projects	0
URES:3993	Undergraduate Research and Creative Projects	1-4
URES:3994	Undergraduate Research and Creative Projects	1-4
URES:3995	Independent Creative Research by Undergraduates Summer Internship	0

Internship

Course #	Title	Hours
POLI:3124	Guided Political Science Internship	1-9
POLI:4900	Government and Politics Internship	1-3

Political Science

Chair

- Julianna Pacheco

Undergraduate major: political science (BA, BS)

Undergraduate minor: political science

Graduate degrees: MA in political science; PhD in political science

Faculty: https://politicalscience.uiowa.edu/people/faculty

Website: https://politicalscience.uiowa.edu

The Department of Political Science offers undergraduate majors and minors as well as graduate degree programs. In addition to the programs of study in political science, it offers the BA, BS, and minor in international relations and the undergraduate Certificate in Political Risk Analysis [p. 925]. It collaborates with other departments to offer the Certificate in Social Science Analytics [p. 996]. The department also offers several courses that undergraduate students in all majors may use to fulfill GE CLAS Core [p. 22] requirements and a First-Year Seminar designed for entering undergraduate students.

Related Certificates

Political Risk Analysis

The Certificate in Political Risk Analysis prepares students to work in this highly interdisciplinary area, which requires a keen understanding of business practices and the political situation facing countries. Political risk analysis focuses on the effect of country characteristics and events on sovereign risk (the ability of a country to repay its debts), company security, supply chains, and the safety of individuals working or traveling in a country. Understanding this risk is part of helping companies better manage their investments, assets, and activities in foreign countries based on threats that a company might face. The Department of Political Science collaborates with the College of Business to offer the undergraduate program in political risk analysis; see Political Risk Analysis [p. 924] in the catalog. The Department of Political Science administers the certificate.

Social Science Analytics

The growth of big data and informatics calls for a new set of skills for social science students and an increased understanding of the logic of data collection and analysis. The certificate focuses on the application side of data analysis. It allows students to focus on the specific research methods and data-driven quantitative skills that are most effective for understanding an increasingly complicated social-political world. The certificate offers an opportunity for interdisciplinary training on how data can be used to address important questions in the social sciences. The Department of Political Science collaborates with the School of Earth, Environment, and Sustainability and the departments of Sociology and Criminology and Statistics and Actuarial Science to offer the undergraduate program in social science analytics; see Social Science Analytics [p. 995] in the catalog. The Department of Political Science administers the certificate.

Programs

Undergraduate Programs of Study

Majors

- Major in Political Science (Bachelor of Arts) [p. 934]
- Major in Political Science (Bachelor of Science) [p. 938]

Minor

- Minor in Political Science [p. 942]

Graduate Programs of Study

- Master of Arts in Political Science [p. 943]
- Doctor of Philosophy in Political Science [p. 944]

Courses

Courses numbered below 2000 are introductory undergraduate courses. POLI:1000 First-Year Seminar does not count toward the major or the minor in political science.

Courses numbered 2000–4999 are considered advanced for undergraduates. POLI:4900 Government and Politics Internship and POLI:3124 Guided Political Science Internship do not count toward the major or the minor in political science; they are offered only satisfactory/fail or pass/nonpass.

Courses numbered 5000–6000 are graduate core courses; those numbered 7000 or above are advanced graduate courses.

Political Science Courses

POLI:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

POLI:1001 Introduction to Politics 3 s.h.
Introduction to selected processes, institutions, or behaviors central to the study of politics.

POLI:1050 Big Ideas: Introduction to Information, Society, and Culture 3 s.h.
What is information? What does it teach us about societies and cultures? How is information used to shape societies and even personal preferences? What types of information are there and how can we understand and use them? Students work with faculty from multiple disciplines to investigate these questions using inquiry-based activities to build success in critical thinking and teamwork. GE: Quantitative or Formal Reasoning. Same as RELS:1050.

POLI:1100 Introduction to American Politics 3 s.h.
Structure and processes of American national government; how the United States manages political conflict; impact of the U.S. Constitution; effect of public opinion, interest groups, and media on government; role and evolution of Congress, presidency, bureaucracy, and Supreme Court. GE: Social Sciences.

POLI:1120 Introduction to Lawyers in the American Political System 3 s.h.
Training and careers of lawyers; various roles they play in the American political system.

POLI:1200 Introduction to Political Behavior 3 s.h.
Patterns and basis of political behavior of American electorate; trends in voter turnout; vote choice; ideology, partisanship, and public opinion. GE: Social Sciences.

POLI:1300 Introduction to Political Thought and Action 3 s.h.
Common problems, literature, analytic techniques. GE: Social Sciences; Values and Society.

POLI:1400 Introduction to Comparative Politics 3 s.h.
Politics worldwide, including all regions and levels of development; wide-ranging themes, including regime types, political change, political culture, public opinion, government structures, state-society relationship, electoral systems, public policy issues. GE: International and Global Issues.

POLI:1401 Introduction to Russian Politics 3 s.h.
Political dynamics in postcommunist countries of east-central Europe and Eurasia; imperial legacies, ideology and practice of communist politics, patterns of democracy and authoritarianism. GE: International and Global Issues.

POLI:1449 Introduction to European Politics 3 s.h.
Political institutions, processes of selected European countries. GE: International and Global Issues.

POLI:1500 Introduction to International Relations 3 s.h.
Survey of key issues in international relations, including causes of wars, different types of theories of international relations, international organizations, and global environmental problems. GE: International and Global Issues.

POLI:1501 Introduction to American Foreign Policy 3 s.h.
Foreign policies: goals, basic themes and general patterns, problems encountered by policy makers, means employed in dealing with other nations and international organizations, processes by which policies are formulated, factors that influence structure of policies. GE: International and Global Issues.

POLI:1510 International Politics of Environmental Issues 3 s.h.
Why countries struggle to cooperate on pressing environmental issues; reducing greenhouse gas emissions, ozone depleting materials, and other environmental issues; examination and analysis of approaches taken to address global environmental issues. GE: Sustainability. GE: International and Global Issues; Sustainability.

POLI:1600 Introduction to Political Communication 3 s.h.
Institutions, dynamics, issues of political communities considered as networks of communication; representative topics include political actors, ads, films, media, myths, news, publics, regulations, rhetorics, symbols. GE: Social Sciences.

POLI:1601 Introduction to Social Media and Politics 3 s.h.
Politics in news, culture, commerce, campaigns, and government with attention to current media (e.g., cinema, internet, print, television). GE: Understanding Cultural Perspectives.

POLI:1700 Introduction to Political Analysis 3 s.h.
Tools necessary to analyze and solve puzzles in politics (i.e., Why do countries go to war rather than negotiate? Why do lifelong enemies become allies? Why do majorities act irrationally?); questions approached from a quantitative perspective (unlike most political analyses), in particular, game theory—a branch of mathematics that investigates how rational players act in situations (like those in politics) of strategic interaction. GE: Quantitative or Formal Reasoning.

POLI:1800 Introduction to the Politics of Class and Inequality 3 s.h.
Introduction to issues of class and economic inequality in the U.S. and other countries; what class and economic inequality are, debates surrounding these definitions, and attempts to measure both of these concepts; research and arguments on economic and political explanations of economic inequality; different policies aimed at reducing economic inequality and debates over them. GE: Understanding Cultural Perspectives.

POLI:1900 Introduction to the Politics of Race 3 s.h.
Introduction to politics of race in the U.S.; history of racial and ethnic groups in the U.S., their relationship with each other, and their interactions with different levels of government. GE: Understanding Cultural Perspectives.

POLI:1950 Introduction to the Politics of Religion 3 s.h.
Introduction to the complex relationship between religion and politics; examination of historical and contemporary effect of religion on a wide range of areas (e.g., political culture, political parties, political behavior, public policy); consideration of important policy debates (e.g., role of religion in public life, religious discrimination, various social issues). GE: Understanding Cultural Perspectives.

POLI:2000 Designing Political Research 3 s.h.
How research is conducted on politics and government; students examine different research approaches (both qualitative and quantitative), learn how to read and understand published research on politics, demonstrate an understanding of different research approaches, and understand, interpret, and critically analyze published research on politics.

POLI:2415 Latin American Politics 3 s.h.
Governmental institutions, major interest groups; focus on area as a whole. GE: International and Global Issues. Same as LAS:2415.

POLI:2417 Comparative Environmental Policy 3 s.h.
Analysis of environmental policy and governance processes; case examples and analysis primarily focus on water governance in local contexts outside the United States; causes and consequences of environmental policy differences; effects of government structure, society, and natural resource conditions on policy development, implementation, and environmental outcomes.

POLI:2500 Politics of Natural Disasters 3 s.h.
Examination of local, national, and international politics that guide government action (and inaction) in the face of increasingly intense and increasingly frequent natural disasters; draws on core concepts from political science related to distributive politics, natural resource governance, state capacity, government responsiveness, and collective action. GE: Sustainability. GE: International and Global Issues; Sustainability.

POLI:3000 Analyzing Political Data 3 s.h.
Creating knowledgeable evaluators of current research in political science; interpretation of different quantitative techniques with examples from current political science research.

POLI:3001 Hawkeye Poll 3 s.h.
Basics of survey design, sampling, question wording, interpreting responses, and writing press releases; students work together to help design questions as part of the Hawkeye Poll, a collaborative teaching and research enterprise in the Department of Political Science.

POLI:3002 Data Visualization 3 s.h.
Techniques and best practices for creating effective data visualizations for social science data. Recommendations: prior programming experience and understanding of basic statistical concepts not required, but recommended.

POLI:3020 Project Vote Smart: Research and Engagement on Elections 3 s.h.
Partnership between the Department of Political Science and Vote Smart; students will work in teams and each team will work with a different part of Vote Smart, including community engagement, communications, survey of political candidates, identification of political issues in the upcoming election, and other areas; students will be evaluated based on their work with Vote Smart and their team, as well as a bi-weekly reflection of what they are working on, and a final short paper connecting their work to the academic study of American politics.

POLI:3035 Careers in Political Science and International Relations 3 s.h.
Introduction to careers available to students in political science and international relations by Department of Political Science alumni; focus on types of careers available in their fields, how to prepare for these careers, and how to find jobs in the field.

POLI:3050 Problems in Methods arr.
Problems in political science research methods; data collection, interpretation, analysis.

POLI:3100 American State Politics 3 s.h.
Approaches to analysis of political behavior in American state governments; emphasis on cultures, parties, actors, processes, issues.

POLI:3101 American Constitutional Law and Politics 3 s.h.
Role of U.S. Supreme Court in American political system; emphasis on analysis of Supreme Court cases.

POLI:3102 The U.S. Congress 3 s.h.
History of Congress, how congressional elections shape what legislators do, how laws are made in Congress, rules and maneuvers that shape these laws, and the future of Congress as one of the major institutions of American government; gain an understanding of Congress and why Americans continue to be confused and fascinated by this complicated branch and its politics.

POLI:3104 Immigration Politics 3 s.h.
United States immigration policy and political consequences of Latina/o/x population growth; contrast of political experiences of Latina/o/x with groups and ideals of democratic political systems; analyses of past immigration policies; studies of public opinion, voter turnout, and campaign tactics. Same as LAS:3104, LATS:3104.

POLI:3107 Writing in Political Science: Writing for "Science" and for "Politics" 3 s.h.
Examination of principles used in writing for science and writing for politics: science writing clearly explains its ideas to promote understanding, and political writing advocates for its ideas by highlighting and obscuring different pieces of information and "spinning" its findings to promote persuasion; students produce and analyze examples of both forms of writing.

POLI:3110 Local Politics 3 s.h.
Models of city government, relation to state and federal governments; rights, liabilities of municipalities; city elections, campaigns, issues; role of pressure groups.

POLI:3111 American Public Policy 3 s.h.
Functions and policies of national government; emphasis on domestic policy making, impact of public policy.

POLI:3113 Research in Judicial Politics 3 s.h.
Applied research training in courts and judicial politics.

POLI:3114 Women and Politics in the United States 3 s.h.
Involvement of women in the U.S. political system; topics include political theories about women's involvement in politics and government, women and constitutional law, public policies that affect women, women's participation in politics at the mass and elite levels.

POLI:3116 The Presidency 3 s.h.
Constitutional foundations, subsequent development, current status of the office of the presidency; evolution of presidential selection process; powers, structures, functions of the office; role of president as legislative, executive, and public leader.

POLI:3117 Bureaucratic Politics and Public Administration 3 s.h.
Examination of bureaucracy from political, theoretical, and practical perspectives; what we mean by "bureaucracy" and how it developed over time; political control of bureaucracy; how bureaucracy performs its tasks, including behavior of bureaucrats; role of nonprofit service delivery in modern bureaucracy; how bureaucracy affects American policy and politics. Same as PBAF:3117.

POLI:3118 Interest Groups 3 s.h.
Theory, organization, and structure of interest groups; how they influence Congress, executive branch, courts, elections.

POLI:3120 The Criminal Justice System 3 s.h.
Role of actors, institutions that constitute and participate in the American criminal justice system.

POLI:3121 The Judicial Process 3 s.h.
Role of courts, lawyers, judges, interest groups in the American political system.

POLI:3124 Guided Political Science Internship 1-9 s.h.
Supervised professional work experience in government and nongovernment organizations, as well as private industry. Requirements: sophomore or higher standing.

POLI:3127 Legislative Policy Seminar arr.
Policy research for the Iowa Legislature.

POLI:3130 Congressional Elections 3 s.h.
Comprehensive exploration of congressional elections, institutional foundations of how congressional elections are run, campaign dynamics surrounding who runs, who wins, and how candidates behave on the campaign trail, as well as legislative implications of elections for public policy outcomes.

POLI:3150 Problems in American Politics 1-3 s.h.
Problems in studying American system; structures, functions, behavior.

POLI:3160 Applied Research in Political Science 1-3 s.h.
How research is conducted in political science; students learn about the research process including identification of research questions, doing literature reviews, developing an argument, collecting data, analyzing data, and assisting a PhD student on a research project; short assignments based on different parts of research process.

POLI:3202 Political Psychology 3 s.h.
Political phenomena from psychological perspective; political behaviors of individuals including decision-making by elites and masses, evaluations of political candidates, mass mobilization, response to mass media; psychological concepts including stereotyping, social cognition, attitude, and group identification.

POLI:3203 Campaigns, Elections, and Voting Behavior 3 s.h.
Determinants of voting behavior; correlates of political participation, political apathy; political socialization processes; nature and functions of elections.

POLI:3204 Public Opinion 3 s.h.
Role in making public policy; formation, change of political attitudes and opinions; political ideology; measurement of public opinion; how opinion polls are conducted; experience with interviewing and conducting public opinion research. Same as SOC:3525.

POLI:3205 Political Negotiation 3 s.h.
Examination of theories of political negotiation and strategies politicians use when debating public policy with an emphasis on negotiation in American politics; students discuss readings, participate in simulations of decision-making scenarios, and complete a group project; recognition of negotiation strategies; identification of goals of political actors; development of ability to collaborate in collective decision-making spaces.

POLI:3302 Current Political Theory 3 s.h.
Thinkers or schools of thought, from World War II to present.

POLI:3306 Problems of Democracy 3 s.h.
Theory and practice of democracy; democratic ideals and the institutions and practices necessary for those ideals to work in everyday politics—power, equality, majority rule, participation, trust, representation.

POLI:3350 Games of Politics 3 s.h.
Active learning component to many theories and concepts learned in political science and international relations; multitude of simulations (games) that provide a hands-on learning element to these concepts and theories; topics include alliances, balance of power, inequality, public opinion, gerrymandering, and policy making; students read materials connected to the specific weekly topic, complete a simulation tied to that topic, discuss links between topics; and complete a variety of assignments that tie these items together.

POLI:3405 Authoritarian Politics 3 s.h.
Political dynamics in countries with authoritarian governing regimes; how those dynamics differ from their counterparts in democracies; how decisions are reached and get enforced; forms political struggles take; how interest groups pursue influence; ways individuals deal with the government; tension between regime control and societal progress.

POLI:3408 Chinese Politics and Society 3 s.h.
Comprehensive introduction to modern Chinese history; current Chinese political system and political culture; public policy issues.

POLI:3411 Democracy: Global Trends and Struggles 3 s.h.
Diverse contemporary understandings and practices of democracy; worldwide democratization trends; what political, economic, cultural and transnational factors shape those trends; how elites and citizens struggle to promote or retard democracy; the news full of people around the world taking action to demand democracy and what this term, so highly prized, really means; what is known about when democracy will replace authoritarianism; how can democracies more fully live up to their promise.

POLI:3420 Southeast Asia: Politics and Development 3 s.h.
Eleven states of Southeast Asia; governance, development strategies, domestic politics, approach to democracy and national identity; regional politics and important transnational issues; role of ASEAN, terrorism, trans-Pacific trade and investment issues, China's looming presence, impact of ongoing and historic conflicts; briefings, discussions, presentations.

POLI:3422 Horn of Africa: Politics and Transnational Issues 3 s.h.
Eight states in the Horn of Africa region; important transnational and regional issues; governance, development strategies, domestic politics, social and civic dynamics of countries in the region; wildlife trafficking, piracy, fight against HIV/AIDS, imprint of colonialism, secession, ethnic and national identities, democratization, role of women in society, impact of ongoing and historic conflicts; briefings, discussions, presentations.

POLI:3423 The Middle East: Policy and Diplomacy 3 s.h.
Nineteen states and entities of North Africa and the Middle East; issues of governance, development strategies, domestic politics, and approach to democracy and national identity; regional politics and important transnational issues; role of political Islam; impacts of the Arab Spring, terrorism, oil, role of women in society, ongoing and historic conflicts; briefings, discussions, presentations.

POLI:3424 Global Development 3 s.h.
Exploration of political and social causes and consequences of economic development; two important questions asked—Why are some countries rich while others are poor? What can be done to encourage growth in underdeveloped countries?

POLI:3426 Outliers: Comparing Odd Countries 3 s.h.
The 195 countries that make up today's international system vary greatly by demography, geography, cultural variables, income, and many other characteristics; United Nations member Nauru, for example, with only 10,000 people and eight square miles of territory was once ranked among the world's richest countries per capita; how being "odd" (compared to the norm) in key characteristics relates to sociopolitical outcomes like good governance, human development, or happiness; students write short research papers, participate in group projects, and engage in an active learning environment to explore governance in the world's "odd" countries.

POLI:3427 Latinas/os/x and the Law 3 s.h.
Introduction and survey of Latina/o/x legal history; topics include segregation, educational rights, immigration, voting rights, citizenship, and the criminal justice system. Same as AMST:3420, LATS:3420, SJUS:3420.

POLI:3428 Statecraft, Diplomacy, and World Order 3 s.h.
Exploration of the interaction of statecraft, diplomacy, and changing perceptions of world order; how a state fosters its interests and values vis-à-vis the world's other nations, international organizations, and nonstate actors given significant changes to traditional diplomacy and statecraft wrought by advances in technology, globalization, domestic political inputs, and requirements of conflict management; material ranges broadly in scope from long arc of regional competition over thousands of years to nuts and bolts of modern-day statecraft.

POLI:3430 Environmental Politics and Indigeneity 3 s.h.
Examination of contemporary environmental challenges through the lens of indigeneity; exploration of the concepts of environment and indigeneity, and development of a guiding framework for analyzing environmental challenges; application of this framework to analyze themes including climate change, biodiversity, food production, management of genetic resources, extractivism, and sustainable development; environmental/indigenous scholars and activists share their work and insights. Same as NAIS:3430.

POLI:3431 U.S. Energy Policy in Global Context 3 s.h.
Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as GHS:3780, HIST:3240, SEES:3780.

POLI:3432 Agriculture Politics and Policy 3 s.h.
Examination of local, national, and international politics and policies around agriculture including genetically modified organisms (GMOs), subsidies, trade, genetic seed banks, sustainability, and indigeneity. Same as NAIS:3432.

POLI:3450 Problems in Comparative Politics 3 s.h.
Structures, functions, behaviors of different political systems.

POLI:3503 Politics of Terrorism 3 s.h.
Strategies of terrorists, insurgents, guerrillas, and other non-state actors; terrorists' use of the media; suicide attacks; al Qaeda and the U.S.-led War on Terrorism; counterinsurgency and counter-terrorism; self-starters and transnational terrorist networks; drone strikes and data-mining operations as counter-terrorism tools and the associated political controversies.

POLI:3504 Globalization 3 s.h.
Introduction to multidisciplinary literature on political economy and culture of globalization; major topics of debate on globalization.

POLI:3505 Civil Wars 3 s.h.
Causes, duration, management, and consequences of civil war; factors that create more frequent, longer civil wars (e.g., greed, grievance, ethnic conflict, state capacity); conflict management strategies for ending civil wars and minimizing long-term negative consequences.

POLI:3506 Consequences of War 3 s.h.
War's enduring effects: war's impact on individuals, including combatants and noncombatants; war's impact on states, including states' development, economic, political, and social effects; war's effects on the international system.

POLI:3509 International Courts: The Intersection of Law and Politics 3 s.h.
Introduction to important international courts including (Permanent) International Court of Justice, European Court of Justice, International Criminal Tribunal for Yugoslavia, International Criminal Tribunal for Rwanda, and International Criminal Court; the formation, design, and expansion of international courts from political and legal perspectives; states' capabilities, regime type, and war; intersection of domestic and international law, emphasizing the major legal systems in the world (civil law, common law, Islamic law).

POLI:3512 International Conflict 3 s.h.
International conflict as the primary ingredient of international politics; sources, causes, and effects of conflict, alliance structures, power distribution, geography, arms races, deterrence.

POLI:3516 The Politics of International Economics 3 s.h.
Politics of international trade and financial systems, including rise of free trade in 19th century and breakdown between the two world wars, postwar trading system framed around the World Trade Organization, different types of international monetary systems, relations between rich countries and poor countries, and global environmental politics.

POLI:3518 Water Wars: Conflict and Cooperation 3 s.h.
How climate change may aggravate shortage of freshwater in water-stressed regions, producing warnings of conflict over international river basins or "water wars"; recent U.S. intelligence assessment notes that water may be used as a weapon between or within states, or to further terrorist aims in the future; management of international water resources including conflicts over cross-border rivers and maritime areas; common property resources, piracy, maritime security, peaceful and militarized conflict management of water-based conflicts, climate issues, natural disasters, United Nations Law of the Sea Convention.

POLI:3519 Politics of Aging 3 s.h.
Core concepts and methods related to aging and policies that address the needs of older persons; demographic measures of population health and aging, including incidence and distribution of specific conditions relevant in older age; theories of public policy and involvement of older persons in the political process; key historical and current policies, at both the federal and state/local levels, that influence service provision and the well-being of older persons in the United States. Same as ASP:3519.

POLI:3525 Iowa Policy and Opinion Lab 0-3 s.h.
Collaboration and study of policymaking and public opinion in Iowa; examination of policy choices in legislative, executive, and judicial branches; collection of survey data on public opinion among Iowans; students assist with research question development, data collection, data analysis, writing up results, and work with topics in these and other areas (e.g., race and crime, gender and social issues, health and COVID-19, environment); research group led by faculty in the Departments of Political Science and Journalism and Mass Communication.

POLI:3526 Comparative Foreign Policy 3 s.h.
Students examine, compare, and analyze foreign policy of different countries; exploration of differences in different types of foreign policy across countries, including use of military force and cooperation on global issues (e.g., climate change, terrorism); understanding and evaluation of explanations for these differences, ranging from variation in leaders, domestic institutions, public opinion, and other factors; critical analysis of research on understanding foreign policies of countries.

POLI:3527 Civil War Research Lab 3 s.h.
Students engage in international relations research; focus on dynamics of conflict and cooperation in civil wars.

POLI:3528 Disasters, Migration, and Violence Lab arr.
Experiential learning course; conduct research on government responses to disasters in multiple countries and develop case reports of government responses and their efficacy regarding migration and political violence.

POLI:3530 Diplomacy Lab arr.
Students work in teams under the supervision of a faculty member on projects created by the U.S. Department of State; class meetings are arranged and most work will occur outside of the classroom; experiential learning course in partnership with the U.S. Department of State.

POLI:3550 Problems of International Politics 3 s.h.
Problems in studying international system, structures, functions, behavior.

POLI:3560 Public Policy and Persuasion 3 s.h.
Students build their skill set in policy analysis, formation, and communication through a social justice lens; engagement in service learning projects in one Iowa community, where work done directly impacts that community's ability to make changes; development of effective writing and oral presentation styles that can be adapted to different audiences; focus on homelessness policy using social policy and social justice concepts to explore work of policy makers who have "right-sized" existing systems to serve communities in crisis and propose solutions to systemic problems that disadvantage marginalized populations. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as PBAF:3560, RHET:3560, SJUS:3560.

POLI:3570 Poverty Policy 3 s.h.
How poverty is regulated and addressed in the United States, and by federal, state, and local governments; particular focus on programs including Temporary Assistance for Needy Families (TANF), Section 8 housing, Medicaid, and Medicare; how these systems have changed over time; current models and innovations that have emerged in practice. Same as GHS:3570, PBAF:3570, SSW:3570.

POLI:3601 Politics of Film 3 s.h.
Issues in the popular politics of aesthetics, communication, culture, and myth, explored through analysis of films.

POLI:3603 War and Film 3 s.h.
Exploration of one of the most significant political phenomena, war, as it is represented and understood through film; various film genres including classic war films, historical and historical fiction, documentary (e.g., *Battle of Algiers*, *Triumph of the Will*, *Invisible War*), comedy-drama (e.g., *Life is Beautiful*), and dark comedy or satire (e.g., *The Mouse that Roared, Tropic Thunder*); scholarly writings on international conflict; students discover and investigate themes related to nature of war, its underlying causes, and its consequences.

POLI:3701 Special Topics in Politics 1-2 s.h.
Presentations by distinguished lecturers on topics in the study of politics not covered in other courses.

POLI:3710 Law School Readiness Seminar 1 s.h.
Engagement in a number of programs and educational activities in preparation for successful application to and completion of law school.

POLI:3711 Law School Readiness Seminar II 1 s.h.
Preparation for successful application to and completion of law school; second in a two-semester sequence. Prerequisites: POLI:3710.

POLI:3720 History and Politics of Voter Registration and Civic Engagement 1 s.h.
History and politics of civic engagement and voter registration, including approaches taken at the University of Iowa, in Iowa City, the state of Iowa, and nationally; working to promote voter registration on campus.

POLI:3992 Political Science Undergraduate Research Projects 0 s.h.
Independent research with mentorship from a political science faculty member.

POLI:3993 Political Science Undergraduate Research Projects 1-4 s.h.
Independent research with mentorship from a political science faculty member.

POLI:3994 Political Science Undergraduate Research Projects 1-4 s.h.
Independent research with mentorship from a political science faculty member.

POLI:4000 Honors Seminar on the Study of Politics 3 s.h.
Examination of big ideas in the study of politics and government that cut across the fields of American politics, comparative politics, international relations, and political theory. Requirements: honors standing in political science.

POLI:4600 Honors Research Project 3 s.h.
Special research assistance to political science faculty. Requirements: junior or senior honors standing in political science.

POLI:4601 Honors Senior Thesis 3 s.h.
Supervised research and writing. Requirements: honors standing in political science and more than one semester before graduation.

POLI:4700 Independent Study arr.
Supervised special projects.

POLI:4701 Undergraduate Research Tutorial 3 s.h.
Individual training in applied research.

POLI:4800 Senior Seminar in International Relations 3 s.h.
Completion of final research project as a culmination of student's work in the major; research supervised by a faculty member; required for international relations major. Recommendations: taken during one of student's final two semesters at the University of Iowa.

POLI:4801 Honors Senior Seminar in International Relations 3 s.h.
Honors capstone course for international relations majors.

POLI:4802 International Relations Senior Seminar Preparation 1 s.h.
Preparation for international relations senior seminar.

POLI:4900 Government and Politics Internship 1-3 s.h.
Undergraduate internships in state or national legislative office, executive agency, or with election campaign official.

POLI:5000 Introduction to Political Analysis 4 s.h.
Conceptual problems of political analysis; empirical research strategies, philosophy of science. Requirements: MA or PhD standing in political science.

POLI:5001 Introductory Methodology 3-4 s.h.
Introduction to quantitative techniques in political science; set theory, probability distributions, estimation, testing; emphasis on acquiring mathematical skills for more advanced quantitative work in political science. Requirements: MA or PhD standing in political science. Same as IGPI:5001.

POLI:5003 Intermediate Methodology 4 s.h.
Techniques of data analysis; statistical models and their relationship to hypotheses tested. Requirements: doctoral standing in political science and one semester of intermediate statistics.

POLI:5100 American Politics 4 s.h.
Major literature of American politics, emphasis on comparative, systemic, behavioral studies. Requirements: MA or PhD standing in political science.

POLI:5117 Bureaucratic Politics and Public Administration 3 s.h.
Examination of bureaucracy from political, theoretical, and practical perspectives; what we mean by "bureaucracy" and how it developed over time; political control of bureaucracy; how bureaucracy performs its tasks, including behavior of bureaucrats; role of nonprofit service delivery in modern bureaucracy; how bureaucracy affects American policy and politics. Same as PBAF:5117.

POLI:5400 Comparative Politics 4 s.h.
Conceptual, theoretical, and methodological issues in comparative study of politics; developments in comparative politics subfield. Requirements: MA or PhD standing in political science.

POLI:5500 International Politics 4 s.h.
Approaches to study of international politics. Requirements: MA or PhD standing in political science.

POLI:5700 Introduction to Formal Models in Political Science 4 s.h.
Use of formal mathematical models; current modeling techniques, applications in American politics, comparative politics, international politics. Requirements: MA or PhD standing in political science.

POLI:7002 Topics Methodology 4 s.h.
Application of advanced statistical techniques in political science; limited dependent variable regression techniques, simulation methods, missing data techniques, history/rare event analysis and maximum likelihood, and topics tailored to students' research; focus on learning how and when to apply these techniques.

POLI:7003 Advanced Methodology 4 s.h.
Introduction to regression techniques for limited dependent and qualitative variables in political science; logit, probit, multinomial logit and probit, ordered logit and probit, event history models, event count models; emphasis on understanding how and when to apply these models.

POLI:7150 Problems in American Politics 4 s.h.
Problems in study of American political system; structures, functions, behavior.

POLI:7202 Public Opinion and Electoral Behavior 4 s.h.
Political attitudes and beliefs in mass publics; voting behavior; how electoral systems function.

POLI:7270 Responsible Research in Political Science 1 s.h.
Concepts and practice of scholarly integrity, responsible conduct of research, and research ethics in political science; data management, mentor/trainee responsibilities, publication practices and responsible authorship, peer review, collaborative science, human subjects, animal welfare, research misconduct, and conflict of interest and commitment. Requirements: enrollment in political science MA or PhD program.

POLI:7450 Problems of Comparative Politics 4 s.h.
Problems in study of comparative political systems; structures, functions, behavior.

POLI:7502 International Institutions and Cooperation 4 s.h.
Literature of international systems and international organization; major schools of thought in international relations theory, their utility in explaining evolution of the international system and recent developments in international organization and global governance.

POLI:7503 International Conflict and Cooperation 4 s.h.
Recent theoretical and empirical debates in international relations literature; emphasis on formal and quantitative research.

POLI:7550 Problems in International Politics 4 s.h.
Issues of international politics, emphasis on problems of theoretical analysis.

POLI:7900 Readings Tutorial arr.
Independent study.

POLI:7901 Research Tutorial arr.
Individual training in applied research.

POLI:7910 PhD Dissertation arr.

Political Science, BA

Most of the political science coursework required for the major is the same for BA and BS students, but the BS also requires a set of statistics, research, and experiential courses, while the BA does not.

The BA degree with a major in political science offers an option for an on-campus or an online program of study. See Requirements [p. 934] in this section of the catalog.

Learning Outcomes

Graduates will:

- possess a basic understanding of American and world politics;
- be able to apply a theoretical approach in political science to understand American or world politics;
- have effective written and oral communication skills; and
- be able to conceptualize problems and apply analytical tools to solve them.

Requirements

The Bachelor of Arts with a major in political science requires a minimum of 120 s.h., including 36 s.h. of work for the major in political science courses. At least 18 s.h. of coursework for the major must be taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Credit earned in POLI:1000 First-Year Seminar, POLI:3124 Guided Political Science Internship, POLI:3710 Law School Readiness Seminar, POLI:3711 Law School Readiness Seminar II, POLI:3993 Political Science Undergraduate Research Projects, and POLI:4900 Government and Politics Internship does not count toward the major, but grades in these courses become part of a student's grade-point average.

In planning coursework, students should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BA may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

The BA with a major in political science requires the following coursework.

Requirements	Hours
Political Science Introductory Courses	15
Additional Political Science Courses	21

Political Science Introductory Courses

Course #	Title	Hours
This course:		
POLI:1100	Introduction to American Politics	3
And four of these:		
POLI:1001	Introduction to Politics	3
POLI:1050	Big Ideas: Introduction to Information, Society, and Culture	3
POLI:1120	Introduction to Lawyers in the American Political System	3
POLI:1200	Introduction to Political Behavior	3
POLI:1300	Introduction to Political Thought and Action	3
POLI:1400	Introduction to Comparative Politics	3
POLI:1401	Introduction to Russian Politics	3
POLI:1449	Introduction to European Politics	3
POLI:1500	Introduction to International Relations	3
POLI:1501	Introduction to American Foreign Policy	3
POLI:1510	International Politics of Environmental Issues	3
POLI:1600	Introduction to Political Communication	3
POLI:1601	Introduction to Social Media and Politics	3
POLI:1700	Introduction to Political Analysis	3
POLI:1800	Introduction to the Politics of Class and Inequality	3
POLI:1900	Introduction to the Politics of Race	3
POLI:1950	Introduction to the Politics of Religion	3

Additional Political Science Courses

Course #	Title	Hours
All of these:		
At least seven additional political science courses numbered 2000 or above, excluding POLI:3124, POLI:3710, POLI:3711, POLI:3992, POLI:3993, and POLI:4900		21

Emphases in Political Science

Students may elect to complete one or two emphasis areas while fulfilling the requirements for the major. Emphasis areas are indicated on the transcript at graduation if students complete the emphasis and request recognition from the department.

Each emphasis consists of four courses. Emphases are available in American institutions, identity politics,

international relations, political behavior, political communication, politics of foreign countries, and public policy. For courses approved in each area, contact the Department of Political Science.

Online BA

The Department of Political Science offers an online BA degree with a major in political science intended for students who are not able to attend courses that meet on campus. The online program enables students to complete their BA degree from anywhere in the world.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students majoring in political science have the opportunity to graduate with honors in the major. Departmental honors students must maintain a UI grade-point average (GPA) of at least 3.33 and a major GPA of at least 3.50. In addition to maintaining the minimum GPA requirements and minimum major requirements, honors students must complete a final honors project.

Final Honors Project

Course #	Title	Hours
One of these:		
POLI:4600	Honors Research Project	3
POLI:4601	Honors Senior Thesis	3

Students who choose to write an honors thesis are required to schedule an oral discussion of their completed honors thesis, mainly to enrich the intellectual experience of its author. A student discusses the thesis with a faculty committee including the thesis director and the department's honors director or a faculty member designated by that official. The committee may withhold approval of fundamentally inadequate theses, but directors are to schedule theses for discussion only when they are ready. The discussion typically concentrates on exploring thesis ideas from several perspectives rather than whether to approve a thesis.

It is expected that students wishing to pursue the honors thesis (POLI:4601) begin discussing the thesis with their thesis director one full semester prior to the semester in which they want to write the thesis and consider enrolling in POLI:4700 Independent Study for 1 s.h. the semester before enrolling in the thesis seminar.

National Honor Society

The department sponsors a chapter of Pi Sigma Alpha. Students who have met the expectations for membership in Pi Sigma Alpha are invited to join. Contact the Department of Political Science honors advisor for more information.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the political science major.

Career Advancement

A recent survey showed that graduates with political science degrees have higher average salaries than graduates in all other social sciences, excluding economics. The Department of Political Science organizes career workshops for its students throughout the year. The workshops are led by former political science students who have achieved distinction in business, law, campaign operations, local government, elected office, or other fields.

The department has an active alumni mentorship program. Students can be connected to alumni to learn about careers, networking opportunities, and mentorship. The department also offers an opportunity for students to complete the last year of their collegiate career in Washington D.C.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

In addition to the following checkpoints, honors students must complete POLI:4000 Honors Seminar on the Study of Politics and one additional honors seminar before the seventh semester begins.

Before the fifth semester begins: two courses in the major.

Before the seventh semester begins: six courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: eight courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f For the political science major upper-level is defined as those courses numbered 2000 or above, excluding POLI:3124, POLI:3710, POLI:3711, POLI:3992, POLI:3993, and POLI:4900.

g Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Political Science, BS

Most of the political science coursework required for the major is the same for BS and BA students, but the BS also requires a set of statistics, research, and experiential courses, while the BA does not.

Learning Outcomes

Graduates will:

- possess a basic understanding of American and world politics;
- be able to apply a theoretical approach in political science to understand American or world politics;
- have effective written and oral communication skills; and
- be able to conceptualize problems and apply analytical tools to solve them.

Requirements

The Bachelor of Science with a major in political science requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. At least 18 s.h. of political science coursework for the major must be taken at the University of Iowa. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Credit earned in POLI:1000 First-Year Seminar, POLI:3124 Guided Political Science Internship, POLI:3710 Law School Readiness Seminar, POLI:3711 Law School Readiness Seminar II, POLI:3993 Political Science Undergraduate Research Projects, and POLI:4900 Government and Politics Internship does not count toward the major, but grades in these courses become part of a student's grade-point average.

In planning coursework, students should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BS may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

The BS with a major in political science requires the following coursework.

Requirements	Hours
Political Science Introductory Courses	15
Additional Political Science Courses	15
Statistics/Research/Experiential Courses	9

Political Science Introductory Courses

Course #	Title	Hours
This course:		
POLI:1100	Introduction to American Politics	3
And four of these:		
POLI:1001	Introduction to Politics	3
POLI:1050	Big Ideas: Introduction to Information, Society, and Culture	3
POLI:1120	Introduction to Lawyers in the American Political System	3
POLI:1200	Introduction to Political Behavior	3
POLI:1300	Introduction to Political Thought and Action	3
POLI:1400	Introduction to Comparative Politics	3
POLI:1401	Introduction to Russian Politics	3
POLI:1449	Introduction to European Politics	3
POLI:1500	Introduction to International Relations	3
POLI:1501	Introduction to American Foreign Policy	3
POLI:1510	International Politics of Environmental Issues	3
POLI:1600	Introduction to Political Communication	3
POLI:1601	Introduction to Social Media and Politics	3
POLI:1700	Introduction to Political Analysis	3
POLI:1800	Introduction to the Politics of Class and Inequality	3
POLI:1900	Introduction to the Politics of Race	3
POLI:1950	Introduction to the Politics of Religion	3

Additional Political Science Courses

Students must complete at least 15 s.h. (typically five courses) in additional political science courses (prefix POLI) numbered 2000 or above, excluding POLI:3124, POLI:3710, POLI:3711, POLI:3992, POLI:3993, and POLI:4900.

Statistics/Research/Experiential Courses

Students receive further exposure to statistical methods, research processes, and experiential learning courses. Students are allowed to customize the courses to fit their interests and academic goals.

Course #	Title	Hours
This course:		
POLI:3000	Analyzing Political Data	3
One of these (minimum 3 s.h.):		
POLI:3001	Hawkeye Poll	3
POLI:3020	Project Vote Smart: Research and Engagement on Elections	3
POLI:3127	Legislative Policy Seminar	arr.
POLI:3160	Applied Research in Political Science	1-3

POLI:3525	Iowa Policy and Opinion Lab	3
POLI:3527	Civil War Research Lab	3
POLI:3530	Diplomacy Lab	arr.
POLI:3994	Political Science Undergraduate Research Projects	3-4
POLI:4700	Independent Study	arr.
POLI:4701	Undergraduate Research Tutorial	3
One of these (minimum 3 s.h.):		
POLI:3050	Problems in Methods	arr.
CS:1210	Computer Science I: Fundamentals	4
CS:2110	Programming for Informatics	4
ECON:3300	Introduction to Econometrics: Causal Inference With Data	3
ECON:4800	Econometric Analysis: Advanced Causal Inference With Data	3
SEES:2050	Foundations of GIS	4
SEES:3500/ IGPI:3500	Introduction to Environmental Remote Sensing	3
SEES:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3
SOC:3880	The Sociology of Networks	3
SOC:4000	Data Science for Social Good	3
Statistics courses (prefix STAT) numbered 3000 and above		

Additional courses may be approved by exception; contact the director of undergraduate studies

Emphasis Areas in Political Science

Students may elect to complete one or two emphasis areas while fulfilling the requirements for the major. Emphasis areas are indicated on the transcript at graduation if students complete the emphasis and request recognition from the department.

Each emphasis consists of four courses. Emphasis areas are available in American institutions, identity politics, international relations, political behavior, political communication, political theory, politics of foreign countries, and public policy. For courses approved in each area, contact the Department of Political Science.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students majoring in political science have the opportunity to graduate with honors in the major. Departmental honors students must maintain a UI grade-point average (GPA) of at least 3.33 and a major GPA of at least 3.50. In addition to maintaining the minimum GPA requirements and minimum major requirements, honors students must complete a final honors project.

Final Honors Project

Course #	Title	Hours
One of these:		
POLI:4600	Honors Research Project	3
POLI:4601	Honors Senior Thesis	3

Students who choose to write an honors thesis are required to schedule an oral discussion of their completed honors thesis, mainly to enrich the intellectual experience of its author. A student discusses the thesis with a faculty committee including the thesis director and the department's honors director or a faculty member designated by that official. The committee may withhold approval of fundamentally inadequate theses, but directors are to schedule theses for discussion only when they are ready. The discussion typically concentrates on exploring thesis ideas from several perspectives rather than whether to approve a thesis.

It is expected that students wishing to pursue the honors thesis (POLI:4601) begin discussing the thesis with their thesis director one full semester prior to the semester in which they want to write the thesis and consider enrolling in POLI:4700 Independent Study for 1 s.h. the semester before enrolling in the thesis seminar.

National Honor Society

The department sponsors a chapter of Pi Sigma Alpha. Students who have met the expectations for membership in Pi Sigma Alpha are invited to join. Contact the Department of Political Science honors advisor for more information.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the political science major.

Career Advancement

A recent survey showed that graduates with political science degrees have higher average salaries than graduates in all other social sciences, excluding economics. The Department of Political Science organizes career workshops for its students throughout the year. The workshops are led by former political science students who have achieved distinction in business, law, campaign operations, local government, elected office, or other fields.

The department has an active alumni mentorship program. Students can be connected to alumni to learn about careers,

networking opportunities, and mentorship. The department also offers an opportunity for students to complete the last year of their collegiate career in Washington D.C.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: two courses in the major.

Before the seventh semester: eight courses in the major, including one of the two required statistics/research/experiential courses and POLI:3000 Analyzing Political Data; and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: 11 courses in the major

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f Students must complete a set of statistics/research/experiential courses (9 s.h.), including POLI:3000 and at least 6 s.h. of additional approved electives.

g Students must complete at least 15 s.h. (typically five courses) in additional political science courses (prefix POLI) numbered 2000 or above, excluding POLI:3124, POLI:3710, POLI:3711, POLI:3992, POLI:3993, and POLI:4900.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Political Science, Minor

Requirements

The undergraduate minor in political science requires a minimum of 15 s.h. in political science courses, including 12 s.h. in courses numbered 2000 or above and 12 s.h. taken at the University of Iowa. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Credit from POLI:1000 First-Year Seminar, POLI:3124 Guided Political Science Internship, POLI:3710 Law School Readiness Seminar, POLI:3711 Law School Readiness Seminar II, POLI:3993 Political Science Undergraduate Research Projects, and POLI:4900 Government and Politics Internship does not count toward the minor requirements.

Students may complete an emphasis area; see "Emphases in Political Science" under the BA in political science [p. 934] or the BS in political science [p. 938] in the catalog. Emphasis areas in the minor are not recorded on a student's transcript; however, a student may request a letter from the Department of Political Science noting the completion of an emphasis area in the minor.

The minor may be earned through coursework that is offered online.

Political Science, MA

The Master of Arts in political science is not typically offered as a terminal degree. It is awarded to students as they work toward the political science PhD.

Learning Outcomes

Students will:

- demonstrate in-depth knowledge of two major fields in the discipline and competency in one minor field (the minor field may be within the discipline, in an interdisciplinary subject, or in another related discipline);
- demonstrate advanced research skills, including advanced statistical analysis and broad knowledge of a range of theoretical and methodological approaches relevant to their field of research;
- demonstrate effective teaching skills following the pedagogical standards of the discipline;
- be familiar with and follow disciplinary norms and standards, including understanding issues related to ethical practices in research; professional, public, and collegial engagement; and instruction; and
- demonstrate a full understanding of the research enterprise, including an ability to engage others' work and an ability to make original and substantial contributions to the field.

Requirements

The Master of Arts in political science requires a minimum of 30 s.h. of graduate credit, with a Graduate College program grade-point average of at least 3.25. No thesis is required. Each student's record is reviewed by an evaluation committee, which may waive the oral summative examination.

Students take 30 s.h. of UI courses numbered 3000 or above; a minimum of 16 s.h. of that coursework must be in political science (prefix POLI) courses numbered 3000 or above.

A first-year evaluation committee convenes at the end of a student's first year of courses; if the committee finds that the student's work provides sufficient evidence of the research and writing skills ordinarily demonstrated in a master's thesis, it may recommend that the student be allowed to proceed with a doctoral program. When the first-year evaluation committee finds the quality of a student's work inadequate for recommending continuation toward the PhD, the committee may recommend that the student be permitted to seek the MA without thesis as a terminal degree.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Political Science, PhD

The doctoral program in political science is nationally recognized as a leader in the discipline, with outstanding research faculty in each of the major subfields and a reputation for outstanding graduate training.

Graduate study in political science emphasizes the Doctor of Philosophy program. The department usually offers the master's degree only as a preliminary step toward the PhD.

The program is designed to prepare students for research, teaching, and scholarly endeavors in academic settings and private or governmental institutions. It produces graduates who are deeply committed to the study of politics, familiar with fundamental knowledge about political processes, well trained in methods and techniques for careful investigation of basic and applied research questions, and determined to make contributions to the discipline of political science and society.

The department usually admits six to eight PhD students each year, so students work closely with faculty members, often collaborating on research and publication. Graduate students know one another and enjoy supportive, congenial working conditions.

Doctoral study usually lasts four to five years. The first-year curriculum for all students consists of core courses equally divided between substance and methodology. Emphasis is on basic research methods, including quantitative methods, that political scientists must understand thoroughly. Special attention is given to research design, collection of observations, and data analysis and interpretation.

Learning Outcomes

Students will:

- demonstrate in-depth knowledge of two major fields in the discipline and competency in one minor field (the minor field may be within the discipline, in an interdisciplinary subject, or in another related discipline);
- demonstrate advanced research skills, including advanced statistical analysis and broad knowledge of a range of theoretical and methodological approaches relevant to their field of research;
- demonstrate effective teaching skills following the pedagogical standards of the discipline;
- be familiar with and follow disciplinary norms and standards, including understanding issues related to ethical practices in research; professional, public, and collegial engagement; and instruction; and
- demonstrate a full understanding of the research enterprise, including an ability to engage others' work and an ability to make original and substantial contributions to the field.

Requirements

The Doctor of Philosophy in political science requires a minimum of 72 s.h. of graduate credit. Students must maintain a Graduate College program grade-point average of at least 3.40.

Four fields of study are available: American politics, comparative politics, international relations, and methodology. Each student chooses three fields of study for qualifying examinations.

The PhD in political science requires the following coursework.

Required Coursework

Students must complete the appropriate course numbered 5100–5700 before enrolling in a course numbered 7000 or above. In unusual circumstances and with the permission of the instructor teaching the higher-level course, a student may enroll in that course and a course numbered 5100–5700 at the same time.

Core Courses

Students take the following courses, except POLI:7270, on an A–F graded basis. Students must earn a B or above in all courses except POLI:5000 and POLI:7270.

Course #	Title	Hours
All of these:		
POLI:5000	Introduction to Political Analysis	4
POLI:5001	Introductory Methodology	4
POLI:5003	Intermediate Methodology	4
POLI:7003	Advanced Methodology	4
POLI:7270	Responsible Research in Political Science	1

Graduate students are expected to take at least 12 s.h. of coursework per semester through their second year of graduate study. Typically, this is in regularly scheduled courses rather than readings courses.

Additional Courses

Students complete 55 s.h. of additional coursework in field area, advanced political science, and elective courses.

During the third year, students are expected to take a minimum of 12 s.h. of regularly scheduled coursework; readings courses should be limited to the second semester of the third year. Students may take up to 12 s.h. in readings courses (not counting coursework accumulated in summer terms, when readings courses are often all that is available).

Field Area

Students complete three of the following field area requirements. All courses must be taken on an A–F graded basis.

Course #	Title	Hours
American Politics		
These courses:		
POLI:5100	American Politics	4
POLI:7150	Problems in American Politics (taken twice for 4 s.h. each)	8
International Relations		
This course:		
POLI:5500	International Politics	4
8 s.h. from these:		
POLI:7502	International Institutions and Cooperation (may be repeated)	4
POLI:7503	International Conflict and Cooperation (may be repeated)	4
POLI:7550	Problems in International Politics (may be repeated)	4

Comparative Politics		
This course:		
POLI:5400	Comparative Politics	4
8 s.h. from these:		
POLI:7202	Public Opinion and Electoral Behavior (may be repeated)	4
POLI:7450	Problems of Comparative Politics (may be repeated)	4
Methodology		
8 s.h. from these:		
POLI:5700	Introduction to Formal Models in Political Science (may be repeated)	4
POLI:7002	Topics Methodology (may be repeated)	4

Students may develop a self-defined field area, drawing upon coursework outside of political science with the permission of their advisor.

Advanced Political Science Courses

Students take a minimum of 12 s.h. of political science courses (prefix POLI) numbered 5000 or above to satisfy the advanced political science courses requirement.

Electives

Elective courses must bring the total credit for the PhD to a minimum of 72 s.h. Elective coursework is tailored to a student's background and career goals. It is selected in consultation with the student's advisory committee and can include research.

Students may enroll in any course numbered 4000 or above, including additional political science courses (prefix POLI). From these, students are permitted a total maximum of 12 s.h. from POLI:7900 Readings Tutorial, POLI:7901 Research Tutorial, and POLI:7910 PhD Dissertation.

Qualifying Exam and Comprehensive Exam

Students must complete their qualifying examinations by the end of the third year. They take their comprehensive examination (oral defense of the dissertation proposal) by the middle of the first semester of their fourth year.

Postcomprehensive Registration

The fourth and fifth years are spent on dissertation research and writing. Students who do basic research and gather data abroad often require an additional year to complete the dissertation. Graduate College regulations require that students be registered at the University of Iowa each semester after passing the comprehensive examination until their degree is awarded, and that this registration accurately reflects the amount and type of work undertaken, the use of university facilities, and the amount of consultation with the faculty. After passing their comprehensive examination, students working on their dissertation research should register for POLI:7910 PhD Dissertation.

Admission

Because the number of positions available in the PhD program is limited, the competition for admission is keen. However, applicants who did not major in political science or who are not acquainted with quantitative research methods are not at a disadvantage.

The deadline for application and consideration for assistantships and fellowships is Jan. 7.

Admission requirements include a baccalaureate degree, an undergraduate grade-point average (GPA) of at least 3.30 on a four-point scale (or its equivalent for international applicants), and three letters of recommendation from persons who can comment upon the applicant's academic ability and motivation. For applicants who have pursued graduate work elsewhere, a graduate GPA of at least 3.50 is required.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Students may only enter the program in the fall semester.

Career Advancement

The Doctor of Philosophy program in political science is designed to prepare students for careers in research and teaching. All students receive a thorough grounding in research methods. It is this grounding that permits teachers to be critical consumers of the research they read and permits researchers to undertake significant theoretical and empirical work.

Because the faculty and the graduate student body are not large, there is ample opportunity to collaborate with individual faculty members in research endeavors. In addition, students spend some time as apprentice teachers in large undergraduate classes.

PhD graduates secure employment in a wide variety of academic and nonacademic settings. In particular, they work in highly ranked research universities and teaching colleges throughout the United States and the world. Over the last decade, almost all graduates seeking academic positions found jobs.

Iowa graduates use their training to build distinguished research records that allow them to move to some of the nation’s top institutions.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Political Science, PhD

a Students must earn a B or above in all courses except POLI:5000 and POLI:7270.

b Four fields of study are available: American politics, comparative politics, international relations, and methodology.

c Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

d Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

e Complete courses for three of the following field areas: 1) American politics: POLI:5100 and POLI:7150 (taken twice); 2) international relations: POLI:5500 and 8 s.h. from POLI:7502, POLI:7503, POLI:7550; 3) comparative politics: POLI:5400 and 8 s.h. from POLI:7202, POLI:7450; 4) methodology: 8 s.h. from POLI:5700, POLI:7002.

f Students may develop a self-defined field area, drawing upon coursework outside of political science with the permission of their advisor.

g Elective courses must bring the total credit for the PhD to a minimum of 72 s.h. Elective coursework is tailored to a student's background and career goals. It is selected in consultation with the student's advisor committee and can include research.

h Students may enroll in any course numbered 4000 or above, including additional political science courses (prefix POLI). From these, students are permitted a total maximum of 12 s.h. from POLI:7900, POLI:7901, and POLI:7910.

i Must be completed by the end of the third year; students choose three fields of study for qualifying examinations.

j Includes oral defense of the dissertation proposal and must be completed by the middle of the first semester of the fourth year.

k Dissertation defense.

Psychological and Brain Sciences

Chair

- Mark S. Blumberg

Undergraduate major: psychology (BA, BS)

Undergraduate minor: psychology

Graduate degrees: MA in psychology; PhD in psychology

Faculty: https://psychology.uiowa.edu/people/faculty

Website: https://psychology.uiowa.edu

The Department of Psychological and Brain Sciences offers an undergraduate major and minor as well as graduate degree programs. It also offers courses that undergraduate students in all majors may use to satisfy the GE CLAS Core [p. 22] Social Sciences requirement, a course approved for the Understanding Cultural Perspectives requirement, and a First-Year Seminar designed for entering undergraduate students.

The department also collaborates with the Department of Biology to offer an undergraduate degree in neuroscience. See the BS in neuroscience [p. 876] in the catalog.

Faculty

Faculty members of the Department of Psychological and Brain Sciences are nationally and internationally renowned leaders in a variety of subdisciplines. Their research is funded by numerous federal and private research grants, their findings are documented in many publications, and their research and teaching accomplishments have earned them many awards.

Programs

Undergraduate Programs of Study

Majors

- Major in Psychology (Bachelor of Arts) [p. 954]
- Major in Psychology (Bachelor of Science) [p. 958]

Minor

- Minor in Psychology [p. 963]

Graduate Programs of Study

- Master of Arts in Psychology [p. 964]
- Doctor of Philosophy in Psychology [p. 966]

Facilities

The department's facilities for graduate training and research are among the finest in the country. The Department of Psychological and Brain Sciences is housed in three buildings. The newly constructed Psychological and Brain Sciences Building contains modern laboratories devoted to research in cognitive science, developmental science, and cognitive neuroscience. The building also houses administrative and faculty offices, an undergraduate advising center, classrooms, breakout rooms, conference rooms, and commons spaces.

The Kenneth W. Spence Laboratories of Psychology, which connects with the Psychological and Brain Sciences Building on each floor, houses additional laboratories devoted to research in human psychology, testing facilities associated with laboratories in behavioral neuroscience, animal housing, offices, meeting rooms, a mechanical shop, and a computer support facility. The adjacent and recently renovated Stuit Hall houses laboratories for many of the clinical science faculty, as well as offices, meeting rooms, and the Seashore Psychology Clinic.

The research and teaching activities of the department benefit greatly from the facilities and staff of other university entities and local agencies, including University of Iowa Health Care, the Iowa Neuroscience Institute, the VA Iowa City Health Care, the University Counseling Service, the Center for Disabilities and Development, the Wendell Johnson Speech and Hearing Clinic, the Center for Health Policy and Research, and the School of Social Work.

Courses

The following courses are open to first-year students who have satisfactorily completed an introductory psychology course (PSY:1001 Elementary Psychology or equivalent). Other courses numbered 1000–2999 are considered lower-level undergraduate courses.

Course #	Title	Hours
PSY:2301	Introduction to Clinical Psychology	
PSY:2401	Introduction to Developmental Science	
PSY:2501	Introduction to Social Psychology	
PSY:2601	Introduction to Cognitive Psychology	
PSY:2701	Introduction to Behavioral Neuroscience	

Before enrolling in any advanced undergraduate courses, students must complete all specified lower-level prerequisites or obtain the consent of the instructor. Courses numbered 3000–4999 are considered advanced undergraduate courses. Those numbered 5000–7610 are considered graduate-level courses.

Psychological and Brain Sciences Courses

PSY:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

PSY:1001 Elementary Psychology **3 s.h.**
Psychology as a behavioral science. GE: Social Sciences.

PSY:1010 Your Brain Unlocked: Learning About Learning 1 s.h.
Research about the human mind and brain that students can use to foster academic success at the UI; presentation of research findings that indicate best practices for studying, learning, and succeeding at the UI (not a remedial study skills course); topics range from retrieving information stored in memory to maintaining psychological health under stress; course format consists of lecture, student response to reading assignments, and discussion; readings are primarily original documents (journal articles).

PSY:1501 Everyone's a Little Bit Biased: The Science Behind Prejudice 3 s.h.
Tendencies to view and/or respond in favorable or unfavorable ways to individuals based solely on social group membership; social psychological concepts, underlying principles, and theories to understand how stereotypic beliefs, prejudicial attitudes, and discriminatory actions impact individuals and reinforce social inequality. GE: Understanding Cultural Perspectives.

PSY:2130 Advanced Psychology for Pre-Medical Track 3 s.h.
Psychology as a behavioral science; elementary psychology in more depth, advanced topics. Prerequisites: PSY:1001. Requirements: non-psychology major.

PSY:2301 Introduction to Clinical Psychology 3 s.h.
Introduction to abnormal psychology; scientist-practitioner model, training, ethics, research methods in clinical psychology; current approaches to intellectual, personality, behavioral assessment; theories, research on treatment of psychological disorders. Prerequisites: PSY:1001. GE: Social Sciences.

PSY:2401 Introduction to Developmental Science 3 s.h.
Current research in developmental science; prenatal development, brain development, motor and physical development, perceptual development, language development, cognitive development, aspects of socio-emotional development; emphasis on modern theoretical approaches. Prerequisites: PSY:1001. GE: Social Sciences.

PSY:2501 Introduction to Social Psychology 3 s.h.
Research and theories on people's thoughts, feelings, and behaviors in social situations; attitudes, attributions, person perception, aggression, stereotypes and prejudice, attraction, relationships, social influence, group processes, altruism. Prerequisites: PSY:1001.

PSY:2601 Introduction to Cognitive Psychology 3 s.h.
Individual human cognition; perception, attention, memory, language, learning, problem solving, decision-making, thought considered from viewpoint of information processing. Prerequisites: PSY:1001. GE: Social Sciences.

PSY:2701 Introduction to Behavioral Neuroscience 4 s.h.
Biological mechanisms of behavior; comparative study of behavior, behavioral organization, animal intelligence, social behavior, communication; behavioral neuroscience, how brain systems control sensation, movement, homeostasis, emotion, learning.

PSY:2811 Research Methods and Data Analysis in Psychology I 3 s.h.
Foundational knowledge in psychological research methods and corresponding statistical concepts; basic concepts of statistics, statistical inference, and research design as applied in psychological research; study of descriptive statistics, measurement, survey design, correlational analyses, and regression analysis; first in a sequence of two courses. Prerequisites: PSY:1001 or PSY:2701. GE: Quantitative or Formal Reasoning.

PSY:2812 Research Methods and Data Analysis in Psychology II 3 s.h.
Foundational knowledge in psychological research methods and corresponding statistical concepts; basic concepts of statistics, statistical inference, and research design as they are applied in psychological research; study of experimental control, experimental design, and hypothesis testing; second in a sequence of two courses. Prerequisites: PSY:2811 with a minimum grade of C-.

PSY:2930 Abnormal Psychology: Health Professions 3 s.h.
Introduction to psychological disorders; description of psychopathology; general issues in etiology and treatment; for non-psychology students in allied health professions. Prerequisites: PSY:1001. Requirements: non-psychology major.

PSY:2975 Introduction to Cognitive Neuroscience 3 s.h.
Analysis of brain systems and neuroanatomy that underlie cognitive tasks such as vision, hearing, emotion, attention, language, decision-making, learning, and memory. Prerequisites: PSY:2701.

PSY:3020 Mind and Behavior 3 s.h.
Theories of what it is to act and know, of what intelligence might be in animals, humans, machines; perspectives from philosophy, psychology. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2701 with a minimum grade of C- or PSY:2601 with a minimum grade of C-). Requirements: junior or senior standing.

PSY:3025 Science of Addiction 3 s.h.
Biological, psychological, social, cognitive, and cultural bases of addiction; models for defining addiction; evidence-based prevention and treatment interventions; historical perspectives on substance use and misuse. Prerequisites: PSY:2811 with a minimum grade of C-.

PSY:3030 Social and Personality Development 3 s.h.
Emotional, social, and personality development from infancy to adolescence; major theories and empirical research; child temperament, parent-child relationship, and social context as contributors to individual differences. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2501 with a minimum grade of C- or PSY:2401 with a minimum grade of C-).

PSY:3035 Science of Emotion 3 s.h.
Scientific study of emotion from psychological and neuroscientific perspectives; theories, measurements, and mechanisms (e.g., physiological, psychological, neural); perception, expression, and function of emotion. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2501 with a minimum grade of C- or PSY:2601 with a minimum grade of C- or PSY:2701 with a minimum grade of C-).

PSY:3040 Psychology of Learning 3 s.h.
Psychological science of acquired behavior; interests in experimental study of Pavlovian conditioning, operant conditioning, cognition in humans and nonhuman animals, relevance to behavioral adaptation. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2701 with a minimum grade of C- or PSY:2601 with a minimum grade of C-).

PSY:3050 Applied Psychology: Addressing Real-World Problems 3 s.h.
Bridging the basic applied research divide in psychology; contributions of cognitive, clinical, social, and developmental psychology to understand real-world problems (e.g., traffic safety, screen time). Prerequisites: PSY:2301 with a minimum grade of C- or PSY:2401 with a minimum grade of C- or PSY:2501 with a minimum grade of C- or PSY:2601 with a minimum grade of C-.

PSY:3055 Interdisciplinary Science of Sound and Hearing 3 s.h.
Introduction to physics of sound, biology/psychology of hearing, and audio technology; theories and experimental methods; music, speech, and environmental sounds. Same as CSD:3119, MUS:3055.

PSY:3060 Sensation and Perception 3 s.h.
Principles of sensory processes in vision, audition, and other modalities; perception of objects and events.

PSY:3066 Aging Mind and Brain 3 s.h.
Current theories and research on cognitive, affective, socioemotional, and decision-making changes that occur during aging; behavioral, cognitive, and cognitive neuroscience methodologies applied to study of aging in these domains; lifespan perspective with emphasis on decline and adaptation. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2701 with a minimum grade of C- or PSY:2601 with a minimum grade of C-).

PSY:3075 The Damaged Brain 3 s.h.
Understanding relationships between brain structure and function with emphasis on how brain trauma and illnesses affect cognition and behavior; foundations of neuropsychology, structure of nervous system, functional specialization of brain, cognitive functions, and assessments of brain disorders. Prerequisites: PSY:2811 with a minimum grade of C-.

PSY:3110 Animal Cognition 3 s.h.
Cognition in nonhuman animals, comparison to humans; intelligence, learning, memory, reasoning, communication, consciousness, evolution, development. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2601 with a minimum grade of C- or PSY:2701 with a minimum grade of C-).

PSY:3120 What Animals Can Teach Us About Being Human 3 s.h.
Comparative psychology; assess human-animal similarities and differences through lab and field studies; human-animal interactions; outreach and service learning with local non-profit organizations. Prerequisites: PSY:2811 with a minimum grade of C-.

PSY:3160 Psychological Science of Creativity 3 s.h.
Psychological science of creativity; its definition, measurement, development, evolution, neurobiology, and adaptive significance in individual behavior and cultural practices. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2601 with a minimum grade of C- or PSY:2701 with a minimum grade of C-).

PSY:3165 Music Perception and Cognition 3 s.h.
Introduction to psychology of music; basics of music perception and cognition, musical emotions and preferences, and transfer benefits of musical training. Prerequisites: PSY:2812 with a minimum grade of C-.

PSY:3170 Fantasy Football: Predictive Analytics and Empiricism 3 s.h.
Empiricism; statistics; judgment, prediction, and decision making in the context of uncertainty; introductory overview of data analysis techniques, with applications using Fantasy Football; modern analytical techniques used to make informed predictions, test theories, and draw conclusions from data; how to evaluate and improve the accuracy of various prediction models; causal inference; heuristics and cognitive biases; judgment vs. actuarial prediction; base rates; Bayes' theorem; overconfidence; delay discounting; expertise and automaticity; wisdom of the crowd; risk aversion; reinforcement schedules; correlation; multiple regression; machine learning; R software. Prerequisites: PSY:2811 with a minimum grade of C- or PSQF:1020 with a minimum grade of C- or STAT:1020 with a minimum grade of C- or PSQF:4143 with a minimum grade of C- or STAT:4143 with a minimum grade of C- or STAT:1010 with a minimum grade of C- or STAT:1015 with a minimum grade of C- or STAT:1030 with a minimum grade of C- or STAT:3510 with a minimum grade of C-.

PSY:3180 Minds Unboxed: The Psychology of Social Labels 3 s.h.
Socially-guided perception and cognition; contemporary topics in socio-cognitive processes. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2501 with a minimum grade of C- or PSY:2601 with a minimum grade of C-).

PSY:3190 Psycholinguistic Aspects of Bilingualism 3-4 s.h.
Interaction of two languages in a bilingual in terms of sound system, words, and grammar; different meanings of bilingualism, how bilingualism and multilingualism can change across lifespan. Taught in English. Requirements: linguistics or language acquisition course. Same as LING:3190.

PSY:3230 Psychopharmacology 3 s.h.
How drugs act to influence behavior; general principles of drug action on the nervous system; licit and illicit drugs, use/abuse, historical perspective on drug use. Prerequisites: PSY:2811 with a minimum grade of C-.

PSY:3250 Neuroscience of Learning and Memory 3 s.h.
Major topics in the neuroscience of learning and memory; focus on anatomical, cellular, molecular bases of various learning and memory processes. Prerequisites: (PSY:2701 with a minimum grade of C- or BIOL:2753 with a minimum grade of C-) and PSY:2811 with a minimum grade of C-.

PSY:3265 Cognitive and Clinical Neuroscience of Executive Functions 3 s.h.
Major topics in cognitive and clinical neuroscience of executive functions; focus on attention, working memory, cognitive control, and executive dysfunction in psychiatric and neurological disorders. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2701 with a minimum grade of C-.

PSY:3270 Neurobiology of Stress 3 s.h.
Introduction to concept of stress and physiological systems involved; factors modulating stress vulnerability versus resilience; stress interactions with other systems with health relevance; emphasis on current research on brain mechanisms. Prerequisites: PSY:2701 with a minimum grade of C- and PSY:2811 with a minimum grade of C-.

PSY:3275 The Science of Sleep 3 s.h.
What is the brain doing during sleep? Why do we and other animals exhibit an altered state of consciousness that renders us unresponsive to the outside world? These questions and many others are subjects of the rapidly growing field of sleep research, including neurobiological basis of sleep drive and biological clock, cognitive and emotional functions of sleep, significance of dreams, relationship between sleep and psychopathology, and impact of sleep on society (i.e., serendipitous discoveries and major disasters attributable to sleep). Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2701 with a minimum grade of C-.

PSY:3320 Psychopathology 3 s.h.
Etiology, phenomenology, and treatment of adult DSM-5-TR psychological disorders (e.g., depressive disorders, psychotic disorders, anxiety disorders, personality disorders). Formerly titled Abnormal Psychology. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2301 with a minimum grade of C-.

PSY:3330 Childhood Psychopathology 3 s.h.
Major forms of childhood psychopathology; current theoretical approaches and methodological issues in diagnosis, conceptualization, treatment of developmental psychopathology. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2301 with a minimum grade of C-.

PSY:3340 Behavior Modification 3 s.h.
Basic approaches to modification of clinically distressing behavior; learning theory principles underlying techniques, translation into procedures, experimental evaluation of effectiveness. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2301 with a minimum grade of C-.

PSY:3350 Psychotherapies 3 s.h.
Current theories and research on frequently used psychotherapeutic approaches; focus on methodology in psychotherapy research, specific types of therapy, and empirically supported therapies. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2301 with a minimum grade of C-.

PSY:3360 The Psychosis Spectrum 3 s.h.
Severe mental illnesses including schizophrenia, bipolar disorder, and depression with psychotic features; neurobiological basis for hallucinations, delusions, and impaired cognition; current genetic, neuroscience, clinical, cultural, and evolutionary perspectives on causes, course, and treatment of severe mental illness. Prerequisites: PSY:2301 with a minimum grade of C- or PSY:2701 with a minimum grade of C-.

PSY:3380 Personality Pathology 3 s.h.
Scientific evaluation of theories of personality pathology. Examination of models used to diagnose personality disorder and review of personality pathology beyond the DSM-5-TR (e.g., profiles such as psychopathy, sociopathy). Theories, measurements, and treatments for personality pathology. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2301 with a minimum grade of C-.

PSY:3390 Severe Mental Illness: Brain Mechanisms 3 s.h.
Severe mental illnesses including schizophrenia, bipolar disorder, and treatment-resistant depression; brain maturation; genetic risk factors; neuroimaging; sleep disturbances; novel treatments such as neuromodulation; aging and dementia in severe mental illness. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2301 with a minimum grade of C- or PSY:2701 with a minimum grade of C-).

PSY:3395 Cognitive and Psychosocial Mechanisms of Severe Mental Illness 3 s.h.
Severe mental illnesses including schizophrenia, bipolar disorder, and borderline personality disorder; cognitive and psychosocial mechanisms; psychological, social, and environmental risk and protective factors; social and non-social information processing; evidence-based psychosocial interventions for severe mental illnesses. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2301 with a minimum grade of C-.

PSY:3420 Cognitive Development of Children 3 s.h.
Developmental research, theory concerning children's concepts, thinking, problem solving, memory, communication. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2401 with a minimum grade of C-.

PSY:3530 Personality 3 s.h.
Classic theoretical models and contemporary empirical research in personality, including influence of heredity and environment, consistency and stability of behavior. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2301 with a minimum grade of C- or PSY:2501 with a minimum grade of C-).

PSY:3560 Psychology of Gender 3 s.h.
Origins of gender roles, gender socialization in childhood, gender differences across lifespan; research on gender differences in cognition, emotions, behavior, physical and mental disorders, communication. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2501 with a minimum grade of C-.

PSY:3570 Social Cognition 3 s.h.
Research and theory on cognitive structures and processes that underlie judgment, decision, belief, and behavior in social situations; attribution, heuristics, schemas, person perception, stereotypes, attitudes. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2501 with a minimum grade of C-.

PSY:3575 Social Cognition in Autism 3 s.h.
Introduction to social, cognitive, and neural mechanisms in autism spectrum disorder (ASD); topics include emotion processing, theory of mind, social attention, main theories of autism, and relevant research techniques (e.g., eye tracking); discussion of insights from neuroscience, as well as approaches to train/improve social cognition in ASD. Prerequisites: PSY:2811 with a minimum grade of C- and (PSY:2601 with a minimum grade of C- or PSY:2501 with a minimum grade of C- or PSY:2701 with a minimum grade of C-).

PSY:3580 Judgment and Decision Making 3 s.h.
Processes and biases that shape judgments and decisions of various types (e.g., about other people, the future, competitions, products, medical treatments, health risks, crime suspects). Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2501 with a minimum grade of C-.

PSY:3590 Stereotyping and Prejudice 3 s.h.
Research and theory on prejudice, stereotyping, discrimination, and stigmatization; focus on nature, origins, and impact of prejudice and stereotypes. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2501 with a minimum grade of C-.

PSY:3620 Human Memory 3 s.h.
Contemporary psychological theory and research on short-term and long-term memory, acquisition processes, related topics in cognition. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2601 with a minimum grade of C-.

PSY:3650 How the Brain Creates the Mind 3 s.h.
How the brain sees the world, makes decisions, controls actions, and experiences emotions; the nature of free will, justice, and consciousness; examination of how these questions are informed by insights from modern neuroscience. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2601 with a minimum grade of C-.

PSY:3670 Language Processes 3 s.h.
Psychological processes involved in using languages, including speech perception and production, the meaning of words, understanding and producing sentences, and basics of discourse and pragmatics; developmental and neural bases of language processes. Prerequisites: (PSY:2811 with a minimum grade of C- and PSY:2601 with a minimum grade of C-) or CSD:1015 or LING:3001. Same as LING:3670.

PSY:3690 Understanding Cognitive Processes Using Artificial Neural Networks 3 s.h.
Basic approaches to how artificial neural networks can be used to help understand mechanisms of human cognitive processing. Prerequisites: PSY:2811 with a minimum grade of C- and PSY:2601 with a minimum grade of C-.

PSY:3994 Research Practicum in Psychology arr.
Small-group participation in faculty research projects; literature review, study planning, data collection, analysis, interpretation, write-up.

PSY:3995 Advanced Research Practicum 1-3 s.h.
Individual participation in faculty research projects; significant reading and writing. Requirements: two semesters of PSY:3994 or HONR:3994.

PSY:3996 External Practicum in Psychology 1-3 s.h.
Student participation in career-related professional activities in community and University of Iowa agencies.

PSY:3997 Teaching/Advising Practicum in Psychology 1-3 s.h.
Participation in faculty teaching as undergraduate teaching assistant or the Psychology Peer Advisor Program.

PSY:3998 Individual Readings and Projects 1-3 s.h.
Requirements: psychology major and undergraduate standing.

PSY:3999 Independent Research in Neuroscience 2-3 s.h.
Independent scientific research related to the field of neuroscience. Same as BIOL:3999.

PSY:4020 Laboratory in Psychology 4 s.h.
Laboratory study of an aspect of behavior; topics in a particular area (e.g., learning and memory, perception, social behavior, operant behavior, physiological processes). Prerequisites: PSY:2701 and PSY:2812 with a minimum grade of C-.

PSY:4025 Laboratory in Cognitive Neuroscience 4 s.h.
Practical, hands-on experience analyzing data from three of the most common methods of cognitive neuroscience—scalp electroencephalography (brain waves), functional magnetic resonance imaging (brain imaging), and transcranial magnetic stimulation (brain stimulation). Prerequisites: PSY:2975 and PSY:2812. Requirements: neuroscience major.

PSY:4035 Laboratory in Computational Neuroscience 4 s.h.
How neuroscience and computer science benefit each other; classic findings in computational neuroscience; basics of neural networks and machine learning techniques; modification of computer programs of neural networks to model cognitive processes; application of machine learning algorithms to analysis of neural data; interpretation of findings in computational neuroscience. Prerequisites: PSY:2812. Requirements: linear algebra course. Recommendations: programming skills.

PSY:4090 Psychology Seminar 3 s.h.
Readings from original sources, presentations, papers, student participation. Prerequisites: PSY:2812 with a minimum grade of C-. Requirements: junior or senior standing.

PSY:4990 Honors Thesis Research 1-3 s.h.
Supervised original project; leads to written thesis, oral defense. Requirements: honors standing.

PSY:4995 Honors Research in Neuroscience arr.
Independent scientific research related to the field of neuroscience. Requirements: honors standing in neuroscience, UI GPA of at least 3.33, and neuroscience GPA of at least 3.33. Same as BIOL:4995.

PSY:5050 Quantitative Methods in Psychology 4 s.h.
Overview of statistical methods based on the general linear model, including ANOVA, ANCOVA, and multiple regression; how to conduct these analyses using SPSS. Requirements: first-year graduate standing in psychology.

PSY:5055 Mixed-Effects Modeling in Psychology 4 s.h.
Introduction to mixed-effects analysis of hierarchically structured and cross-classified psychological data using R. Prerequisites: PSY:5050.

PSY:5070 Programming for Psychologists 3 s.h.
Basics of programming; experiment design, stimulus delivery and response recording using Python; implementation of online testing using JavaScript; data analysis of behavioral data using Python; basic machine learning techniques and their applications to data analysis implemented using Python. Requirements: PSY:2812 or graduate standing.

PSY:5080 Foundations in Cognitive Neuroscience 4 s.h.
Key concepts and findings in human cognitive neurosciences.

PSY:5203 Fundamental Neurobiology I 3 s.h.
Neurobiology from molecular/cellular to systems levels, including cell biology of the neuron; membrane electrophysiology; synaptic transmission and plasticity, functional neuroanatomy, sensory, motor and autonomic systems; emotion, memory, sleep, language, attention and cognition, neuronal development; focus on systems and developmental neurobiology; first in a two-semester sequence. Same as BIOL:5653, NSCI:5653.

PSY:5204 Fundamental Neurobiology I Discussion 2 s.h.
Discussion of selected papers, including classics from neurobiology literature; coordinated with BIOL:5653 lecture material. Same as BIOL:5658, NSCI:5658.

PSY:5205 Fundamental Neurobiology II 3 s.h.
Neurobiology from molecular/cellular to systems levels, including cell biology of the neuron; membrane electrophysiology; synaptic transmission and plasticity; functional neuroanatomy, sensory, motor and autonomic systems; emotion, memory, sleep, language, attention and cognition, neuronal development; focus on molecular/cellular neurobiology and neurophysiology; second in a two-semester sequence. Prerequisites: BIOL:5653 or NSCI:5653 or PSY:5203. Same as BIOL:5654, NSCI:5654.

PSY:5206 Fundamental Neurobiology II Discussion 2 s.h.
Discussion of selected papers, including classics from neurobiology literature; coordinated with BIOL:5654 lecture material. Same as BIOL:5659, NSCI:5659.

PSY:5212 Foundations in Behavioral and Cognitive Neuroscience 4 s.h.
Concepts, methods, and findings in behavioral and cognitive neurosciences. Prerequisites: BIOL:3253. Same as NSCI:5212.

PSY:5320 Descriptive Psychopathology 3 s.h.
Psychiatric syndromes, including description, etiology, experimental and clinical research; development, function of classification systems.

PSY:5330 Principles of Psychological Assessment 3 s.h.
Assessment theory and basic psychometric principles in test construction, evaluation, application; ethical, social, psychological, and psychometric issues and controversies in assessment.

PSY:5365 Seminar: Neuropsychology and Neuroscience arr.
Clinical neuropsychology and cognitive neuroscience: cutting-edge research from scientific journals, case presentations in clinical neuropsychology, and current research. Same as NEUR:5365, NSCI:5365.

PSY:5410 Proseminar in Developmental Science 3 s.h.
Introduction to developmental process and developmental science; topics organized around mechanisms of development, with cross-disciplinary focus.

PSY:5610 Proseminar in Cognition and Perception 3 s.h.
Broad overview of study of cognition, including cognitive psychology, computer science and artificial intelligence, linguistics, neuroscience, philosophy of mind.

PSY:5710 Introduction to Health and Behavioral Science 3 s.h.
Evolution of health psychology; survey of major physiological systems in which pathology is affected by behavioral processes; review of theoretical approaches, experimental paradigms from behavioral science as they may apply to assessment of health problems; prevention, intervention, psychological adaptation to physical disease.

PSY:6070 Practical Introduction to Theoretical Methods for Brain Sciences 3 s.h.
Introductory overview of how mathematical and computational models are used to model and explain the mind and brain; encoding/decoding, learning and optimization, differential equations (e.g., Hodgkin-Huxley model of spiking neurons), dynamical systems, probability and statistics, information theory and inference, efficient coding.

PSY:6101 Cognitive Science of Language Proseminar I 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6101, LING:6101.

PSY:6102 Cognitive Science of Language Proseminar II 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6102, LING:6102.

PSY:6230 Foundations of Learning, Memory, and Cognition 3 s.h.
Determinants of adaptive behavior in humans and animals; emphasis on behavioral analysis of learning, memory, and cognition; relevance of laboratory research to real life activities.

PSY:6240 Neurobiology of Learning and Memory 3 s.h.
Memory systems, techniques to study learning and memory, invertebrate and mammalian learning, synaptic and systems consolidation, molecular mechanisms underlying learning and memory, neuroanatomy of mammalian episodic memory, human studies, theories of consolidation, memory liability, sleep and memory, engram representations, future directions.

PSY:6265 Neuroscience Seminar 0-1 s.h.
Research presentations. Same as ACB:6265, BIOL:6265, MPB:6265, NSCI:6265.

PSY:6280 Structural and Functional MRI Methods and Application 3 s.h.
Introduction to basic principles of magnetic resonance imaging and its application to psychology; imaging of brain structure; focus on functional MRI. Requirements: graduate-level introductory statistics.

PSY:6340 Psychological Therapies 3 s.h.
Historical development and current status of empirically based therapies for psychological disorders, including anxiety, depression, schizophrenia, childhood disorders; emphasis on critical evaluation of therapy techniques.

PSY:6360 Psychosis: Neurobiological, Cultural, and Evolutionary Perspectives 4 s.h.
Severe mental illnesses including schizophrenia, bipolar disorder, and depression with psychotic features; neurobiological basis for hallucinations, delusions, and impaired cognition; current genetic, neuroscience, clinical, cultural, and evolutionary perspectives on causes, course, and treatment of severe mental illness.

PSY:6370 Principles of Neuropsychology 3 s.h.
Principles of human neuropsychology, including foundations (history, methods, approaches), major functional systems (vision, memory, language, spatial processing), executive functions (emotional processing and personality), and applications (experimental, clinical). Recommendations: prior coursework in psychological assessment, psychopathology, and neuroanatomy.

PSY:6390 History and Systems of Psychology 3 s.h.
Pre-scientific psychology; influence of physiology, psychophysics, and early scientific conceptualization of the mind on modern psychology; development of the scientific discipline of psychology in Germany; initial development and early schools of psychology in the United States; development of applied and professional psychology in the United States; major systems of psychology, including psychoanalysis, behaviorism, and cognitive psychology; development of social action and social change in psychology; integrating historical sources and major systems ideas with personal areas of research or clinical interests.

PSY:6440 Developmental Cognitive Neuroscience 3 s.h.
Overview of current developmental cognitive neuroscience theory, research, and methods (PET, fMRI, optical imaging, EEG, ERPs); neural development, computational neuroscience, and methods.

PSY:6590 Judgment and Decision Making 3 s.h.
Theory and research on how people gather, perceive, and use information when making judgments and decisions; includes risky and uncertain contexts; social and nonsocial contexts.

PSY:7010 Professional Writing in Psychological and Brain Sciences 2 s.h.
Development of writing skills for research papers, fellowship applications, and grant proposals; workshop.

PSY:7050 Special Topics in Psychology: Social Bases of Behavior 2 s.h.
Directed readings on social bases of behavior. Requirements: graduate standing in psychology.

PSY:7070 Seminar: Behavioral Biomedical Interface 1 s.h.
Ongoing seminar; discussion of research at behavioral-biomedical interface. Requirements: acceptance to Behavioral Biomedical Interface Training Program.

PSY:7110 Research Projects arr.

PSY:7130 PhD Dissertation Research arr.

PSY:7150 Current Topics in Psychology 3 s.h.

PSY:7160 Problems in Psychology arr.
Individual study.

PSY:7170 Teaching Practicum arr.
Supervised practice in teaching.

PSY:7210 Seminar: Advanced Topics in Behavioral and Cognitive Neuroscience 3 s.h.

PSY:7270 Principles of Scholarly Integrity 1 s.h.
Training in responsible conduct of research; student/mentor responsibilities; authorship and reviewing; plagiarism/falsification/fabrication of data; intellectual property; conflict of interest; fiscal, institutional, societal; treatment of human and animal subjects; data handling. Requirements: enrollment in graduate psychology or biology program. Same as BIOL:7270.

PSY:7310 Seminar: Orientation to Clinical Research 0-1 s.h.
Issues in clinical research, including use of databases, advisor/advisee relationships, preparation of IRB proposals, paper presentation and publication, common early career problems, funding resources.

PSY:7330 Seminar: Acceptance and Commitment Therapy 1 s.h.
Core processes of acceptance and commitment therapy (ACT); case conceptualization and targeted intervention across a range of psychiatric and physical diagnoses; emphasis on therapeutic stance and theoretical underpinnings of ACT; readings, discussion, video review, therapist-patient role play, and discussion of ongoing cases.

PSY:7331 Seminar: Advanced Acceptance and Commitment Therapy 1 s.h.
Core processes of acceptance and commitment therapy (ACT) and implementation in clinical practice; theoretical underpinnings of ACT theory; ACT research; case conceptualization and targeted intervention across a range of psychiatric and physical diagnoses; reading, discussion, video review, therapist-patient role play, and discussion of ongoing cases. Prerequisites: PSY:7330.

PSY:7350 Introductory Practicum arr.
Orientation to Department of Psychology clinic, including instruction in interviewing, observation of clinic procedures, attendance at clinic rounds under supervision of clinical psychology faculty members.

PSY:7355 Assessment Practicum arr.
Supervised practice in psychological assessment techniques.

PSY:7360 Therapy Practicum arr.
Supervised practice and clinical experience in application and evaluation of psychological therapies.

PSY:7365 External Practicum arr.
Supervised practice and clinical experience in field setting; psychological assessment techniques and/or application, evaluation of psychological therapies.

PSY:7370 Supervision and Consultation Practicum arr.
Supervision and training of less advanced students; consultation to other programs and agencies.

PSY:7604 Principles of Scholarly Integrity 0 s.h.
Training in responsible conduct of research and scholarly activities; student/mentor responsibilities; authorship; plagiarism/falsification/fabrication of data; intellectual property; conflict of interest; fiscal, institutional, societal; treatment of human and animal subjects; data handling. Requirements: postdoctoral standing in psychology or biology. Same as BIOL:7604.

PSY:7610 Seminar: Cognitive Psychology 2-3 s.h.

PSY:7620 Seminar: Human Perception and Performance 1 s.h.
Professional issues and current topics relevant to psychologists studying human perception and performance.

Psychology, BA

An undergraduate degree in psychology provides students with skills that are relevant to many career paths. The major in psychology is designed to contribute to students' general liberal arts and sciences education and to provide a foundation for postbaccalaureate training in psychology and closely related disciplines as well as in areas such as business, law, communication, medicine, and the allied health sciences. Students who intend to enter the job market immediately after graduation should complement their psychology major with substantial preparation in another program that is more closely tied to their area of interest (e.g., education, social work, business, journalism, nursing). Almost all vocational opportunities in psychology require advanced degrees.

The Bachelor of Arts (BA) degree has fewer specific requirements than the Bachelor of Science (BS) degree and places less emphasis on methodology. The program leaves time for students to supplement the psychology major with another program of study.

Students who change to a psychology major after two years of undergraduate work may find they do not have sufficient background for the BS program. They may wish to enrich the BA program with courses in experimental psychology and other advanced electives if they intend to pursue graduate work in psychology or a related field.

Students begin with a general introductory course, followed by methodology and data analysis courses, and introductory courses in several broad areas: behavioral neuroscience, developmental science, clinical psychology, cognitive psychology, and social psychology. These courses are followed by upper-level psychology courses selected by each student. For additional information regarding the undergraduate major and career information, visit Undergraduate Programs on the Department of Psychological and Brain Sciences website.

The department maintains excellent facilities to support teaching and research on human and animal behavior. All faculty members are directly engaged in research, and they bring to their undergraduate teaching the excitement that such activity generates. Many opportunities exist for interested and capable students to participate in current research projects in the department.

The department has an active undergraduate organization, Psi Chi + Psych Iowa. The group sponsors speakers, films, career days, and student symposia. The Psi Chi portion is an honors society, whereas the Psych Iowa portion is open to any interested UI undergraduate student.

Learning Outcomes

The learning outcomes for students in the Department of Psychological and Brain Sciences align with several of the learning goals from the American Psychological Association's guidelines for undergraduate psychology education. These learning outcomes expand and deepen students' foundational knowledge obtained through the GE CLAS Core [p. 22] program.

Psychology majors will:

- understand psychology as an empirical science;
- graduate with a knowledge base in psychology, including an understanding of the major principles and theories in the field's main content areas;
- have learned how to use scientific reasoning to understand psychological phenomena and how to interpret and conduct psychological research; and
- be able to apply their knowledge of psychology to real-world situations and recognize the importance of ethical standards and diversity in psychology.

Requirements

The Bachelor of Arts with a major in psychology requires a minimum of 120 s.h., including 46–47 s.h. of work for the major, with at least 34 s.h. in psychology courses. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Transfer credits must be approved by the department, and transfer students must complete at least 18 s.h. of psychology courses at the University of Iowa.

The major for the BA is designed for students who wish to gain considerable knowledge in psychology but do not necessarily plan a professional career in the discipline. It is appropriate for students preparing for careers in law, business, counseling, social work, or secondary school teaching (see the section titled "Teacher Licensure"). It can be combined with a second major more easily than the Bachelor of Science program.

The choice of a degree program should be dictated by a student's personal career goals. BA students interested in pursuing graduate study in psychology or other social sciences may enrich their program by taking courses in mathematics, statistics, research methods, and the natural sciences.

BA and BS students complete the same psychology core and psychology electives. The BA also requires an additional statistics or computer science course plus a second concentration area.

Students are advised to take PSY:1001 Elementary Psychology as the first course in the major; however, if a student must take PSY:1001 for the first time after completing another psychology course with a higher number, the student may do so.

The BA with a major in psychology requires the following courses or their equivalents.

Requirements	Hours
Psychology Core	6
Lower-Level Psychology Requirements	19
Upper-Level Psychology Electives	9
Cognate Requirement	3-4
Second Concentration Area Courses	9

Psychology Core

All students complete the following coursework for the psychology core.

Course #	Title	Hours
Both of these:		
PSY:1001	Elementary Psychology	3
PSY:2811	Research Methods and Data Analysis in Psychology I	3

Lower-Level Psychology Requirements

Students take these courses after completing PSY:1001 Elementary Psychology.

Course #	Title	Hours
All of these:		
PSY:2301	Introduction to Clinical Psychology	3
PSY:2401	Introduction to Developmental Science	3
PSY:2501	Introduction to Social Psychology	3
PSY:2601	Introduction to Cognitive Psychology	3
PSY:2701	Introduction to Behavioral Neuroscience	4
PSY:2812	Research Methods and Data Analysis in Psychology II	3

Upper-Level Psychology Electives

Students take three advanced psychology courses (total of 9 s.h.) after satisfactorily completing the psychology core and other specified prerequisites. Psychology courses (prefix PSY) numbered 3000 or above may be used to fulfill this requirement, except those in the following list.

Course #	Title	Hours
PSY:3994	Research Practicum in Psychology	arr.
PSY:3995	Advanced Research Practicum	1-3
PSY:3996	External Practicum in Psychology	1-3
PSY:3997	Teaching/Advising Practicum in Psychology	1-3
PSY:3998	Individual Readings and Projects	1-3
PSY:3999/ BIOL:3999	Independent Research in Neuroscience	2-3
PSY:4020	Laboratory in Psychology	4
PSY:4025	Laboratory in Cognitive Neuroscience	4
PSY:4035	Laboratory in Computational Neuroscience	4
PSY:4090	Psychology Seminar	3
PSY:4990	Honors Thesis Research	1-3
PSY:4995/ BIOL:4995	Honors Research in Neuroscience	arr.

Additional Requirements

Cognate Requirement

Students complete one of the following math, statistics, or computer science courses.

Course #	Title	Hours
Statistics		
BIOS:4120	Introduction to Biostatistics	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3
Computer Science		
CS:1020	Principles of Computing	3
CS:1110	Introduction to Computer Science	3
CS:1210	Computer Science I: Fundamentals	4
Mathematics		
MATH:1860	Calculus II	4
MATH:2700	Introduction to Linear Algebra	4

Second Concentration Area

Students complete 9 s.h. of graded coursework in a single department other than the Department of Psychological and Brain Sciences. Courses used to fulfill this requirement must be taken at the University of Iowa and may not be used to fulfill GE CLAS Core requirements. A second major or a minor may be used to fulfill the requirement.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students majoring in psychology have the opportunity to graduate with honors in the major. They must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a minimum GPA of 3.50 in the major.

There are two routes for honors in the major, one of which involves a thesis project as a capstone. For students who pursue honors without a thesis, other experiences constitute the capstone. Both routes include extra coursework. Interested students are encouraged to read Honors in Psychology on the department's website.

National Honor Society

The department sponsors a chapter of Psi Chi, the national honor society in psychology and an affiliate of the American Psychological Association. Students who have a GPA of at least 3.00 overall and in psychology coursework and who have completed 9 s.h. of psychology courses may request a membership application form. Consult the department's academic coordinator for more information.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the

University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the psychology major.

Combined Programs

BA/MPH (Community and Behavioral Health Subprogram)

Bachelor of Arts students majoring in psychology who are interested in earning a Master of Public Health degree with a community and behavioral health subprogram may apply to the combined BA/MPH program offered by the College of Liberal Arts and Sciences and the College of Public Health. The program permits students to count 12 s.h. of credit toward the requirements for both degrees, enabling them to begin the study of public health before they complete the bachelor's degree. For information about the public health program, see Community and Behavioral Health Subprogram [p. 2093] in the Master of Public Health, MPH section of the catalog.

Admission

Admission to the psychology major is open; any University of Iowa undergraduate student may enter the BA program.

Entering first-year and transfer students who have completed less than 30 s.h. of coursework and are interested in entering the BS program are admitted to the BA program until they satisfy the admission requirements for the BS program. New transfer students who meet the admission requirements for the BS program may choose to enter the BS or the BA program.

Students in the BA program may switch to the BS program if they meet admission requirements at the time of the request. Students may switch from the BS to the BA program at any time.

Career Advancement

The major in psychology is designed to contribute to students' general liberal arts and sciences education and to provide a foundation for postbaccalaureate training in psychology and closely related disciplines as well as in areas such as business, law, communication, medicine, and the allied health sciences.

Undergraduate psychology students who do not intend to enroll in graduate school immediately after earning their bachelor’s degree frequently earn a second major in a discipline that has broad opportunities for employment, such as education, social work, business, journalism, or nursing.

Learn more about careers in psychology at the American Psychological Association website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

In addition to courses in psychology, the BA requires three graded courses in a second concentration area.

Before the third semester begins: PSY:1001 Elementary Psychology.

Before the fifth semester begins: PSY:2811 Research Methods and Data Analysis in Psychology I and one or more lower-level psychology requirements.

Before the seventh semester begins: four courses in the major (including PSY:2701 Introduction to Behavioral Neuroscience and PSY:2812 Research Methods and Data Analysis in Psychology II), one course in the second concentration area, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two additional courses in the major and an additional course in the second concentration area.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Psychology, BA

Course	Title	Hours
Academic Career		
Any Semester		
Students are strongly encouraged to complete internships, practicums, and other experiential learning; PSY:3994 Research Practicum in Psychology is required if planning to complete a PhD in psychology.		
GE CLAS Core: Sustainability [a]		
	Hours	**0**
First Year		
Fall		
PSY:1001	Elementary Psychology [b]	3
ENGL:1200 or RHET:1030	The Interpretation of Literature or Rhetoric: Writing and Communication	3 - 4

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e PSY:2301, PSY:2401, PSY:2501, and PSY:2601 may be completed in any order.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Students complete 9 s.h. of graded coursework in a single department other than the Department of Psychological and Brain Sciences. Courses used to fulfill this requirement must be taken at the University of Iowa and may not be used to fulfill GE CLAS Core requirements. A second major or a minor may be used to fulfill the requirement.

h See the General Catalog for list of approved courses.

i Students take three advanced psychology courses (total of 9 s.h.) after satisfactorily completing the psychology core and other specified prerequisites. See the General Catalog for list of courses that do not count toward this requirement.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Psychology, BS

An undergraduate degree in psychology provides students with skills that are relevant to many career paths. The major in psychology is designed to contribute to students' general liberal arts and sciences education and to provide a foundation for postbaccalaureate training in psychology and closely related disciplines as well as in areas such as business, law, communication, medicine, and the allied health sciences. Students who intend to enter the job market immediately after graduation should complement their psychology major with substantial preparation in another program more closely tied to their area of interest (e.g., education, social work, business, journalism, nursing). Almost all vocational opportunities in psychology require advanced degrees.

The Bachelor of Science (BS) degree is intended for students who plan to pursue advanced work in psychology or in a related discipline. It requires a specific grade-point average for admission and certain courses in experimental psychology, mathematics, and natural science. The program leaves time for students to supplement the psychology major with another program of study.

Students who change to a psychology major after two years of undergraduate work may find they do not have sufficient background for the BS program.

Students begin with a general introductory course, followed by methodology and data analysis courses, and introductory courses in several broad areas: behavioral neuroscience, developmental science, clinical psychology, cognitive psychology, and social psychology. These courses are followed by upper-level psychology courses selected by each student. For additional information regarding the undergraduate major and career information, visit Undergraduate Programs on the Department of Psychological and Brain Sciences website.

The department maintains excellent facilities to support teaching and research on human and animal behavior. All faculty members are directly engaged in research, and they bring to their undergraduate teaching the excitement that such activity generates. Many opportunities exist for interested and capable students to participate in current research projects in the department.

The department has an active undergraduate organization, Psi Chi + Psych Iowa. The group sponsors speakers, films, career days, and student symposia. The Psi Chi portion is an honors society, whereas the Psych Iowa portion is open to any interested UI undergraduate student.

Learning Outcomes

The learning outcomes for students in the Department of Psychological and Brain Sciences align with several of the learning goals from the American Psychological Association's guidelines for undergraduate psychology education. These learning outcomes expand and deepen students' foundational knowledge obtained through the GE CLAS Core [p. 22] program.

Psychology majors will:

- understand psychology as an empirical science;
- graduate with a knowledge base in psychology, including an understanding of the major principles and theories in the field's main content areas;
- have learned how to use scientific reasoning to understand psychological phenomena and how to interpret and conduct psychological research; and
- be able to apply their knowledge of psychology to real-world situations and recognize the importance of ethical standards and diversity in psychology.

Requirements

The Bachelor of Science with a major in psychology requires a minimum of 120 s.h., including 54–56 s.h. of work for the major, with at least 41 s.h. in psychology courses. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Transfer credits must be approved by the department, and transfer students must complete at least 18 s.h. of psychology courses at the University of Iowa.

The major for the BS emphasizes research methodology, so the BS may be the degree of choice for students who plan to do graduate work in psychology and related research fields. However, a Bachelor of Science is not required for graduate study in psychology. Choice of a degree program should be dictated by a student's personal career goals.

BA and BS students complete the same psychology core and psychology electives. The major for the BS also requires additional psychology topics courses and natural science courses plus mathematics, statistics, or computer science courses. Unlike the BA, there is no second area course requirement.

Students are advised to take PSY:1001 Elementary Psychology as the first course in the major; however, if a student must take PSY:1001 for the first time after completing another psychology course with a higher number, the student may do so.

The BS with a major in psychology requires the following courses or their equivalents.

Requirements	Hours
Psychology Core	6
Lower-Level Psychology Requirements	19
Upper-Level Psychology Electives	9
Psychology Topics Courses	7
Natural Sciences Courses	7
Mathematics, Statistics, or Computer Science Courses	6-8

Psychology Core

All students complete the following coursework for the psychology core.

Course #	Title	Hours
Both of these:		
PSY:1001	Elementary Psychology	3
PSY:2811	Research Methods and Data Analysis in Psychology I	3

Lower-Level Psychology Requirements

Students take these courses after completing PSY:1001 Elementary Psychology.

Course #	Title	Hours
All of these:		
PSY:2301	Introduction to Clinical Psychology	3
PSY:2401	Introduction to Developmental Science	3
PSY:2501	Introduction to Social Psychology	3
PSY:2601	Introduction to Cognitive Psychology	3
PSY:2701	Introduction to Behavioral Neuroscience	4
PSY:2812	Research Methods and Data Analysis in Psychology II	3

Upper-Level Psychology Electives

Students take three advanced psychology courses (total of 9 s.h.) after satisfactorily completing the psychology core and other specified prerequisites. Psychology courses (prefix PSY) numbered 3000 or above may be used to fulfill this requirement, except those in the following list.

Course #	Title	Hours
PSY:3994	Research Practicum in Psychology	arr.
PSY:3995	Advanced Research Practicum	1-3
PSY:3996	External Practicum in Psychology	1-3
PSY:3997	Teaching/Advising Practicum in Psychology	1-3
PSY:3998	Individual Readings and Projects	1-3
PSY:3999/ BIOL:3999	Independent Research in Neuroscience	2-3
PSY:4020	Laboratory in Psychology	4
PSY:4025	Laboratory in Cognitive Neuroscience	4
PSY:4035	Laboratory in Computational Neuroscience	4
PSY:4090	Psychology Seminar	3
PSY:4990	Honors Thesis Research	1-3
PSY:4995/ BIOL:4995	Honors Research in Neuroscience	arr.

Additional Requirements

Psychology Topics Courses

Course #	Title	Hours
Both of these:		
PSY:4020	Laboratory in Psychology	4
PSY:4090	Psychology Seminar	3

Natural Science Courses

Course #	Title	Hours
At least 7 s.h. from these:		
BIOL:1140	Human Biology: Nonmajors	4
BIOL:1141	Human Biology: Health Professions	4
BIOL:1411	Foundations of Biology	4
BIOL:2120	Good Genes Gone Bad: Genetic Disorders of Notable Celebrities	3
BIOL:2512	Fundamental Genetics	4
CHEM:1070	General Chemistry I	3
CHEM:1080	General Chemistry II	3
CHEM:1090	Supplemental Chemistry Lab	1
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
CHEM:1160	Principles of Chemistry Lab	2
CSD:2111	Basic Acoustics for Speech and Hearing	3
CSD:3112	Anatomy and Physiology of Speech Production	4
CSD:3113	Introduction to Hearing Science	4
CSD:3116/ LING:3116	Basic Neuroscience for Speech and Hearing	3
HHP:1400	Human Anatomy and Physiology	3
PHYS:1400	Basic Physics	3-4
PHYS:1409	Basic Physics Lab	1
PHYS:1410	Physics of Sound	3-4
PHYS:1511	College Physics I	4
PHYS:1512	College Physics II	4
PHYS:1611	Introductory Physics I	4
PHYS:1612	Introductory Physics II	4
PHYS:1619	Introductory Physics II Lab	1

Mathematics, Statistics, or Computer Science Courses

Course #	Title	Hours
At least two courses from these:		
BIOS:4120	Introduction to Biostatistics	3
CS:1210	Computer Science I: Fundamentals	4
CS:2110	Programming for Informatics	4
CS:2230	Computer Science II: Data Structures	4
CS:2520	Human-Computer Interaction for Informatics	3
MATH:1350	Quantitative Reasoning for Business	4
MATH:1440	Mathematics for the Biological Sciences	4
MATH:1460	Calculus for the Biological Sciences	4
MATH:1550	Engineering Calculus I	4
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
MATH:2700	Introduction to Linear Algebra	4
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2010	Statistical Methods and Computing	3
STAT:3200/ DATA:3200/ IGPI:3200/ISE:3760	Applied Linear Regression	3

STAT:3210	Experimental Design and Analysis	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students majoring in psychology have the opportunity to graduate with honors in the major. They must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a minimum GPA of 3.50 in the major.

There are two routes for honors in the major, one of which involves a thesis project as a capstone. For students who pursue honors without a thesis, other experiences constitute the capstone. Both routes include extra coursework. Interested students are encouraged to read Honors in Psychology on the department's website.

National Honor Society

The department sponsors a chapter of Psi Chi, the national honor society in psychology and an affiliate of the American Psychological Association. Students who have a GPA of at least 3.00 overall and in psychology coursework and who have completed 9 s.h. of psychology courses may request a membership application form. Consult the department's academic coordinator for more information.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the psychology major.

Admission

Admission to the major is selective. To be eligible for admission to the BS program, students must have completed 30 s.h. of college coursework (excluding any credit by exam) and must have a cumulative grade-point average of 2.67 or higher. There is no limit on the number of qualified students admitted to the BS program. Students who do not meet the minimum admission requirements may petition the department in writing, presenting additional evidence of their qualifications.

Entering first-year and transfer students who have completed less than 30 s.h. of coursework and are interested in entering the BS program are admitted to the BA program until they satisfy the admission requirements for the BS program. New transfer students who meet the admission requirements for the BS program may choose to enter the BS or the BA program.

Students in the BA program may switch to the BS program if they meet admission requirements at the time of the request. Students may switch from the BS to the BA program at any time.

Career Advancement

The major in psychology is designed to contribute to students' general liberal arts and sciences education and to provide a foundation for postbaccalaureate training in psychology and closely related disciplines as well as areas such as business, law, communication, medicine, and the allied health sciences.

Undergraduate psychology students who do not intend to enroll in graduate school immediately after earning their bachelor’s degree frequently earn a second major in a discipline that has broad opportunities for employment, such as education, social work, business, journalism, or nursing.

Learn more about careers in psychology at the American Psychological Association website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

The psychology major for the BS is open only to students who have earned 30 s.h. and have a grade-point average of at least 2.67. Students complete 7 s.h. of natural science coursework, either as part of the GE CLAS Core [p. 22] or in addition to it. Students must also complete two quantitative and formal reasoning courses which may require some preliminary work.

Before the third semester begins: PSY:1001 Elementary Psychology and one additional course in the major.

Before the fifth semester begins: one course for the department’s quantitative and formal reasoning requirement and three additional courses in the major, including PSY:2811 Research Methods and Data Analysis in Psychology I and PSY:2812 Research Methods and Data Analysis in Psychology II.

Before the seventh semester begins: two more courses in the major, one course for the major's natural science requirement, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: second course for the department’s quantitative and formal reasoning requirement and two more courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Psychology, BS

Course	Title	Hours
Academic Career		
Any Semester		
Students are strongly encouraged to complete internships, practicums, and other experiential learning; PSY:3994 Research Practicum in Psychology is required if planning to complete a PhD in psychology.		
GE CLAS Core: Sustainability [a]		
	Hours	**0**
First Year

Elective course [f]		3
Elective course [f]		2
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [k]		
	Hours	**14-15**
	Total Hours	**121-131**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students

should consult with an advisor about the best sequencing of courses.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e PSY:2301, PSY:2401, PSY:2501, and PSY:2601 may be completed in any order.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Choose from an approved list to meet Psychology BS major requirements.

h Students take three advanced psychology courses (total of 9 s.h.) after satisfactorily completing the psychology core and other specified prerequisites. See the General Catalog for list of courses that do not count toward this requirement.

i See the General Catalog for list of approved courses.

j Enrollment in math courses requires completion of a placement exam.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Psychology, Minor

Requirements

The undergraduate minor in psychology requires a minimum of 15 s.h. of psychology courses (prefix PSY), including 12 s.h. taken at the University of Iowa. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass or satisfactory/fail. Before registering for a psychology course, students must complete the course's prerequisites. No credit from practicum coursework can be applied to the minor. Only one course can be "double counted" for the psychology minor and neuroscience major (i.e., neuroscience majors must complete four psychology classes not included as part of their neuroscience BS).

A minor in psychology complements majors in a variety of disciplines. Department advisors can help students identify courses for the minor that are especially appropriate for their major.

Psychology, MA

Graduate study in psychology is designed for students seeking the PhD. Students enrolled in the doctoral program may elect to receive a Master of Arts (MA) when they have completed the necessary requirements.

Learning Outcomes

Students will:

- develop skills to design and carry out independent and team-based research projects;
- develop an understanding of multiple statistical techniques to support independent data analysis skills;
- develop skills to effectively communicate research results to a range of audiences in both written and oral formats;
- develop the capability to independently teach a course; and
- follow the highest ethical standards when conducting research and communicating results.

Requirements

The graduate program in psychology is primarily a PhD program. The program does not admit students who have a terminal master's degree in psychology as their objective. Students in good standing in the psychology PhD program may elect to receive a master’s degree at the end of the second year. Additionally, students who are terminated from the PhD program may elect to switch to the MA program. In both cases, the degree is an MA without thesis.

The Master of Arts without thesis program in psychology requires 37 s.h. of graduate credit. Students must maintain a cumulative and program grade-point average of at least 3.00 to earn the degree. Each student must satisfy a portion of the course requirements of the PhD program. The MA requirements are organized around training areas. For the MA, the student must have completed the coursework that would normally be expected by that point in the program, according to the training area’s required/recommended coursework (see the graduate handbook on the department's website). Exceptions must be approved by the area coordinator and director of graduate studies. Each student must have an advisor (a member of the department faculty who has agreed to advise and sponsor the student) at all times.

Students must earn 30 of the required 37 s.h. at the University of Iowa. Coursework for the MA nonthesis program must include at least 15 s.h. earned in Department of Psychological and Brain Sciences courses and seminars, or in courses and seminars that meet area-specific requirements for one of the training areas. The MA without thesis does not require a final exam.

Graduate Training Areas

Behavioral and Cognitive Neuroscience

The program in behavioral and cognitive neuroscience focuses on the analysis of learning, memory, attention, motivation, aging, sensory processing, and sleep, in both human and nonhuman subjects, through the application of behavioral and biological principles. Special faculty strengths are in the neurobiology of learning and memory, cognitive neuroscience, motivation and emotion, developmental psychobiology, comparative psychology, neuropharmacology, neuroendocrinology, and neuroanatomy. Students in this program have the opportunity to learn state-of-the-art techniques in computer-controlled experimentation and electronic instrumentation as well as advanced analytic and laboratory methods in neurophysiology, nonhuman neurosurgery, histology, neuroimaging, and assays of biochemical activity.

Faculty members in the behavioral and cognitive neuroscience area interact extensively with colleagues in other divisions in the department, in the Iowa Neuroscience Institute, and in many basic science and clinical departments in the Carver College of Medicine, including anatomy and cell biology, otolaryngology—head and neck surgery, pharmacology, internal medicine, pediatrics, psychiatry, and neurology. These collaborative activities provide excellent research and training opportunities for students interested in emerging interdisciplinary fields.

Clinical Science

The clinical science training program emphasizes a scientific approach to the understanding of psychological disorders and the influence of psychological factors on human relationships and health. The program is accredited by the Psychological Clinical Science Accreditation System (PCSAS), has been continuously accredited by the Commission on Accreditation of the American Psychological Association since 1948, and is a charter member of the Academy for Psychological Clinical Science.

The program is designed for students who are interested primarily in helping to advance scientific understanding of clinical phenomena and in acquiring the research skills necessary to do so. Faculty members and students have active research collaborations with colleagues from many departments in the university's Carver College of Medicine and College of Public Health and at the VA Iowa City Health Care. Many of the program's faculty members conduct externally funded research programs that use cutting-edge behavioral science to develop an improved understanding of mechanisms, processes, and interventions for mental disorders. Faculty members have strong training records, and the program's graduates have gone on to top-tier research, teaching, and clinical service positions.

The clinical psychology program provides first-hand clinical experience and opportunities to develop clinical competence that are integral to clinical research. It closely integrates practicum experience in the Seashore Psychology Clinic with coursework and supervised research experience. Advanced students have opportunities to gain additional clinical experience through placement in the Benton Neuropsychology Clinic, Women’s Wellness and Counseling Service, adult and child psychiatry clinics, the Iowa City VA Health Care System, and other venues.

Cognition

The cognition training area is guided by the philosophy that understanding cognitive processes requires an understanding of how they develop and interact with other cognitive processes. In this pursuit, the area strives for empirical and theoretical rigor.

The area's laboratories have overlapping research domains, so most topics are studied by multiple laboratories with multiple methodologies. Areas of strength include categorization, computational modeling, cognitive control, cognitive development, language and language learning, learning and memory, visual cognition, attention, and working memory.

Students in cognition take basic courses and seminars in specialty areas, but they devote most of their time to research activities. Students work closely with a faculty mentor at first and then become progressively independent as they gain knowledge and skills. The program encourages students to work with more than one faculty member, both in the program and across the department and the university. Students often combine basic work on cognition with work in areas such as neuroscience, neuropsychology, psychiatry, educational psychology, and human factors engineering.

Individualized Graduate Training Option

The purpose of the individualized graduate training option is to provide flexibility to graduate students who want to pursue a specialized course of study that does not easily fit within the other three graduate training areas. This training option may also be appropriate for students who have strong interdisciplinary research interests involving coursework in other departments. Students can choose the individualized training option when applying to the PhD program or may petition the committee on graduate studies to switch to the individualized option after beginning the PhD program. Oversight of students in the individualized training option is provided by the student's research advisory committee, the director of graduate studies, and the committee on graduate studies.

Admission

Since the graduate program in psychology is designed primarily for students seeking the PhD, all applicants are considered on that basis.

The application deadline is Dec. 1. Applications may be submitted at any time but are considered only once each year—between Dec. 1 and Feb. 1—for admission the following fall. Admission decisions are based on a composite consideration of prior academic and research performance, letters of reference, and an applicant's statement about background and purpose. Admission materials are reviewed initially by faculty members in the applicant's primary training area.

An undergraduate major in psychology—including a laboratory course in experimental psychology, a course in statistics, and additional work in the natural sciences and in mathematics—is desirable but not required. Students who have not had such a background but are strongly qualified on other grounds may be admitted. They may be asked to remedy deficiencies in background work with certain courses or independent study before embarking on the regular graduate program.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Students who pursue a master’s degree in psychology have many opportunities to teach psychology in community colleges or high schools or to find employment in a business, school, or hospital.

Learn more about careers in psychology at the American Psychological Association website.

Psychology, PhD

Graduate study in psychology is designed for students seeking the PhD. Students enrolled in the doctoral program may elect to receive a Master of Arts (MA) when they have completed the necessary requirements.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Learning Outcomes

Students will:

- develop skills to design and carry out independent and team-based research projects;
- develop an understanding of multiple statistical techniques to support independent data analysis skills;
- develop skills to effectively communicate research results to a range of audiences in both written and oral formats;
- develop the capability to independently teach a course; and
- follow the highest ethical standards when conducting research and communicating results.

Requirements

The Doctor of Philosophy program in psychology requires a minimum of 72 s.h. of graduate credit. Students must maintain a cumulative and program grade-point average of at least 3.00 to earn the degree. The 72 s.h. required for the PhD includes at least 33 s.h. in the Department of Psychological and Brain Sciences. All students must satisfy, through one of several options, requirements in statistics and research methods. Those entering without previous graduate work usually require at least five years to complete the program; those entering with previous graduate training may require less, depending on the nature of the earlier preparation.

The PhD program places a strong emphasis on preparation for research, teaching, and other scholarly endeavors, whether in academic settings or in industrial, governmental, or medical institutions. The intent is to produce graduates who are deeply committed to the study of psychology, familiar with fundamental knowledge about psychological processes, well trained in the methods and techniques for careful investigation of basic and applied problems, and determined to make contributions to the discipline of psychology and society.

Graduate training is organized in three broad areas: behavioral and cognitive neuroscience, clinical science, and cognition. The department also offers an individualized graduate training option that allows students to design their own course of study. Within and across those areas, graduate training may be guided by additional organizing themes such as developmental science, developmental psychopathology, visual perception, health psychology, and social psychology. Entering students are expected to identify one of the three broad areas as their primary area and to follow a specific program that develops a thorough understanding of the substantive material and methods of investigation central to that subdiscipline, combined with the student's specific research goals. Regardless of specialty training, all students must meet course requirements in statistics and research methods, and they are expected to take courses in content areas other than their primary one. The training area programs are sufficiently flexible to permit students to develop substantial competence in a second training area.

During each of the first two semesters, graduate students ordinarily take two or three courses—for example, a statistics course, a course or two in the primary training area, and/or an outside area elective. Students also begin their research under the supervision of their advisor and with the guidance of their research advisory committee.

Near the end of the fall semester of the second year, students submit a report describing their research to date. At the beginning of the following semester, they present their research at the annual graduate research symposium.

During subsequent years, students continue selected coursework in their training and interest areas and continue to develop their research programs. In addition, they develop a prospectus for the dissertation research and take the comprehensive examination, which covers material in the specialty area. The final year is devoted primarily to conducting the PhD study and writing the dissertation. In the PhD final examination, students present an oral defense of their dissertation and are expected to relate the dissertation work to broader issues in the discipline of psychology.

Graduate Training Areas

Behavioral and Cognitive Neuroscience

The program in behavioral and cognitive neuroscience focuses on the analysis of learning, memory, attention, motivation, aging, sensory processing, and sleep, in both human and nonhuman subjects, through the application of behavioral and biological principles. Special faculty strengths are in the neurobiology of learning and memory, cognitive neuroscience, motivation and emotion, developmental psychobiology, comparative psychology, neuropharmacology, neuroendocrinology, and neuroanatomy. Students in this program have the opportunity to learn state-of-the-art techniques in computer-controlled experimentation and electronic instrumentation as well as advanced analytic and laboratory methods in neurophysiology, nonhuman neurosurgery, histology, neuroimaging, and assays of biochemical activity.

Faculty members in the behavioral and cognitive neuroscience area interact extensively with colleagues in other divisions in the department, in the Iowa Neuroscience Institute, and in many basic science and clinical departments in the Carver College of Medicine, including anatomy and cell biology, otolaryngology—head and neck surgery, pharmacology, internal medicine, pediatrics, psychiatry, and neurology. These collaborative activities provide excellent research and training opportunities for students interested in emerging interdisciplinary fields.

Clinical Science

The clinical science training program emphasizes a scientific approach to the understanding of psychological disorders and the influence of psychological factors on human relationships and health. The program is accredited by the Psychological Clinical Science Accreditation System (PCSAS), has been continuously accredited by the Commission on Accreditation of the American Psychological Association since 1948, and is a charter member of the Academy for Psychological Clinical Science.

The program is designed for students who are interested primarily in helping to advance scientific understanding of clinical phenomena and in acquiring the research skills necessary to do so. Faculty members and students have active research collaborations with colleagues from many departments in the university's Carver College of Medicine and College of Public Health and at the VA Iowa City Health Care. Many of the program's faculty members conduct externally funded research programs that use cutting-edge behavioral science to develop an improved understanding of mechanisms, processes, and interventions for mental disorders. Faculty members have strong training records, and the program's graduates have gone on to top-tier research, teaching, and clinical service positions.

The clinical psychology program provides first-hand clinical experience and opportunities to develop clinical competence that are integral to clinical research. It closely integrates practicum experience in the Seashore Psychology Clinic with coursework and supervised research experience. Advanced students have opportunities to gain additional clinical experience through placement in the Benton Neuropsychology Clinic, Women’s Wellness and Counseling Service, adult and child psychiatry clinics, the VA Iowa City Health Care, and other venues. After five to six years of on-campus work, including completion of all coursework and most of the dissertation, students serve a one-year internship at an approved site.

Cognition

The cognition training area is guided by the philosophy that understanding cognitive processes requires an understanding of how they develop and interact with other cognitive processes. In this pursuit, the area strives for empirical and theoretical rigor.

The area's laboratories have overlapping research domains, so most topics are studied by multiple laboratories with multiple methodologies. Areas of strength include categorization, computational modeling, cognitive control, cognitive development, language and language learning, learning and memory, visual cognition, attention, and working memory.

Students in cognition take basic courses and seminars in specialty areas, but they devote most of their time to research activities. Students work closely with a faculty mentor at first and then become progressively independent as they gain knowledge and skills. The program encourages students to work with more than one faculty member, both in the program and across the department and the university. Students often combine basic work on cognition with work in areas such as neuroscience, neuropsychology, psychiatry, educational psychology, and human factors engineering.

Individualized Graduate Training Option

The purpose of the individualized graduate training option is to provide flexibility to graduate students who want to pursue a specialized course of study that does not easily fit within the other three graduate training areas. This training option may also be appropriate for students who have strong interdisciplinary research interests involving coursework in other departments. Students can choose the individualized training option when applying to the PhD program or may petition the committee on graduate studies to switch to the individualized option after beginning the PhD program. Oversight of students in the individualized training option is provided by the student's research advisory committee, the director of graduate studies, and the committee on graduate studies.

Admission

Since the graduate program in psychology is designed primarily for students seeking the PhD, all applicants are considered on that basis.

The application deadline is Dec. 1. Applications may be submitted at any time but are considered only once each year—between Dec. 1 and Feb. 1—for admission the following fall. Admission decisions are based on a composite consideration of prior academic and research performance, letters of reference, and the applicant's statement about background and purpose. Admission materials are reviewed initially by faculty members in the applicant's primary training area.

An undergraduate major in psychology—including a laboratory course in experimental psychology, a course in statistics, and additional work in the natural sciences and in mathematics—is desirable but not required. Students who have not had such a background but are strongly qualified on other grounds may be admitted. They may be asked to remedy deficiencies in background work with certain courses or independent study before embarking on the regular graduate program.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Religious Studies

Chair

- Paul C. Dilley

Undergraduate major: religious studies (BA)

Undergraduate minor: religious studies

Graduate degrees: MA in religious studies; PhD in religious studies

Faculty: https://religiousstudies.uiowa.edu/people/faculty

Website: https://religiousstudies.uiowa.edu/

Religious studies is an invaluable aspect of a liberal arts education, whether students take select courses or aim for a degree. The Department of Religious Studies helps students gain competency in global religious diversity, which is essential for successful interactions with others in daily life and in the modern workplace, at home or abroad.

Students in religious studies courses develop a critical understanding of the important role of religious diversity and change in the world we inhabit. Students learn to analyze religion's profound influences on people and societies around the world. Religious studies courses also investigate religions' complex relationships with social justice, especially related to matters of race, class, and gender.

The broad geographical range of religious studies courses enables students to better understand global events, as they unlock religious wisdom and understanding of the past and present from the United States, Asia, Europe, and Africa. The faculty encourages a multidisciplinary inquiry into religious ideas, experiences, philosophies, cultural expressions, and social movements.

Religious studies courses further help students hone their essential analytical writing and reading skills while gaining cross-cultural communication strategies and new ways to critically analyze historical and current events. Many of the departmental courses (prefix RELS) are approved for the GE CLAS Core [p. 22].

Employers in private industry, government, education, law, public policy, social work, the nonprofit sector, entertainment, and journalism value the ability of religious studies students to research and analyze pressing problems and social and political behavior, and to express significant ideas with clarity and sensitivity.

Faculty and students in the department participate in many of the university's interdisciplinary departments and programs, including the departments of American Studies; Classics; Communication Studies; Gender, Women's, and Sexuality Studies; and History; and the African American Studies and Latina/o/x Studies programs.

The Department of Religious Studies has a commitment to diversity including race, gender identity, sexual orientation, class, religion, national origin, disability, and veteran status.

Community Engagement

In addition to the many courses the department offers, faculty and students often participate in a variety of programming activities each semester. The department regularly organizes lectures on important themes such as race and religion, indigenous religion, and human rights.

Programs

Undergraduate Programs of Study

Major

- Major in Religious Studies (Bachelor of Arts) [p. 974]

Minors

- Minor in Religious Studies [p. 978]

Graduate Programs of Study

- Master of Arts in Religious Studies [p. 980]
- Doctor of Philosophy in Religious Studies [p. 983]

Courses

Religious Studies Courses

RELS:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

RELS:1001 Judaism, Christianity, and Islam **3 s.h.**
Introduction to sacred literature, beliefs, and rituals of Judaism, Christianity, and Islam; historical and contemporary relationship between these three Abrahamic religions. GE: Historical Perspectives.

RELS:1015 Global Religious Conflict and Diversity **3 s.h.**
Origins, evolution, and history of indigenous and global religions; role of religion in causing conflict, promoting peace, and/or mitigating effects of conflicts; religious, cultural, and institutional systems, conceptual and otherwise, that produce and/or manage violence, peace, and social change. GE: Understanding Cultural Perspectives.

RELS:1041 African American Religion and Popular Culture **3 s.h.**
Examination of the role African American religions play in shaping 20th century and contemporary popular culture in the United States; students explore recent histories of Black Christianity, American Islam, and African diaspora religions; gender and race; cultural production in hip hop, jazz, rhythm and blues, literature, poetry, film, sports, cuisine, visual art, and style. Same as AFAM:1041.

RELS:1050 Big Ideas: Introduction to Information, Society, and Culture **3 s.h.**
What is information? What does it teach us about societies and cultures? How is information used to shape societies and even personal preferences? What types of information are there and how can we understand and use them? Students work with faculty from multiple disciplines to investigate these questions using inquiry-based activities to build success in critical thinking and teamwork. GE: Quantitative or Formal Reasoning. Same as POLI:1050.

RELS:1070 Introduction to the Hebrew Bible/Old Testament **3 s.h.**
History, religion, and thought of ancient Jews as recorded in their scripture. GE: Values and Society.

RELS:1080 Introduction to the New Testament **3 s.h.**
History, religion, and thought of early Christians as recorded in the New Testament. GE: Values and Society.

RELS:1130 Introduction to Islamic Civilization 3 s.h.
Survey of texts, ideas, events, institutions, geography, communities, literature, arts, sciences, and cultures in Islamic communities and societies since the 7th century. GE: International and Global Issues. Same as HIST:1030.

RELS:1225 Medieval Religion and Culture 3 s.h.
Religion in Europe from classical antiquity to dawn of the Reformation; the religious element in traditions such as art, architecture, literature. GE: Historical Perspectives. Same as HIST:1025.

RELS:1250 Modern Religion and Culture 3 s.h.
European and American religious life from Renaissance to 21st century; focus on specific themes, such as secularism, regionalism, pluralism. GE: Historical Perspectives. Same as HIST:1050.

RELS:1350 Introduction to African American Religions 3 s.h.
GE: Values and Society. Same as AFAM:1250.

RELS:1404 Introduction to Asian Religions 3 s.h.
Religious beliefs, practices in India, China, Japan. GE: Values and Society. Same as ASIA:1040, HIST:1610.

RELS:1502 Asian Humanities: India 3 s.h.
Introduction to 4,000 years of South Asian civilization through popular stories. Taught in English. GE: Values and Society. Same as ASIA:1502, SOAS:1502.

RELS:1506 Introduction to Buddhism 3 s.h.
Development of Buddhism in India, its spread across Asia, and arrival in the West; exploration of diverse Buddhist philosophies, practices, and cultures; readings from India, Tibet, China, Japan, Korea, and Southeast Asia. GE: Values and Society. Same as ASIA:1060, HIST:1612.

RELS:1606 Civilizations of Asia: South Asia 3-4 s.h.
Civilization of a vast region that includes India, Pakistan, Bangladesh, Nepal, and Sri Lanka. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1606, HIST:1606.

RELS:1670 Korea in the World 3 s.h.
Comprehensive and critical understanding of Korea's place in the world; emphasis on historical and sociocultural roots of various aspects of life on the contemporary Korean peninsula (both North and South Korea); comprehensive list of topics including cultural production (K-pop and film), religions, economy, gender relations, cuisine, politics, and prospects for reunification. Taught in English. Same as ASIA:1670, KORE:1670.

RELS:1702 Religion in America Today 3 s.h.
How American men, women, and children practice their beliefs in today's society. GE: Values and Society.

RELS:1810 Happiness in a Difficult World 3 s.h.
Religious backgrounds and unique spiritualities of Maya Angelou (an African-American Christian), Black Elk (a Lakota Sioux medicine man), and the Dalai Lama (a Tibetan Buddhist monk); forms of oppression that humans can experience as obstacles to happiness, and forms of liberation that are possible (social, political, economic, mental, emotional, spiritual). GE: Values and Society.

RELS:1903 Quest for Human Destiny 3 s.h.
Quests for destiny in terms of perceived options/goals and ability to recognize, pursue, achieve them. GE: Values and Society.

RELS:2000 Engaging Religious Diversity for Leadership and Entrepreneurship 3 s.h.
Practical skills in engaging religious diversity for workplace success; understanding religion's influences on perceptions and choices of business leaders, investors, customers, and coworkers; insight into how to build professional relationships with people from different backgrounds; clarity about your own ethical values. GE: Understanding Cultural Perspectives.

RELS:2068 Jews in Popular Culture 3 s.h.
Exploration of a wide variety of ways in which Jewish people represent themselves through production of cultural media.

RELS:2080 Public Life in the U.S.: Religion and Media 3 s.h.
Examination of how the U.S. came into being through specific communication practices, how religion has helped and hindered that process; religious roots of the idea of the U.S., intertwined histories of print media and religion, role of religion and secularism in public discourse; U.S. pride as a nation in which diversity thrives in public discourse; communicative acts that created and sustained this country and also mark sites of discord, conflict, and confusion from the very beginnings of the U.S. to today; how religion has been a source of national identity and national division. Same as COMM:2080.

RELS:2122 The Place of Animals in the Hebrew Bible 3 s.h.
Why the biblical God permits humans to eat other animals' flesh; fundamental dietary differences between humans and the beasts.

RELS:2152 The Gnostic Religion: Knowledge, Institution, and Salvation 3 s.h.
An introduction to Gnosticism, an early Christian heresy with a radical emphasis on salvation through knowledge, with ongoing influence and relevance for contemporary spirituality.

RELS:2182 Ancient Mediterranean Religions 3 s.h.
Introduction to major religious traditions of ancient Mediterranean world; Mesopotamia, the Levant (Hebrew Bible), Egypt, Greece, and Rome; central aspects of mythology, ritual, and archaeology, individually and in comparative perspective; ancient Judaism and Christianity considered in their various cultural contexts; basic concepts for understanding cultural exchange; fundamental theories in the study of religion. GE: Values and Society. Same as CLSA:2482.

RELS:2240 Introduction to Jewish Studies 3 s.h.
Introduction to the interdisciplinary field of Jewish studies; topics include history from ancient origins to the present, sociology of Jewish life in the U.S. and internationally, ethical and religious principles and practices, Jewish embeddedness in non-Jewish societies, and controversies within and surrounding the Jewish world. GE: Understanding Cultural Perspectives. Same as HIST:2149, JSTU:2149, SJUS:2240.

RELS:2250 Jews, Judaism, and Social Justice 3 s.h.
Jewish frameworks for grappling with justice and ethics from ancient world to present day; emphasis on internal diversity of Jewish experience as well as interactions with dominant and other minority cultures. Same as GWSS:2050, HIST:2150, SJUS:2050.

RELS:2260 Hard Cases in Healthcare at the Beginning of Life 3 s.h.
Exploration of ethical impact that advances in biotechnology, including genetic, reproductive, and neonatal technology, are having in the medical arena and on humanity; consideration of the powerful influence that religion and spirituality have on people's ethical and medical decision-making. Same as GHS:2260.

RELS:2265 Hard Cases in Healthcare at the End of Life 3 s.h.
Preparation for future healthcare providers to make difficult ethical decisions regarding the end of life; interactive course. Same as ASP:2265, GHS:2265.

RELS:2272 Gods and Superheroes: Mythologies for a Modern World 3 s.h.
Introduction to important roles that religious and cultural myths play in culture; their relevance through interpretation and adaptation to answer important questions like the meaning of life and what it means to be human; ancient myths behind modern superhero movies and how they are adapted to fit a new context; and how modern superhero movies fulfill functions similar to the way myths and religion reinforce or question religious ideas of the culture that creates them. Recommendations: some background in religious studies helpful.

RELS:2289 Jerusalem: The Holy City 3 s.h.
Religious, political, and cultural history of Jerusalem over three millennia as a symbolic focus of three faiths—Judaism, Christianity, and Islam; integration of several digital learning technologies, including digital reconstructions and Google Earth tours of Jerusalem. Same as CLSA:2489.

RELS:2330 Wealth, Inequality, and Islam 3 s.h.
Impacts of Islam and Islamic institutions on economic, religious, and political systems that produce wealth, use natural and human resources, design financial institutions, and structure business organizations. GE: Understanding Cultural Perspectives.

RELS:2361 Middle East and Mediterranean: Alexander to Suleiman 3 s.h.
GE: Historical Perspectives. Same as CLSA:2461, HIST:2461.

RELS:2444 Cities of the Bible 3 s.h.
Survey of the history and archaeology of key biblical cities and the contributions they made to the formation of the Bible. GE: Historical Perspectives. Same as CLSA:2444.

RELS:2515 Introduction to Chinese Religious Thought: How Best to Live 3 s.h.
Overview of how different Chinese religious traditions are addressing central questions about human existence and the best ways to live. Same as ASIA:2515.

RELS:2550 Water Worlds: Tools for Climate 3 s.h.
Tools from religion/spirituality, art, literature, and history foster sustainability and resilience in time of water crisis; explore new ways to understand and repair relationships to water and environment amid intense storms, flooding, high water usage, and uneven drinking water access; introduction to religious/spiritual ways to know and relate to nature as a vital part of the community; experiential learning component focused on the Iowa River.

RELS:2620 Sex and the Bible 3 s.h.
Examination and analysis of the role of the Bible in contemporary culture; how different groups can read the exact same passages, yet reach different conclusions about how they and others should live. Recommendations: basic familiarity with the Bible or religion. GE: Understanding Cultural Perspectives. Same as CLSA:2620.

RELS:2674 Food, Body, and Belief: A Global Perspective 3 s.h.
Exploration of local, national, and global forces that shape food consumption, body image, and spiritual practices. Taught in English. Same as GHS:2674, GWSS:2674.

RELS:2775 The Bible and the Holocaust 3 s.h.
Religious and philosophic implications of the Holocaust viewed through survivors' writings.

RELS:2834 Philosophy of Religion 3 s.h.
Historical to contemporary treatments of central issues; nature of faith, existence and nature of God, science and religion, ethics and religion, miracles, religious experience, interpretation of religious texts. Requirements: sophomore or higher standing. Same as PHIL:2534.

RELS:2852 Women in Islam and the Middle East 3 s.h.
Women in the Islamic community and in non-Muslim Middle Eastern cultures; early rise of Islam to modern times; references to women in the Qur'an and Sunnah, stories from Islamic history; women and gender issues. GE: International and Global Issues. Same as GWSS:2052.

RELS:2877 Sport and Religion in America 3 s.h.
Sport as a religion; religiosity in sports; examination of religion and sport as connected in important ways in American society. Same as SPST:2077.

RELS:2930 Digital Media and Religion 3 s.h.
Influences of digital media on religion and spirituality today. GE: Historical Perspectives. Same as COMM:2079.

RELS:2947 Quest II: Sex, Love, and Death 3 s.h.
Examination of ancient and modern responses to horrors associated with death; includes films, readings from the Hebrew Bible, J.D. Salinger, and Ernest Hemingway.

RELS:2955 Human Rights and Islam 3 s.h.
Exploration of social forces, legal regimes, and cultural norms that have shaped discourse on human rights in a global context with reliance on a systems thinking framework; examination of intersections of rights, culture, society, and law in the last 2,000 years; consideration of interplay between institutional (formal) and societal (informal) powers that shape human rights norms; origins and evolution of discourse on rights across cultures and throughout history. GE: International and Global Issues. Same as IS:2955.

RELS:2980 Religion and Contemporary Popular Culture 3 s.h.
Varied topics on the intersection of religion and popular culture; may include film, television, music, and religions in North America or Asia.

RELS:2986 Religion and Women 3 s.h.
Sexism and its disavowal in biblical narrative, law, wisdom texts, Gospels, epistles; contemporary impact. GE: Values and Society.

RELS:3003 Classical and Hellenistic Periods I 3 s.h.
Readings in Greek literature of the Classical and Hellenistic periods. Prerequisites: CLSG:2002. Same as CLSG:3003.

RELS:3055 Death, Dying, and Beyond in Asian Religions 3 s.h.
Survey of cultural and religious approaches to the dying process, post-death rituals, and conceptions about the afterlife in different religions in Asia. Same as ASIA:3055.

RELS:3145 Ancient Wisdom: Classical Islamic Medicine 3 s.h.
Explores the medical knowledge of ancient civilizations as transmitted and systematized in the Islamic Golden Age.

RELS:3190 Medieval to Modern: The Birth of Protestantism 3 s.h.
Same as HIST:3190.

RELS:3243 Pagans and Christians: The Church From Jesus to Muhammad 3 s.h.
Introduction to history of early Christianity, from time of Jesus to rise of Islam; focus on major movements, intellectuals, institutions in this period; growth of Christianity in different geographical areas including the Middle East, Greece, Western Europe, Africa; Christian relations with Jews, pagans, Muslims; conversion; orthodoxy, heresy, making of biblical canon; martyrdom; women and gender roles; asceticism, monasticism, sexuality; church and state; theological controversy and schisms; cult of saints; the Holy Land and pilgrimage. Same as CLSA:3443.

RELS:3245 Mythology of Otherworldly Journeys 3 s.h.
Examination of mythology of otherworldly journeys from earliest religions to Hellenistic period; historical context; comparison for common themes in their evolution over time; directed readings of mythological texts dealing with otherworldly journeys; ways in which past cultures confronted larger mysteries of life and death. Same as CLSA:3445.

RELS:3247 Banned From the Bible: Pseudepigrapha and Apocrypha 3 s.h.
Introduction to biblical Pseudepigrapha and Apocrypha; writings dating from third century B.C.E. to third century C.E. fictionally attributed to characters in the Hebrew Bible and New Testament, or written as though they originated in the First or Second Temple periods, not included in Jewish or major Christian canons of scripture; English translations of documents from this period; key themes and interpretative techniques common throughout biblical texts that provide tremendous insight into the worlds that produced the Hebrew Bible and New Testament. Same as CLSA:3247.

RELS:3267 Dissent and Rebellion in Islamic Societies: Was There an Arab Spring? 3 s.h.
Reviewing the so-called Arab Spring events that started in 2011 to understand and explain the uprisings and civil wars that transformed Southwest Asia and North Africa (SwANA) and influenced other wars in Africa, Ukraine, and elsewhere.

RELS:3325 Bioethics and Religious Diversity 3 s.h.
The impact of diverse ways of being religious on experiences of wellness, illness, and health care decision making.

RELS:3375 The Great Collision 3 s.h.
Major developments in architecture, sculpture, ceramics, and mosaics in Israel, Palestine, Syria, and Arabia from death of Alexander the Great to rise of Islam (4 B.C.E. to 8 C.E.); Greek and Roman influences versus local traditions; Roman Empire; growth of churches, synagogues, and mosques; identity and religion. Same as ARTH:3375.

RELS:3655 Zen Buddhism 3 s.h.
Same as ASIA:3655, HIST:3655.

RELS:3700 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financial aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as ENTR:3595, MGMT:3500, MUSM:3500, NURS:3595, SSW:3500.

RELS:3701 Nonprofit Organizational Effectiveness II 3 s.h.
Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Same as MGMT:3600, NURS:3600, SSW:3600.

RELS:3704 Egyptian Art 3 s.h.
Survey of ancient Egypt over 3,500 years with emphasis on art and architecture in context; workshops, patrons, and audiences of Egyptian art; major principles, themes, and meanings of Egyptian art; relationship between writing and artistic representation; connections between art, kingship, and Egyptian view of the world; art and architecture of central elite and other social groups. Same as ARTH:3320.

RELS:3716 Greek Religion and Society 3 s.h.
From Bronze Age to the Hellenistic period, in context of Mediterranean culture; evidence such as choral hymn, inscribed prayers, magical curses inscribed on lead, architecture, sculpted offerings to the gods. Same as CLSA:3416.

RELS:3745 Twentieth- and Twenty-first Century African American Religion 3 s.h.
Twentieth- and twenty-first-century African American religious history; major political and cultural movements including civil rights, Black power, Black feminism/womanism, hip hop, and Black Lives Matter; their impact on Black Christianity and Islam in the United States. Same as AFAM:3245.

RELS:3808 Malcolm X, King, and Human Rights 3 s.h.
Religion and politics of Malcolm X and Martin Luther King, Jr. in the context of U.S. civil rights and international human rights in West Africa and the Muslim world; emphasis on civil rights connections to Gandhi, the Nobel Peace prize, and other international experiences that have impacted Pan Africanists, such as Stokely Carmichael, who worked on human rights. Recommendations: international studies major or undergraduate standing. Same as AFAM:3500, HIST:3160.

RELS:3850 Perspectives on Migration 3 s.h.
Explores the origins and functions of migration in cultural, religious, political, and legal discourses over time from a plurality of disciplinary and experiential perspectives.

RELS:4001 Biblical Hebrew I 3-4 s.h.
Introduces students with no prior Hebrew experience to Biblical Hebrew, the language used to compose the bulk of the Hebrew Bible. Introduction to the Hebrew alphabet, vocabulary, and grammar, culminating with reading and comprehending passages from the Hebrew Bible. GE: World Languages First Level Proficiency. Same as CLSA:4901.

RELS:4002 Biblical Hebrew II 3 s.h.
Continues the language instruction sequence begun in CLSA:4901. Deepens understanding of Hebrew vocabulary and grammar, and the ability to read and comprehend passages from the Hebrew Bible. GE: World Languages Second Level Proficiency. Same as CLSA:4902.

RELS:4154 Magic Machines: Technology and Social Change 3 s.h.
How media has altered culture, society, and human consciousness throughout history with focus on last two centuries (or modernity); how communication has been shaped by a variety of media (i.e., gesture, language, writing, printing, calendars, clocks, photography, telegraph, telephone, phonograph, film, radio, television, computers); 21st-century questions concerning technology and how few communicate today without aid of some kind of machine or technique. Prerequisites: (2 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174)) and (2 of the following are required: COMM:1302, COMM:1305, COMM:1306, COMM:1816, COMM:1818, COMM:1819, COMM:1830, COMM:1840, COMM:1845, COMM:1898, COMM:2010, COMM:2011, COMM:2012, COMM:2013, COMM:2015, COMM:2020, COMM:2030, COMM:2040, COMM:2041, COMM:2042, COMM:2044, GWSS:2046, COMM:2048, COMM:2050, COMM:2054, COMM:2057, COMM:2064, COMM:2065, AFAM:2070, COMM:2070, AFAM:2072, COMM:2075, COMM:2076, COMM:2077, RELS:2930, COMM:2080, COMM:2083, COMM:2085, COMM:2086, COMM:2088, COMM:2089, COMM:2090, COMM:2091, WLLC:2248, COMM:2813, EDTL:2821, COMM:2828, COMM:2897, COMM:2899). Same as COMM:4154.

RELS:4352 The Dead Sea Scrolls 3 s.h.
Introduction to the Dead Sea Scrolls; reading of the scrolls in English translation; examination of Qumran site archaeology; survey of broader sociopolitical context of Second Temple Judaism (586 B.C.E. to 135 C.E.) out of which the scrolls emerged. Same as CLSA:4452.

RELS:4893 Classical Arabic: Vocabulary, Syntax, and Grammar 1-3 s.h.
Arabic grammar, syntax, and reading fluency. Prerequisites: ARAB:2001. Corequisites: RELS:2955.

RELS:4930 Internship in Research on Rights and Remedial Justice 1-3 s.h.
Faculty supervised research experience in human rights remedial justice.

RELS:4950 Senior Majors Seminar 3 s.h.
Issues central to academic study of religion.

RELS:4960 Individual Study: Undergraduates arr.

RELS:4970 Honors Tutorial 2-3 s.h.

RELS:4975 Honors Essay 2-4 s.h.

RELS:4990 Research With Faculty 3 s.h.
Research with a faculty member on a scholarly project; discussions of primary and secondary literature; regular small-group meetings. Requirements: religious studies major.

RELS:5001 Biblical Aramaic 3 s.h.
This course introduces the basics of Biblical Aramaic grammar and syntax and provides an introduction to the Biblical lexicon. There will be extensive grammatical exercises, both in class and at home, as well as frequent opportunities to apply grammatical and lexical knowledge to the Biblical text. Recommendations: Biblical Hebrew recommended. Same as CLSA:5903.

RELS:5002 Targumic Aramaic 3 s.h.
Language used by Targums—Aramaic translations of the Hebrew Bible—for use in the study of interpretative traditions of later Jewish groups. Same as CLSA:5904.

RELS:5100 Teaching and Public Engagement 1-3 s.h.
Critical importance of educating people about religion within increasingly globalized and digitized contexts; preparation to excel as classroom teachers and facilitators of cross-religious dialogue in public sphere.

RELS:5115 Blue Humanities 3 s.h.
Exploration of tools from art, history, religion, and theory to navigate water crises; critical cultural approaches to understanding and repairing relationships with water and environment in time of intense storms, flooding, water usage, and unequal access to water; readings in vitalist and other religious/spiritual approaches to the world-in-becoming, including Indigenous and anti-extractivist epistemologies; emphasis on interdisciplinary and experiential learning centered on the Iowa River.

RELS:5200 Asian Religions in the Modern World for Graduate Students 3 s.h.
Introduction to religious traditions of Asia; framework for further studies in Asian religions; preparation to design and teach a world religions course; for Asian studies and religious studies graduate students.

RELS:5300 Genealogies of Religion 3 s.h.
Genealogies of the idea of religion, academic study of religion, and comparative study of religions; intellectual and ideological foundations of discipline; preparation to work skillfully across traditions.

RELS:5400 Colonial Knowledge Production and Its Discontents: Religion and the Academy 3 s.h.
An interdisciplinary approach to how religion has participated in creating “Western” ways of knowing and the modern epistemologies that undergird academia. Course topics include colonialism, post-and de-colonialism, epistemology, race, and gender.

RELS:6040 Tiberius to Trajan arr.
Authors and topics from the first and second centuries C.E. Same as CLSL:6013.

RELS:6070 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as HMP:6360, MGMT:9150, PBAF:6278, SPST:6010, SSW:6247, URP:6278.

RELS:6075 Nonprofit Organizational Effectiveness II 3 s.h.
Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Same as HMP:6365, MGMT:9160, PBAF:6279, SPST:6020, SSW:6248, URP:6279.

RELS:6125 Classical Arabic and Grammar 3-6 s.h.
Arabic alphabet, vocabulary, and syntax; poetry, legal texts, and media Arabic; converse in formal Arabic; for students with strong interest in classical Arabic, grammar, and original texts, or research students in Islamic and Middle Eastern studies or in professional programs.

RELS:6150 American Religious Histories 3 s.h.
Focused examination of the variety and vagaries of religious experiences in the Americas, 16th to 21st centuries. Same as HIST:6250.

RELS:6200 Seminar: Religious Ethics 3 s.h.

RELS:6343 Feminist Criticism 3 s.h.
Explore the rich terrain of feminist criticism within contemporary rhetorical and cultural studies; survey key interdisciplinary debates within contemporary feminist theory and criticism, trace significant trajectories within the history of feminist criticism, and consider how interdisciplinary feminist perspectives continue to shape humanities scholarship, including in communication studies and religious studies. Provides a strong foundation for exploring how feminism might meaningfully inform the art of academic inquiry and critical practice. Same as COMM:6343, GWSS:6343.

RELS:6345 New Materialisms 3 s.h.
Exploration of new strategies for rupturing persistent dichotomies of subject/object, representation/real, culture/nature, and active humans/passive things offered by theories of the vitality and agency of matter; introduction to origins of and developments in new materialisms; oriented to interdisciplinary inquiry and application to research in the humanities, broadly conceived; particular attention to actor-network theory, feminism, queer theory, infrastructuralism, and materialist theories of media. Same as COMM:6345, GWSS:6345.

RELS:6520 Seminar: South Asian Religion 3 s.h.
Topics in South Asian religions. Same as ASIA:6520.

RELS:6580 Seminar: Religion and Society 3 s.h.
Same as AFAM:6580.

RELS:6710 Seminar: Approaches to Human Rights 3 s.h.
Engagement with historical events, philosophical narratives, legal cases, institutional reports, lived experiences, and theoretical works to study origins, functions, and history of the discourse on human rights; application of a systems thinking framework to events involving treatment of women, Indigenous peoples, disabled persons, racial and ethnic groups, and other disempowered social groups across cultures and throughout history; examination of writings that attempted to explain key historical events and ideas relevant to human rights. Same as LAW:8575.

RELS:6723 Seminar on Islamic Law and Government 3 s.h.
Islamic legal and political legacy from formative period until modern time; critical analysis of logic and context of development; development of jurisprudential, legal, and political literature; overview of theories and practices of governance in Islam beginning with Caliphate system and ending with modern nation-state models. Same as LAW:9723.

RELS:7100 Readings in American Religions arr.

RELS:7200 Readings in Religious Ethics arr.

RELS:7400 Readings in Theology and Religious Thought arr.

RELS:7450 Readings in History of Christianity arr.

RELS:7500 Readings in Asian Religions arr.

RELS:7600 Readings in Islamic and Middle Eastern Studies 1-3 s.h.
Advanced works and/or texts in primary languages (Arabic, Persian, etc.) in the broad field of Islamic and Middle Eastern studies. Requirements: proficiency in Modern Standard Arabic.

RELS:7650 Readings in Ancient Near Eastern Religions arr.
Ancient Near Eastern religious texts; focus on their place in ancient Near Eastern history and religious thought.

RELS:7900 Individual Study: Graduates arr.

RELS:7950 Thesis arr.

Religious Studies, BA

A religious studies major enables students to gain competence in global religious diversity and develop the skills necessary for living and working effectively in an increasingly complex and interconnected world.

A degree in religious studies is often added as a second major to enhance students' education and training by stimulating their curiosity, expanding their imaginations, deepening their thinking, and helping them to better understand themselves and other people.

The department also provides its majors and minors with support for undergraduate research, for example in the form of scholarships, awards for the UI Undergraduate Research Festival, research assistant positions, and other support.

Learning Outcomes

Courses in religious studies help students to gain competence in global religious diversity by:

- understanding influential religious ideas and traditions;
- learning critical approaches to interpreting historical events and explaining the role of religion in societies;
- gaining analytical reading and writing skills and cross-cultural communication strategies;
- developing practical strengths to function well in diverse societies and a globalized world; and
- employing technologies to interpret ancient texts, images, and artifacts, and studying the output of new tools including radio, TV, and digital media.

Requirements

The Bachelor of Arts in religious studies requires 30 s.h. of coursework, including 15 s.h. that are distributed across at least three of the department's five core areas: social justice, equity, inclusion, and religion; religion in history; religion in global context; religion, values, and culture; and special topics and events. The remaining s.h. may be taken from any core area or religious studies course (prefix RELS). Of the 30 s.h., at least two courses (6 s.h.) must be numbered 3000 or above.

A minimum of 15 s.h. for the major must be earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the major. Courses for the major may not be taken pass/nonpass.

Students must complete the college's graduation requirements, which include at least 120 s.h. of coursework and the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. A number of the courses for the major count toward the GE CLAS Core. Students can identify courses approved for the GE CLAS Core by viewing the course descriptions. Students may count up to 56 s.h. of coursework from the Department of Religious Studies (prefix RELS) toward credit required for the Bachelor of Arts degree.

The BA with a major in religious studies requires the following coursework.

Requirements	Hours
Core Area Courses	15
Additional Coursework	15

Core Area Courses

Students select 15 s.h. (typically five courses) that are distributed across at least three of the department's five core areas.

Social Justice, Equity, Inclusion, and Religion

Course #	Title	Hours
RELS:1015	Global Religious Conflict and Diversity	3
RELS:1041	African American Religion and Popular Culture	3
RELS:1350	Introduction to African American Religions	3
RELS:1810	Happiness in a Difficult World	3
RELS:2000	Engaging Religious Diversity for Leadership and Entrepreneurship	3
RELS:2250	Jews, Judaism, and Social Justice	3
RELS:2330	Wealth, Inequality, and Islam	3
RELS:3745	Twentieth- and Twenty-first Century African American Religion	3

Religion in History

Course #	Title	Hours
RELS:1001	Judaism, Christianity, and Islam	3
RELS:1225	Medieval Religion and Culture	3
RELS:1250	Modern Religion and Culture	3
RELS:2152	The Gnostic Religion: Knowledge, Institution, and Salvation	3
RELS:2775	The Bible and the Holocaust	3
RELS:2930	Digital Media and Religion	3
RELS:3190	Medieval to Modern: The Birth of Protestantism	3

Religion in Global Context

Course #	Title	Hours
RELS:1130	Introduction to Islamic Civilization	3
RELS:1404	Introduction to Asian Religions	3
RELS:1506	Introduction to Buddhism	3
RELS:1670	Korea in the World	3
RELS:2515	Introduction to Chinese Religious Thought: How Best to Live	3
RELS:2852	Women in Islam and the Middle East	3
RELS:3655	Zen Buddhism	3
RELS:3850	Perspectives on Migration	3

Religion, Values, and Culture

Course #	Title	Hours
RELS:1070	Introduction to the Hebrew Bible/Old Testament	3
RELS:1080	Introduction to the New Testament	3
RELS:1702	Religion in America Today	3
RELS:1903	Quest for Human Destiny	3
RELS:2240	Introduction to Jewish Studies	3
RELS:2260	Hard Cases in Healthcare at the Beginning of Life	3
RELS:2265	Hard Cases in Healthcare at the End of Life	3
RELS:2272	Gods and Superheroes: Mythologies for a Modern World	3
RELS:2877	Sport and Religion in America	3

Special Topics and Current Events

Course #	Title	Hours
RELS:1050	Big Ideas: Introduction to Information, Society, and Culture	3
RELS:2122	The Place of Animals in the Hebrew Bible	3
RELS:2674	Food, Body, and Belief: A Global Perspective	3
RELS:2980	Religion and Contemporary Popular Culture	3
RELS:3055	Death, Dying, and Beyond in Asian Religions	3
RELS:3267	Dissent and Rebellion in Islamic Societies: Was There an Arab Spring?	3
RELS:3325	Bioethics and Religious Diversity	3
RELS:4893	Classical Arabic: Vocabulary, Syntax, and Grammar	1-3
RELS:4930	Internship in Research on Rights and Remedial Justice	1-3
RELS:4960	Individual Study: Undergraduates	arr.

Additional Coursework

Students select another 15 s.h. from any core area list or any other religious studies course.

Honors

Honors in the Major

To graduate with honors in the religious studies major, students must have a UI cumulative grade-point average (GPA) of at least 3.33, a minimum requirement set by the College of Liberal Arts and Sciences. Students must also maintain a UI religious studies GPA of at least 3.50. Beyond the 30 s.h. required for the major, students must take the 3 s.h. course RELS:4975 Honors Essay under the supervision of a faculty advisor and complete an approved honors thesis. Students often choose to take RELS:4960 Individual Study: Undergraduates or RELS:4970 Honors Tutorial in preparation for taking RELS:4975 Honors Essay, but this is not a requirement. Copies of the thesis are submitted to the Department of Religious Studies and may be published through Iowa Research Online.

University of Iowa Honors Program

Students also have the opportunity to pursue advanced studies and activities through the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Students do not have to be members of the University of Iowa Honors Program to write an Honors Thesis or graduate with honors in the religious studies major.

Career Advancement

Because religion and religious traditions impact every aspect of culture and society, a major in religious studies can prepare students for many different career paths while at the same time enhancing the quality of their everyday lives and interactions with others. Most employers look for employees who have some experience with different cultures, are comfortable interacting with people from various religious backgrounds, have curious, open, and creative minds, and collaborate well with others, all of which are fostered through the academic study of the world's religions. Religious studies majors also develop strong speaking and writing skills that prepare them for advancement into leadership positions.

Graduates have gone on to careers in media and communication, social work, nursing, public health, government, and nonprofit organizations. They have also pursued advanced degrees in the humanities, social sciences, law, and medical professions.

Students should contact the Department of Religious Studies to learn how the BA with a major in religious studies can benefit them.

The Pomerantz Career Center also offers many resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: one or two courses in the major.

Before the seventh semester begins: three to six courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: five to seven courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and

should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Total Hours	**122-128**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students select courses from at least three out of the five core areas in Religious Studies for a total of 15 s.h. toward the major. The core areas include: social justice, equity, inclusion, and religion; religion in history; religion in global context; religion, values, and culture; and special topics and current events. See General Catalog for list of approved courses in each area.

c Fulfills a major requirement and may fulfill a GE requirement.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

g See General Catalog for list of approved courses.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Religious Studies, Minor

Requirements

The undergraduate minor in religious studies requires a minimum of 15 s.h. in religious studies courses, including 12 s.h. in courses taken at the University of Iowa. Students may count up to 3 s.h. of transfer credit toward the minor with the approval of the director of undergraduate studies. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass. The minor may be earned through coursework that is offered online.

A number of courses for the minor count toward the GE CLAS Core [p. 22]. Students can identify courses approved for the GE CLAS Core by viewing the course descriptions.

The minor in religious studies requires the following coursework.

Requirements	Hours
Core Area Courses	9
Additional Coursework	6

Core Area Courses

Students select courses from at least three out of the five core areas for a total of 9 s.h. (typically three courses).

Social Justice, Equity, Inclusion, and Religion

Course #	Title	Hours
RELS:1015	Global Religious Conflict and Diversity	3
RELS:1041	African American Religion and Popular Culture	3
RELS:1350	Introduction to African American Religions	3
RELS:1810	Happiness in a Difficult World	3
RELS:2000	Engaging Religious Diversity for Leadership and Entrepreneurship	3
RELS:2330	Wealth, Inequality, and Islam	3
RELS:3745	Twentieth- and Twenty-first Century African American Religion	3

Religion in History

RELS:3325	Bioethics and Religious Diversity	3
RELS:4893	Classical Arabic: Vocabulary, Syntax, and Grammar	1-3
RELS:4930	Internship in Research on Rights and Remedial Justice	1-3
RELS:4960	Individual Study: Undergraduates	arr.

Additional Coursework

Students select an additional 6 s.h. from any core area list or any other religious studies course to reach the required minimum of 15 s.h.

Religious Studies, MA

The Master of Arts program in the Department of Religious Studies is designed for students who wish to advance their understanding of a particular area of religious studies or explore multiple traditions and topics beyond the undergraduate level. Many MA graduates from the department go on to pursue a PhD, while others bring their advanced education and competency in global religious diversity to such careers as health care, law, diplomacy, ministry, social advocacy, journalism, counseling, and informatics. MA students participate fully in the life of the department and study alongside PhD students.

MA students train to analyze the ways in which diverse religious traditions originate, develop, and interact over time, and learn to identify and use multiple methods for the study of religion, including historical, philosophical, ethical, literary, linguistic, psychological, ethnographic, and digital approaches. Students typically draw on the expertise of several different members of the religious studies faculty and are also encouraged to work with faculty members in other UI departments who specialize in their areas of interest. Some MA students work, for example, with scholars in the departments of Anthropology; Asian and Slavic Languages and Literatures; Classics; Communication Studies; English; Gender, Women's, and Sexuality Studies; and History.

The program offers a collegial intellectual community, including a departmental colloquium series, a collaborative reading group in critical theory, and an ethos of mutual support among the graduate students.

Graduate study in the Department of Religious Studies is highly flexible and personalized, and is shaped to individual students' interests concordant with existing faculty expertise.

Areas of Current Faculty Expertise

Religions of Southwest Asia, North Africa, and the Mediterranean

Religion, law, and politics in the Islamic world; the history of interpretation of the texts and traditions of Judaism, Christianity, and Islam; Greco-Roman and Egyptian religion and culture; digital humanities.

Religions of East Asia

Religious traditions of China and the political, social, and economic factors that have shaped them; modern religion and culture in Korea, most notably Christianity; religion and gender in transnational perspective; religion and empire.

Religions of the United States and the Atlantic World

History and ethnography of religion in the United States; African American religious traditions (Christianity, Islam, and African diaspora religions); West African religions; religion, media, and the negotiation of technological change; Latina/o/x Christianity.

Religion, Ethics, and Society

Religion and morality; religion, emotion, and affect; human rights; religion's relationship to gender, race, and ethnicity; ethics of medicine and biotechnology; religion and health.

Themes

Graduate study is also developed by theme. Popular themes include religions' relationships to public life, gender, race, media and technology, and human health and well-being.

Learning Outcomes

- Teaching success: students gain expertise in how to teach religious studies in a liberal arts setting, and if they serve as teaching assistants (TAs) during their graduate program, they show effectiveness in reaching a diverse audience of students.
- Critical knowledge of the field: students become familiar with foundational texts in their field, as well as influential scholarship that critically engages these texts and seeks to move the field in new directions; students identify ways in which they can contribute to the corpus of texts that compose their field.
- Academic skills: students develop skills to read carefully and think critically, and they write in clear and compelling ways about topics related to the study of religion; students have hands-on opportunities to develop key skills in public engagement.
- Religion and social equity: students gain a critical understanding of the historical entanglement of global religions with racism and misogyny; they can articulate religions' relationships to unjust power structures, as well as religions' contributions to greater social justice.
- Professional engagement: students demonstrate successful participation in the life of the department, their subfield, and the broader field of religious studies; they communicate about their learning with students from other fields.

For more detailed information on graduate programs in religious studies, contact the Department of Religious Studies or visit Graduate Program on the department's website.

Requirements

The Master of Arts program in the Department of Religious Studies requires a minimum of 30 s.h. of graduate credit. Students must complete 24 s.h. of the credit required for the degree at the University of Iowa and must maintain a cumulative grade-point average of at least 3.20. The MA is offered with or without thesis.

All MA students are required to demonstrate competency in English and at least one other language that is relevant to their advanced research; more specific language requirements are set in consultation with an advisory committee. Students are supervised by a three-person committee consisting of an advisor and two additional faculty members.

All MA students must complete the following four courses.

Course #	Title	Hours
RELS:5400	Colonial Knowledge Production and Its Discontents: Religion and the Academy	3
Three graduate seminars (9 s.h.) from these:		
RELS:5200	Asian Religions in the Modern World for Graduate Students	3
RELS:5300	Genealogies of Religion	3

RELS:6070	Nonprofit Organizational Effectiveness I	3
RELS:6075	Nonprofit Organizational Effectiveness II	3
RELS:6150	American Religious Histories	3
RELS:6200	Seminar: Religious Ethics	3
RELS:6343	Feminist Criticism	3
RELS:6345	New Materialisms	3
RELS:6580	Seminar: Religion and Society	3
RELS:6710	Seminar: Approaches to Human Rights	3
RELS:6723	Seminar on Islamic Law and Government	3

Students select remaining coursework depending on their area of interest and in consultation with their advisory committee.

In their MA thesis work, students demonstrate and refine their research and writing skills. They may count a maximum of 6 s.h. of thesis credit toward the degree. Students must defend their thesis to their committee. Those who choose not to write a thesis must pass an examination that tests their competence in completed coursework. MA study in the department is expected to be completed in two years.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Application materials must include an application form; a transcript of all undergraduate and graduate work (one copy must be sent to university Admissions, and a second copy to the Department of Religious Studies); an application or waiver of consideration form for graduate assistantships; three confidential letters of recommendation; and a writing sample that demonstrates the applicant's ability to engage in critical analysis. Applicants must also submit a statement of purpose that explains their objectives for graduate study and states which area of graduate study in religion best suits their objectives. Students may indicate one of the department's traditional areas of concentration or an area that is defined more by theme [p. 980]. Students are advised to view the Department of Religious Studies website, most notably the faculty pages, to ascertain whether their area of interest is well-supported by faculty expertise.

Moreover, students are encouraged to contact relevant faculty members prior to applying for graduate study in order to explore areas of mutual interest. It is helpful to include information about such contacts in their statement of purpose. The strongest applications show how students would benefit from working with multiple members of the faculty. For details, see Graduate Admissions Process and Graduate Funding on the department's website.

All application materials must be received by Jan. 15 to receive full consideration for fall admission.

Career Advancement

Graduate students in religious studies acquire a wide range of competencies that are useful for almost any career they pursue. Students gain research skills; they master the craft of writing; they learn to plan, manage, and complete large projects; they gain teaching skills that are useful both inside and outside the academy; they learn to argue a point persuasively; they gain the ability to communicate with others about controversial issues; they learn how to understand and mediate differences in religious perspectives and values; they acquire highly valued language skills; and they gain expertise in the use of digital technologies for research and teaching.

Students who earn an MA often gain admission to excellent PhD programs in religious studies and other areas of study, such as journalism and mass communication. Others have gone on to divinity school, law school, and into careers within media and communication, health care, libraries, museums, church leadership, government, and public service.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete RELS:5400 and three graduate seminars (9 s.h.). Courses may be offered at different times, so students should work with faculty advisor and the department to determine appropriate coursework and sequence.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Traditional areas of concentration may include religions in the Middle East, Ancient Near East, or Mediterranean, religions in Asia, religions of Europe and the Americas, or topics related to religion, ethics, and society. Popular themes include religions' relationships to public life, gender, race, media and technology, and human health and well-being. Students work with a faculty advisor to determine an area of concentration that best suits their interests.

d See General Catalog for list of approved courses.

e Work with faculty advisor to determine appropriate graduate level elective coursework and sequence.

f Final summative exam.

Religious Studies, PhD

The doctoral program in the Department of Religious Studies trains participants to become advanced practitioners of the study of religion as researchers, scholars, teachers, and facilitators of informed public discourse. Some graduates become professors at colleges or universities while others bring a nuanced, critical understanding of religion and its influences to such careers as health care, law, diplomacy, ministry, social advocacy, journalism, counseling, and informatics.

PhD students train to analyze the ways in which diverse religious traditions originate, develop, and interact over time, and learn to identify and use multiple methods for the study of religion, including historical, philosophical, ethical, literary, linguistic, psychological, ethnographic, and digital approaches. Students typically draw on the expertise of several different members of the religious studies faculty and are also encouraged to work with faculty members in other UI departments who specialize in their areas of interest. Many PhD students work, for example, with scholars in the departments of Anthropology; Asian and Slavic Languages; Classics; Communication Studies; English; Gender, Women's, and Sexuality Studies; and History.

The program offers a collegial intellectual community, including a departmental colloquium series, a collaborative reading group in critical theory, and an ethos of mutual support among graduate students.

Graduate study in the Department of Religious Studies is highly flexible and personalized, and is shaped to individual students' interests concordant with existing faculty expertise.

Areas of Current Faculty Expertise

Religions of Southwest Asia, North Africa, and the Mediterranean

Religion, law, and politics in the Islamic world; the history of interpretation of the texts and traditions of Judaism, Christianity, and Islam; Greco-Roman and Egyptian religion and culture; digital humanities.

Religions of East Asia

Religious traditions of China and the political, social, and economic factors that have shaped them; modern religion and culture in Korea, most notably Christianity; religion and gender in transnational perspective; religion and empire.

Religions of the United States and the Atlantic World

History and ethnography of religion in the United States; African American religious traditions (Christianity, Islam, and African diaspora religions); West African religions; religion, media, and the negotiation of technological change; Latina/o/x Christianity.

Religion, Ethics, and Society

Religion and morality; religion, emotion, and affect; human rights; religion's relationship to gender, race, and ethnicity; ethics of medicine and biotechnology; religion and health.

Themes

Graduate study is also developed by theme. Popular themes include religions' relationships to public life, gender, race, media, technology, and human health and well-being.

Learning Outcomes

- Teaching success: students gain expertise in how to teach religious studies in a liberal arts setting, and if they serve as teaching assistants (TAs) during their graduate program, they show effectiveness in reaching a diverse audience of students.
- Critical knowledge of the field: students become familiar with foundational texts in their field, as well as influential scholarship that critically engages these texts and seeks to move the field in new directions; students identify ways in which they can contribute to the corpus of texts that compose their field.
- Academic skills: students develop skills to read carefully and think critically, and they write in clear and compelling ways about topics related to the study of religion; students have hands-on opportunities to develop key skills in public engagement.
- Religion and social equity: students gain a critical understanding of the historical entanglement of global religions with racism and misogyny; they can articulate religions' relationships to unjust power structures, as well as religions' contributions to greater social justice.
- Professional engagement: students demonstrate successful participation in the life of the department, their subfield, and the broader field of religious studies; they communicate about their learning with students from other fields.

For more detailed information on graduate programs in religious studies, contact the Department of Religious Studies or visit Graduate Programs on the department's website.

Requirements

The doctoral program in the Department of Religious Studies requires a minimum of 72 s.h. of graduate credit. A maximum of 24 s.h. of relevant graduate work may be transferred from another accredited graduate school or professional program, as approved by the director of graduate studies. A maximum of 12 s.h. of thesis writing credit may count toward the 72 s.h. requirement. Students must maintain a cumulative grade-point average of at least 3.40.

All PhD students are required to demonstrate competency in English and at least one other language that is relevant to their advanced research; more specific language requirements are set in consultation with an advisory committee.

Students are supervised initially by a three-person committee consisting of an advisor and two additional faculty members; often these members serve also on the student's five-person comprehensive exam and dissertation committees.

All PhD students must complete the following six courses.

Course #	Title	Hours
RELS:5400	Colonial Knowledge Production and Its Discontents: Religion and the Academy	3

CLAS:5100	Practicum: College Teaching and Professional Development for Teaching Assistants	arr.
GRAD:6217	Seminar in College Teaching	3
Three of these (9 s.h.) taken in the first two years:		
RELS:5200	Asian Religions in the Modern World for Graduate Students	3
RELS:5300	Genealogies of Religion	3
RELS:6070	Nonprofit Organizational Effectiveness I	3
RELS:6075	Nonprofit Organizational Effectiveness II	3
RELS:6150	American Religious Histories	3
RELS:6200	Seminar: Religious Ethics	3
RELS:6345	New Materialisms	3
RELS:6580	Seminar: Religion and Society	3
RELS:6710	Seminar: Approaches to Human Rights	3
RELS:6723	Seminar on Islamic Law and Government	3

Students select remaining coursework depending on their interests and in consultation with their advisory committee. PhD students must submit and have their departmental program of study approved in the fourth semester of their study to be permitted to proceed in the PhD program. Those who are approved are expected to write and orally defend comprehensive exams (by the eighth semester), a dissertation prospectus (by the ninth semester), and a doctoral dissertation (by the twelfth semester).

Students working toward a PhD may receive an MA upon completing at least 30 s.h. of coursework and passing their comprehensive examination.

It is the expectation that PhD students complete their studies in six years; five for those who are accepted into the program with an MA and transfer credit.

For more detailed information on graduate programs in religious studies, contact the Department of Religious Studies or visit Graduate Programs on the department's website.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Application materials must include an application form; a transcript of all undergraduate and graduate work (one copy must be sent to university Admissions, and a second copy must be sent to the Department of Religious Studies); an application or waiver of consideration form for graduate assistantships; three confidential letters of recommendation; and a writing sample that demonstrates the applicant's ability to engage in critical analysis. Applicants must also submit a statement of purpose that explains their objectives for graduate study and states which area of graduate study in religion best suits their objectives. Students may indicate one of the department’s traditional areas of concentration or an area that is defined more by theme [p. 983].

Students are advised to view the Department of Religious Studies website, most notably the faculty pages, to ascertain whether their area of interest is well-supported by faculty expertise. Moreover, students are encouraged to contact relevant faculty members prior to applying for graduate study in order to explore areas of mutual interest. It is helpful to include information about such contacts in their statement of purpose. The strongest applications show how students would benefit from working with multiple members of the faculty. For details, see Graduate Admission Process and Graduate Funding on the department's website.

All application materials must be received by Jan. 15 to receive full consideration for fall admission.

Career Advancement

Graduate students in religious studies acquire a wide range of competencies that are useful for almost any career they pursue. Students gain research skills; they master the craft of writing; they learn to plan, manage, and complete large projects; they gain teaching skills that are useful both inside and outside the academy; they learn to argue persuasively; they gain the ability to communicate with others about controversial issues; they learn how to understand and mediate differences in religious perspectives and values; they acquire rare language skills; and they gain expertise in the use of digital technologies for research and teaching.

Students who earn a PhD in religious studies often go on to become scholars and teachers in university or college settings. Other degree recipients have become professional ethicists, leaders of nongovernmental organizations, school or church administrators, nonacademic educators, digital media specialists, and government employees in the area of international affairs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete RELS:5400, CLAS:5100, GRAD:6217, three graduate seminars, and a dissertation. Courses may be offered at different times, so students should work with faculty advisor and the department to determine appropriate coursework and sequence.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Traditional areas of concentration may include religions in the Middle East, Ancient Near East, or Mediterranean, religions in Asia, religions of Europe and the Americas, or topics related to religion, ethics, and society. Popular themes include religions' relationships to public life, gender, race, media and technology, and human health and well-being. Students work with a faculty advisor to determine an area of concentration that best suits their interests.

d Students must complete three graduate seminars (9 s.h.) during the first two years in the program; consult with faculty advisor regarding the appropriate coursework and sequence. See General Catalog for list of approved courses.

e Work with faculty advisor to determine appropriate graduate level elective coursework and sequence.

f During the fourth semester, in consultation with faculty advisor and core committee, submit a comprehensive plan that includes work already completed and work yet to be completed, along with a paper written in the first three semesters at the University of Iowa.

g Typically completed during fourth year spring semester.

h During the semester after the comprehensive exam, students must submit a draft of their dissertation prospectus to their dissertation committee, followed by a two-hour oral defense. A prospectus must be approved by a majority vote before students are permitted to proceed with writing the dissertation.

i Maximum of 12 s.h. of dissertation credit may be counted towards the degree.

j Dissertation defense.

Resilience and Trauma-Informed Perspectives

Director, School of Social Work

- Miriam J. Landsman

Certificate Coordinator

- Harmony Linden

Undergraduate certificate: resilience and trauma-informed perspectives

Website: https://socialwork.uiowa.edu/

Many students are majoring in areas where they will encounter individuals who have experienced trauma. Untreated adverse childhood experiences (ACEs) are connected to mental illness, substance abuse, and suicide. ACEs include physical and emotional neglect; physical, sexual, and emotional abuse; parental separation or divorce; mental illness; domestic violence; substance abuse; and incarceration of a parent.

Expanded ACE surveys include poverty, discrimination, homelessness, and community violence. The presence of four or more ACEs is associated with increased risk of poor behavioral, social, mental, and medical health. According to the Centers for Disease Control (2020), about 61% of adults in 25 states reported they had experienced at least one type of ACE, and nearly 1 in 6 adults reported they had experienced four or more types of ACEs. Women and several racial/ethnic minority groups are at greater risk for experiencing more ACEs. The economic and social costs to families, communities, and society totals hundreds of billions of dollars each year. Preventing ACEs could reduce a large number of health conditions. Acknowledging the importance of identifying and treating ACEs, certificate students could positively impact these numbers, and will be better prepared to provide interventions to others.

The primary audience for the certificate program includes undergraduate students planning to go into helping professions such as social work, education, psychology, nursing, and public health. Students from health sciences programs, including the Carver College of Medicine, the physician assistant studies and services program, and the College of Law, could benefit as well. All undergraduate students are eligible to participate.

The colleges of Liberal Arts and Sciences, Education, Nursing, and Law, and the Carver College of Medicine graduate teachers, social workers, nurses, physicians, police officers, attorneys, judges, prosecutors, nonprofit organization workers and administrators, and public health workers who are employed across the nation. These professionals encounter the most traumatized individuals in society. Preparing undergraduate students in their professional fields with a good understanding of trauma, trauma-sensitive responses, and trauma-informed prevention and care provides skills that supplement their chosen professions.

The interdisciplinary Certificate in Resilience and Trauma-Informed Perspectives is sponsored by the School of Social Work and the College of Education, with support from the colleges of Nursing and Public Health. The certificate is administered by the School of Social Work [p. 998].

Programs

Undergraduate Program of Study

Certificate

- Certificate in Resilience and Trauma-Informed Perspectives [p. 987]

Resilience and Trauma-Informed Perspectives, Certificate

Learning Outcomes

Students who complete the certificate program will be able to:

- describe adverse childhood experiences (ACEs) and the influence they have on physical, mental, emotional, and spiritual outcomes in childhood and adulthood;
- identify their own trauma, if any, and learn how to process it to become healthier and more resilient in their own lives;
- describe resiliency, its dynamics, and ways to strengthen resiliency;
- analyze strategies to decrease or eliminate trauma in society including learning how to create trauma-informed organizations; and
- describe the impact of ACEs on communities and formulate strategies to prevent ACEs in communities and their field of practice.

Requirements

The undergraduate Certificate in Resilience and Trauma-Informed Perspectives requires 18 s.h. of coursework. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

The Certificate in Resilience and Trauma-Informed Perspectives requires two core courses, both offered online. MyUI indicates if elective courses are offered in the classroom or online.

Required Courses

Course #	Title	Hours
Both of these:		
SSW:2700/ PSQF:2700	Introduction to Understanding Trauma and Resilience	3
CSED:4173	Trauma Across the Lifespan	3

Electives

Course #	Title	Hours
At least 12 s.h. from these:		
SSW:1200	Mental Health Across the Lifespan	3
SSW:3786/ ASP:3786	Death/Dying: Issues Across the Life Span	3-4
SSW:3796	Family Violence	3
SSW:3797	Child Welfare Policy and Practice	3
SSW:3900	Campus Sexual Assault: Policy, Prevention, and Intervention	3
ANTH:2164/ GHS:2164	Culture and Healing: An Introduction to Medical Anthropology	3
ASP:3150	Psychology of Aging	3
CCCC:2220	Foundations of Critical Cultural Competence	3
COMM:2015	Communication and Resilience	3
CRIM:3414	Criminology of Genocide	3
CRIM:3425	Women, Crime, and Justice	3
CRIM:4300	Gender and Violence	3
CSED:4113	Sleep, Sleep Deprivation, and Sleep Disorders	3
CSED:4131	Loss, Death, and Bereavement	3
CSED:4174	Positive Psychology	3
CSED:4176	Child Abuse: Assessment, Intervention, and Advocacy	3
GHS:3660	Social Environmental Health Risks and Community Engagement	3
OEH:4510/ CPH:4230/ EPID:4510	Injury and Violence Prevention	3
PSY:2701	Introduction to Behavioral Neuroscience	4
PSY:3075	The Damaged Brain	3
PSY:3330	Childhood Psychopathology	3
RHET:2350	Forensic Rhetoric (when topic is memory, storytelling, and archives)	3
SJUS:3400/ GWSS:3400	Advocacy and Engagement Colloquium	1-3
TR:2077	Children and Families in Healthcare	3
Independent study in the Rape Victim Advocacy Training Program (consult certificate coordinator)		
Additional related courses (consult certificate coordinator for approval)		
May include one of these:		
SSW:3729	Substance Use and Abuse	3
SSW:4155	Treatment of Substance Use and Co-Occurring Disorders	3
CSED:4132	Introduction to Addictions and Impulse Control Disorders	3
CSED:4185	Introduction to Substance Abuse	3

Rhetoric

Interim Chair

- Sarah Lucinda "Cinda" Coggins Mosher

Undergraduate minor: rhetoric and persuasion

Faculty: https://rhetoric.uiowa.edu/people/faculty

Website: https://rhetoric.uiowa.edu/

The Department of Rhetoric offers undergraduate courses that fulfill the Rhetoric requirement of the different colleges at the university, as well as courses that apply toward the areas of Understanding Cultural Perspectives and Values and Society; see GE CLAS Core [p. 22] in the catalog. It also provides individual instruction in its Writing Center and offers other undergraduate courses, graduate seminars, and an undergraduate minor.

Rhetoric for the GE CLAS Core

All rhetoric courses focus on the development of foundational skills in college-level communication: writing, speaking, listening, and critical reading. Rhetoric courses teach foundational compositional and presentational skills, such as thesis statements, introductions and conclusions, claim-evidence format, and proper citation formatting. Courses also build competence in analysis and persuasion, as well as in research and inquiry. Rhetoric is not a content course; it is skills-based and teaches students *how* to think, not *what* to think.

Once students have researched the breadth and depth of controversy-based issues that interest them, they are well-positioned to contribute to those discussions deliberately, persuasively, and with multiple interests in mind. While all rhetoric sections adhere to specific department requirements, focus primarily on responsible inquiry and analysis, and require comparable workloads in terms of formal and informal assignments, each instructor assigns a unique set of texts and contexts to teach rhetorical concepts.

Rhetoric aligns with the overall GE CLAS Core's mission to provide opportunities for individualized instruction and small class experiences by offering an intimate studio dynamic that is student- and process-centered. During their first year at the university, most students enroll in the rhetoric course indicated on their degree audit unless their English proficiency evaluation requires them to complete one or more prerequisite courses in English as a Second Language (ESL). Students planning to transfer to the University of Iowa should discuss rhetoric course equivalencies as soon as possible with University of Iowa Admissions.

Students who undergo formal evaluation by Student Disability Services and are found to have a learning disability in reading, writing, listening, or speaking should request reasonable accommodations in order to complete rhetoric. Accommodations may be arranged by Student Disability Services in consultation with the Department of Rhetoric and individual instructors.

Programs

Undergraduate Program of Study

Minor

- Minor in Rhetoric and Persuasion [p. 991]

Courses

Rhetoric Courses

RHET:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

RHET:1010 Writing for Academic Success 1 s.h.
Individualized instruction in the Writing Center; in conjunction with GE CLAS Core Rhetoric courses.

RHET:1030 Rhetoric: Writing and Communication 4-5 s.h.
Analysis and critique to discover, question, explain, and justify positions and claims made in writing and speaking; reading and listening to comprehend and assess arguments; employment of rhetorical concepts (e.g., purpose, audience); understanding research as responsible inquiry for speaking and writing; special topics, activities. Requirements: completion of any required ESL courses. GE: Rhetoric.

RHET:1040 College Writing and Reading 3 s.h.
Introductory course in writing required of students who have completed a college-level public speaking course, but have not otherwise satisfied the rhetoric requirement. Requirements: completion of GE CLAS Core speaking requirement and any required ESL courses. GE: Rhetoric - Writing.

RHET:1060 College Communication and Reading 3 s.h.
Introductory course in speaking required of students who have completed 6 s.h. of college writing instruction, but have not completed a 3 s.h. college-level speaking course; intended to improve speaking, listening, critical, analytical, and advocacy skills. Requirements: completion of GE CLAS Core writing requirement and any required ESL courses. GE: Rhetoric - Speech.

RHET:2000 Big Ideas: Creativity for a Lifetime 3 s.h.
Exploration of what senior artists can teach about creativity and aging; interdisciplinary project-based collaborative learning opportunities that consider role of arts and creativity across a lifespan; essential skills necessary to be professionals in numerous careers including health, social work, education, humanities, and the arts; identification of ways for students to be more creative in their own lives and work. GE: Values and Society. Same as ARTS:2000, ASP:2000, EDTL:2000.

RHET:2055 Persuasion and Advocacy 3 s.h.
Maya Angelou said, "The wisest thing I can do is be on my own side, be an advocate for myself and others like me"; how to craft a powerful voice that aligns intellect with passions, shape audience impressions, and gain acceptance and recognition from others when advocating for yourself and for things you believe in; assignments tailored to student's interests and goals.

RHET:2065 Persuading Different Audiences: Launching a Successful Career 3 s.h.
Preparation for student's future persuasive demands as they start their careers; creation of several short projects addressing a variety of audiences, context, and situations with the goal of developing a professional and personable style; assignments reflect challenging circumstances in the workplace.

RHET:2070 Persuasive Stories 3 s.h.
Examination of the persuasive dimension of stories; students master the skill of storytelling by examining stories circulating within their culture and exploring the effects these stories have on thinking about their identities and discovering their own voices; integration of speaking and writing skills with persuasive storytelling skills through short oral and written assignments that lead to a final multimodal project of two interrelated storytelling assignments—production of a website and a podcast. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. GE: Values and Society.

RHET:2085 Speaking Skills 3 s.h.
How to become confident and effective speakers; assignments include formal presentations and shorter, informal speaking activities; peer and instructor feedback help improve the impression students create as speakers; strengths developed include earning credibility, capturing and maintaining audience interest, and coming across as personable, professional, and confident. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

RHET:2090 Conversation Practicum 0-3 s.h.
Intercultural conversation with international students in small groups or pairs; readings, classroom discussions, and in-class training to develop cultural competence and related skills.

RHET:2095 Fundamental Strategies of Persuasion 3 s.h.
Strategies of approaching persuasion in a variety of personal, professional, and communal contexts; fundamentals of persuasion including audience adaptation, creating reasoned and passionate appeals, conveying character, and enabling identification. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Requirements: completion of GE CLAS Core Rhetoric.

RHET:2135 Decoding Disability: Rhetoric of Access and Accommodations 3 s.h.
Explores how language shapes perceptions of disability, access, and accommodations—acting both as a barrier to and a means of challenging societal norms. Students examine the role of rhetoric in defining ability and how communication practices impact accessibility. Through written, spoken, signed, and digital expression, they analyze how cultural frameworks value or marginalize different bodies and minds. Emphasizing practical strategies, the course equips students to foster accessibility and opportunity in academic, professional, and public spaces. GE: Understanding Cultural Perspectives. Same as SJUS:2135.

RHET:2350 Forensic Rhetoric 3 s.h.
Students strengthen argumentation, communication, and research skills while discussing the cultural phenomenon of forensic rhetoric (i.e., using the past to make arguments); rhetorical analysis of autobiographical stories, development of podcasts related to readings, and a multimodal project involving archival research.

RHET:2610 Acting for Success 3 s.h.
How skills learned by actors in the theatre world can be applied to presentations and interactions in business, education, and beyond; how to connect with others on a personal level; ability to stand out as a team player and a leader; acting techniques traditionally used in theatre to open up communication dynamics; how to display an authentic self in everyday situations. Corequisites: RHET:1030 or RHET:1040 or RHET:1060. GE: Engineering Be Creative. Same as THTR:2610.

RHET:3220 Honors Writing Fellows: Writing Theory and Practice 3 s.h.
Preparation of honors students selected as writing fellows to serve as peer tutors in writing-intensive courses; theories of writing, evaluation of drafts, peer tutoring with students.

RHET:3350 Gaming (the) Systems 3 s.h.
Knowing that Rhetoric is the art and study of persuasion and meaning making, students examine how games—one of the newest and most important forms of modern media—participate in these rhetorical practices; students play, discuss, and read about games and how games interact with the cultural discourses surrounding us on their way toward crafting their own rhetorical contributions to the world of games and gaming media; students play small, indie titles and a few major games as they produce an argumentative article, a game review, a video blog, and finally a game itself; beginner friendly, no prior knowledge of games or design programs required. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

RHET:3560 Public Policy and Persuasion 3 s.h.
Students build their skill set in policy analysis, formation, and communication through a social justice lens; engagement in service learning projects in one Iowa community, where work done directly impacts that community's ability to make changes; development of effective writing and oral presentation styles that can be adapted to different audiences; focus on homelessness policy using social policy and social justice concepts to explore work of policy makers who have "right-sized" existing systems to serve communities in crisis and propose solutions to systemic problems that disadvantage marginalized populations. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as PBAF:3560, POLI:3560, SJUS:3560.

RHET:3700 Advocacy and Sustainability: Crafting Stories of People, Place, and Resilience 3 s.h.
How sustainable approaches to meeting critical social needs (food, water, shelter, air, work) have influenced food systems, policies on development, environmental problems, social justice, and policy both local and global in scope; readings and field research activities leading to creation of work of multimodal advocacy. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Requirements: fulfillment of GE CLAS Core Rhetoric.

RHET:4980 Special Projects for Undergraduates arr.
Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

RHET:5100 Practicum: College Teaching and Professional Development for Teaching Assistants arr.
Guidance for teaching assistants seeking introduction to teaching at college level; focus on practical pedagogical concerns, including how to structure a course, devise learning outcomes, develop a syllabus and a calendar of assignments, evaluate student work, and create a student-centered classroom with collaborate learning experiences; pre-semester intensive training session, weekly meetings during first month of semester, periodic meetings to address midterm and late-semester issues; concurrent with TA teaching assistantships. Recommendations: interest in teacher training and preparation. Same as CLAS:5100.

RHET:5350 Colloquium: Teaching Rhetoric 3 s.h.
Professional development program for new rhetoric teachers; includes three-day workshop.

RHET:5352 Seminar: Topics in Teaching and Professional Development 3 s.h.
Professional development and advanced study of pedagogical theories and practices; focus on teaching as a rhetorical act; readings on pedagogy, composition theories, and learning process; academic and alt-ac career options; teaching philosophy statement, teaching portfolio, peer classroom observations, and research project; for experienced rhetoric instructors and others teaching writing-intensive, process-oriented courses. Recommendations: previous or current teaching experience in composition-intensive courses.

RHET:5375 Teaching in a Writing Center 3 s.h.
Seminar/practicum to prepare graduate students to teach in the University of Iowa Writing Center or similar settings; seminar component on writing and reading processes, tutoring strategies, English-as-a-second-language issues; practicum experience tutoring in the Writing Center. Same as CNW:5375.

RHET:6330 Writing for Learned Journals 1-4 s.h.
Seminar that supports graduate students in bringing written work to publishable form; analysis of target journals' audiences, interests, and citation politics; submission and the publication process; response to reader reports and criticism; best writing and research practices; discussion of knowledge cultures and discourses in disciplines and the contemporary academy. Same as AMST:6300, GRAD:6300, GWSS:6300.

RHET:6980 Graduate Independent Study arr.
Exploration of advanced topics in the field of Rhetoric; pre-arranged and agreed upon by student and faculty member.

RHET:7500 Science Communication in the Digital Age 2-3 s.h.
Preparation for communicating scientific discoveries and importance of scientific endeavors in digital media; focus on adaptable and transferable skills; relevant preparation for digital communication in academic and nonacademic career paths; develop aptitude with speaking and performance skills relevant to video presentation; develop familiarity with video composition and editing processes.

RHET:7930 Writing in the Disciplines arr.
Writing instruction.

RHET:7940 Public Speaking for Academics 3 s.h.
Prepares graduate students for the public speaking occasions germane in their home disciplines and in their future professions; students gain experience moving between different rhetorical registers in public speaking through engaging in cross-disciplinary conversations about performance and speaking practices while refining discipline-specific speaking strategies; honing the ability to communicate the same information in different forms and styles (along with understanding the corresponding advantages and limitations of such) will contribute to students' teaching and scholarly skill sets.

Rhetoric and Persuasion, Minor

Requirements

The undergraduate minor in rhetoric and persuasion requires a minimum of 15 s.h., including 12 s.h. earned in courses taken at the University of Iowa and at least 12 s.h. earned in Department of Rhetoric courses. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor in rhetoric and persuasion requires the following coursework.

Course #	Title	Hours
15 s.h. from these:		
RHET:2055	Persuasion and Advocacy	3
RHET:2065	Persuading Different Audiences: Launching a Successful Career	3
RHET:2070	Persuasive Stories	3
RHET:2085	Speaking Skills	3
RHET:2095	Fundamental Strategies of Persuasion	3
RHET:2135/ SJUS:2135	Decoding Disability: Rhetoric of Access and Accommodations	3
RHET:2350	Forensic Rhetoric	3
RHET:3350	Gaming (the) Systems	3
RHET:3700	Advocacy and Sustainability: Crafting Stories of People, Place, and Resilience	3
RHET:4980	Special Projects for Undergraduates (may not be repeated)	arr.
May include one of these:		
RHET:2000/ ARTS:2000/ ASP:2000/ EDTL:2000	Big Ideas: Creativity for a Lifetime	3
RHET:2610/ THTR:2610	Acting for Success	3
RHET:3560/ PBAF:3560/ POLI:3560/ SJUS:3560	Public Policy and Persuasion	3
BUS:3000	Business Communication and Professionalism	3
CLSA:3742/ WRIT:3742	Word Power: Building English Vocabulary	3
COMM:1816	Business and Professional Communication	3
GWSS:3138/ SJUS:3138	Writing to Change the World	3
LATH:3000	Latham Fellows: Science Communication Skill Building	2
LATH:3001	Latham Fellows: Science Outreach Project	2
THTR:1140	Basic Acting	3

Focus Areas

Students who would like to choose courses in certain focus areas may select from the following, taking into account the preceding course requirements.

The Skills of Speaking, Presenting, and Communicating Effectively

Course #	Title	Hours
RHET:2065	Persuading Different Audiences: Launching a Successful Career	3
RHET:2085	Speaking Skills	3
RHET:2095	Fundamental Strategies of Persuasion	3
RHET:2610/ THTR:2610	Acting for Success	3

The Skills of Writing Professionally and Persuasively

Course #	Title	Hours
RHET:2070	Persuasive Stories	3
RHET:2350	Forensic Rhetoric	3
RHET:3350	Gaming (the) Systems	3

Advocacy: Making the World a Better Place

Course #	Title	Hours
RHET:2055	Persuasion and Advocacy	3
RHET:2070	Persuasive Stories	3
RHET:2135/ SJUS:2135	Decoding Disability: Rhetoric of Access and Accommodations	3
RHET:3560/ PBAF:3560/ POLI:3560/ SJUS:3560	Public Policy and Persuasion	3
RHET:3700	Advocacy and Sustainability: Crafting Stories of People, Place, and Resilience	3

Performance Rhetoric

Course #	Title	Hours
RHET:2065	Persuading Different Audiences: Launching a Successful Career	3
RHET:2070	Persuasive Stories	3
RHET:2610/ THTR:2610	Acting for Success	3
RHET:3350	Gaming (the) Systems	3
RHET:4980	Special Projects for Undergraduates	arr.
THTR:1140	Basic Acting	3

Social Justice and the Performing Arts

Chair, Department of Theatre Arts

- Mary Beth Easley

Co-coordinators

- Caroline S. Clay, Johanna M. Kasimow

Undergraduate certificate: social justice and the performing arts

Faculty: https://theatre.uiowa.edu/people

Website: https://theatre.uiowa.edu/certificate-social-justice-and-performing-arts

Students who earn the Certificate in Social Justice and the Performing Arts learn methods and practices to expand the parameters of their academic and arts disciplines to include diverse ways of thinking, creative problem solving, and practical applications for social justice-focused arts projects and scholarship in the United States and transnationally. The certificate is designed to foster interdisciplinarity between students from across the university, whether they are in the arts or not.

Students access and hone human-centered skills in empathy, compassion, and social responsibility, and they gain a sense of belonging, equity, and inclusion as they approach their work and partner with others. They examine who the work will impact, determining who benefits, and how they can make ethical choices as they develop or collaborate on community-based creative projects. With a combination of performing arts and social justice courses and projects, certificate students will be better prepared to take on a wider range of career opportunities in and beyond performing arts organizations after graduation.

The certificate helps students to align their discipline studies more closely with their interests and their desire to be of service to their communities, to work in community with one another, and to collaborate with the wider community of Iowa City and beyond as they become fully engaged global citizens.

The departments of Dance [p. 326], Theatre Arts [p. 1100], and Gender, Women's, and Sexuality Studies [p. 468], and the School of Music [p. 813] collaborate to offer the certificate. The Department of Theatre Arts administers the certificate.

Undergraduate Program of Study

Certificate

- Certificate in Social Justice and the Performing Arts [p. 993]

Social Justice and the Performing Arts, Certificate

Learning Outcomes

The certificate provides students with the following competencies:

- Increased knowledge about selected history of social movements, how those movements emerged, and the impacts those movements had on policy, populations, the environment, the arts, and culture.
- The ability to explore through coursework how the intersections of geography, race, class, gender, sexuality, health, economics, and history create networks of privilege and oppression across the globe, and to reflect on situations they encounter in art and community engagement work.
- The ability to explore the application of the role of performing arts in community and society throughout history and in established creative community engagement, social justice-based projects, and/or scholarly work, and how that focus can be applied to interdisciplinary social justice work.
- The ability to read, write, listen, and act through social justice coursework in order to understand how conditions are created for change on the local, regional, and national level historically, ethically, politically, and personally.
- The articulation of a vision that starts to inform their work, future project planning, and thinking about the arts and community that includes their ability to creatively conceptualize and articulate their personal goals while balancing the needs of community partners in performance, social, and global contexts in relation to existing philosophies and theories, and to apply their vision to creative or scholarly engagement work.

Requirements

The undergraduate Certificate in Social Justice and the Performing Arts requires a minimum of 21 s.h. of coursework, including at least 18 s.h. earned at the University of Iowa or in approved study abroad courses. Students must maintain a grade-point average of at least 2.00 in coursework for the certificate. Coursework in the certificate may not be taken pass/nonpass.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Students complete two foundation courses, one creative practice and skill-building course, three background courses, and one capstone course. They must meet with the certificate director or an area of study advisor every semester to discuss their course selections and plan for the capstone course.

Students who wish to count a course not listed in the certificate program of study, including study abroad courses, may submit a request for approval to the certificate director. Any course submitted for approval must address social justice themes.

Some of the courses have prerequisites; students must complete all of a course's prerequisites before they may register for a course. Some of these courses also have specific restrictions, such as courses being open only to certain majors.

The Certificate in Social Justice and the Performing Arts requires the following coursework.

Foundation Courses

Course #	Title	Hours
Both of these:		
THTR:3615	Action! Engage! Art! Creative Placemaking for the Public Good	3
