SJUS:3415	Latina/o/x Protest, Movement, Resistance	3

Capstone Course

Students submit a capstone project plan in the semester before they enroll in the capstone course.

Course #	Title	Hours
One of these:		
THTR:4691	Projects in Theatre	3-4
THTR:4692	Honors Theatre Arts	3-4
DANC:4990	Independent Study	3-4
DANC:4998	BFA Senior Project in Dance	3-4
DANC:4999	Honors Project in Dance	3-4
GWSS:3900	Research for Public Engagement	3
MUS:3990	Undergraduate Special Studies	3-4
MUS:4995	Honors in Music	3-4

Social Science Analytics

Chair, Department of Political Science

- Julianna Pacheco

Coordinator, Social Science Analytics

- Frederick J. Boehmke (Political Science)

Undergraduate certificate: social science analytics

The growth of big data and informatics calls for a new set of skills for social science students and an increased understanding of the logic of data collection and analysis. The certificate focuses on the application side of data analysis. It allows students to focus on the specific research methods and data-driven quantitative skills that are most effective for understanding an increasingly complicated social-political world. The certificate offers an opportunity for interdisciplinary training on how data can be used to address important questions in the social sciences.

The Certificate in Social Science Analytics is interdisciplinary, and a number of departments collaborate to leverage distinct strengths and offer courses applicable to the certificate, including the School of Earth, Environment, and Sustainability and the departments of Political Science, Sociology and Criminology, and Statistics and Actuarial Science. The certificate is administered by the Department of Political Science [p. 927].

Programs

Undergraduate Program of Study

Certificate

- Certificate in Social Science Analytics [p. 996]

Social Science Analytics, Certificate

Requirements

The undergraduate Certificate in Social Science Analytics requires a minimum of 18 s.h. Students complete requirements in five different component areas for a total of at least six courses. Students must maintain a grade-point average of at least 2.00 in work for the certificate. Up to 6 s.h. of transfer credit may be counted toward certificate requirements.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Some of the certificate courses have prerequisites not included in the certificate requirements. Students should select courses for which they have met the prerequisites.

The Certificate in Social Science Analytics requires the following coursework.

Requirements	Hours
Introduction to Data and the Social Sciences Course	3
Social Science Research Design and Data Analysis Course	3
Core Statistics Courses	6-7
Building Skills and Data Science Course	3-4
Applied Research Experience	3

Introduction to Data and the Social Sciences

Course #	Title	Hours
This course:		
POLI:1050/ RELS:1050	Big Ideas: Introduction to Information, Society, and Culture	3

Social Science Research Design and Data Analysis

Course #	Title	Hours
One of these:		
POLI:2000	Designing Political Research	3
SOC:2170	Research Methods	3

Core Statistics

Course #	Title	Hours
Two of these:		
POLI:3000	Analyzing Political Data	3
SOC:2160	Applied Statistics for Social Scientists	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:2010	Statistical Methods and Computing	3
STAT:3120/ DATA:3120/ IGPI:3120	Probability and Statistics	4
STAT:3200/ DATA:3200/ IGPI:3200/ISE:3760	Applied Linear Regression	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3
STAT:6513/ PSQF:6243	Intermediate Statistical Methods	3

Building Skills and Data Science

Course #	Title	Hours
One of these:		
CS:1210	Computer Science I: Fundamentals	4
CS:2110	Programming for Informatics	4
CS:2420	Analyzing Data for Informatics	3
CS:2520	Human-Computer Interaction for Informatics	3
CS:3980	Topics in Computer Science I	3
ECON:4800	Econometric Analysis: Advanced Causal Inference With Data	3
POLI:3050	Problems in Methods	3-4
SEES:2050	Foundations of GIS	4
SEES:3540/ IGPI:3540	Geographic Visualization	3
SEES:4150/ GHS:4150/ IGPI:4150	Health and Environment: GIS Applications	3
SEES:4580/ IGPI:4581	Introduction to Geographic Databases	3
SOC:3880	The Sociology of Networks	3
SOC:4000	Data Science for Social Good	3
STAT:1015/ DATA:1015	Introduction to Data Science	3
STAT:4520/ IGPI:4522/ PSQF:4520	Bayesian Statistics	3

STAT:4580/ DATA:4580/ IGPI:4580	Data Visualization and Data Technologies	3
STAT:6560	Applied Time Series Analysis	3

Applied Research Experience

Course #	Title	Hours
At least 3 s.h. from these:		
GHS:3010/ IGPI:3011	Social Science Approaches to Global Health	3
POLI:3001	Hawkeye Poll	3
POLI:3127	Legislative Policy Seminar	3
POLI:3525	Iowa Policy and Opinion Lab	0-3
POLI:3994	Political Science Undergraduate Research Projects	1-4

POLI:4600	Honors Research Project	3
POLI:4701	Undergraduate Research Tutorial	3
SEES:4030	Senior Project Seminar	3
SOC:3170	Applied Research	3
SOC:4998	Honors Research	arr.
STAT:6220/ DATA:6220	Consulting and Communication With Data	3

Career Advancement

The certificate will ensure students are more competitive for careers and opportunities with political campaigns, policy analysis, public opinion firms, consulting and government agencies, and local communities.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Social Work

Director

- Miriam J. Landsman

Director, Bachelor of Arts Program

- Alison L. Oliver

Director, Master of Social Work Program

- Stephen P. Cummings

Director, Doctor of Philosophy Program

- Aislinn Conrad

Undergraduate major: social work (BA)

Undergraduate minor: social work

Graduate degrees: MSW; PhD in social work

Faculty: https://socialwork.uiowa.edu/people

Website: https://socialwork.uiowa.edu/

The School of Social Work's mission is to develop culturally responsive practitioners, scholars, researchers, and leaders to create a more just society. The school operates from strengths-based perspectives and systems perspectives. It educates its graduates to be culturally competent scholars and practitioners who are committed to social justice and social work values and ethics, and who are prepared to serve in and have a positive impact on a broad range of family-centered and community-based practice settings throughout the State of Iowa and beyond.

The school provides a program of professional training accredited by the Council on Social Work Education at the baccalaureate and master's degree levels, aimed at developing effective intervention in multiple systems and using professional social work values and ethics. It also offers a PhD program, which prepares students to conduct research that contributes to the knowledge base of social work, to be leaders in setting policy and practice, and to teach in colleges and universities. In addition, the School of Social Work administers the following programs.

Minor and Certificates

Aging and Longevity Studies

The School of Social Work administers the undergraduate minor and graduate certificate in aging and longevity studies; see Aging and Longevity Studies [p. 47] in the catalog.

Critical Cultural Competence

The School of Social Work administers the undergraduate certificate in critical cultural competence; see the Certificate in Critical Cultural Competence [p. 325] in the catalog.

Resilience and Trauma-Informed Perspectives

The undergraduate certificate in resilience and trauma-informed perspectives is administered by the School of Social Work; see the Certificate in Resilience and Trauma-Informed Perspectives [p. 987] in the catalog.

Continuing Education

Nondegree students may enroll in selected courses. Students who later enroll in a degree program may be able to apply a limited amount of their nondegree work toward their degree requirements; applicable credit is determined by the School of Social Work.

Programs

Undergraduate Programs of Study

Major

- Major in Social Work (Bachelor of Arts) [p. 1005]

Minor

- Minor in Social Work [p. 1009]

Graduate Programs of Study

- Master of Social Work [p. 1010]
- Doctor of Philosophy in Social Work [p. 1015]

Courses

Social Work Courses

SSW:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

SSW:1022 Social Justice and Social Welfare in the United States 3 s.h.
Critically examine historical and current practices to address social injustices including poverty, discrimination, and other threats to human rights and well-being; evaluation of personal and professional values within the context of one's culture; exploration of roles and responsibilities to enhance society for future generations; dialogue with professionals working in topic areas. Topic areas may include poverty, homelessness, mental and physical health, criminal justice, education, aging, and interpersonal violence. GE: Values and Society. Same as SOC:1022.

SSW:1200 Mental Health Across the Lifespan 3 s.h.
Basic, foundational mental health concepts emphasizing mental health variations and disorders throughout the lifecycle; use of cultural humility and social determinants of mental health as guiding frameworks to better understand differences among groups. GE: Understanding Cultural Perspectives.

SSW:1800 Aging Matters: Introduction to Gerontology 3 s.h.
Overview of the field of gerontology from a bio-psycho-social framework; how the human body and brain age, effects of these biological changes on physical and cognitive functions, and interaction of these individual factors with societal contexts; broad perspective to give students a foundation in gerontology, paving the way for more advanced courses in biology of aging, psychology of aging, and global aging; for students from a wide range of disciplines and levels, no prior knowledge of aging required. GE: Social Sciences. Same as ASP:1800, CSD:1800, NURS:1800, TR:1800.

SSW:2042 Intercultural Communication 3 s.h.
Culture defined as a system of taken-for-granted assumptions about the world that influence how people think and act; cultural differences that produce challenges and opportunities for understanding and communication; those differences from several theoretical perspectives; opportunities to examine culture and cultural differences in practical, experience-driven ways. Same as COMM:2042, IS:2042.

SSW:2700 Introduction to Understanding Trauma and Resilience 3 s.h.
Introduction to understanding key concepts of trauma-informed systems of care in multiple settings; identification of various types of trauma along with behaviors and responses seen in survivors of trauma; students trace effects of historical trauma of marginalized communities and multiple trauma survivor groups to understand the consequences of trauma and its impact in the culture; resilience and strategies to offset consequences of trauma. Same as PSQF:2700.

SSW:3135 Global Aging 3 s.h.
Demographic factors that contribute to the worldwide phenomena of population aging in context of WHO Active Aging and the United Nation's Principles for Older Persons frameworks. Same as ASP:3135, GHS:3050.

SSW:3191 Individual Study arr.
Project related to student interest carried out under direction of faculty member.

SSW:3500 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financial aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as ENTR:3595, MGMT:3500, MUSM:3500, NURS:3595, RELS:3700.

SSW:3570 Poverty Policy 3 s.h.
How poverty is regulated and addressed in the United States, and by federal, state, and local governments; particular focus on programs including Temporary Assistance for Needy Families (TANF), Section 8 housing, Medicaid, and Medicare; how these systems have changed over time; current models and innovations that have emerged in practice. Same as GHS:3570, PBAF:3570, POLI:3570.

SSW:3580 Native American Public Policy 3 s.h.
Exploration of ways that Native nations govern themselves, including the relationship between these sovereign entities and the U.S. government; topics include Indian Child Welfare Act, membership and enrollment, income and taxation, crime and justice; how these systems have changed over time; current practices and innovations that have emerged within different tribes. Same as NAIS:3580, PBAF:3580.

SSW:3600 Nonprofit Organizational Effectiveness II 3 s.h.
Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Same as MGMT:3600, NURS:3600, RELS:3701.

SSW:3712 Human Sexuality, Diversity, and Society 1-3 s.h.
Introduction to human sexuality from a biopsychosocial, sex-positive perspective; sexuality as a normal and essential component of human existence and expression throughout the life span; influence of gender, class, religion, race, ethnicity, sexual orientation, ability status, age, and culture on sexuality interwoven and highlighted; diversity of perspectives and experiences shared through active participation and respectful dialogue. Same as NURS:3712.

SSW:3729 Substance Use and Abuse 2-3 s.h.
Chemical dependency for helping professions; etiological, physiological, psychological, legal, sociological aspects; treatment methods.

SSW:3786 Death/Dying: Issues Across the Life Span 3-4 s.h.
Introduction to the field of end-of-life care; examination of student concerns about death, dying, and grieving process; historical, cultural, societal, and personal perspectives of death and dying in modern society. Same as ASP:3786.

SSW:3796 Family Violence 2-3 s.h.
Thinking critically about one of the most damaging family problems prevalent in the United States today—family violence; students examine the phenomena of child abuse and neglect, domestic violence, and elder abuse, including definitions, causes, risk factors, consequences, reporting, assessment, intervention, prevention, and policy.

SSW:3797 Child Welfare Policy and Practice 3 s.h.
Public and private child welfare practice and organizations in the United States; historical and legal aspects, co-occurring issues, foster care, adoption, family preservation.

SSW:3799 Selected Aspects of Social Work and Social Welfare arr.
Human behavior, practice, social welfare policy.

SSW:3840 Human Behavior in the Social Environment 3-4 s.h.
Behavior and development in context of social, ecological systems and human diversity; overview of biopsychosocial dimensions, individual behavior, and development throughout lifespan; contexts of diverse family, group, community, organization, and cultural systems. Requirements: completion of the professional social work agreement form.

SSW:3841 Fundamentals of Social Work Practice 3 s.h.
Professional practice: functions, roles, skills, conceptual frameworks, values, ethics; focus on integrated approach to practice, including assessment, intervention, evaluation of interventions, termination with individuals, families, groups; emphasis on empirically based practice. Corequisites: SSW:3840, if not taken as a prerequisite. Requirements: completion of the professional social work agreement form.

SSW:3842 Interpersonal Skills Laboratory 2 s.h.
Practice of interpersonal skills required in the helping relationship. Corequisites: SSW:3841, if not taken as a prerequisite. Requirements: completion of the professional social work agreement form.

SSW:3844 Introduction to Social Work Research 4 s.h.
Scientific approach to knowledge building, with emphasis on critical use of research; quantitative and qualitative methods, evaluation of practice, computerized data analysis, ethics and diversity in social work research. Requirements: completion of the professional social work agreement form.

SSW:3845 Social Work Processes 4 s.h.
Context of practice examined to understand structural factors that affect clients and communities; culturally competent practice using empowerment perspective. Corequisites: SSW:3840, if not taken as a prerequisite. Requirements: completion of the professional social work agreement form.

SSW:3847 Discrimination, Oppression, and Diversity 3 s.h.
Theoretical and historical perspectives on racism, sexism, other forms of discrimination; applications to social work, culturally competent practice, change strategies. Requirements: completion of the professional social work agreement form.

SSW:3900 Campus Sexual Assault: Policy, Prevention, and Intervention 3 s.h.
Among undergraduate students, 26.4% of females and 6.8% of males experience rape or sexual assault in college; students examine institutional responses to campus sexual assault with a goal of becoming informed advocates to work with institutions to strengthen programs and support; laws and policies that guide campus responses to sexual assault; effectiveness of a range of models for preventing and intervening with campus sexual assault; and prevention and interventions for groups at higher risk of sexual assault, including first-year students, racial and sexual minorities.

SSW:4100 Social Work in the Criminal Justice System 3 s.h.
How social work practice intersects with different aspects of the criminal justice system; focus on integrating social work values into criminal justice field; social work's responsibility to address social justice problems (e.g., mental illness, racial disparity, gender, human rights) within criminal justice system; critical examination of past and present practices in criminal justice and implications for social work practice and policy when working with individuals in criminal justice system.

SSW:4155 Treatment of Substance Use and Co-Occurring Disorders 3 s.h.
Treatment of individuals presenting substance related issues (abuse, dependency, co-occurring disorders); etiological, physiological, psychological, legal, and sociological aspects; evaluation of current research and direct application of contemporary treatment modalities to client situations encountered as helping professionals. Recommendations: introductory course in substance abuse.

SSW:4189 Bachelor of Arts Generalist Practicum Seminar 1 s.h.
Opportunity for students to recount their experiences from generalist practice in agencies; application of knowledge, skills, and values of culturally competent social work. Prerequisites: SSW:3840 and SSW:3847. Corequisites: SSW:4193. Requirements: completion of SSW:3840, SSW:3841, SSW:3842, SSW:3844, SSW:3845, SSW:3847, SSW:4843.

SSW:4190 Aging Studies Internship and Seminar 3 s.h.
Opportunities for students in various disciplines to relate their areas of study to older adults and aging; interdisciplinary relationships, approaches to meeting needs of older adults. Requirements: enrollment in undergraduate aging and longevity studies certificate program. Same as ASP:4190.

SSW:4192 Honors in Social Work arr.
Supervised individual research. Requirements: minimum 3.33 UI GPA, minimum 3.33 major GPA, and signed honors contract.

SSW:4193 Bachelor of Arts Generalist Practicum arr.
Supervised experience in selected social welfare organizations; application of knowledge and skill common to generalist practice in an agency setting. Prerequisites: SSW:3840 and SSW:3847. Corequisites: SSW:4189.

SSW:4490 Integrative Seminar in Critical Cultural Competence 3 s.h.
Capstone course; application of knowledge to one's areas of study; community settings where cultural competence is required; challenges and benefits of behaving in culturally competent ways in varied contexts; review and critique of educational experiences in the certificate program; development of skills in community education related to cultural competence; group project to benefit the university and/or community; development of a plan to integrate critical cultural competence into careers. Requirements: completion of other required certificate courses. Same as CCCC:4490.

SSW:4700 Motivational Interviewing in Diverse Application 3 s.h.
Application of motivational interviewing (MI) skills, as a collaborative process and communication style, while working with individuals presenting with ambivalence to change; MI skills are used to guide across the change process ("Stages of Change") by evoking the intrinsic motivation for change; includes application to diverse populations (e.g., cultural groups, veterans, adolescents) and psychological issues individuals may exhibit.

SSW:4843 Social Welfare Policy and Practice 3 s.h.
Basic social welfare policies and programs; economic, social, ideological, and political conditions that have influenced formation and implementation of social policy, current structure of major social welfare policies. Requirements: POLI:1100.

SSW:5194 Social Work Practice in Health Care Settings 2-3 s.h.
Introduction to organization, provision of social work services in health care settings; practice issues such as models of intervention, ethical questions, impact of cultural diversity on health care.

SSW:5200 Grief Work With Individuals and Families 2-3 s.h.
Complexity of grief and its multifaceted impact on family systems; utilizing grief theories, including Worden's Tasks of Mourning, ambiguous loss theory, several family systems models; examination of multi-generational dynamics that affect how we learn to grieve, how we experience grief, and how we live after a loss; acknowledged and unacknowledged grief and loss; generational family dynamics; difficulties and strengths passed from one generation to the next; assessing grief at individual, family, group, and community levels; how loss can affect personal well-being and professional practice, particularly when working with an interdisciplinary team. Requirements: social work graduate standing.

SSW:5240 Trauma Informed Family Practice 3 s.h.
Acquisition of the knowledge, skills, and attitudes necessary to effectively use 12 common trauma-informed practice elements in interventions for and the treatment of traumatized children and their families; highlights consideration of the impact of trauma, intervention objectives, and the practice elements needed to accomplish the intervention objectives.

SSW:5250 Resilience and Trauma-Informed Interventions With Individuals 3 s.h.
Focusing primarily on trauma caused by violence, students explore definitions, symptoms, and physiology of trauma and post-traumatic stress disorder (PTSD), and the impact of violence on individuals, family system, and communities; individual-level assessment and interventions.

SSW:6100 Thinking Like a Social Worker 3 s.h.
Introduction to social work values and ethics in context of systemic perspective and social, economic, and environmental justice; critical analysis of the profession's historical and social context to understand how privilege and power are perpetuated in society and in social work practice; ethical dilemmas and application of ethical decision-making models to make practice decisions; exploration of systemic thinking as distinguishing social work from other helping professions; examination of privilege from the perspective of those who have and do not have privilege or power. Requirements: admission to MSW program.

SSW:6200 Development of Professional Use of Self 3 s.h.
Development and practice of interpersonal skills for effective use of self in social work practice; students identify and resolve barriers to effective skill development and demonstrate professional demeanor, empathy, self-reflection, and self-regulation; examination of how cultural and family beliefs and values facilitate or constrain ability to develop an other-oriented stance open to new cultural information; development of effective use-of-self through recognizing and interpreting emotional and physiological reactions in interactions with client systems; engagement in active learning through role play and video recording skill practice. Requirements: admission to MSW program.

SSW:6224 Spirituality and Ethics in Social Work 2-3 s.h.
Knowledge, values, and skills that provide a framework for spiritually sensitive social work practice; preparation for responding competently and ethically to diverse spiritual perspectives, for recognizing and reflecting on one's own spiritual beliefs, and for identifying appropriate ways to apply personal beliefs to practice with varied populations while safeguarding client autonomy and self-determination.

SSW:6232 Therapy With Couples 3 s.h.
Introduction to working with couples in interaction and as a social system; theories of functional and dysfunctional systems; theoretical bases for couple's therapy and techniques of intervention; special attention to couple assessment. Requirements: completion of generalist year courses (or BA in social work).

SSW:6233 School Social Work Practice 3 s.h.
Evidence-based school social work services from a multilevel approach with student, family, school, and community grounded in social work standards, values, ethics and cultural competence; social and political influences on education and practice; prevention, assessment and intervention; specific practices include response to intervention and positive behavior supports; evaluating and serving students with disabilities including use of functional behavior assessment and development of behavior intervention plans; consultation and collaboration with teachers and school staff, engaging in culturally sensitive practices.

SSW:6234 Social Work Practice and Use of the Diagnostic and Statistical Manual of Mental Disorders 3 s.h.
Major categories of psychopathology and the DSM-5 system of classification; the use of the DSM-5 approach to diagnosis allows one to consider all aspects of an individual's behavior and presentation of symptoms; included in the DSM is information about effects of culture, developmental stage, and gender on the presentation of mental disorders.

SSW:6236 Interventions With Individuals 2 s.h.
Specialized practice; emphasis on thinking about how one works with individuals and importance of emotional (affective) regulation in the professional relationship; focus on emerging findings from the neurosciences combined with attachment theory and object relations; class deliberations involve theory and practice; understanding the overall interpersonal and psychotherapeutic process. Requirements: completion of foundation courses.

SSW:6237 Social Work Practice With Children, Youth, and Families 3 s.h.
Preparation for practice in child welfare, family service agencies; family life cycle, child development, child maltreatment, problems of adolescence, social services for families and children, legal issues. Requirements: completion of foundation courses.

SSW:6238 Introduction to Play Therapy 2-3 s.h.
Major theories and techniques of play therapy, relevance to social work practice.

SSW:6247 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as HMP:6360, MGMT:9150, PBAF:6278, RELS:6070, SPST:6010, URP:6278.

SSW:6248 Nonprofit Organizational Effectiveness II 3 s.h.
Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Same as HMP:6365, MGMT:9160, PBAF:6279, RELS:6075, SPST:6020, URP:6279.

SSW:6271 Housing Policy 3 s.h.
Recent housing policy initiatives at federal, state, and local levels. Same as PBAF:6271, URP:6271.

SSW:6282 Grant Writing 1-2 s.h.
Same as PBAF:6282, URP:6282.

SSW:6300 Theory and Skills for Working With Individuals and Families 3 s.h.
Individual and family engagement, assessment, and intervention through the lens of multidisciplinary theoretical frameworks; students assess quality and credibility of different kinds of knowledge and critically appraise interventions for working with individuals and families; application of assessment and intervention frameworks that emphasize clients' strengths in diversity; development of self-reflective interpersonal skills necessary for establishing effective, anti-oppressive professional relationships with individuals and families. Requirements: admission to MSW program.

SSW:6400 Theory and Skills for Working With Organizations and Communities 3 s.h.
Social work practice requires interdisciplinary, interprofessional, and interorganization collaboration at all systems levels; focus on organizational and community engagement, assessment, intervention, and evaluation; assessment of quality and credibility of different kinds of knowledge when working with organizations and communities; students apply a social justice lens to see how structural systems of oppression contribute to social problems and injustices in organizations and communities, and critically examine interpersonal skills for establishing effective professional relationships when working with organizations and communities. Requirements: admission to MSW program.

SSW:6500 Social, Economic, and Environmental Justice I 3 s.h.
Students are challenged to think critically in context of deeply held personal beliefs; development of competencies for engaging diversity and difference in practice; examination of personal beliefs, biases, and affective reactions; how systems of oppression, alienation, marginalization, power, and privilege intersect for clients and communities; how social work practice can advance human rights and social, economic, and environmental justice; use of critical thinking to analyze, formulate, and advocate for policies that advance justice. Requirements: admission to MSW program.

SSW:6600 Engaging With Evidence 3 s.h.
Students expand critical thinking skills necessary for effective social work practice; development of competencies in research and evaluation at all levels of practice; critical appraisal of evidence-informed approaches to social work practice; quality of research evidence and its implications for improving practice effectiveness; application of research evidence to inform and improve practice. Requirements: admission to MSW program.

SSW:6700 Generalist Practicum in Social Work 3 s.h.
Generalist practice experience with individuals, families, small groups, organizations, and communities; communication skills, change process, professional values, and ethics applied at multiple system levels; students evaluate their own practice using a learning contract in an agency setting. Corequisites: SSW:6701. Requirements: admission to MSW program, and concurrent enrollment in or completion of generalist courses.

SSW:6701 Generalist Practice Seminar 1 s.h.
Integration of classroom learning and development as a social worker with experience in generalist practicum placement; ethical decision-making practice, critical reflection of situations when social work values may not align with client, agency, or interdisciplinary team values; peer feedback to promote professional accountability; documentation and reflection of professional development and acquisition of social work competencies from first half of MSW program; establishment of professional development plans for seeking and using feedback and supervision for self-reflection, self-care, and strategically establishing professional relationships. Corequisites: SSW:6700. Requirements: admission to MSW program, and concurrent enrollment in or completion of generalist courses.

SSW:7100 Critical Thinking for Clinical Practice 2 s.h.
Preparation for specialized coursework; builds on generalist practice at individual and family levels; critical thinking to appraise theory, practice, use, and creation of evidence for clinical practice; demonstration of critical thinking skills in assessment and treatment planning; how personal beliefs, biases, assumptions, and reactions influence and limit understandings of clients and communities; decentering personal experiences and understandings. Requirements: admission to advanced standing MSW program.

SSW:7200 Critical Thinking for Leadership Practice 2 s.h.
Preparation for specialized coursework; builds on generalist practice at group, organization, and community levels; demonstration of critical thinking skills in community or organization assessment; use of critical thinking to distinguish between practice models, critically appraise theory and practice models across systems levels, and understand the process of developing and using evidence in leadership practice; examination of how power and privilege manifest at group, organization, and community levels. Requirements: admission to advanced standing MSW program.

SSW:7271 Individual Study arr.
Project related to student interest; directed by faculty member.

SSW:7272 Thesis arr.

SSW:7310 Clinical Practice I: Treatment Planning and Intervention 3 s.h.
Examination of stages of planned change process in clinical practice with individuals and families; focus on engagement, clinical assessment, ethics of diagnosis, treatment planning, and intervention; students conceptualize cases through multiple lenses, including cultural humility and anti-oppressive practice; standards from the NASW Code of Ethics that guide clinical practice and extend understanding of effective self-reflection; use of self in establishing collaborative relationships with individuals, families, and other professionals.

SSW:7320 Clinical Practice II: Intervention, Evaluation, Termination 3 s.h.
Collaboration with clients using advanced clinical interventions that advance anti-oppressive and anti-racist social work practice; application of family systems theories through case-based learning and role plays; students critically self reflect and regulate their affective reactions in professional relationships.

SSW:7330 Clinical Practice III: Selected Topics in Clinical Practice 3 s.h.
Participation in advanced training in clinical topics; examination of theoretical underpinnings and case application of each advanced clinical topic.

SSW:7410 Leadership Practice I: Community Relationship Building and Collaboration 3 s.h.
Understanding and working within communities, cross-disciplinary collaboration, network and coalition-building; students utilize various technologies to conduct capacity assessments, facilitate meetings, and learn how to work with interdisciplinary teams; how to partner with community members to develop projects and advocate for social, economic, environmental, and racial justice; special emphasis on anti-racist and anti-oppressive practice and working with communities that are under-resourced or historically marginalized.

SSW:7420 Leadership Practice II: Policy Analysis and Advocacy 3 s.h.
Leadership skills for policy development, analysis, and implementation. Students develop policy analysis skills to understand how policies impact individuals, communities, and organizations; advocate for policies that advance social, economic, environmental, and racial justice; and develop a deep understanding of local, state, and federal policy and advocacy roles, networks, and leadership opportunities. Students will understand the importance of political social work and their role in leading communities.

SSW:7430 Leadership Practice III: Leading Programs and Organizations 3 s.h.
Principles of effective and inspiring leadership that center the interests of the communities served. Students learn about mission- and value-driven leadership, and how to build a foundation of ethical, anti-racist, and anti-oppressive practice in an organization. Knowledge and skill development include communication and relationship building with internal and external stakeholders; program development and implementation; staff supervision; change management; developing organizational policies; and planning and budgeting.

SSW:7500 Social, Economic, and Environmental Justice II 3 s.h.
Development of competencies for engaging in anti-racist and anti-oppressive social work practice; how to dismantle systems of oppression, alienation, marginalization, power, and privilege that intersect for clients and communities; students hone their skills in advancing human rights and social, economic, and environmental justice; use of critical thinking to analyze, formulate, and advocate for policies that advance anti-racism, diversity, equity, and inclusion.

SSW:7550 Program and Practice Evaluation 3 s.h.
Students build more advanced competencies in evaluation at all levels of practice; application of anti-racist and anti-oppressive lens to evaluation; focus on evaluation approaches that seek out expertise and develop evaluation leadership of marginalized communities to improve practice effectiveness; students apply and critically appraise evidence-informed approaches to practice.

SSW:7600 Practicum With Clinical Specialization 3-4 s.h.
Practice experience implementing clinical theories and skills in interventions with individuals, families, and groups; two semester practical course.

SSW:7601 Clinical Practicum Seminar I 1 s.h.
Integration of student learning in specialized year courses and practicum; practice giving, seeking, and incorporating feedback on use of self, ethical decision-making, engagement with anti-racist practice, and other aspects of professional development; focus on MSW program, students document and reflect on their professional development and acquisition of social work competencies by creating a portfolio of their work. Corequisites: SSW:7600.

SSW:7602 Clinical Practicum Seminar II 1 s.h.
Integration of student learning in specialized year courses and practicum; practice giving, seeking, and incorporating feedback on use of self, ethical decision-making, engagement with anti-racist practice, and other aspects of professional development; focus on MSW program, students document and reflect on their professional development and acquisition of social work competencies by creating a portfolio of their work. Corequisites: SSW:7600.

SSW:7750 Practicum With Leadership Specialization 3-4 s.h.
Practice experience implementing leadership theories and skills in interventions with organizations and communities; two semester practical course.

SSW:7751 Leadership Practicum Seminar I 1 s.h.
Integration of student learning in specialized year courses and practicum; practice giving, seeking, and incorporating feedback on use of self, ethical decision-making, engagement with anti-racist practice, and other aspects of professional development; focus on MSW program, students document and reflect on professional development and acquisition of social work competencies by creating a portfolio of their work. Corequisites: SSW:7750.

SSW:7752 Leadership Practicum Seminar II 1 s.h.
Integration of student learning in specialized year courses and practicum; practice giving, seeking, and incorporating feedback on use of self, ethical decision-making, engagement with anti-racist practice, and other aspects of professional development; focus on MSW program; students document and reflect on professional development and acquisition of social work competencies by creating a portfolio of their work.

SSW:7760 Practicum in School Social Work 3-4 s.h.
Practice experience implementing theories and skills in interventions in school setting; two semester practical course.

SSW:7800 Social Work Proseminar 1 s.h.
Orientation for new PhD students to program and degree requirements; how to formulate research questions; introduction to faculty research and interests. Requirements: admission to social work doctoral program.

SSW:7803 Social Work Research Practicum 1-4 s.h.
Student work with faculty on various phases of research process including research design, measurement, sampling, data collection, data analysis, human subjects review, and writing for publication. Requirements: admission to social work doctoral program.

SSW:7804 Thesis Writing Seminar 1-3 s.h.
Writing a thesis and an argument; synthesizing literature and justifying methods; development of scientific communication skills; defending ideas at proposal hearing and thesis defense.

SSW:7806 Teaching Practicum 1-2 s.h.
Development of knowledge, skills, and values needed to become effective, culturally competent social work educators through an applied teaching experience; faculty mentors provide ongoing instruction on how to teach and assess student learning.

SSW:7810 Conducting a Systematic Literature Review 3 s.h.
How to design, conduct, and write scoping and systemic reviews of existing research literature; methods of reviews, quality standards for reviews, and application of these standards to critique reviews or review proposals.

SSW:7820 Writing for Publication in Social Sciences 3 s.h.
Graduate seminar providing practical experience in publishing for peer-reviewed journals in a variety of disciplines. Using Belcher's "Writing Your Journal Article in Twelve Weeks," students explore strategies for planning a writing project, identifying appropriate journals, clarifying arguments, making claims for significance, and organizing material. Students revise a draft (such as a classroom paper, conference paper, or comprehensive exam) into a peer-reviewed article and submit it for publication. In a supportive environment, discuss strategies for overcoming resistance to writing.

SSW:7830 PhD Dissertation **arr.**
Ongoing and substantial feedback to doctoral candidates on development and defense of dissertation. Prerequisites: SSW:7800 and SSW:7803 and SSW:7806. Requirements: submission of comprehensive exam.

Social Work, BA

The undergraduate program in social work prepares students to work professionally as direct service providers and social change agents. The program has been accredited continuously by the Council on Social Work Education (CSWE) since 1974 and is designed to be consistent with CSWE's 2022 Educational Policy Statement competencies:

- demonstrate ethical and professional behavior;
- advance human rights and social, racial, economic, and environmental justice;
- engage anti-racism, diversity, equity, and inclusion (ADEI) in practice;
- engage in practice-informed research and research-informed practice;
- engage in policy practice;
- engage with individuals, families, groups, organizations, and communities;
- assess individuals, families, groups, organizations, and communities;
- intervene with individuals, families, groups, organizations, and communities; and
- evaluate practice with individuals, families, groups, organizations, and communities.

Consistent with CSWE standards, the program explores how diversity and intersectionality shape human experiences and identity development and affect equity and inclusion. The dimensions of diversity are understood as the intersections of factors including but not limited to age, caste, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, generational status, immigration status, legal status, marital status, political ideology, race, nationality, religion and spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege and power.

See the CSWE Assessment of Learning Outcomes for the BA program on the School of Social Work website.

The specific mission of the BA program in social work is to prepare culturally aware generalist social workers whose practice is consistent with social work values and ethics, including a commitment to social justice and social change. The program's goals are to:

- prepare generalist practitioners to work with individuals, families, small groups, organizations, and communities;
- provide students with a base for continuing graduate education in social work and for lifelong learning; and
- prepare students for active engagement with issues of social justice, oppression, and social welfare in local, state, regional, national, and global contexts.

Learning Outcomes

In the social work major, students will build foundational competence in social work practice and demonstrate the following learning outcomes.

- Identify personal and professional ethics that guide social work practice with individuals, families, groups, organizations, and communities.
- Examine how one's own culture, values, biases, and beliefs influence professional use of self and one's ability to affect change at all levels of social work practice.
- Apply evidence-informed knowledge and skills to effectively engage, assess, and intervene with individuals, families, groups, organizations, and communities.
- Identify social policies at the local, state, federal, and global levels that affect well-being, human rights and justice, service delivery, and access to social services.
- Develop a deeper understanding of historical and current contexts of power and oppression to engage in practices that advance human rights and promote social, racial, economic, and environmental justice.

Requirements

The Bachelor of Arts with a major in social work requires a minimum of 120 s.h., including at least 56 s.h. of work for the major. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The program draws on a liberal arts perspective and integrates a systemic perspective and understanding of the interconnectedness of people and their environments. The program encourages collaborative learning approaches to support students' development and growth. Knowledge and practice in social work values and ethics are an integral part of students' education. Beginning with the course SSW:1022 Social Justice and Social Welfare in the United States, knowledge and skills related to the social work profession are integrated throughout the curriculum, continuing through practice and research courses, and culminating in SSW:4189 Bachelor of Arts Generalist Practicum Seminar and SSW:4193 Bachelor of Arts Generalist Practicum.

The BA with a major in social work requires the following coursework.

Requirements	Hours
Pre-Social Work Courses	9
Required Course	3
Professional Core Courses	32
Electives	12

Pre-Social Work Courses

Students must earn a grade of C or higher in pre-social work courses to advance into the professional core courses.

Transfer students can view transfer course tables for approved equivalent courses. Students who have taken an introductory course not listed there may contact the School of Social Work for further guidance.

Course #	Title	Hours
SSW:1022	Social Justice and Social Welfare in the United States	3
SOC:1010	Introduction to Sociology	3
PSY:1001	Elementary Psychology	3

Required Course

Students must complete POLI:1100 Introduction to American Politics, preferably before taking SSW:4843 Social Welfare Policy and Practice.

Professional Core Courses

Students may enroll in these courses if they have completed the pre-social work courses with a grade of C or higher, have

completed at least 45 s.h., and have a minimum 2.00 overall cumulative GPA.

Course #	Title	Hours
All of these:		
SSW:3840	Human Behavior in the Social Environment	4
SSW:3841	Fundamentals of Social Work Practice	3
SSW:3842	Interpersonal Skills Laboratory	2
SSW:3844	Introduction to Social Work Research	4
SSW:3845	Social Work Processes	4
SSW:3847	Discrimination, Oppression, and Diversity	3
SSW:4189	Bachelor of Arts Generalist Practicum Seminar	1
SSW:4193	Bachelor of Arts Generalist Practicum	8-11
SSW:4843	Social Welfare Policy and Practice	3

Electives

Students complete a minimum of 6 s.h. of social work electives and 6 s.h. of courses in one other approved discipline, or they can select 12 s.h. of coursework in social work. If they opt to complete 6 s.h. from another discipline, students typically select courses in areas closely related to social work, such as African American studies (prefix AFAM); aging and longevity studies (prefix ASP); American studies (prefix AMST); communication studies (prefix COMM); criminology, law, and justice (prefix CRIM); entrepreneurial management (prefix ENTR); global health studies (prefix GHS); journalism and mass communication (prefix JMC); management and entrepreneurship (prefix MGMT); political science (prefix POLI); psychological and brain sciences (prefix PSY); public health (prefix CPH); sociology (prefix SOC); social justice (prefix SJUS); and gender, women's, and sexuality studies (prefix GWSS).

Students who are earning a minor or a certificate may apply up to 6 s.h. from that program of study toward this requirement.

Honors

Honors in the Major

Students majoring in social work have the opportunity to graduate with honors in the major. Honors students complete in-depth study in areas that interest them. They must maintain a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a minimum major GPA of at least 3.33. Consult the School of Social Work for more information about graduating with honors in the major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the social work major.

Career Advancement

The social work major prepares students for employment in social service areas such as public welfare, child welfare, human service organizations, mental health, health providers (such as hospitals, hospice, skilled care, substance abuse treatment), senior services, group services, residential treatment for youth and persons with disabilities, and corrections. Many graduates continue with advanced study in social work or related physical and mental health professions. Overall employment of social workers is projected to grow 7% from 2022–2032 (Bureau of Labor Statistics). Explore how social workers help individuals, groups, and families across their lifespans on the National Association of Social Workers website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

The four-year graduation plan applies only to students who begin the professional core courses by their fifth semester.

Before the fifth semester begins: completion of the three pre-social work courses, at least 45 s.h. earned and a signed agreement to complete the major and begin the professional core courses.

Before the seventh semester begins: five more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: five more courses in the major and finalized generalist practicum placement.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Beginning with the course SSW:1022, knowledge and skills related to the social work profession are integrated throughout the curriculum, continuing through practice and research courses, and culminating in SSW:4189 and SSW:4193.

b After criteria is met, students must submit a Professional Social Work Agreement form to receive special permission to enroll in the professional core courses.

c Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

d Pre-social work course; students must earn a grade of C or higher to advance into the professional core courses.

e Fulfills a major requirement and may fulfill a GE requirement.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an

approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

i Students must complete POLI:1100, preferably before taking SSW:4843.

j Professional core course; students may enroll if they have completed the pre-social work courses with a grade of C or higher, have completed at least 45 s.h., and have a minimum 2.00 overall cumulative GPA.

k Students complete a minimum of 6 s.h. of social work electives and 6 s.h. of courses in one other approved discipline, or they can select 12 s.h. of coursework in social work. Students who are earning a minor or a certificate may apply up to 6 s.h. from that program of study toward this requirement. Work with academic advisor to select appropriate coursework.

l Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Social Work, Minor

Requirements

The undergraduate minor in social work requires a minimum of 15 s.h. in social work courses, including 12 s.h. taken at the University of Iowa, 6 s.h. of which must be numbered 3000 or above. Students complete one required course and 12 s.h. of departmental elective coursework. They must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework for the minor may not be taken pass/nonpass.

Social work professional core courses required for the major are not available to students enrolled in the social work minor.

A social work minor provides students with foundational knowledge and skills to better understand and address social issues that affect individuals and communities. Students who are interested in the helping professions, human service organizations, and social change work may benefit from this minor. A social work minor is designed to complement a range of majors and disciplines, including social sciences, business, law, education, and public health.

The minor in social work requires the following coursework.

Required Course

Transfer students can view transfer course tables for approved equivalent courses. Students who have taken an introductory course not listed there may contact the School of Social Work for further guidance.

Course #	Title	Hours
This course:		
SSW:1022	Social Justice and Social Welfare in the United States	3

Electives

Students select 12 s.h. from the following; many courses have an online section.

Course #	Title	Hours
SSW:1200	Mental Health Across the Lifespan	3
SSW:1800	Aging Matters: Introduction to Gerontology	3
SSW:2700	Introduction to Understanding Trauma and Resilience	3
SSW:3135	Global Aging	3
SSW:3500	Nonprofit Organizational Effectiveness I	3
SSW:3600	Nonprofit Organizational Effectiveness II	3
SSW:3712	Human Sexuality, Diversity, and Society	1-3
SSW:3729	Substance Use and Abuse	2-3
SSW:3786	Death/Dying: Issues Across the Life Span	3-4
SSW:3796	Family Violence	2-3
SSW:3797	Child Welfare Policy and Practice	3
SSW:3900	Campus Sexual Assault: Policy, Prevention, and Intervention	3
SSW:4100	Social Work in the Criminal Justice System	3
SSW:4155	Treatment of Substance Use and Co-Occurring Disorders	3
SSW:4700	Motivational Interviewing in Diverse Application	3

Master of Social Work, MSW

The Master of Social Work (MSW) program prepares social workers for advanced social work practice and leadership in a wide range of settings. All students develop skills to work with individuals, families, and communities and to advocate for social change. Students select one of two specializations, clinical practice and leadership practice. The clinical specialization teaches students knowledge and skills to work with children, adults, older adults, families, and small groups in clinical settings. The leadership specialization teaches students knowledge and skills for working with communities through relationship building, policy advocacy, and program and organizational development. Students develop competencies to advance the field of social work, create lasting change, and launch impactful careers helping others and improving lives.

The program has been continually accredited by the Council on Social Work Education (CSWE) since 1951. See the CSWE Assessment of Learning Outcomes for the MSW program on the School of Social Work website.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Master in Social Work Program Options

Options are available to complete the MSW full-time or part-time in Iowa City, Des Moines, and online, with applications reviewed annually. The Sioux City program is a three-year, part-time program to which students are admitted every three years. Applicants to any of the options, at any of the centers, complete the same application.

Regular Standing (54 s.h. Option)

Designed for individuals who have completed a degree in a discipline other than a CSWE-accredited social work degree program. Applicants apply for fall admission.

Advanced Standing (36 s.h. Option)

Designed for individuals who have completed the BA in social work or the BSW from a CSWE-accredited social work degree program. Applicants apply for summer admission.

Learning Outcomes

The School of Social Work learning outcomes are expressed as enduring understandings—concepts that have lasting value beyond the classroom and apply to every aspect of social work practice.

- Commitment to advance social justice and fight discrimination and inequity.
- Adherence to a high standard of ethics.
- Using a systemic perspective, understanding the interconnectedness of people and their environments, and the systems in which we operate.
- Critical thinking, where problem-solving, creativity, and innovation are as important as learning facts.
- Self-awareness and effective use of self are crucial to effective relationships at all levels of practice.

Competencies

The curriculum is designed to address the following nine CSWE competencies for both generalist and specialized practitioners:

- demonstrate ethical and professional behavior;
- advance human rights and social, racial, economic, and environmental justice;
- engage in anti-racism, diversity, equity, and inclusion (ADEI) in practice;
- engage in practice-informed research and research-informed practice;
- engage in policy practice;
- engage with individuals, families, groups, organizations, and communities;
- assess individuals, families, groups, organizations, and communities;
- intervene with individuals, families, groups, organizations, and communities; and
- evaluate practice with individuals, families, groups, organizations, and communities.

Professional Association

Students and graduates of the social work program are eligible for membership in the National Association of Social Workers (NASW), the largest membership organization of professional social workers in the world with 132,000 members. NASW works to enhance the professional growth and development of its members, to create and maintain professional standards, and to advance sound social policies. The NASW Code of Ethics is intended to serve as a guide to the everyday professional conduct of social workers.

Requirements

The Master of Social Work requires 36 s.h. for advanced standing students—those who hold an undergraduate degree in social work from a program accredited by the Council on Social Work Education (CSWE)—or 54 s.h. for students who earned a bachelor's degree in a major other than a CSWE-accredited social work program. Students must maintain a graduate grade-point average of at least 3.00 and they must be in compliance with the school's student advancement policy. The degree is offered with or without a thesis.

Credit from previous graduate coursework toward the MSW may be applied if specific criteria are met, but students must earn a minimum of 36 s.h. after admission to the MSW program and agree to meet all requirements of the program.

All students complete one of two specializations (23 s.h.) and 9 s.h. in elective courses.

SSW:7200	Critical Thinking for Leadership Practice	2

Specializations

The specific mission of the Master of Social Work (MSW) program is to prepare social workers for leadership in the profession and for advanced social work practice in one of two specializations: clinical practice or leadership practice. While students are not required to declare a more specific focus, opportunities to specialize are available in areas of practice such as aging, end-of-life care, school social work, child welfare, trauma-informed practice, social work in health and mental health settings, and many others. Students in both the generalist and advanced standing programs select one of the following specializations to complete.

Clinical Practice

The clinical practice specialization will prepare students for mental health work with individuals and families in organizations such as nonprofits, hospitals, schools, hospice/end-of-life, and private practice.

One of these:		
SSW:7600	Practicum With Clinical Specialization (taken twice for 3 s.h. each)	6
SSW:7760	Practicum in School Social Work (taken twice for 3 s.h. each)	6

Leadership Practice

The leadership practice specialization will prepare students to partner with communities, develop programs, lead organizations, develop and interpret policy, and advocate for social, economic, and racial justice.

Course #	Title	Hours
All of these:		
SSW:7410	Leadership Practice I: Community Relationship Building and Collaboration	3
SSW:7420	Leadership Practice II: Policy Analysis and Advocacy	3
SSW:7430	Leadership Practice III: Leading Programs and Organizations	3
SSW:7500	Social, Economic, and Environmental Justice II	3
SSW:7550	Program and Practice Evaluation	3
SSW:7751	Leadership Practicum Seminar I	1
SSW:7752	Leadership Practicum Seminar II	1
One of these:		
SSW:7750	Practicum With Leadership Specialization (taken twice for 3 s.h. each)	6
SSW:7760	Practicum in School Social Work (taken twice for 3 s.h. each)	6

Electives

Students in both the regular and advanced standing programs complete 9 s.h. in elective coursework. Electives are chosen in consultation with their advisors; options include: social work courses (prefix SSW) and aging and longevity studies courses (prefix ASP) numbered 3000 and above (excluding courses already listed), PSQF:7354 Seminar: Experimental Approaches in Counseling Research , or courses in the following list.

Course #	Title	Hours
EDTL:4137	Introduction to Educating Advanced Learners	3
EDTL:4900	Foundations of Special Education	3
EDTL:4940	Characteristics of Disabilities	3
EDTL:4950	Behavioral and Social Interventions	3
EDTL:4990	Interdisciplinary Issues in Disabilities	1-3
EDTL:7040	Advanced Topics in Teaching and Learning	arr.
EPLS:3000	Foundations of Education	3

EPLS:5130	Sociology of Education	3
EPLS:6201	Foundations of School Administration	3
EPLS:6236	Special Education Administration	3
PSQF:4133	The Adolescent and Young Adult	3
PSQF:4136	Home/School/Community Partnerships	3
PSQF:4143	Introduction to Statistical Methods	3
PSQF:6200	Educational Psychology	3
PSQF:6206	Advanced Child Development	3
PSQF:6215	Online Instruction: Design and Facilitation	3
PSQF:7385	Teaching and Learning in Higher Education	3

With an advisor's permission, additional elective options are possible. Students completing a thesis are permitted to apply a maximum of 6 s.h. of SSW:7272 Thesis toward their elective requirements.

MSW Off-Campus Learning Centers

Full-time and part-time study are available in Iowa City, Des Moines, and online. Students follow a sequenced plan for their program option which may include electives in the summer. The Sioux City site only admits entering classes on a three-year cycle, beginning in the summer. Advanced standing students begin their coursework in the summer and may complete the program over one year (three semesters) or two years, following the sequenced plan.

The School of Social Work delivers the MSW curriculum in person in Iowa City and in two learning centers in Des Moines and Sioux City, Iowa, and as an online program. Each learning center is administered by the School of Social Work in cooperation with Distance and Online Education. Social work faculty members teach required courses at each center and are available for student advising. The off-campus programs have been evaluated by the Council on Social Work Education and the University of Iowa Graduate College as providing a program comparable to that available on the Iowa City campus.

Courses at each off-campus site are taught in classrooms by tenure-track, clinical, lecturers, visiting, and adjunct faculty members. Instructional connections between sites are maintained through varied technologies, including computer-based instruction.

Des Moines

The MSW program in Des Moines, in central Iowa, offers courses sequenced to accommodate both part-time and full-time study. Students complete most of their required courses in person at the Des Moines center and most of their electives online. Classes are held at the John and Mary Pappajohn Education Center.

Sioux City

The Sioux City part-time program is offered in classroom space at Briar Cliff University in Sioux City, Iowa, with additional online asynchronous components.

Online

Students in this program attend evening classes in real time using video conferencing, and asynchronous classes in which coursework is done independently, adhering to deadlines.

Combined Programs

Social Work Degree Programs

MSW/PhD in Social Work

The school offers a Master of Social Work/Doctor of Philosophy program in social work for students who have completed coursework in research and statistics and have postbaccalaureate experience related to social work practice. The program permits students to apply a limited amount of credit toward both graduate degrees, reducing the time required to graduate. Individuals must apply to the MSW program and the PhD program; applications are reviewed by the admission panels of both programs. For more information, contact the School of Social Work.

Degree Programs With Other Colleges

The School of Social Work collaborates with other colleges to offer combined degree programs. Each program permits students to apply up to 12 s.h. of graduate credit toward both degrees, reducing the time required to graduate.

Applicants must apply to each program separately and be admitted to each one before they may be admitted to the combined degree program. Information about the combined programs is available from the School of Social Work's program and admissions manager.

MSW/MBA

The School of Social Work and the Tippie College of Business offer the combined Master of Social Work/Master of Business Administration programs. For more information., see the MBA [p. 1274] (Tippie College of Business) in the catalog.

MSW/MS in Urban and Regional Planning

The School of Social Work along with the School of Planning and Public Affairs offer the combined Master of Social Work/Master of Science in urban and regional planning. For more information, see the MS in urban and regional planning [p. 1797] (Graduate College) in the catalog.

Admission

Admission to the 54 s.h. program requires a bachelor’s degree from a regionally accredited American college or university, or an equivalent degree from another country as determined by Admissions with a reasonable distribution of courses in the liberal arts and sciences (the humanities and the social, behavioral, and biological sciences).

Admission to the 36 s.h. program requires a bachelor's degree in social work from a Council on Social Work Education (CSWE)-accredited college or university.

All applicants must have an undergraduate grade-point average (GPA) of 3.00 or higher, or a GPA of 3.00 or higher on 12 s.h. of letter-graded graduate coursework; consult Admissions for assistance in calculating GPA.

Competence in personal computers and spreadsheet applications is required. While experience in volunteering, working, and life are valued, the CSWE does not permit the School of Social Work to grant academic credit for life experience or previous volunteer or work experience.

Applicants must submit:

- the University of Iowa graduate admissions application;
- a 2-page statement of purpose (advanced standing applicants have an additional question);
- a brief School of Social Work supplemental data form;
- a résumé;
- the name, email address, and phone number for two references (one academic and one professional reference); and
- unofficial transcripts from all colleges attended (except the University of Iowa).

Applications for the 54 s.h. program are accepted beginning Sept. 1 and must be completed by Feb. 1 to be considered for the next academic year. Applications for the 36 s.h. program are due Dec. 1 for the one-year program and Feb. 1 for the 2-year program.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

For a complete list of graduate admission policies, see the School of Social Work.

Career Advancement

Professional social workers are found in every facet of community life—in schools, health settings (such as hospitals, hospice, skilled care facilities, substance abuse treatment, mental health clinics), senior centers, elected office, private practices, prisons, military, corporations, and in numerous public and private agencies that serve individuals and families in need. Many also serve as social and community service directors.

According to the Substance Abuse and Mental Health Services Administration (SAMHSA), professional social workers are the nation's largest group of mental health services providers. There are more clinically trained social workers—over 200,000—than psychiatrists, psychologists, and psychiatric nurses combined. Federal law and the National Institutes of Health recognize social work as one of five core mental health professions.

The U.S. Department of Veterans Affairs employs more than 10,000 professional social workers. It is one of the largest employers of MSW individuals in the United States. More than 40% of all disaster mental health volunteers trained by the American Red Cross are professional social workers. There are hundreds of social workers in national, state, and local elected offices.

Projected growth in social work jobs is estimated to be greater than average for all occupations (Bureau of Labor Statistics).

Today, almost 50 special interest organizations contribute to the vitality and influence of the social work profession. There are social work groups for educators and researchers, as well as organizations for practitioners in health care leadership, nephrology, oncology, child welfare, schools, prisons, courts, and many other settings.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Degree Application: apply for degree in MyUI (Degrees/Graduation tile)		
	Hours	**10**
	Total Hours	**54**

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Students complete 9 s.h. of graduate level elective coursework. Work with advisor to determine appropriate courses and sequence.

c Work with advisor to determine appropriate coursework and sequence.

Social Work, PhD

Learning Outcomes

Graduates will:

- locate their work in the intellectual landscape of social work;
- critically analyze theories, practices, policies, and research in at least one specialized area of social work knowledge;
- disseminate knowledge that contributes to the advancement of social work research, practice, and policy, including writing publishable, peer-reviewed manuscripts; presenting at local, national, or international conferences; and/or producing policy briefs or white papers; and
- in the social work classroom, create a learning culture and classroom climate that is inclusive of a diverse population of students and diverse learning styles.

Requirements

The Doctor of Philosophy program in social work requires 78 s.h. of graduate credit. Students must maintain a cumulative grade-point average of at least 3.00. Students complete the required coursework, research, and teaching practicum; pass a comprehensive exam; write a dissertation; and defend it in an oral exam. Their work includes courses in one of four outside disciplines—sociology, psychology, public health, or education—to prepare for the comprehensive examination and dissertation.

The doctoral program prepares students to conduct research that contributes to the knowledge base of social work, to become leaders in the profession, and to teach social work in postsecondary educational institutions.

Those who enter the program with a Master of Social Work (MSW) degree are granted 30 s.h. credit; they must complete an additional 48 s.h. for the PhD. Individuals with master's degrees in related disciplines (for example, psychology or sociology) may choose to earn a PhD in social work without first earning the MSW. Credit from a related master's degree may be applied to the PhD degree program, as determined by the School of Social Work.

Individualized and Interdisciplinary Curriculum

The program allows students to develop a coherent program of study with opportunities to pursue their own scholarly interests. These interests are pursued through a core social work curriculum, a concentration (sociology, psychology, education, or public health), and a social work focal area (e.g., family violence). Students may take methods and electives in any college or department at the University of Iowa.

The School of Social Work provides a supportive environment with substantial opportunities for mentoring and interaction with faculty members. Throughout PhD studies at the University of Iowa, the school assists students in developing a program of study based on their unique educational and career goals. There are many opportunities to work closely with faculty members in a mentoring environment. In the first two years, students complete a mentored research practicum with a faculty member and a mentored in-class teaching experience. During the second year, students choose a faculty member to guide them through the comprehensive examination and dissertation processes.

Admission

To ensure that all doctoral students receive mentoring, the School of Social Work typically admits three or four students annually; approximately 35% of applicants are admitted.

Admission Requirements

Students are required to have a bachelor’s degree from an accredited college or university and a minimum undergraduate grade-point average of 3.00 (on a 4.00 scale).

Students should have completed an introductory statistics course (including graphing techniques for presenting data, descriptive statistics, correlation, introduction to regression, prediction, logic of statistical inference, elementary probability models, estimation, and tests of significance) with a grade of B or higher. Research methods courses taken in a Master of Social Work (MSW) program typically do not meet the criteria for an introductory statistics course. Applicants who have not taken an introductory statistics course must complete one before beginning the program.

Applicants applying only to the PhD program are required to have an MSW or a master’s degree in a related field, such as public policy, public health, sociology, psychology, political science, economics, education, nursing, or anthropology.

Admission and Selection Process

Applications are accepted beginning Sept. 1 for the following academic year; applications are due by Feb. 1. Admission decisions are made in February. Applicants are notified in writing of the decision by April 1. In some years, there may be a waiting list. If applicants are placed on the waiting list, they are notified of this decision by April 1.

The school evaluates applicants based on their potential to independently conduct and disseminate scholarship that contributes to policy or practice and on their potential to prepare future social workers.

Career Advancement

Graduates become leaders in education, research, and government. All of the PhD graduates from the University of Iowa's School of Social Work program have obtained employment within one year of graduation. Of these, about 75% of graduates obtain teaching or research positions, and about 25% obtain policy, administrative, or practice positions.

To learn more about the academic job market, see the Council on Social Work Education (CSWE) career center. The CSWE posts jobs year-round, although most new ads for teaching and research positions are posted between August and December.

Academic Plans

Sociology and Criminology

Chair

- Michael E. Sauder

Director, Graduate Studies

- Stephanie M. DiPietro

Director, Undergraduate Studies

- Jennifer Haylett (Sociology) and Michaela S. Ruppert (Criminology, Law, and Justice)

Undergraduate majors: criminology, law, and justice (BA); sociology (BA)

Undergraduate minors: criminology, law, and justice; sociology

Graduate degrees: MA in sociology; PhD in criminology; PhD in sociology

Faculty: https://sociology.uiowa.edu/people

Website: https://sociology.uiowa.edu

The Department of Sociology and Criminology offers undergraduate majors and minors as well as graduate degree programs. The department partners with the departments of Economics, Philosophy, and Political Science to offer the undergraduate major in ethics and public policy, an interdisciplinary program administered by the Department of Philosophy; see Ethics and Public Policy [p. 459] in the catalog. In addition, it offers courses that undergraduate students in all majors may use to fulfill GE CLAS Core [p. 22] requirements, and a rotating sociology or criminology, law, and justice First-Year Seminar designed for entering undergraduate students.

Certificate

Social Science Analytics

The growth of big data and informatics calls for a new set of skills for social science students and an increased understanding of the logic of data collection and analysis. The certificate focuses on the application side of data analysis. It allows students to focus on the specific research methods and data-driven quantitative skills that are most effective for understanding an increasingly complicated social-political world. The certificate offers an opportunity for interdisciplinary training on how data can be used to address important questions in the social sciences. The Department of Sociology and Criminology collaborates with the School of Earth, Environment, and Sustainability and the departments of Political Science and Statistics and Actuarial Science to offer the undergraduate program in social science analytics; see the Certificate in Social Science Analytics [p. 996] in the catalog.

Programs

Undergraduate Programs of Study

Majors

- Major in Sociology (Bachelor of Arts) [p. 1026]
- Major in Criminology, Law, and Justice (Bachelor of Arts) [p. 1031]

Minors

- Minor in Sociology [p. 1035]
- Minor in Criminology, Law, and Justice [p. 1036]

Graduate Programs of Study

- Master of Arts in Sociology [p. 1037]
- Doctor of Philosophy in Sociology [p. 1040]
- Doctor of Philosophy in Criminology [p. 1038]

Facilities

Crime and Justice Policy Research Program

The Crime and Justice Policy Research Program conducts research on the causes and consequences of crime, interpersonal violence, and antisocial behavior. The program also considers the implementation and implications of public policies designed to prevent and control criminal offending.

Center for the Study of Group Processes

The Center for the Study of Group Processes has a small-group laboratory with computer-controlled subject rooms that provide audiovisual and psychophysiological recording capabilities, large-group rooms with an adjoining observation room, an audiovisual control room, and other flexible research office spaces.

Courses

- Sociology Courses [p. 1017]
- Criminology, Law, and Justice Courses [p. 1022]

Prerequisites for courses are listed in the course descriptions.

Sociology Courses

SOC:1000 First-Year Seminar **1-2 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

SOC:1010 Introduction to Sociology **3-4 s.h.**
How individuals are organized into social groups, ranging from intimate groups to bureaucracies, and how these influence individual behavior; nature and interrelationships of basic social institutions (family, education, religion, economy). GE: Social Sciences.

SOC:1022 Social Justice and Social Welfare in the United States 3 s.h.
Critically examine historical and current practices to address social injustices including poverty, discrimination, and other threats to human rights and well-being; evaluation of personal and professional values within the context of one's culture; exploration of roles and responsibilities to enhance society for future generations; dialogue with professionals working in topic areas. Topic areas may include poverty, homelessness, mental and physical health, criminal justice, education, aging, and interpersonal violence. GE: Values and Society. Same as SSW:1022.

SOC:1030 Contemporary Social Problems 3-4 s.h.
Emergence and distribution of selected social problems; alternative solutions; may include population, inequality, female-male relationships, racism, crime. GE: Understanding Cultural Perspectives.

SOC:1040 Energy, Sustainability, and Society 3 s.h.
Energy is considered the lifeblood of modern societies, and as energy production and consumption accelerates worldwide, it is imperative that energy becomes sustainable or it is derived from resources that can maintain current operations without jeopardizing energy needs or climate of future generations; examination of global transition toward sustainable energy systems from a social science perspective; application of the concept of sociological imagination to understand challenges and opportunities presented by worldwide energy transformation towards sustainability. GE: Sustainability. GE: Social Sciences; Sustainability.

SOC:1220 Principles of Social Psychology 3-4 s.h.
Introduction to a range of theories that seek to explain behavior of people within their groups, and dynamics between groups, at various levels of society. GE: Social Sciences.

SOC:1310 Gender and Society 3 s.h.
Role and status of women in society; sex differences, sex role socialization, theories about origin and maintenance of sexual inequalities, changes in social life cycle of women, implications for social institutions and processes; focus on contemporary United States. GE: Values and Society. Same as GWSS:1310.

SOC:2064 African American Families: Urban and Suburban 3 s.h.
Racial inequality and experiences of African American families in the United States during the 20th and 21st centuries; historical context for contemporary research on African American family; relative impact of structural and cultural factors on various aspects of African American family life, declining marriage rates, family formation patterns; intersections of race and class in family life; research methods used to examine dynamics of African American family life, including quantitative analysis, structured qualitative interviews, and ethnography. GE: Understanding Cultural Perspectives. Same as AFAM:2064.

SOC:2130 Sociological Theory 3 s.h.
Theoretical perspectives in sociology; construction, evaluation of sociological explanations. Prerequisites: SOC:1010 or SOC:1030 or SOC:1310 or CRIM:1410.

SOC:2160 Applied Statistics for Social Scientists 3 s.h.
Applied statistics for sociology majors: frequency distributions, graphic presentation, measures of central tendency, measures of variability, elementary probability, populations and samples, sampling distributions, estimation and confidence intervals, hypothesis testing, chi-square test, regression and correlation, analysis of variance; computer software used in data analysis; emphasis on appropriate use and interpretation of statistics in the study of sociological topics. Recommendations: sociology major.

SOC:2170 Research Methods 3 s.h.
Basic scientific concepts; emphasis on theoretical thinking, statement of researchable propositions, logic and meaning of proof operant in the research process; general issues in designing social research, including problems of sampling and measurement, analysis, presenting research data, interpreting research findings. Prerequisites: (SOC:1010 or CRIM:1410 or CRIM:1447) and (PSQF:4143 or STAT:1020 or STAT:2010 or SOC:2160 or STAT:3510 or STAT:1030). Requirements: sociology major, or criminology, law, and justice major.

SOC:2710 The American Family 3 s.h.
Structure and process; change over the life cycle; interrelations with other institutions; historical changes; variations by social class and ethnic group. GE: Values and Society.

SOC:2770 Black and White Community Politics 3 s.h.
Students study the movement for environmental justice within the broader context of U.S. land use and development to understand environmental racism's prevalence and how it can be addressed; topics include pollution, health, food access, transportation and agricultural practice to land loss, public space, and infrastructure; exploration of perspectives on the environment and environmentalism. Same as AFAM:2770, GHS:2770.

SOC:2810 Social Inequality 3 s.h.
Major theoretical perspectives for understanding inequality in economics, power, prestige; the magnitude of social inequality in the United States; sex and race inequality; trends in and causes of social mobility; selected consequences of social inequality. GE: Values and Society.

SOC:2830 Race and Ethnicity 3 s.h.
Multidisciplinary study of intergroup relations, with emphasis on historical, sociological, and social psychological issues in the study of American minority groups. GE: Understanding Cultural Perspectives.

SOC:3100 Critical Race Theory: Culture, Power, and Society 3 s.h.
Examination of the historical context of race and racism in U.S. history; focus on how social structures perpetuate longstanding patterns of racial inequality. Same as AFAM:3100, AMST:3100.

SOC:3110 Race, Organizations, and Workplace 3 s.h.
Examination of racial discrimination in the American workplace and organizations; historical context for development of complex organizations; various forms of racial discrimination; longstanding patterns of racial inequality central to American organizations. Same as AFAM:3110.

SOC:3170 Applied Research 3 s.h.
Ongoing research project investigating the Flint water crisis; organization and analysis of emails for sociological research purposes and ultimately to create a searchable website for public access to the data; how to construct and analyze a "big data" data set in an interdisciplinary collaborative research setting; how to apply and build sociological theory with empirical data; how to write an academic journal article. Prerequisites: SOC:2170 or CRIM:2470.

SOC:3171 Drugs and Society 3 s.h.
How people use drugs for recreation, performance enhancement, and medical treatment; implications for drug control, treatment, and public policy.

SOC:3215 Digital Footprints: Sociology in the Age of Social Media 3 s.h.
A comprehensive look at how digital technologies influence individual identities, interpersonal relationships, privacy, mental health, communication patterns, and social justice. Students will be equipped with research skills, learning to observe behavior, design simple surveys, and conduct experiments to explore various online social phenomena. Through a blend of engaging readings, discussions, and research projects, the course offers diverse perspectives on the complex interplay between technology and society, preparing students with critical thinking, practical knowledge, and research experience. Prerequisites: SOC:1010 or SOC:1030 or CRIM:1410.

SOC:3220 Sociology of Mental Health 3 s.h.
The socially constructed nature of mental illness; theoretical perspectives and research on social antecedents and social consequences of mental health.

SOC:3510 Medical Sociology 3 s.h.
Theoretical perspectives and research on social precursors and consequences of physical and mental health ailments; focus on contemporary United States with cross-cultural comparisons; stereotypes and diagnosis, gender and racial/ethnic differences, health inequalities related to socioeconomic status.

SOC:3525 Public Opinion 3 s.h.
Role in making public policy; formation, change of political attitudes and opinions; political ideology; measurement of public opinion; how opinion polls are conducted; experience with interviewing and conducting public opinion research. Same as POLI:3204.

SOC:3530 Social Psychology of Small Groups 3 s.h.
Internal processes governing small groups (e.g., friendship cliques, families, the president's cabinet, committees); how small groups relate to the larger social environment; groups' impact on their members. Prerequisites: SOC:1030 or SOC:1010.

SOC:3540 Social Psychology of Good and Evil 3 s.h.
Exploration of the social science of good and evil, how society shapes us, how people make and interpret their choices, and how we judge others; covers a range of fields including sociology, criminology, psychology, philosophy, and more.

SOC:3610 Organizations and Modern Society 3 s.h.
Approaches to the sociological study of economic and noneconomic organizations; the role of power and authority within the organization, and between the organization and its environment.

SOC:3630 The Racial Wealth Gap: Black Debt, White Debt 3 s.h.
Exploration of extent, historical origins, and contemporary factors of the racial wealth gap with special attention to role of debt in U.S. race relations; potential topics include education debt, monetary sanctions in criminal justice, redlining, recession, bankruptcy, and reparations. Same as AFAM:3630.

SOC:3650 Education, Schools, and Society 3 s.h.
Overview of sociology of education; historical and current sociological perspectives on education; race, class, and gender inequality in schooling; higher education; contemporary debates in education (e.g., affirmative action, school choice). Prerequisites: SOC:1030 or SOC:1010.

SOC:3750 Born in the USA: Fertility and Reproduction 3 s.h.
Exploration of when, why, how, and with whom Americans bear children; comparison to other developed and developing countries in the world; infertility and its treatments; ethics of surrogacy; voluntary childlessness; rapid rise of nonmarital childbearing in the U.S. and other countries; politics of childbirth; declining populations; rapid aging of rich where women have basically stopped having children. Same as GWSS:3750.

SOC:3851 Economy and Society 3 s.h.
Economic sociologists examine connections between economic processes and social relations; students take a sociological approach to phenomena that is typically understood in economic terms; economic life through a diverse set of theoretical perspectives—ranging from structural networks to cultural analysis—and at different levels of analysis (e.g., individual, organizational, institutional); topics include embeddedness of markets and social networks, morals and markets, rise of financialization, performativity of economics, economic inequality and discrimination, development of money and credit, and social construction of pricing and value.

SOC:3880 The Sociology of Networks 3 s.h.
Introduction to the basic properties of network structure (e.g., density, mutuality, cliques); substantive insights regarding the role and consequences of networks in social life; the role of networks in job searching/hiring processes; how innovations diffuse through networks; and relationships as social resources. Prerequisites: SOC:1010 or SOC:1030.

SOC:4000 Data Science for Social Good 3 s.h.
The availability of big data transforms the way we solve difficult social problems; programming and analytical skills to analyze data from social media and open-access administrative data sources; basic principles and skills in data science including how to collect, clean, curate, and manipulate data, simple statistics, and computational methods; emphasis on linking big data to real world social problems and social science insights; students learn problem-solving skills and a data-driven approach to contemporary social problems. Prerequisites: SOC:2160 or POLI:3000 or STAT:3120 or IGPI:3120 or CS:1210.

SOC:4200 Sociology of Religion 3 s.h.
Introduction to the study of religion from a sociological perspective; religions exist in social contexts, are shaped by contexts in which they are embedded, and then often change those social contexts; to understand the relation between religions and other social systems, we must examine the sociological as well as the historical, anthropological, social psychological, and political impacts; students will study religious organizations critically and objectively, exploring and debating classical sociological theories pertaining to religions, as well as contemporary theories that predict religious behavior; social scientific perspective will be presented.

SOC:4225 The Social Psychology of Leadership 3 s.h.
Techniques, proven by research, that enhance students' ability to know, work with, and lead people; recent research in social psychology, how it applies to practical leadership problems.

SOC:4230 Sociology of Self-Improvement 3 s.h.
How self-improvement as a cultural goal shaped development of political, business, educational, and religious institutions in the United States; history of self-improvement movement and industry; selected readings that show how much self-improvement is possible and which techniques are more useful than others.

SOC:4540 Political Sociology and Social Movements 3 s.h.
Social unrest; crowd behavior; social movements treated as a form of social change. Prerequisites: SOC:1030 or SOC:1010.

SOC:4680 Corruption: The Social Scientific Perspectives 3 s.h.
Social scientists and policy makers alike recognize corruption as an obstacle to economic development, democratic governance, and human rights around the world; students survey recent research from sociology, criminology, political science, and anthropology that addresses causes and consequences of corruption; why individuals engage in corrupt behavior, how organizations affect patterns of corrupt transactions, and how rates of corruption impact and are impacted by political regimes; consequences that corruption has for social inequality, civic mobilization, lives of women and immigrants, and stability of autocratic governments. Same as CRIM:4680.

SOC:4800 Research Practicum in Sociology 3 s.h.
Students engage in a sociological research activity that is not related to an honors project, conducted under the supervision of (or in collaboration with) a faculty member.

SOC:4820 Sociology of Sexuality 3 s.h.
Sociological perspectives on sexuality, including theoretical and conceptual developments, empirical regularities, and social implications; sexual expression in the United States. Prerequisites: SOC:1010 or SOC:1030. Same as GWSS:4820.

SOC:4900 Selected Topics in Sociology 3 s.h.
Topics vary.

SOC:4909 Graduation Portfolio 0 s.h.
Submission of final graduation portfolio first assembled in capstone course required for sociology major. Corequisites: SOC:4910.

SOC:4910 Capstone Course in Sociology and Criminology 3 s.h.
Senior project illustrating student's accomplishments during the undergraduate career; prepared in collaboration with sociology faculty member or other experts in the student's area of sociological interest; record for student's own reflection, information for potential employers and graduate programs. Prerequisites: SOC:2130 and (SOC:2170 or CRIM:2470). Requirements: major GPA of 2.00.

SOC:4920 Social Services Organization Internship 3 s.h.
Student volunteer work with social services organizations. Prerequisites: SOC:1010 with a minimum grade of C or SOC:1030 with a minimum grade of C or SOC:1310 with a minimum grade of C or SOC:2810 with a minimum grade of C. Requirements: sociology major or minor, and junior standing.

SOC:4930 Teaching Internship 3 s.h.
Experience providing supervised support for instructors teaching basic courses in sociology. Requirements: appointment as sociology undergraduate teaching aide.

SOC:4950 Sociology Criminology Student Ambassador 1 s.h.
Ambassadors provide information about the Department of Sociology and Criminology to incoming and visiting students, university community, and broader community; conduct tours; meet with students and parents; review curriculum; provide information on opportunities; coordinate events; and update materials for prospective and incoming students. Requirements: sociology or criminology major. Same as CRIM:4950.

SOC:4990 Directed Individual Study arr.

SOC:4997 Honors Seminar 1 s.h.
Topic development for senior honors projects. Offered spring semesters. Requirements: sociology honors standing.

SOC:4998 Honors Research arr.
Research projects under faculty supervision.

SOC:5110 History of Sociological Theory 3 s.h.
Ideas of major 19th- and 20th-century social thinkers (e.g., Marx, Weber, Durkheim, Simmel, Mead).

SOC:5130 Sociology of Education 3 s.h.
Effects of school and school organization on educational outcomes; course-taking patterns and tracking, desegregation, differences in school sector; focus on entire span of student's academic career; examination of school and organizational effects at the primary, secondary, and postsecondary levels of education. Same as EPLS:5130.

SOC:5160 Research Design and Methods 3 s.h.
Research designs; sampling designs and techniques; questionnaire construction, interviewing techniques; participant and nonparticipant observation; coding and preparation of data for analysis; measurement techniques, reliability, and validity. Requirements: SOC:6170 or graduate standing.

SOC:5250 Graduate Writing 3 s.h.
Students improve their skills in academic writing and publication; how to write abstracts and project summaries; preparation of articles for submission to professional journals; creation of grant proposals.

SOC:5310 Gender Theory 3 s.h.
Introduction to sociological analysis of gender; multiple ways that gender patterns the social world in which we live; predominant theoretical stances related to study of gender; how gender structures everyday social interaction; how social institutions (e.g., work, family) give rise to and recreate gendered meanings, expectations, structures; possibilities for interventions and change to gender system.

SOC:5510 Sociology of Health 3 s.h.
Overview of relevant theories and related research in sociology of health field; topics related to social construction of health and its historical variation; focus on social determinants of health including social stressors, labeling processes, cross-cultural differences, and epigenetics or social genomics.

SOC:5680 Sociology of Higher Education 3 s.h.
Sociological approach to study of higher education; issues of inequality and stratification in higher education; focus on relationship between higher education and larger economic and demographic processes; college access, college destinations, attainment, and returns to a college degree. Same as EPLS:5142.

SOC:5810 Education and Social Change 2-3 s.h.
Role of educational institutions, in connection with political and economic structures, in the process of social change; illumination of theories of social change through case studies of educational systems in both less-developed and industrialized nations. Same as EPLS:5210.

SOC:6080 Master's Thesis arr.

SOC:6140 Seminar: Selected Topics in Sociological Theory 3 s.h.

SOC:6170 Introduction to Sociological Data Analysis 3 s.h.
Statistical measures for descriptive methods and association; logic of statistical inference, hypothesis testing; background essential to understanding linear models, models for categorical data analysis. Requirements: introductory statistics.

SOC:6175 Qualitative Methods 3 s.h.
Logic of qualitative research; basic skills necessary for a qualitative research project. Requirements: sociology graduate standing.

SOC:6180 Linear Models in Sociological Research 3 s.h.
Statistical techniques associated with general linear model; emphasis on multiple regression, its generalizations; corresponding computer programs. Requirements: SOC:6170 or graduate standing.

SOC:6210 Contemporary Approaches to Social Psychology 3 s.h.
Review and critical analysis of current theoretical approaches and systems of social psychological analysis. Recommendations: sociology graduate standing.

SOC:6220 Seminar: Selected Topics in Social Psychology 3 s.h.
Selected theoretical and methodological issues.

SOC:6310 Gender Stratification Seminar 3 s.h.
Occupational gender segregation; gender gap in pay; role of family caregiving in women's lower pay; evaluation of caregiving work; comparable work.

SOC:6425 Criminological Theory II 3 s.h.
Advanced study of criminological theories; contemporary criminological theories; testing criminological theories. Prerequisites: CRIM:5410. Same as CRIM:6420.

SOC:6435 Feminist Perspectives on Crime and Punishment 3 s.h.
Feminist criminology; gender theory; intersectional approaches; gender and crime; critical theories; system-involved girls and women. Recommendations: previous upper level or graduate course in sociology or criminology. Same as CRIM:6430.

SOC:6440 Crime and Health in the Life Course 3 s.h.
Patterns of physical and mental health, and deviant and criminal behavior across the life course; focus on intersection between health and deviance and crime; topics incorporate research from evolutionary biology, psychology, criminology, and public health; themes include policy, developmental context, social change, and population health. Same as CRIM:6440.

SOC:6450 Comparative Criminology 3 s.h.
Survey of theoretical and empirical literature on crime across nations with primary focus on homicide; exploration of why we even bother to study crime across nations, how crime is measured at cross-national level; where to find cross-national crime data; whether source matter for crime data across nations matters; discussion and evaluation of theoretical and empirical explanations for why some nations have more/less crime than others. Same as CRIM:6450.

SOC:6460 Criminal Punishment 3 s.h.
Sociological theories and research on criminal punishment; classical and contemporary theories; race and gender inequality in punishment; collateral consequences; research on imprisonment, community sanctions, monetary sanctions. Same as CRIM:6460.

SOC:6490 Immigration and Crime 3 s.h.
Historical trends in immigration and crime; media portrayal of immigration and its impact on public sentiment; relationship between immigration and crime at individual and aggregate levels; social impact of immigration policies including those that relate to deportation and militarization of U.S. borders. Recommendations: previous upper level or graduate course in sociology or criminology. Same as CRIM:6490.

SOC:6550 Environment and Society 3 s.h.
Examination of research at the intersection of society and environment; theories of environmental sociology, politics, and corporate social responsibility; opportunity to develop an understanding of complex relationships between human prosperity and natural environment; development of a micro-, meso-, or macro-level research project (e.g., determinants of environmental attitudes and behaviors, adoption of clean technologies by organizations, outcomes of environmental activism, diffusion of national environmental policies).

SOC:6610 Complex Organizations 3 s.h.

SOC:6740 Racial Inequality 3 s.h.
Historical and contemporary overview of race scholarship with primary focus on the United States; students track the evolution of race scholarship from Du Bois and the Chicago School to contemporary theories on racial formations, systemic racism, color-blind racism, and critical race theory.

SOC:6750 Race and Crime 3 s.h.
Relationships among race/ethnicity, crime, and the justice system through rigorous engagement with empirical research and data; emphasis on historical evolution of major branches of the justice system; sociological and criminological theories that predict racial/ethnic variation in crime and victimization; sociological, economic, and political reasons behind racial disparities in the justice system. Same as CRIM:6750.

SOC:6810 Social Stratification 3 s.h.
Classical and contemporary theories; current research on the causes and magnitude of inequality in economics, power, and prestige; social mobility; critical issues in stratification.

SOC:7010 Teaching Sociology 2-3 s.h.
Supervised preparation for teaching sociology courses; literature on teaching; course objectives, alternative teaching techniques; preparation of course syllabus, lectures, discussions, exams.

SOC:7030 Readings and Research Tutorial arr.

SOC:7090 PhD Dissertation arr.

SOC:7170 Advanced Statistical Modeling of Data 3 s.h.
Models for analysis of categorical data, including loglinear, logit, related discrete data models. Requirements: advanced graduate standing.

SOC:7175 Social Science Research: Big Data 3 s.h.
New opportunities and challenges faced by social science research with the advent of technologies that collect, store, and analyze massive human digital traces; data collection, manipulation, and curation skills; survey of computational methods commonly used in computational social science; different from other big data courses in connecting new data sources to theory-focused social science; emphasis on how to ask research questions informed by data and how to design analytical strategies to answer those questions. Prerequisites: SOC:6170 and SOC:6180.

SOC:7270 Scholarly Professionalism and Integrity I 2 s.h.
General introduction to department and discipline for entering graduate students; departmental and graduate college requirements, program and career planning, interaction with faculty members, consideration of student interests and concerns; two semesters beginning in fall. Requirements: sociology graduate standing.

SOC:7271 Scholarly Professionalism and Integrity II 2 s.h.
General introduction to department and discipline for entering graduate students; departmental and graduate college requirements, program and career planning, interaction with faculty members, consideration of student interests and concerns. Requirements: sociology graduate standing.

SOC:7400 Seminar: Selected Topics in Criminological Research 3 s.h.
Critical analysis of current research; emphasis on theoretical contributions and methodological foundations. Same as CRIM:7400.

SOC:7410 Communities and Crime 3 s.h.
Distribution of crime as rooted in community-level conditions such as concentrated affluence or poverty, racial residential segregation, unemployment, family disruption, and immigration. Requirements: sociology graduate standing. Same as CRIM:7410.

SOC:7420 Gender and Violence 3 s.h.
Research and theories on gender and violence (victimization, offending); masculinities and femininities; intersectionality approaches considering the combined impact of race, ethnicity, sexuality, gender, age, social class, etc. Same as CRIM:7430.

SOC:7440 Social Psychology of Violence 3 s.h.
Social psychological and criminological theories of aggression and violence; laboratory and observational research; contemporary theories; sources of data and research designs; interdisciplinary approaches. Recommendations: previous upper level or graduate course in sociology or criminology. Same as CRIM:7440.

SOC:7500 Seminar: Topics in Political Sociology 3 s.h.
Overview of current research in political sociology; topics related to inequality, citizenship, social change, institutions, social movements, political regimes, and globalization; survey of multiple methodological and theoretical approaches.

SOC:7620 Social Networks: Theory and Sociological Applications 3 s.h.
Relational, data-oriented approach to representing linkages or relationships among social units, and to examine the relevance of these social structures in social processes. Requirements: basic multiple regression.

SOC:7820 Seminar: Selected Topics in Social Stratification 3 s.h.
Requirements: social science graduate standing.

Criminology, Law, and Justice Courses

CRIM:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CRIM:1410 Introduction to Criminology 3 s.h.
Nature and causes of crime; the criminal justice process, correctional treatment, crime prevention. GE: Social Sciences.

CRIM:1447 Introduction to the Criminal Justice System 3 s.h.
Organization and function of criminal justice system in the United States; history, organization, and current practices of policing, criminal courts, and correctional system; sociological and criminological research on major subsystems comprising criminal justice systems.

CRIM:2210 Iowa Criminal Justice Policy and Reform 3 s.h.
Introduction to contemporary discussions of policy and reform across all stages of criminal justice system including policing, pretrial detention, sentencing, incarceration, and reentry; current practices and policies; development of applied skills in policy analysis and communication; course material extends beyond policies for crime reduction and considers policies geared towards other outcomes (i.e., reducing inequalities and racial disparities in the criminal justice system); exploration of criminal justice policies through an Iowa lens at state and local levels.

CRIM:2430 Comparative Criminal Justice Systems 3 s.h.
Criminal justice systems around the world; similarities and differences in how justice is defined and operationalized in contemporary legal traditions in terms of police, courts, and corrections examined in light of cultural norms and values; emphasis on link between societal characteristics and legal traditions; differences in defendant rights guaranteed under various legal traditions.

CRIM:2440 Student Practicum in Policing 3 s.h.
Practical application of criminal justice knowledge with physical demonstrations and hands-on exercises; physical participation includes defensive tactics, firearms instruction, and violent intruder training; students journal about student police academy topics and present to faculty. Prerequisites: CRIM:1410 or CRIM:1447. Requirements: background check.

CRIM:2460 Policing in Modern Society 3 s.h.
History, theory, and practice of policing; exploring the link between officer decision-making and department expectations; policing subculture; ethical considerations officers face; policing administration; policing/community interaction; legal issues affecting policing practice; contemporary developments in policing emergent crime types.

CRIM:2470 Research Methods in Criminology and Criminal Justice 3 s.h.
Introduction to social science research methods in the fields of criminology and criminal justice; techniques necessary for systematic analysis of research questions and program effectiveness; critical evaluation of existing empirical research and sources of criminal justice data; assessment of data quality. Prerequisites: (STAT:1020 or STAT:1030 or SOC:2160 or STAT:2010 or STAT:3510 or PSQF:4143) and (CRIM:1410 or CRIM:1447).

CRIM:3110 Communities and Crime 3 s.h.
Why do some neighborhoods have more crime than others? Why do some neighborhoods see increasing rates of crime over time, while others seemingly do not? Although many crime events occur among individuals, scholars have long noted that crime events tend to cluster in neighborhoods and places where people live; students consider explanations for why this spatial patterning occurs; research methods that have been used to learn about crime in spatial context, classic and contemporary studies of this issue, and approaches to crime prevention that involve focusing on neighborhood or place, rather than simply on individuals. Prerequisites: CRIM:1410 or CRIM:1447.

CRIM:3250 Drugs, Deviance, and Social Control 3 s.h.
Introduction to social reality of drug use, drug users, and attempts to control drug behavior; exploration of relationship to crime and deviance, medicalization, and movements aimed at drugs.

CRIM:3260 Immigration and Crime 3 s.h.
Students are provided with a solid foundation to understanding key issues in immigration-crime debates; central to this is a critical examination of historical trends in immigration and its relationship to crime, media portrayal of immigration and its impact on public sentiment, relationship between immigration and crime at individual and aggregate levels, emergence of crimmigration—or blurring of immigration and criminal justice policies since the 1980s, and social impact of immigration policies including those that relate to deportation and militarization of U.S. borders.

CRIM:3400 Criminology Mentoring Program 1 s.h.
Career search through self-exploration, research, and discussion in area of criminology; preparation for criminology capstone and/or internship program; creation of an individual development plan; individual meetings with instructor at beginning and end of semester; bimonthly meetings to discuss aspects of criminology from a practical perspective; identification of student interests and potential career paths.

CRIM:3414 Criminology of Genocide 3 s.h.
Legal, social, and human causes and consequences of genocide in the 20th and 21st centuries; focus on the definition and dynamics of genocide, theoretical frameworks that help explain causality, dynamics, and consequences of genocide, and law, justice, and accountability for war crimes and genocide in the modern era.

CRIM:3415 Global Criminology 3 s.h.
Crime and the control of crime at the transnational and sub-national levels of analysis; focus on non-U.S. societies; consequences of economic, political, and cultural globalization.

CRIM:3416 Race, Crime, and Justice 3 s.h.
Extent and nature of racial disparities in offending and victimization; interpretation of patterns using various theoretical approaches; examination of race inequalities across many stages of criminal justice process.

CRIM:3417 Community Corrections 3 s.h.
Community corrections; probation, parole, intermediate sanctions (boot camps, intensive supervision, electronic monitoring); contemporary issues in community supervision of offenders.

CRIM:3420 Juvenile Delinquency 3 s.h.
Theories of juvenile delinquency; individual, neighborhood, and societal explanations of delinquency; research on families, schools, peers, neighborhoods, gangs, and delinquency.

CRIM:3421 Gangs and Gang Crime 3 s.h.
Criminology; sociology; theories of gangs and gang crime; violent crime; communities and crime; societal explanations of gangs; research on delinquency, peers, and identity; policing and gangs; crime prevention.

CRIM:3422 A Critical History and Exploration of Mass Incarceration and Reentry 3 s.h.
Explores the historical context leading to the current state of mass incarceration through the legislation of mandatory minimums, the direction of law enforcement toward marginalized populations, and the overcriminalization of nonviolent offenses. Addresses reentry and recidivism; analyzes the "Second Prison" of disenfranchisement and isolation of people formerly incarcerated; and explores the rise in calls for reform including a range of proposed options from system change to abolition.

CRIM:3425 Women, Crime, and Justice 3 s.h.
Overview of women's experiences with crime and criminal justice system, with reference to experiences of men for purposes of comparison; role of race, ethnicity, and poverty in women's experiences; causes of crime, inequalities in police-citizen interactions, imprisonment, and other aspects of criminal justice system experience. Same as GWSS:3425.

CRIM:3437 American Crime 3 s.h.
Prevailing issues in criminology; extent and nature of disparities in offending and victimization, interpretation of patterns using various theoretical approaches; evaluation of crime-control policies. Prerequisites: CRIM:1410 or CRIM:4430 or CRIM:3420.

CRIM:3450 Criminal Legal System 3 s.h.
Discretionary decision-making in U.S. criminal courts from arrest through sentencing; legal and sociolegal issues relevant to each stage of felony adjudication; sociological and social-psychological theories of decision-making in adjudication, empirical research testing these theories.

CRIM:3600 Crime and Public Policy 3 s.h.
Policies having to do with crime, delinquency, or deviance are often heavily debated; examination of certain crime-related policies including the theories that motivate them, research methods and design used to evaluate them, and prior studies that investigate whether they do, in fact, accomplish stated goals; students engage with a diversity of topics and policies including those dealing with individuals, groups, criminal justice institutions, geographic areas, and more. Prerequisites: CRIM:1410.

CRIM:4120 Environmental Criminology 3 s.h.
Macro-criminological theories tend to focus on sociodemographic correlates of crime (e.g., poverty), the basic question asked in environmental criminology is how does the built environment (e.g., roads, buildings, tourist destinations, etc.) shape where and when crime occurs? Students gain a more sophisticated understanding of spatial-temporal patterns of crime as opposed to garden variety application of peoples' routine activities; topics include seasonality and time of day, near repeat victimization, ambient population, geometry of crime, and offenders' journey to crime. Prerequisites: CRIM:1410 and (SOC:2170 or CRIM:2470).

CRIM:4300 Gender and Violence 3 s.h.
Focus on gendered violence, including violence against women and members of LGBTQ+ communities; relationship between masculinities and violence; ways in which gender, race, ethnicity, age, and social class combine to explain gendered violence; theories and empirical research.

CRIM:4400 Internship in Criminal Justice and Corrections 3 s.h.
Supervised fieldwork in a criminal justice or correctional agency. Prerequisites: (CRIM:1410 or CRIM:1447) and (CRIM:2430 or CRIM:2460 or CRIM:3415 or CRIM:3416 or CRIM:3417 or CRIM:3420 or CRIM:3437 or CRIM:3450 or CRIM:4420 or CRIM:4430 or CRIM:4450 or CRIM:4460). Requirements: criminology, law, and justice major or minor, and junior standing.

CRIM:4410 Treatment Interventions in Corrections 3 s.h.
Introduction to treatment interventions utilized in the criminal justice system that target some of the special populations seen within the system as a whole; specific populations may include mental health, substance abuse, sex offenders, and domestic violence; emphasis on evidence-based practices and successful program outcomes with focus on identification and discussion of ethical issues and concerns that arise when providing specialized services to this population, as well as the sometimes difficult mixture of treatment and safety/security. Prerequisites: CRIM:1410 or CRIM:1447. Requirements: junior, senior, or graduate standing.

CRIM:4420 Criminal Punishment 3 s.h.
Sociological theories and research on criminal punishment; classical and contemporary theories; research on imprisonment and capital punishment.

CRIM:4430 Interpersonal Violence in Society 3 s.h.
Extent and nature of interpersonal violence in societies, in general and for specific population subgroups; theoretical explanations for the phenomenon; alternative ways of defining and responding to violence across various social contexts; application of scientific method; relevant literatures from multiple disciplines including sociology, anthropology, criminology, psychology, and behavioral economics; types of violence defined as illegal and those which are deviant but not illegal.

CRIM:4440 Sociology of White-Collar Crime 3 s.h.
Critical perspectives on causes and consequences of white-collar crime; definitions and types; criminological, social-psychological, and rational-choice theories; political and economic causes of white-collar crime under capitalism and socialism; rates and patterns of white-collar criminality across different social groups (defined by racial, ethnic, class, and gender attributes); control, prevention, and criminal justice response.

CRIM:4450 Juvenile Justice: A Sociolegal Perspective 3 s.h.
Examination of social, historical, and legal foundations of juvenile justice system in the United States; adjudication processes in juvenile justice, transfer of juveniles to criminal court, contemporary juvenile court, community-based corrections programs, legalities of juvenile system; current and future directions in juvenile justice.

CRIM:4460 Sociology of Law 3 s.h.
Conceptual, historical, and theoretical issues of law and operation of the criminal justice system; theory and research on law and the criminal justice system.

CRIM:4680 Corruption: The Social Scientific Perspectives 3 s.h.
Social scientists and policy makers alike recognize corruption as an obstacle to economic development, democratic governance, and human rights around the world; students survey recent research from sociology, criminology, political science, and anthropology that addresses causes and consequences of corruption; why individuals engage in corrupt behavior, how organizations affect patterns of corrupt transactions, and how rates of corruption impact and are impacted by political regimes; consequences that corruption has for social inequality, civic mobilization, lives of women and immigrants, and stability of autocratic governments. Same as SOC:4680.

CRIM:4800 Research Practicum in Criminology 3 s.h.
Students engage in a criminology research activity that is not related to an honors project, conducted under the supervision of (or in collaboration with) a faculty member.

CRIM:4930 Teaching Internship 1-3 s.h.
Students gain teaching experience by providing supervised support for instructors in introductory-level courses in criminology. Requirements: criminology undergraduate teaching aide appointment.

CRIM:4950 Sociology Criminology Student Ambassador 1 s.h.
Ambassadors provide information about the Department of Sociology and Criminology to incoming and visiting students, university community, and broader community; conduct tours; meet with students and parents; review curriculum; provide information on opportunities; coordinate events; and update materials for prospective and incoming students. Requirements: sociology or criminology major. Same as SOC:4950.

CRIM:4990 Directed Individual Study 1-3 s.h.
Students pursue interests not covered in other courses.

CRIM:4998 Honors Research arr.
Honors research projects under faculty supervision.

CRIM:5120 Introduction to Criminal Justice Systems 3 s.h.
Critically explore the criminal justice system and its impact on communities across the U.S. Topics include crime and criminalization, policing, courts, prisons, community supervision, immigration detention centers, and the juvenile justice system. Recommendations: some general knowledge of the criminal justice system terminology.

CRIM:5410 Criminological Theory I 3 s.h.
Foundations of theoretical development; theory construction; classical criminological theories; intro to contemporary theories.

CRIM:5420 Crime and Public Policy 3 s.h.
Examines selected crime-related policies, focusing on the theories that motivate them, the research methods and designs used to evaluate them, and previous studies that investigate whether they achieve their stated goals.

CRIM:6080 Master's Thesis arr.

CRIM:6420 Criminological Theory II 3 s.h.
Advanced study of criminological theories; contemporary criminological theories; testing criminological theories. Prerequisites: CRIM:5410. Same as SOC:6425.

CRIM:6430 Feminist Perspectives on Crime and Punishment 3 s.h.
Feminist criminology; gender theory; intersectional approaches; gender and crime; critical theories; system-involved girls and women. Recommendations: previous upper level or graduate course in sociology or criminology. Same as SOC:6435.

CRIM:6440 Crime and Health in the Life Course 3 s.h.
Patterns of physical and mental health, and deviant and criminal behavior across the life course; focus on intersection between health and deviance and crime; topics incorporate research from evolutionary biology, psychology, criminology, and public health; themes include policy, developmental context, social change, and population health. Same as SOC:6440.

CRIM:6450 Comparative Criminology 3 s.h.
Survey of theoretical and empirical literature on crime across nations with primary focus on homicide; exploration of why we even bother to study crime across nations, how crime is measured at cross-national level; where to find cross-national crime data; whether source matter for crime data across nations matters; discussion and evaluation of theoretical and empirical explanations for why some nations have more/less crime than others. Same as SOC:6450.

CRIM:6460 Criminal Punishment 3 s.h.
Sociological theories and research on criminal punishment; classical and contemporary theories; race and gender inequality in punishment; collateral consequences; research on imprisonment, community sanctions, monetary sanctions. Same as SOC:6460.

CRIM:6490 Immigration and Crime 3 s.h.
Historical trends in immigration and crime; media portrayal of immigration and its impact on public sentiment; relationship between immigration and crime at individual and aggregate levels; social impact of immigration policies including those that relate to deportation and militarization of U.S. borders. Recommendations: previous upper level or graduate course in sociology or criminology. Same as SOC:6490.

CRIM:6750 Race and Crime 3 s.h.
Relationships among race/ethnicity, crime, and the justice system through rigorous engagement with empirical research and data; emphasis on historical evolution of major branches of the justice system; sociological and criminological theories that predict racial/ethnic variation in crime and victimization; sociological, economic, and political reasons behind racial disparities in the justice system. Same as SOC:6750.

CRIM:7030 Readings and Research Tutorial arr.

CRIM:7090 PhD Dissertation arr.

CRIM:7400 Seminar: Selected Topics in Criminological Research 3 s.h.
Critical analysis of current research; emphasis on theoretical contributions and methodological foundations. Same as SOC:7400.

CRIM:7410 Communities and Crime 3 s.h.
Distribution of crime as rooted in community-level conditions such as concentrated affluence or poverty, racial residential segregation, unemployment, family disruption, and immigration. Requirements: sociology graduate standing. Same as SOC:7410.

CRIM:7430 Gender and Violence 3 s.h.
Research and theories on gender and violence (victimization, offending); masculinities and femininities; intersectionality approaches considering the combined impact of race, ethnicity, sexuality, gender, age, social class, etc. Same as SOC:7420.

CRIM:7440 Social Psychology of Violence 3 s.h.
Social psychological and criminological theories of aggression and violence; laboratory and observational research; contemporary theories; sources of data and research designs; interdisciplinary approaches. Recommendations: previous upper level or graduate course in sociology or criminology. Same as SOC:7440.

Sociology, BA

A bachelor's degree with a major in sociology provides a liberal arts and sciences education. Sociology provides a broad foundation for a number of careers that require a deep understanding of human interactions and behaviors. Though broad in scope, sociology can be broken down into many marketable specializations, including these at the University of Iowa: family and health services, human relations and business, social psychology, and social and political organization.

The department has an active undergraduate organization, the Sociology and Criminology Club, which is open to all interested students. The student-run group sponsors speakers, films, and career days; conducts study groups; and facilitates group volunteerism.

Learning Outcomes

Students majoring in sociology will be able to:

- identify how sociological concepts and theories relate to everyday life;
- use a critical lens to better understand human behavior and societies;
- articulate the importance of evidence and scientific methods for explanations of social phenomena;
- identify the characteristics of high-quality data and methods in sociological research;
- identify disciplinary standards for both the qualitative and quantitative analysis of data; and
- use their sociological knowledge and skills to engage with and impact the world around them.

Requirements

The Bachelor of Arts with a major in sociology requires a minimum of 120 s.h., including at least 36 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Transfer students must earn at least 18 s.h. in sociology coursework at the University of Iowa; transfer courses must be approved by a sociology advisor.

The major offers two optional tracks for students with an interest in one of the following concentrations: family and health services, or human relations and business.

Students who earn the major in sociology can earn the major in criminology, law, and justice. No more than 9 s.h. of major coursework can be applied to both of the majors. Students who earn both majors may not complete a minor in either area.

Students may count up to 56 s.h. of coursework from the Department of Sociology and Criminology toward credit required for the Bachelor of Arts degree. BA students who are graduating with a double major in the department (sociology and criminology, law, and justice) may apply more than 56 s.h. from the department toward their degree, but they must earn at least 56 s.h. of credit in courses outside the department in order to graduate.

Students who earn the major in sociology may earn a minor in criminology, law, and justice. No more than 3 s.h. can count toward both the major and minor.

Students who earn the major in sociology may not earn the sociology minor.

In planning to complete the major, students must take courses in the proper sequence. Introduction to Sociology (SOC:1010) is a prerequisite for all required core theory and methods courses. Statistics is a prerequisite for the more advanced methods course. These introductory courses lay the foundation for all other work in the major. The recommended sequence for the major's core requirements is SOC:1010, SOC:2130 Sociological Theory, an approved statistics course, and SOC:2170 Research Methods. See the Four-Year Graduation Plan under Academic Plans [p. 1029] in this section of the catalog.

The BA with a major in sociology requires the following work.

Requirements	Hours
Introductory Sociology Course	3-4
Theory, Statistics, and Methods Courses	9-10
Electives	21
Capstone Course	3
Graduation Portfolio	
Optional Tracks	

Introductory Sociology

Course #	Title	Hours
This course:		
SOC:1010	Introduction to Sociology	3-4

Theory, Statistics, and Methods

Course #	Title	Hours
Both of these (completed as soon as possible):		
SOC:2130	Sociological Theory	3
SOC:2170	Research Methods	3
One of these (completed as soon as possible):		
SOC:2160	Applied Statistics for Social Scientists	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2010	Statistical Methods and Computing	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

Electives

Students complete 21 s.h. of elective coursework in sociology (prefix SOC). Four of the required electives must be advanced, chosen from sociology courses numbered 3000–4903, SOC:4920 Social Services Organization Internship, or SOC:4998 Honors Research. Two of the four advanced required electives must be taken after (and not concurrent with) the completion of SOC:2130 Sociological Theory, SOC:2170 Research Methods, and an additional approved course from the "Theory, Statistics, and Methods" list. Students can use a maximum of two criminology, law, and justice courses (prefix CRIM) toward the electives requirement. With permission, students may use graduate courses in sociology numbered 5000 or above to satisfy the electives requirement.

The following courses may not be used as electives.

Course #	Title	Hours
SOC:1000	First-Year Seminar	1-2
SOC:4800	Research Practicum in Sociology	3
SOC:4910	Capstone Course in Sociology and Criminology	3
SOC:4930	Teaching Internship	3
SOC:4990	Directed Individual Study	arr.
SOC:4997	Honors Seminar	1

Capstone Course

All students complete a capstone course, which illustrates their accomplishments and includes assembling a portfolio. Students may take it as early as spring of their junior year, as long as they have completed SOC:2130 Sociological Theory, SOC:2170 Research Methods, and an additional approved course from the "Theory, Statistics, and Methods" list.

Course #	Title	Hours
One of these:		
SOC:4800	Research Practicum in Sociology	3
SOC:4910	Capstone Course in Sociology and Criminology	3
SOC:4920	Social Services Organization Internship	3

Graduation Portfolio

During their last semester, all students enroll in the following course, in which they submit the portfolio they assembled in the capstone course.

Course #	Title	Hours
SOC:4909	Graduation Portfolio	0

Optional Tracks

Family and Health Services Track

The family and health services track requires a minimum of 15 s.h. of credit, including 12 s.h. of coursework taken at the University of Iowa. It is open to sociology majors who are interested in understanding family structures and practices, differences between and within families, and those social institutions and forces that shape families or are shaped by them. Additionally, the track cultivates students' understanding of the social context of health, illness, and health care. It is especially well-suited for students who are interested in pursuing careers in the fields of social service and health.

Students must satisfy all requirements for the sociology major. They may count courses taken for the track as sociology electives for the major.

The family and health services track requires the following coursework.

Course #	Title	Hours
Required Courses		
6 s.h. from these:		
SOC:1310	Gender and Society	3
SOC:2710	The American Family	3
SOC:3510	Medical Sociology	3
Electives		
9 s.h. from these:		
SOC:2064	African American Families: Urban and Suburban	3
SOC:2810	Social Inequality	3
SOC:3171	Drugs and Society	3
SOC:3220	Sociology of Mental Health	3
SOC:3750	Born in the USA: Fertility and Reproduction	3
SOC:4230	Sociology of Self-Improvement	3
SOC:4820	Sociology of Sexuality	3
CRIM:3420	Juvenile Delinquency	3
CRIM:4430	Interpersonal Violence in Society	3
Or select electives from these graduate courses, with approval of instructor:		
SOC:6220	Seminar: Selected Topics in Social Psychology (when topic is life course)	3
SOC:6310	Gender Stratification Seminar	3
Students may also choose the remaining required course as an elective		

Human Relations and Business Track

The human relations and business track requires a minimum of 15 s.h. of credit, including 12 s.h. of coursework taken at the University of Iowa. It is open to sociology majors who are interested in understanding the macro- and micro-level processes that affect the ability to understand and manage organizations, as well as the groups and individuals that compose them. The track provides intensive training in both theoretical and empirical approaches to organizations and combines micro-level insights into work groups with macro-level perspectives on the influence of organizations' environments. It is especially well suited for students who are interested in pursuing careers in various services-providing sectors such as business services, educational services, social assistance, or government.

Students must satisfy all requirements for the sociology major. They may count courses taken for the track as sociology electives for the major.

The human relations and business track requires the following coursework.

Course #	Title	Hours
Required Courses		
6 s.h. from these:		
SOC:3610	Organizations and Modern Society	3
SOC:3880	The Sociology of Networks	3
SOC:4225	The Social Psychology of Leadership	3
Electives		
9 s.h. from these:		
SOC:2810	Social Inequality	3
SOC:3110	Race, Organizations, and Workplace	3
SOC:3215	Digital Footprints: Sociology in the Age of Social Media	3
SOC:3530	Social Psychology of Small Groups	3

SOC:3650	Education, Schools, and Society	3
SOC:4230	Sociology of Self-Improvement	3
SOC:4540	Political Sociology and Social Movements	3
CRIM:4440	Sociology of White-Collar Crime	3
Or select electives from these graduate courses, with approval of instructor:		
SOC:6610	Complex Organizations	3
SOC:7620	Social Networks: Theory and Sociological Applications	3
SOC:7820	Seminar: Selected Topics in Social Stratification (when topic is social capital)	3

Emphasis Areas

The following elective courses are grouped by emphasis for students who may want to cluster their electives according to one of the following areas of interest. The emphasis area courses are not tracks. See Courses [p. 1017] in this section of the catalog for a complete list of sociology courses.

Social Psychology

Course #	Title	Hours
SOC:1220	Principles of Social Psychology	3
SOC:3220	Sociology of Mental Health	3
SOC:3530	Social Psychology of Small Groups	3
SOC:4225	The Social Psychology of Leadership	3
SOC:4230	Sociology of Self-Improvement	3

Social and Political Organization

Course #	Title	Hours
SOC:2810	Social Inequality	3
SOC:2830	Race and Ethnicity	3
SOC:3610	Organizations and Modern Society	3
SOC:3650	Education, Schools, and Society	3
SOC:3880	The Sociology of Networks	3
SOC:4820	Sociology of Sexuality	3

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a grade-point average (GPA) of at least 3.33 in all University of Iowa courses and in all sociology courses. In order to graduate with honors in sociology, the following coursework must be completed.

Course #	Title	Hours
SOC:4997	Honors Seminar	1
SOC:4998	Honors Research (honors thesis)	2-3

The honors thesis is prepared under faculty supervision. It gives students the opportunity to conduct sociological research in close consultation with a faculty member of the student's choice.

Honors students must also take at least one sociology course numbered 3000 or above with honors designation, including graduate courses (honors designation requires instructor approval). Learn more about honors courses on the University of Iowa Honors Program website.

National Honor Society

The department sponsors a chapter of Alpha Kappa Delta International Sociology Honor Society. Students who have a cumulative GPA of 3.30, a sociology GPA of at least 3.00 (with four sociology courses), and have attained junior or higher standing are considered for membership. Consult the Alpha Kappa Delta faculty advisor for details.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the sociology major.

Career Advancement

The major provides background for employment in fields such as human services, criminal justice, corrections, sales, public relations, advertising, personnel, applied social research, community organization, and teaching social science in secondary schools. It also offers an integrated package of courses, research training, writing enhancement, international perspectives, and internships to provide graduates with impressive credentials.

The sociology degree provides a foundation for graduate or professional study in social work, urban planning, law, criminal justice, social policy, and similar areas. Finally, the major prepares students to work toward advanced degrees in sociology, which qualify them for college or university teaching and work in academia, private business, and governmental research or organizations.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Sequencing of coursework is important in meeting the four-year plan.

Before the fifth semester begins: SOC:1010 Introduction to Sociology or equivalent, and one sociology elective.

Before the seventh semester begins: SOC:2130 Sociological Theory, a required statistics course, one more sociology elective, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: SOC:2170 Research Methods and one more sociology elective.

During the eighth semester: enrollment in all remaining coursework in the major, including a capstone course, SOC:4909 Graduation Portfolio, and the last two sociology electives; all remaining GE CLAS Core courses; and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives;

International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e Students have the option to choose one of two tracks in the major: family and health services, or human relations and business.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Upper-level sociology courses (prefix SOC) are numbered 3000 or above. Two of the upper-level electives must be taken after (and not concurrent with) the completion of SOC:2130, SOC:2170, and an approved introductory statistics course.

h May be taken as early as spring of the junior year, as long as students have completed SOC:2130, SOC:2170, and one of the approved statistics courses.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Criminology, Law, and Justice, BA

The criminology, law, and justice major examines issues related to race and ethnic diversity, gender, and poverty, heightening awareness of these important topics. Students learn about sociological explanations for crime and criminal justice; the operation of law and the criminal justice system, including their complex interplay with other institutions, such as the economy and politics; and important data sources on crime in the United States and internationally.

The department has an active undergraduate organization, the Sociology and Criminology Club, which is open to all interested students. The student-run group sponsors speakers, films, and career days; conducts study groups; and facilitates group volunteerism.

Learning Outcomes

Students will be able to:

- recognize the causes and consequences of crime at the micro and macro levels and match these with prominent criminological perspectives;
- describe the interrelated institutions and processes of the criminal justice system and legal systems;
- apply theories of crime, legal systems, and criminal justice systems to explain actual and hypothetical scenarios, behaviors, and trends;
- understand the role of formal law in advanced democracies;
- explain the various social science methods of inquiry and use these to test specific criminological research questions;
- recognize and explain social inequities in crime and criminal justice processes by race, social class, gender, region, and age; and
- evaluate the effectiveness of policy interventions for altering social behavior, including those deemed illegal or harmful.

Requirements

The Bachelor of Arts with a major in criminology, law, and justice requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Transfer students must earn at least 24 s.h. in criminology, law, and justice coursework at the University of Iowa; transfer courses must be approved by a sociology advisor.

Students who earn the major in criminology, law, and justice may earn the major in sociology. No more than 9 s.h. of major coursework can be applied to both of the majors. Students who earn both majors may not complete a minor in either area.

Students may count up to 56 s.h. of coursework from the Department of Sociology and Criminology toward credit required for the Bachelor of Arts degree. BA students who are graduating with a double major in the department (criminology, law, and justice and sociology) may apply more than 56 s.h. from the department toward their degree, but they must earn at least 56 s.h. of credit in courses outside the department in order to graduate.

Students who earn the major in criminology, law, and justice may earn a minor in sociology. No more than 3 s.h. can count toward both the major and minor.

Students who earn the major in criminology, law, and justice may not earn the criminology, law, and justice minor.

Courses listed in more than one area may only be used toward one requirement.

The BA with a major in criminology, law, and justice requires the following coursework.

Requirements	Hours
Introductory Courses	6-7
Theory, Statistics, and Methods Courses	9-10
Upper-Level Sociology Requirement	3
Electives	18
Capstone Course	3
Graduation Portfolio Course	

Introductory Courses

Course #	Title	Hours
Two of these:		
CRIM:1410	Introduction to Criminology	3
CRIM:1447	Introduction to the Criminal Justice System	3
SOC:1010	Introduction to Sociology	3-4
or SOC:1030	Contemporary Social Problems	

Theory, Statistics, and Methods

Students should complete SOC:2130, and either CRIM:2470 or SOC:2170 as soon as possible.

Course #	Title	Hours
This course:		
SOC:2130	Sociological Theory	3
One of these:		
CRIM:2470	Research Methods in Criminology and Criminal Justice	3
SOC:2170	Research Methods	3
One of these:		
SOC:2160	Applied Statistics for Social Scientists	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
STAT:2010	Statistical Methods and Computing	3
STAT:3510/ IGPI:3510	Biostatistics	3
STAT:4143/ PSQF:4143	Introduction to Statistical Methods	3

Upper-Level Sociology Requirement

Course #	Title	Hours
3 s.h. from these:		
SOC:2064	African American Families: Urban and Suburban	3
SOC:2710	The American Family	3
SOC:2770	Black and White Community Politics	3
SOC:2810	Social Inequality	3
SOC:2830	Race and Ethnicity	3
SOC:3100	Critical Race Theory: Culture, Power, and Society	3
SOC:3171	Drugs and Society	3
SOC:3220	Sociology of Mental Health	3
SOC:3510	Medical Sociology	3
SOC:3530	Social Psychology of Small Groups	3
SOC:3610	Organizations and Modern Society	3
SOC:3630	The Racial Wealth Gap: Black Debt, White Debt	3
SOC:3650	Education, Schools, and Society	3
SOC:3750	Born in the USA: Fertility and Reproduction	3
SOC:3880	The Sociology of Networks	3
SOC:4000	Data Science for Social Good	3
SOC:4200	Sociology of Religion	3
SOC:4225	The Social Psychology of Leadership	3
SOC:4230	Sociology of Self-Improvement	3
SOC:4540	Political Sociology and Social Movements	3
SOC:4680	Corruption: The Social Scientific Perspectives	3
SOC:4820	Sociology of Sexuality	3

Electives

Students complete 18 s.h. of elective coursework in criminology, law, and justice (prefix CRIM). Four of the required electives must be advanced, chosen from criminology, law, and justice courses numbered 3000–4901 or CRIM:4998 Honors Research. Two of the four advanced electives must be taken after (and not concurrent with) the completion of SOC:2130 Sociological Theory and CRIM:2470 Research Methods in Criminology and Criminal Justice or SOC:2170 Research Methods, and an additional approved course from the "Theory, Statistics, and Methods" list. With permission, students may use graduate courses in sociology (prefix SOC) numbered 5000 or above to satisfy the electives requirement.

Course #	Title	Hours
18 s.h. from these:		
CRIM:2210	Iowa Criminal Justice Policy and Reform	3
CRIM:2430	Comparative Criminal Justice Systems	3
CRIM:2460	Policing in Modern Society	3
CRIM:3110	Communities and Crime	3
CRIM:3250	Drugs, Deviance, and Social Control	3
CRIM:3260	Immigration and Crime	3
CRIM:3414	Criminology of Genocide	3
CRIM:3415	Global Criminology	3
CRIM:3416	Race, Crime, and Justice	3
CRIM:3417	Community Corrections	3
CRIM:3420	Juvenile Delinquency	3
CRIM:3421	Gangs and Gang Crime	3
CRIM:3422	A Critical History and Exploration of Mass Incarceration and Reentry	3
CRIM:3425	Women, Crime, and Justice	3
CRIM:3437	American Crime	3
CRIM:3450	Criminal Legal System	3
CRIM:3600	Crime and Public Policy	3
CRIM:4120	Environmental Criminology	3
CRIM:4300	Gender and Violence	3
CRIM:4420	Criminal Punishment	3
CRIM:4430	Interpersonal Violence in Society	3
CRIM:4440	Sociology of White-Collar Crime	3
CRIM:4450	Juvenile Justice: A Sociolegal Perspective	3
CRIM:4460	Sociology of Law	3
CRIM:4680	Corruption: The Social Scientific Perspectives	3
CRIM:4998	Honors Research	1-3
Students may apply one of the following 3 s.h. courses toward the elective requirement:		
CRIM:4400	Internship in Criminal Justice and Corrections	3
CRIM:4410	Treatment Interventions in Corrections	3

Capstone Course

All students complete a capstone course, which illustrates their accomplishments and includes assembling a portfolio. Students generally take the course during their last two semesters of coursework for the major, as long as they have completed an approved statistics course; CRIM:2470 Research Methods in Criminology and Criminal Justice or SOC:2170 Research Methods; one of the introductory courses in criminology, law, and justice; SOC:2130 Sociological Theory; and at least 6 s.h. of electives.

Course #	Title	Hours
One of these:		
CRIM:4400	Internship in Criminal Justice and Corrections	3
CRIM:4800	Research Practicum in Criminology	3
SOC:4910	Capstone Course in Sociology and Criminology	3

Graduation Portfolio

During their last semester, all students must enroll in the following course, in which they submit the portfolio they assembled in the capstone course.

Course #	Title	Hours
SOC:4909	Graduation Portfolio	0

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a grade-point average (GPA) of at least 3.33 in all University of Iowa courses and in all criminology, law, and justice courses. In order to graduate with honors, the following coursework must be completed.

Course #	Title	Hours
CRIM:4998	Honors Research	1-3
SOC:4997	Honors Seminar (taken spring of junior year)	1

The honors thesis is prepared under faculty supervision. It gives students the opportunity to conduct research in close consultation with a faculty member of the student's choice.

Honors students also must take at least one criminology, law, and justice course numbered 3000 or above with honors designation, including graduate courses (honors designation requires instructor approval). Learn more about honors courses on the University of Iowa Honors Program website.

National Honor Program Society

The department sponsors a chapter of Alpha Phi Sigma Criminal Justice Honor Society. Students who have a cumulative GPA of 3.30, a criminology, law, and justice GPA of at least 3.00 (with four criminology courses), and have attained junior or higher standing are considered for membership. Consult the Alpha Phi Sigma faculty advisor for details.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the criminology, law, and justice major.

Career Advancement

The major in criminology, law, and justice provides a foundation for graduate or professional study in criminology, criminal justice, sociology, psychology, law, social work, urban planning, social policy, and similar areas. The major pairs well with majors in other disciplines, such as psychology and social work, and affords students a competitive edge when applying to graduate school in forensic psychology or social work with a corrections emphasis.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Sequencing of coursework is important in meeting the four-year plan.

Before the fifth semester begins: two introductory courses and a statistics course.

Before the seventh semester begins: both theory and methods courses, three additional introductory courses, two electives, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: a capstone course and two additional electives.

During the eighth semester: enrollment in all remaining coursework in the major, including SOC:4909 Graduation Portfolio; all remaining GE CLAS Core courses; and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Criminology, Law, and Justice, BA

Course	Title	Hours
Academic Career		
Any Semester		
GE CLAS Core: Sustainability [a]		
	Hours	**0**
First Year		
Fall		
Major: introductory criminology, law, and justice course [b, c]		3
RHET:1030 or ENGL:1200	Rhetoric: Writing and Communication or The Interpretation of Literature	3 - 4
GE CLAS Core: World Languages First Level Proficiency or elective course [d]		4 - 5
CSI:1600	Success at Iowa	1
Elective course [e]		3
	Hours	**14-16**
Spring		
Major: introductory criminology, law, and justice course [b, c]		3
RHET:1030 or ENGL:1200	Rhetoric: Writing and Communication or The Interpretation of Literature	3 - 4
GE CLAS Core: Natural Sciences with Lab [f]		4
GE CLAS Core: World Languages Second Level Proficiency or elective course [d]		4 - 5
Elective course [e]		2
	Hours	**16-18**

Second Year

Fall

Major: statistics course (STAT:1020 Elementary Statistics and Inference recommended) [c]		3
SOC:2130	Sociological Theory	3
GE CLAS Core: Understanding Cultural Perspectives [f, g]		3
GE CLAS Core: World Languages Third Level Proficiency or elective course [d]		4 - 5
Elective course [e]		3
	Hours	**16-17**

Spring

CRIM:2470 or SOC:2170	Research Methods in Criminology and Criminal Justice or Research Methods	3
Major: criminology, law, and justice elective (prefix CRIM) [h]		3
GE CLAS Core: Social Sciences [f, i]		3
GE CLAS Core: World Languages Fourth Level Proficiency or elective course [d]		4 - 5
Elective course [e]		1 - 3
	Hours	**14-17**

Third Year

Fall

Major: advanced criminology, law, and justice elective (prefix CRIM) [j]		3
Major: criminology, law, and justice elective (prefix CRIM) [h]		3
GE CLAS Core: Historical Perspectives [f]		3
GE CLAS Core: Quantitative or Formal Reasoning [f, k]		3
Elective course [e]		3
	Hours	**15**

Spring

SOC:4910 or CRIM:4800 or CRIM:4400	Capstone Course in Sociology and Criminology or Research Practicum in Criminology or Internship in Criminal Justice and Corrections	3
Major: advanced criminology, law, and justice elective (prefix CRIM) [j]		3
GE CLAS Core: Literary, Visual, and Performing Arts [f]		3
Elective course [e]		3
Elective course [e]		3
	Hours	**15**

Fourth Year

Fall

Major: advanced criminology, law, and justice elective (prefix CRIM) [j]		3
GE CLAS Core: Natural Sciences without Lab [f]		3
GE CLAS Core: Values and Society [f]		3
Elective course [e]		3
Elective course [e]		3
	Hours	**15**

Spring

SOC:4909	Graduation Portfolio	0
Major: advanced criminology, law, and justice elective (prefix CRIM) [j]		3
Major: upper-level sociology requirement course [h]		3
GE CLAS Core: International and Global Issues [f]		3
Elective course [e]		3
Elective course [e]		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [l]		
	Hours	**15**
	Total Hours	**120-128**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Take two courses from CRIM:1410, CRIM:1447, SOC:1010, SOC:1030; Note: CRIM:1410 and SOC:1010 satisfy the GE CLAS Core Social Sciences requirement and SOC:1030 satisfies the GE CLAS Core Understanding Cultural Perspectives requirement.

c Fulfills a major requirement and may fulfill a GE requirement.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Students who have previously completed SOC:1030 have already satisfied the GE CLAS Core Understanding Cultural Perspectives requirement.

h See the General Catalog for list of approved courses.

i Students who have previously completed CRIM:1410 or SOC:1010 have already satisfied the GE CLAS Core Social Sciences requirement.

j Choose courses numbered 3000-4901 or CRIM:4998. Two of the four advanced electives must be taken after (and not concurrent with) the completion of SOC:2130 and CRIM:2470 or SOC:2170, and an approved theory, statistics, and methods course.

k Students who have previously completed STAT:1020 or STAT:1030 or STAT:2010 have already satisfied the GE CLAS Core Quantitative or Formal Reasoning requirement.

l Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Sociology, Minor

Requirements

The undergraduate minor in sociology requires a minimum of 15 s.h. in sociology courses, including 12 s.h. in courses taken at the University of Iowa. The minor must include SOC:2130 Sociological Theory and a minimum of 9 s.h. in sociology courses (prefix SOC) numbered 3000–4903. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students who earn the major in criminology, law, and justice may earn a minor in sociology. No more than 3 s.h. can count toward both the major and minor.

Students who earn the major in sociology may not earn the sociology minor.

A minor in sociology is a good complement to a number of majors, particularly other social sciences, business, elementary education, or health professions.

Criminology, Law, and Justice, Minor

Requirements

The undergraduate minor in criminology, law, and justice requires a minimum of 15 s.h., including 12 s.h. in courses taken at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students who earn the major in sociology may earn a minor in criminology, law, and justice. No more than 3 s.h. can count toward both the major and minor.

Students who earn the major in criminology, law, and justice may not earn the criminology, law, and justice minor.

The minor in criminology, law, and justice requires the following coursework.

Course #	Title	Hours
One of these:		
CRIM:1410	Introduction to Criminology	3
CRIM:1447	Introduction to the Criminal Justice System	3
12 s.h. from these:		
CRIM:2210	Iowa Criminal Justice Policy and Reform	3
CRIM:2430	Comparative Criminal Justice Systems	3
CRIM:2460	Policing in Modern Society	3
CRIM:3110	Communities and Crime	3
CRIM:3250	Drugs, Deviance, and Social Control	3
CRIM:3260	Immigration and Crime	3
CRIM:3414	Criminology of Genocide	3
CRIM:3415	Global Criminology	3
CRIM:3416	Race, Crime, and Justice	3
CRIM:3417	Community Corrections	3
CRIM:3420	Juvenile Delinquency	3
CRIM:3421	Gangs and Gang Crime	3
CRIM:3425	Women, Crime, and Justice	3
CRIM:3437	American Crime	3
CRIM:3450	Criminal Legal System	3
CRIM:3600	Crime and Public Policy	3
CRIM:4120	Environmental Criminology	3
CRIM:4300	Gender and Violence	3
CRIM:4420	Criminal Punishment	3
CRIM:4430	Interpersonal Violence in Society	3
CRIM:4440	Sociology of White-Collar Crime	3
CRIM:4450	Juvenile Justice: A Sociolegal Perspective	3
CRIM:4460	Sociology of Law	3
CRIM:4680	Corruption: The Social Scientific Perspectives	3
May include one of these:		
CRIM:4400	Internship in Criminal Justice and Corrections	3
CRIM:4410	Treatment Interventions in Corrections	3

Sociology, MA

Graduate study in sociology focuses on the Doctor of Philosophy. Students are awarded the MA as they fulfill the requirements for the PhD.

Learning Outcomes

The graduate program in the Department of Sociology and Criminology develops professionals who are qualified to conduct original research in the field of sociology and serve the discipline and larger community through teaching and/or other applications of sociological and criminological knowledge.

Goals and Outcomes

- Develop the expertise to conduct original research in sociology and criminology that is publishable in scholarly outlets.
- Develop a professional skillset in research methodology commonly used in the social sciences, particularly sociology and criminology.
- Develop a professional skillset in social science theories pertaining to sociology and criminology.
- Develop professional expertise in substantive sociological and criminological research areas, which at a minimum includes graduate-level competence in both a major and minor area of research.
- Develop scholarly writing and communication skills.
- Serve the discipline and broader community as sociologists and criminologists.
- Be prepared to teach the field of sociology and/or criminology.
- Understand the goals, practices, and standards of research and applied professionals associated with the discipline of sociology and/or criminology. This includes developing a firm grasp of the principles of ethical research.

Requirements

The Master of Arts program in sociology requires 30 s.h. of graduate credit with a thesis or research paper and 38 s.h. of graduate credit without. Students must maintain a program grade-point average of at least 3.25. The program without a thesis is intended for students seeking a terminal degree and for whom a wider range of course content in sociology is appropriate.

All MA students must complete the following courses with grades of B-minus or higher.

Course #	Title	Hours
SOC:5110	History of Sociological Theory	3
SOC:5160	Research Design and Methods	3
SOC:6170	Introduction to Sociological Data Analysis	3
SOC:6180	Linear Models in Sociological Research	3
SOC:7270	Scholarly Professionalism and Integrity I	2
SOC:7271	Scholarly Professionalism and Integrity II	2

Teaching Assistantship Training

All new graduate teaching assistants (TAs) are expected to attend a three-day orientation before classes begin. In addition, SOC:7010 Teaching Sociology is required for students who wish to teach their own courses.

Admission

Admission to graduate study in sociology usually requires an undergraduate grade-point average of at least 3.25.

All applicants must complete the Graduate College application form, the supplemental sociology and criminology department application, and use the department's personal reference forms to obtain three letters of recommendation.

All application materials for fall admission must be received by Jan. 1. Evaluation of applications begins in early January.

Admission decisions are based on consideration of prior academic performance, personal reference letters, and the applicant's statement of reasons for pursuing advanced work in sociology at the University of Iowa. The department has no specific undergraduate course requirements for admission, but a background in the social sciences with some mathematical training is useful. A world language is not required for admission, and there is no world language requirement for a graduate degree in sociology. To inquire about admission, consult the director of graduate studies, Department of Sociology and Criminology.

Career Advancement

In addition to preparing students for careers in social service, criminal justice, and other areas, the sociology major offers an integrated package of courses, research training, writing enhancement, international perspective, and internships to provide graduates with impressive credentials. The degree also prepares students for further graduate or professional study in areas such as social work, urban and regional planning, law, criminal justice, and social policy. Teaching positions in colleges or universities and research positions in academic, private, and governmental organizations often require advanced degrees in sociology.

The Pomerantz Career Center and the Graduate College's Career Exploration and Planning website offer multiple resources to help students find internships and jobs.

Criminology, PhD

The PhD program in criminology provides students with comprehensive training in criminological theory, research methods, and data analysis. The program also promotes an advanced understanding of substantive issues related to criminology, including government policy and the justice system by providing students with well-rounded experiences as teachers, scholars, and researchers through rigorous interdisciplinary coursework, research training, and teaching opportunities. Paramount to the goals of the program is the formulation of critical thinking skills and the application of evidence-based reasoning and analytics to contemporary criminological issues.

The doctoral program has a research emphasis and primarily prepares criminologists for positions at colleges and universities or research positions in academic, private, and government institutions. For a summary of where the department's recent graduates have found employment, view Recent Student Placement on the Department of Sociology and Criminology website.

Graduate students work closely with faculty on collaborative research as well as developing independent research programs. In addition to valuable research experiences, students can also obtain substantial training and experience in undergraduate teaching, including online courses. The department training program includes an orientation workshop for new teaching assistants; a credited teaching seminar, SOC:7010 Teaching Sociology, for advanced graduate students; courses on instruction; and an opportunity for these graduate students to design and teach their own courses under the mentorship of faculty.

Learning Outcomes

The graduate program in the Department of Sociology and Criminology develops professionals who are qualified to conduct original research in the field of sociology and criminology and serve the discipline and larger community through teaching and/or other applications of sociological and criminological knowledge. The program's specific learning outcomes are outlined below.

Goals and Outcomes

- Develop the expertise to conduct original research in sociology and criminology that is publishable in scholarly outlets.
- Develop a professional skillset in research methodology commonly used in the social sciences, particularly sociology and criminology.
- Develop a professional skillset in social science theories pertaining to sociology and criminology.
- Develop professional expertise in substantive sociological and criminological research areas, which at a minimum includes graduate-level competence in both a major and minor area of research.
- Develop scholarly writing and communication skills.
- Serve the discipline and broader community as sociologists and criminologists.
- Be prepared to teach in the field of sociology and/or criminology.
- Understand the goals, practices, and standards of research and applied professionals associated with the discipline of sociology and/or criminology. This includes developing a firm grasp of the principles of ethical research.

Requirements

The Doctor of Philosophy program in criminology requires a minimum of 72 s.h. of graduate credit. This can include up to 30 s.h. of credit from a previous master's degree in criminology or sociology; a maximum of 3 s.h. of credit from CRIM:7030 Readings and Research Tutorial or its transferable equivalent at another institution will be counted as part of the 30 s.h. Students must maintain a program grade-point average of at least 3.25.

The PhD in criminology requires the following coursework.

Required Courses

All PhD students must complete the following courses with grades of B-minus or higher.

Course #	Title	Hours
All of these:		
CRIM:5120	Introduction to Criminal Justice Systems	3
CRIM:5410	Criminological Theory I	3
CRIM:6420	Criminological Theory II	3
SOC:5160	Research Design and Methods	3
SOC:6170	Introduction to Sociological Data Analysis	3
SOC:6180	Linear Models in Sociological Research	3

Professional Seminars

Course #	Title	Hours
Both of these:		
SOC:7270	Scholarly Professionalism and Integrity I	2
SOC:7271	Scholarly Professionalism and Integrity II	2

Research Methods and Statistics Courses

Students must complete the following courses with grades of B-minus or higher. They may substitute another course for those listed with approval from the director of graduate studies.

Course #	Title	Hours
Two of these:		
SOC:6175	Qualitative Methods	3
SOC:7170	Advanced Statistical Modeling of Data	3
SOC:7175	Social Science Research: Big Data	3

Elective Courses

Course #	Title	Hours
18 s.h. from these:		
CRIM:6430	Feminist Perspectives on Crime and Punishment	3
CRIM:6440	Crime and Health in the Life Course	3

CRIM:6450	Comparative Criminology	3
CRIM:6460	Criminal Punishment	3
CRIM:6490	Immigration and Crime	3
CRIM:6750	Race and Crime	3
CRIM:7400	Seminar: Selected Topics in Criminological Research	3
CRIM:7410	Communities and Crime	3
CRIM:7430	Gender and Violence	3
CRIM:7440	Social Psychology of Violence	3

Comprehensive Examination

The comprehensive examination consists of five questions prepared by the student's exam committee; each answer should contain no more than 2,500 words. The student should demonstrate mastery of the relevant research methods as well as the major, minor, or related fields of study for a given area. Students should pass the comprehensive examination before the start of their fourth year in the program.

Dissertation

All PhD candidates prepare a detailed prospectus of research for the dissertation within one year of the comprehensive examination. The prospectus is written in consultation with the student's dissertation committee members and should allow the committee to evaluate the feasibility of the dissertation research and make suggestions to improve it.

Students must pass an oral examination by their dissertation defense committee. The oral dissertation defense should be completed no later than five years after passing the comprehensive examination.

As students work on the dissertation they will typically be registered in CRIM:7030 Readings and Research Tutorial or CRIM:7090 PhD Dissertation.

For a detailed statement of graduate study rules, visit the Department of Sociology and Criminology website. Prospective doctoral students should examine this information carefully.

Teaching Assistantship Training

All new graduate teaching assistants (TAs) are expected to attend a three-day orientation before classes begin. In addition, SOC:7010 Teaching Sociology is required for students who wish to teach their own courses.

Admission

Admission to graduate study in criminology usually requires an undergraduate grade-point average of at least 3.25.

All applicants must complete the Graduate College application form, the supplemental sociology and criminology department application, and use the department's personal reference forms to obtain three letters of recommendation.

All application materials for fall admission must be received by Jan. 1. Evaluation of applications begins in early January.

Admission decisions are based on consideration of prior academic performance, personal reference letters, and the applicant's statement of reasons for pursuing advanced work in criminology at the University of Iowa. The department has no specific undergraduate course requirements for admission, but a background in the social sciences with some mathematical training is useful. A world language is not required for admission, and there is no world language requirement for a graduate degree in criminology. To inquire about admission, consult the director of graduate studies, Department of Sociology and Criminology.

Career Advancement

The program of study for the PhD primarily aims to prepare criminologists for academic positions in colleges and universities or for research positions in academic, private, and government institutions.

In addition to preparing students for careers in social service, criminal justice, and other areas, this major offers an integrated package of courses, research training, writing enhancement, international perspective, and internships to provide graduates with impressive credentials.

The Pomerantz Career Center and the Graduate College Career Exploration and Planning website offer multiple resources to help students find jobs.

Sociology, PhD

The graduate program in sociology provides rigorous training in theory and methods as well as in these substantive areas: crime, law, and social control; gender and family; social and political organizations (stratification, political sociology, complex organizations); and social psychology, which is ranked #3 in the country in *U.S. News and World Report*).

The doctoral program has a research emphasis and primarily prepares sociologists for positions at colleges and universities or research positions in academic, private, and government institutions. For a summary of where the department's recent graduates have found employment, view Recent Student Placement on the Department of Sociology and Criminology website.

Graduate students work closely with faculty on collaborative research as well as developing independent research programs. In addition to valuable research experiences, students also can obtain substantial training and experience in undergraduate teaching, including online courses. The department training program includes an orientation workshop for new teaching assistants; a credited teaching seminar, SOC:7010 Teaching Sociology, for advanced graduate students; courses on instruction; and an opportunity for these graduate students to design and teach their own courses under the mentorship of the faculty.

Learning Outcomes

The graduate program in the Department of Sociology and Criminology develops professionals who are qualified to conduct original research in the field of sociology and serve the discipline and larger community through teaching and/or other applications of sociological and criminological knowledge. The program's specific learning outcomes are as follows.

Goals and Outcomes

To develop the expertise to conduct original research in sociology and criminology that is publishable in scholarly outlets.

- Develop a professional skillset in research methodology commonly used in the social sciences, particularly sociology and criminology.
- Develop a professional skillset in social science theories pertaining to sociology and criminology.
- Develop professional expertise in substantive sociological and criminological research areas, which at a minimum includes graduate-level competence in both a major and minor area of research.
- Develop scholarly writing and communication skills.
- Serve the discipline and broader community as sociologists and criminologists.
- Be prepared to teach in the field of sociology and/or criminology.
- Understand the goals, practices, and standards of research and applied professionals associated with the discipline of sociology and/or criminology. This includes developing a firm grasp of the principles of ethical research.

Requirements

The Doctor of Philosophy program in sociology requires a minimum of 72 s.h. of graduate credit.

The PhD in criminology requires the following coursework.

Required Courses

All PhD students must complete the following courses with grades of B-minus or higher.

Course #	Title	Hours
SOC:5110	History of Sociological Theory	3
SOC:5160	Research Design and Methods	3
SOC:6170	Introduction to Sociological Data Analysis (required for the MA)	3
SOC:6180	Linear Models in Sociological Research (required for the MA)	3
Two elective courses in methods/statistics numbered 5000 or above		
One advanced theory course such as SOC:6110		

Professional Seminars

Course #	Title	Hours
Both of these:		
SOC:7270	Scholarly Professionalism and Integrity I	2
SOC:7271	Scholarly Professionalism and Integrity II	2

Comprehensive Examination

The comprehensive examination consists of five questions prepared by the student's exam committee; each answer should contain no more than 2,500 words. The student should demonstrate mastery of relevant research methods as well as the major, minor, or related fields of study for a given area. Students should pass the comprehensive examination before the start of their fourth year in the program.

a The graduate program provides rigorous training in theory and methods as well as in these substantive areas: Crime, Law, and Social Control; Gender and Family; Social and Political Organizations; Social Psychology. Students will work with a faculty advisor to determine an area of concentration according to the individual student's interests.

b Students must complete specific requirements in the University of Iowa Graduate College after program

admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Grade of B-minus or better is required.

d Work with faculty advisor to determine appropriate graduate level elective coursework and sequence.

e May not count SOC:7030 or any other independent study or research course towards this requirement; selected course must be approved by director of graduate studies.

f Dissertation defense.

Spanish and Portuguese

Chair

- Amber E. Brian

Undergraduate major: Spanish (BA)

Undergraduate minors: Latin American studies; Spanish; Portuguese

Undergraduate certificate: Latin American studies

Graduate degrees: MA in Spanish; MFA in Spanish creative writing; PhD in Spanish

Faculty: https://spanish-portuguese.uiowa.edu/people

Website: https://spanish-portuguese.uiowa.edu/

The Department of Spanish and Portuguese offers courses for the GE CLAS Core world language requirement, an undergraduate major, minors, and certificate, and three graduate degree programs: MA and PhD in Spanish and MFA in Spanish Creative Writing.

Faculty in the Department of Spanish and Portuguese specialize in language pedagogy, literary and cultural studies, creative writing, linguistics, and Spanish for the professions. Coursework prepares students to be multilingual global citizens, providing them with diverse cultural perspectives; critical and creative thinking skills; opportunities to develop language abilities; and awareness of contemporary and historical issues related to the Hispanic world. Spanish and Portuguese language courses are open to any student who has satisfied the course prerequisites. Beyond the GE CLAS Core world language courses, the department offers a wide range of courses on literature, writing, linguistics, and culture that serve as the foundation for the Spanish major. Additionally, the department offers a wide range of elective courses on topics such as Spanish for the professions (medicine and business), translation, and interpretation. The department also participates in multiple study abroad programs.

Undergraduate students in all majors may satisfy the World Languages requirement of the GE CLAS Core [p. 22] with courses in Spanish or Portuguese; see Language for GE CLAS Core [p.]. The department also offers courses taught in English that are approved for GE CLAS Core and a First-Year Seminar designed for undergraduates in their first year at the university.

Related Certificates and Minors

Minor: Translation for Global Literacy

The minor in translation for global literacy encourages undergraduate students to explore translation as a crucial dimension of global literacy and communication. The Department of Spanish and Portuguese offers several courses that count toward the minor. See the minor in translation for global literacy [p. 745] in the catalog for more information.

Certificate: International Business

The College of Liberal Arts and Sciences and the Tippie College of Business offer the Certificate in International Business. The program includes requirements for global business; political, environmental, and cultural contexts; and cultural immersion, which can be satisfied with a fourth semester-level world language course. For more information, see the Certificate in International Business [p. 1230] in the catalog.

Study Abroad

The department strongly encourages its students to seek opportunities for summer language study and study abroad to accelerate the language acquisition process. Many students participate in summer, semester, and year-long study abroad programs in Latin America, South America, and the Iberian Peninsula offered through other U.S. universities. In many cases, credit is transferable, and it is possible for a student to study abroad and still complete the Four-Year Graduation Plan. There are many resources available to fund research and study abroad. It may also be possible for students to apply University of Iowa financial aid to their study abroad programs. Interested students should contact a study abroad advisor at International Programs Study Abroad or see Study Abroad [p. 2215] (University College) in the catalog.

Latin America

The department highly recommends but does not require that students with a minor or certificate in Latin American studies have an in-depth Latin American cultural experience, usually through study abroad, before completing their undergraduate requirements.

In cooperation with International Programs Study Abroad, faculty members facilitate student participation in programs in many Latin American countries. University of Iowa students may enroll in programs in Argentina, Brazil, Chile, Colombia, Costa Rica, Cuba, the Dominican Republic, Honduras, Mexico, and Uruguay. Programs range from intensive language study to group programs with a special focus. The University of Iowa cosponsors these programs through various consortiums.

Study abroad courses may be counted toward requirements for the certificate and the minor with prior approval from the department.

- Major in Spanish (Bachelor of Arts) [p. 1053]

Minors

- Minor in Latin American Studies [p. 1059]
- Minor in Spanish [p. 1061]
- Minor in Portuguese [p. 1063]

Certificates

- Certificate in Latin American Studies [p. 1064]

Graduate Programs of Study

- Master of Arts in Spanish [p. 1066]
- Master of Fine Arts in Spanish Creative Writing [p. 1068]
- Doctor of Philosophy in Spanish [p. 1070]

Facilities

Center for Language and Culture Learning

The Center for Language and Culture Learning provides a wide variety of facilities and services, including a 24-computer Instructional Technology Center (ITC) and five All-In-One Studios/small group study rooms equipped with video production and editing software, a Computer Assisted Language Learning Lab with 25 computers integrated with Sanako software for language practice, and virtual reality hardware and development space.

The center provides spaces for quiet study as well as for group meetings. Departments, programs, and student organizations are welcome to host conversation hours, film nights, study groups, workshops, and more. Peer education services include peer tutoring programs in many languages, with both in-person and online availability, as well as Independent Language Study, through which faculty, staff, or students can be paired with a tutor to learn a language not taught at the university. Tutors are trained to use the Three Ms for Effective Learning, including developing a growth mindset, using memory strategies to retain knowledge, and reflecting on learning gains.

Courses

- Spanish Courses [p. 1044]
- Portuguese Courses [p. 1050]
- Latin American Studies [p. 1051]

Spanish and Portuguese language courses are open to all students who have satisfied the specified course prerequisites.

Spanish Course Levels

Basic Spanish Courses

These courses are included in the number range 1000–1900.

Spanish Level 1

These courses are included in the number range 2000–2999. Students should take these courses at the start of the Spanish major and minor.

Spanish Level 2

These courses are included in the number range 3000–3999. Students should have at least one Spanish Level 1 course before starting these courses. Some courses have additional prerequisites.

- Language skills courses are numbered 3000–3099.
- Hispanic linguistics courses are numbered 3100–3199.
- Spanish American literature and culture courses are numbered 3200–3599.
- Spanish literature and culture courses are numbered 3600–3899.

Spanish Level 3

These courses are included in the number range 4000–4999. Undergraduates should take these courses during their last semesters of enrollment. These courses also are open to MA students. All of these courses require a research paper. Prerequisites vary.

Spanish Graduate Level

These courses are included in the number range 5000–7600.

Spanish Courses

SPAN:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

SPAN:1001 Elementary Spanish I 4 s.h.
Emphasis on oral and written skills. Taught in Spanish. Recommendations: no previous study of Spanish. GE: World Languages First Level Proficiency.

SPAN:1002 Elementary Spanish II 4 s.h.
Continuation of SPAN:1001; emphasis on oral and written skills. Taught in Spanish. Requirements: SPAN:1001. GE: World Languages Second Level Proficiency.

SPAN:1003 Elementary Spanish Review 5 s.h.
Intensive treatment of material presented in SPAN:1001 and SPAN:1002. Taught in Spanish. Requirements: two years of secondary school Spanish. GE: World Languages Second Level Proficiency.

SPAN:1070 Language Attitudes: Is How You Sound How You Are Seen? 3 s.h.
Pretend that you are making a phone call to ask about ordering a textbook and the person who answers is a stranger to you; you will immediately start to form opinions about that person (and about any other talkers you interact with) based upon the way they speak—where they are from, whether they are a native speaker of English, and even how well educated they are—and whether you are aware or not, these opinions and impressions you have will influence your interaction with that person and are based in language ideologies that all people have regarding how others sound; students explore common language ideologies and reflect upon their own. Taught in English. GE: Understanding Cultural Perspectives. Same as LING:1070.

SPAN:1501 Intermediate Spanish I 4 s.h.
Communication in speaking and writing; cultural topics. Taught in Spanish. Requirements: SPAN:1002 or SPAN:1003. GE: World Languages Third Level Proficiency.

SPAN:1502 Intermediate Spanish II 4 s.h.
Continuation of SPAN:1501. Requirements: SPAN:1501. GE: World Languages Fourth Level Proficiency.

SPAN:1503 Accelerated Intermediate Spanish 6 s.h.
Course sequence SPAN:1501 and SPAN:1502 in one semester. Requirements: SPAN:1002 or SPAN:1003. GE: World Languages Fourth Level Proficiency.

SPAN:1505 Intermediate Spanish for Heritage Speakers 5 s.h.
Focus on communication and consolidation of skills acquired from listening to or speaking Spanish at home; development or improvement of Spanish through reading and writing; emphasis on four language skills—listening, speaking, reading, and writing—via cultural and community activities. Taught in Spanish. Requirements: Spanish placement test score of 401 or higher. GE: World Languages Fourth Level Proficiency.

SPAN:1700 Latina/o/x Literature in the United States **3 s.h.**
Introduction to growing cultural production of varied Latina/o/x communities (e.g., Chicano, Puerto Rican American/Nuyorican, Cuban American) that have a strong presence in the United States; recent cultural production from borderland transcultural spaces with physical, cultural, economic, political, and mythical elements; visions of the United States from contemporary Latin American writers who recently have become U.S. residents. Taught in English. GE: Literary, Visual, and Performing Arts; Values and Society. Same as LATS:1700.

SPAN:1800 Writing and Writers From Latin America **3 s.h.**
Introduction to representative fiction and non-fiction texts from Latin America. Exploration of historical and contemporary themes from multiple regions and cultures. Readings in English translation. Taught in English. GE: World Language and Cultural Exploration.

SPAN:1810 Writing and Writers From Spain **3 s.h.**
Introduction to representative fiction and non-fiction texts from Spain. Exploration of historical and contemporary themes. Readings in English translation. Taught in English.

SPAN:2000 Spanish Language Skills: Writing **4 s.h.**
Bridge from second-year Spanish to more advanced courses in Spanish language, linguistics, and literature; emphasis on skill development in writing, critical reading in Spanish, and oral communication. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2005 Writing Global Spanish **3 s.h.**
Spanish in the digital age; linguistic varieties of Spanish spoken globally; emphasis on skill development in writing, critical reading in Spanish, and oral communication. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2010 Spanish Language Skills: Speaking **3 s.h.**
Development of conversational proficiency and cultural competence through action learning; strategic role playing and creative language use based on everyday situations in Hispanic cultures; composition skills and grammar review. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2020 Hispanic Institute: Language **3 s.h.**
Grammar essentials, written exercises, short compositions, conversational activities. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2030 Study of Language: Myths and Concepts **3 s.h.**
How linguists look at language; basic concepts of linguistics and grammar. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2040 Spanish for Heritage Speakers **3 s.h.**
Emphasis on reading and writing skills for bilingual students who have acquired Spanish listening and speaking skills at home and in their communities; focus on literacy development and registers of use; designed specifically for native or heritage speakers of Spanish. Taught in Spanish.

SPAN:2050 Spanish in the United States **3 s.h.**
Issues related to Spanish in the United States; aspects of linguistics and sociolinguistics inherent to the existence and proliferation of Spanish in the United States. Taught in English. GE: Understanding Cultural Perspectives.

SPAN:2060 Spanish Pronunciation **4 s.h.**
Pronunciation as a key element of communication in a second language; self-evaluation of pronunciation in Spanish; how sounds differ between English and Spanish; analysis of pronunciation; production exercises. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2080 Business Spanish **4 s.h.**
Effective written and oral communication in Spanish in the business world; emphasis on linguistic and cultural proficiency. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2090 Medical Spanish in Contemporary Society **4 s.h.**
Vocabulary related to medicine; grammatical concepts; health-related cultural competence; discussion of health issues concerning Hispanic communities in the U.S. and abroad. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503. Same as GHS:2090.

SPAN:2095 Activities Attendance for Spanish Majors **1 s.h.**
Attendance at Spanish literary readings, scholarly presentations, and Hispanic cultural events on the University of Iowa campus and in Iowa City, featuring visiting, local, and University of Iowa writers, filmmakers, artists, scholars, and community members. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2200 Introduction to Spanish American Cultures **3 s.h.**
Introduction to study of cultural history of Spanish America; topics range from pre-Colombian times to present; for students who are just starting work on the Spanish major or minor. Requirements: SPAN:1502 or SPAN:1503. Same as LAS:2200.

SPAN:2300 Spanish Language Skills: Reading **4 s.h.**
Close readings of literary texts from Spain and Spanish America; basic concepts of genre (narrative, poetry, theater, essay); writing about literature. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2400 Readings in Spanish Literature **3 s.h.**
Tools for improving reading skills; basic concepts for textual understanding; historical overview of literary works, with focus on literature of Spain. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2500 Readings in Spanish American Literature **3 s.h.**
Tools for improving reading skills; basic concepts for textual understanding; historical overview of literary works, with focus on Spanish American literature. Requirements: SPAN:1502 or SPAN:1503. Same as LAS:2500.

SPAN:2700 Introduction to Latin American Studies **3 s.h.**
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Taught in English. GE: World Language and Cultural Exploration. Same as IS:2700, LAS:2700, PORT:2700.

SPAN:2800 Screening Latin America **3 s.h.**
Basic introduction to contemporary Latin American societies and cultures through fiction feature films (i.e., comedies, dramas) and documentaries by major filmmakers; previous knowledge of film analysis not required. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503. Same as LAS:2800.

SPAN:2850 Brazilian Narrative in Translation **3 s.h.**
Representative readings of modern and contemporary novels, short stories, and other narrative forms; cultural background; focus on major writers. Taught in English. GE: Literary, Visual, and Performing Arts. Same as LAS:2850, PORT:2850.

SPAN:2900 Music of the Hispanic World 3 s.h.
Introduction to music of Spain and Latin America, including the United States; listening skills, music appreciation, continuing development of Spanish language skills. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503. Same as LAS:2900.

SPAN:2901 Diversity and Cultures in Spain 3 s.h.
Introduction to diversity of cultures within Spain; political, social, and economic background, cultural movements. Taught in English. GE: Values and Society.

SPAN:2905 Ecotourism and Culture in Costa Rica 3 s.h.
Based in Monteverde, Costa Rica. Explores the relationship between ecotourism and cultural preservation, examines the principles of ecotourism, its impact on local cultures and the environment, and its role in Costa Rican national identity and linguistic landscape. Critically assess sustainable tourism practices and develop culturally sensitive communication skills. Taught in English. Requirements: one semester of college-level Spanish or one year of high school-level Spanish.

SPAN:2910 Hispanic Institute: Study/Life in Spain 1 s.h.

SPAN:3000 Cultural Narratives for Heritage Speakers 3 s.h.
Development of writing skills in Spanish, focus on expository writing for academic purposes. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3010 Advanced Spanish Speaking and Writing 3 s.h.
Development of oral proficiency; secondary emphasis on continuing development of writing skills; cultural knowledge of several Spanish-speaking countries. Requirements: two courses taught in Spanish at the 2000 level or above.

SPAN:3015 Fast Fixes: Improved Spanish in Six Weeks 1 s.h.
Varied topics focused on improving common problems with Spanish grammar; emphasis on written and oral expression. Requirements: SPAN:2000 or SPAN:2005 or SPAN:3000 or SPAN:3020 or SPAN:3060.

SPAN:3020 Journalistic Writing in Spanish 3 s.h.
Spanish writing skills; introduction to style and practice of journalistic reporting and writing. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as JMC:3445, LAS:3020.

SPAN:3030 Translation Workshop: English to Spanish 3 s.h.
Introduction to translation theory and effective translation processes; examination of potential translation problems in specific areas of English to Spanish translation; primary focus on nonfiction. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3035 Translation Practicum: English to Spanish 1 s.h.
Students develop a plan of work in consultation with instructor and submit a community outreach translation project (English to Spanish) for a local nonprofit organization of their choice, periodical translation reports, and a final portfolio of their work. Taught in Spanish. Prerequisites: SPAN:3030 with a minimum grade of B.

SPAN:3050 Translation Workshop: Spanish to English 3 s.h.
Spanish to English literary translation; meaning, form and equivalence, authenticity; questions of untranslatability. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3060 Introductory Workshop on Creative Writing in Spanish 3 s.h.
Development of writing skills in Spanish through creative writing. Taught in Spanish. Requirements: one course numbered SPAN:2000 or above.

SPAN:3080 Spanish for International Business 3 s.h.
Tools for effective business communication; linguistic, sociolinguistic, and practical skills for effective oral and written communication developed through discussion of business case studies, presentations, and meetings; selected Spanish and Latin American companies examined through varied media including news and internet; role of transaction intermediaries in international trade. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3090 Spanish at Work 1 s.h.
Uses for a Spanish degree; knowledge and skills gained as a Spanish major that are in high demand among a wide variety of employers; important steps taken as a student that translate unique career dreams into reality; includes work with Pomerantz Career Center staff. Requirements: at least two courses numbered SPAN:2000 or above.

SPAN:3092 Spanish in the Community 3 s.h.
Students work directly with Spanish speakers through community-based service learning; focus on issues of interest to the local Latina/o/x community, develop oral proficiency, and enhance their civil engagement. Requirements: two courses numbered SPAN:2000 or above. Same as GHS:3092.

SPAN:3093 Teaching Spanish Heritage Speakers 3 s.h.
Focus on cutting-edge research and methods to develop suitable language curriculum for Spanish heritage speakers (SHS); topics include bilingual development, sociolinguistics, language teaching, and heritage speakers' affective needs; use of these theories to help understand and apply best practices in teaching SHS; topics also help create best practices in teaching mixed language courses for second language and heritage students. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as EDTL:3492.

SPAN:3095 Spanish Composition and Grammar 3 s.h.
Development of three types of compositions; selected readings and comprehension activities; vocabulary expansion; grammar review with exercises. Requirements: proficiency in written and oral Spanish, based on several university Spanish classes (about half the coursework towards a Spanish major), plus study abroad experience in a Hispanic country.

SPAN:3099 Spanish Linguistics Lab I 1 s.h.
Hands-on research experience collecting and analyzing linguistic data.

SPAN:3100 Structures of Spanish: Words and Sentences 3 s.h.
Basic concepts and methods for analysis of linguistics as applied to Spanish patterns of word formation (morphology) and sentence formation (syntax). Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3105 Linguistic Aspects of the Lusophone World 3-4 s.h.
Introduction to Portuguese incorporating formal (theoretical), historical, and sociolinguistic perspectives; linguistic analysis of phonetics/phonology, morphology, and syntax; origins of Portuguese and its expansion to Africa, Asia, and Latin America. Taught in English. Same as LING:3105, PORT:3105.

SPAN:3110 Spanish Sound Structure 3 s.h.
Articulation of Spanish sounds—description and practice; how Spanish sounds are organized into classes, relations among the different classes, how they are implemented in context, patterns they exhibit. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3120 Foundations in Sociolinguistics 3 s.h.
Dialects, speech communities, variation, choosing a code, solidarity and politeness, language and gender, language planning. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3130 Introduction to Bilingualism 3 s.h.
Psycholinguistic and sociolinguistic aspects of bilingualism; language usage, maintenance, attitudes, shift, transfer, loss; code-switching. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3151 Spanish Applied Linguistics 3 s.h.
Concepts of linguistic analysis applied to Spanish; focus on problematic areas of Spanish grammar, lexicon, semantics; introduction to cross-cultural pragmatics; connections between language learning, technology, and assessment; for future teachers of Spanish. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3205 Spanish Health Narratives 3 s.h.
Narratives are the central communicative act through which humans make sense of wellness and illness, life and death, always within contexts of language and culture; students focus on reading and analyzing narratives about health and health care, and opportunities to create their own narratives; particular emphasis on health care disparities and issues they present for Spanish-language communities in the United States and abroad as context for individual narratives. Taught in Spanish. Requirements: one course numbered SPAN:2000 or above. Same as GHS:3045.

SPAN:3215 Medellin 3 s.h.
Medellin, Colombia has been transformed from one of the most violent places on Earth to an award-winning city of innovation in only 20 years; introduction to the city and its people through literature, music, and a digital map project. Taught in Spanish. Requirements: at least one course numbered SPAN:2000 or above. Same as LAS:3215.

SPAN:3225 Latin American Women Writers 3 s.h.
Focus on long tradition of strong female writers in Latin America; materials may include poetry, theater, fiction, and essay from the Spanish-speaking countries of Mexico, Central America, South America, and Brazil. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as LAS:3225.

SPAN:3230 Modern Mexico 3 s.h.
Twentieth-century Mexican cultural history, including nationalism, gender relations, Indigenous cultures, border issues, and popular culture; materials range from journalistic and literary writing to film, music, images, and television. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3240 Mexico City 3 s.h.
Broad historical survey of Mexico City as center of cultural life in Mexico and Latin America and city of global importance; conquest and contemporary narratives, visual culture, music, and film. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3250 Buenos Aires 3 s.h.
Broad historical survey of Buenos Aires as center of cultural life in Argentina with emphasis on how the city has been portrayed in the arts; interdisciplinary approaches to the study of city life. Taught in Spanish. Requirements: one course taught in Spanish at the 2000 level or above.

SPAN:3290 Topics in Cinema and Society 3 s.h.
Film and cultural history of one Latin American nation. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as LAS:3290.

SPAN:3310 Spanish American Short Story 3 s.h.
Works by 19th- and 20th-century Spanish American writers; emphasis on reading strategies and historical, cultural, literary backgrounds. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as LAS:3310.

SPAN:3320 Spanish American Poetry 3 s.h.
Poetry as a literary genre, short history of its development, early forms in Spanish America, poets from Modernism to present; readings from writers including Rubén Darío, Pablo Neruda, César Vallejo, Octavio Paz, J.L. Borges. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3350 Contemporary Spanish American Literature 3 s.h.
Comprehensive view of 20th-century literature from Spanish-speaking countries in the Americas, including narrative and poetry; examination of issues related to texts and contexts through written and oral analysis. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3370 Topics in Literatures and Cultures 3 s.h.
Literature and culture of specific regions, countries, or cities of Latin America. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3500 Topics in Culture of the Hispanic World 3 s.h.
Specific topics; culture of different parts of Spanish-speaking world, or cross-regional or cross-national cultural phenomenon. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3520 Introduction to Film Studies 3 s.h.
Introduction to film analysis and theory; focus on Latin American and Spanish cinemas in context of international film history. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3600 Cultures of Spain 3 s.h.
Political, religious, social, economic background; important cultural, literary movements. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3610 Hispanic Institute: Culture 3 s.h.
Overview of geography, history (political, economic, social), architecture, painting, music of Spain; readings, slides, video and audio cassettes, visits to local sites of cultural significance. Requirements: SPAN:1502 or SPAN:1503.

SPAN:3620 Madrid 3 s.h.
Contemporary Madrid as one of the premier capital cities of the European Union; history and present day reality of the city; examination of paintings, descriptions, movies, fashion, and customs from several historical periods. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3630 Spanish Youth Culture 3 s.h.
Literary texts, films, and music produced by young people in Spain from 1939 to present; gender issues and relationships between market, popular culture, and high culture. Requirements: one course taught in Spanish at the 2000 level or above.

SPAN:3650 Fitness Culture in Spain 3 s.h.
Fitness as a cultural practice; how Spanish fitness practices reflect quite different values, economics, and public infrastructures than those of the U.S.; comparative cultural studies approach to fitness cultures; topics include fitness and Spanish cultural norms, nutrition and gastronomy, and active tourism in Spain. Taught in Spanish. Requirements: at least one course numbered SPAN:2000 or above.

SPAN:3750 Literature in the Time of Cervantes 3 s.h.
Introduction to literary questions of 15th to 17th centuries in Spain; understanding of literary Spanish and cultural issues of the period—end of the feudal mind, beginning of individualism, poetry, emergence of theater, crisis of empire. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3790 Hispanic Institute: Literature 3 s.h.
Introduction to poetry, narrative, and theater in Spanish literature; textural commentary and critical interpretations of major representative works of selected historical periods. Requirements: SPAN:1502 or SPAN:1503.

SPAN:3820 Modern and Contemporary Spanish Literature 3 s.h.
Works of the last 30 years of the 19th century, up to the outbreak of the Spanish Civil War; Realism, Naturalism, generation of 1898, generation of 1913, generation of 1927. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3840 Contemporary Spanish Short Story 3 s.h.
Contemporary short stories from 20th- and 21st-century Spain; emphasis on reading strategies and interpretation skills; focus on historical and social contexts. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3903 Introduction to Medical Spanish-English Interpretation 1,3 s.h.
Introduction to Spanish-English language interpretation; focus on history, techniques, types, and practice with emphasis on the medical field. Prerequisites: SPAN:2090 with a minimum grade of B+ or SPAN:2040 with a minimum grade of B +. Requirements: advanced level of oral proficiency and familiarity with basic medical terminology.

SPAN:4100 Introduction to Spanish Phonology 3 s.h.
Sound patterns of Spanish; how various theoretical approaches solve basic problems in Spanish phonology; identification of linguistic universals, how they are manifested in the sound structure of Spanish. Taught in Spanish.

SPAN:4150 Introduction to Spanish Syntax 3 s.h.
Basic principles of generative syntax as applied to analysis of Spanish syntactic structure; extensive syntactic analysis. Taught in Spanish. Prerequisites: SPAN:3100. Same as SLA:4300.

SPAN:4170 Second Language Acquisition 3 s.h.
Linguistic approaches to acquisition of Spanish as a second language. Taught in Spanish. Prerequisites: LING:3001 or CSD:3117 or CSD:3118 or PSY:2601 or EDTL:4410 or EDTL:4417 or SPAN:3130 or SPAN:3100 or SPAN:3110 or SPAN:3120.

SPAN:4190 Topics in Hispanic Linguistics 3 s.h.
Prerequisites: SPAN:3100 or SPAN:3110 or SPAN:3120 or SPAN:3130. Requirements: completion of at least one Hispanic linguistics course.

SPAN:4195 Spanish Linguistics Lab II 3 s.h.
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.

SPAN:4205 Culture, Language, and Health 3 s.h.
Exploration of health, wellness, and illness from a perspective of language and culture; languages we use to describe our mental and physical health that are situated within culture-specific ideas of human bodies, minds, disease, and wellness; understanding where beliefs about health and wellness come from and exploring other systems of belief on their own terms prepares students to be better informed health care practitioners, more aware patients within health care systems, and more sensitive caregivers in health related settings; emphasis on observation, asking questions, and analyzing health care worlds. Taught in Spanish. Requirements: two courses in Spanish numbered 3000 or above. Same as GHS:4205.

SPAN:4330 Colonial Spanish American Literature 3 s.h.
Readings from the formative period of Spanish American culture; may include discovery and conquest, ethnicity and gender, dissent and popular resistance. Requirements: one literature course taught in Spanish numbered SPAN:3200 or above.

SPAN:4390 Topics in Spanish American Literature 3 s.h.
Taught in Spanish. Requirements: one literature course in Spanish numbered SPAN:3200 or above. Same as LAS:4390.

SPAN:4650 Don Quijote 3 s.h.
Exploration of Cervantes' *Don Quijote*; sociohistorical context, questions of human existence, literary tradition, metafiction, influence of *Don Quijote* on novelists and filmmakers, critical reception of the text. Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4690 Topics in Spanish Literature 3 s.h.
Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4805 Chicano Cinema 3 s.h.
History of Chicano independent and industry film and television production since the Chicano political and cultural movement began in the 1960s. Taught in English. Requirements: one Spanish literature or culture course numbered SPAN:3200 or above, or one film studies course numbered above CINE:2100. Same as CINE:4705, LATS:4805.

SPAN:4815 Lost Childhoods: Marginal Children of Latin America 3 s.h.
Focus on lost childhoods from a cultural studies perspective; analysis of marginal perspectives that emerge from a globalized urban landscape; evolution of literary, artistic (art, photography, comics), and film productions about dispossessed children, the construction of childhood by nongovernmental and nonprofit organizations, and how these cultural productions denounce social violence. Taught in Spanish. Requirements: two courses numbered SPAN:3000 or above. Same as LAS:4815.

SPAN:4850 Topics in Cultural Studies 3 s.h.
Requirements: one literature or culture course taught in Spanish numbered SPAN:3200 or above.

SPAN:4880 Comic Books and Graphic Novels in the Hispanic World 3 s.h.
Analysis of comics and graphic novels from Hispanic world; diverse Hispanic representational perspectives on creativity, humor, storytelling, culture, politics, nationality, and ethnicity; opportunity for students to express their own creativity with comics. Recommendations: two literature or culture courses taught in Spanish, at least one of which must be numbered SPAN:3200 or above.

SPAN:4900 Latin American Studies Seminar 3-4 s.h.
Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as ANTH:4700, HIST:4504, LAS:4700, PORT:4700.

SPAN:4925 Topics in Film Narrative 3 s.h.
Exploration of relationship between film narratives and social systems. Taught in English. Same as LAS:4925.

SPAN:4950 Advanced Workshop on Creative Writing in Spanish 3 s.h.
In-depth consideration of characters, dialog, conflict, setting, point of view, other fundamentals of fiction; experience writing short stories and other pieces, with class discussion; fictional texts by renowned writers, authors' essays on their own creative process; narrative strategies of short stories, songs, painting, films. Requirements: one creative writing course in Spanish and one literature course in Spanish numbered SPAN:3300 or above, or two literature courses in Spanish numbered SPAN:3300 or above.

SPAN:4998 Honors: Research and Thesis 2-3 s.h.
Requirements: honors standing.

SPAN:4999 Special Work 1-3 s.h.

SPAN:5000 Teaching and Learning Languages 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Taught in English. Same as FREN:5000, GRMN:5001, SLA:5000, WLLC:5000.

SPAN:5002 Pedagogical Practicum 2 s.h.
Practice in lesson design, classroom management techniques, evaluation skills during work with faculty. Requirements: PhD standing.

SPAN:5003 Professional Training and Development 1 s.h.
Professional training and preparation for a variety of professional opportunities within and outside of academia. Requirements: Spanish PhD standing.

SPAN:5005 Heritage and Dual Language Teaching 3 s.h.
Theoretical issues (e.g., ideological, educational, linguistic) of heritage language teaching and learning; pedagogical issues including curriculum development and assessment for dual language programs in the United Statues; focus on teaching heritage language learners (those who learned a language other than English at home) or dual language education (those who develop academic skills in their native language while building skills in a different language) in the United States. Taught in English. Same as WLLC:5005.

SPAN:6110 Spanish Phonology 3 s.h.
Modern approaches to synchronic phonology as applied to Spanish; focus on traditional descriptive problems, recent generative analyses. Taught in Spanish. Requirements: phonology or linguistics course.

SPAN:6120 Spanish Syntax 3 s.h.
Spanish syntactic constructions examined in framework of selected syntactic theory; emphasis on development of syntactic argumentation. Taught in Spanish. Requirements: one course in syntax.

SPAN:6150 Topics in Spanish Language Acquisition 3 s.h.
Theoretical linguistic approaches to monolingual, bilingual, and second language acquisition of Spanish and Portuguese; varied topics. Taught in Spanish. Requirements: at least one course in linguistics (e.g., general introduction to linguistics).

SPAN:6180 Topics in Hispanic Linguistics 3 s.h.
Taught in Spanish or English.

SPAN:6190 Topics in Comparative Romance Linguistics 3 s.h.
Comparative study of phonology, morphology, or syntax of the main Romance languages as informed by linguistic theory; diachronic or synchronic perspective. Taught in English. Recommendations: additional graduate coursework in linguistics. Same as LING:6190.

SPAN:6210 Fiction Workshop 4 s.h.
Craft of writing short stories; underlying principles examined through lectures, readings, craft analysis, discussions, exercises, and workshops; activities linked with International Writing Program. Requirements: admission to MFA Spanish Creative Writing program.

SPAN:6220 Poetry Workshop 4 s.h.
Construction and recognition of poetic voice through readings, analysis, and exercises from different poets and by students; poetic voice in three spaces (diary of poetic prose, collection of poems, object poem). Requirements: admission to MFA Spanish Creative Writing program.

SPAN:6235 Film Script/Theater Workshop 4 s.h.
Basic steps to developing plays; different styles and ways to develop plays and characters; reading main authors and their plays; student work on a possible play. Requirements: admission to MFA in Spanish Creative Writing program.

SPAN:6241 Creative Project Development 4 s.h.
Development of creative project. Requirements: admission to MFA Spanish Creative Writing program.

SPAN:6251 Workshop on Editing a Literary e-Journal 4 s.h.
Plan, produce, write, and edit a literary digital magazine; manage and write for *Iowa Literaria*. Requirements: admission to MFA in Spanish Creative Writing program.

SPAN:6280 Nonfiction Workshop 4 s.h.
Practice of self narrative and construction of the self in literature; readings of self-narrated texts in different literary forms and cultural traditions (from autobiography to testimonial narratives); various ways in which the narrating self is formed and deformed by literary conventions that define him/her; readings as springboards for thinking on ways to write the self; series of autobiographical sketches. Requirements: admission to MFA Spanish Creative Writing program.

SPAN:6290 Topics in Spanish Creative Writing 4 s.h.
Examination of special issues related to craft, context, and practice of Spanish creative writing.

SPAN:6295 Practicum Editing a Literary e-Journal arr.
Practice in planning, producing, and editing *Iowa Literaria*. Recommendations: SPAN:6251.

SPAN:6299 Thesis: Creative Writing arr.
Continuation of work on student manuscript. Requirements: admission to MFA Spanish Creative Writing program.

SPAN:6300 Colonial Spanish American Literature 3 s.h.
Chronicles of the conquest: close reading with focus on role of writing and operations of "othering"; balance between critical secondary sources and primary sources.

SPAN:6320 Contemporary Spanish American Narrative 3 s.h.
Narrative from mid-20th century to present; emphasis on the Boom, post-Boom.

SPAN:6330 Spanish American Narrative: Modern and Regional 3 s.h.

SPAN:6390 Topics in Spanish American Literature 3 s.h.

SPAN:6600 Medieval Spanish Literature 3 s.h.
Critical reading of canonical medieval texts in their cultural context; application of modern theory to medieval texts; works such as *El Poema del Cid, El Romancero Viejo, Milagros de Nuestra Señora, El Conde Lucanor, El Libro de Buen Amor*.

SPAN:6620 Spanish Renaissance and Baroque Literature 3 s.h.
Critical analysis of social, moral, political function of literature in early modern Spain; Renaissance and Baroque poetry; *La Celestina*; pastoral literature; *Don Quijote*; narratives of the court; modern subjectivity; the question of genre.

SPAN:6660 Contemporary Spanish Fiction 3 s.h.
The post-Franco novel in Spain; literary "postmodernism" and relationships between Spanish literature, politics, and society since 1975; representative significant works.

SPAN:6670 Contemporary Spanish Poetry 3 s.h.
Poetry on the Spanish literary scene circa 1968; authors' reactions to predecessors, their connections with foreign traditions, metapoetry, the aesthetics of culturalism.

SPAN:6680 Contemporary Non-Castilian Narrative Spain 3 s.h.
Readings in Spanish of novels and short stories written in another language of the Spanish state or by a member of one of Spain's non-Castilian historic nationalities.

SPAN:6690 Topics in Spanish Literature 3 s.h.

SPAN:6850 Topics in Literary Studies 3 s.h.

SPAN:6860 Topics in Cultural Studies 3 s.h.

SPAN:6998 Special Work arr.

SPAN:6999 Thesis arr.

SPAN:7000 Seminar: Spanish Linguistics 3 s.h.
Taught in Spanish. Same as LING:7000.

SPAN:7001 Language Justice: Multilingual Community Engagement and Scholarship 3 s.h.
Application of language justice to lived experiences of multilingual individuals; exploration of how communities can incorporate language justice into shared spaces and interactions within those spaces; engagement with local community groups that support multilingual Iowans whose personal language practices are less valued than the default monolingual English norm. Taught in English. Same as WLLC:7001.

SPAN:7200 Seminar: Literary Studies 3 s.h.
Specific topics on aspects of Spanish and/or Spanish American literature.

SPAN:7505 Readings: Latin American History arr.
Introduction to historiography in the field of Latin American history; students deepen their understanding of the region's history and become acquainted with trends in topical concerns, sources, and methods that are shaping historical research on Latin America's past. Taught in English. Same as HIST:7505.

Portuguese Courses

PORT:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

PORT:2000 Accelerated Elementary Portuguese 5 s.h.
First-year course in one semester; comprehending, speaking, reading, writing modern Portuguese; emphasis on speaking; previous knowledge of Portuguese not required. GE: World Languages Second Level Proficiency.

PORT:2015 Elementary Portuguese II 3 s.h.
Emphasis on oral and written skills; second in a series. Requirements: PORT:2010. GE: World Languages Second Level Proficiency.

PORT:2500 Accelerated Intermediate Portuguese 5 s.h.
Second-year course in one semester; reading comprehension, oral and writing skills; grammar review. Requirements: PORT:2000. GE: World Languages Fourth Level Proficiency.

PORT:2700 Introduction to Latin American Studies 3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Taught in English. GE: World Language and Cultural Exploration. Same as IS:2700, LAS:2700, SPAN:2700.

PORT:2850 Brazilian Narrative in Translation 3 s.h.
Representative readings of modern and contemporary novels, short stories, and other narrative forms; cultural background; focus on major writers. Taught in English. GE: Literary, Visual, and Performing Arts. Same as LAS:2850, SPAN:2850.

PORT:3050 Intensive Portuguese for Spanish Speakers 4 s.h.
Compare and contrast Spanish and Portuguese; development of basic communicative skills in Portuguese. Taught in Spanish and Portuguese. Requirements: undergraduate Spanish native speaker, Spanish heritage speaker, or two courses in Spanish numbered SPAN:4000 or above, or graduate standing.

PORT:3100 Writing and Speaking 3 s.h.
Speaking and writing skills through discussion, oral presentations, grammar and vocabulary review, composition. Taught in Portuguese. Requirements: PORT:2500.

PORT:3105 Linguistic Aspects of the Lusophone World 3-4 s.h.
Introduction to Portuguese incorporating formal (theoretical), historical, and sociolinguistic perspectives; linguistic analysis of phonetics/phonology, morphology, and syntax; origins of Portuguese and its expansion to Africa, Asia, and Latin America. Taught in English. Same as LING:3105, SPAN:3105.

PORT:3150 Topics in Portuguese Language 3 s.h.
Various aspects of Portuguese language use. Taught in Portuguese. Requirements: one course numbered PORT:2500 or above.

PORT:4700 Latin American Studies Seminar 3-4 s.h.
Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as ANTH:4700, HIST:4504, LAS:4700, SPAN:4900.

PORT:4995 Portuguese Senior Project 3 s.h.
Voluntary student-initiated projects outside the classroom; designed or executed during senior year; similar to independent study, but based on research and completed in close consultation with a faculty mentor. Requirements: at least one course taught in Portuguese numbered PORT:4000 or above.

PORT:4998 Special Work 1-3 s.h.
Independent study arranged between student and a faculty member to complete requirements for the major in Portuguese.

PORT:4999 Honors Research and Thesis 2-3 s.h.
Requirements: honors standing.

Latin American Studies

LAS:1150 Brazilian Culture and Carnival 3 s.h.
Dance, music, historical, and social contents of Brazilian Carnival production, critical theories of performance, religious backgrounds, and theatre making in carnival parades. GE: Engineering Be Creative; Values and Society. Same as DANC:1150.

LAS:2200 Introduction to Spanish American Cultures 3 s.h.
Introduction to study of cultural history of Spanish America; topics range from pre-Colombian times to present; for students who are just starting work on the Spanish major or minor. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2200.

LAS:2220 The Olmec, Maya, and Aztecs: Archaeology of Mesoamerica 3 s.h.
Archaeological data related to the evolution of civilization in Mesoamerica; sequence from hunter-gatherers to A.D. 1519; emphasis on Central Mexico, Maya area, Oaxaca. Same as ANTH:2220.

LAS:2311 Music of Latin America and the Caribbean 3 s.h.
Folk and popular musical traditions and their social contexts in Latin America, the Caribbean; listening skills; video/film screenings. GE: Literary, Visual, and Performing Arts; Values and Society. Same as MUS:2311.

LAS:2415 Latin American Politics 3 s.h.
Governmental institutions, major interest groups; focus on area as a whole. GE: International and Global Issues. Same as POLI:2415.

LAS:2500 Readings in Spanish American Literature 3 s.h.
Tools for improving reading skills; basic concepts for textual understanding; historical overview of literary works, with focus on Spanish American literature. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2500.

LAS:2700 Introduction to Latin American Studies 3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Taught in English. GE: World Language and Cultural Exploration. Same as IS:2700, PORT:2700, SPAN:2700.

LAS:2800 Screening Latin America 3 s.h.
Basic introduction to contemporary Latin American societies and cultures through fiction feature films (i.e., comedies, dramas) and documentaries by major filmmakers; previous knowledge of film analysis not required. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2800.

LAS:2850 Brazilian Narrative in Translation 3 s.h.
Representative readings of modern and contemporary novels, short stories, and other narrative forms; cultural background; focus on major writers. Taught in English. GE: Literary, Visual, and Performing Arts. Same as PORT:2850, SPAN:2850.

LAS:2900 Music of the Hispanic World 3 s.h.
Introduction to music of Spain and Latin America, including the United States; listening skills, music appreciation, continuing development of Spanish language skills. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503. Same as SPAN:2900.

LAS:3020 Journalistic Writing in Spanish 3 s.h.
Spanish writing skills; introduction to style and practice of journalistic reporting and writing. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as JMC:3445, SPAN:3020.

LAS:3104 Immigration Politics 3 s.h.
United States immigration policy and political consequences of Latina/o/x population growth; contrast of political experiences of Latina/o/x with groups and ideals of democratic political systems; analyses of past immigration policies; studies of public opinion, voter turnout, and campaign tactics. Same as LATS:3104, POLI:3104.

LAS:3215 Medellin 3 s.h.
Medellin, Colombia has been transformed from one of the most violent places on Earth to an award-winning city of innovation in only 20 years; introduction to the city and its people through literature, music, and a digital map project. Taught in Spanish. Requirements: at least one course numbered SPAN:2000 or above. Same as SPAN:3215.

LAS:3217 Latina/o/x Immigration 3 s.h.
Immigration experiences of people arriving in the United States from other regions of the Americas (e.g., Mexico, Central America, the Caribbean, South America); what has fueled immigration—social, political, and economic developments in the United States and other nations; territorial conquest, colonialism, real and imagined borders, chain migration, formation of immigrant communities, acculturation, circular migration, social networks; how migration restructures gender relations; immigrant communities and pan-Latina/o/x identity in the United States. Same as HIST:3217, LATS:3217.

LAS:3225 Latin American Women Writers 3 s.h.
Focus on long tradition of strong female writers in Latin America; materials may include poetry, theater, fiction, and essay from the Spanish-speaking countries of Mexico, Central America, South America, and Brazil. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as SPAN:3225.

LAS:3290 Topics in Cinema and Society 3 s.h.
Film and cultural history of one Latin American nation. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as SPAN:3290.

LAS:3310 Spanish American Short Story 3 s.h.
Works by 19th- and 20th-century Spanish American writers; emphasis on reading strategies and historical, cultural, literary backgrounds. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as SPAN:3310.

LAS:3501 Rebel Island: A History of Cuba 3 s.h.
Cuban society and revolutionary movements since the late colonial period, including the years since 1959. Same as HIST:3501.

LAS:3502 History of Mexico 3 s.h.
Mexican history since the eve of the Spanish invasion, with focus on the national period; indigenous groups, conquest and demographic disaster, Native survival, labor and migration, social protest and rebellions, nationhood, revolution, regional differences, religions, popular culture, economic growth and distribution, state building, environmental change, international relations; survey. Same as HIST:3502, NAIS:3502.

LAS:3508 Disease and Health in Latin American History 3 s.h.
Survey of major topics in Latin American history in relation to development of medicine and public health. Same as GHS:3508, HIST:3508.

LAS:3515 Introduction to Modern Latin America 3 s.h.
Introduction to modern history of Latin America from independence movements of the early 19th century to present; topics include race and ethnicity, slave emancipation, gender, labor relations, and foreign interventions; exploration of relationship between economic, social, and political structures over time to explain difference and commonality between Latin American people and societies; focus on topics pertaining to histories of Mexico, Central America, the Caribbean, and South America. Same as HIST:3515.

LAS:3535 Topics in Literature and Culture of the Americas 3 s.h.
Selected topics in literature and cultures of the Americas. Same as ENGL:3535.

LAS:4216 Mexican American History 3 s.h.
Survey of Chicana/o (Mexican American) history from 18th century to present; Mexican American society's diverse nature, explored through class, ethnic, gender, and regional divisions. Same as HIST:4216.

LAS:4390 Topics in Spanish American Literature 3 s.h.
Taught in Spanish. Requirements: one literature course in Spanish numbered SPAN:3200 or above. Same as SPAN:4390.

LAS:4700 Latin American Studies Seminar 3-4 s.h.
Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as ANTH:4700, HIST:4504, PORT:4700, SPAN:4900.

LAS:4815 Lost Childhoods: Marginal Children of Latin America 3 s.h.
Focus on lost childhoods from a cultural studies perspective; analysis of marginal perspectives that emerge from a globalized urban landscape; evolution of literary, artistic (art, photography, comics), and film productions about dispossessed children, the construction of childhood by nongovernmental and nonprofit organizations, and how these cultural productions denounce social violence. Taught in Spanish. Requirements: two courses numbered SPAN:3000 or above. Same as SPAN:4815.

LAS:4925 Topics in Film Narrative 3 s.h.
Exploration of relationship between film narratives and social systems. Taught in English. Same as SPAN:4925.

LAS:4990 Independent Project in Latin American Studies arr.
Independent work completed under the supervision of Latin American studies faculty.

Spanish, BA

The goal of the major is twofold: to study content areas related to the Spanish language, such as literature, culture, and linguistics; and to develop proficiency in the Spanish language in all four skills—speaking, listening, reading, and writing.

Learning Outcomes

By graduation, Spanish majors will have the following.

Proficiency

Increased Spanish language proficiency in speaking, writing, listening, and reading.

Analytical Skills

Acquired the skills to engage critically with one or more of the following areas.

- Spanish, Spanish American, and U.S. Latino literatures and cultures
- Hispanic linguistics
- Creative and/or journalistic writing
- Spanish for the professions (e.g., health and business)
- Translation

Intercultural Knowledge

Gained intercultural knowledge of the diversity of the Hispanic world (Spain/Portugal, Latin America, and the United States) and its cultural, artistic, and linguistic history.

Advising

First-year students are initially advised by the Academic Advising Center. Second-year students are advised by the Spanish and Portuguese academic advisor. Third- and fourth-year students are advised by a faculty advisor and professional academic advisor who guides students regarding academic or career-focused experiences and opportunities.

Requirements

The Bachelor of Arts with a major in Spanish requires a minimum of 120 s.h., including at least 30–34 s.h. of work for the major. Students must maintain a grade-point average (GPA) of at least 2.00 in all courses for the major and in all UI courses for the major. A maximum of 15 s.h. of approved transfer credit may be counted toward the major. Students must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

All required and elective courses taken for the Spanish major must be numbered 2000 or above. A minimum of 12 s.h. for the major must be numbered 3000–3999. At least 6 s.h. for the major must be numbered 4000–4999. All courses at the 4000–4999 level must be taken at the University of Iowa in the Department of Spanish and Portuguese; no transfer credit or study abroad courses are accepted.

Students may apply up to 6 s.h. total of approved coursework taught in English or Portuguese toward the major. This includes coursework taught in the Department of Spanish and Portuguese or in another department, as approved by their advisor. All other courses for the major must be taught in Spanish. Acceptable courses taught in English are listed in the section "Spanish Courses Taught in English."

The BA with a major in Spanish requires the following coursework.

Requirements	Hours
Foundation Course	0-4
Required Core	12
Electives	18
Optional Concentration	

Foundation Course

Spanish majors must complete SPAN:1502 Intermediate Spanish II or the equivalent.

This requirement may be fulfilled through high school language study, transfer credit, or placement examination, or by completing one of the following courses.

Course #	Title	Hours
SPAN:1502	Intermediate Spanish II	4
SPAN:1503	Accelerated Intermediate Spanish (up to 4 s.h. may be applied to the major)	6
SPAN:1505	Intermediate Spanish for Heritage Speakers (Up to 4 s.h. may be applied to the major)	5

Required Core

Students must complete one course in Hispanic linguistics, two courses in Hispanic cultures, and one course in writing.

Hispanic Linguistics

Course #	Title	Hours
At least 3 s.h. from these:		
SPAN:3099	Spanish Linguistics Lab I	1
SPAN:3100	Structures of Spanish: Words and Sentences	3
SPAN:3105	Linguistic Aspects of the Lusophone World	3-4
SPAN:3110	Spanish Sound Structure	3
SPAN:3120	Foundations in Sociolinguistics	3
SPAN:3130	Introduction to Bilingualism	3
SPAN:3151	Spanish Applied Linguistics	3
SPAN:4100	Introduction to Spanish Phonology	3
SPAN:4150	Introduction to Spanish Syntax	3
SPAN:4170	Second Language Acquisition	3
SPAN:4190	Topics in Hispanic Linguistics	3
SPAN:4195	Spanish Linguistics Lab II	3
SPAN:4205	Culture, Language, and Health	3

Hispanic Cultures

Course #	Title	Hours
At least 6 s.h. from these:		
SPAN:2200	Introduction to Spanish American Cultures	3

SPAN:2300	Spanish Language Skills: Reading	4
SPAN:2400	Readings in Spanish Literature	3
SPAN:2500	Readings in Spanish American Literature	3
SPAN:2800	Screening Latin America	3
SPAN:2900	Music of the Hispanic World	3
SPAN:2901	Diversity and Cultures in Spain	3
SPAN:3205	Spanish Health Narratives	3
SPAN:3215	Medellin	3
SPAN:3225	Latin American Women Writers	3
SPAN:3230	Modern Mexico	3
SPAN:3240	Mexico City	3
SPAN:3250	Buenos Aires	3
SPAN:3290	Topics in Cinema and Society	3
SPAN:3310	Spanish American Short Story	3
SPAN:3320	Spanish American Poetry	3
SPAN:3350	Contemporary Spanish American Literature	3
SPAN:3370	Topics in Literatures and Cultures	3
SPAN:3500	Topics in Culture of the Hispanic World	3
SPAN:3520	Introduction to Film Studies	3
SPAN:3600	Cultures of Spain	3
SPAN:3610	Hispanic Institute: Culture	3
SPAN:3620	Madrid	3
SPAN:3630	Spanish Youth Culture	3
SPAN:3650	Fitness Culture in Spain	3
SPAN:3750	Literature in the Time of Cervantes	3
SPAN:3790	Hispanic Institute: Literature	3
SPAN:3820	Modern and Contemporary Spanish Literature	3
SPAN:3840	Contemporary Spanish Short Story	3
SPAN:4330	Colonial Spanish American Literature	3
SPAN:4390	Topics in Spanish American Literature	3
SPAN:4650	Don Quijote	3
SPAN:4690	Topics in Spanish Literature	3
SPAN:4805	Chicano Cinema	3
SPAN:4815	Lost Childhoods: Marginal Children of Latin America	3
SPAN:4850	Topics in Cultural Studies	3
SPAN:4880	Comic Books and Graphic Novels in the Hispanic World	3
SPAN:4900	Latin American Studies Seminar	3-4

Writing

Course #	Title	Hours
At least 3 s.h. from these:		
SPAN:2000	Spanish Language Skills: Writing	4
SPAN:2005	Writing Global Spanish	3
SPAN:3000	Cultural Narratives for Heritage Speakers	3
SPAN:3020	Journalistic Writing in Spanish	3
SPAN:3060	Introductory Workshop on Creative Writing in Spanish	3
SPAN:4950	Advanced Workshop on Creative Writing in Spanish	3

Electives

Students complete six elective courses in Spanish (prefix SPAN) numbered 2000 and above for a total of 18 s.h. Electives may include coursework in Spanish language skills as well as more advanced language courses that focus on specialized language functions and purposes. Related courses must be approved by the director of undergraduate studies.

A maximum of 3 s.h. earned in PORT:2500 Accelerated Intermediate Portuguese may be counted toward the major. PORT:2000 Accelerated Elementary Portuguese does not count toward the major and may not be used as elective credit.

Some Advanced Placement Program (AP) credit is considered to be equivalent to a Spanish course at the 2000 level. Students may count 3 s.h. from AP Spanish Language and Culture and/or AP Spanish Literature and Culture exams with a score of 4 or higher as elective credit.

Spanish Courses Taught in English

A maximum of 6 s.h. from courses taught in English may be applied to the major.

Course #	Title	Hours
SPAN:2050	Spanish in the United States	3
SPAN:2700	Introduction to Latin American Studies	3
SPAN:2850	Brazilian Narrative in Translation	3
SPAN:2901	Diversity and Cultures in Spain	3
SPAN:3105	Linguistic Aspects of the Lusophone World	3-4
SPAN:4805	Chicano Cinema	3
SPAN:4900	Latin American Studies Seminar	3
SPAN:4925	Topics in Film Narrative	3

Optional Concentrations

Students have the option to complete a 12–13 s.h. concentration. They choose four Spanish courses approved in one of the three concentrations: linguistics, cultures, or professional communication. These courses may be electives or they may fulfill requirements for the major.

Linguistics

Course #	Title	Hours
At least 12 s.h. from these:		
SPAN:3100	Structures of Spanish: Words and Sentences	3
SPAN:3105	Linguistic Aspects of the Lusophone World	3-4
SPAN:3110	Spanish Sound Structure	3
SPAN:3120	Foundations in Sociolinguistics	3
SPAN:3130	Introduction to Bilingualism	3
SPAN:3151	Spanish Applied Linguistics	3
SPAN:4100	Introduction to Spanish Phonology	3
SPAN:4150	Introduction to Spanish Syntax	3
SPAN:4170	Second Language Acquisition	3
SPAN:4190	Topics in Hispanic Linguistics	3
SPAN:4195	Spanish Linguistics Lab II	3
SPAN:4205	Culture, Language, and Health	3

Cultures

Course #	Title	Hours
At least 12 s.h. from these:		
SPAN:2200	Introduction to Spanish American Cultures	3
SPAN:2300	Spanish Language Skills: Reading	4
SPAN:2400	Readings in Spanish Literature	3
SPAN:2500	Readings in Spanish American Literature	3
SPAN:2800	Screening Latin America	3
SPAN:2850	Brazilian Narrative in Translation	3
SPAN:2900	Music of the Hispanic World	3
SPAN:2901	Diversity and Cultures in Spain	3
SPAN:3205	Spanish Health Narratives	3
SPAN:3215	Medellin	3
SPAN:3225	Latin American Women Writers	3
SPAN:3230	Modern Mexico	3
SPAN:3240	Mexico City	3
SPAN:3250	Buenos Aires	3
SPAN:3290	Topics in Cinema and Society	3
SPAN:3310	Spanish American Short Story	3
SPAN:3320	Spanish American Poetry	3
SPAN:3350	Contemporary Spanish American Literature	3
SPAN:3370	Topics in Literatures and Cultures	3
SPAN:3500	Topics in Culture of the Hispanic World	3
SPAN:3520	Introduction to Film Studies	3
SPAN:3600	Cultures of Spain	3
SPAN:3610	Hispanic Institute: Culture	3
SPAN:3620	Madrid	3
SPAN:3630	Spanish Youth Culture	3
SPAN:3650	Fitness Culture in Spain	3
SPAN:3750	Literature in the Time of Cervantes	3
SPAN:3790	Hispanic Institute: Literature	3
SPAN:3820	Modern and Contemporary Spanish Literature	3
SPAN:3840	Contemporary Spanish Short Story	3
SPAN:4330	Colonial Spanish American Literature	3
SPAN:4390	Topics in Spanish American Literature	3
SPAN:4650	Don Quijote	3
SPAN:4690	Topics in Spanish Literature	3
SPAN:4805	Chicano Cinema	3
SPAN:4815	Lost Childhoods: Marginal Children of Latin America	3
SPAN:4850	Topics in Cultural Studies	3
SPAN:4880	Comic Books and Graphic Novels in the Hispanic World	3
SPAN:4900	Latin American Studies Seminar	3-4

Professional Communication

Course #	Title	Hours
At least 12 s.h. from these:		
SPAN:2000	Spanish Language Skills: Writing	4
SPAN:2010	Spanish Language Skills: Speaking	3
SPAN:2040	Spanish for Heritage Speakers	3
SPAN:2080	Business Spanish	4
SPAN:2090	Medical Spanish in Contemporary Society	4
SPAN:3000	Cultural Narratives for Heritage Speakers	3
SPAN:3010	Advanced Spanish Speaking and Writing	3
SPAN:3020	Journalistic Writing in Spanish	3
SPAN:3030	Translation Workshop: English to Spanish	3
SPAN:3050	Translation Workshop: Spanish to English	3
SPAN:3060	Introductory Workshop on Creative Writing in Spanish	3
SPAN:3080	Spanish for International Business	3
SPAN:3092	Spanish in the Community	3
SPAN:3903	Introduction to Medical Spanish-English Interpretation	1,3
SPAN:4950	Advanced Workshop on Creative Writing in Spanish	3

Study Abroad

The department participates in study abroad programs in Spain and Latin America; most of these programs offer both summer and semester or yearlong programs. The programs in Spain include the Board of Regents Hispanic Institute program in Valladolid (summer only); Cultures of Spain (Madrid, summer only), University Studies Abroad Consortium (USAC) programs in Alicante, Bilbao, Madrid, and San Sebastián; and Council on International Educational Exchange (CIEE) programs in Alcalá de Henares, Alicante, Barcelona, Madrid, Palma de Mallorca, and Seville.

The programs in Latin America include USAC programs in Chile (Santiago), Uruguay (Montevideo), and Costa Rica (Heredia, Puntarenas, and San Ramón); CIEE programs in Argentina (Buenos Aires), Chile (Santiago and Valparaíso), Dominican Republic (Santiago), and Peru (Lima). For information about other international study programs in Spanish, contact International Programs Study Abroad.

Participation in a number of different programs allows the department to offer study abroad opportunities that take into account a variety of student interests and needs. Credit earned in these or other study abroad programs may be applied toward the requirements for the Spanish major. The amount of credit that may be accepted varies according to the program.

Interested students should contact the department's study abroad advisor. Credit earned in study abroad programs other than those listed counts as transfer credit and is subject to the 15 s.h. maximum allowed for the major.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Advanced undergraduate students preparing to earn honors may enroll in graduate courses with the permission of their advisor, the instructor, and the department chair. Ordinarily, permission is granted only to students who have completed a minimum of 30 s.h. of work for the major and whose GPA in the major is 3.75 or higher.

Students must have a cumulative University of Iowa grade-point average (GPA) of at least 3.33 and a GPA of at least 3.50 in the major in order to enter the honors program and are required to maintain the same grade-point average requirements to earn honors in the major.

Students must request honors designation for one course they take for the major (3 s.h.), in consultation with the department honors advisor. They must also register for 3 s.h. in SPAN:4998 Honors: Research and Thesis. To complete SPAN:4998 successfully, students must submit an honors thesis they have written in Spanish and must present it orally to a faculty committee in a meeting conducted in Spanish.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the Spanish major.

Career Advancement

Spanish majors combine their Spanish studies with other areas to prepare for career opportunities in international business, government, travel, health, journalism, law, or communication, where knowledge of another language and other cultures is essential. They may also go on to graduate study in areas such as Spanish and Spanish American literature, Hispanic or Spanish linguistics, cultural studies, film studies, translation, or comparative literature.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: SPAN:1501 Intermediate Spanish I (or equivalent second-year, first-semester competence in Spanish).

Before the fifth semester begins: two courses in Spanish beyond SPAN:1502 Intermediate Spanish II (or equivalent second-year, second-semester competence).

Before the seventh semester begins: four more courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: nine courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b SPAN:1001, SPAN:1002, and SPAN:1501 do not count for credit toward the major. Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin major level coursework and not be required to take semesters 1-4 of the language.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Students must complete six elective courses in Spanish (prefix SPAN) numbered 2000 and above for a total of 18 s.h.; may include coursework in Spanish language skills as well as more advanced language courses that focus on specialized language functions and purposes. Students have the option to complete a 12-13 s.h. concentration by choosing four Spanish courses from one of the three approved areas: linguistics, cultures, or professional communication. These courses may be electives or fulfill major requirements.

g All required and elective courses taken for the Spanish major must be numbered 2000 or above. A minimum of 12 s.h. for the major must be numbered 3000-3999. At least 6 s.h. for the major must be numbered 4000-4999. Students may apply up to 6 s.h. of approved coursework taught in English or Portuguese toward the major. All other courses for the major must be taught in Spanish, including study abroad courses.

h Fulfills a major requirement and may fulfill a GE requirement.

i Students must complete at least 3 s.h. in Hispanic linguistics, at least 6 s.h. in Hispanic cultures, and at least 3 s.h. in writing. See the General Catalog for list of approved courses.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Latin American Studies, Minor

Requirements

The undergraduate minor in Latin American studies requires a minimum of 15 s.h. in Latin American studies (prefix LAS) approved courses including at least 12 s.h. of credit earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students may count a total of 6 s.h. earned for majors, certificates, and other minors toward the Latin American studies minor. Because the minor is interdisciplinary, it may include a maximum of 6 s.h. of credit from any single department or program. Students earning the minor in Latin American studies may not earn the Certificate in Latin American Studies.

Students are strongly encouraged to take either or both of these courses for the minor.

Course #	Title	Hours
LAS:2700	Introduction to Latin American Studies	3
LAS:4700	Latin American Studies Seminar	3

Associated Courses

The following courses are approved for the Latin American studies certificate and minor. Students may petition to include other courses that have significant Latin American content, consult the department.

Course #	Title	Hours
Anthropology		
LAS:2220/ ANTH:2220	The Olmec, Maya, and Aztecs: Archaeology of Mesoamerica	3
Communication Studies		
COMM:4171	Community Media	3
Dance		
LAS:1150/ DANC:1150	Brazilian Culture and Carnival	3
DANC:2150	Brazilian Social Dance: The Samba	3
English		
LAS:3535/ ENGL:3535	Topics in Literature and Culture of the Americas (when content is Latin America)	3
ENGL:3525	Literature and Culture of the Americas	3
History		
LAS:3217/ HIST:3217/ LATS:3217	Latina/o/x Immigration	3
LAS:3501/ HIST:3501	Rebel Island: A History of Cuba	3
LAS:3502/ HIST:3502/ NAIS:3502	History of Mexico	3
LAS:3508/ GHS:3508/ HIST:3508	Disease and Health in Latin American History	3
LAS:3515/ HIST:3515	Introduction to Modern Latin America	3
Music		
LAS:2311/ MUS:2311	Music of Latin America and the Caribbean	3
MUS:3163	Iowa Steel Band	1

LAS:3020/ JMC:3445/ SPAN:3020	Journalistic Writing in Spanish	3
LAS:3215/ SPAN:3215	Medellin	3
LAS:3225/ SPAN:3225	Latin American Women Writers	3
LAS:3310/ SPAN:3310	Spanish American Short Story	3
LAS:4390/ SPAN:4390	Topics in Spanish American Literature	3
LAS:4815/ SPAN:4815	Lost Childhoods: Marginal Children of Latin America	3
SPAN:1800	Writing and Writers From Latin America	3
SPAN:3060	Introductory Workshop on Creative Writing in Spanish	3
SPAN:3230	Modern Mexico	3
SPAN:3240	Mexico City	3
SPAN:3320	Spanish American Poetry	3
SPAN:3350	Contemporary Spanish American Literature	3
SPAN:4330	Colonial Spanish American Literature	3
SPAN:4950	Advanced Workshop on Creative Writing in Spanish	3

Rotating Topics

The focus of these courses changes from semester to semester. With prior approval, students may use these courses to satisfy requirements for the Latin American studies certificate or minor when the course focuses on Latin America.

Course #	Title	Hours
CINE:4618	Topics in World Cinemas	3
COMM:4157	Advanced Topics in Communication Studies	3
ENGL:4000	English Honors Literature Seminar	3
HIST:2151	Introduction to the History Major	3
SPAN:3290	Topics in Cinema and Society	3
SPAN:3370	Topics in Literatures and Cultures	3
SPAN:4850	Topics in Cultural Studies	3

Spanish, Minor

Requirements

The undergraduate minor in Spanish requires a minimum of 18 s.h. in Spanish courses, including at least 15 s.h. in Department of Spanish and Portuguese courses (prefix SPAN) at the University of Iowa numbered 2000–4998. At least 6 s.h. must be numbered 3000–4998. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

Students can count coursework toward the minor from study abroad programs that earn University of Iowa resident credit. At least one course for the minor must be from the lists "Hispanic Linguistics" or "Hispanic Cultures" with the prefix SPAN numbered 2200–2901, 3100–3901, or 4100–4901. For a list of courses, see Requirements [p. 1053] in the BA in Spanish section of the catalog and view the appropriate areas.

Students can apply one University of Iowa course taught in English toward the minor, but all other courses for the minor must be taught in Spanish. For a list of courses in English, see Requirements in the BA in Spanish section of the catalog and view the "Spanish Courses Taught in English" list.

Students are not assigned an advisor for minors, but they may consult with the Spanish academic advisor. In consultation with the advisor, students may also choose to count 3 s.h. toward their Spanish minor from:

- coursework in Spanish at the University of Iowa below the major level (SPAN:1502 Intermediate Spanish II–SPAN:1800 Writing and Writers From Latin America); or
- transfer credit approved by the department, including credit from study abroad programs sponsored by other universities; or
- Advanced Placement Program (AP) Spanish Language and Culture or Spanish Literature and Culture exams with a score of 4 or higher; or
- incentive credit earned from the Furthering Language Incentive Program (FLIP).

Study Abroad

The department participates in study abroad programs in Spain and Latin America; most of these programs offer both summer and semester or yearlong programs. The programs in Spain include the Board of Regents Hispanic Institute program in Valladolid (summer only); Cultures of Spain (Madrid, summer only), University Study Abroad Consortium (USAC) programs in Alicante, Bilbao, Madrid, and San Sebastián; and Council on International Educational Exchange (CIEE) programs in Alcalá de Henares, Alicante, Barcelona, Madrid, Palma de Mallorca, and Seville.

The programs in Latin America include USAC programs in Chile (Santiago), Uruguay (Montevideo), and Costa Rica (Heredia, Puntarenas, and San Ramón); CIEE programs in Argentina (Buenos Aires), Chile (Santiago and Valparaíso), Dominican Republic (Santiago), and Peru (Lima). For information about other international study programs in Spanish, contact International Programs Study Abroad.

Participation in a number of different programs allows the department to offer study abroad opportunities that take into account a variety of student interests and needs. Credit earned in these or other study abroad programs may be applied toward the requirements for the Spanish minor. The amount of credit that may be accepted varies according to the program.

Interested students should contact the department's study abroad advisor. Credit earned in study abroad programs other than those listed counts as transfer credit and is subject to the 3 s.h. maximum allowed for the minor.

Teacher Licensure

Students who plan to use their work toward a minor in Spanish as an academic background for earning teacher licensure should contact the Office of Student Services in the College of Education about requirements.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a This course is a prerequisite for the required minor courses.

b Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.

c Students may choose to count 3 s.h. toward their Spanish minor from one of the following four choices: coursework below the major level (such as SPAN:1502); transfer credit approved by the department, including from study abroad programs sponsored by other universities; Advanced Placement Program (AP) Spanish Language and Culture or Literature and Culture exams with a score of 4 or higher; incentive credit earned from the Furthering Language Incentive Program (FLIP).

d Students can apply one University of Iowa course or one study abroad course (3 s.h.) taught in English toward the minor, but all other courses for the minor must be taught in Spanish. See General Catalog for list of approved courses.

e Choose a course numbered 2200-2901, 3100-3901, or 4200-4901.

Portuguese, Minor

Requirements

The undergraduate minor in Portuguese requires a minimum of 15 s.h. in Portuguese courses (prefix PORT), including 12 s.h. in University of Iowa courses numbered 2500 or above; credit earned in a University of Iowa study abroad program may also be counted toward the minor. Students must maintain a grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. A maximum of 3 s.h. of transfer credit may be applied toward the minor. Furthering Language Incentive Program (FLIP) credit may not be applied toward the minor.

Students may apply up to 3 s.h. from PORT:2500 Accelerated Intermediate Portuguese toward the minor. One 3 s.h. course taught in English in the Department of Spanish and Portuguese or one course taught in Spanish (prefix SPAN) numbered 2000 or above can be applied toward the minor, but not both. All other courses must be numbered 2500 or above. Students can identify courses taught in English by viewing the course description for each course; this restriction does not apply to PORT:3105 or PORT:4700 when they are taken with an additional semester hour in Portuguese.

All students planning to complete a minor in Portuguese are strongly encouraged to consult with Portuguese faculty advisors.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Portuguese, Minor

	Total Hours	**22**

a This course is a prerequisite for the required minor courses.
b Alternately, students may substitute PORT:2015 for PORT:2000.
c Language level placement will be determined by placement exam score and/or oral interview. Students who place into the 5th semester level of the language will begin coursework at that level and will not be required to take semesters 1-4 of the language.
d Students may apply up to 3 s.h. from PORT:2500 toward the minor.
e One 3 s.h. course taught in English in the Department of Spanish and Portuguese or one course taught in Spanish numbered SPAN:2000 or above can be applied toward the minor, but not both. All other courses must be numbered above PORT:2500. Students can identify courses taught in English by viewing the course description for each course.

Latin American Studies, Certificate

Requirements

The undergraduate Certificate in Latin American Studies requires a minimum of 18 s.h. The 18 s.h. required for the certificate must be earned in Latin American studies approved courses (see "Associated Courses" in the Latin American studies minor "Requirements" section [p. 1059]), including at least 12 s.h. of credit earned at the University of Iowa. Students must maintain a grade-point average of at least 2.00 in certificate courses.

The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary. Students earning the Certificate in Latin American Studies may not earn the minor in Latin American studies.

All students develop an individual certificate plan of study in close cooperation with a departmental advisor. In some cases, students may be able to count certificate courses toward certain GE CLAS Core [p. 22] requirements.

The Certificate in Latin American Studies requires the following coursework.

Course #	Title	Hours
LAS:2700	Introduction to Latin American Studies	3
LAS:4700	Latin American Studies Seminar	3
Spanish and Portuguese courses (prefix SPAN and PORT)		6
Additional courses (excluding Spanish and Portuguese courses)		6
Total Hours		**18**

Students who complete the required 6 s.h. of Spanish and Portuguese coursework at the University of Iowa must choose courses from the "Associated Courses" list [p. 1059] on the Latin American Studies minor catalog page.. Students may also use 6 s.h. of Spanish or Portuguese language study at any level if those hours are earned through an approved study abroad program in Latin America. Contact the department for prior approval of a study abroad program.

The required 6 s.h. of additional courses must also be chosen from the "Associated Courses" and "Latin American Studies Courses" lists under Courses in this section of the catalog. They may not include Spanish or Portuguese courses (prefix SPAN or PORT).

Study Abroad

The program highly recommends study abroad in Latin America. Students must have prior approval to apply credit from a study abroad program toward the certificate requirements; contact the Department of Spanish and Portuguese.

Career Advancement

The Certificate in Latin American Studies prepares students for a range of careers and graduate programs related to Latin America, including bilingual/bicultural education, business, government, and international work.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a The 18 s.h. required for the Certificate in Latin American Studies must be earned in Latin American Studies Program-approved courses and must include at least 12 s.h. of credit earned at the University of Iowa. If all other coursework is

completed at the University of Iowa, then 6 s.h. of additional courses may be satisfied through coursework completed in a pre-approved study abroad program in Latin America. Contact the LASP academic advisor for pre-approval.

Spanish, MA

For the MA program in Spanish, students choose one of two emphases: literature, which provides training in literary analysis and broad knowledge of representative works in principal areas of Spanish literature; or linguistics, which provides training in linguistic analysis and argumentation and broad knowledge of the principal subfields of Spanish linguistics.

Learning Outcomes

Students will be able to demonstrate:

- basic understanding of primary source material in three of the following distribution fields—Spanish phonology, theory and analysis; Spanish syntax, theory and analysis; applied linguistics/pedagogy history of the Spanish language; language acquisition; sociolinguistics (linguistics) or medieval literature; Spanish Renaissance and Baroque literature; 18th and 19th centuries; 20th and 21st centuries; colonial Spanish American literature; Spanish American literature; 19th-century Spanish American literature; Spanish American Literature, 1900–1960; Spanish American literature, 1960 to the present; U.S. Latina/o/x literature; Brazilian literature; Portuguese literature; or Latin American film (literature);
- basic understanding of the methodology of their field;
- skill in textual analysis;
- sustained critical thinking, writing, and speaking abilities; and
- knowledge and skills necessary to be effective instructors for courses numbered 1000–1999.

Requirements

The Master of Arts program in Spanish requires 30 s.h. of graduate credit. A maximum of 6 s.h. of graduate credit in approved courses may be transferred from other institutions toward the 30 s.h. required for the MA degree. Students must maintain a UI cumulative grade-point average of at least 2.75.

The MA in Spanish requires the following 10 courses. Students choose one of two emphasis areas: literature or linguistics.

Literature Emphasis Courses

Course #	Title	Hours
All of these:		
WLLC:5000	Teaching and Learning Languages	3
One course in Spanish linguistics numbered 4000 or above		3
Two courses in Spanish (peninsular) literature numbered 4000 or above		6
Two courses in Spanish American literature numbered 4000 or above		6
One course in literary theory		3
Three electives		9

At least eight of the literature emphasis courses must be taken in Department of Spanish and Portuguese courses numbered 5000 or above. The remaining two may be taken in Department of Spanish and Portuguese courses numbered 4000 or above or in courses offered by related departments, subject to approval by the director of graduate studies.

Linguistics Emphasis Courses

Course #	Title	Hours
All of these:		
WLLC:5000	Teaching and Learning Languages	3
One course in Spanish or Spanish American literature numbered 4000 or above		3
Two courses in syntax		6
Two courses in phonetics/phonology		6
One course in history of the Spanish language or sociolinguistics/language variation		3
One course in applied linguistics or language acquisition		3
Two electives		6

At least six of the linguistics emphasis courses must be taken in Department of Spanish and Portuguese courses numbered 5000 or above. The remaining four may be taken in Department of Spanish and Portuguese courses numbered 4000 or above or in Department of Linguistics courses (prefix LING).

Language Tool Requirement

Students must complete the equivalent of one year of college-level study of any approved second world language; Portuguese is highly recommended. They may satisfy this requirement either by examination or through courses taken at the University of Iowa or another accredited university; such coursework does not count toward the 30 s.h. required for the degree.

Examinations

The final examination includes written and oral components. The written portion consists of a two-hour examination in each of three areas; an oral examination follows, usually lasting 90 minutes. The examining committee is composed of four departmental faculty members.

Students in the literature emphasis may choose to be examined in three literature areas or in two literature areas and one linguistics area. At least one literature area must be in Spanish literature and at least one must be in Spanish American literature. If three literature areas are chosen, at least one must represent literature written before 1700 (peninsular or Spanish American).

Students in the linguistics emphasis may choose to be examined in three linguistics areas or in two linguistics areas and one literature area. At least one of the linguistics areas must be in syntax or phonology. For students in both emphases, the third examination area may be a film area.

For reading lists, contact the Department of Spanish and Portuguese.

Graduate Study Loads

Maximum course registration for all graduate students is 15 s.h. of graduate-level coursework in fall or spring semesters and 12 s.h. of graduate-level work in summer sessions. Students with one-quarter-time and one-third-time teaching assistantships are permitted to register for the maximum study loads. Students who hold one-half-time assistantships are permitted to register for a maximum of 12 s.h. in fall and spring semesters and 6 s.h. in summer sessions. Students

must have approval from the Graduate College to register for additional semester hours.

The minimum course registration is 1 s.h. for all graduate students. Students who fail to register for 36 months must apply for readmission to the Graduate College.

Admission

Applicants to the MA program should have completed the equivalent of the undergraduate Spanish major with a grade-point average of at least 3.00 in coursework for the major.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Two of the ten courses required for the degree may be taken in courses offered by related departments, subject to approval by the director of graduate studies.
b Work with faculty advisor to select appropriate graduate coursework.
c Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
d This requirement can be satisfied either by examination or through courses taken at the University of Iowa or another accredited university; coursework does not count toward the 30 s.h. required for the degree.
e Comprehensive final exam which includes both written and oral components; see General Catalog and department website for more information.

Spanish Creative Writing, MFA

Learning Outcomes

Students will be able to demonstrate:

- skills and knowledge of Spanish creative writing practice;
- broad knowledge of the professional field of Spanish creative writing;
- understanding Spanish creative writing as a critical and reflective practice in the context of the history and critical discourse on literature written in Spanish;
- ability to independently complete a publishing-quality creative project in Spanish; and
- knowledge and skills necessary to be effective instructors for courses numbered 1000–1999.

Requirements

The Master of Fine Arts program in Spanish creative writing requires 48 s.h. of graduate credit earned over four semesters in residence at the University of Iowa. Students must maintain a UI cumulative grade-point average of at least 2.75.

Students complete courses in writing, including several workshops and other relevant coursework. They also are required to do a final public reading in the spring semester of their second year. Work toward the degree culminates in a creative thesis. They must enroll in SPAN:6210 Fiction Workshop and SPAN:6220 Poetry Workshop during each year of residence in the program. Groups of 8–12 students read and critique each other's work in these courses.

For more information, visit the Master of Fine Arts in Spanish Creative Writing website.

The MFA in Spanish creative writing requires the following coursework.

Required Courses

Course #	Title	Hours
Required Workshops		
All of these (16 s.h.):		
SPAN:6210	Fiction Workshop (taken twice for 4 s.h. each)	8
SPAN:6220	Poetry Workshop (taken twice for 4 s.h. each)	8
Additional Workshops		
12 s.h. from these:		
SPAN:6235	Film Script/Theater Workshop	4
SPAN:6241	Creative Project Development	4
SPAN:6251	Workshop on Editing a Literary e-Journal	4
SPAN:6280	Nonfiction Workshop	4
SPAN:6290	Topics in Spanish Creative Writing	4
Additional Coursework		
All of these (15 s.h.):		
Three courses offered by the Department of Spanish and Portuguese		9
Two courses offered by the Department of Spanish and Portuguese, or related areas in consultation with faculty advisor		6
Thesis		
Both of these (5 s.h.):		
SPAN:6299	Thesis: Creative Writing (taken in third semester)	2
SPAN:6299	Thesis: Creative Writing (taken in fourth semester)	3

Thesis

Students submit their graduate thesis, a manuscript of substantial length, during their last semester, and must enroll in SPAN:6299 Thesis: Creative Writing. The thesis committee is composed of at least three members: two faculty members in the Spanish creative writing program and a third Department of Spanish and Portuguese faculty member who could be part of the creative writing program or a faculty member from a related area—Center for the Book, the Creative Writing Program (Iowa Writers' Workshop), or the International Writing Program.

Graduate Study Loads

Maximum course registration for all graduate students is 15 s.h. of graduate-level coursework in fall or spring semesters and 12 s.h. of graduate-level coursework in summer sessions. Students with one-quarter-time and one-third-time teaching assistantships are permitted to register for the maximum study loads. Students who hold one-half-time assistantships are permitted to register for a maximum of 12 s.h. in fall and spring semesters and 6 s.h. in summer sessions. Students must have approval from the Graduate College to register for additional semester hours.

The minimum course registration is 2 s.h. for all graduate students. Students who fail to register for three consecutive academic sessions (including the spring, summer, and fall sessions but excluding the winter session) must apply for readmission to the Graduate College. See the Graduate College's Manual of Rules and Regulations for more information.

Admission

In order to receive full consideration for financial aid, applications to the program should be received from Oct. 1 to Jan. 15.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

b Taken twice for a total of 8 s.h.

c Students must complete 15 s.h. of additional elective coursework including three courses (9 s.h.) offered by the Department of Spanish and Portuguese, and two courses (6 s.h.) offered by either the Department of Spanish and Portuguese or related units in consultation with faculty advisor.

d Students must complete 12 s.h. of additional workshop courses. See the General Catalog for a list of approved courses.

e MFA students are required to do a final public reading in the spring semester of their second year.

f Submission of a graduate thesis during the last semester. See the General Catalog and department website for more information.

Spanish, PhD

The PhD program in Spanish offers courses in the literature of the Spanish-speaking world and Spanish linguistics. In the literature program, students may take courses in Spanish American or peninsular literature, culture, and cinema. The Department of Spanish and Portuguese also offers a creative track in literature for students who have graduated with an MFA in creative writing. In the Spanish linguistics program, students take courses in Spanish syntax, phonology, language acquisition, and sociolinguistics.

Learning Outcomes

Students will be able to:

- demonstrate understanding and application of research methods and methodological knowledge;
- demonstrate understanding of and ability to analyze theoretical concepts and research in their field of study;
- express ideas effectively in professional academic settings in written and spoken communication in English and Spanish;
- continue to demonstrate knowledge and skills necessary to be effective teaching assistants for courses numbered 1000–1999 and beyond;
- plan, conduct, report on, and disseminate original research; and
- develop the critical research and writing skills necessary to publish peer-reviewed articles.

Requirements

The Doctor of Philosophy program in Spanish requires a total of at least 72 s.h. of graduate credit. Students must maintain a cumulative grade-point average of at least 3.00.

In this research-oriented degree, PhD students choose from two different tracks: literatures/cultures and Spanish linguistics. The literatures/cultures track trains students in textual analysis and literary history, criticism, and theory. The linguistics track provides training in linguistic analysis and theory. All courses taken to fulfill the semester hour requirement for the degree must be taken on an A–F graded basis; no graduate credit is awarded for a grade lower than C-minus.

Both tracks require a specified number of semester hours of coursework, of which up to, but not more than, 30 s.h. (10 courses) may be counted from the MA in Spanish or the MFA in Spanish creative writing at the University of Iowa or elsewhere, as approved by the director of graduate studies. The PhD also requires 3–15 s.h. for the thesis, SPAN:6999 Thesis, and the successful completion and defense of a dissertation representing original research or creative work.

No credit is awarded for coursework completed after the MA is granted and prior to entrance into the PhD program. If, in the course of doctoral study, the advisory committee recommends a student take coursework at another institution, the student may petition the director of graduate studies well in advance of undertaking the coursework, for approval of up to 9 s.h. of transfer credit. At least 39 s.h. of the 72 s.h. required for the degree must be in coursework taken at the University of Iowa.

Students who hold a teaching assistantship in the department are required to take WLLC:5000 Teaching and Learning Languages, a course in world language teaching methods. A student who has not earned the MA in Spanish or the MFA in Spanish creative writing at the University of Iowa may request that this requirement be waived because of previous coursework in world language teaching methods. The decision to waive the requirement is made by the Spanish CLAS Core director; no transfer credit is awarded toward the 72 s.h. required for the degree.

The Doctor of Philosophy in Spanish requires the following coursework.

Literatures/Cultures Track

Literatures/Cultures Track Courses

Students must complete at least 36 s.h. (12 courses) beyond the master's degree (or 22 courses beyond the bachelor's degree). The following courses are required; courses taken for the MA may be used to meet part of this requirement.

Course #	Title	Hours
All of these:		
SPAN:5002	Pedagogical Practicum	2
SPAN:6999	Thesis	3
Three courses in Spanish American literature or culture; at least one course must be in pre-1700 literature		9
Three courses in Spanish literature or culture; at least one course must be in pre-1700 literature		9
Six courses chosen in conjunction with advisor (students approved for a creative writing dissertation must take at least three graduate courses in Spanish creative writing, and students approved for a literary or cultural studies dissertation must take at least three graduate courses in Spanish or Spanish American literature or culture)		18

The specific plan of study for students, tailored to their area of emphasis, must be approved by their advisory committee by the end of the first semester in the PhD program. Coursework must be numbered between 5000 and 7000.

Students are encouraged to complete a graduate certificate. University of Iowa graduate certificates that complement the literatures/cultures track include the certificates in Book Arts and Book Studies [p. 1727]; College Teaching [p. 1732]; Gender, Women's, and Sexuality Studies [p. 486]; Literary Translation [p. 761]; Online Teaching [p. 1397]; and Public Digital Humanities. [p. 1803]

Literatures/Cultures Track Language Tool Requirement

Students in this track must complete the equivalent of three years of college-level study in one language.

Students who plan to write dissertations on topics in Spanish or Spanish American literature before 1700 are strongly encouraged to select Latin, Arabic, or an Amerindian language to satisfy this requirement; they should consult specialists in their field to determine which language is most appropriate. Students may take more than two languages if their coursework permits.

Language tool coursework below the third-year college level does not count toward the 72 s.h. required for the degree. Courses taken to fulfill the language tool requirements may be taken graded S/U, P/N, or by audit. If the language tool requirements are satisfied by examination, the exam results must be documented in a student's file.

Spanish Linguistics Track

Spanish Linguistics Track Courses

Students must earn at least 27 s.h. (9 courses) beyond the master's degree (or 19 courses beyond the bachelor's degree). The following courses are required; courses taken for the MA may be used to meet part of this requirement.

Course #	Title	Hours
All of these:		
SPAN:6110	Spanish Phonology	3
SPAN:6120	Spanish Syntax	3
SPAN:6150	Topics in Spanish Language Acquisition	3
SPAN:6999	Thesis	6
LING:3005	Articulatory and Acoustic Phonetics	3
LING:5010	Introduction to Syntax	3
LING:5020	Introduction to Phonology	3
LING:6010	Syntactic Theory	3
One additional course in the dissertation research area		3
One course in historical linguistics, sociolinguistics/language variation, or language acquisition/psycholinguistics		3
One Spanish linguistics seminar numbered 7000 or above		3
One of these:		
SPAN:6190	Topics in Comparative Romance Linguistics	3
LING:6050	Language Universals Linguistic Typology	3

The additional course in the dissertation research area (phonology, syntax, language acquisition, language variation) must be taken in the Department of Spanish and Portuguese or the Department of Linguistics.

The specific plan of study for students, tailored to their chosen area of emphasis, must be approved by their advisory committee by the end of the first semester in the PhD program. Coursework in Spanish (taken after the MA) must be numbered 6000 or above, except for some courses offered by the Department of Linguistics and the required third-year-level course in Portuguese (see "Spanish Linguistics Track Language Tool and Additional Requirements").

Spanish Linguistics Track Language Tool and Additional Requirements

Students in this track must complete the equivalent of three years of college-level study of Portuguese and the equivalent of one year of college-level study in each of two other languages. For students specializing in historical linguistics, one of those two languages must be Latin.

Students may satisfy the language tool requirement by examination or by coursework at the University of Iowa or at another accredited university. Courses taken to fulfill the language tool requirements may be taken on graded S/U, P/N, or by audit. If the language tool requirements are satisfied by examination, the exam results must be documented in the student's file. The language tool coursework does not count toward the 57 s.h. of pre-thesis coursework required for the degree, except for the third-year-level coursework in Portuguese, which may be counted with the faculty advisor's approval if a student completed the course on an A–F graded basis.

Students must also write two extended research papers and give two colloquium presentations based on these papers. The first paper must be in an area distinct from the intended dissertation research; it must be approved by a student's advisory committee by the end of fall semester of the second year of PhD coursework in order for the student to continue in the track. The second paper must be in the dissertation research area, of publishable quality, and approved by the student's advisory committee no later than the beginning of the semester in which the student takes the comprehensive exam.

Timeline: Post-MA/MFA

By the end of the fourth semester of enrollment, students should have completed all required coursework. They typically present their PhD comprehensive examination at the beginning of their fifth semester of enrollment. Students should develop the various parts of the comprehensive portfolio in conjunction with their PhD coursework. The two broad area reading lists can be developed while taking graduate-level courses in the department, and their article should be based on a research paper written in a graduate course in the department. Students are encouraged to complete their comprehensive examinations before Oct. 15 (in the fall semester) or March 15 (in the spring semester) and present and defend their dissertation prospectus before the end of the same semester. Some grants require students to have completed their doctoral examination and prospectus defense before they apply, so it is recommended that students finish the examinations early in the semester.

Comprehensive Examinations

The purpose of the comprehensive examination is to determine whether students have gained sufficient breadth and depth of research knowledge in Spanish literatures or linguistics to enter the profession as a teacher-scholar. The examining committee is composed of no fewer than four members of the graduate faculty. See the Manual of Rules and Regulations of the Graduate College for comprehensive exam policies.

Graduate students who plan to take the examination must file the departmental "Notification of Intent to Take MA or PhD Exams" form with the graduate student academic coordinator by the third week of the relevant semester; see the Graduate Program Manual on the Department of Spanish and Portuguese website. Students presenting the comprehensive exams cannot have more than one coursework requirement left to be completed, including courses for the fulfillment of the language tool requirements, after the semester in which the exams are presented. Generally, students either have finished their coursework requirements prior to presenting the comprehensive exams or they are completing them in the semester of their exams.

As with advisory committees, the student's advisor contacts the relevant faculty members to request their participation in the examining committee and then submits the proposed committee for approval by the director of graduate studies and the chair of the Department of Spanish and Portuguese. These individuals consult with the advisor as part of the approval process. This should be done as early as possible during the semester preceding the examinations, but not later than fifteen weeks prior to the start of examinations.

The research essay and position paper should be given to the Comprehensive Examination Committee at least one month before the oral exam, after approval by the faculty supervisors. The two written examinations are typically scheduled over a two-week period and must be finished at least one week before the oral exam. Between the time of the written exams and the oral exam, examining faculty individually evaluate and discuss the exams with the student. The information provided in the evaluation guides the student in final preparation for the oral component of the examination. However, it does not include specific questions to be asked in the oral exam nor does it limit the questions that may be asked.

The oral examination provides the opportunity for further development of the written examinations as well as a review of the position paper and research essay. At the end of the oral exam, the student is asked to leave the exam room in order for the committee to determine its evaluation. The student is then invited to return to the room to learn of the committee's evaluation, including an appraisal of specific areas of strength and/or weakness and recommendations for future academic work. The official evaluation of the exam is reported to the Graduate College as satisfactory, reservation, or unsatisfactory. If reservations are imposed, the examination committee must send a letter to the student specifying the reservations to be met and the deadline for their removal; copies are sent to the student's file, the director of graduate studies, and the Graduate College.

Students must be registered during the semester in which they take their comprehensive examinations. If all coursework has been completed prior to that semester, then students should register for 2 s.h. in SPAN:6998 Special Work with their advisor, on a satisfactory/unsatisfactory basis. Students may not register for SPAN:6999 Thesis during the semester of their comprehensive examination.

Literatures/Cultures Track Comprehensive Exams

The comprehensive examination has written and oral components. The written component includes four elements: two broad areas, one specialized area, and one article, each under the supervision of a committee member.

The elements of the written component are as follows.

- Two 2-hour written examinations, one for each of two broad areas of literary history, one Spanish and one Spanish American. The broad area lists should consist of approximately 35 readings. Selection of the two broad areas should be tied to a student's PhD coursework, particularly the courses taken after admission to the PhD program. The lists must be developed in consultation with the advisory committee and approved by the broad area supervisors before they are submitted to the rest of the committee for final approval. The written examination may include questions of textual analysis and aesthetics as well as historical periodization and literary criticism.
- One position paper in a specialized area related to the thesis. The specialized area list should include approximately 10–15 works that define the area. The narrow area is examined via a 10–15 page position paper that is a critical synthesis, particularly of the secondary readings. The list and position paper should be written in consultation with a faculty supervisor and must be approved by that supervisor at least one month before the date of the exam. The position paper is expected to form part of the introduction to the dissertation.
- One research essay. This part of the examination is a 20–25 page research essay. Typically, this essay is a substantially revised version of a paper written in one of the required graduate courses. The essay should be revised in consultation with the professor who taught the course for which the paper was originally written and with a second member of the exam committee. The research essay must be approved by both faculty members at least one month before the date of the exam.
- One oral examination. The oral examination lasts for approximately two hours. Approximately one-half of the oral exam is devoted to an examination of the two broad areas and the other half examines the research essay and position paper.

Spanish Linguistics Track Comprehensive Exams

The comprehensive exam includes written and oral components. The written component includes two weekend take-home exams consisting of linguistic analysis in two subdisciplines distinct from the subdiscipline of the intended dissertation research. The two-hour oral exam consists of one hour devoted to the discussion of the second research paper and the other hour devoted to follow-up questions on the written exams.

Dissertation

After the comprehensive examination is completed, a student submits a dissertation prospectus for the dissertation committee's approval. The dissertation committee is composed of no fewer than four graduate faculty members.

The dissertation, complete and in final form, must be submitted in the required electronic format to the Graduate College office by the deadline date of the session in which the degree is to be conferred. The approved dissertation in electronic format must be deposited at the office by the appropriate deadline in a student's graduation semester.

Students must adhere to the Graduate College regulations regarding the preparation of the dissertation copy; consult the Graduate College. For information on the dissertation and final examinations, see the Manual of Rules and Regulations on the Graduate College website.

Literatures/Cultures Track Dissertation

Dissertations can present a research project within literary/cultural history and/or theory in the form of a monographic study; present a research project within literary/cultural history and/or theory in the form of a set of journal article-style research essays, accompanied by an in-depth theoretical and critical reflection of 20–30 pages in length; offer a major creative project, accompanied by an in-depth theoretical and critical reflection; a critical edition of a literary work, accompanied by an in-depth theoretical and critical reflection; a translation of a literary work, accompanied by an in-depth theoretical and critical reflection. Theoretical and critical reflections for the major creative project, a critical edition of literary work, or the translation of a literary work options may be no less than 50 pages in length.

Dissertation Prospectus

The first step in the dissertation process is the submission and defense of the dissertation prospectus. The prospectus consists of these sections: a narrative that describes in detail the dissertation, the work done in the field previously, the research methodology and/or theoretical or creative approach, and a preliminary description of chapter divisions;

a preliminary bibliography; and a timetable for completion of the research and writing of the dissertation. Typically, the entire prospectus is 35–40 pages long.

Ideally, the prospectus should be approved by the dissertation committee by the end of the semester in which the comprehensive examination was successfully completed. In order to be considered to be making adequate progress toward the degree, a student should turn in the prospectus no later than the fourth week of the semester following the comprehensive exam.

Prospectus Defense

After the dissertation director has given preliminary approval of the prospectus, that faculty member schedules the prospectus defense. The defense is a meeting of the dissertation committee at which the student gives a brief oral presentation of the prospectus and answers questions that the committee members may have; the committee members should receive the written prospectus at least two weeks prior to the defense meeting. At this time, two members of the dissertation committee, in addition to the director, agree to read the dissertation on a chapter-by-chapter basis. Once approved, a copy of the prospectus and the departmental prospectus approval form are given to the graduate student academic coordinator by the dissertation director and placed in the student's file.

Additional Requirements

Independent Study

Only 3 s.h. earned for post-MA independent study may be applied toward the 72 s.h. required for the degree; the department discourages students from including independent study as a part of their coursework. Exceptions are made under extraordinary circumstances but must be preapproved by the director of graduate studies. For consideration of a request for independent study credit, students must complete the Department of Spanish and Portuguese Independent Study Contract for Graduate Students form obtained from the director of graduate studies, then secure the approval of the director of graduate studies and the chair of the department, and submit a copy of the form to the graduate student academic coordinator before the first day of the semester. Only students in good academic standing may enroll in an independent study course.

Graduate Study Loads

Maximum course registration for all graduate students is 15 s.h. of graduate-level coursework in fall or spring semesters and 12 s.h. of graduate-level work in summer sessions. Students with one-quarter-time and one-third-time teaching assistantships are permitted to register for the maximum study loads. Students who hold one-half-time assistantships are permitted to register for a maximum of 12 s.h. in fall and spring semesters and 6 s.h. in summer sessions. Students must have approval from the Graduate College to register for additional semester hours.

The minimum course registration is 1 s.h. for all graduate students. Doctoral students who have passed the comprehensive examinations typically register for 1 s.h. of thesis work to satisfy the minimum registration requirement. Students who fail to register for 36 months must apply for readmission to the Graduate College.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students entering with fewer that 30 s.h. of coursework from the master's degree must work with their faculty advisor to complete the needed appropriate graduate coursework.
b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
c Possible options include the certificates in Book Arts and Book Studies; College Teaching; Gender, Women's, and Sexuality Studies; Literary Translation; Online Teaching; and Public Digital Humanities. More information is included in the General Catalog and on department website.
d Work with faculty advisor to select appropriate graduate coursework.
e Complete six courses (at least 18 s.h.) chosen in consultation with faculty advisor. Depending on dissertation approval, students must take three courses in either Spanish creative writing, or in Spanish or Spanish American literature or culture.
f Includes both written and oral components.
g Complete at least 3 s.h. of thesis credit.
h Dissertation defense.

Statistics and Actuarial Science

Chair

- Kung-Sik Chan

Director of Undergraduate Studies, Actuarial Science

- Elias S. Shiu

Director of Undergraduate Studies, Data Science and Statistics

- Sanvesh Srivastava

Director of Graduate Studies

- Boxiang Wang

Undergraduate majors: actuarial science (BS); statistics (BS)

Undergraduate minor: statistics

Graduate degrees: MS in actuarial science; MS in statistics; PhD in statistics

Faculty: https://stat.uiowa.edu/people

Website: https://stat.uiowa.edu/

The Department of Statistics and Actuarial Science offers undergraduate majors, an undergraduate minor, and graduate degree programs. They partner with other departments to offer the BS in data science and the undergraduate Certificate in Social Science Analytics. The department offers courses that any undergraduate student may use to satisfy the GE CLAS Core [p. 22] Quantitative or Formal Reasoning requirement.

Probability and statistics are important scientific disciplines essential to all fields of study that rely on information obtained from data. In a world bombarded with numerical information, informed decisions rely on the ability to separate fact from fiction by applying valid statistical analyses and visualizations. Statisticians can provide crucial guidance in determining what information is reliable and which predictions may be trusted. They often help search for clues to the solution of a scientific mystery and sometimes keep investigators from being misled by false impressions.

The work of a statistician may range from the theoretical (developing new methodologies and statistical theory) to the applied (working with scientists and decision-makers to collect, analyze, and interpret data). Regardless of the areas in which they work, statisticians need strong mathematical, computational, and communication skills. Because uncertainty and data arise in many settings, statisticians have the opportunity to work on a variety of projects in industry, education, government, and research. Thousands of statisticians work in medicine, law, agriculture, business, finance, public policy, marketing, manufacturing, engineering, and other fields in the social and natural sciences. The diversity of applications is an exciting aspect of the field and is one reason why the demand for well-trained statisticians continues to be strong.

An actuary is a business executive, professionally trained in the mathematical sciences. Actuaries specialize in the evaluation of financial risk—most often in the context of life, health, and casualty insurance, where they design, analyze, and refine varied programs to meet the insurance needs of society. Many actuaries are employed by insurance companies, where they have responsibility for all phases of the development and maintenance of their company's products. They have considerable influence on the financial soundness of their company through work in pricing insurance policies and compiling data for financial statements.

Many actuaries are employed as consultants. Their actuarial services are used by smaller insurance companies and individual employers who need actuarial guidance in establishing insurance and retirement programs for their employees. A growing number of actuaries work in the areas of asset/liability management and risk management. Some of these actuaries are employed by investment and consulting firms; others are employed by insurance companies.

Actuaries have been called financial architects and social mathematicians because their combined analytical and business skills help solve a growing variety of financial and social problems. The actuarial profession is a demanding yet rewarding career choice.

Related Major and Certificate

Major: Data Science

The BS in data science produces graduates with the sophisticated analytical and computational skills required to thrive in a quantitative world where new problems are encountered at an ever-increasing rate. The major emphasizes the statistical/probabilistic and algorithmic methods that underlie the preparation, analysis, and communication of complex data. With a focus on technical foundations, the data science program promotes skills useful for creating and implementing new or special-purpose analysis and visualization tools. It also promotes a fundamental understanding of how to best handle uncertainty when making data-driven decisions.

Statistics majors may not earn a major in data science. The Department of Statistics and Actuarial Science and the Department of Computer Science collaborate to offer the major in data science. The BS in data science is administered by the Department of Statistics and Actuarial Science; see the BS in data science [p. 350] in the catalog.

Certificate: Social Science Analytics

The growth of big data and informatics calls for a new set of skills for social science students and an increased understanding of the logic of data collection and analysis. The certificate focuses on the application side of data analysis. It allows students to focus on the specific research methods and data-driven quantitative skills that are most effective for understanding an increasingly complicated social-political world. The certificate offers an opportunity for interdisciplinary training on how data can be used to address important questions in the social sciences. The Department of Statistics and Actuarial Science collaborates with the departments of Political Science and Sociology and Criminology and the School of Earth, Environment, and Sustainability to offer the undergraduate program in social science analytics; see the Certificate in Social Science Analytics [p. 996] in the catalog.

Programs

Undergraduate Programs of Study

Majors

- Major in Statistics (Bachelor of Science) [p. 1083]
- Major in Actuarial Science (Bachelor of Science) [p. 1087]

Minor

- Minor in Statistics [p. 1090]

Graduate Programs of Study

- Master of Science in Statistics [p. 1091]
- Master of Science in Actuarial Science [p. 1094]
- Doctor of Philosophy in Statistics [p. 1096]

Facilities

The Department of Statistics and Actuarial Science is housed in Schaeffer Hall, adjacent to the Old Capitol, a National Historic Landmark and the center of campus. The department operates two computer labs in Schaeffer Hall. One, which also is used as an electronic classroom, contains 28 Windows PCs. The second houses 18 high-end UNIX workstations. Students use these labs for classwork and research.

Courses

- Statistics Courses [p. 1076]
- Actuarial Science Courses [p. 1080]
- Data Science Courses [p. 1080]

Undergraduate Duplication and Regression Policy

Data science majors may not earn a major or minor in computer science or statistics, a major in computer science and engineering, or the Certificate in Social Science Analytics. Likewise, statistics majors may not earn a major in data science.

Undergraduate students should be aware of the duplication and regression policies concerning the following courses.

Students may earn credit for only two of these: STAT:1010 Statistics and Society, STAT:1015/DATA:1015 Introduction to Data Science, STAT:1020/PSQF:1020 Elementary Statistics and Inference, STAT:1030 Statistics for Business, and STAT:2010 Statistical Methods and Computing.

Credit for STAT:1010 Statistics and Society may be earned only if the course is taken before any of these: STAT:1015/DATA:1015 Introduction to Data Science, STAT:1020/PSQF:1020 Elementary Statistics and Inference, STAT:1030 Statistics for Business, and STAT:2010 Statistical Methods and Computing.

Students may receive credit for only one course from each of these pairs: STAT:2010 Statistical Methods and Computing and STAT:4200/IGPI:4200 Statistical Methods and Computing; STAT:3100/IGPI:3100 Introduction to Mathematical Statistics I and STAT:3120/DATA:3120/IGPI:3120 Probability and Statistics; STAT:3510/IGPI:3510 Biostatistics and STAT:4143/PSQF:4143 Introduction to Statistical Methods; STAT:4100 Statistical Inference I and STAT:5100 Statistical Inference I; and STAT:4101 Statistical Inference II and STAT:5101 Statistical Inference II.

Students may not take STAT:3101/IGPI:3101 Introduction to Mathematical Statistics II and STAT:4101/IGPI:4101 Statistical Inference II at the same time and get credit for both (nor go back to STAT:3101/IGPI:3101 after taking STAT:4101/IGPI:4101).

Statistics Courses

STAT:1000 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

STAT:1010 Statistics and Society **3 s.h.**
Statistical ideas and their relevance to public policy, business, humanities, and the social, health, and physical sciences; focus on critical approach to statistical evidence. Requirements: one year of high school algebra or MATH:0100. GE: Quantitative or Formal Reasoning.

STAT:1015 Introduction to Data Science **3 s.h.**
In today's world, massive amounts of data are increasingly collected and leveraged for knowledge discovery, policy assessment, and decision-making across many fields, including business, natural sciences, social sciences, and humanities. Topics covered include data collection, visualization, and data wrangling; basics of probability and statistical inference; fundamentals of data learning, including regression, classification, prediction, and cross-validation; computing, learning, and reporting in the R environment; and literate programming and reproducible research. Requirements: one year of high school algebra or MATH:0100. GE: Quantitative or Formal Reasoning. Same as DATA:1015.

STAT:1020 Elementary Statistics and Inference **3 s.h.**
Graphing techniques for presenting data, descriptive statistics, correlation, regression, prediction, logic of statistical inference, elementary probability models, estimation and tests of significance. Requirements: one year of high school algebra or MATH:0100. GE: Quantitative or Formal Reasoning. Same as PSQF:1020.

STAT:1030 Statistics for Business **4 s.h.**
Descriptive statistics, graphical presentation, elementary probability, estimation and testing, regression, correlation; statistical computer packages. GE: Quantitative or Formal Reasoning.

STAT:2010 Statistical Methods and Computing **3 s.h.**
Methods of data description and analysis using SAS; descriptive statistics, graphical presentation, estimation, hypothesis testing, sample size, power; emphasis on learning statistical methods and concepts through hands-on experience with real data. Recommendations: undergraduate standing. GE: Quantitative or Formal Reasoning.

STAT:2020 Probability and Statistics for the Engineering and Physical Sciences **3 s.h.**
Probability, random variables, important discrete and continuous distributions, joint distributions, transformations of random variables, descriptive statistics, point and interval estimation, tests of hypotheses, regression. Prerequisites: MATH:1560 or MATH:1860.

STAT:3100 Introduction to Mathematical Statistics I 4 s.h.
Review of mathematical basics for mathematical statistics, descriptive statistics, probability, conditional probability, discrete and continuous univariate and multivariate distributions, and sampling distributions. Prerequisites: MATH:1860 or MATH:1560. Same as IGPI:3100.

STAT:3101 Introduction to Mathematical Statistics II 3 s.h.
Point and interval estimation, testing statistical hypotheses, simple regression, nonparametric methods. Prerequisites: STAT:3100. Same as IGPI:3101.

STAT:3120 Probability and Statistics 4 s.h.
Models, discrete and continuous random variables and their distributions, estimation of parameters, testing statistical hypotheses. Prerequisites: MATH:1560 or MATH:1860. Same as DATA:3120, IGPI:3120.

STAT:3200 Applied Linear Regression 3 s.h.
Regression analysis with focus on applications; model formulation, checking, and selection; interpretation and presentation of analysis results; simple and multiple linear regression; logistic regression; ANOVA; polynomial regression; tree models; bootstrapping; hands-on data analysis with computer software. Prerequisites: STAT:2020 or STAT:2010 or STAT:3120. Same as DATA:3200, IGPI:3200, ISE:3760.

STAT:3210 Experimental Design and Analysis 3 s.h.
Single- and multifactor experiments; analysis of variance; multiple comparisons; contrasts; diagnostics; fixed, random, and mixed effects models; designs with blocking and/or nesting; two-level factorials and fractions thereof; use of statistical computing packages. Prerequisites: STAT:3200.

STAT:3510 Biostatistics 3 s.h.
Statistical concepts and methods for the biological sciences; descriptive statistics, elementary probability, sampling distributions, confidence intervals, parametric and nonparametric methods, one-way ANOVA, correlation and regression, categorical data. Requirements: MATH:0100 or MATH:1005 or ALEKS score of 30 or higher. Same as IGPI:3510.

STAT:3620 Quality Control 3 s.h.
Basic techniques of statistical quality control; application of control charts for process control variables; design of inspection plans and industrial experimentation; modern management aspects of quality assurance systems. Offered fall semesters. Prerequisites: STAT:2020 or BAIS:9100 or (STAT:3100 and STAT:3101 and STAT:3200). Same as CEE:3142, ISE:3600.

STAT:4100 Statistical Inference I 3 s.h.
Review of probability, distribution theory (multiple random variables, moment-generating functions, transformations, conditional distributions), sampling distributions, order statistics, convergence concepts, generating random samples. Prerequisites: MATH:2850 and STAT:3101. Recommendations: undergraduate standing. Same as IGPI:4100.

STAT:4101 Statistical Inference II 3 s.h.
Continuation of STAT:4100; principles of data reduction, point estimation theory (MLE, Bayes, UMVU), hypothesis testing, interval estimation, decision theory, asymptotic evaluations. Prerequisites: STAT:4100. Recommendations: undergraduate standing. Same as IGPI:4101.

STAT:4143 Introduction to Statistical Methods 3 s.h.
Analysis, interpretation of research data; descriptive statistics; introduction to probability, sampling theory, statistical inference (binomial, normal distribution, t-distribution models); linear correlation, regression. Same as PSQF:4143.

STAT:4200 Statistical Methods and Computing 3 s.h.
Methods of data description and analysis using SAS; descriptive statistics, graphical presentation, estimation, hypothesis testing, sample size, power; emphasis on learning statistical methods and concepts through hands-on experience with real data. Recommendations: graduate standing in non-statistics or less quantitative major. Same as IGPI:4200.

STAT:4520 Bayesian Statistics 3 s.h.
Bayesian statistical analysis, with focus on applications; Bayesian and frequentist methods compared; Bayesian model specification, choice of priors, computational methods; hands-on Bayesian data analysis using appropriate software; interpretation and presentation of analysis results. Prerequisites: STAT:3200 and (STAT:3101 or STAT:4101 or STAT:3120). Same as IGPI:4522, PSQF:4520.

STAT:4540 Statistical Learning 3 s.h.
Introduction to supervised and unsupervised statistical learning, with a focus on regression, classification, and clustering; methods will be applied to real data using appropriate software; supervised learning topics include linear and nonlinear (e.g., logistic) regression, linear discriminant analysis, cross-validation, bootstrapping, model selection, and regularization methods (e.g., ridge and lasso); generalized additive and spline models, tree-based methods, random forests and boosting, and support-vector machines; unsupervised learning topics include principal components and clustering. Requirements: an introductory statistics course and a regression course. Recommendations: prior exposure to programming and/or software, such as R, SAS, and Matlab. Same as BAIS:4540, DATA:4540, IGPI:4540.

STAT:4560 Statistics for Risk Modeling I 3 s.h.
Simple linear regression, multiple linear regression, model diagnostics, linear models from a statistical learning perspective, generalized linear models, and implementations of these models on real data. Prerequisites: STAT:4101 with a minimum grade of C+ or STAT:5101 with a minimum grade of C+.

STAT:4561 Statistics for Risk Modeling II 3 s.h.
Regression-based time series models, decision trees, principal components analysis, cluster analysis, and implementations of these analytic techniques on real data. Prerequisites: STAT:4560 with a minimum grade of C+.

STAT:4580 Data Visualization and Data Technologies 3 s.h.
Introduction to common techniques for visualizing univariate and multivariate data, data summaries, and modeling results; how to create and interpret these visualizations and assess effectiveness of different visualizations based on an understanding of human perception and statistical thinking; data technologies for obtaining and preparing data for visualization and further analysis; students learn how to present results in written reports and use version control to manage their work. Requirements: an introductory statistics course and a regression course. Recommendations: prior exposure to basic use of statistical programming software (e.g., R or SAS) as obtained from a regression course strongly recommended. Same as DATA:4580, IGPI:4580.

STAT:4600 Causal Inference for Data Science 3 s.h.
Introduce methods for reasoning about causes, effects, and bias when analyzing experimental and observational data. Topics include the potential outcomes framework, counterfactuals, confounding, and missing data; the identification and estimation of causal effects via propensity score methods, marginal structural models, instrumental variables, and directed acyclic graphs; as well as applications of machine learning and Bayesian methods to causal inference. Prerequisites: (DATA:3120 or STAT:3120) and (DATA:3200 or STAT:3200). Requirements: familiarity with the R programming. Same as DATA:4600.

STAT:4740 Large Data Analysis 3 s.h.
Current areas that deal with problem of big data; techniques from computer science, mathematics, statistics; high performance and parallel computing, matrix techniques, cluster analysis, visualization; variety of applications including Google PageRank, seismology, Netflix-type problems, weather forecasting; fusion of data with simulation; projects. Prerequisites: (CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-) and (MATH:3800 or CS:3700) and (STAT:3200 or IE:3760 or IGPI:3200). Same as CS:4740, IGPI:4740, MATH:4740.

STAT:4750 Probabilistic Statistical Learning 3 s.h.
Essential machine learning and statistics ideas that are critical in analyzing modern complex and large data; supervised learning topics include linear models, deep neural networks, and nonparametric models; essential topics include nonlinear dimension reduction, clustering, and recommender systems. Prerequisites: (CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-) and (MATH:2700 or MATH:2550) and (STAT:2010 or STAT:2020 or STAT:4200) and STAT:4540. Same as DATA:4750.

STAT:5090 ALPHA Seminar 1 s.h.
Resources available to students, program requirements, tips for academic success, professional statistical organizations, library and career center resources, statistical computing, scientific document preparation, history of statistics. Requirements: graduate standing in statistics.

STAT:5091 Statistics Career Seminar 1 s.h.
Practical, hands-on approach to demystify the job search process and build essential career-readiness skills for roles in statistics, actuarial science, and data science across academia, industry, government, and non-profit sectors. Same as GRAD:5091.

STAT:5100 Statistical Inference I 3 s.h.
Review of probability, distribution theory (multiple random variables, moment-generating functions, transformations, conditional distributions), sampling distributions, order statistics, convergence concepts, generating random samples. Prerequisites: MATH:2850 and STAT:3101.

STAT:5101 Statistical Inference II 3 s.h.
Continuation of STAT:5100; principles of data reduction, point estimation theory (MLE, Bayes, UMVU), hypothesis testing, interval estimation, decision theory, asymptotic evaluations. Prerequisites: STAT:5100.

STAT:5120 Mathematical Methods for Statistics 3 s.h.
Real numbers, point set theory, limit points, limits, metric spaces, continuity, sequences and series, Taylor series (multivariate), uniform convergence, Riemann-Stieltjes integrals.

STAT:5200 Applied Statistics I 4 s.h.
Descriptive statistics, basic inferential methods (confidence intervals, chi-square tests); linear models (regression and ANOVA models—specification and assumptions, fitting, diagnostics, selection, testing, interpretation); nonlinear models, logistic regression. Prerequisites: STAT:3101. Corequisites: STAT:4100 or STAT:5100. Requirements: facility with matrix algebra. Same as IGPI:5199.

STAT:5201 Applied Statistics II 3 s.h.
Design of experiments and analysis of designed experiments; models for fixed and random effects; mixed models; design and analysis of complex plans; sample-size methods. Prerequisites: STAT:5200. Recommendations: prior exposure to SAS software.

STAT:5400 Computing in Statistics 3 s.h.
R; database management; graphical techniques; importing graphics into word-processing documents (e.g., LaTeX); creating reports in LaTeX; SAS; simulation methods (Monte Carlo studies, bootstrap, etc.). Prerequisites: CS:1210 and STAT:3200 and (STAT:3120 or STAT:3101 or STAT:4101). Corequisites: STAT:5100 and STAT:5200 if not already completed. Same as DATA:5400, IGPI:5400.

STAT:5610 Regression Modeling and ANOVA in the Health Sciences 3 s.h.
Continuation of BIOS:4120; correlation, simple and multiple linear regression, confounding, interactions, model selection, single and multiple factor ANOVA (analysis of variance) models, contrasts, multiple comparisons, nested and block designs; introduction to mixed models; for non-biostatistics majors. Offered spring semesters. Prerequisites: BIOS:4120. Same as BIOS:5120, IGPI:5120.

STAT:5810 Research Data Management 3 s.h.
Introduction to data management techniques and problems encountered in gathering and processing data from biomedical investigations; introduction to SAS, techniques taught in SAS; designed for non-biostatistics majors. Recommendations: prior programming experience with C, C++, Python, Java, or other. Same as BIOS:5310, IGPI:5310.

STAT:6200 Predictive Analytics 3 s.h.
Linear mixed models; generalized linear mixed models; generalized additive models; applications of these models using associated R packages. Prerequisites: STAT:4560. Corequisites: STAT:4561. Requirements: comfort working with R software environment. Same as ACTS:6200, DATA:6200.

STAT:6220 Consulting and Communication With Data 3 s.h.
Realistic supervised data analysis experiences, including statistical packages, statistical graphics, writing statistical reports, dealing with complex or messy data. Offered spring semesters. Prerequisites: (STAT:3200 and STAT:3210) or (STAT:5201 and STAT:5200). Requirements: for undergraduate majors—major GPA of 3.00 or above, and grades of B or higher in STAT:3200 and STAT:3210. Same as DATA:6220.

STAT:6300 Probability and Stochastic Processes I 3 s.h.
Conditional expectations; Markov chains, including random walks and gambler's ruin; classification of states; stationary distributions; branching processes; Poisson processes; Brownian motion. Prerequisites: STAT:4100.

STAT:6301 Probability and Stochastic Processes II 3 s.h.
Markov chains with continuous state space, Martingales, random walks, Brownian motion and other continuous-time Markov chains, simulation methods. Prerequisites: STAT:6300.

STAT:6513 Intermediate Statistical Methods 3 s.h.
Statistical inference and uncertainty estimation using general linear models (i.e., linear regression, analysis of variance); interpreting and conveying statistical results. Requirements: for PSQF:6243—PSQF:4143; for STAT:6513—STAT:4143. Same as PSQF:6243.

STAT:6514 Correlation and Regression 4 s.h.
Correlation techniques; selected bivariate procedures, multiple, partial, curvilinear correlation; multiple linear regression; sampling theory applied to regression analysis and correlation coefficients; simple causal models. Requirements: for PSQF:6244—PSQF:6243; for STAT:6514—STAT:6513. Same as PSQF:6244.

STAT:6516 Design of Experiments 3 s.h.
Theory and methods in the planning and statistical analysis of experimental studies; testing of hypotheses about linear contrasts among means in single-factor and multifactor, completely randomized, and repeated measurement designs. Requirements: for PSQF:6246—PSQF:6243; for STAT:6516—STAT:6513. Same as PSQF:6246.

STAT:6530 Environmental and Spatial Statistics 3 s.h.
Geostatistics kriging, variogram estimation, trend estimation, sampling design, extensions to river networks and the globe, lattice data analysis, analysis of spatial point patterns. Prerequisites: STAT:4101 and STAT:3200. Same as IGPI:6530.

STAT:6547 Nonparametric Statistical Methods 3 s.h.
Selected nonparametric methods; one- and two-sample location tests and estimation methods, measures of association, analyses of variance; emphasis on relationships to classical parametric procedures. Same as PSQF:6247.

STAT:6550 Introductory Longitudinal Data Analysis 3 s.h.
Introduction to statistical models and estimation methods for outcome variables (normal and non-normal) clustered or measured repeatedly in time or space; focus on applications and computer software methods for ANOVA based methods, hierarchical linear models, linear mixed models, correlated regression models, generalized estimating equations, and generalized linear mixed models. Offered fall semesters. Prerequisites: BIOS:5120 or STAT:3200. Same as BIOS:6310, IGPI:6310.

STAT:6560 Applied Time Series Analysis 3 s.h.
General stationary, nonstationary models, autocovariance autocorrelation functions; stationary, nonstationary autoregressive integrated moving average models; identification, estimation, forecasting in linear models; use of statistical computer packages. Offered spring semesters. Prerequisites: (STAT:5200 or STAT:3200) and STAT:3101.

STAT:6970 Topics in Statistics 3 s.h.
Selected advanced topics in statistics.

STAT:6990 Readings in Statistics arr.
Supervised reading and research in statistics.

STAT:7100 Advanced Inference I 3 s.h.
Concepts of convergence, asymptotic methods including the delta method, sufficiency, asymptotic efficiency, Fisher information and information bounds for estimation, maximum likelihood estimation, the EM-algorithm, Bayes estimation, decision theory. Prerequisites: STAT:5101 and STAT:5120.

STAT:7101 Advanced Inference II 3 s.h.
Hypothesis testing, asymptotics of the likelihood ratio test, asymptotic efficiency, statistical functionals, robustness, bootstrap and jackknife, estimation with dependent data. Prerequisites: STAT:7100.

STAT:7190 Seminar: Mathematical Statistics arr.
Selected advanced topics in mathematical statistics.

STAT:7200 Linear Models 4 s.h.
Linear spaces and selected topics in matrix algebra, full rank and non-full rank linear models, estimability, least squares and best linear unbiased estimation, multivariate normal distribution and distributions of quadratic forms, interval estimation, hypothesis testing, random and mixed models, best linear unbiased prediction, variance component estimation. Prerequisites: STAT:5101 and STAT:5200 and STAT:5201.

STAT:7290 Seminar: Applied Statistics arr.
Selected advanced topics in applied statistics.

STAT:7300 Advanced Probability 3 s.h.
Probability theory, with emphasis on constructing rigorous proofs; measure spaces, measurable functions, random variables and induced measures, distribution functions, Lebesque integral, product measure and independence, Borel Cantelli lemma, modes of convergence. Prerequisites: STAT:5120.

STAT:7390 Seminar: Probability arr.
Selected advanced topics in probability.

STAT:7400 Computer Intensive Statistics 3 s.h.
Computer arithmetic, random variate generation, numerical optimization, numerical linear algebra, smoothing techniques, bootstrap methods, cross-validation, MCMC, EM and related algorithms; other topics per student/instructor interests. Prerequisites: (BIOS:5710 or STAT:5200) and STAT:3101 and STAT:5400. Requirements: proficiency in Fortran or C or C++ or Java. Same as DATA:7400, IGPI:7400.

STAT:7500 Statistical Machine Learning 3 s.h.
Regularization methods for sparse models, computational algorithms for large scale problems, statistical inference in high-dimensional models, reproducing kernel Hilbert space, supervised learning, nonparametric density and conditional density estimation, neural networks and deep learning, optimal transport and generative learning, dimension reduction and representation learning. Prerequisites: STAT:5100 or STAT:5200. Same as BAIS:7500.

STAT:7510 Analysis of Categorical Data 3 s.h.
Distributions and inference for categorical data; descriptive and inferential methods for contingency tables; theory and application of generalized linear models including methods for parameter estimation and testing, model selection and assessment of model adequacy; models for binary, count, and multi-category outcomes; loglinear models for contingency tables; generalized additive models; generalized linear models for longitudinal and clustered data. Offered spring semesters of even years. Prerequisites: (BIOS:5720 or STAT:5200) and (STAT:5101 or STAT:4101). Same as BIOS:7410.

STAT:7520 Bayesian Analysis 3 s.h.
Decision theory, conjugate families, structure of Bayesian inference, hierarchical models, asymptotic approximations for posterior distributions, Markov chain Monte Carlo methods and convergence assessment, model adequacy and model choice. Prerequisites: STAT:5101 and STAT:5400 and STAT:5200.

STAT:7560 Time Series Analysis 3 s.h.
Stationary time series, ARIMA models, spectral representation, linear prediction inference for the spectrum, multivariate time series, state space models and processes, nonlinear time series. Prerequisites: STAT:4101 and (STAT:3200 or STAT:6560).

STAT:7570 Survival Data Analysis 3 s.h.
Types of censoring and truncation; survival function estimation; parametric inference using exponential, Weibull, and accelerated failure time models; nonparametric tests; sample size calculation; Cox regression with stratification and time-dependent covariates; regression diagnostics; competing risks; topics may include analysis of correlated survival data and/or recurrent events; designed for biostatistics and statistics majors. Offered fall semesters of odd years. Prerequisites: BIOS:5720 and ((STAT:4100 and STAT:4101) or (STAT:5100 and STAT:5101)). Same as BIOS:7210, IGPI:7210.

STAT:7990 Reading Research arr.
Supervised reading and research in statistics.

Actuarial Science Courses

ACTS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ACTS:1001 Introductory Seminar on Actuarial Science 1 s.h.
The actuarial profession, exam process, academic success, internships, resources for actuarial students, important skills for actuaries, and career paths in actuarial science.

ACTS:3080 Mathematics of Finance I 3 s.h.
Mathematics of compound interest, annuities certain, loan amortization schedules, bonds, yield rates, and introduction to interest rate risk management. Prerequisites: MATH:1860 with a minimum grade of B-. Requirements: calculus II or graduate standing.

ACTS:3110 Actuarial Exam P Preparation 1 s.h.
Preparation for the Society of Actuaries exam P. Corequisites: STAT:3100 or STAT:4100 or STAT:5100.

ACTS:3210 Actuarial Exam FM Preparation 1 s.h.
Preparation for the Society of Actuaries exam FM. Corequisites: ACTS:3080, if not taken as a prerequisite.

ACTS:4130 Quantitative Methods for Actuaries 3 s.h.
Survival distributions, life tables, life insurance, life annuities, and premiums. Offered fall semesters. Prerequisites: STAT:3100 with a minimum grade of B- and ACTS:3080 with a minimum grade of C+. Corequisites: STAT:4100 or STAT:5100. Requirements: multivariate calculus and linear algebra.

ACTS:4150 Fundamentals of Short-Term Actuarial Mathematics 3 s.h.
Severity, frequency, aggregate loss, estimation, credibility theory, pricing, and reserving for short-term insurance coverages; option pricing. Offered spring semesters. Prerequisites: STAT:4100 with a minimum grade of C+ or STAT:5100 with a minimum grade of C+. Corequisites: STAT:4101 or STAT:5101.

ACTS:4160 Topics in Actuarial Science arr.
Selected topics in actuarial science, financial mathematics, and quantitative risk management.

ACTS:4180 Life Contingencies I 3 s.h.
Reserves, multi-life models, multiple-decrement models, and Markov chains. Offered spring semesters. Prerequisites: ACTS:3080 with a minimum grade of C+ and ACTS:4130 with a minimum grade of C+ and (STAT:4100 with a minimum grade of C+ or STAT:5100 with a minimum grade of C+).

ACTS:4280 Life Contingencies II 3 s.h.
Multistate models, pension mathematics, emerging costs for traditional and equity-linked insurance, profit testing, profit measures, and embedded options. Offered fall semesters. Prerequisites: ACTS:4180 with a minimum grade of C+.

ACTS:4380 Mathematics of Finance II 3 s.h.
Derivatives markets, forwards, options, pricing models, and actuarial applications. Prerequisites: ACTS:3080 with a minimum grade of C+. Requirements: mathematical statistics, multivariate calculus, and linear algebra.

ACTS:4990 Readings in Actuarial Science arr.

ACTS:6160 Topics in Actuarial Science arr.
Selected topics in actuarial science, financial mathematics, and quantitative risk management.

ACTS:6200 Predictive Analytics 3 s.h.
Linear mixed models; generalized linear mixed models; generalized additive models; applications of these models using associated R packages. Prerequisites: STAT:4560. Corequisites: STAT:4561. Requirements: comfort working with R software environment. Same as DATA:6200, STAT:6200.

ACTS:6480 Loss Distributions 3 s.h.
Severity, frequency, and aggregate models and their modifications; risk measures; construction of empirical models. Offered spring semesters. Prerequisites: STAT:4101 or STAT:5101. Corequisites: ACTS:6580.

ACTS:6580 Credibility and Survival Analysis 3 s.h.
Construction and selection of parametric models, credibility, and simulation. Offered spring semesters. Prerequisites: STAT:4101 or STAT:5101. Corequisites: ACTS:6480.

ACTS:6990 Readings in Actuarial Science arr.
Supervised reading and research in actuarial science, financial mathematics, or quantitative risk management.

ACTS:7730 Advanced Topics in Actuarial Science/ Financial Mathematics arr.
Selected advanced topics in actuarial science, financial mathematics and quantitative risk management.

Data Science Courses

DATA:1015 Introduction to Data Science 3 s.h.
In today's world, massive amounts of data are increasingly collected and leveraged for knowledge discovery, policy assessment, and decision-making across many fields, including business, natural sciences, social sciences, and humanities. Topics covered include data collection, visualization, and data wrangling; basics of probability and statistical inference; fundamentals of data learning, including regression, classification, prediction, and cross-validation; computing, learning, and reporting in the R environment; and literate programming and reproducible research. Requirements: one year of high school algebra or MATH:0100. GE: Quantitative or Formal Reasoning. Same as STAT:1015.

DATA:3120 Probability and Statistics 4 s.h.
Models, discrete and continuous random variables and their distributions, estimation of parameters, testing statistical hypotheses. Prerequisites: MATH:1560 or MATH:1860. Same as IGPI:3120, STAT:3120.

DATA:3200 Applied Linear Regression 3 s.h.
Regression analysis with focus on applications; model formulation, checking, and selection; interpretation and presentation of analysis results; simple and multiple linear regression; logistic regression; ANOVA; polynomial regression; tree models; bootstrapping; hands-on data analysis with computer software. Prerequisites: STAT:2020 or STAT:2010 or STAT:3120. Same as IGPI:3200, ISE:3760, STAT:3200.

DATA:4540 Statistical Learning 3 s.h.
Introduction to supervised and unsupervised statistical learning, with a focus on regression, classification, and clustering; methods will be applied to real data using appropriate software; supervised learning topics include linear and nonlinear (e.g., logistic) regression, linear discriminant analysis, cross-validation, bootstrapping, model selection, and regularization methods (e.g., ridge and lasso); generalized additive and spline models, tree-based methods, random forests and boosting, and support-vector machines; unsupervised learning topics include principal components and clustering. Requirements: an introductory statistics course and a regression course. Recommendations: prior exposure to programming and/or software, such as R, SAS, and Matlab. Same as BAIS:4540, IGPI:4540, STAT:4540.

DATA:4580 Data Visualization and Data Technologies 3 s.h.
Introduction to common techniques for visualizing univariate and multivariate data, data summaries, and modeling results; how to create and interpret these visualizations and assess effectiveness of different visualizations based on an understanding of human perception and statistical thinking; data technologies for obtaining and preparing data for visualization and further analysis; students learn how to present results in written reports and use version control to manage their work. Requirements: an introductory statistics course and a regression course. Recommendations: prior exposure to basic use of statistical programming software (e.g., R or SAS) as obtained from a regression course strongly recommended. Same as IGPI:4580, STAT:4580.

DATA:4600 Causal Inference for Data Science 3 s.h.
Introduce methods for reasoning about causes, effects, and bias when analyzing experimental and observational data. Topics include the potential outcomes framework, counterfactuals, confounding, and missing data; the identification and estimation of causal effects via propensity score methods, marginal structural models, instrumental variables, and directed acyclic graphs; as well as applications of machine learning and Bayesian methods to causal inference. Prerequisites: (DATA:3120 or STAT:3120) and (DATA:3200 or STAT:3200). Requirements: familiarity with the R programming. Same as STAT:4600.

DATA:4610 Data Acquisition and Management 3 s.h.
Introduction to common techniques for manipulating relational databases for data analysis; SQL and PostgreSQL fundamentals: querying, data manipulation and transformation, joins and subqueries, aggregation and grouping, data types and management; advanced topics: window functions, subqueries, common table expressions, indexing strategies, performance optimization techniques, security considerations; database building. Prerequisites: DATA:3200 or STAT:3200. Recommendations: Familiarity with basic programming logic, e.g., variables, loops, conditional statements.

DATA:4620 Text Data Analysis 3 s.h.
Introduction to text analytics techniques for real-world applications; Python fundamentals for text data exploration and manipulation; text processing via NLP libraries (NLTK, spaCy, Gensim); feature engineering; sentiment analysis; topic modeling; text summarization, machine translation, and deep learning applications. Prerequisites: (CS:1210 or DATA:5400) and DATA:4540. Recommendations: Basic knowledge of Python programming.

DATA:4750 Probabilistic Statistical Learning 3 s.h.
Essential machine learning and statistics ideas that are critical in analyzing modern complex and large data; supervised learning topics include linear models, deep neural networks, and nonparametric models; essential topics include nonlinear dimension reduction, clustering, and recommender systems. Prerequisites: (CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-) and (MATH:2700 or MATH:2550) and (STAT:2010 or STAT:2020 or STAT:4200) and STAT:4540. Same as STAT:4750.

DATA:4880 Data Science Creative Component 1 s.h.
Readings, group discussions, and short-term projects in area of data science; emphasis on communication of ideas learned in student's data science coursework, data ethics, and potential bias in algorithms.

DATA:4890 Data Science Practicum 3 s.h.
On- or off-campus internship or group-based consulting project that provides experience in a real-world setting; application of knowledge and techniques learned in coursework; practice in communicating results to others.

DATA:5400 Computing in Statistics 3 s.h.
R; database management; graphical techniques; importing graphics into word-processing documents (e.g., LaTeX); creating reports in LaTeX; SAS; simulation methods (Monte Carlo studies, bootstrap, etc.). Prerequisites: CS:1210 and STAT:3200 and (STAT:3120 or STAT:3101 or STAT:4101). Corequisites: STAT:5100 and STAT:5200 if not already completed. Same as IGPI:5400, STAT:5400.

DATA:5890 MS Data Science Practicum 2 s.h.
On- or off-campus internship or group-based consulting project that provides experience in a real-world setting; application of knowledge and techniques learned in coursework and practice communicating results to others.

DATA:6200 Predictive Analytics 3 s.h.
Linear mixed models; generalized linear mixed models; generalized additive models; applications of these models using associated R packages. Prerequisites: STAT:4560. Corequisites: STAT:4561. Requirements: comfort working with R software environment. Same as ACTS:6200, STAT:6200.

DATA:6220 Consulting and Communication With Data 3 s.h.
Realistic supervised data analysis experiences, including statistical packages, statistical graphics, writing statistical reports, dealing with complex or messy data. Offered spring semesters. Prerequisites: (STAT:3200 and STAT:3210) or (STAT:5201 and STAT:5200). Requirements: for undergraduate majors—major GPA of 3.00 or above, and grades of B or higher in STAT:3200 and STAT:3210. Same as STAT:6220.

DATA:7350 High-Dimensional Probability for Data Science 3 s.h.
Nonasymptotic probability with a view towards applications in data science; concentration inequalities for functions of independent variables, martingale inequalities, entropy method, random matrices, matrix inequalities, suprema of random processes, and sparse recovery. Prerequisites: STAT:5101. Requirements: linear algebra course and familiarity with R or Python.

DATA:7400 Computer Intensive Statistics 3 s.h.
Computer arithmetic, random variate generation, numerical optimization, numerical linear algebra, smoothing techniques, bootstrap methods, cross-validation, MCMC, EM and related algorithms; other topics per student/instructor interests. Prerequisites: (BIOS:5710 or STAT:5200) and STAT:3101 and STAT:5400. Requirements: proficiency in Fortran or C or C++ or Java. Same as IGPI:7400, STAT:7400.

Statistics, BS

Learning Outcomes

Students will:

- be able to distinguish between observational studies and designed experiments and understand the issues related to the data collection method, including sampling bias, sampling error, sample size determination, statistical power, association versus causation, and the design and analysis of randomized experiments;
- use critical thinking skills to translate substantive questions into well-defined statistical problems and choose appropriate statistical methods and graphical summaries for a given problem;
- use computer software to manage data, carry out exploratory data analyses and computer simulations, produce numerical and graphical summaries of data, and apply basic statistical methodology;
- be able to clearly communicate study results to non-statisticians, and write accurate and meaningful reports that describe the statistical analyses and summarize important findings; and
- understand the mathematical tools underlying statistical methods, including distribution theory, uncertainty quantification via probability, estimation theory, and the probabilistic basis of formal statistical inference.

Requirements

The Bachelor of Science with a major in statistics requires a minimum of 120 s.h., including at least 51 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students who earn the major in statistics may not earn the major in data science.

Students complete 10 core courses that provide essential instruction in statistical methods, applications, and theory. In addition, they may concentrate on an interest area by selecting appropriate elective courses.

The BS with a major in statistics requires the following coursework.

Requirements	Hours
Core Courses	36
Electives	15

Core Courses

All students complete the following 10 core courses.

Course #	Title	Hours
STAT:2010	Statistical Methods and Computing	3
STAT:3100/ IGPI:3100	Introduction to Mathematical Statistics I	4
STAT:3101/ IGPI:3101	Introduction to Mathematical Statistics II	3
STAT:3200/ DATA:3200/ IGPI:3200/ISE:3760	Applied Linear Regression	3
STAT:3210	Experimental Design and Analysis	3
CS:1210	Computer Science I: Fundamentals	4
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4

Electives

Students complete 15 s.h. of electives with a maximum of 6 s.h. coming from domain electives.

Course #	Title	Hours
9-15 s.h. from these:		
STAT:1015/ DATA:1015	Introduction to Data Science	3
STAT:3620/ CEE:3142/ISE:3600	Quality Control	3
STAT:4100/ IGPI:4100	Statistical Inference I	3
STAT:4101/ IGPI:4101	Statistical Inference II	3
STAT:4520/ IGPI:4522/ PSQF:4520	Bayesian Statistics	3
STAT:4540/ DATA:4540/ BAIS:4540/ IGPI:4540	Statistical Learning	3
STAT:4580/ DATA:4580/ IGPI:4580	Data Visualization and Data Technologies	3
STAT:4750/ DATA:4750	Probabilistic Statistical Learning	3
STAT:5400/ DATA:5400/ IGPI:5400	Computing in Statistics	3
STAT:6220/ DATA:6220	Consulting and Communication With Data	3
STAT:6300	Probability and Stochastic Processes I	3
STAT:6301	Probability and Stochastic Processes II	3
STAT:6530/ IGPI:6530	Environmental and Spatial Statistics	3
STAT:6550/ BIOS:6310/ IGPI:6310	Introductory Longitudinal Data Analysis	3
STAT:6560	Applied Time Series Analysis	3
ACTS:4150	Fundamentals of Short-Term Actuarial Mathematics	3
BIOS:5130/ IGPI:5130	Applied Categorical Data Analysis	3
DATA:4600/ STAT:4600	Causal Inference for Data Science	3
DATA:4610	Data Acquisition and Management	3
DATA:4620	Text Data Analysis	3
Up to two courses from these domain electives:		

STAT:5120	Mathematical Methods for Statistics	3
ACTS:3080	Mathematics of Finance I	3
ACTS:4130	Quantitative Methods for Actuaries	3
CS:2210	Discrete Structures	3
CS:2230	Computer Science II: Data Structures	4
MATH:3770	Foundations of Analysis	4
MATH:3800/ CS:3700	Introduction to Numerical Methods	3
MATH:4820/ CS:4720	Optimization Techniques	3
MATH:4840	Mathematics of Machine Learning	3

Combined Programs

BS/MS in Statistics

The combined Bachelor of Science/Master of Science in statistics is for eligible students who seek to complete both the BS and the MS at the University of Iowa in five years. Students in the combined program must complete all requirements for each degree. A traditional MS in statistics requires completion of 32 s.h. of graduate-level coursework. The BS/MS program permits students to count 12 s.h. of credit (four courses) toward the requirements for both degrees. To complete the MS, an additional 20 s.h. of coursework is required. The four courses that count toward both degrees must be taken during the fourth year of undergraduate study, after admission to the combined program, and must satisfy degree requirements of both the BS and the MS in statistics.

BS/MPH (Biostatistics Subprogram)

Students majoring in statistics who are interested in earning a Master of Public Health degree with a biostatistics subprogram may apply to the combined BS/MPH program offered by the College of Liberal Arts and Sciences and the College of Public Health. The program permits students to count 15 s.h. of credit toward the requirements for both degrees, enabling them to begin the study of public health before they complete the bachelor's degree. For information about the public health program, see the Master of Public Health, MPH [p. 2092] (biostatistics subprogram) section of the catalog.

BS/MS in Biostatistics

The combined BS in statistics/MS in biostatistics enables Bachelor of Science students majoring in statistics to begin work toward the MS while completing the bachelor's degree. Students admitted to the program may count 12 s.h. of credit toward both the BS and the MS degree requirements. The combined program is offered by the Graduate College, the College of Liberal Arts and Sciences, and the College of Public Health; see the MS in biostatistics [p. 2111] in the catalog.

Honors

Honors in the Major

Students majoring in statistics have the opportunity to graduate with honors in the major. Departmental honors students must maintain a grade-point average (GPA) of at least 3.67 in their major and a cumulative University of Iowa GPA of at least 3.33.

To graduate with honors in the statistics major, students must complete an honors project or a suitable alternative. Statistics honors students should consult with the statistics undergraduate advisor.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the statistics major.

Career Advancement

Statistics and probability are vital to many fields, so the demand for well-trained statisticians is strong. Statisticians work in medicine, engineering, law, public policy making, marketing, manufacturing, engineering, agriculture, varied social and natural sciences, and numerous other areas.

When students graduate, they will be prepared to fill entry-level positions as statisticians or go on to graduate school. An advisor assists students in locating internship opportunities as well as the best-fitting graduate programs.

To learn more about job opportunities, see Your Career on the American Statistical Association website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Much of the coursework in statistics is sequential, so students must begin requirements for the major as soon as possible. Individual study plans must be made carefully. Students who first enroll for a spring semester must consult their advisor to confirm a four-year plan.

Courses must be taken in sequence, so students must begin work early.

Before the fifth semester begins: at least four courses in the major, including MATH:1850 Calculus I, MATH:1860 Calculus II, and STAT:2010 Statistical Methods and Computing.

Before the seventh semester begins: seven or eight courses in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: nine or ten courses in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Elective course [d]		3
Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [j]		
	Hours	**18**
	Total Hours	**122-128**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Enrollment in math courses requires completion of a placement exam.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.
f Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.
g GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
h Enrollment in this course requires completion of a placement exam.
i Statistics majors must complete 15 s.h. of electives in addition to the core course of study. At most, 6 s.h. of these may come from domain electives. Most advanced statistics elective courses are only offered once per year. Check MyUI for course availability since offerings are subject to change.
j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Actuarial Science, BS

Learning Outcomes

Students will:

- be able to bring to bear actuarial, financial, mathematical, and statistical techniques to model and analyze risks, particularly in the context of insurance and pension;
- have the knowledge and analytical ability to pass the initial professional actuarial examinations given by the Society of Actuaries and Casualty Actuarial Society, and develop the skills needed for successful self-study of the advanced professional examinations;
- be skillful in using and developing computer software to solve actuarial problems;
- be able to clearly communicate results from an actuarial analysis to all stakeholders, and write effective reports that describe the analysis and summarize important findings; and
- possess a basic understanding of insurance and business operations.

Requirements

The Bachelor of Science with a major in actuarial science requires a minimum of 120 s.h., including 52 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The program prepares students for careers as actuaries. It also helps them learn material that is included in professional examinations administered by professional organizations such as the Society of Actuaries and the Casualty Actuarial Society.

Students take a variety of actuarial science courses. They prepare for business aspects of the actuarial profession by studying accounting, law, finance, insurance, and economics. They also complete courses that enhance important communication skills, such as writing and speaking, as part of their GE CLAS Core requirements.

Courses Required for the Major

The BS with a major in actuarial science requires the following coursework. Permission to substitute coursework taken at another institution for required courses at the University of Iowa is decided case by case; students should contact the department.

Course #	Title	Hours
Computer Science		
This course:		
CS:1210	Computer Science I: Fundamentals	4
Mathematics		
All of these:		
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3770	Foundations of Analysis	4
Statistics and Actuarial Science		
All of these:		
ACTS:3080	Mathematics of Finance I	3
ACTS:4130	Quantitative Methods for Actuaries	3
ACTS:4150	Fundamentals of Short-Term Actuarial Mathematics	3
ACTS:4180	Life Contingencies I	3
ACTS:4280	Life Contingencies II	3
STAT:3100/ IGPI:3100	Introduction to Mathematical Statistics I	4
STAT:3101/ IGPI:3101	Introduction to Mathematical Statistics II	3
STAT:4100/ IGPI:4100	Statistical Inference I	3
STAT:4101/ IGPI:4101	Statistical Inference II	3

In exceptional cases, the advisor may grant permission to waive STAT:3100 Introduction to Mathematical Statistics I and/or STAT:3101 Introduction to Mathematical Statistics II.

Students may choose to complete STAT:4560 Statistics for Risk Modeling I and STAT:4561 Statistics for Risk Modeling II (both courses) instead of ACTS:4280 Life Contingencies II, except honors students, who must complete all three courses.

Honors

Honors in the Major

Students majoring in actuarial science have the opportunity to graduate with honors in the major. They must maintain a UI cumulative grade-point average (GPA) of at least 3.33 and a GPA of at least 3.40 in all departmental courses. They also must complete the following five courses in addition to all courses required for the major.

Course #	Title	Hours
ACTS:6200	Predictive Analytics	3
FIN:3300	Corporate Finance	3
MATH:3600	Introduction to Ordinary Differential Equations	3
STAT:4560	Statistics for Risk Modeling I	3
STAT:4561	Statistics for Risk Modeling II	3

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the actuarial science major.

Career Advancement

Most actuaries are employed by insurance companies or employee benefits consulting firms. They have responsibilities related to all phases of product development and maintenance for their companies. Individual employers who need guidance in establishing employee insurance and retirement programs also hire actuarial science graduates. A growing number of actuaries work in asset/liability

management, some in investment firms and others in insurance companies.

Actuaries have always been in high demand and earn good salaries. Most University of Iowa graduates find work as actuaries, but some become financial managers or teachers. They take positions in locations all across the country, often in large metropolitan areas.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Much of the coursework is sequential, so students must begin requirements for the major as soon as possible. Individual study plans must be made carefully. Students who first enroll for a spring semester must consult their advisor to confirm a four-year plan.

Before the third semester begins: MATH:1860 Calculus II and MATH:2700 Introduction to Linear Algebra.

Before the fifth semester begins: MATH:2850 Calculus III, MATH:3770 Foundations of Analysis, STAT:3100 Introduction to Mathematical Statistics I, STAT:3101 Introduction to Mathematical Statistics II, and ACTS:3080 Mathematics of Finance I.

Before the seventh semester begins: STAT:4101 Statistical Inference II, ACTS:4130 Quantitative Methods for Actuaries, ACTS:4150 Fundamentals of Short-Term Actuarial Mathematics, ACTS:4180 Life Contingencies I, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: ACTS:4280 Life Contingencies II.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a The Academic Advising Center advises Actuarial Science students on prerequisite course planning. Students are advised for success, based on academic strength, not necessarily for a four-year plan. Prerequisites may take more than one and a half years to complete.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Enrollment in this course requires completion of a placement exam.

d Enrollment in math courses requires completion of a placement exam.

e This course is not required for the major but it is strongly encouraged to be taken as an elective.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

i Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

j Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

k Students may choose to complete STAT:4560 and STAT:4561 (both courses) instead of ACTS:4280, except honors students, who must complete all three courses.

l This course is a recommended elective, not a requirement. Students may choose another elective. Prerequisites may apply.

mPlease see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Statistics, Minor

Requirements

The undergraduate minor in statistics requires a minimum of 15 s.h. in statistics courses taken at the University of Iowa. At least 12 s.h. must be taken in courses numbered 3000 or above (selected from the following list). Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass.

The minor in statistics requires a minimum of 15 s.h. of coursework, as follows.

Course #	Title	Hours
One of these:		
STAT:2010	Statistical Methods and Computing	3
STAT:2020	Probability and Statistics for the Engineering and Physical Sciences	3
STAT:4200/ IGPI:4200	Statistical Methods and Computing	3
One of these:

STAT:6560	Applied Time Series Analysis	3
BIOS:4510	Data Science Foundations in R	2

Statistics, MS

Learning Outcomes

Graduates will be able to:

- understand the mathematical and statistical theory that underlies commonly used statistical methods;
- choose appropriate statistical methods for data analysis;
- correctly and effectively implement descriptive and inferential statistical methods;
- identify and criticize inappropriate use of statistics;
- consult with non-statisticians to help collect and analyze data; and
- acquire effective communication skills for disseminating statistical findings.

Requirements

The Master of Science in statistics requires 32 s.h. of graduate credit. Students must earn a minimum Graduate College major program grade-point average of 3.00. It includes a solid foundation in statistical computing, statistical modeling, experimental design, and mathematical statistics plus electives in statistical methods and/or theory. Students have the opportunity to concentrate on theory or applications or a combination of the two.

Students must take a computer programming proficiency test during the first semester of study; those who display inadequate programming skills are assigned activities to build their proficiency. In addition to required coursework, students must pass a two-part graduate final examination.

All coursework must be taken on an A–F graded basis, with the exception of STAT:5090 and STAT:6990.

The MS in statistics requires the following coursework.

Requirements	Hours
Core Statistics Courses	23
Elective Courses	9
Final Examination	

Core Statistics Courses

Course #	Title	Hours
All of these:		
STAT:5090	ALPHA Seminar	1
STAT:5100	Statistical Inference I	3

STAT:7570/ BIOS:7210/ IGPI:7210	Survival Data Analysis	3

Readings in Statistics

All students are encouraged to complete 2 s.h. in STAT:6990 Readings in Statistics, engaging in a project that aligns with their application and career interests. Students typically register for the course in the fall and spring semesters of the second year for 1 s.h. each; they may complete it earlier if ready. Students must present orally in a Statistics Student Organization meeting and earn a satisfactory grade from the advisor's evaluation of the work and presentation.

If a student wishes to pursue the PhD in statistics, this course must be completed within one calendar year of passing the

MS final examination. It is highly advantageous that the advisor for this course becomes the PhD advisor.

PhD Preparation

Students interested in pursuing the PhD in statistics are encouraged to include STAT:5120 Mathematical Methods for Statistics, 2 s.h. of STAT:6990 Readings in Statistics, and one statistics course (prefix STAT) numbered 7000 or higher in their course selections. See the PhD in statistics [p. 1096] in this section of the catalog for more information.

Final Examination

The final examination consists of two parts. One covers the topics presented in STAT:5100 Statistical Inference I and STAT:5101 Statistical Inference II; the other covers the topics presented in STAT:5200/IGPI:5199 Applied Statistics I, STAT:5201 Applied Statistics II, and STAT:5400/DATA:5400/IGPI:5400 Computing in Statistics. Each part includes a few problems that test readiness for the PhD program.

Final examinations are offered the week before the fall semester begins in August. Study guides are available in the department office. Students who do not succeed the first time they take the exam may repeat it once, the week before the spring semester begins in January.

Students must complete all requirements and be granted the Master of Science degree within one calendar year of passing the MS final examination; those who do not meet this deadline are required to take the exam again.

Students entering the PhD program, who will choose either biostatistics, probability/mathematical statistics, or data science as their concentration area, and who already have taken the equivalent of the first-year courses, may take the MS final examination in statistics before beginning further studies.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Statistics and probability are vital to many fields, so the demand for well-trained statisticians is strong. Statisticians work in medicine, engineering, law, public policy making, marketing, manufacturing, engineering, agriculture, varied social and natural sciences, and numerous other areas.

The MS program prepares students for careers as professional statisticians or for entry into a PhD program. To learn more about job opportunities, see Your Career on the American Statistical Association website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Students must complete at least 9 s.h. in elective courses. A maximum of one course numbered 7000-7999 is permitted to apply toward the MS. See the General Catalog for list of approved courses.

c The two-part written final examination is offered the week before classes begin in August; it covers the material presented in STAT:5100, STAT:5101, STAT:5200, STAT:5201, and STAT:5400. Students who do not succeed the first time they take the exam may repeat it once the week before the spring semester begins in January.

d All students are encouraged to complete 2 s.h. in STAT:6990, engaging in a project that aligns with their

application and career interests. Students typically register for the course in the fall and spring semesters of the second year for 1 s.h. each.

Actuarial Science, MS

Learning Outcomes

Graduates will:

- be able to bring to bear actuarial, financial, mathematical, and statistical techniques to model and analyze risks, particularly in the context of insurance and pension;
- have the knowledge and analytical ability to pass the initial professional actuarial examinations given by the Society of Actuaries and Casualty Actuarial Society, and develop the skills needed for successful self-study of the advanced professional examinations;
- be skillful in using and developing computer software to solve actuarial problems;
- be able to clearly communicate results from an actuarial analysis to all stakeholders, and write effective reports that describe the analysis and summarize important findings; and
- possess a basic understanding of insurance and business operations.

Requirements

The Master of Science in actuarial science requires 36 s.h. of graduate credit. Students must maintain a Graduate College program grade-point average of at least 3.00. The program prepares students for actuarial careers by emphasizing the theory that underlies risk processes and the application of this theory to practical problems of insurance pricing and management. It also helps them learn the material that is tested on professional examinations administered by professional organizations such as the Society of Actuaries and the Casualty Actuarial Society.

Students complete required courses and a final examination. All coursework must be taken on an A–F graded basis.

The MS in actuarial science requires the following coursework.

Required Courses

Course #	Title	Hours
All of these:		
ACTS:3080	Mathematics of Finance I	3
ACTS:4130	Quantitative Methods for Actuaries	3
ACTS:4150	Fundamentals of Short-Term Actuarial Mathematics	3
ACTS:4180	Life Contingencies I	3
ACTS:4280	Life Contingencies II	3
ACTS:6200/ DATA:6200/ STAT:6200	Predictive Analytics	3
STAT:4560	Statistics for Risk Modeling I	3
STAT:4561	Statistics for Risk Modeling II	3
STAT:5100	Statistical Inference I	3
STAT:5101	Statistical Inference II	3
STAT:6300	Probability and Stochastic Processes I	3
3 s.h. from these:		
ACTS:4160	Topics in Actuarial Science	arr.
ACTS:6160	Topics in Actuarial Science	arr.
ACTS:7730	Advanced Topics in Actuarial Science/Financial Mathematics	arr.
FIN:3300	Corporate Finance	3

Additional course with advisor approval

Final Examination

The final examination is offered in the spring semester of the second year of study. Students who do not succeed on their first attempt may retake the exam once.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Most actuaries are employed by insurance companies or employee benefits consulting firms. They have responsibilities related to all phases of product development and maintenance for their companies. Individual employers who need guidance in establishing employee insurance and retirement programs also hire actuarial science graduates. A growing number of actuaries work in asset/liability management, some in investment firms, and others in insurance companies.

Actuaries have always been in high demand and earn good salaries. Most University of Iowa graduates find work as actuaries, but some become financial managers and teachers. They take positions in locations all across the country, often in large metropolitan areas.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

c Students must also satisfactorily complete all degree requirements.

d The final examination is offered in the spring semester of the second year of study. Students who do not succeed on their first attempt may retake the exam once.

e See the General Catalog for list of approved courses.

Statistics, PhD

Learning Outcomes

Graduates will be able to:

- have a solid understanding of the mathematical and statistical theory that underlies statistical methods;
- conduct literature reviews to summarize the state of the art for specific theoretical and applied topics;
- formulate, implement, and assess appropriate statistical models for analyzing data;
- identify limitations of existing methods and independently develop and assess novel methods (e.g., for analyzing new types of data);
- appreciate the issues of uncertainty, reproducibility, and computability in data analysis;
- collaborate with non-statisticians to help collect and analyze data; and
- acquire effective communication skills for disseminating statistical findings.

Requirements

The Doctor of Philosophy program in statistics requires a minimum of 76 s.h. of graduate credit, including work completed for the MS.

The Graduate College requires a minimum grade-point average (GPA) of 3.00 to graduate with a PhD; however, the Department of Statistics and Actuarial Science requires a higher GPA of at least 3.40 to earn the PhD in statistics. This includes all courses used to meet degree requirements plus additional courses that are relevant to a student's program.

PhD students complete required coursework, including four courses in one of four concentration areas: actuarial science/financial mathematics, biostatistics, data science, or probability/mathematical statistics (see the section titled "Concentration Areas" for area descriptions and course lists). They may take coursework or seminars in other departments to relate an area of specialization to other fields of knowledge, acquire the ability to use electronic digital computing equipment, or learn non-English language skills necessary for reading scientific journals and communicating with scholars in other languages.

PhD Qualifying Procedure

Statistics

After passing the MS final examination, a student who will choose biostatistics, probability/mathematical statistics, or data science as the selected concentration area can request to go through the PhD qualifying procedure. This request should be made by notifying the director of graduate studies. The qualifying procedure typically takes place in November or April each year. During the PhD qualifying procedure, the faculty evaluates the student's body of work, which includes the MS final examination in statistics, coursework, and evidence for research potential. Usually, a student needs to have demonstrated a high level of proficiency in their MS exam, earned a grade of A in at least one 7000-level course, completed at least 1 s.h. of STAT:6990 Readings in Statistics, and be enrolled in a second semester of STAT:6990. This evaluation and assessment results in one of three decisions: the student successfully passes the PhD qualifying procedure, the student must reapply to go through the PhD qualifying procedure after accumulating a larger body of work for evaluation, or the student fails to pass the PhD qualifying procedure and cannot continue in the PhD program.

In exceptional cases, a student may petition to go through the PhD qualifying procedure early or be admitted to the PhD program directly. However, passing the MS final exam is required before any student can take the PhD comprehensive exam (see the section below on PhD comprehensive exam/prospectus).

A student may be admitted directly to the PhD program. If direct admission is not granted, the student may petition to apply for PhD admission either after their MS examination or concurrently with the PhD qualifying procedure.

In exceptional cases, a student may petition to go through the PhD qualifying procedure early in their first year. However, passing the MS final exam is required before any student can go through the PhD qualifying procedure and take the PhD comprehensive exam.

Actuarial Science

After successfully passing the MS final examination in actuarial science (in exceptional cases, a student may petition to go through the PhD qualifying procedure early), a student who will choose actuarial science/financial mathematics as the selected concentration area, can request, by notifying the director of graduate studies, to go through the PhD qualifying procedure. Upon this request, the faculty evaluates the student's body of work and assesses the student's potential for research. The body of work will include the MS final examination in actuarial science, professional examinations passed, and coursework. This evaluation and assessment results in one of two decisions: the student is officially admitted into the PhD program in the actuarial science/financial mathematics concentration area, or the student is not admitted into the PhD program.

Students complete the program by passing the PhD final (comprehensive) examination and writing and defending a dissertation. Students usually complete the program three years after earning the MS.

A plan of study that does not conform to the requirements described as follows but is of high quality may be approved by the director of graduate studies.

Required Courses

The following course lists outline required courses for each concentration area.

Actuarial Science/Financial Mathematics Concentration Area

Actuarial science/financial mathematics emphasizes the theory of actuarial science, finance, and risk management. It is excellent preparation for academic positions in universities that offer actuarial science programs and for positions in the insurance, pension, and financial industries.

Course #	Title	Hours
All of these from the MS in actuarial science program:		
ACTS:4130	Quantitative Methods for Actuaries	3
ACTS:4180	Life Contingencies I	3
ACTS:4280	Life Contingencies II	3
STAT:5100	Statistical Inference I	3

STAT:5101	Statistical Inference II	3
STAT:6300	Probability and Stochastic Processes I	3
All of these:		
STAT:5120	Mathematical Methods for Statistics	3
STAT:6200	Predictive Analytics	3
STAT:7100	Advanced Inference I	3
STAT:7200	Linear Models	4
STAT:7300	Advanced Probability	3
STAT:7400/ DATA:7400/ IGPI:7400	Computer Intensive Statistics	3
STAT:7990	Reading Research	22
DATA:7350	High-Dimensional Probability for Data Science	3
Seminars chosen from STAT:7190, STAT:7290, and STAT:7390		2
At least four of these, with at least one numbered 7000 or above:		
ACTS:6200/ DATA:6200/ STAT:6200	Predictive Analytics	3
ACTS:7730	Advanced Topics in Actuarial Science/Financial Mathematics	3
FIN:7110	Finance Theory I	3
FIN:7130	Finance Theory II	3
STAT:4560	Statistics for Risk Modeling I	3
STAT:4561	Statistics for Risk Modeling II	3
STAT:6301	Probability and Stochastic Processes II	3
STAT:7560	Time Series Analysis	3

Biostatistics Concentration Area

Biostatistics emphasizes exposure to various biostatistical methods, such as survival analysis, categorical data analysis, and longitudinal data analysis. It prepares students for consulting and other positions in industry.

Course #	Title	Hours
All of these from the MS in statistics program:		
STAT:5090	ALPHA Seminar	1
STAT:5100	Statistical Inference I	3
STAT:5101	Statistical Inference II	3
STAT:5200/ IGPI:5199	Applied Statistics I	4
STAT:5201	Applied Statistics II	3

BIOS:7240	High-Dimensional Data Analysis	3
BIOS:7310/ IGPI:7310	Longitudinal Data Analysis	3
DATA:7350	High-Dimensional Probability for Data Science	3

Data Science Concentration Area

The data science track emphasizes the theory, methodology, and application of techniques for working with and learning from data. This concentration area prepares students to develop new methods for visualizing and modeling data, managing reproducible data analysis workflows, and collaborating with scientists and other data stakeholders. It is excellent preparation for students interested in academic, industrial, or government positions that involve data visualization, modeling, and analysis.

Course #	Title	Hours

STAT:6530/ IGPI:6530	Environmental and Spatial Statistics	3
STAT:6560	Applied Time Series Analysis	3
STAT:6970	Topics in Statistics	3
STAT:7101	Advanced Inference II	3
STAT:7300	Advanced Probability	3
STAT:7510/ BIOS:7410	Analysis of Categorical Data	3
STAT:7520	Bayesian Analysis	3
STAT:7560	Time Series Analysis	3

Probability/Mathematical Statistics Concentration Area

Probability/mathematical statistics emphasizes a broad, solid foundation in techniques and underpinnings of mathematical statistics. Its focus on breadth and depth is intended to produce well-rounded, knowledgeable scholars. It is excellent preparation for academic positions in mathematical statistics and industrial or government positions that require broadly trained statisticians with a strong understanding of statistical theory.

Course #	Title	Hours
All of these from the MS in statistics program:		
STAT:5090	ALPHA Seminar	1
STAT:5100	Statistical Inference I	3
STAT:5101	Statistical Inference II	3
STAT:5200/ IGPI:5199	Applied Statistics I	4
STAT:5201	Applied Statistics II	3
STAT:5400/ DATA:5400/ IGPI:5400	Computing in Statistics	3
STAT:6220/ DATA:6220	Consulting and Communication With Data	3
STAT:6300	Probability and Stochastic Processes I	3
STAT:6990	Readings in Statistics (two consecutive enrollments)	2
All of these:		
STAT:5120	Mathematical Methods for Statistics	3
STAT:7100	Advanced Inference I	3
STAT:7101	Advanced Inference II	3
STAT:7200	Linear Models	4
STAT:7300	Advanced Probability	3
STAT:7400/ DATA:7400/ IGPI:7400	Computer Intensive Statistics	3
STAT:7990	Reading Research	18
Seminars chosen from STAT:7190, STAT:7290, and STAT:7390		2
At least four of these, with at least one numbered 7000 or above:		
STAT:6301	Probability and Stochastic Processes II	3
STAT:7500/ BAIS:7500	Statistical Machine Learning	3
STAT:7520	Bayesian Analysis	3
STAT:7560	Time Series Analysis	3
BIOS:6650/ EPID:6655/ IGPI:6650	Causal Inference	3
BIOS:7240	High-Dimensional Data Analysis	3
DATA:7350	High-Dimensional Probability for Data Science	3

Committee

After admission to the PhD program and before taking the PhD comprehensive exam, the candidate chooses a committee of at least five members, which is approved by the advisor. At least three of the faculty members must be University of Iowa tenure-track faculty members. At least two of the faculty members must be from the major department (defined as faculty members who hold any appointment in the major department), and University of Iowa tenure-track faculty members.

The department may request the Graduate College dean's permission to replace one of the five committee members with a recognized scholar of professorial rank from another academic institution.

PhD Comprehensive Exam (Prospectus)

After passing the MS final exam and within 12 months of passing the PhD qualifying procedure, the candidate should present to the committee a written and oral prospectus, which serves as the PhD comprehensive exam. The prospectus describes the problems the student is considering for the thesis, an extensive review of relevant background materials, open problems of interest and ideas for solving problems, and any preliminary results. Failure to successfully complete the prospectus within 18 months of admittance to the PhD

program will jeopardize the continuation of a student's financial support.

Each PhD committee member will sign the examination report as satisfactory, reservations, or unsatisfactory. A vote of "Reservations" should only be used when a faculty member feels that the deficiencies displayed by the student were modest and can be readily rectified. In the event of a report with two or more votes of "Reservations," the committee's requirements of the student to correct the deficiencies must be recorded and submitted to the Graduate College with the examination report form. The statement must specify the time allotted for completion of the aforementioned actions. For example, if additional coursework is required, a list of suitable courses must be presented. If the candidate must rewrite their research prospectus, the deficient areas must be identified. If the candidate satisfies the required actions within the specified period of time, the comprehensive examination will be recorded as "Satisfactory" as of that date. If the actions are not satisfied on time, or if the actions are not of sufficient quality, the comprehensive examination will be recorded as "Unsatisfactory" as of that date. The candidate will not be admitted to the PhD final examination of the dissertation until a grade of "Satisfactory" has been recorded for the comprehensive exam.

In the case of a report of unsatisfactory on a comprehensive examination, the committee may grant the candidate permission to attempt a reexamination no sooner than four months after the first examination. The examination may be repeated only once, at the option of the department.

PhD Final Exam (Dissertation Defense)

Students should plan to defend their dissertation within 24–36 months of passing the PhD qualifying procedure. Failure to successfully defend the dissertation within 48 months of passing the PhD qualifying procedure or within five years of starting the graduate program at the University of Iowa, whichever comes first, will jeopardize the continuation of a student's financial support.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

Statistics and probability are vital to many fields, so the demand for well-trained statisticians is strong. Statisticians work in medicine, engineering, law, public policy making, marketing, manufacturing, engineering, agriculture, varied social and natural sciences, and numerous other areas.

The program prepares students for careers in research, applications, and teaching. To learn more about job opportunities, see Your Career on the American Statistical Association website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Theatre Arts

Chair

- Mary Beth Easley

Undergraduate major: theatre arts (BA)

Undergraduate minor: theatre arts

Graduate degree: MFA in theatre arts

Faculty: https://theatre.uiowa.edu/people

Website: https://theatre.uiowa.edu/

The Department of Theatre Arts offers academic programs for undergraduate and graduate students. It also stages live performances throughout the academic year and during the summer. The department also administers the Certificate in Digital Arts [p. 358] and the Certificate in Social Justice and the Performing Arts [p. 993].

The department educates students who plan to enter other fields in which understanding of the arts and experience with theatre skills are useful. Some earn a major in theatre arts, sometimes with a second major in another discipline. Others earn a minor or take theatre classes as nonmajors. For information, view the minor in theatre arts [p. 1113] in the catalog or see "Courses for Nonmajors."

Several of the department's courses are approved for the GE CLAS Core; look for courses with the prefix THTR in the GE CLAS Core [p. 22] section of the catalog.

Courses for Nonmajors

Most theatre arts courses are open to all students, regardless of their majors, and are appropriate for nonmajors interested in theatre. The following courses are designed specifically for nonmajors.

Course #	Title	Hours
THTR:1140	Basic Acting	3
THTR:1141	Basic Acting II	3
THTR:1400	Theatre and Society: Ancients and Moderns	3
THTR:1401	Theatre and Society: Romantics and Rebels	3
THTR:1410	Musical Theatre History	3
THTR:1411	Comedy and Society	3
THTR:1412	The Arts in Performance	3
THTR:2301	Playwriting I	3
THTR:2320	Playwriting in a Global World	3
THTR:2405	Staging Americans: U.S. Cultures Through Theatre and Performance	3
THTR:2605	Monsters, Victims, and Villains: Changing Perceptions	3
THTR:2610	Acting for Success	3
THTR:2620	Improvisation for Engineers, Scientists, and the Curious	3
THTR:2690	Sound Excursions: The Evolving Soundscape and the Reverberations of Human Activity	3
THTR:3210	Makeup Design for the Stage	3
THTR:3301	Playwriting II	3
THTR:3510	Introduction to Arts Management	3
THTR:3615	Action! Engage! Art! Creative Placemaking for the Public Good	3

Productions and Auditions

The Department of Theatre Arts presents around 20–25 public productions each year. These include a mainstage series of five plays, a festival of new works, and other productions, most of them new plays written by students.

Special attention is given to the process of developing new works and to the collaborative process that involves writers, directors, designers, dramaturgs, stage managers, and actors. Graduate and undergraduate students, faculty, and visiting guest artists work together on large and small projects throughout the year.

Auditions for Theatre Arts Productions

Auditions for theatre arts productions are open to everyone. For academic considerations, priority is given to theatre arts majors first, and then all other University of Iowa students and members of the local community. There are many excellent roles available throughout the year and many nonmajors and actors from the surrounding community are cast each season. Occasionally, professional guest actors are employed.

General auditions are held at the beginning of the fall semester. Additional general auditions are usually scheduled in early November and in March. Information about auditions is available on the Department of Theatre Arts website. Notices of auditions are posted on the department's online call board.

Programs

Undergraduate Programs of Study

Major

- Major in Theatre Arts (Bachelor of Arts) [p. 1107]

Minor

- Minor in Theatre Arts [p. 1113]

Graduate Program of Study

- Master of Fine Arts in Theatre Arts [p. 1114]

Facilities

The University of Iowa has one of the finest educational theatre complexes in the country. The Theatre Building offers three theatres and up-to-date facilities for classroom, laboratory, shop, and performance work.

The E.C. Mabie Theatre, a continental-style, 457-seat proscenium playhouse, is one of the finest theatres of its type in the United States. The David Thayer Theatre is a "black box" production space; its flexible seating units accommodate from 140 to 225 people and allow modification of space and audience relationships. The Alan MacVey Theatre, which seats 137, is an open-stage theatre dedicated primarily to the production of new and experimental works.

In addition to classrooms for acting and directing, several spaces are designed for teaching particular aspects of dramatic studies. The Cosmo Catalano Acting Studio is for the study of movement and motion by acting students. It also serves as an intimate theatre for readings. The Arnie Gillette Design Studio serves as a classroom and studio workshop for design students.

To support its production schedule and to provide students with an appropriate range of experience, the department maintains shops for building, painting, maintaining, and storing scenery, costumes, and properties. Using these shops, students learn to work in metal, plastics, canvas, and wood.

Courses

Theatre Arts Courses

THTR:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

THTR:1140 Basic Acting 3 s.h.
Concentration, relaxation, imagination, observation, communication, sensory awareness; development of theatrical creativity through objectives, obstacles, action, conflict, spontaneity; development of a scene from scripts. Requirements: non-theatre arts major. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

THTR:1141 Basic Acting II 3 s.h.
Continuation of THTR:1140; emphasis on development of scenes. Prerequisites: THTR:1140. Requirements: non-theatre arts major.

THTR:1400 Theatre and Society: Ancients and Moderns 3 s.h.
Representative plays as performed in social contexts of ancient Egypt; classical Greece, Rome, India, and Japan; and medieval and early modern Europe. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

THTR:1401 Theatre and Society: Romantics and Rebels 3 s.h.
Representative plays as performed in social contexts of revolutionary and modern Europe and postwar United States. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

THTR:1410 Musical Theatre History 3 s.h.
American musical theatre's form, function, evolution; major composers (Berlin, Gershwin, Rodgers and Hammerstein, Sondheim), lesser-known and contemporary writers; roots of the rock musical, future of musical theatre, how musicals reflect their own eras and cultural attitudes of their times; readings, recordings, videos. Ability to read music not required.

THTR:1411 Comedy and Society 3 s.h.
How comedy reflects, comments upon, and intersects with western culture, society, and identity; roots of western comedy, satire, censorship; stand-up comedians, improv and sketch troupes, satirists; race, gender and sexuality, class perception; how portrayals of African Americans in popular culture evolved from 19th century to present; videos, readings, live performances. GE: Values and Society.

THTR:1412 The Arts in Performance 3 s.h.
GE: Literary, Visual, and Performing Arts; Values and Society. Same as DANC:1412.

THTR:1834 Modes of Film and Video Production 4 s.h.
Introduction to filmmaking; how to shoot and edit short works of cinematic art; exposure to various working methods including nonfiction, fiction, and experimental modes of video production. GE: Engineering Be Creative. Same as CINE:1834.

THTR:2000 Orientation to Theatre Arts 1 s.h.
Introduces students to the Department of Theatre Arts production process and the eight BA roadmaps: acting, comedy studies, design, directing, dramaturgy, playwriting, screenwriting and writing for television, and stage management. Requirements: declared major in theatre arts.

THTR:2120 Movement: Special Topics 2-3 s.h.
Specialized study in movement techniques and movement styles for body conditioning; development of yoga techniques; varied topics.

THTR:2140 Acting I 3 s.h.
Development of creativity, imagination, and openness through exercises to engage mind, body, and voice in theatrical play and scene work. Requirements: theatre arts major, or theatre arts minor and THTR:1140.

THTR:2170 Acting for Musical Theatre 3 s.h.
Students focus on acting technique for musical theatre; within the framework of song, students learn to work truthfully with a partner, find the action of the piece, mine a piece of music for acting clues from the composer, and connect authentically while being larger than life. Prerequisites: THTR:1140 or THTR:2140. Requirements: any one of the courses listed as prerequisites, or one semester of applied lessons in vocal performance.

THTR:2175 Musical Theatre Performance: Special Topics 3 s.h.
Specialized, practical study in a specific area related to development of musical theatre knowledge and performance skills; topics vary. Corequisites: THTR:2140. Requirements: audition.

THTR:2190 Improvisation for the Stage 3 s.h.
Survey of American improvisation, including both history and practice, offering students an opportunity to understand improv from a historical perspective as well as participate in in-class games and performances.

THTR:2215 Theatre Technology 3 s.h.
Theatrical production; technology and backstage operations including sound, projections, lighting, scenery, costumes, stage management. GE: Engineering Be Creative.

THTR:2220 Production Lab 1-3 s.h.
Practical experience in physical construction and operation of live theatre; theatre department productions provide lab experiences for applied learning in technical theatre and run crew opportunities in scenery, costumes, lighting, sound, and stage management. GE: Engineering Be Creative.

THTR:2301 Playwriting I 3 s.h.
Elements of playwriting; emphasis on analysis and discussion of original student writing. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

THTR:2320 Playwriting in a Global World 3 s.h.
Students read and analyze the works of a diverse range of American and international playwrights and documentarians; fundamental skills of reading, hearing, imagining, and writing for local and global stages; emphasis on a broad range of voices, styles, and stories. GE: Understanding Cultural Perspectives.

THTR:2402 Script Analysis 3 s.h.
Basic skills in critical reading and close analysis of dramatic texts, with focus on dramatic structure, challenges of putting texts into production.

THTR:2405 Staging Americans: U.S. Cultures Through Theatre and Performance 3 s.h.
Role of American theatre as a complex tapestry of race, gender, sexuality, and disability; examination of plays and performance outside primarily white-male canon; contemporary social practice and cultural politics in local and national contexts. GE: Understanding Cultural Perspectives.

THTR:2410 History of Theatre and Drama I 3 s.h.
Major developments in Anglo-European, Indian, Asian, and African theatre and drama, 3000 B.C.E. to C.E. 1700; sociopolitical, economic, and cultural circumstances of original productions. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

THTR:2411 History of Theatre and Drama II 3 s.h.
Continuation of THTR:2410; 1700 to 1960; revolutionary and modern European theatre and culturally diverse postwar U.S. theatre. Offered fall semesters. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

THTR:2605 Monsters, Victims, and Villains: Changing Perceptions 3 s.h.
Introduction to implementation of performance opportunities for special populations (defined as those with cognitive or physical disability) and underrepresented populations; students gain skills necessary to create radical opportunities for and implementation of performances including individuals with disabilities in theatre, dance, and music; students from different backgrounds experience collaborative artistic excellence while redefining audience expectations; historic background for perceptions of disability. GE: Understanding Cultural Perspectives. Same as EDTL:2963.

THTR:2610 Acting for Success 3 s.h.
How skills learned by actors in the theatre world can be applied to presentations and interactions in business, education, and beyond; how to connect with others on a personal level; ability to stand out as a team player and a leader; acting techniques traditionally used in theatre to open up communication dynamics; how to display an authentic self in everyday situations. Corequisites: RHET:1030 or RHET:1040 or RHET:1060. GE: Engineering Be Creative. Same as RHET:2610.

THTR:2620 Improvisation for Engineers, Scientists, and the Curious 3 s.h.
Use of theatrical exercises and improvisation techniques to help students develop their imaginations, stimulate creativity, and approach practical projects from a fresh point of view; emphasis on working in teams and using improvisational techniques to solve problems. GE: Engineering Be Creative.

THTR:2690 Sound Excursions: The Evolving Soundscape and the Reverberations of Human Activity 3 s.h.
How human activity impacts sustainability and diversity of interconnected ecosystems: bioacoustics research, evolution of sound and mechanics for sound production of and between species, biomechanics of human hearing and sound production, expanding capacity to deeply listen; experiential learning/projects-based course includes lectures, discussions, field recordings, and sound excursions; final project may be creative (e.g., 10-minute play about sonic inequity, geolocated sound experience) or research-based.

THTR:2800 Digital Arts: An Introduction 3 s.h.
Introduction to potential of integrating art with technology to provide a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations introduce key concepts and ideas as well as the history of digital arts; students develop skills that form a foundation for future investigation through labs; work may include using an Arduino, programming, and developing an interface to control a software project; final project is shared with the public in some way; critical discourse in the form of writing assignments allows for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, CS:2800, DANC:2800, DIGA:2800, MUS:2800.

THTR:2880 Installations and Interactive Performance 3 s.h.
Introduction to aesthetics, techniques, and practical possibilities of fusing together theatre, dance, music/sound, art, design, cinema, gaming, human computer interaction, and engineering; foundations of creating interactive experiences that use digital photos, video, text, real-world objects, sensor data, live bodies moving in space, Kinect 2 sensors, cameras, and multiple video outputs (e.g., projectors, LED displays); use of Isadora, an interactive, node-based programming software, to create immersive mediated performances, interactive installations, embodied user-based experiences, and user-manipulated virtual environments. GE: Engineering Be Creative. Same as DANC:2880, DIGA:2880.

THTR:2890 Producing and Directing Digital Video 3 s.h.
Introduction to basic concepts, theories, and practical applications of digital video production for multiple distribution streams, with focus on aesthetic and technical principles; development of proficiency in contemporary approaches to digital media production by understanding the production pipeline from ideation to preproduction, production, postproduction, and through to distribution. GE: Engineering Be Creative. Same as DANC:2890, DIGA:2890.

THTR:3110 Voice for the Actor 3 s.h.
Progressive development of voice for theatre; physical awareness, breath, freeing and amplifying sound, range and resonance, articulation; application of voice work through classical and contemporary theatre texts.

THTR:3120 Theatre Movement 3 s.h.
The body as a tool for dramatic expression; basic principles and practices of stage movement; approaches to physical technique.

THTR:3140 Acting II 3 s.h.
Extension of work begun in THTR:2140; scene study, with focus on contemporary realism and development of collaborative dynamic. Prerequisites: THTR:1141 or THTR:2140.

THTR:3151 Voice for the Actor II 3 s.h.
Further development of voice for theatre with emphasis on acquisition of accents and dialects. Prerequisites: THTR:3110.

THTR:3160 Movement Styles 3 s.h.
Intensive study of a selected movement style (e.g., mask, clown, commedia dell'arte). Prerequisites: THTR:3120.

THTR:3165 Stage Combat 3 s.h.
Fundamental principles of stage combat in a specialized area of study—unarmed combat, rapier and dagger techniques, and hand-to-hand and knife techniques.

THTR:3202 Graphic Design for the Entertainment Industry 2-3 s.h.
Series of projects focusing on developing graphic design skill sets and using the Adobe Creative Suite and other programs. GE: Engineering Be Creative.

THTR:3205 Concepts in Drawing 3-4 s.h.
Intermediate-level topics; observation, theory, media, form, content; emphasis on personal direction. Prerequisites: DRAW:2310. Same as DRAW:3310.

THTR:3208 Mask and Puppet Crafts 3 s.h.
Mask and puppet design; paper mache, plaster gauze, thermal plastics, and soft sculpture techniques. GE: Engineering Be Creative.

THTR:3210 Makeup Design for the Stage 3 s.h.
Techniques in design and application of stage makeup: development of conceptual, research, hands-on skills through projects in fantasy, period, and character makeup, simple prosthetics. GE: Engineering Be Creative.

THTR:3211 Period Styles 3 s.h.
A global design survey that explores the historical intersections of fashion, architecture (both interior and exterior), fine art, and cultural movements.

THTR:3215 Sewing Techniques for Theatre Costuming 3 s.h.
Students learn and improve sewing skills for theatre costuming; lab oriented with focus primarily based on a variety of sample sewing techniques; collaboration and individual work; final project consists of a costume sample from a chosen show and reflects student's skill and experience.

THTR:3230 Scenic Design I 3 s.h.
Development of theatre scenery; how to research, conceptualize, and express ideas in 3D models, simple sketches, and drafting. GE: Engineering Be Creative. Same as ARTS:3230.

THTR:3235 Production Design for Film, Television, and New Media 3 s.h.
Explores the processes of production design, art direction, and lighting direction as related to design for narrative films, television, and new media. Provides an initial understanding of the production design process in practice to gain a better understanding of the production design process and the narrative filmmaking process.

THTR:3240 Costume Design I 3 s.h.
Introduction to theatre costumes; how to conceptualize and express ideas through rendering and 3D mannequin projects; may be taken after THTR:4240. GE: Engineering Be Creative.

THTR:3250 Lighting Design I 3 s.h.
How to research, conceptualize, and express ideas through light plots, other design paperwork, and theatre lighting design projects. GE: Engineering Be Creative.

THTR:3260 Sound Design for the Theatre 3 s.h.
Introduction to concepts of theatre aurality, sound dramaturgy, and basic sound reinforcement; provides project-based instruction for practice, process, and mechanics of recording, designing, and manipulating sound for plays and contemporary theatrical experiences. GE: Engineering Be Creative.

THTR:3270 Entertainment Design 3 s.h.
Introduction to entertainment design and technology; primary focus on contemporary approaches to design and delivery of content in entertainment industry; assignment of practical projects using media servers, projection, LED arrays, video editing software, and moving light technologies. GE: Engineering Be Creative.

THTR:3276 Medieval Drama 3 s.h.
Study of drama in the Medieval period. Same as ENGL:3276.

THTR:3277 English Renaissance Drama 3 s.h.
Dramatic literature of the English Renaissance. Same as ENGL:3277.

THTR:3301 Playwriting II 3 s.h.
Application of fundamental skills learned in THTR:2301 to more advanced study of dramatic structure and style; reading of plays, weekly writing assignments; focus on writing one-act play. Prerequisites: THTR:2301.

THTR:3310 Undergraduate Playwriting Workshop 3 s.h.
Workshop discussion of original full-length plays, collaborative creation of new plays, work with guest artists. Prerequisites: THTR:2301 and THTR:3301.

THTR:3315 Standup Comedy Practicum 3 s.h.
Writing and performing standup comedy; emphasis less on creating a comic persona and more on pulling from and articulating personal truth; analysis of contemporary comedians and joke structure; performing original work for multiple audiences in classroom and out in community.

THTR:3320 Writing for Film 3 s.h.
Rigorous writing for film; focus on feature-length screenplay; for students with experience in dramatic writing, fiction, or screenwriting. Requirements: completion of at least 60 s.h. or graduate standing.

THTR:3325 Iowa Writers' Room 3 s.h.
Experiential learning in television writing field; first-hand experience as part of a traditional television writers' room—selecting material and show topics, pitching ideas, collaboratively breaking story, and writing and workshopping scripts for a limited series television show of student's choosing; includes instruction and class visits by acclaimed industry insiders. Same as WRIT:3325.

THTR:3401 Topics in Dramatic Literature 3 s.h.
Topics in dramatic literature, including specific authors, periods, and movements; sample topics include Ibsen and Strindberg, Chekov, Brecht and the Brechtian, and avant-garde theatre.

THTR:3402 Shakespeare the Dramatist 3 s.h.
Exploration of a number of Shakespeare's greatest works; close textual analysis supplemented with historical, theoretical, theatrical, and philosophical considerations; special attention given to Shakespeare's dramatic method and relation of his dramaturgy to profession of theater-making.

THTR:3421 Performing Autobiography 3 s.h.
Advanced seminar and workshop; immersive readings in genre of contemporary autobiographical work, scholarship and criticism, and performance texts and videos as established artists have developed them; students write and perform their own original pieces stemming from personal experiences and interests. Recommendations: RHET:1030. Same as GWSS:3421.

THTR:3430 Women on Stage 3 s.h.
Examination of how and why women in the United States have expressed themselves through theatre and performance from 1776 to present; students study plays as performed events in specific times and places for specific audiences through works by African American, Asian American, European American, Latina, Native American, and lesbian/queer writers; what the theater—as a public, embodied art form—offers female writers; how stakes differ for women of diverse backgrounds in using this often suspect and uniquely powerful medium in particular historical moments; how changing definitions of gender and sexuality come into play; prior background in theater not required. Same as AMST:3430, GWSS:3430.

THTR:3440 American Drama Since 1900 3 s.h.
American playwrights and plays after 1900. Same as ENGL:3440.

THTR:3462 African American Drama 3 s.h.
African American dramatic literature. Same as AFAM:3462, ENGL:3462.

THTR:3501 Stage Management I 3 s.h.
Duties and procedures of stage management; focus on development of production from preparatory work through performance; role of stage manager in collaboration.

THTR:3510 Introduction to Arts Management 3 s.h.
Nonprofit performing arts management and administrative principles; practical applications, trends in the field; focus on arts organizations and their key administrative positions. Same as INTD:3510.

THTR:3530 Musical Theatre Workshop 2 s.h.
Development of musical theatre performance skills through participation; students learn how to project intentions, attitudes, and personality traits of characters they portray; fundamentals of stagecraft, acting, movement, relaxation, and concentration; accurate musical coaching, including clear diction and solidly built dramatic musical interpretation. Same as MUS:3530.

THTR:3610 Drama in the Classroom 3 s.h.
Theories of community, culture, identity in relation to language arts teaching and learning; emphasis on incorporating multiple literacies, both oral and print, into language arts curricula; action research involving oral literacy. Same as EDTL:3180.

THTR:3615 Action! Engage! Art! Creative Placemaking for the Public Good 3 s.h.
Best practices for community projects; students in any discipline partner with artists to make change in the world; topics and activities include how to collaborate with creative partners and be a strong partner, develop ethical community partnerships, cultural competency, how to work for sustainable goals, team leadership skills, prepare social justice skills portfolios, investigate established projects, and develop individual or team projects for future semesters and beyond.

THTR:3630 Special Topics in Theatre Arts 3 s.h.
Specialized study in a specific aspect of theatre arts of interest to actors, directors, playwrights, dramaturgs, designers, and stage managers.

THTR:3875 Topics in Digital Performing Arts 3 s.h.
Advanced techniques in performing with established and new technologies including live cameras in performance, controlling digital avatars, motion capture, virtual and augmented reality, and more. Same as DANC:3875.

THTR:3876 Projection Design 3 s.h.
Introduction to the aesthetics and practical applications of projection design for live performance, including content creation, system design, media servers, projectors, cameras, and related professional equipment. Students learn how to create digital artwork with professional content/animation/effects software Adobe After Effects, Illustrator, Photoshop, Premiere Pro, Audition, etc. Through the media server QLab students learn how to integrate digital artwork and live video cameras into live performance via projectors and digital displays. GE: Engineering Be Creative. Same as CINE:3876, DANC:3876, DIGA:3876, INTM:3876.

THTR:3895 Performance, Art, and New Technologies in Society 3 s.h.
Students pitch projects and work in interdisciplinary groups to create original live performances and installations based on major technological innovations that have deeply impacted society and live performance in late 20th and early 21st centuries; daily hands-on making; examination of theoretical texts and performances that address impact of technology on human condition to contextualize students' own art/technology projects; exploration and adaptation of technologies/aesthetics for live performance and art including telepresence and liveness, artificial intelligence and big data, augmented and virtual reality. Prerequisites: MUS:2800 or THTR:2880 or CS:1110 or CS:1210 or SCLP:4835. Same as DANC:3895, DIGA:3895.

THTR:4144 Acting: Special Topics 3 s.h.
Specialized study in a specific aspect or theory of acting.

THTR:4180 Directing I 3 s.h.
Basic elements of stage direction; exercises in composition, emphasis, movement, rhythm, directorial analysis; director's role in production process; short scenes, projects, papers. Prerequisites: THTR:2140 and (THTR:2402 or CINE:1601 or CINE:1602).

THTR:4185 Directing: Special Topics 3 s.h.
Specialized study in a specific aspect or theory of stage directing. Prerequisites: (THTR:2140 or THTR:3120) and (THTR:2402 or CINE:1601 or CINE:1602).

THTR:4230 Scenic Design II 3 s.h.
Design and execution of increasingly complex projects in a variety of formats, including perspective sketching, detailed drafting, and color models. Prerequisites: THTR:3230.

THTR:4240 Costume Design II 3 s.h.
Immersion in the essential skills needed for developing costumes for theater, film, and television. Emphasis on blending creative work, technical skills, and collaboration. Recommendations: may be taken before THTR:3240.

THTR:4250 Lighting Design II 3 s.h.
Development of advanced lighting artistry; preparation for mainstage lighting assignments through a series of hands-on projects and practicals; emphasis on process of design, communicating design concept, acclimating to University of Iowa venues, advanced moving light programming, 3D modeling, previsualization techniques, and organizing plot and paperwork in accordance with professional lighting practices. Prerequisites: THTR:3250.

THTR:4270 Scenic Art 3 s.h.
Basic techniques in scenic art for the theatre; classical scene painting, color theory, drawing, using nontraditional tools and materials, foam carving, and finishes. Offered every other year. GE: Engineering Be Creative. Same as ARTS:4270.

THTR:4290 Design: Special Topics 1-3 s.h.
Specialized study in a specific aspect or theory of theatrical design.

THTR:4420 Dramatic Theory 3 s.h.
Theoretical questions of interest to dramatists and philosophers in western and nonwestern traditions; metaphysics of play; theories of character, psyche, self; narrative and nonnarrative dramatic forms. Prerequisites: THTR:2402 and THTR:2410 and THTR:2411.

THTR:4510 Arts Leadership Seminar 3 s.h.
Performing arts management and administrative principles, practical applications, trends in arts leadership and advocacy. Same as ENTR:4510, INTD:4510.

THTR:4605 Undergrad Career Preparation 1-3 s.h.
Business aspects of the actor's career; entrepreneurial tools for the professional world; topics include agents, managers, taxes, fees, résumés, head shots, unions, similarities and differences between the three major markets (New York, Chicago, Los Angeles), and particular needs for television, film, and theatre.

THTR:4630 London Performance Study 3 s.h.
Performance studies. Same as ENGL:4172.

THTR:4691 Projects in Theatre arr.

THTR:4692 Honors Theatre Arts arr.
Development of a focused, large-scale project that aligns with and deepens a student's interest in theatre arts. Project generally includes both a written portion and a public presentation.

THTR:4693 Independent Study arr.

THTR:4695 Performance Practicum 1-2 s.h.
Perform as an actor or serve as an assistant stage manager in a production of at least an hour's length, rehearsed for at least four weeks, directed by a faculty member or guest artist or graduate student, and produced by the Department of Theatre Arts.

THTR:5200 Graduate Design Seminar arr.
Graduate design in set, lighting, and costume design; teamwork; meetings with design faculty in specific disciplines; short-term projects in the theatre department; long-term projects, including summer design work, internships, and other professional opportunities during the three-year program and beyond. Prerequisites: THTR:4230 or THTR:4240 or THTR:4250.

THTR:5230 Scenic Design III 3 s.h.
Complex assignments; documentation skills, scenic design preparation. Prerequisites: THTR:3230 and THTR:4230.

THTR:5240 Costume Design III 3 s.h.
Advanced projects in costume design and portfolio development. Prerequisites: THTR:4240.

THTR:5250 Lighting Design III 3 s.h.
Advanced projects in venues such as dance, opera, industrials; preparation of lighting designs for production. Prerequisites: THTR:4250.

THTR:5300 The Collaborative Process 3 s.h.
Development of new plays, collaboratively created works.

THTR:5410 Dramaturgy 3 s.h.
Overview of history, theory, and practice of dramaturgy and dramaturg in Europe and the United States including relationship to dramatic criticism, dramaturgical research, analysis and conceptualization of texts for production, audience outreach, and new play development; may focus intensively on one of these topics and workshop creative work related to the topic.

THTR:5420 Dramaturgy Practicum arr.
Supervision of ongoing dramaturgical work in Department of Theatre Arts and the Playwrights Workshop; workshopping elements of dramaturgical work (e.g., script reports, program essays, lobby displays); examination of special topics including history of dramaturgy, dramatic criticism, dramaturgical writing (documenting the production process), dramaturgy and dramatic theory. Requirements: admission to MFA dramaturgy program.

THTR:5500 Stage Management: Special Topics 3 s.h.
Topics in stage management, arts production, and their professional practice. Requirements: admission to MFA stage management program.

THTR:5510 Production Management 3 s.h.
Organization and supervision of theatre productions; resources, procedures for successfully mounting a theatre production or season; personnel, equipment, facility and budget management, scheduling, communication. Requirements: stage management MFA enrollment.

THTR:5600 Orientation to Graduate Studies 1-2 s.h.
Introduction to the department's six graduate programs, production program, facilities, and UI library system; raises issues that will be considered throughout students' graduate careers; exploration of creative process and application of critical thinking to that process; for first-year theatre arts MFA students. Requirements: admission to MFA in theatre arts.

THTR:5880 Installations and Interactive Performance 3 s.h.
Introduction to creating interactive experiences with technology; aesthetics, techniques, and practical possibilities of fusing together theatre, dance, music/sound, art, design, cinema, gaming, human-computer interaction, and engineering through use of Isadora, an interactive, node-based programming software; students create immersive performances, interactive installations, embodied user experiences, and user-manipulated virtual environments. Same as DANC:5880.

THTR:5890 Producing and Directing Digital Video 3 s.h.
Introduction to basic concepts, theories, and practical applications of digital video production for multiple distribution streams with focus on aesthetic and technical principles; development of proficiency in contemporary approaches to digital media production by understanding the production pipeline from ideation to preproduction, production, postproduction, and through to distribution. Same as DANC:5890.

THTR:6140 Advanced Acting 3 s.h.
Preprofessional training; may include psychophysical training in impulse, openness and the "mask," individual and group dynamics, improvisation, repetition, characterization and scene work, Shakespeare and style, on-camera, development of professional work habits and skills, audition and interview. Requirements: admission to MFA acting program.

THTR:6150 Vocal Technique 3 s.h.
Skills training; voice and speech for the actor, phonetics, dialects, sound exploration, contemporary and classical text analysis. Requirements: admission to MFA acting program.

THTR:6160 Movement Technique 3 s.h.
Fundamental principles and practices required for physical acting technique; basic stage movement, stage combat, mime technique, Lecoq-based improvisation; a new works project. Requirements: admission to MFA acting program.

THTR:6170 Graduate Acting: Special Topics 3 s.h.
Specialized study in one aspect or theory of acting. Requirements: admission to MFA acting program.

THTR:6180 Director's Seminar 1-3 s.h.
Preprofessional training in stage direction; the art and craft of directing; research, practical experience; development of new pieces; approaches to a variety of theatrical materials through concept, type, style. Requirements: admission to the MFA directing program.

THTR:6300 Guest Seminar arr.
Playwriting workshops and script conferences led by visiting professional playwrights, directors, and dramaturgs. Requirements: admission to MFA playwriting program.

THTR:6310 Special Topics in Playwriting 3 s.h.
Special topics of interest to MFA playwrights and dramaturgs including fundamentals for experts, designing audience experiences, structural approaches to playwriting, and writing for film; also may focus on dramatic genres (e.g., docudrama, history play).

THTR:6500 Stage Management Seminar 1-2 s.h.
Practice and techniques of stage management. Requirements: admission to MFA stage management program.

THTR:6605 Graduate Career Preparation 1-3 s.h.
Preparation for professional showcase produced in student's final year; business aspects of the actor's career; entrepreneurial tools for the professional world; topics include agents, managers, taxes, fees, résumés, head shots, unions, similarities and differences between three major markets (New York, Chicago, and Los Angeles), and particular needs for television, film, and theatre. Requirements: admission to MFA acting program.

THTR:6691 Projects in Theatre Advanced arr.
Create a special project under the mentorship of a faculty member; projects may include performing in a main stage production, writing, directing, or designing a play performed in the department, developing a research project that intersects production.

THTR:7300 Playwrights Workshop 1,3 s.h.
Development of works by Iowa Playwrights Workshop members. Requirements: admission to MFA playwriting or dramaturgy program.

THTR:7601 MFA Thesis 0-3 s.h.
Work related to MFA thesis projects in theatre arts.

Theatre Arts, BA

The undergraduate program in theatre arts is based on the philosophy that the best way to develop future artists is to expose them to rigorous professional practice within the framework of a liberal arts and sciences education.

Department of Theatre Arts students take workshop courses in acting, directing, design, technical theatre, stage management, and playwriting and complement them with classes in dramatic literature, history, and criticism. Students are also encouraged to explore a range of courses throughout the university. Around 20 public productions are staged each year, providing additional opportunities to learn the theatre craft and to develop a personal artistic vision.

Student Auditions for Theatre Arts Productions

Theatre arts majors are encouraged to audition for the department's productions in general auditions at the beginning of the fall semester. Students normally present a three-minute audition consisting of two contrasting pieces. From this audition, callback lists are posted for fall productions. Additional general auditions are typically scheduled in early November and in March.

Students in other majors are welcome to audition for the department's productions, as are community members (see "Productions and Auditions" in the Department of Theatre Arts [p. 1100] section of the catalog). For academic considerations, theatre arts majors are given first consideration for roles.

Materials and information about general auditions are available from the Department of Theatre Arts. Notices of auditions for all subsequent productions are posted on the department's online call board.

Learning Outcomes

All theatre students have special interests they want to pursue—acting, writing, design, and more. To make this possible, the department offers beginning and advanced courses in every theatrical area.

No matter which theatre arts area is chosen, the overall experience as a theatre student will give each major the ability to:

- apply knowledge of theatre's role in society throughout history to creative and/or scholarly work;
- explore and apply understanding of a dramatic script to creative and/or scholarly work;
- collaborate with others to produce a play;
- talk about and assess a student's work and the work of others;
- articulate an emerging artistic vision that starts to inform a student's work and thinking about the arts; and
- write well about theatre.

Requirements

The Bachelor of Arts with a major in theatre arts requires a minimum of 120 s.h., including at least 37 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22]. Students can add the music theatre focus area to their theatre arts degree; see the section titled "Music Theatre Track."

The curriculum for the theatre arts major constitutes the basic experience for all undergraduate theatre arts students. Registration in some courses for the major requires special permission. Contact the Department of Theatre Arts for details.

Students who transfer to the university from other accredited two- or four-year institutions may fulfill theatre arts major requirements with equivalent courses taken at those institutions. To have a course considered for equivalency, students should submit the syllabus from their completed course. If a student completes the courses listed for the approved 2 Plus 2 Plan theatre arts program at Kirkwood Community College, Iowa Central Community College, Eastern Iowa Community College District, or Indian Hills Community College in Iowa, those courses are automatically counted toward requirements for the theatre arts major at the University of Iowa. Students must earn a minimum of 24 s.h. in the UI departments of Theatre Arts or Dance, or the School of Music. Consult the theatre arts department's director of undergraduate studies for more information.

In planning coursework, especially electives, students should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a BA may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the coursework is accepted toward the requirements for the major. Students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average, but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Students must complete a course's prerequisites before registering for the course. They normally complete THTR:2140 Acting I, THTR:2402 Script Analysis, THTR:2410 History of Theatre and Drama I, and THTR:2411 History of Theatre and Drama II within their first four semesters in the major.

Students who complete THTR:1400 Theatre and Society: Ancients and Moderns or THTR:1401 Theatre and Society: Romantics and Rebels before declaring a major in theatre arts must consult the undergraduate director before they may register for THTR:2410 History of Theatre and Drama I or THTR:2411 History of Theatre and Drama II.

The BA with a major in theatre arts requires the following coursework.

Requirements	Hours
Theatre Foundation Courses	16
Design Course	3
Dramatic Literature Course	3
Production Lab	3
Theatre Arts Electives	12

Theatre Foundation Courses

Course #	Title	Hours
All of these:		
THTR:2000	Orientation to Theatre Arts	1
THTR:2140	Acting I	3
THTR:2215	Theatre Technology	3
THTR:2402	Script Analysis	3

THTR:2410	History of Theatre and Drama I	3
THTR:2411	History of Theatre and Drama II	3

Design Course

Course #	Title	Hours
One of these:		
THTR:3230	Scenic Design I	3
THTR:3240	Costume Design I	3
THTR:3250	Lighting Design I	3
THTR:3260	Sound Design for the Theatre	3
THTR:4240	Costume Design II	3

Dramatic Literature

Course #	Title	Hours
One of these:		
THTR:1410	Musical Theatre History	3
THTR:2320	Playwriting in a Global World	3
THTR:2405	Staging Americans: U.S. Cultures Through Theatre and Performance	3
THTR:3401	Topics in Dramatic Literature	3
THTR:3402	Shakespeare the Dramatist	3
THTR:3421	Performing Autobiography	3
THTR:4420	Dramatic Theory	3
THTR:4630	London Performance Study	3

Production Lab

Students must earn a total of 3 s.h. in the required production lab course, THTR:2220 Production Lab. The course requires students to work backstage on a department production. All students must serve as a crew member on at least one production (normally earning 1 s.h. per production). They have options to earn 2 s.h. for serving as a crew captain or taking on other advanced responsibilities.

With the instructor's approval, students who enroll in the elective production course (THTR:3501 Stage Management I) may also enroll in the required production lab course THTR:2220 during the same semester or session and may complete an additional project, earning 1 s.h. for THTR:2220 in addition to the credit they earn for the elective course. Students may earn a maximum of 1 s.h. of required production course credit for THTR:2220 this way.

Theatre Arts Electives

Theatre arts students must earn a total of 12 s.h. in theatre arts elective coursework, or a total of 9 s.h. if they select the music theatre track. Students may not use a course to fulfill more than one requirement for the major, so in selecting the additional elective coursework, they may not choose a course they have already used to fulfill another requirement.

At least 9 s.h. in elective courses must be numbered 3000 or above; the other 3 s.h. may be from any level. A minimum of 6 s.h. must be selected from one of the following areas: Acting, Directing, and Music Theatre; Design; Playwriting, Dramatic Literature, and Dramaturgy; or Stage Management, Engagement, and Digital Media.

Acting, Directing, and Music Theatre

Course #	Title	Hours
THTR:2170	Acting for Musical Theatre (unless music theatre track student selects this course as musical theatre foundation course)	3
THTR:2175	Musical Theatre Performance: Special Topics (unless music theatre track student selects this course as musical theatre foundation course)	3
THTR:2880	Installations and Interactive Performance	3
THTR:2890	Producing and Directing Digital Video	3
THTR:3110	Voice for the Actor	3
THTR:3120	Theatre Movement	3
THTR:3140	Acting II	3
THTR:3151	Voice for the Actor II	3
THTR:3160	Movement Styles	3
THTR:3165	Stage Combat	3
THTR:3315	Standup Comedy Practicum	3
THTR:3421	Performing Autobiography	3
THTR:3530	Musical Theatre Workshop	2
THTR:3615	Action! Engage! Art! Creative Placemaking for the Public Good	3
THTR:3630	Special Topics in Theatre Arts	3
THTR:3876	Projection Design	3
THTR:3895	Performance, Art, and New Technologies in Society	3
THTR:4144	Acting: Special Topics	3
THTR:4180	Directing I	3
THTR:4185	Directing: Special Topics	3

Design

Course #	Title	Hours
THTR:2880	Installations and Interactive Performance	3
THTR:2890	Producing and Directing Digital Video	3
THTR:3202	Graphic Design for the Entertainment Industry	2-3
THTR:3208	Mask and Puppet Crafts	3
THTR:3211	Period Styles	3
THTR:3230	Scenic Design I	3
THTR:3235	Production Design for Film, Television, and New Media	3
THTR:3240	Costume Design I	3
THTR:3250	Lighting Design I	3
THTR:3260	Sound Design for the Theatre	3
THTR:3270	Entertainment Design	3
THTR:3876	Projection Design	3
THTR:3895	Performance, Art, and New Technologies in Society	3
THTR:4230	Scenic Design II	3

THTR:4240	Costume Design II	3
THTR:4250	Lighting Design II	3
THTR:4270	Scenic Art	3

Playwriting, Dramatic Literature, and Dramaturgy

Course #	Title	Hours
THTR:3301	Playwriting II	3
THTR:3310	Undergraduate Playwriting Workshop	3
THTR:3315	Standup Comedy Practicum	3
THTR:3320	Writing for Film	3
THTR:3401	Topics in Dramatic Literature	3
THTR:3402	Shakespeare the Dramatist	3
THTR:3421	Performing Autobiography	3
THTR:3430	Women on Stage	3
THTR:3630	Special Topics in Theatre Arts	3
THTR:4420	Dramatic Theory	3
THTR:5420	Dramaturgy Practicum	arr.

Stage Management, Engagement, and Digital Media

Course #	Title	Hours
THTR:2880	Installations and Interactive Performance	3
THTR:2890	Producing and Directing Digital Video	3
THTR:3501	Stage Management I	3
THTR:3510	Introduction to Arts Management	3
THTR:3615	Action! Engage! Art! Creative Placemaking for the Public Good	3
THTR:3876	Projection Design	3
THTR:3895	Performance, Art, and New Technologies in Society	3
THTR:5500	Stage Management: Special Topics	3
THTR:5510	Production Management	3

Music Theatre Track

Students have the option of adding a focus to their study plan by completing a specialized track in music theatre. This optional track provides a gateway for students to develop and enhance the basic performance skills necessary for a music theatre performer to be successful. Students are not required to audition to enter the track, but auditions are required to enroll in music theatre performance courses. The track requires a minimum of 53 s.h. of coursework. Each student's program of study may culminate in a final presentation, to be determined in consultation with the track advisor. To enroll in the music theatre track, contact the music theatre track advisor in the Department of Theatre Arts.

The BA with a major in theatre arts with the music theatre track requires the following coursework.

Requirements	Hours
Theatre Foundation Courses (see "Theatre Foundation Courses" list)	16
Design Course (see "Design Course" list)	3
Production Lab (see "Production Lab" list)	3
Dramatic Literature Requirement	3
Theatre Arts Elective Courses	9
Musical Theatre Foundation Courses	5-6
Dance Courses	9
Music Courses	5

Dramatic Literature Requirement

Course #	Title	Hours
THTR:1410	Musical Theatre History	3

Theatre Arts Elective Courses

Course #	Title	Hours
All of these:		
THTR:3110	Voice for the Actor	3
THTR:3120	Theatre Movement	3
THTR:3140	Acting II	3

Musical Theatre Foundation Courses

Course #	Title	Hours
This course:		
THTR:2170	Acting for Musical Theatre	3
One of these:		
THTR:2175	Musical Theatre Performance: Special Topics	3
MUS:3530	Musical Theatre Workshop	2

Dance Courses

Course #	Title	Hours
Two of these:		
DANC:1020	Beginning Jazz	3
DANC:1120	Continuing Jazz	3
DANC:2020	Intermediate Jazz	3
One of these:		
DANC:1010	Beginning Tap	3
DANC:1025	Beginning Hip Hop Dance	3
DANC:1030	Beginning Ballet	3
DANC:1040	Beginning Modern Dance	3
DANC:1130	Continuing Ballet	3
DANC:2020	Intermediate Jazz (if not used to satisfy the preceding requirement)	3
DANC:2025	Intermediate Hip Hop Dance	3
DANC:2030	Majors Intermediate Ballet	3
DANC:2040	Majors Intermediate Contemporary Movement Practices	3
DANC:3030	Major Ballet I	3
DANC:3040	Major Contemporary Movement Practices I	3
DANC:3530	Major Ballet II	3
DANC:3540	Major Contemporary Movement Practices II	3
DANC:4030	Major Ballet III	3
DANC:4040	Major Contemporary Movement Practices III	3

Music Courses

Course #	Title	Hours
This course (when topic is voice):		
MUS:1020	Performance Instruction for Nonmajors (taken four times for 1 s.h. each)	4
One of these:		
MUS:1001	Group Piano I: Non-Music Majors	1
MUS:1002	Group Piano II: Non-Music Majors	1

Honors

Honors in the Major

Students majoring in theatre arts have the opportunity to graduate with honors in the major. Students who wish to graduate with honors should declare their intention to the department's honors advisor. To graduate with honors in the major, students must maintain a minimum University of Iowa grade-point average (GPA) of 3.33; a GPA of at least 3.50 in the major; complete at least 6 s.h. of work in Department of Theatre Arts honors courses, of which 3 s.h. must be a course numbered 3000 or above; and complete THTR:4692 Honors Theatre Arts.

Students who elect to give a creative presentation or performance must have senior standing and must complete at least one honors course before their proposed project may be approved. If they wish to include their project in the department's production season as a workshop production, they must submit an application form to the director of theatre for approval of their project by April 1 of the year before the project is to be scheduled (projects are not guaranteed a production slot). They must also enroll in THTR:4692 during the semester in which they complete their presentation or performance.

For more information about theatre arts honors requirements, contact the honors advisor in the Department of Theatre Arts.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the theatre arts major.

Career Advancement

The National Association of Colleges and Employers lists the top skills employers look for in college graduates; these include communication skills, strong work ethic, teamwork skills, initiative, interpersonal skills, problem-solving skills, analytical skills, and flexibility/adaptability. Theatre is an excellent way to learn these skills. As theatre majors, students learn to think critically, read carefully, write well, and present themselves in front of others—skills vital for many careers.

Theatre graduates find work as actors, directors, designers, critics, stage managers, writers, producers, and agents. Some work in film and TV, some decide to teach, and some combine scholarship with production or performance with teaching. Others go into business or law.

After graduating, many students move to a metropolitan area to find work. In theatre, there are no guarantees. Success takes talent, patience, hard work, and a bit of luck, yet most graduates who want to work in this exciting profession find a way to do so.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: three courses in the major chosen from THTR:2140 Acting I, THTR:2215 Theatre Technology, THTR:2402 Script Analysis, THTR:2410 History of Theatre and Drama I, and THTR:2411 History of Theatre and Drama II.

Before the seventh semester begins: three more courses in the major, two semesters of production credit, and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: two more courses in the major and one more semester of production credit.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students must earn a total of 3 s.h. in THTR:2220.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students who complete THTR:1400 or THTR:1401 before declaring a major in theatre arts must consult the undergraduate director before they may register for THTR:2410 or THTR:2411.

e Fulfills a major requirement and may fulfill a GE requirement.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g See the General Catalog for list of approved courses.

h Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

i Students must earn a total of 12 s.h. in theatre arts elective coursework. Students may not use a course to fulfill more than one requirement for the major. Three of the four elective courses must be numbered 3000 or above; the other course may be from any level. A minimum of two courses must be selected from one of the following areas: Acting, Directing, and Music Theatre; Design;

Playwriting, Dramatic Literature, and Dramaturgy; or Stage Management, Engagement, and Digital Media.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Theatre Arts, Minor

Requirements

The undergraduate minor in theatre arts requires 15 s.h. in theatre arts coursework, including 12 s.h. in courses numbered 2000 or above taken at the University of Iowa. Students may count THTR:1141 Basic Acting II as one of the courses included in the 12 s.h. previously mentioned. Students must maintain a cumulative grade-point average of at least 2.00 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass. Students must complete all prerequisites for the courses they choose for the minor. A maximum of 3 s.h. of equivalent transfer or study abroad credit may be applied toward the minor.

All theatre arts courses are available to students who minor in theatre. Students who wish to take THTR:2140 Acting I must request permission through the Department of Theatre Arts office. Minors who are interested in acting may also take THTR:1140 Basic Acting and THTR:1141 Basic Acting II, and then may ask for permission to enroll in THTR:3140 Acting II.

Contact the Department of Theatre Arts for more information about how to meet the requirements for the minor.

Theatre Arts, MFA

Learning Outcomes

Acting Subprogram

Graduates must demonstrate:

- the ability to employ a broad range of acting knowledge and skills in the creation and presentation of roles;
- the ability to perform in plays and roles of various types, and from various periods;
- the acquisition of advanced understanding and capabilities in voice and speech, movement, and play analysis;
- a working knowledge of historical, critical, and theoretical content and the ways they inform playwriting and dramatic writing, the creation of roles, and other aspects of production;
- the ability to utilize digital media as a creative platform for self-promotion and in live performance;
- a working knowledge of skill sets and business-related tools to manage a professional acting career; and
- the ability to collaborate at a professional level with actors, directors, designers, playwrights, dramaturgs, and stage managers in the processes of production.

Design Subprogram

Graduates must demonstrate:

- development of new work and new artists through a creative, collaborative process; and advanced abilities in the unification of all design elements used in professional production through effective collaboration with diverse groups of artists and technicians with a range of life experiences and perspectives;
- thorough knowledge of health and safety practices associated with theatre production;
- with respect for the great global traditions, the ability to push the boundaries of theatre, using sophisticated tools and technologies; the ability to exhibit advanced knowledge in and to integrate the history of décor/fashion and cultural modes; skills drawing, color theory, lighting; analog and digital facility in 2D and 3D design in tactile, lighting and audio arts; and aesthetic, theoretical, and/or technical approaches to creating compelling stories and experiences that incorporate new technologies and digital art-making practices in live performance, interactive art installations, and user-based live events;
- creative and technical ability to develop the design of a production from concept to finished product, and produce full design packages for at least two realized productions;
- the capacity to provide space for diversity and foster social responsibility and change through a working knowledge of script analysis, which includes the ways that historical, critical, cultural, and theoretical perspectives and content inform playwrights, actors, stage managers, directors, and designers; and
- the ability to work with theatre professionals in their processes of production.

Directing Subprogram

Graduates must demonstrate advanced professional competence in directing including, but not limited to:

- the ability to integrate advanced understanding and capabilities in play analysis, performance, and design in creating the concept of a production;
- the ability to develop and guide fully mounted productions of a wide variety of performance styles and plays from statement of concept through public performance;
- a broad knowledge of dramatic literature and/or theatre history, including a demonstrated ability to undertake inquiry, investigation, or research associated with various aspects of performance and production;
- the ability to work with collaborators (actors/performers, playwrights/dramaturgs, and designers) in the processes of production, including the ability to conduct rehearsals effectively;
- an understanding of basic design principles and of aural and visual comprehension in the theatre and other dramatic media;
- an understanding of all the theatre arts and crafts at a sufficient level of knowledge to communicate with other artists and producers and to make informed critical judgments in all areas of the theatre;
- a basic understanding of the aesthetic, theoretical, and/or technical approaches to create compelling stories and experiences that incorporate new technologies and digital artmaking practices in live performance, interactive art installations, and user-based live events;
- the ability to develop and direct various forms of new work that engage diverse writers with multiple life experiences and perspectives; and
- directing at least two full-length, public productions, one of which must receive full technical support.

Dramaturgy Subprogram

Graduates must demonstrate:

- a broad knowledge of the various elements of theatrical production;
- a broad knowledge of theatre history, theory, criticism, and performance studies;
- awareness of current issues and developments in the fields of theatre, playwriting, and dramaturgy;
- advanced skills in the practice of production dramaturgy, including dramaturgical research and writing, and script analysis;
- advanced skills in the practice of new play dramaturgy, including awareness of the creative and dramaturgical potential of digital media in the making of new work; and
- advanced competence in theatrical collaboration, including evidence of collaborating successfully with playwrights, directors, actors, designers, and stage managers in the development and production of new work; an understanding of professional ethics and practice; and awareness of issues of diversity, equity, and inclusion as they relate to collaboration.

Playwriting Subprogram

Graduates must demonstrate advanced professional competence in playwriting and dramatic writing including, but not limited to:

- advanced technical skills in dramatic construction;
- the ability to employ and integrate a broad range of knowledge and skills in the various elements of theatrical production;

- the acquisition of advanced understanding and abilities to use theories and methods of script analysis, criticism, and dramaturgy in the development of theatrical and dramatic works;
- the ability to develop a work from concept to finished product and working knowledge of theatre history and theory, as well as of the creative and dramaturgical potential of digital media and various ways each may influence the creative process;
- an original full-length or equivalent work for their MFA thesis; and
- advanced competence in theatrical collaboration, including evidence of collaborating successfully with directors, dramaturgs, actors, designers, and stage managers in the development and production of new work; an understanding of professional ethics and practice; and awareness of issues of diversity, equity, and inclusion as they relate to collaboration.

Stage Management Subprogram

Graduates must demonstrate:

- advanced knowledge of all production elements and the ways they can be combined and integrated, including digital media;
- advanced ability to coordinate multiple aspects of production both in rehearsal and in performance, including digital media;
- an understanding of stage management for a broad range of genres including drama, musical theatre, dance, opera, and special events;
- the ability to collaborate with actors, designers, directors, musical directors, dramaturgs, choreographers, and special events planners (all other artists) in their processes of creation, performance, and planning; and provide space for diversity and foster social responsibility and change; and
- an understanding of union rules and industry policies and procedures relevant to the field.

Requirements

The Master of Fine Arts in theatre arts requires a minimum of 64–70 s.h. of graduate credit. Students must maintain a graduate program grade-point average of 3.00. The degree offers subprograms in acting, design, directing, dramaturgy, playwriting, and stage management. A thesis is required for all subprograms. Typically students complete six semesters in residence (internships may be substituted).

The graduate program is dedicated to the creative development of theatre artists. Graduates have a solid background in major performance theories, dramatic literature, and practices of the past and present as well as in the craft of their chosen specialties.

Special attention is given to understanding the role and importance of live theatre in society. Interactions among the various theatre disciplines are emphasized, both in classes and through the department's extensive production program. Particular emphasis is placed on the development of new works for the theatre.

Students must maintain consistent academic and artistic growth throughout their six semesters as MFA students in the department. Students who fail to make this progress are placed on academic probation and given one additional semester to demonstrate their qualifications for earning the degree.

Contact the Department of Theatre Arts for specific information on any of the MFA specialty areas.

Common Requirements

Core Requirements

Students in all subprograms complete the following coursework. Students in the stage management subprogram must earn a grade of B-minus or above in THTR:7601 MFA Thesis.

Course #	Title	Hours
Both of these:		
THTR:5600	Orientation to Graduate Studies	1
THTR:7601	MFA Thesis	3

Dramatic Literature

Students in the acting, design, directing, playwriting, and stage management subprograms must complete 9 s.h. from the following course list. Students in the dramaturgy subprogram must complete 18 s.h. from the course list. Playwriting and dramaturgy students must earn a B-minus or above in all dramatic literature courses.

Course #	Title	Hours
THTR:3401	Topics in Dramatic Literature	3
THTR:3402	Shakespeare the Dramatist	3
THTR:3421	Performing Autobiography	3
THTR:3430	Women on Stage	3
THTR:3440	American Drama Since 1900	3
THTR:3462	African American Drama	3
THTR:4420	Dramatic Theory	3
THTR:4630	London Performance Study	3
ENGL:3287	Shakespeare	3
ENGL:3288	Shakespeare's Romans: The Ancient World Meets the Elizabethan Stage	3
ENGL:3320	Modern British Drama	3

Acting Subprogram

The MFA in theatre arts with a subprogram in acting requires 64 s.h. of graduate credit. In addition to the common requirements, the acting subprogram requires the following coursework.

Students must earn a grade of B-minus or above each time they take THTR:6140, THTR:6150, and THTR:6160.

Course #	Title	Hours
All of these (51 s.h.):		
THTR:3875	Topics in Digital Performing Arts	3
THTR:4695	Performance Practicum	1
THTR:5890	Producing and Directing Digital Video	3
THTR:6140	Advanced Acting (taken three times for 3 s.h. each)	9
THTR:6150	Vocal Technique (taken five times for 3 s.h. each)	15

THTR:6160	Movement Technique (taken five times for 3 s.h. each)	15
THTR:6170	Graduate Acting: Special Topics	3
THTR:6605	Graduate Career Preparation	2

Design Subprogram

The MFA in theatre arts with a subprogram in design requires 70 s.h. of graduate credit. In addition to the common requirements, the design subprogram requires the following coursework.

Students must earn a grade of B-minus or above in all subprogram courses, with the exception of THTR:5200 Graduate Design Seminar.

Design Required Courses

Course #	Title	Hours
Both of these:		
THTR:3211	Period Styles	3
THTR:4270	Scenic Art	3

Design Primary Area

Course #	Title	Hours
Three courses (9 s.h.) from one area:		
Scenic Design		
THTR:3230	Scenic Design I	3
THTR:4230	Scenic Design II	3
THTR:5230	Scenic Design III	3
Costume Design		
THTR:3240	Costume Design I	3
THTR:4240	Costume Design II	3
THTR:5240	Costume Design III	3
Lighting Design		
THTR:3250	Lighting Design I	3
THTR:4250	Lighting Design II	3
THTR:5250	Lighting Design III	3

Design Secondary Area

Students take two courses (6 s.h.) from scenic design, costume design, lighting design, sound design, or media design.

Scenic Design

Course #	Title	Hours
This course:		
THTR:3230	Scenic Design I	3
One of these:		
THTR:3235	Production Design for Film, Television, and New Media	3
THTR:4230	Scenic Design II	3

Costume Design

Course #	Title	Hours
This course:		
THTR:3240	Costume Design I	3
One of these:		
THTR:3208	Mask and Puppet Crafts	3
THTR:3210	Makeup Design for the Stage	3
THTR:4240	Costume Design II	3

Lighting Design

Course #	Title	Hours
This course:		
THTR:3250	Lighting Design I	3
One of these:		
THTR:3270	Entertainment Design	3
THTR:4250	Lighting Design II	3

Sound Design

Course #	Title	Hours
Both of these:		
THTR:3260	Sound Design for the Theatre	3
THTR:3630	Special Topics in Theatre Arts (when topic is audio plays)	3

Media Design

Course #	Title	Hours
Two of these:		
THTR:3270	Entertainment Design	3
THTR:3875	Topics in Digital Performing Arts	3
THTR:3876	Projection Design	3
THTR:3895	Performance, Art, and New Technologies in Society	3
THTR:5880	Installations and Interactive Performance	3
THTR:5890	Producing and Directing Digital Video	3

Design Additional Courses

Students take 36 s.h. of additional coursework, including THTR:5200 Graduate Design Seminar, THTR:6691 Projects in Theatre Advanced, and electives.

Students must take THTR:5200 each semester in which they are enrolled (six times total). They enroll for a minimum of 1 s.h. per semester for a minimum of 6 s.h. total. Students are permitted to enroll in the course for a maximum total of 12 s.h.

Students are required to enroll in THTR:6691 each semester in which they are enrolled (six times total). They enroll for a minimum of 16 s.h. total, a maximum of 5 s.h. per semester.

Students complete additional electives from the following list to total 36 s.h. in additional courses. Additional courses may be used for this requirement with advisor approval.

Course #	Title	Hours
THTR:3208	Mask and Puppet Crafts	3
THTR:3210	Makeup Design for the Stage	3
THTR:3215	Sewing Techniques for Theatre Costuming	3
THTR:3230	Scenic Design I	3
THTR:3235	Production Design for Film, Television, and New Media	3
THTR:3240	Costume Design I	3
THTR:3250	Lighting Design I	3
THTR:3260	Sound Design for the Theatre	3
THTR:3270	Entertainment Design	3

THTR:3510	Introduction to Arts Management	3
THTR:3615	Action! Engage! Art! Creative Placemaking for the Public Good	3
THTR:3630	Special Topics in Theatre Arts	3
THTR:3875	Topics in Digital Performing Arts	3
THTR:3876	Projection Design	3
THTR:3895	Performance, Art, and New Technologies in Society	3
THTR:4230	Scenic Design II	3
THTR:4240	Costume Design II	3
THTR:4250	Lighting Design II	3
THTR:4290	Design: Special Topics	1-3
THTR:4510	Arts Leadership Seminar	3
THTR:4630	London Performance Study	3
THTR:5230	Scenic Design III	3
THTR:5240	Costume Design III	3
THTR:5250	Lighting Design III	3
THTR:5880	Installations and Interactive Performance	3
THTR:5890	Producing and Directing Digital Video	3

Directing Subprogram

The MFA in theatre arts with a subprogram in directing requires 69 s.h. of graduate credit. In addition to the common requirements, the directing subprogram requires the following coursework.

Directing Required Courses

Students must earn a grade of B-minus or above each time they take THTR:6180 Director's Seminar.

Course #	Title	Hours
All of these (32 s.h.):		
THTR:5410	Dramaturgy	3
THTR:5880	Installations and Interactive Performance	3
THTR:6180	Director's Seminar (taken six times for 3 s.h. each)	18
THTR:7300	Playwrights Workshop (taken six times, once for 3 s.h. and five times for 1 s.h.)	8

Directing Design Courses

Course #	Title	Hours
Two of these (6 s.h.):		
THTR:3208	Mask and Puppet Crafts	3
THTR:3230	Scenic Design I	3
THTR:3235	Production Design for Film, Television, and New Media	3
HOLD for new costume design course		
THTR:3250	Lighting Design I	3
THTR:3260	Sound Design for the Theatre	3
THTR:3270	Entertainment Design	3
THTR:3615	Action! Engage! Art! Creative Placemaking for the Public Good	3
THTR:3875	Topics in Digital Performing Arts	3
THTR:3876	Projection Design	3
THTR:3895	Performance, Art, and New Technologies in Society	3
THTR:4270	Scenic Art	3
THTR:4290	Design: Special Topics	3
THTR:5890	Producing and Directing Digital Video	3
May include one of these:		
THTR:3240	Costume Design I	3
THTR:4240	Costume Design II	3

Directing Acting and Voice Courses

Course #	Title	Hours
Two of these (6 s.h.):		
THTR:3120	Theatre Movement	3
THTR:3110	Voice for the Actor	3
THTR:3151	Voice for the Actor II	3
THTR:3160	Movement Styles	3
THTR:4144	Acting: Special Topics	3
THTR:6140	Advanced Acting	3
THTR:6150	Vocal Technique	3
THTR:6160	Movement Technique	3
THTR:6170	Graduate Acting: Special Topics	3

Directing Electives

Students take 12 s.h. in electives from four theatre arts courses (prefix THTR) numbered 3000 or above. Additional courses from outside the department may be reviewed and approved by the student's advisor.

Dramaturgy Subprogram

The MFA in theatre arts with a subprogram in dramaturgy requires 67 s.h. of graduate credit. In addition to the common requirements, the dramaturgy subprogram requires the following coursework.

Dramaturgy Required Courses

Students must earn a grade of B-minus or above in THTR:5410 Dramaturgy. They must earn a grade of B-minus or above each time they take THTR:5420 Dramaturgy Practicum.

Course #	Title	Hours
All of these (39 s.h.):		
THTR:5410	Dramaturgy	3
THTR:5420	Dramaturgy Practicum (taken six times for 3 s.h. each)	18
THTR:7300	Playwrights Workshop (taken six times for 3 s.h. each)	18

Dramaturgy Electives

Students take 6 s.h. in elective coursework. Though they may select any theatre arts course (prefix THTR) numbered 3000 or above, students are strongly encouraged to select from the following list as these courses enhance the dramaturgy

subprogram with coursework in playwriting, writing for film or television, directing, and digital arts. Courses numbered 3000 or above from outside the department may be used with an advisor's approval.

Course #	Title	Hours
THTR:3320	Writing for Film	3
THTR:3325	Iowa Writers' Room	3
THTR:3615	Action! Engage! Art! Creative Placemaking for the Public Good	3
THTR:3875	Topics in Digital Performing Arts	3
THTR:4180	Directing I	3
THTR:4185	Directing: Special Topics	3
THTR:5880	Installations and Interactive Performance	3
THTR:5890	Producing and Directing Digital Video	3
THTR:6180	Director's Seminar	3
THTR:6310	Special Topics in Playwriting	3
TRNS:7460	Translation Workshop	3

Playwriting Subprogram

The MFA in theatre arts with a subprogram in playwriting requires 67 s.h. of graduate credit. In addition to the common requirements, the playwriting subprogram requires the following coursework.

Playwriting Required Courses

Course #	Title	Hours
All of these (45 s.h.):		
THTR:6300	Guest Seminar (taken three times for 3 s.h. each)	9
THTR:6310	Special Topics in Playwriting (taken six times for 3 s.h. each)	18
THTR:7300	Playwrights Workshop (taken six times for 3 s.h. each)	18

Playwriting Electives

Students take 9 s.h. in elective coursework. Though they may select any theatre arts course (prefix THTR) numbered 3000 or above, students are strongly encouraged to select from the following course list. Courses numbered 3000 or above from outside the department may be substituted with an advisor's approval.

Course #	Title	Hours
THTR:3320	Writing for Film	3
THTR:3325	Iowa Writers' Room	3
THTR:3615	Action! Engage! Art! Creative Placemaking for the Public Good	3
THTR:3875	Topics in Digital Performing Arts	3
THTR:4180	Directing I	3
THTR:4185	Directing: Special Topics	3
THTR:5410	Dramaturgy	3
THTR:5420	Dramaturgy Practicum	3
THTR:5880	Installations and Interactive Performance	3
THTR:5890	Producing and Directing Digital Video	3
THTR:6180	Director's Seminar	3
THTR:6310	Special Topics in Playwriting (may be repeated)	3
TRNS:7460	Translation Workshop	3

Stage Management Subprogram

The MFA in theatre arts with a subprogram in stage management requires 69 s.h. of graduate credit. In addition to the common requirements, the stage management subprogram requires the following coursework.

Stage Management Required Courses

Students must earn a grade of B-minus or above in THTR:3501 and THTR:5510. They must earn a grade of B-minus or above each time they take THTR:5500, THTR:6500, and THTR:6691.

Course #	Title	Hours
All of these (41 s.h.):		
THTR:3501	Stage Management I	3
THTR:3510	Introduction to Arts Management	3
or THTR:4510	Arts Leadership Seminar	
THTR:4180	Directing I	3
THTR:5500	Stage Management: Special Topics (taken three times for 3 s.h. each)	9
THTR:5510	Production Management	3
THTR:6500	Stage Management Seminar (taken six times for 2 s.h. each)	12
THTR:6691	Projects in Theatre Advanced (taken six times, four times for 1 s.h. each and two times for 2 s.h. each)	8

Stage Management Design Courses

Course #	Title	Hours
Two of these (6 s.h.):		
THTR:3208	Mask and Puppet Crafts	3
THTR:3210	Makeup Design for the Stage	3
THTR:3211	Period Styles	3
THTR:3215	Sewing Techniques for Theatre Costuming	3
THTR:3230	Scenic Design I	3
THTR:3235	Production Design for Film, Television, and New Media	3
THTR:3240	Costume Design I	3
THTR:3250	Lighting Design I	3
THTR:3260	Sound Design for the Theatre	3
THTR:3270	Entertainment Design	3
THTR:3510	Introduction to Arts Management	3
THTR:3615	Action! Engage! Art! Creative Placemaking for the Public Good	3
THTR:3630	Special Topics in Theatre Arts	3

THTR:3875	Topics in Digital Performing Arts	3
THTR:3876	Projection Design	3
THTR:3895	Performance, Art, and New Technologies in Society	3
THTR:4230	Scenic Design II	3
THTR:4240	Costume Design II	3
THTR:4250	Lighting Design II	3
THTR:4290	Design: Special Topics	3
THTR:4510	Arts Leadership Seminar	3
THTR:5230	Scenic Design III	3
THTR:5240	Costume Design III	3
THTR:5250	Lighting Design III	3
THTR:5880	Installations and Interactive Performance	3
THTR:5890	Producing and Directing Digital Video	3

Stage Management Electives

Students take three elective courses for a total of 9 s.h. They may select theatre arts courses (prefix THTR) numbered 3000 or above, or courses from the following list.

Course #	Title	Hours
DANC:3060	Western Concert Dance History: Romantic to Contemporary	3
EALL:7475	ePortfolio in College Teaching	3
MUS:6540	Survey of Operatic Literature	3
GRAD:6217	Seminar in College Teaching	3
GRAD:7385	Teaching and Learning in Higher Education	3
GRAD:7400	Practicum in College Teaching	3
MBA:8120	Management in Organizations	3
MGMT:3500	Nonprofit Organizational Effectiveness I	3
MGMT:4600	Nonprofit Ethics and Governance	3
MGMT:9230	Managing and Preventing Conflict	3
MGMT:9240	Inclusive Leadership	3

Admission

Students who demonstrate exceptional ability in acting, directing, dramaturgy, playwriting, design, or stage management may apply for admission to the program of study and production leading to the MFA degree. Admission is based on an interview, audition, and/or a portfolio of relevant work, the undergraduate record or other proof of artistic accomplishment, and letters of recommendation.

Submission of playscripts is the most important element in gaining admission to the Playwrights Workshop.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Career Advancement

The graduate program in theatre develops not only talent but discipline, self-confidence, and personal vision. Through their work in courses and productions, through teaching and production assistantships, and through the intensive, individual mentoring they receive from faculty, graduate students prepare themselves to contribute to the nation's culture. They can then enter the profession, joining hundreds of other University of Iowa graduates who have made their mark in theatre, film, TV, and the entertainment industry.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

c Take three times for 3 s.h. each.

d Students must earn a grade of B-minus or above each time they take THTR:6140, THTR:6150, and THTR:6160.

e Take five times for 3 s.h. each.

f Complete at least 9 s.h. for the requirement; see the General Catalog for list of approved courses.

g Usually completed at the end of the second year. Students need to complete a special assignment designed by each program and meet with their Graduate Committee for an evaluation of work to date. This evaluation will determine whether the student will continue their work into the third year and proceed to do a thesis.

h Consists of a written analysis of the actor's personal creative process and an annotated resume of roles performed at Iowa.

Hours	**11**
Total Hours	**70**

a Students must earn a grade of B-minus or above in all subprogram courses, with the exception of THTR:5200.
b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.
c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.
d Take THTR:5200 each semester of enrollment (six times total), for a minimum of 1 s.h. per semester and a minimum of 6 s.h. total. Students are permitted to enroll in the course for a maximum total of 12 s.h.
e Take THTR:6691 each semester of enrollment (six times total) for a maximum of 5 s.h. per semester and a minimum of 16 s.h. total.
f Take three courses (9 s.h.) from one of the following areas: 1) Scenic Design: THTR:3230, THTR:4230, THTR:5230; 2) Costume Design: THTR:3240, THTR:4240, THTR:5240; 3) Lighting Design: THTR:3250, THTR:4250, THTR:5250.
g Take two courses (6 s.h.) from scenic design, costume design, lighting design, sound design, or media design. See the General Catalog for list of approved courses.
h THTR:3211 and THTR:4270 are both typically offered only once every three years.
i Complete at least 9 s.h. for the requirement; see the General Catalog for list of approved courses.
j Usually completed at the end of the second year. Students need to complete a special assignment designed by each program and meet with their Graduate Committee for an evaluation of work to date. This evaluation will determine whether the student will continue their work into the third year and proceed to do a thesis.
k See the General Catalog for list of approved courses and work with faculty advisor to determine appropriate coursework and sequence.
l The thesis is the culmination of the body of production work created at the University of Iowa over a three year period. This work includes designs for the Mainstage, Gallery, and Iowa New Play Festival seasons. The thesis begins with a personal design philosophy and is supplemented with written analysis and supporting photographs for each production. The format of the document must comply with the guidelines as outlined by the program committee and the Thesis Manual of the Graduate College.

Professional degree: MBA

Professional certificates: artificial intelligence and technology management; business communication; business fundamentals; corporate finance; finance; financial decision-making; innovation; investment management; leadership; marketing; responsible resource management; risk management and insurance; strategy

Graduate degrees: MA; MAc; MS; PhD

Graduate certificates: artificial intelligence and machine learning; business analytics

Website: https://tippie.uiowa.edu/

The Tippie College of Business is composed of six academic departments: accounting, business analytics, economics, finance, management and entrepreneurship, and marketing.

The college's undergraduate and graduate programs are accredited by AACSB International—the Association to Advance Collegiate Schools of Business.

Research, executive development, and education activities are supported by these centers and institutes: America's Small Business Development Center, Emmett J. Vaughan Institute of Risk Management and Insurance, Experimental Economics Interdisciplinary Research Group, Frank Business Communication Center, Hawkinson Institute of Business Finance, Institute for International Business, Iowa Electronic Markets Institute, John Pappajohn Entrepreneurial Center, Marketing Institute, Pomerantz Career Center, RSM Institute of Accounting Education and Research, the Tippie Analytics Cooperative, the Tippie Leadership Collaborative, and Tippie Undergraduate Career Services.

Integrity and honesty are essential to success in all facets of life. The purpose of the undergraduate Tippie Honor Code and the MBA and Master's Honor Code is to promote honorable and ethical behavior. Students admitted to the college or enrolled in courses offered by the college are required to uphold the honor code.

Facilities and Resources

The Tippie College of Business is located in the John Pappajohn Business Building, at the heart of the campus. The Pappajohn Business Building contains seminar and conference rooms, a computer laboratory, two auditoriums, two computer classrooms, a behavioral laboratory, a restaurant (Pat's Diner), a café and study space called Biz Hub, the Marvin A. Pomerantz Business Library, and a variety of classroom facilities.

The computer laboratory in the John Pappajohn Business Building serves the instructional programs of the college, and the staff maintains a current library of computational programs to accommodate users' needs. Business students also have access to the full range of services offered by the university's Information Technology Services and the extensive research materials and other resources of the University of Iowa Libraries.

Alumni Relations

The Tippie College of Business alumni network boasts 59,000 graduates worldwide. The Alumni Engagement Office maintains relationships with alumni on behalf of the college and its programs and departments, including graduate-level degrees. The Alumni Engagement Office also hosts many annual events both in-person and virtually, which allow alumni nationwide and around the world to connect to the college and to each other.

By providing an up-to-date email address, alumni and friends receive electronic communications regarding Tippie College of Business events and virtual programs. Alumni who have updated their home mailing address with the college within the past two years receive copies of the biannual alumni publication, Tippie Magazine. Current undergraduate students can interview to become members of the Business Student Ambassadors Organization (BSAO). Those students often serve as hosts and guides for alumni who visit the college. The Tippie Young Alumni Board works to strengthen ties between the college and more recent graduates.

To learn more about alumni programs or to update contact information, please visit Alumni on the college website.

Programs

Undergraduate Programs of Study

The Tippie College of Business offers the Bachelor of Arts (BA), Bachelor of Business Administration (BBA), and Bachelor of Science (BS) with majors in accounting, business analytics and information systems, economics, entrepreneurship, finance, management, marketing, and risk management and insurance. View the Tippie College of Business departments in the catalog for information about the college's degrees and majors.

The college also offers combined undergraduate degrees with the College of Education, the College of Engineering, and the College of Liberal Arts and Sciences, as well as the 3+3 program with the College of Law. The John Pappajohn Entrepreneurial Center also collaborates with the College of Liberal Arts and Sciences to offer the Bachelor of Arts in enterprise leadership [p. 453], which is offered both on campus and online.

The college offers the undergraduate Certificate in Entrepreneurial Management [p. 1258] and the Certificate in Risk Management and Insurance [p. 1224]. It collaborates with the College of Engineering to offer the Certificate in Technological Entrepreneurship [p. 1681] and with the College of Liberal Arts and Sciences to offer the Certificate in International Business [p. 1230]. It also collaborates with the School of Journalism and Mass Communication in the College of Liberal Arts and Sciences to offer the Certificate in Nonprofit Leadership and Philanthropy, awarded by University College.

The college also offers a minor in business administration [p. 1156] and a minor in economics [p. 1204].

Graduate and Professional Programs of Study

The Tippie College of Business offers several graduate and professional degree programs: the Master of Accountancy (MAc), the Master of Business Administration (MBA), the Master of Science in business analytics, the Master of Science in finance, the Doctor of Philosophy in business administration, and the Doctor of Philosophy in economics. The MA in business administration is a terminal degree; students are admitted into the PhD in business administration degree program. For information about the MAc and the PhD in economics, see Master of Accountancy [p. 1149] and PhD in economics [p. 1206] in the catalog.

For information about the graduate Certificate in Business Analytics, graduate Certificate in Artificial Intelligence and Machine Learning, and MS in business analytics, administered jointly by the Department of Business Analytics and Graduate and Professional Programs, see Certificate in Business Analytics [p. 1177], Certificate in Artificial Intelligence and Machine Learning [p. 1176], MS in business analytics [p. 1169] (Artificial Intelligence and Machine Learning), MS in business analytics [p. 1169] (Artificial Intelligence and Technology Management), MS in business analytics [p. 1169] (Finance Analytics), and MS in business analytics (professional) [p. 1169] in the catalog.

To view more about the Master of Science in finance, administered jointly by the Department of Finance and Graduate and Professional Programs, see MS in finance [p. 1226] in the catalog.

For information on MBA programs and professional certificates, see Master of Business Administration Program [p. 1272] in the catalog.

For a description of the PhD in business administration, see PhD in business administration [p. 1179] in the catalog. The PhD is an interdepartmental degree; programs leading to the degree are offered by the departments of Accounting [p. 1140], Business Analytics [p. 1158], Finance [p. 1208], Management and Entrepreneurship [p. 1236], and Marketing [p. 1261].

CIMBA Italy

CIMBA Italy offers semester and summer study abroad programs for undergraduate and graduate students in Paderno del Grappa, an hour northwest of Venice. Students who attend the programs come from a variety of public and private universities worldwide.

At CIMBA, students immerse themselves in a wide range of rigorous courses, including innovative leadership and development programming, while living amidst the Venetian countryside in one of the most popular travel and study destinations in the world. Business and cultural immersions begin for students the minute they arrive on campus. All courses are taught in English by professors from top universities throughout the United States and Europe. CIMBA programs offer unparalleled amounts of travel time for students to explore Italy and beyond, as well as cultural exploration opportunities. For more information, see the CIMBA Italy website.

Centers and Institutes

America's Small Business Development Center

Since 1981, America's Small Business Development Center at the University of Iowa has played an important role in helping enterprising Iowans manage or start their own successful businesses. The center provides support for small business owners and entrepreneurs. Its personnel are trained to meet the varied needs of small business management, including marketing, financing, human resource planning, cash flow analysis, product commercialization, market research and analysis, strategic planning, international trade, and advertising. Services are free and confidential.

Emmett J. Vaughan Institute of Risk Management and Insurance

The Emmett J. Vaughan Institute of Risk Management and Insurance prepares students for risk management careers. The institute is part of the finance department and offers both a major and a Certificate in Risk Management and Insurance. The certificate program is open to undergraduate students pursuing any major. In addition to the coursework, the institute provides professional development, including networking events with industry speakers, scholarships, a mentorship program with young alumni, and a job fair.

There are great career opportunities in risk management and insurance. The industry accounts for 11% of Iowa's gross domestic product, Chicago is a regional insurance hub, and approximately 60 other risk management and insurance programs in the country meet less than 10% of the national demand for talent.

Graduates of the program begin their careers as corporate risk managers, risk management consultants, employee benefits managers, insurance brokers, underwriters, personal banking wealth managers, asset managers, financial analysts, claims adjusters, producers (sales), actuaries, and auditors.

In addition to its teaching mission, the Vaughan Institute provides innovative research and thought leadership on contemporary risk management practice and insurance markets. In 2016, the Vaughan Institute was labeled a Global Center of Insurance Excellence; only 12 universities and colleges in the United States have been awarded this honor.

Experimental Economics Interdisciplinary Research Group

The Experimental Economics Interdisciplinary Research Group (EEIR) provides researchers with an umbrella protocol along with a common subject pool for human participants, with many opportunities for students to become involved. The research is tied together by a common experimental research method using real money payments to incentivize behavior in economic situations.

Frank Business Communication Center

The Frank Business Communication Center is the hub for all Tippie College of Business communication initiatives. The center provides individual and team tutoring for written, oral, and visual communication assignments for all Tippie class assignments, as well as for résumés, cover letters, and interview preparation. It develops, directs, and delivers all undergraduate and specialty master's communication courses in the college. At the graduate level, the center supports MBA communication curriculum development and engages with PhD students through extensive wrap-around summer programming in writing instruction and job talk/presentation preparation.

The Frank Center partners with Tippie academic departments to establish departmental communication plans and initiatives that develop discipline-specific communication skills. It also oversees the Department of Accounting's writing and communications program, which integrates communication assignments across the required accounting curriculum courses. The Frank Center facilitates communication skill development in over 60 Tippie classes at the undergraduate, master's, and doctoral levels.

The center delivers Tippie's core undergraduate communications class, BUS:3000 Business Communication and Professionalism, as well as advanced communication courses at the master's level. These classes focus on tie-breaking communication skills that are critical for professional success in any field. Tippie's communication classes also include storytelling elements and opportunities to use AI to communicate in the workplace.

The Frank Center helps undergraduate students prepare for nationwide competitions, such as the annual National Diversity Case Competition and the Eller Ethics in Business Case Competition. The center's staff facilitates the annual Mary Thomas Prappas Business Ethics Essay Competition and the Norman J. Kallaus Business Communication Scholarship Competition.

Hawkinson Institute of Business Finance

The Hawkinson Institute of Business Finance facilitates career opportunities in investment banking, private equity, and related fields for students in the Tippie College of Business. The institute prepares high-achieving undergraduates for interviews, internships, and full-time jobs in the industry. Criteria for admission to the institute include a strong academic record, involvement in campus and community activities, high motivation, strong interpersonal skills, and demonstrated interest in business and financial markets.

Hawkinson Scholars participate in a course taught by former investment bankers that features guest speakers from leading banks, private equity firms, and related sectors. Hawkinson Scholars also receive intensive education in equity valuation, financial market dynamics, soft skills, and more. An extensive network of dedicated Hawkinson alumni serve as mentors.

The institute has worked to broaden entry-level employment opportunities for Iowa graduates, who land jobs at prestigious firms such as Goldman Sachs, Barclays, Bank of America, Evercore, and JP Morgan. Graduating Hawkinson Scholars enjoy a 100% placement rate.

Institute for International Business

The Institute for International Business (IIB) is the international education and engagement arm of the University of Iowa Tippie College of Business. While promoting entrepreneurship as a tool to empower people in developing countries and frontier markets, the IIB develops and delivers international business programs that provide students, faculty, and staff with opportunities to connect with the world. The IIB is committed to educating students and marginalized communities about entrepreneurship, encouraging innovation, fostering a global mindset, and growing start-ups. The IIB team has leveraged its years of combined experience in cross-cultural networking, economic development, and international development to develop new initiatives. The Institute for International Business has made a name for itself at home and abroad with programs such as the African Innovators Internship program for UI students, graduate-level Global Learning Opportunities, Mandela Washington Fellowship, Venture School International, and the Hawkeyes in Haiti program.

The IIB connects locally while engaging globally through international business research, entrepreneurship, and consulting resources. The key attributes that set IIB apart are:

- unique opportunities for Tippie students at all levels to gain real-world and impactful international experience;
- connection to resources in and outside of the University of Iowa;
- growing network in Sub-Saharan Africa and other developing and emerging markets;
- an industry-experienced advisory board that develops mentor relationships with students and provides unique coaching opportunities;
- sustained relationships with entrepreneurs in developing and emerging markets that provide solid business consulting experience to students; and
- experience in building programs and highlighting faculty expertise for international markets.

Iowa Electronic Markets Institute

The Iowa Electronic Markets Institute supports scholarship in prediction markets and experimental economics. It operates the Iowa Electronic Markets (IEM), a small-scale, real-money online futures market where contract payoffs are based on real-world events such as political outcomes, the U.S. federal funds rate, companies earnings per share, and stock price returns. Known internationally as the genesis of modern prediction markets, the Iowa Electronic Markets are used as tools for research and teaching.

Jacobson Institute for Youth Entrepreneurship

The Jacobson Institute for Youth Entrepreneurship is a nationally recognized program built around teacher education, innovative curricula, and outreach that enriches K–12 students' lives. As the K–12 outreach arm of the John Pappajohn Entrepreneurial Center, the Jacobson Institute supports the university's broader economic development efforts by providing educators with professional development and curriculum resources, equipping them to teach the "entrepreneurial mindset"—that is, to encourage creativity,

innovation, critical thinking, and problem-solving—and to prepare students for success in their chosen career path.

John Pappajohn Entrepreneurial Center

The John Pappajohn Entrepreneurial Center (Iowa JPEC) serves as the hub for entrepreneurship education and outreach at the University of Iowa. Iowa JPEC prepares entrepreneurial-minded leaders and innovators through interdisciplinary academic programs that integrate applied classroom learning, community and international engagement, and extensive cocurricular experiences. It also supports students, faculty, and community members seeking to launch a business by providing training, mentoring, technical assistance, capital, and physical space to help them move from idea to enterprise.

The Bachelor of Business Administration with a major in entrepreneurship is specifically designed to prepare students to apply entrepreneurship and innovation approaches and strategies to successfully lead teams and accelerate career success. Students have multiple opportunities to work on real-world challenges facing Iowa-based companies, learn from business leaders and entrepreneurial faculty who have built successful companies, and be introduced to alumni and executives to help develop a strong professional network.

Students working toward any bachelor's degree at the University of Iowa may earn the Certificate in Entrepreneurial Management [p. 1258]. The major and certificate programs are offered on campus at the Tippie College of Business. The certificate is also offered online through Distance and Online Education [p. 2194]. Students may earn the Certificate in Entrepreneurial Management in addition to their undergraduate degree unless they are currently pursuing the BBA in entrepreneurship or the BA in enterprise leadership.

Graduate and professional students may earn a Certificate in Innovation in addition to their graduate degrees or enroll in advanced entrepreneurship courses; see the Certificate in Innovation [p. 1284] or the Master of Business Administration Program [p. 1272] in the catalog.

Students in the College of Liberal Arts and Sciences may earn a Bachelor of Arts degree with a major in enterprise leadership [p. 453]. Students develop a solid foundation in entrepreneurial management as well as leadership and communication skills that prepare them for a variety of professional career opportunities or position them to start their own businesses. Students are able to apply their innovative problem-solving and critical thinking skills to contemporary issues, develop strategies to seize upon opportunities, and build and lead successful teams. The major presents a unique blend of skills, theory, and content, encouraging students to apply their knowledge and skills to entrepreneurial concepts and ventures. Offering a combination of business and liberal arts approaches, the major allows students to enhance their skills in communication, leadership, innovation, and critical thinking. The major in enterprise leadership is offered jointly by the John Pappajohn Entrepreneurial Center and the College of Liberal Arts and Sciences; the degree is awarded by the College of Liberal Arts and Sciences. The degree is offered on campus and online.

Iowa JPEC and the Department of Management and Entrepreneurship offer the Entrepreneurial Leadership Academy (ELA) for select undergraduate students earning the BBA in management, the BA in enterprise leadership, or one of the entrepreneurship certificates. The ELA is a two-course program designed to help students develop advanced leadership and project management skills and then apply them to a strategic entrepreneurial management consulting project. Students work closely with alumni and business experts to build their professional network and receive assistance in pursuing high-quality professional career opportunities.

The center offers the Technology Innovation Academy for select undergraduate students earning the BA in enterprise leadership or one of the entrepreneurship certificates. The Technology Innovation Academy is a two-course advanced entrepreneurial practicum designed to teach students the latest tools in innovation, design thinking, entrepreneurship, and business modeling. Students experience what entrepreneurs and corporate innovators go through when advancing ideas in the business world. Students also work closely with alumni and entrepreneurial leaders to build their professional network and position themselves for success.

College of Engineering students may earn the Certificate in Technological Entrepreneurship [p. 1681] in addition to their undergraduate degree. The certificate allows students to develop a competitive advantage in the professional workplace by developing their business strategy, entrepreneurship, innovation, and leadership skills. Students also learn how to commercialize their innovations—critical for working in industry as well as for pursuing entrepreneurial ventures. Students learn from a select group of faculty who have built and led successful ventures. The program combines engineering technology, entrepreneurship, and business education to position students for success in today’s competitive work environment.

Iowa JPEC also offers students additional opportunities to develop their professional skills and network with entrepreneurial leaders and industry experts through business consulting projects and internships, sponsorship of applied workshops and seminars, coordination of company visits, support of student participation at regional and national conferences, and fostering global awareness through international trips and consulting. It also sponsors several entrepreneurial student organizations designed to support students’ professional and career development.

For students who may want to pursue the creation of a new business and/or develop a new product or software application while at the University of Iowa, Iowa JPEC is dedicated to training and supporting student entrepreneurs. Welcoming both individual students and teams, the Startup Incubator program is located in the Bedell Entrepreneurship Learning Laboratory (BELL), providing a physical home for student businesses on campus. Participants have access to a variety of resources including collaborative workspace and equipment, one-on-one mentoring from experienced professionals, workshops, training, networking, and funding opportunities.

The Hawkeye Summer Accelerator program is designed to help student teams conduct a detailed assessment of their entrepreneurial opportunity and develop a plan to successfully launch a new venture. Students receive advanced training and mentoring as well as financial support to focus on their start-up during this advanced summer program.

Iowa JPEC also hosts several events for students to experience entrepreneurship without a significant time commitment. Iowa Startup Games is a weekend event where student teams come together to identify a new venture opportunity and complete a business model in one weekend. IdeaStorm is a

quick pitch competition for students to pitch ideas to receive cash prizes and coaching on how to move their concepts forward. Game Changer is another short program that focuses on social entrepreneurship opportunities. All of these are open to students from across the campus regardless if they are pursuing formal education in entrepreneurship.

Iowa JPEC also hosts the Iowa Innovation Challenge, a campus-wide innovation funding competition to provide capital for university-affiliated start-ups and early-stage ventures. In addition, Iowa JPEC leads the Iowa Venture Mentoring Service, a program to connect entrepreneurial start-ups with leading mentors to help provide strategic input and assist in growth planning for the companies. Iowa JPEC has an impressive menu of programs and services available for students, faculty, and community members seeking to start and grow entrepreneurial ventures.

Iowa JPEC offers programs and services to community members to enhance the region and state's entrepreneurial ecosystem. Venture School is an innovative training program focused on real-world experimentation, customer discovery, and Lean LaunchPad methodologies. Iowa JPEC also offers student consulting services led by faculty members through business consulting courses and the Institute for International Business, as well as business advising and mentoring through the Iowa Small Business Development Center, numerous workshops, and networking events. Iowa JPEC partners with entrepreneurial service organizations, economic development organizations, and private sector businesses to advance entrepreneurship and economic development across Iowa. The Jacobson Institute is committed to infusing the entrepreneurial mindset with 21st-century skills in K–12 students through teacher professional development and innovative curricula.

Marketing Institute

The Marketing Institute prepares students for today's diverse and competitive job market in many areas of marketing, including marketing strategy, market research, marketing analytics, advertising, and sales.

The Marketing Institute is a three-semester marketing elective program in which students earn 6 s.h. of elective credit. Students can focus their marketing major by combining the Marketing Institute courses (MKTG:3700 Marketing Institute Seminar I, MKTG:3701 Marketing Institute Field Studies, and MKTG:3702 Marketing Institute Seminar II) with the two suggested foundational courses in a concentration of their choosing. Students also fulfill both the research and experiential course components of Tippie RISE by successfully completing the program.

Entry to the Marketing Institute requires undergraduate students to apply in the fall, and 20 students are admitted. Admission criteria include academic performance, leadership, interpersonal skills, and executive potential. Field immersion projects are a major component of the program. Field projects include student consultant work for a variety of clients, including start-ups, multimillion- or billion-dollar businesses, or nonprofits. Students gain hands-on experience in identifying and solving marketing-related issues and providing recommendations to their assigned clients. In addition, students are mentored by an advisory board of top executives from companies that include ASM Global, Chicago Blackhawks, Dot Dash Meredith Corporation, Google, HON, Hormel, John Deere, McGraw Hill, Mayo Clinic, Medtronic, Newell Brands, Reckitt Benckiser, SC Johnson, Principal Financial Group, and United Health One. The Marketing Institute and its advisory board work together to foster networking opportunities and provide career guidance that helps students use their skills and talents to develop rewarding careers.

Pomerantz Career Center

Career development and campus recruiting services are provided by the Marvin A. and Rose Lee Pomerantz Career Center. Professional career coaches and online resources provide university undergraduate students with assistance on résumés, cover letters, internship and job searches, employer research, interviewing skills, negotiation of job offers, graduate school personal statements, as well as drop-in sessions with trained student career peer advisors. The center helps students choose a major and identify careers related to industry interests through online assessment tools and customized advising. Career coaches specialize in specific career interest communities to assist students. The center also presents multiple fall and spring semester career fairs and networking events. Campus recruitment is facilitated through Handshake, where students can search and apply for full-time employment, internships, and student employment positions. Students may participate in mock interviews and on-campus interviews for full-time positions and internships during the academic year. Additionally, the center offers career-related and professional development courses such as LS:2002 Career Leadership Academy Part 1: Leadership in Practice, LS:3002 Career Leadership Academy Part 2: Leadership in Action, CCP:1300 Major and Career Explorations, and CCP:1303 Successful Teamwork for the Workplace. For more information, contact the Pomerantz Career Center.

RSM Institute of Accounting Education and Research

The RSM Institute of Accounting Education and Research fosters educational excellence in accounting at the University of Iowa, promotes high-quality research by Iowa accounting faculty members, and facilitates the development of doctoral students in accounting. The institute sponsors an annual national speaker series, an educational initiative that allows accounting students to expand their perspectives of accounting by bringing in external thought leaders and experts in different fields of accounting. The director of the institute also coordinates various research activities, including the ongoing PwC Accounting Research Workshops, the biennial Sidney Winter Lecture Series, and the accounting department's Sullivan Scholar in Residence series.

Tippie Analytics Cooperative

The Tippie Analytics Cooperative works with national and international brands to creatively solve some of the most challenging problems facing business today. Their clients come from nearly every industry vertical and represent organizations of all sizes.

Tippie Leadership Collaborative

The Tippie Leadership Collaborative is a nationally recognized resource hub for organizations seeking management expertise and an affordable, flexible learning and development partner. Housed in Tippie's Department of Management and Entrepreneurship, they have some of the world's most sought-after experts in the areas of leadership, change management, team development, employee engagement, diversity and inclusion, and talent management. These experts share that knowledge through speaking engagements and custom executive education programs. Revenues from

these programs are reinvested to create and deliver content-rich resources such as the Tippie Leads podcast, and high-impact learning experiences for students, such as Story Lab.

Tippie Undergraduate Career Services

Tippie Undergraduate Career Services provides Tippie College of Business students with personalized career support, job leads, and other useful career information. The office supplements the existing career support provided by the Pomerantz Career Center by offering helpful, timely information and a personalized space where Tippie undergraduates can find answers to their career questions.

Through targeted job opportunity research and outreach, Tippie Undergraduate Career Services distributes up-to-the-minute information that is personalized to the student's major and the number of semesters completed. Students access this information on the Undergraduate Career Services website, on LinkedIn, in a biweekly lead sheet email and circular, and live on interactive monitors outside the Tippie Undergraduate Career Services office. Outreach efforts are designed to fit in with students' busy schedules and provide them with accessible, relevant career leads and professional development opportunities.

Tippie Undergraduate Career Services also aids students in their job and internship searches by tracking their first destinations after graduation in real time and giving personalized attention to students who are still seeking their first job or internship. This initiative aims to improve overall student outcomes across the board at Tippie, as well as drive higher traffic to placement surveys for reporting to rankings institutions.

In addition to these services, Tippie students enrolled in or taking Professional Preparation (ProPrep) courses can schedule 1:1 career meetings through MyUI, providing individualized guidance to help them achieve their career goals. With on-staff specialists in career preparation and research, student-centered outreach, and data science, the Tippie Undergraduate Career Services office is the central hub for career information for Tippie undergraduates.

Courses

Most Tippie College of Business courses are offered by the college's departments and programs. They are listed and described in the corresponding catalog sections.

The college also offers the following nondepartmental courses for undergraduate students.

Tippie College of Business Courses

BUS:1000 Study Abroad for BBA International Students 0 s.h.
Reflection on study abroad experience in the United States. Requirements: current BBA enrollment and at least one semester of BBA coursework.

BUS:1200 Tippie College Direct Admit Seminar 1 s.h.
Facilitates an introduction to the undergraduate student experience in the Tippie College of Business; discussions of transition issues, academic skill acquisition, and professional goal setting. Requirements: admitted to the direct admission program.

BUS:1250 Global Business Seminar 1 s.h.
Facilitates an introduction to global business opportunities in the Tippie College of Business; discussions of international business, study abroad, and cultural exploration.

BUS:1300 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities and local businesses).

BUS:1400 Pre-Business First-Year Seminar 1 s.h.
Connection to Tippie College of Business resources; support for student's pathway to admission to the Tippie College of Business; transition to college life, academic skill acquisition, and professional goal setting; for pre-business students. Requirements: pre-business standing.

BUS:1999 Introduction to Research in Business 1 s.h.
Introduction to research in business including scope and methods of business research, questions for which business research seeks answers, and impact of business research on society; weekly seminars include discussion and exploration and serve as preparation for engaging in mentored research.

BUS:2013 Introduction to Sustainability 3 s.h.
Introduction to sustainability knowledge, skills, and habits as a means to shape one's vision of a sustainable citizen; emphasis on basic skills of literacy, applied math, and finding information; traditional sustainability knowledge areas related to society, economy, and environment; intersecting themes (e.g., informed consumerism, eco-economics, and livable environments). GE: Sustainability. GE: Social Sciences; Sustainability. Same as SEES:2013, URP:2013.

BUS:2200 Discover Business at Tippie 1 s.h.
Learn and apply foundational skills for navigating the business student experience including academic advising and major exploration, student involvement and leadership opportunities, and professionalism and career skills including internship and early career exploration.

BUS:2300 Searching for Business Information 1 s.h.
Search concepts and sources specific to business information; subscription and government online research sites.

BUS:2360 Introduction to Global Business: Northern Italy 3 s.h.
Virtual exploration of the business and culture of Italy; instructor based in Italy; examination of business, social, financial, and political happenings in Italy and the European Union; hands-on cultural events using virtual reality headsets for city visits, live tours with interactive guides, hands-on cooking class, language lesson, and more; features industry speakers and opportunity to network with Italian students. Prerequisites: ECON:1100. Requirements: admission to global business Northern Italy study abroad program.

BUS:2370 Introduction to Global Business 3 s.h.
Provide students with a thorough understanding and firsthand look at globalization through the lenses of business and leadership; introduce the business and leadership challenges that organizations face when working globally; learn how other nations and regions present the world with exciting opportunities for business, educational, and cultural sectors; and learn how to meaningfully impact the global economy and geopolitics in the foreseeable future. Prerequisites: ECON:1100. Requirements: admission to the introduction to global business study abroad program.

BUS:2550 International Business in Asia Pacific 3 s.h.
International business in the Asia Pacific region and related management issues confronting small-medium enterprises and multinational enterprises in that region; topics include rise of the Association of Southeast Asian Nations (ASEAN), challenges and opportunities for trade growth and collaboration, and practical guidance on how to develop and sustain a competitive advantage in a fast growing and dynamic environment; offered by the international business in Sydney, Australia study abroad program through Tippie College of Business. Prerequisites: MGMT:2100. Requirements: admission to international business in Sydney, Australia study abroad program.

BUS:2900 Business Case Competitions Alternate Preparation arr.
Alternates prepare skills in research, reasoning, case and team development, and competition performance in national business case competitions; practice problem-solving techniques and presentation skills for team competitions; strategize for competition presentations in areas of content structuring, visual design of PowerPoint slides, and vocal and physical delivery; deal with a real-world problem in real time, speak clearly, use gestures appropriately, and engage the audience during the presentation and in question-and-answer sessions. Corequisites: BUS:3000, if not taken as a prerequisite.

BUS:3000 Business Communication and Professionalism 3 s.h.
Foundation in business communication and protocol; composing business messages, organizing and reporting workplace data, developing business presentation and team-building skills, exploring issues pertaining to professional behavior. Prerequisites: RHET:1030 or (RHET:1040 and RHET:1060). Requirements: admission to Tippie College of Business and 30 s.h. earned.

BUS:3050 Business, Culture, and Society 3 s.h.
International business environment and interpersonal traits and skills expected of successful international businessperson; interdisciplinary overview of issues related to business in Western Europe; important cultural differences, the code of business and professional etiquette, business protocol, Italian business history, cultural appreciation, and executive legal/ethical concerns in the workplace; series of lectures, workshops, speakers, plant tours, and cultural events.

BUS:3100 Academic Internship or Cooperative Education 0 s.h.
Participation in an internship or cooperative education; fulfills Tippie College of Business experiential learning requirement.

BUS:3200 Advanced Business Presentation Workshop: Strategy and Implementation 3 s.h.
Advanced oral business presentation skills for solo, paired, and team presentations; suitable for students considering participating in case competitions; emphasis on articulating a particular strategy for an oral presentation and three areas of implementation—content structuring, visual design of PowerPoint slides, and vocal and physical delivery; how to integrate presentation technologies effectively, evaluate other speakers, speak clearly, use gestures appropriately, and engage the audience during the presentation and in question-and-answer sessions. Prerequisites: BUS:3000 with a minimum grade of B.

BUS:3500 Tippie Senate 1 s.h.
For elected student representatives on the Tippie Senate.

BUS:3600 Mentored Research arr.
Business research conducted by undergraduate students under faculty supervision.

BUS:3800 Business Writing 3 s.h.
Series of practical projects; development of effective and persuasive business communication and analytical skills in public relations context.

BUS:3900 Business Communication Internship I 3 s.h.
Opportunity for students to earn academic credit for serving as a peer tutor, an orientation and training assistant, or an administrative intern in the Judith R. Frank Business Communications Center.

BUS:3910 Business Communication Internship II 1-3 s.h.
Continuation of BUS:3900; opportunity for students to earn academic credit for serving as a peer tutor, an orientation and training assistant, or an administrative intern in the Judith R. Frank Business Communications Center. Prerequisites: BUS:3900.

BUS:3920 Business Case Competitions Professional Preparation arr.
Case competitions offer a chance to hone skills in specific topics while practicing teamwork and communication skills; most competitions include industry sponsors and thus offer a chance to improve professional skills and can open full-time or internship employment opportunities; designed to help students flourish at these competitions. Prerequisites: BUS:3000. Requirements: . Recommendations: completion or concurrent enrollment in BUS:3200.

BUS:4001 Senior Seminar: Life After Tippie 1 s.h.
Reflection on one's personal college experience and how to apply the knowledge and skills developed towards future careers in business. Essential skills for transitioning from college life to a professional career. Requirements: admission to Tippie College of Business and completion of 90 s.h.

BUS:4900 Academic Internship arr.
Professional internship experience with associated academic content (e.g., paper, coursework).

BUS:4999 Honors Thesis in Business arr.
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University of Iowa Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: BUS:1999.

Undergraduate Programs

Degrees and Majors

The Tippie College of Business offers Bachelor of Arts (BA), Bachelor of Business Administration (BBA), and Bachelor of Science (BS) degrees with majors in accounting (BBA), business analytics and information systems (BBA), economics (BA, BBA, BS), entrepreneurship (BBA), finance (BBA), management (BBA), marketing (BBA), and risk management and insurance (BBA).

This catalog section provides information about requirements that all Tippie students must fulfill, regardless of their degree program, as well as admission information and academic rules and procedures. For information about the individual majors, see the departments of Accounting [p. 1140], Business Analytics [p. 1158], Economics [p. 1185], Finance [p. 1208], Management and Entrepreneurship [p. 1236], and Marketing [p. 1261] in the catalog.

Students may earn multiple degrees and majors in Tippie; they may also combine a Tippie degree with a degree in the colleges of Education, Engineering, or Liberal Arts and Sciences. Many Tippie students earn one or more minors and certificates offered in disciplines across the university; see the following sections, "Minors" and "Certificates."

The Tippie College of Business's undergraduate and graduate programs are accredited by AACSB International, the Association to Advance Collegiate Schools of Business.

Minors

The Tippie College of Business offers a minor in business administration [p. 1156] and a minor in economics [p. 1204].

Tippie students may earn minors in a number of disciplines outside of the Tippie College of Business. For example, students interested in international business might choose to earn a minor in a second language. For a list of minors and links to the departments and programs that offer them, see Find Your Program on the General Catalog website and select undergraduate minors.

Students may declare a minor on MyUI. To have the minor recorded on their transcripts, students must complete the minor section on their application for degree which they submit through MyUI in the session they intend to graduate.

Certificates

Tippie students may earn certificates offered by the Tippie College of Business as well as by other colleges at the University of Iowa. The Tippie College of Business offers the Certificate in Entrepreneurial Management [p. 1258], the Certificate in Risk Management and Insurance [p. 1224] and the Certificate in International Business [p. 1229].

The colleges of Liberal Arts and Sciences and Public Health, and University College offer a wide range of certificates open to all undergraduates. Many pair exceptionally well with a Tippie major. See Find Your Program on the General Catalog website and select undergraduate certificates for a complete list of certificates and links to their catalog sections.

Undergraduate Advising

All students enrolled in the Tippie College of Business are advised at the business college's Undergraduate Program Office. Pre-business students are enrolled in the College of Liberal Arts and Sciences and are advised at the university's Academic Advising Center. Drop-in hours and scheduled appointments are available at both offices. For more information on advising, contact the college's Undergraduate Program Office or the university's Academic Advising Center.

Honor Code

Integrity and honesty are essential to success in all facets of life. The purpose of the Tippie Honor Code is to promote honorable and ethical behavior. Students admitted to the college or enrolled in courses offered by the college are required to uphold the honor code

- Minor in Economics [p. 1204]

Certificates

- Certificate in Entrepreneurial Management [p. 1258]
- Certificate in International Business [p. 1230]
- Certificate in Risk Management and Insurance [p. 1224]

Academic Rules and Procedures

Academic Recognition

Dean's List

Undergraduate students in the Tippie College of Business who achieve a grade-point average (GPA) of 3.50 or higher on 12 s.h. or more of University of Iowa graded coursework during a given semester or summer session and who have no semester hours of I (incomplete) or O (no grade reported) during the same semester are recognized by inclusion on the Dean's List for that semester.

President's List

Undergraduate students in the Tippie College of Business who achieve a GPA of 4.00 on 12 s.h. or more of University of Iowa graded coursework and who have no semester hours of I (incomplete) or O (no grade reported) for two consecutive semesters (excluding summer sessions) are recognized by inclusion on the President's List.

Graduation With Distinction

Graduation with distinction recognizes high academic achievement based on grades. See Grading [p. 17] in the "Academics at Iowa" section of the catalog.

Graduation With Honors in the Major

Graduation with honors in the major recognizes high scholastic achievement based on grades and on completion of a research project that enables students to gain expertise in a topic related to their field of study. The requirements to graduate with honors in the major at the Tippie College of Business are the following:

- GPA of at least 3.50 in cumulative, University of Iowa, business, and University of Iowa business coursework at the time of graduation;
- completion of BUS:1999 Introduction to Research in Business;
- two-semester research project with a Tippie College of Business faculty member that results in a written thesis; and
- a poster presentation of research at the Undergraduate Research Festival.

To learn more, see Tippie Honors on the Tippie College of Business website.

Credit and Grading

Credit by Examination

Students may earn up to 30 s.h. of credit by examination by taking selected tests from the College-Level Examination Program (CLEP) and the Advanced Placement (AP) program of the College Board or the International Baccalaureate Program (IB). The University of Iowa is a testing center for CLEP tests. For information about when and how to take CLEP tests, see Testing Services on the Admissions website. The Tippie College of Business Undergraduate Program Office has information on scores, credit, and course duplicates for all CLEP, Advanced Placement, and IB tests accepted by the college.

Maximum Schedule

Students may register for a maximum of 18 s.h. in the fall and spring semesters, a maximum of 12 s.h. in the summer session, and a maximum of 3 s.h. in the winter session. Course schedules of more than 18 s.h. for a fall or spring semester, more than 12 s.h. for the summer session, or more than 3 s.h. for the winter session require approval from the Undergraduate Program Office. Approval is based on a review of past academic performance. Permission for more than 12 s.h. in the summer session is granted only in extraordinary circumstances and permission for more than 3 s.h. in the winter session is never granted.

Adding and Dropping Courses

Students may add or drop courses, except College of Law courses, any time before the deadline published in the university's academic deadline calendar. Deadlines are different for regular and off-cycle courses. See the Academic Calendar and Course Deadlines for course-specific deadlines at the University of Iowa on the Office of the Registrar website. Students must obtain approval from the college that offers the course in order to add or drop a course after these deadlines.

To request a late add of a Tippie College of Business course, students must obtain both the authorization of the instructor and the authorization of the Undergraduate Program Office.

To request a late drop of a Tippie College of Business course before the term is over, or a retroactive drop of any University of Iowa course after a term is over, students should meet with an advisor in the Undergraduate Program Office to discuss the petition process to drop the course after the deadline. To request permission, students must submit a written petition. The petition is granted only with documentation of extenuating circumstances beyond the student's control.

Prerequisites and Restrictions

Undergraduate students must complete a course's prerequisites. When a student registers, the MyUI course registration system reads a student's record, and if there is no evidence that a prerequisite has been completed or is in progress, enrollment for the course is blocked. See the Tippie College of Business Prerequisites webpage for more information about prerequisite policies and procedures.

Departments also restrict some of their courses based on students’ programs of study or other criteria. Students who find that a course from another major can fulfill a requirement for their declared major may still find that the course is subject to prerequisites or restricted to students who have declared the major within the offering department. Tippie students should speak with their advisor about the availability of restricted courses and students outside Tippie can request access to restricted undergraduate courses, but that access is not guaranteed.

Administrative Drops for Nonattendance

Instructors have the option to drop a student who has missed the first two class periods of a course unless the student has offered an acceptable reason for beginning the course late. Administrative drops must be processed by the first eight calendar days of the semester or the first two calendar days of the winter session, each summer session, or the start of an off-cycle course. Administrative drops are made without the assignment of a W (withdrawn). Students who are dropped from a course are notified. Students should not assume that they have been dropped from a course because they have not attended.

Auditing Courses

Students may register to audit a course with the approval of the course instructor. Students must obtain the required authorizations and register for 0 s.h. of credit in the course to be audited. The mark of AUS (audit successful) is assigned if a student's attendance and performance are satisfactory; if they are unsatisfactory, the mark of AUU (audit unsuccessful) is assigned. Courses completed with a mark of AUS do not meet any college requirement and carry no credit toward graduation. Auditing may not be used as a second-grade-only option. Tuition and fees will still be assessed for audited courses.

Pass/Nonpass

Up to 15 s.h. of coursework required for the degree may be taken pass/nonpass with the consent of an advisor and the instructor. Students must be in good academic standing to be eligible for the pass/nonpass option. A maximum of two pass/nonpass courses may be taken in one semester or session.

Courses taken pass/nonpass may not be used to satisfy general education, prerequisite, core, or major business requirements; major business requirements include any course that fulfills a business major course requirement or is offered by a business major department, regardless of the business major of the student seeking to take the course pass/nonpass.

Pass/nonpass registration must be completed by the last day to add a course without the dean's permission. For full-length courses during the fall or spring semesters, that is the first ten days of the semester. For summer or off-cycle courses, see the Office of the Registrar's Course Deadline webpage for the last day to add a course without dean's permission.

For courses taken pass/nonpass, an earned grade of D-minus or higher is recorded as a P; an earned grade of F is recorded as an N. Pass/nonpass credit is not included in GPA calculations.

Satisfactory/Fail and Satisfactory/Unsatisfactory

Certain courses are offered satisfactory/fail (S/F) or satisfactory/unsatisfactory (S/U). All students registered for these courses receive one of these marks.

Special forms are not necessary to register for S/F or S/U courses, since all students enrolled in such courses automatically receive an S, an F, or a U.

Semester hours of S or U graded coursework are not used in computing GPAs, but hours of F graded coursework are used.

Semester hours of S graded coursework are counted as semester hours earned toward graduation; semester hours of F or U graded coursework do not count as semester hours earned toward graduation.

A maximum of 15 s.h. of S credit from the University of Iowa is accepted toward a bachelor's degree.

Second-Grade-Only Option

Students admitted to the Tippie College of Business may use a Second-Grade-Only (SGO) option to retake a course and have only the second grade used in GPA calculations and counted as hours earned.

Policies

- Students may apply the SGO option to a maximum of three different courses while they are enrolled at the University of Iowa; any SGO options used before entry to the Tippie College of Business count toward the maximum of three allowed.
- Students in combined degree programs are allowed a combined maximum of three SGO options.
- The SGO option may be used only once per course. Once placed on the record, the option may not be retracted.
- A course taken at another college or university may not be repeated at the University of Iowa under the SGO option.
- A University of Iowa course may not be repeated at another institution under the UI SGO option.
- If the course was taken for a grade the first time, it must be taken for a grade the second time.
- If the course was taken pass/nonpass the first time, a student may choose to take the course for a grade or as pass/nonpass the second time.
- Any University of Iowa course taken in any mode of delivery—during a regular semester, a summer session, an intensive session, or through distance learning and Distance and Online Education [p. 2194]—may be repeated in the same mode of delivery or in any other mode of delivery.
- Students who have been awarded a degree from the University of Iowa may not use the SGO option on a course taken before the degree was awarded.
- Graduate or professional colleges may recalculate GPAs using all grades visible on the permanent record.

Procedures

- Students must register as usual for the course that is to be repeated.
- After the session in which the course is being repeated has begun, students must request the SGO option by completing the Request a Second-Grade-Only Option form.
- The permanent record is adjusted by placing a pound symbol (#) next to the first grade to indicate that it is no longer being included in the GPA calculation, and only the semester hours from the second registration have been counted as semester hours earned.

Incomplete Grades

Instructors may report a mark of I (incomplete) only if the unfinished part of a student's work in a course other than research, thesis, or independent study is small; if the work is unfinished for reasons acceptable to the instructor; and if a student's standing in the course is satisfactory.

Students should not re-enroll in a course for which they have an incomplete. Incomplete grades must be removed by completing the unfinished part of the work. Faculty and students are encouraged to state clearly in a written agreement how the incomplete is to be completed. Both the faculty member and the student should keep a record of the written agreement.

Failure to remove the incomplete before the end of the next full semester, excluding summer and winter sessions, results in the replacement of the I with a grade of F, regardless of whether a student is enrolled during that semester. A grade change may be submitted to convert a grade of F to another letter grade, with the instructor's approval.

Probation and Dismissal

Students are placed on academic probation when their GPA in any of the following categories falls below 2.00:

- all coursework taken;
- all coursework taken at the University of Iowa;
- all business coursework taken (when applicable);
- all business coursework taken at the University of Iowa (when applicable);
- all coursework taken to satisfy requirements for the major(s); or
- all coursework taken at the University of Iowa to satisfy requirements for the major(s).

In probation decisions, a 3 s.h. minimum is used to calculate the GPA for all coursework taken to satisfy requirements for

the major(s), and all coursework taken at the University of Iowa to satisfy requirements for the major(s).

Students on probation are required to meet with an academic advisor and cannot register for the next session's classes before doing so. Students on academic probation who withdraw registration after the deadline for dropping courses may be dismissed.

Students on probation with more than one declared business major may be required to drop one or more majors in order to pursue one business major only.

Students may be dismissed from the college at any time for unsatisfactory scholarship. While some probationary period usually precedes a dismissal, students in good academic standing who complete a session with extremely unsatisfactory grades may be placed on academic probation or dismissed immediately. To appeal a dismissal, students may submit a written appeal as described in their dismissal letter. Students dropped from the college for poor scholarship may petition for permission to be reinstated, but usually only after one year following the end of the session in which they were dismissed, and only in accordance with the instructions as described in their dismissal letter; see "Reinstatement."

When all of the GPAs previously outlined equal or surpass 2.00, students are removed from probation. Students usually are allowed only one session to return to good academic standing.

Reinstatement

Students dismissed for unsatisfactory scholarship for the first time are not permitted to register again for one year. Students dismissed for the second time may or may not be granted a second reinstatement. Requests for reinstatement must be made in writing and should be addressed to the Associate Dean, Undergraduate Program Office. Arrangements for a reinstatement interview must be made with the Undergraduate Program Office in the Tippie College of Business. The interview must take place between March 1 and June 15 for reinstatement for fall semester, or between October 1 and November 15 for reinstatement to spring semester. Late requests are deferred to the following semester. Students who are permitted to register following dismissal are registered on academic probation and ordinarily are allowed two semesters to achieve good standing. Most reinstatements include a limit on the number of semester hours the student may take upon reinstatement. Very poor academic work in the first semester of a reinstatement, however, may result in dismissal at the close of that semester.

ReStart

The undergraduate colleges at the University of Iowa offer an academic forgiveness policy, referred to as ReStart.

If students were previously enrolled in the Tippie College of Business and are returning, or have returned, to the University of Iowa after an extended absence (four consecutive years or more), they may use the ReStart option to request the removal of one or more previously completed academic sessions at the Tippie College of Business (i.e., semesters or winter/summer enrollments) from future GPAs and satisfaction of degree requirements.

If students have already graduated from the University of Iowa, they are not eligible to use the ReStart option whether for a second degree or any other purpose.

Students are strongly advised to contact the director of undergraduate enrollment to discuss the ReStart option before submitting a ReStart application. Contact the Undergraduate Program Office to schedule an in-person or telephone appointment.

Returning for Baccalaureate Degrees

Returning for a Second Business Major

Individuals who have already completed a major in the Tippie College of Business may return to complete the requirements for another Tippie major. Students who return to the University of Iowa to complete another Tippie major must meet the requirements for that major; they do not have to meet the Tippie College of Business residence requirement. It is their responsibility to notify the Office of the Registrar once they complete the requirements for the second major so that a notation can be placed on their permanent record. Returning students are held to the requirements that are published in the University of Iowa General Catalog for the session in which they reenter.

Returning for an Additional Bachelor's Degree

Individuals who hold a bachelor's degree from the Tippie College of Business or another college at the University of Iowa may return to earn an additional bachelor's degree from the Tippie College of Business. They must satisfy all requirements for undergraduate admission to the degree program. Once admitted, they must satisfy all requirements for the degree program in their chosen major. Returning students are held to the requirements that are published in the University of Iowa General Catalog for the session in which they reenter.

Combined Programs

Undergraduate Programs

Undergraduate students may earn combined undergraduate degrees from the Tippie College of Business and the colleges of Education, Engineering, or Liberal Arts and Sciences. The following rules apply to all students in combined degree programs.

- To enter a combined degree program, students must have approval from the Tippie College of Business and must be admitted to both colleges. Interested students should see an advisor in the college's Undergraduate Program Office.
- Students in combined degree programs are allowed a combined maximum of three second-grade-only options.
- All students in combined programs must meet all requirements for both degrees, including all General Education Program requirements.
- Students are assigned two advisors (one for each major).
- Students in combined degree programs are assessed tuition only for the primary (first) major.

Tippie College of Business/College of Liberal Arts and Sciences

The Tippie College of Business and the College of Liberal Arts and Sciences offer a combined degree program in which students earn two bachelor's degrees: a Bachelor of Arts (BA), Bachelor of Business Administration (BBA), or Bachelor of Science (BS) from the Tippie College of Business and a Bachelor of Arts (BA), Bachelor of Science (BS), Bachelor of

Fine Arts (BFA), or Bachelor of Music (BM) from the College of Liberal Arts and Sciences.

Students in this combined degree program must declare the Tippie College of Business program of study as their primary (first) major.

To learn about liberal arts and sciences majors, see the College of Liberal Arts and Sciences [p. 20] section of the catalog.

Tippie College of Business/College of Education

The Tippie College of Business and the College of Education offer a combined degree program in which students earn two bachelor's degrees: a Bachelor of Arts (BA), Bachelor of Business Administration (BBA), or Bachelor of Science (BS) from the Tippie College of Business and a Bachelor of Arts (BA) from the College of Education. The combined degree program is limited in the College of Education to either the BA in education studies and human relations or the BA in elementary education.

Students in this combined degree program must declare the Tippie College of Business program of study as their primary (first) major.

To learn about the BA in education studies and human relations or the BA in elementary education, see the College of Education [p. 1335] section of the catalog.

Tippie College of Business/College of Engineering

The Tippie College of Business and the College of Engineering offer a combined degree program in which students earn two bachelor's degrees: a Bachelor of Arts (BA), Bachelor of Business Administration (BBA), or Bachelor of Science (BS) from the Tippie College of Business and a Bachelor of Science in Engineering (BSE) from the College of Engineering. Students in this combined degree program must declare the College of Engineering program of study as their primary (first) major. They must also enroll in appropriate mathematics and engineering courses early in their course of study in order to complete the program in a timely manner. Because courses in natural sciences, mathematics, humanities, and social sciences count toward the BBA and the BSE, students may be able to count certain courses toward both degrees.

Combined degree students in this program usually meet the degree requirements of both colleges in about five years; the time required depends on a student's choice of major study areas.

For information about engineering majors, see Bachelor of Science in Engineering [p. 1527] in the catalog. To learn more about the requirements for the combined business/engineering degree, consult the Undergraduate Program Office in the Tippie College of Business and the Student Development Center in the College of Engineering.

Graduate Programs

Master of Science

Tippie College of Business students may begin work toward a Master of Science (MS) degree while completing their undergraduate degree. This program allows students to count a limited amount of credit toward both degrees.

Students typically apply to the Master of Science program in their third year of undergraduate study and begin masters-level work in their fourth year of undergraduate study. For information on these graduate programs, see MS in business analytics [p. 1169] and MS in finance [p. 1226] in the catalog.

Juris Doctor (JD)

The Tippie College of Business 3+3 agreement with the University of Iowa College of Law allows well-prepared students the opportunity to apply for admission to the College of Law during their third year, and if accepted, begin work on the Juris Doctor degree during their fourth year of study. Students participating in the 3+3 program apply to the College of Law and are required to submit a Law School Admission Test (LSAT) score. If a student is admitted into the JD program, the Tippie College of Business accepts up to the 30 hours of credit earned during the first year of law school to satisfy any remaining elective hours required for their undergraduate degree.

The 3+3 option is open to students in all undergraduate programs. Students who wish to pursue this opportunity are required to plan early in their undergraduate career, as all degree requirements except elective hours must be completed in the first three years of BBA study.

For more information, see the 3+3 Program for Undergraduates on the College of Law website.

Honors

Honors in the Major

Outstanding students in the college have an opportunity to undertake independent research under the supervision of a faculty member. To graduate with honors in the major, students must complete an honors thesis under the supervision of a Tippie College of Business faculty member. Students begin by completing BUS:1999 Introduction to Research in Business prior to the commencement of their thesis work. This course introduces students to research in the college and provides an opportunity to develop thesis questions and meet faculty members engaged in research.

Students then identify a faculty thesis advisor and complete their research and thesis writing over the course of two semesters, registering for the appropriate honors thesis course for both semesters from the following list. With faculty permission, students may elect to complete the thesis with another Tippie College of Business student.

Course #	Title	Hours
ACCT:4999	Honors Thesis in Accounting	arr.
BAIS:4999	Honors Thesis in Business Analytics	arr.
BUS:4999	Honors Thesis in Business	arr.
ECON:4999	Honors Thesis in Economics	arr.
FIN:4999	Honors Thesis in Finance	arr.
MGMT:4999	Honors Thesis in Management	arr.
MKTG:4999	Honors Thesis in Marketing	arr.

To earn honors in the major, students must successfully complete all college requirements with a grade-point average of at least 3.50 in all courses taken at Iowa, all business courses taken at Iowa, all courses taken (including transfer courses), and all business courses taken (including transfer courses). Students must also present their research in a

poster format at the spring or fall Undergraduate Research Festival.

See Tippie Honors on the Tippie College of Business website to learn more.

University of Iowa Honors Program

Completing the honors in the major requirements also satisfies the experiential learning requirement for the University of Iowa Honors Program. To learn more about graduating with university honors through the University of Iowa Honors Program, visit the Honors at Iowa website.

Pre-business students interested in honors study are encouraged to participate in the University of Iowa Honors Program until they are admitted to the business college. Visit Honors at Iowa to learn about the university's honors program.

Admission

Admission to the Tippie College of Business

All students admitted to the Tippie College of Business must follow the Tippie Honor Code. Students who meet the admission requirements may subsequently be denied admission upon evidence of postsecondary academic misconduct or other violations of the honor code. Students may be required to meet with the associate dean of undergraduate programs to discuss incidents of academic misconduct. Prospective students must accept their offer of admission and submit all transcripts showing coursework that satisfies the Tippie College of Business admission requirements to University of Iowa Admissions by the appropriate deadline. Letters of recommendation are not accepted. Students granted admission to Tippie College of Business are eligible to apply for a limited pool of donor-funded scholarship dollars.

Admission to the BA and BS Programs

Students who meet the high school course requirements and the Regent Admission Index (RAI) score based on their residency are eligible to gain admission to the Bachelor of Arts or Bachelor of Science programs in the Tippie College of Business. Students may also seek admission to the Bachelor of Arts or Bachelor of Science programs in the Tippie College of Business after matriculating to the University of Iowa or by transferring from another institution of higher education. For more information about admission, see Undergraduate Program Admissions on the Tippie College of Business website.

Early Admission to the BBA Program

Students who meet the high school course requirements and the Regent Admission Index (RAI) score based on their residency and additionally have a composite ACT score of 26 or higher (or SAT equivalent) and a high school grade-point average (GPA) of 3.60 or higher (on a 4.00 scale) are eligible to gain early admission (or Direct Admission) to the BBA program in the Tippie College of Business. Applicants who meet one of the two additional criteria will be pooled for review for early admission to the BBA program with final decisions published by March 15.

High school students who do not gain early admission to the BBA program may pursue admission to the Bachelor of Arts or Bachelor of Science programs in the Tippie College of Business or to the pre-business program of study in the College of Liberal Arts and Sciences. For more information about admission, see Undergraduate Program Admissions on the Tippie College of Business website.

Admission to the BBA Program

Students who have completed at least 24 s.h. of college credit, including a collection of five prerequisite courses and have a GPA of at least 2.75 on those prerequisite courses, on all college coursework completed, and on all University of Iowa coursework are eligible for admission (or Standard Admission) to the BBA program in the Tippie College of Business. Students transferring from another institution of higher education must only meet the GPA requirement on the prerequisite courses and on all college coursework completed.

Students typically apply for admission to the BBA program in the term they are completing their final prerequisite course(s). Admission is not granted for the summer session or the winter session. Grades from the winter session do not count toward admission for the following spring semester, but grades from the summer session may count toward admission for the following fall semester. Students who are denied admission may file an appeal of their denial of admission to Tippie and must provide documentation of extenuating circumstances that affected their academic performance. For more information about admission, see Undergraduate Program Admissions on the Tippie College of Business website.

Nondegree Admission

Students visiting from another institution who wish to enroll in undergraduate courses in order to earn credit that they can transfer to their home institution may be granted admission as undergraduate nondegree students. Nondegree students are not guaranteed access to specific courses; they must have the approval of the Undergraduate Program Office and may earn no more than 9 s.h. in nondegree status.

Reentry Policy

All students who have been enrolled in another college or university since leaving the University of Iowa are required to submit official transcripts along with an application for reentry. Completed application materials must be received at least two weeks before the opening of classes. Reentry students are held to the requirements that are published in the University of Iowa General Catalog for the session in which they reenter.

Absent for Fewer Than 12 Months in Good Standing

Students absent for fewer than 12 months are not required to file an application for reentry. Students who were in good standing when they left the university should contact the Tippie College of Business Undergraduate Program Office for advising before registration. Reentry is approved regardless of any admission requirement changes.

Absent for Fewer Than 12 Months Not in Good Standing

Students absent for fewer than 12 months are not required to file an application for reentry. Students who were not in good standing when they left the university must consult with an advisor in the Tippie College of Business; the student may be readmitted on probation. Readmitted students should contact the Tippie College of Business Undergraduate Program Office for advising before registration. Reentry is approved regardless of any admission requirement changes. Not in good standing is defined as being on probation or having been dismissed from the Tippie College of Business due to unsatisfactory scholarship, academic misconduct at the University of Iowa or at another institution, or a violation of the Tippie College Undergraduate Honor Code. Students who have been officially dismissed follow the procedures for reinstatement.

Absent for 12 Months or More in Good Standing

Students absent from the University of Iowa for 12 months or more who left in good standing must apply to University of Iowa Admissions as returning students and must contact the Tippie College of Business Undergraduate Program Office for advising before registration. Good standing is defined as not on probation and not dismissed for any reason.

Absent for 12 Months or More Not in Good Standing

Students absent from the University of Iowa for 12 months or more who were not in good standing when they left the university must file a petition with the Tippie College of Business Undergraduate Program Office to be reinstated. If the petition is approved, the student must apply to University of Iowa Admissions as a returning student; the Undergraduate Program Office notifies Admissions that a student's petition for reinstatement has been approved. The student also must schedule an appointment to see an advisor in the Tippie College of Business for advising before registration. Not in good standing is defined as being on probation or having been dismissed from the Tippie College of Business due to unsatisfactory scholarship, academic misconduct at the University of Iowa or at another institution, or a violation of the Tippie College Undergraduate Honor Code. Students who have been officially dismissed follow the procedures for reinstatement.

Career Advancement

Tippie College of Business graduates enjoy a high placement rate. Over 90% of students reported that they found permanent employment, were pursuing graduate degrees, or were not seeking employment six months after graduation.

Tippie Undergraduate Career Services supports Tippie students with targeted career support and seeks to improve the job search experience and outcomes for Tippie undergraduate students. Visit their website or the Pomerantz Career Center website for more information.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

The following checkpoints are designed for students who enter the university with the goal of earning a BBA. In order to stay on the plan, pre-business students must maintain the grade-point averages required for admission to the BBA program in the Tippie College of Business and must apply for admission to the BBA program in the semester that the five prerequisite courses will be completed, but no later than before the fifth semester begins. The Four-Year Graduation Plan is not available to students who choose to pursue a double major in the college or to those enrolled in a combined degree program.

Before the third semester begins: RHET:1030 Rhetoric: Writing and Communication, ECON:1100 Principles of Microeconomics, MATH:1350 Quantitative Reasoning for Business, STAT:1030 Statistics for Business, and BAIS:1500 Business Computing Essentials, or equivalents; and at least one-quarter of the semester hours required for graduation.

Before the fifth semester begins: ACCT:2100 Introduction to Financial Accounting and ECON:1200 Principles of Macroeconomics, or equivalents; business core courses that satisfy prerequisites in a student's intended major; three-quarters of general education requirements; and at least half of the semester hours required for graduation.

Before the seventh semester begins: three-quarters of business core requirements, approximately half of the coursework in the major (varies by major), and three-quarters of the semester hours required for graduation.

Before the eighth semester begins: approximately three-quarters of coursework in the major (varies by major).

During the eighth semester: all remaining coursework in the BBA degree and a sufficient number of semester hours to graduate.

Iowa Degree in Three

Iowa Degree in Three is designed for BBA students who are academically prepared to complete more semester hours per term than average or who come to the University of Iowa with completed college credits. It is a flexible, affordable option developed to meet the needs of highly motivated students. Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

The Tippie College makes several assumptions about candidates for the Iowa Degree in Three:

- students are prepared to enroll in MATH:1350 Quantitative Reasoning for Business during their first enrollment at the University of Iowa;
- students have fulfilled the general education World Languages requirement before matriculation;
- students are early admits to the BBA program in the Tippie College of Business;
- students have earned at least 15 s.h. of college credit before matriculation; and

- students are not held for more than two English as a Second Language classes.

The Iowa Degree in Three is available for any of the BBA majors offered by the Tippie College of Business.

Accounting

Chair

- Ryan J. Wilson

Director, Undergraduate Program

- Greg Hall

Director, Master of Accountancy

- Kevin J. Den Adel

Director, PhD Program

- Jaron Harp Wilde

Director, RSM Institute of Accounting Education and Research

- Scott Asay

Undergraduate major: accounting (BBA)

Graduate degrees: MAc; accounting subprogram for the PhD in business administration

Faculty: https://tippie.uiowa.edu/people?department=Accounting&cohort=538101

Website: https://tippie.uiowa.edu/about/accounting-department

The Department of Accounting offers a broad education that prepares undergraduate and graduate students for careers in auditing, corporate accounting, management consulting, taxation, government, not-for-profit organizations, and academia.

The department also collaborates with the College of Law to offer the combined MAc/JD program; see Combined Programs [p. 1151] under Master of Accountancy in this section of the catalog. It also participates in the MBA program; see the Master of Business Administration Program [p. 1272] in the catalog.

Accounting Program

The accounting program draws on curricula that provide a strong base of traditional technical subject matter and the skills needed for solving complex business problems. This framework of study enables students to continue professional growth over the entire span of their careers. The program emphasizes communication skills and provides the academic background required for leadership positions in business, government, and public accounting. It can also qualify students to take the Certified Public Accountant (CPA) examination.

The accounting program leads to a Bachelor of Business Administration with a major in accounting, which requires 120 s.h. of credit and the Master of Accountancy, which requires 30 s.h. of graduate credit. Students are granted the BBA upon successful completion of the third and fourth years; they are granted the MAc after successful completion of 30 s.h. beyond the BBA.

Programs

Undergraduate Program of Study

Major

- Major in Accounting (Bachelor of Business Administration) [p. 1143]

Graduate Programs of Study

- Master of Accountancy [p. 1149]
- Accounting subprogram for the Doctor of Philosophy [p. 1154] in Business Administration

Courses

Accounting Courses

ACCT:1300 First-Year Seminar 1 s.h.
Small discussion class taught by faculty member; topics chosen by instructor; may include outside activities (e.g., films, readings, visits to research facilities).

ACCT:2100 Introduction to Financial Accounting 3 s.h.
Accounting and financial reporting procedures used by business and not-for-profit entities; emphasis on accounting concepts and use of accounting information in making economic decisions.

ACCT:2200 Managerial Accounting Analytics and Data Visualization 3 s.h.
Basic topics in cost behavior, measurement, accumulation; use of cost data for relevant analysis, budgeting, performance evaluation. Prerequisites: ECON:1100 and ACCT:2100 and (MATH:1850 or MATH:1550 or MATH:1460 or MATH:1860 or MATH:1350).

ACCT:3020 Financial Accounting and Reporting 3 s.h.
External financial reporting practices in context of decisions by management, current and potential stockholders, financial analysts; emphasis on interpretation, use of financial statements. Prerequisites: ACCT:2200.

ACCT:3100 Professional Accounting Seminar 1 s.h.
Seminar topics, including accounting careers, curriculum, MAc program, internships, CPA examination and other professional certificates, Beta Alpha Psi, ethics, and global standards. Offered fall semesters. Corequisites: ACCT:2200 or ACCT:3200.

ACCT:3200 Income Measurement and Asset Valuation 3 s.h.
Accounting rules that determine how economic events and transactions are described in published financial reports; emphasis on revenue and expense recognition, asset valuation, accrual accounting model. Prerequisites: ACCT:2100.

ACCT:3300 Valuation of Financial Claims 3 s.h.
Current and long-term liabilities and stockholders' equity, off-balance sheet financing, cash flow statement, earnings-per-share, financial instruments. Prerequisites: ACCT:3100 and ACCT:3200.

ACCT:3400 Introduction to Taxation 3 s.h.
Federal income taxation of individuals and businesses, including corporations, partnerships, and sole proprietorships; emphasis on developing a broad perspective on structure, administration, and rationale of federal income tax system. Prerequisites: ACCT:2100.

ACCT:3420 Taxes and Business Strategy 3 s.h.
Effect of taxes on business decisions, including investment strategies, capital structure decisions, compensation policies, international business, mergers and acquisitions, and financial reporting. Prerequisites: ACCT:2100.

ACCT:3450 Tax Practicum (VITA) I 0,2 s.h.
Transformative opportunity to work on real world tax problems with real clients; application of skills learned in classroom to real world problems; development of crucial accounting career soft skills including communication (explaining complicated ideas in simple language), moving out of one's comfort zone, working as a team, and having an appreciation for the importance of community service.

ACCT:3451 Tax Practicum (VITA) II 1 s.h.
Transformative opportunity to work on real world tax problems with real clients; application of skills learned in classroom to real world problems; development of crucial accounting career soft skills including communication (explaining complicated ideas in simple language), moving out of one's comfort zone, working as a team, and having an appreciation for importance of community service. Prerequisites: ACCT:3450. Requirements: successful completion of ACCT:3450 and certification on the most recent Internal Revenue Service certification tests.

ACCT:3500 Advanced Tax Topics 3 s.h.
Taxation of corporations and partnerships from organization through liquidation; relative merits of conducting business as C corporation, partnership, S corporation; the alternative minimum tax; introduction to tax research. Prerequisites: ACCT:3400.

ACCT:3550 Financial Statement Analysis 3 s.h.
How to analyze published financial statements; practical experience using financial statement information to assess accounting quality, historical performance, forecasted performance, credit risk, firm value. Prerequisites: ACCT:3020 or ACCT:3200.

ACCT:3600 Accounting Systems and Analytics 3 s.h.
Application of computer technology and internal controls to accounting and transaction processing systems; auditing of information systems; information systems infrastructure and trends; problem solving with Python and databases; accounting cycle operations. Prerequisites: ACCT:2200 and ACCT:2100 and (BAIS:3005 or CS:2110). Same as BAIS:3100.

ACCT:4000 Special Topics in Accounting 1-3 s.h.

ACCT:4001 Continuing Education: Special Topics in Accounting arr.
Independent study topics determined by faculty member.

ACCT:4050 Directed Readings in Accounting arr.
Individual guided readings in accounting topics. Requirements: admission to Professional Program in Accounting.

ACCT:4100 Auditing 3 s.h.
General framework underlying auditing, role of audit standards in planning and conduct of audits, effect of regulation, ethics, liability on audit practices. Prerequisites: ACCT:3300 and (BAIS:2800 or ECON:4800 or STAT:2020).

ACCT:4200 Advanced Managerial Accounting Analytics 3 s.h.
Advanced topics in cost estimation, measurement, accumulation; use of cost data for decision-making, performance evaluation in multi-unit organizations. Prerequisites: (STAT:2020 or ECON:4800 or STAT:4101 or BAIS:2800) and (CS:2110 or BAIS:3005) and ACCT:2100 and ACCT:2200.

ACCT:4220 Design and Use of Cost Management Systems 3 s.h.
Development of cost accumulation and reporting systems that complement a firm's strategy and structure; how activity-based cost management systems increase competitiveness by helping a firm manage its costs, processes, and people. Prerequisites: ACCT:4200.

ACCT:4280 Cybersecurity 3 s.h.
High-level view of computer security and fostering a cybersecurity mindset which is in demand across all industries; frequent change of perspective from employee to CEO, casual home user, and hacker; broad range of topics; actionable items to make daily digital interactions more secure. Prerequisites: BAIS:3005 or CS:1210 or CS:2110 or CS:2230 or CS:3330 or ENGR:2730. Same as BAIS:4280.

ACCT:4300 Accounting Ethics and Law 3 s.h.
Integration of ethics with study of legal topics for accountants (e.g., contracts, debtor-creditor law, agency law, employment law, securities law, accountant's legal liability, business entities); selections from American Institute of Certified Public Accountants (AICPA) Code of Professional Conduct; students analyze ethical considerations of essential topics (e.g., fraud, fiduciary duties). Prerequisites: ACCT:2100 and ACCT:2200.

ACCT:4400 Advanced Financial Accounting 3 s.h.
Accounting and reporting standards for business combinations, including mergers, consolidations, and multinational enterprises; accounting for partnerships, business segments, transactions denominated in foreign currency, including hedges using foreign currency derivate instruments; reporting standards for interim financial statements and fund accounting applied to government and nonprofit entities. Prerequisites: ACCT:3300.

ACCT:4500 Accounting Measurement: Research and Analysis 3 s.h.
How uncertainty and risk influence accounting judgments, estimates, and forecasts that underlie reported financial statement amounts; applications drawn from familiar accounting measurement challenges and those unique to industries (e.g., airline transportation, healthcare, insurance, gaming, oil and gas exploration). Prerequisites: ACCT:3300. Corequisites: ACCT:4100.

ACCT:4600 Research Seminar for Tax Professionals 2 s.h.
Understanding of the methodology used by tax professionals to research the Internal Revenue Code, Treasury Regulations, and case law; emphasis on evaluation and application of tax law to specific facts and circumstances to address tax compliance and tax planning opportunities faced by tax practitioners and their clients. Prerequisites: ACCT:3500.

ACCT:4999 Honors Thesis in Accounting arr.
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University of Iowa Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: BUS:1999.

ACCT:7850 Seminar in Accounting Research arr.
Forum on current research in accounting, related disciplines; faculty, student, guest papers, PhD dissertation proposals. Requirements: PhD enrollment.

ACCT:7900 Seminar in Selected Accounting Topics arr.
Individual study, research paper preparation. Requirements: PhD enrollment.

ACCT:7950 Directed Readings in Accounting arr.
Individual guided readings in accounting topics.

ACCT:7975 Thesis: Accounting arr.
Requirements: PhD enrollment.

ACCT:9020 Strategic Cost Analysis 2-3 s.h.
Introduction to cost accumulation, reporting, cost management systems; managerial and divisional performance evaluation; appropriate use of cost data for short- and long-run decisions; product costing in manufacturing and service industries. Prerequisites: MBA:8140.

ACCT:9030 Financial Accounting Standards and Analysis 2-3 s.h.
Accounting model, underlying measurement concepts, valuation rules for assets, liabilities, related issues of income determination; emphasis on economic substance of transactions, evaluation and interpretation of financial data. Prerequisites: MBA:8140.

ACCT:9040 Financial Statement Analysis and Forecasting 3 s.h.
Use of corporate financial statements for investment and lending decisions; emphasis on financial analysis techniques, valuation, business analysis, cash flow projections, credit scoring, related research evidence. Prerequisites: MBA:8140 or (ACCT:3200 and ACCT:3300). Recommendations: for Iowa MBA majors, MBA:8180 or prior undergraduate finance course.

ACCT:9050 Taxes and Business Strategy 2-3 s.h.
Effect of taxes on business decisions, including investment strategies, capital structure decisions, compensation policies, international business, mergers and acquisitions, and financial reporting. Prerequisites: ACCT:3020 or ACCT:3500 or MBA:8140 or LAW:8194. Requirements: graduate standing in business.

ACCT:9110 Special Topics in Taxation 3 s.h.
Timely and relevant topics in taxation and/or topics related to taxation not covered in ACCT:3400 and ACCT:3500. Prerequisites: ACCT:3500 or LAW:8194.

ACCT:9120 Design and Use of Cost Management Systems 3 s.h.
Development of cost accumulation and reporting systems that complement a firm's strategy and structure; how activity-based cost management systems increase competitiveness by helping a firm manage its costs, processes, people. Prerequisites: ACCT:4200 or ACCT:9020.

ACCT:9130 Financial Reporting: Theory and Practice 3 s.h.
Corporate accounting choices in framework of traditional accounting theory, economic consequences, firm valuation. Prerequisites: ACCT:3300. Requirements: graduate standing in business.

ACCT:9140 Advanced Auditing 3 s.h.
Advanced issues such as ethics, internal control audits, forensic auditing, and fair value auditing. Prerequisites: ACCT:4100. Requirements: graduate standing in business.

ACCT:9150 Research Seminar for Tax Professionals 3 s.h.
Understanding of the methodology used by tax professionals to research the Internal Revenue Code, Treasury Regulations, and case law; emphasis on evaluation and application of tax law to specific facts and circumstances to address tax compliance and tax planning opportunities faced by tax practitioners and their clients. Prerequisites: ACCT:3500. Requirements: admission to MAc program.

ACCT:9170 Advanced Accounting Analytics 3 s.h.
Application of the latest business intelligence software packages to real world problems from auditing, managerial, financial, and tax accounting; how to use Big Data to make better business decisions and identify potential risks and opportunities. Prerequisites: ACCT:4100 and ACCT:4200. Corequisites: BAIS:9210.

Accounting, BBA

The accounting program draws on curricula that provide a strong base of traditional technical subject matter and the skills needed for solving complex business problems. This framework of study enables students to continue professional growth over the entire span of their careers. The program emphasizes communication skills and provides the academic background required for leadership positions in business, government, and public accounting. It can also qualify students to take the Certified Public Accountant (CPA) examination.

Students who wish to earn the Bachelor of Business Administration with a major in accounting must be admitted to the Tippie College of Business. Undergraduate accounting majors are subject to the probation and dismissal rules described in the Undergraduate Programs [p. 1132] section of the catalog and are governed by the Tippie Honor Code.

Common BBA Requirements

The Bachelor of Business Administration (BBA) requires a minimum of 120 s.h. of credit, including at least 48 s.h. earned in business courses and at least 52 s.h. earned in non-business courses.

BBA students must earn 45 s.h. at the University of Iowa following admission to the BBA program. At least 24 s.h. in business courses must be earned with Tippie College of Business coursework. At least two-thirds of the semester hours in a student's major must be earned in the student's major department at the Tippie College of Business. Nonresident instruction includes coursework at colleges and universities other than the University of Iowa.

To graduate, BBA students must have a cumulative grade-point average of at least 2.00 in all college-level coursework attempted, all college-level business coursework attempted, all college-level major coursework attempted, all college-level coursework attempted at the University of Iowa, all college-level business coursework attempted at the University of Iowa, and all college-level major coursework attempted at the University of Iowa.

Common BBA Requirements

BBA students must fulfill the following common requirements or approved equivalents. For approved equivalents, consult the college's Undergraduate Program Office.

General Education

Students may not count courses taken to fulfill General Education Program requirements toward other course requirements for the BBA.

Course #	Title	Hours
Historical Perspectives		3
International and Global Issues		3
Interpretation of Literature		3
Natural Sciences (without lab)		3
Rhetoric		4
Social Sciences (excluding ECON:1100 and ECON:1200)		3
Understanding Cultural Perspectives		3
Values and Society		3
World Languages		0-10

World Languages

Tippie College of Business students may complete the World Languages requirement using one of three options. One year of high school language study is generally equivalent to one semester of college language study.

Option One

Attain fourth level proficiency in a single world language. Students attain fourth level proficiency in a single world language by completing four years of that language in high school or four semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at fourth level proficiency.

Option Two

Attain third level proficiency in a single world language and complete a World Language and Cultural Exploration course. Students attain third-level proficiency in a single world language by completing three years of that language in high school or three semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at third-level proficiency. Option two does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Option Three

Attain second level proficiency in each of two world languages. Students attain second level proficiency in each of two world languages by completing two years of each language in high school or two semesters of each language in college, or an equivalent combination of high school and college coursework, or pass achievement tests and/or evaluations at second-level proficiency in each language. Option three does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Prerequisites for Admission to the BBA Program

Course #	Title	Hours
BAIS:1500	Business Computing Essentials	2
ECON:1100	Principles of Microeconomics	4
MATH:1350	Quantitative Reasoning for Business	4
RHET:1030	Rhetoric: Writing and Communication	4
STAT:1030	Statistics for Business	4

Prerequisites for Declaring a BBA Major

Course #	Title	Hours
ACCT:2100	Introduction to Financial Accounting	3
ECON:1200	Principles of Macroeconomics	4

BBA Core

Course #	Title	Hours
ACCT:2200	Managerial Accounting Analytics and Data Visualization	3
BAIS:2800	Foundations of Business Analytics	3

BAIS:3000	Operations Management	2
BAIS:3005	Information Systems	2
BUS:2200	Discover Business at Tippie	1
BUS:3000	Business Communication and Professionalism	3
FIN:3000	Introductory Financial Management	3
MGMT:2000	Introduction to Law	3
MGMT:2100	Introduction to Management	3
MKTG:3000	Introduction to Marketing Strategy	3

Experiential Learning Requirement: Tippie RISE

RISE is an acronym for hands-on experiential learning in the form of research with faculty, internship course, study abroad, and experiential course. All BBA students in the Tippie College of Business students must successfully complete at least one of these four experiences. Courses that satisfy Tippie RISE are as follows.

Research With Faculty

Working closely with a faculty mentor, students explore a research question of interest for a semester or more. By conducting academic research, students enhance their critical thinking skills, learn techniques to collect and analyze data, and apply their findings to business practices. These skills are highly useful for a variety of businesses and graduate programs.

Course #	Title	Hours
ACCT:4999	Honors Thesis in Accounting	arr.
BAIS:4999	Honors Thesis in Business Analytics	arr.
BUS:3600	Mentored Research	arr.
BUS:4999	Honors Thesis in Business	arr.
ECON:4999	Honors Thesis in Economics	arr.
FIN:4999	Honors Thesis in Finance	arr.

URES:3993	Undergraduate Research and Creative Projects	1-4
URES:3994	Undergraduate Research and Creative Projects	1-4
URES:3995	Independent Creative Research by Undergraduates Summer Internship	0

Internship Course

As students gain valuable hands-on work experience in a professional internship, they complete one of the approved internship courses to assist them in having a meaningful learning experience. The internship courses encourage students to take on relevant job responsibilities, outline strategies to meet internship goals, regularly communicate with their supervisors, explore the career field, and reflect on their growth throughout the experience.

Course #	Title	Hours
BUS:3100	Academic Internship or Cooperative Education	0
BUS:3900	Business Communication Internship I	3
BUS:4900	Academic Internship	arr.
CCP:1201	Academic Internship	1-3
CCP:2020	Washington Center Internship Program	arr.

EVNT:2110	Internship in Event Management	3
LS:3011	Leadership Certificate Capstone	0-2
SRM:4199	Independent Sport and Recreation Field Experience	arr.

Study Abroad

By taking advantage of short-term, summer, semester, or academic year programs, students can expand their worldview and learn alternative business and cultural practices outside of the United States. Students can participate in Tippie RISE study abroad programs such as London Winter, International Business in Sydney, CIMBA Italy, Global Internships, spring break programs through the John Pappajohn Entrepreneurial Center, or any of the many UI study abroad programs in over 40 countries. Any study abroad program is accepted for credit, including virtual programs, short-term faculty-led programs, and summer, semester, or year-long programs. These courses may be study abroad courses (prefix ABRD) or select study abroad international activities courses (prefix INTL) but are not required to be; see Study Abroad [p. 2215] in the catalog.

Experiential Course

In approved experiential courses, students improve their understanding of academic concepts by applying them to a class project with a company or nonprofit organization. Using real circumstances and issues, students engage with the organization to make a lasting impact. Students have support from classmates and guidance from their instructor throughout the duration of the project. Experiential courses are offered in many BBA majors and as business and non-business electives. Courses must be taken at the University of Iowa to satisfy Tippie RISE.

Course #	Title	Hours
ACCT:3451	Tax Practicum (VITA) II (spring only)	1
BAIS:4150	Business Analytics and Information Systems Capstone	3

MKTG:3701	Marketing Institute Field Studies	2
MKTG:4250	Marketing and Sustainability	3
MKTG:4800	Marketing Consulting Project	3
SRM:4197	Sport and Recreation Field Experience (not fans first section)	arr.

Major Area of Study

All BBA students must complete a major area of study. The college offers BBA majors in accounting [p. 1140], business analytics and information systems [p. 1158], economics [p. 1185], entrepreneurship, finance [p. 1208], management [p. 1236], marketing [p. 1261], and risk management and insurance [p. 1219]. The requirements for each major are established by the department that offers the major.

Students With Associate of Arts Degrees

Students who have been granted an Associate of Arts (AA) from a community college participating in the Iowa and Illinois Community College/Regents Articulation Agreements are considered to have met all high school unit requirements for admission to the BBA and all of the General Education Program requirements listed under "General Education Requirements," except the Understanding Cultural Perspectives and World Languages requirements. The program of study for which a student was awarded the AA must have included:

- a minimum of 60 s.h. (or 90 quarter hours) of credit acceptable toward graduation from the University of Iowa;
- completion of the agreed-upon group of courses at the community college; and
- a GPA of at least 2.00.

Mathematics courses comparable to MATH:0100 Basic Algebra I are not accepted toward graduation. Completion of an Associate of Arts does not guarantee admission to the BBA program in the Tippie College of Business. See Admission in Undergraduate Programs [p. 1132] for a complete list of requirements for admission to the BBA.

Students who use the provisions of the articulation agreement are granted a maximum of 60 s.h. of transferable credit from two-year colleges toward the 120 s.h. required for a BBA. Credit earned for the AA beyond the 60 s.h. transferable maximum is used in computing a student's grade-point average, and it may be used to satisfy course requirements, but it does not count toward the BBA. Transfer credit for business courses taken during the first and second years is counted toward the BBA only if such courses are usually offered as lower-division courses at the University of Iowa.

Transfer Courses

Students who have taken courses at another institution that are similar to those approved for the common business requirements at Iowa may request that these courses be evaluated for transfer credit. Students who transfer fewer hours than needed to meet a common business requirement may use only approved courses to complete the remainder of the requirement. Only courses taken at accredited four-year institutions may be used to satisfy business course requirements numbered 3000 or above. Students must complete a minimum of 24 s.h. of business coursework at Iowa and at least two-thirds of the coursework in the major in the department awarding the major. They must also meet the 45 s.h. residence requirement of the Tippie College of Business. Credit earned through online courses may be counted toward all requirements for graduation, subject to approval by a student's major department.

Multiple Majors in Business

Students may earn the BBA degree with more than one major; they may also combine the BBA degree with the Bachelor of Arts or Bachelor of Science in economics (except for the BBA in economics). The Four-Year Graduation Plan is not available to students earning more than one major or degree. Students have access to degree audits in MyUI for all of the programs of study they have officially declared. They also have access to all program courses, with some limitations, during early registration. A student must be in good academic standing in order to declare more than one major. See Double Majors and Joint Degrees on the Tippie College of Business website.

Requirements

The Bachelor of Business Administration with a major in accounting requires a minimum of 120 s.h., including at least 24–25 s.h. of work for the major. All required major coursework must be taken at the University of Iowa. Students must have a cumulative grade-point average (GPA) of at least 2.00 in all college coursework attempted, all college coursework attempted in business, all college coursework attempted in the major, all coursework attempted at the University of Iowa, all business coursework attempted at the University of Iowa, and all coursework in the major attempted at the University of Iowa.

Students must complete certain prerequisite courses for admission to the college as well as courses required to declare a major in accounting. Students usually spend the first and second year completing prerequisites and other coursework required for all BBA students.

Coursework provides concentrated coverage of professional accounting subjects and closely related topics in commercial law, business, and information systems.

The Bachelor of Business Administration with a major in accounting requires the following coursework. Students may choose to complete the major with no subprogram or with the corporate subprogram.

Requirements	Hours
Accounting Common Required Courses	10
Additional Accounting Requirements	14-15

Accounting Common Required Courses

Course #	Title	Hours
All of these:		
ACCT:3100	Professional Accounting Seminar	1
ACCT:3200	Income Measurement and Asset Valuation	3
ACCT:3300	Valuation of Financial Claims	3
ACCT:4200	Advanced Managerial Accounting Analytics	3

Accounting Major With No Subprogram

The major in accounting with no subprogram is the best option for students who plan to take the Certified Public Accountant (CPA) exam and work in the public accounting sector.

Students who major in accounting with no subprogram complete an additional 15 s.h. from the following.

Course #	Title	Hours
All of these:		
ACCT:3400	Introduction to Taxation	3
ACCT:3600/ BAIS:3100	Accounting Systems and Analytics	3
ACCT:4100	Auditing	3
ACCT:4300	Accounting Ethics and Law	3
And one accounting elective from these:		
ACCT:3500	Advanced Tax Topics (offered fall only)	3
ACCT:4280/ BAIS:4280	Cybersecurity (offered spring only)	3
ACCT:4400	Advanced Financial Accounting (offered spring only)	3

Certified Public Accountant (CPA) Exam and Licensure

A significant percentage of accounting graduates pursue the CPA license. Requirements to sit for the CPA exam and for CPA licensure vary by state. Each state requires 150 s.h. to become a licensed CPA, including specific courses and a minimum number of accounting hours. In many states, the required accounting hours exceed the minimum requirements of the BBA. Students should review their state's educational requirements at the National Association of State Boards of Accountancy (NASBA) website and consult with the director of the Master of Accountancy program as needed.

Optional Accounting Electives

Course #	Title	Hours
ACCT:3420	Taxes and Business Strategy	3
ACCT:3450	Tax Practicum (VITA) I	0,2
ACCT:3451	Tax Practicum (VITA) II	1
ACCT:3550	Financial Statement Analysis	3
ACCT:4000	Special Topics in Accounting	1-3
ACCT:4220	Design and Use of Cost Management Systems	3
ACCT:4600	Research Seminar for Tax Professionals	2

Accounting Major With Corporate Subprogram

The corporate subprogram equips students with skills tailored for corporate finance, management accounting, financial analysis, and strategic planning.

Students who major in accounting with the corporate subprogram complete at least an additional 14 s.h. from the following.

Corporate Subprogram Required Courses

Course #	Title	Hours
This course:		
ACCT:3550	Financial Statement Analysis (offered spring only)	3
One of these:		
ACCT:3400	Introduction to Taxation	3
ACCT:3420	Taxes and Business Strategy (offered spring only)	3
ACCT:4100	Auditing	3

Corporate Subprogram Upper-Level Electives

Students complete a minimum of 8 s.h. in accounting courses (prefix ACCT) numbered 3000 or higher, excluding courses already taken for the major.

The following courses from other departments in the Tippie College of Business also count toward the corporate subprogram. Students are not guaranteed specific elective options. The availability of courses outside the Department of Accounting may be subject to prerequisites or restricted to students who have declared a second major within the respective department.

Course #	Title	Hours
BAIS:3025	Business Process Automation	3
BAIS:3140	Information Visualization	3
BAIS:3200	Database Management	3
BAIS:3500	Data Mining	3
ECON:3355	Economic and Business Forecasting	3
ENTR:4200	Entrepreneurship: Business Consulting	3
FIN:3300	Corporate Finance	3
FIN:3400	Principles of Risk Management and Insurance	3

FIN:4210	Futures and Options	3
FIN:4220	Fixed Income Securities	3
FIN:4240	International Finance	3
FIN:4250	Applied Equity Valuation	3
FIN:4330	Investment Banking	3
FIN:4340	Wealth Management	3
MGMT:3200	Individuals, Teams, and Organizations	3
MGMT:4100	Dynamics of Negotiations	3

Career Advancement

The accounting major prepares students for various career opportunities in finance, business, and other sectors. Graduates can pursue roles such as financial accountant, management accountant, tax accountant, auditor, financial analyst, or forensic accountant. They find employment in diverse sectors, including public accounting firms, corporations, government agencies, non-profit organizations, and financial institutions. This major offers a solid foundation in financial reporting, analysis, and decision-making, ensuring students are well-equipped for success in the dynamic field of accounting.

In the most recent Pomerantz Career Center graduate survey, 98% of graduating students reported that they found permanent employment, planned to attend graduate school, or were not seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs; for more information about careers, visit the Pomerantz Career Center website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Accounting, BBA

Course	Title	Hours
Academic Career		
Any Semester		
Pre-business students must be admitted to the Tippie College to declare the accounting major. Students not already admitted to Tippie generally apply for admission during their second year as they are completing the prerequisite courses. [a]		
Students are required to complete 52 s.h. of non-business coursework. Courses with a prefix of ACCT, BAIS, BUS, ECON, ENTR, FIN, MGMT, and MKTG will not count towards non-business hours. Check degree audit for non-business hours or confer with academic advisor.		
Students who need to complete the World Language requirement should consult with their academic advisor about when to add courses to plan of study. World Language counts as non-business coursework.		
To fulfill the Tippie RISE experiential learning requirement, complete an approved course in at least one of the following categories: research with faculty, internship course, study abroad, experiential course. [b]		0 - 3
Students must satisfy the Tippie College of Business residence requirement: 45 s.h. of UI coursework after admission to Tippie.		
A significant percentage of accounting graduates pursue the CPA license. [c]

Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [k]		
	Hours	**15**
	Total Hours	**122-125**

a Prerequisite courses include RHET:1030, MATH:1350, STAT:1030, ECON:1100 and BAIS:1500. Refer to the Tippie website for admission requirements and deadlines.

b See degree audit for course options.

c Requirements to sit for the CPA exam and for CPA licensure vary by state. Each state requires 150 s.h. to become a licensed CPA, including specific courses and a minimum number of accounting hours. In many states, the required accounting hours exceed the minimum requirements of the BBA. Students should review their state's educational requirements at the National Association of State Boards of Accountancy (NASBA) website and consult with the director of the Master of Accountancy program as needed.

d Enrollment in math courses requires completion of a placement exam.

e GE courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

f Business Core Part I component; required to declare major.

g Must be admitted to Tippie to enroll in BUS:3000. Generally completed during the second year, but should be taken no later than the third year.

h ACCT:3500 recommended; typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

i One accounting major elective required, but both are highly recommended for students taking the CPA exam.

j Either ACCT:4280 or ACCT:4400 recommended; typically both of these courses are offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Master of Accountancy, MAc

The Master of Accountancy (MAc) is a nonthesis program. Coursework focuses on the conceptual and economic foundations of accounting with applications to current and emerging problems of professional practice. MAc students also have the opportunity to acquire expertise in one of four subprogram areas: financial accounting and auditing, business analytics, taxation, and managerial accounting.

Graduate students in accounting are subject to the probation and dismissal rules of the Graduate College and are governed by the Iowa MBA program and master's honor code.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Learning Outcomes

The MAc program develops and enhances accounting skills with a particular focus on research, analysis, interpretation, and the use of technology while emphasizing the problem-solving and communications skills necessary for professional success.

To develop these skills, students should be able to:

- identify a problem in an unstructured setting;
- consider the goals of the decision-maker(s), identify an appropriate solution methodology, and develop possible decision options;
- know how to obtain, assess, and organize information to evaluate the decision options;
- utilize the appropriate data analytics, management tools, and information technologies to evaluate options;
- include qualitative issues—strategic, social, and ethical—when picking the option to execute; and
- communicate the solution in an effective manner.

Requirements

The Master of Accountancy requires 30 s.h. beyond the Bachelor of Business Administration (BBA). The program permits students to specialize in accounting subprograms according to their interests and objectives. It builds on the technical skills acquired in the undergraduate program, broadens students' perspectives on the role of accounting in organizations and decision-making, and further develops written and oral communication skills. The 30 s.h. required for the MAc must include at least 12 s.h. in graduate-level accounting courses and at least 21 s.h. in courses numbered 5000 or above. Some work for the subprogram areas is cross-disciplinary, with courses from other departments as well as accounting.

Students from a variety of academic backgrounds enter the MAc program. Those who enter with an undergraduate degree in accounting can expect to complete the degree in 12 months. Those who enter with a non-accounting undergraduate degree typically require four semesters to complete the MAc. Study plans are adjusted to reflect each student's particular academic background; see the section titled "Students Without Undergraduate Accounting Degrees."

The Master of Accountancy requires the following coursework. Students complete the requirements for their chosen subprogram or for the general program.

Subprogram in Business Analytics

Course #	Title	Hours
Accounting Courses		
This course:		
ACCT:9140	Advanced Auditing	3
Three of these:		
ACCT:9040	Financial Statement Analysis and Forecasting	3
ACCT:9050	Taxes and Business Strategy	3
ACCT:9120	Design and Use of Cost Management Systems	3
ACCT:9130	Financial Reporting: Theory and Practice	3
ACCT:9150	Research Seminar for Tax Professionals	3
Business Analytics Courses		
12 s.h. from these:		
ACCT:4280	Cybersecurity	3
BAIS:6040	Data Programming in Python	3
BAIS:6050	Data Management	3
BAIS:6060	Data Analysis With R	3
BAIS:6070	Data Science	3
BAIS:6100	Text Analytics	3
BAIS:6105	Social Analytics	3
BAIS:6110	Big Data Management and Analytics	3
BAIS:6140	Visual Analytics	3
BAIS:6210	Data Leadership and Management	3
BAIS:9100	Data and Decisions	3
BAIS:9110	Advanced Analytics	3
BAIS:9210	Data Modeling and Automation	3
General Electives		
Total of 6 s.h. from UI courses numbered 3000 and above		

Subprogram in Financial Accounting and Auditing

Course #	Title	Hours
Accounting Courses		
All of these:		
ACCT:9040	Financial Statement Analysis and Forecasting	3
ACCT:9130	Financial Reporting: Theory and Practice	3
ACCT:9140	Advanced Auditing	3
One of these:		
ACCT:9050	Taxes and Business Strategy	3
ACCT:9120	Design and Use of Cost Management Systems	3
ACCT:9150	Research Seminar for Tax Professionals	3

Business Analytics Courses		
6 s.h. from these:		
ACCT:4280	Cybersecurity	3
BAIS:6050	Data Management	3
BAIS:9210	Data Modeling and Automation	3
Finance Courses		
This course:		
MBA:8180	Managerial Finance	3
One of these:		
FIN:9160	Quantitative Finance and Machine Learning	3
FIN:9200	Portfolio Management	3
FIN:9210	Derivatives	3
FIN:9220	Fixed Income Securities	3
FIN:9230	Real Estate Finance and Investments	3
FIN:9240	International Finance	3
FIN:9300	Corporate Finance	3
FIN:9330	Investment Banking	3
FIN:9350	Wealth Management	3
General Electives		
Total of 6 s.h. from UI courses numbered 3000 and above		6

Subprogram in Managerial Accounting

Course #	Title	Hours
Accounting Courses		
This course:		
ACCT:9120	Design and Use of Cost Management Systems	3
Three of these:		
ACCT:9040	Financial Statement Analysis and Forecasting	3
ACCT:9050	Taxes and Business Strategy	3
ACCT:9130	Financial Reporting: Theory and Practice	3
ACCT:9140	Advanced Auditing	3
ACCT:9150	Research Seminar for Tax Professionals	3
Business Analytics Courses		
Two of these:		
ACCT:4280	Cybersecurity	3
BAIS:6050	Data Management	3
BAIS:9210	Data Modeling and Automation	3
Business Electives Outside Accounting		
6 s.h. numbered 5000 or above from BAIS, ECON, ENTR, FIN, LAW, MBA, MGMT, and MKTG ; ACCT:4280/BAIS:4280 also may be used to meet this requirement		6
General Electives		
Total of 6 s.h. from UI courses numbered 3000 and above		

Subprogram in Taxation

Course #	Title	Hours
Accounting Courses		
Three of these:		
ACCT:9040	Financial Statement Analysis and Forecasting	3
ACCT:9120	Design and Use of Cost Management Systems	3
ACCT:9130	Financial Reporting: Theory and Practice	3
ACCT:9140	Advanced Auditing	3
Taxation Courses		
Both of these:		
ACCT:9050	Taxes and Business Strategy	3
ACCT:9150	Research Seminar for Tax Professionals	3
One of these:		
ACCT:9110	Special Topics in Taxation	3
LAW:8194	Basic Federal Income Taxation	3
LAW:8320	Corporate and Partnership Taxation	4
LAW:8322	Corporate Taxation	arr.
LAW:8629	Taxation of International Business Transactions	2-3
LAW:8891	State and Local Taxation	3
LAW:8929	Taxation of Partnerships	2-3
LAW:8981	Trusts and Estates I	3
Business Analytics Courses		
Two of these:		
ACCT:4280	Cybersecurity	3
BAIS:6050	Data Management	3
BAIS:9210	Data Modeling and Automation	3
General Electives		
Students fulfill the remainder of the 30 s.h. with elective UI courses numbered 3000 and above		

General Program

Students who do not wish to pursue a subprogram must complete 30 s.h. beyond the BBA. At least 15 s.h. must be earned in graduate-level accounting courses and at least 21 s.h. must be earned in courses numbered 5000 or above.

The following courses are required.

Course #	Title	Hours
Accounting Courses		
Five of these:		
ACCT:9040	Financial Statement Analysis and Forecasting	3
ACCT:9050	Taxes and Business Strategy	3
ACCT:9120	Design and Use of Cost Management Systems	3
ACCT:9130	Financial Reporting: Theory and Practice	3
ACCT:9140	Advanced Auditing	3
ACCT:9150	Research Seminar for Tax Professionals	3
Business Analytics Courses		

6 s.h. from these:		
ACCT:4280	Cybersecurity	3
BAIS:6050	Data Management	3
BAIS:9210	Data Modeling and Automation	3
General Electives		
Total of 9 s.h. from UI courses numbered 3000 and above		

Students Without Undergraduate Accounting Degrees

Coursework for students who enter the program with a non-accounting bachelor's degree is determined by each student's background and interest area. In addition to meeting the core program requirements for the MAc, students typically take a combination of undergraduate and MBA courses to remove academic deficiencies in quantitative methods, business, and accounting. Students with a bachelor's degree in another area of business typically are required to take 45–51 s.h. in order to complete the MAc program. Those with degrees outside of business and with no accounting courses typically are required to take 57–60 s.h.

Combined Programs

MAc/JD

MAc students have an opportunity to pursue a combined Juris Doctor degree. Students who are interested in pursuing a combined MAc/JD degree should consult with the academic advisors in each program.

Separate application to each degree program is required. Applicants must be admitted to each program before they may be admitted to the combined program.

For information about the JD degree, see Juris Doctor, JD [p. 1833] (College of Law) in the catalog.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Application criteria includes an online application; a résumé (include information about employment, education, extracurricular activities, and community involvement); a statement of purpose (250–500 words); academic transcripts (unofficial transcripts may be submitted with an application; official transcripts will be required for admission); earned bachelor's degree from a U.S. college or university with a minimum grade-point average of 3.00 on a 4.00 scale; or have earned an equivalent from another country; and TOEFL/IELTS/Duolingo scores for international students (may be waived; see application website for details).

Visit the MAc Admissions page on the Tippie College of Business website for full admission details.

Career Advancement

100% of graduating students in the 2023–24 academic year reported that they found permanent employment or were accepted to graduate school.

The Tippie Graduate Career Services team offers multiple resources to help students in their career development journey. Visit Graduate Career Services on the Tippie College of Business website for details.

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Doctor of Philosophy

Graduate students in accounting may earn a Doctor of Philosophy in business administration. For a description of the PhD program and requirements, see the PhD in business administration [p. 1179] in the catalog and visit the Department of Accounting website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Application materials must include the applicant's score on the Graduate Management Admission Test (GMAT).

Learning Outcomes

- To demonstrate proficiency and knowledge in the specialization discipline, students will demonstrate expertise in reading and interpreting academic research articles in their specialized discipline. They will be knowledgeable in the major theoretical perspectives and prior research findings in their area and be able to integrate prior research from various streams of literature.
- To demonstrate the ability to conduct independent, original research that leads to publications, students will be able to identify important research questions, provide theory-based reasoning to develop original hypotheses, execute an appropriate research design, and summarize their efforts in a working paper. This includes being able to read and summarize existing research into their paper and understanding the prior literature in a variety of substantive areas, paradigms, and methodologies.
- To be effective teachers in their disciplines, students will demonstrate proficiency as instructors in courses in their specialized discipline. This includes preparing course syllabi, giving lectures, writing assignments and exams, and evaluating students on the various deliverables.
- To demonstrate effective communication skills, students will be effective at communicating ideas in academic writing and how these ideas relate to each other within the context of an academic paper. This includes the ability to establish a position, show why that position matters, and situate that position within a context that is determined by the appropriate audience. International students will demonstrate the ability to effectively lecture and communicate in English.

Business Administration

Undergraduate minor: business administration

Website: https://tippie.uiowa.edu/

The Tippie College of Business offers a minor in business administration. The minor is open to all University of Iowa undergraduates except BBA students in the Tippie College of Business and College of Liberal Arts and Sciences students in the business studies track of the interdepartmental studies major.

Programs

Undergraduate Program of Study

Minor

- Minor in Business Administration [p. 1156]

Business Administration, Minor

Requirements

The undergraduate minor in business administration requires 36 s.h., including at least 12 s.h. offered by the Tippie College of Business. Students must maintain a grade-point average of at least 2.00 in the minor overall and in all courses in the minor taken at the University of Iowa. Coursework in the minor may not be taken pass/nonpass.

The minor can be earned by all University of Iowa undergraduates except BBA students in the Tippie College of Business and College of Liberal Arts and Sciences students in the business studies track of the interdepartmental studies major.

The minor in business administration requires the following courses or their equivalents. Some of these courses have prerequisites and other requirements for registration; students must complete a course's prerequisites and meet its registration requirements before they may register for the course. For more information, visit Minor in Business Administration on the Tippie College of Business website.

Course #	Title	Hours
ACCT:2100	Introduction to Financial Accounting	3
ACCT:2200	Managerial Accounting Analytics and Data Visualization	3
BAIS:1500	Business Computing Essentials	2
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
FIN:3000	Introductory Financial Management	3
MATH:1350	Quantitative Reasoning for Business	4
MGMT:2000	Introduction to Law	3
MGMT:2100	Introduction to Management	3
MKTG:3000	Introduction to Marketing Strategy	3
STAT:1030	Statistics for Business	4
Total Hours		**36**

Students who will have completed all requirements for the minor when they graduate should indicate a business administration minor on their Application for Degree. Contact the Undergraduate Program Office for more information about the minor in business administration.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students should take either MATH:1350 or a calculus course to complete this requirement.

b Students must meet the stated prerequisites or ALEKS score to enroll in MATH:1350. Discuss math placement with your academic advisor.
c This course has prerequisites. See MyUI course listing for details.
d Enrollment in math courses requires completion of a placement exam.
e This course is designed to be taken early in your studies as the content is important to subsequent classes. See MyUI for prerequisites.
f Check MyUI for course requirements.

Business Analytics

Chair

- Kang Zhao

Director, Undergraduate Program

- Kristina Bigsby

Director, Master of Science in Business Analytics

- Qihang Lin

Director, PhD Program

- Samuel Burer

Undergraduate major: business analytics and information systems (BBA)

Graduate degrees: MS in business analytics; business analytics subprogram for the PhD in business administration

Graduate certificates: artificial intelligence and machine learning; business analytics

Faculty: https://tippie.uiowa.edu/people?department=Business%20Analytics

Website: https://tippie.uiowa.edu/about/business-analytics-department

The Department of Business Analytics specializes in using advanced computational and mathematical techniques to solve critical business problems. Its strengths in research and instruction include artificial intelligence, machine learning, operations management, optimization, natural language processing, network science, and data mining.

The department offers the undergraduate major in business analytics and information systems. Off-campus offerings include the part-time Master of Science program in business analytics a graduate Certificate in Business Analytics, and a graduate Certificate in Artificial Intelligence and Machine Learning, which are offered online. On-campus graduate programs include the full-time Master of Science program in business analytics and the Doctor of Philosophy in business administration with a business analytics subprogram.

The off-campus business analytics (professional) program collaborates with the Iowa MBA program to offer combined MS/MBA degrees. Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

Programs

Undergraduate Program of Study

Major

- Major in Business Analytics and Information Systems (Bachelor of Business Administration) [p. 1164]

Graduate Programs of Study

- Master of Science in Business Analytics [p. 1169]
- Business analytics subprogram for the Doctor of Philosophy [p. 1175] in Business Administration
- Certificate in Artificial Intelligence and Machine Learning [p. 1176]
- Certificate in Business Analytics [p. 1177]

Courses

Business Analytics Courses

BAIS:1300 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

BAIS:1500 Business Computing Essentials **2 s.h.**
Basic proficiency with common business application software (word processing, spreadsheet, presentation software, database); simulation training to achieve requisite skills; additional support available via optional textbook or ebook; online, modular, self-taught course.

BAIS:2800 Foundations of Business Analytics **3 s.h.**
Introduction to business decision-making using data; students transform data into insight using visualization and statistics; introduction to Excel as a tool for business analytics. Prerequisites: (STAT:1030 or STAT:2010 or STAT:3100 or STAT:3101 or STAT:3120 or STAT:3510 or STAT:4100 or BIOS:4120 or PSQF:4143) and (MATH:1350 or MATH:1460 or MATH:1550 or MATH:1850 or MATH:1860) and (BAIS:1500 or CS:1020 or CS:1110 or CS:1210 or CS:2110 or ENGR:1300 or ENGR:2730).

BAIS:2900 Artificial Intelligence in Business **3 s.h.**
Nontechnical course about the integration of artificial intelligence (AI) into businesses. Topics include types of AI, prompt engineering, ethics/risk of AI adoption, and analyzing real-world business cases.

BAIS:3000 Operations Management **2-3 s.h.**
Strategic, tactical, operational issues that arise in management of production and service operations; product and process design, facilities planning, quality management, materials management, operations planning and scheduling, emerging technologies in production and service management. Prerequisites: STAT:2010 or STAT:3120 or STAT:3101 or STAT:2020 with a minimum grade of B or STAT:3510 with a minimum grade of B or BIOS:4120 or STAT:3100 or PSQF:4143 with a minimum grade of B or STAT:1030 or STAT:4100.

BAIS:3005 Information Systems **2 s.h.**
Application of computing principles to solving business problems; information technology in modern organizations; focus on sound data analysis to support decision-making; tools used for problem solving (i.e., databases, Python); role of information systems in organizations; components of information technology; internet and network economy; basic data analysis and visualization; emerging technologies. Prerequisites: BAIS:1500 or CS:1020.

BAIS:3020 Computational Thinking **3 s.h.**
Introduction to algorithmic problem-solving logic with Python; use of data structures and programming constructs to manipulate data and solve business problems. Prerequisites: BAIS:3005 or CS:2110.

BAIS:3025 Business Process Automation 3 s.h.
Explore the essential skills of mapping and measuring business processes and uncovering opportunities for improvement. Through practical exercises and case studies, gain proficiency in process mining, utilizing data to analyze and optimize business processes. Learn the fundamentals of robotic process automation, discovering how automation technologies can streamline and enhance organizational efficiency. Students gain a comprehensive understanding of process analysis and automation, enabling them to drive innovation and operational excellence in diverse business environments. Prerequisites: BAIS:3005 or CS:2110.

BAIS:3050 Business Analytics and Information Systems Professional Preparation 1 s.h.
Information on career opportunities in the fields of business analytics and information systems (BAIS); introduction to the many career avenues available to a BAIS major and how to position oneself for success in those careers.

BAIS:3070 Business Analytics and Information Systems Topics arr.
Special topics in business analytics and information systems.

BAIS:3100 Accounting Systems and Analytics 3 s.h.
Application of computer technology and internal controls to accounting and transaction processing systems; auditing of information systems; information systems infrastructure and trends; problem solving with Python and databases; accounting cycle operations. Prerequisites: ACCT:2200 and ACCT:2100 and (BAIS:3005 or CS:2110). Same as ACCT:3600.

BAIS:3140 Information Visualization 3 s.h.
Instruments for reasoning about quantitative information; analyzing and communicating statistical information; main typologies of data graphics (data-maps, time-series, space-time narrative, relational diagrams, graphs and methods for dimensionality reduction); language for discussing data visualizations combined with knowledge of human perception of visual objects; how to visualize information effectively by using statistical methods, knowledge of human perception, and basics of data graphics. Prerequisites: BAIS:2800 and BAIS:3005.

BAIS:3150 Emerging Technology Driving Business Innovation 3 s.h.
Emerging technologies (i.e., blockchain, Web 3.0, virtual reality, artificial intelligence, etc.) are at the forefront of driving business innovation; students learn from businesses actively using them and identify potential use cases for the technology.

BAIS:3200 Database Management 3 s.h.
Design, implementation, and use of relational database systems; emphasis on conceptual, logical, and physical data modeling; hands-on skill development with Structured Query Language (SQL). Prerequisites: BAIS:3005 or CS:1210 or CS:2110 or CS:2230 or CS:3330 or ENGR:2730.

BAIS:3250 Data Wrangling 3 s.h.
Use of Python programming to collect, process, and manipulate data; application of methods for descriptive and visual analytics to derive insights that can aid business decision-making. Prerequisites: (BAIS:2800 or STAT:2020 with a minimum grade of B or STAT:4101 or ECON:4800) and BAIS:3020 and BAIS:3200.

BAIS:3300 Digital Product Management 3 s.h.
Utilization of Agile project management to manage digital projects; many companies want employees who have experience managing technical projects; students experience each role on a project team as they prioritize backlogs, gather requirements, and deliver features that add value for their customer. Prerequisites: BAIS:3020 and BAIS:3200.

BAIS:3400 Cloud Computing 3 s.h.
Introduction to cloud providers (i.e., Amazon Web Services, Microsoft Azure) and the underlying technology to provide reliable, secure transmission of data between client and cloud provider; hands-on experience configuring compute, storage, database, application, and networking services to provide cost-effective solutions to solve businesses' everyday problems. Prerequisites: BAIS:3005 or CS:2110 or CS:1210.

BAIS:3500 Data Mining 3 s.h.
Introduction to predictive analytics methods motivated by problems in operations, marketing, finance, and health care; data mining techniques including classification, regression, and clustering. Prerequisites: (BAIS:2800 or STAT:2020 with a minimum grade of B or STAT:4101 or ECON:4800) and BAIS:3020 and BAIS:3200.

BAIS:3600 Data Engineering 3 s.h.
Students Identify metrics to measure business initiatives, and identify and manipulate data artifacts necessary to track and measure success of those metrics; topics include ingesting streaming and batch data, creating data pipelines, warehousing appropriate data, and using software to create dashboards to visualize data. Prerequisites: BAIS:3020 and BAIS:3200.

BAIS:3800 Optimization and Simulation Modeling 3 s.h.
Students utilize data and apply logic to construct optimization models to guide business decisions in operations, finance, accounting, marketing, economics, and human resources; leverage data to model uncertainty and construct Monte Carlo simulation models to quantify risk and assess different strategies. Prerequisites: BAIS:2800 or STAT:4101 or ECON:4800 or STAT:2020 with a minimum grade of B.

BAIS:4050 Directed Readings arr.

BAIS:4150 Business Analytics and Information Systems Capstone 3 s.h.
Relevant analytics project experience which facilitates a real professional engagement utilizing Tippie College Business analytics curriculum and delivering value to project sponsors; outcomes include client presentation, steps to recreate analysis, and project report. Prerequisites: BAIS:3250 and BAIS:3500 and ACCT:2200 and BUS:3000.

BAIS:4220 Advanced Database Management and Big Data 3 s.h.
Advanced database management topics; basics of semi-structured data and web services; how to retrieve real-world big data sets from web services; use of SQL and PL/SQL to analyze data in relational databases; big data related topics such as Hadoop and Hive. Prerequisites: BAIS:3200.

BAIS:4280 Cybersecurity 3 s.h.
High-level view of computer security and fostering a cybersecurity mindset which is in demand across all industries; frequent change of perspective from employee to CEO, casual home user, and hacker; broad range of topics; actionable items to make daily digital interactions more secure. Prerequisites: BAIS:3005 or CS:1210 or CS:2110 or CS:2230 or CS:3330 or ENGR:2730. Same as ACCT:4280.

BAIS:4540 Statistical Learning 3 s.h.
Introduction to supervised and unsupervised statistical learning, with a focus on regression, classification, and clustering; methods will be applied to real data using appropriate software; supervised learning topics include linear and nonlinear (e.g., logistic) regression, linear discriminant analysis, cross-validation, bootstrapping, model selection, and regularization methods (e.g., ridge and lasso); generalized additive and spline models, tree-based methods, random forests and boosting, and support-vector machines; unsupervised learning topics include principal components and clustering. Requirements: an introductory statistics course and a regression course. Recommendations: prior exposure to programming and/or software, such as R, SAS, and Matlab. Same as DATA:4540, IGPI:4540, STAT:4540.

BAIS:4999 Honors Thesis in Business Analytics arr.
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University of Iowa Honors Program guidelines; may include empirical research, library research, applied projects.

BAIS:6040 Data Programming in Python 3 s.h.
Introduction to principles and practices of handling, cleaning, processing, and visualizing data using the Python programming language; basic data programming skills that can be applied to software development in any high-level programming language; data types, control structures, functions and modules, and other useful libraries for data manipulation and machine learning applications in Python.

BAIS:6050 Data Management 3 s.h.
Understanding how data is stored in databases and learning the tools used to access the data is key to creating data sets used to answer many business questions; how to manage and access data in relational databases using Structured Query Language (SQL); techniques for presenting data retrieved from databases.

BAIS:6060 Data Analysis With R 3 s.h.
Students practice the steps of handling, cleaning, processing, visualizing, and drawing conclusions from data using R programming language; introduction to additional programming techniques and topics in machine learning; real-world group project; prior programming experience not required.

BAIS:6070 Data Science 3 s.h.
Underlying concepts and practical computational skills of data-mining tools including penalty-based variable selection (LASSO), logistic regression, regression and classification trees, clustering methods, principal components and partial least squares; analysis of text and network data; theory behind most useful data mining tools and how to use these tools in real-world situations; software for analysis, exploration, and simplification of large high-dimensional data sets. Prerequisites: (MBA:8150 or BAIS:9100) and BAIS:6040.

BAIS:6100 Text Analytics 3 s.h.
Concepts and techniques of text mining; practice of using statistical tools to automatically extract meaning and patterns from collections of text documents; topics include document representation, text classification and clustering, sentiment analysis and topic modeling. Prerequisites: BAIS:6040 and BAIS:6070.

BAIS:6105 Social Analytics 3 s.h.
Exploration of collection, management, and analysis of social data (interactions among actors); actors as individuals, organizations, or other collectives; sources for social data including social media, websites, annual reports, press releases, articles, and other traditional media. Prerequisites: BAIS:6040 and BAIS:6070.

BAIS:6110 Big Data Management and Analytics 3 s.h.
Introduction to advanced techniques for managing and analyzing big data using R programming language; non-relational data models, such as semi-structured (XML) and unstructured (key-value) data; state-of-the-art big data tools for non-relational data management, such as NoSQL databases and distributed databases (Hadoop); query languages such as Hive); design and implementation of data analysis methods on these platforms; students use introduced tools to implement analysis tasks on big data sets through exercises and course projects. Prerequisites: BAIS:6050 and BAIS:6040.

BAIS:6120 Analytics Experience 3 s.h.
Students work in groups to complete semester-long projects pertaining to business analytics; all project stages are addressed including problem definition, data cleaning, analysis, and final presentation; appropriate tools from required courses used throughout. Prerequisites: (BAIS:9100 or MBA:8150) and BAIS:6050 and BAIS:9110 and BAIS:6040 and BAIS:6070 and BAIS:6140.

BAIS:6130 Applied Optimization 3 s.h.
Use of optimization to make tactical and strategic decisions and to build machine learning and AI models; advanced optimization skills including data collection and preparation, logical modeling, algorithm enhancements, and solution interpretation and implementation; experience within a software environment; applications in the various functional areas of business. Prerequisites: (BAIS:9100 or MBA:8150) and BAIS:6040.

BAIS:6140 Visual Analytics 3 s.h.
Exposure to problems and challenges of effectively interpreting and communicating the pervasive data that surround us; students cover the area of information visualization, grounded in theoretical foundations of visual perception, cognition, information design, human-computer interaction, and analysis of quantitative, unstructured, and relational data; lecture/seminar format with discussion of assigned readings, critiquing visualization examples; hands-on experience with commercial information visualization tools like Tableau and Power BI; and exploration of select open-source information visualization toolkits.

BAIS:6150 Financial Analytics 3 s.h.
Businesses as well as investors are affected by fluctuating treasury bond rates, equity prices, and foreign exchange rates, and the risk must be measured; students focus on gaining knowledge of the classic financial models and statistical and risk metrics and scaling them up with analytics techniques (sorting with thresholds, portfolio optimization, decision trees, and database programming) to find the best investments based on historical data sets; beginning with descriptive analytics and pushing into predictive and prescriptive analytics, students build a software simulation laboratory using R. Prerequisites: (BAIS:9100 or MBA:8150) and BAIS:6040.

BAIS:6160 Big Data Analytics 3 s.h.
Principles of data mining and machine learning in the context of big data; basic data mining principles and methods (pattern discovery, clustering and ordering); analysis of different types of data (sets and sequences); machine learning topics including supervised and unsupervised learning, tuning model complexity, dimensionality reduction, nonparametric methods, comparing and combining algorithms, and applications of these methods; development of analytical techniques to cope with challenging and real big data problems; introduction to graphics processing unit (GPU) computing tools. Prerequisites: (BAIS:9100 or MBA:8150) and BAIS:6060.

BAIS:6170 Directed Readings - Graduate Business Analytics arr.
Project and/or research with a faculty member as part of the graduate business analytics program. Requirements: enrollment in graduate business analytics program.

BAIS:6180 Healthcare Analytics 3 s.h.
Clinical data management is essential for evaluating evidence-based practice/performance-improvement projects; a high quality data management plan provides key stakeholders with information necessary to make decisions; plan components include identified processes and outcomes linked to variables and data sources, adequate statistical power, data cleaning and manipulation techniques, statistical methods, and meaningful presentation of variables that address stakeholder concerns and questions; students gain knowledge and skills necessary to develop and execute a data management plan within a final project. Prerequisites: (BAIS:9100 or MBA:8150) and BAIS:6050.

BAIS:6190 Forecasting 3 s.h.
Forecasting plays a central role in business decision-making, and accurate forecasts are needed when making decisions about investments, resource allocations, schedules, and inventory levels; quantitative forecasting tools; extrapolation of time series data (e.g., daily, weekly, monthly sales); exponential smoothing methods: time series extrapolations from autoregressive and autoregressive integrated moving average (ARIMA) Box-Jenkins models; regression models that predict a variable of interest from its own history as well as any other available information (e.g., sales promotions, price reductions); methods for assessing performance of forecasting methods. Prerequisites: MBA:8150 or BAIS:9100.

BAIS:6210 Data Leadership and Management 3 s.h.
Core chief information officer (CIO) basics; focus on how to keep technology, systems, and procedures supporting business goal outcomes including management of information technology (IT)) teams, systems selection, vendor negotiation, change, information risk, data integrity, ethics, information system (IS) policies, strategies, cloud computing, and budget.

BAIS:6220 Business Analytics Certification Workshop 0-3 s.h.
Preparation for one or more industry certifications in the field of business analytics; certification varies based on timing of course and current trends in business analytics; several options include certifications related to programming languages (e.g., Python, R, SQL), analytics tools (e.g., Tableau, PowerBI), or general professional skills certifications (e.g., Associate Certified Analytics Professional, Certified Associate in Project Management).

BAIS:6230 People Analytics 3 s.h.
Developing, interpreting, and making decisions related to knowledge of human behavior, performance characteristics, and tendencies for organizational success and competitive advantage; data driven frameworks, strategies, and methods for job assignment, scheduling, skill acquisition, staffing, and cross training.

BAIS:6240 Value Creation Using Artificial Intelligence 3 s.h.
Comprehensive understanding of how artificial intelligence (AI) can be harnessed to create value in various business sectors including AI fundamentals; frameworks for value creation; competitive strategies using AI; critical success factors for AI-based projects; and the identification of impactful use cases for a given industry. Ethical considerations, privacy, trust, and security issues related to AI will also be addressed.

BAIS:6250 Applied Deep Learning 3 s.h.
Introduces deep learning and its practical applications. Learn key architectures such as convolutional neural networks, recurrent neural networks, and transformers; explore their practical uses in natural language processing, computer vision, and time series forecasting, and gain hands-on experience with Python libraries like PyTorch. Prerequisites: (MBA:8150 or BAIS:9100) and BAIS:6040 and BAIS:6070.

BAIS:6260 Generative Artificial Intelligence 3 s.h.
Introduction to basics of generative artificial intelligence (AI) models and their practical applications. Key concepts include modal representation and generative models, scalability aspects of these models, and implementation techniques such as pretraining, finetuning, and prompt engineering. Emphasizes hands-on skills, including how to work with pretrained models, evaluate performance, and ensure alignment with goals. Business case studies will help students apply AI responsibly and set realistic expectations for its use. Ethical issues, privacy concerns, and the regulatory landscape will be discussed to prepare students for challenges of using AI in real-world settings. Prerequisites: (MBA:8150 or BAIS:9100) and BAIS:6040 and BAIS:6070. Corequisites: BAIS:6250. Requirements: MS in business analytics professional students must complete BAIS:6250 as a prerequisite.

BAIS:6280 Cybersecurity 3 s.h.
High-level view of computer security and fostering a cybersecurity mindset which is in demand across all industries; frequent change of perspective from employee to CEO, casual home user, and hacker; broad range of topics; actionable items to make daily digital interactions more secure.

BAIS:6300 Dynamic Programming 3 s.h.
Fundamentals of discrete sequential dynamic programming with special focus on situations in which outcomes are uncertain; formulation and analysis of deterministic and stochastic dynamic programs under several objective criteria; emphasis on rapidly expanding field of approximate dynamic programming; applications including inventory control, vehicle routing, and resource allocation.

BAIS:6400 Cloud Computing 3 s.h.
Introduction to cloud providers (i.e., Amazon Web Services, Microsoft Azure) and underlying technology to provide reliable, secure transmission of data between client and cloud provider; hands-on experience configuring compute, storage, database, application, and networking services to provide cost-effective solutions to solve businesses' everyday problems.

BAIS:6420 Advanced Database Management and Big Data 3 s.h.
Advanced database management topics; basics of semi-structured data and web services; how to retrieve real-world big data sets from web services; use of SQL and PL/SQL to analyze data in relational databases; big data related topics (e.g., Hadoop, Hive). Same as IGPI:6420.

BAIS:6480 Knowledge Discovery 3 s.h.
Knowledge discovery process including data reduction, cleansing, and transformation; advanced modeling techniques from classification, prediction, clustering, and association; evaluation and integration. Same as IGPI:6480.

BAIS:6500 Social Network Analytics: Models and Algorithms 3 s.h.
Preparation for future research in computational network analysis; introduction to methodology for analyzing various types of complex networks including social networks, information networks, and business networks; basic concepts of networks, models for network structures and dynamics, computational algorithms for analyzing networks; hands-on experience with analyzing real-world networks using third-party software or programming APIs.

BAIS:6600 Linear Programming 3 s.h.
Mathematical programming models; linear and integer programming, transportation models, large-scale linear programming, network flow models, convex separable programming. Requirements: calculus and linear algebra. Same as IGPI:6600, ISE:6600.

BAIS:6700 Discrete Optimization 3 s.h.
Introduction to modeling and solving discrete optimization problems; integer programming, network flows, dynamic programming. Prerequisites: BAIS:6600. Same as IGPI:6700.

BAIS:6900 Heuristic Search 3 s.h.
Design of heuristic search algorithms to find good (near-optimal) solutions to difficult (NP-hard) optimization problems that occur in many disciplines; basic heuristic concepts (local search, greedy search, problem decomposition) which serve as fundamental constructs for metaheuristics, including simulated annealing, genetic algorithms, tabu search, variable neighborhood search; introduction to various optimization problems and survey of various heuristic approaches; underlying theoretical structure of several heuristic methods; how to implement a heuristic algorithm.

BAIS:6999 Graduation Registration Requirement 1 s.h.
Requirements: professional business analytics MS degree candidate in final semester and all mandatory courses completed.

BAIS:7000 Business Analytics Topics 3 s.h.
Same as IGPI:7000.

BAIS:7110 Managerial Communication 1 s.h.
Effective communication to become a successful business professional and leader; strengthen ability to speak and write confidently, competently, and effectively regardless of venue; varied team and individual presentation coaching, applied exercises.

BAIS:7120 Advanced Technical Communication 1 s.h.
Developing readiness for interacting with clients including status reports, balancing technicality based on audience, and delivering a presentation to an external audience about a finished work product. Corequisites: BAIS:6120.

BAIS:7500 Statistical Machine Learning 3 s.h.
Regularization methods for sparse models, computational algorithms for large scale problems, statistical inference in high-dimensional models, reproducing kernel Hilbert space, supervised learning, nonparametric density and conditional density estimation, neural networks and deep learning, optimal transport and generative learning, dimension reduction and representation learning. Prerequisites: STAT:5100 or STAT:5200. Same as STAT:7500.

BAIS:7900 Special Topics in Business Analytics arr.

BAIS:7925 Machine Learning and Causal Inference 3 s.h.
Exploration of methods and research at intersections of machine learning and causal inference; examination of intersections related to regression and classification, regularization, treatment effects, counterfactuals, text analytics, dimensionality reduction, and causal trees.

BAIS:7950 Directed Readings arr.

BAIS:7975 Thesis in Business Analytics arr.
Requirements: PhD enrollment.

BAIS:8130 Business Communication 1-3 s.h.
Effective communication to become a successful business professional and leader; strengthen ability to speak and write confidently, competently, and effectively regardless of venue; varied team and individual presentation coaching, applied exercises. Requirements: admission to MS in business analytics (career) program.

BAIS:9010 Contemporary Topics in Analytics 1-3 s.h.
Content from cutting edge topics in business analytics, operations, and project management; topics vary.

BAIS:9100 Data and Decisions 3 s.h.
Introduction to business analytics; utilizing Excel to apply descriptive and predictive analytical tools to solve practical business problems using real world data; dealing with uncertainty in decision-making; formal probability concepts and statistical methods for describing variability (decision trees, random variables, hypothesis testing); application of techniques (linear regression, Monte Carlo simulation, linear optimization) to model, explain, and predict for operational, tactical, and strategic decisions.

BAIS:9110 Advanced Analytics 2-3 s.h.
Development of data-driven, problem-solving skills for prediction of uncertain outcomes and prescription of business solutions; linear and nonlinear regression, Monte Carlo simulation, forecasting, data mining, and optimization utilizing spreadsheets and dedicated software packages. Prerequisites: MBA:8150 or BAIS:9100.

BAIS:9120 Managing the Supply Chain 2-3 s.h.
Design, operation, and management of a supply chain; supplier and customer partnerships, supply base management, transportation and logistics, supply chain innovation, supply chain sustainability; supply chain risk management and performance metrics. Prerequisites: MBA:8240.

BAIS:9130 Lean Process Improvement 3 s.h.
Design, management, and improvement of business processes which form the basis of every organization, ranging from manufacturing facilities to service providers and from for-profits to nonprofits; students learn the principles of lean thinking and continuous improvement through a series of hands-on exercises; team-based, data-driven approach on how to map a value stream, identify waste, analyze root causes, and brainstorm countermeasures for a variety of different processes. Recommendations: MBA:8240.

BAIS:9140 Agile Project Management 3 s.h.
Students prepare to create or participate in a successful agile work environment; learn various agile methods (e.g., scrum, lean, Kanban, XP); understand and apply tools, techniques, and approaches in an agile setting; and how to apply advanced agile topics (e.g., story mapping, advanced planning and estimating, scaling methods).

BAIS:9160 Supply Chain Analytics 2-3 s.h.
Supply chain analytics applications for decision-making including demand forecasting, inventory management, capacity planning, and supply chain coordination. Prerequisites: MBA:8150 or BAIS:9100.

BAIS:9210 Data Modeling and Automation 2-3 s.h.
Designed for professionals and students aiming to master the integration of tools such as Visual Basic for Applications (VBA) and Alteryx for enhanced data processing and analysis; delves into advanced techniques of data modeling, leveraging the robust capabilities of both VBA and Alteryx.

BAIS:9220 Introduction to Information Systems 3 s.h.
Effective ways for business firms to harness the power of information technology for strategic purposes; conventional and emerging architectures of information systems; integrated perspective on structural relationships among IT components; emphasis on case studies.

BAIS:9300 Innovations in Technology 2-3 s.h.
Current innovations in technology; examination of virtual reality including basics, hardware and history, applications, psychology; focus on experiencing prebuilt environments to develop an understanding of how virtual reality can be used in different industries rather than on building virtual reality environments; technical background not required.

BAIS:9400 Professional Development and Business Acumen 0-3 s.h.
Professional development and business acumen in preparation for a postgraduate career; students explore how to grow a professional network, examine how to build depth of knowledge and breadth of business acumen, gain knowledge from industry professionals on current trends and activities in business analytics, and receive guidance and best practices on career management fundamentals as well as specific recommendations for business analytics students; exposure to relevant information important to student's major that does not clearly fit into academic coursework.

Business Analytics and Information Systems, BBA

Common BBA Requirements

The Bachelor of Business Administration (BBA) requires a minimum of 120 s.h. of credit, including at least 48 s.h. earned in business courses and at least 52 s.h. earned in non-business courses.

BBA students must earn 45 s.h. at the University of Iowa following admission to the BBA program. At least 24 s.h. in business courses must be earned with Tippie College of Business coursework. At least two-thirds of the semester hours in a student's major must be earned in the student's major department at the Tippie College of Business. Nonresident instruction includes coursework at colleges and universities other than the University of Iowa.

To graduate, BBA students must have a cumulative grade-point average of at least 2.00 in all college-level coursework attempted, all college-level business coursework attempted, all college-level major coursework attempted, all college-level coursework attempted at the University of Iowa, all college-level business coursework attempted at the University of Iowa, and all college-level major coursework attempted at the University of Iowa.

Common BBA Requirements

BBA students must fulfill the following common requirements or approved equivalents. For approved equivalents, consult the college's Undergraduate Program Office.

General Education

Students may not count courses taken to fulfill General Education Program requirements toward other course requirements for the BBA.

Course #	Title	Hours
Historical Perspectives		3
International and Global Issues		3
Interpretation of Literature		3
Natural Sciences (without lab)		3
Rhetoric		4
Social Sciences (excluding ECON:1100 and ECON:1200)		3
Understanding Cultural Perspectives		3
Values and Society		3
World Languages		0-10

World Languages

Tippie College of Business students may complete the World Languages requirement using one of three options. One year of high school language study is generally equivalent to one semester of college language study.

Option One

Attain fourth level proficiency in a single world language. Students attain fourth level proficiency in a single world language by completing four years of that language in high school or four semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at fourth level proficiency.

Option Two

Attain third level proficiency in a single world language and complete a World Language and Cultural Exploration course. Students attain third-level proficiency in a single world language by completing three years of that language in high school or three semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at third-level proficiency. Option two does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Option Three

Attain second level proficiency in each of two world languages. Students attain second level proficiency in each of two world languages by completing two years of each language in high school or two semesters of each language in college, or an equivalent combination of high school and college coursework, or pass achievement tests and/or evaluations at second-level proficiency in each language. Option three does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Prerequisites for Admission to the BBA Program

Course #	Title	Hours
BAIS:1500	Business Computing Essentials	2
ECON:1100	Principles of Microeconomics	4
MATH:1350	Quantitative Reasoning for Business	4
RHET:1030	Rhetoric: Writing and Communication	4
STAT:1030	Statistics for Business	4

Prerequisites for Declaring a BBA Major

Course #	Title	Hours
ACCT:2100	Introduction to Financial Accounting	3
ECON:1200	Principles of Macroeconomics	4

BBA Core

Course #	Title	Hours
ACCT:2200	Managerial Accounting Analytics and Data Visualization	3
BAIS:2800	Foundations of Business Analytics	3
BAIS:3000	Operations Management	2
BAIS:3005	Information Systems	2
BUS:2200	Discover Business at Tippie	1
BUS:3000	Business Communication and Professionalism	3
FIN:3000	Introductory Financial Management	3
MGMT:2000	Introduction to Law	3
MGMT:2100	Introduction to Management	3
MKTG:3000	Introduction to Marketing Strategy	3

Experiential Learning Requirement: Tippie RISE

RISE is an acronym for hands-on experiential learning in the form of research with faculty, internship course, study abroad, and experiential course. All BBA students in the Tippie College of Business students must successfully complete at least one of these four experiences. Courses that satisfy Tippie RISE are as follows.

Research With Faculty

Working closely with a faculty mentor, students explore a research question of interest for a semester or more. By conducting academic research, students enhance their critical thinking skills, learn techniques to collect and analyze data, and apply their findings to business practices. These skills are highly useful for a variety of businesses and graduate programs.

Course #	Title	Hours
ACCT:4999	Honors Thesis in Accounting	arr.
BAIS:4999	Honors Thesis in Business Analytics	arr.
BUS:3600	Mentored Research	arr.
BUS:4999	Honors Thesis in Business	arr.
ECON:4999	Honors Thesis in Economics	arr.
FIN:4999	Honors Thesis in Finance	arr.
MGMT:4999	Honors Thesis in Management	arr.
MKTG:3702	Marketing Institute Seminar II	2
MKTG:4999	Honors Thesis in Marketing	arr.
URES:3992	Undergraduate Research and Creative Projects	0
URES:3993	Undergraduate Research and Creative Projects	1-4
URES:3994	Undergraduate Research and Creative Projects	1-4
URES:3995	Independent Creative Research by Undergraduates Summer Internship	0

Internship Course

As students gain valuable hands-on work experience in a professional internship, they complete one of the approved internship courses to assist them in having a meaningful learning experience. The internship courses encourage students to take on relevant job responsibilities, outline strategies to meet internship goals, regularly communicate with their supervisors, explore the career field, and reflect on their growth throughout the experience.

Course #	Title	Hours
BUS:3100	Academic Internship or Cooperative Education	0
BUS:3900	Business Communication Internship I	3
BUS:4900	Academic Internship	arr.
CCP:1201	Academic Internship	1-3
CCP:2020	Washington Center Internship Program	arr.
CCP:2202	International Student Full-Time Academic Internship	9
ENTR:4300	Launching an Entrepreneurial Venture	arr.
ENTR:4900	Academic Internship	arr.
EVNT:2110	Internship in Event Management	3
LS:3011	Leadership Certificate Capstone	0-2
SRM:4199	Independent Sport and Recreation Field Experience	arr.

Study Abroad

By taking advantage of short-term, summer, semester, or academic year programs, students can expand their worldview and learn alternative business and cultural practices outside of the United States. Students can participate in Tippie RISE study abroad programs such as London Winter, International Business in Sydney, CIMBA Italy, Global Internships, spring break programs through the John Pappajohn Entrepreneurial Center, or any of the many UI study abroad programs in over 40 countries. Any study abroad program is accepted for credit, including virtual programs, short-term faculty-led programs, and summer, semester, or year-long programs. These courses may be study abroad courses (prefix ABRD) or select study abroad international activities courses (prefix INTL) but are not required to be; see Study Abroad [p. 2215] in the catalog.

Experiential Course

In approved experiential courses, students improve their understanding of academic concepts by applying them to a class project with a company or nonprofit organization. Using real circumstances and issues, students engage with the organization to make a lasting impact. Students have support from classmates and guidance from their instructor throughout the duration of the project. Experiential courses are offered in many BBA majors and as business and non-business electives. Courses must be taken at the University of Iowa to satisfy Tippie RISE.

Course #	Title	Hours
ACCT:3451	Tax Practicum (VITA) II (spring only)	1
BAIS:4150	Business Analytics and Information Systems Capstone	3
BUS:3920	Business Case Competitions Professional Preparation	arr.
ECON:3360	Experimental Economics	3
ENTR:4100	International Entrepreneurship, Culture, and Social Impact	1-3
ENTR:4200	Entrepreneurship: Business Consulting	3
FIN:4250	Applied Equity Valuation	3
FIN:4310	Advanced Corporate Finance	3
FIN:4350	Applied Wealth Management	3
FIN:4410	Enterprise Risk Management	3
FIN:4420	Property and Liability Insurance	3
FIN:4460	Insurer Operations and Captive Management	3
LS:1024	Hawkeye Service Breaks (spring only)	3

LS:3002	Career Leadership Academy Part 2: Leadership in Action	3

MKTG:3701	Marketing Institute Field Studies	2
MKTG:4250	Marketing and Sustainability	3
MKTG:4800	Marketing Consulting Project	3
SRM:4197	Sport and Recreation Field Experience (not fans first section)	arr.

Major Area of Study

All BBA students must complete a major area of study. The college offers BBA majors in accounting [p. 1140], business analytics and information systems [p. 1158], economics [p. 1185], entrepreneurship, finance [p. 1208], management [p. 1236], marketing [p. 1261], and risk management and insurance [p. 1219]. The requirements for each major are established by the department that offers the major.

Students With Associate of Arts Degrees

Students who have been granted an Associate of Arts (AA) from a community college participating in the Iowa and Illinois Community College/Regents Articulation Agreements are considered to have met all high school unit requirements for admission to the BBA and all of the General Education Program requirements listed under "General Education Requirements," except the Understanding Cultural Perspectives and World Languages requirements. The program of study for which a student was awarded the AA must have included:

- a minimum of 60 s.h. (or 90 quarter hours) of credit acceptable toward graduation from the University of Iowa;
- completion of the agreed-upon group of courses at the community college; and
- a GPA of at least 2.00.

Mathematics courses comparable to MATH:0100 Basic Algebra I are not accepted toward graduation. Completion of an Associate of Arts does not guarantee admission to the BBA program in the Tippie College of Business. See Admission in Undergraduate Programs [p. 1132] for a complete list of requirements for admission to the BBA.

Students who use the provisions of the articulation agreement are granted a maximum of 60 s.h. of transferable credit from two-year colleges toward the 120 s.h. required for a BBA. Credit earned for the AA beyond the 60 s.h. transferable maximum is used in computing a student's grade-point average, and it may be used to satisfy course requirements, but it does not count toward the BBA. Transfer credit for business courses taken during the first and second years is counted toward the BBA only if such courses are usually offered as lower-division courses at the University of Iowa.

Transfer Courses

Students who have taken courses at another institution that are similar to those approved for the common business requirements at Iowa may request that these courses be evaluated for transfer credit. Students who transfer fewer hours than needed to meet a common business requirement may use only approved courses to complete the remainder of the requirement. Only courses taken at accredited four-year institutions may be used to satisfy business course requirements numbered 3000 or above. Students must complete a minimum of 24 s.h. of business coursework at Iowa and at least two-thirds of the coursework in the major in the department awarding the major. They must also meet the 45 s.h. residence requirement of the Tippie College of Business. Credit earned through online courses may be counted toward all requirements for graduation, subject to approval by a student's major department.

Multiple Majors in Business

Students may earn the BBA degree with more than one major; they may also combine the BBA degree with the Bachelor of Arts or Bachelor of Science in economics (except for the BBA in economics). The Four-Year Graduation Plan is not available to students earning more than one major or degree. Students have access to degree audits in MyUI for all of the programs of study they have officially declared. They also have access to all program courses, with some limitations, during early registration. A student must be in good academic standing in order to declare more than one major. See Double Majors and Joint Degrees on the Tippie College of Business website.

Requirements

The Bachelor of Business Administration with a major in business analytics and information systems (BAIS) requires a minimum of 120 s.h., including 22 s.h. of work for the major. Students must have a cumulative grade-point average (GPA) of at least 2.00 in all college coursework attempted, all college coursework attempted in business, all college coursework attempted in the major, all coursework attempted at the University of Iowa, all business coursework attempted at the University of Iowa, and all coursework in the major attempted at the University of Iowa.

The program provides a variety of educational experiences that develop students' knowledge of managerial decision-making systems. Students acquire skills in applying this knowledge by constructing quantitative models, using computer technology, and creating database systems.

Students earning the BAIS major may not earn the major or minor in informatics.

The BBA with a major in business analytics and information systems requires the following coursework. For BBA requirements, see "Common BBA Requirements" in this section of the catalog.

Requirements	Hours
Required Courses	16
Required Electives	6

Required Courses

Course #	Title	Hours
All of these:		
BAIS:3020	Computational Thinking	3
BAIS:3050	Business Analytics and Information Systems Professional Preparation	1
or FIN:3500	Hawkinson Scholar Seminar	
BAIS:3200	Database Management	3
BAIS:3250	Data Wrangling	3
BAIS:3500	Data Mining	3
BAIS:4150	Business Analytics and Information Systems Capstone	3

Required Electives

Students are not guaranteed specific elective options. The availability of courses outside the Department of Business Analytics may be subject to prerequisites or restricted to students who have declared a second major within the respective department.

Course #	Title	Hours
At least 6 s.h. from these; at least 3 s.h. must be in business analytics courses (prefix BAIS):		
BAIS:3025	Business Process Automation	3
BAIS:3070	Business Analytics and Information Systems Topics	arr.
BAIS:3100/ ACCT:3600	Accounting Systems and Analytics	3
BAIS:3140	Information Visualization	3
BAIS:3150	Emerging Technology Driving Business Innovation	3
BAIS:3300	Digital Product Management	3
BAIS:3400	Cloud Computing	3
BAIS:3600	Data Engineering	3
BAIS:3800	Optimization and Simulation Modeling	3
BAIS:4220	Advanced Database Management and Big Data	3
BAIS:4280/ ACCT:4280	Cybersecurity	3
BAIS:4540/ DATA:4540/ IGPI:4540/ STAT:4540	Statistical Learning	3
CS:1210	Computer Science I: Fundamentals	4
ECON:3300	Introduction to Econometrics: Causal Inference With Data	3
ECON:3355	Economic and Business Forecasting	3
MKTG:3102	Marketing Analytics	3
Any computer science course for which CS:1210 is a prerequisite		3-4

Career Advancement

The business analytics and information systems major prepares students for wide-ranging analytics and technology related opportunities. Graduates successfully seek careers as business analysts, data analysts, systems analysts, technology consultants and managers, and in many other types of technology and data-related careers. Graduates work in all different organizations across all industries. More details about the major and careers can be found in the Business Analytics and Information Systems Toolkit on the University Libraries website.

According to the Pomerantz Career Center's postgraduation data, 98% of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs. For more information about careers, visit the Pomerantz Career Center website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Business Analytics and Information Systems, BBA

Course	Title	Hours
Academic Career		
Any Semester		
Students are required to complete 52 s.h. of non-business coursework. Courses with a prefix of ACCT, BAIS, BUS, ECON, ENTR, FIN, MGMT, and MKTG will not count towards non-business hours. Check degree audit for non-business hours or confer with academic advisor.		
Students who need to complete the World Language requirement should consult with their academic advisor about when to add courses to plan of study. World Language counts as non-business coursework.		
To fulfill the Tippie RISE experiential learning requirement, complete an approved course in at least one of the following categories: research with faculty, internship course, study abroad, experiential course. [a]		0 - 3
Students must satisfy the Tippie College of Business residence requirement: 45 s.h. of UI coursework after admission to Tippie.		
Completion of BAIS:2800 Foundations of Business Analytics, BAIS:3000 Operations Management, and BAIS:3005 Information Systems by the end of the second year or no later than the first semester of the third year is essential for major course sequencing.

	Total Hours	**122-126**

a See degree audit for course options.

b Enrollment in math courses requires completion of a placement exam.

c GE courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Must be admitted to Tippie to enroll in BUS:3000. Generally completed during the second year, but should be taken no later than the third year.

e Select from list of approved courses in the General Catalog or on degree audit.

f Students should consider in their planning that ACCT:2200, BAIS:3250, BAIS:3500, and BUS:3000 are prerequisites for the capstone course.

g Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Business Analytics, MS

The digital revolution has generated vast amounts of data, presenting challenges and opportunities for businesses to gain a competitive edge by mastering this data. Business analytics specialists bridge this gap, and the Master of Business Analytics program, offered in full-time and part-time formats, addresses the need to manage and analyze data for business decision-making.

The full-time STEM-designated program in Iowa City spans two semesters and includes core courses, a capstone, and electives in three subprogram areas: artificial intelligence and machine learning, artificial intelligence and technology management, and finance analytics. The part-time program offers online analytics and business elective courses, with occasional in-person business electives in Des Moines. Graduate certificates in artificial intelligence and machine learning or artificial intelligence and technology management can be embedded into the part-time program without taking any additional coursework through appropriate elective selection.

The program equips students with skills to transform raw data into actionable insights, moving beyond descriptive and diagnostic analytics to predictive and prescriptive analytics.

Learning Outcomes

Graduates will exhibit knowledge and skills relevant to data and its applications in business. They will demonstrate competence in the subareas of:

- descriptive analytics;
- predictive analytics; and
- prescriptive analytics.

Graduates will create and communicate solutions to data-related business problems that impact their organizations and communities. They will:

- approach, address, and solve a loosely defined business problem requiring the use, exploration, and analysis of data; and
- communicate effectively through oral, written, and visual forms.

Graduates will understand and explore ethical issues related to the use of data in the modern world. They will:

- contemplate ethical issues arising in their own work; and
- express a working knowledge of the major ethical issues facing the business analytics profession, supported with examples from current events.

Graduates will demonstrate the ability to be effective team members in a diverse and complex world. They will:

- engage in effective team processes; and
- lead and support others to achieve collective goals.

Full-Time Programs

The full-time Master of Science program in business analytics requires a minimum of 33 s.h. of graduate credit. Transfer credit may be accepted with approval from the program. A Graduate College major program grade-point average (GPA) and a UI cumulative GPA of at least 2.75 is required in all coursework. The degree offers three subprograms: artificial intelligence and machine learning, artificial intelligence and technology management, and finance analytics.

The full-time MS in business analytics requires the following coursework.

Requirements	Hours
Core Courses	24
Subprogram Courses	9

Core Courses

Students in all subprograms take the following required courses for a total of 24 s.h.

Course #	Title	Hours
All of these (24 s.h.):		
BAIS:6040	Data Programming in Python	3
BAIS:6050	Data Management	3
BAIS:6070	Data Science	3
BAIS:6120	Analytics Experience	3
BAIS:6140	Visual Analytics	3
BAIS:6250	Applied Deep Learning	3
BAIS:7110	Managerial Communication	1
BAIS:7120	Advanced Technical Communication	1
BAIS:9110	Advanced Analytics	3
BAIS:9400	Professional Development and Business Acumen	1

Subprogram Courses

Artificial Intelligence and Machine Learning

This subprogram provides students with a deeper understanding of artificial intelligence (AI) technologies within a business context.

The MS in business analytics with an artificial intelligence and machine learning subprogram requires the following coursework.

Course #	Title	Hours
All of these (9 s.h.):		
BAIS:6100	Text Analytics	3
BAIS:6105	Social Analytics	3
BAIS:6260	Generative Artificial Intelligence	3

Artificial Intelligence and Technology Management

This subprogram prepares professionals to lead in technology-driven environments, focusing on the intersection of technology and management to equip students with the skills to navigate and lead in a digital world.

The MS in business analytics with a subprogram in artificial intelligence and technology management requires the following coursework.

Course #	Title	Hours
All of these (9 s.h.):		
BAIS:6210	Data Leadership and Management	3

BAIS:6240	Value Creation Using Artificial Intelligence	3
BAIS:9140	Agile Project Management	3

Finance Analytics

This subprogram offers students an interdisciplinary path, i.e., a business analytics degree with a focus on data-driven decision making in finance, preparing them for specific business domains.

The MS in business analytics with a subprogram in finance analytics requires the following coursework.

Course #	Title	Hours
All of these (9 s.h.):		
BAIS:6100	Text Analytics	3
FIN:9300	Corporate Finance	3
MBA:8180	Managerial Finance	3

Professional Program

The part-time Master of Science program in business analytics (professional) requires a minimum of 30 s.h. of graduate credit. Students must have a Graduate College major program grade-point average (GPA) and a UI cumulative GPA of at least 2.75 to satisfy degree requirements.

With program approval, students may count up to a maximum 6 s.h. of graduate transfer credit toward program coursework requirements. Students who wish to include the 15 s.h. earned from the Certificate in Business Analytics toward the business analytics master's degree may do so as long as the coursework is not more than 10 years old from the date when the business analytics master's degree is conferred.

The part-time Master of Science program in business analytics (professional) requires the following coursework.

Requirements	Hours
Core Courses	18
Electives	12

The core courses develop competency in business analytics skills and key functional concepts while elective coursework allows students to deepen or broaden their proficiencies. Students must complete all course prerequisites before taking a given course. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

Core Courses

Course #	Title	Hours
All of these:		
BAIS:6040	Data Programming in Python	3
BAIS:6050	Data Management	3
BAIS:6070	Data Science	3
BAIS:6140	Visual Analytics	3
BAIS:9110	Advanced Analytics	3
One of these:		
BAIS:9100	Data and Decisions	3
MBA:8150	Data and Decisions	3

If a core course is waived, it must be replaced with an approved analytics elective to reach the 30 s.h. of graduate credit.

Electives

The following list includes all approved electives. Not all courses are offered on a regular basis.

Course #	Title	Hours
12 s.h. from these:		
BAIS:6060	Data Analysis With R	3
BAIS:6100	Text Analytics	3
BAIS:6105	Social Analytics	3
BAIS:6110	Big Data Management and Analytics	3
BAIS:6130	Applied Optimization	3
BAIS:6150	Financial Analytics	3
BAIS:6180	Healthcare Analytics	3
BAIS:6190	Forecasting	3
BAIS:6210	Data Leadership and Management	3
BAIS:6230	People Analytics	3
BAIS:6240	Value Creation Using Artificial Intelligence	3
BAIS:6250	Applied Deep Learning	3
BAIS:6260	Generative Artificial Intelligence	3
BAIS:6280	Cybersecurity	3
BAIS:9010	Contemporary Topics in Analytics	1-3
BAIS:9130	Lean Process Improvement	3
BAIS:9140	Agile Project Management	3
MKTG:9310	Marketing Analytics	3
May include 6 s.h. from these:		
ACCT:9020	Strategic Cost Analysis	3
ACCT:9040	Financial Statement Analysis and Forecasting	3
BAIS:9300	Innovations in Technology	3
ECON:9100	Digital Economics	3
ENTR:9100	Entrepreneurship and Innovation	3
ENTR:9200	Entrepreneurial Finance	3
ENTR:9300	Design Thinking	3
ENTR:9450	Strategic Management of Technology and Innovation	3
ENTR:9500	Managing the Growth Business	3
FIN:9130	Corporate Risk Management and Insurance	3
FIN:9140	Enterprise Risk Management	3
FIN:9150	Financial Modeling and Firm Valuation	3
FIN:9160	Quantitative Finance and Machine Learning	3
FIN:9200	Portfolio Management	3
FIN:9210	Derivatives	3
FIN:9220	Fixed Income Securities	3
FIN:9230	Real Estate Finance and Investments	3
FIN:9240	International Finance	3
FIN:9300	Corporate Finance	3
FIN:9310	Corporate Financial Strategy	3
FIN:9350	Wealth Management	3

MBA:8110	Marketing Management	3
MBA:8120	Management in Organizations	3
MBA:8130	Business Communication	3
MBA:8140	Corporate Financial Reporting	3
MBA:8160	Managerial Economics	3
MBA:8180	Managerial Finance	3
MBA:8240	Operations and Supply Chain	3
MBA:8300	Foundations in Strategy	3
MBA:8430	Communication With Artificial Intelligence and Business Technology	3
MBA:8500	Seminar in International Business	3
MBA:9130	Leadership Communication and Story	3
MGMT:9090	Influence and Constructive Persuasion	3
MGMT:9091	Corporate Social Responsibility and Sustainability	3
MGMT:9092	Effective Managerial Communication	3
MGMT:9110	Dynamics of Negotiations	3
MGMT:9120	Leadership and Personal Development	3
MGMT:9130	Strategic Management of Change	3
MGMT:9170	Human Resources Analytics	3
MGMT:9185	Project Management	3
MGMT:9210	Law and Ethics	3
MGMT:9220	Maximizing Team Performance	3
MGMT:9230	Managing and Preventing Conflict	3
MGMT:9240	Inclusive Leadership	3
MGMT:9250	Managing Employee Performance	3
MGMT:9260	Strategic Employee Development	3
MGMT:9270	Human Resource Management	3

MKTG:9015	Social Media Marketing	3
MKTG:9120	Customer Relationship Management	3
MKTG:9155	Digital Marketing Insights, Strategies, and Applications	3
MKTG:9170	Business to Business Marketing	3
MKTG:9190	International Marketing	3
MKTG:9320	Strategic Brand Positioning	3
MKTG:9330	Product and Portfolio Strategy	3
MKTG:9340	Customer Analysis	3
MKTG:9350	Marketing Communication and Promotions	3
MKTG:9370	Customer Experience	3

Combined Programs

MS in Business Analytics (Professional Subprogram)/MBA

The Department of Business Analytics collaborates with the Iowa MBA Program to offer a combined Master of Science in business analytics (professional)/Master of Business Administration degree option. This combined program allows students to pursue two degrees simultaneously, earning both more quickly than they would if each degree were pursued separately.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

For information about the MBA, see the Master of Business Administration, MBA [p. 1274] section of the catalog.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Full-Time Subprograms

Application criteria includes an online application; a résumé (include information about employment, education, extracurricular activities, and community involvement); a statement of purpose (250–500 words); academic transcripts (unofficial transcripts may be submitted with an application; official transcripts will be required for admission); earned bachelor's degree from a U.S. college or university with a minimum grade-point average of 3.00 on a 4.00 scale or have earned an equivalent from another country; and TOEFL/IELTS/Duolingo scores for international students (may be waived; see application website for details).

Visit the full-time MS in business analytics Admissions page on the Tippie College of Business website for full admission details.

Professional Subprogram

Please see the Part-time Master of Business Analytics Admissions on the Tippie College of Business website for information about admission to the MS in business analytics professional subprogram.

Career Advancement

The Tippie Graduate Career Services team offers multiple resources to help students in their career development journey. Visit Graduate Career Services on the Tippie College of Business website for details.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and

should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Total Hours	**33**

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b This 2-semester long master's degree requires students to have some foundational analytics and Excel skills. All students are required to complete a free online asynchronous bootcamp during the summer prior to starting the program.

c First 8 weeks of the semester.

d Second 8 weeks of the semester.
e See Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor.

Doctor of Philosophy

Graduate students in business analytics may earn a Doctor of Philosophy in business administration. For a description of the PhD program and requirements, see the PhD in business administration [p. 1179] in the catalog and visit the Department of Business Analytics website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Learning Outcomes

- To demonstrate proficiency and knowledge in the specialization discipline, students will demonstrate expertise in reading and interpreting academic research articles in their specialized discipline. They will be knowledgeable in the major theoretical perspectives and prior research findings in their area and be able to integrate prior research from various streams of literature.
- To demonstrate the ability to conduct independent, original research that leads to publications, students will be able to identify important research questions, execute an appropriate research design, and summarize their efforts in a research paper. This includes being able to read and summarize existing research into their paper and understanding the prior literature in a variety of substantive areas, paradigms, and methodologies.
- To be effective teachers in their disciplines, students will demonstrate proficiency as instructors in courses in their specialized discipline. This includes preparing course syllabi, giving lectures, writing assignments and exams, and evaluating students on the various deliverables.
- To demonstrate effective communication skills, students will be effective at communicating ideas in academic writing and how these ideas relate to each other within the context of an academic paper. This includes the ability to establish a position, show why that position matters, and situate that position within a context that is determined by the appropriate audience. International students will demonstrate the ability to effectively lecture and communicate in English.

Artificial Intelligence and Machine Learning, Graduate Certificate

The graduate Certificate in Artificial Intelligence and Machine Learning is designed to equip students with cutting-edge knowledge and skills in one of the most dynamic and rapidly evolving fields today.

This program is tailored for professionals seeking to deepen their expertise in artificial intelligence (AI) and machine learning (ML), enabling them to apply advanced techniques and methodologies to solve real-world problems. The curriculum covers a broad spectrum of topics, including machine learning algorithms, neural networks, natural language processing, and data analytics, ensuring that graduates are well-prepared to lead and innovate in their respective industries.

The certificate is an ideal complement to the Master of Science in business analytics.

Learning Outcomes

Students who earn the Certificate in Artificial Intelligence and Machine Learning will be able to:

- understand the foundations of modern AI and machine learning algorithms;
- design and implement AI and machine learning solutions to real-world problems; and
- assess the effectiveness of different AI and machine learning approaches for analyzing unstructured data.

Requirements

The graduate Certificate in Artificial Intelligence and Machine Learning requires 12 s.h. of credit. Students must earn a Graduate College program grade-point average (GPA) and UI cumulative GPA of at least 2.75 to complete the certificate.

Applicants must meet the admission requirements of the Graduate College and the Certificate in Artificial Intelligence and Machine Learning. For additional information, see the Manual of Rules and Regulations on the Graduate College website and Certificate-Only Admissions on the Tippie College of Business website.

With program approval, students may count up to 3 s.h. of previous graduate or professional coursework toward the certificate.

Certificate courses are offered online. Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Artificial Intelligence and Machine Learning requires the following coursework.

Course #	Title	Hours
This course:		
BAIS:6250	Applied Deep Learning	3
Three of these (9 s.h.):		
BAIS:6100	Text Analytics	3
BAIS:6105	Social Analytics	3
BAIS:6130	Applied Optimization	3
BAIS:6260	Generative Artificial Intelligence	3

Business Analytics, Graduate Certificate

Analytics—broadly defined as the scientific process of transforming data into insight for making better decisions—plays an increasingly critical role in business. Companies must be able to access and analyze this data intelligently. As the recognition of analytics has grown, so has the demand for analytics education.

The focus on business analytics entails a specific approach targeting the core business disciplines of business, including operations, information technology, finance, marketing, accounting, and human resources, among others.

Learning Outcomes

- Graduates will exhibit knowledge and skills relevant to data and its applications in business. They will demonstrate competence in the sub-areas of descriptive analytics, predictive analytics, and prescriptive analytics.
- Graduates will understand and explore ethical and privacy issues related to the use of data in the modern world. They will contemplate ethical and privacy issues arising in their own work and express a working knowledge of the major ethical and privacy issues facing the business analytics profession, supported with examples from current events.
- Graduates will demonstrate the ability to be effective team members in a diverse and complex world. They will engage in effective team processes and lead and support others to achieve collective goals.

Requirements

The graduate Certificate in Business Analytics requires 15 s.h. of credit. Students must earn a Graduate College major program grade-point average (GPA) and UI cumulative GPA of at least 2.75 to complete the certificate.

Applicants must meet the admission requirements of the Graduate College and the Certificate in Business Analytics. For additional information, see the Manual of Rules and Regulations on the Graduate College website and Certificate-Only Admissions on the Tippie College of Business website.

With program approval, students may count up to 6 s.h. of previous graduate or professional coursework toward the certificate.

Certificate courses are offered online. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Business Analytics requires the following coursework.

Course #	Title	Hours
All of these:		
BAIS:6040	Data Programming in Python	3
BAIS:6050	Data Management	3
BAIS:6070	Data Science	3
BAIS:9110	Advanced Analytics	3
One of these:		
BAIS:9100	Data and Decisions	3
MBA:8150	Data and Decisions	3

If a core certificate course is waived, the course must be replaced with BAIS:6140 Visual Analytics to meet the 15 s.h. to earn the certificate. Semester hour credit cannot be reduced if a curricular waiver is granted. If a student is approved for an additional curricular waiver, the waived course(s) must be replaced by an approved business analytics elective.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Doctor of Philosophy

Graduate degrees: MA in business administration; PhD in business administration

Website: https://tippie.uiowa.edu/phd

The Doctor of Philosophy program in business administration is an interdepartmental degree open to students in several Tippie College of Business departments. Basic requirements for the degree are detailed under Requirements [p. 1179] in the PhD in business administration section of the catalog. For additional information, see graduate programs in the accounting [p. 1140], business analytics [p. 1158], finance [p. 1208], management and entrepreneurship [p. 1236], and marketing [p. 1261] sections of the catalog.

The Tippie College of Business also offers a Doctor of Philosophy in economics; see economics [p. 1185] in the catalog.

Programs

Graduate Programs of Study

- Master of Arts in Business Administration

Graduate study in business administration focuses on the Doctor of Philosophy. Students are awarded the MA as they fulfill requirements for the PhD.

- Doctor of Philosophy in Business Administration [p. 1179]

Business Administration, PhD

Learning Outcomes

Learning outcomes for PhD in business administration subprograms are included in each department's Doctor of Philosophy section of the catalog.

Requirements

The Doctor of Philosophy program in business administration requires a minimum of 72 s.h., including approved transfer credit. The program is flexible, permitting students to choose a specialization area according to their interests. Coursework and related experience enable students to achieve competence in economic theory, statistical methods, and behavioral science as well as expertise in a major and minor study area. Students also have opportunities to develop research and teaching skills.

PhD coursework consists of prerequisites (as necessary), the PhD core, major and minor study areas, and dissertation research, described in the following sections. For more detailed information about PhD requirements, contact the individual Tippie College of Business departments or visit their websites.

Core Courses

Core courses develop research competence and provide background for specialized study. Doctoral students consult with their advisors to develop a study plan that reflects the individual student's background and interests and satisfies core requirements.

Major Study Area

At least 12 s.h. of approved doctoral-level courses must be completed in one of the following areas: accounting, finance, human resource management, management information systems, marketing, operations management, organizational behavior, or quantitative methods.

Minor Study Area

Students must complete a minimum of 9 s.h. of doctoral-level courses beyond the PhD core course requirements in one of the major study areas listed or in a concentration outside the Tippie College of Business.

Comprehensive Examinations

Students must satisfactorily complete a comprehensive examination, consisting of written or oral parts or both, at the discretion of their major department.

Dissertation

Students must present a dissertation proposal at a forum attended by dissertation committee members and open to interested faculty members and graduate students, as established by the student's major department. Researching and writing the dissertation typically requires two years of full-time effort.

Final Examination

PhD candidates defend the dissertation in an oral examination attended by dissertation committee members and open to interested faculty members and graduate students.

Admission

Applicants to the PhD program in business administration must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants must take the Graduate Record Examination (GRE) General Test or the Graduate Management Admission Test (GMAT) and have their scores sent to the university in order to be considered for admission. The departments of Business Analytics, Finance, Management and Entrepreneurship, and Marketing accept test scores for either the GRE or GMAT. The Department of Accounting only accepts GMAT scores. Required scores on these tests and their weight in admission decisions vary by department.

Admission is for fall entry. Completed applications should be submitted as early as possible and no later than the following deadlines.

- Accounting: Dec. 15
- Business Analytics: Jan. 15
- Finance: Jan. 15
- Management and Entrepreneurship: Dec. 15
- Marketing: Jan. 1

Visit PhD Programs on the Tippie College of Business website to learn more.

Career Advancement

The Doctor of Philosophy program prepares students for research positions in business and government or for research and teaching positions at academic institutions.

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Hours	**3**
	Total Hours	**72**

a Curriculum will vary based on which academic track students choose: Quantitative Modeling (QM), Consumer Behavior (CB), or Marketing Strategy (MS). All students must meet the 72 semester hour requirement and complete the doctoral seminars and econometrics sequence. Beyond that, the program allows a fair amount of freedom based on research interests. Work with faculty advisor to determine appropriate coursework and sequence.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c MKTG:7800 is typically offered in fall semesters of odd years only; MKTG:7825 is typically offered in fall semesters of even years only.

d Work with faculty advisor to determine appropriate elective coursework and sequence.

e Comprehensive Exam requires current session enrollment.

f Dissertation defense.

Economics

Chair

- David J. Cooper

Undergraduate major: economics (BA, BS, BBA)

Undergraduate minor: economics

Graduate degrees: MA in economics; PhD in economics

Faculty: https://tippie.uiowa.edu/people?department=Economics

Website: https://tippie.uiowa.edu/about/economics-department

Economics is the study of how societies allocate limited resources to achieve competing ends. Using both empirical and deductive methods, economists analyze incentives, constraints, organizational forms, and market forces to understand patterns of production, exchange, and consumption of goods and services. Economics treats diverse issues such as wealth and poverty, government expenditures and taxation, prosperity and depression, inflation and unemployment, relations between management and labor, economic growth, environmental protection, health care delivery, the war on drug abuse, free trade versus protectionism, U.S. competitiveness in international markets, and the quality of American education.

The Department of Economics offers degree programs for undergraduates and for graduate students. It also partners with the departments of Philosophy, Political Science, and Sociology and Criminology to offer the undergraduate major in ethics and public policy, an interdisciplinary program administered by the Department of Philosophy (College of Liberal Arts and Sciences); see Ethics and Public Policy [p. 459] in the catalog.

Special Seminar

Each year, the Department of Economics offers a Clarence Tow Lectures in Economics seminar program that brings eminent economists from other universities and from government agencies to the University of Iowa campus. Presentations by department faculty members and students are also featured.

Courses for Nonmajors

Students in the College of Liberal Arts and Sciences may wish to use economics courses as part of other majors or the GE CLAS Core [p. 22]. The introductory courses ECON:1100 Principles of Microeconomics and ECON:1200 Principles of Macroeconomics are approved for the Social Sciences area of the GE CLAS Core; they introduce the field of economics and the specialized topics of upper-division courses. The intermediate theory courses ECON:3100 Intermediate Microeconomics, ECON:3125 Intermediate Microeconomics: Advanced, and ECON:3150 Intermediate Macroeconomics provide a deeper foundation in the core theories and methods of the discipline. They serve as preparation for upper-division field courses or as terminal courses in an economics plan of study.

Coursework in economics relates to majors in many other fields. For example, political science majors could select ECON:3650 Policy Analysis; international studies majors, ECON:3345 Global Economics and Business; environmental policy and planning majors, ECON:3625 Environmental and Natural Resource Economics; pre-law students, ECON:3800 Law and Economics; and statistics majors, ECON:4800 Econometric Analysis: Advanced Causal Inference With Data.

Related Certificate

Transportation Planning

The Transportation Planning Program offers the Certificate in Transportation Planning. The program focuses on the varied and complex problems of transportation and on interdisciplinary approaches to addressing them. The certificate is coordinated by the School of Planning and Public Affairs. See the Certificate in Transportation Planning [p. 1814] (Graduate College) in the catalog.

Programs

Undergraduate Programs of Study

Majors

- Major in Economics (Bachelor of Arts) [p. 1189]
- Major in Economics (Bachelor of Business Administration) [p. 1197]
- Major in Economics (Bachelor of Science) [p. 1193]

Minor

- Minor in Economics [p. 1204]

Graduate Programs of Study

- Master of Arts in Economics [p. 1205]
- Doctor of Philosophy in Economics [p. 1206]

Courses

Students may take ECON:1100 Principles of Microeconomics and ECON:1200 Principles of Macroeconomics in either order or simultaneously. They are approved for the Social Sciences area of the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Qualified undergraduates may enroll in graduate-level courses (numbered 5000 and above) with the consent of the department chair.

Economics Courses

ECON:1100 Principles of Microeconomics 4 s.h.
Organization, workings of modern economic systems; role of markets, prices, competition in efficient allocation of resources and promotion of economic welfare; international trade. Requirements: BBA students cannot use this course for GE CLAS Core Social Sciences. GE: Social Sciences.

ECON:1200 Principles of Macroeconomics 4 s.h.
National income and output, unemployment, and inflation; economic growth and development; money and credit; monetary and fiscal policy; government finance; international finance. Requirements: BBA students cannot use this course for GE CLAS Core Social Sciences. GE: Social Sciences.

ECON:1300 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

ECON:3050 Professional Preparation in Economics 1 s.h.
Overview of career avenues for economics majors; how to pursue different career paths and synergies with other courses/majors; development of hard and soft skills required for success in those careers; discussion of use of economics to understand current events; development of skills, strategy, and tools for successful internship and employment search.

ECON:3100 Intermediate Microeconomics 3 s.h.
Economic theory of the behavior of consumers, producers, and other economic agents; role of markets in coordinating economic activity; effects of government policies on market outcomes; conditions that markets require for efficient allocation of resources; market imperfections; strategic behavior of economic actors. Prerequisites: ECON:1100 and (MATH:1350 or MATH:1460 or MATH:1550 or MATH:1850 or MATH:1860).

ECON:3125 Intermediate Microeconomics: Advanced 3 s.h.
Economic theory of the behavior of consumers, producers, and other economic agents; role of markets in coordinating economic activity; effects of government policies on market outcomes; conditions that markets require for efficient allocation of resources; market imperfections; strategic behavior of economic actors; similar to ECON:3100, but with more rigorous examination of topics and use of calculus. Prerequisites: ECON:1100 and MATH:1850 and MATH:1860.

ECON:3150 Intermediate Macroeconomics 3 s.h.
Measurement of macroeconomic indicators; economic growth and business cycles; use of macroeconomic models to study the role of government fiscal and monetary policies. Prerequisites: ECON:1200 and (MATH:1350 or MATH:1460 or MATH:1550 or MATH:1850 or MATH:1860).

ECON:3300 Introduction to Econometrics: Causal Inference With Data 3 s.h.
Use statistical methods to estimate economic relationships, test economic theories, and evaluate and implement government and business policy. Analyze economic events, make forecasts, and gauge the effectiveness of plans. Prerequisites: STAT:1030 and (MATH:1350 or MATH:1460 or MATH:1550 or MATH:1850 or MATH:1860).

ECON:3325 Personnel Economics 3 s.h.
Using microeconomics to learn about labor markets and the future of work. Prerequisites: ECON:1100.

ECON:3335 Money, Banking, and Financial Markets 3 s.h.
Role of financial sector in channeling funds from savers to investors to boost the economic growth of the country; the nature of financial markets, prices, and interest rate determination of financial instruments; the nature of financial institutions; management and regulation of financial markets and financial institutions; the role of money in the economy, role of the Federal Reserve, economic fluctuations, monetary and fiscal policies, exchange rate determination, and nature and causes of financial crises. Prerequisites: ECON:1100 and ECON:1200.

ECON:3345 Global Economics and Business 3 s.h.
Review of basic economic models to explain international trade patterns based on technology, resource endowments, and monopolistic competition, the balance of payments, and exchange rates. Prerequisites: ECON:1100.

ECON:3350 Industry Analysis 3 s.h.
The organization of industries, market structure and performance, and regulation and antitrust policy form. Prerequisites: ECON:1100.

ECON:3355 Economic and Business Forecasting 3 s.h.
Forecasting economic variables like interest rates, exchange rates, levels of employment, inflation rates, housing prices, sales, and gross domestic product (GDP); analyze future events and make forecasts to gauge effectiveness of plans. Econometrics allows businesses and policymakers to analyze future events and make forecasts. Prerequisites: ECON:1100 and ECON:1200 and (ECON:3300 or ECON:4800 or STAT:3200 or BAIS:2800 with a minimum grade of B).

ECON:3360 Experimental Economics 3 s.h.
Techniques of experimental economics and major applications of these techniques. Prerequisites: ECON:1100.

ECON:3380 Business and Government 3 s.h.
Role of the government in reshaping U.S. enterprises and the U.S. economy; the government's economic policies promoting, stabilizing, and regulating the economy and its influence on the welfare of citizens of the country; the influence of business owners and entrepreneurs on the government, shaping political and economic outcomes in the United States. Prerequisites: ECON:1100.

ECON:3620 Economic Growth and Development 3 s.h.
Determinants of rising living standards; accumulation of physical and human capital; predictions of economic growth models compared to observed changes in living standards. Prerequisites: ECON:1100 and ECON:1200.

ECON:3625 Environmental and Natural Resource Economics 3 s.h.
Environmental and resource use problems; efficient mechanisms and other policies for environmental protection, management of common property resources. Prerequisites: ECON:1100 and ECON:1200. Same as URP:3135.

ECON:3640 Regional and Urban Economics 3 s.h.
Theory of location and regional development; central place theory; why cities exist and trade with one another; models of land use patterns, rents; empirical tests of models; policy applications. Prerequisites: ECON:1100. Same as URP:3134.

ECON:3650 Policy Analysis 3 s.h.
Public policies influencing the economy, adequacy of policies made by the federal, state, and local levels of the government, and policymaking process. Develop financial, statistical, and economic tools of policy formulation and evaluation; examine policies informed by theory for economic growth and development, externalities, public goods, health care, education, taxation, inequality, welfare, social security, and environment. Prerequisites: ECON:1100.

ECON:3690 Sports Economics 3 s.h.
Theory and literature of economic issues in professional sports; issues such as relative advantages of large-and small-market teams, city subsidies for baseball and football stadiums, star players' true value to their teams; ideas from introductory economics (such as demand and cost curves) combined with additional economic theory, statistical evidence, and information about particular sports. Prerequisites: ECON:1100.

ECON:3750 Transportation Economics 3 s.h.
Overview of transportation markets—intercity, rural, urban; transportation modes—rail, highway, air, water, pipeline, transit; issues in finance, policy, planning, management, physical distribution, and environmental, economic, and safety regulation. Recommendations: ECON:1100 and ECON:1200. Same as SEES:3940, URP:3350.

ECON:3760 Health Economics 3 s.h.
Externalities and health behaviors; government influence on health behaviors; overview of health insurance and health insurance markets; health care costs; public health insurance; health insurance reforms. Prerequisites: ECON:1100.

ECON:3800 Law and Economics 3 s.h.
Law examined through analytic tools of microeconomics; impact of legal rules on resource allocation, risk bearing, distribution of economic well-being. Prerequisites: ECON:1100.

ECON:3825 Economics of Sustainability 3 s.h.
Energy lights and heats our homes, provides transportation via air, water, or land, and is used for producing the goods and services we demand; while some countries deal with the misuse of energy, other countries struggle with their population not having enough; sustainability is a property of whole systems, such an ecosystem or the Earth as a whole, but also pertains to smaller units such as corporations; sustainability is an area of study that draws on both microeconomics and macroeconomics; examine energy usage, employing economic theory, relevant literature, and case studies of worldly and corporate sustainability. Prerequisites: ECON:1100 and ECON:1200.

ECON:3830 Global Trade Finance 3 s.h.
Understanding and analyzing international trade transactions, including mode of payments, financial instruments, hedging techniques, etc.; assignments include finding trade financing solutions for companies through scenario analyses and case studies. Prerequisites: ECON:1100.

ECON:3850 Behavioral Economics 3 s.h.
Behavioral economics is a relatively new field that applies insights gleaned from psychology to economics; standard economic theory assumes people are all *homo economicus*: we know exactly how to maximize our own utility, and we do it well; behavioral economists seek to improve microeconomic theory with more realistic assumptions about human behavior. Prerequisites: ECON:1100.

ECON:3870 Federal Reserve Challenge 1 s.h.
Experience what Federal Reserve economists do every day: study the real U.S. economy, make forecasts and policy recommendations, defend their views to academic and professional economists; development of analytical skills, teamwork, how to build presentations. Prerequisites: ECON:3100 and ECON:3150.

ECON:3875 Topics in Policy Economics 3 s.h.
Topics vary. Prerequisites: ECON:1100 and ECON:1200.

ECON:4050 Readings and Independent Study in Economics arr.

ECON:4090 Natural Resource Economics 3 s.h.
Economics of natural resources; interaction between economic theory, empirical evidence, and public policy; land, water, fish, trees, minerals; externalities. Prerequisites: ECON:3100 or ECON:3125.

ECON:4110 International Economics 3 s.h.
Neoclassical model of international trade; imperfect competition and international trade and investment; role of trade barriers; regional trade agreements and the World Trade Organization. Prerequisites: ECON:1100 and ECON:1200.

ECON:4140 Labor Economics 3 s.h.
Labor supply and demand; investments in human capital; compensating wage differentials; discrimination; long-term contracts; occupational choice; family decisions; unions; immigration. Prerequisites: ECON:3100 or ECON:3125.

ECON:4160 Public Sector Economics 3 s.h.
Economic functions of government; social welfare programs; income distribution; policies that address market failures; budgetary processes; effects of government expenditures; taxation. Prerequisites: (ECON:3100 or ECON:3125) and ECON:3150.

ECON:4170 Monetary Economics 3 s.h.
Demand for and supply of money; money's role in economy; empirical studies of money's impact; problems with monetary control. Prerequisites: (ECON:3100 or ECON:3125) and ECON:3150.

ECON:4180 Industrial Organization 3 s.h.
Market structure; effects of business practices, informational problems on market structure; appraisal of antitrust policies, government regulation of business. Prerequisites: ECON:3100 or ECON:3125.

ECON:4190 Mathematical Economics 3 s.h.
Mathematical structure of economic principles, problems, systems; may include constrained optimization, choice under uncertainty, general equilibrium and welfare economics, dynamical systems and control theory, game theory. Prerequisites: (ECON:3100 or ECON:3125) and ECON:3150.

ECON:4200 Game Theory 3 s.h.
Basic concepts of game theory including dominance, backward induction, Nash equilibrium, evolutionary stability, commitment, credibility, asymmetric information, adverse selection, signaling; provides students with a working understanding of game theory; examples drawn from economics and politics. Prerequisites: (ECON:3100 or ECON:3125) and ECON:3150.

ECON:4700 Topics in Analytical Economics 3 s.h.
Topics vary. Prerequisites: (ECON:3100 or ECON:3125) and ECON:3150.

ECON:4800 Econometric Analysis: Advanced Causal Inference With Data 3 s.h.
Application of statistics to problems in empirical economics; tools for testing whether economic theories are consistent with real world observations and for predicting how economic policy measures or changes in other factors would affect economic agents. Linear regression, nonlinear regression, panel data, instrumental variables, and limited dependent variables models. Prerequisites: STAT:3101 or STAT:3120.

ECON:4999 Honors Thesis in Economics arr.
Independent research project supervised by economics faculty member; culminates in thesis required for honors in the major. Prerequisites: (ECON:3100 or ECON:3125) and ECON:3150 and (ECON:3300 or ECON:4800).

ECON:5000 Economic Analysis I 3 s.h.
Basic metric topology, convex analysis, function spaces, measure theory and integration.

ECON:5005 Real Analysis for Economics 2 s.h.
Basic metric topology, convex analysis, function spaces, measure theory, and integration.

ECON:5010 Economic Analysis II 3 s.h.
Behavior under uncertainty, macroeconomic models; dynamic programming, asset pricing, saving, consumption.

ECON:5100 Microeconomics I 3 s.h.
Consumer choice theory, producer theory, choice under uncertainty, basic game theory. Offered fall semesters.

ECON:5110 Microeconomics II 3 s.h.
General equilibrium and welfare analysis, adverse selection, the principal-agent problem, social choice, mechanism design. Offered spring semesters. Prerequisites: ECON:5100.

ECON:5115 Fundamentals of Microeconomics 3 s.h.
Consumer theory, producer theory, partial equilibrium models, expected and nonexpected utility theory.

ECON:5125 Game Theory 2 s.h.
Noncooperative and cooperative games, games of perfect and imperfect information, matching games.

ECON:5200 Macroeconomics I 3 s.h.
Economic growth, business cycles, money and inflation. Offered fall semesters.

ECON:5210 Macroeconomics II 3 s.h.
Dynamic macroeconomic models; stochastic macroeconomics; time consistency equilibrium business cycle theory. Offered spring semesters. Prerequisites: ECON:5200.

ECON:5300 Behavioral and Experimental Economics 3 s.h.
Overview of behavioral economics based on theoretical and empirical contributions; experimental methods and literature review. Provides working knowledge of experimental techniques and contributions.

ECON:5800 Econometrics 3 s.h.
Statistical inference in single and multiple equation stochastic models, models with nonindependent or nonidentically distributed error structure, dynamic models; OLS, GLS, IV, ML estimation; asymptotic distribution theory; exact, asymptotic hypothesis tests. Prerequisites: STAT:4101.

ECON:5805 Statistics for Economics 3 s.h.
Probability theory, transformations and expectations, common families of distributions, multiple random variables, properties of a random sample, point estimation, hypothesis testing.

ECON:5810 Applied Econometrics 3 s.h.
Empirical problems; multiple linear regression, nonlinear regression, maximum likelihood, hazard functions, univariate and multivariate time series, flexible functional forms. Prerequisites: ECON:5800.

ECON:5825 Theoretical Econometrics II 2 s.h.
Continuation of ECON:5815.

ECON:5855 Applied Econometrics I 2 s.h.
Empirical problems; multiple linear regression, nonlinear regression, maximum likelihood, hazard functions, univariate and multivariate time series, flexible functional forms.

ECON:5865 Applied Econometrics II 2 s.h.
Continuation of ECON:5855.

ECON:6310 Industrial Organization 3 s.h.
The firm, monopolistic competition, oligopoly and workable competition; industrial organization, nature of equilibrium under uncertainty. Prerequisites: ECON:5110.

ECON:6320 Labor Economics 3 s.h.
Problems and models, including intertemporal models of labor markets; uncertainty and labor market activity; retirement decisions, economic theories of fertility; economics of discrimination; job search models; economic models of unions; bargaining and strikes, public sector labor markets; determinants of income distribution; emphasis on empirical verification of theory. Prerequisites: ECON:5110 and (ECON:4800 or ECON:5800).

ECON:6420 Macroeconomics III 3 s.h.
Current research in macroeconomics; development of research topics with emphasis on theoretical and empirical analysis. Prerequisites: ECON:5110 and ECON:5800.

ECON:6500 International Trade Theory 3 s.h.
The theory of international trade, including basic models of international trade; capital and labor mobility and trade; protection of international trade; the political economy of international trade; empirical applications of international trade.

ECON:6900 Contemporary Topics in Economics 3 s.h.
Topics not offered in other courses.

ECON:7000 Seminar in Economic Theory arr.

ECON:7010 Seminar in Economic Theory II arr.

ECON:7020 Seminar in Economics I 2 s.h.

ECON:7030 Seminar in Economics II 2 s.h.

ECON:7040 Seminar in Economics III 2 s.h.

ECON:7050 Seminar in Economics IV 2 s.h.

ECON:7870 Workshop in Microeconomics 1 s.h.

ECON:7880 Workshop in Macro and Monetary Economics 1 s.h.

ECON:7950 Readings in Economics arr.

ECON:7975 Thesis in Economics arr.

ECON:9100 Digital Economics 3 s.h.
The gap between rapidly evolving technology and slower-moving human development will widen as exponential advances in artificial intelligence, robots, networks, analytics, and digitization have an increasing impact on society and the economy. Focus on three problems in moving toward a fully digitized economy: 1) the speed of adapting evolving technologies by individuals, firms, and organizations, 2) regulation by governments and international organizations, 3) the “digital divide” and inclusive growth; uses a combination of modeling, empirical evidence, and case studies. Prerequisites: MBA:8160.

Economics, BA

The BA in economics incorporates a balance of economic theory, mathematical tools, and field applications.

Students who major in economics complete three sets of requirements for the major: mathematics and statistics courses that provide the skills needed for understanding economic theory and data; economic theory courses that provide the tools needed for analyzing economic issues; and field courses that apply economic tools to business, social, or specialized analytical issues.

Learning Outcomes

Foundational Knowledge

Comprehension of fundamental principles and concepts of economics, including understanding of how markets work, supply and demand models, different economic systems, and macroeconomic variables such as GDP and inflation.

Graduates will be able to:

- evaluate economic choices made by households, firms, and governments, and examine policy issues in areas such as education, health, labor, the environment, and equity;
- describe the performance of economies and choose appropriate models to evaluate and propose policies for improving aggregate economic outcomes, including growth, equity, and stability;
- explain the function of markets and apply supply and demand models to analyze various outcomes under different market conditions; and
- define key macroeconomic variables such as GDP, inflation, unemployment, wages, money, and interest rates, and analyze the economic forces impacting these macroeconomic variables and the rest of the economy.

Critical Thinking and Problem Solving

Ability to apply economic reasoning to real-world problems.

Graduates will be able to:

- use economic theories and models to analyze and interpret real-world economic phenomena;
- develop problem-solving skills to address economic questions and policy issues; and
- apply critical thinking to evaluate various problems, scenarios, and outcomes.

New Discovery

Economic reasoning and knowledge formation for economic and policy analysis.

Graduates will be able to:

- formulate questions about economic processes based on current knowledge;
- construct a hypothesis to guide economic inquiry;
- design economic models, identify variables, and interpret results;
- find and interpret economic data; and
- analyze and evaluate economic results to inform a hypothesis.

Quantitative Skills

Mathematical reasoning, basic numeracy, and econometrics.

Graduates will be able to:

- understand and apply econometric methods to analyze economic data;
- evaluate policy and/or scholarly recommendations based on the findings; and
- use economic reasoning to appraise the trade-offs raised by different sides of a policy debate.

Information Literacy

Acquisition, analysis, and summary of published economic information.

Graduates will be able to:

- locate and critically evaluate the relevance and credibility of information from electronic and print sources;
- identify reliable sources of information;
- cite reliable sources of information appropriately;
- identify questions addressed and methodologies used; and
- assess findings reported and conclusions drawn in published economic articles.

Communication Proficiency

Written and visual presentation of economic information. Graduates will be prepared with written communication skills and visual communication skills.

Graduates will be able to:

- write accessible and concise reports based on economic findings or literature searches;
- effectively communicate complex economic concepts and findings in written, oral, and visual form;
- construct visual presentations of results or findings from the economic literature, using appropriate visual aids such as graphs, charts, and diagrams; and
- orally present findings or results with appropriate media in an accessible manner.

Requirements

The Bachelor of Arts with a major in economics requires a minimum of 120 s.h. of coursework, including 40 s.h. of coursework for the major. To graduate, students must have a cumulative grade-point average of at least 2.00 in all college coursework attempted, all coursework attempted at the University of Iowa, all college economics coursework attempted, and all economics coursework attempted at the University of Iowa. Coursework in the major may not be taken pass/nonpass. Students complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students may be able to count a limited amount of transfer credit toward the economics major, but they are required to complete the following courses at the University of Iowa: ECON:3100 Intermediate Microeconomics, ECON:3150 Intermediate Macroeconomics, and three of the applied field courses.

The major requires courses in mathematics and statistics, economic theory, and in applied field courses. Students should pay close attention to the order in which they take courses because some courses are prerequisites for others.

The Department of Economics offers ECON:3050 Professional Preparation in Economics. This is not a required course to complete the BA with a major in economics; however, it is highly recommended for economics students as it prepares

them for internships and future academic and professional career paths.

The BA with a major in economics requires the following coursework.

Requirements	Hours
Mathematics and Statistics Courses	11
Economic Theory Courses	14
Applied Field Courses	15

Mathematics and Statistics Courses

Course #	Title	Hours
All of these:		
ECON:3300	Introduction to Econometrics: Causal Inference With Data	3
MATH:1350	Quantitative Reasoning for Business	4
STAT:1030	Statistics for Business	4

Economic Theory Courses

Course #	Title	Hours
All of these (ECON:3100 and ECON:3150 must be taken at the University of Iowa):		
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
ECON:3100	Intermediate Microeconomics	3
ECON:3150	Intermediate Macroeconomics	3

Applied Field Courses

Students complete five applied field courses (15 s.h.) selected from economics courses (prefix ECON) numbered 3325–3875, excluding ECON:3870 Federal Reserve Challenge. Three of the applied field courses must be taken at the University of Iowa. Students are not guaranteed specific applied field courses. The availability of courses may be subject to prerequisites or restrictions.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Graduation with honors in economics recognizes high scholastic achievement based on grades and on completion of academic work beyond the requirements of the economics major. Students must have a cumulative grade-point average of at least 3.50 in all college coursework attempted, all coursework attempted at the University of Iowa, all college economics coursework attempted, and all economics coursework attempted at the University of Iowa. They must also successfully complete an honors thesis under the supervision of a faculty member.

Students begin by completing BUS:1999 Introduction to Research in Business at least three semesters prior to graduation. This course introduces students to research in the college and provides an opportunity to develop thesis questions and meet Tippie College of Business faculty members engaged in research. They must also complete ECON:3100 Intermediate Microeconomics, ECON:3150 Intermediate Macroeconomics, and ECON:3300 Introduction to Econometrics: Causal Inference With Data before commencing thesis work.

After identifying a faculty member to advise them on their thesis and completing the coursework listed, students register for ECON:4999 Honors Thesis in Economics for two semesters while they complete their research and write their thesis. In the second semester of their thesis, students present their research in a poster format at the Undergraduate Research Festival.

Students interested in graduating with honors in economics should visit the department's honors advisor at least three semesters prior to graduation.

University of Iowa Honors Program

Completing the economics honors requirements also satisfies the experiential learning requirement for the University of Iowa Honors Program. To learn more about graduating with honors through the UI Honors Program, visit the Honors at Iowa website.

Membership in the UI Honors Program is not required to earn honors in the economics major.

Career Advancement

The Bachelor of Arts degree provides an excellent educational background for a variety of positions in business and government. Graduates find employment in banking, financial institutions, industrial firms, and trade organizations and in federal, state, and local government agencies dealing with economic policy, regulation, and analysis. An undergraduate BA degree in economics also prepares students for the study of law and for graduate study in fields such as economics, public policy, business management, public administration, hospital and health administration, planning and public affairs, transportation, journalism, political science, and statistics.

Over 90% of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs. For more information about careers, visit the Pomerantz Career Center website.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the third semester begins: at least one-quarter of the semester hours required for graduation.

Before the fifth semester begins: at least half of the semester hours required for graduation.

Before the seventh semester begins: ECON:1100 Principles of Microeconomics, ECON:1200 Principles of Macroeconomics, ECON:3100 Intermediate Microeconomics, ECON:3150 Intermediate Macroeconomics, MATH:1350 Quantitative Reasoning for Business, STAT:1030 Statistics for Business, ECON:3300 Introduction to Econometrics: Causal Inference With Data, and at least three-quarters of the semester hours required for graduation.

Before the eighth semester begins: at least two applied field courses.

During the eighth semester: all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or

Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Meets the Social Sciences requirement for the Tippie College of Business.

c Fulfills a major requirement and may fulfill a GE requirement.

d ENGL:1200 - Meets the Interpretation of Literature requirement for the Tippie College of Business. RHET:1030 - Meets the Rhetoric requirement for the Tippie College of Business.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor with questions concerning the World Languages requirement.

f Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

g Meets the Quantitative or Formal Reasoning requirement for the Tippie College of Business.

h Enrollment in math courses requires completion of a placement exam.

i Both ECON:3100 and ECON:3150 must be completed at the University of Iowa.

j GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

k Students must take five ECON courses (15 s.h.) numbered 3325-3875, excluding ECON:3870. At least three of the applied field courses must be completed at the University of Iowa.

l Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Economics, BS

The BS in economics incorporates a balance of economic theory, mathematical tools, and field applications while emphasizing the development of analytical skills.

Students who major in economics complete three sets of requirements for the major: mathematics and statistics courses that provide the skills needed for understanding economic theory and data; economic theory courses that provide the tools needed for analyzing economic issues; and field courses that apply economic tools to business, social, or specialized analytical issues.

Learning Outcomes

Foundational Knowledge

Comprehension of fundamental principles and concepts of economics, including understanding of how markets work, supply and demand models, different economic systems, and macroeconomic variables such as GDP and inflation.

Graduates will be able to:

- evaluate economic choices made by households, firms, and governments, and examine policy issues in areas such as education, health, labor, the environment, and equity;
- describe the performance of economies and choose appropriate models to evaluate and propose policies for improving aggregate economic outcomes, including growth, equity, and stability;
- explain the function of markets and apply supply and demand models to analyze various market outcomes under different conditions; and
- define key macroeconomic variables such as GDP, inflation, unemployment, wages, money, and interest rates, and analyze the economic forces impacting these macroeconomic variables and the rest of the economy.

Critical Thinking and Problem Solving

Ability to apply economic reasoning to real-world problems.

Graduates will be able to:

- use economic theories and models to analyze and interpret real-world economic issues;
- develop problem-solving skills to address economic questions and policy issues; and
- apply critical thinking to evaluate various problems, scenarios, and outcomes.

New Discovery

Economic reasoning and knowledge formation for economic and policy analysis.

Graduates will be able to:

- formulate questions about economic processes based on current knowledge;
- construct a hypothesis to guide economic inquiry;
- design economic models, identify variables, and interpret results;
- find and interpret economic data; and
- analyze and evaluate economic results to inform a hypothesis.

Quantitative Skills

Mathematical reasoning, basic numeracy, and econometrics. Graduates will have a strong emphasis on quantitative skills.

Graduates will be able to:

- understand and apply econometric methods to analyze economic data;
- evaluate policy and/or scholarly recommendations based on the findings;
- use economic reasoning to appraise the trade-offs raised by different sides of a policy debate;
- apply advanced quantitative methods and models in economic analysis.

Information Literacy

Acquisition, analysis, and summary of published economic information.

Graduates will be able to:

- locate and critically evaluate the relevance and credibility of information from electronic and print sources;
- identify reliable sources of information;
- cite reliable sources of information appropriately;
- identify questions addressed and methodologies used; and
- assess findings reported and conclusions drawn in published economic articles.

Communication Proficiency

Written and visual presentation of economic information. Graduates will be prepared with written communication skills and visual communication skills.

Graduates will be able to:

- write accessible and concise reports based on economic findings or literature searches;
- effectively communicate complex economic concepts and findings in written, oral, and visual form;
- construct visual presentations of results or findings from the economic literature, using appropriate visual aids such as graphs, charts, and diagrams; and
- orally present findings or results with appropriate media in an accessible manner.

Requirements

The Bachelor of Science with a major in economics requires a minimum of 120 s.h. of coursework, including 41–44 s.h. of coursework for the major. To graduate, students must have a cumulative grade-point average of at least 2.00 in all college coursework attempted, all coursework attempted at the University of Iowa, all college economics coursework attempted, and all economics coursework attempted at the University of Iowa. Coursework in the major may not be taken pass/nonpass. Students complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

Students may be able to count a limited amount of transfer credit toward the economics major, but they are required to complete the following courses at the University of Iowa: ECON:3125 Intermediate Microeconomics: Advanced and ECON:3150 Intermediate Macroeconomics, and two of the applied field courses.

The major requires courses in mathematics and statistics, economic theory, and in applied field courses. Students should

pay close attention to the order in which they take courses, since some courses are prerequisites for others.

The BS program is ideal for students who plan to pursue a technical career in the public or private sector, a graduate degree in economics, or a law degree.

The Department of Economics offers ECON:3050 Professional Preparation in Economics. This is not a required course to complete the BS with a major in economics; however, it is highly recommended for economics students as it prepares them for internships and future academic and professional career paths.

The BS with a major in economics requires the following coursework.

Requirements	Hours
Mathematics and Statistics Courses	15-18
Economic Theory Courses	14
Applied Field Courses	12

Mathematics and Statistics Courses

The department recommends that students planning to pursue a graduate degree in economics take STAT:3100 Introduction to Mathematical Statistics I and STAT:3101 Introduction to Mathematical Statistics II rather than STAT:3120 Probability and Statistics. It also recommends that they complete additional coursework in mathematics, including MATH:2700 Introduction to Linear Algebra, MATH:2850 Calculus III, and MATH:3770 Foundations of Analysis.

Course #	Title	Hours
All of these:		
MATH:1850 & MATH:1860	Calculus I and Calculus II	8
ECON:4800	Econometric Analysis: Advanced Causal Inference With Data	3
One of these:		
STAT:3100 & STAT:3101	Introduction to Mathematical Statistics I and Introduction to Mathematical Statistics II (both courses required)	7
STAT:3120	Probability and Statistics	4

Economic Theory Courses

Course #	Title	Hours
All of these (ECON:3125 and ECON:3150 must be taken at the University of Iowa):		
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
ECON:3125	Intermediate Microeconomics: Advanced	3
ECON:3150	Intermediate Macroeconomics	3

Applied Field Courses

Students complete four applied field courses (12 s.h.) selected from economics courses (prefix ECON) numbered 3325–4700, excluding ECON:3870 Federal Reserve Challenge and ECON:4050 Readings and Independent Study in Economics. At least two courses must be numbered between 4090–4700 and at least two of the applied field courses must be taken at the University of Iowa. Students are not guaranteed specific applied field courses. The availability of courses may be subject to prerequisites or restrictions.

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

Graduation with honors in economics recognizes high scholastic achievement based on grades and on completion of academic work beyond the requirements of the economics major. Students must have a cumulative grade-point average of at least 3.50 in all college coursework attempted, all coursework attempted at the University of Iowa, all college economics coursework attempted, and all economics coursework attempted at the University of Iowa. They must also successfully complete an honors thesis under the supervision of a faculty member.

Students begin by completing BUS:1999 Introduction to Research in Business at least three semesters prior to graduation. This course introduces students to research in the college and provides an opportunity to develop thesis questions and meet Tippie College of Business faculty members engaged in research. They must also complete ECON:3125 Intermediate Microeconomics: Advanced, ECON:3150 Intermediate Macroeconomics, and ECON:4800 Econometric Analysis: Advanced Causal Inference With Data before commencing thesis work.

After identifying a faculty member to advise them on their thesis and completing the coursework listed, students register for ECON:4999 Honors Thesis in Economics for two semesters while they complete their research and write their thesis. In the second semester of their thesis, students present their research in a poster format at the Undergraduate Research Festival.

Students interested in graduating with honors in economics should visit the department's honors advisor at least three semesters prior to graduation.

University of Iowa Honors Program

Completing the economics honors requirements also satisfies the experiential learning requirement for the University of Iowa Honors Program. To learn more about graduating with honors through the UI Honors Program, visit the Honors at Iowa website.

Membership in the UI Honors Program is not required to earn honors in the economics major.

Career Advancement

The Bachelor of Science degree provides an excellent educational background for a variety of positions in business and government, research institutes and organizations, as well as academia. Graduates find employment in research, consulting, banking, financial institutions, industrial firms, and trade organizations and in federal, state, and local government agencies dealing with economic policy, regulation, and policy analysis. An undergraduate BS degree in economics also prepares students for the study of law and for graduate study in fields such as economics, public policy, business management, public administration, hospital and health administration, urban and regional planning, transportation, journalism, political science, and statistics.

Over 90% of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs. For more information about careers, visit the Pomerantz Career Center website.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the third semester begins: at least one-quarter of the semester hours required for graduation.

Before the fourth semester begins: MATH:1850 Calculus I.

Before the fifth semester begins: MATH:1860 Calculus II and at least half of the semester hours required for graduation.

Before the sixth semester begins: STAT:3100 Introduction to Mathematical Statistics I (if chosen statistics course).

Before the seventh semester begins: ECON:1100 Principles of Microeconomics, ECON:1200 Principles of Macroeconomics**,** ECON:3125 Intermediate Microeconomics: Advanced, ECON:3150 Intermediate Macroeconomics, STAT:3101 Introduction to Mathematical Statistics II (if chosen statistics course), and at least three-quarters of the semester hours required for graduation.

Before the eighth semester begins: STAT:3120 Probability and Statistics (if chosen statistics course) and at least two applied field courses.

During the eighth semester: ECON:4800 Econometric Analysis: Advanced Causal Inference With Data, all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Fulfills a major requirement and may fulfill a GE requirement.

c Enrollment in math courses requires completion of a placement exam.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor with questions concerning the World Languages requirement.

e Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

f Both ECON:3125 and ECON:3150 must be completed at the University of Iowa.

g Students may choose to complete either STAT:3100-3101 or STAT:3120.

h Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

i GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

j Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

k At least two of the applied field courses must be completed at the University of Iowa.

l Students must complete four ECON courses (12 s.h.) numbered 3325-4700, excluding ECON:3870 and ECON:4050. At least two of the courses must be numbered between 4090-4700.

m Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Economics, BBA

The BBA in economics emphasizes the economic foundations of business fields—accounting, finance, marketing, business law, and management. Students who choose the BBA in economics have the option to select the analytical subprogram.

In addition to the common BBA requirements, students who major in economics complete three sets of requirements for the major: mathematics and statistics courses that provide the skills needed for understanding economic theory and data; economic theory courses that provide the tools needed for analyzing economic issues; and field courses that apply economic tools to business, social, or specialized analytical issues. The course requirements vary, depending on whether a student selects the analytical subprogram.

Common BBA Requirements

The Bachelor of Business Administration (BBA) requires a minimum of 120 s.h. of credit, including at least 48 s.h. earned in business courses and at least 52 s.h. earned in non-business courses.

BBA students must earn 45 s.h. at the University of Iowa following admission to the BBA program. At least 24 s.h. in business courses must be earned with Tippie College of Business coursework. At least two-thirds of the semester hours in a student's major must be earned in the student's major department at the Tippie College of Business. Nonresident instruction includes coursework at colleges and universities other than the University of Iowa.

To graduate, BBA students must have a cumulative grade-point average of at least 2.00 in all college-level coursework attempted, all college-level business coursework attempted, all college-level major coursework attempted, all college-level coursework attempted at the University of Iowa, all college-level business coursework attempted at the University of Iowa, and all college-level major coursework attempted at the University of Iowa.

Common BBA Requirements

BBA students must fulfill the following common requirements or approved equivalents. For approved equivalents, consult the college's Undergraduate Program Office.

General Education

Students may not count courses taken to fulfill General Education Program requirements toward other course requirements for the BBA.

Course #	Title	Hours
Historical Perspectives		3
International and Global Issues		3
Interpretation of Literature		3
Natural Sciences (without lab)		3
Rhetoric		4
Social Sciences (excluding ECON:1100 and ECON:1200)		3
Understanding Cultural Perspectives		3
Values and Society		3
World Languages		0-10

World Languages

Tippie College of Business students may complete the World Languages requirement using one of three options. One year of high school language study is generally equivalent to one semester of college language study.

Option One

Attain fourth level proficiency in a single world language. Students attain fourth level proficiency in a single world language by completing four years of that language in high school or four semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at fourth level proficiency.

Option Two

Attain third level proficiency in a single world language and complete a World Language and Cultural Exploration course. Students attain third-level proficiency in a single world language by completing three years of that language in high school or three semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at third-level proficiency. Option two does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Option Three

Attain second level proficiency in each of two world languages. Students attain second level proficiency in each of two world languages by completing two years of each language in high school or two semesters of each language in college, or an equivalent combination of high school and college coursework, or pass achievement tests and/or evaluations at second-level proficiency in each language. Option three does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Prerequisites for Admission to the BBA Program

Course #	Title	Hours
BAIS:1500	Business Computing Essentials	2
ECON:1100	Principles of Microeconomics	4
MATH:1350	Quantitative Reasoning for Business	4
RHET:1030	Rhetoric: Writing and Communication	4
STAT:1030	Statistics for Business	4

Prerequisites for Declaring a BBA Major

Course #	Title	Hours
ACCT:2100	Introduction to Financial Accounting	3
ECON:1200	Principles of Macroeconomics	4

BBA Core

Course #	Title	Hours
ACCT:2200	Managerial Accounting Analytics and Data Visualization	3

MGMT:2000	Introduction to Law	3
MGMT:2100	Introduction to Management	3
MKTG:3000	Introduction to Marketing Strategy	3

Experiential Learning Requirement: Tippie RISE

RISE is an acronym for hands-on experiential learning in the form of research with faculty, internship course, study abroad, and experiential course. All BBA students in the Tippie College of Business students must successfully complete at least one of these four experiences. Courses that satisfy Tippie RISE are as follows.

Research With Faculty

Working closely with a faculty mentor, students explore a research question of interest for a semester or more. By conducting academic research, students enhance their critical thinking skills, learn techniques to collect and analyze data, and apply their findings to business practices. These skills are highly useful for a variety of businesses and graduate programs.

Course #	Title	Hours
ACCT:4999	Honors Thesis in Accounting	arr.
BAIS:4999	Honors Thesis in Business Analytics	arr.
BUS:3600	Mentored Research	arr.
BUS:4999	Honors Thesis in Business	arr.
ECON:4999	Honors Thesis in Economics	arr.
FIN:4999	Honors Thesis in Finance	arr.
MGMT:4999	Honors Thesis in Management	arr.
MKTG:3702	Marketing Institute Seminar II	2

URES:3993	Undergraduate Research and Creative Projects	1-4
URES:3994	Undergraduate Research and Creative Projects	1-4
URES:3995	Independent Creative Research by Undergraduates Summer Internship	0

Internship Course

As students gain valuable hands-on work experience in a professional internship, they complete one of the approved internship courses to assist them in having a meaningful learning experience. The internship courses encourage students to take on relevant job responsibilities, outline strategies to meet internship goals, regularly communicate with their supervisors, explore the career field, and reflect on their growth throughout the experience.

Course #	Title	Hours
BUS:3100	Academic Internship or Cooperative Education	0
BUS:3900	Business Communication Internship I	3
BUS:4900	Academic Internship	arr.
CCP:1201	Academic Internship	1-3

EVNT:2110	Internship in Event Management	3
LS:3011	Leadership Certificate Capstone	0-2
SRM:4199	Independent Sport and Recreation Field Experience	arr.

Study Abroad

By taking advantage of short-term, summer, semester, or academic year programs, students can expand their worldview and learn alternative business and cultural practices outside of the United States. Students can participate in Tippie RISE study abroad programs such as London Winter, International Business in Sydney, CIMBA Italy, Global Internships, spring break programs through the John Pappajohn Entrepreneurial Center, or any of the many UI study abroad programs in over 40 countries. Any study abroad program is accepted for credit, including virtual programs, short-term faculty-led programs, and summer, semester, or year-long programs. These courses may be study abroad courses (prefix ABRD) or select study abroad international activities courses (prefix INTL) but are not required to be; see Study Abroad [p. 2215] in the catalog.

Experiential Course

In approved experiential courses, students improve their understanding of academic concepts by applying them to a class project with a company or nonprofit organization. Using real circumstances and issues, students engage with the organization to make a lasting impact. Students have support from classmates and guidance from their instructor throughout the duration of the project. Experiential courses are offered in many BBA majors and as business and non-business electives. Courses must be taken at the University of Iowa to satisfy Tippie RISE.

Course #	Title	Hours

Major Area of Study

All BBA students must complete a major area of study. The college offers BBA majors in accounting [p. 1140], business analytics and information systems [p. 1158], economics [p. 1185], entrepreneurship, finance [p. 1208], management [p. 1236], marketing [p. 1261], and risk management and insurance [p. 1219]. The requirements for each major are established by the department that offers the major.

Students With Associate of Arts Degrees

Students who have been granted an Associate of Arts (AA) from a community college participating in the Iowa and Illinois Community College/Regents Articulation Agreements are considered to have met all high school unit requirements for admission to the BBA and all of the General Education Program requirements listed under "General Education Requirements," except the Understanding Cultural Perspectives and World Languages requirements. The program of study for which a student was awarded the AA must have included:

- a minimum of 60 s.h. (or 90 quarter hours) of credit acceptable toward graduation from the University of Iowa;
- completion of the agreed-upon group of courses at the community college; and
- a GPA of at least 2.00.

Mathematics courses comparable to MATH:0100 Basic Algebra I are not accepted toward graduation. Completion of an Associate of Arts does not guarantee admission to the BBA program in the Tippie College of Business. See Admission in Undergraduate Programs [p. 1132] for a complete list of requirements for admission to the BBA.

Students who use the provisions of the articulation agreement are granted a maximum of 60 s.h. of transferable credit from two-year colleges toward the 120 s.h. required for a BBA. Credit earned for the AA beyond the 60 s.h. transferable maximum is used in computing a student's grade-point average, and it may be used to satisfy course requirements, but it does not count toward the BBA. Transfer credit for business courses taken during the first and second years is counted toward the BBA only if such courses are usually offered as lower-division courses at the University of Iowa.

Transfer Courses

Students who have taken courses at another institution that are similar to those approved for the common business requirements at Iowa may request that these courses be evaluated for transfer credit. Students who transfer fewer hours than needed to meet a common business requirement may use only approved courses to complete the remainder of the requirement. Only courses taken at accredited four-year institutions may be used to satisfy business course requirements numbered 3000 or above. Students must complete a minimum of 24 s.h. of business coursework at Iowa and at least two-thirds of the coursework in the major in the department awarding the major. They must also meet the 45 s.h. residence requirement of the Tippie College of Business. Credit earned through online courses may be counted toward all requirements for graduation, subject to approval by a student's major department.

Multiple Majors in Business

Students may earn the BBA degree with more than one major; they may also combine the BBA degree with the Bachelor of Arts or Bachelor of Science in economics (except for the BBA in economics). The Four-Year Graduation Plan is not available to students earning more than one major or degree. Students have access to degree audits in MyUI for all of the programs of study they have officially declared. They also have access to all program courses, with some limitations, during early registration. A student must be in good academic standing in order to declare more than one major. See Double Majors and Joint Degrees on the Tippie College of Business website.

Requirements

The Bachelor of Business Administration with a major in economics requires a minimum of 120 s.h. of coursework, including at least 22 s.h. of coursework for the major. To graduate, students must have a cumulative grade-point average of at least 2.00 in all college coursework attempted, all coursework attempted at the University of Iowa, all college business coursework attempted, all business coursework attempted at the University of Iowa, all college economics coursework attempted, and all economics coursework attempted at the University of Iowa. Coursework in the major may not be taken pass/nonpass. For BBA requirements, see "Common BBA Requirements" in this section of the catalog.

The BBA program emphasizes the economic foundations of business fields—accounting, finance, marketing, business law, and management. The BBA with a major in economics is designed for students who seek employment in the public or private sectors or who plan to earn an MBA degree after gaining necessary experience. The analytical subprogram is designed for students interested in a more mathematically rigorous program. They will be well prepared for technical jobs

in the public or private sectors as well as graduate study in economics and related fields.

The major requires a course in professional preparation, mathematics and statistics courses, economic theory courses, and applied field courses. Students in the analytical subprogram take required mathematics and statistics courses, but are not required to take MATH:1350 Quantitative Reasoning for Business or STAT:1030 Statistics for Business. Students should pay close attention to the order in which they take courses because some courses are prerequisites for others.

Students may be able to count a limited amount of transfer credit toward the economics major, but they are required to complete the following courses at the University of Iowa: ECON:3100 Intermediate Microeconomics or ECON:3125 Intermediate Microeconomics: Advanced, ECON:3150 Intermediate Macroeconomics, and two of the applied field courses.

No Subprogram

The BBA with a major in economics (no subprogram) requires the following coursework.

Requirements	Hours
Professional Preparation Course	1
Mathematics and Statistics Course	3
Economic Theory Courses	6
Applied Field Courses	12

Professional Preparation Course

Course #	Title	Hours
This course:		
ECON:3050	Professional Preparation in Economics	1

Mathematics and Statistics Course

Course #	Title	Hours
This course:		
ECON:3300	Introduction to Econometrics: Causal Inference With Data	3

Economic Theory Courses

Course #	Title	Hours
Both of these (must be taken at the University of Iowa):		
ECON:3100	Intermediate Microeconomics	3
ECON:3150	Intermediate Macroeconomics	3

Applied Field Courses

Students complete four applied field courses (12 s.h.) numbered ECON:3325–ECON:4700, excluding ECON:3870 Federal Reserve Challenge and ECON:4050 Readings and Independent Study in Economics. At least two of the applied field courses must be taken at the University of Iowa. Students are not guaranteed specific applied field courses. The availability of courses may be subject to prerequisites or restrictions.

Analytical Subprogram

The analytical subprogram requires the following coursework.

Course #	Title	Hours
Professional Preparation Course		1
Mathematics and Statistics Courses		15-18
Economic Theory Courses		6
Applied Field Courses		12

Analytical Subprogram: Professional Preparation Course

Course #	Title	Hours
This course:		
ECON:3050	Professional Preparation in Economics	1

Analytical Subprogram: Mathematics and Statistics Courses

Course #	Title	Hours
All of these:		
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
ECON:4800	Econometric Analysis: Advanced Causal Inference With Data	3
One of these:		
STAT:3100 & STAT:3101	Introduction to Mathematical Statistics I and Introduction to Mathematical Statistics II (must take both courses)	7
STAT:3120	Probability and Statistics	4

Analytical Subprogram: Economic Theory Courses

Course #	Title	Hours
Both of these (must be taken at the University of Iowa):		
ECON:3125	Intermediate Microeconomics: Advanced	3
ECON:3150	Intermediate Macroeconomics	3

Analytical Subprogram: Applied Field Courses

Students complete four applied field courses (12 s.h.) numbered ECON:3325–ECON:4700, excluding ECON:3870 Federal Reserve Challenge and ECON:4050 Readings and Independent Study in Economics. At least two of the four courses must be numbered 4000–4700 and at least two of the applied field courses must be taken at the University of Iowa. Students are not guaranteed specific applied field courses. The availability of courses may be subject to prerequisites or restrictions.

Honors

Honors in the Major

Graduation with honors in economics recognizes high scholastic achievement based on grades and on completion

of academic work beyond the requirements of the economics major. Students must have a cumulative grade-point average of at least 3.50 in all college coursework attempted, all coursework attempted at the University of Iowa, all college business coursework attempted, and all business coursework attempted at the University of Iowa. They must also successfully complete an honors thesis under the supervision of a faculty member.

Students begin by completing BUS:1999 Introduction to Research in Business at least three semesters prior to graduation. This course introduces students to research in the college and provides an opportunity to develop thesis questions and meet Tippie College of Business faculty members engaged in research. They must also complete ECON:3100 Intermediate Microeconomics (no subprogram) or ECON:3125 Intermediate Microeconomics: Advanced (analytical subprogram), ECON:3150 Intermediate Macroeconomics, and ECON:3300 Introduction to Econometrics: Causal Inference With Data (no subprogram) or ECON:4800 Econometric Analysis: Advanced Causal Inference With Data (analytical subprogram) before commencing thesis work.

After identifying a faculty member to advise them on their thesis and completing the coursework listed, students register for ECON:4999 Honors Thesis in Economics for two semesters while they complete their research and write their thesis. In the second semester of their thesis, students present their research in a poster format at the Undergraduate Research Festival.

Students interested in graduating with honors in economics should see Tippie Honors on the Tippie College of Business website.

University of Iowa Honors Program

Completing the honors in economics requirements also satisfies the experiential learning requirement for the University of Iowa Honors Program. To learn more about graduating with honors through the UI Honors Program, visit the Honors at Iowa website.

Membership in the UI Honors Program is not required to earn honors in the economics major.

Career Advancement

The Bachelor of Business Administration degree provides an excellent educational background for a variety of positions in business and government, integrating a strong economic perspective with a comprehensive business education. Graduates find employment in industry, banking, financial institutions, and trade organizations and in federal, state, and local government agencies dealing with economic policy, regulation, and analysis. An undergraduate BBA degree in economics also prepares students for a successful entrepreneurship career, as well as the study of law and for graduate study in fields such as economics, business management, public administration, hospital and health administration, urban and regional planning, transportation, journalism, political science, and statistics.

Over 90% of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs; for more information about careers, visit the Pomerantz Career Center website.

Economics students also have access to a wide range of career resources and expertise through specifically dedicated Tippie Career Services staff.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

The following checkpoints are designed for students who enter the university as direct admission or pre-business students. In order to stay on the plan, pre-business students must maintain the grade-point averages required for admission to the Tippie College of Business and must apply for admission to the college the semester the four prerequisite courses will be completed, but no later than before the fifth semester begins. The Four-Year Graduation Plan is not available to students who choose to pursue a double major in the college or to those enrolled in a combined degree program.

Students must take BUS:3000 Business Communication and Professionalism during their first year after admission to the Tippie College of Business, except direct admission students, who take the course during their second year.

Students Without Subprogram

Before the third semester begins: ECON:1100 Principles of Microeconomics, ECON:1200 Principles of Macroeconomics, MATH:1350 Quantitative Reasoning for Business, STAT:1030 Statistics for Business, and at least one-quarter of the semester hours required for graduation.

Before the fifth semester begins: ECON:3300 Introduction to Econometrics: Causal Inference With Data, ECON:3100 Intermediate Microeconomics, all General Education requirements, and at least half of the semester hours required for graduation.

Before the seventh semester begins: ECON:3150 Intermediate Macroeconomics, at least one applied field course, all business core requirements, and at least three-quarters of the semester hours required for graduation.

Before the eighth semester begins: at least two applied field courses.

During the eighth semester: all remaining coursework in the major and a sufficient number of semester hours to graduate.

Students With Analytical Subprogram

Before the third semester begins: ECON:1100 Principles of Microeconomics, ECON:1200 Principles of Macroeconomics, MATH:1850 Calculus I, MATH:1860 Calculus II, and at least one-quarter of the semester hours required for graduation.

Before the fifth semester begins: either STAT:3120 Probability and Statistics or both STAT:3100 and STAT:3101 Introduction to Mathematical Statistics II, all General Education requirements, and at least half of the semester hours required for graduation.

Before the seventh semester begins: ECON:3125 Intermediate Microeconomics: Advanced, ECON:3150 Intermediate Macroeconomics, at least one applied field

course, all business core requirements, and at least three-quarters of the semester hours required for graduation.

Before the eighth semester begins: at least two applied field courses.

During the eighth semester: ECON:4800 Econometric Analysis: Advanced Causal Inference With Data, all remaining coursework in the major, and a sufficient number of semester hours to graduate.

Iowa Degree in Three

Iowa Degree in Three is designed for students who are academically prepared to complete more semester hours per term than average or who come to the University of Iowa with completed college credits. It is a flexible, affordable option developed to meet the needs of highly motivated students.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

The Tippie College of Business makes several assumptions about candidates for the Iowa Degree in Three:

- students are prepared to enroll in MATH:1350 Quantitative Reasoning for Business during their first enrollment at the University of Iowa;
- students have fulfilled the general education World Languages requirement before matriculation;
- students are direct admits to the Tippie College of Business;
- students have earned at least 15 s.h. of college credit before matriculation; and
- students are not held for more than two English as a Second Language classes.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Economics, BBA

Course	Title	Hours
Academic Career		
Any Semester		
Students are required to complete 52 s.h. of non-business coursework. Courses with a prefix of ACCT, BAIS, BUS, ECON, ENTR, FIN, MGMT, and MKTG will not count towards non-business hours. Check degree audit for non-business hours or confer with academic advisor.		
Students who need to complete the World Language requirement should consult with their academic advisor about when to add courses to plan of study. World Language counts as non-business coursework.		
To fulfill the Tippie RISE experiential learning requirement, complete an approved course in at least one of the following categories: research with faculty, internship course, study abroad, experiential course. [a]		0 - 3

Students must satisfy the Tippie College of Business residence requirement: 45 s.h. of UI coursework after admission to Tippie.

	Hours	**0-3**

a See degree audit for course options.
b Enrollment in math courses requires completion of a placement exam.
c GE courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
d Must be completed at the University of Iowa.
e Must be admitted to Tippie to enroll in BUS:3000. Generally completed during the second year, but should be taken no later than the third year.
f At least two of the applied field courses must be taken at the University of Iowa.
g Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Economics, Minor

Requirements

The undergraduate minor in economics requires a minimum of 15 s.h. of economics coursework, including 12 s.h. of coursework completed at the University of Iowa in economics courses (prefix ECON) numbered 3000 or above. A maximum of 6 s.h. of coursework used to satisfy another major, minor, or certificate may be applied toward the economics minor. Students must have a cumulative grade-point average of at least 2.00 in all college economics coursework attempted and all economics coursework attempted at the University of Iowa. Coursework in the minor may not be taken pass/nonpass.

Economics, MA

Learning Outcomes

- To demonstrate proficiency and knowledge in the specialization discipline, students will demonstrate expertise in reading and interpreting academic research articles in their specialized discipline. They will be knowledgeable in the major theoretical perspectives and prior research findings in their area and be able to integrate prior research from various streams of literature.
- To demonstrate the ability to conduct independent, original research that leads to publications, students will be able to identify important research questions, provide theory-based reasoning to develop original hypotheses, execute an appropriate research design, and summarize their efforts in a working paper. This includes being able to read and summarize existing research into their paper and understanding the prior literature in a variety of substantive areas, paradigms, and methodologies.
- To be effective teachers in their disciplines, students will demonstrate proficiency as instructors in courses in their specialized discipline. This includes preparing course syllabi, giving lectures, writing assignments and exams, and evaluating students on the various deliverables.
- To demonstrate effective communication skills, students will be effective at communicating ideas in academic writing and how these ideas relate to each other within the context of an academic paper. This includes the ability to establish a position, show why that position matters, and situate that position within a context that is determined by the appropriate audience. International students will demonstrate the ability to effectively lecture and communicate in English.

Requirements

The Master of Arts is offered only to students working toward a PhD in economics.

The department participates in the MBA program; see the Master of Business Administration Program [p. 1272] in the catalog.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants must submit a completed Application for Graduate Admission, official transcripts from all institutions they have attended, and all official test scores to University of Iowa Admissions.

The application deadline for admission and financial support is Jan. 15 for fall entry.

Career Advancement

Over 90% of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs; for more information about careers, visit the Pomerantz Career Center website.

Economics, PhD

Learning Outcomes

- To demonstrate proficiency and knowledge in the specialization discipline, students will demonstrate expertise in reading and interpreting academic research articles in their specialized discipline. They will be knowledgeable in the major theoretical perspectives and prior research findings in their area and be able to integrate prior research from various streams of literature.
- To demonstrate the ability to conduct independent, original research that leads to publications, students will be able to identify important research questions, provide theory-based reasoning to develop original hypotheses, execute an appropriate research design, and summarize their efforts in a working paper. This includes being able to read and summarize existing research into their paper and understanding the prior literature in a variety of substantive areas, paradigms, and methodologies.
- To be effective teachers in their disciplines, students will demonstrate proficiency as instructors in courses in their specialized discipline. This includes preparing course syllabi, giving lectures, writing assignments and exams, and evaluating students on the various deliverables.
- To demonstrate effective communication skills, students will be effective at communicating ideas in academic writing and how these ideas relate to each other within the context of an academic paper. This includes the ability to establish a position, show why that position matters, and situate that position within a context that is determined by the appropriate audience. International students will demonstrate the ability to effectively lecture and communicate in English.

Requirements

The Doctor of Philosophy program in economics requires a minimum of 72 s.h. of graduate credit. Students must maintain a cumulative grade-point average (GPA) of at least 3.00 to earn the degree. The program provides rigorous training in economic theory, econometrics, and applied economics. It has six components: a coordinated sequence of core courses, a qualifying examination, a research paper, a set of major field courses, a dissertation proposal and comprehensive examination, and a dissertation.

The department partners with the College of Law to offer a combined JD/PhD degree program; see Combined Programs [p. 1206] in this section of the catalog. It also participates in the MBA program; see the Master of Business Administration Program [p. 1272] in the catalog.

The PhD in economics requires the following coursework.

Core Sequence

First Semester

Course #	Title	Hours
ECON:5115	Fundamentals of Microeconomics	3
ECON:5200	Macroeconomics I	3
ECON:5805	Statistics for Economics	3

Second Semester

Course #	Title	Hours
ECON:5110	Microeconomics II	3
ECON:5210	Macroeconomics II	3
ECON:5800	Econometrics	3

Third Semester

Course #	Title	Hours
ECON:5810	Applied Econometrics	3
ECON:6320	Labor Economics	3
ECON:6420	Macroeconomics III	3
ECON:6900	Contemporary Topics in Economics	3

Qualifying Examination

The qualifying examination is normally taken the summer after the first year.

Research Paper

The research paper is normally completed the summer after the second year.

Major Field Courses

Students choose a major study area in addition to the core courses. The requirement for the major area is a minimum of 24 s.h. of intensive study in a field and in courses that enable students to understand the relationship between their specialty and related fields.

Dissertation Proposal and Comprehensive Examination

Students must defend a dissertation proposal in a comprehensive examination within one year of completing the research paper requirement.

Dissertation

Submission of the completed dissertation and an oral defense of the dissertation research completes the PhD program.

Combined Programs

PhD/JD

The Department of Economics and the College of Law offer a combined Doctor of Philosophy/Juris Doctor program. Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program. For information about the JD, see Juris Doctor, JD [p. 1833] (College of Law) in the catalog.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Applicants must submit a completed Application for Graduate Admission, official transcripts from all institutions they have attended, and all official test scores to University of Iowa Admissions.

The application deadline for admission and financial support is Jan. 15 for fall entry.

Career Advancement

Over 90% of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment within six months of graduation.

Finance

Chair

- Erik Lie

Director, Undergraduate Program

- Todd Houge

Executive Director, Vaughan Institute

- Jim Lewis

Undergraduate majors: finance (BBA); risk management and insurance (BBA)

Undergraduate certificate: risk management and insurance

Graduate degrees: MS in finance; finance subprogram for the PhD in business administration

Faculty: https://tippie.uiowa.edu/people?departments=170

Website: https://tippie.uiowa.edu/about/finance-department

The Department of Finance is committed to delivering programs of study that integrate the technology and analytics of today's global financial community. The goal is to provide students with the technical skills they need to enhance their managerial effectiveness, whether they work in large corporations, small organizations, or private consulting.

The department offers undergraduate majors in finance and risk management and insurance, the Master of Science program in finance, and the subprogram in finance that leads to the PhD in business administration. Additionally, they participate in the MBA program; see the Master of Business Administration Program [p. 1272] in the catalog. The department also partners with the Emmett J. Vaughan Institute of Risk Management and Insurance to offer the undergraduate Certificate in Risk Management and Insurance [p. 1224].

Programs

Undergraduate Programs of Study

Majors

- Major in Finance (Bachelor of Business Administration) [p. 1213]
- Major in Risk Management and Insurance (Bachelor of Business Administration) [p. 1219]

Certificate

- Certificate in Risk Management and Insurance [p. 1224]

Graduate Programs of Study

- Master of Science in Finance [p. 1226]
- Finance subprogram for the Doctor of Philosophy [p. 1228] in Business Administration

Resources

The Emmett J. Vaughan Institute of Risk Management and Insurance collaborates with the Department of Finance to offer an undergraduate major in risk management and insurance and an undergraduate Certificate in Risk Management and Insurance. In addition to coursework, the Vaughan Institute provides professional development opportunities—networking events with industry speakers, scholarships, a mentorship program with alumni, and a job fair. The Vaughan Institute was named a Global Center of Insurance Excellence, one of only 33 in the world.

The Vaughan Institute provides numerous opportunities for students. It offers:

- an active student organization—Gamma Iota Sigma;
- over $40,000 in scholarships awarded to Vaughan students each academic year;
- networking events with industry professionals;
- a series of speaker events with recent graduates to assist in résumé preparation, and refinement of interview skills;
- an industry mentor program;
- a student résumé book sent to over 250 employers;
- professional development opportunities, such as the Vaughan Institute Golf Outing in August;
- trips to professional conferences in locations such as Chicago, Dallas, and San Antonio;
- a student newsletter with job and internship announcements; and
- a risk management and insurance career fair.

Courses

Finance Courses

FIN:1300 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

FIN:1500 Introduction to Investment Banking **1 s.h.**
Overview of investment banking industry; nontechnical; inclusive environment to determine student interest in applying to the Hawkinson Institute—the Tippie College of Business undergraduate investment banking program; no prior knowledge of accounting and finance required. Requirements: UI cumulative GPA of at least 3.40.

FIN:3000 Introductory Financial Management **3 s.h.**
Financial management goals and decision-making; time value of money; valuation of bonds and stocks, risk and return analysis, cost of capital, capital budgeting, cash flow estimation; financial statement analysis and financial planning. Prerequisites: ECON:1200 and ACCT:2100 and ECON:1100. Requirements: 60 s.h. completed.

FIN:3020 Professional Finance Seminar **1 s.h.**
Seminar topics include finance careers, curriculum, understanding of current events, internships, professional designations, ethics, and general finance acumen.

FIN:3021 Professional Risk Management and Insurance Seminar **1 s.h.**
Topics include risk management and insurance (RMI) careers, curriculum, understanding of current events, internships, professional designations, ethics, and general risk management acumen.

FIN:3100 Financial Information Technology **2 s.h.**
Applications of commonly used financial software and data systems reviewed by student teams. Corequisites: FIN:3000.

FIN:3200 Investment Management 3 s.h.
Investment in marketable securities in domestic and international markets; financial markets, securities trading, evaluation of risk/return trade-off, formulation and implementation of investment strategies, efficient portfolio formation. Prerequisites: FIN:3000.

FIN:3300 Corporate Finance 3 s.h.
Advanced managerial decision-making; corporate financial policy, dividend policy, agency theory, corporate restructuring, capital structure strategies, mergers and acquisitions, option pricing fundamentals, convertible debt, callable debt, warrants. Prerequisites: FIN:3000.

FIN:3400 Principles of Risk Management and Insurance 3 s.h.
Introduction to risk and insurance; risk identification and evaluation, demand for insurance, effects of limited liability, theory of moral hazard and adverse selection; business and personal risk; insurance as a risk management tool.

FIN:3500 Hawkinson Scholar Seminar 2 s.h.
Advanced skill and understanding required for pursuit of investment banking, management consulting careers; specialized résumé and interview training, industry presentations, relevant case assignments.

FIN:3510 Hawkinson Scholar Seminar: Topics in Finance 0 s.h.
Subsectors in the financial services industry, including hedge funds, investment banking, commercial banking; valuation techniques used in real-world mergers, acquisitions, equity offerings, debt financing, and so forth.

FIN:3900 Advanced Entrepreneurial Finance 3 s.h.
Introduction to a variety of finance topics related to startup or entrepreneurial ventures including valuation models, deal structuring and contracts, and different forms of exit; valuation models from perspective of common investors in early stage funding space (i.e., venture capital firms, private equity firms, banks, Small Business Administration); value creation and how to accomplish and measure it; how much money to raise and from which capital providers.

FIN:4015 Topics in Risk Management and Insurance 3 s.h.
Explores cutting-edge concepts and emerging risk management and insurance trends. Students engage with case studies, current industry challenges, and possible innovative solutions. The curriculum adapts each semester to reflect the latest risk management or insurance developments. Prerequisites: FIN:3000.

FIN:4020 Topics in Finance 3 s.h.
Contemporary issues in finance. Prerequisites: FIN:3000.

FIN:4030 Securities Industry Essentials Exam Prep 1 s.h.
Preparatory program for passage of the Securities Industry Essentials (SIE) exam and includes a voucher to take the exam upon completion; much of the material is provided online with additional meetings and review sessions; the SIE exam is for any professional who needs a Series 6, Series 7, or any other exam required by the Financial Industry Regulatory Authority (FINRA). Prerequisites: FIN:3000 or MBA:8180.

FIN:4035 ARGUS Financial Analysis 1 s.h.
Impact of assumptions on cash flows and valuations of income-producing properties using ARGUS financial analysis; use of information obtained through application and analysis of real estate finance and investment due diligence to articulate, communicate, and apply the expertise gained through experiential learning to evaluate real-world real estate situations; access to ARGUS Enterprise software using licenses contributed by ARGUS Software, Inc.

FIN:4040 Bloomberg Market Concepts (BMC) and Environmental Social Governance (ESG) Certificates 1 s.h.
Bloomberg Market Concepts (BMC) and Environmental Social Governance (ESG) certificates offered by Bloomberg for Education are powerful résumé builders and signal to prospective employers that students are adept at using the Bloomberg platform; the BMC certificate is a library of e-learning courses that provides an introduction to financial markets; the ESG certificate covers core modules —environmental, social, and governance—and shows how investors are measuring and making decisions around ESG investing.

FIN:4045 Wall Street Prep: Financial and Valuation Modeling Seminar 1 s.h.
Provide students with advanced financial analysis and modeling skills used by financial analysts in investment banking, private equity, equity research, and related fields. Enhance student competitiveness for internships and full-time employment in those fields. Developed by Wall Street Prep, a training organization employed by top banks and financial institutions globally to develop modeling skills for newly-hired financial analysts. Prerequisites: ACCT:2100. Corequisites: FIN:3000.

FIN:4050 Directed Readings in Finance arr.
Individually guided readings in selected topics.

FIN:4055 Wall Street Prep: Mergers and Acquisitions and Leveraged Buyout Modeling Seminar 1 s.h.
Provide students with advanced financial analysis and modeling skills used in mergers and acquisitions (M&A), leveraged buyouts (LBOs), investment banking, private equity, equity research, corporate development, and related fields. Enhance student competitiveness for internships and full-time employment in those fields. Students will build a three-statement model and a discounted cash flow model. Developed by Wall Street Prep, a training organization employed by top banks and financial institutions globally to develop modeling skills for newly hired financial analysts. Prerequisites: FIN:3000.

FIN:4210 Futures and Options 3 s.h.
Use of options, futures, and other derivative securities in financial management; understanding types of derivative securities, markets, trading technology; applications of risk management and speculation; pricing relations with underlying securities. Prerequisites: FIN:3200.

FIN:4220 Fixed Income Securities 3 s.h.
Theories of fixed income securities, term structure of interest rates; asset pricing models, valuation of fixed income securities and contingent claims, fixed income portfolio management, immunization strategies, yield curve analysis. Prerequisites: FIN:3000. Corequisites: FIN:3200.

FIN:4230 Real Estate Process 3 s.h.
Fundamentals of real estate finance and investments; economic base analysis, asset analysis, market analysis, mortgage markets, underwriting, alternative mortgages, mortgage-backed securities, real estate securitization, land development, valuation principles, investment analysis, tax consideration, portfolio management. Prerequisites: FIN:3000.

FIN:4235 Real Estate Capital Markets 3 s.h.
Key concepts and analytical methods essential for critical real estate financing decisions. Topics covered include operation of global real estate capital markets, alternative mortgage structures, residential and commercial mortgage underwriting, mortgage mathematics, critical role of debt financing and leverage in real estate investment analysis, alternative types of financing, sources of equity partnership financing for real estate, refinancing decisions as source of value, mortgage-backed securities, and real estate private equity fund. Prerequisites: FIN:3000.

FIN:4240 International Finance 3 s.h.
International monetary systems, exchange rate determination, use of currency derivative in hedging and risk management, currency swaps, foreign direct investment, international corporate finance, international capital budgeting, international portfolio investment, Third World debt, privatization, joint ventures. Prerequisites: FIN:3000 and FIN:3200.

FIN:4250 Applied Equity Valuation 3 s.h.
Equity valuation and portfolio management techniques by investment professionals; economic forecasting, industry analysis, financial statement analysis, spreadsheet modeling, cost of capital estimation, equity valuation and portfolio construction; students manage the University of Iowa's Krause Fund (an endowed equity portfolio that blends academic rigor with real-world portfolio management experience). Prerequisites: FIN:3000. Requirements: UI cumulative GPA of at least 2.80.

FIN:4310 Advanced Corporate Finance 3 s.h.
Understanding and evaluating major corporate actions (e.g., mergers and acquisitions, initial public offerings, spin offs, debt and equity issuance); introduction to venture capital and leveraged buyouts; includes a substantial experiential learning component to nudge students away from textbook-based learning towards acquiring practical skills needed to succeed in the corporate finance industry; students collect and evaluate financial information and are challenged to think beyond lecture material presented in the classroom. Prerequisites: FIN:3300. Corequisites: ACCT:3020 or ACCT:3200.

FIN:4320 Commercial Banking 3 s.h.
Management of commercial banks and financial service firms; asset and liability management, credit policy, capital risk, liquidity planning, use of swaps and derivatives to hedge interest rate risk, global banking, investment strategies. Prerequisites: FIN:3000.

FIN:4330 Investment Banking 3 s.h.
How investment banks fill critical roles in maintaining well-functioning financial markets and provide access to capital and strategic advice to companies and governments; recent global financial crisis; how banker's role as intermediary between companies and markets adds value and creates conflicts and risk. Prerequisites: FIN:3300 and FIN:3000.

FIN:4340 Wealth Management 3 s.h.
Financial services for client wealth management; how to make personal investment decisions and build diversified, comprehensive investment portfolios; investment theory; common behavioral biases that lead to investment pitfalls, mistakes; wealth management objectives, portfolio risk and reward, asset allocation, portfolio diversification, tax shield structures, retirement plans, wealth protection, risk management, behavioral finance, psychology of investing. Prerequisites: FIN:3000.

FIN:4350 Applied Wealth Management 3 s.h.
How wealth management relates to managing the financial well-being of individuals; process of determining goals and objectives for someone and assessing their risk tolerances; development of a strong financial plan involving a variety of steps and process including insurance needs, savings requirements, estate planning, budgeting, asset allocation, and portfolio development; experiential component where students make recommendations for real clients or a pool of funds. Prerequisites: FIN:3000.

FIN:4410 Enterprise Risk Management 3 s.h.
Analysis and treatment of pure and financial risks faced by business organizations; development and implementation of the risk management process, application of varied risk management techniques to identified exposures; how businesses manage risk and how insurance is used to manage the cost of risk; case studies. Prerequisites: FIN:3400.

FIN:4420 Property and Liability Insurance 3 s.h.
Fundamentals of commercial property and liability insurance; commercial property and liability contracts, functions of property and liability insurers; regulation and financial analysis of property and liability insurers; marketing, underwriting, rate making, claim settlements. Prerequisites: FIN:3400.

FIN:4430 Life and Health Insurance 3 s.h.
Types of life insurance and annuity contracts and their uses; regulation of life and health insurers; development of financial plans using life insurance products; Social Security, group, and individual health insurance products, including major medical, disability income, long-term care policies; marketplace analysis; contractual provisions, determination of human life values, mathematics of life contingencies and pricing. Prerequisites: FIN:3400.

FIN:4440 Employee Benefit Plans 3 s.h.
Management of employee benefit plans (e.g., group life and health insurance, retirement programs); design, administration, and financing of employee benefits; federal administration of employee benefit plans; funding requirements, financial alternatives; funding and vesting of retirement annuities; design and management of health care plans, including "cafeteria" approach and nonqualified deferred compensation arrangements; economic effects and financing employee benefits and retirement plans in private and public sectors. Prerequisites: FIN:3400.

FIN:4450 Risk Modeling 3 s.h.
Theory used to solve real-life problems taken from a diverse set of risk management applications; varied areas where risk analysis has become important (i.e., finance, insurance, corporate risk management, personal financial planning); principles of probability theory, mathematical finance, and actuarial science developed for use in quantitative analysis of important risk management problems; spreadsheet-based course. Prerequisites: FIN:3000.

FIN:4460 Insurer Operations and Captive Management 3 s.h.
Fundamentals of insurer and captive operations; regulation, accounting, finance, marketing, underwriting, reinsurance, ratemaking, and claims management; students set up and manage a captive insurance company covering risk exposures of the university. Prerequisites: FIN:3400.

FIN:4470 Insurtech Innovation 3 s.h.
Explore proven methodologies and resources for Insurtech (insurance and technology) innovation and examine real-world lessons learned by some of the greatest Insurtech innovations (and a few epic failures). Prerequisites: FIN:3400.

FIN:4999 Honors Thesis in Finance arr.
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University of Iowa Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: BUS:1999.

FIN:7110 Finance Theory I 3 s.h.
Consumption-based models of asset pricing; arbitrage, contingent claims; market efficiency and information economics, behavioral models; emphasis on theory. Requirements: PhD enrollment.

FIN:7120 Seminar in Corporate Finance 3 s.h.
Valuation (DCF and CAPM); valuation under certainty, uncertainty; financial structure, cost of capital; dividend policy; firm investment in perfect, imperfect capital markets. Requirements: PhD enrollment.

FIN:7130 Finance Theory II 3 s.h.
Continuous time theories of financial markets, including connection between an arbitrage-free pricing system and martingales; pricing of contingent claims, general equilibrium and term structure theory. Requirements: PhD enrollment.

FIN:7140 Advanced Empirical Finance 3 s.h.
Market efficiency and term structure theory tests; tests of asset pricing models, dividend policy and financial structure issues. Requirements: PhD enrollment.

FIN:7850 Seminar in Finance 1 s.h.
Requirements: PhD enrollment.

FIN:7950 Directed Reading in Finance - PhD arr.
Requirements: PhD enrollment.

FIN:7975 Thesis in Finance arr.

FIN:8130 Business Communication 1-3 s.h.
Effective communication to become a successful business professional and leader; strengthen ability to speak and write confidently, competently, and effectively regardless of venue; varied team and individual presentation coaching, applied exercises. Requirements: admission to MS in finance program.

FIN:9000 Directed Readings in Finance - MBA arr.

FIN:9001 Directed Readings in Finance - Master of Science in Finance arr.
Coursework and topics negotiated between student and instructor on a case-by-case basis. Prerequisites: MBA:8180.

FIN:9010 Contemporary Topics in Finance arr.

FIN:9130 Corporate Risk Management and Insurance 3 s.h.
Introduction to corporate risk management and the risk management process; how insurance can be used as a risk management tool; standard commercial property and liability insurance contracts and their applications; fundamentals of insurance company operations and their distribution channels, rate making, underwriting, and claim settlements.

FIN:9140 Enterprise Risk Management 2-3 s.h.
Analysis and treatment of risks faced by businesses; how risk management creates value in corporations, includes development and implementation of the risk management process, and explores the application of various risk management techniques to identified exposures; use of case studies to study how businesses manage risk, and how insurance and other risk management tools help reduce the cost of risk. Prerequisites: MBA:8180.

FIN:9150 Financial Modeling and Firm Valuation 2-3 s.h.
How to model firm value from a discounted cash flow perspective; identify a company's key value drivers, create spreadsheet valuation models; projected financial valuation integrates projected pro forma accounting statements; forecasting, free cash flow estimation, industry competitive analysis. Prerequisites: MBA:8180.

FIN:9160 Quantitative Finance and Machine Learning 0,3 s.h.
Quantitative techniques in derivative, equity, and interest rate valuation using regression and machine learning techniques; overview of portfolio construction methods; underlying financial theory and Python programming.

FIN:9200 Portfolio Management 2-3 s.h.
Introduction to fundamental elements of modern portfolio theory, application to investment analysis; investment environment, instruments, types of investors; concepts of risk and return, broad perspective on historical risk and return of various asset classes; asset allocation decision, risk and return dynamics of a multiple securities portfolio; varied asset pricing models, how capital markets work for investors and users of capital. Prerequisites: MBA:8180.

FIN:9210 Derivatives 2-3 s.h.
Examination of the wide range of derivative securities that cover the financial landscape; the market place, trading, and investors; different derivative securities in existence, their relationship with the underlying securities, and pricing; applications of derivative securities to risk management and speculation; application of principles to fixed income, international finance, real estate, and securitization. Prerequisites: MBA:8180 and FIN:9200.

FIN:9220 Fixed Income Securities 2-3 s.h.
Conceptual framework and tools to undertake the valuation of fixed income securities and the management of fixed income portfolios; varied fixed income instruments and the markets in which they trade; introduction to basic building blocks of fixed income analysis, including concepts of duration, convexity, and term structure of interest rates; application of concepts in bond portfolio immunization strategies; use of interest rate derivatives in portfolio hedging applications. Prerequisites: MBA:8180.

FIN:9225 Applied Fixed Income Analysis - Hart Fund 3 s.h.
Management of fixed income fund portfolio; legal environment in which the fund operates; students analyze and recommend fixed income investments, implement controls to monitor fund's performance; decisions and investment recommendations are made by students; each student is assigned a specific fixed income asset class (i.e., high-yield debt) to monitor, analyze, and predict future investment returns; employment of historical and predictive analytics to estimate short term and long term returns for asset classes; and collectively determine the mean variance portfolio. Prerequisites: MBA:8180 and FIN:9220.

FIN:9230 Real Estate Finance and Investments 2-3 s.h.
In-depth understanding of concepts and techniques of real estate financial analysis, equity investment decision-making; real estate investing from analysis of developments through the securitization of mortgages; mortgage markets and pricing, real estate finance and investments, mortgage-backed securities, development process, real estate valuation, tax effects, securitized real estate, real estate cycles, application of derivative instruments, strategic asset allocation. Prerequisites: MBA:8180.

FIN:9240 International Finance 2-3 s.h.
Introduction to structure and functioning of global financial markets; currency market, international equity markets; use of derivatives in currency risk management for corporate and investment needs; corporate investment decisions in an international context. Prerequisites: MBA:8180.

FIN:9250 Applied Securities Analysis - Henry Fund I 3 s.h.
Manage Henry Fund portfolio, learn legal environment in which the fund operates, analyze potential investments, implement controls to monitor the fund's performance; decisions and investment recommendations made by students; each student analyzes an economic sector and geographic region (i.e., utilities analyst and specialist in South East Asia); while the fund cannot currently invest directly in foreign listed stocks, it holds U.S. listed stocks with significant overseas interests and students are able to invest in a number of ADRs. Prerequisites: MBA:8180.

FIN:9260 Applied Securities Analysis - Henry Fund II 3 s.h.
Continuation of FIN:9250. Prerequisites: FIN:9250 and MBA:8180.

FIN:9270 Security Analysis 3 s.h.
Valuation of financial securities (primarily equities) using discounted cash flow model; industry, regulatory analysis; financial statement analysis; active portfolio management; value-based management techniques; valuation of firms outside the United States. Prerequisites: MBA:8180.

FIN:9290 Alternative Investments and Portfolio Strategies 2-3 s.h.
Alternative investments including hedge funds, private equity funds, and venture capital vehicles; purpose of alternative investment, including the risk/return profile of alternatives and correlations with traditional asset classes; specific hedge fund styles, strategies, risk profiles; portfolio strategy topics including diversification benefits, management of downside risk, international diversification, behavioral finance, performance measures, and performance attribution analysis. Prerequisites: MBA:8180.

FIN:9300 Corporate Finance 2-3 s.h.
Underpinnings and optimization of corporations' investment and financing decisions; firm-wide and project-specific cost of capital, optimal capital structure decisions; in-depth capital budgeting methods, including real options techniques; corporate investment module of the class includes simulation analysis using Crystal Ball; cost of capital, valuation techniques, advanced capital budgeting, capital structure and dividend policy, option pricing models applied to corporate finance. Prerequisites: MBA:8180.

FIN:9310 Corporate Financial Strategy 2-3 s.h.
Major strategic decisions within the corporate form; risk management, including why firms engage in it, their methods for doing so, and exercises in the simulation of uncertainty; dividends and repurchases under the payout policy decision; corporate governance topics, including executive compensation, board structure, and institutional monitoring; merger and acquisitions analysis, including regulation, valuation, anti-takeover devices, payment method, and LBOs; divestitures and other restructuring topics, including corporate diversification, spin-offs, carve-outs, private workouts, and Chapter 11. Prerequisites: MBA:8180.

FIN:9330 Investment Banking 3 s.h.
How investment banks fill critical roles in maintaining well-functioning financial markets and provide access to capital and strategic advice to companies and governments; recent global financial crisis; how banker's role as intermediary between companies and markets adds value and creates conflicts and risk. Prerequisites: MBA:8180.

FIN:9350 Wealth Management 2-3 s.h.
Rapid growth of the field of wealth management over several decades, driven by general increase in personal wealth and increased responsibility for individuals to manage their own wealth; knowledge and tools to enter the financial services industry; financial planning industry, client characteristics, tax shield structures, insurance, asset allocation plans, estate planning, behavioral finance. Prerequisites: MBA:8180.

FIN:9390 Applied Financial Analysis: Industry Project 3 s.h.
Hands-on practical experience in corporate finance or investments; work in teams on a corporate finance project or an investment project for a corporate or institutional client; partner companies identify financial issues, challenges, and opportunities for students to help solve; students work with the companies and a faculty member to provide an analysis of the situation and proposals of actions to be taken. Prerequisites: MBA:8180.

FIN:9391 Thesis in Finance - Master of Science in Finance arr.
Students conduct original research in finance, supervised by a Department of Finance faculty member. Prerequisites: MBA:8180.

FIN:9400 Professional Development and Business Acumen 0-3 s.h.
Preparation for postgraduate careers and exposure to relevant information that does not fit cleanly into academic work; how to grow a professional network and build depth of knowledge and breadth of business acumen; focus on helping students investigate various finance roles, land the all-important summer and postgraduate employment, and demonstrate professionalism in business; informational input on current trends/topics from outside business professionals, along with shared student experiences, are important cornerstones and require student preparation and participation. Requirements: admission to MS in finance.

Finance, BBA

Common BBA Requirements

The Bachelor of Business Administration (BBA) requires a minimum of 120 s.h. of credit, including at least 48 s.h. earned in business courses and at least 52 s.h. earned in non-business courses.

BBA students must earn 45 s.h. at the University of Iowa following admission to the BBA program. At least 24 s.h. in business courses must be earned with Tippie College of Business coursework. At least two-thirds of the semester hours in a student's major must be earned in the student's major department at the Tippie College of Business. Nonresident instruction includes coursework at colleges and universities other than the University of Iowa.

To graduate, BBA students must have a cumulative grade-point average of at least 2.00 in all college-level coursework attempted, all college-level business coursework attempted, all college-level major coursework attempted, all college-level coursework attempted at the University of Iowa, all college-level business coursework attempted at the University of Iowa, and all college-level major coursework attempted at the University of Iowa.

Common BBA Requirements

BBA students must fulfill the following common requirements or approved equivalents. For approved equivalents, consult the college's Undergraduate Program Office.

General Education

Students may not count courses taken to fulfill General Education Program requirements toward other course requirements for the BBA.

Course #	Title	Hours
Historical Perspectives		3
International and Global Issues		3
Interpretation of Literature		3
Natural Sciences (without lab)		3
Rhetoric		4
Social Sciences (excluding ECON:1100 and ECON:1200)		3
Understanding Cultural Perspectives		3
Values and Society		3
World Languages		0-10

World Languages

Tippie College of Business students may complete the World Languages requirement using one of three options. One year of high school language study is generally equivalent to one semester of college language study.

Option One

Attain fourth level proficiency in a single world language. Students attain fourth level proficiency in a single world language by completing four years of that language in high school or four semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at fourth level proficiency.

Option Two

Attain third level proficiency in a single world language and complete a World Language and Cultural Exploration course. Students attain third-level proficiency in a single world language by completing three years of that language in high school or three semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at third-level proficiency. Option two does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Option Three

Attain second level proficiency in each of two world languages. Students attain second level proficiency in each of two world languages by completing two years of each language in high school or two semesters of each language in college, or an equivalent combination of high school and college coursework, or pass achievement tests and/or evaluations at second-level proficiency in each language. Option three does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Prerequisites for Admission to the BBA Program

MKTG:3000	Introduction to Marketing Strategy	3

Experiential Learning Requirement: Tippie RISE

RISE is an acronym for hands-on experiential learning in the form of research with faculty, internship course, study abroad, and experiential course. All BBA students in the Tippie College of Business students must successfully complete at least one of these four experiences. Courses that satisfy Tippie RISE are as follows.

Research With Faculty

Working closely with a faculty mentor, students explore a research question of interest for a semester or more. By conducting academic research, students enhance their critical thinking skills, learn techniques to collect and analyze data, and apply their findings to business practices. These skills are highly useful for a variety of businesses and graduate programs.

Course #	Title	Hours
ACCT:4999	Honors Thesis in Accounting	arr.
BAIS:4999	Honors Thesis in Business Analytics	arr.

URES:3995	Independent Creative Research by Undergraduates Summer Internship	0

Internship Course

As students gain valuable hands-on work experience in a professional internship, they complete one of the approved internship courses to assist them in having a meaningful learning experience. The internship courses encourage students to take on relevant job responsibilities, outline strategies to meet internship goals, regularly communicate with their supervisors, explore the career field, and reflect on their growth throughout the experience.

Course #	Title	Hours

SRM:4199	Independent Sport and Recreation Field Experience	arr.

Study Abroad

By taking advantage of short-term, summer, semester, or academic year programs, students can expand their worldview and learn alternative business and cultural practices outside of the United States. Students can participate in Tippie RISE study abroad programs such as London Winter, International Business in Sydney, CIMBA Italy, Global Internships, spring break programs through the John Pappajohn Entrepreneurial Center, or any of the many UI study abroad programs in over 40 countries. Any study abroad program is accepted for credit, including virtual programs, short-term faculty-led programs, and summer, semester, or year-long programs. These courses may be study abroad courses (prefix ABRD) or select study abroad international activities courses (prefix INTL) but are not required to be; see Study Abroad [p. 2215] in the catalog.

Experiential Course

In approved experiential courses, students improve their understanding of academic concepts by applying them to a class project with a company or nonprofit organization. Using real circumstances and issues, students engage with the organization to make a lasting impact. Students have support from classmates and guidance from their instructor throughout the duration of the project. Experiential courses are offered in many BBA majors and as business and non-business electives. Courses must be taken at the University of Iowa to satisfy Tippie RISE.

Major Area of Study

All BBA students must complete a major area of study. The college offers BBA majors in accounting [p. 1140], business analytics and information systems [p. 1158], economics [p. 1185], entrepreneurship, finance [p. 1208], management [p. 1236], marketing [p. 1261], and risk management and insurance [p. 1219]. The requirements for each major are established by the department that offers the major.

Students With Associate of Arts Degrees

Students who have been granted an Associate of Arts (AA) from a community college participating in the Iowa and Illinois Community College/Regents Articulation Agreements are considered to have met all high school unit requirements for admission to the BBA and all of the General Education Program requirements listed under "General Education Requirements," except the Understanding Cultural Perspectives and World Languages requirements. The program of study for which a student was awarded the AA must have included:

- a minimum of 60 s.h. (or 90 quarter hours) of credit acceptable toward graduation from the University of Iowa;
- completion of the agreed-upon group of courses at the community college; and
- a GPA of at least 2.00.

Mathematics courses comparable to MATH:0100 Basic Algebra I are not accepted toward graduation. Completion of an Associate of Arts does not guarantee admission to the BBA program in the Tippie College of Business. See Admission in Undergraduate Programs [p. 1132] for a complete list of requirements for admission to the BBA.

Students who use the provisions of the articulation agreement are granted a maximum of 60 s.h. of transferable credit from two-year colleges toward the 120 s.h. required for a BBA. Credit earned for the AA beyond the 60 s.h. transferable maximum is used in computing a student's grade-point average, and it may be used to satisfy course requirements, but it does not count toward the BBA. Transfer credit for business courses taken during the first and second years is counted toward the BBA only if such courses are usually offered as lower-division courses at the University of Iowa.

Transfer Courses

Students who have taken courses at another institution that are similar to those approved for the common business requirements at Iowa may request that these courses be evaluated for transfer credit. Students who transfer fewer hours than needed to meet a common business requirement may use only approved courses to complete the remainder of the requirement. Only courses taken at accredited four-year institutions may be used to satisfy business course requirements numbered 3000 or above. Students must complete a minimum of 24 s.h. of business coursework at Iowa and at least two-thirds of the coursework in the major in the department awarding the major. They must also meet the 45 s.h. residence requirement of the Tippie College of Business. Credit earned through online courses may be counted toward all requirements for graduation, subject to approval by a student's major department.

Multiple Majors in Business

Students may earn the BBA degree with more than one major; they may also combine the BBA degree with the Bachelor of Arts or Bachelor of Science in economics (except for the BBA in economics). The Four-Year Graduation Plan is not available to students earning more than one major or degree. Students have access to degree audits in MyUI for all of the programs of study they have officially declared. They also have access to all program courses, with some limitations, during early registration. A student must be in good academic standing in order to declare more than one major. See Double Majors and Joint Degrees on the Tippie College of Business website.

Requirements

The Bachelor of Business Administration with a major in finance requires a minimum of 120 s.h., including 22 s.h. of work for the major. Students must have a cumulative grade-point average (GPA) of at least 2.00 in all college coursework attempted, all college coursework attempted in business, all college coursework attempted in the major, all coursework attempted at the University of Iowa, all business coursework attempted at the University of Iowa, and all coursework in the major attempted at the University of Iowa.

The program provides a balance of theory, applications, and financial information technology that facilitates students' transition from classroom to workplace. Through fundamental finance principles and state-of-the-art financial market information technologies, students develop analytical abilities to interpret financial market data, implement the latest trading and investment strategies, and make effective managerial decisions in national as well as international settings.

With the goal of enhancing students' career development, the program stresses learning by doing, partnership with industry, and internships. Students receive a balanced education consistent with the globalization of business and the explosion in financial markets and information technology.

Students are not guaranteed specific elective options. The availability of courses outside the Department of Finance may be subject to prerequisites or restricted to students who have declared a second major within the respective department. For BBA requirements, see "Common BBA Requirements" in this section of the catalog. The Bachelor of Business

Administration with a major in finance requires the following coursework.

Requirements	Hours

Career Advancement

Careers for students majoring in finance include corporate treasury operations, cash management, mergers and acquisitions, investment banking, sales and security trading, security analysis, commercial banking and financial services, credit analysis, mortgage lending, financial planning, consulting, public administration, insurance roles, and real estate.

Over 90% of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs. For more information about careers, visit the Pomerantz Career Center website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Finance, BBA

Course	Title	Hours
Academic Career		
Any Semester		
Students are required to complete 52 s.h. of non-business coursework. Courses with a prefix of ACCT, BAIS, BUS, ECON, ENTR, FIN, MGMT, and MKTG will not count towards non-business hours. Check degree audit for non-business hours or confer with academic advisor.		

Students who need to complete the World Language requirement should consult with their academic advisor about when to add courses to plan of study. World Language counts as non-business coursework.		
To fulfill the Tippie RISE experiential learning requirement, complete an approved course in at least one of the following categories: research with faculty, internship course, study abroad, experiential course. [a]		0 - 3
Students must satisfy the Tippie College of Business residence requirement: 45 s.h. of UI coursework after admission to Tippie.

a See degree audit for course options.
b Enrollment in math courses requires completion of a placement exam.
c GE courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
d Must be admitted to Tippie to enroll in BUS:3000. Generally completed during the second year, but should be taken no later than the third year.
e This Accelerated Four-Year Plan outlines coursework to prepare for two finance internships after the second and third years. For a Standard Four-Year Plan, with one internship between the third and fourth years, see the Tippie College of Business website.
f Select from list of approved courses in the General Catalog or on degree audit. Students may not earn credit for both FIN:4340 and FIN:4350 due to overlap in course content.

g Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Risk Management and Insurance, BBA

Common BBA Requirements

The Bachelor of Business Administration (BBA) requires a minimum of 120 s.h. of credit, including at least 48 s.h. earned in business courses and at least 52 s.h. earned in non-business courses.

BBA students must earn 45 s.h. at the University of Iowa following admission to the BBA program. At least 24 s.h. in business courses must be earned with Tippie College of Business coursework. At least two-thirds of the semester hours in a student's major must be earned in the student's major department at the Tippie College of Business. Nonresident instruction includes coursework at colleges and universities other than the University of Iowa.

To graduate, BBA students must have a cumulative grade-point average of at least 2.00 in all college-level coursework attempted, all college-level business coursework attempted, all college-level major coursework attempted, all college-level coursework attempted at the University of Iowa, all college-level business coursework attempted at the University of Iowa, and all college-level major coursework attempted at the University of Iowa.

Common BBA Requirements

BBA students must fulfill the following common requirements or approved equivalents. For approved equivalents, consult the college's Undergraduate Program Office.

General Education

Students may not count courses taken to fulfill General Education Program requirements toward other course requirements for the BBA.

Course #	Title	Hours
Historical Perspectives		3
International and Global Issues		3
Interpretation of Literature		3
Natural Sciences (without lab)		3
Rhetoric		4
Social Sciences (excluding ECON:1100 and ECON:1200)		3
Understanding Cultural Perspectives		3
Values and Society		3
World Languages		0-10

World Languages

Tippie College of Business students may complete the World Languages requirement using one of three options. One year of high school language study is generally equivalent to one semester of college language study.

Option One

Attain fourth level proficiency in a single world language. Students attain fourth level proficiency in a single world language by completing four years of that language in high school or four semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at fourth level proficiency.

Option Two

Attain third level proficiency in a single world language and complete a World Language and Cultural Exploration course. Students attain third-level proficiency in a single world language by completing three years of that language in high school or three semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at third-level proficiency. Option two does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Option Three

Attain second level proficiency in each of two world languages. Students attain second level proficiency in each of two world languages by completing two years of each language in high school or two semesters of each language in college, or an equivalent combination of high school and college coursework, or pass achievement tests and/or evaluations at second-level proficiency in each language. Option three does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

MKTG:3000	Introduction to Marketing Strategy	3

Experiential Learning Requirement: Tippie RISE

RISE is an acronym for hands-on experiential learning in the form of research with faculty, internship course, study abroad, and experiential course. All BBA students in the Tippie College of Business students must successfully complete at least one of these four experiences. Courses that satisfy Tippie RISE are as follows.

Research With Faculty

Working closely with a faculty mentor, students explore a research question of interest for a semester or more. By conducting academic research, students enhance their critical thinking skills, learn techniques to collect and analyze data, and apply their findings to business practices. These skills are highly useful for a variety of businesses and graduate programs.

Course #	Title	Hours
ACCT:4999	Honors Thesis in Accounting	arr.
BAIS:4999	Honors Thesis in Business Analytics	arr.
BUS:3600	Mentored Research	arr.
BUS:4999	Honors Thesis in Business	arr.

URES:3993	Undergraduate Research and Creative Projects	1-4
URES:3994	Undergraduate Research and Creative Projects	1-4
URES:3995	Independent Creative Research by Undergraduates Summer Internship	0

Internship Course

As students gain valuable hands-on work experience in a professional internship, they complete one of the approved internship courses to assist them in having a meaningful learning experience. The internship courses encourage students to take on relevant job responsibilities, outline strategies to meet internship goals, regularly communicate with their supervisors, explore the career field, and reflect on their growth throughout the experience.

Course #	Title	Hours
BUS:3100	Academic Internship or Cooperative Education	0
BUS:3900	Business Communication Internship I	3

EVNT:2110	Internship in Event Management	3
LS:3011	Leadership Certificate Capstone	0-2
SRM:4199	Independent Sport and Recreation Field Experience	arr.

Study Abroad

By taking advantage of short-term, summer, semester, or academic year programs, students can expand their worldview and learn alternative business and cultural practices outside of the United States. Students can participate in Tippie RISE study abroad programs such as London Winter, International Business in Sydney, CIMBA Italy, Global Internships, spring break programs through the John Pappajohn Entrepreneurial Center, or any of the many UI study abroad programs in over 40 countries. Any study abroad program is accepted for credit, including virtual programs, short-term faculty-led programs, and summer, semester, or year-long programs. These courses may be study abroad courses (prefix ABRD) or select study abroad international activities courses (prefix INTL) but are not required to be; see Study Abroad [p. 2215] in the catalog.

Experiential Course

In approved experiential courses, students improve their understanding of academic concepts by applying them to a class project with a company or nonprofit organization. Using real circumstances and issues, students engage with the organization to make a lasting impact. Students have support from classmates and guidance from their instructor throughout the duration of the project. Experiential courses are offered in many BBA majors and as business and non-business electives. Courses must be taken at the University of Iowa to satisfy Tippie RISE.

Course #	Title	Hours

SRM:4197	Sport and Recreation Field Experience (not fans first section)	arr.

Major Area of Study

All BBA students must complete a major area of study. The college offers BBA majors in accounting [p. 1140], business analytics and information systems [p. 1158], economics [p. 1185], entrepreneurship, finance [p. 1208], management [p. 1236], marketing [p. 1261], and risk management and insurance [p. 1219]. The requirements for each major are established by the department that offers the major.

Students With Associate of Arts Degrees

Students who have been granted an Associate of Arts (AA) from a community college participating in the Iowa and Illinois Community College/Regents Articulation Agreements are considered to have met all high school unit requirements for admission to the BBA and all of the General Education Program requirements listed under "General Education Requirements," except the Understanding Cultural Perspectives and World Languages requirements. The program of study for which a student was awarded the AA must have included:

- a minimum of 60 s.h. (or 90 quarter hours) of credit acceptable toward graduation from the University of Iowa;
- completion of the agreed-upon group of courses at the community college; and
- a GPA of at least 2.00.

Mathematics courses comparable to MATH:0100 Basic Algebra I are not accepted toward graduation. Completion of an Associate of Arts does not guarantee admission to the BBA program in the Tippie College of Business. See Admission in Undergraduate Programs [p. 1132] for a complete list of requirements for admission to the BBA.

Students who use the provisions of the articulation agreement are granted a maximum of 60 s.h. of transferable credit from two-year colleges toward the 120 s.h. required for a BBA. Credit earned for the AA beyond the 60 s.h. transferable maximum is used in computing a student's grade-point average, and it may be used to satisfy course requirements, but it does not count toward the BBA. Transfer credit for business courses taken during the first and second years is counted toward the BBA only if such courses are usually offered as lower-division courses at the University of Iowa.

Transfer Courses

Students who have taken courses at another institution that are similar to those approved for the common business requirements at Iowa may request that these courses be evaluated for transfer credit. Students who transfer fewer hours than needed to meet a common business requirement may use only approved courses to complete the remainder of the requirement. Only courses taken at accredited four-year institutions may be used to satisfy business course requirements numbered 3000 or above. Students must complete a minimum of 24 s.h. of business coursework at Iowa and at least two-thirds of the coursework in the major in the department awarding the major. They must also meet the 45 s.h. residence requirement of the Tippie College of Business. Credit earned through online courses may be counted toward all requirements for graduation, subject to approval by a student's major department.

Multiple Majors in Business

Students may earn the BBA degree with more than one major; they may also combine the BBA degree with the Bachelor of Arts or Bachelor of Science in economics (except for the BBA in economics). The Four-Year Graduation Plan is not available to students earning more than one major or degree. Students have access to degree audits in MyUI for all of the programs of study they have officially declared. They also have access to all program courses, with some limitations, during early registration. A student must be in good academic standing in order to declare more than one major. See Double Majors and Joint Degrees on the Tippie College of Business website.

Requirements

The Bachelor of Business Administration with a major in risk management and insurance (RMI) requires a minimum of 120 s.h., including 22 s.h. of work for the major. Students must have a cumulative grade-point average (GPA) of at least 2.00 in all college coursework attempted, all college coursework attempted in business, all college coursework attempted in the major, all coursework attempted at the University of Iowa, all business coursework attempted at the University of Iowa, and all coursework in the major attempted at the University of Iowa. Students in this major are not eligible to earn the Certificate in Risk Management and Insurance.

The Bachelor of Business Administration with a major in risk management and insurance requires the following coursework. For BBA requirements, see "Common BBA Requirements" in this section of the catalog.

Requirements	Hours
RMI Common Required Courses	13
RMI Required Electives	9

RMI Common Required Courses

Course #	Title	Hours
All of these:		
ACCT:3020	Financial Accounting and Reporting	3
or ACCT:3200	Income Measurement and Asset Valuation

MKTG:3100	Marketing Research	3
MKTG:4101	Integrated Marketing Communications	3
MKTG:4200	Sales Management	3
MKTG:4201	Professional Selling	3

Career Advancement

The RMI industry accounts for 11% of Iowa's gross domestic product. Chicago is a regional insurance hub, and the few other RMI programs in the country meet less than 10% of the national demand for talent.

Standard careers for students majoring in risk management and insurance include corporate risk management, underwriting, risk analytics, loss control, claims management, brokerage and producer (sales) roles, risk consulting, and employee benefits consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs. For more information about careers, visit the Pomerantz Career Center website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Risk Management and Insurance, Certificate

Requirements

The undergraduate Certificate in Risk Management and Insurance (RMI) requires 12–22 s.h. of credit: 21 s.h. for BBA students with a major in finance, 21–22 s.h. for students with a major in mathematics (specialization in risk management and insurance or in finance), 13 s.h. for other majors outside of Tippie College of Business, and 12 s.h. for BBA students with a major other than finance.

Students must maintain a grade-point average of at least 2.00 in work for the certificate. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a graduate or professional degree program.

Students must declare their intent to earn the certificate with the RMI advisor. Some courses have prerequisites; students must complete prerequisites before they may register for a course. For more information, see Risk Management and Insurance Certificate on the Emmett J. Vaughan Institute of Risk Management and Insurance website.

The Certificate in Risk Management and Insurance requires the following coursework.

RMI Required Course

Students must complete this course with a grade of C or higher.

Course #	Title	Hours
This course:		
FIN:3400	Principles of Risk Management and Insurance	3

RMI Elective Courses

Course #	Title	Hours
9 s.h. from these:		
FIN:4410	Enterprise Risk Management	3
FIN:4420	Property and Liability Insurance	3
FIN:4430	Life and Health Insurance	3

FIN:4450	Risk Modeling	3
FIN:4460	Insurer Operations and Captive Management	3
FIN:4470	Insurtech Innovation	3

Additional Coursework for Majors Outside Tippie

All majors not in the Tippie College of Business are required to complete the following.

Course #	Title	Hours
FIN:3021	Professional Risk Management and Insurance Seminar	1

Additional Coursework for Finance and Mathematics Majors

In addition to the preceding requirements, finance majors or mathematics majors (program C, with a specialization in finance or RMI) also must complete the following courses.

Finance Major

BBA students majoring in finance complete three of these (9 s.h.). The availability of courses outside the Department of Finance may be subject to prerequisites or restricted to students who have declared a second major within the respective department.

Course #	Title	Hours
BAIS:3025	Business Process Automation	3
MGMT:4100	Dynamics of Negotiations	3
MKTG:4200	Sales Management	3
A maximum of three finance courses (prefix FIN) numbered 4000 or above, excluding those taken to satisfy RMI courses		

Mathematics Major With Specialization

Students majoring in mathematics with a specialization in risk management and insurance or a specialization in finance complete three of these (8–9 s.h.).

Course #	Title	Hours
ACCT:3020	Financial Accounting and Reporting	3
ACCT:3200	Income Measurement and Asset Valuation (accounting majors with no subprogram take this instead of ACCT:3020)	3
FIN:3100	Financial Information Technology	2
FIN:3200	Investment Management	3
FIN:3300	Corporate Finance	3
FIN:4210	Futures and Options	3
FIN:4220	Fixed Income Securities	3
FIN:4230	Real Estate Process	3
FIN:4320	Commercial Banking	3

Risk Management and Insurance Affiliated Courses

The Department of Finance offers eight courses affiliated with the Emmett J. Vaughan Institute of Risk Management and Insurance that are included in the Certificate in Risk Management and Insurance curriculum. Students should view the course descriptions and prerequisites for each of the following courses.

Course #	Title	Hours
FIN:3400	Principles of Risk Management and Insurance	3
FIN:4410	Enterprise Risk Management	3
FIN:4420	Property and Liability Insurance	3
FIN:4430	Life and Health Insurance	3
FIN:4440	Employee Benefit Plans	3
FIN:4450	Risk Modeling	3

FIN:4460	Insurer Operations and Captive Management	3
FIN:4470	Insurtech Innovation	3

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students must earn a grade of C or higher in FIN:3400.

b Complete three RMI electives (9 s.h.) from FIN:4410, FIN:4420, FIN:4430, FIN:4440, FIN:4450, FIN:4460. Some courses may also satisfy the Tippie College of Business RISE requirement.

c Three additional electives (9 s.h.) are required for the certificate. These include BAIS:3025, MGMT:4100, MKTG:4200, finance courses (prefix FIN) numbered 4000 or above. The availability of courses outside the Department of Finance may be subject to prerequisites or restricted to students who have declared a second major within the respective department.

Finance, MS

The Master of Science in finance program is an online program that can be completed at a student's own pace. It can be completed in as quickly as one year or in up to ten years.

Learning Outcomes

Core Competency

- Students acquire and exhibit knowledge about fundamental financial concepts.

Business Applications

- Students acquire and exhibit knowledge about applying financial concepts in business and financial markets.

Team Work

- Students demonstrate the ability to be effective team members in a complex and diverse world.

Coursework

- Students customize their coursework to fulfill their career goals as finance professionals.

Requirements

The Master of Science program in finance requires a minimum of 30 s.h. of graduate credit. A Graduate College major program grade-point average (GPA) and a UI cumulative GPA of at least 2.75 are required in all coursework.

With program approval, students may count up to a maximum 6 s.h. of transfer credit toward program coursework requirements. Transfer credit must be from a graduate or professional program accredited by the Association to Advance Collegiate Schools of Business (AACSB).

The MS in finance requires the following coursework.

Core Courses

Students complete six core courses for a total of 18 s.h.

Course #	Title	Hours
All of these:		
FIN:9200	Portfolio Management	3
FIN:9210	Derivatives	3
FIN:9300	Corporate Finance	3
MBA:8140	Corporate Financial Reporting	3
MBA:8150	Data and Decisions	3
MBA:8180	Managerial Finance	3

If a core course is waived, it must be replaced by a course from the electives list.

Electives

Students complete four elective courses for a total of 12 s.h., including at least two courses (6 s.h.) from the first list below.

Course #	Title	Hours
At least two of these:		
FIN:9150	Financial Modeling and Firm Valuation	3
FIN:9160	Quantitative Finance and Machine Learning	3
FIN:9230	Real Estate Finance and Investments	3
FIN:9310	Corporate Financial Strategy	3
FIN:9350	Wealth Management	3
Up to two of these:		
FIN:9130	Corporate Risk Management and Insurance	3
FIN:9140	Enterprise Risk Management	3
BAIS:6040	Data Programming in Python	3
BAIS:6070	Data Science	3
BAIS:6100	Text Analytics	3
ENTR:9200	Entrepreneurial Finance	3

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Please see the Part-time Master of Finance Admissions page on the Tippie College of Business website for information about admission to the MS in finance subprogram.

Career Advancement

The Tippie Graduate Career Services team offers multiple resources to help students in their career development journey. Visit Graduate Career Services on the Tippie College of Business website for details.

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b FIN:9400 is taken during both fall and spring of the first year for a total of 2 s.h.

c FIN:8130 is taken during both first year spring and second year fall for a total of 2 s.h.

d Choose electives from a pre-approved list or with departmental approval.

e Spring experiential electives: FIN:9225, FIN:9391, or FIN:9250 (must also take FIN:9260 in fall). Fall experiential electives: FIN:9225, FIN:9391, FIN:9390, FIN:9260 (must have taken FIN:9250 in spring).

f Apply to and secure a summer internship or arrange a summer research project.

Doctor of Philosophy

Graduate students in finance may earn a Doctor of Philosophy in business administration. For a description of the PhD program and requirements, see the PhD in business administration [p. 1179] in the catalog and visit the Department of Finance website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Learning Outcomes

Students will:

- master the core knowledge and research tools in the field of finance;
- develop the ability to conduct independent research that constitutes a significant contribution to the field of finance;
- develop the ability to effectively communicate research ideas and outcomes; and
- be prepared to effectively teach undergraduate and graduate courses in finance.

International Business

Coordinators

- Nicholas F. Martini (College of Liberal Arts and Sciences), Dimy Doresca (Tippie College of Business)

Undergraduate certificate: international business

Website: https://students.tippie.uiowa.edu/undergraduates/academics-undergraduate/certificates/international-business-certificate

The Tippie College of Business and the College of Liberal Arts and Sciences offer the undergraduate Certificate in International Business. The program is designed for students who intend to pursue careers in international business as well as those interested in gaining a better understanding of the global economy and a broader awareness of the political, historical, and social environment in which international business operates.

Programs

Undergraduate Program of Study

Certificate

- Certificate in International Business [p. 1230]

International Business, Certificate

Requirements

The undergraduate Certificate in International Business requires a minimum of 21 s.h. The program includes the study of international business and economics, along with associated political, environmental, and cultural contexts. The range of courses permits students to tailor areas of specialization suited to their individual interests and to complement majors in business and in liberal arts and sciences.

Students must maintain a grade-point average of at least 2.00 in work for the certificate. Certificate courses may not be taken pass/nonpass. A course may not be used to satisfy more than one certificate requirement. The certificate may be earned by any student admitted to the University of Iowa who is not enrolled in a UI graduate or professional degree program. Undergraduate to Graduate (U2G) students may earn the certificate when the undergraduate classification is primary.

Students should declare their intention to earn the certificate as early as possible, talk with an advisor about certificate requirements, and work to create an individual plan of study. Tippie College of Business students should talk with the advising staff at the college's Undergraduate Program Office; College of Liberal Arts and Sciences students and students enrolled in other UI colleges should talk with a Certificate in International Business advisor at the Academic Advising Center. Individuals who hold a bachelor's degree from another institution should contact University of Iowa Admissions.

Students are allowed up to 7 s.h. of transfer work towards the certificate. The remaining certificate coursework (other than language courses) must be completed at the University of Iowa or in approved study abroad programs. Students who plan to count study abroad credit toward the certificate should consult a Certificate in International Business advisor before enrolling in a program and leaving campus.

The Certificate in International Business requires the following coursework.

Requirements	Hours
Global Business Foundation Courses	12-16
Political, Environmental, and Cultural Contexts Courses	9-12

Global Business Foundation

Global business foundation courses provide students with an essential understanding of economics, which is central to all business operation. They also help students develop knowledge of the functional areas of international business.

Course #	Title	Hours
One of these:		
ECON:1100	Principles of Microeconomics	4
ECON:1200	Principles of Macroeconomics	4
SEES:2910	The Global Economy	3
One of these:		
ACCT:2100 & MKTG:3000	Introduction to Financial Accounting and Introduction to Marketing Strategy (both courses)	6
ENTR:1350	Foundations in Entrepreneurship	3
ENTR:2000	Entrepreneurship and Innovation	3
One of these:		
ENTR:4460	Entrepreneurship and Global Trade (if not used to satisfy the following requirement)	3
MGMT:3450	International Business Environment	3
One of these:		
ECON:3345	Global Economics and Business	3
ECON:3830	Global Trade Finance	3
ENTR:4460	Entrepreneurship and Global Trade (if not used to satisfy the preceding requirement)	3
FIN:4240	International Finance	3
FREN:3410	Business French	3
GRMN:3214	Business German	3
JPNS:3500	Japanese for Professional Purposes	3
MKTG:4300	International Marketing	3
SPAN:3080	Spanish for International Business	3

Political, Environmental, and Cultural Contexts

The political, environmental, and cultural contexts category has three separate requirements: global politics (3 s.h.); environmental, social, and corporate governance (3 s.h.); and cultural immersion (3–6 s.h.).

Global Politics

Students will gain deeper knowledge of cross-cultural issues and think critically about broader dynamics.

Course #	Title	Hours
One of these (3 s.h.):		
HIST:1101	The Modern World	3
POLI:1400	Introduction to Comparative Politics	3
POLI:1500	Introduction to International Relations	3
POLI:1501	Introduction to American Foreign Policy	3
SEES:1090	Globalization and Geographic Diversity	3

Environmental, Social, and Corporate Governance

Students will demonstrate ethical reasoning in dealing with environmental, social, and governance issues in international business.

Course #	Title	Hours
One of these (3 s.h.):		
ANTH:2136	Race, Place, and Power: Urban Anthropology	3
ANTH:2151/ GWSS:2151/IS:2151	Global Migration in the Contemporary World	3
ANTH:2190/ GWSS:2190/IS:2190	Love Rules: Law and the Family Across Cultures	3
ANTH:3103	Environment and Culture	3
ANTH:3190/ IS:3190/SJUS:3190	Global Debt	3
ANTH:3199/ GHS:3199/IS:3198	Understanding Health in an Unequal World: Anthropology and Global Health Policy	3
ARAB:2006/ SJUS:2006/ WLLC:2006	Transnational Solidarities	3
ARTH:1025	Buyer Beware! Fakes, Thefts, and the Global Art Market	3

RELS:1015	Global Religious Conflict and Diversity	3
RELS:2330	Wealth, Inequality, and Islam	3
SEES:2110/ GHS:2110	Eight Billion and Counting: Introduction to Population Dynamics	3
SEES:2910	The Global Economy	3
SEES:3090/ GHS:3070	Hungry Planet: Global Geographies of Food	3
SEES:3300/ GHS:3300	Envisioning Future Worlds: Sustainable Development and Its Alternatives	3

SEES:3331	Human Dimensions of Climate	3
SEES:4000/ SDG:4000	The United Nations Sustainable Development Goals: A Blueprint for a Sustainable Future	3
SEES:4210	Sustainability as a System Science	3
SEES:4770/ AFAM:4770/ GHS:4770	Environmental Justice	3

Cultural Immersion

Students will cultivate effective written, spoken, and visual communication skills necessary in cross-cultural organizational settings. They will also gain deeper knowledge of cross-cultural issues and think critically about broader dynamics. There are three options for fulfilling the cultural immersion requirement.

Cultural Immersion: Option 1

Students complete a fourth semester-level or higher-level World Language course offered for at least 3 s.h. that is taught in the world language (i.e., not taught in English). World Language courses that build proficiency for business and professional environments are strongly encouraged.

Course #	Title	Hours
Arabic		
ARAB:2002	Intermediate Modern Standard Arabic II	5
Or any course taught in Arabic for which ARAB:2002 or above is a prerequisite or requirement		
Chinese		
CHIN:2102	Second-Year Chinese: Second Semester	5
CHIN:2104	Accelerated Second-Year Chinese: Second Semester	3
Or any course taught in Chinese for which CHIN:2102 or above is a prerequisite or requirement		
French		
FREN:2002	Intermediate French II	4
Or any course taught in French for which FREN:2002 or above is a prerequisite or requirement		
German		
GRMN:2002	Intermediate German II	4

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

International Business, Certificate

Course	Title	Hours
Academic Career		
Any Semester		
The undergraduate certificate in international business requires a minimum of 21 s.h. The program includes the study of international business and economics, along with associated political, environmental, and cultural contexts. [a]		
Study abroad experience enhances the international business certificate program but requires advance planning. Students should plan to attend a discover study abroad session early in their college career to learn more.		
Students must maintain a cumulative GPA of at least 2.00 in work for the certificate.		
Certificate courses may not be taken pass/nonpass.		
	Hours	**0**
First Year		
Fall		
SEES:2910 or ECON:1100 or ECON:1200	The Global Economy or Principles of Microeconomics or Principles of Macroeconomics	3 - 4
	Hours	**3-4**
Spring		
Certificate: global politics course [b, c]		3
	Hours	**3**
Second Year		
Fall		
ACCT:2100	Introduction to Financial Accounting [d]	3
Certificate: cultural immersion course [b, c, e]		3
	Hours	**6**
Spring		
MKTG:3000	Introduction to Marketing Strategy [d]	3
Certificate: cultural immersion course (if needed) [b, c, e]		3
	Hours	**6**
Third Year		
Fall		
ENTR:4460 or MGMT:3450	Entrepreneurship and Global Trade [f] or International Business Environment	3
	Hours	**3**
Spring		
Certificate: global business foundation course [b]		3
	Hours	**3**
Fourth Year		
Fall		
Certificate: environmental, social, and corporate governance course [b, c]		3
	Hours	**3**
	Total Hours	**27-28**

a The international business certificate program encourages students to develop a global mindset and cross-cultural skills through their coursework and co-curricular experiences. The study of a world language, an experience abroad, and engagement with international groups on campus and in the community support the program's curriculum.

b See the General Catalog for list of approved courses.

c Some GE courses such as those for Understanding Cultural Perspectives, Historical Perspectives, International and Global issues, Social Sciences, and Values and Society may also fulfill a requirement for the international business certificate.

d Non-business majors can opt to complete either ENTR:1350 or ENTR:2000 rather than ACCT:2100 and MKTG:3000.

e There are three options for satisfying the cultural immersion component: 1) complete a fourth semester-level or higher-level world language course offered for at least 3 s.h. and not taught in English, typically taken during first year; 2) complete at least 6 s.h. from approved study abroad courses or related coursework, typically taken during second or third year; or 3) complete at least 6 s.h. in courses from one of the following area studies: Asia, Europe, Latin America, Middle East/Africa, or Russia/Eastern Europe.

f Students are encouraged to complete this course during either the second or third year.

Management and Entrepreneurship

Chair

- Jennifer Nahrgang Craig

Director, Undergraduate Program, Entrepreneurship

- Kimm M. Harris

Director, Undergraduate Program, Management

- Nicole L. Wilson

Director, PhD Program

- Chad H. Van Iddekinge

Undergraduate major: entrepreneurship (BBA), management (BBA)

Graduate degree: management subprogram for the PhD in business administration

Faculty: https://tippie.uiowa.edu/people/?department=Management+and+Entrepreneurship&cohort=417809&category=FACULTY

Website: https://tippie.uiowa.edu/about/management-and-entrepreneurship-department

The Department of Management and Entrepreneurship has strengths in the areas of leadership, entrepreneurship, and human resource management. It provides evidence-based instruction that prepares students to pursue a career in human resource management; become successful innovators, entrepreneurial leaders, and business founders; or lead projects, teams, and organizations.

For Tippie College of Business students, the department offers undergraduate majors in entrepreneurship and management. For undergraduate students across the University of Iowa, the Tippie College of Business and the John Pappajohn Entrepreneurial Center (Iowa JPEC) offer the Certificate in Entrepreneurial Management. The Tippie College of Business and Iowa JPEC collaborate with the College of Engineering to offer the Certificate in Technological Entrepreneurship [p. 1681]. Iowa JPEC collaborates with the College of Liberal Arts and Sciences to offer the BA in enterprise leadership [p. 454], an interdisciplinary major that includes coursework in entrepreneurship, leadership, and communications, and the minor in media management [p. 647].

At the graduate level, the Department of Management and Entrepreneurship also contributes to the MBA program; see the Master of Business Administration Program [p. 1272] in the catalog. Finally, the department offers a Doctor of Philosophy [p. 1260] in Business Administration (management subprogram).

Programs

Undergraduate Programs of Study

Majors

- Major in Entrepreneurship (Bachelor of Business Administration) [p. 1245]
- Major in Management (Bachelor of Business Administration) [p. 1251]

Certificate

- Certificate in Entrepreneurial Management [p. 1258]

Graduate Program of Study

- Management subprogram for the Doctor of Philosophy [p. 1260] in Business Administration

Facilities

John Pappajohn Entrepreneurial Center

The John Pappajohn Entrepreneurial Center (Iowa JPEC) is the hub for entrepreneurship education and outreach at the University of Iowa. The main office is located in the John Pappajohn Business Building. Students who would like information about undergraduate entrepreneurship-related academic programs or those interested in learning more about resources and programs to support student entrepreneurship are encouraged to stop by and visit with a staff member.

Bedell Entrepreneurship Learning Laboratory

The Bedell Entrepreneurship Learning Laboratory is an applied learning environment for University of Iowa students creating a new business. The laboratory provides dedicated office space for individual students and teams, enabling them to concentrate on developing their business concepts. Student entrepreneurs participate in the Startup Incubator, a student business acceleration program open to any student at the University of Iowa. Separate programs exist for undergraduate and graduate students. Intense summer tracks are also available. All business incubation and acceleration programs connect students with the resources to launch start-ups and grow them into sustainable businesses. Participants have access to a variety of resources including collaborative workspace and equipment, workshops, training, networking, funding opportunities, and one-on-one mentoring from experienced professionals. Students also compete for capital in several campus and national pitch and business model competitions. They gain access to technical support, accounting, legal, engineering, and prototyping services, and are connected with potential investors and business partners.

Contact the John Pappajohn Entrepreneurial Center for information or visit Startup Incubator on the center's website to apply.

Courses

- Entrepreneurial Management Courses [p. 1237]
- Management and Entrepreneurship Courses [p. 1240]

Entrepreneurial Management Courses

ENTR:1010 Exploring Entrepreneurship 3 s.h.
Introduction to entrepreneurship, including identifying characteristics of the entrepreneur, evaluating opportunities, engaging in customer discovery, design thinking, feasibility, financing, and planning for success.

ENTR:1020 Business Innovation 3 s.h.
Overview of entrepreneurship, innovation, and project management concepts; work in teams with science, technology, engineering, and mathematics (STEM) industry mentors to develop innovative solutions to real-world problems.

ENTR:1030 STEM Innovator 3 s.h.
Work with science, technology, engineering, and mathematics (STEM) industry mentors to engage in innovation and entrepreneurship by employing conceptual understandings and practices of STEM within an entrepreneurship framework; students solve real-world STEM problems that are of interest to them and their community, acquire and demonstrate 21st-century skills working on authentic, meaningful, and cross-curricular projects; exposure to potential STEM careers and entrepreneurial pathways; preparation for success in postsecondary STEM majors, careers, and entrepreneurial ventures of the future. Requirements: enrollment in STEM Innovator program and consent of UI STEM innovator program administrators.

ENTR:1300 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

ENTR:1350 Foundations in Entrepreneurship 3 s.h.
Introduction to important tools and approaches entrepreneurs and innovators utilize to identify and assess opportunities including innovation and design thinking, the business model canvas, customer discovery, and pitching ideas. Learn how entrepreneurial approaches are leveraged in different types of organizations including new ventures, small-to-medium sized businesses, large corporations, and nonprofit and social entrepreneurship organizations. Recommendations: non-business major interested in studying entrepreneurship.

ENTR:1800 Innovation in Action: Sustainability 0-1 s.h.
For businesses to successfully compete and thrive in a global marketplace, they must embrace innovation throughout their organizations, and one of the critical issues businesses face today is that of sustainability—how to most effectively acquire and utilize scarce resources while limiting their overall environmental impact; introduction to sustainability; focus on economic, social, and environmental issues facing organizations and society; project management fundamentals; students work in teams to identify a specific sustainability challenge, and prepare and present a strategic approach for addressing a sustainability problem.

ENTR:2000 Entrepreneurship and Innovation 3 s.h.
Students will learn how entrepreneurial leaders identify and evaluate opportunities, design innovative solutions, create successful business strategies, and bring sustainable products and services to the global marketplace. Topics include innovation and creativity; opportunity recognition; characteristics of entrepreneurial leaders; traditional, social, and corporate entrepreneurship; feasibility analysis; strategic business planning; design thinking; and the business model canvas. Students will learn how to apply the latest models and approaches used by entrepreneurs and existing organizations to create sustainable value and positively impact society.

ENTR:2800 Entrepreneurial Experience 1-3 s.h.
Applied learning course designed to enhance innovation and opportunity recognition skills, develop customer discovery expertise, and foster team-building and leadership abilities.

ENTR:3000 Practicum in Entrepreneurship 1-3 s.h.
Applied, experiential learning opportunities designed to foster development of entrepreneurial leadership skills; opportunity recognition and assessment, strategic business planning, innovation and creativity, team leadership, professional communication skills, strategy development and execution.

ENTR:3050 Professional Preparation for Enterprise Leadership and Entrepreneurship 1 s.h.
Survey of professional career paths for students studying enterprise leadership, entrepreneurial management, and entrepreneurship; support for creating professional résumés, LinkedIn profiles, and Handshake profiles; students enhance interview skills, develop a strategy for securing an internship or full-time employment, and discuss topics on successfully transitioning from college to professional world; students also expand their professional network through regular interactions with alumni, entrepreneurs, and business professionals.

ENTR:3100 Entrepreneurial Finance 3 s.h.
Understanding financial aspects of new and growing ventures; focus on preparing financial projections, analyzing financial performance, managing cash flow, and determining financial feasibility; detailed overview of various sources of capital available for start-up and growing ventures. Prerequisites: ENTR:2000 or ENTR:3350.

ENTR:3200 Entrepreneurial Marketing 3 s.h.
Practical marketing concepts for evaluating the market potential for new products, services, or business opportunities; how to obtain and evaluate market data, determine customer demand, analyze the competition, design effective promotions, develop and implement effective sales strategies, and write a successful marketing plan. Prerequisites: ENTR:2000 or ENTR:3350.

ENTR:3350 Entrepreneurial Strategy 3 s.h.
Study of entrepreneurial models and approaches utilized by entrepreneurs and organizational leaders to identify and evaluate opportunities and design innovative solutions that create economic, social, and environmental value; topics include entrepreneurial mindset, innovation and creativity, design thinking, opportunity recognition and assessment, feasibility analysis, strategic business planning, corporate entrepreneurship, and social entrepreneurship.

ENTR:3400 Strategic Management of Technology and Innovation 3 s.h.
New technology innovation and commercialization; technology innovation process, identification of commercialization strategies, feasibility analysis, intellectual property issues. Prerequisites: ENTR:2000 or ENTR:3350.

ENTR:3500 Social Entrepreneurship 3 s.h.
Introduction to the growing field of social entrepreneurship; creation of ventures with dual missions of social benefit and return on investment; issues related to evaluating market opportunities; acquiring and managing scarce resources; sustainability; maximizing social and economic value. Prerequisites: ENTR:2000 or ENTR:3350.

ENTR:3550 Commercializing New Technology I 3 s.h.
Students work in teams to identify technology-based innovation opportunities arising from the validation of market needs or problems; application of design thinking, lean methodology, and business model canvas approaches; regular interaction with alumni entrepreneurs and industry experts; conduction of customer discovery to validate assumptions and identify product-market fit; creation of a minimal viable product for further customer discovery and initial testing; first of a two-course sequence. Prerequisites: ENTR:2000 or ENTR:3350. Corequisites: (ENTR:3200 or MKTG:3000) and (ENTR:3100 or ACCT:2100). Requirements: 75 s.h. completed.

ENTR:3575 Commercializing New Technology II 3 s.h.
Creation of a formal technology commercialization plan for a university-based discovery by student teams; team assignment to alumni entrepreneurial mentors, interaction with industry experts, and engagement with potential customers and partners; preparation of a formal strategic business plan, intellectual property assessment, and pitch deck; presentation of final plans to alumni angel investors and venture capitalists; second in a two-course sequence. Prerequisites: ENTR:3550. Requirements: 60 s.h. completed.

ENTR:3595 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financial aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as MGMT:3500, MUSM:3500, NURS:3595, RELS:3700, SSW:3500.

ENTR:3600 Social Media Strategies for Entrepreneurial Ventures 3 s.h.
Evaluate, plan, implement, and assess the value of social media strategies for startups and early-to-mid-stage entrepreneurial ventures; introduction to the use of Google Analytics in goal-setting and value-assessment of social media strategy; basic tactics of strategy implementation for various social media platforms including Instagram, Facebook, YouTube, and LinkedIn; collaboration with Iowa entrepreneurial and social ventures to create social media strategic plans to help grow their enterprises. Prerequisites: ENTR:2000 or ENTR:3350.

ENTR:3700 Sustainable Innovation and Management 3 s.h.
Examine the sustainable strategies of entrepreneurial and innovation-based organizations as they relate to key business functions including product development, marketing, logistics, human resources, and finance; work closely with existing organizations to assess their current sustainability practices, prepare plans for enhancing sustainable efforts, and then assist with the implementation and assessment of those initiatives designed to positively impact the organization, community, and environment. Prerequisites: ENTR:2000 or ENTR:3350 or MKTG:3000. Requirements: 60 s.h. earned.

ENTR:3800 Entrepreneurial Leadership Academy I 3 s.h.
Exposure to latest research and techniques in leading entrepreneurial organizations; students learn how to successfully manage innovation based projects and engage with entrepreneurial leaders and business experts to understand how they utilize entrepreneurial approaches to launch and lead high potential entrepreneurial ventures; first of a two-course sequence. Prerequisites: MGMT:2100 or ENTR:2000 or ENTR:3350. Requirements: declared management and entrepreneurship major or enterprise leadership major, and 75 s.h. completed. Same as MGMT:3800.

ENTR:3850 Entrepreneurial Leadership Academy II 3 s.h.
Students work in teams to provide advanced strategic management consulting services to entrepreneurial ventures, corporations, and select nonprofit organizations; students work directly with C-level executives on projects and receive mentoring from faculty who have built and led successful organizations; teams are responsible for developing innovative strategies to address significant challenges facing clients; second of a two-course sequence. Prerequisites: MGMT:3800 or ENTR:3800. Same as MGMT:3850.

ENTR:4000 Topics in Entrepreneurship 1-3 s.h.
Current topics in entrepreneurship. Prerequisites: ENTR:2000 or ENTR:1350.

ENTR:4050 Directed Readings in Entrepreneurship arr.
Independent study; topics and assignments approved by instructor.

ENTR:4100 International Entrepreneurship, Culture, and Social Impact 1-3 s.h.
International entrepreneurship and business strategy, foreign exchange, tariffs and trade, microfinance, economic conditions, and culture of destination countries; students travel abroad or utilize distance technology to complete real-world projects with international entrepreneurs and business leaders; group projects focus on evaluating entrepreneurial opportunities, identifying sustainable growth strategies, incorporating innovation throughout the organization, and understanding international business culture. Prerequisites: ENTR:2000 or ENTR:3350. Requirements: junior standing.

ENTR:4200 Entrepreneurship: Business Consulting 3 s.h.
Students provide strategic business consulting services to new entrepreneurial ventures, existing small-to-medium size enterprises, and select social/nonprofit organizations; real world application of project consulting process including proposal development, data collection and analysis, leading and working in interdisciplinary teams, professional communications with clients, developing actionable business strategies, preparing formal written and oral reports; projects may include market research and competitive analysis, financial analysis and modeling, and strategic growth planning; opportunities to complete international projects. Prerequisites: (ENTR:2000 or ENTR:3350 or MGMT:2100) and (ENTR:3200 or MKTG:3000). Requirements: 60 s.h. completed.

ENTR:4300 Launching an Entrepreneurial Venture arr.
Work on the launch of an entrepreneurial venture; students are expected to have a concept that they have vetted and be seriously considering starting a new business or focused on growing an existing business they have recently launched; focus on strategic business planning, building a management team, developing growth strategies, capital acquisition, and presenting the plan.

ENTR:4400 Managing the Growth Business 3 s.h.
Practical experience in leading and running a business from startup to maturity in an interactive, competitive simulation that incorporates strategic planning, entrepreneurial mindset, and conscious capitalism; learn and practice critical thinking skills, teamwork, leadership, and collaboration with others to create and build a company; development of new products, what markets to enter, how to finance growth and be prepared to pivot to changing environments; application of operations, marketing, and financial strategies to make data driven decisions and see immediate results and consequences. Prerequisites: ENTR:2000 or ENTR:3350. Requirements: 75 s.h. earned.

ENTR:4460 Entrepreneurship and Global Trade 3 s.h.
Complex issues of business operations in a global economy; trade transactions related to importing and exporting, logistics, and ethical issues in international trade; global business management, global marketing, global supply chain management, and trade finance; preparation for work in global marketplace and for the Certified Global Business Professional certification exam offered by the North American Small Business International Trade Educators. Prerequisites: ENTR:2000 or ENTR:3350 or SEES:2910.

ENTR:4510 Arts Leadership Seminar 3 s.h.
Performing arts management and administrative principles, practical applications, trends in arts leadership and advocacy. Same as INTD:4510, THTR:4510.

ENTR:4610 Advanced Venture Finance 3 s.h.
Examination of sources of financing available to emerging and high potential ventures including angel investing, venture capital, state and federal funding programs, and public offerings; various business valuation methods; due diligence process; how to develop and evaluate term sheets. Prerequisites: (ENTR:2000 or ENTR:3350) and (ENTR:3100 or FIN:3000).

ENTR:4650 Applied Venture Finance 3 s.h.
Students work directly with early stage and high potential, scalable entrepreneurial ventures seeking assistance with financial modeling and capital acquisition; connectivity to experienced entrepreneurship faculty, C-level alumni mentors, and successful entrepreneurs who have raised equity capital; students experience first-hand the process of raising capital for a business venture. Prerequisites: FIN:3900.

ENTR:4900 Academic Internship arr.
Professional internship experience with academic credit (e.g., paper, coursework).

ENTR:4999 Honors Thesis in Entrepreneurial Studies arr.
Independent study project directed by a faculty member or staff advisor, and culminating in a thesis that conforms to University of Iowa Honors Program guidelines; project includes empirical research, library research, applied projects. Requirements: honors standing, UI GPA of at least 3.50, and enterprise leadership GPA of 3.50.

ENTR:9100 Entrepreneurship and Innovation 3 s.h.
Entrepreneurial process from ideation to commercialization of innovations for new ventures, existing businesses, and nonprofit organizations; topics include innovation and creativity, opportunity recognition and assessment, venture screening, business modeling, resource identification and acquisition, entrepreneurial leadership, and strategic business planning.

ENTR:9150 Venture School International arr.
Innovative training focused on real-world experimentation, customer discovery, and lean methodologies; curriculum developed by the National Science Foundation I-Corps to help entrepreneurs and startups turn their ideas into reality; individual and team ideation, problem identification, and validation using real customer discovery interviews; students test their hypothesis by talking with customers, partners, and suppliers; encountering chaos and uncertainty of commercializing innovations and creating new ventures in a safe environment; creation of a business model that creates value.

ENTR:9200 Entrepreneurial Finance 3 s.h.
Financial aspects of launching and growing entrepreneurial ventures; topics include financial feasibility, financial forecasting and cashflow management, business valuation, sources of venture financing, deal structure, financing growth, and exit strategies. Prerequisites: MBA:8140.

ENTR:9300 Design Thinking 3 s.h.
Introduction to concepts of design thinking—a human-centered approach to developing products, services, and experiences; methods and mindset of design thinking including identifying the problem, gathering customer insights, ideating a solution, developing a prototype, experimenting, and iterating based on customer feedback to creatively develop solutions that are desirable, feasible, and viable.

ENTR:9450 Strategic Management of Technology and Innovation 3 s.h.
Role of technology in creation, growth, and survival of industries; processes, risks, and rewards of technological innovation and commercialization; successful approaches to developing technological strategy and products.

ENTR:9500 Managing the Growth Business 3 s.h.
Issues faced by new, rapidly growing businesses; adapting organizational structure as business expands, building a management team, hiring new employees, managing strategic growth of a business; case studies, particularly in technology sector.

ENTR:9600 Seminar in Entrepreneurship 1-3 s.h.
Topics vary; franchising, business acquisition, real estate development, e-commerce, technology transfer.

ENTR:9610 STEM Innovator I: Introduction to STEM Innovation and Entrepreneurial Thinking 1-3 s.h.
Exploration of current best practices in problem/project-based learning with research-driven curriculum, instruction, and assessment to prepare all students to be future ready; introduction to skills and mindsets of STEM innovators and entrepreneurs; how a growth mindset and leveraging student strengths facilitates successful team projects; exploration of a problem identification strategy and establishing the value of solving a problem through the entrepreneurial process of customer discovery. Requirements: enrollment in STEM Innovator professional development program or approval of UI STEM Innovator instructor.

ENTR:9620 STEM Innovator II: Skills, Mindsets, Practices, and Academic Knowledge of Problem-Based Learning 1-3 s.h.
Introduction to STEM innovation, invention, and entrepreneurship academic language, activities, and reflective assessment to assist development of innovation skills, mindsets, and practices; engagement in the design thinking process to tackle STEM problems and develop sustainable solutions of value for potential users; strengths leveraged to form collaborative teams and engage in project development; exploration of prototype development research process with focus on implementation in the K-14 environment. Recommendations: ENTR:9610.

ENTR:9630 STEM Innovator III: Lean Start-Up, Data Analysis, Prototyping, and Project Development 1-3 s.h.
Exploration of STEM practices of Lean Start-Up methodology, quantitative and qualitative data analysis, prototype research and development, and project development frameworks; activities and reflective assessment to assist development of innovation skills, mindsets, and practices; advancement of a solution to a STEM problem and development of sustainable solutions of value for potential users; exploration of STEM practices and activities with focus on implementation in the K-14 environment. Requirements: enrollment in STEM Innovator professional development program or approval of UI STEM Innovator instructor. Recommendations: ENTR:9610.

ENTR:9640 STEM Innovator IV: STEM Innovation Activities, Portfolio Assessment, and Community Engagement 1-3 s.h.
Strategies to engage community mentors in assisting student innovation teams through technical and project management expertise; exploration of STEM Innovator Portfolio assessment tool to capture student innovation, invention, and entrepreneurial competencies over time; engagement with STEM Innovator curriculum toolkit to advance professional expertise and implement activities directly into classroom practice; activities and reflective assessment to assist development of innovation skills, mindsets, and practices; exploration of STEM practices and activities with focus on implementation in the K-14 environment. Requirements: enrollment in STEM Innovator professional development program or approval of UI STEM Innovator instructor. Recommendations: ENTR:9610.

ENTR:9650 STEM Innovator V: STEM Innovator Tools to Create an Innovation Model for the Classroom 1-3 s.h.
Utilization of STEM Innovator curriculum, instruction, and assessment tools to develop an implementation framework to infuse innovation, invention, and entrepreneurship into classroom practice; development of curriculum scope and sequence, align core K-14 content standards, secure community partnerships, and network with administrators, counselors, parents, and industry experts to build support during initial launch of the model; activities and reflective assessment to assist development of innovation skills, mindsets, and practices. Requirements: enrollment in STEM Innovator professional development program or approval of UI STEM Innovator instructor. Recommendations: ENTR:9610.

ENTR:9660 STEM Innovator VI: Creating a STEM Innovation Pathway Across K-14 Learning Experiences 1-3 s.h.
Engagement in systems thinking to design a model K-14 STEM innovation, invention, and entrepreneurial pathway for students across a school or district; utilization of STEM Innovator portfolio assessment tool to demonstrate student growth in skills, mindsets, practices, and academic content knowledge in STEM; networking to leverage additional educators, administrators, and industry leaders to develop, promote, and implement a STEM pathway for the district to increase student participation. Requirements: enrollment in STEM Innovator professional development program or approval of UI STEM Innovator instructor. Recommendations: ENTR:9610.

ENTR:9800 Entrepreneurship: Advanced Business Planning 0-3 s.h.
Mentoring for individuals in final stages of preparing to launch their own business or working with an entrepreneurial venture to grow their business.

Management and Entrepreneurship Courses

MGMT:1300 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

MGMT:2000 Introduction to Law 3 s.h.
Legal issues surrounding start-up and day-to-day management of a business; contract law, standard business formations, tort law, employment law, business ethics, and alternative dispute resolution. Requirements: sophomore standing.

MGMT:2100 Introduction to Management 3 s.h.
Principles of management, organizational structure, decision-making, leadership, line-staff relationships, and administration of organizations; overview of the demands and challenges facing managers, behaviors of effective managers, management theory, personal effectiveness, decision-making, team skills, and leadership skills. Requirements: sophomore standing.

MGMT:3050 Professional Preparation for Management 1 s.h.
Survey of career paths in the field of management through discussions with individuals working in human resources, management consulting, entrepreneurial endeavors, and more; hands-on activities for students to hone the skills required to succeed in today's workplace.

MGMT:3200 Individuals, Teams, and Organizations 3 s.h.
Theories of organizational behavior applied to current business trends for individuals, teams, organizations; personality, managing diversity, work-family conflict, self-managed teams, charismatic leadership, work motivation, managing conflict, organizational culture. Prerequisites: MGMT:2000 and MGMT:2100.

MGMT:3250 Leading Innovation 3 s.h.
Knowledge and skills needed to lead teams and organizations—formally or informally—to achieve sustainable innovation culture, strategy, execution, and outcomes; how to navigate corporate innovation challenges from culture to management and resourcing, in order to successfully lead innovation efforts; problem definition, critical thinking, metrics, design thinking, and entrepreneurial business model development; innovation prerequisites, roles, leadership skills, and strategy. Prerequisites: MGMT:2000 and MGMT:2100.

MGMT:3300 Strategic Human Resource Management 3 s.h.
People management activities, policies, and practices that promote effective organizations; how changes in technology, business restructuring, legal and social concerns, other issues affect human resource management. Prerequisites: MGMT:2000 and MGMT:2100.

MGMT:3400 Employment Law 3 s.h.
Laws affecting employers and employees, such as regulatory health and safety policies, unemployment and retirement benefits, and employment discrimination including hiring, termination, testing issues. Prerequisites: MGMT:2000 and MGMT:2100.

MGMT:3450 International Business Environment 3 s.h.
Differences in international and domestic business; cultural, legal, political factors for managers. Requirements: junior or higher standing.

MGMT:3500 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financial aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as ENTR:3595, MUSM:3500, NURS:3595, RELS:3700, SSW:3500.

MGMT:3600 Nonprofit Organizational Effectiveness II 3 s.h.
Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Same as NURS:3600, RELS:3701, SSW:3600.

MGMT:3700 Field Experience: Nonprofit Leadership and Philanthropy 3 s.h.
Faculty-supervised professional work experience with a nonprofit organization with associated academic content.

MGMT:3800 Entrepreneurial Leadership Academy I 3 s.h.
Exposure to latest research and techniques in leading entrepreneurial organizations; students learn how to successfully manage innovation based projects and engage with entrepreneurial leaders and business experts to understand how they utilize entrepreneurial approaches to launch and lead high potential entrepreneurial ventures; first of a two-course sequence. Prerequisites: MGMT:2100 or ENTR:2000 or ENTR:3350. Requirements: declared management and entrepreneurship major or enterprise leadership major, and 75 s.h. completed. Same as ENTR:3800.

MGMT:3850 Entrepreneurial Leadership Academy II 3 s.h.
Students work in teams to provide advanced strategic management consulting services to entrepreneurial ventures, corporations, and select nonprofit organizations; students work directly with C-level executives on projects and receive mentoring from faculty who have built and led successful organizations; teams are responsible for developing innovative strategies to address significant challenges facing clients; second of a two-course sequence. Prerequisites: MGMT:3800 or ENTR:3800. Same as ENTR:3850.

MGMT:3999 CIMBA Italy Experiential Leadership 1-3 s.h.
Leadership Initiative for Excellence (LIFE) includes a three-day training that enhances key leadership competencies including effective communication, decision-making, teamwork, focus, and interpersonal skills; Learn, Enrich, Achieve, Perform (LEAP) includes and builds upon concepts in LIFE, and is a semester-long professional development program that utilizes self-assessment, one-on-one and group coaching, and developmental seminars; for students enrolled in the CIMBA Italy Program.

MGMT:4000 Topics in Management 1-3 s.h.
Topics not regularly offered in other courses. Prerequisites: MGMT:2100.

MGMT:4050 Directed Readings in Management and Organizations arr.

MGMT:4100 Dynamics of Negotiations 3 s.h.
Predictable aspects and dynamics of bargaining experiences; simulations, experiential exercises to foster skills needed for effective negotiation in almost any situation. Requirements: 60 s.h. completed.

MGMT:4200 Staffing and Talent Management 3 s.h.
Staffing processes; external influences such as labor markets, the legal environment; support activities such as job analysis, employment planning; staffing activities such as internal and external recruiting, selection. Prerequisites: MGMT:3300 and MGMT:3200. Corequisites: MGMT:3400.

MGMT:4300 Leadership and Personal Development 3 s.h.
Practical development and application of leadership and managerial skills to enhance individual and organizational effectiveness.

MGMT:4325 Team and Project Management 3 s.h.
Fundamentals of managing teams and group projects; emphasis on practical application, using case studies, and interactive and experiential exercises. Prerequisites: MGMT:3200 and MGMT:3300.

MGMT:4350 Performance Management and Strategic Rewards 3 s.h.
Role of pay and other rewards on organizational objectives; compensation's impact on employee behavior and performance; mix of pay and benefits in compensation systems; legal environment regulating pay and benefits; nonmonetary forms of reward; the role of performance management, pay, and other rewards on employee performance and organizational objectives is examined; includes performance appraisals, coaching, performance feedback, incentive systems, the mix of pay and benefits in compensation systems, and the legal environment regulating pay and benefits. Prerequisites: MGMT:3300 and MGMT:3200.

MGMT:4500 Strategy, Innovation and Global Competition 3 s.h.
Development of skills for firm strategy formation in a complex and technology-driven global economy; analytical tools that are essential to any consultant, manager, or entrepreneur facing dynamic industry environments. Prerequisites: MGMT:2100.

MGMT:4600 Nonprofit Ethics and Governance 3 s.h.
Tools to help identify, understand, and resolve ethical issues in nonprofit sectors; how individual beliefs and societal standards shape ethical decision-making; application of ethical frameworks to classic and contemporary ethical dilemmas; how various forms of governance shape ethical behavior in organizations; case studies, readings, lectures, and guest speakers. Same as MUSM:4600.

MGMT:4999 Honors Thesis in Management arr.
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University of Iowa Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: BUS:1999.

MGMT:7120 Research Methods in Behavioral Social Sciences (PhD) 3 s.h.
Main steps in conducting empirical research studies. Example topics include generating research ideas, developing hypotheses, designing experiments and field studies, developing measures of the constructs, identifying a sample, testing hypotheses, and writing and publishing research.

MGMT:7124 Methods for Qualitative Research 2 s.h.
Qualitative methods available to researchers; role and contributions of qualitative methods in research; reasons why qualitative research papers get rejected by journals and strategies to avoiding them; work with qualitative data; philosophy of science, formulating research questions, sampling and gaining access, alternative qualitative data collection methods, ways of coding and analyzing qualitative data, building theory from qualitative data.

MGMT:7128 Methods for Experimental Research 2 s.h.
Nature of research and principles of experimental design, including laboratory and field experiments (quasi-experiments), event sampling, and methods of small-group research; analysis of variance (ANOVA), analysis of covariance (ANCOVA), multi-attribute analysis of variance (MANOVA); orthogonal, planned and unplanned comparisons, factorial experiments including repeated measures, nested-factors design, Latin square designs; analysis of data sets with SPSS.

MGMT:7140 Meta-Analysis in Behavioral Social Sciences (PhD) 3 s.h.
Methods for quantitative integration of findings in behavioral and social sciences; overall effect size or correlation, whether conflicting findings documented in research literature are due to moderators (interactions) or statistical and measurement artifacts.

MGMT:7160 Multivariate Analysis in Behavioral Social Sciences (PhD) 3 s.h.
Principles and analytical methods for testing multivariate relationships in behavioral social sciences. Students build on existing knowledge about univariate (e.g., summary statistics) and bivariate statistics (e.g., group comparison, correlation, linear regression) and learn the foundation and application of multivariate statistics. Topics covered include multiple regression, relative importance analysis, mediated and moderated models, principal component analysis and factor analysis, and basic and advanced topics in structural equation modeling. Time will also be spent on data cleaning, organization, and visualization. Requirements: basic statistical methods course.

MGMT:7323 Foundations of Organizational Theorizing 2-3 s.h.
Examination of the field of micro-organizational behavior (micro-OB); development of ability to evaluate and generate papers that make a theoretical contribution to the field; classic and contemporary research related to prevailing theories; students engage in weekly writing, including a series of theory building exercises and peer reviewing; objectives include supporting peers in generating new theoretical questions, models, and/or frameworks, and providing an overview of theoretical contributions in several important areas in organizational behavior.

MGMT:7328 Academic Writing 2-3 s.h.
Development of critical thinking skills and practices associated with successful academic writing; students learn and practice how to write stylized sections of a social science paper effectively (e.g., literature review, hypothesis development); how to write for impact; research-supported productive writing habits, including how to give and receive feedback on early drafts of writing; writing style/mechanics (e.g., using active voice); writing assignments include a combination of step-by-step revisions to an existing, self-selected paper and shorter hands-on exercises targeted at specific writing skills.

MGMT:7340 Group Processes (PhD) 3 s.h.
In-depth understanding of how work groups and teams can be made more effective in organizations; team design issues (i.e., task type, interdependence, leadership, member composition); process issues including power, influence, communications, conflict, collective memory, and intergroup relations.

MGMT:7350 Leadership (PhD) 3 s.h.
Understanding and preparation for implementing leadership in organizations; focus on reading and analysis of basic research-related leadership theories; contrast "great person" theories, traditional behavioral and situational theories, and transformational leadership theory.

MGMT:7360 Motivation and Attitudes (PhD) 3 s.h.
Motivational processes, attitudes, communication and interorganizational networks; emphasis on motivational antecedents and consequences, theoretical implications for models of work performance.

MGMT:7700 Mentored Research arr.
Management research conducted by doctoral students under faculty supervision; culminates in second-year research paper.

MGMT:7800 Foundations of Human Resource Management 2-3 s.h.
Broad survey of foundational topics in human resource management, particularly from a micro perspective, interspersed with special topics of growing interest within the field; introduction to foundational theoretical and empirical research on topics of staffing, training and development, performance management and compensation, including an examination of trending topics of interest in these areas; students develop skills necessary to evaluate, criticize, and contribute to literature on human resource management.

MGMT:7900 Contemporary Topics in Management & Entrepreneurship arr.
Research topics in human resources and organizational behavior.

MGMT:7950 Directed Readings in Management arr.

MGMT:7975 Thesis in Management arr.
Management research conducted by doctoral students under faculty supervision; culminates in dissertation.

MGMT:8000 Healthcare Business Leadership 1-2 s.h.
Explaining, predicting, and influencing human behavior in healthcare organizations and settings; topics include high-performance leadership, strategic hiring of employees, decision making, negotiations, entrepreneurship, and basic finance/accounting for clinicians. Requirements: acceptance into pharmacy Healthcare Business Leadership (HBL) Program, and full-time student status (12 s.h.) in each semester enrolled in the HBL program not including hours tied to this course.

MGMT:9090 Influence and Constructive Persuasion 3 s.h.
Exploration of methods of persuasion and the science behind why and how influence works in a contemporary business setting; leadership as a function of consensus building, convincing, and motivating in today's team-based, knowledge-centric enterprises; how leaders select from a variety of influence techniques to get others' commitment to a course of action rather than commanding others; persuasion—using solid evidence coupled with emotional appeal—as capacity to present a message in a way that leads others to support it; how persuasion, when used effectively, creates a sense of freedom—others freely choose your perspective and support it.

MGMT:9091 Corporate Social Responsibility and Sustainability 2-3 s.h.
Introduction to main corporate social responsibility (CSR) and sustainability issues; current debates; costs and benefits of CSR/sustainability; relationship between leadership, innovation, and CSR; CSR's effects on companies' ability to attract and retain good employees; numerous cases studies ranging from small to large companies from various sectors including food and agriculture, manufacturing, finance, mining, energy, retail, transportation; students read and debate articles and case studies written by leading business experts, academics, and CEOs; individual or teamwork on a CSR change analysis.

MGMT:9092 Effective Managerial Communication 2-3 s.h.
Decisive personal and organizational skills for business leaders and entrepreneurs; at individual level, students will refresh writing, listening, speaking, and interpersonal skills for business settings; at the organizational level, course provides crucial managerial skills—how to conduct an effective meeting, questioning skills for employment selection, engaging in small talk, and communication during a crisis.

MGMT:9110 Dynamics of Negotiations 2-3 s.h.
Predictable aspects and dynamics of bargaining experiences; simulations, experiential exercises to foster skills needed for effective negotiation in almost any situation. Requirements: MBA enrollment.

MGMT:9120 Leadership and Personal Development 2-3 s.h.
Major theories; determinants of leader effectiveness, personal and career success; practical development of leadership, managerial skills to enhance individual, organizational effectiveness.

MGMT:9130 Strategic Management of Change 3 s.h.
How congruence in organizational strategy, structure and culture, job design, and employee characteristics produces effective organizations; emphasis on managing organizational change, implementing and working in teams, project management. Recommendations: completion of MBA:8120.

MGMT:9150 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as HMP:6360, PBAF:6278, RELS:6070, SPST:6010, SSW:6247, URP:6278.

MGMT:9160 Nonprofit Organizational Effectiveness II 3 s.h.
Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Same as HMP:6365, PBAF:6279, RELS:6075, SPST:6020, SSW:6248, URP:6279.

MGMT:9170 Human Resources Analytics 3 s.h.
Introduces analytical techniques for making human resources (HR) decisions. Using Excel and Python, learn the importance of measurement and how to analyze data and interpret results to inform organizational decision-making related to selection, promotions, and turnover. Use data to make high-stakes decisions in the conceptual domain of human resources. Analytical techniques covered include basic descriptive statistics, correlations, regression, and introduction to natural language processing. Prerequisites: MBA:8150 or BAIS:9100.

MGMT:9185 Project Management 2-3 s.h.
Preparation for managing projects and project portfolios; project selection, project planning and budgeting, scheduling, resource allocation, project control; integration of project planning tools, including project management software.

MGMT:9210 Law and Ethics 2-3 s.h.
Legal issues surrounding start-up and day-to-day management of a business; contract law, standard business formations, tort law, employment law, business ethics, and alternative dispute resolution; exploration of the ways in which ethics and law intersect as well as the ways in which law reflects various ethical judgments; consideration and comparison of the roles of law and the role of ethics in our society.

MGMT:9220 Maximizing Team Performance 3 s.h.
Current approaches to implementing effective teams within organizations; team selection and formation, group dynamics, facilitation skills, performance and obstacle management.

MGMT:9230 Managing and Preventing Conflict 3 s.h.
Skills for management of high-conflict situations in the workplace and for long-term business success and job satisfaction; experience developing mediation-based skills and communication techniques to prevent and resolve workplace conflicts.

MGMT:9240 Inclusive Leadership 3 s.h.
Skills to develop a more inclusive leadership style including leading productive conversations about diversity, transforming diversity-related conflicts into opportunities for learning and growth, evaluating diversity initiatives for potential effectiveness, and developing a change management plan for increasing inclusion in an organization; exploration of foundations for inclusive leadership behaviors and team cultures through self-assessments, case studies, and group activities. Prerequisites: MBA:8120.

MGMT:9250 Managing Employee Performance 3 s.h.
Concepts and practices to effectively manage, measure, and improve employee performance; establishing and communicating organizational expectations, the manager as coach and motivator, measurement methodologies, and performance improvement methods; concepts and practices to effectively manage, measure, and improve employee performance; establishing and communicating organizational expectations; the manager as coach and motivator, performance improvement methods, and designing more effective reward practices.

MGMT:9260 Strategic Employee Development 3 s.h.
Concepts, practices in training and development; strategic issues affecting the design, implementation, and evaluation of training programs and of career management and organizational development activities.

MGMT:9270 Human Resource Management 3 s.h.
Systematic approach to managing human resources through practices consistent with validated theories and empirical research; human resources practices and business strategies; human resources strategy, recruitment and selection, training and development, employment law, international human resources, career management, compensation.

MGMT:9290 Global Business Management 3 s.h.
Theoretical knowledge and practical skills that are critical to successfully compete in the global marketplace and to make sound management decisions in international contexts; economic, political, legal, and social aspects of a business environment in foreign markets; multinational companies' winning moves in entering and growing in these markets; best practices in managing people in different cultural settings.

Entrepreneurship, BBA

Iowa JPEC and the Department of Management and Entrepreneurship [p. 1236] offer the Bachelor of Business Administration (BBA) in entrepreneurship. Students are encouraged to meet with their academic advisors regarding completing the BBA in entrepreneurship.

Undergraduate entrepreneurship academic programs at the University of Iowa are comprised of advanced applied learning courses along with several cocurricular programs to help prepare the next generation of successful innovators, entrepreneurial leaders, and business founders. The academic programs are designed to teach innovation and creativity, entrepreneurial leadership, opportunity recognition, design thinking, strategic business planning, entrepreneurial finance, entrepreneurial marketing, and professional communications. Students have several emphasis areas to choose from to complete their programs of study based on their future career interests such as technological innovation, social entrepreneurship, entrepreneurial finance, launching new ventures, corporate entrepreneurship, or general entrepreneurship. Students learn from a select group of faculty who have launched, built, and led successful organizations and have the ability to bridge theory and practice. Several of the programs are open to all University of Iowa undergraduate students. To learn more, visit the John Pappajohn Entrepreneurial Center website.

Common BBA Requirements

The Bachelor of Business Administration (BBA) requires a minimum of 120 s.h. of credit, including at least 48 s.h. earned in business courses and at least 52 s.h. earned in non-business courses.

BBA students must earn 45 s.h. at the University of Iowa following admission to the BBA program. At least 24 s.h. in business courses must be earned with Tippie College of Business coursework. At least two-thirds of the semester hours in a student's major must be earned in the student's major department at the Tippie College of Business. Nonresident instruction includes coursework at colleges and universities other than the University of Iowa.

To graduate, BBA students must have a cumulative grade-point average of at least 2.00 in all college-level coursework attempted, all college-level business coursework attempted, all college-level major coursework attempted, all college-level coursework attempted at the University of Iowa, all college-level business coursework attempted at the University of Iowa, and all college-level major coursework attempted at the University of Iowa.

Common BBA Requirements

BBA students must fulfill the following common requirements or approved equivalents. For approved equivalents, consult the college's Undergraduate Program Office.

General Education

Students may not count courses taken to fulfill General Education Program requirements toward other course requirements for the BBA.

Course #	Title	Hours
Historical Perspectives		3
International and Global Issues		3
Interpretation of Literature		3
Natural Sciences (without lab)		3
Rhetoric		4
Social Sciences (excluding ECON:1100 and ECON:1200)		3
Understanding Cultural Perspectives		3
Values and Society		3
World Languages		0-10

World Languages

Tippie College of Business students may complete the World Languages requirement using one of three options. One year of high school language study is generally equivalent to one semester of college language study.

Option One

Attain fourth level proficiency in a single world language. Students attain fourth level proficiency in a single world language by completing four years of that language in high school or four semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at fourth level proficiency.

Option Two

Attain third level proficiency in a single world language and complete a World Language and Cultural Exploration course. Students attain third-level proficiency in a single world language by completing three years of that language in high school or three semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at third-level proficiency. Option two does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Option Three

Attain second level proficiency in each of two world languages. Students attain second level proficiency in each of two world languages by completing two years of each language in high school or two semesters of each language in college, or an equivalent combination of high school and college coursework, or pass achievement tests and/or evaluations at second-level proficiency in each language. Option three does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Prerequisites for Admission to the BBA Program

Course #	Title	Hours
BAIS:1500	Business Computing Essentials	2
ECON:1100	Principles of Microeconomics	4
MATH:1350	Quantitative Reasoning for Business	4
RHET:1030	Rhetoric: Writing and Communication	4
STAT:1030	Statistics for Business	4

Prerequisites for Declaring a BBA Major

Course #	Title	Hours
ACCT:2100	Introduction to Financial Accounting	3

ECON:1200	Principles of Macroeconomics	4

BBA Core

MGMT:2100	Introduction to Management	3
MKTG:3000	Introduction to Marketing Strategy	3

Experiential Learning Requirement: Tippie RISE

RISE is an acronym for hands-on experiential learning in the form of research with faculty, internship course, study abroad, and experiential course. All BBA students in the Tippie College of Business students must successfully complete at least one of these four experiences. Courses that satisfy Tippie RISE are as follows.

Research With Faculty

Working closely with a faculty mentor, students explore a research question of interest for a semester or more. By conducting academic research, students enhance their critical thinking skills, learn techniques to collect and analyze data, and apply their findings to business practices. These skills are highly useful for a variety of businesses and graduate programs.

Course #	Title	Hours
ACCT:4999	Honors Thesis in Accounting	arr.
BAIS:4999	Honors Thesis in Business Analytics	arr.
BUS:3600	Mentored Research	arr.
BUS:4999	Honors Thesis in Business	arr.

URES:3993	Undergraduate Research and Creative Projects	1-4
URES:3994	Undergraduate Research and Creative Projects	1-4
URES:3995	Independent Creative Research by Undergraduates Summer Internship	0

Internship Course

As students gain valuable hands-on work experience in a professional internship, they complete one of the approved internship courses to assist them in having a meaningful learning experience. The internship courses encourage students to take on relevant job responsibilities, outline strategies to meet internship goals, regularly communicate with their supervisors, explore the career field, and reflect on their growth throughout the experience.

Course #	Title	Hours
BUS:3100	Academic Internship or Cooperative Education	0
BUS:3900	Business Communication Internship I	3
BUS:4900	Academic Internship	arr.
CCP:1201	Academic Internship	1-3

SRM:4199	Independent Sport and Recreation Field Experience	arr.

Study Abroad

By taking advantage of short-term, summer, semester, or academic year programs, students can expand their worldview and learn alternative business and cultural practices outside of the United States. Students can participate in Tippie RISE study abroad programs such as London Winter, International Business in Sydney, CIMBA Italy, Global Internships, spring break programs through the John Pappajohn Entrepreneurial Center, or any of the many UI study abroad programs in over 40 countries. Any study abroad program is accepted for credit, including virtual programs, short-term faculty-led programs, and summer, semester, or year-long programs. These courses may be study abroad courses (prefix ABRD) or select study abroad international activities courses (prefix INTL) but are not required to be; see Study Abroad [p. 2215] in the catalog.

Experiential Course

In approved experiential courses, students improve their understanding of academic concepts by applying them to a class project with a company or nonprofit organization. Using real circumstances and issues, students engage with the organization to make a lasting impact. Students have support from classmates and guidance from their instructor throughout the duration of the project. Experiential courses are offered in many BBA majors and as business and non-business electives. Courses must be taken at the University of Iowa to satisfy Tippie RISE.

Major Area of Study

All BBA students must complete a major area of study. The college offers BBA majors in accounting [p. 1140], business analytics and information systems [p. 1158], economics [p. 1185], entrepreneurship, finance [p. 1208], management [p. 1236], marketing [p. 1261], and risk management and insurance [p. 1219]. The requirements for each major are established by the department that offers the major.

Students With Associate of Arts Degrees

Students who have been granted an Associate of Arts (AA) from a community college participating in the Iowa and Illinois Community College/Regents Articulation Agreements are considered to have met all high school unit requirements for admission to the BBA and all of the General Education Program requirements listed under "General Education Requirements," except the Understanding Cultural Perspectives and World Languages requirements. The program of study for which a student was awarded the AA must have included:

- a minimum of 60 s.h. (or 90 quarter hours) of credit acceptable toward graduation from the University of Iowa;
- completion of the agreed-upon group of courses at the community college; and
- a GPA of at least 2.00.

Mathematics courses comparable to MATH:0100 Basic Algebra I are not accepted toward graduation. Completion of an Associate of Arts does not guarantee admission to the BBA program in the Tippie College of Business. See Admission in Undergraduate Programs [p. 1132] for a complete list of requirements for admission to the BBA.

Students who use the provisions of the articulation agreement are granted a maximum of 60 s.h. of transferable credit from two-year colleges toward the 120 s.h. required for a BBA. Credit earned for the AA beyond the 60 s.h. transferable maximum is used in computing a student's grade-point average, and it may be used to satisfy course requirements, but it does not count toward the BBA. Transfer credit for business courses taken during the first and second years is counted toward the BBA only if such courses are usually offered as lower-division courses at the University of Iowa.

Transfer Courses

Students who have taken courses at another institution that are similar to those approved for the common business requirements at Iowa may request that these courses be evaluated for transfer credit. Students who transfer fewer hours than needed to meet a common business requirement may use only approved courses to complete the remainder of the requirement. Only courses taken at accredited four-year institutions may be used to satisfy business course requirements numbered 3000 or above. Students must complete a minimum of 24 s.h. of business coursework at Iowa and at least two-thirds of the coursework in the major in the department awarding the major. They must also meet the 45 s.h. residence requirement of the Tippie College of Business. Credit earned through online courses may be counted toward all requirements for graduation, subject to approval by a student's major department.

Multiple Majors in Business

Students may earn the BBA degree with more than one major; they may also combine the BBA degree with the Bachelor of Arts or Bachelor of Science in economics (except for the BBA in economics). The Four-Year Graduation Plan is not available to students earning more than one major or degree. Students have access to degree audits in MyUI for all of the programs of study they have officially declared. They also have access to all program courses, with some limitations, during early registration. A student must be in good academic standing in order to declare more than one major. See Double Majors and Joint Degrees on the Tippie College of Business website.

Requirements

The Bachelor of Business Administration (BBA) with a major in entrepreneurship requires a minimum of 120 s.h., including 22 s.h. of work for the major. To graduate, students must have a cumulative grade-point average of at least 2.00 in all college coursework attempted, all coursework attempted at the

University of Iowa, all college business coursework attempted, all business coursework attempted at the University of Iowa, all college management and entrepreneurship coursework attempted, and all management and entrepreneurship coursework attempted at the University of Iowa.

Students in this major are not eligible to earn the BA in enterprise leadership or the Certificate in Entrepreneurial Management.

Students may not earn credit for both MGMT:3200 Individuals, Teams, and Organizations and MGMT:3250 Leading Innovation due to overlap in course content.

The BBA with a major in entrepreneurship requires the following coursework.

Requirements	Hours
Entrepreneurship Common Required Courses	16
Entrepreneurship Elective Courses	6

Entrepreneurship Common Required Courses

Course #	Title	Hours
All of these:		
ENTR:3050	Professional Preparation for Enterprise Leadership and Entrepreneurship	1
ENTR:3350	Entrepreneurial Strategy	3
BAIS:3150	Emerging Technology Driving Business Innovation	3
FIN:3900	Advanced Entrepreneurial Finance	3
MGMT:3250	Leading Innovation	3
MKTG:4201	Professional Selling	3

Entrepreneurship Elective Courses

Students complete two courses (6 s.h.) from one of the following categories: entrepreneurial finance [p. 1248], entrepreneurial leadership [p. 1248], new ventures [p. 1248], technology entrepreneurship [p. 1248], or general entrepreneurship [p. 1248]. Students are not guaranteed specific elective options. The availability of courses may be subject to prerequisites or restricted to students who have declared a second major within the respective department.

Career Advancement

Recent graduates are successful innovators, entrepreneurial leaders, and business founders. The Pomerantz Career Center offers multiple resources to help students find internships and jobs. For more information, visit the Pomerantz Career Center website.

Iowa JPEC offers a wide variety of applied learning experiences designed to develop entrepreneurial-minded problem solvers and leaders capable of quickly moving into a management position with an existing organization or successfully launching a new business venture. These programs range from team-based strategic business consulting with entrepreneurial ventures and existing small-to-medium-size businesses to professional internships with high-potential ventures and select growth organizations. For students wanting to launch a new venture while in school or expand an existing side hustle, Iowa JPEC directs a comprehensive student incubation program that includes office space, mentoring, training, and access to capital. To learn more visit Student Ventures on the Iowa JPEC website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs. For more information, visit the Pomerantz Career Center website.

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Entrepreneurship, BBA

Course	Title	Hours
Academic Career		
Any Semester		
Students are required to complete 52 s.h. of non-business coursework. Courses with a prefix of ACCT, BAIS, BUS, ECON, ENTR, FIN, MGMT, and MKTG will not count towards non-business hours. Check degree audit for non-business hours or confer with academic advisor.		
Students who need to complete the World Language requirement should consult with their academic advisor about when to add courses to plan of study. World Language counts as non-business coursework.		
To fulfill the Tippie RISE experiential learning requirement, complete an approved course in at least one of the following categories: research with faculty, internship course, study abroad, experiential course. [a]		
Students must satisfy the Tippie College of Business residence requirement: 45 s.h. of UI coursework after admission to Tippie.

b Enrollment in math courses requires completion of a placement exam.

c GE courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
d Must be admitted to Tippie to enroll in BUS:3000. Generally completed during the second year, but should be taken no later than the third year.
e Complete two courses (6 s.h.) from one of the following categories: entrepreneurial finance, entrepreneurial leadership, new ventures, technology entrepreneurship, or general entrepreneurship. See the General Catalog for lists of approved courses.
f Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Management, BBA

Common BBA Requirements

The Bachelor of Business Administration (BBA) requires a minimum of 120 s.h. of credit, including at least 48 s.h. earned in business courses and at least 52 s.h. earned in non-business courses.

BBA students must earn 45 s.h. at the University of Iowa following admission to the BBA program. At least 24 s.h. in business courses must be earned with Tippie College of Business coursework. At least two-thirds of the semester hours in a student's major must be earned in the student's major department at the Tippie College of Business. Nonresident instruction includes coursework at colleges and universities other than the University of Iowa.

To graduate, BBA students must have a cumulative grade-point average of at least 2.00 in all college-level coursework attempted, all college-level business coursework attempted, all college-level major coursework attempted, all college-level coursework attempted at the University of Iowa, all college-level business coursework attempted at the University of Iowa, and all college-level major coursework attempted at the University of Iowa.

Common BBA Requirements

BBA students must fulfill the following common requirements or approved equivalents. For approved equivalents, consult the college's Undergraduate Program Office.

General Education

Students may not count courses taken to fulfill General Education Program requirements toward other course requirements for the BBA.

Course #	Title	Hours
Historical Perspectives		3
International and Global Issues		3
Interpretation of Literature		3
Natural Sciences (without lab)		3
Rhetoric		4
Social Sciences (excluding ECON:1100 and ECON:1200)		3
Understanding Cultural Perspectives		3
Values and Society		3
World Languages		0-10

World Languages

Tippie College of Business students may complete the World Languages requirement using one of three options. One year of high school language study is generally equivalent to one semester of college language study.

Option One

Attain fourth level proficiency in a single world language. Students attain fourth level proficiency in a single world language by completing four years of that language in high school or four semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at fourth level proficiency.

Option Two

Attain third level proficiency in a single world language and complete a World Language and Cultural Exploration course. Students attain third-level proficiency in a single world language by completing three years of that language in high school or three semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at third-level proficiency. Option two does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Option Three

Attain second level proficiency in each of two world languages. Students attain second level proficiency in each of two world languages by completing two years of each language in high school or two semesters of each language in college, or an equivalent combination of high school and college coursework, or pass achievement tests and/or evaluations at second-level proficiency in each language. Option three does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Experiential Learning Requirement: Tippie RISE

RISE is an acronym for hands-on experiential learning in the form of research with faculty, internship course, study abroad, and experiential course. All BBA students in the Tippie College of Business students must successfully complete at least one of these four experiences. Courses that satisfy Tippie RISE are as follows.

Research With Faculty

Working closely with a faculty mentor, students explore a research question of interest for a semester or more. By conducting academic research, students enhance their critical thinking skills, learn techniques to collect and analyze data, and apply their findings to business practices. These skills are highly useful for a variety of businesses and graduate programs.

Course #	Title	Hours
ACCT:4999	Honors Thesis in Accounting	arr.
BAIS:4999	Honors Thesis in Business Analytics	arr.
BUS:3600	Mentored Research	arr.

URES:3993	Undergraduate Research and Creative Projects	1-4
URES:3994	Undergraduate Research and Creative Projects	1-4
URES:3995	Independent Creative Research by Undergraduates Summer Internship	0

Internship Course

As students gain valuable hands-on work experience in a professional internship, they complete one of the approved internship courses to assist them in having a meaningful learning experience. The internship courses encourage students to take on relevant job responsibilities, outline strategies to meet internship goals, regularly communicate with their supervisors, explore the career field, and reflect on their growth throughout the experience.

Course #	Title	Hours

EVNT:2110	Internship in Event Management	3
LS:3011	Leadership Certificate Capstone	0-2
SRM:4199	Independent Sport and Recreation Field Experience	arr.

Study Abroad

By taking advantage of short-term, summer, semester, or academic year programs, students can expand their worldview and learn alternative business and cultural practices outside of the United States. Students can participate in Tippie RISE study abroad programs such as London Winter, International Business in Sydney, CIMBA Italy, Global Internships, spring break programs through the John Pappajohn Entrepreneurial Center, or any of the many UI study abroad programs in over 40 countries. Any study abroad program is accepted for credit, including virtual programs, short-term faculty-led programs, and summer, semester, or year-long programs. These courses may be study abroad courses (prefix ABRD) or select study abroad international activities courses (prefix INTL) but are not required to be; see Study Abroad [p. 2215] in the catalog.

Experiential Course

In approved experiential courses, students improve their understanding of academic concepts by applying them to a class project with a company or nonprofit organization. Using real circumstances and issues, students engage with the organization to make a lasting impact. Students have support from classmates and guidance from their instructor throughout the duration of the project. Experiential courses are offered in many BBA majors and as business and non-business electives. Courses must be taken at the University of Iowa to satisfy Tippie RISE.

Course #	Title	Hours

SRM:4197	Sport and Recreation Field Experience (not fans first section)	arr.

Major Area of Study

All BBA students must complete a major area of study. The college offers BBA majors in accounting [p. 1140], business analytics and information systems [p. 1158], economics [p. 1185], entrepreneurship, finance [p. 1208], management [p. 1236], marketing [p. 1261], and risk management and insurance [p. 1219]. The requirements for each major are established by the department that offers the major.

Students With Associate of Arts Degrees

Students who have been granted an Associate of Arts (AA) from a community college participating in the Iowa and Illinois Community College/Regents Articulation Agreements are considered to have met all high school unit requirements for admission to the BBA and all of the General Education Program requirements listed under "General Education Requirements," except the Understanding Cultural Perspectives and World Languages requirements. The program of study for which a student was awarded the AA must have included:

- a minimum of 60 s.h. (or 90 quarter hours) of credit acceptable toward graduation from the University of Iowa;
- completion of the agreed-upon group of courses at the community college; and
- a GPA of at least 2.00.

Mathematics courses comparable to MATH:0100 Basic Algebra I are not accepted toward graduation. Completion of an Associate of Arts does not guarantee admission to the BBA program in the Tippie College of Business. See Admission in Undergraduate Programs [p. 1132] for a complete list of requirements for admission to the BBA.

Students who use the provisions of the articulation agreement are granted a maximum of 60 s.h. of transferable credit from two-year colleges toward the 120 s.h. required for a BBA. Credit earned for the AA beyond the 60 s.h. transferable maximum is used in computing a student's grade-point average, and it may be used to satisfy course requirements, but it does not count toward the BBA. Transfer credit for business courses taken during the first and second years is counted toward the BBA only if such courses are usually offered as lower-division courses at the University of Iowa.

Transfer Courses

Students who have taken courses at another institution that are similar to those approved for the common business requirements at Iowa may request that these courses be evaluated for transfer credit. Students who transfer fewer hours than needed to meet a common business requirement may use only approved courses to complete the remainder of the requirement. Only courses taken at accredited four-year institutions may be used to satisfy business course requirements numbered 3000 or above. Students must complete a minimum of 24 s.h. of business coursework at Iowa and at least two-thirds of the coursework in the major in the department awarding the major. They must also meet the 45 s.h. residence requirement of the Tippie College of Business. Credit earned through online courses may be counted toward all requirements for graduation, subject to approval by a student's major department.

Multiple Majors in Business

Students may earn the BBA degree with more than one major; they may also combine the BBA degree with the Bachelor of Arts or Bachelor of Science in economics (except for the BBA in economics). The Four-Year Graduation Plan is not available to students earning more than one major or degree. Students have access to degree audits in MyUI for all of the programs of study they have officially declared. They also have access to all program courses, with some limitations, during early registration. A student must be in good academic standing in order to declare more than one major. See Double Majors and Joint Degrees on the Tippie College of Business website.

Requirements

The Bachelor of Business Administration with a major in management requires a minimum of 120 s.h., including 22 s.h. of work for the major. To graduate, students must have a cumulative grade-point average of at least 2.00 in all college coursework attempted, all coursework attempted at the University of Iowa, all college business coursework attempted, all business coursework attempted at the University of Iowa, all college management and entrepreneurship coursework attempted, and all management and entrepreneurship coursework attempted at the University of Iowa.

The program is designed to give students a thorough background in the department's study areas as well as an understanding of their application to real-life situations. Specific courses, research projects, and other experiences, such as simulations, are blended to include both theoretical and pragmatic aspects of the field.

All BBA students majoring in management choose one of two subprograms: human resource management or leadership and management. The human resource management subprogram prepares students to pursue careers in human resources or to earn a degree in law. The leadership and management subprogram focuses on the skills and competencies needed to lead a project, a team, or an organization; it is best suited for students considering management or consulting careers. Each subprogram provides a solid background in general management principles in addition to a specialized focus.

Students may not earn credit for both MGMT:3200 Individuals, Teams, and Organizations and MGMT:3250 Leading Innovation due to overlap in course content.

Students are not guaranteed specific elective options. The availability of courses outside the Department of Management and Entrepreneurship may be subject to prerequisites or restricted to students who have declared a second major within the respective department.

The BBA with a major in management requires the following coursework.

Human Resource Management Subprogram Courses

Students in the human resource management subprogram complete the following coursework.

Course #	Title	Hours
All of these:		
MGMT:3050	Professional Preparation for Management	1
MGMT:3200	Individuals, Teams, and Organizations	3
MGMT:3300	Strategic Human Resource Management	3

ENTR:4200	Entrepreneurship: Business Consulting	3
ENTR:4400	Managing the Growth Business	3

Career Advancement

Recent graduates have found jobs as team leads, project managers, people managers, human resource managers, and entrepreneurs at a range of organizations.

Over 90% of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment six months after graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs. For more information, visit the Pomerantz Career Center website.

a See degree audit for course options.

b Enrollment in math courses requires completion of a placement exam.
c GE courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
d MGMT:2000 and MGMT:2100 should both be taken during second year; may be taken in either order.
e Must be admitted to Tippie to enroll in BUS:3000. Generally completed during the second year, but should be taken no later than the third year.
f MGMT:3200 and MGMT:3300 should be taken before the end of the third year; may be taken in either order or concurrently.
g See the General Catalog for list of approved courses.
h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Entrepreneurial Management, Certificate

Requirements

The undergraduate Certificate in Entrepreneurial Management requires a minimum of 18 s.h. of credit. Students must maintain a grade-point average of at least 2.00 in work for the certificate.

The certificate program is open to all current University of Iowa undergraduate students and to individuals who have earned a bachelor's degree and are not enrolled in a UI graduate or professional degree program, except to students earning the BBA in entrepreneurship, the BBA in management (entrepreneurial management subprogram), or the BA in enterprise leadership. Undergraduate students can declare the certificate on MyUI.

Students earning the certificate in conjunction with the Bachelor of Applied Studies [p. 2174] (University College) or the Bachelor of Liberal Studies [p. 2177] (University College) may complete the certificate's coursework by distance education.

Students may begin working toward the Certificate in Entrepreneurial Management during their first year. They may count a maximum of 6 s.h. of transfer credit toward the certificate, with approval from the entrepreneurship program director. Credit earned in entrepreneurship courses (prefix ENTR) is counted as semester hours earned in business.

Many certificate courses have prerequisites and other requirements for registration; students must complete a course's prerequisites and must meet its registration requirements before they may register for the course.

The Certificate in Entrepreneurial Management requires the following coursework.

Entrepreneurship Core

To begin work on the certificate, students should first enroll in ENTR:2000 Entrepreneurship and Innovation or its equivalent; for non-business and non-engineering students, ENTR:1350 Foundations in Entrepreneurship must be taken prior to or concurrently with ENTR:2000.

Course #	Title	Hours
This course:		
ENTR:2000	Entrepreneurship and Innovation	3
All of these:		
ENTR:3100	Entrepreneurial Finance	3
ENTR:3200	Entrepreneurial Marketing	3
ENTR:4400	Managing the Growth Business	3

Electives

Students must complete an additional 6 s.h. in elective courses from the following lists. Students are not guaranteed specific elective options, however, there are many options that can tie closely to students' career interests. They may also simply choose 6 s.h. from the courses to complete the certificate. Some courses may be subject to prerequisites or restricted to students who have declared a second major within the respective department. Students who wish to use a course not on these lists must consult with the director of undergraduate studies for entrepreneurship in the Department of Management and Entrepreneurship.

Recommended course options for specialty areas include the following.

Social Entrepreneurship

Course #	Title	Hours
This course:		
ENTR:3500	Social Entrepreneurship	3
And one of these:		
ENTR:4100	International Entrepreneurship, Culture, and Social Impact	1-3
ENTR:4900	Academic Internship (must be a social entrepreneurship internship)	arr.

Technology Entrepreneurship

Course #	Title	Hours
These:		
ENTR:3400	Strategic Management of Technology and Innovation	3
ENTR:4900	Academic Internship (must be a technology internship)	arr.
Or these:		
ENTR:3550	Commercializing New Technology I	3
ENTR:3575	Commercializing New Technology II	3

International Entrepreneurship

Course #	Title	Hours
This course:		
ENTR:4460	Entrepreneurship and Global Trade	3
And one of these:		
ENTR:4100	International Entrepreneurship, Culture, and Social Impact	1-3
ENTR:4200	Entrepreneurship: Business Consulting	3
ENTR:4900	Academic Internship (must be an international entrepreneurship internship)	arr.

General Entrepreneurship

Course #	Title	Hours
ENTR:1800	Innovation in Action: Sustainability	0-1
ENTR:2800	Entrepreneurial Experience	1-3
ENTR:3000	Practicum in Entrepreneurship	1-3
ENTR:3400	Strategic Management of Technology and Innovation	3
ENTR:3500	Social Entrepreneurship	3
ENTR:3550	Commercializing New Technology I	3
ENTR:3575	Commercializing New Technology II	3

ENTR:3595	Nonprofit Organizational Effectiveness I	3
ENTR:3600	Social Media Strategies for Entrepreneurial Ventures	3
ENTR:3700	Sustainable Innovation and Management	3
ENTR:3800	Entrepreneurial Leadership Academy I	3
ENTR:3850	Entrepreneurial Leadership Academy II	3
ENTR:4000	Topics in Entrepreneurship	1-3
ENTR:4050	Directed Readings in Entrepreneurship	arr.
ENTR:4100	International Entrepreneurship, Culture, and Social Impact	1-3
ENTR:4200	Entrepreneurship: Business Consulting	3
ENTR:4300	Launching an Entrepreneurial Venture	arr.
ENTR:4460	Entrepreneurship and Global Trade	3
ENTR:4510	Arts Leadership Seminar	3
ENTR:4900	Academic Internship	arr.
ENTR:4999	Honors Thesis in Entrepreneurial Studies	arr.
MGMT:4100	Dynamics of Negotiations	3

Doctor of Philosophy

Graduate students in management and entrepreneurship may earn a Doctor of Philosophy in business administration. For a description of the PhD program and requirements, see the PhD in business administration [p. 1179] in the catalog and visit the Department of Management and Entrepreneurship website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Learning Outcomes

- To demonstrate proficiency and knowledge in the specialization discipline, students will demonstrate expertise in reading and interpreting academic research articles in their specialized discipline. They will be knowledgeable in the major theoretical perspectives and prior research findings in their area and be able to integrate prior research from various streams of literature.
- To demonstrate the ability to conduct independent, original research that leads to publications, students will be able to identify important research questions, provide theory-based reasoning to develop original hypotheses, execute an appropriate research design, and summarize their efforts in a working paper. This includes being able to read and summarize existing research into their paper and understanding the prior literature in a variety of substantive areas, paradigms, and methodologies.
- To be effective teachers in their disciplines, students will demonstrate proficiency as instructors in courses in their specialized discipline. This includes preparing course syllabi, giving lectures, writing assignments and exams, and evaluating students on the various deliverables.
- To demonstrate effective communication skills, students will be effective at communicating ideas in academic writing and how these ideas relate to each other within the context of an academic paper. This includes the ability to establish a position, show why that position matters, and situate that position within a context that is determined by the appropriate audience. International students will demonstrate the ability to effectively lecture and communicate in English.

Marketing

Interim Chair

- Catherine A. Cole

Undergraduate major: marketing (BBA)

Graduate degree: marketing subprogram for the PhD in business administration

Faculty: https://tippie.uiowa.edu/people?keywords=&departments=176&category=All

Website: https://tippie.uiowa.edu/about/marketing-department

The study of marketing concerns itself with all activities related to the marketing and distribution of goods and services, from producers to consumers. The goal of the department is to make strong contributions to marketing practice and marketing theory with innovative teaching, cutting-edge research, and active community outreach. The marketing curriculum provides a broad foundation in marketing concepts along with opportunities to specialize in areas of vocational interests. The department utilizes multiple teaching methods, including experiential learning, research experiences, case analyses, and online and face-to-face classroom training to prepare students to solve a variety of marketing problems that arise in our increasingly complex global economy.

The Department of Marketing offers the undergraduate major in marketing with five possible concentrations and the subprogram in marketing that leads to the PhD in business administration. Additionally, the department participates in the MBA program; see Master of Business Administration Program [p. 1272] in the catalog.

Related Certificate

Event Management

The Department of Marketing (Tippie College of Business), the departments of Communication Studies and Health, Sport, and Human Physiology, and the School of Journalism and Mass Communication (College of Liberal Arts and Sciences) collaborate to offer the undergraduate Certificate in Event Management. Students who earn the certificate will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event management and careers in the event management industry. For information about the certificate, see the Certificate in Event Management [p. 466] in the catalog.

Programs

Undergraduate Program of Study

Major

- Major in Marketing (Bachelor of Business Administration) [p. 1265]

Graduate Program of Study

- Marketing subprogram for the Doctor of Philosophy [p. 1271] in Business Administration

Courses

Marketing Courses

MKTG:1300 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

MKTG:3000 Introduction to Marketing Strategy **3 s.h.**
Philosophy and activities of marketing; marketing environment of an organization; strategies with respect to marketing decisions, buyer behavior; spreadsheet analysis of marketing problems.

MKTG:3050 Professional Preparation in Marketing **1 s.h.**
Overview of alternative marketing careers; required skills and personal characteristics that drives success in these fields; hard and soft skills required in major types of marketing careers; development of a professional brand identity and strategy to find marketing internships and permanent employment opportunities; marketing's relationship to other business and organizational functions and to external environment. Corequisites: MKTG:3000.

MKTG:3055 Career Preparation for Marketing **1 s.h.**
Finding and successfully competing for career opportunities in marketing; online exercises, interactions with executives, and participation in a national organization representing professionals. Prerequisites: MKTG:3000 and MKTG:3050 and (MKTG:3100 or MKTG:3200). Requirements: 90 s.h. completed.

MKTG:3100 Marketing Research **3 s.h.**
Marketing, research methods; role of marketing research information as a tool in management decision-making. Prerequisites: MKTG:3000 and (BAIS:2800 or STAT:2020 with a minimum grade of B or ECON:4800 or STAT:4101).

MKTG:3101 Marketing Metrics **3 s.h.**
Identifying and measuring key metrics that are the focus for marketing plans and the backbone for evaluating marketing performance (e.g., penetration, share of requirements, customer satisfaction, churn rates, click-through rates, and customer lifetime value); relationship between conceptual models of business-to-business and business-to-consumer behaviors and the selection of appropriate metrics; emphasis on use of metrics as basic inputs for goal setting, marketing decision-making, and evaluation. Prerequisites: MKTG:3000 and MKTG:3100.

MKTG:3102 Marketing Analytics **3 s.h.**
Marketing science models used in strategic and tactical marketing decisions; application of consumer behavior in the development of quantitative models that inform marketing mix decisions (advertising, pricing, and salesforce effort), new product development, product line management, and category management; topics may include product mapping, latent class (segmentation) analysis, conjoint analysis, choice modeling (binary and multinomial logic), diffusion models (word-of-mouth), decision-calculus ("models and manager" technology), churn analysis and web analytics. Prerequisites: MKTG:3000 and MKTG:3100.

MKTG:3103 Advanced Marketing Research **3 s.h.**
Traditional and nontraditional research techniques to address business problems that have a relationship to basic research; primary focus on hands-on experience and peer-based learning. Prerequisites: MKTG:3000 and MKTG:3100.

MKTG:3104 Sports Marketing 3 s.h.
Overview of the strategies and analytical tools used to meet the needs of fans and improve marketing decisions in the sports industry. Topics addressed include understanding the sports consumer, fan segmentation strategies, the role of marketing research and analytics in understanding fan needs, the use of database marketing in reaching fans, managing sports brands, promotion and sponsorship in sports, and ticket sales and pricing strategies. Analytics skills discussed include data collection and aggregation, data visualization, and basic modeling techniques such as regression and clustering. Prerequisites: MKTG:3000 and MKTG:3100.

MKTG:3200 Consumer Behavior 3 s.h.
Behavioral and social aspects of marketing; research methods and findings from behavioral sciences, their relation to production, consumption, and marketing of products, services. Prerequisites: MKTG:3000.

MKTG:3300 Web Business Strategy 3 s.h.
Introduction to World Wide Web business and marketing; concepts, methods, and applications associated with doing business on the web; web page construction and design; case studies and/or entrepreneurial projects. Prerequisites: MKTG:3000.

MKTG:3400 Retail Strategies 3 s.h.
Strategies for retail site selection, store design, supply chain management, customer relationship management/ customer service; merchandising management strategies for planning merchandise assortments, buying systems, buying merchandise, pricing, promotion. Prerequisites: MKTG:3000.

MKTG:3401 Merchandise Management 3 s.h.
Merchandise and service mix strategies for alternative retail concepts, including various store and online formats; topics include national brands versus private label, multi-channel distribution, logistics, replenishment strategies, pricing, promotion, product assortment, store layout, and point-of-sale and in-store merchandising. Prerequisites: MKTG:3000.

MKTG:3600 Product and Pricing 3 s.h.
Create and capture value through product and service design, including stage-gate evaluation models; implementation of pricing strategy for new products and existing product lines. Prerequisites: MKTG:3000.

MKTG:3605 Strategic Brand Positioning 3 s.h.
Strategic decisions, research processes, and tactics managers undertake to create effective brand strategies; students examine how to conduct strategic analyses of customers, competitors, and the company to identify attractive markets and sustainable competitive positions; sustainable competitive positions serve as the foundation for subsequent discussions regarding brand naming, identity, architecture, equity, and audits. Prerequisites: MKTG:3000.

MKTG:3700 Marketing Institute Seminar I 2 s.h.
Soft skills and professional expertise to succeed in marketing and consulting careers; résumé and interview training, industry presentations, business case assignments, lectures. Prerequisites: MKTG:3000. Requirements: admission to the Marketing Institute.

MKTG:3701 Marketing Institute Field Studies 2 s.h.
Plan, design, carry out, and report on a marketing research project for a profit or nonprofit client organization; communicate with managers, apply knowledge of marketing research, meet deadlines, and convert research findings into actionable recommendations for management. Prerequisites: MKTG:3000 and MKTG:3700. Requirements: admission to the Marketing Institute.

MKTG:3702 Marketing Institute Seminar II 2 s.h.
Development of soft skills and professional expertise to succeed in marketing and consulting careers; résumé and interview training, industry presentations, business case assignments, lectures; mentor students in marketing institute seminar. Prerequisites: MKTG:3000 and MKTG:3700 and MKTG:3701. Requirements: admission to the Marketing Institute.

MKTG:4000 Contemporary Topics in Marketing 3 s.h.
Topics not regularly offered in other courses. Prerequisites: MKTG:3000.

MKTG:4050 Directed Readings in Marketing arr.

MKTG:4101 Integrated Marketing Communications 3 s.h.
Making marketing communication decisions and understanding how marketing communications work; planning and evaluation of marketing communications; theories, models, and tools to make better marketing communication decisions; course uses an Integrated Marketing Communications perspective, which involves understanding the role of the different promotional mix elements and coordinating them to develop effective marketing communication programs. Prerequisites: MKTG:3000.

MKTG:4200 Sales Management 3 s.h.
Personal selling, management of sales force; emphasis on recruitment, selection, training of sales representatives; problems in allocation of sales effort, supervision, control. Prerequisites: MKTG:3000.

MKTG:4201 Professional Selling 3 s.h.
Personal selling function in overall business strategy and professional selling process that underlies successful sales careers; emphasis on hands-on experiences in developing practical skills in sales strategy, analytics, and communications skills; students develop and make sales presentations, engage in role-playing exercises, and complete applied selling exercises as individuals or in sales teams; focus is on professional selling in a business environment, but students will also apply course concepts in other interpersonal business communications settings. Prerequisites: MKTG:3000.

MKTG:4250 Marketing and Sustainability 3 s.h.
Concepts for developing and implementing sustainable marketing strategies; developing more environmentally friendly products, more sustainable logistical systems, socially responsible pricing, and promoting sustainable products in a socially responsible way. Prerequisites: MKTG:3000.

MKTG:4300 International Marketing 3 s.h.
Differences in global environment: how cultural considerations, political, legal, and economic conditions affect market entry strategies and marketing mix decisions; development of marketing plan for non-U.S. environments. Prerequisites: MKTG:3000.

MKTG:4400 Digital Marketing 3 s.h.
Foundational understanding of digital marketing and how successful (and unsuccessful) marketing campaigns use online and mobile platforms; fundamentals of digital marketing including internet marketing strategies, user-generated content, search engine optimization, website design and management, inbound marketing, email marketing, social media marketing, and data analytics. Prerequisites: MKTG:3000.

MKTG:4405 Marketing Sales and Promotion 3 s.h.
While there will always be some need for selling, the aim of marketing is to know the customer so well that a product or service sells itself—marketing done well should result in customers ready to buy; starting with the customer and working backwards, students gain insight into common customer pain points, and how companies improve customer experience and produce what customers will purchase; use of case studies to analyze real-world marketing problems; discussion of strategies and tactics to increase sales and compete successfully in today's challenging business environment. Prerequisites: MKTG:3000.

MKTG:4410 Customer Relationship Management 3 s.h.
Analytical approaches to customer relationship management; issues, techniques, and terminology associated with database marketing and data mining; analysis of customer databases; assessing lifetime valuation (LTV) of customers, identifying "high potential" customers, estimating return on marketing investment, and building predictive models to estimate the probability of response to a marketing campaign. Prerequisites: MKTG:3000.

MKTG:4500 Marketing Capstone 3 s.h.
Marketing problems of organizations; emphasis on marketing manager's role in developing, presenting goal-oriented marketing strategies; application of marketing concepts to real business situations. Prerequisites: MKTG:3000 and MKTG:3050 and MKTG:3100 and MKTG:3200 and (MKTG:3101 or MKTG:3102 or MKTG:3103 or MKTG:3104 or MKTG:3300 or MKTG:3400 or MKTG:3401 or MKTG:3600 or MKTG:3605 or MKTG:3701 or MKTG:4000 or MKTG:4101 or MKTG:4200 or MKTG:4201 or MKTG:4250 or MKTG:4300 or MKTG:4400 or MKTG:4405 or MKTG:4410 or MKTG:4800). Requirements: completion of 90 s.h.

MKTG:4800 Marketing Consulting Project 3 s.h.
Experience in planning, designing, carrying out, reporting on a marketing research project for a profit or nonprofit client organization; communication with managers, application of marketing research, meeting deadlines, converting research findings into action recommendations for management. Prerequisites: MKTG:3000 and MKTG:3100.

MKTG:4999 Honors Thesis in Marketing arr.
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: BUS:1999.

MKTG:7800 Seminar in Consumer Behavior - PhD 3 s.h.
Key facets of consumer behavior: information processing, perception, memory, learning, attitude formation, attitude change, decision-making, and emotion; behavioral research methods.

MKTG:7825 Problems and Solutions in Behavioral Research 3 s.h.
Cultivation of PhD students' ability to be independent scholars with regard to theory building, testing, and assessing contributions; heavy focus on theory development and construction of nomological nets with an emphasis on behavioral research.

MKTG:7850 Seminar in Marketing Models - PhD 3 s.h.
Theoretical, operational models in marketing, with emphasis on recent advances; in-depth criticism of models, participation in model development project.

MKTG:7950 Directed Readings in Marketing - PhD arr.

MKTG:7975 Thesis in Marketing arr.

MKTG:9000 Directed Readings in Marketing arr.

MKTG:9010 Contemporary Topics in Marketing 1-3 s.h.
Topics not regularly offered in other courses. Prerequisites: MBA:8110.

MKTG:9015 Social Media Marketing 3 s.h.
Fundamentals of social media marketing; establishing clear organizational goals for engaging in social media to market a product or service, developing solid strategies for implementation, and determining other key campaign logistics. Prerequisites: MBA:8110.

MKTG:9120 Customer Relationship Management 3 s.h.
Analytical approaches to customer relationship management; issues, techniques and terminology associated with database marketing and data mining; analysis of customer databases; assessing lifetime valuation (LTV) of customers, identifying "high potential" customers, estimating return on marketing investment, building predictive models to estimate the probability of response to a marketing campaign. Prerequisites: MBA:8110.

MKTG:9155 Digital Marketing Insights, Strategies, and Applications 3 s.h.
Introduction and examination of foundational, strategic and operational concepts of digital marketing through a combination of interactive lectures, case discussion, and project work; materials taught from a business-to-business (B2B) and business-to-consumer (B2C) perspective and considers marketplace dynamics, emerging technology, consumer insights, and data driven digital channels that inform a corporate vision for digital, a go-to-market strategy, and executional roadmap; introduction and knowledge advancement of tools and levers of digital marketing, followed by application to real world scenarios. Prerequisites: MBA:8110.

MKTG:9165 Digital Marketing Analytics 3 s.h.
Comprehensive introduction to current analytic tools and technologies used in digital marketing; hands-on analyses with JMP, a state-of-the-art visually stunning data analysis software; strategic applications of marketing analytics to data from B2C and B2B cases. Prerequisites: (MBA:8150 or BAIS:9100) and MBA:8110.

MKTG:9170 Business to Business Marketing 3 s.h.
Industrial buyer behavior, buyer-seller relationships, interactive product policy and market segmentation, distribution and selling systems; skill development in market strategy formulation for industrial products and services, and in solving problems and making decisions about industrial marketing. Prerequisites: MBA:8110.

MKTG:9190 International Marketing 3 s.h.
Domestic versus international perspective; identification and evaluation of opportunities and risks in non-U.S. markets; research problems in global markets; effects of international organizations, foreign exchange, macroeconomic policies, local law, and cultural differences on consumer behavior and marketing decisions; multinational versus global marketing strategies (entry, product adaptation, channel logistics, pricing, promotion); emphasis on practical applications. Prerequisites: MBA:8110.

MKTG:9310 Marketing Analytics 2-3 s.h.
Quantitative tools to support marketing planning decisions, including forecasting, elasticity analysis, conjoint analysis, and customer LTV; analysis of syndicated data. Prerequisites: BAIS:9100 or MBA:8150.

MKTG:9320 Strategic Brand Positioning 2-3 s.h.
Define market boundaries; use customer and competitor analyses to create sustainable market positions; create and manage brand identities; brand architecture, brand equity measurement. Prerequisites: MBA:8110.

MKTG:9330 Product and Portfolio Strategy 2-3 s.h.
Why product strategy serves as the foundation for business success; effective product development and growth strategies from product ideation to product retirement. Gain insights into managing product portfolios in both business-to-business and business-to-consumer markets, building tools to drive innovation and sustained performance. Prerequisites: MBA:8110.

MKTG:9340 Customer Analysis 2-3 s.h.
Use customer insights to support successful marketing programs; organizational, individual, and joint decision-making; post sale satisfaction behaviors. Prerequisites: MBA:8110.

MKTG:9350 Marketing Communication and Promotions 2-3 s.h.
Develop effective communication programs for business and consumer markets; manage agency relationships; integrate media/vehicle platforms; track and evaluate investments in communications and promotions. Prerequisites: MBA:8110.

MKTG:9370 Customer Experience 3 s.h.
Fundamentals of customer experience (CX) management leveraging principles of behavioral science and design thinking; value creation through journey mapping; experience prototyping; creating a customer-centric culture; CX technology and trends, including AI, AR/VR, IoT, and personalization; multisensory product and service design; measuring and evaluating CX initiatives. Prerequisites: MBA:8110.

Marketing, BBA

Several decades ago, the study of marketing dealt almost exclusively with business activities involved in the flow of goods from production to consumption. Today it includes principles that are more widely applicable; they are as relevant to the success of arts, sports, and social programs as they are to firms selling goods and services. A major in marketing includes study in the behavioral sciences, communications, statistical analysis, and computer methods as well as marketing decision-making.

Common BBA Requirements

The Bachelor of Business Administration (BBA) requires a minimum of 120 s.h. of credit, including at least 48 s.h. earned in business courses and at least 52 s.h. earned in non-business courses.

BBA students must earn 45 s.h. at the University of Iowa following admission to the BBA program. At least 24 s.h. in business courses must be earned with Tippie College of Business coursework. At least two-thirds of the semester hours in a student's major must be earned in the student's major department at the Tippie College of Business. Nonresident instruction includes coursework at colleges and universities other than the University of Iowa.

To graduate, BBA students must have a cumulative grade-point average of at least 2.00 in all college-level coursework attempted, all college-level business coursework attempted, all college-level major coursework attempted, all college-level coursework attempted at the University of Iowa, all college-level business coursework attempted at the University of Iowa, and all college-level major coursework attempted at the University of Iowa.

Common BBA Requirements

BBA students must fulfill the following common requirements or approved equivalents. For approved equivalents, consult the college's Undergraduate Program Office.

General Education

Students may not count courses taken to fulfill General Education Program requirements toward other course requirements for the BBA.

Course #	Title	Hours
Historical Perspectives		3
International and Global Issues		3
Interpretation of Literature		3
Natural Sciences (without lab)		3
Rhetoric		4
Social Sciences (excluding ECON:1100 and ECON:1200)		3
Understanding Cultural Perspectives		3
Values and Society		3
World Languages		0-10

World Languages

Tippie College of Business students may complete the World Languages requirement using one of three options. One year of high school language study is generally equivalent to one semester of college language study.

Option One

Attain fourth level proficiency in a single world language. Students attain fourth level proficiency in a single world language by completing four years of that language in high school or four semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at fourth level proficiency.

Option Two

Attain third level proficiency in a single world language and complete a World Language and Cultural Exploration course. Students attain third-level proficiency in a single world language by completing three years of that language in high school or three semesters in college, or an equivalent combination of high school and college coursework, or pass an achievement test or evaluation at third-level proficiency. Option two does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Option Three

Attain second level proficiency in each of two world languages. Students attain second level proficiency in each of two world languages by completing two years of each language in high school or two semesters of each language in college, or an equivalent combination of high school and college coursework, or pass achievement tests and/or evaluations at second-level proficiency in each language. Option three does not qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Prerequisites for Admission to the BBA Program

Course #	Title	Hours
BAIS:1500	Business Computing Essentials	2
ECON:1100	Principles of Microeconomics	4
MATH:1350	Quantitative Reasoning for Business	4
RHET:1030	Rhetoric: Writing and Communication	4
STAT:1030	Statistics for Business	4

Prerequisites for Declaring a BBA Major

Course #	Title	Hours
ACCT:2100	Introduction to Financial Accounting	3
ECON:1200	Principles of Macroeconomics	4

BBA Core

Course #	Title	Hours
ACCT:2200	Managerial Accounting Analytics and Data Visualization	3
BAIS:2800	Foundations of Business Analytics	3
BAIS:3000	Operations Management	2
BAIS:3005	Information Systems	2
BUS:2200	Discover Business at Tippie	1
BUS:3000	Business Communication and Professionalism	3

FIN:3000	Introductory Financial Management	3

MGMT:2100	Introduction to Management	3
MKTG:3000	Introduction to Marketing Strategy	3

Experiential Learning Requirement: Tippie RISE

RISE is an acronym for hands-on experiential learning in the form of research with faculty, internship course, study abroad, and experiential course. All BBA students in the Tippie College of Business students must successfully complete at least one of these four experiences. Courses that satisfy Tippie RISE are as follows.

Research With Faculty

Working closely with a faculty mentor, students explore a research question of interest for a semester or more. By conducting academic research, students enhance their critical thinking skills, learn techniques to collect and analyze data, and apply their findings to business practices. These skills are highly useful for a variety of businesses and graduate programs.

Course #	Title	Hours

Internship Course

As students gain valuable hands-on work experience in a professional internship, they complete one of the approved internship courses to assist them in having a meaningful learning experience. The internship courses encourage students to take on relevant job responsibilities, outline strategies to meet internship goals, regularly communicate with their supervisors, explore the career field, and reflect on their growth throughout the experience.

Course #	Title	Hours
BUS:3100	Academic Internship or Cooperative Education	0
BUS:3900	Business Communication Internship I	3
BUS:4900	Academic Internship	arr.

LS:3011	Leadership Certificate Capstone	0-2
SRM:4199	Independent Sport and Recreation Field Experience	arr.

Study Abroad

By taking advantage of short-term, summer, semester, or academic year programs, students can expand their worldview and learn alternative business and cultural practices outside of the United States. Students can participate in Tippie RISE study abroad programs such as London Winter, International Business in Sydney, CIMBA Italy, Global Internships, spring break programs through the John Pappajohn Entrepreneurial Center, or any of the many UI study abroad programs in over 40 countries. Any study abroad program is accepted for credit, including virtual programs, short-term faculty-led programs, and summer, semester, or year-long programs. These courses may be study abroad courses (prefix ABRD) or select study abroad international activities courses (prefix INTL) but are not required to be; see Study Abroad [p. 2215] in the catalog.

Experiential Course

In approved experiential courses, students improve their understanding of academic concepts by applying them to a class project with a company or nonprofit organization. Using real circumstances and issues, students engage with the organization to make a lasting impact. Students have support from classmates and guidance from their instructor throughout the duration of the project. Experiential courses are offered in many BBA majors and as business and non-business electives. Courses must be taken at the University of Iowa to satisfy Tippie RISE.

Major Area of Study

All BBA students must complete a major area of study. The college offers BBA majors in accounting [p. 1140], business analytics and information systems [p. 1158], economics [p. 1185], entrepreneurship, finance [p. 1208], management [p. 1236], marketing [p. 1261], and risk management and insurance [p. 1219]. The requirements for each major are established by the department that offers the major.

Students With Associate of Arts Degrees

Students who have been granted an Associate of Arts (AA) from a community college participating in the Iowa and Illinois Community College/Regents Articulation Agreements are considered to have met all high school unit requirements for admission to the BBA and all of the General Education Program requirements listed under "General Education Requirements," except the Understanding Cultural Perspectives and World Languages requirements. The program of study for which a student was awarded the AA must have included:

- a minimum of 60 s.h. (or 90 quarter hours) of credit acceptable toward graduation from the University of Iowa;
- completion of the agreed-upon group of courses at the community college; and
- a GPA of at least 2.00.

Mathematics courses comparable to MATH:0100 Basic Algebra I are not accepted toward graduation. Completion of an Associate of Arts does not guarantee admission to the BBA program in the Tippie College of Business. See Admission in Undergraduate Programs [p. 1132] for a complete list of requirements for admission to the BBA.

Students who use the provisions of the articulation agreement are granted a maximum of 60 s.h. of transferable credit from two-year colleges toward the 120 s.h. required for a BBA. Credit earned for the AA beyond the 60 s.h. transferable maximum is used in computing a student's grade-point average, and it may be used to satisfy course requirements, but it does not count toward the BBA. Transfer credit for business courses taken during the first and second years is counted toward the BBA only if such courses are usually offered as lower-division courses at the University of Iowa.

Transfer Courses

Students who have taken courses at another institution that are similar to those approved for the common business requirements at Iowa may request that these courses be evaluated for transfer credit. Students who transfer fewer hours than needed to meet a common business requirement may use only approved courses to complete the remainder of the requirement. Only courses taken at accredited four-year institutions may be used to satisfy business course requirements numbered 3000 or above. Students must complete a minimum of 24 s.h. of business coursework at Iowa and at least two-thirds of the coursework in the major in the department awarding the major. They must also meet the 45 s.h. residence requirement of the Tippie College of Business. Credit earned through online courses may be counted toward all requirements for graduation, subject to approval by a student's major department.

Multiple Majors in Business

Students may earn the BBA degree with more than one major; they may also combine the BBA degree with the Bachelor of Arts or Bachelor of Science in economics (except for the BBA in economics). The Four-Year Graduation Plan is not available to students earning more than one major or degree. Students have access to degree audits in MyUI for all of the programs of study they have officially declared. They also have access to all program courses, with some limitations, during early registration. A student must be in good academic standing in order to declare more than one major. See Double Majors and Joint Degrees on the Tippie College of Business website.

Requirements

The Bachelor of Business Administration with a major in marketing requires a minimum of 120 s.h., including 22 s.h. of work for the major. Students must have a cumulative grade-point average of at least 2.00 in all college coursework attempted, all college coursework attempted in business, all college coursework attempted in the major, all coursework attempted at the University of Iowa, all business coursework attempted at the University of Iowa, and all coursework in the major attempted at the University of Iowa.

The program is designed to provide undergraduate students with an understanding of the business, social, and economic roles of marketing and to prepare them for marketing careers.

The BBA with a major in marketing requires the following coursework.

Requirements	Hours
Marketing Common Required Courses	10
Marketing Elective Courses	12

Marketing Common Required Courses

Course #	Title	Hours
All of these:		
MKTG:3050	Professional Preparation in Marketing	1
MKTG:3100	Marketing Research	3
MKTG:3200	Consumer Behavior	3
MKTG:4500	Marketing Capstone (must be taken at the University of Iowa)	3

Marketing Elective Courses

Students are not guaranteed specific elective options. The availability of courses may be subject to prerequisites or restrictions; students must complete all of a course's prerequisites before they may register for the course.

Course #	Title	Hours
12 s.h. from these:		
MKTG:3101	Marketing Metrics	3
MKTG:3102	Marketing Analytics	3
MKTG:3103	Advanced Marketing Research	3
MKTG:3104	Sports Marketing	3
MKTG:3300	Web Business Strategy	3
MKTG:3400	Retail Strategies	3
MKTG:3401	Merchandise Management	3
MKTG:3600	Product and Pricing	3
MKTG:3605	Strategic Brand Positioning	3
MKTG:4000	Contemporary Topics in Marketing	3
MKTG:4101	Integrated Marketing Communications	3
MKTG:4200	Sales Management	3
MKTG:4201	Professional Selling	3
MKTG:4250	Marketing and Sustainability	3
MKTG:4300	International Marketing	3
MKTG:4400	Digital Marketing	3
MKTG:4405	Marketing Sales and Promotion	3
MKTG:4410	Customer Relationship Management	3
MKTG:4800	Marketing Consulting Project	3
Marketing Institute students may count the following courses if all are taken:		
MKTG:3700	Marketing Institute Seminar I	2
MKTG:3701	Marketing Institute Field Studies	2
MKTG:3702	Marketing Institute Seminar II	2

Marketing Concentrations

Students may focus the major by selecting concentration courses to fulfill the electives requirement. Suggested elective courses for each optional concentration are listed as follows.

Marketing Communication and Strategy

Course #	Title	Hours
Both of these:		
MKTG:4101	Integrated Marketing Communications	3
MKTG:4400	Digital Marketing	3
Two of these:		
MKTG:3101	Marketing Metrics	3
MKTG:3300	Web Business Strategy	3
MKTG:3605	Strategic Brand Positioning	3
MKTG:4250	Marketing and Sustainability	3
MKTG:4405	Marketing Sales and Promotion	3

Marketing Research and Analytics

Course #	Title	Hours
Both of these:		
MKTG:3101	Marketing Metrics	3
MKTG:3102	Marketing Analytics	3
Two of these:		
MKTG:3103	Advanced Marketing Research	3
MKTG:3104	Sports Marketing	3
MKTG:3600	Product and Pricing	3
MKTG:4400	Digital Marketing	3
MKTG:4410	Customer Relationship Management	3

Product and Brand Management

Course #	Title	Hours
Both of these:		
MKTG:3600	Product and Pricing	3
MKTG:3605	Strategic Brand Positioning	3
Two of these:		
MKTG:3101	Marketing Metrics	3
MKTG:3102	Marketing Analytics	3
MKTG:4101	Integrated Marketing Communications	3
MKTG:4250	Marketing and Sustainability	3
MKTG:4300	International Marketing	3
MKTG:4400	Digital Marketing	3
MKTG:4405	Marketing Sales and Promotion	3

Professional Sales Management

Course #	Title	Hours
Both of these:		
MKTG:4200	Sales Management	3
MKTG:4201	Professional Selling	3
Two of these:		
MKTG:3101	Marketing Metrics	3
MKTG:3400	Retail Strategies	3
MKTG:4410	Customer Relationship Management	3

Retailing and E-Commerce

Course #	Title	Hours
Both of these:		
MKTG:3400	Retail Strategies	3
MKTG:3401	Merchandise Management	3
Two of these:		
MKTG:3101	Marketing Metrics	3
MKTG:3102	Marketing Analytics	3
MKTG:3103	Advanced Marketing Research	3
MKTG:3300	Web Business Strategy	3
MKTG:4101	Integrated Marketing Communications	3
MKTG:4250	Marketing and Sustainability	3
MKTG:4300	International Marketing	3
MKTG:4405	Marketing Sales and Promotion	3
MKTG:4410	Customer Relationship Management	3

Marketing Institute

Marketing institute students can pursue any of the above concentrations by completing the two foundational concentration courses (6 s.h.) plus the following marketing institute requirements (6 s.h.).

Course #	Title	Hours
All of these:		
MKTG:3700	Marketing Institute Seminar I	2
MKTG:3701	Marketing Institute Field Studies	2
MKTG:3702	Marketing Institute Seminar II	2

Career Advancement

The Bachelor of Business Administration (BBA) program in marketing prepares students for positions in sales, market research, retailing, purchasing, or advertising. Employment opportunities exist for positions as market analysts, merchandise managers, buyers, purchasing agents, advertising managers, brand managers, consultants, and sales representatives in a variety of for-profit and nonprofit organizations.

Over 90% of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs. For more information about careers, visit the Pomerantz Career Center website.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Marketing, BBA

Course	Title	Hours
Academic Career		
Any Semester		
Students are required to complete 52 s.h. of non-business coursework. Courses with a prefix of ACCT, BAIS, BUS, ECON, ENTR, FIN, MGMT, and MKTG will not count towards non-business hours. Check degree audit for non-business hours or confer with academic advisor.		
Students who need to complete the World Language requirement should consult with their academic advisor about when to add courses to plan of study. World Language counts as non-business coursework.		
To fulfill the Tippie RISE experiential learning requirement, complete an approved course in at least one of the following categories: research with faculty, internship course, study abroad, experiential course. [a]		0 - 3
Students must satisfy the Tippie College of Business residence requirement: 45 s.h. of UI coursework after admission to Tippie.

a See degree audit for course options.
b Complete BUS:2200 by the end of the second year, before enrolling in MKTG:3050.
c Enrollment in math courses requires completion of a placement exam.
d GE courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
e Must be admitted to Tippie to enroll in BUS:3000. Generally completed during the second year, but should be taken no later than the third year.
f BAIS:2800 and MKTG:3000 are required prerequisite courses.
g Select from list of approved courses in the General Catalog or on degree audit.
h Must be taken at the University of Iowa.
i MKTG:3000, MKTG:3050, MKTG:3100, MKTG:3200, and one additional MKTG course numbered above 3100 are required prerequisite courses.
j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Doctor of Philosophy

Graduate students in marketing may earn a Doctor of Philosophy in business administration. For a description of the PhD program and requirements, see the PhD in business administration [p. 1179] in the catalog and visit the Department of Marketing website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Learning Outcomes

- To demonstrate proficiency and knowledge in the specialization discipline, students will demonstrate expertise in reading and interpreting academic research articles in their specialized discipline. They will be knowledgeable in the major theoretical perspectives and prior research findings in their area and be able to integrate prior research from various streams of literature.
- To demonstrate the ability to conduct independent, original research that leads to publications, students will be able to identify important research questions, provide theory-based reasoning to develop original hypotheses, execute an appropriate research design, and summarize their efforts in a working paper. This includes being able to read and summarize existing research into their paper and understanding the prior literature in a variety of substantive areas, paradigms, and methodologies.
- To be effective teachers in their disciplines, students will demonstrate proficiency as instructors in courses in their specialized discipline. This includes preparing course syllabi, giving lectures, writing assignments and exams, and evaluating students on the various deliverables.
- To demonstrate effective communication skills, students will be effective at communicating ideas in academic writing and how these ideas relate to each other within the context of an academic paper. This includes the ability to establish a position, show why that position matters, and situate that position within a context that is determined by the appropriate audience. International students will demonstrate the ability to effectively lecture and communicate in English.

Master of Business Administration Program

Associate Dean, Tippie Professional Programs

- Erin Nelson

Assistant Deans

- Jill J. Tomkins

Professional degree: MBA

Professional certificates: artificial intelligence and technology management; business communication; business fundamentals; corporate finance; finance; financial decision-making; innovation; investment management; leadership; marketing; responsible resource management; risk management and insurance; strategy

Faculty: https://tippie.uiowa.edu/people

Website: https://tippie.uiowa.edu/iowa-mba

The Master of Business Administration (MBA) program provides students with a foundation for future growth and flexibility in professional management. The program, which is fully accredited by AACSB International—the Association to Advance Collegiate Schools of Business, enables students to build broad-based professional portfolios of analytical skills, knowledge, leadership, and applied experiences. The curriculum is rigorous, yet learning takes place in a collaborative environment that builds teamwork skills and encourages independent problem-solving.

Students in Iowa's MBA program represent a variety of backgrounds, undergraduate majors, and professional experience. The curriculum is designed for college graduates in any field; previous business coursework is not required. However, full-time work experience is required for admission.

The departments of Accounting, Business Analytics, Economics, Finance, Management and Entrepreneurship, and Marketing all contribute to the Master of Business Administration program through faculty participation and coursework.

Programs

Professional Programs of Study

- Master of Business Administration [p. 1274]
- Certificate in Artificial Intelligence and Technology Management [p. 1278]
- Certificate in Business Communication [p. 1279]
- Certificate in Business Fundamentals [p. 1280]
- Certificate in Corporate Finance [p. 1281]
- Certificate in Finance [p. 1282]
- Certificate in Financial Decision-Making [p. 1283]
- Certificate in Innovation [p. 1284]
- Certificate in Investment Management [p. 1285]
- Certificate in Leadership [p. 1286]
- Certificate in Marketing [p. 1287]
- Certificate in Responsible Resource Management [p. 1288]
- Certificate in Risk Management and Insurance [p. 1289]
- Certificate in Strategy [p. 1290]

Courses

The following courses are offered by Tippie Professional Programs. See each program of study page for required and elective courses.

Tippie Professional Programs (MBA Program)

MBA:8110 Marketing Management 2-3 s.h.
Concepts, principles, models of marketing management; focus on strategic planning, management decision-making, and implementation of marketing programs.

MBA:8120 Management in Organizations 2-3 s.h.
How to explain, predict, and influence behavior in organizations; decision-making, leadership, communication, group skills in management positions; motivation, leadership, teams, organizational culture, organizational design, individual differences, organizational change.

MBA:8130 Business Communication 1-3 s.h.
Build executive-ready communication skills in writing, presenting, and visualizing. Learn to communicate effectively, efficiently, and in a compelling manner to capture interest and drive action. Students get practice, feedback, and coaching with personal/individual communication assignments in a variety of formats.

MBA:8140 Corporate Financial Reporting 2-3 s.h.
Contemporary financial reporting practices in the United States; how alternative accounting treatments affect the usefulness of financial information in applied decision settings.

MBA:8150 Data and Decisions 2-3 s.h.
Introduction to business analytics; utilizing Excel to apply descriptive and predictive analytical tools to solve practical business problems using real world data; dealing with uncertainty in decision-making; formal probability concepts and statistical methods for describing variability (decision trees, random variables, hypothesis testing); application of techniques (linear regression, Monte Carlo simulation, linear optimization) to model, explain, and predict for operational, tactical, and strategic decisions.

MBA:8160 Managerial Economics 1-3 s.h.
Models of consumer and firm behavior with applications; market equilibrium and structure; pricing decisions.

MBA:8170 International Economic Environment of the Firm 2-3 s.h.
Basic determinants of aggregate output, employment, wages, unemployment, consumption, investment, international trade flows, interest rates, exchange rates, prices and inflation in open economies; sources and nature of economic growth; effects of domestic and foreign monetary, fiscal policies; effects of trade, exchange rate policies.

MBA:8180 Managerial Finance 2-3 s.h.
Time value of money, applications of present value techniques; stock and bond valuation, capital budgeting, cost of capital calculation, portfolio formation and efficient market analysis, financial statement analysis, pro forma analysis, hedging financial risks. Recommendations: for Professional Program students—MBA:8140 or an undergraduate-level financial accounting or finance course.

MBA:8240 Operations and Supply Chain 2-3 s.h.
Planning and decision-making activities for managing an organization's operations in both manufacturing and services, with an emphasis on production and service delivery strategy, process design, capacity planning, process analytics, queueing, and an introduction to supply chain management including supply chain design and coordination.

MBA:8300 Foundations in Strategy 2-3 s.h.
Key elements of domestic competitive and corporate strategy; industry analysis (understanding the importance of industry for firm performance); strategies for achieving competitive advantage (cost focus, differentiation focus); corporate strategy (corporate scope, horizontal diversification, vertical integration); topics of global strategy, which may include challenges of attaining competitive advantage in foreign markets, such as cross-national distance and liabilities of foreignness, as well as international strategies (replication strategy, adaptation strategy, arbitrage strategy).

MBA:8310 Business Integration 1-3 s.h.
Student teams run an operational business simulation, conduct organizational/industry analysis, assess market opportunities, define strategic direction, compete for company profitability and market share. Prerequisites: 5 of the following are required: MBA:8110, MBA:8140, MBA:8150, MBA:8180, MBA:8240, MBA:8300. Recommendations: completion of all six prerequisites.

MBA:8320 Strategic Business Growth 3 s.h.
Key decisions that leaders must make to significantly grow their business and achieve exceptional profitability in their industry; students create a 10x growth plan for their current business or startup using an applied learning model and based on fundamental principles of scaling a business including leading people, formulating strategy, executing effectively, and managing financial resources; development of an executive-level, actionable growth plan that is ready for implementation. Prerequisites: 5 of the following are required: MBA:8110, MBA:8120, MBA:8150, MBA:8160, MBA:8180, MBA:8300.

MBA:8330 Seminar in Strategic Management I 1-3 s.h.
Introduction to strategic management; the role of marketing, operations, and finance in strategic planning; case studies.

MBA:8430 Communication With Artificial Intelligence and Business Technology 3 s.h.
Harnessing Artificial Intelligence (AI) programs to produce and enhance business writing; developing professional presentation skills with feedback from instructor and specialized apps; optimizing program-generated visualizations for human audiences; and exploring the role of critical thinking when using technology in business environments.

MBA:8500 Seminar in International Business 0-6 s.h.
Issues and challenges facing organizations doing business in international markets; social, economic, political factors, business policies and customs in the global environment; may include travel, study abroad. Requirements: MBA enrollment.

MBA:9130 Leadership Communication and Story 3 s.h.
Learn how effective communication drives effective leadership, including during difficult conversations and crises, and how stories can be used to create a vision and empower others to follow it. Assignments include a mix of individual reflections and experiential group learning activities.

MBA:9300 Strategy in Action 3 s.h.
Focus on a company's current strategic plan and describe the strategy of the firm; conduct an internal analysis to determine whether the firm has the ability to execute the strategic plan with its existing business model and core competencies; develop a strategy map and aligned balance scorecard to identify the most important initiatives and metrics to deliver on the strategy; propose recommendations for how the firm can improve its ability to turn strategy into action. Prerequisites: MBA:8300 and 4 of the following are required: MBA:8120, MBA:8110, (MBA:8150 or BAIS:9100), MBA:8160, MBA:8180.

Master of Business Administration, MBA

The Master of Business Administration includes two programs: the Iowa MBA and the MBA in Italy (CIMBA Italy MBA).

Students in the Iowa MBA Program have the opportunity to enroll in combined degree programs in business analytics, healthcare administration, law, medicine, strategic communication, and social work, or to earn the Certificate in Healthcare Management. See "Combined Programs" under the Iowa MBA Program section of the catalog.

Learning Outcomes

Graduates will:

- demonstrate the ability to be leaders in a diverse and complex world;
- demonstrate the ability to be effective team members;
- demonstrate executive-ready communication skills; and
- create integrative solutions to business problems that impact organizations and communities.

Iowa MBA

The Iowa MBA Program is tailored for working professionals building on the synergies of concurrent work and learning. It also prepares graduates to be effective managers and leaders in the global marketplace.

The curriculum is designed for students with varied backgrounds, undergraduate majors, and professional experience. Previous coursework in business is not required.

Requirements

The Iowa MBA Program requires 45 s.h. of graduate credit, which encompasses a core of nine courses (27 s.h.) and six electives (18 s.h.). Students must maintain a program grade-point average (GPA) of at least 2.75.

The core develops competency in general management skills and key functional business areas. The electives contribute to the development of an area of expertise and foster a deeper understanding of management and business practices. Electives are offered in analytics, economics, entrepreneurship, finance, marketing, accounting, leadership, and management. Students may take part in global learning opportunities in international locations to increase their understanding of the global business environment and its implications for business conduct and decision-making. Courses are offered each semester during evening hours online and select offerings are available in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Students may earn a professional certificate in artificial intelligence and technology management [p. 1278], business communication [p. 1279], corporate finance [p. 1281], finance [p. 1282], financial decision-making [p. 1283], innovation [p. 1284], investment management [p. 1285], leadership [p. 1286], marketing [p. 1287], responsible resource management [p. 1288], risk management and insurance [p. 1289], or strategy [p. 1290] while fulfilling requirements for the MBA, often without taking courses beyond the 45 s.h. required for the degree. Students may also earn the Certificate in Business Analytics [p. 1177] or Certificate in Artificial Intelligence and Machine Learning [p. 1176] while fulfilling requirements for the MBA degree, though additional coursework may be needed beyond the 45 s.h. of the MBA for the Certificate in Artificial Intelligence and Machine Learning due to prerequisites. Certificate courses are offered online and select offerings may be available occasionally in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Students can complete the degree requirements in as few as five semesters or extend their study to as long as 10 years. Most students earn the MBA in three years by taking two courses each fall and spring semester and one course during the summer semester.

Core Courses

Course #	Title	Hours
All of these:		
MBA:8110	Marketing Management	3
MBA:8120	Management in Organizations	3
MBA:8140	Corporate Financial Reporting	3

MKTG:9350	Marketing Communication and Promotions	3
MKTG:9370	Customer Experience	3

Admission

The Iowa MBA Program admits students for entry in summer, fall, or spring; applications are accepted throughout the year. Admission decisions are based on completed application materials, including quality of work experience, undergraduate GPA, and optional scores on the Graduate

Management Admission Test (GMAT) or Graduate Record Examination (GRE) General Test. While not required for admission purposes, applicants can submit GMAT/GRE scores to strengthen an application and those scores may be used in consideration for scholarship awards. For guidelines, view Iowa MBA Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the Admissions website.

Admission decisions are made before registration begins for completed applications received by the priority application deadline. Admitted applicants who have met the priority application deadline may request registration for classes on the first registration date. See the Iowa MBA Admissions website for priority and final application deadlines.

Combined Programs

Combined degree programs allow students to pursue two degrees simultaneously, earning both more quickly than if each degree were pursued separately.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

MBA/JD

The Iowa MBA Program collaborates with the College of Law to offer the combined Master of Business Administration/Juris Doctor degree program.

For more information about the law degree, see the Juris Doctor, JD [p. 1833] (College of Law) section of the catalog.

MBA/MA in Strategic Communication

The Iowa MBA Program collaborates with the School of Journalism and Mass Communication to offer the combined Master of Business Administration/Master of Arts in strategic communication degree program.

For more information about the strategic communication degree, see the Strategic Communication, MA [p. 654] (College of Liberal Arts and Sciences) section of the catalog or contact the Iowa MBA Program.

MBA/MD

The Iowa MBA Program collaborates with the Carver College of Medicine to offer the combined Master of Business Administration/Doctor of Medicine degree program.

For more information about the medicine degree, see the Doctor of Medicine, MD [p. 1881] (Carver College of Medicine) section of the catalog.

MBA/MS in Business Analytics (Professional Subprogram)

The Iowa MBA Program along with the Department of Business Analytics offers a combined Master of Business Administration/Master of Science in business analytics (professional subprogram) degree option. Students complete 33 s.h. of MBA credit paired with 27 s.h. of business analytics credit for a total of at least 60 s.h. at the University of Iowa.

For more information, see the MS in business analytics [p. 1169] in the Tippie College of Business section of the catalog or contact the Iowa MBA Program.

MBA/MSW

The Iowa MBA Program collaborates with the School of Social Work to offer the combined Master of Business Administration/Master of Social Work degree program.

For more information, see the Master of Social Work, MSW [p. 1010] (College of Liberal Arts and Sciences) section of the catalog or contact the Iowa MBA Program.

MBA/MHA

The Iowa MBA Program collaborates with the College of Public Health to offer the combined Master of Business Administration/Master of Healthcare Administration degree program.

For more information, see the Master of Healthcare Administration [p. 2092] (College of Public Health) section of the catalog or contact the Iowa MBA Program.

MBA/Certificate in Healthcare Management

The Iowa MBA Program collaborates with the College of Public Health to offer a combined Master of Business Administration/Certificate in Healthcare Management. Iowa MBA students complete four specified healthcare management courses (12 s.h.) in place of four MBA electives to earn the certificate.

For more information, see the Certificate in Healthcare Management [p. 2153] (College of Public Health) section of the catalog or contact the Iowa MBA Program.

CIMBA Italy MBA

The CIMBA Italy MBA program focuses on personal leadership development and emphasizes strategic management, consulting, and international business. Students apply what they learn through a consulting project with local and international companies. In addition to the MBA degree, students earn certificates through Kepner-Tregoe in problem solving and decision making, and in project management. The program draws its faculty from the University of Iowa and from institutions across the United States and Europe.

The 11-month full-time program is held primarily at the CIMBA campus in Paderno del Grappa, Italy, but the final course is completed on the University of Iowa campus in Iowa City. The full-time program admits students only for fall semester entry. A two-year part-time program is also available for working professionals living in Italy. Part-time applicants typically start in the fall but may be permitted to begin the program at other times.

Requirements

The CIMBA Italy MBA program requires 52–55 semester hours of graduate credit. Students must maintain a program grade-point average of at least 2.75.

The CIMBA Italy MBA program requires the following coursework. Available electives can vary each year in the program; students should consult their advisor.

Course #	Title	Hours
All of these:		
MBA:8110	Marketing Management	3
MBA:8120	Management in Organizations	3
MBA:8140	Corporate Financial Reporting	3
MBA:8150	Data and Decisions	3
MBA:8160	Managerial Economics	3
MBA:8170	International Economic Environment of the Firm	2
MBA:8180	Managerial Finance	3
MBA:8240	Operations and Supply Chain	3
MBA:8310	Business Integration	1-3
ACCT:9020	Strategic Cost Analysis	3
BAIS:9110	Advanced Analytics	2-3
BAIS:9120	Managing the Supply Chain	2-3
BAIS:9220	Introduction to Information Systems	3
ENTR:9100	Entrepreneurship and Innovation	3
FIN:9300	Corporate Finance	3
MGMT:9210	Law and Ethics	2
MGMT:9120	Leadership and Personal Development	3
Electives as needed to meet program requirements		

Admission

Admission decisions are based on an applicant’s completed application, which includes a résumé, academic qualifications, essays, an interview demonstrating experience and English proficiency, and scores on the Graduate Management Admission Test (GMAT) or Graduate Record Exam (GRE) General Test. Additionally, applicants are recommended to have at least two years of professional work experience.

Artificial Intelligence and Technology Management, Professional Certificate

Requirements

The professional Certificate in Artificial Intelligence and Technology Management requires 12 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to learn to leverage artificial intelligence (AI) and other technology to gain competitive advantages and improve business practices.

It is also open to current Iowa MBA Program and MS business analytics (MSBA) professional students and alumni. Students may complete the certificate as they work toward their degree; the certificate is designed to fit into the MBA or MSBA curriculum allowing students to earn their degree and certificate without additional coursework.

Certificate courses are offered online. Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Artificial Intelligence and Technology Management requires the following coursework.

Required Courses

Course #	Title	Hours
Both of these:		
BAIS:6210	Data Leadership and Management	3
BAIS:6240	Value Creation Using Artificial Intelligence	3

Electives

Course #	Title	Hours
Two of these (6 s.h.):		
BAIS:6280	Cybersecurity	3
BAIS:9140	Agile Project Management	3
BAIS:9300	Innovations in Technology	3
ECON:9100	Digital Economics	3
ENTR:9450	Strategic Management of Technology and Innovation	3
MBA:8430	Communication With Artificial Intelligence and Business Technology	3
MGMT:9185	Project Management	3

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Artificial Intelligence and Technology Management concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance and quality and quantity of work experience. For specific guidelines, view Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Business Communication, Professional Certificate

Requirements

The professional Certificate in Business Communication requires 12 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to build their business communication knowledge and skills. It is also open to current Iowa MBA Program students. Students in the Iowa MBA Program may complete the certificate as they work toward their degree; the certificate is designed to fit into the MBA curriculum allowing students to earn the MBA and certificate without additional coursework.

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Business Communication requires the following coursework.

Course #	Title	Hours
This course:		
MBA:8130	Business Communication	3
Three of these:		
MBA:8430	Communication With Artificial Intelligence and Business Technology	3
MBA:9130	Leadership Communication and Story	3
MGMT:9110	Dynamics of Negotiations	3
or MGMT:9230	Managing and Preventing Conflict	

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Business Communication concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance along with quality and quantity of work experience. For specific guidelines, see Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Business Fundamentals, Professional Certificate

Requirements

The professional Certificate in Business Fundamentals requires 15 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to build core business knowledge and skills. Students who have completed this certificate may use its courses to fulfill degree requirements if admitted to the Iowa MBA Program as long as the courses are less than ten years old at the time of MBA conferral.

This certificate is designed to introduce students to the core principles of business. Coursework covers select disciplines within business—accounting, analytics, finance, managing organizations, marketing, and strategy. Students gain knowledge and develop skills that will immediately strengthen their performance as employees and managers. The certificate is comprised of Iowa MBA Program courses, allowing students to benefit from the same coursework and faculty members as MBA students.

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

The Certificate in Business Fundamentals requires the following coursework.

Course #	Title	Hours
All of these:		
MBA:8110	Marketing Management	3
MBA:8120	Management in Organizations	3
MBA:8140	Corporate Financial Reporting	3
MBA:8180	Managerial Finance	3
One of these:		
MBA:8150	Data and Decisions	3
or BAIS:9100	Data and Decisions	
MBA:8300	Foundations in Strategy	3

If any required courses are waived, they must be replaced with another approved course from the preceding list.

If two required courses are waived, the student should take all of the remaining courses from the preceding list and choose between MBA:8160 Managerial Economics or MBA:8240 Operations and Supply Chain.

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Business Fundamentals concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance and quality and quantity of work experience. For specific guidelines, view Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Corporate Finance, Professional Certificate

Requirements

The professional Certificate in Corporate Finance requires 12 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to build their corporate finance knowledge and skills. It is also open to current Iowa MBA Program students. Students in the Iowa MBA Program may complete the certificate as they work toward their degree; the certificate is designed to fit into the MBA curriculum allowing students to earn the MBA and certificate without additional coursework.

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Corporate Finance requires the following coursework.

Course #	Title	Hours
All of these:		
MBA:8140	Corporate Financial Reporting	3
MBA:8180	Managerial Finance	3
FIN:9300	Corporate Finance	3
FIN:9310	Corporate Financial Strategy	3

If MBA:8140 Corporate Financial Reporting or MBA:8180 Managerial Finance are waived, the student must take FIN:9150 Financial Modeling and Firm Valuation in its place.

If both courses are waived, the student must take FIN:9150 Financial Modeling and Firm Valuation and FIN:9230 Real Estate Finance and Investments.

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Corporate Finance concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance along with quality and quantity of work experience. For specific guidelines, view Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Finance, Professional Certificate

Requirements

The professional Certificate in Finance requires 12 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to build their financial knowledge and skills. It is also open to current Iowa MBA Program students. Students in the Iowa MBA Program may complete the certificate as they work toward their degree; the certificate is designed to fit into the MBA curriculum allowing students to earn the MBA and the certificate without additional coursework.

This certificate is ideal for students who wish to gain specialized knowledge of financial concepts. Students can select courses to focus their study in specific areas of finance such as corporate finance, investments, portfolio management, and wealth management.

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Finance requires the following coursework.

Course #	Title	Hours
All of these:		
MBA:8180	Managerial Finance	3
FIN:9200	Portfolio Management	3
FIN:9300	Corporate Finance	3
One of these:		
BAIS:6150	Financial Analytics	3
ENTR:9200	Entrepreneurial Finance	3
FIN:9010	Contemporary Topics in Finance	3
FIN:9130	Corporate Risk Management and Insurance	3
FIN:9140	Enterprise Risk Management	3
FIN:9150	Financial Modeling and Firm Valuation	3
FIN:9160	Quantitative Finance and Machine Learning	3
FIN:9210	Derivatives	3
FIN:9220	Fixed Income Securities	3
FIN:9230	Real Estate Finance and Investments	3
FIN:9240	International Finance	3
FIN:9270	Security Analysis	3
FIN:9290	Alternative Investments and Portfolio Strategies	3
FIN:9310	Corporate Financial Strategy	3
FIN:9350	Wealth Management	3

If MBA:8180 Managerial Finance is waived, it must be replaced with an approved course from the preceding list.

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Finance concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance along with quality and quantity of work experience. For specific guidelines, view Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Financial Decision-Making, Professional Certificate

Requirements

The professional Certificate in Financial Decision-Making requires 12 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to build their financial decision-making knowledge and skills. It is also open to current Iowa MBA Program students. Students in the Iowa MBA Program may complete the certificate as they work toward their degree; the certificate is designed to fit into the MBA curriculum allowing students to earn the MBA and the certificate without additional coursework.

This certificate provides students with tools to evaluate financial information and make mission-driven management decisions. Students will learn to analyze, identify, and evaluate problems and solutions. This certificate is designed for managers involved in financial forecasting and investing or those looking to pivot into that area.

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Financial Decision-Making requires the following coursework.

Course #	Title	Hours
All of these:		
MBA:8140	Corporate Financial Reporting	3
MBA:8150	Data and Decisions	3
ACCT:9040	Financial Statement Analysis and Forecasting	3
One of these:		
BAIS:6150	Financial Analytics	3
BAIS:6190	Forecasting	3
FIN:9300	Corporate Finance	3
FIN:9310	Corporate Financial Strategy	3
MGMT:9185	Project Management	3

If MBA:8140 Corporate Financial Reporting or MBA:8150 Data and Decisions are waived, it must be replaced with an approved course from the preceding list.

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Financial Decision-Making concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance along with quality and quantity of work experience. For specific guidelines, see Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Innovation, Professional Certificate

Requirements

The professional Certificate in Innovation requires 12 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to build their innovation knowledge and skills. It is also open to current Iowa MBA Program students. Students in the Iowa MBA Program may complete the certificate as they work toward their degree; the certificate is designed to fit into the MBA curriculum allowing students to earn the MBA and the certificate without additional coursework.

This certificate provides students with skills that help them generate innovative solutions to problems, advance innovation within organizations, and develop new ventures. Innovation requires both an entrepreneurial mindset and an understanding of collaborative processes. Students learn to understand problems, identify new market opportunities, and develop solutions. They learn how organizations can become more agile and encourage innovation throughout the organization. Students also learn how to start and grow a new venture around an innovative idea. The certificate program of study leverages the strengths of the Department of Management and Entrepreneurship and the John Pappajohn Entrepreneurship Center (Iowa JPEC).

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Innovation requires the following coursework.

Course #	Title	Hours
All of these:		
ENTR:9100	Entrepreneurship and Innovation	3
ENTR:9200	Entrepreneurial Finance	3
ENTR:9450	Strategic Management of Technology and Innovation	3
One of these:		
ENTR:9300	Design Thinking	3
ENTR:9500	Managing the Growth Business	3
or MBA:8320	Strategic Business Growth	
MGMT:9220	Maximizing Team Performance	3

If ENTR:9100 Entrepreneurship and Innovation is waived, it must be replaced with an approved course from the preceding list.

ENTR:9500 Managing the Growth Business (prior to summer 2023) and MBA:8320 Strategic Business Growth (available fall 2023 and beyond) are the same course. Only one of these courses will count toward certificate requirements.

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Innovation concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance along with quality and quantity of work experience. For specific guidelines, see Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Investment Management, Professional Certificate

Requirements

The professional Certificate in Investment Management requires 12 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to build their investment management knowledge and skills. It is also open to current Iowa MBA Program students. Students in the Iowa MBA Program may complete the certificate as they work toward their degree; the certificate is designed to fit into the MBA curriculum allowing students to earn the MBA and the certificate without additional coursework.

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Investment Management requires the following coursework.

Course #	Title	Hours
Both of these:		
MBA:8180	Managerial Finance	3
FIN:9200	Portfolio Management	3
Two of these:		
FIN:9150	Financial Modeling and Firm Valuation	3
FIN:9160	Quantitative Finance and Machine Learning	3
FIN:9210	Derivatives	3
FIN:9220	Fixed Income Securities	3
FIN:9230	Real Estate Finance and Investments	3
FIN:9350	Wealth Management	3

If MBA:8180 Managerial Finance is waived, it must be replaced with another approved course from the preceding list.

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Investment Management concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance along with quality and quantity of work experience. For specific guidelines, see Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Leadership, Professional Certificate

Requirements

The professional Certificate in Leadership requires 15 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to build their leadership knowledge and skills. It is also open to current Iowa MBA Program students. Students in the Iowa MBA Program may complete the certificate as they work toward their degree; the certificate is designed to fit into the MBA curriculum allowing students to earn the MBA and the certificate without additional coursework.

Modern-day leadership is about facilitating change, maximizing team and employee performance, influencing others, and leading companies and people to greatness. Students who pursue the leadership certificate learn the skills to effectively lead others. The certificate is appropriate for working professionals in all business functions and industries.

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Leadership requires the following coursework.

Course #	Title	Hours
Both of these:		
MBA:8120	Management in Organizations	3
MGMT:9120	Leadership and Personal Development	3
Three of these:		
MBA:9130	Leadership Communication and Story	3
MGMT:9090	Influence and Constructive Persuasion	3
MGMT:9091	Corporate Social Responsibility and Sustainability	3
MGMT:9092	Effective Managerial Communication	3
MGMT:9110	Dynamics of Negotiations	3
MGMT:9130	Strategic Management of Change	3
MGMT:9170	Human Resources Analytics	3
MGMT:9185	Project Management	3
MGMT:9210	Law and Ethics	3
MGMT:9220	Maximizing Team Performance	3
MGMT:9230	Managing and Preventing Conflict	3
MGMT:9240	Inclusive Leadership	3
MGMT:9250	Managing Employee Performance	3
MGMT:9260	Strategic Employee Development	3
MGMT:9270	Human Resource Management	3
MGMT:9290	Global Business Management	3

If MBA:8120 Management in Organizations is waived, it must be replaced with another approved course from the preceding list.

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Leadership concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance along with quality and quantity of work experience. For specific guidelines, see Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Marketing, Professional Certificate

Requirements

The professional Certificate in Marketing requires 12 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to build their marketing knowledge and skills. It is also open to current Iowa MBA Program students. Students in the Iowa MBA Program may complete the certificate as they work toward their degree; the certificate is designed to fit into the MBA curriculum allowing students to earn the MBA and the certificate without additional coursework.

The study of marketing includes the activities and processes for creating, communicating, and delivering products and services that add value for customers. Students learn the foundations of marketing and build specialized skills in a diversity of marketing functions, including the newest concepts and tools in digital and social marketing.

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Marketing requires the following coursework.

Course #	Title	Hours
This course:		
MBA:8110	Marketing Management	3
Three of these:		
MKTG:9010	Contemporary Topics in Marketing	3
MKTG:9015	Social Media Marketing	3
MKTG:9120	Customer Relationship Management	3
MKTG:9155	Digital Marketing Insights, Strategies, and Applications	3
MKTG:9165	Digital Marketing Analytics	3
MKTG:9170	Business to Business Marketing	3
MKTG:9190	International Marketing	3
MKTG:9310	Marketing Analytics	3
MKTG:9320	Strategic Brand Positioning	3
MKTG:9330	Product and Portfolio Strategy	3
MKTG:9340	Customer Analysis	3
MKTG:9350	Marketing Communication and Promotions	3
MKTG:9370	Customer Experience	3

If MBA:8110 Marketing Management is waived, it must be replaced with another approved course from the preceding list.

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Marketing concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance along with quality and quantity of work experience. For specific guidelines, see Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Responsible Resource Management, Professional Certificate

Requirements

The professional Certificate in Responsible Resource Management requires 12 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to build skills in evaluating and optimizing resource performance with attention to socially responsible management practices. It is also open to current Iowa MBA Program students. Students in the Iowa MBA Program may complete the certificate as they work toward their degree; the certificate is designed to fit into the MBA curriculum allowing students to earn the MBA and the certificate without additional coursework.

This certificate focuses on financial acumen and data analysis to support decision-making with particular attention to the impact on the environment, society, and governance.

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Responsible Resource Management requires the following coursework.

Course #	Title	Hours
All of these:		
ACCT:9020	Strategic Cost Analysis	3
MBA:8140	Corporate Financial Reporting	3
MGMT:9091	Corporate Social Responsibility and Sustainability	3
One of these:		
BAIS:6050	Data Management	3
BAIS:6280	Cybersecurity	3
ENTR:9500	Managing the Growth Business	3
or MBA:8320	Strategic Business Growth	
FIN:9140	Enterprise Risk Management	3
MBA:8240	Operations and Supply Chain	3
MGMT:9250	Managing Employee Performance	3

If MBA:8140 Corporate Financial Reporting is waived, it must be replaced with an approved course from the preceding list.

ENTR:9500 Managing the Growth Business (prior to summer 2023) and MBA:8320 Strategic Business Growth (available fall 2023 and beyond) are the same course. Only one of those courses will count toward certificate requirements.

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Responsible Resource Management concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance along with quality and quantity of work experience. For specific guidelines, see Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Risk Management and Insurance, Professional Certificate

Requirements

The professional Certificate in Risk Management and Insurance requires 12 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to complete the certificate to build their knowledge and skills in risk management and insurance. It is also open to current Iowa MBA Program students. Students in the Iowa MBA Program may complete the certificate as they complete their degree; the certificate is designed to fit into the MBA curriculum allowing students to earn the MBA and the certificate without additional coursework.

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Risk Management and Insurance requires the following coursework.

Course #	Title	Hours
All of these:		
MBA:8140	Corporate Financial Reporting	3
MBA:8180	Managerial Finance	3
FIN:9130	Corporate Risk Management and Insurance	3
FIN:9140	Enterprise Risk Management	3

If MBA:8140 Corporate Financial Reporting and/or MBA:8180 Managerial Finance are waived, they must replace the waived course(s) with an approved course from the following list.

Course #	Title	Hours
ACCT:9040	Financial Statement Analysis and Forecasting	3
FIN:9150	Financial Modeling and Firm Valuation	3
FIN:9230	Real Estate Finance and Investments	3
FIN:9300	Corporate Finance	3
MGMT:9110	Dynamics of Negotiations	3

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Risk Management and Insurance concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance along with quality and quantity of work experience. For specific guidelines, see Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

Strategy, Professional Certificate

Requirements

The professional Certificate in Strategy requires 12 s.h. of credit. Students must earn a cumulative grade-point average of at least 2.75 in certificate coursework.

The certificate is open to individuals with a desire to gain tools for formulating and executing strategies for a competitive business advantage. It is also open to current Iowa MBA Program students. Students in the Iowa MBA Program may complete the certificate as they work toward their degree; the certificate is designed to fit into the MBA curriculum allowing students to earn the MBA and certificate without additional coursework.

Certificate courses are offered online and select courses may occasionally be offered in Des Moines at the John and Mary Pappajohn Education Center (JMPEC).

Not all courses listed are regularly offered. Students should consult MyUI for course availability and/or discuss course offerings with their advisor.

The Certificate in Strategy requires the following coursework.

Course #	Title	Hours
Both of these:		
MBA:8300	Foundations in Strategy	3
MBA:9300	Strategy in Action	3
Two of these:		
MBA:8310	Business Integration	3
or MBA:8320	Strategic Business Growth	
MBA:8500	Seminar in International Business	3
ENTR:9450	Strategic Management of Technology and Innovation	3
or ENTR:9100	Entrepreneurship and Innovation	
MKTG:9320	Strategic Brand Positioning	3

Combined Programs

Certificate/Graduate Degrees

Students can pursue a professional Certificate in Strategy concurrently with their graduate degree. A separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the combined degree program.

With graduate program approval, students may count up to 9 s.h. from the professional certificate toward their graduate degree.

With approval from the professional certificate program, students may count up to 3 s.h. from any graduate degree program toward their certificate.

Students should contact their degree program and the certificate program to work out combined program details.

Admission

Admission decisions are based upon completed application materials, including academic performance along with quality and quantity of work experience. For specific guidelines, see Certificate-Only Admissions on the Tippie College of Business website.

Applicants whose first language is not English must score at least 100 (internet-based) on the Test of English as a Foreign Language (TOEFL) or must have a successful admission interview. In place of the TOEFL, the certificate program accepts satisfactory International English Language Testing System (IELTS) scores or a Duolingo score of 120 or higher. For more information, see English Requirements for MBA Admission on the University of Iowa Admissions website.

Applications are accepted throughout the year; admission is for summer, fall, or spring entry.

College of Dentistry

Dean

- Clark M. Stanford

Executive Associate Dean

- Galen B. Schneider

Associate Dean for Academic and Student Affairs

- Sherry R. Timmons

Associate Dean, Finance and Facilities

- Paulina Janczuk

Associate Dean, Patient Care

- Kecia S. Leary

Assistant Dean of Academic Affairs

- Dharini van der Hoeven

Professional degree: DDS

Professional certificates: endodontics; geriatric and special needs dentistry; operative dentistry; oral and maxillofacial surgery; oral and maxillofacial pathology; oral and maxillofacial radiology; orthodontics; pediatric dentistry; periodontics; prosthodontics

Graduate degrees: MS; PhD

Website: https://dentistry.uiowa.edu/

The College of Dentistry is an integral part of the University of Iowa and its health sciences campus. Its mission, which embraces the university's academic values as well as the ethical responsibilities implicit in educating future members of a profession, rests on a foundation representing every aspect of collegiate activity: education of students as general practitioners and specialists; research into all aspects of oral and dental disease and the delivery of health care; and service to the community, the state, and the profession.

Faculty members, DDS students, dental specialty residents, and staff provide oral health care to patients at clinics in the Dental Science Building and the Center for Disabilities and Development. Faculty, staff, and students participate in interdisciplinary research and training activities involving the university's five health science colleges as well as other university colleges and departments.

Dentistry at the University of Iowa began in 1882 as a single department. In 1900 the university underwent general reorganization and the Dental Department became the College of Dentistry. Today the college is Iowa's only provider of predoctoral dental education and ranks as a leader in dental education nationwide.

The college and its educational programs are accredited by the Commission on Dental Accreditation of the American Dental Association, an independent tripartite commission authorized and recognized by the Office of Postsecondary Education.

Programs offered by the college cover the full spectrum of dentistry and closely integrated fields. They include the Doctor of Dental Surgery program (DDS), which prepares general dentists. The college has advanced education programs in nine dental disciplines, each of which may lead to certification in a specialized area of dentistry. In addition, advanced education programs in operative dentistry, geriatrics and special needs dentistry, and post-DDS residency programs in hospital-based dentistry are available. The college has an oral science program, which offers an MS or PhD with or without a specialty certificate. To emphasize commitment to learning, the College of Dentistry has a wide variety of continuing education programs for dental and allied professions.

Faculty

Iowa's dental faculty are predominantly full-time. In addition, more than 100 part-time adjunct faculty members assist with clinical teaching in the DDS and advanced residency programs. Approximately 88% of the college's faculty members hold DDS or DMD degrees and 12% represent other disciplines. The vast majority of faculty dentists have advanced education past the DDS, generally with master's degrees in specialty areas; about one-fifth hold a PhD.

The College of Dentistry is committed to the principle that diversity is essential to a strong educational environment—one that prepares new generations of dentists to provide high-quality care to patients from many backgrounds. The college's full-time faculty reflects that commitment.

Programs

Professional Program of Study (DDS)

The Doctor of Dental Surgery program prepares students to practice general dentistry. It requires a minimum of three years of preprofessional study and four years of study in the College of Dentistry. See Doctor of Dental Surgery [p. 1294] in this section of the catalog for a description of the program's curriculum and information about a combined bachelor's degree and a DDS, the dentistry licensure examination, student organizations, expenses, admission, financial support, and academic rules and procedures.

Post-DDS and Graduate Programs of Study

Several College of Dentistry departments offer professional certificate programs designed to prepare dentists for clinical specialty practice: endodontics [p. 1299]; operative dentistry [p. 1305]; oral pathology, radiology, and medicine [p. 1310]; orthodontics [p. 1319]; pediatric dentistry [p. 1324]; periodontics [p. 1326]; and prosthodontics [p. 1332]. Students who complete these programs satisfactorily are awarded a certificate. The Department of Oral and Maxillofacial Surgery [p. 1308] offers a four-year residency program that culminates in a certificate. The college also offers a Certificate in Geriatric and Special Needs Dentistry [p. 1302].

The College of Dentistry offers a Doctor of Philosophy and a Master of Science in oral science [p. 1314]. The MS is only offered in conjunction with a specialty certificate. Students earning the Certificate in Endodontics or the Certificate in Prosthodontics may earn an MS or a PhD in oral science. Those earning the Certificate in Operative Dentistry, Certificate in Oral and Maxillofacial Pathology, Certificate in Oral and Maxillofacial Radiology (Department of Oral Pathology, Radiology, and Medicine), or the Certificate in Periodontics may earn an MS in oral science.

In addition, the Department of Orthodontics [p. 1319] offers a Master of Science in orthodontics, and the Department of Preventive and Community Dentistry [p. 1328] offers a Master of Science in dental public health.

For information about post-DDS and graduate programs of study, see the College of Dentistry departmental sections in the catalog.

Facilities

The College of Dentistry is located in the Dental Science Building on the University of Iowa health sciences campus, in proximity to the Roy J. and Lucille A. Carver College of Medicine, College of Nursing, College of Pharmacy, College of Public Health, and University of Iowa Health Care. The Bowen Science Building and the Hardin Library for the Health Sciences are nearby.

The south wing of the Dental Science Building is devoted to clinical teaching. There are 248 operatories in departmental clinics, student laboratories, clinical research space, and a cafeteria.

The west wing contains two floors of patient treatment areas and one floor of space for students. The clinical spaces include 44 dental operatories in the Geriatric and Special Needs Clinic, the Endodontics Clinic, faculty general practice, and the Craniofacial Clinical Research Center. Student areas include a classroom accommodating 80 people, small-group study rooms, a seminar room, a student lounge, lockers, and showers.

The north wing houses the simulation clinic and technique bench teaching laboratory, the electronic classroom, college administrative offices, technology and media services, the academic Department of Preventive and Community Dentistry, and the research laboratories and faculty offices of the Iowa Institute for Oral Health Research.

Dental Education and Patient Care

Patient care is integral to dental education. Students and faculty members deliver oral health care in clinics on the health sciences campus and at several off-campus sites, including nursing homes. More than 45,600 people receive oral health care yearly in the college's clinics. Patients from throughout Iowa, western Illinois, and northern Missouri account for most of the 167,300 patient visits each year.

Interdisciplinary Centers and Research

Iowa Institute for Oral Health Research

The Iowa Institute for Oral Health Research occupies the first and fourth floors of the Dental Science Building's north wing. Laboratories are equipped to support a wide variety of research projects reflecting the complex nature of modern health care needs. Research at the institute is coordinated by the College of Dentistry.

There are four focus areas of research. The first area includes bioengineering, tissue engineering, stem cells, and biomaterials and materials research. The second area encompasses craniofacial, oral biology, genetics, and dental development. The third area includes public health, epidemiology, and behavioral sciences. The fourth area encompasses immunology, inflammation, microbiology, and caries and microbiome research. All focus areas are supported by the Division of Biostatistics and Computational Biology. Clinical and translational research involving new innovative methods and products designed in the research laboratories is carried out in the Craniofacial Clinical Research Center.

Although research is concentrated in these program areas, one of the unit's strengths has been the consistent level of interaction and collaboration among individuals and programs across the college and the university.

Craniofacial Anomalies Research Center

The role of the Craniofacial Anomalies Research Center is to understand the molecular mechanisms of genes and gene interactions that contribute to craniofacial/dental anomalies and birth defects. These genetic defects arise from inherited and somatic gene mutations due to environmental effects. The center researchers use mouse, ferret, and zebrafish models; human genetic material; cell lines; and molecular/biochemistry approaches to understand gene function. With the advent of human genome sequencing and the decreasing costs of genomic analyses, it has become somewhat more efficient to identify genetic defects associated with human genetic defects and diseases. The use of these genetic screening approaches provides invaluable data and resources in the search for new genes involved in human craniofacial development and associated anomalies. The center collaborators reside in the Carver College of Medicine, and the colleges of Dentistry, Pharmacy, and Public Health.

Craniofacial Clinical Research

For more than two decades, the College of Dentistry has offered outpatient research support for National Institutes of Health (NIH), U.S. Food and Drug Administration (FDA), and related federally supported research grants. Protocol-based studies are performed by faculty scientists and supported by oral health care industries. Scientists also engage in translational research that involves laboratory-to-clinical-research outcomes. College of Dentistry faculty use new technology to improve dental procedures and provide state-of-the-art methods to obtain the best outcomes for patients. A biorepository program helps researchers understand the causes of dental and oral diseases and genetic anomalies. It benefits Iowans by the potential diagnoses of diseases and their effects and provides new, improved patient treatment.

Through integrated research, education, and clinical programs, craniofacial clinical research facilitates the development of implants and their use as a therapeutic modality in dentistry. The program also integrates basic and clinical research with technology transfer to the clinical setting, enhancing predoctoral, postgraduate, and continuing education and expanding treatment options available to patients served by the college. Craniofacial clinical research also provides vital coordination of dental specialties that participate in this treatment modality.

Courses

College of Dentistry Courses

Most College of Dentistry courses are offered by the college's departments and programs. They are listed and described in the corresponding General Catalog sections. The college also offers the following nondepartmental courses.

DENT:4000 Pre-Dental Academy 0 s.h.
Hands-on experience for undergraduate students interested in dentistry; interaction with faculty, residents, and current students in simulation clinic; didactic sessions; admissions information; changing health care environment, digital dentistry, dental esthetics, introduction to dental specialties, drilling and filling. Offered summer session.

DENT:8100 First-Year Continuing Session arr.

DENT:8110 Patient Management: Interprofessional Education II 0 s.h.
Application of previously learned concepts to relevant health care experiences using interprofessional skills and team-based health care concepts; development of skills related to leadership in health care teams, pain management from an interprofessional team, and application of ethics and professionalism concepts; online modules and group activities.

DENT:8120 Foundations in Microbiology and Immunology 3 s.h.
Essential knowledge of microorganisms, their role in oral and systemic health, and the body's immune response. Students explore the diversity of bacteria, viruses, fungi, and parasites, focusing on those relevant to dental practice and the role of the oral microbiome and other key microbiomes of the human body in relation to overall health. Integrates theoretical concepts with clinical relevance, preparing students to understand and manage infectious diseases in dental settings and to apply immunological principles in patient care and treatment planning. Requirements: DDS enrollment.

DENT:8200 Second-Year Continuing Session arr.

DENT:8210 Patient Management: Interprofessional Education III 0 s.h.
Application of previously learned concepts to relevant health care experiences using interprofessional skills and team-based health care concepts; development of skills related to leadership in health care teams, pain management from an interprofessional team, and application of ethics and professionalism concepts; online modules and group activities.

DENT:8220 Dental Independent Study arr.
Introduction to dental topics on the basic principles of dentistry in preparation for seminars, discussion sessions, and patient care. The Iowa Dental Advanced Standing Program offers dentists trained outside the United States the opportunity to earn a CODA (Commission on Dental Accreditation) accredited DDS degree. Recommendations: enrollment in the Iowa Dental Advanced Standing Program.

DENT:8230 Biomedical Sciences in Clinical Practice 2 s.h.
Topics in medicine and dentistry related to biochemistry, physiology, microbiology, anatomy, histology, pharmacology, and pathology. Expand foundational science knowledge to understand real-life clinical circumstances.

DENT:8300 Third-Year Continuing Session arr.

DENT:8360 Introduction to Clinical Orofacial Pain 1 s.h.
Major sources and types of orofacial pain; students build knowledge and skills to recognize temporomandibular disorders and other common orofacial pain conditions, differentiate odontogenic from nonodontogenic orofacial pain, and apply interdisciplinary pain management concept in developing appropriate patient management plan.

DENT:8371 Quality Assurance I 1 s.h.
Patient management, record writing skills, and quality assurance concepts; students coordinate treatment, patient relations, and issues of quality assurance for a group of patients.

DENT:8372 Quality Assurance II 1 s.h.
Continuation of DENT:8371; patient management, record writing skills, and quality assurance concepts; students coordinate treatment, patient relations, and issues of quality assurance for a group of patients; ethical and moral dilemmas in relation to dental practice.

DENT:8400 Fourth-Year Lectures and Clinics arr.

DENT:8485 Clinical Admissions Emergency 2 s.h.
Clinical evaluation, diagnosis, and treatment of patients with dental emergencies; patient assessment and referral to appropriate department for treatment.

DENT:8489 Clinical Practice and Professionalism V1 s.h.
Dental quality assurance from the viewpoints of patients, practicing dentists, dental educators, legal, insurers, and social workers. Evaluating dental practice in relation to quality assurance.

DENT:9000 Advanced Clinical Comprehensive Dentistry 0 s.h.
Clinical experience for professional improvement. Requirements: dental degree.

Doctor of Dental Surgery

Professional degree: DDS

Website: https://dentistry.uiowa.edu/

The Doctor of Dental Surgery program prepares students to practice general dentistry. The DDS is a professional degree awarded by the College of Dentistry.

Dentistry Licensure Examination

The State of Iowa accepts clinical examination results from all Regional Dental Testing Services including a manikin exam in lieu of a patient exam. Examinations are administered at several testing sites located at dental schools in the United States. A separate license application is then filed with the individual state board of dentistry.

For licensure, all states also require the National Boards, conducted by the Joint Commission on National Dental Examinations. Many states, including Iowa, also require a jurisprudence examination. For further details on licensure requirements for each state, refer to individual state dental board websites.

Student Organizations

The Academy of General Dentistry, the American Dental Education Association, the American Association of Dental Research (Student Research Group), the American Association for Women Dentists, the American Academy of Pediatric Dentistry student chapter, the American Association of Public Health Dentistry student chapter, the Christian Dental Association, the Student National Dental Association, the Hispanic Dental Association student chapter, and the Tau Sigma Military Dental Club also have local chapters. The College of Dentistry also has interest clubs in oral and maxillofacial surgery, orthodontics, periodontics, and prosthodontics.

Students who rank in the upper 20% of their senior class are eligible for election to Omicron Kappa Upsilon, a national scholastic honorary dental society.

The national dental professional fraternity, Delta Sigma Delta, has a chapter at Iowa. The fraternity provides academic and social activities for students and their spouses.

Programs

Professional Program of Study

- Doctor of Dental Surgery [p. 1295]

Academic Rules and Procedures

Promotions and Graduation

Student promotions and graduation are determined by the Collegiate Academic and Professional Performance (CAPP) Committee, which is made up of individuals appointed by the dean from the biomedical, preclinical, and clinical sciences and from other academic areas of the college. The performance committee may recommend to the executive associate dean that a student withdraw from the college or repeat specific courses when the student is deemed generally unprepared to be promoted or to enter the dental profession.

Appeals

When a student has been asked to withdraw from the college or wants special consideration of problems concerning promotion or graduation, the student may appeal to the dean.

Doctor of Dental Surgery, DDS

The Doctor of Dental Surgery (DDS) is a professional degree awarded by the College of Dentistry. Admission requirements include 90 s.h. of undergraduate credit, including specific required courses, completed at an accredited college; see Admission [p. 1297] in this section of the catalog.

Students working toward a bachelor's degree in the University of Iowa College of Liberal Arts and Sciences before being admitted to the College of Dentistry may be able to complete their bachelor's degree during their first year in dentistry; see "Bachelor's Degree/DDS" under Requirements [p. 1295] in this section of the catalog.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Requirements

The Doctor of Dental Surgery requires a minimum of three years of preprofessional study and four years of study in the College of Dentistry. Students are required to maintain a cumulative grade-point average of at least 2.00 to earn the degree.

Coursework during the first and second years in the College of Dentistry integrates the biomedical sciences with preclinical and clinical disciplines. The biomedical sciences include gross anatomy, biochemistry, general histology, microbiology, pathology, pharmacology, and physiology. Students also study topics specific to dentistry, such as principles of occlusion, anesthesia and pain control, operative dentistry, periodontics, prosthodontics, cariology, and preventive dentistry. During the latter part of the first year, students are introduced to their first clinical patient treatment situation.

Second-year dental students continue their study of biomedical sciences, take preclinical courses, have additional patient treatment experiences in restorative and preventive dentistry, and are introduced to aesthetic and implant dentistry.

Third-year dental students rotate through a series of clerkships that expose them to eight clinical disciplines: endodontics, operative dentistry, oral and maxillofacial surgery, oral pathology, pediatric dentistry, periodontics, prosthodontics, and oral radiology and medicine.

Fourth-year dental students deliver comprehensive dental care in conditions that closely approximate those in private dental practice. They are also exposed to varied community dentistry health programs throughout Iowa and other states that include hospitals, nursing homes, and special care clinics. They may choose to participate in the Colorado Migrant Worker Program or the Indian Health Service Program. The community dentistry programs provide exposure to facets of dentistry usually not observable in an academic setting.

Students may gain research experience by enrolling in PCD:8500 Dental Student Research Honors Program.

The Doctor of Dental Surgery requires the following coursework.

First Year, Fall

Course #	Title	Hours
BMB:8101	Biochemistry for Dental Students	3
DENT:8120	Foundations in Microbiology and Immunology	3
MPB:8115	Human Physiology for Dental Students	4
OPER:8120	Dental Anatomy	3
OPER:8122	Introduction to Operative Dentistry	1
PCD:8115	Patient Management: Ethics and Interprofessional Education	1
PCD:8116	Preventive Dentistry: Introduction	2
PCD:8117	Cariology and Preventive Therapies	2
PCD:8120	Introduction to Evidence-Based Dentistry I	1
PROS:8120	Treatment of Dentulous Patients: Introduction to Occlusion Lecture	1
PROS:8121	Treatment of Dentulous Patients: Introduction to Occlusion Lab	1

First Year, Spring

Course #	Title	Hours
DENT:8110	Patient Management: Interprofessional Education II	0
ACB:8120	Human Gross Anatomy for Dental Students	6
ACB:8121	General Histology for Dental Students	4
OMFS:8115	Anesthesia and Pain Control I	1
OPER:8124	Operative Dentistry I	5
OPRM:8120	Fundamentals of Oral Radiology	1
PCD:8118	Preventive Dentistry Assessment and Patient Care	4
PCD:8119	Patient Management: Communication Fundamentals	1
PCD:8121	Introduction to Evidence-Based Dentistry II	1
PROS:8122	Treatment of Dentulous Patients: Fixed Prosthodontics for Single Anterior Teeth Lecture	1
PROS:8123	Treatment of Dentulous Patients: Fixed Prosthodontics for Single Anterior Teeth Lab	1
PROS:8124	Treatment of Dentulous Patients: Fixed Prosthodontics for Single Posterior Teeth Lecture	1

PROS:8125	Treatment of Dentulous Patients: Fixed Prosthodontics for Single Posterior Teeth Lab	1

Second Year, Fall

Course #	Title	Hours
DENT:8210	Patient Management: Interprofessional Education III	0
DENT:8230	Biomedical Sciences in Clinical Practice	2
OMFS:8230	Basic Oral and Maxillofacial Surgery	2
OPER:8240	Operative Dentistry II	3
OPRM:8235	Oral Pathology I	2
OPRM:8245	Introduction to Clinical Oral Radiology	1
ORDN:8215	Growth and Development	1
PATH:8133	Introduction to Human Pathology for Graduate Students	2
PCD:8218	Critical Thinking and Evidence-Based Dentistry in Treatment Planning	1
PCD:8245	Clinical Preventive Dentistry	2
PROS:8240	Treatment of Partially Edentulous Patients: Fixed Multi-Unit Prosthodontics Lecture	1
PROS:8241	Treatment of Partially Edentulous Patients: Fixed Multi-Unit Prosthodontics Patient Simulation I	1
PROS:8242	Treatment of Partially Edentulous Patients: Single Tooth Implant Lecture	1
PROS:8243	Treatment of Partially Edentulous Patients: Single Tooth Implant Patient Simulation	1

Second Year, Spring

Course #	Title	Hours
ENDO:8240	Preclinical Endodontics Lecture	1
ENDO:8241	Preclinical Endodontics Laboratory	1
OMFS:8245	Anesthesia and Pain Control II	1
OPER:8243	Introduction to Clinical Operative Dentistry	3
OPRM:8236	Oral Pathology II	2
OPRM:8240	Basic Pharmacology	3
ORDN:8235	Orthodontic Laboratory	1
ORDN:8236	Orthodontic Treatment	1
PCD:8219	Patient Management: Communication Challenges	1
PEDO:8240	Pediatric Dentistry Diagnosis and Treatment	3
PERI:8230	Fundamentals in Periodontology II	1
PROS:8244	Treatment of Partially Edentulous Patients: Removable Partial Prosthodontics Lecture	1
PROS:8245	Treatment of Partially Edentulous Patients: Removable Partial Prosthodontics Patient Simulation	1
PROS:8246	Treatment of Edentulous Patients: Removable Complete Prosthodontics Lecture	1
PROS:8247	Treatment of Edentulous Patients: Removable Complete Prosthodontics Patient Simulation	1

Third Year Clinical Rotations

In addition to fall and spring coursework, students complete the following multidisciplinary rotations throughout the year.

Course #	Title	Hours
ENDO:8370	Clinical Endodontics (20 weeks)	4
OMFS:8360	Clinical Oral and Maxillofacial Surgery (5 weeks)	4
OPER:8370	Operative Dentistry III (10 weeks)	4
OPRM:8360	Clinical Oral Diagnosis (5 weeks)	1
OPRM:8361	Clinical Oral Radiology (5 weeks)	1
OPRM:8365	Clinical Oral Pathology (5 weeks)	1
PEDO:8370	Pediatric Dentistry: Clinical Applications (10 weeks)	4
PERI:8370	Clinical Periodontology (20 weeks)	4
PROS:8370	Introduction to Clinical Prosthodontics (20 weeks)	8

Third Year, Fall

Course #	Title	Hours
DENT:8371	Quality Assurance I	1
OPRM:8355	Systemic Disease Manifestations	1
OPRM:8362	Applied Oral Radiology	1
OPRM:8368	Applied Dental Pharmacology	2
PCD:8319	Patient Management: Special Populations	1
PCD:8360	The Practice of Dentistry in the Community I	1

Third Year, Spring

Course #	Title	Hours
DENT:8360	Introduction to Clinical Orofacial Pain	1

DENT:8372	Quality Assurance II	1
PCD:8355	Introduction to Geriatric Dentistry	2
PCD:8361	The Practice of Dentistry in the Community II	2

Fourth Year Clinical Rotations

Students complete one yearlong course, FAMD:8488 Comprehensive Dental Patient Care. In addition to fall and spring coursework, students complete the following specialized rotations throughout the year.

Course #	Title	Hours
DENT:8485	Clinical Admissions Emergency	2
FAMD:8482	Dental Auxiliary Utilization	2
PCD:8489	Geriatrics and Special Needs Program (5 weeks)	4
PCD:8494	Extramural Rotation in Oral Health (5 weeks)	5

Fourth Year, Fall

Course #	Title	Hours
FAMD:8484	Dental Practice Management I	1
FAMD:8490	Seminar on Comprehensive Dental Care Topics	1
FAMD:8495	Advanced Treatment Planning I	1

Fourth Year, Spring

Course #	Title	Hours
DENT:8489	Clinical Practice and Professionalism V	1
FAMD:8485	Dental Practice Management II	1
FAMD:8497	Advanced Treatment Planning II	1

Dental Public Health Distinction Track

Students who seek this track take an additional four courses, participate in the Dental Public Health (DPH) club, and engage in community outreach activities. Students completing this track will graduate with distinction in dental public health.

The College of Dentistry also supports a fully accredited DPH graduate program for those who want to specialize in the discipline after dental school. See the Department of Preventive and Community Dentistry [p. 1328] in the catalog for more information.

Course #	Title	Hours
Four of these:		
DPH:5000	Introduction to Dental Public Health	0,2
DPH:5005	Administration of Public Dental Programs	0,2
DPH:5014	Dental Care Policy and Financing	0,2
DPH:6003	Independent Study: Dental Public Health	1-3
ABRD:3352	International Perspectives: Xicotepec	arr.
CBH:4105	Introduction to Health Promotion and Disease Prevention	3
CPH:5100	Introduction to Public Health	3
EPID:4400	Epidemiology I: Principles	3
HMP:4000	Introduction to the U.S. Health Care System	3
HMP:5200	Healthcare Management	3
OEH:4240	Global Environmental Health	3

Combined Programs

Bachelor's Degree/DDS

The College of Liberal Arts and Sciences (CLAS) allows its students to count 30 s.h. of elective credit earned in any other University of Iowa college toward graduation with a bachelor's degree. Under this policy, CLAS students who enroll in the College of Dentistry before completing their bachelor's degree may be able to complete their degree during their first year in dentistry. Students planning to take advantage of this plan must satisfy the CLAS residence requirement in order to enroll in the College of Dentistry. They must also fulfill all requirements for the bachelor's degree, including the GE CLAS Core [p. 22]requirements and the requirements for a major. Contact the College of Liberal Arts and Sciences for more information.

Admission

Applicants must submit a completed Associated American Dental Schools Application Service (AADSAS) application form to the American Dental Education Association (ADEA). The AADSAS application must be completed online at the American Dental Education Association website.

Applications are accepted in June of the year that precedes the year of entry. Completed applications must be on file at ADEA by Oct. 1. Applicants should apply as early as possible. Notifications of acceptance are sent beginning in December.

Predental Studies

The basic academic requirement for admission to the College of Dentistry is completion of at least 90 s.h. of academic study at an accredited college. No more than 60 s.h. of credit is accepted from a community college or two-year institution. The predental program of study should include the following.

- English: satisfactory accomplishment in English composition, rhetoric, and speech commensurate with the academic requirements for a bachelor's degree at the college attended.
- Physics: one year (equivalent to 8 s.h.), of which one-fourth must be laboratory work.
- Chemistry: two years (equivalent to 16 s.h.), of which one year (equivalent to 8 s.h.) must be in organic chemistry; one-fourth of each year's study must be laboratory work.
- Biological science: one year (equivalent to 8 s.h.), which must include appropriate laboratory work; the requirement may be satisfied by a one-year course in principles of biology, with instruction in cell biology, metabolism, organismic biology, animal biology, genetics, development, ecology, and evolution. Preference is given to applicants who have completed more than 8

s.h. Courses in human anatomy and cell physiology are strongly recommended.
- Biochemistry: one course (3 s.h.) that covers basic concepts in modern biochemistry and molecular biology.
- Electives: sufficient coursework in the social sciences, philosophy, psychology, history, world languages, business, and mathematics to provide a well-rounded educational background.

Grade-Point Average Requirement

Applicants should have a cumulative grade-point average (GPA) higher than 2.50 on a 4.00 scale; a GPA above 3.50 is preferred. The admissions committee gives special consideration to the quality of applicants' coursework in the predental sciences, in addition to the cumulative GPA.

Interviews

Personal interviews are required of applicants for admission to the College of Dentistry. After a complete AADSAS application is received by the admissions office, select applicants are contacted to arrange an interview.

Required Dental Admission Test

All applicants must complete the Dental Admission Test (DAT) sponsored by the Council on Dental Education and Licensure of the American Dental Association. A computerized DAT is available throughout the year at designated Prometric centers. Tests must be scheduled in advance.

Test application forms are available online or by mail from the American Dental Association, 211 East Chicago Avenue, Chicago, IL 60611.

Deposit by Accepted Applicants

Applicants accepted before Feb. 1 are required to submit a $500 deposit within 30 days after notification of admittance. Applicants admitted after Feb. 1 must submit the deposit within two weeks after notification of admittance. This deposit is not refundable but is credited toward the first fee payment. Applicants who fail to make the deposit within the time specified forfeit their place in the entering class.

Additional Admission Considerations

Fulfillment of the specific requirements listed for admission does not ensure admission to the College of Dentistry. The admissions committee reviews applicants who meet the minimum requirements and selects those who appear best qualified for the study and practice of dentistry. The committee considers quantitative and qualitative components of the application, letters of recommendation, the interview, and other factors.

Financial Support

Financial assistance for dental students is based on need. Dental students who demonstrate need are eligible for Health Professions, Stafford, and Grad PLUS loans. Students applying for loans must submit the Free Application for Federal Student Aid (FAFSA), including the parental information form on MyUI in order to be considered for the Health Professions loan. Loans are repayable over an extended period of time after the course of study is completed.

Collegiate short-term and long-term loans are available through the financial aid coordinator at the College of Dentistry.

Tuition scholarships are awarded each year to qualified entering dental students. The awards provide financial support up to $15,000 per year for as many as four years, if the student maintains an appropriate level of academic and professional performance.

Information on financial assistance for dental students is available from the university's Office of Student Financial Aid as well as the College of Dentistry Office of Student Affairs.

Expenses

The College of Dentistry maintains the Supply-Instrument Management System (SIMS), which provides students with instruments and supplies necessary throughout their dental training. The SIMS usage fee for the DDS is payable in installments over the four-year program.

A fee for expendable laboratory supplies is charged each of the first two years. A $100 breakage fee also must be deposited; the deposit is refundable upon graduation or termination of enrollment.

Career Advancement

The Doctor of Dental Surgery program prepares students to practice general dentistry.

Endodontics

Chair

- Leonardo Marchini

Director, Graduate Program

- Manuel Gomez

Professional certificate: endodontics

Faculty: https://dentistry.uiowa.edu/directory

Website: https://dentistry.uiowa.edu/departments/endodontics

The Department of Endodontics provides education and training to predoctoral students and to professional students who may work toward a graduate degree along with their professional training. Some students participate with departmental faculty in research that contributes to the knowledge base of the specialty. Faculty members and advanced students in the department also provide care to patients at the College of Dentistry.

DDS Student Training

Coursework and clinical experiences in endodontics are vital in the overall education of Doctor of Dental Surgery students. Preclinical endodontics, conducted during the sophomore year, includes a didactic and a laboratory component. In clinical endodontics, taught during the junior year, students study both normal and pathological conditions of the dental pulp and periapex. Diagnosing pulpal and periradicular disease and various specialized aspects of endodontic treatment are emphasized. Students treat endodontic patients under the direct supervision of faculty and staff.

Programs

Professional Program of Study

Certificate

- Certificate in Endodontics [p. 1300]

Facilities

The Department of Endodontics is located in the west section (third floor) of the Dental Science Building (DSB). The clinic is adjacent to the west entrance and well-equipped with the latest technology in endodontics and the disciplines involved.

Courses

Endodontics Courses

ENDO:5201 Update in Endodontics 0-1 s.h.
Recommended for second year certificate students.

ENDO:5225 Endodontic Literature Review I 0,2 s.h.
Current and historical research.

ENDO:5226 Endodontic Literature Review II 0,2 s.h.
Continuation of ENDO:5225.

ENDO:5260 Current Literature in Endodontics 0-1 s.h.
Current literature relevant to endodontics, including diagnosis or treatment of endodontic cases; dental journals with endodontic-related content; landmark research.

ENDO:5700 Endodontic Surgery Conference 0,2 s.h.
Attendance at Endodontic Surgery Conference.

ENDO:5701 Advanced Clinical Endodontics 0,3 s.h.
Advanced study.

ENDO:5710 Research in Endodontics arr.

ENDO:5720 Seminar in Endodontics I 0,2 s.h.
First in a series of lectures in endodontics.

ENDO:5721 Seminar in Endodontics II 0,2 s.h.
Continuation of ENDO:5720.

ENDO:6227 Endodontic Literature Review III 0,2 s.h.
Continuation of ENDO:5226.

ENDO:6228 Endodontic Literature Review IV 0,2 s.h.
Continuation of ENDO:6227.

ENDO:6701 Seminar in Endodontics III 0,2 s.h.
Continuation of ENDO:5721.

ENDO:6702 Seminar in Endodontics IV 0,2 s.h.
Continuation of ENDO:6701.

ENDO:8240 Preclinical Endodontics Lecture 1 s.h.
Examination of coronal and radicular dental anatomy, diagnosis of pulpal and periapical disease, and clinical protocols in endodontics; includes endodontic microbiology, endodontic procedural errors, and endodontic prognosis; also includes restoration of endodontically treated teeth. Prerequisites: MICR:8230 and OPER:8240 and OPRM:8245.

ENDO:8241 Preclinical Endodontics Laboratory 1 s.h.
Completion of clinical protocols in endodontics; includes access, straight-line access, working length determination, cleaning and shaping, and obturation; also includes rubber dam isolation, intracanal medicaments, and provisional restorations. Prerequisites: MICR:8230 and OPER:8240 and OPRM:8245.

ENDO:8370 Clinical Endodontics 4 s.h.
Completion of diagnosis, treatment planning, and treatment of pulpal and periapical disease; includes management of endodontic emergencies, local anesthesia, and radiology related to endodontics; also includes review and management of dental traumatic injuries.

Endodontics, Professional Certificate

Requirements

The professional Certificate in Endodontics requires a minimum of 24 months of full-time formal training. Students must maintain a cumulative grade-point average of at least 3.00 to earn the certificate.

The certificate is a clinical specialty program designed to provide qualified dentists with the scientific knowledge and clinical skills needed to practice endodontics and/or pursue a dental education and research career. The curriculum includes clinical and didactic courses. Students complete an original research project in endodontics and write a scientific paper on their research for submission to a refereed journal.

The program's goal is to develop competent diagnosticians and clinicians. Students learn the scientific and clinical basis of endodontics; develop clinical skills; gain knowledge of and experience in the educational process to function confidently as dental educators; and develop skills in designing, conducting, reporting, and publishing the results of original research.

The certificate program satisfies training requirements for eligibility for certification by the American Board of Endodontics. Students who complete the program are encouraged to seek board certification. Various activities throughout the course of study prepare students for the board examination process. Once students enroll in the certificate program, they cannot involve themselves in private dental practice enterprises outside the college. Please adhere to this policy to avoid dismissal from the program.

Students should complete the certificate program without interruption. Students who demonstrate a need to discontinue the program temporarily should limit their time away to a maximum of one calendar year. Students must have permission from the endodontics graduate program director to interrupt their study.

Graduate Study

Certificate students may work toward a Master of Science or a Doctor of Philosophy in oral science while earning the certificate. Both graduate degree programs provide students with in-depth knowledge in a scientific training discipline as preparation for careers in academia and research.

Students typically require three years of full-time study to complete the Certificate in Endodontics and the MS, or at least four years to complete the certificate and the PhD. Both graduate degree programs require more didactic coursework than the certificate program. The MS requires a thesis; the PhD requires a dissertation. See Oral Science [p. 1314] in the catalog.

Other graduate programs are available to endodontics certificate students, such as master's degrees in other disciplines or a certificate in combination with a PhD in a basic science area. Such programs are available by special arrangement, depending on a candidate's experience and goals. Consult the Department of Endodontics for more information.

Admission

Applicants to the endodontics certificate program must apply through the American Dental Education Association's Postdoctoral Application Support Services (ADEA PASS). Applicants must hold a DDS or DMD degree or an international equivalent and meet the application requirements of the Graduate College. When available, they should take the National Board Dental Examination (NBDE) Part 1 and Part 2.

Applications should include official transcripts from all undergraduate and graduate institutions, an updated curriculum vitae, three letters of recommendation, a personal statement, and a photograph (two-inch head-and-shoulders view).

The certificate program begins July 1; ADEA PASS applications should be submitted by July 1 for admission the following summer. Finalists for admission are asked for a personal interview in July; admission decisions are made following interviews.

Financial Support

Applicants to the certificate program must be able to support themselves financially until they complete the program.

Prospective students should plan to pay for living expenses, tuition, books, specialized equipment (e.g., surgical operating microscope, notebook computer, and ultrasonic system), instrument usage, and other costs.

Family Dentistry

Head

- Christopher A. Barwacz

Faculty: https://dentistry.uiowa.edu/directory

Website: https://dentistry.uiowa.edu/departments/family-dentistry

The Department of Family Dentistry reinforces and refines the comprehensive approach to managing patients' oral health care needs.

DDS Student Training

The senior year of the Doctor of Dental Surgery program integrates basic science knowledge, clinical skills, and dental laboratory experiences acquired during the first three years of dental school into a systematic approach to providing patient care.

Students who complete their education in family dentistry should:

- conduct themselves in a professional and ethical manner;
- understand the principles of comprehensive dental treatment planning;
- know the medical, ethical, and legal issues involved in patient care;
- be able to recognize the need for specialty consultation;
- be competent in coordinating and sequencing patient treatments;
- be effective members of the dental team;
- be prepared to enter general practice;
- be educated and trained for licensure examination; and
- appreciate the importance and value of lifelong learning.

Students spend five days a week in a clinical setting, where they gain experience in total patient management and care. Their didactic coursework builds on their previous education. All areas of clinical and didactic instruction, patient awareness, and sensitivity to patients' needs are stressed.

The department's practice management curriculum prepares students to evaluate practice locations and manage the business aspects of a dental practice.

Courses

Family Dentistry Courses

FAMD:8482 Dental Auxiliary Utilization 2 s.h.
Delivery of comprehensive dental treatment in a simulated group practice clinical setting with chairside dental assistants.

FAMD:8484 Dental Practice Management I 1 s.h.
Principles and philosophies of dental practice management.

FAMD:8485 Dental Practice Management II 1 s.h.
Principles and philosophies of dental practice management.

FAMD:8488 Comprehensive Dental Patient Care 26 s.h.
Refinement of didactic knowledge, clinical skills, judgment, and critical self-evaluation in the delivery of integrated, comprehensive dental care.

FAMD:8490 Seminar on Comprehensive Dental Care Topics 1 s.h.
Exploration of contemporary dental practices, covering various topics in preventive care, advanced restorative techniques, and specialist referrals in the comprehensive care management of patients. Requirements: DDS enrollment.

FAMD:8495 Advanced Treatment Planning I 1 s.h.
Development of critical thinking to implement comprehensive treatment plans involving a multidisciplinary approach in management of patients through case-based learning and didactic seminars.

FAMD:8497 Advanced Treatment Planning II 1 s.h.
Builds on FAMD:8495; continue the development of critical thinking and advanced clinical knowledge to implement complex comprehensive treatment plans involving a multidisciplinary approach in management of patients with complex medical and dental needs through case-based learning, peer discussion, and student case and portfolio presentations.

Geriatric and Special Needs Dentistry

Head

- Leonardo Marchini

Director, Geriatric and Special Needs Dentistry

- Rohit Nair

Professional certificate: geriatric and special needs dentistry

Faculty: https://dentistry.uiowa.edu/directory

Website: https://dentistry.uiowa.edu/pcd/geriatric-grad

The certificate program in geriatric and special needs dentistry prepares dentists to be leaders and teachers in this critical area of practice. The multidisciplinary program incorporates medicine and psychiatry and blends clinical and didactic experiences in varied settings, such as acute, palliative, rehabilitative, and long-term care. Its goal is to provide dental professionals with the knowledge and skills they need to provide patient-centered, sound, and realistic treatment plans for their geriatric and special needs patients.

The Certificate in Geriatric and Special Needs Dentistry is administered by the Department of Preventive and Community Dentistry [p. 1328].

Programs

Professional Program of Study

- Certificate in Geriatric and Special Needs Dentistry [p. 1303]

Courses

Geriatric and Special Needs Dentistry Courses

GSND:5700 Advanced Clinical Geriatric Dentistry I **0,4 s.h.**
Advanced clinical education in geriatric dentistry.

GSND:5771 Advanced Clinical Training for Developmentally Disabled Adults II **0,2 s.h.**

Geriatric and Special Needs Dentistry, Professional Certificate

Requirements

The professional Certificate in Geriatric and Special Needs Dentistry requires at least 40 s.h. over a minimum of one year of full-time study. Students must earn a minimum grade of C in each course. The program prepares dentists to evaluate and manage the oral health problems of older adults and adults with special health care needs across the spectrum of health care services. It also prepares professionals for scholastic positions in geriatric and special needs dental education.

Graduate students collaborate with medical residents and other allied health care professionals while providing holistic care for patients who have complex dental, medical, or behavioral conditions. Students gain experience in the College of Dentistry's patient care clinics and, in tandem with the Geriatric Mobile Dental Unit, travel to nursing homes to provide on-site dental care with state-of-the-art mobile and portable dental equipment.

Highlights of the curriculum include experiences in advanced clinical geriatric and special needs dentistry, interdisciplinary geriatric patient assessment, geriatric and special needs dentistry case studies, outreach, and teaching practicum.

The Certificate in Geriatric and Special Needs Dentistry requires the following coursework.

First Summer

Course #	Title	Hours
This course:		
GSND:5700	Advanced Clinical Geriatric Dentistry I	4

First Fall

Course #	Title	Hours
All of these:		
GSND:5702	Advanced Clinical Geriatric Dentistry II	4
GSND:5720	Outreach/Advanced Clinical Geriatric Dentistry I	3
GSND:5730	Interdisciplinary Geriatric Patient Assessment I	2
GSND:5740	Advanced Topics in Geriatric Dentistry and Special Needs I	2
GSND:5750	Geriatric Dental Case Study Seminar I	2
GSND:5770	Advanced Clinical Training for Developmentally Disabled Adults I	2

First Spring

Course #	Title	Hours
All of these:

GSND:5731	Interdisciplinary Geriatric Patient Assessment II	2
GSND:5742	Advanced Topics in Geriatric Dentistry and Special Needs II	2
GSND:5751	Geriatric Dental Case Study Seminar II	2
GSND:5760	Teaching Practicum in Geriatric Dentistry I	2
GSND:5771	Advanced Clinical Training for Developmentally Disabled Adults II	2

Second Summer

Course #	Title	Hours
This course:		
GSND:5704	Advanced Clinical Geriatric Dentistry IV	4

Admission

Applicants must hold a DDS or DMD degree from an accredited dental school. International applicants should have at least three years of clinical experience in general dentistry and/or postgraduate prosthodontics training and be licensed dentists. All applicants must meet the admission requirements of the Graduate College. Contact the Geriatric and Special Needs Dentistry Certificate Program to learn more.

Hospital Dentistry

Head

- Kirk L. Fridrich (Oral and Maxillofacial Surgery)

Director, Graduate Program

- Alison M. Uhl

Faculty: https://gme.medicine.uiowa.edu/american-dental-association-general-practice-residency/our-people

Website: https://gme.medicine.uiowa.edu/hospital-dentistry-general-practice-residency

The College of Dentistry operates a hospital dentistry clinical service at University of Iowa Health Care. The service includes divisions of general dentistry, maxillofacial prosthodontics, and oral and maxillofacial surgery, and it interacts with the college's specialties of orthodontics, periodontics, pediatric dentistry, endodontics, diagnosis, oral pathology, and prosthodontics.

The Hospital Dentistry Program offers a one-year general practice residency.

Residency

The general practice residency program prepares dentists for a broader scope of private practice in general dentistry. The program combines clinical and didactic training on an individual basis and meets the fundamental requirements of the Commission on Dental Accreditation of the American Dental Association (ADA).

The residency covers one year of hospital-based training. Through postdoctoral clinical, didactic, and hospital experience, residents prepare to meet the oral health needs of a wide range of ambulatory and nonambulatory patients. Rotations and patient experiences are located at University of Iowa Health Care.

Residency training includes the use of hospital resources, management of ambulatory patients, inpatients, same-day surgery patients, and emergency medical and dental patients. Residents participate in consultations with other hospital services and are assigned to appropriate hospital services to fulfill the objectives of the training program. They are appointed to the hospital's house staff and have the same privileges and responsibilities as residents in other professional education programs.

Admission

Applicants must be U.S. citizens or permanent residents and must be graduates of a dental school accredited by the American Dental Association. They also must be eligible for licensure to practice dentistry in the United States. The application deadline is Dec. 1 for the following July 1. See the Hospital Dentistry–General Practice Residency website for admission and application requirements.

Operative Dentistry

Interim Head

- Cristina de Mattos Pimenta Vidal

Professional certificate: operative dentistry

Faculty: https://dentistry.uiowa.edu/directory

Website: https://dentistry.uiowa.edu/departments/operative-dentistry

The Department of Operative Dentistry teaches the foundational concepts of dentistry to predoctoral dental students in caries management (diagnosis, prevention, repair, and restorative techniques) and dental materials. The primary departmental focus is to provide the knowledge, technical skills, critical thinking, and judgment for the diagnosis, prevention, and management of dental caries, non-caries dental defects (attrition, abrasion, erosion, abfraction, developmental abnormalities, discoloration, and trauma), and elective aesthetic smile enhancements. It also serves an equally important position to provide national leadership in dental research and advanced restorative technology in its collective faculty efforts and through the professional Certificate in Operative Dentistry.

DDS Student Training

Coursework and clinical experiences in operative dentistry are fundamental to the overall education of Doctor of Dental Surgery students. Operative dentistry coursework covers roughly one-quarter of curriculum time during the first three years of dental school as students progress toward competency in operative dentistry. The department's primary goal is to educate dental students, using the best evidence available and the latest proven technological approaches, to achieve and maintain optimal patient oral comfort, function, and aesthetics through risk-based diagnosis, prevention, and minimally invasive treatment of caries and noncarious lesions of the teeth.

Programs

Professional Program of Study

- Certificate in Operative Dentistry [p. 1307]

Courses

Operative Dentistry Courses

OPER:5126 Operative Dentistry Seminar 0-1 s.h.
Review and critical analysis of operative dentistry literature.

OPER:5127 Introduction to Operative Dentistry Advanced Education arr.
Broad introduction to key operative dentistry concepts in preparation for clinical patient care and teaching; overriding objectives are to reinforce fundamental principles of operative dentistry, refine clinical skills, enhance/add approaches of clinical problem solving, establish concepts of acceptable clinical performance levels, and preparation for resident instructors in predoctoral simulation clinic courses.

OPER:5140 Operative Dentistry Advanced Clinic 0-3 s.h.
Medical and surgical clinical management of dental disease; special emphasis on minimally invasive dentistry using advanced aesthetic principles.

OPER:5234 Selected Applications of Operative Dentistry 0-3 s.h.
Advanced techniques completed on simulated patients.

OPER:5240 Advanced Operative Dental Implants and Digital Dentistry 0-1 s.h.
Treatment of partially edentulous area with implant therapy for single tooth replacement; builds on operative dentistry knowledge base with emphasis on fundamental biomechanical principles, materials, and techniques required to rehabilitate form and function of a single tooth implant; demonstration of successful implant treatment predicated upon a sound diagnosis, appropriate treatment plan, precise prosthetically driven placement of implant, logical sequence of treatment, appropriate abutment selection, appropriate materials selection, routine prosthodontic maintenance, and patient education.

OPER:5245 Pre-Clinical Teaching 0-3 s.h.
Teaching predoctoral dental students on simulated patients.

OPER:6225 Graduate Restorative Materials 0,2 s.h.
Dental materials science; mechanical, physical, and chemical properties of restorative materials; selection and manipulation. Same as PROS:6224.

OPER:6226 Applied Dental Restorative Materials 1 s.h.
Addresses materials properties, characterization, and testing; review important concepts that influence materials' properties and degradation behavior and the latest laboratory techniques for materials characterization, including mechanical assays, chemical and surface analysis of materials, and thermal analysis; discuss the importance of regulatory agencies such as the International Organization for Standardization (ISO) and the American Dental Association (ADA). Prerequisites: OPER:6225.

OPER:6246 Clinical Teaching 0-2 s.h.
Clinical teaching instruction in operative dentistry clinics.

OPER:8120 Dental Anatomy 3 s.h.
Basic dental terminology and nomenclature, human tooth morphology, creation of tooth crowns with wax.

OPER:8122 Introduction to Operative Dentistry 1 s.h.
Introduction to basic didactic knowledge and psychomotor skills in the practice of operative dentistry in a preclinical setting with simulated scenarios; for first-year dental students.

OPER:8124 Operative Dentistry I 5 s.h.
Basic didactic knowledge and psychomotor skills of principles, terminology, instruments, materials, and techniques utilized in the practice of operative dentistry in a preclinical setting with simulated scenarios; for first-year dental students. Prerequisites: OPER:8120.

OPER:8240 Operative Dentistry II 3 s.h.
Principles of cavity preparation and digital workflow for designing and fabrication of partial cuspal coverage restorations using CAD/CAM; dental material properties and applications; principles of esthetic restorations and peer exercises on basic clinical concepts. Prerequisites: OPER:8120 and OPER:8122 and OPER:8124.

OPER:8243 Introduction to Clinical Operative Dentistry 3 s.h.
Students provide clinical care from diagnosis and treatment planning to caries and non-carious lesion management in patients; clinical experience in restoring teeth with small to moderate lesions or defects; demonstration of effective patient management skills including pain control, professionalism, and critical thinking; esthetic dentistry including tooth bleaching. Prerequisites: OPER:8120 and OPER:8122 and OPER:8124 and OPER:8240.

OPER:8370 Operative Dentistry III arr.
Combination of didactic and clinical aspects of operative dentistry; medical and surgical management of dental disease; emphasis on minimally invasive dentistry with advanced aesthetic principles. Prerequisites: OPER:8120 and OPER:8122 and OPER:8124 and OPER:8240 and OPER:8243.

Operative Dentistry, Professional Certificate

Requirements

Students can earn the professional Certificate in Operative Dentistry in conjunction with an MS or PhD in oral science. Completion of the certificate and the MS requires 36 months of full-time study. Students must maintain a cumulative grade-point average (GPA) of at least 3.00 to earn the certificate.

The MS requires additional coursework as well as a thesis and oral and written comprehensive exams. Students have some flexibility in their curriculum to take courses that particularly interest them; see Oral Science [p. 1314] in the catalog.

The Certificate in Operative Dentistry is a professional clinical advanced educational program that provides dentists with training for teaching, research, and the clinical practice of operative dentistry. The Operative Dentistry Advanced Education Program meets the educational requirements for application to take the board certification examinations of the American Board of Operative Dentistry. Operative dentistry is recognized by the American Dental Association as an interest area in general dentistry.

Admission

Applicants to the certificate program must be graduates of an accredited United States or recognized international dental school and must meet the admission requirements of the Graduate College. The department may request an interview with an applicant.

Students must provide their own financial support for the certificate and degree programs, including research and thesis expenses.

For more information, visit the Department of Operative Dentistry website.

Oral and Maxillofacial Surgery

Head

- Kirk L. Fridrich

Assistant Head

- Steven L. Fletcher

Director, Graduate Program

- Douglas E. Kendrick

Professional certificate: oral and maxillofacial surgery

Faculty: https://gme.medicine.uiowa.edu/oral-and-maxillofacial-surgery-residency/our-people/faculty

Website: https://gme.medicine.uiowa.edu/oral-and-maxillofacial-surgery-residency

The Department of Oral and Maxillofacial Surgery combines clinical and didactic training to fit the individual interests, abilities, and development of residents. Its training program for predoctoral students is based in the College of Dentistry, with some clinical assignments in the oral and maxillofacial surgery division at University of Iowa Health Care. Its certificate program is based primarily in the Oral and Maxillofacial Surgery Residency program at UI Health Care.

DDS Student Training

The Doctor of Dental Surgery curriculum in oral and maxillofacial surgery is designed to develop a foundation of professional knowledge and surgical skills that will enable students to diagnose and manage surgical problems related to general dentistry practice. The program emphasizes high ethical standards and the development of good surgical concepts and judgment.

The clinical portion of the curriculum allows students to develop surgical skills and apply the theoretical knowledge acquired in didactic courses. Theory and application of anesthesia-analgesia, intravenous sedation, and nitrous oxide analgesia techniques are presented through didactic and clinical experiences.

Programs

Professional Program of Study

Certificate

- Certificate in Oral and Maxillofacial Surgery [p. 1309]

Facilities

The University of Iowa health sciences campus has outstanding basic and clinical science departments that stimulate and support scholarly research and superior clinical practice. Appropriate environments for residency training in oral and maxillofacial surgery are provided by University of Iowa Health Care, the College of Dentistry, and the Carver College of Medicine.

Courses

Oral and Maxillofacial Surgery Courses

OMFS:5208 Pain and Anxiety Control 0-3 s.h.
Nitrous oxide; intravenous, oral, intramuscular anxiety and pain control; pharmacology of agents; complications, their management.

OMFS:5220 Research Methodology arr.
Research terminology; application of ethical, quantitative, and qualitative approaches to research; critical analysis of published research; guide and oversee Institutional Review Board (IRB) protocol processes.

OMFS:8115 Anesthesia and Pain Control I 1 s.h.
Principles, techniques of complete medical history, head and neck examination, cardiovascular and respiratory examination; neuroanatomical, psychophysiological aspects of pain; pharmacologic action and techniques for using local anesthetics.

OMFS:8230 Basic Oral and Maxillofacial Surgery 2 s.h.
In-depth review and instruction pertaining to systemic medical considerations which may affect oral and maxillofacial surgery (OMFS), wound repair, principles of asepsis, routine and complicated exodontia, surgical complications and informed consent, preprosthetic surgery, medical emergencies, management of patients undergoing radiation therapy and chemotherapy, infections, OMFS trauma, temporomandibular disorders, and maxillary sinus and salivary gland disorders.

OMFS:8245 Anesthesia and Pain Control II 1 s.h.
Theory, application, and instrumentation of nitrous oxide and IV sedation; emphasis on cardiovascular and respiratory physiology; pre-anesthetic evaluation of patients and practical techniques for nitrous oxide sedation.

OMFS:8355 Advanced Oral and Maxillofacial Surgery 1 s.h.
History, evaluation, diagnosis, and treatment of diseases and traumatic injuries of the oral and maxillofacial region.

OMFS:8360 Clinical Oral and Maxillofacial Surgery arr.
Develop a foundation of professional knowledge and enhance skills to enable diagnosis and management of surgical problems related to the practice of general dentistry.

Oral and Maxillofacial Surgery, Professional Certificate

Requirements

Residency Program

The department offers a four-year residency program that culminates in the professional Certificate in Oral and Maxillofacial Surgery. The program combines clinical and didactic training to prepare dentists for specialty practice. Every effort is made to adapt the program to the individual interests, abilities, and development of students, but it is essential that all students meet certain fundamental requirements.

Recommendations of the American Dental Association, the Committee on Graduate Training of the American Association of Oral and Maxillofacial Surgeons, and the American Board of Oral and Maxillofacial Surgery have been considered carefully in planning the structure and scope of training.

The residency period covers four years of hospital training, providing an orientation to hospital procedures, integration of basic and clinical sciences, acquisition of surgery principles, and familiarization with varied aspects of health services.

Competence in clinical oral and maxillofacial surgery requires knowledge of the basic medical sciences related to the specialty. In addition to hospital and clinical training, residents take advanced coursework in subjects such as applied pharmacology, surgical anatomy, pathology, physiology, and microbiology. They also review closely related disciplines such as radiology, anesthesiology, physical diagnosis, and laboratory procedures. Development and implementation of a research project under staff supervision enhance the value of the residency training.

The assumption of increased responsibility and the opportunity for clinical and operating room experience are important aspects of residency training. Residents gain clinical training in anesthesia through an assigned rotation in the Department of Anesthesia (Carver College of Medicine). Previous advanced training in physical diagnosis, physiology, pharmacology, and pathology take on greater clinical significance, and increased responsibility in the operating room as first assistant and surgeon further develops surgical judgment and skills.

Senior residents may be given responsibility for major oral and maxillofacial surgical cases during rotations at University of Iowa Health Care. Each fourth-year resident is assigned to a rotation as a clinical and didactic coordinator and assumes responsibility to qualify for examination by the American Board of Oral and Maxillofacial Surgery. To learn more about Iowa's program, visit the Oral and Maxillofacial Surgery Residency website.

Admission

Students may begin the four-year certificate program only on July 1. Applicants are selected through a postdoctoral dental matching program. The application deadline for the match in oral and maxillofacial surgery is Sept. 1 for admission the following July. Appointments are made after the match results are revealed and the staff elects to take official action. Appointments are offered on or before Feb. 1 for the following July.

Applicants must have graduated from an accredited college of dentistry, should be in the upper one-fourth of their graduating class, and must be eligible to be licensed to practice dentistry in the United States.

Oral Pathology, Radiology, and Medicine

Chair

- Lina M. Morena Uribe

Professional certificates: oral and maxillofacial pathology; oral and maxillofacial radiology

Faculty: https://dentistry.uiowa.edu/directory

Website: https://dentistry.uiowa.edu/oprm

The Department of Oral Pathology, Radiology, and Medicine educates predoctoral and graduate students. The department has diverse curricular responsibilities and faculty members with widely varied disciplinary expertise.

DDS Student Training

The department teaches dental students about diseases that manifest in and around the oral and maxillofacial region. Students learn about the clinical, radiographic, laboratory, histopathologic, and therapeutic management of these diseases and about their etiology and natural history. They also study the identification of systemic diseases and the oral implications through the physical evaluation of patients.

Programs

Professional Programs of Study

- Certificate in Oral and Maxillofacial Pathology [p. 1312]
- Certificate in Oral and Maxillofacial Radiology [p. 1313]

Facilities

Facilities reserved for the Department of Oral Pathology, Radiology, and Medicine include a radiology special procedures area, an interpretation room, a surgical oral pathology laboratory, a clinical pathology laboratory with areas for histopathology, and a seminar room for small groups of graduate and undergraduate students.

In addition, the College of Dentistry has joint-use research laboratories that are well-equipped and staffed for conducting research involving histology, histochemistry, materials technology, radiobiology, ultrastructure, and electron probe analysis and quantification.

Courses

Oral Pathology, Radiology, and Medicine Courses

OPRM:5200 Stomatology Literature Review 0-3 s.h.
Current literature in oral and maxillofacial pathology and radiology; presentation of graduate student research; development of lectures or seminars for DDS or graduate students, or continuing education for peers and practicing dentists.

OPRM:5225 Manifestations of Oral and Paraoral Disease 0-3 s.h.
Clinical experience in diagnosing, managing patients.

OPRM:5226 Oral Pathology for Graduate Students 0-1 s.h.
Head and neck diseases, abnormalities.

OPRM:5227 Surgical Oral Pathology 0-1 s.h.
Experience in day-to-day operations of surgical oral pathology laboratory; advanced training in histopathologic diagnosis of oral and maxillofacial diseases. Corequisites: OPRM:5240, if not taken as a prerequisite.

OPRM:5228 Introduction to Surgical Oral Pathology 0-1 s.h.
Day-to-day operations of surgical oral pathology laboratory; histopathologic diagnosis of oral and maxillofacial diseases.

OPRM:5230 Research in Oral Pathology, Radiology, and Medicine 0-3 s.h.
Includes thesis preparation.

OPRM:5238 Introduction to Histopathology 0-1 s.h.
Case studies; histopathologic diagnosis of diseases that affect oral and maxillofacial region.

OPRM:5240 Histopathology 0-1 s.h.
Case studies; advanced training in histopathologic diagnosis of diseases that affect oral and maxillofacial region. Corequisites: ORDN:5202, if not taken as a prerequisite.

OPRM:5241 Hospital Oral Pathology, Radiology, and Medicine 0-3 s.h.
Management of patient consultations, diagnosis, therapy at a hospital-based dental service.

OPRM:5242 Clinical Oral and Maxillofacial Radiology 0-3 s.h.
Radiologic manifestations of diseases; emphasis on craniofacial complex.

OPRM:5243 Practical Oral and Maxillofacial Radiology 0-3 s.h.
Clinic participation; supervision of dental and dental hygiene students, review of their cases; participation in clinical radiology conferences, laboratory exercises.

OPRM:5244 Technical Oral and Maxillofacial Radiology 0-3 s.h.
Experience with technical maintenance of darkroom, clinical equipment; troubleshooting under supervision of radiology staff.

OPRM:5245 Head and Neck Radiology 0-3 s.h.
Hospital-based rotation in diagnostic radiology with participation in interpretation sessions; CT, MRI, nuclear medicine, ultrasound.

OPRM:5246 Craniofacial Radiology 0-3 s.h.
Hospital-based rotation in diagnostic radiology; exposure to interpretive sessions on ultrasound, CT, MRI, nuclear medicine.

OPRM:5256 Advanced Oral Pathology 0-1 s.h.
Diseases involving orofacial organs; emphasis on bibliographic research, biodynamic analysis of pathologic processes, diagnostic interpretation; content adapted to student interests. Requirements: graduate standing in oral pathology.

OPRM:8120 Fundamentals of Oral Radiology 1 s.h.
Methods of clinical, radiographic examination, record keeping; correlation of basic, clinical sciences.

OPRM:8235 Oral Pathology I 2 s.h.
Application of biomedical science knowledge to diagnosis and management of oral and maxillofacial diseases, primarily surface epithelial diseases; classification of lesions and diseases of the oral and maxillofacial region into clinical categories, formulation of a clinical differential diagnosis, and recommendation of initial management based on clinical differential diagnosis.

OPRM:8236 Oral Pathology II 2 s.h.
Application of biomedical science knowledge to diagnosis and management of oral and maxillofacial diseases, primarily hard and soft tissue diseases/neoplasms and syndromes; identification of cause, pathogenesis, historical features, signs, symptoms, laboratory abnormalities, radiographic findings (where applicable), and recommended initial management of the most common and/or serious diseases and lesions of the oral and maxillofacial region. Prerequisites: OPRM:8235.

OPRM:8240 Basic Pharmacology 3 s.h.
Principles of pharmacology, pharmacologic actions of drugs, and correlation with therapeutic uses.

OPRM:8245 Introduction to Clinical Oral Radiology 1 s.h.
Principles, techniques of diagnosis, radiology, clinical pathology in clinical practice.

OPRM:8355 Systemic Disease Manifestations 1 s.h.
Clinical medicine for dental students; basic information for patient evaluation.

OPRM:8360 Clinical Oral Diagnosis 1 s.h.
Diagnosis of orofacial diseases by clinical, laboratory, radiographic and treatment planning methods; clinical case analysis.

OPRM:8361 Clinical Oral Radiology arr.
Making and processing intraoral, extraoral radiographs; principles of radiographic interpretation.

OPRM:8362 Applied Oral Radiology 1 s.h.
Builds on foundational knowledge learned in OPRM:8120 and OPRM:8245; emphasis on understanding disease process on radiographs and its interpretation. Prerequisites: OPRM:8120 and OPRM:8245.

OPRM:8365 Clinical Oral Pathology 1 s.h.
Oral and maxillofacial diseases: integration of the clinical, historical, radiographic features; therapeutic management.

OPRM:8368 Applied Dental Pharmacology 2 s.h.
Patients' medications and their implications for dental treatment; clinical use of medications that dentists may prescribe; guidelines for dental prescribing.

Oral and Maxillofacial Pathology, Professional Certificate

Requirements

The department offers the professional Certificate in Oral and Maxillofacial Pathology. The educational requirements of the certificate program meet the requirements for the preparation of dental specialists set by the Commission on Dental Accreditation, the American Board of Oral and Maxillofacial Pathology. Students must maintain a cumulative grade-point average of at least 3.00 to earn the certificate.

Oral science involves the study of structure, function, and diseases of the oral and maxillofacial region. Study methods include examination of related histories, evaluation of clinical signs and symptoms, and use of biochemical, microscopic, and radiologic procedures to establish a diagnosis and plan for therapeutic management.

The department's programs are diverse and flexible, allowing students to obtain advanced clinical, didactic, and research-related education while earning a professional certificate. Students working toward the certificate may pursue a Master of Science in oral science in conjunction with the certificate; see "Graduate Study."

Graduate Study

Students earning the department's certificate may pursue a Master of Science in oral science with a subprogram in oral and maxillofacial pathology while they work toward the certificate. Each program combines the minimum requirements of the MS and the certificate; completion time is usually 36 to 48 months.

All students in the combined programs pursue a comprehensive study of basic biological and health sciences in preparation for teaching and research. They must complete the following courses, including the core courses and the basic science and departmental courses listed for their MS track. They must also prepare, submit, and defend their thesis based on the results of research conducted during their course of study. See the MS in oral science [p. 1315] in the catalog for additional information about requirements and admission.

Core Courses

Course #	Title	Hours
OPRM:5200	Stomatology Literature Review	0-1
OPRM:5226	Oral Pathology for Graduate Students	0-1
OPRM:5242	Clinical Oral and Maxillofacial Radiology	0-1
ORSC:5200	Seminars in Dental Research	1
ORSC:5210	Dental Sciences Research Methodology	2
ORSC:5212	Statistical Methods for Dental Research	3
ORSC:5215	Research Design in Dentistry	2
ORSC:5600	Research in Oral Science	9
OTO:8199	Foundations of Otolaryngology	2

Track Courses

Course #	Title	Hours
OPRM:5225	Manifestations of Oral and Paraoral Disease	0-1
OPRM:5227	Surgical Oral Pathology	1
OPRM:5240	Histopathology	1
OPRM:5256	Advanced Oral Pathology	0-1
DPH:6017	Teaching Methods and Evaluation	2
MED:8133	Mechanisms of Health and Disease II	7
MED:8134	Mechanisms of Health and Disease III	11
ORSC:5280	Advanced Dental Therapeutics	1

Admission

Applicants must have successfully completed an accredited program leading to the DDS or DMD, or an international equivalent, and must meet the admission requirements of the Graduate College. They must have a cumulative grade-point average of at least 3.00 (or international equivalent) to be considered for admission.

The department's faculty makes final decisions on the acceptance of applicants who meet the requirements for admission. A personal interview is required.

Oral and Maxillofacial Radiology, Professional Certificate

Requirements

The department offers the professional Certificate in Oral and Maxillofacial Radiology. The educational requirements of the certificate program meet the requirements for the preparation of dental specialists in oral and maxillofacial radiology set by the Commission on Dental Accreditation and the American Board of Oral and Maxillofacial Radiology. Students must maintain a cumulative grade-point average of at least 3.00 to earn the certificate.

Oral and maxillofacial radiology involves the study of structure, function, and diseases of the oral and maxillofacial region. Study methods include examination of related histories, evaluation of clinical signs and symptoms, and use of radiologic procedures for interpretation and to establish a diagnosis and plan for therapeutic management.

The department's programs are diverse and flexible, allowing students to obtain advanced clinical, didactic, and research-related education while earning a professional certificate. Students working toward the certificate may pursue a Master of Science in oral science in conjunction with the certificate; see "Graduate Study."

Graduate Study

Students earning the department's certificate may pursue a Master of Science in oral science with a subprogram in oral and maxillofacial radiology while they work toward the certificate. Each program combines the minimum requirements of the MS and the certificate; the completion time usually is 36 to 48 months.

All students in the combined programs pursue a comprehensive study of basic biological and health sciences in preparation for teaching and research. They must complete the following courses, including the core courses and the basic science and departmental courses listed for their MS track. They must also prepare and submit a thesis based on the results of research conducted during their course of study. See the MS in oral science [p. 1315] in the catalog for additional information about requirements and admission.

Applicants must have successfully completed an accredited program leading to the DDS or DMD, or an international equivalent, and must meet the admission requirements of the Graduate College. They must have a cumulative grade-point average of at least 3.00 (or international equivalent) to be considered for admission.

Passing the National Board Dental Examinations (NBDE) Part I and Part II or the Integrated (INBDE) is recommended but not required.

The department's faculty makes final decisions on the acceptance of applicants who meet the requirements for admission. A personal interview is required.

Oral Science

Director

- Jeffrey A. Banas (Pediatric Dentistry)

Graduate degrees: MS in oral science; PhD in oral science

Faculty: https://dentistry.uiowa.edu/directory

Website: https://dentistry.uiowa.edu/education/specialty-programs/oral-science-graduate-program

Graduate programs in oral science require that students complete courses from a core curriculum and conduct independent research leading to a thesis. The programs prepare and equip graduates for a variety of career options for which the ability to conduct research and understand the principles of scientific inquiry are essential.

Students must enroll in a professional certificate program offered by a College of Dentistry department in order to enroll in the Master of Science program in oral science. The following departments offer their certificate students the opportunity to earn MS degrees in oral science: endodontics, prosthodontics, operative dentistry, periodontics, and oral pathology, radiology, and medicine.

Programs

Graduate Programs of Study

- Master of Science in Oral Science [p. 1315]
- Doctor of Philosophy in Oral Science [p. 1318]

Courses

Oral Science Courses

ORSC:5200 Seminars in Dental Research 0-1 s.h.

ORSC:5210 Dental Sciences Research Methodology 0,2 s.h.
Practical, experimental procedures in dental research; literature and design; writing of research protocols. Offered summer session.

ORSC:5212 Statistical Methods for Dental Research 0,3 s.h.
Descriptive methods, elementary probability, distributions, populations and samples, methods for analyzing percentage data and paired and unpaired measurement data, regression, correlation, and analysis of variance.

ORSC:5215 Research Design in Dentistry 0,2 s.h.
Types of studies used in dentistry; design validity; sampling methodologies; major descriptive and experimental designs used in dental research; application of statistical tests to these designs. Offered spring semesters.

ORSC:5240 Pathophysiology of the Pulp-Dentin Complex 0-3 s.h.
Biology of tissue; emphasis on pathological changes. Offered spring semesters of even years. Prerequisites: ORSC:5210.

ORSC:5250 Current Concepts of Cariology 0,2 s.h.
Etiology of dental caries; pathogenesis, development of preventive measures. Offered spring semesters of odd years. Prerequisites: ORSC:5210.

ORSC:5260 Bone and Tooth Support Structure and Implants 0,2 s.h.
Biology of bone and periodontal structures; biologic basis for therapeutic use of dental implants. Offered fall semesters of odd years.

ORSC:5275 Oral Microbiology and Immunology 0,2 s.h.
Principles of microbiology and immunology, aspects of microbial community development in the oral cavity, basic concepts of host/parasite interactions related to development of oral diseases; biological, immunological, and clinical manifestations induced by major oral pathogens. Offered spring semesters of odd years. Requirements: microbiology, biochemistry, and biology. Recommendations: immunology.

ORSC:5280 Advanced Dental Therapeutics 0-1 s.h.
Antimicrobial, analgesic, related therapies; emphasis on drug/drug interactions, dental implications of chronic cardiovascular and central nervous system medications. Offered fall semesters.

ORSC:5300 Dental Management for Patients With Complex Medical History 0-1 s.h.
Risk assessment, treatment planning, medically compromised patients, systemic complications, medical emergency in dental offices. Offered fall semesters of odd years.

ORSC:5600 Research in Oral Science arr.
Thesis research. Requirements: oral science MS or PhD candidacy.

ORSC:5610 Independent Study 0-3 s.h.
Opportunity to pursue in-depth study in a particular area of interest; students meet with faculty member to design plan of study.

ORSC:5620 Oral Sciences Colloquium arr.
Presentations, seminars, and discussion sessions on research presentations; career and individual development plans for graduate and postdoctoral students in the oral sciences program.

Oral Science, MS

Learning Outcomes

Acquisition of Broad-Based Foundational Knowledge in Oral Science

- Demonstrate a broad-based understanding of the scientific disciplines relevant to oral science.
- Demonstrate mastery of the literature and background knowledge pertaining to one's chosen area of research.
- Understand the principles of biostatistical analyses and appropriate engagement with biostatisticians.

Development of Critical Thinking Skills

- Critically analyze primary scientific literature.
- Rationally debate and defend scientific viewpoints using scientific principles and critical analysis skills.
- Demonstrate problem-solving skills.

Understanding of the Scientific Method and Its Application

- Formulate hypotheses or experimental objectives that address knowledge gaps in the literature.
- Formulate a logical and feasible approach to test a hypothesis or accomplish research objectives.
- Critically evaluate results and draw appropriate conclusions from the data.

Proficiency in Research

- Conduct research in a responsible and ethical manner.
- Carry out an in-depth research project and contribute intellectually and technically to all parts of its development, execution, and analysis.

Proficiency in Scientific Communication

- Demonstrate proficiency in scientific writing as evidenced by first-author manuscripts and by composing grant applications.
- Organize, defend, and communicate ideas effectively in scientific oral presentations and settings.

Interpersonal and Leadership Skills

- Demonstrate an ability to work, when appropriate, in teams or collaborative settings with a diverse workforce.
- Develop leadership skills, commensurate with experience, facilitate group discussions, teach, and/or conduct meetings.
- Effectively mentor and motivate subordinates and/or peers.
- Respond appropriately to positive or negative feedback.

Requirements

The Master of Science program in oral science requires a minimum of 30–33 s.h. of graduate credit, including independent research leading to a thesis and a final examination.

Students pursuing the MS must be enrolled in a clinical specialty training program offered by a College of Dentistry department. Specific course requirements vary depending on the clinical specialty. Students typically complete the MS and the clinical specialty training program in three years of study.

The master's program is offered in conjunction with a certificate in one of six clinical subprograms: endodontics [p. 1315], operative dentistry [p. 1315], oral and maxillofacial pathology [p. 1316], oral and maxillofacial radiology [p. 1316], periodontics [p. 1316], or prosthodontics [p. 1317].

Core Courses

The following courses are required for all students seeking the MS in oral science.

Course #	Title	Hours
All of these:		
ORSC:5210	Dental Sciences Research Methodology	2
ORSC:5212	Statistical Methods for Dental Research	3
ORSC:5215	Research Design in Dentistry	2

Endodontics Subprogram

The subprogram in endodontics requires a minimum of 32 s.h. of graduate credit (24 s.h. of didactic credit including the core courses and 8 s.h. of research credit). Students enrolled in the professional certificate in endodontics have the option to complete the MS in oral science, endodontics subprogram and may be able to use some courses to satisfy requirements in both programs. The following coursework is required.

Course #	Title	Hours
All of these:		
ORSC:5240	Pathophysiology of the Pulp-Dentin Complex	2
ORSC:5260	Bone and Tooth Support Structure and Implants	2
ORSC:5275	Oral Microbiology and Immunology	2
ORSC:5280	Advanced Dental Therapeutics	1
ORSC:5300	Dental Management for Patients With Complex Medical History	1
ENDO:5260	Current Literature in Endodontics	1
ENDO:5700	Endodontic Surgery Conference	2
ENDO:5701	Advanced Clinical Endodontics (taken twice for 3 s.h. each)	6
This research course:		
ORSC:5600	Research in Oral Science (taken multiple times for a total of 8 s.h.)	8

Operative Dentistry Subprogram

The MS in oral science with a subprogram in operative dentistry requires a minimum of 30 s.h. of graduate credit (21 s.h. of didactic credit including the core courses and 9 s.h. of research credit). Students enrolled in the professional certificate in operative dentistry are required to complete the MS or PhD in oral science, operative dentistry subprogram and may be able to use some courses to satisfy requirements in both programs. If students have already completed a master's or doctoral program equivalent to a U.S. program, they may

contact the program director to see if this requirement may be waived. The following coursework is required.

Course #	Title	Hours
All of these:		
ORSC:5200	Seminars in Dental Research (taken three times for 1 s.h. each)	3
ORSC:5240	Pathophysiology of the Pulp-Dentin Complex	2
ORSC:5250	Current Concepts of Cariology	2
ORSC:5280	Advanced Dental Therapeutics	1
DPH:6002	Research Protocol Seminar	2
GRAD:6217	Seminar in College Teaching	2
PROS:6224/ OPER:6225	Graduate Restorative Materials	2
This research course:		
ORSC:5600	Research in Oral Science (taken multiple times for a total of 9 s.h.)	9

Oral and Maxillofacial Pathology Subprogram

The MS in oral science with a subprogram in oral and maxillofacial pathology requires a minimum of 33 s.h. of graduate credit (24 s.h. of didactic credit including the core courses and 9 s.h. of research credit). Students enrolled in the professional certificate in oral and maxillofacial pathology have the option to complete the MS in oral science, oral and maxillofacial pathology subprogram and may be able to use some courses to satisfy requirements in both programs. The following coursework is required.

Course #	Title	Hours
All of these:		
ORSC:5200	Seminars in Dental Research (taken twice for 1 s.h. each)	2
ORSC:5280	Advanced Dental Therapeutics	1
DPH:6017	Teaching Methods and Evaluation	2
MED:8133	Mechanisms of Health and Disease II	7
OPRM:5200	Stomatology Literature Review	1
OPRM:5226	Oral Pathology for Graduate Students	1
OPRM:5256	Advanced Oral Pathology	1
OTO:8199	Foundations of Otolaryngology	2
This research course:		
ORSC:5600	Research in Oral Science (taken multiple times for a total of 9 s.h.)	9

Oral and Maxillofacial Radiology Subprogram

The MS in oral science with a subprogram in oral and maxillofacial radiology requires a minimum of 30 s.h. of graduate credit (22 s.h. of didactic credit including the core courses and 8 s.h. of research credit). Students enrolled in the professional certificate in oral and maxillofacial radiology have the option to complete the MS in oral science, oral and maxillofacial radiology subprogram. The following coursework is required.

Course #	Title	Hours
All of these:		
FRRB:3110	Medical Physics I	1
FRRB:3130	Introduction to Radiation Safety and Radiobiology	1
FRRB:3215	Medical Physics II	2
OPRM:5200	Stomatology Literature Review	1
OPRM:5226	Oral Pathology for Graduate Students	1
OPRM:5242	Clinical Oral and Maxillofacial Radiology	1
OPRM:5243	Practical Oral and Maxillofacial Radiology	1
OPRM:5244	Technical Oral and Maxillofacial Radiology	1
OPRM:5245	Head and Neck Radiology	1
OTO:8199	Foundations of Otolaryngology	2
PATH:8133	Introduction to Human Pathology for Graduate Students	3
This research course:		
ORSC:5600	Research in Oral Science (taken at least once, may be taken multiple times for a total of 8 s.h.)	8

Periodontics Subprogram

The MS in oral science with a subprogram in periodontics requires a minimum of 32 s.h. of graduate credit (23 s.h. of didactic credit including the core courses and 9 s.h. of research credit). Students enrolled in the professional certificate in periodontics are required to complete the MS in oral science, periodontics subprogram and may be able to use some courses to satisfy requirements in both programs. The following coursework is required.

Course #	Title	Hours
All of these:		
ORSC:5260	Bone and Tooth Support Structure and Implants	2
ORSC:5275	Oral Microbiology and Immunology	2
ORSC:5280	Advanced Dental Therapeutics	1
OMFS:5208	Pain and Anxiety Control	1
OPRM:5226	Oral Pathology for Graduate Students	1
PERI:5220	Periodontics Classic Literature Review (taken multiple times for a total of 6 s.h.)	6
PERI:5710	Case Management Seminar	1
PERI:7208	Recent Advances in Periodontics	1

PERI:7701	Practice Teaching in Periodontics	1
This research course:		
ORSC:5600	Research in Oral Science (taken multiple times for a total of 9 s.h.)	9

Prosthodontics Subprogram

The MS in oral science with a subprogram in prosthodontics requires a minimum of 30 s.h. of graduate credit (22 s.h. of didactic credit including the core courses and 8 s.h. of research credit). Students enrolled in the professional certificate in prosthodontics are required to complete the MS in oral science, prosthodontics subprogram and may be able to use some courses to satisfy requirements in both programs. The following coursework is required.

Course #	Title	Hours
All of these:		
ORSC:5240	Pathophysiology of the Pulp-Dentin Complex	1
ORSC:5260	Bone and Tooth Support Structure and Implants	2
ORSC:5275	Oral Microbiology and Immunology	2
ORSC:5280	Advanced Dental Therapeutics	1
DPH:6002	Research Protocol Seminar	2
OMFS:5208	Pain and Anxiety Control	1
OPRM:5226	Oral Pathology for Graduate Students	1
OTO:8199	Foundations of Otolaryngology	3
PROS:6224	Graduate Restorative Materials	2
This research course:		
ORSC:5600	Research in Oral Science (taken multiple times for a total of 8 s.h.)	8

Admission

Applicants to the MS program must meet the admission requirements of the Graduate College and those specified by the clinical department.

A personal interview may be requested. Programs normally begin July 1 each year.

Oral Science, PhD

Learning Outcomes

Acquisition of Broad-Based Foundational Knowledge in Oral Science

- Demonstrate a broad-based understanding of the scientific disciplines relevant to oral science.
- Demonstrate mastery of the literature and background knowledge pertaining to one's chosen area of research.
- Understand the principles of biostatistical analyses and appropriate engagement with biostatisticians.

Development of Critical Thinking Skills

- Critically analyze primary scientific literature.
- Rationally debate and defend scientific viewpoints using scientific principles and critical analysis skills.
- Demonstrate problem-solving skills.

Understanding of the Scientific Method and Its Application

- Formulate hypotheses or experimental objectives that address knowledge gaps in the literature.
- Formulate a logical and feasible approach to test a hypothesis or accomplish research objectives.
- Critically evaluate results and draw appropriate conclusions from the data.

Proficiency in Research

- Conduct research in a responsible and ethical manner.
- Carry out an in-depth research project and contribute intellectually and technically to all parts of its development, execution, and analysis.

Proficiency in Scientific Communication

- Demonstrate proficiency in scientific writing as evidenced by first-author manuscripts and by composing grant applications.
- Organize, defend, and communicate ideas effectively in scientific oral presentations and settings.

Interpersonal and Leadership Skills

- Demonstrate an ability to work, when appropriate, in teams or collaborative settings with a diverse workforce.
- Develop leadership skills, commensurate with experience, facilitate group discussions, teach, and/or conduct meetings.
- Effectively mentor and motivate subordinates and/or peers.
- Respond appropriately to positive or negative feedback.

Requirements

The Doctor of Philosophy program in oral science requires a minimum of 72 s.h. of graduate credit, including advanced coursework and original research that culminates in the successful defense of a dissertation. Students must pass a comprehensive examination, prepare and gain approval of a research project, and complete and successfully defend a dissertation that describes the results of their research.

Completion of the program usually requires four to six years of full-time study. Students must maintain a cumulative grade-point average of at least 3.00 to earn the degree.

Dental Public Health Distinction Track

The PhD in oral science is a research-intensive degree program. Students may elect, with program approval, to follow a special track dedicated to dental public health.

In addition to an in-depth research project leading to a dissertation, students must complete a minimum of 72 s.h. that includes a minimum of 30 s.h. of coursework. Required courses include seminars in dental research, dental science research methodology, statistical methods for dental research, research design in dentistry, and scholarly integrity and responsible conduct in research. The dental public health track will have additional required courses.

Students also have the opportunity to take elective courses that are chosen to supplement their specific area of research. Most courses are completed in the first two years of the program. Students must then pass a comprehensive examination. Thereafter, the focus is on continuing a line of research that leads to peer-reviewed publications and a dissertation. Students must then pass a final exam. The average time to program completion is five years.

Admission

Applicants to the PhD program must meet the admission requirements of the Graduate College and those specified by the program.

Applicants to the PhD program must submit a statement describing past research experience and current research interests, and state how completion of the PhD program fits their career goals. A personal interview may be requested.

Applications must be received by Dec. 1 for full consideration of financial support.

Programs normally begin July 1 each year.

Orthodontics

Head

- Lina M. Moreno Uribe

Professional certificate: orthodontics

Graduate degree: MS in orthodontics

Faculty: https://dentistry.uiowa.edu/directory

Website: https://dentistry.uiowa.edu/departments/orthodontics

The Department of Orthodontics educates predoctoral, professional, and resident/graduate students for careers as practicing dentists, orthodontists, researchers, and teachers. The department also conducts major research programs and receives significant funding from the National Institutes of Health (NIH). It delivers state-of-the-art treatment to patients—adults, children, and adolescents—with a range of orthodontic, craniofacial, and related issues.

The goal of the resident/graduate program in orthodontics is to educate competent individuals to initially practice orthodontics and dentofacial orthopedics. Additional goals include providing clinical services for citizens of Iowa and educating students in methods of scientific inquiry. The program's objectives are to provide students with an in-depth education in biological and biomechanical principles related to orthodontics; to teach students to diagnose, plan, and deliver comprehensive orthodontic health care service; and to develop students' research and service skills.

Opportunities are available for research and independent study in the department, and there are special facilities for research in biomechanics and craniofacial growth. Interaction with other departments provides learning and research opportunities in surgical orthodontics, cleft lip and palate treatment, speech pathology, animal experimentation, and human growth.

DDS Student Training

The Department of Orthodontics prepares Doctor of Dental Surgery students to competently recognize malocclusions of teeth in preparation for decision-making regarding treatment or referral. The lecture course guides DDS students in learning concepts of dental development and facial growth to maturity, as well as treatment-oriented subject matter ranging from limited, interceptive treatment through possible comprehensive treatment options. In a laboratory course, case-based material is utilized to give students experience with evaluating diagnostic casts, radiographs, and clinical findings for space management decision-making purposes.

Programs

Professional Program of Study

- Certificate in Orthodontics [p. 1321]

Graduate Program of Study

- Master of Science in Orthodontics [p. 1322]

Courses

Orthodontics Courses

ORDN:5200 Temporomandibular Joints and Advanced Topics in Orthodontics **0-1 s.h.**

ORDN:5201 Orthodontic Theory: Diagnosis and Treatment Plan **0,2 s.h.**
Diagnosis, treatment planning implementation.

ORDN:5202 Advanced Case Analysis **0,2 s.h.**
Literature concerning orthodontic diagnosis; treatment of particular problems; case histories of patients treated in graduate clinic.

ORDN:5203 Principles of Biomechanics **0-3 s.h.**
Skills for treatment of disfiguring malocclusions; use of edgewise biomechanical therapy; laboratory focus on typodont exercises.

ORDN:5204 Applied Biomechanics **0-3 s.h.**

ORDN:5205 Facial Growth **0-2 s.h.**
Theories, processes; use of accepted facial growth concepts in treatment of individuals with malocclusions during active growth period.

ORDN:5209 Orthodontic Practicum **0-3 s.h.**
Clinical practice.

ORDN:5210 Orthodontic Seminar **0-3 s.h.**
Evaluation, discussion, criticism, defense of diagnostic and treatment approaches to orthodontic cases that need, are undergoing, or have completed orthodontic treatment.

ORDN:5211 Clinical Skills and Laboratory Techniques **1 s.h.**
A survey of current technology and techniques for the application of tooth moving appliances to patient care.

ORDN:5212 Pediatric Orthodontic Treatment Theory **1 s.h.**
Provides didactic knowledge of early-phase orthodontic treatment indications and educates on orthodontic treatment modalities.

ORDN:5217 Cephalometrics and Lab Skills **0-3 s.h.**
Use of skull X-ray (lateral and/or postero-anterior) in formulating orthodontic diagnosis, treatment plans for malocclusions; cephalometrics as a tool for craniofacial structure research.

ORDN:5220 Craniofacial Diagnosis, Treatment, and General Topics in Orthodontics **0-3 s.h.**
Literature on anatomy, phylogeny, ontogenesis, physiology of craniofacial structures.

ORDN:5221 Surgical Orthodontic Seminar **0-1 s.h.**
Evaluation, discussion, criticism, defense of diagnostic and treatment approaches to orthodontic cases that need, are undergoing, or have completed surgical-orthodontic treatment.

ORDN:5400 Craniofacial Practicum **0,2 s.h.**

ORDN:6211 Problems: Orthodontics **0-3 s.h.**

ORDN:6212 Research: Orthodontics **0-3 s.h.**

ORDN:6215 Orthodontic Journal Club **0-3 s.h.**
Current biological, technical publications.

ORDN:8215 Growth and Development **1 s.h.**
Normal human growth and development; emphasis on craniofacial region.

ORDN:8235 Orthodontic Laboratory 1 s.h.
Application of the terminology, methodology, and principles of orthodontic diagnosis using case-based studies. Corequisites: ORDN:8236.

ORDN:8236 Orthodontic Treatment 1 s.h.
Terminology, methodology, and principles used in orthodontic diagnosis. Corequisites: ORDN:8235.

Orthodontics, Professional Certificate

Requirements

The professional Certificate in Orthodontics requires satisfactory completion of 24 months of intensive study, including lecture courses, seminars, clinical practicum, and a research paper. Students earn the certificate while they complete work for the MS in orthodontics. They must maintain a cumulative grade-point average of at least 3.00 to earn the certificate.

Admission

Applicants must have a DDS degree or equivalent and meet the admission requirements of the Graduate College. Three letters of recommendation are required: one letter from their respective dental school dean stating their class rank or that no class ranks are provided, and two recommendation letters from dental school faculty.

Application deadline is Aug. 1 for entry the following July 1. Applicants are required to travel to the University of Iowa for interviews with department faculty.

Orthodontics, MS

Learning Outcomes

Individuals will be:

- credentialed to practice orthodontics and dentofacial orthopedics;
- proficient in the scientific method, demonstrated by the successful defense of their MS thesis;
- proficient in biological and biomechanical principles of tooth movement as demonstrated by clinical treatment of orthodontic patients with malocclusions;
- proficient in diagnosis, treatment planning, and treatment delivery as demonstrated by clinical treatment of orthodontic patients with malocclusions;
- proficient in diagnosis, treatment planning, and treatment delivery as demonstrated by clinical treatment of craniofacial anomalies patients; and
- proficient in interdisciplinary interaction with other dental specialties such as oral surgery, pediatric dentistry, periodontics, and endodontics as demonstrated by opportunities to coordinate care of orthodontic and craniofacial anomalies patients.

Requirements

The Master of Science in orthodontics requires 65 s.h. of graduate credit. Students must satisfactorily complete a thesis based on an original research project to qualify for the MS. They must maintain a Graduate College program grade-point average of at least 3.00 to earn the degree.

Students begin the two-year program in July.

The MS in orthodontics requires the following coursework.

First Year, Summer

Course #	Title	Hours
All of these:		
ORDN:5203	Principles of Biomechanics	2
ORDN:5209	Orthodontic Practicum	2
ORDN:5217	Cephalometrics and Lab Skills	3

First Year, Fall

Course #	Title	Hours
All of these:		
ORDN:5203	Principles of Biomechanics	2
ORDN:5204	Applied Biomechanics	1
ORDN:5205	Facial Growth	2
ORDN:5209	Orthodontic Practicum	2
ORDN:5210	Orthodontic Seminar	2
ORDN:5211	Clinical Skills and Laboratory Techniques	1
ORSC:5212	Statistical Methods for Dental Research	3
ORDN:5220	Craniofacial Diagnosis, Treatment, and General Topics in Orthodontics	1
ORDN:5221	Surgical Orthodontic Seminar	1

First Year, Spring

Course #	Title	Hours
All of these:		
ORDN:5200	Temporomandibular Joints and Advanced Topics in Orthodontics	1
ORDN:5202	Advanced Case Analysis	2
ORDN:5203	Principles of Biomechanics	1
ORDN:5204	Applied Biomechanics	1
ORDN:5209	Orthodontic Practicum	2
ORDN:5210	Orthodontic Seminar	2
ORDN:5220	Craniofacial Diagnosis, Treatment, and General Topics in Orthodontics	1
ORDN:5221	Surgical Orthodontic Seminar	1
ORDN:5400	Craniofacial Practicum	2

Second Year, Summer

Course #	Title	Hours
Both of these:		
ORDN:5209	Orthodontic Practicum	3
ORDN:6212	Research: Orthodontics	2

Second Year, Fall

Course #	Title	Hours
All of these:		
ORDN:5204	Applied Biomechanics	1
ORDN:5209	Orthodontic Practicum	2
ORDN:5210	Orthodontic Seminar	2
ORDN:5220	Craniofacial Diagnosis, Treatment, and General Topics in Orthodontics	1
ORDN:5221	Surgical Orthodontic Seminar	1
ORDN:5400	Craniofacial Practicum	2
ORDN:6211	Problems: Orthodontics	1
ORDN:6212	Research: Orthodontics	2
ORDN:6215	Orthodontic Journal Club	1

Second Year, Spring

Course #	Title	Hours
All of these:		
ORDN:5204	Applied Biomechanics	1
ORDN:5209	Orthodontic Practicum	2
ORDN:5210	Orthodontic Seminar	2
ORDN:5220	Craniofacial Diagnosis, Treatment, and General Topics in Orthodontics	1
ORDN:5221	Surgical Orthodontic Seminar	1
ORDN:5400	Craniofacial Practicum	2
ORDN:6212	Research: Orthodontics	2
ORDN:6215	Orthodontic Journal Club	1

For more information, contact the Department of Orthodontics.

Admission

Applicants must have a DDS degree or equivalent and meet the admission requirements of the Graduate College. The application deadline is Aug. 1 for entry the following July 1. Applicants are required to travel to the University of Iowa for interviews with department faculty.

Pediatric Dentistry

Head

- Karin Weber-Gasparoni

Graduate Program Director

- Heidi M. Steinkamp

Associate Graduate Program Director

- Amy B. Miers

Professional certificate: pediatric dentistry

Website: https://dentistry.uiowa.edu/departments/pediatric-dentistry

The Department of Pediatric Dentistry instructs predoctoral and professional students in the prevention and treatment of dental diseases in children as well as individuals with special health care needs. Instruction combines didactic, laboratory, and clinical experiences and gives special consideration to reviewing current literature and managing dental problems of children and individuals with special health care needs. It also emphasizes efficient treatment through the proper use of dental auxiliary personnel and record management.

DDS Student Training

All second-year Doctor of Dental Surgery students participate in a one-semester lecture course that includes preclinical exercises in the Simulation Clinic. Third-year DDS students participate in a clerkship, which includes a combined seminar and clinical course. During their fourth year, DDS students participate in a rotation through the department's clinics.

Research Opportunities

Clinical and laboratory research projects have financial support from federal agencies and other sources. Major research areas include cariology, microbiology, immunology, dental materials, dentistry for persons with special health care needs, growth and development, fluoride therapy, child behavior management, nutrition, prevention, and access to care.

Faculty

Faculty members hold numerous professional offices at national and state levels, committee memberships, consultantships, and honors in professional organizations. They serve as reviewers for professional journals and federal granting agencies. They also participate regularly in continuing education programs for dentists and other health science personnel.

Programs

Professional Program of Study

- Certificate in Pediatric Dentistry [p. 1325]

Courses

Pediatric Dentistry Courses

PEDO:5220 Social, Cultural, and Public Health Issues in Pediatric Dentistry **0-1 s.h.**

PEDO:5700 Advanced Didactic Pediatric Dentistry **0-1 s.h.**
Lectures in advanced pediatric dentistry.

PEDO:5704 Pediatric Dentistry Grand Rounds **0-1 s.h.**
Pediatric dentistry rounds.

PEDO:5706 Journal Review Practicum **0-1 s.h.**
Review of journal material in pediatric dentistry.

PEDO:5724 Oral Health Care for People With Special Health Care Needs **0-1 s.h.**
Providing oral health care for individuals with disabilities.

PEDO:5730 Advanced Clinical Pediatric Dentistry **0-2 s.h.**
Advanced study in clinical pediatric dentistry.

PEDO:5732 Pediatric Physical Diagnosis **0-1 s.h.**
Pediatric physical diagnosis for dental practice.

PEDO:5738 Clinical Application of Pediatric Conscious Sedation **0-1 s.h.**

PEDO:6710 Practical Teaching in Pediatric Dentistry **0-1 s.h.**

PEDO:8240 Pediatric Dentistry Diagnosis and Treatment **3 s.h.**
Growth and development, behavior management, diagnostic-preventive-restorative techniques for pediatric patients.

PEDO:8370 Pediatric Dentistry: Clinical Applications **arr.**
Combination of didactic and clinical aspects of pediatric dentistry; radiographic interpretations, treatment planning, preventative and restorative treatment supported by didactic seminars; clinical examinations and treatments provided to infants and children less than 16 years of age.

Pediatric Dentistry, Professional Certificate

Requirements

The professional Certificate in Pediatric Dentistry is a two-year residency program that prepares students for certification by the American Board of Pediatric Dentistry. Certificate students are trained in all phases of pediatric dentistry and have career choices in private practice, public health, education, or research. Special emphasis is placed on the development of leadership skills and strategies for serving vulnerable populations.

The department's certificate program is accredited by the Commission on Dental Accreditation of the American Dental Association.

Approximately 60% of the certificate program is devoted to advanced clinical activity, 30% to didactic courses and practice teaching, and 10% to original research. The program includes a core of didactic, clinical, and research-oriented courses supplemented by electives determined by students' individual interests.

The program maintains close associations with the University of Iowa Stead Family Children's Hospital, Stead Family Department of Pediatrics [p. 2001] in the Roy J. and Lucille A. Carver College of Medicine, the Center for Disabilities and Development, and University of Iowa Health Care. These associations provide experiences with oral rehabilitation under general anesthesia, treatment of children with oral conscious sedation, instruction in physical diagnosis, and management of medically complex children and those with special healthcare needs.

A three-year graduate program in pediatric dentistry and dental public health allows individuals to earn a Certificate in Pediatric Dentistry and an MS in dental public health. For more information, visit Pediatric Combined Residency on the College of Dentistry and Dental Clinics website.

Admission

Openings in the program are filled through the Postdoctoral Dental Matching Program. Prospective students apply through the American Dental Education Association PASS program. Applications must be complete by September 1 the year prior to program matriculation. Applicants must meet the admission requirements of the Graduate College.

Financial Support

Stipends for the two-year program are provided by federal agencies and other sources for qualified candidates.

Periodontics

Head

- Sivaraman Prakasam

Graduate Program Director

- Sukirth M. Ganesan

Professional certificate: periodontics

Faculty: https://dentistry.uiowa.edu/directory?cohort=440255

Website: https://dentistry.uiowa.edu/departments/periodontics

The Department of Periodontics educates predoctoral students as well as professional students who may elect to pursue graduate study along with their professional training. The department also provides interdisciplinary care for patients with complex treatment needs; generates new knowledge through its research programs; and provides professional service and leadership at all levels, from local to worldwide.

DDS Student Training

The periodontal program instructs Doctor of Dental Surgery students in the diagnosis and management of periodontal and peri-implant diseases and conditions. It combines didactic, laboratory, and clinical experiences and applies the biological concepts of periodontology to the comprehensive clinical management of patients.

Programs

Professional Program of Study

- Certificate in Periodontics [p. 1327]

Facilities

The department has 22 modern, well-equipped operatories devoted exclusively to periodontics.

Research facilities include laboratories in histology, microscopy, biomaterials, quantitation, tissue culture, biochemistry and molecular biology, and microbiology. Other facilities are available by arrangement with University of Iowa Health Care, Eckstein Medical Research Building, and Medical Laboratories.

Courses

Periodontics Courses

PERI:5220 Periodontics Classic Literature Review **arr.**
Foundation of core concepts pertaining to the field of periodontology; includes review and critical analysis of landmark studies that have shaped the development of contemporary concepts in diagnosis and management of periodontal conditions and diseases and implant dentistry in a multidisciplinary context.

PERI:5700 Advanced Periodontology **0-1 s.h.**

PERI:5710 Case Management Seminar **0-2 s.h.**
Case management seminar in periodontics.

PERI:5720 Current Topics **0-1 s.h.**
Current topics in periodontics.

PERI:5740 Periodontal Implant Provisionalization **0-1 s.h.**

PERI:5750 Advanced Clinical Periodontics **0,2 s.h.**

PERI:7208 Recent Advances in Periodontics **0-3 s.h.**
Review of current literature.

PERI:7700 Practice Management **1 s.h.**
Practice management in periodontics.

PERI:7701 Practice Teaching in Periodontics **1 s.h.**

PERI:8120 Fundamentals in Periodontology I **2 s.h.**
Normal periodontium, periodontal diseases, diagnosis etiology, epidemiology of periodontal diseases.

PERI:8230 Fundamentals in Periodontology II **1 s.h.**
Periodontal treatment planning, prognosis, initial phase of periodontal therapy, treatment of acute periodontal problems, overview of surgical procedures.

PERI:8370 Clinical Periodontology **4 s.h.**
Comprehensive concepts of periodontology and clinical management of patients.

Periodontics, Professional Certificate

Requirements

The professional Certificate in Periodontics requires 36 months of full-time study, including satisfactory completion of required didactic and clinical courses, satisfactory completion of comprehensive written and oral examinations, and an acceptable literature review or research paper. Opportunities are provided for experience in clinical and basic research.

Students working toward the Certificate in Periodontics must pursue the Master of Science in oral science in conjunction with the certificate; see "Graduate Study."

The certificate program provides a sound foundation for the clinical practice of periodontics. It meets all requirements of the American Dental Association's Commission on Dental Accreditation for advanced dental education programs in periodontics. It also meets the educational requirements for application to take board certification examinations of the American Board of Periodontology.

Certificate students must be financially prepared for the uninterrupted pursuit of their program of study.

Graduate Study

Students earning the Certificate in Periodontics must pursue a Master of Science in oral science concurrently while working toward certificate completion. The MS program requires 36 months of full-time study, including satisfactory completion of required and elective courses, preparation and defense of an acceptable thesis based on original research, and satisfactory completion of comprehensive written and oral examinations. See Oral Science [p. 1314] in the catalog.

Admission

Applicants to the periodontics certificate program must have a DDS degree or the equivalent and meet the admission requirements of the Graduate College. Visit the College of Dentistry page on the Graduate Admissions website to learn more about applying to the certificate program.

Preventive and Community Dentistry

Head

- Leonardo Marchini

Graduate degree: MS in dental public health

Faculty: https://dentistry.uiowa.edu/directory

Website: https://dentistry.uiowa.edu/pcd

The Department of Preventive and Community Dentistry educates future and practicing dental and oral health professionals, preparing them to understand and recognize:

- conditions that compromise patients;
- social, cultural, community, and political influences on dental practice;
- principles of preventive dentistry for individuals, groups, and communities; and
- considerations for preventing and treating oral disease in geriatric and special needs patients.

In addition to offering educational programs, the department provides patient care at the College of Dentistry and in a variety of off-campus settings. It is also home to research that advances dental public health. The department offers an MS in dental public health and the Certificate in Geriatric and Special Needs Dentistry [p. 1303].

DDS Student Training

Predoctoral training in preventive, community, and geriatric dentistry is designed to increase Doctor of Dental Surgery students' awareness of preventive dental practices, aspects of dental practices affected by community factors, and care of compromised adult patients.

Community dentistry programs give students opportunities to interact with health care teams and the public in Iowa and around the world. The department conducts off-site community programs statewide, nationwide, and worldwide. It also operates the Geriatric and Special Needs Clinic, which is housed in the Dental Science Building.

Using the community dentistry programs as the classroom, DDS students observe and participate in a variety of activities that nurture their awareness of the societal obligations they must assume in order to become effective practitioners.

Programs

Graduate Program of Study

- Master of Science in Dental Public Health [p. 1330]

Courses

- Preventive and Community Dentistry Courses [p. 1328]
- Dental Public Health Courses [p. 1329]

Preventive and Community Dentistry Courses

PCD:8115 Patient Management: Ethics and Interprofessional Education 1 s.h.
Preparation to deliver team-based interprofessional care through authentic lectures and group activities that reinforce interprofessional education (IPE) concepts by providing relevant and applicable health care experience; concepts and skills related to interprofessional education, team-based health care, interprofessional networking, ethics and professionalism, and person-centered care.

PCD:8116 Preventive Dentistry: Introduction 2 s.h.
Identification of health and disease in the mouth through self-assessment, nutritional self-assessment, practical methods of disease control, primary preventive dentistry methods and materials, and philosophy of preventive dentistry.

PCD:8117 Cariology and Preventive Therapies 2 s.h.
Principles of research design; introduction to microbiology and immunology; principles of oral microbiology with an emphasis on plaque development; microbiology of caries; coronal and root caries disease processes; dental caries epidemiology; roles of saliva and diet in dental health and disease; radiographic interpretation and clinical diagnosis; dental fluorosis; preventive dentistry treatment planning. Prerequisites: PCD:8116.

PCD:8118 Preventive Dentistry Assessment and Patient Care 4 s.h.
Patient oral assessment; charting sulcus depth, recession and hard tissues; progress notes, and entries in electronic patient record; preventive dentistry, caries, and periodontal risk assessment; oral hygiene instruction for collegiate recall patients; instrumentation for detection and removal of calculus deposits; practice with patient management skills and ergonomics. Prerequisites: PCD:8116 and PCD:8117.

PCD:8119 Patient Management: Communication Fundamentals 1 s.h.
Introduction to patient-centered care, interpersonal and professional communication with patient, information exchange, and preventive treatment plan formulation in patient encounters.

PCD:8120 Introduction to Evidence-Based Dentistry I 1 s.h.
Fundamental concepts needed to critique clinical research articles and health-related websites.

PCD:8121 Introduction to Evidence-Based Dentistry II 1 s.h.
Application of concepts needed to critique scientific literature.

PCD:8218 Critical Thinking and Evidence-Based Dentistry in Treatment Planning 1 s.h.
Continuation of PCD:8120; evidence-based dentistry, critical thinking and treatment planning sessions; online and small group sessions. Prerequisites: PCD:8120.

PCD:8219 Patient Management: Communication Challenges 1 s.h.
Continuation of PCD:8119; assessing patient understanding of practices for improving/maintaining oral health; overview of patient challenges to effective communication; application of behavioral science principles in dentistry and behavior theories. Prerequisites: PCD:8119.

PCD:8245 Clinical Preventive Dentistry 0,2 s.h.
Experience providing complete prophylaxis and preventive services for college patients; application of nutrition principles and communication skills in a clinic setting. Prerequisites: PCD:8118.

PCD:8319 Patient Management: Special Populations 1 s.h.
Continuation of PCD:8219; standardized patient exercises with chairside feedback and evaluation of communication skills; reflection regarding application of communication skills and behavioral science principles in patient encounters.

PCD:8355 Introduction to Geriatric Dentistry 2 s.h.
Biological, psychological, and social aspects of aging; normal aging and disease processes associated with aging; pathological changes that affect oral health treatment of dental diseases; and patient-centered treatment planning and management. Requirements: DDS enrollment or completion of dental hygiene program.

PCD:8360 The Practice of Dentistry in the Community I 1-2 s.h.
Factors that affect the practice of dentistry and the dental profession including health care systems in the U.S. and abroad, Medicaid/Medicare, health/dental insurance, health care delivery systems, malpractice, role of the Iowa Dental Board, dental workforce, and quality of care.

PCD:8361 The Practice of Dentistry in the Community II 1-2 s.h.
Issues related to the role of dental professionals at local and state levels; students build skills and knowledge in development of a community outreach dental program.

PCD:8489 Geriatrics and Special Needs Program arr.
Experience in the Delta Dental of Iowa Geriatric and Special Needs Clinic and the Geriatric Mobile Dental Unit providing comprehensive care for medically, physically, intellectually, and/or cognitively compromised adults, functionally dependent elderly nursing home residents with portable dental equipment, and other underserved populations.

PCD:8494 Extramural Rotation in Oral Health 5 s.h.
Dental care for underserved populations; community experiences in a variety of settings including hospital-based clinics, federally qualified health centers, community health centers, and private practices.

PCD:8500 Dental Student Research Honors Program arr.
Experience in conducting research. Requirements: DDS enrollment and approval of mentor and program director.

Dental Public Health Courses

DPH:5000 Introduction to Dental Public Health 0,2 s.h.
Science, philosophy, practice of dental public health.

DPH:5001 Literature Review Methods: Dental Public Health 0,2 s.h.
Concepts and process of literature review, particularly in area of student's interest.

DPH:5005 Administration of Public Dental Programs 0,2 s.h.
Application of general management concepts; practical aspects of planning, financing, staffing, implementing, operating, evaluating dental public health programs at federal, state, local levels.

DPH:5006 Preventive Programs in Dental Public Health 0,2 s.h.
Prevention and control methods for major dental conditions, primarily dental caries and periodontal diseases; clinical efficacy and cost-effectiveness; development of comprehensive preventive oral health plan for a community.

DPH:5008 Field Experience in Dental Public Health arr.
Arranged with public and voluntary health agencies according to students' and agencies' needs.

DPH:5009 Advanced Field Experience in Dental Public Health 1-3 s.h.
Opportunity to research, develop, and implement programmatic objectives with local, state, national, and/or federal agencies and organizations on an issue that is both relevant to the student and the agency; may require off-site visits to agencies or organizations. Prerequisites: DPH:5008.

DPH:5014 Dental Care Policy and Financing 0,2 s.h.
Dental financing and policy issues: payment mechanisms for health care service providers, third-party prepayment plans, salaried and public-financed programs, Medicaid and Medicare programs, dental insurance systems, and care of the underserved.

DPH:5016 Introduction to Statistical Computing arr.
Use of statistical packages on a personal computer for data management and analysis. Offered summer session.

DPH:5031 Geriatric Care 0,2 s.h.
Aging demographics; effects of aging on the human body with emphasis on the masticatory system; diseases commonly found among the elderly; and dental care for the elderly in different settings.

DPH:6002 Research Protocol Seminar 0,2 s.h.
Development of a master's thesis protocol; identification of thesis topic, review of relevant literature, development of research methods, writing.

DPH:6003 Independent Study: Dental Public Health 1-3 s.h.

DPH:6004 Principles of Oral Epidemiology 0-3 s.h.
Interpretation of scientific literature, with respect to the distribution and determinants of oral diseases and conditions, including caries, periodontal diseases, tooth loss, oral cancer, and more.

DPH:6011 Thesis: Dental Public Health arr.
Protocol preparation; data collection, analysis, organization; writing, defense of research.

DPH:6017 Teaching Methods and Evaluation arr.
Philosophies of dental education, teaching methodologies, evaluation; focus on learning to write educational objectives, writing and analyzing exam items.

DPH:6018 Clinical Teaching Practicum: Preventive Dentistry 0-3 s.h.
Teaching experience in preventive dentistry clinic setting with first-year dental students; outcomes focused on methods in clinical teaching, evaluation, and remediation.

Dental Public Health, MS

Learning Outcomes

Students will demonstrate:

- in-depth knowledge of the core concepts of public health, including those within the disciplines of epidemiology, biostatistics, behavioral science, environmental health, and health care policy and management; and
- in-depth knowledge of, and the ability to apply, the 10 competencies that define dental public health; manage oral health programs for population health; evaluate systems of care that impact oral health; demonstrate ethical decision-making in the practice of dental public health; design surveillance systems to measure oral health status and its determinants; communicate on oral and public health issues; lead collaborations on oral and public health issues; advocate for public health policy, legislation, and regulations to protect and promote the public's oral health and overall health; critically appraise evidence to address oral and public health issues for individuals and populations; conduct research to address oral and public health problems; integrate the social determinants of health into dental public health practice; and critical thinking skills to develop and complete an evidenced-based research project as part of their master's thesis.

Requirements

The Master of Science program in dental public health requires 40 s.h. of coursework and is designed to be completed in two academic years of full-time study. Students must maintain a cumulative grade-point average of at least 3.00 to earn the degree.

The program prepares dentists and dental hygienists to be specialists in dental public health. It emphasizes research and requires a research project culminating in the completion and defense of a thesis. Successful dentist graduates meet the educational requirements for eligibility to take the certifying examination of the American Board of Dental Public Health.

Admission

Applicants must have a DDS degree or equivalent or be a dental hygienist with a baccalaureate degree. They also must meet the admission requirements of the Graduate College and complete the Graduate Record Examination (GRE) General Test.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Dental Public Health, MS

	Total Hours	**44-46**

a Note: Upon completion of the program, graduates are educationally qualified to take the ABDPH exam and become board-certified in Dental Public Health.

b Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

c Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

d Taken at the end of first year.

e Note: International students who must be enrolled full-time are required to take ORSC:5210 for 2 s.h.; does not count towards degree requirements.

f Work with faculty advisor to choose appropriate graduate elective coursework.

g Thesis defense; may complete during the summer after second year if necessary.

Prosthodontics

Head

- Seok Hwan "Aaron" Cho

Professional certificate: prosthodontics

Faculty: https://dentistry.uiowa.edu/directory

Website: https://dentistry.uiowa.edu/departments/prosthodontics

Prosthodontics is the dentistry specialty involving restoring or replacing teeth using crowns, fixed partial dentures (bridges), removable partial dentures, complete dentures, maxillofacial prostheses, and dental implants.

DDS Student Training

The Department of Prosthodontics instructs Doctor of Dental Surgery students in the basic principles, practices, and concepts of prosthodontics required for the practice of general dentistry. Students learn through laboratory projects and treatment of patients with differing prosthodontic needs.

Programs

Professional Program of Study

- Certificate in Prosthodontics [p. 1334]

Facilities

Most didactic, clinical, and laboratory instruction and patient treatment takes place in the Department of Prosthodontics, which is located in the Dental Science Building. The building also houses the Doctor of Dental Surgery (DDS) program, training programs in specialties recognized by the American Dental Association, and the Iowa Institute for Oral Health Research.

The college and the department provide supporting technologies that include cone beam CT radiography, implant imaging software, laboratory CAD/CAM (computer-aided design/computer-aided manufacturing) systems, and dental lasers.

Advanced prosthodontic students spend time at University of Iowa Health Care, where they work closely with medical professionals in other disciplines to treat medically compromised prosthodontic patients and those who require maxillofacial rehabilitation.

Courses

Prosthodontics Courses

PROS:5700 Advanced Clinical Prosthodontics 0,2 s.h.

PROS:5710 Advanced Removable Prosthodontic Technique 0,2 s.h.

PROS:5720 Advanced Instrument Technique 1 s.h.

PROS:5730 Advanced Implant Techniques 0-2 s.h.

PROS:5740 Advanced Fixed Prosthodontics Technique 0,2 s.h.

PROS:5750 Clinical Issues and Treatment Planning in Prosthodontics 0-1 s.h.

PROS:6220 Fixed Prosthodontics Literature Review I 0-4 s.h.
Fixed prosthodontic procedures; assigned readings, discussion of related research.

PROS:6221 Fixed Prosthodontics Literature Review II 0-4 s.h.
Porcelain-fused-to-metal and ceramic restorations, color science and esthetics; assigned readings, discussion of related research.

PROS:6222 Implant Literature Review 0-4 s.h.
Implant prosthodontics; assigned readings, discussion of related research.

PROS:6223 Occlusion Seminar 0-4 s.h.
Occlusion and the temporomandibular system; assigned readings and discussion of related research.

PROS:6224 Graduate Restorative Materials 0,2 s.h.
Dental materials science; mechanical, physical, and chemical properties of restorative materials; selection and manipulation. Same as OPER:6225.

PROS:6225 Complete Denture Literature Review 0-4 s.h.
Complete denture prosthodontics; assigned readings, discussion of related research.

PROS:6226 RPD Literature Review 0-4 s.h.
Removable partial denture prosthodontics; assigned readings, discussion of related research.

PROS:6700 Maxillofacial Prosthodontics Seminar 0-1 s.h.

PROS:6710 Dental Implant Surgery for Prosthodontic Residents arr.
Lecture and literature review covering implant surgery and complications for prosthodontics residents.

PROS:7700 Maxillofacial Prosthodontics Rotation 0-1 s.h.

PROS:8120 Treatment of Dentulous Patients: Introduction to Occlusion Lecture 1 s.h.
Introduction to principles of occlusion and their clinical application.

PROS:8121 Treatment of Dentulous Patients: Introduction to Occlusion Lab 1 s.h.
Patient simulation exercises demonstrating principles of occlusion.

PROS:8122 Treatment of Dentulous Patients: Fixed Prosthodontics for Single Anterior Teeth Lecture 1 s.h.
Basic principles of fixed prosthodontics for single-unit anterior teeth; basic principles of tooth preparation, clinical steps, and digital procedures for fabrication of anterior single-tooth all-ceramic crowns and interim crowns. Prerequisites: PROS:8120 and PROS:8121.

PROS:8123 Treatment of Dentulous Patients: Fixed Prosthodontics for Single Anterior Teeth Lab 1 s.h.
Patient simulation exercises in single anterior tooth preparation, and fabrication of single-unit anterior all-ceramic and interim restorations. Prerequisites: PROS:8120 and PROS:8121.

PROS:8124 Treatment of Dentulous Patients: Fixed Prosthodontics for Single Posterior Teeth Lecture 1 s.h.
Basic biomechanical principles of fixed posterior single tooth prosthodontics; diagnosis and treatment planning for dentate patients including occlusion. Prerequisites: PROS:8120 and PROS:8121 and PROS:8122 and PROS:8123.

PROS:8125 Treatment of Dentulous Patients: Fixed Prosthodontics for Single Posterior Teeth Lab 1 s.h.
Patient simulation exercises in single posterior tooth preparation and laboratory fabrication of single-unit posterior definitive and interim restorations. Prerequisites: PROS:8120 and PROS:8121 and PROS:8122 and PROS:8123.

PROS:8240 Treatment of Partially Edentulous Patients: Fixed Multi-Unit Prosthodontics Lecture 1 s.h.
Basic biomechanical principles of fixed prosthodontics for multiple-unit fixed prostheses; diagnosis and treatment planning for partially edentulous patient, including occlusion and esthetic concerns.

PROS:8241 Treatment of Partially Edentulous Patients: Fixed Multi-Unit Prosthodontics Patient Simulation I 1 s.h.
Patient simulation exercises in preparation and fabrication of a three-unit fixed partial dental prosthesis and interim restoration.

PROS:8242 Treatment of Partially Edentulous Patients: Single Tooth Implant Lecture 1 s.h.
Principles, clinical steps, materials, and laboratory procedures necessary for single tooth fixed implant treatment. Prerequisites: PROS:8240 and PROS:8241.

PROS:8243 Treatment of Partially Edentulous Patients: Single Tooth Implant Patient Simulation 1 s.h.
Clinical steps in laboratory procedures for single tooth implant surgical guide fabrication and restoration. Prerequisites: PROS:8240 and PROS:8241.

PROS:8244 Treatment of Partially Edentulous Patients: Removable Partial Prosthodontics Lecture 1 s.h.
Basic biomechanical principles of tooth replacement with removable partial prosthodontics; diagnosis and treatment planning for partially edentulous patients. Prerequisites: PROS:8240 and PROS:8241 and PROS:8242 and PROS:8243.

PROS:8245 Treatment of Partially Edentulous Patients: Removable Partial Prosthodontics Patient Simulation 1 s.h.
Laboratory exercises in basic principles, clinical steps, and laboratory procedures necessary for fabrication of removable partial dentures. Prerequisites: PROS:8240 and PROS:8241 and PROS:8242 and PROS:8243.

PROS:8246 Treatment of Edentulous Patients: Removable Complete Prosthodontics Lecture 1 s.h.
Fundamental principles of diagnosis and treatment planning for edentulous patients, surgical and prosthodontic protocols for oral rehabilitation of edentulism. Prerequisites: PROS:8240 and PROS:8241 and PROS:8242 and PROS:8243 and PROS:8244 and PROS:8245.

PROS:8247 Treatment of Edentulous Patients: Removable Complete Prosthodontics Patient Simulation 1 s.h.
Laboratory exercises in basic principles, clinical steps, and laboratory procedures necessary for fabrication of complete dentures, including implant over-dentures. Prerequisites: PROS:8240 and PROS:8241 and PROS:8242 and PROS:8243 and PROS:8244 and PROS:8245.

PROS:8370 Introduction to Clinical Prosthodontics 8 s.h.
Application of knowledge in principal, biological, basic sciences, and techniques to clinical fixed, removable, and implant prosthodontics procedures; clinical prosthodontics experience supplemented by individual supervision, demonstration.

Prosthodontics, Professional Certificate

Requirements

The professional Certificate in Prosthodontics requires a minimum of 36 months of study. Students must maintain a cumulative grade-point average of at least 3.00 to earn the certificate. It prepares individuals for specialty clinical practice in the discipline.

The curriculum includes didactic courses and clinical training in all of the disciplines that make up the broad specialty of prosthodontics, including fixed and removable prosthodontics, digital dentistry, dental implants, and maxillofacial prosthetics. Patient care is completed in close collaboration with the other dental specialties. Clinically-related basic science instruction complements the clinical curriculum.

Students working toward the Certificate in Prosthodontics must pursue the Master of Science in oral science in conjunction with the certificate.

The certificate program is accredited by the Commission on Dental Accreditation of the American Dental Association. Successful completion of the program satisfies the formal training requirement for eligibility to take the American Board of Prosthodontics certification examination.

Graduate Study

The MS program prepares individuals for careers in dental education and research and for independent study and professional growth. Students must prepare and defend a thesis for the MS in oral science based on original research. Facilities and support personnel for research are available through the college's Iowa Institute for Oral Health Research. See the MS in oral science [p. 1315] in the catalog. Successful completion of the MS may allow further PhD study.

Admission

Applicants must meet the admission requirements of the Graduate College. They must hold a DDS or a DMD degree from a dental school accredited by the American Dental Association or an equivalent degree.

The certificate program begins around July 1 each year. Applications are only made through Match, which places applicants into positions for their first year of training in postdoctoral dental education programs. A personal interview is required for select applicants; selection for an interview is based on qualifications and is by invitation only.

For more information, see the Department of Prosthodontics website.

College of Education

Dean

- Daniel L. Clay

Associate Dean for Faculty and Graduate Education

- Pamela M. Wesely

Interim Associate Dean for Research

- Ariel Aloe

Associate Dean for Undergraduate Education and Educator Preparation

- Mark A. McDermott

Undergraduate major: BA

Undergraduate minors: educational psychology; human relations

Graduate degrees: MA; MAT; MS; EdS; EdD; PhD

Graduate certificates: applied behavior analysis; institutional research and effectiveness; K-12 equity and inclusion; online teaching; talent development

Website: https://education.uiowa.edu/

The University of Iowa College of Education offers more than 80 undergraduate and graduate degree programs, including licensure, endorsements, certificates, and online programs, many of which are regularly ranked among the best in the nation. The college's vision is to be a world-class college of education: leading research, engaging communities, and preparing education and mental health professionals for innovation and impact.

In 1847, Iowa legislators created the State University of Iowa, the state's first public institution of higher education to provide teacher training. More than 175 years later, students from across the state, nation, and globe are drawn to the College of Education, where they can experience the rigor of an R1 research university with a personal touch, a strong sense of community, and Hawkeye pride.

The college is also home to a number of research centers, including the Scanlan Center for School Mental Health, highlighting the college's expertise in school and community mental health counseling. Other areas of expertise include gifted education and talent development, thanks to the Belin-Blank Center, and educational testing and measurement due to the legacy of alumnus E.F. Lindquist. Lindquist created the Iowa Academic Meet, the impetus for the development of the world-renowned Iowa Testing Programs (ITP). Soon after in 1935, ITP experts authored the first Iowa Tests of Basic Skills (renamed Iowa Assessments), which revolutionized test scoring by inventing the first optical scanner, allowing tests to be accurately scored by high-speed equipment rather than by hand. Then in 1959, ITP spun off the most widely accepted college entrance exam to American College Testing Program, Inc., now known as ACT.

The University of Iowa Wildlife Instruction and Leadership Development (UI WILD) joined the College of Education in 2021, bringing a variety of experiential learning opportunities to our students. Students have the unique opportunity to take their learning outside of the classroom. There are opportunities to teach middle school students across Iowa with School of the Wild, take science education to the next level with the Iowa Raptor Project, and work hands-on with youth at Iowa Wildlife camps.

The college has four departments—the departments of Counselor Education [p. 1356], Educational Policy and Leadership Studies [p. 1372], Psychological and Quantitative Foundations [p. 1398], and Teaching and Learning [p. 1431].

Extramural Education

Through Distance and Online Education, selected College of Education courses are offered at off-campus sites and hours outside the traditional schedule. If taken after formal admission to a specific program, some of these courses may be applied to meet the requirements for degrees. Students who plan to complete a degree program should apply for admission to the Graduate College and satisfy all application requirements for the degree program they wish to enter.

Special regulations govern such coursework. Students should obtain prior approval from their program advisor before registering for extramural courses. Students not regularly admitted to the University of Iowa also may register for extramural courses, but credit earned before admission does not count toward residency requirements.

Honors in Education

The Honors Opportunity Program is open to undergraduates in the College of Education who are interested in pursuing either a research-based or context-based culminating project. Honors Opportunity Program students must take EHOP:4100 Honors Seminar in Education, EHOP:4101 Senior Honors Project, and complete five additional honors experiences while working with a self-selected mentor and the HOP facilitator at the Belin-Blank Center. Students in the program typically have a grade-point average (GPA) of at least 3.50 in their major and 3.33 overall but interested students with lower GPAs are encouraged to apply. Successful completion of the program results in recognition of the student as a College of Education honors graduate.

Faculty

All tenure-track faculty members hold earned doctorates in their teaching fields, and many have had teaching or administrative experience in public schools. Several hold joint appointments in the College of Liberal Arts and Sciences.

Programs

Undergraduate Programs of Study

Bachelor of Arts

The College of Education awards a Bachelor of Arts (BA) degree with eight majors related to the Teacher Education Program (TEP) and two non-licensure majors. Requirements for earning a Bachelor of Arts degree from the College of Education include all of the following.

- Complete a minimum of 120 semester hours of credit toward graduation, as defined under College of Education credit hour policies.
- Meet the University of Iowa residence requirement. The University of Iowa residence requirement is the minimum number of semester hours that must be earned at the University of Iowa in order to be eligible for an

undergraduate degree. See the section titled "University of Iowa Residence Requirement."
- Meet the general education requirements to earn a Bachelor of Arts degree from the College of Education: the GE CLAS Core [p. 22] of the College of Liberal Arts and Sciences (CLAS).
- Complete one of the Bachelor of Arts (BA) majors that is awarded by the College of Education.
- Achieve a minimum major, overall cumulative, and UI cumulative grade-point average (GPA) of 2.00 as defined in the College of Education Academic Standards.
- Resolve any grades of "I" (Incomplete) and "O" (Unreported).

Students in majors related to the TEP must also maintain TEP academic and professional standards.

University of Iowa Residence Requirement

The University of Iowa residence requirement is the minimum number of semester hours that must be earned at the University of Iowa in order to be eligible for an undergraduate degree. Credit hours earned in all courses offered by the University of Iowa are considered UI residence hours. Credit hours earned from colleges and universities other than the University of Iowa are considered non-resident credit.

To earn an undergraduate degree from the College of Education, students must satisfy the University of Iowa residence requirement by satisfying one of the following:

- earn the final 30 semester hours after admission to the University of Iowa;
- earn 45 of the final 60 semester hours after admission to the University of Iowa; or
- earn an overall total of 90 semester hours after admission to the University of Iowa.

Credit by examination may be resident or non-resident credit. Credit by examination earned while a student is enrolled in a college of the University of Iowa is considered UI residence credit. Credit by examination earned while a student is enrolled in a college or university other than the University of Iowa and brought to Iowa as part of a transfer transcript is considered non-resident credit.

This requirement is unrelated to Classification of Residents and Nonresidents for Admission and Tuition Purposes.

Undergraduate Degree Programs Offered

The College of Education offers a BA in education studies and human relations [p. 1345].

The BA in education studies and human relations is available without a subprogram with a subprogram in education studies or human relations.

Department of Psychological and Quantitative Foundations

The Department of Psychological and Quantitative Foundations offers a BA in counseling and behavioral health services [p. 1408].

Department of Teaching and Learning

The College of Education offers eight undergraduate majors in teacher education licensure areas. Students pursuing any of the undergraduate majors complete a Teacher Education Program (TEP) approved by the State of Iowa through the College of Education. See TEP Licensure [p. 1339] in this section of the catalog. See the Department of Teaching and Learning [p. 1431] in the catalog for details about the majors.

Undergraduate degrees include the BA in art education, elementary education, English education, mathematics education, music education, science education, social studies education, or world language education.

Undergraduate Combined Degrees

College of Education BA/College of Liberal Arts and Sciences Degree

The College of Education and the College of Liberal Arts and Sciences offer a combined degree program in which students earn two University of Iowa bachelor's degrees: a Bachelor of Arts (BA) from the College of Education and a Bachelor of Arts (BA), Bachelor of Science (BS), Bachelor of Fine Arts (BFA), or Bachelor of Music (BM) from the College of Liberal Arts and Sciences.

This combined degree program is available with any of the Bachelor of Arts majors in the College of Education. The combined degree program is required for the seven secondary teaching majors; the seven secondary teaching majors require a corequisite College of Liberal Arts and Sciences major, generally in the main subject the student is preparing to teach.

To learn about liberal arts and sciences majors, see the College of Liberal Arts and Sciences [p. 20] in the catalog.

College of Education BA/Tippie College of Business Bachelor of Business Administration

The College of Education and the Tippie College of Business offer a combined degree program in which students earn two University of Iowa bachelor's degrees: a Bachelor of Arts (BA) from the College of Education and a Bachelor of Business Administration (BBA) from the Tippie College of Business. This combined degree program is available with the College of Education's Bachelor of Arts major in education studies and human relations and the Bachelor of Arts major in elementary education. The program is not available with the seven secondary teaching majors.

The Bachelor of Business Administration requires admission to the Tippie College of Business [p. 1132]. Students in the combined education/business degree program must declare the Tippie College of Business program of study as their primary (first) major.

To learn about the Bachelor of Business Administration majors, see Tippie College of Business in the catalog.

Combined Elementary Education BA (Special Education Subprogram)/MA in Teaching and Learning (Special Education Subprogram)

Bachelor of Arts students interested in pursuing a graduate degree in special education may apply to the combined Bachelor of Arts with a special education subprogram/Master of Arts with a special education subprogram (K–8 instructional strategist I: mild/moderate; nonthesis) offered by the College of Education. Designed for undergraduate students majoring in elementary education who are currently enrolled in the TEP program, the combined program enables students to earn a BA and MA in five years by beginning to earn graduate credit during their last year of undergraduate study and counting up to 12 s.h. of qualifying credit toward both degrees. For more information, see Combined Programs [p. 1451] in the

BA in elementary education section of the catalog. Interested students should consult an advisor.

Minors

The College of Education offers two undergraduate minors for students who wish to be better informed about education and related fields: one in educational psychology and one in human relations, offering students an overview of various educational areas beyond, but supportive of, traditional education programs. The minors may help support students' future career objectives and benefit students in their roles as parents, taxpayers, or future members of local boards of education. View the minor in educational psychology [p. 1411] (Department of Psychological and Quantitative Foundations) and the minor in human relations [p. 1362] (Department of Counselor Education) in the catalog to learn more.

Graduate Programs of Study

Graduate study in the College of Education is guided by the policies of the Graduate College, with additional requirements set by the College of Education's faculty. Graduate students in education enroll in the Graduate College and receive their degrees from that college. See the Manual of Rules and Regulations on the Graduate College website.

Majors

The College of Education offers the following graduate degrees and programs.

Graduate Degree Programs Offered

Department of Counselor Education

MA and PhD in counselor education; the following programs are available.

- Clinical mental health counseling (offered in the MA)
- Counselor education and supervision (offered in the PhD)
- Rehabilitation counseling program (offered in the MA)
- School counseling (offered in the MA)

Department of Educational Policy and Leadership Studies

MA, EdD, EdS, and PhD in educational policy and leadership studies; the following programs are available.

- Educational leadership (offered in the MA, EdS, and PhD)
- Higher education (offered in the EdD)
- Higher education and student affairs (offered in the MA, EdS, and PhD)
- PK–12 administration (offered in the EdD)

Department of Psychological and Quantitative Foundations

MA, EdS, and PhD in psychological and quantitative foundations; the following programs are available.

- Counseling psychology (offered in the PhD)
- Educational measurement and statistics (offered in the MA and PhD)
- Learning sciences and educational psychology (offered in the MA and PhD)
- School psychology (offered in the EdS and PhD)

Department of Teaching and Learning

MA, MAT, MS, and PhD in teaching and learning; the following programs are available.

- Art education (offered in the MA and MAT)
- English education (offered in the MA and MAT)
- Language, literacy, and social studies education (offered in the PhD)
- Mathematics education (offered in the MA, MAT, and PhD)
- Multilingual education (offered in the MA)
- Science education (offered in the MS, MAT, and PhD)
- Social studies education (offered in the MA and MAT)
- Special education (offered in the MA and PhD)
- Teaching, leadership, and cultural competency (offered in the MA)
- World language education (offered in the MAT)

Master of Arts

The College of Education offers a Master of Arts. Some of the college's MA programs are offered with a thesis as well as without a thesis. Nonthesis programs usually provide more specialized coursework than thesis programs. Although a nonthesis program is not necessarily terminal, students who expect to continue their studies in a doctoral program are urged to select a thesis program in order to gain more experience in research procedures. Students who complete a nonthesis MA and are admitted to a PhD program may be asked to submit evidence of writing and research skills to their advisor or department during the early part of their doctoral program. For information about programs that offer a thesis option, see the program descriptions under "Graduate Programs of Study" in College of Education department sections of the catalog.

Coursework completed more than 10 years before the session in which the degree is to be conferred must be evaluated to determine how much credit may be accepted toward the degree requirements. Students must earn at least 24 s.h. in University of Iowa courses after formal admission to a master's degree.

Master of Arts in Teaching

The MAT programs are designed for academically superior liberal arts and sciences graduates who completed few or no professional education courses in their undergraduate programs. It is a nonthesis program with requirements that range from 45 s.h. to 67 s.h. of credit. See the MAT in teaching and learning [p. 1493] in the catalog.

The programs lead to a master's degree and include preparation for licensure as a secondary school teacher in the fields of art, English, mathematics, science, and social studies education, or world languages. Admission to the program requires a grade-point average (GPA) of at least 3.00 in undergraduate coursework.

Combined BA/MAT (Science Education Subprogram)

Bachelor of Arts students interested in pursuing a graduate degree in teaching may apply to the combined Bachelor of Arts/Master of Arts in Teaching with a science education subprogram offered by the College of Liberal Arts and Sciences and the College of Education. The MAT with a science education subprogram is open to any undergraduate student majoring in the sciences, but draws most typically from students in the following majors: biology, chemistry,

earth and environmental sciences, geographical and sustainability sciences, mathematics, or physics. The combined program enables students to earn a BA and MAT in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 19 s.h. of qualifying credit toward both degrees. For more information, see "Combined BA/MAT" under Science Education [p. 1497] in the Master of Arts in Teaching, MAT section of the catalog. Interested students should consult an advisor.

Combined BA/MAT (Mathematics Education Subprogram)

The College of Liberal Arts and Sciences and the College of Education offer students the opportunity to earn their Bachelor of Arts in Mathematics/Master of Arts in Teaching degree in education with a mathematics education subprogram in as little as five years. The combined BA/MAT Undergraduate to Graduate (U2G) program is a seamless process whereby students can progress from undergraduate to graduate status. The usual period of study for both the Bachelor of Arts and the Master of Arts in Teaching degree is six years. Through careful planning, many of the courses required for the MAT program can be taken during the undergraduate years, creating an opportunity to focus the fifth year of study on the comprehensive and student teaching requirements. For more information, see "BA in Mathematics/MAT" under Mathematics Education [p. 1495] in the Master of Arts in Teaching, MAT section of the catalog.

Master of Science

The College of Education offers a Master of Science in teaching and learning with a science education subprogram. The degree requirements are similar to those for a Master of Arts.

Specialist in Education

The EdS is granted upon completion of a prescribed two-year postbaccalaureate program designed for students preparing for professional work in fields such as administration and supervision, and special services. Of the minimum 60 s.h. required for the degree, 28 s.h. must be in the specialization area; the rest may be earned in cognate fields, supervised experience, research, and elective courses. The research must culminate in a written report.

Other requirements for the EdS are the same as for the master's degree, except that an EdS requires students to complete 30 s.h. of resident work on campus after admission to the program. Coursework completed 10 years before the final examination must be evaluated to determine the amount of credit that may be accepted toward program requirements.

Not all programs offer an EdS degree. For a list of programs and degrees offered, see "Graduate Programs of Study."

Doctor of Education

The EdD is designed for educators seeking a terminal doctoral degree to practice upper-level leadership in PK–20 educational settings. Based on the scholar-practitioner model, the EdD differs from the PhD in that it allows for a more practical-based approach, grounded in problem-based learning pedagogy, to use and perform applied research in educational settings. EdD students must complete 75 s.h. post-baccalaureate, with at least 27 s.h. completed at the University of Iowa after formal program admission. Students are expected to already have a related master's degree when admitted to the program and to have been practicing in education for a minimum of three years. Up to 36 s.h. may be transferred from the previous graduate degree for elective credit toward the 75 s.h. to earn the EdD degree.

Doctor of Philosophy

The PhD is the most advanced academic degree. It is conferred upon students who have demonstrated superior scholarship and mastery of research skills in coursework as well as in the preparation and defense of a dissertation. PhD students must complete at least 39 s.h. while registered in the University of Iowa Graduate College and after formal program admission.

Certificates

The Certificate in Applied Behavior Analysis requires 21 s.h. of graduate credit. The certificate program is open to students enrolled in University of Iowa graduate degree programs and to individuals who are enrolled in the Graduate College as nondegree students. The purpose of the certificate is to provide professionals who have a background in education, psychology, and related services with expertise in behavior intervention and intensive educational interventions. Students who complete the program are eligible for national certification as board-certified behavior analysts. To learn more or apply, see the Certificate in Applied Behavior Analysis [p. 1352] in the catalog.

The Certificate in College Teaching requires 12 s.h. of graduate credit. The certificate program is open to all University of Iowa students working toward a PhD or other terminal graduate degree. The certificate program complements discipline-oriented graduate programs and prepares students for careers in postsecondary education. It requires coursework, supervised teaching experience, and preparation of a teaching portfolio. To learn more or to apply, see the Certificate in College Teaching [p. 1732] (Graduate College) in the catalog.

The Certificate in Institutional Research and Effectiveness (IRE) requires 15 s.h. of graduate credit and is offered with hybrid and conventional courses. The certificate program prepares professionals to use data for institutional decision-making, reporting, and accountability in higher education and K–12 contexts. This certificate amends and complements students' competence in other areas (business affairs, information technology, student affairs, and development, among other areas) to prepare them with the skills and capabilities to use data for educational improvement, accountability, quality, and equity. To learn more or apply, see the Certificate in Institutional Research and Effectiveness [p. 1393] in the catalog.

The Certificate in K–12 Equity and Inclusion requires 12 s.h. of graduate credit and is offered with hybrid and conventional courses. The certificate program offers educational professionals or nondegree-seeking students currently working in K–12 schools, districts, and area education agencies expertise in equity and inclusion to better support the needs and interests of a diversifying K–12 student population. To learn more or apply, see the Certificate in K–12 Equity and Inclusion [p. 1395] in the catalog.

The Certificate in Online Teaching requires 12 s.h. of graduate credit and is offered completely online. The certificate program is open to students enrolled in University of Iowa graduate degree programs and to individuals who are enrolled in the Graduate College as nondegree students. The certificate program develops students' skills in using technology to solve instructional problems associated with distance and time. The certificate's online format uses the

techniques and approaches that the program teaches. To learn more or apply, see the Certificate in Online Teaching [p. 1397] in the catalog.

The Certificate in Talent Development requires 14 s.h. of graduate credit. The certificate is open to students enrolled in University of Iowa graduate degree programs and to individuals who are enrolled in the Graduate College as nondegree students. The purpose of the certificate is to increase the understanding of talented individuals, the process of talent development and the creative process, and to prepare advocates for talented individuals. In addition to coursework, students design a culminating original project aligned with a career objective or personal interest. Students may use the coursework embedded in the certificate to apply to the State of Iowa Gifted and Talented teaching endorsement. To learn more or apply, see the Certificate in Talent Development [p. 1429] in the catalog.

Professional Improvement

Students who are interested in taking courses as nondegree students should apply for nondegree status to the Graduate College. They can then be admitted by a department on a nondegree basis by contacting the department. Students must be admitted to a department in order to complete a program objective such as teacher licensure.

TEP/Licensure

Teacher Education Programs (TEP) and Student Teaching

The College of Education offers a Teacher Education Program (TEP) that includes preparation for teaching in elementary education (teaching kindergarten through grade 6 or grade 8); and secondary education (teaching one or more subjects in grades 5 through 12). Secondary teacher education is offered in art education, English education, mathematics education, music education, science education, social studies education, and world language education. Two secondary education programs, art education and music education, prepare students to teach kindergarten through grade 12. Preparation for special education teaching is offered primarily as a master's degree program, but undergraduate students in the elementary education major may complete a special education endorsement for teaching elementary school students with mild or moderate disabilities. In cooperation with the School of Library and Information Science [p. 1768], the college offers graduate-level preparation for school teacher librarians.

Preparation is available for teaching additional subjects; see the section titled "Added Endorsements."

With the Teacher Education Program, the College of Education awards the Bachelor of Arts degree with majors in elementary education and seven other majors. Majors in art education, English education, mathematics education, music education, science education, social studies education, and world language education require a corequisite content major from the College of Liberal Arts and Sciences. See the Department of Teaching and Learning section of the catalog for details about these majors. The majors require admission to the TEP.

Individuals with a previous bachelor's degree or a more advanced degree also may complete a TEP major. See the section titled "Graduate and Nondegree Admission to the TEP" and the Department of Teaching and Learning section of the catalog.

The Office of Student Services provides information on TEP; offers assistance with admission, student field experiences, and teacher licensure/certification; and serves as a liaison with other university units and external agencies. For more information, visit the Office of Student Services website.

Admission to the Teacher Education Program

Admission to a TEP major is required in order to register for most TEP courses, to participate in field experiences/practicums, and to student teach.

Elementary Education

First-year undergraduate applicants to the bachelor of arts major in elementary education are admitted to the major and the College of Education upon acceptance to the University of Iowa; these students are guided through TEP application requirements as a part of their first two semesters of coursework. Transfer applicants and current University of Iowa students in other colleges may be admitted to the major; these students complete TEP application requirements independently.

Secondary and K–12 Teacher Education Programs

Undergraduate applicants to the University of Iowa who wish to become teachers in secondary education apply for a College of Liberal Arts and Sciences major in the subject they would like to teach. They may also indicate secondary education interest on their application.

Requirements for admission to the TEP include admission to the University of Iowa, a minimum of 30 s.h. of college credit, and a preadmission school field experience. Some programs have additional requirements. Complete application requirements and procedures can be found on the Office of Student Services website. TEP applications are submitted through a web application, Tk20 (Watermark).

For secondary and K–12 programs, admission to the TEP is selective and is based on a faculty review of academic achievement as reflected in grade-point average (GPA), aptitude as reflected by recommendations and personal statements, and the ability of the given program area to provide quality instruction and clinical and field experiences. Meeting the minimum criteria does not ensure program admission.

Application Deadlines

For spring semester admission, applications are open from Sept. 1 to Dec. 1. For summer session or fall semester admission, applications are open from Feb. 1 to May 1. For timely advising and registration, applicants are encouraged to submit the application by Oct. 1 or March 1. See the College of Education website for additional information on TEP application requirements and procedures.

Direct Admission to Music Education

The College of Education offers early admission into the K–12 music education TEP. First-year students who upon graduation from high school have a high school GPA of 3.00 or higher and have been accepted into a music studio are directly admitted into the K–12 music education TEP. This admission is conditional until the minimum admission requirements are complete. The requirements include admission to the School

of Music, completion of an essay of 500 words or less on why the applicant wishes to be a music teacher, and completion of a 10-hour preadmission school field experience.

Graduate and Nondegree Admission to the TEP

Students with a previous bachelor's degree may be admitted to a TEP major as graduate or undergraduate students and may have the option to pursue an additional undergraduate or graduate degree or to pursue a TEP major as a nondegree student. See the Department of Teaching and Learning [p. 1431] for degree program options. Students must apply to the TEP through the web application, Tk20 (Watermark), and University of Iowa Admissions. Application information is available from the Office of Student Services. Graduate applicants must be eligible for admission to the Graduate College, which requires a GPA of at least 3.00 in all previous college coursework. See the Graduate Admissions website. Undergraduate applicants must meet the general requirements for undergraduate admission to the University of Iowa; see the Undergraduate Admissions website.

TEP Academic and Professional Standards

Teacher candidates in the TEP, including students in TEP Majors who have not yet progressed to full admission to the TEP, must meet grade and GPA requirements and maintain appropriate professional dispositions each semester.

State of Iowa teacher preparation standards require that teacher candidates demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all students learn. Because of this, the College of Education and the Teacher Education Program have established academic and professional standards that students must maintain. The specific criteria that apply to a student depend on the degree program(s) in which the student is enrolled (or if they are a nondegree student), and whether the student is an undergraduate-level or graduate-level, but may include the following.

- University of Iowa cumulative GPA and overall cumulative GPA, based on total hours earned
  - 0–29 overall earned semester hours: minimum of 1.85 (2.70 for good standing)
  - 30 or more overall earned semester hours: minimum of 2.00 (2.70 for good standing)
  - Non-degree students: minimum of 2.00 (2.70 for good standing)
- UI cumulative GPA on graded graduate courses: minimum of 2.75 (consistent with the academic standing policy of the Graduate College)
- University of Iowa term GPA: minimum of 1.50 during fall or spring enrollment
- TEP major GPA (overall cumulative): minimum of 2.00 (2.70 for good standing)
- A grade of C-minus or higher in TEP major courses
- No notices of concern in professional dispositional qualities
- Academic good standing in the College of Liberal Arts and Sciences
- Major GPA in the TEP CLAS content major: minimum of 2.00
- UI major GPA in the TEP CLAS content major: minimum of 2.00

For additional information about these standards, contact the Office of Student Services.

InTASC Standards-Based Assessments

Once admitted to the TEP, progress toward meeting professional standards is documented in Tk20 (Watermark), a web-based assessment system. Throughout the program, students submit assignments designated by their respective program area for standards-based scoring on rubrics in common across all program areas.

Teacher Leader Certificate Professional Development Program

Teachers from the University of Iowa are distinguished by their preparation with world-class faculty researchers and clinical practitioners and a one-of-a-kind professional development program that highlights contemporary issues in 21st-century education, the Teacher Leader Certificate. The Teacher Leader Certificate is not a teaching license or a university recognition but it supplements the TEP courses, practicums, and student teaching requirements with a series of competencies and experiences offered through intensive and innovative workshops and 10 hours of volunteer work in an education setting. All TEP students are required to complete the requirements of the certificate prior to their student teaching semester.

The Teacher Leader Certificate is supported by the Baker Teacher Leader Center (Baker TLC) and provides professional development programs for in-service teachers and other school professionals.

Student Teaching

The final phase of the TEP is the professional semester, devoted to supervised student teaching and directed observation in a variety of situations. All coursework in education, for the major, and for the degree must be completed before the student teaching semester. The student teaching semester is a full-time, all-day experience with a full registration, typically a 15 s.h. enrollment. Student teachers are expected to follow the calendar of the district in which they are placed; breaks may not align with the University of Iowa semester calendar. Transfer credit may not be used to satisfy the student teaching requirement.

Faculty members, professional staff, and advanced graduate students who are experienced teachers serve as supervisors. Periodic seminars provide for discussion and evaluation of student-teacher experiences.

To be admitted to the student teaching semester, students submit their application to the Office of Student Services. Student teaching applications are due the calendar year before the student teaching semester: by Nov. 15 for student teaching the following fall semester and by April 15 for student teaching the following spring semester.

Admission to student teaching requires faculty approval based on grade-point average requirements and appropriate professional dispositions. Students on TEP Probation are not permitted to student teach. For more information, contact the Office of Student Services.

Placement Options

Student teaching placements typically are in schools within a 60–70 mile radius of Iowa City, referred to as local placements. Placements also may be available in some school districts in other parts of Iowa, the Midwest region, urban districts in other parts of the United States, and international

settings. These placements are referred to as special sites. Special site placements have higher grade-point average requirements and expectations for appropriate professional dispositions.

International student teaching experiences are available primarily through Global Gateway for Teachers, an Indiana University Program working in collaboration with the University of Iowa. International sites vary, depending on available placements and international conditions, but have included Australia, Costa Rica, Ecuador, England and Wales, Greece, India, Ireland, Italy, Japan, New Zealand, Scotland, and Spain. In most locations, students are assisted with housing by an on-site coordinator.

International assignments are for eight weeks. Students complete an eight-week assignment in a local placement or another special site placement followed by an eight-week assignment in an international placement. Secondary education students in some program areas (for instance, English education) are required to complete a full semester of student teaching in the United States before student teaching at an international site.

For more information about international student teaching options, see Student Teaching and Classroom Experience on the College of Education website.

Course Substitutions

Students who have completed courses that they wish to substitute for program requirements should consult with their advisors.

Community college human relations courses are not accepted as substitutes for EPLS:4180 Human Relations for the Classroom Teacher.

Teacher Licensure/Certification

The Iowa Board of Educational Examiners issues teacher, support service, and administrator licenses on the recommendation of Iowa colleges and universities whose programs have been approved by the Iowa State Board of Education.

All University of Iowa educator preparation programs have approval from the Iowa State Board of Education (and Iowa Department of Education) as preparation for a teacher, support service, or administrator license and/or one or more endorsements. For students who declare their intention to seek educator licensure or certification in another state, the College of Education attempts to advise those students of the applicability of the University of Iowa's curriculum to the requirements for licensure in the other state. Students whose primary program of study is an on-campus program are assumed to be located in Iowa.

In general, an educator license in one state is a good basis for licensure in another state and in many cases, states will issue a license to an applicant who is licensed in another state. But, states may require deficiencies to be fulfilled, which could include additional training, courses, tests, or field experiences. Names, terms, and renewal requirements of licenses vary from state to state. Endorsements awarded on another state's license or certificate and the authority provided by those endorsements may be different than those on an Iowa license. For additional information, visitProfessional Licensure Disclosures on the Office of the Provost website.

Licensure/certification requirements across the nation are subject to change. Students who plan to seek employment in a state other than Iowa are encouraged to inform themselves about current requirements in that state. In most cases, students applying for an out-of-state license or certificate should first secure an Iowa license.

To be recommended by the University of Iowa, applicants must complete all requirements of the appropriate approved program. A minimum of 20 s.h. of coursework applied to meet program requirements must be earned at the University of Iowa.

The Iowa Board of Educational Examiners requires a national criminal history background check, an Iowa Division of Criminal Investigation background check, and registries and records check for all new applicants for Iowa licensure. Disqualifying criminal convictions and founded child abuse are set out in Iowa Code 272.2 and Iowa Administrative Code 282-25.

The College of Education Office of Student Services provides instructions on application for licenses, fingerprinting procedures, and licensure/certification assistance to all students completing approved programs offered by the college. It also provides assistance to in-service teachers and other school professionals who are interested in adding endorsements to their Iowa license based on completion of State of Iowa minimum licensure requirements.

Liberal Arts Core

State of Iowa teacher preparation standards require a core of liberal arts knowledge including but not limited to English composition, mathematics, natural sciences, social sciences, and humanities. The general education requirements of the College of Education, GE CLAS Core [p. 22], satisfy this requirement if a course in mathematics, statistics, or computer science is selected for the Quantitative or Formal Reasoning general education requirement. Students who have not completed these requirements with their previous coursework will need additional coursework. For additional information about these standards, contact the Office of Student Services.

Added Endorsements

Current TEP students and in-service teachers may prepare for teaching additional subjects through added endorsement programs and courses.

Most added endorsements for kindergarten through 8th grade (K–8) are intended for TEP students and in-service teachers in elementary education. See the BA in elementary education [p. 1449] for these added endorsements. Other endorsements, including most secondary (grades 5–12) endorsements for which the University of Iowa offers a TEP major, can also be available to elementary, secondary, or K–12 TEP students and teachers as added endorsements.

In addition, preparation is offered for these added endorsements.

- Grades 5–8 middle school (language arts, mathematics, science, and/or social studies)
- Grades 5–12 reading
- K–12 athletic coach
- K–12 dyslexia specialist
- K–12 English as a second language (ESL)
- PK–12 talented and gifted

For additional information contact an academic advisor or licensure staff in the Office of Student Services.

Resources

Linda R. Baker Teacher Leader Center

The Linda R. Baker Teacher Leader Center is a transformative space where educators are empowered to excel throughout their careers. Aligned with their mission to advance comprehensive teacher development and well-being, the center serves as a catalyst for lifelong learning, professional growth, and innovative practices in education. The center fosters creativity, builds a sense of community, and champions excellence, inclusion, and integrity in every program and initiative they offer.

Pre-Service Teacher Leadership Certificate Program

For aspiring educators, the BTLC offers the Teacher Leader Certificate, a dynamic professional development program designed to prepare students for leadership roles in education. This program equips participants with essential skills in collaboration, cultural competency, and evidence-based teaching practices. By completing the certificate, pre-service teachers not only strengthen their resumes but also gain a competitive edge in the education job market. This initiative reflects the center's commitment to fostering the next generation of teacher-leaders who are prepared to meet the challenges of today’s diverse classrooms.

In-Service Professional Development for Educators

For practicing educators, the BTLC delivers customized professional development (PD) opportunities tailored to the unique needs of PK–12 teachers, administrators, and schools. The center's offerings include research-based workshops, coaching, and support programs designed to unlock each educator's full potential. Whether through on-campus events, virtual sessions, or licensure renewal credit opportunities, the PD programs empower educators to innovate, collaborate, and lead in their schools and communities. These initiatives reflect the center's dedication to fostering ongoing professional growth and creating lasting impact within the field of education.

The Belin-Blank Center

Located in the Blank Honors Center, the Belin-Blank Center creates opportunities for equitable talent development through outreach, professional learning, psychological services, research and assessment, and student programs. Professional development opportunities include a graduate certificate in talent development, coursework in gifted education and talent development (including coursework for the state of Iowa talented and gifted endorsement), the Belin-Blank Talent Development Fellowship, and practicum experiences.

Precollege student programs include Scholastic Art and Writing Awards, above-level testing for students in grades 3–9, precollege summer and academic year programs for high-ability students in grades 3–11, and the Iowa Online Advanced Placement Academy.

Other services include the Assessment and Counseling Clinic, which specializes in twice-exceptionality, and the Acceleration Institute, which is dedicated to the study of academic acceleration for talented students. The center also administers the Bucksbaum Early Entrance Academy, a highly selective early-entrance program for accelerated students who are ready to enroll as full-time University of Iowa honors students, and the Academy for Twice-Exceptionality, a support program for talented, neurodiverse UI students, specifically those diagnosed with autism.

For more information, contact the Belin-Blank Center.

Blommers Measurement Resources Library

The Paul Blommers Measurement Resources Library maintains a noncirculating archival collection of books, journals, research reports, and reference materials related to educational and psychological measurement, testing, assessment, and evaluation, as well as an extensive, noncirculating collection of published and unpublished tests. The library supports the teaching and research needs of faculty, staff, and students at the University of Iowa, primarily serving the College of Education through consultation and special access.

Center for Advanced Studies in Measurement and Assessment

The Center for Advanced Studies in Measurement and Assessment (CASMA) pursues interdisciplinary research-based initiatives that lead to advances in the methods and practice of educational measurement and assessment. CASMA performs, promotes, fosters, and disseminates research in measurement and psychometric methodologies that respond to contemporary needs and initiatives in testing.

The center devotes considerable resources to research on equating/scaling/linking, generalizability theory, diagnostic classification models, Bayesian psychometric techniques, computerized adaptive testing, multilevel modeling, research synthesis, meta-analytic methods, and causal inference. It also offers workshops and training sessions on those topics. Extensive free suites of computer programs are available on the CASMA website. The site also features research reports and technical notes on measurement and statistics topics.

Center for Evaluation and Assessment

The Center for Evaluation and Assessment (CEA) provides third-party program evaluation, assessment, and other research services to a broad range of clients working in multiple programmatic areas. The center's mission is to provide high-quality program evaluation and research services to support data-driven decision-making, train graduate students, and advance evaluation theory and practice.

Center for Research on Undergraduate Education

The Center for Research on Undergraduate Education (CRUE) is dedicated to the study of undergraduate education in the United States and beyond. This rigorous research explores various topics, with an emphasis on understanding dynamics and improving equity within college experiences, environments, interventions, and outcomes.

College of Education Writing Resource

The College of Education Writing Resource provides academic writing support for graduate students at the College of Education. Students sign up to work collaboratively with a writing tutor throughout the composing process—from conceptualizing ideas to polishing and publishing/finalizing the paper. The mission is to facilitate each student's individual growth as a writer and to foster a collaborative writing community. Services are free to graduate students in the College of Education.

Cooperating Schools Program

The Cooperating Schools Program (CSP) is a university-wide service that facilitates the placement of research projects and service-learning projects conducted by faculty, staff, and students in public schools throughout Iowa. The program provides information to help researchers obtain permission to conduct research in Iowa schools. The Cooperating Schools Program was instituted at the request of school administrators charged with the responsibility of approving research projects in their schools.

Education Technology Center

The Education Technology Center (ETC) offers a wide range of services to the College of Education's faculty, staff, and students. Their services include technical support, collegiate file and application servers, standard office tools, and specialized applications for media production. The center also provides secure folders and directories, electronic mailing lists for various groups, and digital signage. Additionally, the ETC supports faculty with instructional technology for courses, including online teaching tools and media production platforms like ICON and UICapture/Panopto.

Throughout the college, SMART Boards and wireless access are readily available in open and private spaces for individual and group work. Every classroom and conference room is equipped with digital presentation systems and videoconferencing capabilities. Faculty, staff, and students can reserve and check out a variety of devices and services from the center, including laptops, web cameras, computer projectors, audio recorders, video cameras, robots, podcasting studio equipment, and more. Overall, the College of Education maintains over 1000 computers, laptops, and mobile devices, along with dozens of digital signs and SMART Boards.

Grants and Research Services Center

The Grants and Research Services Center (GRSC) works with faculty, staff, and students to ensure success across the full life cycle of grant development and management. GRSC staff members offer expertise and services in identifying internal and external sources of funding, budget development, pre- and post-award management, and research design and methods. The college also provides limited funds for faculty research, professional development, and travel.

Iowa Testing Programs

Iowa Testing Programs (ITP) provides assessment expertise to schools in the state of Iowa and consultation with the Iowa Department of Education and area education agencies. Its faculty and staff develop standardized educational tests, such as the widely used Iowa Assessments, for use in elementary and secondary schools worldwide, and the Iowa Statewide Assessment of Student Progress, for use in the state of Iowa for summative assessment. Iowa Testing Programs also conducts research studies in educational measurement, publishes the results of these studies, sponsors lectures and symposia, provides consulting and in-service training to educators and school systems, and provides training experience and financial support for graduate students in educational measurement, statistics, and evaluation.

Libraries

The University of Iowa Libraries is the largest library system in Iowa. Along with six branch libraries, the Main Library houses a wide variety of resources in print and online including books, journals, databases, media materials, and archival collections. An education librarian provides specialized research support to College of Education students, staff, and faculty, and assists faculty and teaching assistants with their instructional needs.

Office of Graduate Teaching Excellence

The Office of Graduate Teaching Excellence (OGTE) is dedicated to excellence in college teaching and the preparation of future faculty. The office facilitates opportunities for research, teaching, and service. Through the Iowa Education Fellows Program (i-fellows), OGTE develops and conducts workshops and seminars that address the developmental needs of College of Education doctoral students, from their first semester on campus through the completion of their degrees. The office also guides students through the process of earning the graduate Certificate in College Teaching (Graduate College).

Office of Student Services

The Office of Student Services assists students, faculty, staff, and the general public in graduate and undergraduate admission, undergraduate advising, recruitment for the Teacher Education Program (TEP) and undergraduate programs, Graduate College examinations, student field experiences, and teacher licensure/certification. It also serves as a liaison with other university units, including the Graduate College, the College of Liberal Arts and Sciences, Admissions, and the Office of the Registrar, and with external agencies, including the Iowa Department of Education, out-of-state teacher licensure/certification departments, and school district personnel in Iowa and outside of the state. A variety of applications and information materials are available at the office and on its website.

Scanlan Center for School Mental Health

The Scanlan Center for School Mental Health (SCSMH) aims to positively impact school mental health and well-being across Iowa and beyond. Through its comprehensive approach of innovative research, professional development, training, clinical services, and actionable resources, SCSMH supports K–12 schools and college campuses in creating nurturing learning environments where both students and staff can thrive.

Wildlife Instruction and Leadership Development

Wildlife Instruction and Leadership Development (UI WILD) includes the Iowa Raptor Project, Iowa Wildlife Camps, and School of the Wild programs. Each program has a unique educational focus, but a shared commitment to awaken awareness, nurture appreciation, and inspire action for all things wild in program participants. The Iowa Raptor Project (founded in 1985) is dedicated to the conservation of birds of prey and their habitats through live raptor education programming and research. The Iowa Wildlife Camps (founded in 1991) provide weeklong conservation education programming for campers from preschool through high school during winter, spring, and summer breaks. The accredited and multidisciplinary School of the Wild (founded in 1998) offers weeklong experiences in the wild for participating schools introducing students from all backgrounds to the woodlands, wetlands, and prairies of Iowa. The UI WILD programs are centered at the university's Macbride Nature Recreation Area but are growing throughout Iowa and beyond, and provide many educational opportunities for College of Education students including volunteer roles, internships, camp instructor positions, practicum experiences, and student teaching opportunities.

Financial Support

College of Education students may be eligible for scholarships, awards, or graduate assistantships. Information about financial support for students is available; visit Scholarships on the college's website. The college posts a list of assistantships on its website; visit Graduate Student Resources on the college's website.

The Graduate Record Exam (GRE) General Test is currently not required for graduate assistantships, teaching assistantships, or research assistantships in the College of Education.

Students interested in employment opportunities in the college's support units and special resources should contact the director of each facility and indicate their interests, their academic and experience records, and their career or degree goals at the University of Iowa.

Graduate Assistantships

Individual academic programs provide opportunities for teaching, research, or service assistantships as well as for fellowships and related employment opportunities. Inquiries should be addressed to the chair of the department or the director of the program in which students believe they can provide service or achieve an outstanding academic record. Assistantship appointments are usually, but not always, made by the program area.

Special Graduate Research Assistantships in Education

Iowa Testing Programs provides funds to support a limited number of special graduate assistantships in education, in which students do research work under the direction of a faculty member of their choice. Students must be enrolled for at least 6 s.h. but not more than 12 s.h. per semester; assistantships are for the academic year and are renewable for a limited number of years. Students admitted to or pursuing any advanced degree program offered by the College of Education are eligible to apply, provided they are committed to a professional career in the United States.

Applicants must submit transcripts of all completed college work (undergraduate and graduate), recommendation forms specific to the assistantship, and scores on the Graduate Record Exam (GRE) General Test. For assistantship application forms, contact the Iowa Testing Programs directors. The application deadline is late February.

Scholarships and Awards

The College of Education presents many scholarships funded by generous donors. Students apply through the College of Education scholarships website.

Courses

- Education Interdepartmental Courses [p. 1344]
- Education Honors Opportunity Program Courses [p. 1344]

Most College of Education courses are offered by the college's departments and programs. They are listed and described in their corresponding General Catalog sections. The college also offers the following interdepartmental courses.

Education Interdepartmental Courses

EALL:4130 Introduction to Grant Writing 3 s.h.
Comprehensive training in grant proposal writing; basics of project development and management; core principles for writing small and large proposals to public and private funding sources; finer points of grant writing to increase competitiveness of future proposals and applications; for students with limited grant writing experience. Same as MUSM:4150.

EALL:4200 Education Studies and Human Relations Academic Internship arr.
Experiential learning opportunity to support career exploration and professional development in education and human relations related careers; students secure and participate in an internship, make connections between their internship experience, academic coursework, and future career goals; assignments support students in their internship role and allow for reflection on their ongoing experience; supplemental material and units aid in professional development.

EALL:7475 ePortfolio in College Teaching 3 s.h.
Framework for connecting authentic evidence of scholarly work and teaching competencies; use of advanced web and multimedia technologies to link artifacts to ePortfolio templates.

Education Honors Opportunity Program Courses

EHOP:4100 Honors Seminar in Education 2 s.h.
Introduction to research in education and related professions in preparation for honors exploratory final product; specific focus on a literature review.

EHOP:4101 Senior Honors Project 1-2 s.h.
Collaboration with a faculty member on research project; written report. Prerequisites: EHOP:4100.

Education Studies and Human Relations, BA

The education studies and human relations major in the College of Education blends the principles of education with the dynamics of human interactions. This multidisciplinary program enhances broad liberal arts and sciences education for students who want to make a difference in professions related to helping, learning, and instruction while building strong, positive relations, effective communication, and leadership skills.

This major focuses on foundational knowledge from both education studies and human relations. Students explore the foundations of how people learn beyond the traditional classroom and how to support them in that process, how to work effectively with a variety of people, and how systems of education affect how people are supported. Elective coursework allows students to gain an additional understanding of how people learn and grow by engaging in coursework that focuses on the study of instructional design, human development, communication, diverse perspectives, and learning how to manage and improve interpersonal relationships.

Students who plan to earn the major pursue their academic interests with a variety of courses from across the College of Education's four academic departments to further career goals or prepare for future graduate study. They may choose to select among all the course offerings for the education studies and human relations major or select one of two subprograms.

The education studies subprogram is for students interested in pursuing careers in higher education, nonprofit organizations, companies that develop training, learning technology companies, health care settings, community organizations, school district support roles, and informal learning spaces such as nature environments, maker spaces, museums, and athletic teams, as well as competitive preparation for future graduate study in learning sciences, educational measurement, education policy, educational psychology, higher education, and student affairs.

The human relations subprogram is for students who are interested in careers in helping fields that rely on interpersonal communication and personal problem solving (e.g., addiction, case management), as well as competitive preparation for future graduate study in professional counseling, health service psychology, couple and family therapy, community leadership, and related fields.

Learning Outcomes

- Understand learning and instruction, broadly construed, as it may be realized in a number of different contexts, situations, and learners.
- Understand how to support learners via teaching, counseling, advocacy, and other intervention relationships.
- Think critically, conceptually, and psychologically about issues and problems in and the social purposes of education in a variety of contexts.
- Develop interpersonal skills that enhance helping relationships and foster collaboration in a variety of contexts.
- Develop increased sensitivity to and understanding of values, beliefs, lifestyles, and attitudes of individuals and diverse groups found in a pluralistic society by exploring diversity, diversity consciousness, and the causes, implications, and resolutions of systemic inequities.
- Draw on research to understand and implement instructional and intervention practices, assessment processes, and leadership and advocacy skills to foster positive outcomes in education and related organizations.
- Understand ethical and professional issues that may arise in education-related contexts.

Requirements

The Bachelor of Arts with a major in education studies and human relations (ESHR) requires a minimum of 120 s.h., including the general education requirements for the degree and at least 30 s.h. of courses for the major. General education requirements to earn a bachelor of arts degree from the College of Education (EDUC) are the GE CLAS Core [p. 22] of the College of Liberal Arts and Sciences (CLAS). Students must achieve a cumulative grade-point average of at least 2.00 in all college coursework, in all UI coursework, and in the major in order to earn this degree.

The major can be paired with other majors, minors, and certificates. At most, only 3 s.h. of education studies and human relations courses may be counted toward another major, minor, or certificate.

The major consists of a 15 s.h. core curriculum plus an additional 15 s.h. chosen from the list of approved elective courses in a student's declared program of study. Students may choose education studies and human relations as their major; or one of the two subprograms within the major, either education studies or human relations. Students are required to earn a minimum of 18 s.h. in education studies and human relations coursework at the University of Iowa.

The BA with a major in education studies and human relations requires the following coursework.

Core Courses

Course #	Title	Hours
All of these:		
CSED:4199	Counseling for Related Professions	3
or CSED:4195	Ethics in Human Relations and Counseling	
EDTL:2015	Teaching as a Human Endeavor	3
EPLS:3000	Foundations of Education	3
PSQF:1075	Educational Psychology and Measurement	3

Diverse Perspectives Course

Course #	Title	Hours
One of these:		
CSED:4197	Citizenship in a Multicultural Society	3
EPLS:1240	Student Success in College	3
EPLS:4180	Human Relations for the Classroom Teacher	3
PSQF:3104	Multicultural Issues in Counseling and Psychology	3

Electives

For the remaining 15 s.h. required for the major, students choose from the following list of courses, depending on their choice of subprogram or the major without a subprogram, to build a multidisciplinary slate of skills that enhances their future careers or graduate work. While students may choose any of these courses to earn the major without a subprogram, those who pursue the education studies subprogram or the human relations subprogram select courses relevant to their area.

ESHR Academic Internship

ESHR students are encouraged to explore career opportunities in education beyond traditional classroom teaching through internship and practicum experiences. Students may register for EALL:4200 Education Studies and Human Relations Academic Internship or find an opportunity through the Pomerantz Career Center. Please note that the course credits from internships do not count towards the 30 s.h. needed for the BA.

Concentration Areas

Whether students pursue education studies and human relations or one of its subprograms, guidelines for informal concentration areas may provide a useful resource in choosing electives that are meaningful, useful, and a cohesive program of study. Guidelines for informal concentration areas are offered as a course selection aid to be used in consultation with an academic advisor and are not listed on a student's transcript or diploma. These informal concentration areas are meant to be fluid over time to best reflect trends and issues in the field of education and helping professions. Further, students may create their own concentration focus that will meet their own career trajectory. The guidelines for informal concentration areas are located on the College of Education website.

- Education Studies and Human Relations Electives [p. 1346]
- Education Studies Subprogram Electives [p. 1347]
- Human Relations Subprogram Electives [p. 1347]

Education Studies and Human Relations Electives

Students in the education studies and human relations program must select 15 s.h., including at least two different College of Education areas (CSED, EDTL, EPLS, PSQF), from the following.

Course #	Title	Hours
CSED:1102	Introduction to Helping Skills	3
CSED:2081	Making a Vocational-Educational Choice	2-3
CSED:4111	Building Leadership and Success at Work	3
CSED:4130	Human Sexuality	3
CSED:4131	Loss, Death, and Bereavement	3
CSED:4140	Foundations of Leadership for Community Agencies	3
CSED:4173	Trauma Across the Lifespan	3
CSED:4176	Child Abuse: Assessment, Intervention, and Advocacy	3
CSED:4180	Topical Seminar for Helping Professionals (depending on topic; consult advisor)	3
CSED:4187	Introduction to Assistive Technology	3
CSED:4195	Ethics in Human Relations and Counseling (if not used to meet core class requirement)	3
CSED:4197	Citizenship in a Multicultural Society (if not taken as diverse perspectives course)	3
CSED:4199	Counseling for Related Professions (if not used to meet core class requirement)	3
EDTL:2122	Creativity, Imagination, Play, and Human Development through the Arts	3
EDTL:2630	Introduction to the Psychology of Music	3
EDTL:3002	Teaching and Learning Technologies	2-3
EDTL:3382	Language and Learning	2-3
EDTL:3715	Experiential Teaching and Learning	3
EDTL:4093	Teaching and Learning for a Global Perspective	3
EDTL:4096	Topics in Teaching and Learning (depending on topic; consult advisor)	3
EDTL:4900	Foundations of Special Education	3
EPLS:1240	Student Success in College (if not taken as diverse perspectives course)	3
EPLS:2098	The Student Affairs Profession	3
EPLS:3240	Undergraduate Topics in Education (depending on topic; consult advisor)	3
EPLS:4020	Being in Civic Dialogues	3
EPLS:4180	Human Relations for the Classroom Teacher (if not taken as diverse perspectives course)	3
EPLS:4200	Athletic Administration in Educational Settings	3
EPLS:4250	Education In Black America	3
PSQF:2115	Introduction to Counseling Psychology	3
PSQF:2116	Applied Child and Adolescent Psychology	3
PSQF:2700	Introduction to Understanding Trauma and Resilience	3
PSQF:3104	Multicultural Issues in Counseling and Psychology (if not taken as diverse perspectives course)	3
PSQF:3115	Sport and Performance Psychology	3

PSQF:3333	Special Topics in Psychological and Quantitative Foundations (depending on topic; consult advisor)	3
PSQF:4106	Child Development	3
PSQF:4133	The Adolescent and Young Adult	3
PSQF:4134	Parent-Teacher Communication	1-3
PSQF:4136	Home/School/Community Partnerships	3
PSQF:4143	Introduction to Statistical Methods	3
PSQF:4145	Marriage and Family Interaction	3
PSQF:4162	Introduction to Couple and Family Therapy	3
PSQF:4204	Introduction to the Learning Sciences	3
PSQF:4205	Design Principles for How People Learn	3
PSQF:4281	Cognitive Principles for How People Learn	3
PSQF:4750	Learning Environments: Design, Context, and Activity	3
PSQF:4760	Participatory Learning and Media: Creating, Remixing, Making, and Education	3
SIED:4135	The Nature of Science	3-4

Education Studies Subprogram Electives

Students in the education studies subprogram must select 15 s.h., including at least two different College of Education areas (CSED, EDTL, EPLS, PSQF), from the following.

Course #	Title	Hours
CSED:4111	Building Leadership and Success at Work	3
CSED:4140	Foundations of Leadership for Community Agencies	3
CSED:4187	Introduction to Assistive Technology	3
CSED:4197	Citizenship in a Multicultural Society (if not taken as diverse perspectives course)	3
EDTL:2122	Creativity, Imagination, Play, and Human Development through the Arts	3
EDTL:2630	Introduction to the Psychology of Music	3
EDTL:3002	Teaching and Learning Technologies	2-3
EDTL:3382	Language and Learning	2-3
EDTL:3715	Experiential Teaching and Learning	3
EDTL:4093	Teaching and Learning for a Global Perspective	3
EDTL:4096	Topics in Teaching and Learning (depending on topic; consult advisor)	3
EDTL:4900	Foundations of Special Education	3
EPLS:1240	Student Success in College (if not taken as diverse perspectives course)	3
EPLS:2098	The Student Affairs Profession	3
EPLS:3240	Undergraduate Topics in Education (depending on topic; consult advisor)	3
EPLS:4180	Human Relations for the Classroom Teacher (if not taken as diverse perspectives course)	3
EPLS:4200	Athletic Administration in Educational Settings	3
EPLS:4250	Education In Black America	3
PSQF:2700	Introduction to Understanding Trauma and Resilience	3
PSQF:3104	Multicultural Issues in Counseling and Psychology (if not taken as diverse perspectives course)	3
PSQF:3115	Sport and Performance Psychology	3
PSQF:3333	Special Topics in Psychological and Quantitative Foundations (depending on topic; consult advisor)	3
PSQF:4106	Child Development	3
PSQF:4133	The Adolescent and Young Adult	3
PSQF:4143	Introduction to Statistical Methods	3
PSQF:4204	Introduction to the Learning Sciences	3
PSQF:4205	Design Principles for How People Learn	3
PSQF:4281	Cognitive Principles for How People Learn	3
PSQF:4750	Learning Environments: Design, Context, and Activity	3
PSQF:4760	Participatory Learning and Media: Creating, Remixing, Making, and Education	3
SIED:4135	The Nature of Science	3-4

Human Relations Subprogram Electives

Students in the human relations subprogram must select 15 s.h., including at least two different College of Education areas (CSED, EDTL, EPLS, PSQF), from the following.

Course #	Title	Hours
CSED:1102	Introduction to Helping Skills	3
CSED:2081	Making a Vocational-Educational Choice	2-3
CSED:4111	Building Leadership and Success at Work	3
CSED:4130	Human Sexuality	3

CSED:4131	Loss, Death, and Bereavement	3
CSED:4140	Foundations of Leadership for Community Agencies	3
CSED:4173	Trauma Across the Lifespan	3
CSED:4176	Child Abuse: Assessment, Intervention, and Advocacy	3
CSED:4180	Topical Seminar for Helping Professionals (depending on topic; consult advisor)	3
CSED:4187	Introduction to Assistive Technology	3
CSED:4195	Ethics in Human Relations and Counseling (if not used to meet core class requirement)	3
CSED:4197	Citizenship in a Multicultural Society (if not taken as diverse perspectives course)	3
CSED:4199	Counseling for Related Professions (if not used to meet core class requirement)	3
EDTL:4096	Topics in Teaching and Learning (if not taken as diverse perspectives course)	3
EPLS:3240	Undergraduate Topics in Education (depending on topic; consult advisor)	3
EPLS:4020	Being in Civic Dialogues	3

PSQF:4143	Introduction to Statistical Methods	3
PSQF:4145	Marriage and Family Interaction	3
PSQF:4162	Introduction to Couple and Family Therapy	3

College of Education Academic Standards

The College of Education has established academic standards to ensure students successfully complete their degree program. To be in good academic standing, students in the College of Education must achieve the following minimum grade-point average (GPA) requirements.

- University of Iowa cumulative GPA and overall cumulative GPA, based on total hours earned
  - 0–29 overall earned semester hours: minimum of 1.85
  - 30 or more overall earned semester hours: minimum of 2.00
  - Non-degree students: minimum of 2.00
- Major GPA (overall cumulative): minimum of 2.00
- University of Iowa term GPA: minimum of 1.50 during fall or spring enrollment

For additional information about these standards, contact the Office of Student Services.

Combined Programs

Tippie College of Business/ College of Education

The Tippie College of Business and the College of Education offer a combined degree program in which students earn two bachelor's degrees: a Bachelor of Business Administration (BBA) from the Tippie College of Business and a Bachelor of Arts (BA) from the College of Education. The combined degree program is limited in the College of Education to either the BA in education studies and human relations or the BA in elementary education.

Students in this combined degree program must declare the Tippie College of Business program of study as their primary (first) major.

Education Studies and Human Relations BA/MA in Learning Sciences and Educational Psychology

The undergraduate to graduate (U2G) program in Learning Sciences and Educational Psychology is open to any undergraduate major at the University of Iowa. Students are able to earn their BA and their MA degrees in less time than it would take to complete both degrees separately.

For more information see Undergraduate to Graduate MA Learning Sciences and Educational Psychology on the College of Education website.

BA/JD

The Bachelor of Arts in educational studies and human relations participates in the 3+3 program with the College of Law which allows students the opportunity to apply for admission during their junior year to the College of Law, and if accepted, to begin work on the Juris Doctor during their fourth year of study in the BA degree program.

For more information, see the 3+3 Program for Undergraduates on the College of Law website and the Juris Doctor, JD [p. 1833] (College of Law) in the catalog.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the university's Four-Year Graduation Plan.

Before the fifth semester begins: at least three courses in the major.

Before the seventh semester begins: at least three more courses (total of six) in the major and at least 90 s.h. earned toward the degree.

Before the eighth semester begins: at least two more courses (total of eight) in the major.

During the eighth semester: enrollment in all remaining coursework in the major, all remaining GE CLAS Core courses, and a sufficient number of semester hours to graduate.

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives;

International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e A course used for the GE CLAS Core cannot also be used to count toward major requirements.

f See General Catalog for list of approved courses.

g Students must select major electives to total 15 s.h., including at least two different College of Education areas (CSED, EDTL, EPLS, PSQF). Subprograms or informal concentration areas may guide the selection of major electives. See General Catalog for list of approved courses and more information about subprograms and concentration areas.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Applied Behavior Analysis

Chair, Department of Teaching and Learning

- Lia M. Plakans

Coordinator, Applied Behavior Analysis

- Seth A. King (Teaching and Learning)

Graduate certificate: applied behavior analysis

Faculty: https://education.uiowa.edu/directory

Website: https://education.uiowa.edu/areas-study/continuing-education/certificates-and-endorsements/certificate-applied-behavior

The purpose of the graduate Certificate in Applied Behavior Analysis is to provide professionals who have a background in education, psychology, and related services with expertise in behavior intervention and intensive educational interventions. Students who complete the program are eligible for national certification as board-certified behavior analysts. Applied behavior analysis is a growing service sector with opportunities for employment in schools, universities, and independent clinics.

The certificate program is intended for students who have or are currently pursuing a graduate level degree. Undergraduate students interested in applied behavior analysis should consider the Master of Arts non-licensure degree in special education with a concentration in applied behavior analysis.

The Certificate in Applied Behavior Analysis is administered by the Department of Teaching and Learning [p. 1431] and is granted by the Graduate College.

For more information, visit Certificate in Applied Behavior Analysis on the College of Education website.

Programs

Graduate Program of Study

- Certificate in Applied Behavior Analysis [p. 1352]

Applied Behavior Analysis, Graduate Certificate

Requirements

The graduate Certificate in Applied Behavior Analysis requires 24 s.h. of graduate credit and is offered with hybrid and conventional courses. Students must maintain a grade-point average of at least 2.50 in work for the certificate. They must earn at least a grade of C in each course required for the certificate. Courses must be taken on an A–F graded basis.

The certificate program is open to students enrolled in University of Iowa graduate degree programs and to individuals who are enrolled in the Graduate College as nondegree students.

The certificate program develops skills in behavioral intervention and intensive instruction. The course sequence contributes to eligibility for certification as a board-certified behavior analyst (BCBA). In addition to the course sequence offered through the certification program, obtaining the BCBA requires completion of a supervised practicum experience and successful completion of the behavior certification exam offered through the Behavior Analyst Certification Board. For additional details regarding certification, visit the Behavior Analyst Certification Board website or contact the applied behavior analysis certificate coordinator.

The Certificate in Applied Behavior Analysis requires the following coursework.

Course #	Title	Hours
All of these:		
EDTL:4950	Behavioral and Social Interventions	3
EDTL:4975	Explicit Instruction	3
EDTL:5961	Foundation of Applied Behavior Analysis	3
EDTL:5963	Ethics and Professional Conduct for Behavior Analysts and Psychologists	3
EDTL:5966	Advanced Topics in Applied Behavior Analysis	3
EDTL:5967	Supervision Strategies in Special Education	3
EDTL:5970	Experimental Analysis of Behavior	3
EDTL:7953	Seminar: Single Subject Design Research	3

For more information, visit Certificate in Applied Behavior Analysis on the College of Education website.

Belin-Blank Center for Gifted Education

Director

- Megan Foley Nicpon

Website: https://belinblank.education.uiowa.edu

The Connie Belin and Jacqueline N. Blank International Center for Gifted Education and Talent Development is dedicated to serving the needs of the gifted community at local, national, and international levels. It offers programs for preservice and inservice educators, including the State of Iowa Talented and Gifted Endorsement. Its online and on-campus courses about the nature and needs of gifted learners, as well as about ways to facilitate talent development, support the professional development of educators worldwide.

The center is home to the Assessment and Counseling Clinic and the Acceleration Institute.

Precollege Program Offerings

The Belin-Blank Center offers a wide variety of programs for precollege students.

Belin-Blank Exceptional Student Talent Search

The Belin-Blank Exceptional Student Talent Search (BESTS) (grades 4–9) helps determine talented students' academic abilities and needs.

Junior Science and Humanities Symposium

The Junior Science and Humanities Symposium (grades 9–12) engages students in original research and experimentation in the STEM fields (science, technology, engineering, and math). Students present the results of their research to a panel of judges and an audience of their peers at the Iowa Regional Junior Science and Humanities Symposium. The top five finalists are invited to attend the national symposium.

Scholastic Art and Writing Awards

The Belin-Blank Center is proud to serve as the Iowa and Midwest region at-large affiliate for the Scholastic Art and Writing Awards (grades 7–12), which recognizes achievement in the literary and visual arts. The Scholastic Art and Writing Awards program is the nation’s longest-running, largest, and most prestigious recognition program for creative teens. Over the past 90 years, the awards have recognized and encouraged artists and writers such as Sylvia Plath, Andy Warhol, Truman Capote, Robert Redford, Tom Otterness, and Zac Posen, among countless others.

Weekend Enrichment Program

The Weekend Enrichment program (grades 3–8) consists of half-day enrichment opportunities for elementary and junior high students that take place on the University of Iowa campus. Classes in STEM, the arts, and the humanities cultivate students' interest and enliven their curiosity.

Summer Programs

The Belin-Blank Center also offers the following summer programs, many of which are residential programs held on the University of Iowa campus. Students in each program participate in cultural and recreational activities and have access to the university's libraries, computer facilities, and study areas. For residential programs, housing and meals are provided at the university's residence halls. Junior Scholars Academy students do not stay on campus.

Blank Summer Institute

The Blank Summer Institute for the Arts and Sciences (BSI) is a program that provides an intensive, advanced educational experience designed to enhance exceptionally talented students' intellectual and social growth. The BSI plan of study complements the regular school curriculum. Students are nominated for program participation.

To be eligible for BSI, students must be Iowa residents, must be completing grade 7 or 8, and must be nominated by their schools. Students selected for BSI receive a scholarship to cover part of the institute's cost.

Junior Scholars Academy

The Junior Scholars Academy (JSA) is a summer program designed specifically for bright elementary and middle school students who want to thoroughly explore a topic while having fun with other kids who share their enthusiasm for learning. Students choose one class to focus on all day, for a full week.

Summer Writing Online

The Summer Writing Online offers a three-week online program for students completing grade 9, 10, or 11. The program immerses students in the creative environments of the University of Iowa world-class faculty in writing. Out-of-class opportunities include evening tours, lectures, and events that are designed to stretch the developing artist or writer. For more information about the center and its programs, contact the Belin-Blank Center or visit its website.

Twice-Exceptional Summer Academy

The Twice-Exceptional Summer Academy is a two-day semi-residential experience that focuses on a variety of topics to help prepare students for success in college and a separate schedule covering relevant information for parents and guardians. In addition to sessions, the camp includes team building and social activities. A parent or guardian must attend for the entire camp.

University-Based Programs

Academy for Twice-Exceptionality

A college journey at the University of Iowa embraces meaningful academic experiences and the development of important skills, including independence, social-emotional maturity, effective communication, and career readiness. The Academy for Twice-Exceptionality partners with neurodiverse college students to foster and support these experiences and skills and enhance community engagement as an Iowa Hawkeye. The academy strives to ensure that neurodiverse students have a positive and fulfilling college experience, nurturing students' talents while also creating a sense of community and helping students connect with resources from the Belin-Blank Center, the University of Iowa, and the broader community.

Bucksbaum Early Entrance Academy

The Bucksbaum Early Entrance Academy gives high-achieving early high school graduates the opportunity to enroll early at the University of Iowa. The Bucksbaum Academy provides

top students with a high-level curriculum while supporting them through the transition from high school to the University of Iowa. The academy focuses on building a community of advanced learners who are striving to become future leaders. They provide support through weekly seminars, merit scholarships, individual weekly meetings, and a variety of social and emotional supports. The program is open to students worldwide.

Courses

Belin-Blank Center for Gifted Education Courses

BBC:1000 Bucksbaum Academy Second-Year Seminar 1 s.h.
Unites self-efficacy skills attained in first-year seminar experience with exploration of how to foster more fulfilling and productive lives; understanding and development of high potential; for Bucksbaum Academy second-year students and early-entrance program supported by the Belin-Blank Center.

BBC:1001 Summer Art Residency 2 s.h.
Partnership between Belin-Blank Center and the UI School of Art, Art History, and Design; designed for talented high school artists from across the country; taught by faculty, staff, and graduate students from the School of Art, Art History, and Design and special visiting artists.

BBC:1002 Summer Writing Residency 2 s.h.
Partnership between Belin-Blank Center and the UI undergraduate creative writing program; designed for talented high school writers from across the country; taught by faculty, staff, and graduate students from the English department, Iowa Writers' Workshop, and special visiting authors.

BBC:1003 Perry Research Scholars Institute 1 s.h.
Perry Research Scholars Institute is an introductory-level, research-preparatory program that grants behind-the-scenes access to ways and places to discover new knowledge on many different topics—spend days with a backstage pass to cutting-edge facilities and spaces at a major research institution, hear from University of Iowa faculty researchers and their teams on how the research process works, the many different ways that research can look, and even the ways one can pursue a research career. Requirements: acceptance to Perry Research Scholars Institute.

BBC:1004 Secondary Student Training Program 3 s.h.
Experience conducting research under the guidance of a faculty mentor; presentation of research findings at concluding seminar.

BBC:1025 Succeeding in College and Beyond 3 s.h.
Foster belonging, develop connections. Includes campus transition/navigation, key university resources, essential skills for collegiate success, goal setting, self-advocacy, campus opportunities and barriers, community student health and wellbeing, leadership skills. Requirements: admission to Bucksbaum Early Entrance Academy. Same as PSQF:1025.

BBC:1030 Belin-Blank Center Seminar 1 s.h.
Presentations and discussions by university resource experts and Belin-Blank Center for Gifted Education staff. Requirements: Bucksbaum Early Entrance Academy student. Same as CSED:1030.

BBC:4023 Twice-Exceptionality Support Seminar 1 s.h.
Areas and issues that typically impact students diagnosed as twice-exceptional in college (specifically autism spectrum disorder); focus on navigating campus and services, communication skills (social and academic based), stress management, executive functioning skills, career and job seeking skills. Same as EDTL:4023.

BBC:4025 Differentiated Instruction for Advanced Learners 1 s.h.
Introduces the concept of a differentiated classroom for K-8 advanced learners for preservice and practicing educators. Specific content relates to understanding the foundation of differentiation, preparing for facilitating a differentiated classroom, establishing routines and classroom management, and sharing instructional strategies to engage advanced learners. Same as EDTL:4025.

BBC:4026 Language Arts for Advanced Learners 1 s.h.
Explores the purposes and methods of language arts instruction with focus on the developmental, social, and emotional needs of high-ability readers featuring the key components and elements necessary for an advanced language arts program in grades K-8; includes criteria for developmentally appropriate literature and grammar with an overview of the role of writing and composition. Prerequisites: EDTL:3095 or EDTL:3160 and EDTL:3164. Same as EDTL:4026.

BBC:4031 Belin-Blank Talent Development Fellowship 1-2 s.h.
Content is approached as a survey of concepts, ideas, and issues pertinent to the development of talent (and its potential) in K-12 students. Key course content includes acceleration, appropriate curriculum and instruction, assessment and identification, collaborating with staff and families, differentiation, diverse student populations, social and emotional needs, and research. Same as EDTL:4031.

BBC:4033 Talent Development in the Arts and Athletics: Models and Methods 1 s.h.
Examines multiple general and domain-specific talent development models relevant to arts and athletics. Students will consider the roles of nature and nurture, the role of the teacher/coach, and the use of creativity while weighing the impact these have on the development of talent. Students will analyze how these talent development processes have played out in the lives of individuals eminent in the arts and athletics. Same as EDTL:4033.

BBC:4035 Talent Development in the Arts and Athletics: Psychosocial Trials and Benefits 1 s.h.
Students will understand and integrate the multiple psychosocial issues (both trials and benefits) experienced during varying stages of the talent development process, including practice, perfectionism, anxiety, failure, shame, motivation, leadership, asynchrony, competition, multipotentiality, performance, grit, and intensities. Students will analyze how these psychosocial issues impacted the talent development process in the lives of individuals eminent in the arts and athletics. Same as EDTL:4035.

BBC:4066 Curriculum and Programming for Advanced Learners 3 s.h.
Designed to assist preservice educators, inservice educators, and anyone interested in curriculum and program development, design, and delivery of qualitatively differentiated experiences in the context of responding to the needs of advanced learners. Primary focus is on research-based curriculum models and programming for advanced learners from experts in the field. Same as EDTL:4066.

BBC:4067 Conceptions of Talent Development 3 s.h.
Students review conceptions of talent development and explore possibilities for appropriate programming in specific fields across various stages in life; traditional opportunities in gifted education programs; stages of development in early childhood; development of knowledge and skills in addition to and beyond organized educational programs. Same as EDTL:4067.

BBC:4074 Differentiation at the Secondary Level 1 s.h.
Importance of differentiation for gifted learners in middle school and high school; differentiation through advanced placement programs as well as broader perspectives on differentiation; essentials for differentiation understood and applied to a lesson that will be implemented with students. Same as EDTL:4074.

BBC:4085 Current Readings and Research in Gifted Education 1 s.h.
Research in the field of gifted education and talent development; applications of research to ensure best practices in providing services and programs for high-ability learners. Same as EDTL:4085.

BBC:4111 Evaluation of Gifted Programs 1 s.h.
Fundamentals of program evaluation essential for exemplary gifted programs. Same as EPLS:4111.

BBC:4118 Meeting the Emotional Needs of Talented Students 1 s.h.
Unique emotional needs of talented students, including twice exceptionality. Theories of and trends in emotional development; identification of needs and myths about skills/challenges; research-based strategies to best meet needs; emotional impact of acceleration; and counseling. Same as PSQF:4118.

BBC:4119 Meeting the Social Needs of Talented Students 1 s.h.
Unique social needs of talented students, including twice exceptionality. Theories of and general trends in social development; identification of needs and myths about skills/challenges; family and peer relationships; research-based strategies to best meet needs; social impact of acceleration; and counseling. Same as PSQF:4119.

BBC:4120 Psychology of Giftedness 3 s.h.
Theories of learning, child development, motivation; issues unique to gifted education. Same as CSED:4120, PSQF:4120.

BBC:4121 Identification of Students for Advanced Programming 3 s.h.
Best practices in assessing and identifying students for advanced programs, including standardized tests and other measurement instruments used to identify academic talent for grades K-12 and current issues in the use of various instruments and tests (e.g., ability, aptitude, achievement, rating scales). Same as CSED:4121, PSQF:4121.

BBC:4123 Academic Acceleration: Providing Excellence and Equity in Education for High Ability Students arr.
Acceleration as an effective curricular intervention for high-ability students; forms of acceleration, research evidence for acceleration, and process of implementing acceleration; reasons for persistent negative attitudes about acceleration; advocation for acceleration; skills for effective practice and implementation. Requirements: computer with internet access, sound card, Adobe Reader, and Adobe Flash Player. Same as PSQF:4123.

BBC:4137 Introduction to Educating Advanced Learners 3 s.h.
Survey of critical topics and issues related to advanced learners and meeting their needs through a research-based, best practice lens. Topics include key terms and definitions, standards, characteristics of advanced learners, social and emotional needs, assessment, acceleration, enrichment, diversity of learners, and accessible programming. Highlights the expertise of leaders in the field to provide current thinking and evidence-based practices on important topics related to advanced learners and meeting their needs. Same as CSED:4137, EDTL:4137.

BBC:4153 Collaboration Between Advanced Academics and General Education 1 s.h.
Examining the need for differentiated learning experiences throughout the school day for advanced learning and the combined effort among varied staff to accomplish this. Specific content related to how classroom teachers and gifted/talented resource teachers can collaborate to provide appropriate instructional services, collaborative models, the planning process, and recommendations for both direct and indirect services. Requirements: internet access. Same as EDTL:4153.

BBC:4188 Practicum in Teaching and Curriculum for Advanced Academics 1-6 s.h.
Completion of product for TAG endorsement. Same as CSED:4188, EDTL:4188.

BBC:4189 Practicum in Talent Development and Advanced Academics 1 s.h.
Combines readings, discussions, field experiences, and reflections. Finish developing a guided, interest-based culminating product for the TAG Endorsement. Same as EDTL:4189.

BBC:5065 Talent Development Capstone Exploration 2 s.h.
Develop and complete a capstone exploration project relevant to a school or other context that focuses on an important topic or issue in talent development. Requirements: completion of all coursework for the graduate Certificate in Talent Development. Same as EDTL:5065.

BBC:5080 Workshop: Teacher Training for Advanced Placement Courses 1-2 s.h.
Focus on a particular academic content area. Same as EDTL:5080.

BBC:5194 Continuing Education Individual Study arr.
Supervised individual study. Same as PSQF:5194.

BBC:5226 Assessment of Students for Advanced Programming 3 s.h.
Best practices in assessing and identifying students for advanced programs, including interpreting standardized tests and other measurement instruments used to identify academic talent for grades K-12 and current issues in the use of various instruments and tests (e.g., ability, aptitude, achievement, rating scales). Same as CSED:5226, PSQF:5226.

Counselor Education

Chair

- Noel Estrada-Hernandez

Undergraduate minor: human relations

Graduate degrees: MA in counselor education; PhD in counselor education

Faculty: https://education.uiowa.edu/directory

Website: https://education.uiowa.edu/about/administration/department-counselor-education

The Department of Counselor Education prepares students to facilitate human development across the lifespan, to advocate for clients and students, and to serve local, national, and international communities through the delivery and creation of state-of-the-art counseling services. The department achieves these goals by advancing knowledge, skills, and attitudes appropriate for effective and ethical professional counseling practice and by conducting and disseminating related research.

The department prepares practitioners and scholars by offering graduate programs in four major areas within counselor education:

- clinical mental health counseling (offered in the MA);
- counselor education and supervision (offered in the PhD);
- rehabilitation counseling program (offered in the MA); and
- school counseling (offered in the MA).

It also offers basic courses in interviewing and interpersonal skills for students in other professional and graduate programs. In addition, the department offers an undergraduate minor in human relations.

Programs

Undergraduate Program of Study

Minor

- Minor in Human Relations [p. 1362]

Graduate Programs of Study

- Master of Arts in Counselor Education [p. 1363]
- Doctor of Philosophy in Counselor Education [p. 1369]

Facilities

An on-campus counseling suite serves as a laboratory for training. In addition, a wide variety of supervised clinical experiences are available in community agencies, schools, and colleges, as well as throughout the university. Internships may be completed at approved sites nationwide.

Financial Support

Students in the department may apply for a wide variety of graduate assistantships. For example, many of the university's student service units award graduate assistantships. Applicants for assistantships should contact the department or the coordinator of the particular graduate program they plan to enter.

Applicants seeking fellowships or assistantships should complete their applications as early as possible.

Courses

Counselor Education Courses

CSED:1029 First-Year Seminar **1 s.h.**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CSED:1030 Belin-Blank Center Seminar **1 s.h.**
Presentations and discussions by university resource experts and Belin-Blank Center for Gifted Education staff. Requirements: Bucksbaum Early Entrance Academy student. Same as BBC:1030.

CSED:1101 Introduction to the Helping Professions **3 s.h.**
Provides an overview of the helping professions and career opportunities in the human services field. Students explore fields of practice such as aging, corrections, counseling, psychology, alcohol and other drug abuse, child welfare, mental health, and disabilities. Intended to help students create awareness and actively research career paths, academic preparation, and service delivery within the helping professions. Same as PSQF:1101.

CSED:1102 Introduction to Helping Skills **3 s.h.**
Problem solving, interviewing skills, and entry-level techniques of mindfulness, motivational interviewing, active listening, crisis management, and conversation facilitation. Use of positive psychology to understand the nuances of human communication; expore the continuum of human emotionality and the impact of emotion on communication and interaction, particularly within helping relationships. Same as PSQF:1102.

CSED:1103 Introduction to Assessment in Counseling and Behavioral Health **3 s.h.**
Within the helping professions, assessment is used to identify individual traits, needs, measure the effectiveness of interventions, and to determine eligibility for programs and services. This course provides an introduction to assessment methods, procedures, and tools used in the helping professions. Students will learn about basic psychometric concepts related to assessment and proper and ethical assessment procedures. Emphasis will be placed on assessments traditionally used in the helping professions within the domains of vocational or career attainment, education, mental health, healthcare satisfaction among others. Same as PSQF:1103.

CSED:2081 Making a Vocational-Educational Choice **2-3 s.h.**
Vocational decision-making process, self-evaluation, exploration of the world of work; for students who are uncertain about their educational and vocational goals.

CSED:4110 Psychology of Food and Mood **3 s.h.**
Neurobehavioral and psychological determinants of food preference, behavior, and mood management; cultural meanings of food in North America, obesity, dieting, disordered eating; how we use food as a means of managing or damaging our food and health.

CSED:4111 Building Leadership and Success at Work 3 s.h.
Learn and apply leadership skills and behaviors to meet and exceed employer expectations; develop skills to evaluate and match interests with company leadership styles; effectively use leadership behaviors to influence, communicate, motivate, work in teams, and manage conflict; gain an understanding of self-identity and how it is used in order to pull all of these skills and behaviors together to create an individualized leadership plan for use in career and personal life.

CSED:4112 How to Interview to Get That Job! 3 s.h.
Two approaches to job interviews—how to interview to obtain a job and how to interview applicants for a job; students gain knowledge and skills necessary to successfully conduct interviews from applicant and employer perspectives; review of interview processes and legal and ethical boundaries within interviews; examination of interview formats and styles to gain confidence and successfully respond to typical interview questions; development of interview questions as an applicant and as an employer; communication best practices prior, during, and following an interview.

CSED:4113 Sleep, Sleep Deprivation, and Sleep Disorders 3 s.h.
Theories and stages of sleep; aging and normal sleep; impact of sleep and sleep deprivation on mental and physical health; overview of sleep disorders and treatments.

CSED:4114 Psychology of Body Modification and Self-Image 3 s.h.
Exploration of psychology and practices of body modification as related to self-image; dynamic relationship between body and identity; body modification accomplished in many ways and for many reasons (beauty, social status, religious expression, improve function, to rebel); how gender, race, culture, age, and health shape our attitudes about our bodies and our decision to make modifications; risks and benefits (physical, emotional, social) of making a body modification to ones' sense of self as it relates to others and to oneself.

CSED:4119 Family Issues in Giftedness 1 s.h.
Family dynamics and issues that arise when one or more children are identified as gifted; parent/child, sibling, school/family relationships.

CSED:4120 Psychology of Giftedness 3 s.h.
Theories of learning, child development, motivation; issues unique to gifted education. Same as BBC:4120, PSQF:4120.

CSED:4121 Identification of Students for Advanced Programming 3 s.h.
Best practices in assessing and identifying students for advanced programs, including standardized tests and other measurement instruments used to identify academic talent for grades K-12 and current issues in the use of various instruments and tests (e.g., ability, aptitude, achievement, rating scales). Same as BBC:4121, PSQF:4121.

CSED:4123 Gender Issues and Giftedness 1 s.h.
Effect of gender on development of giftedness; differential needs of girls, boys; strategies for effective teaching, gender equity.

CSED:4125 Counseling and Psychological Needs of the Gifted 1 s.h.
Psychological aspects of giftedness, counseling techniques appropriate for gifted children, adolescents; socio-emotional concerns, career development, underachievement. Same as PSQF:4125.

CSED:4126 Cognitive and Affective Needs of Underachieving Gifted 1 s.h.
Diagnostic strategy for identifying types of underachievement, teaching and counseling interventions appropriate for each. Same as PSQF:4126.

CSED:4129 Creativity: Issues and Applications in Gifted Education 1 s.h.
Theories that underpin contemporary definitions of creativity; instruments developed to measure creativity; activities in the school environment that enhance or inhibit student creativity. Same as PSQF:4129.

CSED:4130 Human Sexuality 3 s.h.
Introduction to human sexuality from a sociocultural perspective; readings and discussions of sensitive topics and explicit depictions/discussions of sexuality; students may relate their sexual experiences to course content; combination of formats.

CSED:4131 Loss, Death, and Bereavement 3 s.h.
Psychological study of death, grief, loss, bereavement, and coping from a multidimensional and multidisciplinary perspective; loss and grief as natural experiences that are not often explicitly discussed; overview of topics relating to death, including multicultural attitudes toward death, death practices, theories on loss and bereavement, and grieving throughout the life cycle; hospice and palliative care, suicide, and making meaning of life out of death; development of critical thinking skills by engaging in empirically based discussions.

CSED:4132 Introduction to Addictions and Impulse Control Disorders 3 s.h.
Exploration of addictions and impulse control disorders; legal, social, physical, and emotional issues related to addictions and impulse control disorders.

CSED:4137 Introduction to Educating Advanced Learners 3 s.h.
Survey of critical topics and issues related to advanced learners and meeting their needs through a research-based, best practice lens. Topics include key terms and definitions, standards, characteristics of advanced learners, social and emotional needs, assessment, acceleration, enrichment, diversity of learners, and accessible programming. Highlights the expertise of leaders in the field to provide current thinking and evidence-based practices on important topics related to advanced learners and meeting their needs. Same as BBC:4137, EDTL:4137.

CSED:4140 Foundations of Leadership for Community Agencies 3 s.h.
Preparation to become effective employees and leaders; emphasis on leadership roles in clinical and other human service or health care settings; how leadership transcends job title associated with high work performance; experiential activities that illustrate key didactic concepts and didactic lecture review, written assignments, experiential assignment, in-depth discussions illustrating key concepts.

CSED:4142 Working With Youth in Transition in the Helping Professions 3 s.h.
Theories, developmental milestones, models, and resources pertinent to providing effective and ethical support while working with transition-aged youth.

CSED:4145 Marriage and Family Interaction 3 s.h.
Contemporary American couple, marriage, and family relationships; mate selection. Same as PSQF:4145.

CSED:4162 Introduction to Couple and Family Therapy 3 s.h.
Evolution of the family therapy movement and issues related to functional and dysfunctional family systems; significant models of family therapy and specific techniques. Same as PSQF:4162.

CSED:4173 Trauma Across the Lifespan 3 s.h.
Current theory and practice models related to trauma and crisis intervention; overview of multi-system level definitions of trauma experience (historical, individual, interpersonal, family, organizational, community, global); various approaches to trauma response theory; unique contributions that counselors offer (strength, resiliency, coping); commitments to multicultural and systems factors; macro- to micro-level understanding of trauma.

CSED:4174 Positive Psychology 3 s.h.
Promotion of human potential as a focus for counseling professionals that provides a supplement to diagnosis and treatment of pathology; how to achieve happiness, resilience, wellness, and life satisfaction through enhancement of human strengths and virtues.

CSED:4175 Motivational Interviewing 3 s.h.
Motivational Interviewing (Miller & Rollnick) and the stages of change model.

CSED:4176 Child Abuse: Assessment, Intervention, and Advocacy 3 s.h.
Preparation for work involving abused children or child abuse issues; appropriate for careers in counseling, education, health sciences, law, psychology, social work, and so forth; interactive approach.

CSED:4178 Microcounseling 3 s.h.
Basic skills of listening, responding, empathy, focus; advanced skills of meaning, confrontation, reframing, directives, action skills.

CSED:4179 Sexuality Within the Helping Professions 3 s.h.
Relationship between sexuality and mental health; varied ethical and professional issues in sex therapy.

CSED:4180 Topical Seminar for Helping Professionals arr.
Topics for the continuing education of counselors and related professionals.

CSED:4185 Introduction to Substance Abuse 3 s.h.
Theories of addiction and pharmacology of psychoactive drugs; legal, familial, biological, multicultural, historical issues related to substance use and misuse.

CSED:4187 Introduction to Assistive Technology 3 s.h.
How assistive technology can be used for attainment of goals in education or work. Same as EDTL:4987.

CSED:4188 Practicum in Teaching and Curriculum for Advanced Academics 1-6 s.h.
Completion of product for TAG endorsement. Same as BBC:4188, EDTL:4188.

CSED:4193 Individual Instruction - Undergraduate arr.

CSED:4194 Interpersonal Effectiveness 3 s.h.
Paradigms and techniques that enhance interpersonal relationship skills.

CSED:4195 Ethics in Human Relations and Counseling 3 s.h.
Morality and ethics; ethical issues; models and techniques for effective ethical decision-making in personal and professional interactions.

CSED:4197 Citizenship in a Multicultural Society 3 s.h.
Human relationships in the context of societal oppressions such as racism, sexism, able-bodyism, and heterosexism.

CSED:4199 Counseling for Related Professions 3 s.h.
Counseling theories and techniques; ethical and multicultural considerations; small-group discussions, demonstrations, lectures.

CSED:4953 Experiential Learning in Counseling and Behavioral Health Services 3 s.h.
Provides students an opportunity to further explore their interests and apply their acquired knowledge in the field of helping professions. Through experiential learning activities, such as roleplaying, case studies, and fieldwork, students learn to apply foundational skills in communication, critical thinking, empathy, and problem-solving essential for careers in counseling and behavioral health services.

CSED:5100 Introduction to Sandtray Counseling 3 s.h.
Principles of sandtray counseling and their applications in various counseling situations; sandtray counseling theories and techniques.

CSED:5200 Professional School Counselor 3 s.h.
Professional identity of school counselors, K-12 school counseling program delivery systems, legal and ethical issues.

CSED:5202 Introduction to Group Counseling 3 s.h.
Research, theory, ethics, planning, and practice in group counseling; leadership styles and multicultural considerations; group participation. Requirements: counselor education enrollment.

CSED:5203 Career Development and Counseling 3 s.h.
Preparation for counselors and student affairs professionals; career development concepts and theories, family and work, career counseling goals and objectives, exemplary techniques and materials, career program planning, evaluation procedures. Requirements: counselor education enrollment.

CSED:5204 School Culture and Classroom Management for School Counselors 3 s.h.
American public elementary and secondary schools and the school counselor's role; classroom management for school counselors.

CSED:5221 Theories of Counseling and Human Development Across the Life Span 3 s.h.
Philosophical bases, ethical considerations, processes, issues, multicultural and life-span developmental considerations in counseling theories and techniques. Requirements: counselor education MA enrollment.

CSED:5222 Counseling Children and Adolescents in Schools 3 s.h.
Theory and practice of school-based counseling interventions; child and adolescent development; prevention; special topics. Prerequisites: CSED:5221 or CSED:5278.

CSED:5226 Assessment of Students for Advanced Programming 3 s.h.
Best practices in assessing and identifying students for advanced programs, including interpreting standardized tests and other measurement instruments used to identify academic talent for grades K-12 and current issues in the use of various instruments and tests (e.g., ability, aptitude, achievement, rating scales). Same as BBC:5226, PSQF:5226.

CSED:5230 School Counseling Program Leadership and Management 3 s.h.
Comprehensive K-12 school counseling program components and structures; program leadership, planning, accountability; behavioral consultation and collaboration; ethical, multicultural, family considerations.

CSED:5237 Seminar in Gifted Education 2-3 s.h.
Teaching and counseling needs of gifted students K-12; intensive 10-day residential program. Requirements: work as teacher with Belin Fellowship.

CSED:5238 Advanced Seminar in Gifted Education 1 s.h.
Supervisory, administrative, and research issues; fellowships for seminar participants.

CSED:5241 Professional Counseling Orientation and Ethical Practice 3 s.h.
Historical, philosophical, legislative, societal, and multicultural overview of mental health process and practice in community-based settings; roles of rehabilitation and mental health professionals, nature of agencies, resources, contemporary issues, and ethics.

CSED:5248 Diagnosis and Treatment Planning for Traditional, Vulnerable, and Special Populations in Counseling 3 s.h.
Individual and group approaches to assessment and evaluation, including personal and environmental factors; psychiatric conditions, their diagnostic criteria using the DSM-5, and treatment planning considerations; biopsychosocial and psychiatric rehabilitation models used for case conceptualization and treatment planning, including functional assessment and client-driven rehabilitation planning for community reintegration; special considerations for diagnosing and treating vulnerable and special populations. Requirements: counselor education enrollment.

CSED:5249 Medical and Psychopathological Aspects of Chronic Illness and Disability 3 s.h.
Description, classification, and theoretical perspectives related to psychiatric disorders; models of intervention in community-based settings.

CSED:5250 Social and Cultural Foundations of Counseling 3 s.h.
Theory and application of multicultural competency in the helping professions; ethical treatment of clients in the context of a multiculturally diverse society; knowledge, skill, self-awareness components relevant for helping practitioners. Requirements: counselor education enrollment.

CSED:5253 Forensic Rehabilitation and Case Management 3 s.h.
Orientation to the profession of forensic rehabilitation or forensic vocational rehabilitation; development of knowledge and skills to act as a forensic professional in court proceedings involving persons with disabilities; emphasis on multiple areas of practice including social security determination, marital dissolution, personal injury, worker's compensation, and life care planning; students write expert testimony reports from assigned scenarios of injured workers for attorneys, insurance carriers, and administrative law judges.

CSED:5254 Assessment and Appraisal 3 s.h.
Presentation of materials related to assessment and appraisal for those who plan to work as professional counselors; didactic and experiential activities that enhance a counseling professional's work in the field; specifically, development of skills related to the administration, scoring, and interpretation of basic assessment materials and appraisal in a counseling setting.

CSED:5278 Applied Microcounseling 3 s.h.
Development of basic and advanced counseling skills; preparation for work in education and community settings.

CSED:5280 Topical Seminar in Counselor Education arr.
Special topics dealing with contemporary problems of concern to counselors in specific settings.

CSED:5300 Culturally Relevant Social and Emotional Learning 3 s.h.
Social-emotional learning (SEL) focuses on development of student competence in recognizing and managing emotions, developing empathy, making decisions, building relationships, and handling challenging situations; evidence on the impact of effective SEL has driven the introduction of state K-12 SEL standards and competencies; beyond applying principles of SEL, teachers need equitable instructional practices to link principles of learning with an understanding and appreciation for culture; examination of intersection of SEL and culturally relevant pedagogy (CRP); principles and applications of culturally relevant SEL in K-12 schools. Requirements: MA in teaching, leadership, and cultural competency program enrollment.

CSED:5400 Suicide and Crisis Intervention in Counseling 2-3 s.h.
Content related to suicide and crisis intervention work; students encounter many crisis situations in a variety of settings as future counselors and the importance of feeling prepared to engage in these situations; students often become leaders within their settings to carry out interventions; theoretical perspectives and techniques in crisis intervention and crisis counseling; history, models, current trends, and systemic issues of crisis counseling.

CSED:5500 Telehealth Skills in Clinical Mental Health 3 s.h.
In-depth exploration of telehealth counseling as applied to the practice of clinical mental health. Students learn about the theories, techniques, and ethical considerations unique to telehealth counseling. Emphasis is placed on developing practical skills for conducting effective and ethical telehealth sessions, understanding technological tools, and navigating legal and regulatory issues.

CSED:6263 Consultation Theory and Practice 3 s.h.
Review of concepts and practice of consultation and collaboration in educational and human services settings; focus on mental health, organizational, behavioral, and instructional models. Same as PSQF:6263.

CSED:6293 Individual Instruction - Graduate arr.

CSED:6300 Practicum in School Counseling 3 s.h.
Supervised experience counseling and consulting in elementary and secondary school settings. Requirements: completion of school counseling core courses.

CSED:6321 Internship in Elementary School Counseling 6,12 s.h.
Supervised placement in an elementary school setting; performance of tasks, responsibilities of an elementary school counselor. Prerequisites: CSED:6300. Requirements: completion of all required school counseling courses.

CSED:6322 Internship in Secondary School Counseling 6,12 s.h.
Supervised placement in a secondary school setting; performance of tasks, responsibilities of a secondary school counselor. Prerequisites: CSED:6300. Requirements: completion of all required school counseling courses.

CSED:6341 Occupational Information, Job Development, and Job Placement 3 s.h.
Obtaining appropriate jobs for individuals with disabilities who have received rehabilitation services; client, counselor, employer, job specifications.

CSED:6342 Psychosocial Aspects of Health and Disability Across the Developmental Lifespan 3 s.h.
Dynamics of adjustment and coping for persons with chronic illness or those with disabilities through the life span; somatopsychological, psychosocial, and developmental perspectives on disability.

CSED:6345 Winterim Session Field Experiences in Counseling arr.
Clinical experiences in mental health or rehabilitation agencies; supervision by faculty supervisor, site supervisor, and doctoral student in individual, triadic, and group formats; consultation between students, faculty supervisors, and site supervisors includes supervision and performance evaluation. Prerequisites: CSED:6346 or CSED:6349 or CSED:7360.

CSED:6346 Practicum in Rehabilitation Counseling 3 s.h.
Clinical preparation to work specifically with persons with mental health and other disabilities in order to effectively promote positive changes in their employment status (where applicable), level of social integration, level of independence, quality of life, and mental health; individual clinical preparation goals established within the parameters of the clinical continuum to ensure skill development and a strong knowledge base, which serve to promote qualified providers of rehabilitation counseling services.

CSED:6347 Internship in Rehabilitation Counseling arr.
Advanced clinical experiences under faculty supervision in a community rehabilitation agency. Student interns receive both individual and monthly group supervision at regular intervals from qualified supervisors; emphasis on application of rehabilitation counseling and case management methods, techniques, and vocational knowledge in work with clients; consultation with professionals, business, and industry as needed to enhance services to persons with disabilities for the purposes of job development/placement and/or independent living rehabilitation. Prerequisites: CSED:6346.

CSED:6349 Practicum in Clinical Mental Health Counseling arr.
Experience in a community agency serving individuals with mental health disorders, supervised by a qualified clinical supervisor in an approved site. Student interns receive both individual and monthly group supervision at regular intervals from qualified supervisors. Prerequisites: CSED:6353.

CSED:6352 Internship in Clinical Mental Health Counseling arr.
Full-time clinical experience in mental health settings; training in wide range of mental health functions under supervision of a qualified supervisor with appropriate credentials. Prerequisites: CSED:6349.

CSED:6353 Pre-Practicum and Case Management in Counseling 3 s.h.
Development of clinical counseling skills, with an emphasis on the demonstration of diagnostic, clinical, cultural, and treatment formulations; strong applied and experiential approach with special focus on development of self-awareness dexterity necessary for professionals in clinical mental health counseling; students learn and practice clinical skills in class and lab sessions that relate to working with individuals and small groups; applied pre-practicum allows students to work with an analog client as well as didactic instruction.

CSED:6394 Research and Scholarship Internship 1-3 s.h.
Preparation for comprehensive examination.

CSED:6500 Research and Program Evaluation 3 s.h.
Introduction to research methods for counselors; research strategies that have dominated counseling literature; key concepts related to development of researchable questions, use and interpretation of quantitative and qualitative analyses, factors impacting design integrity, and use of findings to effect counseling program modifications; focus on essential approaches needed to conceptualize and develop a research proposal.

CSED:7255 Advanced Career Development and Counseling 3 s.h.
Major concepts and research evidence about life-span vocational behavior; theories of vocational choice, adjustment, development in a multicultural world.

CSED:7338 Essentials of Qualitative Inquiry 3 s.h.
Principles, processes of qualitative research in education; methods of design, data collection and analysis, interpretation, trustworthiness. Requirements: PhD enrollment.

CSED:7347 Home/School/Community: System Interventions 3 s.h.
Interventions used by school and support system personnel; focus on work with parents, siblings. Same as PSQF:7347.

CSED:7353 Advanced Counseling and Psychotherapy 3 s.h.
Theories, techniques, and ethics of counseling clients with personal and interpersonal problems; ethical and multicultural considerations.

CSED:7360 Advanced Doctoral Internship in Counseling arr.
Supervised practice in counseling; intensive analysis of counselor ethics, styles, and methods. Requirements: PhD enrollment, advanced graduate standing in counselor education, and counseling introductory practicum.

CSED:7380 Internship in Teaching arr.
Supervised college teaching experience in counselor education courses; teaching in collaboration with faculty, observation and critiques of teaching, participation in course planning and evaluation procedures; ethical and multicultural considerations.

CSED:7385 Teaching and Learning in Higher Education 3 s.h.
Current theoretical and empirical literature on teaching and learning in higher education; focus on development of effective teaching practice. Same as EDTL:7385, EPLS:7385, GRAD:7385, PSQF:7385.

CSED:7400 Seminar: Ethics and Issues in Counseling 3 s.h.
Ethical, professional, and contemporary issues in counseling practice, education, and research. Requirements: counselor education PhD enrollment.

CSED:7410 Mixed Methods Research 3 s.h.
Introduction to mixed methods research in education; knowledge and skills necessary to conduct mixed methods study; history and language of mixed methods research; identifying and processing arguments for and against mixed methods research; critical and justice-oriented perspectives on mixed methods research; strengths and weaknesses of published mixed methods studies; application of one or more mixed methods research designs to a research proposal. Requirements: formal introduction to quantitative and qualitative research methods, and familiarity with basic steps of research process. Recommendations: direct experience conducting research studies not required. Same as EDTL:7410, EPLS:7392.

CSED:7438 Advanced Qualitative Research Seminar in Counselor Education 3 s.h.
Exploration of qualitative research at advanced theoretical, practical, and technical level, inside and outside a typical classroom environment; scholarly discussions. Prerequisites: CSED:7338.

CSED:7450 Advanced Social Psychology of Disability 3 s.h.
Disability issues from individual and societal perspectives; psychosocial aspects of disability and disability studies; seminar. Requirements: PhD enrollment.

CSED:7451 Advanced Multiculturalism 3 s.h.
Impact of culture, race, ethnicity, and intersections of identity on counseling in higher education and student affairs settings. Prerequisites: CSED:5250.

CSED:7454 Supervision Theory and Practice 3 s.h.
Conceptual models, ethics, multicultural considerations, research, and program design for counselor supervision and consultation.

CSED:7455 Internship in Supervision arr.
Supervision of students enrolled in counseling practicum. Prerequisites: CSED:7454.

CSED:7457 Seminar: Professional Orientation to Counselor Education, Supervision, Leadership, and Advocacy 4 s.h.
Professional orientation for students seeking degrees and employment in counselor education and supervision (CES); analysis of by-laws, competency statements, and professional responsibilities for specialists in CES; identification of key leadership practices; evaluation of leadership principles as applied to CES; development of a plan for future leadership in CES; students analyze needs of client stakeholder groups, evaluate current approaches to advocacy, develop an advocacy plan, and examine their own professional awareness, knowledge, and skill sets for negotiating work/life in academia and/or administration.

CSED:7458 Seminar: Issues and Trends in Counseling Research 4 s.h.
Recent trends, including debates and findings in literature related to best practices for the profession. Same as PSQF:7459.

CSED:7460 Seminar: Research in Counseling 3 s.h.
Methods, examples, ethics, multicultural issues, problems of counseling research. Requirements: PhD enrollment. Same as PSQF:7460.

CSED:7461 Practicum in Research arr.
Experience designing and implementing research relevant to student's plan of study, under supervision of counselor education faculty member.

CSED:7465 Internship in Clinical Practice arr.
Supervised experience in professional counseling, counselor supervision, consultation, and teaching counseling.

CSED:7466 Leadership and Advocacy Internship in Counselor Education 3 s.h.
Supervised experience in service learning activities in a variety of settings to build advocacy and leadership skills; leadership skill development opportunities that enhance doctoral students' future potential as counselor education advocates and consultants. Prerequisites: CSED:7360.

CSED:7470 Counselor Education and Supervision Doctoral Integrated Professional Internships 3 s.h.
Supervised experience for students enrolled in teaching, research, supervision, leadership and advocacy, and advanced clinical counseling internships. Requirements: PhD in counselor education and supervision enrollment.

CSED:7493 PhD Thesis arr.

Human Relations, Minor

Requirements

The undergraduate minor in human relations requires a minimum of 15 s.h. of credit, including 12 s.h. earned at the University of Iowa. Students must maintain a grade-point average of at least 2.50 in all courses for the minor and in all UI courses for the minor. Coursework in the minor may not be taken pass/nonpass, but may count toward the minor if offered as S/U or S/F. Transfer credit must be approved by the chair of the Department of Counselor Education in order to count toward the minor.

The minor is open to all University of Iowa students enrolled in an undergraduate degree program.

The minor in human relations requires the following coursework.

Course #	Title	Hours
This course:		
CSED:4199	Counseling for Related Professions	3
At least 12 s.h. from these:		
CSED:2081	Making a Vocational-Educational Choice	2-3
CSED:4110	Psychology of Food and Mood	3
CSED:4111	Building Leadership and Success at Work	3
CSED:4112	How to Interview to Get That Job!	3
CSED:4113	Sleep, Sleep Deprivation, and Sleep Disorders	3
CSED:4114	Psychology of Body Modification and Self-Image	3
CSED:4130	Human Sexuality	3
CSED:4131	Loss, Death, and Bereavement	3
CSED:4132	Introduction to Addictions and Impulse Control Disorders	3
CSED:4140	Foundations of Leadership for Community Agencies	3
CSED:4145	Marriage and Family Interaction	3
CSED:4162	Introduction to Couple and Family Therapy	3
CSED:4173	Trauma Across the Lifespan	3
CSED:4174	Positive Psychology	3
CSED:4175	Motivational Interviewing	3
CSED:4176	Child Abuse: Assessment, Intervention, and Advocacy	3
CSED:4178	Microcounseling	3
CSED:4179	Sexuality Within the Helping Professions	3
CSED:4180	Topical Seminar for Helping Professionals	3
CSED:4185	Introduction to Substance Abuse	3
CSED:4187	Introduction to Assistive Technology	3
CSED:4193	Individual Instruction - Undergraduate	arr.
CSED:4194	Interpersonal Effectiveness	3
CSED:4195	Ethics in Human Relations and Counseling	3
CSED:4197	Citizenship in a Multicultural Society	3
EALL:4130	Introduction to Grant Writing	3
EPLS:4180	Human Relations for the Classroom Teacher (requires special permission for students not enrolled in TEP)	3
PSQF:2115	Introduction to Counseling Psychology	3
PSQF:2116	Applied Child and Adolescent Psychology	3
PSQF:2700	Introduction to Understanding Trauma and Resilience	3
PSQF:3104	Multicultural Issues in Counseling and Psychology	3

Contact the Department of Counselor Education for more information about the minor.

Counselor Education, MA

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Maintaining Good Standing

MA students in the Department of Counselor Education must meet the following standards in order to remain in their degree programs and advance to candidacy and remain a candidate for a degree:

- maintain a grade-point average (GPA) of at least 3.00;
- successfully complete practicums and internships;
- maintain professional behavior consistent with the ACA Code of Ethics (American Counseling Association) and any additional code of professional ethics adhered to in any agency in which a student completes a practicum or internship; and
- demonstrate progress toward the degree through successful completion of semester hours specified in the curriculum plan and active registration each session (exceptions may be approved by the advisor).

Each student's academic and professional progress is reviewed annually.

Probational Status

Students who earn a cumulative GPA lower than 3.00 are placed on probational status and are notified in writing. Students on probational status have two consecutive sessions to raise their GPA to the established standard. If that requirement is not met, a student may be removed from the program. Students are allowed one probational status during their program of study.

Learning Outcomes

Counselor Education Standards

The following are the standards of the Department of Counselor Education at the University of Iowa, which are the key performance indicators for MA students:

- acquire the awareness, knowledge, and skills of a professional counselor and/or counselor educator;
- develop a process of ongoing reflective practice in relation to cultural humility and the profession’s multicultural, social justice, and ethical counseling competencies and education;
- develop counseling skills that will address problems in living from a developmental/life span approach;
- cultivate a commitment to ethical practices and behavior in counseling, counselor education, supervision, and research; and
- acquire an understanding of the social, vocational, educational, and psychological needs of individuals served in various settings such as schools, vocational, or counseling centers.

Clinical Mental Health Counseling

The Master of Arts program in counselor education with a clinical mental health counseling subprogram requires a minimum of 60 s.h. of graduate credit. Students must maintain a graduate program grade-point average of at least 3.00. Full-time students can complete the program in approximately 20 months (four semesters).

The program prepares professional counselors to provide assistance with psychological wellness through flexible, consumer-oriented therapy to individuals experiencing various problems in living, including mental disorders and substance abuse. They combine traditional psychotherapy with a practical, problem-solving approach that creates a dynamic efficient path for change and problem resolution.

Clinical mental health counselors work in a variety of settings, including public government agencies; private practice; community mental health agencies; managed behavioral health care organizations; integrated delivery systems; hospitals, including the Veteran’s Administration; employee assistance programs; and substance abuse treatment centers. They provide interventions designed to help individuals with their immediate needs such as assessment and diagnosis, psychotherapy, treatment planning, brief and solution-focused therapy, alcoholism and substance abuse treatment, psychoeducational and prevention, and crisis management.

The MA subprogram in clinical mental health counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Graduates of the program are eligible for certification by the National Board for Certified Counselors. By completing the program's coursework, students also complete the courses they must take in order to apply for licensure as mental health counselors in Iowa. Students who complete the program and wish to seek licensure in other states should refer to the relevant state licensing board for specific requirements.

The curriculum blends academic work with supervised clinical experiences. Students take practicum and internship concurrently with academic courses. The program concludes with a full-time internship (40 hours per week) during a spring semester. Students are assigned to mental health agencies or facilities that meet CACREP accreditation standards and that have programs or clientele aligned with a student's interests and educational objectives. Clinical placements require criminal background checks. Supervised practicums, internships, and final examinations are not offered during summer sessions.

The MA in counselor education with a clinical mental health counseling subprogram requires the following work.

Required Courses

Course #	Title	Hours
All of these:		
CSED:5202	Introduction to Group Counseling	3
CSED:5203	Career Development and Counseling	3
CSED:5221	Theories of Counseling and Human Development Across the Life Span	3
CSED:5241	Professional Counseling Orientation and Ethical Practice	3
CSED:5248	Diagnosis and Treatment Planning for Traditional, Vulnerable, and Special Populations in Counseling	3

CSED:5249	Medical and Psychopathological Aspects of Chronic Illness and Disability	3
CSED:5250	Social and Cultural Foundations of Counseling	3
CSED:5254	Assessment and Appraisal	3
CSED:5278	Applied Microcounseling	3
CSED:6342	Psychosocial Aspects of Health and Disability Across the Developmental Lifespan	3
CSED:6349	Practicum in Clinical Mental Health Counseling	3
CSED:6352	Internship in Clinical Mental Health Counseling	12
CSED:6353	Pre-Practicum and Case Management in Counseling	3
CSED:6500	Research and Program Evaluation	3

Electives

In consultation with their advisors, students choose 9 s.h. (from a minimum of 3 courses) in elective coursework. Students are permitted to select coursework numbered 3000 and above from counselor education (prefix CSED), teaching and learning (prefix EDTL), educational policy and leadership studies (prefix EPLS), and psychological and quantitative foundations (prefix PSQF). Students are encouraged to select from the following course list, as these courses are curated for counselor education students.

Course #	Title	Hours
CSED:4110	Psychology of Food and Mood	3
CSED:4113	Sleep, Sleep Deprivation, and Sleep Disorders	3
CSED:4114	Psychology of Body Modification and Self-Image	3
CSED:4130	Human Sexuality	3
CSED:4131	Loss, Death, and Bereavement	3
CSED:4132	Introduction to Addictions and Impulse Control Disorders	3
CSED:4162	Introduction to Couple and Family Therapy	3
CSED:4173	Trauma Across the Lifespan	3
CSED:4174	Positive Psychology	3
CSED:4175	Motivational Interviewing	3
CSED:4176	Child Abuse: Assessment, Intervention, and Advocacy	3
CSED:4179	Sexuality Within the Helping Professions	3
CSED:4185	Introduction to Substance Abuse	3
CSED:4187	Introduction to Assistive Technology	3
CSED:5280	Topical Seminar in Counselor Education (may be taken more than once if the topic differs)	arr.
CSED:5400	Suicide and Crisis Intervention in Counseling	2-3
CSED:5500	Telehealth Skills in Clinical Mental Health	3

Final Examination

The final examination consists of a departmental comprehensive portfolio that documents knowledge, skills, and dispositions on the process and practice of clinical mental health counseling. Exams are offered only during fall and spring semesters.

Admission

Applicants must meet the department's general admission requirements. They should have a good academic record and relevant experiences. No specific undergraduate major area of study is required for the MA program, but a major in one of the social sciences is considered good preparation. Postbaccalaureate work and volunteer experiences relevant to the field of mental health counseling are preferred. The program encourages applications from persons historically underrepresented in the field, particularly those with a disability and/or members of underrepresented groups. A personal interview is required.

Although students may be admitted for any semester, the program highly recommends that full-time students begin in the fall.

Rehabilitation Counseling Program

The Master of Arts program in counselor education with a rehabilitation counseling subprogram requires a minimum of 60 s.h. of graduate credit. Students must maintain a graduate program grade-point average of at least 3.00. Full-time students can complete the program in approximately 20 months (four semesters).

The program prepares professional counselors to provide assistance in psychological wellness, employment, independent living, and personal or economic development to persons with disabilities and other individuals who encounter barriers in meeting their own functional needs.

Rehabilitation counselors work in a variety of settings, including public agencies such as state vocational rehabilitation programs and Veterans Affairs vocational rehabilitation programs, independent living centers, community-based rehabilitation centers and supported employment, psychiatric rehabilitation programs, transition from school to work programs, and private for-profit worker's compensation and insurance rehabilitation agencies. They provide interventions designed to help persons with disabilities adapt to the demands of their environments. They also prepare the environments to accommodate an individual's needs. Assessment, personal and vocational counseling, development of rehabilitation and treatment plans, case management, service coordination, psychosocial adjustment, job development, placement, and follow-up are typical services that rehabilitation counselors provide.

The program in rehabilitation counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Graduates of the program are eligible for certification by the Commission on Rehabilitation Counselor Certification (CRCC).

The curriculum blends academic work with supervised clinical experiences. Students take one semester of practicum and one semester of internship concurrently with academic courses. The program concludes with a full-time internship

(40 hours per week) during a spring semester. Students are assigned to rehabilitation agencies or facilities that meet CACREP accreditation standards and that have programs or clientele aligned with a student's interests and educational objectives. Clinical placements require criminal background checks. Supervised practicums, internships, and final examinations are not offered during summer sessions.

The MA in counselor education with a rehabilitation counseling subprogram requires the following work.

Required Courses

Course #	Title	Hours

CSED:4187	Introduction to Assistive Technology	3
CSED:5248	Diagnosis and Treatment Planning for Traditional, Vulnerable, and Special Populations in Counseling	3
CSED:5280	Topical Seminar in Counselor Education	arr.
CSED:5400	Suicide and Crisis Intervention in Counseling	2-3

Final Examination

The final examination consists of a departmental comprehensive portfolio that documents knowledge, skills, and dispositions on the process and practice of rehabilitation counseling. Exams are offered only during fall and spring semesters.

Admission

Applicants must meet the department's general admission requirements. They should have a good academic record and relevant experience such as assisting individuals with disabilities. No specific undergraduate major area of study is required for the MA program, but a major in one of the social sciences is considered good preparation. Postbaccalaureate work experience relevant to the field of rehabilitation counseling is preferred. The program encourages applications from persons traditionally underrepresented in the field, particularly those with a disability and/or members of minority or ethnic groups. A personal interview is required.

Although students may be admitted for any semester, the program highly recommends that full-time students begin in the fall.

School Counseling

The Master of Arts program in counselor education with a school counseling subprogram requires a minimum of 60 s.h. of graduate credit. Students must maintain a graduate program grade-point average (GPA) of at least 3.00.

The program prepares individuals to work effectively as counselors in K–12 school settings. It is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Successful graduates are eligible for K–12 school counselor licensure in Iowa.

During the program, students take core counseling courses, including coursework focusing on counseling children and

adolescents, school counseling programs, and courses focusing on clinical practice in the schools (practicum and internship). Students are expected to complete at least 100 clock hours in practicum and 600 clock hours in internship activities in an approved school setting, under the supervision of an experienced licensed school counselor and a university faculty supervisor.

Students who enter without teaching licensure are required to take EDTL:4900 Foundations of Special Education.

All students are required to complete a background check the semester before they enroll in the practicum. Students who are not licensed teachers must complete coursework in education before enrolling in the practicum.

Each student's progress is reviewed periodically by the major advisor and yearly by the school counseling program. Students who have successfully completed all prerequisites for CSED:6300 Practicum in School Counseling are reviewed in the semester before they take the practicum course, to ensure that they are prepared for it. Additionally, students are evaluated to ensure their readiness for the internship CSED:6321 Internship in Elementary School Counseling or CSED:6322 Internship in Secondary School Counseling, which requires assignment to approved schools for the fall and/or spring semesters.

The MA in counselor education with a school counseling subprogram requires the following courses.

Required Courses

The following schedule of required courses reflects a two-year program of study. Students who do not have teacher licensure are required to complete EDTL:4900 Foundations of Special Education. Students who have completed the required courses should consult with their advisor regarding electives in order to fulfill the 60 s.h. requirement.

Course #	Title	Hours
CSED:4137	Introduction to Educating Advanced Learners	3
CSED:5200	Professional School Counselor	3
CSED:5202	Introduction to Group Counseling	3
CSED:5203	Career Development and Counseling	3
CSED:5204	School Culture and Classroom Management for School Counselors	3
CSED:5221	Theories of Counseling and Human Development Across the Life Span	3
CSED:5222	Counseling Children and Adolescents in Schools	3
CSED:5230	School Counseling Program Leadership and Management	3
CSED:5250	Social and Cultural Foundations of Counseling	3
CSED:5254	Assessment and Appraisal	3
CSED:5278	Applied Microcounseling	3
CSED:5400	Suicide and Crisis Intervention in Counseling	3
CSED:6300	Practicum in School Counseling	3
CSED:6321	Internship in Elementary School Counseling (consult advisor for options)	12
or CSED:6322	Internship in Secondary School Counseling	
CSED:6500	Research and Program Evaluation	3
EDTL:4940	Characteristics of Disabilities	3

Electives

In consultation with their advisors, students earn 3 s.h. in elective coursework. Students are encouraged to select coursework numbered 3000 and above from counselor education (prefix CSED), teaching and learning (prefix EDTL), educational policy and leadership studies (prefix EPLS), and psychological and quantitative foundations (prefix PSQF). Additional course options may be approved by the student's advisor as appropriate.

Final Examination

The final examination consists of a departmental examination about the process and practice of professional school counseling. Exams are offered only during fall and spring semesters.

Admission

Applicants must meet the department's general admission requirements. They should have an undergraduate GPA of 3.00 or higher. The department prefers that applicants have either one year of teaching experience or other successful experiences with children and/or adolescents, which they must document in a written statement.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Students who enter without teaching licensure are required to take EDTL:4900.

b Prior to fall 2018 a minimum of 57 s.h. were required for degree completion. Therefore, students admitted prior to fall 2018 will complete 57 s.h. and will not be held to the 60 s.h. requirement.

c Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

d Work with academic advisor to determine appropriate graduate electives and sequence.

e The final examination consists of a departmental summative examination on the process and practice of school counseling. Exams are offered only during fall and spring semesters.

Counselor Education, PhD

Maintaining Good Standing

PhD students in the Department of Counselor Education must meet the following standards in order to remain in their degree programs and advance to candidacy and remain a candidate for a degree:

- maintain a grade-point average (GPA) of at least 3.00;
- successfully complete a practicum, internship, or equivalent professional experience;
- maintain professional behavior consistent with the ACA Code of Ethics (American Counseling Association) and any additional code of professional ethics adhered to in any agency in which a student completes a practicum or internship; and
- demonstrate progress toward the degree through successful completion of semester hours specified in the curriculum plan and active registration each session (exceptions may be approved by the advisor).

Each student's academic and professional progress is reviewed annually.

Probational Status

Students who earn a cumulative GPA lower than 3.00 are placed on probational status and are notified in writing. Students on probational status have two consecutive sessions to raise their grade-point average to the established standard. If that requirement is not met, a student may be removed from the program. Students are allowed one probational status during their program of study.

Learning Outcomes

Department Standards

The following are the standards of the Department of Counselor Education at the University of Iowa, which are the key performance indicators for PhD students:

- acquire the awareness, knowledge, and skills of a professional counselor and/or counselor educator;
- develop a process of ongoing reflective practice in relation to cultural humility and the profession’s multicultural, social justice, and ethical counseling competencies and education;
- develop counseling skills that will address problems in living from a developmental/life span approach;
- cultivate a commitment to ethical practices and behavior in counseling, counselor education, supervision, and research; and
- acquire an understanding of the social, vocational, educational, and psychological needs of individuals served in various settings such as schools, vocational, or counseling centers.

Requirements

The Doctor of Philosophy program in counselor education with a counselor education and supervision (CES) subprogram requires a minimum of 72 s.h. of graduate credit. The program provides students with knowledge and skills related to general counseling (including mental health, school, and rehabilitation counseling), teaching, consulting, supervising counselors, and conducting research. Graduates enter professional work as counselors, counselor supervisors, counselor educators, researchers and/or consultants, or work in other positions requiring expertise in human relations.

Counselor education and supervision graduates are prepared to teach the knowledge and skills required of professional counselors and to supervise beginning and advanced counselors, perform counseling interventions with individuals and groups, and teach human relations skills in colleges or universities. They provide professional consultation with counseling practitioners, educators, and policymakers about counseling program development and evaluation. They may also perform research that contributes to knowledge about counseling, supervision, and counselor education.

The program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). The American Counseling Association (ACA) and the Association for Counselor Education and Supervision (ACES) are the professional organizations most related to program activities.

The curriculum includes required courses in counseling, research tools and applications, and a dissertation.

Most students complete their coursework in three years and take a fourth year to complete the dissertation. Students who have not completed a master's degree program approved by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) may need to remedy deficiencies by taking appropriate coursework at the master's degree level.

The PhD in counselor education with a counselor education and supervision subprogram requires the following work.

Required Courses

Course #	Title	Hours
All of these:		
CSED:6394	Research and Scholarship Internship	1-3
or CSED:7470	Counselor Education and Supervision Doctoral Integrated Professional Internships	
CSED:7255	Advanced Career Development and Counseling	3
CSED:7338	Essentials of Qualitative Inquiry (or collegiate equivalent)	3
CSED:7353	Advanced Counseling and Psychotherapy	3
CSED:7360	Advanced Doctoral Internship in Counseling	3
CSED:7380	Internship in Teaching	3
or CSED:7470	Counselor Education and Supervision Doctoral Integrated Professional Internships	
CSED:7385	Teaching and Learning in Higher Education	3
or PSQF:6217	Seminar in College Teaching	
CSED:7400	Seminar: Ethics and Issues in Counseling	3
CSED:7450	Advanced Social Psychology of Disability	3
CSED:7451	Advanced Multiculturalism	3
CSED:7454	Supervision Theory and Practice	3

CSED:7455	Internship in Supervision	3
or CSED:7470	Counselor Education and Supervision Doctoral Integrated Professional Internships	
CSED:7457	Seminar: Professional Orientation to Counselor Education, Supervision, Leadership, and Advocacy	4
CSED:7458	Seminar: Issues and Trends in Counseling Research	4
CSED:7460	Seminar: Research in Counseling	3
PSQF:6243	Intermediate Statistical Methods	3
PSQF:6265	Program Evaluation	3

Required Research Courses

Students must complete a specific sequence of research courses including distributed coursework in both qualitative and quantitative areas. In consultation with the academic advisor, they select from basic and advanced doctoral research courses listed under CES Doctoral Research Requirements on the Department of Counselor Education website.

Elective Minor Area

Students can elect to take a series of courses, typically a minimum of three, outside the Department of Counselor Education (in consultation with a major and minor advisor) to enhance and support their teaching and research interests.

Master's Thesis Project or Equivalent

Students are required to submit a previously conducted master's thesis for faculty review and approval or to complete a new supervised experiential research project before taking comprehensive exams. Students without an approved MA or MS thesis enroll in the following.

Course #	Title	Hours
CSED:6394	Research and Scholarship Internship	1-3
or CSED:7470	Counselor Education and Supervision Doctoral Integrated Professional Internships	

Comprehensive Examination

The comprehensive examination consists of an oral defense of a student's portfolio, which covers six professional competency domains in counselor education, and an exam on the minor area. The examination may be taken during a student's final semester of coursework.

Dissertation

The major research project culminating in the doctoral thesis may be on any topic related to counseling and counselor education. The thesis advisor and the examining committee approve the topic and procedures at a formal prospectus meeting. The final oral examination on the thesis is conducted by the examining committee. Students usually earn 10 s.h. for dissertation work, but in some instances they may earn up to 15 s.h. The dissertation committee must include at least two counselor education and supervision faculty members.

Course #	Title	Hours
CSED:7493	PhD Thesis	10-15

Admission

Applicants must meet the department's general admission requirements. In addition, applicants must provide evidence of successful experience in counseling or a closely related profession. Applicants without experience may be admitted if their credentials indicate exceptional strengths.

Applicants also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Applicants must meet the department's general admission requirements.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

f See College of Education website for specifics.

g Dissertation defense.

Educational Policy and Leadership Studies

Chair

- Kenneth G. Brown

Graduate degrees: MA in educational policy and leadership studies; EdS in educational policy and leadership studies; EdD in educational policy and leadership studies; PhD in educational policy and leadership studies

Faculty: https://education.uiowa.edu/directory

Website: https://education.uiowa.edu/about/administration/department-educational-policy-and-leadership-studies

The Department of Educational Policy and Leadership Studies offers academic programs that prepare administrators, professional personnel, teachers, and researchers in the fields of educational leadership and higher education and student affairs. The department also offers combined programs with other College of Education departments and with other University of Iowa colleges.

The department offers graduate degree programs in several major areas within educational policy and leadership studies:

- educational leadership (offered in the MA, EdS, and PhD);
- PK–12 administration (offered in the EdD);
- higher education and student affairs (offered in the MA, EdS, and PhD); and
- higher education (offered in the EdD).

The areas are described under "Graduate Study Areas," followed by information about each degree program.

Applicants for admission to graduate degree programs must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Graduate Study Areas

Educational Leadership

Study in educational leadership prepares individuals for leadership positions in schools and related educational organizations. In addition to graduate degree programs, the area includes principal and superintendent endorsements. See the Master of Arts [p. 1380], Specialist in Education [p. 1383], and the Doctor of Philosophy [p. 1388] in this section of the catalog.

Licensure

To be eligible for recommendation by the University of Iowa for licensure in Iowa as a principal or superintendent/area education agency administrator, students must complete the appropriate program. The specific requirements for each program are available from the Department of Educational Policy and Leadership Studies and the Office of Student Services. Because each administrative license has specific requirements, candidates are required to plan their programs with their advisors' approval.

Principal Endorsement

The principal endorsement curriculum is designed to prepare candidates for PK–12 building-level leadership positions, as well as some district leadership positions. The endorsement requires 32 semester hours of credit. A series of eight semester hours of clinicals is woven into the program along with 80 clinical hours embedded into required coursework. Individuals will also receive their evaluator approval endorsement.

To be eligible to accept a district position, a candidate must have completed at least three years of teaching experience.

Superintendent Endorsement

The superintendent endorsement curriculum is designed to prepare individuals for licensure as a school superintendent (PK–12) as well as for other school district leadership positions; for the chief administrator position in Iowa's area education agencies (AEA) as well as other AEA leadership positions; and for leadership positions in state or federal departments of education and related agencies. The superintendent endorsement requires a total of 30 semester hours of credit.

Students in the endorsement program must have an Iowa administrator license. They obtain the superintendent endorsement (State of Iowa Endorsement 171) upon completing the required EdS coursework and at least three years of administrative experience.

PK–12 Administration

The PK–12 administration program prepares educational leaders to be scholar-practitioners who apply the knowledge, skills, and inquiry strategies to solve significant problems related to educational policies and practices in PK–12 educational settings. In addition to the graduate degree, individuals may complete requirements for superintendent endorsement. See the Doctor of Education [p. 1385] in this section of the catalog.

Higher Education and Student Affairs

Advanced study in higher education and student affairs draws upon diverse perspectives from varied disciplines and professional fields to analyze critical issues and policies and their effects on students, faculty, administrators, staff, and other members of the higher education community. It also explores the complex interactive relationships among institutions of higher education, the external environment, and society at large.

The higher education and student affairs (HESA) program coalesces around a shared sense of responsibility to produce research and spark innovative thinking that addresses the contemporary challenges and persistent inequities permeating higher education. HESA offers educational leaders, scholars, and practitioners comprehensive expertise built from a range of intellectual traditions. Faculty have diverse philosophies, methods, disciplinary training, and personal backgrounds, ensuring students gain a deep understanding and interconnected view of the field.

Graduate degree programs in higher education and student affairs prepare professionals and scholar-practitioners to serve as administrators, researchers, educators, and analysts in institutions of higher and postsecondary education and in related public and private agencies. See the Master of Arts [p. 1380], Specialist in Education [p. 1383], and the Doctor of Philosophy [p. 1388] in this section of the catalog.

Higher Education

The higher education program prepares educational leaders to be scholar-practitioners who apply the knowledge, skills, and inquiry strategies to solve significant problems related to educational policies and practices in higher education.

See the Doctor of Education [p. 1385] in this section of the catalog.

Graduate Certificates

Institutional Research and Effectiveness

The graduate Certificate in Institutional Research and Effectiveness develops skills in institutional research appropriate to the education sector, and for fields and professional settings that are associated with educational interventions, programs, and outcomes. The certificate is offered by the Department of Educational Policy and Leadership Studies. To learn more, see the Certificate in Institutional Research and Effectiveness [p. 1393] in the catalog.

K–12 Equity and Inclusion

The graduate Certificate in K–12 Equity and Inclusion provides educational professionals or nondegree-seeking students currently working in K–12 schools, districts, and area education agencies with expertise in equity and inclusion to better support the needs and interests of a diversifying K–12 student population. The certificate is offered by the Department of Educational Policy and Leadership Studies. For more information, see the Certificate in K–12 Equity and Inclusion [p. 1395] in the catalog.

Programs

Graduate Programs of Study

- Master of Arts in Educational Policy and Leadership Studies [p. 1379]
- Specialist in Education in Educational Policy and Leadership Studies [p. 1382]
- Doctor of Education in Educational Policy and Leadership Studies [p. 1385]
- Doctor of Philosophy in Educational Policy and Leadership Studies [p. 1388]

Courses

Educational Policy and Leadership Studies Courses

EPLS:1029 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

EPLS:1240 Student Success in College 3 s.h.
Overviews the liberal arts and history of higher education and the complexities of engaging difference all situated in the context of challenges and opportunities that are inherent to navigating the organizational structures of higher education. Requirements: undergraduate standing. GE: Understanding Cultural Perspectives.

EPLS:2098 The Student Affairs Profession 3 s.h.
Introduction to field of student affairs in context of higher education; focus on foundations of profession, including a brief history of field, professional associations, institutional differences, professional and ethical standards, functional areas in higher education, student learning and developmental theory, overview of graduate preparation, and current topics.

EPLS:3000 Foundations of Education 3 s.h.
Overview of American education, preschool through secondary; aims, history, philosophy of education; professional ethics, legal responsibilities; school curriculum, organization, finance, school law, political and social issues.

EPLS:3240 Undergraduate Topics in Education arr.
Seminar for extensive study of an education topic or issue.

EPLS:4020 Being in Civic Dialogues 3 s.h.
Students learn the skills and practices that will develop the resilience necessary to engage in challenging civic dialogues about organizational, community, and/or societal change. Students develop leadership skills, cultivate personal stamina, and reflect on how they can be part of a civic society through taking daily actions that engage across differences. GE: Values and Society.

EPLS:4060 Kosovo Newborn: Exploring Europe's Youngest Country 2-3 s.h.
The Republic of Kosovo is the world's newest democracy and is forging a path forward in the midst of complex regional and international political and cultural dynamics. Learn about education's role broadly within fledgling democracies using Kosovo as a case study. Address Kosovo's history, political and cultural identities, and a variety of institutions within Kosovo that support democratic development to better understand the role of educational and social institutions in supporting change.

EPLS:4110 Administration and Policy in Gifted Education 2 s.h.
Policy, administrative, evaluation issues in developing and maintaining gifted programs in a school setting; participants develop gifted program and policies for a school; for school executives and coordinators of gifted programs.

EPLS:4111 Evaluation of Gifted Programs 1 s.h.
Fundamentals of program evaluation essential for exemplary gifted programs. Same as BBC:4111.

EPLS:4113 Staff Development for Gifted Programs 1 s.h.
Planning, content, and delivery of staff development regarding gifted students and their needs.

EPLS:4180 Human Relations for the Classroom Teacher 3 s.h.
Influence of social factors such as discrimination, diversity, equity, racism, sexism, and ethnic and socioeconomic pluralism on American schools and classrooms; for teacher education candidates. GE: Values and Society.

EPLS:4200 Athletic Administration in Educational Settings 3 s.h.
Explores engaging difference as major issues for coaches, sports managers, physical activity professionals, and athletic administration staff in their workplaces; defines, discusses, and analyzes the complexity of athletic organizational environment to help future leaders implement successful practices inclusive of all persons.

EPLS:4250 Education In Black America 3 s.h.
Introduction to various educational policies and events germane to the history of African American education from 1900 through the mid-1980s; read works and watch documentaries that examine those policies, concepts, strategies, and events surrounding Black education; analyze and synthesize this information through small and large class discussions, reading responses, quizzes, a debate, a book review, a short essay, and related presentation. GE: Historical Perspectives. Same as AFAM:4250.

EPLS:5090 Instructional Coaching for Teaching Excellence 3 s.h.
Dynamics of coaching to improve K-12 classroom teaching; appropriate for aspiring teacher leaders. Requirements: admission to the online MA in teaching program.

EPLS:5100 Issues and Policies in Higher Education 1-3 s.h.
Development of the idea of a university; selected functions, issues, policies of American higher education.

EPLS:5102 History of American Education 3 s.h.
Purposes of public education, diversity, and control of schooling from a historical perspective; emphasis on conflicting interpretations of pivotal events and educational movements; connections between educational policies and larger historical developments.

EPLS:5123 History of Ethnic/Minority Education 2-3 s.h.
Educational histories of American ethnic and minority groups; comprehensive understanding of American educational history, context for contemporary educational policy discussions.

EPLS:5126 Twentieth-Century Educational Movements 2-3 s.h.
Current educational policy debates concerning diversity and equity, historical roots of these policies; historical context for 20th-century equal education opportunity movements.

EPLS:5130 Sociology of Education 3 s.h.
Effects of school and school organization on educational outcomes; course-taking patterns and tracking, desegregation, differences in school sector; focus on entire span of student's academic career; examination of school and organizational effects at the primary, secondary, and postsecondary levels of education. Same as SOC:5130.

EPLS:5142 Sociology of Higher Education 3 s.h.
Sociological approach to study of higher education; issues of inequality and stratification in higher education; focus on relationship between higher education and larger economic and demographic processes; college access, college destinations, attainment, and returns to a college degree. Same as SOC:5680.

EPLS:5165 Introduction to Program and Project Evaluation 3 s.h.
Skills and knowledge required for conducting evaluations of products, projects, and programs; recent scholarship on evaluation and project management. Same as PSQF:5165.

EPLS:5170 Introduction of Institutional Research and Effectiveness 3 s.h.
Introduces students to the ways universities engage in institutional research (IR) activities. Provides a conceptual understanding of IR and emphasizes the practical and foundational skills and activities expected of IR staff.

EPLS:5210 Education and Social Change 2-3 s.h.
Role of educational institutions, in connection with political and economic structures, in the process of social change; illumination of theories of social change through case studies of educational systems in both less-developed and industrialized nations. Same as SOC:5810.

EPLS:5240 Topics in Education arr.
Seminar for intensive study of one problem, issue, or work field.

EPLS:5245 The American Professoriate 3 s.h.
Research on college and university faculty members; perspectives on faculty careers, values, beliefs, role in shared governance; tenure process and policies; issues unique to faculty members of color and women faculty members.

EPLS:5247 Multiculturalism in Higher Education 3 s.h.
Explores theory, research, and practices of engaging difference as applied to higher education, student affairs, and society. Requirements: PhD, EdD, or MA enrollment.

EPLS:5250 Introduction to Higher Education and Student Affairs 3 s.h.
Foundations of student affairs work; overview of institutional cultures, legal issues, ethical principles, standards of practice in student affairs.

EPLS:5251 College Students and Their Environments 3 s.h.
Conduct environmental assessment and explore characteristics of college students and the historical and contemporary issues that they face; the institutional, social, and cultural environments within higher education; and the impact of environments on student learning and development. Requirements: PhD, EdD, or MA standing.

EPLS:5252 Administration of Higher Education and Student Affairs 3 s.h.
Administrative structures and processes in higher education settings. Requirements: higher education and student affairs major.

EPLS:5253 Research, Assessment, and Evaluation in Higher Education 3 s.h.
Theories, practices, and issues relevant to assessment of student outcomes and institutional effectiveness in higher education; basic overview of research, assessment, and evaluation; elements of assessment design, including methods for data collection and analysis; relevant ethical and political dilemmas; practical assessment activities. Requirements: MA standing in higher education and student affairs program.

EPLS:5260 Introduction to Institutional Research and Effectiveness 3 s.h.
Provides a foundational understanding of the ways universities engage in institutional research (IR) activities.

EPLS:5278 Helping Skills in Student Affairs Work 3 s.h.
Development of ability to identify, understand, and intentionally apply the active attending and influencing skills; readings and class presentations.

EPLS:6201 Foundations of School Administration 3 s.h.
Organization and administration of American public education; principles and concepts of leadership and organizations; socioeconomic, political, and professional factors relating to education and school administration.

EPLS:6206 Research Process and Design 3 s.h.
Research process, with emphasis on fundamentals of experimental design, internal and external validity, correlational designs, and statistical inference.

EPLS:6209 Survey Research and Design 3 s.h.
Survey design and implementation; writing and evaluation of survey questions; error in survey research; techniques to reduce error; sampling; postcollection processing of survey data. Prerequisites: EPLS:6206 or PSQF:4143. Same as PSQF:6209.

EPLS:6216 Finance in Higher Education 3 s.h.
Theory, research, policy, and practice related to public and private funding of higher and postsecondary education.

EPLS:6217 Theory and Practice of Leadership 2-3 s.h.
Theory-based literature and critiques of leadership as applied to educational institutions.

EPLS:6218 The Law and Higher Education 3 s.h.
The role of law as it affects postsecondary institutions; analysis of case law in specific areas of concern to administrators, faculty, staff, students.

EPLS:6220 History of Higher Education 3 s.h.
History of postsecondary education in the United States; emphasis on conflicting interpretations of pivotal developments; consideration of access, curriculum, student life, academic freedom, role of universities in society, and balance of teaching, research and service from a historical perspective.

EPLS:6221 The College Curriculum 3 s.h.
Issues, principles, policies, and practices in college curriculum development; diverse philosophical, historical, cultural, social, psychological, political foundations of contemporary college curricula; perspectives on and models of college curriculum, related processes of teaching and learning; principles and practices that guide design and change of higher education curriculum.

EPLS:6222 Introduction to Educational Policy 3 s.h.
Theoretical and technical approaches to analysis and evaluation of contemporary public policies.

EPLS:6224 Organizational Theory and Administrative Behavior 3 s.h.
Theories and concepts of organizational behavior applied in structural, organizational, administrative contexts of American education.

EPLS:6225 Higher Education Policy 3 s.h.
Overview of state level higher education structures and policies; research on state level policy processes.

EPLS:6226 Educational Management 2-3 s.h.
Literature and research on management; emphasis on American education.

EPLS:6228 K-12 Education Finance and Policy 3 s.h.
Emphasis on policy funding and finance for administration and management in education and other settings.

EPLS:6236 Special Education Administration 3 s.h.
Builds a foundation of dispositions, knowledge, and skills for tasks performed by directors of special education, building leaders, and administrators, when supervising needs of special education students and economically and socially deprived students; knowledge and application of legal aspects, individual educational programs, and continuum of academic and social/emotional behavior supports; for prospective school administrative personnel. Same as EDTL:6936.

EPLS:6237 History of the Teaching Profession 3 s.h.
History of public school teaching, and teachers' problematic professional status; teacher education in the 19th and 20th centuries; formation and activities of teacher unions in the 20th century.

EPLS:6238 Gender and Education in Historical Perspective 3 s.h.
Gender in context of history of education in the United States; coeducation in common schools, academies, and high schools; women's arrival and experiences as college students; masculinity in higher education; single-sex versus coeducation; emphasis on conflicting historical interpretations. Same as GWSS:6238.

EPLS:6239 LGBTQ History in Education 3 s.h.
Lesbian, gay, bisexual, transgender, and questioning (LGBTQ) issues in context of history of education in United States; LGBTQ teachers, students, and studies in K-12 and higher education; emphasis on differences in historical interpretations. Same as GWSS:6239.

EPLS:6242 Research for Effective School Leaders 3 s.h.
Fundamental language of contemporary research; identification and application of basic research components to contemporary educational leadership problems; applicability of research toward effective decision-making.

EPLS:6260 Contemporary Management Strategies for the Pre-K-12 Principal 3 s.h.
Leadership skills and management techniques for daily organization and operation of schools; emphasis on climate, communication, group processes, conflict resolution, curriculum management.

EPLS:6265 Standards-Based Education and Accountability 3 s.h.
Standards-based education; academic content standards, K-12 articulation, alignment studies, use of standardized test results to evaluate academic programs.

EPLS:6266 Program Evaluation 3 s.h.
Theoretical issues and considerations in evaluation of educational and social programs; evaluation design, methodology; metaevaluation; evaluation utilization. Same as PSQF:6265.

EPLS:6270 Policy and Politics 3 s.h.
Current issues from academic journals, states, think tanks, consortia.

EPLS:6273 College Students 3 s.h.
Overview of theories, research, practices, and issues relevant to understanding students in institutions of higher education. Requirements: PhD standing in Higher Education and Student Affairs program.

EPLS:6275 Higher Education and Society 3 s.h.
Explores theory, research, and practices of engaging difference through interdisciplinary lenses and at the intersections of sociopolitical identities and ideologies within the context of higher education/student affairs, K-12, and as it relates to society, government, and community agency settings; examines the implications of sociopolitical contexts on practices in research, teaching, and service within education. Requirements: PhD, EdD, or advanced-level MA standing. Recommendations: introductory course on issues of race, culture, gender, sociopolitical issues, or structural oppression is strongly recommended. Same as GWSS:6275.

EPLS:6277 Readings in Diversity and Equity in Higher Education 3 s.h.
Historical, contemporary, theoretical, and empirical aspects of diversity and equity in higher education; unique experiences of members of historically underrepresented groups; focus on compelling literature in the field.

EPLS:6285 School and Community Relationships 3 s.h.
Community analysis, politics and education, power groups and influences, school issues and public responses, public relations strategies.

EPLS:6290 Master's Project arr.
Research for the nonthesis program; topic approved by advisor.

EPLS:6293 Individualized Instruction arr.
Readings, special projects, and/or studies that reflect joint instructor/student interest.

EPLS:6298 Legal Aspects of School Personnel 3 s.h.
Teacher and student: liability, negotiations, rights, privileges, responsibilities of school personnel; principles of law derived from court decisions; constitutional and statutory provisions; for teachers and administrators.

EPLS:6301 Professional Seminar I 1 s.h.
Orientation to field; writing and academic support.

EPLS:6305 Higher Education and Student Affairs Capstone 3 s.h.
Completion of an applied project that synthesizes the full MA curriculum.

EPLS:6307 Professional Seminar for EdD Students: Orientation to the EdD 2 s.h.
Orientation to the educational doctorate; how to approach courses and professional work as a scholar-practitioner. Requirements: admission to the EdD program in educational policy and leadership studies.

EPLS:6311 Seminar: Research Topic in Education 1-3 s.h.
Topic submitted by students, faculty. Requirements: PhD, EdD, or MA enrollment.

EPLS:6315 Orientation to the Superintendency 2 s.h.
Leadership theory and research of the superintendent's role of increasing student achievement; personal goals for communication; ethics, integrity, flexibility, reflective, and collaborative leadership; expectations of the superintendent by the board of directors; defining one's role; developing an entry plan; dealing with social/emotional isolation of superintendency; and influences in the larger political, social, economic, legal, and cultural context.

EPLS:6317 Operational Leadership and Management 2 s.h.
Managing fiscal and physical resources responsibly, efficiently, and effectively; effective communication of school operations; leadership and management of nutrition program, transportation program, facilities, construction; board policy, legal issues; state reporting, ethical decision-making; relationship building, problem solving amidst barriers and various stakeholder groups.

EPLS:6319 Human Resources Leadership 2 s.h.
Leadership theory and research of the superintendent's role of aligning human resources practice and increasing student achievement; employment law; contract negotiations process/ collective bargaining; contract maintenance; recruiting, selecting, developing, and retaining employees; working with labor unions and Public Employee Relations Board; special education law; Evaluator 2 Training. Requirements: Evaluator 1 Training.

EPLS:6321 Social Advocacy Summit 1 s.h.
Summit format; challenges and opportunities in Iowa's K-12 schools with changing demographics; opportunity for K-12 school districts and higher education institutions to engage in conversation on how to meet the needs of students and local school districts.

EPLS:6323 School Finance 2 s.h.
Manage fiscal and physical resources; communicate effectively with internal and external audiences regarding school operations; comply with state and federal mandates and local board policies; align educational programs, plans, actions, and resources with the district vision and goals.

EPLS:6325 Organizational and Educational Leadership 2 s.h.
Facilitate connections of students and families to health and social services that support a focus on learning as a district level leader in a school district; collaboratively establish a culture that welcomes and honors families and community and seeks ways to engage them in students learning; AEA structure, compliance and regulatory functions including special education.

EPLS:6329 Legislative Summit 1-3 s.h.
Collaborate with families and community members, respond to diverse community interests and needs, and mobilize community resources as a district level leader in a school district; work with legislators, build advocacy groups in a community, engage stakeholders, how to lobby legislators and meet with local senate and house representatives to participate in lobbying.

EPLS:6332 Conceptual Foundations of College Student Development 3 s.h.
Foundations of college student development theory; contexts of student development; theoretical concepts of cognitive growth and developing sense of self; application of concepts to student affairs practice.

EPLS:6333 Practicum in Higher Education and Student Affairs arr.
Small-scale research projects; supervised experience in planning, design, management, analysis, reporting of research activities; assignments to current and personal faculty research projects; student assumes major responsibility.

EPLS:6334 Theoretical Foundations of College Student Development 3 s.h.
Self-authorship; intercultural maturity; reconceptualized and intersectional models of identity; learning partnerships and leadership; socialization; moral decision-making; faith and spirituality; application of theories to student affairs practice. Prerequisites: EPLS:6332.

EPLS:6336 Impact of College on Students 3 s.h.
Introduction to literature; career and economic returns, educational attainment and persistence, values and attitudes, learning and cognitive development, college student theory, assessment and methodological issues of studying college outcomes. Recommendations: introductory graduate-level research design course.

EPLS:6352 Applied Research in Educational Settings 3 s.h.
Examines applied research methods used in the field of education; addresses methods, skills, and knowledge necessary for completion of applied research; dissertation in practice.

EPLS:6353 Advanced Applied Research in Educational Setting 3 s.h.
Exposes students to foundational descriptive statistics, in-depth training on sampling and data collection, and qualitative and quantitative analysis techniques they will use in their dissertation in practice. Prerequisites: EPLS:6352. Requirements: EdD enrollment.

EPLS:6370 Quantitative Methods for Policy Analysis 3 s.h.
Methodological strategies for quantitative research; analysis of secondary data to investigate educational issues and policies; recoding variables, summation scaling and factor analysis, missing data, sample design and survey estimation, model building; implementation of linear and binary regression, regression diagnostics; hands-on experience conducting statistical analysis of social data. Prerequisites: PSQF:4143 and PSQF:6243.

EPLS:6381 Analysis and Appraisal of Curriculum 3 s.h.
Comprehensive investigation of systematic procedures and resources for identifying and evaluating essential features and constituent elements of a given school district's curricular offering; state and federal requirements of the curricular program; for persons in administration, curriculum, and supervision programs or positions.

EPLS:6383 Supervision and Evaluation 3 s.h.
Data collection and management skills; data-driven leadership; coaching and feedback techniques; teacher quality legislation; research and best practice regarding teacher evaluation, supervision; teaching standards.

EPLS:6400 Early Childhood Leadership Clinical 1-3 s.h.
Classroom instruction and supervised experience with problems in early childhood educational administration; organization, planning, evaluation, decision-making.

EPLS:6401 Elementary Leadership Clinical 1-3 s.h.
Supervised experience working with problems in educational administration, including organization, planning, evaluation, decision-making; individual project in a school setting.

EPLS:6402 Secondary Leadership Clinical 2 s.h.
Supervised experience working with problems in educational administration, including organization, planning, evaluation, decision-making; individual project in a school setting.

EPLS:6403 Special Education Leadership Clinical 1-3 s.h.
Supervised experience working with problems in educational administration, including organization, planning, evaluation, decision-making; individual project in a school setting.

EPLS:6404 Central Administration Clinical 1-3 s.h.
Supervised experience working with problems in educational administration, including organization, planning, evaluation, decision-making; individual project in a school setting.

EPLS:6405 Superintendent Entry Plan and Portfolio Development 1 s.h.
Creating an effective entry plan, and where applicable, a professional portfolio as part of the series of clinical expectations for the superintendent preparation program; development of plan helps to create prior mutual expectation among the superintendent, board, staff, and community. Requirements: in final semester of superintendent endorsement program.

EPLS:6406 School Improvement Plan 1 s.h.
Prepares prospective principals to develop a comprehensive school improvement plan that aligns with the specific needs of their current school or district. Using their existing site as the focal point, students evaluate the schools' performance data, identify key challenges, and propose actionable strategies to improve student achievement, enhance equity, and strengthen school climate.

EPLS:6415 Orientation to the Superintendency: Clinical 2 s.h.
Clinical experience aligned with course topics and assignments in a K-12 school or other educational organization; development of a clinical plan with the guidance of a university professor and local school district mentor based on course requirements, career goals, and interests.

EPLS:6417 Operational Leadership Clinical 1 s.h.
Clinical experience aligned with course topics and assignments in the operational leadership course; completion of clinical in a K-12 school or other appropriate educational organization; development of a clinical plan based on course requirements, career goals, and student interests with guidance from a university professor and local school district mentor.

EPLS:6419 Human Resources Leadership Clinical 2 s.h.
Clinical experience aligned with course topics and assignments in the human resources leadership course; completion of clinical in a K-12 school or other appropriate educational organization; development of a clinical plan based on course requirements, career goals, and student interests with guidance from a university professor and local school district mentor.

EPLS:6423 School Finance Clinical 1 s.h.
The clinical experience serves as an internship for the superintendency and/or central administration positions. This is a field-based experience that takes place in a local district or agency setting.

EPLS:6425 Organizational and Educational Leadership Clinical 1 s.h.
Clinical experience aligned with course topics and assignments in the organizational and educational leadership course; completion of clinical in a K-12 school or other appropriate educational organization; development of a clinical plan based on course requirements, career goals, and student interests with guidance from a university professor and local school district mentor.

EPLS:7373 Qualitative Research Design and Methods 3 s.h.
Theory and practice of qualitative research design and methodology; exploratory field experience in collection and analysis of data; individual and focus group interviews, participant observation. Requirements: PhD standing.

EPLS:7380 Practicum in College Teaching arr.
Supervised college teaching experience in courses related to major academic areas; collaboration with faculty course instructors.

EPLS:7385 Teaching and Learning in Higher Education 3 s.h.
Current theoretical and empirical literature on teaching and learning in higher education; focus on development of effective teaching practice. Same as CSED:7385, EDTL:7385, GRAD:7385, PSQF:7385.

EPLS:7392 Mixed Methods Research 3 s.h.
Introduction to mixed methods research in education; knowledge and skills necessary to conduct mixed methods study; history and language of mixed methods research; identifying and processing arguments for and against mixed methods research; critical and justice-oriented perspectives on mixed methods research; strengths and weaknesses of published mixed methods studies; application of one or more mixed methods research designs to a research proposal. Requirements: formal introduction to quantitative and qualitative research methods, and familiarity with basic steps of research process. Recommendations: direct experience conducting research studies not required. Same as EDTL:7410.

EPLS:7395 Educational Specialist Research arr.
Individual instruction in the design, research, and writing of a research project of significant quality for upper-level graduate work.

EPLS:7432 Strategies for Inclusive Leadership 3 s.h.
Applies practices of engaging difference within the contexts of higher education, K-12, student affairs, society, government, and community agency settings. Requirements: PhD, EdD, or advanced-level MA standing. Recommendations: introductory course on issues of race, culture, gender, sociopolitical issues, or structural oppression strongly recommended.

EPLS:7433 Current Issues in Higher Education and Student Affairs 3 s.h.
Current issues related to higher education; opportunity to clarify perspectives; review of literature in a particular area of interest; readings, class discussions, independent research, consultations with professionals in the field, student presentations. Requirements: higher education and student affairs PhD standing.

EPLS:7483 EdD Dissertation in Practice Proposal 1-3 s.h.
Supervision of EdD capstone proposal research, design, and writing. Requirements: completion of all EdD core and research coursework.

EPLS:7485 EdD Dissertation in Practice 1-4 s.h.
Supervision of EdD capstone research, design, and writing. Prerequisites: EPLS:7483. Requirements: educational policy and leadership studies EdD standing and completion of capstone proposal meeting.

EPLS:7493 PhD Thesis arr.
Supervision of research, design, and writing of PhD thesis; individual instruction.

Educational Policy and Leadership Studies, MA

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Learning Outcomes

Specialized Content Knowledge

The MA will support students in acquiring and displaying a mastery of content knowledge suitable to their professional specialization (educational leadership; or higher education and student affairs). This content knowledge aligns with and extends the stated external professional society standards for earning a master's degree in each field.

Critical Thinking and Analytical Writing

Students will acquire capacities for theoretical and evidentiary-based analysis to critique and synthesize disparate and interdisciplinary perspectives within their specialization.

Impact and Practical Application

Students will acquire professional experiences through supervised experiential learning and practice through internships, practica, capstone, or other applied coursework.

Empirical Skills

Students will develop skills for conducting assessment, evaluation, and research appropriate to the master's level.

Leadership and Collaboration

Students will be able to analyze, articulate, and respond to complex problems using theory, evidence, and cooperation with individuals, communities, and organizations affected by the issues. Students will be able to analyze, articulate, and respond to complex problems using theory, evidence, and cooperation with those affected by the issues.

Ethical, Inclusive, and Equitable Practice

Students will gain skills in identifying and responding to educational inequities at the individual, organizational, and institutional levels. Specifically, students will apply their skills to advance student learning and development, inclusion, and facilitate organizational change and reform.

Educational Leadership

The Master of Arts program in educational policy and leadership studies with an educational leadership subprogram requires a minimum of 32 s.h. of graduate credit. Students must earn a Graduate College program grade-point average of at least 3.00 in major coursework.

The program prepares individuals for appointments as school principals and for positions in area education agencies and state departments of education. Upon completion of this degree, students will have completed the requirements to earn a master's degree and to obtain pre-K–12 principal and pre-K–12 supervisor of special education endorsement (State of Iowa Endorsement 189). In order to obtain the State of Iowa endorsement, an individual must have at least three years of teaching at the PK–12 level.

With the aid of an advisor, each MA student prepares a plan of study that includes the following core requirements.

Core Requirements

Course #	Title	Hours
All of these:		
EPLS:6201	Foundations of School Administration	3
EPLS:6236	Special Education Administration	3
EPLS:6242	Research for Effective School Leaders	3
EPLS:6260	Contemporary Management Strategies for the Pre-K-12 Principal	3
EPLS:6285	School and Community Relationships	3
EPLS:6298	Legal Aspects of School Personnel	3
EPLS:6381	Analysis and Appraisal of Curriculum	3
EPLS:6383	Supervision and Evaluation	3

Each core class has ten hours of clinical work linked to the course content (total of 80 hours).

Clinical Courses

For Iowa licensure as a principal, students must hold an Iowa teacher license, have taught for three years, and meet the human relations requirement of the State of Iowa. Students complete the core requirements and the following required clinical courses.

Course #	Title	Hours
EPLS:6400	Early Childhood Leadership Clinical	1
EPLS:6401	Elementary Leadership Clinical	3
EPLS:6402	Secondary Leadership Clinical	2
EPLS:6403	Special Education Leadership Clinical	3
EPLS:6406	School Improvement Plan (School Improvement Plan)	1

Electives

Students earning an MA without principal licensure are not required to complete the clinical courses. Instead, they complete the core requirements and a series of electives (8 s.h.) approved by their advisors. Students are permitted to select coursework numbered 3000 and above from counselor education (prefix CSED), teaching and learning (prefix EDTL), educational policy and leadership studies (prefix EPLS), and psychological and quantitative foundations (prefix PSQF). For more detailed information, see the Educational Leadership website.

Final Examination

Students in the MA program with licensure or the MA program without licensure are required to take final examinations at the end of their program of study. The final examination is

in the format of a mock interview for a building principal or similar leadership position. The faculty provides candidates with a scenario for which they are expected to prepare a presentation to the educational leadership faculty who acts as the hiring team. The presentation is followed by questioning and feedback. Students must be registered in the Graduate College during their final examination semester if they plan to graduate at the end of the semester.

Admission

Applicants to the MA program in educational leadership must meet the admission requirements of the Graduate College. Students must have PK–12 classroom teaching experience. Admission decisions are made through a faculty review process on a rolling basis.

Higher Education and Student Affairs

The Master of Arts program in educational policy and leadership studies with a higher education and student affairs subprogram requires a minimum of 40 s.h. of graduate credit. Students must earn a UI cumulative grade-point average of at least 2.75 to be eligible for degree conferral.

The program prepares individuals for careers in higher education, including academic administration, policy analysis, first-year programs, student activities and leadership, enrollment management, program evaluation, multicultural affairs, academic and career advising, residence life, and international student services.

The higher education and student affairs program curriculum consists of coursework in postsecondary administration, college students and their environments, college student development, and current and emerging issues in higher education, as well as in research and assessment. The curriculum integrates theory and practice and is designed to be completed in two years of full-time study or equivalent part-time study.

The curriculum includes the higher education and student affairs core, supervised practice, and integrative experiences. Elective coursework is subject to advisor approval. An internship at an approved site is required for full admission to the program.

The MA in educational policy and leadership studies with a higher education and student affairs subprogram requires the following work.

Requirements

Common Core

Course #	Title	Hours
All of these:		
EPLS:5100	Issues and Policies in Higher Education	3
EPLS:5247	Multiculturalism in Higher Education	3
EPLS:5250	Introduction to Higher Education and Student Affairs	3
EPLS:5251	College Students and Their Environments	3
EPLS:5252	Administration of Higher Education and Student Affairs	3
EPLS:5253	Research, Assessment, and Evaluation in Higher Education	3
EPLS:6332	Conceptual Foundations of College Student Development	3
EPLS:6334	Theoretical Foundations of College Student Development	3

Integrative Experiences

Course #	Title	Hours
All of these:		
EPLS:6301	Professional Seminar I	1
EPLS:6305	Higher Education and Student Affairs Capstone	3
EPLS:6333	Practicum in Higher Education and Student Affairs (required once; students may enroll a maximum of three times.)	3

Electives

Students choose elective coursework in consultation with their advisor. Courses from other departments may be taken with advisor approval.

Course #	Title	Hours
At least 9 s.h. from these:		
EPLS:5278	Helping Skills in Student Affairs Work	3
EPLS:6206	Research Process and Design	3
EPLS:6216	Finance in Higher Education	3
EPLS:6218	The Law and Higher Education	3
EPLS:6220	History of Higher Education	3
EPLS:6224	Organizational Theory and Administrative Behavior	3
EPLS:6225	Higher Education Policy	3
EPLS:6275	Higher Education and Society	3
EPLS:6293	Individualized Instruction (may be taken once up to 3 s.h.)	3
EPLS:6336	Impact of College on Students	3
EPLS:7380	Practicum in College Teaching (may be taken once up to 3 s.h.)	3
EPLS:7385	Teaching and Learning in Higher Education	3
EPLS:7432	Strategies for Inclusive Leadership	3

Admission

Applicants must meet the admission requirements of the Graduate College.

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

b Required once; students enroll in this course a maximum of 3 times. Students with appropriate experience, with faculty approval, may waive this requirement.

c See catalog for list of approved electives; courses outside the program require faculty advisor approval.

Educational Policy and Leadership Studies, EdS

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Learning Outcomes

Graduates will be able to:

- apply the knowledge, skills, and inquiry strategies to solve significant problems related to educational policies and practices;
- demonstrate through their clinical experiences their participation in, and ability to navigate, the day-to-day responsibilities of a school administrator;
- utilize data effectively to enhance learning opportunities for all students;
- recognize and address inequities imposed on students and educators, and promote necessary change;
- understand and apply evidence of effective organizational and systemic change for equity, inclusion, and justice;
- identify and meet contemporary challenges facing schools and school leaders;
- impact and enact policy defined by school board or legislative action;
- manage and distribute resources to enact the optimum impact upon programs at the building and district level;
- embrace differences of persons and perspectives, and understand the challenges faced at all levels of a school system PK–12; and
- exhibit the ability to successfully develop a district overview or administrative problem in practice.

Educational Leadership

The Specialist in Education program in educational policy and leadership studies with an educational leadership subprogram requires 60 s.h. of graduate credit and is offered for educators who already have their master's degree and Iowa administrator license. Students must earn a UI cumulative grade-point average of at least 3.00 in major coursework.

The program prepares candidates to be superintendents in Iowa or to hold other district-level leadership positions in PK–12 school districts. It also prepares them for appointments as area education agency chief administrators and for jobs in state or federal departments of education.

Students can transfer up to 30 s.h. from a previously earned master's degree. Students must complete a minimum of 30 s.h. of coursework at UI after program admission, generally comprised of 20 s.h. of coursework and 10 s.h. of clinical work. At the conclusion of the program, students are required to present their first-year entry plan. Many educational leadership courses are offered synchronously via distance education; see MyUI for information about courses offered during current semesters. For detailed information, refer to EdS programs on the Educational Leadership website.

Students seeking superintendent endorsement must have an Iowa administrator license. They obtain the superintendent endorsement (State of Iowa Endorsement 171) upon completing the required EdS coursework and at least three years of administrative experience.

The EdS in educational policy and leadership studies with an educational leadership subprogram requires the following coursework.

Required Courses

Course #	Title	Hours
All of these:		
EPLS:6265	Standards-Based Education and Accountability	3
EPLS:6270	Policy and Politics	3
EPLS:6315	Orientation to the Superintendency	2
EPLS:6317	Operational Leadership and Management	2
EPLS:6319	Human Resources Leadership	2
EPLS:6321	Social Advocacy Summit	1
EPLS:6323	School Finance	2
EPLS:6325	Organizational and Educational Leadership	2
EPLS:6329	Legislative Summit	1
Electives		2-3

Clinical Courses

Course #	Title	Hours
All of these:		
EPLS:6404	Central Administration Clinical	3
EPLS:6405	Superintendent Entry Plan and Portfolio Development	1
EPLS:6415	Orientation to the Superintendency: Clinical	2
EPLS:6417	Operational Leadership Clinical	1
EPLS:6419	Human Resources Leadership Clinical (Iowa Evaluator Approval Training opportunity is available through AEA PD Online; contact the closest AEA for information.)	2
EPLS:6423	School Finance Clinical	1
EPLS:6425	Organizational and Educational Leadership Clinical	1

Students are required to spend 40 clock hours of effort for each semester hour of clinical courses. Documentation of these hours must be maintained and submitted at the end of the course. Documentation should include the date, time spent, description of the activity, and reflections. Each activity must be identified with the corresponding National Educational Leadership Preparation (NELP) standard. A syllabus will be provided to guide the clinical activity.

Final Examination

The final exam is satisfied by taking EPLS:6405 Superintendent Entry Plan and Portfolio Development.

Admission

Applicants must meet the admission requirements of the Graduate College and of the educational leadership program. Complete applications are reviewed as they are received.

Higher Education and Student Affairs

The Specialist in Education program in educational policy and leadership studies with a higher education and student affairs subprogram requires 60 s.h. of graduate credit. Students must earn a UI cumulative grade-point average of at least 3.00 in major coursework.

The program provides advanced graduate study in administration, policy studies, and specializations developed in consultation with an advisor. The EdS also may be awarded upon completion of a combined program of graduate work in higher education and another academic field, or upon completion of a higher education sequence following a master's degree program in a different field.

Required Courses

The EdS program of study must include the following.

Course #	Title	Hours
Professional Education and Related Field Courses		18
Electives (approved by advisor)		10
Specialization Area Courses		28
EPLS:7395	Educational Specialist Research	4
Total Hours		**60**

Depending on the student's career goals, the program may include an appropriate structured and supervised internship, determined in consultation with the advisor.

Final Examination

A culminating experience is required of all students, the nature of which is contracted with the advisor. An oral examination of the culminating experience may be required.

Related Field

Students majoring in another field who want to complete a related field in higher education and student affairs should consult with a higher education and student affairs faculty member early in their study. Plans of study are developed individually.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Confirm completion of degree requirements with program.	
Hours	**3**
Total Hours	**31-32**

a Complete most course requirements prior to taking clinical requirements; work with academic advisor to select electives.

b Students seeking superintendent endorsement must have an Iowa administrator license. They obtain the superintendent endorsement (State of Iowa endorsement 171) upon completing the required EdS coursework and at at least three years of principal experience.

c Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

d Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

e Students are required to spend 40 clock hours of effort for each semester hour of clinical courses; see department website for specifics.

Educational Policy and Leadership Studies, EdD

The Doctor of Education (EdD) in educational policy and leadership studies is designed for educators who seek a terminal doctoral degree to practice upper-level leadership in pre-kindergarten through higher education (PK–20) settings. Based on the scholar-practitioner model, the EdD differs from the PhD in that it allows for a more practical-based approach to use and perform applied research in educational settings grounded in problem-based learning pedagogy. The EdD employs a blended learning delivery of hybrid (online and in-person), condensed, and weekend courses.

The EdD is a non-deposit degree program. Students complete a dissertation in practice based on a problem of practice in their own work setting. The dissertation proposal course serves as the equivalent of the comprehensive exam, and an applied dissertation is required for graduation.

Learning Outcomes

EdD graduates will be able to:

- apply the knowledge, skills, and inquiry strategies to solve significant problems related to educational policies and practices;
- evaluate and use data to make judgments to improve practice and policy;
- understand and apply evidence of effective organizational and systemic change for equity, inclusion, and justice;
- frame situations from multiple perspectives;
- identify and meet contemporary challenges facing schools and higher education;
- embrace differences of persons and perspectives;
- develop a critical and professional perspective that is ethical and promotes change for equity and inclusion;
- link theory with systematic inquiry and assessment to improve educational policy and practice; and
- complete a dissertation in practice using scholarly methods to address field-based problems and develop meaningful solutions.

Higher Education

The Doctor of Education program in educational policy and leadership studies with a higher education subprogram requires 75 s.h. of graduate credit. This can include up to 36 s.h. of transfer credit from a previous master's degree with advisor approval, which requires 39 s.h. to be completed at the University of Iowa under the auspices of the Graduate College after program admission. For students who have previously earned an EdS degree, the registration requirement is 27 s.h. (transfer credit limit is 48 s.h.). University of Iowa doctoral students must earn a UI cumulative grade-point average (GPA) of at least 3.00 to be eligible for degree conferral.

The EdD in educational policy and leadership studies with a higher education subprogram requires the following coursework.

Core Courses

Course #	Title	Hours
All of these:		
EPLS:6217	Theory and Practice of Leadership	3
EPLS:6307	Professional Seminar for EdD Students: Orientation to the EdD	2
EPLS:6321	Social Advocacy Summit	1
EPLS:7432	Strategies for Inclusive Leadership	3

Applied Research

Course #	Title	Hours
All of these:		
EPLS:6266	Program Evaluation	3
EPLS:6352	Applied Research in Educational Settings	3
EPLS:6353	Advanced Applied Research in Educational Setting	3
EPLS:7483	EdD Dissertation in Practice Proposal	3
EPLS:7485	EdD Dissertation in Practice	4

Higher Education Coursework

Students complete coursework in higher education as follows.

Course #	Title	Hours
All of these:		
EPLS:5252	Administration of Higher Education and Student Affairs	3
EPLS:6216	Finance in Higher Education	3
EPLS:6218	The Law and Higher Education	3
EPLS:6225	Higher Education Policy	3
EPLS:6336	Impact of College on Students	3

Electives

In consultation with their advisor, students complete the remaining semester hours in elective coursework.

Admission

Applicants must meet the admission requirements of the Graduate College. They must have earned a bachelor's degree from a regionally accredited U.S. institution or an equivalent degree from another country as determined by University of Iowa Admissions; a master's degree with a GPA of at least 3.00 in higher education, student affairs, student development, K–12 leadership, or another related field; and have at least three years of full-time experience in education.

PK–12 Administration

The Doctor of Education program in educational policy and leadership studies with a PK–12 administration subprogram requires 75 s.h. of graduate credit. This can include up to 36 s.h. of transfer credit from a previous master's degree with advisor approval, which requires 39 s.h. to be completed at the University of Iowa under the auspices of the Graduate

College after program admission. For students who have previously earned an EdS degree, the registration requirement is 27 s.h. (transfer credit limit is 48 s.h.). For students who have a current endorsement (State of Iowa Endorsement 171), the registration requirement is 33 s.h. (transfer credit limit is 42 s.h.). University of Iowa doctoral students must earn a UI cumulative grade-point average (GPA) of at least 3.00 to be eligible for degree conferral.

The EdD in educational policy and leadership studies with a PK–12 administration subprogram requires the following work.

Core Courses

Course #	Title	Hours
All of these:		
EPLS:6217	Theory and Practice of Leadership	3
EPLS:6307	Professional Seminar for EdD Students: Orientation to the EdD	2
EPLS:6321	Social Advocacy Summit	1
EPLS:7432	Strategies for Inclusive Leadership	3

Applied Research

Course #	Title	Hours
All of these:		
EPLS:6266	Program Evaluation	3
EPLS:6352	Applied Research in Educational Settings	3
EPLS:6353	Advanced Applied Research in Educational Setting	3
EPLS:7483	EdD Dissertation in Practice Proposal	3
EPLS:7485	EdD Dissertation in Practice	4

PK–12 Administration Coursework

Students complete coursework in PK–12 administration as follows.

Course #	Title	Hours
All of these:		
EPLS:6265	Standards-Based Education and Accountability	3
EPLS:6270	Policy and Politics	3
EPLS:6329	Legislative Summit	1
Additional coursework toward the superintendency endorsement or electives		8

To obtain superintendent endorsement, all requirements for the endorsement must be met including an additional 12 s.h. in PK–12 administration.

Electives

In consultation with their advisor, students complete the remaining semester hours in elective coursework.

Admission

Applicants must meet the admission requirements of the Graduate College. They must have earned a bachelor's degree from a regionally accredited U.S. institution or an equivalent degree from another country as determined by University of Iowa Admissions; a master's degree with a GPA of at least 3.00 in higher education, student affairs, student development, K–12 leadership, or another related field; and have at least three years of full-time experience in education.

Career Advancement

The EdD prepares students for careers in PK–12 and higher education administrative leadership in educational institutions and related organizations.

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Educational Policy and Leadership Studies, PhD

Learning Outcomes

Specialized Content Knowledge

The department expects students to acquire and display mastery of a broad and deep knowledge of disciplines associated with one's specialization (educational leadership; or higher education and student affairs) covering content that contributes to the historical, current, philosophical, and applied dimensions of the field.

Critical Thinking and Analytical Writing

Students will acquire capacities for theoretical and evidentiary-based analysis to critique and synthesize disparate and interdisciplinary perspectives within their specialization.

Empirical Skills

Students will develop skills for conducting assessment, evaluation, and research on phenomena associated with individuals and organizations associated with educational organizations, educationally aligned sectors, and individuals affiliated with or impacted by education.

Impact and Practical Application

Students will acquire skills for engaging in the higher education professional communities by participating in research and/or practitioner organizations focused on translation and application.

Leadership and Collaboration

Students will be able to analyze, articulate, and respond to complex problems using theory, evidence, and cooperation with those affected by the issues.

Ethical, Inclusive, and Equitable Practice

Students will gain skills in identifying and responding to educational inequities at the individual, organizational, and institutional levels. Specifically, students will apply their skills to advance educational inclusion and facilitate organizational change and reform.

Educational Leadership

The Doctor of Philosophy program in educational policy and leadership studies with an educational leadership subprogram requires a minimum of 90 s.h. of graduate credit. Students must earn a UI cumulative grade-point average of at least 3.00 in major coursework.

The program prepares scholarly professionals for leadership positions in a wide range of educational and public sector settings. Students acquire strong backgrounds in leadership, policy, and research. They equip themselves to discover, integrate, and apply knowledge as transformational leaders.

The PhD in educational policy and leadership studies with an educational leadership subprogram requires the following coursework.

Requirements	Hours
Common Courses	12
Cognate Courses	9
Electives	29
Concentration Area Courses	12
Research Courses	18
Dissertation	10

Students also complete the comprehensive examination and a dissertation, described in the following sections.

Many educational leadership courses are offered by distance education; see MyUI for information about courses offered during current semesters.

For more detailed coursework information, see Educational Leadership on the Department of Educational Policy and Leadership Studies website.

Research Courses

All educational leadership PhD students must complete EPLS:6206 Research Process and Design during the first year of their PhD program. They must also complete a minimum of 15 s.h. in qualitative and quantitative coursework, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Students select from courses listed under PhD Research Requirements on the college's Graduate Student Resources website.

Comprehensive Examination

Students must satisfactorily complete a written take-home comprehensive examination consisting of three parts. The first part covers a student's major area of study, and the second covers two additional concentration areas. The third is on the student's outside area of study and is prepared by faculty members outside the Department of Educational Policy and Leadership Studies. The written exams are followed by an oral examination.

Dissertation

Students must write a dissertation based on an original research project in an area of educational leadership. Students must earn 10 s.h. of credit for dissertation research. The doctoral program culminates with a final oral defense of the dissertation. Students must be registered at the University of Iowa during the session in which they graduate.

Admission

Applicants must meet the admission requirements of the Graduate College and of the educational leadership program. Successful applicants must have experience teaching and leading PK–12 schools. Complete applications are reviewed as they are received.

Higher Education and Student Affairs

The Doctor of Philosophy program in educational policy and leadership studies with a higher education and student affairs subprogram requires a minimum of 74 s.h. of graduate credit. At least 39 s.h. must be earned while registered in the Graduate College at the University of Iowa, and after formal program admission. Students must earn a UI cumulative grade-point average of at least 3.00 in major coursework.

The doctoral program prepares individuals to be leaders in student affairs and academic administration, graduate faculty

at research universities, leaders in conducting research about college students and higher education, policy analysts in postsecondary institutions and public or private agencies, and teachers and academic leaders at two-year and four-year colleges. The higher education and student affairs program integrates academic experience with the cocurricular learning experiences of students and studies the outcomes of both.

The PhD in educational policy and leadership studies with a higher education and student affairs subprogram requires the following coursework.

Requirements	Hours
Substantive Core Courses	18
Research Methods Courses	18
Concentration Area Courses	12
Electives	24
Dissertation	2

Substantive Core

The substantive core provides a foundational understanding of higher education and general knowledge that all students must master, regardless of their career goals and interests. All courses in the core (18 s.h.) must be completed at the University of Iowa.

Course #	Title	Hours
All of these:		
EPLS:6216	Finance in Higher Education	3
EPLS:6220	History of Higher Education	3
EPLS:6224	Organizational Theory and Administrative Behavior	3
EPLS:6273	College Students	3
EPLS:6275	Higher Education and Society	3
EPLS:6311	Seminar: Research Topic in Education	3

Research Methods

Research methods courses (at least 18 s.h.) ensure that students achieve scholarly autonomy and initiative.

Basic Research Methods

Course #	Title	Hours
Both of these (6 s.h.):		
EPLS:6206	Research Process and Design	3
EPLS:7373	Qualitative Research Design and Methods (or approved substitute)	3

Statistics/Linear Regression

These courses (6 s.h.) must be taken in this order.

Course #	Title	Hours
This course:		
PSQF:6243	Intermediate Statistical Methods	3
Then this course:		
EPLS:6370	Quantitative Methods for Policy Analysis	3

Advanced/Specialized Research Methods

Students consult with their advisor to choose two courses (at least 6 s.h.) from either list appropriate to their dissertation design and intended learning outcomes.

Qualitative Methods

Course #	Title	Hours
EPLS:5170	Introduction of Institutional Research and Effectiveness	3
EPLS:7392	Mixed Methods Research	3
EDTL:7071	Critical Discourse Analysis in Educational Research	3
EDTL:7072	Advanced Methods of Literacy Research: Qualitative Data Analysis and Reporting	3
EDTL:7073	Ethnographic Methods, Theories, and Texts	3
Another comparable research methods course approved by advisor		

Quantitative Methods

Course #	Title	Hours
EPLS:5170	Introduction of Institutional Research and Effectiveness	3
EPLS:6209	Survey Research and Design	3
POLI:7003	Advanced Methodology	4
PSQF:6246	Design of Experiments	3
Another comparable research methods course approved by advisor		

Concentration Area

The concentration area (12 s.h.) gives students the opportunity to develop expertise in one area. Students consult with their advisor to develop the concentration curriculum.

Electives

A student and their advisor may determine that some of their prior graduate work may be appropriate and applicable to the student's doctoral program. A student may count up to 24 s.h. of prior coursework toward the doctoral degree as electives. If a student does not have prior graduate work, they must enroll in up to 24 s.h. of electives to fulfill this requirement.

Comprehensive Examination

The PhD comprehensive examination consists of a question written by the student in consultation with their advisor, and formally approved by the higher education and student affairs faculty. Students are expected to construct a well-supported argument informed by knowledge of the theory, research, and practice that constitutes the field of higher education based on the substantive core and the student's concentration. The written examination is followed by an oral examination.

Dissertation

The dissertation is a major research study planned in collaboration with the student's advisor. Students must write a formal dissertation proposal and submit it for approval, first to their advisor and then to the members of their doctoral committee. Students and their advisors determine when the proposal is complete. Students must earn 2 s.h. of dissertation

research credit. The doctoral program culminates with a final oral defense of the dissertation.

Students must be registered at the University of Iowa each fall and spring semester from the semester in which they complete their comprehensive examination through the semester in which they defend their dissertation and graduate.

Admission

Applicants must meet the admission requirements of the Graduate College.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Institutional Research and Effectiveness

Chair, Department of Educational Policy and Leadership Studies

- Kenneth G. Brown

Graduate certificate: institutional research and effectiveness

Faculty: https://education.uiowa.edu/directory

Website: https://education.uiowa.edu/areas-study/continuing-education/certificates-and-endorsements/certificate-institutional-research

The purpose of the graduate Certificate in Institutional Research and Effectiveness (IRE) is to prepare professionals to use data for institutional decision-making, reporting, and accountability in higher education and K–12 contexts. This certificate amends and complements students' competence in other areas (business affairs, information technology, student affairs, development, etc.) to prepare them with the skills and capabilities to use data for educational improvement, accountability, quality, and equity. Students learn about data collection, management, and analysis, as well as the reporting and dissemination of results for communicating with a diverse range of audiences and stakeholders. This training program draws upon the unique strengths of the College of Education, which possesses substantial expertise in methodology for educational research, evaluation, and assessment.

The Certificate in Institutional Research and Effectiveness is administered by the Department of Educational Policy and Leadership Studies [p. 1372] and is granted by the Graduate College.

Programs

Graduate Program of Study

- Certificate in Institutional Research and Effectiveness [p. 1393]

Institutional Research and Effectiveness, Graduate Certificate

Requirements

The graduate Certificate in Institutional Research and Effectiveness requires 15 s.h. of graduate credit and is offered with hybrid and conventional courses. Students must maintain a grade-point average of at least 2.50 in work for the certificate. They must earn at least a grade of C in each course required for the certificate. Courses must be taken on a graded basis.

The certificate program is open to students enrolled in University of Iowa graduate degree programs and to individuals who are enrolled in the Graduate College as nondegree students.

The certificate program develops skills in institutional research appropriate to the education sector, and for fields and professional settings that are associated with educational interventions, programs, and outcomes. The course sequence contributes to the development of the competencies necessary for performing well in the administrative area of institutional research: quantitative statistical skills, knowledge of a range of social science research design and methods, familiarity with complex data environments, and facility with reporting and presenting information to a range of internal and external audiences.

The Certificate in Institutional Research and Effectiveness requires the following coursework.

Course #	Title	Hours
All of these:		
EPLS:5240	Topics in Education (when topic is introduction to institutional research and effectiveness)	3
EPLS:6370	Quantitative Methods for Policy Analysis	3
PSQF:6243	Intermediate Statistical Methods	3
Two of these:		
EPLS:6209	Survey Research and Design	3
EPLS:6266	Program Evaluation	3
EPLS:6352	Applied Research in Educational Settings	3

For more information, contact the Department of Educational Policy and Leadership Studies.

K–12 Equity and Inclusion

Chair, Department of Educational Policy and Leadership Studies

- Kenneth G. Brown

Graduate certificate: K–12 equity and inclusion

Faculty: https://education.uiowa.edu/directory

Website: https://education.uiowa.edu/areas-study/continuing-education/certificates-and-endorsements/k-12-equity-and-inclusion

The purpose of the graduate Certificate in K–12 Equity and Inclusion is to offer educational professionals or nondegree-seeking students currently working in K–12 schools, districts, and area education agencies expertise in equity and inclusion to better support the needs and interests of a diversifying student population. The certificate is also available to currently enrolled graduate students across the College of Education and may be of interest to graduate students outside of the college, especially those enrolled in the departments of Political Science or Sociology and Criminology, the schools of Social Work or Planning and Public Affairs, and in public health programs.

Participating students use the knowledge and skills learned in the certificate program to effectively and immediately implement change in their respective educational contexts to better support students from historically marginalized backgrounds and to address systemic racism and oppression.

The Certificate in K–12 Equity and Inclusion is administered by the Department of Educational Policy and Leadership Studies [p. 1372] and is granted by the Graduate College.

Programs

Graduate Program of Study

- Certificate in K–12 Equity and Inclusion [p. 1395]

K–12 Equity and Inclusion, Graduate Certificate

Requirements

The graduate Certificate in K–12 Equity and Inclusion requires 12 s.h. of credit and is offered with hybrid and conventional courses. Students must maintain a grade-point average of at least 2.50 in work for the certificate. They must earn at least a grade of C in each course required for the certificate. All courses must be taken on a graded basis.

The certificate program is open to students enrolled in University of Iowa graduate degree programs and to individuals who are enrolled in the Graduate College as nondegree students.

This certificate program encourages the development of the knowledge and skills necessary to meet standard 3 (equity and cultural responsiveness) of the Professional Standards for Educational Leaders, adopted by the School Administrators of Iowa. Course offerings contribute to the development of competencies in the areas of research, policy, practice, and student advocacy. These competencies are essential for effectively dismantling educational disparities for pre-kindergarten to grade 12 students from historically marginalized backgrounds (including race, gender identity, sexual orientation, socioeconomic class, immigration status, language spoken at home, and disability status).

The Certificate in K–12 Equity and Inclusion requires 12 s.h. of coursework from two categories: practice and policy. Participating students must choose at least one course from each category. The remainder of the courses may be from either category.

The certificate program recommends that students focus course-specific content on a problem of practice related to equity, inclusion, anti-racism, and/or anti-oppression. Students work with the certificate advisor to devise a specific program of study and develop appropriate course-related projects.

The Certificate in K–12 Equity and Inclusion requires the following coursework.

Practice

Course #	Title	Hours
At least one of these:		
EPLS:5240	Topics in Education (when topic is critical conversations)	3
EPLS:6242	Research for Effective School Leaders	3
EPLS:6266	Program Evaluation	3
EPLS:6321	Social Advocacy Summit	1
EPLS:6329	Legislative Summit	1
EPLS:7432	Strategies for Inclusive Leadership	3

Policy

Course #	Title	Hours
At least one of these:		
EPLS:5123	History of Ethnic/Minority Education	3
EPLS:5126	Twentieth-Century Educational Movements	3
EPLS:6222	Introduction to Educational Policy	3
EPLS:6238	Gender and Education in Historical Perspective	3
EPLS:6239	LGBTQ History in Education	3
EPLS:6270	Policy and Politics	3
EDTL:7040	Advanced Topics in Teaching and Learning (when topic is disability studies perspectives in education)	3

For more information, contact the Department of Educational Policy and Leadership Studies.

Online Teaching

Chair, Department of Psychological and Quantitative Foundations

- Dennis "Martin" Kivlighan

Graduate certificate: online teaching

Faculty: https://education.uiowa.edu/directory

Website: https://education.uiowa.edu/areas-study/continuing-education/certificates-and-endorsements/certificate-online-teaching

The growth of online teaching presents a need to address course quality, instructor training, assessment of teaching effectiveness, student learning, and retention. The Certificate in Online Teaching is an online graduate program designed to prepare students for the realities of online teaching and to help them expand their career options.

The Certificate in Online Teaching is administered by the Department of Psychological and Quantitative Foundations [p. 1398] and is granted by the Graduate College.

Programs

Graduate Program of Study

- Certificate in Online Teaching [p. 1397]

Online Teaching, Graduate Certificate

Requirements

The graduate Certificate in Online Teaching requires 12 s.h. of graduate credit and is offered completely online. Students must maintain a grade-point average of at least 2.50 in work for the certificate. Certificate courses must be taken on an A–F graded basis.

The certificate program is open to students enrolled in University of Iowa graduate degree programs and to individuals who are enrolled in the Graduate College as nondegree students.

The certificate program develops students' skills in using technology to solve instructional problems associated with distance and time. The certificate's online format uses the techniques and approaches that the program teaches.

The Certificate in Online Teaching requires the following coursework.

Course #	Title	Hours
PSQF:6205	Design of Instruction	3
PSQF:6211	Universal Design and Accessibility for Online Instruction	3
PSQF:6215	Online Instruction: Design and Facilitation	3
PSQF:6216	Tools and Utilities for Online Teaching	3

For more information, visit Certificate in Online Teaching on the College of Education website.

Psychological and Quantitative Foundations

Chair

- Dennis "Martin" Kivlighan

Undergraduate major: counseling and behavioral health services (BA)

Undergraduate minor: educational psychology

Graduate degrees: MA in psychological and quantitative foundations; EdS in psychological and quantitative foundations; PhD in psychological and quantitative foundations

Faculty: https://education.uiowa.edu/directory

Website: https://education.uiowa.edu/about/administration/department-psychological-and-quantitative-foundations

The Department of Psychological and Quantitative Foundations offers programs in these areas: counseling psychology, educational measurement and statistics, learning sciences and educational psychology, and school psychology. These programs have two general goals: to help students acquire the knowledge and skills that are necessary to function effectively in settings that require the application of psychological and quantitative principles and to extend knowledge and understanding of the teaching/learning process as it occurs in a variety of settings. The department's graduate degree programs incorporate both goals, but the Master of Arts and Specialist in Education programs emphasize the first goal, and the Doctor of Philosophy programs emphasize the second.

The department offers graduate degree programs in the following major areas within psychological and quantitative foundations:

- counseling psychology (offered in the PhD);
- educational measurement and statistics (offered in the MA and PhD);
- learning sciences and educational psychology (offered in the MA and PhD); and
- school psychology (offered in the EdS and PhD).

In addition to the graduate degrees offered as programs of study, the department offers an undergraduate minor in educational psychology and an undergraduate major, the bachelor of arts in counseling and behavioral health services, which advances training and introduces students to counseling and the helping professions. The curriculum includes an emphasis in counseling skills with courses in applied counseling, psychology, ethics, career development, and introductions to and theoretical foundations of human services fields.

The department offers two courses that are approved for the College of Liberal Arts and Sciences GE CLAS Core [p. 22]: PSQF:1020 Elementary Statistics and Inference, approved for the Quantitative or Formal Reasoning area; and PSQF:2115 Introduction to Counseling Psychology, approved for the Social Sciences area.

Applicants for admission to the graduate degree programs must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Programs

Undergraduate Program of Study

Major

- Major in Counseling and Behavioral Health Services (Bachelor of Arts) [p. 1408]

Minor

- Minor in Educational Psychology [p. 1411]

Graduate Programs of Study

- Master of Arts in Psychological and Quantitative Foundations [p. 1412]
- Specialist in Education in Psychological and Quantitative Foundations [p. 1416]
- Doctor of Philosophy in Psychological and Quantitative Foundations [p. 1418]

Courses

Psychological and Quantitative Foundations Courses

PSQF:1020 Elementary Statistics and Inference 3 s.h.
Graphing techniques for presenting data, descriptive statistics, correlation, regression, prediction, logic of statistical inference, elementary probability models, estimation and tests of significance. Requirements: one year of high school algebra or MATH:0100. GE: Quantitative or Formal Reasoning. Same as STAT:1020.

PSQF:1025 Succeeding in College and Beyond 3 s.h.
Foster belonging, develop connections. Includes campus transition/navigation, key university resources, essential skills for collegiate success, goal setting, self-advocacy, campus opportunities and barriers, community student health and wellbeing, leadership skills. Requirements: admission to Bucksbaum Early Entrance Academy. Same as BBC:1025.

PSQF:1027 Mindfulness Foundations in the Helping Professions 3 s.h.
Training in Mindfulness-Based Practices; application to personal and professional life.

PSQF:1029 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

PSQF:1039 Undergraduate Excellence Seminar 1 s.h.
Designed to enhance student's ability to successfully navigate the undergraduate experience by providing an opportunity to develop new skills and behaviors, as well as reflect on attitudes, in order to achieve academic and personal success.

PSQF:1050 Learning Online Successfully 2 s.h.
Experiences in an online environment and opportunities to engage with digital materials for learning to develop skills and strategies for future classes; assess resources for successful online learning, participate in a variety of online learning environments including online discussions and collaborations, develop strategies for reading and marking digital materials, managing time for working and studying online, and plan for future courses that may be online or include digital course materials.

PSQF:1075 Educational Psychology and Measurement 3 s.h.
Principles and classroom applications of cognitive and social development, learning and cognition, motivation, and assessment.

PSQF:1101 Introduction to the Helping Professions 3 s.h.
Provides an overview of the helping professions and career opportunities in the human services field. Students explore fields of practice such as aging, corrections, counseling, psychology, alcohol and other drug abuse, child welfare, mental health, and disabilities. Intended to help students create awareness and actively research career paths, academic preparation, and service delivery within the helping professions. Same as CSED:1101.

PSQF:1102 Introduction to Helping Skills 3 s.h.
Problem solving, interviewing skills, and entry-level techniques of mindfulness, motivational interviewing, active listening, crisis management, and conversation facilitation. Use of positive psychology to understand the nuances of human communication; expore the continuum of human emotionality and the impact of emotion on communication and interaction, particularly within helping relationships. Same as CSED:1102.

PSQF:1103 Introduction to Assessment in Counseling and Behavioral Health 3 s.h.
Within the helping professions, assessment is used to identify individual traits, needs, measure the effectiveness of interventions, and to determine eligibility for programs and services. This course provides an introduction to assessment methods, procedures, and tools used in the helping professions. Students will learn about basic psychometric concepts related to assessment and proper and ethical assessment procedures. Emphasis will be placed on assessments traditionally used in the helping professions within the domains of vocational or career attainment, education, mental health, healthcare satisfaction among others. Same as CSED:1103.

PSQF:1750 Introduction to Positive Psychology 3 s.h.
In-depth overview of the history of positive psychology and classification and measurement of constructs; developmental and cultural aspects of character strengths, theories of well-being, and practical applications.

PSQF:2115 Introduction to Counseling Psychology 3 s.h.
Historical and philosophical foundations of counseling psychology; theories, application, and work of counseling psychologists. GE: Social Sciences.

PSQF:2116 Applied Child and Adolescent Psychology 3 s.h.
Overview of child and adolescent development, psychopathology, and basic-level intervention; foundation for working in applied child and adolescent mental health settings; typical areas of psychological difficulty, including developmental disorders, ADHD, depression, anxiety, substance use; contextual and environmental factors, including abuse, poverty, neglect.

PSQF:2125 Applied Theories of Counseling and Change 3 s.h.
Comprehensive overview of major counseling theories and their applications. Explore theoretical frameworks that inform the practice of counseling; gain understanding of foundational principles, techniques, and ethical considerations. Emphasis on critical thinking and the development of counseling skills through theoretical understanding.

PSQF:2700 Introduction to Understanding Trauma and Resilience 3 s.h.
Introduction to understanding key concepts of trauma-informed systems of care in multiple settings; identification of various types of trauma along with behaviors and responses seen in survivors of trauma; students trace effects of historical trauma of marginalized communities and multiple trauma survivor groups to understand the consequences of trauma and its impact in the culture; resilience and strategies to offset consequences of trauma. Same as SSW:2700.

PSQF:3028 Mindfulness for Educators: Psychological Foundations, Applications, and Practices 1-2 s.h.
Exploration of research-based implications for teaching, learning, and daily living; skillful engagement of demands educators face in personal and professional lives; mindfulness as paying attention in present moment and relating wisely to what is occurring; specific mindfulness practices that integrate awareness into daily living; how research and program evaluations throughout the world document that consistent practice of mindfulness improves attention and concentration; ability to respond skillfully to stress, self-regulation of emotion, physical and mental health, communication, life satisfaction.

PSQF:3075 Brain Behavior 3 s.h.
Course is applied in nature, so that students not only learn brain behavior and anatomy, but also learn how these are directly related to neurological and neurobehavioral disorders; helps to understand the biological aspects of disorders that are needed to treat in practice settings; for students in applied psychology or other applied programs of study. Prerequisites: PSY:2701 and PSQF:2115 with a minimum grade of C-.

PSQF:3103 Early Childhood Guidance 4 s.h.
Effective communication, understanding child development and behavior, appropriate limits and rules, structuring problem solving and consequences, fostering self control, organizing classroom environment and curriculum to support child behavior, methods to address persistent and challenging behaviors; nurturance and child guidance via parenting, child rearing practices, and child-family relations.

PSQF:3104 Multicultural Issues in Counseling and Psychology 3 s.h.
Introduction to multicultural competencies and its importance to counseling, psychology, and helping professions; psychological concepts and research pertaining to privilege; racism, race, culture, sexual orientation, social class and classism, and their application in culturally adapted psychotherapy interventions; how these matters and other cultural identities and constructs are handled and used in applied psychology and counseling; focus on intersection of research and practice. GE: Understanding Cultural Perspectives.

PSQF:3115 Sport and Performance Psychology 3 s.h.
Introduction to theory, research, and practice of sport and performance psychology. Applied techniques to address athlete mental health and to enhance athlete performance. Overview of history, values, and cultural factors that influence the psychosocial well-being of student athletes; identify resources to help athletes manage psychosocial stressors that can contribute to distress and impaired mental health. Gain an understanding of the unique challenges that student athletes face; develop awareness, ethical reasoning, and analysis skills.

PSQF:3191 Asian American Experiences 3 s.h.
Aggregate experiences of Asian Pacific Americans, starting from developments in countries of origin to their contemporary issues; histories of various Asian Pacific American groups (e.g., Chinese, Korean, Filipino, Japanese, Asian Indian, Hawaiians, Vietnamese, etc.), as well as culture, politics, the media, and stereotypes; similarities among the different Asian Pacific American groups, as well as a comparative look at how African, Latino, and Native American experiences help shape and contribute to Asian Pacific America.

PSQF:3215 Applied Health Psychology 3 s.h.
Overview of health psychology; psychological, social, and behavioral aspects of health, illness, and well-being; application of health psychology principles across a broad array of health concerns. Variety of topics related to mind-body interaction; underlying theoretical assumptions of health; the illness experience; macrolevel influences of health theory and research; and how health psychologists contribute to enhancing health outcomes.

PSQF:3333 Special Topics in Psychological and Quantitative Foundations arr.
Topics related to psychological and quantitative foundations.

PSQF:4106 Child Development 3 s.h.
Theories and research findings about typical course of child development, differences in development. Requirements: junior standing.

PSQF:4111 Human Motivation 3 s.h.
Principles of motivation and their application to applied settings, especially to the classroom as teachers try to motivate students. Requirements: junior standing.

PSQF:4118 Meeting the Emotional Needs of Talented Students 1 s.h.
Unique emotional needs of talented students, including twice exceptionality. Theories of and trends in emotional development; identification of needs and myths about skills/challenges; research-based strategies to best meet needs; emotional impact of acceleration; and counseling. Same as BBC:4118.

PSQF:4119 Meeting the Social Needs of Talented Students 1 s.h.
Unique social needs of talented students, including twice exceptionality. Theories of and general trends in social development; identification of needs and myths about skills/challenges; family and peer relationships; research-based strategies to best meet needs; social impact of acceleration; and counseling. Same as BBC:4119.

PSQF:4120 Psychology of Giftedness 3 s.h.
Theories of learning, child development, motivation; issues unique to gifted education. Same as BBC:4120, CSED:4120.

PSQF:4121 Identification of Students for Advanced Programming 3 s.h.
Best practices in assessing and identifying students for advanced programs, including standardized tests and other measurement instruments used to identify academic talent for grades K-12 and current issues in the use of various instruments and tests (e.g., ability, aptitude, achievement, rating scales). Same as BBC:4121, CSED:4121.

PSQF:4122 Math Programming for High Ability Students 1 s.h.
Unique challenges and opportunities confronted by teachers of high-ability students; theory and practice, development of program outlines for implementation. Same as EDTL:4022.

PSQF:4123 Academic Acceleration: Providing Excellence and Equity in Education for High Ability Students arr.
Acceleration as an effective curricular intervention for high-ability students; forms of acceleration, research evidence for acceleration, and process of implementing acceleration; reasons for persistent negative attitudes about acceleration; advocation for acceleration; skills for effective practice and implementation. Requirements: computer with internet access, sound card, Adobe Reader, and Adobe Flash Player. Same as BBC:4123.

PSQF:4125 Counseling and Psychological Needs of the Gifted 1 s.h.
Psychological aspects of giftedness, counseling techniques appropriate for gifted children, adolescents; socio-emotional concerns, career development, underachievement. Same as CSED:4125.

PSQF:4126 Cognitive and Affective Needs of Underachieving Gifted 1 s.h.
Diagnostic strategy for identifying types of underachievement, teaching and counseling interventions appropriate for each. Same as CSED:4126.

PSQF:4128 Neuroscientific Implications for Gifted 1 s.h.
Neurology of behavior and neurodegenerative disease; the psychology of learning and memory, its application to gifted education.

PSQF:4129 Creativity: Issues and Applications in Gifted Education 1 s.h.
Theories that underpin contemporary definitions of creativity; instruments developed to measure creativity; activities in the school environment that enhance or inhibit student creativity. Same as CSED:4129.

PSQF:4130 Early Adolescent Development 3 s.h.
Psychological growth and development of the early adolescent (ages 10-14), including the physical, cognitive, social, emotional, and sexual development of the middle-school aged child.

PSQF:4133 The Adolescent and Young Adult 3 s.h.
Psychological and social aspects of adolescence and young adulthood; emphasis on theory, research, and practical applications.

PSQF:4134 Parent-Teacher Communication 1-3 s.h.
Realities of working with parents; interpersonal skills; options for parent support services. Same as EDTL:4934.

PSQF:4136 Home/School/Community Partnerships 3 s.h.
Issues related to collaboration among families, educators, community members in implementing school programs. Same as EDTL:4936.

PSQF:4143 Introduction to Statistical Methods 3 s.h.
Analysis, interpretation of research data; descriptive statistics; introduction to probability, sampling theory, statistical inference (binomial, normal distribution, t-distribution models); linear correlation, regression. Same as STAT:4143.

PSQF:4145 Marriage and Family Interaction 3 s.h.
Contemporary American couple, marriage, and family relationships; mate selection. Same as CSED:4145.

PSQF:4150 Introduction to Educational Measurement 3-4 s.h.
Test development procedures, reliability, validity, item writing, evaluation of item and test characteristics; classroom assessment methods; interpretation of scores from standardized achievement and aptitude tests; no background in statistics assumed.

PSQF:4162 Introduction to Couple and Family Therapy 3 s.h.
Evolution of the family therapy movement and issues related to functional and dysfunctional family systems; significant models of family therapy and specific techniques. Same as CSED:4162.

PSQF:4204 Introduction to the Learning Sciences 3 s.h.
Exploration of the interdisciplinary science of learning; study of the theory and methods of cognition in sociocultural context; design-based approaches to research on learning; history of key concepts foundational to the study of learning; how understandings of learning are situated in the interdisciplinary field called the learning sciences.

PSQF:4205 Design Principles for How People Learn 3 s.h.
Project-based course that introduces the process to formally design, develop, implement, and evaluate instruction in a context of the student's choosing.

PSQF:4281 Cognitive Principles for How People Learn 3 s.h.
Survey of contemporary cognitive science; history, intellectual tools, and utility in life and applied settings (e.g., teaching, research, industry, government).

PSQF:4520 Bayesian Statistics 3 s.h.
Bayesian statistical analysis, with focus on applications; Bayesian and frequentist methods compared; Bayesian model specification, choice of priors, computational methods; hands-on Bayesian data analysis using appropriate software; interpretation and presentation of analysis results. Prerequisites: STAT:3200 and (STAT:3101 or STAT:4101 or STAT:3120). Same as IGPI:4522, STAT:4520.

PSQF:4740 Issues in K-12 Assessment 3 s.h.
Examination of research, policies, and practices related to classroom and large-scale educational assessment; focus on use and construct of formative and summative assessments for classroom teaching and basics of educational measurement; coverage of educational assessment including development of plans that integrate teaching and assessment; use of formative assessment strategies and providing effective feedback to students; crafting objective, performance, and portfolio assessments; evaluation of students; interpretation of state-mandated tests and standardized achievement tests.

PSQF:4750 Learning Environments: Design, Context, and Activity 3 s.h.
Students explore the design of learning environments and the kinds of activities that take place there; includes a general background on design of learning environments; emphasis on project- and problem-based learning (considered to be keys to 21st-century learning), media inclusion, and how teacher facilitation/questioning and cooperative learning are foundational for success.

PSQF:4760 Participatory Learning and Media: Creating, Remixing, Making, and Education 3 s.h.
Teaching and learning with 21st-century digital media; pedagogical approaches characterized by participatory learning that expands and blurs boundaries of the classroom; remixing educational, social, and entertainment-based media toward pedagogical ends that meet instructional goals; engagement with social media, web-based video, interactive media, podcasts, games, and simulations.

PSQF:4910 Theories of Family Development 3 s.h.
Overview of historical and contemporary theories across disciplines about family development and family relationships; examination of family as a context for relationships between partners and between parents and children across the life course; evaluation of research on family system (e.g., coupling, "doing" gender, parenting, work and family balance, family transitions, economic hardship).

PSQF:5150 Introduction to Counseling and Skills 3 s.h.
Introduction to the field of counseling and psychology; provides students with clinical foundational skills; students explore the counseling process, how to conduct interviews, and how to integrate theory into their assessment and clinical work; introduction to basic concepts of working relationship and alliance, common factors, and interventions; practice provides students with experiences needed to understand concepts.

PSQF:5151 Health and Wellness Counseling Psychology 3 s.h.
Introduction to the concepts of health psychology and wellness in counseling and psychology; focus on psychological, biological, and ecological factors impacting health and wellness in multiple cultural contexts; research on psychological and holistic interventions, prevention strategies for clients across the lifespan.

PSQF:5152 Assessment and Diagnosis 3 s.h.
Group and individual appraisal techniques used to support career, educational, and personal planning and development; exploration of standardized and non-standardized data and information gathering methods, validity, reliability, psychometric statistics, factors influencing appraisals, use and interpretation of appraisal results with varied populations; assessment techniques and interviews connected to psychological diagnosis through standardized diagnostic frameworks, such as the DSM and ICD.

PSQF:5165 Introduction to Program and Project Evaluation 3 s.h.
Skills and knowledge required for conducting evaluations of products, projects, and programs; recent scholarship on evaluation and project management. Same as EPLS:5165.

PSQF:5193 Special Readings and Projects arr.
Supervised individual study. Requirements: senior standing.

PSQF:5194 Continuing Education Individual Study arr.
Supervised individual study. Same as BBC:5194.

PSQF:5199 Topical Workshop in Psychological and Quantitative Foundations arr.
School, educational, and counseling psychology and allied disciplines; for professionals and graduate students in education, mental health, social services, related fields.

PSQF:5219 Foundations of Health Service/School Psychology 3 s.h.
Introduction to health service/school psychology; becoming competent leaders in health service in community settings; roles and functions of psychologists in health service; ethical standards, issues, and professional practices related to health service psychology; legal issues; current topics and trends.

PSQF:5226 Assessment of Students for Advanced Programming 3 s.h.
Best practices in assessing and identifying students for advanced programs, including interpreting standardized tests and other measurement instruments used to identify academic talent for grades K-12 and current issues in the use of various instruments and tests (e.g., ability, aptitude, achievement, rating scales). Same as BBC:5226, CSED:5226.

PSQF:5262 Advanced Couple and Family Therapy 3 s.h.
Review and critique couple and family therapy theory, ethics, and techniques as applied to problems of couple and family over the life span; multicultural considerations. Requirements: advanced graduate standing. Recommendations: PSQF:4162.

PSQF:5265 Research Methods in Couple and Family Therapy 3 s.h.
Review and analysis of pertinent literature in area of research methods in couple and family therapy; exploration of stages of clinical trials and the process of federal funding of intervention research in couple and family therapy and family psychology; commonly used research methods in couple and family therapy reviewed and critically analyzed; students use these methods to survey research literature in top journals of the field.

PSQF:5900 Psychometrics 1-3 s.h.
Psychometric theory and techniques associated with development, interpretation, and evaluation of tests and measures; psychometric principles necessary for test inference, validation, construction, and use.

PSQF:6200 Educational Psychology 3 s.h.
Psychology of the learning/instruction process: theoretical perspectives on learning, instruction, motivation, and assessment; developmental concepts, social processes, individual variation, learning and technology, biological basis of learning.

PSQF:6203 Tools and External Representations in Individual and Social Learning 3 s.h.
Theories and approaches to research and practice regarding the use of technology and scientific representations in teaching and learning; historical, cultural, cross-species, and contemporary informal lenses applied to understanding human knowledge as it interacts with tools and how tools mediate thinking and learning; project to design a technology-supported learning solution for a problem related to teaching and learning.

PSQF:6204 Foundations of the Learning Sciences 3 s.h.
Foundations of interdisciplinary science of learning; theory and method of study of cognition in sociocultural context; design-based approaches to research on learning; history of several key concepts traced to determine origins; how contemporary literature is situated in this intellectual history.

PSQF:6205 Design of Instruction 3 s.h.
Introduction to processes used to design, develop, implement, and evaluate effective instruction; projects.

PSQF:6206 Advanced Child Development 3 s.h.
Theories of social and cognitive development; in-depth study of several current issues in the field.

PSQF:6208 Digital Media and Learning 3 s.h.
Theory, design, and evaluation of instructional media.

PSQF:6209 Survey Research and Design 3 s.h.
Survey design and implementation; writing and evaluation of survey questions; error in survey research; techniques to reduce error; sampling; postcollection processing of survey data. Prerequisites: EPLS:6206 or PSQF:4143. Same as EPLS:6209.

PSQF:6211 Universal Design and Accessibility for Online Instruction 3 s.h.
Universal Design for Learning (UDL) framework; introduction to accessibility for online learning environment; use of UDL with any curriculum to provide more students with access to learning, including online learning environment.

PSQF:6213 Advanced Lifespan Development 3 s.h.
Selected theories and research in development across the lifespan; focus on relevance for instruction and counseling.

PSQF:6214 Design of Learning Environments: Theory, Practice, and Method 3 s.h.
Theory, practice, and research method of the design of learning environments; broadly conceived understanding of technology-based learning environments; includes a semester-long project to design or evaluate the design of a learning environment, technology-based or otherwise.

PSQF:6215 Online Instruction: Design and Facilitation 3 s.h.
Theory and practice of designing and facilitating online learning environments to support or deliver instruction; student project to create an instructional online environment that draws on the theory and principles of online learning and instructional design.

PSQF:6216 Tools and Utilities for Online Teaching 3 s.h.
Guidance for future online teachers in making well-informed decisions on what technologies need to be adopted and applied for high quality, successful online educational programming in a variety of environments (e.g., K-12, higher education, business and industry); choosing, learning, evaluating, and using different types of technologies to produce online instruction; how to learn; initiating and managing learning and professional development for effective online teaching. Corequisites: PSQF:6205, if not taken as a prerequisite.

PSQF:6217 Seminar in College Teaching 1-3 s.h.
Preparation for college teaching; for graduate students planning to teach. Same as GRAD:6217.

PSQF:6220 Quantitative Educational Research Methodologies 3 s.h.
Procedures for planning, conducting, and reporting research; evaluation of current methods in educational research; quantitative designs and methods. Prerequisites: PSQF:4143 or STAT:4143.

PSQF:6223 Introduction to Counseling Psychology Practice/Research I 3 s.h.
Historical, theoretical, professional, scientific traditions associated with counseling psychology; professional ethical principles.

PSQF:6225 Introduction to Counseling Psychology Practice, Research, and Theory 3 s.h.
Learning and performance of basic helping skills; integration of these skills with counseling theories, broader counseling strategies; laboratory-based.

PSQF:6230 Research in Educational Psychology 1-3 s.h.
Design, implementation, and presentation of an educational psychology empirical research project. Requirements: graduate standing in educational psychology.

PSQF:6233 Ethics for Behavioral Psychologists 1 s.h.
Ethics that are unique to applied behavior analysis; ethical considerations.

PSQF:6235 Multicultural Counseling 3 s.h.
Theoretical and practical aspects of the cultural adaptation process; implications for interventions in diverse populations; issues. Requirements: counseling skills introductory course.

PSQF:6238 Assessment of Learning Differences 3-4 s.h.

PSQF:6241 Quantitative Policy Analysis for Practitioners 3 s.h.
Introduction to applied research and statistics with focus on understanding quantitative research, data collection and analysis, and reporting results for decision-making.

PSQF:6242 Selected Applications of Statistics 3 s.h.
Application and interpretation of correlation techniques, chi-square, t- and f-tests, interval estimation, simple cases of analysis of variance. Prerequisites: PSQF:4143.

PSQF:6243 Intermediate Statistical Methods 3 s.h.
Statistical inference and uncertainty estimation using general linear models (i.e., linear regression, analysis of variance); interpreting and conveying statistical results. Requirements: for PSQF:6243—PSQF:4143; for STAT:6513—STAT:4143. Same as STAT:6513.

PSQF:6244 Correlation and Regression 4 s.h.
Correlation techniques; selected bivariate procedures, multiple, partial, curvilinear correlation; multiple linear regression; sampling theory applied to regression analysis and correlation coefficients; simple causal models. Requirements: for PSQF:6244—PSQF:6243; for STAT:6514—STAT:6513. Same as STAT:6514.

PSQF:6246 Design of Experiments 3 s.h.
Theory and methods in the planning and statistical analysis of experimental studies; testing of hypotheses about linear contrasts among means in single-factor and multifactor, completely randomized, and repeated measurement designs. Requirements: for PSQF:6246—PSQF:6243; for STAT:6516—STAT:6513. Same as STAT:6516.

PSQF:6247 Nonparametric Statistical Methods 3 s.h.
Selected nonparametric methods; one- and two-sample location tests and estimation methods, measures of association, analyses of variance; emphasis on relationships to classical parametric procedures. Same as STAT:6547.

PSQF:6248 Research Synthesis and Meta-Analysis 3 s.h.
Rationale and methods for research synthesis and meta-analysis; conceptual issues in quantitative research synthesis in the social sciences and other disciplines, including medicine; thorough understanding of concept of sampling distribution is needed to understand the statistical methods introduced. Prerequisites: PSQF:6246 or PSQF:6244.

PSQF:6249 Factor Analysis and Structural Equation Models 3 s.h.
Fundamentals and applications of latent variable models for measurement including confirmatory factor analysis, item response theory, item factor analysis, and structural equation models using currently available software. Prerequisites: PSQF:6243. Recommendations: PSQF:6270.

PSQF:6250 Computer Packages for Statistical Analysis 1-3 s.h.
Computer programs and systems designed to execute statistical analysis (SAS, SPSS, BMDP, and others); lectures on regression techniques, analysis of variance, multivariate techniques; practice in entering data, calling up desired programs, interpreting computer output. Prerequisites: PSQF:6243. Requirements: elementary knowledge of computer programming.

PSQF:6252 Introduction to Multivariate Statistical Methods 3 s.h.
Selected topics in multivariate analysis, including multivariate significance tests, principal components and factor analysis, discriminant analysis, canonical correlation, multivariate analysis of variance (MANOVA). Prerequisites: PSQF:6244 and PSQF:6246.

PSQF:6254 Causal Inference and Observational Designs 3 s.h.
Conceptual and technical issues in the design of observational and quasi-experimental studies in natural settings and the appropriate analysis of data for making causal inferences. Requirements: PSQF:6220 and PSQF:6244 and PSQF:6246.

PSQF:6255 Construction and Use of Evaluation Instruments 3 s.h.
Design and construction of measures used in educational evaluation: achievement tests, attitude scales, performance measures, questionnaires; emphasis on methods of instrument development and evaluation of instrument characteristics. Prerequisites: PSQF:4143 and PSQF:6257.

PSQF:6257 Educational Measurement and Evaluation 3 s.h.
Evaluation and use of standardized tests and inventories in individual and group assessment; analyzing reliability, validity, normative data; interpreting measures of achievement, intelligence, aptitude, interests, attitudes, personality; current issues; for counselors, administrators, teachers, measurement specialists. Corequisites: PSQF:4143.

PSQF:6258 Theory and Technique in Educational Measurement 3 s.h.
Mathematical foundations, principal results, and applications of classical test theory; perspectives on conditional error variance; binomial error model and applications; introduction to generalizability theory; advanced measurement topics. Prerequisites: PSQF:6243 and PSQF:6257.

PSQF:6259 Scaling Methods 3 s.h.
Unidimensional and multidimensional scaling techniques; item response theory with a focus on polytomous models; introduction to available computer programs for scaling; applications in educational and psychological research. Prerequisites: PSQF:6262. Corequisites: PSQF:6249 and PSQF:6252.

PSQF:6260 Diagnostic Assessment 3 s.h.
Model-based approaches to providing diagnostic information about test takers along with implications for design of diagnostic assessments; primary focus on how psychometric models can be used with diagnostic subscores to provide reliable information that can be used in educational curricula. Prerequisites: PSQF:6243 and (PSQF:6258 or PSQF:6262).

PSQF:6262 Item Response Theory 3 s.h.
Theoretical foundations and practical applications; mathematical models and estimation techniques; emphasis on current applications and issues in testing; computer estimation programs. Prerequisites: PSQF:6243 and PSQF:6257.

PSQF:6263 Consultation Theory and Practice 3 s.h.
Review of concepts and practice of consultation and collaboration in educational and human services settings; focus on mental health, organizational, behavioral, and instructional models. Same as CSED:6263.

PSQF:6265 Program Evaluation 3 s.h.
Theoretical issues and considerations in evaluation of educational and social programs; evaluation design, methodology; metaevaluation; evaluation utilization. Same as EPLS:6266.

PSQF:6270 Generalized Linear Models 3 s.h.
Applied treatment of generalized linear models for predicting non-normal outcomes (e.g., binary, ordinal, nominal, count, zero-inflated, skewed responses); univariate models for single outcomes, multivariate models using path analysis; may include additional topics (e.g., quantile regression). Recommendations: PSQF:6243 and familiarity with general linear models for cross-sectional data (multiple linear regression, analysis of variance).

PSQF:6271 Longitudinal Multilevel Models 3 s.h.
Applied treatment of analysis of longitudinal data using framework of multilevel models (e.g., general linear mixed models, hierarchical linear models); general linear models, repeated measures analysis of variance, alternative covariance structures, fixed and random effects of time within linear and nonlinear models of change, and time-invariant predictors; may include advanced topics (e.g., models for non-normal outcomes, time-varying predictors). Recommendations: PSQF:6243 and familiarity with general linear models for cross-sectional data (multiple linear regression, analysis of variance).

PSQF:6272 Clustered Multilevel Models 3 s.h.
Applied treatment of analysis of clustered data using framework of multilevel models (e.g., generalized linear mixed models, hierarchical linear models); general linear models, fixed and random effects within linear and nonlinear models (for non-normal outcomes), and use of nested or crossed sources of sampling; may include advanced topics (e.g., three-level models). Recommendations: PSQF:6243 and familiarity with general linear models for cross-sectional data (multiple linear regression, analysis of variance).

PSQF:6275 Constructivism and Design of Instruction 3 s.h.
Theoretical foundations of constructivism; application of constructivist principles to the design of instruction.

PSQF:6281 Cognitive Theories of Learning 3 s.h.
Theories of cognition as they relate to learning, education, and changes in individual thinking, behavior, and identity; development of expertise; mental representations and psychological mechanisms; design of cognitive assessments and learning tasks; focus on learning in academic disciplines, clinical contexts, and game-based environments.

PSQF:6292 Supervised Research in Educational Psychology 1-3 s.h.
Identification of research problems, development of research designs and materials, conducting of research studies; faculty-guided activity or seminars.

PSQF:6293 Individual Instruction in Psychological and Quantitative Foundations arr.

PSQF:6299 MA Project: Portfolio/Internship/ Practicum 1-3 s.h.
Individual portfolio/internship/practicum project; reflection, revision, and presentation of educational psychology portfolio.

PSQF:6312 Psychopathology Across the Lifespan 3 s.h.
Diagnostic and Statistical Manual of Mental Disorders (DSM) categories and related diagnostic issues.

PSQF:6417 Introduction to Postsecondary STEM Teaching 1,3 s.h.
Introduction to teaching and learning theory and practice; readings and discussions facilitate research-based teaching practices in science, technology, engineering, and math (STEM) classrooms; connection of theories to principles of course and lesson design to support effective teacher practices and student learning; for students in STEM disciplines.

PSQF:7201 Counseling Psychology Research Writing 3 s.h.
How to write scientifically in counseling psychology; qualitative and quantitative research writing, literature reviews, methodologies, discussions; APA style.

PSQF:7225 Introduction to Health Service/School Psychology Practice 1-3 s.h.
Introduction to practice of health service/school psychology; framework for understanding role and function, legal and ethical boundaries, professional requirements; preparation for practicum.

PSQF:7237 Beginning Practicum in School Psychological Service arr.
Supervised practicum in psychological and educational evaluation in school settings. Prerequisites: PSQF:6238.

PSQF:7255 Autism Spectrum Disorders 2 s.h.
Overview of autism spectrum disorders (ASDs), including autistic disorder, Asperger's disorder, other pervasive developmental disorders; ASD diagnoses and their etiology; tools used in assessing individuals with ASDs; common interventions for ASDs; resources for work with individuals who have ASDs.

PSQF:7270 Scholarly Integrity and Responsible Conduct of Educational Research and Evaluation arr.
Students are introduced to and deepen their knowledge and skill in applying principles for the responsible conduct of educational research and evaluation and related social sciences; two modules addressing core areas identified by federal policy as minimal requirements for knowledge and skill in practice of research with scholarly integrity; format is discovery and discussion—presentation of background information for each topic is followed by discussion of case studies and other examples relevant to each topic; for research assistants.

PSQF:7305 Psychotherapy I: Dynamic and Phenomenological Approaches 3 s.h.
Major psychodynamic and existential-phenomenological theories of personality; emphasis on implications for psychotherapy.

PSQF:7306 Psychotherapy III: Work Psychology and Career Interventions 3 s.h.
Foundations of career interventions; emphasis on major assessment instruments (vocational interests, values, abilities/skills, personality) and career counseling processes, skills, techniques.

PSQF:7309 Personality Assessment 3 s.h.
Standardized and projective techniques for personality assessment; preparation for competent administration and interpretation of varied tests and measures.

PSQF:7310 Intelligence Assessment 3 s.h.
Standardized intelligence testing; preparation to administer and interpret intelligence tests for children and adults.

PSQF:7313 Psychopathology in Childhood 3 s.h.
Current theories regarding the development of psychopathology in children and adolescents; current approaches to treatment for disorders in children and adolescents.

PSQF:7315 Social and Emotional Assessment of Children and Adolescents 3 s.h.
Link between personality theory, child and adolescent assessment; interpretation, integration of assessment information; record reviews, interviews, objective tests, projective techniques. Prerequisites: PSQF:6238.

PSQF:7320 History and Systems of Psychology 3 s.h.
Philosophical underpinnings of psychology, early systems in psychology, developments in the 20th century.

PSQF:7331 Qualitative Educational Research Methods 3 s.h.
Introduction to concepts, methods, and issues in qualitative research in educational settings; exploration of how qualitative methods can inform research in a field of interest and engage in collaboration and peer review.

PSQF:7337 Advanced Practicum in School Psychology arr.
Supervised experience in psychological interventions, consultation, counseling in school and clinic settings. Prerequisites: PSQF:6238 and PSQF:7237.

PSQF:7342 Research Project in School Psychology arr.
Experience in research facilities on campus; writing research questions, planning a research study, writing a research article.

PSQF:7344 Academic Interventions 3 s.h.
Interventions used by school and support system personnel to address academic skill deficits among children and adolescents; instructional design and delivery problems associated with deficits.

PSQF:7346 Behavioral Interventions 3 s.h.
Interventions used by school and support system personnel to address behavioral and social/emotional status of children, adolescents.

PSQF:7347 Home/School/Community: System Interventions 3 s.h.
Interventions used by school and support system personnel; focus on work with parents, siblings. Same as CSED:7347.

PSQF:7350 Seminar in Evaluation 2-3 s.h.
In-depth examination of selected topics. Prerequisites: PSQF:5165 or PSQF:6265 or PSQF:6265 or PSQF:5165. Requirements: two courses in program evaluation.

PSQF:7352 Seminar: Behavioral Assessment and Evaluation 3 s.h.
Broadens skills of graduate students who engage in research with exceptional persons; research designs are usually taught in the Department of Psychological and Quantitative Foundations, but because of the nature of handicapping conditions and the low incidence of some handicaps, the single-subject design yields better research information. Same as EDTL:7952.

PSQF:7354 Seminar: Experimental Approaches in Counseling Research arr.
Application of experimental methodology to study of counseling and vocational phenomena.

PSQF:7355 Seminar: Educational Measurement and Evaluation arr.
Critical examination of current issues and problems of the professional worker in the field of educational measurement and evaluation as reflected in research literature, other professional communication media.

PSQF:7356 Process and Outcomes in Counseling Psychotherapy 3 s.h.
Advanced knowledge of the state of process and outcome research on psychotherapeutic procedures. Requirements: PhD candidacy in appropriate field.

PSQF:7358 Equating and Scaling of Educational Tests 3 s.h.
Designs and methods, including linear, equipercentile, and item response theory methods; emphasis on concepts, applications to testing programs, research. Prerequisites: PSQF:6243 and PSQF:6257.

PSQF:7361 Advanced Practicum in Couple and Family Therapy 1-3 s.h.
Opportunity to accumulate client contact and supervision hours towards graduation and licensure; conceptual and executive skills, observational skills and abilities to work as a member of a therapeutic team, awareness of how personal growth and development as a therapist impacts work with clients, comfort and motivation to learn multiple training levels provided, creation of collaborative and supportive atmosphere on all practicum levels. Requirements: enrollment in couple and family therapy program.

PSQF:7365 Theories of Psychotherapy 3 s.h.
Major psychotherapy theories with emphasis on empirically validated theories used in clinical practice.

PSQF:7367 Social Psychology and Social Systems 3 s.h.
Social aspects of behavior in organizations; behavioral science theory and research on organizations, system change, transformation, leadership.

PSQF:7371 Seminar in Learning Sciences and Educational Psychology arr.
Intensive investigation of a specific research topic.

PSQF:7375 Topics in Educational Measurement and Statistics 1-3 s.h.

PSQF:7380 Practicum in College Teaching arr.
Supervised college teaching experience in courses related to major academic areas, in collaboration with faculty course instructors.

PSQF:7385 Teaching and Learning in Higher Education 3 s.h.
Current theoretical and empirical literature on teaching and learning in higher education; focus on development of effective teaching practice. Same as CSED:7385, EDTL:7385, EPLS:7385, GRAD:7385.

PSQF:7388 Family Development 3 s.h.
Overview of research relating to family development, family structure, and cultural/ethnic diversity; how research can be applied to clinical practice; focus on strengths and challenges of families with varying structures, cultural dimensions in family functioning, developmental perspectives on family functioning, and how these factors can advance family systems based on research and practice.

PSQF:7389 Seminar in Couple Intervention Research 3 s.h.
Overview of couple intervention and outcome research; focus on evidence-based couple therapies (i.e., Emotionally Focused Couple Therapy, Behavioral Couple Therapy, work of John Gottman); research addressing effectiveness and efficiency of couple interventions in treatment of couple distress issues highly comorbid with distress, including review of mental and physical health problems; research addressing factors associated with treatment outcomes.

PSQF:7390 Supervision of School Psychology Practicum/Internship arr.
Experience supervising school psychology practicum or internship students. Requirements: PhD standing.

PSQF:7393 MA Thesis in Psychological and Quantitative Foundations arr.

PSQF:7394 Supervised Research in Counseling Psychology 1-3 s.h.

PSQF:7395 Social Context and Family Research 3 s.h.
Review and analysis of pertinent research surrounding social contexts in which families live; specific focus on reviewing and critically analyzing decade reviews and current advancements in family research; students evaluate how research surrounding social context and family research is relevant to the practice of couple and family therapy.

PSQF:7399 Supervision in Couple and Family Therapy 3 s.h.
Supervision of Master's-level couple and family therapy students; mentoring supervision received from supervision instructor; assignments reflect requirements for AAMFT Approved Supervisor designation; fulfills didactic requirement for AAMFT Approved Supervisor status. Requirements: enrollment in couple and family therapy program.

PSQF:7404 Seminar in Child and Adolescent Intervention Research 3 s.h.
Review and analysis of pertinent literature and evidenced-based interventions for children and adolescents; focus on review and critical analysis of published outcome studies in areas of childhood and adolescent disorders; examination and critique of effective interventions that have undergone stages 1-3 clinical trials; active discussions of research findings for clinical implications. Prerequisites: PSQF:5262.

PSQF:7434 Practicum in Counseling Psychology 3 s.h.
Supervised practice in counseling services. Prerequisites: PSQF:6223 and PSQF:6225.

PSQF:7437 Internship in School Psychology arr.
Supervised internship for PhD students in school psychology. Requirements: completion of required courses.

PSQF:7450 Practicum in Program Evaluation arr.
Supervised experience in designing and implementing components of program evaluations. Prerequisites: PSQF:6265 or PSQF:6265 or PSQF:5165 or PSQF:5165. Requirements: two courses in program evaluation.

PSQF:7452 Leadership, Consultation, and Supervision 3 s.h.
Overview of intervention modalities other than individual and group therapy, especially those that pertain to leadership within organizations, consultation with organizations and communities, and supervision of the work of others; capstone course in counseling psychology sequence. Prerequisites: PSQF:6225.

PSQF:7453 Advanced Practicum in Counseling Psychology 1-3 s.h.
Supervised work in counseling services. Prerequisites: PSQF:7434.

PSQF:7455 Generalizability Theory 3 s.h.
Analysis of variance methods applied to estimation of components of various types of measurement error variance; basic concepts, mathematical foundations, models, assumptions, designs, applications; relationships with other measurement theories. Prerequisites: PSQF:6246 and PSQF:6258.

PSQF:7457 Advanced Group Leadership Experience 3 s.h.
Practice working in a psychotherapy group; students review major theories on group psychotherapy processes and integrate empirical research on effectiveness of group work; multicultural considerations in group psychotherapy; didactic and experiential format.

PSQF:7458 Internship in Counseling Psychology arr.
Supervised work in internship setting. Prerequisites: PSQF:7434 and PSQF:7453. Requirements: PhD standing in counseling psychology and completion of all requirements except dissertation.

PSQF:7459 Seminar: Issues and Trends in Counseling Research 4 s.h.
Recent trends, including debates and findings in literature related to best practices for the profession. Same as CSED:7458.

PSQF:7460 Seminar: Research in Counseling 3 s.h.
Methods, examples, ethics, multicultural issues, problems of counseling research. Requirements: PhD enrollment. Same as CSED:7460.

PSQF:7465 Issues and Ethics in Professional Psychology 3 s.h.
Professional ethics; issues in professional practice of psychology.

PSQF:7470 Internship and Professional Issues 3 s.h.
Professional growth as clinician, internship application and interview processes, next steps in professional career, professional issues, interpersonal and counseling/professional competence, and goals for internship.

PSQF:7476 Research in Educational Measurement and Statistics 3 s.h.
Opportunity to learn and discuss psychometric and statistical theories and methodologies not covered in regular courses; critical concepts and skills necessary to conduct psychometric and statistical research; for motivated students interested in conducting their own research in educational measurement and statistics. Prerequisites: PSQF:6243 and (PSQF:6258 or PSQF:6262).

PSQF:7493 PhD Thesis in Psychological and Quantitative Foundations arr.

PSQF:7500 Advanced Practical Experience in Couple and Family Therapy 1-3 s.h.
Supervised experience in professional couple and family therapy; clinical or academic field placement and seminar; required for couple and family therapy students. Requirements: successful completion of couple and family therapy program comprehensive examination.

PSQF:7604 Scholarly Integrity and Responsible Conduct of Educational Research and Evaluation for Postdocs 0 s.h.

Students are introduced to and deepen their knowledge and skills in applying principles for the responsible conduct of educational research and evaluation and related social sciences; two modules addressing core areas identified by federal policy as minimal requirements for knowledge and skill in practice of research with scholarly integrity; format is discovery and discussion—presentation of background information for each topic is followed by discussion of case studies and other examples relevant to each topic; for postdoc associates.

Counseling and Behavioral Health Services, BA

The counseling and behavioral health services major in the College of Education enhances broad liberal arts and sciences education for students by providing strong academic preparation designed to serve as a foundation in helping processes and human behavior.

Students learn to apply critical thinking and problem-solving skills within various helping professions, preparing them for entry-level positions in nonprofit agencies, government agencies, community centers, clinics, and service navigation programs. The major may also serve as a foundation for future graduate study in counseling for students interested in professional licensure as a counselor.

Learning Outcomes

Students will:

- recognize and define the concepts and functions of the helping professions and their respective professional environments;
- demonstrate basic interpersonal communication, leadership, and ethical problem-solving skills used in the helping professions;
- illustrate how social, economic, cultural, and other contextual factors affect behavioral health care access and disparities;
- demonstrate awareness of the role of advocacy in the behavioral healthcare system and behavioral health policy environment; and
- exhibit critical thinking, problem-solving, and written and oral communication skills to strategically address complex issues and formulate innovative, holistic, and sustainable solutions.

Requirements

The Bachelor of Arts with a major in counseling and behavioral health services requires a minimum of 120 s.h., including at least 39 s.h. of courses for the major. The general education requirements to earn a Bachelor of Arts degree from the College of Education are the GE CLAS Core of the College of Liberal Arts and Sciences (CLAS). Students must maintain a cumulative grade-point average of at least 2.00 in all college coursework and in all UI coursework. All courses must be taken on an A–F graded basis unless a course is only offered as graded S/U, P/N, or by audit.

The major can be paired with other majors, minors, and certificates. At most, only 3 s.h. of counseling and behavioral health services courses may be counted toward another major, minor, or certificate.

The major consists of a 30 s.h. core curriculum plus an additional 9 s.h. chosen from the list of approved elective courses in a student's chosen area of emphasis.

The BA with a major in counseling and behavioral health services requires the following coursework.

Core Courses

Course #	Title	Hours
All of these:		
PSQF:1101/ CSED:1101	Introduction to the Helping Professions	3
PSQF:1102/ CSED:1102	Introduction to Helping Skills	3
PSQF:1103/ CSED:1103	Introduction to Assessment in Counseling and Behavioral Health	3
PSQF:2115	Introduction to Counseling Psychology	3
PSQF:2125	Applied Theories of Counseling and Change	3
PSQF:3104	Multicultural Issues in Counseling and Psychology	3
PSQF:3215	Applied Health Psychology	3
CPH:4210	Making a Difference: Public Health Policy and Advocacy	3
CSED:4953	Experiential Learning in Counseling and Behavioral Health Services	3
EDTL:4950	Behavioral and Social Interventions	3

Electives

Students complete 9 s.h. from the following list of courses to build a multidisciplinary slate of skills that enhances their future careers or graduate work. Additional courses may be selected in consultation with and approved by an academic advisor.

Guidelines for informal emphasis areas may provide a useful resource in choosing electives that are meaningful and useful and create a cohesive program of study. Informal emphasis areas are offered as a course selection aid to be used in consultation with an academic advisor and are not listed on a student's transcript or diploma. These informal emphasis areas are meant to be fluid over time to best reflect trends and issues in the field of helping professions. Further, students may create their own emphasis focus to align with their personal career goals. Information regarding emphasis areas can be found on the counseling and behavioral health services page on the College of Education website.

Course #	Title	Hours
9 s.h. from these:		
PSQF:1020/ STAT:1020	Elementary Statistics and Inference	3
PSQF:1075	Educational Psychology and Measurement	3
PSQF:2116	Applied Child and Adolescent Psychology	3
PSQF:2700/ SSW:2700	Introduction to Understanding Trauma and Resilience	3
PSQF:3115	Sport and Performance Psychology	3
PSQF:4106	Child Development	3
PSQF:4133	The Adolescent and Young Adult	3
PSQF:4145/ CSED:4145	Marriage and Family Interaction	3

PSQF:4162/ CSED:4162	Introduction to Couple and Family Therapy	3
CPH:1400	Fundamentals of Public Health	3
CPH:1600	Public Health Science: Inquiry and Investigation in Public Health	3
CPH:1800	Social and Psychological Determinants of Health: Changing Behavior, Improving Health	3
CPH:2400	The U.S. Health System in a Global Context	3
CPH:3220	Public Health as a Public Good: Economics and Decision Making in Public Health Systems	3
CPH:3500/ GHS:3500	Global Public Health	3
CSED:2081	Making a Vocational-Educational Choice	2-3
CSED:4111	Building Leadership and Success at Work	3
CSED:4114	Psychology of Body Modification and Self-Image	3
CSED:4131	Loss, Death, and Bereavement	3
CSED:4132	Introduction to Addictions and Impulse Control Disorders	3
CSED:4140	Foundations of Leadership for Community Agencies	3
CSED:4173	Trauma Across the Lifespan	3
CSED:4174	Positive Psychology	3
CSED:4175	Motivational Interviewing	3
CSED:4176	Child Abuse: Assessment, Intervention, and Advocacy	3
CSED:4178	Microcounseling	3
CSED:4179	Sexuality Within the Helping Professions	3
CSED:4185	Introduction to Substance Abuse	3
CSED:4187/ EDTL:4987	Introduction to Assistive Technology	3
CSED:4194	Interpersonal Effectiveness	3
CSED:4195	Ethics in Human Relations and Counseling	3
CSED:4197	Citizenship in a Multicultural Society	3
CSED:4199	Counseling for Related Professions	3
EPLS:1240	Student Success in College	3
EPLS:2098	The Student Affairs Profession	3
EPLS:4200	Athletic Administration in Educational Settings	3
HHP:2280	Cultural Competency and Health	3
MGMT:3500/ ENTR:3595/ MUSM:3500/ NURS:3595/ RELS:3700/ SSW:3500	Nonprofit Organizational Effectiveness I	3
MGMT:3600/ NURS:3600/ RELS:3701/ SSW:3600	Nonprofit Organizational Effectiveness II	3
SSW:1200	Mental Health Across the Lifespan	3
SSW:3729	Substance Use and Abuse	2-3

College of Education Academic Standards

The College of Education has established academic standards to ensure students successfully complete their degree program. To be in good academic standing, students in the College of Education must achieve the following minimum grade-point average (GPA) requirements.

- University of Iowa cumulative GPA and overall cumulative GPA, based on total hours earned
  - 0–29 overall earned semester hours: minimum of 1.85
  - 30 or more overall earned semester hours: minimum of 2.00
  - Nondegree students: minimum of 2.00
- Major GPA (overall cumulative): minimum of 2.00
- University of Iowa term GPA: minimum of 1.50 during fall or spring enrollment

For additional information about these standards, contact the Office of Student Services.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Elective course [d]		3
Elective course [d]		3
Degree Application: Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [f]		
	Hours	**15**
	Total Hours	**123-129**

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

e In consultation with an Academic Advisor, students may select an informal concentration area from the following: Addictions, School Mental Health, and Corrections. Each requires 9 s.h. of coursework.

f Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Educational Psychology, Minor

Requirements

The undergraduate minor in educational psychology requires 15 s.h., including at least 12 s.h. earned at the University of Iowa and 12 s.h. earned in courses numbered 3000 or above. Students must maintain a grade-point average of at least 2.50 in all courses for the minor. Coursework in the minor may not be taken pass/nonpass. Transfer credit must be approved in order for it to count toward the minor. The minor is open to all students enrolled in an undergraduate degree program.

The minor provides an enriched background in educational psychology, educational testing, and research methods in education. Students earning the minor select a department advisor, who helps them choose appropriate coursework. It does not lead to certification for public school teaching.

Coursework for the minor in educational psychology must include 15 s.h. selected from the following list.

Course #	Title	Hours
PSQF:1075	Educational Psychology and Measurement	3
PSQF:4106	Child Development	3
PSQF:4111	Human Motivation	3
PSQF:4120	Psychology of Giftedness	3
PSQF:4133	The Adolescent and Young Adult	3
PSQF:4134	Parent-Teacher Communication	1-3
PSQF:4143	Introduction to Statistical Methods	3
PSQF:4150	Introduction to Educational Measurement	3-4
PSQF:4204	Introduction to the Learning Sciences	3
PSQF:4205	Design Principles for How People Learn	3
PSQF:4281	Cognitive Principles for How People Learn	3
PSQF:4750	Learning Environments: Design, Context, and Activity	3
PSQF:4760	Participatory Learning and Media: Creating, Remixing, Making, and Education	3
PSQF:5165	Introduction to Program and Project Evaluation	3

Contact the Office of Student Services for more information about the minor.

Psychological and Quantitative Foundations, MA

Learning Outcomes

Graduate students will:

- gain course-specific knowledge and skills as required to perform well in their specialties (as demonstrated by completing their required courses in their specialty/major area with a grade-point average of 3.00 or higher);
- demonstrate integrated substantive knowledge and skills that can be applied to solve novel professional-level problems (as demonstrated by completing their final examinations satisfactorily and by completing their thesis proposals with committee approval);
- demonstrate required clinical practice skills and researcher autonomy (as demonstrated by satisfactory completion of all required practicums and/or internships, and required thesis defenses/article submissions as appropriate for their degrees);
- demonstrate initial engagement with, and commitment to, professional ethics, professional development, lifelong learning, and service to the profession (as demonstrated by participation and engagement in the appropriate state, regional, and national organizations as appropriate for their degrees);
- demonstrate entry-level professional qualifications (as demonstrated by being qualified to take any licensing exams that are required for practice and/or employment); and
- be qualified for suitable employment or postdoctoral appointments upon graduation (as reported on annual Qualtrics surveys).

Educational Measurement and Statistics

The Master of Arts program in psychological and quantitative foundations with an educational measurement and statistics subprogram requires a minimum of 30 s.h. of graduate credit along with passing a final examination, and is offered with or without thesis. Students are expected to maintain a UI cumulative grade-point average of at least 2.75.

The program provides students with basic knowledge of educational measurement and research methodology. Graduates find employment in large school systems, state departments of education, test publishing organizations, and research centers. The program is also appropriate for students who wish to broaden their knowledge of measurement and research methodology for personal development or professional improvement in the context of a concurrent PhD program in other areas.

The MA in psychological and quantitative foundations with an educational measurement and statistics subprogram requires the following work.

Required Courses

Course #	Title	Hours
All of these:		
PSQF:4143	Introduction to Statistical Methods (or equivalent with advisor approval)	3
PSQF:6220	Quantitative Educational Research Methodologies (or equivalent with advisor approval)	3
PSQF:6243	Intermediate Statistical Methods	3
PSQF:6246	Design of Experiments	3
PSQF:6255	Construction and Use of Evaluation Instruments	3
PSQF:6257	Educational Measurement and Evaluation	3

Required Concentration Areas

Measurement

Course #	Title	Hours
At least one of these:		
PSQF:6249	Factor Analysis and Structural Equation Models	3
PSQF:6258	Theory and Technique in Educational Measurement	3
PSQF:6260	Diagnostic Assessment	3
PSQF:6262	Item Response Theory	3
PSQF:7355	Seminar: Educational Measurement and Evaluation	3
PSQF:7358	Equating and Scaling of Educational Tests	3
PSQF:7375	Topics in Educational Measurement and Statistics	3
PSQF:7455	Generalizability Theory	3

Statistics

Course #	Title	Hours
At least one of these:		
PSQF:6248	Research Synthesis and Meta-Analysis	3
PSQF:6250	Computer Packages for Statistical Analysis	3
PSQF:6252	Introduction to Multivariate Statistical Methods	3
PSQF:6254	Causal Inference and Observational Designs	3
PSQF:6270	Generalized Linear Models	3
PSQF:6271	Longitudinal Multilevel Models	3
PSQF:6272	Clustered Multilevel Models	3
PSQF:7355	Seminar: Educational Measurement and Evaluation	3
PSQF:7375	Topics in Educational Measurement and Statistics	3

Related Courses

Course #	Title	Hours
One of these:		
PSQF:5165	Introduction to Program and Project Evaluation	3
PSQF:6200	Educational Psychology	3
PSQF:6204	Foundations of the Learning Sciences	3
PSQF:6214	Design of Learning Environments: Theory, Practice, and Method	3
PSQF:6281	Cognitive Theories of Learning	3

Electives

Nonthesis students choose 3 s.h. from any of the courses in the preceding lists or another course approved by the advisor. For students completing a thesis, PSQF:7393 MA Thesis in Psychological and Quantitative Foundations (3 s.h.) is required.

Final Examination

Nonthesis

Nonthesis students must complete a written and an oral final examination at the end of their program of study. Students will work with their advisors to form a three-person final examination committee that is comprised of at least two faculty from the educational measurement and statistics subprogram. The exam will emphasize the required core courses of the degree program and provide students with the opportunity to demonstrate their depth of learning from the program. The exact details and format of the final exam will be determined by the final examination committee. Upon passing the written examination, students will then have an oral examination in which they will answer additional questions regarding their written responses or other relevant topics. Passing the oral examination completes the requirements for the final examination.

Thesis

Thesis students will complete a written thesis and an oral final examination. The thesis should report the results of original research in a manuscript style that is suitable for potential submission for publication (submission for publication is not a thesis requirement). The topic, scope, and research plan should be approved in advance by a three-person committee that is comprised of at least two faculty from the educational measurement and statistics subprogram. Upon passing the thesis submission, students will then have an oral examination in which they will answer additional questions regarding their thesis or other relevant topics. Passing the oral examination completes the requirements for the final examination.

Admission

Applicants must meet the admission requirements of the Graduate College. Completion of at least one college mathematics course and experience as a teacher or researcher are desirable. Applicants who do not meet these requirements but who show offsetting evidence of superior ability may be granted conditional admission.

Learning Sciences and Educational Psychology

The Master of Arts program in psychological and quantitative foundations with a learning sciences and educational psychology subprogram has a strong emphasis on how theory and research inform the understanding of learners, learning, instruction, and the technology and environments in which learning and instruction occur. The program requires a minimum of 30 s.h. of graduate credit. Students are expected to maintain a UI cumulative grade-point average of at least 2.75. A thesis is not required.

The curriculum includes courses in the theories of the learning sciences, the design of effective learning environments and technologies, and the implementation of instructional design. Elective opportunities allow students to choose an interest area to develop a multidisciplinary specialization. Current areas include technology and media, learning in the disciplines, human development and motivation, and measurement and evaluation. The capstone experience of the program is an internship/practicum/portfolio that allows students to apply knowledge of the learning sciences in a context of interest. Students develop a program of study in consultation with their advisor.

Full-time students typically take at least 9 s.h. each semester, with the option of additional summer session work; they usually complete the program in four semesters. Part-time students take 3–6 s.h. each semester; they usually complete the degree in two or three years.

Students may apply substitute equivalent coursework from another institution or department for required or recommended courses.

The MA in psychological and quantitative foundations with a learning sciences and educational psychology subprogram requires the following coursework.

Required Courses

Course #	Title	Hours
All of these:		
PSQF:6200	Educational Psychology	3
PSQF:6203	Tools and External Representations in Individual and Social Learning	3
PSQF:6204	Foundations of the Learning Sciences	3
PSQF:6205	Design of Instruction	3
PSQF:6214	Design of Learning Environments: Theory, Practice, and Method	3
PSQF:6281	Cognitive Theories of Learning	3
PSQF:6299	MA Project: Portfolio/ Internship/Practicum	3
One of these:		
PSQF:6208	Digital Media and Learning	3
PSQF:6215	Online Instruction: Design and Facilitation	3

Electives

Elective opportunities allow a student to choose an area of interest to develop a multidisciplinary specialization. Students choose 6 s.h. from any of the following courses.

Technology and Media

Course #	Title	Hours
PSQF:4760	Participatory Learning and Media: Creating, Remixing, Making, and Education	3
PSQF:6208	Digital Media and Learning (if not taken as a required course)	3
PSQF:6211	Universal Design and Accessibility for Online Instruction	3
PSQF:6215	Online Instruction: Design and Facilitation (if not taken as a required course)	3
PSQF:6216	Tools and Utilities for Online Teaching	3

Learning in the Disciplines

Course #	Title	Hours
EDTL:4630	Psychology of Music	3
EDTL:5610	Foundations of Music Education Curricula	3
EDTL:6267	Seminar: Current Issues in Art Education	3
EDTL:6315	MA Seminar: English Education	3
EDTL:6483	Multilingual Education and Applied Linguistics	3
EDTL:6570	Foundation of School STEM Curriculum	3
EDTL:6757	Learning in the Science Classroom	3
EDTL:6758	Writing in the Science Classroom	3
EDTL:6833	History and Foundations of Social Studies Education	3

Human Development and Motivation

Course #	Title	Hours
PSQF:4106	Child Development	3
PSQF:4111	Human Motivation	3
PSQF:4133	The Adolescent and Young Adult	3
PSQF:6206	Advanced Child Development	3
PSQF:6213	Advanced Lifespan Development	3

Measurement and Evaluation

Course #	Title	Hours
PSQF:4143	Introduction to Statistical Methods	3
PSQF:4740	Issues in K-12 Assessment	3
PSQF:5165	Introduction to Program and Project Evaluation	3
PSQF:6220	Quantitative Educational Research Methodologies	3
PSQF:6257	Educational Measurement and Evaluation	3
PSQF:6265	Program Evaluation	3

Admission

Applicants must meet the admission requirements of the Graduate College, including the minimum grade-point average; see the Manual of Rules and Regulations on the Graduate College website.

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

b Choose two courses from one of the following focus areas: Technology and Media, Learning in the Disciplines, Human Development and Motivation, Measurement and Evaluation; see the General Catalog for lists of approved courses.
c Completion of all degree requirements and MA project.

Psychological and Quantitative Foundations, EdS

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Learning Outcomes

Graduate students will:

- gain course-specific knowledge and skills as required to perform well in their specialties (as demonstrated by completing their required courses in their specialty/major area with a grade-point average of 3.00 or higher);
- demonstrate integrated substantive knowledge and skills that can be applied to solve novel professional-level problems (as demonstrated by completing their comprehensive examinations satisfactorily);
- demonstrate required clinical practice skills (as demonstrated by satisfactory completion of all required practicums and/or internships);
- demonstrate initial engagement with, and commitment to, professional ethics, professional development, lifelong learning, and service to the profession (as demonstrated by participation and engagement in the appropriate state, regional, and national organizations as appropriate for their degrees);
- demonstrate entry-level professional qualifications (as demonstrated by being qualified to take any licensing exams that are required for practice and/or employment); and
- be qualified for suitable employment upon graduation (as reported on annual alumni Qualtrics surveys).

Requirements

The educational specialist (EdS) program in psychological and quantitative foundations with a school psychology subprogram requires a minimum of 61 s.h. of graduate credit. Students are expected to maintain a UI cumulative grade-point average of at least 3.00.

The program provides coursework and supervised field experience in education and psychology. The curriculum includes courses in psychological foundations, psychoeducational foundations, school psychology, and research methods. Other requirements include practicum experiences, a written and oral portfolio, and a full-time yearlong EdS-level internship. Successful completion of the PRAXIS II—School Psychology subject test 5403 is required for program completion.

The EdS in psychological and quantitative foundations includes the following coursework.

Course #	Title	Hours
All of these (or equivalents):		
PSQF:5199	Topical Workshop in Psychological and Quantitative Foundations (when topic is introduction to school psychology research writing)	1
PSQF:5219	Foundations of Health Service/School Psychology	3
PSQF:5900	Psychometrics	1
PSQF:6213	Advanced Lifespan Development	3
PSQF:6235	Multicultural Counseling	3
PSQF:6238	Assessment of Learning Differences	3
PSQF:6263	Consultation Theory and Practice	3
PSQF:7237	Beginning Practicum in School Psychological Service	3
PSQF:7310	Intelligence Assessment	3
PSQF:7313	Psychopathology in Childhood	3
PSQF:7315	Social and Emotional Assessment of Children and Adolescents	3
PSQF:7337	Advanced Practicum in School Psychology	6
PSQF:7344	Academic Interventions	3
PSQF:7437	Internship in School Psychology (EdS field experience)	2
PSQF:7465	Issues and Ethics in Professional Psychology	3
or EDTL:5963	Ethics and Professional Conduct for Behavior Analysts and Psychologists	
CSED:5202	Introduction to Group Counseling	3
or CSED:5222	Counseling Children and Adolescents in Schools	
EDTL:4900	Foundations of Special Education	3
EDTL:4950	Behavioral and Social Interventions	3
EDTL:5961	Foundation of Applied Behavior Analysis	3
EDTL:7953	Seminar: Single Subject Design Research	3
EPLS:4180	Human Relations for the Classroom Teacher	3

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Applicants are reviewed holistically.

Preference is given to applicants with:

- an undergraduate major in psychology, education, or a related field;

- an undergraduate grade-point average (GPA) of 3.00 or higher;
- a graduate GPA of 3.00 or higher;
- related research experience; and
- an interest and experience working with children and adolescents in K–12 settings.

Psychological and Quantitative Foundations, PhD

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Learning Outcomes

Graduate students will:

- gain course-specific knowledge and skills as required to perform well in their specialties (as demonstrated by completing their required courses in their specialty/major area with a grade-point average of 3.00 or higher);
- demonstrate integrated substantive knowledge and skills that can be applied to solve novel professional-level problems (as demonstrated by completing their comprehensive examinations satisfactorily and by completing their thesis proposals with committee approval);
- demonstrate required clinical practice skills and researcher autonomy (as demonstrated by satisfactory completion of all required practicums and/or internships, and required thesis defenses/article submissions as appropriate for their degrees);
- demonstrate initial engagement with, and commitment to, professional ethics, professional development, lifelong learning, and service to the profession (as demonstrated by participation and engagement in the appropriate state, regional, and national organizations as appropriate for their degrees);
- demonstrate entry-level professional qualifications (as demonstrated by being qualified to take any licensing exams that are required for practice and/or employment); and
- be qualified for suitable employment or postdoctoral appointments upon graduation (as reported on annual Qualtrics surveys).

Counseling Psychology

The Doctor of Philosophy program in psychological and quantitative foundations with a counseling psychology subprogram requires a minimum of 100 s.h. of graduate credit. The program requires full-time study. Students are expected to maintain a UI cumulative grade-point average (GPA) of at least 3.00.

The goal of the program is to prepare counseling psychologists who will promote psychology as a science and contribute to the advancement of the profession. The faculty endorses a scientist/practitioner model of training and expects students to become competent researchers and proficient practitioners. Graduates find positions in a variety of settings, including higher education, counseling centers, clinics, private practice settings, and hospitals.

The program is fully accredited by the American Psychological Association. Students must show appropriate levels of emotional balance and interpersonal skills and act within the American Psychological Association's *Ethical Principles of Psychologists*. For more information, contact the program director.

The PhD in psychological and quantitative foundations with a counseling psychology subprogram requires the following coursework.

Research Requirements

16 s.h. of research courses are required. Students must take at least one course in psychometrics, two quantitative courses, one qualitative course, and six semesters of the supervised research course as follows.

Course #	Title	Hours
These courses:		
PSQF:5900	Psychometrics	1-3
PSQF:6243	Intermediate Statistical Methods (required if will take PSQF:6244 or PSQF:6246 below)	3
PSQF:7394	Supervised Research in Counseling Psychology (taken six semesters for 1 s.h. each)	6
One of these:		
PSQF:7331	Qualitative Educational Research Methods	3
CSED:7338	Essentials of Qualitative Inquiry	3
EDTL:7070	Qualitative Research Methods in Teaching and Learning	3
EPLS:7373	Qualitative Research Design and Methods	3
One of these:		
PSQF:6244	Correlation and Regression (must take PSQF:6243 before this course)	4
PSQF:6246	Design of Experiments (must take PSQF:6243 before this course)	3
PSQF:6252	Introduction to Multivariate Statistical Methods	3
PSQF:6270	Generalized Linear Models	3
PSQF:7201	Counseling Psychology Research Writing	3

Qualitative and quantitative methodology is discussed in PSQF:7394 Supervised Research in Counseling Psychology, which is directed each semester by faculty advisors. Research from each student is discussed and evaluated, critiqued, and supported.

Discipline-Specific Knowledge

All students are required to have a thorough grounding in the basic discipline of psychology. This may be achieved through a minimum of 3 s.h. of credit in each of the following four areas: biological bases of behavior, cognitive-affective bases of behavior, social bases of behavior, and history and systems.

Counseling Psychology Core

Course #	Title	Hours
PSQF:6223	Introduction to Counseling Psychology Practice/ Research I	3
PSQF:6225	Introduction to Counseling Psychology Practice, Research, and Theory	3
PSQF:6235	Multicultural Counseling	3
PSQF:6312	Psychopathology Across the Lifespan	3
PSQF:7306	Psychotherapy III: Work Psychology and Career Interventions	3
PSQF:7309	Personality Assessment	3
PSQF:7310	Intelligence Assessment	3
PSQF:7356	Process and Outcomes in Counseling Psychotherapy	3
PSQF:7365	Theories of Psychotherapy	3
PSQF:7434	Practicum in Counseling Psychology	3
PSQF:7452	Leadership, Consultation, and Supervision	3
PSQF:7453	Advanced Practicum in Counseling Psychology (repeatable)	3
PSQF:7457	Advanced Group Leadership Experience	3
PSQF:7465	Issues and Ethics in Professional Psychology	3
PSQF:7470	Internship and Professional Issues	3

Students must enroll in practica to reach a specified level of client contact, supervision, and additional experience hours. Practicum placements must have prior approval of the counseling psychology faculty. Students must successfully complete one semester of PSQF:7434 Practicum in Counseling Psychology before enrolling in PSQF:7453 Advanced Practicum in Counseling Psychology.

Electives

Elective courses are determined in collaboration with the major advisor.

Internship

Students spend a calendar year in an internship setting approved by the counseling psychology faculty. The faculty determines student readiness to apply for the internship based on completion of all required coursework, successful defense of comprehensive exams, and successful completion of practicum requirements. Internships usually require geographic relocation.

Comprehensive Exam and Dissertation

The comprehensive examination consists of an oral and a written component. The exam includes research and practice elements. For more information, contact the program coordinator.

The dissertation research study is planned in collaboration with the student's major advisor. Dissertation credit ranges from 12 to 15 s.h.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Preference is given to applicants who have an undergraduate GPA above 3.00 and a graduate GPA above 3.50; an undergraduate major, minor, or substantial coursework in psychology; and previous research and counseling experience.

The faculty encourages applicants from a wide range of backgrounds and identities. Applicants with a BA or a more advanced degree are eligible to apply.

Educational Measurement and Statistics

The Doctor of Philosophy program in psychological and quantitative foundations with an educational measurement and statistics subprogram requires a minimum of 90 s.h. of graduate credit. Students must maintain a UI cumulative grade-point average of at least 3.00 to remain in good standing in the Graduate College.

The subprogram prepares students for senior professional positions in educational measurement and statistics including quantitative methods, psychometrics, and data analytics. Graduates find employment in higher education, state and federal agencies, not-for-profit and commercial testing organizations, large public and private school systems, educational technology, and research institutions. Many students complete research internships with prospective employers during their second or third year of graduate study.

The doctorate is a U.S. Department of Homeland Security STEM-designated degree program in educational statistics and research methodology, recognized as such in the U.S. Department of Education's Classification of Instructional Programs (CIP code 13.0603) due to its focus on research, innovation, and the development of new technologies in testing and psychometric methods.

Students who enter the subprogram without an MA thesis must complete a substitute project before taking the PhD comprehensive examination.

The PhD in Psychological and Quantitative Foundations with an educational measurement and statistics subprogram requires the following coursework.

Required Courses

During the first year of graduate study, a student and their advisor plan a program of study that is appropriate for the student's interests and vocational objectives. The doctorate involves advanced work in educational measurement and psychometrics, quantitative methods, research design, and related areas. Work in other University of Iowa departments that is consistent with the student's interests is encouraged. Many doctoral candidates also complete graduate certificates, minors, and secondary degrees during their graduate studies.

Educational Measurement

Course #	Title	Hours
All of these:		
PSQF:6255	Construction and Use of Evaluation Instruments	3

PSQF:6257	Educational Measurement and Evaluation	3
PSQF:6258	Theory and Technique in Educational Measurement	3
PSQF:6262	Item Response Theory	3
PSQF:7358	Equating and Scaling of Educational Tests	3
At least two of these:		
PSQF:6249	Factor Analysis and Structural Equation Models	3
PSQF:6259	Scaling Methods	3
PSQF:6260	Diagnostic Assessment	3
PSQF:7355	Seminar: Educational Measurement and Evaluation	3
PSQF:7375	Topics in Educational Measurement and Statistics	3
PSQF:7455	Generalizability Theory	3
PSQF:7476	Research in Educational Measurement and Statistics	3

Applied Statistics

Course #	Title	Hours
All of these:		
PSQF:6243	Intermediate Statistical Methods	3
PSQF:6246	Design of Experiments	3
PSQF:6252	Introduction to Multivariate Statistical Methods	3
PSQF:6270	Generalized Linear Models	3
At least three of these:		
PSQF:6244	Correlation and Regression	4
PSQF:6247	Nonparametric Statistical Methods	3
PSQF:6248	Research Synthesis and Meta-Analysis	3
PSQF:6249	Factor Analysis and Structural Equation Models	3
PSQF:6250	Computer Packages for Statistical Analysis	3
PSQF:6254	Causal Inference and Observational Designs	3
PSQF:6271	Longitudinal Multilevel Models	3
PSQF:6272	Clustered Multilevel Models	3
PSQF:7355	Seminar: Educational Measurement and Evaluation	3
PSQF:7375	Topics in Educational Measurement and Statistics	3
PSQF:7476	Research in Educational Measurement and Statistics	3

Additional Research Requirements

The College of Education research requirements may be satisfied by 9 s.h. from the required courses in educational measurement and applied statistics, by completing PSQF:6220 Quantitative Educational Research Methodologies and PSQF:7331 Qualitative Educational Research Methods, or by completing two other courses comparable in content coverage and level of rigor with departmental approval.

Third Area of Concentration

Students are required to complete a minimum of 9 s.h. in a coherent program of coursework outside of educational measurement and statistics that is beyond the courses listed above. The third area of concentration may come from related disciplines such as mathematical statistics, biostatistics, computer science, curriculum, higher education, program evaluation, learning sciences, data science, or informatics. These must be graduate-level courses that are consistent with a plan approved by the student's advisor.

Electives

Students are encouraged to take elective courses that complement their interests. These electives, chosen in collaboration with the academic advisor, may include courses in related areas such as psychology, learning sciences, mathematical statistics, informatics, or data science. All students are expected to develop proficiency in computer programming methods sufficient to support their research and professional objectives.

Comprehensive Examination

After completing most of their coursework, students take the comprehensive examination. The comprehensive examination is not a deferred qualifying examination. Rather, it is intended to evaluate a student's mastery of the concepts from the program of study at or near the end of the student's formal preparation and before completion of the dissertation. The composition of the comprehensive examination committee and the requirements to pass the comprehensive exam must follow the College of Education and Graduate College guidelines.

During the comprehensive exam, the committee seeks further evidence of the student's independent command of concepts across their program of study. The comprehensive examination consists of a written component followed by an oral component.

The details and format of the written and oral components of the exam are determined by the comprehensive examination committee to ensure that the exam represents the student's own work. The written component may include a traditional examination (in-person or take-home) or an extended research activity. The oral component is satisfied by a meeting of the examination committee with the student. At the conclusion of the oral component, the examining committee makes a single decision (satisfactory, with reservations, or unsatisfactory) across all aspects of the examination.

Dissertation

Work for the PhD concludes with the dissertation. The dissertation research study is planned in collaboration with the student's examining committee chair and members and includes a proposal meeting and a final examination. Committee members approve both the examination and the final document submitted by the student. A student must complete a minimum of 9 s.h. of dissertation credit, and no more than 12 s.h. may count towards the 90 s.h. that is required for the doctorate. Students may register for additional dissertation credit hours until completed.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations

on the Graduate College website. Preference is given to applicants who have an undergraduate GPA above 3.00 and a graduate GPA above 3.50.

The faculty encourages applicants from a wide range of backgrounds and identities. Applicants with a BA/BS or a more advanced degree are eligible to apply.

Learning Sciences and Educational Psychology

The Doctor of Philosophy program in psychological and quantitative foundations with a learning sciences and educational psychology subprogram requires a minimum of 72 s.h. of graduate credit. Students are expected to maintain a UI cumulative grade-point average of at least 3.00.

The subprogram synthesizes core content and methods of educational psychology with training in the learning sciences. Educational psychology is characterized by empirical research and theory typical of the social and behavioral sciences. The learning sciences reflect an outgrowth of cognitive science. The field offers a multidisciplinary approach to understanding when, how, and why people learn in social and material contexts that include but are not limited to classrooms. The learning sciences blend theories and methods from several disciplines, such as cognitive psychology, anthropology, instructional design, and more. Students will acquire the depth of knowledge and methodological sophistication necessary for original research that contributes to educational psychology and the learning sciences. They will develop and demonstrate their knowledge of learning theory and design principles in the context of research and design projects.

Students work closely with their advisor to develop a plan of study and define a program that matches their goals and interests. Those who begin the program after earning a master's degree or with coursework from another program may be able to waive some of the PhD program requirements.

The program of study includes substantive areas within the learning sciences and educational psychology, including courses in cognition, development, learning theory, and the design of instruction, learning environments, and learning technologies. Other learning opportunities include a design project in the second year, a precandidacy independent research project in which students design and carry out original research, a slate of research courses that meet the College of Education’s research requirements, a minor area of a student’s choice, and a dissertation in the student’s area of interest.

Research Requirement

The heart of the learning sciences and educational psychology as fields of inquiry is the creation, dissemination, and use of rigorous research to better understand and address educational issues. While many of the required courses address various aspects of the guiding principles set out by the National Research Council, students engage in the following coursework and research-related activities.

Course #	Title	Hours
All of these:		
PSQF:6220	Quantitative Educational Research Methodologies	3
PSQF:6243	Intermediate Statistical Methods	3
PSQF:7331	Qualitative Educational Research Methods	3
One of these:		
PSQF:6244	Correlation and Regression	4
PSQF:6246	Design of Experiments	3
PSQF:6247	Nonparametric Statistical Methods	3
PSQF:6252	Introduction to Multivariate Statistical Methods	3

Research Project

Prior to candidacy and in consultation with a faculty member, students design, implement, and present an original research project. This experience provides the opportunity to conduct a pilot study that will strengthen their thesis in terms of methods, instruments, theoretical grounding, or focus of a research question. Student presentations of their research are open to the public. Students are encouraged to submit their study results for broader dissemination at a local, regional, or national conference.

For students who have received approval to omit this requirement because of an empirical thesis that is acceptable to the learning sciences and educational psychology faculty, an additional research course may be required.

Course #	Title	Hours
PSQF:6230	Research in Educational Psychology	3

Required Courses

Course #	Title	Hours
All of these:		
PSQF:6200	Educational Psychology	3
PSQF:6203	Tools and External Representations in Individual and Social Learning	3
PSQF:6204	Foundations of the Learning Sciences	3
PSQF:6205	Design of Instruction	3
PSQF:6214	Design of Learning Environments: Theory, Practice, and Method	3
PSQF:6281	Cognitive Theories of Learning	3
PSQF:6299	MA Project: Portfolio/ Internship/Practicum	2
PSQF:7493	PhD Thesis in Psychological and Quantitative Foundations (minimum requirement)	10

Core Courses

The selection of core courses depends on a student's area of specialization. Students choose at least 9 s.h.; they should contact their advisor for additional approved courses.

Cognition, Learning, and Development

Course #	Title	Hours
PSQF:6213	Advanced Lifespan Development	3

PSQF:6275	Constructivism and Design of Instruction	3
PSY:6440	Developmental Cognitive Neuroscience	3

Learning in the Disciplines

Course #	Title	Hours
EDTL:6267	Seminar: Current Issues in Art Education	3
EDTL:6315	MA Seminar: English Education	3
EDTL:6483	Multilingual Education and Applied Linguistics	3
EDTL:6570	Foundation of School STEM Curriculum	3
EDTL:6757	Learning in the Science Classroom	3
EDTL:6758	Writing in the Science Classroom	3
EDTL:6833	History and Foundations of Social Studies Education	3

Technology and Media

Course #	Title	Hours
PSQF:6208	Digital Media and Learning	3
PSQF:6211	Universal Design and Accessibility for Online Instruction	3
PSQF:6215	Online Instruction: Design and Facilitation	3
PSQF:6216	Tools and Utilities for Online Teaching	3

Seminar

Course #	Title	Hours
PSQF:7371	Seminar in Learning Sciences and Educational Psychology (topics vary; may be repeated if content is related to the learning sciences or educational psychology)	3

Electives

Students may take up to 6 s.h. of elective coursework. Students can take PSQF:6217 Seminar in College Teaching and/or additional research courses. Other courses may be included in consultation with their advisor.

Minor Area

Students must complete a minimum of 12 s.h. that constitute a coherent program of coursework outside educational psychology and beyond the courses previously listed. The minor area may be from a foundation discipline such as mathematics education, educational philosophy, or program evaluation. Courses must be numbered 5000 or above, can span across departments and colleges, and must be consistent with a plan approved by a student's advisor.

Comprehensive Examination

The PhD comprehensive examination emphasizes competence and depth in one or more narrowly defined areas of research and theory. Students choose from three options in consultation with their advisor and with the approval of their examining committee, which is composed of four faculty members. It does not necessarily include the same faculty members as the dissertation committee.

The options are a traditional comprehensive examination that includes foundational content in educational psychology and learning sciences, the student's minor area, and a specialty area of the student's choice; a review article; or an extended research activity. For details of each option's requirements, contact the Department of Psychological and Quantitative Foundations.

Admission

Applicants must meet the admission requirements of the Graduate College, including the minimum grade-point average; see the Manual of Rules and Regulations on the Graduate College website.

Applicants who do not meet all admission requirements may be granted conditional admission on the basis of other evidence, such as high grade-point average, strong academic preparation, and highly supportive recommendations. Conditional admission is rare.

Following an initial review of the application, applicants may be asked to participate in a virtual interview with one or more faculty members. No preparation is required for this interview, it provides faculty members an opportunity to better understand the applicant's graduate school goals and provides applicants with an opportunity to ask questions about the program.

Applicants who accept admission or financial aid and do not relinquish either one on or before April 15 may not solicit or accept another offer. Offers made by the program after April 15 include the provision that the offer is void if the applicant has accepted and continues to hold a previous offer from another program listed in the American Psychological Association publication *Graduate Study in Psychology and Associated Fields*. This policy is consistent with standards set by the association's Board of Educational Affairs.

School Psychology

The Doctor of Philosophy program in psychological and quantitative foundations with a school psychology subprogram requires a minimum of 108 s.h. of graduate credit. Students are expected to maintain a UI cumulative grade-point average (GPA) of at least 3.00.

The primary mission of the school psychology program is to train health service psychologists to be outstanding ethical and multiculturally competent scientist-practitioners who promote psychology as a profession and science for the betterment of the human condition. As such, the program places significant emphasis on instilling attitudes and skills that are necessary for becoming critical consumers of research, active disseminators of research, and valuable contributors to the scientific foundations of the field. Students must show appropriate levels of emotional balance and interpersonal skills, and act within the American Psychological Association’s Ethical Principles of Psychologists and Code of Conduct.

Graduates from the school psychology program obtain positions as school service providers, private practitioners, faculty members, and psychologists in community mental

health agencies, residential settings, and pediatric and psychiatric settings.

The APA Commission on Accreditation (APA-CoA) approved the school psychology program's intent to apply application and voted to provide public notice of the program's intent to seek accreditation effective April 2, 2022. Although currently not APA accredited, the doctoral program has developed its course offerings, sequence, research, and practical experiences to be in line with standards that are set forth by the Standards of Accreditation for Health Service Psychology. The doctoral-level school psychology program applied for accreditation on contingency in September 2023.

Students develop a plan of study in consultation with their academic advisors. Successful completion of the PRAXIS II—School Psychology subject test 5403 is required for program completion.

The PhD in psychological and quantitative foundations with a school psychology subprogram requires the following coursework.

Research Requirement

To receive credit for additional courses, students must obtain prior approval from their advisor and the school psychology program.

Course #	Title	Hours
All of these:		
PSQF:5199	Topical Workshop in Psychological and Quantitative Foundations (when topic is introduction to school psychology research writing)	1
PSQF:5900	Psychometrics	1
PSQF:6243	Intermediate Statistical Methods	3
PSQF:7331	Qualitative Educational Research Methods	3
or EPLS:7373	Qualitative Research Design and Methods	
PSQF:7342	Research Project in School Psychology	2-4
EDTL:7953	Seminar: Single Subject Design Research	3
One of these (or equivalent):		
PSQF:6244	Correlation and Regression (must take PSQF:6243 before this course)	4
PSQF:6246	Design of Experiments (must take PSQF:6243 before this course)	3

Basic Psychology

Students are required to have a thorough grounding in the basic discipline of psychology, which may be achieved through earning a minimum of 3 s.h. in each of the following six areas: history and systems; and affective, biological, cognitive, developmental, and social bases of behavior. Students complete additional courses in individual differences and other course areas consistent with accreditation.

Core Courses

Course #	Title	Hours
All of these (or equivalents):		
PSQF:5219	Foundations of Health Service/School Psychology	3
PSQF:6213	Advanced Lifespan Development	3
PSQF:6235	Multicultural Counseling	3
PSQF:6238	Assessment of Learning Differences	3
PSQF:6263	Consultation Theory and Practice	3
PSQF:6281	Cognitive Theories of Learning	3
PSQF:6312	Psychopathology Across the Lifespan	3
PSQF:7320	History and Systems of Psychology	3
PSQF:7237	Beginning Practicum in School Psychological Service (minimum of 150 hours required)	3
PSQF:7310	Intelligence Assessment	3
PSQF:7315	Social and Emotional Assessment of Children and Adolescents	3
PSQF:7337	Advanced Practicum in School Psychology (minimum of 750 hours required)	15
PSQF:7344	Academic Interventions	3
PSQF:7367	Social Psychology and Social Systems	3
PSQF:7390	Supervision of School Psychology Practicum/ Internship	3
PSQF:7465	Issues and Ethics in Professional Psychology	3
or EDTL:5963	Ethics and Professional Conduct for Behavior Analysts and Psychologists	
CSED:5202	Introduction to Group Counseling	3
or CSED:5222	Counseling Children and Adolescents in Schools	
EDTL:4900	Foundations of Special Education	3
EDTL:4950	Behavioral and Social Interventions	3
EDTL:5961	Foundation of Applied Behavior Analysis	3
EPLS:4180	Human Relations for the Classroom Teacher	3
PSY:5203	Fundamental Neurobiology I	3
or PSY:6370	Principles of Neuropsychology	

Students must enroll in practicums to reach a specified level of client contact, supervision, and additional experience hours. Placements must have prior approval of the school psychology faculty. Students must successfully complete one semester of PSQF:7237 Beginning Practicum in School Psychological Service before enrolling in PSQF:7337 Advanced Practicum in School Psychology. Students must adhere to the

most recent ethical principles and standards of the American Psychological Association.

Elective Courses

Students earn a minimum of 6 s.h. in elective courses. These courses are determined in collaboration with the major advisor and can include the following.

Course #	Title	Hours
PSQF:6217	Seminar in College Teaching	1-3
EDTL:4975	Explicit Instruction	3
EDTL:5966	Advanced Topics in Applied Behavior Analysis	3
PEDS:7264	Clinical Applications of Applied Behavior Analysis	3

Yearly and Comprehensive Portfolios

Students are required to complete yearly portfolio reviews, which include oral examinations. The comprehensive portfolio consists of an oral and a written component that includes research and practice elements. For more information, contact the program coordinator.

Internship

Students spend a calendar year in an internship setting approved by the school psychology faculty. The faculty determines students' readiness to apply for internships based on their completion of all required coursework and successful completion of practicum and program requirements. Internships may require geographic relocation.

Course #	Title	Hours
This course:		
PSQF:7437	Internship in School Psychology	2

Dissertation

Students complete a doctoral dissertation. The program has adopted a two-article format. Article 1 (PSQF:7342) is completed by the end of the third year of the program. Following the successful defense of Article 1, students register for a total of 6 s.h. of dissertation credit (Article 2, PSQF:7493). All dissertation research studies are planned in collaboration with a student's major research advisor. Students may register for additional dissertation credits until completion.

Course #	Title	Hours
This course:		
PSQF:7493	PhD Thesis in Psychological and Quantitative Foundations	6

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website. Preference is given to applicants with an undergraduate major in psychology, education, or a related field; have an undergraduate GPA of 3.00 or higher; a graduate GPA of 3.00 or higher; related research experience; and an interest and experience working with children and adolescents in K–12 settings. Applicants are reviewed holistically.

The faculty encourages applicants from minoritized and other underrepresented groups to include persons from a wide range of backgrounds and academic preparation.

Academic Plans

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Psychological and Quantitative Foundations, PhD

	Hours	**9-10**
Spring		
PSQF:7337	Advanced Practicum in School Psychology	3
PSQF:7390	Supervision of School Psychology Practicum/Internship	3
Elective course [f]		3
	Hours	**9**
Fifth Year		
Fall		
PSQF:7493	PhD Thesis in Psychological and Quantitative Foundations	3
	Hours	**3**
Spring		
PSQF:7493	PhD Thesis in Psychological and Quantitative Foundations	3
	Hours	**3**
Sixth Year		
Fall		
PSQF:7437	Internship in School Psychology	1
	Hours	**1**
Spring		
PSQF:7437	Internship in School Psychology	1
Exam: Doctoral Final Exam [i]		
	Hours	**1**
	Total Hours	**108-109**

a Students must complete specific requirements in the University of Iowa Graduate College after program admission. Refer to the Graduate College website and the Manual of Rules and Regulations for more information.

b Graduate College program GPA is comprised of all courses that are approved degree requirements. If a student takes more than the minimum required number of semester hours to complete the degree, but all courses taken are eligible to count toward the degree, those courses will be included in the Graduate College program GPA.

c Required for Social Psychology Certification in Iowa.

d Students completing the BCBA Certificate must take EDTL:5963 to meet APA and BCBA ethics requirements.

e Also meets requirements for BCBA Certificate.

f Work with faculty advisor to select appropriate elective coursework.

g Successful completion of the PRAXIS II-School Psychology subject test 5403 is required for program completion.

h Typically completed by the end of the fourth year; see the College of Education website for specifics.

i Dissertation defense.

Talent Development

Chair, Department of Teaching and Learning

- Lia M. Plakans

Coordinator, Talent Development

- Randolph W. Lange

Graduate certificate: talent development

Faculty: https://education.uiowa.edu/directory

Website: https://education.uiowa.edu/areas-study/continuing-education/certificates-and-endorsements/certificate-talent-development

The purpose of the graduate Certificate in Talent Development is to increase understanding of talented individuals, the process of talent development and the creative process, and prepare advocates for talented individuals.

The Certificate in Talent Development is administered by the Department of Teaching and Learning [p. 1431] and is granted by the Graduate College.

Programs

Graduate Program of Study

- Certificate in Talent Development [p. 1430]

Talent Development, Graduate Certificate

Requirements

The graduate Certificate in Talent Development requires 14 s.h. of credit and is offered fully online, or with hybrid and conventional courses. Students must take required and elective courses on an A—F graded basis and must earn a B-minus or higher in each course. The capstone exploration is graded as satisfactory/unsatisfactory.

The certificate program is open to students enrolled in University of Iowa graduate degree programs and to individuals who are enrolled in the Graduate College as nondegree students.

Inquiries regarding approval for transfer credit of previously taken University of Iowa courses should be directed to the certificate supervisors at the Belin-Blank Center.

The Certificate in Talent Development requires the following coursework.

Requirements	Hours
Required Coursework	6
Elective Coursework	6
Capstone Exploration	2

Required Coursework

Course #	Title	Hours
Both of these:		
EDTL:4067	Conceptions of Talent Development	3
PSQF:4120	Psychology of Giftedness	3

Elective Coursework

Course #	Title	Hours
At least two of these:		
CW:3870	Advanced Fiction Writing	3
CW:3875	Advanced Poetry Writing	3
EDTL:4066	Curriculum and Programming for Advanced Learners	3
ENTR:9650	STEM Innovator V: STEM Innovator Tools to Create an Innovation Model for the Classroom	3
ENTR:9660	STEM Innovator VI: Creating a STEM Innovation Pathway Across K-14 Learning Experiences	3
EPLS:6217	Theory and Practice of Leadership	3
INTD:3005	Professional and Creative Business Communication	3
LS:3012	Leadership Theory to Practice	3
MGMT:3300	Strategic Human Resource Management	3
MUS:4630	Psychology of Music	3
PSQF:4121	Identification of Students for Advanced Programming	3
PSQF:4123	Academic Acceleration: Providing Excellence and Equity in Education for High Ability Students	3
PSQF:6281	Cognitive Theories of Learning	3
Students may take other courses numbered 3000-3999 that focus on talent development concepts, in consultation with their certificate advisor		

Capstone Exploration

The Certificate in Talent Development culminates with the opportunity for students to develop and complete a capstone exploration project relevant to a school or other context that focuses on an important topic or issue in talent development. Students must earn a B-minus or higher in the required and elective courses to enroll in the capstone exploration, EDTL:5065 Talent Development Capstone Exploration.

The capstone exploration entails critical readings and a guided research project and presentation related to the concept of talent development. Projects require approval (and are supervised) by a Belin-Blank Center professional development team member. Readings should be discussed and determined in collaboration with the mentor. The capstone exploration project is shared in a public presentation immediately following a student's completion of the research/independent study related to the capstone exploration. Students present their capstone exploration to a public forum (e.g., staff meeting, school board meeting, special evening event, public library); if the presentation cannot be at a public forum, an alternate forum will be agreed upon between the student and the Belin-Blank Center mentor. Students submit the final written report (with references and appendices) no later than 20 days after the public presentation.

For more information, visit Certificate in Talent Development on the College of Education website.

Teaching and Learning

Chair

- Lia M. Plakans

Undergraduate majors: art education (BA); elementary education (BA); English education (BA); mathematics education (BA); music education (BA); science education (BA); social studies education (BA); world language education (BA); science studies (BS, granted by the College of Liberal Arts and Sciences)

Graduate degrees: MA in teaching and learning; MAT in teaching and learning; MS in teaching and learning; PhD in teaching and learning

Faculty: https://education.uiowa.edu/directory

Website: https://education.uiowa.edu/about/administration/department-teaching-and-learning

Department of Teaching and Learning programs prepare graduates for positions in public schools, local and state education agencies, clinical settings, and institutions of higher education. All licensure programs are approved by the Iowa Department of Education.

Undergraduate students pursuing a BA with a major in art education, elementary education, English education, mathematics education, music education, science education, social studies education, or world language education, must satisfy the GE CLAS Core [p. 22] requirements.

Undergraduate students pursuing a BS with a major in science studies must meet the College of Liberal Arts and Sciences requirements for the Bachelor of Science degree, including the GE CLAS Core; see the College of Liberal Arts and Sciences Academic Policies Handbook.

The Department of Teaching and Learning offers, or jointly administers with departments in the College of Liberal Arts and Sciences, advanced degree programs in the following fields of professional interest: art education; English education; world language, multilingual, and English as a Second Language education; literacy, culture, and language education; mathematics education; music education; science education; social studies education; special education; and teaching, leadership, and cultural competency.

Graduate Degree Programs

The department offers graduate degree programs in three major areas: elementary education, secondary education, and special education.

Elementary Education Programs

- Art education (offered in the MA and MAT in teaching and learning)
- Teaching, leadership, and cultural competency (offered in the MA in teaching and learning)

Secondary Education Programs

- Art education (offered in the MA and MAT in teaching and learning)
- English education (offered in the MA and MAT in teaching and learning)
- World language and English as a Second Language (ESL) education (offered in the MAT in teaching and learning)
- Language, literacy, and social studies education (offered in the PhD in teaching and learning)
- Mathematics education (offered in the MA, MAT, and PhD in teaching and learning)
- Multilingual education (offered in the MA in teaching and learning)
- Science education (offered in the MS, MAT, and PhD in teaching and learning)
- Social studies education (offered in the MA and MAT in teaching and learning)
- Special education (offered in the MA and PhD in teaching and learning)
- Teaching, leadership, and cultural competency (offered in the MA in teaching and learning)

The secondary education area also collaborates with the College of Liberal Arts and Sciences to offer an education option for graduate students earning an MS in mathematics; an MA and PhD in music with a concentration in music education; a combined U2G program in teaching and learning with a science education subprogram for undergraduates majoring in biology, chemistry, earth, environment, and sustainability sciences, or physics; and a combined U2G program in teaching and learning with a mathematics education subprogram for undergraduates majoring in mathematics. In addition, the area offers an ESL endorsement for individuals who are enrolled in a Department of Teaching and Learning graduate degree program or who are licensed in-service teachers.

In addition, the MA in music [p. 852] is administered by the School of Music (College of Liberal Arts and Sciences) in cooperation with the College of Education. The concentration in music education provides students with deeper insights into music, the theory and practice of music education, and the role of music in the school curriculum.

The PhD in music [p. 862] with a concentration in music education prepares students for teaching, research, and administrative posts. Graduates find employment as college teachers of music education classes and activities; as band, chorus, and orchestra directors; and as administrators of music departments and schools of music. Some apply their skills in public schools as music supervisors, research and curriculum consultants, and directors of city or district school music programs. Doctor of Philosophy students whose concentration is music therapy enroll in the PhD program with a concentration in music education. Modifications in the curricular requirements are made to reflect the professional knowledge and skills required for positions such as college teaching or advanced clinical or research positions in music therapy. Both programs are administered by the School of Music [p. 813] (College of Liberal Arts and Sciences) in cooperation with the College of Education.

Special Education Program

- Special education (offered in the MA and PhD in teaching and learning)

Applicants for admission to University of Iowa graduate degree programs must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations on the Graduate College website.

Graduate Certificates

The graduate Certificate in Applied Behavior Analysis is offered by the Department of Teaching and Learning. To

learn more, see the Certificate in Applied Behavior Analysis [p. 1352] in the catalog.

The graduate Certificate in Talent Development is offered by the Department of Teaching and Learning. To learn more, see the Certificate in Talent Development [p. 1429] in the catalog.

Programs

Undergraduate Programs of Study

Majors

- Major in Art Education (Bachelor of Arts) [p. 1447]
- Major in Elementary Education (Bachelor of Arts) [p. 1449]
- Major in English Education (Bachelor of Arts) [p. 1454]
- Major in Mathematics Education (Bachelor of Arts) [p. 1458]
- Major in Music Education (Bachelor of Arts) [p. 1462]
- Major in Science Education (Bachelor of Arts) [p. 1466]
- Major in Social Studies Education (Bachelor of Arts) [p. 1470]
- Major in World Language Education (Bachelor of Arts) [p. 1474]
- Major in Science Studies (Bachelor of Science) [p. 1477]

Graduate Programs of Study

- Master of Arts in Teaching and Learning [p. 1486]
- Master of Arts in Teaching in Teaching and Learning [p. 1493]
- Master of Science in Teaching and Learning [p. 1503]
- Doctor of Philosophy in Teaching and Learning [p. 1505]

Financial Support

A limited number of teaching assistantships are available for graduate students. Assignments vary. Some involve supervising undergraduate majors enrolled in practicums; some involve teaching sections of undergraduate methods courses and supervising student teachers; others consist primarily of research activities. Graduate assistants may register for a maximum of 12 s.h. of credit per semester, but they must register for at least 6 s.h. per semester.

All assistantships are awarded on a competitive basis. Applicants must have been admitted to regular status in the Graduate College and to an advanced program in the College of Education. For information about assistantships, consult the College of Education advisor in the appropriate field.

Courses

- Teaching and Learning Courses [p. 1432]
- Science Education Courses [p. 1445]

Teaching and Learning Courses

EDTL:1129 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

EDTL:2000 Big Ideas: Creativity for a Lifetime 3 s.h.
Exploration of what senior artists can teach about creativity and aging; interdisciplinary project-based collaborative learning opportunities that consider role of arts and creativity across a lifespan; essential skills necessary to be professionals in numerous careers including health, social work, education, humanities, and the arts; identification of ways for students to be more creative in their own lives and work. GE: Values and Society. Same as ARTS:2000, ASP:2000, RHET:2000.

EDTL:2015 Teaching as a Human Endeavor 3 s.h.
Introduction to teaching with focus on role as a human endeavor including purposes, goals, and values; special attention to contemporary issues in teaching and learning with an overview of planning processes, role of settings, contexts, and differentiation; exploration of appropriate ways to study teaching across disciplines and under various professional standards.

EDTL:2073 Finding Your Comfort Zone: Secrets to Success 1,3 s.h.
Understanding the strengths and challenges of people with special needs; insights into unwritten "rules" of college life; optional practicum involves working hands-on with people who have multiple learning and cognitive disabilities; students with disabilities or those interested in learning more about disabilities are encouraged to enroll.

EDTL:2111 Teaching Elementary Learners I: Pursuits and Reflection 2 s.h.
Foundational support for future elementary teachers; development of an understanding of teaching with a humanizing orientation; use of inquiry, reflection, and collaboration to introduce UI teacher education core pursuits that center equity; focus on elementary education and learners through valuing identities and multiple perspectives, developing skills and supporting intellect, and critically reflecting on social and political implications of a teacher's role in education.

EDTL:2112 Teaching Elementary Learners II: Communities and Classrooms 2 s.h.
Foundational support for future elementary teachers; development of an understanding of teaching with a humanizing orientation; use of inquiry, reflection, and collaboration to delve into UI teacher education core principles through integration across disciplines; engagement in elevating and advocating for future elementary students' communities through respect and care; incorporates Teacher Education Program pre-admission requirements and individual interviews with elementary education faculty.

EDTL:2122 Creativity, Imagination, Play, and Human Development through the Arts 3 s.h.
Theories related to human development and visual arts; use of visual arts to make meaning from experience; ways to integrate visual arts into everyday life; cognitive and physical processes involved in making, understanding, and looking at visual art through studio experiences; theories of cognitive development; role of visual art in education; introduction to art production, history, criticism, and aesthetics. GE: Literary, Visual, and Performing Arts.

EDTL:2155 Pursuing Core Principles in Elementary Education 2 s.h.
Supports future elementary teachers in developing a humanizing orientation toward elementary teaching across all content areas. Uses inquiry, reflection, and collaboration to introduce students to the University of Iowa teacher education core principles. Learn about the importance of valuing identities and multiple perspectives; developing skills and supporting intellect; and critically reflecting on the social and political implications of elementary education. Learn about the elementary education program and meet program faculty throughout the course.

EDTL:2630 Introduction to the Psychology of Music 3 s.h.
Processes by which people perceive, respond to, create, and use music in their daily lives; basic physics of musical stimuli, psychoacoustics of musical perception, principles of musical cognition, neurological and physiological responses to music, theories of musical learning and development, and social psychology of musical activity; previous musical performing experience helpful but not required. GE: Social Sciences. Same as MUS:2630.

EDTL:2670 Peacebuilding, Singing, and Writing in a Prison Choir 3 s.h.
Students sing with the Oakdale Community Choir inside the Iowa Medical and Classification Center as a service-learning component; students explore meanings of peacebuilding for themselves and community, and use their imaginations to consider new directions of peacebuilding through reading, reflecting, writing, inner peacebuilding, and communal peacebuilding projects; use of choral singing inside prisons to build peace, create positive social connections, transform attitudes toward healing approaches to justice, and inspire a sense of deep care within oneself and among others. GE: Understanding Cultural Perspectives.

EDTL:2821 Oral Interpretation 3 s.h.
Weekly performances to develop and define communication skills for professional careers in teaching and business; poetry, prose, monologue, storytelling, duo interpretation, reader's theatre, and demonstration speeches. Same as COMM:2821.

EDTL:2963 Monsters, Victims, and Villains: Changing Perceptions 3 s.h.
Introduction to implementation of performance opportunities for special populations (defined as those with cognitive or physical disability) and underrepresented populations; students gain skills necessary to create radical opportunities for and implementation of performances including individuals with disabilities in theatre, dance, and music; students from different backgrounds experience collaborative artistic excellence while redefining audience expectations; historic background for perceptions of disability. GE: Understanding Cultural Perspectives. Same as THTR:2605.

EDTL:3001 Introduction to Museum Studies 3 s.h.
Overview of museum history, function, philosophy, collection, and curatorial practices; governance and funding issues; exhibition evaluation and audience studies; examples from Stanley Museum of Art, Museum of Natural History, Old Capitol Museum, and Medical Museum. GE: Social Sciences. Same as ANTH:3001, MUSM:3001, SIED:3001.

EDTL:3002 Teaching and Learning Technologies 2-3 s.h.

EDTL:3059 Introduction to Education and the Regents Alternative Pathway to Iowa Licensure Program 4 s.h.
Foundational knowledge and understanding of educational practices for teacher intern candidates in the Regents Alternative Pathway to Iowa Licensure (RAPIL) program; topics include students as learners, the instructional process, and assessment. Requirements: admission to the RAPIL program.

EDTL:3060 Learning and Instruction for Today's Classrooms 3 s.h.
First course in the Regents Alternative Pathway to Iowa Licensure program. Requirements: admission to the RAPIL program.

EDTL:3061 Assessment for Learning 3 s.h.
Fourth course in the Regents Alternative Pathway to Iowa Licensure program. Requirements: admission to the RAPIL program.

EDTL:3062 Learning Communities 3 s.h.
Fifth course in the Regents Alternative Pathway to Iowa Licensure program. Requirements: admission to the RAPIL program.

EDTL:3063 Creating Classrooms Conducive to Teaching and Learning 3 s.h.
Third course in the Regents Alternative Pathway to Iowa Licensure program. Requirements: admission to the RAPIL program.

EDTL:3064 Intern Seminar on Critical Issues in Education 3 s.h.
Sixth course in the Regents Alternative Pathway to Iowa Licensure program. Requirements: admission to the RAPIL program.

EDTL:3065 Methods in Teaching in the Secondary Classroom 3 s.h.
Learn, identify, and implement effective content-specific secondary teaching methods with focus on active student engagement; students develop and enhance instructional planning/pedagogy with special emphasis on content-specific secondary teaching methods, including reading in content area; describe and implement process of pre-, formative, and summative assessment strategies, appropriately aligning them in the instructional design of secondary content lessons; taking specific steps toward improving professional dispositions.

EDTL:3067 Regents Alternative Pathway to Iowa Licensure Clinical Field Experience I 3 s.h.
Students co-teach under guidance of a cooperating teacher in a secondary classroom; active engagement in the classroom through whole and small group interactions; planning and teaching a series of lessons; reflection with a Regents Alternative Pathway to Iowa Licensure (RAPIL) evaluator. Corequisites: EDTL:3060.

EDTL:3068 Regents Alternative Pathway to Iowa Licensure Clinical Field Experience II 3 s.h.
Students co-teach under guidance of a cooperating teacher in a secondary classroom; active engagement in the classroom through whole and small group interactions; planning and teaching a series of lessons; reflection with a Regents Alternative Pathway to Iowa Licensure (RAPIL) evaluator. Corequisites: EDTL:3061.

EDTL:3070 Regents Alternative Pathway to Iowa Licensure Elementary Practicum 2 s.h.
Students co-teach under guidance of a cooperating teacher in an elementary classroom; active engagement in classroom through whole and small group interactions with students; planning and teaching at least two lessons; reflection with Regents Alternative Pathway to Iowa Licensure (RAPIL) evaluator; for RAPIL program candidates to complete a 40-hour practicum to add K-8 licensure in art, physical education, music, or health to an already completed 5-12 endorsement in same content area.

EDTL:3091 Secondary Education Program Orientation and Classroom Management 1,3 s.h.
Overview including opportunities, policies and procedures, requirements and expectations, and services associated with the Teacher Education Program; characteristics of the classroom environment and their implications for organization and management; concepts and principles teachers can use when thinking about managerial tasks in the classroom; for prospective middle and secondary school teachers.

EDTL:3095 Teaching Reading in Secondary Content Areas 1,3 s.h.
Integration of reading strategies into secondary content areas for teacher candidates in secondary education.

EDTL:3103 Assessment for Instructional Planning and Practice 3 s.h.
Fundamentals of using assessment data to make instructional planning decisions that preservice educators need in their advanced coursework and classrooms; practical application with curriculum-based procedures; emphasis on classroom-based procedures used to make educational decisions to plan instruction for students, particularly those who are experiencing academic difficulty. Requirements: admission to TEP.

EDTL:3115 Museum Education and Interpretation 3 s.h.
Examination of the educational role of museums; educational theory, audience development, teaching strategies, accessibility, and evaluation within museum context; community-engaged project and collaboration with museum to develop curriculum and educational resources. Same as MUSM:3115.

EDTL:3120 Methods and Materials: Music for the Classroom Teacher 2 s.h.
Development of music skills, techniques, knowledge of methods and materials for teaching music to young children; for elementary education majors. Requirements: admission to TEP.

EDTL:3123 Reading and Responding to Children's Literature 3 s.h.
Reading and teaching of children's literature; becoming more knowledgeable readers of children's literature; using children's literature in elementary classroom for aesthetic, personal, social, and critical purposes; wide range of literary texts in different genres and multiple ways readers might experience these texts given particular teaching approaches; ways in which readers interact with texts and with each other to make meaning as they read and discuss literature. Requirements: College of Education major.

EDTL:3127 Methods and Materials: Physical Education, Health, and Wellness 2-3 s.h.
Methods, curriculum. Requirements: College of Education major.

EDTL:3128 Practicum in Physical Education 1 s.h.
Observation of elementary physical education teachers and classes; discussions and papers concerning these experiences; for students pursuing the K-8 Physical Education endorsement. Corequisites: EDTL:3127.

EDTL:3130 Adaptive Physical Education for the Elementary Classroom Teacher 2 s.h.
Create and deliver quality, inclusive physical education for students with mental, physical, or emotional disabilities; identify and evaluate the needs of disabled students, plan units and lessons with appropriate modifications for all learners, write an IEP, comply with IDEA in a physical education setting. Prerequisites: EDTL:3127.

EDTL:3131 Movement Education 2 s.h.
Movement education as a basis for psychomotor and cognitive development in children; summary of basic growth and motor development; in-depth instruction on theory and application of movement education curriculum, and practice on design and execution of movement education lessons.

EDTL:3141 Elementary School Mathematics: Number and Operations 3 s.h.
Problem-solving approach to current trends in math education and process of teaching math; current math content knowledge assessed at start and end of course; opportunities to strengthen number and operations content knowledge; how children in grades K-5 think about and learn math; core ideas of learning, teaching, planning, and assessing number and operations concepts and skills; research-based pedagogical strategies that help children develop math concepts and procedures. Requirements: admission to TEP.

EDTL:3142 Elementary School Mathematics: Geometry and Measurement 3 s.h.
Problem-solving approach to current trends in math education; current math content knowledge assessed at start and end of course; opportunities to strengthen geometry and measurement content knowledge; how children in grades K-5 think about and learn math; core ideas of learning, teaching, planning, and assessing geometry and measurement concepts and skills; research-based pedagogical strategies that help children in elementary school develop math concepts and procedures. Requirements: admission to TEP.

EDTL:3143 Methods of Elementary Art and Field Experiences 3 s.h.
Application of studio methods to teaching children in Saturday Children's Art Class Program. Same as ARTE:3143.

EDTL:3146 Elementary School Mathematics: Data/ Probability and Algebra 3 s.h.
Problem-solving approach to current trends in math education and process of teaching math; current math content knowledge assessed at start and end of course; opportunities to strengthen data analysis/probability and algebra content knowledge; how grade K-5 children think about and learn math; core ideas of learning, teaching, planning, and assessing data/probability and algebra concepts and skills; research-based pedagogical strategies that help children develop math concepts and procedures. Requirements: admission to TEP.

EDTL:3160 Reading and Language Arts Methods for Primary Students in Grades K-3 3 s.h.
Theoretical foundations and practical skills to become reflective professionals who can design and implement effective reading and language arts instruction; authentic formative assessment for economically, academically, culturally, racially, and linguistically diverse children in grades K-3; for preservice elementary teachers. Prerequisites: EDTL:3190 with a minimum grade of C- and EDTL:3002 with a minimum grade of C-. Requirements: admission to elementary TEP.

EDTL:3161 Social Studies for the Elementary Classroom Teacher 3 s.h.
Individual growth and change due to environment, economy, and technology; focus on developing teacher's understanding of social and behavioral sciences and how they relate to geography, history, and government in student's growth toward democratic citizenship; emphasis on need to develop intellectually stimulating curricula based on Iowa Core in behavioral science; lesson and curriculum development from research-based best practices in teaching social studies and driven by Iowa Core goals and objectives; technology as a teaching tool and focus of investigation in today's society. Prerequisites: EDTL:3002 with a minimum grade of C- and EDTL:3190 with a minimum grade of C-. Requirements: admission to elementary TEP.

EDTL:3163 Methods: Elementary School Mathematics 2-3 s.h.
Content; techniques of teaching and means of assessment for K-6 mathematics. Prerequisites: EDTL:3190 with a minimum grade of C- and EDTL:3002 with a minimum grade of C- and (EDTL:3141 or MATH:1120). Corequisites: EDTL:3170 and EDTL:3174. Requirements: admission to TEP.

EDTL:3164 Reading and Language Arts Methods for Intermediate Students in Grades 3-6 3 s.h.
Theoretical foundations and practical skills to become reflective professionals who can design and implement effective reading and language arts instruction; authentic formative assessment for economically, academically, culturally, racially, and linguistically diverse children in grades 3-6; for preservice elementary teachers. Prerequisites: EDTL:3190 with a minimum grade of C- and EDTL:3002 with a minimum grade of C-. Requirements: admission to elementary TEP.

EDTL:3165 Elementary Science Methods I 3 s.h.
Meaningful and practical learning experiences to foster elementary science learning environments that engage learners in scientific practices and understanding of biological and chemical sciences; essential concepts; instruction to promote elementary student learning; learning, teaching, subject matter, curriculum, and assessment. Prerequisites: EDTL:3002 with a minimum grade of C- and EDTL:3190 with a minimum grade of C-.

EDTL:3166 Elementary Science Methods II 3 s.h.
Meaningful and practical learning experiences to foster elementary science learning environments that engage learners in scientific practices and understanding of physical and earth/space sciences; essential concepts; instruction to promote elementary student learning; learning, teaching, subject matter, curriculum, and assessment. Prerequisites: EDTL:3002 with a minimum grade of C- and EDTL:3190 with a minimum grade of C- and EDTL:3165.

EDTL:3170 Elementary Classroom Management 1-3 s.h.
Activities, techniques, strategies, theories related to effective classroom management. Prerequisites: EDTL:3190 with a minimum grade of C- and EDTL:3002 with a minimum grade of C-. Corequisites: EDTL:3163 and EDTL:3174.

EDTL:3172 Elementary Reading Practicum 3-4 s.h.
Experience in teaching literacy to elementary students; opportunity to learn from an experienced teacher within a functioning classroom; supervisor with classroom experience mentors and supports students at practicum site; on-site practicum experiences preceded by on-campus seminar experience with practicum coordinator and supervisors; for preservice teachers. Prerequisites: EDTL:3002 with a minimum grade of C- and EDTL:3190 with a minimum grade of C- and EDTL:3160 and EDTL:3164. Corequisites: EDTL:4171.

EDTL:3174 Elementary Math Practicum arr.
Experience in teaching mathematics to elementary students; opportunity to learn from an experienced teacher within a functioning classroom; supervisor with classroom experience mentors and supports students at practicum site; on-site practicum experiences preceded by on-campus seminar experience with practicum coordinator and supervisors; for preservice teachers. Prerequisites: EDTL:3002 with a minimum grade of C- and EDTL:3190 with a minimum grade of C-. Corequisites: EDTL:3163 and EDTL:3170.

EDTL:3180 Drama in the Classroom 3 s.h.
Theories of community, culture, identity in relation to language arts teaching and learning; emphasis on incorporating multiple literacies, both oral and print, into language arts curricula; action research involving oral literacy. Same as THTR:3610.

EDTL:3190 Orientation to Elementary Education 1-2 s.h.
Overview of elementary education expectations, including options for student teaching; classroom observation, lesson planning, performance indicators, InTASC standards, classroom management, information about mandatory child abuse reporting, blood-borne pathogens, professional ethics.

EDTL:3204 Art Education Studio and Field Components 3 s.h.
Art training related to processes of elementary and secondary school art teaching; studio methods applied to teaching children and adolescents.

EDTL:3205 Methods of Secondary Art and Field Experience 3 s.h.
Art education theory and methods at secondary levels; art curriculum, unit, and lesson planning; evaluation, motivation, instructional materials; observational techniques.

EDTL:3290 Introduction and Practicum: Art 2-3 s.h.
Practice of learning from an experienced art teacher in an art classroom and setting; observations in an art classroom side-by-side with experience and insight gained through participating and teaching in the Saturday Art Workshop Program. Requirements: admission to TEP.

EDTL:3382 Language and Learning 2-3 s.h.
How language reflects and constructs learners' identities and cultures; readings related to oral and written language, native and second language development, linguistic diversity; discussion of the relationship of language theory to schools of language instruction. Same as ENGL:3190.

EDTL:3393 Reading and Teaching Adolescent Literature 3 s.h.
Reading and evaluation of literature suitable for junior and senior high school students. Same as ENGL:3191.

EDTL:3492 Teaching Spanish Heritage Speakers 3 s.h.
Focus on cutting-edge research and methods to develop suitable language curriculum for Spanish heritage speakers (SHS); topics include bilingual development, sociolinguistics, language teaching, and heritage speakers' affective needs; use of these theories to help understand and apply best practices in teaching SHS; topics also help create best practices in teaching mixed language courses for second language and heritage students. Taught in Spanish. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as SPAN:3093.

EDTL:3532 Introduction and Practicum: Mathematics 3 s.h.
Experience designing and teaching lessons with varied instructional intent and use of multiple instructional strategies; study and practice methods of managing classroom learning environment; significant time spent in cooperating schools, on-campus meetings. Requirements: admission to TEP.

EDTL:3534 Methods: Middle School Mathematics 3 s.h.
Subject matter content, teaching and assessment techniques for grades 5-9 math; how students learn mathematics; mathematics curricular planning for all students.

EDTL:3605 Instrumental Techniques 2 s.h.
Same as MUS:3605.

EDTL:3610 Introduction and Practicum: Music 2 s.h.
Experience observing and assisting music teachers and students in elementary or secondary schools; at least one hour per week in the school plus on-campus class meetings. Requirements: admission to TEP.

EDTL:3620 Methods and Materials: General Music 3 s.h.
Methods for teaching general music in elementary and secondary schools. Prerequisites: EDTL:3610.

EDTL:3635 Instrumental Conducting 3 s.h.
Advanced skills for instrumental conducting, score analysis, rehearsal techniques, literature selection. Prerequisites: MUS:3625. Same as MUS:3635.

EDTL:3640 Choral Methods 3 s.h.
Organization, implementation of effective choral music programs for all ages. Prerequisites: EDTL:3610. Same as MUS:3640.

EDTL:3645 Choral Conducting and Literature 3 s.h.
Advanced skills appropriate to choral conducting, analysis, literature selection studied and implemented to develop a secure approach to choral art; students preparing to teach in the elementary or secondary schools must register under EDTL:3645. Prerequisites: MUS:3625. Same as MUS:3645.

EDTL:3650 Instrumental Methods and Materials 3 s.h.
Elementary and secondary instrumental music methods course required for K-12 music teacher certification. Prerequisites: EDTL:3610. Same as MUS:3650.

EDTL:3715 Experiential Teaching and Learning 3 s.h.
Introduction to practice of experiential learning and teaching; students create and lead experiential activities in formal and informal learning environments; exploration of factors that impact the value of an experience and assess impact; integration of multiple disciplines and perspectives in a collaborative manner; skills for processing and guiding reflection to determine outcomes of experiences; work collaboratively to design, plan, execute, and determine outcomes of an experience for a target population.

EDTL:3905 Teaching Deaf and Hard of Hearing Students 3-4 s.h.
Issues in d/Deaf education; management techniques, communication strategies, teaching strategies, instructional materials, hands-on activities, assessments, parent involvement; use of technology, ethnic and cultural diversity, classroom management, pre-reading techniques, literacy development, educational program options. Taught in English and/or American Sign Language. Requirements: for 4 s.h. option—concurrent enrollment in ASL:2002, if not taken as a prerequisite. Same as ASLE:3905.

EDTL:3915 Introduction: Strategist I (Elementary) 1-2 s.h.
Teaching students with mild disabilities in elementary resource placements; current trends and issues, basic and theoretical approaches, implications of federal and state statutes, multidisciplinary team approaches to providing appropriate educational programming; students complete a practicum with an elementary special education teacher. Requirements: admission to TEP.

EDTL:4021 Science for High Ability Students 1 s.h.
Unique challenges and opportunities confronted by teachers of students with above average ability and interest in science; theory and practice; development of program outlines for science programs.

EDTL:4022 Math Programming for High Ability Students 1 s.h.
Unique challenges and opportunities confronted by teachers of high-ability students; theory and practice, development of program outlines for implementation. Same as PSQF:4122.

EDTL:4023 Twice-Exceptionality Support Seminar 1 s.h.
Areas and issues that typically impact students diagnosed as twice-exceptional in college (specifically autism spectrum disorder); focus on navigating campus and services, communication skills (social and academic based), stress management, executive functioning skills, career and job seeking skills. Same as BBC:4023.

EDTL:4025 Differentiated Instruction for Advanced Learners 1 s.h.
Introduces the concept of a differentiated classroom for K-8 advanced learners for preservice and practicing educators. Specific content relates to understanding the foundation of differentiation, preparing for facilitating a differentiated classroom, establishing routines and classroom management, and sharing instructional strategies to engage advanced learners. Same as BBC:4025.

EDTL:4026 Language Arts for Advanced Learners 1 s.h.
Explores the purposes and methods of language arts instruction with focus on the developmental, social, and emotional needs of high-ability readers featuring the key components and elements necessary for an advanced language arts program in grades K-8; includes criteria for developmentally appropriate literature and grammar with an overview of the role of writing and composition. Prerequisites: EDTL:3095 or EDTL:3160 and EDTL:3164. Same as BBC:4026.

EDTL:4029 Developing Leadership Skills for Gifted and Talented Students, K-12 1 s.h.

EDTL:4031 Belin-Blank Talent Development Fellowship 1-2 s.h.
Content is approached as a survey of concepts, ideas, and issues pertinent to the development of talent (and its potential) in K-12 students. Key course content includes acceleration, appropriate curriculum and instruction, assessment and identification, collaborating with staff and families, differentiation, diverse student populations, social and emotional needs, and research. Same as BBC:4031.

EDTL:4032 Middle School Curriculum, Methods, and Practicum 3 s.h.
Junior high and middle school development compared; characteristics of exemplary programs, disciplinary and interdisciplinary trends; variety of teaching methods (group and individual); hands-on activities. Requirements: admission to TEP.

EDTL:4033 Talent Development in the Arts and Athletics: Models and Methods 1 s.h.
Examines multiple general and domain-specific talent development models relevant to arts and athletics. Students will consider the roles of nature and nurture, the role of the teacher/coach, and the use of creativity while weighing the impact these have on the development of talent. Students will analyze how these talent development processes have played out in the lives of individuals eminent in the arts and athletics. Same as BBC:4033.

EDTL:4035 Talent Development in the Arts and Athletics: Psychosocial Trials and Benefits 1 s.h.
Students will understand and integrate the multiple psychosocial issues (both trials and benefits) experienced during varying stages of the talent development process, including practice, perfectionism, anxiety, failure, shame, motivation, leadership, asynchrony, competition, multipotentiality, performance, grit, and intensities. Students will analyze how these psychosocial issues impacted the talent development process in the lives of individuals eminent in the arts and athletics. Same as BBC:4035.

EDTL:4065 Social Studies for High-Ability Learners 1-2 s.h.
Intersection of unique challenges presented by talented students and challenges of designing, implementing, and assessing quality inquiry-based social studies instruction; background in social studies or social studies education not required.

EDTL:4066 Curriculum and Programming for Advanced Learners 3 s.h.
Designed to assist preservice educators, inservice educators, and anyone interested in curriculum and program development, design, and delivery of qualitatively differentiated experiences in the context of responding to the needs of advanced learners. Primary focus is on research-based curriculum models and programming for advanced learners from experts in the field. Same as BBC:4066.

EDTL:4067 Conceptions of Talent Development 3 s.h.
Students review conceptions of talent development and explore possibilities for appropriate programming in specific fields across various stages in life; traditional opportunities in gifted education programs; stages of development in early childhood; development of knowledge and skills in addition to and beyond organized educational programs. Same as BBC:4067.

EDTL:4072 Thinking Skills 1 s.h.
Factors involved in teaching thinking skills as a total concept; the relationship of critical and creative thinking; review of published programs.

EDTL:4073 Programming/Curriculum for High Ability Students 1 s.h.
Programming and curriculum for K-12 students identified as gifted or highly able; in-class differentiations, special projects for pull-out programs, facilitating research projects, mentoring in advanced programming.

EDTL:4074 Differentiation at the Secondary Level 1 s.h.
Importance of differentiation for gifted learners in middle school and high school; differentiation through advanced placement programs as well as broader perspectives on differentiation; essentials for differentiation understood and applied to a lesson that will be implemented with students. Same as BBC:4074.

EDTL:4075 Topics in Talented and Gifted Programming arr.
Examination of various topics that allow educators to implement strategies for helping high-potential students succeed in gifted/talented programs.

EDTL:4083 Talented and Gifted Enhanced Field Experience 1-3 s.h.
Experience working with and/or observing gifted students; development of curricular materials; course is not the required practicum experience for talented and gifted (TAG) endorsement, but counts toward required total hours and provides a valuable learning opportunity to consider best practices for the age level students will be teaching.

EDTL:4085 Current Readings and Research in Gifted Education 1 s.h.
Research in the field of gifted education and talent development; applications of research to ensure best practices in providing services and programs for high-ability learners.

EDTL:4087 Seminar: Curriculum and Student Teaching 1-3 s.h.
Discussions, role-playing, group and individual reports, analysis of critical incidents, classroom management, videotapes of student classroom performance pertinent to participants' student teaching experiences. Requirements: student teaching.

EDTL:4089 Special Subject Area Student Teaching arr.
Supervised teaching experience in a single subject in grades 1-6.

EDTL:4091 Observation and Laboratory Practice in the Secondary School arr.
Student teaching experience in performing the duties of regular classroom teachers under supervision of experienced personnel in secondary schools.

EDTL:4092 Observation and Laboratory Practice in the Secondary School arr.
Continuation of EDTL:4091.

EDTL:4093 Teaching and Learning for a Global Perspective 3 s.h.
Examination of conceptualizations and themes, along with theories, strategies, and resources that can inform teaching and learning for global competence education in all disciplines; teaching for prejudice reduction and education for informed and responsible global citizenship; creation of a standards-based curriculum project; designed for practicing teachers.

EDTL:4096 Topics in Teaching and Learning arr.

EDTL:4098 Costa Rica YOULEAD: Youth Outdoor University for Leadership, Environment, Self-Awareness Development 3 s.h.
Project YOULEAD is a two-week intensive language and culture studies program in Costa Rica. Students are assigned to one of three sites in Costa Rica: Uvita, Cortes, or Puerto Jimenez. Students teach English to 20 students, ages 14-18, at the assigned site for the duration of the program, ending in a whole group day where all sites come together for a day of learning. Students are supported by two faculty/staff at each site. Opportunities exist both inside and outside the classroom to engage in learning about Costa Rica's culture, history, and natural ecosystems. Group meetings occur daily after site visits to discuss, debrief, reflect, and plan for the next day.

EDTL:4137 Introduction to Educating Advanced Learners 3 s.h.
Survey of critical topics and issues related to advanced learners and meeting their needs through a research-based, best practice lens. Topics include key terms and definitions, standards, characteristics of advanced learners, social and emotional needs, assessment, acceleration, enrichment, diversity of learners, and accessible programming. Highlights the expertise of leaders in the field to provide current thinking and evidence-based practices on important topics related to advanced learners and meeting their needs. Same as BBC:4137, CSED:4137.

EDTL:4153 Collaboration Between Advanced Academics and General Education 1 s.h.
Examining the need for differentiated learning experiences throughout the school day for advanced learning and the combined effort among varied staff to accomplish this. Specific content related to how classroom teachers and gifted/talented resource teachers can collaborate to provide appropriate instructional services, collaborative models, the planning process, and recommendations for both direct and indirect services. Requirements: internet access. Same as BBC:4153.

EDTL:4171 Diversity and Exceptionalities in Literacy Instruction 3 s.h.
Elaborates on content from EDTL:3160 and EDTL:3164; issues in theoretically sound reading and writing assessment, instruction in K-8 classrooms where local, state, and national goals play increasing roles; reading and writing processes; teaching and learning of reading and writing; focus on role of language and conversation in learning, content area reading instructional strategies, classroom-based reading and writing assessment, special issues in teaching, and learning with textbooks. Prerequisites: EDTL:3190 with a minimum grade of C- and EDTL:3002 with a minimum grade of C- and EDTL:3160 and EDTL:3164.

EDTL:4187 Effective Teaching Strategies for the Elementary Teacher: Student Teaching Seminar 3 s.h.
Provides student teachers with a structured, consistent forum to critically examine and engage in professional dialogue related to the process of becoming a teacher; draws on personal classroom experiences as well as theories and ideas about education studied throughout the teacher education program; guided by the InTASC Model Core Teaching Standards and the Iowa Teaching Standards, students study and discuss principles of effective teaching practice that lead to improved student achievement; as students work through components of planning, instruction, assessment, and lesson reflection, they complete a Teacher Performance Assessment (edTPA). Requirements: elementary education major in student teaching semester.

EDTL:4188 Practicum in Teaching and Curriculum for Advanced Academics 1-6 s.h.
Completion of product for TAG endorsement. Same as BBC:4188, CSED:4188.

EDTL:4189 Practicum in Talent Development and Advanced Academics 1 s.h.
Combines readings, discussions, field experiences, and reflections. Finish developing a guided, interest-based culminating product for the TAG Endorsement. Same as BBC:4189.

EDTL:4190 Supervised Teaching in the Elementary School: Interactive Phase arr.
Student teaching at the elementary level (K-9). Corequisites: EDTL:4091. Requirements: application to the Office of Teacher Education and Student Services.

EDTL:4191 Supervised Teaching in the Elementary School: Pre- and Post-Active Phase arr.
Corequisites: EDTL:4190. Requirements: application to the Office of Teacher Education and Student Services.

EDTL:4192 Special Area Student Teaching arr.
Supervised teaching and observation in specific areas of elementary curriculum.

EDTL:4193 Independent Study arr.
Requirements: senior standing.

EDTL:4199 Program Models in Gifted Education 3 s.h.
Development and refinement of preservice and inservice educators' understanding of academic programs; needs of gifted and talented students, including diverse and often underrepresented groups of students; rationale for and implementation of a comprehensive program model for gifted students. Requirements: internet access.

EDTL:4314 Introduction and Practicum: Secondary English 3 s.h.
Experience observing and assisting English or speech teachers and students in secondary schools; 12 hours per week in the school plus on-campus class meetings.

EDTL:4315 Learning to Teach Secondary English/ Language Arts and Field Experience 3 s.h.
Organizational techniques, methods, materials for teaching high school English; experience in simulated teaching situations during laboratory sessions, integrated with lectures and discussions. Prerequisites: EDTL:4314. Same as ENGL:4810.

EDTL:4355 Approaches to Teaching Writing 3 s.h.
Theories, practices, strategies, and history of writing and teaching writing. GE: Engineering Be Creative. Same as CNW:4355.

EDTL:4392 Voice, Drama, and Debate in the Secondary Schools 3 s.h.
Introduction to elements of classical and contemporary rhetoric, the art of debate, oral interpretation and public speaking, dramatic methods in the classroom, and theater management; important issues and vocabulary of drama and debate including literary, theatrical, pedagogical, and sociohistorical concepts and terms; importance of classical rhetorical strategies and their relevance in the political realm; students work through drama, the creative process of playwriting, acting, designing, and staging a play.

EDTL:4393 Critical Media Studies and Production in Secondary Schools 3 s.h.
Introduction to teaching media in secondary schools; preparation to teach critical media literacy, media law and ethics, forms of journalism writing, and production process; emphasis on essential role of media in a democratic society; exploration of instructional strategies and organization practices to guide secondary students to think critically as media consumers and producers; students write and produce their own texts and experience processes to strengthen understanding of learning standards for secondary media students—communication, collaboration, creativity, and critical thinking.

EDTL:4394 Secondary Reading Instruction 2-3 s.h.
Methods and materials used in teaching developmental reading in all junior and senior high school content areas. Prerequisites: EDTL:4314.

EDTL:4406 World Language Practicum I 3 s.h.
Skill development for teaching languages in the early grades; curriculum design, test creation, microteaching with inservice teachers. Prerequisites: EDTL:4410. Corequisites: EDTL:4416.

EDTL:4407 World Language Practicum II 3 s.h.
Practice in lesson design, classroom management techniques, evaluation skills during work with inservice world language teachers. Prerequisites: EDTL:4410. Corequisites: EDTL:4417.

EDTL:4410 Language, Power, and Multilingual Education 3 s.h.
Language learning and teaching in multicultural classroom with focus on pedagogy, policy, and equality for multilingual learners. GE: World Language and Cultural Exploration.

EDTL:4416 Learning to Teach Second Languages I 3 s.h.
Approaches, methods, and techniques of teaching the modalities of listening, speaking, reading, and writing in a second language. Corequisites: EDTL:4406.

EDTL:4417 Learning to Teach Second Languages II 3 s.h.
Curriculum design, classroom management, student evaluation, technology, using context to teach culture in second languages. Prerequisites: EDTL:4410 or EDTL:6483. Corequisites: EDTL:4407.

EDTL:4418 ESL Practicum I 4 s.h.
Skill development for teaching English as a second language; curriculum design, test creation, microteaching with inservice teachers.

EDTL:4467 Methods: ESL and Bilingual Education 4 s.h.
Exploration of approaches, methods, and practices in teaching English to speakers of other languages in K-12 school settings; communicative and content-based approaches to language learning with practical application of theory and research; issues concerning linguistically diverse learners covered with pedagogical implications; skills in teaching approaches for English language learners; lesson and unit planning, materials evaluation and adaptation, and assessment for placement, diagnosis, exit, and evaluation of English language learners.

EDTL:4498 Applied Linguistics and the Multilingual Classroom 4 s.h.
Theoretical and practical perspectives on the nature of language in education, its use and usage. Explores principles of discourse, phonology, morphology, syntax, and semantics as they relate to second language learning. Covers language varieties, social conventions, and linguistic structures. Focus on preparing pre-service teachers to best meet the linguistic and academic needs of bilingual English learner students in the K-12 classroom. Requirements: admission to TEP.

EDTL:4535 Methods: High School Mathematics 3 s.h.
Subject matter content, teaching and assessment techniques for grades 9-12 math; how students learn mathematics; mathematics curricular planning for all students. Prerequisites: EDTL:3534.

EDTL:4565 Mathematics in Management and Social Sciences 3 s.h.
Various real life applications of modern mathematics including management, decision-making, issue of optimization, methods for optimal scheduling, voting methods, game theory, error checking, and other related strategies.

EDTL:4630 Psychology of Music 2-3 s.h.
Cognition of music, affective response, aesthetic response, musical ability. Same as MUS:4630.

EDTL:4640 Introduction to Music Research 2-3 s.h.
Preparation for conducting research on music behavior.

EDTL:4750 Assessment in Science, Technology, Engineering, and Mathematics (STEM) 2 s.h.
Assessment used to evaluate teaching and learning in K-12 mathematics and science; formative and summative assessments; constructing assessment; methods to assess student knowledge in a classroom setting; culturally responsive assessment.

EDTL:4751 Learning in the Science, Technology, Engineering, and Mathematics (STEM) Classroom 2 s.h.
Meaningful learning experiences in preparation to create effective science learning environments for secondary school age students and construct a vision as teachers of secondary science; opportunities to delve into contemporary learning theories and examine ways that learning theories explain the learning process as negotiated within a classroom.

EDTL:4752 Secondary Science Methods II With Field Experience 3 s.h.
Developing, writing, and orally defending a robust research-based framework for teaching science that includes student goals, student actions, content, materials, activities, teaching behaviors and strategies, contemporary learning theories, self-evaluation. Prerequisites: EDTL:4751.

EDTL:4753 Secondary Science Methods III With Field Experience 3 s.h.
Articulating, experiencing, practicing a research-based framework for teaching science in the real world of students, schools, teaching. Prerequisites: EDTL:4752. Corequisites: EDTL:4779.

EDTL:4779 Secondary School Science Practicum arr.
Supervised teaching experience in a single subject; secondary school setting.

EDTL:4811 Introduction and Practicum: Secondary Social Studies 3 s.h.
Experience observing and assisting social studies teachers and students in secondary schools; nine hours per week in the school plus on-campus class meetings. Requirements: admission to TEP.

EDTL:4828 Curriculum and Teaching: Social Studies Education 3 s.h.
Prepares teacher candidates to take a critically relevant approach to planning and teaching social studies content. Students engage in an examination of theoretical and practical frameworks for teaching with multiple and global perspectives in social studies content areas. Special attention is paid to making interdisciplinary curricular connections among local, national, and global issues. There is a sustained focus on teaching writing in social studies classrooms. Prerequisites: EDTL:4811.

EDTL:4870 Methods: Secondary Social Studies 3 s.h.
Analysis of the teaching-learning process; organization of social studies content for teaching purposes; evaluation of learning procedures and new strategies; practicum work includes microteaching, computer-assisted modules, lesson plan development, writing test items.

EDTL:4900 Foundations of Special Education 3 s.h.
Students with disabilities, gifted and talented; strategies for effective treatment, collaboration between regular and special education teachers; remediation of academic, behavioral, social problems. GE: Understanding Cultural Perspectives.

EDTL:4922 Supervised Teaching: Elementary Strategist I 6 s.h.
Student teaching at the elementary level in a program for students with mild to moderate disabilities. Requirements: elementary education major.

EDTL:4934 Parent-Teacher Communication 1-3 s.h.
Realities of working with parents; interpersonal skills; options for parent support services. Same as PSQF:4134.

EDTL:4936 Home/School/Community Partnerships 3 s.h.
Issues related to collaboration among families, educators, community members in implementing school programs. Same as PSQF:4136.

EDTL:4940 Characteristics of Disabilities 3 s.h.
Etiologies of mild/moderate disabilities; current educational trends; educational alternatives; importance of multidisciplinary team; psychological and social-emotional characteristics of individuals.

EDTL:4950 Behavioral and Social Interventions 3 s.h.
Individual behavioral management, behavioral change strategies, and social interaction strategies, methods, and techniques for individuals with exceptional learning needs.

EDTL:4967 Integrated Disability Studies Practicum 2 s.h.
Hands-on, interactive experience to learn what is involved in working with young adult students with multiple learning and cognitive disabilities; four whole-group classroom sessions and required attendance at one UI REACH course.

EDTL:4975 Explicit Instruction 3 s.h.
Empirically supported methods for teaching reading and mathematics K-12 to students with mild-moderate disabilities; assessment and curricular adaptations to individual needs.

EDTL:4980 Dyslexia and Other Reading Difficulties: Instruction and Assessment 3 s.h.
Evidence-based practices to assess and teach reading to students with dyslexia and other reading difficulties. Methods for screening students for risk of reading disabilities and identifying reading skills for intervention and progress monitoring. Research-based strategies for explicit reading instruction in phonological awareness, phonics, reading fluency, vocabulary, and comprehension. Skills associated with assessment, instruction, intervention, and assistive technology for students with dyslexia, language comprehension difficulties, and mixed reading difficulties in grades K-8; designing lesson plans that incorporate reading strategies, practices, and assistive technology.

EDTL:4984 Academic Skills for Students With Special Needs 3 s.h.
Introduction to appropriate methodology for teaching academic skills to students with significant learning difficulties; how to teach students effectively regardless of the label that might be applied to them or the setting to which they might be assigned; effective application of classroom-based measurement, curriculum development, and instructional strategies for teaching academic skills to education students with special needs.

EDTL:4987 Introduction to Assistive Technology 3 s.h.
How assistive technology can be used for attainment of goals in education or work. Same as CSED:4187.

EDTL:4990 Interdisciplinary Issues in Disabilities 1-3 s.h.
Critical issues related to interdisciplinary delivery of services to persons with developmental disabilities; observation and participation in staffing and consultation; opportunity for related community experiences.

EDTL:5055 Academic Writing Workshop 3 s.h.
Drafting and workshopping academic papers including dissertations, proposals, manuscripts, conferences, and courses; discussions center on cross-disciplinary perspectives about academic writing processes and discourses; rhetorical considerations in academic writing; audience and readership within and across disciplines; clear and effective communication of data; writing choices, styles, and tones; students set writing goals and projects.

EDTL:5065 Talent Development Capstone Exploration 2 s.h.
Develop and complete a capstone exploration project relevant to a school or other context that focuses on an important topic or issue in talent development. Requirements: completion of all coursework for the graduate Certificate in Talent Development. Same as BBC:5065.

EDTL:5080 Workshop: Teacher Training for Advanced Placement Courses 1-2 s.h.
Focus on a particular academic content area. Same as BBC:5080.

EDTL:5081 Facilitating Student-Centered Discussions 3 s.h.
Support for educators who want to create classroom environments that prioritize student voice and democratic exchange of ideas; theoretical approaches to classroom discourse and dialogic teaching; how linguistic and racial power inform and constrain discussion; students analyze their current classroom discourse practices through theoretical lenses, including how teachers and students are informed by historically dominant discourse norms and ways that discussion topics and issues are labeled as controversial.

EDTL:5083 Diagnostic Reading Instruction 3 s.h.
Examination of research, policies, and practices related to reading assessments and intervention for school-aged children and adolescents; key focus on translating theoretical foundations of reading into practice of designing targeted interventions for students with varying strengths and weaknesses in core reading components; activities provide an understanding of underlying principles of diagnostic reading instruction and field-based practice in administering, scoring, and interpreting reading assessments; making data-based decisions about instruction for individual and small groups of students. Requirements: admission to MA in teaching, leadership, and cultural competency program.

EDTL:5085 Generation Innovation: Technology Integration in 21st-Century K-12 Schools 3 s.h.
Exploration of the technology that shapes 21st-century U.S. schools, curriculum, and teacher professional development; examination of ways in which technology integration and use shapes student learning and identity development. Requirements: admission to MA program in teaching, leadership, and cultural competency.

EDTL:5087 Anti-Oppressive Literature Instruction 3 s.h.
Support for K-12 teachers in selecting, analyzing, and planning discussions about literary texts in support of anti-racist and anti-oppressive teaching and learning; educators and scholars committed to critical pedagogy and anti-racist and anti-oppressive education argue that reading and analyzing texts by and about people of color and historically marginalized groups is an essential part of equitable, democratic education; how education is never neutral; choosing an explicit anti-oppressive stance; recognizing literature's role in promoting equity and analyzing oppressive forces in education.

EDTL:5090 Diversity and Identity in K-12 Schools 3 s.h.
Advanced seminar on diversity- and identity-related issues in K-12 education for practicing teachers and K-12 professionals; students engage in regular self-evaluation of practices and develop deeper understanding of racism, sexism, classism, and other forms of oppression as they relate to the practices of K-12 teachers and schools; curricular and pedagogical decision-making, relative to impact on student identity. Requirements: admission to master's in teaching, leadership, and cultural competency program.

EDTL:5091 LGBTQ Topics in Education 3 s.h.
In spite of many challenges that lesbian, gay, bisexual, transgender, and queer-identified youth experience in U.S. K-12 schools, queer youth demonstrate agency and action as they create positive spaces and community for their identities; examination of the intersection of policy and practice with respect to queer identities at all levels of K-12 education; history of queerness in the U.S. with focus on the creation of the concept of compulsory heterosexuality and the manner in which this concept is reinforced in K-12 schools.

EDTL:5095 Issues in U.S. Schools 3 s.h.
Addresses critical questions facing American public schools, including governance, policy structures, and practices that have influenced teachers' professional instruction and students' school learning experiences. Requirements: admission to the MA in teaching, leadership, and cultural competency program.

EDTL:5099 Conducting School-Based Action Research 3 s.h.
Focus on teachers or administrators as change agents and researchers in schools/districts; scholarly approach to improving teaching and learning by way of an action research project. Requirements: completion of all MA in teaching, leadership, and cultural competency coursework.

EDTL:5104 Language Disorders in School-Aged Children 3 s.h.
Emphasis on elementary grades; usually taken in conjunction with EDTL:4192, which provides approximately 70 hours of supervised clinical practice in elementary schools. Recommendations: primarily for communication sciences and disorders majors. Same as CSD:5104.

EDTL:5222 Creativity, Imagination, Play, and Human Development Through the Arts 3 s.h.
Theories related to human development and visual arts; use of visual arts to make meaning from experience; ways to integrate visual arts into everyday life; cognitive and physical processes involved in making, understanding, and looking at visual art through studio experiences; theories of cognitive development; role of visual art in education; introduction to art production, history, criticism, and aesthetics.

EDTL:5600 Graduate Music Education Workshop 1 s.h.
For inservice music teachers; topics vary. Same as MUS:5600.

EDTL:5601 Graduate Music Education Workshop II 1 s.h.
Varied topics; for inservice music teachers. Same as MUS:5601.

EDTL:5610 Foundations of Music Education Curricula 3 s.h.
Curriculum development, instructional materials, analysis of current teaching methods and techniques in school music programs; historical foundations of music education.

EDTL:5961 Foundation of Applied Behavior Analysis 3 s.h.
Foundational knowledge in basic principles and philosophical assumptions of behavior analysis, behavioral terminologies, verbal operants, and measurement concepts; explicitly links theory of behavior to practical application (e.g., special education); one of seven courses needed to qualify for the Board Certified Behavior Analyst (BCBA) exam. Corequisites: EDTL:7953.

EDTL:5963 Ethics and Professional Conduct for Behavior Analysts and Psychologists 3 s.h.
Issues related to ethical and professional conduct of behavior analysts and school psychologists. Content aligned with BACB Professional Disciplinary and Ethical Standards and Guidelines for Responsible Conduct for Behavior Analysts, principles of professional ethics of the NASP, and ethical principles of the APA. Explores ethical conduct considerations for professionals conducting research or providing services to vulnerable populations. Ethical practices relate to working with individuals with autism spectrum disorders, developmental disabilities, and behavioral/emotional disorders. One of seven courses meeting requirements for board certification as a behavior analyst.

EDTL:5964 Behavior Analyst Practicum 1-4 s.h.
Development, implementation, and evaluation of techniques that produce behavior changes in clients; discussion of key issues related to techniques of applied behavior analysis; review of various theoretical, conceptual, historical, legal, and practical aspects of behavior analysis; provides a portion of the supervisory component as required by the Behavior Analyst Certification Board (BACB).

EDTL:5966 Advanced Topics in Applied Behavior Analysis 3 s.h.
Provides descriptions of important topics in applied behavior analysis (ABA); focuses on conceptual issues in ABA with a specific emphasis on radical behaviorism, the behavioral conception of language, and culture.

EDTL:5967 Supervision Strategies in Special Education 3 s.h.
Addresses the essential skills and knowledge needed for effective supervision in special education settings. Topics include working with paraprofessionals, maintaining constructive supervisory relationships, advanced techniques in parent training, behavioral consultation with teachers, cultural competency, telehealth applications, and school-based challenges. Prepares students for the diverse and evolving landscape of educational supervision.

EDTL:5970 Experimental Analysis of Behavior 3 s.h.
How the experimental analysis of behavior plays a pivotal role in applied behavior analysis. Overview foundational technologies, methods, and research findings to gain a comprehensive understanding of behavior analysis principles and their practical application.

EDTL:6015 PhD Seminar: Literacy, Culture, and Language Education 3 s.h.
Exploration of theoretical and epistemological foundations in literacy, culture, and language education; exposure to diverse disciplinary and interdisciplinary foundations that inform literacy education, cultural studies, multilingual education, and social studies education; goal is for students to identify a disciplinary and interdisciplinary focus that will inform their research.

EDTL:6164 Early Literacy Development and Instruction 2-3 s.h.
Understanding of early reading and writing experiences; relationship of reading to other communication areas; knowledge of instructional approaches, techniques, materials, assessment procedures; interrelationship of home and school experiences; identification of current and crucial issues and relevant research.

EDTL:6165 Reading and Writing Across Intermediate Grades 3 s.h.
Issues in teaching, learning, and assessment of students grades 4-9; fostering positive literate identities, literacy engagement, strategies for reading, writing, and critically responding to texts in a range of genres and formats and across content areas.

EDTL:6171 Advanced Reading Clinic Techniques 2-3 s.h.
Instructional procedures for children and early adolescents with severe learning problems in reading; causes of reading disorders; educational prognosis for severely disabled readers. Corequisites: EDTL:6172.

EDTL:6172 Advanced Reading Clinic Practicum 2-3 s.h.
Practice in selecting and using instructional procedures that address the needs and interests of struggling literacy learners, with emphasis on teaching to students' strengths; how to fit clinical teaching techniques into an overall literacy instructional program. Corequisites: EDTL:6171.

EDTL:6267 Seminar: Current Issues in Art Education 3-4 s.h.
Analysis of literature in art education and related disciplines. Same as ARTE:6267.

EDTL:6293 Individual Instruction arr.

EDTL:6315 MA Seminar: English Education arr.
Significant developments in English education; primary and collateral readings. Same as ENGL:6315.

EDTL:6393 Master's Thesis arr.

EDTL:6400 Fundamentals of Second Language Assessment 3 s.h.
How to write language tests; discussion of fundamental issues in development of new tests or selection of existing tests.

EDTL:6403 Language Policy and Planning 3 s.h.
Theoretical foundations, research methods, and findings in language policy and planning research; consideration of local, national, and international language policies; multiple disciplinary perspectives on language policy including linguistics, political science, law, and sociology.

EDTL:6409 Cultural Curriculum 3 s.h.
Culture's role in foreign/second language teaching; definition, pedagogy, assessment, and materials that allow culture to be taught and learned.

EDTL:6480 Graduate Seminar in Multilingual Education 3 s.h.
Theoretical perspectives of pivotal research issues at the forefront of world language education; systems available to world language professionals for disseminating research.

EDTL:6483 Multilingual Education and Applied Linguistics 3 s.h.
Introduction to research in language teaching and learning, drawing on theories and research in applied linguistics, sociolinguistics, anthropology, and psychology; students gain understanding of fundamentals in second language acquisition, educational linguistics, applied linguistics, and methods used in teaching and learning second/foreign languages; applications and implications of research considered when reviewing multilingual education policy and practice. Same as ASIA:6483, SLA:6506.

EDTL:6484 Bi/Multilingual Literacies 3 s.h.
Critical sociocultural perspectives on literacy, including dynamic literacies people practice to read the word and the world; examination of theoretical, practical, and empirical research that discusses the political, ideological, cultural, and historical nature of bi/multilingual literacy learning.

EDTL:6486 Sociolinguistics in Education 3 s.h.
Investigate how social, cultural, and political forces influence language use in communities and classrooms. Topics include language contact, language ideology, dialectology and African American language, discourse analysis, communicative competence, language socialization, and language policy and planning. Specific cases from around the world are considered including interrogation of how minoritized languages and their speakers are marginalized in schools and communities. Same as LING:6486.

EDTL:6497 Principles of Course Design for Second Language Instruction 3 s.h.
Contemporary views of second language curriculum design; guidelines necessary for the creation of prototypical curriculum units to be transposed into classroom-ready forms; for individuals interested in world language materials development.

EDTL:6536 Teaching of Geometry 2-3 s.h.
Current developments in teaching middle school/junior high and high school geometry; selection, organization of content; research on teaching and learning.

EDTL:6563 STEM Through Mathematical Modeling 3 s.h.
Prepares potential STEM teachers or in-service teachers who want to develop integrated STEM learning environments to learn mathematical modeling as an interdisciplinary instructional approach; mathematical modeling practice to learn and teach mathematics, science, engineering, and technology focused on students' understanding of new concepts from an individual knowledge basis; engagement in problem-based learning where individuals develop conjectures, critique arguments, and revise ideas to reach conclusions; students will understand how people learn new concepts and how teachers should provide adequate learning environments for students to learn and understand the core concepts of STEM.

EDTL:6570 Foundation of School STEM Curriculum 3 s.h.
Elementary and secondary background developments in school and science, technology, engineering, and mathematics (STEM) curriculum; definitions, historical perspectives, reform, theories of knowledge, implementation, evaluation, international perspectives, issues in STEM curriculum.

EDTL:6600 Individual Projects in Music Education 1-2 s.h.
Projects of special concern to individual music teachers in public schools.

EDTL:6757 Learning in the Science Classroom 2-3 s.h.
Assumptions about learning and about learning theories and their impact on pedagogical actions; how some concepts are planned and implemented.

EDTL:6758 Writing in the Science Classroom 3 s.h.
Literacy in the science classroom; theoretical and pedagogical perspectives; practical classroom activities that lead to effective writing and increased learning.

EDTL:6759 Advanced Pedagogy 3 s.h.
Theoretical and practical perspectives on pedagogy; how to assess practice, provide feedback, and build learning pathways for teachers.

EDTL:6761 STEM Research and Leadership Seminar 3 s.h.
Broad overview of research supporting new and innovative teaching practices in STEM disciplines and integrated STEM learning; focus on relevant journals related to STEM learning and teaching; students will summarize, critique, and discuss a variety of research perspectives and articles and describe how the information relates to their current teaching; students explore ways to improve their STEM pedagogical and instructional practices and methods for assessing critical student outcomes; students develop awareness of research that provides a foundation for effective STEM teaching and learning and strategies for implementing research supported practices in STEM learning contexts of all types.

EDTL:6762 STEM Experiential Learning 3 s.h.
Overview of research supporting new and innovative teaching practices in STEM disciplines and integrated STEM learning; focus on problem-based and experiential learning curriculum, instruction, and assessment by engaging in authentic experiences and reflecting on how these influence practice and student learning; facilitates ability to solve real world STEM problems of interest to students and community through engagement with community partners; assists students to acquire and demonstrate 21st-century competencies the STEM workplace identifies as critical; provides authentic, meaningful, and cross-curricular experience in facilitating student engagement in real-world situations.

EDTL:6764 STEM Extracurricular Experience and Capstone 6 s.h.
Engages teachers in STEM experience outside the traditional classroom; provides 90-hour STEM inclusive experience coupled with a capstone project; engagement with STEM community leaders, business partners, or outreach leaders to develop a plan for participation in and investigation of a STEM related experience; may work with a STEM extracurricular activity in a school or university, a STEM related business or industry partner, or a STEM related grant funded project through a university; course completion is accomplished through a capstone sharing of their experience, how the experience has solidified their understanding of STEM, and how the experience will impact their classroom activities.

EDTL:6765 STEM Independent Research 3 s.h.
Opportunity to develop an independent research project and explore a STEM education question of personal interest; students design and carry out research in an authentic STEM learning environment, collect and analyze data, develop claims and conclusions based on their research, present findings, and develop a plan for utilizing findings to improve STEM education learning environments. Prerequisites: EDTL:6761.

EDTL:6766 Physical Science Topics in STEM Education 3 s.h.
Increase knowledge of physical science content in a form that is relevant to education standards, such as Next Generation Science Standards (NGSS), and connected to engaging and contemporary issues in physical science; weekly expectations differentiated to provide opportunities for deepening knowledge of science; students gain insight into teaching science and work together to think critically on the conceptual basis of subject matter appropriate for learners in their context; for educators at all levels (e.g., elementary, secondary, informal settings).

EDTL:6767 Systems Thinking in Biology and Integrated STEM Education 3 s.h.
Preparation for potential STEM or in-service teachers who want to design integrated STEM learning environments and cultivate students' systems thinking skills; emphasis on computational modeling environments in biology education; how to craft problems based on principles derived from primary literature on systems thinking and STEM educational research; no programming experience required or expected. Recommendations: general background in biology, chemistry, and physics.

EDTL:6833 History and Foundations of Social Studies Education 3 s.h.
Historical, philosophical, social foundations of social studies education; recent debates over content and instructional processes; student research proposals.

EDTL:6840 Theories and Perspectives in Global Education 3 s.h.
Examination of theories and perspectives within global education that help to understand historical and contemporary social, political, economic, and cultural issues; relationship to international studies, international education, global cultures, human rights, social justice, and other areas; interaction with global educators who conduct research and/or teach in institutes of higher education around the world.

EDTL:6841 Attaining a Global Perspective 2-3 s.h.
Rationales, conceptualizations, and themes in global perspectives in education, implications for curriculum change; elements of perspective consciousness, cultural universals, cultural diversity, cross-cultural awareness, global systems, global history, global issues; application and evaluation of ideas within fields of study and varied teaching situations.

EDTL:6906 Practicum With Exceptional Persons arr.
Practicum experience with students with disabilities; experiences differ depending upon student's program of study. Prerequisites: EDTL:4975 or EDTL:7953.

EDTL:6907 Elementary Practicum With Exceptional Persons 1-5 s.h.
Provides trainees with experience administering behaviorally-based supports for children with developmental disabilities in relation to challenging behavior, academic skills, and adaptive behavior in elementary school settings. Offers supervised experience related to licensure requirements in special education and certification requirements in applied behavior analysis.

EDTL:6908 Secondary Practicum With Exceptional Persons 1-5 s.h.
Provides trainees with experience administering behaviorally-based supports for children with developmental disabilities in relation to challenging behavior, academic skills, and adaptive behavior in secondary school settings. Offers supervised experience related to licensure requirements in special education and certification requirements in applied behavior analysis.

EDTL:6909 Seminar: Graduate Supervised Teaching 1 s.h.
For students enrolled in graduate student teaching practicum. Requirements: special education major.

EDTL:6936 Special Education Administration 3 s.h.
Builds a foundation of dispositions, knowledge, and skills for tasks performed by directors of special education, building leaders, and administrators, when supervising needs of special education students and economically and socially deprived students; knowledge and application of legal aspects, individual educational programs, and continuum of academic and social/emotional behavior supports; for prospective school administrative personnel. Same as EPLS:6236.

EDTL:6950 Strategist I Student Teaching: Elementary arr.
Student teaching in an elementary mild and moderate special education program.

EDTL:6951 Strategist I Student Teaching: Secondary arr.
Student teaching in a secondary mild and moderate special education program.

EDTL:6953 Strategist II Student Teaching: Elementary arr.
Student teaching in K-8 learning disabilities or behavior disorders.

EDTL:6954 Strategist II Student Teaching: Secondary arr.
Student teaching in secondary learning disabilities or behavior disorders.

EDTL:7004 Schooling in the United States 3 s.h.
Governance, finance, and policy structures that have influenced teaching and learning in public schools.

EDTL:7008 Seminar: Research and Current Issues arr.
Review of literature, critical analysis of reported research, and study of current issues and problems for a specific curricular area; topics vary.

EDTL:7015 PhD Seminar in Language, Literacy, and Culture arr.
Historical, recent research and theory in literacy education; topics vary.

EDTL:7033 Seminar on Teacher Education 3 s.h.
History, structure, and politics of teacher education; current practice and agendas for reform; new developments in teacher assessment.

EDTL:7040 Advanced Topics in Teaching and Learning arr.
Topics vary.

EDTL:7070 Qualitative Research Methods in Teaching and Learning 3 s.h.
Conceptual and practical exploration of qualitative research design methods, including data collection, analysis, and reporting; understanding proposal writing.

EDTL:7071 Critical Discourse Analysis in Educational Research 3 s.h.
Critical discourse analysis (CDA) as theory and method; social and power relations, identities, and knowledge through written, visual, and spoken texts in social settings, such as schools, families, communities; theoretical and methodological traditions of CDA in educational research; critical approaches to analyzing spoken, written, and visual texts. Prerequisites: EDTL:7070 or PSQF:7331 or EPLS:7373 or CSED:7338.

EDTL:7072 Advanced Methods of Literacy Research: Qualitative Data Analysis and Reporting 3 s.h.
Advanced course in traditional and contemporary qualitative data analysis methods and varied forms of reporting to understand, critique, and conduct research about literacy learning and teaching. Prerequisites: CSED:7338 or EDTL:7070 or EPLS:7373 or PSQF:7331.

EDTL:7073 Ethnographic Methods, Theories, and Texts 3 s.h.
Practical and theoretical background for conducting ethnographic field studies in literacy, schooling, language, or a field of student's choice; methods, methodologies, and perspectives from anthropology, sociology, folklore, journalism, literary criticism, cultural, critical, and composition theory; read historical and contemporary ethnography, consider ethnographic forms of expression (films, graphics, fiction, poems); roles, responsibilities, and ethics of writer, reader, viewer, and informant; tools, methods, and writer's techniques to develop an ethnographic portfolio. Prerequisites: PSQF:7331 or EDTL:7070 or CSED:7338 or EPLS:7373. Same as CNW:7073.

EDTL:7092 Field Service Project arr.
Individual field service project in a specific curricular area; for advanced students.

EDTL:7093 Research Project arr.
Individual research projects in a specific curricular area; for advanced students.

EDTL:7165 Reading Clinic: Supervision arr.
Supervised experience in guiding and improving teacher performance in clinical practicums.

EDTL:7380 Practicum in College Teaching arr.
Supervised college teaching experience in courses related to major academic areas; collaboration with faculty course instructors.

EDTL:7385 Teaching and Learning in Higher Education 3 s.h.
Current theoretical and empirical literature on teaching and learning in higher education; focus on development of effective teaching practice. Same as CSED:7385, EPLS:7385, GRAD:7385, PSQF:7385.

EDTL:7405 Research Methods in Literacy, Culture, and Language Education 3 s.h.
Overview of common research methods and paradigms used to study literacy, culture, and language teaching and learning and related fields; discussing readings and other texts by contemporary researchers; processing and applying concepts from qualitative, quantitative, and mixed methods research approaches; considering critical perspectives on educational research methods; designing a rigorous research study on a topic of student's choice; speaking and writing with confidence about research methods used in other studies.

EDTL:7406 Proposal Writing for Second Language Research 3 s.h.
Procedures and techniques for writing research proposals at the doctoral level; written research proposal dealing with a question in second language teaching and learning.

EDTL:7410 Mixed Methods Research 3 s.h.
Introduction to mixed methods research in education; knowledge and skills necessary to conduct mixed methods study; history and language of mixed methods research; identifying and processing arguments for and against mixed methods research; critical and justice-oriented perspectives on mixed methods research; strengths and weaknesses of published mixed methods studies; application of one or more mixed methods research designs to a research proposal. Requirements: formal introduction to quantitative and qualitative research methods, and familiarity with basic steps of research process. Recommendations: direct experience conducting research studies not required. Same as EPLS:7392.

EDTL:7493 PhD Thesis arr.

EDTL:7535 Seminar: Research in Mathematics Education arr.
Analysis of current research, research methodology, curriculum developments in mathematics education; topics vary.

EDTL:7600 Seminar: Current Topics in Music Education 1-3 s.h.
Major areas of professional and research interest.

EDTL:7640 Advanced Research in Music Education 3 s.h.
Design, performance, analysis, and reporting of music research.

EDTL:7707 Research: Science Education arr.
Planning of individual research projects by MS and PhD students.

EDTL:7750 Seminar: Science Education 0-2 s.h.
Discussion of completed faculty and doctoral candidates' research, national issues, program features.

EDTL:7751 Advanced Qualitative Data Analysis 3 s.h.
Varied approaches to qualitative data analysis and philosophical foundations; analysis and interpretation of qualitative data; writing qualitative research findings. Prerequisites: EPLS:7373 or EDTL:7070 or PSQF:7331 or CSED:7338.

EDTL:7755 Independent Study in Science Education Research 2-3 s.h.

EDTL:7756 Research Apprenticeship in Science Education 3 s.h.
Practical experiences in science education research in a collaborative, team-oriented environment; apprenticeship model of instruction in which students' participation in authentic tasks and their learning are mutually constitutive; engagement in actual research practices to produce an empirically based product; development of expertise with some aspect of research methodology determined by instructor; for graduate students with interests in research or development based in K-16 contexts.

EDTL:7932 Field Service Project in Special Education Internship arr.
Part- or full-time experience as an intern in school districts or area education agencies; develops skills in supervision and administration of special education.

EDTL:7943 Proseminar: Issues, Trends, and Research in Special Education 2-3 s.h.
Conceptual and practical development of research across special education and related disciplines; empirical review of the literature; focus on professional writing skills.

EDTL:7944 Proseminar: Issues, Trends, and Research in Special Education II 2-3 s.h.
Recent research from a variety of special education areas reviewed by students; simulated comprehensive examinations. Prerequisites: EDTL:7943.

EDTL:7945 Current Issues and Trends in Learning Disabilities 3 s.h.
Readings and discussions of current issues and trends in learning disabilities (e.g., definition, prevalence, interventions, subtyping, assessment).

EDTL:7948 Contemporary Research in Behavioral Disorders 3 s.h.
In-depth analysis of current research in behavioral disorders; emphasis on evaluating its methodology and contribution to the field.

EDTL:7952 Seminar: Behavioral Assessment and Evaluation 3 s.h.
Broadens skills of graduate students who engage in research with exceptional persons; research designs are usually taught in the Department of Psychological and Quantitative Foundations, but because of the nature of handicapping conditions and the low incidence of some handicaps, the single-subject design yields better research information. Same as PSQF:7352.

EDTL:7953 Seminar: Single Subject Design Research 3 s.h.
Reviews of single subject research, development of student proposals; focus on special education, applied research.

Science Education Courses

SIED:3001 Introduction to Museum Studies 3 s.h.
Overview of museum history, function, philosophy, collection, and curatorial practices; governance and funding issues; exhibition evaluation and audience studies; examples from Stanley Museum of Art, Museum of Natural History, Old Capitol Museum, and Medical Museum. GE: Social Sciences. Same as ANTH:3001, EDTL:3001, MUSM:3001.

SIED:3164 Introduction to Global Socioscientific Challenges 3 s.h.
Engagement in scientific inquiry methods and exploration of the core principles and evidence underlying current knowledge regarding global socioscientific challenges like climate change and freshwater access. Opportunity to gain scientific literacy and interdisciplinary understanding of life, physical, and earth sciences, alongside skills in investigation, data analysis, and decision-making processes. GE: Natural Sciences without Lab; Sustainability.

SIED:4102 Societal and Educational Applications of Earth Science and Environmental arr.
Major ideas and principles of earth and environmental sciences; emphasis on common applications in today's world.

SIED:4103 Societal and Educational Applications of Biological Sciences arr.
Basic conceptual themes of biology, how they have been derived; emphasis on a current social issue related to biology.

SIED:4105 Societal and Educational Applications of Physical Sciences arr.
Major ideas of physics and how they have been derived; emphasis on how such ideas affect modern society.

SIED:4106 Societal and Educational Applications of Chemical Concepts arr.
Principles of chemistry as applied in industry, communication, daily living.

SIED:4110 Exploring the Geology, Mining History, and Environmental Issues of the Colorado Rockies 4 s.h.
Basic concepts of physical geology, historical, and environmental geology of the Rocky Mountains in context of mineral exploration, mining, and environment; collection of a teaching suite of basic igneous, sedimentary, and metamorphic rocks and rock forming minerals; scientific/educational photography, field inquiry, and curriculum development projects; students spend 10 days probing the mountains of Colorado for clues to its geologic past including mountains, seas, and volcanic activity; knowledge is tested in the field along with connecting the geology of Colorado with future teaching employment locations. GE: Natural Sciences with Lab; Sustainability.

SIED:4115 Directed Study arr.

SIED:4135 The Nature of Science 3-4 s.h.
Ideas on understanding and ways of thinking that are essential in a world shaped by science, technology, engineering, and mathematics; focus on increasing science literacy by examining the nature of science; comparison of characteristics specific to individual science disciplines; identification of great episodes and debates in history of science and habits that are essential for science literacy; scope and sequence of content and process skills for K-12 curriculum, instruction, and assessment.

Art Education, BA

Requirements

The Bachelor of Arts with a major in art education requires a minimum of 120 s.h., including the general education requirements for the degree, a minimum of 48 s.h. in art professional education courses, and a minimum of 33 s.h. in art education content courses. The general education requirements to earn a Bachelor of Arts degree from the College of Education are the GE CLAS Core of the College of Liberal Arts and Sciences (CLAS). The major requires admission to the Teacher Education Program (TEP) and students must maintain TEP academic and professional standards.

Students must earn a BA in art [p. 99] or a BFA in art [p. 99] in the School of Art, Art History, and Design at the University of Iowa in order to earn the BA in art education; both degrees may be earned at the same time. Graduates who have earned one of these degrees at another institution and wish to earn the BA in art education should consult the Department of Teaching and Learning; additional coursework may be required.

The art major provides a foundation in art history as well as an understanding of the formal traditions and contemporary practices in studio art. Students take courses in the school's studio art programs, including ceramics, graphic design, 3D design, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, and sculpture. Students also complete coursework in teacher licensure including student teaching.

For initial licensure, student teaching must be an all-day, full-semester experience. Most students are placed in a district within a 60-mile radius of Iowa City. Placements outside this area require special approval and are considered on an individual basis. Special site programs provide experience in districts with diverse populations and students also may apply to student teach at international sites for the second half of the semester.

Additional information about options for student teaching and application procedures is available from the Office of Student Services. Applications for student teaching must be submitted during the calendar year before the student teaching semester. The deadline for students planning to student teach the following fall semester is Nov. 15 and April 15 for the following spring semester.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

The BA with a major in art education requires the following coursework.

Professional Education Course Requirements

Students complete 48 s.h. from the following.

Foundation Courses

Foundation courses may be completed before or after admission to the major.

Course #	Title	Hours
All of these:		
EDTL:4900	Foundations of Special Education	3
EPLS:3000	Foundations of Education	3
PSQF:1075	Educational Psychology and Measurement	3

Additional Licensure Courses

Course #	Title	Hours
All of these:		
EDTL:2122	Creativity, Imagination, Play, and Human Development through the Arts	3
EDTL:3002	Teaching and Learning Technologies	2
EDTL:3091	Secondary Education Program Orientation and Classroom Management	3
EDTL:3095	Teaching Reading in Secondary Content Areas	1
EDTL:3143	Methods of Elementary Art and Field Experiences	3
EDTL:3204	Art Education Studio and Field Components	3
EDTL:3205	Methods of Secondary Art and Field Experience	3
EDTL:3290	Introduction and Practicum: Art	3
EPLS:4180	Human Relations for the Classroom Teacher	3

Student Teaching

Transfer students should consult their advisor since they must complete certain courses before they student teach.

Course #	Title	Hours
All of these:		
EDTL:4087	Seminar: Curriculum and Student Teaching	3
EDTL:4091	Observation and Laboratory Practice in the Secondary School	6
EDTL:4192	Special Area Student Teaching	6

Mathematics Course

State standards for teacher preparation require a college-level math course as part of the liberal arts core. Students can meet this requirement by selecting a course in mathematics, statistics, or computer science for the Quantitative or Formal Reasoning requirement of the GE CLAS Core. Contact College of Education Academic Advising for additional information.

Course #	Title	Hours
One of these:		
CS:1110	Introduction to Computer Science	3
CS:1210	Computer Science I: Fundamentals	4
STAT:1010	Statistics and Society	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3

STAT:1030	Statistics for Business	4
Any mathematics course (prefix MATH), except MATH:0100, MATH:1005, or MATH:1210		

Art Education Content Courses

Students complete at least 33 s.h. from the following.

Art History

Course #	Title	Hours
Two of these:		
ARTH:1040	Arts of Africa	3
ARTH:1050	From Cave Paintings to Cathedrals: Survey of Western Art I	3
ARTH:1060	From Mona Lisa to Modernism: Survey of Western Art II	3
ARTH:1070	Asian Art and Culture	3
ARTH:1095	Native American Art	3
And:		
Two additional art history courses, excluding ARTH:1080, ARTH:4999, and the art history courses in this list		6

Studio Art

Course #	Title	Hours
Both of these:		
ARTS:1510	Basic Drawing	3
ARTS:1520	Design Fundamentals	3

Two-Dimensional Art

Course #	Title	Hours
Two of these:		
DRAW:2310	Life Drawing I	3
DSGN:2500	Graphic Design I	3
PHTO:2600	Photography I	3
PNTG:2410	Painting I	3
PRNT:2610	Introduction to Printmaking	3

Three-Dimensional Art

Course #	Title	Hours
Both of these:		
CERM:2010	Ceramics I: Handbuilding	3
CERM:2020	Ceramics II: Wheel Throwing	3
One of these:		
INTM:2710	Introduction to Intermedia	3
MTLS:2910	Introduction to Jewelry and Metal Arts	3
SCLP:2810	Undergraduate Sculpture I	3
TDSN:2210	Introduction to 3D Design	3

Electives

Students complete their major requirements with additional art, art history, or design courses.

Endorsements

The art education TEP is approved by the state of Iowa as preparation for teaching licensure with endorsements for K–8 art and 5–12 art. Endorsement programs for additional teaching areas are available.

Teacher Education Program Academic and Professional Standards

State of Iowa teacher preparation standards require that teacher candidates demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all students learn. For this reason, the College of Education and the Teacher Education Program have established academic and professional standards that students must maintain. For undergraduate teacher candidates and bachelor's degree candidates in art education, these standards include the following.

- University of Iowa cumulative GPA and overall cumulative GPA, based on total hours earned
  - 0–29 overall earned semester hours: minimum of 1.85 (2.70 for good standing)
  - 30 or more overall earned semester hours: minimum of 2.00 (2.70 for good standing)
  - Non-degree students: minimum of 2.00 (2.70 for good standing)
- TEP major GPA (overall cumulative): minimum of 2.00 (2.70 for good standing)
- University of Iowa term GPA: minimum of 1.50 during fall or spring enrollment
- A grade of C-minus or higher in TEP major courses
- No notices of concern in professional dispositional qualities
- Academic good standing in the College of Liberal Arts and Sciences
- Major GPA in the TEP CLAS content major: minimum of 2.00
- UI major GPA in the TEP CLAS content major: minimum of 2.00

For additional information about these standards, contact the Office of Student Services.

Elementary Education, BA

Requirements

The Bachelor of Arts with a major in elementary education requires a minimum of 120 s.h., including the general education requirements for the degree and at least 83 s.h. for the major. Students must complete College of Education requirements for the Bachelor of Arts degree, the elementary education major, and the Teacher Education Program (TEP), including student teaching, and maintain TEP academic and professional standards. The general education requirements to earn a Bachelor of Arts degree from the College of Education are the GE CLAS Core of the College of Liberal Arts and Sciences (CLAS). Undergraduate students who meet the admission requirements of the College of Education may declare the elementary education major. Continuation in the major requires admission to the TEP.

Students who are pursuing the combined BA special education subprogram/MA in teaching and learning with special education subprogram must complete the requirements of the elementary education major and the coursework required to complete the MA degree.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Elementary Education Requirements

The BA with a major in elementary education requires the following work.

Foundation Courses

Students may complete the foundation courses before being admitted to the major in elementary education, but the courses are not prerequisite to admission to the major.

Course #	Title	Hours
All of these:		
EDTL:2122	Creativity, Imagination, Play, and Human Development through the Arts	3
EDTL:4900	Foundations of Special Education	3
EPLS:3000	Foundations of Education	3
PSQF:1075	Educational Psychology and Measurement	3

First-Year Courses

All new first-year students must take EDTL:2111 Teaching Elementary Learners I: Pursuits and Reflection and EDTL:2112 Teaching Elementary Learners II: Communities and Classrooms in their first two semesters at the university and before full admission to the TEP. Transfer students and students changing colleges take EDTL:2155 Pursuing Core Principles in Elementary Education in their first semester in the major. They may take this course before or after admission to the Teacher Education Program.

Course #	Title	Hours
Both of these:		
EDTL:2111	Teaching Elementary Learners I: Pursuits and Reflection	2
EDTL:2112	Teaching Elementary Learners II: Communities and Classrooms	2

Courses for the Major

Admission to the Teacher Education Program is required to register for courses for the major that are offered by the College of Education.

Course #	Title	Hours
All of these:		
EDTL:3002	Teaching and Learning Technologies	2
EDTL:3103	Assessment for Instructional Planning and Practice	3
EDTL:3120	Methods and Materials: Music for the Classroom Teacher	2
EDTL:3123	Reading and Responding to Children's Literature	3
EDTL:3127	Methods and Materials: Physical Education, Health, and Wellness	2
EDTL:3141	Elementary School Mathematics: Number and Operations	3
EDTL:3142	Elementary School Mathematics: Geometry and Measurement	3
EDTL:3160	Reading and Language Arts Methods for Primary Students in Grades K-3	3
EDTL:3161	Social Studies for the Elementary Classroom Teacher	3
EDTL:3163	Methods: Elementary School Mathematics	3
EDTL:3164	Reading and Language Arts Methods for Intermediate Students in Grades 3-6	3
EDTL:3165	Elementary Science Methods I	3
EDTL:3166	Elementary Science Methods II	3
EDTL:3170	Elementary Classroom Management	2
EDTL:3172	Elementary Reading Practicum	4
EDTL:3174	Elementary Math Practicum	1
EDTL:3190	Orientation to Elementary Education	2
EDTL:4171	Diversity and Exceptionalities in Literacy Instruction	3
EPLS:4180	Human Relations for the Classroom Teacher	3
One of these:		
STAT:1010	Statistics and Society	3

STAT:1020	Elementary Statistics and Inference	3

Student Teaching

Students seeking initial licensure must complete the following.

Course #	Title	Hours
EDTL:4187	Effective Teaching Strategies for the Elementary Teacher: Student Teaching Seminar	3
EDTL:4190	Supervised Teaching in the Elementary School: Interactive Phase	6
EDTL:4191	Supervised Teaching in the Elementary School: Pre- and Post-Active Phase	6

Transfer Students and Students Changing Colleges

Before they student teach, transfer students must complete the following courses at the University of Iowa.

Course #	Title	Hours
All of these:		
EDTL:3002	Teaching and Learning Technologies	2
EDTL:3190	Orientation to Elementary Education	1-2
A practicum		
Two of these:		
EDTL:3123	Reading and Responding to Children's Literature	3
EDTL:3160	Reading and Language Arts Methods for Primary Students in Grades K-3	3
EDTL:3161	Social Studies for the Elementary Classroom Teacher	3
EDTL:3163	Methods: Elementary School Mathematics	3
EDTL:3164	Reading and Language Arts Methods for Intermediate Students in Grades 3-6	3

Endorsements

The elementary education teacher education program is approved by the state of Iowa as preparation for teaching licensure with the K–6 teacher elementary classroom endorsement. Students have the option of completing one or more endorsements in the following areas: K–8 art, K–8 English/language arts, K–8 history, K–8 mathematics, middle school, K–8 reading, K–8 science, K–8 social studies, K–8 instructional strategist I: mild/moderate, and K–8 speech, communication/theatre. Courses in the endorsement area may be taken pass/nonpass if they are offered with the pass/nonpass option. Students may apply for added endorsement programs in K–12 English as a Second Language (ESL), PK–12 talented and gifted, and other areas. Requirement lists for each endorsement area are available from the College of Education.

Teacher Education Program Academic and Professional Standards

State of Iowa teacher preparation standards require that teacher candidates demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all students learn. For this reason, the College of Education and the Teacher Education Program have established academic and professional standards that students must maintain. For undergraduate teacher candidates and bachelor's degree candidates in elementary education, these standards include the following.

- University of Iowa cumulative GPA and overall cumulative GPA, based on total hours earned
  - 0–29 overall earned semester hours: minimum of 1.85 (2.70 for good standing)
  - 30 or more overall earned semester hours: minimum of 2.00 (2.70 for good standing)
  - Non-degree students: minimum of 2.00 (2.70 for good standing)
- TEP major GPA (overall cumulative): minimum of 2.00 (2.70 for good standing)
- University of Iowa term GPA: minimum of 1.50 during fall or spring enrollment
- A grade of C-minus or higher in TEP major courses
- No notices of concern in professional dispositional qualities

For additional information about these standards, contact the Office of Student Services.

State of Iowa teacher preparation standards require a core of liberal arts knowledge including, but not limited to English composition, mathematics, natural sciences, social sciences, and humanities. The courses of the elementary education Teacher Education Program satisfy these requirements.

Elementary Education With Special Education Subprogram Requirements

Elementary education students may pursue the BA in elementary education with a special education subprogram if they have been admitted to the MA in teaching and learning with a special education subprogram (K–8 instructional strategist I: mild/moderate with no thesis) and complete the MA degree.

It is appropriate for students who are currently enrolled in the Teacher Education Program as undergraduates working toward a major in elementary education. Students who desire to pursue an MA degree, are motivated to broaden their experience, and are inspired to serve students with disabilities are well suited for pursuing this combined program.

Students may complete both degrees in five years. In their last semester of undergraduate coursework, students enroll in two MA-level courses in special education (EDTL:4950 Behavioral and Social Interventions and EDTL:4984 Academic Skills for Students With Special Needs) that count toward both degrees. Once they complete all BA requirements, students complete the remaining MA special education courses. They are then eligible for their student teaching field experience. Students complete two placements—one in general education elementary education and one in K–8 special education—

thus making them eligible for teaching licensure in both elementary education and special education.

The BA in elementary education with a special education subprogram and the MA in teaching and learning with a special education subprogram (K–8 instructional strategist I: mild/moderate with no thesis) require the following work in addition to the "Elementary Education Requirements."

Language Development

Course #	Title	Hours
One of these:		
EDTL:3382	Language and Learning	3
EDTL:4410	Language, Power, and Multilingual Education	3
LING:1010	Language and Society	3

Oral Communication

Course #	Title	Hours
One of these:		
EDTL:2821	Oral Interpretation	3
EDTL:3180	Drama in the Classroom	3
CLSA:3742	Word Power: Building English Vocabulary	3
LING:3001	Introduction to Linguistics	3

Parent-Teacher Communication

Course #	Title	Hours
This course:		
EDTL:4934	Parent-Teacher Communication	3

Courses Taken in the Last Semester of BA Completion

Course #	Title	Hours
Both of these:		
EDTL:4950	Behavioral and Social Interventions	3
EDTL:4984	Academic Skills for Students With Special Needs	3

Additional Courses to Complete the MA

Course #	Title	Hours
All of these:		
EDTL:4975	Explicit Instruction	3
EDTL:4980	Dyslexia and Other Reading Difficulties: Instruction and Assessment	3
EDTL:5967	Supervision Strategies in Special Education	3
EDTL:6906	Practicum With Exceptional Persons	3

Combined Programs

BA (Special Education Subprogram)/MA in Teaching and Learning (Special Education Subprogram)

The combined BA in elementary education with a special education subprogram and the MA in teaching and learning with a special education subprogram (K–8 instructional strategist I: mild/moderate; nonthesis) program is available for students. Students are able to earn both degrees in less time than it would take to complete both degrees separately.

Students pay undergraduate tuition and fees during the combined undergraduate/graduate semester, which is generally in the spring semester of their fourth year. In the following semester when they begin coursework for the MA, they pay graduate tuition and fees. For more information on the combined program, see "Elementary Education with Special Education Subprogram Requirements" under Requirements [p. 1449] in this section of the catalog.

Admission

Applicants must:

- be a University of Iowa undergraduate student enrolled in the BA in elementary education TEP program;
- have completed at least 74 s.h.;
- have a grade-point average (GPA) of at least 3.25 (the admissions committee considers other aspects of an application when the undergraduate GPA is below 3.25); and
- submit a writing sample.

Career Advancement

The BA program prepares students to teach kindergarten through grade 6. In Iowa, the elementary specialization areas prepare students to teach additional individual subject areas in kindergarten through grade 8.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a To fulfill the GE CLAS Core requirement in World Languages, students must complete four years of a single world language in high school or achieve fourth level of proficiency in a world language through coursework or an appropriate exam. See General Catalog for more information.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c The following foundation courses may be completed prior to admission to TEP, but are not prerequisites for admission: PSQF:1075, EDTL:2122, EDTL:4900, EPLS:3000.

d GE courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

e Complete the College of Education 10-hour pre-admission school field experience verification form available on the Teacher Education Program web page.

f Please see your advisor and the College of Education website for detailed application instructions and deadlines.

g Students have the option of completing added endorsements that certify them to teach areas of specialization in grades K-8. Consult an advisor, the General Catalog, or the College of Education website for more information.

h Students may use elective courses to earn credit towards the total s.h. required for graduation or to complete a double major, minors, or certificates.

i All coursework must be completed prior to student teaching.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

English Education, BA

Requirements

The Bachelor of Arts with a major in English education requires a minimum of 120 s.h., including the general education requirements for the degree, a minimum of 41 s.h. in English professional education courses, and a minimum of 30 s.h. in English education content courses. The general education requirements to earn a bachelor of arts degree from the College of Education are the GE CLAS Core of the College of Liberal Arts and Sciences. The major requires admission to the Teacher Education Program (TEP) and students must maintain TEP academic and professional standards. Application information can be obtained through the Office of Student Services.

Students must earn a BA in English [p. 427] or a BA in English and creative writing [p. 434] at the University of Iowa in order to earn the BA in English education; both degrees may be earned at the same time. Graduates who have earned one of these degrees at another institution and wish to earn the BA in English education should consult the Department of Teaching and Learning; additional coursework may be required.

The Department of English offers courses in literature, cultural studies, language, and critical and creative writing. In these courses, students read poetry, fiction, essays, criticism, and theory to acquire methods for understanding literature and culture and respond creatively to the texts. In addition to providing these essential elements of a liberal arts and sciences education, the department's courses can augment students' specialized interests in other fields. Students also complete coursework in teacher licensure including student teaching.

For initial licensure, student teaching must be an all-day, full-semester experience. Most students are placed in a district within a 60-mile radius of Iowa City. Placements outside this area require special approval and are considered on an individual basis.

Additional information about options for student teaching and application procedures is available from the Office of Student Services. Applications for student teaching must be submitted during the calendar year before the student teaching semester. The deadline for students planning to student teach the following fall semester is Nov. 15 and April 15 for the following spring semester.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

The BA with a major in English education requires the following work.

Professional Education Course Requirements

Students must complete 41 s.h. from the following.

Foundation Courses

Foundation courses may be completed before or after admission to the major.

Course #	Title	Hours
All of these:		
EDTL:4900	Foundations of Special Education	3
EPLS:3000	Foundations of Education	3
PSQF:1075	Educational Psychology and Measurement	3

Additional Licensure Courses

Course #	Title	Hours
All of these:		
EDTL:3002	Teaching and Learning Technologies	2
EDTL:3091	Secondary Education Program Orientation and Classroom Management	3
EDTL:4314	Introduction and Practicum: Secondary English	3
EDTL:4315	Learning to Teach Secondary English/Language Arts and Field Experience	3
EDTL:4394	Secondary Reading Instruction	3
EPLS:4180	Human Relations for the Classroom Teacher	3

Student Teaching

Transfer students should consult their advisor since they must complete certain courses before they student teach.

Course #	Title	Hours
All of these:		
EDTL:4087	Seminar: Curriculum and Student Teaching	3
EDTL:4091	Observation and Laboratory Practice in the Secondary School	6
EDTL:4092	Observation and Laboratory Practice in the Secondary School	6

Mathematics Course

State standards for teacher preparation require a college-level math course as part of the liberal arts core. Students can meet this requirement by selecting a course in mathematics, statistics, or computer science for the Quantitative or Formal Reasoning requirement of the GE CLAS Core. Contact College of Education Academic Advising with questions.

Course #	Title	Hours
One of these:		
CS:1110	Introduction to Computer Science	3
CS:1210	Computer Science I: Fundamentals	4
STAT:1010	Statistics and Society	3
STAT:1020/ PSQF:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
Any mathematics course (prefix MATH), except MATH:0100, MATH:1005, or MATH:1210		

English Education Content Courses

Students complete at least 30 s.h. from the following.

Oral Communication and Language Development

Course #	Title	Hours
This course:		
EDTL:3382	Language and Learning	3

Written Communication

Course #	Title	Hours
This course:		
EDTL:4355	Approaches to Teaching Writing	3
One of these:		
ENGL:2020	Foundations of Creative Writing: Craft, Practice, Pleasure	3
A creative writing or creative nonfiction writing course (prefix CW or CNW) numbered 2000 or above		

Adolescent Literature

Course #	Title	Hours
This course:		
EDTL:3393	Reading and Teaching Adolescent Literature	3

American Literature

Course #	Title	Hours
Three of these:		
English courses (prefix ENGL) numbered 2400-2499 or 3400-3499 or ENGL:4001 or ENGL:4005		9

British (English) Literature

Course #	Title	Hours
This course:		
ENGL:3287	Shakespeare	3
One of these:		
English course (prefix ENGL) numbered 2300-2399 or 3300-3399 or ENGL:2601 or ENGL:4002 or ENGL:4006		3

Elective

Students choose an additional course (3 s.h.) in English not including those used to fulfill their elective requirement. Students may select from English courses (prefix ENGL) numbered 2000–4999, creative writing courses (prefix CW) numbered 2000–4999, and creative nonfiction writing courses (prefix CNW) numbered 2000–4999.

Endorsements

The English education TEP is approved by the state of Iowa as preparation for teaching licensure with endorsement for grades 5–12 English/language arts. With this program, students have the option to complete additional coursework for added endorsements in grades 5–12 all language arts and grades 5–12 reading.

Teacher Education Program Academic and Professional Standards

State of Iowa teacher preparation standards require that teacher candidates demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all students learn. For this reason, the College of Education and the Teacher Education Program have established academic and professional standards that students must maintain. For undergraduate teacher candidates and bachelor's degree candidates in English education, these standards include the following.

- University of Iowa cumulative GPA and overall cumulative GPA, based on total hours earned
  - 0–29 overall earned semester hours: minimum of 1.85 (2.70 for good standing)
  - 30 or more overall earned semester hours: minimum of 2.00 (2.70 for good standing)
  - Non-degree students: minimum of 2.00 (2.70 for good standing)
- TEP major GPA (overall cumulative): minimum of 2.00 (2.70 for good standing)
- University of Iowa term GPA: minimum of 1.50 during fall or spring enrollment
- A grade of C-minus or higher in TEP major courses
- No notices of concern in professional dispositional qualities
- Academic good standing in the College of Liberal Arts and Sciences
- Major GPA in the TEP CLAS content major: minimum of 2.00
- UI major GPA in the TEP CLAS content major: minimum of 2.00

For additional information about these standards, contact the Office of Student Services.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Total Hours	**124-131**

a These majors include a BA in English or a BA in English and creative writing.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Choose a math course that will satisfy the Teacher Education Program math requirement.

d GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students

should consult with an advisor about the best sequencing of courses.

e Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

f Complete the College of Education 10-hour pre-admission school field experience verification form available on the Teacher Education Program web page.

g See General Catalog and degree audit for BA in English education. Students also should consider requirements for the second degree when selecting these courses.

h Please see the College of Education website for detailed application instructions and deadlines. Admission is selective and a priority deadline exists.

i Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Mathematics Education, BA

Requirements

The Bachelor of Arts with a major in mathematics education requires a minimum of 120 s.h., including the general education requirements for the degree, 46 s.h. in mathematics professional education courses, and a minimum of 41–42 s.h. in mathematics education content courses for students earning the BA in mathematics or a minimum of 47–50 s.h. in mathematics education content courses for students earning the BS in mathematics. General education requirements to earn a bachelor of arts degree from the College of Education are the GE CLAS Core of the College of Liberal Arts and Sciences (CLAS). The major requires admission to the Teacher Education Program (TEP), and students must maintain TEP academic and professional standards. Application information can be obtained through the Office of Student Services.

Students must earn a BA in mathematics [p. 781] (Program B) or a BS in mathematics [p. 791] (Program B) at the University of Iowa in order to earn the BA in mathematics education; both degrees may be earned at the same time. Graduates who have earned one of these degrees at another institution and wish to earn the BA in mathematics education should consult the Department of Teaching and Learning; additional coursework may be required. Students also complete coursework in teacher licensure including student teaching.

For initial licensure, student teaching must be an all-day, full-semester experience. Most students are placed in a district within a 60-mile radius of Iowa City. Placements outside this area require special approval and are considered on an individual basis. Special site programs provide experience in districts with diverse populations and students may also apply to student teach at international sites for the second half of the semester.

Additional information about options for student teaching and application procedures is available from the Office of Student Services. Applications for student teaching must be submitted during the calendar year before the student teaching semester. The deadline for students planning to student teach the following fall semester is Nov. 15 and April 15 for the following spring semester.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

The BA with a major in mathematics education requires the following work.

Professional Education Course Requirements

Students complete 46 s.h. from the following.

Foundation Courses

Foundation courses may be completed before or after admission to the major.

Course #	Title	Hours
All of these:		
EDTL:4900	Foundations of Special Education	3
EPLS:3000	Foundations of Education	3
PSQF:1075	Educational Psychology and Measurement	3

Additional Licensure Courses

Course #	Title	Hours
All of these:		
EDTL:3002	Teaching and Learning Technologies	2
EDTL:3091	Secondary Education Program Orientation and Classroom Management	3
EDTL:3095	Teaching Reading in Secondary Content Areas	1
EDTL:3532	Introduction and Practicum: Mathematics	3
EDTL:3534	Methods: Middle School Mathematics	3
EDTL:4535	Methods: High School Mathematics	3
EDTL:4750	Assessment in Science, Technology, Engineering, and Mathematics (STEM)	2
EDTL:4751	Learning in the Science, Technology, Engineering, and Mathematics (STEM) Classroom	2
EPLS:4180	Human Relations for the Classroom Teacher	3

Student Teaching

Transfer students should consult their advisor since they must complete certain courses before they student teach.

Course #	Title	Hours
All of these:		
EDTL:4087	Seminar: Curriculum and Student Teaching	3
EDTL:4091	Observation and Laboratory Practice in the Secondary School	6
EDTL:4092	Observation and Laboratory Practice in the Secondary School	6

Mathematics Education Content Courses

Students earning a BA in mathematics complete at least 41–42 s.h. from the following; students earning a BS in mathematics complete at least 47–50 s.h. from the following.

Course #	Title	Hours
All of these:		
CS:1210	Computer Science I: Fundamentals	4
MATH:1850	Calculus I	4
MATH:1860	Calculus II	4
MATH:2150	Foundations of Geometry	3

MATH:2700	Introduction to Linear Algebra	4
MATH:2850	Calculus III	4
MATH:3720	Introduction to Abstract Algebra	4
MATH:3770	Foundations of Analysis	4
STAT:3120	Probability and Statistics	4
One of these:		
MATH:4050	Introduction to Discrete Mathematics	3
MATH:4060	Discrete Mathematical Models	3
And:		
For students earning a BA in mathematics, one additional course beyond calculus		3-4
For students earning a BS in mathematics, three additional courses beyond calculus, including at least two courses numbered MATH:4120 or above		9-12

Endorsements

The mathematics education TEP is approved by the state of Iowa as preparation for teaching licensure with endorsement for grades 5–12 mathematics. Added endorsement programs for additional teaching areas are available.

Teacher Education Program Academic and Professional Standards

State of Iowa teacher preparation standards require that teacher candidates demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all students learn. Because of this, the College of Education and the Teacher Education Program have established academic and professional standards that students must maintain. For undergraduate teacher candidates and Bachelor of Arts candidates in mathematics education, these standards include the following.

- University of Iowa cumulative GPA and overall cumulative GPA, based on total hours earned
  - 0–29 overall earned semester hours: minimum of 1.85 (2.70 for good standing)
  - 30 or more overall earned semester hours: minimum of 2.00 (2.70 for good standing)
  - Non-degree students: minimum of 2.00 (2.70 for good standing)
- TEP major GPA (overall cumulative): minimum of 2.00 (2.70 for good standing)
- University of Iowa term GPA: minimum of 1.50 during fall or spring enrollment
- A grade of C-minus or higher in TEP major courses
- No notices of concern in professional dispositional qualities
- Academic good standing in the College of Liberal Arts and Sciences
- Major GPA in the TEP CLAS content major: minimum of 2.00
- UI major GPA in the TEP CLAS content major: minimum of 2.00

For additional information about these standards, contact the Office of Student Services.

Liberal Arts Core

State of Iowa teacher preparation standards require a core of liberal arts knowledge including but not limited to English composition, mathematics, natural sciences, social sciences, and humanities. The GE CLAS Core together with the mathematics education content courses satisfy these requirements. For additional information about these standards, contact the Office of Student Services.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Mathematics Education, BA

Course	Title	Hours
Academic Career		
Any Semester		
Admission to the Teacher Education Program, College of Education, is by competitive application. For information about application requirements, process, and deadlines, please consult an advisor for the College of Education.		
For specific information regarding requirements in the College of Education, please see the General Catalog.		
Students must earn another major at the University of Iowa in order to earn the BA in mathematics education. Both degrees may be earned at the same time. [a]		
Graduates who have earned one of these degrees at another institution and wish to earn the BA in mathematics education should consult the Department of Teaching and Learning; additional coursework may be required.		
GE CLAS Core: Sustainability [b]

	Hours	**15**
	Total Hours	**129-136**

a These majors include a BA in mathematics (program B) or a BS in mathematics (program B) at the University of Iowa.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Enrollment in math courses requires completion of a placement exam.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Complete the College of Education 10-hour pre-admission school field experience verification form available on the Teacher Education Program web page.

f Please see the College of Education website for detailed application instructions and deadlines. Admission is selective and a priority deadline exists.

g GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all

requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Music Education, BA

Requirements

The Bachelor of Arts with major in music education requires a minimum of 120 s.h., including the general education requirements for the degree, a minimum of 44 s.h. in music professional education courses and 75–86 s.h. in the BM in music degree from the College of Liberal Arts and Sciences. Students must maintain a grade-point average of at least 2.70 in professional education course requirements. They must also complete the GE CLAS Core [p. 22]. General education requirements to earn a bachelor of arts degree from the College of Education are the GE CLAS Core of the College of Liberal Arts and Sciences (CLAS). The major requires admission to the Teacher Education Program (TEP), and students must maintain TEP academic and professional standards. Application information can be obtained through the Office of Student Services.

Students must earn a BM in music [p. 837] with a performance subprogram of brass/woodwind, jazz, organ, percussion, piano, piano with teacher education, string, or voice at the University of Iowa in order to earn the BA in music education; both degrees may be earned at the same time. Graduates who have earned a bachelor's degree in music performance at another institution and wish to earn the BA in music education should consult the Department of Teaching and Learning; additional coursework may be required.

The BM with a major in music is intended for undergraduates who wish to major in music as part of a broad liberal arts education irrespective of specific career aspirations. The curriculum includes musicianship, performance, and electives. Students must audition and be accepted into a performance area. They develop musicianship and performance skills and select from a wide variety of music electives.

For initial licensure, student teaching must be an all-day, full-semester experience. Most students are placed in a district within a 60-mile radius of Iowa City. Placements outside this area require special approval and are considered on an individual basis. Special site programs provide experience in districts with diverse populations and students may also apply to student teach at international sites for the second half of the semester.

Additional information about options for student teaching and application procedures is available from the Office of Student Services. Applications for student teaching must be submitted during the calendar year before the student teaching semester. The deadline to complete the application in order to student teach occurs one year prior to the requested student teaching semester: Nov. 15 for the following fall semester and April 15 for the following spring semester.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

The BA with a major in music education requires the following work.

Professional Education Course Requirements

Students complete 44 s.h. from the following.

Foundation Courses

Foundation courses may be completed before or after admission to the major.

Course #	Title	Hours
All of these:		
EDTL:4900	Foundations of Special Education	3
EPLS:3000	Foundations of Education	3
PSQF:1075	Educational Psychology and Measurement	3

Additional Licensure Courses

Course #	Title	Hours
All of these:		
EDTL:3002	Teaching and Learning Technologies	2
EDTL:3091	Secondary Education Program Orientation and Classroom Management	3
EDTL:3095	Teaching Reading in Secondary Content Areas	1
EDTL:3610	Introduction and Practicum: Music	2
EDTL:3620	Methods and Materials: General Music	3
EDTL:3640	Choral Methods	3
EDTL:3650	Instrumental Methods and Materials	3
EPLS:4180	Human Relations for the Classroom Teacher	3

Student Teaching

Transfer students should consult their advisor since they must complete certain courses before they student teach.

Course #	Title	Hours
All of these:		
EDTL:4087	Seminar: Curriculum and Student Teaching	3
EDTL:4091	Observation and Laboratory Practice in the Secondary School	6
EDTL:4192	Special Area Student Teaching	6

Mathematics Course

State standards for teacher preparation require a college-level math course as part of the liberal arts core. Students can meet this requirement by selecting a course in mathematics, statistics, or computer science for the Quantitative or Formal Reasoning requirement of the GE CLAS Core. Contact College of Education Academic Advising with questions.

Course #	Title	Hours
One of these:		
CS:1110	Introduction to Computer Science	3
CS:1210	Computer Science I: Fundamentals	4
STAT:1010	Statistics and Society	3
STAT:1020	Elementary Statistics and Inference	3

STAT:1030	Statistics for Business	4
Any mathematics course (prefix MATH), except MATH:0100, MATH:1005, or MATH:1210		

Music Education Content Courses

The Bachelor of Music degree provides the content courses in music theory, music history, and applied music that are required for music teaching. In addition, as a requirement of the Bachelor of Arts with major in music education and the music education teacher education program, students must complete the following music education content courses that correspond to their Bachelor of Music emphasis.

Jazz (Piano) With Choral Emphasis Majors

Course #	Title	Hours
All of these:		
EDTL:3645	Choral Conducting and Literature	3
MUS:1120	Secondary Performance - Voice (taken twice for 1 s.h. each)	2
MUS:1510	Diction for Singers I	2
MUS:2510	Diction for Singers II	2
MUS:3625	Techniques of Conducting	2
MUS:3659	Class Strings (section 1)	1
MUS:3664	Introduction to Wind and Percussion Instruments	2
4 s.h. from these (courses may be repeated):		
MUS:1176	Voxman Chorale	1
MUS:3170	Kantorei	1
MUS:3172	Camerata Singers	1

Jazz (String Bass) Majors

Course #	Title	Hours
All of these:		
EDTL:3635	Instrumental Conducting	3
MUS:3180	Orchestra (taken four times for 1 s.h. each)	4
MUS:3625	Techniques of Conducting	2
MUS:3659	Class Strings (taken three times for 1 s.h. each)	3
MUS:3664	Introduction to Wind and Percussion Instruments	2

Jazz (Wind Instruments, Percussion, Piano, or Organ) With Band Emphasis Majors

Course #	Title	Hours
All of these:		
EDTL:3605	Instrumental Techniques (taken three times for 2 s.h. each; students select appropriate topic of flute/percussion, brass, or woodwinds)	6
EDTL:3635	Instrumental Conducting	3
MUS:1165	Hawkeye Marching Band	1
MUS:3160	Symphony Band/Concert Band (taken four times for 1 s.h. each)	4
MUS:3625	Techniques of Conducting	2
MUS:3659	Class Strings (section 1)	1
MUS:3666	Marching Band Techniques	1

Piano or Organ With Choral Emphasis Majors

Course #	Title	Hours
All of these:		
EDTL:3645	Choral Conducting and Literature	3
MUS:1120	Secondary Performance - Voice (taken twice for 1 s.h. each)	2
MUS:1510	Diction for Singers I	2
MUS:2510	Diction for Singers II	2
MUS:3659	Class Strings (section 1)	1
MUS:3664	Introduction to Wind and Percussion Instruments	2

Piano or Organ With String Emphasis Majors

Course #	Title	Hours
All of these:		
EDTL:3635	Instrumental Conducting	3
MUS:3664	Introduction to Wind and Percussion Instruments	2
MUS:3659	Class Strings	1

String Instrument Majors

Course #	Title	Hours
All of these:		
EDTL:3635	Instrumental Conducting	3
MUS:3664	Introduction to Wind and Percussion Instruments	2
MUS:3659	Class Strings (taken three times for 1 s.h. each)	3

Voice Majors

Course #	Title	Hours
All of these:		
EDTL:3645	Choral Conducting and Literature	3
MUS:1121	Secondary Performance - Piano	1
MUS:2213	Group Instruction in Piano III	1
MUS:3659	Class Strings (section 1)	1
MUS:3664	Introduction to Wind and Percussion Instruments	2

Wind Instruments, Percussion, Piano, or Organ With Band Emphasis Majors

Course #	Title	Hours
All of these:		
EDTL:3605	Instrumental Techniques (taken three times for 2 s.h. each; students select appropriate topic of flute/ percussion, brass, or woodwinds)	6
EDTL:3635	Instrumental Conducting	3
MUS:1165	Hawkeye Marching Band	1
MUS:1711	Jazz Rhythms and Interpretation I	1
MUS:3659	Class Strings (section 1)	1
MUS:3666	Marching Band Techniques	1
MUS:3760	Jazz Band Techniques	1

Electives

The music education TEP is approved by the state of Iowa as preparation for teaching licensure with endorsements to teach music in kindergarten through grade 12 (two endorsements: 5–12 music and K–8 music). Added endorsement programs for additional teaching areas are available.

Teacher Education Program Academic and Professional Standards

State of Iowa teacher preparation standards require that teacher candidates demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all students learn. Because of this, the College of Education and the Teacher Education Program have established academic and professional standards that students must maintain. For undergraduate teacher candidates and Bachelor of Arts candidates in music education, these standards include the following.

- University of Iowa cumulative GPA and overall cumulative GPA, based on total hours earned
  - 0–29 overall earned semester hours: minimum of 1.85 (2.70 for good standing)
  - 30 or more overall earned semester hours: minimum of 2.00 (2.70 for good standing)
  - Non-degree students: minimum of 2.00 (2.70 for good standing)
- TEP major GPA (overall cumulative): minimum of 2.00 (2.70 for good standing)
- University of Iowa term GPA: minimum of 1.50 during fall or spring enrollment
- A grade of C-minus or higher in TEP major courses
- No notices of concern in professional dispositional qualities
- Academic good standing in College of Liberal Arts and Sciences
- Major GPA in the TEP CLAS content major: minimum of 2.00
- UI major GPA in the TEP CLAS content major: minimum of 2.00

For additional information about these standards, contact the Office of Student Services.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

a Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

b Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

c Complete the College of Education 10-hour pre-admission school field experience verification form available on the Teacher Education Program web page.

d Please see the College of Education website for detailed application instructions and deadlines. Admission is selective and a priority deadline exists.

e This requirement may be met by a course required for the BM in music.

f GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

g Choose a course that will satisfy the Teacher Education Program math requirement.

h Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Science Education, BA

Requirements

The Bachelor of Arts with major in science education requires a minimum of 120 s.h., including the general education requirements for the degree, a minimum of 45 s.h. in science education professional education courses, completion of an approved College of Liberal Arts and Sciences science degree, and science education content courses. They must also complete the GE CLAS Core [p. 22]. General education requirements to earn a bachelor of arts degree from the College of Education are the GE CLAS Core of the College of Liberal Arts and Sciences (CLAS). The major requires admission to the Teacher Education Program (TEP), and students must maintain TEP academic and professional standards. Application information can be obtained through the Office of Student Services.

Students must earn one of these majors at the University of Iowa, with a minimum of 36 s.h., in order to earn the BA in science education: a BA in biology [p. 147], a BS in biology [p. 152], a BA in chemistry [p. 184], a BS in chemistry [p. 189], a BA in earth and environmental sciences [p. 374], a BS in earth and environmental sciences [p. 385], a BA in geographical and sustainability sciences [p. 382], a BS in geographical and sustainability sciences [p. 392], a BA in physics [p. 899], a BS in physics [p. 906], or a BS in science studies [p. 1477]; both degrees may be earned at the same time. Graduates who have earned a comparable degree at another institution and wish to earn the BA in science education should consult the Department of Teaching and Learning; additional coursework may be required.

For initial licensure, student teaching must be an all-day, full-semester experience. Most students are placed in a district within a 60-mile radius of Iowa City. Placements outside this area require special approval and are considered on an individual basis. Special site programs provide experience in districts with diverse populations and students also may apply to student teach at international sites for the second half of the semester.

Additional information about options for student teaching and application procedures is available from the Office of Student Services. Applications for student teaching must be submitted during the calendar year before the student teaching semester. The deadline for students planning to student teach the following fall semester is Nov. 15 and April 15 for the following spring semester.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

The BA with a major in science education requires the following coursework.

Professional Education Course Requirements

Students complete 45 s.h. from the following.

Foundation Courses

Foundation courses may be completed before or after admission to the major.

Course #	Title	Hours
All of these:		
EDTL:4900	Foundations of Special Education	3
EPLS:3000	Foundations of Education	3
PSQF:1075	Educational Psychology and Measurement	3

Additional Licensure Courses

Course #	Title	Hours
All of these:		
EDTL:3002	Teaching and Learning Technologies	2
EDTL:3091	Secondary Education Program Orientation and Classroom Management	3
EDTL:3095	Teaching Reading in Secondary Content Areas	1
EPLS:4180	Human Relations for the Classroom Teacher	3
And all of these taken in this order:		
EDTL:4750	Assessment in Science, Technology, Engineering, and Mathematics (STEM)	2
EDTL:4751	Learning in the Science, Technology, Engineering, and Mathematics (STEM) Classroom	2
EDTL:4752	Secondary Science Methods II With Field Experience	3
EDTL:4753	Secondary Science Methods III With Field Experience	3
EDTL:4779	Secondary School Science Practicum	2

Student Teaching

Transfer students should consult their advisor since they must complete certain courses before they student teach.

Course #	Title	Hours
All of these:		
EDTL:4087	Seminar: Curriculum and Student Teaching	3
EDTL:4091	Observation and Laboratory Practice in the Secondary School	6
EDTL:4092	Observation and Laboratory Practice in the Secondary School	6

Mathematics Course

State standards for teacher preparation require a college-level math course as part of the liberal arts core. Students can meet this requirement by selecting a course in mathematics, statistics, or computer science for the Quantitative or Formal Reasoning requirement of the GE CLAS Core [p. 22]. Contact College of Education Academic Advising with questions.

Course #	Title	Hours
One of these:		
CS:1110	Introduction to Computer Science	3

CS:1210	Computer Science I: Fundamentals	4
STAT:1010	Statistics and Society	3
STAT:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
Any mathematics course (prefix MATH), except MATH:0100, MATH:1005, or MATH:1210		

Science Education Content Courses

Students complete the science courses of their major field of study, the broad field science block, and additional science courses as needed to meet the requirements of the subject areas the students are preparing to teach.

Broad Field Science Block

Students complete 12 s.h. from the following.

Course #	Title	Hours
This course:		
SIED:4135	The Nature of Science	4
At least two of these:		
SIED:4102	Societal and Educational Applications of Earth Science and Environmental	4
SIED:4103	Societal and Educational Applications of Biological Sciences	4
SIED:4105	Societal and Educational Applications of Physical Sciences	4
SIED:4106	Societal and Educational Applications of Chemical Concepts	4
SIED:4110	Exploring the Geology, Mining History, and Environmental Issues of the Colorado Rockies	4

Endorsements

The science education TEP is approved by the state of Iowa as preparation for teaching licensure with one or more of the following endorsements: grades 5–12 biological sciences; grades 5–12 chemistry; grades 5–12 earth science; grades 5–12 physics; and grades 5–12 all science.

Added endorsement programs for additional teaching areas are available, including grades 5–12 basic science and subject areas other than science.

Teacher Education Program Academic and Professional Standards

State of Iowa teacher preparation standards require that teacher candidates demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all students learn. Because of this, the College of Education and the Teacher Education Program have established academic and professional standards that students must maintain. For undergraduate teacher candidates and Bachelor of Arts candidates in science education, these standards include:

- University of Iowa cumulative GPA and overall cumulative GPA, based on total hours earned
  - 0–29 overall earned semester hours: minimum of 1.85 (2.70 for good standing)
  - 30 or more overall earned semester hours: minimum of 2.00 (2.70 for good standing)
  - Non-degree students: minimum of 2.00 (2.70 for good standing)
- TEP major GPA (overall cumulative): minimum of 2.00 (2.70 for good standing)
- University of Iowa term GPA: minimum of 1.50 during fall or spring enrollment
- A grade of C-minus or higher in TEP major courses
- No notices of concern in professional dispositional qualities
- Academic good standing in College of Liberal Arts and Sciences
- Major GPA in the TEP CLAS content major: minimum of 2.00
- UI major GPA in the TEP CLAS content major: minimum of 2.00

For additional information about these standards, contact the Office of Student Services.

Liberal Arts Core

State of Iowa teacher preparation standards require a core of liberal arts knowledge including but not limited to English composition, mathematics, natural sciences, social sciences, and humanities. Students who have not completed these requirements with their previous coursework will need additional coursework. Bachelor's degree graduates of the College of Education or the College of Liberal Arts and Sciences have met these requirements with the GE CLAS Core [p. 22] if a course in mathematics, statistics, or computer science was selected for the Quantitative and Formal Reasoning requirement. For additional information about these standards, contact the Office of Student Services.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

	Hours	**15**
	Total Hours	**134-155**

a Approved majors for the second degree include a BA in biology, a BS in biology, a BA in chemistry, a BS in chemistry, a BA in earth and environmental sciences, a BS

in earth and environmental sciences, a BA in geographical and sustainability sciences, a BS in geographical and sustainability sciences, a BA in physics, a BS in physics, or a BS in science studies.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

d Complete the College of Education 10-hour pre-admission school field experience verification form available on the Teacher Education Program web page.

e Students must complete two of SIED:4102, SIED:4103, SIED:4105, SIED:4106, or SIED:4110.

f Please see the College of Education website for detailed application instructions and deadlines. Admission is selective and a priority deadline exists.

g Choose a course that will satisfy the Teacher Education Program math requirement.

h GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

i Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

j Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

k Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Social Studies Education, BA

Requirements

The Bachelor of Arts with major in social studies education requires a minimum of 120 s.h., including the general education requirements for the degree, a minimum of 42 s.h. in social studies professional education courses, 30–36 s.h. in social studies education content courses, and 15–27 s.h. in history or social science coursework for one or more teaching endorsements outside of their major subject area. General education requirements to earn a bachelor of arts degree from the College of Education are the GE CLAS Core of the College of Liberal Arts and Sciences (CLAS). The major requires admission to the Teacher Education Program (TEP), and students must maintain TEP academic and professional standards. Application information can be obtained through the Office of Student Services.

Students must earn one of these majors at the University of Iowa in order to earn the BA in social studies education: a BA in anthropology [p. 69], a BS in anthropology [p. 74], a BA in economics [p. 1189], a BS in economics [p. 1193], a BA in geographical and sustainability sciences [p. 382], a BS in geographical and sustainability sciences [p. 392], a BA in history [p. 574], a BA in political science [p. 934], a BS in political science [p. 938], a BA in psychology [p. 954], a BS in psychology [p. 958], or a BA in sociology [p. 1026]; both degrees may be earned at the same time. Graduates who have earned one of these degrees at another institution and wish to earn the BA in social studies education should consult the Department of Teaching and Learning; additional coursework may be required.

For initial licensure, student teaching must be an all-day, full-semester experience. Most students are placed in a district within a 60-mile radius of Iowa City. Placements outside this area require special approval and are considered on an individual basis. Special site programs provide experience in districts with diverse populations and students may also apply to student teach at international sites for the second half of the semester.

Additional information about options for student teaching and application procedures is available from the Office of Student Services. Applications for student teaching must be submitted during the calendar year before the student teaching semester. The deadline for students planning to student teach the following fall semester is Nov. 15 and April 15 for the following spring semester.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

The BA with a major in social studies education requires the following work.

Professional Education Course Requirements

Students complete 42 s.h. from the following.

Foundation Courses

Foundation courses may be completed before or after admission to the major.

Course #	Title	Hours
All of these:		
EDTL:4900	Foundations of Special Education	3
EPLS:3000	Foundations of Education	3
PSQF:1075	Educational Psychology and Measurement	3

Additional Licensure Courses

Course #	Title	Hours
All of these:		
EDTL:3002	Teaching and Learning Technologies	2
EDTL:3091	Secondary Education Program Orientation and Classroom Management	3
EDTL:3095	Teaching Reading in Secondary Content Areas	1
EDTL:4811	Introduction and Practicum: Secondary Social Studies	3
EDTL:4828	Curriculum and Teaching: Social Studies Education	3
EDTL:4870	Methods: Secondary Social Studies	3
EPLS:4180	Human Relations for the Classroom Teacher	3

Student Teaching

Transfer students should consult their advisor since they must complete certain courses before they student teach.

Course #	Title	Hours
All of these:		
EDTL:4087	Seminar: Curriculum and Student Teaching	3
EDTL:4091	Observation and Laboratory Practice in the Secondary School	6
EDTL:4092	Observation and Laboratory Practice in the Secondary School	6

Mathematics Course

State standards for teacher preparation require a college-level math course as part of the liberal arts core. Students can meet this requirement by selecting a course in mathematics, statistics, or computer science for the Quantitative or Formal Reasoning requirement of the GE CLAS Core. Contact College of Education Academic Advising with questions.

Course #	Title	Hours
One of these:		
CS:1110	Introduction to Computer Science	3
CS:1210	Computer Science I: Fundamentals	4
STAT:1010	Statistics and Society	3
STAT:1020	Elementary Statistics and Inference	3

STAT:1030	Statistics for Business	4
Any mathematics course (prefix MATH), except MATH:0100, MATH:1005, or MATH:1210		

Social Studies Education Content Courses

Students complete 30–36 s.h. in social studies education content courses in the student's College of Liberal Arts and Sciences major subject area, and an additional 15–27 s.h. in history or social science coursework for one or more teaching endorsements outside of their major subject area.

Endorsements

The social studies education TEP is approved by the state of Iowa as preparation for teaching licensure with endorsement for two or more subjects in secondary school history or social sciences. Endorsements available for the major subject area are: grades 5–12 American government; grades 5–12 American history; grades 5–12 American history and grades 5–12 world history (minimum 15 s.h. in each subject area); grades 5–12 anthropology; grades 5–12 economics; grades 5–12 geography; grades 5–12 psychology; grades 5–12 sociology; and grades 5–12 world history.

Endorsements available outside the major subject area can be another of the subject areas previously listed, one of the following added endorsements, or both: grades 5–12 social sciences, basic (recommended for all students; authorizes teaching of American government, American history, and world history); and grades 5–12 all social sciences (authorizes teaching economics, geography, psychology, and sociology, in addition to American government, American history, and world history. Consult with advisor on course selection).

Added endorsement programs for additional teaching areas other than social studies are available.

Teacher Education Program Academic and Professional Standards

State of Iowa teacher preparation standards require that teacher candidates demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all students learn. Because of this, the College of Education and the Teacher Education Program have established academic and professional standards that students must maintain. For undergraduate teacher candidates and Bachelor of Arts candidates in social studies education, these standards include the following.

- University of Iowa cumulative GPA and overall cumulative GPA, based on total hours earned
  - 0–29 overall earned semester hours: minimum of 1.85 (2.70 for good standing)
  - 30 or more overall earned semester hours: minimum of 2.00 (2.70 for good standing)
  - Non-degree students: minimum of 2.00 (2.70 for good standing)
- TEP major GPA (overall cumulative): minimum of 2.00 (2.70 for good standing)
- University of Iowa term GPA: minimum of 1.50 during fall or spring enrollment
- A grade of C-minus or higher in TEP major courses
- No notices of concern in professional dispositional qualities
- Academic good standing in the College of Liberal Arts and Sciences
- Major GPA in the TEP CLAS content major: minimum of 2.00
- UI major GPA in the TEP CLAS content major: minimum of 2.00

For additional information about these standards, contact the Office of Student Services.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

i Please see the College of Education website for detailed application instructions and deadlines. Admission is selective and a priority deadline exists.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

World Language Education, BA

Requirements

The Bachelor of Arts with a major in world language education requires a minimum of 120 s.h., including the general education requirements for the degree, a minimum of 48 s.h. in world language professional education courses and 30–36 s.h. in world language education content courses. General education requirements to earn a bachelor of arts degree from the College of Education are the GE CLAS Core of the College of Liberal Arts and Sciences (CLAS). The major requires admission to the Teacher Education Program (TEP) and students must maintain TEP academic and professional standards. Application information can be obtained through the Office of Student Services.

In order to earn the BA in world language education from the College of Education, students must earn one of these majors of the College of Liberal Arts and Sciences: a BA in Asian languages and literature [p. 688] with a Chinese or Japanese subprogram, a BA in French [p. 693], a BA in German [p. 698], a BA in Italian [p. 715], a BA in Russian [p. 722], a BA in Spanish [p. 1053], or a BA in classical languages [p. 229] with a Latin language emphasis; both degrees may be earned at the same time. Graduates who have earned one of these degrees at another institution and wish to earn the BA in world language education should consult the Department of Teaching and Learning; additional coursework may be required.

For initial licensure, student teaching must be an all-day, full-semester experience. Most students are placed in a district within a 60-mile radius of Iowa City. Placements outside this area require special approval and are considered on an individual basis. Special site programs provide experience in districts with diverse populations and students may also apply to student teach at international sites for the second half of the semester.

Additional information about options for student teaching and application procedures is available from the Office of Student Services. Applications for student teaching must be submitted during the calendar year before the student teaching semester. The deadline for students planning to student teach the following fall semester is Nov. 15 and April 15 for the following spring semester.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

The BA with a major in world language education requires the following work.

Professional Education Course Requirements

Students complete at least 48 s.h. from the following.

Foundation Courses

Foundation courses may be completed before or after admission to the major.

Course #	Title	Hours
All of these:		
EDTL:4900	Foundations of Special Education	3
EPLS:3000	Foundations of Education	3
PSQF:1075	Educational Psychology and Measurement	3

Additional Licensure Courses

Course #	Title	Hours
All of these:		
EDTL:3002	Teaching and Learning Technologies	2
EDTL:3091	Secondary Education Program Orientation and Classroom Management	3
EDTL:3095	Teaching Reading in Secondary Content Areas	1
EDTL:4406	World Language Practicum I	3
EDTL:4407	World Language Practicum II	3
EDTL:4410	Language, Power, and Multilingual Education	3
EDTL:4416	Learning to Teach Second Languages I	3
EDTL:4417	Learning to Teach Second Languages II	3
EPLS:4180	Human Relations for the Classroom Teacher	3

Student Teaching

Transfer students should consult their advisor since they must complete certain courses before they student teach.

Course #	Title	Hours
All of these:		
EDTL:4087	Seminar: Curriculum and Student Teaching	3
EDTL:4091	Observation and Laboratory Practice in the Secondary School	6
EDTL:4092	Observation and Laboratory Practice in the Secondary School	6
Optional course:		
EDTL:4089	Special Subject Area Student Teaching	arr.

Mathematics Course

State standards for teacher preparation require a college-level math course as part of the liberal arts core. Students can meet this requirement by selecting a course in mathematics, statistics, or computer science for the Quantitative or Formal Reasoning requirement of the GE CLAS Core. Contact College of Education Academic Advising with questions.

Course #	Title	Hours
One of these:		
CS:1110	Introduction to Computer Science	3
CS:1210	Computer Science I: Fundamentals	4
STAT:1010	Statistics and Society	3

STAT:1020	Elementary Statistics and Inference	3
STAT:1030	Statistics for Business	4
Any mathematics course (prefix MATH), except MATH:0100, MATH:1005, or MATH:1210		

World Language Education Content Courses

Students complete 30–36 s.h. in an approved College of Liberal Arts and Sciences world language major.

Endorsements

The world language education TEP is approved by the state of Iowa as preparation for teaching licensure with endorsement to teach a world language (Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) in grades 5–12. The world language education TEP requires 30–36 s.h. in world language education content courses (courses in the language the student is preparing to teach), which generally are provided by the College of Liberal Arts and Sciences major in the language. Endorsement in the language for kindergarten through grade 8 may be available for students with elementary-level student teaching. Endorsement programs for additional teaching areas other than world languages are available, including English as a Second Language.

Teacher Education Program Academic and Professional Standards

State of Iowa teacher preparation standards require that teacher candidates demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all students learn. Because of this, the College of Education and the Teacher Education Program have established academic and professional standards that students must maintain. For undergraduate teacher candidates and Bachelor of Arts candidates in world language education, these standards include the following.

- University of Iowa cumulative GPA and overall cumulative GPA, based on total hours earned
  - 0–29 overall earned semester hours: minimum of 1.85 (2.70 for good standing)
  - 30 or more overall earned semester hours: minimum of 2.00 (2.70 for good standing)
  - Non-degree students: minimum of 2.00 (2.70 for good standing)
- TEP major GPA (overall cumulative): minimum of 2.00 (2.70 for good standing)
- University of Iowa term GPA: minimum of 1.50 during fall or spring enrollment
- A grade of C-minus or higher in TEP major courses
- No notices of concern in professional dispositional qualities
- Academic good standing in the College of Liberal Arts and Sciences
- Major GPA in the TEP CLAS content major: minimum of 2.00
- UI major GPA in the TEP CLAS content major: minimum of 2.00

For additional information about these standards, contact the Office of Student Services.

Academic Plans

Sample Plan of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

GE CLAS Core: World Languages Fourth Level Proficiency [d]		4 - 5
Course(s) required for second degree - consult sample plan for chosen program [a]		3
Admission Application: apply to the Teacher Education Program [g]		
	Hours	**17-18**
Third Year		
Fall		
EDTL:3002	Teaching and Learning Technologies	2
EDTL:3091	Secondary Education Program Orientation and Classroom Management	3
EDTL:3095	Teaching Reading in Secondary Content Areas	1
EDTL:4410	Language, Power, and Multilingual Education	3
GE CLAS Core: Natural Sciences without Lab [c]		3
Course(s) required for second degree - consult sample plan for chosen program [a]		6
	Hours	**18**
Spring		
EDTL:4407	World Language Practicum II [h]	3
EDTL:4417	Learning to Teach Second Languages II [h]	3
EPLS:4180	Human Relations for the Classroom Teacher	3
Course(s) required for second degree - consult sample plan for chosen program [a]		9
Apply for student teaching (see the College of Education website for application instructions and deadlines)		
	Hours	**18**
Fourth Year		
Fall		
EDTL:4406	World Language Practicum I [i]	3
EDTL:4416	Learning to Teach Second Languages I [i]	3
Course(s) required for second degree - consult sample plan for chosen program [a]		12
	Hours	**18**
Spring		
EDTL:4087	Seminar: Curriculum and Student Teaching	3
EDTL:4091	Observation and Laboratory Practice in the Secondary School	6
EDTL:4092	Observation and Laboratory Practice in the Secondary School	6
Degree Application: Degree Application: apply on MyUI before deadline (typically in February for spring, September for fall) [j]		
	Hours	**15**
	Total Hours	**129-135**

a Approved majors for the second degree include a BA in Asian languages and literature with a Chinese or Japanese subprogram, a BA in French, a BA in German, a BA in Italian, a BA in Russian, a BA in Spanish, or a BA in classical languages with a Latin language emphasis.

b Sustainability must be completed by choosing a course that has been approved for Sustainability AND for one of these General Education areas: Natural Sciences; Quantitative or Formal Reasoning; Social Sciences; Historical Perspectives; International and Global Issues; Literary, Visual, and Performing Arts; or Values and Society.

c GE CLAS Core courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.

d Students who have completed four levels of a single language or two levels of two different languages in high school or college have satisfied the GE CLAS Core World Languages requirement. Students who have completed three levels of a single language may complete a fourth-level course in the same language or may choose an approved World Language and Cultural Exploration course. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. Contact your academic advisor or CLAS Undergraduate Programs Office with questions concerning the World Languages requirement.

e Complete the College of Education 10-hour pre-admission school field experience verification form available on the Teacher Education Program web page.

f Choose a course that will satisfy the Teacher Education Program math requirement.

g Please see the College of Education website for detailed application instructions and deadlines. Admission is selective and a priority deadline exists.

h Typically this course is offered in spring semesters only. Check MyUI for course availability since offerings are subject to change.

i Typically this course is offered in fall semesters only. Check MyUI for course availability since offerings are subject to change.

j Please see Academic Calendar, on Office of the Registrar website, for current degree application deadlines. Students should apply for a degree for the session in which all requirements will be met. For any questions on appropriate timing, contact your academic advisor or Degree Services.

Science Studies, BS

Science studies provides preparation in more than one discipline of science; a consideration of science from a philosophical, historical, and sociological perspective; an introduction to applied science (technology); and an education sequence.

Program planning in science studies requires the cooperation and involvement of a variety of university departments and colleges. Most of the program's requirements are drawn from courses offered by these varied academic units.

Programs designed to lead to professional licensure are subject to federal regulations regarding informational disclosures. Please see Professional Licensure Disclosures by Program for further information.

Learning Outcomes

Students who major in science studies gain:

- knowledge in two or more areas of science;
- a specified proficiency in mathematics as a tool of science (with more mathematics study required for the physical science emphases than for the biological ones);
- a view of science from a historical, philosophical, and cultural perspective; and
- experience with the application of scientific knowledge.

Research

Each faculty member in science studies is responsible for one or more areas of research. Major interests include studies of effective teaching and learning, science through writing, philosophy and sociology of science, individualized learning, social issues in science and technology, curriculum planning and development, professional development, intellectual development related to teaching and learning science, studies of effective use of hands-on activities, and evaluation and assessment of science instruction and programs.

Programs and Projects

A wide range of funded programs provides ample opportunity for students to be involved in innovative development and research in science studies.

Science studies faculty members collaborate on a number of international research projects in many countries. Activities include faculty exchanges and cross-national studies.

International students enrich the opportunities for graduate studies in science studies. New international collaborative efforts are underway each year.

Requirements

The Bachelor of Science with a major in science studies (awarded by the College of Liberal Arts and Sciences) requires a minimum of 120 s.h., including at least 48 s.h. of work for the major. Students must maintain a grade-point average of at least 2.00 in all courses for the major and in all UI courses for the major. They must also complete the College of Liberal Arts and Sciences GE CLAS Core [p. 22].

The major in science studies is interdisciplinary. It is intended for students interested in education; it is not intended to prepare students for advanced study in one area of science. When graduates of the science studies program elect to pursue graduate study in a specific area of science, they often must complete additional coursework in that discipline after they are admitted to the Graduate College.

The science studies curriculum includes courses offered by science departments in the College of Liberal Arts and Sciences, science applications courses, and courses in the history, philosophy, and sociology of science.

The major offers five emphasis areas: all-science, biology, chemistry, earth science, and physics. The all-science emphasis area is open only to students who will earn teacher licensure and would like equal preparation in biology, chemistry, earth science, and physics. Students who choose the all-science emphasis area do not choose a secondary emphasis area. They must complete all requirements for teacher licensure in order to graduate in the all-science emphasis area.

Students who do not choose the all-science emphasis area may elect whether or not to earn teacher licensure. They choose a primary and a secondary emphasis area from biology, chemistry, earth science, and physics, acquiring depth in the primary emphasis area equivalent to six semesters of sequential study and preparation in the secondary area equivalent to four semesters of sequential study.

All science studies students must complete the requirements for their emphasis area(s) plus the broad field science block. Those who wish to earn teacher licensure must also complete the College of Education's Teacher Education Program (TEP), including the 47 s.h. professional education sequence; see the section titled "Teacher Licensure."

Special Rules

The Science Studies Program may involve many faculty advisors and more than one college or department. Consequently, the following special rules apply to science studies students.

- At least 10 s.h. of graded credit in science must be earned at the University of Iowa.
- No credit from the CLEP Natural Science General Examination may be applied toward the major in science studies.
- Courses for the major may not be taken pass/nonpass. Grades from all courses applied toward the science studies major are used in computing a student's grade-point average in the major, both at the University of Iowa and overall.

Since mathematics forms an integral part of so many aspects of modern science, all-science emphasis area education students are urged to complete appropriate advanced courses in both pure and applied mathematics (including statistics and computer science) so that they may be qualified to do graduate work and quantitative research later.

The BS with a major in science studies requires the following coursework.

All-Science Emphasis Area

Students who choose the all-science emphasis area do not choose a secondary emphasis area. They complete a minimum of 48 s.h. for the major, including at least 36 s.h. in the following coursework (at least 9 s.h. in each of the four science disciplines—biology, chemistry, earth science, and physics), and 12 s.h. in the broad field science block. They

must also complete all requirements for teacher licensure (see the section titled "Teacher Licensure").

Biology

Course #	Title	Hours
At least 9 s.h. from these:		
BIOL:1411	Foundations of Biology	4
BIOL:1412	Diversity of Form and Function	4
BIOL:2211	Genes, Genomes, and the Human Condition	3
BIOL:2673	Ecology	3
BIOL:3172	Evolution	4
HHP:3500	Human Physiology	3

Chemistry

Course #	Title	Hours
At least 9 s.h. from these:		
CHEM:1110	Principles of Chemistry I	4
CHEM:1120	Principles of Chemistry II	4
CHEM:2021	Fundamentals of Chemical Measurements	3
CHEM:2210	Organic Chemistry I	3
CHEM:2220	Organic Chemistry II	3

Earth Science

Course #	Title	Hours
At least 9 s.h. from these:		
SEES:1030	Introduction to Earth Science	3-4
SEES:1040	Evolution and the History of Life	3-4
SEES:1050	Introduction to Geology	4
SEES:1080	Introduction to Environmental Science	3-4
SEES:3070	Marine Ecosystems and Conservation	3

Physics

At least 9 s.h. chosen as follows.

Course #	Title	Hours
At least one of these:		
ASTR:1070	Stars, Galaxies, and the Universe	3-4
PHYS:1200	Physics of Everyday Experience	3
No more than one of these:		
PHYS:1511	College Physics I	4
PHYS:1611	Introductory Physics I	4
PHYS:1701	Physics I	4
No more than one of these:		
PHYS:1512	College Physics II	4
PHYS:1612	Introductory Physics II	4
PHYS:1702	Physics II	4

Broad Field Science Block

Students complete 12 s.h. from the following.

Course #	Title	Hours
This course:		
SIED:4135	The Nature of Science	4
At least two of these:		
SIED:4102	Societal and Educational Applications of Earth Science and Environmental	4
SIED:4103	Societal and Educational Applications of Biological Sciences	4
SIED:4105	Societal and Educational Applications of Physical Sciences	4
SIED:4106	Societal and Educational Applications of Chemical Concepts	4
SIED:4110	Exploring the Geology, Mining History, and Environmental Issues of the Colorado Rockies	4

Biology Emphasis Area

Students who choose biology as their primary emphasis area complete a minimum of 50 s.h. for the major, including 25 s.h. in the following biology coursework plus at least 15 s.h. in a secondary emphasis area (chemistry, earth science, or physics) and 12 s.h. in the broad field science block. With their advisor's permission, students may include a science applications course in their secondary emphasis area.

Course #	Title	Hours
All of these:		
BIOL:1411 & BIOL:1412	Foundations of Biology and Diversity of Form and Function	8
BIOL:2512	Fundamental Genetics	4
BIOL:3172	Evolution	4
One of these:		
BIOL:2374	Biogeography	3
BIOL:2673	Ecology	3
One of these:		
BIOL:3343	Animal Physiology	3
HHP:3500	Human Physiology	3
One of these:		
BIOL:2723	Cell Biology	3
BIOL:3233	Introduction to Developmental Biology	3
BIOL:3363	Plant Developmental Biology	3
BMB:3110	Biochemistry	3
And all of these:		
Coursework in a secondary emphasis area (chemistry, earth science, or physics)		15
Coursework listed under "Broad Field Science Block-Biology Emphasis Area"		12

Broad Field Science Block—Biology Emphasis Area

Students complete 12 s.h. from the following.

Course #	Title	Hours
This course:		
SIED:4135	The Nature of Science	4

At least two of these:		
SIED:4102	Societal and Educational Applications of Earth Science and Environmental	4
SIED:4103	Societal and Educational Applications of Biological Sciences	4
SIED:4105	Societal and Educational Applications of Physical Sciences	4
SIED:4106	Societal and Educational Applications of Chemical Concepts	4
SIED:4110	Exploring the Geology, Mining History, and Environmental Issues of the Colorado Rockies	4

Chemistry Emphasis Area

Students who choose chemistry as their primary emphasis area complete a minimum of 50 s.h. for the major, including 23 s.h. in the following chemistry coursework plus at least 15 s.h. in a secondary emphasis area (biology, earth science, or physics) and 12 s.h. in the broad field science block. With their advisor's permission, students may include a science applications course in their secondary emphasis area.

Course #	Title	Hours
All of these:		
CHEM:1110 & CHEM:1120	Principles of Chemistry I and Principles of Chemistry II	8
CHEM:2210	Organic Chemistry I	3
CHEM:2220	Organic Chemistry II	3
CHEM:2410	Organic Chemistry Laboratory	3
CHEM:3250	Inorganic Chemistry (spring)	3
One of these:		
BMB:3110	Biochemistry	3
CHEM:3110	Equilibria and Electrochemistry	3
CHEM:4431	Chemical Thermodynamics	3
And all of these:		
Coursework in a secondary emphasis area (biology, earth science, or physics)		15
Coursework listed under "Broad Field Science Block- Chemistry Emphasis Area"		12

Broad Field Science Block—Chemistry Emphasis Area

Students complete 12 s.h. from the following.

Course #	Title	Hours
This course:		
SIED:4135	The Nature of Science	4
At least two of these:		
SIED:4102	Societal and Educational Applications of Earth Science and Environmental	4
SIED:4103	Societal and Educational Applications of Biological Sciences	4
SIED:4105	Societal and Educational Applications of Physical Sciences	4
SIED:4106	Societal and Educational Applications of Chemical Concepts	4
SIED:4110	Exploring the Geology, Mining History, and Environmental Issues of the Colorado Rockies	4

Earth Science Emphasis Area

Students who choose earth science as their primary emphasis area complete a minimum of 48 s.h. for the major, including at least 21 s.h. in the following earth science coursework plus at least 15 s.h. in a secondary emphasis area (biology, chemistry, or physics) and 12 s.h. in the broad field science block. With their advisor's permission, students may include a science applications course in their secondary emphasis area.

Course #	Title	Hours
Both of these:		
SEES:1040	Evolution and the History of Life	3-4
SEES:1080	Introduction to Environmental Science	3-4
One of these:		
SEES:1030	Introduction to Earth Science	3-4
SEES:1050	Introduction to Geology	4
One of these:		
SEES:2831	Geologic Field Methods	3
SEES:3330	Sedimentary Geology	4
SEES:3840	Structural Geology	4
One of these:		
SEES:3020	Earth Surface Processes	3
SEES:3210	Principles of Paleontology	3
SEES:3360	Soil Genesis and Geomorphology	3
One of these:		
SEES:1290	Energy and the Environment	3
SEES:4010	Field Methods in Physical Geography	3
One of these:		
SEES:3070	Marine Ecosystems and Conservation	3
SEES:3080	Introduction to Oceanography	2
And all of these:		
Coursework in a secondary emphasis area (biology, chemistry, or physics)		15
Coursework listed under "Broad Field Science Block-Earth Science Emphasis Area"		12

Broad Field Science Block—Earth Science Emphasis Area

Students complete 12 s.h. from the following.

Course #	Title	Hours
This course:		
SIED:4135	The Nature of Science	4
At least two of these:		

SIED:4102	Societal and Educational Applications of Earth Science and Environmental	4
SIED:4103	Societal and Educational Applications of Biological Sciences	4
SIED:4105	Societal and Educational Applications of Physical Sciences	4
SIED:4106	Societal and Educational Applications of Chemical Concepts	4
SIED:4110	Exploring the Geology, Mining History, and Environmental Issues of the Colorado Rockies	4

Physics Emphasis Area

Students who choose physics as their primary emphasis area complete a minimum of 47 s.h. for the major, including at least 20 s.h. in the following physics coursework plus at least 15 s.h. in a secondary emphasis area (biology, chemistry, or earth science) and 12 s.h. in the broad field science block. With their advisor's permission, students may include a science applications course in their secondary emphasis area.

Course #	Title	Hours
One of these sequences:		
PHYS:1511 & PHYS:1512	College Physics I and College Physics II (if physics is a secondary emphasis area)	8
PHYS:1611 & PHYS:1612	Introductory Physics I and Introductory Physics II	8
PHYS:1701 & PHYS:1702	Physics I and Physics II	8
One of these:		
PHYS:2703	Physics III	4
PHYS:3710	Intermediate Mechanics	3
One of these:		
ASTR:1070	Stars, Galaxies, and the Universe (if physics is a secondary emphasis area)	3-4
ASTR:1080	Exploration of the Solar System (if physics is a secondary emphasis area)	4
ASTR:1771	Fundamental Astronomy I: The Solar System and Exoplanets	4
One of these:		
PHYS:3811	Electricity and Magnetism I	3
PHYS:3850	Electronics	4
This course:		
PHYS:1200	Physics of Everyday Experience	3
And all of these:		
Coursework in a secondary emphasis area (biology, chemistry, or earth science)		15
Coursework listed under "Broad Field Science Block-Physics Emphasis Area"		12

Broad Field Science Block—Physics Emphasis Area

Students complete 12 s.h. from the following.

Course #	Title	Hours
This course:		
SIED:4135	The Nature of Science	4
At least two of these:		
SIED:4102	Societal and Educational Applications of Earth Science and Environmental	4
SIED:4103	Societal and Educational Applications of Biological Sciences	4
SIED:4105	Societal and Educational Applications of Physical Sciences	4
SIED:4106	Societal and Educational Applications of Chemical Concepts	4
SIED:4110	Exploring the Geology, Mining History, and Environmental Issues of the Colorado Rockies	4

Teacher Licensure

Students interested in teaching in elementary and/or secondary schools should seek admission to the Teacher Education Program (TEP) in the College of Education.

To qualify for licensure in secondary teaching, students in the TEP complete a degree in education as well as a related College of Liberal Arts and Sciences degree. See Apply on the College of Education website for details on requirements and deadlines for applying to the College of Education and about TEP choices of majors leading to licensure.

Honors

Honors in the Major

The science studies program offers outstanding students the opportunity to graduate with honors in the major. Honors students must maintain a cumulative University of Iowa grade-point average of at least 3.33 and fulfill other requirements; contact the Science Education program for more information about graduating with honors in the science studies major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the university's honors program.

Membership in the UI Honors Program is not required to earn honors in the science studies major.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to students majoring in science studies.

Sample Plans of Study

Sample plans represent one way to complete a program of study. Actual course selection and sequence will vary and should be discussed with an academic advisor. For additional sample plans, see MyUI.

Science Studies, BS

- Biology Emphasis [p. 1481]
- Chemistry Emphasis [p. 1482]
- Earth Science Emphasis [p. 1483]
- Physics Emphasis [p. 1484]
